Title 19, Chapter 4, Article 2, Fantasy Sports

Summary

This One-Year Review Report (1YRR) from the Arizona Department of Gaming (Department) relates to Title 19, Chapter 4, Article 2 regarding Fantasy Sports. Amendments to these rules were adopted in an exempt rulemaking pursuant to A.R.S. §§ 5-1201 through 5-1213 and Sec. 7 of HB2772 which granted the Department a one-time exemption from the Administrative Procedures Act (APA) in Title 41, Chapter 6 of the Arizona Revised Statutes. A copy of the Notice of Exempt Rulemaking is included with the final materials for the Council's reference.

This rule establishes the Fantasy Sports Contest Fund created for the regulation and enforcement of fantasy sports in Arizona.

The Department submitted this 1YRR pursuant to A.R.S. § 41-1095.

1. Has the agency analyzed whether the rules are authorized by statute?

Yes. The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states that pursuant to A.R.S. § 5-1212, the Fantasy Sports Contest Fund is established. The Department states that the rules, authorized by statute, set the privilege fee rate as well as the business and employee license fees. The Department indicates that the rules create classifications of business licensing which allows for ease of access to the supplier market for small businesses and local/regional vendors.

The Department believes that, most importantly, the rules bring a regulated sports betting market to the citizens of Arizona. Further, with consumer protection clearly outlined, bettors can feel comfortable knowing they are depositing money, placing wagers, and requesting monetary withdrawal with operators regulated by the Arizona Department of Gaming. Stakeholders include the Department and operators regulated by the Arizona Department of Gaming.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states the Fantasy Sports Contest Fund is established by statute. The appropriated fund allocated \$145,000 per annum for the regulation and enforcement of fantasy sports in Arizona. Further, In-State Entry Fees generated for fantasy sports through June 2022 in the amount of \$30,589,161 and privilege fees were collected in the amount of \$179,390.

4. Has the agency received any written criticisms of the rules since the rule was adopted?

No, the Department has not received any written criticisms of the rules since the rule was adopted.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

Yes, the Department indicates the rules are overall clear, concise, and understandable.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

Yes, the Department indicates the rules are consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

Yes, the Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

Yes, the Department indicates the rules are enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Professional and Amateur Sports Protection Act of 1992 was struck down the the Supreme Court on May 14, 2018, allowing individual states to determine whether to and how to legalize sports betting.

10. Has the agency completed any additional process required by law?

No additional process was required.

11. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Yes, the Department’s licensing rules comply with A.R.S. § 41-1037, except where the following occurs:

R19-4-205 fall within the allowable exceptions to A.R.S. § 41- 1037(A)(2), which states, “the issuance of an alternative type of permit, license, or authorization is specifically authorized by state statute”, and (3) which states, “the issuance of a general permit is not technically feasible or would not meet the applicable statutory requirements.”

12. Conclusion

Council staff finds that the Board submitted an adequate report pursuant to A.R.S. § 41-1095. The Department is not proposing any additional action, but requests placement on the five year review timeline moving forward as any further rulemaking revisions will comply with all regular rulemaking requirements. For this reason, Council staff recommends approval of the report.

3. **Are the rules effective in achieving their objective?** YES NO
4. **Are the rules consistent with other rules and statutes?** YES NO
5. **Are the rules enforced as written?** YES NO
6. **Are the rules clear, concise, and understandable?** YES NO
7. **Has the agency received written criticisms of the rules within the last year?**
YES NO

Pursuant to Laws 2021, Chapter 234-E, The Department was provided a rulemaking exemption that expired on April 15, 2022, one year from the date of the emergency enactment of the bill. The Department solicited written feedback from stakeholders, took the feedback into account when revising rules, and submitted changes to the rules to the Secretary of State for publication on April 14, 2022.

8. **Economic, small business, and consumer impact comparison**

There will be substantial economic benefit from the growth of regulated fantasy sports contests. These rules, authorized by statute, set the privilege fee rate as well as the business and employee license fees. Combined Event Wagering and Fantasy Sports fees will bring revenues to the State of Arizona in the range of \$12-\$17M per annum. Additionally, these newly regulated activities have created between 100-200 jobs statewide. Fantasy Sports Privilege fees were collected in the amount of \$170,390 for the state's fiscal year ending 6/30/2022.

The rules create classifications of business licensing which allow for ease of access to the supplier market for small businesses and local/regional vendors. The costs for entry into the supplier market have been set conservatively with minimally invasive backgrounding based on the requirements of the statute. The costs for entry into the operator market have been set moderately, in-line with other fantasy sports contest jurisdictions, to allow for the creation of revenue for the State of Arizona.

Most importantly, the rules helped bring a regulated sports betting market to the citizens of Arizona. With consumer protection rules clearly outlined, bettors can feel comfortable knowing they are depositing money, placing wagers, and requesting monetary withdrawal with operators regulated by the Arizona Department of Gaming.

9. **Has the agency received any business competitiveness analyses of the rules?**

YES _____ NO ✓

10. **Has the agency completed the course of action indicated in the agency’s previous one-year-review report?** YES ___ NO ✓

N/A. This is our first one year review report.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

Pursuant to A.R.S. § 5-1212, the Fantasy Sports Contest Fund is established. The appropriated fund allocated \$145,000 per annum for the regulation and enforcement of fantasy sports in Arizona. In-State Entry Fees generated for fantasy sports through June 2022 in the amount of \$30,589,161 and privilege fees were collected in the amount of \$170,390.

12. **Are the rules more stringent than corresponding federal laws**

YES ___ NO ✓

The Professional and Amateur Sports Protection Act (“PASPA”), enacted by Congress in 1992, was struck down by the United States Supreme Court on May 14, 2018. This ruling cleared the way for individual states to determine whether to and how to legalize sports betting and fantasy sports.

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S § 41-1037 or explain why the agency believes an exception applies:**

R19-4-205 provides procedures for licensing and states that every applicant for a license shall submit a complete application in the form prescribed by the Department, which shall include all information and documentation required by the Department, along with the non-refundable initial license fee.

This rule is authorized under A.R.S. § 5-1202(E) - (J), which also specifically provides licensing parameters, requirements, durations, and so forth. A.R.S. § 41-1037(A)(2) states, “The issuance of an alternative type of permit, license or authorization is specifically authorized by state statute.” The licenses required for Fantasy Sports Contests under the authorizing statute (A.R.S. § 5-1202) and regulations (R19-4-205) above fall into the exemption as being “specifically authorized by state statute”.

14. **Proposed course of action:**

No additional course of action; however, the Department requests that the Governor’s Regulatory Review Council place these rules on a 5 year review timeline going forward, as any further rulemaking revisions will comply with all regular rulemaking requirements.

SUBJECT: **ARIZONA MEDICAL BOARD**
Title 4, Chapter 16, Article 2

Summary

This One-Year Review Report (1YRR) from the Arizona Medical Board (Board) relates to rules in Title 4, Chapter 16, Article 2 regarding fees and charges for licensure. These rules were amended under an exemption provided by Laws 2021, Ch. 320, § 24, an emergency measure that was created to expand the availability of telehealth services in order to meet the health care needs of Arizonans. In a rulemaking that went into effect on September 22, 2021, the Board established the fee for out-of-state health care providers to register to provide telehealth services in Arizona. In this rulemaking, the Board also amended the time frame table to include the applicable time frames for registration as an out-of-state health care provider of telehealth services.

The Board submitted this 1YRR pursuant to A.R.S. § 41-1095.

1. Has the agency analyzed whether the rules are authorized by statute?

Yes, the Board cites both general and specific statutory authority for these rules.

2. **Summary of the agency's economic impact comparison and identification of stakeholders:**

Because Laws 2021, Chapter 320, Sec. 24 exempted the Board from complying with A.R.S. Title 41, Chapter 6, the Board did not prepare an economic, small business, and consumer impact statement at the time that the rulemaking was completed. In the 11 months since the rule went into effect, the Board has received 25 applications to register as an out-of-state provider of telehealth services. The Board approved 22 of these applications. One application was not approved because the applicant did not have an active license in another jurisdiction. Two other applications were not approved due to pending receipt of required documentation.

Under R4-16-205(B), the 25 applicants each paid \$500 for registration. As a result, under A.R.S. § 32-1406, the Board deposited \$1,250 into the state's general fund and \$11,250 into the Arizona Medical Board fund.

For all applications received, the Board acted within the time frames specified in Table 1.

Stakeholders include the Board and out-of-state providers of telehealth that would like to provide their services in Arizona.

3. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Board indicates that when the legislature enacted A.R.S. § 36-3606, the legislature determined that the benefits of allowing out-of-state providers to register to provide telehealth services outweighed the costs to the state.

The only authority provided to the Board under A.R.S. § 36-3606 is to establish a one-time-only registration fee. For this one-time fee, the Board is required to evaluate the information submitted by an out-of-state provider, supervise compliance for as long as the provider chooses to provide telehealth services to Arizona residents, and receive and evaluate annual updates from the provider. Based on the legislature's cost-benefit determination and the limited authority provided under A.R.S. § 36-3606, the Board concludes that the benefits of the rule outweigh the costs.

The time frames listed in Table 1 run against the Board. These time frames do not regulate out-of-state health care providers.

4. **Has the agency received any written criticisms of the rules since the rule was adopted?**

No, the Board has not received any written criticisms of the rules since the rule was adopted.

5. **Has the agency analyzed the rules' clarity, conciseness, and understandability?**

Yes, the Board indicates that the rules are clear, concise, and understandable.

6. **Has the agency analyzed the rules' consistency with other rules and statutes?**

Yes, the Board indicates that the rules are consistent with other rules and statutes.

7. **Has the agency analyzed the rules' effectiveness in achieving its objectives?**

Yes, the Board indicates that the rules are effective in achieving their objectives.

8. **Has the agency analyzed the current enforcement status of the rules?**

Yes, the Board states that the rules are enforced as written.

9. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

No, the Board indicates that the rules are not more stringent than corresponding federal law.

10. **Has the agency completed any additional process required by law?**

Not applicable; no additional process is required.

11. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

No, the rules do not require the issuance of a permit or license. R4-16-205 and Table 1 only specify the required fee.

12. **Conclusion**

Council staff finds that the Board submitted an adequate report pursuant to A.R.S. § 41-1095. Council staff recommends approval of this report.

ONE-YEAR-REVIEW REPORT
TITLE 4. PROFESSIONS AND OCCUPATIONS
CHAPTER 16. ARIZONA MEDICAL BOARD
Submitted for November 1, 2022

INTRODUCTION

The legislature enacted Laws 2021, Chapter 320, as an emergency measure to expand use of telehealth in meeting the health-care needs of Arizonans. The statute (A.R.S. § 36-3606) included a provision allowing a health care provider not licensed in this state to provide telehealth services to individuals in Arizona if the out-of-state health care provider registered with Arizona’s applicable regulatory board and paid a fee specified by the regulatory board. The Board established the fee for an out-of-state health care provider to register to provide telehealth services in Arizona in a rulemaking that went into effect on September 22, 2021. The Board also amended the Board’s time frame table to include the new registration.

As required under A.R.S. § 41-1095(A), this report focuses on the Board’s review of R4-16-205 and Table 1, the two provisions amended under the exemption provided by Laws 2021, Chapter 320, Sec. 24.

Statute that generally authorizes the agency to make rules: A.R.S. § 32-1403(A)(8)

1. Specific statute authorizing the rule: A.R.S. §§ 36-3606(A)(3) and 41-1073

2. Objective of the rule:

R4-16-205. Fees and Charges: The objective of this rule is to establish the fees the Board charges for the licenses, certificates, and registrations it issues.

Table 1. Time Frames: The objective of this rule is to provide notice of the amount of time the Board requires to act of an application.

3. Is the rule effective in achieving its objective? Yes

4. Were there written criticisms of the rule, including written analyses questioning whether the rule is based on valid scientific or reliable principles or methods? No
5. Is the rule consistent with other rules and statutes? Yes
6. Is the rule enforced as written? Yes
7. Is the rule clear, concise, and understandable? Yes

8. Estimated economic, small business, and consumer impact of the rule:

Because Laws 2021, Chapter 320, Sec. 24, exempted the Board from complying with A.R.S. Title 41, Chapter 6, the Board did not prepare an economic, small business, and consumer impact statement when the rulemaking was done. In the 11 months since the rule went into effect, the Board has received 25 applications to register as an out-of-state provider of medical services by telehealth. The Board has approved 22 of the registrations. One application was not approved because the applicant did not have an active license in another jurisdiction. The remaining two applications are pending receipt of required documentation

Under R4-16-205(B), the 25 applicants paid \$500 each to register. This means that under A.R.S. § 32-1406, the Board deposited \$1,250 into the state’s general fund and \$11,250 into the Arizona Medical Board fund.

The Board acted within the time frames specified in Table 1 for all the applications.

9. Has the agency received any business competitiveness analyses of the rule? No
10. If applicable, whether the agency completed additional processes required by law: NA

11. A determination after analysis that the probable benefits of the rule outweigh within this state the probable costs of the rule and the rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective:

When the legislature enacted A.R.S. § 36-3606, the legislature determined the benefits from allowing registration of out-of-state providers to practice medicine by telehealth outweigh the costs to the state.

The legislature established the paperwork cost when it specified the content of an application that must be submitted and established multiple compliance requirements at A.R.S. § 36-3606(A)(2) through (A)(9), (B), and (C). In establishing these paperwork and compliance requirements, the legislature determined the requirements imposed the least burden and costs on out-of-state providers practicing medicine by telehealth necessary to achieve the underlying regulatory objective.

The only authority provided to the Board under A.R.S. § 36-3606 is to establish a one-time-only registration fee. The fee is the only compliance cost established by the Board in the reviewed rules. For this one-time fee, the Board is required to evaluate the application information submitted by the out-of-state provider, supervise compliance for as long as the out-of-state provider may choose to provide telehealth services to residents of Arizona, and receive and evaluate an annual update from the out-of-state provider. The legislature did not authorize the Board to establish a fee for the annual renewal of the registration by an out-of-state provider of telehealth services.

The rules reviewed for this report comply with the minimal authority the legislature provided to the Board. R4-16-205 establishes the fee the Board charges for an out-of-state health care provider to register to provide telehealth services in Arizona. In establishing the fee amount, the Board assumed registered out-of-state providers would maintain their telehealth registrations because the only cost to the out-of-state providers is to submit a renewal registration form. The Board is required to supervise compliance of the out-of-state providers and process the annual registration forms without authority to charge a renewal fee. Because this is the only authority provided to the Board and because the legislature determined there is benefit in allowing out-of-state providers of services by telehealth to register to provide the services in Arizona, the Board concludes the benefits of the rule outweigh the costs.

The time frames listed in Table 1 run against the Board. The time frames do not regulate out-of-state health care providers.

12. Is the rule more stringent than corresponding federal laws? No

13. For a rule that requires issuance of a regulatory permit, license, or agency authorization, whether the rule complies with A.R.S. § 41-1037:

Neither R4-16-205 nor Table 1 requires issuance of a permit, license, or other authorization. The requirements for registration are established in statute. The rule simply specifies the fee required.

41-1073. Time frames: exception

A. No later than December 31, 1998, an agency that issues licenses shall have in place final rules establishing an overall time frame during which the agency will either grant or deny each type of license that it issues. Agencies shall submit their overall time frame rules to the governor's regulatory review council pursuant to the schedule developed by the council. The council shall schedule each agency's rules so that final overall time frame rules are in place no later than December 31, 1998. The rule regarding the overall time frame for each type of license shall state separately the administrative completeness review time frame and the substantive review time frame.

B. If a statutory licensing time frame already exists for an agency but the statutory time frame does not specify separate time frames for the administrative completeness review and the substantive review, by rule the agency shall establish separate time frames for the administrative completeness review and the substantive review, which together shall not exceed the statutory overall time frame. An agency may establish different time frames for initial licenses, renewal licenses and revisions to existing licenses.

C. The submission by the department of environmental quality of a revised permit to the United States environmental protection agency in response to an objection by that agency shall be given the same effect as a notice granting or denying a permit application for licensing time frame purposes. For the purposes of this subsection, "permit" means a permit required by title 49, chapter 2, article 3.1 or section 49-426.

D. In establishing time frames, agencies shall consider all of the following:

1. The complexity of the licensing subject matter.

2. The resources of the agency granting or denying the license.

3. The economic impact of delay on the regulated community.

4. The impact of the licensing decision on public health and safety.

5. The possible use of volunteers with expertise in the subject matter area.
 6. The possible increased use of general licenses for similar types of licensed businesses or facilities.
 7. The possible increased cooperation between the agency and the regulated community.
 8. Increased agency flexibility in structuring the licensing process and personnel.
- E. This article does not apply to licenses issued either:
1. Pursuant to tribal state gaming compacts.
 2. Within seven days after receipt of initial application.
 3. By a lottery method.

Title 6, Chapter 5, Article 49

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: November 1, 2022

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: October 14, 2022

SUBJECT: Arizona Department of Economic Security
Title 6, Chapter 5, Article 49

This Five-Year-Review Report (5YRR) from the Department of Economic Security relates to rules in Title 6, Chapter 5, Article 49 regarding Child Care Assistance.

In the last 5YRR of these rules the Department proposed to amend their rules to make them more clear, concise, understandable, effective, and consistent with other rules in statutes. The Department proposed to submit a Notice of Final Rulemaking to the Council by October 2017. The Department indicates they did not complete the rulemaking due significant turnover in both administrative and programmatic staff. Additionally, the Department indicates that during the 2018 Legislative session, the Legislature made several changes that required significant revision to the draft rules that were in progress at the time. The Department was reaching final stages of drafting of the proposed rules, then the pandemic happened, and required the Department to divert all resources to providing pandemic response services.

Proposed Action

The Department is proposing to amend several of the rules to improve their overall clarity, conciseness, understandability, effectiveness and consistency with other rules and statutes. The Department has started the rulemaking process, and engaged in informal stakeholder input in April 2022. Additionally, the Department indicates all comments have been

addressed and the Draft Notice of Proposal Rulemaking is currently in the Department's internal approval process before filing it with the Secretary of State.

The Department plans to submit the Notice of Final Rulemaking to the Council by April 2023.

1. Has the agency analyzed whether the rules are authorized by statute?

Yes, the Department cites to both general and specific statutory authority.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department of Child Safety (DCS) states that since the last rulemaking was completed in 1997, an Economic Impact Statement was not required. Going forward, DCS intends to update the rules with a new rulemaking currently under development.

DCS clarifies that the rules under review instruct members of the public on how to obtain child care assistance. In SFY 2021, DCS reimbursed child care providers \$212.9 million in child care assistance. Further, in SFY 2021 DCS received \$1.3 billion from the federal government to help implement federal programming related to the COVID-19 Pandemic.

Stakeholders include DCS, child care providers, and families eligible for child care assistance.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department of Child Safety believes the rules covered in this five-year review are outdated. They are in the process of developing new rules for which they believe the benefits will outweigh the costs.

4. Has the agency received any written criticisms of the rules over the last five years?

No, the Department indicates they have not received any written criticisms to the rules.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

Yes, the Department indicates the rules are overall clear, concise, and understandable with the exception of the following:

R6-5-4906 - Verification of Eligibility Information

R6-5-4908 - Child Care Assistance Approvals and Denials
R6-5-4910 - Reinstatement of Assistance
R6-5-4911 - General Eligibility Criteria
R6-5-4912 - Eligible Activity of Need

6. Has the agency analyzed the rules' consistency with other rules and statutes?

Yes, the Department indicates the rules are overall consistent with other rules and statutes with the exception of the following:

R6-5-4901 - Definitions
R6-5-4904 - Access to Child Care Assistance
R6-5-4911 - General Eligibility Criteria
R6-5-4912 - Eligible Activity of Need
R6-5-4914 - Income Eligibility Criteria
R6-5-4915 - Fee Level and Copayment Assignment
R6-5-4917 - Waiting List for Child Care Assistance
R6-5-4918 - Authorization of Child Care Assistance
R6-5-4920 - Denial or Termination of Child Care Assistance

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

Yes, the Department indicates the rules are effective in achieving their objectives with the exception of the following:

3. **Are the rules effective in achieving their objectives?** Yes No

If not, please identify the rule(s) that is not effective and provide an explanation for why the rule(s) is not effective.

Rule	Explanation
R6-5-4914	The rule is not effective because the rule does not address whether child support income paid to a former dependent/child over 18 years old is deducted from the income.
R6-5-4920	The rule is not effective because it does not address all situations when the Department terminates Child Care Assistance for a client.

4. **Are the rules consistent with other rules and statutes?** Yes No

If not, please identify the rule(s) that is not consistent. Also, provide an explanation and identify the provisions that are not consistent with the rule.

Rule	Explanation
R6-5-4901	This rule is inconsistent with other rules and statutes because: <ul style="list-style-type: none"> • This rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS. • Some definitions within this rule are no longer consistent with state or federal law. Terms used in the Child Care and Development Block Grant Act of 2014 are not yet listed or defined in this rule. Additionally, terms not used within the rules should be eliminated.
R6-5-4904	This rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.
R6-5-4911	This rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.

