ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: November 1, 2022

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: October 12, 2022

SUBJECT: DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS
Title 20, Chapter 4

Amend: Article 12, R20-4-1201, R20-4-1202, R20-4-1204, R20-4-1209,
R20-4-1210, R20-4-1219, R20-4-1220

Repeal: R20-4-1208, R20-4-1211

Summary:

This regular rulemaking from the Department of Insurance and Financial Institutions (Department) seeks to amend seven (7) rules and repeal two (2) rules in Title 20, Chapter 4, Article 12 related to Rules of Practice and Procedure Before the Director for hearings before the Financial Institutions Division.

The Department indicates the Financial Institutions Division has not updated its hearing rules since 2001. This rulemaking updates the Financial Institutions Division's hearing rules to reflect the structural change to the Department and to eliminate rules that are unnecessary because they are already contained in the APA. It also synchronizes the administrative hearing rules between the two divisions (Insurance and Financial Institutions). Formerly, when these divisions were separate agencies, they had their own hearing rules. The Department states synchronizing these sets of rules will promote efficiency for the agency when administering

hearings for both divisions. The Department states these changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

A separate rulemaking from the Department seeks to eliminate the redundant rules applying to Real Estate Appraisal hearings. This will repeal a separate, unnecessary set of hearing rules and will allow Real Estate Appraisal hearings to be governed by the Financial Institutions Division's hearing rules because Real Estate Appraisal is part of the Financial Institutions Division.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Department cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department indicates it did not review or rely on any study in conducting this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The Department indicates this rulemaking is anticipated to result in a benefit to the Insurance Division of the Department by synchronizing the Financial Institution Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department. The Department states no costs or benefits are anticipated to businesses directly affected by the proposed rulemaking because this rulemaking only updates the rules and synchronizes them with the Financial Institutions Division's hearing rules. The Department states it does not add any new requirements for licensees that do not already exist in statute. These rules augment the Administrative Hearing Procedures Act (APA) which governs administrative hearings before the Department.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department believes that the current rulemaking offers the least intrusive and least costly alternative method to achieve the purpose of the proposed rulemaking.

6. What are the economic impacts on stakeholders?

Licenses subject to regulation by the Financial Institutions Division under A.R.S. Title 6 (State Chartered Banks and Credit Unions, Savings and Loan Associations, Consumer Lenders, Debt Management Companies, Escrow Agents, Trust Companies, Mortgage Brokers and Bankers, Loan Originators, Money Transmitters, Advance Fee Loan Brokers, and Premium Finance Companies), Title 32, Chapter 9 (Collection Agencies), Title 32, Chapter 36 (Real Estate Appraisers, Appraisal Management Companies, and Property Tax Agents), and Title 44, Chapter 2.1 (Sales Finance Companies) are directly affected by this rulemaking. All licenses are expected to benefit from clarified rules.

This rulemaking is anticipated to result in a benefit to the Insurance Division of the Department by synchronizing the Financial Institution Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department. No new full-time employees are necessary to implement and enforce the revised rules.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates it made no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it received no comments regarding this rulemaking.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Not applicable. The rules do not require a permit, license, or agency authorization.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are no corresponding federal laws applicable to the subject of this rulemaking.

11. Conclusion

This regular rulemaking from the Department seeks to amend seven (7) rules and repeal two (2) rules in Title 20, Chapter 4, Article 12 related to Rules of Practice and Procedure Before the Director for hearings before the Financial Institutions Division. The Department indicates the Financial Institutions Division has not updated its hearing rules since 2001. This rulemaking

updates the Financial Institutions Division's hearing rules to reflect the structural change to the Department and to eliminate rules that are unnecessary because they are already contained in the APA. It also synchronizes the administrative hearing rules between the two divisions (Insurance and Financial Institutions). The Department states synchronizing these sets of rules will promote efficiency for the agency when administering hearings for both divisions. The Department states these changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

Before the Superintendent ("Hearing Rules")

Dear Chairperson Sornsins:

Please find enclosed the Final Rulemaking for the Financial Institutions Division's Hearing Rules being submitted by the Arizona Department of Insurance and Financial Institutions ("Department").

Pursuant to A.A.C. R1-6-201(A)(1), the Department responds as follows:

- a. The Department closed the record on this rulemaking on August 14, 2022.
- b. This rulemaking does not relate to a five-year review report. Instead, this rulemaking is being initiated with two other rulemakings by the Department that are designed to revise its rules pertaining to hearings to comport with the recent structural changes in the Department, to update the Hearing Rules, and to synchronize the rules governing hearings between the two divisions of the Department. This rulemaking will also allow the Financial Institutions Division's Hearing Rules to govern Real Estate Appraisal because its hearing rules are being repealed. The three rulemakings are designed to occur simultaneously and to have the same effective date.
- c. The rulemaking does not establish a new fee.
- d. The rulemaking does not contain a fee increase.
- e. The rulemaking does not request an immediate effective date under A.R.S. § 41-1032.
- f. The Department certifies that the preamble discloses a reference to any study relevant to the rule that it reviewed and either did or did not rely on in its evaluation of or justification for the rulemaking. The Department did not review or rely on any study relevant to the rulemaking.
- g. No new full-time employees are necessary to implement and enforce the rule.
- h. The following documents are also submitted to the Council with this cover letter:
 - i. The Notice of Final Rulemaking;

- ii. An economic, small business, and consumer impact statement that contains the information required by A.R.S. § 41-1055; and
- iii. The general and specific statutes authorizing the rulemaking.

By this submission, the Department is requesting approval of this rulemaking from the Council.

For questions about this rulemaking, please contact Mary Kosinski at (602) 364-3476 or mary.kosinski@difi.az.gov.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

This rulemaking is being initiated with two other rulemakings by the Arizona Department of Insurance and Financial Institutions ("Department"). One rulemaking is to revise the hearing rules of the Department's Insurance Division ("Insurance Division") (A.A.C. R20-6-101 through R20-6-160) and the other is to repeal the redundant Real Estate Appraisal hearing rules (A.A.C. R4-46-301.01 through R4-46-307.01). The three rulemakings are designed to occur simultaneously and to have the same effective date.

These rulemakings are necessary for a number of reasons. First, to update the rules. The Insurance Division most recently updated its hearing rules in 2011 and some of the rules conflict with the Arizona Uniform Administrative Hearing Procedures Act ("APA") (A.R.S. §§ 41-1092 through 41-1092.12). The Department's Financial Institutions Division ("Financial Institutions Division") has not updated its hearing rules since 2001. At the very least, the Financial Institutions Division needs to remove any references to "Superintendent" in its rules because that position no longer exists.

Secondly, these rulemakings are necessary to synchronize the hearing rules between two divisions of the Department: Financial Institutions and Insurance. Formerly, when these divisions were separate agencies, they had their own hearing rules. Synchronizing these sets of rules will promote efficiency for the agency when administering hearings for both divisions. These changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

The third reason is to eliminate the redundant rules applying to Real Estate Appraisal hearings. This will repeal a separate, unnecessary set of hearing rules and will allow Real Estate Appraisal

hearings to be governed by the Financial Institutions Division's hearing rules because Real Estate Appraisal is part of the Financial Institutions Division.

This rulemaking updates the Financial Institutions Division's hearing rules to reflect the structural change to the Department and to eliminate rules that are unnecessary because they are already contained in the APA. It also synchronizes the administrative hearing rules between the two divisions (Insurance and Financial Institutions).

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review and does not propose to rely on any study relevant to this rulemaking.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

The rulemaking does not diminish a previous grant of authority granted to the Department.

9. A summary of the economic, small business, and consumer impact:

Pursuant to A.R.S. § 41-1055(A):

- The rulemaking is not designed to change any conduct. Instead, it is designed to streamline and coordinate the rules governing administrative hearings before the Director.
- The rulemaking does not address any harm resulting from any conduct by licensees.
- Because this rulemaking is not made in response to a perceived problem caused by the conduct of licensees, it is not intended to reduce the frequency of any potentially violative conduct.
- This rulemaking is anticipated to result in a benefit to the Financial Institutions Division of the Department by synchronizing the Financial Institutions Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department.
- No costs or benefits are anticipated to businesses directly affected by the proposed rulemaking because this rulemaking only updates the rules and synchronizes them with the Insurance Division's hearing rules. It does not add any new requirements for licensees that do not already exist in statute. These rules augment the APA which governs administrative hearings before the Department.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

The Department has not made any changes between the proposed rulemaking and the final rulemaking.

11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Department did not receive any public or stakeholder comments about the rulemaking.

12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

No other matters prescribed by statute are applicable to the Department or to any specific rule or class of rules.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The rule does not require a permit and does not use a general permit. Instead, the rule is designed to provide guidance on conducting administrative hearings.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

No federal law is applicable to the subject of the rule.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No formal analysis has been submitted to the Department that compares the rule's impact on the competitiveness of business in this state to the impact of business in other states.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

The rule does not incorporate any reference material into the rule as specified at A.R.S. § 41-1028.

14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

The rule was not previously made, amended or repealed as an emergency rule.

15. The full text of the rules follows:

- ~~2. An express finding that a rehearing or review is:
 - ~~a. Impossible;~~
 - ~~b. Unnecessary, or~~
 - ~~e. Contrary to the public interest.~~~~

The following definitions apply in this Section.

1. "Petitioner" means a person who petitions the Department for Rulemaking action as authorized under A.R.S. § 41-1033(A).

~~B. A refusal to admit allegations is a denial. A consent agreement shall contain those additional provisions required by the Superintendent in a given matter, and may include:~~

- ~~1. Waiving any right to seek judicial review challenging the judgment's or order's validity,~~
- ~~2. Waiving findings of fact and conclusions of law,~~
- ~~3. Stating that the agreement is signed only to settle the matter and not as an admission that the defendant or respondent has violated the law.~~

1. Make, amend, or repeal a final Rule; or
2. Review an existing agency practice or Substantive Policy Statement that the Petitioner alleges to constitute a Rule.

~~C. The Superintendent has sole discretion to decide whether to resolve a matter by consent agreement. Nothing in this Section gives the Superintendent a duty to approve a consent agreement in any matter.~~

A.R.S. § 41-1055(B) Economic, Small Business, And Consumer Impact Statement
Title 20. Commerce, Financial Institutions, and Insurance
Chapter 4. Department of Insurance and Financial Institutions
– Financial Institutions

Article 12. Rules of Practice and Procedure Before the Superintendent

A.R.S. § 41-1055(B)(1): An identification of the proposed rulemaking.

This rulemaking is being initiated with two other rulemakings by the Arizona Department of Insurance and Financial Institutions (“Department”). One rulemaking is to revise the hearing rules of the Department’s Insurance Division (“Insurance Division”) (A.A.C. R20-6-101 through R20-6-160) and the other is to repeal the redundant Real Estate Appraisal hearing rules (A.A.C. R4-46-301.01 through R4-46-307.01). The three rulemakings are designed to occur simultaneously and to have the same effective date.

These rulemakings are necessary for a number of reasons. First, to update the rules. The Insurance Division most recently updated its hearing rules in 2011 and some of the rules conflict with the Arizona Uniform Administrative Hearing Procedures Act (“APA”) (A.R.S. §§ 41-1092 through 41-1092.12). The Department’s Financial Institutions Division (“Financial Institutions Division”) has not updated its hearing rules since 2001. At the very least, the Financial Institutions Division needs to remove any references to “Superintendent” in its rules because that position no longer exists.

Secondly, these rulemakings are necessary to synchronize the hearing rules between the two divisions of the Department: Financial Institutions and Insurance. Formerly, when these divisions were separate agencies, they had their own hearing rules. Synchronizing these sets of rules will promote efficiency for the agency when administering hearings for both divisions. These changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

The third reason is to eliminate the redundant rules applying to Real Estate Appraisal hearings. This will repeal a separate, unnecessary set of hearing rules and will allow Real

Estate Appraisal hearings to be governed by the Financial Institutions Division's hearing rules because Real Estate Appraisal is part of that division.

This rulemaking updates the Financial Institutions Division's hearing rules to reflect the structural change to the Department and to eliminate rules that are unnecessary because they are already contained in the APA. It also synchronizes the administrative hearing rules between the two divisions (Insurance and Financial Institutions).

Questions about this Economic Impact Statement can be directed to: Mary E. Kosinski (mary.kosinski@difi.az.gov).

A.R.S. § 41-1055(B)(2): An identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking.

Licenses subject to regulation by the Financial Institutions Division under A.R.S. Title 6 (State Chartered Banks and Credit Unions, Savings and Loan Associations, Consumer Lenders, Debt Management Companies, Escrow Agents, Trust Companies, Mortgage Brokers and Bankers, Loan Originators, Money Transmitters, Advance Fee Loan Brokers, and Premium Finance Companies), Title 32, Chapter 9 (Collection Agencies), Title 32, Chapter 36 (Real Estate Appraisers, Appraisal Management Companies, and Property Tax Agents), and Title 44, Chapter 2.1 (Sales Finance Companies) are directly affected by this rulemaking.

A.R.S. § 41-1055(B)(3): A cost benefit analysis of the following:

(a) The probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rulemaking. The probable costs to the implementing agency shall include the number of new full-time employees necessary to implement and enforce the proposed rule. The preparer of the economic, small business and consumer impact statement shall notify the joint legislative budget committee of the number of new full-time employees necessary to implement and enforce the rule before the rule is approved by the council.

This rulemaking is anticipated to result in a benefit to the Financial Institutions Division of the Department by synchronizing the Financial Institutions Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department. No new full-time employees are necessary to implement and enforce the revised rules.

(b) The probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking.

No political subdivision of this state is directly affected by the implementation and enforcement of the proposed rulemaking.

(c) The probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking.

No costs or benefits are anticipated to businesses directly affected by the proposed rulemaking because this rulemaking only updates the rules and synchronizes them with the Insurance Division's hearing rules. It does not add any new requirements for licensees that do not already exist in statute. These rules augment the APA which governs administrative hearings before the Department.

A.R.S. § 41-1055(B)(4): A general description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking.

The Department is not aware of any impact on the private employment of licensees who are subject to regulation by the Financial Institutions Division. Likewise, the Department does not anticipate any impact on public employment in the Department.

A.R.S. § 41-1055(B)(5): A statement of the probable impact of the proposed rulemaking on small businesses. The statement shall include:

(a) An identification of the small businesses subject to the proposed rulemaking.

“Small business” is defined as a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year. A.R.S. § 41- 1001(23). Many of the licensees regulated by the Financial Institutions Division may fall within this definition.

(b) The administrative and other costs required for compliance with the proposed rulemaking.

No new costs are required for compliance with the proposed rulemaking. The rulemaking accomplishes the following:

1. The rulemaking eliminates unnecessary rules for the Financial Institutions Division that are duplicative of the APA. For instance, Section R20-4-1208: Commencement of Proceedings; Notice of Hearing, is unnecessary because A.R.S. §§ 41-1092.03 addresses the Notice of Hearing and commencement of proceedings for administrative hearings. Likewise, Section R20-4-1211: Intervention, is unnecessary because A.R.S. § 41-1092.03(B) allows for intervention and Section R20-4-1220: Consent Agreements is also unnecessary because A.R.S. § 41-1092.07(F)(5) allows for informal disposition of a matter with a consent order.
2. The rulemaking retains existing rules that augment the APA. Section R20-4-1210: Stays, which is not addressed in the APA is retained.
3. The rulemaking replaces Section R20-4-1220: Consent Agreements, with Petition for Rulemaking Action. This replacement brings the Financial Institution hearing rules in compliance with A.R.S. § 41-1033(B) which requires an agency to prescribe the form of a petition and the procedures for the petition’s submission, consideration, and disposition. It also synchronizes the Financial Institutions Division rule with the Insurance Division rule on petitions.

Many of the other changes made to the Financial Institutions Division’s hearing rules are to mirror the Insurance Division’s hearing rules. These changes are either linguistic or rearrange provisions to synchronize with the Insurance Division’s

rules and have no impact on the costs required for compliance with the proposed rulemaking.

(c) A description of the methods prescribed in section 41-1035 that the agency may use to reduce the impact on small businesses, with reasons for the agency's decision to use or not to use each method.

The only new rule proposed for the Financial Institutions Division hearing rules is the replacement of Section R20-4-1220 with language addressing Petitions for Rulemaking Action. This new rule addresses the requirement imposed upon the agency that an agency prescribe the form of a petition and the procedures for the petition's submission, consideration, and disposition as required by A.R.S. § 41-1033(B). Although the new rule will have an impact on small businesses, the Department believes that the new rule is the least stringent and simplest approach to allow it to comply with the requirement of A.R.S. § 41-1033(B) while providing guidance to licensees seeking to file petitions under A.R.S. § 41-1033(A) with the Department.

(d) The probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking.

The proposed rulemaking has no probable impact on private persons and consumers because it only applies to licensees regulated by the Financial Institutions Division.

A.R.S. § 41-1055(B)(6): A statement of the probable effect on state revenues.

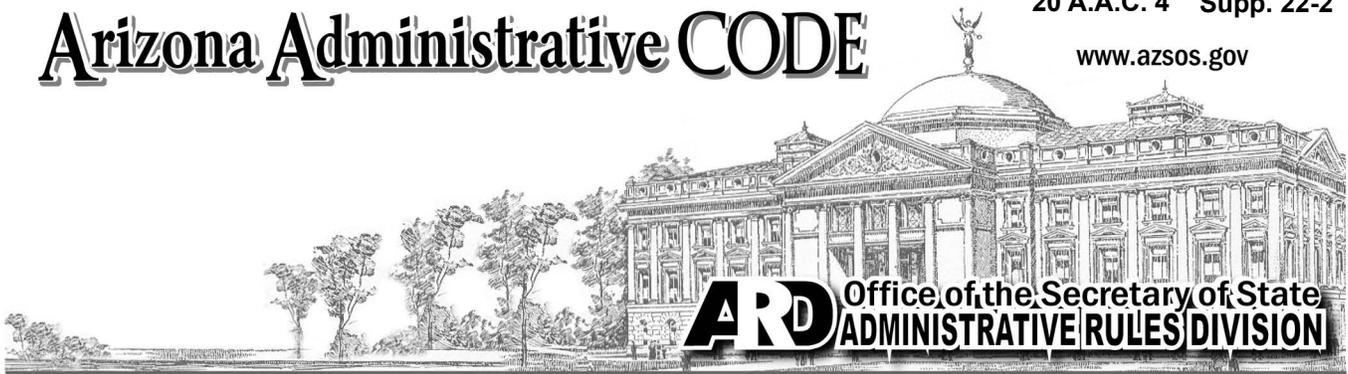

No impact on state revenues is anticipated.

A.R.S. § 41-1055(B)(7): A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using nonselected alternatives.

The Department believes that the current rulemaking offers the least intrusive and least costly alternative method to achieve the purpose of the proposed rulemaking.

A.R.S. § 41-1055(B)(8): A description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data. An agency advocating that any data is acceptable data has the burden of proving that the data is acceptable. For the purposes of this paragraph, "acceptable data" means empirical, replicable and testable data as evidenced in supporting documentation, statistics, reports, studies or research.

The rule is not based on any data.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

2. "Affiliate" has the meaning stated at A.R.S. § 6-901.
3. "Attorney General" means the Attorney General or an assistant Attorney General of the state of Arizona.
4. "Branch office" means any location within or outside Arizona, including a personal residence, but not including a licensee's principal place of business in Arizona, where the licensee holds out to the public that the licensee acts as a licensee.
5. "Business of a savings and loan association or savings bank" means receiving money on deposit subject to payment by check or any other form of order or request or on presentation of a certificate of deposit or other evidence of debt.
6. "Compensation" means, in applying that term's definition in A.R.S. §§ 6-901, 6-941, and 6-971, anything received in advance, after repayment, or at any time during a loan's life. This subsection expressly excludes the following items from those definitions of compensation:
 - a. Charges or fees customarily received after a loan's closing including prepayment penalties, termination fees, reinvestment fees, late fees, default interest, transfer fees, impound account interest and fees, extension fees, and modification fees. However, extension fees and modification fees are compensation if the lender advances additional funds or increases the credit limit on an open-end mortgage as part of the extension or modification;
 - b. Out-of-pocket expenses paid to independent third parties including appraisal fees, credit report fees, legal fees, document preparation fees, title insurance premiums, recording, filing, and statutory fees, collection fees, servicing fees, escrow fees, and trustee's fees;

9. "Correspondent contract," as that term is used in A.R.S. §§ 6-941, 6-943, 6-971, or 6-973, means an agreement between a lender and a funding source under which the funding source may fund, or is required to fund, loans originated by the lender.
10. "Cushion," as that term is used in R20-4-1811 or R20-4-1908, means funds that a servicer or lender may require a borrower to pay into an escrow or impound account before the borrower's periodic payments are available in the account to cover unanticipated disbursements.

The Superintendent's exercise of the discretion to accept alternative forms does not limit the Superintendent's power to require addi-

tional information necessary to complete an application or other form.

Historical Note

Former Rule 4. Former R4-4-104 repealed, new R4-4-104 adopted effective August 16, 1991 (Supp. 91-3). R20-4-104 recodified from R4-4-104 (Supp. 95-1). Amended by final rulemaking at 6 A.A.R. 4670, effective November 14, 2000 (Supp. 00-4).

R20-4-105. Claims Against a Deposit in Place of Bond

- A. As used in this Section:
 - 1. "Deposit" means cash or alternatives to cash deposited by a licensee with the Superintendent in place of a bond.
 - 2. "Depositor" means licensee or an employee of the licensee who makes a deposit with the Superintendent.
 - 3. "Verified claim" means a claim filed with the Superintendent under subsection (B).
 - 4. "Award" means an amount of money granted under subsection (F).
- B. A person may file a claim against a deposit by delivering documentation of the claim to the Superintendent. The claim shall be based on a final judgment in favor of the claimant, entered by a court of competent jurisdiction. To support a claim, the judgment shall be:
 - 1. Against a depositor;
 - 2. For injury caused by the depositor's wrongful act, default, fraud, or misrepresentation committed in the course of the depositor's licensed business activity; and
 - 3. Documented by:
 - a. A certified copy of the complaint in the action;
 - b. A certified copy of the judgment in the action;
 - c. A statement that execution of the judgment has not been stayed, or an explanation of the terms and reason for any stay;
 - d. A statement of any amounts recovered on the judgment; and
 - e. A sworn and notarized statement that the claim is true and correct to the best of the claimant's knowledge and belief.
- C. A claimant shall file a claim with the Superintendent, and all required supporting documentation, not more than six months after entry of the judgment asserted in the claim. However, if execution of the asserted judgment is stayed during the first six months after its entry, the claimant may file a verified claim only during the six months after the stay is lifted. The Department shall process a timely-filed verified claim as a request for hearing under R20-4-1208.
- D. The claimant shall notify the depositor of the filing of a verified claim under this Section, and make the depositor a party to all proceedings on the claim. To do so, the claimant shall send the depositor a copy of all documents filed under subsection (B). The claimant shall make this delivery no more than 10 days after the original filing with the Superintendent under subsection (B). The Department considers a proceeding on a verified claim to be a contested case, governed by the provisions of 20 A.A.C. 4, Article 12.
- E. The Superintendent shall, after a hearing, deny a verified claim if the hearing produces evidence of any of the following circumstances:
 - 1. The judgment is not for an injury caused by the depositor and described in subsection (B)(2);
 - 2. The judgment was awarded by default, stipulation, or consent, and no showing is made in the hearing of an injury caused by the depositor and described in subsection (B)(2);
 - 3. The judgment's execution has been stayed for any reason;

CHAPTER 4. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - FINANCIAL INSTITUTIONS

4. The judgment was procured through fraud or collusion;
 5. The judgment has been satisfied from other sources; or
 6. The action that produced the judgment was barred by the applicable statute of limitations at the time it was commenced.
- F.** If the Superintendent grants a verified claim, the Superintendent shall do so in the amount of the compensatory damages awarded against the depositor in the judgment, exclusive of:
1. Attorney's fees, and
 2. Amounts previously paid on the judgment.
- G.** A person injured by a depositor shall give the Superintendent written notice at the time of filing a civil action if the claims alleged could be made as a verified claim under this Section. The written notice shall include a statement of the amount of compensatory damages sought against the depositor. The injured person shall provide further information about the civil action to the Superintendent upon request.
- H.** If the Superintendent grants a verified claim under subsection (F), the Superintendent shall authorize the State Treasurer, in writing, to release the deposit to the claimant in the amount stated in subsection (F) if the Superintendent has not received notice of another pending civil action under subsection (G).
- I.** If given notice under subsection (G), the Superintendent shall determine whether the deposit is sufficient to satisfy all claims under subsection (F). The Superintendent shall determine award amounts for each claim of which the Superintendent has notice, and authorize payment, as follows:
1. If the deposit is sufficient to satisfy all claims under subsection (F), the Superintendent shall authorize its release as described in subsection (H).
 2. If the deposit is not sufficient to satisfy all claims under subsection (F), the Superintendent shall calculate the award on each claim as follows:
 - a. Each granted claim shall receive a pro rata share of the total deposit.
 - b. Each pro rata share shall be a dollar amount calculated by multiplying the total deposit by a fraction.
 - i. The numerator of the fraction is the amount of the Superintendent's award for the verified claim.
 - ii. The denominator of the fraction is the sum of the amount of the Superintendent's award for the verified claim plus the total compensatory damages sought in all other civil actions against the same depositor disclosed to the Superintendent under subsection (G).
 - c. The Superintendent shall authorize the State Treasurer to release the pro rata portion of the deposit calculated for each verified claim.
- J.** A depositor or former licensee may request return of its deposit if it substitutes a bond for the deposit, or if its license is surrendered, revoked, or expired, and if all statutory conditions for release of the deposit have been satisfied. The Superintendent shall not release any part of a deposit to a depositor or former licensee until the Superintendent determines whether there are any awards on verified claims unsatisfied because of an apportionment under subsection (I). The Superintendent shall use the deposit amount to pay any unsatisfied portion of those awards. If the deposit amount is not sufficient to pay in full all unsatisfied awards, the Superintendent shall pay the remaining amount of the deposit to claimants in the ratio their awards bear to the total of all awards granted against the deposit.
- K.** The court supervising a licensee in receivership may order the release of a deposit to persons injured by conduct described in subsection (B). In that event, the receiver shall deliver a certi-

fied copy of the court's order to the Superintendent. The copy may be uncertified if the receiver is the Superintendent or any other officer or agency of the state of Arizona. The Superintendent shall then authorize the State Treasurer, in writing, to release the deposit to the receiver. The receiver shall distribute the deposit as ordered by the receivership court, rather than under this Section.

R20-4-106. Bankruptcy

An enterprise licensee or consumer lender licensee shall immediately deliver written notice to the Superintendent if it files a voluntary bankruptcy petition, or if its creditors name the licensee a debtor in an involuntary bankruptcy petition. On the date of each of the following documents' filing with the bankruptcy court, the licensee shall deliver to the Superintendent a copy of the:

1. Petition for relief,
2. Schedule of assets and liabilities,
3. Statement of financial affairs,

R20-4-107. Licensing Time-frames

- A.** As used in this Section, "application" means a document specified or described in this Title, or in any statute enforced by the Department, requesting any permit, certificate, approval, registration, charter, or similar permission described in Table A, together with all supporting documentation required by statute or rule.
- B.** The time-frames in Table A apply solely to applications received by the Department after the effective date of this Section. Each overall time-frame consists of an administrative completeness review time-frame, and a substantive review time-frame. The administrative completeness review time-frame begins to run upon receipt of an application by the Department.
1. Within the administrative completeness review time-frame in Table A, the Department shall notify the applicant in writing whether the application is complete. If the application is incomplete, the notice shall specify the missing information or component.
 2. An applicant whose application is incomplete shall supply the missing information within 60 days after the date of the notice. If an applicant shows good cause in writing before the expiration of the 60 day time limit, the Superintendent shall extend the period for administrative completion of an application. The administrative completeness review time-frame stops running on the postmark date of the Department's written notice of an incomplete application, and resumes when the Department receives a complete application. If the applicant fails to submit a complete application within the specified time limit, the Department shall reject the application and close the file. An applicant may reapply.
 3. The substantive review time-frame begins to run on the postmark date of the Department's written notice that the application is administratively complete.

CHAPTER 4. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - FINANCIAL INSTITUTIONS

4. Within the overall time-frame set forth in Table A the Department shall send the applicant written notice of its decision to approve, conditionally approve, or deny a license, unless the time-frame is extended by mutual agreement under A.R.S. § 41-1075. If the Department denies an application, it shall provide written justification for the denial and a written explanation of the applicant's right to a hearing or appeal in the form required by A.R.S. § 41-1076.
5. The Department shall calculate time limits prescribed in this Section under R2-19-107.
- C. The time-frames in this Section apply solely to actions taken by the Department. Nothing in this Section relieves a licensee or applicant of a duty to fulfill any other legal or regulatory requirement that is a condition of its power and authority to engage in business.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: November 1, 2022

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: October 12, 2022

SUBJECT: DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS
Title 20, Chapter 6

Amend: Article 1, R20-6-101, R20-6-102, R20-6-103, R20-6-106,
R20-6-114, R20-6-160

Repeal: R20-6-115

Summary:

This regular rulemaking from the Department of Insurance and Financial Institutions (Department) seeks to amend six (6) rules and repeal one (1) rule in Title 20, Chapter 6, Article 1 related to Hearing Procedures and Rulemaking Petitions before the Insurance Division.

Specifically, this rulemaking updates the Insurance Division's hearing rules to synchronize the administrative hearing rules between the two divisions (Insurance and Financial Institutions). Formerly, when these divisions were separate agencies, they had their own hearing rules. The Department states synchronizing these sets of rules will promote efficiency for the agency when administering hearings for both divisions. The Department states these changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

This rulemaking also adds provisions for public comment hearings that Title 20 requires the Director to conduct and to produce an order upon (“Director’s Hearings”). These Director’s Hearings are not administrative hearings (i.e. appealable agency actions or contested cases) and fall outside the purview of the APA. Lastly it rewrites the Section on Rulemaking Petitions to provide greater clarity to petitioners filing petitions with the Department pursuant to A.R.S. § 41-1033(A).

1. **Are the rules legal, consistent with legislative intent, and within the agency’s statutory authority?**

The Department cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department indicates it did not review or rely on any study in conducting this rulemaking.

4. **Summary of the agency’s economic impact analysis:**

The rulemaking is not designed to change any conduct. Instead, it is designed to streamline and coordinate the rules governing administrative hearings before the Director. It does not address any harm resulting from any conduct by licensees. Because this rulemaking is not made in response to a perceived problem caused by the conduct of licensees, it is not intended to reduce the frequency of any potentially volatile conduct.

This rulemaking is anticipated to result in a benefit to the Insurance Division of the Department by synchronizing the Financial Institution Division’s and Insurance Division’s hearing rules which should result in less confusion and greater efficiency for the Department. No costs or benefits are anticipated to businesses directly affected by the proposed rulemaking because this rulemaking only updates the rules and synchronizes them with the Financial Institutions Division’s hearing rules. It does not add any new requirements for licensees that do not already exist in statute. These rules augment the Administrative Hearing Procedures Act (APA) which governs administrative hearings before the Department.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department believes that the current rulemaking offers the least intrusive and least costly alternative method to achieve the purpose of the proposed rulemaking.

6. What are the economic impacts on stakeholders?

Licenses subject to regulation by the Insurance Division under A.R.S. Title 20 (insurers, insurance professionals, risk retention groups, service companies, rating and rate service organizations, third party administrators, and utilization review agents) are directly affected by this rulemaking.

This rulemaking is anticipated to result in a benefit to the Insurance Division of the Department by synchronizing the Financial Institution Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department. No new full-time employees are necessary to implement and enforce the revised rules.

The only new provisions proposed for the Insurance Division hearing rules is the definition for Director's Hearings found at Section R20-6-101 and the hearing procedures proposed for those hearings at Section R20-6-102. Although the new language may have an impact on some small businesses in some rare cases, the Department believes that the new procedures are the least stringent and simplest approach to allow it to conduct a Director's Hearing.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates it amended rule R20-6-101(B)(5) to remove a citation to an Arizona Attorney General Opinion (Ariz. Att'y Gen. Op. I92-007) because it does not conform with rule writing standards as set by the Secretary of State's Office.

Additionally, the Department indicates "Hearing Officer" has been capitalized throughout because it is a defined term.

Council staff does not believe these changes between the Notice of Proposed Rulemaking and the Notice of Final Rulemaking make the rules "substantially different" as described in A.R.S. § 41-1025.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it received no comments regarding this rulemaking.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Not applicable. The rules do not require a permit, license, or agency authorization.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are no corresponding federal laws applicable to the subject of this rulemaking.

11. Conclusion

This regular rulemaking from the Department seeks to amend six (6) rules and repeal one (1) rule in Title 20, Chapter 6, Article 1 related to Hearing Procedures and Rulemaking Petitions before the Insurance Division. Specifically, this rulemaking updates the Insurance Division's hearing rules to synchronize the administrative hearing rules between the two divisions (Insurance and Financial Institutions). This rulemaking also seeks to add provisions for public comment hearings that Title 20 requires the Director to conduct and to produce an order upon ("Director's Hearings"). Lastly this rulemaking seeks to rewrite the Section on Rulemaking Petitions to provide greater clarity to petitioners filing petitions with the Department pursuant to A.R.S. § 41-1033(A).

The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

This rulemaking is being initiated with two other rulemakings by the Arizona Department of Insurance and Financial Institutions ("Department"). One rulemaking is to revise the hearing rules of the Department's Financial Institutions Division ("Financial Institutions Division") (A.A.C. R20-4-1201 through R20-4-1220) and the other is to repeal the redundant Real Estate Appraisal hearing rules (A.A.C. R4-46-301.01 through R4-46-307.01). The three rulemakings are designed to occur simultaneously and to have the same effective date.

These rulemakings are necessary for a number of reasons. First, to update the rules. The Department's Insurance Division ("Insurance Division") most recently updated its hearing rules in 2011 and some of the rules conflict with the Arizona Uniform Administrative Hearing Procedures Act ("APA") (A.R.S. §§ 41-1092 through 41-1092.12). The Financial Institutions Division has not updated its hearing rules since 2001. At the very least, the Financial Institutions Division needs to remove any references to "Superintendent" in its rules because that position no longer exists.

Secondly, these rulemakings are necessary to synchronize the hearing rules between the two divisions of the Department: Insurance and Financial Institutions. Formerly, when these divisions were separate agencies, they had their own hearing rules. Synchronizing these sets of rules will promote efficiency for the agency when administering hearings for both divisions. These changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

The third reason is to eliminate the separate rules applying to Real Estate Appraisal hearings. This will repeal a separate, unnecessary set of hearing rules and will allow Real Estate Appraisal hearings to be governed by the Financial Institutions Division's hearing rules because Real Estate Appraisal is part of that division.

This rulemaking updates the Insurance Division's hearing rules to synchronize the administrative hearing rules between the two divisions (Insurance and Financial Institutions). It also adds provisions for public comment hearings that Title 20 requires the Director to conduct and to produce an order upon ("Director's Hearings"). These Director's Hearings are not administrative hearings (i.e. appealable agency actions or contested cases) and fall outside the purview of the APA. Lastly it rewrites the Section on Rulemaking Petitions to provide greater clarity to petitioners filing petitions with the Department pursuant to A.R.S. § 41-1033(A).

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review and does not propose to rely on any study relevant to this rulemaking.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

The rulemaking does not diminish a previous grant of authority granted to the Department.

9. A summary of the economic, small business, and consumer impact:

Pursuant to A.R.S. § 41-1055(A):

- The rulemaking is not designed to change any conduct. Instead, it is designed to streamline and coordinate the rules governing administrative hearings before the Director.
- The rulemaking does not address any harm resulting from any conduct by licensees.
- Because this rulemaking is not made in response to a perceived problem caused by the conduct of licensees, it is not intended to reduce the frequency of any potentially violative conduct.
- This rulemaking is anticipated to result in a benefit to the Insurance Division of the Department by synchronizing the Financial Institution Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department.
- No costs or benefits are anticipated to businesses directly affected by the proposed rulemaking because this rulemaking only updates the rules and synchronizes them with the Financial Institutions Division's hearing rules. It does not add any new requirements for licensees that do not already exist in statute. These rules augment the APA which governs administrative hearings before the Department.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

The citation in Section R20-6-101(B)(5) to an Arizona Attorney General Opinion (Ariz. Att’y Gen. Op. I92-007) has been eliminated because it does not conform with rule writing standards. “Hearing Officer” has been capitalized throughout because it is a defined term.

11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Department did not receive any public or stakeholder comments about the rulemaking.

12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

No other matters prescribed by statute are applicable to the Department or to any specific rule or class of rules.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The rule does not require a permit and does not use a general permit. Instead, the rule is designed to provide guidance on conducting administrative hearings.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

No federal law is applicable to the subject of the rule.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:

No formal analysis has been submitted to the Department that compares the rule’s impact of the competitiveness of business in this state to the impact of business in other states.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

The rule does not incorporate any reference material into the rule as specified at A.R.S. § 41-1028.

14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

The rule was not previously made, amended or repealed as an emergency rule.

15. The full text of the rules follows:

Any assertion-allegation not denied shall be deemed to be~~ is admitted. ~~When answering party intends in good faith to deny only a part of an assertion, he shall specify so much of it as is true and shall deny only the remainder. A party who intends to deny only a part of an allegation shall expressly admit as much of that allegation as is true and shall deny the remainder.~~
- D. ~~If a party fails to file an answer required by the Director within the time provided, such person shall be deemed in default and the proceeding may be determined against him by the Director and one or more of the assertions contained in the notice of hearing may be deemed to be admitted. A party who fails to file an answer required by this Section within the time allowed is in default. The Director may resolve the proceeding against the defaulting party. In doing so, the Director may regard any allegations in the notice of hearing as admitted by the defaulting party.~~

The request shall be in writing and shall be served upon the Director as provided by R20-6-103, and a copy shall be served upon all other parties to the hearing, including the Attorney General if the Attorney General is not the party filing the request. Any party aggrieved by an administrative decision may file with the Director, within time limits and other procedural guidelines contained in A.R.S. § 41-1092.09, a written motion for a rehearing or review of the decision specifying the particular reason for the request.~~
- B. ~~A request for rehearing or review shall be based upon one or more of the following grounds which have materially affected the rights of a party:~~

A party filing a motion under this Section may amend the motion at any time before a response to the motion is filed. An amended motion tolls the time for filing a response and the time for rendering a decision on the motion.

- C. ~~A request for rehearing or review shall specify which of the grounds listed in subsection (B) it is based upon and shall set forth specific facts and laws in support of the request. A request may cite relevant portions of testimony from the hearing by referring to the pages or lines of the reporter's transcript of the hearing and may cite hearing exhibits by reference to the exhibit number. A request for rehearing or review which is not timely filed is deemed waived for the purpose of judicial review.~~
- D. ~~A request for rehearing shall specify the relief sought by the request, such as a different finding of fact, conclusion of law or order. A request for rehearing or review may seek multiple forms of relief in the alternative. A motion for rehearing shall specify which of the grounds listed in subsection (G) it is based upon and shall set forth the specific facts and laws in support of the motion. A motion may cite relevant portions of testimony from the hearing if a transcript is provided with the motion and may cite hearing exhibits by reference to the exhibit number. The motion shall specify the relief sought by the request, such as a different finding of fact, conclusion of law or order and may seek multiple forms of relief in the alternative. When a motion for rehearing or review is based on an affidavit, the moving party shall attach the affidavit to the motion.~~
- E. ~~When a request for rehearing is based upon affidavits, they shall be attached to and filed with the request unless leave for later filing of affidavits is granted by the Director or hearing officer. Leave may be granted ex parte. A party may file a separate request for a stay of the Director's decision~~

pursuant to A.R.S. § 20-162(B). Filing a stay request or a motion for rehearing does not stay an order filed by the Director. The Director may stay an order pending the resolution of a motion for rehearing or review.

- F. ~~A request for rehearing or review of the Director's order on the hearing which is not timely made is deemed waived for the purpose of judicial review. A party who fails to request rehearing or review of the Director's order on the hearing shall be barred from raising a claim in any proceeding in which the Director, the hearing officer or the Department of Insurance is a party, except as otherwise required by law.~~ Each party served with a motion for rehearing or review shall be permitted to file a written response within 15 days after the motion has been filed. Affidavits may be attached to and filed with a response. A response may cite relevant portions of testimony from the hearing if a transcript is provided with the response and may cite hearing exhibits by reference to the exhibit number. The Director has the discretion to hear oral argument to consider a request for rehearing or review.
- G. ~~A party may file a written request for a stay of the Director's decision. An order entered by the Director shall not be stayed by the filing of a stay request or a request for rehearing or review. The Director may stay an order pending the resolution of a request for rehearing or review or when justice requires.~~ The Director may grant a motion for rehearing or review for any of the following causes:
1. Irregularity in the proceedings before the Department, in any order, or any abuse of discretion that deprives the moving party of a fair hearing;
 2. Misconduct by the Department, the administrative law judge, or the prevailing party;
 3. Accident or surprise that could not have been prevented by ordinary care;
 4. Newly discovered material evidence that could not reasonably have been discovered and produced at the original hearing;
 5. Excessive or insufficient penalties;
 6. Error in admitting or rejecting evidence or other legal errors occurring at the hearing; and
 7. The decision is not justified by the evidence or is contrary to law.
- H. The Director may affirm or modify the decision or grant a rehearing as to all or any of the parties and on all or part of the issues for any reason listed in subsection (G). An order granting a rehearing shall specify the reason for granting the rehearing, and the rehearing shall cover only those matters specified.
- I. The Director, within the time for filing a motion for rehearing, may without a motion for rehearing, order a rehearing for any reason that would allow the granting of a motion for rehearing by a party. The order for rehearing, granted without a motion, shall specify the reason for granting the rehearing.

J. The Director may grant a motion for rehearing, timely served, for a reason not stated in the motion. The order for rehearing, granted for a reason not stated in the motion, shall specify the reason for granting the rehearing.

~~R20-6-115. Response to Request for Rehearing~~

A. ~~Each party served with a request for rehearing pursuant to R20-6-114 shall be permitted to file a response within 15 days after the request for rehearing has been filed. This response shall be designated as a “response to request for rehearing or review” and shall be in writing. Affidavits may be attached to and filed with the response. If not filed in this manner, an affidavit shall be filed only if leave for later filing of affidavits is granted by the hearing officer or Director. Leave may be granted ex parte. The original response shall be filed with the Department as provided in R20-6-103, and one copy shall be served upon all other parties to the hearing, including the Attorney General if the Attorney General is not the party filing the response.~~

A.R.S. § 41-1055(B) Economic, Small Business, And Consumer Impact Statement

Title 20. Commerce, Financial Institutions, and Insurance

Chapter 6. Department of Insurance and Financial Institutions

– Insurance Division

Article 1. Hearing Procedures and Rulemaking Petitions

A.R.S. § 41-1055(B)(1): An identification of the proposed rulemaking.

