**ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM (AHCCCS)**

Title 9, Chapter 22

**Amend:** R9-22-712.63

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** December 6, 20 22

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** November 14, 2022

**SUBJECT:** Arizona Health Care Cost Containment System (AHCCCS)  
Title 9, Chapter 22

**Amend:** R9-22-712.63

---

### **Summary:**

This regular Rulemaking from AHCCCS relates to rules in Title 9, Chapter 22, Article 7 regarding Standards for Payments. Specifically, AHCCCS seeks to amend one rule, R9-22-712.63, regarding All Patient Refined Diagnosis Related Groups (APR-DRG) payment methodology. The APR-DRG payment methodology is currently the primary reimbursement method for AHCCCS hospital inpatient care services, AHCCCS transitioned to this payment methodology in 2014 from the previous tiered per diem rates.

Pursuant to A.R.S. S § 36-2903.01, AHCCCS has the authority to implement supplemental payment methodologies or may adjust rates. This rulemaking will create a unique base payment amount for rural hospitals that currently qualify for payment under A.R.S. § 36-2905.02, and will also ensure AHCCCS has the flexibility to continue to provide funding for rural hospitals. The proposed changes to R9-22-712.63 will ensure alignment with previously funded Rural Hospital Inpatient Fund payment within the APR-DRG payment methodology.

AHCCCS received approval from the rulemaking moratorium to initiate this rulemaking on July 19, 2022, and final approval to submit to the Council on October 18, 2022.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

Yes, AHCCCS cites to both general and specific statutory authority.

2. **Do the rules establish a new fee or contain a fee increase?**

No, rules do not establish a new fee or fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

AHCCCS did not review or rely on any study for this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The Administration anticipates that this rulemaking will ensure that current supplemental payments made to rural hospitals may continue as part of the Diagnosis Related Groups (DRG) payment methodology. With this change, \$12.1 million will continue to be provided to critical hospitals in non-urban settings.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Agency states that they did not consider other alternatives because the revisions to the rule are the most cost effective and efficient method of complying with federal law and state law as well as the State's fiduciary responsibility to Arizona taxpayers.

6. **What are the economic impacts on stakeholders?**

Inpatient hospitals that are reimbursed by the All Patient Refined Diagnosis Related Groups (APR-DRG) methodology will directly benefit from a reimbursement system that is in line with the current healthcare market and responsive to changes in health care industry coding standards. The update ensures that AHCCCS payment methodologies continue to adjust as factors change over time to support economic growth within Arizona, as well as being reflective of the urban-rural differences that face our healthcare industry.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

No, there were no changes between the proposed and final rulemaking.

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

Yes, the Department received one comment, in support of the rulemaking, from the Arizona Hospital and Healthcare Association. AHCCCS adequately responded to the comment.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable, the rule does not require the issuance of a general permit or license.

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

No, the rule is not more stringent than federal law.

11. **Conclusion**

As mentioned above, AHCCCS seeks to amend one rule regarding APR-DRG payment methodology as it relates to rural hospitals. AHCCCS is seeking an immediate effective date pursuant to A.R.S. § 41-1032(A)(4), (“to provide a benefit to the public and a penalty is not associated with a violation of the rule”). Council staff finds that the Department demonstrates adequate justification for an immediate effective date.

Council staff recommends approval of this rulemaking.

October 18, 2022

RE: R9-22-712.63 Rulemaking

Dear Ms. Sorenson:

- |    |  |            |
|----|--|------------|
| 1. | The close of record date:  | 10/03/2022 |
| 2. | Does the rulemaking activity relate to a Five Year Review Report:    | No         |
| a. | If yes, the date the Council approved the Five Year Review Report:   | N/A        |
| 3. | Does the rule establish a new fee:                                   | No         |
| a. | If yes, what statute authorizes the fee:                             | N/A        |
| 4. | Does the rule contain a fee increase:                                | No         |
| 5. | Is an immediate effective date requested pursuant to A.R.S. 41-1032: | Yes        |

AHCCCS certifies that the preamble discloses a reference to any study relevant to the rule that the agency reviewed. AHCCCS certifies that the preamble states that it did not rely on any such study in the agency's evaluation of or justification for the rule.

AHCCCS certifies that the preparer of the economic, small business, and consumer impact statement has notified the Joint Legislative Budget Committee of the number of new full-time employees necessary to implement and enforce the rule.

The following documents are enclosed:

1. Notice of Final Rulemaking, including the preamble, table of contents, and text of each rule;
2. An economic, small business, and consumer impact statement that contains the information required by A.R.S. 41-1055;
3. If applicable: The written comments received by the agency concerning the proposed rule and a written record, transcript, or minutes of any testimony received if the agency maintains a written record, transcript or minutes;
4. If applicable: Any analysis submitted to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of business in other states;
5. If applicable: Material incorporated by reference;
6. General and specific statutes authorizing the rules, including relevant statutory definitions; and
7. If applicable: If a term is defined in the rule by referring to another rule or a statute other than the general and specific statutes authorizing the rule, the statute or other rule referred to in the definition.

Sincerely,

/s/

Kasey Rogg  
Assistant Director

**6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

All Patient Refined Diagnosis Related Groups (APR-DRG) payment methodology is the primary reimbursement method for AHCCCS hospital inpatient care services. AHCCCS transitioned to the APR-DRG payment methodology beginning October 1, 2014 from the previous tiered per diem rates. AHCCCS updated the model starting January 1, 2018 and again beginning October 1, 2021. A.R.S § 36-2905.02 provides two available options to enhance rural hospital reimbursement with existing appropriated monies. AHCCCS has the authority to implement a supplemental payment methodology or may adjust rates established pursuant to section A.R.S § 36-2903.01, subsection G. AHCCCS is proposing to create a unique base payment amount for rural hospitals that current qualify for payments under A.R.S § 36-2905.02. Due to Centers for Medicare & Medicaid Services (CMS) restrictions, this additional base payment amount will ensure AHCCCS has the flexibility to continue to provide funding to rural hospitals. AHCCCS has updated the language to ensure that the

transition from the current payment methodology to the APR-DRG payment methodology has minimal impact to the existing allocation of funds.

Through the public comment process, AHCCCS has determined that additional modifiers were needed in R9-22-712.63 for the methodology to achieve its intended purpose. With this rulemaking, a modification will be made to A.A.C. R9-22-712.63 to create a rural hospital DRG base rate hospital class. The proposed rulemaking will ensure alignment with previously funded Rural Hospital Inpatient Fund payments within the APR-DRG payment methodology.

**7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

No study was used.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

The rulemaking will not diminish a previous grant of authority.

**9. A summary of the economic, small business, and consumer impact:**

The Administration anticipates that the DRG rulemaking will ensure that current supplemental payments made to rural hospitals may continue as part of the DRG payment methodology. With this change, 12.1 million dollars will continue to be provided to critical hospitals in non-urban settings.

**10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

There were no changes between the proposed supplemental rulemaking and the final rulemaking.

**11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

No public comments were submitted during the public comment period for the proposed supplemental rulemaking, however AHCCCS chose to initiate the supplemental rulemaking in order to address the one public comment received during the initial proposed rulemaking and that comment has been included below.

Commenter	Date	Comment	AHCCCS Response
Amy Upston, Director of Financial Policy and Reimbursement - Arizona Hospital and Healthcare Association	7/5/2022	Thank you for the opportunity to comment on the proposed rule for the All Patient Refined Diagnosis Related Groups (APR-DRG) Payment Methodology. I am responding on behalf of the Arizona Hospital and Healthcare Association (AzHHA) and our thirteen rural hospitals that will be impacted by the proposed incorporation of the rural inpatient supplemental payments into the APR-DRG payments methodology. AzHHA deeply appreciates the initiative the AHCCCS Administration has taken on this proposed rule in order to ensure rural hospitals continue to receive the approximate \$12.2 million that has been appropriated annually for almost 20 years in the state budget and which is referenced in A. R. S. § 36-2905.02. These monies are critical to financing these hospitals and ensuring they continue to provide access to care for AHCCCS members. It is our understanding that it is the AHCCCS Administration’s intent to find a way to disburse these monies to the eligible hospitals in such a way that most closely mirrors how they are currently being distributed. AzHHA strongly supports this approach.	AHCCCS appreciates the Arizona Hospital and Healthcare Association feedback in regards to the All Patient Refined Diagnosis Related Group (APR-DRG) payment methodology proposed rule. AHCCCS values the partnership that the agency has established with the Association to provide healthcare services to the AHCCCS members.

		<p>While we realize that funneling the \$12.2 million appropriation through the APR-DRG base payments is likely the best solution for retaining similar payment structure, our members would like to see modeling done prior to the new base rate being finalized and would appreciate another opportunity to provide input on that modeling. Additionally, we are concerned the payment amount for at least one of the hospitals is likely to substantially decrease since a significant portion of its inpatient payments are related to behavioral health services, which are not paid through the APR-DRG methodology. AzHHA would like the opportunity to confirm this once initial modeling is shared with the hospitals and the opportunity to propose additional measures if deemed necessary. For example, AHCCCS may want to consider an APR-DRG adjustor (similar to the high Medicaid volume hold-harmless adjustor) for significantly impacted hospitals or a change in the behavioral health inpatient fee schedule for significantly impacted hospitals.</p> <p>We appreciate your consideration of this request and look forward to additional modeling of each impacted hospital. Please do not hesitate to contact me if you have any questions, or if I can provide additional information.</p>	<p>AHCCCS will continue to work with the Association on the implementation of the rule to try and achieve the best possible outcome as we move from a pass-through payment for the Rural Hospital Inpatient Fund (RHIF) to the incorporation of the funding into the APR-DRG model.</p>
--	--	--	---

**12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

No other matters.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

Not applicable.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

The rule is not more stringent than federal law.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

Not applicable.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

Not applicable.

**14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable.

**15. The full text of the rules follows:**

**ARTICLE 7. STANDARDS FOR PAYMENTS**

**Section**

R9-22-712.63      DRG Base Payments Not Based on the Statewide Standardized Amount

## ARTICLE 7. STANDARDS FOR PAYMENTS

### **R9-22-712.63. DRG Base Payments Not Based on the Statewide Standardized Amount**

- A. Notwithstanding Section R9-22-712.62, a select specialty hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) to calculate the DRG base rate for the following hospitals:
1. Hospitals located in a city with a population greater than one million, which on average have at least 15 percent of inpatient days for patients who reside outside of Arizona, and at least 50 percent of discharges as reported on the 2011 Medicare Cost Report are reimbursed by Medicare.
  2. Hospitals designated as type: hospital, subtype: short term that has a license number beginning “SH” in the Provider & Facility Database for Arizona Medical Facilities posted by the ADHS Division of Licensing Services on its website for March of each year.
- B. The select specialty hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency’s website.
- C. Notwithstanding Section R9-22-712.62, a rural hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) to calculate the DRG base rate for the following hospitals:
1. A health care institution that is licensed as an acute care hospital, that has one hundred or fewer beds, and that is located in a county with a population of less than five hundred thousand persons; or
  2. A health care institution that is licensed as a critical access hospital.
- D. The rural hospital standardized amount is included in the AHCCCS capped fee schedule

available on the agency's website.

- E. Notwithstanding Section R9-22-712.62 and R9-22-712.63(B), a hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) or R9-22-712.63(B) to calculate the DRG base rate for a health care institution that is licensed as an acute care hospital, that has one hundred or fewer beds, that is located in a county with a population of less than five hundred thousand persons and has greater than twenty percent of Medicaid inpatient reimbursement with a primary diagnosis of behavioral health in the prior federal fiscal year as of April 30th.
- F. The hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.
- G. Notwithstanding Section R9-22-712.62 and R9-22-712.63(B), a hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) or R9-22-712.63(B) to calculate the DRG base rate for a health care institution with two separate ADHS acute care hospital licenses, with one facility that has one hundred or fewer beds, that is located in a county with a population of less than five hundred thousand persons and has one single AHCCCS registration for both licenses.
- H. The hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.

**ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT**

**TITLE 9. HEALTH SERVICES**

**CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM -**

**ADMINISTRATION**

**ARTICLE 7. STANDARDS FOR PAYMENTS (R9-22-712.63)**

**1. Identification of rulemaking.**

The Arizona Health Care Cost Containment System Administration is the single State agency responsible for administration of the Medicaid program in Arizona. The program is jointly funded by the State, counties, and the federal government. Federal law imposes a substantial number of conditions on the receipt of federal financial assistance reflected in federal statutes (42 U.S.C. § 1396 et seq.) and regulation (generally, 42 C.F.R. Parts 430 through 455). While States are provided substantial flexibility with respect to the payment methods for health care providers that agree to participate, federal law does require that states “assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.” 42 U.S.C. § 1396a(a)(30)(A).

As background, State law requires the agency to adopt a diagnosis-related group (DRG) based hospital reimbursement methodology consistent with Title XIX of the Social Security Act for inpatient dates of service on and after October 1, 2014. A.R.S. § 36-2903.01(G)(12). A diagnosis- related group (DRG) based hospital reimbursement methodology pays a fixed amount on a “per discharge basis.” Under this methodology

each claim is assigned to a DRG based on the patient's diagnoses, surgical procedures performed, age, gender, birth weight, and discharge status. The goal of diagnosis-related groups is to classify inpatient stays into categories based on similar clinical conditions and on similar levels of hospital resources required for treatment. These categories are identified using Diagnosis-Related Group (DRG) codes each of which is assigned a relative weight appropriate for the relative amount of hospital resources expected to be used to treat the patient.

Pursuant to A.R.S. § 36-2903.01(G), the agency promulgates rules that describe the payment methodology; however, per A.R.S. § 41-1005(A)(9), the agency is not required to have rules that set forth the actual amounts of fee-for-service payments. As a condition of federal financial participation, the agency is required to provide notice through its website and/or publication through the State administrative register. In addition, the State must provide an opportunity for public comment on significant proposed changes to methods and standard for payment rates. 42 U.S.C. § 1396a(a)(13) and 42 C.F.R. § 447.205.

AHCCCS transitioned to the APR-DRG payment methodology beginning October 1, 2014 from the previous tiered per diem rates. AHCCCS updated the model starting January 1, 2018 and again beginning October 1, 2021. A.R.S § 36-2905.02 provides two available options to enhance rural hospital reimbursement with existing appropriated monies. AHCCCS has the authority to implement a supplemental payment methodology or may adjust rates established pursuant to section A.R.S § 36-2903.01, subsection G. AHCCCS is proposing to create a unique base payment amount for rural hospitals that current qualify for payments under A.R.S § 36-2905.02. Due to Centers for Medicare &

Medicaid Services (CMS) restrictions, this additional base payment amount will ensure AHCCCS has the flexibility to continue to provide funding to rural hospitals. AHCCCS has updated the language to ensure that the transition from the current payment methodology to the APR-DRG payment methodology has minimal impact to the existing allocation of funds.

Through the public comment process, AHCCCS has determined that additional modifiers were needed in R9-22-712.63 for the methodology to achieve its intended purpose. With this rulemaking, a modification will be made to A.A.C. R9-22-712.63 to create a rural hospital DRG base rate hospital class. The proposed rulemaking will ensure alignment with previously funded Rural Hospital Inpatient Fund payments within the APR-DRG payment methodology.

**a. The conduct and its frequency of occurrence that the rule is designed to change:**

The rule is designed to regulate the payment methods used by the agency and its contractors. The proposed changes are intended to update the APR-DRG reimbursement system for rural hospital services and facilitate future updates by making the process less burdensome to stakeholders.

**b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:**

If the rule is not changed the cost of that differential will burden rural hospitals, and indirectly patients in Arizona.

c. **The estimated change in frequency of the targeted conduct expected from the rule change:**

There is no estimated change in frequency of the targeted conduct.

2. **Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the rule making.**

Inpatient hospitals that are reimbursed by the APR-DRG methodology will directly benefit from a reimbursement system that is in line with the current health care market and responsive to changes in health care industry coding standards. The update ensures that AHCCCS payment methodologies continue to adjust as factors change over time to support economic growth within Arizona, as well as being reflective of the urban-rural differences that face our healthcare industry.

3. **Cost benefit analysis.**

a. **Probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rulemaking including the number of new full-time employees necessary to implement and enforce the proposed rule:**

i. **Cost:**

The federal government, through the Medicaid program, will fund a substantial percentage of this expense, varying by eligibility category. The Agency does not anticipate that the rule will have an effect on State revenues or materially impact other agencies.

**ii. Benefit:**

The Administration anticipates that the DRG rulemaking will ensure that hospital inpatient payments to hospitals paid under the DRG methodology better align with updated labor share and wage indices for their specific geographical area beginning contract year October 1, 2022 through September 30, 2023.

**iii. Need for additional Full-time Employees:**

The Agency does not anticipate the need to hire full-time employees as a result of this rulemaking.

**b. Probable costs and benefits to political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking.**

This rulemaking does not directly affect political subdivisions.

**4. General description of the probable impact on private and public employment in businesses, agencies, and political subdivisions of this state directly affected by the rulemaking.**

The Agency anticipates that public and private employment will not be impacted by the changes.

5. **Statement of probable impact of the proposed rule on small businesses. The statement shall include:**

a. **Identification of the small businesses subject to the proposed rulemaking.**

Of the 137 licensed hospitals in Arizona, 2 hospitals satisfy the definition of small businesses, Arizona Orthopedic Surgical & Specialty Hospital and Arizona Spine & Joint Hospital, and subject to the APR-DRG reimbursement methodology that is the subject of the rulemaking. However, neither of these hospitals are rural hospitals and therefore are not subject to the language being changed by this rulemaking.

b. **Administrative and other costs required for compliance with the proposed rulemaking.**

The Agency anticipates no impact on the administrative expenses of these small businesses because the proposed rule does not require a change in claim submission coding or procedure.

c. **Description of methods prescribed in section A.R.S. § 41-1035 that the agency may use to reduce the impact on small businesses, with reasons for the agency's decision to use or not use each method:**

i. **Establishing less stringent compliance or reporting requirements in the rule for small businesses;**

This rule does not impose compliance or reporting requirements on small businesses beyond those already necessary to comply with federal law and state statute.

ii. **Establishing less stringent schedules deadlines in the rule for compliance or reporting requirements for small businesses;**

This rule does not impose compliance or reporting requirements on small businesses beyond those requirements that are necessary to comply with federal law and state statute.

iii. **Consolidate or simplify the rule's compliance or reporting requirements for small businesses;**

This rule does not impose compliance or reporting requirements on small businesses beyond those requirements that are necessary to comply with federal law and state statute.

iv. **Establish performance standards for small businesses to replace design or operational standards in the rule; and**

This rule does not establish performance standards for small businesses beyond those requirements that are necessary to comply with federal law and state statute.

v. **Exempting small businesses from any or all requirements of the rule.**

Exempting small businesses is not applicable to this rule beyond those requirements that are necessary to comply with federal law and state statute.

d. **The probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking.**

The rule will not affect private persons and consumers.

6. **Statement of the probable effect on state revenues.**

It is anticipated that the rule will not affect state revenues.

7. **Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using nonselected alternatives.**

The Agency did not consider other alternatives because the revisions to the rule are the most cost effective and efficient method of complying with federal law and state law as well as the State's fiduciary responsibility to Arizona taxpayers.

8. **A description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data.**

No additional data was obtained and used as the basis of this rule.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

ing at 18 A.A.R. 2340, effective November 11, 2012  
(Supp. 12-3).

**R9-22-606. Contract Compliance Sanction**

- A. The Director may impose sanctions upon a contractor for violation of any provision of this Chapter or of a contract. Sanctions include but are not limited to:
1. Suspension of any or all further member enrollment, by choice and/or assignment for a period of time.
  2. Imposition of a monetary sanction.
- B. The Director shall consider the nature, severity, and length of the violation when determining a sanction.
- C. The Director shall provide a contractor with written notice specifying grounds and terms for the sanction.
- D. Nothing contained in this Section shall be construed to prevent the Administration from imposing sanctions as provided in contract under A.R.S. § 36-2903.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 424, effective January 10, 2002 (Supp. 02-1). Amended by final rulemaking at 18 A.A.R. 2340, effective November 11, 2012 (Supp. 12-3).

**ARTICLE 7. STANDARDS FOR PAYMENTS****R9-22-701. Standards for Payments Related Definitions**

In addition to definitions contained in A.R.S. § 36-2901, the words and phrases in this Article have the following meanings unless the context explicitly requires another meaning:

“Accommodation” means room and board services provided to a patient during an inpatient hospital stay and includes all staffing, supplies, and equipment. The accommodation is semi-private except when the member must be isolated for medical reasons. Types of accommodation include hospital routine medical/surgical units, intensive care units, and any other specialty care unit in which room and board are provided.

“Aggregate” means the combined amount of hospital payments for covered services provided within and outside the GSA.

“AHCCCS inpatient hospital day or days of care” means each day of an inpatient stay for a member beginning with the day of admission and including the day of death, if applicable, but excluding the day of discharge, provided that all eligibility, medical necessity, and medical review requirements are met.

“Ancillary service” means all hospital services for patient care other than room and board and nursing services, including but not limited to, laboratory, radiology, drugs, delivery room (including maternity labor room), operating room (including postanesthesia and postoperative recovery rooms), and therapy services (physical, speech, and occupational).

“APC” means the Ambulatory Payment Classification system under 42 CFR 419.31 used by Medicare for grouping clinically and resource-similar procedures and services.

“Billed charges” means charges for services provided to a member that a hospital includes on a claim consistent with the rates and charges filed by the hospital with Arizona Department of Health Services (ADHS).

“Business agent” means a company such as a billing service or accounting firm that renders billing statements and receives payment in the name of a provider.

“Capital costs” means costs as reported by the hospital to CMS as required by 42 CFR 413.20.

“Copayment” means a monetary amount, specified by the Director, that a member pays directly to a contractor or provider at the time covered services are rendered.

“Cost-to-charge ratio” (CCR) means a hospital’s costs for providing covered services divided by the hospital’s charges for the same services. The CCR is the percentage derived from the cost and charge data for each revenue code provided to AHC-CCS by each hospital.

“Covered charges” means billed charges that represent medically necessary, reasonable, and customary items of expense for covered services that meet medical review criteria of AHC-CCS or a contractor.

“CHC” means a Community Health Center, which includes both Federally Qualified Health Centers and Rural Health Clinics.

“CPT” means Current Procedural Terminology, published, and updated by the American Medical Association. CPT is a nationally-accepted listing of descriptive terms and identifying codes for reporting medical services and procedures performed by physicians that provide a uniform language to accurately designate medical, surgical, and diagnostic services.

“Critical Access Hospital” is a hospital certified by Medicare under 42 CFR 485 Subpart F and 42 CFR 440.170(g).

“Direct graduate medical education costs” or “direct program costs” means the costs that are incurred for the education activities of an approved graduate medical education program that are the proximate result of training medical residents in the hospital, including resident salaries and fringe benefits, the portion of teaching physician salaries and fringe benefits that are related to the time spent in teaching and supervision of residents, and other related GME overhead costs.

“DRI inflation factor” means Global Insights Prospective Hospital Market Basket.

“Eligibility posting” means the date a member’s eligibility information is entered into the AHCCCS Pre-paid Medical Management Information System (PMMIS).

“Encounter” means a record of a medically-related service rendered by an AHCCCS-registered provider to a member enrolled with a contractor on the date of service.

“Existing outpatient service” means a service provided by a hospital before the hospital files an increase in its charge master as defined in R9-22-712(G), regardless of whether the service was explicitly described in the hospital charge master before filing the increase or how the service was described in the charge master before filing the increase.

“Expansion funds” means funds appropriated to support GME program expansions as described under A.R.S. § 36-2903.01(G)(9)(b) and (c)(i).

“Factor” means a person or an organization, such as a collection agency or service bureau, that advances money to a provider for accounts receivable that the provider has assigned, sold, or transferred to the organization for an added fee or a deduction of a portion of the accounts receivable. Factor does not include a business agent.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

“Fiscal intermediary” means an organization authorized by CMS to make determinations and payments for Part A and Part B provider services for a given region.

“Freestanding Children’s Hospital” means a separately standing hospital with at least 120 pediatric beds that is dedicated to providing the majority of the hospital’s services to children.

“GME program approved by the Administration” or “approved GME program” means a graduate medical education program that has been approved by a national organization as described in 42 CFR 415.152.

“Graduate medical education (GME) program” means an approved residency or fellowship program that prepares a physician for independent practice of medicine by providing didactic and clinical education in a medical environment to a medical student who has completed a recognized undergraduate medical education program.

“HCAC” means a health care acquired condition described under 42 CFR 447.26 but does not include Deep Vein Thrombosis (DVT)/Pulmonary Embolism (PE) as related to total knee replacement or hip replacement surgery in pediatric and obstetric patients.

“HCPCS” means the Health Care Procedure Coding System, published, and updated by Center for Medicare and Medicaid Services (CMS). HCPCS is a listing of codes and descriptive terminology used for reporting the provision of physician services, other health care services, and substances, equipment, supplies, or other items used in health care services.

“HIPAA” means the Health Insurance Portability and Accountability Act of 1996, as specified under 45 CFR 162, that establishes standards and requirements for the electronic transmission of certain health information by defining code sets used for encoding data elements, such as tables of terms, medical concepts, medical diagnostic codes, or medical procedure codes.

“ICU” means the intensive care unit of a hospital.

“Indirect program costs” means the marginal increase in operating costs that a provider experiences as a result of having an approved graduate medical education program and that is not accounted for by the direct program costs.

“Intern and Resident Information System” means a software program used by teaching providers and the provider community for collecting and reporting information on resident training in hospital and non-hospital settings.

“Medical education costs” means direct costs for intern and resident salaries, fringe benefits, program costs, nursing school education, and paramedical education, as described in the Medicare Provider Reimbursement Manual.

“Medical review” means a clinical evaluation of documentation conducted by AHCCCS or a contractor for purposes of prior authorization, concurrent review, post-payment review, or determining medical necessity. The criteria for medical review are established by AHCCCS or a contractor based on medical practice standards that are updated periodically to reflect changes in medical care.

“Medicare Urban or Rural Cost-to-Charge Ratio (CCR)” means statewide average capital cost-to-charge ratio published annually by CMS added to the urban or rural statewide average operating cost-to-charge ratio published annually by CMS.

“National Standard code sets” means codes that are accepted nationally in accordance with federal requirements under 45 CFR 160 and 45 CFR 164.

“New hospital” means a hospital for which Medicare Cost Report claim and encounter data are not available for the fiscal year used for initial rate setting or rebasing.

“NICU” means the neonatal intensive care unit of a hospital that is classified as a Level II or Level III perinatal center by the Arizona Perinatal Trust.

“Non-IHS Acute Hospital” means a hospital that is not run by Indian Health Services, is not a free-standing psychiatric hospital, such as an IMD, and is paid under ADHS rates.

“Observation day” means a physician-ordered evaluation period of less than 24 hours to determine whether a person needs treatment or needs to be admitted as an inpatient. Each observation day consists of a period of 24 hours or less.

“Operating costs” means AHCCCS-allowable accommodation costs and ancillary department hospital costs excluding capital and medical education costs.

“OPPC” means an Other Provider Preventable Condition that is: (1) a wrong surgical or other invasive procedure performed on a patient, (2) a surgical or other invasive procedure performed on the wrong body part, or (3) a surgical or other invasive procedure performed on the wrong patient.

“Organized health care delivery system” means a public or private organization that delivers health services. It includes, but is not limited to, a clinic, a group practice prepaid capitation plan, and a health maintenance organization.

“Outlier” means a hospital claim or encounter in which the operating costs per day for an AHCCCS inpatient hospital stay meet the criteria described under this Article and A.R.S. § 36-2903.01(G).

“Outpatient hospital service” means a service provided in an outpatient hospital setting that does not result in an admission.

“Ownership change” means a change in a hospital’s owner, lessor, or operator under 42 CFR 489.18(a).

“Participating institution” means an institution at which portions of a graduate medical education program are regularly conducted and to which residents rotate for an educational experience for at least one month.

“Peer group” means hospitals that share a common, stable, and independently definable characteristic or feature that significantly influences the cost of providing hospital services, including specialty hospitals that limit the provision of services to specific patient populations, such as rehabilitative patients or children.

“PPC” means prior period coverage. PPC is the period of time, prior to the member’s enrollment, during which a member is eligible for covered services. The time-frame is the first day of the month of application or the first eligible month, whichever is later, until the day a member is enrolled with a contractor.

“PPS bed” means Medicare-approved Prospective Payment beds for inpatient services as reported in the Medicare cost reports for the most recent fiscal year for which the Administration has a complete set of Medicare cost reports for every rural hospital as determined as of the first of February of each year.

TITLE 9. HEALTH SERVICES

CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

“Primary care GME program” means a graduate medical education program that prepares a physician for the practice of internal medicine, family medicine, pediatrics, obstetrics, geriatrics, or psychiatry.

“Procedure code” means the numeric or alphanumeric code listed in the CPT or HCPCS manual by which a procedure or service is identified.

“Prospective rates” means inpatient or outpatient hospital rates set by AHCCCS in advance of a payment period and representing full payment for covered services excluding any quick-pay discounts, slow-pay penalties, and first-and third-party payments regardless of billed charges or individual hospital costs.

“Public hospital” means a hospital that is owned and operated by county, state, or hospital health care district.

“Qualifying health information exchange organization” means a non-profit health information organization as defined in A.R.S. § 36-3801 that provides the statewide exchange of patient health information among disparate health care organizations and providers not owned, operated, or controlled by the health information exchange. A qualifying health information exchange organization must include representation by the administration on its board of directors, and have a significant number of health care participants, including hospitals, laboratories, payers, community physicians and Federally Qualified Health Centers.

“Rebase” means the process by which the most currently available and complete Medicare Cost Report data for a year and AHCCCS claim and encounter data for the same year are collected and analyzed to reset the Inpatient Hospital Tiered per diem rates, or the Outpatient Hospital Capped Fee-For-Service Schedule.

“Reinsurance” means a risk-sharing program provided by AHCCCS to contractors for the reimbursement of specified contract service costs incurred by a member beyond a certain monetary threshold.

“Remittance advice” means an electronic or paper document submitted to an AHCCCS-registered provider by AHCCCS to explain the disposition of a claim.

“Resident” means a physician engaged in postdoctoral training in an accredited graduate medical education program, including an intern and a physician who has completed the requirements for the physician’s eligibility for board certification.

“Revenue code” means a numeric code, that identifies a specific accommodation, ancillary service, or billing calculation, as defined by the National Uniform Billing committee for UB04 forms.

“Sub-acute services” means inpatient care for a patient with an acute illness, injury, or exacerbation of a disease process when the patient does not require acute inpatient hospitalization. Sub-acute care is rendered immediately after, or instead of, acute inpatient hospitalization.

“Specialty facility” means a facility where the service provided is limited to a specific population, such as rehabilitative services for children.

“Sponsoring institution” means the institution or entity that is recognized by the GME accrediting organization and designated as having ultimate responsibility for the assurance of

academic quality and compliance with the terms of accreditation.

“Tier” means a grouping of inpatient hospital services into levels of care based on diagnosis, procedure, or revenue codes, peer group, NICU classification level, or any combination of these items.

“Tiered per diem” means an AHCCCS capped fee schedule in which payment is made on a per-day basis depending upon the tier (or tiers) into which an AHCCCS inpatient hospital day of care is assigned.

“Trip” means a one-way transport each time a taxi is called. If the taxi waits for the member, then the transport continues to be part of the one-way trip. If the taxi leaves and is called to pick up the member, that is considered a new one-way trip.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-701 adopted as an emergency now adopted as a permanent rule effective August 30, 1982 (Supp. 82-4). Former Section R9-22-701 repealed, new Section R9-22-701 adopted effective October 1, 1983 (Supp. 83-5). Amended effective October 1, 1985 (Supp. 85-5). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 8 A.A.R. 424, effective January 10, 2002 (Supp. 02-1). Section repealed; new Section made by exempt rulemaking at 11 A.A.R. 2297, effective July 1, 2005 (Supp. 05-2). Amended by final rulemaking at 12 A.A.R. 2188, effective June 6, 2006 (Supp. 06-2). Amended by final rulemaking at 13 A.A.R. 662, effective April 7, 2007 (Supp. 07-1). Amended by final rulemaking at 13 A.A.R. 1782, effective June 30, 2007 (Supp. 07-2). Amended by exempt rulemaking at 13 A.A.R. 3190, effective October 1, 2007 (Supp. 07-3). Amended by exempt rulemaking at 13 A.A.R. 4032, effective November 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 1956, effective September 6, 2014; amended by exempt rulemaking at 20 A.A.R. 2755, effective January 1, 2015 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4). Amended by final rulemaking at 28 A.A.R. 837 (April 29, 2022), with an immediate effective date of April 5, 2022 (Supp. 22-2).

The Administration shall bear no liability for providing covered services for any member beyond the date of termination of the member’s eligibility or during the member’s enrollment with a con-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

tractor. A contractor has no financial responsibility for services provided to a member beyond the last date of enrollment except as provided in Articles 2 and 5 of this Chapter and as specified in contract.

**Historical Note**

New Section made by final rulemaking at 13 A.A.R. 662, effective April 7, 2007 (Supp. 07-1).

**R9-22-702. Charges to Members**

- A. For purposes of this subsection, the term “member” includes the member’s financially responsible representative as described under A.R.S. § 36-2903.01.
- B. Registered providers must accept payment from the Administration or a contractor as payment in full.
- C. Except as provided in subsection (D) a registered provider shall not request or collect payment from, refer to a collection agency, or report to a credit reporting agency an eligible person or a person claiming to be an eligible person.
- D. An AHCCCS registered provider may charge, submit a claim to, or demand or collect payment from a member:
  1. To collect the copayment described in R9-22-711;
  2. To recover from a member that portion of a payment made by a third party to the member for an AHCCCS covered service if the member has not transferred the payment to the Administration or the contractor as required by the statutory assignment of rights to AHCCCS;
  3. To obtain payment from a member for medical expenses incurred during a period when the member intentionally withheld information or intentionally provided inaccurate information pertaining to the member’s AHCCCS eligibility or enrollment that caused payment to the provider to be reduced or denied;
  4. For a service that is excluded by statute or rule, or provided in an amount that exceeds a limitation in statute or rule, if the member signs a document in advance of receiving the service stating that the member understands the service is excluded or is subject to a limit and that the member will be financially responsible for payment for the excluded service or for the services in excess of the limit;
  5. When the contractor or the Administration has denied authorization for a service if the member signs a document in advance of receiving the service stating that the member understands that authorization has been denied and that the member will be financially responsible for payment for the service;
  6. For services requested for a member enrolled with a contractor, and rendered by a noncontracting provider under circumstances where the member’s contractor is not responsible for payment of “out of network” services under R9-22-705(A), if the member signs a document in advance of receiving the service stating that the member understands the provider is out of network, that the member’s contractor is not responsible for payment, and that the member will be financially responsible for payment for the excluded service;
  7. For services rendered to a person eligible for the FESP if the provider submits a claim to the Administration in the reasonable belief that the service is for treatment of an emergency medical condition and the Administration denies the claim because the service does not meet the criteria of R9-22-217; or

8. If the provider has received verification from the Administration that the person was not an eligible person on the date of service.

- E. The signature requirement of subsections (D)(4), (D)(5), and (D)(6) do not apply if:
  1. The member is unable or incompetent to sign such a document, or
  2. When services are rendered for the purpose of treating an emergency medical condition as defined in R9-22-217 and a delay in providing treatment to obtain a signature would have a significant adverse affect on the member’s health.
- F. Except as provided for in this Section, registered providers shall not bill a member when the provider could have received reimbursement from the Administration or a contractor but for the provider’s failure to file a claim in accordance with the requirements of AHCCCS statutes, rules, the provider agreement, or contract, such as, but not limited to, requirements to request and obtain prior authorization, timely filing, and clean claim requirements.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-702 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Amended as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Amended as a permanent rule effective May 16, 1983; text identical to the emergency (Supp. 83-3). Former Section R9-22-702 repealed, new Section R9-22-702 adopted effective October 1, 1983 (Supp. 83-5). Amended by adding subsection (B) effective October 1, 1985 (Supp. 85-5). Amended by adding subsection (C) effective October 1, 1987 (Supp. 87-4). Amended effective April 13, 1990 (Supp. 90-2). Amended effective December 13, 1993 (Supp. 93-4). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 8 A.A.R. 3317, effective July 15, 2002 (Supp. 02-3). Amended by final rulemaking at 11 A.A.R. 3217, effective October 1, 2005 (Supp. 05-3). Amended by exempt rulemaking at 17 A.A.R. 1707, effective October 1, 2011 (Supp. 11-3). Amended by final rulemaking at 19 A.A.R. 2747, effective October 8, 2013 (Supp. 13-3).

**R9-22-703. Payments by the Administration**

- A. General requirements. A provider shall enter into a provider agreement with the Administration that meets the requirements of A.R.S. § 36-2904 and 42 CFR 431.107(b) as of October 1, 2012, which is incorporated by reference and on file with the Administration, and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments.
- B. Timely submission of claims.
  1. Under A.R.S. § 36-2904, the Administration shall deem a paper claim to be submitted on the date that it is received by the Administration. An electronic claim is deemed received by the Administration when the claim enters the information processing system designated by the Administration for electronic claims in a form that is capable of being processed by the designated information processing system. The Administration shall do one or more of the following for each claim it receives:

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- a. Place a date stamp on the face of the claim,
  - b. Assign a system-generated claim reference number, or
  - c. Assign a system-generated date-specific number.
2. Unless a shorter time period is specified in contract, the Administration shall not pay a claim for a covered service unless the claim is initially submitted within one of the following time limits, whichever is later:
    - a. Six months from the date of service or for an inpatient hospital claim, six months from the date of discharge; or
    - b. Six months from the date of eligibility posting.
  3. Unless a shorter time period is specified in contract, the Administration shall not pay a clean claim for a covered service unless the claim is submitted within one of the following time limits, whichever is later:
    - a. Twelve months from the date of service or for an inpatient hospital claim, 12 months from the date of discharge; or
    - b. Twelve months from the date of eligibility posting.
  4. Unless a shorter time period is specified in contract, the Administration shall not pay a claim submitted by an HIS or tribal facility for a covered service unless the claim is initially submitted within 12 months from the date of service, date of discharge, or eligibility posting, whichever is later.
- C. Claims processing.**
1. The Administration shall notify the AHCCCS-registered provider with a remittance advice when a claim is processed for payment.
  2. The Administration shall reimburse a hospital for inpatient hospital admissions and outpatient hospital services rendered on or after March 1, 1993, as follows and in the manner and at the rate described in A.R.S. § 36-2903.01:
    - a. If the hospital bill is paid within 30 days from the date of receipt, the claim is paid at 99 percent of the rate.
    - b. If the hospital bill is paid between 30 and 60 days from the date of receipt, the claim is paid at 100 percent of the rate.
    - c. If the hospital bill is paid after 60 days from the date of receipt, the claim is paid at 100 percent of the rate plus a fee of one percent per month for each month or portion of a month following the 60th day of receipt of the bill until date of payment.
  3. A claim is paid on the date indicated on the disbursement check.
  4. A claim is denied as of the date of the remittance advice.
  5. The Administration shall process a hospital claim under this Article.
- D. Prior authorization.**
1. An AHCCCS-registered provider shall:
    - a. Obtain prior authorization from the Administration for non-emergency hospital admissions, covered services as specified in Articles 2 and 12 of this Chapter, and for administrative days as described in R9-22-712.75,
    - b. Notify the Administration of hospital admissions under Article 2 of this Chapter, and
    - c. Make records available for review by the Administration upon request.
  2. The Administration may deny a claim if the provider fails to comply with subsection (D)(1).
  3. If the Administration issues prior authorization for an inpatient hospital admission, a specific service, or level of care but subsequent medical review indicates that the admission, the service, or level of care was not medically appropriate, the Administration shall adjust the claim payment.
- E. Review of claims and coverage for hospital supplies.**
1. The Administration may conduct prepayment and post-payment review of any claims, including but not limited to hospital claims.
  2. Personal care items supplied by a hospital, including but not limited to the following, are not covered services:
    - a. Patient care kit,
    - b. Toothbrush,
    - c. Toothpaste,
    - d. Petroleum jelly,
    - e. Deodorant,
    - f. Septi soap,
    - g. Razor or disposable razor,
    - h. Shaving cream,
    - i. Slippers,
    - j. Mouthwash,
    - k. Shampoo,
    - l. Powder,
    - m. Lotion,
    - n. Comb, and
    - o. Patient gown.
  3. The following hospital supplies and equipment, if medically necessary and used by the member, are covered services:
    - a. Arm board,
    - b. Diaper,
    - c. Underpad,
    - d. Special mattress and special bed,
    - e. Gloves,
    - f. Wrist restraint,
    - g. Limb holder,
    - h. Disposable item used instead of a durable item,
    - i. Universal precaution,
    - j. Stat charge, and
    - k. Portable charge.
  4. The Administration shall determine in a hospital claims review whether services rendered were:
    - a. Covered services as defined in Article 2;
    - b. Medically necessary;
    - c. Provided in the most appropriate, cost-effective, and least restrictive setting; and
    - d. For claims with dates of admission on and after March 1, 1993, substantiated by the minimum documentation specified in A.R.S. § 36-2903.01.
  5. If the Administration adjudicates a claim, a person may file a claim dispute challenging the adjudication under 9 A.A.C. 34.
- F. Overpayment for AHCCCS services.**
1. An AHCCCS-registered provider shall notify the Administration when the provider discovers the Administration made an overpayment.
  2. The Administration shall recoup an overpayment from a future claim cycle if an AHCCCS-registered provider fails to return the overpaid amount to the Administration.
  3. The Administration shall document any recoupment of an overpayment on a remittance advice.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

4. An AHCCCS-registered provider may file a claim dispute under 9 A.A.C. 34 if the AHCCCS-registered provider disagrees with a recoupment action.
- G. For services subject to limitations or exclusions such as the number of hours, days, or visits covered as described in Article 2 of this Chapter, once the limit is reached the Administration will not reimburse the services.
- H. Prior quarter reimbursement. A provider shall:
  1. Bill the Administration for services provided during a prior quarter eligibility period upon verification of eligibility or upon notification from a member of AHCCCS eligibility.
  2. Reimburse a member when payment has been received from the Administration for covered services during a prior quarter eligibility period. All funds paid by the member shall be reimbursed.
  3. Accept payment received by the Administration as payment in full.
- I. Payment for in-state inpatient hospital services for claims with discharge dates on or before September 30, 2014. The Administration shall reimburse an in-state provider of inpatient hospital services rendered with a discharge date on or before September 30, 2014, the prospective tiered-per-diem amount in A.R.S. § 36-2903.01 and this Article.
- J. Payment for out-of-state inpatient hospital services for claims with discharge dates on or before September 30, 2014. The Administration shall reimburse an out-of-state provider of inpatient hospital services rendered with a discharge date on or before September 30, 2014, for covered inpatient services by multiplying covered charges by the most recent statewide urban cost-to-charge ratio as determined in R9-22-712.01(6)(b).
- K. Payment for inpatient hospital services for claims with discharge dates on and after October 1, 2014 regardless of admission date. The Administration shall reimburse an in-state or out-of-state provider of inpatient hospital services rendered with a discharge date on or after October 1, 2014, the DRG rate established by the Administration.
- L. The Administration may enter into contracts for the provisions of transplant services.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R-22-703 adopted as an emergency now adopted as a permanent rule effective August 30, 1982 (Supp. 82-4). Former Section R9-22-703 repealed, new Section R9-22-703 adopted effective October 1, 1983 (Supp. 83-5). Amended effective October 1, 1985 (Supp. 85-5). Amended effective October 1, 1986 (Supp. 86-5). Amended subsection (B), paragraph (1) effective January 1, 1987, filed December 31, 1986 (Supp. 86-6). Amended subsection (A) effective September 16, 1987 (Supp. 87-3). Amended effective May 30, 1989 (Supp. 89-2). Amended effective September 29, 1992 (Supp. 92-3). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 8 A.A.R. 3317, effective July 15, 2002 (Supp. 02-3). October 8, 2013 (Supp. 13-3). Amended by final rulemaking at 19 A.A.R. 3309, November 30, 2013 (Supp. 13-4). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 27 A.A.R. 237, effective April 4, 2021 (Supp. 21-1).

**R9-22-704. Repealed****Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-704 adopted as an emergency now adopted and amended as a permanent rule effective August 30 1982 (Supp. 82-4). Amended effective October 1, 1983 (Supp. 83-5). Amended subsection A., Paragraph 2. effective October 1, 1985 (Supp. 85-5). Amended by final rulemaking at 8 A.A.R. 3317, effective July 15, 2002 (Supp. 02-3). Section repealed by final rulemaking at 13 A.A.R. 662, effective April 7, 2007 (Supp. 07-1).

**R9-22-705. Payments by Contractors**

- A. General requirements. A contractor shall contract with providers to provide covered services to members enrolled with the contractor. The contractor is responsible for reimbursing providers and coordinating care for services provided to a member. Except as provided in subsection (A)(2), a contractor is not required to reimburse a noncontracting provider for services rendered to a member enrolled with the contractor.
  1. Providers. A provider shall enter into a provider agreement with the Administration that meets the requirements of A.R.S. § 36-2904 and 42 CFR 431.107(b) as of March 6, 1992, which is incorporated by reference and on file with the Administration, and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments.
  2. A contractor shall reimburse a noncontracting provider for services rendered to a member enrolled with the contractor as specified in this Article if:
    - a. The contractor referred the member to the provider or authorized the provider to render the services and the claim is otherwise payable under this Chapter, or
    - b. The service is emergent under Article 2 of this Chapter.
- B. Timely submission of claims.
  1. Under A.R.S. § 36-2904, a contractor shall deem a paper or electronic claim as submitted on the date that the claim is received by the contractor. The contractor shall do one or more of the following for each claim the contractor receives:
    - a. Place a date stamp on the face of the claim,
    - b. Assign a system-generated claim reference number, or
    - c. Assign a system-generated date-specific number.
  2. Unless a shorter time period is specified in subcontract, a contractor shall not pay a claim for a covered service unless the claim is initially submitted within one of the following time limits, whichever is later:
    - a. Six months from the date of service or for an inpatient hospital claim, six months from the date of discharge; or
    - b. Six months from the date of eligibility posting.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

3. Unless a shorter time period is specified in subcontract, a contractor shall not pay a clean claim for a covered service unless the claim is submitted within one of the following time limits, whichever is later:
  - a. Twelve months from the date of service or for an inpatient hospital claim, 12 months from the date of discharge; or
  - b. Twelve months from the date of eligibility posting.
- C. Date of claim.
  1. A contractor's date of receipt of an inpatient or an outpatient hospital claim is the date the claim is received by the contractor as indicated by the date stamp on the claim, the system-generated claim reference number, or the system-generated date-specific number assigned by the contractor.
  2. A hospital claim is considered paid on the date indicated on the disbursement check.
  3. A denied hospital claim is considered adjudicated on the date of the claim's denial.
  4. For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the contractor shall assign a new date of receipt upon receipt of the additional documentation.
  5. For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the contractor shall not assign a new date of receipt.
  6. A contractor and a hospital may, through a contract approved as specified in R9-22-715, adopt a method for identifying, tracking, and adjudicating a claim that is different from the method described in this subsection.
- D. Payment for in-state inpatient hospital services for claims with discharge dates on or before September 30, 2014. A contractor shall reimburse an in-state provider of inpatient hospital services rendered with a discharge date on or before September 30, 2014, at either a rate specified by subcontract or, in absence of the subcontract, the prospective tiered-per-diem amount in A.R.S. § 36-2903.01 and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715. This subsection does not apply to an urban contractor as specified in R9-22-718 and A.R.S. § 36-2905.01.
- E. Payment for Inpatient out-of-state hospital payments for claims with discharge dates on or before September 30, 2014. In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered inpatient services by multiplying covered charges by the most recent statewide urban cost-to-charge ratio as determined in R9-22-712.01(6)(b).
- F. Payment for inpatient hospital services for claims with discharge dates on and after October 1, 2014 regardless of admission date. Subject to R9-22-718 and A.R.S. § 36-2905.01 regarding urban hospitals, a contractor shall reimburse an in-state or out-of-state provider of inpatient hospital services, at either a rate specified by subcontract or, in absence of a subcontract, the DRG rate established by the Administration and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- G. Payment for in-state outpatient hospital services.
 

A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other Sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- H. Outpatient out-of-state hospital payments. In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the contractor shall pay the claim by multiplying the covered charges for the outpatient services by the statewide outpatient cost-to-charge ratio.
- I. Payment for observation days. A contractor shall reimburse a provider and a noncontracting provider for the provision of observation days at either a rate specified by subcontract or, in the absence of a subcontract, as prescribed under R9-22-712, R9-22-712.10, and R9-22-712.45.
- J. Review of claims and coverage for hospital supplies.
  1. A contractor may conduct a review of any claims submitted and recoup any payments made in error.
  2. A hospital shall obtain prior authorization from the appropriate contractor for nonemergency admissions. When issuing prior authorization, a contractor shall consider the medical necessity of the service, and the availability and cost effectiveness of an alternative treatment. Failure to obtain prior authorization when required is cause for nonpayment or denial of a claim. A contractor shall not require prior authorization for medically necessary services provided during any prior period for which the contractor is responsible. If a contractor and a hospital agree to a subcontract, the parties shall abide by the terms of the subcontract regarding utilization control activities. A hospital shall cooperate with a contractor's reasonable activities necessary to perform concurrent review and shall make the hospital's medical records pertaining to a member enrolled with a contractor available for review.
  3. Regardless of prior authorization or concurrent review activities, a contractor may make prepayment or post-payment review of all claims, including but not limited to a hospital claim. A contractor may recoup an erroneously paid claim. If prior authorization was given for an inpatient hospital admission, a specific service, or level of care but subsequent medical review indicates that the admission, the service, or level of care was not medically appropriate, the contractor shall adjust the claim payment.
  4. A contractor and a hospital may enter into a subcontract that includes hospital claims review criteria and procedures if the subcontract meets the requirements of R9-22-715.
  5. Personal care items supplied by a hospital, including but not limited to the following, are not covered services:
    - a. Patient care kit,
    - b. Toothbrush,
    - c. Toothpaste,
    - d. Petroleum jelly,
    - e. Deodorant,
    - f. Septi soap,
    - g. Razor,
    - h. Shaving cream,
    - i. Slippers,
    - j. Mouthwash,
    - k. Disposable razor,
    - l. Shampoo,

TITLE 9. HEALTH SERVICES

CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- m. Powder,
- n. Lotion,
- o. Comb, and
- p. Patient gown.
- 6. The following hospital supplies and equipment, if medically necessary and used by the member, are covered services:
  - a. Arm board,
  - b. Diaper,
  - c. Underpad,
  - d. Special mattress and special bed,
  - e. Gloves,
  - f. Wrist restraint,
  - g. Limb holder,
  - h. Disposable item used instead of a durable item,
  - i. Universal precaution,
  - j. Stat charge, and
  - k. Portable charge.
- 7. The contractor shall determine in a hospital claims review whether services rendered were:
  - a. Covered services as defined in R9-22-201;
  - b. Medically necessary;
  - c. Provided in the most appropriate, cost-effective, and least restrictive setting; and
  - d. For claims with dates of admission on and after March 1, 1993, substantiated by the minimum documentation specified in A.R.S. § 36-2904.
- 8. If a contractor adjudicates a claim or recoups payment for a claim, a person may file a claim dispute challenging the adjudication or recoupment as described under 9 A.A.C. 34.
- K.** Non-hospital claims. A contractor shall pay claims for non-hospital services in accordance with contract, or in the absence of a contract, at a rate not less than the Administration's capped fee-for-service schedule or at a lower rate if negotiated between the two parties.
- L.** Payments to hospitals. A contractor shall pay for inpatient hospital admissions and outpatient hospital services rendered on or after March 1, 1993, as follows and as described in A.R.S. § 36-2904:
  - 1. If the hospital bill is paid within 30 days from the date of receipt, the claim is paid at 99 percent of the rate.
  - 2. If the hospital bill is paid between 30 and 60 days from the date of receipt, the claim is paid at 100 percent of the rate.
  - 3. If the hospital bill is paid after 60 days from the date of receipt, the claim is paid at 100 percent of the rate plus a 1 percent penalty of the rate for each month or portion of the month following the 60th day of receipt of the bill until date of payment.
- M.** Interest payment. In addition to the requirements in subsection (L), a contractor shall pay interest for late claims as defined by contract.
- N.** For services subject to limitations or exclusions such as the number of hours, days, or visits covered as described in Article 2 of this Chapter, once the limit is reached the Administration will not reimburse the services.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-705 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Amended as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-

1003, valid for only 90 days (Supp. 83-1). Amended as a permanent rule effective May 16, 1983; text of the amended rule identical to emergency (Supp. 83-3). Former Section R9-22-705 repealed, new Section R9-22-705 adopted effective October 1, 1983 (Supp. 83-5). Amended as an emergency effective October 25, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-5). Emergency expired. Permanent amendment adopted effective February 1, 1985 (Supp. 85-1). Amended effective October 1, 1985 (Supp. 85-5). Amended subsection (C) effective October 1, 1986 (Supp. 86-5). Amended subsection (C) effective October 1, 1987; amended subsection (C) effective December 22, 1987 (Supp. 87-4). Amended subsections (A) and (C) effective May 30, 1989 (Supp. 89-2). Amended effective April 13, 1990 (Supp. 90-2). Amended under an exemption from the provisions of the Administrative Procedure Act, effective March 1, 1993 (Supp. 93-1). Amended under an exemption from the provisions of the Administrative Procedure Act, effective July 1, 1993 (Supp. 93-3). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 5 A.A.R. 867, effective March 4, 1999 (Supp. 99-1). Amended by final rulemaking at 6 A.A.R. 179, effective December 13, 1999 (Supp. 99-4). Amended by final rulemaking at 11 A.A.R. 3222, effective October 1, 2005 (Supp. 05-3). Amended by final rulemaking at 13 A.A.R. 662, effective April 7, 2007 (Supp. 07-1). Amended by final rulemaking at 14 A.A.R. 1439, effective May 31, 2008 (Supp. 08-2). Amended by exempt rulemaking at 17 A.A.R. 1707, effective October 1, 2011 (Supp. 11-3). Amended by final rulemaking at 19 A.A.R. 2747, effective October 8, 2013 (Supp. 13-3). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-706. Repealed**

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-706 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Former Section R9-22-706 repealed, new Section R9-22-706 adopted effective October 1, 1983 (Supp. 83-5). Adopted as an emergency effective May 18, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-3). Amended as an emergency effective August 16, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-4). Amended as an emergency effective October 25, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-5). Emergency expired. Permanent amendment adopted effective February 1, 1985 (Supp. 85-1). Amended effective October 1, 1985 (Supp. 85-5). Amended effective October 1, 1986 (Supp. 86-5). Amended subsections (A), (D), (E), (F), and (G) effective January 1, 1987, filed December 31, 1986 (Supp. 86-6). Amended subsection (F) effective December 22, 1987 (Supp. 87-4). Amended subsections (A) and (F) effective May 30, 1989 (Supp. 89-2). Amended effective April 13, 1990 (Supp. 90-2). Amended effective September 29, 1992 (Supp. 92-3). Amended effective September 22, 1997 (Supp. 97-3). Section repealed by final rulemaking at 10 A.A.R. 4656, effective January 1, 2005 (Supp. 04-4).

**R9-22-707. Repealed**

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-707 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Repealed as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Repealed as a permanent action effective May 16, 1983 (Supp. 83-3). New Section R9-22-707 adopted effective October 1, 1983 (Supp. 83-5). Adopted as an emergency effective May 18, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-3). Adopted as an emergency effective August 16, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-4). Former Section R9-22-707 repealed, new Section R9-22-707 adopted effective October 1, 1985 (Supp. 85-5). Former Section R9-22-707 repealed, new Section R9-22-707 adopted effective October 1, 1986 (Supp. 86-5). Amended subsection (A) effective October 1, 1987 (Supp. 87-4). Amended effective September 29, 1992 (Supp. 92-3). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 8 A.A.R. 3317, effective July 15, 2002 (Supp. 02-3). Section repealed by final rulemaking at 13 A.A.R. 856, effective May 5, 2007 (Supp. 07-1).

**R9-22-708. Payments for Services Provided to Eligible American Indians**

- A. For purposes of this Article "IHS enrolled" or "enrolled with IHS" means an American Indian who has elected to receive covered services through IHS instead of a contractor.
- B. For an American Indian who is enrolled with IHS, AHCCCS shall pay IHS the most recent all-inclusive inpatient, outpatient or ambulatory surgery rates published by Health and Human Services (HHS) in the *Federal Register*, or a separately contracted rate with IHS, for AHCCCS-covered services provided in an IHS facility. AHCCCS shall reimburse providers for the Medicare coinsurance and deductible amounts required to be paid by the Administration or contractor in A.A.C. Chapter 29, Article 3 of this Title.
- C. When IHS refers an American Indian enrolled with IHS to a provider other than an IHS or tribal facility, the provider to whom the referral is made shall obtain prior authorization from AHCCCS for services as required under Articles 2, 7 or 12 of this Chapter.
- D. For an American Indian enrolled with a contractor, AHCCCS shall pay the contractor a monthly capitation payment.
- E. Once an American Indian enrolls with a contractor, AHCCCS shall not reimburse any provider other than IHS or a Tribal facility.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-708 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Former Section R9-22-708 repealed, new Section R9-22-708 adopted effective October 1, 1983 (Supp. 83-5). Former Section R9-22-708 renumbered and amended as Section R9-22-709, new Section R9-22-708 adopted effective October 1, 1985 (Supp. 85-5). Amended effective October 1, 1986 (Supp. 86-5). Amended by final rulemaking at 10 A.A.R. 4656, effective January 1, 2005 (Supp. 04-4). Amended by final

rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-709. Contractor's Liability to Hospitals for the Provision of Emergency and Post-stabilization Care**

A contractor is liable for emergency hospitalization and post-stabilization care as described in R9-22-210 and R9-22-210.01.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-709 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Former Section R9-22-709 repealed, new Section R9-22-709 adopted effective October 1, 1983 (Supp. 83-5). Former Section R9-22-709 renumbered and amended as Section R9-22-713, former Section R9-22-708 renumbered and amended as Section R9-22-709 effective October 1, 1985 (Supp. 85-5). Amended under an exemption from the provisions of the Administrative Procedure Act, effective March 1, 1993 (Supp. 93-1). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 8 A.A.R. 424, effective January 10, 2002 (Supp. 02-1). Amended by final rulemaking at 13 A.A.R. 856, effective May 5, 2007 (Supp. 07-1).

*Editor's Note: The following Section was amended under an exemption from the provisions of the Administrative Procedure Act which means that this rule was not reviewed by the Governor's Regulatory Review Council; the agency did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the agency was not required to hold public hearings on the rules; and the Attorney General did not certify this rule. This Section was subsequently amended through the regular rulemaking process.*

**R9-22-710. Payments for Non-hospital Services**

- A. Capped fee-for-service. The Administration shall provide notice of changes in methods and standards for setting payment rates for services in accordance with 42 CFR 447.205, December 19, 1983, incorporated by reference and on file with the Administration and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments.
  1. Non-contracted services. In the absence of a contract that specifies otherwise, a contractor shall reimburse a provider or noncontracting provider for non-hospital services according to the Administration's capped-fee-for-service schedule.
  2. Procedure codes. The Administration shall maintain a current copy of the National Standard Code Sets mandated under 45 CFR 160 (October 1, 2004) and 45 CFR 162 (October 1, 2004), incorporated by reference and on file with the Administration and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments.
    - a. A person shall submit an electronic claim consistent with 45 CFR 160 (October 1, 2004) and 45 CFR 162 (October 1, 2004).
    - b. A person shall submit a paper claim using the National Standard Code Sets as described under 45

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

CFR 160 (October 1, 2004) and 45 CFR 162 (October 1, 2004).

- c. The Administration may deny a claim for failure to comply with subsection (A) (2) (a) or (b).
3. Fee schedule. The Administration shall pay providers, including noncontracting providers, at the lesser of billed charges or the capped fee-for-service rates specified in subsections (A)(3)(a) through (A)(3)(d) unless a different fee is specified in a contract between the Administration and the provider, or is otherwise required by law.
  - a. Physician services. Fee schedules for payment for physician services are on file at the central office of the Administration for reference use during customary business hours.
  - b. Dental services. Fee schedules for payment for dental services are on file at the central office of the Administration for reference use during customary business hours.
  - c. Transportation services. Fee schedules for payment for transportation services are on file at the central office of the Administration for reference use during customary business hours. For dates of service beginning:
    - i. October 1, 2012 through September 30, 2013, the Administration and its contractors shall reimburse ambulance services at 68.59 percent of the ADHS rates that are in effect as of August 2, 2012.
    - ii. October 1, 2013 through September 30, 2014, the Administration and its contractors shall reimburse ambulance services at 68.59 percent of the ADHS rates that are in effect as of August 2, 2013.
    - iii. October 1, 2014 through September 30, 2015, the Administration and its contractors shall reimburse ambulance services at 74.74 percent of the ADHS rates that are in effect as of August 2, 2014.
  - d. Medical supplies and durable medical equipment (DME). Fee schedules for payment for medical supplies and DME are on file at the central office of the Administration for reference use during customary business hours. The Administration shall reimburse a provider once for purchase of DME during any two-year period, unless the Administration determines that DME replacement within that period is medically necessary for the member. Unless prior authorized by the Administration, no more than one repair and adjustment of DME shall be reimbursed during any two-year period.
- B. Pharmacy services. The Administration shall not reimburse pharmacy services unless the services are provided by a pharmacy having a subcontract with a Pharmacy Benefit Manager (PBM) contracted with AHCCCS. Except as specified in subsection (C), the Administration shall reimburse pharmacy services according to the terms of the contract.
- C. FQHC Pharmacy reimbursement.
  1. For purposes of this Section the following terms are defined:
    - a. "340B Drug Pricing Program" means the discount drug purchasing program described in 42 U.S.C 256b.
    - b. "340B Ceiling Price" means the maximum price that drug manufacturers can charge covered entities participating in the 340B Drug Pricing Program as reported by the drug manufacturer to HRSA.
    - c. "340B entity" means a covered entity, eligible to participate in the 340B Drug Pricing Program, as defined by the Health Resources and Human Services Administration.
    - d. "Actual Acquisition Cost (AAC)" means the purchase price of a drug paid by a pharmacy net of discounts, rebates, chargebacks and other adjustments to the price of the drug. The AAC excludes dispensing fees.
    - e. "Contracted Pharmacy" means an arrangement through which a 340B entity may contract with an outside pharmacy to provide comprehensive pharmacy services utilizing medications subject to 340B pricing.
    - f. "Dispensing Fee" means the amount paid for the professional services provided by the pharmacist for dispensing a prescription. The Dispensing Fee does not include any payment for the drugs being dispensed.
    - g. "Federally Qualified Health Center" means a public or private non-profit health care organization that has been identified by HRSA and certified by CMS as meeting the criteria under sections 1861(aa)(4) and 1905(l)(2)(B) of the Social Security Act and receives funds under section 330 of the Public Health Service Act.
    - h. "Federally Qualified Health Center Look-Alike" means a public or private non-profit health care organization that has been identified by HRSA and certified by CMS as meeting the definition of "health center" under section 330 of the Public Health Service Act, but does not receive grant funding under section 330.
    - i. "FQHC or FQHC Look-Alike pharmacy" means a pharmacy that dispenses drugs to FQHC or FQHC-LA patients and that is owned and/or operated by an FQHC/FQHC-LA or by an entity that reports the costs of an FQHC/FQHC-LA on its Medicare Cost Report, whether or not collocated with an FQHC or an FQHC Look-Alike.
2. Effective the later of February 1, 2012, or CMS approval of a State Plan Amendment, an FQHC or FQHC Look-Alike shall:
  - a. Notify the AHCCCS provider registration unit of its status as a 340B covered entity no later than:
    - i. 30 days after the effective date of this Section;
    - ii. 30 days after registration with the Health Resources and Services Administration (HRSA) for participation in the 340B program, or
    - iii. The time of application to become an AHCCCS provider.
  - b. Provide the 340B pricing file to the AHCCCS Administration upon request. The 340B pricing file shall be provided in the file format as defined by AHCCCS.
  - c. Identify 340B drug claims submitted to the AHCCCS FFS PBM or the Managed Care Contractors' PBMs for reimbursement. The 340B drug claim identification and claims processing for a drug claim submission shall be consistent with claim instructions.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

tions issued and required by AHCCCS to identify such claims.

3. The FQHC and the FQHC Look-Alike pharmacies shall submit claims for AHCCCS members for drugs that are identified in the 340B pricing file, whether or not purchased under the 340B pricing file, with the lesser of:
  - a. The actual acquisition cost, or
  - b. The 340B ceiling price.
4. The AHCCCS Fee-for-Service and Managed Care Contractors' PBMs shall reimburse claims for drugs which are identified in the 340B pricing file dispensed by FQHC and FQHC Look -Alike pharmacies, whether or not purchased under the 340B pricing file, at the amount submitted under subsection (C)(3) plus a dispensing fee listed in the AHCCCS Capped Fee-For-Service Schedule unless a contract between the 340B entity and a Managed Care Contractor's PBM specifies a different dispensing fee.
5. Contracted pharmacies shall not submit claims for drugs dispensed under an agreement with the 340B entity as part of the 340B drug pricing program, and the AHCCCS Administration and Managed Care Contractors shall not reimburse such claims.
6. The AHCCCS Administration and Managed Care Contractors shall reimburse contracted pharmacies for drugs not dispensed under an agreement with the 340B entity as part of the 340B program at the price and dispensing fee set forth in the contract between the contracted pharmacy and the AHCCCS or its Managed Care Contractors' PBMs. Neither the Administration nor its Managed Care Contractors will reimburse a contracted pharmacy that does not have a contract with the Administration or MCO's PBM.
7. The AHCCCS Administration and its Managed Care Contractors shall reimburse FQHC and FQHC Look-Alike pharmacies for drugs that are not eligible under the 340B Drug Pricing Program at the price and dispensing fee set forth in their contract with the AHCCCS or its Managed Care Contractors' PBMs.
8. AHCCCS may periodically conduct audits to ensure compliance with this Section.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R9-22-710 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Amended as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Amended as a permanent rule effective May 16, 1983; text of amended rule identical to emergency (Supp. 83-3). Former Section R9-22-710 repealed, new Section R9-22-710 adopted effective October 1, 1983 (Supp. 83-5). Amended effective October 1, 1985. The capped fee-for-service schedules, deleted from Section R9-22-710, are now on file at the central office of the Administration (Supp. 85-5). Amended subsections (B) through (D) effective October 1, 1986 (Supp. 86-5). Amended subsection (B) effective July 1, 1988 (Supp. 88-3). Amended subsection (B) effective April 27, 1989 (Supp. 89-2). Amended under an exemption from the provisions of the Administrative Procedure Act, effective March 1, 1993 (Supp. 93-1). Amended effective December 13, 1993 (Supp. 93-4). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 11 A.A.R. 3830, effective

November 12, 2005 (Supp. 05-3). Amended by exempt rulemaking at 18 A.A.R. 212, effective February 1, 2012 (Supp. 12-1). Amended by exempt rulemaking at 18 A.A.R. 1971, effective August 1, 2012 (Supp. 12-3).

Amended by exempt rulemaking at 18 A.A.R. 2630, effective October 1, 2012 (Supp. 12-4). Amended by final rulemaking at 19 A.A.R. 1681, effective August 9, 2013 (Supp. 13-2). Amended by exempt rulemaking at 19 A.A.R. 3525, effective October 18, 2013 (Supp. 13-4)

**R9-22-711. Copayments**

- A. For purposes of this Article:
  1. A copayment is a monetary amount that a member pays directly to a provider at the time a covered service is rendered.
  2. An eligible individual is assigned to a hierarchy established in subsections (B) through (E), for the purposes of establishing a copayment amount.
  3. No refunds shall be made for a retroactive period if there is a change in an individual's status that alters the amount of a copayment.
- B. The following services are exempt from AHCCCS copayments for all members:
  1. Family planning services and supplies,
  2. Services related to a pregnancy or any other medical condition that may complicate the pregnancy, including tobacco cessation treatment for a pregnant woman,
  3. Emergency services as described in 42 CFR 447.56(2)(i),
  4. All services paid on a fee-for-service basis,
  5. Preventive services, such as well visits, immunizations, pap smears, colonoscopies, and mammograms,
  6. Provider preventable services.
- C. The following individuals are exempt from AHCCCS copayments:
  1. An individual under age 19, including individuals eligible for the KidsCare Program in A.R.S. § 36-2982;
  2. An individual determined to be Seriously Mentally Ill (SMI) by the Arizona Department of Health Services;
  3. An individual eligible for the Arizona Long-Term Care Program in A.R.S. § 36-2931;
  4. An individual eligible for QMB under Chapter 29;
  5. An individual eligible for the Children's Rehabilitative Services program under A.R.S. § 36-2906(E);
  6. An individual receiving nursing facility or HCBS services under R9-22-216;
  7. An individual receiving hospice care as defined in 42 U.S.C. 1396d(o);
  8. An American Indian individual enrolled in a health plan and has received services through an IHS facility, tribal 638 facility or urban Indian health program;
  9. An individual eligible in the Breast and Cervical Cancer program as described under Article 20;
  10. An individual who is pregnant and through the postpartum period following the pregnancy;
  11. An individual with respect to whom child welfare services are made available under Part B of Title IV of the Social Security Act on the basis of being a child in foster care, without regard to age;
  12. An individual with respect to whom adoption or foster care assistance is made available under Part E of Title IV of the Social Security Act, without regard to age; and
  13. An adult eligible under R9-22-1427(E), with income at or below 106% of the FPL.
- D. Non-mandatory copayments. Unless otherwise listed in subsection (B) or (C), individuals under subsections (D)(1)

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

through (6) are subject to the copayments listed in this subsection. A provider shall not deny a service when a member states to the provider an inability to pay a copayment.

1. A caretaker relative eligible under R9-22-1427(A);
  2. An individual eligible for Young Adult Transitional Insurance (YATI) in A.R.S. § 36-2901(6)(a)(iii);
  3. An individual eligible for State Adoption Assistance in R9-22-1433;
  4. An individual eligible for Supplemental Security Income (SSI);
  5. An individual eligible for SSI Medical Assistance Only (SSI/MAO) in Article 15; and
  6. An individual eligible for the Freedom to Work program in A.R.S. § 36-2901(6)(g).
  7. Copayment amount per service:
    - a. \$2.30 per prescription drug.
    - b. \$3.40 per outpatient visit, excluding an emergency room visit, if any of the services rendered during the visit are coded as evaluation and management services or non-emergent surgical procedures according to the National Standard Code Sets. An outpatient visit includes any setting where these services are performed such as a physician's office, an Ambulatory Surgical Center (ASC), or a clinic.
    - c. \$2.30 per visit, if a copayment is not being imposed under subsection (D)(7)(b) and any of the services rendered during the visit are coded as physical, occupational or speech therapy services according to the National Standard Code Sets.
- E. Mandatory copayments.**
1. Copayments for individuals eligible for Transitional Medical Assistance (TMA) under R9-22-1427(B)(1)(c)(i). Unless otherwise listed in subsection (C), an individual is required to pay the following copayments for prescription drugs and outpatient services unless the service is provided during an emergency room visit or the service is otherwise exempt under subsection (B). An outpatient visit includes any setting where these outpatient services are performed such as, an outpatient hospital, a physician's provider's office, HCBS setting, an Ambulatory Surgical Center (ASC), or a clinic:
    - a. \$2.30 per prescription drug.
    - b. \$4.00 per outpatient visit, if any of the services rendered during the visit are coded as evaluation and management services according to the National Standard Code Sets.
    - c. If a copayment is not being imposed under subsection (E)(1)(b), \$3.00 per visit if any of the services rendered during the visit are coded as physical, occupational or speech therapy services according to the National Standard Code Sets.
    - d. If a copayment is not being imposed under subsection (E)(1)(b) or (c), \$3.00 per visit, if any of the services rendered during the visit are coded as non-emergent surgical procedures according to the National Standard Code Sets.
  2. Copayments for persons eligible under R9-22-1427(E) with income above 106% of the FPL and for persons eligible under A.R.S. §§ 36-2907.10 and 36-2907.11. Subject to CMS approval, unless otherwise listed in subsection (C), these individuals are required to pay the following copayments for prescription drugs and outpatient services unless the service is provided during an emergency room visit or the service is otherwise exempt under subsection (B). An outpatient visit includes any setting where these outpatient services are performed such as, an outpatient hospital, a physician's provider's office, HCBS setting, an Ambulatory Surgical Center (ASC), or a clinic:
    - a. \$4.00 per prescription drug.
    - b. \$5.00 per outpatient visit when the AHCCCS fee schedule for the visit code is a rate from \$50 to less than \$100, if any of the services rendered during the visit are coded as evaluation and management services according to the National Standard Code Sets.
    - c. \$10.00 per outpatient visit when the AHCCCS fee schedule for the visit code is a rate of \$100 or greater, if any of the services rendered during the visit are coded as evaluation and management services according to the National Standard Code Sets.
    - d. If a copayment is not being imposed under subsection (E)(2)(b) or (E)(2)(c), for services coded as physical, occupational or speech therapy services according to the National Standard Code Sets.
      - i. \$2.00 if the rate on the fee schedule is \$20 to \$39.99,
      - ii. \$4.00 if the rate on the fee schedule is \$40 to \$49.99, or
      - iii. \$5.00 if the rate on the fee schedule is \$50 and above per visit.
    - e. If a copayment is not being imposed under subsection (E)(2)(b) – (E)(2)(d), for services coded as non-emergent surgical procedures according to the National Standard Code Sets,
      - i. \$30.00 if the rate on the fee schedule is \$300 to \$499.99, or
      - ii. \$50.00 if the rate on the fee schedule is \$500 and above per visit.
    - f. Unless the individual is otherwise exempt in subsection (C) or the service is exempted under subsection (B) the individual is required to pay \$2.00 per trip for non-emergency transportation in an urban area.
    - g. Unless the individual is otherwise exempt in subsection (C) or the service is exempted under subsection (B) the individual is required to pay \$8.00 for non-emergency use of the emergency room.
    - h. Unless the individual is otherwise exempt in subsection (C) or the service is exempted under subsection (B) the individual is required to pay \$75 for an Inpatient stay.
  3. The provider may deny a service if the member does not pay the copayment required by subsection (E), however, a provider may choose to reduce or waive copayments under this subsection on a case-by-case basis.
- F.** A provider is responsible for collecting any copayment imposed under this Section.
- G.** The total aggregate amount of copayments under subsections (D) or (E) may not exceed 5% of the family's income as applied on a quarterly basis. The member may establish that the aggregate limit has been met on a quarterly basis by providing the Administration with records of copayments incurred during the quarter. In addition, the Administration shall also use claims and encounters information available to the Administration to establish when a member's copayment obligation has reached 5% of the family's income.
- H.** Reduction in payments to providers. The Administration and its contractors shall reduce the payment it makes to any pro-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

vider by the amount of a member's copayment obligation under subsection (E), regardless of whether the provider successfully collects the copayments described in this Section.

**Historical Note**

Adopted as an emergency effective May 20, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Sections R9-22-711 adopted as an emergency now adopted and amended as a permanent rule effective August 30, 1982 (Supp. 82-4). Former Section R9-22-711 repealed, new Section R9-22-711 adopted effective October 1, 1983 (Supp. 83-5). Amended effective October 1, 1985 (Supp. 85-5). Amended under an exemption from the provisions of the Administrative Procedure Act, effective July 1, 1993 (Supp. 93-3). Amended under an exemption from the provisions of the Administrative Procedure Act, effective October 26, 1993 (Supp. 93-4).

Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 6 A.A.R. 2435, effective June 9, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 3317, effective July 15, 2002 (Supp. 02-3). Amended by exempt rulemaking at 9 A.A.R. 4557, effective October 1, 2003 (Supp. 03-4). Amended by exempt rulemaking at 10 A.A.R. 2194, effective May 3, 2004 (Supp. 04-2). Amended by exempt rulemaking at 10 A.A.R. 4266, effective October 1, 2004 (Supp. 04-3). Amended by final rulemaking at 16 A.A.R. 1449, effective October 1, 2010 (Supp. 10-3). Section amended by exempt rulemaking at 18 A.A.R. 461, effective April 1, 2012 (Supp. 12-1). Section amended by final rulemaking at 19 A.A.R. 2954, effective November 11, 2013 (Supp. 13-3). Amended by exempt rulemaking at 20 A.A.R. 128, effective December 30, 2013 (Supp. 13-4). Amended by exempt rulemaking at 20 A.A.R. 2755, effective January 1, 2015 (Supp. 14-3).

*Editor's Note: The following Section was adopted and amended under an exemption from the provisions of the Administrative Procedure Act which means that this rule was not reviewed by the Governor's Regulatory Review Council; the agency did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the agency was not required to hold public hearings on the rules; and the Attorney General did not certify this rule. This Section was subsequently amended through the regular rulemaking process.*

**R9-22-712. Reimbursement: General**

- A.** Inpatient and outpatient discounts and penalties. If a claim is pending for additional documentation required under A.R.S. § 36-2903.01(G)(4), the period during which the claim is pending is not used in the calculation of the quick-pay discounts and slow-pay penalties under A.R.S. § 36-2903.01(G)(5).
- B.** Inpatient and outpatient in-state or out-of-state hospital payments.
1. Payment for inpatient out-of-state hospital services for claims with discharge dates on or before September 30, 2014. In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse out-of-state hospitals for covered inpatient services by multiplying covered charges by the most recent statewide urban cost-to-charge ratio as determined in R9-22-712.01(6)(d).
  2. Payment for inpatient in-state hospital services for claims with discharge dates on or before September 30, 2014. AHCCCS shall reimburse an in-state provider of inpatient hospital services rendered with a discharge date on

3. Payment for inpatient in-state or out-of-state hospital services for claims with discharge dates on and after October 1, 2014 regardless of admission date. Subject to R9-22-718 and A.R.S. § 36-2905.01 regarding urban hospitals, a contractor shall reimburse an in-state or out-of-state provider of inpatient hospital services, at either a rate specified by subcontract or, in the absence of a subcontract, the DRG rate established by the Administration and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
  4. Outpatient out-of-state hospital payments. In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse an out-of-state hospital for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the Administration shall pay the claim by multiplying the covered charges for the outpatient services by the statewide outpatient cost-to-charge ratio.
  5. Outpatient in-state hospital payments. A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other Sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- C.** Access to records. Subcontracting and noncontracting providers of outpatient or inpatient hospital services shall allow the Administration access to medical records regarding eligible persons and shall in all other ways fully cooperate with the Administration or the Administration's designated representative in performance of the Administration's utilization control activities. The Administration shall deny a claim for failure to cooperate.
- D.** Prior authorization. The Administration or contractor may deny a claim if a provider fails to obtain prior authorization as required under R9-22-210.
- E.** Review of claims. Regardless of prior authorization or concurrent review activities, the Administration may subject all hospital claims, including outliers, to prepayment medical review or post-payment review, or both. The Administration shall conduct post-payment reviews consistent with A.R.S. § 36-2903.01 and may recoup erroneously paid claims.
- F.** Claim receipt.
1. The Administration's date of receipt of inpatient or outpatient hospital claims is the date the claim is received by the Administration as indicated by the date stamp on the claim and the system-generated claim reference number or system-generated date-specific number.
  2. Hospital claims are considered paid on the date indicated on disbursement checks.
  3. A denied claim is considered adjudicated on the date the claim is denied.
  4. Claims that are denied and are resubmitted are assigned new receipt dates.
  5. For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the Administration shall assign a new date of receipt upon receipt of the additional documentation.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

6. For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the Administration shall not assign a new date of receipt.
- G.** Outpatient hospital reimbursement. The Administration shall pay for covered outpatient hospital services provided to eligible persons with dates of service from March 1, 1993 through June 30, 2005, at the AHCCCS outpatient hospital cost-to-charge ratio, multiplied by the amount of the covered charges.
1. Computation of outpatient hospital reimbursement. The Administration shall compute the cost-to-charge ratio on a hospital-specific basis by determining the covered charges and costs associated with treating eligible persons in an outpatient setting at each hospital. Outpatient operating and capital costs are included in the computation but outpatient medical education costs that are included in the inpatient medical education component are excluded. To calculate the outpatient hospital cost-to-charge ratio annually for each hospital, the Administration shall use each hospital's Medicare Cost Reports and a database consisting of outpatient hospital claims paid and encounters processed by the Administration for each hospital, subjecting both to the data requirements specified in R9-22-712.01. The Administration shall use the following methodology to establish the outpatient hospital cost-to-charge ratios:
    - a. Cost-to-charge ratios. The Administration shall calculate the costs of the claims and encounters for outpatient hospital services by multiplying the ancillary line item cost-to-charge ratios by the covered charges for corresponding revenue codes on the claims and encounters. Each hospital shall provide the Administration with information on how the revenue codes used by the hospital to categorize charges on claims and encounters correspond to the ancillary line items on the hospital's Medicare Cost Report. The Administration shall then compute the overall outpatient hospital cost-to-charge ratio for each hospital by taking the average of the ancillary line items cost-to-charge ratios for each revenue code weighted by the covered charges.
    - b. Cost-to-charge limit. To comply with 42 CFR 447.325, the Administration may limit cost-to-charge ratios to 1.00 for each ancillary line item from the Medicare Cost Report. The Administration shall remove ancillary line items that are non-covered or not applicable to outpatient hospital services from the Medicare Cost Report data for purposes of computing the overall outpatient hospital cost-to-charge ratio.
  2. New hospitals. The Administration shall reimburse new hospitals at the weighted statewide average outpatient hospital cost-to-charge ratio multiplied by covered charges. The Administration shall continue to use the statewide average outpatient hospital cost-to-charge ratio for a new hospital until the Administration rebases the outpatient hospital cost-to-charge ratios and the new hospital has a Medicare Cost Report for the fiscal year being used in the rebasing.
  3. Specialty outpatient services. The Administration may negotiate, at any time, reimbursement rates for outpatient hospital services in a specialty facility.
  4. Reimbursement requirements. To receive payment from the Administration, a hospital shall submit claims that are legible, accurate, error free, and have a covered charge greater than zero. The Administration shall not reimburse hospitals for emergency room treatment, observation hours or days, or other outpatient hospital services performed on an outpatient basis, if the eligible person is admitted as an inpatient to the same hospital directly from the emergency room, observation area, or other outpatient department. Services provided in the emergency room, observation area, and other outpatient hospital services provided before the hospital admission are included in the tiered per diem payment.
  5. Rebasing. The Administration shall rebase the outpatient hospital cost-to-charge ratios at least every four years but no more than once a year using updated Medicare Cost Reports and claim and encounter data.
  6. If a hospital files an increase in its charge master for an existing outpatient service provided on or after July 1, 2004, and on or before June 30, 2005, which represents an aggregate increase in charges of more than 4.7%, the Administration shall adjust the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) by applying the following formula:  

$$CCR * [1.047 / (1 + \% \text{ increase})]$$
 Where "CCR" means the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) and "% increase" means the aggregate percentage increase in charges for outpatient services shown on the hospital charge master.  
 "Charge master" means the schedule of rates and charges as described under A.R.S. § 36-436 and the rules that relate to those rates and charges that are filed with the Director of the Arizona Department of Health Services.

**Historical Note**

Adopted as an emergency effective February 23, 1983 pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Adopted as a permanent rule effective May 16, 1983; text of adopted rule identical to emergency (Supp. 83-3). Former Section R9-22-712 repealed, new Section R9-22-712 adopted effective October 1, 1983 (Supp. 83-5). Former Section R9-22-712 renumbered and amended as Section R9-22-1001 effective October 1, 1985 (Supp. 85-5). New Section R9-22-712 adopted under an exemption from the provisions of the Administrative Procedure Act, effective March 1, 1993 (Supp. 93-1). Amended under an exemption from the provisions of the Administrative Procedure Act, effective July 1, 1993 (Supp. 93-3). Amended effective January 14, 1997 (Supp. 97-1). Amended by exempt rulemaking at 10 A.A.R. 3831, effective August 25, 2004 (Supp. 04-3). Amended by exempt rulemaking at 11 A.A.R. 2297, effective July 1, 2005 (Supp. 05-2). Amended by final rulemaking at 11 A.A.R. 3231, effective October 1, 2005 (Supp. 05-3). Amended by final rulemaking at 14 A.A.R. 1439, effective May 31, 2008 (Supp. 08-2). Amended by exempt rulemaking at 17 A.A.R. 1337, effective October 1, 2011 (Supp. 11-3). Amended by final rulemaking at 17 A.A.R. 1658, effective August 2, 2011 (Supp. 11-3). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.01. Inpatient Hospital Reimbursement for**

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

**claims with admission dates and discharge dates from October 1, 1998 through September 30, 2014**

Inpatient hospital reimbursement. The Administration shall pay for covered inpatient acute care hospital services provided to eligible persons for claims with admission dates and discharge dates from October 1, 1998 through September 30, 2014, on a prospective reimbursement basis. The prospective rates represent payment in full, excluding quick-pay discounts, slow-pay penalties, and third-party payments for both accommodation and ancillary department services. The rates include reimbursement for operating and capital costs. The Administration shall make reimbursement for direct graduate medical education as described in A.R.S. § 36-2903.01. For payment purposes, the Administration shall classify each AHCCCS inpatient hospital day of care into one of several tiers appropriate to the services rendered. The rate for a tier is referred to as the tiered per diem rate of reimbursement. The number of tiers is seven and the maximum number of tiers payable per continuous stay is two. Payment of outlier claims, transplant claims, or payment to out-of-state hospitals, freestanding psychiatric hospitals, and other specialty facilities may differ from the inpatient hospital tiered per diem rates of reimbursement described in this Section.

1. Tier rate data. The Administration shall base tiered per diem rates effective on and after October 1, 1998 on Medicare Cost Reports for Arizona hospitals for the fiscal year ending in 1996 and a database consisting of inpatient hospital claims and encounters for dates of service matching each hospital's 1996 fiscal year end.
  - a. Medicare Cost Report data. Because Medicare Cost Report years are not standard among hospitals and were not audited at the time of the rate calculation, the Administration shall inflate all the costs to a common point in time as described in subsection (2) for each component of the tiered per diem rates. The Administration shall not make any changes to the tiered per diem rates if the Medicare Cost Report data are subsequently updated or adjusted. If a single Medicare Cost Report is filed for more than one hospital, the Administration shall allocate the costs to each of the respective hospitals. A hospital shall submit information to assist the Administration in this allocation.
  - b. Claim and encounter data. For the database, the Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were accepted and processed by the Administration at the time the database was developed for rates effective on and after October 1, 1998. The Administration shall subject the claim and encounter data to a series of data quality, reasonableness, and integrity edits and shall exclude from the database or adjust claims and encounters that fail these edits. The Administration shall also exclude from the database the following claims and encounters:
    - i. Those missing information necessary for the rate calculation,
    - ii. Medicare crossovers,
    - iii. Those submitted by freestanding psychiatric hospitals, and
    - iv. Those for transplant services or any other hospital service that the Administration would pay on a basis other than the tiered per diem rate.
2. Tier rate components. The Administration shall establish inpatient hospital prospective tiered per diem rates based on the sum of the operating and capital components. The

rate for the operating component is a statewide rate for each tier except for the NICU and Routine tiers, which are based on peer groups. The rate for the capital component is a blend of statewide and hospital-specific values, as described in A.R.S. § 36-2903.01. The Administration shall use the following methodologies to establish the rates for each of these components.

- a. Operating component. Using the Medicare Cost Reports and the claim and encounter database, the Administration shall compute the rate for the operating component as follows:
  - i. Data preparation. The Administration shall identify and group into department categories, the Medicare Cost Report data that provide ancillary department cost-to-charge ratios and accommodation costs per day. To comply with 42 CFR 447.271, the Administration shall limit cost-to-charge ratios to 1.00 for each ancillary department.
  - ii. Operating cost calculation. To calculate the rate for the operating component, the Administration shall derive the operating costs from claims and encounters by combining the Medicare Cost Report data and the claim and encounter database for all hospitals. In performing this calculation, the Administration shall match the revenue codes on the claims and encounters to the departments in which the line items on the Medicare Cost Reports are grouped. The ancillary department cost-to-charge ratios for a particular hospital are multiplied by the covered ancillary department charges on each of the hospital's claims and encounters. The AHCCCS inpatient days of care on the particular hospital's claims and encounters are multiplied by the corresponding accommodation costs per day from the hospital's Medicare Cost Report. The ancillary cost-to-charge ratios and accommodation costs per day do not include medical education and capital costs. The Administration shall inflate the resulting operating costs for the claims and encounters of each hospital to a common point in time, December 31, 1996, using the DRI inflation factor and shall reduce the operating costs for the hospital by an audit adjustment factor based on available national data and Arizona historical experience in adjustments to Medicare reimbursable costs. The Administration shall further inflate operating costs to the midpoint of the rate year (March 31, 1999).
  - iii. Operating cost tier assignment. After calculating the operating costs, the Administration shall assign the claims and encounters used in the calculation to tiers based on diagnosis, procedure, or revenue codes, or NICU classification level, or a combination of these. For the NICU tier, the Administration shall further assign claims and encounters to NICU Level II or NICU Level III peer groups, based on the hospital's certification by the Arizona Perinatal Trust. For the Routine tier, the Administration shall further assign claims and encounters to the general acute care hospital or rehabilitation

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- hospital peer groups, based on state licensure by the Department of Health Services. For claims and encounters assigned to more than one tier, the Administration shall allocate ancillary department costs to the tiers in the same proportion as the accommodation costs. Before calculating the rate for the operating component, the Administration shall identify and exclude any claims and encounters that are outliers as defined in subsection (6).
- iv. Operating rate calculation. The Administration shall set the rate for the operating component for each tier by dividing total statewide or peer group hospital costs identified in this subsection within the tier by the total number of AHCCCS inpatient hospital days of care reflected in the claim and encounter database for that tier.
  - b. Capital component. For rates effective October 1, 1999 the capital component is calculated as described in A.R.S. § 36-2903.01.
  - c. Statewide inpatient hospital cost-to-charge ratio. For dates of service prior to October 1, 2007, the statewide inpatient hospital cost-to-charge ratio is used for payment of outliers, as described in subsections (4), (5), and (6), and out-of-state hospitals, as described in R9-22-712(B). The Administration shall calculate the AHCCCS statewide inpatient hospital cost-to-charge ratio by using the Medicare Cost Report data and claim and encounter database described in subsection (1) and used to determine the tiered per diem rates. For each hospital, the covered inpatient days of care on the claims and encounters are multiplied by the corresponding accommodation costs per day from the Medicare Cost Report. Similarly, the covered ancillary department charges on the claims and encounters are multiplied by the ancillary department cost-to-charge ratios. The accommodation costs per day and the ancillary department cost-to-charge ratios for each hospital are determined in the same way described in subsection (2)(a) but include costs for operating and capital. The Administration shall then calculate the statewide inpatient hospital cost-to-charge ratio by summing the covered accommodation costs and ancillary department costs from the claims and encounters for all hospitals and dividing by the sum of the total covered charges for these services for all hospitals.
  - d. Unassigned tiered per diem rates. If a hospital has an insufficient number of claims to set a tiered per diem rate, the Administration shall pay that hospital the statewide average rate for that tier.
3. Tier assignment. The Administration shall assign AHCCCS inpatient hospital days of care to tiers based on information submitted on the inpatient hospital claim or encounter including diagnosis, procedure, or revenue codes, peer group, NICU classification level, or a combination of these.
    - a. Tier hierarchy. In assigning claims for AHCCCS inpatient hospital days of care to a tier, the Administration shall follow the Hierarchy for Tier Assignment through September 30, 2014 in R9-22-712.09. The Administration shall not pay a claim for inpatient hospital services unless the claim meets medical review criteria and the definition of a clean claim. The Administration shall not pay for a hospital stay on the basis of more than two tiers, regardless of the number of interim claims that are submitted by the hospital.
    - b. Tier exclusions. The Administration shall not assign to a tier or pay AHCCCS inpatient hospital days of care that do not occur during a period when the person is eligible. Except in the case of death, the Administration shall pay claims in which the day of admission and the day of discharge are the same, termed a same day admit and discharge, including same day transfers, as an outpatient hospital claim. The Administration shall pay same day admit and discharge claims that qualify for either the maternity or nursery tiers based on the lesser of the rate for the maternity or nursery tier, or the outpatient hospital fee schedule.
    - c. Seven tiers. The seven tiers are:
      - i. Maternity. The Administration shall identify the Maternity Tier by a primary diagnosis code. If a claim has an appropriate primary diagnosis, the Administration shall pay the AHCCCS inpatient hospital days of care on the claim at the maternity tiered per diem rate.
      - ii. NICU. The Administration shall identify the NICU Tier by a revenue code. A hospital does not qualify for the NICU tiered per diem rate unless the hospital is classified as either a NICU Level II or NICU Level III perinatal center by the Arizona Perinatal Trust. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meet the medical review criteria for the NICU tier and have a NICU revenue code at the NICU tiered per diem rate. The Administration shall pay any remaining AHCCCS inpatient hospital day on the claim that does not meet NICU Level II or NICU Level III medical review criteria at the nursery tiered per diem rate.
      - iii. ICU. The Administration shall identify the ICU Tier by a revenue code. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meets the medical review criteria for the ICU tier and has an ICU revenue code at the ICU tiered per diem rate. The Administration may classify any AHCCCS inpatient hospital days on the claim without an ICU revenue code, as surgery, psychiatric, or routine tiers.
      - iv. Surgery. The Administration shall identify the Surgery Tier by a revenue code and a valid surgical procedure code that is not on the AHCCCS excluded surgical procedure list. The excluded surgical procedure list identifies minor procedures such as sutures that do not require the same hospital resources as other procedures. The Administration shall only split a surgery tier with an ICU tier. AHCCCS shall pay at the surgery tier rate only when the surgery occurs on a date during which the member is eligible.
      - v. Psychiatric. The Administration shall identify the Psychiatric Tier by either a psychiatric rev-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- enue code and a psychiatric diagnosis or any routine revenue code if all diagnosis codes on the claim are psychiatric. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the psychiatric tier with any tier other than the ICU tier.
- vi. Nursery. The Administration shall identify the Nursery Tier by a revenue code. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the nursery tier with any tier other than the NICU tier.
  - vii. Routine. The Administration shall identify the Routine Tier by revenue codes. The routine tier includes AHCCCS inpatient hospital days of care that are not classified in another tier or paid under any other provision of this Section. The Administration shall not split the routine tier with any tier other than the ICU tier.
4. Annual update. The Administration shall annually update the inpatient hospital tiered per diem rates through September 30, 2011.
  5. New hospitals. For rates effective on and after October 1, 1998, the Administration shall pay new hospitals the statewide average rate for each tier, as appropriate. The Administration shall update new hospital tiered per diem rates through September 30, 2011.
  6. Outliers. The Administration shall reimburse hospitals for AHCCCS inpatient hospital days of care identified as outliers under this Section by multiplying the covered charges on a claim by the Medicare Urban or Rural Cost-to-Charge Ratio. The Urban cost-to-charge ratio will be used for hospitals located in a county of 500,000 residents or more. The Rural cost-to-charge ratio will be used for hospitals located in a county of fewer than 500,000 residents.
    - a. Outlier criteria. For rates effective on and after October 1, 1998, the Administration set the statewide outlier cost threshold for each tier at the greater of three standard deviations from the statewide mean operating cost per day within the tier, or two standard deviations from the statewide mean operating cost per day across all the tiers. If the covered costs per day on a claim exceed the urban or rural cost threshold for a tier, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the applicable Medicare Urban or Rural CCR. The resulting amount will be the outlier payment. If there are two tiers on a claim, the Administration shall determine whether the claim is an outlier by using a weighted threshold for the two tiers. The weighted threshold is calculated by multiplying each tier rate by the number of AHCCCS inpatient hospital days of care for that tier and dividing the product by the total tier days for that hospital. Routine maternity stays shall be excluded from outlier reimbursement. A routine maternity is any one-day stay with a delivery of one or two babies. A routine maternity stay will be paid at tier.
    - b. Update. The CCR is updated annually by the Administration for dates of service beginning October 1, using the most current Medicare cost-to-charge ratios published or placed on display by CMS by August 31 of that year. The Administration shall update the outlier cost thresholds for each hospital through September 30, 2011 as described under A.R.S. § 36-2903.01. For inpatient hospital admissions with begin dates of service on and after October 1, 2011, AHCCCS will increase the outlier cost thresholds by 5% of the thresholds that were effective on September 30, 2011.
  - c. Medicare Cost-to-Charge Ratio Phase-In. AHCCCS shall phase in the use of the Medicare Urban or Rural Cost-to-Charge Ratios for outlier determination, calculation and payment. The three-year phase-in does not apply to out-of-state or new hospitals.
    - i. Medicare Cost-to-Charge Ratio Phase-In outlier determination and threshold calculation. For outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. For outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. The adjusted hospital specific inpatient cost-to-charge ratios shall be used for all calculations using the Medicare Urban or Rural Cost-to-Charge Ratios, including outlier determination, and threshold calculation.
    - ii. Medicare Cost-to-Charge Ratio Phase-In calculation for payment. For payment of outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio. For payment of outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio.
    - iii. Medicare Cost-to-Charge Ratio for outlier determination, threshold calculation, and payment. For outlier claims with dates of service on or after October 1, 2009, the full Medicare Urban or Rural Cost-to-Charge Ratios shall be utilized for all outlier calculations.
  - d. Cost-to-Charge Ratio used for qualification and payment of outlier claims.
    - i. For qualification and payment of outlier claims with begin dates of service on or after April 1, 2011 through September 30, 2011, the CCR

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- will be equal to 95% of the ratios in effect on October 1, 2010.
- ii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011, the CCR will be equal to 90.25% of the most recent published Urban or Rural Medicare CCR as described in subsection (6)(b).
  - iii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011 through September 30, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after April 1, 2011 by an additional percentage equal to the total percent increase reported on the charge master.
  - iv. Subject to approval by CMS, for qualification and payment of outlier claims with begin dates of service on or after October 1, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after June 1, 2012 by an additional percentage equal to the total percent increase reported on the charge master.
7. Transplants. The Administration shall reimburse hospitals for an AHCCCS inpatient stay in which a covered transplant as described in R9-22-206 is performed through the terms of the relevant contract. If the Administration and a hospital that performs transplant surgery on an eligible person do not have a contract for the transplant surgery, the Administration shall not reimburse the hospital more than what would have been paid to the contracted hospital for that same surgery.
  8. Ownership change. The Administration shall not change any of the components of a hospital's tiered per diem rates upon an ownership change.
  9. Psychiatric hospitals. The Administration shall pay free-standing psychiatric hospitals an all-inclusive per diem rate based on the contracted rates used by the Department of Health Services.
  10. Specialty facilities. The Administration may negotiate, at any time, reimbursement rates for inpatient specialty facilities or inpatient hospital services not otherwise addressed in this Section as provided by A.R.S. § 36-2903.01. For purposes of this subsection, "specialty facility" means a facility where the service provided is limited to a specific population, such as rehabilitative services for children.
  11. Outliers for new hospitals. Outliers for new hospitals will be calculated using the Medicare Urban or Rural Cost-to-Charge Ratio times covered charges. If the resulting cost is equal to or above the cost threshold, the claim will be paid at the Medicare Urban or Rural Cost-to-Charge ratio.
  12. Reductions to tiered per diem payment for inpatient hospital services. Inpatient hospital admissions with begin dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the tiered per diem rates in effect on September 30, 2011.
- ing at 17 A.A.R. 1337, effective October 1, 2011 (Supp. 11-3). Amended by exempt rulemaking at 18 A.A.R. 1914, effective July 18, 2012 (Supp. 12-3). Amended by final rulemaking at 19 A.A.R. 3315, effective November 30, 2013 (Supp. 13-4). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.02. Reserved**

**R9-22-712.03. Reserved**

**R9-22-712.04. Reserved**

**R9-22-712.05. Graduate Medical Education Fund Allocation**

**A.** Graduate medical education (GME) reimbursement as of September 30, 1997. Subject to legislative appropriation, the Administration shall make a distribution based on direct graduate medical education costs as described in A.R.S. § 36-2903.01(G)(9)(a).

**B.** Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(b). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (B)(3).

1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (B) if all of the following apply:

- a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona;
- b. It incurs direct costs for the training of residents in the GME programs, which costs are or will be reported on the hospital's Medicare Cost Report;
- c. It is not administered by or does not receive its primary funding from an agency of the federal government.

2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (B)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):

- a. Filled resident positions in approved programs established as of October 1, 1999 at hospitals that receive funding as described in A.R.S. § 36-2903.01(G)(9)(a) that are additional to the number of resident positions that were filled as of October 1, 1999; and
- b. All filled resident positions in approved programs other than GME programs described in A.R.S. § 36-2903.01(G)(9)(a) that were established before July 1, 2006.

3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (B) shall provide the applicable information listed in this subsection to the Administration:

- a. A GME program shall provide all of the following:
  - i. The program name and number assigned by the accrediting organization;
  - ii. The original date of accreditation;

#### Historical Note

New Section made by final rulemaking at 11 A.A.R. 3231, effective October 1, 2005 (Supp. 05-3). Amended by exempt rulemaking at 13 A.A.R. 3190, effective October 1, 2007 (Supp. 07-3). Amended by exempt rulemak-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- iii. The names of the sponsoring institution and all participating institutions current as of the date of reporting;
  - iv. The number of approved resident positions and the number of filled resident positions current as of the date of reporting;
  - v. For programs established as of October 1, 1999, the number of resident positions that were filled as of October 1, 1999, if the program has not already provided this information to the Administration;
- b. A hospital seeking a distribution under subsection (B) shall provide all of the following that apply:
- i. If the hospital uses the Intern and Resident Information System (IRIS) for tracking and reporting its resident activity to the fiscal intermediary, copies of the IRIS master and assignment files for the hospital's two most recently completed Medicare cost reporting years as filed with the fiscal intermediary;
  - ii. If the hospital does not use the IRIS or has less than two cost reporting years available in the form of the IRIS master and assignment files, the information normally contained in the IRIS master and assignment files in an alternative format for the hospital's two most recently completed Medicare cost reporting years;
  - iii. At the request of the Administration, a copy of the hospital's Medicare Cost Report or any part of the report for the most recently completed cost reporting year.
4. Allocation of expansion funds. Annually the Administration shall allocate available funds to each approved GME program in the following manner:
- a. Information provided by hospitals under subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided under subsections (B)(3)(b)(i) and (ii).
  - b. The number of eligible residents allocated to each participating institution within each approved GME program shall be determined as follows:
    - i. Total the number of days determined for each participating institution under subsection (B)(4)(a) and divide each total by 365.
    - ii. Proportionally adjust the result of subsection (B)(4)(b)(i) for each participating institution within each program according to the number of residents determined to be eligible under subsection (B)(2).
  - c. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) shall be adjusted for Arizona Medicaid utilization using the most recent Medicare Cost Report information on file with the Administration as of the date of reporting under subsection (B)(3) and the Administration's inpatient hospital claims and encounter data for the time period corresponding to the Medicare Cost Report information for each hospital. The Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were adjudicated by the Administration as of the date of reporting under subsection (B)(3). The Medicaid-adjusted eligible residents shall be determined as follows:
    - i. For each hospital, the total AHCCCS inpatient hospital days of care shall be divided by the total Medicare Cost Report inpatient hospital days, multiplied by 100 and rounded up to the nearest multiple of 5 percent.
    - ii. The number of allocated eligible residents determined for each participating hospital under subsection (B)(4)(b)(ii) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for that hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is not a hospital and not a health care facility made ineligible under subsection (B)(1)(c) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for the program's sponsoring institution or, if the sponsoring institution is not a hospital, the sponsoring institution's affiliated hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is made ineligible under subsection (B)(1)(c) shall be multiplied by zero percent.
  - d. The total allocation for each approved program shall be determined by multiplying the Medicaid-adjusted eligible residents determined under subsection (B)(4)(c)(ii) by the per-resident conversion factor determined below and totaling the resulting dollar amounts for all participating institutions in the program. The per-resident conversion factor shall be determined as follows:
    - i. Calculate the total direct GME costs from the most recent Medicare Cost Reports on file with the Administration for all hospitals that have reported such costs.
    - ii. Calculate the total allocated residents determined under subsection (B)(4)(b)(i) for those hospitals described under subsection (B)(4)(d)(i).
    - iii. Divide the total GME costs calculated under subsection (B)(4)(d)(i) by the total allocated residents calculated under subsection (B)(4)(d)(ii).
5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (B)(4) in the following manner:
- a. The allocated amounts shall be distributed in the following order of priority:
    - i. To eligible hospitals that do not receive funding in accordance with A.R.S. § 36-2903.01(G)(9)(a) for the direct costs of programs established before July 1, 2006;
    - ii. To eligible hospitals that receive funding in accordance with A.R.S. § 36-2903.01(G)(9)(a) for the direct costs of programs established before July 1, 2006;

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- b. The allocated amounts shall be distributed to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each hospital within that program under subsection (B)(4)(c)(ii).
- c. If funds are insufficient to cover all distributions within any priority group described under subsection (B)(5)(a), the Administration shall adjust the distributions proportionally within that priority group.
- C. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(c)(i). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (C)(3).
1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (C) if it meets all the conditions of subsections (B)(1)(a) through (c).
  2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (C)(4), the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):
    - a. All filled resident positions in approved programs established on or after July 1, 2006; and
    - b. For approved programs established on or after July 1, 2006 that have been established for less than one year as of the date of reporting under subsection (C)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match.
  3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (C) shall provide to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The requirements of subsections (B)(3)(a)(i) through (iv);
      - ii. The academic year rotation schedule on file with the program current as of the date of reporting; and
      - iii. For programs described under subsection (C)(2)(b), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
    - b. A hospital seeking a distribution under subsection (C) shall provide the requirements of subsection (B)(3)(b).
  4. Allocation of expansion funds. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
    - a. Information provided by hospitals in accordance with subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided in accordance with subsections (B)(3)(b)(i) and (ii).
- b. For approved programs whose resident activity is not represented in the information provided in accordance with subsection (B)(3)(b), information provided by GME programs under subsection (C)(3)(a) shall be used to determine the number of days that each eligible resident is expected to work at each participating institution.
- c. The number of eligible residents allocated to each participating institution for each approved GME program shall be determined by totaling the number of days determined under subsections (C)(4)(a) and (b) and dividing the totals by 365.
- d. The number of allocated residents determined under subsection (C)(4)(c) shall be adjusted for Arizona Medicaid utilization in accordance with subsection (B)(4)(c).
- e. The total allocation for each approved program shall be determined in accordance with subsection (B)(4)(d).
5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (C)(4) to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each within that program under subsection (C)(4)(d).
- D. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for GME programs approved by the Administration to hospitals for indirect program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(c)(ii). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (D)(3).
1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (D) if all of the following apply:
    - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona or is the base hospital for one or more of the GME programs in Arizona whose sponsoring institutions are not hospitals;
    - b. It incurs indirect program costs for the training of residents in the GME programs, which are or will be calculated on the hospital's Medicare Cost Report or are reimbursable under the Children's Hospitals Graduate Medical Education Payment Program administered by HRSA;
    - c. It is not administered by or does not receive its primary funding from an agency of the federal government.
  2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (D)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (D)(1)(c):

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- a. Any filled resident position in an approved program that includes a rotation of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule;
  - b. For approved programs that have been established for less than one year as of the date of reporting under subsection (D)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match who will perform rotations of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule.
3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (D) shall provide to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The requirements of subsections (B)(3)(a)(i) through (iv);
      - ii. The academic year rotation schedule on file with the program current as of the date of reporting;
      - iii. For programs described under subsection (D)(2)(c), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
    - b. A hospital seeking a distribution under subsection (D) shall provide the requirements of subsection (B)(3)(b)(iii).
  4. Allocation of funds for indirect program costs. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
    - a. Using the information provided by programs under subsection (D)(3), the Administration shall determine for each program the number of residents in the program who are eligible under subsection (D)(2) and the number of months per year that each eligible resident will perform rotations in counties described by subsection (D)(2), multiply the number of eligible residents by the number of months and multiply the result by the per resident per month conversion factor determined under subsection (D)(4)(b).
    - b. Using the most recent Medicare Cost Reports on file with the Administration for all hospitals that have calculated a Medicare indirect medical education payment, the Administration shall determine a per resident per month conversion factor as follows:
      - i. Calculate each hospital's Medicare share by dividing the Medicare inpatient discharges on the Medicare Cost Report by the total inpatient hospital discharges on the Medicare Cost Report.
      - ii. Calculate the ratio of residents to beds by dividing the total allocated residents described in subsection (B)(4)(d)(ii) by the number of bed days available from the Medicare Cost Report and dividing the result by the number of days in the cost reporting period.
      - iii. Calculate the indirect medical education adjustment factor by adding 1 to the value calculated in (D)(4)(b)(ii), multiplying the result by the exponential value 0.405, subtracting 1 from the result, and multiplying that result by 1.35.
      - iv. Calculate each hospital's total indirect medical education cost by adding the DRG amounts other than outlier payments from the Medicare cost report and the managed care simulated payments from the Medicare Cost Report, multiplying the total by the indirect medical education adjustment factor determined in (D)(4)(b)(iii) and dividing the result by the Medicare share determined in (D)(4)(b)(i).
      - v. Calculate each hospital's Medicaid indirect medical education cost by multiplying the amount determined in (D)(4)(b)(iv) by the value determined in subsection (B)(4)(c)(i).
      - vi. Total the amounts determined in (D)(4)(b)(v) for all hospitals, divide the result by the total allocated residents described in subsection (B)(4)(d)(ii) for all hospitals, and divide that result by 12.
  5. Distribution of funds for indirect program costs. On an annual basis subject to available funds, the Administration shall distribute to each eligible hospital the amount calculated for the hospital at subsection (D)(4)(a).
- E. Reallocation of funds. If funds appropriated for subsection (B) are not allocated by the Administration and funds appropriated for subsections (C) and (D) are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the funds not allocated under subsection (B) shall be allocated under subsections (C) and (D) to the extent of the calculated distributions. If funds are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the Administration shall adjust the distributions proportionally. If funds appropriated for subsections (C) and (D) are not allocated by the Administration and funds appropriated for subsection (B) are insufficient to cover all distributions under subsection (B)(5), the funds not allocated under subsections (C) and (D) shall be allocated under subsection (B) to the extent of the calculated distributions.
  - F. The Administration may enter into intergovernmental agreements with local, county, and tribal governments wherein local, county and tribal governments may transfer funds or certify public expenditures to the Administration. Such funds or certification, subject to approval by CMS, will be used to qualify for additional federal funds. Those funds will be used for the purposes of reimbursing hospitals that are eligible under subsection (D)(1) and specified by the local, county, or tribal government for indirect program costs other than those reimbursed under subsection (D). The Administration shall allocate available funds in accordance with subsection (D) except that reimbursement with such funds is not limited to resident positions or rotations in counties with populations of less than 500,000 persons. On an annual basis subject to available funds, the Administration shall distribute to each eligible hospital the greatest among the following amounts, less any amounts distributed under subsection (D)(5):
    1. The amount that results from multiplying the total number of eligible residents allocated to the hospital under subsection (B)(4)(d)(ii) by 12 by the per resident per month conversion factor determined under subsection (D)(4)(b);

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

2. The amount calculated for the hospital at subsection (D)(4)(b)(v);
3. The median of all amounts calculated at subsection (D)(4)(b)(v) if the hospital does not have an indirect medical education payment calculated on the Medicare Cost Report because it is a new training hospital; or
4. If the hospital does not have an indirect medical education payment calculated on the Medicare Cost Report because it is a children's hospital, the median Medicaid indirect medical education payment costs shall be calculated as follows:
  - a. For each hospital with indirect medical education costs on the Medicare Cost Report, determine a per resident total indirect medical education cost by dividing the total indirect medical education costs determined under subsection (D)(4)(b) by the number of filled resident positions under subsection (B)(2).
  - b. Determine the median per resident amount under subsection (F)(4)(a).
  - c. For each hospital without an indirect medical education component on the Medicare cost report, multiply the median per resident amount under subsection (F)(4)(b) by the number of filled resident positions under subsection (B)(2) for that hospital and by the Medicaid utilization percent for that hospital determined in subsection (B)(4)(c)(i).
5. It is not administered by or does not receive its primary funding from an agency of the federal government;
6. It has established a new GME program or expanded the number of residents or fellows in an existing GME program on or after July 1, 2020.
3. Eligible positions. For purposes of determining distributions under this Section the following resident and fellowship positions qualify to the extent that the training takes place in Arizona at an eligible health care facility:
  - a. Filled resident or fellow positions in approved programs which began on or after July 1, 2020;
  - b. Eligible positions do not include residents or fellows that receive payments for services under the Access to Professional Services Initiative (APSI) program established in the Contractors' prepaid capitation contracts with the Administration.
4. Annual Reporting
  - a. By December 15 of each year, a GME program shall provide all of the following information for GME programs and positions which are expected to be eligible for funding under this Section as of the upcoming academic year (i.e., July 1 to June 30 of each year):
    - i. The program name and number assigned by the accrediting organization if available;
    - ii. The original date of accreditation if available;
    - iii. The names of the sponsoring institution and all participating institutions expected as of the date of reporting;
    - iv. The number of anticipated resident and fellowship positions eligible for funding as of the upcoming academic year;
    - v. The number of months or partial months during the upcoming academic year that each resident or fellow is expected to work in each hospital or in a non-hospital setting under agreement between the non-hospital setting and the reporting hospital;
    - vi. The academic year of anticipated resident and fellowship positions;
    - vii. The length of the program; and
    - viii. The names and other information requested by AHCCCS to ensure the total GME distributions for each eligible position are not greater than the costs for each eligible position in the Intern and Resident Information System (IRIS) file.
  - b. By December 15 of each year, a GME program located in a county with a population of less than 500,000 persons shall provide the estimated one-time and ongoing costs for each program which it expects to be eligible for funding.
  - c. By September 1 of each year, a GME program shall provide the actual name of residents and fellows hired in the current academic year and other information requested by AHCCCS to ensure that total GME distributions for the eligible position are not greater than the costs for each eligible position in the IRIS file.