R6-5-4912	This rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.
R6-5-4914	This rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.
R6-5-4915	This rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.
R6-5-4917	This rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.
R6-5-4918	This rule is inconsistent with 45 CFR 98.21(f) because the rule fails to ensure the Department takes into consideration a child's development and learning when authorizing Child Care Assistance. Additionally, this rule is inconsistent with other statutes and rules because this rule refers to "CPS." A.R.S. § 8-451 created DCS which led to the dissolution of CPS.
R6-5-4920	This rule is inconsistent with the Child Care and Development Block Grant Act of 2014 and changes to A.R.S. § 46-802(B) regarding termination of Child Care Assistance when the client's income exceeds 85% State Median Income during the eligibility determination.

5. **Are the rules enforced as written?**

Yes No

If not, please identify the rule(s) that is not enforced as written and provide an explanation of the issues with enforcement. In addition, include the agency's proposal for resolving the issue.

R6-5-4904	This rule is not enforced as written because the Department no longer waives the application requirement for Cash Assistance participants who were referred for Child Care Assistance. This ensures that application procedures for all families seeking Child Care Assistance are uniform. The Department proposes to amend this rule by removing language stating that Cash Assistance participants are not required to complete an application.
R6-5-4905	This rule is not enforced as written because the Department currently allows ten business days for an applicant to report changes that may affect eligibility, whereas the rule as currently written requires a person to notify the Department within two business days. This practice aligns Child Care Assistance practices with other Department programs including Nutrition Assistance and Cash Assistance. The Department proposes to amend this rule by updating the reporting time frame from two business days to ten

	business days from the date the change becomes known.
R6-5-4911	This rule is not enforced as written because the Department currently gives clients ten business days to report changes to information impacting eligibility to align with other Department programs for which the client may be eligible, compared to the two days given to clients in the rule. The Department proposes to amend this rule from two business days to ten business days for a client to report a change.
R6-5-4914	This rule is not enforced as written because the Department currently takes into consideration a client's fluctuation in earnings when determining income eligibility in accordance with 45 CFR 98.21(c). The Department proposes to amend this rule to include a method to determine eligibility for applicants who have fluctuating income.
R6-5-4915	This rule is not enforced as written because the rule refers to Appendix A for establishing fee levels and copayments, which is outdated. The Department currently updates the fee schedule annually on the DES website at https://des.az.gov/file/25606/download . The Department proposes to amend this rule by removing the reference to Appendix A and providing the formula the Department uses to convert federal poverty level and state median income data for each fee level.
R6-5-4916	This rule is not enforced as written because staff do not review the reason for a client's Cash Assistance closure when determining eligibility for Transitional Child Care. The Department proposes to amend this rule by stating that closure of a client's Cash Assistance case due to a sanction does not preclude receipt of Transitional Child Care.
R6-5-4919	This rule is not enforced as written because the Department does not require a parent or caretaker to sign a self-sufficiency statement to qualify for an extension of the Child Care Assistance time limit and when the Department does grant an extension of the time limit for Child Care Assistance the extension is for 12 months instead of six months. The Department proposes to amend this rule by removing the requirement to sign a self-sufficiency statement to receive an extension of the time limit and increase the extension from six months to 12 months.
R6-5-4920	The rule is not enforced as written because the rule requires a client to be a U.S. citizen or legal resident of the U.S, however under federal law only the child for whom services are requested is required to be a U.S. citizen or legal resident. If the Department considers citizenship of anyone other than the child, the Department may face federal sanctions up to and including the loss of federal funding. The Department proposes to amend

	this rule by stating that the child for whom Child Care Assistance are requested must be a U.S. citizen or legal resident of the U.S.
R6-5-4923	The rule is not enforced as written because overpayments that involve suspected fraud are referred to a different unit of the Department's Office of Inspector General (OIG), not the Office of Special Investigations as stated in the rule. The Department proposes to amend this rule by stating that suspected fraud cases will be referred to OIG for investigation.
R6-5-4924	The rule is not enforced as written because the rule fails to state that applicants and recipients are not entitled to a hearing due to denial or termination of assistance when the denial or termination is based on a reduction of funding appropriated to the Department for the Child Care Assistance program. The Department proposes to amend the rule by adding language that a client is not entitled to a hearing to challenge denial or termination of assistance due to the Department's lack of funds.
R6-5-4925	The rule is not enforced as written because it refers to Appendix B in relation to the maximum reimbursement rates paid by the Department for child care, but the Department no longer maintains Appendix B. The Department proposes to amend this rule by explaining the method the Department uses to set maximum reimbursement rates and the data upon which the determination is made.
Appendix A	This rule is not enforced as written because the Child Care Assistance Gross Monthly Income Eligibility Chart and Fee Schedule is posted on the DES website and is updated annually per A.R.S. § 46-805(F) rather than being updated in the Appendix. The Department proposes to repeal this appendix.
Appendix B	This rule is not enforced as written because the Maximum Reimbursement Rates for Child Care Assistance is posted on the DES website at https://des.az.gov/file/25221/download as consumer information and updated as changes occur in lieu of updating this Appendix. The Department proposes to repeal this appendix.

6. **Are the rules clear, concise, and understandable?** Yes No

If not, please identify the rule(s) that is not clear, concise, or understandable and provide an explanation as to how the agency plans to amend the rule(s) to improve clarity, conciseness, and understandability.

Rule	Explanation
R6-5-4906	This rule is not clear because it fails to specify how a client is required to provide verification of eligible activities and needs as requested by the Department. The Department proposes to amend this rule by adding

	language that states the type of acceptable verification of eligible activities and needs a client may submit to the Department.
R6-5-4908	This rule is not clear because the Department allows a client ten days from the notice date to submit requested information when there is a delay in the DES request for additional information. The rule does not explain this ten day allowance. The Department proposes to amend this rule by adding the information about this ten day period from the notice date.
R6-5-4910	This rule is not clear or understandable because the language is archaic and difficult to interpret. The Department proposes to amend this rule to improve readability and clearly state the reasons the Department will reinstate assistance.
R6-5-4911	This rule is not clear or concise because the structure and language are overly complex. The Department proposes to amend this rule to improve readability and revise language to be more concise and to clarify applicant and client responsibilities related to eligibility for Child Care Assistance.
R6-5-4912	The rule is not concise because the rule includes specificity that is not required to be addressed in rule and is already included in the Division of Child Care's policy manual. The Department proposes to amend this rule by reducing the specificity of an eligible activity or need and adding clarifying language to improve readability.

7. **Has the agency received written criticisms of the rules within the last five years?**

Yes No

If yes, please fill out the table below:

Commenter	Comment	Agency's Response
NA	NA	NA

8. **Economic, small business, and consumer impact comparison:**

The Department last amended Article 49 in 1997 via Exempt Rulemaking, which means the Department was not required to prepare an Economic Impact Statement.

These rules provide the process for the public to request Child Care Assistance, including application, eligibility, and termination of assistance. The Department provides Child Care Assistance to eligible families who participate in employment activities and specific education

and training activities related to employment by providing financial support intended to offset a portion of child care costs. This financial support allows families better access to high-quality, early care, and education settings for their children. Child care assistance is also available for children who are involved with the Department of Child Safety (DCS) due to child abuse or neglect, and families with children experiencing homelessness.

In SFY 2021, the Department reimbursed child care providers a total of \$212.9 million in Child Care Assistance, equating to 59,784 children and 34,707 families. During SFY 2021, Arizona received approximately \$1.3 billion in supplemental Child Care and Development Fund funds for child care providers to prevent, prepare for, and respond to the COVID-19 Pandemic, and expanded flexibility to provide Child Care Assistance to families and children through the following federal relief laws:

- Coronavirus Aid, Relief, and Economic Security (CARES) Act in March 2020;
- Coronavirus Response and Relief Supplemental Appropriations Act in December 2020;
and
- American Rescue Plan Act in March 2021.

With these funds in SFY 2021, the Department developed Arizona's Child Care Recovery Plan focused on four key priorities:

1. Expanding access to care;
2. Investing in quality;
3. Stabilizing the child care network; and
4. Accelerating educational support and early childhood literacy.

9. Has the agency received any business competitiveness analyses of the rules?

Yes No

The Department did not receive a business competitiveness analysis from a member of the public during the process of preparing this report.

10. **Has the agency completed the course of action indicated in the agency's previous five-year review report?** Yes No

Please state what the previous course of action was and if the agency did not complete the action, please explain why not.

The Department indicated in the 2017 Five-Year Review Report that it anticipated submitting a Notice of Final Rulemaking to the Governor's Regulatory Review Council (GRRC) in October 2017. The Department received an exception to the rulemaking moratorium from the Governor's Office on March 7, 2016. However, turnover of both administrative and programmatic staff led to a pause in the planned rulemaking. In addition, during the 2018 legislative session, the legislature made several changes that required significant revision to the draft rules that were in progress. In early 2020, as the Department was reaching the final stages of drafting the proposed rules, the COVID-19 Pandemic required the Department to quickly divert all resources to providing pandemic response services. Child care was needed and provided to not only those families that were traditionally eligible, but also the families of workers who were on the front lines battling the COVID-19 Pandemic. Ultimately, this increase contributed significantly to the Department's January 2022 announcement on the creation of a stand-alone division within the Department to administer all child care related programs, the Division of Child Care.

As the Pandemic has receded and staff availability has stabilized, the Department has renewed its commitment to rulemaking and has made significant progress on these rules. The Department engaged in informal stakeholder input for the draft rules in April 2022. All comments have been addressed and the draft Notice of Proposed Rulemaking (NPR) is in the Department's internal approval process before the NPR is filed with the Secretary of State.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

The businesses that are directly affected by the rulemaking are child care providers who choose to contract with the Department. Entering into a contract with the Department is optional and not mandatory. The federal requirements of extending Child Care Assistance for a minimum of 12 months after an eligibility determination and having 85% state median income as an eligibility exit threshold promote continuity of care for children receiving Child Care Assistance. This continuity will benefit child care providers through the receipt of more consistent revenue and less client turnover.

The Department anticipates that this rulemaking will have a positive impact on public and private employment because of the continuity of care for children receiving Child Care Assistance this rulemaking promotes. Child care has been identified as one of the major causes for work disruptions. Having child care services for a longer period of time will provide parents stability and the ability to be more productive and reliable members of the workforce, which in turn will benefit employers' efforts to retain a qualified workforce.

Based on this analysis, there are no negative impacts to small businesses or clients regulated by these rules. The benefits of the rule outweigh the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons necessary to achieve the underlying regulatory objective.

12. **Are the rules more stringent than corresponding federal laws?** Yes No

Please provide a citation for the federal law(s). And if the rule(s) is more stringent, is there statutory authority to exceed the requirements of federal law(s)?

NA

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an**

exception applies:

The Department has determined that A.R.S. § 41-1037 does not apply to these rules, because the Department is not proposing a new rule or an amendment to an existing rule that requires the issuance of a regulatory permit, license, or Department authorization.

14. Proposed course of action:

If possible, please identify a month and year by which the agency plans to complete the course of action.

The Department received a moratorium exception request from the Governor's Office in March 2016 for approval to engage in rulemaking and revise the rules in Article 49 to address issues identified in this report, ensure compliance with federal law, and reduce potential violations of federal law that could result in sanction by the federal government. The regular rulemaking will also address the shift in statutory and regulatory authority from CPS to DCS, as well as to reflect the changes made to the leadership and structure of the Department as they relate to administration of Child Care Assistance. The Department anticipates filing a Notice of Final Rulemaking with the Council by April 2023.

ARIZONA STATE LOTTERY COMMISSION

Title 19, Chapter 3, Article 6

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: November 1, 2022

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: October 14, 2022

SUBJECT: Arizona State Lottery Commission
Title 19, Chapter 3, Article 6

This Five-Year-Review Report from the Lottery Commission relates to rules in Title 19, Chapter 3, Article 6 regarding Annuity Assignments. The report covers one rule, R19-3-601. The rule sets forth provisions regarding the voluntary assignment of an annuity, which includes a fee due to the Lottery Commission, when a prize winner requests an assignment of all or a portion of the remaining installments of an annuity.

The Lottery Commission did not propose any changes to the rules in the last 5YRR.

Proposed Action

The Lottery commission indicates the rule is overall clear, concise, understandable, effective and consistent with other rules and statutes. The Commission indicates it plans to request permission from the Governor's Office in 2023 to increase the processing fee.

1. Has the agency analyzed whether the rules are authorized by statute?

Yes, the Commission cites to both general and specific statutory authority.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Lottery Commission states that due to the length of time since the last EIS, which was prepared in 2005, the Commission completed a detailed reevaluation for this review. Upon reevaluation, the actual economic impact on the Lottery Commission has changed since 2005. The rule continues to primarily affect the agency and the prize winner requesting an annuity assignment. Costs to the Lottery Commission include time spent by Lottery Commission administrative staff and the Attorney General's Office to process the assignment. The established fee of \$235 was based on the average cost per assignment in 2005. After the recent review, the current fee recovers only about 2/3 of the Lottery Commission's total administrative costs, which are currently estimated to be \$386.65 per case. The Attorney General's time requires less use of a legal assistant due to the decreased volume of assignment cases, however the Assistant Attorney General now handles more aspects of annuity assignments, resulting in a higher personnel rate. The direct handling of the case by the attorney results in faster and more efficient processing of each case and therefore better service to the prize winners and annuity companies. The Lottery Commission's processing time has also decreased due to the automation of previously manual procedures and the quicker response times from the Attorney General's Office. Consistent with the previous EIS, the impact on state revenues has been minimal.

Stakeholders include the Lottery Commission, Lottery winners, and the Attorney General's Office.

FIVE-YEAR-REVIEW REPORT**

**TITLE 19. ALCOHOL, HORSE AND DOG RACING, LOTTERY, AND GAMING
CHAPTER 3. ARIZONA STATE LOTTERY COMMISSION
ARTICLE 6. ANNUITY ASSIGNMENTS**

AUGUST 2022

Historical overview of agency

Agency Mission:

To support Arizona programs for the public benefit by maximizing net revenue in a responsible manner.

Agency Background:

The Arizona Lottery was voted into existence by a public initiative in November 1980. Lottery sales began July 1, 1981. Since its inception, the Lottery’s mandate has been to “maximize net revenue consonant with the dignity of the state.” The Lottery currently offers seven draw games and has more than 50 instant ticket games in market each year. Additionally, the Lottery also provides instant tab games that are sold by charitable organizations.

The Lottery is overseen by an Executive Director appointed by the Governor, in addition to a five-member Commission, also appointed by the Governor. The Lottery is entirely self-supporting, receiving no monies from the state general fund. The Lottery sells products and redeems prizes through a state-wide network of approximately 3,300 licensed retailers, who receive a commission on each ticket sold. A portion of Lottery proceeds is appropriated to pay for Lottery operating costs, and at least 50% of revenues must be utilized for payment of prizes by statute. Remaining Lottery funds are statutorily directed to various benefiting funds including the state general fund. The Lottery has achieved record sales levels in recent years. In fiscal year 2021, total sales exceeded \$1.4 billion and transfers to statutory beneficiaries totaled \$287,832,983.

Overview of 5-Year Review

A.R.S. § 5-554(B) requires the Commission to authorize the Lottery Director to adopt rules in accordance with Title 41, Chapter 6. Rules adopted may include matters necessary or desirable for the efficient and economical operation and administration of the Lottery, as provided in A.R.S. § 5-554(B)(7). The Lottery may also adopt rules relating to the payment of prizes, including the purchase of annuities, as provided in A.R.S. § 5-554(B)(3). A.R.S. § 5-563(A)(3) specifically addresses the voluntary assignment of a Lottery annuity to another party and authorizes a fee paid to the Lottery to defray the cost of processing the

assignment.

19 A.A.C. 3, Article 6 became effective in July 2005 and has not been amended since that time. The rule sets forth provisions regarding the voluntary assignment of an annuity, including a fee due to the Lottery when a prize winner requests an assignment of all or a portion of the remaining installments of an annuity. The fee is intended to recover the Lottery’s cost to process the assignment.

The review of this rule was conducted by Arizona Lottery, including a full reevaluation of the Economic Impact Statement. As a result of the evaluation, the agency proposes to request permission from the Governor’s Office in October 2023 to increase the processing fee.

Authorization of the rule by existing statutes [ARS 41-1056(A)(3)]

General Statutory Authority: Arizona Revised Statutes (A.R.S.) §5-554(B) authorizes the director to adopt rules generally, including rules for “[m]atters necessary or desirable for the efficient and economical operation and administration of the lottery and for the convenience of the purchasers of tickets or shares and the holders of winning tickets or shares.”

Specific Statutory Authority: A.R.S. 5-563(A)(3) limits the assignability of a prize to among other circumstances, the voluntary assignment of an annuity through a judicial order. The statute authorized the Lottery to determine and subsequently require, an assignment fee “to defray the expenses incurred by the commission in processing the assignment.”

The objective of each rule

Rule	Objective
R19-3-601	This rule explains the procedures for a Lottery prize winner to request an assignment of all or a portion of the remaining installments of an annuity

Are the rules effective in achieving their objectives? [ARS 41-1056(A)(1)] Yes No

The rule is effective in informing Lottery prize winners regarding the procedure for requesting a voluntary assignment of an annuity.

Has the agency received written criticisms of the rules within the last five years? [ARS 41-1056(A)(2)] Yes No

Are the rules consistent with other rules and statutes? [ARS 41-1056(A)(4)] Yes No

The rules are consistent with other Lottery rules and Arizona statutes.

Are the rules enforced as written? [ARS 41-1056(A)(4)

Yes No

The Lottery follows the rules as written. The rules are fairly and consistently enforced.

Are the rules clear, concise, and understandable? [ARS 41-1056(A)(5)

Yes No

Economic, small business, and consumer impact comparison [ARS 41-1056(A)(6):

An economic impact statement (EIS) was prepared when this rule was initially filed with Council in March 2005. Given the length of time since that EIS, the Lottery completed a detailed reevaluation and drafted a revised EIS for this review. Upon reevaluation, the actual economic impact of this rule on the Lottery has changed from the EIS submitted in 2005. The rule continues to primarily affect the agency and the prize winner (or assignee of the prize winner) requesting an annuity assignment. Costs to the Lottery include time spent by Lottery administrative staff and the Attorney General's Office to process the assignment. The established fee of \$235 was based on the average cost per assignment in 2005. After the recent review, the current fee recovers only about 2/3 of the Lottery's total administrative costs, which are currently estimated to be \$386.65 per case. The Attorney General's time requires less use of a legal assistant due to the decreased volume of assignment cases, however the Assistant Attorney General now handles more aspects of annuity assignments, resulting in a higher personnel rate. The direct handling of the case by the attorney results in faster and more efficient processing of each case and therefore better service to the prize winners and annuity companies. The Lottery's processing time has also decreased due to the automation of previously manual procedures and the quicker response times from the Attorney General's Office.

The rule does not have an economic impact on political subdivisions of the state, private and public employment, or Lottery retailers. Consistent with the previous EIS, the impact on state revenues has been minimal.

Has the agency received any business competitiveness analyses of the rules? [ARS 41-1056(A)(7)

Yes No

Has the agency completed the course of action indicated in the agency's previous five-year-review report?[ARS 41-1056(A)(8)

Yes No

The previous five-year review for this Article submitted in August 2017 and was approved by Council in November 2017. No changes were recommended or made as a result of the 2017 five-year review.

Do the probable benefits of the rule outweigh the probable costs within this state? Does the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective? [ARS 41-1056(A)(9)]

Yes No

The agency believes the rule itself imposes the least burden and cost to persons regulated by the rule. The assignment of a Lottery prize is voluntary and at the discretion of the prize winner. Annuity assignments create additional work and expenses for the Lottery that would not otherwise be incurred. The statute permits a fee to allow the agency to recover these costs and the current fee is less than the costs incurred by the agency. Even with a fee increase to cover the full amount of the agency's expenses the rule is the least burdensome process to transfer or assign a prize winner annuity.

Are the rules more stringent than corresponding federal laws? [ARS 41-1056(A)(10)] Yes No

There are no corresponding federal laws that are applicable.

For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, are the rules in compliance with the general permit requirements of A.R.S. §41-1037? [ARS 41-1056(A)(11)]

These rules do not require the issuance of a regulatory permit, license, or agency authorization.

Proposed course of action

The agency proposes to request permission from the Governor's Office in October 2023 to increase the processing fee.

BOARD OF FUNERAL DIRECTORS AND EMBALMERS

Title 4, Chapter 12, Articles 1-6

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE:

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: **October 17, 2022**

SUBJECT: BOARD OF FUNERAL DIRECTORS AND EMBALMERS
Title 4, Chapter 12, Articles 1-6

Summary

This Five-Year Review Report (5YRR) from the Board of Funeral Directors and Embalmers relates to rules in Title 4, Chapter 12, Articles 1-6. Article 1 (General Provisions) relates to definitions, general time frames, and administrative hearings. Article 2 (Licensing Provisions) relates to applications and state equivalency exams. Article 3 (Regulatory Provisions) relates to funeral requirements, cemetery requirements, and sanitation practices. Article 4 (Continuing Education) relates to continuing education requirements. Article 5 (Prearranged Funeral Agreements) relates to financial documents and records. Article 6 (Crematory and Cremation Regulation) relates to crematory services and records.