This rulemaking is being initiated with two other rulemakings by the Arizona Department of Insurance and Financial Institutions (“Department”). One rulemaking is to revise the hearing rules of the Department’s Financial Institutions Division (“Financial Institutions Division”) (A.A.C. R20-4-1201 through R20-4-1220) and the other is to repeal the redundant Real Estate Appraisal hearing rules (A.A.C. R4-46-301.01 through R4-46-307.01). The three rulemakings are designed to occur simultaneously and to have the same effective date.

These rulemakings are necessary for a number of reasons. First, to update the rules. The Department’s Insurance Division (“Insurance Division”) most recently updated its hearing rules in 2011 and some of the rules conflict with the Arizona Uniform Administrative Hearing Procedures Act (“APA”) (A.R.S. §§ 41-1092 through 41-1092.12). The Financial Institutions Division has not updated its hearing rules since 2001. At the very least, the Financial Institutions Division needs to remove any references to “Superintendent” in its rules because that position no longer exists.

Secondly, these rulemakings are necessary to synchronize the hearing rules between the two divisions of the Department: Financial Institutions and Insurance. Formerly, when these divisions were separate agencies, they had their own hearing rules. Synchronizing these sets of rules will promote efficiency for the agency when administering hearings for both divisions. These changes will still allow for some of the unique procedures germane to each division while eliminating insignificant differences.

The third reason is to eliminate the redundant rules applying to Real Estate Appraisal hearings. This will repeal a separate, unnecessary set of hearing rules and will allow Real Estate Appraisal hearings to be governed by the Financial Institutions Division's hearing rules because Real Estate Appraisal is part of that division.

This rulemaking updates the Insurance Division's hearing rules to synchronize the administrative hearing rules between the two divisions (Insurance and Financial Institutions). It also adds provisions for public comment hearings that Title 20 requires the Director to conduct and to produce an order upon ("Director's Hearings"). These Director's Hearings are not administrative hearings (i.e. appealable agency actions or contested cases) and fall outside the purview of the APA. Lastly it rewrites the Section on Rulemaking Petitions to provide greater clarity to petitioners filing petitions with the Department pursuant to A.R.S. § 41-1033(A).

Questions about this Economic Impact Statement can be directed to: Mary E. Kosinski (mary.kosinski@difi.az.gov).

A.R.S. § 41-1055(B)(2): An identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking.

Licenses subject to regulation by the Insurance Division under A.R.S. Title 20 (insurers, insurance professionals, risk retention groups, service companies, rating and rate service organizations, third party administrators, and utilization review agents) are directly affected by this rulemaking.

A.R.S. § 41-1055(B)(3): A cost benefit analysis of the following:

(a) The probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rulemaking. The probable costs to the implementing agency shall include the number of new full-time employees necessary to implement and enforce the proposed rule. The preparer of the economic, small business and consumer impact statement shall notify the joint legislative budget committee

of the number of new full-time employees necessary to implement and enforce the rule before the rule is approved by the council.

This rulemaking is anticipated to result in a benefit to the Insurance Division of the Department by synchronizing the Financial Institution Division's and Insurance Division's hearing rules which should result in less confusion and greater efficiency for the Department. No new full-time employees are necessary to implement and enforce the revised rules.

(b) The probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking.

No political subdivision of this state is directly affected by the implementation and enforcement of the proposed rulemaking.

(c) The probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking.

No costs or benefits are anticipated to businesses directly affected by the proposed rulemaking because this rulemaking only updates the rules and synchronizes them with the Financial Institutions Division's hearing rules. It does not add any new requirements for licensees that do not already exist in statute. These rules augment the APA which governs administrative hearings before the Department and clarify petition requirements under A.R.S. § 41-1033(A).

A.R.S. § 41-1055(B)(4): A general description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking.

The Department is not aware of any impact on the private employment of licensees who are subject to regulation by the Insurance Division. Likewise, the Department does not anticipate any impact on public employment in the Department.

A.R.S. § 41-1055(B)(5): A statement of the probable impact of the proposed rulemaking on small businesses. The statement shall include:

(a) An identification of the small businesses subject to the proposed rulemaking.

“Small business” is defined as a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year. A.R.S. § 41- 1001(23). Many of the licensees regulated by the Insurance Division may fall within this definition.

(b) The administrative and other costs required for compliance with the proposed rulemaking.

No new costs are required for compliance with the proposed rulemaking. The rulemaking accomplishes the following:

1. The rulemaking consolidates two rules which eliminates one rule for the Insurance Division.
2. The rulemaking retains existing rules that augment the APA.
3. The rulemaking addresses and adds hearing procedures particular to the Insurance Division for hearings that are mandated by A.R.S. Title 20. These hearings, called “Director’s Hearings” in the rulemaking, are not subject to the APA because they are not administrative hearings (i.e. contested cases or appealable agency actions) within the meaning of the APA. Instead, they are hearings that allow the Director to take public comment for the purpose of issuing an order on various issues such as:
 - a. Taking comments to determine whether the cooperation among rating organizations and insurers is unfair or unreasonable or otherwise inconsistent with the provisions of Title 20 under A.R.S. § 20-365;
 - b. Taking comments to determine whether a reasonable degree of price competition exists at the consumer level with respect to a particular class of business or to determine an allowable percentage of increase in a proposed

- rate level for a particular line, subline, or class of business under A.R.S. § 20-383(B);
- c. Taking comments to exempt rate filings or to find that a particular market is noncompetitive for purposes of rate filing under A.R.S. §§ 20-385(F) and (G);
 - d. Taking comments to determine recognized surplus lines under A.R.S. § 20-409;
 - e. Taking comments regarding acquisitions within a holding company system if the acquisition would require the approval of other states under A.R.S. § 20-481.07(G);
 - f. Taking comments to establish criteria for third parties who are eligible to provide credit enhancement for separate accounts and to accept assets that are pledged under A.R.S. § 20-536.01(C);
 - g. Taking comments to prescribe standards to allow investments in separate accounts to exceed established limits under A.R.S. § 20-536.01(D);
 - h. Taking comments in order to prescribe an investment grade rating, to recognize rating agencies for purposes of investment, or to prescribe standards by which obligations of insurers who have not received an investment grade rating may be eligible for investment under A.R.S. §§ 20-544 and 20-545;
 - i. Taking comments from parties affected by a proposed corporate acquisition, merger or consolidation of title insurers under A.R.S. §§ 20-1576(A)(1) and 20-1577(A);
 - j. Taking comments to establish a loss ratio standard for credit property and credit unemployment insurance under A.R.S. § 10-1621.05(B);
 - k. Taking comments for the purpose of exempting certain forms from the application of Title 20, Chapter 6, Article 14: Cancellation or Non-Renewal of Commercial Insurance under A.R.S. § 20-1671(12); and
 - l. Taking comments to establish prima facie rates for credit life and credit disability insurance under Section R20-6-604.03(A).

5. The rulemaking rewrites subsections of Section R20-6-160 to better identify what the Department requires from petitioners filing pursuant to A.R.S. §41-1033(A). This comports with the requirement, under A.R.S. § 41-1033(B) that “An agency shall prescribe the form of the petition and the procedures for the petition’s submission, consideration and disposition.” The Department believes that the revised Section provides better guidance to persons seeking to file a petition with the Department than the previous version of the Section. Better guidance should not increase compliance costs because it provides clarity and eliminates confusion for petitioners.

Many of the other changes made to the Insurance Division’s hearing rules are to mirror the Financial Institutions Division’s hearing rules. These changes are either linguistic or rearrange provisions to synchronize with the Financial Institutions Division’s rules and have no impact on the costs required for compliance with the proposed rulemaking.

(c) A description of the methods prescribed in section 41-1035 that the agency may use to reduce the impact on small businesses, with reasons for the agency's decision to use or not to use each method.

The only new provisions proposed for the Insurance Division hearing rules is the definition for Director’s Hearings found at Section R20-6-101 and the hearing procedures proposed for those hearings at Section R20-6-102. Although the new language may have an impact on some small businesses in some rare cases, the Department believes that the new procedures are the least stringent and simplest approach to allow it to conduct a Director’s Hearing.

(d) The probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking.

The proposed rulemaking has no probable impact on private persons and consumers because it only applies to licensees regulated by the Insurance Division.

A.R.S. § 41-1055(B)(6): A statement of the probable effect on state revenues.

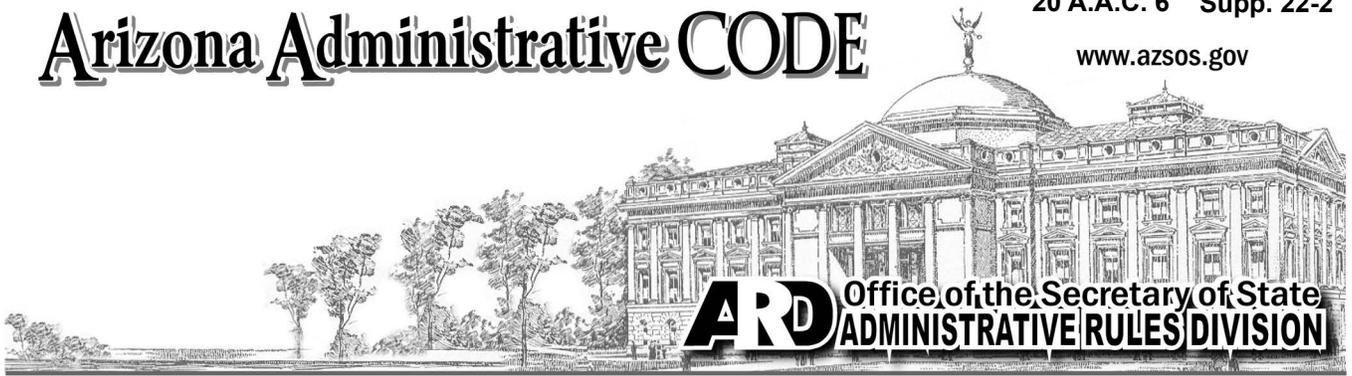

No impact on state revenues is anticipated.

A.R.S. § 41-1055(B)(7): A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using nonselected alternatives.

The Department believes that the current rulemaking offers the least intrusive and least costly alternative method to achieve the purpose of the proposed rulemaking.

A.R.S. § 41-1055(B)(8): A description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data. An agency advocating that any data is acceptable data has the burden of proving that the data is acceptable. For the purposes of this paragraph, "acceptable data" means empirical, replicable and testable data as evidenced in supporting documentation, statistics, reports, studies or research.

The rule is not based on any data.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

Administrative Rules Division
The Arizona Secretary of State electronically publishes each A.A.C. Chapter with a digital certificate. The certificate-based signature displays the date and time the document was signed and can be validated in Adobe Acrobat Reader.

 - 4. If a policy covers only one disease or a list of specified diseases, any advertisement for the policy shall not imply coverage beyond the specified diseases.
 - 5. If a policy pays varying amounts for the same loss occurring under different conditions or pays benefits only when a loss occurs under certain conditions, any advertisement for the policy shall disclose the limited conditions.
 - 6. If an advertisement specifies payment of a particular dollar amount for hospital room and board expenses, the advertisement shall also include the maximum daily ben-

efit and the maximum time limit for which those expenses are covered.

7. An advertisement that refers to any dollar amount, period of time for which a benefit is payable, cost of policy, or specific policy benefit or the loss for which a benefit is payable shall also disclose any related exclusions, reductions, and limitations without which the advertisement would have the capacity and tendency to mislead or deceive.
 8. An advertisement covered by subsection (C)(7) shall disclose the existence of a waiting period if a policy contains a period between the effective date of the policy and the effective date of coverage under the policy. The advertisement shall disclose the existence of an elimination period.
 9. An advertisement shall disclose any exclusion, reduction, or limitation applicable to a pre-existing condition; however, an insurer is not required to make disclosure in an advertisement that does not reference specific product information, benefit level, or dollar amounts.
 10. If a policy has an exclusion, reduction, or limitation applicable to a preexisting condition, an advertisement shall not state or imply that the applicant's physical condition or medical history will not affect the issuance of the policy or payment of a claim and shall not use the phrase "no medical examination required" or other similar phrase.
 11. If an advertisement refers to renewability, cancellation, or termination of a policy, or states or illustrates time or age in connection with eligibility of applicants or continuation of the policy, the advertisement shall disclose the provisions relating to renewability, cancellation, and termination and any modification of benefits, losses covered, or premiums because of age or for other reasons, in a manner that does not minimize or obscure the qualifying conditions.
 12. An advertisement shall not make any offer prohibited under A.R.S. § 20-452(4).
 13. An advertisement shall not advertise any health insurance policy or form that has not been approved by the Department, unless the policy or form being advertised is exempt from approval or not subject to approval by order or statute.
 14. An advertisement shall not state or imply that a product being offered is an introductory, special, or initial offer that will entitle the applicant to receive advantages not described in the policy by accepting the offer.
 15. An advertisement designed to produce leads either by use of a coupon, a request to write or call the company, or subsequent advertisement before contact, shall disclose that a producer may contact the potential applicant.
- D.** Method of disclosure of required information. If an insurer is required by law to disclose particular information, the information shall be conspicuous and in close proximity to the statements to which the information relates, or under a prominent caption so that the required disclosure is not minimized, obscured, presented in an ambiguous fashion, or intermingled with the content of the advertisement.
- E.** Testimonials.
1. Testimonials used in advertisements shall be genuine, represent the current opinion of the author, be applicable to the policy advertised, and be accurately reproduced. The insurer shall provide the Department with the full name of the author and a copy of the full testimonial if the advertisement is filed with the Department or requested by the Department. If an insurer uses a testimonial, the insurer adopts the statements in the testimonial as the insurer's own statements. If a testimonial or endorsement is used more than one year after it is given, the insurer shall obtain a written confirmation from the author that the testimonial represents the current opinion of the author.
 2. The insurer shall disclose that a spokesperson has a financial interest or the proprietary or representative capacity of a spokesperson in an advertisement in the introductory portion of a testimonial or endorsement in the same form and with equal prominence as the endorsement. If a spokesperson is directly or indirectly compensated for making a testimonial or endorsement, the insurer shall disclose that fact in the advertisement by language that states, "Paid Endorsement," or words of similar import in type, style, and size at least equal to that used for the spokesperson's name or the body of the testimonial or endorsement, whichever is larger. For television or radio advertising, the insurer shall place the required disclosure prominently in the introductory portion of the advertisement.
- F.** Statistics. An advertisement with information on the dollar amounts of claims paid, the number of persons insured, or similar statistical information relating to any insurer or policy shall not use facts that are irrelevant to the sale of insurance and shall accurately reflect all of the relevant facts specific to the advertised policy or insurer. An advertisement shall not state or imply that statistics are derived from the policy being advertised unless that is true. The insurer shall identify in the advertisement the source of any statistics used.
- G.** Inspection of policy. An offer in an advertisement of free inspection of a policy or offer of a premium refund does not cure misleading or deceptive statements in the advertisement.
- H.** Identification of plan or number of policies.
1. If an advertisement offers a choice in the amount of benefits the advertisement shall disclose that the amount of benefits depends on the policy selected and that the premium will vary with the amount of the benefits.
 2. If an advertisement refers to benefits contained in more than one policy, other than a group master policy, the advertisement shall disclose that the benefits are provided only if multiple policies are purchased.
- I.** Disparaging comparisons and statements. An advertisement shall not make unfair, incomplete, or unsubstantiated comparisons of other insurers' policies or benefits or falsely disparage other insurers' policies, services, or business methods. A comparison is unsubstantiated if the insurer has no empirical study, analysis, or documentation supporting the comparative statement or comparison of policies or benefits.
- J.** Jurisdictional limits. If an insurer has an advertisement that is meant to be seen or heard beyond the limits of the jurisdiction in which the insurer is licensed, the advertisement shall indicate that the insurer is licensed in a specified state or states only, or is not licensed in a specified state or states, by use of language such as "This Company is licensed only in State A" or "This Company is not licensed in State B."
- K.** Identity of insurer. The insurer shall state the name of the actual insurer in all of its advertisements. An advertisement shall clearly identify the insurer and shall not use a trade name, an insurance group designation, name of the parent company of the insurer, name of a particular division of the insurer, service mark, slogan, symbol, or other device that may mislead or deceive the public as to the insurer's identity.
- L.** Group insurance. An advertisement shall not state or imply that prospective policyholders become group or quasi-group members and enjoy special rates or underwriting privileges,

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

unless it is true. An advertisement to join an association, trust, or group that is also an invitation to contract for insurance coverage shall disclose that the applicant will be purchasing both membership in the association, trust, or group and insurance coverage.

- M.** Government approval. An advertisement shall not state or imply any of the following:
1. That a governmental agency or regulator is connected with or has provided or endorsed a policy or endorsed an insurer;
 2. That a governmental agency or regulator has examined an insurer's financial condition and found it satisfactory. This subsection does not apply if an insurer is responding to a specific documented, public, false allegation about its financial condition.
- N.** Endorsements. An advertisement may state that an individual, group, society, association, or other organization has approved or endorsed the insurer or its policy if the organization or group has done so in writing and if any proprietary relationship between the organization and the insurer is disclosed.
- O.** Claims handling. An advertisement shall not contain false statements about the time within which claims are paid or statements that imply that claim settlements will be liberal or generous beyond the terms of the policy.
- P.** Statements about the insurer. An advertisement shall not contain false or misleading statements about an insurer's assets, corporate structure, financial standing, length of time in business, or relative position in the insurance business.

R20-6-202. Advertising, Solicitation, and Transaction of Life Insurance

- A.** The definitions in R20-6-201(A) and the following definition apply in this Section:
- "Life insurance" means a life insurance contract, including all benefits payable under the policy.
- B.** Applicability
1. This Section applies to:
 - a. All persons subject to regulation under A.R.S. Title 20; and
 - b. Advertising, promotion, solicitation, negotiation, and sale of life insurance policies, regardless of the form of dissemination.
 2. This Section does not apply to group insurance, franchise insurance, or to annuities without life contingencies.
- C.** General provisions. A life insurance advertisement shall not mislead the public by:
1. Omitting information that fairly describes the subject matter as a life insurance policy and the benefits available under the policy;
 2. Placing undue emphasis on facts that, even if true, are not relevant to the sale of life insurance; or
 3. Placing undue emphasis on features of incidental or secondary importance to the life insurance aspects of the policy.
- D.** The Department deems the following acts misleading and deceptive:
1. Using any statement, including phrases such as "investment," "investment plan," "founders plan," "charter plan," "expansion plan," "profit," "profits," or "profit sharing," in a context or under circumstances or conditions that may mislead a purchaser or prospective purchaser to believe that the insurer is selling something other than a life insurance policy or will provide some benefit not included in the policy, or not available to other persons of the same class and equal expectation of life;

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

2. Using any phrase as the name or title of a life insurance policy if the phrase does not include the words "life insurance," unless other language in the same document expressly provides that the contract is a life insurance policy;
3. Making any statement relating to the growth or earnings of the life insurance industry or to the tax status of life insurance companies in a context that would reasonably be understood as attempting to interest a prospective applicant in the purchase of shares of stock in the insurance company rather than in the purchase of a life insurance policy;
4. Making any statement that reasonably tends to imply that the insured will enjoy a status common to a stockholder or will acquire a stock ownership interest in the insurance company by purchasing the policy, unless the statement is made with reference to policies of domestic life insurers engaged in a program allowed under A.R.S. § 20-453;
5. Providing a policyholder with a premium receipt book, policy jacket, return envelope, or other printed or electronic material referring to the insurer's "investment department," "insured investment department," or similar terminology in a manner implying that the policy is sold, issued, or serviced by the insurer's investment department;
6. Making any statement that reasonably tends to imply that, by purchasing a policy, the purchaser or prospective purchaser will become a member of a limited group of persons who may receive the payment of dividends, special advantages, benefits, or favored treatment unless the insurance contract specifically provides for the described payment of dividend, special advantages, benefits, or favored treatment;
7. Stating or implying that only a limited number of persons or limited class of persons may buy a particular kind of policy, unless the limitation is related to recognized underwriting practices or specifically stated in the policy or rider;
8. Describing premium payments in language that states the payment is a "deposit," unless:
 - a. The payment establishes a debtor-creditor relationship between the insurance company and the policyholder; or
 - b. The term is used with the word "premium" in a manner as to clearly indicate the true character of the payment;
9. Providing any illustration or projection of future dividends that:
 - a. Is not based on the company's actual scale for payment of current dividends, and
 - b. Does not clearly indicate that the dividends are not guarantees;
10. Using the words "dividends," "cash dividends," "surplus," or similar phrases in a manner that states or implies that the payment of dividends is guaranteed or certain to occur;
11. Stating, without qualification, that a purchaser of a policy will share in a stated percentage or portion of the insurer's earnings;
12. Making any statement that projected dividends under a participating policy will be or can be sufficient at any future time to assure the receipt of benefits such as a paid-up policy without further payment of premiums unless the statement also explains:
 - a. The benefits or coverage that would be provided at the future time, and
 - b. The conditions under which the receipt of benefits without further payment of premiums would occur;
13. Describing a life insurance policy or premium payments in terms of "units of participation," unless accompanied by other language clearly indicating that the references are to a life insurance policy or to premium payments, as applicable.
14. Advising producers to avoid disclosing that life insurance is the subject of the solicitation or sale;
15. Stating that an insured is guaranteed certain benefits if the policy is allowed to lapse, without explaining the non-forfeiture benefits;
16. Using a dollar amount in printed material to be shown to a prospective policyholder, unless the amount is accompanied by language that:
 - a. States the nature of the dollar amount,
 - b. Prohibits including the use of dollar amounts not related to guaranteed values and properly projected dividend figures, and
 - c. Prohibits the use of figures showing growth of stock values, or other values not a part of the life insurance contract.
17. Stating that a policy provides features not found in any other insurance policy, unless the insurer can demonstrate that other policies do not have the same feature;
18. Making any statement or implication about an insurance policy that cannot be verified by reference to the policy contract, a sample of the policy being described, or the company's officially published rate book and dividend illustrations;
19. Stating that life insurance is "loss proof" or "depression proof," except that an insurer may make statements that life insurance benefits, other than dividends, are guaranteed by the company regardless of economic conditions;
20. Making any statement that a company makes a profit as a result of policy lapses or surrenders;
21. Making comparisons to the past experience of other life insurance companies as a means of projecting possible experience for the company issuing the advertising; and
22. Conduct or statements designed to mislead a prospective applicant or purchaser.

 - Benefits for long-term care, nursing home care, home health care, community-based care, or any combination of those benefits;
 - Other similar, limited benefits specified in federal regulations issued under HIPAA.
 - The following benefits if provided under a separate policy, certificate, or contract of insurance with no coordination between provision of benefits and any exclusion of benefits under a group health plan maintained by the same plan sponsor and if the benefits are paid for an event regardless of whether the benefits are provided under a group health plan maintained by the same plan sponsor:
 - Coverage only for a specified disease or illness, or
 - Hospital indemnity or other fixed indemnity insurance.
 - The following benefits if the benefits are offered as a separate policy, certificate, or contract of insurance:
 - Medicare supplemental policy as defined under § 1882(g)(1) of the Social Security Act, 42 U.S.C. 1395ss;
 - Coverage supplemental to the coverage provided under, 10 U.S.C. Title 10, Chapter 55; or
 - Similar supplemental coverage provided to coverage under a group health plan.
3. "Health status-related factor" means any of the following:
- Health status;
 - Medical condition, including a physical or mental illness;
 - Claims experience;
 - Receipt of health care;
 - Medical history;
 - Genetic information;
 - Evidence of insurability, including conditions arising out of acts of domestic violence; or
 - Disability.
4. "Insurer" means an insurer that offers or provides group health insurance coverage, and includes an insurer that issues disability insurance as defined in A.R.S. § 20-253, a medical, dental, or optometric service corporation as defined in A.R.S. § 20-822, and a health care services organization as defined in A.R.S. § 20-1051.
- B.** This Section applies to all group insurance issued by an insurer.
- C.** Effective date of discontinuance for non-payment of premium.
- If a group insurance policy provides for automatic discontinuance of the policy after a premium remains unpaid through the grace period allowed for payment, the insurer is liable for valid claims for covered losses incurred before the end of the grace period.
 - If the insurer's actions after the end of the grace period indicate that the insurer considers the group insurance policy as continuing in force beyond the end of the grace period the insurer is liable for valid claims for losses beginning before the effective date of written notice of discontinuance to the policyholder or other entity responsible for paying premiums.
 - The following actions indicate that the insurer considers the policy in force:
 - Continued recognition, acknowledgement, or payment of subsequently incurred claims, or
 - Continued enrollment of employees or dependents.
 - The following actions shall not indicate that the insurer considers that policy in force:
 - Recognition, payment, or acknowledgement of a claim by an insurer or processing a denial based on eligibility or other denial reasons set forth in the group benefit plan booklet; or
 - Recognition, payment, or acknowledgement of claims due to the group's failure to notify the insurer that the employee or member is no longer eligible for coverage or the group policy is terminated.
 - The effective date of discontinuance shall not be before midnight at the end of the third scheduled work day after the date on which the notice of discontinuance is delivered.
- D.** Requirements for notice of discontinuance.
- An insurer's notice of discontinuance shall include a request to the group policyholder to notify covered employees of the date when the group policy or contract will discontinue and to advise that, unless otherwise provided in the policy or contract, the insurer is not liable for claims for losses incurred after the date of discontinuance. If the plan involves employee contributions, the notice of discontinuance shall also advise that if the policyholder continues to collect employee contributions beyond the date of discontinuance, the policyholder is solely liable for benefits for the period which contributions were collected.
 - The insurer shall also provide the policyholder with a supply of notice forms that the policyholder can distribute to the covered employees. The notice forms shall explain the discontinuance and the effective date, and advise employees to refer to their certificates or contracts to determine their rights on discontinuance.
- E.** Extension of benefits.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

1. A group policy shall provide a reasonable provision for extension of benefits for an employee or dependent who is totally disabled on the date of discontinuance as follows:
 - a. For a group life plan with a disability benefit extension of any type such as a premium waiver extension, extended death benefit in the event of total disability, or payment of income for a specified period during total disability, the discontinuance of the group policy shall not terminate the benefit extension.
 - b. For a group plan providing benefits for loss of time from work or specific indemnity during hospital confinement, discontinuance of the policy during a disability or hospital confinement shall not effect benefits payable for that disability or hospital confinement.
 - c. A hospital or medical expense coverage, other than dental and maternity expense, shall include a reasonable extension of benefits or accrued liability provision. A provision is reasonable if:
 - i. It provides an extension of at least 12 months under "major medical" and "comprehensive medical" type coverage; or
 - ii. Under other types of hospital or medical expense coverage, it provides either an extension of at least 90 days or an accrued liability for expenses incurred during a period of disability or during a period of at least 90 days starting with a specific event that occurred while coverage was in force, such as an accident.
 2. An insurer shall ensure that the policy and group insurance certificates includes a description of the extension of benefits or accrued liability provision.
 3. An insurer shall ensure that benefits payable during a period of extension or accrued liability are subject to the policy's regular benefit limits, such as benefits ceasing at exhaustion of a benefit period or of maximum benefits.
 4. For hospital or medical expense coverage, an insurer may limit benefit payments to payments applicable to the disabling condition only.
- F. Continuance of coverage in situations involving replacement of one plan by another.**
1. When a group policyholder secures replacement coverage with a new insurer, self-insures, or foregoes provision of coverage, the replaced insurer is liable only to the extent of its accrued liabilities and extensions of benefits after the date of discontinuance.
 2. The succeeding insurer shall cover each individual who:
 - a. Was eligible for coverage under the prior plan on the date of discontinuance, and
 - b. Is eligible for coverage according to the succeeding insurer's plan of benefits with respect to a class of individuals eligible for coverage.
 3. For the purpose of successive health insurance coverage under subsection (F)(2), a succeeding insurer's plan of benefits shall:
 - a. Not have any non-confinement rules; and
 - b. Provide, as to any actively-at-work rules, that absence from work due to a health status-related factor is treated as being actively-at-work.
 4. Nothing in subsection (F)(2) prohibits an insurer from performing coordination of benefits.
 5. A succeeding insurer shall cover each individual not covered under the succeeding insurer's plan of benefits under subsection (F)(2) according to subsections (a) and (b) if the individual was validly covered, including benefit extension, under the prior plan on the date of discontinuance and is a member of a class of individuals eligible for coverage under the succeeding insurer's plan. Any reference in subsection (a) or (b) to an individual who was or was not totally disabled is a reference to the individual's status immediately before the effective date of coverage for the succeeding insurer.
 - a. The minimum level of benefits to be provided by the succeeding insurer shall be the level of benefits of the prior insurer's plan reduced by any benefits payable by the prior plan.
 - b. The succeeding insurer shall provide coverage until at least the earliest of the following dates:
 - i. The date the individual becomes eligible under the succeeding insurer's plan as described in subsection (F)(2);
 - ii. The date the individual's coverage would terminate according to the succeeding insurer's plan provisions applicable to individual termination of coverage such as at termination of employment or ceasing to be eligible dependent; or
 - iii. For an individual who was totally disabled, and covered by a type of coverage for which subsection (E) requires an extension of accrued liability, the end of any period of extension of benefits or accrued liability that is required of the prior insurer under subsection (E), or if the prior insurer's policy is not subject to subsection (E), would have been required of the insurer had its policy been subject to subsection (E) at the time the prior plan was discontinued and replaced by the succeeding insurer's plan;
 - c. For health insurance coverage, if an individual who was totally disabled at the time the prior insurer's plan was discontinued and replaced by the succeeding insurer's plan, and if subsection (E) requires an extension of benefits or accrued liability, the minimum level of benefits to be provided by the succeeding insurer shall be the level of benefits of the prior insurer's plan, reduced by any benefits paid by the prior plan.
 - d. If the succeeding insurer's plan has a preexisting conditions limitation, the level of benefits applicable to preexisting conditions of persons becoming covered by the succeeding insurer's plan according to subsection (F) during the period the limitation applies under the new plan shall be the lesser of:
 - i. The benefits of the new plan determined without application of the preexisting conditions limitation, or
 - ii. The benefits of the prior plan.
 - e. The succeeding insurer, in applying any deductibles, coinsurance amounts applicable to out-of-pocket maximums, or waiting periods, shall give credit for the satisfaction or partial satisfaction of the same or similar provisions under a prior plan providing similar benefits. For deductibles or coinsurance amounts applicable to out-of-pocket maximums, the credit shall apply for the same or overlapping benefit periods and shall be given for expenses actually incurred and applied against the deductible or coinsurance provisions of the prior plan during the 90 days before the effective date of the succeeding insurer's

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

plan but only to the extent these expenses are recognized under the terms of the succeeding insurer's plan and are subject to similar deductible or coinsurance provisions.

- f. If the succeeding insurer is required under this Section to make a determination about the benefits in the prior plan, the succeeding insurer may ask the prior plan to provide a statement of the benefits available or other pertinent information sufficient to permit the succeeding insurer to verify the benefit determination. For the purposes of this Section, all definitions, conditions, and covered-expense provisions of the prior plan shall govern the benefit determination. The benefit determination is made as if the succeeding insurer had not replaced coverage.

Section R20-6-208 renumbered from R20-6-210 and amended by final rulemaking at 13 A.A.R. 2061, effective August 4, 2007 (Supp. 07-2).

R20-6-209. Life Insurance Solicitation**A. Scope.**

1. This Section applies to any solicitation, negotiation, or procurement of life insurance occurring in Arizona. This Section applies to any issuer of life insurance contracts, including fraternal benefit societies.
2. Unless otherwise specifically included, the Section does not apply to:
 - a. Annuities,
 - b. Credit life insurance,
 - c. Group life insurance,
 - d. Life insurance policies issued in connection with a pension and welfare plan as defined by and subject to the federal Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C. 1001 et seq.; or
 - e. Variable life insurance under which the death benefits and cash values vary according to unit values of investments held in a separate account.

B. In this Section, the following apply:

1. "Buyer's Guide" means a document that contains the language in the Appendix to this Section or language approved by the Director.
2. "Cash dividend" means the current illustrated dividend that can be applied toward payment of the gross premium.
3. "Equivalent Level Annual Dividend" is calculated as follows:
 - a. Accumulate the annual cash dividends at 5% interest compounded annually to the end of the 10th and 20th policy years;
 - b. Divide each accumulation in subsection (a) by an interest factor that converts the accumulation into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the values in subsection (a) over the periods stipulated in subsection (a). If the period is 10 years, the factor is 13.207 and if the period is 20 years, the factor is 34.719.
 - c. Divide the results in subsection (b) by the number of thousands of the Equivalent Level Death Benefit to arrive at the "Equivalent Level Annual Dividend."
4. "Equivalent Level Death Benefit" means the amount of benefit of a policy or term life insurance rider calculated as follows:
 - a. Accumulate the guaranteed amount payable upon death, regardless of the cause of death, at the beginning of each policy year for 10 and 20 years at 5% interest compounded annually to the end of the 10th and 20th policy years, respectively.
 - b. Divide each accumulation in subsection (a) by an interest factor that converts the accumulation into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in subsection (a) over the periods stipulated in subsection (a). If the period is 10 years, the factor is 13.207 and if the period is 20 years, the factor is 34.719.
5. "Generic name" means a short title that is descriptive of the premium and benefit patterns of a policy or a rider.
6. "Life Insurance Surrender Cost Index" means the cost index that is calculated as follows:
 - a. Determine the guaranteed cash surrender value, if any, available at the end of the 10th and 20th policy years.
 - b. For policies participating in dividends, add the terminal dividend payable upon surrender, if any, to the accumulation of the annual Cash Dividends at 5% interest compounded annually to the end of the period selected and add this sum to the amount determined in subsection (a).
 - c. Divide the result in subsection (b) (subsection (a) for guaranteed-cost policies) by an interest factor that converts into an equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in subsection (b) or subsection (a) for guaranteed cost policies, over the periods stipulated in subsection (a). If the period is 10 years, the factor is 13.207 and if the period is 20 years, the factor is 34.719.
 - d. Determine the equivalent level premium by accumulating each annual premium payable for the basic policy or rider at 5% interest compounded annually to the end of the period stipulated in subsection (a) and dividing the result by the respective factors stated in subsection (c). This amount is the annual premium payable for a level premium plan.
 - e. Subtract the result of subsection (c) from subsection (d).
 - f. Divide the result of subsection (e) by the number of thousands of the Equivalent Level Death Benefit to arrive at the Life Insurance Surrender Cost Index.
7. The Life Insurance Net Payment Cost Index is calculated in the same manner as the comparable Life Insurance Cost Index except that the cash surrender value and any terminal dividend are set at zero.
8. "Policy Summary" means a written statement describing elements of the policy, including:
 - a. The following prominently placed title: Statement of Policy Cost and Benefit Information.
 - b. The name and address of the insurance producer, or, if no producer is involved, a statement of the procedure to be followed to receive responses to inquiries regarding the Policy Summary.
 - c. The full name and home office or administrative office address of the company by which the life insurance policy is to be or has been written.
 - d. The generic name of the basic policy and each rider.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- e. For the first five policy years and representative policy years thereafter sufficient to clearly illustrate the premium and benefit patterns, including the years for which Life Insurance Cost Indexes are displayed and at least one age from 60 through 65 or maturity, whichever is earlier, the following amounts, where applicable:
- i. The annual premium for the basic policy;
 - ii. The annual premium for each optional rider;
 - iii. Guaranteed amount payable upon death at the beginning of the policy year regardless of the cause of death except for suicide, or other specifically enumerated exclusions provided by the basic policy and each optional rider, with benefits provided under the basic policy and each rider shown separately;
 - iv. Total guaranteed cash surrender values at the end of the year with values shown separately for the basic policy and each rider;
 - v. Cash dividends payable at the end of the year with values shown separately for the basic policy and each rider. Dividends need not be displayed beyond the twentieth policy year; and
 - vi. Guaranteed endowment amounts payable under the policy that are not included under guaranteed cash surrender values in subsection (iv).
- f. The effective policy loan annual percentage interest rate, if the policy contains this provision, specifying whether the rate is applied in advance or in arrears. If the policy loan interest rate is variable, the Policy Summary shall include the maximum annual percentage rate.
- g. Life Insurance Cost Indexes for 10 and 20 years but not beyond the premium-paying period. Separate indexes shall be displayed for the basic policy and for each optional term life insurance rider. - h. The Equivalent Level Annual Dividend in the case of participating policies and participating optional term life insurance riders, under the same circumstances and for the same durations at which Life Insurance Cost Indexes are displayed.
- i. If the Policy Summary includes dividends, a statement that dividends are based on the insurer's current dividend scale and are not guaranteed and a statement in close proximity to the Equivalent Level Annual Dividend as follows: "An explanation of the intended use of the Equivalent Level Annual Dividend is included in the Life Insurance Buyer's Guide."
- j. A statement in close proximity to the Life Insurance Cost Indexes as follows: "An explanation of the intended use of these indexes is provided in the Life Insurance Buyer's Guide."
- k. The date on which the Policy Summary is prepared. The Policy Summary shall consist of a separate document. All information required to be disclosed shall not be minimized or obscure. Any amounts that remain level for two or more years of the policy may be represented by a single number that clearly indicates the amounts that are applicable for each policy year. Amounts in subsection (8)(e) shall be listed in total, not on a per thousand nor per unit basis. If more than one insured is covered under one policy or rider, guaranteed death benefits shall be displayed separately for each insured or for each class of insured if death benefits do not differ within the class. Zero amounts shall be displayed as zero and shall not be displayed as a blank space.
- C. Disclosure requirements.**
1. The insurer shall provide to all prospective purchasers, a Buyer's Guide and a Policy Summary before accepting the applicant's initial premium or premium deposit, unless the policy for which application is made contains an unconditional refund provision of at least 10 days or unless the Policy Summary contains an unconditional refund offer, in which case the Buyer's Guide and Policy Summary shall be delivered with the policy or before delivery of the policy.
 2. The insurer shall provide a Buyer's Guide and a Policy Summary to any prospective purchaser upon request.
 3. If the Equivalent Level Death Benefit of a policy does not exceed \$5,000, the requirement for providing a Policy Summary is satisfied by delivery of a written statement containing the information described in subsections (D)(8)(b), (c), (d), (e)(i) through (e)(iii), (f), (g), (j), and (k).

If an insurance producer is not involved in the sale, the insurer shall inform the prospective purchaser of the insurance company's full name.
 3. An insurer or producer shall not use terms such as financial planner, investment advisor, financial consultant, or financial counseling to imply that the insurance producer is generally engaged in an advisory business in which compensation is unrelated to sales unless that is true.
 4. If an insurer or producer refers to policy dividends, the reference shall include a statement that dividends are not guaranteed.
 5. An insurer shall not use a system or presentation that does not recognize the time value of money through the use of appropriate interest adjustments for comparing the cost of two or more life insurance policies unless the system or presentation is used to demonstrate the cash flow pattern of a policy and the presentation is accompanied by a statement disclosing that the presentation does not recognize that, because of interest, a dollar in the future has less value than a dollar today.
 6. In a presentation of benefits, an insurer shall not display guaranteed and non-guaranteed benefits as a single sum unless they are shown separately and in close proximity.
 7. An insurer shall include with a statement regarding the use of the Life Insurance Cost Indexes an explanation that the indexes are useful only for the comparison of the relative costs of two or more similar policies.

- E. An insurer's failure to provide or deliver a Buyer's Guide or a Policy Summary as provided in subsection (C) constitutes an omission that misrepresents the benefits, advantages, conditions, or terms of an insurance policy.

Appendix. Life Insurance Buyers Guide

Life Insurance Buyer's Guide

The face page of the Buyer's Guide shall read as follows:

Life Insurance Buyer's Guide

This guide can show you how to save money when you shop for life insurance. It helps you to:

- Decide how much life insurance you should buy,
- Decide what kind of life insurance policy you need, and
- Compare the cost of similar life insurance policies.

Prepared by the National Association of Insurance Commissioners

Reprinted by (Company Name)

(Month and year of printing)

The Buyer's Guide shall contain the following language at the bottom of page 2:

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various Insurance Departments to coordinate insurance laws for the benefit of all consumers. You are urged to use this Guide in making a life insurance purchase.

Buying Life Insurance

When you buy life insurance, you want a policy that fits your needs without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes that are described in this guide. A good life insurance producer or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand what kinds are available. If one kind does not seem to fit your needs, ask about the other kinds that are described in this guide. If you feel that you need more information than is given here, you may want to check with a life insurance producer or company or books on life insurance in your public library.

This guide does not endorse any company or policy.

The remaining text of the buyer's guide shall begin on page 3 as follows:

Choosing the Amount

One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. You should think of life insurance as a source of cash needed for expenses of final illnesses, paying taxes, mortgages or other debts. It can also provide income for your family's living expenses, educational costs and other future expenses. Your new policy should come as close as you can afford to making up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need.

Choosing the Right Kind

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance.

1. Term insurance
2. Whole life insurance
3. Endowment insurance

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the producer or company if it combines more than one kind of life insurance. The following is a brief description of the three basic kinds:

Term Insurance

Term insurance is death protection of a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also "convertible." This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Whole Life Insurance

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop "cash values" which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called "nonforfeiture benefits." This refers to benefits you do not lose (or "forfeit") when you stop paying premiums. The amount of these benefits depends on the kind of policy you have, its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money that you owe on a policy loan would be deducted from the benefits if you were to die, or from the cash value if you were to stop paying premiums.

Endowment Insurance

An endowment insurance policy pays a sum or income to you – the policyholder – if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than the same amount of whole life insurance. Thus endowment insurance gives you the least amount of death protection for your premium dollar.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

Finding a Low Cost Policy

After you have decided which kind of life insurance fits your needs, look for a good buy. Your chances of finding a good buy are better if you use two types of index numbers that have been developed to aid in shopping for life insurance. One is called the "Surrender Cost Index" and the other is the "Net Payment Cost Index." It will be worth your time to try to understand how these indexes are used, but in any event, use them only for comparing the relative costs of similar policies. **LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.**

What is Cost?

"Cost" is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called "participating" policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called "guaranteed cost" or "non participating" policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be.

The premiums and cash values of a participating policy are guaranteed, but the dividends are not. Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

What Are Cost Indexes?