**Historical Note**

New Section made by final rulemaking at 13 A.A.R. 1782, effective June 30, 2007 (Supp. 07-2). Amended by exempt rulemaking at 13 A.A.R. 4032, effective November 1, 2007 (Supp. 07-4). Amended by final rulemaking at 21 A.A.R. 3469, effective January 30, 2016 (Supp. 15-4). Amended by final rulemaking at 24 A.A.R. 185, effective January 9, 2018 (Supp. 18-1). Amended by final rulemaking at 24 A.A.R. 3321, effective January 5, 2019 (Supp. 18-4).

**R9-22-712.06. Supplemental Graduate Medical Education Fund Allocation**

- A. Gradual Medical Education (GME) reimbursement as of July 1, 2020.
  1. In addition to distributions according to Section R9-22-712.05, and subject to the availability of funds and approval by CMS, the Administration shall annually distribute monies appropriated for the GME programs approved by the Administration to hospitals for direct and indirect costs for graduate medical education programs which were established or expanded on or after July 1, 2020. The Administration shall estimate the distributions using information possessed by the Administration as of December 15 of each calendar year. The actual distributions will be made using information possessed by the Administration as of September first of the year in which the new residency or fellowship begins.
  2. Eligible Hospitals. A hospital is eligible for distributions under this Section if all of the following apply:
    - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona;
    - b. It incurs direct costs for the training of residents in the GME programs, which costs are or will be reported on the hospital's Medicare Cost Report;

- B. Preliminary allocation of funds for urban hospitals. Annually by January 15, the Administration shall estimate the annual GME distributions under this Section using the funds appropriated for hospitals in counties with a populations of 500,000 persons or more based on the number of new residents and fel-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

lows in graduate medical education programs in the following manner:

1. Each eligible resident and fellow is placed into tiers with the following priority:
    - a. Returning residents and fellows. A returning resident or fellow is a resident or fellow whose position received funding under this Section for the previous academic year and who is continuing in the same GME program.
    - b. Residents and fellows that are not a returning resident or fellow but are in a GME program for Family Medicine, Internal Medicine, General Pediatrics, Obstetrics and Gynecology, Psychiatry including Subspecialties, General Surgery, and any other program determined as high needs by the AHCCCS Administration.
    - c. Residents or fellows that are not returning residents or fellows and are not described in subsection (1)(b) but are in a GME program that received funding under this Section in a prior year.
    - d. All other residents and fellows.
  2. Residents and fellows in each tier are further divided into four sub-tiers with the following priority based on the location of the sponsoring or participating hospital:
    - a. Hospitals in a county designated by the Health Resource and Services Administration of the U.S. Department of Health & Human Services as a health professional shortage area (HPSA) with a greater than 85 percent primary care shortage.
    - b. Hospitals in a county designated as a HPSA with a greater than 50 percent to 85 percent primary care shortage.
    - c. Hospitals in a county designated as a HPSA with a 25-50 percent primary care shortage.
    - d. Hospitals in a county designated as a HPSA with a less than 25 percent primary care shortage.
  3. The amount of the distribution for each GME program for direct costs is calculated as the product of:
    - a. The number of eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospitals;
    - b. The Arizona Medicaid utilization as determined by R9-22-712.05(B)(4)(c)(i) in the previous calendar year; and,
    - c. The average direct cost per resident determined under R9-22-712.05(B)(4)(d) in the previous calendar year.
  4. If monies are still remaining after direct funding has been allocated, indirect funding shall be allocated based on the priority of each tier and sub-tier. The amount of the distribution for each GME program for indirect costs is calculated as the product of:
    - a. The number of allocated eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospital;
    - b. The indirect cost per resident per month calculated in R9-22-712.05(D)(4)(b)(vi) in the previous calendar year; and
    - c. Twelve months.
  - d. Funds shall be allocated based on the priority of each tier and sub-tier. Distributions for eligible positions in a tier or sub-tier with a lower priority will not receive a distribution until distributions are allocated for the costs of all positions in a higher tier or sub-tier. If funding is insufficient to fully fund a tier or sub-tier, the remainder of funds will be prorated for eligible positions in that tier or sub-tier.
  5. Payments are made to participating hospitals based on the FTEs who worked at their hospitals per year.
- C. Preliminary allocation of funds for rural hospitals. Annually by January 15, the Administration shall estimate the annual GME distributions under this Section using the funds appropriated for rural hospitals based on the number of eligible resident and fellow positions in graduate medical education programs located in a county with a population of less than 500,000 persons in the following manner:
1. Each resident and fellow will then be placed into a tier with the following priority:
    - a. Returning residents and fellows. A returning resident or fellow is a resident or fellow whose position received funding under this Section for the previous academic year and who is continuing in the same GME program.
    - b. Residents and fellows that are not a returning resident or fellow but are in a GME program for Family Medicine, Internal Medicine, General Pediatrics, Obstetrics and Gynecology, Psychiatry including Subspecialties, General Surgery, and any other program determined as high needs by the AHCCCS Administration.
    - c. Residents or fellows that are not returning residents or fellows and are not described in subsection (1)(b) but are in a GME program that received funding under this Section in a prior year.
    - d. All other residents and fellows.
  2. Residents and fellows in each tier are further divided into four sub-tiers with the following priority based on the location of the sponsoring or participating hospital:
    - a. Hospitals in a county designated by the Health Resource and Services Administration of the U.S. Department of Health & Human Services as a HPSA with a greater than 85 percent primary care shortage.
    - b. Hospitals in a county designated as a HPSA with a greater than 50 percent to 85 percent primary care shortage.
    - c. Hospitals in a county designated as a HPSA with a 25-50 percent primary care shortage.
    - d. Hospitals in a county designated as a HPSA with a less than 25 percent primary care shortage.
  3. Funds shall first be allocated for direct and indirect costs based in order of priority of each tier. If not enough funding is available to fully fund a tier or sub-tier, the remainder of funds will be prorated in a tier or sub-tier.
  4. The amount of the distribution for each GME program for direct costs is calculated as the product of:
    - a. The number of eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospitals;
    - b. The Arizona Medicaid utilization determined under R9-22-712.05(B)(4)(c)(i); and,
    - c. The actual direct cost per resident per year.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

5. The amount of the distribution for each GME program for indirect costs is calculated as the product of:
  - a. The number of allocated eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospital;
  - b. The indirect cost per resident per month calculated in R9-22-712.05(D)(4)(b)(vi) in the previous calendar year; and
  - c. Twelve months.
6. Payments are made to participating hospitals based on the FTEs who worked at their hospitals per year.
- D.** Final allocation of funds. Annually no sooner than September 1 following the start of the academic year, the Administration will recalculate the allocation for urban and rural hospitals using the same methodology used to estimate distributions, but using the actual residents and fellows as reported in R9-22-712.06(B)(3)(c).
- F.** Exclusions. To ensure that residents and fellows are not double counted residents/fellows which receive funding through R9-22-712.06 shall not receive funding through R9-22-712.05.
  - a. Has 100 or fewer PPS beds, not including beds reported as sub provider beds on the hospital's Medicare Cost Report, and is located in a county with a population of less than 500,000 persons, or
  - b. Is designated as a critical access hospital for the majority of the previous state fiscal year.
- B.** Each February, the Administration shall allocate the Fund to the following three pools for the fiscal year:
  1. Rural hospitals with 25 or fewer PPS beds not including sub provider beds and all Critical Access Hospitals, regardless of the number of beds in the Critical Access Hospital;
  2. Rural hospitals other than Critical Access Hospitals with 26 to 75 PPS beds not including sub provider beds; and
  3. Rural hospitals other than Critical Access Hospitals with 76 to 100 PPS beds not including sub provider beds.
- C.** The Administration shall allocate the Fund to each pool according to the ratio of claims paid amount for all hospitals assigned to the pool to total claims paid amount for all rural hospitals.
- D.** The Administration shall determine each hospital's claims paid amount and allocate the funds in each pool to each hospital in the pool based on the ratio of each hospital's claims paid amount to the sum of the claims paid amount for all hospitals assigned to the pool.
- E.** The Administration shall not make a Fund payment to a hospital that will result in the hospital's claims paid amount plus that hospital's Fund payment being greater than that hospital's calculated inpatient costs.
  1. If a hospital's claims paid amount plus the hospital's Fund payment would be greater than the hospital's calculated inpatient costs, the Administration shall make a Fund payment to the hospital equal to the difference between the hospital's calculated inpatient costs and the hospital's claims paid amount.
  2. The Administration shall reallocate any portion of a hospital's Fund allocation that is not paid to the hospital due to the reason in subsection (E)(1) to the other eligible hospitals in the pool based upon the ratio of the claims paid amount for each hospital remaining in the pool to the sum of the claims paid amount for each hospital remaining in the pool.
- F.** If funds remain in a pool after allocations to each hospital in the pool under subsections (D) and (E), the Administration shall reallocate the remaining funds to the other pools based upon the ratio of each pool's original allocation of the Fund as determined under subsection (C) to the sum of the remaining pools' original Fund allocations under subsection (C). The Administration shall allocate remaining funds to the hospitals in the remaining pools under subsection (D) and (E). See Exhibit 1 for an example.
- G.** Subject to CMS approval of the method and distribution of the Fund, the administration or its contractors will distribute the Fund as a lump sum allocation to the rural hospitals in either one or two installments by the end of each state fiscal year.

**Historical Note**

New Section made by final rulemaking at 27 A.A.R. 2496 (October 29, 2021), with an immediate effective date of October 6, 2021 (Supp. 21-4).

**R9-22-712.07. Rural Hospital Inpatient Fund Allocation**

- A.** For purposes of this Section, the following words and phrases have the following meanings unless the context specifically requires another meaning:
  1. "Calculated inpatient costs" means the sum of inpatient covered charges multiplied by the Milliman study's implied cost-to-charge ratio of .8959.
  2. "Claims paid amount" means the sum of all claims paid by the Administration and contractors, as reported by the contractor to the Administration, to a rural hospital for covered inpatient services rendered for dates of service during the previous state fiscal year.
  3. "Fund" means any state funds appropriated by the Legislature for the purposes set forth in A.R.S. § 36-2905.02 and any federal funds that are available for matching the state funds.
  4. "Inpatient covered charges" means the sum of all covered charges billed by a hospital to the Administration or contractors, as reported by the contractors to the Administration, for inpatient services rendered during the previous state fiscal year.
  5. "Milliman study" means the report issued by Milliman USA on March 11, 2004, to the Arizona Hospital and Healthcare Association that updated a portion of a cost study entitled "Evaluation of the AHCCCS Inpatient Hospital Reimbursement System" prepared by Milliman USA for AHCCCS on November 15, 2002. A copy of each report is on file with the Administration.
  6. "Rural hospital" means a health care institution that is licensed as an acute care hospital by the Arizona Department of Health Services for the previous state fiscal year and is not an IHS hospital or a tribally owned or operated facility and:

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 2188, effective June 6, 2006 (Supp. 06-2). Amended by final rulemaking at 22 A.A.R. 3476, effective January 30, 2016 (Supp. 15-4).

**Exhibit 1. Pool Example**

Pool A receives \$2,000,000. Pool B receives \$7,000,000. Pool C receives \$3,000,000.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

If all of the funds in Pool B are paid to eligible hospitals and there is \$1,000,000 remaining, the remaining funds would be allocated to Pool A and Pool C based on the ratio of each pool's original allocation (original allocations of \$2,000,000 and \$3,000,000) to the total of their original allocation ( $\$2,000,000 + \$3,000,000 = \$5,000,000$ ).

Pool A would receive 2/5 of the remaining funds (\$400,000) and Pool C would receive 3/5 of the remaining funds (\$600,000).

**Historical Note**

Exhibit 1 made by final rulemaking at 12 A.A.R. 2188, effective June 6, 2006 (Supp. 06-2).

**R9-22-712.08. Federally Qualified Health Center and Rural Health Clinic Graduate Medical Education Program**

- A.** Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for primary care GME programs approved by the Administration to Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC) for direct and indirect program costs eligible for funding under A.R.S. § 36-2907.06(I).
1. A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (D).
  2. For purposes of this subsection, the term "FQHC" includes Federally Qualified Health Center Look-Alikes.
- B.** Eligible health care facilities. A health care facility is eligible for a distribution under subsection (G) if all of the following apply:
1. It is an FQHC or RHC in Arizona that is the sponsoring institution of, or a full member of a consortium that is the sponsoring institution of, or a participating institution in, one or more approved primary care GME programs in Arizona;
  2. It incurs direct or indirect costs for the training of residents in Arizona in approved primary care GME programs;
  3. The GME program is not eligible for funding under R9-22-712.05; and
  4. The GME program is not fully funded by the federal government.
- C.** Eligible residents and resident positions. For purposes of determining program allocation amounts under subsections (E) and (F) the following residents and resident positions are eligible for consideration, to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B):
1. All filled resident positions in approved primary care GME programs; or
  2. For approved primary care GME programs established for less than one year as of the date of annual reporting under subsection (D) and that have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match.
- D.** Annual reporting. By April 1st of each year, an FQHC or RHC seeking a distribution under this subsection shall:
1. Provide to the Administration the following information about each approved primary care GME program:
    - a. The program name and number assigned by the accrediting organization;
    - b. The original date of accreditation of the program;
    - c. The names of the sponsoring institution and all participating institutions current as of the date of reporting;
  - d. The number of approved resident positions and the number of filled resident positions current as of the date of reporting;
  - e. The academic year rotation schedule on file with the program current as of the date of reporting; and
  - f. For programs described under subsection (C)(2), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
2. Provide to the Administration the most recent Medicare Cost Report for the FQHC or RHC seeking the distribution, and
  3. For an FQHC or RHC that is a full member of a consortium that is the sponsoring institution of an approved primary care GME program, provide to the Administration a signed letter attesting to the responsibility of the full member FQHC or RHC for direct or indirect costs of training residents in the program.
- E.** Allocation of funds for direct graduate medical education costs. Annually the Administration shall allocate available funds for direct graduate medical education costs to each eligible FQHC or RHC in the following manner:
1. A Medicaid utilization percent for each FQHC or RHC seeking a distribution shall be calculated using the Medicare Cost Report submitted under subsection (D)(2), dividing the Title XIX visit count by the whole number of visits reported and rounding the result up to the nearest multiple of 5 percent.
  2. A total number of residents eligible for funding in each program shall be calculated using the information submitted under subsection (D)(1), dividing the number of resident rotations in the year that take place in Arizona and not at a health care facility made ineligible under subsection (B) by the total number of resident rotations in the program for that year, multiplying the result by the total number of filled resident positions in the program and rounding to two digits after the decimal.
  3. The allocation for direct graduate medical education costs for each eligible FQHC or RHC shall be calculated by multiplying the number of residents determined under subsection (E)(2) by the statewide average per-resident amount determined under this subsection and multiplying the result by the Medicaid utilization percent calculated for the FQHC or RHC under subsection (E)(1). The statewide average per-resident amount for the academic year ending June 30, 2022 is \$170,090. Annually thereafter, a statewide average per-resident amount shall be calculated by applying the Federally Qualified Health Center PPS Market Basket Update less Productivity Adjustment published by CMS for the calendar year in which the GME academic year begins.
- F.** Allocation of funds for indirect program costs. Annually the Administration shall allocate available funds for indirect program costs to each eligible FQHC or RHC in the following manner:
1. By multiplying the number of residents determined under subsection (E)(2) by the statewide average per-resident

TITLE 9. HEALTH SERVICES

CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

amount determined under this subsection and multiplying the result by the Medicaid utilization percent calculated for the FQHC or RHC under subsection (E)(1). The statewide average per-resident amount for the academic year ending June 30, 2022 is \$167,330;

2. Annually thereafter, a statewide average per-resident amount shall be calculated by applying the Federally Qualified Health Center PPS Market Basket Update less Productivity Adjustment published by CMS for the calendar year in which the GME academic year begins.

G. Distribution of funds. On an annual basis subject to available funds, the Administration shall distribute to each eligible FQHC and RHC the sum of all amounts calculated for the FQHC or RHC under subsections (E)(3) and (F).

H. The Administration may enter into intergovernmental agreements with local, county, and tribal governments and any university under the jurisdiction of the Arizona Board of Regents wherein such entities may transfer funds or certify public expenditures to the Administration. Such funds or certification, subject to approval by CMS, will contribute to the state funding to qualify for federal matching funds. Those funds will be used for the purposes of reimbursing FQHCs and RHCs that are eligible under this rule and designated by the local, county, or tribal governments for receipt of the contributed funds. The Administration shall allocate available funds in accordance with subsections (E) and (F).

**Historical Note**

New Section made by final rulemaking at 28 A.A.R. 837 (April 29, 2022), with an immediate effective date of April 5, 2022 (Supp. 22-2).

**R9-22-712.09. Hierarchy for Tier Assignment through September 30, 2014**

TIER	IDENTIFICATION CRITERIA	ALLOWED SPLITS
MATERNITY	A primary diagnosis defined as maternity 640.xx - 643.xx, 644.2x - 676.xx, v22.xx - v24.xx or v27.xx.	None
NICU	Revenue Code of 174 and the provider has a Level II or Level III NICU.	Nursery
ICU	Revenue Codes of 200-204, 207-212, or 219.	Surgery Psychiatric Routine
SURGERY	Surgery is identified by a revenue code of 36x. To qualify in this tier, there must be a valid surgical procedure code that is not on the excluded procedure list.	ICU
PSYCHIATRIC	Psychiatric Revenue Codes of 114, 124, 134, 144, or 154 AND primary Psychiatric Diagnosis = 290.xx - 316.xx. If a routine revenue code is present and all diagnoses codes on the claim are equal to 290.xx - 316.xx, classify as a psychiatric claim.	ICU
NURSERY	Revenue Code of 17x, not equal to 174.	NICU
ROUTINE	Revenue Codes of 100 - 101, 110-113, 116 - 123, 126 - 133, 136 - 143, 146 - 153, 156 - 159, 16x, 206, 213, or 214.	ICU

**Historical Note**

New Section made by final rulemaking at 11 A.A.R. 3231, effective October 1, 2005 (Supp. 05-3). Amended by exempt rulemaking at 17 A.A.R. 1707, effective October 1, 2011 (Supp. 11-3). Amended by final rulemaking at 19 A.A.R. 2747, effective October 8, 2013 (Supp. 13-3). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.10. Outpatient Hospital Reimbursement: General**

- A. Effective rule. The outpatient hospital reimbursement rules apply to dates of service beginning July 1, 2005, subject to Laws 2004, Ch. 279, § 19.
- B. Basis For Payment. Except as provided under R9-22-712.30, AHCCCS shall pay for designated outpatient procedures provided to AHCCCS members according to the AHCCCS Outpatient Capped Fee-For-Service Schedule as defined in R9-22-712.20.
- C. Data. AHCCCS shall use Medicare Cost Report and adjudicated claim and encounter data from non-IHS acute care hospitals located in the state of Arizona to develop fees for the AHCCCS Outpatient Capped Fee-For-Service Schedule.
- D. Hospital Services Subject To Fees. AHCCCS shall reimburse services, in the following outpatient hospital categories under the AHCCCS Outpatient Capped Fee-For-Service Schedule:
  1. Surgery,
  2. Emergency Department,
  3. Laboratory,
  4. Radiology,
  5. Clinic, and
  6. Other services.
- E. Reimbursement. AHCCCS shall reimburse outpatient hospital services by procedure codes, in proper combination with revenue codes, as prescribed by AHCCCS.

**Historical Note**

New Section made by exempt rulemaking at 11 A.A.R. 2297, effective July 1, 2005 (Supp. 05-2).

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- A.** To establish the AHCCCS Outpatient Capped Fee-for-service Schedule for all claims with a begin date of service on or before September 30, 2011, AHCCCS shall:
1. Define the dataset of claims and encounters that shall be used to establish the AHCCCS Outpatient Capped Fee-for-service Schedule.
  2. Identify all the claims and encounters from non-IHS acute hospitals located in Arizona for services to be paid under the AHCCCS Outpatient Capped Fee-for-service Schedule.
  3. Match the revenue code on each detail of each claim and encounter to the ancillary line item CCR as reported on hospital-specific mapping documents and hospital-specific Medicare Cost Report for those hospitals that have submitted Medicare Cost Reports FYE 2002.
  4. Multiply the line item CCR from subsection (A)(3) by the covered billed charge for that revenue code to establish the cost for the service.
  5. Inflate the cost for the service from subsection (A)(4) using Global Insight Health-care Cost Review inflation factors from date of service month to the midpoint of the rate year in which the fees are initially effective.
  6. Include associated costs under R9-22-712.25 to calculate the rates for emergency room and surgery services.
  7. Combine data from all Arizona hospitals identified in subsection (A)(3) for each procedure code to establish the statewide median cost for each procedure.
  8. Group procedure codes according to the Ambulatory Payment Classification (APC) System groups as listed in 69 FR 65682, November 15, 2004, and establish a statewide median cost for each APC. Multiply each statewide median APC cost by 116 percent to establish the AHCCCS-based fee for each procedure in that specific APC group. AHCCCS shall assign each procedure in the group the same fee.
  9. For those procedure codes that are not grouped into any APC, establish a procedure-specific fee using either:
    - a. The AHCCCS Non-hospital Capped Fee-for-service Fee Schedule,
    - b. 116 percent of the procedure-specific median cost AHCCCS-based fee, or
    - c. The Medicare Clinical Laboratory Fee Schedule for laboratory services.
  10. Compare the AHCCCS-based fee established in subsections (A)(8) and (9) against the comparable Medicare fee established for the Medicare APC group as listed in the 69 FR 65682, November 15, 2004. The fee for each procedure shall be the greater of the AHCCCS-based fee or the Medicare fee but no more than 150 percent of the AHCCCS-based fee; however, for those laboratory services for which a limit is established in the Medicare Clinical Laboratory Fee Schedule, the fee shall not exceed that limit.
  11. Assign the 2005 Medicare fee in the AHCCCS Outpatient Capped Fee-for-service Schedule for those procedures for which there are fewer than 20 occurrences of the procedure code in the dataset, either independently, or, if applicable, for all procedure codes within an APC Group.
- B.** For all claims with a begin date of service on or after October 1, 2011, the AHCCCS Outpatient Capped Fee-for-Service Schedule shall be derived from the CMS Medicare Outpatient Prospective Payment System (OPPS) fee schedule modified by an Arizona conversion factor determined annually.
1. When clinic services are billed using 51X revenue codes, the reimbursement to the hospital is the difference between the facility and non-facility rates payable to the practitioner for the procedures listed in the Administration's Capped Fee-for-service Schedule under R9-22-710.
  2. Observation services, when not billed in conjunction with a service for which a single payment is made under R9-22-712.25, are reimbursed at an hourly rate published in the Outpatient Capped Fee-for-service Schedule. This hourly rate includes reimbursement for associated services.
- C.** The AHCCCS Outpatient Capped Fee-for-service Schedule including the effective date of any changes to the listing are on file and posted on AHCCCS' web site.
- Historical Note**
- New Section made by exempt rulemaking at 11 A.A.R. 2297, effective July 1, 2005 (Supp. 05-2). Amended by final rulemaking at 17 A.A.R. 1460, effective October 1, 2011 (Supp. 11-3). Amended by exempt rulemaking at 18 A.A.R. 1914, effective July 18, 2012 (Supp. 12-3). Amended by final rulemaking at 19 A.A.R. 3315, effective November 30, 2013 (Supp. 13-4).

- R9-22-712.23. Reserved**
- R9-22-712.24. Reserved**
- R9-22-712.25. Outpatient Hospital Fee Schedule Calculations: Associated Service Costs**
- A.** AHCCCS shall include the costs of associated services, as defined by revenue codes and procedure codes, when determining the specific fees for the outpatient hospital procedures for emergency department and surgery services.
- B.** Payment made under subsection (A) or R9-22-712.20(B)(2) is inclusive of all services on the claim regardless of whether the services are provided on one or more days.
- C.** A complete listing of the revenue codes and procedure codes for associated costs included in the payment for emergency and surgery services including the effective date of any changes to the listing are on file and posted on AHCCCS' web site.
- Historical Note**
- New Section made by exempt rulemaking at 11 A.A.R. 2297, effective July 1, 2005 (Supp. 05-2). Amended by final rulemaking at 17 A.A.R. 1460, effective October 1, 2011 (Supp. 11-3).
- R9-22-712.26. Reserved**
- R9-22-712.27. Reserved**
- R9-22-712.28. Reserved**
- R9-22-712.29. Reserved**
- R9-22-712.30. Outpatient Hospital Reimbursement: Payment for a Service Not Listed in the AHCCCS Outpatient Capped Fee-For-Service Schedule**
- A.** AHCCCS shall calculate a statewide CCR for a service where a specific fee cannot be determined under R9-22-712.20.
- B.** For claims with a begin date of service on or before September 30, 2011, the statewide CCR shall be calculated based on the costs and covered charges associated with a service under sub-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

section (A) for all Arizona hospitals, using the method specified in R9-22-712.20(A)(3).

- C. For all claims with a begin date of service on or after October 1, 2011, the statewide CCR calculation shall equal either the CMS Medicare Outpatient Urban Cost-to-charge Ratio or the CMS Medicare Outpatient Rural Cost-to-charge Ratio published by CMS for the state of Arizona. AHCCCS shall use the urban cost-to-charge ratio for hospitals located in a county of 500,000 residents or more and for out-of-state hospitals. AHCCCS shall use the rural cost-to-charge ratio for hospitals located in a county of fewer than 500,000 residents. On October 1st of each year, AHCCCS shall adjust urban and rural CCRs to the CCRs as published by CMS in the *Federal Register* on or before August 1st of that year.
- D. To determine the payment amount for procedures where a specific fee is not determined under R9-22-712.20, the statewide CCR is multiplied by the covered charges.
- E. Reductions to payments for outpatient hospital services not listed in the AHCCCS Outpatient Capped Fee-For-Service Schedule. Outpatient hospital services not listed in the AHCCCS Outpatient Capped Fee-For-Service Schedule with dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the rate published by CMS pursuant to subsection (C) of this Section.

**Historical Note**

New Section made by exempt rulemaking at 11 A.A.R. 2297, effective July 1, 2005 (Supp. 05-2). Amended by final rulemaking at 17 A.A.R. 1460, effective October 1, 2011 (Supp. 11-3). Amended by exempt rulemaking at 18 A.A.R. 1914, effective July 18, 2012 (Supp. 12-3). Amended by final rulemaking at 19 A.A.R. 3315, effective November 30, 2013 (Supp. 13-4).

**R9-22-712.31. Reserved**

**R9-22-712.32. Reserved**

**R9-22-712.33. Reserved**

**R9-22-712.34. Reserved**

**R9-22-712.35. Outpatient Hospital Reimbursement: Adjustments to Fees**

- A. For all claims with a begin date of service on or before September 30, 2011, AHCCCS shall increase the Outpatient Capped Fee-for-service Schedule established under R9-22-712.20 (except for laboratory services and out-of-state hospital services) for the following hospitals submitting any claims:
- By 48 percent for public hospitals on July 1, 2005, and hospitals that were public anytime during the calendar year 2004;
  - By 45 percent for hospitals in counties other than Maricopa and Pima with more than 100 Medicare PPS beds during the contract year in which the Outpatient Capped Fee-for-service Schedule rates are effective;
  - By 50 percent for hospitals in counties other than Maricopa and Pima with 100 or less Medicare PPS beds during the contract year in which the Outpatient Capped Fee-for-service Schedule rates are effective;
  - By 115 percent for hospitals designated as Critical Access Hospitals or hospitals that have not been designated as Critical Access Hospitals but meet the criteria during the contract year in which the Outpatient Capped Fee-for-service Schedule rates are effective;
  - By 113 percent for a Freestanding Children's Hospital with at least 110 pediatric beds during the contract year in

which the Outpatient Capped Fee-for-service Schedule rates are effective; or

- By 14 percent for a University Affiliated Hospital which is a hospital that has a majority of the members of its board of directors appointed by the Board of Regents during the contract year in which the Outpatient Capped Fee-for-service Schedule rates are effective.
- B. For all claims with a begin date of service on or after October 1, 2011, AHCCCS shall increase the Outpatient Capped Fee-for-service Schedule (except for laboratory services, and out-of-state hospital services) for the following hospitals. A hospital shall receive an increase from only one of the following categories:
- By 73 percent for public hospitals;
  - By 31 percent for hospitals in counties other than Maricopa and Pima with more than 100 licensed beds as of October 1 of that contract year;
  - By 37 percent for hospitals in counties other than Maricopa and Pima with 100 or fewer licensed beds as of October 1 of that contract year;
  - By 100 percent for hospitals designated as Critical Access Hospitals or hospitals that have not been designated as Critical Access Hospitals but meet the critical access criteria;
  - By 78 percent for a Freestanding Children's Hospital with at least 110 pediatric beds as of October 1 of that contract year; or
  - By 41 percent for a University Affiliated Hospital, this is a hospital that has a majority of the members of its board of directors appointed by the Arizona Board of Regents.
- C. In addition to subsections (A) and (B), an Arizona Level 1 trauma center as defined by R9-22-2101 shall receive a 50 percent increase to the Outpatient Capped Fee-for-service Schedule (except for laboratory services and out-of-state hospital services) for Level 2 and 3 emergency department procedures.
- D. Hospitals with greater than 100 pediatric beds not receiving an increase under subsection (B) shall receive an 18 percent increase to the Outpatient Capped Fee-for-service Schedule (except for laboratory services, and out-of-state hospital services).
- E. For outpatient services with dates of service from October 1, 2022 through September 30, 2023, the payment otherwise required for outpatient hospital services provided by qualifying hospitals shall be increased by a percentage established by the administration. The percentage is published on the Administration's public website as part of its fee schedule subsequent to the public notice published no later than September 1, 2022. A hospital will qualify for an increase if it meets the criteria specified below for the applicable hospital subtype.
- A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: short-term or children's will qualify for an increase if it meets the criteria in (1)(a), (b), (c) or (d):
    - By April 1, 2022, the hospital must have submitted a Letter of Intent (LOI) to the Health Information Exchange (HIE) in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved.
      - No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to the HIE, in which it agrees to achieve the following milestones by the specified dates

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- or maintain its participation in the milestone activities if they have already been achieved.
- ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
    - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to qualifying HIE organization to ensure proper processing of lab results within the HIE system.
    - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
    - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
  - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE organization, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE on their behalf.
  - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge and transfer information (generally known as ADT information), including data from the hospital emergency department if the provider has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
  - v. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
  - vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization.
  - vii. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
  - viii. No later than January 1, 2023, the hospital must complete the initial data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below:
    - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
    - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
    - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data, the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
  - xi. DAP HIE Data Quality Standards CYE 2023 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a 0.5% DAP increase for each category of the five measure categories, for a total potential increase of 2.5% if criteria are met for all categories.
    - (1) Data source and data site information must be submitted on all ADT transactions. (0.5%)
    - (2) Event type must be properly coded on all ADT transactions. (0%)
    - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
    - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
    - (5) Race must be submitted on all ADT transactions. (0.5%)
    - (6) Ethnicity must be submitted on all ADT transactions. (0.5%)
    - (7) Diagnosis must be submitted on all ADT transactions. (0.5%)
    - (8) Overall completeness of the ADT message. (0%)
- b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates;
    - i. No later than April 1, 2022, submit registration form(s) for participation using the form(s) on the website of the qualifying HIE organization.
    - ii. No later than April 1, 2022:
      - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

Closed-Loop Referral Platform.

- (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
  - (3) For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
- iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize the SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
  - c. By March 15, 2022, the facility must submit a LOI to enter into a CCA (a fully signed copy of a CCA with an IHS/Tribal 638 facility is also acceptable). By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities:
    - i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
    - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
    - iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
    - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
    - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022 through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
    - vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
  - d. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:
    - i. Number of ICU beds in use,
    - ii. Number of ICU beds available for use,
    - iii. Number of Medical-Surgical beds in use,
    - iv. Number of Medical-Surgical beds available for use,
    - v. Number of Telemetry beds in use,
    - vi. Number of Telemetry beds available for use.
2. A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: critical access hospital will qualify for an increase if it meets this criteria specified in (2)(a),(b), (c) or (d):
    - a. By April 1, 2022 the hospital must have submitted a LOI to the HIE, in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved:
      - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
      - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
        - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
        - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
        - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
      - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE, if required by the external reference lab, to have all out-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- sourced lab test results flow to the qualifying HIE organization on their behalf.
- iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge and transfer information (generally known as ADT information), including data from the hospital emergency department if the provider has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
  - v. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
  - vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization.
  - vii. No later than November 1, 2022, the hospital must complete the initial data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - viii. No later than January 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below:
    - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
    - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
    - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
  - xi. DAP HIE Data Quality Standards CYE 2023 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a DAP increase for select Data Quality Measures for a total of 8.0% if criteria are met for all categories indicating a DAP.
    - (1) Data source and data site information must be submitted on all ADT transactions. (1.0%)
    - (2) Event type must be properly coded on all ADT transactions. (1.0%)
    - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
    - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
    - (5) Race must be submitted on all ADT transactions. (2.0%)
    - (6) Ethnicity must be submitted on all ADT transactions. (2.0%)
    - (7) Diagnosis must be submitted on all ADT transactions. (2.0%)
    - (8) Overall completeness of the ADT message. (0%)
- b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates;
    - i. No later than April 1, 2022, submit registration form(s) for participation using the form(s) on the website of the qualifying HIE organization.
    - ii. No later than April 1, 2022:
      - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (3) For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
    - iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize the SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
  - c. By March 15, 2022, the facility must submit a LOI to enter into a CCA (a fully signed copy of a CCA with an IHS/Tribal 638 facility is also acceptable). By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- facility agrees to achieve and maintain participation in the following activities:
- i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
  - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
  - iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
  - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
  - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022 through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
  - vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
- d. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:
- i. Number of ICU beds in use,
  - ii. Number of ICU beds available for use,
  - iii. Number of Medical-Surgical beds in use,
  - iv. Number of Medical-Surgical beds available for use,
  - v. Number of Telemetry beds in use, and
  - vi. Number of Telemetry beds available for use.
3. A hospital designated as type: hospital, subtype: long term, psychiatric, or rehabilitation by the Arizona Department of Health Services Division of Licensing Services will qualify for an increase if it meets the criteria specified in (3)(a), (b), (c), (d), (e), or (f):
- a. In order to qualify, by April 1, 2022 the hospital must have submitted a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved:
    - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
    - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
      - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
      - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
      - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
    - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE organization on their behalf.
    - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge, and transfer information (generally known as ADT information), including data from the hospital emergency department if the facility has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
    - v. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
    - vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization or

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- an Advance Directives Registry platform operated by the qualifying HIE organization.
- vii. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
  - viii. No later than January 1, 2023, the hospital must complete the initial data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to DAP increases described below.
    - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
    - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
    - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
  - xi. DAP HIE Data Quality Standards CYE 2022 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a 0.5% DAP increase for each category of the five measure categories, for a total potential increase of 2.0% if criteria are met for all categories.
    - (1) Data source and data site information must be submitted on all ADT transactions. (0.5%)
    - (2) Event type must be properly coded on all ADT transactions. (0%)
    - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
    - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
    - (5) Race must be submitted on all ADT transactions. (0.5%)
    - (6) Ethnicity must be submitted on all ADT transactions. (0.5%)
    - (7) Diagnosis must be submitted on all ADT transactions. (0.5%)
    - (8) Overall completeness of the ADT message. (0%)
  - b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates;
    - i. No later than April 1, 2022, submit registration form(s) for participation using the form(s) on the website of the qualifying HIE organization.
    - ii. No later than April 1, 2022:
      - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (3) For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
    - iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
    - c. On March 15, 2022 is identified as a Medicare Annual Payment Update recipients on the QualityNet.org website. APU recipients are those facilities that satisfactorily met the requirements for the IPFQR program, which includes multiple clinical quality measures. Facilities identified as APU recipients will qualify for the DAP increase.
    - d. On March 15, 2022 meets or falls below the national average for the rate of pressure ulcers that are new or worsened from the Medicare Provider Data Catalog website for long-term care hospitals. Facility results will be compared to the national average results for the measure. Hospitals that meet or fall below the national average percentage will qualify for the DAP increase.
    - e. On March 15, 2022 meets or falls below the national average for the rate of pressure ulcers that are new or worsened from the Medicare Provider Data Catalog website for rehabilitation hospitals. Facility results will be compared to the national average results for the measure. Hospitals that meet or fall below the national average percentage will qualify for the DAP increase.
    - f. By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities:
      - i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
      - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- requesting services to be performed by the non-IHS/Tribal 638 facility.
- iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
  - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
  - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022, through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
  - vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
4. A hospital designated as type: hospital, subtype: long term or rehabilitation by the Arizona Department of Health Services Division of Licensing Services will qualify for an increase if it meets the following criteria. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:
    - i. Number of ICU beds in use,
    - ii. Number of ICU beds available for use,
    - iii. Number of Medical-Surgical beds in use,
    - iv. Number of Medical-Surgical beds available for use,
    - v. Number of Telemetry beds in use, and
    - vi. Number of Telemetry beds available for use.
  5. A hospital designated as type: hospital by the Arizona Department of Health Services Division of Licensing Services and is owned and/or operated by Indian Health Services (IHS) or under Tribal authority will qualify for an increase if it meets these criteria specified in (5)(a) or (b);
    - a. By April 1, 2022 the hospital must have submitted a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved:
      - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
        - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
          - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
          - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
          - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
      - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE organization on their behalf.
      - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge, and transfer information (generally known as ADT information), including data from the hospital emergency department if the facility has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination. If the hospital has ambulatory and/or behavioral health practices, then the facility must submit the following actual patient identifiable information to the production environment of a qualifying HIE: registration, encounter summary, and SMI data elements as defined by the qualifying HIE organization. For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
      - v. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.

TITLE 9. HEALTH SERVICES

CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- vi. No later than January 1, 2023, the hospital must complete the initial data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
- vii. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
- viii. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below:
  - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
  - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
  - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data, the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
- ix. DAP HIE Data Quality Standards CYE 2022 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a DAP increase for select Data Quality Measures for a total of 2.5% if criteria are met for all categories indicating a DAP.
  - (1) Data source and data site information must be submitted on all ADT transactions. (0.5%)
  - (2) Event type must be properly coded on all ADT transactions. (0.5%)
  - (3) Patient class must be properly coded on all appropriate ADT transactions. (0.5%)
  - (4) Patient demographic information must be submitted on all ADT transactions. (0.5%)
  - (5) Overall completeness of the ADT message. (0.5%)
- b. By March 15, 2022, the facility must submit a LOI to enter into a CCA with a non-IHS/638 facility (a fully signed copy of a CCA with a non-IHS/Tribal 638 facility is also acceptable). By April 30, 2021, the facility must have entered into a CCA with a non-IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities: The IHS/Tribal 638 facility will have in place a signed CCA with a non-IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
  - i. The IHS/Tribal 638 facility will have a valid referral template in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
  - ii. The IHS/Tribal 638 facility will continue to assume responsibility of the referred member, maintaining records and release of information protocol including clinical documentation of services provided by the non-IHS/Tribal 638 facility.
  - iii. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the IHS/Tribal 638 facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2021.
  - iv. The IHS/638 facility will submit a minimum of one referral and any supporting medical documentation to the non-IHS/Tribal 638 facility by September 1, 2022. During CYE 2023, from October 1, 2022, through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA referrals per month to the non-IHS/Tribal 638 facility.
  - v. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA referrals to the non-IHS/Tribal 638 facility by March 15, 2022, and submit an average of 5 CCA referrals per month by May 31, 2022.

**Historical Note**

Amended by final rulemaking at 14 A.A.R. 1439, effective May 31, 2008 (Supp. 08-2). Amended by final rulemaking at 17 A.A.R. 1460, effective October 1, 2011 (Supp. 11-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4). Amended by final rulemaking at 23 A.A.R. 2338, effective October 1, 2017 (Supp. 17-3). Amended by final rulemaking at 24 A.A.R. 2851, effective October 1, 2018 (Supp. 18-3). Amended by final rulemaking at 25 A.A.R. 3114, effective October 1, 2019 (Supp. 19-4). Amended by final rulemaking at 26 A.A.R. 3025, with an immediate effective date of November 3, 2020 (Supp 20-4). AHCCCS filed an incorrect version of a final rulemaking which made amendments to this Section published at 27 A.A.R. 2501 (October 29, 2021); AHCCCS filed the correct version of its final rulemaking on December 3, 2021, with this Section amended by final rulemaking at 27 A.A.R. 3015 (December 31, 2021), effective October 1, 2021 (Supp. 21-4). Amended by final rulemaking at 28 A.A.R. 3283 (October 14, 2022), with an immediate effective date of September 23, 2022 (Supp. 22-3).

- R9-22-712.36. Reserved**
- R9-22-712.37. Reserved**
- R9-22-712.38. Reserved**
- R9-22-712.39. Reserved**
- R9-22-712.40. Outpatient Hospital Reimbursement: Annual and Periodic Update**
  - A.** Procedure codes. When procedure codes are issued by CMS and added to the Current Procedural Terminology published by the American Medical Association, AHCCCS shall add to the Outpatient Capped Fee-for-Service Schedule the new procedure codes for covered outpatient services and shall either assign the default CCR under R9-22-712.40(F)(2), the Medicare rate, or calculate an appropriate fee.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- B.** APC changes. AHCCCS may reassign procedure codes to new or different APC groups when APC groups are revised by CMS. AHCCCS may reassign procedure codes to a different APC group than Medicare. If AHCCCS determines that utilization of a procedure code within the Medicare program is substantially different from utilization of the procedure code in the AHCCCS program, AHCCCS may choose not to assign the procedure code to any APC group. For procedure codes not grouped into an APC by Medicare, AHCCCS may assign the code to an APC group when AHCCCS determines that the cost and resources associated with the non-assigned code are substantially similar to those in the APC group.
- C.** Annual update for Outpatient Hospital Fee Schedule. Beginning October 1, 2006, through September 30, 2011, AHCCCS shall adjust outpatient fee schedule rates:
1. Annually by multiplying the rates effective during the prior year by the Global Insight Prospective Hospital Market Basket Inflation Index; or
  2. In a particular year the director may substitute the increases in subsection (C)(1) by calculating the dollar value associated with the inflation index in subsection (C)(1), and applying the dollar value to adjust rates at varying levels.
- D.** Reductions to the Outpatient Capped Fee-For-Service Schedule. Claims paid using the Outpatient Capped Fee-For-Service Schedule with dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the rates in effect on September 30, 2011, subject to the annual adjustments to procedure codes and APCs under this Section.
- E.** Rebase. AHCCCS shall rebase the outpatient fees every five years.
- F.** Statewide CCR:
1. For begin dates of service on or before September 30, 2011, the statewide CCR calculated in R9-22-712.30 shall be recalculated at the time of rebasing. When rebasing, AHCCCS may recalculate the statewide CCR based on the costs and charges for services excluded from the outpatient hospital fee schedule.
  2. For begin dates of service on or after October 1, 2011, the statewide CCR shall be set under R9-22-712.30(C).
- G.** Other Updates. In addition to the other updates provided for in this Section, the Administration may adjust the Outpatient Capped Fee-For-Service Fee Schedule and the Statewide CCR to the extent necessary to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available at least to the extent that such care and services are available to the general population in the geographic area.

**R9-22-712.45. Outpatient Hospital Reimbursement: Outpatient Payment Restrictions**

- A.** AHCCCS shall not reimburse hospitals for emergency room treatment, observation hours, or other outpatient hospital services performed on an outpatient basis if the member is admitted as an inpatient to the same hospital directly from the emergency room, observation, or other outpatient department.
- B.** AHCCCS shall include payment for the emergency room, observation, and other outpatient hospital services provided to the member before the hospital admission in the AHCCCS Inpatient Tiered Per Diem Capped Fee-For-Service Schedule under Article 7 of this Chapter.
- C.** Same day admit and discharge.
1. For discharges before September 30, 2014. Same day admit and discharge claims that qualify for either the maternity or nursery tiers shall be paid based on the lesser of the rate for the maternity or nursery tier, or the outpatient hospital fee schedule.
  2. For discharge dates on and after October 1, 2014. Same day admit and discharge claims are paid for through the outpatient fee schedule.

- R9-22-712.59. **Reserved**

**R9-22-712.60. Diagnosis Related Group Payments**

- A. Inpatient hospital services with discharge dates on or after October 1, 2014, shall be reimbursed using the diagnosis related group (DRG) payment methodology described in this Section and R9-22-712.61 through R9-22-712.81.
- B. Payments made using the DRG methodology shall be the sole reimbursement to the hospital for all inpatient hospital services and related supplies provided by the hospital. Services provided in the emergency room, observation area, or other outpatient departments that are directly followed by an inpatient admission to the same hospital are not reimbursed separately. Are reimbursed through the DRG methodology and not reimbursed separately.
- C. Each claim for an inpatient hospital stay shall be assigned a DRG code and a DRG relative weight based on the All Patient Refined Diagnosis Related Group (APR-DRG) classification system established by 3M Health Information Systems. The applicable version of the APR-DRG classification system shall be available on the agency's website.
- D. Payments for inpatient hospital services reimbursed using the DRG payment methodology are subject to quick pay discounts and slow pay penalties under A.R.S. 36-2904.
- E. Payments for inpatient hospital services reimbursed using the DRG payment methodology are subject to the Urban Hospital Reimbursement Program under R9-22-718.
- F. For purposes of this Section and Sections R9-22-712.61 through R9-22-712.81:
  1. "DRG National Average length of stay" means the national arithmetic mean length of stay published in the All Patient Refined Diagnosis Related Group (APR-DRG) classification established by 3M Health Information Systems.
  2. "Length of stay" means the total number of calendar days of an inpatient stay beginning with the date of admission through discharge, but not including the date of discharge (including the date of a discharge to another hospital, i.e., a transfer) unless the member expires.
  3. "Medicare" means Title XVIII of the Social Security Act, 42 U.S.C. 1395 et seq.
  4. "Medicare labor share" means a hospital's labor costs as a percentage of its total costs as determined by CMS for purposes of the Medicare Inpatient Prospective Payment System.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016

(Supp. 16-4). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.61. DRG Payments: Exceptions**

- A. Notwithstanding section R9-22-712.60, claims for inpatient services from the following hospitals shall be paid on a per diem basis, including provisions for outlier payments, where rates and outlier thresholds are included in the capped fee schedule published by the Administration on its website and available for inspection during normal business hours at 801 E. Jefferson, Phoenix, Arizona. If the covered costs per day on a claim exceed the published threshold for a day, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the outlier CCR. The outlier CCR will be the sum of the urban or rural default operating CCR appropriate to the location of the hospital and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS. The resulting amount will be the total reimbursement for the claim. There is no provision for outlier payments for hospitals described under subsection (A)(3).
  1. Hospitals designated as type: hospital, subtype; rehabilitation in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website in March of each year;
  2. Hospitals designated as type: hospital, subtype: long term in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year;
  3. Hospitals designated as type: hospital, subtype; psychiatric in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year.
- B. Notwithstanding Section R9-22-712.60, claims for inpatient services that are covered by a RBHA or TRBHA, where the principal diagnosis on the claim is a behavioral health diagnosis, shall be reimbursed as prescribed by a per diem rate described by a fee schedule established by the Administration; however, if the principal diagnosis is a physical health diagnosis, the claim shall be processed under the DRG methodology described in this Section, even if behavioral health services are provided during the inpatient stay.
- C. Notwithstanding Section R9-22-712.60, claims for services associated with transplant services shall be paid in accordance with the contract between the AHCCCS administration and the transplant facility.
- D. Notwithstanding Section R9-22-712.60, claims from an IHS facility or 638 Tribal provider shall be paid the all-inclusive rate on a per visit basis in accordance with the rates published annually by IHS in the federal register.
- E. For hospitals that have contracts with the Administration for the provision of transplant services, inpatient days associated with transplant services are paid in accordance with the terms of the contract.
- F. For inpatient services with a date of admission from October 1, 2022 through September 30, 2023, provided by a hospital in subsection (A) that qualifies, the administration shall pay the hospital an Inpatient Differential Adjusted Payment equal to the sum of the payment otherwise provided for in subsection (A) plus the product of the amount otherwise provided for in subsection (A) and a percentage published on the Administration's public website as part of its fee schedule, subsequent to

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

a public notice published no later than September 1, 2022. A hospital will qualify for an increase if it meets the criteria specified below for the applicable hospital subtype.

- I. A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: short-term or children's will qualify for an increase if it meets the criteria in subsection (1)(a), (b), (c), or (d):
  - a. By April 1, 2022, a hospital the hospital must have submitted a Letter of Intent (LOI) to AHCCCS and the Health Information Exchange (HIE), in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved.
    - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
    - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
      - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to qualifying HIE organization to ensure proper processing of lab results within the HIE system.
      - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
      - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
    - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE organization, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE on their behalf.
    - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge and transfer information (generally known as ADT information), including data from the hospital emergency department if the provider has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
    - v. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
    - vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization.
    - vii. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
    - viii. No later than January 1, 2023, the hospital must complete the data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
    - ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
    - x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below:
      - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2022 data, to the final data quality profile, based on March 2022 data.
      - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
      - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data, the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
    - xi. DAP HIE Data Quality Standards CYE 2022 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a 0.5% DAP increase for each category of the five measure categories, for a total potential increase of 2.0% if criteria are met for all categories.
      - (1) Data source and data site information must be submitted on all ADT transactions. (0.5%)
      - (2) Event type must be properly coded on all ADT transactions. (0%)
      - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
      - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
      - (5) Race must be submitted on all ADT trans-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- actions. (0.5%)
- (6) Ethnicity must be submitted on all ADT transactions. (0.5%)
- (7) Diagnosis must be submitted on all ADT transactions. (0.5%)
- (8) Overall completeness of the ADT message. (0%)
- b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates;
- i. No later than April 1, 2022, submit registration form(s) for participation using the form(s) on the website of the qualifying HIE organization.
  - ii. No later than April 1, 2022:
    - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
    - (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
    - (3) For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
  - iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize the SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
- c. By March 15, 2022, the facility must submit a LOI to enter into a CCA (a fully signed copy of a CCA with an IHS/Tribal 638 facility is also acceptable). By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities:
- i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
  - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
  - iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
  - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
  - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022 through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
  - vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
- d. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:
- i. Number of ICU beds in use,
  - ii. Number of ICU beds available for use,
  - iii. Number of Medical-Surgical beds in use,
  - iv. Number of Medical-Surgical beds available for use,
  - v. Number of Telemetry beds in use, and
  - vi. Number of Telemetry beds available for use.
2. A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: critical access hospital will qualify for an increase if it meets the criteria specified in subsection (2)(a), (b), (c), or (d):
- a. By April 1, 2022 the hospital must have submitted a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved:
    - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
    - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
  - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
  - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
- iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE organization on their behalf.
  - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge and transfer information (generally known as ADT information), including data from the hospital emergency department if the provider has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
  - v. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
  - vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization.
  - vii. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
  - viii. No later than January 1, 2023, the hospital must complete the data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
  - ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
- x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below.
    - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
    - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
    - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
  - xi. DAP HIE Data Quality Standards CYE 2022 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a DAP increase for select Data Quality Measures for a total of 8.0% if criteria are met for all categories indicating a DAP.
    - (1) Data source and data site information must be submitted on all ADT transactions. (2.0%)
    - (2) Event type must be properly coded on all ADT transactions. (0%)
    - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
    - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
    - (5) Race must be submitted on all ADT transactions. (2.0%)
    - (6) Ethnicity must be submitted on all ADT transactions. (2.0%)
    - (7) Diagnosis must be submitted on all ADT transactions. (2.0%)
    - (8) Overall completeness of the ADT message. (0%)
  - b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates.
    - i. No later than April 1, 2022, submit registration form(s) for participation using the form(s) on the website of the qualifying HIE organization.
    - ii. No later than April 1, 2022:
      - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (3) For hospitals that have not participated in

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.

- iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize the SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
- c. By March 15, 2022, the facility must submit a LOI to enter into a CCA (a fully signed copy of a CCA with an IHS/Tribal 638 facility is also acceptable). By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities:
  - i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
  - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
  - iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
  - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
  - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022 through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
  - vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
- d. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through

an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:

- i. Number of ICU beds in use,
- ii. Number of ICU beds available for use,
- iii. Number of Medical-Surgical beds in use,
- iv. Number of Medical-Surgical beds available for use,
- v. Number of Telemetry beds in use, and
- vi. Number of Telemetry beds available for use.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4). Amended by final rulemaking at 23 A.A.R. 2338, effective October 1, 2017 (Supp. 17-3). Amended by final rulemaking at 24 A.A.R. 2851, effective October 1, 2018 (Supp. 18-3). Amended by final rulemaking at 25 A.A.R. 3111 and at 25 A.A.R. 3114, effective October 1, 2019 (Supp. 19-4). Amended by final rulemaking at 26 A.A.R. 3025, with an immediate effective date of November 3, 2020 (Supp 20-4). AHCCCS filed an incorrect version of a final rulemaking which made amendments to this Section published at 27 A.A.R. 2501 (October 29, 2021); AHCCCS filed the correct version of its final rulemaking on December 3, 2021, with this Section amended by final rulemaking at 27 A.A.R. 3015 (December 31, 2021), effective October 1, 2021 (Supp. 21-4). Amended by final rulemaking at 28 A.A.R. 3283 (October 14, 2022), with an immediate effective date of September 23, 2022 (Supp. 22-3).

**R9-22-712.62. DRG Base Payment**

- A. The initial DRG base payment is the product of the DRG base rate, the DRG relative weight for the post-HCAC DRG code assigned to the claim, and any applicable provider and service policy adjusters.
- B. The DRG base rate for each hospital is the statewide standardized amount of which the hospital's labor-related share of that amount is adjusted by the hospital's wage index. The hospital's labor share is determined based on the labor share for the Medicare inpatient prospective payment system published in 85 Fed. Reg. 59060 through 59061 (September 18, 2020). The hospital's wage index is determined based on the wage index tables reference in 85 Fed. Reg. 59059 (September 18, 2020). The statewide standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.
- C. Claims shall be assigned both a DRG code derived from all diagnosis and surgical procedure codes included on the claim (the "pre-HCAC" DRG code) and a DRG code derived excluding diagnosis and surgical procedure codes associated with the health care acquired conditions that were not present on admission or any other provider-preventable conditions (the "post-HCAC" DRG code). The DRG code with the lower relative weight shall be used to process claims using the DRG methodology.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4). Amended by final rulemaking at 27 A.A.R. 2512 (October 29, 2021), with an immediate effective date of October 6, 2021 (Supp. 21-4).

**R9-22-712.63. DRG Base Payments Not Based on the State-**

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

**wide Standardized Amount**

- A.** Notwithstanding Section R9-22-712.62, a select specialty hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) to calculate the DRG base rate for the following hospitals:
1. Hospitals located in a city with a population greater than one million, which on average have at least 15 percent of inpatient days for patients who reside outside of Arizona, and at least 50 percent of discharges as reported on the 2011 Medicare Cost Report are reimbursed by Medicare.
  2. Hospitals designated as type: hospital, subtype: short-term that has a license number beginning "SH" in the Provider & Facility Database for Arizona Medical Facilities posted by the ADHS Division of Licensing Services on its website for March of each year.
- B.** The select specialty hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.64. DRG Base Payments and Outlier CCR for Out-of-State Hospitals**

- A.** DRG Base payment:
1. For high volume out-of-state hospitals defined in subsection (C), the wage adjusted DRG base payment is determined as described in R9-22-712.62.
  2. Notwithstanding subsection R9-22-712.62 the wage adjusted DRG base rate for out-of-state hospitals that are not high volume hospitals shall be included in the AHCCCS capped fee schedule available on the agency's website.
- B.** Outlier CCR:
1. Notwithstanding subsection R9-22-712.68, the CCR used for the outlier calculation for out-of-state hospitals that are not high volume hospitals shall be the sum of the statewide urban default operating cost-to-charge ratio and the statewide capital CCR in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS.
  2. The CCR used for the outlier calculation for high volume out-of-state hospitals is the same as in-state hospitals as described in R9-22-712.68.
- C.** A high volume out-of-state hospital is a hospital not otherwise excluded under R9-22-712.61, that is located in a county that borders the State of Arizona and had 500 or more AHCCCS covered inpatient days for the fiscal year beginning October 1, 2015.
- D.** Other than as required by this Section, DRG reimbursement for out-of-state hospitals is determined under R9-22-712.60 through R9-22-712.81.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.65. DRG Provider Policy Adjustor**

- A.** After calculating the DRG base payment as required in R9-22-712.62, R9-22-712.63, or R9-22-712.64, for claims from a high-utilization hospital, the product of the DRG base rate and

the DRG relative weight for the post-HCAC DRG code shall be multiplied by a provider policy adjustor that is included in the AHCCCS capped fee schedule available on the agency's website.

- B.** A hospital is a high-utilization hospital if the hospital had:
1. Covered inpatient days subject to DRG reimbursement, determined using adjudicated claim and encounter data during the fiscal year beginning October 1, 2015, equal to at least four hundred percent of the statewide average number of AHCCCS-covered inpatient days at all hospitals;
  2. A Medicaid inpatient utilization rate greater than 30 percent calculated as the ratio of AHCCCS-covered inpatient days to total inpatient days as reported in the hospital's Medicare Cost Report for the fiscal year ending 2016; and,
  3. Received less than \$2 million in add-on payment for outliers under R9-22-712.68, based on adjudicated claims and encounters for fiscal year beginning October 1, 2015.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.66. DRG Service Policy Adjustor**

In addition to Section R9-22-712.65, for claims with DRG codes in the following categories, the product of the DRG base rate, the DRG relative weight for the post-HCAC DRG code, and the DRG provider policy adjustor shall be multiplied by the service policy adjustor listed in the AHCCCS capped fee schedule, available on the agency's website, corresponding to the following DRG codes:

1. Normal newborn DRG codes,
2. Neonates DRG codes,
3. Obstetrics DRG codes,
4. Psychiatric DRG codes,
5. Rehabilitation DRG codes,
6. Burn DRG codes.
7. Claims for members under age 19 assigned DRG codes other than listed above:
  - a. For dates of discharge occurring on or after October 1, 2014 and ending no later than December 31, 2015 regardless of severity of illness level,
  - b. For dates of discharge on or after January 1, 2016, for severity of illness levels 1 and 2,
  - c. For dates of discharge on or after January 1, 2016 and before January 1, 2017, for severity of illness levels 3 and 4.
  - d. For dates of discharge on or after January 1, 2017, and before January 1, 2018 for severity of illness levels 3 and 4.
  - e. For dates of discharge on or after January 1, 2018, for severity of illness levels 3 and 4.
8. Claims for members assigned DRG codes other than listed above.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.67. DRG Reimbursement: Transfers**

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- A. For purposes of this Section a “transfer” means the transfer of a member from a hospital to a short-term general hospital for inpatient care, a designated cancer center, children’s hospital, or a critical access hospital except when a member is moved for the purpose of receiving sub-acute services.
- B. Designated cancer center or children’s hospitals are those hospitals identified as such in the UB-04 billing manual published by the National Uniform Billing Committee.
- C. The hospital the member is transferred from shall be reimbursed either the initial DRG base payment or the transfer DRG base payment, whichever is less.
- D. The transfer DRG base payment is an amount equal to the initial DRG base payment, as determined after making any provider or service policy adjustors, divided by the DRG National Average length of stay for the DRG code multiplied by the sum of one plus the length of stay.
- E. The hospital the member is transferred to shall be reimbursed under the DRG payment methodology without a reduction due to the transfer.
- F. Unadjusted DRG base payment. The unadjusted DRG base payment is either the initial DRG base payment, as determined after making any provider or service policy adjustors, or the transfer DRG base payment, whichever is less.
- E. For those inpatient hospital claims that qualify for an outlier add-on payment, the payment is calculated by subtracting the outlier threshold from the claim cost and multiplying the result by the DRG marginal cost percentage. The DRG marginal cost percentage for claims assigned DRG codes associated with the treatment of burns and for all other claims are included in the AHCCCS capped fee schedule available on the agency’s website.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.69. DRG Reimbursement: Covered Day Adjusted DRG Base Payment and Covered Day Adjusted Outlier Add-on Payment**

Adjustments to the payments are made to account for days not covered by AHCCCS as follows:

1. A covered day reduction factor unadjusted is determined if the member is not eligible on the first day of the inpatient stay but is eligible for subsequent days during the inpatient stay. In this case, a covered day reduction factor unadjusted is calculated by dividing the number of AHCCCS covered days by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of days the member is eligible during the inpatient stay.
2. A covered day reduction factor unadjusted is also determined if the member is eligible on the first day of the inpatient stay but is determined ineligible for one or more days prior to the date of discharge. In this case, a covered day reduction factor unadjusted is calculated by adding one to the number of AHCCCS covered days and dividing the result by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of days the member is eligible during the inpatient stay.
3. If the covered day reduction factor unadjusted is greater than one, then the covered day reduction factor final is one; otherwise, the covered day reduction factor final is equal to the covered day reduction factor unadjusted.
4. The covered day adjusted DRG base payment is an amount equal to the product of the unadjusted DRG base payment and the covered day reduction factor final.
5. The covered day adjusted DRG outlier add-on payment is an amount equal to the product of the unadjusted DRG outlier add-on payment and the covered day reduction factor final.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

- Historical Note**
- New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4).

**R9-22-712.68. DRG Reimbursement: Unadjusted Outlier Add-on Payment**

- A. Claims for inpatient hospital services qualify for an outlier add-on payment if the claim cost exceeds the outlier cost threshold.
- B. The claim cost is determined by multiplying covered charges by an outlier CCR as described by the following subsections:
1. For hospitals designated as type: hospital, subtype: children’s in the Provider & Facility Database for Arizona Medical Facilities posted by the ADHS Division of Licensing Services on its website for March of each year. The outlier CCR will be calculated by dividing the hospital total costs by the total charges using the most recent Medicare Cost Report available as of September 1 of that year.
  2. For Critical Access Hospitals the outlier CCR will be the sum of the statewide rural default operating cost-to-charge ratio and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS.
  3. For all other hospitals the outlier CCR will be the sum of the operating cost-to-charge ratio and the capital cost-to-charge ratio established for each hospital in the impact file established as part of the Medicare Inpatient Prospective Payment System by CMS.
- C. AHCCCS shall update the CCRs described in subsection (B) to conform to the most recent CCRs established by CMS as of September 1 of each year, and the CCRs so updated shall be used for claims with dates of discharge on or after October 1 of that year.
- D. The outlier threshold is equal to the sum of the unadjusted DRG base payment plus the fixed loss amount. The fixed loss amount for critical access hospitals and for all other hospitals are included in the AHCCCS capped fee schedule available on the agency’s website.

**R9-22-712.70. Covered Day Adjusted DRG Base Payment and Covered Day Adjusted Outlier Add-on Payment for FES members**

In addition to the covered day reduction factor in R9-22-712.69, a covered day reduction factor unadjusted is determined for an inpatient stay during which an FES member receives services for the treatment of an emergency medical condition and also receives services once the condition no longer meets the criteria as an emergency medical condition described in R9-22-217.

1. A covered day reduction factor unadjusted is calculated by adding one to the AHCCCS covered days and dividing

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

the result by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of inpatient days during which an FES member receives services for an emergency medical condition as described in R9-22-217. For purposes of this adjustment, any portion of a day during which the FES member receives treatment for an emergency medical condition is counted as an AHCCCS covered day.

2. If the covered day reduction factor unadjusted is greater than one, then the covered day reduction factor final is one; otherwise, the covered day reduction factor final is equal to the covered day reduction factor unadjusted.
3. The covered day adjusted DRG base payment is an amount equal to the product of the unadjusted DRG base payment and the covered day reduction factor final.
4. The covered day adjusted DRG outlier add-on payment is an amount equal to the product of the unadjusted DRG outlier add-on payment and the covered day reduction factor final.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.71. Final DRG Payment**

- A. The final DRG payment is the sum of the final DRG base payment, the final DRG outlier add-on payment, and the Differential Adjusted Payment.
- B. The final DRG base payment is an amount equal to the product of the covered day adjusted DRG base payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.
- C. The final DRG outlier add-on payment is an amount equal to the product of the covered day adjusted DRG outlier add-on payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.
- D. The factor for each hospital and for each federal fiscal year is published as part of the AHCCCS capped fee schedule and is available on the AHCCCS administration's website and is on file for public inspection at the AHCCCS administration located at 801 E. Jefferson Street, Phoenix, Arizona.
- E. For inpatient services with a date of discharge from October 1, 2022 through September 30, 2023, the Inpatient Differential Adjusted Payment is the sum of the final DRG base payment and the final DRG outlier add-on payment multiplied by a percentage published on the Administration's public website as part of its fee schedule, subsequent to the public notice published no later than September 1, 2022. A hospital will qualify for an increase if it meets the criteria specified below for the applicable hospital subtype.
  1. A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: short-term or children's will qualify for an increase if it meets the criteria:
    - a. By April 1, 2022, a hospital the hospital must have submitted a Letter of Intent (LOI) to AHCCCS and the Health Information Exchange (HIE), in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved.
      - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
      - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
        - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to qualifying HIE organization to ensure proper processing of lab results within the HIE system.
        - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
        - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
      - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE organization, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE on their behalf.
      - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge and transfer information (generally known as ADT information), including data from the hospital emergency department if the provider has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
      - v. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization.
- vii. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
- viii. No later than January 1, 2023, the hospital must complete the data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
- ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
- x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below.
  - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
  - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
  - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022 data, the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
- xi. DAP HIE Data Quality Standards CYE 2023 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a 0.5% DAP increase for each category of the five measure categories, for a total potential increase of 2.0% if criteria are met for all categories.
  - (1) Data source and data site information must be submitted on all ADT transactions. (0.5%)
  - (2) Event type must be properly coded on all ADT transactions. (0%)
  - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
  - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
  - (5) Race must be submitted on all ADT transactions. (0.5%)
  - (6) Ethnicity must be submitted on all ADT transactions. (0.5%)
  - (7) Diagnosis must be submitted on all ADT transactions. (0.5%)
  - (8) Overall completeness of the ADT message. (0%)
- b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates.
  - i. No later than April 1, 2022, submit registration form or forms for participation using the form or forms on the website of the qualifying HIE organization.
  - ii. No later than April 1, 2022:
    - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
    - (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
    - (3) For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
  - iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize the SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
  - c. By March 15, 2022, the facility must submit a LOI to enter into a CCA (a fully signed copy of a CCA with an IHS/Tribal 638 facility is also acceptable). By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities:
    - i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
    - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
    - iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
    - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
    - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022 through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
- vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
  - d. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:
    - i. Number of ICU beds in use,
    - ii. Number of ICU beds available for use,
    - iii. Number of Medical-Surgical beds in use,
    - iv. Number of Medical-Surgical beds available for use,
    - v. Number of Telemetry beds in use,
    - vi. Number of Telemetry beds available for use.
  2. A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: critical access hospital will qualify for an increase if it meets the criteria specified;
    - a. By April 1, 2022 the hospital must have submitted a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates, or maintain its participation in the milestone activities if they have already been achieved:
      - i. No later than April 1, 2022, the hospital must have in place an active participation agreement with a qualifying HIE organization and submit a LOI to AHCCCS and the HIE, in which it agrees to achieve the following milestones by the specified dates or maintain its participation in the milestone activities if they have already been achieved.
      - ii. No later than May 1, 2022, or by the hospital's go-live date for new data suppliers, or within 30 days of initiating the respective COVID-19 related services for current data suppliers, the hospital must complete the following COVID-19 related milestones, if they are applicable:
        - (1) Related to COVID-19 testing services, submit all COVID-19 lab test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
        - (2) Related to COVID-19 antibody testing services, submit all COVID-19 antibody test codes and the associated LOINC codes to the qualifying HIE organization to ensure proper processing of lab results within the HIE system.
        - (3) Related to COVID-19 immunization services, submit all COVID-19 immunization codes and the associated CDC-recognized code sets to the qualifying HIE organization to ensure proper processing of immunizations within the HIE system.
    - iii. No later than May 1, 2022, hospitals that utilize external reference labs for any lab result processing must submit necessary provider authorization forms to the qualifying HIE, if required by the external reference lab, to have all outsourced lab test results flow to the qualifying HIE organization on their behalf.
    - iv. No later than May 1, 2022, the hospital must electronically submit the following actual patient identifiable information to the production environment of a qualifying HIE organization: admission, discharge and transfer information (generally known as ADT information), including data from the hospital emergency department if the provider has an emergency department; laboratory and radiology information (if the provider has these services); transcription; medication information; immunization data; and discharge summaries that include, at a minimum, discharge orders, discharge instructions, active medications, new prescriptions, active problem lists (diagnosis), treatments and procedures conducted during the stay, active allergies, and discharge destination.
    - v. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
    - vi. No later than November 1, 2022, the hospital must approve and authorize a formal SOW to initiate connectivity to and usage of the Arizona Healthcare Directives Registry (AzHDR) operated by the qualifying HIE organization.
    - vii. No later than November 1, 2022, the hospital must approve and authorize a formal statement of work (SOW) to initiate and complete a data quality improvement effort, as defined by the qualifying HIE organization.
    - viii. No later than January 1, 2023, the hospital must complete the initial data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
    - ix. No later than May 1, 2023, the hospital must complete the final data quality profile with a qualifying HIE organization, in alignment with the data quality improvement SOW.
    - x. Quality Improvement Performance Criteria: Hospitals that meet each of the following HIE data quality performance criteria will be eligible to receive DAP increases described below.
      - (1) Demonstrate a 10% improvement from baseline measurements in the initial data quality profile, based on October 2021 data, to the final data quality profile, based on March 2022 data.
      - (2) Meet a minimum performance standard of at least 60% based on March 2022 data.
      - (3) If performance meets or exceeds an upper threshold of 90% based on March 2022

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- data the hospital meets the criteria, regardless of the percentage improvement from the baseline measurements.
- xi. DAP HIE Data Quality Standards CYE 2023 Measure Categories: Hospitals that meet the standards, as defined in Attachment A of this notice, qualify for a DAP increase for select Data Quality Measures for a total of 8.0% if criteria are met for all categories indicating a DAP.
    - (1) Data source and data site information must be submitted on all ADT transactions. (1.0%)
    - (2) Event type must be properly coded on all ADT transactions. (1.0%)
    - (3) Patient class must be properly coded on all appropriate ADT transactions. (0%)
    - (4) Patient demographic information must be submitted on all ADT transactions. (0%)
    - (5) Race must be submitted on all ADT transactions. (2.0%)
    - (6) Ethnicity must be submitted on all ADT transactions. (2.0%)
    - (7) Diagnosis must be submitted on all ADT transactions. (2.0%)
    - (8) Overall completeness of the ADT message. (0%)
  - b. By April 1, 2022, the hospital must have submitted a registration form for participation in the Social Determinants of Health (SDOH) Closed-Loop Referral Platform operated by the qualifying HIE organization in which the parties agree to achieve the following milestones by the specified dates;
    - i. No later than April 1, 2022, submit registration form(s) for participation using the form(s) on the website of the qualifying HIE organization.
    - ii. No later than April 1, 2022:
      - (1) For hospitals with an active Participation Agreement with a qualifying HIE organization, submit a signed Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (2) For hospitals without an active Participation Agreement with a qualifying HIE organization, execute a Participation Agreement and a Participant SDOH Addendum to participate in the SDOH Closed-Loop Referral Platform.
      - (3) For hospitals that have not participated in DAP HIE requirements in CYE 2022, the deadline for this milestone will be November 1, 2022.
    - iii. No later than September 30, 2022, or as soon as reasonably practicable thereafter as determined by the qualifying HIE organization, initiate use of the SDOH Closed-Loop Referral Platform operated by the qualifying HIE organization. After go-live, the hospital must regularly utilize the SDOH Closed-Loop Referral Platform, which will be measured by facilitating at least 10 referrals on average per month from go-live date through the end of CYE 2023. All referrals entered into the system by the hospital will be counted towards volume requirements.
  - c. By March 15, 2022, the facility must submit a LOI to enter into a CCA (a fully signed copy of a CCA with an IHS/Tribal 638 facility is also acceptable). By April 30, 2022, the facility must have entered into a CCA with a IHS/Tribal 638 facility for inpatient, outpatient, and ambulatory services provided through a referral under the executed CCA. The facility agrees to achieve and maintain participation in the following activities:
    - i. The facility will have in place a signed CCA with an IHS/Tribal 638 facility and will have submitted the signed CCA to AHCCCS. The CCA will meet minimum requirements as outlined in the CMS SHO Guidance.
    - ii. The facility will have a valid referral process for IHS/Tribal 638 facilities in place for requesting services to be performed by the non-IHS/Tribal 638 facility.
    - iii. The hospital will provide to the IHS/Tribal 638 facility clinical documentation of services provided through a referral under the CCA.
    - iv. AHCCCS will monitor activity specified under the CCA(s) to ensure compliance. To help facilitate this, the facility will participate in the HIE or establish an agreed claims operation process with AHCCCS for the review of medical records by May 31, 2022.
    - v. The non-IHS/Tribal 638 facility will receive a minimum of one referral and any supporting medical documentation from the IHS/Tribal 638 facility and submit a minimum of one claim to AHCCCS under the CCA claiming guidelines, by September 1, 2022. During CYE 2023, from October 1, 2022 through September 30, 2023, demonstrate a concerted effort to submit an average of 5 CCA claims per month to AHCCCS.
    - vi. Existing facilities with a CCA established in CYE 2022 will actively submit a minimum of 5 CCA claims to AHCCCS by March 15, 2022, and submit an average of 5 CCA claims per month to AHCCCS by May 31, 2022.
  - d. Upon the declaration of the end of the State of Arizona Public Health Emergency (PHE) issued on March 11, 2020, the hospital must submit a letter of intent (LOI) to AHCCCS in which it agrees to adult and pediatric bed capacity reporting to the Arizona Department of Health Services (ADHS). Specifically, the hospital shall report the following through an ADHS approved method to ADHS weekly, with deadlines and format prescribed by ADHS:
    - i. Number of ICU beds in use,
    - ii. Number of ICU beds available for use,
    - iii. Number of Medical-Surgical beds in use,
    - iv. Number of Medical-Surgical beds available for use,
    - v. Number of Telemetry beds in use, and
    - vi. Number of Telemetry beds available for use.

by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4). Amended by final rulemaking at 24 A.A.R. 2851, effective October 1, 2018 (Supp. 18-3). Amended by final rulemaking at 25 A.A.R. 3114, effective October 31, 2019 (Supp. 19-4). Amended by final rulemaking at 26 A.A.R. 3025, with an immediate effective date of November 3, 2020 (Supp 20-4). AHCCCS filed an incorrect version of a final rulemaking which made amendments to this Section published at 27 A.A.R. 2501 (October 29, 2021); AHCCCS filed the correct version of its final rulemaking on December 3, 2021, with this Section amended by final rulemaking at 27 A.A.R. 3015 (December 31, 2021), effective October 1, 2021 (Supp. 21-4). Amended by final rulemaking at 28 A.A.R. 3283 (October 14, 2022), with an immediate effective date of September 23, 2022 (Supp. 22-3).

**R9-22-712.72. DRG Reimbursement: Enrollment Changes During an Inpatient Stay**

- A. If a member's enrollment changes during an inpatient stay, including changing enrollment from fee-for-service to a contractor, or vice versa, or changing from one contractor to another contractor, the contractor with whom the member is enrolled on the date of discharge shall be responsible for reimbursing the hospital for the entire length of stay under the DRG payment rules in Sections R9-22-712.60 through R9-22-712.81. If the member is eligible but not enrolled with a contractor on the date of discharge, then the AHCCCS administration shall be responsible for reimbursing the hospital for the entire length of stay under the DRG payment rules in Sections R9-22-712.60 through R9-22-712.81.
- B. When a member's enrollment changes during an inpatient stay, the hospital shall use the date of enrollment with the payer responsible on the date of discharge as the "from" date of service on the claim regardless of the date of admission.
- C. Interim claims submitted to a payer other than the payer responsible on the day of discharge shall be processed in the same manner as other interim claims as described in R9-22-712.76.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.73. DRG Reimbursement: Inpatient Stays for Members Eligible for Medicare**

If the hospital receives less than the full Medicare payment for a member eligible for benefits under Part A of Medicare because the member has exceeded the maximum benefit permitted under Part A of Medicare, the hospital shall submit a separate claim for services performed after the date the maximum Medicare Part A benefit is exceeded. The claim may include all diagnosis codes for the entire inpatient stay, but the hospital is only required to include revenue codes, surgical procedure codes, service units, and charges for services performed after the date the Medicare Part A benefit is exceeded. A claim so submitted shall be reimbursed using the DRG payment methodology.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.74. DRG Reimbursement: Third Party Liability** DRG payments are subject to reduction based on cost avoidance under Section R9-22-1003 and other rules regarding first-and third-

party liability under Article 10 of this Chapter including cost avoidance for claims for ancillary services covered under Part B of Medicare.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.75. DRG Reimbursement: Payment for Administrative Days**

- A. Categories of Administrative Days. Administrative days fall into one of two categories, either subsection (A)(1) or (A)(2).
1. Administrative days due to lack of appropriate placement options and not meeting inpatient medical criteria. Administrative days are days in which a member is admitted as an inpatient to an acute care hospital, does not meet the criteria for an acute inpatient stay, but is admitted or not discharged because; (1) an appropriate placement outside the hospital is not available, (2) the member cannot be safely discharged or transferred, or (3) the Administration or the contractor failed to provide for the appropriate placement outside the hospital in a timely manner.
    - a. Administrative days may occur prior to an acute care episode, for example, when a woman with a high-risk pregnancy is admitted to a hospital while awaiting delivery.
    - b. Administrative days may also occur at the end of an acute care episode, for example, when a member is not discharged while awaiting placement in a nursing facility or other sub-acute or post-acute setting.
    - c. Administrative days may also include days in a receiving hospital when the member has been discharged from one acute care hospital for the purpose of receiving sub-acute services at the receiving hospital.
    - d. Administrative days do not include days when the member is awaiting appropriate placement or services that are currently available but the hospital has not transferred or discharged the member because of the hospital's administrative or operational delays.
    - e. Administrative days include inpatient claims covered by a RBHA or TRBHA that otherwise meet the criteria in subsection (A)(1).
  2. Administrative days for claims with the principal diagnosis of behavioral health meeting inpatient medical criteria. Administrative days are days with dates of discharge on or after October 1, 2018, in which a member is admitted as an inpatient to an acute care hospital, meets the criteria for an acute inpatient stay, and the principal diagnosis on the hospital claim is a behavioral health diagnosis. Inpatient claims covered by a RBHA or TRBHA are not considered administrative days under subsection (A)(2) regardless of the principal diagnosis on the hospital claim.
- B. Reimbursement of Administrative Days.
1. Administrative days under subsection (A)(1) are reimbursed at the rate the claim would have paid had the services not been provided in an inpatient hospital setting but had been provided at the appropriate level of care such as the rate paid for stays at a nursing facility.
  2. Administrative days under subsection (A)(2) are reimbursed at the daily rate found on the Inpatient Behavioral Health Capped Fee-For-Service Schedule meeting the

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

criteria of "Service Description – Psychiatric Stay," regardless of revenue code.

- C. Prior authorization is required for administrative days.
- D. A hospital shall submit a claim for administrative days separate from any claim for reimbursement for the inpatient stay otherwise reimbursable under the DRG payment methodology.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4). Amended by final rulemaking at 25 A.A.R. 3111, effective October 1, 2019 (Supp. 19-4).

**R9-22-712.76. DRG Reimbursement: Interim Claims**

- A. For inpatient stays with a length of stay greater than 29 days, a hospital may submit interim claims for each 30 day period during the inpatient stay.
- B. Hospitals shall be reimbursed for interim claims at a per diem rate of \$500 per day.
- C. Following discharge, the hospital shall void all interim claims. In such circumstances, the hospital shall submit a claim to the payer with whom the member is enrolled on the date of discharge, whether the Administration or a contractor, for the entire inpatient stay for which the final claim shall be reimbursed under the DRG payment methodology. Interim claims will be recouped.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.77. DRG Reimbursement: Admissions and Discharges on the Same Day**

- A. Except as provided for in subsection (B), for any claim for inpatient services with an admission date and discharge date that are the same calendar date, the contractor or the Administration shall process the claim as an outpatient claim and the hospital shall be reimbursed under R9-22-712.10 through R9-22-712.50.
- B. Claims with an admission date and discharge date that are the same calendar date that also indicate that the member expired on the date of discharge shall be reimbursed under the DRG methodology.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.78. DRG Reimbursement: Readmissions**

If a member is readmitted without prior authorization to the same hospital that the member was discharged from within 72 hours and the DRG code assigned to the claim for the prior admission has the same first three digits as the DRG code assigned to the claim for the readmission, then payment for the claim for the readmission will be disallowed only if the readmission could have been prevented by the hospital.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.79. DRG Reimbursement: Change of Ownership**

The administration shall not change any of the components of the calculation of reimbursement for inpatient services using the DRG methodology based upon a change in the hospital's ownership except to the extent those components would change under the

methodology had the hospital not changed ownership (e.g., updating the hospital's cost-to-charge ratio as of September 1 of each year under R9-22-712.68).

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.80. DRG Reimbursement: New Hospitals**

- A. DRG base payment for new hospitals. For any hospital that does not have a labor share or wage index published by CMS as described in subsection R9-22-712.62(B) because the hospital was not in operation, the DRG base rate described in subsection R9-22-712.62(B) shall be calculated as the statewide standardized amount after adjusting that amount for the labor-related share and the wage index published by CMS as described in subsection R9-22-712.62(B) that is appropriate to the location of the hospital published by CMS as described in subsection R9-22-712.62(B).
- B. Outlier calculations for new hospitals. For any hospital that does not have an operating cost-to-charge ratio listed in the impact file described in subsection R9-22-712.68(B) because the hospital was not in operation prior to the publication of the impact file, the statewide urban or rural default operating cost-to-charge ratio appropriate to the location of the hospital and the statewide capital cost-to-charge ratio shall be used to determine the unadjusted outlier add-on payment. The statewide urban or rural default operating cost-to-charge ratio and the statewide capital cost-to-charge ratio shall be based on the ratios published by CMS and updated by the Administration as described in subsection R9-22-712.68(C).
- C. In addition to the requirement of this Section, DRG reimbursement for new hospitals is determined under R9-22-712.60 through R9-22-712.79.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.81. DRG Reimbursement: Updates**

In addition to the other updates provided for in Sections R9-22-712.60 through R9-22-712.80, the Administration may update the version of the APR-DRG classification system established by 3M Health Information Systems, adjust the statewide standardized amount in Section R9-22-712.62, the base payments in R9-22-712.63 and R9-22-712.64, the provider policy adjustor in R9-22-712.65, service policy adjustors in R9-22-712.66, and the fixed loss amounts and marginal cost percentages used to calculate the outlier threshold in R9-22-712.68 to the extent necessary to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available at least to the extent that such care and services are available to the general population in the geographic area. The Administration shall publish any proposed classification system on the agency's website at least 30 days prior to the effective date, to ensure a sufficient period for public comment, as required by 42 C.F.R. § 447.205. In addition, the public notice shall be available for inspection during normal business hours at 701 E. Jefferson, Phoenix, Arizona. The requirements of 42 CFR § 447.205 as of November 2, 2015 are incorporated by reference and do not include any later amendments.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

rulemaking at 23 A.A.R. 2896, effective January 1, 2018  
(Supp. 17-4).

**R9-22-712.90. Reimbursement of Hospital-based Freestanding Emergency Departments**

- A.** "Hospital-based freestanding emergency department" (hospital-based FSED) means an outpatient treatment center, as defined in R9-10-101, that: (1) provides emergency room services under R9-10-1019, (2) is subject to the requirements of 42 CFR 489.24, and (3) shares an ownership interest with a hospital, regardless of whether the outpatient treatment center operates under a hospital's single group license as described in A.R.S. § 36-422.
- B.** A hospital-based FSED shall register with the Administration separately from the hospital with which an ownership interest is shared and shall obtain a separate provider identification number. The Administration shall not charge a separate provider enrollment fee for registration of a hospital-based FSED. The Administration shall accept a hospital's compliance with the provider screening and enrollment requirements of 42 CFR Part 455 as compliance by the hospital-based FSED.
- C.** For dates of service on and after March 1, 2017, and except as provided in subsection (D), services provided by a hospital-based FSED for evaluation and management CPT codes 99281 through 99285 shall be reimbursed at the following percentages of the amounts otherwise reimbursable under R9-22-712.20 through R9-22-712.30. All other covered codes shall be reimbursed in accordance with R9-22-712.20 through R9-22-712.30 without a percentage reduction.
1. 60 percent for a level 1 emergency department visit as indicated by CPT 99281.
  2. 80 percent for a level 2 emergency department visit as indicated by CPT 99282.
  3. 90 percent for a level 3 emergency department visit as indicated by CPT 99283.
  4. 100 percent for a level 4 or 5 emergency department visit as indicated by CPT codes 99284 and 99285.
- D.** A hospital-based FSED located in a city or town in a county with less than 500,000 residents, where the only hospital in the city or town operating an emergency department closed on or after January 1, 2015, shall be reimbursed under R9-22-712.20 through R9-22-712.35 using the adjustment in R9-22-712.35 associated with the nearest hospital with which the freestanding emergency department shares an ownership interest.
- E.** Services provided by an outpatient treatment center that provides emergency room services under R9-10-1019, but does not otherwise meet the criteria in subsection A, shall be reimbursed based on the non-hospital AHCCCS capped fee-for-service schedule under R9-22-710.
- F.** The Administration shall not reimburse a hospital for services provided at a hospital-based FSED if the member is admitted directly from a hospital-based FSED to a hospital with an ownership interest in the hospital-based FSED. As provided in R9-22-712.60(B), payments made for the inpatient stay using the DRG methodology shall be the sole reimbursement.

**Historical Note**

New Section made by final rulemaking at 23 A.A.R. 22,  
February 11, 2017 (Supp. 16-4).

**R9-22-713. Overpayment and Recovery of Indebtedness**

- A.** If a contractor or a subcontracting provider receives an overpayment from the Administration or otherwise becomes indebted to the Administration, the contractor or subcontracting provider shall immediately remit the amount of the indebtedness or overpayment to the Administration for deposit in the AHCCCS fund.

- B.** If the funds described in subsection (A) are not remitted, the Administration may recover the funds paid by the Administration to a contractor or subcontracting provider through:
1. A repayment agreement executed with the Administration;
  2. Withholding or offsetting against current or future payments to be paid to the contractor or subcontracting provider; or
  3. Enforcement of, or collection against, the performance bond, financial reserve, or other financial security under A.R.S. § 36-2903.

**Historical Note**

Adopted as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Adopted as a permanent rule effective May 16, 1983; text of adopted rule identical to the emergency (Supp. 83-3). Former Section R9-22-713 repealed, new Section R9-22-713 adopted effective October 1, 1983 (Supp. 83-5). Former Section R9-22-713 renumbered and amended as Section R9-22-714, former Section R9-22-709 renumbered and amended as Section R9-22-713 effective October 1, 1985 (Supp. 85-5). Amended by final rulemaking at 8 A.A.R. 3317, effective July 15, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 856, effective May 5, 2007 (Supp. 07-1).

**R9-22-714. Payments to Providers**

- A.** Provider agreement. The Administration or a contractor shall not reimburse a covered service provided to a member unless the provider has signed a provider agreement with the Administration that establishes the terms and conditions of participation and payment under A.R.S. § 36-2904.
- B.** Provider reimbursement. The Administration or a contractor shall reimburse a provider for a service furnished to a member only if:
1. The provider personally furnishes the service to a specific member. For purposes of this Section, services personally furnished by a provider include:
    - a. Services provided by medical residents or dental students in a teaching environment; or
    - b. Services provided by a licensed or certified assistant under the general supervision of a licensed practitioner in accordance with 4 A.A.C. 24, 9 A.A.C. 16, 4 A.A.C. 43, or 4 A.A.C. 45;
  2. The provider verifies that individuals who have provided services described in subsection (B)(1) have not been placed on the List of Excluded Individuals/Entities (LEIE) maintained by the United States Department of Health and Human Services Office of the Inspector General (OIG), located at OIG's web site;
  3. The service contributes directly to the diagnosis or treatment of the member; and
  4. The service ordinarily requires performance by the type of provider seeking reimbursement.
- C.** The Administration or a contractor may make a payment for covered services only:
1. To the provider;
  2. To anyone specified in a reassignment from the provider to a government agency or reassignment by a court order;
  3. To a business agent, if the agent's compensation for the service is:
    - a. Related to the cost of processing the billing;

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- b. Not related on a percentage or other basis to the amount that is billed or collected; and
  - c. Not dependent upon collection of the payment;
  - 4. To the employer of the provider, if the provider is required as a condition of employment to turn over the provider's fees to the employer;
  - 5. To the inpatient facility in which the service is provided, if the provider has a contract under which the inpatient facility submits the claim; or
  - 6. To a foundation, plan, or similar organization operating an organized health care delivery system, if the provider has a contract under which the foundation, plan or similar organization submits the claim.
- D.** The Administration or a contractor shall not make a payment to or through a factor, either directly or by power of attorney, for a covered service furnished to a member by a provider.
- E.** Reimbursement for a pathology service. Unless otherwise specified in a contract, the Administration or a contractor shall reimburse a pathologist for a pathology service furnished to a member only if the other requirements in this Section are met and the service is:
- 1. A surgical pathology service;
  - 2. A specific cytopathology, hematology, or blood banking pathology service that requires performance by a physician and is listed in the capped fee-for-service schedule;
  - 3. A clinical consultation service that:
    - a. Is requested by the member's attending physician or primary care physician,
    - b. Is related to a test result that is outside the clinically significant normal or expected range in view of the condition of the member,
    - c. Results in a written narrative report included in the member's medical record,
    - d. Requires the exercise of medical judgment by the consultant pathologist, and
    - e. Is listed in the capped fee-for-service schedule; or
  - 4. A clinical laboratory interpretative service that:
    - a. Is requested by the member's attending physician or primary care physician,
    - b. Results in a written narrative report included in the member's medical record,
    - c. Requires the exercise of medical judgment by the consultant pathologist, and
    - d. Is listed in the capped fee-for-service schedule.

**Historical Note**

Adopted as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Adopted as a permanent rule effective May 16, 1983; text of adopted rule is similar to the emergency (Supp. 83-3). Repealed effective October 1, 1983 (Supp. 83-5). Former Section R9-22-713 renumbered and amended as Section R9-22-714 effective October 1, 1985 (Supp. 85-5). Section repealed; new Section made by final rulemaking at 8 A.A.R. 424, effective January 10, 2002 (Supp. 02-1). Amended by final rulemaking at 9 A.A.R. 3800, effective October 4, 2003 (Supp. 03-3). Amended by final rulemaking at 13 A.A.R. 662, effective April 7, 2007 (Supp. 07-1).

*Editor's Note: The following Section was amended under an exemption from the provisions of the Administrative Procedure Act which means that this rule was not reviewed by the Governor's Regulatory Review Council; the agency did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the agency was not required to hold public hearings on the rules; and the Attorney General did not certify this rule. This Section was subsequently amended through the regular rulemaking process.*

*ation in the Arizona Administrative Register; the agency was not required to hold public hearings on the rules; and the Attorney General did not certify this rule. This Section was subsequently amended through the regular rulemaking process.*

**R9-22-715. Hospital Rate Negotiations**

- A.** A contractor that negotiates with hospitals for inpatient or outpatient services shall reimburse hospitals for services rendered on or after March 1, 1993, as described in A.R.S. § 36-2903.01 and this Article, or at the negotiated rate that, in the aggregate, does not exceed reimbursement levels that would have been paid under A.R.S. § 36-2903.01, and this Article. This subsection does not apply to urban hospitals described under R9-22-718. Contractors may engage in rate negotiations with a hospital at any time during the contract period.
- B.** The Administration may negotiate or contract with a hospital on behalf of a contractor for discounted hospital rates and may require that the negotiated discounted rates be included in a subcontract between the contractor and hospital.

**Historical Note**

Adopted as an emergency effective February 23, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). Adopted as a permanent rule effective May 16, 1983; text of adopted rule identical to the emergency (Supp. 83-3). Repealed effective October 1, 1983 (Supp. 83-5). New Section R9-22-715 adopted effective October 1, 1985 (Supp. 85-5). Amended under an exemption from the provisions of the Administrative Procedure Act, effective March 1, 1993 (Supp. 93-1). Amended effective January 14, 1997 (Supp. 97-1). Amended effective September 22, 1997 (Supp. 97-3). Amended by final rulemaking at 11 A.A.R. 3222, effective October 1, 2005 (Supp. 05-3). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

*Editor's Note: The following Section was amended under an exemption from the provisions of the Administrative Procedure Act which means that this rule was not reviewed by the Governor's Regulatory Review Council; the agency did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the agency was not required to hold public hearings on the rules; and the Attorney General did not certify this rule. This Section was subsequently amended through the regular rulemaking process.*

**R9-22-716. Repealed****Historical Note**

Adopted effective October 1, 1985 (Supp. 85-5). Amended under an exemption from the provisions of the Administrative Procedure Act, effective March 1, 1993 (Supp. 93-1). Amended effective January 14, 1997 (Supp. 97-1). Amended by final rulemaking at 8 A.A.R. 424, effective January 10, 2002 (Supp. 02-1). Section repealed by final rulemaking at 13 A.A.R. 662, effective April 7, 2007 (Supp. 07-1).

**R9-22-717. Repealed****Historical Note**

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective September 22, 1997 (Supp. 97-3). Section repealed by final rulemaking at 11 A.A.R. 3222, effective October 1, 2005 (Supp. 05-3).

*Editor's Note: The following Section was originally adopted under an exemption from the provisions of the Administrative*

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

*Procedure Act which means that this rule was not reviewed by the Governor's Regulatory Review Council. The agency was required to submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; and was required to hold a public hearing. It has since been amended under the regular rulemaking process.*

**R9-22-718. Urban Hospital Inpatient Reimbursement Program**

**A. Definitions.** The following definitions apply to this Section:

1. "Contractor" has the same meaning as set forth in A.R.S. § 36-2901, and includes all contractors regardless of whether the GSA's served by the contractor includes urban or rural counties.
2. "Noncontracted Hospital" means an urban hospital, including psychiatric hospitals, which does not have a contract under this Section with a contractor.
3. "Urban Hospital" means a hospital that is not a rural hospital, as defined in R9-22-712.07, and that is physically located in Maricopa or Pima County.

**B. General Provisions.**

1. This Section applies to an urban hospital who receives payment for inpatient hospital services under A.R.S. §§ 36-2903.01 and 36-2904.
2. AHCCCS shall operate an inpatient hospital reimbursement program under A.R.S. § 36-2905.01 and this Section.
3. Residency of the member receiving inpatient AHCCCS covered services is not a factor in determining which hospitals are required to contract with which contractors.
4. A contractor shall enter into a contract for reimbursement for inpatient AHCCCS covered services with one or more urban hospitals located in the same county as the contractor.
5. A noncontracted urban hospital shall be reimbursed for inpatient services by a contractor at 95 percent of the amount calculated as defined in A.R.S. § 36-2903.01 and this Article, unless otherwise negotiated by both parties.

**C. Contract Begin Date.** A contract under this Article shall cover inpatient acute care hospital services for members with hospital admissions on and after October 1, 2003.

**D. Outpatient urban hospital services.** Outpatient urban hospital services, including observation days and emergency room treatments that do not result in an admission, shall be reimbursed either through an urban hospital contract negotiated between a contractor and an urban hospital, or the reimbursement rates set forth in A.R.S. § 36-2903.01. Outpatient services in an urban hospital that result in an admission shall be paid as inpatient services in accordance with this Section.

**E. Urban Hospital Contract.**

1. Provisions of an urban hospital contracts. The urban hospital contract shall contain but is not limited to the following provisions:
  - a. Required provisions as described in the Request for Proposals (RFP);
  - b. Dispute settlement procedures. If the AHCCCS Grievance System prescribed in A.R.S. § 36-2903.01(B) and rule is not used, then arbitration shall be used;
  - c. Arbitration procedure. If arbitration is used, the urban hospital contract shall identify:
    - i. The parties' agreement on arbitrating claims arising from the contract,
    - ii. Whether arbitration is nonbinding or binding,
    - iii. Timeliness of arbitration,

- iv. What contract provisions may be appealed,
  - v. What rules will govern arbitrations,
  - vi. The number of arbitrators that shall be used,
  - vii. How arbitrators shall be selected, and
  - viii. How arbitrators shall be compensated.
- d. Timeliness of claims submission and payment;
  - e. Prior authorization;
  - f. Concurrent review;
  - g. Electronic submission of claims;
  - h. Claims review criteria;
  - i. Payment of discounts or penalties such as quick-pay and slow-pay provisions;
  - j. Payment of outliers;
  - k. Claim documentation specifications under A.R.S. § 36-2904.
    - l. Treatment and payment of emergency room services; and
    - m. Provisions for rate changes and adjustments.
2. AHCCCS review and approval of urban hospital contracts:
- a. AHCCCS may review, approve, or disapprove the hospital contract rates, terms, conditions, and amendments to the contract;
  - b. The AHCCCS evaluation of each urban hospital contract shall include but not be limited to the following areas:
    - i. Availability and accessibility of services to members,
    - ii. Related party interests,
    - iii. Inclusion of required terms pursuant to this Section, and
    - iv. Reasonableness of the rates.
- F. Quick-Pay/Slow-Pay.** A payment made by a contractor to a noncontracted hospital shall be subject to quick-pay discounts and slow-pay penalties under A.R.S. § 36-2904.

**Historical Note**

Adopted under an exemption from the provisions of the Administrative Procedure Act, effective January 29, 1997; pursuant to Laws 1996, Ch. 288, § 24 (Supp. 97-1). Amended by exempt rulemaking at 10 A.A.R. 500, effective February 1, 2004 (Supp. 04-1). Amended by exempt rulemaking at 13 A.A.R. 3190, effective October 1, 2007 (Supp. 07-3). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 24 A.A.R. 1515, effective June 30, 2018 (Supp. 18-2).

**R9-22-719. Contractor Performance Measure Outcomes**

The Administration may retain a specified percentage of capitation reimbursement to distribute to contractors based on their performance measure outcomes under A.R.S. § 36-2904. The Administration shall notify contractors 60 days prior to a new contract year if this methodology is implemented. The Administration shall specify the details of the reimbursement methodology in contract.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 424, effective January 10, 2002 (Supp. 02-1).

**R9-22-720. Reinsurance**

**A.** Reinsurance is a stop-loss program provided by the Administration to a contractor for partial reimbursement of the cost of covered services for a member with an acute medical condition when the cost of covered services exceeds a pre-determined deductible level amount within a contract year. The

36-2903.01. Additional powers and duties; report; definition

A. The director of the Arizona health care cost containment system administration may adopt rules that provide that the system may withhold or forfeit payments to be made to a noncontracting provider by the system if the noncontracting provider fails to comply with this article, the provider agreement or rules that are adopted pursuant to this article and that relate to the specific services rendered for which a claim for payment is made.

B. The director shall:

1. Prescribe uniform forms to be used by all contractors. The rules shall require a written and signed application by the applicant or an applicant's authorized representative, or, if the person is incompetent or incapacitated, a family member or a person acting responsibly for the applicant may obtain a signature or a reasonable facsimile and file the application as prescribed by the administration.

2. Enter into an interagency agreement with the department to establish a streamlined eligibility process to determine the eligibility of all persons defined pursuant to section 36-2901, paragraph 6, subdivision (a). At the administration's option, the interagency agreement may allow the administration to determine the eligibility of certain persons, including those defined pursuant to section 36-2901, paragraph 6, subdivision (a).

3. Enter into an intergovernmental agreement with the department to:

(a) Establish an expedited eligibility and enrollment process for all persons who are hospitalized at the time of application.

(b) Establish performance measures and incentives for the department.

(c) Establish the process for management evaluation reviews that the administration shall perform to evaluate the eligibility determination functions performed by the department.

(d) Establish eligibility quality control reviews by the administration.

(e) Require the department to adopt rules, consistent with the rules adopted by the administration for a hearing process, that applicants or members may use for appeals of eligibility determinations or redeterminations.

(f) Establish the department's responsibility to place sufficient eligibility workers at federally qualified health centers to screen for eligibility and at hospital sites and level one trauma centers to ensure that persons seeking hospital services are screened on a timely basis for eligibility for the system, including a process to ensure that applications for the system can be accepted on a twenty-four hour basis, seven days a week.

(g) Withhold payments based on the allowable sanctions for errors in eligibility determinations or redeterminations or failure to meet performance measures required by the intergovernmental agreement.

(h) Recoup from the department all federal fiscal sanctions that result from the department's inaccurate eligibility determinations. The director may offset all or part of a sanction if the department submits a corrective action plan and a strategy to remedy the error.

4. By rule establish a procedure and time frames for the intake of grievances and requests for hearings, for the continuation of benefits and services during the appeal process and for a grievance process at the contractor level. Notwithstanding sections 41-1092.02, 41-1092.03 and 41-1092.05, the administration shall develop rules to establish the procedure and time frame for the informal resolution of grievances and appeals. A grievance that is not related to a claim for payment of system covered services shall be filed in writing with and received by the administration or the prepaid capitated provider or program contractor not later than sixty days after the date of the adverse action, decision or policy implementation being grieved. A grievance that is related to a claim for payment

of system covered services must be filed in writing and received by the administration or the prepaid capitated provider or program contractor within twelve months after the date of service, within twelve months after the date that eligibility is posted or within sixty days after the date of the denial of a timely claim submission, whichever is later. A grievance for the denial of a claim for reimbursement of services may contest the validity of any adverse action, decision, policy implementation or rule that related to or resulted in the full or partial denial of the claim. A policy implementation may be subject to a grievance procedure, but it may not be appealed for a hearing. The administration is not required to participate in a mandatory settlement conference if it is not a real party in interest. In any proceeding before the administration, including a grievance or hearing, persons may represent themselves or be represented by a duly authorized agent who is not charging a fee. A legal entity may be represented by an officer, partner or employee who is specifically authorized by the legal entity to represent it in the particular proceeding.

5. Apply for and accept federal funds available under title XIX of the social security act (P.L. 89-97; 79 Stat. 344; 42 United States Code section 1396 (1980)) in support of the system. The application made by the director pursuant to this paragraph shall be designed to qualify for federal funding primarily on a prepaid capitated basis. Such funds may be used only for the support of persons defined as eligible pursuant to title XIX of the social security act or the approved section 1115 waiver.

6. At least thirty days before the implementation of a policy or a change to an existing policy relating to reimbursement, provide notice to interested parties. Parties interested in receiving notification of policy changes shall submit a written request for notification to the administration.

7. In addition to the cost sharing requirements specified in subsection D, paragraph 4 of this section:

(a) Charge monthly premiums up to the maximum amount allowed by federal law to all populations of eligible persons who may be charged.

(b) Implement this paragraph to the extent permitted under the federal deficit reduction act of 2005 and other federal laws, subject to the approval of federal waiver authority and to the extent that any changes in the cost sharing requirements under this paragraph would permit this state to receive any enhanced federal matching rate.

C. The director is authorized to apply for any federal funds available for the support of programs to investigate and prosecute violations arising from the administration and operation of the system. Available state funds appropriated for the administration and operation of the system may be used as matching funds to secure federal funds pursuant to this subsection.

D. The director may adopt rules or procedures to do the following:

1. Authorize advance payments based on estimated liability to a contractor or a noncontracting provider after the contractor or noncontracting provider has submitted a claim for services and before the claim is ultimately resolved. The rules shall specify that any advance payment shall be conditioned on the execution before payment of a contract with the contractor or noncontracting provider that requires the administration to retain a specified percentage, which shall be at least twenty percent, of the claimed amount as security and that requires repayment to the administration if the administration makes any overpayment.

2. Defer liability, in whole or in part, of contractors for care provided to members who are hospitalized on the date of enrollment or under other circumstances. Payment shall be on a capped fee-for-service basis for services other than hospital services and at the rate established pursuant to subsection G of this section for hospital services or at the rate paid by the health plan, whichever is less.