In the last 5YRR, the Board proposed to amend Article 3, Regulatory Provisions and Article 5, Prearranged Funeral Agreements. The Board has failed to make those amendments due to high staff turnover. Currently, the Board is scheduled to sunset on March 31, 2023 and is in process of setting up stakeholder meetings that will determine the future of the Board and regulation of the death care/funeral industry.

Proposed Action

Because the Board is scheduled to sunset on March 31, 2023, the Board intends to wait on making any changes because it is unlikely that it will go through sunrise legislation. If sunrise legislation does occur, the Board intends to amend articles 3, 5, and 6. The Board also intends to request an exempt rulemaking to address House Bill 2024 to oversee licensure for alkaline hydrolysis facilities and operators. If the Board is continued, the Agency plans to begin working on amending all articles in 2024 and have the updates completed by December of 2025.

Council staff encourages the Council to follow up with the Agency representative for more details regarding the sunset review.

1. Has the agency analyzed whether the rules are authorized by statute?

Yes. The Department cites both general and specific statutory authority for these rules

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Board indicates that the rules have had minimal economic impact on the Board, other state agencies, private entities, small businesses and consumers. The Board further states that since R4-12-311 contains requirements for embalming, the economic impact ranges from minimal to moderate on embalmers or funeral establishments, depending on the extent to which the embalmers or funeral establishments meet the requirements before licensure. In addition, because R4-12-312 is discretionary, the equipment and sanitation cost will vary depending on what equipment the funeral establishment chooses to maintain in the preparations room. Stakeholders include the Board, funeral establishments and embalmers.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Board states that after reviewing the economic impact statements written at the time of promulgation, the Board has determined that the rules outweigh the probable costs of the rules. The Board believes that rules impose the least burden and costs to applicants, licensees, or registrants and there are no less costly alternatives to the rules.

4. Has the agency received any written criticisms of the rules over the last five years?

The Board has not received any criticisms of the rules over the last five years, but licensees have questioned the practicality of R4-12-631(B).

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Board states that generally, the rules are clear, concise, and understandable with the following exceptions:

These rules are mostly clear, concise, and understandable

R4-12-101, R4-12-106, R4-12-108, R4-12-120, R4-12-208, R4-12-211, R4-12-305, R4-12-523, R4-12-552, R4-12-561, R4-12-565.

These rules are partially clear, concise, and understandable:

R4-12-306, R4-12-541, R4-12-551, R4-12-556, R4-12-631.

8. Has the agency analyzed the current enforcement status of the rules?

The Board states all the rules are enforced as written with the following exceptions:

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Board indicates the rules under review are not more stringent than corresponding federal law.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Board states that it does not issue general permits and therefore this provision does not apply to the Board's rules.

11. Conclusion

Due to the potential legislative constraints, Council staff believes the Board has submitted an adequate report. As indicated above, if the Board does not sunset, the Board will make minor amendments to Articles 1, 2, and 4 and major amendments to articles 3, 5, and 6.

Therefore, Council staff recommends approval of the report.

5 YEAR REVIEW REPORT

Arizona Administrative Code Title 4, Chapter 12, Articles 1-6

August 31, 2022

1. Authorization of the rule by existing statutes

All of the rules have general authority under A.R.S. § 32-1307(A)(5). Article 5 rules have general authority under A.R.S. § 32-1391.01(A). Specific authority is stated in the applicable rule.

2. The objective of each rule:

Rule	Objective
R4-12-101: Definitions	<ol style="list-style-type: none">2. The objective of the rule is to define terms used in the rules to make the rules understandable to the reader, achieve clarity in the rules, and afford consistent interpretation.3. Analysis of effectiveness in obtaining objective: Except as stated in paragraph 6, most of the rule is effective.6. Analysis of clarity, conciseness, and understandability: The rule has a spelling error in A.A.C. R4-12-101(1)(c)(iv) – “manger” should be updated to “manager”.
R4-12-106: Time-frames for Board Approval	<ol style="list-style-type: none">1. Authorization of the rule by existing statutes: A.R.S. § 41-1072 through § 41-1079.2. The objective of the rule is to provide an applicant with a timeframe in which the applicant may expect an approval, license, endorsement, or registration to be approved or denied by the Board.3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective.6. Analysis of clarity, conciseness, and understandability: The Board believes that shortening the 360 day time-frame to correct deficiencies as stated in A.A.C. R4-12-106(D) to 90 days would allow for quicker and more efficient processing of applications. It would also encourage applicants to complete their licensure applications in a timely manner. In the past two years, the Board has had difficulties with licensees completing the requirements of their renewal applications as well and the 360 day time-frame allows licensees to continue to practice without actually completing their renewal in a timely manner. Amending this time-frame would aid in ensuring renewal and initial application deficiencies are being met within a reasonable amount of time.
Table 1: Time-frames (in days)	<ol style="list-style-type: none">1. Authorization of the rule by existing statutes: A.R.S. § 41-1072 through § 41-10792. The objective of the rule is to set forth, in table form, the time-frames for the Board to approve or deny an approval, license, endorsement, or registration.

R4-12-108: Fees	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(B)(5), 32-1309, 32-1391.16, 39-121.03. 2. The objective of the rule is to provide notice of the fees for copying, filing an annual trust report, and publishing, distributing, and mailing consumer information pamphlets to a funeral establishment. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: The Board would like to amend the language to reflect current terminology; the term “diskette” is outdated.
R4-12-109: Enforcement Advisement Committee	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1307(B)(2). 2. The objectives of the rule are to inform persons that the Board may appoint an enforcement advisory committee, set out the membership of the committee, and state the responsibilities of the enforcement advisory committee.
R4-12-120: Inspection Procedures	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(5)(b), 32-1383(C). 2. The objectives of the rule are to inform applicants, licensees, and the public of the frequency of inspections conducted by the Board to determine whether the licensee meets the requirements of statutes and rules, what an inspection includes, what is required of the Board at an inspection site, and what is required of the Board, applicant, or licensee following an inspection. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: The Board would like to amend the language to reflect current terminology of establishments and crematories. The term “plant” is not actively used, but rather locations are referred to as a “facility”.
R4-12-121: Investigation Procedures	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(4), 32-1367. 2. The objectives of the rule are to inform a licensee or registrant of what is required of the Board after receipt of a complaint, what is required of a licensee or registrant after receipt of the Board’s written notice of the complaint, and state that the Board may request additional information of a complainant, licensee, or registrant.
R4-12-123: Informal Interview	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1367. 2. The objective of the rule is to provide the process for conducting an informal interview.
R4-12-125: Hearing Procedures	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1367 2. The objective of the rule is to provide standards, procedures, and the process for conducting disciplinary hearings.

The objectives of the rule are to describe the procedures for a party to request a rehearing or review after a hearing has been held and explain the Board’s process for denying or granting such a request.

R4-12-201: Application for a State Equivalent Examination or Embalmer Assistant Practical Examination	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(3), 32-1309(A)(4), 32-1309(B)(5), 32-1322, 32-1327. 2. The objective of the rule is to specify the documents and fees that are required to be submitted to the Board when applying to take a state equivalent examination or embalmer assistant practical examination.
R4-12-202: Application for an Intern, an Embalmer, or a Funeral Director License	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(1), 32-1309(A)(2), 32-1309(A)(4), 32-1309(A)(5), 32-1309(C)(1), 32-1309(C)(2), 32-1309(C)(4), 32-1323, 32-1335, 32-1384. 2. The objective of the rule is to inform an individual of the documents and fees that are required to be submitted when the individual applies for an intern, embalmer, or funeral director license so the Board can determine the qualifications of the applicant.
R4-12-203: Application for an Embalmer's Assistant Registration	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(3), 32-1309(C)(3), 32-1325.01, 32-1335. 2. The objective of the rule is to inform an individual of the documents and fees that are required to be submitted to the Board when the individual applies for an embalmer's assistant registration so the Board can determine the qualifications of the applicant.
R4-12-204: Application for a Funeral Establishment License or an Interim Funeral Establishment Permit	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(7), 32-1381, 32-1383, 32-1388(C). 2. The objective of the rule is to inform an individual of the documents and fees that are required to be submitted to the Board when the individual applies for an establishment license or interim funeral establishment permit so the Board can determine the qualifications of the applicant..
R4-12-205: Application for a Prearranged Funeral Sales Endorsement	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(8), 32-1391.12. 2. The objective of the rule is to inform an individual of the fee and documents that are required to be submitted to the Board when the individual applies for a prearranged funeral sales endorsement so the Board can determine the qualifications of the applicant.
R4-12-206: Application for a Prearranged Funeral Salesperson Registration	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(6), 32-1309(C)(5), 32-1391.14. 2. The objective of the rule is to inform an individual of the fee and documents that are required to be submitted to the Board when the individual applies for a prearranged funeral sales registration so the Board can determine the qualifications of the applicant.
R4-12-207: Application for a Crematory License	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(9), 32-1395. 2. The objective of the rule is to inform an individual of the fee and documents that are required to be submitted to the Board when the individual applies for a crematory license so the Board can determine the qualifications of the applicant.

R4-12-208: Annual Intern, Apprentice Embalmer, or Embalmer's Assistant Report	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1330. 2. The objective of the rule is to specify what information is needed for the annual report for interns, apprentice embalmers, and embalmers assistants. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: The amount of hours required in rule is not practical or reasonable for the schedule a licensed intern or embalmer's assistant may work. The Board also no longer offers the license of "apprentice embalmer" and therefore the rule should be amended to reflect this.
R4-12-209: State Equivalent Examination	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1327. 2. The objective of the rule is to inform an individual of the subjects that are tested on the arts and science sections of the state equivalent examination
R4-12-210: Application for a Cremationist License	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(A)(10), 32-1309(C)(6), 32-1394, 32-1394.01. 2. The objective of the rule is to inform an individual of the documents and fees that are required to be submitted to the Board when the individual applies for a cremationist license so the Board can determine the qualifications of the applicant.
R4-12-211: Renewal	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(D), 32-1331. 2. The objective of the rule is to inform an individual of the time, fee, and documents that are required to be submitted to the Board when renewing a license, registration, or endorsement. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: To allow for more efficient processing of renewal applications, the Board would like to amend this rule to reflect the same due date of August 1st for salespeople and sales endorsement registrations.
R4-12-212: Reinstatement	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1309(E), 32-1331, 32-1391.12, 32-1391.14(C). 2. The objective of the rule is to inform an individual of the fees and documents that are required to be submitted to the Board when requesting reinstatement.

<p>R4-12-301: General funeral services requirements</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(5)(b), 32-1307(A)(5)(c). 2. The objective of the rule is to inform a funeral director, embalmer, funeral establishment, or other person licensed by the Board of the standards of conduct required for the care, transportation, and handling of a decedent and for communications with a decedent’s family. 3. Analysis of effectiveness in obtaining objective: The rule is not effective for the reasons stated in paragraphs 4, 5, and 6. 4. Analysis of consistency with state and federal rules and statutes: Most of the rule is consistent with state and federal rules and statutes. Subsection (A)(3) is inconsistent because it states that licensees are required to follow the enumerated statutes and rules “to the extent possible.” The Board’s statutes do not give licensees this latitude, but require that all of the Board’s statutes and rules be followed by licensees. 5. Although the Board relies heavily on subsections (A)(1) and (A)(2), the Board has difficulty enforcing the other subsections because they are capable of multiple interpretations as a result of ambiguous language as stated in paragraph 6. 6. The rule is not clear, concise, and understandable because it uses passive, ambiguous, and unenforceable language such as “reasonable efforts”, “adequately inform”, and “unnecessary”. It also contains gender specific language.
<p>R4-12-302: Deceptive practices prohibited</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(5)(b), 32-1307(A)(5)(c). 2. The objective of the rule is to provide prohibited practices related to the cost of funeral goods or services to prevent licensees from using deceptive or unfair tactics to entice consumers to choose higher priced goods or services. 3. Analysis of effectiveness in obtaining objective: The rule is partially effective for the reasons stated in paragraph 6. 5. Status of enforcement of the rule: The Board enforces the rule to the extent possible considering the issues raised in paragraph 6. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because the rule’s language does not conform to current rule writing style and format requirements. The rule uses passive and ambiguous language.

<p>R4-12-303: Misrepresentation of legal or cemetery requirements</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(5)(b), 32-1307(A)(5)(c). 2. The objectives of the rule are to inform of the acts that constitute deceptive practices and state the possible penalties for failure to substantially comply with the rule. 3. Analysis of effectiveness in obtaining objective: The rule is partially effective for the following reasons; R4-12-203(A)(1) is confusing because it appears that a body must be embalmed if burial or cremation does not occur within 24 hours of death or the body is not refrigerated immediately after death. Subsection (A)(2) seems to suggest that an unfinished wooden box is the only container that can be used for cremation, but a container can be made of cardboard or fiberboard. Subsection (B) is ambiguous because it is not clear whether the provision is meant to provide legal standards for malpractice cases in addition to professional incompetence. 4. Analysis of consistency with state and federal rules and statutes: The rule may conflict with A.A.C. R9-19-312, which requires that a body be refrigerated if it is not cremated, buried, or embalmed within 24 hours following death. The rule in subsection (A)(1) is confusing because it seems to require that embalming occur if burial or cremation does not occur within 24 hours of death or if the body is not refrigerated. The rest of the rule is consistent with state and federal rules and statutes. 5. Status of enforcement of the rule: The Board enforces subsection (A)(1) consistent with A.A.C. R9-12-312. The rest of the rule is enforced according to the language of the rule. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable for the reasons stated in paragraphs 3 and 4 and because it does not provided standards for refrigeration or substantial compliance. R4-12-303(4) also contains gender specific language.
<p>R4-12-304: Telephone price disclosure requirement</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1375. 2. The objectives of the rule are to require funeral establishments to provide information about funeral goods and services to a person who requests the information over the telephone and to send a price list to the caller if requested. 3. Analysis of effectiveness in obtaining objective: The rule is partially effective for the reasons stated in paragraph 6 and the following: The rule provides discretion for the postage and handling charge for mailing a funeral price list, but provides no standards for determining the charge. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because its language does not conform to current rule writing style and format requirements. The first sentence in subsection (A) is awkwardly worded. The rule uses ambiguous language.

<p>R4-12-305: Price lists requirement</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1371. 2. The objective of the rule is to require that licensees and registrants provide a standardized written or printed price list to persons who inquire about funeral arrangements or prices of funeral goods and services. 3. Analysis of effectiveness in obtaining objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: Most of the rule is clear, concise and understandable. It is unclear what is meant by “on beginning a discussion” in subsection (A). The incorporation by reference language needs to be updated to meet current rule writing style and format requirements.
<p>R4-12-306: Merchandise price card requirement</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(5)(c), 32-1307(A)(5)(d), 32-1372. 2. The objective of the rule is to provide notice to a consumer about the actual price of specified funeral goods. 3. Analysis of effectiveness in obtaining objective: The rule is partially effective for the reasons stated in paragraph 6. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because it is poorly organized, uses passive language, uses ambiguous language, and does not contain standards for cremation containers. The rule also does not account for the electronic display of merchandise.

R4-12-307: Funeral goods and services memorandum

1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1307(A)(5)(c), 32-1307(A)(5)(d), 32-1373.
2. The objective of the rule is to provide an example of a form that a funeral establishment, funeral director, or embalmer may use to itemize the funeral goods and services that are sold to each potential purchaser before the purchaser enters into a contract with the funeral establishment, funeral director, or embalmer for the goods and services.
3. Analysis of effectiveness in obtaining objective: The rule is not effective for the reasons stated in paragraph 6 and because the relationship between subsections (A), (B), and (C) is unclear. Subsection (A) seems to require the use of Appendices B or C, but subsection (B) seems to allow the information on any contract, statement, or other document. Subsection (C) states that if the statement is used as a final bill, a disclosure must be added to the statement as shown in Appendix C, but there is no disclosure included in Appendix C.
6. Analysis of clarity, conciseness, and understandable: The rule is not clear, concise, and understandable because it does not conform to current rule writing style and format requirements. The rule uses passive voice, is poorly worded, and incorrectly uses “must” instead of “shall”. In subsection (B), it is unclear what is meant by “information required by this Section” and “clear and conspicuous manner”. The use of the word “memorandum” in the rule and the rule’s title does not reflect that the funeral establishment, funeral director, or embalmer is required to provide an itemized written or printed statement of funeral goods and services to each potential purchaser.

R4-12-311: Minimum embalming requirements

1. Authorization of the rule by existing statutes: A.R.S. § 32-1307(A)(5)(b).
2. The objective of the rule is to require that only licensed embalmers or registered apprentice embalmers can embalm human dead bodies and to specify minimum embalming procedures for health and safety reasons and to protect the dignity of the deceased.
3. Analysis of effectiveness in obtaining objective: The rule is not effective for the reasons stated in paragraphs 4, 5, and 6 and because the rule needs to include embalmer's assistants and to be updated to include current standards of embalming practices, such as universal precautions and blood borne pathogen requirements.
4. Analysis of consistency with state and federal rules and statutes: Subsection (A)(1) is not consistent with A.R.S. § 32-1324 because the statute voids apprentice embalmer registration after July 31, 2002. Additionally, embalmer's assistants need to be added to the rule. The rest of the rule is consistent.
5. Status of enforcement of the rule: The Board does not enforce the requirements for apprentice embalmers in subsection (A)(1). The Board enforces for full compliance rather than substantial compliance as stated in subsection (D) of the rule. The rest of the rule is enforced.
6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because it uses passive language; ambiguous language, such as "to the extent feasible under the circumstances", "adequate", "diligent effort", "substantially removed"; and incorrect references to regulations rather than rules.

<p>R4-12-312: Equipment and sanitation requirements</p>	<ol style="list-style-type: none">1. Authorization of the rule by existing statutes: A.R.S. § 32-1382.2. The objectives of the rule are to list the instruments, equipment, and supplies that the Board recommends be maintained in a preparation room of a funeral establishment; require a sanitary embalming table; and provide the sanitation requirements for a funeral establishment.3. Analysis of effectiveness in obtaining objective: The rule is not effective for the reasons stated in paragraphs 4, 5, and 6 and because the Board needs to update the rule to include current standards for instruments, equipment, and supplies that are required in a preparation room.4. Analysis of consistency with state and federal rules and statutes: The rule is not consistent with A.R.S. § 32-1382 because the statute requires that the Board establish minimum standards for a preparation room. By providing discretionary standards, the Board has not met its statutory mandate.5. Status of enforcement of the rule: The rule is not being enforced because subsections (A) and (D) are discretionary, not mandatory; there are no standards for “clean and sanitary” in subsection (B); there are no standards for “sanitary” in subsection (C); and there are no standards for “health nuisance or hazard” in subsection (E).6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because it uses passive, discretionary, and ambiguous language and undefined terms such as “preparation room”, and “health nuisance or hazard”.

R4-12-413: Continuing Education Hours Required	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1338. 2. The objective of the rule is to specify the number of continuing education hours required each calendar year of a funeral director, embalmer, and embalmer’s assistant to apprise them of new techniques or a refresher in the current techniques. 3. Analysis of effectiveness in obtaining objective: The rule is not effective for the reasons stated in paragraphs 4, 5 and 6. 4. Analysis of consistency with state and federal rules and statutes: The rule is not consistent with A.R.S. § 32-1338 because the statute requires that anyone licensed or registered with the Board shall complete continuing education but the rule does not include interns in the hour breakdown. R4-12-211 also states that interns are required to provide continuing education but rule R4-12-413 does not state how many hours are required for interns. 5. Status of enforcement of the rule: The rule is being enforced to include interns. Currently interns are being required to submit 6 hours of continuing education as part of their renewal application. 6. Analysis of clarity, conciseness, and understandability: The rule is outdated in the amount of continuing education hours that are required. The State of Arizona currently requires more continuing education hours than what the industry average is across the United States. The Board would like to lower the required amount of hours to 6 hours for funeral directors, embalmers, interns and embalmer’s assistants and require hours to be completed both in-person and online.
R4-12-414: Waiver of Continuing Education	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1338. 2. The objectives of the rule are to specify the amount of the surety bond required of a funeral establishment applying for a prearranged funeral sales endorsement and instruct a person to provide the document in Appendix D. 3. Analysis of effectiveness in achieving objective: Although the rule is effective, the Board has determined that a funeral establishment should have a choice of using the surety company’s bond form or Appendix D. 6. Analysis of clarity, conciseness, and understandability: The rule is mostly clear however, the language used for the breakdown in the number of contracts sold can leave room for interpretation and should list specific contract number amounts.
<p>R4-12-541: Consumer disclosures</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1391.01(A), 32-1391.02, 32-1391.09. 2. The objective of the rule is to state the location of the consumer notice required by A.R.S. 32-1391.09. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: The rule is partially clear, concise, and understandable because it uses passive language and an incorrect citation to A.R.S. § 32-1391.08 in subsection (A).
<p>R4-12-545: Deceptive, misleading or professionally negligent practices</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1391.01. 2. The objective of the rule is to specify practices that the Board considers deceptive, misleading, or professionally negligent concerning the offer or sale of prearranged funeral arrangements or handling of trust funds. 3. Analysis of effectiveness in achieving objective: The rule is partially effective for the reasons stated in paragraph 6. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because it uses passive language; gender specific language, the incorrect term “will”, and undefined terms.
<p>R4-12-546: Description of casket</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1391.01(A)(2). 2. The objective of the rule is to state the information required on a prearranged funeral agreement for a casket and what is considered misleading to a customer. 3. Analysis of effectiveness in achieving objective: The rule is partially effective for the reasons stated in paragraph 6. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because it is poorly written, contains undefined terms, and does not state what must be included in a prearranged funeral agreement when a casket is sold.