In order to compare the cost of policies, you need to look at:

1. Premiums
2. Cash values
3. Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance producers and companies:

1. **Life Insurance Surrender Cost Index.** This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.

Life Insurance Net Payment Cost Index. This Index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non participating policy, remember that the total cost of the participating policy will be reduced

by dividends, but the cost of the non participating policy will not change.

How Do I Use Cost Indexes?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

- (1) Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.
- (2) Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for all types of insurance at all ages and for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.
- (3) Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its producer. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.
- (4) In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or producer will provide service in the future, to you as a policyholder.
- (5) These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for awhile, in favor of a new one. If such a replacement is suggested, you should ask for information from the company that issued the old policy before you take action.

Important Things To Remember – A Summary

The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums must closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy. If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. **REMEMBER, LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS.** A good life insurance producer can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you make cost comparisons of similar policies.

Don't buy life insurance unless you intend to stick with it. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy during the first few years, you may get little or nothing back and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the producer or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities.

R20-6-210. Readable and Understandable Policy: Private Passenger Automobile, Homeowner, Personal Line Dwelling, and Mobile Homeowner

- A.** Definitions. The following definitions apply in this Section:
1. "Readable insurance policy" means a policy that can be read and reasonably understood by a person without special knowledge or training.
 2. "Policy" means a contract or agreement for insurance, or an insurance certificate regardless of the name used, and includes all clauses, endorsements, and papers attached or incorporated.
- B.** Scope. This Section applies to private passenger motor vehicle policies, homeowner policies, personal line dwelling policies, for four family units or less, and mobile homeowner policies delivered or issued for delivery in Arizona.
- C.** Compliance.
1. An insurer shall test the readability of its policy by use of the Flesch Readability Formula as set forth in Rudolf Flesch, *The Art of Readable Writing* (1949, as revised 1974).
 2. An insurer shall not use a policy unless the policy has a total readability score of 40 or more on the Flesch scale.
 3. An insurer shall include with each policy form filing required to be filed with the Director a checklist for the line of insurance setting forth the Flesch score.
- D.** Readability guidelines.
1. General organization of text.
 - a. A policy shall be divided into logically arranged sections for ease of locating content.
 - b. Each section shall be self-contained as to provisions relating solely to that section (for example, an exclusion section shall not be mixed with other parts of a policy).
 - c. General policy provisions applying to all or several like coverages shall be located in a common area.
 - d. The policy shall not contain non-essential provisions.
 - e. Defined words and terms shall be placed in a separate section at the beginning of the policy.
 2. Visual aids to readability. The insurer shall ensure that each policy meets the following format requirements:
 - a. Type size shall be at least eight point.
 - b. The font shall be block print rather than script, and legible.
 - c. Captions and headings shall be distinguishable from the general text.
 - d. White space separating coverages, policy sections, and columns shall be sufficient to make a distinct separation.
 - e. Defined words and terms shall be distinguishable from the general text.
 3. Language usage. The insurer shall ensure that each policy:
 - a. Is written in everyday, conversational language;
 - b. Uses short, simple sentences and words in common usage;
 - c. Uses an easy-to-read style, personal pronouns, and present tense active verbs.

Historical Note

Adopted effective May 28, 1979 (Supp. 79-1). R20-6-210 recodified from R4-14-210 (Supp. 95-1). Former R20-6-210 renumbered to R20-6-208; new R20-6-210 renumbered from R20-6-212 and amended by final rulemaking at 13 A.A.R. 2061, effective August 4, 2007 (Supp. 07-2).

R20-6-211. Discrimination on the Basis of Blindness or Partial Blindness

- A.** Definitions. The following definitions apply in this Section:
1. "Policy" means a contract or agreement for or effecting insurance, or a certificate of insurance, regardless of the name used, and includes all clauses, riders, endorsements, and attached papers.
 2. "Person" has the same meaning prescribed in A.R.S. § 20-105.
- B.** Scope. This Section applies to all policies delivered or issued for delivery in this state.
- C.** Prohibition. An insurer shall not engage in the following prohibited acts or practices that constitute unfair discrimination between individuals of the same class:
1. Refusal to insure or refusal to continue to insure, or limiting the amount, extent, or kind of coverage available to an individual solely because of blindness or partial blindness; or
 2. Charging an individual a different rate for the same coverage solely because of blindness or partial blindness.
- D.** In this subsection, "refusal to insure" includes denial by an insurer of disability insurance coverage on the grounds that the policy defines "disability" as being presumed if the insured loses eyesight. An insurer may exclude from coverage disabilities consisting solely of blindness or partial blindness if the insured was blind or partially blind when the policy was issued.
- E.** For all other conditions, including the underlying cause of the blindness or partial blindness, a person who is blind or partially blind is subject to the same standards of sound actuarial principles or actual or reasonably anticipated experience as a sighted person.

R20-6-212.02. Standards for Annuity Illustrations

- A. Definitions. The definitions in A.R.S. § 20-1242 and this subsection apply to this Section.

"Illustration" means a personalized presentation or depiction prepared for and provided to an individual consumer that includes non-guaranteed elements of an annuity contract over a period of years.

"Indexing Method" means point-to-point, dialing averaging or monthly averaging.

"Index Term" means the period over which indexed-based interest is calculated.

"Market Value Adjustment" or "MVA" means a feature that is a positive or negative adjustment that may be applied to the account value and/or cash value of the annuity upon withdrawal, surrender, contract annuitization or death benefit payment based on either the movement of an external index or on the company's current guaranteed interest rate being offered on new premiums or new rates for renewal periods, if that withdrawal, surrender, contract annuitization or death benefit payment occurs at a time other than on a specified guaranteed benefit date.

"Registered product" means an annuity contract or life insurance policy subject to the prospectus delivery requirements of the Securities Act of 1933.

- B. An insurer or producer may elect to provide a consumer an illustration at any time, provided that the illustration is in compliance with this Section and:
1. Is clearly labeled as an illustration;
 2. Includes a statement referring customers to the disclosure document and buyer's guide provided to them at time of purchase for additional information about their annuity; and
 3. Is prepared by the insurer or third party using software that is authorized by the insurer prior to its use, provided that the insurer maintains a system of control over the use of the illustration.
- C. An illustration furnished to an applicant for a group annuity contract or contracts issued to a single applicant on multiple lives may be either an individual or composite illustration representative of the coverage on the lives of members of the group or the multiple lives covered.
- D. The illustration shall not be provided unless accompanied by the disclosure document referenced in A.R.S. § 20-1242.02.
- E. When using an illustration, the illustration shall not:
1. Describe non-guaranteed elements in a manner that is misleading or has the capacity or tendency to mislead;
 2. State or imply that the payment or amount of non-guaranteed elements is guaranteed; or
 3. Be incomplete.
- F. Costs and fees of any type shall be individually noted and explained.
- G. An illustration shall conform to the following requirements:
1. The illustration shall be labeled with the date on which it was prepared;
 2. Each page, including any explanatory notes or pages, shall be numbered and show its relationship to the total number of pages in the disclosure document (e.g., the fourth page of a seven-page disclosure document shall be labeled "page 4 of 7 pages");
 3. The assumed dates of premium receipt and benefit payout within a contract year shall be clearly identified;
 4. If the age of the proposed insured is shown as a component of the tabular detail, it shall be issue-age plus the number of years the contract is assumed to have been in force;
 5. The assumed premium on which the illustrated benefits and values are based shall be clearly identified, including rider premium for any benefits being illustrated;
 6. Any charges for riders or other contract features assessed against the account value or the crediting rate shall be recognized in the illustrated values and shall be accompanied by a statement indicating the nature of the rider benefits or the contract features, and whether or not they are included in the illustration;
 7. Guaranteed death benefits and values available upon surrender, if any, for the illustrated contract premium shall be shown and clearly labeled guaranteed;
 8. Except as provided in subsection (G)(22) of this Section, the non-guaranteed elements underlying the non-guaranteed illustrated values shall be no more favorable than current non-guaranteed elements and shall not include any assumed future improvement of such elements. Additionally, non-guaranteed elements used in calculating non-guaranteed illustrated values at any future duration shall reflect any planned changes, including any planned changes that may occur after expiration of an initial guaranteed or bonus period;

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

9. In determining the non-guaranteed illustrated values for a fixed indexed annuity, the index-based interest rate and account value shall be calculated for three different scenarios: one to reflect historical performance of the index for the most recent 10 calendar years; one to reflect the historical performance of the index for the continuous period of 10 calendar years out of the last 20 calendar years that would result in the least index value growth (the "low scenario"); one to reflect the historical performance of the index for the continuous period of 10 calendar years out of the last 20 calendar years that would result in the most index value growth (the "high scenario"). The following requirements apply:
 - a. The most recent 10 calendar years and the last 20 calendar years are defined to end on the prior December 31, except for illustrations prepared during the first three months of the year, for which the end date of the calendar year period may be the December 31 prior to the last full calendar year;
 - b. If any index utilized in determination of an account value has not been in existence for at least 10 calendar years, indexed returns for that index shall not be illustrated. If the fixed indexed annuity provides an option to allocate account value to more than one indexed or fixed declared rate account, and one or more of these indexes has not been in existence for at least 10 calendar years, the allocation to such indexed account or accounts shall be assumed to be zero;
 - c. If any index utilized in determination of an account value has been in existence for at least 10 calendar years but less than 20 calendar years, the 10 calendar year periods that define the low and high scenarios shall be chosen from the exact number of years the index has been in existence;
 - d. The non-guaranteed element or elements, such as caps, spreads, participation rates, or other interest crediting adjustments, used in calculating the non-guaranteed index-based interest rate shall be no more favorable than the corresponding current element or elements;
 - e. If a fixed indexed annuity provides an option to allocate the account value to more than one indexed or fixed declared rate account:
 - i. The allocation used in the illustration shall be the same for all three scenarios; and
 - ii. The 10 calendar year periods resulting in the least and greatest index growth periods shall be determined independently for each indexed account option.
 - f. The geometric mean annual effective rate of the account value growth over the 10 calendar year period shall be shown for each scenario;
 - g. If the most recent 10 calendar year historical period experience of the index is shorter than the number of years needed to fulfill the requirement of subsection (I) of this Section, the most recent 10 calendar year historical experience of the index shall be used for each subsequent 10 calendar year period beyond the initial period for the purpose of calculating the account value for the remaining years of the illustration;
 - h. The low and high scenarios:
 - i. Need not show surrender values (if different than account values);
 - ii. Shall not extend beyond 10 calendar years (and therefore are not subject to the requirements of subsection (I) of this Section beyond subsection (I)(1)(a) of this Section); and
 - iii. May be shown on a separate page;
 - i. For the low and high scenarios, a graphical presentation shall also be included comparing the movement of the account value over the 10 calendar year period for the low scenario, the high scenario and the most recent 10 calendar year scenario; and
 - j. The low and high scenarios should reflect the irregular nature of the index performance and should trigger every type of adjustment to the index-based interest rate under the contract. The effect of the adjustments should be clear; for example, additional columns showing how the adjustment applied may be included. If an adjustment to the index-based interest rate is not triggered in the illustration (because no historical values of the index in the required illustration range would have triggered it), the illustration shall so state;
10. The guaranteed elements, if any, shall be shown before corresponding non-guaranteed elements and shall be specifically referred to on any page of an illustration that shows or describes only the non-guaranteed elements (e.g., "see page 1 for guaranteed elements");
11. The account or accumulation value of a contract, if shown, shall be identified by the name this value is given in the contract being illustrated and shown in close proximity to the corresponding value available upon surrender;
12. The value available upon surrender shall be identified by the name this value is given in the contract being illustrated and shall be the amount available to the contract owner in a lump sum after deduction of surrender charges, bonus forfeitures, contract loans, contract loan interest, and application of any market value adjustment, as applicable;
13. Illustrations may show contract benefits and values in graphic or chart form in addition to the tabular form;
14. Any illustration of non-guaranteed elements shall be accompanied by a statement indicating that:
 - a. The benefits and values are not guaranteed;
 - b. The assumptions on which they are based are subject to change by the insurer; and
 - c. Actual results may be higher or lower;
15. Illustrations based on non-guaranteed credited interest and non-guaranteed annuity income rates shall contain equally prominent comparisons to guaranteed credited interest and guaranteed annuity income rates, including any guaranteed and non-guaranteed participation rates, caps, or spreads for fixed indexed annuities;
16. The annuity income rate illustrated shall not be greater than the current annuity income rate unless the contract guarantees are in fact more favorable;
17. Illustrations shall be concise and easy to read;
18. Key terms shall be defined and then used consistently throughout the illustration;
19. Illustrations shall not depict values beyond the maximum annuitization age or date;
20. Annuitization benefits shall be based on contract values that reflect surrender charges or any other adjustments, if applicable; and
21. Illustrations shall show both annuity income rates per \$1,000.00 and the dollar amounts of the periodic income payable.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- 22. For participating immediate and deferred income annuities:
 - a. Illustrations may not assume any future improvement in the applicable dividend scale (or scales, if more than one dividend scale applies, such as for a flexible premium annuity);
 - b. Illustrations must reflect the equitable apportionment of dividends, whether performance meets, exceeds, or falls short of expectations;
 - c. If the dividend scale is based on a portfolio rate method, the portfolio rate underlying the illustrated dividend scale shall not be assumed to increase;
 - d. If the dividend scale is based on an investment cohort method, the illustrated dividend scale should assume that reinvestment rates grade to long-term interest rates, subject to the following conditions:
 - i. Any assumptions as to future investment performance in the dividend formula must be consistent with assumptions that are reflected in the marketplace within the normal range of analyst forecasts and investor behavior; these assumptions may not be changed arbitrarily, notwithstanding changes in markets or economic conditions, and must be consistent with assumptions that the issuer uses with respect to other lines of business; and
 - ii. The illustrated dividend scale should assume that reinvestment rates grade to long-term interest rates, based on U.S. Treasury bonds. For the purposes of this grading, the assumed long-term rates should not exceed the rates calculated using the formula in subsection (G)(22)(d)(iii), based on the time to maturity or reinvestment (the "Tenor") of the investments supporting the cohort of policies.
 - iii. Maximum long-term interest rates should be calculated for tenors of three months (or less), five years, 10 years, and 20 years (or more), using U.S. Treasury rates. For each tenor, the maximum long-term interest rate will vary over time, based on historical interest rates as they emerge. The formula for the maximum long-term interest rate is the average of the median bond rate over the last 600 months and the average bond rate over the last 120 months, rounded to the nearest quarter of one percent (0.25%).
 - iv. The maximum long-term interest rate for a tenor should be recalculated once per year, in January, using historical rates as of December 31 of the calendar year two years prior to the calendar year of the calculation date. The historical rate for each month is the rate reported for the last business day of the month.
 - v. Grading to the maximum long-term interest rates should take place over no less than 20 years from issue if U.S. Treasury rates as of the illustration date are below the long-term rates, or, no more than 20 years from issue if U.S. Treasury rates as of the illustration date are above the long-term rates.
 - vi. When the 10-year U.S. Treasury rate is less than the 10-year maximum long-term interest rate, an additional illustrated dividend scale should be presented. This additional illustrated dividend scale shall assume that reinvestment

- U.S. Treasury rates do not exceed the initial investment U.S. Treasury rates and illustrate dividends no less than half of the dividends illustrated under the current dividend scales. If the assumption that reinvestment U.S. Treasury rates do not exceed the initial investment U.S. Treasury rates conflicts with the illustration, i.e. half of the current dividends are greater than would be permitted by the assumption, then the reinvestment U.S. Treasury rates should equal the initial investment U.S. Treasury rates.
- vii. The illustration should include a disclosure that is substantially similar to the following:
The illustrated current dividend scale is based on interest rates that are assumed to gradually [increase/decrease] from current rates to long-term interest rates, over a period of [20] years. By regulation, the long-term assumed interest rates cannot not and do not exceed the rates listed in column (c) of the table below.
- viii. If the illustration contains an additional dividend scale pursuant to subsection (G)(22)(d)(vi), then the illustration should also include a disclosure that is substantially similar to the following:
The additional illustrated dividend scale is based on interest rates that are assumed not to increase and do not exceed the interest rates in column (b) of the table below.

Column A	Column B	Column C
Tenor	Current Interest Rate	Long Term
	Treasury Rate as of 12/31/2016	Mean Reversed Treasury Rate
3 Month (or less)	0.51%	3.00%
5 Year	1.93%	4.50%
10 Year	2.45%	5.00%
20 Years (or more)	3.06%	5.50%

- H. An annuity illustration shall include a narrative summary that includes all the following unless provided at the same time in a disclosure statement:
 - 1. A brief description of any contract features, riders or options, guaranteed and/or non-guaranteed, shown in the basic illustration and the impact they may have on the benefits and values of the contract;
 - 2. A brief description of any other optional benefits or features that are selected, but not shown in the illustration and the impact they have on the benefits and values of the contract;
 - 3. Identification and a brief definition of column headings and key terms used in the illustration;
 - 4. A statement containing in substance the following:
 - a. For other than fixed indexed annuities:
This illustration assumes the annuity's current non-guaranteed elements will not change. It is likely that they will change and actual values will be higher or lower than those in this illustration but will not be less than the minimum guarantees.
The values in this illustration are not guarantees or even estimates of the amounts you can expect from your annuity. Please review the entire Disclosure

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- Document and Buyer's Guide provided with your Annuity Contract for more detailed information;
- b. For fixed indexed annuities:

This illustration assumes the index will repeat historical performance and that the annuity's current non-guaranteed elements, such as caps, spreads, participation rates or other interest crediting adjustments, will not change. It is likely that the index will not repeat historical performance, the non-guaranteed elements will change, and actual values will be higher or lower than those in this illustration but will not be less than the minimum guarantees.

The values in this illustration are not guarantees or even estimates of the amounts you can expect from your annuity. Please review the entire Disclosure Document and Buyer's Guide provided with your Annuity Contract for more detailed information;
 5. Additional explanations as follows:
 - a. Minimum guarantees shall be clearly explained;
 - b. The effect on contract values of contract surrender prior to maturity shall be explained;
 - c. Any conditions on the payment of bonuses shall be explained;
 - d. For annuities sold as an IRA, qualified plan or in another arrangement subject to the required minimum distribution (RMD) requirements of the Internal Revenue Code, the effect of RMDs on the contract values shall be explained;
 - e. For annuities with recurring surrender charge schedules, a clear and concise explanation of what circumstances will cause the surrender charge to recur; and
 - f. A brief description of the types of annuity income options available shall be explained, including:
 - i. The earliest or only maturity date for annuitization (as the term is defined in the contract);
 - ii. For contracts with an optional maturity date, the periodic income amount for at least one of the annuity income options available based on the guaranteed rates in the contract, at the later of age 70 or 10 years after issue, but in no case later than the maximum annuitization age or date in the contract;
 - iii. For contracts with a fixed maturity date, the periodic income amount for at least one of the annuity income options available, based on the guaranteed rates in the contract at the fixed maturity date; and
 - iv. The periodic income amount based on the currently available periodic income rates for the annuity income option in subsection (H)(5)(f)(ii) or in subsection (H)(5)(f)(iii), if desired.
 - I. Following the narrative summary, an illustration shall include a numeric summary which shall include at minimum, numeric values at the following durations:
 1. The first 10 contract years or the surrender charge period if longer than 10 years, including any renewal surrender charge period or periods;
 2. Every tenth contact year up to the later of 30 years or age 70; and
 3. Required annuitization age or required annuitization date.
 - J. If the annuity contains a market value adjustment ("MVA"), the following provisions apply to the illustration:
 1. The MVA shall be referred to as such throughout the illustration;
 2. The narrative shall include an explanation, in simple terms, of the potential effect of the MVA on the value available upon surrender;
 3. The narrative shall include an explanation, in simple terms, of the potential effect of the MVA on the death benefit;
 4. A statement, containing in substance the following, shall be included:

When you make a withdrawal, the amount you receive may be increased or decreased by a Market Value Adjustment (MVA). If the interest rates on which the MVA is based go up after you buy your annuity, the MVA likely will decrease the amount you receive. If interest rates go down, the MVA will likely increase the amount you receive.
 5. Illustrations shall describe both the upside and the downside aspects of the contract features relating to the MVA;
 6. The illustrative effect of the MVA shall be shown under at least one positive and one negative scenario. This demonstration shall appear on a separate page and be clearly labeled that it is information demonstrating the potential impact of a MVA;
 7. Actual MVA floors and ceilings as listed in the contract shall be illustrated; and
 8. If the MVA has significant characteristics not addressed by subsections (J)(1) through (J)(6), the effect of such characteristics shall be shown in the illustration.
 - K. A narrative summary for a fixed indexed annuity illustration also shall include the following unless provided at the same time as the disclosure statement:
 1. An explanation, in simple terms, of the elements used to determine the index-based interest, including but not limited to, the following elements:
 - a. The index(es) which will be used to determine the index-based interest;
 - b. The Indexing Method;
 - c. The Index Term;
 - d. The participation rate, if applicable;
 - e. The cap, if applicable; and
 - f. The spread, if applicable;
 2. The narrative shall include an explanation, in simple terms, of how index-based interest is credited in the indexed annuity;
 3. The narrative shall include a brief description of the frequency with which the company can re-set the elements used to determine the index-based credits, including the participation rate, the cap, and the spread, if applicable; and
 4. If the product allows the contract holder to make allocations to a declared-rate segment, then the narrative shall include a brief description of:
 - a. Any options to make allocations to a declared-rate segment, both for new premiums and for transfers from the index-based segments; and
 - b. Differences in guarantees applicable to the declared-rate segment and the index-based segments.
 - L. A numeric summary for a fixed indexed annuity illustration shall include, at a minimum, the following elements:
 1. The assumed growth rate of the index in accordance with subsection (G)(9);
 2. The assumed values for the participation rate, cap and spread, if applicable; and
 3. The assumed allocation between index-based segments and the declared-rate segment, if applicable, in accordance with subsection (G)(9).

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- M.** If the contract is issued other than as applied for, a revised illustration conforming to the contract as issued shall be sent with the contract, except that non-substantive changes, including but not limited to, changes in the amount of expected initial or additional premiums and any changes in amounts of exchanges pursuant to Section 1053 of the Internal Revenue Code, rollovers and transfers, which do not alter the key benefits and features of the annuity as applied for will not require a revised illustration unless requested by the applicant.
- N.** Annuity Illustration Examples. Illustrations A through C are examples only and do not reflect specific characteristics of any actual product for sale by any company.

Column Descriptions

- (1) **Ages** shown are measured from the Annuitant’s age at issue.
- (2) **Premium Payments** are assumed to be made at the beginning of the Contract Year shown.

Values Based on Guaranteed Rates

- (3) **Interest Crediting Rates** shown are annual rates; however, interest is credited daily. During the Initial Interest Guarantee Period, values developed from the Initial Premium Payment are illustrated using the Initial Guaranteed Interest Rate(s) declared by the insurance company, which include an additional first year only interest bonus credit of 0.75%. The interest rates will be guaranteed for the Initial Interest Guarantee Period, subject to an MVA. After the Initial Interest Guarantee Period, a new renewal interest rate will be declared annually, but can never be less than the Minimum Guaranteed Interest Rate shown.
- (4) **Account Value** is the amount you have at the end of each year if you leave your money in the contract until you start receiving annuity payments. It is also the amount available upon the Annuitant’s death if it occurs before annuity payments begin. The death benefit is not affected by surrender charges or the MVA.
- (5) **Cash Surrender Value Before MVA** is the amount available at the end of each year if you surrender the contract (after deduction of any Surrender Charge) but before the application of any MVA. Surrender charges are applied to the Account Value according to the schedule below until the surrender charge period ends, which may be after the Initial Interest Guarantee Period has ended.

Years Measured from Premium Payment:	1	2	3	4	5	6	7	8+
Surrender Charges:	8%	7%	6%	5%	4%	3%	2%	0%

- (6) **Minimum Cash Surrender Value After MVA** is the minimum amount available at the end of each year if you surrender your contract before the end of five years, no matter what the MVA is. The minimum is set by law. The amount you receive may be higher or lower than the cash surrender value due to the application of the MVA, but never lower than this minimum. Otherwise the MVA works as follows: If the interest rate available on new contracts offered by the company is LOWER than your Initial Guaranteed Interest Rate, the MVA will INCREASE the amount you receive. If the interest rate available on new contracts offered by the company is HIGHER than your initial guaranteed interest rate, the MVA will DECREASE the amount you receive. The charts below provide additional information concerning the MVA.

Values Based on Assumption that Initial Guaranteed Rates Continue

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- (7) **Interest Crediting Rates** are the same as in Column (3) for the Initial Interest Guarantee Period. After the Initial Interest Guarantee Period, a new renewal interest rate will be declared annually. For the purposes of calculating the values in this column, it is assumed that the Initial Guaranteed Interest Rate (without the bonus) will continue as the new renewal interest rate in all years. The actual renewal interest rates are not subject to an MVA and will very likely NOT be the same as the illustrated renewal interest rates.
- (8) **Account Value** is calculated the same way as Column (4).
- (9) **Cash Surrender Value Before and after MVA** is the Cash Surrender Value at the end of each year assuming that Initial Guaranteed Interest Rates continue, and that the continuing rates are the rates offered by the company on new contracts. In this case the MVA would be zero, and Cash Surrender Values before and after the MVA would be the same.

Important Note: This illustration assumes you will take no withdrawals from your annuity before you begin to receive periodic income payments. **Withdrawals will reduce both the annuity Account Value and the Cash Surrender Value.** You may make partial withdrawals of up to 10% of your account value each contract year without paying surrender charges. Excess withdrawals (above 10%) and full withdrawals will be subject to surrender charges.

This illustration assumes the annuity's current interest crediting rates will not change. It is likely that they will change and actual values may be higher or lower than those in the illustrations.

The values in this illustration are not guaranteed or even estimates of the amounts you can expect from your annuity. For more information, read the annuity disclosure and annuity buyer's guide.

Illustration C. MVA-adjusted Cash Surrender Values (CSVs) Under Sample Scenarios

MVA-adjusted Cash Surrender Values (CSVs) Under Sample Scenarios

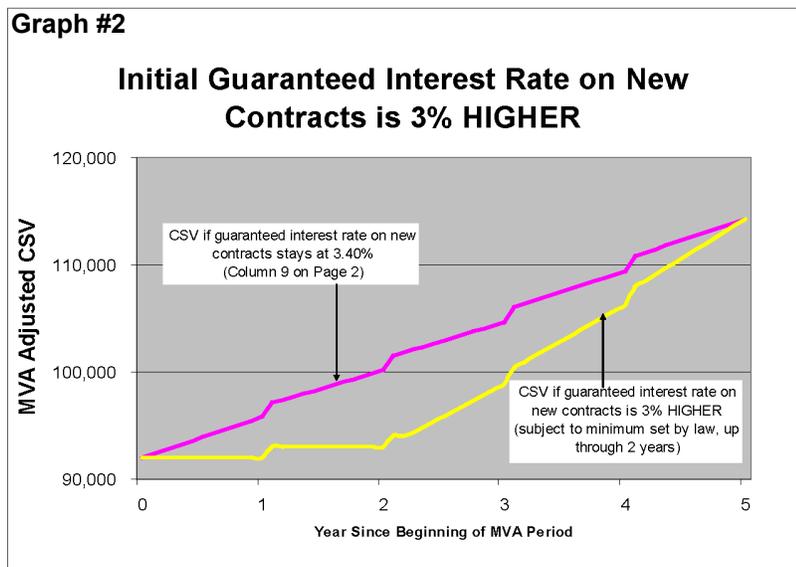

The graphs below show MVA-adjusted Cash Surrender Values (CSVs) during the first five years of the contract, as illustrated on the illustration spreadsheet above (\$100,000 single premium, a 5-year MVA Period) under two sample scenarios, as described below.

Graph #1 shows if the interest rate on new contracts is 3% LOWER than your Initial Guaranteed Interest Rate, the MVA will increase the amount you receive (upper line). The lower line shows the Cash Surrender Values if the Initial Guaranteed Interest Rates continue (from Column (9) on the illustration spreadsheet above (referenced as Page 2 in the graph)).

Graph #2 shows if the interest rate on new contracts is 3% HIGHER than your Initial Guaranteed Interest Rate, the MVA will decrease the amount you receive, but not below the minimum set by law (Column (6) on the illustration spreadsheet above (referenced as Page 2 in the graph)), which in this scenario’s limits the decrease for the first 2 years (lower line). The upper line shows the Cash Surrender Values if the Initial Guaranteed Interest Rates continue (from Column (9) on the illustration spreadsheet above).

These graphs and the sample guaranteed interest rates on new contracts used are for demonstration purposes only and are not intended to be a projection of how guaranteed interest rates on new contracts are likely to behave.

 - a. Any policy that is a security subject to federal jurisdiction;
 - b. Any group policy covering a group of 1,000 or more lives at date of issue, other than a group credit life insurance policy or a group credit disability insurance policy however, this shall not exempt any certificate issued under a group policy delivered or issued for delivery in this state; or
 - c. Any group annuity contract that serves as a funding vehicle for pension, profit-sharing, or deferred compensation plans;
 2. Except as provided in R20-6-210, no other rule of this state setting language simplification standards shall apply to any policy forms.
- C. Minimum policy language simplification standards.**
1. Except as stated in subsection (B), an insurer shall not deliver or issue for delivery a policy form that has not been approved by the Director unless:
 - a. The text achieves a minimum score of 40 on the Flesch reading ease test or an equivalent score on any other comparable test as provided in subsection (3);
 - b. It is printed, except for specification pages, schedules, and tables, in no less than 10 point type, one point leaded;
 - c. The style, arrangement and overall appearance of the policy do not give undue prominence to any portion of the text of the policy or to any endorsements or riders; and
 - d. The policy, if the policy has more than 3,000 words printed on three or fewer pages of text or if the policy has more than three pages regardless of the number of words, contains a table of contents or an index of the principal sections of the policy.
 2. An insurer shall measure a Flesch reading ease test score as follows:
 - a. For policy forms containing 10,000 words or less of text, an insurer shall analyze the entire form. For policy forms containing more than 10,000 words, an insurer may analyze the readability of two, 200-word samples per page instead of the entire form. The insurer shall separate the samples by at least 20 printed lines.
 - b. The insurer shall count the number of words and sentences in the text, then divide the total number of words by the total number of sentences, then multiply that figure by a factor of 1.015.

 3. Any other reading test may be approved by the Director for use as an alternative to the Flesch reading test if it is comparable in result to the Flesch reading ease test.
 4. Filings subject to this subsection shall be accompanied by a certificate signed by an officer of the insurer stating that the filing meets the minimum reading ease score on the test used or stating that the score is lower than the minimum required but should be approved under subsection (G) of this Section. To confirm the accuracy of any certification, the Director may require the submission of further information to verify the certification in question.
 5. At the option of the insurer, riders, endorsements, applications and other forms made a part of the policy may be scored as separate forms or as part of the policy with which they may be used.
- D.** The Director may authorize a lower score than the Flesch reading ease score required in subsection (C)(1)(a) if a lower score:
1. Provides a more accurate reflection of readability of a policy form;
 2. Is warranted by the nature of a particular policy form or type or class of policy forms; or
 3. Is caused by certain policy language drafted to conform to the requirements of any state statute, rule, or agency interpretation of law.

R20-6-214. Coordination of Benefits**A. Applicability.**

1. This Section applies to all:
 - a. Group disability insurance policies;
 - b. Group subscriber contracts of hospital and medical service corporations and health care services organizations;
 - c. Group disability policies of benefit insurers; and
 - d. Group-type contracts that contain a coordination of benefits provision, are not available to the general public, and can be obtained and maintained only because of the covered person's membership in or connection with a particular organization. Group-type contracts that meet this description are included regardless of whether denominated as "franchise," "blanket," or some other designation.
2. This Section does not apply to:
 - a. Individual or family policies or individual or family subscriber contracts except as provided for in subsection (A)(1);
 - b. Group or group-type hospital indemnity benefits, written on a non-expense incurred basis, of \$30 per day or less unless characterized as reimbursement-type benefits and designed or administered to give the insured the right to elect indemnity-type benefits, instead of the reimbursement type benefits at the time of claim; or
 - c. School accident type coverages, written on a blanket, group, or franchise basis.

B. Definitions. In this Section, the following definitions apply:

1. "Allowable expense" means any necessary, reasonable, and customary item of expense, at least a portion of which is covered under one or more of the plans covering the person for whom claim is made or service provided.
 - a. When a plan provides benefits in the form of services rather than cash payments, the reasonable cash value of each service rendered is deemed to be both an allowable expense and a benefit paid.
 - b. A plan that takes Medicare or similar government benefits into consideration when determining the application of its coordination of benefits provision does not expand the definition of an allowable expense.
2. "Claim determination period" means an appropriate period of time such as "calendar year" or "benefit period" as defined in the policy.
3. "Plan," within the coordination of benefits provisions of a group policy or subscriber contract, means the types of coverage that the insurer may consider in determining whether overinsurance exists with respect to a specific claim.
4. "School accident-type coverage" means coverage of grammar school and high school students for accidents only, including athletic injuries, either on a 24-hour basis or "to-and-from school," for which the parent pays the entire premium.

C. Order-of-benefit determination.

1. When a claim under a plan with a coordination of benefit provision involves another plan that also has a coordination of benefit provision, the insurer shall make the order-of-benefit determination as follows:

- a. The plan that covers the person claiming benefits other than as a dependent shall determine benefits before those of the plan that covers the person as a dependent.
 - b. The plan of a parent whose birthday occurs earlier in a calendar year shall cover a dependent child before the benefits of a plan of a parent whose birthday occurs later in a calendar year. The word "birthday" as used in this subsection refers only to month and day in a calendar year, not the year in which the person was born.
 - c. If two or more plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in the following order:
 - i. First, the plan of the parent with custody of the child;
 - ii. Then, the plan of the spouse of the parent with custody of the child; and
 - iii. Finally, the plan of the parent not having custody of the child.
 - d. Notwithstanding subsection (c), if the specific terms of a court decree state that one of the parents is responsible for the health care expenses of the child, and the entity obligated to pay or provide the benefits of the plan of that parent has actual knowledge of those terms, the benefits of that plan are determined first.
2. The benefits of a plan that covers a person as an employee (or as that employee's dependent) are determined before those of a plan that covers that person as a laid off or retired employee (or as that employee's dependent). If the other plan does not have this provision and if, as a result, the plans do not agree on the order of benefits, this subsection does apply.
 3. If none of the provisions of subsection (C) determines the order of benefits, the benefits of the plan that covered a claimant longer are determined before those of the plan that covered that person for the shorter time.
 4. If one of the plans is issued out of this state and determines the order of benefits based upon the gender of a parent and, as a result, the plans do not agree on the order of benefits, the plan with the gender rule shall determine the order of benefits.
- D. Excess and other nonconforming provisions.** A plan with an order of benefit determination provision that complies with this Section, a complying plan, may coordinate its benefits with a plan that is "excess" or "always secondary" or that uses an order-of-benefit determination provision that is inconsistent with this Section, a noncomplying plan, on the following basis:
1. If the complying plan is the primary plan, it shall pay or provide its benefits on a primary basis.
 2. If the complying plan is the secondary plan, it shall pay or provide its benefits first, as the secondary plan. The payment shall be the limit of the complying plan's liability, except as provided in subsection (4).
 3. If the noncomplying plan does not provide the information needed by the complying plan to determine its benefits within a reasonable time after it is requested to do so, the complying plan shall assume that the benefits of the noncomplying plan are identical to its own, and shall pay benefits accordingly. The complying plan shall adjust any payments it makes based on the assumption whether information becomes available as the actual benefits of the noncomplying plan.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

4. If the noncomplying plan pays benefits so that the claimant receives less in benefits than the claimant would have received had the noncomplying plan paid or provided its benefits as the primary plan, the complying plan shall advance to or on behalf of the claimant an amount equal to the difference. The complying plan shall not have a right to reimbursement from the claimant.

- A. Scope.** This rule applies to all domestic life and disability insurers and reinsurers, and to all other licensed life and disability insurers and accredited reinsurers that are not subject to a substantially similar rule in their jurisdictions of domicile. This rule applies to the disability business of licensed property and casualty insurers. This rule does not apply to assumption reinsurance, yearly renewable term reinsurance, or nonproportional stop loss or catastrophe reinsurance, or similar forms of nonproportional reinsurance.
- B. Definitions**

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

1. "Agreement" means a reinsurance agreement and any amendment to a reinsurance agreement.
 2. "Credit Quality" means the risk that invested assets supporting the reinsured business will decrease in value but excludes decreases to changes in interest rate.
 3. "Department" means the Arizona Department of Insurance.
 4. "Director" means the Director of the Arizona Department of Insurance.
 5. "Disintermediation" means the risk that interest rates will rise and policy loans and surrenders will increase or maturing contracts will not renew at anticipated rates of renewal.
 6. "Lapse" means the risk that a policy will voluntarily terminate before the recoupment of a statutory surplus strain experienced at issuance of the policy.
 7. "Reinvestment" means the risk that interest rates will fall and funds reinvested will therefore earn less than expected.
- C. Accounting Requirements**
1. Unless authorized by the director, an insurer shall not, for reinsurance ceded, reduce any liability, or establish any asset in any statutory financial statement filed with the Department if, by the terms of the agreement, or in effect, any of the following conditions exist:
 - a. Renewal expense allowances provided or to be provided to the ceding insurer by the reinsurer in any accounting period are not sufficient to cover the ceding insurer's allocable renewal expenses anticipated at the time the business is reinsured on the portion of the business reinsured, unless a liability is established for the present value of the shortfall using assumptions equal to the applicable statutory reserve basis on the business reinsured.
 - b. The ceding insurer is required to reimburse the reinsurer for negative experience under the agreement. Neither the offset of the ceding insurer's experience refunds against current and prior years' losses, nor payment by the ceding insurer of an amount equal to the reinsurer's current and prior years' losses upon voluntary termination of in-force reinsurance by the ceding insurer, shall be considered a reimbursement to the reinsurer for negative experience.
 - c. The ceding insurer may be deprived of surplus or assets at the reinsurer's option or automatically upon the occurrence of a specified event, including the insolvency of the ceding insurer. Termination of the agreement by the reinsurer for nonpayment of reinsurance premiums or other amounts due shall not be considered a deprivation of surplus or assets within the meaning of this subsection.
 - d. The ceding insurer is required, at scheduled times, to terminate the agreement or recapture automatically all or part of the reinsurance ceded.
 - e. The ceding insurer may be required to pay the reinsurer amounts other than from income reasonably expected from the reinsured policies.
 - f. Significant risks inherent in the business reinsured are not transferred to the reinsurer. Table A identifies the risks deemed significant for representative types of business.
 - g. The credit quality, reinvestment, or disintermediation risk is significant for the business reinsured and the ceding company does not transfer the underlying assets to the reinsurer, segregate the underlying assets in a trust or escrow account, or otherwise segregate the underlying assets. The assets that support the reserves for classes of business that do not have a significant credit quality, reinvestment, or disintermediation risk, or for long-term care or long-term disability insurance, traditional non-par permanent, traditional par permanent, adjustable premium permanent, indeterminate premium permanent, or universal life fixed premium with no dump-in premiums allowed, may be held by the ceding company without segregation. To determine the reserves for classes of business, the supporting assets of which may be held without being segregated, the reserve interest rate adjustment formula shall reflect the ceding company's investment earnings and incorporate all realized and unrealized gains and losses reported in the ceding insurer's statutory financial statement.
 2. An agreement entered into after the effective date of this rule to reinsure business issued before the effective date of the agreement shall be filed by the ceding insurer with the Director within 30 days after execution of the agreement. Each filing shall be accompanied by a description of the corresponding reduction in liabilities or other credit for reinsurance, and any other financial impact of the agreement, reported in the ceding insurer's statutory financial statements. When an increase in surplus net of federal income tax results from an agreement falling under this subsection, the ceding insurer shall separately identify the increase as a surplus item in the aggregate write-ins for gains and losses in surplus in the Capital and Surplus account of the ceding insurer's statutory financial statement. As earnings emerge from the business reinsured, the ceding insurer shall report in its statutory financial statement recognition of surplus increase as income on a net of tax basis as reinsurance ceded.
- D. Written Agreements**
1. A ceding insurer shall not reduce any liability or establish any asset in any statutory financial statement filed with the Department, unless the ceding insurer and the reinsurer have executed an agreement or a binding letter of intent by the "as of" date of the statutory financial statement.
 2. A ceding insurer shall not be allowed a credit for the reinsurance ceded based on a letter of intent unless the ceding insurer and the reinsurer execute an agreement within 90 days from the execution date of the letter of intent.
 3. The agreement shall provide that:
 - a. The agreement constitutes the entire contract between the parties with respect to the business reinsured, and there are no understandings between the parties other than as expressed in the agreement; and
 - b. Any change or modification to the agreement shall be void unless made by written amendment signed by all parties.

R20-6-310.02. Filing Procedures

- A. Deadline to file. An insurer, or the insurance group of which the insurer is a member, required to file a CGAD by A.A.C. Title 20, Chapter 2, Article 16 shall, no later than June 1 of each calendar year, submit to the Director a CGAD that contains the information described in Section R20-6-310.03.
- B. Attestation. The CGAD must include a signature of the insurer’s or insurance group’s CEO or corporate secretary attesting to the best of that person’s belief and knowledge that the insurer or insurance group has implemented the corporate governance practices and that the copy of the CGAD has been provided to the insurer’s or insurance group’s Board of Directors or appropriate committee of the Board of Directors.
- C. Format of the CGAD. The insurer or insurance group shall have discretion regarding the appropriate format for providing the information required and is permitted to customize the CGAD to provide the most relevant information necessary to permit the Director to gain an understanding of the corporate governance structure, policies and practices utilized by the insurer or insurance group.
- D. Insurer or insurance group to determine level of reporting.
 1. For purposes of completing the CGAD, the insurer or insurance group may choose to provide information on governance activities that occur at the ultimate controlling parent level, an intermediate holding company level and/or the individual legal entity level, depending on how the insurer or insurance group has structured its system of corporate governance.
 2. The insurer or insurance group is encouraged to make the CGAD disclosures at:
 - a. The level at which the insurer’s or insurance group’s risk appetite is determined,
 - b. The level at which the earnings, capital, liquidity, operations, and reputation of the insurer are overseen collectively and at which the supervision of those factors are coordinated and exercised, or
 - c. The level at which legal liability for failure of general corporate governance duties would be placed.
 3. If the insurer or insurance group determines the level of reporting based on the criteria in subsection (D)(2), it shall indicate which of the three criteria was used to determine the level of reporting and explain any subsequent changes in the level of reporting.
- E. CGAD completed at the insurance group level. Notwithstanding subsection (A) and as outlined in A.R.S. § 20-492.01, if the CGAD is completed at the insurance group level, then it must be filed with the lead state of the group as determined by the procedures outlined in the NAIC’s Financial Analysis Handbook 2018 Annual/2019 Quarterly, pp. 771 through 774,

and no future editions. In these instances, a copy of the CGAD must also be provided, upon request, to the chief regulatory official of any state in which the insurance group has a domestic insurer.