3. Deputize, in writing, any qualified officer or employee in the administration to perform any act that the director by law is empowered to do or charged with the responsibility of doing, including the authority to issue final administrative decisions pursuant to section 41-1092.08.

4. Notwithstanding any other law, require persons eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2931 and section 36-2981, paragraph 6 to be financially responsible for any cost sharing requirements established in a state plan or a section 1115 waiver and approved by the centers for medicare and medicaid services. Cost sharing requirements may include copayments, coinsurance, deductibles, enrollment fees and monthly premiums for enrolled members, including households with children enrolled in the Arizona long-term care system.

E. The director shall adopt rules that further specify the medical care and hospital services that are covered by the system pursuant to section 36-2907.

F. In addition to the rules otherwise specified in this article, the director may adopt necessary rules pursuant to title 41, chapter 6 to carry out this article. Rules adopted by the director pursuant to this subsection shall consider the differences between rural and urban conditions on the delivery of hospitalization and medical care.

G. For inpatient hospital admissions and outpatient hospital services on and after March 1, 1993, the administration shall adopt rules for the reimbursement of hospitals according to the following procedures:

1. For inpatient hospital stays from March 1, 1993 through September 30, 2014, the administration shall use a prospective tiered per diem methodology, using hospital peer groups if analysis shows that cost differences can be attributed to independently definable features that hospitals within a peer group share. In peer grouping the administration may consider such factors as length of stay differences and labor market variations. If there are no cost differences, the administration shall implement a stop loss-stop gain or similar mechanism. Any stop loss-stop gain or similar mechanism shall ensure that the tiered per diem rates assigned to a hospital do not represent less than ninety percent of its 1990 base year costs or more than one hundred ten percent of its 1990 base year costs, adjusted by an audit factor, during the period of March 1, 1993 through September 30, 1994. The tiered per diem rates set for hospitals shall represent no less than eighty-seven and one-half percent or more than one hundred twelve and one-half percent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1994 through September 30, 1995 and no less than eighty-five percent or more than one hundred fifteen percent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1995 through September 30, 1996. For the periods after September 30, 1996 no stop loss-stop gain or similar mechanisms shall be in effect. An adjustment in the stop loss-stop gain percentage may be made to ensure that total payments do not increase as a result of this provision. If peer groups are used, the administration shall establish initial peer group designations for each hospital before implementation of the per diem system. The administration may also use a negotiated rate methodology. The tiered per diem methodology may include separate consideration for specialty hospitals that limit their provision of services to specific patient populations, such as rehabilitative patients or children. The initial per diem rates shall be based on hospital claims and encounter data for dates of service November 1, 1990 through October 31, 1991 and processed through May of 1992. The administration may also establish a separate reimbursement methodology for claims with extraordinarily high costs per day that exceed thresholds established by the administration.

2. For rates effective on October 1, 1994, and annually through September 30, 2011, the administration shall adjust tiered per diem payments for inpatient hospital care by the data resources incorporated market basket index for prospective payment system hospitals. For rates effective beginning on October 1, 1999, the administration shall adjust payments to reflect changes in length of stay for the maternity and nursery tiers.

3. Through June 30, 2004, for outpatient hospital services, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to the covered charges. Beginning on July 1, 2004 through June 30, 2005, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to covered charges. If the hospital increases its charges for outpatient services filed with the Arizona department of health services pursuant to chapter 4, article 3 of this title, by more than 4.7 percent for dates of service effective on or after July 1, 2004, the hospital specific cost-to-charge ratio will be reduced by the amount that it exceeds 4.7 percent. If charges exceed 4.7 percent, the effective date of the increased charges will be the effective date of the adjusted Arizona health care cost containment system cost-to-charge ratio. The administration shall develop the methodology for a capped fee-for-service schedule and a statewide cost-to-charge ratio. Any covered outpatient service not included in the capped fee-for-service schedule shall be reimbursed by applying the statewide cost-to-charge ratio that is based on the services not included in the capped fee-for-service schedule. Beginning on July 1, 2005, the administration shall reimburse clean claims with dates of service on or after July 1, 2005, based on the

capped fee-for-service schedule or the statewide cost-to-charge ratio established pursuant to this paragraph. The administration may make additional adjustments to the outpatient hospital rates established pursuant to this section based on other factors, including the number of beds in the hospital, specialty services available to patients and the geographic location of the hospital.

4. Except if submitted under an electronic claims submission system, a hospital bill is considered received for purposes of this paragraph on initial receipt of the legible, error-free claim form by the administration if the claim includes the following error-free documentation in legible form:

- (a) An admission face sheet.
- (b) An itemized statement.
- (c) An admission history and physical.
- (d) A discharge summary or an interim summary if the claim is split.
- (e) An emergency record, if admission was through the emergency room.
- (f) Operative reports, if applicable.
- (g) A labor and delivery room report, if applicable.

Payment received by a hospital from the administration pursuant to this subsection or from a contractor either by contract or pursuant to section 36-2904, subsection I is considered payment by the administration or the contractor of the administration's or contractor's liability for the hospital bill. A hospital may collect any unpaid portion of its bill from other third-party payors or in situations covered by title 33, chapter 7, article 3.

5. For services rendered on and after October 1, 1997, the administration shall pay a hospital's rate established according to this section subject to the following:

- (a) If the hospital's bill is paid within thirty days of the date the bill was received, the administration shall pay ninety-nine percent of the rate.
- (b) If the hospital's bill is paid after thirty days but within sixty days of the date the bill was received, the administration shall pay one hundred percent of the rate.
- (c) If the hospital's bill is paid any time after sixty days of the date the bill was received, the administration shall pay one hundred percent of the rate plus a fee of one percent per month for each month or portion of a month following the sixtieth day of receipt of the bill until the date of payment.

6. In developing the reimbursement methodology, if a review of the reports filed by a hospital pursuant to section 36-125.04 indicates that further investigation is considered necessary to verify the accuracy of the information in the reports, the administration may examine the hospital's records and accounts related to the reporting requirements of section 36-125.04. The administration shall bear the cost incurred in connection with this examination unless the administration finds that the records examined are significantly deficient or incorrect, in which case the administration may charge the cost of the investigation to the hospital examined.

7. Except for privileged medical information, the administration shall make available for public inspection the cost and charge data and the calculations used by the administration to determine payments under the tiered per diem system, provided that individual hospitals are not identified by name. The administration shall make the data and calculations available for public inspection during regular business hours and shall provide copies of the data and

calculations to individuals requesting such copies within thirty days of receipt of a written request. The administration may charge a reasonable fee for the provision of the data or information.

8. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the prospective payment of inpatient hospital capital related costs. The capital payment shall include hospital specific and statewide average amounts. For tiered per diem rates beginning on October 1, 1999, the capital related cost component is frozen at the blended rate of forty percent of the hospital specific capital cost and sixty percent of the statewide average capital cost in effect as of January 1, 1999 and as further adjusted by the calculation of tier rates for maternity and nursery as prescribed by law. Through September 30, 2011, the administration shall adjust the capital related cost component by the data resources incorporated market basket index for prospective payment system hospitals.

9. For graduate medical education programs:

(a) Beginning September 30, 1997, the administration shall establish a separate graduate medical education program to reimburse hospitals that had graduate medical education programs that were approved by the administration as of October 1, 1999. The administration shall separately account for monies for the graduate medical education program based on the total reimbursement for graduate medical education reimbursed to hospitals by the system in federal fiscal year 1995-1996 pursuant to the tiered per diem methodology specified in this section. The graduate medical education program reimbursement shall be adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Subject to legislative appropriation, on an annual basis, each qualified hospital shall receive a single payment from the graduate medical education program that is equal to the same percentage of graduate medical education reimbursement that was paid by the system in federal fiscal year 1995-1996. Any reimbursement for graduate medical education made by the administration shall not be subject to future settlements or appeals by the hospitals to the administration. The monies available under this subdivision shall not exceed the fiscal year 2005-2006 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement, except for monies distributed for expansions pursuant to subdivision (b) of this paragraph.

(b) The monies available for graduate medical education programs pursuant to this subdivision shall not exceed the fiscal year 2006-2007 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Graduate medical education programs eligible for such reimbursement are not precluded from receiving reimbursement for funding under subdivision (c) of this paragraph. Beginning July 1, 2006, the administration shall distribute any monies appropriated for graduate medical education above the amount prescribed in subdivision (a) of this paragraph in the following order or priority:

(i) For the direct costs to support the expansion of graduate medical education programs established before July 1, 2006 at hospitals that do not receive payments pursuant to subdivision (a) of this paragraph. These programs must be approved by the administration.

(ii) For the direct costs to support the expansion of graduate medical education programs established on or before October 1, 1999. These programs must be approved by the administration.

(c) The administration shall distribute to hospitals any monies appropriated for graduate medical education above the amount prescribed in subdivisions (a) and (b) of this paragraph for the following purposes:

(i) For the direct costs of graduate medical education programs established or expanded on or after July 1, 2006. These programs must be approved by the administration.

(ii) For a portion of additional indirect graduate medical education costs for programs that are located in a county with a population of less than five hundred thousand persons at the time the residency position was created or for a residency position that includes a rotation in a county with a population of less than five hundred thousand persons at the time the residency position was established. These programs must be approved by the administration.

(d) The administration shall develop, by rule, the formula by which the monies are distributed.

(e) Each graduate medical education program that receives funding pursuant to subdivision (b) or (c) of this paragraph shall identify and report to the administration the number of new residency positions created by the funding provided in this paragraph, including positions in rural areas. The program shall also report information related to the number of funded residency positions that resulted in physicians locating their practices in this state. The administration shall report to the joint legislative budget committee by February 1 of each year on the number of new residency positions as reported by the graduate medical education programs.

(f) Local, county and tribal governments and any university under the jurisdiction of the Arizona board of regents may provide monies in addition to any state general fund monies appropriated for graduate medical education in order to qualify for additional matching federal monies for providers, programs or positions in a specific locality and costs incurred pursuant to a specific contract between the administration and providers or other entities to provide graduate medical education services as an administrative activity. Payments by the administration pursuant to this subdivision may be limited to those providers designated by the funding entity and may be based on any methodology deemed appropriate by the administration, including replacing any payments that might otherwise have been paid pursuant to subdivision (a), (b) or (c) of this paragraph had sufficient state general fund monies or other monies been appropriated to fully fund those payments. These programs, positions, payment methodologies and administrative graduate medical education services must be approved by the administration and the centers for medicare and medicaid services. The administration shall report to the president of the senate, the speaker of the house of representatives and the director of the joint legislative budget committee on or before July 1 of each year on the amount of money contributed and number of residency positions funded by local, county and tribal governments, including the amount of federal matching monies used.

(g) Any funds appropriated but not allocated by the administration for subdivision (b) or (c) of this paragraph may be reallocated if funding for either subdivision is insufficient to cover appropriate graduate medical education costs.

10. Notwithstanding section 41-1005, subsection A, paragraph 9, the administration shall adopt rules pursuant to title 41, chapter 6 establishing the methodology for determining the prospective tiered per diem payments that are in effect through September 30, 2014.

11. For inpatient hospital services rendered on or after October 1, 2011, the prospective tiered per diem payment rates are permanently reset to the amounts payable for those services as of October 1, 2011 pursuant to this subsection.

12. The administration shall adopt a diagnosis-related group based hospital reimbursement methodology consistent with title XIX of the social security act for inpatient dates of service on and after October 1, 2014. The administration may make additional adjustments to the inpatient hospital rates established pursuant to this section for hospitals that are publicly operated or based on other factors, including the number of beds in the hospital, the specialty services available to patients, the geographic location and diagnosis-related group codes that are made publicly available by the hospital pursuant to section 36-437. The administration may also provide additional reimbursement for extraordinarily high cost cases that exceed a threshold above the standard payment. The administration may also establish a separate payment methodology for specific services or hospitals serving unique populations.

H. The director may adopt rules that specify enrollment procedures, including notice to contractors of enrollment. The rules may provide for varying time limits for enrollment in different situations. The administration shall specify in contract when a person who has been determined eligible will be enrolled with that contractor and the date on which the contractor will be financially responsible for health and medical services to the person.

I. The administration may make direct payments to hospitals for hospitalization and medical care provided to a member in accordance with this article and rules. The director may adopt rules to establish the procedures by which the administration shall pay hospitals pursuant to this subsection if a contractor fails to make timely payment to a hospital. Such payment shall be at a level determined pursuant to section 36-2904, subsection H or I. The director

may withhold payment due to a contractor in the amount of any payment made directly to a hospital by the administration on behalf of a contractor pursuant to this subsection.

J. The director shall establish a special unit within the administration for the purpose of monitoring the third-party payment collections required by contractors and noncontracting providers pursuant to section 36-2903, subsection B, paragraph 10 and subsection F and section 36-2915, subsection E. The director shall determine by rule:

1. The type of third-party payments to be monitored pursuant to this subsection.
2. The percentage of third-party payments that is collected by a contractor or noncontracting provider and that the contractor or noncontracting provider may keep and the percentage of such payments that the contractor or noncontracting provider may be required to pay to the administration. Contractors and noncontracting providers must pay to the administration one hundred percent of all third-party payments that are collected and that duplicate administration fee-for-service payments. A contractor that contracts with the administration pursuant to section 36-2904, subsection A may be entitled to retain a percentage of third-party payments if the payments collected and retained by a contractor are reflected in reduced capitation rates. A contractor may be required to pay the administration a percentage of third-party payments that are collected by a contractor and that are not reflected in reduced capitation rates.

K. The administration shall establish procedures to apply to the following if a provider that has a contract with a contractor or noncontracting provider seeks to collect from an individual or financially responsible relative or representative a claim that exceeds the amount that is reimbursed or should be reimbursed by the system:

1. On written notice from the administration or oral or written notice from a member that a claim for covered services may be in violation of this section, the provider that has a contract with a contractor or noncontracting provider shall investigate the inquiry and verify whether the person was eligible for services at the time that covered services were provided. If the claim was paid or should have been paid by the system, the provider that has a contract with a contractor or noncontracting provider shall not continue billing the member.

2. If the claim was paid or should have been paid by the system and the disputed claim has been referred for collection to a collection agency or referred to a credit reporting bureau, the provider that has a contract with a contractor or noncontracting provider shall:

- (a) Notify the collection agency and request that all attempts to collect this specific charge be terminated immediately.

- (b) Advise all credit reporting bureaus that the reported delinquency was in error and request that the affected credit report be corrected to remove any notation about this specific delinquency.

- (c) Notify the administration and the member that the request for payment was in error and that the collection agency and credit reporting bureaus have been notified.

3. If the administration determines that a provider that has a contract with a contractor or noncontracting provider has billed a member for charges that were paid or should have been paid by the administration, the administration shall send written notification by certified mail or other service with proof of delivery to the provider that has a contract with a contractor or noncontracting provider stating that this billing is in violation of federal and state law. If, twenty-one days or more after receiving the notification, a provider that has a contract with a contractor or noncontracting provider knowingly continues billing a member for charges that were paid or should have been paid by the system, the administration may assess a civil penalty in an amount equal to three times the amount of the billing and reduce payment to the provider that has a contract with a contractor or noncontracting provider accordingly. Receipt of delivery signed by the addressee or the addressee's employee is prima facie evidence of knowledge. Civil penalties collected pursuant to this subsection shall be deposited in the state general fund. Section 36-2918, subsections C, D and F, relating to the imposition, collection and enforcement of civil penalties, apply to civil penalties imposed pursuant to this paragraph.

L. The administration may conduct postpayment review of all claims paid by the administration and may recoup any monies erroneously paid. The director may adopt rules that specify procedures for conducting postpayment review. A contractor may conduct a postpayment review of all claims paid by the contractor and may recoup monies that are erroneously paid.

M. Subject to title 41, chapter 4, article 4, the director or the director's designee may employ and supervise personnel necessary to assist the director in performing the functions of the administration.

N. The administration may contract with contractors for obstetrical care who are eligible to provide services under title XIX of the social security act.

O. Notwithstanding any other law, on federal approval the administration may make disproportionate share payments to private hospitals, county operated hospitals, including hospitals owned or leased by a special health care district, and state operated institutions for mental disease beginning October 1, 1991 in accordance with federal law and subject to legislative appropriation. If at any time the administration receives written notification from federal authorities of any change or difference in the actual or estimated amount of federal funds available for disproportionate share payments from the amount reflected in the legislative appropriation for such purposes, the administration shall provide written notification of such change or difference to the president and the minority leader of the senate, the speaker and the minority leader of the house of representatives, the director of the joint legislative budget committee, the legislative committee of reference and any hospital trade association within this state, within three working days not including weekends after receipt of the notice of the change or difference. In calculating disproportionate share payments as prescribed in this section, the administration may use either a methodology based on claims and encounter data that is submitted to the administration from contractors or a methodology based on data that is reported to the administration by private hospitals and state operated institutions for mental disease. The selected methodology applies to all private hospitals and state operated institutions for mental disease qualifying for disproportionate share payments.

P. Disproportionate share payments made pursuant to subsection O of this section include amounts for disproportionate share hospitals designated by political subdivisions of this state, tribal governments and universities under the jurisdiction of the Arizona board of regents. Subject to the approval of the centers for medicare and medicaid services, any amount of federal funding allotted to this state pursuant to section 1923(f) of the social security act and not otherwise spent under subsection O of this section shall be made available for distribution pursuant to this subsection. Political subdivisions of this state, tribal governments and universities under the jurisdiction of the Arizona board of regents may designate hospitals eligible to receive disproportionate share payments in an amount up to the limit prescribed in section 1923(g) of the social security act if those political subdivisions, tribal governments or universities provide sufficient monies to qualify for the matching federal monies for the disproportionate share payments.

Q. Notwithstanding any law to the contrary, the administration may receive confidential adoption information to determine whether an adopted child should be terminated from the system.

R. The adoption agency or the adoption attorney shall notify the administration within thirty days after an eligible person receiving services has placed that person's child for adoption.

S. If the administration implements an electronic claims submission system, it may adopt procedures pursuant to subsection G of this section requiring documentation different than prescribed under subsection G, paragraph 4 of this section.

T. In addition to any requirements adopted pursuant to subsection D, paragraph 4 of this section, notwithstanding any other law, subject to approval by the centers for medicare and medicaid services, beginning July 1, 2011, members eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2931 and section 36-2981, paragraph 6 shall pay the following:

1. A monthly premium of fifteen dollars, except that the total monthly premium for an entire household shall not exceed sixty dollars.

2. A copayment of five dollars for each physician office visit.

3. A copayment of ten dollars for each urgent care visit.

4. A copayment of thirty dollars for each emergency department visit.

U. Subject to the approval of the centers for medicare and medicaid services, political subdivisions of this state, tribal governments and any university under the jurisdiction of the Arizona board of regents may provide to the Arizona health care cost containment system administration monies in addition to any state general fund monies appropriated for critical access hospitals in order to qualify for additional federal monies. Any amount of federal monies received by this state pursuant to this subsection shall be distributed as supplemental payments to critical access hospitals.

V. For the purposes of this section, "disproportionate share payment" means a payment to a hospital that serves a disproportionate share of low-income patients as described by 42 United States Code section 1396r-4.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** December 6, 2022

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** November 21, 2022

**SUBJECT: DEPARTMENT OF ECONOMIC SECURITY**  
Title 6, Chapter 6

**New Section:** R6-6-901, R6-6-904

**Renumber:** R6-6-901, R6-6-902, R6-6-903, R6-6-904, R6-6-905, R6-6-906,  
R6-6-907, R6-6-908, R6-6-909, R6-6-910, R6-6-911

**Amend:** R6-6-902, R6-6-903, R6-6-905, R6-6-906, R6-6-907, R6-6-908,  
R6-6-909, R6-6-910

---

### **Summary:**

This regular rulemaking from the Department of Economic Security (Department) seeks to amend eight (8) rules in Title 6, Chapter 6, Article 9 relating to planning for and addressing instances when a Division of Developmental Disabilities (DDD) Member engages in unsafe behavior, including the creation of behavior plans and limitations on the use of certain techniques.

The Department indicates that the purpose of the rulemaking is to improve the rules related to the standard of care for vulnerable populations and enhance existing safeguards by discouraging the use of punitive and outdated behavior management techniques. The Department indicates that the updated rules reflect current professional standards and encourage development

of appropriate behavioral interventions. Additionally, the Department indicates that the rules are being updated to make the rules more clear, concise, and understandable.

The Department indicates that these rules were originally created in 1990 and last amended in 1994. The Department indicates that this rulemaking implements recommendations identified in a Five-Year Review Report (5YRR) approved by the Council on January 5, 2021.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Department cites both general and specific authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department indicates that it did not rely on any study in conducting this rulemaking. However, the Department reviewed existing literature, including:

1. American Association of Intellectual and Developmental Disabilities “Behavior Supports”.
2. Medicaid.gov “Home and Community Based Services Final Regulation.”
3. National Association of State Directors of Developmental Disabilities Services “ASAN: Autistic Self Advocacy Network”.
4. State of Massachusetts Department of Developmental Services “115 CMR Standards and Services”.
5. “Behavior Modification Principles and Procedures” 6th edition by Raymond G. Miltenberger (2016).

4. **Summary of the agency's economic impact analysis:**

The Department indicates that the rulemaking will have a minimal economic impact on both itself and those it regulates. The Department indicates that both the Department and members of the public will benefit from the rulemaking because the rules are made more clear, concise, and understandable.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

Yes; the Department indicates that most of the requirements imposed by the rules are consistent with existing Department practices and therefore will not cause a significant increase in compliance costs. The updated training requirements may create some

additional costs to the Department; additionally, sanctions imposed for unmet training requirements may cause some Service Providers to incur additional costs.

However, the Department indicates that the updated measures are the least burdensome way to mitigate risk to the health, safety, and dignity of individuals with developmental disabilities. Furthermore, the Department indicates that the updated rules are necessary to provide the most current behavioral management guidance to Service Providers.

**6. What are the economic impacts on stakeholders?**

The Department identifies stakeholders as the Department, Division of Developmental Disabilities (DDD) members, applicants for DDD services, service providers, and the general public. The Department indicates that the rulemaking will have a minimal economic impact on such stakeholders.

**7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

No; between the Notice of Supplemental Proposed Rulemaking and Notice of Final Rulemaking, the Department indicated that certain outdated terminology was removed; internal citations were corrected; typographical errors were corrected; certain language was rearranged to improve clarity; and certain language was substituted to improve clarity without changing the impact or meaning of the language. Council staff believes that these changes do not amount to a substantially different rule pursuant to A.R.S. § 41-1025.

**8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Department indicates that it received public comments from over twenty (20) interested parties. Copies of these public comments, along with the Department's responses, are included in the final materials for the Council's reference.

The Department has made only non-substantive changes to the rules in response to these public comments. However, because other related rules are being revised concurrently with this rulemaking, the Department has forwarded all public comments to the appropriate teams in the Department for additional consideration.

Council staff believes that the Department has adequately addressed the comments on the proposed rules.

**9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The rules do not require a permit, license, or agency authorization.

**10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department indicates that there is no federal law applicable to the subject of the rule.

**11. Conclusion**

This regular rulemaking from the Department seeks to amend eight (8) rules in Title 6, Chapter 6, Article 9 relating to planning for and addressing instances when a Division of Developmental Disabilities (DDD) Member engages in unsafe behavior, including the creation of behavior plans and limitations on the use of certain techniques. The Department indicates that these rules were originally created in 1990 and last amended in 1994. Since then, the Department began this rulemaking to reflect current professional standards and encourage development of appropriate behavioral interventions. These recommendations were identified in a 5YRR approved by the Council on January 5, 2021.

The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

DEPARTMENT OF ECONOMIC SECURITY

*Your Partner For A Stronger Arizona*

Douglas A. Ducey  
Governor

Michael Wisehart  
Director

October 11, 2022

Ms. Nicole Sornsin  
Chairperson, Governor's Regulatory Review Council  
Department of Administration  
100 North 15th Avenue, Suite 305  
Phoenix, Arizona 85007

Dear Ms. Sornsin:

The attached 6 A.A.C. 6 Article 9 Managing Inappropriate Behaviors final rulemaking package is respectfully submitted for review and approval by the Council. The following information is provided for use in reviewing the rulemaking package:

**Close of Record Date:** The rulemaking record closed on June 13, 2022, following the public comment period. This rulemaking package is being submitted within the 120-day timeframe provided by A.R.S. § 41-1024(B). The Arizona Department of Economic Security (Department) scheduled and hosted an oral proceeding on June 13, 2022 and comments are addressed in Item #10 of the NFR Preamble.

**General and Specific Statutes Authorizing the Rules; Definitions of Terms Contained in Statutes or Other Rules:** General Statute: A.R.S. § 41-1954(A)(3). Implementing Statutes: A.R.S. §§ 36-552, 36-554, and 41-1092.01.

**Relation of the Rulemaking to a Five-Year Review Report:** This rulemaking is in response to a Five-Year Review Report approved by the Council on January 5, 2021.

**New Fee or Fee Increase:** This rulemaking does not establish a new fee or increase an existing fee.

**Effective Date:** The Department is requesting an effective date of 60 days from filing with the Secretary of State under A.R.S. § 41-1032(A).

**Material Incorporated by Reference:** No material is incorporated by reference in this rulemaking.

**Certification Regarding Studies:** The Department certifies that the preamble accurately discloses that no study relevant to the rules was reviewed and was not relied on in the Department's evaluation of or justification of the rules. However, the Department reviewed existing literature as identified in the Preamble.

Ms. Nicole Sornsin  
Page 2

Joint Legislative Budget Committee (JLBC) Certification: The Department was not required to make a certification to JLBC because the rule does not require any new full-time employees.

List of Documents Enclosed:

- a. Notice of Final Rulemaking including preamble, table of contents for the rulemaking, and rule text;
- b. Economic Impact statement;
- c. Current rules;
- d. Applicable statutes; and
- e. Governor's Office approval.

If you have any questions, please contact Nicole Tolton, Rules Coordinator, Governance and Innovation Administration, at (480) 647-3107 or [ntolton@azdes.gov](mailto:ntolton@azdes.gov).

Sincerely,

*Nicole Davis*

**6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

6 A.A.C. 6, Article 9 contains rules regarding planning for and addressing instances when

a Division of Developmental Disabilities (DDD) Member engages in unsafe behavior, including creation of behavior plans and limitations on the use of certain techniques. Originally created in 1990, this Article was last amended in 1994. The Governor's Regulatory Review Council approved a Five-Year Review Report on Chapter 6 on January 5, 2021.

The purpose of this rulemaking is to improve the rules related to the standard of care for vulnerable populations and enhance existing safeguards by discouraging the use of punitive and outdated behavior management techniques. The proposed rules reflect current professional standards in the field and encourage development of appropriate behavioral interventions for DDD members. In addition, these proposed rules will make the rules more clear, concise, and understandable by revising definitions and modernizing language.

DES engaged in supplemental rulemaking to address public comments on the Notice of Proposed Rulemaking for 6 A.A.C. 6, Article 9 published at 27 A.A.R. 619 on April 23, 2021. The Department also conducted multiple meetings with internal and external stakeholders seeking additional informal feedback to ensure that all stakeholder input has been adequately considered in crafting these rules. As a result, the Department's Notice of Supplemental Proposed Rulemaking (NSPR) for 6 A.A.C. 6, Article 9 was published at 28 A.A.R. 985 on May 13, 2022. The Department collected public comments on the NSPR between May 13, 2022 and June 13, 2022 and hosted an oral proceeding on June 13, 2022. The Department reviewed all comments received and revised the proposed rules as necessary. No substantial changes were made. This Notice of Final Rulemaking

is the result of this process.

**7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

The Department did not rely on any studies. However, the Department reviewed existing literature such as:

1. American Association of Intellectual and Developmental Disabilities [“Behavior Supports”](#).
2. Medicaid.gov [“Home and Community Based Services Final Regulation.”](#)
3. National Association of State Directors of Developmental Disabilities Services [“ASAN: Autistic Self Advocacy Network”](#).
4. State of Massachusetts Department of Developmental Services [“115 CMR Standards and Services”](#).
5. “Behavior Modification Principles and Procedures” 6<sup>th</sup> edition by Raymond G. Miltenberger (2016).

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable

**9. A summary of the economic, small business, and consumer impact:**

The Department anticipates that this rulemaking will have a minimal economic impact on

it as the implementing agency, small businesses, and consumers. The Department and members of the public will benefit from the revision of Article 9 because the proposed rulemaking will make the provisions for member's behavior management more clear, concise, and understandable.

Most of the requirements of these rules are consistent with current Department practices and, therefore, will not cause a significant increase in costs for compliance either to the Department or to Service Providers, many of which are small businesses. The training requirements may cause the Department to incur some costs. Additionally, sanctions imposed if training requirements are not met may cause Service Providers to incur some costs. However, these measures are the least burdensome way to mitigate risk to the health, safety, and dignity of individuals with developmental disabilities and are necessary to provide the most current behavioral management guidance to and for Service Providers.

Finally, the consumers who will be directly impacted by this rulemaking are applicants and Members who voluntarily seek services through the Department. This rulemaking does not impose any obligation on the applicant or Member to accept or participate in services without informed consent. Members and applicants will benefit from the increased personal safety and improved protection of personal rights that come from having clear and updated rules with respect to managing unsafe behaviors.

**10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

The changes made in the final rulemaking are as follows:

- In 9-6-901(A), the Department removed the entry for “Direct Care Worker” because the term is no longer used in these rules. This is not a substantial change because all instances of this term in these rules have been replaced with the language in the definition found in the Notice of Supplemental Proposed Rulemaking (NSPR).
- In R6-6-901(A), the Department added an entry for the term “Inappropriate Behavior” with a citation to R6-6-901(B) where the term is defined. This is not a substantial change because it does not add a new definition. Instead, this adds an internal citation that was inadvertently omitted from the list in the published proposed rule.
- In R6-6-901(A) and R6-6-901(B), the Department replaced “Qualified Health Care Professional” with “Qualified Healthcare Professional.” This is not a substantial change because it corrects a typographical error.
- In R6-6-901(B), the definition of “Direct Care Worker” has been eliminated. This is not a substantial change because all instances of this term in these rules have been replaced with the language in the definition found in the NSPR.
- In R6-6-903, the Department added language clarifying that when the rule says that a Service Provider shall not use a technique, that technique is prohibited. The word “prohibited” is more commonly used in the field by the regulated entities to indicate that a certain technique cannot be used. This is not a substantial change because saying that a technique is prohibited is synonymous with the existing statement that a party shall not use the technique.

- In R6-6-903, the Department separated subsection (8) into two separate sections and renumbered the subsections accordingly. This is not a substantial change because it does not add any new language or remove any proposed language. It rearranges language to give clarity to the rule.
- In R6-6-905(3), the Department moved the phrase “if available” from the beginning of the subsection to the middle of the subsection to clarify the language and changed punctuation accordingly. This is not a substantial change because it does not add any new language or remove any proposed language. It rearranges language to give clarity to the rule.
- In R6-6-906(B), the Department changed “meet” to “hold a meeting” to clarify that the Program Review Committee (PRC) is required to hold a meeting to review and approve or deny Behavior Plans. This change was made at the request of public commenters. This is not a substantial change because it does not change the impact of the subsection but rather clarifies the language.
- In R6-6-906(C)(1), the term “least restrictive” has been removed. This subsection lists both “Least Intrusive” and “least restrictive” interventions as required elements of a Behavior Plan. Using both terms is redundant as they are intended to have the same meaning. The Department opted to use “Least Intrusive” because it is a defined term. This is not a substantial change because it does not change the impact or meaning of the published language.
- In R6-6-908(A), the Department separated the individuals required by a Service Provider to complete Article 9 training into three subsections. This is not a

substantial change because it does not add any new language or remove any proposed language. It rearranges language to give clarity to the rule.

- In R6-6-908(A), the term “Direct Care Worker” has been replaced with “a person who is employed or contracted to provide primary personal care, guidance, or supervision to a Member.” This is not a substantial change because the new language is taken directly from the definition of “Direct Care Worker” in R6-6-901 of the NSPR. This does not change the meaning of this subsection.
- In R6-6-910(A)(2), the word “restrictive” has been changed to “intrusive” to be consistent with the language in R6-6-906(C)(1). In this context, “restrictive” and “intrusive” are synonyms. This is not a substantial change because it does not change the impact or meaning of the published language.
- In R6-6-911(A), the Department replaced “licensed physician” with “Qualified Healthcare Professional.” The term “licensed physician” is used throughout the existing Article 9. The Department chose to replace that term with the defined term “Qualified Healthcare Professional” throughout Article 9. This change was made in the published proposed rule. This instance was unintentionally overlooked in the prior revision and is being corrected here to be consistent with the rest of the rule. This is not a substantial change because it does not change the impact or meaning of the published language.
- In R6-6-911(B)(1) and R6-6-911(B)(2)(b), the Department replaced “physician” with “Qualified Healthcare Professional.” The term “licensed physician” or “physician” is used throughout the existing Article 9. The Department chose to

replace that term with the defined term “Qualified Healthcare Professional” throughout Article 9. This change was made in the published proposed rule. These instances were unintentionally overlooked in the prior revision and are being corrected here to be consistent with the rest of the rule. This is not a substantial change because it does not change the impact or meaning of the published language.

- In R6-6-911(B)(2)(b), the Department changed “and within 24 hours” to “but no later than 24 hours after the Member experiences the side effect.” The purpose of this change is to use clearer language to explain the 24 hour limitation. This is not a substantial change because it does not change the impact or meaning of the published language.
- In R6-6-911(C), the Department replaced “Qualified Health Care Professional” with “Qualified Healthcare Professional.” This is not a substantial change because it corrects a typographical error.

**11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

During the public comment period, the Department received comments from more than 20 interested parties. Many comments expressed similar concerns or suggestions. If multiple comments were received about the same topic, the chart below contains a representative comment and the Department’s response. The Division is revising Division policies related to Article 9 concurrently with this rulemaking. Several commenters noted differences between the wording of these rules and the existing and draft Division

policies published on the Division website, including the Behavior Supports Manual which contains Division policies specific to Article 9. To the extent that definitions and other language is inconsistent between these rules and Division policies, the policies are being adjusted to conform to these rules. While only non-substantive changes were made to the proposed rules as a result of the public comments, all comments have been forwarded to the appropriate teams in the Department for any necessary consideration or action outside of this rulemaking.

<b>Comment</b>	<b>Department Response</b>
<p>If the training is supposed to be taught with the same information across the state, why is there not a master presentation for course takers to watch so that they are getting the same consistent information across the board? We are leaving it up to agencies to train Article 9, however class lengths are ranging from 1 to 3 hours in what seems to be dependent on the motivation of the trainer. Can a rule be implemented for agencies so that they cannot charge DCWs for this course? If it is a requirement for the job, why are we charging them for the certification? DCWs are required by DDD to take the training every 3 years. For those of us who have been in the field for 10+ years, at a certain point the test answers are by memory. Will there be more than the two current variations of the test available? Will the training have a database similar to DCW or can A9 be integrated into the AHCCCS DCW database so when other agencies refuse to release certifications, we can verify if a provider has already taken the training</p>	<p>Under R6-6-908(B), all Article 9 training must be taught by a Division-certified Article 9 instructor. The Division certifies Article 9 instructors to ensure that adequate training is provided to all trainees. Agencies cannot provide this training unless the person within the agency is a certified Article 9 instructor.</p> <p>To the extent that the Department could promulgate a rule to prevent a Service Provider from charging a Direct Care Worker a fee for Article 9 training, this is a matter of internal business practice that is best handled by each Service Provider based on the Service Provider's and the's employees' needs.</p> <p>Details about how training will be provided and how records of training are kept are outside the scope of this rulemaking.</p>

<p>Why is Article 9 required for parent/provider when the adult child/customer does not have any behavior issues?</p>	<p>Article 9 applies to interventions for both anticipated and unanticipated behaviors. A Behavior Plan covers anticipated behaviors. Not all Members will have a Behavior Plan. However, if an Emergency Safety Situation arises that requires use of any of the techniques covered by Article 9, all providers need to understand this Article to avoid violating it, regardless of whether a Member has a Behavior Plan.</p>
<p>Hello we have a comment regarding the new training requirements for Article 9. R6-6-908 "The training must be in-person and instructor-led in a live classroom environment to allow for interaction and discussion of the training materials. Exceptions to in-person training must be pre-approved by the Division." We believe these requirements, although well intentioned, are unduly restrictive. Particularly when considering the new post COVID and high inflation environment we find ourselves in currently and future projections not looking much better, meaning many individuals are/will be unable or unwilling to attend a 3.5 hour in person training, we also believe the cost burden has been underestimated by not taking these facts into consideration. We believe that thorough and interactive training can be accomplished remotely, and/or through hybrid training (partly online/in-person) just as well as in-person only training, for example a live Zoom classroom allows for just as much interactivity between the instructor and the students as in-person training. We have had great success with our Hybrid First Aid CPR training, allowing the Direct Care Workers to watch the 4 hour training video at their own convenience (we have seen most complete the course outside of regular business hours), and schedule their</p>	<p>R6-6-908 does not require in-person training. To the extent that Division policies address the need for in-person training, these policies are currently being revised and comments are being taken into consideration.</p>

<p>in-person component of the training themselves using our online booking calendar. When the DCW arrives for the in-person component of their training we are able to spend far more one on one time with them and address any questions they may have in a way that we are unable to do when trying to complete a packed 4+ hour in-person course. In addition we have found it beneficial to training where the Direct Care Workers are able to complete the training in multiple sessions by pausing and resuming the videos, they are better able to digest the material, rather than all the information being presented in one sitting contributing to a lack of retention. We hope you will consider these concerns when finalizing the revisions to the rule. Thank you</p>	
<p>Highly appreciate using ASAN as a reference for changing the rules. Please continue to seek out and adjust policies based on lived experience from disabled communities. Concern: "Forced Compliance" should be well defined; any new trainings should include several examples of what this looks like and positive techniques to avoid it. This is often veiled as "Maximal Prompting" in ABA protocols which is concerning as ABA is generally accepted as a "green light" technique overall- which often is used to justify use of restricted techniques.</p>	<p>The term "Forced Compliance" is defined in these rules to be "a procedure in which an individual is physically made to follow a direction or command." Because this definition is designed to encompass many specific actions, it would be impossible to include an exhaustive list of what actions would constitute "Forced Compliance." To include a non-exhaustive list would risk the incorrect interpretation that anything not specifically included on the list is meant to be excluded from the definition. Examples of "Forced Compliance" may be provided in Division policy or in training.</p>
<p>I am a certified school psychologist and have worked in special education and privately for 27 years focusing on children with learning differences and developmental delays. I feel the article 9 training needs to compassion building, clear about laws and incorporate conflict resolution and crisis prevention strategies to reduce risk of outbursts and potential</p>	<p>The Department appreciates this feedback.</p>

<p>harm to providers and individuals with delays and cognitive impairment. When I completed my Article 9 training I found it very lacking in clear, helpful information. I am also interested in offering this training but have had difficulty finding out how to be a trainer. Thank you</p>	
<p>I am taking time today to comment on the proposed rule changes to Article 9. My son is 35 years of age and is a member of ALTCS-DDD and I am concerned about numerous changes that are being proposed. As the public meetings for these changes took place during covid I do not believe it has been properly vetted by the public via Public in person forums. I suggest a delay and a few state wide forums before finalizing the proposed changes to Article 9 . As a parent who is an advocate I can say confidently that at least 50% of families never make comment or attend forums and Covid made it impossible for these families and individuals to really give comment. So lets get some input that did not require a knowledge of computers and video meetings etc. LETS HAVE A FEW MORE PUBLIC MEETINGS PLEASE. My biggest question is why now these changes? What is the reason? I have asked this question to forces that are pushing these changes and there is no serious concise reply from any of the folks who wrote these changes. As a Parent who has had to deal with Severe Behaviors in the past and present I am quite familiar with the behaviors. But it took years to get the current steps in policy implemented for my son. Its pretty simple in Policy a severe behavior happens immediately it should lead to 1) immediately get a complete medical exam for the individual to be sure that no underlying medial condition is part of the reason for the behavior. 2) Get a</p>	<p>These rules had not been revised since 1994. The purpose of this revision is to improve the rules related to the standard of care for vulnerable populations and enhance existing safeguards by discouraging the use of punitive and outdated behavior management techniques. The proposed rules reflect current professional standards in the field and encourage development of appropriate behavioral interventions for DDD members. In addition, these proposed rules are designed to make the rules more clear, concise, and understandable.</p> <p>During the years that this Article has been under revision, the Division held multiple public meetings to gather concerns and comments regarding these proposed rules. The most recent meetings were required to be virtual for the safety of Members, the public, and DES staff as the nation battled the COVID pandemic. In addition, the Notice of Supplemental Proposed Rulemaking was published in the Arizona Administrative Register and on the DES website for comment. Both contained instructions for submitting comments in writing. Further, the notice that was emailed to the more than 40,000 email addresses in the DDD database included information about how to request the draft rules in an alternate format. Regardless of whether the Department is actively conducting a rulemaking, the Department always welcomes feedback and comments</p>

<p>mental health exam completed to be sure that no underlying issues or pharmaceutical issues are triggering the severe behavior 2) Planning document get the service added to complete a Functional Behavioral Analysis completed to assist in understanding the individual and his situation and what works and does not work in helping the individual and staff cope with behavior. I would guess that out of all incident reports only a small percentage have an FBA. A FBA if done correctly and thoroughly is a short simplified document that can be given to the many direct care workers that an individual comes into contact. This FBA will help the direct care workers who have a high turnover rate to get to know the clients needs and strengths before even working with a client. The FBA can also help in crises to address severe behaviors. Whats the hurry on Article 9 revision? Lets get it right</p>	<p>on all of its rules.</p> <p>When appropriate, a functional behavioral analysis (FBA) can be a useful tool. However, it is not appropriate or useful for all Members in all situations. The need for an FBA should be determined by the Planning Team when developing the Behavior Plan based on the needs of the Member.</p>
<p>Good Evening, I'm sending along a quick note confirming my support of the Article 9 re-write. Thank you!</p>	<p>The Department appreciates this support.</p>
<p>We continue our 2021 objections to the DDD proposed Article 9 revisions. We continue to have grave concerns and objections regarding the 2022 DDD proposed Article 9 revisions.</p> <p>We find DDD's published rationale as to the need for Art. 9 to be wholly inadequate and still do not understand why Art. 9 needs to be revised. We are concerned that even the 2022 proposed revision seriously compromises the original Spirit of Article 9. It only has been 45 years since the historic 1977 settlement of the class-action lawsuit against the state that alleged horrific living conditions for residents of the Arizona Training Program.</p>	<p>These rules had not been revised since 1994. This revision is necessary to improve rules related to the standard of care for vulnerable populations and enhance existing safeguards by prohibiting the use of punitive and outdated behavior management techniques. The proposed rules reflect current professional standards in the field and encourage development of appropriate behavioral interventions for DDD members. In addition, these proposed rules are designed to make the rules more clear, concise, and understandable.</p>

<p>We are volunteers who take time out of our very busy lives to do this critical work. We have invested dozens of hours reviewing Article 9 and the proposed policies. We can only imagine how overwhelming review of the proposed Art.9 revisions and the proposed corresponding DDD Policy revisions must be for DDD Members, Self-advocates, Parents, Families and Friends that do not have our expertise. We have also been inundated with a plethora of other proposed DDD policy revisions posted in the last 2 months.</p>	
<p>We are concerned that the 2022 proposed Art. 9 revisions and proposed corresponding DDD Policy revisions are poorly drafted. Use of terminology is not consistent throughout both revisions and makes the revisions confusing and difficult to follow especially when referring to DDD Members (i.e. indiscriminately referenced in the proposed revisions as a Member, Person with an Intellectual Disability, Person with a Developmental Disability, Individual and Person), Planning Documents for DDD Members (i.e. ISP, Person Centered Plan, Service Plan and Planning Document) and Independent Oversight Committee (i.e. IOC, Human Rights Committee).</p> <p>Again, we reiterate that Individuals with intellectual and developmental disabilities (I/DD) should be assured safety and security within the context of dignity of risk, autonomy, and choice. It is essential that we promote each individual's ability to be valued, fully participating members of the community and to engage in meaningful and relevant activities. A 2018 report published by the Council on Quality</p>	<p>Terminology has been updated to be consistent with current best practices in the community as well as the terminology used in the applicable laws. Use of this terminology is consistent within these rules. As noted above, inconsistent terminology between the rules and Division policy is being resolved by revising the policy to align to the rules..</p> <p>The Department agrees that the safety and security of DDD Members and all individuals with developmental disabilities is of the utmost importance. DDD's mission is to empower Members to lead self-directed, healthy, and meaningful lives. The intent of Article 9 is to support this mission while ensuring the safety and welfare of a Member and others when an unsafe or inappropriate behavior needs to be addressed.</p>

<p>and Leadership, entitled, “Restraint, Restrictive Interventions, and Seclusion of People with Intellectual and Developmental Disabilities” notes that while hotly contested, there is inconclusive evidence of their effectiveness. In fact, the study notes that their use increases the risk of death, injury, and psychological harm not only for people with disabilities, but for the individuals employed to support them.</p> <p>Again, we remind everyone that Article 9 in Arizona historically, proactively, and positively supported the positive and adaptive behavior of individuals with I/DD. Article 9 has been used as a template for the development of best practice and model policies for supporting individuals with I/DD across the country. One example is the Jensen Settlement Agreement in Minnesota, the result of a lawsuit filed against DHS in 2009 alleging that the former Minnesota Extended Treatment Options (METO) program used restraint and seclusion in a way that broke the law and violated the rights of people with disabilities. Jensen required person-centered thinking, positive behavioral supports and serving people in the most-integrated setting consistent with the person’s goals, dreams, and aspirations. It is therefore, of great concern that the revised Article 9 would seem to allow certain elements historically prohibited.</p> <p>We have the following concerns and objections:</p>	
<p><b>Restraints, Restrictive Interventions, Response Cost, Seclusion</b></p> <p>We continue to be concerned with the following changes to Article 9:</p> <p>The following are currently stated as “shall</p>	<p>The Department has added language to the introductory paragraph of R6-6-903 to clarify that the listed techniques are prohibited.</p>

<p>not” in the 2022 proposed Art. 9 revision. However, we believe the original restriction of the unequivocal “prohibited” is stronger language and should be continued instead of replaced by the ambiguous “shall not.”</p> <p>1. Abuse or neglect a member . . .</p>	
<p>2. Use a restricted technique as a negative consequence (should be explicitly prohibited without the modifier “as a negative consequence”) . . .</p> <p>6. Physical intervention, including mechanical restraints, when used as a negative consequence (Should be explicitly prohibited without the modifier “as negative consequence”)</p>	<p>Restricted techniques and physical intervention need the modifier “as negative consequence” because these techniques may be used in a non-punitive manner if the techniques are being used in accordance with the member’s approved behavior plan.</p>
<p>8. Use techniques that in intent or execution cause physical or psychological pain or harm to a member, or are used as a form of punishment (should be explicitly prohibited without the modifier “as a form of punishment”)</p>	<p>The intent of the clause “or are used as a form of punishment” is to indicate that no technique may be used in a punitive manner. List item eight included two separate ideas: a prohibition on using techniques that cause harm to a member and a prohibition on using techniques as a means of punishment. To clarify this intent, the Department has separated those prohibitions into separate list items:</p> <p>8. <u>Use techniques that in intent or execution cause physical or psychological pain or harm to a Member;</u></p> <p>9. <u>Use techniques as a form of punishment;</u></p>
<p>The following is no longer listed as shall not or restricted. We are inquiring whether this was mistakenly left off. If it was purposely left off, what is the rationale? We continue our objection of escape extinction without rationale or justification and limitations explicitly included in the</p>	<p>Escape extinction is no longer listed as a restricted technique because it is one form of Forced Compliance, which is a restricted technique under R6-6-904. Examples of what constitutes Forced Compliance, including escape extinction, will be provided in training and Division</p>

<p>behavior treatment plan. 1. Escape extinction</p>	<p>policy.</p>
<p><i>The following are listed as restricted.</i> If the PRC allows a behavioral plan with any restricted behavioral interventions, there should be a mechanism to allow a due process review before it is allowed to be included in the plan. There should be a mechanism for the member, the parent/guardian or any other concerned party to ask for a formal review of this plan by the DDD Assistant Director.</p> <p>1. Forced compliance 2. Response Cost 3. Psychotropic Medication- should expressly include provisions for informed consent for the initial administration of any psychotropic medication, changes in doses, and screening protocols for side effects. PRN medications for the purpose of behavior management should be prohibited. 4. Restrictions to a DDD Member's rights</p>	<p>The Member and the Member's Responsible Person are part of the Planning Team that develops the Behavior Plan. Any concerns regarding the inclusion of restricted techniques in the Behavior Plan can and should be raised during the development process. The Program Review Committee (PRC) does not review a plan until it has been completed and agreed upon by the Planning Team.</p> <p>Members' rights are further protected during the review of a Behavior Plan by the PRC. The PRC includes one member who is also a member of the Internal Oversight Committee (IOC). As an IOC member, this person has received special training on the rights of DDD Members. That training helps further ensure that Members' rights are protected during PRC review.</p> <p>A Member, a Member's Responsible Person, or any other concerned person may request a secondary review of a Behavior Plan by the PRC. Current Division policy published on the Division website directs PRC how to proceed when such a request is received.</p> <p>Under R6-6-911(A)(3), Psychotropic Medication may only be prescribed and administered with the informed consent of the Member's Responsible Person.</p>
<p><b>Behavior Plans</b> We continue to concur with prior suggestions: DDD should develop and require use of a standard template for Behavior Treatment Plans with participation and input from legal</p>	<p>The Department has chosen not to impose more burden on Planning Teams by requiring the use of a particular template for drafting a Behavior Plan. The Department will accept any Behavior Plan</p>

<p>guardians, identify antecedent behaviors and ensure that the individuals developing the plan have familiarity with the individual with I/DD. We repeat that the proposed rule should require that behavior plans include documentation of proactive techniques to identify triggers, interventions to be utilized before behaviors escalate and skills training to support individuals to improve their self-regulation and/or use alternative and augmentative communication to enable them to communicate when they are stressed, in pain, etc. We believe that medical issues and conditions should be considered when developing a plan and a medical review and/or a Functional Behavioral Analysis should always be conducted if a new behavior is being addressed. We also believe that a parent/guardian or the member should approve the plan before it is implemented.</p>	<p>that meets the minimum criteria in this Article. However, to assist Planning Teams, in January 2022, the Department distributed an optional statewide Behavior Plan template and updated forms. In addition, the Division offers a “Behavior Plan Writing Workshop” that includes a sample writers guide, step-by-step instructions, and best practices for plan writers.</p> <p>A Behavior Plan is unique to the Member. Because no two Members have the exact same needs, it would not be effective or possible for the Department to mandate that all Planning Teams consider the same information, the same sources, or the same analyses in crafting all Behavior Plans.</p> <p>Regarding consideration of medical conditions in developing a Behavior Plan, medical conditions should be taken into consideration, as should all factors that contribute to a Member’s behavior. Regardless of the cause for a behavior, the purpose of the Behavior Plan is to address the behavior. Addressing any underlying medical conditions is included in the Member’s Planning Document.</p> <p>The Member and the Member’s Responsible Person are part of the Planning Team that creates the Behavior Plan. As members of the Planning Team, the Member and the Member’s Responsible Person are deeply involved in creating the Behavior Plan and must approve the Behavior Plan before it can be submitted to PRC.</p>
<p><b>Medical Issues</b> We believe a behavior should never be assumed to be just “a behavior” and that all medical issues be addressed before a behavioral plan be</p>	<p>Regardless of the cause for a behavior, medical or otherwise, the behavior needs to be addressed in a Behavior Plan. The cause for the behavior should be taken into</p>

<p>considered. Often those with I/DD have complex and co morbid conditions that may not appear in typical ways or the individual may not be able to communicate the medical issues. We believe that before a PRC Behavior Plan is written, a medical professional should review medical records/documentation to ensure the medical issues are not causing behavior in the individual with I/DD. The medical professional should identify, rule out and address all medical issues and medical treatment plans should be incorporated with any behavioral health plan written. Behavior treatment plan training should include medical issues that could contribute to behavior.</p>	<p>consideration when drafting the Behavior Plan. This is outlined in Division Behavior Supports Manual. In addition, a Member’s medical needs are covered in the Member’s Planning Document, including any complex medical conditions that may lead to behaviors.</p> <p>To the extent that a Behavior Plan addresses behaviors caused by a medical issue, R6-6-906(B)(2) requires that an individual implementing the Behavior Plan receive appropriate training, which could include training on the underlying medical concern.</p>
<p><b>PRC Membership</b> We remain concerned that the revisions to the membership prioritizing only professional credentials may result in a lack of experience and expertise in supporting individuals with I/DD. While we agree that PRCs should also include representatives with Quality Management and Behavioral Management backgrounds, it is important to maintain inclusion of representatives with experience in providing training and skill development to individuals with I/DD (habilitation providers), and District Program Management staff as voting members. We believe the PRC Team should prioritize inclusion of a provider representative, a parent representative and an adult member representative whenever possible.</p>	<p>Aside from modernizing language, the list of PRC members is not changing from the current rules. A prior draft of these proposed rules included language that could have been misinterpreted to indicate a prioritization of professional credentials, but that language was removed before publishing the Notice of Supplemental Proposed Rulemaking because it was not consistent with the Department’s intent.</p>
<p><b>Training</b> There appears to be an elimination of the requirement that all individuals within the Division and its qualified vendors complete Article 9 training. This training ensures that everyone, from front line staff to executives</p>	<p>A.R.S. § 41-1005(A)(4) indicates that directions concerning management of agency staff do not belong in rule. So, although these rules are silent about training Division staff, Division policy mandates that all Division employees</p>

<p>are aware of the importance of maintaining the human rights of individuals with I/DD. Further, it does not appear that the Behavioral Health professionals and Quality Management professionals appointed to the PRCs will be required to complete Article 9 training. We believe all individuals working directly and indirectly with DDD Members including Quality Management professionals, all PRC participants, Behavioral Health professionals and Medical professionals who are part of the behavioral health team should be required to have current Article 9 training.</p>	<p>complete Article 9 training. A copy of this Division policy is published on the Division website.</p> <p>Service Providers are required to complete Article 9 training in the rules governing specific types of Service Providers. For example, qualified vendors are required to be trained in Article 9 under the rules in Article 21 governing Qualified Vendor Agreements, and Article 15 requires providers of home and community based services to complete Article 9 training. Current Department practice is to provide Article 9 training to all PRC members. Behavioral Health professionals and Medical professionals are exempt from Article 9 under R6-6-902. Licensing and regulation of Behavioral Health professionals and Medical professionals is handled by the Arizona Department of Health Services and not DES. The Department does not have authority to impose training restrictions on these providers.</p>
<p><b>Data Collection</b> We understand that the requirement that within one working day a report must be submitted when emergency measures are utilized has been deleted from Art. 9 but is included in proposed DDD Policy. However, we believe this requirement should remain in Art. 9. Further, the reference that planning teams convene to develop a new behavior treatment plan if one does not already exist has also been deleted and should remain in Art. 9. We have been told that the Independent Oversight Committees have repeatedly requested a standardized format for reporting incidents across regions and reference to this data collection, tracking, trending, reporting and relevant changes to policies and procedures should also be</p>	<p>The referenced reporting requirement has not been deleted. Under R6-6-910(B), the Service Provider must report the use of an Emergency Measure to the Support Coordinator within 24 hours of using the Emergency Measure and to the PRC within one business day of using the Emergency Measure. The requirement to develop a new behavior plan when an Emergency Measure is used has also not been eliminated. When an Emergency Measure is used two times in a 30-day period, the Planning Team is convened to either revise the current Behavior Plan or create a new one in accordance with R6-6-910(B)(3). The Department is currently revising multiple Articles relevant to the Division. Language</p>

<p>included in any revision to Article 9. We agree with the Independent Oversight Committees on this specific request.</p>	<p>requiring creation of a Behavior Plan when needed is also being added to Article 6 regarding Program Service.</p> <p>Regarding a standardized format for incident reporting, to encourage prompt reporting, the Department does not require specific formatting. The Department does not want a Service Provider to delay submission of an incident report based solely on the need to comply with formatting requirements.</p>
<p><b>Conclusion</b> Integrating acute, behavioral, HCBS and LTSS approaches should continue to support the strengths, choices, autonomy, and integrity to supporting individuals with I/DD. The National Association of State Directors of Developmental Disabilities Services (NASDDDS) affirmed a similar position opposing aversive interventions and promoting positive behavior supports in 2015. Any revisions to Article 9 should affirmatively reject the use of interventions that have the potential to cause pain and harm, whether physical or psychological.</p>	<p>The purpose of this revision to Article 9 is to affirmatively reject the use of interventions that have the potential to cause pain and harm, whether physical or psychological. The Department continues to promote the use of positive behavior supports.</p>
<p>rule 905 does not mention person writing the rule and need to visit member 3 settings. if in rule 905 the current planning document and prior year planning documents must be submitted, in 906 approval of BTP does not mention what the procedure is if IOC finds rights violations in the planning document? Rule 911 talks about screening for TD but does not mention screening for metabolic and averse effects by 2nd generation meds.</p>	<p>The rule identifies the Planning Team as responsible for the development of the Behavior Plan. Information regarding responsibilities such as who writes, submits, and completes changes are included in the draft Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9. Best practices for developing plans, such as observing the member in multiple settings is also included in the Behavior Supports Manual.</p> <p>The Independent Oversight Committee (IOC) is an independent committee housed outside the Department. IOC has its own</p>

	<p>policies and procedures. If rights violations are found in the Planning Document or in the Behavior Plan during a PRC review, the violations are handled per IOC policy and procedure.</p> <p>Although this rule requires screening for Tardive Dyskinesia (TD) when appropriate, it also requires screening for all side effects which would include metabolic and other adverse effects. Further information regarding screenings is included in the Behavior Supports Manual published on the Division website.</p>
<p>R6-6-901 B. 8 – “Direct Care Worker” is the term used for in-home supports such as housekeeping, respite, Hab, ATC. DCWs have different training requirements and testing than Direct Support Professionals (DSPs) do. Direct Support Professional (DSP) is the term used for of HCBS service providers such as group home, day program and employment program staff. Direct Support Professionals definition should be added.</p>	<p>To clarify who is included impacted by these rules, the Department has revised R6-6-908(A) to replace FThis is the only place in these rules that “Direct Care Worker” was used. As a result, the definition of “Direct Care Worker” has been removed from R6-6-901(A) and (B).</p>
<p>R6-6-901 B. 19 – The definition of the “planning team” does not include the Qualified Vendor and is different than the list in Policy 901 line 158 which does include the qualified vendor. We would appreciate Qualified Vendor being included in both definitions.</p>	<p>Including a Qualified Vendor on the Planning Team is captured in R6-6-901(19)(e). Under that subsection, the Department can, and often does, select a representative of the Qualified Vendor to serve on the Planning Team. The rule does not provide an an exhaustive list. Others may be included on the Planning Team.</p>
<p>R6-6-903. A – This should include a provider shall not: “exploit a member”</p>	<p>Exploitation of a Member is prohibited under Article 16 and is never allowed. Article 9 addresses interventions in response to an inappropriate or unsafe behavior.</p>
<p>R6-6-910. A. 3 – This section removed the ability to use a physical intervention technique when a member is causing severe</p>	<p>The purpose of Article 9 is to safeguard the health, welfare, and safety of a DDD Member and others when addressing an</p>

<p>damage to property. Our members have expressed that they have experienced times when physical intervention was necessary when a member was causing severe property damage.</p> <p>There are circumstances in which the damage to property could also threaten a member’s safety. For example, if a member is damaging cars in a parking lot and a provider stands by – the consequences (getting attacked by a car owner, arrested by police, and so forth) of that behavior could be more severe than utilizing a standing restraint.</p> <p>Because of this, we feel this flexibility should remain within the Article 9 rules.</p>	<p>unsafe or inappropriate behavior. Property damage alone may not put a Member or other person at risk. A Service Provider may use an Emergency Measure if property damage creates a risk of imminent harm to the Member or others under R6-6-910(A)(3). To the extent that a Behavior Plan contemplates the potential for property damage and includes permissible interventions in that scenario, a Service Provider may use those interventions in accordance with the Behavior Plan.</p>
<p>Article 9 edits</p> <ul style="list-style-type: none"> <li>• P.989 "Nursing Care Institutions"- does that include SNFs and custodial nursing facilities?</li> </ul>	<p>As noted in R6-6-901(A), the term “Nursing Care Institution” is defined in A.R.S. § 36-401. This statute defines “Nursing Care Institution” as a health care institution that provides inpatient beds or resident beds and nursing services to persons who need continuous nursing services but who do not require hospital care or direct daily care from a physician. Skilled Nursing Facilities (SNFs) and custodian nursing facilities are included in this definition.</p>
<ul style="list-style-type: none"> <li>• p.991 R6-6-907: add timeframes on when the training should be completed</li> </ul>	<p>Timeframes for training depend on a variety of factors including completion of an assessment, completion of the Behavior Plan, PRC approval of the Behavior Plan, and Planning Team agreement. This information is unique to each Member and is better captured in the Member’s Behavior Plan, Planning Document, and further explained in policy.</p>
<ul style="list-style-type: none"> <li>• R6-6-908: If a BCBA completed the treatment plan, will the Article 9 instructor be expected to train the staff or the BCBA?</li> </ul>	<p>R6-6-908(B) only addresses Article 9 training, not training on a specific Behavior Plan. Each Behavior Plan</p>

	addresses who is required to provide the training specific to that Behavior Plan.
<ul style="list-style-type: none"> <li>• R6-6-908: Section D, 2- what is the timeframe expectation on recertification?</li> </ul>	R6-6-908(D)(2) requires that recertification be completed as directed by the Division. Timeframes for recertification are not to exceed three years, as outlined in the Division's Behavior Supports Manual.
<ul style="list-style-type: none"> <li>• R6-6-910: what is defined as the least restrictive method? What are the minimal credentials required for the instructors?</li> </ul>	<p>The word "restrictive" has been changed to "intrusive." Although these two words are intended to have the same meaning, as noted in R6-6-901(A), the term "Least Intrusive" is defined in R6-6-101 as "the level of intervention necessary, reasonable, and humanely appropriate to the client's needs, which is provided in the least disruptive or invasive manner possible."</p> <p>Information regarding Article 9 trainer credentials is located in the Division's Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9.</p>
<ul style="list-style-type: none"> <li>• R6-6-903 states a provider shall not use a PRN. However, on R6-6-910, it states they can use psychotropic meds for an emergency. Can you please expand or clarify? What is the PRC approval process for a PRN? How long do they approve it for and when do they re-review the use?</li> </ul>	R6-6-903 says that Service Providers are not able to routinely administer Psychotropic Medications PRNs for purposes of modifying behavior or as a Chemical Restraint. R6-6-910 addresses the use of Psychotropic Medications in response to an Emergency Safety Situation. This one-time use of a Psychotropic Medication is considered an Emergency Measure and is governed by R6-6-911. Further clarification on the use of Psychotropic Medication is provided in the Division's Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9.
<ul style="list-style-type: none"> <li>• R6-6-911: It mentions the PRC needs to</li> </ul>	The use of Psychotropic Medications for

<p>be aware of the psychotropic medications, does this mean the PRC needs to approve the use or just be aware? (C) will this need PRC approval or will the PRC need to be informed prior to administration of a one-time use?</p>	<p>the purposes of modifying behavior is considered a restricted technique under R6-6-904. Restricted techniques are required to be included in a Member’s Behavior Plan, which must be approved by PRC. Under R6-6-910, Psychotropic Medication can be used in an Emergency Safety Situation as an Emergency Measure. This one-time use is not approved by the PRC. However, if Psychotropic Medication needs to be used as an Emergency Measure two or more times in a 30-day period, the Planning Team must reconvene to determine whether the Member’s Behavior Plan needs to be revised. A revised Behavior Plan needs to be approved by PRC.</p>
<p>The AZ Legislature created the DDD Independent Oversight Committees as a result of that lawsuit. We are charged by law to be the public watch dogs who can demand transparency and accountability from DDD. This helps ensure that DDD Members never again are subjected to such horrendous living conditions and violations of their Human Rights. Art. 9 is the DDD IOC Bible. It is the very foundation of our public responsibility and it is our sacred duty to ensure that Art. 9 adequately protects the Human Rights of all DDD Members.</p> <p>A few months ago the AZ Legislature and Governor Ducey reaffirmed their commitment to the mission of the DDD IOCs by requiring that DDD afford the IOCs an additional 30 (now 60) days to review any regulation and policy changes. While we understand this law does not go into effect until 91 days after the 2022 AZ Legislative Session ends, we are concerned that DDD Assistant Director Zane Garcia Ramadan chose to follow the Letter of the</p>	<p>The Department strives to protect the rights of all Members and welcomes feedback and suggestions at all times with respect to doing so. The Independent Oversight Committees (IOCs) play a critical role and the Department appreciates these comments about the revisions to Article 9 and the process the Department used to obtain input on both the rules and related policies.</p> <p>On April 19, 2022, Governor Ducey signed S.B. 1231 into law. This bill amends A.R.S. § 41-3801 to add subsection (G) which requires the Division to give IOCs 30 days to review and provide comments on any proposed new or revised Division policy before that policy is released for public comment. This new law will become effective on September 24, 2022. There is no comparable provision in current law. Furthermore, this new law would not apply to Article 9 because it is not a policy. Revised policies corresponding to Article 9 have not yet been issued and will be shared with IOC in</p>

<p>new law rather than the Spirit and only afforded us 30 days to review the 2022 proposed Art. 9 revisions and voluminous corresponding DDD Policy revisions. We are further concerned that despite voicing our questions about the upcoming Art. 9 proposed revisions and corresponding proposed policy revisions (not shared with us until made available for public comment late afternoon on Friday, May 13, 2022) directly to DDD Assistant Director Zane Garcia Ramadan during the April DDD Statewide meeting and raising them publicly during the May 24, 2022 DDD District West IOC meeting during which today’s June 7, 2022 special meeting was scheduled, DDD Assistant Director Zane Garcia Ramadan chose this morning to offer DDD IOC Members the opportunity to have our questions answered. It is too little, too late.</p> <p>While we appreciate DDD having a 2022 Volunteer Recognition Event a few months ago, we would much prefer a productive partnership with DDD where we could trust that we are working together to safeguard the Human Rights of DDD Members as we have been tasked to do by the AZ Legislature and Governor.</p> <p>A review of recent reports from the <u>DDD Independent Oversight Committees</u> indicate that there is an overall theme in the response by individuals with I/DD to their behavioral treatment plans: a lack of trained and passionate direct care workers results in individuals with I/DD feeling that they are rushed, disrespected and as a result they engage in behaviors deemed “inappropriate”.</p>	<p>accordance with the law.</p> <p>During the years that this Article has been under revision, the Division held multiple public meetings to gather concerns and comments and to answer questions regarding these proposed rules. These revisions have been redrafted multiple times and have been published for public comment on at least two occasions, first as a Notice of Proposed Rulemaking, and then as a Notice of Supplemental Proposed Rulemaking. Regardless of whether the Department is actively conducting a rulemaking, the Department always welcomes feedback and comments on all of its rules.</p>
<p><b>Page 986, #9:</b> “minimal economic impact on it as the implementing agency, small</p>	<p>The training timelines established in these rules are designed to best ensure the</p>

<p>businesses”</p> <p>Response: QVs will need to train all DSPs in the new Art 9. With the staff shortages we are all experiencing right now, DDD will need to have an extended (1-year) time for training. Not only will we have to pull current staff off shift to take the training but we will also need to fill their shift while at training resulting in OT and possibly more unfilled shifts, this may be a financial hardship for QVs. Consider reimbursing QVs the same way we were reimbursed for Abuse, Neglect, and Exploitation training to help offset the costs.</p>	<p>health, safety, and welfare of DDD Members.</p> <p>Training costs are considered when determining reimbursement rates. The Department will consider comments regarding the request for increased reimbursement based on increased training costs during rate rebase discussions.</p>
<p><b>Page 989, # 16, b:</b> Requiring a Member to repeatedly practice a behavior by engaging in effortful behavior directly or logically related to repairing damage, caused by the Member’s behavior as a tactic to evoke behavioral change.</p> <p>Response: Does it have to be damage? You can use overcorrection for language, manners such as knocking on a door before entering, any task such as wiping a counter, etc.</p>	<p>“Overcorrection” is defined as “a group of procedures designed to reduce Inappropriate Behavior.” The remainder of that definition gives examples of what would constitute overcorrection, but it is not an exhaustive list. Overcorrection does not need to involve damage.</p>
<p><b>Page 989, # 17:</b> Physical Intervention” means a technique used on an emergency basis by an individual who is providing care or service to a Member to restrict the movement of the Member by direct physical contact to prevent the Member from seriously harming self or others</p> <p>Response: Subjective *causing harm to self or others that requires the use of first aid, CPR, hospitalization or engagement with law enforcement.</p>	<p>What constitutes serious harm may be different in different situations. The Department has chosen to use the phrase “seriously harming self or others” to allow an individual the ability to quickly assess the entire circumstance surrounding the need for intervention, even while the situation is ongoing. The purpose of using physical intervention is to prevent serious harm. Whether harm requires first aid, CPR, hospitalization, or law enforcement engagement may not be determined until after the harm has occurred.</p>
<p><b>Page 990, # C.3:</b> Behavioral Health Services under A.R.S. § 36-2939(A)(2)</p>	<p>If the Behavior Plan includes any type of restricted technique listed in R6-6-904, the</p>

<p>Response: How does this apply to services that are BH funded but provided in a DDD funded environment? Example: an FBA that evokes a behavior that is not ethical or is a violation of Art 9?</p>	<p>DDD-funded provider would need to abide by Article 9 and the restricted technique would need to be written into a Behavior Plan approved by PRC prior to implementation if the Service Provider is of a type listed in R6-6-902.</p>
<p><b>Page 990, R6-6-905-4:</b> Upon receipt of..</p> <p>Response: “If a provisional”. The way this is written it appears that all plans will receive a ‘provisional’ status</p>	<p>As written, R6-6-905(4) only applies “upon receipt of a provisional approval.” The rule does not say that all plans with receive a provisional approval. The existing language is synonymous with the language requested by the commenter.</p>
<p><b>Pg 991, R6-6-906.Program Review Committee (PRC)- A:</b> The PRC shall include the following persons designated by the Division</p> <p>Response: BX Supports includes: A DDD employee who is not part of the member’s planning team, or the plan being reviewed</p> <p>Response: “Shall” means that there would need to be a minimum of 5 members per PRC for it to be held. BX Support manual states 3 members for quorum</p>	<p>This rule refers to composition of the PRC. A PRC quorum is described in the Division’s Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9.</p> <p>The rule and the Behavior Supports Manual numbers apply to two different requirements. This rule requires that the PRC be composed of at least five individuals. The Behavior Supports Manual requires that at least three of the five PRC members be present to have a quorum, which is necessary for PRC to take any action.</p>
<p><b>Pg 991. C:</b> The PRC chairperson shall send the PRC’s written determination to the Planning Team within five Business Days of the meeting described in R6-6-906 (B)</p> <p>Response: Although noted as being in R-6-906(B) it is not.</p>	<p>The language in R6-6-906(B) has been revised to clarify that PRC is required to hold a meeting to review and approve or deny Behavior Plans.</p>
<p><b>Pg 991. C. 3. C:</b> The PRC shall only grant one extension</p> <p>Response: “PRC chair” unless the provisional process is now going to be</p>	<p>The purpose of R6-6-906(C)(3) is to add the ability for PRC to grant provisional approval for a Behavior Plan when the plan requires only technical corrections before approval. The PRC will have the</p>

<p>added to the review process for PRC. The committee would not make the determination if the extension should be granted since the committee is volunteers, not DDD employees</p>	<p>authority to extend its provisional approval of a Behavior Plan for an additional 10 business days one time if doing so is in the best interest of the Member. Although the PRC chair likely would be the person who communicates the extension to the Planning Team, the decision to extend is made by the entire PRC.</p>
<p><b>Pg 991. R6-6-907. B .3: R6-6-907(B)(2)</b> Response: There is no (B)(2) in 907. It is (D)(3)(b)</p>	<p>The reference is correct as written. R6-6-907 does not have a subsection (D), however subsection (B)(2) requires training for individuals implementing a Behavior Plan.</p>
<p><b>Pg 993: B.2:</b> Complete and provide to the PRC and as prescribed by the Division  Response: PRC chair/district email. Is the intent of this statement to add QVs sending IRs that involve the use of an ‘emergency measure’ to PRC? Which email should they go to? Who at DDD is managing this? Why does the IR email not forward the IR to the correct PRC district (internal process)?</p>	<p>This is not a new requirement. (See existing R6-6-908(B)(2).) Under these rules, the Service Provider must submit a written report to the PRC within one business day. Details such as where to send the reports are included in the applicable Division policy. Procedures that govern only internal Department processes do not belong in rules.</p>
<p><b>Pg 993: B.3:</b> Alert the Support Coordinator  Response: Who is doing this (according to Art 9 the QV is not part of the planning team)? DDD IR reporting should be responsible for this process or if it is the responsibility of the QV why can’t we just directly send (CC) the IR to the SC?</p>	<p>R6-6-910(B)(3) requires the Service Provider to alert the Support Coordinator. To allow the Service Provider to use the most efficient means based on the circumstances, this subsection does not specify how the Service Provider makes that alert. Procedures that govern only internal Department processes such as the Division incident reporting unit sending the report to the Support Coordinator do not belong in rules. This rule does not prohibit the Qualified Vendor from copying the Support Coordinator on the submission of an incident report.</p>
<p><b>Pg 993, R6-6-911. A.1:</b> Licensed physician  Response: BX supports manual uses the term: qualified healthcare professional</p>	<p>During this revision of Article 9, the Department intended to replace the term “licensed physician” with the term “Qualified Healthcare Professional”</p>

	throughout the rules. The Department inadvertently missed this instance of the old term. This oversight has been corrected.
<p><b>Pg 993, R6-6-911. B.1 Physician</b></p> <p>Response: Change to “qualified healthcare professional”</p>	During this revision of Article 9, the Department intended to replace the term “licensed physician” with the term “Qualified Healthcare Professional” throughout the rules. The Department inadvertently missed this instance of the old term. This oversight has been corrected.
<p><b>Pg 993, R6-6-911. B.2. If positive for side effects, provided as soon as it is safe to do so and within 24 hours</b></p> <p>Response: What is provided?</p>	R6-6-911(B)(2) requires that a Member be screened for side effects and specifies what is to happen with the results of that screening. The language quoted by the commenter comes from subsection (B)(2)(b) which requires that the results of the screening be provided to the prescribing Qualified Healthcare Professional.
<p><b>Pg 993, R6-6-911. B.2. Physician</b></p> <p>Response: Qualified health care professional</p>	During this revision of Article 9, the Department intended to replace the term “licensed physician” with the term “Qualified Healthcare Professional” throughout the rules. The Department inadvertently missed this instance of the old term. This oversight has been corrected.
<p>This organization is a home health care agency located in Phoenix, Arizona, that primarily serves pediatric patients, most of whom are eligible for benefits under the AHCCCS, ALTCS, or Arizona Department of Economic Security Division of Developmental Disabilities (DDD) programs. The organization is a Medicare-certified home health agency and is licensed by the Arizona Department of Health Services (ADHS) as a home health agency and by DDD as a home and</p>	As stated in R-6-6-902, Article 9 applies to all programs operated, licensed, certified, supervised, or financially supported in whole or in part by the Division in accordance with A.R.S. §§ 36-552, 36-2939, or 36-2940, and includes all Behavior Plans implemented or monitored by a Service Provider. A Behavior Plan is not required for individuals when they reside in their own or family home, whether they take psychotropic medications or not.

<p>community based service (HCBS) provider. We have been an DDD Qualified Vendor since 2006.</p> <p>We are writing to provide public comments in response to the proposed updates to the Behavior Supports Policy Manual in 6AAC6 Article 9 DDD Interventions for Unsafe and Inappropriate Behaviors (page 985). We have the following comments and concerns regarding the proposed policy.</p> <p>Rule Section 6-6-911  We request DDD amend this section of the rule to be consistent with pages 19 and 21 of the DDD Participant Guide provided during Article 9 Provider Training. The Participant Guide includes an exemption, see excerpts below, for clients residing in their own home, however the rule as written does not. The commenter requests DDD incorporate this language into this section for consistency.</p> <p>(From page 19)  BEHAVIOR PLAN  1. When does an individual need a behavior plan?  a. The team must write a plan:  for anyone prescribed a behavior modifying medication (except if living in their own or family home); or upon team decision to use any technique that requires approval, which includes any of the following:  -techniques that require the use of force,  -programs involving the use of response cost,  -programs which might infringe upon the rights of the individual  -protective devices used to prevent self-injury.</p>	<p>The language quoted by the commenter comes from the Article 9 training manual. This language explains how to implement these rules and, therefore, does not belong in the rules directly. This or similar language will continue to be included in Article 9 training.</p>
--	---

<p>(From page 21)  The use of behavior modifying medications as ordered by a physician, as part of the treatment strategy to address/manage behavioral issues:  NOTE: This does not apply when an individual is living in his/her own home or family home.</p>	
<p>The organization appreciates the proposed update regarding prohibiting the use of behavior modifying medications. The proposed section indicates that a service provider shall not “use Psychotropic Medication as a Chemical Restraint”. Psychotropic Medications are defined as “a behavior-modifying medication that affects a member’s mental status, behavior, or perception”. We recommend DDD keep term “behavior-modifying medication” as opposed to psychotropic medication as it is more specific and accurate representation of the medication used. Psychotropic medication is overly broad and includes mind and emotion, whereas behavior modifying medication only includes behaviors.</p> <p>As a result, the definition would unintentionally restrict a providers ability to use vitamins (i.e. iron), and sleep aides (i.e. Melatonin), in a home health care setting on an as needed basis. Additionally, the way the rule is written, nurses have the ability to make these determinations for PRN medications within the scope of their license in all other settings (i.e. school, hospital, etc.) even if they have doctor’s orders for PRN medication(s). This is a well-known and unintentional Article 9 issue that we hope DDD will address in this rule change to ensure patients who require PRNs can get access to the medications</p>	<p>Although these rules have modernized the language to “Psychotropic Medication,” the intent remains the same. “Psychotropic Medication” is defined to mean behavior-modifying medication that affects a Member’s mental status, behavior, or perception. In other words, a medication can only qualify as a “Psychotropic Medication” under these rules if the medication modifies behavior, whether the medication works by impacting mental status, perception, or behavior directly.</p> <p>The Division’s Behavior Supports Manual provides further guidance that over-the-counter and herbal remedies only constitute Psychotropic Medication when being used for the purpose of behavior modification.</p>

<p>they need when they need it.</p> <p>Should DDD choose to move forward with the definition of psychotropic medications, we request further clarification regarding what specific medications meet this definition and requests that the Department's training materials regarding Article 9 and psychotropic medications be updated and disseminated with this proposed change in regulation.</p>	
<p>R-6-902</p> <p>C(3) How does this apply to services that are BH funded but provided in a DDD funded environment? Example: a FBA that evokes a behavior that is a violation of Art 9?</p>	<p>If the behavior intervention plan includes any type of restricted technique listed in R6-6-904, the DDD-funded provider would need to abide by Article 9 and the restricted technique would need to be written into a Behavior Plan approved by PRC prior to implementation. This is explained further in the Division's Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9.</p>
<p>B. Add PROVISIONALLY APPROVE</p>	<p>As written, this subsection requires that PRC deny or approve a Behavior Plan. To approve a plan can be either full or provisional approval.</p>
<p>C. Although noted as being in R-6-906(B) it is not.</p>	<p>The language in R6-6-906(B) has been revised to clarify that PRC is required to hold a meeting to review and approve or deny Behavior Plans.</p>
<p><del>R6-6-904</del>R6-6-905.ISPP</p> <p>The Planning Team Shall:</p> <p>2. Submit all new or revised Behavior Plans to the PRC for approval;</p> <ul style="list-style-type: none"> <li>● "Behavior Plans" should be changed to "Behavior Plan Packet"</li> </ul>	<p>Although the Planning Team may submit more than just the Behavior Plan to PRC, only Behavior Plan needs to be approved. The Department has retained the word "approval" because that is the ultimate goal of the submission and the ultimate outcome of PRC review even though that may take multiple revisions of the Behavior Plan.</p>

<ul style="list-style-type: none"> <li>○ Behavior Plan Packet includes: State forms, Behavior Plan, Medication Review, PCSP &amp; anything else applicable from the requirements checklist)</li> <li>○ "Approval" should be changed to "review". Not all Behavior Plans submitted are approved. Final Approval</li> <li>○ Approved with required changes</li> <li>○ Disapproved with required changes</li> </ul>	
<ul style="list-style-type: none"> <li>• There are 4-5 Behavior Plan Packets in one session</li> </ul> <p>4. b.</p> <ul style="list-style-type: none"> <li>● Should also include not to request for an extension on the that day the deficiencies (required changes) are due</li> </ul>	<p>The Planning Team may submit a request for an extension at any time under these rules. PRC should not grant the extension if that would not be in the best interest of the Member in accordance with R6-6-9(C)(3)(c). Timing of the request for extension may be a consideration when determining whether the extension would be in the best interest of the Member.</p>
<p>R6-6-906. Program Review Committee (PRC)</p> <p>3.b. The PRC shall only provide provisional approval for up to 10 Business Days. After 10 Business Days, the provisional approval shall expire and the Planning Team shall be required to resubmit the Behavior Plan for PRC approval as in R6-6-905(2).</p> <ul style="list-style-type: none"> <li>● Behavior Plan should be Behavior Plan Packet <ul style="list-style-type: none"> <li>○ Behavior Plan Packet includes: State forms,</li> </ul> </li> </ul>	<p>The purpose of provisional approval is to give the Planning Team the opportunity to correct technical deficiencies in a Behavior Plan as identified by the PRC. The mechanism the PRC uses to communicate these deficiencies is best determined by the PRC based on the multiple factors, including the number and type of the required changes. Likewise, specific details of what needs to be included in the Disposition is better suited to Division policies. These policies are currently being revised to reflect changes and requirements of these rules.</p>

<p>Behavior Plan, Medication Review, PCSP &amp; anything else applicable from the requirements checklist) &amp;</p> <ul style="list-style-type: none"><li>○ Should also state to highlight the changes or indicate on the disposition where changes are found &amp; include the disapproved Disposition with completed section:</li></ul> <p><i>If changes are required, submit the changes and a copy of this disposition to the District where the PRC was held. If the plan was disapproved, complete this section when submitting the changes. I confirm that all changes were completed as required: Yes No</i> Writer's Initials:</p> <p>Please highlight changes or indicate on disposition which pages changes are found. See page 3 for EOE/ADA disclosures</p> <ul style="list-style-type: none"><li>● Some providers are asking where is this on policy that they have to complete this section and include the disposition on the resubmission</li><li>● Some providers will only submit the Behavior Plan without the rest of the packet documents</li><li>● If a Behavior Plan is disapproved, the Behavior Plan Packet needs to be resubmitted with the required changes and a new team agreement form.</li></ul>	
--	--

<ul style="list-style-type: none"> <li>Approval should be review</li> </ul>	
<p><b>R6-6-911.</b> <del>Behavior-modifying Medications</del> <u>Psychotropic Medication</u></p> <p>(B)(2)(c).          Provided to the <del>Program—Review Committee</del> <u>PRC</u> and the <del>Human Rights Committee</del> <u>IOC</u> within 15 <del>working days</del> <u>Business Days</u> for review of screening results that are positive.</p> <ul style="list-style-type: none"> <li>Could it also state to provide the AIMS test form and Medication Review             <ul style="list-style-type: none"> <li>Some providers just email stating there was a positive score</li> </ul> </li> </ul>	<p>The Division’s Behavior Supports Manual provides more detail about what constitutes “screening.” This may include an AIMS test and a medication review.</p>
<p>E. The Service Provider shall notify the PRC within 15 Business Days of any increase or introduction of Psychotropic Medication for a Member.</p> <ul style="list-style-type: none"> <li>If PRC Chairs are not reviewing medication changes why is PRC being notified?</li> </ul>	<p>Although PRC does not review the medications, PRC reviews the Behavior Plan which must address the use of Psychotropic Medications so PRC must be made aware of any changes that are made.</p>
<p>Emergency measures B.3 Request that the case managers Alert the Support Coordinator reconvene of the need to convene the ISPP team Planning Team to determine the need for a new or revised behavior treatment plan Behavior Plan when any emergency measure Emergency Measure is used two or more times in a 30-day period or with any identifiable pattern. Recommend that the Division track/trend/notify the support coordinator as well as QV track/trend</p>	<p>Procedures that govern only internal Department processes such as the Division tracking reports and notifying specific Division employees do not belong in rules.</p>
<p>R6-6-901</p>	<p>“Punitive” and “aversive” have the same</p>

<p>B. 3. consider punitive instead of aversive</p>	<p>meaning in this context. “Aversive” is the word used by the National Association of State Directors of Developmental Disabilities Services (NASDDS).</p>
<p>4. consider clarifying “may”</p>	<p>The word “may” is a standard word in rule writing to indicate that an action is permissive and not mandatory.</p>
<p>12. consider other word besides inappropriate, or clarify as inappropriate is subjective</p>	<p>The word “inappropriate” was chosen based on lengthy discussions with and significant input from stakeholders over the years-long rule writing process.</p>
<p>18. consider description instead of written statement</p>	<p>A “written description” and a “written statement” are synonymous. The suggested language would not change the meaning of the definition or add clarity to it.</p>
<p>R6—6-903 A. Exploitation was removed but is still referenced in training (ARS 36-569)</p>	<p>The training requirements under R6-6-908(C) represent minimum requirements. Actual training may cover additional topics. If current training conflicts with these rules, that training will be revised. The statute cited does not mention exploitation.</p>
<p>R6-6-906 A. Concerns with requiring a 5 person panel, could cause a delay in plan reviews a. Can one person represent multiple roles? b. Change shall to may c. BSM policy 906 mentions 3 members</p>	<p>The Department believes that each of the individuals listed in R6-6-906(A) brings a unique perspective that is essential to thorough review of Behavior Plans. The Department requires one representative from each of these categories. An individual may only represent one category on the PRC.</p> <p>This rule refers to composition of the PRC. A PRC quorum is described in the Division’s Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9.</p> <p>The rule and the Behavior Supports Manual numbers apply to two different</p>

	requirements. This rule requires that the PRC be composed of at least five individuals. The Behavior Supports Manual requires that at least three of the five PRC members be present to have a quorum, which is necessary for PRC to take any action.
B. remove, or define in policy - what happens on the PRC side once the plan is received?	Subsection (B) requires PRC to meet and either approve or deny all Behavior Plans. The mechanics of how PRC conducts this meeting is better suited to the Division's Behavior Supports Manual which is published on the Division website and contains Division policies related to Article 9. Subsection (C) outlines what information must be included in PRC's approval or denial of a Behavior Plan.
R6-6-910 A. 1 & 2 not clear – consider adding the least amount of physical intervention	Subsection (A)(1) addresses the amount intervention can be used whereas subsection (A)(2) addresses the intensity of the intervention that can be used. R6-6-910 applies to all interventions and not just physical interventions, but subsection (A)(1) does require use of the least amount of intervention necessary.
B. Consider law enforcement involvement not intervention	In this context, “involvement” and “intervention” are synonymous. The suggested word does not change the meaning of the rule.

**12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

No other matters are prescribed.

- a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

This rule does not require a permit.

- b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

Not applicable

- c. **Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

None

14. **Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable

<u>“Response Cost”</u>	<u>R6-6-101</u>
<u>“Responsible Person”</u>	<u>A.R.S. § 36-551</u>
<u>“Seclusion”</u>	<u>R6-6-901(B)</u>
<u>“Service Provider”</u>	<u>R6-6-901(B)</u>
<u>“Support Coordinator”</u>	<u>R6-6-901(B)</u>
<u>“Unsafe Behavior”</u>	<u>R6-6-901(B)</u>

**B.** The following definitions apply to this Article:

1. “Abuse” means the same as “Abusive Treatment” under A.R.S. § 36-569.
2. “Article 9 Instructor” means an individual approved by the Division to conduct training as outlined in R6-6-908.
3. “Aversive Intervention” means a technique intended to inflict pain, discomfort, or social humiliation to modify behavior.
4. “Behavior Plan” means an integrated, individualized, written support plan which may be based on a Behavioral Health Professional’s provisional or principal diagnosis and assessment of behavior and the treatment needs, abilities, resources, and circumstances of a Member, that includes:
  - a. One or more treatment goals;
  - b. One or more treatment methods;

- c. The date when the Member’s Behavior Plan is to be reviewed; and
- d. The dated signature of the Member or the Member’s legal representative;

5. “Behavioral Health Professional” means:

- a. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:
  - i. Independently engage in the practice of behavioral health as defined in A.R.S. § 32-3251, or
  - ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S. § 32-3251 under direct supervision as defined in A.A.C. R4-6-101;
- b. A psychiatrist, as defined in A.R.S. § 36-501;
- c. A psychologist, as defined in A.R.S. § 32-2061;
- d. A physician, as defined in A.R.S. § 32-1401;
- e. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse;
- f. A behavior analyst, as defined in A.R.S. § 32-2091; or
- g. A registered nurse with:
  - i. A psychiatric-mental health nurse two differentiating certification, or

- ii. One year of experience providing behavioral health services.
- 6. “Business Day” means Monday through Friday, excluding holidays listed in A.R.S. § 1-301.
- 7. “Chemical Restraint” means medication administered as a method of restricting a Member’s freedom of movement, physical activity, or access to the Member’s own body that is not routine treatment for a Member’s medical or behavioral health condition.
- 8. “Emergency Measure” means the one time use of Psychotropic Medication, a crisis team, law enforcement intervention, or Physical Intervention, in an Emergency Safety Situation.
- 9. “Emergency Safety Situation” means unanticipated Unsafe Behavior.
- 10. “Forced Compliance” means a procedure in which an individual is physically made to follow a direction or command.
- 11. “Inappropriate Behavior” means a Member’s actions which a Behavioral Health Professional, Service Provider, or Planning Team reasonably believes to be impeding an individual’s ability to interact in a socially acceptable manner as detailed in behavioral goals put forward in the Planning Document.
- 12. “IOC” means an Independent Oversight Committee, established under A.R.S. § 41-3801.

13. “Managing Employee” means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts the day-to-day operation of a Service Provider.
14. “Member” means the same as “Client” as defined in A.R.S. § 36-551.
15. “Overcorrection” means, for the purpose of this Article, a group of procedures designed to reduce Inappropriate Behavior. Overcorrection includes:
- a. Requiring a Member to improve the environment to a state better than existed prior to the occurrence of the Inappropriate Behavior; or
  - b. Requiring a Member to repeatedly practice a behavior by engaging in effortful behavior directly or logically related to repairing damage caused by the Member’s behavior as a tactic to evoke behavioral change.
16. “Physical Intervention” means a technique used on an emergency basis by an individual who is providing care or service to a Member to restrict the movement of the Member by direct physical contact to prevent the Member from seriously harming self or others.
17. “Planning Document” means a written statement of services that is separate from the Behavior Plan and is provided to a Member, including Habilitation goals and objectives, that is developed following an initial eligibility determination and revised after periodic reevaluations.

18. “Planning Team” means a group of people including:
- a. The Member;
  - b. A Responsible Person;
  - c. The Support Coordinator;
  - d. Other State of Arizona Department of Economic Security staff, as necessary; and
  - e. Any person of responsible age and capacity selected by the Member, Responsible Person, or the Department.
19. “PRN” means administered as circumstances require but not on a regular schedule.
20. “Psychotropic Medication” means behavior-modifying medication that affects a Member’s mental status, behavior, or perception.
21. “Qualified Healthcare Professional” means an individual with the authority to prescribe medication under A.R.S. Title 32.
22. “Seclusion” means, for the purpose of this Article, restricting a Member to a room or area, through the use of locked doors or any other device or method that precludes the Member from freely exiting the room or area, or that a reasonably prudent person would believe precludes the Member from freely exiting the room or area. In the case of a community residence, restricting a Member to the residential site, according to specific provisions of a Planning Document,

Qualified Health Professional's orders, temporary law enforcement directive, or court order, does not constitute Seclusion.

23. "Service Provider" means any individual or entity as defined in A.R.S. § 36-551 as well as Division staff who administer direct services to Members.

24. "Support Coordinator" means the same as "Case Manager" as defined in A.R.S. § 36-551.

25. "Unsafe Behavior" means a Member's action or activity, whether intentional, unintentional, or negligent, that causes a risk of imminent harm to the Member or others.

#### **~~R6-6-901~~R6-6-902. Applicability**

These rules apply to:

- ~~1. All programs operated, licensed, certified, supervised or financially supported by the Division.~~
  - ~~2. All habilitation programs as defined in A.R.S. § 36-551(18), as well as all interventions included in this Article, shall be addressed in the client's ISPP.~~
- A.** This Article applies to all programs operated, licensed, certified, supervised, or financially supported in whole or in part by the Division in accordance with A.R.S. §§ 36-552, 36-2939, or 36-2940, and includes all Behavior Plans implemented or monitored by a Service Provider in accordance with this Article.
- B.** For services provided in healthcare institutions as listed in R9-10-102(A), this Article only applies to the following:

1. Intermediate Care Facilities for Individuals with Intellectual Disabilities; and
2. Nursing Care Institutions;

**C. This Article does not apply to:**

1. Health and medical services authorized under A.R.S. § 36-2939(A)(5);
2. Dental services authorized under A.R.S. § 36-2939(A)(6); or
3. Behavioral Health Services under A.R.S. § 36-2939(A)(2)

**~~R6-6-902-R6-6-903.~~ Prohibitions**

**~~A.~~ The following behavioral intervention techniques are prohibited:**

- ~~1. The use of seclusion (locked time-out rooms).~~
- ~~2. The use of overcorrection.~~
- ~~3. The application of noxious stimuli.~~
- ~~4. Physical restraints, including mechanical restraints, when used as a negative consequence to a behavior.~~

**~~B.~~ The use of behavior modifying medications is prohibited, except as specified in ~~R6-6-909~~, if:**

- ~~1. They are administered on an “as needed” or “PRN” basis; or~~
- ~~2. They are in dosages which interfere with the client’s daily living activities; or~~
- ~~3. They are used in the absence of a behavior treatment plan.~~

**~~C.~~ No person shall implement a behavior treatment plan which:**

- ~~1. Is not included as a part of the ISPP; and~~
- ~~2. Falls under ~~R6-6-903(A)~~, without approval of the PRC.~~

The following are prohibited and a Service Provider shall not:

1. Abuse or Neglect a Member;
2. Use a restricted technique under R6-6-904 with a Member as a negative consequence;
3. Use Psychotropic Medication as a Chemical Restraint;
4. Use Overcorrection;
5. Seclude a Member;
6. Use Physical Intervention, including Mechanical Restraints, when used as a negative consequence for a behavior;
7. Use Aversive Intervention;
8. Use techniques that in intent or execution cause physical or psychological pain or harm to a Member;
9. Use techniques as a form of punishment; or
10. Administer Psychotropic Medication "as needed" or "PRN".

**R6-6-904. Restricted Techniques**

A Service Provider is permitted to use the following techniques when the techniques are included in a Behavior Plan approved by the PRC and only in the manner specified in the approved Behavior Plan:

1. Forced Compliance;
2. Response Cost;
3. Administration of Psychotropic Medication for the purposes of behavior modification unless an exception is granted by the Division; or

4. Restrictions to a Member's rights as specified in A.R.S. § 36-551.01 or other applicable laws.

**~~R6-6-904~~R6-6-905. ISPP Planning Team Responsibilities**

~~Upon receipt of the PRC's response and as part of its development of the client's ISPP, the ISPP team shall either:~~

- ~~1. Implement the approved behavior treatment plan; or~~
- ~~2. Accept the PRC recommendation and incorporate the revised behavior treatment plan into the ISPP; or~~
- ~~3. Reject the recommendation in whole or in part and develop a new behavior treatment plan to be resubmitted to the PRC and Human Rights Committee.~~

The Planning Team shall:

1. Participate in the development of a Behavior Plan to modify a Member's Unsafe Behaviors or Inappropriate Behaviors to improve the Member's quality of life;
2. Submit all new or revised Behavior Plans to the PRC for approval;
3. Submit the current Planning Document and, if available, all Planning Documents from the prior year to the PRC with the documents from subsection (2) of this Section;
4. Upon receipt of provisional approval of a Behavior Plan from the PRC:
  - a. Correct all deficiencies and resubmit the Behavior Plan to the PRC within 10 Business Days; or

- b. If the Planning Team is unable to correct all deficiencies in the Behavior Plan within 10 Business Days, submit a written request for an extension of the provisional approval from the PRC; and
- 5. Comply with the determination of the PRC or participate in redeveloping the Behavior Plan for resubmission to the PRC.

**~~R6-6-903;R6-6-906.~~ Program Review Committee (PRC)**

- ~~A. The ISPP team shall submit to the PRC and Human Rights Committee any behavior treatment plan which includes:
  - 1. Techniques that require the use of force.
  - 2. Programs involving the use of response cost.
  - 3. Programs which might infringe upon the rights of the client pursuant to applicable federal and state laws, including A.R.S. § 36-551.01.
  - 4. The use of behavior-modifying medications.
  - 5. Protective devices used to prevent a client from sustaining injury as a result of the client's self-injurious behavior.~~
- ~~B. The PRC shall be responsible for approving or disapproving plans specified in subsection (A) above and any other matters referred by an ISPP team member.~~
- ~~C. The PRC shall review and respond in writing within ten working days of receipt of a behavior treatment plan from the ISPP team, either approving or disapproving the plan. The response shall be signed and dated by each member present and shall be transmitted to the ISPP team with a copy to the chairperson of the Human Rights Committee for~~

~~review and recommendations at its next regularly scheduled meeting pursuant to R6-6-1701 et seq. The response shall include:~~

- ~~1. A statement of agreement that the interventions approved are the least intrusive and present the least restrictive alternative.~~
- ~~2. Any special considerations or concerns including any specific monitoring instructions.~~
- ~~3. Any recommendations for change, including an explanation of the recommendations.~~

**D.** ~~Each PRC shall issue written reports, as prescribed by the Division, summarizing its activities, findings and recommendations while maintaining client confidentiality.~~

- ~~1. On a monthly basis, report to a designated Division representative, with a copy to the chairperson of the Human Rights Committee.~~
- ~~2. On an annual basis, by December 31 of each calendar year, report to the Assistant Director of the Division of Developmental Disabilities, with a copy to the Developmental Disabilities Advisory Council.~~

**E.** ~~The PRC shall be composed of, but not be limited to, the following persons designated by the District Program Manager:~~

- ~~1. The District Program Manager or his designee, who shall act as a chairperson.~~
- ~~2. A person directly providing habilitation services to clients.~~
- ~~3. A person qualified, as determined by the Division, in the use of behavior management techniques, such as a psychologist or psychiatrist.~~

- ~~4. A parent of an individual with a developmental disability but not the parent of the individual whose program is being reviewed.~~
  - ~~5. A person with no ownership in a facility and who is not involved with providing services to individuals with developmental disabilities.~~
  - ~~6. An individual with a developmental disability when appropriate.~~
- F.** ~~A PRC shall be separate from but a complement to the ISPP team, and the Human Rights Committee established pursuant to R6-6-1701 et seq.~~
- A.** The PRC shall include the following persons designated by the Division:
1. A Division employee who shall act as the PRC chairperson;
  2. A person qualified in the use of behavior management techniques, such as a Behavioral Health Professional;
  3. A member of the IOC;
  4. A Service Provider representative; and
  5. A community member from at least one of the following categories:
    - a. A parent of an individual with a Developmental Disability who is not the parent of the Member being reviewed;
    - b. A person with no personal or professional relationship with the Division;  
or
    - c. An individual with a Developmental Disability.

**B.** The PRC shall hold a meeting to review and approve or deny all submitted Behavior Plans.

**C.** The PRC chairperson shall send the PRC's written determination to the Planning Team within five Business Days of the meeting described in R6-6-906(B).

1. PRC approval of a Behavior Plan shall include:

a. A statement of agreement that the interventions approved are the Least Intrusive interventions and that the interventions are in compliance with R6-6-904;

b. Any special considerations or concerns including specific monitoring instructions; and

c. Any formatting or PRC procedural or documentation changes that are required to be made consistent with the Behavior Plan's provisional approval and prior to the revised Behavior Plan being resubmitted to the PRC for reconsideration of full approval.

2. PRC denial of a Behavior Plan shall include:

a. The reason for denial;

b. Recommendations for changes to the Behavior Plan; and

c. An explanation of the recommendations.

3. The PRC may provide provisional approval that allows the Behavior Plan to be implemented.
  - a. The PRC shall only provide provisional approval for Behavior Plans identified in Subsection (C)(1)(c).
  - b. The PRC shall only provide provisional approval for up to 10 Business Days. After 10 Business Days, the provisional approval shall expire and the Planning Team shall be required to resubmit the Behavior Plan for PRC approval as in R6-6-905(2).
  - c. Upon receipt of a written request for an extension of a provisional approval of a Behavior Plan, the PRC shall grant an additional 10 Business Day extension if doing so is in the best interest of the Member. The PRC shall only grant one extension per Behavior Plan. Upon expiration of the extension, the Planning Team shall be required to resubmit the Behavior Plan for PRC approval as in R6-6-905(2).

**~~R6-6-905~~R6-6-907. ~~Monitoring~~ Implementing Behavior Treatment Plans**

~~Each ISPP team shall specifically designate and record in the ISPP the name of a member of the team, excluding those direct service staff responsible for implementing the approved behavior treatment plan, who shall:~~

- A. After a Behavior Plan is approved or provisionally approved by the PRC, the Division shall identify all Service Providers subject to the Behavior Plan and provide a copy of the Behavior Plan to those Service Providers within 10 Business Days.

**B.** A Service Provider identified in R6-6-907(A) shall:

1. Ensure that the ~~behavior treatment plan~~ Behavior Plan is implemented as approved: by the PRC;
2. Ensure that all ~~persons~~ individuals implementing the ~~behavior treatment plan~~ Behavior Plan have received appropriate training as specified in ~~R6-6-906~~R6-6-908 and as specified in the Member's Behavior Plan;
3. Maintain training records of all individuals specified in R6-6-907(B)(2);
4. Evaluate, at least monthly, collected data and other relevant information as a measure of the effectiveness of the Behavior Plan;
- ~~3-5.~~ Ensure that objective; and accurate data are maintained in the ~~client's~~ Member's record; and
4. ~~Evaluate, at least monthly, collected data and other relevant information as a measure of the effectiveness of the behavior treatment plan.~~
- ~~5-6.~~ Conduct on-site observations of the implementation of the Behavior Plan not less than at least twice per month once per month per Member in each Division-supported congregate setting where the Behavior Plan is being implemented and prepare, sign, and place in the ~~client's~~ Member's record a report of all observations.

**~~R6-6-906~~R6-6-908. Training**

- ~~A.~~ Any person who is involved in the use of a behavior treatment plan shall be trained by the Division or trained by an instructor approved by the Division prior to such involvement.
- ~~B.~~ Initial training shall cover at a minimum:

1. ~~Provisions of law related to:~~
    - a. ~~Interventions; particularly this Article and 42 CFR 483.450 (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State;~~
    - b. ~~Legally mandated rights of individuals with developmental disabilities; particularly A.R.S. §§ 36-551.01, 36-561 and 42 CFR 483.420 (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State;~~
    - c. ~~Confidentiality; particularly A.R.S. §§ 41-1959 and 36-586.01 and 42 CFR 483.410(e)(2) (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State.~~
    - d. ~~Abuse and neglect prohibitions pursuant to A.R.S. § 36-569.~~
  2. ~~Intervention techniques, treatment and services, particularly addressing the risks and side effects that may adversely affect clients.~~
  3. ~~A general orientation to:~~
    - a. ~~Division goals with respect to the provision of services to people with developmental disabilities.~~
    - b. ~~Related policies and instructions of the Division.~~
- C. ~~With respect to the use of interventions, training shall include hands-on or practical experience to be conducted by instructors approved by the Division, using a curriculum approved by the Division, and who have experience in the actual use of interventions as opposed to administrative responsibility for such use.~~

- ~~D. In addition to initial training, the Division shall ensure that refresher training is available as necessary to maintain currency in knowledge and recent technical trends related to intervention for the management of inappropriate behavior.~~
- ~~E. Physical management techniques shall only be used by those persons specifically trained in their use.~~
- ~~F. The following records and documents related to training shall be maintained by the Division for five years and be available for public inspection.~~
- ~~1. A summary of the training plan adopted by the Division in compliance with this Section, including schedules, instructors, topics, and expressed parameters of the hands-on or practical experience component of the training.~~
  - ~~2. Required special knowledge, skills, training, education or experience of the instructors related to managing inappropriate behaviors.~~
  - ~~3. A list of persons satisfactorily completing initial and refresher courses and course dates.~~
- ~~G. The Division shall review the training plan at least every two years for compliance with all applicable provisions of law and Division policy as well as for the protection of clients.~~
- A. A Service Provider shall ensure successful completion of Article 9 training by all:
1. Managing Employees;
  2. Persons who are employed or contracted to provide primary personal care, guidance, or supervision to a Member; and

3. Supervisors of persons employed or contracted to provide primary care, guidance, or supervision to a Member.

**B.** All training under this Article shall be taught by an Article 9 Instructor with a current certification as an Article 9 Instructor from the Division.

**C.** Article 9 training shall include:

1. The requirements, restrictions, and purpose of this Article;
2. Interventions, including those described in this Article;
3. Members' rights as prescribed in statute, rule, and Division policy;
4. Confidentiality requirements; and
5. Division policies and procedures relating to this Article.

**D.** Article 9 training shall be completed:

1. For initial training, within 90 calendar days of hire or before working directly with Members without supervision from someone with a current certification in Article 9, whichever is earlier; and
2. For recertification in Article 9 as directed by the Division.

**~~R6-6-907~~R6-6-909. Sanctions**

~~For programs operated, licensed, certified, supervised or financially supported by the Division, failure to comply with any part of this Article may be grounds for suspension or revocation of a~~

~~license, for termination of contract, employment, or for any other applicable administrative or judicial remedy.~~

The Division may impose sanctions for failure to comply with any part of this Article, including:

1. Suspension or revocation of a license or certification;
2. Termination of a contract;
3. Prohibition against contact with Members; and
4. Any other administrative, contractual, or judicial remedies.

**~~R6-6-908;R6-6-910.~~ Emergency Measures**

A. ~~Physical management techniques employed in an emergency to manage a sudden, intense, or out-of-control behavior~~ Interventions used during an Emergency Safety Situation to manage a sudden, intense, or out-of-control behavior shall be:

1. ~~Use the~~ The least amount of intervention necessary to safely ~~physically~~ manage an ~~individual~~ Emergency Safety Situation;
2. ~~Be used~~ Used only when less ~~restrictive~~ intrusive methods were attempted and were unsuccessful or are inappropriate;
3. ~~Be used~~ Used only when necessary to prevent the ~~individual~~ Member from harming self or others ~~or causing severe damage to property;~~
4. ~~Be used concurrently with the uncontrolled behavior.~~
- 5.4. ~~Be continued for~~ Implemented during the Emergency Safety Situation for the least amount of time necessary; and to bring the individual's behavior under control.

~~6.5. Be appropriate to the situation to ensure safety. Performed only by individuals trained by an instructor currently certified by the Division in the implementation of Division-approved intervention techniques.~~

B. When an ~~emergency measure~~ Emergency Measure, including the use of Psychotropic Medications pursuant to ~~R6-6-909(D); R6-6-911(C)~~ or law enforcement intervention, is employed to manage a sudden, intense, out-of-control behavior, the ~~person~~ Service Provider employing that ~~measure~~ Emergency Measure shall:

1. ~~Immediately~~ As soon as it is safe to do so and within 24 hours, report the circumstances of the ~~emergency measure~~ Emergency Measure to the person designated by the Division and to the ~~responsible person~~ Responsible Person.
2. ~~Complete and provide to the PRC and as prescribed by the Division~~ Provide, within one ~~working~~ Business day Day, a ~~complete~~ written report of the circumstances of the ~~emergency measure~~ Emergency Measure to the ~~responsible person~~ the case manager, the chairperson of the Program Review Committee, and the Human Rights Committee.
3. Request that the case managers Alert the Support Coordinator ~~reconvene~~ of the need to convene the ~~ISPP team~~ Planning Team to determine the need for a new or revised ~~behavior treatment plan~~ Behavior Plan when any ~~emergency measure~~ Emergency Measure is used two or more times in a 30-day period or with any identifiable pattern.

**C.** Upon receipt of an alert specified in (B)(3) of this Section, the Support Coordinator shall reconvene the Planning Team to consider the need for a new or revised Behavior Plan as soon as possible but not later than 30 Business Days after receiving the alert.

**~~C.D.~~** Upon receipt of a written report as specified in subsection (B)(2) ~~above~~, the PRC shall:

1. Review, evaluate, and track reports of ~~emergency measures~~ Emergency Measures taken; and
2. Report, to a person designated by the Division, instances of possible excessive or inappropriate use of ~~emergency measures~~ Emergency Measures on a case-by-case basis for corrective action.