<p>R4-12-548: Possession of trust account passbook</p>	<ol style="list-style-type: none"> 2. The objective of the rule is to provide a purchaser with the option of personally obtaining a copy of a financial institution passbook, certificate of deposit, or similar documentation or authorizing a funeral establishment to maintain the documentation on behalf of the purchaser. 3. Analysis of effectiveness in achieving objective: The rule is partially effective for the reasons stated in paragraph 6. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because it uses gender specific language, contains undefined terms, and does not contain standards for “other similar documentation.”
<p>R4-12-551: Certificate of entitlement</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1391.06(B). 2. The objectives of the rule are to specify what information must be on a completed certificate of entitlement and what must occur after a financial institution receives the certificate signed and dated by the owner or responsible funeral director. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: The rule is partially clear, concise, and understandable because it does not conform to the numbering and letter system established by the Secretary of State, uses passive language, and incorrectly uses “which” instead of “that.”
<p>R4-12-552: Certificate of performance</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1391.08(B). 2. The objectives of the rule are to specify the information that must be on the certificate of performance, additional information that must be submitted if the certificate of performance concerns a fixed price prearranged funeral agreement, additional information that must accompany the certificate of performance, and the process for releasing funds after death of the beneficiary. 3. Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: Although the rule uses passive language, incorrectly uses “which” instead of “that”, and uses an incorrect numbering system, it is mostly clear, concise, and understandable.

<p>R4-12-554: Statement of accrued taxes</p>	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1391.06(C). 2. The objective of the rule is to specify what must be submitted by a funeral establishment to a financial institution for accrued taxes for a prearranged funeral trust account. 3. Analysis of effectiveness in achieving objective: The rule is partially effective for the reasons stated in paragraphs 4 and 6. 4. Analysis of consistency with state and federal rules and statutes: Because the rule only allows payment to a taxing authority, the rule is inconsistent with A.R.S. § 32-1391.06(C), which authorizes payment to either the taxing authority or the beneficiary upon a proper showing that the beneficiary has paid the taxes. 6. Analysis of clarity, conciseness, and understandability: The rule is not clear, concise, and understandable because subsection (4) is poorly written and organized, it is unclear what is meant by “one other employee of the establishment”, it is not clear whether anyone other than the responsible funeral director is necessary to sign the statement required in subsection (4), and the last sentence conflicts with A.R.S. § 32-1391.06(C).

Analysis of effectiveness in achieving objective: The rule is partially effective for the reasons stated in paragraphs 5 and 6. 5. Status of enforcement of the rule: Except for the second and third sentences in subsection (B), the Board enforces the rule. 6. Analysis of clarity, conciseness, and understandability: The rule is partially clear, concise, and understandable because it contains undefined terms and an incorrect citation to A.R.S. § 32-1391.04(C) instead of A.R.S. § 32-1391.05(C).

The objective of the rule is to specify the information that must be contained in a written request to terminate a prearranged funeral agreement and have trust funds refunded. 3. Analysis of effectiveness in achieving objective: The rule is partially effective for the reasons stated in paragraphs 4 and 5. 4. Analysis of consistency with state and federal rules and statutes: The rule is inconsistent with A.R.S. § 32-1391.07(A) because the statute requires a funeral establishment to refund the trust funds within five business days, while the rule requires five days. 5. Status of enforcement of the rule: The Board enforces the rule according to statute.

Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: Although the rule incorrectly cites A.R.S. § 32-1391.15 as its implementing statute and uses the superfluous word “concerning”, it is mostly clear, concise, and understandable.

Analysis of effectiveness in achieving objective: Except as stated in paragraph 6, most of the rule is effective. 6. Analysis of clarity, conciseness, and understandability: Although subsection (3) of the rule is grammatically incorrect, the rule is mostly clear, concise, and understandable.
Appendix B.: Statement of Goods and Services Selected	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. § 32-1373. 2. Analysis of effectiveness in achieving objective: Except for the phrase “statement not used as a final bill”, the appendix is effective. The form may actually be used as a final bill. 5. Appendix D.: Prearranged Funeral Endorsement Bond	<ol style="list-style-type: none"> 1. Authorization of the rule by existing statutes: A.R.S. §§ 32-1391.01(A)(4), 32-1391.12. 2. The objective of the rule is to specify what is required of a responsible cremationist or funeral establishment for records as required by A.R.S. § 32-1399(11). 3. Analysis of effectiveness in obtaining objective: The rule is not effective for the reasons stated in paragraphs 5 and 6 . 5. Status of enforcement of the rule: Subsection B is not being enforced on establishments that provide for cremation as the requested information is not readily available for establishments who contract cremations out to another crematory to complete. 6. Analysis of clarity, conciseness, and understandability: The rule is only partially effective as it requires information not readily available to establishments who do not perform their own cremations. The rule should be amended to require a type of “chain of custody” from establishments who provide for cremation verses a permanent chronological log.

The following rules are not clear, concise, and understandable:

7. **Has the agency received written criticisms of the rules within the last five years?** Yes No X

The Board has not received written criticism of the rules within the last five years, but licensees have either questioned during conducted inspections or at the Call to the Public held during monthly meetings R4-12-631(B). While the requirements of the rule are mostly clear, the practicality and enforcement is not. Establishments who do not perform cremations on site cannot easily access all of the required information listed in R4-12-631(B); such as the name of the responsible cremationist, signature of cremationist who performed the cremation and the date and time the cremation was completed on.

If the Board is continued past March 31, 2023, the clarity and practicality of this rule will be addressed and amended beginning in 2024.

8. **Economic, small business, and consumer impact comparison:**

Except as otherwise stated and as anticipated by the Board upon promulgation of the rules, the rules have had minimal economic impact on the Board, other state agencies, private entities, small businesses, and consumers. When economic impact is discussed, minimal means less than \$1,000, moderate means \$1,000 to \$10,000, and substantial means more than \$10,000.

R4-12-311 and R4-12-312 became effective on June 16, 1981. Since R4-12-311 contains requirements for embalming, the economic impact ranges from minimal to moderate on embalmers or funeral establishments, depending on the extent to which the embalmers or funeral establishments meet the requirements before licensure. Also, because R4-12-312 is discretionary, the equipment and sanitation cost will vary, depending on what equipment the funeral establishment chooses to maintain in the preparation room. The economic impact statement related to these rules is not available.

9. **Has the agency received any business competitiveness analyses of the rules?** Yes No X

No one has submitted such an analysis to the Board.

10. **Has the agency completed the course of action indicated in the agency's previous five-year-review report?**

The previous five-year-rule-review report was approved by GRRC on March 7, 2017 and stated that Articles 3 and 5 would be amended in FY17 and FY18. No amendments have been addressed at the time of completing the 2022 five-year-rule-review report. The Agency is not attempting to make excuses for why the rule amendments have not been addressed but the main reason would be due to a lack of stability with staffing. The Board has gone through a large amount of staff turnover, including two executive directors between 2018 and 2021 and a complete turnover in all support staff in 2021.

The current staff, executive director included, has been with the Agency since 2021. If the Agency is continued past March 31, 2023, the Board plans to begin addressing the rule amendments for Articles 3 and 5 in 2024.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

After reviewing the economic impact statements written at the time of rule promulgation, the Board has determined that the rules outweigh the probable costs of the rules. The rules impose the least burden and costs to applicants, licensees, or registrants and there are no less costly alternatives to the rules. The Board does intend to address Articles 3 and 5 however to ensure consistency with statute.

12. **Are the rules more stringent than corresponding federal laws?** Yes No X

A.R.S. § 32-1377 states that the Board's rules shall be as stringent as the federal trade commission regulations relating to funeral industry practices. When the Board wrote its rules it ensured that the rules were as stringent as but no more stringent than the federal trade commission regulations.

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:**

The Board does not issue general permits. Only individual licenses are issued to individuals who have met all of the requirements pursuant to the Board's statutes. Therefore, this provision and A.R.S. § 41-1037 does not apply to the Agency's rules.

14. **Proposed course of action**

Under House Bill 2123 that was passed in the 55th Legislature Second Regular Session, the Board is scheduled to sunset as of March 31, 2023. The Board is currently in the process of setting up stakeholder meetings that will determine the future of the Agency and regulation of the death care/funeral industry.

Should the Agency go through Sunrise Legislation, Articles 3 and 5 will be addressed and amended as the articles have not been amended since the previous five-year-rule-review report was filed. In addition to Articles 3 and 5, the Board intends to amend Article 6 as well. It was determined by the Arizona Auditor General's Office that the Agency does not have correlating rules for A.R.S. § 32-1399(2-7) and A.R.S. § 32-1399(10). To correct this deficiency, the Board intends to request an exemption to the rulemaking moratorium and draft the required correlating rules.

House Bill 2024, which was also passed during the 55th Legislature Second Regular Session, approved the Board to oversee licensure for alkaline hydrolysis facilities and operators. The bill will take effect on September 24, 2022 and outlines that requirements for licensure for alkaline hydrolysis facilities and operators be prescribed in rule. The Agency intends to request an exemption to the rulemaking moratorium for this circumstance as well. The request will cite Executive Order 2021-02(1)(f).

While a majority of the rules in Articles 1, 2 and 4 are effective and achieve their objectives, minor language updating is required. A handful of rules in all three articles need to be amended to address grammar errors, updating terminology and adjusting application processing time-frames and required continuing education hours.

As the future of the Agency is still unknown, it is difficult to provide a timeframe for when the amendments will be carried out. If the Board is continued, the Agency plans to begin working on amending all articles in 2024 and have the updates completed by December of 2025. The Agency also intends to beginning working with the Arizona Funeral, Cemetery, and Cremation Association and a rule writer in the fourth quarter of 2023 to draft the required rules for alkaline hydrolysis if the Board's exemption is granted.

 6. To reuse a casket or container previously purchased by or delivered to another decedent's family and intended for or used in connection with the burial, cremation or other final disposition of the previous decedent.  9. To make disparaging statements concerning the quality, utility, suitability or durability of inexpensive caskets or containers without basis in fact.
 10. To make false or misleading statements concerning or otherwise engage in deceptive, misleading or fraudulent practices in connection with the advertising, solicitation or sale of prearranged funeral plans.

 13. To disrupt the funeral arrangement process or funeral service, intimidate, harass or coerce a family member, with the intent to prevent such family member from exercising existing contractual or legal rights.

C. A licensee or a registrant who submits a renewal application and the applicable renewal fee after July 1 but before August 1 shall pay a late fee pursuant to section 32-1309 in addition to the renewal fee.

D. A licensee who fails to submit a renewal application and the applicable fee on or before August 1 shall apply for licensure as an original applicant. A person who submits a license application within three years after the date that the person's license expires is not required to pass the national board examination or state equivalent examination.

E. A registered assistant funeral director who fails to submit a renewal application and the applicable renewal fee on or before August 1:

1. Is not eligible for renewal of the person's registration.
2. May apply for a funeral director license pursuant to this article.

F. An embalmer's assistant who fails to submit a renewal application and the applicable renewal fee on or before August 1 may apply for reinstatement of the person's registration by submitting a completed reinstatement application on a form prescribed by the board and the applicable reinstatement fee within one year after the date that the person's registration expires.

G. An intern license may not be renewed more than three times.

32-1335. Out-of-state licensees

A. A person who holds an embalmer or funeral director license in good standing that was issued by the funeral services licensing authority of another jurisdiction and who desires an embalmer or funeral director license in this state shall meet the requirements and qualifications for licensure prescribed in this article.

B. Notwithstanding subsection A of this section, the board may waive the testing requirements of section 32-1322, subsection B, paragraph 1 and subsection C, paragraph 1 if the person has actively practiced embalming or funeral directing in another jurisdiction within the three years immediately preceding the date that the person applies for a license in this state and the board determines that the requirements for licensure in the other jurisdiction are equal to or more stringent than the requirements prescribed in this article.

C. A person who holds an intern license or its equivalent in good standing that was issued by the funeral services licensing authority of another jurisdiction and who desires an intern, embalmer or funeral director license in this state shall meet the requirements and qualifications for licensure prescribed in this article.

32-1338. Continuing education

A. A person who is licensed or registered pursuant to this article shall complete continuing education designed to educate the person regarding current skills and procedures and developments in the funeral industry. The board may prescribe in its rules the number of hours of continuing education required each year, not to exceed sixteen hours, and the subject matter that shall be covered.

B. The board shall waive the continuing education requirements for persons whose licenses have been placed on inactive status and for persons who are serving in the United States armed forces in time of war. The board may waive the continuing education requirement for good cause shown as prescribed in its rules.

32-1367. Investigations; initial review; disciplinary proceedings; civil penalty; letters of concern; rehearings

A. The board shall conduct an investigation when it receives a written complaint that appears to show the existence of any grounds for disciplinary action under this chapter or rules adopted pursuant to this chapter.

B. The board on its own initiative may investigate any information that appears to show the existence of any grounds for disciplinary action under this chapter or rules adopted pursuant to this chapter.

C. If it appears after an initial investigation that grounds for disciplinary action may exist, the board may either request an informal interview with the licensee or registrant or may issue a notice of a formal hearing. If the initial investigation indicates that suspension other than a temporary suspension imposed pursuant to subsection D of this section or revocation of a license, registration or endorsement may be warranted, the board shall schedule a formal hearing pursuant to title 41, chapter 6, article 10.

D. After completing an informal interview, the board may take any or all of the following disciplinary actions:

1. Issue a letter of censure or reprimand.

2. Impose probationary terms as the board deems necessary to protect the public health, safety and welfare and to rehabilitate or educate the licensee or registrant. Probationary terms imposed pursuant to this paragraph may include temporary suspension of a license, registration or endorsement for a period of not more than thirty days, restriction of the licensee's or registrant's right to practice pursuant to this chapter and a requirement that restitution be made to any funeral service consumer or other person who was injured by a violation of this chapter or rules adopted pursuant to this chapter. A licensee's or registrant's failure to comply with any probationary terms imposed pursuant to this paragraph is cause for the board to consider the entire case against the licensee or registrant and any other alleged violations of this chapter at a formal hearing.

3. Impose a civil penalty of not more than one thousand dollars for each violation.

E. After completing a formal hearing, the board may take any or all of the following disciplinary actions:

1. Issue a letter of censure or reprimand.

2. Impose probationary terms as the board deems necessary to protect the public health, safety and welfare and to rehabilitate or educate the licensee or registrant. Probationary terms imposed pursuant to this paragraph may include a requirement that restitution be made to any funeral service customer or other person who was injured by a violation of this chapter or rules adopted pursuant to this chapter.

3. Impose a civil penalty not to exceed three thousand dollars per violation.

4. Suspend a license, registration or endorsement for not more than ninety days for a first offense and not more than one hundred eighty days for a second offense.

5. Revoke a license, registration or endorsement.

F. If, as a result of information ascertained during an investigation, informal interview or formal hearing, the board determines that an alleged violation of this chapter or rules adopted pursuant to this chapter is not sufficiently serious to warrant disciplinary action, the board may issue a letter of concern to the licensee or registrant. The letter of concern shall advise the licensee or registrant of the possible violation.

G. If a licensee or registrant refuses to participate in an informal interview or a formal hearing, the board may take any or all of the disciplinary actions listed in subsections D and E of this section.

H. Before the board may revoke or suspend a license, registration or endorsement, other than a temporary suspension imposed pursuant to subsection D of this section, the board shall serve notice and conduct a hearing

in the manner prescribed in title 41, chapter 6, article 10.

I. After service of notice of a decision of the board suspending or revoking a license, registration or endorsement or imposing a disciplinary action on a licensee or registrant pursuant to subsection D or E of this section, a licensee may apply for a rehearing or review by filing a motion pursuant to title 41, chapter 6, article 10. The filing of a motion for a rehearing or review suspends the operation of the board's decision to impose a disciplinary action and allows the licensee or registrant to continue to practice pending a denial or granting of the petition and pending the decision of the board on rehearing if a rehearing is granted. The board also may grant a rehearing on its own motion if it finds newly discovered evidence or for any other reason that justifies a reconsideration of a matter.

J. Except as provided in section 41-1092.08, subsection H, any party who is aggrieved by a final order or decision of the board may appeal to the superior court pursuant to title 12, chapter 7, article 6.

K. All notices that the board is required to provide to any person under this chapter are fully effective by personal service or by mailing a copy of the notice by certified mail addressed to the person's last known address of record in the board's files. Notice by mail is complete at the time of its deposit in the mail.

L. In addition to the requirements of subsection K of this section, a funeral establishment or crematory shall file a notice with the board identifying the person on whom the board's notices relating to the funeral establishment or crematory shall be served.

32-1371. List of prices of funeral goods and services offered

A. The board shall adopt rules that require every licensee or registrant to give a standardized written or printed price list for retention to each person who personally inquires about funeral arrangements or prices of funeral goods or services. A funeral establishment shall offer each person the price list on beginning a discussion either of funeral arrangements or of the selection of funeral goods or services.

B. A price list shall be presented in an accurate and readable manner in order to facilitate price comparisons by funeral service consumers.

32-1372. Display of merchandise prices

The board shall adopt rules that require each funeral establishment to place a price card in a conspicuous place with each casket, alternative container, outer burial container or other item of funeral goods available for purchase. A funeral establishment shall place each price card in a location that enables a person to view the card without physically handling the card. Merchandise photographs must have the price of the merchandise displayed in a conspicuous manner.

32-1373. Statement of funeral goods and services

A. A licensee or registrant shall not enter into a contract to furnish funeral goods or services in connection with the burial or other disposition of a dead human body until the licensee or registrant has first delivered to the potential purchaser a written or printed statement of funeral goods and services that contains the following information, if this information is available at the time the contract is executed:

1. The total charge for the services of the licensee or registrant and the use of the funeral establishment, including the preparation of the body and other professional services, and the charge for the use of automotive and other necessary equipment.
2. An itemization of charges for the casket or alternative container and any outer burial container.
3. An itemization of fees or charges and the total amount of cash advances made by the licensee or registrant for transportation, flowers, cemetery or crematory charges, newspaper notices, clergy honorarium, transcripts, telegrams, long-distance telephone calls, music and any other advances authorized by the purchaser.
4. The method of payment and any interest charges.
5. An itemization of any fees or charges not included in paragraphs 1 through 4.
6. The total amount of charges itemized and included pursuant to this subsection.
7. The location where the deceased will be held, embalmed or cremated if the location is not the funeral establishment's premises.
8. A statement containing the name, address and phone number of any corporation, limited liability company, partnership or limited partnership that holds an ownership interest of ten per cent or more in the funeral establishment or crematory.

B. The statement of funeral goods and services delivered to the potential purchaser shall also contain a conspicuous statement informing the potential purchaser that a casket or outer burial container may be purchased and used, at the option of the purchaser, in connection with the funeral services and final disposition of human remains, but that, except as provided pursuant to section 36-136, the purchase or use of caskets or outer burial containers is not required by law.

C. A licensee or registrant shall not bill or cause to be billed any item that is referred to as a cash advanced item unless the net amount paid for the item or items by the funeral establishment is the same as the amount billed by the funeral establishment.

D. If the charge for any of the items prescribed in this section is not known at the time the contract is entered into, the licensee or registrant shall advise the purchaser of the charge for the item within a reasonable period after the information becomes available.

E. A funeral director shall certify a statement of funeral goods and services with the funeral director's license number and signature before conducting final services or within five days after the purchaser signs the statement, whichever is earlier.

32-1375. Price lists; telephone information

A. A licensee or registrant shall provide accurate information about the retail prices of funeral goods or services readily available for sale at the establishment at which the licensee or registrant is employed to any person inquiring about these prices by telephone.

B. If a person requests a price list by telephone, the establishment shall mail a price list to the caller and may charge a reasonable postage and handling fee of not more than two dollars.

32-1381. License requirement

A person shall not advertise or operate for compensation a funeral establishment without first obtaining a funeral establishment license or an interim permit issued by the board.

32-1382. Funeral establishment requirements; responsible funeral director

A. A funeral establishment licensed pursuant to this article shall:

1. Provide separate rooms for each of the following:

(a) An area inside the establishment that may be used as a chapel for conducting funeral services.

(b) A preparation room meeting minimum requirements adopted by the board that is maintained at all times in a sanitary and professional manner, with sanitary flooring, drainage and ventilation and that is equipped with instruments and supplies necessary for the protection of the health and safety of the public and employees of the establishment in connection with the preparation and embalming of dead human bodies. Nothing prohibits the embalming of a body at a central location.

(c) A display area for displaying funeral goods or the display of funeral goods by photograph or electronic means.

2. Provide access to hearses or funeral coaches that are properly equipped for the transportation of dead human bodies and that are kept in a sanitary and professional manner.

3. Employ and designate a responsible funeral director to manage and supervise the daily operation of the funeral establishment. The responsible funeral director is responsible for the funeral establishment complying with the laws of this state and the rules of the board. The establishment or the responsible funeral director shall designate a licensed funeral director to act as an interim responsible funeral director.