- F. Reference to other existing documents. An insurer or insurance group may comply with this Section by referencing other existing documents (e.g., ORSA Summary Report, Holding Company Form B or F Filings, Securities and Exchange Commission (SEC) Proxy Statements, foreign regulatory reporting requirements, etc.) if the documents provide information that is comparable to the information described in R20-6-310.03. The insurer or insurance group shall clearly reference the location of the relevant information within the CGAD and attach the referenced document if it is not already filed or available to the Director.
- G. Subsequent filings of the CGAD. Each year following the initial filing of the CGAD, the insurer or insurance group shall file an amended version of the previously filed CGAD indicating where changes have been made to the previously filed CGAD. The filing shall also state if no changes are made to the information or activities previously reported by the insurer or insurance group.

Historical Note

New Section made by final exempt rulemaking at 25 A.A.R. 3715, with an immediate effective date of December 4, 2019 (Supp. 19-4).

R20-6-310.03. Contents of CGAD

- B. Board. The CGAD shall describe the insurer’s or insurance group’s corporate governance framework and structure including consideration of the following:

The insurer or insurance group shall describe and discuss the rationale for the current Board size and structure; and
 2. The duties of the Board and each of its significant committees and how they are governed (e.g., bylaws, charters, informal mandates, etc.), as well as how the Board’s leadership is structured, including a discussion of the roles of the Chief Executive Officer (CEO) and Chairman of the Board within the organization.

 - b. Any changes in an officer's or key person's suitability as outlined by the insurer's or insurance group's standards and procedures to monitor and evaluate such changes.

Elements to be discussed may include, for example:

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- B.** Creditor and insurer obligations regarding insurance on refinanced debt.
1. If a debt is discharged because the debtor refinances the debt before the scheduled maturity date, the creditor shall notify the insurer that issued the credit insurance on the discharged debt.
 2. An insurer shall not issue any credit insurance that covers the refinanced debt with an effective date preceding the termination date of the insurance on the original debt.

- C.** Required policy provisions.
1. Termination provisions for group policies. A group credit insurance policy shall provide for continued coverage of debtors covered under the policy if the policy terminates, as follows:
 - a. For a policy with a single premium payment, or any other payment method that prepays coverage for more than one month, a provision requiring continued insurance coverage for the entire period for which the premium has been paid; and
 - b. For a policy with a monthly premium payment, a provision requiring the insurer to send the debtor a termination notice at least 30 days before the effective date of termination, unless an insurer is issuing replacement coverage in at least the same amount, without lapse of coverage.

- C.** While in effect, the rates described in R20-6-604.04 and R20-6-604.05, subject to any deviations approved under R20-6-604.08 are conclusively presumed to develop the loss ratios described in subsection (B). For purposes of prospective effect, the Department may rebut this presumption by disapproving or withdrawing approval for the rates as prescribed in A.R.S. § 20-1610.

R20-6-604.08. Use of Prima Facie Rates; Rate Deviations

 - 1. The deviated rates shall meet the minimum loss ratio standards and other requirements prescribed by R20-6-604.02.
 - 2. The filing shall specify the accounts to which the rates apply.
 - 3. The rates may be:
 - a. Applied uniformly to all accounts of the insurer; or
 - b. Applied on an equitable basis approved by the Director to accounts of the insurer for which the insurer's experience has been less favorable than expected.
- B. Approval period of deviated rates. An insurer may use a deviated rate for the same period of time as the experience period used to establish the rate, not to exceed a period of three years from the date of approval. An insurer may file for a new deviated rate before the end of the approval period, but not more often than once in any 12 month period.
- C. Approval is non-transferable. The Director's approval of a deviated rate is not transferable to another insurer. - D. Use of rates lower than filed rates. An insurer may use a rate that is less than its filed rate without notice to the Director.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

R20-6-604.09. Supervision of Consumer Credit Insurance Operations

 - 2. The creditor makes benefit payments as prescribed in the policy; and
 - 3. The creditor refunds unearned premiums as prescribed in R20-6-604.06.
- B. The insurer shall maintain for the Director's inspection a written record of each review and action the insurer takes to

address any creditor noncompliance found by the insurer, for at least three years following the end of the review.

 - 1. Offering or providing a creditor with any special advantage or any service not set out in either the group insurance contract or in the agency contract, other than payment of commissions;
 - 2. Agreeing to deposit with a bank or financial institution, the insurer's money or securities as a substitute for a deposit of money or securities that the financial institution would otherwise require from the creditor as a compensating balance or deposit offset for a loan or other advancement; or
 - 3. Depositing money or securities without interest or at a lesser rate of interest than the creditor, bank, or financial institution is currently paying on other similar deposits.
- B. This Section does not prohibit an insurer from maintaining demand deposits or premium deposit accounts that are reasonably necessary for use in the ordinary course of the insurer's business.

R20-6-607. Reasonableness of Benefits in Relation to Premium Charged

- A. Applicability. This rule shall apply to individual disability insurance (as defined in A.R.S. § 20-253) policy forms and rates.
- B. When rate filing is required. Every individual policy form, rider or endorsement form affecting benefits which is submitted for approval shall be accompanied by a rate filing unless such rider or endorsement form does not require a change in the rate. Any subsequent addition to or change in rates applicable to such policy, rider or endorsement form shall also be filed.
- C. General contents of all rate filings. Each rate submission shall include an actuarial memorandum describing the basis on which rates were determined and shall indicate and describe the calculation of the ratio, hereinafter called "anticipated loss ratio," of the present value of the expected benefits to the present value of the expected premiums over the entire period for which rates are computed to provide coverage. Each rate submission must also include a certification by a qualified actuary that to the best of the actuary's knowledge and judgment, the rate filing is in compliance with applicable laws and regulations of this state and that the benefits are reasonable in relation to the premiums.
- D. Previously approved forms. Filings of rate revisions for a previously approved policy, rider or endorsement form shall also include the following:
 - 1. A statement of the scope and reason for the revision, and an estimate of the expected average effect on premiums including the anticipated loss ratio for the form.
 - 2. A statement as to whether the filing applies only to new business, only to in-force business, or both, and the reasons.
 - 3. A history of the experience under existing rates, including at least the data indicated in subsection (E). The history may also include, if available and appropriate, the ratios of actual claims to the claims expected according to the assumptions underlying the existing rates. All additional data must be reconciled, as appropriate, to the required data. Additional data might include:
 - a. Substitution of actual claim run-offs for claim reserves and liabilities,
 - b. Determination of loss ratios with the increase in policy reserves (other than unearned premium reserves) added to benefits rather than subtracted from premiums,
 - c. Substitution of net level policy reserves for preliminary term policy reserves,
 - d. Adjustment of premiums to an annual mode basis, or
 - e. Other adjustments or schedules suited to the form and to the records of the company.
 - 4. The date and magnitude of each previous rate change, if any.
- E. Experience records. Insurers shall maintain records of earned premiums and incurred benefits for each calendar year for each policy form, including data for rider and endorsement forms which are used with the policy form, on the same basis, including all reserves, as required for the Accident and Health Policy Experience Exhibit to the NAIC annual statement convention blank. Separate data may be maintained for each rider

or endorsement form to the extent appropriate. Experience under forms which provide substantially similar coverage may be combined. The data shall be for all years of issue combined, for each calendar year of experience since the year the form was first issued, except the data for calendar years prior to the most recent five years may be combined.

- F. Evaluation experience data. In determining the credibility and appropriateness of experience data, due consideration must be given to all relevant factors, such as:
 - 1. Statistical credibility of premiums and benefits, e.g., low exposure, low loss frequency.
 - 2. Experienced and projected trends relative to the kind of coverage, e.g., inflation in medical expenses, economic cycles affecting disability income experience.
 - 3. The concentration of experience at early policy durations where select morbidity and preliminary term reserves are applicable and where loss ratios are expected to be substantially lower than at later policy durations.
 - 4. The mix of business by risk classification.
- G. Anticipated loss ratio standard. With respect to a new form or a currently approved form, except currently approved non-cancelable policy forms, under which the average annual premium (as defined below) is expected to be at least \$700, benefits shall be deemed reasonable in relation to premiums provided the anticipated loss ratio is at least as great as shown in the following table:

Type of Coverage	Renewal Clause			
	OR	CR	GR	NC
Medical expense	60%	55%	55%	50%
Loss of income and other	60%	55%	50%	45%

For a policy form including riders and endorsements, under which the expected average annual premium per policy is \$200 or more but less than \$700, subtract 5 percentage points from the numbers in the table above, or if less than \$200, subtract 10 percentage points.

The average annual premium per policy shall be computed by the insurer based on an anticipated distribution of business by all applicable criteria having a price difference, such as age, sex, amount, dependent status, rider frequency, etc., except assuming an annual mode for all policies (i.e., the fractional premium loading shall not affect the average annual premium or anticipated loss ratio calculation.)

The above anticipated loss ratio standards do not apply to a class of business which is regulated by specific statutes or regulations mandating loss ratios for such business, e.g., Medicare Supplement and Credit Life and Disability.

Definitions of Renewal Clause

OR – Optionally Renewable: renewal is at the option of the insurance company.

CR – Conditionally Renewable: renewal can be declined by the insurance company only for stated reasons other than deterioration of health.

GR – Guaranteed Renewable: renewal cannot be declined by the insurance company for any reason, but the insurance company can revise rates on a class basis.

NC – Non-Cancelable: renewal cannot be declined nor can rates be revised by the insurance company.

- H. Rate revisions. With respect to filings of rate revisions for a previously approved form, benefits shall be deemed reasonable in relation to premiums provided both the following loss ratios meet the standards in subsection (G) above.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

1. The anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage;
 2. The anticipated loss ratio derived by dividing (a) by (b) where:
 - a. Is the sum of the accumulated benefits, from the original effective date of the form or the effective date of this regulation, whichever is later, to the effective date of the revision, and the present value of future benefits; and
 - b. Is the sum of the accumulated premiums from the original effective date of the form or the effective date of the regulation, whichever is later, to the effective date of the revision, and the present value of future premiums. Such present values shall be taken over the entire period for which the revised rates are computed to provide coverage, and such accumulated benefits and premiums to include an explicit estimate of the actual benefits and premiums from the last date as of which an accounting has been made to the effective date of the revision. Interest shall be used in the calculation of these accumulated benefits and premiums and present values only if it is a significant factor in the calculation of this loss ratio.
- I.** Anticipated loss ratios lower than those indicated in subsections (H)(1) and (H)(2) will require justification based on the special circumstances that may be applicable.
1. Examples of coverages requiring special consideration are as follows:
 - a. Accident only;
 - b. Short term nonrenewable, e.g., airline trip, student accident;
 - c. Specified peril, e.g., common carrier; and
 - d. Other special risks.
 2. Examples of other factors requiring special consideration are as follows:
 - a. Marketing methods, giving due consideration to acquisition and administration costs and to premium mode;
 - b. Extraordinary expenses;
 - c. High risk of claim fluctuation because of the low loss frequency of the catastrophic, or experimental nature of the coverage;
 - d. Product features such as long elimination periods, high deductibles and high maximum limits;
 - e. The industrial or debit method of distribution; and
 - f. Forms issued prior to the effective date of this rule. Companies are urged to review their experience periodically and to file rate revisions, as appropriate, in a timely manner to avoid the necessity of later filing of exceptionally large rate increases.
 3. Notwithstanding the foregoing paragraphs to the contrary, hospital indemnity and cancer and other dread diseases policies shall develop the loss ratios pursuant to subsection (G).
- J.** Severability provision. If any provision of this rule or the application thereof to any person or circumstances is held invalid, the remainder of the rule and the application of such provision to other persons or circumstances shall not be affected thereby.
- K.** Effective date. This rule shall become effective upon filing with the Secretary of State and shall apply to all individual disability policy form and rate filings submitted on and after said date.

submitted by other government agencies A.R.S. § 41-1072 (1).

2. "License" has the meaning prescribed in A.R.S. § 41-1001(10).
 3. "Overall time frame" means the number of days after the Department's receipt of an application for a license during which the Department determines whether to grant or deny a license. The overall time frame consists of both the administrative completeness review time frame and the substantive review time frame A.R.S. § 41-1072 (2).
 4. "Substantive review time frame" means the number of days after the completion of the administrative completeness review time frame during which the Department determines whether an application or applicant for a license meets all substantive criteria required by state or rule A.R.S. § 41-1072(3).
- B.** The time-frames listed in Table A apply to licenses issued by the Department. The licensing time-frames consist of an administrative completeness review, a substantive review, and an overall review.
- C.** Within the time-frame for the administrative completeness review set forth in Table A, the Department shall notify the applicant in writing of whether the application is complete or incomplete. If the application is incomplete, the Department shall issue a notice of deficiency to the applicant specifying what information or component is required to make the application administratively complete.
1. If the Department determines that an application for a license is not administratively complete, the Department shall include a comprehensive list of the specific deficiencies in the written notice provided under subsection (C). If the Department issues a written notice of deficiency within the administrative completeness review time-frame, the administrative completeness review time-frame and the overall review time-frame are suspended from the date the notice is issued until the date that the Department receives the missing information from the applicant.
 2. If an applicant does not make some response to each specific deficiency in a notice of deficiency issued during an administrative completeness review, the Department may issue a notice to the applicant within 10 days after receipt of the applicant's response, stating that the response is inadequate. The notice of inadequate response shall identify each specified deficiency to which the applicant did not make some response.
 - a. If the Department issues a notice of inadequate response under this subsection, the suspension of the administrative completeness review time-frame and the overall time-frame is not terminated.
 - b. If the Department does not issue a notice of inadequate response under this subsection, the Department is not precluded from issuing additional notices of deficiency during an administrative completeness review.
 3. If an applicant does not make some response to each specified deficiency in a notice of deficiency issued under subsection (C)(2) within 60 days after the date of a notice of deficiency or within 60 days after a notice of inadequate response issued under subsection (C)(2), the application is deemed withdrawn, and the Department is not required to take further action with respect to the application.
- D.** Within the time-frame for the substantive review set forth in Table A, the Department may issue one comprehensive written request for additional information to the applicant specifying each component or item of information required.
1. If the Department issues a comprehensive written request for additional information within the substantive review time-frame, the substantive review time-frame and the overall time-frame are suspended from the date the written request is issued until the date that the Department receives the additional information from the applicant.
 2. If an applicant does not make some response to each component or item of information requested in a comprehensive written request for additional information, the Department may issue a notice to the applicant within 10 days after receipt of the applicant's response stating that the response is inadequate. The notice of inadequate response shall identify each component or item of information required, to which the applicant did make some response.
 - a. If the Department issues a notice of inadequate response under this subsection, the suspension of the substantive review time-frame and overall time-frame is not terminated.
 - b. If the Department does not issue a notice of inadequate response under this subsection, the Department is not precluded from later issuing supplemental requests by mutual agreement for additional information, during the substantive review.
 3. If an applicant does not make some response to each component or item of information required in a comprehensive written request or a supplemental request for additional information, within 60 days after the date of a comprehensive written request or within 60 days after the date of the supplemental request, the application is deemed withdrawn, and the Department is not required to take further action with respect to the application.
- E.** Within the overall time-frames set forth in Table A, unless extended by mutual agreement under A.R.S. § 41-1075, the Department shall notify the applicant in writing that the application is granted or denied. If the application is denied, the Department shall provide written justification for the denial and a written explanation of the applicant's right to a hearing or the applicant's right to appeal.
- F.** In computing the time periods prescribed in these time-frame rules, the last day of a notice period is included in the computation, unless it is a Saturday, Sunday, or legal holiday.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

11. "Worker's compensation" includes, but is not limited to, Longshoremen's and Harbor Worker's Compensation.
- C.** File and record documentation. The insurer's claim files shall be subject to examination by the Director or by his duly appointed designees. Such files shall contain all notes and work papers pertaining to the claim in such detail that pertinent events and the dates of such events can be reconstructed.
- D.** Misrepresentation of policy provisions
1. No insurer shall fail to fully disclose to first party claimants all pertinent benefits, coverages or other provisions of an insurance policy or insurance contract under which a claim is presented.
 2. No agent shall conceal from first party claimants benefits, coverages or other provisions of any insurance policy or insurance contract when such benefits, coverages or other provisions are pertinent to a claim.
 3. No insurer shall deny a claim on the basis that the claimant has failed to exhibit the damaged property to the insurer, unless the insurer has requested the claimant to exhibit the property and the claimant has refused without a sound basis therefor.
 4. No insurer shall, except where there is a time limit specified in the policy, make statements, written or otherwise, requiring a claimant to give written notice of loss or proof of loss within a specified time limit and which seek to relieve the company of its obligations if such a time limit is not complied with unless the failure to comply with such time limit prejudices the insurer's rights.
 5. No insurer shall request a first party claimant to sign a release that extends beyond the subject matter that gave rise to the claim payment.
 6. No insurer shall issue checks or drafts in partial settlement of a loss or claim under a specific coverage which contain language that releases the insurer or its insured from its total liability.
- E.** Failure to acknowledge pertinent communications
1. Every insurer, upon receiving notification of a claim shall, within 10 working days, acknowledge the receipt of such notice unless payment is made within such period of time. If an acknowledgment is made by means other than writing, an appropriate notation of such acknowledgment shall be made in the claim file of the insurer and dated. Notification given to an agent of an insurer shall be notification to the insurer.
 2. Every insurer, upon receipt of any inquiry from the Department of Insurance respecting a claim shall, within fifteen working days of receipt of such inquiry, furnish the Department with an adequate response to the inquiry.
 3. An appropriate reply shall be made within 10 working days on all other pertinent communications from a claimant which reasonably suggest that a response is expected.
 4. Every insurer, upon receiving notification of claim, shall promptly provide necessary claim forms, instructions, and reasonable assistance so that first party claimants can comply with the policy conditions and the insurer's reasonable requirements. Compliance with this paragraph within 10 working days of notification of a claim shall constitute compliance with subsection (E)(1).
- F.** Standards for prompt investigation of claims. Every insurer shall complete investigation of a claim within 30 days after notification of claim, unless such investigation cannot reasonably be completed within such time.
- G.** Standards for prompt, fair and equitable settlements applicable to all insurers
1. Notice of acceptance of denial of claim.
 - a. Within fifteen working days after receipt by the insurer of properly executed proofs of loss, the first party claimant shall be advised of the acceptance or denial of the claim by the insurer. No insurer shall deny a claim on the grounds of a specific policy provision, condition, or exclusion unless reference to such provision, condition or exclusion is included in the denial. The denial must be given to the claimant in writing and the claim file of the insurer shall contain a copy of the denial.
 - b. If the insurer needs more time to determine whether a first party claim should be accepted or denied, it shall also notify the first party claimant within fifteen working days after receipt of the proofs of loss, giving the reasons more time is needed. If the investigation remains incomplete, the insurer shall, 45 days from the date of the initial notification and every 45 days thereafter, send to such claimant a letter setting forth the reasons additional time is needed for investigation.
 - c. Where there is a reasonable basis supported by specific information available for review by the Director for suspecting that the first party claimant has fraudulently caused or contributed to the loss by arson, the insurer is relieved from the requirements of subsections (G)(1)(a) and (b). Provided, however, that the claimant shall be advised of the acceptance or denial of the claim by the insurer within a reasonable time for full investigation after receipt by the insurer of a properly executed proof of loss.
 2. If a claim is denied for reasons other than those described in subsections (G)(1)(a), and is made by any other means than writing, an appropriate notation shall be made in the claim file of the insurer.
 3. Insurers shall not fail to settle first party claims on the basis that responsibility for payment should be assumed by others, except as may otherwise be provided by policy provisions.
 4. Insurers shall not continue negotiations for settlement of a claim directly with a claimant who is neither an attorney nor represented by an attorney until the claimant's rights may be affected by a statute of limitations or a policy or contract time limit, without giving the claimant written notice that the time limit may be expiring and may affect the claimant's right. Such notice shall be given to first party claimants 30 days and to third party claimants 60 days before the date on which such time limit may expire.
 5. No insurer shall make statements which indicate that the rights of a third party claimant may be impaired if a form or release is not completed within a given period of time unless the statement is given for the purpose of notifying the third party claimant of the provision of a statute of limitations.
- H.** Standards for prompt, fair and equitable settlements applicable to automobile insurance
1. When the insurance policy provides for the adjustment and settlement of first party automobile total losses on the basis of actual cash value or replacement with another of like kind and quality, one of the following methods must apply:
 - a. The insurer may elect to offer a replacement automobile which is a specific comparable automobile available to the insured, with all applicable taxes, license fees and other fees incident to transfer of evidence of ownership of the automobile paid, at no cost other than any deductible provided in the pol-

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- icy. The offer and any rejection thereof must be documented in the claim file.
- b. The insurer may elect a cash settlement based upon the actual cost, less any deductible provided in the policy, to purchase a comparable automobile including all applicable taxes, license fees and other fees incident to transfer of evidence of ownership of a comparable automobile. Such cost may be determined by:
 - i. The cost of a comparable automobile in the local market area when a comparable automobile is available in the local market area.
 - ii. One of two or more quotations obtained by the insurer from two or more qualified dealers located within the local market area when a comparable automobile is not available in the local market area.
 - c. When a first party automobile total loss is settled on a basis which deviates from the methods described in subsections (H)(1)(a) and (b), the deviation must be supported by documentation giving particulars of the automobile condition. Any deductions from such cost, including deduction for salvage, must be measurable, discernible, itemized and specified as to dollar amount and shall be appropriate in amount. The basis for such settlement shall be fully explained to the first party claimant.
2. Where liability and damages are reasonably clear, insurers shall not recommend that third party claimants make claim under their own policies solely to avoid paying claims under such insurer's policy or insurance contract.
 3. Insurers shall not require a claimant to travel unreasonably either to inspect a replacement automobile, to obtain a repair estimate or to have the automobile repaired at a specific repair shop.
 4. Insurers shall, upon the claimant's request, include the first party claimant's deductible, if any, in subrogation demands. Subrogation recoveries shall be shared on a proportionate basis with the first party claimant, unless the deductible amount has been otherwise recovered. No deduction for expenses can be made from the deductible recovery unless an outside attorney is retained to collect such recovery. The deduction may then be for only a pro rata share of the allocated loss adjustment expense.
 5. If an insurer prepares an estimate of the cost of automobile repairs, such estimate shall be in an amount for which it may be reasonably expected the damage can be satisfactorily repaired. The insurer shall give a copy of the estimate to the claimant and may furnish to the claimant the names of one or more conveniently located repair shops.
 6. When the amount claimed is reduced because of betterment or depreciation all information for such reduction shall be contained in the claim file. Such deductions shall be itemized and specified as to dollar amount and shall be appropriate for the amount of deductions.
 7. When the insurer elects to repair and designates a specific repair shop for automobile repairs, the insurer shall cause the damaged automobile to be restored to its condition prior to the loss at no additional cost to the claimant other than as stated in the policy and within a reasonable period of time.
 8. The insurer shall not use as a basis for cash settlement with a first party claimant an amount which is less than the amount which the insurer would pay if the repairs

were made, other than in total loss situations, unless such amount is agreed to by the insured.

- I. Severability. If any provision of this rule or the application thereof to any person or circumstances is held invalid, the remainder of the rule and the application of such provision to other persons and circumstances shall not be affected.
- J. Effective date. This rule shall become effective 90 days from the date of filing with the Secretary of State.

Adopted effective August 10, 1992 (Supp. 92-3). R20-6-1003 recodified from R4-14-1003 (Supp. 95-1). Amended by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1004. Required Policy Provisions

A. Renewability

1. An individual long-term care insurance policy shall contain a renewability provision which shall be either "guaranteed renewable" or "noncancellable." The renewability provision shall be appropriately captioned, shall appear on the first page of the policy, and shall state that the coverage is guaranteed renewable or noncancellable. This requirement does not apply to a long-term care insurance policy that is part of or combined with a life insurance policy that does not contain a renewability provision and that reserves the right not to renew solely to the policyholder.

2. An insurer shall not use the terms "guaranteed renewable" and "noncancellable" in any individual long-term care insurance policy without further explanatory language according to the disclosure requirements of this Article.
3. A qualified long-term care insurance policy shall have the guaranteed renewability provisions specified in Section 7702B(b)(1)(C) of the Internal Revenue Code of 1986, as amended, in the policy.
4. A long-term care insurance policy or certificate shall include a statement that premium rates are subject to change, unless the policy does not afford the insurer the right to raise premiums.

B. Limitations and Exclusions

1. If a long-term care insurance policy or certificate contains any limitations with respect to preexisting conditions, the limitations shall appear as a separate paragraph of the policy or certificate and shall be labeled as "Preexisting Condition Limitations."
2. A long-term care insurance policy or certificate containing any limitations or conditions for eligibility not prohibited by A.R.S. §§ 20-1691.03 and 20-1691.05 shall describe the limitations or conditions, including any required number of days of confinement, in a separate paragraph of the policy or certificate and shall label the paragraph "Limitations or Conditions on Eligibility for Benefits."
3. A policy shall not be delivered or issued for delivery in this state as long-term care insurance if the policy limits or excludes coverage by type of illness, treatment, medical condition or accident, except as follows:
 - a. Preexisting conditions or disease;
 - b. Mental or nervous disorders; however, this shall not permit exclusion or limitation of the benefits on the basis of Alzheimer's Disease;
 - c. Alcoholism and drug addiction;
 - d. Illness, treatment or medical condition arising out of:
 - i. War, declared or undeclared, or act of war;
 - ii. Participation in a felony, riot or insurrection;
 - iii. Service in the armed forces or auxiliary units;
 - iv. Suicide, attempted suicide, or intentionally self-inflicted injury; or
 - v. Aviation, if non-fare-paying passenger;
 - e. Treatment provided in a government facility, unless otherwise required by law;

 - g. Any state or federal workers' compensation, employer's liability or occupational disease law, or any motor vehicle no-fault law;
 - h. Services provided by a member of the covered person's immediate family and services for which no charge is normally made in the absence of insurance;
 - i. Expenses for services or items available or paid under another long-term care insurance or health insurance policy; or
 - j. In the case of a qualified long-term care insurance policy, expenses for services or items to the extent that the expenses are reimbursable under Title XVIII of the Social Security Act or would be reimbursable but for the application of a deductible or coinsurance amount;
4. Subsection (B) does not prohibit exclusions and limitations by type of provider or territorial limitations. No

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

long-term care issuer may deny a claim because services are provided in a state other than the state of policy issued under the following conditions:

- a. When the state other than the state of policy issue does not have the provider licensing, certification or registration required in the policy, but where the provider satisfies the policy requirements outlined for providers in lieu of licensure, certification or registration; or
 - b. When the state other than the state of policy issue licenses, certifies or registers the provider under another name.
5. "State of policy issue" means the state in which the insurer issued the individual policy or certificate.
- C.** Extension of benefits. A long-term care insurance policy shall provide that termination of long-term care insurance is without prejudice to any benefits payable for institutionalization if the institutionalization began while the long-term care insurance was in force and continues without interruption after termination. An insurer may limit this extension of benefits period to the duration of the benefit period, if any, or to payment of the maximum benefits and the insurer may still apply any policy waiting period and all other applicable provisions of the policy.
- D.** Reinstatement. A long-term care insurance policy shall include a provision for reinstatement of coverage if a lapse occurs if the insurer receives proof that the insured was cognitively impaired or had a loss of functional capacity before expiration of the grace period in the policy. The option to reinstate shall be available to the insured for at least five months after the date of termination and shall allow for the collection of past due premiums, as appropriate. The standard of proof of cognitive impairment or loss of functional capacity shall not be more stringent than the benefit eligibility criteria for these conditions set forth in the original long-term care policy.
- E.** Continuation or conversion.
1. A group long-term care insurance policy shall provide covered individuals with a basis for continuation or conversion of coverage as specified in this subsection.
 2. The policy shall include a provision that maintains coverage under the existing group policy when the coverage would otherwise terminate, subject only to the continued timely payment of premiums when due. A group policy that restricts provision of benefits and services to, or has incentives to use certain providers or facilities, may provide continuation benefits that are substantially equivalent to the benefits of the existing group policy. The Director shall make a determination as to the substantial equivalency of benefits and, in doing so, shall take into consideration the differences between managed care and non-managed care plans, including provider system arrangements, service availability, benefit levels and administrative complexity.
 3. The policy shall include a provision that an individual, whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuation of the group policy in its entirety or with respect to an insured class, who has been continuously insured under the group policy (and any group policy which it replaced) for at least six months immediately prior to termination, is entitled to the issuance of a converted policy by the insurer under whose group policy the individual is covered, without evidence of insurability.
 4. A converted policy shall be an individual policy of long-term care insurance providing benefits identical to or benefits that the Director determines to be substantially equivalent to or in excess of those provided under the group policy from which conversion is made. Where the group policy from which conversion is made restricts provision of benefits and services to, or contains incentives to use certain providers or facilities, the Director, in making a determination as to the substantial equivalency of benefits, shall take into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity, and other plan elements.
 5. An insurer may require an individual seeking a conversion policy to make a written application for the converted policy and pay the first premium due, if any, as directed by the insurer not later than 31 days after termination of coverage under the group policy. The insurer shall issue the converted policy effective on the day following the termination of coverage under the group policy. The converted policy shall be renewable annually.
 6. Unless the group policy from which conversion is made replaced previous group coverage, the insurer shall calculate the premium for the converted policy on the basis of the insured's age at inception of coverage under the group policy from which conversion is made. If the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy replaced.
 7. An insurer is required to provide continuation of coverage or issuance of a converted policy as provided in this subsection, unless:
 - a. Termination of group coverage resulted from an individual's failure to make any required payment of premium or contribution when due; or
 - b. The terminating coverage is replaced not later than 31 days after termination, by group coverage that:
 - i. Is effective on the day following the termination of coverage;
 - ii. Provides benefits identical to or benefits the Director determines to be substantially equivalent to or in excess of those provided by the terminating coverage; and
 - iii. Has a premium calculated in a manner consistent with the requirements of subsection (E)(6).
 8. Notwithstanding any other provision of this Section, a converted policy that an insurer issues to an individual who at the time of conversion is covered by another long-term care insurance policy providing benefits on the basis of incurred expenses, may contain a provision that reduces benefits payable if the benefits provided under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than 100% of incurred expenses. An insurer may include this provision in the converted policy only if the converted policy also provides for a premium decrease or refund that reflects the reduction in payable benefits.
 9. The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, shall not exceed those that would have been payable had the individual's coverage under the group policy remained in force and effect.
 10. Notwithstanding any other provision of this Section, an insured individual whose eligibility for group long-term care coverage is based upon the individual's relationship

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

to another person, is entitled to continuation of coverage under the group policy if the qualifying relationship terminates by death or dissolution of marriage.

- F. Discontinuance and replacement. If a group long-term care policy is replaced by another group long-term care policy issued to the same policyholder, the succeeding insurer shall offer coverage to all persons covered under the previous group policy on its date of termination. Coverage provided or offered to individuals by the insurer and premiums charged to persons under the new group policy:

1. Shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced; and
2. Shall not vary or otherwise depend on the individual's health or disability status, claim experience, or use of long-term care services.

- G. Premium Increases.

1. An insurer shall not increase the premium charged to an insured because of:
 - a. The increasing age of the insured at ages beyond 65, or
 - b. The duration of coverage under the policy.
2. Purchase of additional coverage is not considered a premium rate increase, however, for the calculation required under R20-6-1019, an insurer shall add to and consider the portion of the premium attributable to the additional coverage as part of the initial annual premium.
3. A reduction in benefits is not considered a premium change, however, for the calculation required under R20-6-1019, an insurer shall base the initial annual premium on the reduced benefits.

- H. Electronic enrollment for group policies.

1. For coverage offered to a group defined in A.R.S. § 20-1691(5)(a), any requirement that an insurer or insurance producer obtain an insured's signature is satisfied if:
 - a. The group policyholder or insurer obtains the insured's consent by telephonic or electronic enrollment, and provides the enrollee with verification of enrollment information within five business days of enrollment; and
 - b. The telephonic or electronic enrollment process has necessary and reasonable safeguards to assure the accuracy, retention, and prompt retrieval of records, and the confidentiality of individually identifiable and privileged information.
2. If the Director requests, the insurer shall make available records showing the insurer's ability to confirm enrollment and coverage amounts.

- I. Minimum standards for home health and community care benefits.

1. If an insurer issues a long-term care insurance policy or certificate that provides benefits for home-health or community care, the policy or certificate shall not limit or exclude benefits by any of the following:
 - a. Requiring that the insured would need skilled care in a skilled nursing facility if home health services are not provided;
 - b. Requiring that the insured first or simultaneously receive nursing or therapeutic services, or both, in a home, community or institutional setting before home health services are covered;
 - c. Requiring that eligible services be provided by a registered nurse or licensed practical nurse;
 - d. Requiring that a nurse or therapist provide services covered by the policy that can be provided by a home health aide or other licensed or certified home

care worker acting within the scope of licensure or certification;

- e. Requiring that the insured or claimant have an acute condition before home health services are covered;
 - f. Limiting benefits to services provided by Medicare-certified agencies or providers;
 - g. Excluding coverage for personal care services provided by a home health aide;
 - h. Requiring that home health care services be provided at a level of certification or licensure greater than that required by the eligible service; or
 - i. Excluding coverage for adult day care services.
2. If a long-term care insurance policy provides benefits for home health or community care services, it shall provide home health or community care coverage that equals a dollar amount equivalent to at least one-half of one year's missing home benefit coverage available at the time covered home health or community care services are being received. This requirement does not apply to policies or certificates issued to residents of continuing care retirement communities.
 3. An insurer may apply home health care coverage to non-home health care benefits in the policy or certificate when determining maximum coverage under the terms of the policy or certificate.
- J. Appeals. Policy shall include a clear description of the process for appealing and resolving benefit determinations.

R20-6-1005. Unintentional Lapse

- A. An insured may designate in writing at least one person to receive notice of lapse or termination of a long-term care insurance policy for nonpayment of premium, in addition to the insured. Designation shall not constitute acceptance of any liability by the third-party notice recipient for services provided to the insured.
- B. An insurer shall not issue an individual long-term care insurance policy or certificate until the applicant has provided either a written designation of at least one person, in addition to the applicant, who shall receive notice of lapse or termination of the policy or certificate for nonpayment of premium, with the person's full name and home address, or the applicant's written waiver, dated and signed, indicating that the applicant chooses not to designate a notice recipient.
- C. The insurer shall use a form for written designation or waiver that provides space clearly delineated for the designation. The insurer shall include the following language on the form for waiver of the right to name a designated recipient: "Protection against unintended lapse. I understand that I have the right to designate at least one person other than myself to receive notice of lapse or termination of this long-term care insurance policy for nonpayment of premium. I understand that this notice will not be given until 30 days after a premium is due and unpaid. I elect NOT to designate a person to receive this notice."
- D. At least once every two years, an insurer shall notify the insured of the right to change the person designated to receive notice in subsection (A). An insured may add, delete, or change a designated recipient or change a designated recipient at any time by notifying the insurer in writing, and providing

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

the name and home address for the new designated recipient or the designated recipient to be deleted.

- E. If the insured pays premiums for the long-term care insurance policy or certificate through a payroll or pension deduction plan, the insurer is not required to comply with the requirements in subsections (A) through (D) until 60 days after the insured is no longer on the payment plan.
- F. An individual long-term care insurance policy shall not lapse or be terminated for nonpayment of premium unless the insurer gives the insured and any recipient designated under subsections (A) through (D) written notice at least 30 days before the effective date of termination or lapse, by first class mail, postage prepaid, at the address provided by the insured for purposes of receiving notice of lapse or termination. An insurer shall not give notice until 30 days after the date on which a premium is due and unpaid. Notice is deemed given five days after the date of mailing.
- G. Reinstatement. In addition to the requirement in subsections (A) through (D), a long-term care insurance policy or certificate shall include a provision that provides for reinstatement of coverage in the event of a lapse if the insurer is provided proof that the policyholder or certificateholder was cognitively impaired or had a loss of functional capacity before the grace period contained in the policy expired. This option shall be available to the insured if requested within five months after termination and shall allow for the collection of past due premium, where appropriate. The standard of proof of cognitive impairment or loss of functional capacity shall not be more stringent than the benefit eligibility criteria on cognitive impairment or the loss of functional capacity contained in the policy or certificate. Reinstatement after termination for other than unintentional lapse shall be governed by A.R.S. § 20-1348.

Historical Note

Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1006. Inflation Protection

- A. An insurer shall not offer a long-term care insurance policy unless the insurer offers to the policyholder, at the time of purchase, in addition to any other inflation protection, the option to purchase a policy with an inflation protection provision that provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. The terms of the required provision shall be no less favorable than one of the following:
 1. A provision that provides for annual increases in benefit levels compounding annually at a rate of not less than 5%;
 2. A provision that guarantees an insured the right to periodically increase benefit levels without providing evidence of insurability or health status, if the insured did not decline the option for the previous period. The increased benefit shall be no less than the difference between the existing policy benefit and that benefit compounded annually at a rate of at least 5% for the period beginning from the purchase of the existing benefit and extending until the year in which the offer is made; or

3. A provision for coverage of a specified percentage of actual or reasonable charges that is not subject to a maximum specified indemnity amount or limit.
- B. If the policy is issued to a group, the insurer shall extend the offer required by subsection (A) to the group policyholder; except, if the policy is issued under A.R.S. § 20-1691.04(C) to a group, other than to a continuing care retirement community, the insurer shall make the offer to each proposed certificateholder.
 - C. An insurer is not required to make the offer in subsection (A) for life insurance policies or riders with accelerated long-term care benefits.
 - D. An insurer shall include the information listed in this subsection in or with the outline of coverage.
 1. A graphic comparison of the benefit levels of a policy that increases benefits over the policy period with a policy that does not increase benefits. The graphic comparison shall show benefit levels over at least a 20-year period.
 2. Any expected premium increases or additional premiums to pay for automatic or optional benefit increases. If premium increases or additional premiums will be based on the attained age of the applicant at the time of the increase, the insurer shall provide a revised schedule of attained-age premiums. An insurer may use a reasonable hypothetical or a graphic demonstration for this disclosure.
 - E. Inflation-protection benefit increases shall continue without regard to an insured's age, claim status, claim history, or length of time the person has been insured under the policy.
 - F. An insurer's offer of inflation protection that provides for automatic benefit increases shall include an offer of a premium that the insurer expects to remain constant. The insurer shall disclose in the offer in a conspicuous manner that the premium may change in the future unless the premium is guaranteed to remain constant.
 - G. An insurer shall include in a long-term care insurance policy inflation protection as provided in subsection (A)(1) unless the insurer obtains a rejection of inflation protection signed by the insured as required in subsection (H). The rejection may be either on the application form or on a separate form.
 - H. A rejection of inflation protection is deemed part of an application and shall state: "I have reviewed the outline of coverage and the graphs that compare the benefits and premiums of this policy with and without inflation protection. Specifically, I reviewed Plans [insert description of plans], and I reject inflation protection."

R20-6-1007. Required Disclosure Provisions

- A. Riders and endorsements. Except for riders or endorsements by which an insurer effectuates a request made in writing by the insured under an individual long-term care insurance policy, if an insurer adds a rider or endorsement to an individual long-term care insurance policy after date of issue or at reinstatement or renewal that reduces or eliminates benefits or coverage in the policy, the insurer shall require signed acceptance by the individual insured. After the date of policy issue, any rider or endorsement that increases benefits or coverage

with a concomitant increase in premium during the policy term shall require the signed written agreement of the insured unless the increased benefits or coverage are required by law. If the insurer charges a separate additional premium for benefits provided in connection with riders or endorsements, the premium charge shall be set forth in the policy, rider, or endorsement.

- B.** Payment of Benefits. A long-term care insurance policy that provides for the payment of benefits based on standards described as “usual and customary,” “reasonable and customary” or words of similar import shall define the terms and explain them in its accompanying outline of coverage.
- C.** Disclosure of tax consequences. For life insurance policies that provide an accelerated benefit for long-term care, an insurer shall provide a disclosure statement at the time of application for the policy or rider and at the time the accelerated benefit payment request is submitted, that receipt of these accelerated benefits may be taxable, and that assistance should be sought from a personal tax adviser. The disclosure statement shall be prominently displayed on the first page of the policy or rider and any other related documents. This subsection shall not apply to qualified long-term care insurance contracts.
- D.** Benefit triggers. A long-term care insurance policy shall use activities of daily living and cognitive impairment to measure an insured’s need for long-term care. The long-term care insurance policy shall describe these terms and provisions in a separate paragraph in the policy labeled “Eligibility for the Payment of Benefits” that includes and explains:
 1. Any additional benefit triggers,
 2. Benefit triggers that result in payment of different benefit levels, and
 3. Any requirement that an attending physician or other specified person certify a certain level of functional dependency for the insured to be eligible for benefits.
- E.** A long-term care insurance contract shall contain a disclosure statement in the policy and in the outline of coverage indicating whether it is intended to be a qualified long-term care insurance contract as specified in the outline of coverage in Appendix J, paragraph 3. The contract shall also include a Specification Page which shall include the benefits, amounts, durations, the premium rate including all optional benefits selected by the insured, and any other benefit data applicable to the insured.

R20-6-1008. Required Disclosure of Rating Practices to Consumers

A. This Section applies as follows:

1. Except as provided in subsection (A)(2), this Section applies to any long-term care policy or certificate issued in this state on or after May 10, 2005.
2. For certificates issued under an in-force, long-term care insurance policy issued to a group as defined in A.R.S. § 20-1691(5)(a), the provisions of this Section apply on the first policy anniversary that occurs on or after November 10, 2005.