**~~R6-6-909. R6-6-911. Behavior-modifying Medications~~ Psychotropic Medication**

**~~A.~~** ~~The Division shall make available the services of a consulting psychiatrist who shall review cases and provide recommendations to prescribing physicians to ensure that the medication prescribed is the most appropriate in type and dosage to meet the client's needs.~~

**~~B.A.~~** ~~Behavior-modifying medications~~ Psychotropic Medication shall be prescribed and administered only:

1. When, in the opinion of a ~~licensed physician~~ Qualified Healthcare Professional, ~~they~~ Psychotropic Medication will be effective in ~~producing an increase in appropriate behaviors;~~ assisting a Member in meeting the goals of the Planning Document and it can be justified that the need of Psychotropic Medication to assist in meeting these goals ~~harmful effects of the behavior~~ clearly outweigh

outweighs the potential negative effects of the ~~behavior-modifying medication~~  
Psychotropic Medication;

2. As part of a ~~behavior treatment plan in the ISPP~~ Behavior Plan unless there is an exception granted by the Division; and
3. With the informed consent of the ~~responsible person~~ Responsible Person.

**C.B.** The Division shall provide the following monitoring, in addition to that specified in ~~R6-6-905~~ R6-6-907, for all ~~behavior treatment plans~~ Behavior Plans that include the use of a ~~behavior-modifying medication~~ Psychotropic Medication:

1. Ensure that collected data relative to the ~~client's~~ Member's response to the medication is evaluated, at least quarterly, at a medication review by the ~~physician~~ Qualified Healthcare Professional and the ~~member of the ISPP team designated pursuant to R6-6-905, the Service Provider, and~~ other members of the ~~ISPP team~~ Planning Team as needed.
2. Ensure that each ~~client~~ Member receiving a ~~behavior-modifying medication~~ Psychotropic Medication is screened for side effects, and Tardive Dyskinesia as needed, and that the results of such screening are:
  - a. Documented in the ~~client's~~ Member's case record;
  - b. ~~Provided immediately~~ If positive for side effects, provided as soon as it is safe to do so, but no later than 24 hours after the Member experiences the side effect, to the ~~prescribing physician~~ Qualified Healthcare Professional, ~~responsible person~~ Responsible Person, and ~~ISPP team~~ Planning Team for appropriate action ~~if the screening results are positive~~; and

c. Provided to the ~~Program Review Committee~~ PRC and the ~~Human Rights Committee~~ IOC within 15 ~~working days~~ Business Days for review of screening results that are positive.

~~D.C.~~ In the event of an ~~emergency~~ Emergency Safety Situation, a ~~physician's~~ Qualified Healthcare Professional's order for a ~~behavior modifying medication~~ Psychotropic Medication may, if appropriate, be requested for a specific one-time emergency use. The person administering the medication shall, immediately as soon as it is safe to do so and within 24 hours, report it ~~pursuant to R6-6-908(B)~~ the use of Psychotropic Medication as specified under R6-6-910(B).

~~E.D.~~ The Service Provider shall, as soon as it is safe to do so and within 24 hours, notify the responsible person Responsible Person shall, ~~immediately be notified of any changes in medication type or dosage~~ increase or introduction of Psychotropic Medications for a Member.

~~E.~~ The Service Provider shall notify the PRC within 15 Business Days of any increase or introduction of Psychotropic Medication for a Member.

**ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT**

**TITLE 6. ECONOMIC SECURITY**

**CHAPTER 6. DEPARTMENT OF ECONOMIC SECURITY - DEVELOPMENTAL**

**DISABILITIES**

**ARTICLE 9. MANAGING INAPPROPRIATE BEHAVIORS**

**1. Identification of the rulemaking:**

Article 9 contains rules regarding planning for and addressing instances when a Division of Developmental Disabilities (DDD) Member engages in unsafe behavior, including creation of behavior plans and limitations on the use of certain techniques. The purpose of this rulemaking is to improve the standard of care for vulnerable populations and enhance existing safeguards by discouraging the use of punitive and outdated behavior management techniques. These proposed rules reflect current professional standards in the field and encourage development of appropriate behavioral interventions for DDD members. In addition, these proposed rules will make the rules more clear, concise, and understandable by revising definitions and modernizing language. The Department last amended this Article in 1994. A Five-Year Review Report on Chapter 6 was approved by the Governor's Regulatory Review Council on January 5, 2021.

**2. The person to contact to submit or request additional data on the information included in the economic, small business and consumer impact statement:**

Name: Nicole Tolton  
Address: Department of Economic Security  
P.O. Box 6123, Mail Drop 111G  
Phoenix, AZ 85005

or

Department of Economic Security

1717 W. Jefferson, Mail Drop 111G

Phoenix, AZ 85007

Telephone: (480) 647-3107

Fax: (602) 542-6000

E-mail: [rules@azdes.gov](mailto:rules@azdes.gov)

Website: <https://des.az.gov/documents-center/des-rules>

**3. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:**

The persons directly impacted by this rulemaking are the Department, Service Providers, DDD Members, and applicants for DDD services. Most of the requirements of these rules are consistent with current Department practices and, therefore, will not cause a significant increase in costs for compliance either to the Department or to Service Providers, many of which are small businesses. The training requirements may cause the Department to incur some costs related to providing trainings or developing materials for training, as well as monitoring fulfillment of training requirements as appropriate. Additionally, sanctions imposed if training requirements are not met may cause Service Providers to incur some costs from loss of the ability to serve members or the cost of remedying the infraction that led to the sanction. However, the measures in these rules are the least burdensome way to mitigate risk to the health, safety, and dignity of individuals with developmental disabilities and are necessary to provide the most current behavioral management guidance to and for Service Providers.

Consumers who will be directly impacted by this rulemaking are applicants and Members who voluntarily seek services through the Department. This rulemaking does not impose any obligation on the applicant or Member to accept or participate in services without informed consent. Members and applicants will benefit from the increased personal safety and improved protection of personal rights that come from having clear and updated rules with respect to managing unsafe behaviors.

**4. Cost-benefit analysis:**

**a. Costs and benefits to state agencies directly affected by the rulemaking:**

There is no significant fiscal impact to state agencies directly affected by the rulemaking. There is no significant programmatic or membership change anticipated as a result of these changes.

**b. Costs and benefits to political subdivisions directly affected by the rulemaking:**

This rulemaking has no economic impact on political subdivisions; therefore, there is no cost or benefits to political subdivisions by this rulemaking.

**c. Costs and benefits to businesses directly affected by the rulemaking:**

Not applicable

**5. Impact on private and public employment:**

None

**6. Impact on small businesses:**

**a. Identification of the small business subject to the rulemaking:**

There will be minimal negative impact on small business. Service Providers contracted with the Division are subject to these rules and the requirements of the

rules. The requirements for training and monitoring of Members by Service Providers were already present in the original rule. To the extent that training requirements are more specific, small businesses may incur minimal costs associated with ensuring staff have met training requirements. In addition, there may be costs associated with sanctions imposed because of the potential inability to serve Members or associated with remedying the issues that led to the sanction. Neither training requirements nor sanctions are new to these rules, but both are more clearly delineated in these proposed rules.

**b. Administrative and other costs required for compliance with the rulemaking:**

There are minimal administrative or other costs required to comply with this rulemaking. The potential administrative costs include development of updated training materials and monitoring of compliance with improved training requirements.

**c. Description of methods that may be used to reduce the impact on small businesses:**

**i. Establish less costly or less stringent compliance or reporting requirements:**

Not applicable.

**ii. Establish less costly schedules or less stringent deadlines for compliance:**

Not applicable.

**iii. Consolidate or simplify compliance or reporting requirements:**

Not applicable.

**iv. Establish separate performance standards:**

Not applicable.

**v. Exempt small businesses from any or all requirements:**

Not applicable.

**7. The probable cost and benefit to private persons and consumers who are directly affected by the rulemaking:**

No cost is associated with this for private persons or consumers. This Article provides a framework and criteria for safe and dignified methods to provide care to vulnerable individuals with developmental disabilities who also have behavioral health challenges. These proposed rules will significantly benefit these individuals by providing clearer guidelines for what is permitted and what is prohibited when providing care, and by better safeguarding the health, safety, welfare, and rights of individuals with developmental disabilities.

**8. Probable effects on state revenues:**

None

**9. Less intrusive or less costly alternative methods considered:**

There is no less intrusive or less costly method of achieving the objectives of the rulemaking.

**a. Monetizing of the costs and benefits for each option:**

Not applicable

**b. Rationale for not using non-selected alternatives:**

Not applicable

**10. Description of any data on which the rule is based:**

Not applicable

GRRC - ADOA &lt;grrc@azdoa.gov&gt;

**DES/DDD Article 9 Study for GRRC from District Central Independent Oversight Committee**

---

Linda Mecham &lt;lsmecham@yahoo.com&gt;

Sun, Nov 27, 2022 at 11:00 PM

To: "grrc@azdoa.gov" &lt;grrc@azdoa.gov&gt;

To Nicole Sornsin, Simon Larscheidt, and Members of the GRRC Committee:

By way of introduction, I am Linda Mecham, currently serving as DDD District Central IOC Chair. Our son, Mark, was served by DDD for 43 years, until his passing last year. I got involved with the IOC (then, the Human Rights Committee) because I had an issue with Mark's Day Program Provider. I presented our issue to the Committee, the Committee thought they could help, and then invited me to join. That was in 2002.

For nearly 40 years, Article 9 has been the guiding light for not only all things DDD in the state of Arizona, but also a template that many other states have followed to insure that these individuals with developmental disabilities/intellectual disabilities, are treated with respect and dignity, rather than the institutional model which was rampant with abuse and neglect, as well as physical and chemical restraints. As the years have passed, and as more information has become available regarding the many issues these individuals face in their daily lives, policy has been updated to reflect the needs, That has always worked because Article 9 is Principle based. Because Article 9 is a basic set of principles, that allow for change, through either additions or deletions to policy, to fit specific needs or circumstances as they arise, changes in (or complete rewrites to) the original Article 9 are totally unnecessary because Article 9 establishes the parameters for the what can and cannot be done. Those basic

parameters do not change in order for anyone to have a life of dignity and respect.

The path the IOCs have taken to get us to this point has been a rocky one. DDD told us that they did not think we were working with them in good faith. I was involved with the second rewrite. While serving on that committee, and because we were making changes to the "Attorney General" approved rewrite, I asked if this rewrite would need to go back to the Attorney General's office. I was told that it never went to the AG's office, whereas we were told previously that it was at the AG's office for their review. When I questioned that, I was told that DDD's internal stakeholders reviewed it. We were never told who the internal stakeholders were, or their expertise, either DDD or legal. I soon realized that not only were we working on Article 9, but we were also working on the policies to support the new Article 9. I felt that was presumptuous, as we didn't even have the Article 9 approved, and that if they were truly working within a time frame for completion from ADOA, how did they have time to write policy? (No answer to that question.) Upon completion of the second rewrite, which was several months ago, we continued to ask DDD how the Article 9 update was progressing. We were repeatedly told it was in progress. In our recent Statewide IOC meeting, we asked DDD Director Zane Garcia-Ramadan about the Article 9 update. He told us it had been sent to GRRC! We were stunned. In the "spirit of working together", and for all of the time we had invested in Article 9, we thought we were going to be able to review it before it went to GRRC. I don't know if DDD is required by law to put the second rewrite out for public comment, but given the negative comments from families, agencies, and providers, I thought that DDD should have done that. Article 9 affects everyone in the DDD community, and if so many people are willing to take the time to send in comments, I would think that in "good faith", DDD would present the final document to the public. MANY changes needed to be made. Zane did tell us,

after announcing that it had been sent to GRRC, that he would send us a copy of the final draft, which he did a few days later, and that he would also let us know when it was coming up for review by GRRC. I bookmarked GRRC in the Google search so that I could check on it myself...I didn't trust him to let us know.

Senator Barto suggested that I send our Annual Report to you so that you can have a glimpse into what we do, as well as an extensive review of both Article 9 and the Abuse and Neglect curriculum for the Members. We have been very involved in both of these in order to protect the members. The Article 9 report contains our comments and concerns for the original rewrite, and the Abuse and Neglect curriculum attachment also has our questions, DDD's non answers, and then our follow-up questions to them. The bottom line was that this inappropriate curriculum was presented to the DDD individuals in the Day Program setting (generally, and per policy) for a year, and then they would review it. The only data they collected was whether a DDD member took the curriculum. We have had many reports from parents regarding the inappropriate behavior that is new to their child/adult that was not being displayed prior the presentation of this curriculum.

I realize that the Abuse and Neglect curriculum is not the issue at hand. I included it in our annual report because it is something we have been heavily involved with for the past 15 months. I point it out to you as a illustration of how DDD has "listened" to us, but then continues to implement something that is clearly wrong for these DDD individuals. I fear that if the current version of Article 9 goes through, the doors are unlocked to returning AZ back to institutional homes for these precious individuals who have potential for growth, for opportunity to experience life, and to be loved in a home environment, whether their natural homes or in a group setting with individuals who become their families. Article 9, as it currently exists, provides for that, and has for the

past 40 years. It is the backbone of everything the IOCs do, everything we read, and everything we defend. It still works. I have likened it to my friends and colleagues..."Article 9 is like the Ten Commandments. They are old, but they are still relevant."

I look forward to being able to express some thoughts at Tuesday's meeting. I don't know how to sign on to do that, but would very much like to do so.

Thank you,  
Linda Mecham

## INDEPENDENT OVERSIGHT COMMITTEE

November 1, 2022

The Honorable Karen Fann  
President, Arizona State Senate  
1700 West Washington Street  
Phoenix, Arizona 85007

The Honorable Russell Bowers  
Speaker, Arizona House of Representatives  
1700 West Washington Street  
Phoenix, Arizona 85007

Dear President Fann and Speaker Bowers,

On behalf of the DDD Central Independent Oversight Committee, please find the 2021-22 Annual Report that outlines our committee's activities and recommendations. The report was prepared in accordance with the requirements of A.R.S. § 41-3804(H).

Thank you for your continued support of the committee volunteers that are protecting those in need.

Sincerely,  
Linda S. Mecham  
Chair

cc: Nancy K. Barto, Senate Health and Human Services Committee Chairman  
Jami Snyder, Director of Arizona Health Care Cost Containment System  
Mike Faust, Director of Arizona Department of Child Safety  
Don Herrington, Interim Director of Arizona Department of Health Services  
Michael Wisheart, Director of Arizona Department of Economic Security

Debbie Stapley, Parent/Advocate

Carolyn Wilmer, Family Member/Health Care

Lisa Witt, School Psychologist/Family Member

Euarda Yates, Parent/Advocate

The District Central Independent Oversight Committee reviews, by law, all incidents of abuse, neglect and human rights violations of the members who reside in Central Arizona. Revised Statute 41-3801 defines and explains the duties of the Independent Oversight Committees:

**A. The independent oversight committee on persons with developmental disabilities is established in the department of administration to promote the rights of clients who are receiving developmental disabilities services pursuant to title 36, chapter 5.1.**

**B. The committee shall be organized pursuant to this section and the requirements of section 41-3804.**

**C. The director of the department may establish additional committees for each district office established pursuant to section 41-1961 or to oversee the activities of any service provider.**

**D. Each independent oversight committee established pursuant to this section shall consist of at least seven and not more than fifteen members appointed by the director of the department with expertise in at least one of the following areas:**

- 1. Psychology.**
- 2. Law.**
- 3. Medicine.**
- 4. Education.**
- 5. Special education.**
- 6. Social work.**
- 7. Criminal justice.**

**E. Each independent oversight committee shall include at least two parents of children who receive services from the division of developmental disabilities.**

**F. The division of developmental disabilities shall provide to each independent oversight committee information regarding incidents of:**

- 1. Possible abuse or neglect or violations of rights.**
- 2. Physical abuse, sexual abuse and other abuse.**
- 3. Accidental injury.**
- 4. Missing clients.**
- 5. Behavioral emergency measures.**
- 6. Medication errors, including theft of medication or missing medication.**
- 7. Death.**
- 8. Suicide attempts.**
- 9. Hospitalizations.**
- 10. Incarcerations.**
- 11. Theft of client property or money.**
- 12. Property destruction.**

**G. The Division of Developmental Disabilities in the Department of Economic Security must allow the Independent Oversight Committee on persons with development disabilities thirty days to review new policies and major policy changes before the Division submits the policies or changes for Public Comment.**

This Fiscal Year, there were 7,758 Incident Reports for District Central IOC, while the number of Members served in District Central was 9,643, as of June 30, 2022. Additionally, 447 Behavior Treatment Plans were reviewed in District Central.

### **DDD MEMBERS WITH EXTREME BEHAVIORS/ARIZONA STATE HOSPITAL**

As the IOC reviews both the Incident Reports and the Behavior Treatment Plans, we become aware of issues that need to be addressed. One such issue was the fact that 2 District Central Members served by the Division are currently residing at the Arizona State Hospital. They are not given the opportunity for Active Treatment, they are locked in seclusion, and per the Incident Reports, are heavily medicated to control their behaviors and activity. We have been informed that because of the severity of the behaviors, it would be inappropriate to house these individuals outside of ASH. We are currently requesting a quarterly update on these individuals. Additionally, because Active Treatment is not being offered, and because they are not Cognitively able to understand why mechanical restraints are used on them or why they are in locked seclusion, (both of which are prohibited for DDD Members per Article 9, because Article 9 does not apply to ASH), we are asking the Division several questions: How much money is being sent to ASH to care for these individuals? Could this same amount of money be used to provide a setting (home) outside of ASH where they could get the rights afforded to them per Article 9, and still be in a safe environment, both for them and the community? This issue is a fairly new one, and we will continue to pursue it in the coming year. We are also in early discussion with the ASH IOC as well.

In addition to the two members at ASH, it has also been a concern that there are DDD members who have severe behavioral health concerns and that it is very difficult to work with them in the group home setting. After reading the Behavior Treatment Plans, and reviewing them in the Program Review meetings, the strategies and methodologies in the plan are not working with some of these individuals. These members are also taken to ASH, which is also very concerning. We believe that facilities are needed which can be locked, and then hire staff who have received a higher level of training for this complex level of care. DDD has a step-down unit, but it is currently occupied. There needs to be more than just one. When we asked DDD if anyone is looking into a resolution for these members with the severe behaviors, we were told that DDD leadership is working with the leadership from the two health plans (United Healthcare and Mercy Care) to be able to develop better residential options for DDD members who have these more extreme challenges. There are options involving "step-down" units for behavior, but, as stated previously, vacancy is a problem. Per DDD, This is a big topic and warrants additional conversation at a broader level with the Health Plans. Group Homes are staffed with individuals that are not trained to deal with these extreme behavioral needs. This is an issue District Central IOC will continue to pursue.

Another possible solution to this issue, as discussed by one of our IOC members, is that she is working with a group of mental health practitioners who are training to serve our DDD members. The goal is to provide an acute care system that bridges care after hospitalization, providing temporary placement for DDD members, better care in and reduced stays at an ER, as well as placement for lower IQ, aggressive individuals.

## **TRANSGENDER ISSUES IN GROUP HOMES**

Through attendance at Program Review Committee, we became aware of two members who are dealing with transgender issues. We have asked what DDD's policy is on transgender members in group homes. The staff expressed difficulties working with these individuals, and that they were not equipped to work with them. This is an issue we will continue to pursue in the coming year.

## **CLIENT FUNDS AND SERVICES**

A pretty consistent issue that is noted while attending Program Review Committee is that the Member's funds are over the \$2,000.00 limit, as allowed by AHCCCS/ALTHCS. The Spending Plans that we see are those members whose representative payee is either a Public Fiduciary or DDD. If ALTHCS reviews the bank account, and the member is over the threshold, the member could lose all services. AHCCCS/ALTHCS has been very lenient during the COVID period, and given the fact that most members received additional funds during this time. However, they are starting to request accountability again, and it would be devastating for the members to lose all services, through no fault of their own. The DDD policy, as we understand it, is that Client Funds notifies the team when the funds are at \$1000.00, to begin a spend-down plan. At \$1500, they team is notified again and the spend down should be completed before the individual reaches the \$2000. The problem was that the Support Coordinators were not given access to the member's accounts in order to review. All information came from Client Funds. Recently, access to view the Member's account was "unlocked" to the Support Coordinator, which allowed a more timely review of funds so that a timely spend down can occur if needed. Additionally, a new policy is out for public comment at this time regarding this issue, and that the Support Coordinator is allowed to approve expenditures up to \$499. Any expense above \$499 will need a supervisor's approval. I would like to think that District Central IOC bringing this issue to DDD's attention had something to do with the new direction and policy!

## **DENTAL CARE CONCERNS AND SEDATION**

District Central IOC was contacted by a family who was having difficulty getting dental treatment for their son, who is an individual served by DDD. We discovered that many dentists state that if the patient has a trach or any serious medical concerns, the treatment would need to be performed at a hospital.

Currently, St. Joseph's Hospital is the only hospital that offers this service. However, because the reimbursement from the health plans is not sufficient, St. Joseph's limits the number of dental cases performed. There are many members on the waiting list. This issue has been elevated to AHCCCS as a care concern.

A representative from United Healthcare reported that they are working closely with AHCCCS through updates from DDD for other ways that dental and anesthesia can be provided outside of a dental office and in an operating room or a facility that provides the same services available and allows the dental provider as well as an anesthesiologist to come on board and provide services. Banner is a current partner and they are currently discussing opportunities, but the health plans are also working with St Joseph's to gain more information as to how or why there has been a limitation

on providing dental services. The health plans are also working with the dental college, as well as other facilities who would be willing to work with an anesthesiologist. Prior authorizations are being received by United Health Care, and they will follow through until the services are provided, working to ensure that the appointments are scheduled in a timely manner.

### **AMMONIA TOXICITY FROM DEPAKOTE (VALPROIC ACID)**

District Central IOC received a report from a member that her son was in the hospital due to Ammonia Toxicity from his medication, Depakote. As the committee continued the discussion, it was learned that of the 11 members on the committee, 5 of us had a son or daughter, on Depakote, and 4 of the 5 had been hospitalized for ammonia toxicity. The 5<sup>th</sup> member's doctor had her daughter's blood serum levels regularly checked for the toxicity. By the time we could get a doctor's attention that this was not normal behavior, hospitalization was needed. We determined that if this issue was affecting nearly half of our committee, it should be an issue elevated to Dr. Dekker, DES medical director. He was kind enough to come to our next meeting, having researched the subject, including the number of DDD members taking Depakote. He reported the seriousness of the side effects, and that about 20% of the members could be affected by this medication. In addition to the information that was sent out by DES/DDD to families and providers to be aware of this medication and possible side effects, we, as IOC members sitting on the Program Review Committee, notice if a member is taking Depakote. If he is, we remind the team of the importance of getting the serum levels in order to prevent the ammonia toxicity. (A build-up of ammonia in the liver)

### **PAIN SCALE**

The Pain Scale is a topic that we have been discussing for several years. We sent a letter to DDD, requesting information on the pain scale assessment tool, and were told that there was, at that time, no pain scale assessment tool. It was recommended that DDD implement this into the system. There are times when DDD members have behaviors, but the team needs to make sure that the behaviors are not because of pain. Most often, the only way to determine this is through the use of a pain scale. Frequently, behaviors are treated with medication, and then more medication, however the cause could be because of pain, which is not resolved with the introduction of more psychotropic medications.

Because we have been discussing this for several years, to no avail, District Central IOC made a motion, listing our concerns, and requesting that DES/DDD develop a pain scale, also a section in the "Risk Assessment" section of the Person Centered Planning Document, which indicates that in some situations, members who are non-verbal, may communicate by hitting themselves to indicate they are in pain. A written explanation in the Planning Document of what the pain indicators are should also be included so that staff will not automatically assume the member is having a behavior and that there is a need for additional medication.

Dr. Dekker attended the following meeting, expressed his appreciation for bringing this important issue to his attention, and then explained several pain scale assessments that could be implemented for the members served by the Division, depending on cognitive

and language skills, leaning heavily towards the FLACC scale, (Face, Legs Activity, Cry, and Consolability) for DDD members.

Additionally, Arizona Senate Bill 1162 (from this last session, thank you Senator Barto!) provides that the pain management providers that are working with known chronic pain members can continue to prescribe pain medication without fear of prosecution. Also, The US Supreme Court determined that pain management is a human right and that as a right it cannot be taken away. The member can be treated for pain if the parent or guardian asks for a stronger than prescribed pain medication. This can no longer be blocked.

Because of this recent ruling, we will request that because pain management is a human right, that it be added into DDD policy as well as Article 9.

### **POST COVID RETURN TO DAY PROGRAMS**

It was learned that in spite of CDC guidelines and the American Disability Act, there were still Day Programs that were not allowing members to attend unless masks were worn. Many members served by the Division do not understand the rationale for masks, are tactically sensitive and cannot wear a mask, or have breathing issues where the mask is inappropriate. When the agencies were contacted by parents, informing them that they were not in compliance with the CDC guidelines, as well as violating the ADA, they still refused attendance unless the member was wearing a mask, all day. Even though this was brought to DDD's attention, the issue continued. Families and group homes either kept the member at home, or found other placement if available.

Another issue that came to our attention was that because of staffing issues, members could not return to the Day Program or Work program, especially if that member had an enhanced ratio staffing.

DDD is using the American Rescue Plan funds to increase the direct care staff salaries, so hopefully that will allow more members to return to their Programs.

### **PERSON CENTERED SERVICE PLAN**

DDD has adopted a new document, which will replace the former Individual Service Plan, and is now called the Person Centered Service Plan. DDD reported that this document is a plan that AHCCCS built, with other managed care organizations. Our IOC was concerned with several items: that this new document loses some of the important information that was formerly in the Individual Service Plan, and in our opinion, is necessary to include in order to have a complete picture of the individual, such as "History of the Individual" and "What Works and Doesn't Work for Me". Additionally, the Spending Plan is located in a drop down menu, and often times the Support Coordinator is not aware that it is available, and so it is missing. There needs to be additional training for the Support Coordinators, and families need to be aware of the changes. For example, if information from the old ISP is not included in the new PCSP, a family can request that it be included. However, this requires a very active, diligent, and aware parent/guardian to realize the difference. DDD should make this information available to families.

Previously, in the 90 day meetings which review and update the Person Centered Service Plan, required by AHCCCS, unless it was the Annual Review, the meetings only took about 15-30 minutes. With the new PCSP, the meetings are lasting approximately 2 hours, every 90 days.

Additionally, the Behavior Treatment Plan contains information that the PCSP does not contain. However, not every member has a Behavior Plan. District Central would like to see consistent information required for each member. The only way to ensure that this happens is for it to be included in the Person Centered Service Plan.

### **ARTICLE 9**

District Central has been actively involved in the drafts of the proposed Article 9. Attached to this Annual Report are the questions and concerns that we had regarding the proposed Article. In spite of repeatedly asking what the current status is, DDD's response is that they have no updates since the second Public Comment time period expired. We are still waiting for and extremely interested in the final draft, as Article 9 is the basis for what we, as an Independent Oversight Committee, follow to ensure that the rights and protections of the individuals served by the Division of Developmental Disabilities are secure and in place.

### **ABUSE AND NEGLECT CURRICULUM**

As a result of the sexual abuse and resulting pregnancy of a DDD Member, residing at Hacienda, Governor Ducey requested a curriculum for abuse and neglect awareness. A committee was formed, which determined a curriculum for Providers and Staff (Direct Care Workers) which would provide guidelines to recognize, avoid, and report any incidents of abuse and neglect. In addition to the curriculum for the Providers, a second curriculum was adopted from the state of Massachusetts, for the Members served by DDD.

District Central IOC has no issue with the curriculum for the Providers. We do, however, have many concerns about the curriculum for the Members served by the Division. We did not become aware of this curriculum until after it had become policy and was actually being distributed and taught. We discovered that the portion of Policy for the Member Curriculum that went out for Public Comment was merely a summary of the curriculum, not the content in its entirety. Upon review of the content, we noted that, first, it is twice as long as the curriculum for the Providers. The examples used to explain a point are extremely beyond the cognitive levels of the general DDD population. Secondly, the policy states that while the curriculum for the Providers MAY be used, the curriculum for the Members MUST be used in teaching the curriculum. (It cannot be tailored for the needs and cognitive level of the individual being taught.)

Additionally, the course will be taught in the Day Program. Our concern was who would be teaching this curriculum? What credentials does the instructor have? What if there are PTSD effects that result from this curriculum? (If a member has been previously abused, would this curriculum trigger memories that most Direct Care Staff providers are not equipped to handle?)

When we asked DDD what data they were collecting as a result of this curriculum, the response was *whether the member had taken the course or not*. We were speechless! No additional data, such as post-instructional behaviors that are new.

We were instructed to draft our questions and send them via a motion to the DDD Director. We did, and the responses from DDD were less than satisfactory. IOC was then told that our recourse was to have a phone conversation with the Director, which we did. At this point, the curriculum had been in circulation for about 6 months. We were told, basically, that they were going to continue to present the curriculum until the one year anniversary. (July 2022) At that point DDD would have the curriculum go out for Public Comment again, at which point changes could be made.

During the past year, we have read Incident Reports and have heard from parents that their child is now exhibiting new sexual behavior. When we asked if Quality Management could follow up with whether the individual named in the Incident Report had taken the Course, we were told that it was beyond their “scope of investigation”. When we elevated this concern, we were told that “Behavioral Health was involved.”

The guardians must give permission for this curriculum to be presented to the individual. We have spoken to numerous parents who weren’t even aware of what the curriculum was. As previously state, the Member Curriculum content that went out for Public Content was a SUMMARY of the content, so even if a parent was following the new policies being adopted by DDD, they would not have been able to review the entire content. (We still have not received an answer to our question as to whether a “summary” of a policy is sufficient to meet the legal standards of notification prior to adoption.) We shared the link with the families (which is difficult to navigate) and many contacted us to thank us for sharing the information and, upon their review, noted that permission would not be given. Regarding the permission forms, each agency created their own form. One form was 3 pages long, which included the link for the curriculum, as well as additional sites for better information; a second form was one page, which included the link; a third form was a simple permission form which contained no information regarding the curriculum. We suggested that DDD provide a consistent permission form, especially to reduce liability, as well as collect more data than just attendance.

Just to give you an example of the activities used to present the concepts: the Member is handed an umbrella and told to hold the umbrella over his/her head. The Presenter then throws popcorn on top of the member. The Member is supposed to understand the *symbolism* in this activity: The umbrella represents the information in the course, that will protect him/her from being abused. The popcorn represents the abuse from which they are being protected. This is an abstract concept symbolically, and not one that easily comprehended by most DDD members.

There are concepts taught in this curriculum, slides presented, and activities to participate in, which could so very easily introduce ideas not yet considered by the members (i.e. suicide), or trigger PTSD reactions that a Day Program staff is not prepared to address. Also, as stated previously, the Provider curriculum is not the same as the Member curriculum, which leads us to ask, “Who is training the Instructor to present this curriculum? Does the Instructor take both classes, as they are different? Why is there a need for two different curriculums?”

Needless to say, District Central is VERY CONCERNED about this curriculum. Our questions, DDD's responses, and our follow-up questions are attached to this document.

### **LEGISLATIVE ASSISTANCE**

As a result of not being aware of the Abuse and Neglect Concern, and knowing that the Developmental Disabilities Advisory Council has a provision regarding notification of Proposed Policies, we asked Senator Barto to propose legislation that would give IOC's the same privileges that the DDAC has regarding the review of policies before they go out for public comment. She did propose (SB 1231 an addition to ARS 38-4101, letter G: The Division of Developmental Disabilities in the Department of Economic Security must allow the Independent Oversight Committee on persons with development disabilities thirty days to review new policies and major policy changes before the Division submits the policies or changes for Public Comment.)

This will give us the opportunity to review the policies, and then meet as a body to discuss and vote on our remarks. When we did not have the additional 30 days, we were not always able to meet as a body to discuss and vote per the Open Meeting Law.

This additional time allows for that.

We thank Senator Barto for her continued support, for her concern for the Members served by the Division, including the Behavioral Health members, and the needs these individuals have for additional care and support. We also thank the entire Legislature for passing the Bills proposed by Senator Barto, and others, and look forward to continued cooperation as we all work to better the lives of Arizona citizens served by DDD.

### **INTRODUCTION OF NEW MEMBERS**

We appreciate the assistance we have received from both DDD and the community as we work to improve and increase our IOC membership. This year we have gained 3 new members, who come with a variety of experience and knowledge, which gives our committee a greater base for understanding and thoughtful discussion as we review Incident Reports and Behavior Plans, while always seeking to protect the rights of the individuals served by DDD.

While we gained three new members, we lost a very dear friend this year, our fearless leader of so many years, Karen VanEpps, who succumbed to breast cancer.

A few tributes from our IOC members:

"Karen Van Epps search for help for her sister with developmental disabilities led to her becoming a champion advocate for all of us the past 40+ years. She tirelessly worked publicly and within the Division of DD recommending and/or changing policy that infringe on the rights of the DD population. Karen always strived for "quality of life" services and the fundamental right to be treated with dignity and respect. Everyone in the community of DD has directly or indirectly benefited from Karen's extensive advocacy. It has been a privilege to have worked with Karen on the Human Rights Committee (now IOC) and we tremendously miss her. " Carol McNulty

“Even though I have a severely disabled daughter that has been in the DDD system for over 30 years, I really didn't know a whole lot about the inner workings of that system. I was asked to join the then titled "Human Rights Committee" by Linda Mecham. I didn't know what I was getting myself into! As I timidly attended my first meeting of the District Central Committee, Karen approached me with a warm welcome, a smile and words of encouragement. She taught me so much! Everyone was always throwing out names and acronyms with ease and I was usually lost, but Karen was always so patient and knowledgeable and answered my questions without making me feel inferior or dumb. I was always in awe of her dedication and enthusiasm as she worked tirelessly for this under-served population. Every time that I mentioned a problem that Amy was experiencing at her group home, Karen went to great lengths to help me find ways to solve the issue. She would call me several days later to see how things were going and if we had resolved the problem. I have always said that even though having a handicapped child is a challenge, with it comes many blessings. One of those blessings was getting to work with and know Karen. She will always be my hero!” Debbie Stapley

“The DDD community lost its most enduring advocate this year. Karen was a friend to all in need, a warm voice on the phone, and the source of calm and reason in sometimes chaotic times. She never wavered in pursuit of bettering lives and in doing what is right above all.” Sherry Howard Wilhelmi

“Karen VanEpps was a true advocate for as long as I knew her. She was involved in getting Partners in Policymaking started in AZ. She was involved in The Arc of Arizona and Arizona Consortium for Children with Chronic Illness. I got to know Karen better working with her on the Human Rights Committee/Independent Oversight Committee. she worked tirelessly for Persons With Intellectual Disabilities and advocated at the AZ legislature for the issues that were an issue raised at HRC/IOC. She put long hours in volunteering in a variety of capacities helping Persons With Intellectual Disabilities and informing members of the committees to be better advocates for Persons With Intellectual Disabilities.” Eva Hamant

“I was having an issue with my son's Day Program. I didn't know if what they were asking me to do was appropriate, so a friend suggested that I attend the Human Rights Committee Meeting. I was very nervous, but presented my concerns. Karen was the chair, and when I finished my remarks, she said she thought they could do something about this and would be getting back in touch with me. As I got up to leave, Karen thanked me for coming, and then asked me if I wanted to join the Committee! I knew about this committee, and no, I didn't want to join!! But I thought that if they were going to help me, the least I could do is join! And that was the beginning of a friendship that I don't think will ever be replaced. I learned that Karen and her Mother were very involved, as were so many others, from the very beginning: in the inception of Article 9, the sale of the Institutions in Phoenix and Tucson, the establishment of the Trust Fund (funds from the property sales), and participated in so many other committees and groups which promote the well-being of DDD Members. Karen knew the history. Karen knew the answers. Karen knew why things were supposed to be “that” way. Karen traveled all over the country, attending seminars and conferences, learning everything there was to learn, and then brought it back to Arizona for us to adopt and implement.

While we are doing our best to carry on in the legacy Karen left us, it will never be the same. District Central IOC, as well as the entire state of Arizona, lost a true friend to us all when she passed away.

We have tried to pick up the pieces, regroup, and carry on, and while we are doing our best, she will be forever missed, and always in our hearts.” Linda S. Mecham

Thank you for taking the time to read through our Annual Report. Please do not hesitate to contact us if you have any questions, concerns, thoughts, or insights that could help us (District Central IOC) as we continually work to promote the protections, welfare, and opportunities for the Individuals served by the Division of Developmentally Disabilities.

Respectfully Submitted,

**Linda S. Mecham**

Linda S. Mecham

DDD District Central Independent Oversight Committee Chairperson

Addendums to our Annual Report

Article 9

Abuse and Neglect

## ADDENDUM #1: ARTICLE 9

Keep this in mind as you read:

RED = original and omitted

Black = original and retained

Black underlined = new

Blue = IOC Comments/Conclusions

### NOTICE OF PROPOSED RULEMAKING TITLE 6. ECONOMIC SECURITY CHAPTER 6. DEPARTMENT OF ECONOMIC SECURITY DEVELOPMENT DISABILITIES

#### PREAMBLE

**2. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):**

Authorizing Statute: A.R.S. 41-1954 (A) (3) and 36-554(C) (6)

Implementing statute: A.R.S. 36-552, 36-554, and 41-1954 (A) (1) (h)

**3. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the record of the proposed rule:**

Notice of Rulemaking Docket Opening: 27 A.A.R. 619, April 23, 2021 (*in this issue*)

**4. The agency's contact person who can answer questions about the rulemaking:**

Name: Christian Eide

Address: Department of Economic Security  
P.O. Box 6123, Mail Drop 1292  
Phoenix, AZ 85005  
or  
Department of Economic Security  
1717 W. Jefferson, Mail Drop 1292  
Phoenix, AZ 85007

Telephone: (480) 340-8303

Fax: (602) 542-6000

E-mail: [ceide@azdes.gov](mailto:ceide@azdes.gov)

**5. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

Article 9 contains rules on Applicability, Prohibitions, ISPP Team Responsibilities, Program Review Committee (PRC), Monitoring Behavior Treatment Plans, Training, Sanctions, Emergency Measures, and Behavior Modifying Medications. The purpose of the rulemaking is to add, amend, and repeal rules to conform to current practice and terminology, and to make the rules more clear, concise, and understandable. The Department last amended this Article in 1994. A Five-Year Review Report on Chapter 6 was approved by the Governor's Regulatory Review Council on December 1, 2015.

#5 Justification to amend or repeal a rule—Make the rule more “concise, clear and understandable—The revision only complicates the language

**6. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation or of justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

The Department did not review or rely on any study relevant to the rules.

#6 Reference to a study relevant to the rule—Department answer—The Department did not review or rely on any study relevant to the rules.

**7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable.

#7 Showing of good cause—DD says not applicable.

**8. The preliminary summary of the economic, small business, and consumer impact:**

The economic impact of the rulemaking is expected to be minimal (less than \$1,000) for all persons involved in the rulemaking and the application process. The persons directly impacted by this rulemaking are individuals who are applicants to the Division of Developmental Disabilities (Division) who voluntarily seek services through the Division. The rulemaking does not impose any obligation on the individual or applicant to accept or participate in services without informed consent. Consumers who apply to the Division will benefit from clear and updated requirements and processes. There are no negative impacts on small businesses as a result of this rulemaking. The Department and members of the public will benefit from the revision of Article 9 because the proposed rulemaking will make the provisions for member's behavior management more clear, concise, and understandable.

#8 Consumer impact—makes management of member's behavior management more "clear, concise, and understandable".

**9. The agency's contact person who can answer questions about the economic, small business and consumer impact statement:**

Name: Christian Eide

Address: Department of Economic Security  
P.O. Box 6123, Mail Drop 1292  
Phoenix, AZ 85005  
or  
Department of Economic Security  
1717 W. Jefferson, Mail Drop 1292  
Phoenix, AZ 85007

Telephone: (480) 340-8303  
Fax: (602) 542-6000  
E-mail: [ceide@azdes.gov](mailto:ceide@azdes.gov)

**10. The time, place and nature of the proceedings to make, amend, repeal, or renumber the rule, or if no proceeding is scheduled, where, when. And how persons may request an oral proceeding on the proposed rule**

**11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A>R>S> 41-1052 and 41-1055 shall respond to the following questions:**

No other matters are prescribed.

a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

This rule does not require a permit.

b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

Not Applicable.

c. **Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

#11. b. No federal law is applicable???

12. **A list of any incorporated by reference material as specified in A>R>S> 41-1028 and its locations in the rules:**

None

13. **The full text of the rules follows:**

## **ARTICLE 9. MANAGING INAPPROPRIATE INTERVENTIONS FOR UNSAFE AND INAPPROPRIATE BEHAVIORS**

### **R6-6-901 Definitions and Locations of Definitions**

- A.** Location of definitions. The following definitions applicable to the Article are found in the following Section or statute:

<u>"Abuse:"</u>	<u>R6-6-901(B)</u>
<u>"Adult Behavioral Health Therapeutic Home"</u>	<u>A.R.S 36-401</u>
<u>"Article 9 Instructor"</u>	<u>R6-6-901(B)</u>
<u>"Aversive Stimulus"</u>	<u>R6-6-901(B)</u>
<u>"Behavior Plan"</u>	<u>R6-6-901(B)</u>
<u>"Behavioral Health Professional"</u>	<u>R6-6-901(B)</u>
<u>"Behavioral Health Respite Home"</u>	<u>R9-10-101</u>

"Behavioral Health Respite Homes" do not exist in DD services

<u>"Behavioral Health Therapeutic Home"</u>	<u>R6-6-901(B)</u>
<u>"Business Day"</u>	<u>R6-6-901(B)</u>
<u>"Case Manager"</u>	<u>A.R.S 36-551</u>
<u>"Chemical Restraint"</u>	<u>R6-6-901(B)</u>
<u>"Developmental Disability"</u>	<u>A.R.S. 36-551</u>
<u>"Direct Care Worker"</u>	<u>R6-6-901(B)</u>
<u>"Division"</u>	<u>A.R.S. 36-551</u>
<u>"Emergency Safety Situation"</u>	<u>R6-6-901(B)</u>
<u>"Escape Extinction"</u>	<u>R6-6-901(B)</u>
<u>"Habilitation"</u>	<u>A.R.S. 36-551</u>
<u>"Independent Oversight Committee" or "IOC"</u>	<u>R6-6-901(B)</u>

<u>"Intermediate Care Facility for Individuals with Intellectual Disabilities"</u>	<u>A.R.S. 36-551</u>
<u>"Least Intrusive"</u>	<u>R6-6-101</u>
<u>"Managing Employee"</u>	<u>R6-6-901(B)</u>
<u>"Mechanical Restraint"</u>	<u>R6-6-101</u>
<u>"Member"</u>	<u>R6-6-901(B)</u>
<u>"Neglect"</u>	<u>A.R.S. 36-569</u>
<u>"Nursing Care Institution"</u>	<u>A.R.S. 36-401</u>
<u>"Overcorrection"</u>	<u>R6-6-901(B)</u>
<u>"Physical Intervention"</u>	<u>R6-6-901(B)</u>
<u>"Planning Document"</u>	<u>R6-6-901(B)</u>
<u>"Planning Team"</u>	<u>R6-6-901(B)</u>
<u>"Program Review Committee" or "PRC"</u>	<u>R6-6-101</u>
<u>"Psychotropic Medication"</u>	<u>R6-6-901(B)</u>
<u>"Quality Management Professional"</u>	<u>R6-6-901(B)</u>
<u>"Response Cost"</u>	<u>R6-6-101</u>
<u>"Responsible Person"</u>	<u>A.R.S. 36-551</u>
<u>"Seclusion"</u>	<u>R6-6-901(B)</u>
<u>"Service Provider"</u>	<u>R6-6-901(B)</u>
<u>"Support Coordinator"</u>	<u>R6-6-901(B)</u>
<u>"Unsafe Behavior"</u>	<u>R6-6-901(B)</u>

**B. The following definitions apply to this Article:**

1. "Abuse" means the same as "abusive treatment" under A.R.S. § 36-569.
2. "Article 9 Instructor" means an individual approved by the Division to conduct training as outlined in R6-6-908.
3. "Aversive Stimulus" means the presentation of an unpleasant stimulus with the intent to induce changes in behavior.
4. "Behavior Plan" means an integrated, individualized, written treatment plan, based on a Behavioral Health Professional's provisional or principal diagnosis and assessment of behavior and the treatment needs, abilities, resources, and circumstances of a Member, that includes:
  - a. One or more treatment goals;
  - b. One or more treatment methods;
  - c. The date when the Member's Behavior Plan will be reviewed;
  - d. The dated signature of the Member or the Member's legal representative; and
  - e. The dated signature of the Behavioral Health Professional.

[Will all behavior treatment plans need to be authored by a BHP, as defined in R6-6-901](#)

[Will all behavior treatment plans require an assessment of behavior?](#)

[Not all BHPs are permitted to diagnosis \(e.g., behavior analyst\)](#)

**5. "Behavioral Health Professional means:**

- a. A. An Individual licensed under A.R.S Title 32, Chapter 33, whose scope of practice allows the individual to:

- i. Independently engage in the practice of behavioral health as defined in A.R.S. 32-3251, or
- ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R. S. 32-3251 under direct supervision as defined in A.A.C. R4-6-101;
- b. A psychiatrist, as defined in A.R.S. 36-501;
- c. A psychologist, as defined in A.R.S. 32-3061;
- d. A physician, as defined in A.R.S. 32-1401;
- e. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse;
- f. A behavior analyst, as defined in A.R.S. 32-2091
- g. A registered nurse with:
  - i. A psychiatric-mental health nursing certification, or
  - ii. One year of experience providing behavioral health services.

“Behavioral Professional” means; a through g None of the “professionals” indicates a knowledge of developmental disabilities.

This will be an access to care issue. Please refer to the number of Qualified Vendors that were approved to provide Habilitation Consultation services to get an estimate on how many Qualified Vendors were conducting assessments and writing plans when the program was funded by DDD. I would also suggest meeting with the health plans to identify how many vendors offer services to adults with an intellectual/developmental disability (I/DD) to determine their capacity. Looking at the number of current behavior treatment plans required for all districts and dividing that by the number of qualified vendor personnel that meet the behavior health professional credentials and that work with people with an I/DD will provide an estimate on if R6-6-901 (B) (4) is realistic.

6. “Behavioral Health Therapeutic Home” means a residence that provides room and board, assists in acquiring daily living skills, coordinates transportation to scheduled appointments, monitors behaviors, assists in the self-administration of medication, and provides feedback to a Support coordinator related to behavioral health services under the clinical oversight of a Behavioral Health Professional.

“Behavioral Health Therapeutic Home” does not exist as a DD option  
Will group homes under the Division become Behavioral Health Therapeutic Homes now?

7. “Business Day” means 8:00 a.m. to 5:00 p.m. Monday through Friday, excluding holidays listed in A.R.S. 1-301.

8. “Chemical Restraint” means medication administered as a method of restricting a Member’s freedom of movement, physical activity, or access to the Member’s own body that is not routine treatment for a Member’s medical or behavioral health condition.

Chemical Restraint—does not prohibit this. This is definitely prohibited in Article 9.

9. “Direct Care Worker” means a person who is employed or contracted to provide primary personal care, guidance, or supervision to a Member in the Service Provider’s care.
10. “Emergency Safety Situation” means unanticipated Unsafe Behavior.
11. “Escape Extinction” means the discontinuation of negative reinforcement for a behavior.
12. “Inappropriate Behavior” means a Member’s actions which a Behavioral Health Professional, Service Provider, or Planning Team reasonably believes to be impeding an individual’s ability to optimally function in society.
13. “IOC” means an Independent Oversight Committee, established under A.R.S. 41-3801.
14. “Managing Employee” means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts the day-to-day operation of a Service Provider.
15. “Member” means the same as “Client: as defined in A.R.S 36.551.
16. “Overcorrection” means, for the purpose of the Article, a group of procedures designed to reduce Inappropriate Behavior, such as:
  - a. Requiring a Member to improve the environment to a state better than existed prior to the occurrence of the Inappropriate Behavior; or
  - b. Requiring a Member to repeatedly practice a behavior by engage in effortful behavior directly or logically related to repairing damage caused by the Member’s behavior as a tactic to evoke behavioral change.
17. “Physical Intervention” means a technique used on an emergency basis by an individual who is providing care or service to a Member to restrict the movement of the Member by direct physical contact to prevent the Member from seriously harming self or others.
18. “Planning Document” means a written statement of services that is separate from the Behavioral Plan and shall be provided to a Member, including Habilitation goals and objectives, that is developed following an initial eligibility determination and revised after periodic reevaluations.
19. “Planning Team” means a group of people including:
  - a. The Member;
  - b. A Responsible Person
  - c. The Support Coordinator;

- d. Other State of Arizona Department of Economic Security staff, as necessary; and
- e. Any Service Provider selected by the Member, Responsible Person, or the Department.

The member should be able to invite anyone they want to join their planning team. The only mention of whom a member can invite is a service provider. What if they want their pastor or a non-DDD funded employer, family friend, etc.

- 20. “Psychotropic Medication” means behavior-modifying medication that affects a Member’s mental status, behavior, or perception.
- 21. “Quality Management Professional” means an individual charged with the evaluation and assessment of Member care and services to ensure adherence to standards of care and appropriateness of services.
- 22. “Seclusion” means, for the purpose of the Article, restricting a Member to a room or area, through the use of locked doors or any other device or method that precludes the Member from freely exiting the room or area, or that a reasonably prudent person would believe precludes the Member from freely exiting the room or area. In the case of a community residence, restricting a Member to the residential site, according to specific provisions of a Planning Document, physician’s orders, or court order, does not constitute Seclusion.
- 23. “Service Provider” means any individual or entity as defined in A.R.S. 36-551 as well as Division staff who administer direct services to Members.
- 24. “Support Coordinator” means the same as “Case Manager” as defined in A.R.S. 36-551.
- 25. “Unsafe Behavior” means a Member’s action or activity, whether intentional, unintentional, or negligent that causes a risk of imminent harm to the Member or others.

### **R6-6-901 R6-6-902. Applicability**

These rules apply to:

- 1. All programs operated, licensed, certified, supervised or financially supported by the Division.
- 2. All habilitation programs as defined in A.R.S. § 36-551(18), as well as all interventions included in this Article, shall be addressed in the client's ISPP.

- A. This Article applies to all programs operated, licensed certified, supervised, or financially supported by the Division in accordance with A.R.S. 36-552, 39-2939, or 36-2940, and includes all Behavior Plans implemented or monitored by a Service Provider in accordance with this Article.

Will behavioral health providers that are funded through Mercy Care or UHC be responsible for following Article 9 if they are conducting a functional behavior assessment (FBA) or a functional analysis (FA) in the members home? If so, how is that going to be communicated to them?

- B. For services provided in healthcare institutions as listed in R9-10-102(A), this Article only applies to the following:
1. Intermediate Care Facilities for Individuals with Intellectual Disabilities;
  2. Nursing Care Institutions;
  3. Adult Behavioral Health Therapeutic Homes; and
  4. Behavioral Health Respite Homes,
  - 5.
- C. For behavioral health services authorized in accordance with A.R.S. 36-2939(A)(2), this Article only applies to:
1. Behavioral Health Therapeutic Homes; and
  2. Behavioral Health Respite Homes.
- D. This Article does not apply to:
1. Health and medical services authorized under A.R.S. 36-2939(A)(5); or
  2. Dental services authorized under A.R.S. 36-2939(A)(6).

### **R6-6-902. R6-6-903. Prohibitions**

- A. **The following behavioral intervention techniques are prohibited:**
1. **The use of seclusion (locked time-out rooms).**
  2. **The use of overcorrection.**
  3. **The application of noxious stimuli.**
  4. **Physical restraints, including mechanical restraints, when used as a negative consequence to a behavior.**
- B. **The use of behavior modifying medications is prohibited, except as specified in R6-6-909, if:**
1. **They are administered on an "as needed" or "PRN" basis; or**
  2. **They are in dosages which interfere with the client's daily living activities; or**
  3. **They are used in the absence of a behavior treatment plan.**
- C. **No person shall implement a behavior treatment plan which:**
1. **Is not included as a part of the ISPP; and**
  2. **Falls under R6-6-903(A), without approval of the PRC.**

#### A Service Provider shall not:

1. Abuse or Neglect a member.
  2. Use a restricted technique under R6-6-904 with a Member as a negative consequence, or
  3. Use Psychotropic Medication as a Chemical Restraint.
- service providers shall not use psychotropic medicines as chemical restrain.  
How will this be enforced?  
A, B,C ABOVE: all eliminated. Reinstate**

### **R6-6-904. Restricted Techniques**

- A. The PRC is prohibited from approving Behavior Plans that include the use of restricted techniques that meet any of the following criteria:
1. Overcorrection as a form of punishment;

2. Seclusion in a room, whether locked or where egress is prevented;
  3. Aversive Stimuli as a punishment;
  4. Physical Intervention, including Mechanical Restraints, as a punishment; or
  5. Techniques that in intent or execution violate a Member's rights as specified in A.R.S. 35-551.01 or other applicable laws, cause physical or psychological pain or harm to a member, or are used as a form of punishment.
- B. A Service Provider may only see the following techniques when the techniques are included in a Behavior Plan approved by the PRC and in the manner specified in the approved Behavior Plan:
1. Escape Extinction;  
escape extinction should never be allowed.
  2. Response Cost;  
mentions response cost, but is not defined in the definition list.
  3. Physical Intervention, including Mechanical Restraints;
  4. Administration of Psychotropic Medication for the purposes of behavior modification unless an exception is granted by the Division; or  
administration of psychotropic medicines for the purpose of behavior modification which seems to be a chemical restraint that is prohibited.
  5. Other techniques identified by the Division or the Planning Team as having the potential to:
    - a. Infringe on a Member's legally mandated rights,
    - b. Cause either physical or psychological pain or harm, or
    - c. Be used as a form of punishment.

Who at DDD would be responsible for approving the use of a psychotropic medication as a PRN? How would the approval or denial be communicated to the Qualified Vendor?

Restricted Techniques, 1 through 5, Remove

Revised R6-6-904. is of concern because with approval from PRC, restricted techniques can now be approved in a Behavior Plan. Those techniques include; Escape extinction, response cost, physical intervention including mechanical restraints and other techniques having the potential to infringe on members rights and protection from harm. The new revision changes the rule on PRN psychotropic medication granting an exception from the Division

#### **R6-6-904. R6-6-905 ISPP Planning Team Responsibilities**

Upon receipt of the PRC's response and as part of its development of the client's ISPP, the ISPP team shall either:

1. Implement the approved behavior treatment plan; or

2. Accept the PRC recommendation and incorporate the revised behavior treatment plan into the ISPP; or
3. Reject the recommendation in whole or in part and develop a new behavior treatment plan to be resubmitted to the PRC and Human Rights Committee.

The Planning Team shall:

1. Participate in the development of a Behavior Plan to modify a Member's Unsafe Behaviors or Inappropriate Behaviors to improve the Member's quality of life.
2. Submit all new or revised Behavior Plans to the PRC for approval.
3. Comply with the determination of the PRC or reject the PRC recommendations and participate in redeveloping the Behavior Plan for resubmission to the PRC.

**R-6-6-905** does not mention including the planning document nor the IR that occurred since the last PRC approved in the BTP. this would help IOC to see if a violation of member's rights and the IR to see if a trend due to the previous BTP alternative behavior/target behaviors.

**Section R6-6-903. R6-6-906 - Program Review Committee (PRC)**

A. The ISPP team shall submit to the PRC and Human Rights Committee any behavior treatment plan which includes:

1. Techniques that require the use of force.
2. Programs involving the use of response cost.
3. Programs which might infringe upon the rights of the client pursuant to applicable federal and state laws, including A.R.S. § 36-551.01.
4. The use of behavior-modifying medications.
5. Protective devices used to prevent a client from sustaining injury as a result of the client's self-injurious behavior.

B. The PRC shall be responsible for approving or disapproving plans specified in subsection (A) above and any other matters referred by an ISPP team member.

C. The PRC shall review and respond in writing within ten working days of receipt of a behavior treatment plan from the ISPP team, either approving or disapproving the plan. The response shall be signed and dated by each member present and shall be transmitted to the ISPP team with a copy to the chairperson of the Human Rights Committee for review and recommendations at its next regularly scheduled meeting pursuant to R6-6-1701 et seq. The response shall include:

1. A statement of agreement that the interventions approved are the least intrusive and present the least restrictive alternative.
2. Any special considerations or concerns including any specific monitoring instructions.
3. Any recommendations for change, including an explanation of the recommendations.

D. Each PRC shall issue written reports, as prescribed by the Division, summarizing its activities, findings and recommendations while maintaining client confidentiality.

1. On a monthly basis, report to a designated Division representative, with a copy to the chairperson of the Human Rights Committee.

2. On an annual basis, by December 31 of each calendar year, report to the Assistant Director of the Division of Developmental Disabilities, with a copy to the Developmental Disabilities Advisory Council.

E. The PRC shall be composed of, but not be limited to, the following persons designated by the District Program Manager:

1. The District Program Manager or his designee, who shall act as a chairperson.
2. A person directly providing habilitation services to clients.
3. A person qualified, as determined by the Division, in the use of behavior management techniques, such as a psychologist or psychiatrist.
4. A parent of an individual with a developmental disability but not the parent of the individual whose program is being reviewed.
5. A person with no ownership in a facility and who is not involved with providing services to individuals with developmental disabilities.
6. An individual with a developmental disability when appropriate.

A. The PRC shall include the following persons designated by the Division:

1. A Division employee who shall act as the PRC chairperson and who is a non-voting member of the PRC;

The PRC is not a voting member but should be a voting member as usually the person most trained by DDD.

2. A person qualified in the use of behavior management techniques, such as a Behavioral Health Professional;
3. A member of the IOC;

IOC is mentioned as required attendance, but IOC are volunteers and don't always have the free time, especially if they work or have a child/adult with IDD. Maybe mileage or a stipend would incentivize attending since reading and attending PRC is over the 10 hrs. AOA suggests for IOC volunteers.

Article 9 now requires an IOC member to be on the PRC committee. IOC members are volunteers. How will the district cope with the fact that we don't have enough IOC members to volunteer their time for PRC meetings?

4. A Quality Management Professional; and

What are the qualifications for someone to be considered a quality management professional? Per the definition located in R6-6-901 (B) (21) there are no specific certifications or training required.

5. A community member from at least one of the following categories:

- a. A parent of an individual with a Developmental Disability who is not the parent of the Member being reviewed;

- b. A person with no other personal or professional relationship with the Division;

or

- c. An individual with a Developmental Disability.

Is the community member a mandatory attendance and how will DDD know if they are qualified to read the BTP and review it at the PRC meeting.

B. The PRC shall meet to review and approve or deny all submitted Behavior Plans.

C. The PRC chairperson shall send the PRC's written determination to the Planning Team within five Business Days of the meeting described in R6-6-906(B).

1. PRC approval of a Behavior Plan shall include:

- a. A statement of agreement that the interventions approved are the Least Intrusive least restrictive interventions, and that the interventions are in compliance with R6-6-904.
  - b. Any special considerations or concerns including specific monitoring instructions; and
  - c. Any formatting or PRC procedural or documentation changes in the Behavior Plan that need to be made and resubmitted to the PRC before the Behavior Plan is considered fully approved.
2. PRC denial of a Behavior Plan shall include:
- a. The reason for denial;
  - b. Recommendations for changes to the Behavior Plan; and
  - c. An explanation of the recommendations.

F. A PRC shall be separate from but a complement to the ISPP team, and the Human Rights Committee established pursuant to R6-6-1701 et seq.

### **R-6-906**

In the former R-6-903 (A) (4) a behavior treatment plan was needed for anyone that lived in a DDD funded residential placement that took behavior modifying medications. With the deletion of this requirement, are members no longer required to have a behavior treatment plan just because they live in a DDD funded residential program and take behavior modifying medications? If so, how is it determined if a plan is needed or not, who makes that decision, what is the criteria, how often is the topic revisited? Provider Representatives are no longer a part of the Program Review Committee. It is important to have provider representatives included since they are the ones that work with the members daily therefore, they have a good idea of what would work or not work with a member, if a staff would be able to understand the plan and they provide suggestions based off their experiences working with members with the same target behaviors.

### **Section R6-6-905. - Monitoring Behavior Treatment Plans R6-6-907 Implementing Behavior Plans**

Each ISPP team shall specifically designate and record in the ISPP the name of a member of the team, excluding those direct service staff responsible for implementing the approved behavior treatment plan, who shall:

- A. After a Behavior Plan is approved by the PRC, the Division shall identify all Service Providers subject to the Behavior Plan and provide a copy of the approved Behavior Plan to those Service Providers.
- B. A Service Provider identified in R-6-6-907(A) shall:
  1. Ensure that the **behavior treatment plan** Behavior Plan is implemented as approved by the PRC.
  2. Ensure that all **persons** individuals implementing the **behavior treatment plan** Behavior Plan have received **appropriate** training as specified in **R6-6-906** **R6-6-908** and as appropriate for the Member's Behavior Plan;
  3. Maintain training records of all individuals specified in R6-6-907(B)(2);

**3-4** Ensure that objective, and accurate data are maintained in the client's record;

**4-5** Evaluate, at least monthly, collected data and other relevant information as a measure of the effectiveness of the **behavior treatment plan** Behavior Plan; and

5-6 Conduct on-site observations of the implementation of the Behavior Plan **not less than** at least twice per month and prepare, sign, and place in the **client's Member's record** a report of all observations.

Are the “at least two times per month” observations per member or per location that the member’s plan is implemented in? (e.g., two times in the DTA and two times in the group home)

A Behavior Plan no longer requires documentation that the guardian or the individual has signed “informed consent” for psychotic medication.

Who is funding and training the service providers for the BTP that they have to train their staff to implement?

Nowhere does the rule mention that the person writing the BTP knows the individual for whom the BTP is written nor that the writer attends the planning team where the team agrees to the BTP.

### **Section R6-6-906. R6-6-908 – Training**

A. Any person who is involved in the use of a behavior treatment plan shall be trained by the Division or trained by an instructor approved by the Division prior to such involvement.

B. Initial training shall cover at a minimum:

1. Provisions of law related to:

a. Interventions; particularly this Article and 42 CFR 483.450 October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State;

b. Legally mandated rights of individuals with developmental disabilities; particularly A.R.S. §§ 36-551.01, 36-561 and 42 CFR 483.420 (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State;

c. Confidentiality; particularly A.R.S. §§ 41-1959 and 36-586.01 and 42 CFR 483.410(c)(2) (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State.

d. Abuse and neglect prohibitions pursuant to A.R.S. § 36-569.

2. Intervention techniques, treatment and services, particularly addressing the risks and side effects that may adversely affect clients.

especially important to include,  
excludes testing for tardive dyskinesia

3. A general orientation to:

a. Division goals with respect to the provision of services to people with developmental disabilities.

b. Related policies and instructions of the Division.

C. With respect to the use of interventions, training shall include hands-on or practical experience to be conducted by instructors approved by the Division, using a curriculum approved by the Division, and who have experience in the actual use of interventions as opposed to administrative responsibility for such use.

D. In addition to initial training, the Division shall ensure that refresher training is available as necessary to maintain currency in knowledge and recent technical trends related to intervention for the management of inappropriate behavior.

E. Physical management techniques shall only be used by those persons specifically trained in their use.

F. The following records and documents related to training shall be maintained by the Division for five years and be available for public inspection.

1. A summary of the training plan adopted by the Division in compliance with this Section, including schedules, instructors, topics, and expressed parameters of the hands-on or practical experience component of the training.
2. Required special knowledge, skills, training, education or experience of the instructors related to managing inappropriate behaviors.
3. A list of persons satisfactorily completing initial and refresher courses and course dates.

G. The Division shall review the training plan at least every two years for compliance with all applicable provisions of law and Division policy as well as for the protection of clients.

#### Reinstate DDD training,

- A. A Service Provider shall ensure Managing Employees, Direct Care Workers, and supervisors of Direct Care Workers successfully complete Article 9 Training.
- B. All training under this Article shall be taught by an Article 9 Instructor using the curriculum and method approved by the Division.
- C. Article 9 training shall include:
  1. The requirements, restrictions, and purpose of this Article;
  2. Interventions, including those described in this Article;
  3. Legally mandated Members' rights;
  4. Confidentiality requirements; and
  5. Division policies and procedures relating to this Article.
- D. Article 9 training shall be completed:
  1. For initial training, within 90 calendar days of hire or before working directly with Members without supervision from someone with a current certification in Article9, whichever is earlier; and
  2. For recertification as directed by the Division.

#### **Section R6-6-907 –Section R6-6-909 - Sanctions**

For programs operated, licensed, certified, supervised or financially supported by the Division, failure to comply with any part of this Article may be grounds for suspension or

revocation of a license, for termination of contract, employment, or for any other applicable administrative or judicial remedy.

The Division may impose sanctions for failure to comply with any part of this Article, including:

1. Suspension or revocation of a license or certification;
2. Termination of a contract;
3. Termination of individuals directly employed by the State of Arizona;
4. Prohibition against contact with Members; and
5. Any other administrative, contractual, or judicial remedies.

#### Old Sanctions—Reinstate

#### **Section R6-6-908 - Emergency Measures REPEALED**

A. Physical management techniques employed in an emergency to manage a sudden, intense, or out-of-control behavior shall:

1. Use the least amount of intervention necessary to safely physically manage an individual.
2. Be used only when less restrictive methods were unsuccessful or are inappropriate.
3. Be used only when necessary to prevent the individual from harming self or others or causing severe damage to property.
4. Be used concurrently with the uncontrolled behavior.
5. Be continued for the least amount of time necessary to bring the individual's behavior under control.
6. Be appropriate to the situation to ensure safety.

B. When an emergency measure, including the use of behavior modifying medications pursuant to R6-6-909(D), is employed to manage a sudden, intense, out-of-control behavior, the person employing that measure shall:

1. Immediately report the circumstances of the emergency measure to the person designated by the Division and to the responsible person.
2. Provide, within one working day, a complete written report of the circumstances of the emergency measure to the responsible person, the case manager, the chairperson of the Program Review Committee, and the Human Rights Committee.
3. Request that the case managers reconvene the ISPP team to determine the need for a new or revised behavior treatment plan when any emergency measure is used two or more times in a 30-day period or with any identifiable pattern.

C. Upon receipt of a written report as specified in subsection (B)(2) above, the PRC shall:

1. Review, evaluate and track reports of emergency measures taken; and
2. Report, to a person designated by the Division, instances of possible excessive or inappropriate use of emergency measures on a case-by-case basis for corrective action.

#### Emergency Measures need to be reinstated

#### **Section R6-6-909 - Behavior-modifying Medications REPEALED**

A. The Division shall make available the services of a consulting psychiatrist who shall review cases and provide recommendations to prescribing physicians to ensure that the

medication prescribed is the most appropriate in type and dosage to meet the client's needs.

B. Behavior-modifying medications shall be prescribed and administered only:

1. When, in the opinion of a licensed physician, they will be effective in producing an increase in appropriate behaviors; and it can be justified that the harmful effects of the behavior clearly outweigh the potential negative effects of the behavior modifying medication.
2. As part of a behavior treatment plan in the ISPP.
3. With the informed consent of the responsible person.

C. The Division shall provide the following monitoring, in addition to that specified in R6-6-905, for all behavior treatment plans that include the use of a behavior-modifying medication:

1. Ensure that collected data relative to the client's response to the medication is evaluated, at least quarterly, at a medication review by the physician and the member of the ISPP team designated pursuant to R6-6-905 and other members of the ISPP team as needed.
2. Ensure that each client receiving a behavior-modifying medication is screened for side effects, and Tardive Dyskinesia as needed, and that the results of such screening are:
  - a. Documented in the client's case record;
  - b. Provided immediately to the physician, responsible person, and ISPP team for appropriate action if the screening results are positive; and
  - c. Provided to the Program Review Committee and the Human Rights Committee within 15 working days for review of screening results that are positive.

D. In the event of an emergency, a physician's order for a behavior modifying medication may, if appropriate, be requested for a specific one-time emergency use. The person administering the medication shall immediately report it pursuant to R6-6-908(B).

E. The responsible person shall immediately be notified of any changes in medication type or dosage.

Reinstate Behavioral modifying medications R6-5-909.

B.3 Removes informed consent. Where is informed consent for the psychotropic medicines and BTP in the Rule?

C. Data is not collected, medication is not evaluated quarterly ,

C.2 Screening for Tardive Dyskinesia is eliminated.

These would all be against the person's rights and is important to retain.

- A. In the event of an Emergency Safety Situation that is not covered by the Member's Behavior Plan, a Service Provider, its employees, or its agents may apply Physical Interventions in accordance with R6-6-910(B) to ensure the safety of the Member or others.
- B. Physical Interventions used during an Emergency Safety Situation shall be:
  - 1. The least amount of intervention necessary to safely manage an Emergency Safety Situation;
  - 2. Used only when less restrictive methods are unsuccessful or are inappropriate;
  - 3. Used only when necessary to prevent the Member from harming self or others;
  - 4. Implemented during the Emergency Safety Situation for the least amount of time necessary; and
  - 5. Performed only by individuals trained in the implementation of Division-approved intervention techniques.
- C. The Planning Team shall reevaluate a Behavior Plan when Physical Intervention is used in response to an Emergency Safety Situation two or more times in a period of 30 calendar days or with any identifiable pattern.

Use of Emergency measures does not mention using for behavior and the need to stop the emergency measure when the behavior stops.

### CONCLUDING THOUGHTS

When Article 9 was developed, literally the whole state was represented by DD staff and families. It has stood the test of time since 1994. According to page 604, #5, the reason the rule should be amended is to make it clear, concise, and understandable. (This has never been a problem). #6 shows that the State did not review or rely on any study relevant to the rule. #7 says a "showing of good cause as to why the rulemaking is necessary" is not applicable. #11 does not indicate that any federal law is applicable to the changes.

PRC has left out a provider of DD services on the committee, The Chair is not allowed to vote and perhaps, most important is that each committee is to have a behavioral professional. This has not happened in District Central. It does not mention that a Behavior Plan must be accompanied by a Planning Document.

Karen Van Epps, District Central IOC Chair

Quote, "Article 9 has had a significant impact in improving quality of life for many individuals. The sense of community has become the focus as many people, who at one time resided within the confines of an institution, now experience the fulfillment of value as community members. The role of service provider has shifted, from one of controller, to partner in support of individuals".

The new revisions are in conflict with;

ARS 36-55.01 Developmentally disabled persons rights guaranteed

ARS 36-551. Prohibiting certain treatment or drugs; use of aversive stimuli

DD members are much different from behavioral health members and need the protections that the Article 9 provided. It is very important to retain the language of Article 9 as originally written or if changes are made, they should only be made for

clarification. The fear is that the proposed rules may necessitate institutional care for DD members instead of promoting community living as demanded by Medicaid/CMS. Carol McNulty, District Central IOC Vice-Chair

DD members are much different from behavioral health members and need the protections that the Article 9 provided. It is very important to retain the language of Article 9 as originally written or if changes are made, they should only be made for clarification. The fear is that the proposed rules may necessitate institutional care for DD members instead of promoting community living as demanded by Medicaid/CMS.

Who was included in this rewrite process? This current revision seems distinctly slanted toward Behavioral Health, rather than DDD with IOC oversight.

A clear definition of the following is needed to be in place:

What are the violations and what needs to be approved.

Definition of techniques that are required for PRC approval.

Definition of "emergency measure", and when is it to be reported. No reporting measures are included in the new revision. All Emergency measures are removed.

("emergency measures can only be used in concurrent with the behavior"). Replaced with "Least amount of time for least amount of force", but does not define that it must be concurrent with the behavior, which infers there may be an offset, which means member may be restrained longer than the behavior. This needs clarification.

Removed language that states members shall be protected from chemical restraints.

This gives permission for medications to be administered at the whim of someone who just may not want to be bothered with the Member.

Tardive Dyskinesia check has been removed. This is vital to the protection and health of the Member.

Where is Informed Consent?

DDD has been assured that Article 9 training will not change fundamentally, other than specific revisions to the new Article 9, but where are the guarantees for that, if the basis for the current article 9 training is being removed regarding the Member's rights and restrictions.

This new article 9 sets up the perfect model for a medical model/institutions.

What was the purpose of this rewrite? "To make it clear, concise, and understandable." Pg. 604, #5, #6 and #7. It is not clear, concise, and understandable. This language is not easily understood by those who would oversee its implementation.

If only a behavioral health professional is to write the plan, how is the training of the plan going to be translated from the behavioral health professional to the Direct Care Staff who are directly responsible for implementing it with the member? If a BCBA is paid to write the plan, where is the funding and facilitation for training the plan, once it is approved? This is an Access to Care concern. Even if the funding is in place, how accessible is the professional to the planning teams and members?

The revision does not state that the planning team will not be writing the plan, it says they will be *active* in writing the plan. However, they can't write a plan with any of the restricted techniques without the oversight or direct intervention of the behavioral health professional. It is unclear what access or ability a planning team will have to write a

plan. If all plans have to be approved or facilitated by a behavioral health professional, then what plans are left that can be written without one? With this rewrite, we are removing the ability of a planning team to write a plan by themselves.

Historically, Article 9 was all about promoting the potential of our members to interact in the community. This revision of Article 9 as being presented by Behavioral Health has nothing to do with promoting individuality or potential in the community. This initiates a path to going back to an institutional model where we can keep people safe, and if that is accomplished by chemical restraint, then that will be acceptable.

Bottom Line: We are moving away from enforcing rights and moving back towards an institutionalized model to where we can chemical restrain people to ensure their safety. It has nothing to do with their potential or their interaction in the community. This is against the Medicaid model, which is promoting a strong interaction with the community. This is a time warp back to institutionalization.

In closing, traditionally, Article 9 was written to protect vulnerable adults in residential settings, whether they do or do not have a guardian/responsible person, from abuse and neglect. This new rewrite does not accomplish that goal. Is this level of support needed for all members served by DDD? Are these changes really in the best interest of the Members and supporting them to meet their potential in the community as opposed to just keeping them safe in a medical model by chemical restraints, and do they support guidelines from Medicaid? This new rewrite of Article 9 is setting the stage for a behavioral health model: Behavioral health will come into the group home to implement the plan twice a week. Staff will not implement the plan. Thus, the way DDD does services now is going to change. There will not be consistency within the group home, the DTA, the community using the same language and the same techniques. By removing safeguards currently in place, and in rewriting Article 9, the program will be moved into a behavioral health model, which is not the DDD model.

Linda Mecham; Compiled from IOC Meeting held May 24, 2021 @ 10:00 AM

Individuals with intellectual and developmental disabilities (I/DD) should be assured safety and security within the context of dignity of risk, autonomy, and choice. It is essential that we promote each individual's ability to be valued, fully participating members of the community and to engage in meaningful and relevant activities. A 2018 report published by the Council on Quality and Leadership, entitled, "Restraint, Restrictive Interventions, and Seclusion of People with Intellectual and Developmental Disabilities" notes that while hotly contested, there is inconclusive evidence of their effectiveness. In fact, the study notes that their use increases the risk of death, injury, and psychological harm not only for people with disabilities, but for the individuals employed to support them.

Article 9 in Arizona historically, proactively, and positively supported the positive and adaptive behavior of individuals with I/DD. Article 9 has been used as a template for the development of best practice and model policies for supporting individuals with I/DD across the country. One example is the Jensen Settlement Agreement in Minnesota, the result of a lawsuit filed against DHS in 2009 alleging that the former Minnesota

Extended Treatment Options (METO) program used restraint and seclusion in a way that broke the law and violated the rights of people with disabilities. Jensen required person-centered thinking, positive behavioral supports and serving people in the most-integrated setting consistent with the person's goals, dreams, and aspirations. It is therefore, of great concern that the revised Article 9 would seem to allow certain

elements historically prohibited. A review of recent reports from the [DDD Independent Oversight Committee's](#) indicate that there is an overall theme in the response by individuals with I/DD to their behavioral treatment plans: a lack of trained and passionate direct care workers results in individuals with I/DD feeling that they are rushed, disrespected and as a result they engage in behaviors deemed "inappropriate".

### **Restraints, Restrictive Interventions, Response Cost, Seclusion**

We are particularly concerned with the following changes to Article 9, and suggest the following:

*Overcorrection as a form of punishment* -- should be explicitly prohibited without the modifier "as a form of punishment".

*Aversive stimuli as a punishment* -- should be explicitly prohibited without the modifier "as a form of punishment".

*Response Cost* -- should be explicitly prohibited without the modifier "as part of a Behavior Plan approved by the PRC.

*Physical Intervention, including mechanical restraints* -- should be explicitly prohibited without the modifier "as part of a Behavior Plan approved by the PRC.

Psychotropic Medication- should expressly include provisions for informed consent for the initial administration of any psychotropic medication, changes in doses, and screening protocols for side effects. PRN medications for the purpose of behavior management should be prohibited.

Escape Extinction -- should be explicitly prohibited.

### **Behavior Plans**

We concur with prior suggestions from the DDD Independent Oversight Committees: DDD should develop a standard template for Behavior Treatment Plans with participation and input from legal guardians, identify antecedent behaviors and ensure that the individuals developing the plan have familiarity with the individual with I/DD. The proposed rule should require that behavior plans include documentation of proactive techniques to identify triggers, interventions to be utilized before behaviors escalate and skills training to support individuals to improve their self-regulation and/or use alternative and augmentative communication to enable them to communicate when they are stressed, in pain, etc.,

### **PRC Membership**

The revisions to the membership may result in a lack of experience and expertise in supporting individuals with I/DD. While we agree that PRCs should also include representatives with Quality Management and Behavioral Management backgrounds, it is important to maintain inclusion of representatives with experience in providing training and skill development to individuals with I/DD (habilitation providers), and District Program Management staff as voting members.

### **Training**

There appears to be an elimination of the requirement that all individuals within the Division and its qualified vendors complete Article 9 training. This training ensures that everyone, from front line staff to executives are aware of the importance of maintaining the human rights of individuals with I/DD. Further, it does not appear that the

Behavioral Health professionals and Quality Management professionals appointed to the PRCs will be required to complete Article 9 training.

### **Data Collection**

The requirement that within one working day a report must be submitted when emergency measures are utilized has been deleted. Further, the reference that planning teams convene to develop a new behavior treatment plan if one does not already exist has also been deleted and should be added. The Independent Oversight Committees have repeatedly requested a standardized format for reporting incidents across regions and reference to this data collection, tracking, trending, reporting and relevant changes to policies and procedures should also be included in any revision to Article 9.

### **Conclusion**

Integrating acute, behavioral, HCBS and LTSS approaches should continue to support the strengths, choices, autonomy, and integrity to supporting individuals with I/DD. The National Association of State Directors of Developmental Disabilities Services (NASDDDS) affirmed a similar position opposing aversive interventions and promoting positive behavior supports in 2015. Any revisions to Article 9 should affirmatively reject the use of interventions that have the potential to cause pain and harm, whether physical or psychological.

Diedre Freedman, District West IOC Chair

## **ADDENDUM #2: ABUSE AND NEGLECT (CHAPTER 64)**

### **QUESTIONS SUBMITTED TO DDD REGARDING ABUSE AND NEGLECT (CHAPTER 64)**

*From District Central Independent Oversight Committee*

The training material for Instructors and Providers was sent out for Public Comment, and per Chapter 64 of the Policies manual, MAY be used to teach the concepts. The training material/curriculum for Members did not go out for Public Comment, and per Chapter 64 of the Policies Manual, states that the material MUST, not MAY, be used. The training material/Curriculum referred to is found in on the DDD Website under the heading "Abuse and Neglect".

Why did the training material for the Members NOT go out for Public Comment?

Why is the curriculum for the Instructors and Providers different from the curriculum for the Members?

Who will teach the curriculum to the Members in the DTA setting, per Chapter 64, if the Member is dually enrolled in a group home and DTA? Is that instructor qualified to deal with the possible damaging psychological effects this training may have on the Member, based on possible past experiences of abuse or neglect?

If the Member is a visual learner, rather than an auditory learner, could the slides present an impression that is not intended? For example, is biting one's arm acceptable behavior? Is putting one's hand on (especially) the private, personal areas of another's body acceptable behavior? If the member is not able to express what the slides are conveying to him/her, how can the Instructor correct that misconception?

What is the Opt-in/Opt-out process for Members?

If a Responsible Person (IE Guardian) is involved, does that person have prior knowledge from DDD that this curriculum is being taught to the Member for whom they are responsible? What is that process of informing a Responsible Person, since what is being taught to the Member did not go out for Public Comment?

If the Member is responsible for himself, what is the process for him/her to opt in or out without actually viewing the material before it is presented?

With the inclusion of over 100 slides, the time it would take to review the material is too long for most Members. What is the plan to divide this up?

Have you considered that doing this in the DTA setting could provide an atmosphere of exclusion if the Member opts out of this Instruction?

Since this is to be reviewed annually, per chapter 64, does the Opt-in, Opt-out take place every year? Because of the sensitive nature of the curriculum, should that document be included in the Planning Document/Person Centered Plan?

**IOC QUESTIONS; DDD RESPONSES; IOC QUESTIONS TO DDD RESPONSES**

**ABUSE AND NEGLECT (CHAPTER 64)**

Key: **Bold/Black: Original IOC questions:**

## Blue: Responses from DDD

- *Italicized Bullet points: IOC responses to DDD answers*

The training material for Instructors and Providers was sent out for Public Comment, and per Chapter 64 of the Policies manual, MAY be used to teach the concepts. The training material/curriculum for Members did not go out for Public Comment, and

- **per Chapter 64 of the Policies Manual, states that the material MUST, not MAY, be used. The training material/Curriculum referred to is found on the DDD Website under the heading "Abuse and Neglect".** The Division determined that we would help offset costs to deliver abuse prevention training after receiving public feedback about the amount of time and resources that Qualified Vendors would need to expend to implement. For this reason and to ensure that members were offered consistent training, **we** determined that **we** would require one training curriculum for all members. Members are NOT required to take the training.
- *The question had nothing to do with how providers were being paid to train staff. We understand the premise behind consistency in training content but many members will not understand the content the way it is presented in the MUST use material*
- **Why did the training material for the Members NOT go out for Public Comment?**
  - **Response:** The original posting of Chapter 64 had a summary version of the training-although it's not required that DES DDD get Public feedback **for training**. The Division needed to get the source documents from Massachusetts and then update them to align with Arizona laws and rules and to brand the DES logo etc. This occurred after the original posting and took some time. **We** determined that it was in the best interest of the community to make the training available after the formatting was completed. **We** plan to provide a process to gather additional public feedback once vendors have provided the training for a full year.
- *With the importance of this material, more than a summary should have gone out. Why would DDD not want feedback on this? Is it within the law that a summary is adequate for Public Comment, or must it be the document in its entirety? Did anything ever come back from someone with knowledge of law?*
- *Training (Methodology) vs Curriculum (Content): Mincing words: Training on how the curriculum (Chapter 64) does not need Public Comment. The Curriculum (Chapter 64) needs to go out for Public Comment.*
- *NON-RESPONSIVE ANSWER: Why did the material for Members NOT go out for Public Comment?*
- *Cost effectiveness: cheaper to do it this way...Offensive...individual needs are not being met due to cost...???*
- *"WE DETERMINED" THAT IT WAS IN THE BEST INTEREST OF THE COMMUNITY...WHO IS "WE"...SENSITIVE STUFF...NOT OK...WHERE ARE THE COMMUNITY GUIDELINES? SOME KIND OF PUBLIC DETERMINATION.*
- *STEWARDS OF THE MONEY...WHERE WAS PUBLIC INPUT RE THIS VERY DEFINITIVE SEX ED TRAINING?*
- *DID AHCCCS REVIEW THIS?*

- *ABUSE AND NEGLECT COMMITTEE NEVER OK'D THIS ACTION (per two members of that committee)*

• **Why is the curriculum for the Instructors and Providers different from the curriculum for the Members**

- **Response:** This member training was one that was recommended by the Sexual Violence & I/DD Collaborative chaired by the ADDPC. Awareness and Action was developed in Massachusetts (MA) by and for self-advocates.
- <https://disabilityinfo.org/records/awareness-and-action-aa/>
- *Responsible Person/Family Members should be involved in approving curriculum, i.e. the need for Public Comment*
- *There is only 1 DDD Member on the ADDPC committee and he works full time, and does not represent the majority of Members served by DDD. The training is for members that participate in DTAs and live in group homes. The training is not reflective of the member's abilities that participate in the 2 targeted programs/services.*
- *IF A MEMBER LIVES AT HOME, BUT ATTENDS A DTA, IS HE REQUIRED TO TAKE THE MATERIAL?*
- *WHERE IS CULTURAL DIVERSITY SENSITIVITY?*
- *NO PRE-TEACHING*
- *NON-RESPONSIVE ANSWER: Why is the material different for Providers and Members?*

*NO PROBLEM WITH PROVIDER CURRICULUM...THE WAY YOU PROTECT THE MEMBERS IS BY TRAINING THE STAFF: IF THE ADULTS IN THE ROOM ARE TRAINED THEY CAN PROTECT THE MEMBERS THROUGH THIS TRAINING.*

• **Who will teach the curriculum to the Members in the DTA setting, per Chapter 64, if the Member is dually enrolled in a group home and DTA? Is that instructor qualified to deal with the possible damaging psychological effects this training may have on the Member, based on possible past experiences of abuse or neglect?**

- **Response:** Chapter 64 requires the DTA to offer the training and if the member does not attend a DTA, then the Group Home provider offers the training. Members and guardians decide if they want to take the training or not. The vendor determines who does the training but there is a comprehensive instructor guide and a participant guide posted. We understand that not all training is going to be a fit for all individuals.
- *BE A FIT FOR ALL INDIVIDUALS. In the response to the first question the reply was "we determined that we would require one training curriculum for all members." Confusion: If DDD determined, with the support of ONE person from a disability advocacy organization, no matter how little he had in common with those for the whom the training is being provided, why is it appropriate to only offer 1 training instead of meeting the needs of the specific members abilities?*
- *"Not all training is going to be a fit for all individuals."*
- *One size does not fit all in the DDD world. This seems to be an admission that the curriculum needs to be individualized per the member who participates.*

- See Member Bill of Rights, Letter O: "Right to express human sexuality and receive appropriate training;" This is violating the Member Bill of Rights, as this is not appropriate training for all Members.
- NON-RESPONSIVE ANSWER: How will one know if psychological damage is or has been done? Professionals trained in the DDD population and psychiatry need to be involved.
- TRAINING VS CURRICULUM...need to be consistent is whether referring to the Training of the Curriculum or the curriculum itself (the content)
- 18 YEAR OLD (STAFF) TEACHING THE CURRICULUM????? INSTRUCTOR NEEDS TO BE EXPERIENCED IN THE SUBJECT....
- THE MEMBER WILL WANT TO TALK ABOUT THEIR EXPERIENCE, BUT CURRICULUM DOES NOT ALLOW FOR THIS...NEEDS TO BE INDIVIDUALIZED...Who will the Member talk to? Again, is the listener qualified to have that discussion with the Member?
- If the Member is a visual learner, rather than an auditory learner, could the slides present an impression that is not intended? For example, is biting one's arm acceptable behavior? Is putting one's hand on (especially) the private, personal areas of another's body acceptable behavior? If the member is not able to express what the slides are conveying to him/her, how can the Instructor correct that misconception?
  - **Response** Members and guardians decide if they want to take the training or not. We plan to provide a process to gather additional public feedback once vendors have provided the training for a full year.
- Feedback after 1 year is not acceptable: Results in possible traumatization of members for a year then collect the data on the traumatization? The only data being collected at this time is whether the Member took the course or not.
- The Responsible Person/Guardian needs to view the training material before the member participates in it. The only way to view the curriculum is on the website. The website is not user friendly, even for us that know how to access it. Does this mean that the Member is his own guardian that he will have to review the material before determining if it is appropriate for him, in order to participate in the course?
- What does the questionnaire for feedback include? Parents? Vendors? Members?
- From an IOC member's child (who is served by the Division): THE PICTURES DID NOT MAKE ANY SENSE. EXPLANATION NEEDED. NOT GOOD. COLORS: THE PEOPLE IN HER WOULD NOT UNDERSTAND RED IS STOP AND GREEN IS GO...
- WHERE IS THE PRETEACHING? (MEMBER)
- NON-RESPONSIVE ANSWER: Could the slides present an impression that is not intended? For example, is biting one's arm acceptable behavior? Is putting one's hand on (especially) the private, personal areas of another's body acceptable behavior? If the member is not able to express what the slides are conveying to him/her, how can the Instructor correct that misconception?
- What is the Opt-in/Opt-out process for Members?

- **Response:** The vendor offers the training and documents which members it was offered to. Members and guardians decide if they want to take the training or not.
- *There is no required documentation for the member if he opted in or out. Can Providers put the names of all members on an Excel sheet, make a random announcement, and that is sufficient?*
- **If a Responsible Person (IE Guardian) is involved, does that person have prior knowledge from DDD that this curriculum is being taught to the Member for whom they are responsible? DDD: Vague question....**
  - **Response:** Yes. Members and guardians decide if they want to take the training or not.
- *HOW IS DDD INFORMING THE RESPONSIBLE PERSON ABOUT THE TRAINING AND THE CONTENT? This SHOULD BE DONE THROUGH BLASTS, SNAIL MAIL AND BY THE DDD SCS AT EACH ISP MEETING. This is a DDD requirement. DDD should be the responsible for sharing the information with the Responsible Person/Guardian.*
- *There cannot be in "Informed Consent" (per Article 9) without knowing what the curriculum is.*
- *NON-RESPONSIVE ANSWER: How can there be Prior knowledge? Did not go out for Public Comment and yet it is in Policy.*
- **What is that process of informing a Responsible Person, since what is being taught to the Member did not go out for Public Comment?**
  - **Response:** The staff (Recognizing and Reporting Abuse, Neglect and Exploitation of Vulnerable Populations and member (Arizona Awareness & Action - Recognizing, Reporting and Responding to Abuse, Neglect and Exploitation) training curriculum are posted to the DES DDD website.
  - <https://des.az.gov/services/disabilities/developmental-disabilities/vendors-providers/current/training>
- *NON-RESPONSIVE ANSWER: How can there be Prior knowledge? Did not go out for Public Comment and yet it is in Policy.*
- *HOW IS DDD INFORMING THE RESPONSIBLE PERSON ABOUT THE TRAINING AND THE CONTENT? This should be done through NEWSLETTERS, blasts, snail mail, and by the DDD Support Coordinators at each Planning Document/Personal Centered Plan Meeting. This is a DDD requirement. DDD should be responsible for sharing the information with the Responsible Person/Guardian.*
- *MOST OF WHERE I LIVE IS NOT WIRED FOR INTERNET. THIS DOES NOT WORK.*
- *CULTURAL SENSITIVITY AND DIVERSITY.*
- **If the Member is responsible for himself, what is the process for him/her to opt in or out without actually viewing the material before it is presented?**
  - **Response:** Qualified vendors should share information about what the training covers. Members and guardians decide if they want to take the training or not. They do not need to opt out.

- **NON-RESPONSIVE ANSWER:**  
*Since, PER ARTICLE 9, consent is required. In order to obtain written consent, all relevant information would need to be provided, which in this case is the training. In order to get consent from a member who is his own responsible person, PER Art 9, the Member would need to see the training. Circular logic but that is what would need to be done to comply.*
- *Regarding the last sentence, “They do not need to opt”: Would a provider need to really do anything besides provide a list of members to DDD as verification that the class was offered, since they do not need to know who opts out?*
- *There cannot be “Informed Consent” (per Article 9) without knowing/VIEWING what the curriculum is.*
- *DDD should provide a standardized form for Members to opt-in/Opt-out. District Central IOC has seen 4 different permission forms from 4 different Providers. Each is different, each protects the Member and/or the Provider in different ways. One gave very detailed account of content, one merely mentioned the location on the DDD website, with the other two somewhere in between. DDD should be responsible enough to provide protection from all liability for everyone involved, including the Member.*

• **With the inclusion of over 100 slides, the time it would take to review the material is too long for most Members. What is the plan to divide this up?**

- **Response:** *Vendors are to offer and provide this during routine service delivery (for example as part of the structured day programming) so they can offer the training in multiple sessions to fit member needs.*
- *In a normal slide presentation, with discussion, the time allotment is about 1-2 minutes per slide. Knowing the training would need to typically be broken into 30-45 minutes per training, with the possibility of covering one slide every 4-5 minutes, this course could possible take: (session @ ½ hour @ 5 min slide= 6 slides per session = Seventeen 30 minute sessions. Finish up the course, if divided equally, at the end of the year...just in time to begin again. Why must this be taught annually? Is this annual renewal required for the Providers as well?*
- *Trauma from past incidents could result in behaviors and/or chaos in the middle of the presentation. Needs to be individualized, per Members Bill of Rights, letter O. “Right to express human sexuality and receive appropriate training;”*
- **NON-ANSWER:** *DDD is leaving this up to the Provider/Vendor. Again, needs to be individualized.*

• **Have you considered that doing this in the DTA setting could provide an atmosphere of exclusion if the Member opts out of this Instruction?**

- **Response:** *Members choose activities in Day Services that they want to do. This means often groups of members getting day services participate in different activities. This follows the same principle.*
- *But, if it is a responsible person, other than the member that is choosing for the Member to participate in the training, that takes away the Member choosing what they want to do at the DTA! SO yes, it is exclusionary. (If a Member’s friends are all in the media room watching slides, and he is not allowed, per Guardian, then yes, he will feel excluded. Lack of understanding; his group is participating in something he cannot participate in.) DTA Calendar is very structured: 1-2 items in the AM; 1-2 items in the PM, depending on Staffing, space, etc.*

• **Since this is to be reviewed annually, per chapter 64, does the Opt-in, Opt-out take place every year? Because of the sensitive nature of the curriculum, should that document be included in the Planning Document/Person Centered Plan?**

- **Response:** Annually, members and guardians decide if they want to take the training or not. Qualified vendors are required to maintain documentation of the offer. It's not currently required to be documented in the PCSP.
- *Because of the possibility of being exclusionary, this should be listed in the rights section of the Planning Document/Person Centered Plan. Additionally, in the acknowledgement section of the Planning Document/Person Centered Plan, acknowledgement from the Responsible Person/Guardian/Member that the DDD SC informed the responsible person of the training and the content to qualify for "informed consent", per Article 9.*
- *Why should this be presented every year? Is that the requirement for the Providers/Staff?*
- *IF THIS IS SO IMPORTANT WHY IS IT NOT PRESENTED AT THE 90 DAY MEETING WITH THE MEMBER AND THE TEAM? ONE MEMBER HAS HAD 3 MEETINGS, SC WAS UNAWARE OF TRAINING WHEN GUARDIAN MENTIONED THE TRAINING. THIS IS THE PLACE WHERE TWEAKING CAN TAKE PLACE. NOT APPROPRIATE AT ALL.*
- *Could become a risk; should be listed on the risk assessment*
- *Ask for an interim report since it has been rolled out since July. Share data.*
- **Refer to 41-3804 N:** If a committee's request for information or records from a department or service provider is denied, including an objection pursuant to subsection G of this section, and if requested by the committee, at least one representative of the department or service provider and at least one committee member shall meet and confer within five business days after the date of the request or on a later date that is agreed to by both parties and shall in good faith attempt to resolve the objection informally and cooperatively. After meeting and conferring, the committee may request in writing that the director of a department review this decision. The director shall timely conduct the review and, not later than twenty-one calendar days, after receiving the request for review, the director shall deliver to the committee a written decision explaining in detail the factual and legal basis and reasoning for the department's decision. The department shall bear the costs of conducting the review. A final agency decision made pursuant to this subsection is subject to judicial review pursuant to title 12, chapter 7, article 6. The department shall not release any information or records during the period an appeal may be filed or is pending:
- **41-3804 G:** Each committee shall submit written objections to specific problems or violations of client rights by the department or service provider through the director of the department of administration for review by the director of the department that is responsible for the client. The director of the department shall deliver to the committee a detailed written response to each written objection within twenty-one calendar days after receiving the objection from the department of administration.
- **Title 12: Arizona Laws > Title 12 > Chapter 7 > Article 6** – Judicial Review of Administrative Decisions

## ARTICLE 9. MANAGING INAPPROPRIATE BEHAVIORS

### **R6-6-901. Applicability**

These rules apply to:

1. All programs operated, licensed, certified, supervised or financially supported by the Division.
2. All habilitation programs as defined in A.R.S. § 36-551(18), as well as all interventions included in this Article, shall be addressed in the client's ISPP.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-901 repealed, new Section R6-6-901 renumbered from R6-6-902 effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3). Amended effective August 30, 1994, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 94-3).

### **R6-6-902. Prohibitions**

**A.** The following behavioral intervention techniques are prohibited:

1. The use of seclusion (locked time-out rooms).
2. The use of overcorrection.
3. The application of noxious stimuli.
4. Physical restraints, including mechanical restraints, when used as a negative consequence to a behavior.

**B.** The use of behavior modifying medications is prohibited, except as specified in R6-6-909, if:

1. They are administered on an "as needed" or "PRN" basis; or
2. They are in dosages which interfere with the client's daily living activities; or
3. They are used in the absence of a behavior treatment plan.

**C.** No person shall implement a behavior treatment plan which:

1. Is not included as a part of the ISPP; and
2. Falls under R6-6-903(A), without approval of the PRC.

### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-902 renumbered to R6-6-901, new Section R6-6-902 renumbered from R6-6-903 and amended effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

### **R6-6-903. Program Review Committee (PRC)**

**A.** The ISPP team shall submit to the PRC and Human Rights Committee any behavior treatment plan which includes:

1. Techniques that require the use of force.
2. Programs involving the use of response cost.
3. Programs which might infringe upon the rights of the client pursuant to applicable federal and state laws, including A.R.S. § 36-551.01.
4. The use of behavior-modifying medications.
5. Protective devices used to prevent a client from sustaining injury as a result of the client's self-injurious behavior.

**B.** The PRC shall be responsible for approving or disapproving plans specified in subsection (A) above and any other matters referred by an ISPP team member.

**C.** The PRC shall review and respond in writing within ten working days of receipt of a behavior treatment plan from the ISPP team, either approving or disapproving the plan. The response shall be signed and dated by each member present and shall be transmitted to the ISPP team with a copy to the chairperson of the Human Rights Committee for review and recommendations at its next regularly scheduled meeting pursuant to R6-6-1701 et seq. The response shall include:

1. A statement of agreement that the interventions approved are the least intrusive and present the least restrictive alternative.
2. Any special considerations or concerns including any specific monitoring instructions.
3. Any recommendations for change, including an explanation of the recommendations.

**D.** Each PRC shall issue written reports, as prescribed by the Division, summarizing its activities, findings and recommendations while maintaining client confidentiality.

1. On a monthly basis, report to a designated Division representative, with a copy to the chairperson of the Human Rights Committee.

2. On an annual basis, by December 31 of each calendar year, report to the Assistant Director of the Division of Developmental Disabilities, with a copy to the Developmental Disabilities Advisory Council.

**E.** The PRC shall be composed of, but not be limited to, the following persons designated by the District Program Manager:

1. The District Program Manager or his designee, who shall act as a chairperson.

2. A person directly providing habilitation services to clients.

3. A person qualified, as determined by the Division, in the use of behavior management techniques, such as a psychologist or psychiatrist.

4. A parent of an individual with a developmental disability but not the parent of the individual whose program is being reviewed.

5. A person with no ownership in a facility and who is not involved with providing services to individuals with developmental disabilities.

6. An individual with a developmental disability when appropriate.

**F.** A PRC shall be separate from but a complement to the ISPP team, and the Human Rights Committee established pursuant to R6-6-1701 et seq.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-903 renumbered to R6-6-902, new Section R6-6-903 renumbered from R6-6-904 and amended effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

#### **R6-6-904. ISPP Team Responsibilities**

Upon receipt of the PRC's response and as part of its development of the client's ISPP, the ISPP team shall either:

1. Implement the approved behavior treatment plan; or

2. Accept the PRC recommendation and incorporate the revised behavior treatment plan into the ISPP; or

3. Reject the recommendation in whole or in part and develop a new behavior treatment plan to be resubmitted to the PRC and Human Rights Committee.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-904 renumbered

to R6-6-903, new Section R6-6-904 renumbered from R6-6-905 effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

#### **R6-6-905. Monitoring Behavior Treatment Plans**

Each ISPP team shall specifically designate and record in the ISPP the name of a member of the team, excluding those direct service staff responsible for implementing the approved behavior treatment plan, who shall:

1. Ensure that the behavior treatment plan is implemented as approved.
2. Ensure that all persons implementing the behavior treatment plan have received appropriate training as specified in R6-6-906.
3. Ensure that objective, accurate data are maintained in the client's record.
4. Evaluate, at least monthly, collected data and other relevant information as a measure of the effectiveness of the behavior treatment plan.
5. Conduct on-site observations not less than twice per month and prepare, sign, and place in the client's record a report of all observations.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-905 renumbered to R6-6-904, new Section R6-6-905 renumbered from R6-6-906 and amended effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

#### **R6-6-906. Training**

- A.** Any person who is involved in the use of a behavior treatment plan shall be trained by the Division or trained by an instructor approved by the Division prior to such involvement.
- B.** Initial training shall cover at a minimum:
  1. Provisions of law related to:
    - a. Interventions; particularly this Article and 42 CFR 483.450 October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State;
    - b. Legally mandated rights of individuals with developmental disabilities; particularly A.R.S. §§ 36-551.01, 36-561 and 42 CFR 483.420 (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State;
    - c. Confidentiality; particularly A.R.S. §§ 41-1959 and 36-586.01 and 42 CFR 483.410(c)(2) (October 1, 1992), incorporated herein by reference and on file with the Office of the Secretary of State.

- d. Abuse and neglect prohibitions pursuant to A.R.S. § 36-569.
- 2. Intervention techniques, treatment and services, particularly addressing the risks and side effects that may adversely affect clients.
- 3. A general orientation to:
  - a. Division goals with respect to the provision of services to people with developmental disabilities.
  - b. Related policies and instructions of the Division.
- C.** With respect to the use of interventions, training shall include hands-on or practical experience to be conducted by instructors approved by the Division, using a curriculum approved by the Division, and who have experience in the actual use of interventions as opposed to administrative responsibility for such use.
- D.** In addition to initial training, the Division shall ensure that refresher training is available as necessary to maintain currency in knowledge and recent technical trends related to intervention for the management of inappropriate behavior.
- E.** Physical management techniques shall only be used by those persons specifically trained in their use.
- F.** The following records and documents related to training shall be maintained by the Division for five years and be available for public inspection.
  - 1. A summary of the training plan adopted by the Division in compliance with this Section, including schedules, instructors, topics, and expressed parameters of the hands-on or practical experience component of the training.
  - 2. Required special knowledge, skills, training, education or experience of the instructors related to managing inappropriate behaviors.
  - 3. A list of persons satisfactorily completing initial and refresher courses and course dates.
- G.** The Division shall review the training plan at least every two years for compliance with all applicable provisions of law and Division policy as well as for the protection of clients.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-906 renumbered to R6-6-905, new Section R6-6-906 renumbered from R6-6-907 and amended effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

#### **R6-6-907. Sanctions**

For programs operated, licensed, certified, supervised or financially supported by the Division, failure to comply with any part of this Article may be grounds for suspension or revocation of a license, for termination of contract, employment, or for any other applicable administrative or judicial remedy.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-907 renumbered to R6-6-906, new Section R6-6-907 renumbered from R6-6-908 effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

#### **R6-6-908. Emergency Measures**

**A.** Physical management techniques employed in an emergency to manage a sudden, intense, or out-of-control behavior shall:

1. Use the least amount of intervention necessary to safely physically manage an individual.
2. Be used only when less restrictive methods were unsuccessful or are inappropriate.
3. Be used only when necessary to prevent the individual from harming self or others or causing severe damage to property.
4. Be used concurrently with the uncontrolled behavior.
5. Be continued for the least amount of time necessary to bring the individual's behavior under control.
6. Be appropriate to the situation to ensure safety.

**B.** When an emergency measure, including the use of behavior modifying medications pursuant to R6-6-909(D), is employed to manage a sudden, intense, out-of-control behavior, the person employing that measure shall:

1. Immediately report the circumstances of the emergency measure to the person designated by the Division and to the responsible person.
2. Provide, within one working day, a complete written report of the circumstances of the emergency measure to the responsible person, the case manager, the chairperson of the Program Review Committee, and the Human Rights Committee.
3. Request that the case managers reconvene the ISPP team to determine the need for a new or revised behavior treatment plan when any emergency measure is used two or more times in a 30-day period or with any identifiable pattern.

**C.** Upon receipt of a written report as specified in subsection (B)(2) above, the PRC shall:

1. Review, evaluate and track reports of emergency measures taken; and
2. Report, to a person designated by the Division, instances of possible excessive or inappropriate use of emergency measures on a case-by-case basis for corrective action.

#### **Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-908 renumbered to R6-6-907, new Section R6-6-908 renumbered from R6-6-909 and amended effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

### **R6-6-909. Behavior-modifying Medications**

- A.** The Division shall make available the services of a consulting psychiatrist who shall review cases and provide recommendations to prescribing physicians to ensure that the medication prescribed is the most appropriate in type and dosage to meet the client's needs.
- B.** Behavior-modifying medications shall be prescribed and administered only:
1. When, in the opinion of a licensed physician, they will be effective in producing an increase in appropriate behaviors; and it can be justified that the harmful effects of the behavior clearly outweigh the potential negative effects of the behavior modifying medication.
  2. As part of a behavior treatment plan in the ISPP.
  3. With the informed consent of the responsible person.
- C.** The Division shall provide the following monitoring, in addition to that specified in R6-6-905, for all behavior treatment plans that include the use of a behavior-modifying medication:
1. Ensure that collected data relative to the client's response to the medication is evaluated, at least quarterly, at a medication review by the physician and the member of the ISPP team designated pursuant to R6-6-905 and other members of the ISPP team as needed.
  2. Ensure that each client receiving a behavior-modifying medication is screened for side effects, and Tardive Dyskinesia as needed, and that the results of such screening are:
    - a. Documented in the client's case record;
    - b. Provided immediately to the physician, responsible person, and ISPP team for appropriate action if the screening results are positive; and
    - c. Provided to the Program Review Committee and the Human Rights Committee within 15 working days for review of screening results that are positive.

**D.** In the event of an emergency, a physician's order for a behavior modifying medication may, if appropriate, be requested for a specific one-time emergency use. The person administering the medication shall immediately report it pursuant to R6-6-908(B).

**E.** The responsible person shall immediately be notified of any changes in medication type or dosage.

**Historical Note**

Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-909 renumbered to R6-6-908, new Section R6-6-909 renumbered from R6-6-910 and amended effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).

**R6-6-910. Renumbered**

**Historical Note**

**Adopted effective February 21, 1990 (Supp. 90-1). Amended effective June 7, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-2). Former Section R6-6-910 renumbered to R6-6-909 effective September 30, 1993, under an exemption from A.R.S. Title 41, Chapter 6 (Supp. 93-3).**

36-552. Developmental disabilities function; expenditure limitation

A. The department shall function as the developmental disabilities authority for the state of Arizona.

B. No provisions of this chapter shall be construed to give the department control of lawful activities of other governmental agencies or of activities of the universities or colleges of this state in the field of developmental disabilities, unless by specific contract or agreement therefor.

C. Subject to annual legislative appropriation and other available funding, the department shall provide a wide variety of developmental disability programs and services throughout the state in response to the wide range of developmental disability conditions, the capabilities of persons with developmental disabilities and the presence of other disabling conditions for persons with developmental disabilities.

D. The department may contract with other state agencies and with private agencies to provide the developmental disabilities program or service.

E. The total amount of state monies that may be spent in any fiscal year by the department for developmental disabilities services pursuant to this chapter shall not exceed the amount appropriated or authorized by section 35-173 for that purpose. This chapter shall not be construed to impose a duty on an officer, agent or employee of this state to discharge a responsibility or to create any right in a person or group if the discharge or right would require an expenditure of state monies in excess of the expenditure authorized by legislative appropriation for that specific purpose.

36-554. Powers and duties of director

A. The director shall:

1. Be responsible for developing and annually revising a statewide plan and initiating statewide programs and services for persons with developmental disabilities in locations where the programs and services are necessary, which shall include:

(a) Child services, which may include infant stimulation, developmental training for pre-school children and special education at Arizona training program facilities for school-age, children with developmental disabilities residing at Arizona training program facilities who do not attend public school.

(b) Adult services, in coordination with the vocational rehabilitation services of the department, which may include but not be limited to job training and training and adjustment services, job development and placement, sheltered employment and other nonvocational day activity services for adults.

(c) Residential services, including various community residential settings, Arizona training program facilities and state operated service centers which provide varying levels of supervision in accordance with the developmental disability levels of the persons placed at such settings, facilities

or centers. The department shall contract with private profit or nonprofit agencies to provide appropriate residential settings for persons with developmental disabilities which provide for regular assistance and supervision of such persons and which provide varied developmental disability programs and services on or near the community residential setting.