A. An applicant for a funeral establishment license shall submit a completed application on a form prescribed by the board. The application shall be subscribed under oath and shall be accompanied by the applicable fee pursuant to section 32-1309 and any additional information that the board deems necessary. A business entity that applies for a license pursuant to this article shall submit to the board with its application for licensure a copy of its partnership agreement, its articles of incorporation or any other organizational documents.

B. A person who applies for a license pursuant to this article, or if the applicant is a business entity, the proprietors, partners, officers and directors of the entity shall:

1. Be of good moral character.
2. Submit a completed fingerprint card, criminal history background information and a fingerprint background check fee to the board.

C. The board or the board's designee shall inspect the premises of a funeral establishment and investigate the character and other qualifications of all applicants for licensure.

D. If the board finds that the applicant meets the criteria for licensure under this article and rules adopted by the board, the board shall issue an establishment license.

32-1384. Multiple funeral director license

- A. An applicant for a license as a funeral director who is proposing to manage and supervise the operations of more than one funeral establishment shall apply on a form prescribed by the board and the application shall be accompanied by the prescribed fee for the additional establishment.
- B. The board shall review the application for a multiple funeral director license, and, if it is reasonable to believe that the funeral establishments can be adequately supervised and managed by the applicant, the board shall issue the license.
- C. A funeral director who holds a multiple funeral director license shall display the license at the establishment to which the license is issued. Unless otherwise stated in this article, a multiple funeral director license is renewable at the same time as the establishment license. A multiple funeral director license is not transferable without prior approval of the board.

32-1388. Nontransferability of funeral establishment licenses; change of ownership; interim permits; definition

A. A funeral establishment license issued by the board is not transferable or subject to sale or assignment, whether by voluntary or involuntary process.

B. When there is a change of ownership of a funeral establishment, the licensee shall notify the board in writing and shall surrender the license to the board within twenty days after the change of ownership. The new owner shall also notify the board in writing within twenty days after the change of ownership and shall submit an application for a funeral establishment license to the board pursuant to section 32-1383.

C. The board shall issue an interim permit to a new owner of a licensed funeral establishment to allow the new owner to continue the operation of the establishment during the period that the new owner's license application is pending if the following conditions are met:

1. The new owner notifies the board of the change of ownership and submits an application for an interim permit and the applicable fee pursuant to section 32-1309 at least three days, excluding Saturdays, Sundays and holidays, after the change takes place. Notice shall be given during regular business hours.

2. The funeral establishment continues to meet the requirements of section 32-1382.

D. An interim permit issued by the board pursuant to this section shall be for not more than forty-five days and shall not be extended except as provided in subsection E of this section. An interim permit is a conditional permit and authorizes the holder to operate a funeral establishment as would be permitted under a funeral establishment license issued pursuant to this article. The holder of an interim permit is subject to the licensing rules and disciplinary proceedings prescribed in this chapter and in rules adopted pursuant to this chapter.

E. Notwithstanding subsection D of this section, for good cause shown, the board may extend an interim permit for not more than forty-five days.

F. Until an interim permit is issued, the board shall keep confidential all notices filed with the board by the prospective new owner of a licensed funeral establishment pursuant to this section.

G. For the purposes of this section, "regular business hours" means between the hours of 8:00 a.m. and 5:00 p.m. on any day of the week other than Saturday, Sunday or any other legal holiday or a day on which the board is authorized or obligated by law or executive order to close.

32-1391.01. Powers and duties of board

A. The board shall adopt rules that:

1. Describe or define deceptive, misleading or professionally negligent practices concerning the offer or sale of prearranged funeral agreements funded by trust and the handling of these funds or accounts.
2. Implement and interpret consumer disclosure requirements of this article to provide adequate information to purchasers of prearranged funerals.
3. Prescribe funeral establishment recordkeeping requirements concerning prearranged funeral trust sales and trust accounts and the handling and disposition of trust funds.
4. Define terms and develop forms and procedures to implement this article.

B. The board shall enter into an intergovernmental agreement with the department of insurance and financial institutions to examine and report on prearranged funeral trust accounts of funeral establishments and to review prearranged funeral trust sales and trust account forms and procedures used by funeral establishments.

32-1391.02. Prearranged funeral agreements; restrictions on sales

A. A person shall not enter into a prearranged funeral agreement other than in accordance with the provisions of this article and the rules adopted pursuant to this article.

B. The board shall adopt rules that require every funeral establishment that sells prearranged funeral agreements to give a standardized written or printed price list for retention to each person who personally inquires about prearranged funeral agreements. On beginning a discussion regarding prearranged funeral agreements, a registered prearranged funeral salesperson or a licensed insurance producer who a funeral establishment employs or contracts with to sell prearranged funeral agreements funded by insurance shall present the price list to the consumer. The list shall be presented in an accurate and readable manner in order to facilitate price comparisons by consumers.

C. A prearranged funeral agreement shall be funded by insurance or trust. A funeral establishment or an agent or employee of a funeral establishment shall not accept payment for or agree to enter into any prearranged funeral agreement unless the name of a licensed funeral establishment appears on the statement of goods and services used in connection with the agreement and one of the following is true:

1. If the agreement is a prearranged funeral agreement funded by insurance, the funeral establishment employs or contracts with insurance producers who are licensed pursuant to title 20 to sell the funeral agreement.

2. If the agreement is a prearranged funeral agreement funded by trust, the establishment has been issued a prearranged funeral sales endorsement to its license and the salesperson has been issued a prearranged funeral salesperson registration by the board allowing the establishment and the person to sell prearranged funeral agreements funded by trust.

3. If the agreement is a payable on death account, the account is not under the control of the establishment. A funeral establishment or an agent or employee of a funeral establishment shall not accept a deposit for a payable on death account.

32-1391.05. Prearranged funeral agreements funded by trusts; definition

A. All monies paid under a prearranged funeral agreement funded by trust, except as provided in subsection B of this section, shall be deposited, within five business days after the receipt of the monies, in a prearranged funeral trust account with a financial institution doing business in this state. The monies shall be invested either in federally insured accounts, in which case the amounts so deposited shall not exceed the amount of the deposit insurance, or in direct obligations of the United States government. Federally insured accounts are defined as accounts insured by the federal deposit insurance corporation or the national credit union administration board. If invested in direct obligations of the United States government, the maturity dates of such obligations shall not exceed three years, unless rules adopted by the department of insurance and financial institutions permit a longer period and not less than five percent of the amounts so deposited shall at all times be deposited in federally insured accounts.

B. All monies paid under a fixed price prearranged funeral agreement funded by trust shall be deposited, within twenty-one calendar days or fifteen business days, whichever is shorter after the receipt of the monies, in a prearranged funeral trust account with a financial institution doing business in this state. In investing these monies the trustee shall exercise the judgment and care of a prudent investor under the prevailing circumstances.

C. Except as provided in this article:

1. All monies deposited in a prearranged funeral trust account and all accrued interest shall be held in the trust account for and remain the property of the beneficiary during the beneficiary's life and of the beneficiary's estate after the beneficiary's death.

2. A funeral establishment or another person shall not withdraw, transfer, remove, commingle, encumber or use as collateral any monies paid to the establishment under a prearranged funeral agreement funded by trust.

3. All monies deposited and accrued interest in a prearranged funeral trust account shall be exempt from attachment, garnishment, execution and claims of creditors, receivers and trustees of the funeral establishment other than the claims of the beneficiary or the beneficiary's estate.

4. All monies deposited and accrued interest in a prearranged funeral trust account up to a total of \$5,000 shall be exempt from attachment, garnishment, execution and claims of creditors, receivers and trustees of the beneficiary other than the claims of the funeral establishment.

D. A funeral establishment may direct the financial institution in which the trust monies are deposited to transfer the trust account to another financial institution after providing each participant in the trust with the name and location of the institution and the new trust account number.

E. For the purposes of this section, "prudent investor" means a person who exercises the same care and expertise as a person of ordinary prudence, diligence, discretion and judgment would exercise in the management of the property of others, not in regard to speculation, but in regard to the permanent disposition of the funds considering the probable income as well as the probable safety of the capital to be invested.

32-1391.06. Service fees; prearranged funeral agreements funded by trust

A. A funeral establishment may charge an initial service fee when a person enters into a prearranged funeral agreement funded by trust of not to exceed fifteen per cent of the total amount agreed to be paid by the purchaser pursuant to the prearranged funeral agreement. If the amount to be paid by the purchaser is to be paid in installments, no more than one-half of any payment made by the purchaser may be applied to the initial service fee. If the agreement is canceled prior to the completion of the agreement, any portion of the initial service fee that has not yet been paid under the agreement is no longer due and payable to the establishment. The portion of any payment by the purchaser that is to be applied to the initial service fee shall be paid to the funeral establishment and not to the trust account.

B. A funeral establishment may charge an annual service fee of not to exceed ten per cent of the interest that has accrued on the trust funds during the preceding calendar year. After each calendar year while a prearranged funeral agreement funded by trust is in effect a financial institution may release a portion of the trust funds equal to the annual service fee on receipt of a certificate of entitlement to an annual service fee from the funeral establishment.

C. The funeral establishment may direct the financial institution to pay, from time to time, from the monies in the trust account, any taxes that have accrued by reason of the income earned from funds deposited in the trust account. The payment may be made directly to the taxing authority or to the beneficiary of the trust account on the proper showing by the beneficiary that the beneficiary has paid the taxes. A financial institution may withdraw funds from the trust account, as previously agreed in writing, to pay reasonable and necessary charges for the administrative and investment management services provided by the financial institution.

32-1391.07. Cancellation; prearranged funeral agreements funded by trust

A. If a funeral establishment receives a written request from a purchaser of a prearranged funeral agreement funded by trust to terminate the agreement and refund the trust funds, the funeral establishment shall refund the remaining trust funds to the purchaser within five business days after it receives the request. A financial institution shall release the trust funds to the funeral establishment on receipt of a cancellation request signed by the purchaser and submitted by the funeral establishment. If the beneficiary is deceased, a written request to terminate the agreement may be submitted to the funeral establishment by the person designated on the prearranged funeral agreement, or if that person is not available, a request may be submitted by the person legally responsible for the beneficiary.

B. If a request to terminate the agreement is received from the purchaser within three business days after the execution of the agreement, the funeral establishment shall, within five business days after receiving the request, refund all monies paid under the agreement including the full amount of any initial service fee paid by the purchaser.

32-1391.08. Prearranged funeral agreements funded by trust; death of beneficiary.

A. After the death of a beneficiary of a prearranged funeral agreement funded by trust, the financial institution shall release a portion of the remaining trust funds equal to the funeral establishment's charges for funeral goods and services for the beneficiary's funeral arrangement to the funeral establishment on receipt of the beneficiary's certified death certificate and a certificate from the funeral establishment stating that it provided the requested funeral goods and services and stating the total charges for those goods and services.

B. After the death of a beneficiary of a fixed price prearranged funeral agreement funded by trust, the financial institution may release a portion of the trust funds equal to the funeral establishment's charges for the beneficiary's funeral arrangements and all then accrued interest on the trust funds to the funeral establishment on receipt of the beneficiary's certified death certificate and a certificate from the establishment stating that it provided the requested funeral goods and services, stating that the establishment agreed to fix the prices of those goods and services and the purchaser agreed to convey the accrued interest on performance of the funeral arrangements and stating the total charges for those goods and services.

C. If any trust funds remain after disbursement to the funeral establishment, the remaining funds shall be paid to the estate of the beneficiary.

D. If the funeral establishment does not provide funeral goods and services for the beneficiary's funeral arrangements within thirty days after the death of the beneficiary, all remaining trust funds shall be paid immediately to the estate of the beneficiary. This shall not be the exclusive remedy available to the purchaser or the estate of the beneficiary if there has been a breach of contract.

E. If the funeral establishment provides any funeral goods or services to the purchaser or beneficiary before the death of the beneficiary, the provision shall not constitute performance under the prearranged funeral agreement and shall not entitle the funeral establishment to any portion of the trust funds.

32-1391.09. Prearranged funeral agreements funded by trust; consumer disclosures

A. Each prearranged funeral agreement funded by trust shall contain the following conspicuous notice that shall be initialed by the purchaser:

32-1391.14. Prearranged funeral salespersons; registration requirements; renewal; exemption

8. Submits a completed fingerprint card and the prescribed fingerprint background check fee to the board.
9. Provides any other relevant information reasonably required by the board.

B. Except as provided in section 32-4301, a prearranged funeral sales registration shall be renewed annually by the prearranged funeral salesperson by payment of the prescribed renewal fee pursuant to section 32-1309 and by compliance with the requirements described in subsection A, paragraphs 2, 3, 4, 5, 7 and 8 of this section on or before July 31.

C. Failure to pay the renewal fee by July 31 voids the registration. A registration voided under this subsection may be reinstated upon payment of the prescribed renewal and reinstatement fees.

D. No person licensed by the board as a funeral director or embalmer is required to take the examination required by subsection A, paragraph 6 of this section.

32-1391.16. Annual trust report

A. On or before May 1, each funeral establishment holding a prearranged funeral sales endorsement shall file an annual report with the board concerning its prearranged funeral sales and trust account activities during the preceding calendar year.

B. The funeral establishment shall pay the annual report fee prescribed in section 32-1309 when the annual report is filed.

C. The annual report shall contain the following information sworn to by the owner or owners of the funeral establishment:

1. The names and addresses of persons who were sold prearranged funerals funded by trust by the funeral establishment during the preceding calendar year, the names of the persons who are to be the beneficiaries of the prearranged funerals and the name of the registered salesperson selling each prearranged funeral.

2. The total contract amount for each purchaser listed in paragraph 1 of this subsection, the total monies previously paid on each contract and the monies paid by and refunded to the purchaser on each contract during the preceding calendar year.

3. The total trust funds contained in the funeral establishment's prearranged funeral trust accounts as of the end of the preceding calendar year and the total funds received in the trust accounts during that year.

4. The total monies, if any, received from purchasers but not deposited in the trust accounts as of the end of the preceding calendar year, excluding initial service fees received by the funeral establishment.

5. The names, registration numbers and addresses of all salespersons employed or otherwise engaged by the funeral establishment during the preceding calendar year and the names and registration numbers of all salespersons terminated during that year.

6. The names and addresses of the financial institutions where the trust funds are on deposit and the account number of each account.

7. A statement of the owner of the funeral establishment that the establishment has complied with this article and rules adopted pursuant to this article.

8. Other information required by the board.

D. Each funeral establishment that does not offer or sell prearranged funerals funded by trust or hold a prearranged funeral sales endorsement shall file with the board the annual report described in subsection C of this section concerning all prearranged funeral trust accounts established before January 1, 1985 and in existence during the preceding calendar year on or before May 1. For the purposes of this subsection, "prearranged funeral trust account" includes all prearranged funeral trust accounts or funds established pursuant to laws in existence before January 1, 1985.

E. The board shall provide the department of insurance and financial institutions with a copy of each annual report filed pursuant to this section.

32-1394. Crematory requirements; responsible cremationist

A crematory licensed pursuant to this article shall:

2. Maintain a holding facility that is secure from access by anyone other than employees of the crematory and public officials in the performance of their official duties, that complies with applicable public health laws, that protects the health and safety of employees of the crematory and that preserves the dignity of human remains in the facility.
3. Possess all equipment and supplies that are necessary to conduct cremations in a manner that provides protection for the health and safety of persons in attendance at a cremation and employees of the crematory.
4. Employ and designate a responsible cremationist who is licensed pursuant to this article and who is trained in crematory operations to manage the daily operation of the crematory. The responsible cremationist is responsible for the crematory complying with the laws of this state and the rules of the board or the rules of the department of real estate, as applicable. The crematory or the responsible cremationist shall designate a licensed cremationist to act as an interim responsible cremationist.

32-1394.01. Application; qualifications for cremationist licensure; licensure requirement for responsible cremationists

- A. An applicant for a cremationist license shall submit a completed application on a form prescribed by the board. The application shall be subscribed under oath and shall be accompanied by the applicable fee pursuant to section 32-1309 and any additional information that the board deems necessary.
- B. An applicant for a cremationist license shall be of good moral character and shall submit a completed fingerprint card and the prescribed fingerprint records check fee to the board to enable the board or the department of public safety to conduct a criminal records check.
- C. An applicant for a cremationist license shall meet the educational requirements as prescribed by the board in rule.
- D. If the board finds that the applicant meets the criteria for cremationist licensure under this section and under rules adopted by the board, the board shall issue a cremationist license.
- E. Notwithstanding any other law, a responsible cremationist is required to be licensed pursuant to this article. Any other cremationist may be licensed pursuant to this article but, if not licensed, may engage only in cremation activity that is allowed without a license.

32-1395. Application; qualifications for licensure

A. An applicant for a crematory license shall submit a completed application on a form prescribed by the board. If the applicant is a business entity, the entity shall direct a natural person who is an owner of the entity to submit its application. The application shall be subscribed under oath, shall contain the name of the responsible cremationist and shall be accompanied by the applicable fee pursuant to section 32-1309 and any additional information that the board deems necessary. 1. Be of good moral character.
2. Submit a completed fingerprint card, criminal history background information and a fingerprint background check fee to the board.

C. The board or the board's designee shall inspect the premises of a crematory and investigate the character and other qualifications of all applicants for licensure pursuant to this article to determine whether the crematory and the applicants are in compliance with the requirements of this article and rules adopted by the board.

D. If the board finds that the applicant meets the criteria for licensure under this article and rules adopted by the board, the board shall issue a crematory license.

32-1399. Crematories; standards of practice

The board shall adopt rules that establish standards equivalent to section 32-1307, subsection A, paragraph 5 for the regulation of crematories and cremation and that include the following:

1. A crematory shall develop, implement and maintain a written procedure for the identification of human remains that ensures that remains can be identified from the time that a crematory accepts the delivery of the remains until the cremated remains are released to the authorizing agent. The identification procedures shall require the crematory to comply with the requirements of this section. The crematory shall not open a container containing human remains, except under the personal supervision of a licensed funeral director, or embalmer, or a responsible cremationist licensed pursuant to this article and trained in crematory operations to manage the daily operation of the crematory. After taking custody of human remains, a crematory shall immediately verify the identification attached to the casket or cremation container and assign an identification number. The crematory shall not accept unidentified caskets or cremation containers. The identification shall include the name and address of the deceased, the name and relationship of the authorizing agent, the name of the person or entity engaging the crematory services, a valid cremation permit issued by a government agency and a metal cremation disk containing the identification number. The disk shall be placed with the deceased during cremation.
2. If a crematory is unable to cremate the human remains immediately after taking custody, the crematory shall store the remains in a holding facility that is secure from access by anyone other than employees of the crematory and public officials in the performance of their duty and that complies with applicable public health laws, preserves the dignity of the human remains and protects the health of employees of the crematory.
3. A crematory shall not accept a casket or cremation container from which there is evidence of leakage of body fluids from the human remains and shall not hold human remains for cremation unless they are contained in an individual, closed casket or rigid cremation container of combustible material that preserves the dignity of the human remains and that protects the health of employees of the crematory. Human remains that are not embalmed shall be held by the crematory in a refrigerated holding facility or in compliance with applicable public health laws.
4. All body prostheses, bridgework or similar items removed from the cremated remains shall be disposed of by the crematory unless an alternative disposition is agreed to in the authorization to cremate.
5. After cremation, the crematory as far as practicable shall remove visible parts of the residual of the cremation process from the retort, shall not combine the cremated or processed remains with other cremated or processed remains and shall attach the identification of the cremated or processed remains to the temporary container or urn into which the remains are placed.
6. The crematory shall place cremated or processed remains in a temporary container or urn. Extra space may be filled with clean packing material that will not combine with the cremated or processed remains. The lid or top shall be securely closed. Any cremated or processed remains that do not fit in the temporary container or urn shall be returned in a separate container or, with permission of the authorizing agent, disposed of by the crematory.
7. A crematory may dispose of cremated or processed remains in any legal manner directed by a document prepared pursuant to section 32-1365.01 or agreed to by the authorizing agent. If the authorizing agent agrees to take possession and does not take possession of the remains within thirty days after cremation or on an agreed date, the crematory shall send written notice to the last known address of the authorizing agent to take possession. Ninety days after the notification is sent or delivered, the crematory may dispose of the cremated or processed remains in any legal manner.
8. Unless the deceased has prepared a document pursuant to section 32-1365.01, the crematory shall obtain an authorization to cremate from the authorizing agent that shall contain a provision holding the crematory harmless for the disposition of unclaimed cremated or processed remains.

9. All employees of the crematory who handle dead human bodies shall use universal precautions and shall otherwise exercise reasonable care to minimize the risk of transmitting any communicable disease from a dead human body.

10. Unless the deceased has prepared a document pursuant to section 32-1365.01, employees of the crematory shall not remove a dead human body from the container in which it is delivered to the crematory without the express written consent of the authorizing agent. If, after accepting a dead human body for cremation, employees of a crematory discover that a mechanical or radioactive device is implanted in the body, an embalmer licensed pursuant to article 2 of this chapter shall remove the device from the body before cremation takes place.

11. A crematory shall keep an accurate record of all cremations performed, including dispositions of cremated and processed remains, for not fewer than five years after the cremation.