- B.** Unless a policy is one for which an insurer cannot increase the applicable premium rate or rate schedule, the insurer shall provide the information listed in this subsection to the applicant at the time of application or enrollment. If the method of application does not allow for delivery at that time, the insurer shall provide the information to the applicant no later than at the time of delivery of the policy or certificate.
 1. A statement that the policy may be subject to rate increases in the future.
 2. An explanation of potential future premium rate revisions, and the policyholder’s or certificateholder’s option if a premium rate revision occurs.
 3. The premium rate or rate schedules applicable to the applicant that will be in effect until the insurer makes a request for an increase.
 4. A general explanation for applying premium rate or rate schedule adjustments that includes:
 - a. A description of when premium rate or rate-schedule adjustments will be effective (e.g., next anniversary date, next billing date); and
 - b. The insurer’s right to a revised premium rate or rate schedule as provided in subsection (B)(3) if the premium rate or rate schedule is changed.
 5. Information regarding each premium rate increase on this policy form or similar policy form over the past 10 years for this state or any other state that, at a minimum, identifies:
 - a. The policy forms for which premium rates have been increased;
 - b. The calendar years when the form was available for purchase; and
 - c. The amount or percent of each increase, which may be expressed as a percentage of the premium rate before the increase, or as minimum and maximum percentages if the rate increase is variable by rating characteristics.
 6. The insurer may, in a fair manner, provide explanatory information related to the rate increases in addition to the information required under subsection (B)(5).
- C.** An insurer may exclude from the disclosure required under subsection (B)(5), premium rate increases applicable to:
 1. Blocks of business acquired from other nonaffiliated insurers, and
 2. Policies acquired from other nonaffiliated insurers if the increases occurred before the acquisition.
- D.** If an acquiring insurer files for a rate increase on a long-term care insurance policy form or a block of policy forms acquired from a nonaffiliated insurer on or before the later of the January 10, 2005, or the end of a 24-month period following the acquisition of the policies or block of policies, the acquiring insurer may exclude that rate increase from the disclosure required under subsection (B)(5). However, the nonaffiliated insurer that sells the policy form or a block of policy forms shall include that rate increase in the disclosure required under subsection (B)(5). If the acquiring insurer files for a subsequent rate increase, even within the 24-month period, on the same policy form acquired from a nonaffiliated insurer or block of policy forms acquired from nonaffiliated insurers, the acquiring insurer shall make all disclosures required by subsection (B)(5), including disclosure of the earlier rate increase.
- E.** Unless the method of application does not allow an insured to sign an acknowledgement that the insurer made the disclosures required under subsection (B) at the time of application, the applicant shall sign an acknowledgement of disclosure at that time. Otherwise, the applicant shall sign a disclosure acknowl-

edgement no later than at the time of delivery of the policy or certificate.

- F. An insurer shall use the forms in Appendix A and Appendix B to comply with the requirements of subsections (B) through (E). The text and format of an insurer's forms shall be substantially similar to the text and format of Appendices A and B.
- G. An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificateholders, if applicable, at least 45 days before the effective date of the increase. The notice shall include the information required by subsection (B).

Historical Note

Adopted effective August 10, 1992 (Supp. 92-3). R20-6-1008 recodified from R4-14-1008 (Supp. 95-1). Former Section R20-6-1008 renumbered to R20-6-1011; new Section R20-6-1008 made by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1009. Initial Filing Requirements

- A. This Section applies to any long-term care policy issued in this state on or after May 10, 2005.
- B. At the time of making a filing under A.R.S. § 20-1691.08, an insurer shall provide to the Director a copy of the disclosure documents required under R20-6-1008 and an actuarial certification that includes the following:
 - 1. The initial premium rate schedule is sufficient to cover anticipated costs under moderately adverse experience and that the premium rate schedule is reasonably expected to be sustainable over the life of the form with no future premium increases anticipated;
 - 2. The policy design and coverage provided have been reviewed and taken into consideration;
 - 3. The underwriting and claims adjudication processes have been reviewed and taken into consideration;
 - 4. The premiums contain at least the minimum margin for moderately adverse experience as defined in subsection (4)(a) or the specification of and justification for a lower margin as required by subsection (4)(b).
 - a. A composite margin shall not be less than 10% of lifetime claims.
 - b. A composite margin that is less than 10% may be justified in uncommon circumstances. The proposed amount, full justification of the proposed amount and methods to monitor developing experience that would be the basis for withdrawal of approval for such lower margins must be submitted.
 - c. A composite margin lower than otherwise considered appropriate for the stand-alone long-term care policy may be justified for long-term care benefits provided through a life policy or an annuity contract. Such lower composite margin, if utilized, shall be justified by appropriate actuarial demonstration addressing margins and volatility when considering the entirety of the product.
 - d. A greater margin may be appropriate in circumstances where the company has less credible experience to support its assumptions used to determine the premium rates.
- 5. A statement that the premium rate schedule:
 - a. Is not less than the premium rate schedule for existing similar policy forms also available from the insurer except for reasonable differences attributable to benefits, or

- b. A comparison of the premium schedules for similar policy forms that are currently available from the insurer with an explanation of the differences; and
- 6. A statement that reserve requirements have been reviewed and considered. Support for this statement shall include:
 - a. Sufficient detail or sample calculations provided so as to have a complete depiction of the reserve amounts to be held; and
 - b. A statement that the difference between the gross premium and the net valuation premium for renewal years is sufficient to cover expected renewal expenses; or if such a statement cannot be made, a complete description of the situations where this does not occur. An aggregate distribution of anticipated issues may be used as long as the underlying gross premiums maintain a reasonably consistent relationship.
 - C. An actuarial memorandum shall be included that is signed by a member of the Academy of Actuaries and that addresses and supports each specific item required as part of the actuarial certification and provides at least the following:
 - 1. An explanation of the review performed by the actuary prior to making the statements in subsections (B)(2) and (B)(3);
 - 2. A complete description of pricing assumptions;
 - 3. Sources and levels of margins incorporated into the gross premiums that are the basis for the statement in subsection (B)(1) of the actuarial certification and an explanation of the analysis and testing performed in determining the sufficiency of the margins. The actuary shall clearly describe deviations in margins between ages, sexes, plans or states. Deviations in margins required to be described are other than those produced utilizing generally accepted actuarial methods for smoothing and interpolating gross premium scales; and
 - 4. A demonstration that the gross premiums include the minimum composite margin specified in subsection (B)(4).
 - D. In any review of the actuarial certification and actuarial memorandum, the Director may request review by an actuary with experience in long-term care pricing who is independent of the insurer. In the event the Director asks for additional information as a result of any review, the period in A.R.S. § 20-1691.08 does not include the period during which the insurer is preparing the requested information.

R20-6-1010. Requirements for Application Forms and Replacement Coverage; Prohibition Against Preexisting Conditions and Probationary Periods in Replacement Policies or Certificates; Reporting Requirements

- A. An insurer's application form for a long-term care insurance policy shall include the questions listed in this Section to elicit information as to whether, as of the date of the application, the applicant has another long-term care insurance policy or certificate in force or whether a long-term care policy or certificate is intended to replace any other health or long-term care policy or certificate presently in force. An insurer may include the

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

questions in a supplementary application or other form to be signed by the applicant and insurance producer, except where the coverage is sold without an insurance producer. For a replacement policy issued to a group as defined in A.R.S. § 20-1691(5)(a), the insurer may modify the questions only to the extent necessary to elicit information about health or long-term care insurance policies other than the group policy being replaced if the certificateholder has been notified of the replacement.

1. Do you have another long-term care insurance policy or certificate in force (including health care service contract, health maintenance organization contract)?
 2. Did you have another long-term care insurance policy or certificate in force during the last 12 months?
 - a. If so, with which company?
 - b. If that policy lapsed, when did it lapse?
 3. Are you covered by Medicaid?
 4. Do you intend to replace any of your medical or health insurance coverage with this policy or certificate?
- B.** The application or enrollment form for such policies or certificates shall clearly indicate the payment plan the applicant selects.
- C.** An insurance producer shall list any other health insurance policies the insurance producer has sold to the applicant, including:
1. Policies that are still in force, and
 2. Policies sold in the past five years that are no longer in force.
- D.** Solicitations Other than Direct Response. On determining that a sale will involve replacement, an insurer, other than an insurer using direct response solicitation methods, or its insurance producer; shall furnish the applicant, before issuing or delivering the individual long-term care insurance policy, a notice that substantially conforms to the form prescribed in Appendix C or D regarding replacement of health or long-term care coverage. The insurer shall:
1. Give one copy of the notice to the applicant, and
 2. Keep an additional copy signed by the applicant.
- E.** Direct Response Solicitations. Insurers using direct response solicitation methods as defined in A.R.S. § 20-1661 shall deliver a notice that substantially conforms to the form prescribed in Appendix C or D regarding replacement of health or long-term care coverage to the applicant upon issuance of the policy.
- F.** If replacement is intended, the replacing insurer shall send the existing insurer written notice of the proposed replacement within five working days from the date the replacing insurer receives the application or issues the policy, whichever is sooner. The notice shall identify the existing policy by name of the insurer and the insured, and policy number or insured's address including zip code.
- G.** A life insurance policy that accelerate benefits for long-term care shall comply with this Section if the policy being replaced is a long-term care insurance policy. If the policy being replaced is a life insurance policy, the insurer shall comply with the replacement requirements of Title 20, Chapter 6, Article 1.1. If a life insurance policy that accelerates benefits for long-term care is replaced by another such policy, the replacing insurer shall comply with the requirements of this Section and with A.R.S. Title 20, Chapter 6, Article 1.1.
- H.** Prohibition against preexisting conditions and probationary periods in replacement policies or certificates. If a long-term care insurance policy or certificate replaces another long-term care policy or certificate, the replacing insurer shall waive any time periods applicable to preexisting conditions and probationary periods in the new long-term care policy for similar benefits if similar exclusions are satisfied under the original policy.
- I.** Reporting requirements.
1. An insurer shall maintain the following records for each insurance producer:
 - a. The amount of the insurance producer's replacement sales as a percent of the insurance producer's total annual sales, and
 - b. The amount of lapses of long-term care insurance policies sold by the insurance producer as a percent of the insurance producer's total annual sales.
 2. No later than June 30 of each year, on the forms specified in Appendix E and Appendix F, an insurer shall report the following information for the preceding calendar year to the Department:
 - a. The 10% of its insurance producers licensed in Arizona with the greatest percentages of lapses and replacements as measured by subsection (I)(1);
 - b. The number of lapsed policies as a percent of the total annual sales and as a percent of the insurer's total number of policies in force as of the end of the preceding calendar year;
 - c. The number of replacement policies sold as a percent of the insurer's total annual sales and as a percent of its total number of policies in force as of the end of the preceding calendar year; and
 - d. For qualified long-term care insurance contracts, the number of claims denied for each class of business, expressed as a percentage of claims denied.
- J.** In subsection (I):
1. "Claim" means a request for payment of benefits under an in-force policy, regardless of whether the benefit claimed is covered under the policy or any terms or conditions of the policy have been met.
 2. "Denied" means the insurer refuses to pay a claim for any reason other than for claims not paid for failure to meet the waiting period or because of an applicable preexisting condition.
 3. "Policy" means only long-term care insurance.
 4. "Report" means on a statewide basis.
- K.** Reported replacement and lapse rates do not alone constitute a violation of insurance laws or necessarily imply wrongdoing. The reports are for the purpose of reviewing more closely agent activities regarding the sale of long-term care insurance. Reports required under this Section shall be filed with the Director.
- L.** Annual rate certification requirements. This subsection applies to any long-term care policy issued in Arizona on or after November 10, 2017. The following annual submission requirements apply subsequent to initial rate filings for individual long-term care insurance policies made under this Section:
1. An actuarial certification prepared, dated and signed by a member of the American Academy of Actuaries which contains a statement of the sufficiency of the current premium rate schedule, including:
 - a. For the rate schedules currently marketed, that the premium rate schedule continues to be sufficient to cover anticipated costs under moderately adverse experience and that the premium rate schedule is reasonably expected to be sustainable over the life of the form with no future premium increases anticipated or a statement that margins for moderately adverse experience may no longer be sufficient. For a statement that margins for moderately adverse experience may no longer be sufficient, the insurer

shall provide to the Director, within 60 days of the date the actuarial certification is submitted to the Director, a plan of action, including a time frame, for the re-establishment of adequate margins for moderately adverse experience so that the ultimate premium rate schedule would be reasonably expected to be sustainable over the future life of the form with no future premium increases anticipated. Failure to submit a plan of action to the Director within 60 days or to comply with the time frame stated in the plan of action constitutes grounds for the Director to withdraw or modify approval of the form for future sales pursuant to A.R.S. § 20-1691.08.

- b. For the rate schedules that are no longer marketed, that the premium rate schedule continues to be sufficient to cover anticipated costs under best estimate assumptions or that the premium rate schedule may no longer be sufficient. If the premium rate schedule is no longer sufficient, the insurer shall provide to the Director, within 60 days of the date the actuarial certification is submitted to the Director, a plan of action, including time frame, for the re-establishment of adequate margins for moderately adverse experience;
2. A description of the review performed that led to the statement; and
3. An actuarial memorandum dated and signed by a member of the American Academy of Actuaries who prepares the information shall be prepared to support the actuarial certification and provide at least the following information:
 - a. A detailed explanation of the data sources and review performed by the actuary prior to making the statement in subsection (L)(1),
 - b. A complete description of experience assumptions and their relationship to the initial pricing assumptions,
 - c. A description of the credibility of the experience data, and
 - d. An explanation of the analysis and testing performed in determining the current presence of margins.
4. The actuarial certification required pursuant to subsection (L)(1) must be based on calendar year data and submitted annually starting in the second year following the year in which the initial rate schedules are first used. The actuarial memorandum required pursuant to subsection (L)(3) must be submitted at least once every three years with the certification.

R20-6-1011. Prohibition Against Post-claims Underwriting

- A. An application for a long-term care insurance policy or certificate that is not guaranteed issue shall meet the requirements of this Section.
 1. The application shall contain clear and unambiguous questions designed to ascertain the applicant's health condition.
 - a. If the application has a question asking whether the applicant has had medication prescribed by a physi-

cian, the application shall also ask the applicant to list the prescribed medication.

- b. If the insurer knew or reasonably should have known that the medications listed in the application are related to a medical condition for which coverage would otherwise be denied, the insurer shall not rescind the policy or certificate for that condition.
2. The application shall include the following language which shall be set out conspicuously and in close conjunction with the applicant's signature block: "**Caution: If your answers on this application are incorrect or untrue, [company] has the right to deny benefits or rescind your policy.**"
3. The policy or certificate shall contain, at the time of delivery, the following language, or language substantially similar to the following, set out conspicuously: "**Caution: The issuance of this long-term care insurance [policy] [certificate] is based on your responses to the questions on your application. A copy of your [application] [enrollment form] [is enclosed] [was retained by you when you applied]. If your answers are incorrect or untrue, the company has the right to deny benefits or rescind your policy. The best time to clear up any questions is now, before a claim arises! If, for any reason, any of your answers are incorrect, contact the company at this address: [insert address].**"
- B. Before issuing a long-term care insurance policy or certificate that is not guaranteed issue to an applicant age 80 or older, the insurer shall obtain one of the following:
 1. A report of a physical examination,
 2. An assessment of functional capacity,
 3. An attending physician's statement, or
 4. Copies of medical records.
- C. The insurer or its insurance producer shall deliver a copy of the completed application or enrollment form, as applicable, to the insured no later than at the time of delivery of the policy or certificate unless the insurer gave a copy to the applicant it at the time of application.
- D. An insurer selling or issuing long-term care insurance benefits shall maintain a record of all policy or certificate rescissions, both state and country-wide, except those which the insured voluntarily effectuated.
- E. On or before March 31 of each year, an insurer shall report the following information to the Director for the preceding calendar year, using the form prescribed in Appendix G:
 1. Insurer name, address, phone number;
 2. As to each rescission except those voluntarily effectuated by the insured:
 - a. Policy form number,
 - b. Policy and certificate number,
 - c. Name of the insured,
 - d. Date of policy issuance,
 - e. Date claim submitted,
 - f. Date of rescission, and
 - g. Detailed reason for rescission; and

R20-6-1012. Reserve Standards

- A. If long-term care benefits are provided through the acceleration of benefits under group or individual life policies or riders, an insurer shall determine policy reserves for long-time care benefits under A.R.S. § 20-510. An insurer shall also establish claim reserves for a policy or rider in claim status.
- B. An insurer shall base reserves for policies and riders under subsection (A) on the multiple decrement model using all relevant decrements except for voluntary termination rates. An insurer may use single decrement approximations if the calculation produces essentially similar reserves, if the reserve is clearly more conservative, or if the reserve is immaterial. The insurer, when calculating reserves, may take into account the reduction in life insurance benefits due to the payment of long-term care benefits. The insurer shall not set the reserves for the long-term care benefit and the life insurance benefit to be less than the reserves for the life insurance benefit assuming no long-term care benefit.
- C. In the development and calculation of reserves for policies and riders subject to this Section, an insurer shall give due regard to the applicable policy provisions, marketing methods, administrative procedures and all other considerations which impact projected claim costs including the following:
1. Definition of insured events,
 2. Covered long-term care facilities,
 3. Existence of home convalescence care coverage,
 4. Definition of facilities,
 5. Existence or absence of barriers to eligibility,
 6. Premium waiver provision,
 7. Renewability,
 8. Ability to raise premiums,
 9. Marketing method,
 10. Underwriting procedures,
 11. Claims adjustment procedures,
 12. Waiting period,
 13. Maximum benefit,
 14. Availability of eligible facilities,
 15. Margins in claim costs,
 16. Optional nature of benefit,
 17. Delay in eligibility for benefit,
 18. Inflation protection provisions,
 19. Guaranteed insurability option, and
 20. Other similar or comparable factors affecting risk.
- D. A member of the American Academy of Actuaries shall certify an insurer's use of any applicable valuation morbidity table as appropriate as a statutory valuation table.
- E. When long-term care benefits are provided other than as described in subsection (A), an insurer shall determine reserves under A.R.S. § 20-508.
- B. Benefits under an individual long-term care insurance policy are deemed reasonable in relation to premiums if the expected loss ratio is at least 60% calculated in a manner that provides for adequate reserving of the long-term care insurance risk. In evaluating the expected loss ratio, the director shall consider all relevant factors, including:
1. Statistical credibility of incurred claims experience and earned premiums;
 2. The period for which rates are computed to provide coverage;
 3. Experienced and projected trends;
 4. Concentration of experience within early policy duration;
 5. Expected claim fluctuation;
 6. Experience refunds, adjustments, or dividends;
 7. Renewability features;
 8. All appropriate expense factors;
 9. Interest;
 10. Experimental nature of the coverage;
 11. Policy reserves;
 12. Mix of business by risk classification; and
 13. Product features such as long elimination periods, high deductibles, and high maximum limits.
- C. A premium rate schedule or proposed revision to a premium rate schedule that is expected to produce, over the lifetime of the long-term care insurance policy, benefits that are less than 60% of the proposed premium rate schedule is deemed to be unreasonable.
- D. Subsections (B) and (C) do not apply to life insurance policies that accelerate benefits for long-term care. A life insurance policy that funds long-term care benefits entirely by accelerating the death benefit is deemed to provide reasonable benefits in relation to premiums paid if the policy complies with all of the following:
1. The interest credited internally to determine cash value accumulations, including long-term care, if any, is guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
 2. The portion of the policy that provides life insurance benefits complies with the nonforfeiture requirements of A.R.S. § 20-1231;
 3. The policy complies with the disclosure requirements of A.R.S. § 20-1691.06(A) through (E);
 4. At the time of making a filing under A.R.S. § 20-1691.08, the insurer files an actuarial memorandum that includes the following information:
 - a. A description of the basis on which the long-term care rates were determined;
 - b. A description of the basis for the reserves;
 - c. A summary of the type of policy, benefits, renewability, general marketing method, and limits on ages of issuance;
 - d. A description and a table of each actuarial assumption used; for expenses, an insurer shall include percent of premium dollars per policy and dollars per unit of benefits, if any;
 - e. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
 - f. The estimated average annual premium per policy and the average issue age;
 - g. A statement as to whether underwriting is performed, including:
 - i. Time of underwriting;

R20-6-1014. Premium Rate Schedule Increase

- A. This Section applies to any long-term care policy or certificate issued in this state on or after May 10, 2005 and prior to November 10, 2017.
 - B. An insurer shall notify the Director of a proposed premium rate schedule increase, including an exceptional increase, at least 60 days before issuing notice to its policyholders. The notice to the Director shall include:
 - 1. Information required by R20-6-1008;
 - 2. Certification by a qualified actuary that:
 - a. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated;
 - b. The premium rate filing complies with the provisions of this Section; and
 - c. The insurer may request a premium rate schedule increase less than what is required under this Section and the Director may approve the premium rate schedule increase, without submission of the certification required by subsection (B)(2)(a), if the actuarial memorandum discloses the premium rate schedule increase necessary to make the certification required by subsection (B)(2)(a), the premium rate schedule increase filing satisfies all other requirements of this Section, and is, in the opinion of the Director, in the best interest of the policyholders.
 - 3. An actuarial memorandum justifying the rate schedule change request that includes:
 - a. Lifetime projections of earned premiums and incurred claims based on the filed premium rate schedule increase; and the method and assumptions used in determining the projected values, including the following:
 - i. Any assumptions that deviate from those used for pricing other forms currently available for sale;
 - ii. Annual values for the five years preceding and the three years following the valuation date, provided separately;
 - iii. Development of the lifetime loss ratio, unless the rate increase is an exceptional increase; and
 - iv. A demonstration of compliance with subsection (C).
 - b. For exceptional increases, the actuarial memorandum shall also include:
 - i. The projected experience that is limited to the increases in claims expenses attributable to the approved reasons for the exceptional increase; and
 - ii. If the Director determines under Section R20-6-1002(B)(3) that offsets may exist, the insurer shall use appropriate net projected experience;
 - c. Disclosure of how reserves have been incorporated in this rate increase when the rate increase will trigger contingent benefit upon lapse;
 - d. Disclosure of the analysis performed to determine why a rate adjustment is necessary, which pricing assumptions were not realized and why, and any other actions of the insurer on which the actuary has relied;
 - e. A statement that the actuary has considered policy design, underwriting, and claims adjudication practices;
 - f. Composite rates reflecting projections of new certificates in the event it is necessary to maintain consistent premium rates for new certificates and certificates receiving a rate increase; and
 - g. A demonstration that actual and projected costs exceed costs anticipated at the time of the initial pricing under moderately adverse experience and that the composite margin specified in R20-6-1009(B)(4) is projected to be exhausted;
4. A statement that renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits, unless the insurer provides the Director with documentation justifying the greater rate; and
5. Upon the Director's request, other similar and related information the Director may require to evaluate the premium rate schedule increase.
- C. All premium rate schedule increases shall be determined in accordance with the following requirements:
 - 1. The insurer shall return 70% of the present value of projected additional premiums from an exceptional increase to policyholders in benefits;
 - 2. The sum of the accumulated value of incurred claims, without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, shall not be less than the sum of the following:
 - a. The accumulated value of the initial earned premium times 58%;
 - b. 85% of the accumulated value of prior premium rate schedule increases on an earned basis;
 - c. The present value of future projected initial earned premiums times 58%; and
 - d. 85% of the present value of future projected premiums not in subsection (C)(2)(c) on an earned basis;
 - 3. If a policy form has both exceptional and other increases, the values in subsections (C)(2)(b) and (C)(2)(d) shall also include 70% for exceptional rate increase amounts; and
 - 4. All present and accumulated values used to determine rate increases shall use the maximum valuation interest rate for contract reserves as specified in the NAIC Accounting Practices and Procedures Manual to which insurers are subject under A.R.S. § 20-223. The actuary

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

shall disclose the use of any appropriate averages in the actuarial memorandum required under subsection (B)(3).

- D.** For each rate increase that is implemented, the insurer shall file for approval by the Director updated projections, as defined in subsection (B)(3)(a), annually for the next three years and shall include a comparison of actual results to projected values. The Director may extend the period to greater than three years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in subsection (M), the insurer shall provide the projections required by this subsection to the policyholder in lieu of filing with the Director.
- E.** If any premium rate in the revised premium rate schedule is greater than 200% of the comparable rate in the initial premium schedule, the insurer shall file lifetime projections, as defined in subsection (B)(3)(a), for the Director's approval every five years following the end of the required period in subsection (D). For group insurance policies that meet the conditions in subsection (M), the insurer shall provide the projections required by this subsection to the policyholder instead of filing with the Director.
- F.** If the Director finds that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of premiums specified in subsection (C), the Director may require the insurer to implement premium rate schedule adjustments or other measures to reduce the difference between the projected and actual experience. In determining whether the actual experience matches the projected experience, the Director shall consider subsection (B)(3)(f), if applicable.
- G.** If the majority of the policies or certificates to which the increase applies are eligible for the contingent benefit upon lapse, the insurer shall file:
1. A plan, subject to Director approval, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form experience requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect; otherwise the Director may impose the conditions in subsections (H) through (J); and
 2. The original anticipated lifetime loss ratio, and the premium rate schedule increase that would have been calculated according to subsection (C) had the greater of the original anticipated lifetime loss ratio or 58% been used in the calculations described in subsections (C)(2)(a) and (C)(2)(c).
- H.** For a rate increase filing that meets the criteria listed in this subsection, the Director shall review, for all policies included in the filing, the projected lapse rates and past lapse rates during the 12 months following each increase to determine if lapsation in excess of projected lapsation has occurred or is anticipated:
1. The rate increase is not the first rate increase requested for the specific policy form or forms,
 2. The rate increase is not an exceptional increase, and
 3. The majority of the policies or certificates to which the increase applies are eligible for the contingent benefit upon lapse.
- I.** If the Director finds excess lapsation under subsection (H) has occurred, is anticipated in the filing or is evidenced in the actual results as presenting in the updated projections provided by the insurer following the requested rate increase, the Director may find that a rate spiral exists and may require the insurer to offer, without underwriting, to all in-force insureds subject to the rate increase, the option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates. The information communicating the offer is subject to the Director's approval. The offer shall:
1. Be based on actuarially sound principles, but not on attained age;
 2. Provide that maximum benefits under any new policy accepted by an insured shall be reduced by comparable benefits already paid under the existing policy; and
 3. Allow the insured the option of retaining the existing coverage.
- J.** The insurer shall maintain the experience of the insureds whose coverage was replaced under subsection (I) separate from the experience of insureds originally issued the policy forms. If the insurer requests a rate increase on the policy form, the rate increase shall be limited to the lesser of:
1. The maximum rate increase determined based on the combined experience; and
 2. The maximum rate increase determined based only on the experience of the insureds originally issued the form, plus 10%.
- K.** If the Director finds that an insurer has exhibited a history or pattern of filing inadequate initial premium rates for long-term care insurance, after considering the total number of policies filed over a period of time and the percentage of policies with inadequate rates, the Director may, in addition to remedies available under subsections (H) through (J), prohibit the insurer from the following:
1. Filing and marketing comparable coverage for a period of up to five years, and
 2. Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases.
- L.** Subsections (A) through (K) shall not apply to a policy for which long-term care benefits provided by the policy are incidental, as defined under R20-6-1002(C), if the policy complies with all of the following provisions:
1. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
 2. The portion of the policy that provides insurance benefits other than long-term care coverage meets the applicable nonforfeiture requirements under state law, including A.R.S. §§ 20-1231, 20-1232 and 20-2636;
 3. The policy meets the disclosure requirements of A.R.S. § 20-1691.06;
 4. The portion of the policy that provides insurance benefits other than long-term care coverage meets the disclosure requirements as applicable in the following:
 - a. A.R.S. Title 20, Chapter 6, Article 1.2; and
 - b. A.R.S. Title 20, Chapter 16, Article 2;
 5. At the time of making a filing under A.R.S. § 20-1691.08, the insurer files an actuarial memorandum that includes:
 - a. Description of the bases on which the actuary determined the long-term care rates and the reserves;
 - b. A summary of the type of policy, benefits, renewability provisions, general marketing method, and limits on ages of issuance;
 - c. A description and a table of each actuarial assumption used, with the percent of premium dollars per policy and dollars per unit of benefits, if any, for expenses;

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- d. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
- e. The estimated average annual premium per policy and the average issue age;
- f. A statement as to whether the insurer performs underwriting at the time of application with an explanation of the following:
- i. Whether underwriting is used, and if used, a description of the type of underwriting, such as medical underwriting or functional assessment underwriting; and
 - ii. For a group policy, whether the enrollee or any dependent will be underwritten and when underwriting occurs; and
- g. A description of the effect of the long-term care policy provision on the required premiums, nonforfeiture values, and reserves on the underlying insurance policy, both for active lives and those in long-term care claim status.
- M.** Subsections (F) and (H) through (J) shall not apply to group insurance as defined in A.R.S. § 20-1691(6) where:
1. The policies insure 250 or more persons and the policyholder has 5,000 or more eligible employees of a single employer; or
 2. The policyholder, and not the certificateholder, pays a material portion of the premium, which shall not be less than 20% of the total premium for the group in the calendar year prior to the year a rate increase is filed.

1. Information required by R20-6-1008;
 2. Certification by a qualified actuary that:
 - a. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated;

- C.** All premium rate schedule increases shall be determined in accordance with the following requirements:
1. Exceptional increases shall provide that 70% of the present value of projected additional premiums from the exceptional increase will be returned to policyholders in benefits;
 2. The insurer shall calculate premium rate increases such that the sum of the lesser of either the accumulated value of the actual incurred claims (without the inclusion of active life reserves) or the accumulated value of historic

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

expected claims (without the inclusion of active life reserves) plus the present value of the future expected incurred claims (projected without the inclusion of active life reserves) will not be less than the sum of the following:

- a. The accumulated value of the initial earned premium times the greater of 58% or the lifetime loss ratio consistent with the original filing including margins for moderately adverse experience;
 - b. 85% of the accumulated value of prior premium rate schedule increases on an earned basis;
 - c. The present value of future projected initial earned premiums times the greater of 58% or the lifetime loss ratio consistent with the original filing including margins for moderately adverse experience; and
 - d. 85% of the present value of future projected premiums not in subsection (C)(2)(c) on an earned basis;
3. Historic expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase. Historic expected claims are calculated for each calendar year based on the in-force at the beginning of the calendar year. Historic expected claims shall include margins for moderately adverse experience; either amounts included in the claims that were used to determine the lifetime loss ratio consistent with the original filing or as modified in any rate increase filing;
 4. In the event that a policy form has both exceptional and other increases, the values in subsections (C)(2)(b) and (C)(2)(d) will also include 70% for exceptional rate increase amounts; and
 5. All present and accumulated values used to determine rate increases, including the lifetime loss ratio consistent with the original filing reflecting margins for moderately adverse experience, shall use the maximum valuation interest rate for contract reserves as specified in A.R.S. § 20-508. The actuary shall disclose as part of the actuarial memorandum the use of any appropriate averages.
- D.** For each rate increase that is implemented, the insurer shall file for approval by the Director updated projections, as defined in subsection (B)(3)(a), annually for the next three years and shall include a comparison of actual results to projected values. The Director may extend the reporting period beyond three years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in subsection (M), the projections required by this subsection shall be provided to the policyholder in lieu of filing with the Director.
- E.** If any premium rate in the revised premium rate schedule is greater than 200% of the comparable rate in the initial premium schedule, the insurer shall file lifetime projections, as defined in subsection (B)(3)(a), for the Director's approval every five years following the end of the required period in subsection (D). For group insurance policies that meet the conditions in subsection (M), the insurer shall provide the projections required by this subsection to the policyholder instead of filing with the Director.
- F.** If the Director finds that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of premiums specified in subsection (C), the Director may require the insurer to implement premium rate schedule adjustments or other measures to reduce the difference between the projected and actual experience. In determining whether the actual experience matches the projected experience, the Director shall consider subsection (B)(3)(f), if applicable.
- G.** If the majority of policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse, the insurer shall file a plan, subject to approval by the Director, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form experience requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect. Otherwise, the Director may impose the conditions in subsections (H) through (J).
- H.** For a rate increase filing that meets the criteria listed in this subsection, the Director shall review, for all policies included in the filing, the projected lapse rates and past lapse rates during the 12 months following each increase to determine if lapsation in excess of projected lapsation has occurred or is anticipated:
1. The rate increase is not the first rate increase requested for the specific policy form or forms;
 2. The rate increase is not an exceptional increase; and
 3. The majority of the policies or certificates to which the increase applies are eligible for the contingent benefit upon lapse.
- I.** If the Director finds excess lapsation under subsection (H) has occurred, is anticipated in the filing or is evidenced in the actual results as presenting in the updated projections provided by the insurer following the requested rate increase, the Director may find that a rate spiral exists and may require the insurer to offer, without underwriting, to all in-force insureds subject to the rate increase, the option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates. The information communicating the offer is subject to the Director's approval. The offer shall:
1. Be based on actuarially sound principles, but not on attained age; and
 2. Provide that maximum benefits under any new policy accepted by an insured shall be reduced by comparable benefits already paid under the existing policy; and
 3. Allow the insured the option of retaining the existing coverage.
- J.** The insurer shall maintain the experience of the insureds whose coverage was replaced under subsection (I) separate from the experience of insureds originally issued the policy forms. If the insurer requests a rate increase on the policy form, the rate increase shall be limited to the lesser of:
1. The maximum rate increase determined based on the combined experience; and
 2. The maximum rate increase determined based only on the experience of the insureds originally issued the form, plus 10%.
- K.** If the Director finds that an insurer has exhibited a history or pattern of filing inadequate initial premium rates for long-term care insurance, after considering the total number of policies filed over a period of time and the percentage of policies with inadequate rates, the Director may, in addition to remedies available under subsections (H) through (J), prohibit the insurer from the following:
1. Filing and marketing comparable coverage for a period of up to five years; and
 2. Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

L. Subsections (A) through (K) shall not apply to a policy for which long-term care benefits provided by the policy are incidental, as defined under R20-6-1002(C), if the policy complies with all of the following provisions:

1. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
2. The portion of the policy that provides insurance benefits other than long-term care coverage meets the applicable nonforfeiture requirements under state law, including A.R.S. §§ 20-1231, 20-1232 and 20-2636;
3. The policy meets the disclosure requirements of A.R.S. § 20-1691.06;
4. The portion of the policy that provides insurance benefits other than long-term care coverage meets the disclosure requirements as applicable in the following:
 - a. A.R.S. Title 20, Chapter 6, Article 1.2; and
 - b. A.R.S. Title 20, Chapter 16, Article 2.
5. At the time of making a filing under A.R.S. § 20-1691.08, the insurer files an actuarial memorandum that includes:
 - a. Description of the bases on which the actuary determined the long-term care rates and the reserves;
 - b. A summary of the type of policy, benefits, renewability provisions, general marketing method, and limits on ages of issuance;
 - c. A description and a table of each actuarial assumption used, with the percent of premium dollars per policy and dollars per unit of benefits, if any, for expenses;
 - d. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
 - e. The estimated average annual premium per policy and the average issue age;
 - f. A statement as to whether the insurer performs underwriting at the time of application with an explanation of the following:
 - i. Whether underwriting is used, and if used, a description of the type of underwriting, such as medical underwriting or functional assessment underwriting; and
 - ii. For a group policy, whether the enrollee or any dependent will be underwritten and when underwriting occurs; and
 - g. A description of the effect of the long-term care policy provision on the required premiums, nonforfeiture values, and reserves on the underlying insurance policy, both for active lives and those in long-term care claim status.

M. Subsections (F) and (H) through (J) shall not apply to group insurance as defined in A.R.S. § 20-1691(6) where:

1. The policies insure 250 or more persons and the policyholder has 5,000 or more eligible employees of a single employer; or
2. The policyholder, and not the certificateholder, pays a material portion of the premium, which shall not be less than 20% of the total premium for the group in the calendar year prior to the year a rate increase is filed.

- A. Out-of-State Policies. Before an insurer or similar organization may offer group long-term care insurance to a resident of this state under A.R.S. § 20-1691.02(D), the insurer or organization shall file with the Director evidence that a state with statutory or regulatory long-term care insurance requirements substantially similar to those of this state has approved the group policy or certificate for use in that state.

R20-6-1017. Standards for Marketing

- A. Every insurer marketing long-term care insurance coverage in this state, directly or through an insurance producer shall:
1. Establish marketing procedures to assure that any comparison of policies by its insurance producers is fair and accurate, and that excessive insurance is not sold or issued;
 2. Display prominently by type, stamp or other appropriate means, on the first page of the outline of coverage and policy, the following language: "Notice to buyer: This policy may not cover all of the costs associated with long-term care incurred by the buyer during the period of coverage. The buyer is advised to review carefully all policy limitations;"
 3. Provide the applicant with copies of the disclosure forms in Appendices A and B;

 5. Provide an explanation of contingent benefit upon lapse as provided for in R20-6-1019(D)(3);

- B. In addition to the practices prohibited in A.R.S. § 20-441 et seq., the following acts and practices are prohibited:
1. Twisting.  2. High pressure tactics. Employing any method of marketing having the effect of or tending to induce the purchase of insurance through force, fright, threat, whether explicit

3. Cold lead advertising. Making use directly or indirectly or any method of marketing that fails to disclose in a conspicuous manner that a purpose of the method of marketing is solicitation of insurance and that contact will be made by an insurance producer or insurance company.
 4. Misrepresentation. Misrepresenting a material fact in selling or offering to sell a long-term care insurance policy.
- C. An insurer shall not market or issue a long-term care policy or certificate to an association unless the insurer files the information required under R20-6-1016(B) and annually certifies that the association has complied with the requirements of this Section.

R20-6-1018. Suitability

- A. This Section does not apply to life insurance policies that accelerate benefits for long-term care.
- B. Every insurer or other person marketing long-term care insurance, including an insurance producer or managing general agent, (the "issuer") shall:
 1. Develop and use suitability standards to determine whether the purchase or replacement of long-term care insurance is appropriate for the needs of the applicant,
 2. Train its insurance producers in the use of its suitability standards, and
 3. Maintain a copy of its suitability standards and make them available for inspection upon the Director's request.
- C. To determine whether an applicant meets an issuer's suitability standards, the insurance producer and issuer shall develop procedures that take the following into consideration:
 1. The applicant's ability to pay for the proposed coverage and other pertinent financial information related to the purchase of the coverage;
 2. The applicant's goals or needs with respect to long-term care and the advantages and disadvantages of insurance to meet these goals or needs; and
 3. The values, benefits, and costs of the applicant's existing insurance, if any, when compared to the values, benefits, and costs of the recommended purchase or replacement.
- D. The issuer shall make reasonable efforts to obtain the information set out in subsection (C), including giving the applicant the "Long-Term Care Insurance Personal Worksheet" prescribed in Appendix A, to complete before or at the time of application. The issuer shall use a personal worksheet that contains, at a minimum, the information contained in Appendix A, in substantially the same text and format, in not less than 12 point type. The issuer may ask the applicant to provide additional information to comply with its suitability standards. An issuer shall file a copy of its personal worksheet with the Director.
- E. An issuer shall not consider an applicant for coverage until the issuer has received the applicant's completed personal worksheet, except the personal worksheet need not be returned for sales of employer group long-term care insurance to employees and their spouses.
- F. No one shall sell or disseminate information obtained through the personal worksheet outside the issuer that obtains the worksheet.

- G. The issuer shall use its suitability standards to determine whether issuance of long-term care insurance coverage to a particular applicant is appropriate.
- H. An insurance producer shall use the suitability standards developed by the issuer in marketing long-term care insurance.
- I. When giving an applicant a personal worksheet, the issuer shall also provide the applicant with a disclosure form entitled "Things You Should Know Before You Buy Long-Term Care Insurance." The form shall be in substantially the same format and text contained in Appendix H, in not less than 12 point type.
- J. If the issuer determines that the applicant does not meet its financial suitability standards, or if the applicant has declined to provide the information, the issuer may reject the application. In the alternative, the issuer shall send the applicant a letter that is substantially similar to Appendix I. However, if the applicant has declined to provide financial information, the issuer may use some other method to verify the applicant's intent to purchase the long-term care policy. The issuer shall have either the applicant's returned Appendix I letter or a record of the alternative method of verification as part of the applicant's file.
- K. The issuer shall report annually to the Director the total number of applications received from residents of this state, the number of those who declined to provide information on the personal worksheet, the number of applicants who did not meet the suitability standards, and the number of those who chose to confirm after receiving a suitability letter as prescribed in subsection (J).

R20-6-1019. Nonforfeiture Benefit Requirement

- A. This Section does not apply to life insurance policies or riders containing accelerated long-term care benefits.
- B. To comply with the requirement to offer a nonforfeiture benefit pursuant to the provisions of A.R.S. § 20-1691.11, an insurer shall meet the following requirements:
 1. A policy or certificate offered with nonforfeiture benefits shall have the same coverage elements, eligibility, benefit triggers and benefit length as a policy or certificate issued without nonforfeiture benefits. The nonforfeiture benefit included in the offer shall be the benefit described in subsection (E); and
 2. The offer shall be in writing if the nonforfeiture benefit is not otherwise described in the Outline of Coverage or other materials given to the prospective policyholder.
- C. If the offer required to be made under A.R.S. § 20-1691.11 is rejected, the insurer shall provide the contingent benefit upon lapse described in this Section. Even if the non-forfeiture benefit offer is accepted for a policy with a fixed or limited premium paying period, the contingent benefit on lapse in subsection (D)(4) shall still apply.
- D. Contingent Benefit Upon Lapse.
 1. If a prospective policyholder rejects the offer of a nonforfeiture benefit, the insurer shall provide the contingent benefit upon lapse described in this Section for individual and group policies without the nonforfeiture benefit, issued after January 10, 2005.
 2. If a group policyholder elects to make the nonforfeiture benefit an option to a certificateholder, the certificate shall provide either the nonforfeiture benefit or the contingent benefit upon lapse.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- 3. The contingent benefit on lapse is triggered when:
 - a. An insurer increases the premium rates to a level that results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth in the chart below, based on the insured's issue age; and
 - b. The policy or certificate lapses within 120 days of the due date of the increased premium.
 - c. Unless otherwise required, an insurer shall notify policyholders at least 30 days before the due date of the premium reflecting the rate increase.

- a. An insurer increases the premium rates to a level that results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth in the chart below, based on the insured's issue age; and
- b. The policy or certificate lapses within 120 days of the due date of the increased premium; and
- c. The ratio in subsection (D)(6)(b) is 40% or more.