(d) Resource services, which may include comprehensive evaluation services, information and referral services and outpatient rehabilitation and social development services. The department in providing developmental disability programs and services shall whenever practicable utilize qualified private contractors. In selecting private contractors, the department shall utilize those contractors which can clearly demonstrate an ability to perform such contract in accordance with standards and specifications adopted by the department.

2. Establish standards, provide technical assistance, and supervise all developmental disability programs and services operated by or supported by the department.

3. Coordinate the planning and implementation of developmental disability programs and activities, institutional and community, of all state agencies, provided this shall not be construed as depriving other state agencies of jurisdiction over, or the right to plan for, control, and operate programs that pertain to developmental disability programs but that fall within the primary jurisdiction of such other state agencies.

4. Periodically assess the effectiveness of the quality assurance system as required by 42 Code of Federal Regulations section 434.34 as it pertains to developmental disabilities programs.

5. License community residential settings pursuant to this chapter.

6. Develop rules establishing a procedure for handling complaints about community residential settings.

7. Inform in writing every parent or guardian of a client with a developmental disability residing at or transferring to a community residential setting of the complaint handling procedure.

8. As new community residential settings are developed over a period of time, reduce the clientele at Arizona training program facilities to those persons with developmental disabilities who are required to be in Arizona training program facilities because the community lacks an appropriate community residential setting that meets their individual needs or whose parents or legal guardians want them in an Arizona training program facility.

9. In conjunction with the division, individuals with developmental disabilities and their families, advocates, community members and service providers, develop, enhance and support environments that enable individuals with developmental disabilities to achieve and maintain physical well-being, personal and professional satisfaction, participation as family and community members and safety from abuse and exploitation.

10. Do all other things reasonably necessary and proper to carry out the duties and the provisions of this chapter.

11. Adopt rules regarding procurement procedures similar to those found in title 41, chapter 23.

B. Programs and services offered pursuant to subsection A, paragraph 1 of this section shall be provided in cooperation with public and private resources that can best meet the needs of persons with developmental disabilities and that are located in the community and in proximity to the persons being served.

C. The director may:

1. Establish nonresidential outpatient programs for placement, evaluation, care, treatment and training of persons with developmental disabilities residing in the community who are not eligible for public school programs, and who do not have access to other state supported programs providing equivalent services.

2. Develop cooperative programs with other state departments and agencies, political subdivisions of the state, and private agencies concerned with and providing services for persons with developmental disabilities.

3. Contract for the purchase of services with other state and local governmental or private agencies. Such agencies are authorized to accept and expend funds received pursuant to such contracts.

4. Stimulate research by public and private agencies, institutions of higher learning, and hospitals in the interest of the prevention of developmental disabilities and improved methods of care and training for persons with developmental disabilities.

5. Apply for, accept, receive, hold in trust or use in accordance with the terms of the grant or agreement any public or private funds or properties, real or personal, granted or transferred to it for any purpose authorized by this chapter.

6. Make and amend rules from time to time as deemed necessary for the proper administration of programs and services for the treatment of persons with developmental disabilities, for the admission of persons with developmental disabilities to the programs and services and to carry out the purposes of this chapter.

#### 41-1954. Powers and duties

A. In addition to the powers and duties of the agencies listed in section 41-1953, subsection E, the department shall:

1. Administer the following services:

(a) Employment services, including manpower programs and work training, field operations, technical services, unemployment compensation, community work and training and other related functions in furtherance of programs under the social security act, as amended, the Wagner-Peyser act, as amended, the federal unemployment tax act, as amended, 33 United States Code, the family support act of 1988 (P.L. 100-485) and other related federal acts and titles.

(b) Individual and family services, which shall include a section on aging, services to children, youth and adults and other related functions in furtherance of social service programs under the social security act, as amended, title IV, except parts B and E, grants to states for aid and services to needy families with children and for child welfare services, title XX, grants to states for services, the older Americans act, as amended, the family support act of 1988 (P.L. 100-485) and other related federal acts and titles.

(c) Income maintenance services, including categorical assistance programs, special services unit, child support collection services, establishment of paternity services, maintenance and operation of a state case registry of child support orders, a state directory of new hires, a support payment clearinghouse and other related functions in furtherance of programs under the social security act, title IV, grants to states for aid and services to needy families with children and for child welfare services, title XX, grants to states for services, as amended, and other related federal acts and titles.

(d) Rehabilitation services, including vocational rehabilitation services and sections for the blind and visually impaired, communication disorders, correctional rehabilitation and other related functions in furtherance of programs under the vocational rehabilitation act, as amended, the Randolph-Sheppard act, as amended, and other related federal acts and titles.

(e) Administrative services, including the coordination of program evaluation and research, interagency program coordination and in-service training, planning, grants, development and management, information, legislative liaison, budget, licensing and other related functions.

(f) Manpower planning, including a state manpower planning council for the purposes of the federal-state-local cooperative manpower planning system and other related functions in furtherance of programs under the comprehensive employment and training act of 1973, as amended, and other related federal acts and titles.

(g) Economic opportunity services, including the furtherance of programs prescribed under the economic opportunity act of 1967, as amended, and other related federal acts and titles.

(h) Intellectual disability and other developmental disability programs, with emphasis on referral and purchase of services. The program shall include educational, rehabilitation, treatment and training services and other related functions in furtherance of programs under the developmental disabilities services and facilities construction act (P.L. 91-517) and other related federal acts and titles.

(i) Nonmedical home and community based services and functions, including department-designated case management, housekeeping services, chore services, home health aid, personal care, visiting nurse services, adult day care or adult day health, respite sitter care, attendant care, home delivered meals and other related services and functions.

2. Provide a coordinated system of initial intake, screening, evaluation and referral of persons served by the department.
3. Adopt rules it deems necessary or desirable to further the objectives and programs of the department.
4. Formulate policies, plans and programs to effectuate the missions and purposes of the department.
5. Employ and determine the conditions of employment and prescribe the duties and powers of administrative, professional, technical, secretarial, clerical and other persons subject to chapter 4, article 4 and, as applicable, article 5 of this title as may be necessary in the performance of its duties, contract for the services of outside advisors, consultants and aides as may be reasonably necessary and reimburse department volunteers, designated by the director, for expenses in transporting clients of the department on official business.
6. Make contracts and incur obligations within the general scope of its activities and operations subject to the availability of funds.
7. Contract with or assist other departments, agencies and institutions of the state, local and federal governments in the furtherance of its purposes, objectives and programs.
8. Be designated as the single state agency for the purposes of administering and in furtherance of each federally supported state plan.
9. Accept and disburse grants, matching funds and direct payments from public or private agencies for the conduct of programs that are consistent with the overall purposes and objectives of the department.
10. Provide information and advice on request by local, state and federal agencies and by private citizens, business enterprises and community organizations on matters within the scope of its duties subject to the departmental rules on the confidentiality of information.
11. Establish and maintain separate financial accounts as required by federal law or regulations.
12. Advise and make recommendations to the governor and the legislature on all matters concerning its objectives.
13. Have an official seal that is judicially noticed.
14. Annually estimate the current year's population of each county, city and town in this state, using the periodic census conducted by the United States department of commerce, or its successor agency, as the basis for such estimates and deliver such estimates to the economic estimates commission before December 15.

15. Estimate the population of any newly annexed areas of a political subdivision as of July 1 of the fiscal year in which the annexation occurs and deliver such estimates as promptly as is feasible after the annexation occurs to the economic estimates commission.

16. Establish and maintain a statewide program of services for persons who are both hearing impaired and visually impaired and coordinate appropriate services with other agencies and organizations to avoid duplication of these services and to increase efficiency. The department of economic security shall enter into agreements for the utilization of the personnel and facilities of the department of economic security, the department of health services and other appropriate agencies and organizations in providing these services.

17. Establish and charge fees for deposit in the department of economic security prelayoff assistance services fund to employers who voluntarily participate in the services of the department that provide job service and retraining for persons who have been or are about to be laid off from employment. The department shall charge only those fees necessary to cover the costs of administering the job service and retraining services.

18. Establish a focal point for addressing the issue of hunger in this state and provide coordination and assistance to public and private nonprofit organizations that aid hungry persons and families throughout this state. Specifically such activities shall include:

(a) Collecting and disseminating information regarding the location and availability of surplus food for distribution to needy persons, the availability of surplus food for donation to charity food bank organizations, and the needs of charity food bank organizations for surplus food.

(b) Coordinating the activities of federal, state, local and private nonprofit organizations that provide food assistance to the hungry.

(c) Accepting and disbursing federal monies, and any state monies appropriated by the legislature, to private nonprofit organizations in support of the collection, receipt, handling, storage and distribution of donated or surplus food items.

(d) Providing technical assistance to private nonprofit organizations that provide or intend to provide services to the hungry.

(e) Developing a state plan on hunger that, at a minimum, identifies the magnitude of the hunger problem in this state, the characteristics of the population in need, the availability and location of charity food banks and the potential sources of surplus food, assesses the effectiveness of the donated food collection and distribution network and other efforts to alleviate the hunger problem, and recommends goals and strategies to improve the status of the hungry. The state plan on hunger shall be incorporated into the department's state comprehensive plan prepared pursuant to section 41-1956.

(f) Establishing a special purpose advisory council on hunger pursuant to section 41-1981.

19. Establish an office to address the issue of homelessness and to provide coordination and assistance to public and private nonprofit organizations that prevent homelessness or aid homeless individuals and families throughout this state. These activities shall include:

(a) Promoting and participating in planning for the prevention of homelessness and the development of services to homeless persons.

(b) Identifying and developing strategies for resolving barriers in state agency service delivery systems that inhibit the provision and coordination of appropriate services to homeless persons and persons in danger of being homeless.

(c) Assisting in the coordination of the activities of federal, state and local governments and the private sector that prevent homelessness or provide assistance to homeless people.

(d) Assisting in obtaining and increasing funding from all appropriate sources to prevent homelessness or assist in alleviating homelessness.

(e) Serving as a clearinghouse on information regarding funding and services available to assist homeless persons and persons in danger of being homeless.

(f) Developing an annual state comprehensive homeless assistance plan to prevent and alleviate homelessness.

(g) Submitting an annual report to the governor, the president of the senate and the speaker of the house of representatives on the status of homelessness and efforts to prevent and alleviate homelessness. The department shall provide a copy of this report to the secretary of state.

20. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

21. Exchange information, including case specific information, and cooperate with the department of child safety for the administration of the department of child safety's programs.

B. If the department of economic security has responsibility for the care, custody or control of a child or is paying the cost of care for a child, it may serve as representative payee to receive and administer social security and United States department of veterans affairs benefits and other benefits payable to such child. Notwithstanding any law to the contrary, the department of economic security:

1. Shall deposit, pursuant to sections 35-146 and 35-147, such monies as it receives to be retained separate and apart from the state general fund on the books of the department of administration.

2. May use such monies to defray the cost of care and services expended by the department of economic security for the benefit, welfare and best interests of the child and invest any of the monies that the director determines are not necessary for immediate use.

3. Shall maintain separate records to account for the receipt, investment and disposition of funds received for each child.

4. On termination of the department of economic security's responsibility for the child, shall release any funds remaining to the child's credit in accordance with the requirements of the funding source or in the absence of such requirements shall release the remaining funds to:

(a) The child, if the child is at least eighteen years of age or is emancipated.

(b) The person responsible for the child if the child is a minor and not emancipated.

C. Subsection B of this section does not pertain to benefits payable to or for the benefit of a child receiving services under title 36.

D. Volunteers reimbursed for expenses pursuant to subsection A, paragraph 5 of this section are not eligible for workers' compensation under title 23, chapter 6.

E. In implementing the temporary assistance for needy families program pursuant to Public Law 104-193, the department shall provide for cash assistance to two-parent families if both parents are able to work only on documented participation by both parents in work activities described in title 46, chapter 2, article 5, except that payments may be made to families who do not meet the participation requirements if:

1. It is determined on an individual case basis that they have emergency needs.

2. The family is determined to be eligible for diversion from long-term cash assistance pursuant to title 46, chapter 2, article 5.

F. The department shall provide for cash assistance under temporary assistance for needy families pursuant to Public Law 104-193 to two-parent families for no longer than six months if both parents are able to work, except that additional assistance may be provided on an individual case basis to families with extraordinary circumstances. The department shall establish by rule the criteria to be used to determine eligibility for additional cash assistance.

G. The department shall adopt the following discount medical payment system for persons who the department determines are eligible and who are receiving rehabilitation services pursuant to subsection A, paragraph 1, subdivision (d) of this section:

1. For inpatient hospital admissions and outpatient hospital services the department shall reimburse a hospital according to the rates established by the Arizona health care cost containment system administration pursuant to section 36-2903.01, subsection G.

2. The department's liability for a hospital claim under this subsection is subject to availability of funds.

3. A hospital bill is considered received for purposes of paragraph 5 of this subsection on initial receipt of the legible, error-free claim form by the department if the claim includes the following error-free documentation in legible form:

(a) An admission face sheet.

(b) An itemized statement.

(c) An admission history and physical.

(d) A discharge summary or an interim summary if the claim is split.

(e) An emergency record, if admission was through the emergency room.

(f) Operative reports, if applicable.

(g) A labor and delivery room report, if applicable.

4. The department shall require that the hospital pursue other third-party payors before submitting a claim to the department. Payment received by a hospital from the department pursuant to this subsection is considered payment by the department of the department's liability for the hospital bill. A hospital may collect any unpaid portion of its bill from other third-party payors or in situations covered by title 33, chapter 7, article 3.

5. For inpatient hospital admissions and outpatient hospital services rendered on and after October 1, 1997, if the department receives the claim directly from the hospital, the department shall pay a hospital's rate established according to this section subject to the following:

(a) If the hospital's bill is paid within thirty days of the date the bill was received, the department shall pay ninety-nine percent of the rate.

(b) If the hospital's bill is paid after thirty days but within sixty days of the date the bill was received, the department shall pay one hundred percent of the rate.

(c) If the hospital's bill is paid any time after sixty days of the date the bill was received, the department shall pay one hundred percent of the rate plus a fee of one percent per month for each month or portion of a month following the sixtieth day of receipt of the bill until the date of payment.

6. For medical services other than those for which a rate has been established pursuant to section 36-2903.01, subsection G, the department shall pay according to the Arizona health care cost containment system capped fee-for-service schedule adopted pursuant to section 36-2904, subsection K or any other established fee schedule the department determines reasonable.

H. The department shall not pay claims for services pursuant to this section that are submitted more than nine months after the date of service for which the payment is claimed.

I. To assist in the location of persons or assets for the purpose of establishing paternity, establishing, modifying or enforcing child support obligations and other related functions, the department has access, including automated access if the records are maintained in an automated database, to records of state and local government agencies, including:

1. Vital statistics, including records of marriage, birth and divorce.
2. State and local tax and revenue records, including information on residence address, employer, income and assets.
3. Records concerning real and titled personal property.
4. Records of occupational and professional licenses.
5. Records concerning the ownership and control of corporations, partnerships and other business entities.
6. Employment security records.
7. Records of agencies administering public assistance programs.
8. Records of the motor vehicle division of the department of transportation.
9. Records of the state department of corrections.
10. Any system used by a state agency to locate a person for motor vehicle or law enforcement purposes, including access to information contained in the Arizona criminal justice information system.

J. Notwithstanding subsection I of this section, the department or its agents shall not seek or obtain information on the assets of an individual unless paternity is presumed pursuant to section 25-814 or established.

K. Access to records of the department of revenue pursuant to subsection I of this section shall be provided in accordance with section 42-2003.

L. The department also has access to certain records held by private entities with respect to child support obligors or obligees, or individuals against whom such an obligation is sought. The information shall be obtained as follows:

1. In response to a child support subpoena issued by the department pursuant to section 25-520, the names and addresses of these persons and the names and addresses of the employers of these

persons, as appearing in customer records of public utilities, cable operators and video service providers.

2. Information on these persons held by financial institutions.

M. Pursuant to department rules, the department may compromise or settle any support debt owed to the department if the director or an authorized agent determines that it is in the best interest of this state and after considering each of the following factors:

1. The obligor's financial resources.

2. The cost of further enforcement action.

3. The likelihood of recovering the full amount of the debt.

N. Notwithstanding any law to the contrary, a state or local governmental agency or private entity is not subject to civil liability for the disclosure of information made in good faith to the department pursuant to this section.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** December 6, 2022

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** November 21, 2022

**SUBJECT: DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS**  
Title 20, Chapter 6, Article 4

**Amend:** R20-6-407

---

### **Summary:**

This regular rulemaking from the Department of Insurance and Financial Institutions seeks to amend one (1) rule in Title 20, Chapter 6, Article 4, related to Service Companies. In this rulemaking, the Department intends to amend the rules to comply with recent changes to the Service Company Act (A.R.S. §§ 20-1095 to 20-1095.10).

The Department received an initial exception from the rulemaking moratorium to initiate this rulemaking on March 29, 2021 and final approval to submit it to the Council on October 17, 2022.

**1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

Yes, the Department cites both general and specific statutory authority for these rules.

**2. Do the rules establish a new fee or contain a fee increase?**

No, the Department indicates that the rules do not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

No, the Department indicates that it did not review or rely on any study in conducting this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The Department states that the purpose of this rulemaking is to align with and clarify the existing statutory requirements for service companies. The rulemaking clarifies the statutory requirements by defining statutory terms, itemizing permit application and renewal requirements, defining the term of a permit, providing guidance regarding the financial responsibility requirements listed in A.R.S. § 20-1095.04, and listing the provisions that are reviewed by the Department in policy form filings.

Listing the policy form filing provisions is intended to improve the understandability of the forms, allowing consumers to make more informed decisions when entering into service contracts. Improving the understandability of the forms is anticipated to reduce consumer complaints received by the Department, as well as reduce the resources that service companies allocate to responding to such complaints.

The Department anticipates that service companies will incur compliance costs associated with the permitting and form approval processes. However, the improved understandability of the forms is anticipated to reduce the costs associated with responding to customer complaints.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department notes that the rulemaking is required by statute, and costs incurred are due to the statute rather than the rule. The Department further states that industry stakeholders have not identified any costs associated with the rule other than the compliance costs of form filings. By eliminating the requirement for new form filings, the Department indicates that it has selected the course of action that imposes the least burden and costs to those who are regulated.

6. **What are the economic impacts on stakeholders?**

The Department anticipates minimal financial impact to service companies, including no anticipated effect on revenues or payroll expenditures. The changes to the statutory sections have been in place since 2018 and 2021, which the industry ran with no

Department input. Service companies should be well aware of any changes they need to make in order to be compliant with the statutory changes.

In addition, this rulemaking has had a high level of stakeholder involvement with cooperation from the Department to try to reduce the need for new form filings which are costly to service companies. The rule also includes changes to the renewal process that extends the term of the permit to three months after the end of the service company's fiscal year. This extends the period of time a service company can renew its permit without losing the active status of its permit. This is a benefit which will be newly available to service companies when this rule becomes effective.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

No; the Department indicates that it has made one change between the latest supplemental proposed and final rulemaking to replace "Division" with "Department" throughout the rule. The Department indicates that this is a non-substantial change under A.R.S. § 41-1025(B).

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

Yes; between the latest supplemental proposed and final rulemaking, the Department has received one comment in support of the rulemaking. For the proposed rulemaking and supplemental proposed rulemaking, the Department received various comments from industry stakeholders. The Department responded to each comment with specificity and implemented rule amendments as needed.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Department indicates that A.R.S. § 20-1095.01(A) requires a service company to obtain a traditional permit from the Department before issuing service contracts. The rule details the permit application, term, financial requirements, and renewal requirements.

The Department complies with A.R.S. § 41-1037 under A.R.S. § 41-1037(A)(2) because the Department issues traditional permits specifically authorized under A.R.S. § 20-1095.01(A).

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

No; the Department indicates that there is no corresponding federal law.

11. **Conclusion**

The Department seeks to amend one rule in Title 20, Chapter 6, Article 4 to ensure that the rule is consistent with recent statutory amendments. The Department is seeking the standard 60-day delayed effective date for this rulemaking. Council staff recommends approval of this rulemaking.

**RE:** Arizona Department of Insurance and Financial Institutions  
Insurance Division  
A.A.C. R20-6-407 – Service Companies

Dear Chairperson Sornsin:

Please find enclosed the Final Rulemaking for A.A.C. R20-6-407, the Service Companies rule, being submitted by the Arizona Department of Insurance and Financial Institutions ("Department").

Pursuant to A.A.C. R1-6-201(A)(1), the Department responds as follows:

- a. The Department closed the record on this rulemaking on September 18, 2022 (after publication of the second Notice of Supplemental Proposed Rulemaking).
- b. This rulemaking does not relate to a five-year review report. Instead, this rulemaking is an effort to conform the rule to the statutory changes made to the Service Companies Act (A.R.S. §§ 20-1095 through 20-1095.10) in 2018 (Laws 2018, Ch. 150, § 1) and 2021 (Laws 2021, Ch. 5, §§ 16-18 and Laws 2021, Ch. 163, § 1). The Department has already expired rule R20-6-408 to reflect the elimination of motor vehicle service contract programs. (24 A.A.R. 3106, November 2, 2018.)
- c. The rulemaking does not establish a new fee.
- d. The rulemaking does not contain a fee increase.
- e. The rulemaking does not request an immediate effective date under A.R.S. § 41-1032.
- f. The Department certifies that the preamble discloses a reference to any study relevant to the rule that it reviewed and either did or did not rely on in its evaluation of or justification for the rulemaking. The Department did not review or rely on any study relevant to the rulemaking.
- g. No new full-time employees are necessary to implement and enforce the rule.
- h. The following documents are also submitted to the Council with this cover letter:
  - i. The Notice of Final Rulemaking;
  - ii. An economic, small business, and consumer impact statement that contains the information required by A.R.S. § 41-1055;

- iii. The written comments received by the Department concerning the Notice of Proposed Rulemaking, Notice of Supplemental Proposed Rulemaking published on April 1, 2022 and Notice of Supplemental Proposed Rulemaking published on August 19, 2022. Also included are the recorded Oral Proceedings conducted on November 4, 2021 and June 14, 2022; and
- iv. The general and specific statutes authorizing the rulemaking.

By this submission, the Department is requesting approval of this rulemaking from the Council.

For questions about this rulemaking, please contact Mary Kosinski at (602) 364-3476 or [mary.kosinski@difi.az.gov](mailto:mary.kosinski@difi.az.gov).

Sincerely,

Evan G. Daniels  
Director

**6. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

In 2018, the Legislature enacted sweeping changes to the service company statutes found at Arizona Revised Statutes ("ARS") §§ 20-1095 through 20-1095.10 ("Service Company Act") (Laws 2018, 2<sup>nd</sup> Reg. Sess., Ch. 150, § 1). Further changes have been enacted since that time (Laws 2021, Ch. 5, §§ 16 - 18 and Laws 2021, Ch. 163, § 1). The Arizona Department of Insurance and Financial Institutions, Insurance Division (“Department”) has already expired rule R20-6-408 to reflect the elimination of motor vehicle service contract programs. A.A.C. R20-6-407 requires changes to capture the current statutory requirements enacted in the Service Company Act.

**7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

The Department did not review and does not propose to rely on any study relevant to this rulemaking.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

The rulemaking regulates service companies which is of statewide interest to persons purchasing service contracts. The rulemaking does not diminish a previous grant of authority granted to the Department.

**9. The summary of the economic, small business, and consumer impact:**

Pursuant to A.R.S. § 41-1055(A)(1):

- The rulemaking is not designed to change any conduct of service companies not already required by statute. Instead, the rule clarifies statutory terms that are vague, itemizes what an applicant must submit when applying for a permit or a renewal of a permit while allowing for the late-renewal of a permit, defines the term of a permit, provides guidance on meeting the financial responsibility requirements of A.R.S. § 20-1095.04, and notifies service companies of the provisions the Department will be reviewing in policy form filings.
- The purpose of notifying service companies about policy forms is to promote more understandable forms which should allow consumers to make more informed decisions when entering into service contracts. Having informed consumers should reduce the complaints received by the Department about service company contracts and the time and attention that service companies must expend when responding to those complaints.

Pursuant to A.R.S. § 41-1055(A)(2):

- The costs incurred by service companies are not expected to impact revenues or payroll expenditures. Instead, the costs incurred are compliance costs incurred during the permitting process and forms approval process. Having more understandable policy forms should reduce costs to service companies incurred when responding to complaints filed with the Department.
- Industry groups have not articulated any specific costs other than costs associated with form filings. The Department believes that by eliminating provisions that require new form filings, it has selected an alternative that imposes the least burden and costs to persons regulated by the rule.

**10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

The Department published the original Notice of Proposed Rulemaking for Service Companies on July 30, 2021. (27 A.A.R. 1140, July 30, 2021.) At that time it also opened a Comment Period. During the Comment Period, a party requested an Oral Proceeding which had the effect of extending the Comment Period to the date of the Oral Proceeding. The Department scheduled and conducted the Oral Proceeding on November 4, 2021. (27 A.A.R. 1596, October 1, 2021.) As a result of the changes requested by the participants who were all service company industry representatives, the Department published a Notice of Supplemental Proposed Rulemaking on April 1, 2022. (28 A.A.R. 681, April 1, 2022.) The Notice of

Supplemental Proposed Rulemaking published on April 1, 2022, contained the following revisions to A.A.C. R20-6-407 from the original Notice of Proposed Rulemaking:

- Amending subsection (B)(7)(a), the definition for “Reasonable time” or “Reasonable period of time” from “As used in A.R.S. § 20-1095.06(C)(2), means at the time of purchase or mailed or electronically delivered but not more than two business days after the purchase date of the contract. If the service company mails the contract, it can establish proof of mailing by USPS certified mail or first class mail using intelligent barcode or another similar tracking method used or approved by the USPS. If a service company electronically delivers the contract it must be delivered consistent with the requirements of Title 44, Chapter 26.” to “As used in A.R.S. § 20-1095.06(C)(2), means at the time of purchase or mailed or electronically delivered but not more than ten business days after the purchase date of the contract. The service company must be able to provide proof of delivery if requested by the Division.”
- Adding subsection (B)(9) which is a definition for “Subcontractor” as “means a person or business having a contractual relationship with the service company to provide work or services which a service company has agreed to perform under a service contract. If required by the type of work being performed, all subcontractors must be licensed.”
- Amending subsection (C)(2)(h), which governs information required in the application for a permit, from “A list of the applicant’s officers, directors, managers, and persons owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company;” to “A list of the applicant’s officers, directors, LLC managers, and persons owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company;”
- Deleting subsection (C)(2)(j) from the information required in the application for a permit which read “The types of items the applicant intends to cover under its service contracts;”
- Renumbering subsection (C)(2)(k) to (C)(2)(j).
- Renumbering subsection (C)(2)(l) to (C)(2)(k) and amending the information required in the application for a permit from “A summary of the applicant’s financial position;” to “A summary of the applicant’s financial position including current assets, current liabilities, equity and income;”
- Renumbering subsection (C)(2)(m) to (C)(2)(l).
- Renumbering subsection (C)(2)(n) to (C)(2)(m) and amending the information required in the application for a permit from “Any other information the Division deems necessary.” to “Any other information the Division deems necessary to aid in the approval of the application.”
- Amending subsection (C)(3)(a) which lists the attachments required in the application for a permit from “A copy of the service company’s most recent financial statement, including an income statement and a balance sheet, verified by a certified public accountant.” to “A copy of the service company’s most recent financial statement sworn to and certified by the owner, duly elected

officer or a certified public accountant.”

- Amending subsection (C)(3)(c) which lists the attachments required in the application for a permit from “A biographical affidavit, on a form approved by the Division, for each officer, director, manager, or person owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company.” to “A biographical affidavit, on a form approved by the Division, for each officer, director, LLC manager, or person owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company.”
- Deleting subsection (C)(3)(d) from the attachments required in the application for a permit which read “A list of subcontractors who are under common ownership or control or are affiliated with the applicant. If required by the type of work being performed, all subcontractors must be licensed.”
- Renumbering subsection (C)(3)(e) to (C)(3)(d) and amending the attachments required in the application for a permit from “A list of any actions taken against the applicant and a list of actions taken against any of the owners, officers, managers, or directors of the applicant in any jurisdiction by a regulatory agency or state attorney general.” to “A list of any actions taken against the applicant in any jurisdiction by a regulatory agency or state attorney general.”
- Amending subsection (D)(2), which pertains to the term of a service company permit, from “The Division is not required to issue a paper copy of the service company permit.” to “The Division is not required to issue a paper copy of the service company permit. However, the Division will make a copy of the service company permit available by electronic or other means.”
- Amending subsection (E)(2)(d), which governs the information required in a service company permit renewal form, from “Any changes to the types of items the service company intends to cover under its service contracts; and” to “A summary of the applicant’s financial position including current assets, current liabilities, equity and income; and”
- Amending subsection (E)(2)(e), which governs the information required in a service company permit renewal form, from “Any other information the Division deems necessary.” to “Any other information the Division deems necessary to aid in the renewal of the permit.”
- Amending subsection (E)(3)(a) which lists the attachments required in the permit renewal form from “A copy of the service company’s financial statement as of the end of the service company’s most recently completed fiscal year, including an income statement and a balance sheet, verified by a certified public accountant.” to “A copy of the service company’s financial statement as of the end of the service company’s most recently completed fiscal year, sworn to and certified by the owner, duly elected officer or a certified public accountant.”
- Amending subsection (E)(3)(c) which lists the attachments required in the permit renewal form from “Any additions or deletions to the officers, directors, managers, or persons owning 25% or more of the service company, or to an entity that owns the service company since the last report to

the Division.” to “Any additions or deletions to the officers, directors, LLC managers, or persons owning 25% or more of the service company, or to an entity that owns the service company since the last report to the Division.”

- Deleting subsection (E)(3)(e) from the attachments required in the permit renewal form which read “Any additions or deletions to the subcontractors that are under common ownership or control or are affiliated with the service company since the last report to the Division. If required by the type of work being performed, all subcontractors must be licensed.”
- Renumbering subsection (E)(3)(f) to (E)(3)(e) and amending the attachments required in the permit renewal form from “Any actions taken against the service company or any of the owners, officers, or directors of the service company in any jurisdiction by a regulatory agency or state attorney general not previously reported to the Division.” to “Any actions taken against the service company in any jurisdiction by a regulatory agency or state attorney general not previously reported to the Division.”
- Amending subsection (G)(2)(b), which governs the content of service company forms, from “Itemizes each of the systems, products and appliances covered by the contract and, in bold-faced type, preferably in a larger font, the specific items or components of those systems, products, and appliances which are excluded from coverage. Any item or component not specifically excluded from a covered system, product or appliance is covered;” to “Identifies the covered products under the contract and, in bold-faced type, preferably in a larger font, the specific items or components of those products which are excluded;”
- Amending subsection (G)(2)(f), which governs the content of service company forms, from “Notifies the contract holder that the denial of a claim can be appealed if the contract holder can produce a home inspection report, maintenance records, or other evidence that show the contract holder was not aware, at the time of contracting, of any preexisting condition that would be the basis for the denial of the claim;” to “Notifies the contract holder that the denial of a claim can be appealed if the contract holder can produce a home inspection report or maintenance records, or other applicable supporting documents;”
- Amending subsection (G)(2)(i), which governs the content of service company forms, from “States that the administrative expenses may not exceed \$75 or 10% of the purchase price of the service contract, whichever is less, when providing a pro rata refund upon cancellation of the service contract before the end of the coverage period of the service contract.” to “If providing a pro rata refund upon cancellation of the service contract before the end of the coverage period of the service contract, the service contract shall contain language in conformance with A.R.S. § 20-1095.06(D)(9).”

The Notice of Supplemental Proposed Rulemaking published on April 1, 2022 opened a Comment Period. During the Comment Period, a party requested an Oral Proceeding which had the effect of extending the

Comment Period to the date of the Oral Proceeding. The Department scheduled and conducted a second Oral Proceeding on June 14, 2022. (28 A.A.R. 1009, May 13, 2022.) As a result of the changes requested by the participants who were all service company industry representatives, the Department published a second Notice of Supplemental Proposed Rulemaking on August 19, 2022. (28 A.A.R. 2051, August 19, 2022.) The Notice of Supplemental Proposed Rulemaking published on August 19, 2022, contained the following revisions to A.A.C. R20-6-407 from the April 1, 2022 Notice of Supplemental Proposed Rulemaking:

- Deleting subsection (G)(2)(f), which governs the content of service company forms, which read “Notifies the contract holder that the denial of a claim can be appealed if the contract holder can produce a home inspection report or maintenance records, or other applicable supporting documents;”
- Renumbering subsection (G)(2)(g) to (G)(2)(f).
- Renumbering subsection (G)(2)(h) to (G)(2)(g).
- Renumbering subsection (G)(2)(i) to (G)(2)(h).

The Department received no request for an Oral Proceeding during the comment period and received one comment from industry representatives in support of the second Notice of Supplemental Proposed Rulemaking published on August 19, 2022.

One change, which the Department does not consider a substantive change, has been made to this Notice of Final Rulemaking from the Notice of Supplemental Proposed Rulemaking published on August 19, 2022. (28 A.A.R. 2051, August 19, 2022.) Because the rule was originally drafted when the Insurance Division was first established, “Division” was used throughout the rule to refer to the Insurance Division of the Department. Since that time, the Department has made the decision that it prefers to use the more general term “Department,” in rules. Consequently, “Division” has been replaced with “Department” throughout the rule and the following changes have been made to the Definitions:

- Subsection (B)(2) amended from ““Department” means the Arizona Department of Insurance and Financial Institutions.” to “Department” means the Arizona Department of Insurance and Financial Institutions, Insurance Division.”
- Subsection (B)(4) definition for “Division” deleted and the remaining subsections renumbered.

**11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The Department received comments from the following industry groups on the Notice of Proposed Rulemaking, Notice of Supplemental Proposed Rulemaking published on April 1, 2022 and the Notice of Supplemental Proposed Rulemaking published on August 19, 2022:

- The American Property Casualty Insurance Association (“APCIA”)
- The Consumer Credit Industry Association (“CCIA”)

- The National Home Service Contract Association (“NHSCA”)
- The Service Contract Industry Council (“SCIC”)

The Department received comments from the following additional industry group on the Notice of Supplemental Proposed Rulemaking published on August 19, 2022:

- The Motor Vehicle Protection Products Association

No consumers or consumer groups commented on the rulemaking.

### **Proposed Rulemaking published July 30, 2021**

For the Notice of Proposed Rulemaking published by the Department on July 30, 2021 (27 A.A.R. 1140, July 30, 2021), the stakeholders made the following summarized comments with the Department’s response:

#### **Definitions**

Subsections R20-6-407(B)(5) which read: “Insolvent” as used in A.R.S. § 20-1095.08(3) means total liabilities are equal to or exceed total assets.” and R20-6-407(B)(8) which read: “Solvent” as used in A.R.S. § 20-1095.03(A)(1) means total assets exceed total liabilities.”

Summarized comment: Definition is too narrow and should include the inability to pay debts as they become due.

Department response: Because of the limited financial reporting required of service companies for the permit and renewal process, the Department has no way of determining whether a service company is able to pay its debts as they become due. No change made.

Subsection R20-6-407(B)(6) which read: “Provider” means a person who is contractually obligated to the service contract holder under the terms of a service contract. “Provider” is synonymous with “service company” and “obligor” as defined in A.R.S. § 20-1095(6).”

Summarized comment: “Provider” is not used in the regulation and a definition for it is unnecessary.

Department response: “Provider” is used extensively throughout the statutory sections without a statutory definition. No change made.

Subsection R20-6-407(B)(7)(a) which read: “Reasonable time” or “Reasonable period of time:” a. As used in A.R.S. 20-1095.06(C)(2), means at the time of purchase or mailed or electronically delivered by not more than two business days after the purchase date of the contract. If a service company mails the contract, it can establish proof of mailing by USPS certified mail or first class mail using intelligent barcode or another similar tracking method used or approved by the USPS. If a service company electronically delivers the contract it must be delivered consistent with the requirements of Title 44, Chapter 26.”

Summarized comment: The requirements are burdensome, impose significant expense and unreasonable operational requirements without benefit to the consumer. Adds requirements to the statutory definition. A longer period of time (two weeks or 30 days) for delivery is considered reasonable. No state service contract statute requires proof of delivery.

Department response: Definition in subsection (B)(7)(a) amended to read: “As used in A.R.S. § 20-1095.06(C)(2), means at the time of purchase or mailed or electronically delivered but not more than 10 business days after the purchase date of the contract. The service company must be able to provide proof of delivery if requested by the Department.” Change reflected in Notice of Supplemental Proposed Rulemaking

published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(B)(7)(b) which read: “Reasonable time” or “Reasonable period of time:” b. As used in A.R.S. § 20-1095.09(A)(4), is what an ordinary person would consider “reasonable” under the totality of the circumstances.”

Summarized comment: This definition is highly subjective and could lead to confusion in the industry.

Department response: A.R.S. § 20-1095.09(A) allows: “A. The director may order any service company, its agents, officials and representatives, a motor vehicle dealer or an administrator to cease and desist from engaging in any unfair trade practices if upon notice and a hearing it is determined that the person has engaged in such practices. Unfair trade practices include: . . . 4. The failure to perform the services promised under the service contract within a reasonable time and in a competent workmanlike manner.” The Department is merely seeking to provide guidance in the context of an administrative hearing for an administrative law judge (“ALJ”) in interpreting this statute. Many complaints received by the Department involve failure of systems and inadequate response times by service companies. The rule clarifies that the standard an ALJ should use is an “ordinary person” expectation of performance under the circumstances. No change made.

#### **Application for a service company permit**

Subsection R20-6-407(C)(2)(f) which read: “Application. . . f. Applicant’s addresses, phone numbers, email address or addresses and website address or addresses.” and subsection R20-6-407(C)(2)(g) which read: “g. Name, address, and phone number or email address for each contact person of the applicant;”

Summarized comment: Information required in subsection (g) is duplicative of the information already required to be provided in subsection (f). Already provided in biographical affidavits.

Department response: Contact person is not typically an officer of the company. In addition, biographical affidavits do not contain email addresses and phone numbers. The Department needs both an administrative contact to answer questions about the application and a contact person for consumer complaints. No change made.

Subsection R20-6-407(C)(2)(h) which read: “Application. . . h. A list of the applicant’s officers, directors, managers, and persons owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company;”

Summarized comment: Biographical affidavit already provides information. This subsection is redundant and should be deleted. Appears to be an expansion of the disclosure requirements to list all “managers.”

Department response: Subsection (C)(2)(h) amended to read: “A list of the applicant’s officers, directors, LLC managers, and persons owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company;” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(C)(2)(j) which read: “Application. . . j. The types of items the applicant intends to cover under its service contracts;”

Summarized comment: Ambiguous and undefined. Recommend replacing “types of items” with “lines of business.”

Department response: Asking for lines of business. Used to track information so that the Department can respond to inquiries from consumers. Subsection is deleted. Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(C)(2)(l) which read: “Application. . . l. A summary of the applicant’s financial position;”

Summarized comment: This is a duplicative and ambiguous requirement. This information is already required under subsection (C)(3)(a). What constitutes a summary is unclear.

Department response: The service company permit application is a “Smart” form which asks the applicant to supply 4 fields: income, assets, liabilities, and equity. Only if the numbers indicate insolvency does the system prompt the applicant for further information. Use of the “Smart” form has reduced the time to process the applicant’s information and eliminates the need for the Department to request additional information. No change made.

Subsection R20-6-407(C)(2)(n) which read: “Application. . . n. Any other information the Division deems necessary.”

Summarized comment: Carte blanche language which allows for the DOI to ask for anything without notice is unfair and unduly burdensome. Language is too broad and confusing. Include some limiting language.

Department response: Subsection (C)(2)(n) amended to read: “Any other information the Division deems necessary to aid in the approval of the application.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

#### **Application for a service company permit – application attachments**

Subsection R20-6-407(C)(3)(c) which read: “Application attachments. . . c. A biographical affidavit, on a form approved by the Division, for each officer, director, manager, or person owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company.”

Summarized comment: Appears to be an expansion of the disclosure requirements to list all “managers.”

Department response: Subsection (C)(3)(c) is amended to read: “A biographical affidavit, on a form approved by the Division, for each officer, director, LLC manager, or person owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(C)(3)(d) which read: “Application attachments. . . d.. A list of subcontractors who are under common ownership or control or are affiliated with the applicant. If required by the type of work being performed, all subcontractors must be licensed.”

Summarized comment: Conflicts with A.R.S. § 20-1095.01. “Subcontractors” is a broad and undefined term which would confuse contract holders. The contract form already identifies the provider and administrator.

Department response: Subsection (C)(3)(d) is deleted. Instead, a definition for “Subcontractor” is added to subsection R20-6-407(B) to read: “9. “Subcontractor” means a person or business having a contractual relationship with a service company to provide work or services which a service company has agreed to perform under a service contract. If required by the type of work being performed, all subcontractors must be licensed.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(C)(3)(e) which read: “Application attachments. . . e. A list of any actions taken against the applicant and a list of actions taken against any of the owners, officers, managers, or directors of the

applicant in any jurisdiction by a regulatory agency or state attorney general.”

Summarized comment: Goes beyond statutory, NAIC and biological affidavit requirements. Too broad of a net.

Department response: Subsection (C)(3)(e) is amended to read: “A list of any actions taken against the applicant in any jurisdiction by a regulatory agency or state attorney general.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

#### **Term of service company permit**

Subsection R20-6-407(D)(2) which reads: “Term of service company permit. . . . 2. The Division is not required to issue a paper copy of the service company permit.”

Summarized comment: How will the Department notify applicants of their authority? Need clarifying language.

Department response: Subsection (D)(2) is amended to read: “The Division is not required to issue a paper copy of the service company permit. However, the Division will make a copy of the service company permit available by electronic or other means.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

#### **Permit renewal form**

Subsection R20-6-407(E) which read: “Service company permit renewal and late-renewal. . . . 2. Renewal form. A service company shall use the renewal form designated by the Division. The renewal form shall contain the following information:”

Summarized comment: Renewal should be limited to changes only. Add the phrase “that differ from the prior year’s application” to subsections (E)(2)(b), (E)(2)(c), (E)(3)(c) and (E)(3)(d). Delete reference to “administrator.”

Department response: The Department believes that the form already requests changes only. Yearly update of financials is needed. Information on the administrator is required in the initial application. *See*, Subsection R20-6-407(C). No change made.

Subsection R20-6-407(E)(1) which read: “Service company permit renewal and late-renewal. 1. Timely renewal. A service company seeking to renew its permit shall file with the Division a renewal application, consisting of the renewal application form, all required attachments and the renewal fee after the end of its fiscal year but before the expiration of its permit term. . . .”

Summarized comment: Using the service company’s fiscal year conflicts with the statute. Requiring the earlier of the end of the service company’s fiscal year but before the expiration of its permit term is unreasonable and unduly burdensome.

Department response: The end of the service company’s fiscal year has always been the benchmark for the expiration of the service company’s permit term. *See*, subsection (D)(1). No change made.

Subsection R20-6-407(E)(2)(c) which read: “Renewal form. . . . c. Any changes to the service company’s contact person or persons or service contract administrator, or their contact information;”

Summarized comment: Unnecessary as the administrator’s contact information would always appear in the service contract form.

Department response: The contact person should be updated annually with the submission of the permit renewal. No change made.

Subsection R20-6-407(E)(2)(d) which read: “Renewal form. . . . d. Any changes to the types of items the service company intends to cover under its service contracts; and”

Summarized comment: “Types of items” is unclear. Subsection should be deleted.

Department response: Subsection (E)(2)(d) is deleted. Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(E)(2)(e) which read: “Renewal form. . . e. Any other information the Division deems necessary.”

Summarized comment: Exceeds the requirements of statute. Should be deleted or include some limitation.

Department response: Subsection (E)(2)(e) amended to read: “e. Any other information the Division deems necessary to aid in the renewal of the permit.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(E)(5)(c) which read: “Service company permit renewal and late-renewal. . . 5. Late-renewed application and fee. . . c. Fee. In addition to the nonrefundable renewal fee required under subsection (E)(4) of this Section, the service company shall pay a nonrefundable additional fee of \$25 per day starting the calendar day after the permit term expiration and ending on the date the service company files a complete renewal application.”

Summarized comment: Fee is arbitrary, unreasonable and excessive.

Department response: Fee has always been in place and will not be imposed before the end of the 90-day grace period which occurs after the end of the service company’s fiscal year end. Not a reportable action. No change made.

#### **Permit renewal – renewal attachments**

Subsection R20-6-407(E)(3)(a) which read: “Renewal attachments. . . a. A copy of the service company’s financial statement as of the end of the service company’s most recently completed fiscal year, including an income statement and a balance sheet, verified by a certified public accountant.”

Summarized comment: Requiring verification by a certified public accountant is an unnecessary burden not contemplated by the statutory language. SB 1049 removed the requirement for audited financials and for verification by a CPA. Resort to the prior requirement of “sworn to and certified by the owner, duly elected officer or a CPA.”

Department response: Language of subsection (E)(3)(a) amended to read: “A copy of the service company’s financial statement as of the end of the service company’s most recently completed fiscal year, sworn to and certified by the owner, duly elected officer or a certified public accountant.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(E)(3)(e) which read: “Renewal attachments. . . e. Any additions or deletions to the subcontractors that are under common ownership or control or are affiliated with the service company since the last report to the Division. If required by the type of work being performed, all subcontractors must be licensed.”

Summarized comment: Conflicts with A.R.S. § 20-1095.01(C).

Department response: Subsection (E)(3)(e) is deleted. Instead, a definition for “Subcontractor” is added to subsection R20-6-407(B) to read: “9. “Subcontractor” means a person or business having a contractual relationship with a service company to provide work or services which a service company has agreed to perform under a service contract. If required by the type of work being performed, all subcontractors must be licensed.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

## Forms

Subsection R20-6-407(G)(1) which read: "Filing of forms. 1. Contract to be submitted for approval. A service company shall submit contracts for the Division's approval according to A.R.S. § 20-1095.06. A service company is not required to submit advertisements or marketing materials for approval by the Division but shall abide by the provisions of Title 20, Chapter 2 – Article 6, Chapter 4 – Article 11, and this Section regarding misrepresentations in the sales of service contracts."

Summarized comment: Application of insurance laws is prohibited by A.R.S. § 20-1095.02(C).

Department response: A.R.S. § 20-1095.02(C) states, in relevant part, that a service company is not subject to the insurance laws ". . . unless a provision is made expressly applicable to this article." Chapter 2 – Article 6 is made expressly applicable to service companies by A.R.S. § 20-441(B) which states: "For the purposes of this article, "insurance company" or "insurer" means any: . . . 9. Service company as defined in this title. . . ." Chapter 4 – Article 11 is the Article governing service companies. No change made.

Subsection R20-6-407(G)(2)(b) which read: "Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . b. Itemizes each of the systems, products and appliances covered by the contract and, in bold-faced type, preferably in a larger font, the specific items or components of those systems, products, and appliances which are excluded from coverage. Any item or component not specifically excluded from a covered system, product or appliance is covered;"

Summarized comment: Significant change in risk and conflicts with A.R.S. § 20-1095.06(D)(6). Would require the service company to constantly maintain a constantly evolving list of items or components and is therefore overly burdensome and unrealistic. Goes too far in affirming coverage for any item or component not specifically excluded. These are contracts of inclusion not exclusion. This provision would require constant change and refile of forms.

Department response: Language of subsection (G)(2)(b) amended to read: "Identifies the covered products under the contract and, in bold-faced type, preferably in a larger font, the specific items or components of those products which are excluded;" Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-407(G)(2)(d) which read: "Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . d. Specifies in clear and easily understood language the specific circumstances under which a contract holder may engage a subcontractor who is not recommended by the service company without becoming financially responsible under the contract and whether pre-authorization is required prior to engaging a subcontractor who is not recommended by the service company."

Summarized comment: Appears to prohibit pre-authorization. Difficult to administer. May lead to an endless cycle of form changes and excessively long contract forms. Could result in faulty repairs being made.

Department response: This works with the "reasonable time" definition in allowing a contract holder to procure a contractor when the service company cannot provide one on a timely basis. No change made.

Subsection R20-6-407(G)(2)(e) which read: "Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . e. Specifies in clear and easily understood language the service company's financial responsibilities to the contract holder when any of the systems, products or appliances covered by the contract cannot be replaced or repaired;"

Summarized comment: Unclear language that could lead to contract holder confusion. Administrator can resolve claims.

Department response: Consumer protection provision. No change made.

Subsection R20-6-407(G)(2)(f) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . f. Notifies the contract holder that the denial of a claim can be appealed if the contract holder can produce a home inspection report, maintenance records, or other evidence that show the contract holder was not aware, at the time of contracting, of any preexisting condition that would be the basis for the denial of the claim:”

Summarized comment: Expands the disclosure required regarding preexisting conditions under A.R.S. § 20-1095.06(D)(12). Adds potential burden to the provider to have to cover preexisting conditions.. “Other evidence” is ambiguous. Creates an appeal process for claim denials based on preexisting conditions.

Department response: Language of subsection (G)(2)(f) amended to read: “Notifies the contract holder that the denial of a claim can be appealed if the contract holder can produce a home inspection report or maintenance records, or other applicable supporting documents.” Change reflected in Notice of Supplemental Proposed Rulemaking published April 1, 2022. (28 A.A.R. 681, April 1, 2022)

Subsection R20-6-(G)(2)(h) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . h. States the dates of coverage under the service contract including any delay in coverage that differs from the purchase date of the contract which would extend the coverage term of the contract and any terms that govern renewal of the service contract; and”

Summarized comment: Exceeds the requirements of A.R.S. § 20-1095.06 which does not require that any coverage be extended or renewed. Add “if applicable” for clarity. Terms already addressed in the base form.

Department response: When a service contract has a waiting period, the contract holder may lose coverage during the waiting period and be short-changed. This corrects this problem. No change.

Subsection R20-6-407(G)(2)(i) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . i. States that the administrative expenses may not exceed \$75 or 10% of the purchase price of the service contract, whichever is less, when providing a pro rata refund upon cancellation of the service contract before the end of the coverage period of the service contract.

Summarized comment: Requires disclosure even if no cancellation. Conflicts with A.R.S. § 20-1095.06(D)(9) which requires disclosure “if applicable.”

Department response: Language of subsection (G)(2)(i) amended to read: “If providing a pro rata refund upon cancellation of the service contract before the end of the coverage period of the service contract, the service contract shall contain language in conformance with A.R.S. § 20-1095.06(D)(9).”

The Department also received the following general comments not related to any rule subsection:

- The Department exceeds the authority granted by A.R.S. § 20-1095.01(C).
- Changes to forms should be allowed on a going-forward basis.

Subsequent to the Oral Proceeding conducted on November 4, 2021, the Department had additional meetings with stakeholders on January 5, 2022 and February 24, 2022. The Department published agendas for both these meetings on the Department of Administration public meetings website (<https://publicmeetings.az.gov/>).

### **Supplemental Proposed Rulemaking published April 1, 2022**

For the Notice of Supplemental Proposed Rulemaking published by the Department on April 1, 2022 (28 A.A.R. 681, April 1, 2022), the stakeholders made the following summarized comments with the Department’s response:

## **Definitions**

Subsection R20-6-407(B)(7)(a) which read: “7. Reasonable time” or “Reasonable period of time:” a. As used in A.R.S. § 20-1095.06(C)(2), means at the time of purchase or mailed or electronically delivered but not more than 10 business days after the purchase date of the contract. The service company must be able to provide proof of delivery if requested by the Department.”

Summarized comment: When tied to a real estate closing, the 10-day requirement may not be able to be met. Not a rare occurrence and excludes context.

Department response: Occurrence seems too rare to drive an additional change to the subsection. Department would investigate a complaint to see if any extenuating or mitigating circumstances would excuse non-compliance. No change made.

Second Summarized comment: Maintaining proof of delivery can be cumbersome and expensive. The rule does not specify what constitutes “proof of delivery” especially for mailed contracts. Constitutes a higher standard.

Second Department response: “Proof of delivery” does not mean “proof of receipt.” The service company just needs to maintain some system that can demonstrate delivery of documents. No change made.

## **Forms**

Subsection R20-6-407(G)(2)(b) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . b. Identifies the covered products under the contract and, in bold-faced type, preferably in a larger font, the specific items or components of those products which are excluded;”

Summarized comment: Statute imposes “bold” but not “larger” font. “Preferably” and “larger” are ambiguous terms.

Department response: A.R.S. § 20-1095.06(D)(6) requires service contracts to be easy to read. No requirement being imposed. This is permissive language. No change made.

Second summarized comment: Requiring the “specific items or components of those products which are excluded” exceeds the authority of the statute. Rule only relates to “exclusions” and not “not covered” items.

Use language of statute regarding pre-existing conditions.

Second Department response: Does not implicate pre-existing conditions. Trying to get to specific components which are excluded from covered products. No change made.

Subsection R20-6-407(G)(2)(d) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . d. Specifies in clear and easily understood language the specific circumstances under which a contract holder may engage a subcontractor who is not recommended by the service company without becoming financially responsible under the contract and whether pre-authorization is required prior to engaging a subcontractor who is not recommended by the service company.”

Summarized comment: Industry would like clarification that an obligor is not obligated to disclose that it does not intend to use subcontractors that it may not have a previous relationship with to perform services. Add “if applicable.”

Department response: A.R.S. § 20-1095.06(D)(10) requires that the service contract set forth all the obligations and duties of the service contract holder. This provision is just meant to inform the contract holder regarding non-obligor subcontractors. No change made.

Subsection R20-6-407(G)(2)(e) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . e. Specifies in clear and easily understood language the service company’s financial responsibilities to the contract holder when any of the systems, products or appliances covered by the contract cannot be replaced or repaired;”

Summarized comment: Industry seeks clarification.

Department response: A.R.S. § 20-1095.06(D)(6) requires service contracts to specify any limits, exceptions or exclusions. Most contracts will set limits on what compensation they will provide to the contract holder. No change made.

Subsection R20-6-407(G)(2)(f) which read: “Filing of forms. . . . 2. Requirements for approval. No service contract form shall be approved unless it: . . . f. Notifies the contract holder that the denial of a claim can be appealed if the contract holder can produce a home inspection report or maintenance records, or other applicable supporting documents.”

Summarized comment: Adds formal appeal process. Requires language to be included in the service contract which triggers new forms that must be filed which is burdensome. Already part of the claim resolution process.

Department response: Subsection (G)(2)(f) deleted. Remaining subsections renumbered. Change reflected in Notice of Supplemental Proposed Rulemaking published August 19, 2022. (28 A.A.R. 2051, August 19, 2022)

The Department also received the following general comment not related to any rule subsection:

- Legislature intended to grandfather forms. Delay implementation of the rule to allow service companies to re-file their forms. Re-filing forms is costly to the service companies.

#### **Supplemental Proposed Rulemaking published August 19, 2022**

For the Notice of Supplemental Proposed Rulemaking published by the Department on August 19, 2022 (28 A.A.R. 2051, August 19, 2022), the stakeholders submitted one comment in support of the rulemaking.

#### **12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

No other matters prescribed by statute are applicable to the Department or to any specific rule or class of rules.

#### **a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

A.R.S. § 20-1095.01(A) requires a service company to obtain a traditional permit from the Department before it can issue service contracts. The rule notifies applicants about applying for the permit, the term of the permit, how to comply with the financial requirements for obtaining a permit, and how to renew the permit.

A general permit is not used because, under the exception established by A.R.S. § 41-1037(A)(2), the issuance of a traditional permit is specifically authorized under A.R.S. § 20-1095.01(A).

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

No federal law is applicable to the subject of the rule.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No formal analysis has been submitted to the Department that compares the rule's impact of the competitiveness of business in this state to the impact of business in other states.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

No materials are incorporated by reference.

**14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable. The rule was not previously made, amended or repealed as an emergency rule.

**15. The full text of the rules follows:**

**TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE**  
**CHAPTER 6. DEPARTMENT OF INSURANCE**  
**ARTICLE 4. TYPES OF INSURANCE COMPANIES**

Section

R20-6-407. Service Companies

**R20-6-407. Service Companies**

**A. Scope.** This rule shall apply to all service companies except those ~~which~~ that are exempt under A.R.S. § 20-1095.02.

**B. Definitions.** The definitions in A.R.S. § 20-1095 apply to this rule.

1. ~~“Gray Market” auto means an imported motor vehicle which has not been certified for all safety, emission, and other federal and state standards prior to the arrival of the vehicle into the United States.~~

“Contract Holder” has the same meaning as “consumer” as defined in A.R.S. § 20-1095(1).

2. ~~“Service” within the meaning of Article 11, Chapter 4, Title 20 includes reimbursement for towing, car rental, lodging or travel breakdown expenses.~~

“Department” means the Arizona Department of Insurance and Financial Institutions, Insurance Division.

3. ~~The “Contract Holder” means the consumer as defined in A.R.S. § 20-1095(1).~~

“Director” means the Director of the Department.

4. “Insolvent” as used in A.R.S. § 20-1095.08(3) means total liabilities are equal to or exceed total assets.

5. “Provider” means a person who is contractually obligated to the service contract holder under the terms of a service contract. “Provider” is synonymous with “service company” and “obligor” as defined in A.R.S. § 20-1095(6).

6. “Reasonable time” or “Reasonable period of time:”

a. As used in A.R.S. § 20-1095.06(C)(2), means at the time of purchase or mailed or electronically delivered but not more than 10 business days after the purchase date of the contract. The service company must be able to provide proof of delivery if requested by the Department.

b. As used in A.R.S. § 20-1095.09(A)(4), is what an ordinary person would consider “reasonable” under the totality of the circumstances.

7. “Solvent” as used in A.R.S. § 20-1095.03(A)(1) means total assets exceed total liabilities.

8. “Subcontractor” means a person or business having a contractual relationship with a service company to provide work or services which a service company has agreed to perform under a service contract. If required by the type of work being performed, all subcontractors must be licensed.

**C. Application for a service company permit.**

1. Application form. The application for a service company permit ~~under this rule~~ shall be on ~~the~~ a form designated by the ~~Director which shall contain the following information:~~ Department and shall be transmitted through an electronic online system if such a system is designated on the Department’s web site. An application must be complete and have all attachments to be considered by the Department.
- a. ~~The name of applicant;~~
  - b. ~~Arizona address of applicant;~~
  - e. ~~The home office address of applicant;~~
  - d. ~~Type of entity (e.g. corporation, partnership);~~
  - e. ~~Type of equipment to be serviced;~~
  - f. ~~Fiscal year of applicant;~~
  - g. ~~A list of suspensions, revocations or other disciplinary or rehabilitative actions against the service company in this or any other jurisdiction. The application form shall be signed under oath and acknowledged by the chief executive officer, chairman of the board of directors, or other person having power of attorney, in which case the power of attorney shall be attached.~~
2. The following items shall be attached to the application form and shall complete the application:
- a. ~~A copy of the service company’s most recent financial statement, sworn to and certified by the owner, duly elected officers, or a certified public accountant.~~
  - b. ~~Evidence of having deposited cash or acceptable securities pursuant to A.R.S. § 20-1095.04.~~
  - e. ~~Surety bond in lieu of deposit under subparagraph (b) on a form acceptable to the Director.~~
  - d. ~~Initial nonrefundable permit fee of \$100 with each new application.~~
  - e. ~~A biographical affidavit, on a form approved by the director, for each officer, director, manager or person owning 25% or more of the service company, and for each officer, director, manager or person owning 25% or more of an entity which owns the service company.~~

~~f. A copy of the service company's service contract, application, claim forms, brochures, and other forms used in connection with the sale.~~

Application. The application shall contain the following information:

- a. Applicant's full legal name;
- b. Applicant's federal employer identification number (EIN);
- c. Applicant's trade name(s), if applicable;
- d. Applicant's state of domicile;
- e. Applicant's form of business entity (corporation, limited liability company, etc.);
- f. Applicant's addresses, phone numbers, e-mail address(es) and website address(es);
- g. Name, address, and phone number or e-mail address for each contact person of the applicant;
- h. A list of the applicant's officers, directors, LLC managers, and persons owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company;
- i. If the applicant intends to use a service contract administrator, the name and contact information for the applicant's service contract administrator;
- j. The applicant's fiscal year end date;
- k. A summary of the applicant's financial position including current assets, current liabilities, equity and income;
- l. The name and signature of an officer of the applicant; and
- m. Any other information the Department deems necessary to aid in the approval of the application.

3. Application attachments. The applicant shall include the following as part of the application:

- a. A copy of the service company's most recent financial statement sworn to and certified by the owner, duly elected officer or a certified public accountant.
- b. Evidence of compliance with the financial security requirements of A.R.S. § 20-1095.03(A)(3).
- c. A biographical affidavit, on a form approved by the Department, for each officer, director, LLC manager, or person owning 25% or more of the service company, and for each officer, director, manager, or person owning 25% or more of an entity that owns the service company.

d. A list of any actions taken against the applicant in any jurisdiction by a regulatory agency or state attorney general.

4. Application fee. At the time of filing the application, the applicant shall pay the nonrefundable application fee prescribed by A.R.S. § 20-167 and fixed by the Department.

D. ~~Deposit. A service company providing a deposit of cash or alternatives to cash pursuant to A.R.S. § 20-1095.04 shall maintain the deposit in the amount required and such deposit shall not be encumbered. The deposit shall not be released except pursuant to one of the following:~~

1. ~~The service company provides a bond or mechanical reimbursement policy which covers the outstanding service contract liabilities.~~

2. ~~All outstanding service contracts and liabilities thereunder have been assumed by a service company, in good standing, with the approval of the director, acknowledged by the assuming service company's administrator and acknowledged by endorsement by the mechanical reimbursement insurer or surety.~~

3. ~~Evidence satisfactory to the director that:~~

a. ~~All outstanding service contracts and liabilities have expired or been cancelled in accordance with the service contract terms,~~

b. ~~That all claims have been settled,~~

c. ~~That there is no reason to believe there are any unreported claims, and~~

d. ~~That the service company is financially able and agrees to be financially responsible for any valid unreported claims.~~

Term of the service company permit.

1. Term of permit. A service company permit shall have a term that begins on the date that the Department either grants or renews a service company permit and expires at midnight on the last day of the month, three months after the service company's fiscal year-end date.

2. The Department is not required to issue a paper copy of the service company permit. However, the Department will make a copy of the service company permit available by electronic or other means.

3. Expiration of a service company permit.

a. Unless the Department receives an application and full payment of fees for renewal prior to the end of the service company permit term, the service company permit expires.

- b. A service company whose permit term has expired shall not offer, extend, or renew a service contract.
- c. A service company whose permit has expired shall continue to fulfill the obligations of its in-force contracts and shall maintain the security required under A.R.S. § 20-1095.03(3) until such time that all of the service company's contractual obligations to contract holders are fulfilled.

E. ~~The service contract, approval of forms.~~

- 1. ~~Each service company holding a service company permit or applying for such permit shall submit all contract, claim and application forms, brochures and other advertising material to the Director for approval not less than 30 days prior to the proposed effective date thereof. No form, brochure or other printed material may be used until approved by the Director or has been on file with the Director more than 30 days.~~
- 2. ~~No service contract shall be approved unless it contains a provision permitting the cancellation of the contract. The cancellation provision shall provide for a pro-rata refund after deducting for administrative expenses associated with the cancellation. No claim incurred or paid shall be deducted from the amount to be returned. The cancellation provision shall not contain both cancellation penalty and a cancellation fee.~~
- 3. ~~No service contract or application shall be approved unless it:~~
  - a. ~~Is written in nontechnical, readily understood language, using words with common everyday meanings;~~
  - b. ~~Provides for the performance of services within a reasonable period of time of the request for such services by the holder of the contract;~~
  - c. ~~Discloses on the face of the application and the contract:~~
    - i. ~~The name, address and telephone number of the service company;~~
    - ii. ~~The name, address and telephone number of the service contract administrator, if any;~~
    - iii. ~~The name of the individual who sold the service contract.~~
  - d. ~~Clearly, conspicuously and plainly states:~~
    - i. ~~The services to be performed by the service company and the terms and conditions of such performance;~~
    - ii. ~~The service fee or deductible charge, if any, to be charged, or applied, for service calls and/or each covered repair.~~

- ~~iii. Each of the systems, products, appliances and components covered by the contract;~~
  - ~~iv. The period during which the contract will remain in effect;~~
  - ~~v. All limitations respecting the performance of services, including any restrictions as to time periods when services may be required or will be performed;~~
  - ~~vi. The cost of the service contract;~~
  - ~~vii. Those specific items or components which are excluded from coverage in large bold type;~~
  - ~~viii. The conditions, if any, under which the service contract or coverage may be reinstated after coverage has been voided by acts or omissions by the service contract holder;~~
  - ~~ix. The material acts or omissions by the contract holder which cancel or void coverage;~~
4. ~~No service contract shall be approved if:~~
- ~~a. The coverage may be cancelled or voided due to acts or omissions of the service company, its assignees or subcontractors for their failure to provide correct information of their failure to perform the services or repairs provided in a timely, competent, workmanlike manner;~~
  - ~~b. Parts or components repaired or replaced under the service contract are excluded;~~
  - ~~e. The contract can be cancelled or voided by the service company or its representatives for the following reasons including but not limited to:~~
    - ~~i. Pre-existing conditions;~~
    - ~~ii. Prior use or unlawful acts relating to the product;~~
    - ~~iii. Misrepresentation by either the service company or its subcontractors;~~
    - ~~iv. Ineligibility for the program, including gray market, high performance and GM diesel autos.~~

Service company permit renewal and late-renewal.

1. Timely renewal. A service company seeking to renew its permit shall file with the Department a renewal application, consisting of the renewal application form, all required attachments and the renewal fee after the end of its fiscal year but before the expiration of its permit term. A service company shall transmit the renewal application through an electronic online system if such a system is designated on the Department's website. A renewal application must be complete, have all required attachments and the renewal fee to be considered as having been received by the Department.

2. Renewal form. A service company shall use the renewal form designated by the Department. The renewal shall contain the following information:
  - a. Service company name appearing on the permit, and the service company's Arizona license number and EIN;
  - b. Any additions or deletions to the service company's trade name(s), addresses, phone numbers and website addresses;
  - c. Any changes to the service company's contact person(s) or service contract administrator, or their contact information;
  - d. A summary of the applicant's financial position including current assets, current liabilities, equity and income; and
  - e. Any other information the Department deems necessary to aid in the renewal of the permit.
3. Renewal attachments. The service company shall attach the following to the renewal:
  - a. A copy of the service company's financial statement as of the end of the service company's most recently completed fiscal year, sworn to and certified by the owner, duly elected officer or a certified public accountant.
  - b. Evidence of continuing compliance with the financial security requirements of A.R.S. § 20-1095.03(A)(3).
  - c. Any additions or deletions to the officers, directors, LLC managers, or persons owning 25% or more of the service company, or to an entity that owns the service company since the last report to the Department.
  - d. A biographical affidavit, on a form approved by the Department, for each new person identified in subsection (3)(c).
  - e. Any actions taken against the service company in any jurisdiction by a regulatory agency or state attorney general not previously reported to the Department.
4. Renewal fee. At the time of filing the renewal, the service company shall pay a nonrefundable renewal fee as prescribed by A.R.S. § 20-167 and fixed by the Department.
5. Late-renewed application and fee.

- a. Late-renewal period. A service company whose permit term has expired may file a renewal application up to ninety days after the expiration of the permit term. After the ninety-day period, a renewal application will not be accepted by the Department and the service company must file a service company permit application with the Department pursuant to subsection (C) of this Section.
- b. A service company whose permit term has expired shall not offer, extend, or renew a service contract until the permit is renewed or a new permit is issued by the Department.
- c. Fee. In addition to the nonrefundable renewal fee required under subsection (E)(4) of this Section, the service company shall pay a nonrefundable additional fee of \$25 per day starting the calendar day after the permit term expiration and ending on the date the service company files a complete renewal application.
- d. Term of a late-renewed permit. The term of a late-renewed permit shall begin on the date the Department renews the permit and shall end on the last day of the permit term.

~~F. Disapproval of contracts, applications or advertising. The director may disapprove any service contract, application or advertising material that is in violation of this rule by issuing an order specifying in what respect the service contract, application or advertising material violates this rule. Any person aggrieved by such an order can demand a hearing thereon in accordance with A.R.S. § 20-1095.09.~~

Deposits of cash or alternatives to cash.

- 1. Contracts issued, renewed, or extended on or after August 3, 2018. For any contract that a service company issues, extends, or renews from and after August 3, 2018, a service company may not satisfy the financial responsibility requirements of A.R.S. § 20-1095.04 by means of providing a deposit of cash or alternatives to cash.
- 2. Contracts issued, renewed, or extended before August 3, 2018. If a service company provided a deposit of cash or alternatives to cash covering service contracts that were issued, last extended, or last renewed prior to August 3, 2018, the service company shall maintain the deposit in the amount required to cover those contracts and the deposit shall not be encumbered.
- 3. Release of deposits of cash or alternatives to cash. As it relates to financial responsibility requirements fulfilled by a deposit of cash or alternatives to cash, the Director shall only release the deposit upon one of the following:

- a. The service company provides a surety bond or mechanical reimbursement policy that covers the outstanding service contract liabilities secured by the cash or alternatives to cash.
- b. The Department has approved the assumption of outstanding service contracts and liabilities by another service company that has acknowledged the assumption of the outstanding contracts and that shall provide each affected contract holder an endorsement issued by the mechanical reimbursement insurer or surety.
- c. The service company provides evidence satisfactory to the Department that:
  - i. The outstanding service contracts and liabilities have expired or have been cancelled in accordance with the service contract terms;
  - ii. All claims under the service contracts have been settled; and
  - iii. The service company is financially able and agrees to be financially responsible for any valid unreported claims.

**G. ~~Permit expiration; renewal.~~**

- ~~1. Each permit issued pursuant to this rule shall expire at midnight on the last day of the service company's fiscal year. Thereafter, the service company shall have 90 days in which to file its completed renewal application including its certified financial statement and pay the renewal fee of \$100. A permit shall remain in effect upon the service company's timely payment of the renewal fee, timely filing of its annual financial statement and completed renewal application. An incomplete application will not be considered received until it is complete.~~
- ~~2. Any late filing of the renewal application, financial report or late payment of the renewal fee shall be subject to a late fee of \$25 per day. Such late fee shall not release the service company of liability for other violations of these rules or other laws.~~

Filing of forms.

- 1. Contracts to be submitted for approval. A service company shall submit contracts for the Department's approval pursuant to A.R.S. § 20-1095.06. A service company is not required to submit advertisements or marketing materials for approval by the Department but shall abide by the provisions of Title 20, Chapter 2 - Article 6, Chapter 4 - Article 11, and this Section regarding misrepresentations in the sales of service contracts.

2. Requirements for approval. No service contract form shall be approved unless it:
  - a. Complies with A.R.S. § 20-1095.06;
  - b. Identifies the covered products under the contract and, in bold-faced type, preferably in a larger font, the specific items or components of those products which are excluded;
  - c. States the service fee or deductible charge, if any, to be charged, or applied, for service calls and/or each covered repair;
  - d. Specifies in clear and easily understood language the specific circumstances under which a contract holder may engage a subcontractor who is not recommended by the service company without becoming financially responsible under the contract and whether pre-authorization is required prior to engaging a subcontractor who is not recommended by the service company;
  - e. Specifies in clear and easily understood language the service company's financial responsibilities to the contract holder when any of the systems, products or appliances covered by the contract cannot be replaced or repaired;
  - f. If applicable, states the conditions under which the service contract or coverage may be reinstated;
  - g. States the dates of coverage under the service contract including any delay in coverage that differs from the purchase date of the contract which would extend the coverage term of the contract and any terms that govern renewal of the service contract; and
  - h. If providing a pro rata refund upon cancellation of the service contract before the end of the coverage period of the service contract, the service contract shall contain language in conformance with A.R.S. § 20-1095.06(D)(9).
3. Disapproval of contracts. The Department may disapprove any service contract that is in violation of Title 20, Chapter 4 - Article 11, or this subsection (G). The service company may request a hearing to appeal the disapproval pursuant to A.R.S. § 20-161.

**A.R.S. § 41-1055(B) Economic, Small Business, And Consumer Impact Statement**

**Title 20. Commerce, Financial Institutions and Insurance**

**Chapter 6. Department of Insurance and Financial Institutions**

**– Insurance Division**

**Article 4. Types of Insurance Companies**

**A.R.S. § 41-1055(B)(1): An identification of the proposed rulemaking.**

In 2018, the Legislature enacted sweeping changes to the service company statutes found at Arizona Revised Statutes ("ARS") §§ 20-1095 through 20-1095.10 ("Service Company Act") (Laws 2018, 2<sup>nd</sup> Reg. Sess., Ch. 150, § 1). Further changes have been enacted since that time (Laws 2021, Ch. 5, §§ 16 - 18 and Laws 2021, Ch. 163, § 1). The Arizona Department of Insurance and Financial Institutions, Insurance Division ("Department") has already expired rule R20-6-408 to reflect the elimination of motor vehicle service contract programs. A.A.C. R20-6-407 requires changes to capture the current statutory requirements enacted in the Service Company Act.

Questions about this Economic Impact Statement can be directed to: Mary E. Kosinski (mary.kosinski@difi.az.gov).

**A.R.S. § 41-1055(B)(2): An identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking.**

This regulation applies to Service Companies that are subject A.R.S. §§ 20-1095 through 20-1095.10 and A.A.C. R20-6-407.

**A.R.S. § 41-1055(B)(3): A cost benefit analysis of the following:**

- (a) The probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rulemaking. The probable costs to the implementing agency shall include the number of new full-time employees necessary to implement and enforce the proposed rule. The preparer of the economic, small business and consumer impact statement shall notify the joint legislative budget committee**

**of the number of new full-time employees necessary to implement and enforce the rule before the rule is approved by the council.**

The Department does not anticipate any costs or benefits in implementing and enforcing the proposed rulemaking. No new full-time employees will be necessary to implement and enforce the proposed rule.

**(b) The probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking.**

No political subdivision of this state is directly affected by the implementation and enforcement of the proposed rulemaking.

**(c) The probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking.**

The Department anticipates minimal financial impact to service companies including no anticipated effect on revenues or payroll expenditures. The changes to the statutory sections have been in place since 2018 and 2021 which the industry ran with no Department input. Service companies should be well aware of any changes they need to make in order to be compliant with the statutory changes.

In addition, this rulemaking has had a high level of stakeholder involvement with cooperation from the Department to try to reduce the need for new form filings which are costly to service companies. The rule also includes changes to the renewal process that extends term of the permit to 3 months after the end of the service company's fiscal year. This extends the period of time a service company can renew its permit without losing the active status of its permit. This is a benefit which will be newly available to service companies when this rule becomes effective.

**A.R.S. § 41-1055(B)(4): A general description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking.**

The Department does not anticipate any impact on the private employment of Service Companies. Likewise, the Department does not anticipate any impact of public employment in the Department.

**A.R.S. § 41-1055(B)(5): A statement of the probable impact of the proposed rulemaking on small businesses. The statement shall include:**

- (a) An identification of the small businesses subject to the proposed rulemaking.**
- (b) The administrative and other costs required for compliance with the proposed rulemaking.**
- (c) A description of the methods prescribed in section 41-1035 that the agency may use to reduce the impact on small businesses, with reasons for the agency's decision to use or not to use each method.**
- (d) The probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking.**

Not applicable. "Small business" is defined as a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year. A.R.S. § 41-1001(23). The Department does not have information on which service companies may or may not be dominant and how many full-time employees a service company employs. However, based on the financial information submitted to the Department, it does not appear that any of the service companies holding a permit qualify as a small business.

**A.R.S. § 41-1055(B)(6): A statement of the probable effect on state revenues.**

No impact on state revenues is anticipated.

**A.R.S. § 41-1055(B)(7): A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using nonselected alternatives.**

The Department worked with stakeholders over an extended period of time (July 30, 2021 through August 19, 2022) to hone the rule. It also conducted 2 Oral Proceedings and 2 additional informal meetings with stakeholders and made changes to the rule based on the comments submitted at those meetings. The Department believes that the current rulemaking offers the least intrusive and least costly alternative method to achieve the purpose of the proposed rulemaking.

**A.R.S. § 41-1055(B)(8): A description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data. An agency advocating that any data is acceptable data has the burden of proving that the data is acceptable. For the purposes of this paragraph, "acceptable data" means empirical, replicable and testable data as evidenced in supporting documentation, statistics, reports, studies or research.**

The rule is not based on any data.

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

given effect without the invalid provision or application, and to that end the provisions of this Section are severable.

**Historical Note**

New Section made by final exempt rulemaking at 25 A.A.R. 3715, with an immediate effective date of December 4, 2019 (Supp. 19-4).

**Appendix A. Expired****Table 1. Expired****Table 2. Expired****Table 3. Expired****Table 4. Expired****Table 5. Expired****Table 6. Expired****Historical Note**

Appendix A adopted by final rulemaking at 6 A.A.R. 255, effective January 1, 2000 (Supp. 99-4). Appendix A (including Tables 1 through 6) expired under A.R.S. § 41-1056(E) at 13 A.A.R. 1278, effective September 30, 2006 (Supp. 07-1).

**ARTICLE 4. TYPES OF INSURANCE COMPANIES****R20-6-401. Proxies, Consents, and Authorizations of Domestic Stock Insurers**

A. The Department incorporates by reference National Association of Insurance Commissioners Model Laws, Regulations and Guidelines, Volume III, pp. 490-1 through 490-40, Regulation Regarding Proxies, Consents, and Authorization of Domestic Stock Insurers, April 1995 (and no future editions or amendments), which is on file with and available from the Department of Insurance, 100 N. 15th Ave., Suite 102, Phoenix, AZ 85007-2624 and the National Association of Insurance Commissioners, Publications Department, 1100 Walnut Street, Suite 1500, Kansas City, MO 64106-2197, modified as follows:

Section 1 A is modified to read: "No domestic stock insurer that has any class of equity securities held of record by 100 or more persons, or any director, officer or employee of that insurer, or any other person, shall solicit, or permit the use of the person's name to solicit, by mail or otherwise, any proxy, consent, or authorization in respect to any class of equity securities in contravention of this regulation and Schedules A and B, hereby made a part of this regulation."

B. Domestic stock insurance companies shall comply with this Section as required under A.R.S. § 20-143(B).

**Historical Note**

Former General Rule 57-3. R20-6-401 recodified from R4-14-401 (Supp. 95-1). Section expired under A.R.S. § 41-1056(E), filed in the Office of the Secretary of State August 24, 2000 (Supp. 00-3). New Section made by final rulemaking at 9 A.A.R. 1086, effective March 6, 2003 (Supp. 03-1). Section amended by final expedited rulemaking with an immediate effective date of September 16, 2019 (Supp. 19-3).

**R20-6-404. Repealed****Historical Note**

Former General Rule 73-31; Repealed effective January 1, 1981 (Supp. 80-6). R20-6-404 recodified from R4-14-404 (Supp. 95-1).

**R20-6-405. Health Care Services Organization**

- A. Authority. This rule is adopted pursuant to A.R.S. §§ 20-142, 20-143, 20-106 and 20-1051 through 20-1068.
- B. Purpose. The purpose of this rule is to implement the legislative intent, as expressed in Chapter 128, Laws of 1973, to regulate and control Health Care Services Organizations in the State of Arizona, (including, but not limited to Certificate of Authority, licensing, fees for licensing, disciplinary procedures for agents and control of solicitation of members and evidences of coverage).
- C. Scope
1. The scope of this Rule is the scope of A.R.S. Title 20 as it relates to Insurers or Hospital or Medical Service Corpo-

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

rations. As it relates to Health Care Services Organizations, the scope of this rule is the scope of Title 20, Chapter 1 and Title 20, Chapter 4, Article 9, as provided in A.R.S. § 20-1068. This rule is applicable to agents of persons, and persons operating or proposing to operate Health Care Services Organizations in the State of Arizona.

2. The statutory authority for this rule, A.R.S. Title 20, Chapter 4, Article 9, does not provide for exemptions therefrom for persons or agents of persons subject thereto, and no such exemption is intended or should be presumed by this rule or any provision thereof.
- D.** Repeal. This rule does not repeal any known prior rule, memorandum, bulletin, directive or opinion on this subject matter. If such prior rule or directive exists and is in conflict herewith, the same is repealed hereby.
- E.** Definitions. As used in this rule, unless the context otherwise requires:
1. "Agent" has the meaning of A.R.S. § 20-282.
  2. "Basic Health Care Services" has the meaning of A.R.S. § 20-1051.
  3. "Certificate of Authority" means a Certificate authorizing operation of a Health Care Services Organization.
  4. "Director" means the Director of Insurance of the State of Arizona.
  5. "Enrollee" has the meaning of A.R.S. § 20-1051.
  6. "Evidence of coverage" has the meaning of A.R.S. § 20-1051.
  7. "Health Care Plan" has the meaning of A.R.S. § 20-1051.
  8. "Health Care Services" has the meaning of A.R.S. § 20-1051.
  9. "Health Care Services Organizations" has the meaning of A.R.S. § 20-1051.
  10. "Hospital Service Corporation" has the meaning of A.R.S. § 20-822.
  11. "Insurer" has the meaning of A.R.S. § 20-106(C).
  12. "License" means the authority to act as an agent of a Health Care Services Organization.
  13. "Medical Service Corporation" has the meaning of A.R.S. § 20-822.
  14. "Net charges" means the total of all sums prepaid by or for all enrollees, less approved refunds, adjustments and deductions, as consideration for Health Care Services of a Health Care Plan under an Evidence of Coverage.
  15. "Person" has the meaning of A.R.S. § 20-1051.
  16. "Physician and patient relationship" has the meaning of A.R.S. § 20-833.
  17. "Prepaid Health Plans" means any Health Care Plan to pay or make reimbursement for Health Care Services on a prepaid basis other than insured plans otherwise authorized and approved under A.R.S. Title 20.
  18. "Prepaid Group Practice Plan" means a person authorized and approved under A.R.S. Title 20.
  19. "Provider" has the meaning of A.R.S. § 20-1051.
  20. "Transact" has the meaning of A.R.S. § 20-106(A) and (B).
  21. "Unqualified agent" means a person directly or indirectly representing or acting for a Health Care Services Organization and not qualified as an agent thereof.
- F.** Certificate of Authority
1. Policy. Persons and agents of persons operating Health Care Services Organizations as of May 7, 1973, shall comply with the application requirements of A.R.S. § 20-1052 on or before August 7, 1973.
  2. A Certificate of Authority shall not be granted until the Director is satisfied that the requirements of A.R.S. §§ 20-1052, 20-1053 and 20-1054 are met and will continue to be met.
  3. An examination of an applicant at the expense of the applicant for a Certificate of Authority may be ordered to be made if the applicant is not a resident, is controlled by a non-resident, or maintains a head or principal office out of its service area, and will be ordered to be made if the applicant contracts with providers, or for services outside a reasonable area, or has contract obligations under its evidence of coverage that are, or appear to be, inequitable or unreasonable as to the enrollees.
- G.** Certificate of Authority – Application
1. A person required to be qualified to do business in this State as a Health Care Services Organization, pursuant to A.R.S. § 20-1052 shall file an application for Certificate of Authority on Department Form E-104.
  2. Applications failing to comply with the requirements of A.R.S. § 20-1053 will be denied without prejudice to the filing of an application complying with such requirements.
  3. Health Care Services Organizations operating in this State as of May 7, 1973, and having submitted a sufficient application for Certificate of Authority as required by this rule, including the disclosure filings of paragraph (7) of this subsection, may continue to operate as an organization until the Director acts upon the application.
  4. The application for Certificate of Authority shall be verified by an authorized and qualified officer of the Health Care Services Organization.
  5. The application for Certificate of Authority shall be accompanied by the fees required for a hospital or medical service corporation by A.R.S. § 20-167 and a tax return or returns on Department Form E-162, for the calendar year previous to the calendar year of application during which the applicant has done business in this State as a Health Care Services Organization, and the amount of tax due thereon after the effective date hereof, if any, as provided by A.R.S. § 20-1060. The filing of such returns or payment of such tax may be adjusted or waived by the Director upon application and affirmative showing in writing therefor justifying the adjustment or waiver.
  6. The Director may, upon written request accompanied by supporting documentation justifying the request, authorize the substitution of public information filed by an applicant under similar statutes or regulations in another state, or under federal requirements, or may waive such information or additional information.
  7. Pursuant to the authority of A.R.S. § 20-1053(13), the Director finds that biographical information disclosing the past activities, employment and financial transactions or principals, principal officers, controlling persons, and agents of applicant Health Care Services Organizations is necessary for the protection of residents of this State.
  8. Pursuant to the authority of A.R.S. § 20-1053(13), the Director finds that records of fingerprints of principal officers and agents of applicant Health Care Services Organizations may be necessary for the protection of citizens of this state and may be required prior to licensing or approval of a Certificate of Authority.
- H.** Certificate of Authority – Application. The application for Certificate of Authority shall be accompanied by a power of

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

attorney as required by A.R.S. § 20-1053(A)(10) on Department Form E-128.

**I. Certificate of Authority – Grounds for denial**

1. Policy. A Certificate of Authority to operate a Health Care Services Organization shall not be granted until the Director is satisfied by the affirmative showing, verified by the applicant, that all of the requirements of A.R.S. §§ 20-1052, 20-1053 and 20-1054 are met and will continue to be met.
2. Guidelines. The guidelines and standards for determination of appropriate mechanisms to achieve an effective Health Care Plan include, but are not limited to the following:
  - a. Ability to provide basic Health Care Services without undue restrictions, limitations, discrimination, unreasonable fee schedules, or unreasonable administrative costs; an affirmative showing that the form of organization does not evidence any coercion, duress or other compulsion over members;
  - b. The form of organization does not lend itself to practices prohibited by A.R.S. §§ 20-441 through 20-459, and
  - c. The evidence of coverage does not contain provisions or statements which are unjust, inequitable, misleading, deceptive or untrue or encourage misrepresentation.
3. Failure to pay obligations. Applications for a Certificate of Authority to operate a Health Care Services Organization may be denied or rejected if the applicant has failed after 30 days from the entry of final judgment, to pay obligations within the provisions of an evidence of coverage issued by such applicant. The provisions of this Section may be waived by the Director upon a clear affirmative showing that the applicant is defending an action or appealing a judgment at law or equity in a court of this state, or is required to obtain a Certificate of Authority so as to maintain such action.
4. Unauthorized agents. Applications for a Certificate of Authority to operate a Health Care Services Organization may be denied or rejected, after stated cause and opportunity to answer, if the applicant has, 90 days after the effective date, permitted transactions by an unauthorized agent.

**J. Solicitation requirements**

1. Forms for evidences of coverage, advertising matter, sales material and amendments thereto, will not be approved until the Director is satisfied by filing of Department Form P-107 accompanying the filing of such form and the payment of necessary fees, that the requirements of A.R.S. §§ 20-1057, 20-1054(2), and 20-1061 have been met and will continue to be met.
2. Each Health Care Services Organization shall maintain at its home or principal office a complete file containing every printed, published or prepared advertisement brochure, form letter of solicitation, evidence of coverage, certificate, agreement or contract, and a copy of all radio and television forms of the above hereafter disseminated in this or any other State with a notation attached to each such solicitation or inducement to indicate the manner and extent of distribution and the date of approval by the Department of such solicitation. Such advertising file shall be maintained for a period of not less than three years.

- K. Annual report.** Each Health Care Services Organization required to file an annual statement, shall, on or before March 1 of each year, file with the Director, together with its annual statement on Department Form E-13, a certificate executed by an authorized officer of the Health Care Services Organization stating that to the best of his knowledge, information and belief, all written solicitations disseminated during the preceding statement year complied or were made to comply with the provisions of Title 20, Chapter 4, Article 9, and this rule, and that no forms of solicitation were disseminated without the prior approval of the Director.

**L. Taxes**

1. All Health Care Services Organizations operating and transacting business in the State of Arizona shall on or before March 1 and with the filing of the Annual Report, file a tax return on Department Form E-162, and pay the tax due on such return pursuant to A.R.S. § 20-1060.
2. A tax return required to be filed and filed with an application for Certificate of Authority may cover a period of time of less than a calendar year as specified in the return and approved by the Director. Annual tax returns required to be filed coincident with the annual report shall be for the full calendar year next preceding the date of filing the annual report.
3. Net charges, as in this rule defined, shall represent the net charges received during the calendar year next preceding the date of filing the annual report and tax return.

**M. Deposit requirements**

1. In the event a Health Care Services Organization determines to maintain statutory deposits by a surety bond, such surety bond shall be in form as approved by the Director guaranteeing the payment of Health Care Services furnished to enrollees, and shall be deposited with the State Treasurer.
2. In the event a Health Care Services Organization determines to maintain the deposit requirements by filing securities with the State Treasurer, a full and complete statement of the securities proposed to be deposited, together with sufficient information to permit a determination of eligibility of such securities shall be filed with the Director on Department Form E-123, and such securities shall not be deposited until such securities are approved by the Director in writing.
3. No securities deposited as herein provided shall be exchanged or substituted for similar securities, except upon the prior written approval of the Director.
4. Health Care Services Organizations claiming to be exempt from the deposit requirement, pursuant to A.R.S. § 20-1055(f) shall submit to the Director an affirmative showing or certification executed by an authorized federal, state or municipal government or political subdivision thereof, demonstrating operational commitments equivalent to the statutory deposit requirements.
5. Statutory deposits shall not be withdrawn or a surety bond cancelled until all contingent and perfected liens, including judgments, debts, and other liabilities for payment of Health Care Services to which the enrollee is entitled under the evidence of coverage shall have been paid and the Director has given his authority in writing to withdraw such deposits or cancel such bonds.

- N. Reserve requirements.** Reserves required by A.R.S. § 20-1056 shall be deposited or maintained as cash, as Certificates of Deposit, or as securities eligible for investment of the capital

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

of domestic insurers, pursuant to A.R.S. §§ 20-537 and 20-538.

**O.** Insurers and hospital and medical service corporations – Certificate of Authority

1. Insurers, Hospital Service Corporation, Medical Service Corporations, and Hospital and Medical Service Corporations, holding current Certificates of Authority to do business in this state may organize and operate Health Care Services Organizations jointly or severally without compliance with the deposit and reserve requirements of the statute, if the application contains an affirmative showing that the applicant organization has complied with comparable provisions of Title 20, and is an appropriate mechanism to achieve an effective Health Care Plan.
2. The provisions of statute and this rule applying to Certificates of Authority and Application therefor, shall apply to all insurers, Hospital Service Corporations, Medical Service Corporations, and Hospital and Medical Service Corporations doing business in this state.
3. Organizations claiming exemption or partial exemption pursuant to A.R.S. § 20-1063(c) shall file with the Director simultaneously with the application for Certificate of Authority, a statement affirmatively showing that the applicant has complied with provisions of Title 20 A.R.S. comparable to or more restrictive than the provisions of Title 20, Chapter 4, Article 9, and shall have received the written approval of the Director for such exemption or partial exemption.

**P.** Application, examination and licensing of agents

1. No agent of a Health Care Services Organization shall be eligible for transactions of a Health Care Services Organization, unless, prior to making any solicitation or transaction, he has been appointed agent by a Health Care Services Organization holding a current valid Certificate of Authority and has been licensed as herein provided. Persons directly or indirectly representing or acting for a Health Care Services Organization and not licensed as herein provided, or otherwise qualified under A.R.S. Title 20, shall be an unqualified agent.
2. Any person applying for a license as an agent of a Health Care Services Organization shall do so by filing with the Department of Insurance the following:
  - a. An application for such license on a form approved by the Director of the Department of Insurance;
  - b. The required fees for such license;
  - c. Such additional information as the Director may deem necessary.
3. The licensing of an agent of a Health Care Services Organization shall not become effective until such applicant shall have satisfactorily passed a written examination in accordance with A.R.S. § 20-292 as supplemented by A.R.S. § 20-167.
4. The examination shall be given in such places and at such times as the Director shall from time to time designate.
5. The form of examination and the manual may be altered and amended from time to time, so as to represent a fair test of the applicant's qualifications.
6. Every applicant for license shall satisfactorily complete the examination given with a grade of at least 70%, or such other percentage as may be fixed from time to time by the Director prior to the examination commensurate with the nature of the examination given.
7. License and examination fees shall be in accordance with A.R.S. § 20-167.

8. Report of the results of any examination given pursuant to this rule shall be mailed to the applicant and to the applicant's Health Care Services Organization at the address shown on the application.
9. Except as modified by this rule, the provisions for examination, licensing, annual fees and disciplinary procedures of Chapter 2, Article 3 of Title 20, shall apply.
10. Any agent licensed in this state shall immediately report to the Director any judgment or injunction entered against him on the basis of conduct deemed to have involved fraud, deceit, misrepresentation, or other violation affecting his license and all complaints or charges of misconduct lodged with his employer, any public agency of the state, or another state.
11. The Director may reject any application or suspend or revoke, or refuse to renew any agent's license for inducements or statements which are unjust, unfair, inequitable, misleading or deceptive, or which encourage misrepresentation, or are untrue or misleading.
12. The rules, standards and guidelines governing any proceeding relating to the suspension or revocation of the license of a life insurance agent, where applicable, shall also govern any proceedings for suspension or revocation of the license of an agent of a Health Care Services Organization.
13. Renewal of a license of an agent shall follow the same procedure as heretofore established for renewal of insurance agents' licenses in this state.
14. Renewal of a license of an agent shall follow the same procedure as heretofore established for renewal of insurance agents' licenses in this state.

**Q.** Forms

1. The forms prescribed by this rule and the instructions applicable thereto are adopted as requirements of the Director and necessary for the protection of citizens of this state. Such forms, instructions, manuals or examinations are those currently in use, but the same may be amended without reference to this rule and when approved as amended are incorporated in this rule by reference. The form of manual or examination of agents, or any form adopted by the Director may be reproduced for the purpose of reporting or for other purposes.
2. For good cause shown, the Director may authorize the filing of forms and reports on dates other than required by this rule, if applied for in writing not less than 10 days prior to the due date of such report and statement, exhibit, return or accounting.

**R.** Severability. In any provision of this rule or the forms, statements, returns or reports made part of this rule, or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect the provisions of applications of this rule, which can be given effect without the invalid provision or application, and to this end the provisions of this rule are declared to be severable.

**S.** Effective date. This rule became effective on the 7th day of May, 1973. Amendments to this rule shall become effective upon filing with the Secretary of State.

**Historical Note**

Former General Rule 73-33; Amended subsections (E), (P), (R), (S), and (T) effective August 12, 1981 (Supp. 81-4). R20-6-405 recodified from R4-14-405 (Supp. 95-1).

**R20-6-406. Expired**

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

**Historical Note**

Adopted effective May 18, 1978 (Supp. 78-3). R20-6-406 recodified from R4-14-406 (Supp. 95-1). Section expired under A.R.S. § 41-1056(E), filed in the Office of the Secretary of State August 24, 2000 (Supp. 00-3).

**R20-6-407. Service Companies**

- A.** Scope. This rule shall apply to all service companies except those which are exempt under A.R.S. § 20-1095.02.
- B.** Definitions.
1. "Gray Market" auto means an imported motor vehicle which has not been certified for all safety, emission, and other federal and state standards prior to the arrival of the vehicle into the United States.
  2. "Service" within the meaning of Article 11, Chapter 4, Title 20 includes reimbursement for towing, car rental, lodging or travel breakdown expenses.
  3. The "Contract Holder" means the consumer as defined in A.R.S. § 20-1095(1).
- C.** Application for service company permit.
1. The application for a service company permit under this rule shall be on the form designated by the director which shall contain the following information:
    - a. The name of applicant;
    - b. Arizona address of applicant;
    - c. The home office address of applicant;
    - d. Type of entity (e.g. corporation, partnership);
    - e. Type of equipment to be serviced;
    - f. Fiscal year of applicant;
    - g. A list of suspensions, revocations or other disciplinary or rehabilitative actions against the service company in this or any other jurisdiction. The application form shall be signed under oath and acknowledged by the chief executive officer, chairman of the board of directors, or other person having power of attorney, in which case the power of attorney shall be attached.
  2. The following items shall be attached to the application form and shall complete the application:
    - a. A copy of the service company's most recent financial statement, sworn to and certified by the owner, duly elected officers, or a certified public accountant.
    - b. Evidence of having deposited cash or acceptable securities pursuant to A.R.S. § 20-1095.04.
    - c. Surety bond in lieu of deposit under subparagraph (b) on a form acceptable to the Director.
    - d. Initial nonrefundable permit fee of \$100 with each new application.
    - e. A biographical affidavit, on a form approved by the director, for each officer, director, manager or person owning 25% or more of the service company, and for each officer, director, manager or person owning 25% or more of an entity which owns the service company.
    - f. A copy of the service company's service contract, application, claim forms, brochures, and other forms used in connection with the sale.
- D.** Deposit. A service company providing a deposit of cash or alternatives to cash pursuant to A.R.S. § 20-1095.04 shall maintain the deposit in the amount required and such deposit shall not be encumbered. The deposit shall not be released except pursuant to one of the following:
1. The service company provides a bond or mechanical reimbursement policy which covers the outstanding service contract liabilities.
  2. All outstanding service contracts and liabilities thereunder have been assumed by a service company, in good standing, with the approval of the director, acknowledged by the assuming service company's administrator and acknowledged by endorsement by the mechanical reimbursement insurer or surety.
  3. Evidence satisfactory to the director that:
    - a. All outstanding service contracts and liabilities have expired or been cancelled in accordance with the service contract terms,
    - b. That all claims have been settled,
    - c. That there is no reason to believe there are any unreported claims, and
    - d. That the service company is financially able and agrees to be financially responsible for any valid unreported claims.
- E.** The service contract, approval of forms.
1. Each service company holding a service company permit or applying for such permit shall submit all contract, claim and application forms, brochures and other advertising material to the Director for approval not less than 30 days prior to the proposed effective date thereof. No form, brochure or other printed material may be used until approved by the Director or has been on file with the Director more than 30 days.
  2. No service contract shall be approved unless it contains a provision permitting the cancellation of the contract. The cancellation provision shall provide for a pro rata refund after deducting for administrative expenses associated with the cancellation. No claim incurred or paid shall be deducted from the amount to be returned. The cancellation provision shall not contain both cancellation penalty and a cancellation fee.
  3. No service contract or application shall be approved unless it:
    - a. Is written in nontechnical, readily understood language, using words with common everyday meanings;
    - b. Provides for the performance of services within a reasonable period of time of the request for such services by the holder of the contract;
    - c. Discloses on the face of the application and the contract:
      - i. The name, address and telephone number of the service company;
      - ii. The name, address and telephone number of the service contract administrator, if any;
      - iii. The name of the individual who sold the service contract.
    - d. Clearly, conspicuously and plainly states:
      - i. The services to be performed by the service company and the terms and conditions of such performance;
      - ii. The service fee or deductible charge, if any, to be charged, or applied, for service calls and/or each covered repair.
      - iii. Each of the systems, products, appliances and components covered by the contract;
      - iv. The period during which the contract will remain in effect;

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- v. All limitations respecting the performance of services, including any restrictions as to time periods when services may be required or will be performed;
  - vi. The cost of the service contract;
  - vii. Those specific items or components which are excluded from coverage in large bold type;
  - viii. The conditions, if any, under which the service contract or coverage may be reinstated after coverage has been voided by acts or omissions by the service contract holder;
  - ix. The material acts or omissions by the contract holder which cancel or void coverage;
4. No service contract shall be approved if:
- a. The coverage may be cancelled or voided due to acts or omissions of the service company, its assignees or subcontractors for their failure to provide correct information of their failure to perform the services or repairs provided in a timely, competent, workmanlike manner;
  - b. Parts or components repaired or replaced under the service contract are excluded;
  - c. The contract can be cancelled or voided by the service company or its representatives for the following reasons including but not limited to:
    - i. Pre-existing conditions;
    - ii. Prior use or unlawful acts relating to the product;
    - iii. Misrepresentation by either the service company or its subcontractors;
    - iv. Ineligibility for the program, including gray market, high performance and GM diesel autos.
- F. Disapproval of contracts, applications or advertising. The director may disapprove any service contract, application or advertising material that is in violation of this rule by issuing an order specifying in what respect the service contract, application or advertising material violates this rule. Any person aggrieved by such an order can demand a hearing thereon in accordance with A.R.S. § 20-1095.09.
- G. Permit expiration; renewal.
- 1. Each permit issued pursuant to this rule shall expire at midnight on the last day of the service company's fiscal year. Thereafter, the service company shall have 90 days in which to file its completed renewal application including its certified financial statement and pay the renewal fee of \$100. A permit shall remain in effect upon the service company's timely payment of the renewal fee, timely filing of its annual financial statement and completed renewal application. An incomplete application will not be considered received until it is complete.
  - 2. Any late filing of the renewal application, financial report or late payment of the renewal fee shall be subject to a late fee of \$25 per day. Such late fee shall not release the service company of liability for other violations of these rules or other laws.

**Historical Note**

Adopted effective April 30, 1981 (Supp. 81-2). Former Section R4-14-407 repealed and a new Section R4-14-407 adopted effective July 2, 1987 (Supp. 87-3). R20-6-407 recodified from R4-14-407 (Supp. 95-1).

**R20-6-408. Expired****Historical Note**

Former Section R4-14-408 renumbered as Section R4-14-409; a new Section R4-14-408 adopted effective July 15, 1987 (Supp. 87-3). R20-6-408 recodified from R4-14-408 (Supp. 95-1). Section expired under A.R.S. § 41-1056(J) at 24 A.A.R. 3106, effective October 9, 2018 (Supp. 18-4).

**R20-6-409. Hospital, Medical, Dental, and Optometric Service Corporations**

- A. Applicability. This rule applies to all subscription contracts issued by hospital, medical, dental and optometric service corporations.
- B. Subscription contract provision. Subscription contracts of hospital, medical, dental and optometric service corporations subject to the provisions of Article 3, Chapter 4 of Title 20, A.R.S., shall meet the requirements of the following rules:
1. R20-6-201. Advertisements of disability insurance.
  2. R20-6-209. Unfair sex discrimination.
  3. R20-6-210. Group coverage discontinuance and replacement.
  4. R20-6-213. Unfair discrimination on the basis of blindness, partial blindness, or physical disability.
  5. R20-6-216. Life and disability insurance policy language simplification.
  6. R20-6-302. Valuation of reserves for disability policies.
  7. R20-6-606. Medicare supplement insurance disclosure and minimum standards.
  8. R20-6-607. Reasonableness of benefits in relation to premium charged.
- C. Severability. If any provision of this rule or the application thereof to any person or circumstance is for any reason held invalid, the remainder of the rule and the application of such provision to other persons or circumstances shall not be affected thereby.

**Historical Note**

Adopted effective July 9, 1982 (Supp. 82-4). Former Section R4-14-408 renumbered without change as Section R4-14-409 effective July 15, 1987 (Supp. 87-3). R20-6-409 recodified from R4-14-409 (Supp. 95-1).

**ARTICLE 5. THE INSURANCE CONTRACT****R20-6-501. Ten-day Period to Examine Disability Insurance Policy**

For the purpose of implementing A.R.S. §§ 20-442, 20-443, 20-826, 20-1111 and 20-1113 and to make more specific the regulation therein provided relative to policies of individual disability insurance (accident and sickness, hospitalization, medical, surgical and loss of time) issued in the State of Arizona and further to provide satisfactory public remedy against the hazards of misunderstanding by an applicant, of deception and coercion by an agent and of certain policy exclusions and limitations that cheapen the value of coverage, the Insurance Department of Arizona adopts the following rule:

1. Each policy of individual disability insurance, except one for which no provision for renewal is made, issued for delivery in the State of Arizona on or after October 1, 1961, by an insurance company or by a hospital or medical service corporation shall have printed on the first page thereof or attached thereto or endorsed thereupon in prominent style a notice declaring that, during a period of 10 days (or, at the insurer's option, a longer period) from the date of delivery to the policyholder, such policy may be returned for cancellation to the insurer at its home

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

office (or, at the insurer's option, to its branch office or to the agent through whom it was purchased) and declaring further that in the event of such return the insurer will refund the entirety of any premium paid therefor, including any policy fees or other charges, and that the policy shall be deemed void from the beginning and that the par-

ties shall be returned to their original position as if no policy had been issued.

2. The Insurance Department does not specify the particular language the notice shall contain but prefers usage of a phraseology approximately along the lines of either the longer (Form A) or shorter (Form B) sample below:

**Sample Form A****NOTICE OF TEN-DAY RIGHT TO EXAMINE POLICY**

The \_\_\_\_\_ Insurance Company urges you to read this policy carefully and trusts that upon doing so you will fully understand, and will be pleased with, its coverage. If, however, questions arise or information is desired, do not hesitate to consult the selling agent. In addition, should the policy for any reason be unsatisfactory, by surrendering it within ten days following receipt to our office at \_\_\_\_\_ or to the selling agent, immediately full premium will be refunded and the policy will be cancelled and deemed void and as never in force and effect.

**Sample Form B****IMPORTANT NOTICE**

If for any reason this policy is unsatisfactory, it may be returned for cancellation within ten days following receipt – in which case the entire premium will be refunded.

**Historical Note**

Former General Rule 61-7. R20-6-501 recodified from R4-14-501 (Supp. 95-1).

**ARTICLE 6. TYPES OF INSURANCE CONTRACTS****R20-6-601. Regulations Governing Bail Transactions****A. General provisions**

1. Effective date
  - a. These regulations are effective November 1, 1960. On and after date, no bail transaction or severable portion thereof shall be conducted, directly or indirectly except in full conformity herewith.
  - b. No surety insurer shall furnish for use and no bail bond agent shall use any forms or documents which contain any provisions contrary to these regulations on or after the effective date hereof.
2. Authority. Authority for these regulations is A.R.S. §§ 20-142, 20-143 and 20-257 and A.R.S. Chapter 2, Article 3.
3. Public interest served. These regulations serve the public interest by prohibiting inequities in bail transactions and by establishing standards of licensing and conduct for bail bond agents.
4. Regulations as severable. These regulations shall be construed as severable, such that, where one or more Sections are held invalid, such remaining Sections will not be adversely affected.
5. Penalty. Violation of these regulations will subject the guilty party to the penalties of A.R.S. §§ 20-114, 20-220 and 20-316 and to the enforcement procedures of A.R.S. §§ 20-152 and 20-160 through 20-166.

**B. Definitions**

1. "Bail transaction" defined. As used in these regulations, the term "bail transaction" includes solicitation and inducement, preliminary negotiation and effectuation of a contract of surety insurance and the transaction of matters subsequent thereto and arising therefrom – all in connection with the release of persons arrested or confined.
2. "Bail bond agent" defined. As used in these regulations, the term "bail bond agent" means any person who engages in a bail transaction on behalf of a surety insurer or representative thereof.

3. "Arrestee" defined. As used in these regulations, the term "arrestee" means any person arrested or detained whose release on bail is solicited or procured or concerning whose release negotiations are commenced.
4. "Director" defined. As used in these regulations, the term "Director" means the Director of Insurance of the state.

**C. Licensing**

1. Application for license. Each application for original or renewal license as a bail bond agent shall be on a form furnished by the Director, and each applicant for such license shall furnish such supplementary information and supporting statements as the Director may require.
2. Prohibited associations. A bail bond license shall not be issued to, renewed for or maintained by any person who associates regularly with criminals, gamblers or persons of poor repute – except to the extent such association is required by business or professional duty and responsibility.
3. Transactions by unlicensed persons prohibited. No bail bond agent shall directly or indirectly permit any person on his behalf to solicit or negotiate bail transactions unless such person is duly licensed by the Director.
4. Employees. Employees of bail bond agents performing only clerical duties need not be licensed hereunder and shall be deemed not engaged in bail transactions.

**D. Conduct of bail bond agents**

1. Disclosure of business. Every bail bond agent shall conduct his business in such a manner that the public and those dealing with him shall be aware of the capacity in which he is acting.
2. Control of employees. A bail bond agent shall exercise direct supervision over his employees and keep informed of their actions as his employees.
3. Prohibited employees. No bail bond agent shall have in his employ at any time any criminal, gambler or person of poor repute.
4. Acting for attorney. No bail bond agent shall receive, or collect for an attorney any money or other item of value

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

for attorney's fee, costs or any other purpose on behalf of an arrestee, unless a receipt is given therefor.