39-121.03. Request for copies, printouts or photographs; statement of purpose; commercial purpose as abuse of public record; determination by governor; civil penalty; definition

A. When a person requests copies, printouts or photographs of public records for a commercial purpose, the person shall provide a statement setting forth the commercial purpose for which the copies, printouts or photographs will be used. Upon being furnished the statement the custodian of such records may furnish reproductions, the charge for which shall include the following:

1. A portion of the cost to the public body for obtaining the original or copies of the documents, printouts or photographs.
2. A reasonable fee for the cost of time, materials, equipment and personnel in producing such reproduction.
3. The value of the reproduction on the commercial market as best determined by the public body.

B. If the custodian of a public record determines that the commercial purpose stated in the statement is a misuse of public records or is an abuse of the right to receive public records, the custodian may apply to the governor requesting that the governor by executive order prohibit the furnishing of copies, printouts or photographs for such commercial purpose. The governor, upon application from a custodian of public records, shall determine whether the commercial purpose is a misuse or an abuse of the public record. If the governor determines that the public record shall not be provided for such commercial purpose the governor shall issue an executive order prohibiting the providing of such public records for such commercial purpose. If no order is issued within thirty days of the date of application, the custodian of public records shall provide such copies, printouts or photographs upon being paid the fee determined pursuant to subsection A.

C. A person who obtains a public record for a commercial purpose without indicating the commercial purpose or who obtains a public record for a noncommercial purpose and uses or knowingly allows the use of such public record for a commercial purpose or who obtains a public record for a commercial purpose and uses or knowingly allows the use of such public record for a different commercial purpose or who obtains a public record from anyone other than the custodian of such records and uses it for a commercial purpose shall in addition to other penalties be liable to the state or the political subdivision from which the public record was obtained for damages in the amount of three times the amount which would have been charged for the public record had the commercial purpose been stated plus costs and reasonable attorney fees or shall be liable to the state or the political subdivision for the amount of three times the actual damages if it can be shown that the public record would not have been provided had the commercial purpose of actual use been stated at the time of obtaining the records.

D. For the purposes of this section, "commercial purpose" means the use of a public record for the purpose of sale or resale or for the purpose of producing a document containing all or part of the copy, printout or photograph for sale or the obtaining of names and addresses from public records for the purpose of solicitation or the sale of names and addresses to another for the purpose of solicitation or for any purpose in which the purchaser can reasonably anticipate the receipt of monetary gain from the direct or indirect use of the public record. Commercial purpose does not mean the use of a public record as evidence or as research for evidence in an action in any judicial or quasi-judicial body.

41-1072. Definitions

In this article, unless the context otherwise requires:

1. "Administrative completeness review time frame" means the number of days from agency receipt of an application for a license until an agency determines that the application contains all components required by statute or rule, including all information required to be submitted by other government agencies. The administrative completeness review time frame does not include the period of time during which an agency provides public notice of the license application or performs a substantive review of the application.
2. "Overall time frame" means the number of days after receipt of an application for a license during which an agency determines whether to grant or deny a license. The overall time frame consists of both the administrative completeness review time frame and the substantive review time frame.
3. "Substantive review time frame" means the number of days after the completion of the administrative completeness review time frame during which an agency determines whether an application or applicant for a license meets all substantive criteria required by statute or rule. Any public notice and hearings required by law shall fall within the substantive review time frame.

STATE LAND DEPARTMENT

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: November 1, 2022

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: October 12, 2022

SUBJECT: STATE LAND DEPARTMENT
Title 12, Chapter 5, Articles 7-9, 11

Summary

This Five-Year Review Report from the State Land Department (Department) relates to eleven rules in Title 12, Chapter 5, Articles 7 through 9 and 11. These articles cover the following topics:

- **Article 7** governing Special Leasing Provisions contains three rules: agricultural leases (R12-5-702), grazing leases (R12-5-703), and commercial leases (R12-5-705)
- **Article 8** governing Right-of-way contains two rules: one pertaining to rights-of-way generally (R12-5-801) and one specifically for Reservoir, Dams, and Other Sites (R12-5-802).
- **Article 9** governing Exchanges contains five rules pertaining to scope of rules (R12-5-901), definitions (R12-5-902), application (R12-5-904), maps and photographs (R12-5-910), and controversy as to title or leasehold rights (R12-5-918).
- **Article 11** governing Special Use Permits (also known as Special Land Use Permits) contains one rule (R12-5-1101 Policy; Use of Lands).

The Department's previous review of the rules in Title 12, Chapter 5 Articles 7, 8, 9, & 11, which was approved by the Council in January 2018, stated, at that time, that many of the rules should be amended. Specifically, the Department stated that it recognized the flaws within

the rules and planned to amend them to strike language that is inconsistent with statute, agency operations, or the Arizona Constitution. Also, the Department stated in the previous report that language should also be added and modified to improve clarity and conciseness. The Department indicated in the previous report that it intended to begin the rulemaking process to amend the rules by March 2019. The Department indicates, when resources allowed, the Department pursued a rulemaking for a separate set of Articles, but did not attempt to amend the rules herein. The Department states fiduciary duties to Trust beneficiaries, current economic conditions, and continuous constraints on internal resources limit the Department's allocation of resources to rulemaking.

Proposed Action

Despite issues identified in the prior and current reports, as outlined in more detail below, the Department states fiduciary duties to Trust beneficiaries, current economic conditions, and continuous constraints on internal resources limit the Department's allocation of resources to rulemaking. As such, the Department indicates it does not intend to amend any of these rules at this time. The Department further states, as resources and stakeholder involvement allow, the Department may consider a rulemaking to any of its rules in Title 12, Chapter 5.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states it is not a regulatory agency. The Department indicates it functions as the trustee of the State's 9.2 million acres of land and associated natural resources held in trust ("Trust Land") for enumerated beneficiaries, the largest of which is K-12 public schools. The Department states there is no current economic impact statement (EIS) to compare with a previous EIS.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department believes the rules impose the least burden and regulatory burden and costs to persons regulated by them because the costs and burdens mainly lie in Department administration. However, Council staff notes, as outlined in more detail below, those rules that are inconsistent regarding the amount of fees charged, provide inconsistent lease application requirements, or are inconsistent with statute, may impose unnecessary burdens on those who are regulated by the rules. For example, the Department states in the current report that R12-5-801(C)(5)(c)(iii) and (D)(8) articulate an overly burdensome payment method for municipalities and other government entities.

As such, Council staff encourages the Council to follow up with the Department regarding its cost-benefit and least burdensome analysis pursuant to A.R.S. § 41-1052(D)(3) in light of the identified inconsistencies and overly burdensome requirements.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it has not received any written criticisms of the rules over the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates that most of the rules reviewed are clear, concise, and understandable, except for the following rule:

- **R12-5-705** (Grazing Leases): The Department indicates the rule is not clear, concise, or understandable as it is inconsistent with statute or agency operations. Specifically, the Department notes R12-5-705(C) is inconsistent in that it specifies only one section may be applied for per application for an initial lease whereas the Department currently allows new and renewal applications to include an entire ranch unit covering multiple sections, while a fee is charged for each section covered in the application pursuant to R12-5-1201.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates that the rules are consistent with other rules and statutes except for the following rules:

- **R12-5-702** (Agricultural Leases): R12-5-702H)(1)(b) is inconsistent with the filing fees delineated in A.A.C. R 12-5-1201, which was promulgated after this rule. The difference in the fee is \$50.
- **R12-5-705** (Grazing Leases): the Department notes R12-5-705(C) is inconsistent in that it specifies only one section may be applied for per application for an initial lease whereas the Department currently allows new and renewal applications to include an entire ranch unit covering multiple sections, while a fee is charged for each section covered in the application pursuant to R12-5-1201.
- **R12-5-801** (Right-of-way):
 - R12-8-801(C)(2) is inconsistent with agency operations as the agency does not require an application for each county crossed because it would be overly burdensome to implement;
 - R12-8-801(C)(8)(c) is inconsistent with agency operations because the commencement date is not the date that the instrument is mailed to the applicant, as stated, but rather it is the date of in-house review, or, if required, the day after the review by the Board of Land Appeals or of the auction;
 - R12-8-801(E)(1)(a) is inconsistent with agency operations because the Department does not require applications to place improvements for Right-of-Way grantees as it does for Commercial Lessees.

- **R12-5-802** (Reservoir Dams and Other Sites): R12-5-802(B) is partially inconsistent with A.R.S. § 37-461(C) in that site leases in excess of ten years are not, in fact, required to be advertised and sold at public auction – it is fifty years.
- **R12-5-1101** (Policy; Use of lands): R12-5-1101(12)(a) is inconsistent with R12-5-1201 governing fees which the Department adheres to.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are mostly effective in achieving their objectives, except where inconsistent with statute or agency operations, as noted above. Furthermore, the Department indicates that rule R12-5-801 is ineffective in that subsections R12-5-801(C)(5)(c)(iii) and (D)(8) articulate an overly burdensome payment method for municipalities and other government entities.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are generally enforced as written except for those rules indicating fees charged, which are superseded by fees outlined in rule R12-5-1201, and rule R12-5-802 where site leases in excess of fifty (50) years are required to be advertised and sold at public auction, rather than the current rule language which states ten (10) years.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

Not applicable. The Department indicates there are no federal laws applicable to these rules.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Not applicable. The Department indicates the rules reviewed pursuant to this report were adopted before July 29, 2010.

11. Conclusion

This Five-Year Review Report from the State Land Department (Department) relates to eleven rules in Title 12, Chapter 5, Articles 7 through 9 and 11. As indicated above, the Department has identified rules that are not clear, concise, understandable, consistent, effective, or enforced as written. However, the Department states fiduciary duties to Trust beneficiaries, current economic conditions, and continuous constraints on internal resources limit the Department's allocation of resources to rulemaking. As such, the Department indicates it does not intend to amend any of these rules at this time. The Department further states, as resources and stakeholder involvement allow, the Department may consider a rulemaking to any of its rules in Title 12, Chapter 5.

Council staff encourages the Council to follow-up with the agency regarding a proposed course of action to address the issues identified in this report, some of which were also identified in the Departments prior report, approved by the Council in January 2018.

FIVE-YEAR RULE REVIEW REPORT

Submitted to

THE GOVERNOR'S REGULATORY REVIEW COUNCIL

ARIZONA STATE LAND DEPARTMENT

"Serving Arizona's Schools and Public Institutions Since 1915"

**TITLE 12 – Natural Resources
CHAPTER 5 – State Land Department**

Article 7 – Special Leasing Provisions

Article 8 – Right-of-way

Article 9 – Exchanges

Article 11 – Special Use Permits

Submitted July 29, 2022

Abstract of Rules Analyses

The Administrative Procedures Act (“APA”) mandates a periodic review of agency rules. A.R.S. § 41-1056 provides criteria by which an agency must examine each rule, compile the examination into a report, and submit the report to the Governor’s Regulatory Review Council (the “Council”) for review. The Arizona State Land Department (the “Department”) is scheduled to file a review of its rules under Title 12, Chapter 5, Articles 7, 8, 9 and 11 with the Council by the end of July 2022. The Department’s rules are published in the Arizona Administrative Code (“A.A.C.”) Title 12, Chapter 5, Articles 1 through 25 and can be found on the Arizona Secretary of State’s website.

The Department is not a regulatory agency. It functions as the trustee of the State’s 9.2 million acres of land and associated natural resources held in trust (“Trust Land”) for enumerated beneficiaries, the largest of which is K-12 public schools. The trust status of the lands granted to the State imposes obligations and constraints, specifically fiduciary duties to the beneficiaries, that would not apply if the State held the land outright. The Department’s management of the Trust is governed by the New Mexico-Arizona Enabling Act (Sections 24-30), the Arizona Constitution (Article X), and state statutes (Arizona Revised Statutes Titles 27 and 37). In addition, case law governs the Department’s procedures and management in that it interprets the Department’s governing legislation.

Within this report, the Department evaluated 11 separate rules relating to Articles 7, 8, 9 and 11. Article 7 governing Special Leasing Provisions contains three rules: agricultural leases (R12-5-702), grazing leases (R12-5-703), and commercial leases (R12-5-705). Article 8 governing Right-of-way contains two rules: one pertaining to rights-of-way generally (R12-5-801) and one specifically for Reservoir, Dams, and Other Sites (R12-5-802). Article 9 governing Exchanges contains five rules pertaining to scope of rules (R12-5-901), definitions (R12-5-902), application (R12-5-904), maps and photographs (R12-5-910), and controversy as to title or leasehold rights (R12-5-918). Article 11 governing Special Use Permits (also known as Special Land Use Permits) contains one rule (R12-5-1101 Policy; Use of Lands).

Legend of Factors Used in Analysis pursuant to A.A.C. R1-6-301(A)

Each rule required to be reviewed in this report has been analyzed according to the following factors:

1. General and specific authority, including any statute that authorizes the agency to make rules;
2. Objective of the rule, including the purpose for the existence of the rule;
3. Effectiveness of the rule in achieving the objective, including a summary of any available data supporting the conclusion reached;
4. Consistency of the rule with state and federal statutes and other rules made by the agency;
5. Agency enforcement policy, including whether the rule is currently being enforced and, if so, whether there are any problems with enforcement;
6. Clarity, conciseness, and understandability of the rule;
7. Summary of the written criticisms of the rule received by the agency within the five years immediately preceding the five-year review report;
8. A comparison of the estimated economic, small business and consumer impact with prior economic impact statement or assessment;
9. Any analysis submitted to the agency by another person regarding the rule's impact on this State's business competitiveness;
10. If applicable, how the agency completed the course of action indicated in the agency's previous five- year review report;
11. A determination that the rule's probable benefits outweigh the probable costs and that rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective;
12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law;
13. For a rule adopted after July 29, 2010, that requires issuance of a regulatory permit, license or agency authorization, whether the rule complies with A.R.S. § 41-1037; and
14. Course of action the agency proposes to take regarding each rule.

Identical Information for All the Rules

Pursuant to A.A.C. R1-6-301(B), rules reviewed within the same report that render identical answers for any factor or factors delineated above shall have those identical answers provided only once. The rules contained in this report are identical in the following ways:

7. Written Criticisms:

No written criticisms of this rule were received in the last five years and since the last 5YRRR was submitted to GRRC.

8. Economic impact comparison:

There is no current EIS to compare with a previous EIS. However, specific revenues and general economic impacts of activities that are governed by these rules are included in this EIS following the analyses of rules.

9. External Analysis of impact of State's business competitiveness:

The Department has not received any external analysis of the rules' impact on Arizona's business competitive position.

10. Previous 5yRR Report Course of Action:

The Department previously submitted a review of the rules in Articles 7, 8, 9, & 11 in 2017 and stated, at that time, that many of the rules should be amended. The Department intended to begin that process by March 2019. When resources allowed, the Department pursued a rulemaking for a separate set of Articles but did not attempt to amend the rules herein. Fiduciary duties to Trust beneficiaries, current economic conditions, and continuous constraints on internal resources limit the Department's allocation of resources to rulemaking.

11. Cost v. Benefit and Least Burden Analysis:

The rules impose the least regulatory burden and costs to persons regulated by them because the costs and burdens mainly lie in Department administration.

12. Comparison with Federal Law:

There are no federal laws that apply to these rules.

13. A.R.S. § 41-1037 Compliance:

The rules were adopted prior to July 29, 2010, so this factor was not analyzed for § 41-1037 Compliance.

14. Proposed Course of Action:

Fiduciary duties to Trust beneficiaries, current economic conditions, and continuous constraints on internal resources limit the Department's allocation of resources to rulemaking, so the Department does not intend to amend any of these rules at this time. As

resources and stakeholder involvement allow, the Department may consider a rulemaking to any of its rules in Chapter 5, Title 12.

ANALYSES OF RULES

Article 7. Special Leasing Provisions

A.A.C. Rule 12-5-702 Agricultural Leases

- 1. Statutory Authority:**

The rule is enforced.
- 6. Clear, concise, and understandable:**
The rule is generally clear, concise, and understandable.

A.A.C. Rule 12-5-703 Commercial Leases

The objectives of the rule are to clarify and direct the application process for grazing leases and to clarify grazing lease requirements and restrictions.

3. Effectiveness:

The rule is mostly effective in articulating grazing lease requirements. However, some subsections of the rule are ineffective where inconsistent with statute or agency operations, as noted below.

4. Consistency:

The rule is inconsistent in the following way: Subsection (C) is inconsistent in that: it specifies only one section may be applied for per application for an initial lease whereas the Department currently allows new and renewal applications to include an entire ranch unit covering multiple sections, while a fee is charged for each section covered in the application pursuant to R12-5-1201.

5. Enforcement policy:

The rule is enforced.

6. Clear, concise, and understandable:

The rule is not clear, concise, and understandable.

4. Consistency:

The rule is mostly consistent, yet inconsistent in the following minor ways:

Subsection (C)(2) is inconsistent with agency operations as the agency does not require an application for each county crossed because it would be overly burdensome to implement;

Subsection (C)(8)(c) is inconsistent with agency operations because the commencement date is not the date that the instrument is mailed to the applicant, as stated, but rather it is the date of in-house review, or, if required, the day after the review by the Board of Land Appeals or of the auction;

Subsection (E)(1)(a) is inconsistent with agency operations because the Department does not require applications to place improvements for Right-of-Way grantees as it does for Commercial Lessees.

5. Enforcement policy:

The rule is enforced.

6. Clear, concise, and understandable:

The rule is clear, concise, and understandable.

A.A.C. Rule 12-5-802 Reservoir Dams and Other Sites

1. Statutory Authority:

A.R.S. §§ 37-132 & 37-461

3. Effectiveness:

The rule is effective.

4. Consistency:

The rule is consistent in part, yet inconsistent in the following way: Subsection (B) is partially inconsistent with A.R.S. § 37-461(C) in that site leases in excess of ten years are not, in fact, required to be advertised and sold at public auction – it is fifty years.

5. Enforcement policy:

The rule is enforced except as to auctions of site leases for terms over 10 years but not over 50 years.

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

As of Fiscal Year 2021, the Department held: 348 Agricultural Leases covering 157,920 acres of Trust Land which generated \$4,265,005 in income; 1,196 Grazing Leases covering 8,344,576 acres which generated \$2,749,775 in income; 273 Commercial Leases covering 70,274 acres which generated \$31,888,877 in income; 7,818 Right-of-Way Grants covering 128,567 acres which generated \$9,614,946 in income; and 652 Use Permits covering 600,900 which generated \$4,419,661 in income.

The rental payments from all of the above leases are deposited into funds managed by the State Treasurer and distributed directly to the beneficiaries on a monthly basis. In addition to the direct impacts to the 13 beneficiaries of Trust Land, activities on Trust Lands provides opportunities for the labor force and businesses that supply services and goods directly, as well as support for local businesses that sell services, consumer goods, groceries, and other personal and family needs. Economic development is increased by rights-of-way that provide for the development of roads and utilities, and taxes are paid by the companies and individuals who engage in activities on Trust Land. The taxes are then utilized by the State, county, and local governments to support schools, create infrastructure, and provide government and community services.

a. The term of an agricultural lease of undeveloped agricultural land shall not exceed two years.

B. Application for lease of lands not classified as agricultural. An application for an agricultural lease of lands not classified as agricultural shall be accompanied by an application for reclassification as provided by the general rules and regulations governing leasing of state lands.

C. Application for agricultural lease

1. Application for an agricultural lease shall be made upon the appropriate form as provided by the Department and in accordance with the general rules and regulations governing the leasing of state lands.

a. Each application shall be limited to the lands in one section or part thereof.

D. Rental rates; appraisal

1. No agricultural lease shall provide for a rental less than the appraised rental value of the leased land, and in no event a rental less than \$1.00 per acre per annum.

2. Minimum rental for each agricultural lease shall be \$10.00 per annum; provided, however, that the minimum rental of \$10.00 per annum shall apply to each section or portion thereof covered by the lease.

E. Number of leases issued on farm unit

1. Ordinarily, leases issued by the Department will combine into one lease, all contiguous and adjoining state agricultural lands within the lessee's farm unit.

a. It is recognized that such consolidation may work hardship on the lessee because of the resultant common due date of rentals.

i. A lessee thus affected and desirous of dividing his lease may make application to the Department to do so. Such application shall be in writing, setting forth the reasons therefor in such detail as to enable the Department to act with full knowledge of the circumstances.

ii. If such application is approved by the Department, division of the lease will be made in as reasonable a manner as possible, compatible with the best interests of the state.

F. Agricultural lease form; provisions. Agricultural leases shall be made on the appropriate form provided by the Department, and shall contain such provisions and supplemental conditions as may be prescribed by the Commissioner in accordance with the provisions of the law and Department rules and regulations.

1. The first allowable acts of development on the leased premises under an agricultural development lease shall include only those necessary and incident to the acquisition of a water supply adequate for the development of the leased acreage.

2. The placing of any improvement not necessary to the accomplishment of subsection (A) above shall not be approved until after the acquisition of such water supply has been accomplished or assured and in all cases only after proper application made and approval had in accordance with the provisions of the Department's rules and regulations in regard to permits to place improvements.

3. When rules and regulations promulgated by state or federal regulatory agencies would affect state lands or crops grown thereon, and when, in his opinion, the best interests of the state would be so served, the State Land Commissioner may require the lessee to conform with these regulatory practices to prevent the deterioration of the soil or crops grown thereon. If the lessee fails to comply with the requirements of the Commissioner, the Commissioner may have the required remedial work accomplished and bill the lessee the amount due the Department. Failure by the lessee to pay for such remedial work will, after the proper notice, subject the lease to forfeiture for nonpayment and noncompliance.