- e. This provision shall be in addition to the contingent benefit provided by subsection (D)(3) and where both are triggered, the benefit provided shall be at the option of the insured.
- 5. On or before the effective date of a substantial premium increase as defined in subsection (D)(3), an insurer shall:
 - a. Offer the insured the option of reducing policy benefits under the current coverage consistent with the requirements of R20-6-1025 so that required premium payments are not increased;
 - b. Offer to convert the coverage to a paid-up status with a shortened benefit period according to the terms of subsection (E), which the insured may elect at any time during the 120-day period referenced in subsection (D)(3); and
 - c. Notify the policyholder or certificateholder that a default or lapse at any time during the 120-day period referenced in subsection (D)(3) is deemed to be the election of the offer to convert under subsection (5)(b) unless the automatic option in subsection (D)(6)(c) applies.
- 6. On or before the effective date of a substantial premium increase on policies with a fixed or limited premium paying period as defined in subsection (D)(4), an insurer shall:
 - a. Offer the insured the option of reducing policy benefits under the current coverage consistent with the requirements of R20-6-1025 so that required premium payments are not increased;
 - b. Offer to convert the coverage to paid-up status where the amount payable for each benefit is 90% of the amount payable in effect immediately prior to lapse times the ratio of the number of completed months of paid premiums divided by the number of months in the premium paying period. The insured may elect this option at any time during the 120-day period referenced in subsection (D)(4); and
 - c. Notify the policyholder or certificateholder that a default or lapse at any time during the 120-day period referenced in subsection (D)(4) is deemed to be the election of the offer to convert under subsection (D)(6)(b) if the ratio is 40% or more.
- 7. For any long-term care policy issued on or after November 10, 2017, that an insurer issued at least 20 years prior to the effective date of a substantial premium increase,

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

the insurer shall use a rate increase value of 0% in place of all values in the above tables.

- E.** Benefits continued as nonforfeiture benefits, including contingent benefits upon lapse in accordance with subsection (D)(3) but not subsection (D)(4), mean any of the following:
1. Attained age rating is defined as a schedule of premiums starting from the issue date that increases age at least 1% per year before age 50, and at least 3% per year beyond age 50.
 2. For purposes of this subsection, the nonforfeiture benefit shall be of a shortened benefit period providing paid-up long-term care insurance coverage after lapse. The same benefits (amounts and frequency in effect at the time of lapse but not increased thereafter) will be payable for a qualifying claim, but the lifetime maximum dollars or days of benefits shall be determined as specified in subsection (E)(3).
 3. The standard nonforfeiture credit equals 100% of the sum of all premiums paid, including the premiums paid before any change in benefits. The insurer may offer additional shortened benefit period options, as long as the benefits for each duration equal or exceed the standard nonforfeiture credit for that duration. The minimum nonforfeiture credit shall not be less than 30 times the daily nursing home benefit at the time of lapse. In either event, the calculation of the nonforfeiture credit is subject to the limitation of subsection (F).
 4. When the nonforfeiture benefit begins.
 - a. The nonforfeiture benefit shall begin not later than the end of the third year following the policy or certificate issue date. The contingent benefit upon lapse shall be effective during the first three years, and thereafter.
 - b. Notwithstanding subsection (E)(4)(a), for a policy or certificate with attained age rating, the nonforfeiture benefit shall begin on the earlier of:
 - i. The end of the tenth year following the policy or certificate issue date, or
 - ii. The end of the second year following the date the policy or certificate is no longer subject to attained age rating.
 5. Nonforfeiture credits may be used for all care and services qualifying for benefits under the terms of the policy or certificate, up to the limits specified in the policy or certificate.
- F.** All benefits paid by the insurer while the policy or certificate is in premium-paying status and in the paid-up status shall not exceed the maximum benefits that would be payable if the policy or certificate had remained in premium-paying status.
- G.** There shall be no difference in the minimum nonforfeiture benefits for group and individual policies.
- H.** The requirements in this Section are effective on or after November 10, 2005 and shall apply as follows:
1. Except as provided in subsection (H)(2) and (H)(3), this Section applies to any long-term care policy issued in this state on or after January 10, 2005.
 2. The provisions of this Section do not apply to certificates issued on or after January 10, 2005, under a group long-term care insurance policy as defined in A.R.S. § 20-1691(5)(a), that was in force on January 10, 2005.
 3. The provisions of this Section that apply to fixed or limited premium paying period policies shall only apply to policies issued on or after November 10, 2017.
- I.** Premiums charged for a policy or certificate containing nonforfeiture benefits or a contingent benefit on lapse shall be subject to the loss ratio requirements of R20-6-1013, R20-6-

1014 or R20-6-1015, whichever is applicable, treating the policy as a whole.

- J.** To determine whether contingent nonforfeiture upon lapse provisions are triggered under subsection (D)(3) or (D)(4), a replacing insurer that purchased or otherwise assumed a block or blocks of long-term care insurance policies from another insurer shall calculate the percentage increase based on the initial annual premium the insured paid when first buying the policy from the original insurer.
- K.** An insurer shall offer a nonforfeiture benefit for a qualified long-term care insurance contract that is a level premium contract and the benefit shall meet the following requirements:
1. The nonforfeiture provision shall be separately captioned using the term "nonforfeiture benefit" or a substantially similar caption;
 2. The nonforfeiture provision shall provide a benefit available in the event of a default in the payment of any premiums and shall state that the insurer may adjust the amount of the benefit initially granted only as needed to reflect changes in claims, persistency, and interest as reflected in changes in rates for premium paying contracts approved by the Director under to A.R.S. § 20-1691.08 for the same contract form; and
 3. The nonforfeiture provision shall provide at least one of the following:
 - a. Reduced paid-up premiums,
 - b. Extended term insurance,
 - c. Shortened benefit period, or
 - d. Other similar offerings that the Director has approved.

New Section made by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1020. Standards for Benefit Triggers

- A.** A long-term care insurance policy shall condition the payment of benefits on a determination of the insured's ability to perform activities of daily living and on cognitive impairment. Except as otherwise provided in R20-6-1021, eligibility for the payment of benefits shall not be more restrictive than requiring either a deficiency in the ability to perform not more than three of the activities of daily living or the presence of cognitive impairment.
- B.** Activities of daily living shall include at least the following as defined in R20-6-1003(A)(1) and in the policy:
1. Bathing,
 2. Continence,
 3. Dressing,
 4. Eating,
 5. Toileting, and
 6. Transferring.
- C.** An insurer may use additional activities of daily living to trigger covered benefits if the activities are defined in the policy.
- D.** An insurer may use additional provisions to determine when benefits are payable under a policy or certificate; however the provisions shall not restrict, and are not in lieu of, the requirements in subsections (A), (B) and (C).
- E.** For purposes of this Section the determination of a deficiency shall not be more restrictive than:
1. Requiring the hands-on assistance of another person to perform the prescribed activities of daily living; or
 2. If the deficiency is due to the presence of a cognitive impairment, requiring supervision or verbal cueing by another person to protect the insured or others.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- F. Licensed or certified professionals, such as physicians, nurses or social workers, shall perform assessments of activities of daily living and cognitive impairment.
- G. The requirements in this Section are effective on and after November 10, 2005 and shall apply as follows:
1. Except as provided in subsection (G)(2), the provisions of this Section apply to a long-term care policy issued in this state on or after January 10, 2005.
 2. The provisions of this Section do not apply to certificates issued on or after January 10, 2005, under a long-term care insurance policy issued to a group as defined in A.R.S. § 20-1691(5)(a), which policy was in force on January 10, 2005.

The notice shall be provided within 12 months of the date the new policy series is made available for sale in this state.
- B. Notwithstanding subsection (A), notification is not required for any policy issued prior to the effective date of this Section or to any policyholder or certificateholder who is currently eligible for benefits, within an elimination period or on a claim, or who previously had been in claim status, or who would not be eligible to apply for coverage due to issue age limitations under the new policy. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the required premium to add such new services or providers.
- C. The insurer shall make the new coverage available in one of the following ways:
1. By adding a rider to the existing policy and charging a separate premium for the new rider based on the insured's attained age;
 2. The premium credits shall be based on premiums paid or reserves held for the prior policy or certificate;
 3. By exchanging the existing policy or certificate for a new policy or certificate in which consideration for past insured status shall be recognized by setting the premium for the new policy or certificate at the issue age of the policy or certificate being exchanged. 4. By an alternative program developed by the insurer that meets the intent of this Section if the program is filed with and approved by the Director.

For purposes of this subsection, "limited distribution channel" means through a discrete entity, such as a financial institution or brokerage, for which specialized products are available that are not available for sale to the general public. Policyholders who purchased such a new proprietary policy shall be notified when a new long-term care policy series that provides coverage for new long-term care services or providers material in nature is made available to that limited distribution channel.
- E.** Policies issued pursuant to this Section shall be considered exchanges and not replacements. These exchanges shall not be subject to R20-6-1010(A), (C) through (G) and R20-6-1018 and are not subject to the reporting requirements of R20-6-1010(I)(1), (I)(2)(a) through (I)(2)(c).
- F.** Where an employer, labor organization, professional, trade or occupational association offers the policy, the required notification in subsection (A) shall be made to the offering entity. However, if the policy is issued to a group defined in A.R.S. § 20-1691(5), the notification shall be to each certificateholder.
- G.** Nothing in this Section shall prohibit an insurer from offering any policy, rider, certificate or coverage change to any policyholder or certificateholder. However, upon request, any policyholder may apply for currently available coverage that includes the new services or providers. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the required premium, to add such new services or providers.
- H.** This Section does not apply to life insurance policies or riders containing accelerated long-term care benefits.
- I.** This Section shall become effective on or after November 10, 2017.

- D.** The provision in subsection (A) shall include a description of the process for requesting and implementing a reduction in coverage.
- E.** The premium for the reduced coverage shall:
1. Be based on the same age and underwriting class used to determine the premium for the coverage currently in force, and
 2. Be consistent with the approved rate table.
- F.** The issuer may limit any reduction in coverage to plans or options available for that policy form and to those for which benefits will be available after consideration of claims paid or payable.

Appendix A. Long-term Care Insurance Personal Worksheet

Long-term Care Insurance
Personal Worksheet

People buy long-term care insurance for many reasons. Some don't want to use their own assets to pay for long-term care. Some buy insurance to make sure they can choose the type of care they get. Others don't want their family to have to pay for care or don't want to go on Medicaid. But long-term care insurance may be expensive, and may not be right for everyone.

By state law, the insurance company must fill out part of the information on this worksheet and ask you to fill out the rest to help you and the company decide if you should buy this policy.

Premium Information

Policy Form Numbers _____

The premium for the coverage you are considering will be [\$_____ per month, or \$_____ per year,] [a one-time single premium of \$_____.]

Type of Policy (noncancellable/guaranteed renewable): _____

The Company's Right to Increase Premiums: _____

[The company cannot raise your rates on this policy.] [The company has a right to increase premiums on this policy form in the future, provided it raises rates for all policies in the same class in this state.] [Insurers shall use appropriate bracketed statement. Rate guarantees shall not be shown on this form.]

Following is a summary of the rate increases.]

(Drafting Instruction: A company may use the first bracketed sentence above only if it has never increased rates under any prior policy forms in this state or any other state. The issuer shall list each premium increase it has instituted on this or similar policy forms in this state or any other state during the last 10 years. The list shall provide the policy form, the calendar years the form was available for sale, and the calendar year and the amount (percentage) of each increase. The insurer shall provide minimum and maximum percentages if the rate increase is variable by rating characteristics. The insurer may provide, in a fair manner, additional explanatory information as appropriate.)

How do you expect your income to change over the next 10 years? (check one)

Will you buy inflation protection? (check one) Yes No

If not, have you considered how you will pay for the difference between future costs and your daily benefit amount?

From my Income From my Savings/Investments My Family will Pay

The national average annual cost of care in [insert year] was [insert \$ amount], but this figure varies across the country. In ten years the national average annual cost would be about [insert \$ amount] if costs increase 5% annually.

(Drafting Instruction: The projected cost can be based on federal estimates in a current year. In the above statement, the second figure equals 163% of the first figure.)

What elimination period are you considering? Number of days _____ Approximate cost \$ _____ for that period of care.

Appendix B. Long-term Care Insurance Potential Rate Increase Disclosure Form

Instructions:

This form provides information to the applicant regarding premium rate schedules, rate schedule adjustments, potential rate revisions, and policyholder options in the event of a rate increase.

Insurers shall provide all of the following information to the applicant:

**Long-term Care Insurance
Potential Rate Increase Disclosure Form**

1. **[Premium Rate] [Premium Rate Schedules]:** [Premium rate] [Premium rate schedules] that [is][are] applicable to you and that will be in effect until a request is made and [approved] for an increase [is][are] [on the application][(\$_____)]
2. **The [premium] [premium rate schedule] for this policy [will be shown on the schedule page of] [will be attached to] your policy.**

3. **Rate Schedule Adjustments:**

The company will provide a description of when premium rate or rate schedule adjustments will be effective (e.g., next anniversary date, next billing date, etc.) (fill in the blank): _____.

4. **Potential Rate Revisions:**

This policy is Guaranteed Renewable. This means that the rates for this product may be increased in the future. Your rates can NOT be increased due to your increasing age or declining health, but your rates may go up based on the experience of all policyholders with a policy similar to yours.

If you receive a premium rate or premium rate schedule increase in the future, you will be notified of the new premium amount and you will be able to exercise at least one of the following options:

- Pay the increased premium and continue your policy in force as is.
- Reduce your policy benefits to a level such that your premiums will not increase. (Subject to state law minimum standards.)
- Exercise your nonforfeiture option if purchased. (This option is available for purchase for an additional premium.)
- Exercise your contingent nonforfeiture rights.* (This option may be available if you do not purchase a separate nonforfeiture option.)

***Contingent Nonforfeiture**

If the premium rate for your policy goes up in the future and you didn't buy a nonforfeiture option, you may be eligible for contingent nonforfeiture. Here's how to tell if you are eligible:

You will keep some long-term care insurance coverage, if:

- Your premium after the increase exceeds your original premium by the percentage shown (or more) in the following table; and
- You lapse (not pay more premiums) within 120 days of the increase.

The amount of coverage (i.e., new lifetime maximum benefit amount) you will keep will equal the total amount of premiums you have paid since your policy was first issued. If you have already received benefits under the policy, so that the remaining maximum benefit amount is less than the total amount of premiums you've paid, the amount of coverage will be that remaining amount.

Except for this reduced lifetime maximum benefit amount, all other policy benefits will remain at the levels attained at the time of the lapse and will not increase thereafter.

Should you choose this Contingent Nonforfeiture option, your policy, with this reduced maximum benefit amount, will be considered "paid-up" with no further premiums due.

Example:

- You bought the policy at age 65 and paid the \$1,000 annual premium for 10 years, so you have paid a total of \$10,000 in premium.
- In the eleventh year, you receive a rate increase of 50%, or \$500 for a new annual premium of \$1,500, and you decide to lapse the policy (not pay any more premiums).
- Your "paid-up" policy benefits are \$10,000 (provided you have a least \$10,000 of benefits remaining under your policy.)

Appendix C. Notice to Applicant Regarding Replacement of Individual Health or Long-term Care Insurance

NOTICE TO APPLICANT REGARDING REPLACEMENT OF INDIVIDUAL HEALTH OR LONG-TERM CARE INSURANCE

[Insurance company’s name and address]

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE.

According to [your application] [information you have furnished], you intend to lapse or otherwise terminate existing health or long-term care insurance and replace it with an individual long-term care insurance policy to be issued by [company name] Insurance Company. Your new policy provides thirty (30) days within which you may decide, without cost, whether you desire to keep the policy. For your own information and protection, you should be aware of and seriously consider certain factors which may affect the insurance protection available to you under the new policy.

You should review this new coverage carefully, comparing it with all health or long-term care insurance coverage you now have, and terminate your present policy only if, after due consideration, you find that purchase of this long-term care coverage is a wise decision.

STATEMENT TO APPLICANT BY [INSURANCE PRODUCER OR OTHER REPRESENTATIVE]:

Use additional sheets, as necessary.)

I have reviewed your current medical or health insurance coverage. I believe the replacement of insurance involved in this transaction materially improves your position. My conclusion has taken into account the following considerations which I call to your attention:

1. Health conditions that you may presently have (preexisting conditions), may not be immediately or fully covered under your new policy. This could result in denial or delay in payment of benefits under the new policy, whereas a similar claim might have been payable under your present policy.
2. State law provides that your replacement policy or certificate may not contain new preexisting conditions or probationary periods. The insurer will waive any time periods applicable to preexisting conditions or probationary periods in the new policy (or coverage) for similar benefits to the extent such time was spent (depleted) under the original policy.
3. If you are replacing existing long-term care insurance coverage, you may wish to secure the advice of your present insurer or its agent regarding the proposed replacement of your present policy. This is not only your right, but it is also in your best interest to make sure you understand all of the relevant factors involved in replacing your present coverage.
4. If, after due consideration, you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before you sign it, reread it carefully to be certain that all information has been properly recorded.

Appendix H. Things You Should Know Before You Buy Long-term Care Insurance

**Things You Should Know Before You Buy
Long-term Care Insurance**

**Long-Term
Care
Insurance**

- A long-term care insurance policy may pay most of the costs for your care in a nursing home. Many policies also pay for care at home or other community settings. Since policies can vary in coverage, you should read this policy and make sure you understand what it covers before you buy it.

- **[WARNING! You should *not* buy this insurance policy unless you can afford to pay the premiums every year. You are making a multi-year financial commitment.]** [Remember that the company can increase premiums in the future.]

(Drafting Instruction: For single premium policies, delete this bullet; for noncancellable policies, delete the second sentence only.)

- The personal worksheet includes questions designed to help you and the company determine whether this policy is suitable for your needs.

Medicare

- Medicare does **not** pay for most long-term care.

Medicaid

- Medicaid will generally pay for long-term care if you have very little income and few assets. You probably should not buy this policy if you are now eligible for Medicaid.

- Many people become eligible for Medicaid after they have used up their own financial resources by paying for long-term care services.

- When Medicaid pays your spouse's nursing home bills, you are allowed to keep your house and furniture, a living allowance, and some of your joint assets.

- Your choice of long-term care services may be limited if you are receiving Medicaid. To learn more about Medicaid, contact your local or state Medicaid agency.

**Shopper's
Guide**

- Make sure the insurance company or agent gives you a copy of a book called the National Association of Insurance Commissioners' "Shopper's Guide to Long-Term Care Insurance." Read it carefully. If you have decided to apply for long-term care insurance, you have the right to return the policy within 30 days and get back any premium you have paid if you are dissatisfied for any reason or choose not to purchase the policy.

Counseling

- Free counseling and additional information about long-term care insurance are available through your state's insurance counseling program. Contact your state insurance department or department on aging for more information about the senior health insurance counseling program in your state.

Facilities

- Some long-term care insurance contracts provide for benefit payments in certain facilities only if they are licensed or certified, such as in assisted living centers. However, not all states regulate these facilities in the same way. Also, many people move into a different state from where they purchased their long-term care insurance policy. Read the policy carefully to determine what types of facilities qualify for benefit payments and to determine that payment for a covered service will be made if you move to a state that has a different licensing scheme for facilities than the one in which you purchased the policy.

Appendix I. Long-term Care Insurance Suitability Letter

Long-term Care Insurance Suitability Letter

Dear [Applicant]:

Your recent application for long-term care insurance included a "personal worksheet," which asked questions about your finances and your reasons for buying long-term care insurance. For your protection, state law requires us to consider this information when we review your application, to avoid selling a policy to those who may not need coverage.

[Your answers indicate that long-term care insurance may not meet your financial needs. We suggest that you review the information provided along with your application, including the booklet "Shopper's Guide to Long-Term Care Insurance" and the page titled "Things You Should Know Before Buying Long-Term Care Insurance." Your state insurance department also has information about long-term care insurance and may be able to refer you to a counselor free of charge who can help you decide whether to buy this policy.]

[You chose not to provide any financial information for us to review.]

(Drafting Instruction: Choose the paragraph that applies.)

We have suspended our final review of your application. If, after careful consideration, you still believe this policy is what you want, check the appropriate box below and return this letter to us within the next 60 days. We will then continue reviewing your application and issue a policy if you meet our medical standards.

If we do not hear from you within the next 60 days, we will close your file and not issue you a policy. You should understand that you will not have any coverage until we hear back from you, approve your application and issue you a policy.

Please check one box and return in the enclosed envelope.

- Yes,** [although my worksheet indicates that long-term care insurance may not be a suitable purchase,] I wish to purchase this coverage. Please resume review of my application.

Drafting Instruction: Delete the phrase in brackets if the applicant did not answer the questions about income.

Therefore, if you purchase this coverage, or any other coverage, it is important that you READ YOUR POLICY (OR CERTIFICATE) CAREFULLY!

 - (2) [Policies and certificates that are noncancellable shall contain the following statement:] RENEWABILITY: THIS POLICY [CERTIFICATE] IS NONCANCELLABLE. This means that you have the right, subject to the terms of your policy, to continue this policy as long as you pay your premiums on time. [Company Name] cannot change any of the terms of your policy on its own and cannot change the premium you currently pay. However, if your policy contains an inflation protection feature where you choose to increase your benefits, [Company Name] may increase your premium at that time for those additional benefits.

Policies of this category are designed to provide coverage for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute-care unit of a hospital, such as in a nursing home, in the community or in the home.
 This policy provides coverage in the form of a fixed dollar indemnity benefit for covered long-term care expenses, subject to policy [limitations] [waiting periods] and [coinsurance] requirements. [Modify this paragraph if the policy is not an indemnity policy.]
9. BENEFITS PROVIDED BY THIS POLICY.

THIS POLICY MAY NOT COVER ALL THE EXPENSES ASSOCIATED WITH YOUR LONG-TERM CARE NEEDS.

11. RELATIONSHIP OF COST OF CARE AND BENEFITS. Because the costs of long-term care services will likely increase over time, you should consider whether and how the benefits of this plan may be adjusted. [As applicable, indicate the following:

- (a) That the benefit level will not increase over time;
- (b) Any automatic benefit adjustment provisions;
- (c) Whether the insured will be guaranteed the option to buy additional benefits and the basis upon which benefits will be increased over time if not by a specified amount or percentage;
- (d) If there is such a guarantee, include whether additional underwriting or health screening will be required, the frequency and amounts of the upgrade options, and any significant restrictions or limitations;
- (e) Describe whether there will be any additional premium charge imposed, and how that is to be calculated.]

12. ALZHEIMER'S DISEASE AND OTHER ORGANIC BRAIN DISORDERS.

AIDS-related conditions or tested positive for the presence of HIV antibodies, antigens, or the virus. No adverse underwriting decision shall be made on the basis of any prior positive HIV-related test or tests unless the insurer has verified that the prior test(s) consisted of both a positive screening test such as enzyme-linked immunoassay (ELISA) and a positive supplemental test such as a Western Blot. All such tests used shall be approved and licensed by the Food and Drug Administration and conducted in accordance with the manufacturer's directions for use, including but not limited to the manufacturers' specified interpretation of positivity.

No adverse underwriting decision shall be made on the basis of a positive result to an HIV-related test unless the result consists of both a positive screening test such as enzyme-linked immunoassay (ELISA) and a positive supplemental test such as a Western Blot. All such tests used shall be approved and licensed by the Food and Drug Administration and conducted in accordance with the manufacturers' directions for use, including but not limited to the manufacturers' specified interpretation of positivity.
- B. If an applicant is requested to take an HIV-related test in connection with an application for a life or disability insurance policy or a health care plan, the insurer shall reveal the use of such test to the applicant and shall obtain the written consent of the applicant prior to the administration of such test. The insurer shall allow the applicant up to 10 days within which to decide whether or not to sign the consent form, and no adverse underwriting decision may be made on the basis of the applicant's delay during this time period. Insurers need not provide pretest counseling to applicants but shall advise applicants of the availability of counseling in accordance with subsection (C) of this rule.
- C. The written consent form, which shall be approved by the Director in advance of its use, shall contain the following information:
 - 1. Purpose of the consent form. The form shall contain a clear disclosure that the test to be performed is a test for the presence of HIV antibodies, antigens, or the virus, and that underwriting decisions will be based on the results of such test. The form shall further provide notice of a period of not less than 10 days during which the applicant may decide whether or not to sign the form, along with a disclosure that the applicant's refusal to be tested may be used as a reason to deny coverage.
 - 2. Information on HIV. The form shall provide clear, concise, and accurate information on how the disease is spread and what behavior places persons at risk of contracting the virus.
 - 3. Pretest counseling considerations. The written consent form shall contain information advising the applicant that counseling is recommended by many public health organizations and that the applicant may obtain such counseling at the applicant's own expense. The form shall contain current information as provided by the Department regarding the availability in Arizona of free confidential or anonymous counseling through county health departments and through other governmental or government-funded agencies.

5. Meaning of positive test results. The form shall advise the applicant of the type of test (including but not limited to antibody, antigen, or viral culture) to be used, and that a positive test result indicates that the applicant has been infected with HIV but does not necessarily have AIDS. The form shall explain that a positive test result will adversely affect the application for insurance.
6. Consent. The consent form shall contain an attestation to be signed by the applicant or, if the applicant lacks legal capacity to consent, a person authorized pursuant to law to consent on behalf of the applicant, that he or she has read and understands the written consent form and voluntarily consents to the performance of a test for HIV and to the disclosure of the test results as described in the consent form. The applicant or the applicant's legal representative shall have the right to request and receive a copy of the written consent form. A photocopy of the form shall be as valid as the original.
7. Optional release of information to personal physician. In addition to the release of information to the insurer provided in the consent form, the applicant may, at the applicant's option, consent to the release of information to the applicant's personal physician. The consent form shall specify the time period during which any and all release provisions of the consent form shall be effective, but in no case shall such time period exceed 180 days from the date the consent form is signed by the applicant or the applicant's legal representative. No HIV-related information shall be released to any person after the expiration of that time period unless the insurer obtains the express written consent, pursuant to R20-6-1204, of the applicant or, if the applicant lacks legal capacity to consent, by a person authorized by law to consent on behalf of the applicant.

The applicant or the applicant's legal representative shall be entitled to receive a copy of the release. A photocopy shall be as valid as the original.
- B. Such written release form shall contain the following information:
 1. The name and address of the person to whom the information shall be disclosed;

2. The specific purpose for which disclosure is to be made; and
3. The time period during which the written release is to be effective but in no case shall such time period exceed 180 days from the date the release is signed by the applicant or the applicant's legal representative;

In comparing the surplus maintained by other insurers, the Director will consider the extent to which each of these factors varies from company to company and in determining the quality and liquidity of investments in subsidiaries, the Director will consider the individual subsidiary and may discount or disallow its valuation to the extent that the individual investments so warrant.

 2. File with the Director a certified copy of a certificate of authority or other acceptable evidence that it is licensed to transact insurance or reinsurance in at least one state, or, in the case of a U.S. branch of an alien assuming insurer, is entered through and licensed to transact insurance or reinsurance in at least one state;

New Section R20-6-A1603 renumbered from R20-6-1603 and amended by final rulemaking at 28 A.A.R. 493 (March 4, 2022), effective April 9, 2022 (Supp. 22-1).

R20-6-A1604. Credit for Reinsurance – Reinsurers Maintaining Trust Funds

- A. Pursuant to A.R.S. § 20-3602(F) and (F)(1), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer which, as of any date on which statutory financial statement credit for reinsurance is claimed, and thereafter for so long as credit for reinsurance is claimed, maintains a trust fund in an amount prescribed below in a qualified U.S. financial institution as defined in A.R.S. § 20-3601 for the payment of the valid claims of its U.S. domiciled ceding insurers, their assigns and successors in interest. The assuming insurer shall report annually to the Director substantially the same information as that required to be reported on the National Association of Insurance Commissioners (NAIC) annual statement form by licensed insurers, to enable the Director to determine the sufficiency of the trust fund.
- B. The following requirements apply to the following categories of assuming insurer:
1. The trust fund for a single assuming insurer shall consist of funds in trust in an amount not less than the assuming insurer's liabilities attributable to reinsurance ceded by U.S. domiciled insurers, and in addition, the assuming insurer shall maintain a trustee surplus of not less than \$20 million, except as provided in subsection (B)(2).
 2. At any time after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least three full years, the commissioner with principal regulatory oversight of the trust may authorize a reduction in the required trustee surplus, but only after a finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of U.S. ceding insurers, policyholders and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and shall consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trustee surplus may not be reduced to an amount less than 30% of the assuming

3. The trust fund for a group including incorporated and individual unincorporated underwriters:
 - a. Shall consist of:
 - i. For reinsurance ceded under reinsurance agreements with an inception, amendment or renewal date on or after January 1, 1993, funds in trust in an amount not less than the respective underwriters' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any underwriter of the group;
 - ii. For reinsurance ceded under reinsurance agreements with an inception date on or before December 31, 1992, and not amended or renewed after that date, notwithstanding the other provisions of this Part, funds in trust in an amount not less than the respective underwriters' several insurance and reinsurance liabilities attributable to business written in the United States; and
 - iii. In addition to these trusts, the group shall maintain a trustee surplus of which \$100 million shall be held jointly for the benefit of the U.S. domiciled ceding insurers of any member of the group for all the years of account.
 - b. The incorporated members of the group shall not be engaged in any business other than underwriting as a member of the group and shall be subject to the same level of regulation and solvency control by the group's domiciliary regulator as are the unincorporated members. The group shall, within 90 days after its financial statements are due to be filed with the group's domiciliary regulator, provide to the Director:
 - i. An annual certification by the group's domiciliary regulator of the solvency of each underwriter member of the group; or
 - ii. If a certification is unavailable, a financial statement, prepared by independent public accountants, of each underwriter member of the group.
 4. The trust fund for a group of incorporated insurers under common administration, whose members possess aggregate policyholders surplus of \$10 billion (calculated and reported in substantially the same manner as prescribed by the annual statement instructions and Accounting Practices and Procedures Manual of the NAIC) and which has continuously transacted an insurance business outside the United States for at least three years immediately prior to making application for accreditation, shall:
 - a. Consist of funds in trust in an amount no less than the assuming insurers' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any members of the group pursuant to reinsurance contracts issued in the name of such group;
 - b. Maintain a joint trustee surplus of which \$100 million shall be held jointly for the benefit of U.S. domiciled ceding insurers of any member of the group; and
 - c. File a properly executed Form AR-1 (Exhibit A) as evidence of the submission to the Director's authority to examine the books and records of any of its members and shall certify that any member examined will bear the expense of any such examination.
 - d. Within 90 days after the statements are due to be filed with the group's domiciliary regulator, the group shall file with the Director an annual certification of each underwriter member's solvency by the member's domiciliary regulators, and financial statements, prepared by independent public accountants, of each underwriter member of the group.
- C. Credit for reinsurance shall not be granted unless the form of the trust and any amendments to the trust have been approved by either the commissioner of the state where the trust is domiciled or the commissioner of another state who, pursuant to the terms of the trust instrument, has accepted responsibility for regulatory oversight of the trust. The form of the trust and any trust amendments also shall be filed with the commissioner of every state in which the ceding insurer beneficiaries of the trust are domiciled.
1. The trust instrument shall provide that:
 - a. Contested claims shall be valid and enforceable out of funds in trust to the extent remaining unsatisfied 30 days after entry of the final order of any court of competent jurisdiction in the United States;
 - b. Legal title to the assets of the trust shall be vested in the trustee for the benefit of the grantor's U.S. ceding insurers, their assigns and successors in interest;

 - e. No later than February 28 of each year the trustee of the trust shall report to the commissioner in writing setting forth the balance in the trust and listing the trust's investments at the preceding year-end, and shall certify the date of termination of the trust, if so planned, or certify that the trust shall not expire prior to the following December 31.
 2. Notwithstanding any other provisions in the trust instrument:
 - a. If the trust fund is inadequate because it contains an amount less than the amount required by this Section or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation, or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner with regulatory oversight over the trust or other designated receiver all of the assets of the trust fund.
 - b. The assets shall be distributed by and claims shall be filed with and valued by the commissioner with regulatory oversight over the trust in accordance with the laws of the state in which the trust is domiciled applicable to the liquidation of domestic insurance companies.
 - c. If the commissioner with regulatory oversight over the trust determines that the assets of the trust fund or any part thereof are not necessary to satisfy the claims of the U.S. beneficiaries of the trust, the commissioner with regulatory oversight over the trust shall return the assets, or any part thereof, to the trustee for distribution in accordance with the trust agreement.

Historical Note

New Section R20-6-A1604 renumbered from R20-6-1604 and amended by final rulemaking at 28 A.A.R. 493 (March 4, 2022), effective April 9, 2022; the redundant phrase “of this Section” was removed when followed by a subsection reference (Supp. 22-1).

R20-6-A1605. Credit for Reinsurance – Certified Reinsurers

A. Pursuant to A.R.S. §§ 20-3602(G), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that has been certified as a reinsurer in Arizona at all times for which statutory financial statement credit for reinsurance is claimed under this Section. The credit allowed shall be based upon the security held by or on behalf of the ceding insurer in accordance with a rating assigned to the certified reinsurer by the Director. The security shall be in a form consistent with the provisions of A.R.S. §§ 20-3602(G), and 20-3603 and R20-6-A1608 or R20-6-A1609(A). The amount of security required in order for full credit to be allowed shall correspond with the following requirements:

- | | | |
|----|-----------------|-------------------|
| 1. | Ratings | Security Required |
| | a. Secure-1 | 0% |
| | b. Secure-2 | 10% |
| | c. Secure-3 | 20% |
| | d. Secure-4 | 50% |
| | e. Secure-5 | 75% |
| | f. Vulnerable-6 | 100% |
2. Affiliated reinsurance transactions shall receive the same opportunity for reduced security requirements as all other reinsurance transactions.
 3. The Director shall require the certified reinsurer to post 100%, for the benefit of the ceding insurer or its estate, security upon the entry of an order of rehabilitation, liquidation, or conservation against the ceding insurer.
 4. In order to facilitate the prompt payment of claims, a certified reinsurer shall not be required to post security for catastrophe recoverables for a period of one year from the date of the first instance of a liability reserve entry by the ceding company as a result of a loss from a catastrophic occurrence as recognized by the Director. The one year deferral period is contingent upon the certified reinsurer continuing to pay claims in a timely manner. Reinsurance recoverables for only the following lines of business as reported on the NAIC annual financial statement related specifically to the catastrophic occurrence will be included in the deferral:
 - a. Line 1: Fire
 - b. Line 2: Allied Lines
 - c. Line 3: Farmowners multiple peril
 - d. Line 4: Homeowners multiple peril
 - e. Line 5: Commercial multiple peril

 - h. Line 21: Auto physical damage
 5. Credit for reinsurance under this Section shall apply only to reinsurance contracts entered into or renewed on or after the effective date of the certification of the assuming insurer. Any reinsurance contract entered into prior to the effective date of the certification of the assuming insurer that is subsequently amended after the effective date of the certification of the assuming insurer, or a new reinsurance contract covering any risk for which collateral was provided previously, shall only be subject to this Section

with respect to losses incurred and reserves reported from and after the effective date of the amendment or new contract.

6. Nothing in this Section shall prohibit the parties to a reinsurance agreement from agreeing to provisions establishing security requirements that exceed the minimum security requirements established for certified reinsurers under this Section.
- B. Certification Procedure.**
1. The Director shall post notice on the insurance department’s website promptly upon receipt of any application for certification, including instructions on how members of the public may respond to the application. The Director may not take final action on the application until at least 30 days after posting the notice required by this subsection (B)(1).
 2. The Director shall issue written notice to an assuming insurer that has made application and been approved as a certified reinsurer. Included in such notice shall be the rating assigned the certified reinsurer in accordance with subsection (A). The Director shall publish a list of all certified reinsurers and their ratings.
 3. In order to be eligible for certification, the assuming insurer shall meet the following requirements:
 - a. The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a Qualified Jurisdiction, as determined by the Director pursuant to subsection (C).
 - b. The assuming insurer must maintain capital and surplus, or its equivalent, of no less than \$250 million calculated in accordance with subsection (B)(4)(h). This requirement may also be satisfied by an association including incorporated and individual unincorporated underwriters having minimum capital and surplus equivalents (net of liabilities) of at least \$250 million and a central fund containing a balance of at least \$250 million.
 - c. The assuming insurer must maintain financial strength ratings from two or more rating agencies deemed acceptable by the Director. These ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information. These financial strength ratings will be one factor used by the Director in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies include the following:
 - i. Standard & Poor’s;
 - ii. Moody’s Investors Service;
 - iii. Fitch Ratings;
 - iv. A.M. Best Company; or
 - v. Any other Nationally Recognized Statistical Rating Organization.
 - d. The certified reinsurer must comply with any other requirements reasonably imposed by the Director.
 4. Each certified reinsurer shall be rated on a legal entity basis, with due consideration being given to the group rating where appropriate, except that an association including incorporated and individual unincorporated underwriters that has been approved to do business as a single certified reinsurer may be evaluated on the basis of its group rating. Factors that may be considered as part of the evaluation process include, but are not limited to, the following:
 - a. The certified reinsurer’s financial strength rating from an acceptable rating agency. The maximum

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- rating that a certified reinsurer may be assigned will correspond to its financial strength rating as outlined in the Table 1. The Director shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two financial strength ratings from acceptable rating agencies will result in loss of eligibility for certification as outlined in Table 1.
- b. The business practices of the certified reinsurer in dealing with its ceding insurers, including its record of compliance with reinsurance contractual terms and obligations;
 - c. For certified reinsurers domiciled in the U.S., a review of the most recent applicable NAIC Annual Statement Blank, either Schedule F (for property/casualty reinsurers) or Schedule S (for life and health reinsurers);
 - d. For certified reinsurers not domiciled in the U.S., a review annually of Form CR-F (instructions attached as Exhibit C) for property/casualty reinsurers or Form CR-S (instructions attached as Exhibit D) for life and health reinsurers;
 - e. The reputation of the certified reinsurer for prompt payment of claims under reinsurance agreements, based on an analysis of ceding insurers' Schedule F reporting of overdue reinsurance recoverables, including the proportion of obligations that are more than 90 days past due or are in dispute, with specific attention given to obligations payable to companies that are in administrative supervision or receivership;
 - f. Regulatory actions against the certified reinsurer;
 - g. The report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in subsection (B)(4)(h);
 - h. For certified reinsurers not domiciled in the U.S., audited financial statements, regulatory filings, and actuarial opinion (as filed with the non-U.S. jurisdiction supervisor, with a translation into English). Upon the initial application for certification, the Director will consider audited financial statements for the last two years filed with its non-U.S. jurisdiction supervisor;
 - i. The liquidation priority of obligations to a ceding insurer in the certified reinsurer's domiciliary jurisdiction in the context of an insolvency proceeding;
 - j. A certified reinsurer's participation in any solvent scheme of arrangement, or similar procedure, which involves U.S. ceding insurers. The Director shall receive prior notice from a certified reinsurer that proposes participation by the certified reinsurer in a solvent scheme of arrangement; and
 - k. Any other information deemed relevant by the Director.
5. Based on the analysis conducted under subsection (B)(4)(e) of a certified reinsurer's reputation for prompt payment of claims, the Director may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to U.S. ceding insurers, provided that the Director shall, at a minimum, increase the security the certified reinsurer is required to post by one rating level under subsection (B)(4)(a) if the Director finds that:
 - a. More than 15% of the certified reinsurer's ceding insurance clients have overdue reinsurance recoverables on paid losses of 90 days or more which are not in dispute and which exceed \$100 thousand for each cedent; or
 - b. The aggregate amount of reinsurance recoverables on paid losses which are not in dispute that are overdue by 90 days or more exceeds \$50 million.
 6. The assuming insurer must submit a properly executed Form CR-1 (attached as Exhibit B) as evidence of its submission to the jurisdiction of Arizona, appointment of the Director as an agent for service of process in Arizona, and agreement to provide security for 100% of the assuming insurer's liabilities attributable to reinsurance ceded by U.S. ceding insurers if it resists enforcement of a final U.S. judgment. The Director shall not certify any assuming insurer that is domiciled in a jurisdiction that the Director has determined does not adequately and promptly enforce final U.S. judgments or arbitration awards.
 7. The certified reinsurer must agree to meet applicable information filing requirements as determined by the Director, both with respect to an initial application for certification and on an ongoing basis. All information submitted by certified reinsurers which are not otherwise public information subject to disclosure shall be exempted from disclosure under A.R.S. § 20-158 and shall be withheld from public disclosure. The applicable information filing requirements are, as follows:
 - a. Notification within ten days of any regulatory actions taken against the certified reinsurer, any change in the provisions of its domiciliary license or any change in rating by an approved rating agency, including a statement describing such changes and the reasons therefore;
 - b. Annually, Form CR-F or CR-S, as applicable;
 - c. Annually, the report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in subsection (B)(7)(d);
 - d. Annually, the most recent audited financial statements, regulatory filings, and actuarial opinion (as filed with the certified reinsurer's supervisor, with a translation into English). Upon the initial certification, audited financial statements for the last two years filed with the certified reinsurer's supervisor;
 - e. At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers;
 - f. A certification from the certified reinsurer's domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction's highest regulatory action level; and
 - g. Any other information that the Director may reasonably require.
 8. Change in Rating or Revocation of Certification.
 - a. In the case of a downgrade by a rating agency or other disqualifying circumstance, the Director shall upon written notice assign a new rating to the certified reinsurer in accordance with the requirements of subsection (B)(4)(a).
 - b. The Director shall have the authority to suspend, revoke, or otherwise modify a certified reinsurer's certification at any time if the certified reinsurer fails to meet its obligations or security requirements under this Section, or if other financial or operating results of the certified reinsurer, or documented significant delays in payment by the certified reinsurer, lead the Director to reconsider the certified rein-

- surer's ability or willingness to meet its contractual obligations.
- c. If the rating of a certified reinsurer is upgraded by the Director, the certified reinsurer may meet the security requirements applicable to its new rating on a prospective basis, but the Director shall require the certified reinsurer to post security under the previously applicable security requirements as to all contracts in force on or before the effective date of the upgraded rating. If the rating of a certified reinsurer is downgraded by the Director, the Director shall require the certified reinsurer to meet the security requirements applicable to its new rating for all business it has assumed as a certified reinsurer.
 - d. Upon revocation of the certification of a certified reinsurer by the Director, the assuming insurer shall be required to post security in accordance with R20-6-A1607 in order for the ceding insurer to continue to take credit for reinsurance ceded to the assuming insurer. If funds continue to be held in trust in accordance with R20-6-A1604, the Director may allow additional credit equal to the ceding insurer's pro rata share of such funds, discounted to reflect the risk of uncollectibility and anticipated expenses of trust administration. Notwithstanding the change of a certified reinsurer's rating or revocation of its certification, a domestic insurer that has ceded reinsurance to that certified reinsurer may not be denied credit for reinsurance for a period of three months for all reinsurance ceded to that certified reinsurer, unless the reinsurance is found by the Director to be at high risk of uncollectibility.
- C. Qualified Jurisdictions.**
1. If, upon conducting an evaluation under this Section with respect to the reinsurance supervisory system of any non-U.S. assuming insurer, the Director determines that the jurisdiction qualifies to be recognized as a qualified jurisdiction, the Director shall publish notice and evidence of such recognition in an appropriate manner. The Director may establish a procedure to withdraw recognition of those jurisdictions that are no longer qualified.
 2. In order to determine whether the domiciliary jurisdiction of a non-U.S. assuming insurer is eligible to be recognized as a qualified jurisdiction, the Director shall evaluate the reinsurance supervisory system of the non-U.S. jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits and the extent of reciprocal recognition afforded by the non-U.S. jurisdiction to reinsurers licensed and domiciled in the U.S. The Director shall determine the appropriate approach for evaluating the qualifications of such jurisdictions, and create and publish a list of jurisdictions whose reinsurers may be approved by the Director as eligible for certification. A qualified jurisdiction must agree to share information and cooperate with the Director with respect to all certified reinsurers domiciled within that jurisdiction. Additional factors to be considered in determining whether to recognize a qualified jurisdiction, in the discretion of the Director, include but are not limited to the following:
 - a. The framework under which the assuming insurer is regulated.
 - b. The structure and authority of the domiciliary regulator with regard to solvency regulation requirements and financial surveillance.
 - c. The substance of financial and operating standards for assuming insurers in the domiciliary jurisdiction.
 - d. The form and substance of financial reports required to be filed or made publicly available by reinsurers in the domiciliary jurisdiction and the accounting principles used.
 - e. The domiciliary regulator's willingness to cooperate with U.S. regulators in general and the Director in particular.
 - f. The history of performance by assuming insurers in the domiciliary jurisdiction.
 - g. Any documented evidence of substantial problems with the enforcement of final U.S. judgments in the domiciliary jurisdiction. A jurisdiction will not be considered to be a qualified jurisdiction if the Director has determined that it does not adequately and promptly enforce final U.S. judgments or arbitration awards.
 - h. Any relevant international standards or guidance with respect to mutual recognition of reinsurance supervision adopted by the International Association of Insurance Supervisors or successor organization.
 - i. Any other matters deemed relevant by the Director.
 3. A list of qualified jurisdictions shall be published through the NAIC Committee Process. The Director shall consider this list in determining qualified jurisdictions. If the Director approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the Director shall provide thoroughly documented justification with respect to the criteria provided under subsections (C)(2)(a) through (C)(2)(i).
 4. U.S. jurisdictions that meet the requirements for accreditation under the NAIC financial standards and accreditation program shall be recognized as qualified jurisdictions.
- D. Recognition of Certification Issued by an NAIC Accredited Jurisdiction.**
1. If an applicant for certification has been certified as a reinsurer in an NAIC accredited jurisdiction, the Director has the discretion to defer to that jurisdiction's certification, and to defer to the rating assigned by that jurisdiction, if the assuming insurer submits a properly executed Form CR-1 (Exhibit B) and such additional information as the Director requires. The assuming insurer shall be considered to be a certified reinsurer in Arizona.
 2. Any change in the certified reinsurer's status or rating in the other jurisdiction shall apply automatically in Arizona as of the date it takes effect in the other jurisdiction. The certified reinsurer shall notify the Director of any change in its status or rating within ten days after receiving notice of the change.
 3. The Director may withdraw recognition of the other jurisdiction's rating at any time and assign a new rating in accordance with subsection (B)(8).
 4. The Director may withdraw recognition of the other jurisdiction's certification at any time with written notice to the certified reinsurer. Unless the Director suspends or revokes the certified reinsurer's certification in accordance with subsection (B)(8), the certified reinsurer's certification shall remain in good standing in this State for a period of three months, which shall be extended if additional time is necessary to consider the assuming insurer's application for certification in Arizona.
- E. Mandatory Funding Clause.** In addition to the clauses required under R20-6-A1609(B), reinsurance contracts entered into or renewed under this Section shall include a proper funding clause, which requires the certified reinsurer to provide and maintain security in an amount sufficient to avoid the imposi-

tion of any financial statement penalty on the ceding insurer under this Section for reinsurance ceded to the certified reinsurer.