5. Informants prohibited. No bail bond agent shall for any purpose, directly or indirectly, enter into an arrangement of any kind or have an understanding with a law enforcement officer, with a newspaper employee, with a messenger service or employee thereof, with a trusty in a jail, with other person incarcerated in a jail, or with any person whatever, to inform or notify any bail bond agent directly or indirectly of:
    - a. The existence of a criminal complaint;
    - b. The fact of an arrest; or
    - c. The fact that an arrest of any person is pending or contemplated; or
    - d. Any information pertaining to matters set forth in (a), (b), and (c) hereof or to the persons involved therewith.
  6. Compliance with rules of public authority. No bail bond agent shall solicit any person in a bail transaction in a prison or jail or other place of detention, court or public institution connected with the administration of justice unless said bail bond agent has fully complied with every rule, regulation and ordinance issued by each public authority governing the conduct of persons in or about said premises.
  7. Representations to public authority
    - a. No bail bond agent shall make any misleading or untrue representation to a court or to a public official with respect to a bail transaction, nor for the purpose of avoiding or preventing a forfeiture of bail or of having set aside a forfeiture which has occurred.
    - b. Every bail bond agent shall truthfully and fully answer every question asked him by the Director or his representative respecting his bail transactions and matters relating to the conduct of his bail business. Any bail bond agent may have his attorney present when he answers any such question.
  8. Maintenance of records. Every bail bond agent shall keep complete records of all business done under authority of his license. Such records shall be open to inspection or examination by the Director or his representatives at all reasonable times at the principal place of business of the bail bond agent as designated in his license.
- E. Charges, collateral, refunds and rebates**
1. Rates
    - a. No bail bond agent shall issue or deliver a bail bond except at the premium rates most recently filed and approved by the Director in accordance with A.R.S. § 20-357.
    - b. Every bail bond agent shall post the premium rates of the surety insurer he represents in a conspicuous manner at his place of business.
  2. Charges permitted. No bail bond agent shall, in any bail transaction or in connection therewith, directly or indirectly, charge or collect money or other valuable consideration from any person except for the following purposes:
    - a. To pay the premium at the rates established by the surety insurer and approved by the Director.
    - b. To provide collateral.
    - c. To reimburse himself for actual and reasonable expenses incurred in connection with the individual bail transaction, including:
      - i. Guard fees after the first 12 hours following release of an arrestee on bail;
      - ii. Notary fees, recording fees, necessary long distance telephone expenses, telegram charges, and travel expenses for other than local community travel.
      - iii. Any other actual expenditure necessary to the bail transaction which is not usually and customarily incurred in connection with the ordinary operation and conduct of bail transactions.
3. Delivery of documents to arrestee
    - a. Every bail bond agent shall, at the time of obtaining the release of an arrestee on bail or immediately thereafter, deliver to such arrestee or to the principal person with whom negotiations were made, if other than the arrestee, a copy of the bail bond premium agreement, which shall include:
      - i. The name of the surety insurer and the name and business address of the bail bond agent.
      - ii. The amount of bail and the premium thereof.
    - b. The bail bond agent shall also deliver at such time a statement detailing all charges in addition to the premium, the amount received on account, the unpaid balance if any, and a description of and a receipt for any collateral received.
  4. Collateral
    - a. Any bail bond agent who receives collateral in connection with a bail transaction shall do so in a fiduciary capacity and, prior to any forfeiture of bail, shall keep such collateral separate and apart from any other funds, assets or property of such bail bond agent.
    - b. Any collateral received shall be returned to the person who deposited it with the bail bond agent or any assignee as soon as the obligation, the satisfaction of which was secured by the collateral, is discharged. Where such collateral has been deposited to secure the obligation of a bond, it shall be returned immediately upon the entry of any order by an authorized official by virtue of which liability under the bond is terminated, or, if any bail bond agent fails to cooperate fully with any authorized official to secure the termination of such liability, immediately upon the accrual of any right to secure an order of termination of liability.
    - c. When such collateral has been deposited as security for unpaid premium or charges and, if such premium or charges remained unpaid at the time of exoneration and after demand therefor has thereafter been made by the bail bond agent, collateral other than cash may be levied upon in the manner provided by law and cash collateral up to the amount of such unpaid premium on charges may be applied in payment thereof.
    - d. If collateral received by a bail bond agent is in excess of the bail forfeited, such excess shall be returned to the depositor immediately upon application of the collateral to the forfeiture subject, however, to any claim of the bail bond agent for unpaid premium or charges as provided in subparagraph (c) of paragraph (4) of subsection (E), or as agreed to in writing by the bail bond agent and arrestee or his indemnitor.

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

5. Premium refund upon surrender of arrestee. No bail bond agent shall surrender an arrestee to custody prior to the time specified in the bail bond for the appearance of the arrestee, or prior to any other occasion when the presence of the arrestee in court is lawfully required, without returning all premium paid therefor, unless as a result of judicial action, or material misrepresentation by the arrestee or his indemnitor with respect to the execution of the bail bond agreement, or a material and substantial increase in the hazard assumed. Failure of the arrestee to pay the premium, or charges permitted under these regulations or any part thereof, and failure to furnish collateral required by the bail bond agent, shall not be considered a material and substantial increase in the hazard assumed.
6. Rebating prohibited. No bail bond agent shall pay or allow in any manner, directly or indirectly, to any person who is not also a bail bond agent any commission or valuable consideration on or in connection with a bail transaction. This Section shall not prohibit payments by a bail bond agent to an unlicensed person of charges by such persons for services of the kind specified in paragraph (2) subsection (E) of this Section.

**Historical Note**

Former General Rule 60-5. R20-6-601 recodified from R4-14-601 (Supp. 95-1).

**R20-6-602. Nationwide Inland Marine Definition**

- A. Applicability. This rule applies to risks and coverages which may be classified or identified as Marine, Inland Marine or Transportation insurance but shall not be construed to mean that the kinds of risks and coverages are solely Marine, Inland Marine or Transportation insurance in all instances. This rule shall not be construed to restrict or limit in any way the exercise of any insuring powers granted under charters and license whether used separately, in combination or otherwise.
- B. Marine and/or transportation policies may cover under the following conditions:
  1. Imports.
    - a. Imports may be covered wherever the property may be and without restriction as to time, provided the coverage of the issuing companies includes hazards of transportation.
    - b. An import, as a proper subject of marine or transportation insurance, shall be deemed to maintain its character as such so long as the property remains segregated in such a way that it can be identified and has not become incorporated and mixed with the general mass of property in the United States, and shall be deemed to have been completed when such property has been:
      - i. Sold and delivered by the importer, factor or consignee; or
      - ii. Removed from place of storage and placed on sale as part of the importer's stock in trade at a point of sale or distribution; or
      - iii. Delivered for manufacture, processing or change in form to premises of the importer or of another for any such purposes.
  2. Exports.
    - a. Exports may be covered wherever the property may be located without restriction as to time, provided the coverage of each issuing company includes hazards of transportation.
    - b. An export, as a proper subject of marine or transportation insurance, shall be deemed to acquire its character as such when designated or while being prepared for export and retain that character unless diverted for domestic trade, and when so diverted, the provisions of this rule respecting domestic shipments shall apply, provided, however, that this provision shall not apply to long established methods of insuring certain commodities, e.g., cotton.
3. Domestic shipments.
  - a. Domestic shipments on consignment, for sale or distribution, exhibit, or trial, or approval or auction, while in transit, while in the custody of others and while being returned, provided the coverage of each issuing company includes hazards of transportation, and further provided that in no event shall the policy cover domestic shipments on consignment on premises owned, leased or operated by the consignor.
  - b. Domestic shipments not on consignment, provided the coverage of the issuing companies includes hazards of transportation, beginning and ending within the United States, and further provided that such shipments shall not be covered at manufacturing premises nor after arrival at premises owned, leased or operated by assured or purchaser.
4. Bridges, tunnels and other instrumentalities of transportation and communication excluding buildings, their improvements and betterments, their furniture and furnishings, fixed contents and supplies held in storage. The foregoing includes:
  - a. Bridges, tunnels, other similar instrumentalities, including auxiliary facilities and equipment attendant thereto.
  - b. Piers, wharves, docks, slips, dry docks and marine railways.
  - c. Pipelines, including on-line propulsion, regulating and other equipment appurtenant to such pipelines, but excluding all property at manufacturing, producing, refining, converting, treating or conditioning plants.
  - d. Power transmission and telephone and telegraph lines, excluding all property at generating, converting or transforming stations, substations and exchanges.
  - e. Radio and television communication equipment in use as such including towers and antennae with auxiliary equipment, and appurtenant electrical operating and control apparatus.
  - f. Outdoor cranes, loading bridges and similar equipment used to load, unload and transport.
5. Personal Property Floater Risks covering individuals and/or generally
  - a. Personal Effects Floater Policies
  - b. The Personal Property Floater
  - c. Government Service Floater
  - d. Personal Fur Floaters
  - e. Personal Jewelry Floaters
  - f. Wedding Present Floaters for not exceeding 90 days after the date of the wedding.
  - g. Silverware Floaters.
  - h. Fine Arts Floaters, covering paintings, etchings, pictures, tapestries, art glass windows, and other bona fide works of art of rarity, historical value or artistic merit.

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- i. Stamp and Coin Floaters.
- j. Musical Instrument Floaters. Radios, televisions, record players and combinations thereof are not deemed musical instruments.
- k. Mobile Articles, Machinery and Equipment Floaters, excluding vehicles designed for highway use and auto homes, trailers and semi-trailers except when hauled by tractors not designed for highway use, covering identified property of a mobile or floating nature pertaining to or usual to a household. Such policies shall not cover furniture and fixtures not customarily used away from premises where such property is usually kept.
- l. Installment Sales and Leased Property Policies covering property pertaining to a household and sold under conditional contract of sale, partial payment contract or installment sales contract or leased, but excluding motor vehicles designed for highway use. Such policies must cover in transit but shall not extend beyond the termination of the seller's or lessor's interest.
- m. Live Animal Floaters.
- 6. Commercial Property Floater Risks covering property pertaining to a business, profession or occupation.
  - a. Radium Floaters.
  - b. Physicians' and Surgeons Instrument Floaters. Such policies may include coverage of such furniture, fixtures and tenant assured's interest in such improvements and betterments of buildings as are located in that portion of the premises occupied by the assured in the practice of his profession.
  - c. Pattern and Die Floaters.
  - d. Theatrical Floaters, excluding buildings and their improvements and betterments, and furniture and fixtures that do not travel about with theatrical troupes.
  - e. Film Floaters, including builders' risk during the production and coverage on completed negatives and positives and sound records.
  - f. Salesmen's Samples Floaters.
  - g. Exhibition Policies on property while on exhibition and in transit to or from such exhibitions.
  - h. Live Animal Floaters.
  - i. Builders Risks and/or Installation Risks covering interest of owner, seller or contractor, against loss or damage to machinery, equipment, building materials or supplies, being used with and during the course of installation, testing, building, renovating or repairing. Such policies may cover at points or places where work is being performed, while in transit and during temporary storage or deposit, of property designated for and awaiting specific installation, building, renovating or repairing.
    - i. Such coverage shall be limited to Builders Risks or Installation Risks where Perils in addition to Fire and Extended Coverage are to be insured.
    - ii. If written for account of owner, the coverage shall cease upon completion and acceptance thereof; or if written for account of a seller or contractor the coverage shall terminate when the interest of the seller or contractor ceases.
  - j. Mobile Articles, Machinery and Equipment Floaters, excluding motor vehicles designed for highway use and auto homes, trailers and semi-trailers except when hauled by tractors not designed for highway use and snow plows constructed exclusively for highway use covering identified property of a mobile or floating nature, not on sale or consignment, or in course of manufacture, which has come into the custody or control of parties who intend to use such property for the purpose for which it was manufactured or created. Such policies shall not cover furniture and fixtures not customarily used away from premises where such property is usually kept.
  - k. Property in transit to and from and in custody of bailees not owned, controlled or operated by the bailor. Such policies shall not cover bailee's property at his premises.
  - l. Installment sales and leased property. Policies covering property sold under conditional contract of sale, partial payment contract, installment sales contract, or leased but excluding motor vehicles designed for highway use. Such policies must cover in transit but shall not extend beyond the termination of the seller's or lessor's interest. This Section is not intended to include machinery and equipment under certain "lease-back" contracts.
  - m. Garment Contractors Floaters.
  - n. Furriers or Fur Storer's Customer's Policies, i.e., policies under which certificates or receipt are issued by furriers or fur storer's covering specified articles the property of customers.
  - o. Accounts Receivable Policies, Valuable Papers and Records Policies.
  - p. Floor Plan Policies, covering property for sale while in possession of dealers under a Floor Plan or any similar plan under which the dealer borrows money from a bank or lending institution with which to pay the manufacturer, provided:
    - i. Such merchandise is specifically identifiable as encumbered to the bank or lending institution.
    - ii. The dealer's right to sell or otherwise dispose of such merchandise is conditioned upon its being released from encumbrance by the bank or lending institution.
    - iii. That such policies cover in transit and do not extend beyond the termination of the dealer's interest.
    - iv. That such policies shall not cover automobiles or motor vehicles; merchandise for which the dealer's collateral is the stock or inventory as distinguished from merchandise specifically identifiable as encumbered to the lending institution.
  - q. Sign and Street Clock Policies, including neon signs, automatic or mechanical signs, street clocks, while in use as such.
  - r. Fine Arts Policies covering paintings, etchings, pictures, tapestries, art glass windows, and other bona fide works of art of rarity, historical value or artistic merit, for account of museums, galleries, universities, businesses, municipalities and other similar interests.
  - s. Policies covering personal property which, when sold to the ultimate purchaser, may be covered spe-

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

cifically, by the owner, under Inland Marine Policies including:

- i. Musical Instrument Dealers Policies, covering property consisting principally of musical instruments and their accessories. Radios, televisions, record players and combinations thereof are not deemed musical instruments.
- ii. Camera Dealers Policies, covering property consisting principally of cameras and their accessories.
- iii. Furrier's Dealers Policies, covering property consisting principally of furs and fur garments.
- iv. Equipment Dealers Policies, covering mobile equipment consisting of binders, reapers, tractors, harvesters, harrows, tedders and other similar agricultural equipment and accessories therefor; construction equipment consisting of bulldozers, road scrapers, tractors, compressors, pneumatic tools, and similar equipment and accessories therefor; but excluding motor vehicles designed for highway use.
- v. Stamp and Coin Dealers covering property of philatelic and numismatic nature.
- vi. Jewelers' Block Policies.
- vii. Fine Arts Dealers.

Such policies may include coverage of money in locked safes or vaults on the Assured's premises. Such policies also may include coverage of furniture, fixtures, tools, machinery, patterns, molds, dies and tenant insureds interest in improvements of buildings.

- t. Wool Growers Floaters.
- u. Domestic Bulk Liquids Policies, covering tanks and domestic bulk liquids stored therein.
- v. Difference in Conditions Coverage excluding fire and extended coverage perils.
- w. Electronic Data Processing Policies.

**C. Unless otherwise permitted, nothing in the foregoing shall be construed to permit MARINE OR TRANSPORTATION POLICIES TO COVER:**

1. Storage of assured's merchandise, except as hereinbefore provided.
2. Merchandise in course of manufacture, the property of and on the premises of the manufacturer.
3. Furniture and fixtures and improvements and betterments to buildings.
4. Monies and/or securities in safes, vaults, safety deposit vaults, bank or assured's premises, except while in course of transportation.

**Historical Note**

Former General Rule 59-4; Amended effective August 30, 1985 (Supp. 85-4). R20-6-602 recodified from R4-14-602 (Supp. 95-1).

**R20-6-603. Repealed**

**Historical Note**

Former General Rule 69-18; Repealed effective July 27, 1981 (Supp. 81-4). R20-6-603 recodified from R4-14-603 (Supp. 95-1).

**R20-6-604. Definitions**

The definitions in A.R.S. § 20-1603 and this Section apply to R20-6-604 through R20-6-604.10.

"Actual loss ratio" means incurred claims divided by earned premiums at rates in use.

"Actuarially equivalent" means of equal actuarial present value determined as of a given date with each value based on the same set of actuarial assumptions. When used in this Article in reference to rates and coverage, "actuarially equivalent" means a rate or coverage that is actuarially determined to yield loss ratios of 50% for credit life insurance and 60% for credit disability insurance.

"Credit insurance" means credit life insurance, credit disability insurance, or both, but does not include any insurance for which there is no identifiable charge.

"Earned premiums" means earned premiums at prima facie rates and earned premiums at rates in use.

"Earned premiums at prima facie rates" means an insurer's actual earned premiums, adjusted to the amount that the insurer would have earned if the insurer's premium rates had equaled the prima facie rates in effect during the experience period.

"Earned premiums at rates in use" means the premiums that an insurer actually earns on the premium rates the insurer charges during an experience period.

"Evidence of individual insurability" means information about a debtor's health status or medical history that a debtor provides as a condition of credit insurance becoming effective.

"Experience" means an insurer's earned premiums and incurred claims during an experience period.

"Experience period" means a period of time for which an insurer reports income and expense information on the insurer's credit insurance business.

"Final adjusted rates" means the prima facie rates referred to in R20-6-604.04 and R20-6-604.05, subject to any deviations approved under R20-6-604.08.

"Gross debt" means the sum of the remaining payments that a debtor owes a creditor.

"Identifiable charge" means a charge for credit insurance that is imposed on a debtor with credit insurance but not on a debtor without credit insurance, and includes a charge for insurance that is disclosed in the credit or other financial instrument furnished to the debtor, which sets forth the financial elements of a credit transaction, and any difference in finance, interest, service charges, or other similar charges made to a debtor in like circumstances except for the debtor's status as insured or noninsured.

"Incurred claims" means the total claims an insurer pays during an experience period, adjusted for the change in the claim reserves.

"Net debt" means the amount necessary to liquidate a debt in a single lump-sum payment excluding unearned interest and other unearned finance charges.

"Plan of credit insurance" means an insurance plan based on one of the following rate and coverage categories:

Credit life insurance, other than on revolving accounts, including joint and single life coverage, decreasing and level insurance, and outstanding balance and single premium;

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

Credit life insurance on revolving accounts;

Credit life insurance on an age-graded basis;

Credit disability insurance, other than on revolving accounts, including outstanding balance and single premium, and each combination of waiting period and retroactive or non-retroactive benefits;

Credit disability insurance on revolving accounts, including each combination of waiting period and retroactive or non-retroactive benefits.

“Preexisting condition” means a condition:

For which a debtor received medical advice, consultation, or treatment within six months before the effective date of credit insurance coverage; and

From which the debtor dies, in the case of life insurance, or becomes disabled, in the case of disability insurance, within six months after the effective date of coverage.

“Prima facie adjusted loss ratio” means incurred claims divided by earned premiums at prima facie rates.

“Prima facie rates” means the rates established by the Director as prescribed in R20-6-604.03.

“Reasonableness standard” means the requirement in A.R.S. § 20-1610(B) that an insurer’s premiums for credit insurance shall not be excessive in relation to the benefits provided under the policy.

“Rule of Anticipation” means the product of the gross single premium per \$100 of indebtedness for a debtor’s remaining term of indebtedness, times the number of hundreds of dollars of remaining indebtedness.

#### Historical Note

Former General Rule 70-22; Correction, original publication did not include Exhibit C (Supp. 76-1). Amended effective January 8, 1980 (Supp. 80-1). Former Section R4-14-604 repealed, new Section R4-14-604 adopted effective April 1, 1982. See subsection (N) for further detail (Supp. 82-2). Amended subsection (N) and Exhibit A effective March 30, 1983 (Supp. 83-2). R20-6-604 recodified from R4-14-604 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

#### Exhibit A. Repealed

#### Historical Note

Former General Rule 70-22; Correction, original publication did not include Exhibit C (Supp. 76-1). Amended effective January 8, 1980 (Supp. 80-1). Former Section R4-14-604 repealed, new Section R4-14-604 adopted effective April 1, 1982. See subsection (N) for further detail (Supp. 82-2). Amended subsection (N) and Exhibit A effective March 30, 1983 (Supp. 83-2). R20-6-604 recodified from R4-14-604 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

#### R20-6-604.01. Rights and Treatment of Debtors

##### A. Creditor Obligations.

- Multiple plans of insurance. If a creditor makes more than one plan of credit insurance available to debtors, the creditor shall inform each debtor of each plan for which

the debtor is eligible and of the premium and charges for each plan.

- Substitution. If a creditor requires a debtor to have credit insurance as additional security for a debt, the creditor shall inform the debtor in writing of the debtor’s right to obtain alternative coverage as prescribed in A.R.S. § 20-1614 before the loan transaction is completed.
- Remittance of premiums. If a creditor adds an insurance charge or premium to a debt, the creditor shall remit the insurance charge or premium to the insurer within 60 days after it is added to the debt.

##### B. Creditor and insurer obligations regarding insurance on refinanced debt.

- If a debt is discharged because the debtor refinances the debt before the scheduled maturity date, the creditor shall notify the insurer that issued the credit insurance on the discharged debt.
- An insurer shall not issue any credit insurance that covers the refinanced debt with an effective date preceding the termination date of the insurance on the original debt.
- The insurer issuing the coverage on the discharged debt shall refund to or credit the debtor with all unearned insurance charges or premium according to R20-6-604.06.
- If a debt is refinanced, the effective date of the policy provisions in any new insurance covering the refinanced debt shall be the first date on which the debtor became insured under the previous policy. An insurer may apply any new exclusion period or preexisting condition limitation only to the portion of the new loan that exceeds the previous loan.

##### C. Required policy provisions.

- Termination provisions for group policies. A group credit insurance policy shall provide for continued coverage of debtors covered under the policy if the policy terminates, as follows:
  - For a policy with a single premium payment, or any other payment method that prepays coverage for more than one month, a provision requiring continued insurance coverage for the entire period for which the premium has been paid; and
  - For a policy with a monthly premium payment, a provision requiring the insurer to send the debtor a termination notice at least 30 days before the effective date of termination, unless an insurer is issuing replacement coverage in at least the same amount, without lapse of coverage.
- Maximum aggregate provisions. A provision in an individual policy or group certificate that sets a maximum limit on total claim payments shall apply only to that individual policy or group certificate.

##### D. Creditor and insurer obligations when debtor prepays debt.

- Except as provided in subsection (D)(2), if a debtor prepays a debt in full, any credit insurance covering the debt shall terminate on the date of prepayment. The creditor and insurer shall refund to or credit the debtor with any unearned premium according to R20-6-604.06.
- If a debt is fully prepaid because of the debtor’s death or any other lump-sum credit insurance payment, a creditor or insurer is not required to refund premium for the coverage under which the lump sum was paid.
- If a claim under credit disability coverage is in progress at the time of prepayment, the insurer:

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- a. May calculate the refund as if the prepayment did not occur until the end of the period for payment of benefits, and
  - b. Is not required to refund premiums for any period for which credit disability benefits are payable.
- E.** Benefits payable on revolving account. If a debtor is paying for credit insurance coverage on a revolving account and dies, the insurer shall pay a benefit amount equal to the amount of indebtedness outstanding on the date of death. The insurer may exclude preexisting conditions occurring within six months of any advance on the revolving account, running separately for each advance or charge.
- 2. Any other person who sends the Director a written request for notice of proceedings to adjust the prima facie rates.
- D.** Any person may submit written comments to the Director or appear at the hearing and provide oral comments on the record. Written comments shall be received no later than the close of record date specified in the notice of hearing.
- E.** The Director shall:
- 1. Consider written and oral comments; and
  - 2. Issue a final order setting prima facie rates no later than 30 days after the close of record date specified in the notice of hearing.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.02. Satisfying the Reasonableness Standard**

- A.** An insurer shall comply with all requirements of A.R.S. § 20-1610 regarding premium and insurance charges.
- B.** An insurer may satisfy the reasonableness standard in A.R.S. § 20-1610(B) if the insurer's premium rate develops a loss ratio of not less than 50% for credit life insurance and not less than 60% for credit disability insurance.
- C.** While in effect, the rates described in R20-6-604.04 and R20-6-604.05, subject to any deviations approved under R20-6-604.08 are conclusively presumed to develop the loss ratios described in subsection (B). For purposes of prospective effect, the Department may rebut this presumption by disapproving or withdrawing approval for the rates as prescribed in A.R.S. § 20-1610.
- D.** An insurer may provide coverage other than the standard coverage described in R20-6-604.04 and R20-6-604.05. An insurer that wishes to provide nonstandard coverage shall:
  - 1. File the nonstandard coverage policy information as prescribed in A.R.S. § 20-1609, and
  - 2. Demonstrate that the rates for the coverage are reasonably expected to develop a loss ratio of not less than 50% for credit life insurance and not less than 60% for credit disability insurance.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.03. Determination of Prima Facie Rates**

- A.** The Director shall, by order, establish prima facie rates as prescribed in this Section.
- B.** At least once every three years, the Director shall:
  - 1. Determine the rate of expected claims on a statewide basis;
  - 2. Compare the rate of expected claims with the rate of actual claims for the past three years determined from the incurred claims and earned premiums at prima facie rates; and
  - 3. If the Director determines that the prima facie rates require adjustment, issue a notice of hearing and proposed order adjusting the actual statewide prima facie rates. The hearing date on the proposed order shall be no earlier than 45 days from the date of the notice.
- C.** The Director shall mail a copy of the notice and proposed order to:
  - 1. Each insurer that reported transaction of credit insurance on its annual statement immediately preceding the date of the notice, and

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.04. Credit Life Insurance Rates and Provisions**

- A.** Under the process prescribed in R20-6-604.03, the Director shall issue an order establishing prima facie rates for credit life insurance.
- B.** The Department shall presume that an insurer meets the loss ratios prescribed in R20-6-604.02(B) if the insurer uses the prima facie rates, subject to the requirements in this Section and R20-6-604.08. An insurer may use the prima facie rates without filing additional actuarial support.
- C.** A credit life insurance policy shall meet the requirements listed in this Section. The policy shall:
  - 1. Provide coverage for death, by whatever means caused, to all eligible debtors, with or without evidence of individual insurability for debtors that purchase coverage within 30 days of being eligible;
  - 2. Have no exclusions other than for:
    - a. Suicide within six months after the effective date of coverage, or
    - b. A preexisting condition;
  - 3. Have no age restrictions, except the following permissible exclusions:
    - a. An age restriction providing that no insurance will become effective on a debtor on or after the attainment of age 70 and that all insurance shall terminate on a debtor attaining age 70; and
    - b. An age restriction for a revolving credit life insurance policy that:
      - i. Excludes a class of debtors determined by age, or
      - ii. Provides for termination of insurance or reduction in the amount of insurance when a debtor reaches age 70; and
  - 4. For insurance on revolving accounts, have the date on which an advance or charge occurs as the effective date of coverage for each part of the insurance attributable to a different advance or a charge to the plan account. Any exclusion period or preexisting condition limitation shall run separately for each advance or charge.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.05. Credit Disability Insurance Rates and Provisions**

- A.** Under the process prescribed in R20-6-604.03, the Director shall issue an order establishing prima facie rates for credit disability insurance.

## TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

## CHAPTER 6. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - INSURANCE DIVISION

- B.** The Department shall presume that an insurer meets the loss ratios prescribed in R20-6-604.02(B) if the insurer uses the prima facie rates, subject to the requirements in this Section and R20-6-604.08. An insurer may use the prima facie rates without filing additional actuarial support.
- C.** A credit disability insurance policy shall meet the requirements listed in this Section. The policy shall:
1. Provide coverage for disability, by whatever means caused, to all eligible debtors, with or without evidence of individual insurability for debtors that purchase coverage within 30 days of becoming eligible;
  2. Include a definition of disability that is no more restrictive than the following:
    - a. For the first 12 months of disability, the inability of the insured to perform the essential functions of the insured's occupation; and
    - b. After the first 12 months of disability, the inability of the insured to perform the essential functions of any occupation for which the insured is reasonably suited by virtue of education, training, or experience;
  3. Not include any employment requirement that a debtor be employed more than full-time on the effective date of coverage, with a definition of "full-time" as a regular work week of at least 30 hours;
  4. Have no exclusions other than for disabilities resulting from:
    - a. Normal pregnancy,
    - b. Intentionally self-inflicted injury, or
    - c. A preexisting condition;
  5. For insurance on revolving accounts, have the date on which an advance or charge occurs as the effective date of coverage for each part of the insurance attributable to a different advance or a charge to the plan account. Any exclusion period or preexisting condition limitation shall run separately for each advance or charge;
  6. Have no age restrictions, except the following permissible exclusion:  
An age restriction providing that no insurance will become effective on a debtor on or after the attainment of age 65 and that all insurance shall terminate on a debtor attaining age 66; and
  7. Include a provision for a daily benefit of not less than one-thirtieth of the monthly benefit payable under the policy.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.06. Refund Methods**

- A.** When refunding premiums as prescribed in A.R.S. § 20-1611, an insurer shall use the following methods:
1. For insurance paid by a single premium, the Rule of Anticipation method; and
  2. For insurance paid by other than a single premium, a method that refunds at least the pro rata gross unearned amount charged to the debtor.
- B.** The Director may approve other refund methods similar to those described in subsection (A), that are actuarially equivalent to the type of coverage the debtor purchased.
- C.** An insurer's refund method may recognize adjustments to a daily basis for interest or payments if the adjustments are consistent with the underlying credit transaction.
- D.** An insurer is not required to refund any amount less than \$5.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.07. Experience Reports**

- A.** By April 1 of each year, an insurer that transacts credit insurance in this state shall file with the Director an experience report, on a form specified by the Director, for each class of business that the insurer transacts as provided in this Section.
1. In this Section, a "class of business" means:
    - a. Credit unions;
    - b. Banks, savings and loan institutions, and mortgage companies;
    - c. Finance companies, small loan companies, and consumer lenders defined in A.R.S. § 6-601(5);
    - d. Dealers, including auto, truck, and boat dealers, retail stores, and other persons selling financed goods; and
    - e. All other persons selling credit insurance not specifically listed in subsection (A)(1)(a) through (d).
  2. The report shall include the following information:
    - a. Mode of premium payment,
    - b. Plan of benefits description,
    - c. Earned premiums,
    - d. Incurred claims,
    - e. Loss ratios, and
    - f. For credit life insurance, mean insurance in force.
- B.** For each day a report is late, the Director may assess a penalty as prescribed in A.R.S. § 20-223.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

**R20-6-604.08. Use of Prima Facie Rates; Rate Deviations**

- A.** Use of rates greater than prima facie rates. An insurer may file for approval and use of any deviated rates that are higher than the prima facie rates referred to in R20-6-604.04 and R20-6-604.05 as prescribed in A.R.S. § 20-1610.
1. The deviated rates shall meet the minimum loss ratio standards and other requirements prescribed by R20-6-604.02.
  2. The filing shall specify the accounts to which the rates apply.
  3. The rates may be:
    - a. Applied uniformly to all accounts of the insurer; or
    - b. Applied on an equitable basis approved by the Director to accounts of the insurer for which the insurer's experience has been less favorable than expected.
- B.** Approval period of deviated rates. An insurer may use a deviated rate for the same period of time as the experience period used to establish the rate, not to exceed a period of three years from the date of approval. An insurer may file for a new deviated rate before the end of the approval period, but not more often than once in any 12 month period.
- C.** Approval is non-transferable. The Director's approval of a deviated rate is not transferable to another insurer. If an insurer acquires an account for which another insurer obtained a deviated rate, the successor insurer may not charge the deviated rate without obtaining approval for the deviated rate as prescribed in subsection (B).
- D.** Use of rates lower than filed rates. An insurer may use a rate that is less than its filed rate without notice to the Director.

Authorizing Statute: A.R.S. § 20-143

20-143. Rule-making power

A. The director may make reasonable rules necessary for effectuating any provision of this title.

B. The director shall make rules concerning proxies, consents or authorizations in respect of securities issued by domestic stock insurance companies having a class of equity securities held of record by one hundred or more persons to conform with the requirements of section 12(g)(2)(G)(ii) of the securities exchange act of 1934, as amended, and as may be amended. Such rule shall not apply to any such company having a class of equity securities which are registered or are required to be registered pursuant to section 12 of the securities exchange act of 1934, as amended, or as may be amended. Whenever such equity securities of any such company are registered or are required to be registered pursuant to section 12 of the securities exchange act of 1934, as amended, or as may be amended, then, no person shall solicit or permit the use of his name to solicit, in any manner whatsoever, any proxy, consent or authorization in respect of any equity security of such company without having first complied with the rules prescribed by the securities and exchange commission pursuant to section 14 of the securities exchange act of 1934, as amended, or as may be amended.

C. All rules made pursuant to this section shall be subject to title 41, chapter 6.

D. In addition to any other penalty provided, wilful violation of any rule made by the director is a violation of this title.

Implementing Statute: A.R.S. § 20-1095.01(C)

20-1095.01. Service companies; permits; rules; application of laws

A. A service company may not offer or issue a service contract unless the service company has qualified for and been issued a permit by the director.

B. Except for the registration requirements in this article applicable to service companies, service companies and related service contract sellers, administrators and other persons that market, sell or offer to sell service contracts are exempt from any licensing requirements of this title as a result of activities related to the marketing, selling or offering of service contracts.

C. The director shall adopt rules that provide for the application for permit, renewal procedures, fees, refund of the unearned portion of the contract price and approval of forms. Service companies are subject to chapter 1 of this title, except section 20-116, and this article.

D. A provider shall provide a consumer with a specimen copy of the service contract terms and conditions prior to the time of sale upon a request by the consumer. A provider may comply with this provision by providing the consumer with a complete sample copy of the terms and conditions or by directing the consumer to a website containing a complete sample of the terms and conditions of the service contract.

**ARIZONA DEPARTMENT OF AGRICULTURE**

Title 3, Chapter 7 (Weights and Measures Division)

**Amend:** R3-7-101, R3-7-103, R3-7-104, R3-7-108, R3-7-109, R3-7-110, Article 1 Table 1, R3-7-201, R3-7-203, R3-7-302, R3-7-402, R3-7-501, R3-7-502, R3-7-503, R3-7-504, R3-7-505, R3-7-506, R3-7-507, R3-7-601, R3-7-602, R3-7-603, R3-7-604, R3-7-701, R3-7-702, R3-7-703, R3-7-704, R3-7-705, R3-7-707, R3-7-708, R3-7-710, R3-7-712, R3-7-713, R3-7-715, R3-7-716, R3-7-717, R3-7-718, R3-7-749, R3-7-750, R3-7-751, R3-7-752, R3-7-753, R3-7-754, R3-7-755, R3-7-756, R3-7-757, R3-7-759, Table A, R3-7-760, R3-7-761, R3-7-762, R3-7-1001, R3-7-1002, R3-7-1003, R3-7-1004, R3-7-1005, R3-7-1006, R3-7-1007, R3-7-1008, R3-7-1009, R3-7-1010, R3-7-1012, R3-7-1013

**Repeal:** R3-7-204, R3-7-605, R3-7-714, Table 1, Table 2, R3-7-901, R3-7-902, R3-7-903, R3-7-904, R3-7-905, R3-7-906, R3-7-907, R3-7-908, R3-7-909, R3-7-910, R3-7-911, R3-7-912, R3-7-913

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** December 6, 2022

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** October 21, 2022

**SUBJECT: ARIZONA DEPARTMENT OF AGRICULTURE**  
Title 3, Chapter 7 (Weights and Measures Division)

**Amend:** R3-7-101, R3-7-103, R3-7-104, R3-7-108, R3-7-109, R3-7-110, Article 1 Table 1, R3-7-201, R3-7-203, R3-7-302, R3-7-402, R3-7-501, R3-7-502, R3-7-503, R3-7-504, R3-7-505, R3-7-506, R3-7-507, R3-7-601, R3-7-602, R3-7-603, R3-7-604, R3-7-701, R3-7-702, R3-7-703, R3-7-704, R3-7-705, R3-7-707, R3-7-708, R3-7-710, R3-7-712, R3-7-713, R3-7-715, R3-7-716, R3-7-717, R3-7-718, R3-7-749, R3-7-750, R3-7-751, R3-7-752, R3-7-753, R3-7-754, R3-7-755, R3-7-756, R3-7-757, R3-7-759, Table A, R3-7-760, R3-7-761, R3-7-762, R3-7-1001, R3-7-1002, R3-7-1003, R3-7-1004, R3-7-1005, R3-7-1006, R3-7-1007, R3-7-1008, R3-7-1009, R3-7-1010, R3-7-1012, R3-7-1013

**Repeal:** R3-7-204, R3-7-605, R3-7-714, Table 1, Table 2, R3-7-901, R3-7-902, R3-7-903, R3-7-904, R3-7-905, R3-7-906, R3-7-907, R3-7-908, R3-7-909, R3-7-910, R3-7-911, R3-7-912, R3-7-913

---

### Summary:

This regular rulemaking from the Arizona Department of Agriculture (Department) seeks to amend sixty (60) rules, one (1) table, and repeal sixteen (16) rules and two (2) tables from Title 3, Chapter 7 Articles 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10 related to the Weights and Measures Division. Specifically, the Department seeks to streamline and clarify Clean Burning Gasoline reporting requirements; incorporate the California Air Resources Board Static Torque Test

procedure; incorporate the most recent version of the National Institute of Standards and Technology Handbooks to bring Arizona up to the current national standards for commercial weighing and measuring devices, the method of sale of commodities, commodity packaging and labeling requirements, and motor fuel sampling methods; and finally to complete the proposed course of action from the five year review report that was approved by Council on January 4, 2022.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Department cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

The Department indicates that this rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department indicates it did not review or rely on any study in conducting this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The Department indicates they have revised the rules to clarify many areas regulating commercial devices, weighmaster requirements, fuel quality, and vapor recovery. The Department licenses over 120,000 commercial devices at over 12,500 locations, in addition to individual licenses issued to 2,585 weighmasters, 29 vapor service representatives, 144 registered service agencies, 511 registered service representatives, as well as other regulated entities. The Department states that businesses that are impacted vary from small business to large corporations. Stakeholders include the Department motor fuel suppliers, retailers, and consumers.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department indicates that they consulted with stakeholders to evaluate the rules in an effort to reduce the regulatory burden while continuing protections for consumers and air quality. As such, the Department believes they have chosen the least intrusive and costly methods

6. **What are the economic impacts on stakeholders?**

The Department believes that in all cases, the changes to this rule are being implemented to have the least impact on business operations, while continuing to protect air quality and equity in the marketplace. The Department does not expect the rulemaking to have a significant impact

on small business or on public or private employment. The Department believe that all businesses regulated by the Department will benefit from rules that are simplified and have improved clarity and consistency.

**7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The Department indicates between the Notice of Proposed Rulemaking and the Notice of Final Rulemaking, that R3-7-708(D)(2) was modified as an editorial change to a comment from Western States Petroleum Association to reflect when the 1 psi vapor pressure waiver is permitted by the USEPA in the summer outside of the Arizona CBG area. Council staff does not believe this change constitutes a substantially different rule pursuant to A.R.S. § 41-1025.

**8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Department indicates that it received twenty-two (22) written comments from James Verburg of the Western States Petroleum Association (WSPA), Craig Willis of the Eco-Energy Fueling Solutions (Eco-Energy), Amanda Gray of the Arizona Petroleum Marketers Association (APMA), R. Brooke Coleman of the Advanced Biofuels Business Council (ABBC), Gene Harrington of Biotechnology Innovation Organization (Bio), and Matthew Hayni of POET. The Department amended R3-7-708(D)(2) pursuant to a comment from WSPA to reflect when the 1 psi vapor pressure waiver is permitted by the USEPA as indicated in subsection 7 of this memo. A summary of all other comments as well as the Department's responses are included in the final materials for the Council's reference. The original comments can be disbursed to the Council at the Council's request. The Department indicates no comments were made by persons who attended oral proceedings on August 30, 2022.

**9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Department indicates that it requires permits for commercial devices, public weighmasters, registered service agencies and representatives, and the authority to construct gasoline vapor recovery systems. General permits are issued for all of these classifications except commercial devices. General permits are not issued for commercial devices for the following reasons:

- Commercial device licenses are specifically authorized under A.R.S. § 3-3451;
- Under A.R.S. § 3-3451(C), each commercial device is licensed separately;
- Each commercial device has an individual license fee as provided under A.R.S. § 3-3452(A), and these fees vary based on the type of device;
- A licensee may hold multiple licenses for one or more commercial device of the same type, or multiple licenses for a combination of different types of commercial devices;

- Each licensee operates commercial devices at different types of facilities (e.g. fuel station vs. grocery store), and these devices may be used for varying business activities and practices;
- The inspection approach and regulatory requirements for each licensee varies based on the type and quantity of devices that they operate, as well as the nature of their business;
- A general permit for a commercial device license is not technically feasible and would not meet the requirements of A.R.S. § 3-3451.

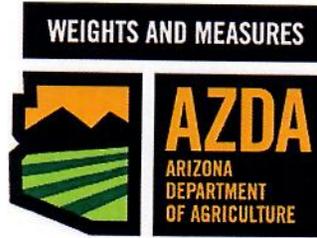

**10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department indicates that this rulemaking is consistent with federal law.

**11. Conclusion**

This regular rulemaking from the Arizona Department of Agriculture seeks to amend sixty (60) rules and two (2) tables and repeal sixteen (16) rules and two (2) tables from Title 3, Chapter 7 Articles 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10 related to Weights and Measures Division. The Department indicates these rules are being updated to streamline and clarify processes, incorporate procedures and handbooks to bring Arizona to the current national standards, and to complete the proposed course of action from the five year review report approved by Council on January 4, 2022. The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

DOUGLAS A. DUCEY  
Governor

MARK W. KILLIAN  
Director

# Arizona Department of Agriculture

Weights and Measures Services Division  
1110 W. Washington Street, Suite 450, Phoenix, Arizona 85007

October 18, 2022

Nicole Sornsin, Chair  
Governor's Regulatory Review Council  
100 N. 15th Avenue, Suite 305  
Phoenix, Arizona 85007

**RE: Request for Approval and Cover Letter  
Notice of Final Rulemaking for A.A.C. Title 3, Chapter 7**

Dear Ms. Sornsin:

Pursuant to A.A.C. R1-6-201, the Arizona Department of Agriculture hereby submits the attached Notice of Final Rulemaking to amend the rules contained in Title 3, Chapter 7 and related documents and requests approval of the same.

The Department requests that the rulemaking be placed on the Council's December 6, 2022 meeting agenda. In accordance with Executive Order 2022-01 the Department received approval of the rulemaking from the Office of the Governor on February 24, 2022 and October 17, 2022.

In accordance with A.A.C. R1-6-201, the Department provides the following additional information:

- a. Close of record date: August 30, 2022.
- b. Relation of the rulemaking to a five-year review report: The latest five-year rule review report was completed January 4, 2022. This rulemaking completes the proposed course of action noted in the Five-Year Review Report.
- c. Whether the rule establishes a new fee: No.
- d. Whether the rule contains a fee increase: No.
- e. Immediate effective date: The Department does not request an immediate effective date.

- f. Certification regarding studies: The preamble discloses that the Department did not review any studies relevant to the rules and did not rely on any studies in its evaluation of or justification for the rules.
- g. Certification regarding employees: No new employees are needed to implement or enforce the rule.
- h. Documents enclosed and provided electronically:
  - 1. This request for approval and cover letter;
  - 2. Notice of Final Rulemaking;
  - 3. Economic, small business, and consumer impact statement;
  - 4. Public comments related to rulemaking.
  - 5. Material incorporated by reference;
  - 6. General and specific statutes authorizing the rule;
  - 7. The existing rules;
  - 8. Emails approving rulemaking from Governor's Office per Executive Order 2022-01, dated February 24, 2022 and October 17, 2022;

In addition, no person has submitted an analysis to the Department that compares the rule's impact on the competitiveness of businesses in this state to the competitiveness of businesses in other states.

Please contact Kevin Allen at (480) 848-1709 or [kallen@azda.gov](mailto:kallen@azda.gov) with any questions.

Sincerely,

Mark Killian

mk:cm

**2. Citations to the agency’s statutory rulemaking authority to include both the authorizing statute (general) and the implementing statute (specific):**

Authorizing statutes: A.R.S. §§ 3-107, 3-3414

Implementing statutes: A.R.S. §§ 3-3413 to 3-3416; 3-3431; 3-3433 to 3-3434; 3-3452 to 3-3454; 3-3471 to 3-3473; 3-3475; 3-3491; 3-3493 to 3-3494; 3-3498; and 3-3512 to 3-3514

**3. The effective date of the rule:**

- a. If the agency selected a date earlier than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason or reasons the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):**

Not applicable.

**b. If the agency selected a date later than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason or reasons the agency selected the later effective date as provided in A.R.S. § 41-1032(B):**

Not applicable.

**4. Citations to all related notices published in the Register as specified in R1-1-409(A) that pertain to the record of the final rulemaking package:**

Notice of Rulemaking Docket Opening: 28 A.A.R. 1771

Notice of Proposed Rulemaking: 28 A.A.R. 1683

**5. The agency's contact person who can answer questions about the rulemaking:**

Name: Kevin Allen, Associate Director

Address: Arizona Department of Agriculture  
Weights and Measures Services Division  
1802 W. Jackson St., #78  
Phoenix, AZ 85007

Telephone: (480) 848-1709

Email: kallen@azda.gov

Website: agriculture.az.gov

**6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

The proposed amendments to the rule seek to accomplish the following:

- Act on a proposal submitted by industry stakeholders to promote additional economic opportunities in Arizona by amending Article 7 to allow E15 motor fuel as an additional motor fuel option available to consumers within the Cleaner Burning Gasoline area ("CBG-covered area").
- In consultation with the Arizona Department of Environmental Quality ("ADEQ"), establish standards in Article 7 for the blending and certification of E15 motor fuel intended for sale within the CBG-covered area to ensure compliance with emissions reduction performance requirements that are part of a federal State Implementation Plan.
- Streamline and clarify CBG certification and reporting requirements in Article 7 to reduce the burden of the CBG program on regulated parties while continuing to uphold the program's benefits to air quality.
- Repeal Article 9 since stage II vapor recovery systems have been decommissioned effective September 30, 2018 and are prohibited under A.R.S. § 3-3512(K).
- Incorporate the California Air Resources Board ("CARB") TP-201.1B Static Torque Test procedure for new and modified stage I vapor recovery installations and as an annual stage I vapor recovery test requirement to help safeguard the performance of components that are designed to prevent gasoline vapor leaks when they are installed at the proper torque setting.
- Repeal unnecessary enforcement actions in Article 1 since maximum enforcement actions are already dictated by statute.
- Repeal redundant requirements in Article 2 for commercial devices as these requirements already exist in NIST Handbook 44 as applied under A.R.S. § 3-3413.
- Repeal unnecessary requirements in Article 6 for third-party registered service agencies, as these requirements are already enforced under the authority of the Arizona Registrar of Contractors and the Industrial Commission of Arizona.
- Adopt the most recent editions of the National Institute of Standards and Technology Handbooks bring Arizona up to the current national standards for commercial weighing and measuring devices, the method of sale of commodities, commodity packaging and labeling requirements, and motor fuel sampling methods.
- Simplify the overall organization of the rule and improve clarity and consistency to ensure that our rules are easy to read and understand and aligned with our statutes.
- Complete the proposed course of action noted in the recent Five-Year Review Report for Title 3, Chapter 7.

**7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

Not applicable

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable

**9. A summary of the economic, small business, and consumer impact:**

The rule will allow, but not mandate, the sale of gasoline with 15 percent ethanol (E15) in the CBG-covered area. E15 motor fuel is currently allowed in Arizona outside of the CBG-covered area. Gasoline suppliers, retailers, and consumers may benefit from availability of increased motor fuel choices. Since the sale of E15 motor fuel is a marketing decision, there are no mandatory costs; however, gasoline retailers that decide to sell this type of gasoline may incur costs to comply with the rules and to ensure that their gasoline storage tank systems and dispensers are compatible with E15 motor fuel.

There are many changes in the rule that reduce regulatory burden and improve clarity, which will increase the ease of understanding and compliance for the regulated community, while continuing protections for consumers and air quality.

Lastly, the proposed rules also include an update to require testing of swivel adaptors at new or modified stage I vapor recovery sites and on an annual basis for existing sites. This test is designed to verify that equipment is operating properly to protect air quality. The cost of this test is minimal and will be required for any gasoline stations that operate with a stage I vapor recovery system equipped with swivel adaptors. Vapor recovery registered service agencies and the Department will have minimal costs associated with procuring the necessary equipment for the test and training to conduct the test.

**10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

A.A.C. R3-7-708(D)(2) was modified as an editorial change in response to comment #6, as shown below:

**D. Special provisions for gasoline-ethanol blends.**

1. Gasoline-ethanol blends shall meet ASTM D4814, except as provided in subsection (D)(2) or (D)(3).
2. The maximum vapor pressure for gasoline blended with fuel ethanol may exceed the vapor pressure requirements outlined in ASTM D4814 by no more than 1.0 psi (referred to as the 1.0 psi waiver) for the following gasoline-ethanol blends:
  - a. Outside of the CBG-covered area if the concentration of ethanol, excluding the required denaturing agent, is at least 9% by volume and no more than the maximum concentration of ethanol ~~as allowed by~~ that is allowed for the 1.0 psi waiver to apply under federal law;

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

An oral proceeding was held on August 30, 2022 at 10:00 a.m. at the Arizona Department of Agriculture, 1110 West Washington Street, Suite 450, Phoenix, Arizona 85007. No verbal comments were received during the hearing. There were six written comments received by the following organizations, which are summarized below with the Department's response to each comment.

Western States Petroleum Association (WSPA), James Verburg  
Eco-Energy Fueling Solutions (Eco-Energy), Craig Willis  
Arizona Petroleum Marketers Association (APMA), Amanda Gray  
Advanced Biofuels Business Council (ABBC), R. Brooke Coleman  
Biotechnology Innovation Organization (Bio), Gene Harrington  
POET, Matthew Haynie

1	<p><b>Comment:</b> We support proposals to simplify the regulations, including removing the compliance averaging option, carbon monoxide label, rules related to stage II vapor recovery.</p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> Thank you for your comment.</p>
2	<p><b>Comment:</b> WSPA is concerned that WMSD is moving forward with rulemaking without the foundational statutory changes to Arizona Revised Statute 3-3493.A.2 and Arizona Revised Statute 3-3493.B.1. Fuel certification is a clear example. For Type 2 Standards (AZCBG Certification with the CARB Predictive Model), the CARB Predictive Model Phase 2 and even the CARB Predictive Model Phase 3 fuel emission models are no longer representative of the current fleet of vehicles circulating on the road today. Furthermore, the emissions cannot even be calculated with the CARB Predictive Model Phase 2 for 15% ethanol blends and with the CARB Predictive Model Phase 3 for 15% ethanol blends. WSPA suggests that WMSD reconsider the current certification process of AZCBG (including the associated statutory language), in particular for wintertime blends, and develop a new process consistent with current data on fuel/vehicle emissions.</p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> The Weights and Measures Services Division (“WMSD”) disagrees that statutory changes are needed to implement the updates in the proposed rule. As described below, Arizona statutes have required more ethanol than was allowed in California since the requirements for wintertime gasoline to meet CARB Phase 2 standards were established in 1998. Additionally, the same statutes that require a minimum ethanol content of 10 volume percent allow a “maximum percentage of oxygen allowed by provisions of waiver issued or other limits established by the United States environmental protection agency,” which is currently 15 volume percent ethanol.</p> <p>A.R.S. §3-3493(A)(1) and (A)(2) outline two fuel reformulation options for summertime gasoline. The option provided in subsection (A)(2) requires fuel formulations to meet <i>“California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3433, subsections D and F.”</i></p> <p>The requirements for this summer formulation were enacted in 1997 under SB 2307. At that time, the summer formulation of gasoline did not require addition of oxygenates, and that is still the case in current statutes.</p> <p>A.R.S. §3-3494(B) provides the fuel formulation requirement for wintertime gasoline. The paragraph states the gasoline, <i>“... shall comply with standards for California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997 and shall meet the maximum vapor pressure requirements in 3-3433, subsections D and F. The fuel described in this subsection shall meet the requirements of section 3-3492, subsection A, paragraph 1.”</i></p> <p>The requirement mandating CARB phase 2 reformulated gasoline during the wintertime was enacted in 1998 under HB 2347, in § 41-2124(B). When enacted, the Arizona reformulated gasoline was required to be certified with 10 volume percent ethanol per A.R.S. § 41-2123, subsection A, paragraph 2, which read (underline added for emphasis):</p> <p><u>“All unleaded gasoline which is supplied or sold by any person and which is intended as a final product for the fueling of motor vehicles within area A or which is consumed in a motor vehicle in area A by a fleet owner shall, for a gasoline-ethanol blend, contain not less than ten percent by volume of ethanol nor more than the maximum percentage of oxygen allowed by provisions of a waiver issued or other limits established by the United States environmental protection agency.”</u></p>

	<p>Therefore, in 1998, the legislature made it clear that even though the CARB Phase 2 requirements did not allow a fuel formulation with 10% ethanol, in Arizona our statutes required a minimum of 10% ethanol and a “maximum percentage of oxygen allowed by the provisions of a waiver issued or other limits established by the United States environmental protection agency.” At that time, the maximum percentage of ethanol allowed by the provisions of an EPA waiver was 10 volume percent (44 FR 68, April 6, 1979). In 2010 and 2011, EPA issued waivers that allowed up to 15% ethanol for certain model vehicles (75 FR 68094, November 4, 2010 and 76 FR 4662, January 26, 2011).</p> <p>Because the CARB regulations limited the maximum oxygen content to 2.7 percent by weight, with a requirement for producers and importers to certify the gasoline with an oxygen content between 1.8 and 2.2 percent by weight, the CBG rules were structured to certify the gasoline with an oxygen content of 2.0 weight percent (corresponding to approximately 5.6 volume percent ethanol), as required to certify gasoline with the CARB predictive model. Following certification, the final gasoline is blended to the 10 volume percent as required by Arizona statute for sale in Arizona (see A.A.C. R3-7-751(J)). In order to accommodate blending of up to 15% ethanol as provided under the EPA waiver, this same logic was followed to allow the new maximum allowable ethanol content per EPA waivers. Additionally, the proposed rules follow recent amendments to federal rules that allow a process to ‘recertify’ gasoline to add 15% ethanol to gasoline previously certified for 10% ethanol (see 85FR 78412, December 4, 2020, 40 CFR §1090.740).</p>
3	<p><b>Comment:</b> WSPA has concerns whether E15 could be permitted within Arizona Revised Statutes 3-3493 for California Phase 2 Reformulated Gasoline. The USEPA has permitted the use of E15 with the Federal Phase II Reformulated Gasoline and has procedures for utilizing the Federal Complex Model to certify Type 1 Arizona CBG under that emissions model. An equivalent mechanism has not been established by the California Air Resources Board (CARB) for Phase 2 Reformulated Gasoline. While CARB has been petitioned to permit E15 into the Phase 3 Reformulated Gasoline Model that permission has not been granted nor is it clear how those procedures could be extended to the Phase 2 Predictive Model. Since E15 is outside of the scope of the CARB Phase 2 and the associated predictive model, it could not be offered as a fuel within the AZCBG covered area without a statutory change.</p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> See response to comment #2.</p>
4	<p><b>Comment:</b> If E15 was permitted without a statutory change, WSPA suggests that WMSD assess whether USEPA would accept CARB Phase 2 gasoline with E15 as representing a new boutique fuel.</p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> In accordance with the Energy Policy Act of 2005, EPA publishes a list of boutique fuels, which is maintained at <a href="https://www.epa.gov/gasoline-standards/state-fuels">https://www.epa.gov/gasoline-standards/state-fuels</a>. Per the list, Arizona has two boutique fuels, Arizona Cleaner Burning Gasoline, summer and non-summer. EPA made it clear during the development of the boutique fuels list that because oxygenated fuel blends are specifically authorized under the Clean Air Act (“CAA”) section 211(m), they are not preempted by CAA 211(c)(4) and therefore not subject to the boutique fuels restrictions in CAA 211(c)(4)(v). See 71 FR 78192, 78197 (December 28, 2006). An ethanol blend of 15 percent therefore would not represent a new boutique fuel.</p> <p>In addition, because E15 is allowable on a federal level, and Arizona is not prescribing and enforcing the use of E15 for the purpose of motor vehicle emission control, the authorization to use up to 15 percent ethanol does not create a new fuel that must be added to the boutique fuels list. See 71 FR at 78194 (identification of fuel types is “based on the required specific fuel components, specifications, or limits of each fuel type”). Allowing the use of E15 in addition to E10 will not create “fuel islands” or result in fuel supply shortages during events such as hurricanes. See 71 FR at 78193-94. Thus, even if CAA 211(c)(4) applied to oxygenate specifications, its boutique fuels restrictions would not apply to the authorization of E15 within the CBG program.</p>
5	<p><b>Comment:</b> The statutory requirement that AZCBG meets the Federal Complex Model in the summer or CARB Phase 2 limits/CARB Phase 2 Predictive Model throughout the year, also needs to be reviewed for parties downstream that introduce components other than what was designated by the fuel supplier. This would apply to</p>

	<p>oxygenate blenders that add additional oxygenate or blenders that introduce fuel components that were not previously certified to meet AZCBG or AZRBOB requirements.</p> <p>EPA’s approach relative to oxygenate blenders in 40 CFR 1090 may not be able to be applied in the same way for Arizona CBG since USEPA RFG certification no longer requires the use of a model to determine compliance. Furthermore, the use of Ethanol Flex Fuel that was blended using gasoline that was not certified to meet AZCBG should not be permitted to be classified as an oxygenate blend and should be required to adhere to the requirements of a registered supplier. This mirrors the USEPA approach relative to natural gas liquids or other components that were not previously certified for sulfur, benzene, and vapor pressure requirements.</p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> As stated, registered suppliers may certify CBG using the complex model, predictive model, or by complying with Type 2 standards during the summer, and must comply with either predictive model or type 2 standards during the winter. A.R.S. § 3-3492(A)(1) requires a minimum ethanol content during the winter of ten percent by volume and a maximum percentage of oxygen “allowed by provisions of a waiver issued or other limits established by the United States environmental protection agency.” Since 2011, the EPA allows gasoline to contain up to 15 percent ethanol; therefore, A.R.S. § 3-3492(A)(2) allows the use of gasoline with up to 15 percent ethanol. As is explained in response #2, and as has been done with the predictive model for almost 25 years, the proposed rule continues to allow the certification of CBG using the complex model with a 1.8 to 2.2 weight percent oxygen content, and then <u>allows</u> the addition of ethanol following certification (it should be noted that it is mandatory to add 10 volume percent ethanol following certification when using the predictive model during the winter). This methodology permits the use of both the complex model and predictive model for certification, while still accommodating the addition of oxygenates per statute to meet either voluntary or required oxygenate standards. The methodology for ‘downstream recertification’ of the CBG to add the additional 5% ethanol follows the process that was developed by EPA and incorporated into federal rules in 2020 (see 40 CFR 1090.740, 85 FR 78412, December 4, 2020).</p> <p>While A.R.S. § 3-3493(A)(1) and (A)(2) set the standards for certification of CBG with the use of the predictive model or complex model, as stated previously, there has been precedent to allow the addition of oxygenates following certification to comply with the oxygenate standards in A.R.S. § 3-3492 since the inception of the CBG program. That, combined with the new procedures outlined by EPA in 40 CFR 1090.740 allowing recertification of gasoline, we are confident that we are following state and federal law. We do not believe there is a difference with respect to the certification using the complex model or certification to a flat standard as outlined in 40 CFR 1090 since both methods are aimed to provide standards to protect air quality, and the CBG program has flat RVP standards that are applicable in addition to the complex model (A.R.S. § 3-3433(D) and (F)).</p> <p>Lastly, the use of ethanol flex fuel to provide the oxygenate for blending E15 is allowed on a federal level. Ethanol flex fuel (“EFF”) is certified to meet standards in ASTM D5798 and in the CBG area, must additionally meet a 7.0 Reid vapor pressure. In 2017, WMSD updated A.A.C. R3-7-718(C) to remove requirements for ethanol flex fuel sold or offered for sale within the CBG-covered area to use a base gasoline that is not certified as CBG as long as vapor pressure and standards for fuel ethanol are met. We contend that since EFF is allowable in the CBG area and CBG E10 is allowable in the CBG area, that the addition of EFF to CBG E10 would be allowable.</p>
6	<p><b>Comment:</b> R3-7-708.D.2 – Gasoline Oxygenate Blends. Pursuant to Special Provisions for gasoline Ethanol Blends, the language surrounding the 1 psi waiver in R3-7-708.D.2 needs to be updated to reflect when the 1 psi vapor pressure waiver is permitted by the USEPA in the summer outside of the Arizona CBG area. The current language could be interpreted to mean that the 1 psi waiver would be permitted for all gasoline ethanol blends permitted by the USEPA rather than only those gasoline ethanol blends that the USEPA has granted the 1 psi waiver. Alternative wording is provided below that makes this clarification and maintains alignment with federal requirements as they evolve:</p>

	<p><i>“R3-7-708 D.2.a Outside of the CBG-covered area if the concentration of ethanol, excluding the required denaturing agent, is at least nine percent by volume and no more than the maximum concentration of ethanol that is granted the 1.0 psi waiver as allowed by federal law.”</i></p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> R3-7-708(D)(2) has been updated as follows:  (2) The maximum vapor pressure for gasoline blended with fuel ethanol may exceed the vapor pressure requirements outlined in ASTM D4814 by no more than 1.0 psi (<u>referred to as the 1.0 psi waiver</u>) for the following gasoline-ethanol blends:  (a) Outside of the CBG-covered area if the concentration of ethanol, excluding the required denaturing agent, is at least 9% by volume and no more than the maximum concentration of ethanol <del>as allowed by</del> <u>that is allowed for the 1.0 psi waiver to apply under</u> federal law.</p>
7	<p><b>Comment:</b> R3-7-751.G - Arizona CBG Requirements. The 2.0% minimum by weight is irrelevant if the gasoline is blended with 10% ethanol as the weight % oxygen will be around 3.5% (and around 5.2% if the gasoline is blended with 15% ethanol). Furthermore, the certification process with the CARB Predictive Model calculates the same emissions if the fuel blend has +/- 0.2 oxygen weight % centered around the 2.0 oxygen weight %.</p> <p><b>Commenter(s):</b> WSPA</p> <p><b>Response:</b> As discussed in response #2, the option to use the PM to certify CBG dates back to 1998. Because AZCBG requires a minimum of 10 volume percent ethanol and the PM used to certify gasoline requires an oxygen content of 1.8 to 2.2 percent by weight, the rules require certification of CBG with the oxygenate concentration as required under the PM. The proposed changes clarify the standards in the PM that require the oxygen content to be between 1.8 and 2.2 percent by weight when certifying under the flat limits.</p>
8	<p><b>Comment:</b> We support the WMSD’s decision to allow E15.</p> <p><b>Commenter(s):</b> Eco-Energy, ABBC, Bio, POET</p> <p><b>Response:</b> Thank you for your comments.</p>
9	<p><b>Comment:</b> The commenters who support the use of E15 included in their comments detailed references to supporting documentation regarding the benefits and studies related to E15. The benefits and studies outlined by one or more of the commenters include:</p> <ul style="list-style-type: none"> <li>● EPA approval</li> <li>● Gasoline tank system compatibility with E15</li> <li>● Product and insurance liability</li> <li>● Alignment with the majority of U.S. states</li> <li>● Successful vehicle miles traveled using E15</li> <li>● Addition of supply to tight gasoline markets</li> <li>● Reduction of pump prices</li> <li>● Consumer choice</li> <li>● Consumer cost savings</li> <li>● Reduction of tailpipe emissions, lifecycle carbon emissions, and greenhouse gases</li> </ul> <p>Copies of the comment letters and referenced studies may be found at:  <a href="https://agriculture.az.gov/calendar/wmsd-proposed-rulemaking-oral-proceeding">https://agriculture.az.gov/calendar/wmsd-proposed-rulemaking-oral-proceeding</a>.</p> <p><b>Commenter(s):</b> Eco-Energy, ABBC, Bio, POET</p> <p><b>Response:</b> Thank you for your comments.</p>
10	<p><b>Comment:</b> The proposed rule contains the right balance for mis-fueling mitigation plans (MMP) and pump labeling.</p>

	<p><b>Commenter(s):</b> Eco-Energy, ABBC</p> <p><b>Response:</b> WMSD appreciates the feedback that you concur with the proposal regarding MMPs and dispenser labeling.</p>
11	<p><b>Comment:</b> At this time, federal RVP rules are fluid; and, WMSD took the right approach to resolving uncertainty in the proposed rule. In essence, WMSD is proposing to do what other states have done; legalize the use of E15 while assuring that its use meets all state rules but defers to federal law on RVP. This approach allows E15 to be used in Arizona only insofar as its use complies with federal law (i.e., the proposal does not either prohibit E15 when allowed by federal rules nor allow it when restricted by federal rules). Perhaps most importantly, this approach avoids a conflict with federal law.</p> <p><b>Commenter(s):</b> Eco-Energy, ABBC</p> <p><b>Response:</b> WMSD appreciates the feedback that you concur with the proposal regarding RVP as contained in R3-7-708.</p>
1 2	<p><b>Comment:</b> There was discussion during the workshop on the WMSD’s plans to inspect electric vehicle charging stations as commercial devices and to ensure their compliance with HB2586’s requirements. We agree with your approach.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> WMSD appreciates the feedback that you concur with our proposed direction regarding electric vehicle charging stations, the required method of sale, and commercial device inspection.</p>
1 3	<p><b>Comment:</b> We applaud the adjustments in Article 6, section 602(B)(2) to facilitate the Division’s ability to combat emerging pulsar tampering technologies used to steal fuel at retail locations. This shows both awareness and proactivity given expansion of these devices in Arizona.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> WMSD appreciates the feedback that you concur with the proposal regarding the language in R3-7-602(B)(2).</p>
1 4	<p><b>Comment:</b> With respect to the Enhanced Vapor Recovery Stage II issue, APMA does not think the definition changes proposed by Maricopa County Air Quality Division adequately address the issue. As discussed in the subgroup meeting on April 27, a statutory change would likely be needed to allow voluntary Enhanced Vapor Recovery Stage II in a nonattainment area.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> WMSD appreciates the feedback and agrees with your comment. Based on comments received during the referenced meeting and further research, the decision was made to remove the stage II vapor recovery rules in Article 9 due to the fact that A.R.S. §3-3512(K) specifically prohibits the use of stage II vapor recovery in an ozone nonattainment area designated as moderate, serious, severe, or extreme by the Environmental Protection Agency. This is reflected in the Notice of Proposed Rulemaking.</p>
1 5	<p><b>Comment:</b> APMA raised concerns during the workshop regarding the changes to Article 1, section 104. The proposed removal of sections 104 (B – N [March 17, 2022 draft lines 188-493]) would eliminate the rule-based protections of licensees, registered service representatives and weighmasters to consistent enforcement action. We support current enforcement approaches by the Department and Division leadership. We are not seeking to avoid consequences when a violation has occurred and been appropriately documented. Language in the current rule provides assurance to the regulated community that penalties will be fair and not overly punitive or targeted toward a specific sector or company. We were glad to participate in a subgroup meeting on April 27 to discuss these concerns. We do not agree with the proposed changes to the enforcement action section of the rule and suggest that the provisions proposed to be deleted should remain in the rule.</p>

	<p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> WMSD believes that the enforcement provisions contained in R3-7-104 are unnecessary since the enforcement actions allowed by the agency are already outlined in statute. As part of our efforts to streamline and remove unnecessary regulatory language, we are removing the duplicative enforcement actions. The agency has policies in place to ensure fair treatment of the regulated community.</p>
1 6	<p><b>Comment:</b> APMA continues to have concerns regarding the proposed rule changes to allow the sale of E15 in the Cleaner Burning Gasoline (“CBG”) covered area. Out-of-state ethanol interests are backing this component of the proposal, while Arizona-based companies fear that allowing E15 on a voluntary basis is the first step in a broader attempt to mandate E15 at the state or federal level. An E15 mandate would be hugely problematic for gas stations and convenience stores because many underground storage tank systems, pipes, sumps and dispensers currently in use are not compatible with more than an E10 blend.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> WMSD is an enforcement agency with no agenda regarding the type of fuel that is legal in the state as long as it complies with state and federal requirements. As such, we work closely with ADEQ and EPA regarding any changes to the rules as they relate to Cleaner-Burning Gasoline and other fuels in the state. The proposed rule does not mandate the use of E15, but instead allows for the sale of E15 within the CBG-covered area, as it is allowed in the remainder of the state.</p>
1 7	<p><b>Comment:</b> WMSD facilitated stakeholder meetings from 2017-2020 related to potential changes to the CBG program and modifications to current fuel formulations. During that period, there was meticulous modeling to analyze, evaluate and understand the air quality impacts to potential CBG fuel formulation replacements. Using the EPA’s streamlining process to allow E15 in the CBG-covered area without adequately understanding air quality impacts raises serious concerns for the association. Phoenix is currently in marginal nonattainment of the 2015 National Ambient Air Quality Standard for ozone of 70 parts per billion and will likely reach serious nonattainment by 2025. Reformulated fuel is a key control in the EPA-approved State Implementation Plan to achieve ozone standards set forth in the Clean Air Act. The CBG program was developed to address the Arizona-specific air quality concerns in both the summer and winter seasons. It is a unique blend. If there is even a small air quality disbenefit from E15, that should be understood at the outset. At present, the California Air Resources Board does not allow the sale of E15 in the state because of air quality concerns.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> Modeling performed by ADEQ indicates that emissions increases are de minimus and EPA has indicated that allowing the use of E15 in CBG is approvable as a SIP revision under the Clean Air Act.</p>
1 8	<p><b>Comment:</b> The California Air Resources Board regulations referenced in A.R.S. §3-3493(A)(2) specifically cap the oxygen content maximum at 10 percent by volume.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> See response to Comment #2.</p>
1 9	<p><b>Comment:</b> The political undercurrents of the E15 debate should appear in the record. On April 12 from an ethanol plant in Iowa, President Biden announced that he would help reduce gasoline prices during the summer driving season via an EPA-issued emergency order to allow sales of E15 during the summer. E15 is typically banned during the summer under Clean Air Act provisions because of air pollution increases. The President’s announcement demonstrates that gaining political points for lowering gas prices is the administration’s motivating force, not air protection.</p> <p><b>Commenter(s):</b> APMA</p>

	<p><b>Response:</b> This is outside the scope of our proposed rule. As previously stated, WMSD is an enforcement agency with no agenda regarding the type of fuel that is legal in the state as long as it complies with state and federal requirements.</p>
20	<p><b>Comment:</b> At the very minimum, the E15 proposal should be conditional upon EPA’s approval of the necessary amendments to the State Implementation Plan. Fuel wholesalers and retailers will be in a very compromised position if they make investments to store, market and sell E15 and then the EPA disapproves it.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> On March 8, 2022, ADEQ, MAG, WMSD, and industry stakeholders held a conference call with EPA to discuss the submission of a State Implementation Plan revision that would allow the use of E15 within the CBG-covered area. During the call, EPA stated that the use of E15 in the CBG area would be approvable as a SIP revision, because the federal RFG rules already allow the use of E15. In addition, EPA indicated that the use of E15 could take effect prior to EPA approval of a SIP revision incorporating the rule change.</p> <p>WMSD has kept EPA informed of the proposed rule, providing several iterations for review, and confirmed that EPA did not have any comments regarding the proposed rule that would indicate E15 would not be approved for use.</p> <p>E15 is a fuel that was approved by EPA over 10 years ago for use in certain vehicles. It has been allowed in Arizona outside of the CBG-covered area in accordance with federal law. EPA has approved the use of E15 in areas that require federal reformulated gasoline and has indicated that the use of E15 in the CBG area would be approvable as a SIP revision. Lastly, distribution and sale of E15 is voluntary, as there is no requirement to sell E15. Based on this information, we feel that the proposed rule is appropriate.</p>
21	<p><b>Comment:</b> If E15 is allowed, it is critical that the rules require adequate labeling to ensure that customers understand what they are purchasing. E15 may have a lower cost per gallon (depending on the cost of ethanol and the value of RINs), but it also has a reduced energy content compared to E10 gasoline.</p> <p><b>Commenter(s):</b> APMA</p> <p><b>Response:</b> WMSD has included labeling requirements that follow federal law. A.A.C. R3-7-705(C) as proposed, requires that all motor fuels meet the labeling requirements of 16 CFR 306. Additionally, per R3-7-705(C)(1)(b), E15 shall be labeled in accordance with 40 CFR 1090.1510. These labeling requirements correspond to the requirements of the Federal Trade Commission and the Environmental Protection Agency, respectively.</p>
22	<p><b>Comment:</b> POET supports this proposed regulation, which would allow E15 motor fuel as an additional option for consumers within the Clean Burning Gasoline (CBG) area in Arizona by removing low Reid Vapor Pressure (RVP) gasoline requirements.</p> <p><b>Commenter(s):</b> POET</p> <p><b>Response:</b> Thank you for your support of the proposed rule. To clarify, the proposed rules do not remove any of the RVP standards currently in place. The rules allow the sale of E15 in the CBG-covered area, while complying with existing RVP requirements. Outside of the CBG-covered area, the rules provide an allowance to exceed the RVP standard by 1.0 pounds per square inch if allowed by federal requirements.</p>

**12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

A.R.S. §§ 3-3414(D) and 3-3433(C) require the Associate Director of the Weights and Measures Services Division (“WMSD”) to consult with the Director of the ADEQ when adopting rules relating to quality standards for motor fuel, including oxygenated fuels, and standards and test methods for motor fuels. A.R.S. § 3-3512 requires the Associate Director of WMSD to consult with ADEQ and the Office of the State Fire Marshal when establishing rules for the installation and operation of stage I vapor recovery systems. WMSD consulted with both agencies as

part of this rulemaking process.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rule requires permits for commercial devices, public weighmasters, registered service agencies and representatives, and the authority to construct gasoline vapor recovery systems. General permits are issued for all of these classifications except commercial devices. General permits are not issued for commercial devices for the following reasons:

- Commercial device licenses are specifically authorized under A.R.S. § 3-3451;
- Under A.R.S. § 3-3451(C), each commercial device is licensed separately;
- Each commercial device has an individual license fee as provided under A.R.S. § 3-3452(A), and these fees vary based on the type of device;
- A licensee may hold multiple licenses for one or more commercial device of the same type, or multiple licenses for a combination of different types of commercial devices;
- Each licensee operates commercial devices at different types of facilities (e.g. fuel station vs. grocery store), and these devices may be used for varying business activities and practices;
- The inspection approach and regulatory requirements for each licensee varies based on the type and quantity of devices that they operate, as well as the nature of their business;
- A general permit for a commercial device license is not technically feasible and would not meet the requirements of A.R.S. § 3-3451.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

This rulemaking is consistent with the federal law. The Cleaner Burning Gasoline and Gasoline Vapor Recovery air quality programs are regulated at the federal level under the Clean Air Act and are required under State Implementation Plans in effect for the region.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

The following material is incorporated by reference in R3-7-101:

**ARTICLE 1. ADMINISTRATION AND PROCEDURES**

**R3-7-101. Definitions**

The definitions in A.R.S. §§ 3-3401, 3-3414, 3-3436, and 3-3511 and the following definitions apply to this Chapter:

1. "ADEQ" means the Arizona Department of Environmental Quality.
2. "Administrative order" means a ~~corrective action~~ notice that the Division issues for a violation of A.R.S. Title 3, Chapter 19, or this Chapter, that orders a person to take corrective action, and may include hold or removal orders, and Warning, Out-of-Service, and Stop-Sale, Stop-Use tags:
  - a. ~~Remove from use or sale, or dispose of, a commercial device, commodity, or liquid fuel;~~
  - b. ~~Stop selling a commodity or liquid fuel until the person provides documentation to the Division that the weight, measure, fuel quality, or price posting complies with the requirements of A.R.S. Title 3, Chapter 19, and this Chapter;~~
  - e. ~~Stop using a commercial device, commodity, liquid fuel, vapor recovery system, or vapor recovery system component, until the person provides documentation to the Division that the weight, measure, fuel, vapor recovery system, or component complies with the requirements of A.R.S. Title 3, Chapter 19, and this Chapter;~~
  - d. ~~Stop performing weighmaster, deputy public weighmaster, registered service agency, or registered service representative licensed duties until the person provides documentation to the Division that the person is complying with the requirements of A.R.S. Title 3, Chapter 19, and this Chapter;~~
  - e. ~~Comply with labeling, policies, and cash register indicator displays according to A.R.S. Title 3, Chapter 19, and this Chapter;~~
  - f. ~~Stop constructing or modifying a vapor recovery system until the person complies with A.R.S. Title 3, Chapter 19, and this Chapter;~~
  - g. ~~Excavate a vapor recovery site according to R3-7-104(L); or~~
  - h. ~~Comply with scheduling a test according to R3-7-104(L);~~
3. "Application" means, for purposes of R3-7-108, forms and all documents and additional information the Division requires an applicant to submit when applying for a license.
4. "ASTM" means ~~American Society for Testing and Materials~~ ASTM International.
5. "Area A" has the same meaning as in A.R.S. § 49-541.
6. "Area B" has the same meaning as in A.R.S. § 49-541.
7. "Area C" has the same meaning as in A.R.S. § 3-3401.
8. "Authority to Construct" means written pre-approval by the Division to allow construction of vapor recovery systems.
- ~~7-9.~~ "CARB" means the California Air Resources Board.
- ~~8-10.~~ "~~CARB certified~~ CARB-certified" means, with respect to a vapor recovery system or component, that the system or component has been certified in ~~an executive order of the a~~ CARB Executive Order.
- ~~9.~~ "~~Certified prover~~" means ~~a calibrated device, traceable to the National Institute of Standards and Technology, used for measuring liquid volume.~~
- ~~10.~~ "Completion of construction" means the point when a gasoline dispensing site is placed into or returned into service following installation or modification of an approved vapor recovery system.
- ~~11.~~ "Construction commenced" means the point in time when construction of a gasoline dispensing site begins:
  - a. ~~At a location where there was not one previously;~~
  - b. ~~To replace all gasoline storage tanks; or~~
  - e. ~~To replace, repair, or modify at least 75% of the facility's gasoline dispensing equipment.~~
- ~~11.~~ "Day" means a calendar day unless otherwise specified.
12. "EPA" means the United States Environmental Protection Agency.
13. "Field calibration standard" has the same meaning as "secondary standards" in A.R.S. § 3-3401(38), and includes all test equipment such as weights, weight sets, measures, meters, counters, or other devices that are required for use by registered service agencies and representatives to certify the accuracy of commercial devices, and are required to be approved annually by the state metrology laboratory under A.R.S. § 3-3416.
- ~~13-14.~~ "Gasoline vapors" means volatile organic compounds in a gaseous state.
- ~~14-15.~~ "Handbook 44" means the United States Department of Commerce, ~~Technology Administration, National Institute of Standards and Technology (NIST) Office of Weights and Measures, NIST Handbook 44, Specifications, Tolerances, and Other Technical Requirements for Weighing and Measuring Devices~~, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (~~2018~~ 2022 edition), incorporated by reference and on file with the Division. This incorporation by reference contains no future editions or amendments.
- ~~15-16.~~ "Handbook 130" means the United States Department of Commerce, ~~Technology Administration, National Institute of Standards and Technology (NIST) Office of Weights and Measures, NIST Handbook 130, Uniform Laws and Regulations~~, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (~~2018~~ 2022 edition), incorporated by reference and on file with the Division. This incorporation by reference contains no future editions or amendments.
- ~~16-17.~~ "Handbook 133" means the United States Department of Commerce, ~~Technology Administration, National Institute of Standards and Technology (NIST) Office of Weights and Measures, NIST Handbook 133, Checking The Net Contents of Packaged Goods~~, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (~~January 2018~~ 2020 edition), incorporated by reference and on file with the Division. This incorporation by reference contains no future editions or amendments.

- ~~17. "Malfunction" means any failure of gasoline vapor recovery equipment to operate in the normal and usual manner.~~
- ~~18. "Modification" means adding to, replacing, or upgrading a site's stage II vapor recovery system, but does not include the repair or replacement of like parts.~~
- ~~19-18. "Monthly throughput" means the total amount of gasoline transferred into or dispensed from a gasoline dispensing site during one calendar month.~~
- ~~20. "Motor vehicle" means any vehicle equipped with a spark ignited internal combustion engine, except vehicles that run on or are guided by rails, and vehicles that are designed primarily for travel through air or water.~~
- ~~21-19. "NCWM" means the National Conference on Weights and Measures.~~
20. "Net quantity" means that quantity of packaged product remaining after all necessary deductions for tare have been made.
- ~~22-21. "NIST" means the National Institute of Standards and Technology.~~
- ~~23-22. "Operator" means a person in control of, or having responsibility for, the daily operation of a gasoline dispensing site.~~
- ~~24-23. "Out-of-service Out-of-Service tag" means a red rejection tag that prohibits the further commercial use of a device, signifies signifying that a commercial device does not meet the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, or this Chapter.~~
- ~~25. "Person" as defined in A.R.S. § 3-3401, means an owner or operator of a commercial device or vapor recovery system, retail seller, wholesaler, registered supplier, pipeline distributor, packer, manufacturer, licensee, transporter, or consignee.~~
24. "Person" has the same meaning as prescribed in A.R.S. § 3-3401, but includes an owner or operator of a commercial device or vapor recovery system, retail seller, wholesaler, registered supplier, pipeline, third-party terminal, packer, manufacturer, licensee, transporter, or consignee.
- ~~26-25. "Placed in service" means the certification by a registered service agency or representative that a commercial device meets the requirements of Title 3, Chapter 19, Handbook 44, and this Chapter and may be used, unless the Division orders otherwise.~~
- ~~27-26. "Placed-in-service report" means the form that a registered service representative completes and submits to the Division after placing newly installing a commercial device or restoring a commercial device in into service.~~
- ~~28. "Product transfer document" means the bill of lading, loading ticket, manifest, delivery receipt, invoice, or other customarily used documentation to denote delivery information for motor fuel.~~
- ~~29-27. "Retail" means the sale of a commodity to a consumer for profit by someone in the business of selling the commodity.~~
28. "Retail price inspection" means the inspection of a retail location for compliance with retail price posting or retail price verification requirements.
- ~~30-29. "Seal of authority Authority" means a physical or electronic stamp or press of the Division official mark, issued to a public weighmaster, certifying the public weighmaster's authority to issue weight certificates.~~
- ~~31-30. "Service Counter counter" means a display staffed by a sales associate and requires a customer to receive assistance in order to purchase a product.~~
- ~~32. "Seizure" means taking into physical possession, or otherwise securing for evidence, a commodity, liquid fuel, weight, measure, commercial device, or component of a device by the Division.~~
31. "Stage I vapor recovery system" has the same meaning as in A.R.S. § 3-3511.
- ~~33-32. "Stage II vapor recovery system" means a system where at least ninety percent 90% by weight of the gasoline vapors that are displaced or drawn from a vehicle fuel tank during refueling are transferred to a vapor-tight holding system or vapor control system.~~
- ~~34-33. "Stop sale, stop use Stop-Sale, Stop-Use tag" means a blue tag or blue tape that signifies that a commercial device, including a vapor recovery system or vapor recovery component, or a commodity or liquid fuel, does not meet the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, Handbook 130, Handbook 133, CARB Executive Orders, or this Chapter.~~
- ~~35. "Third party registered service agency" means a registered service agency that performs work under contract for any business or company.~~
- ~~36-34. "Underground storage tank" means a tank as described in A.R.S. § 49-1001.~~
- ~~37. "Unit" means a quantity adopted as a standard of measurement.~~
- ~~38-35. "Vapor recovery registered service representative" means an individual to whom the Division has issued a license authorizing the individual to conduct all vapor-recovery tests required under A.R.S. Title 3, Chapter 19, or this Chapter including annual vapor-recovery tests.~~
36. "Vapor recovery test equipment" means all test equipment such as measures, meters, counters or other devices that are required for use by registered service agencies and representatives to verify the performance of vapor recovery systems, and are certified according to CARB test procedures, manufacturer specifications or this Chapter.
- ~~39-37. "Warning tag" means a yellow tag that signifies a commercial device, vapor recovery system, or vapor recovery component does not comply with Title 3, Chapter 19, Handbook 44, CARB Executive Orders, or this Chapter.~~
- ~~40-38. "Weight certificate" means a document, issued by a public weighmaster in a form approved by the Division, which certifies the accuracy of the weight of the commodity measured.~~

### **R3-7-103. Licensing and Fees**

- A. A license is effective on the first day of the month following the date that the license application is ~~filed with~~ determined by the Division to be complete and accurate. ~~If an application is filed on the first of a month and is complete and accurate, the license is effective on the first day of that month.~~

- B. A payment is delinquent if not received or postmarked on or before the due date. The Division shall not process a license or renewal application for which payment is delinquent.
- C. If the Division receives payment for a license that excludes the payment of applicable ~~late~~ fees or past due civil penalties, the Division shall apply the license fee payment to the licensee's account and issue a separate invoice for the additional monies owed to the Division. The license will not be issued by the Division until all fees due are paid.

**R3-7-104. Administrative Enforcement Action**

- A. ~~The Division shall take progressive enforcement action for~~ For a violation of A.R.S. Title 3, Chapter 19, CARB Executive Orders, Handbook 44, Handbook 130, Handbook 133, or this Chapter, the Division may:
  - 1. Issue a Warning, Out-of-Service, Stop-Sale, Stop-Use tag, or issue another administrative order under A.R.S. § 3-3415;
  - 2. Seize or condemn a Seal of Authority, weight, measure, or other commercial device under A.R.S. §§ 3-3414 and 3-3415;
  - 3. Impose a civil penalty under A.R.S. §§ 3-3473 and 3-3475;
  - 4. Revoke or suspend a license under A.R.S. § 3-3472;
  - 5. Utilize appropriate progressive enforcement action; or
  - 6. Implement any combination of the above.
- B. ~~The Division shall make available a copy of its inspection report to the person who owns or operates a location that the Division inspects. The report shall include the inspection results and violations. The Division shall send a copy of the inspection report to the owner of a location by e-mail if the owner has provided an e-mail address to the Division. Inspection results and violations shall be posted on the Division website~~ The Division may inspect or examine premises, equipment, or relevant records to determine compliance with A.R.S. Title 3, Chapter 19, CARB Executive Orders, Handbook 44, Handbook 130, Handbook 133, or this Chapter. Failure of a regulated person to comply with such inspection or examination shall be considered a violation under A.R.S. § 3-3473(A)(1).
- C. ~~The person who owns or operates a location inspected by the Division may request a hearing under R3-7-109 to dispute the inspection results, violation, or enforcement action.~~ In addition to the enforcement action in subsection (A), the Division may issue an administrative order requiring a person to excavate a vapor recovery system if the person buries a vapor recovery system or component prior to a Division pre-burial inspection.
- D. ~~The Division shall suspend, revoke, or refuse to renew any license if the licensee does not comply with an enforcement action imposed under this Section.~~
- E. ~~A maximum civil penalty may be doubled as stated in A.R.S. § 3-3475(C).~~
- F. ~~Commercial device:~~
  - 1. ~~The Division may place out of service an unlicensed commercial device that it determines has been in use for more than 30 days.~~
  - 2. ~~The Division may confiscate a commercial device when a person violates an administrative order related to that commercial device, or removes a warning tag, out-of-service tag, or stop-sale, stop-use tag issued to that commercial device without Division authority.~~
  - 3. ~~The Division may condemn and confiscate a weight, measure, or other commercial device that the Division determines is incorrect and not capable of compliance with Handbook 44.~~
  - 4. ~~The Division shall issue an out-of-service tag or a stop-sale, stop-use tag if a commercial device is not in compliance with the requirements in A.R.S. Title 3, Chapter 19, Handbook 44 or this Chapter and the lack of compliance creates a situation favorable to the person who owns or operates the commercial device.~~
    - a. ~~A person shall not use a commercial device that has an out-of-service tag until the person repairs the commercial device.~~
    - b. ~~A person shall not sell or use a commercial device that has a stop-sale, stop-use tag until the commercial device meets the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter.~~
  - 5. ~~The Division shall issue a warning tag when a commercial device is not in compliance with the requirements in A.R.S. Title 3, Chapter 19, Handbook 44, or this Chapter and the lack of compliance creates a situation favorable to the consumer. The Division shall issue an out-of-service tag if the commercial device is not repaired by the deadline on the warning tag. A person shall not use a commercial device after the period specified on the warning tag for repair unless the commercial device complies with A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter.~~
  - 6. ~~The Division may issue an out-of-service tag if a commercial device does not have a non-tampering seal affixed.~~
  - 7. ~~The Division shall issue an out-of-service tag if a Division inspector cannot conduct an inspection of a commercial device because of malfunction, abnormal performance, or a potential safety risk that the person who owns or operates the commercial device does not correct within 30 minutes of the attempted inspection.~~
  - 8. ~~The Division shall issue an out-of-service tag if a commercial device cannot begin weighing, measuring, metering, or counting at zero as prescribed in Handbook 44.~~
  - 9. ~~The Division shall issue a warning tag if the manufacturer's plate on a commercial device does not contain the information required by Handbook 44, is missing, or is unreadable. The Division shall issue an out-of-service tag if the person who owns or operates a commercial device does not obtain a compliant manufacturer's plate by the 30-day deadline imposed on the warning tag.~~

10. The Division shall issue a warning tag to a person who did not construct a large-scale approach according to Handbook 44. The Division shall issue a stop-sale, stop-use tag if the large-scale approach is not made compliant by the deadline imposed on the warning tag.

11. In addition to any enforcement action under subsections (F)(1) through (10):

a. If the Division finds during an inspection that a commercial device does not comply with the requirements of A.R.S. Title 3, Chapter 19, or this Chapter and the lack of compliance favors the owner or operator of the commercial device:

i. The Division may impose a civil penalty up to \$300 on the person who owns or operates the commercial device; and  
ii. The Division may impose a civil penalty up to \$500 on the person who owns or operates the commercial device for each reinspection until the commercial device is in compliance.

b. If the Division finds during an inspection that a person who weighs a product on a commercial device violates Handbook 44 or does not post rates according to Handbook 44 or this Chapter:

i. The Division may issue an administrative order to the person at the conclusion of the inspection and impose a civil penalty up to \$300; and  
ii. The Division may issue an administrative order to the person and impose a civil penalty up to \$500 at each reinspection until the person complies with Handbook 44 and this Chapter.

**G. Public and deputy public weighmaster.**

1. The Division may issue an administrative order if a public weighmaster's:

a. Weigh tickets are not in numbered sequence or are missing;  
b. The seal, press, or electronic seal is not readable, or  
c. Records are not maintained according to R3-7-505.

2. The Division may issue an administrative order and impose a civil penalty up to \$500 on a public weighmaster if:

a. The public weighmaster's weigh tickets contain inaccurate information;  
b. The public weighmaster violates an administrative order;  
c. The public weighmaster misuses a seal or press or has an unauthorized seal or press; or  
d. The public weighmaster misuses an electronic seal or signature.

3. The Division shall confiscate a seal or press if a public weighmaster violates an administrative order issued to the public weighmaster.

4. The Division shall suspend, revoke, or refuse to renew a license if a public weighmaster does not comply with an enforcement action under this Section.

5. The Division shall issue an administrative order and a civil penalty up to \$300 to a person who performs public weighmaster duties without a license.

6. If a public weighmaster permits an unlicensed person to perform deputy public weighmaster duties, the Division may:

a. Impose a civil penalty up to \$300 on the public weighmaster for the first time the public weighmaster permits an unlicensed person to perform deputy public weighmaster duties;  
b. Impose a civil penalty up to \$500 on a public weighmaster for the second time the public weighmaster permits an unlicensed person to perform deputy public weighmaster duties; and  
c. Confiscate the public weighmaster's records, equipment, and devices if the public weighmaster permits an unlicensed person to perform deputy public weighmaster duties more than twice.

**H. Packaging.**

1. The Division shall issue an administrative order to an owner or an employee of the owner where a package inspection is held if a package is not in compliance with a requirement in Handbook 130 or Handbook 133. The person to whom the administrative order is issued shall correct the package violation by:

a. Returning the package to the packer or manufacturer;  
b. Labeling the package to reflect its correct quantity;  
c. Placing a notice on the package that states the violation, and pricing the package to reflect its correct quantity; or  
d. Repackaging the commodity so the package contains the quantity represented.

2. In addition to an administrative order, the Division may impose a civil penalty up to \$500 per lot on a person who violates a requirement in Handbook 130 or Handbook 133.

**I. Price verification.**

1. The initial inspection of a retail location for price verification is for educational purposes and an enforcement action will not be imposed for a violation identified during the initial inspection.

2. The Division shall issue a stop-sale, stop-use tag to a person who fails a price verification inspection or reinspection if a pricing violation cannot be corrected within 30 minutes of the Division completing the inspection:

a. The Division may impose a civil penalty up to \$100 per violation on a person who fails a reinspection if the Division finds more than one item at more than its posted price.

b. The Division may impose a civil penalty up to \$200 per violation on a person who fails a second reinspection. The Division shall increase the per violation civil penalty imposed by \$100 for each subsequent reinspection until the violation is corrected.

- ~~3. If the Division receives and substantiates a complaint about a person against whom the Division took an administrative enforcement action under subsection (I)(2) within the 60 days before the date of the complaint, the Division shall issue a stop-sale, stop-use tag and impose a civil penalty that is \$100 more than the civil penalty that the Division previously imposed against this person.~~
- ~~4. The Division may issue a warning tag to a person who does not have a written price-error policy. The Division may impose a civil penalty up to \$500 if the person does not have a written price-error policy upon reinspection.~~
- ~~5. The Division shall issue a warning tag to a person who does not have a price display visible to the consumer at a check-out location. The Division shall issue an out-of-service tag if the person does not have a price display visible to the consumer at a check-out location upon reinspection.~~

~~J. Price posting:~~

- ~~1. The initial inspection of a retail location for price posting is for educational purposes and an enforcement action will not be imposed for a violation identified during the initial inspection.~~
- ~~2. The Division shall issue a stop-sale, stop-use tag to a person who fails a price posting inspection if the violation cannot be corrected within 30 minutes of the Division completing the inspection.~~
- ~~3. The Division may impose a civil penalty up to \$50 for each inspected lot not priced if a person fails a reinspection with a score of less than 96 percent.~~
- ~~4. The Division may impose a civil penalty up to \$100 for each inspected lot not priced if a person fails a second reinspection.~~
- ~~5. If the Division receives and substantiates a complaint about a person against whom the Division took an administrative enforcement action under subsection (J)(2) within the 60 days before the date of the complaint, the Division shall issue a stop-sale, stop-use tag and impose a civil penalty that is \$100 more than the civil penalty that the Division previously imposed against this person.~~

~~K. Fuel quality and labeling:~~

- ~~1. The Division shall issue a warning tag to a person whose fuel dispenser labeling violates A.R.S. Title 3, Chapter 19, or this Chapter. The Division shall issue an out-of-service tag to the person if the person does not correct the fuel dispenser labeling violation within the time specified on the warning tag.~~
- ~~2. The Division may issue an administrative order to a person whose fuel storage tank labeling or external street signage violates A.R.S. Title 3, Chapter 19, or this Chapter. The Division may impose a civil penalty up to \$300 if the person does not correct the labeling or signage violation within the time specified in the administrative order.~~
- ~~3. The Division may issue an administrative order to, and impose a civil penalty up to \$500 per octane level or fuel grade to a person who violates a fuel quality requirement under A.R.S. Title 41, Chapter 15, or this Chapter. The person shall correct the violation by:
  - ~~a. Removing non-compliant motor fuel from the storage tank and replacing it with compliant motor fuel;~~
  - ~~b. Selling the motor fuel at the correct octane level;~~
  - ~~c. Adding sufficient compliant motor fuel to the storage tank to bring the motor fuel in the storage tank into compliance;~~
  - ~~d. Removing all water from the storage tank or emptying the tank per R3-7-711 or R3-7-712, or~~
  - ~~e. Removing the non-compliant motor fuel to another area within the state if the motor fuel complies with specifications of that area.~~~~
- ~~4. The Division may issue an administrative order to a person who does not provide requested product transfer documentation within 24 hours of the Division's request. The Division may impose a civil penalty up to \$300 on a person who provides the requested documentation between 24 and 72 hours. The Division may impose a civil penalty up to \$500 on a person who does not provide the requested documentation within 72 hours.~~

~~L. Vapor recovery:~~

- ~~1. The Division may issue an administrative order to stop construction at a vapor recovery site and impose a civil penalty up to \$500 on a person who:
  - ~~a. Begins construction or makes a major modification without an authority to construct plan approval;~~
  - ~~b. Does not comply with the authority to construct plan approval, or~~
  - ~~c. Does not obtain an approved change order for construction or major modification of the vapor recovery site unless:
    - ~~i. The vapor recovery system and its components comply with A.R.S. Title 3, Chapter 19, and this Chapter; and~~
    - ~~ii. The vapor recovery system passes the required vapor recovery tests according to A.R.S. Title 3, Chapter 19, and this Chapter.~~~~~~
- ~~2. The Division may issue an administrative order requiring a person to excavate a vapor recovery site if the person covers a vapor recovery component before a Division pre-burial inspection and may impose a civil penalty up to \$500 if the excavated system does not pass required vapor recovery tests according to A.R.S. Title 3, Chapter 19, and this Chapter.~~
- ~~3. The Division shall issue an administrative order if a person fails to ensure that a vapor recovery site passes an initial test within 90 days of being opened or passes an annual test within the designated test month. The Division shall issue a stop-sale, stop-use tag if the person does not comply with the administrative order.~~
- ~~4. The Division may impose a civil penalty up to \$100 on a person who does not have an authority to construct plan approval available for inspection at the construction site during normal business hours.~~

- ~~5. The Division may issue a warning tag to a person whose vapor recovery system labeling does not comply with R3-7-713. The Division may issue a stop-sale, stop-use tag and impose a civil penalty up to \$500 on a person who does not correct a labeling violation within the time specified on a warning tag.~~
- ~~6. The Division shall issue a stop-sale, stop-use tag to a person whose vapor recovery system fails a test under R3-7-905, R3-7-910, R3-7-1005, or R3-7-1010. If the test failure is isolated to a system component, the Division's stop-sale, stop-use tag shall pertain to that component so the rest of the system may operate.~~
- ~~M. The Division may impose a civil penalty up to \$500 and issue another stop-sale, stop-use tag to a person who violates a stop-sale, stop-use tag. The Division may impose a civil penalty up to \$500 and revoke, suspend, or refuse to renew a commercial device license if a person removes a stop-sale, stop-use tag without approval.~~
- ~~N. Registered service agency and registered service representative:
  - ~~1. If a registered service agency submits to the Division an inaccurate or incomplete placed-in-service or test report, the Division may impose a civil penalty up to \$50 on the agency each time the agency resubmits a placed-in-service or test report without making all needed corrections.~~
  - ~~2. The Division may impose a civil penalty up to \$300 on a registered service representative who incorrectly:
    - ~~a. Installs a commercial device,~~
    - ~~b. Repairs a commercial device,~~
    - ~~c. Tests a vapor recovery system, or~~
    - ~~d. Repairs a vapor recovery system.~~~~
  - ~~3. If an unlicensed person represents itself as a registered service agency, the Division may:
    - ~~a. Issue an administrative order,~~
    - ~~b. Impose a civil penalty up to \$500 and confiscate the unlicensed person's calibration standards if the unlicensed person violates the administrative order, and~~
    - ~~c. Deny a registered service agency license to the unlicensed person if the unlicensed person fails to comply with the enforcement action under this subsection.~~~~
  - ~~4. The Division may issue an administrative order to an unlicensed person who performs the duties of a registered service representative. The Division may impose a civil penalty up to \$300 on the registered service agency for which the unlicensed individual works.~~
  - ~~5. The Division may issue an administrative order if a registered service representative places a commercial device into service without Division authorization. The Division may impose a civil penalty up to \$500 on the registered service agency whose representative places a commercial device into service without Division authorization.~~
  - ~~6. The Division may impose a civil penalty up to \$500 on a registered service agency whose registered service representative uses a metrology standard or vapor recovery testing equipment that is not certified according to this Chapter and, as applicable, CARB test methods. The Division may confiscate a metrology standard or vapor recovery testing equipment if a registered service representative uses the uncertified standard or equipment after the registered service agency is penalized. The Division shall return the standard or equipment when it is properly certified.~~
  - ~~7. The Division shall issue an administrative order to a vapor recovery registered service agency or person who owns a vapor recovery system that does not, according to A.R.S. Title 3, Chapter 19, and this Chapter:
    - ~~a. Notify the Division of a test date and time,~~
    - ~~b. Begin a test at the approved time,~~
    - ~~c. Appear for a witnessed test,~~
    - ~~d. Close a vapor recovery system for repairs if the system fails, or~~
    - ~~e. Perform a test.~~~~
  - ~~8. The Division may impose a civil penalty up to \$300 on a vapor RSA that violates subsections (M)(7)(a), (b), (d), or (e). The Division may impose a civil penalty up to \$300 on a vapor recovery registered service agency that violates subsection (M)(7)(e) twice in 12 months.~~
  - ~~9. If a registered service agency's registered service representative does not attach a non-tampering seal on a commercial device that is equipped for a seal, the Division may:
    - ~~a. Impose a civil penalty up to \$300 on the registered service agency for the first violation, and~~
    - ~~b. Impose a civil penalty up to \$500 on the registered service agency for each subsequent violation by the registered service representative.~~~~
  - ~~10. If a vapor recovery registered service representative determines that a vapor recovery system or component is not in compliance with A.R.S. Title 3, Chapter 19, or this Chapter, the vapor recovery registered service representative shall:
    - ~~a. Secure the non-compliant vapor recovery system or component from use before the registered service representative leaves the vapor recovery site or until the system or component passes the tests required by R3-7-910;~~
    - ~~b. Notify the Division of the secured, non-compliant vapor recovery system or component before leaving the vapor recovery site; and~~
    - ~~c. Notify the Division of the time of the test required by R3-7-910 or R3-7-1010 by 6:00 a.m. of the day after the non-compliant vapor recovery system or component is secured or one hour before the test, whichever is sooner.~~~~
  - ~~11. If a recovery registered service representative fails to comply with R3-7-602(B)(2) the Division may:~~~~

- ~~a. Impose a civil penalty up to \$300 on the registered service representative;~~
  - ~~b. Issue an administrative order, if the registered service representative is penalized under this subsection three times in 12 months, requiring the registered service representative to take and pass the licensing competency examination; and~~
  - ~~c. Suspend or revoke the license of the registered service agency employing the registered service representative if the registered service representative does not comply with an order issued under subsection (M)(11)(b).~~
- ~~12. If a registered service representative fails to notify the Division of a non-compliant commercial device under R3-7-602(B)(1)(f), the Division may impose a civil penalty up to \$300.~~

**R3-7-108. Time-frames for Licenses, Renewals, and Authorities to Construct**

- A. For each type of license, renewal, or authority issued by the Division, the overall time-frame described in A.R.S. § 41-1072(2) is set forth in Table 1.
- B. For each type of license, renewal, or authority issued by the Division, the administrative completeness review time-frame described in A.R.S. § 41-1072(1) is set forth in Table 1 and begins on the date the Division receives an application.
  - 1. If the application is not administratively complete, the Division shall send a deficiency notice to the applicant.
    - a. The deficiency notice shall state each deficiency and the information needed to complete the application.
    - b. Within the ~~time~~ time-frame provided in Table 1 for response to the deficiency notice, the applicant shall submit to the Division the missing information specified in the deficiency notice. The time-frame for the Division to finish the administrative completeness review is suspended from the date the Division mails or e-mails the deficiency notice to the applicant until the date the Division receives the missing information.
    - c. If the applicant does not submit the missing information within the ~~time~~ time-frame to respond to the deficiency notice set forth in Table 1, the Division shall send a written notice to the applicant informing the applicant that the application is deemed withdrawn. An applicant who desires to reapply shall begin the application process anew.
  - 2. If the application is administratively complete, the Division shall send a written notice of administrative completeness to the applicant. If the Division, within 10 days of submittal, fails to send a written notice of administrative completeness or deficiency notice outlined in subsection (B)(1), the application shall automatically be deemed administratively complete.
- C. For each type of license, renewal, or authority issued by the Division, the substantive review time-frame described in A.R.S. § 41-1072(3) is set forth in Table 1 and begins on the date the Division sends written notice of administrative completeness to the applicant.
  - 1. During the substantive review time-frame, the Division may make one comprehensive written request for additional information. The applicant shall submit the additional information within the ~~time~~ time-frame provided in Table 1 for response to a comprehensive written request for additional information. The time-frame for the Division to finish the substantive review is suspended from the date the Division mails or e-mails the request until the Division receives the information.
  - 2. If the applicant does not submit the requested additional information within the time-frame provided in Table 1, the Division shall issue a written notice informing the applicant that the application is deemed withdrawn. ~~The applicant may request in writing that the Division deny the application within 15 days of the date of the notice of withdrawal.~~ An applicant who desires to reapply shall begin the application process anew.
  - 3. The Division shall issue a written notice of denial of license, renewal, or authority if the Division determines that the applicant does not meet all of the substantive criteria required by A.R.S. Title 3, Chapter 19, and this Chapter for a license, renewal, or authority. The notice of denial shall include:
    - a. Reasons for the denial, with citations to the statutes or rules on which the denial is based; and
    - b. The name and telephone number of a Division employee who can answer questions regarding the application process.
  - 4. If the applicant meets all of the substantive criteria required by A.R.S. Title 3, Chapter 19, and this Chapter for a license, renewal, or authority the Division shall issue the license, renewal, or authority to the applicant.
- D. ~~The time period~~ time-frame for an applicant to respond to a deficiency notice or request for additional information shall commence on the date of personal service or the postmark date.
- E. In computing any ~~time period~~ time-frame prescribed in this Section, the day of the act, event, or default shall not be included. The last day of the period shall be included unless it is Saturday, Sunday, or a state holiday, in which event the period runs until the end of the next day that is not a Saturday, Sunday, or state holiday. ~~The~~ Unless otherwise specified herein, the computation shall include intermediate Saturdays, Sundays and holidays.
- ~~F. An applicant whose license, renewal, or authority is denied has a right to a hearing, an opportunity for rehearing, and if the denial is upheld, judicial review pursuant to A.R.S. Title 41, Chapter 6, Articles 6 and 10, and A.R.S. Title 12, Chapter 7, Article 6.~~

**R3-7-109. Administrative Hearing Procedures**

A person who is adversely affected by an action made by the Division may request a hearing to dispute license denial, inspection results, a violation, or enforcement action under A.R.S. Title 41, Chapter 6, Articles Article 10 6 and 10 apply to the Division's hearings.

**R3-7-110. Motion for Rehearing or Review**

- A. Except as provided in subsection ~~(G)~~ (I), any party in a contested case or appealable agency action before the Division who is aggrieved by a decision rendered in the case may file with the Division, not later than 10 days after service of the decision, a written motion for rehearing or review of the decision, pursuant to A.R.S. Title 41, Chapter 6, Article 10, specifying the particular grounds for the motion. For purposes of this subsection, a decision shall be deemed to have been served when personally delivered or mailed

by certified mail to the party at the party's last known residence or place of business; or by electronic mail if the party has agreed to receive electronic notifications.

- B. A motion for rehearing or review may be amended at any time before it is ruled upon by the Division. A party shall provide a copy of any pleading on all opposing parties or parties who may be directly affected by the issues presented, and the pleading shall contain a certification of delivery to listed recipients. A response may be filed within 15 days after service of the motion or amended motion by any other party. The Division may require the filing of written briefs upon the issues raised in the motion and may provide for oral argument.
- C. A rehearing or review of the decision may only be granted for any of the following reasons materially affecting the moving party's rights ~~or ability to receive a fair hearing:~~
  1. Any irregularity in the hearing, order, or abuse of discretion ~~by the administrative law judge or the Division~~ depriving the moving party of a fair hearing:
  2. Misconduct of the Division, the administrative law judge, or the prevailing party;
  3. Accident or surprise that could not have been prevented by ordinary prudence;
  4. Newly discovered material evidence that could not have been discovered with reasonable diligence and produced at the original hearing;
  5. Excessive or insufficient penalties;
  6. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the proceedings; or
  7. That the decision is not justified by the evidence or is contrary to law.
- ~~D.~~ If a rehearing is granted, the Division may hear the case or may refer the case to the Office of Administrative Hearings. The decision of the administrative law judge becomes the decision of the Division unless rejected or modified by the Division in accordance with A.R.S. Title 41, Chapter 6, Article 10. A decision of the Division at this level of review is a final decision.
- ~~E.~~ Except for a decision under subsection (I), a rehearing or review of the final Division decision shall be requested in order for the aggrieved party to have the right to appeal under A.R.S. Title 12, Chapter 7, Article 6.
- ~~D.E.~~ The Division may affirm or modify its decision, or grant a rehearing or review. After giving the parties or their counsel notice and an opportunity to be heard, the Division may grant a rehearing or review for a reason not stated in a party's motion. An order granting a rehearing or review shall specify the grounds on which the rehearing or review is granted. The rehearing or review shall cover only those matters so specified.
- ~~E.G.~~ The Division, on its own initiative, within the time time-frame for filing a motion for rehearing or review under this rule, may order a rehearing or review for any of the reasons set forth in subsection (C), after giving the parties notice and an opportunity to be heard.
- ~~F.H.~~ When a motion for rehearing or review is based upon affidavits, the moving party shall serve the affidavits with the motion. An opposing party has 15 days from the date of service to serve opposing affidavits. The Division may extend the period to respond up to 20 days for good cause, or by written stipulation of the parties. If the Division permits reply affidavits, the replying party has five business days in which to serve them.
- ~~G.I.~~ If the Division makes specific findings that the immediate effectiveness of a decision is necessary for the immediate preservation of the public peace, health, and safety and that a rehearing or review of the decision is impracticable, unnecessary, or contrary to the public interest, the Division may issue the decision as a final decision without an opportunity for a rehearing or review. If a decision is issued as a final decision without an opportunity for rehearing or review, any application for judicial review of the decision shall be made within the time limits permitted for applications for judicial review of the Division's final decision.