H. Application for renewal; right of renewal; developmental lease

1. Application for renewal of an agricultural lease shall be made on the appropriate form provided by the Department and in accordance with the general rules and regulations governing leasing of state lands.

- b. The filing fee for each application shall be the same as for an initial application.
2. A preferred right of renewal of an agricultural development lease shall not extend to a lessee who has not acquired a water supply deemed by the Commissioner to be adequate.
3. Proper diligence on the part of the lessee toward complete agricultural subjugation and development of the land under lease shall be the measure for the Commissioner's determination as to whether renewal of an agricultural development lease is in the best interests of the State.

I. Application to assign lease

1. Application to assign and application for assumption of lease shall be made on the appropriate form provided by the Department and in accordance with the general rules and regulations governing leasing of state lands.

a. Upon approval of the application, the assignment will be noted on the lease and made of record in the Department.

A.A.C. R12-5-703

R12-5-703. Commercial Leases

Currentness

A. Scope of commercial leasing rules. An applicant for a commercial lease shall be subject to the general leasing rules enumerated, *supra*. Such applicant shall also be subject to the commercial leasing rules set out, *infra*. In a commercial leasing situation where the general leasing rules and the commercial leasing rules conflict, the latter rules shall be controlling.

B. Lands subject to commercial lease. All state lands classified as suitable for commercial purposes are subject to a commercial lease. Unless it is deemed to be for the best interests of the state, it is not the policy of the State Land Department to allow and issue commercial leases which will seriously interfere with, damage, or break up operations of an established ranch or farm unit. There is no limit to the amount of commercial land that may be leased to any one individual, corporation, partnership or association.

C. Term of commercial lease. State lands suitable for commercial purposes may be leased for a period of not more than ten years without advertising, or subject to such lesser term as may be established by the Commissioner if he deems such lesser term to be in the best interests of the state.

D. Applications to lease state lands not classified as commercial. Applications to lease lands not classified as commercial shall be accompanied by a petition for reclassification as provided by the general leasing rules.

E. Application for commercial lease; application for commercial lease renewal. All applications for commercial leases and all applications for renewal of commercial leases shall be made on such form or forms as may from time to time be prescribed by the Commissioner and provided by the Commissioner. A commercial lease before the time of execution or renewal will be subject to the provisions and supplemental conditions and restrictions as may be added thereto and the provisions of law and these rules.

F. Additional conditions for commercial leases.

1. Unless otherwise directed by the Commissioner in writing, the lessee shall:

- b. Keep and maintain an accounting system satisfactory to the Commissioner.
- c. Allow access to accounting records during business hours where the same are kept for the purpose of inspecting and auditing the same.
- d. File with the Commissioner, if requested by the Commissioner, a statement of the total gross sales made for the period specified. Unless otherwise directed by the Commissioner, this report may be made by filing with the Commissioner the requested information on the form used by the state Tax Commission.
- e. Acquire consent in writing from the Commissioner for any improvements made on the site.
- f. Acquire consent in writing for moving buildings from other premises onto the leased premises. All buildings and structures shall be of acceptable construction.
- g. Keep any gas, electric, power, telephone, water, sewer, cable television and other utility or service lines under ground unless prohibited by law.
- h. File with the Commissioner, prior to the approval of any application to place improvements, plans and specifications showing the nature, location, cost, quality of proposed material, size, area, height, color, shape and design of the proposed improvements. The Commissioner may also require a perimeter survey of the leased premises upon which shall be shown the location of the completed improvements. The lessee shall also submit grading plans.

2. The above conditions shall apply to any assignee, sublessee or concessionaire of the original lessee.

G. Maps required as part of application for commercial lease. The applicant shall furnish such information map of the lands to be leased as the Commissioner may require and deem necessary to evaluate the application and assist in making an appraisal; and, in addition, the Commissioner may require an aerial photograph or photographs of such lands as he may specify in a request therefor.

H. Minimum rental rates for commercial leases. No commercial lease shall provide for an annual rental of less than the appraised rental value of the land and in no event shall the rent be less than 5¢ per acre per annum or less than \$10.00 per annum per lease.

I. Division of leases. The State Land Commissioner may at any time divide a commercial lease into two or more separate leases when such division would, in the opinion of the Commissioner, facilitate administration and management of the subject lands or would result in separating one commercial use from another. The rent for the lease year in which such division is made shall be allocated to the separate leases.

J. Sublease of commercial lease by lessee. No commercial lessee shall sublet his lease without the written permission of the Commissioner. Approval of a sublease may be granted at the discretion of the Commissioner and shall be obtained by the lessee submitting for approval of the Commissioner the sublease executed in triplicate. Upon the approval by the Commissioner, two

copies of the sublease, with the Commissioner's approval and any limitation to such approval endorsed by the Commissioner thereon will be returned to the lessee, one copy thereof being retained in the files of the Department.

K. Application to assign lease. Application to assign and application for assumption of lease and transfer shall be made upon such forms as may from time to time be prescribed by the Commissioner; upon the approval of the application, the action taken by the Commissioner will be noted upon the lease and made of record in the Department.

L. Use of state lands; failure to use. No lessee or permittee shall use lands under permit or lease except for the uses and purposes specifically set forth in the lease or other such uses or purposes as may be subsequently authorized by the Commissioner in writing.

M. Rights of commercial lessee or permittee. All leases or permits granted by the Commissioner are only a license or permit to use the land described in the lease or permit for commercial purposes in a manner compatible with the terms of said lease or permit. The state of Arizona reserves the right to grant other leases or permits for the use of said lands or the removal of natural products therefrom.

No lessee or permittee has the authority or right to issue any person any right to the use of said land or the removal of any products therefrom, but such right to use vests solely in the Commissioner and must be granted by the Commissioner in writing.

A.A.C. R12-5-705

R12-5-705. Grazing Leases

Currentness

A. Definitions. Unless the context otherwise requires, the words hereinafter defined shall have the following meaning when found in these rules, to wit:

1. “Grazing lands” means lands which can be used only for the ranging of animals.
2. “Carrying capacity” or “average annual carrying capacity” means the average number of animal units which can be supported by a section of grazing land with due consideration for sustained production of the forage consistent with conservative range management.
3. “A section of land” for appraisal of carrying capacity purposes means an area of land consisting of 640 acres.
4. “Animal unit” means one weaned beef animal over six months of age, or one horse, five goats, or five sheep, or the equivalent thereof.
5. “Average market price of cattle” means the average price by the hundredweight received during the calendar year under consideration by producers of cattle, exclusive of calves, in the states of Arizona, New Mexico, California, Utah, Nevada, Colorado, Wyoming, Montana, Idaho, Washington and Oregon, as determined by the Bureau of Agricultural Economics, United States Department of Agriculture, and, if that service is not available, from such sources as the Commissioner determines best to establish said price.

B. Qualifications to leasing grazing lands. Any person of the age of 21 years or over, a citizen of the United States, or who has declared an intention to become a citizen of the United States, or any firm, association or corporation which has complied with the laws of the state, shall be qualified to lease state land for grazing purposes.

C. Applications for grazing lease and renewals. Application for a grazing lease shall be made upon Land Division form and an application for renewal thereof shall be made upon Land Division form in accordance with the general rules and regulations relating to the leasing of state lands. Only one section or subdivision thereof may be applied for on one application for an initial lease. Application for renewal of an existing lease may include an entire ranch unit or any part thereof; provided, however, the filing fees must be paid in the same manner as in the original application.

An applicant for an initial lease shall fill out the form in complete detail. An applicant for a renewal of an existing lease, if he has an up-to-date and current statement of his holdings within the ranch unit used in connection with the lands sought to be leased, will not be required to fill out in detail answers to questions concerning his holdings appearing on the applicant form.

D. Land subject to grazing lease and term of lease. All state lands classified as grazing lands, not under lease, are subject to grazing lease for a period of not more than ten years without advertising, or for such lesser term as may be established by the Commissioner if he deems such lesser term to be to the best interests of the state. It is the policy of the Department not to offer open land for lease within an established ranch unit without first offering said lands to the owner or the person having control of the lands in such ranch unit. There is no limit to the amount of grazing land that may be leased to any one individual, corporation, partnership or association.

E. Application to lease lands not classified as grazing. Applications to lease lands not classified as grazing shall be accompanied by a petition for reclassification as provided by the general rules and regulations relating to the leasing of state lands.

F. Rental rates of grazing land; appraisal. No grazing lease shall provide for a rental of less than the appraised rate of the land, and in no event less than 2¢ per acre per annum, or a minimum of \$2.50 per annum per lease, said minimum of \$2.50 per annum per lease applying to one section or portion thereof.

The Commissioner shall appraise all grazing land on the basis of its annual carrying capacity. The annual rental rate for grazing land shall be the amount found by multiplying the carrying capacity of the lands by the annual rental rate per animal unit. The annual rental rate per animal unit shall be 22% of the average market price of beef for the preceding year. The annual carrying capacity is determined by a field appraisal by the Department, and the basis for said appraisal is the average carrying capacity of the land over a ten-year period. Notice of the appraised rental of the land will be contained in the annual billing statement which will be sent to the lessee by registered mail unless he has previously signified his acceptance of said carrying capacity together with the Commissioner's final decision regarding the appraised rental. Prevailing annual rental schedules will be published annually and furnished each lessee at the time of mailing the notice of appraised rental.

An appeal from any final decision of the Commissioner relating to the appraisal of lands may be taken to the Board of Appeals as provided in the general rules and regulations relating to state lands.

G. Number of leases issued on ranch unit. Leases issued by the Department will include all state grazing lands within the ranch unit in one lease unless a hardship results therefrom to the lessee, in which case the lessee may at his election divide the state lands in his ranch unit in not more than four separate leases in such a manner that lease rentals will not become due and payable at the same time but will be payable on an approximate quarterly or semi-annual basis. To divide a ranch unit it is necessary for the lessee to apply in writing or in person to the Department, supplying sufficient information in order that a division of the state lands in his ranch unit can be separated topographically or by an exact line. In such cases, instead of one lease covering all the state lands in a ranch unit being issued, additional leases may be issued with different dates of payment of rentals.

H. Form of grazing lease and provisions thereof. The form of grazing lease offered by the Department to an applicant will be on Land Division form No. A-11 and will be subject to the provisions and supplemental conditions therein contained and such other conditions as may be added thereto and the provisions of law and these rules and regulations.

I. Rights of grazing lessee. All grazing leases granted by the Commissioner are only a license to graze livestock and to use the land described in the lease in a manner compatible with the terms of the lease. The state of Arizona reserves the right to grant other forms of leases or permits for the use of said lands or the removal of natural products therefrom. No grazing lessee has

the authority or right to issue to any person any rights to the use of said lands or the removal of any products therefrom, but such right of use vests solely in the Commissioner and must be granted by the Commissioner in writing.

J. Sublease or pasturage agreement. No grazing lessee shall sublet his lease, sell or lease pasturage of lands embraced in his lease without the written permission of the Commissioner. Approval of a sublease or pasturage agreement may be granted at the discretion of the Commissioner and shall be obtained by the lessee submitting for approval of the Commissioner the sublease or pasturage agreement executed in triplicate. Upon the approval by the Commissioner, two copies of the sublease or pasturage agreement, with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon, will be returned to the lessee, one copy thereof being retained in the files of the Department.

K. Carrying capacity and application to exceed the same. No grazing lessee, sublessee or users under a pasturage agreement shall graze, without permission of the Commissioner, in excess of 110% of the carrying capacity as previously determined by the Commissioner upon state lands under lease within the exterior boundaries of any one ranch unit or units in the same general locality jointly operated. Approval to exceed the carrying capacity may be obtained by submitting a written request therefor. The request should contain the number of head of animals the lessee, sublessee or user desires to place upon the leased lands in excess of 110% of the carrying capacity, together with a statement as to how long the additional animals will remain upon the leased lands. If the Commissioner approves said request, the lessee, sublessee or user will be notified of such approval of increase in the carrying capacity and the period granted therefor. In the event of the approval of any such excess the Commissioner shall assess and collect the rental for such excess as provided by law and these rules and regulations.

L. Cultivation and growing of crops on grazing land. State land under grazing lease is limited to the ranging of animals only and may be cultivated and crops grown thereon only with the approval of the Commissioner. Upon approval of the Commissioner the land may be cultivated and crops grown thereon provided such crops are forage crops in nature that are pastured by animals or, if severed from the land, are fed to animals upon the ranch unit. Under no circumstances may the lessee grow crops commercially under the provisions of a grazing lease. In the event any crops are grown with the approval of the Commissioner which will be pastured or removed from the land for use at other times of the year upon the ranch unit, the carrying capacity will be adjusted in accordance with the forage crops grown.

M. Cutting of timber, standing trees or posts. The lessee shall not cut or waste, nor allow to be cut or wasted, any timber or standing trees growing on the leased land without the written consent of the Commissioner, except for fuel for domestic uses or for the necessary improvements upon the land; provided, however, that nothing herein contained shall be construed to permit the cutting of saw timber for any purpose except with the written consent of the Commissioner. Posts cut primarily from cedar, mesquite and juniper trees may be used for the erection and use of improvements by the lessee upon state lands without cost, provided the written consent of the Commissioner is first obtained. Such posts may not be used on other than state lands without payment therefor. The lessee is required to file an affidavit with the Department indicating the number of posts cut, the number used for improvement of state land and the number used on other than state lands or stockpiled for future use. At the time approval to cut posts is granted by the Commissioner, the price will be determined by him, which will be comparable to the price of posts from the United States Forest Service, and the price will be payable at the time the affidavit indicating the number of posts cut is filed with the Department. The Commissioner, or his representative, upon the granting of approval to cut posts, will from time to time visit the lessee to determine the number of posts cut. The Commissioner recognizes that the removal of cedars, mesquite and juniper trees from grazing lands is a conservation measure that will maintain or increase the range carrying capacity and that the removal of these trees in most cases would benefit state lands.

In the event the lessee does not desire to purchase the trees as above provided, the Commissioner, if he deems it for the best interest of the state, may sell the same under such terms and conditions that he may require.

A purchaser other than a lessee shall not injure the lessee's surface rights and improvements or interfere with the lessee's use of the land under lease to him and may be required to file a surety bond with the Commissioner in such amount and under such conditions as to indemnify the lessee for any damage which may result due to his removal of the trees.

N. Application to assign lease. Applications to assign and application for assumption of lease and transfer shall be made upon Land Division form No. A-13-1 and in accordance with the general rules and regulations relating to the leasing of state lands. Upon approval of the application, the assignment of the lease will be made by the Commissioner upon the lease where indicated and made of record in the Department.

O. Use of state lands; failure to use. No lessee or permittee shall use lands under lease or permit to him except for grazing purposes unless authorized by the Commissioner in writing. Applications for a special use of lands under permit or lease to a lessee or permittee for purposes other than grazing shall be made in writing in triplicate, and shall state in detail the reasons for such use. The application shall be signed and verified as provided for in applications to lease. Upon approval of the application by the Commissioner, two copies of the application with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon will be returned by the Commissioner to the lessee, one copy thereof being retained in the files of the Department. Failure of any lessee or permittee to use the land for the purposes for which he holds a lease or permit, without having been authorized so to do by the Commissioner in writing, may, in the discretion of the Commissioner, subject said lease or permit to forfeiture or to cancellation as provided by law and these rules and regulations.

P. Posting to prohibit hunting and fishing on state land. State land under lease or permit may not be posted to prohibit hunting and fishing without the consent of the Arizona Game and Fish Commission.

A.A.C. R12-5-802

R12-5-802. Reservoir, Dam, and Other Sites

Currentness

A. Definitions

1. “Site lease” shall mean a lease issued upon state lands by the Department for reservoir or dam sites primarily used for purposes other than stock watering on lands leased for grazing purposes, and power or irrigation plant sites requiring more width than general rights-of-way leases for transmission lines or canals, or for such other purposes not classified as commercial.
2. “Surface lessee” means the holder of a lease on the surface of any state land for grazing, agricultural, commercial, homesite or natural products.
3. “Subsurface lessee” means the holder of a lease on the subsurface of any state land for oil and gas, mineral or natural products.

B. Land subject to site lease and term of lease. All state lands are subject to site lease for a term of not more than ten years without advertising, or for such lesser term as may be established by the Commissioner if he deems such lesser term to be to the best interests of the state. Site leases in excess of ten years are required by law to be advertised and sold at public auction to the highest bidder.

No lease for a site will be granted where damage or injury to improvements owned by a surface or subsurface leaseholder would result from the granting of the site by the Department without giving rise to a cause of action by the owner of said improvements, unless compensation for the value or damage or injury to said improvements has first been determined and a settlement made.

C. Application for site lease. An application for a site lease shall be made upon Land Division form No. A-82, and in accordance with the general rules and regulations relating to the leasing of state lands.

The application shall be accompanied by a map showing in detail the survey of the site applied for, or, if not surveyed, a map of reasonable accuracy so that the site may be located upon the land itself by either a survey or protraction. The Commissioner reserves the right to require a survey to be made by a regularly licensed registered engineer or land surveyor at any time. The map need be of no particular scale but should be of sufficiently large enough scale that improvements upon the surface of the land applied for may be shown. The map is considered a part of the application to lease as a line of definite location which will bind the applicant in the same manner as the lease application itself to the statements made therein.

An application for a site lease over or across state lands, the surface or subsurface of which is leased and in use, should be accompanied by a statement from such surface or subsurface lessee that he has no objection to the granting of the site lease, or, if such consent cannot be obtained, a statement from the applicant stating the reasons why such consent has not been obtained.

D. Renewal application for site lease. Application for renewal of a site lease shall be made upon Land Division form No. A-13-3 and in accordance with the general rules and regulations relating to state lands.

If the applicant has not used the land for the purpose for which the initial lease was granted to him, he must state in detail reasons therefor unless he has obtained from the Commissioner authorization in writing for such non-use as required by law and the rules and regulations of the Department.

E. Rights of surface and subsurface lessees. Under the law the Commissioner has the right to grant sites without the consent of the surface or subsurface lessee. However, in many instances the surface or subsurface lessee owns improvements upon the lands desired for a site lease and these improvements are protected by law. In the event the site applicant and the surface or subsurface lessee are unable to arrive at the value of any improvements which may be injured or damaged by the grant of a site lease and the consent of the surface or subsurface lessee cannot be secured, the Commissioner may, if it is to the best interest of the state, appraise the improvements as provided by law and grant the lease upon evidence of tender to the owner of improvements of the appraised value of the same. The owner of the improvements may appeal from the appraisal of the improvements to the Appeal Board of the Department as authorized by law and these rules and regulations.

F. Rental. No site lease shall provide for an annual rental of less than the appraised rental value of the land and in no event for less than 5¢ per acre per annum or a minimum of \$10.00 per annum per lease.

G. Form of site lease and provisions thereof. The form of site lease offered by the Department to an applicant will be on Land Division form No. A-83 and will be subject to the provisions and supplemental conditions therein contained, and such other conditions as may be added thereto, and the provisions of law and these rules and regulations.

H. Effect of a site lease. No lessee shall use lands under lease to him except for site purposes unless authorized by the Commissioner in writing.

Applications for a special use of lands under lease to a lessee for purposes other than which the lease was issued shall be made in writing in triplicate and shall state in detail the reasons for such use. The application shall be signed and verified as provided for in applications to lease. Upon approval of the application by the Commissioner, two copies of the application with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon will be returned by the Commissioner to the lessee, one copy thereof being retained in the files of the Department.

Failure of any lessee to use the land for the purposes for which he holds a lease, without having been authorized so to do by the Commissioner in writing, may, in the discretion of the Commissioner, subject said lease to forfeiture or to cancellation as provided by law and these rules and regulations.

I. Rights of site lessee. All leases granted by the Commissioner are only a license to use the land described in the lease for site purposes in a manner compatible with the terms of said lease. The state reserves the right to grant other leases for the use of said lands or the renewal of natural products therefrom. No site lessee has the authority or right to issue to any person any right to the use of said land or the removal of any products therefrom, but such right of use vests solely in the Commissioner and must be granted by the Commissioner in writing.

[Article 11. Special Use Permits \(Refs & Annos\)](#)

A.A.C. R12-5-1101

R12-5-1101. Policy; Use of Lands

Currentness

It is the policy of the Commissioner in the administration of state lands to permit, where practical, the beneficial use thereof for special purposes not specifically provided for by existing law or the rules and regulations of the Land Division and the leasing of state lands. Permits for such special use will not be issued, however, in any case where the provisions of existing state land laws may be invoked.

The contemplated use must not be in conflict with any federal or state laws.

An applicant must state in his application the use to which he intends to put the lands and he will not be permitted to devote them to any other use unless he secures an additional permit.

1. Qualifications of applicants. Any person of the age of 21 years or over, a citizen of the United States or who has declared an intention to become a citizen of the United States or any firm, association or corporation which has complied with the laws of the state, shall be qualified to apply for a special use permit.

2. Application for special use permit; renewal thereof; application fee. An application for general special use permit shall be made on Land Division form. Such application shall describe with particularity the land applied for, and shall state in detail the use to which the applicant intends to put the lands and the period for such use.