- F. The Director shall comply with all reporting and notification requirements that may be established by the NAIC with respect to certified reinsurers and qualified jurisdictions.

R20-6-A1606. Credit for Reinsurance - Reciprocal Jurisdictions; Credit for Reinsurance Required by Law

- A. Credit for reinsurance to a reciprocal jurisdiction assuming insurer. Pursuant to A.R.S. § 20-3602(H), (I), (J), (K), (L), and (R), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that is licensed to write reinsurance by, and has its head office or is domiciled in, a reciprocal jurisdiction, and which meets the other requirements of this Part.
- B. A “reciprocal jurisdiction” is a jurisdiction, as designated by the Director pursuant to subsection (D) that meets one of the following:
 1. A non-U.S. jurisdiction that is subject to an in-force covered agreement with the United States, each within its legal authority, or, in the case of a covered agreement between the United States and the European Union, is a member state of the European Union. For purposes of this subsection, a “covered agreement” is an agreement entered into pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, 31 U.S.C. §§ 313 and 314, that is currently in effect or in a period of provisional application and addresses the elimination, under specified conditions, of collateral requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in this state or for allowing the ceding insurer to recognize credit for reinsurance;
 2. A U.S. jurisdiction that meets the requirements for accreditation under the NAIC financial standards and accreditation program; or
 3. A qualified jurisdiction, as determined by the Director pursuant to A.R.S. § 20-3602(G)(3) and Section R20-6-A1605(C), which is not otherwise described in subsections (B)(1) or (B)(2) and which the Director determines meets all of the following additional requirements:
 - a. Provides that an insurer who has its head office or is domiciled in such qualified jurisdiction shall receive credit for reinsurance ceded to a U.S.-domiciled assuming insurer in the same manner as credit for reinsurance is received for reinsurance assumed by insurers domiciled in such qualified jurisdiction;
 - b. Does not require a U.S.-domiciled assuming insurer to establish or maintain a local presence as a condition for entering into a reinsurance agreement with any ceding insurer subject to regulation by the non-U.S. jurisdiction or as a condition to allow the ceding insurer to recognize credit for such reinsurance;

- c. Recognizes the U.S. state regulatory approach to group supervision and group capital, by providing written confirmation by a competent regulatory authority, in such qualified jurisdiction, that insurers and insurance groups who are domiciled or maintain their headquarters in this state or another jurisdiction accredited by the NAIC shall be subject only to worldwide prudential insurance group supervision including worldwide group governance, solvency and capital, and reporting, as applicable, by the Director or the commissioner of the domiciliary state and will not be subject to group supervision at the level of the worldwide parent undertaking of the insurance or reinsurance group by the qualified jurisdiction; and
- d. Provides written confirmation by a competent regulatory authority in such qualified jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated entities, if applicable, shall be provided to the Director in accordance with a memorandum of understanding or similar document between the Director and such qualified jurisdiction, including but not limited to the International Association of Insurance Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda of understanding coordinated by the NAIC.
- C. Credit shall be allowed when the reinsurance is ceded from an insurer domiciled in this state to a reciprocal jurisdiction assuming insurer meeting each of these conditions:
 1. The assuming insurer must be licensed to transact insurance by, and have its head office or be domiciled in, a reciprocal jurisdiction;
 2. The assuming insurer must have and maintain on an ongoing basis minimum capital and surplus, or its equivalent, calculated on at least an annual basis as of the preceding December 31 or at the annual date otherwise statutorily reported to the reciprocal jurisdiction, and confirmed as set forth in subsection (C)(7) according to the methodology of its domiciliary jurisdiction, in the following amounts:
 - a. No less than \$250 million; or
 - b. If the assuming insurer is an association, including incorporated and individual unincorporated underwriters:

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- i. Minimum capital and surplus equivalents (net of liabilities) or own funds of the equivalent of at least \$250 million; and
 - ii. A central fund containing a balance of the equivalent of at least \$250 million.
3. The assuming insurer must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, as follows:
 - a. If the assuming insurer has its head office or is domiciled in a reciprocal jurisdiction as defined in subsection (B)(1), the ratio specified in the applicable covered agreement;
 - b. If the assuming insurer is domiciled in a reciprocal jurisdiction as defined in subsection (B)(2), a risk-based capital (RBC) ratio of 300% of the authorized control level, calculated in accordance with the formula developed by the NAIC; or
 - c. If the assuming insurer is domiciled in a reciprocal jurisdiction as defined in subsection (B), after consultation with the reciprocal jurisdiction and considering any recommendations published through the NAIC Committee Process, such solvency or capital ratio as the Director determines to be an effective measure of solvency.
4. The assuming insurer must agree to and provide adequate assurance, in the form of a properly executed Form RJ-1 (Exhibit E), of its agreement to the following:
 - a. The assuming insurer must agree to provide prompt written notice and explanation to the Director if it falls below the minimum requirements set forth in subsections (C)(2) or (C)(3), or if any regulatory action is taken against it for serious noncompliance with applicable law;
 - b. The assuming insurer must consent in writing to the jurisdiction of the courts of this state and to the appointment of the Director as agent for service of process.
 - i. The Director may also require that such consent be provided and included in each reinsurance agreement under the Director's jurisdiction.
 - ii. Nothing in this provision shall limit or in any way alter the capacity of parties to a reinsurance agreement to agree to alternative dispute resolution mechanisms, except to the extent such agreements are unenforceable under applicable insolvency or delinquency laws;
 - c. The assuming insurer must consent in writing to pay all final judgments, wherever enforcement is sought, obtained by a ceding insurer, that have been declared enforceable in the territory where the judgment was obtained;
 - d. Each reinsurance agreement must include a provision requiring the assuming insurer to provide security in an amount equal to 100% of the assuming insurer's liabilities attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists enforcement of a final judgment that is enforceable under the law of the jurisdiction in which it was obtained or a properly enforceable arbitration award, whether obtained by the ceding insurer or by its legal successor on behalf of its estate, if applicable;
 - e. The assuming insurer must confirm that it is not presently participating in any solvent scheme of arrangement, which involved this state's ceding insurers, and agrees to notify the ceding insurer and the Director and to provide 100% security to the ceding insurer consistent with the terms of the scheme, should the assuming insurer enter into such a solvent scheme of arrangement. Such security shall be in a form consistent with the provisions of A.R.S. §§ 20-3602(G) and 20-3603, R20-6-A1608, or R20-6-A1609(A). For purposes of this Section, the term "solvent scheme of arrangement" means a foreign or alien statutory or regulatory compromise procedure subject to requisite majority creditor approval and judicial sanction in the assuming insurer's home jurisdiction either to finally commute liabilities of duly noticed class members or creditors of a solvent debtor, or to reorganize or restructure the debts and obligations of a solvent debtor on a final basis, and which may be subject to judicial recognition and enforcement of the arrangement by a governing authority outside the ceding insurer's home jurisdiction; and
 - f. The assuming insurer must agree in writing to meet the applicable information filing requirements as set forth in subsection (C)(5).
5. The assuming insurer or its legal successor must provide, if requested by the Director, on behalf of itself and any legal predecessors, the following documentation to the Director:
 - a. For the two years preceding entry into the reinsurance agreement and on an annual basis thereafter, the assuming insurer's annual audited financial statements, in accordance with the applicable law of the jurisdiction of its head office or domiciliary jurisdiction, as applicable, including the external audit report;
 - b. For the two years preceding entry into the reinsurance agreement, the solvency and financial condition report or actuarial opinion, if filed with the assuming insurer's supervisor;
 - c. Prior to entry into the reinsurance agreement and not more than semi-annually thereafter, an updated list of all disputed and overdue reinsurance claims outstanding for 90 days or more, regarding reinsurance assumed from ceding insurers domiciled in the United States; and
 - d. Prior to entry into the reinsurance agreement and not more than semi-annually thereafter, information regarding the assuming insurer's assumed reinsurance by ceding insurer, ceded reinsurance by the assuming insurer, and reinsurance recoverable on paid and unpaid losses by the assuming insurer to allow for the evaluation of the criteria set forth in subsection (C)(6).
6. The assuming insurer must maintain a practice of prompt payment of claims under reinsurance agreements. The lack of prompt payment will be evidenced if any of the following criteria is met:
 - a. More than 15% of the reinsurance recoverables from the assuming insurer are overdue and in dispute as reported by the Director;
 - b. More than 15% of the assuming insurer's ceding insurers or reinsurers have overdue reinsurance recoverable on paid losses of 90 days or more which are not in dispute and which exceed for each ceding insurer \$100 thousand, or as otherwise specified in a covered agreement; or
 - c. The aggregate amount of reinsurance recoverable on paid losses which are not in dispute, but are overdue

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- by 90 days or more, exceeds \$50 million, or as otherwise specified in a covered agreement.
7. The assuming insurer's supervisory authority must confirm to the Director on an annual basis that the assuming insurer complies with the requirements set forth in subsections (C)(2) and (C)(3).
 8. Nothing in this provision precludes an assuming insurer from providing the Director with information on a voluntary basis.
- D.** The Director shall timely create and publish a list of reciprocal jurisdictions.
1. A list of reciprocal jurisdictions is published through the NAIC committee process. The Director's list shall include any reciprocal jurisdiction as defined under subsections (B)(1) and (B)(2), and shall consider any other reciprocal jurisdiction included on the NAIC list. The Director may approve a jurisdiction that does not appear on the NAIC list of reciprocal jurisdictions as provided by applicable law, regulation, or in accordance with criteria published through the NAIC committee process.
 2. The Director may remove a jurisdiction from the list of reciprocal jurisdictions upon a determination that the jurisdiction no longer meets one or more of the requirements of a reciprocal jurisdiction, as provided by applicable law, regulation, or in accordance with a process published through the NAIC committee process, except that the Director shall not remove from the list a reciprocal jurisdiction as defined under subsections (B)(1) and (B)(2). Upon removal of a reciprocal jurisdiction from this list, credit for reinsurance ceded to an assuming insurer domiciled in that jurisdiction shall be allowed, if otherwise allowed pursuant to A.R.S. Title 20, Chapter 30 and this Part.
- E.** The Director shall timely create and publish a list of reciprocal jurisdiction assuming insurers that have satisfied the conditions set forth in this section and to which cessions shall be granted credit in accordance with this subsection.
1. If an NAIC accredited jurisdiction has determined that the conditions set forth in subsection (C) have been met, the Director has the discretion to defer to that jurisdiction's determination, and add such assuming insurer to the list of assuming insurers to which cessions shall be granted credit in accordance with this subsection. The Director may accept financial documentation filed with another NAIC accredited jurisdiction or with the NAIC in satisfaction of the requirement of subsection (C).
 2. When requesting that the Director defer to another NAIC accredited jurisdiction's determination, an assuming insurer must submit a properly executed Form RJ-1 (Appendix E) and additional information as the Director may require. A state that has received such a request will notify other states through the NAIC committee process and provide relevant information with respect to the determination of eligibility.
- F.** If the Director determines that a reciprocal jurisdiction assuming insurer no longer meets one or more of the requirements under this Section, the Director may revoke or suspend the eligibility of the reciprocal jurisdiction assuming insurer for recognition under this Section.
1. While an assuming insurer's eligibility is suspended, no reinsurance agreement issued, amended, or renewed after the effective date of the suspension qualifies for credit except to the extent that the assuming insurer's obligations under the contract are secured in accordance with R20-6-A1607.
 2. If an assuming insurer's eligibility is revoked, no credit for reinsurance may be granted after the effective date of the revocation with respect to any reinsurance agreements entered into by the assuming insurer, including reinsurance agreements entered into prior to the date of revocation, except to the extent that the assuming insurer's obligations under the contract are secured in a form acceptable to the Director and consistent with the provisions of R20-6-A1607.
- G.** Before denying statement credit or imposing a requirement to post security with respect to subsection (F) or adopting any similar requirement that will have substantially the same regulatory impact as security, the Director shall:
1. Communicate with the ceding insurer, the assuming insurer, and the assuming insurer's supervisory authority that the assuming insurer no longer satisfies one of the conditions listed in subsection (C);
 2. Provide the assuming insurer with 30 days from the initial communication to submit a plan to remedy the defect, and 90 days from the initial communication to remedy the defect, except in exceptional circumstances in which a shorter period is necessary for policyholder and other consumer protection;
 3. After the expiration of 90 days or less, as set out in subsection (G)(2), if the Director determines that no or insufficient action was taken by the assuming insurer, the Director may impose any of the requirements as set out in this subsection (G); and
 4. Provide a written explanation to the assuming insurer of any of the requirements set out in this subsection (G).
- H.** If subject to a legal process of rehabilitation, liquidation, or conservation, as applicable, the ceding insurer, or its representative, may seek and, if determined appropriate by the court in which the proceedings are pending, may obtain an order requiring the reciprocal jurisdiction assuming insurer to post security for all outstanding liabilities.
- I.** Credit for reinsurance required by law. Pursuant to A.R.S. § 20-3602(M), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of A.R.S. §§ 20-3602(C) through (G) but only as to the insurance of risks located in jurisdictions where the reinsurance is required by the applicable law or regulation of that jurisdiction. As used in this Section, "jurisdiction" means state, district, or territory of the United States and any lawful national government.

Historical Note

New Section R20-6-A1606 renumbered from R20-6-1606 and amended by final rulemaking at 28 A.A.R. 493 (March 4, 2022), effective April 9, 2022; the redundant phrase "of this Section" and word "above" were removed when followed by a subsection reference (Supp. 22-1).

R20-6-A1607. Asset or Reduction from Liability for Reinsurance Ceded to an Unauthorized Assuming Insurer not Meeting the Requirements of R20-6-A1601 through R20-6-A1606

- A.** Pursuant to A.R.S. § 20-3603, the Director shall allow a reduction from liability for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of A.R.S. § 20-3602 in an amount not exceeding the liabilities carried by the ceding insurer. The reduction shall be in the amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the exclusive benefit of the ceding insurer, under a reinsurance contract with such assuming insurer as security for the payment of obligations under the reinsurance contract. The security shall be held in the United States subject to withdrawal solely by, and under the exclusive

control of, the ceding insurer or, in the case of a trust, held in a qualified United States financial institution as defined in A.R.S. § 20-3601. This security may be in the form of any of the following:

1. Cash;
2. Securities listed by the Securities Valuation Office of the NAIC, including those deemed exempt from filing as defined by the Purposes and Procedures Manual of the Securities Valuation Office, and qualifying as admitted assets;
3. Clean, irrevocable, unconditional, and “evergreen” letters of credit issued or confirmed by a qualified United States institution, as defined in A.R.S. § 20-3601, effective no later than December 31 of the year for which filing is being made, and in the possession of, or in trust for, the ceding insurer on or before the filing date of its annual statement. Letters of credit meeting applicable standards of issuer acceptability as of the dates of their issuance (or confirmation) shall, notwithstanding the issuing (or confirming) institution’s subsequent failure to meet applicable standards of issuer acceptability, continue to be acceptable as security until their expiration, extension, renewal, modification or amendment, whichever first occurs; or
4. Any other form of security acceptable to the Director.

- B.** An admitted asset or a reduction from liability for reinsurance ceded to an unauthorized assuming insurer pursuant to this Section shall be allowed only when the requirements of R20-6-A1609(B) and the applicable portions of R20-6-A1608 or R20-6-A1609(A) have been satisfied.

1. “Beneficiary” includes any successor by operation of law of the named beneficiary, including without limitation any liquidator, rehabilitator, receiver, or conservator.
 2. “Grantor” means the entity that has established a trust for the sole benefit of the beneficiary. When established in conjunction with a reinsurance agreement, the grantor is the unlicensed, unaccredited assuming insurer.
 3. “Obligations,” as used in subsection (B)(11), means:
 - a. Reinsured losses and allocated loss expenses paid by the ceding company but not recovered from the assuming insurer;
 - b. Reserves for reinsured losses reported and outstanding;
 - c. Reserves for reinsured losses incurred but not reported; and
 - d. Reserves for allocated reinsured loss expenses and unearned premiums.
- B.** Trust agreements - required conditions.
1. The trust agreement shall be entered into between the beneficiary, the grantor, and a trustee which shall be a qualified United States financial institution as defined in A.R.S. § 20-3601.
 2. The trust agreement shall create a trust account into which assets shall be deposited.

3. All assets in the trust account shall be held by the trustee at the trustee’s office in the United States.
4. The trust agreement shall provide that:
 - a. The beneficiary shall have the right to withdraw assets from the trust account at any time, without notice to the grantor, subject only to written notice from the beneficiary to the trustee;
 - b. No other statement or document is required to be presented in order to withdraw assets, except that the beneficiary may be required to acknowledge receipt of withdrawn assets;
 - c. It is not subject to any conditions or qualifications outside of the trust agreement; and
 - d. It shall not contain references to any other agreements or documents except as provided for in subsections (B)(11) and (B)(12).
5. The trust agreement shall be established for the sole benefit of the beneficiary.
6. The trust agreement shall require the trustee to:
 - a. Receive assets and hold all assets in a safe place;
 - b. Determine that all assets are in such form that the beneficiary, or the trustee upon direction by the beneficiary, may whenever necessary negotiate any such assets, without consent or signature from the grantor or any other person or entity;
 - c. Furnish to the grantor and the beneficiary a statement of all assets in the trust account upon its inception and at intervals no less frequent than the end of each calendar quarter;
 - d. Notify the grantor and the beneficiary within ten days, of any deposits to or withdrawals from the trust account;

7. The trust agreement shall provide that at least 30 days, but not more than 45 days, prior to termination of the trust account, written notification of termination shall be delivered by the trustee to the beneficiary.
8. The trust agreement shall be made subject to and governed by the laws of the state in which the trust is domiciled.
9. The trust agreement shall prohibit invasion of the trust corpus for the purpose of paying commission to, or reimbursing the expenses of, the trustee. In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement (as duly approved by the Director), to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.
10. The trust agreement shall provide that the trustee shall be liable for its negligence, willful misconduct, or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where such draw would

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

be required shall be deemed to be negligence and/or willful misconduct.

11. Notwithstanding other provisions of subsections (A) through (G), when a trust agreement is established in conjunction with a reinsurance agreement covering risks other than life, annuities, and accident and health, where it is customary practice to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:
 - a. To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement regarding any losses and allocated loss expenses paid by the ceding insurer, but not recovered from the assuming insurer, or for unearned premiums due to the ceding insurer if not otherwise paid by the assuming insurer;
 - b. To make payment to the assuming insurer of any amounts held in the trust account that exceed 102% of the actual amount required to fund the assuming insurer's obligations under the specific reinsurance agreement; or
 - c. Where the ceding insurer has received notification of termination of the trust account and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten days prior to the termination date, to withdraw amounts equal to the obligations and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified United States financial institution as defined in A.R.S. § 20-3601 apart from its general assets, in trust for such uses and purposes specified in subsections (11)(a) and (11)(b) as may remain executory after such withdrawal and for any period after the termination date.
 12. Notwithstanding other provisions of subsections (A) through (G), when a trust agreement is established to meet the requirements of R20-6-A1607 in conjunction with a reinsurance agreement covering life, annuities, or accident and health risks, where it is customary to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:
 - a. To pay or reimburse the ceding insurer for:
 - i. The assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of the policies; and
 - ii. The assuming insurer's share under the specific reinsurance agreement of surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurer, under the terms and provision of the policies reinsured under the reinsurance agreement.
 - b. To pay to the assuming insurer amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer, or
 - c. Where the ceding insurer has received notification of termination of the trust and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten days prior to the termination date, to withdraw amounts equal to the assuming insurer's share of liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer, and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified U.S. financial institution apart from its general assets, in trust for the uses and purposes specified in subsections (12)(a) and (12)(b) as may remain executory after withdrawal and for any period after the termination date.
 13. Either the reinsurance agreement or the trust agreement must stipulate that assets deposited in the trust account shall be valued according to their current fair market value and shall consist only of cash in United States dollars, certificates of deposit issued by a United States bank and payable in United States dollars, and investments permitted by the Insurance Code, or any combination of the above, provided investments in or issued by an entity controlling, controlled by, or under common control with either the grantor or the beneficiary of the trust shall not exceed 5% of total investments. The agreement may further specify the types of investments to be deposited. If the reinsurance agreement covers life, annuities, or accident and health risks, then the provisions required by this subsection must be included in the reinsurance agreement.
- C. Trust agreements - permitted conditions.
1. The trust agreement may provide that the trustee may resign upon delivery of a written notice of resignation, effective not less than 90 days after the beneficiary and grantor receive the notice and that the trustee may be removed by the grantor by delivery to the trustee and the beneficiary of a written notice of removal, effective not less than 90 days after the trustee and the beneficiary receive the notice, provided that no such resignation or removal shall be effective until a successor trustee has been duly appointed and approved by the beneficiary and the grantor and all assets in the trust have been duly transferred to the new trustee.
 2. The grantor may have the full and unqualified right to vote any shares of stock in the trust account and to receive from time to time payments of any dividends or interest upon any shares of stock or obligations included in the trust account. Any interest or dividends shall be either forwarded promptly upon receipt to the grantor or deposited in a separate account established in the grantor's name.
 3. The trustee may be given authority to invest, and accept substitutions of, any funds in the account, provided that no investment or substitution shall be made without prior approval of the beneficiary, unless the trust agreement specifies categories of investments acceptable to the beneficiary and authorizes the trustee to invest funds and to accept substitutions that the trustee determines are at least equal in current fair market value to the assets withdrawn and that are consistent with the restrictions in subsection (D)(1)(b).
 4. The trust agreement may provide that the beneficiary may at any time designate a party to which all or part of the trust assets are to be transferred. Transfer may be condi-

tioned upon the trustee receiving, prior to or simultaneously, other specified assets.

5. The trust agreement may provide that, upon termination of the trust account, all assets not previously withdrawn by the beneficiary shall, with written approval by the beneficiary, be delivered over to the grantor.
- D. Trust agreements - additional conditions applicable to reinsurance agreements:**
1. A reinsurance agreement may contain provisions that:
 - a. Require the assuming insurer to enter into a trust agreement and to establish a trust account for the benefit of the ceding insurer, and specifying what the agreement is to cover;
 - b. Require the assuming insurer, prior to depositing assets with the trustee, to execute assignments or endorsements in blank, or to transfer legal title to the trustee of all shares, obligations, or any other assets requiring assignments, in order that the ceding insurer, or the trustee upon the direction of the ceding insurer, may whenever necessary negotiate these assets without consent or signature from the assuming insurer or any other entity;
 - c. Require that all settlements of account between the ceding insurer and the assuming insurer be made in cash or its equivalent; and
 - d. Stipulate that the assuming insurer and the ceding insurer agree that the assets in the trust account, established pursuant to the provisions of the reinsurance agreement, may be withdrawn by the ceding insurer at any time, notwithstanding any other provisions in the reinsurance agreement, and shall be utilized and applied by the ceding insurer or its successors in interest by operation of law, including without limitation any liquidator, rehabilitator, receiver, or conservator of such company, without diminution because of insolvency on the part of the ceding insurer or the assuming insurer, only for the following purposes:
 - i. To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement because of cancellations of such policies; and
 - ii. To pay or reimburse the ceding insurer for the assuming insurer's share of surrenders and benefits or losses paid by the ceding insurer pursuant to the provisions of the policies reinsured under the reinsurance agreement; and
 - iii. To pay or reimburse the ceding insurer for any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding reinsurer; or
 - iv. To make payment to the assuming insurer of amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.
 2. The reinsurance agreement also may contain provisions that:
 - a. Give the assuming insurer the right to seek approval from the ceding insurer, which shall not be unreasonably or arbitrarily withheld, to withdraw from the trust account all or any part of the trust assets and transfer those assets to the assuming insurer, provided:
 - i. The assuming insurer shall, at the time of withdrawal, replace the withdrawn assets with other qualified assets having a current fair market value equal to the market value of the assets withdrawn so as to maintain at all times the deposit in the required amount, or
 - ii. After withdrawal and transfer, the current fair market value of the trust account is no less than 102% of the required amount.
 - b. Provide for the return of any amount withdrawn in excess of the actual amounts required for subsection (D)(1)(d), and for interest payments at a rate not in excess of the prime rate of interest on such amounts;
 - c. Permit the award by any arbitration panel or court of competent jurisdiction of:
 - i. Interest at a rate different from that provided in subsection (D)(2)(b);
 - ii. Court or arbitration costs;
 - iii. Attorney's fees; and
 - iv. Any other reasonable expenses.
- E. Trust agreements - financial reporting.** A trust agreement may be used to reduce any liability for reinsurance ceded to an unauthorized assuming insurer in financial statements required to be filed with the Director in compliance with the provisions of this Part when established on or before the date of filing of the financial statement of the ceding insurer. Further, the reduction for the existence of an acceptable trust account may be up to the current fair market value of acceptable assets available to be withdrawn from the trust account at that time, but such reduction shall be no greater than the specific obligations under the reinsurance agreement that the trust account was established to secure.
- F. Trust agreements - existing agreements.** Notwithstanding the effective date of this Part, any trust agreement or underlying reinsurance agreement in existence and approved by the Director prior to the effective date of this Part will continue to be acceptable until December 31, 2016, at which time the agreements will have to fully comply with subsections (A) through (G) for the trust agreement to be acceptable.
- G. Trust agreements - failure to identify beneficiary.** The failure of any trust agreement to specifically identify the beneficiary as defined in subsection (A)(1) shall not be construed to affect any actions or rights that the Director may take or possess pursuant to the provisions of the laws of Arizona.
- H. Letters of credit.** The letter of credit must be clean, irrevocable, unconditional, and issued or confirmed by a qualified United States financial institution as defined A.R.S. § 20-3601. The letter of credit shall contain an issue date and expiration date and shall stipulate that the beneficiary need only draw a sight draft under the letter of credit and present it to obtain funds and that no other document need be presented. The letter of credit also shall indicate that it is not subject to any condition or qualifications outside of the letter of credit. In addition, the letter of credit itself shall not contain reference to any other agreements, documents or entities, except as provided in subsection (N)(1). As used in this Section, "beneficiary" includes any successor by operation of law of the named beneficiary, including without limitation any liquidator, rehabilitator, receiver, or conservator. If a court of law appoints a successor in interest to the named beneficiary, then the named beneficiary includes and is limited to the court appointed domiciliary receiver (including conservator, rehabilitator, or liquidator).

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- I.** Letters of credit - heading. The heading of the letter of credit may include a boxed section containing the name of the applicant and other appropriate notations to provide a reference for the letter of credit. The boxed section shall be clearly marked to indicate that such information is for internal identification purposes only.
- J.** Letters of credit - required statements and clauses.
1. A letter of credit shall contain a statement to the effect that the obligation of the qualified United States financial institution under the letter of credit is in no way contingent upon reimbursement with respect thereto.
 2. The letter of credit shall state whether it is subject to and governed by the laws of Arizona or the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce Publication 600 (UCP 600) or International Standby Practices of the International Chamber of Commerce Publication 590 (ISP98). All drafts of letters of credit drawn according to UCP 600 or ISP98 shall be presentable at an office in the United States of a qualified United States financial institution.
 3. The letter of credit shall contain an "evergreen clause" in compliance with subsection (K).
- K.** Letters of credit - term of the letter of credit. The term of the letter of credit shall be for at least one year and shall contain an "evergreen clause" that prevents the expiration of the letter of credit without due notice from the issuer. The "evergreen clause" shall provide for no less than 30 days' notice prior to expiration date or nonrenewal.
- L.** Letters of credit made subject to UCP 600 or ISP98. If the letter of credit is made subject to the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce Publication 600 (UCP 600) or International Standby Practices of the International Chamber of Commerce Publication 590 (ISP98), then the letter of credit shall specifically address and provide for an extension of time to draw against the letter of credit in the event that one or more of the occurrences specified in Article 36 of UCP 600 occur.
- M.** Letters of credit - additional requirements. If the letter of credit is issued by a financial institution authorized to issue letters of credit, other than a qualified United States financial institution as described in subsection (H), then the following additional requirements shall be met:
1. The issuing financial institution shall formally designate the confirming qualified United States financial institution as its agent for the receipt and payment of the drafts; and
 2. The "evergreen clause" shall provide for 30 days' notice prior to expiration date or nonrenewal.
- N.** Letters of credit - reinsurance agreement provisions.
1. The reinsurance agreement in conjunction with which the letter of credit is obtained may contain provisions that:
 - a. Require the assuming insurer to provide letters of credit to the ceding insurer and specify what they are to cover;
 - b. Stipulate that the assuming insurer and ceding insurer agree that the letter of credit provided by the assuming insurer pursuant to the provisions of the reinsurance agreement may be drawn upon at any time, notwithstanding any other provisions in the agreement, and shall be utilized by the ceding insurer or its successors in interest only for one or more of the following reasons:
 - i. To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurers, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of such policies;
 - ii. To pay or reimburse the ceding insurer for the assuming insurer's share, under the specific reinsurance agreement, of surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurers, under the terms and provisions of the policies reinsured under the reinsurance agreement; and
 - iii. To pay or reimburse the ceding insurer for any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer;
 - iv. Where the letter of credit will expire without renewal or be reduced or replaced by a letter of credit for a reduced amount and where the assuming insurer's entire obligations under the reinsurance agreement remain unliquidated and undischarged ten days prior to the termination date, to withdraw amounts equal to the assuming insurer's share of the liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer and exceed the amount of any reduced or replacement letter of credit, and deposit those amounts in a separate account in the name of the ceding insurer in a qualified U.S. financial institution apart from its general assets, in trust for such uses and purposes specified in subsections (N)(1)(b)(i), (N)(1)(b)(ii), and (N)(1)(b)(iii) as may remain after withdrawal and for any period after the termination date.
 2. Nothing contained in subsection (N)(1) shall preclude the ceding insurer and assuming insurer from providing for:
 - a. All of the provisions of subsections (N)(1)(a) and (N)(1)(b) shall be applied without diminution because of insolvency on the part of the ceding insurer or assuming insurer.
 - b. An interest payment, at a rate not in excess of the prime rate of interest on the amounts held pursuant to subsection (N)(1)(b); or
 - c. The return of any amounts drawn down on the letters of credit in excess of the actual amounts required for the above or any amounts that are subsequently determined not to be due.

 - a. The risks are clearly outside of the intent and purpose of this Part B;
 - b. The risks are included within the scope of this regulation only as a technicality; and
 - c. The application of this Part B to those risks is not necessary to provide appropriate protection to policyholders. The Director shall publicly disclose any decision made pursuant to this subsection (B)(6) to exempt a reinsurance treaty from this Part B, as well as the general basis for the decision including a summary of the treaty.

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

4. "Non-Covered Policies" means any policy that does not meet the definition of Covered Policies, including Grandfathered Policies.
 5. "Other Security" means any security acceptable to the Director other than security meeting the definition of Primary Security.
 6. "Primary Security" means the following forms of security:
 - a. Cash meeting the requirements of A.R.S. § 20-3603(B)(1);
 - b. Securities listed by the Securities Valuation Office meeting the requirements of A.R.S. § 20-3603(B)(2), but excluding any synthetic letter of credit, contingent note, credit-linked note, or other similar security that operates in a manner similar to a letter of credit excluding any securities issued by the ceding insurer or any of its affiliates; and

 - i. Commercial loans in good standing of CM3 quality and higher;

 7. "Required Level of Primary Security" means the dollar amount determined by applying the Actuarial Method to the risks ceded with respect to Covered Policies, but not more than the total reserve ceded.

Prohibition against avoidance.** No insurer that has Covered Policies to which this Part B applies, as set forth in subsection (A), shall take any action or series of actions or enter into any transaction or arrangement or series of transactions or arrangements if the purpose of the action, transaction, or arrangement or series is to avoid the requirements of this Part B or to circumvent its purpose and intent.
- Historical Note**
- New Section R20-6-B1601 renumbered from R20-6-1610 and repealed; new Section R20-6-B1601 made by final rulemaking at 28 A.A.R. 493 (March 4, 2022), effective April 9, 2022; the redundant phrase "of this Section" was removed when followed by a subsection reference, and the word "Section" was removed before a Chapter Section number (Supp. 22-1).
- R20-6-B1602. The Actuarial Method**
- A. Actuarial Method. The Actuarial Method to establish the Required Level of Primary Security for each reinsurance treaty subject to this Part B shall be VM-20, applied on a treaty-by-treaty basis, including all relevant definitions, from the Valuation Manual then in effect, applied as follows:
 1. For Covered Policies described in R20-6-B1601(C)(2)(a), the Actuarial Method is the greater of the Deterministic Reserve or the Net Premium Reserve (NPR) regardless of whether the criteria for exemption testing can be met. However, if the Covered Policies do not meet the requirements of the Stochastic Reserve exclusion test in the Valuation Manual, then the Actuarial Method is the greatest of the Deterministic Reserve, the Stochastic Reserve, or the NPR. In addition, if such Covered Policies are reinsured in a reinsurance treaty that also contains Covered Policies described in R20-6-B1601(C)(2)(b), the ceding insurer may elect to instead use subsection (A)(2) as the Actuarial Method for the entire reinsurance agreement. Whether subsection (A)(1) or (A)(2) is used, the Actuarial Method must comply with any requirements or restrictions that the Valuation Manual imposes when aggregating these policy types for purposes of principle-based reserve calculations.
 2. For Covered Policies described in R20-6-B1601(C)(2)(b), the Actuarial Method is the greatest of the Deterministic Reserve, the Stochastic Reserve, or the NPR regardless of whether the criteria for exemption testing can be met.
 3. Except as provided in subsection (A)(4), the Actuarial Method is to be applied on a gross basis to all risks with respect to the Covered Policies as originally issued or assumed by the ceding insurer.
 4. If the reinsurance treaty cedes less than 100% of the risk with respect to the Covered Policies, then the Required Level of Primary Security may be reduced as follows:
 - a. If a reinsurance treaty cedes only a quota share of some of all of the risks pertaining to the Covered Policies, the Required Level of Primary Security, as well as any adjustment under subsection (A)(4)(c), may be reduced to a pro rata portion in accordance with the percentage of the risk ceded;
 - b. If the reinsurance treaty in a non-exempt arrangement cedes only the risks pertaining to a secondary guarantee, the Required Level of Primary Security may be reduced by an amount determined by applying the Actuarial Method on a gross basis to all risks, other than risks related to the secondary guarantee, pertaining to the Covered Policies, except that for Covered Policies for which the ceding insurer did not elect to apply the provisions of VM-20 to establish statutory reserves, the Required Level of Primary Security may be reduced by the statutory reserve retained by the ceding insurer on those Covered Policies, where the retained reserve of those Covered Policies should be reflective of any reduction pursuant to the cessation of mortality risk on a yearly renewable term basis in an exempt arrangement;
 - c. If a portion of the covered policy risk is ceded to another reinsurer on a yearly renewable term basis in an exempt arrangement, the Required Level of Primary Security may be reduced by the amount resulting by applying the Actuarial Method including the reinsurance section of VM-20 to the portion of the covered policy risks ceded in the exempt arrangement, except that for Covered Policies issued prior to January 1, 2017, this adjustment is not to exceed $[cx / (2 * \text{number of reinsurance premiums per year})]$ where cx is calculated using the same mortality table used in calculating the Net Premium Reserve; and
 - d. For any other treaty ceding a portion of risk to a different reinsurer, including but not limited to stop loss, excess of loss, and other non-proportional reinsurance treaties, there will be no reduction in the Required Level of Primary Security. It is possible

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

for any combination of subsections (A)(4)(a), (A)(4)(b), (A)(4)(c), and (A)(4)(d) to apply. Such adjustments to the Required Level of Primary Security will be done in the sequence that accurately reflects the portion of the risk ceded via the treaty. The ceding insurer should document the rationale and steps taken to accomplish the adjustments to the Required Level of Primary Security due to the cession of less than 100% of the risk. The adjustments for other reinsurance will be made only with respect to reinsurance treaties entered into directly by the ceding insurer. The ceding insurer will make no adjustment as a result of a retrocession treaty entered into by the assuming insurers.

5. In no event will the Required Level of Primary Security resulting from application of the Actuarial Method exceed the amount of statutory reserves ceded.
 6. If the ceding insurer cedes risk with respect to Covered Policies, including any riders, in more than one reinsurance treaty subject to this Part B, in no event will the aggregate Required Level of Primary Security for those reinsurance treaties be less than the Required Level of Primary Security calculated using the Actuarial Method as if all risks ceded in those treaties were ceded in a single treaty subject to this Part B.
 7. If a reinsurance treaty subject to this Part B cedes risk on both Covered and Non-Covered Policies, credit for the ceded reserves shall be determined as follows:
 - a. The Actuarial Method shall be used to determine the Required Level of Primary Security for the Covered Policies, and R20-6-B1603 shall be used to determine the reinsurance credit for the covered policy reserves; and
 - b. Credit for the non-covered policy reserves shall be granted only to the extent that security, in addition to the security held to satisfy the requirements of subsection (A)(7)(a), is held by or on behalf of the ceding insurer in accordance with A.R.S. §§ 20-3602 and 20-3603. Any Primary Security used to meet the requirements of this subsection (A)(7)(b) may not be used to satisfy the Required Level of Primary Security for the Covered Policies.
- B. Valuation used for Purposes of Calculations.** For the purposes of both calculating the Required Level of Primary Security pursuant to the Actuarial Method and determining the amount of Primary Security and Other Security, as applicable, held by or on behalf of the ceding insurer, the following shall apply:
1. For assets, including any such assets held in trust, that would be admitted under the NAIC Accounting Practices and Procedures Manual if they were held by the ceding insurer, the valuations are to be determined according to statutory accounting procedures as if such assets were held in the ceding insurer's general account and without taking into consideration the effect of any prescribed or permitted practices; and
 2. For all other assets, the valuations are to be those that were assigned to the assets for the purpose of determining the amount of reserve credit taken. In addition, the asset spread tables and asset default cost tables required by VM-20 shall be included in the Actuarial Method if adopted by the NAIC's Life Actuarial (A) Task Force no later than the December 31st on or immediately preceding the valuation date for which the Required Level of Primary Security is being calculated. The tables of asset spreads and asset default costs shall be incorporated into the Actuarial Method in the manner specified in VM-20.