**Table 1. Time-frames (calendar days)**

Type of License	Authority	Administrative Completeness Review	Response to Completion Request	Substantive Completeness Review	Response to Request for Additional Information	Overall Time-frame
Commercial Device	R3-7-201	14	28	30	30	44
Public Weighmaster	R3-7-501	14	28	30	30	44
Registered Service Agency/ Representative	R3-7-601	14	28	30	30	44
Authority to Construct	R3-7-904 R3-7-1004	14	28	30	30	44

**ARTICLE 2. COMMERCIAL DEVICES**

**R3-7-201. Licensing Process**

- ~~A.~~ Before using a commercial device, a person or a contracted registered service representative shall apply for a ~~license for the commercial device~~ license. The commercial device may be used without a license for up to 30 days after an application is filed with the Division. The application shall be on a form supplied by the Division that includes:

1. The applicant's name, address, and telephone number;
2. The name, address, and telephone number of the location where the commercial device will be operated;
3. A description of the commercial device;
4. The applicant's signature; and
5. ~~An~~ The e-mail address for the owner or operator of the commercial device owner or operator for the Division to provide licenses, invoices, inspections and reports, enforcement action, and other notifications.

**B.** A licensee shall notify the Division of a change in business name or address within 30 days of the change. The Division does not charge a fee to process a change in business name or address.

**C.** Change of business ownership requires an application to transfer a license.

**R3-7-203. Approval, Installation, Use, and Sale of Devices**

**A.** A commercial device installed or placed in use after January 1, 1975, shall have an NCWM National Type Evaluation Program (~~NTEP~~) ("NTEP") Certificate of Conformance or have a ~~certificate of approval from the California Type Evaluation Program (CTEP) ("CTEP") Certificate of Approval.~~ NTEP Certificate of Conformance issuance may be verified at the NCWM website: [http://www.ncwm.net/ntep/cert\\_search](http://www.ncwm.net/ntep/cert_search).

1. If a commercial device has been continuously licensed, or evidence shows it has been in use by the owner in Arizona since January 1, 1975, the commercial device is exempt from ~~NCWM or California Type Evaluation Program prototype NTEP or CTEP approval requirements.~~
2. If a commercial device exempt under subsection (A)(1) fails the specifications, tolerances, or other technical requirements of Handbook 44 during a Division inspection, the Division shall issue ~~an out-of-service~~ a Stop-Sale, Stop-Use tag or confiscate ~~seize~~ the device per ~~R3-7-104(F)(3)~~ R3-7-104(A) and revoke the commercial device license under A.R.S. § 3-3472. A person shall no longer use the device commercially.

**B.** ~~The seller of a commercial device that is remanufactured for the purpose of commercial sale shall mark the commercial device as remanufactured. A person shall not use a commercial device that has an Out-of-Service or Stop-Sale, Stop-Use tag until the person repairs the commercial device as ordered by the Division, the commercial device meets the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter, and approval is obtained from the Division to resume use of the device. If a person sells a commercial device that has an Out-of-Service or Stop-Sale, Stop-Use tag, the seller shall not remove the tag and must disclose to the buyer that the commercial device is not in compliance.~~

**R3-7-204. Livestock and Vehicle Scale Installation Repealed**

- ~~**A.** Portable livestock and portable vehicle scales shall be designed to be movable from one location to another.~~
- ~~**B.** Portable scales and low profile electronic scales shall be accessible for maintenance.~~
- ~~**C.** Notwithstanding Handbook 44, vehicle and livestock scales installed above ground shall have 2 feet minimum clearance from the bottom of the lowest platform support girder to the ground.~~
- ~~**D.** Notwithstanding Handbook 44, vehicle and livestock scales, installed with a pit, shall have 2 feet minimum clearance from the bottom of the main girder that is lowest in platform support to the pit floor.~~

**ARTICLE 3. PACKAGING, LABELING, AND METHOD OF SALE**

**R3-7-302. Handbook 130 and Handbook 133 Packaging, Labeling, and Method of Sale**

- A.** A person shall comply with all packaging, labeling, and method of sale requirements in Handbook 130, except as otherwise stated in this Chapter. A person shall ensure that packaged commodities kept, offered, exposed for sale, sold, or in the process of delivery are weighed, measured, and inspected using sampling and testing procedures designated in Handbook 133, except as otherwise stated in this Chapter.
- B.** A retail seller shall ensure that a package that is offered for sale in a ~~variable~~ random weight, measurement, or count, and that is weighed, measured, or counted at the time of sale, includes a label on the package identifying the net weight, measurement, or count, item description, and packer's name if the packer is not the retailer. Pre-packaged produce does not require a label on each package if the retailer:
1. Clearly labels the price-per-pound where the packaged produce is displayed, and
  2. Deducts a tare for the packaging from the gross weight at the time of sale.
- C.** ~~A retail seller shall price a commodity at the date and time that it is ordered by a customer. If the Division issues an administrative order to a person at location where a package inspection is held, for a package that is not in compliance with a requirement in Handbook 130 or Handbook 133, the person to whom the administrative order is issued shall correct the package violation by:~~
1. Removing the package from sale;
  2. Labeling the package to reflect its correct net quantity;
  3. Placing a notice on the package that corrects the package violation, and pricing the package to reflect its correct net quantity; or
  4. Repackaging the commodity so the package contains the net quantity represented.
- D.** ~~A retail seller who offers, exposes, or advertises a commodity for sale or rent shall post a definite, plain, and conspicuous price on the commodity or adjacent to where the commodity is displayed. If the price of the commodity is by weight, measure, or count, the retailer shall place the price per weight, measure, or count on the commodity or adjacent to where the commodity is displayed. If a~~

retailer offers a commodity for sale or rent at a price reduced by a percentage or a fixed amount from a previously offered price, the retailer shall place the reduction or reduced price on the commodity or adjacent to where the commodity is displayed.

- ~~E. A person who owns or operates a plant nursery shall label each commodity with its identity and price, or post a sign with this information adjacent to the point of display.~~
- ~~F. A retail seller shall ensure that the price of each item purchased is displayed visibly to the public at each check-out location.~~
- ~~G. Items in or behind a service counter that can be sold only with the assistance of a sales associate are not required to have a price displayed. If a price is displayed, it must meet the requirements of this Chapter.~~

#### **ARTICLE 4. PRICE-VERIFICATION AND PRICE POSTING RETAIL PRICING**

##### **R3-7-402. ~~Price-posting Inspection Procedure and Violation Exceptions~~ Retail Price Requirements; Initial Inspections; Violations and Exceptions**

- ~~A. The Division shall choose one item that was used and up to four adjacent items that were not used for a price-verification inspection, as the samples for a price-posting inspection. Retail price requirements. In addition to the requirements in A.R.S. § 3-3431, a person who offers, exposes, or advertises a commodity for sale or rent shall:
  - ~~1. Price a commodity at the date and time that it is ordered by a customer;~~
  - ~~2. Post a definite, plain, and conspicuous price on the commodity or adjacent to where the commodity is displayed;~~
  - ~~3. If the price of the commodity is by weight, measure, or count, place the price per weight, measure, or count on the commodity or adjacent to where the commodity is displayed;~~
  - ~~4. If a price is reduced by a percentage or a fixed amount from a previously offered price, place the reduction or reduced price on the commodity or adjacent to where the commodity is displayed;~~
  - ~~5. Label each commodity offered for sale within a plant nursery with its identity and price, or post a sign with this information adjacent to the point of display; and~~
  - ~~6. Ensure that the price of each item purchased is displayed visibly to the public at each check-out location.~~~~
- ~~B. If the Division finds an alleged price-posting violation involving an item used during its price-verification inspection, the Division shall record the price posting violation on the inspection report. Initial retail price inspections. The initial retail price inspection of a location is for educational purposes and administrative enforcement action will not be imposed for a violation identified during an initial inspection. An initial inspection is the first retail price inspection conducted at a location when no prior retail price inspections have occurred at that location under the current ownership.~~
- ~~C. The following are price-posting violations:
  - ~~1. No price is posted or displayed for an inspected item unless it is not required under subsection (D)(12);~~
  - ~~2. Less than 98 percent of the prices of inspected items are posted accurately; or~~
  - ~~3. A percentage off is provided, but there is no price displayed for the item on, in, or behind a service counter. Price verification.~~
    - ~~1. Violations. Items sampled for price verification that scan at a price higher than the marked or posted price are considered overcharges. An inspected location shall be found in violation if more than one overcharge is recorded in a price verification sample.~~
    - ~~2. Violation exceptions. Items sampled for price verification that scan at a price lower than the marked or posted price are considered undercharges, and are not a violation.~~~~
- ~~D. The following are not price-posting violations: Price posting.
  - ~~1. Violations. The following are price posting violations:
    - ~~a. No price is posted or displayed for an inspected item;~~
    - ~~b. Less than 98% of the items sampled for price posting during a retail price inspection have a marked or posted price; or~~
    - ~~c. A percentage or quantity discount is provided, but there is no price displayed for the item on which the consumer may calculate or compare the discounted price to the regular price.~~~~
  - ~~2. Violation exceptions. The following are not price posting violations:
    - ~~1-a. A price is posted on a shelf where an item is displayed rather than marked on the item individually; A price is posted or displayed as allowed in A.R.S. § 3-3431(L) and (N);~~
    - ~~2-b. A price is posted on the shelf or on a hook in front of or behind a row of items at the farthest left side of all items with the same price for up to 3 feet of shelf space, or at the farthest left and farthest right side of the shelf or hooks with the same priced displaying items of the same price. For items of the same price, the uniform price codes Universal Product Code ("UPC") may differ for the commodities with prices labeled in this manner, as long as the price posted is a generic price and does not refer to a specific product;~~
    - ~~3-c. A price is posted in a location clearly visible to the consumer on a vertical display in a location clearly visible to the consumer for containing items of the same price;~~
    - ~~4-d. Self-contained A price is posted on the inside or outside of the door of a self-contained refrigerated coolers may have prices posted on the inside or outside of the refrigerator doors located on cooler on or in front the left, right, or center of the shelving units in a location clearly visible to the consumer;~~
    - ~~5-c. A storage area that is posted as a storage area for which a customer should ask for assistance Items contained in a clearly marked storage or restocking area where a customer must ask for employee assistance to obtain an item;~~
    - ~~6. A restocking area that is posted as a restocking area for which a customer should ask for assistance;~~~~~~

- ~~7-f.~~ A price is posted on a hook in front of or behind a row of items but the price is clearly visible or a notice is clearly visible stating that the price is posted behind the row of items;
- ~~8-g.~~ An item is located in an advertising display without a posted price but a notice is posted informing a customer to ask an employee for price information ~~assistance about~~ regarding an item contained in the display;
- ~~9-h.~~ A menu-type sign at a point of display that lists the name and price of every item at the point of display in legible text. A menu-type sign may also be used to display single-item purchase prices in areas where space is limited, or used to display a price for purchase of multiple items and single-item purchase prices at the point of display as long as it is ~~located~~ posted at, above, or near adjacent to the point of display;
- ~~10-i.~~ A point of display contains more than one item posted with the manufacturer's name or logo and the price and name of each item ~~in~~ contained within the point of display is posted at, above, or adjacent to the point of display;
- ~~11-j.~~ A price is posted only at each entrance to a store ~~but that and the posted~~ price is the price of each item ~~in~~ displayed for sale within the store, or a price is posted at each entrance to a department within a store ~~but that and the posted~~ price is the price of each item ~~in~~ displayed for sale within the department;
- ~~12-k.~~ A notice states that there is an additional charge based on an item's size ~~and each size~~ and the additional charge for each size is posted at, above, or adjacent to the point of display; and
- ~~13-l.~~ An item that does not have a price ~~and displayed but~~ is located in or behind a service counter and available only with the assistance of a sales associate as allowed in A.R.S. § 3-3431(M). If a price is displayed, it must meet the requirements of this Chapter.

## ARTICLE 5. PUBLIC WEIGHMASTERS

### **R3-7-501. Qualifications; License and Renewal Application Process**

- A. In addition to the requirements of A.R.S. § 3-3453, to be a public weighmaster or a deputy public weighmaster, a person shall:
  - 1. Be at least 18 years old, and
  - ~~2. Be able to operate a scale accurately, and~~
  - ~~3-2.~~ Be able to execute weight certificates properly.
- B. A person shall not perform the duties of a public weighmaster until the person passes the written public weighmaster examination administered by the Division with a minimum score of ~~75 percent~~ 75%. A person may not take the examination more than three times in six months and must wait 7 seven days before retaking the exam.
- C. A person that meets the qualifications for public weighmaster or deputy public weighmaster may apply for a license on a form supplied by the Division. A separate application shall be submitted for each location where the public weighmaster or deputy public weighmaster will issue weight ~~tickets~~ certificates.
  - 1. The application form includes:
    - a. The applicant's name, address, ~~and~~ telephone number, and e-mail address;
    - b. A statement by the applicant that the applicant knows and understands public weighmaster laws and rules;
    - c. The name, address, and telephone number of each of the applicant's public weighmaster locations; and
    - d. The applicant's signature.
  - 2. The public weighmaster's application form also includes:
    - a. The name of each deputy public weighmaster operating at each location;
    - b. A statement that the public weighmaster understands they are responsible to ensure that any deputy public weighmasters working at the location are adequately trained and licensed;
    - c. The name and address of the scale; and
    - d. The scale description.
  - 3. ~~The deputy public weighmaster application shall include a certification that they understand the requirements on a form provided by the Division and be signed by both the public weighmaster and the applicant. The deputy public weighmaster application shall be on a form provided by the Division, and include a certification that the applicant understands the requirements in this Article. The deputy public weighmaster application shall be signed by both the public weighmaster and the applicant.~~
  - 4. An applicant may be required to submit evidence of qualifications.
  - 5. The public weighmaster shall ensure all deputy public weighmasters are licensed for the location prior to their issuance of weight ~~tickets~~ certificates.
  - 6. An applicant shall submit information and documentation concerning lawful presence required by A.R.S. § 41-1080.
- D. Before the Division issues or renews a public weighmaster or deputy public weighmaster license, the applicant shall pay the required fees and provide information required in A.R.S. Title 3, Chapter 19, and this Chapter.
- E. A public weighmaster licensee shall notify the Division of a change in business name or address within 30 days of the change. The Division does not charge a fee to process a change in name or address.
- F. Change of business ownership requires an application to transfer a license.
- F.G. In the event a public weighmaster leaves employment, a licensed deputy public weighmaster may utilize a public weighmaster stamp ~~which that~~ contains only the location identity as issued under R3-7-506(B) for 30 days at a location while a public

weighmaster license application is underway. A public weighmaster stamp containing the public weighmaster's name may not be ~~continued~~ continue to be used following a public weighmaster's departure.

### **R3-7-502. Duties**

A public weighmaster shall:

1. Be responsible for the daily operation and maintenance of the licensed scale used when performing public weighmaster duties;
2. Use scales according to applicable laws and rules;
3. Be responsible for all acts performed by any deputy public weighmaster designated by the public weighmaster; and
4. Ensure that deputy public weighmasters are licensed prior to their issuance of a weight ~~ticket~~ certificate and cancel deputy public weighmasters licenses within 10 days of their leaving employment to ensure each location has the correct number of licensed deputy public weighmasters. A deputy public weighmaster license may be canceled by sending an e-mail or other written notification to the Division.

### **R3-7-503. Grounds for Denying License or Renewal; and Disciplinary Action**

- A. The Division may deny a public or deputy public weighmaster license for any of the following reasons:
  1. Providing false or misleading information;
  2. Failing to meet the requirements stated in this Article; or
  3. Any of the reasons stated in subsections (B)(1) through (9).
- B. The Division may impose disciplinary action against, or refuse to renew a public weighmaster's license for any of the reasons stated in subsection (A)(1) or (2), or if the Division has determined that the public weighmaster:
  1. Does not have the ability to ~~weigh accurately~~ conduct an accurate weighing for producing weight certificates;
  2. Has ~~not correctly made~~ produced an incorrect, inaccurate, or falsified weight certificates certificate;
  3. Has been found to ~~have violated~~ violate any provision of A.R.S. Title 3, Chapter 19, or this Chapter;
  - ~~4. Has falsified a weight certificate;~~
  - ~~5-4.~~ Has delegated authority to someone other than a licensed public weighmaster or deputy public weighmaster;
  - ~~6-5.~~ Has improperly used a public weighmaster's seal of authority Seal of Authority;
  - ~~7-6.~~ Has ~~presigned~~ pre-signed certificates for later use;
  - ~~8-7.~~ Has issued a weight certificate on which changes or alterations were made; or
  - ~~9-8.~~ Has used a scale for public weighing that is not properly licensed.

### **R3-7-504. Scales and Vehicle Weighing**

- A. When making a weight determination, a public weighmaster shall use a ~~weighing device~~ scale that is suitable for the function.
- B. The public weighmaster shall not use a scale to weigh a load that exceeds the normal or rated capacity of the scale.
- C. The owner or user of a ~~weighing device~~ scale is responsible for the accuracy of the ~~device~~ scale used by a public weighmaster. The owner or user shall comply with Handbook 44.
- D. If a scale is equipped with a printing device, it shall be used for all relevant entries on the weight certificate.
- E. The Division shall separately license and regulate each scale location.
- F. A public weighmaster or deputy public weighmaster shall weigh any vehicle or combination of vehicles on a scale having a platform that fully accommodates the vehicle or combination of vehicles as one unit.
- G. If a combination of vehicles is divided into separate units to be weighed, each separate unit shall be entirely disconnected before weighing and a separate weight certificate shall be issued for each unit.

### **R3-7-505. Weight Certificates**

- A. In issuing a weight certificate, a public weighmaster shall enter only ~~those weight values~~ information or other required information that the public weighmaster or deputy public weighmaster has accurately and personally determined.
- B. A public weighmaster or deputy public weighmaster shall not make any entries on a weight certificate issued by another person.
- C. By signing a weight certificate, a public weighmaster or ~~the weighmaster's~~ deputy public weighmaster shall be responsible for the accuracy of all entries on the weight certificate.
- D. ~~A weight certificate is valid only when properly signed and sealed by the issuing public weighmaster or the deputy public weighmaster. The name and image of the seal of the public weighmaster and deputy public weighmaster may be imprinted electronically on the weighmaster certificate in lieu of a handwritten signature and embossed seal if the electronically imprinted name and seal is that of the weighmaster or deputy public weighmaster who weighed, measured, or counted the commodity. To issue an electronic signature or seal, the weighmaster or deputy public weighmaster shall have an individual login associated with the electronic signature and seal or other security measures in place to prevent non-licensed persons from use. A weight certificate is valid only when marked with the Seal of Authority and signed by the issuing public weighmaster or deputy public weighmaster.~~
- E. ~~A Seal of Authority may be printed electronically on a weight certificate if it is identical in appearance to the Seal of Authority issued by the Division.~~
- F. ~~A public weighmaster or deputy public weighmaster's signature may be printed electronically on the weight certificate in lieu of a handwritten signature if the electronic signature is that of the public weighmaster or deputy public weighmaster who weighed the commodity. To issue a weight certificate with an electronic Seal of Authority and signature, the public weighmaster or deputy public~~

weighmaster shall have an individual login associated with the electronic Seal of Authority and signature or other security measures in place to prevent unauthorized persons from use.

**E.G.** If an error is made on a weight certificate, the public weighmaster or deputy public weighmaster shall void the certificate and issue a new certificate. No changes or alterations shall be made on a weight certificate.

**F.H.** A weight certificate shall state:

1. The date of issuance;
2. The name of the declared owner, agent, or consignee of the material weighed;
3. The accurate weight of the material weighed or counted;
4. The means by which the material is being transported at the time it is weighed or counted;
5. An identification The license plate number of the transporting unit, including a license number; and
6. The printed name, signature, and license number of the public weighmaster or deputy public weighmaster issuing the weight certificate; and
- ~~6-7.~~ The following statement: "PUBLIC WEIGHMASTER'S CERTIFICATE OF WEIGHT AND MEASURE. This is to certify that the described merchandise was weighed, counted, or measured by a public or deputy public weighmaster, and when properly signed and sealed, is prima facie evidence of the accuracy of the weight, count, or measure shown as prescribed by law."
- ~~7.~~ The printed name, signature, and license number of the public weighmaster or deputy public weighmaster issuing the weight ticket.

**G.I.** A public weighmaster shall maintain a legible copy of each weight certificate issued at each scale location, for a minimum of one year. A public weighmaster ~~also~~ shall also ensure that weight certificates are consecutively numbered and filed numerically, including ~~voids~~ voided weight certificates. A public weighmaster shall not use another filing system without Division approval.

**H.J.** A public weighmaster is liable for any forged signatures physical, printed, or electronic signatures.

### **R3-7-506. Seal of Authority**

- A. A public weighmaster shall obtain a ~~seal~~ Seal of Authority for the certification of weight certificates at cost through the Division.
- B. The Division shall assign a number to a ~~seal~~ Seal of Authority that identifying identifies the specific location for which the ~~seal~~ Seal of Authority is issued.
- C. A ~~seal~~ Seal of Authority is the property of the state. A public weighmaster shall surrender ~~a seal~~ their assigned Seal of Authority to the Division within 30 days after the public weighmaster no longer operates as a licensed public weighmaster if the ~~seal~~ Seal of Authority contains the public weighmaster's name. If the ~~seal~~ Seal of Authority was issued under R3-7-506(B) and only contains the location identification number, it may be retained for use by the next licensed public weighmaster at the location if it is still legible. Illegible seals or seals used in violation of an administrative order shall be ~~surrendered to~~ seized by the Division.
- D. A public weighmaster shall have one ~~seal~~ Seal of Authority for use at each scale location.
- E. A ~~seal~~ Seal of Authority shall be accessible to the public weighmaster and authorized ~~deputies~~ deputy public weighmasters during all business hours at the scale location for the timely and proper certification of weight certificates.
- F. A public weighmaster shall keep a ~~seal of authority~~ Seal of Authority at each scale location and make it available for inspection by the Division during all business hours.
- G. A public weighmaster may recreate the ~~state assigned seal~~ Seal of Authority assigned by the Division in an electronic format for use as provided under ~~subsection R3-7-505(D)~~ R3-7-505(E) and (F). The Division shall provide a template of ~~seal~~ the Seal of Authority.

### **R3-7-507. Prohibited Acts**

- A. A person shall not:
  1. Issue a certified weight certificate without being a licensed public weighmaster or a ~~person properly~~ deputy public weighmaster authorized to act for a public weighmaster;
  2. Procure, print, or cause to be printed any public weighmaster weight certificate without being a licensed public weighmaster or a deputy public weighmaster authorized to act for a public weighmaster;
  3. Possess unfilled or unused ~~public weighmaster weight certificate forms~~ certificates without being a licensed public weighmaster or a deputy public weighmaster authorized to act for a public weighmaster;
  4. Furnish or give false information to a public weighmaster or deputy public weighmaster for use in the completion of a weight certificate;
  5. Present a weight certificate for payment falsified by the insertion of any weight, measure, or count not determined by the issuing public weighmaster;
  6. Use without authorization the title "licensed public weighmaster" or any similar title; represent oneself to be a public weighmaster without holding a license issued by the Division; or engage in public weighing without holding a valid license as a public weighmaster or a deputy public weighmaster authorized to act for a public weighmaster; or
  - ~~7.~~ Represent oneself to be a public weighmaster without holding a license issued by the Division;
  - ~~8.~~ Engage in public weighing without holding a valid license as a public weighmaster, or acting under the authority of a licensed public weighmaster;
  - ~~9-7.~~ Use an unlicensed scale in the performance of public weighmaster duties; or,
  - ~~10.~~ Operate a scale for public weighing unless that person is licensed as a public or deputy public weighmaster.

~~11. Nothing in this subsection shall be construed to prevent administrative staff of the public or deputy public weighmaster from performing administrative duties such as filing weight tickets.~~

**B.** ~~Nothing in subsection (A) shall be construed to prevent administrative staff of the public weighmaster or deputy public weighmaster from performing administrative duties such as filing weight certificates.~~

**B.C.** People engaged in the business of printing weight certificate forms, their representatives, and the Division are exempt from the prohibitions specified in subsections (A)(2) and (3).

## ARTICLE 6. REGISTERED SERVICE AGENCIES AND REPRESENTATIVES

### R3-7-601. Qualifications; License and Renewal Application Process

**A.** Registered service agency.

1. To obtain a license as a registered service agency, an applicant shall provide evidence that:

- a. The applicant's registered service representative has a thorough knowledge of all appropriate laws within A.R.S. Title 3, Chapter 19, Handbook 44, CARB Executive Orders, and this Chapter;
  - b. The applicant provided its representative with a copy of the portions of A.R.S. Title 3, Chapter 19, Handbook 44, CARB Executive Orders, and this Chapter relating to registered service representative duties;
  - c. The applicant:
    - i. Possesses the necessary certified field calibration standards to service commercial devices that meet the requirements of A.R.S. § 3-3416 for installing, repairing, or servicing commercial devices; and
    - ii. Possesses the necessary vapor recovery test equipment calibrated in the time-frame required by the equipment manufacturer or CARB Executive Orders to perform the required testing of a vapor recovery system or vapor recovery component properly; or
    - iii. Has pre-filed with the Division documentation that the applicant has access to the necessary standards and testing equipment belonging to another registered service agency and has written approval from that agency to use its standards and testing equipment; and:
      - (a) Access to the necessary field calibration standards and vapor recovery test equipment belonging to another registered service agency;
      - (b) Written approval from that registered service agency to use its field calibration standards and vapor recovery test equipment;
      - (c) Documentation supporting that the field calibration standards meet the requirements of A.R.S. § 3-3416(F); and
      - (d) Documentation supporting that the vapor recovery test equipment meets the calibration requirements established by the CARB test procedure or this Chapter.
  - d. The applicant shall ensure that its registered service representative operates the field calibration standards and vapor recovery test equipment according to A.R.S. Title 3, Chapter 19, Handbook 44, CARB Executive Orders, and this Chapter.
2. The Division shall not issue a registered service agency license until at least one of the applicant's employees passes a registered service representative competency exam.
3. An applicant for a registered service agency license shall submit an application form, obtained from the Division that provides:
- a. Name, address, telephone number, ~~electronic mail, and facsimile number~~ and e-mail address;
  - b. License information from other states;
  - c. Types of devices serviced, repaired, or installed, or vapor recovery systems or components repaired or tested;
  - d. A list of all of the applicant's ~~devices and testing~~ field calibration standards and vapor recovery test equipment with corresponding serial or identification numbers;
  - e. Branch office information;
  - f. Names of registered service representatives and their experience with other registered service agencies or states;
  - g. License and disciplinary history; and
  - h. Applicant's signature.

~~**B.** Third-party registered service agency. In addition to complying with the requirements in subsection (A), a third-party registered service agency shall provide the Division with evidence that the third-party registered service agency:~~

- ~~1. Holds a valid license issued by the Arizona Registrar of Contractors;~~
- ~~2. Complies with workers' compensation insurance laws; and~~
- ~~3. Maintains liability insurance sufficient to cover the value of work to be performed.~~

**C.B.** Registered service representative.

1. To obtain a license as a registered service representative, an applicant shall provide evidence that:

- a. The applicant has a thorough knowledge of all appropriate laws within A.R.S. Title 3, Chapter 19, Handbook 44, CARB Executive Orders, and this Chapter;
- b. The applicant possesses the necessary training or experience regarding appropriate field calibration standards and testing vapor recovery test equipment to service the specific commercial device, vapor recovery system, or vapor recovery system component indicated on the application; and

- ~~e. The applicant will operate according to appropriate laws within A.R.S. Title 3, Chapter 19, Handbook 44, CARB Executive Orders, and this Chapter; and~~
- ~~d.c.~~ The applicant has passed the competency examination specified in subsection (D).
2. An applicant for a registered service representative license shall submit an application on a form obtained from the Division that provides:
    - a. Name, address, telephone number, and ~~facsimile number~~ e-mail address;
    - b. License information from other states;
    - c. An indication of whether the applicant is applying to be a registered service representative or a vapor recovery registered service representative;
    - d. ~~Types~~ A summary of the types of devices serviced, repaired, or installed, or vapor recovery systems or components repaired or tested;
    - e. Work experience with other registered service agencies in Arizona or other states;
    - f. License and disciplinary history; and
    - g. Applicant's signature.
  3. An applicant for a vapor recovery registered service representative license shall maintain and make available to the Division upon request evidence of being certified by the manufacturer to test or repair all vapor recovery systems and components;
    - ~~a. Certified by the manufacturer to test or repair all vapor recovery systems and components, or~~
    - ~~b. Determined qualified by the Division to test or repair all vapor recovery systems and components.~~
  4. An applicant shall submit information and documentation concerning lawful presence required by A.R.S. § 41-1080.
- D.** Competency examination. Before being an applicant is issued a registered service representative license, ~~an~~ the applicant shall pass a Division-administered competency examination.
1. An applicant for a vapor recovery registered service representative license shall complete the Division's training class before taking the competency examination. The Division may waive the training class requirement for up to 12 months for new applicants.
  2. An applicant shall bring a copy of Handbook 44 to the examination site. An applicant for a vapor recovery registered service representative license shall additionally bring copies of CARB test procedures, Executive Orders, and Division Standard Operating Procedures.
  3. An applicant shall complete the competency examination within the time specified by the Division and pass with a score of ~~75~~ percent 75% or greater.
  4. The Division shall not allow an applicant to take the competency examination more than three times in six months and the applicant must wait seven days prior to retaking the exam.
  5. The associate director may contract with a third-party testing company to administer testing competency examinations to provide added convenience to registered service ~~representatives~~ representative applicants. Taking exams through ~~the third-party~~ a third party is optional and the registered service representative shall be responsible for payment of any additional costs related to third-party testing.
- E.** As required under A.R.S. § 3-3454(G), the Division shall specify on a registered service representative license the ~~devices~~ type of service that the registered service representative ~~may or the vapor recovery systems or components that the vapor recovery registered service representative may test or repair. A registered service representative shall perform only the services approved by the Division for the registered service representative service, repair, or install is approved to perform.~~
- F.** Renewal of a registered service representative license. Under A.R.S. § 3-3454(D), a registered service representative license is valid for 12 months and expires unless renewed. To renew a registered service representative license, the registered service agency employing the registered service representative shall ~~comply with R3-7-603(E) submit the renewal fee for the agency license and the agency's registered service representative licenses by the first day of the month that each license expires. Before complying with R3-7-603(E), submitting the renewal fee,~~ the registered service agency shall ensure that once every 36 months a vapor registered service representative completes the Division's training class and takes and passes the Division's written vapor recovery competency examination.
- G.** A registered service agency licensee shall notify the Division of a change in business name or address within 30 days of the change. The Division does not charge a fee to process a change in business name or address.
- H.** Change of business ownership requires application for a new license. Existing registered service representatives may move their license to a new registered service agency without being subject to the requirements in Subsection (D).

**R3-7-602. Duties**

- A.** Registered service agency.
1. A registered service agency shall:
    - a. Maintain all ~~equipment~~ field calibration standards used for commercial device certification according to standards traceable to NIST; ~~and;~~
    - b. Use the appropriate type and quantity of field calibration standards when testing, repairing, or certifying a commercial device according to A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter; and
    - ~~b.c.~~ Maintain and use ~~equipment for testing vapor recovery systems and~~ vapor recovery test equipment ~~system components~~ according to this Chapter, CARB test procedures, and manufacturer specifications.

2. When a registered service agency restores or newly places ~~in service~~ a commercial device into service, or restores a commercial device into service as the result of an Out-of-Service or Stop-Sale, Stop-Use tag, or an administrative order, the registered service agency shall complete a placed-in-service report form prescribed by the Division.
  - a. Within seven ~~calendar~~ days after the commercial device is ~~restored to service or~~ newly placed ~~in~~ into service or restored into service, the registered service agency shall complete an online placed-in-service report to the Division. If an online placed-in-service report is not available for the device, a paper report shall be submitted;
  - b. The registered service agency shall ~~give~~ provide a copy of the placed-in-service report to the person who owns or operates the commercial device;
  - c. The registered service agency shall retain a copy of the placed-in-service report ~~or any required vapor recovery report~~ for one year;
  - d. The registered service agency shall ensure that the placed-in-service report contains the assigned license number of the registered service representative who installs or ~~repairs~~ restores the commercial device and completes the report;
  - e. The registered service agency shall ensure that the placed-in-service report is completed and signed by the registered service representative noting each ~~rejected~~ commercial device ~~restored to service and each~~ newly installed ~~device placed in or restored into service; and~~
  - f. The registered service agency shall ensure that the placed-in-service report includes the serial or identification number of each field calibration standard used by the registered service representative to calibrate ~~the commercial device for each rejected device restored to service and for each newly installed device placed in service; and each commercial device newly installed or restored to service.~~
3. A registered service agency shall have all ~~equipment used for commercial device certification~~ field calibration standards certified annually ~~by the manufacturer as required under A.R.S. § 3-3416.~~ Vapor recovery test equipment shall be certified as required by the CARB test procedure or this Chapter.
4. A registered service agency shall not use a new ~~equipment for commercial device certification~~ field calibration standard until it is certified ~~by a NIST traceable laboratory as required under A.R.S. § 3-3416.~~
5. A registered service agency shall ensure that ~~employees do~~ its employee does not perform registered service representative duties until ~~licensed~~ the Division licenses the employee as a registered service representative. A registered service agency may train an employee in registered service representative duties only if the employee is within the direct line of sight and hearing of a supervising licensed registered service representative.
6. A registered service agency shall use a form approved by the Division to record vapor recovery test results and violations. The test results shall be e-mailed to the Division within seven days after completion of the test.
7. A registered service agency shall retain a copy of a required vapor recovery test report for a period of one year.
- ~~7.8.~~ A registered service agency shall ensure that its registered service representative provides a vapor recovery system owner or operator with written test preparation instructions, at least ~~5~~ five business days before an initial or annual test.

**B. Registered service representative.**

1. A registered service representative shall:
  - a. Perform only the type of service that they are approved by the Division to perform;
  - ~~a.b.~~ Install only commercial devices that meet the requirements of this Chapter;
  - ~~b.c.~~ Perform all vapor recovery tests according to this Chapter;
  - ~~c.d.~~ Perform all appropriate tests before a commercial device is placed in service, including when repairing a commercial device or repairing or replacing a vapor recovery system or component is newly installed or restored to service, to ensure that the requirements of A.R.S. Title 3, Chapter 19, this Chapter, Handbook 44, ~~and CARB Executive Orders~~ are met;
  - ~~c.e.~~ Perform all appropriate tests when installing, repairing, or replacing a vapor recovery system or component to ensure that the requirements of A.R.S. Title 3, Chapter 19, this chapter, and CARB Executive Orders are met;
  - ~~d.f.~~ Report to the user equipment or commercial devices that do not conform to NIST standards; ~~and~~
  - ~~e.g.~~ Complete placed-in-service reports accurately;:
  - ~~e.h.~~ Obtain and keep current, during the term of the registered service representative license, all required federal, state, and local licenses and ensure compliance with all federal, state, and local laws, rules, regulations, and policies governing the occupation of a registered service representative.
- ~~f.2.~~ A registered service representative shall Report report to the Division within one hour by e-mail or phone telephone of finding a device that is not certified as part of the NTEP Certificate of Conformance under R3-7-203(A) and is installed to fraudulently obtain motor fuel or consumer credit payment card information; and Additionally, the registered service representative shall contact the local law enforcement agency for collection of the device as evidence;.
- ~~2.3.~~ If a vapor recovery registered service representative cannot correct a violation and has to leave the vapor recovery site, the registered service representative shall secure the non-compliant vapor recovery system or component from commercial use. The non-compliant system or component shall not be used for commercial purposes until it is repaired and passes the test required by ~~R3-7-910~~ R3-7-1010. The registered service representative shall notify the Division of the ~~stop-sale, stop-use~~ secured, non-compliant vapor recovery system or component prior to leaving the site. The registered service representative shall notify the Division regarding retest of the site by 6:00 a.m. of the day after the non-compliant vapor recovery system or component is secured or one hour before the test, whichever is sooner, so that the Division may witness the test.

**R3-7-603. Grounds for Denying License or Renewal; ~~Suspension, Revocation, or Other Disciplinary Action, and Certification of Standards and Testing Equipment~~**

- ~~A. The Division shall not issue a license or renewal until an applicant pays all appropriate fees. The Division may deny a license or renewal, suspend or revoke a license, or impose other discipline, for any of the following reasons:~~
- ~~1. Providing false or misleading information;~~
  - ~~2. Failure to meet annual certification requirements for field calibration standards or vapor recovery test equipment;~~
  - ~~3. Failure to pay required fees;~~
  - ~~4. Violating any requirements stated in A.R.S. Title 3, Chapter 19, or this Chapter.; or~~
  - ~~5. If an applicant, registered service agency, or registered service representative is not qualified to perform the duties of a registered service representative or registered service agency.~~
- ~~B. Upon receipt and acceptance of all required documents, fees, and Division certification of standards, the Division shall issue the agency a license or renewal.~~
- ~~C. The Division shall include on a license an assigned number, that remains effective until either withdrawn by the Division or until it expires. The Division shall issue a license with the agency's assigned license number to each registered service representative employed by the agency who has passed the competency examination.~~
- ~~D. Neither a registered service agency nor a registered service representative shall transfer a license.~~
- ~~E. A registered service agency shall submit the renewal fee for the agency license and the agency's representatives' licenses by the first day of the month that each license expires.~~
- ~~F. The Division may deny a license or renewal for any of the following reasons:~~
- ~~1. Providing false or misleading information;~~
  - ~~2. Failure to meet annual certification requirements for standards or testing equipment;~~
  - ~~3. Failure to meet the requirements stated in this Article; or~~
  - ~~4. For any reason that would be grounds for suspension, revocation, or refusal to renew.~~
- ~~G. The Division may suspend, revoke, or refuse to renew a license if the applicant is not qualified to perform those duties required or has been found to have violated any provision of A.R.S. Title 3, Chapter 19, or this Chapter.~~
- ~~H. Every registered service agency and representative shall comply with the Division's metrology laboratory annual schedule for certification of field standards contained in A.R.S. § 3-3416(F).~~

**R3-7-604. Prohibited Acts**

- A. A person shall not:
1. Perform any duty or do any act required to be done by a registered service agency or registered service representative without holding a registered service agency or registered service representative license issued by the Division;
  2. Use the title of registered service agency or registered service representative, any similar title, or hold oneself out as a registered service agency or representative without a valid license; or
  3. Remove an official ~~out-of-service, warning, or stop-sale, stop-use~~ Out-of-Service or Stop-Sale, Stop-Use tag except as authorized in this Chapter, or by the Division.
- B. A registered service agency or registered service representative shall not:
1. Fraudulently complete or file ~~a~~ an incomplete placed-in-service report;
  2. Delegate licensed authority or responsibility to an unlicensed person;
  3. Perform a function without certified field calibration standards or vapor recovery test equipment;
  4. ~~Install or place in service a~~ Newly install or restore a commercial device into service before satisfying all ~~of the statutory and rule~~ requirements of A.R.S. Title 3, Chapter 19, or this Chapter;
  5. Fail to report a commercial device to the Division that is found to be out of compliance under R3-7-602;
  6. ~~Install, calibrate, or repair~~ Calibrate a commercial device without placing a decal or label on the device as prescribed by the associate director;
  7. Leave a location where there is a non-compliant commercial device without securing the commercial device from commercial use; or
  8. Leave a vapor recovery site where there is a non-compliant system or component without securing the system or component from ~~commercial~~ use.

**R3-7-605. Material Incorporated by Reference Repealed**

~~The following documents are incorporated by reference and on file with the Department. The documents incorporated by reference contain no future editions or amendments:~~

- ~~1. California Air Resources Board Executive Order G-70-17-AD, Modification of Certification of the Emco Wheaton Balance Phase II Vapor Recovery System, May 6, 1993, California Air Resources Board, P.O. Box 2815, Sacramento, California 95812-2815.~~
- ~~2. California Air Resources Board Executive Order G-70-36-AD, Modification of Certification of the OPW Balance Phase II Vapor Recovery System, September 18, 1992, California Air Resources Board, P.O. Box 2815, Sacramento, California 95812-2815.~~

## **ARTICLE 7. MOTOR FUELS AND PETROLEUM PRODUCTS**

### **R3-7-701. Definitions**

In addition to the definitions in A.R.S. § 3-3401 and R3-7-101, the following definitions apply to this Article unless the context otherwise requires:

1. "Address" means a street number, street name, city, state, and zip code.
- ~~— "Approved oxygenate" means an oxygenate not prohibited by A.R.S. 3-3491(E).~~
- ~~— "Area A" has the same meaning as in A.R.S. § 3-3401.~~
- ~~— "Area B" has the same meaning as in A.R.S. § 3-3401.~~
- ~~— "Area C" has the same meaning as in A.R.S. § 3-3401.~~

2. ~~“Arizona Cleaner Burning Gasoline” or “Arizona CBG” means Arizona cleaner burning gasoline and is a gasoline blend that meets the requirements of this Article for gasoline produced and shipped to or within Arizona and sold or offered for sale for use in motor vehicles within the CBG-covered area, except as provided under A.R.S. § 3-3493(H) §§ 3-3493(I) and 3-3494(H).~~  
~~“AST” means aboveground storage tank.~~
3. “AZRBOB” ~~or means~~ “Arizona Reformulated Blendstock for Oxygenate Blending” ~~means and is~~ a combination of gasoline blendstocks that is intended to be or represented to constitute Arizona CBG upon the addition of a specified amount (or range of amounts) of an ~~approved~~ oxygenate ~~not prohibited by A.R.S. § 3-3491(E)~~ after the blendstock is supplied from the facility at which it was produced or imported.
4. “Batch” means a quantity of motor fuel or AZRBOB that is homogeneous for motor fuel properties specific for the motor fuel standards applicable to that motor fuel or AZRBOB.  
~~“Beginning of transport” means the point at which:  
A registered supplier relinquishes custody of Arizona CBG or AZRBOB to a transporter or third party terminal; or  
A registered supplier that retains custody of Arizona CBG or AZRBOB begins transfer of the Arizona CBG or AZRBOB into a vessel, tanker, or other container for transport to the CBG-covered area.~~
5. “Biodiesel” has the same meaning as prescribed under A.R.S. § 3-3401.
6. “Biodiesel blend” has the same meaning as prescribed under A.R.S. § 3-3401. Per ASTM D975, diesel fuel may contain ~~5 percent~~ 5% or less biodiesel and is not considered to be a biodiesel blend.
7. “Biofuel” has the same meaning as prescribed under A.R.S. § 3-3401.
8. “Biofuel blend” has the same meaning as prescribed under A.R.S. § 3-3401.
9. “Biofuel blender” means a person that modifies a motor fuel by adding a biofuel.
10. “Biofuel producer” means a person that owns, leases, operates, controls, or supervises a facility at which biofuel is produced.
11. “Biofuel Supplier” means a marketer or jobber of a biofuel or biofuel blend.
12. “Biomass” has the same meaning as prescribed under A.R.S. § 3-3401.
13. “Biomass-based diesel” has the same meaning as prescribed under A.R.S. § 3-3401.
14. “Biomass-based diesel blend” has the same meaning as prescribed under A.R.S. § 3-3401.
15. “Blendstock” means any liquid compound that is blended with another liquid compound to produce a motor fuel, including Arizona CBG. A deposit-control or similar additive registered under 40 CFR 79 is not a blendstock.  
~~“CARB” means the California Air Resources Board.~~
16. “CARBOB Model” means the ~~requirements and~~ procedures incorporated by reference in ~~R3-7-702(11) R3-7-702(12) and (13).~~  
~~“CARB Phase 2 gasoline” means gasoline that meets the specifications incorporated by reference in R3-7-702(8).~~
17. “CBG Blender” means ~~a person that owns, leases, operates, controls, or supervises any facility, other than a refinery or transmix processing facility, where AZRBOB or Arizona CBG is produced by combining blendstocks or by combining blendstocks with fuel. Types of blending facilities include, but are not limited to, terminals, storage tanks, plants, tanker trucks, retail outlets, and marine vessels.~~
18. “CBG-covered area” means ~~a county with a population of 1,200,000 or more persons according to the most recent United States decennial census and any portion of a county within area A:~~  
~~a. A county with a population of 1,200,000 or more persons according to the most recent United States decennial census;~~  
~~b. Any portion of a county within area A; and~~  
~~c. Any portion of a county within area C from June 1 through September 30 of each year.~~
19. “Conventional gasoline” means gasoline that conforms to the requirements of this Chapter for sale or use in Arizona, but does not meet the requirements of Arizona CBG or AZRBOB.
20. “Diesel fuel” or “Diesel” has the same meaning as prescribed under A.R.S. § 3-3401. Per ASTM D975, diesel fuel may contain ~~5 percent~~ 5% or less biodiesel.
21. “Duplicate” means a portion of a sample that is treated the same as the original sample to determine the accuracy and precision of an analytical method.
22. “E15” means ~~gasoline that contains more than 10 and no more than 15 volume percent ethanol.~~  
~~“EPA” means the United States Environmental Protection Agency.~~
23. “EPA waiver” means a waiver granted by ~~the Environmental Protection Agency~~ EPA as described in “Waiver Requests under Section 211(f) of the Clean Air Act,” which is incorporated by reference in R3-7-702 ~~(6)~~.
24. “Ethanol” means ~~an alcohol of the chemical formula C2H5OH. Ethanol is provided in gasoline-ethanol blends by blending denatured fuel ethanol.~~
25. “Ethanol flex fuel” has the same meaning as prescribed under A.R.S. § 3-3401.
26. “Final destination” means the name and address of the location to which a transferee will deliver motor fuel for further distribution or final consumption.
27. “Final distribution facility” means a stationary motor-fuel transfer point at which motor fuel or AZRBOB is transferred into a cargo tank truck, pipeline, or other delivery vessel from which the motor fuel or AZRBOB will be delivered to a motor-fuel dispensing site. A cargo tank truck is a final distribution facility if the cargo tank truck transports motor fuel or AZRBOB and carries documentation that the type and amount or range of amounts of oxygenates designated by the registered supplier will be

or have been blended directly into the cargo tank truck before delivery of the resulting motor fuel to a motor-fuel dispensing site.

28. "Fleet" means at least 25 motor vehicles owned or leased by the same person.
29. "Fleet vehicle fueling facility" means a facility or location where a motor fuel is dispensed for final use by a fleet.
30. "Fuel ethanol" means denatured ethanol that meets the requirements in ASTM D4806, which is incorporated by reference in R3-7-702(4).
31. ~~"Fuel property" means any characteristic listed in R3-7-751(A)(1) through (8), R3-7-751(B)(1) through (7), R3-7-751(D), or any other motor fuel standard referenced in this Article.~~
32. "Gasoline" has the same meaning as prescribed under A.R.S. § 3-3401.
33. "Isobutanol" means butanol isomer 2-methyl-1-propanol that meets the requirements in ASTM D7862, which is incorporated by reference in R3-7-702(9).
34. "Jobber" means a person that distributes a motor fuel from a bulk storage plant or terminal to the owner or operator of a UST ~~or AST~~ ~~an underground or above-ground storage tank~~ ~~or purchases a motor fuel from a terminal for distribution to the owner or operator of a UST or AST.~~
- ~~"Manufacturer's proving ground" has the same meaning as prescribed under A.R.S. § 3-3401.~~
35. "Marketer" means a person engaged in selling or offering for sale motor fuels.
36. "Motor Fuel" has the same meaning as prescribed under A.R.S. § 3-3401.
37. "Motor fuel dispensing site" means a facility or location where a motor fuel is dispensed into commerce for final use.
- ~~"Motor fuel property" means any characteristic listed in R3-7-751(A)(1) through (7), R3-7-751(B)(1) through (7), Table 1, Table 2, or any other motor fuel standard referenced in this Article.~~
38. "Motor vehicle" means a vehicle equipped with a spark-ignited or compression-ignition internal combustion engine except:  
A vehicle that runs on or is guided by rails, or  
A vehicle designed primarily for travel through air or water.
- ~~"Motor vehicle racing event" has the same meaning as prescribed under A.R.S. § 3-3401.~~
39. "MTBE" means methyl tertiary butyl ether.
40. "Neat" means pure or ~~100 percent~~ 100%.
41. "NOx" means oxides of nitrogen.
42. ~~"Octane," "octane number," "Octane" or "octane rating"~~ mean means the anti-knock characteristic of gasoline as determined by the ~~resultant~~ resulting arithmetic test average of ASTM D2699 and ASTM D2700.
43. "Oxygenate" has the same meaning as prescribed under A.R.S. § 3-3401.
44. "Oxygenate blender" means a person that owns, leases, operates, controls, or supervises an oxygenate-blending facility, or that owns or controls the blendstock or gasoline used, or the gasoline produced, at an oxygenate-blending facility.
45. "Oxygen content" means the percentage by weight of oxygen contained in a gasoline oxygenate blend as determined under ASTM D4815.
46. "Pipeline" means a transporter that owns or operates an interstate common-carrier pipe or is subject to Federal Energy Regulatory Commission tariffs to transport motor fuels into Arizona.
47. ~~"PM" means predictive model.~~
48. ~~"Predictive Model Procedures" means CARB's "California Procedures for Evaluating Alternative Specifications for Phase 2 Reformulated Gasoline Using the California Predictive Model," as adopted April 20, 1995.~~
49. ~~"Premium Diesel diesel"~~ means a diesel fuel meeting the requirements in ASTM D975 and in Handbook 130, Uniform Engine Fuels and Automotive Lubricants Regulations, Section ~~2.2.1(a) through 2.2.1(d)~~ 2.2.1(a) through 2.2.1(f).
50. "Producer" means a refiner, CBG blender, or other person that produces a motor fuel, including Arizona CBG or AZRBOB.
51. "Production facility" means a facility at which a motor fuel, including Arizona CBG or AZRBOB, is produced. Upon request of a producer, the associate director may designate, as part of the producer's production facility, a physically separate bulk storage facility that:
- a. Is owned or leased by the producer;
  - b. Is operated by or at the direction of the producer; and
  - c. Is used to store or distribute motor fuels, including Arizona CBG or AZRBOB, that are supplied only from the production facility.
52. "Product transfer document" has the same meaning as prescribed under A.R.S. § 3-3401.
53. "Refiner" means a person that owns, leases, operates, controls, or supervises a refinery in the United States, including its trust territories.
54. "Refinery" means a facility that produces a liquid fuel, including Arizona CBG or AZRBOB, by distilling petroleum, or a transmix facility that produces a motor fuel offered for sale or sold into commerce as a finished motor fuel.
55. "Reproducibility" means the testing method margin of error as provided in the ASTM specification or other testing method required under this Article.
56. "Supply" means to provide or transfer motor fuel to a physically separate facility, vehicle, or transportation system.

57. "Terminal" means an owner or operator of a motor fuel storage tank facility that accepts custody, but not necessarily ownership, of a motor fuel from a registered supplier, oxygenate blender, pipeline, or other terminal and relinquishes custody of the motor fuel to a transporter or another terminal.
58. "Test result" means any document that contains a result of testing including all original test measures, all subsequent test measures that are not identical to the original test measure, and all worksheets on which calculations are performed.
59. "Transferee" means a person that receives title to or custody of a motor fuel.
60. "Transferor" means a person that relinquishes title to or custody of a motor fuel to a transporter, marketer, jobber, or motor fuel dispensing site.
61. "Transmix" means a mixture of petroleum distillate fuel and gasoline that does not meet the Arizona standards for either petroleum distillate fuels or gasoline.
62. "Transmix facility" means a facility at which transmix is processed into its components and then the components either are combined with a finished product or further processed to produce a finished motor fuel.
63. "Transporter" means a person that causes motor fuels, including Arizona CBG or AZRBOB, to be transported into or within Arizona.
- ~~"UST" means underground storage tank.~~
64. "Vapor pressure" means dry vapor pressure equivalent of gasoline or blendstock as measured according to ASTM D5191.
- ~~"Vehicle emissions control area" has the same meaning as prescribed under A.R.S. § 3-3401.~~
65. "VOC" means volatile organic compound.

### R3-7-702. Material Incorporated by Reference

~~A.~~—The following documents are incorporated by reference and on file with the Division. The documents incorporated by reference contain no future editions or amendments.

- 16 CFR 306 - Automotive Fuel Ratings, Certification and Posting, ~~January 14, 2016~~ December 8, 2021 Edition, Government Publishing Office, 732 North Capitol Street, NW, Washington, D.C. 20401-0001 or bookstore.gpo.gov (herein referred to as "16 CFR 306").
- API Recommended Practice 1637 (API RP 1637), "Using the API Color-Symbol System to Mark Equipment and Vehicles for Product Identification at Gasoline Dispensing Facilities and Distribution Terminals," 4th edition published ~~July 2006~~, Reaffirmed May 2012 April 2020, American Petroleum Institute (API), ~~6300 Interfirst Drive, Ann Arbor, MI, 48108~~ 200 Massachusetts Avenue NW Suite 1100, Washington, DC, 20001-5571 (herein referred to as "API 1637").

- ASTM Standard ~~D4806, 2016a (ASTM D4806-16a);~~ D4806-21a, "Standard Specification for Denatured Fuel Ethanol for Blending with Gasolines for Use as Automotive Spark-Ignition Engine Fuel," published ~~2016~~ 2021, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as "ASTM D4806").
- ASTM Standard ~~D4814, 2016cc1 (ASTM D4814-16cc1);~~ D4814-21c, "Standard Specification for Automotive Spark-Ignition Engine Fuel," published ~~2016~~ 2021, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as "ASTM D4814").
- Waiver Requests under Section 211(f) of the Clean Air Act, (~~August 22, 1995~~ Document EPA-420-B-19-054, October 2019 edition), United States Environmental Protection Agency, Transportation and Regional Programs Division, Fuels Program Support Group, Mail Code 6406-J, Washington, D.C. 20460 (herein referred to as "Section 211(f) of the Clean Air Act").
- ASTM Standard ~~D5798, 2015 (ASTM D5798-15);~~ D5798-21, "Standard Specification for Ethanol Fuel Blends for Flexible-Fuel Automotive Spark-Ignition Engines," published ~~2015~~ 2021, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as "ASTM D5798").
- ASTM Standard ~~D6751, 2015ee1 (ASTM D6751-15ee1);~~ D6751-20a, "Standard Specification for Biodiesel Fuel Blend Stock (B100) for Middle Distillate Fuels," published ~~2015~~ 2020, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as "ASTM D6751").
- ASTM Standard ~~D7862, 2017 (ASTM D7862-17);~~ D7862-21, "Standard Specification for Butanol for Blending with Gasoline for Use as Automotive Spark-Ignition Engine Fuel," published ~~2017~~ 2021, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as "ASTM D7862").
- California Air Resources Board, "California Procedures for Evaluating Alternative Specifications for Phase 2 Reformulated Gasoline Using the California Predictive Model," adopted April 20, 1995. A copy may be obtained at: CARB, P.O. Box 2815, Sacramento, CA 95812 or www.arb.ca.gov (herein referred to as "PM" or "Predictive Model Procedures").
- The Federal Complex Model contained in 40 CFR 80.45, January 1, 1999. A copy may be obtained at: Government Publishing Office, 732 North Capitol Street, NW, Washington, D.C. 20401-0001 or bookstore.gpo.gov (herein referred to as "Federal Complex Model").
- California Air Resources Board, The California Reformulated Gasoline Regulations, Title 13, California Code of Regulations, Section 2266.5 (Requirements Pertaining to California Reformulated Gasoline Blendstock for Oxygen Blending (CARBOB) and Downstream Blending), as of April 9, 2005. A copy may be obtained at: CARB, P.O. Box 2815, Sacramento, CA 95812 or www.arb.ca.gov.

13. California Air Resources Board, Procedures for Using the California Model for California Reformulated Gasoline Blendstocks for Oxygenate Blending (CARBOB), adopted April 25, 2001. A copy may be obtained at: CARB, P.O. Box 2815, Sacramento, CA 95812 or www.arb.ca.gov.
14. ASTM Standard ~~D7467, 2015e01 (ASTM D7467-15e01), D7467-20a~~, “Standard Specification for Diesel Fuel Oil, Biodiesel Blend (B6 to B20),” published ~~2015~~ 2020, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as “ASTM D7467”).
15. SAE International, SAE J285, “Dispenser Nozzle Spouts for Liquid Fuels Intended for Use with Spark Ignition and Compression Ignition Engines,” published ~~May 5, 2012~~ April 2019, SAE International, 400 Commonwealth Drive, Warrendale, PA ~~15096-0001~~ 15096 or www.sae.org (herein referred to as “SAE J285”).
16. ASTM Standard D4057-19, “Standard Practice for Manual Sampling of Petroleum and Petroleum Products,” published 2019, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as “ASTM D4057”).
17. NIST Handbook 158, Field Sampling Procedures for Fuel and Motor Oil Quality Testing, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (April 2016), incorporated by reference and on file with the Division (herein referred to as “Handbook 158”). This incorporation by reference contains no future editions or amendments.
18. ASTM Standard D2699-21, “Standard Test Method for Research Octane Number of Spark-Ignition Engine Fuel,” published 2021, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as “ASTM D2699”).
19. ASTM Standard D2700-22, “Standard Test Method for Motor Octane Number of Spark-Ignition Engine Fuel,” published 2022, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as “ASTM D2700”).
20. ASTM Standard D7717-11(Reapproved 2021), “Standard Practice for Preparing Volumetric Blends of Denatured Fuel Ethanol and Gasoline Blendstocks for Laboratory Analysis,” published 2021, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org (herein referred to as “ASTM D7717”).
21. American Petroleum Institute (API) Manual of Petroleum Measurement Standards, Chapters 3.1A (Third Edition, August 2013, Reaffirmed December 2018) and 3.1B (Fourth Edition, October 2021), American Petroleum Institute, 1220 L St., N.W., Washington, D.C. 20005-4070 (herein referred to as “API Manual of Petroleum Measurement Standards”).

~~B. Subsection (A)(11) will not become effective until Arizona's revised State Implementation Plan submitted by ADEQ to EPA in August 2013 and subsequent supplement submitted July 2014 is approved by EPA.~~

**R3-7-703. ~~Volumetric Inspection of Motor Fuels and Motor Fuel Dispensers~~ Return of Motor Fuels Collected During Volumetric Inspection**

- ~~A. After completing an inspection, and if made possible by the motor fuel dispensing site owner or operator, the Division shall return all motor fuel to the owner or operator of a motor fuel dispensing site at the site where the Division collected the motor fuel collected during the volumetric inspection of motor fuel dispensers to the location where the inspection occurred.~~
- ~~B. After completing an inspection, if a motor fuel cannot be returned to the owner or operator of a motor fuel dispensing site at the site where the Division collected the motor fuel, the Division shall transport the motor fuel to another site of the owner or operator's choice and within a 20-mile radius of the inspection site.~~

**R3-7-704. ~~Motor Fuel Dispensing Site Price and Grade Posting on External Signs~~**

- ~~A. A person who owns or operates a motor fuel dispensing site that has an external sign shall ensure that the sign: Any roadside or other sign, including, but not limited to, prices on poles, monument signs, canopies, ‘A-frame’ signs, or other structures, that advertises or displays motor fuel prices and is not connected to a motor fuel dispenser shall comply with subsections (1) through (4) of this Section, and shall comply with either method listed in subsections (5) and (6):~~
- ~~1. Identifies whether the price differs depending on whether the payment is cash, credit, or debit;~~
  - ~~2. Identifies the self-service and full-service prices, if different;~~
  - ~~3. Discloses the full price of motor fuel including fractions of a cent and all federal and state taxes, if the sign displays the motor fuel price. A decimal point shall be used in the displayed price when a dollar sign precedes the posted price;~~
  - ~~4. Displays lettering at a height of at least 1/5 of the letter height of the motor fuel price displayed on the external sign or 2 1/2", whichever is larger, and is visible from the road;~~
  - ~~5. States the terms of any condition if the displayed price is conditional upon the sale of another product or service. The terms of any condition shall comply with the letter height requirement in subsection (A)(4);~~
  - ~~6. Describes the motor fuel that meets ASTM D975 as No. 1 Diesel, #1 Diesel, No. 2 Diesel, #2 Diesel, or premium diesel. Describes other fuel for use in compression ignition engines as biodiesel, or biodiesel blend. Diesel fuel No. 2 may be labeled on dispensers as diesel fuel without indication of the fuel grade;~~
  - ~~7. Describes motor fuel with an ethanol concentration of 51 to 83 volume percent as ethanol flex fuel;~~
  - ~~8. Identifies the unit of measure of the price, if it is other than per gallon; and~~
  - ~~9. Sites that sell Ethanol Flex Fuel previously labeled as “E-85” shall update the signage to reflect the sale of Ethanol Flex Fuel no later than January 1, 2018. In no case shall signage with an incorrect ethanol content be advertised at the motor fuel dispensing site.~~

1. Display the self-service and full-service prices, if different;
2. Display the unit of measure of the price if other than per gallon;
3. Display fractions of a cent, if the fuel price is not charged at a whole cent; and
4. Display a decimal point when a dollar sign precedes the posted price.
5. Display the undiscounted price for any motor fuel product and applicable grade advertised; or
6. Display the discounted price for any motor fuel product and applicable grade advertised along with the conditions under which the discount is available, including, but not limited to, "Cash", "Cash Only", or "Membership."
  - a. Any discount conditions must be clearly presented on a sign in a font no less than 1/5 the size of the largest number posted on the sign or 2 1/2 inches, whichever is larger, and may not be abbreviated.
  - b. The discount conditions must appear immediately next to, above or below the discounted price and with equal illumination as the discounted price.

**B.** All motor fuel prices displayed must include all applicable federal and state taxes.

**C.** Motor fuel Descriptions, Motor fuel types, grades, and blends shall be described on signs listed in Subsection (A) as indicated in the following table:

<u>Motor Fuel Type</u>	<u>ASTM Standard</u>	<u>Fuel Properties</u>	<u>Allowable Description</u>
<u>Diesel</u>	<u>D975</u>	<u>Min. flash point 38° C Min. viscosity 1.3 mm<sup>2</sup>/S,</u> <u>max. 2.4 mm<sup>2</sup>/S</u>	<u>No. 1 Diesel, #1 Diesel, Diesel No. 1, or Diesel #1</u>
		<u>Min. flash point 52° C Min. viscosity 1.9 mm<sup>2</sup>/S,</u> <u>max. 4.1 mm<sup>2</sup>/S</u>	<u>No. 2 Diesel, #2 Diesel, Diesel No. 2, Diesel #2, or Diesel</u>
	<u>D975 or D7467</u>	<u>Meets definition of Premium Diesel in R3-7-101</u>	<u>Premium Diesel</u>
	<u>D7467</u>	<u>More than 5 and no more than 20 volume percent biodiesel</u>	<u>Biodiesel Blend or B-20 Biodiesel Blend</u>
<u>Ethanol Flex Fuel</u>	<u>D5798</u>	<u>51-83 volume percent ethanol</u>	<u>Ethanol Flex Fuel</u>
<u>Gasoline</u>	<u>D4814</u>	<u>Minimum 87 octane</u>	<u>Regular, Reg, Unleaded, UNL, or UL</u>
		<u>Minimum 89 octane</u>	<u>Midgrade, Mid, or Plus</u>
		<u>Minimum 91 octane</u>	<u>Premium, Prem, Super, Supreme, High, or High Performance</u>
		<u>Contains more than 10 but no more than 15 volume percent ethanol</u>	<u>E15</u>

A person may use an alternative to the descriptions provided in subsection (C) upon receipt of written approval by the associate director.

**B.** For the following terms used on a sign to describe a gasoline grade or gasoline-oxygenate blend, the grade or blend shall meet the following minimum antiknock index as determined by the test average of ASTM D 2699 and ASTM D 2700, also known as the (R+M)/2 method:

<u>Term</u>	<u>Minimum Antiknock Index</u>
<u>1. Regular, Reg, Unleaded, UNL, or UL</u>	<u>87</u>
<u>2. Midgrade, Mid, or Plus</u>	<u>89</u>
<u>3. Premium, PREM,</u> <u>Super, Supreme, High,</u> <u>or High Performance</u>	<u>91</u>

**C.** A person may use an alternative to the descriptions provided in subsection (B) upon receipt of written approval by the associate director.

**R3-7-705. Dispenser Labeling at Motor Fuel Dispensing Sites**

**A.** The owner or operator of a motor fuel dispensing site shall label dispensers in accordance with the following provisions:

**A.** Pricing pricing, motor fuel grade, octane rating, and lead substitute. A motor fuel dispensing station owner or operator shall ensure that information regarding pricing, motor fuel grade, octane rating, and lead-substitute addition displayed on a motor fuel dispenser:

1. Lists the full price of the motor fuel including fractions of a cent and all federal and state taxes;
2. Displays the highest price of each grade of motor fuel sold from the dispenser prior to any deliberate action of the customer resulting in a discounted price being displayed, provided the dispenser is capable of dispensing and computing the price of motor fuel at more than one price;
2. Displays a sign or label explaining the terms or conditions of any discounted price available to the consumer including whether the price differs based on method of payment or is conditional based on the sale of another product or service;
3. Complies with the requirements of R3-7-704(A)(1), (A)(2), (A)(3), (A)(5), (A)(6), (A)(7), (A)(8), (A)(9) and (B);
3. Complies with the requirements of R3-7-704(A)(3) through (A)(6) and (B);
4. Complies with the allowable fuel descriptions indicated in the table in R3-7-704(C);
4. Displays the octane rating of each grade of gasoline; and

- ~~5-6.~~ Displays the signs legend required by Handbook 130 for motor fuel dispensers that dispense gasoline with lead substitute, ~~in letters at least 1/4" in height, and~~ The legend shall be presented in block letters on a sharply contrasting background with lettering no smaller than 1/4 inch in height.
- ~~6-B.~~ Sites that sell ethanol flex fuel previously labeled as "E-85" shall update the signage to reflect the sale of ethanol flex fuel no later than January 1, 2018. In no case shall signage with an incorrect ethanol content be advertised at the motor fuel dispensing site. Motor fuel dispensers that are used exclusively for fleet sales and other price contract sales are exempt from the requirements in subsections (A)(1) and (A)(2).
- ~~B-C.~~ All motor fuels shall meet the labeling requirements of 16 CFR 306. Additionally, the following requirements apply:
1. Gasoline containing ~~fuel~~ ethanol.
    - a. Gasoline containing greater than ~~1.5 percent~~ 1.5% by weight oxygen or ~~4.3 percent~~ 4.3% by volume ~~fuel~~ ethanol shall be labeled with the following statement to indicate the maximum percent by volume of ~~fuel~~ ethanol contained in the gasoline: "May contain up to \_\_\_\_\_ % ~~fuel~~ ethanol."
    - ~~b. Within the CBG covered area and area B, gasoline containing fuel ethanol shall be labeled with the following statement: "This gasoline is oxygenated with fuel ethanol and will reduce carbon monoxide emissions from motor vehicles."~~
    - ~~e-b.~~ Gasoline for sale outside of the CBG covered area with an ethanol content greater than 10 volume percent and less than or equal to 15 volume percent shall additionally be labeled in accordance with ~~40 CFR 80.1501, as it existed on July 18, 2014,~~ 40 CFR 1090.1510, as it existed on December 4, 2020, and is incorporated by reference and on file with the Division. A copy may be obtained at the Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov.
  2. Gasoline containing an oxygenate other than ~~fuel~~ ethanol. Gasoline containing greater than ~~1.5 percent~~ 1.5% by weight of an oxygenate other than ethanol shall be labeled with the following statement to indicate the type and maximum percent by volume of oxygenate contained in the gasoline: "May contain up to \_\_\_\_\_ % \_\_\_\_\_."
  3. The ~~labels label~~ in subsection ~~B(1) and (B)(2)~~ (C)(1)(a) shall be printed in ~~black and white~~ block letters on a sharply contrasting background with lettering no smaller than 1/4 inch in height. ~~The statements in subsection (B)(1)(i) and (B)(1)(ii) may be printed on the same label or on separate labels if the statements are displayed next to each other.~~
  - ~~4. Non-oxygenated gasoline. It is prohibited to label a dispenser as containing no oxygenate if the gasoline contains more than 0.5 percent by volume of any oxygenates.~~
  - ~~5. Biodiesel blends. The diesel grade component as contained within ASTM D975 for grades other than No. 2 diesel shall be identified.~~
- ~~C-D.~~ Unattended retail motor fuel dispensers. In addition to all labeling and sign requirements in this Article, the owner or operator of a motor fuel dispensing site that is unstaffed shall post ~~on or next to each motor fuel dispenser~~ a sign or label at the motor fuel dispensing site, in public view, that conspicuously lists the owner's or operator's name, address, and telephone number.
- ~~D-E.~~ All Motor fuel dispensers shall have display a decal that contains the Division's name and ~~phone~~ telephone number. A template of the decal shall be placed on the Weights and Measures Services Division website for use by retailers. The seal placed by the Division under A.R.S. § 3-3414(A)(13) satisfies this requirement.
- ~~E-F.~~ All labels and information required under this section to be posted on a motor fuel dispenser shall be ~~in~~ displayed on the upper ~~50 percent~~ 50% of the front panel of each motor fuel dispenser and shall be clean, legible, and visible at all times.

**R3-7-707. Product Transfer Documentation and Record Retention for Motor Fuel other than Arizona CBG and AZRBOB**

- A. When a transferor transfers custody or title to a motor fuel that is not Arizona CBG or AZRBOB, and the motor fuel is not sold or dispensed at a motor fuel dispensing site or fleet vehicle fueling facility, the transferor shall provide to the transferee documents that include the following information:
1. The grade of the motor fuel;
  2. The volume of each grade of motor fuel being transferred;
  3. The date of the transfer;
  4. ~~Product~~ The product transfer document number;
  5. For conventional gasoline, the minimum octane rating of each grade as prescribed by 16 CFR 306;
    - a. The minimum automotive fuel rating of each grade as prescribed by 16 CFR 306;
    - b. A legible and conspicuous statement that the gasoline being transferred contains an oxygenate and lists the type and percentage concentration of the oxygenate by volume; and
    - c. If transported in or through the CBG-covered area, the statement, "This gasoline is not intended for use inside the CBG-covered area";
  - ~~6. For conventional gasoline, the type and maximum volume of oxygenate contained in each grade;~~
  - ~~7. For conventional gasoline transported in or through the CBG-covered area, the statement, "This gasoline is not intended for use inside the CBG-covered area";~~
  - ~~8-6.~~ If a lead substitute is present in the gasoline, the type of lead substitute present;
  - ~~9-7.~~ For the The following information regarding biofuel or biofuel blends;
    - a. Ethanol ~~Flex Fuel~~ flex fuel shall contain a declaration of the volume percent of ethanol in the blend; or

- b. Biodiesel and biomass-based diesel blends containing more than ~~5 percent~~ 5% biodiesel or biomass-based diesel shall contain a declaration of the volume percent biodiesel or biomass-based diesel in the blend, as well as the grade of diesel in the blend; and
  - c. All other biofuel or biofuel blends shall contain the percentage of biofuel in the finished product; and
- ~~10.8.~~ The final destination, as follows:
- a. When a terminal is the transferor, the owner or operator of the terminal shall include on the product transfer document the terminal name and address and the transporter name and address;
  - b. When a transporter is the transferor, the transporter shall include on the product transfer document the name and address of the transporter and the final destination, which is the location at which the motor fuel will be delivered and off loaded from the truck; and
  - c. When a jobber or marketer is the transferor, the jobber or marketer shall include on the product transfer document the name and address of the jobber or marketer and the final destination, which may be a final distribution facility or a motor fuel dispensing site.
- B.** To enable a transferor to comply fully with the requirement in subsection ~~(A)(10)(b)~~ (A)(8)(b) and ~~(A)(10)(e)~~ (A)(8)(c), the transferee shall ~~supply~~ provide to the transferor information regarding the final destination.
- C.** A registered supplier, oxygenate blender, third-party terminal, or pipeline may use standardized product codes on pipeline tickets as the product transfer documentation.
- D.** A ~~person~~ transferor identified in subsection (A) shall retain product transfer documentation for each delivered shipment ~~delivered~~ for 12 months. ~~This documentation shall be available within two working days from the time of the Division's request. For 30 days following the transfer, such documentation shall be kept at the transferor's address listed on the product transfer documentation.~~
- ~~E.~~ ~~A person identified in subsection (A) shall maintain product transfer documentation for a transfer or delivery during the preceding 30 days at that person's address listed on the product transfer documentation.~~
- ~~F.E.~~ An owner or operator of a motor fuel dispensing site or fleet owner shall ~~maintain~~ keep available for Division review, product transfer documentation for the three most recent deliveries of each grade of motor fuel ~~on the premises at of the motor fuel dispensing site~~ ~~owner or operator or fleet owner.~~ This documentation shall be available for Division review.
- ~~G.~~ ~~The Division shall accept a legible photocopy of a product transfer document instead of the original.~~
- ~~H.F.~~ A person transferring custody or title of Arizona CBG or AZRBOB shall comply with R3-7-757.
- G. Upon request by the Division, a person shall present product transfer documents to the Division within two business days. Legible photocopies or electronic copies of the product transfer documents are acceptable.

**R3-7-708. Gasoline Oxygenate Blends**

- A.** A person that has custody of gasoline blended with an oxygenate shall ensure that the amount of oxygenate does not exceed the amount allowed by EPA waivers, Section 211(f) of the Clean Air Act, and meets the requirements of A.R.S. § §§ 3-3491, 3-3492, and 3-3495.
- B.** ~~Special provisions for gasoline ethanol blends:~~
- ~~1. A gasoline ethanol blend that meets the requirements in subsections (B)(1)(a) and (b) shall not exceed the vapor pressure specified in ASTM D4814 by more than 1 psi:~~
    - ~~a. The concentration of the ethanol, excluding the required denaturing agent, shall be:~~
      - ~~i. From May 1 through September 15, at least nine percent and no more than 10 percent by volume of the gasoline ethanol blend; and~~
      - ~~ii. From September 16 through April 30, at least 1.5 percent by weight and no more than 10 percent by volume of the gasoline ethanol blend; and~~
    - ~~b. The ethanol content of the gasoline ethanol blend shall:~~
      - ~~i. Be determined using the appropriate test method listed in ASTM D4814, and~~
      - ~~ii. Not exceed any applicable waiver condition under Section 211(f) of the Clean Air Act.~~
  - ~~2. The provision in subsection (B)(1) is effective for gasoline ethanol blends sold:~~
    - ~~a. Outside the CBG-covered area year around, and~~
    - ~~b. Within the CBG-covered area during April.~~
  - ~~3. Gasoline blended with no more than 10 percent by volume of fuel ethanol shall be blended using one of the following alternatives:~~
    - ~~a. The base gasoline complies with the standards in ASTM D4814, the fuel ethanol complies with the standards in ASTM D4806, and the finished blend complies with the standards in ASTM D4814 with the following permissible exceptions:~~
      - ~~i. The distillation minimum temperature at the 50 volume percent evaporated point is not less than 66°C (150°F), and~~
      - ~~ii. The minimum test temperature at which the vapor/liquid ratio is equal to 20 is waived;~~
    - ~~b. The finished blend complies with the standards in ASTM D4814; or~~
    - ~~c. The base gasoline complies with the standards in ASTM D4814 except distillation and the finished blend complies with the standards in ASTM D4814 with the following permissible exceptions:~~
      - ~~i. The distillation minimum temperature at the 50 volume percent evaporated point is not less than 66°C (150°F), and~~
      - ~~ii. The minimum test temperature at which the vapor/liquid ratio is equal to 20 is waived.~~
  - ~~4. A gasoline ethanol blend shall meet the standards specified in ASTM D4814.~~

**B.** Fuel ethanol specifications. A person that uses fuel ethanol as a blending component with conventional gasoline, conventional gasoline blendstocks, ethanol flex fuel, AZRBOB, or Arizona CBG shall ensure that the fuel ethanol meets the following requirements:

1. A sulfur content not exceeding 10 ppm by weight;
2. The fuel ethanol must be composed solely of carbon, hydrogen, nitrogen, oxygen, and sulfur;
3. Only gasoline previously certified under 40 CFR Part 1090, Subpart C, (including previously certified blendstocks for oxygenate blending), gasoline blendstocks, natural gas liquids, or certified ethanol denaturant that meets the requirements in 40 CFR § 1090.275 may be used as denaturants; and
4. The concentration of all denaturants is limited to a maximum of 3.0 volume percent.

**C.** In addition to complying with the requirements in R3-7-707, the transferor of an oxygenated gasoline blend shall ensure that the product transfer document contains a legible and conspicuous statement that the gasoline being transferred contains an oxygenate and lists the type and percentage concentration of the oxygenate.

**C.** For oxygenates other than ethanol, the oxygenate shall meet the applicable ASTM standard for the oxygenate, and the finished blend shall meet ASTM D4814.

**D.** Nothing in this subsection shall preclude the sale of gasoline with an ethanol content greater than 10 percent by volume and less than or equal to 15 percent by volume of ethanol outside of the CBG-covered area.

**D.** Special provisions for gasoline-ethanol blends.

1. Gasoline-ethanol blends shall meet ASTM D4814, except as provided in subsection (D)(2) or (D)(3).
2. The maximum vapor pressure for gasoline blended with fuel ethanol may exceed the vapor pressure requirements outlined in ASTM D4814 by no more than 1.0 psi (referred to as the 1.0 psi waiver) for the following gasoline-ethanol blends:
  - a. Outside of the CBG-covered area if the concentration of ethanol, excluding the required denaturing agent, is at least 9% by volume and no more than the maximum concentration of ethanol that is allowed for the 1.0 psi waiver to apply under federal law;
  - b. In area B from October 1 through March 31 if the concentration of ethanol, excluding the required denaturing agent, is at least 6% by volume and no more than 15% by volume.
  - c. Inside the CBG-covered area during April only.
3. Gasoline blended with no more than 15% by volume of ethanol shall be blended using one of the following alternatives:
  - a. The base gasoline complies with the standards in ASTM D4814, the fuel ethanol complies with the standards in ASTM D4806, and the finished blend complies with the standards in ASTM D4814 with the following permissible exceptions:
    - i. The distillation minimum temperature at the 50 volume percent evaporated point is not less than 66°C (150°F), and
    - ii. The minimum test temperature at which the vapor/liquid ratio is equal to 20 is waived; or
  - b. The finished blend complies with the standards in ASTM D4814.

**E.** Ethanol flex fuel sold or offered for sale within the CBG-covered area shall:

1. Use fuel ethanol that meets the standards in this Chapter, and
2. Have a maximum vapor pressure that does not exceed the maximum vapor pressure requirements in R3-7-751(A)(6).

**F.** E15 sold or offered for sale within the CBG-covered area shall:

1. Use fuel ethanol that meets the standards in this Chapter, and
2. Be blended with ethanol flex fuel that meets the requirements of subsection (E), or
3. Be blended with Arizona CBG or AZRBOB.

### **R3-7-710. Oxygenate Blending Requirements**

**A.** A person that has custody of or transports an oxygenated gasoline blend shall ensure that no neat oxygenate blending occurs in a retail storage tank at a motor fuel dispensing site or fleet vehicle fueling facility.

**B.** If a motor fuel dispensing site storage tank contains an oxygenated gasoline blend that does not contain the amount of oxygen required by A.R.S. §§ 3-3491, 3-3492, 3-3495, or R3-7-751, the owner or operator of the motor fuel dispensing site shall do one of the following:

1. Add a gasoline blend that dilutes the non-compliant oxygenated gasoline blend to the level of oxygen content required by A.R.S. §§ 3-3491, 3-3492, 3-3495, or R3-7-751;
2. Empty the storage tank and replace the non-compliant oxygenated gasoline blend with a required oxygenate blend;
3. Upon written permission of the associate director, add gasoline that contains no more than ~~20 percent~~ 20% by volume of the same oxygenate to the non-compliant oxygenated gasoline blend.

### **R3-7-712. Water in Motor Fuel Dispensing Site Storage Tanks**

A motor fuel dispensing site owner or operator shall ensure that water in a motor fuel storage tank containing a product other than an alcohol gasoline or a gasoline-alcohol blend, does not exceed 1" in depth when measured from the bottom of the tank through the fill pipe. The owner or operator shall remove all water from the tank before delivery or sale of motor fuel from that tank.

### **R3-7-713. Motor Fuel Storage Tank Labeling**

**A.** An owner or operator of a motor fuel dispensing site shall ensure that all motor fuel storage tank fill pipes and gasoline vapor return lines located at the motor fuel dispensing site are labeled to identify the contents accurately as:

1. Unleaded gasoline;

2. Unleaded midgrade gasoline;
3. Unleaded premium gasoline;
4. No. 1 diesel or #1 diesel ~~fuel~~;
5. No. 2 diesel, #2 diesel ~~fuel~~, or diesel ~~fuel~~;
6. Premium diesel;
7. Gasoline vapor return, gasoline vapor recovery, or vapor recovery;
8. Biodiesel or biodiesel blend, for blends containing more than ~~5 percent~~ 5% biodiesel by volume; or
9. ~~E85 or~~ Ethanol flex fuel; ~~or~~
10. ~~Other fuel as designated on the product transfer document.~~

**B.** For gasoline-ethanol blends containing more than 10 but no more than 15 volume percent ethanol, storage tank labels shall describe the gasoline grade as specified in subsection (A)(1), (A)(2), and (A)(3), along with the designation "E15".

**C.** Any motor fuel not specified in subsection (A) shall be labeled at the storage tank fill pipe as designated on the product transfer document.

**~~B.D.~~** An owner or operator of a motor fuel dispensing site shall ensure that the label required under subsection (A) is at least  $1\frac{1}{2}'' \times 5''$   $1\frac{1}{2}$  inches by 5 inches in size with at least  $\frac{1}{4}''$  black or white block lettering on a sharply contrasting background and that the label is clean, visible, and legible at all times; block letters on a sharply contrasting background, and with lettering no smaller than  $\frac{1}{4}$  inch in height. The label shall be clean, legible, and visible at all times.

**~~C.E.~~** An owner or operator of a motor fuel dispensing site may display other information on the reverse side of a two-sided label.

**~~D.F.~~** An owner or operator of a motor fuel dispensing site shall not put motor fuel into ~~storage tanks~~ a storage tank without attaching the proper label as specified in this Section.

**~~E.G.~~** A person shall not deliver motor fuel to a motor fuel dispensing site unless the product transfer documents confirm the motor fuel is the correct type as indicated on the tank fill pipes labeled under subsection (A) or (B) or the product being delivered meets or exceeds the standards of the labeled product.

**~~F.H.~~** If tank fill pipe and vapor recovery manhole covers are color-coded, the color coding shall comply with API 1637.

### **R3-7-714. Additional Requirements for Motor Fuels ~~Repealed~~**

**~~A.~~** A person that owns or operates a motor fuel dispensing site, transmix, or production facility outside the CBG covered area shall ensure that a motor fuel offered for sale meets the requirements of the applicable specifications in R3-7-702 except that the maximum vapor pressure from May 1 through September 30 shall be 9.0 pounds per square inch or as allowed under R3-7-708(B).

**~~B.~~** The owner or operator of a motor fuel dispensing site shall ensure that the finished gasoline is visually free of water, sediment, and suspended matter and is clear and bright at ambient temperature or 70° F (21° C), whichever is greater.

**~~C.~~** Prohibited activities regarding a motor fuel sold or offered for sale:

1. The owner or operator of a motor fuel dispensing site shall not sell or offer for sale from the motor fuel dispensing site storage tank a product that is not a motor fuel;
2. The owner or operator of a motor fuel dispensing site or transmix or production facility shall not sell or offer for sale a motor fuel that contains more than 0.3 volume percent MTBE or more than 0.1 weight percent oxygen from all other ethers or alcohols as listed in A.R.S. § 3-3491.
3. A transporter shall not deliver to a motor fuel dispensing site or place in a motor fuel dispensing site storage tank a product that is not motor fuel.

**~~D.~~** Biofuels and biofuel blends. Biofuel producers, biofuel blenders, and biofuel suppliers and owners or operators of motor fuel dispensing sites shall comply with the requirements in R3-7-718.

### **R3-7-715. Motor Fuel Standards and Testing Methods ~~and Requirements~~**

**~~A.~~** Unless otherwise stated in this A.R.S. Title 3, Chapter 19, or this Chapter, all motor fuel sold or offered for sale, and oxygenates blended with motor fuel, shall meet the applicable standards incorporated by reference in R3-7-702(3), (4), (5), (7), (8), (9), (14), (18), and (19).

**~~B.~~** October 1 through March 31 of each year, gasoline shall meet the requirements in A.R.S. § 3-3433(E).

**~~A.C.~~** Unless otherwise required in A.R.S. Title 3, Chapter 19, or this Chapter, the producer of a motor fuel shall test and certify the motor fuel for its motor fuel properties using the ~~methodologies~~ methodology-standards incorporated by reference in R3-7-702(3), (4), (5), (7), (8), (9), (14), (18), and (19).

**~~B.D.~~** The ~~octane automotive fuel~~ rating of a motor fuel shall be determined and certified in accordance with 16 CFR 306 ~~using the average of ASTM D2699 and ASTM D2700, also known as the (R+M)/2 method.~~

### **R3-7-716. Sampling and Access to Records**

- A.** The Division shall obtain motor fuel samples for testing from:
1. The same motor fuel dispenser used for sales to customers;
  2. The same motor fuel dispenser used for dispensing motor fuel into fleet vehicles;
  3. A bulk storage facility;
  4. A pipeline having custody of motor fuel, including Arizona CBG or AZRBOB;
  5. A transporter of motor fuel, including Arizona CBG or AZRBOB;
  6. A final distribution facility;

7. A third-party terminal having custody of motor fuel, including Arizona CBG or AZRBOB;
  8. An oxygenate blender or registered supplier; or
  9. A transmix or production facility.
- B. ~~At~~ Unless otherwise specified in this Chapter, an owner or operator of a motor fuel dispensing site, pipeline, third-party terminal, or storage, transmix, production, or distribution facility, or a transporter, registered supplier, or oxygenate blender shall maintain for five years records relating to producing, importing, blending, transporting, distributing, delivering, testing, or storing motor fuels, including Arizona CBG or AZRBOB, and upon Division request, shall make the records available within 15 days for Division inspection ~~upon request~~.

**R3-7-717. Motor Fuel Dispensing Site Equipment**

- A. Hold-open latch. If an owner or operator of a motor fuel dispensing site ~~has a dispensing device with a~~ operates a motor fuel dispenser that utilizes a nozzle equipped with a hold-open latch, the owner or operator shall ensure that the latch operates according to the manufacturer's specifications.
- B. Nozzle requirements for diesel fuel. An owner or operator of a motor fuel dispensing site ~~with a dispensing device operating a motor fuel dispenser~~ from which diesel fuel is sold at retail shall ensure that the ~~dispensing device has a~~ dispenser utilizes a diesel nozzle ~~spout~~ with a spout diameter that conforms to SAE J285; ~~“Dispenser Nozzle Spouts for Liquid Fuels Intended for Use with Spark Ignition and Compression Ignition Engines.”~~.
- C. Motor fuel dispenser filters. An owner or operator of a motor fuel dispensing site shall ensure that:
1. All gasoline, gasoline-alcohol blends, and ethanol flex fuel dispensers have a 10 micron or smaller nominal pore-sized filter;
  2. Dispensers that dispense gasoline-alcohol blends shall have fuel filters designed for use with gasoline-alcohol blends;
  3. All biodiesel, biodiesel blends, diesel, and kerosene dispensers have a 30 micron or smaller nominal pore-sized filter; or
  4. In the event a motor fuel dispenser is not manufactured to be equipped to use fuel filters, they shall be installed in line with the fuel dispensing hose at the base of the dispenser. If this is not feasible, the motor fuel dispensing site owner may provide evidence that fuel filters cannot be installed at the site due to the configuration and apply for a waiver from these requirements from the ~~Associate Director~~ associate director.
- D. ~~From and after September 30, 2018, all~~ All retail diesel fuel dispensers ~~shall be equipped with nozzles that have a green grip guard~~ and ethanol flex fuel dispensers shall be equipped with nozzles that ~~have a yellow~~ meet the grip guard color requirements in § 3-3436(B). No other nozzles shall be ~~equipment~~ equipped with these color grip guards.
- E. Motor fuel dispensers shall meet appropriate ~~UL~~ Underwriters Laboratories ratings and be compatible with the motor fuel being dispensed.

**R3-7-718. Additional Requirements for Production, Transport, Distribution, and Sale of Biofuels and Biofuel Blends**

- ~~A. Registration and reporting requirements for biofuel blenders, biofuel producers, and biofuel suppliers of biofuel or biofuel blends in Arizona:~~
- ~~1. Registration requirement:~~
    - ~~a. A biofuel producer, biofuel supplier, or biofuel blender shall register with the associate director, using a form prescribed by the associate director, before producing or supplying biofuel or biofuel blend in Arizona.~~
    - ~~b. A person required to register under subsection (A)(1)(a) shall notify the associate director within 10 days after the effective date of a change in any of the information provided under subsection (A)(1)(a).~~
    - ~~c. If a biofuel producer, biofuel supplier, or biofuel blender fails to register under subsection (A)(1)(a), the associate director shall take action as allowed under A.R.S. § 3-3475 and R3-7-762.~~
    - ~~d. The Division shall maintain and make available to the public a list of all persons registered under this Section.~~
  - ~~2. Reporting requirement:~~
    - ~~a. A person required to register under subsection (A)(1)(a) shall report to the Division by January 30th of each year for the previous calendar year. The person shall:~~
      - ~~i. Report on a form or in a format prescribed by the associate director;~~
      - ~~ii. Provide the total amount of biofuel or biofuel blend produced or supplied for the previous calendar year, including the total amount of each blend component;~~
      - ~~iii. Attest to the truthfulness and accuracy of the information submitted; and~~
      - ~~iv. Ensure that the report form is signed or submitted electronically by a corporate officer, or the officer's designee, responsible for operations at the facility at or from which the biofuel or biofuel blend was produced or supplied.~~
    - ~~b. The Division shall classify the information submitted under subsection (A)(2)(a) as confidential and protected under A.R.S. § 44-1374 if the person that submits the information expressly designates the information as confidential.~~
- A. Biofuel blenders, biofuel producers, and biofuel suppliers of biofuels or biofuel blends in Arizona shall meet the following requirements:
1. Register with the Environmental Protection Agency under 40 CFR 80.1450 or 40 CFR 1090, subpart I, as they existed on December 4, 2020.
  2. Upon request by the associate director, report the total volume of biofuel or biofuel blends produced or supplied for the previous calendar year, including the total volume of each blend component. The report shall be provided to the Division within 15 days of the request. Any information reported to the Division shall remain confidential under A.R.S. § 44-1374.

- B. Quality Assurance and Quality Control (QA/QC) (“QA/QC”) program requirements.**
1. A biofuel producer or biofuel blender shall implement a QA/QC program to ensure the quality of a biofuel or biofuel blend produced in or supplied in or into Arizona;
  2. The QA/QC program implemented by a biofuel producer shall include the following minimum requirements:
    - a. A sampling and testing program to certify that the biofuel meets applicable ASTM requirements that apply to the biofuel produced. All samples shall be collected in accordance with ASTM sampling methods following the addition of any applicable blend components ~~in accordance with ASTM methods~~. The plan shall include a policy for sample retention;
    - b. A Certificate of Analysis with a unique identification number generated for each batch produced and indicated on the product transfer document;
    - c. The Certificate of Analysis required under subsection (B)(2)(b) and any other supporting sampling and testing documentation required under this Section is made available to the Division within 24 hours of a request; and
    - d. Any storage tank containing biofuel that is inactive for more than 30 days is resampled and analyzed to verify the fuel meets ASTM standards.
  3. The QA/QC program implemented by a biofuel blender shall include the following minimum requirements:
    - a. Retention of:
      - i. Documentation that demonstrates the applicable biofuel blend components were received from a facility registered with the EPA under ~~40 CFR 80, subpart K or M~~ 40 CFR 80.1450 or 40 CFR 1090, subpart I;
      - ii. Certificates of Analysis for the biofuel used as a blend component in the blending process; and
      - iii. Documentation such as a product transfer document that demonstrates the diesel fuel used in the blending process meets the requirements of ASTM D975;
    - b. For biodiesel blending, all diesel fuel used as a blend component is analyzed to verify the biodiesel content before blending if the initial volume percent of biodiesel content in the diesel fuel component is unknown; alternatively, for biodiesel blends blended at a motor fuel dispensing site, the biofuel blender may assume the diesel contains 5% biodiesel and prepare and maintain calculations demonstrating the biodiesel content of the final biodiesel blend if it is advertised to consumers as a ~~B6 to B20~~ biodiesel blend containing more than 5 and no more than 20 volume percent biodiesel and the calculations demonstrate the biodiesel blend will be compliant with the biodiesel content advertised;
    - c. Any storage tank containing biofuel that is inactive for more than 30 days is resampled and analyzed to verify the fuel meets ASTM standards; and
    - d. All biodiesel used as a blend component in biodiesel blends consists of at least ~~99 percent~~ 99% biodiesel unless approved by the Division.
  4. All records required under this subsection are maintained either onsite or at an offsite location for at least five years and made available to the Division upon request.
  5. In the event the Division identifies biofuel or biofuel blends that do not meet ASTM ~~requirements~~ standards, the producer or biofuel blender shall evaluate the QA/QC program and make any additional changes that may be required to bring the fuel into compliance.

~~**C. Ethanol flex fuel sold or offered for sale within the CBG covered area shall:**~~

- ~~1. Use fuel ethanol that meets the standards in this Chapter, and~~
- ~~2. Have a maximum vapor pressure that does not exceed the maximum vapor pressure requirements in R3-7-751(A)(6).~~

~~**D. Requirements for motor fuel dispensing sites. The owner or operator of a motor fuel dispensing site at which ethanol flex fuel is dispensed shall ensure that any ethanol flex fuel, biodiesel or biodiesel blend sold, offered or exposed for sale, or dispensed was received from and traceable to a person registered with the Division under subsection (A)(1) and the Environmental Protection Agency under 40 CFR 80, subparts K or M.**~~

~~**E.C. Exemptions**~~

- ~~1. A biofuel producer, biofuel supplier, or biofuel blender located outside of Arizona and supplying biofuel to a registered biofuel producer, biofuel supplier, or biofuel blender located within Arizona is not required to register under subsection (A)(1)(a);~~
- ~~2.1. A producer, supplier, or blender of diesel fuel containing five percent 5% by volume or less biodiesel is exempt from this Section if the following conditions are met:~~
  - a. The diesel fuel meets the standards of ASTM D975; and
  - b. If the initial volume percent of biodiesel content is unknown, the person blending the biodiesel into diesel fuel analyzes the diesel fuel to verify the initial biodiesel content and ensure the resulting blend meets the requirements in ASTM D975.
- ~~3.2. A biofuel producer, biofuel supplier, or biofuel blender who produces, supplies, or blends diesel fuel blended with a biomass-based diesel where the resulting fuel meets the requirements in ASTM D975 is exempt from this section.~~
- ~~4.3. Gasoline containing up to 10 percent 15% ethanol is exempt from this section.~~

**R3-7-749. Definitions Applicable to Arizona CBG and AZRBOB**

The following definitions apply only to R3-7-750 through R3-7-762, ~~including Tables A, 1, and 2:~~

1. “Designated alternative limit” means a ~~motor~~ fuel property specification, expressed in the nearest part per million by weight for sulfur content, nearest 10th percent by volume for aromatic hydrocarbon content, nearest 10th percent by volume for olefin content, and nearest degree Fahrenheit for T90 and T50, that is assigned by a registered supplier to a final blend of Type 2

Arizona CBG or AZRBOB for purposes of compliance with the Predictive Model Procedures, which are incorporated by reference in R3-7-702(10).

~~“Downstream oxygenate blending” means combining AZRBOB and an oxygenate to produce fungible Arizona CBG.~~

2. “Importer” means any person that assumes title or ownership of Arizona CBG or AZRBOB produced by an unregistered supplier.

3. “Oxygenate-blending facility” means any location (including, but not limited to, a truck) where an oxygenate or ethanol flex fuel is added to Arizona CBG or AZRBOB ~~and the resulting quality or quantity of, and nothing further is added to the resulting Arizona CBG is not altered in any other manner~~ except for the addition of a deposit-control or similar additive registered under 40 CFR 79. An oxygenate-blending facility includes a facility that recertifies Arizona CBG under R3-7-755(F).

~~“Oxygenated Arizona CBG” means Arizona CBG with a maximum oxygen content of 4.0 wt. percent or another oxygen content approved by the associate director under A.R.S. § 3-3493, that is produced and shipped to or within Arizona and sold or offered for sale for use in motor vehicles in the CBG covered area from November 1 through March 31 of each year.~~

4. “Performance standard” means the VOC and NOx emission reduction percentages in R3-7-751(A)(8) and ~~Table 1 R3-7-751(D)(1).~~

~~“PM” or “Predictive Model Procedures” means the California Predictive Model and CARB’s “California Procedures for Evaluating Alternative Specifications for Phase 2 Reformulated Gasoline Using the California Predictive Model,” as adopted April 20, 1995, which is incorporated by reference in R3-7-702.~~

5. “PM alternative gasoline formulation” means a final blend of Arizona CBG or AZRBOB that is subject to a set of PM alternative specifications.

6. “PM alternative specifications” means the specifications for the following fuel properties, as determined using a testing methodology in R3-7-759:

- a. Maximum vapor pressure, expressed in the nearest 100th of a pound per square inch;
- b. Maximum sulfur content, expressed in the nearest part per million by weight;
- c. Maximum olefin content, expressed in the nearest 10th of a percent by volume;
- d. Minimum and maximum oxygen content, expressed in the nearest 10th of a percent by weight;
- e. Maximum T50, expressed in the nearest degree Fahrenheit;
- f. Maximum T90, expressed in the nearest degree Fahrenheit; and
- g. Maximum aromatic hydrocarbon content, expressed in the nearest 10th of a percent by volume.

~~“PM averaging compliance option” means, with reference to a specific fuel property, the compliance option for PM alternative gasoline formulations by which final blends of Arizona CBG and AZRBOB are assigned designated alternative limits under R3-7-751(G), (H), and (I).~~

~~“PM averaging limit” means a PM alternative specification that is subject to the PM averaging compliance option.~~

7. “PM flat limit” means a PM alternative specification that is subject to the PM flat limit compliance option.

8. “PM flat limit compliance option” means, with reference to a specific fuel property, the compliance option that each gallon of gasoline must meet for that specified fuel property as contained in the PM alternative specifications.

9. “Produce” means:

- a. Except as otherwise provided, to convert a liquid compound that is not Arizona CBG or AZRBOB into Arizona CBG or AZRBOB.
- b. If a person blends a blendstock that is not Arizona CBG or AZRBOB with Arizona CBG or AZRBOB acquired from another person, and the resulting blend is Arizona CBG or AZRBOB, the person conducting the blending produces only the portion of the blend not previously Arizona CBG or AZRBOB. If a person blends Arizona CBG or AZRBOB with other Arizona CBG or AZRBOB in accordance with this Article, without the addition of a blendstock that is not Arizona CBG or AZRBOB, that person is not a producer of Arizona CBG or AZRBOB.
- c. If a person supplies Arizona CBG or AZRBOB to a refiner that agrees in writing to further process the Arizona CBG or AZRBOB at the refiner’s refinery and be treated as the producer of Arizona CBG or AZRBOB, the refiner is the producer of the Arizona CBG or AZRBOB.
- d. If an oxygenate blender blends oxygenates or ethanol flex fuel into Arizona CBG or AZRBOB supplied from a gasoline production or import facility, and ~~does not alter the quality or quantity of the~~ nothing further is added to the AZRBOB ~~or the quality or quantity of the resulting Arizona CBG certified by a registered supplier in any other manner~~ except for the addition of a deposit-control or similar additive, the producer or importer of the AZRBOB, rather than the oxygenate blender, is considered the producer or importer ~~of the full volume~~ of the resulting Arizona CBG.

10. “Registered supplier” means a producer or importer that supplies Arizona CBG or AZRBOB and is registered with the associate director under R3-7-750.

11. “Third-party terminal” means an owner or operator of a gasoline storage tank facility that accepts custody, but not ownership, of Arizona CBG or AZRBOB from a registered supplier, oxygenate blender, pipeline, or other third-party terminal and relinquishes custody of the Arizona CBG or AZRBOB to a transporter or other terminal.

12. “Type 1 Arizona CBG” means a gasoline that meets the standards contained in R3-7-751(A) and ~~Table 1 R3-7-751(D)(1).~~

13. “Type 2 Arizona CBG” means a gasoline that meets the standards contained in ~~Table 2 or is certified using the PM according to the requirements of R3-7-751(G), (H), and (I)~~ R3-7-751(D)(2), and meets the requirements in:

- a. R3-7-751(A) beginning April 1 through October 31 of each year, and
  - b. R3-7-751(B) beginning November 1 through March 31 of each year.
14. "Winter" means November 1 through March 31.

**R3-7-750. Registration Relating to Arizona CBG or AZRBOB**

- A. ~~Each of~~ For each physical location, the following shall register with the associate director before producing, importing, or obtaining custody of Arizona CBG or AZRBOB:
1. A refiner or CBG blender that produces Arizona CBG or AZRBOB;
  2. An importer that imports Arizona CBG or AZRBOB;
  3. An oxygenate blender that blends oxygenate with AZRBOB to produce Arizona CBG; ~~or~~
  4. An oxygenate blender that recertifies Arizona CBG under R3-7-755(F); or
  - ~~4-5.~~ A pipeline or third-party terminal that has custody of Arizona CBG or AZRBOB.
- B. A person listed in subsection (A) shall register on a form prescribed by the associate director and include the following information:
1. Business name, business address, and contact name or position title and telephone number;
  2. ~~For each refinery or oxygenate blending facility, the~~ The facility name, physical location, contact name or position title and telephone number, and type of facility;
  3. ~~For each refinery, oxygenate blending facility, or importer, a:~~ The location of the records required under this Article. If article; and if records are kept off-site, the primary off-site storage facility name, physical location, and contact name or position title and telephone number; and
  - ~~b-4.~~ If an independent laboratory is used to meet the requirements of R3-7-752(F), the name and address of the independent laboratory, and contact name or position title and telephone number;
  - ~~4-5.~~ If required under ~~40 CFR 80.76(d)~~ 40 CFR § 1090.800, the EPA registration number; and
  - ~~5-6.~~ A statement of consent permitting the Division or its authorized agent to collect samples and access records as provided in R3-7-716.
- C. A person registered under subsection (B) shall notify the associate director within 10 days after the effective date of a change in any of the information provided under subsection (B).
- D. If a refiner, ~~importer~~ CBG blender, ~~or~~ oxygenate blender, or importer fails to register under this Section, all Arizona CBG or AZRBOB, which is produced by the refiner, CBG blender, or oxygenate blender, or imported by the importer, and which is transported to the CBG-covered area, is presumed to be noncompliant from the date that registration should have occurred.
- E. The Division shall maintain a list of all registered suppliers.

**R3-7-751. Arizona CBG Requirements**

- A. General fuel property and performance requirements. In addition to the other requirements of this Article and except as provided in subsection (B), all Arizona CBG shall meet the following requirements and for any fuel property not specified, shall meet the requirements in ASTM D4814. The dates in this ~~subsection~~ Section are compliance dates for the owner or operator of a motor fuel dispensing site or a fleet vehicle fueling facility.
1. Sulfur: 95 ppm by weight (max).
  2. Aromatics: ~~50 percent~~ 50% by volume (max).
  3. Olefins: ~~25 percent~~ 25% by volume (max).
  4. E200: ~~70-30 percent~~ 70-30% volume.
  5. E300: ~~100-70 percent~~ 100-70% volume.
  6. Maximum vapor pressure:
    - a. October: 9.0 psi.
    - b. November 1 - March 31: 9.0 psi.
    - c. April: 10.0 psi.
    - d. May: 9.0 psi.
    - e. June 1 - September 30: 7.0 psi.
    - f. A ~~gasoline-ethanol~~ gasoline-ethanol blend in the CBG-covered area is subject to the 1 psi vapor pressure waiver, as described in ~~R3-7-708(B)~~ R3-7-708(D)(2), during April only.
  7. Oxygen and oxygenates:
    - a. Minimum content:
      - i. November 1 - March 31: ~~40 percent fuel~~ 10% ethanol by volume or ~~12.5 percent~~ 12.5% isobutanol by volume. If a petition under A.R.S. § 3-3493(C) ~~petition~~ is in effect: ~~2.7 percent~~ 2.7% oxygen by weight as approved by the associate director.
      - ii. April 1 - October 31: ~~0 percent~~ 0% by weight (any oxygenate).
    - b. The maximum oxygen content shall not exceed ~~4.0 percent~~ 5.8% by weight for ~~fuel~~ ethanol and shall not exceed the amount allowed by EPA waivers under Section 211(f) of the Clean Air Act for other oxygenates. Additionally, the oxygen content shall comply with the requirements of A.R.S. § 3-3491 and § 3-3492.
    - c. Arizona CBG shall not contain more than 0.3 volume percent MTBE nor more than 0.1 weight percent oxygen from all other ethers or alcohols listed in A.R.S. § 3-3491.

8. ~~Type 1~~ Arizona CBG shall meet the Federal Complex Model VOC emissions reduction percentage May 1 through September 15: ~~27.5 percent~~ 27.5% (Federal Complex Model settings: Summer, Area Class B, Phase 2). ~~Type 2 Arizona CBG shall meet CARB Phase 2 requirements.~~
- B. ~~Wintertime~~ Winter requirements.** In addition to the other requirements of this Article, the owner or operator of a motor fuel dispensing site or a fleet vehicle fueling facility shall ensure that beginning November 1 through March 31 of each year, all Arizona CBG meets the following fuel property requirements.
1. Sulfur: 80 ppm by weight (max),
  2. Aromatics: 30% by volume (max),
  3. Olefins: 10% by volume (max),
  4. 90% Distillation Temp. (T90): 330° F (max),
  5. 50% Distillation Temp. (T50): 220° F (max),
  6. Vapor Pressure: 9.0 psi (max), and
  7. Oxygenates:
    - a. Minimum oxygenate content - ~~10 percent fuel~~ 10% ethanol by volume or ~~12.5 percent~~ 12.5% isobutanol by volume;
    - b. Maximum oxygen content - ~~4.0 percent~~ 5.8% oxygen by weight, and shall comply with the requirements of A.R.S. § 3-3492; and
    - c. Alternative minimum ~~fuel~~ ethanol or isobutanol content may be used if approved by the associate director under A.R.S. § 3-3493(C).
- ~~C.~~ Fuel ethanol and other oxygenate specifications.** A person that uses fuel ethanol or other oxygenates as a blending component with AZRBOB or Arizona CBG shall ensure that the fuel ethanol or other oxygenates meet the following requirements:
- ~~1. A sulfur content not exceeding 10 ppm by weight;~~
  - ~~2. The fuel ethanol or other oxygenate must be composed solely of carbon, hydrogen, nitrogen, oxygen, and sulfur;~~
  - ~~3. For fuel ethanol, only gasoline previously certified under 40 CFR Part 80 (including previously certified blendstocks for oxygenate blending), gasoline blendstocks, or natural gas liquids may be used as denaturants; and~~
  - ~~4. For fuel ethanol, the concentration of all denaturants is limited to a maximum of 3.0 volume percent.~~
- C.** Certification as Type 1 Arizona CBG or Type 2 Arizona CBG. A registered supplier shall certify Arizona CBG or AZRBOB under R3-7-752, using the test methods specified in R3-7-759. Type 1 Arizona CBG or Type 2 Arizona CBG shall be certified with the addition of 10 volume percent ethanol or an oxygen content of 2.7% by weight for other oxygenates. A PM alternative gasoline formulation shall be certified with an oxygen content of 1.8 to 2.2% by weight as outlined in subsection (I).
- ~~D.~~ General elections.** Except as provided in subsection (E), a registered supplier shall make an initial election, and a subsequent election each time a change occurs, before beginning to transport Arizona CBG or AZRBOB. A registered supplier shall make the election with the associate director on a form or in a format prescribed by the associate director. The election shall state:
- ~~1. Whether the registered supplier (at each point where the Arizona CBG or AZRBOB is certified) will supply Arizona CBG or AZRBOB that complies with Type 1 Arizona CBG, Type 2 Arizona CBG, or the PM alternative gasoline formulation requirements and, if the registered supplier will supply Arizona CBG or AZRBOB that complies with the PM alternative gasoline formulation requirements, whether the registered supplier will certify using the CARB Phase 2 model; and~~
  - ~~2. For each applicable fuel property or performance standard in the election under subsection (D)(1), whether the Arizona CBG or AZRBOB will comply with the average standards or per-gallon standards. A registered supplier shall not elect to comply with average standards unless the registered supplier is in compliance with R3-7-760. A registered supplier shall not elect to comply with Type 1 Arizona CBG average standards in Table 1, columns B and C, from September 16 through October 31 and February 1 through April 30.~~
- D.** In addition to the standards in subsections (A) and (B), Type 1 Arizona CBG and Type 2 Arizona CBG shall be certified meeting the following standards:
1. Type 1 standards. For each fuel property, Type 1 Arizona CBG shall comply with the following per gallon standards, and shall be certified using the Federal Complex Model:
    - a. VOC Emission Reduction: 27.5% (min) May 1 through September 15.
    - b. NOx Emission Reduction: 5.5% (min) May 1 through September 15.
    - c. NOx Emission Reduction: 0.0% (min) September 16 through October 31 and February 1 through April 30.
  2. Type 2 standards. For each fuel property, Type 2 Arizona CBG shall comply with the following maximum per gallon standards or a PM alternative gasoline formulation:
    - a. Maximum per gallon standards.
      - i. Sulfur: 40 ppm by weight (max).
      - ii. Aromatics: 25.0% by volume (max).
      - iii. Olefins: 6.0% by volume (max).
      - iv. 90% distillation temperature (T90): 300 °F (max).
      - v. 50% distillation temperature (T50): 210 °F (max).
    - b. PM alternative gasoline formulation. The PM alternative gasoline formulation shall meet the requirements of subsections (G) through (I), and the per gallon standards in R3-7-751(A) beginning April 1 through October 31 of each year, and R3-7-751(B) beginning November 1 through March 31 of each year.