A renewal of a general special use permit shall be made on Land Division form.

If an applicant for renewal of a special use permit has not used the land for the purpose for which the initial permit was granted him, he must state in detail reasons therefor unless he has obtained from the Commissioner authorization in writing for such non-use as required by law and these rules and regulations.

3. Form of special use permit. The form of a general special use permit will be prepared by the Department and will be subject to the provisions and supplemental conditions therein contained and the provisions of law and these rules and regulations.

4. Term of permit. A special use permit shall not be issued for a period to exceed ten years or such lesser term as may be established by the Commissioner if he deems such lesser term to be in the best interest of the state. An application for an initial special use permit shall not be approved for a period of longer than two years. Unless it is deemed to be for the best interest of the state, it is not the policy of the Department to allow and issue a special use permit which will seriously

interfere with the operations of an established lessee or permittee holding a lease or permit from the Department to the surface or subsurface rights to the land.

5. Minimum fee. No special use permit shall provide for an annual fee for less than appraised rental value of the land and in no event for less than 5¢ per acre per annum or a minimum of \$10.00 per annum per permit.

6. Failure to use land for purposes authorized. Any permittee who shall fail to use the land for the purpose for which he holds a permit during the term of his permit, unless for good cause such failure has been authorized or ratified by the Commissioner in writing, may subject his permit to forfeiture or cancellation as provided by law and these rules and regulations.

7. Rights of permittee. All permits granted by the Commissioner are only a license or permit for the use of the land described in the permit for the purpose for which the permit is issued and in a manner compatible with the terms of said permit. The Commissioner reserves the right to grant other permits for the use of said lands for the removal of natural products therefrom. No permittee has the authority or right to issue to any person any right to the use of said land or the removal of any products therefrom, but such right of use vests solely in the Commissioner and must be granted by the Commissioner in writing.

8. Use of state lands. No permittee shall use lands under permit to him except for the purpose for which the permit is issued, unless authorized by the Commissioner in writing.

Applications for a special use of lands under permit to a permittee for purposes other than which the permit was issued shall be made in writing in triplicate, and shall state in detail the reasons for such use. The application shall be signed and verified as provided for in applications for permit. Upon approval of the application by the Commissioner, two copies of the application with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon will be returned by the Commissioner to the permittee, one copy thereof being retained in the files of the Department. Failure of any permittee to use the land for the purposes for which he holds a permit, without having been authorized to do so by the Commissioner in writing, may, in the discretion of the Commissioner, subject said permit to forfeiture or to the cancellation as provided by law and these rules and regulations.

9. Advertising displays on state lands without permits unauthorized. The erection or maintenance on state lands of advertising displays, without permission, is unauthorized by law. Any person erecting or maintaining one or more advertising displays on state lands, except under authority of a permit issued by the Commissioner as hereinafter provided, shall be deemed a trespasser.

10. Advertising displays defined. The words "advertising displays" as used in this Article shall include structures of any kind with or without lighting effects erected or maintained for outdoor advertising purposes, upon which any poster, bill, printing, painting, or other advertisement of any kind whatsoever, including statuary, may be placed for advertising purposes but shall not include:

- a. Official notices or advertisements posted by or under the direction of any public or court officer in the performance of his official duties;

b. Danger, precautionary and information signs erected by officials of the Federal Government or officials of the state or any subdivision thereof, or any non-profit organization in the state, relating to the premises, or warning of the conditions of travel on a highway, or of forest fires, or road symbols, or speed limits, and including all civil defense directional signs;

c. Highway markers or signs relating to any city, town, village or historic place or shrine;

d. Notice of any railroad, bridge, ferry, or other transportation or transmission company necessary for the direction or safety of the public;

e. Official signs, notices or symbols for the information of aviators, as to location, direction or landings, and conditions affecting safety in aviation;

f. Signs containing 16 square feet or less bearing an announcement of any town, village or city, or non-profit association, or chamber of commerce, advertising itself, or local industries, buildings, meetings, or attractions, but not advertising any particular individual or corporation engaged in business for a profit; providing not more than one sign bearing the same or similar announcement shall be placed on any one approach to the city or village involved;

g. Signs erected by Red Cross authorities relating to Red Cross Emergency Station.

11. Applications for advertising display permits. Applications for permits must be executed upon Land Division form No. A-73-3. Each application must contain a sufficient recital of the facts relative to the advertising display, including its size and lighting effect, if any, to enable its substantial production from the description. A sketch showing the location on which the display is to be placed with respect to adjacent physical features should be furnished. The application should identify the highway or other medium of travel along which it is proposed to erect the display and should give the distance and direction of the site, measured by highway travel, to the nearest cities or towns. If the land on which it is desired to place the display has been surveyed, its description should be given in terms of the public land surveys.

12. Fees and rentals for advertising display permits

a. A fee of \$1.00 must accompany each application for an advertising display permit.

b. The initial and annual charges for advertising displays shall be as follows: not less than 10¢ per annum for each square foot of sign surface and not less than \$2.50 per annum for each display. The amount of the charge, subject to such minima, will be fixed by the Commissioner, which in no event will be less than the appraised rental value for such use.

c. Due consideration will be given in fixing the amounts to all pertinent facts and circumstances, including the charges made for corresponding privileges on privately owned lands similarly situated.

d. When conflicting applications are filed, due consideration will be given to the showing of each applicant and such action will be taken as is deemed to be warranted by the facts and circumstances.

13. Form of advertising display permit and terms. Special use permits to erect and maintain advertising displays on state lands may be issued by or under authority of the Commissioner on forms provided by the Department, or, in his discretion, will be issued on Land Division form and will be subject to the provisions and supplemental conditions therein contained and to such other conditions as may be added thereto, and the provisions of law and these rules and regulations. The term thereof shall be for periods of not exceeding ten years and the permits will be revocable in the discretion of the Commissioner at any time.

14. Renewal of advertising display permits. An advertising display permit issued pursuant to these rules and regulations may be renewed, in the discretion of the Commissioner, upon the filing of an application for renewal not more than 60 nor less than 30 days prior to its expiration.

15. Identification of authorized advertising displays. Each advertising display erected or maintained under a permit issued pursuant to these rules and regulations shall, for convenient identification, have the serial number of such permit marked or painted thereon.

16. Unauthorized advertising displays

a. Persons who heretofore have erected advertising displays on state lands must either obtain permits to continue such displays, if authorized by these rules and regulations, or must remove the displays as promptly as possible.

b. Where an unauthorized advertising display on state land is found, the Commissioner will take appropriate steps to secure its removal, unless the owner obtains a permit. The owner, if known, will be given notice in writing of the requirements. Displays erected without permission prior to January 1, 1953, must be removed within three months from and after the date of the approval of these rules and regulations, unless application for a permit is made within that period. Displays erected prior to January 1, 1953, for which applications for permits are made but for which permits are refused, and unauthorized displays thereafter erected must be removed within such reasonable time as may be fixed by the Commissioner. If the owner fails to remove the display within the time allowed, it may be removed by the Commissioner and the owner will be held liable to the Department for expenses incurred in removing it. If the owner is unknown, or cannot be found, the display may be removed by the Commissioner without notice. A registered letter addressed to the owner at his last known place of residence, if returned unclaimed, will be considered sufficient service of notice.

17. Restrictions on advertising displays

a. No advertising display shall be permitted which, in the opinion of the Commissioner, would mar the landscape, hide road intersections or crossing, or which, in his opinion, is otherwise objectionable.

b. No advertising display shall be affixed to, or painted on any tree or rock situate on state lands or on any other natural object on such lands.

c. All advertising displays shall conform to the applicable state laws and local ordinances or regulations.

A.R.S. § 37-132

§ 37-132. Powers and duties

Effective: September 29, 2012

[Currentness](#)

A. The commissioner shall:

1. Exercise and perform all powers and duties vested in or imposed upon the department, and prescribe such rules as are necessary to discharge those duties.
2. Exercise the powers of surveyor-general except for the powers of the surveyor-general exercised by the treasurer as a member of the selection board pursuant to [§ 37-202](#).
3. Make long-range plans for the future use of state lands in cooperation with other state agencies, local planning authorities and political subdivisions.
4. Promote the infill and orderly development of state lands in areas beneficial to the trust and prevent urban sprawl or leapfrog development on state lands.
5. Classify and appraise all state lands, together with the improvements on state lands, for the purpose of sale, lease or grant of rights-of-way. The commissioner may impose such conditions and covenants and make such reservations in the sale of state lands as the commissioner deems to be in the best interest of the state trust. The provisions of this paragraph are subject to hearing procedures pursuant to title 41, chapter 6, article 10¹ and, except as provided in [§ 41-1092.08, subsection H](#), are subject to judicial review pursuant to title 12, chapter 7, article 6.²
6. Have authority to lease for grazing, agricultural, homesite or other purposes, except commercial, all land owned or held in trust by the state.
7. Have authority to lease for commercial purposes and sell all land owned or held in trust by the state, but any such lease for commercial purposes or any such sale shall first be approved by the board of appeals.

8. Except as otherwise provided, determine all disputes, grievances or other questions pertaining to the administration of state lands.

9. Appoint deputies and other assistants and employees necessary to perform the duties of the department and assign their duties subject to title 41, chapter 4, article 4³ and require of them such surety bonds as the commissioner deems proper. The compensation of the deputy, assistants or employees shall be as determined pursuant to [§ 38-611](#).

10. Make a written report to the governor annually, not later than September 1, disclosing in detail the activities of the department for the preceding fiscal year, and publish it for distribution. The report shall include an evaluation of auctions of state land leases held during the preceding fiscal year considering the advantages and disadvantages to the state trust of the existence and exercise of preferred rights to lease reclassified state land.

11. Withdraw state land from surface or subsurface sales or lease applications if the commissioner deems it to be in the best interest of the trust. This closure of state lands to new applications for sale or lease does not affect the rights that existing lessees have under law for renewal of their leases and reimbursement for improvements.

B. The commissioner may:

1. Take evidence relating to, and may require of the various county officers information on, any matter that the commissioner has the power to investigate or determine.

2. Under such rules as the commissioner adopts, use private real estate brokers to assist in any sale or long-term lease of state land and pay, from fees collected under [§ 37-107, subsection B](#), paragraph 1, a commission to a broker that is licensed pursuant to title 32, chapter 20⁴ and that provides the purchaser or lessee at auction. The purchaser or lessee at auction is not eligible to receive a commission pursuant to this subsection. A commission shall not be paid on a sale or a long-term lease if the purchaser or lessee is a political subdivision of this state.

3. Require a permittee, lessee or grantee to post a surety bond or any form of collateral deemed sufficient by the commissioner for performance or restoration purposes. The commissioner shall use the proceeds of a bond or collateral only for the purposes determined at the time the bond or collateral is posted. For agricultural lessees, the commissioner may require collateral as follows:

(a) As security for payment of the annual assessments levied by the irrigation district in which the state land is located if the lessee has a history of late payments or defaults. The amount of the collateral required shall not exceed the annual assessment levied by the irrigation district.

(b) As security for payment of rent, if an extension of time for payment is requested or if the lessee has a history of late payments of rent. The collateral shall be submitted at the time any extension of time for payment is requested. The amount of the collateral required shall not exceed the annual amount of rent for the land.

(c) A surety bond shall be required only if the commissioner determines that other forms of collateral are insufficient.

4. Withhold market and economic analyses, preliminary engineering, site and area studies and appraisals that are collected during the urban planning process from public viewing before they are submitted to local planning and zoning authorities.

5. Withhold from public inspection proprietary information received during lease negotiations. The proprietary information shall be released to public inspection unless the release may harm the competitive position of the applicant and the information could not have been obtained by other legitimate means.

6. Issue permits for short-term use of state land for specific purposes as prescribed by rule.

7. Contract with a third party to sell recreational permits. A third party under contract pursuant to this paragraph may assess a surcharge for its services as provided in the contract, in addition to the fees prescribed pursuant to [§ 37-107](#).

8. Close urban lands to specific uses as prescribed by rule if necessary for dust abatement, to reduce a risk from hazardous environmental conditions that pose a risk to human health or safety or for remediation purposes.

9. Notwithstanding subsection A, paragraph 4 of this section, authorize, in the best interest of the trust, the extension of public services and facilities either:

(a) That are necessary to implement plans of the local governing body, including plans adopted or amended pursuant to [§ 9-461.06](#) or [11-805](#).

(b) Across state lands that are either:

(i) Classified as suitable for conservation pursuant to [§ 37-312](#).

(ii) Sold or leased at auction for conservation purposes.

C. The commissioner or any deputy or employee of the department shall not have, own or acquire, directly or indirectly, any state lands or the products on any state lands, any interest in or to such lands or products, or improvements on leased state lands, or be interested in any state irrigation project affecting state lands.

A.R.S. § 37-285

§ 37-285. Rental rates for grazing and other lands; grazing land valuation commission; reclassification and reappraisal; definitions

Effective: July 29, 2010

[Currentness](#)

A. An agricultural, commercial or homesite lease shall provide for an annual rental of not less than the appraised rental value of the land, and never less than five cents per acre per year. The rental provided in such leases is subject to adjustment each year.

B. A grazing lease shall provide for an annual rental of the grazing land as computed under this section. All grazing land shall be classified and appraised on the basis of its forage and annual carrying capacity, measured in animal unit months. The annual rental rate for grazing land shall be the amount determined by multiplying the number of animal unit months to be grazed on the lands by the true value rental rate per animal unit month as established by the commissioner. The rental rate per animal unit month is the rental rate determined by the commissioner based on the recommendations of the grazing land valuation commission under subsection E of this section.

C. Before September 1, 1994, and at other times the commissioner may propose, but not more frequently than every five years, the governor shall appoint a grazing land valuation commission consisting of five members appointed by the governor pursuant to [§ 38-211](#). The commission shall serve for a period of one year from the date the members assume office during which period the commission shall complete the appraisal. The commission shall consist of the following members, each of whom shall have experience in analyzing and valuing the use of forage on grazing land:

1. One member who is a professional appraiser and who is certified in this state.
2. One member who is a professor and who serves on the faculty of the college of agriculture at the university of Arizona.
3. One member who is a retired employee of a financial institution that is actively engaged in agricultural lending.
4. One member who primarily derives income from livestock grazing and who does not hold a state lease.
5. One member who is a conservationist and who represents a natural resource conservation district in this state.

D. Each member of the grazing land valuation commission shall receive compensation at the rate of one hundred dollars for each meeting. Each member of the commission shall receive reimbursement for expenses pursuant to title 38, chapter 4, article 2.¹

E. The grazing land valuation commission may employ a person who is experienced in analyzing and valuing the use of forage on grazing land and who, together with the members of the commission, shall gather the information that is necessary to prepare an appraisal to determine the true value of the use of forage on state grazing land and shall prepare this appraisal using both the market and income approaches. The appraisal report shall recommend a grazing fee that will equal the true value as recommended by the commission. The information and work products gathered in preparing the appraisal shall be available to the public. In determining the rental rate using the market approach the commission shall determine the typical lease of two years or more of private grazing land located in this state during normal years. The commission shall compare all factors that make up the bundle of rights and obligations in the typical private lease with the factors that make up the bundle of rights and obligations in the typical state lease. The commission shall document all adjustments, calculations and assumptions made in reaching a conclusion of true rental value for the state land grazing fee and shall determine economic benefit, burden or value attributable to each of these factors. These factors shall include the following:

1. All services, equipment and water rights provided by the lessor or lessee.
2. All improvements typically constructed and maintained to facilitate or enhance the use of the land for livestock grazing, wildlife, hunting or recreation.
3. All management and protection services that are typically provided.
4. The tenure, right to renew, assignability, right to reimbursement for improvements, responsibility for property taxes, right of others to share in the use of the land and ability to control access by others.
5. The size, location, accessibility, condition and carrying capacity of the land being leased and all related costs.

F. The commissioner's decision under this section may be appealed by any affected lessee to the board of appeals pursuant to [§ 37-215](#), and, except as provided in [§ 41-1092.08, subsection H](#), the decision of the board of appeals may be appealed to the superior court pursuant to title 12, chapter 7, article 6.²

G. The commissioner may make a reclassification or reappraisal, or both, at any time. If a reclassification or reappraisal, or both, is made pursuant to a request of a lessee, before expiration of the lease, the lessee shall pay a reclassification fee prescribed pursuant to [§ 37-107](#) plus the actual expenses incurred in making a reappraisal.

H. The department may authorize nonuse for part or all of the grazing use upon request of the lessee at least sixty days prior to the beginning of the billing date. The rental fee shall be based on the animal unit months used, but the total rental fee for partial or full nonuse shall not be less than five cents per acre per year.

I. For the purposes of this section:

1. “Animal unit” means one weaned beef animal over six months of age, or one horse, or five goats, or five sheep, or the equivalent.

2. “Animal unit month” means one animal unit grazing for one month.

[Article 14. Exchange of Public Lands \(Refs & Annos\)](#)

A.R.S. § 37-604

§ 37-604. Exchange of state land; procedure; limitation and exceptions; definition

Effective: December 13, 2012

[Currentness](#)

A. State land may be exchanged for public land in this state to improve the management of state lands for the purpose of sale or lease or conversion to public use of state lands or to assist in preserving and protecting military facilities in this state. Exchanges may be made for land owned or administered by other state agencies, counties, municipalities or the United States or its agencies. Exchanges with the United States or its agencies shall be in conformance with [§ 37-722](#), but the department shall also follow the procedures and requirements prescribed by [article X, section 12, Constitution of Arizona](#), subsection C, paragraph 7 of this section and the classification procedures in [§ 37-212](#).

B. The department shall adopt rules governing the application and procedure for the exchange of state land. Such rules shall include the following requirements:

1. The application shall include:

(a) The name, mailing address, telephone number and relevant affiliation, if any, of the applicant.

(b) A legal description of all lands to be considered for exchange.

(c) A list of permanent improvements on the state lands to be considered for exchange.

(d) A list of the leasehold interest in the state land to be considered for exchange.

(e) Accompanying agreements, if any, with the leaseholder or owner of improvements on the state land to be considered for exchange.

2. Payment of fees prescribed for that purpose pursuant to [§ 37-107](#).

3. Such additional requirements as the department determines to be necessary. On determining that the application is complete and correct, including payment of the required fees, and on completion of processing and analyzing the application, and on determining that the proposed exchange would benefit the applicable trust, the department shall notify and deliver a report

containing details of the proposed exchange to the president of the senate, the speaker of the house of representatives and the state legislators from the legislative districts in which the lands proposed to be exchanged are located.

C. Exchanges of state lands are subject to the following requirements:

1. The commissioner shall determine by at least two independent appraisals that the state lands being considered for exchange are of substantially equal value or of lesser value than the land offered by the applicant.

2. At least two independent analyses of the proposed exchange must be conducted to determine:

(a) The income to the trust from the lands before the exchange and the projected income to the trust after the exchange.

(b) The fiscal impact of the exchange on each county, city or town and school district in which all the lands involved in the exchange are located.

(c) The physical, economic and natural resource impacts of the proposed exchange on the surrounding or directly adjacent communities and the impacts on military facilities, local land uses and land use plans.

3. The commissioner may require the applicant to pay the cost of the independent appraisals and analyses required by this subsection.

4. No county or municipality may be permitted to select lands in another county or municipality.

5. State lands known to contain oil, gases and other hydrocarbon substances, coal or stone, metals, minerals, fossils and fertilizer, in paying quantities, and state lands adjoining lands on which there are producing oil or gas wells, or adjoining lands known to contain any of such substances in paying quantities shall not be exchanged. These prohibitions against exchange shall not prevent the exchange of lands where the state does not own such substances, minerals or metals in the lands to be considered for exchange.

6. All state lands offered for trade pursuant to this section must be located in the same county as the lands offered to the state. However, lands in adjoining counties more than three miles outside the corporate boundaries of incorporated cities and towns having a population of ten thousand people or less and lands in adjoining counties but more than five miles outside the corporate boundaries of incorporated cities and towns having a population in excess of ten thousand people may be exchanged to facilitate consolidating land ownership if the boards of supervisors of the counties in which lands are to be exchanged give their prior approval.

7. Prior to public notice of a proposed exchange of state lands for other lands, the department shall give thirty days' notice in writing to other interested state agencies, counties, municipalities, the military affairs commission established by [§ 26-261](#), each military facility at the address on record at the department and to leaseholders on state lands that are to be exchanged and on state lands that are adjacent to the lands to be exchanged.

8. Before any state land may be considered for exchange under this article, the land shall be classified as suitable for such purposes in accordance with [§ 37-212](#). Any person adversely affected by such classification may appeal from the decision as provided in [§ 37-215](#).

9. After determining that the application is complete and correct and all required payments, appraisals and analyses have been completed, the department shall publish notice of the proposed exchange in the same manner and places as is required for the sale of state lands pursuant to [§ 37-237](#), except that the notice shall be published once each week for six consecutive weeks. The notice shall contain a legal description of the properties involved and other pertinent terms and conditions of the exchange. The department shall also schedule at least two public hearings on the exchange contemplated in the notice. One hearing must be held at the state capital and another hearing must be held in a location of general accessibility in the proximate vicinity of the state lands being exchanged. Any person may appear and comment on the proposed exchange at that time.

10.