1. The ceding insurer's statutory policy reserves with respect to the Covered Policies are established in full and in accordance with the applicable requirements of A.R.S. § 20-510 and related regulations and actuarial guidelines, and credit claimed for any reinsurance treaty subject to this regulation does not exceed the proportionate share of those reserves ceded under the contract; and
 2. The ceding insurer determines the Required Level of Primary Security with respect to each reinsurance treaty subject to this Part B and provides support for its calculation as determined to be acceptable to the Director; and
 3. Funds consisting of Primary Security, in an amount at least equal to the Required Level of Primary Security, are held by or on behalf of the ceding insurer, as security under the reinsurance treaty within the meaning of A.R.S. § 20-3603, on a funds withheld, trust, or modified coinsurance basis; and
 4. Funds consisting of Other Security, in an amount at least equal to any portion of the statutory reserves as to which Primary Security is not held pursuant to subsection (A)(3), are held by or on behalf of the ceding insurer as security under the reinsurance treaty within the meaning of A.R.S. § 20-3603; and
 5. Any trust used to satisfy the requirements of this Section shall comply with all of the conditions and qualifications of R20-6-A1608(A) through (G), except that:
 - a. Funds consisting of Primary Security or Other Security held in trust, shall for the purposes identified in R20-6-B1602(B), be valued according to the valuation rules set forth in R20-6-B1602(B), as applicable; and
 - b. There are no affiliate investment limitations with respect to any security held in the trust if such security is not needed to satisfy the requirements of subsection (A)(3); and
 - c. The reinsurance treaty must prohibit withdrawals or substitutions of trust assets that would leave the fair market value of the Primary Security within the trust (when aggregated with Primary Security outside the trust that is held by or on behalf of the ceding insurer in the manner required by subsection (A)(3) 102% of the level required by subsection (A)(3) at the time of the withdrawal or substitution; and

CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

B. Requirements at inception date and on an on-going basis; remediation:

1. The requirements of subsection (A) must be satisfied as of the date that risks under Covered Policies are ceded (if such date is on or after the effective date of this Part B) and on an ongoing basis thereafter. Under no circumstances shall a ceding insurer take or consent to any action or series of actions that would result in a deficiency under subsections (A)(3) or (A)(4) with respect to any reinsurance treaty under which Covered Policies have been ceded, and in the event that a ceding insurer becomes aware at any time that such a deficiency exists, it shall use its best efforts to arrange for the deficiency to be eliminated as expeditiously as possible.
2. Prior to the due date of each quarterly or annual statement, each life insurance company that has ceded reinsurance within the scope of subsection R20-6-B1601(A) shall perform an analysis, on a treaty-by-treaty basis, to determine, as to each reinsurance treaty under which Covered Policies have been ceded, whether as of the end of the immediately preceding calendar quarter (the valuation date) the requirements of subsections (A)(3) and (A)(4) were satisfied. The ceding insurer shall establish a liability equal to the excess of the credit for reinsurance taken over the amount of Primary Security actually held pursuant to subsection (A)(3), unless either:
 - a. The requirements of subsections (A)(3) and (A)(4) were fully satisfied as of the valuation date as to the reinsurance treaty; or
 - b. Any deficiency has been eliminated before the due date of the quarterly or annual statement to which the valuation date relates through the addition of Primary Security and/or Other Security, as the case may be, in such amount and in such form as would have caused the requirements of subsections (A)(3) and (A)(4) to be fully satisfied as of the valuation date.
3. Nothing in subsection (B)(2) shall be construed to allow a ceding company to maintain any deficiency under subsection (A)(3) or (A)(4) for any period of time longer than is reasonably necessary to eliminate it.

Summary:

This regular rulemaking from the Arizona State Lottery Commission (Commission) seeks to amend twenty-four (24) rules and repeal two (2) rules in Title 19, Chapter 3, Articles 4, 7, and 10, related to Game Development Rules. In this rulemaking, the Commission seeks to amend its rules to incorporate new developments in technology, simplify rule language, and remove unnecessary or redundant requirements.

The Commission received an exception from the rulemaking moratorium to initiate this rulemaking on April 18, 2022 and final approval to submit it to the Council on September 13, 2022.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

Yes, the Commission cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

No, the Commission indicates the rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

No, the Commission indicates they did not review or rely on any study in conducting this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The Commission's Game Development Rules describe the requirements and procedures for the development of various Lottery game products. The Commission indicates that these rules primarily impact the Lottery and the documentation of game development and approval, including rules of play, prize amounts, and verification of winners. The rule amendments reduce redundancy and provide flexibility for developing new game products. Additionally, the amended rules benefit the Lottery by clarifying processes, benefit players by providing new products, and benefit retailers and the state revenues by facilitating an increase in sales. The Commission indicates that the addition of new game play styles and promotion play styles will provide clarity to Lottery Commission staff and board members when developing and approving future games. The Commission anticipates that the rules will not have any negative impact on political subdivisions, private/public employment, or the general public.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Commission concludes that these rules represent the least intrusive and least costly method for achieving the purpose of the rules: maintenance of game integrity. The Lottery is statutorily required to maintain rules for game development and receive approval from the Commission prior to the sale of any games. The Commission states that the rules provide both standardization and flexibility to allow the Lottery to continually streamline processes and achieve maximum profits from each game offering.

6. What are the economic impacts on stakeholders?

These rules primarily impact the Lottery regarding game development, and secondarily impact retailers and players by clarifying game validation requirements. The Commission anticipates that the rules will positively impact all affected parties.

The Game Development Rules primarily affect the Commission. Costs to the Lottery include expenditures associated with game development and production, cash or merchandise prizes, point of sale items, any dedicated advertising, and any costs associated with agency and Commission approvals of a game.

Independent retailers licensed to sell Lottery games are also impacted by these rules. These rules clarify the requirements for validating winning game tickets and streamline the requirements for Lottery retailers. Because these rules streamline the development of new product offerings, independent retailers will be positively impacted by the additional revenue opportunities created by such new product offerings.

Because the purchase of Lottery products is voluntary, there are no required costs to consumers or the general public associated with this rulemaking. Consumers who purchase Lottery products will potentially benefit from new types of entertainment products. Additionally, consumers will likely benefit from clearer requirements for validating winning game tickets.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

No, the Commission indicates that there are no substantial changes between the proposed and final rulemaking. The Commission provides that a change was made to expand the promotion requirements in Article 10 to apply to all “games” and not only tickets. Additionally, the Commission indicates that non-substantial changes were made to ensure consistency in section titles, correct typographical errors, and improve rule language consistency. Council staff does not find these changes to be substantial changes, considered as a whole, from the proposed rules.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Commission indicates that it did not receive any public comments.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

No, the rules do not require the issuance of a general permit or license.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

No, the Commission indicates that there are no corresponding federal laws.

11. Conclusion

The Commission seeks to amend twenty-four (24) rules and repeal two rules in Title 19, Chapter 3, Articles 4, 7, and 10 to incorporate new developments in technology, simplify rule language, and remove unnecessary or redundant requirements. The Commission is seeking the standard 60-day delayed effective date for this rulemaking. Council staff recommends approval of this rulemaking.

Articles 4, 7, and 10, collectively referred to as the “Game Development Rules” prescribe the requirements for the development of Arizona Lottery (Lottery) games, including approval by the Lottery Commission. These rules document how the Lottery will introduce new games and modify existing games in a timely and cost effective manner, thus providing the State and licensed retailers with a potential to increase sales revenue. Promotions are also included in these rules and expand knowledge and visibility of various Lottery game products. These rules also provide an effective method for management of tickets and validations to limit losses to the Lottery. The Lottery is making changes to these rules in to include new technology developments, simplify the language, and remove unnecessary redundant requirements. An exemption to Executive Order 2022-01 was provided by Tuesday Elias, of the Governor’s Office, in an email dated April 18, 2022.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. A summary of the economic, small business, and consumer impact

1. Identification of the proposed rulemaking.

The rules for Articles 4, 7, and 10, collectively referred to as the “Game Development Rules,” describe various types of Lottery games, including special promotions, and the requirements related to development, approval, and distribution of the games and promotions. The Lottery anticipates amendments to these articles will impact the agency the greatest. These rules allow the Lottery to introduce various product promotions, thus providing the State with a potential to increase revenue.

- *Article 4 – Design and Operation of Lottery Games Generally:* This article describes the requirements for Lottery games generally. The article includes the common provisions for the development, approval, validation, and redemption processes for all Lottery games.
- *Article 7 – Design and Operation of Instant Games:* This article describes the various requirements for the Lottery’s instant ticket games that are different from the games

generally. The article includes provisions for both instant “scratch” tickets and instant “tab” tickets.

- *Article 10 – Promotions:* This article clarifies Lottery promotion procedures, including the types of promotions and who may participate in the promotion.

The Governor’s Office approved an exception from the rulemaking moratorium on April 18, 2022.

- a. The conduct and its frequency of occurrence that the rule is designed to change: This rulemaking is primarily designed to streamline current language and provide guidance for additional Lottery product development. The Lottery employs 6 FTEs whose main function is product development and management.
- b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed: Without the rule amendments the Lottery staff will continuously reinvent documentation of development and approvals for innovative Lottery products not contemplated under the current rules. Such continued process struggles will slow product innovation and creativity, risking Lottery losing players to other forms of entertainment and thus losing potential revenue-sharing funds for the State.
- c. The estimated change in frequency of the targeted conduct expected from the rule change: The Lottery expects a reduction in the length of time staff spend on dealing with documentation of development and approval of games since the language will be streamlined and simplified.

2. *Persons who will be directly affected by, bear the costs of, or directly benefit from the*

rulemaking.

These rules primarily impact the Lottery regarding game development, and secondarily impact retailers and players with clarity around game validation requirements. It is expected that all parties impacted will be positively impacted.

3. *Cost-benefit Analysis:*

a. Probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rulemaking, including the number of new full-time employees necessary to implement and enforce the proposed rules: The Game Development Rules primarily affect the agency. Costs to the Lottery include expenditures associated with game development and production, cash or merchandise prizes, point of sale items, any dedicated advertising, and any costs associated with agency and Commission approvals of a game. These expenses are included in the agency's annual appropriations:

- *Article 4 – Design and Operation of Lottery Games Generally:* Cost for this article include the approval, validation, and redemption processes for all Lottery games generally. In FY 21 the Lottery paid out approximately \$998 million in prizes to Lottery players across all game and promotions types. Costs related to this article includes expenses to administer the on-line draw games network, including contract monitoring, game development, and providing customer service to retailers. As mentioned above, the costs are included in the agency's appropriated budget with the exception of development of a Keno game. As part of the rulemaking, the Lottery adds specific playstyles to accommodate future

game opportunities, including Keno. This will provide flexibility for the Lottery to introduce new game initiatives or modify existing games in a timelier manner, thereby providing the state and licensed retailers with the potential to increase revenue. While the Lottery does not expect any unanticipated costs as a result of the game development rules, the addition of Keno in the Lottery's portfolio will incur more costs than revenue.

- *Article 7 – Design and Operation of Instant Games:* This article describes the various requirements for the Lottery's instant ticket games that are different from the games generally. The article includes provisions for both instant "scratch" tickets and instant "tab" tickets. The Lottery currently contracts with a variety of vendors for printing of instant games. Again, the Lottery does not expect any unanticipated costs to instant ticket development as a result of the game development rules.
- *Article 10 – Promotions:* This article clarifies Lottery promotion procedures, including the types of promotions and who may participate in the promotion. The Lottery uses a variety of promotional game styles and has created a number of innovative promotional products to increase awareness of the Lottery and promote responsible play. These amended rules provide flexibility for the Lottery to introduce more innovative promotional initiatives.

Impact on Other Agencies: The rules have no identifiable impact on other agencies.

FTE Requirements: The Lottery anticipates the need for no new positions to implement and enforce the proposed rules.

b. Probable costs and benefits to a political subdivision of this state directly affected by

the implementation and enforcement of the proposed rulemaking. This rulemaking will not have any identifiable impact on political subdivisions of the state, other than providing funding for designated state programs.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditure of employers who are subject to the proposed rulemaking. Businesses impacted by these rules are licensed Lottery retailers. These rules streamline the development of additional product offerings for retailers while continuing to maintain the highest standards for game integrity. Better game development processes will result in new games more frequently which is something both players and retailers desire. Additionally, businesses may realize nominal costs regarding the personnel resources/processes required to review and validate a winning ticket prior to payout. However these costs to retailers existed prior to these rule amendments, which should reduce the costs by adding clarity to the processes. The overall impact on businesses will be positive as a means to generate additional revenue.

4. Probable impact on private and public employment in businesses, agencies, and political subdivisions of the state directly affected by the proposed rulemaking.

These rules have no identifiable impact on private and public employment. However, as new product offerings generate more opportunities for social retailers such as bars and restaurants, an increase in customer occupancy in these locations may also chose to increase employee numbers.

5. *Probable impact of the rulemaking on small businesses.*

a. Identification of the small businesses subject to the rulemaking: Small businesses impacted by these rules are independent retailers licensed to sell Lottery games. These rules provide clarity regarding the requirements to validate a game ticket is a winning ticket. The rules streamline what is required for both the Lottery and a Lottery retailer. Furthermore, as these rules streamline development of additional product offerings that any specific store may choose to provide for their customers, the impact on these businesses will be positive as a means to generate additional revenue.

b. Administrative and other costs required for compliance with the rulemaking: Administrative costs incurred to comply with these rules will be borne almost exclusively by the Lottery in maintaining game integrity as part of game development. Costs to small businesses will be in the personnel resources/processes required to review and validate a winning ticket prior to payout. However, these costs to retailers existed prior to these rule amendments, which should reduce the costs by adding clarity to the processes.

c. A description of methods that may be used to reduce the impact on small businesses and reasons for the agency's decision to use or not use each method: Not applicable; these rules are expected to have a positive impact on small businesses.

d. Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking: Purchasing Lottery products is voluntary, therefore there are no required costs to consumers or the general public associated with this rulemaking. Consumers who purchase Lottery products will potentially benefit from a

new type of entertainment product. Additionally, these rules provide clarity for retailers and players regarding the requirements to validate a game ticket as a winning ticket.

6. *Probable effect on state revenues.*

A percentage of Lottery game revenue is returned to the state to fund various beneficiary programs as specified in A.R.S. § 5-572. In FY 21, the Lottery generated a total of \$1.43 billion in sales and provided \$280 million to Lottery beneficiaries, including the General Fund. An increase in sales due to additional product offerings will have a positive effect on the revenue coming into the Lottery and subsequently distributed to Lottery beneficiaries, including the General Fund.

7. *Less intrusive or less costly alternative methods of achieving the purpose of the rulemaking.*

The Lottery believes these rules are the least intrusive and least costly methods for achieving the purpose of the rules, maintaining game integrity. Statute requires the Lottery to have rules for game development and receive approval from the Lottery Commission prior to sale for any games. These rules provide standardization, as well as flexibility where necessary, allowing the Lottery to continuously streamline processes and achieve the maximum profit from each game offering.

8. *Description of any data on which the rule is based.*

Revenue data is actual ticket sales data collected through Lottery inventory and billing

tracking systems.

10. The agency's contact person who can answer questions about the economic, small business and consumer impact statement:

Name: Sherri Zendri, Director of Legal Services

Address: Arizona State Lottery

Phoenix, AZ 85034

Telephone: (480) 921-4401

Fax: (480) 921-4512

E-mail: SZendri@azlottery.gov

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

There are no substantive changes between the proposed rules and the final rules. Minor changes were made to expand promotion requirements in Article 10 to all “games” and not just tickets. Additionally a few edits were made to ensure the section titles were consistent throughout rulemaking and to correct typographical errors and improve language consistency throughout the rules.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

No oral or written comments were received regarding the rulemaking.

13. All agencies shall list other matters prescribed by statute applicable to the specific

agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

No other matters are applicable.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The implementing statutes of the Lottery require a licensing process rather than a general permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

There is no corresponding federal law that is applicable to the subject matter. The rules are based on state law.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted.

CHAPTER 3: ARIZONA STATE LOTTERY COMMISSION
ARTICLE 4: DESIGN & OPEATION OF LOTTERY GAMES GENERALLY
ARTICLE 7: DESIGN & OPEATION OF INSTANT GAMES
ARTICLE 10: PROMOTIONS

1. Identification of the proposed rulemaking.

The rules for Articles 4, 7, and 10, collectively referred to as the “Game Development Rules,” describe various types of Lottery games, including special promotions, and the requirements related to development, approval, and distribution of the games and promotions. The Lottery anticipates amendments to these articles will impact the agency the greatest. These rules allow the Lottery to introduce various product promotions, thus providing the State with a potential to increase revenue.

- *Article 4 – Design and Operation of Lottery Games Generally:* This article describes the requirements for Lottery games generally. The article includes the common provisions for the development, approval, validation, and redemption processes for all Lottery games.
- *Article 7 – Design and Operation of Instant Games:* This article describes the various requirements for the Lottery’s instant ticket games that are different from the games generally. The article includes provisions for both instant “scratch” tickets and instant “tab” tickets.
- *Article 10 – Promotions:* This article clarifies Lottery promotion procedures, including the types of promotions and who may participate in the promotion.

The Governor’s Office approved an exception from the rulemaking moratorium on April 19, 2022.

a. The conduct and its frequency of occurrence that the rule is designed to change:

This rulemaking is primarily designed to streamline current language and provide guidance for additional Lottery product development. The Lottery employs 6 FTEs whose main function is product development and management.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Without the rule amendments the Lottery staff will continuously reinvent documentation of development and approvals for innovative Lottery products not contemplated under the current rules. Such continued process struggles will slow product innovation and creativity, risking Lottery losing players to other forms of entertainment and thus losing potential revenue-sharing funds for the State.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

The Lottery expects a reduction in the length of time staff spend on dealing with documentation of development and approval of games since the language will be streamlined and simplified.

2. A brief summary of the information included in the economic, small business, and consumer impact statement.

The Lottery's Game Development Rules describe the requirements and procedures for development of a variety of Lottery game products. These rules primarily impact the Lottery and the documentation of game development and approval, including rules of play, prize amounts, and verification of winners. The rule amendments reduce duplicated text, and provide flexibility for developing new games products. The amended rules benefit the

Lottery by clarifying processes; players by providing new products; and retailers and the state revenues by increasing sales. The addition of new game play styles and promotion play styles will provide clarity to staff and the Lottery Commission board members when developing and approving games. The rules will not have any negative impact on political subdivisions, private/public employment, or the general public.

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement.

Name: Sherri Zendri, Director of Legal Services

Address: 4740 E. University Dr.
Phoenix, AZ 85034

Telephone: (480) 921-4401

Fax: (480) 921-4512

E-mail: SZendri@azlottery.gov

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking.

These rules primarily impact the Lottery regarding game development, and secondarily impact retailers and players with clarity around game validation requirements. It is expected that all parties impacted will be positively impacted.

5. Cost-benefit Analysis:

- a. Probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed***

rulemaking, including the number of new full-time employees necessary to implement and enforce the proposed rules.

The Game Development Rules primarily affect the agency. Costs to the Lottery include expenditures associated with game development and production, cash or merchandise prizes, point of sale items, any dedicated advertising, and any costs associated with agency and Commission approvals of a game. These expenses are included in the agency's annual appropriations:

Article 4 – Design and Operation of Lottery Games Generally: Cost for this article include the approval, validation, and redemption processes for all Lottery games generally. In FY 21 the Lottery paid out approximately \$998 million in prizes to Lottery players across all game and promotions types. Costs related to this article includes expenses to administer the on-line draw games network, including contract monitoring, game development, and providing customer service to retailers. As mentioned above, the costs are included in the agency's appropriated budget with the exception of development of a Keno game. As part of the rulemaking, the Lottery adds specific playstyles to accommodate future game opportunities, including Keno. This will provide flexibility for the Lottery to introduce new game initiatives or modify existing games in a timelier manner, thereby providing the state and licensed retailers with the potential to increase revenue. While the Lottery does not expect any unanticipated costs to date as a result of the game development rules, the addition of Keno in the Lottery's portfolio will incur more costs than revenue.

Article 7 – Design and Operation of Instant Games: This article describes the various requirements for the Lottery's instant ticket games that are different from the games generally. The article includes provisions for both instant "scratch" tickets and instant "tab" tickets. The Lottery currently contracts with a variety of vendors for printing of instant games. Again, the

Lottery does not expect any unanticipated costs to instant ticket development as a result of the game development rules.

Article 10 – Promotions: This article clarifies Lottery promotion procedures, including the types of promotions and who may participate in the promotion. The Lottery uses a variety of promotional game styles and has created a number of innovative promotional products to increase awareness of the Lottery and promote responsible play. These amended rules provide flexibility for the Lottery to introduce more innovative promotional initiatives.

Impact on Other Agencies: The rules have no identifiable impact on other agencies.

FTE Requirements: The Lottery anticipates the need for no new positions to implement and enforce the proposed rules.

b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking.

This rulemaking will not have any identifiable impact on political subdivisions of the state, other than providing funding for designated state programs.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditure of employers who are subject to the proposed rulemaking.

Businesses impacted by these rules are licensed Lottery retailers. These rules streamline the development of additional product offerings for retailers while continuing to maintain the highest standards for game integrity. Better game development processes will result in new games more frequently which is something both players and retailers desire. Additionally, businesses may realize nominal costs regarding the personnel resources/processes required to review and validate a winning ticket prior to payout. However these costs to retailers existed

prior to these rule amendments, which should reduce the costs by adding clarity to the processes. The overall impact on businesses will be positive as a means to generate additional revenue.

6. *Probable impact on private and public employment in businesses, agencies, and political subdivisions of the state directly affected by the proposed rulemaking.*

These rules have no identifiable impact on private and public employment. However, as new product offerings generate more opportunities for social retailers such as bars and restaurants, an increase in customer occupancy in these locations may also chose to increase employee numbers.

7. *Probable impact of the rulemaking on small businesses.*

a. *Identification of the small businesses subject to the rulemaking.*

Small businesses impacted by these rules are independent retailers licensed to sell Lottery games. These rules provide clarity regarding the requirements to validate a game ticket is a winning ticket. The rules streamline what is required for both the Lottery and a Lottery retailer. Furthermore, as these rules streamline development of additional product offerings that any specific store may choose to provide for their customers, the impact on these businesses will be positive as a means to generate additional revenue.

b. *Administrative and other costs required for compliance with the rulemaking.*

Administrative costs incurred to comply with these rules will be borne almost exclusively by the Lottery in maintaining game integrity as part of game development. Costs to small businesses will be in the personnel resources/processes required to review and validate a winning ticket prior to payout. However, these costs to retailers existed prior

to these rule amendments, which should reduce the costs by adding clarity to the processes.

c. A description of methods that may be used to reduce the impact on small businesses and reasons for the agency's decision to use or not use each method.

Not applicable; these rules are expected to have a positive impact on small businesses.

8. *Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking.*

Purchasing Lottery products is voluntary, therefore there are no required costs to consumers or the general public associated with this rulemaking. Consumers who purchase Lottery products will potentially benefit from a new type of entertainment product. Additionally, these rules provide clarity for retailers and players regarding the requirements to validate a game ticket as a winning ticket.

9. *Probable effect on state revenues.*

A percentage of Lottery game revenue is returned to the state to fund various beneficiary programs as specified in A.R.S. § 5-572. In FY 21, the Lottery generated a total of \$1.43 billion in sales and provided \$280 million to Lottery beneficiaries, including the General Fund. An increase in sales due to additional product offerings will have a positive effect on the revenue coming into the Lottery and subsequently distributed to Lottery beneficiaries, including the General Fund.

10. *Less intrusive or less costly alternative methods of achieving the purpose of the rulemaking.*

The Lottery believes these rules are the least intrusive and least costly methods for achieving the purpose of the rules, maintaining game integrity. Statute requires the Lottery to have rules for game development and receive approval from the Lottery Commission prior to sale for any games. These rules provide standardization, as well as flexibility where necessary, allowing the Lottery to continuously streamline processes and achieve the maximum profit from each game offering.

11. Description of any data on which the rule is based.

Revenue data is actual ticket sales data collected through Lottery inventory and billing tracking systems.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - ONE-YEAR REVIEW REPORT

MEETING DATE: November 1, 2022

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: October 12, 2022

SUBJECT: ARIZONA DEPARTMENT OF GAMING
Title 19, Chapter 2, Article 4

Summary

This One-Year Review Report from the Arizona Department of Gaming (Department) relates to two rules in Title 19, Chapter 2, Article 4 related to Advance Deposit Wagering, Teletracking, and Simulcasting. Specifically, HB2772 (Laws 2021, Chapter 234) granted the Department a one-time exemption from the rulemaking requirements of that Administrative Procedures Act to conduct a rulemaking to modernize rules regarding the regulation of Advanced Deposit Wagering (ADW) accounts for Arizona's horse racing industry. The updated rules allowed for ADW providers to offer mobile accounts instead of relying on the "telephone only" rule that has existed in the past. The Department states this provides companies the ability to expand their reach to consumers in Arizona and grow the number of participants who wish to engage in betting on horse racing that are conducted on a pari-mutuel basis.

Ultimately, the Department indicates the most important impact of the rule changes is that consumers in Arizona are now allowed to bet on horse racing using methods that they could only enjoy previously while betting outside of Arizona.

Proposed Action

The Department is proposing no additional course of action related to these rules.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for the rules under review. The session law authorizing a one-time exemption from the APA is Laws 2021, Chapter 234. A copy of the session law is included in the final materials for the Council's reference

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states there will be limited economic benefit from the modernization of rules regarding the regulation of Advanced Deposit Wagering (ADW) accounts for Arizona's horse racing industry. Further, the Department indicates that these updated rules allow for ADW providers to offer mobile accounts instead of relying on the "telephone only" rule that has existed in the past. The Department says that this effectively provides companies the ability to expand their reach to consumers in Arizona and grow the number of participants who wish to engage in betting on horse racing that are conducted on a pari-mutuel basis. Stakeholders include that Department and advance deposit wagering providers.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states that the Arizona Advance Deposit Wagering Providers (ACWPs) have offered their online wagering in addition to their telephone betting option since September 2021. The Department states that when comparing the same months in 2021 and 2022, SDWPs show an average increase of \$1,000,000 handle per month in 2022 after online wagering became legal, capturing a percentage of the horse track handle from live races and growing their customer base from sport wagering.

The Department believes that the most important impact of these rules is that consumers in Arizona are now allowed to bet on horse racing using methods they could only enjoy previously while betting outside of Arizona. The Department states that these rules allow for better consumer protections and account oversight due to the elimination of outdated rules.

4. Has the agency received any written criticisms of the rules since the rule was adopted?

The Department indicates it has not received any written criticisms of the rules since they were adopted.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department states the rules under review are clear, concise, and understandable.

6. **Has the agency analyzed the rules' consistency with other rules and statutes?**

The Department states the rules under review are consistent with other rules and statutes.

7. **Has the agency analyzed the rules' effectiveness in achieving its objectives?**

The Department states the rules are currently effective in achieving their objectives.

8. **Has the agency analyzed the current enforcement status of the rules?**

The Department states the rules under review are currently enforced as written.

9. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department indicates the rules are not more stringent than corresponding federal law. Specifically, the Department states the Professional and Amateur Sports Protection Act ("PASPA"), enacted by Congress in 1992, was struck down by the United States Supreme Court on May 14, 2018. The Department indicates this ruling cleared the way for individual states to determine whether to and how to legalize sports betting. The Department indicates, due to the passage of Arizona laws corresponding to Sports Betting that allow for similar online betting to occur within racing, Arizona rules have been updated accordingly.

10. **Has the agency completed any additional process required by law?**

Not applicable.

11. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The rules reviewed do not require a permit, license, or agency authorization.

12. **Conclusion**

Council staff finds that the Department submitted an adequate report that meets the requirements of A.R.S. § 41-1095. As indicated above, HB2772 (Laws 2021, Chapter 234) granted the Department a one-time exemption from the rulemaking requirements of that Administrative Procedures Act to conduct a rulemaking to modernize rules regarding the regulation of Advanced Deposit Wagering (ADW) accounts for Arizona's horse racing industry. The updated rules allowed for ADW providers to offer mobile accounts instead of relying on the "telephone only" rule that has existed in the past. The Department states this provides companies the ability to expand their reach to consumers in Arizona and grow the number of participants who wish to engage in betting on horse racing that are conducted on a pari-mutuel

basis. Consumers in Arizona are now allowed to bet on horse racing using methods that they could only enjoy previously while betting outside of Arizona.

Council staff recommends approval of this report.

 Racing
 1 Year Rule Report
 10/17/2022

1. **Authorization of the rule by existing statutes**

A.R.S § 5-101, et seq. A.R.S. § 5-1314(B) specifically authorizes “wagers on racing meetings or simulcasted races...through the means that other wagers allowed by this chapter.” Further, Sec. 7 of HB2772 provides authorization for emergency exempt rulemaking states: “the Department of Gaming (“ADG” or the “Department”) is exempt from the rulemaking requirements of title 41, chapter 6, Arizona Revised Statutes, for one year after the effective date of this act.”

2. **The objective of each rule:**

Rule	Objective
R19-2-401	Definitions: This rule provides commonly used definitions to be used throughout the Article for ease of reference; updates were made to comply with statutory changes.
R19-2-410	Advanced Deposit Wagering (ADW) Accounts: The rule states standards and practice for any individual to establish an ADW account, including methods for account set up, information needed, designations, and compliance. Updates were made to comply with statutory changes.

3. **Are the rules effective in achieving their objective?** YES ✓ NO__

4. **Are the rules consistent with other rules and statutes?** YES ✓ NO__

5. **Are the rules enforced as written?** YES ✓ NO__

6. **Are the rules clear, concise, and understandable?** YES ✓ NO__

7. **Has the agency received written criticisms of the rules within the last year?**

YES ___ NO ✓

8. **Economic, small business, and consumer impact comparison**

There will be limited economic benefit from the modernization of rules regarding the regulation of Advanced Deposit Wagering (ADW) accounts for Arizona’s horse racing industry. These updated rules allow for ADW providers to offer mobile accounts instead of relying on the “telephone only” rule that has existed in the past. Effectively, this provides companies the ability to expand their reach to consumers in Arizona and grow the number of participants who wish to engage in betting on horse racing that are conducted on a pari-mutuel basis. Once the acquisition of new consumers has been completed, these new rules would be expected to bring in an additional \$160,000 – \$180,000 to the Arizona Department of Gaming, a portion of which is set aside to provide funding for a Breeders Award program that is essential to maintaining horse racing as an industry in the long term.

Neither a positive nor negative change on the impact of small business is expected from the updating of these rules, due to existing barriers of entry in the ADW space. This market is dominated by national companies and there exist high barriers of entry that have limited the number of companies offering ADW betting. However, the State of Arizona may attract new entries into this market that were not willing to participate previously due to burdens that previous rules forced them to adhere to.

The most important impact of these rules is that consumers in Arizona are now allowed to bet on horse racing using methods that they could only enjoy previously while betting outside of Arizona. These rules allow for better consumer protections and account oversight due to the elimination of outdated rules.

9. **Has the agency received any business competitiveness analyses of the rules?** YES _____ NO ✓_____

10. **Has the agency completed the course of action indicated in the agency’s previous one-year-review report?** YES ___ NO ✓_____

N/A. This is our first one year review report.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

Arizona Advance Deposit Wagering Providers (ADWPs) have offered their customers online wagering in addition to their telephone betting option since September 2021. When comparing the same months in 2021 and 2022, ADWPs show an average increase of \$1,000,000 handle per month in 2022 after online wagering became legal, capturing a percentage of the horse track handle from live races and growing their customer base from sport wagering. Anecdotally, some ADWPs anticipate additional expenses related to enhancing software platforms, but the Department has not been provided with data or evidence reflecting this claim.

12. **Are the rules more stringent than corresponding federal laws** YES _____ NO ✓_____

Professional and Amateur Sports Protection Act (“PASPA”), enacted by Congress in 1992, was struck down by the United States Supreme Court on May 14, 2018. This ruling cleared the way for individual states to determine whether to and how to legalize sports betting. Due to the passage of Arizona laws corresponding to Sports Betting that allow for similar online betting to occur within racing, Arizona rules have been updated accordingly.

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S § 41-1037 or explain why the agency believes an exception applies:**

Non-applicable as there are no licenses issued.

14. **Proposed course of action:**

No additional course of action; however, the Department requests that the Governor's Regulatory Review Council place these rules on a 5 year review timeline going forward, as any further rulemaking revisions will comply with all regular rulemaking requirements.

ARTICLE 4. ADVANCE DEPOSIT WAGERING, TELETRACKING, AND SIMULCASTING

Editor's Note: Under Laws 2014, Ch. 277, § 9, the Commission was required to provide at least one public hearing on the final exempt rulemaking amendments in R19-2-205. The Office of the Secretary of State makes a distinction between exempt rulemakings and final exempt rulemakings. Final exempt rulemakings are those filed with conditional exemptions to the Arizona Administrative Procedures Act such as requirements to conduct a public hearing or accept public comments on a proposed exempt rulemaking (Supp. 15-2).

Section R19-2-401 was adopted and subsequently amended under an exemption from the provisions of the Arizona Administrative Procedure Act under A.R.S. § 41-1005(A)(18). Exemption from the rulemaking process means that the agency did not submit these rules to the Secretary of State's Office for publication in the Register as proposed rules, the agency was not required to accept public comment, and the rules were not approved by either the Governor's Regulatory Review Council or the Attorney General.

All parties to the contracts shall certify to the other parties that each will provide the others or their regulatory bodies full and prompt access to necessary requested records.
2. Individual wagering transactions are made at the point of sale in the state where placed. Pari-mutuel pools are combined solely for computing odds and calculating payoffs but will be held separate for auditing and all other purposes.
3. The content and format of the visual display of racing and wagering information at facilities in other jurisdictions where wagering is permitted in the interstate common pool need not be identical to the information permitted or required to be displayed under these rules.
4. A racetrack permittee may participate in common pool wagering only on the same type of racing as authorized by the permit for live racing conducted by the racetrack permittee.

B. Participation in interstate common pools by receiving racetrack permittee.

1. With prior approval of the Department, pari-mutuel wagering pools may be combined with corresponding wagering pools at the sending facility outside of this state.

2. This Chapter applies to interstate common pools unless the Department specifically determines otherwise.
 3. A racetrack permittee shall ensure that any contract for interstate common pools entered contains a provision providing that if, for any reason, it becomes impossible to merge successfully the bets placed in another state into the interstate common pool formed by the racetrack permittee or if, for any reason, the Department's or the racetrack permittee's representative determines that attempting to effect transfer of pool data from the receiving facility may endanger the racetrack permittee's wagering pool, the racetrack permittee has no liability for any measures taken that may result in the receiving facility's wagers not being accepted into the pool.
 4. Amounts wagered in an interstate common pool other than amounts wagered within this state are not considered part of the racetrack permittee's pari-mutuel wagering pool for purposes of A.R.S. § 5-111. GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - ONE-YEAR REVIEW REPORT

MEETING DATE:

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: 10/13/2022

SUBJECT: ARIZONA DEPARTMENT OF GAMING
Title 19, Chapter 4, Article 1, Event Wagering

Summary

This One-Year Review Report (1YRR) from the Arizona Department of Gaming (Department) relates to Title 19, Chapter 4, Article 1 regarding Event Wagering. Amendments to these rules were adopted in an exempt rulemaking pursuant to A.R.S. §§ 5-1201 through 5-1213 and Sec. 7 of HB2772 which granted the Department a one-time exemption from the Administrative Procedures Act (APA) in Title 41, Chapter 6 of the Arizona Revised Statutes. A copy of the Notice of Exempt Rulemaking is included with the final materials for the Council's reference.

These rules create classifications of business licenses and specify the costs for entry into the supplier market to bring regulated sports betting to Arizona.

The Department submitted this 1YRR pursuant to A.R.S. § 41-1095.

1. Has the agency analyzed whether the rules are authorized by statute?

Yes. The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states that pursuant to A.R.S. § 5-1318, the Event Wagering Fund was established. The Department further indicates that these rules, authorized by statute, set the privilege fee rate as well as the business and employee license fees. The rules create classifications of business licensing which allows for ease of access to the supplier market for small businesses and local/regional vendors.

The Department indicates that the rules bring a regulated sports betting market to the citizens of Arizona. Further, with consumer protections rules clearly outlined, bettors can feel comfortable knowing they are depositing money, placing wagers, and requesting monetary withdrawal with operators regulated by the Arizona Department of Gaming. Stakeholders include the Department and operators regulated by the Arizona Department of Gaming.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states the Event Wagering Fund is established by statute. Each month, ninety percent of the monies in the Event Wagering Fund are transferred to the State General Fund. The remaining ten percent within this fund is allocated for the regulation and enforcement of event wagering in Arizona. Event wagering is non-appropriated and has no in-state entry fees. The Department states that event wagering privilege fees totaled \$16,000,000 on \$163,000,000 of adjusted gross event wagering receipts for fiscal 2022.

4. Has the agency received any written criticisms of the rules since the rule was adopted?

No, the Department has not received any written criticisms of the rules since the rule was adopted.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

Yes, the Department indicates the rules are overall clear, concise, and understandable.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

Yes, the Department indicates the rules are consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

Yes, the Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

Yes, the Department indicates the rules are enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Professional and Amateur Sports Protection Act of 1992 was struck down by the Supreme Court on May 14, 2018, allowing individual states to determine whether to and how to legalize sports betting.

10. Has the agency completed any additional process required by law?

No additional process was required.

11. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Yes, the Department's licensing rules comply with A.R.S. § 41-1037, except where the following occurs:

R19-4-104, R19-4-105, and R19-4-106 fall within the allowable exceptions to A.R.S. § 41-1037(A)(2), which states, "the issuance of an alternative type of permit, license, or authorization is specifically authorized by state statute", and (3) which states, "the issuance of a general permit is not technically feasible or would not meet the applicable statutory requirements."

12. Conclusion

Council staff finds that the Board submitted an adequate report pursuant to A.R.S. § 41-1095. The Department is not proposing any additional action, but requests placement on the five year review timeline moving forward as any further rulemaking revisions will comply with all regular rulemaking requirements. For this reason, Council staff recommends approval of the report.

3. **Are the rules effective in achieving their objective?** YES ✓ NO__
4. **Are the rules consistent with other rules and statutes?** YES ✓ NO__
5. **Are the rules enforced as written?** YES ✓ NO__

6. **Are the rules clear, concise, and understandable?** YES NO

7. **Has the agency received written criticisms of the rules within the last year?**
YES NO

Pursuant to Laws 2021, Chapter 234-E, The Department was permitted a rule exemption that expired on April 15, 2022, one year from the date of the emergency enactment of the bill. During each rulemaking and amendment action, the Department solicited written feedback from stakeholders that further shaped the Department's rule language prior to submitting the rules to the Secretary of State, including the latest amendment action conducted on April 14, 2022

8. **Economic, small business, and consumer impact comparison**

There will be substantial economic benefit from the growth of regulated event wagering. These rules, authorized by statute, set the privilege fee rate as well as the business and employee license fees. These fees will bring revenues to the State of Arizona in the range of \$23,000,000-\$27,000,000 per annum. Additionally, these newly regulated activities have the potential to create between 100-200 jobs statewide, along with 6-10 regulatory positions for the Department of Gaming.

The rules create classifications of business licensing which allow for ease of access to the supplier market for small businesses and local/regional vendors. The costs for entry into the supplier market have been set conservatively with minimally invasive backgrounding based on the requirements of the statute. The costs for entry into the operator market have been set moderately, in-line with other event wagering jurisdictions, to allow for the creation of revenue for the State of Arizona.

Most importantly, the rules bring a regulated sports betting market to the citizens of Arizona. With consumer protection rules clearly outlined, bettors can feel comfortable knowing

they are depositing money, placing wagers, and requesting monetary withdrawal with operators regulated by the Arizona Department of Gaming.

9. **Has the agency received any business competitiveness analyses of the rules?**

YES _____ NO ✓

10. **Has the agency completed the course of action indicated in the agency's previous one-year-review report?**

YES __ NO ✓

N/A. This is our first one year review report.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

Pursuant to A.R.S. § 5-1318, the Event Wagering Fund is established. Each month, ninety percent of monies in this fund are transferred to the State General Fund. The remaining ten percent within this fund is allocated for the regulation and enforcement of event wagering in Arizona. Event Wagering is non-appropriated and has no in-state entry fees. Event wagering Privilege fees totaled \$16,000,000 on \$163,000,000 of adjusted gross event wagering receipts for fiscal year 2022.

12. **Are the rules more stringent than corresponding federal laws**

YES _____ NO ✓

Professional and Amateur Sports Protection Act ("PASPA"), enacted by Congress in 1992, was struck down by the United States Supreme Court on May 14, 2018. This ruling cleared the way

for individual states to determine whether to and how to legalize sports betting, as there was no longer a federal law prohibiting such conduct.

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S § 41-1037 or explain why the agency believes an exception applies:**

Yes, the Department's new licensing rules are compliant pursuant to A.R.S. § 41-1037, except where the following applies:

R19-4-104, R19-4-105, and R19-4-106 fall within the allowable exceptions to A.R.S. § 41-1037(A)(2), which states, "the issuance of an alternative type of permit, license, or authorization is specifically authorized by state statute", and (3) which states, "the issuance of a general permit is not technically feasible or would not meet the applicable statutory requirements."

In this case, the statute authorizes certain licenses for specified durations and titles. For example, R19-4-104 Section A states, "the event wagering employee license shall be in effect for two years and the employee shall have obtained a renewal from the Department thereafter as a condition of continuing employment", as required by A.R.S. § 41-1037, and "Event Wagering operators shall have obtained a license from the Department prior to commencing employment or performing the duties of the position". Additionally, due to the nature of the various license types indicated in statute, it is not possible to issue a general permit that would meet the statutory requirements for these various licenses.

R19-4-105 Section A states, "every applicant for a license shall submit a complete application in the form prescribed by the Department, which shall include all information, and

documentation required by the Department along with the applicable fees”. A.R.S. § 41-1037 (A)(4) states, “The issuance of a general permit would result in additional regulatory requirements or costs being placed on the permit applicant”. R19-4-105 Section B lists all fees associated with the permits and licenses. R19-4-105 Section D discusses the receipt of a temporary license “unless the Department does not believe the applicant will qualify for licensure”. A general permit would not meet the requirements for this license as it would cost the applicant more.

R19-4-106 discusses licenses which are allocated by the Department, specifically for event wagering operator licenses which ties into A.R.S. § 41-1037 (A)(2), which states, “The issuance of an alternative type of permit, license or authorization is specifically authorized by state statute.” These licenses are of an “alternative type”. Also, because event wagering licenses are limited a general permit would not apply here due the specifics of the licenses issued for event wagering. A.R.S. § 41-1037(A)(4) states, “The issuance of a general permit would result in additional regulatory requirements or costs being placed on the permit applicant”. The applicants for an event wagering license are applying and paying for the specific event wagering license and therefore a general permit could incur more fees or steps.

14. **Proposed course of action:**

No additional course of action; however, the Department requests that the Governor’s Regulatory Review Council place these rules on a 5 year review timeline going forward, as any further rulemaking revisions will comply with all regular rulemaking requirements.