- ~~E. Winter elections. Beginning November 1 through March 31 of each year, a registered supplier shall ensure that all Arizona CBG or AZRBOB complies with Type 2 Arizona CBG requirements or the PM alternative gasoline formulation requirements under Table 2. A registered supplier shall make an initial election, and a subsequent election each time a change occurs, before beginning to transport Arizona CBG or AZRBOB. A registered supplier shall make the election with the associate director on a form or in a format prescribed by the associate director. The election shall state:~~
- ~~1. Whether the registered supplier (at each point where the Arizona CBG or AZRBOB is certified) will supply Arizona CBG or AZRBOB that complies with the Type 2 Arizona CBG or the PM alternative gasoline formulation requirements; and~~
  - ~~2. For each applicable fuel property, whether the Arizona CBG or AZRBOB will comply with the average standards or per-gallon standards.~~
- ~~E. A registered supplier may produce Type 1 Arizona CBG from December 1 through March 31 but the registered supplier shall not distribute the Arizona CBG to a motor fuel dispensing site within the CBG-covered area before April 1. A registered supplier may produce and distribute Type 2 Arizona CBG year-round.~~
- ~~F. A registered supplier may elect and produce Type 1 Arizona CBG from December 1 through March 31 but the registered supplier shall not distribute the Arizona CBG to a motor fuel dispensing site within the CBG-covered area before April 1.~~
- ~~F. November 1 through March 31 of each year, a registered supplier shall ensure that all Arizona CBG or AZRBOB complies with Type 2 Arizona CBG requirements or the PM alternative gasoline formulation requirements.~~
- ~~G. Certification as Type 1 Arizona CBG or Type 2 Arizona CBG. A registered supplier shall certify Arizona CBG or AZRBOB under R3-7-752 as meeting all requirements of the election made in subsection (D) or (E). For each fuel property, Type 1 Arizona CBG shall comply with the requirements in either column A or columns B through D of Table 1, and shall be certified using the Federal Complex Model, which is incorporated by reference in R3-7-702. For each fuel property, Type 2 Arizona CBG shall comply with the requirements of columns A and B (averaging option), or column C in Table 2 or a PM alternative gasoline formulation. The PM alternative gasoline formulation shall meet the requirements of subsections (H), (I), and (J), and column A of Table 2. A registered supplier may shall certify Arizona CBG or AZRBOB using an equivalent the test method methods that the Division approves using the criteria stated specified in R3-7-759.~~
- ~~G. Certification and use of the Predictive Model Procedures for PM alternative gasoline formulations.~~
- ~~1. Except as provided in subsection (I), a registered supplier shall use the PM as provided in the Predictive Model Procedures.~~
  - ~~2. A registered supplier shall certify a PM alternative gasoline formulation with the associate director on a form prescribed by, or in a format acceptable to, the associate director, of:~~
    - ~~a. The PM alternative specifications that apply to the final blend; and~~
    - ~~b. The numerical values for percent change in emissions for oxides of nitrogen and hydrocarbons determined in accordance with the Predictive Model Procedures.~~
  - ~~3. A registered supplier shall deliver the certification required under subsection (G)(2) to the associate director within 3 business days of transporting the PM alternative gasoline formulation. The registered supplier shall have a written process that is followed to verify the PM alternative gasoline formulation meets the applicable PM alternative specifications prior to transport.~~
  - ~~4. If a registered supplier notifies the associate director under subsection (G)(3) that a final blend of Arizona CBG is sold or supplied from a production or import facility as a PM alternative gasoline formulation, all final blends of Arizona CBG or AZRBOB subsequently sold or supplied from that production or import facility are subject to the same PM alternative specifications until the registered supplier either:~~
    - ~~a. Designates a final blend at that facility as a PM alternative gasoline formulation subject to different PM alternative specifications; or~~
    - ~~b. Chooses to certify a final blend at that facility subject to a flat limit compliance option.~~
- ~~H. Certification and use of Predictive Model for alternative PM gasoline formulations.~~
- ~~1. Except as provided in subsections (H)(4) and (J), a registered supplier shall use the PM as provided in the Predictive Model Procedures.~~
  - ~~2. A registered supplier shall certify a PM alternative gasoline formulation with the associate director by either:~~
    - ~~a. Submitting to the associate director a complete copy of the documentation provided to the executive officer of CARB according to 13 California Code of Regulations, Section 2264 and subsection (J), or~~
    - ~~b. Notifying the associate director, on a form prescribed by or in a format acceptable to the associate director, of:~~
      - ~~i. The PM alternative specifications that apply to the final blend, including for each specification whether it is a PM flat limit or a PM averaging limit; and~~
      - ~~ii. The numerical values for percent change in emissions for oxides of nitrogen and hydrocarbons determined in accordance with the Predictive Model Procedures.~~
  - ~~3. A registered supplier shall deliver the certification required under subsection (H)(2) to the associate director before transporting the PM alternative gasoline formulation.~~
  - ~~4. Restrictions for elections to sell or supply final blends as PM alternative gasoline formulations:~~
    - ~~a. A registered supplier shall not make a new election to sell or supply from its production or import facility a final blend of Arizona CBG as a PM alternative gasoline formulation if the registered supplier has an outstanding requirement under subsection (K) to provide offsets for fuel properties at the same production or import facility.~~

- b. ~~If a registered supplier elects to sell or supply from its production or import facility a final blend of Arizona CBG as a PM alternative gasoline formulation subject to a PM averaging compliance option for one or more fuel properties, the registered supplier shall not elect any other compliance option, including another PM alternative gasoline formulation, if an outstanding requirement to provide offsets for fuel properties exists under the provisions of subsection (K). This subsection does not preclude a registered supplier from electing another PM alternative gasoline formulation if:
 
  - i. ~~The PM flat limit for one or more fuel properties is changed to a PM averaging limit, or a single PM averaging limit for which there is no outstanding requirement to provide offsets is changed to a PM flat limit;~~
  - ii. ~~There are no changes to the PM alternative specifications for remaining fuel properties; and~~
  - iii. ~~The new PM alternative formulation meets the criteria in the Predictive Model Procedures.~~~~
- c. ~~If a registered supplier elects to sell or supply from the registered supplier's production or import facility a final blend of Arizona CBG as a PM alternative gasoline formulation, the registered supplier shall not use a previously assigned designated alternative limit for a fuel property to provide offsets under subsection (K).~~
- d. ~~If a registered supplier notifies the associate director under subsection (D) or (E) that a final blend of Arizona CBG is sold or supplied from a production or import facility as a PM alternative gasoline formulation, all final blends of Arizona CBG or AZRBOB subsequently sold or supplied from that production or import facility are subject to the same PM alternative specifications until the registered supplier either:
 
  - i. ~~Designates a final blend at that facility as a PM alternative gasoline formulation subject to different PM alternative specifications; or~~
  - ii. ~~Elects, under subsection (D) or (E), a final blend at that facility subject to a flat limit compliance option or an averaging compliance option.~~~~

**H.** Prohibited activities regarding PM alternative gasoline formulations. A registered supplier shall not sell, offer for sale, supply, or offer to supply from the registered supplier's production or import facility Arizona CBG that is reported as a PM alternative gasoline formulation under R3-7-752 if any of the following occur:

- 1. The PM alternative specifications do not meet the criteria for approval in the Predictive Model Procedures, or
- 2. The gasoline fails to conform to any PM flat limit in the PM alternative specifications. A registered supplier may not use an average compliance option in the PM alternative specifications.

**I.** ~~Prohibited activities regarding PM alternative gasoline formulations. A registered supplier shall not sell, offer for sale, supply, or offer to supply from the registered supplier's production or import facility Arizona CBG that is reported as a PM alternative gasoline formulation under R3-7-752 if any of the following occur: Oxygen content requirements for PM alternative gasoline formulations. A registered supplier shall ensure that from November 1 through March 31, all alternative PM gasoline formulations comply with oxygen content requirements for the CBG-covered area. Regardless of the oxygen content, a registered supplier shall certify the final alternative PM gasoline formulation using the PM with a minimum oxygen content of 1.8% by weight and a maximum oxygen content of 2.2% by weight. A registered supplier may use the CARBOB Model as a substitute for the preparation of a ethanol hand blend and use the fuel qualities calculated under the CARBOB Model for compliance and reporting purposes.~~

- 1. ~~The elected PM alternative specifications do not meet the criteria for approval in the Predictive Model Procedures;~~
- 2. ~~The registered supplier is prohibited by subsection (H)(4)(a) from electing to sell or supply the gasoline as a PM alternative gasoline formulation;~~
- 3. ~~The gasoline fails to conform with any PM flat limit in the PM alternative specifications election, or~~
- 4. ~~With respect to any fuel property for which the registered supplier elects a PM averaging limit:
 
  - a. ~~The gasoline exceeds the applicable PM average limit in Table 2, column B, and no designated alternative limit for the fuel property is established for the gasoline in accordance with subsection (H)(2); or~~
  - b. ~~A designated alternative limit for the fuel property is established for the gasoline in accordance with subsection (H)(2), and either the gasoline exceeds the designated alternative limit for the fuel property or the designated alternative limit for the fuel property exceeds the PM averaging limit and the exceedance is not fully offset in accordance with subsection (K).~~~~

**J.** ~~Oxygen content requirements for PM alternative gasoline formulations. A registered supplier shall ensure that from November 1 through March 31, all alternative PM gasoline formulations comply with oxygen content requirements for the CBG-covered area. Regardless of the oxygen content, a registered supplier shall certify the final alternative PM gasoline formulation using the PM with a minimum oxygen content of 2.0 percent by weight. A registered supplier may use the CARBOB Model as a substitute for the preparation of a fuel ethanol hand blend and use the fuel qualities calculated under the CARBOB Model for compliance and reporting purposes. Rounding of values shall be conducted following 40 CFR 1090.50.~~

**K.** ~~Offsetting fuel properties and performance standards. A registered supplier that elects to comply with the averaging standards for any of the fuel properties or performance standards contained in Tables 1 and 2, or the PM, shall, from a single production or import facility, complete physical transfer of certified Arizona CBG or AZRBOB in sufficient quantity to offset the amount by which the Arizona CBG or AZRBOB exceeds the averaging standard according to the following schedule:~~

- 1. ~~A registered supplier that elects to comply with the averaging standards contained in Table 2 or the PM shall offset each exceeded average standard within 90 days before or after beginning to transport any final blend of Arizona CBG or AZRBOB from the production or import facility;~~

2. A registered supplier that elects to comply with the averaging standard for the VOC Emission Reduction Percentage in Table 1, column B, shall offset an exceedance of the standard that occurs from May 1 through September 15 during that same period; and
  3. A registered supplier that elects to comply with the averaging standard for the NOx Emission Reduction Percentage contained in Table 1, column B, shall offset an exceedance of the standard that occurs from May 1 through September 15 during that same period.
- L.** ~~Consequence of failure to comply with averages.~~
1. ~~In addition to a penalty under R3-7-762, if any, a registered supplier that fails to comply with a requirement of subsection (K) shall meet the applicable per-gallon standards contained in Table 1, Table 2, or an alternative PM gasoline formulation, for a probationary period as follows:~~
    - a. ~~For a registered supplier that elects to comply with the standards contained in Table 1, the probationary period begins on the first day of the next averaging season and ends on the last day of that averaging season if the conditions of subsection (L)(2) are met;~~
    - b. ~~For a registered supplier that elects to comply with the standards contained in Table 2 or the PM, the probationary period begins no later than 90 days after the registered supplier determines, or receives a notice from the associate director, that the registered supplier did not comply with the requirements of subsection (K). Before the probationary period begins, the registered supplier shall notify the associate director in writing of the beginning date of the probationary period. The probationary period ends 90 days after its beginning date.~~
  2. ~~A registered supplier shall not produce or import Arizona CBG or AZRBOB under an averaging compliance election until:~~
    - a. ~~The registered supplier submits a compliance plan to the associate director that includes:~~
      - i. ~~An implementation schedule for actions to correct noncompliance, and~~
      - ii. ~~Reporting requirements that document implementation of the compliance plan;~~
    - b. ~~The associate director approves the plan;~~
    - c. ~~The registered supplier implements the plan, and~~
    - d. ~~The registered supplier achieves compliance.~~
  3. ~~If a registered supplier fails to comply with the requirements of subsection (K) within one year of the end of a probationary period under subsection (L)(1), the registered supplier shall comply with applicable per-gallon standards for a subsequent probationary period of two years, or until the conditions in subsection (L)(2) are satisfied, whichever is later.~~
    - a. ~~If a registered supplier elects to comply with the Table 1 standards, the probationary period begins on the first day of the next averaging season.~~
    - b. ~~If a registered supplier elects to comply with the Table 2 standards or the PM, the probationary period begins no later than 90 days after the registered supplier determines, or receives notice from the associate director, that the registered supplier did not comply with the requirements of subsection (K). Before the probationary period begins, the registered supplier shall notify the associate director in writing of the beginning date of the probationary period.~~
  4. ~~If a registered supplier fails to comply with the requirements of subsection (K) within one year after the end of a probationary period provided under subsection (L)(3), the registered supplier shall permanently comply with applicable per-gallon standards.~~
- M.** ~~Effect of VOC survey failure. Each time a VOC survey conducted under R3-7-760 shows excess VOC emissions in the CBG-covered area, the VOC emissions performance reduction in R3-7-751(A)(8) and the minimum per-gallon VOC emission reduction percentage in Table 1, column C shall be increased by an absolute 1.0 percent, not to exceed the VOC percent emissions reduction percentage per-gallon standard in Table 1, column A.~~
- N.** ~~Effect of NOx survey failure. Each time a NOx survey conducted under R3-7-760 shows excess NOx emissions in the CBG-covered area, the NOx average emission reduction percentage applicable to the period of May 1 through September 15 in Table 1, column B shall be increased by an absolute 1.0 percent.~~
- O.** ~~Subsequent survey compliance. If the minimum VOC or average NOx emissions reduction percentage has been made more stringent according to subsection (M) or (N) and all emissions reduction surveys for VOC or NOx for two consecutive years show emissions within the applicable adjusted reduction percentage in the CBG-covered area, the applicable VOC or NOx emissions adjusted reduction percentage shall be reduced by an absolute 1.0 percent beginning in the year following the year in which the second compliant survey is conducted. Each emissions reduction percentage adjusted under this subsection shall not be decreased below the following:~~
1. ~~>27 percent for the VOC emissions reduction percentage, May 1 through September 15, Table 1, column C; and~~
  2. ~~>6.8 percent for the NOx emissions reduction percentage, May 1 through September 15, Table 1, column B.~~
- P.** ~~Subsequent survey failures. If a VOC or NOxx emissions reduction percentage is made less stringent under subsection (O) and a subsequent VOC or NOxx survey shows excess VOC or NOxx emissions in the CBG-covered area:~~
1. ~~For a VOC survey failure, the Federal Complex Model VOC emissions reduction percentage in R3-7-751(A)(8) and the minimum per-gallon VOC emission reduction percentage in Table 1, column C shall be increased by an absolute 1.0 percent, not to exceed the VOC percent emissions reduction percentage per-gallon standard in Table 1, column A;~~
  2. ~~For a NOxx survey failure, the NOxx average emission reduction percentage applicable May 1 through September 15 in Table 1, column B shall be increased by an absolute 1.0 percent; and~~

- ~~3. If the VOC or NO<sub>x</sub> emission reduction percentage is increased under subsection (P)(1) or (2), the VOC or NO<sub>x</sub> emission reduction percentage shall not be made less stringent regardless of the result of subsequent surveys for VOC or NO<sub>x</sub> emissions.~~
- ~~Q. Effective date for adjusted standards. If a performance standard is adjusted by operation of subsection (M), (N), (O), or (P), the effective date for the change is the beginning of the next averaging season for which the standard is applicable.~~
- ~~R. The use of oxygenates other than ethanol under subsection (A)(7)(a)(i) and (B)(7)(a) is prohibited until EPA approves a revision to the state implementation plan allowing the use of oxygenates other than ethanol.~~

**R3-7-752. General Requirements for Registered Suppliers**

- A. A registered supplier shall certify that each batch of Arizona CBG or AZRBOB transported for sale or use in the CBG-covered area meets the standards in this Article.
- B. A registered supplier shall make the certification on a form or in a format prescribed by the associate director. The registered supplier shall include in the certification information on shipment volumes, fuel properties as determined under R3-7-759, and performance standards for each batch of Arizona CBG or AZRBOB. The registered supplier shall submit the certification to the associate director on or before the 15th day of each month for each batch of Arizona CBG or AZRBOB transported during the previous month.
- C. Recordkeeping and records retention.
1. A registered supplier that samples and analyzes a final blend or shipment of Arizona CBG or AZRBOB under this Section shall maintain, for five years from the date of each sampling, records of the following:
    - a. Sample date;
    - b. Identity of blend or product sampled;
    - c. Container or other vessel sampled;
    - d. The final blend or shipment volume; and
    - e. The test results for sulfur, aromatic hydrocarbon, olefin, oxygen, vapor pressure, and as applicable, T50, T90, E200, and E300 as determined under R3-7-759.
  2. If Arizona CBG or AZRBOB produced or imported by a registered supplier is not tested and documented as required by this Section, the associate director shall deem the Arizona CBG or AZRBOB to have a vapor pressure, sulfur, aromatic hydrocarbon, olefin, oxygen, T50, and T90 that exceeds the standards specified in R3-7-751 or the comparable PM ~~averaging~~ limits, unless the registered supplier demonstrates to the associate director that the Arizona CBG or AZRBOB meets all applicable fuel property limits and performance standards.
  3. A registered supplier shall provide to the associate director any records maintained by the registered supplier under this Section within ~~20~~ 15 days of a written request from the associate director. If a registered supplier fails to provide records for a blend or shipment of Arizona CBG or AZRBOB, the associate director shall deem the final blend or shipment of Arizona CBG or AZRBOB in violation of R3-7-751, unless the registered supplier demonstrates to the associate director that the Arizona CBG or AZRBOB meets all applicable fuel property limits and performance standards.
- D. Notification requirement. A registered supplier shall notify the associate director by ~~fax or~~ e-mail before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.
- E. Quality Assurance and Quality Control (~~QA/QC~~) (“OA/QC”) Program. A registered supplier shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the registered supplier's laboratory testing of Arizona CBG or AZRBOB. The registered supplier shall submit the QA/QC program to the associate director for approval at least three months before the registered supplier transports Arizona CBG or AZRBOB. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the registered supplier's laboratory testing procedures comply with R3-7-759 and the data generated by the registered supplier's laboratory are complete, accurate, and reproducible. If the registered supplier makes significant changes to the QA/QC program, the registered supplier shall resubmit the QA/QC program to the associate director for review and approval. Within 30 days of receiving the changed QA/QC program, the associate director shall determine whether the changed QA/QC program meets the original quality objectives. The associate director shall approve the changed QA/QC program if it meets the quality objectives. Instead of developing a QA/QC program, a registered supplier may comply with the independent testing requirements of subsection (F).
- F. Independent testing.
1. A registered supplier of Arizona CBG or AZRBOB that does not develop a QA/QC program shall conduct a program of independent sample collection and analysis for the Arizona CBG or AZRBOB produced or imported, that complies with one of the following:
    - a. Option 1. A registered supplier shall, for each batch of Arizona CBG or AZRBOB produced or imported, have an independent laboratory collect and analyze a representative sample from the batch using the methodology specified in R3-7-759 for compliance with each fuel property and performance standard for which the Arizona CBG or AZRBOB is certified.
    - b. Option 2. A registered supplier shall have an independent testing program for all Arizona CBG or AZRBOB that the registered supplier produces or imports that consists of the following:
      - i. An independent laboratory shall collect a representative sample from each batch;
      - ii. The associate director or designee shall identify up to 10% of the samples collected under subsection (F)(1)(b)(i) for analysis; and

- iii. The independent laboratory shall, for each sample identified by the associate director or designee, analyze the sample using the methodology specified in R3-7-759 for compliance with each fuel property and performance standard for which the Arizona CBG or AZRBOB is certified.
    2. The associate director or designee may request in writing a duplicate of the batch sample collected under subsection (F)(1)(a) or (b) for analysis by a laboratory selected by the associate director or designee. The registered supplier shall submit a duplicate of the sample to the associate director within 24 hours of the written request.
    3. Designation of independent laboratory.
      - a. A registered supplier that does not develop a QA/QC program shall designate one independent laboratory for each production or import facility at which the registered supplier produces or imports Arizona CBG or AZRBOB. The independent laboratory shall collect samples and perform analyses according to subsection (F).
      - b. A registered supplier shall identify the designated independent laboratory to the associate director under the registration requirements of R3-7-750.
      - c. A laboratory is considered independent if:
        - i. The laboratory is not operated by a registered supplier or the registered supplier's subsidiary or employee,
        - ii. The laboratory does not have any interest in any registered supplier, and
        - iii. The registered supplier does not have any interest in the designated laboratory.
      - d. Notwithstanding the restrictions in subsection (F)(3)(c), ~~the associate director shall consider~~ a laboratory owned or operated by a pipeline shall be considered independent if ~~it is owned or operated by a~~ the pipeline is owned or operated by four or more registered suppliers.
      - e. A registered supplier shall not use a laboratory that is debarred, suspended, or proposed for debarment according to the Government-wide Debarment and Suspension regulations, 40 CFR 32, or the Debarment, Suspension and Ineligibility provisions of the Federal Acquisition Regulations, 48 CFR 9.4.
    4. A registered supplier shall ensure that its designated independent laboratory:
      - a. Records the following at the time the designated independent laboratory collects a representative sample from a batch of Arizona CBG or AZRBOB:
        - i. The producer's or importer's assigned batch number for the batch sampled;
        - ii. The volume of the batch;
        - iii. The identification number of the gasoline storage tank in which the batch is stored at the time the sample is collected;
        - iv. The date and time the batch became Arizona CBG or AZRBOB;
        - v. The date and time the sample is collected;
        - vi. The grade of the batch (for example, unleaded premium, unleaded mid-grade, or unleaded); and
        - vii. For Arizona CBG or AZRBOB produced by computer-controlled in-line blending, the date and time the blending process began and the date and time the blending process ended, unless exempt under subsection (G);
      - b. Retains each sample collected under this subsection for at least 45 days, unless this time is extended by the associate director for up to 180 days;
      - c. Submits to the associate director a quarterly report on or before the 15th day of January, April, July, and October of each year that includes, for each sample of Arizona CBG or AZRBOB analyzed under subsection (F):
        - i. The results of the independent laboratory's analyses for each fuel property, and
        - ii. The information specified in subsection (F)(4)(a) for each sample; and
      - d. Supplies to the associate director, upon request, a duplicate of the sample.
- G.** Exemptions to QA/QC and independent laboratory testing requirements. A registered supplier that produces or imports Arizona CBG or AZRBOB using computer-controlled in-line blending equipment and operates under an exemption from EPA under ~~40 CFR 80.65(f)(iv)~~ 40 CFR § 1090.1315, is exempt from the requirements of subsections (E) and (F), if reports of the results of the independent audit program of the registered supplier's computer-controlled in-line blending operation, which are submitted to EPA under ~~40 CFR 80.65(f)(iv)~~ 40 CFR § 1090.1315, are submitted to the associate director by March 1 of each year.
- H.** Use of laboratory analysis for certification of Arizona CBG and AZRBOB.
1. If both a registered supplier and an independent laboratory collect a sample from the same batch of Arizona CBG or AZRBOB and perform a laboratory analysis under subsection (F) to determine compliance of the sample with a fuel property, the registered supplier and independent laboratory shall use the same test methodology. The results of the analysis conducted by the registered supplier shall be used for certification of the Arizona CBG or AZRBOB under subsection (B), unless the absolute value of the difference between the two results is larger than one of the following:
    - a. Sulfur content: 25 ppm by weight,
    - b. Aromatics: 2.7% by volume,
    - c. Olefins: 2.5% by volume,
    - d. ~~Fuel ethanol~~ Ethanol: 0.4% by volume,
    - e. Isobutanol: 0.6% by volume,
    - f. Vapor pressure: 0.3 psi,
    - g. 50% distillation temperature: ASTM reproducibility for that sample using the slope from the registered supplier's results,
    - h. 90% distillation temperature: ASTM reproducibility for that sample using the slope from the registered supplier's results,

- i. E200: 2.5% by volume,
  - j. E300: 3.5% by volume, or
  - k. API gravity: 0.3° API.
2. If the absolute value of the difference between the results of the analyses conducted by the registered supplier and independent laboratory is larger than one of the values specified in subsection (H)(1), the registered supplier shall use one of the following for certification of the batch of Arizona CBG or AZRBOB under subsection (B):
- a. The larger of the two values for each fuel property, except the smaller of the two values shall be used for measures of oxygenates; or
  - b. Have a second independent laboratory analyze the Arizona CBG or AZRBOB for each fuel ~~property. If property; and if~~ the difference between the results obtained by the second independent laboratory and those obtained by the registered supplier are within the range listed in subsection (H)(1), the registered supplier's results shall be used for certifying the Arizona CBG or AZRBOB under subsection (B).

**R3-7-753. General Requirements for Pipelines and Third-party Terminals**

- A. A pipeline or third-party terminal shall not accept Arizona CBG or AZRBOB for transport unless:
- 1. The Arizona CBG or AZRBOB is physically transferred from an importer, refiner, CBG blender, oxygenate blender, pipeline, or third-party terminal registered with the Division under R3-7-750; and
  - 2. The registered supplier provides written verification that the gasoline is Arizona CBG or AZRBOB and complies with the standards in R3-7-751(A) or (B), as applicable, without reproducibility or numerical rounding.
- B. A pipeline or third-party terminal that transports Arizona CBG or AZRBOB shall collect a sample of each incoming batch. The pipeline or third-party terminal shall retain the sample for at least 30 days unless this time is extended for an individual sample for up to 180 days by the associate director.
- C. ~~A pipeline shall conduct quality control testing of Arizona CBG or AZRBOB at a frequency of at least one sample from one batch completing shipment for each supplier for each day each at each input location. A pipeline shall conduct quality control testing of Arizona CBG or AZRBOB at each input location. Testing shall consist of at least one sample for each registered supplier who completes a batch shipment at that input location on that day.~~
- D. A pipeline shall provide the associate director with a report summarizing the quality control testing results obtained under subsection (C) ~~within 10 days of the end of~~ by the 15th day of each month, for all results obtained during the previous month. The report shall contain the quantity of Arizona CBG or AZRBOB, date tendered, whether the Arizona CBG or AZRBOB was transported by pipeline, present sample location, and laboratory analysis results.
- E. If a batch does not meet the standards in R3-7-751(A) or (B), as applicable, but is within reproducibility, the pipeline shall notify the associate director by ~~fax or~~ e-mail within 48 hours of the batch volume and date tendered, proposed shipment date, whether the batch was transported by the pipeline, present batch location, and laboratory analysis results.
- F. If a batch does not meet the standards in R3-7-751(A) or (B), as applicable, including reproducibility, the pipeline or third-party terminal shall notify the associate director by ~~fax or~~ e-mail within 24 hours of the batch quantity and date tendered, proposed shipment date, whether the batch was transported by the pipeline, present batch location, and laboratory analysis results. If the batch is in the pipeline's or third-party terminal's control, the pipeline or third-party terminal shall prevent release of the batch from a distribution point until the batch is certified as meeting the standards in R3-7-751(A) or (B), as applicable.
- G. A pipeline or third-party terminal shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the pipeline's or third-party terminal's laboratory testing. The QA/QC program for a pipeline or third-party terminal shall include a description of the laboratory testing protocol used to verify that Arizona CBG or AZRBOB transported to the CBG-covered area meets the standards in R3-7-751(A) or (B). A pipeline or third-party terminal shall submit the QA/QC program to the associate director for approval at least three months before the pipeline or third-party terminal begins to transport Arizona CBG or AZRBOB. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the pipeline's or third-party terminal's laboratory testing produces data that are complete, accurate, and reproducible. If a pipeline or third-party terminal makes significant changes to the QA/QC program, the pipeline or third-party terminal shall resubmit the QA/QC program to the associate director for review and approval. Within 30 days of receiving the changed QA/QC program, the associate director shall determine whether the changed QA/QC program meets the quality objectives originally approved by the Division. The associate director shall approve the changed QA/QC program if it meets the quality objectives.
- H. A portion of a facility that a third-party terminal uses for production, import, or oxygenate blending is exempt from this Section, but the third-party terminal shall operate the exempt portion of the facility in compliance with requirements for registered suppliers in R3-7-752 and oxygenate blenders in R3-7-755, as applicable.
- I. A pipeline is not liable under R3-7-761 if it follows all of the procedures in this Section.

**R3-7-754. Downstream Blending Exceptions for Transmix**

- A. A pipeline or third-party terminal may blend transmix into Arizona CBG or AZRBOB at a rate not to exceed 1/4 of one percent by volume. Each pipeline or third-party terminal shall document the transmix blending (recording each batch and volume of transmix blended) and maintain the records at the third-party terminal for two years from the date of blending.
- B. One of two methods shall be used to measure the transmix as it is blended into the product stream:
- 1. Meters, calibrated at least twice each year; or

2. ~~Tank gauge as per American Petroleum Institute (API) Manual of Petroleum Measurement Standards, Chapters 3.1A (1st edition, December 1994) and 3.1B (1st edition, April 1992), incorporated by reference and on file with the Division. A copy may also be obtained at American Petroleum Institute, 1220 L St., N.W., Washington, D.C. 20005-4070. This incorporation by reference contains no future editions or amendments.~~ Tank gauge as per the API Manual of Petroleum Measurement Standards.

**R3-7-755. Additional Requirements for AZRBOB and ~~Downstream~~ Oxygenate Blending**

**A. Application of Arizona CBG standards to AZRBOB.**

~~1.~~ Determining whether AZRBOB complies with Arizona CBG standards.

~~a.1.~~ If a registered supplier designates a final blend as AZRBOB and complies with the provisions of this Section, the fuel properties and performance standards of the AZRBOB, for purposes of compliance with ~~Table 2 R3-7-751(C)~~, are determined by adding the specified type and amount of oxygenate to a representative sample of the AZRBOB and determining the fuel properties and performance standards of the resulting gasoline using the test methods in R3-7-759 or, in the case of ~~fuel~~ ethanol blends, certifying the AZRBOB using the CARBOB ~~model~~ Model, on a form or in a format prescribed by the associate director. If the registered supplier designates a range of amounts of oxygenate to be added to the AZRBOB, the minimum designated amount of oxygenate shall be added to the AZRBOB to determine the fuel properties and performance standards of the resulting Arizona CBG. If a registered supplier does not comply with this subsection, the Division shall determine whether the AZRBOB complies with applicable fuel properties and performance standards, excluding requirements for vapor pressure, without adding oxygenate to the AZRBOB.

~~b.2.~~ In determining whether AZRBOB complies with the Arizona CBG standards, the registered supplier shall ensure that the oxygenate added to the representative sample under subsection ~~(A)(1)(a)~~ (A)(1) is representative of the oxygenate the registered supplier reasonably expects will be subsequently added to the AZRBOB.

~~3.~~ The representative sample under subsection (A)(1) shall be prepared in accordance with ASTM D7717 or another test method approved by EPA or CARB.

~~2.4.~~ Calculating the volume of AZRBOB. If a registered supplier designates a final blend as AZRBOB and complies with this Section, the volume of AZRBOB is calculated for compliance purposes under R3-7-751 by adding the minimum amount of oxygenate designated by the registered supplier. If a registered supplier fails to comply with this subsection, the Division shall calculate the volume of AZRBOB for purposes of compliance with applicable fuel properties and performance standards without adding the amount of oxygenate to the AZRBOB.

**B. Restrictions on transferring AZRBOB.**

1. A person shall not transfer ownership or custody of AZRBOB to any other person unless the transferee notifies the transferor in writing that:

a. The transferee is a registered oxygenate blender and will add oxygenate in the type and amount (or within the range of amounts) designated in R3-7-757, or will recertify the AZRBOB under R3-7-755(F), before the AZRBOB is transferred from a final distribution facility; ~~or~~

b. The transferee will take all reasonably prudent steps necessary to ensure that the AZRBOB is transferred to a registered oxygenate blender that adds the type and amount (or within the range of amounts) of oxygenate designated in R3-7-757 to the AZRBOB, or recertifies the AZRBOB under R3-7-755(F), before the AZRBOB is transferred from a final distribution facility.

2. A person shall not sell or supply Arizona CBG from a final distribution facility if the type and amount or range of amounts of oxygenate designated in R3-7-757 have not been added to the AZRBOB, unless the final distribution facility recertifies the AZRBOB under R3-7-755(F).

**C. Restrictions on blending AZRBOB with other products. A person shall not combine AZRBOB supplied from the facility at which the AZRBOB is produced or imported with any other AZRBOB, gasoline, blendstock, or oxygenate, except for:**

1. Oxygenate in the type and amount (or within the range of amounts) specified by the registered supplier at the time the AZRBOB is supplied from the production or import facility unless the AZRBOB is recertified by an oxygenate blender under R3-7-755(F); ~~or~~

2. Other AZRBOB for which the same oxygenate type and amount (or range of amounts) is specified by the registered supplier at the time the AZRBOB is supplied from the production or import facility, except that AZRBOB certified for the addition of 10% ethanol may be combined with AZRBOB certified for the addition of more than 10 but no more than 15 volume percent ethanol.

~~3.~~ A registered oxygenate blender may utilize an oxygenate type other than the one specified by the registered supplier provided all the requirements of R3-7-751, R3-7-752, R3-7-755, and R3-7-759 are demonstrated with the addition of the different oxygenate type.

**~~D.~~ Quality assurance sampling and testing requirements for a registered supplier supplying AZRBOB from a production or import facility. A registered supplier supplying AZRBOB from a production or import facility shall use an independent third party quality assurance sampling and testing program as described in subsection (E) or conduct a quality assurance sampling and testing program that meets the requirements of 40 CFR 80.69(a)(7), as it existed on July 1, 1996, except for the changes listed in subsections (D)(1) through (3). 40 CFR 80.69(a)(7), July 1, 1996, is incorporated by reference and on file with the Division. A copy may be obtained at the Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov. The material incorporated includes no future editions or amendments.**

- ~~1. 40 CFR 80.69(a)(7). The word "RBOB" is changed to read "AZRBOB";~~
- ~~2. 40 CFR 80.69(a)(7). "...using the methodology specified in § 80.46..." is changed to read "...using the methodology specified in R3-7-759..." and~~
- ~~3. 40 CFR 80.69(a)(7)(ii). "(within the correlation ranges specified in § 80.65(c)(2)(i))" is changed to read "(within the ranges of the applicable test methods)";~~

~~D. Survey for oxygenate blending during the winter. A registered supplier supplying AZRBOB from a production or import facility shall conduct an oxygenate blending survey program that meets the requirements of R3-7-760(A) or use an independent third-party to conduct an oxygenate blending survey program that meets the requirements in R3-7-760(B).~~

~~E. General requirements for an independent third-party quality assurance sampling and testing program. A registered supplier may contract with an independent third party that conducts a quality assurance sampling and testing program for one or more registered suppliers. The registered supplier shall ensure that the quality assurance sampling and testing program:~~

- ~~1. Is designed and conducted by a third party that is independent of the registered supplier. To be considered independent:
  - ~~a. The third party shall not be an employee of a registered supplier;~~
  - ~~b. The third party shall not have an obligation to or interest in any registered supplier, and~~
  - ~~c. The registered supplier shall not have an obligation to or interest in the third party;~~~~
- ~~2. Is conducted from November 1 through March 31 on all samples collected under the program design previously approved by the associate director under subsection (G);~~
- ~~3. Involves sampling and testing that is representative of all Arizona CBG dispensed in the CBG covered area;~~
- ~~4. Analyzes each sample for oxygenate according to the methodologies specified in R3-7-759;~~
- ~~5. Bases results on an analysis of each sample collected during the sampling period unless a specific sample does not comply with the applicable per gallon maximum or minimum standards for the fuel property being evaluated in addition to any reproducibility applicable to the fuel property;~~
- ~~6. Participates in a correlation program with the associate director to ensure the validity of analysis results;~~
- ~~7. Does not provide advance notice, except as provided in subsection (F), of the date or location of any sampling;~~
- ~~8. Provides a duplicate of any sample, with information regarding where and the date on which the sample was collected, upon request of the associate director, within 30 days after submitting the report required under subsection (E)(10);~~
- ~~9. Permits a Division official to monitor sample collection, transportation, storage, and analysis at any time; and~~
- ~~10. Prepares and submits a report to the associate director within 30 days after the sampling is completed that includes the following information:
  - ~~a. Name of the person collecting the samples;~~
  - ~~b. Attestation by an officer of the third party that the sampling and testing was done according to the program plan approved by the associate director under subsection (G) and the results are accurate;~~
  - ~~c. Identification of the registered supplier for whom the sampling and testing program was conducted if the sampling and testing program was conducted for only one registered supplier;~~
  - ~~d. Identification of the area from which the samples were collected;~~
  - ~~e. Address of each motor fuel dispensing site from which a sample was collected;~~
  - ~~f. Dates on which the samples were collected;~~
  - ~~g. Results of the analysis of the samples for oxygenate type and oxygen weight percent, aromatic hydrocarbon, and olefin content, E200, E300, and vapor pressure, and the calculated VOC or NOx emissions reduction percentage, as applicable;~~
  - ~~h. Name and address of each laboratory at which the samples were analyzed;~~
  - ~~i. Description of the method used to select the motor fuel dispensing sites from which a sample was collected;~~
  - ~~j. Number of samples collected at each motor fuel dispensing site; and~~
  - ~~k. Justification for excluding a collected sample if one was excluded.~~~~

~~E. Requirements for oxygenate blenders.~~

- ~~1. Requirement to add oxygenate to AZRBOB. If an oxygenate blender receives AZRBOB from a transferor to whom the oxygenate blender represents that oxygenate will be added to the AZRBOB, the oxygenate blender shall add oxygenate to the AZRBOB in the type and amount (or within the range of amounts) identified in the documentation accompanying the AZRBOB except as provided under R3-7-755(F).~~
- ~~2. Additional requirements for oxygenate blending at terminals. An oxygenate blender that makes Arizona CBG by blending oxygenate with AZRBOB in a motor fuel storage tank, other than a truck used to deliver motor fuel to a retail outlet or bulk-purchaser consumer facility, shall determine the oxygen content and volume of the Arizona CBG before shipping, by collecting and analyzing a representative sample of the Arizona CBG, using the methodology in R3-7-759.~~
- ~~3. Additional requirements for oxygenate blending in trucks. An oxygenate blender that blends AZRBOB in a motor fuel delivery truck shall conduct a quality assurance sampling and testing program to determine whether the proper type and amount of oxygenate is added to AZRBOB. The program shall be conducted as follows:
  - ~~a. All samples shall be collected subsequent to the addition of oxygenate and prior to combining the resulting gasoline with any other gasoline;~~
  - ~~b. Sampling and testing shall be done at one of the following rates:~~~~

- c. Within 15 days of the associate director's written request, an oxygenate blender shall provide any records maintained by the oxygenate blender under this Section. If the oxygenate blender fails to provide records requested for a blend or shipment of Arizona CBG, the associate director shall deem that the blend or shipment of Arizona CBG violates R3-7-751 unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards and limits under R3-7-751.
7. Notification requirement. An oxygenate blender shall notify the associate director by e-mail before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.
8. Quality assurance and quality control ("QA/QC") program. An oxygenate blender that conducts sampling and testing under subsection (E) in the oxygenate blender's own laboratory shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the oxygenate blender's sampling and testing of Arizona CBG or AZRBOB. The oxygenate blender shall submit the QA/QC program to the associate director for approval before transporting Arizona CBG. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the oxygenate blender's sampling and testing produces data that are complete, accurate, and reproducible. Instead of developing a QA/QC program, an oxygenate blender may comply with the independent testing requirements of R3-7-752(F), except that, for sampling and testing conducted under subsection (E)(3), the minimum number of samples collected and tested by the independent laboratory shall be 10% of the number of samples required to be collected and tested under subsection (E).
9. An oxygenate blender that does not conduct laboratory sampling and testing required under subsection (E) in its own laboratory shall designate an independent laboratory, as described in R3-7-752(F), to conduct the sampling and testing required under subsection (E)(8).
10. Within 24 hours of the associate director's or designee's written request, an oxygenate blender shall submit a duplicate of any sample collected under subsection (E)(8).
- ~~F. An independent third party that contracts with one or more registered suppliers to conduct a quality assurance sampling and testing program shall begin the sampling on the date selected by the associate director. The associate director shall inform the third party of the date selected at least 10 business days before sampling is to begin.~~
- F. Downstream AZRBOB or Arizona CBG Recertification. If a registered supplier has specified blending instructions for oxygenate(s) under R3-7-752 and R3-7-755(A), an oxygenate blender may recertify AZRBOB for a different type or amount of oxygenate. The oxygenate blender is exempt from the requirements to register as a registered supplier and certify the finished Arizona CBG under R3-7-751(C) and (D), and R3-7-752, if the recertifying oxygenate blender:
1. Only recertifies AZRBOB to contain a greater amount of a specified oxygenate (e.g. the oxygenate blender adds 15 volume percent ethanol to a batch certified for the addition of 10 volume percent ethanol) or a different oxygenate at an equal or greater amount (e.g. the oxygenate blender adds 16 volume percent isobutanol to a batch certified for 10 volume percent ethanol);
  2. Issues product transfer documentation that includes the information for the recertified gasoline contained in R3-7-757, unless the recertified gasoline is blended and dispensed at a motor fuel dispensing site or fleet vehicle fueling facility;
  3. Meets the requirements applicable to oxygenate blenders in R3-7-755(E); and
  4. Uses oxygenates meeting the requirements of R3-7-708(B) or (C), or ethanol flex fuel that meets the requirements of R3-7-708(E) to blend with AZRBOB or Arizona CBG.
- ~~G. To obtain the associate director's approval of an independent third party quality assurance sampling and testing program plan, the person seeking the approval shall:~~
- ~~1. Submit the plan to the associate director no later than January 1 to cover the sampling and testing period from November 1 through March 31 of each year, and~~
  - ~~2. Have the plan signed by an officer of the third party that will conduct the sampling and testing program.~~
- G. Upon request, on a form or in a format prescribed by the associate director, an oxygenate blender shall report to the Division the volume of Arizona CBG recertified, including the types and amounts of oxygenate added. The report shall be submitted to the Division within 15 days of the request.
- ~~H. No later than September 1 of each year, a registered supplier that intends to meet the requirements in subsection (D) by contracting with an independent third party to conduct quality assurance sampling and testing from November 1 through March 31 shall enter into the contract and pay all of the money necessary to conduct the sampling and testing program. The registered supplier may pay the money necessary to conduct the sampling and testing program to the third party or to an escrow account with instructions to the escrow agent to release the money to the third party as the testing program is implemented. No later than September 15, the registered supplier shall submit to the associate director a copy of the contract with the third party, proof that the money necessary to conduct the sampling and testing program has been paid, and, if applicable, a copy of the escrow agreement.~~
- ~~I. Requirements for oxygenate blenders:~~
- ~~1. Requirement to add oxygenate to AZRBOB. If an oxygenate blender receives AZRBOB from a transferor to whom the oxygenate blender represents that oxygenate will be added to the AZRBOB, the oxygenate blender shall add oxygenate to the AZRBOB in the type and amount (or within the range of amounts) identified in the documentation accompanying the AZRBOB.~~
  - ~~2. Additional requirements for oxygenate blending at terminals. An oxygenate blender that makes Arizona CBG by blending oxygenate with AZRBOB in a motor fuel storage tank, other than a truck used to deliver motor fuel to a retail outlet or~~

- bulk-purchaser-consumer-facility, shall determine the oxygen content and volume of the Arizona CBG before shipping, by collecting and analyzing a representative sample of the Arizona CBG, using the methodology in R3-7-759.
3. ~~Additional requirements for oxygenate blending in trucks. An oxygenate blender that blends AZRBOB in a motor fuel delivery truck shall conduct quality assurance sampling and testing that meets the requirements in 40 CFR 80.69(e)(2), as it existed on July 1, 1996, except for the changes listed in subsections (I)(3)(a) through (c). 40 CFR 80.69(e)(2), July 1, 1996, is incorporated by reference and on file with the Division. A copy may be obtained at the Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov. The material incorporated includes no future editions or amendments.~~
    - a. ~~40 CFR 80.69(e)(2). The word "RBOB" is changed to read "AZRBOB;"~~
    - b. ~~40 CFR 80.69(e)(2)(iv). "... using the testing methodology specified at § 80.46 ..." is changed to read "... using the testing methodology specified in R3-7-759..." and~~
    - e. ~~40 CFR 80.69(e)(2)(v). "(within the ranges specified in § 80.70(b)(2)(I))" is changed to read "(within the ranges of the applicable test methods)."~~
  4. ~~Additional requirements for in-line oxygenate blending in pipelines using computer-controlled blending.~~
    - a. ~~An oxygenate blender that produces Arizona CBG by blending oxygenate with AZRBOB into a pipeline using computer-controlled in-line blending shall, for each batch of Arizona CBG produced:~~
      - i. ~~Obtain a flow proportional composite sample after the addition of oxygenate and before combining the resulting Arizona CBG with any other Arizona CBG;~~
      - ii. ~~Determine the oxygen content of the Arizona CBG by analyzing the composite sample within 24 hours of blending using the methodology in R3-7-759; and~~
      - iii. ~~Determine the volume of the resulting Arizona CBG.~~
    - b. ~~If the test results for the Arizona CBG indicate that it does not contain the amount of oxygenate specified by the ranges of the applicable test methods, the oxygenate blender shall:~~
      - i. ~~Notify the pipeline to downgrade the Arizona CBG to conventional gasoline or transmix upon arrival in Arizona;~~
      - ii. ~~Begin an investigation to determine the cause of the noncompliance;~~
      - iii. ~~Collect a representative sample every two hours during each in-line blend of AZRBOB and oxygenate, and analyze the samples within 12 hours of collection, until the cause of the noncompliance is determined and corrected; and~~
      - iv. ~~Notify the associate director in writing within one business day that the Arizona CBG does not comply with the requirements of this Article.~~
    - e. ~~The oxygenate blender shall comply with subsection (I)(4)(b)(iii) until the associate director determines that the corrective action has remedied the noncompliance.~~
  5. ~~Recordkeeping and records retention.~~
    - a. ~~An oxygenate blender shall maintain, for five years from the date of each sampling, records of the following:~~
      - i. ~~Sample date;~~
      - ii. ~~Identity of blend or product sampled;~~
      - iii. ~~Container or other vessel sampled;~~
      - iv. ~~Volume of final blend or shipment;~~
      - v. ~~Oxygen content as determined under R3-7-759; and~~
      - vi. ~~Results from all testing.~~
    - b. ~~The associate director shall deem that Arizona CBG blended by an oxygenate blender and not tested and documented as required by this Section has an oxygen content that exceeds the standards specified in R3-7-751 or exceeds the comparable PM averaging limits, if applicable, unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards in R3-7-751.~~
    - e. ~~Within 20 days of the associate director's written request, an oxygenate blender shall provide any records maintained by the oxygenate blender under this Section. If the oxygenate blender fails to provide records requested for a blend or shipment of Arizona CBG, the associate director shall deem that the blend or shipment of Arizona CBG violates R3-7-751 or exceeds the comparable PM averaging limits, if applicable, unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards and limits under R3-7-751.~~
  6. ~~Notification requirement. An oxygenate blender shall notify the associate director by fax or e-mail before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.~~
  7. ~~Quality assurance and quality control (QA/QC) program. An oxygenate blender that conducts sampling and testing under subsection (I) in the oxygenate blender's own laboratory shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the oxygenate blender's sampling and testing of Arizona CBG or AZRBOB. The oxygenate blender shall submit the QA/QC program to the associate director for approval at least three months before transporting Arizona CBG. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the oxygenate blender's sampling and testing produces data that are complete, accurate, and reproducible. Instead of developing a QA/QC program, an oxygenate blender may comply with the independent testing requirements of R3-7-752(F), except that, for sampling and testing conducted under subsection (I)(3), the minimum number of samples collected and tested by the independent laboratory shall be 10% of the number of samples required to be collected and tested under subsection (I).~~

- ~~8. An oxygenate blender that does not conduct laboratory sampling and testing required under subsection (I) in its own laboratory shall designate an independent laboratory, as described in R3-7-752(F), to conduct the sampling and testing required under subsection (I)(7).~~
- ~~9. Within 24 hours of the associate director's or designee's written request, an oxygenate blender shall submit a duplicate of any sample collected under subsection (I)(7).~~
- ~~J. Subsection (A)(1)(a) will not become effective until Arizona's revised State Implementation Plan submitted by ADEQ to EPA in August 2013 and subsequent supplement submitted July 2014 is approved by EPA.~~

**R3-7-756. Downstream Blending of Arizona CBG with Nonoxygenate Blendstocks**

- A. A person shall not combine Arizona CBG supplied from a production or import facility with any nonoxygenate blendstock, other than vapor recovery condensate, unless ~~the person demonstrates to the associate director: the resulting gasoline blend meets the requirements in ASTM D4814 and is not used within the CBG-covered area.~~
- ~~1. The blendstock added to the Arizona CBG meets all of the Arizona CBG standards regardless of the fuel properties and performance standards of the Arizona CBG to which the blendstock is added;~~
- ~~2. The person meets the requirements in this Article applicable to producers of Arizona CBG; and~~
- ~~3. The resulting fuel blend is not used within the CBG-covered area.~~
- B. Notwithstanding subsection (A), a person may add nonoxygenate blendstock to a previously certified batch or mixture of certified batches of Arizona CBG that does not comply with one or more of the applicable per-gallon standards contained in R3-7-751(A) or (B) if the person obtains prior written approval from the associate director based on a demonstration that adding the blendstock will bring the previously certified Arizona CBG into compliance with the applicable per-gallon standards for Arizona CBG. The oxygenate blender or registered supplier shall certify the re-blended Arizona CBG to the Division, on a form or in a format prescribed by the associate director.

**R3-7-757. Product Transfer Documentation; Records Retention**

- A. If a person transfers custody or title to Arizona CBG or AZRBOB, other than when Arizona CBG is sold or dispensed at a motor fuel dispensing site or fleet vehicle fueling facility, the transferor shall provide to the transferee documents that include the following:
1. Volume of Arizona CBG or AZRBOB being transferred;
  2. Location of the Arizona CBG or AZRBOB at the time of transfer;
  3. Date of the transfer;
  4. Product transfer document number;
  5. Identification of the gasoline as Arizona CBG or AZRBOB;
  6. Minimum octane rating of the Arizona CBG or AZRBOB;
  7. For ~~oxygenated~~ Arizona CBG that contains an oxygenate designated for sale for use in motor vehicles from November 1 through March 31, the type and minimum quantity of oxygenate contained in the Arizona CBG, a legible and conspicuous statement that the gasoline being transferred contains an oxygenate and lists the type and percentage concentration of the oxygenate;
  8. If the product transferred is AZRBOB for which oxygenate blending is intended:
    - a. Identification of the fuel as AZRBOB and a statement that the "AZRBOB does not comply with the standards for Arizona CBG without the addition of oxygenate";
    - b. Oxygenate type or types and amount or range of amounts that the AZRBOB requires to meet the fuel properties or performance standards claimed by the registered supplier of the AZRBOB, and the applicable specifications for volume percent of oxygenate and weight percent oxygen content; and
    - c. Instructions to the transferee that the AZRBOB may not be combined with any other AZRBOB unless the other AZRBOB has the same requirements for oxygenate type or types and amount or range of amounts; and
  9. The final destination:
    - a. When a terminal is the transferor, the owner or the operator of shall include on the product transfer document the terminal name and address and the transporter name and address;
    - b. When a transporter is the transferor, the transporter shall include on the product transfer document the name and address of the transporter and the final destination, which is the location at which the motor fuel will be delivered and off loaded from the truck; and
    - c. When a jobber or marketer is the transferor, the jobber or marketer shall include on the product transfer document the name and address of the jobber or marketer and the final destination, which may be a final distribution facility or a motor fuel dispensing site.
- B. To enable a transferor to comply fully with the requirement in subsection (A)(9), the transferee shall supply to the transferor information regarding the final destination.
- C. A registered supplier, third-party terminal, or pipeline may comply with subsection (A) by using standardized product codes on pipeline tickets if the codes are specified in a manual distributed by the pipeline to transferees of the Arizona CBG or AZRBOB, and the manual includes all required information for the Arizona CBG or AZRBOB.

- D. Any transferee in subsection (A), other than a registered supplier, oxygenate blender, third-party terminal, pipeline, motor fuel dispensing site, or fleet vehicle fueling facility shall retain product transfer documents for each shipment of Arizona CBG or AZRBOB transferred during the 24 months before the most recent transfer. The transferee shall maintain product transfer documents for the 30 days before the most recent transfer at the business address listed on the product transfer document. The transferee may maintain all remaining product transfer documents for the preceding 24 months elsewhere.
- E. A motor fuel dispensing site or fleet vehicle fueling facility shall retain product transfer documents for each shipment of Arizona CBG transferred during the 12 months before the most recent transfer. The motor fuel dispensing site or fleet vehicle fueling facility shall maintain product transfer documents for the three most recent transfers on the premises. The motor fuel dispensing site or fleet vehicle fueling facility may maintain the remaining product transfer documents for the preceding 12 months elsewhere.
- F. A registered supplier, oxygenate blender, third-party terminal, or pipeline shall retain product transfer documents for each shipment of Arizona CBG or AZRBOB transferred during the 60 months before the most recent transfer. The transferee shall maintain product transfer documents for each shipment of Arizona CBG or AZRBOB transferred during the 30 days preceding the most recent transfer at the business address listed on the product transfer document. The transferee may maintain all remaining product transfer documents for the preceding 60 months elsewhere.
- ~~G. When a person transfers custody or title of an oxygenate that is intended for use in AZRBOB or Arizona CBG, the person shall provide the transferee a document that prominently states that the oxygenate complies with the standards for an oxygenate intended for use in AZRBOB or Arizona CBG.~~
- H.G.** Upon request by the associate director or designee, a person shall present product transfer documents to the Division within two ~~working~~ business days of the request. Legible photocopies or electronic copies of the product transfer documents are acceptable.

**R3-7-759. Testing Methodologies**

- A. Except as provided in subsection (C), a registered supplier ~~or importer~~ certifying Arizona CBG or AZRBOB as meeting the requirements of this Article shall use one of the EPA- or CARB-approved ASTM methods listed in Table A. ~~A, a copy of the EPA- or CARB-approved ASTM methods which~~ may be obtained at: ASTM International (formerly American Society for Testing and Materials), 100 Bar Harbor Drive, West Conshohocken, PA 19428-2959 or www.astm.org. A copy of the CARB methods may be obtained at: California Air Resources Board, P.O. Box 2815, Sacramento, CA 95812 or www.arb.ca.gov.
- B. An oxygenate blender or third-party terminal certifying Arizona CBG or AZRBOB before transport to the CBG-covered area shall measure the oxygenate content in accordance with the oxygenate blender's or third-party terminal's approved QA/QC program or in accordance with one of the methods listed in Table A.
- C. Rather than using a method listed in Table A to certify Arizona CBG or AZRBOB, a registered supplier may use the CARBOB Model and use the fuel-quality measures calculated using the CARBOB Model for compliance and reporting purposes.
- ~~D. A test method that the Division determines is equivalent to those listed in Table A may be used to certify Arizona CBG or AZRBOB. The Division has determined that test methods approved by either the EPA or CARB are equivalent test methods. To determine whether a proposed test method is equivalent to those listed in Table A, the Division shall thoroughly review data from both the proposed and designated test methods and assess whether the accuracy and precision of the proposed method is equal to or better than the accuracy and precision of the designated method and whether there is significant bias between the two methods. The Division shall approve a proposed test method only if the Division determines that the accuracy and precision of the proposed test method is equal to or better than the accuracy and precision of the designated method and receives the concurrence of the EPA Regional Administrator. A correlation equation may be required to align the two methods. If a correlation equation is required to align the two methods, the correlation equation becomes part of the equivalent method.~~
- D. A test method that the Division determines is equivalent to those listed in Table A may be used to certify Arizona CBG or AZRBOB. The Division has determined that test methods approved by either EPA methodology described in 40 CFR 1090.1360 or CARB are equivalent test methods. EPA referee methods from 40 CFR 80.47 as it existed December 31, 2020, may be used if the tested property is not listed in 40 CFR 1090.1360. If a correlation equation is required by EPA, CARB, or the ASTM test method, the correlation equation shall be used to align the test methods, and becomes part of the equivalent test method.
- E. Subsections (C) and (D) will not become effective until Arizona's revised State Implementation Plan submitted by ADEQ to EPA in August 2013 and subsequent supplement submitted July 2014 is approved by EPA.

**Table A. Arizona Weights and Measures Services Division Test Methods for Arizona CBG and AZRBOB**

Fuel Parameter	Units	EPA approved Test Method	EPA approved Reproducibility	CARB approved Test Method	CARB approved Reproducibility
Aromatics	V%	D5769-04			
	V%	D1319-02a (2003)A	1.65	D5580-00	1.4
Benzene	V%	D3606-99 (2007)	0.21	D5580-00	0.1409 (X) 1.133
Olefins	V%	D1319-02a (2003)	0.32 (x)0.5	D6550-00 (2005) if correlated to D1319	0.32 (X) 0.5; Foot-note 1

<p><sup>A</sup>A refinery refiner, blender, or importer may determine aromatics content using ASTM D1319-02a (2003) D1319-20a if the result is correlated to ASTM D5769-98 (2004) D5769-20.</p> <p><sup>B</sup>A refinery refiner, blender, or importer may determine oxygenate content using ASTM D4815-99 (2004) if the result is correlated to ASTM D5599-00 (2005).</p> <p>Footnotes:</p> <p>1. Replace the last sentence in ASTM D6550-00 (2005) Section 1.1 with the following: "The application range is from 0.3 to 25 mass percent total olefin, as defined in Section 2263(b), Title 13, California Code of Regulations. If olefin concentrations are not detected, substitute one-half of the detection limit."</p> <p>2. When determining vapor pressure, the only correlation equation to be used is equation 1 in ASTM D5191-07, Section 14.2, ASTM equation ((.965X)-A).</p>					

**Table A. Arizona Weights and Measures Services Division Test Methods for Arizona CBG and AZRBOB.**

Fuel Parameter	Units	Approved Test Methods
Aromatics	V%	D1319-20a, D5769-20, D5580-02 (2007)
Benzene	V%	D3606-21, D5580-02 (2007)
Olefins	V%	D1319-20a, D6550-10 (2010)Footnote 1, D8071-21
Oxygenates	W%	D4815-09 (2009), D4815-15b (2019), D5599-18
Vapor Pressure (Correlation Equation)	psi	D5191-20Footnote 2, 13 CCR Section 2297
Sulfur	wppm	D2622-21, D5453-93 (1993)
Distillation T50	°F	D86-99ae1, D86-20b
Distillation T90	°F	D86-99ae1, D86-20b
<p>Footnotes:</p> <p>1. Replace the last sentence in ASTM D6550-00 (2010) Section 1.1 with the following: "The application range is from 0.3 to 25 mass percent total olefin, as defined in Section 2263(b), Title 13, California Code of Regulations. If olefin concentrations are not detected, substitute one-half of the detection limit."</p> <p>2. When determining vapor pressure, the only correlation equation to be used is equation 1 in ASTM D5191-20, Section 14.2, ASTM equation ((.965X)-A).</p>		

### R3-7-760. Compliance Surveys

- ~~A. A registered supplier that elects to certify that Arizona CBG or AZRBOB meets an averaging standard under R3-7-751 shall ensure that compliance surveys are conducted in accordance with a compliance survey program plan approved by the associate director. The associate director shall approve a compliance survey program plan if it:~~
- ~~1. Consists of at least four VOC and NO<sub>x</sub> surveys conducted at least one per month between May 1 through September 15 of each year, and~~
  - ~~2. Complies with subsection (J).~~
- A. A registered supplier shall conduct surveys for oxygenate blending during the winter and a compliance survey during the summer. The winter survey shall be conducted following the requirements in subsection (A), or using an independent third-party surveyor following the requirements in subsections (B) and (D). The summer survey shall be conducted following the requirements in subsection (C), or using an independent third-party surveyor following the requirements in subsections (C) and (D). Surveys for oxygenate blending during the winter: A registered supplier supplying AZRBOB from a production or import facility shall conduct an oxygenate blending survey program to be carried out at the facilities of each oxygenate blender who blends any AZRBOB produced or imported by the refiner or importer with any oxygenate, to determine whether the Arizona CBG, which has been produced through blending, complies with the applicable standards using the methodology specified in R3-7-759. The sampling and testing program shall be conducted as follows:
1. Samples shall be collected in accordance with ASTM D4057 and be analyzed for oxygenates. All samples shall be collected subsequent to the addition of oxygenate and prior to combining the resulting gasoline with any other gasoline.
  2. Sampling and testing shall be at one of the following rates, regardless of the amount of oxygenate added:
    - a. In the case of AZRBOB which is blended with oxygenate in a gasoline storage tank, a rate of not less than one sample for every 400,000 barrels of AZRBOB produced or imported by that refiner or importer that is blended by that oxygenate blender, or one sample every month, whichever is more frequent;
    - b. In the case of AZRBOB which is blended with oxygenate in gasoline delivery trucks through the use of computer-controlled in-line blending equipment, a rate of not less than one sample for every 200,000 barrels of AZRBOB produced or imported by that refiner or importer that is blended by that oxygenate blender, or one sample every three months, whichever is more frequent; or
    - c. In the case of AZRBOB which is blended with oxygenate in gasoline delivery trucks without the use of computer-controlled in-line blending equipment, a rate of not less than one sample for each 50,000 barrels of AZRBOB produced or imported by that refiner or importer which is blended, or one sample per month, whichever is more frequent.
  3. In the event that the test results for any sample indicate the gasoline does not comply with applicable standards, including reproducibility, the refiner or importer shall:
    - a. Immediately take steps to stop the sale of the gasoline that was sampled;
    - b. Take steps which are reasonably calculated to determine and correct the cause of the noncompliance;
    - c. Increase the rate of sampling and testing to double the required frequency outlined in subsection (A)(2); and
    - d. Continue the increased frequency of sampling and testing until the results of ten consecutive samples and tests indicate the gasoline complies with applicable standards, at which time the sampling and testing may be conducted at the original frequency.
  4. This survey program conducted by a registered supplier shall be conducted in addition to any survey requirements carried out under this subsection by other registered suppliers.
- ~~B. If a registered supplier fails to ensure that an approved compliance survey program is conducted, the associate director shall issue an order requiring the registered supplier to comply with all applicable fuel property and performance standards on a per-gallon basis for six months or through the end of the survey period identified in subsection (A)(1), whichever is longer. Regardless of when a failure to survey occurs, the associate director's order shall require compliance with per-gallon standards from the beginning of the survey period during which the failure to survey occurs.~~
- B. Instead of conducting the oxygenate blending survey program in subsection (A), the registered supplier may use an independent third-party surveyor to conduct a winter oxygenate blending survey that meets the following requirements:
1. Designed and conducted by an independent third-party surveyor that meets the requirements of subsection (D)(2)(a);
  2. Conducted November 1 through March 31 on all samples collected under the program design approved by the associate director under subsection (D);
  3. Involves sampling and testing that is representative of all Arizona CBG dispensed in the CBG-covered area, including a representative number of E15 samples;
  4. Analyzes each sample for oxygenate according to the methodologies specified in R3-7-759;
  5. Collects samples of gasoline produced at blender pumps using "Method #1" of the E15 Sampling Procedure specified in Handbook 158;
  6. Verifies compliance of E15 labeling requirements at gasoline retail outlets that offer E15 for sale; and
  7. Includes a sufficient amount of samples to ensure that the average levels of oxygen is determined at a 95% confidence level with an error of 0.1% or less for oxygen by weight.
- ~~C. General compliance survey requirements. A registered supplier shall ensure that a compliance survey conforms to the following:~~

- ~~1. Consists of all samples that are collected under an approved survey program plan during any consecutive seven days and that are not excluded under subsection (C)(4);~~
- ~~2. Is representative of all Arizona CBG being dispensed in the CBG-covered area as provided in subsection (G);~~
- ~~3. Analyzes each sample included in the compliance survey for oxygenate type and content, olefins, sulfur, aromatic hydrocarbons, E200, E300, and vapor pressure according to the test methods in R3-7-759. Vapor pressure is required to be analyzed only from May 1 through September 15;~~
- ~~4. Bases the results of the compliance survey upon an analysis of each sample collected during the course of the compliance survey, unless a sample does not comply with the applicable per gallon maximum or minimum fuel property standard being evaluated in addition to any reproducibility that applies to the fuel property standard; and~~
- ~~5. If a laboratory analyzes the compliance survey samples, the laboratory participates in a correlation program with the associate director to ensure the validity of analysis results;~~

C. Summer Compliance Surveys. A registered supplier shall ensure that compliance surveys are conducted in accordance with a compliance survey program plan approved by the associate director. A registered supplier may use an independent third-party surveyor as outlined in subsection (D) to conduct a summer compliance survey. The associate director shall approve a compliance survey program plan if the plan:

1. Consists of at least four VOC and NOx surveys conducted at least once per month between June 1 and September 30 of each year;
2. Consists of all samples that are collected under an approved survey program plan during any consecutive seven days;
3. Is representative of all Arizona CBG being dispensed in the CBG-covered area including a representative number of E15 samples;
4. Includes enough samples to ensure that the average levels of oxygen, vapor pressure, aromatic hydrocarbons, olefins, T50, T90, and sulfur are determined at a 95% confidence level with an error of:
  - a. 0.1% or less for oxygen by weight;
  - b. 0.1 psi for vapor pressure;
  - c. 0.5% for aromatic hydrocarbons by volume;
  - d. 0.5% for olefins by volume;
  - e. 5° F for T50 and T90; and
  - f. 10 ppm for sulfur.
5. Analyzes each sample included in the compliance survey for oxygenate type and content, olefins, sulfur, aromatic hydrocarbons, E200, E300, and vapor pressure according to the test methods in R3-7-759 (vapor pressure is required to be analyzed only from June 1 through September 30); and
6. If a laboratory analyzes the compliance survey samples, the laboratory participates in a correlation program approved by the associate director to ensure the validity of analysis results.
7. For each compliance survey sample, determine the VOC and NOx emissions reduction percentage based upon the tested fuel properties for that sample using the methodology for calculating VOC and NOx emissions reductions under the Federal Complex Model.

~~D. If the associate director determines that a sample used in a compliance survey does not comply with R3-7-751 or another requirement under this Article, the associate director shall take enforcement action against the registered supplier.~~

D. An independent third-party surveyor may conduct the winter oxygenate blending survey outlined in subsection (B) and the summer compliance survey outlined in subsection (C), if the survey program:

1. Is approved by the associate director;
2. Is designed and conducted by a third-party surveyor that is independent of the registered supplier:
  - a. To be considered independent:
    - i. The surveyor shall not be an employee of any registered supplier;
    - ii. The surveyor shall not have an obligation to, or interest in, any registered supplier; and
    - iii. The registered supplier shall not have an obligation to or interest in the surveyor.
3. Requires that the surveyor not provide advance notice, except as provided in subsection (D)(8), of the date or location of any survey sampling;
4. Provides a duplicate of any sample taken during the survey to the associate director, upon request of the associate director within 30 days following submission of the survey report required under subsection (D)(7), including:
  - a. Information regarding the name and address of the facility from where the sample was collected, and
  - b. The date of collection;
5. Requires that the surveyor permit a Division official to monitor sample collection, transportation, storage, and analysis at any time;
6. Requires the laboratory to participate in a correlation program approved by the associate director to ensure the validity of analysis results;
7. Requires the surveyor to submit a report of each survey to the associate director within 30 days after sampling is completed, including the following information:
  - a. Name of the person conducting the survey;

- b. Attestation by an officer of the surveyor that the sampling and testing was conducted according to the compliance survey program plan and the results are accurate;
  - c. Identification of the registered supplier for whom the compliance survey was conducted if the compliance survey was conducted for only one registered supplier;
  - d. Identification of the area from which survey samples were selected;
  - e. Dates on which the survey was conducted;
  - f. Address of each facility at which a sample was collected, and the date of collection;
  - g. Name and address of each laboratory at which samples were analyzed;
  - h. Description of the method used to select the facilities from which a sample was collected;
  - i. Number of samples collected from each facility;
  - j. Justification for excluding a collected sample from the survey, if one was excluded; and
  - k. For a survey conducted under subsection (A), analyzes each sample for oxygenate according to the methodologies specified in R3-7-759; or
  - l. For a survey conducted under subsection (C), results of the sample analysis for oxygenate type, oxygen weight percent, aromatic hydrocarbons, olefin content, E200, E300, vapor pressure, and the calculated VOC or NOx emissions reduction percentage, as applicable, for each survey conducted during the period identified in subsection (C)(1);
8. Begins each survey on a date selected by the associate director, or as approved in the survey program. The associate director shall notify the surveyor of the date selected at least 10 days before the survey is to begin.
- E. A registered supplier shall comply with the following VOC and NOx compliance survey requirements: To obtain the associate director's approval of a survey program plan, the person seeking approval shall:
- 1. For each compliance survey sample, determine the VOC and NOx emissions reduction percentage based upon the tested fuel properties for that sample using the methodology for calculating VOC and NOx emissions reductions at 40 CFR 80.45, as incorporated by reference in R3-7-702; Submit the plan to the associate director no later than January 1 to cover the survey period of November 1 through March 31 or June 1 through September 15 of each year, as applicable; and
  - 2. The CBG-covered area fails a VOC compliance survey if the VOC emissions reduction percentage average of all samples collected during the compliance survey is less than the per-gallon standard for VOC emissions reduction percentage in Table 1, column A. Have the plan signed by a corporate officer of the registered supplier or by an officer of the independent third-party surveyor.
  - 3. The CBG-covered area fails a NOx compliance survey if the NOx emissions reduction percentage average of all samples collected during the compliance survey is less than the per-gallon standard for NOx emissions reduction percentage in Table 1, column A.
- F. A registered supplier shall determine the result of the series of NOx compliance surveys conducted May 1 through September 15 as follows: If the associate director determines that a sample used in a compliance survey does not comply with R3-7-751 or another requirement under this Article, the associate director may take enforcement action against the registered supplier, oxygenate blender, and/or retail location.
- 1. For each compliance survey sample, the NOx emissions reduction percentage is determined based upon the tested fuel properties for that sample using the methodology for calculating NOx emissions reduction at 40 CFR 80.45, as incorporated by reference in R3-7-702; and
  - 2. The CBG-covered area fails the NOx series of compliance surveys conducted May 1 through September 15 if the NOx emissions reduction percentage average for all compliance survey samples collected during that time is less than the Federal Complex Model per-gallon standard for the NOx emissions reduction percentage in Table 1, column A.
- G. General requirements for an independent surveyor conducting a compliance survey. A registered supplier may have the compliance surveys required by this Section conducted by an independent surveyor. The associate director shall approve a compliance survey program conducted by an independent surveyor if the compliance survey program: If a registered supplier fails to ensure that an approved compliance survey program is conducted, the associate director may consider all batches delivered into the CBG-covered area during the survey period as non-compliant.
- 1. Is designed and conducted by a surveyor that is independent of the registered supplier. To be considered independent:
    - a. The surveyor shall not be an employee of any registered supplier;
    - b. The surveyor shall not have an obligation to or interest in any registered supplier, and
    - e. The registered supplier shall not have an obligation to or interest in the surveyor;
  - 2. Includes enough samples to ensure that the average levels of oxygen, vapor pressure, aromatic hydrocarbons, olefins, T50, T90, and sulfur are determined with a 95 percent confidence level, with error of less than 0.1 psi for vapor pressure, 0.1 percent for oxygen (by weight), 0.5 percent for aromatic hydrocarbons (by volume), 0.5 percent for olefins (by volume), 5°F for T50 and T90, and 10 wppm for sulfur;
  - 3. Requires that the surveyor not provide advance notice, except as provided in subsection (H), of the date or location of any survey sampling;
  - 4. Requires that the surveyor provide a duplicate of any sample taken during the survey, with information regarding the name and address of the facility from and the date on which the sample was taken, upon request of the associate director, within 30 days following submission of the survey report required under subsection (G)(6);

- ~~5. Requires that the surveyor permit a Division official to monitor sample collection, transportation, storage, and analysis at any time;~~
- ~~6. Requires the surveyor to submit a report of each survey to the associate director within 30 days after sampling for the survey is completed that includes the following information:
 
  - ~~a. Name of the person conducting the survey;~~
  - ~~b. Attestation by an officer of the surveyor that the sampling and testing was conducted according to the compliance survey program plan and the results are accurate;~~
  - ~~e. Identification of the registered supplier for whom the compliance survey was conducted if the compliance survey was conducted for only one registered supplier;~~
  - ~~d. Identification of the area from which survey samples were selected;~~
  - ~~e. Dates on which the survey was conducted;~~
  - ~~f. Address of each facility at which a sample was collected, and the date of collection;~~
  - ~~g. Results of the analysis of samples for oxygenate type and oxygen weight percent, aromatic hydrocarbon, and olefin content, E200, E300, and vapor pressure, and the calculated VOC or NOx emissions reduction percentage, as applicable, for each survey conducted during the period identified in subsection (A)(1);~~
  - ~~h. Name and address of each laboratory at which samples were analyzed;~~
  - ~~i. Description of the method used to select the facilities from which a sample was collected;~~
  - ~~j. Number of samples collected from each facility;~~
  - ~~k. Justification for excluding a collected sample from the survey, if one was excluded; and~~
  - ~~l. Average VOC and NOx emissions reduction percentage.~~~~
- ~~H. An independent surveyor shall begin each survey on a date selected by the associate director. The associate director shall notify the surveyor of the date selected at least 10 business days before the survey is to begin. No later than April 1 of each year, a registered supplier that intends to meet the requirements in subsections (A) and (C) by contracting with an independent third-party surveyor to conduct the compliance survey plan for the next summer and winter season shall enter into the contract and pay all of the money necessary to conduct the compliance survey plan. The registered supplier may pay the money necessary to conduct the compliance survey plan to the independent third-party surveyor or to an escrow account with instructions to the escrow agent to release the money to the independent third-party surveyor as the compliance survey plan is implemented. No later than April 15, the registered supplier shall submit to the associate director a copy of the contract with the independent third-party surveyor, proof that the money necessary to conduct the compliance survey plan has been paid, and, if applicable, a copy of the escrow agreement.~~
- ~~I. To obtain the associate director's approval of a compliance survey program plan, the person seeking approval shall: A registered supplier is exempt from the survey requirements of this section if they supply less than 1,000,000 gallons of Arizona CBG or AZRBOB within a calendar year.
  - ~~1. Submit the plan to the associate director no later than January 1 to cover the survey period of May 1 through September 15 of each year; and~~
  - ~~2. Have the plan signed by a corporate officer of the registered supplier or by an officer of the independent surveyor.~~~~
- ~~J. No later than April 1 of each year, a registered supplier that intends to meet the requirements in subsection (A) by contracting with an independent surveyor to conduct the compliance survey plan for the next summer and winter season shall enter into the contract and pay all of the money necessary to conduct the compliance survey plan. The registered supplier may pay the money necessary to conduct the compliance survey plan to the independent surveyor or to an escrow account with instructions to the escrow agent to release the money to the independent surveyor as the compliance survey plan is implemented. No later than April 15, the registered supplier shall submit to the associate director a copy of the contract with the independent surveyor, proof that the money necessary to conduct the compliance survey plan has been paid, and, if applicable, a copy of the escrow agreement.~~

**R3-7-761. Liability for Noncompliant Arizona CBG or AZRBOB**

- A. Persons liable.** If motor fuel designated as Arizona CBG or AZRBOB does not comply with R3-7-751, the following are liable for the violation:
  1. Each person who owns, leases, operates, controls, or supervises a facility where the noncompliant Arizona CBG or AZRBOB is found;
  2. Each registered supplier whose corporate, trade, or brand name, or whose marketing subsidiary's corporate, trade, or brand name, appears at a facility where the noncompliant Arizona CBG or AZRBOB is found; and
  3. Each person who manufactured, imported, sold, offered for sale, dispensed, supplied, offered for supply, stored, transported, or caused the transportation of any gasoline in a storage tank containing Arizona CBG or AZRBOB found to be noncompliant.
- B. Defenses.**
  1. A person who is otherwise liable under subsection (A) is not liable if that person demonstrates:
    - a. That the violation was not caused by the person or person's employee or agent;
    - b. That product transfer documents account for all of the noncompliant Arizona CBG or AZRBOB and indicate that the Arizona CBG or AZRBOB complied with this Article; and
    - c. That the person had a quality assurance sampling and testing program, as described in subsection (C) in effect at the time of the violation; except that any person who transfers Arizona CBG or AZRBOB, but does not assume title, may rely on

the quality assurance program carried out by another person, including the person who owns the noncompliant Arizona CBG or AZRBOB, provided the quality assurance program is properly administered.

2. If a violation is found at a facility that operates under the corporate, trade, or brand name of a registered supplier, that registered supplier must show, in addition to the defense elements in subsection (B)(1), that the violation was caused by:
    - a. A violation of law other than A.R.S. Title 3, Chapter 19, Article 6, this Article, or an act of sabotage or vandalism;
    - b. A violation of a contract obligation imposed by the registered supplier designed to prevent noncompliance, despite periodic compliance sampling and testing by the registered supplier; or
    - c. The action of any person having custody of Arizona CBG or AZRBOB not subject to a contract with the registered supplier but engaged by the registered supplier for transportation of Arizona CBG or AZRBOB, despite specification or inspection of procedures and equipment by the registered supplier designed to prevent violations.
  3. To show that the violation was caused by any of the actions in subsection (B)(2), the person must demonstrate by **reasonably specific a preponderance of the evidence**, that the violation was caused or must have been caused by another person.
- C. Quality assurance sampling and testing program. To demonstrate an acceptable quality assurance program for Arizona CBG or AZRBOB, at all points in the gasoline distribution network, other than at a motor fuel dispensing site or fleet ~~owner~~ vehicle fueling facility, a person shall present evidence:
1. Of a periodic sampling and testing program to determine compliance with the maximum or minimum standards in R3-7-751; and
  2. That each time Arizona CBG or AZRBOB is noncompliant with one of the requirements in R3-7-751:
    - a. The person immediately ceases selling, offering for sale, dispensing, supplying, offering for supply, storing, transporting, or causing the transportation of the noncompliant Arizona CBG or AZRBOB; and
    - b. The person remedies the violation as soon as practicable.

**R3-7-762. Penalties**

Any person who violates any provision of this Article is subject to the following:

1. Prosecution for a Class 2 misdemeanor under A.R.S. § 3-3473(B)(4);
2. Civil penalties ~~in the amount of \$500 per violation~~ under A.R.S. §§ 3-3473 and 3-3475; and
3. Stop-use, stop-sale, hold, and removal orders under A.R.S. § 3-3415(A)(2).

**Table 1. Type 1 Arizona CBG Standards Repealed**

	Non-averaging Option	Averaging Option		
	A	B	C	D
Performance Standard/Fuel Property**	Per-Gallon (minimum)	Average	Minimum (per gallon)	Maximum (per gallon)
VOC Emission Reduction (%) May 1 through Sept. 15	27.5	29.0	25.0	N/A
NOx Emission Reduction (%) May 1 through Sept. 15	5.5	6.8	N/A	N/A
NOx Emission Reduction (%) Sept. 16 - October 31 and February 1 - April 30***	0.0	N/A	N/A	N/A
Oxygen content: fuel ethanol, (% by weight unless otherwise noted) November 1 - March 31*** April 1 - October 31	N/A 0.0*	N/A N/A	N/A 0.0	N/A 4.0
Oxygen content: other than fuel ethanol, (% by weight) November 1 - March 31*** April 1 - October 31	N/A 0.0	N/A N/A	N/A 0.0	N/A ***3.5

\* Maximum oxygen content shall comply with the EPA oxygenate waiver requirements and with A.R.S. § 3-3491.  
 \*\* Dates represent compliance dates for the owner of a motor fuel dispensing site or a fleet vehicle fueling facility.  
 \*\*\* A registered supplier shall certify all Arizona CBG as Type 2 Arizona CBG meeting the standards in Table 2 beginning November 1 through March 31.  
 \*\*\*\* Unless prohibited by A.R.S. § 3-3491.

**Table 2. Type 2 Arizona CBG Standards Repealed**

	Averaging Option		Non-averaging Option	
	A	B	C	
Fuel Property	Maximum Standard	Averaging	Flat Standard*	Units of Standard

	(per-gallon)	Standard*	(per-gallon maximum)	
Sulfur Content	80	30	40	Parts per million by weight
Olefin Content	10.0	4.0	6.0	% by volume
90% Distillation Temperature (T90)	330	290	300	Degrees Fahrenheit
50% Distillation Temperature (T50)	220	200	210	Degrees Fahrenheit
Oxygen content: fuel ethanol** November 1 - March 31	10% fuel ethanol**	=	10% fuel ethanol**	% by volume
April 1 - October 31		=	4.0	
The maximum oxygen content EtOH Year around		=		% by weight
Oxygen content: isobutanol** November 1 - March 31	12.5% isobutanol	=	12.5% isobutanol	% by volume
April 1 - October 31		=		
The maximum oxygen content year around		=	3.5	% by weight
* Instead of the standards in columns B and C, a registered supplier may comply with the standards contained in column A, and R3-7-751(G), (H), and (I) for the use of the PM.				
** Maximum oxygen content shall comply with the EPA oxygenate waiver requirements.				
A registered supplier shall certify all Arizona CBG using fuel ethanol or isobutanol as the oxygenate beginning November 1 through March 31. Alternative oxygenate contents not less than 2.7% total oxygen may be used if approved by the associate director under A.R.S. § 3-3493(C).				
NOTE: Dates represent compliance dates for the owner of a motor fuel dispensing site or fleet vehicle fuel facility.

Box 2815, 2020 L Street, Sacramento, California 95812-2815.~~

**R3-7-902. Exemptions Repealed**

- A. ~~The owner or operator of a gasoline dispensing site that has decommissioned the site's stage II vapor recovery system in accordance with R3-7-913 or that is subject to A.R.S. § 3-3512, is exempt from the provisions of this Article but shall comply with the provisions of Article 10.~~
- B. ~~The owner or operator of a gasoline dispensing site that has a throughput that does not exceed the throughput specified in A.R.S. § 3-3515(B) may obtain an exemption by submitting a written request to the Division attesting that throughput at the gasoline dispensing site is not in excess of that specified in A.R.S. § 3-3515(B). By the 15th of each month, beginning the month after the Division approves the exemption, the person shall submit a written throughput report to the Division. If a person does not timely file a monthly throughput report or if a monthly throughput report reflects that the exemption limit is exceeded, the Division deems the exemption void.~~
- C. ~~To obtain an independent small business marketer exemption, a person shall derive at least 50 percent of the person's annual income from the sale of gasoline at each gasoline dispensing site for which an exemption is requested. The person shall submit a written request for exemption to the Division. The Division shall determine the percentage of total annual income represented by the sale of gasoline on the basis of the person's state and federal gross income for the preceding year for income tax purposes. The following items are excluded from income computations:
 
  - 1. ~~Purchase and sale of diesel fuel, and~~
  - 2. ~~State lottery sales net commissions and incentives.~~~~
- D. ~~Motor raceways, motor vehicle proving grounds, and marine and aircraft fueling facilities are exempt from stage II vapor recovery requirements.~~

**R3-7-903. Equipment and Installation Repealed**

- A. ~~A person subject to A.R.S. § 3-3515 shall install, maintain, and operate a stage I and stage II vapor recovery system and component as specified in this Article until the stage II vapor recovery system is decommissioned in accordance with R3-7-913.~~
- B. ~~The Division shall reject a vapor recovery system or component from future installation if:
 
  - 1. ~~Federal regulations prohibit its use;~~
  - 2. ~~The vapor recovery system or component does not meet the manufacturer's specifications as certified by CARB using test methods approved in R3-7-901; or~~
  - 3. ~~The vapor recovery system or component fails greater than 20% of Division inspections for that system or component or the Division receives equivalent failure results from a vapor recovery registered service agency or from another jurisdiction's vapor recovery program, and the Division provides at least 30 days public notice of its proposed rejection.~~~~
- C. ~~The piping of both a stage I and stage II vapor recovery system shall be designed and constructed as certified by CARB for that specific vapor recovery system. A person shall not alter a stage I and stage II vapor recovery system or component from the CARB-certified configuration without obtaining Division approval under R3-7-904.~~
- D. ~~If Division inspection or test data reveal a deficiency in a fitting, assembly, or component that cannot be permanently corrected, the deficient fitting, assembly, or component shall not be used in Arizona.~~
- E. ~~A stage I spill containment may have a plugged drain rather than a drain valve if a hand-operated pump is kept onsite for draining entrapped liquid. A stage II vapor recovery system shall have pressure/vacuum (P/V) threaded valves on top of the vent lines for gasoline storage tanks.~~

**R3-7-904. Application Requirements and Process for Authority to Construct Plan Approval Repealed**

- A. ~~A person shall not begin to construct a site requiring a vapor recovery system or to make a major modification of an existing vapor recovery system or component before obtaining approval of an authority to construct plan application. A major modification is:
 
  - 1. ~~Adding or replacing a gasoline storage tank that is equipped with a Division approved stage II vapor recovery system;~~
  - 2. ~~Adding or replacing underground piping, vapor piping within a dispenser, or a dispenser at an existing vapor recovery site unless the dispenser replacement is necessary due to unforeseen damage to the existing dispenser; or~~
  - 3. ~~Replacing a Division-approved stage II vapor recovery system of one certified configuration with an approved stage II vapor recovery system of a different certified configuration.~~~~
- B. ~~A person shall file with the Division a written change order to an authority to construct plan approval on a form provided by the Division if a modification of the approved vapor recovery system or component is needed after the Division issues an authority to construct plan approval. The person shall not make any modification until the Division approves the change order.~~

- ~~C. To obtain an authority to construct plan approval, a person shall submit to the Division, on a form provided by the Division, the following:
 
  1. The name, address, and phone number of any owner, operator, and proposed contractor, if known;
  2. The name of the stage I or stage II vapor recovery system or component to be installed along with the CARB certification for that system or component;
  3. The street address of the site where construction or major modification will take place with an estimated timetable for construction or modification;
  4. A copy of a blueprint or sealed site plan for the vapor recovery system or component including all equipment and piping detail; and
  5. The application fee specified under R3-7-906.~~
- ~~D. After review and approval of the authority to construct plan, the Division shall issue the authority to construct plan approval and mail the plan approval to the address indicated on the application.
 
  1. A copy of the authority to construct plan approval shall be maintained at the facility during construction so that it is accessible for Division review.
  2. Construction of a stage II vapor recovery system or component at a site not having an approved authority to construct plan, shall be stopped and no further installation work done until an authority to construct plan approval is obtained.
  3. An authority to construct plan approval is not transferable.~~
- ~~E. The Division shall deny an authority to construct plan for any of the following reasons:
 
  1. Providing incomplete, false, or misleading information; or
  2. Failing to meet the requirements stated in this Chapter.~~
- ~~F. If excavation is involved, the Division may visually inspect the stage II underground piping of a gasoline dispensing site before the pipeline is buried, for compliance with the authority to construct plan approval. A person who owns or operates a vapor recovery system or component shall give the Division notice by fax or e-mail at least two business days before the underground piping is complete. The Division shall require the owner or operator to excavate all piping not inspected before burial if the owner or operator does not give the required two business days' notice.~~
- ~~G. After construction is complete, a person who has a valid authority to construct plan approval may dispense gasoline for up to 90 days before final approval, if an initial inspection is scheduled according to R3-7-905.~~
- ~~H. An authority to construct plan approval expires one year from the date of issue or the completion of construction, whichever is sooner.~~

**R3-7-905. Initial Inspection and Testing Repealed**

- ~~A. Within 10 days after beginning the dispensing of gasoline at a site that requires an authority to construct plan approval, a person shall provide the Division with a written certification of completion by the contractor and schedule an inspection that includes tests and acceptance criteria specified in the authority to construct plan approval. The inspection shall be witnessed by the Division at a time approved by the Division and include any of the following relevant to the specific vapor recovery system installed:
 
  1. A dynamic pressure performance test from each dispenser for each product grade to its associated underground storage tank;
  2. A pressure decay test for each vapor control system including nozzles, underground storage tanks, and tank vents. This test shall be performed with caps removed from stage I fill and vapor risers. If the pressure decay test in R3-7-901(1) is used, the Division shall fail the vapor recovery system if gasoline storage tanks have less than 10 percent or greater than 60 percent vapor space. If the pressure decay test in R3-7-901(2) is used, the Division shall fail the vapor recovery system if gasoline storage tanks have less than 15 percent or more than 30,000 gallons vapor space. The Division shall compute combined tank vapor space for manifolded systems;
  3. Communication from dispenser to tanks for each product, using the San Diego TP-96-1 and CARB TP-201.4 test procedures;
  4. Air to liquid volume ratio by volume meter of a vapor recovery system, using CARB TP-201.5 or CARB endorsed equivalent procedures to determine air to liquid (A/L) ratios;
  5. Spillage of a stage II vapor recovery system, using the CARB TP-201.2C procedure;
  6. Liquid removal of a stage II vapor recovery system, using the CARB TP-201.6 procedure;
  7. Flow versus pressure for components in a stage II vapor recovery system, using the CARB TP-201.2B procedure; and
  8. Procedures specified by a manufacturer for testing the vapor recovery system.~~
- ~~B. If there is a difference between a testing contractor's and the Division's test results, the Division's test results prevail.~~
- ~~C. If a site fails to pass any of the tests required by subsection (A), the affected vapor recovery system or component shall remain out-of-service until the vapor recovery system and component pass all the appropriate tests in subsection (A).~~
- ~~D. A person who cancels an initial inspection shall notify the Division by calling the Division's designated telephone number at least one hour before the scheduled inspection and shall reschedule the inspection within 10 business days after this notification. The Division shall take enforcement action if a person fails to comply with this Section.~~
- ~~E. A person shall notify the Division when a vapor recovery system or component is repaired after failing an initial inspection. A registered service representative shall not proceed with a reinspection until the Division approves the reinspection date and time.~~
- ~~F. If a registered service representative does not start an initial inspection pressure decay test within 30 minutes of the scheduled start time, the Division shall fail the initial inspection of that site.~~

- ~~G. If a person cancels an initial inspection, the person shall reschedule the inspection within 90 days from the date gasoline was first dispensed:~~
- ~~1. The Division shall take enforcement action if the person fails to timely reschedule the inspection.~~
  - ~~2. The registered service agency shall notify the Division in writing at least 10 business days before the inspection of the time, date, and location of the inspection.~~
  - ~~3. The Division shall notify the registered service agency within five business days, by facsimile or electronic mail, whether it approves the inspection date and time.~~

**R3-7-906. Fee Repealed**

~~The authority to construct plan approval fee is \$250.~~

**R3-7-907. Operation Repealed**

- ~~A. The owner or operator of a gasoline dispensing site with stage II vapor recovery shall not transfer or permit the transfer of gasoline into any motor vehicle fuel tank unless stage II vapor recovery equipment is installed, maintained, operating, and being used according to the requirements of A.R.S. Title 2, Chapter 19, Article 7, and this Article.~~
- ~~B. The owner or operator of a gasoline dispensing site with stage II vapor recovery shall operate the stage II vapor recovery system and associated components in compliance with the CARB certification for that system and these rules:~~
- ~~C. The owner or operator of a gasoline dispensing site with stage II vapor recovery shall inspect the system and its components daily. Daily inspections shall include all nozzles, hoses with connecting hardware, stage I fittings, and spill containment.~~
- ~~D. The owner or operator of a gasoline dispensing site shall immediately stop using a stage II vapor recovery system or component if one or more of the following system or component defects occur:~~
- ~~1. A faceplate or facecone of a balance system nozzle does not make a good seal with a vehicle fill tube, or the accumulated damage to the faceplate or facecone is 1/4 or more of its circumference. These conditions also apply to a vacuum assist system that has a nozzle with a bellows and faceplate that seal with a vehicle fill pipe;~~
  - ~~2. When more than 1/4 of the cone is missing for vapor assist systems having bellowsless nozzles with flexible vapor deflecting cones;~~
  - ~~3. A nozzle bellows has a triangular tear measuring 1/2 inch or more to a side, a hole measuring 1/2 inch or more in diameter, or a slit or tear measuring one inch or more in length;~~
  - ~~4. A nozzle bellows is loosely attached to the nozzle body, attached by means other than that approved by the manufacturer, or a vapor check valve is frozen in the open position due to impaired motion of the bellows;~~
  - ~~5. Any nozzle liquid shut-off mechanism malfunctions in any manner, the spring or latching knurl for holding the nozzle in place during vehicle fueling is damaged or missing, or a nozzle is without a functioning hold open latch;~~
  - ~~6. Any nozzle with a defective vapor check valve, or hose having a disengaged breakaway, when all other nozzles are capable of delivering the same grade of fuel from the same turbine pump;~~
  - ~~7. Any vacuum assist nozzle having less than the acceptable number of open vapor collection holes specified by CARB for the particular model of nozzle in service, the nozzle spout rocks or rotates more than 1/8 inch, the spout shows heavy wear with the tip damaged in a way that the largest axis exceeds .84 inch, or the plastic insert in the tip of the spout is loose;~~
  - ~~8. Any nozzle with a dispensing rate greater than 10 gallons per minute when only one nozzle associated with the product supply pump is operating, or a flow restrictor is improperly installed, leaking, or non-CARB approved;~~
  - ~~9. Any nozzle with a physically damaged breakaway or a breakaway showing evidence of product leakage, or a breakaway not approved for the installed system;~~
  - ~~10. A dispenser mounted vacuum pump that is not functioning;~~
  - ~~11. Any vapor recovery hose and, as applicable, the accompanying whip hose, that:
    - ~~a. Is crimped, kinked, flattened, or damaged in any manner that constricts the return flow of vapor;~~
    - ~~b. For a balance hose, has any slits or tears greater than 1/4 inch in length, perforations greater than 1/8 inch in diameter, or assist system hoses that are cut, torn, or badly worn so as to cause a possible fuel leak;~~
    - ~~c. Does not fully retract, for approved dispenser configurations using hose retractors, or a balance system hose that exceeds the 10-inch loop requirement where required, or for a hose length that allows a balance hose to touch the ground, or for a vacuum assist hose having more than 6 inches in contact with the ground;~~
    - ~~d. Does not swivel at the hose/nozzle connection; or~~
    - ~~e. Does not have a required internal liquid pick-up or the hose with liquid pick-up is improperly assembled for the pick-up to properly function;~~~~
  - ~~12. Tank vent pipes that are not the proper height, or are not properly capped with approved pressure and vacuum vent valve settings, or where required, vent pipes that do not meet the CARB-specified paint color code for the installed system;~~
  - ~~13. The stage I installation is not properly installed or maintained, in that:
    - ~~a. Spill containment buckets are cracked, rusted, the sidewalls are not attached or otherwise improperly installed, or spill containment buckets are not clean and empty of liquid, or there are non-functioning drain valves, or drain valves that do not seal;~~
    - ~~b. A fill adaptor collar or vapor poppet (drybreak) that is loose or damaged, or with a fill or vapor cap that is not installed, is missing, broken, or without gaskets;~~~~

- ~~e. Coaxial stage I that is not equipped with a functioning CARB-approved poppeted fill tube, or the coaxial cap is not installed, is missing, broken, or without gaskets; or~~
- ~~d. A fill tube is missing, not sealed, has holes, broken or damaged overflow preventors, or if the high point of the bottom opening is more than 6 inches above the tank bottom;~~
- ~~14. The tank riser cap with instrument lead wire for an electronic monitoring system is not tightly installed, or any other tank riser is not securely sealed and capped;~~
- ~~15. The under dispenser vapor recovery piping is not securely intact or is crimped, does not slope to the underground vapor pipe riser, hoses used for connection are deteriorated or not approved for use with gasoline, resettable impact type shear valves are closed, or there is any other valve or restriction to impede the vapor path;~~
- ~~16. An above-ground storage tank that does not display a permanently attached UL approval plaque;~~
- ~~17. A vacuum assist system with an inoperative central vacuum unit;~~
- ~~18. A vacuum assist system with an inoperative vapor processing (burner) unit;~~
- ~~19. A vacuum assist system with a monitoring system certified by CARB or the authority to construct that is not operational or malfunctions; or~~
- ~~20. Any other component identified in the diagrams, exhibits, attachments or other documents that are certified by CARB or required by the authority to construct for that system is missing, disconnected, or malfunctioning.~~
- ~~E. The owner or operator of a gasoline dispensing site shall inspect for the presence and proper placement of public information signs required by A.R.S. § 3-3515(E) and this Article.~~
- ~~F. For a stage II vacuum assist vapor recovery system, the owner or operator of a gasoline dispensing site shall immediately place damaged or malfunctioning equipment out of service and shall notify the Division by fax or e-mail no more than one day after the malfunction of a central vacuum or processor unit. Once the equipment or system is repaired, the owner or operator shall provide written notice within five days of the repair to the Division.~~
- ~~G. For proper operation of a stage I system, under A.R.S. § 3-3512(C)(4), the owner or operator of a gasoline dispensing site shall recover vapors during pump out from a gasoline storage tank to a mobile transporter.~~
- ~~H. The owner or operator of a gasoline dispensing site shall ensure that any underground tightness test is conducted in a manner that prevents gasoline vapors being emitted to the atmosphere.~~

**R3-7-908. Training and Public Education Repealed**

- ~~A. Each operator of a gasoline dispensing site using stage II vapor recovery shall obtain adequate training and written instructions to enable the system to be installed, operated and maintained properly in accordance with the manufacturer's specifications and CARB certification. The operator shall maintain documentation of this training onsite and make the documentation available to the Division on request.~~
- ~~B. In addition to the information required in A.R.S. § 3-3515(E), an operator of a gasoline dispensing site with stage II vapor recovery shall display a Division telephone number that the public can call to report nozzle or other equipment problems. The operator shall place the required information on each face of each gasoline dispenser. The headings shall be at least 3/8 inches and shall be readable from up to 3 feet away for decal signs, and from up to 6 feet away for permanent (nondecal) signs. Decals shall be located on the upper 60% of each face of each dispenser.~~

**R3-7-909. Recordkeeping and Reporting Repealed**

- ~~A. The owner or operator of a gasoline dispensing site employing stage II vapor recovery shall maintain daily records of the inspections done under this Article.~~
- ~~B. The owner or operator of a gasoline dispensing site employing stage II vapor recovery shall maintain a log and related records of all regularly scheduled maintenance and any repairs that have been made to stage II equipment.~~
- ~~C. The owner or operator of a gasoline dispensing site that is exempt under A.R.S. § 3-3515(B) from requirements to install and operate stage II vapor recovery equipment, shall maintain a log at the site showing monthly throughputs. The owner or operator shall submit throughput records to the Division as required under R3-7-902(B). If any throughput requirement provided in A.R.S. § 3-3515(B) and this Article is exceeded for any month, the owner or operator shall notify the Division in writing within 30 days. The owner or operator shall within six months after the end of the month the throughput is exceeded, install and operate a stage II vapor recovery system conforming to this Article.~~
- ~~D. The owner or operator of a gasoline dispensing site shall keep all records required by this Article at the gasoline dispensing site for at least one year and shall make these records available to the Division upon request.~~

**R3-7-910. Annual Inspection and Testing Repealed**

- ~~A. A person shall ensure that an annual inspection is conducted by a registered service representative on or before the annual inspection date. The annual inspection date is the last day of the month in which the last scheduled annual inspection was performed. A registered service agency shall notify the Division in writing at least 10 business days before an annual inspection of the time, date, and location of the inspection. The Division shall notify the registered service agency within five business days, by fax or e-mail, whether it approves the annual inspection date and time. The registered service agency shall not perform the annual inspection unless the Division approves the inspection date and time.~~
- ~~B. The annual inspection shall include the tests defined in R3-7-905(A)(1) through (8) that pertain to the specific vapor recovery system installed.~~

- ~~C. If there is a difference between a testing contractor's and the Division's test results, the Division's test results prevail.~~
- ~~D. If a site fails to pass any of the tests required by subsection (B), the affected vapor recovery system or component shall remain out of service until the vapor recovery system and component pass all appropriate tests in subsection (B).~~
- ~~E. After an annual inspection begins, a person shall not make a repair to the vapor recovery system or component until the results of the inspection are recorded.~~
- ~~F. A registered service representative shall perform all tests according to Article 9 and any other vapor recovery procedure that the Division issues to registered service agencies.~~
- ~~G. A person who cancels a witnessed inspection shall notify the Division by calling the Division's designated telephone number at least one hour before the scheduled inspection and shall reschedule the test to be completed by the annual inspection date. A registered service agency shall notify the Division in writing at least 10 business days before an annual inspection of the time, date, and location of the inspection. The Division shall notify the registered service agency within five business days, by fax or e-mail, of its approval of the inspection date and time. The Division shall take enforcement action if a person does not comply with this subsection.~~

**R3-7-911. Compliance Inspections Repealed**

~~The Division shall not announce when it plans to conduct a compliance inspection of a stage I or stage II vapor recovery system or component. If results of a compliance inspection reveal a violation of A.R.S. Title 3, Chapter 19, or this Article, the Division shall require the vapor recovery system or component to undergo an appropriate test as specified in R3-7-910.~~

**R3-7-912. Enforcement Repealed**

~~If the Division finds that a stage II vapor recovery system or component is defective or non-compliant with one or more of the provisions of this Chapter or A.R.S. Title 3, Chapter 19, the Division shall issue to the owner or operator an administrative order and place a stop-sale, stop-use tag on the non-compliant vapor recovery system or component. The owner or operator may be required to schedule an inspection for a stage II vapor recovery system or component to ensure that it meets all requirements of A.R.S. Title 3, Chapter 19 and this Chapter before the vapor recovery system or component is placed in service.~~

**R3-7-913. Stage II Decommissioning Repealed**

- ~~A. The owner or operator of a gasoline dispensing site with a stage II vapor recovery system shall decommission the stage II vapor recovery system in accordance with the following schedule:
 
  - ~~1. If the owner or operator holds a license issued by the Division numbered BMF 13676 or less, the owner or operator shall decommission the stage II vapor recovery system between October 1, 2016 and September 30, 2017; or~~
  - ~~2. If the owner or operator holds a license issued by the Division numbered BMF 13677 or more, the owner or operator shall decommission the stage II vapor recovery system between October 1, 2017 and September 30, 2018.~~~~
- ~~B. Request for alternate decommissioning plan. The following owners or operators may submit an alternate decommissioning plan requesting to decommission the stage II vapor recovery systems at a time other than would be required under subsection (A)(1) or (A)(2) but no sooner than October 1, 2016 and no later than September 30, 2018. The owner or operator shall submit the alternate decommissioning plan to the Division for approval prior to decommissioning at an alternate time period:
 
  - ~~1. An owner or operator that holds licenses issued by the Division for three or fewer gasoline dispensing sites if all the licenses are issued in the same business name and mailing address. The owner or operator shall ensure that the alternate decommissioning plan includes the information specified in subsections (C)(1) through (4); and~~
  - ~~2. An owner or operator that holds licenses issued by the Division for four or more gasoline dispensing sites if all the licenses are issued in the same business name and mailing address. The owner or operator shall ensure that the alternate decommissioning plan includes the information specified in subsection (C).~~~~
- ~~C. An owner or operator that submits a request for approval of an alternate decommissioning plan shall include the following information as specified under subsection (B):
 
  - ~~1. The business name and mailing address on all licenses;~~
  - ~~2. The name and telephone number of an individual with whom the Division can communicate;~~
  - ~~3. The license number and address of each gasoline dispensing site and a statement of whether the owner or operator proposes to decommission each vapor recovery system between October 1, 2016 and September 30, 2017, or October 1, 2017 and September 30, 2018;~~
  - ~~4. A statement of whether all gasoline dispensers at the gasoline dispensing site will be replaced and if so, whether the owner or operator proposes to replace the gasoline dispensers between October 1, 2016 and September 30, 2017, or October 1, 2017 and September 30, 2018; and~~
  - ~~5. If the owner or operator owns four or more gasoline dispensing sites, an alternate decommissioning plan that includes:
 
    - ~~a. The license numbers and addresses of 50 percent of the gasoline dispensing sites at which the vapor recovery systems will be decommissioned between October 1, 2016 and September 30, 2017; and~~
    - ~~b. The license numbers and addresses of the remaining 50 percent of the gasoline dispensing sites at which the vapor recovery systems will be decommissioned between October 1, 2017 and September 30, 2018.~~~~~~
- ~~D. The Division shall approve or reject, on a first-come-first-served basis, an alternate decommissioning plan within three months after the alternate decommissioning plan is submitted. The Division shall allow decommissioning of stage II vapor recovery equipment at the time gasoline dispensers are replaced as indicated on the request for approval under subsection (C)(4). The Division may reject~~

~~an alternate decommissioning plan if the information required under subsection (B) is not provided or if the year requested for decommissioning already has more than 60 percent of all gasoline dispensing sites scheduled for decommissioning;~~

- ~~E. The owner or operator of a gasoline dispensing site that is exempt under R3-7-902 shall decommission the site any time between October 1, 2016, and September 30, 2018;~~
- ~~F. The owner or operator of a gasoline dispensing site shall ensure that a Notice of Intent, using a form or format provided by the Division, is submitted to the Division at least 10 days before the planned decommissioning and includes the following information:
  - ~~1. Name of the owner or operator of the gasoline dispensing site;~~
  - ~~2. Address of the gasoline dispensing site;~~
  - ~~3. Name of the decommissioning contractor;~~
  - ~~4. Decommissioning dates;~~
  - ~~5. Name of the vapor testing registered service representative; and~~
  - ~~6. A statement indicating whether all gasoline dispensers at the gasoline dispensing site are being replaced.~~~~
- ~~G. If any of the information provided under subsection (F) changes, the owner or operator shall ensure that the Division receives the changed information at least 24 hours before the scheduled start of decommissioning.~~
- ~~H. The owner or operator of a gasoline dispensing site shall ensure that all stage II vapor recovery systems are decommissioned according to the material incorporated by reference in R3-7-901(4) with the following exceptions:
  - ~~1. Liquid shall be purged from the vapor piping following disconnection in section 14.6.6;~~
  - ~~2. Vapor piping that is not disconnected from the tank top in accordance with section 14.6.7 shall be disconnected in the future if construction involving excavation that renders the piping accessible is performed; and~~
  - ~~3. The pressure decay test conducted under section 14.6.12 shall meet the requirements in R3-7-1005(A)(1).~~~~
- ~~I. The decommissioning contractor shall:
  - ~~1. Complete a Decommissioning Checklist using a form or format provided by the Division;~~
  - ~~2. Provide a copy of the completed Decommissioning Checklist to the owner or operator of the gasoline dispensing site at the time of decommissioning; and~~
  - ~~3. Submit a copy of the completed Decommissioning Checklist to the Division within 10 days after decommissioning of the stage II vapor recovery system is complete. Decommissioning of a stage II vapor recovery system is complete on the date and at the time when the gasoline dispensing site resumes sales of motor fuel following decommissioning.~~~~
- ~~J. A gasoline dispensing site with a stage II vapor recovery system that is decommissioned is exempt from the annual inspection and testing required under R3-7-910 but shall be subject to the initial inspection and testing prescribed under R3-7-1005 within 60 days after decommissioning is complete.~~
- ~~K. The requirements in Article 10 apply to all gasoline dispensing sites at which stage II vapor recovery systems have been decommissioned.~~
- ~~L. The Division shall place out-of-service a gasoline dispensing site at which a stage II vapor recovery system is not decommissioned according to this Section until the gasoline dispensing site is decommissioned and impose civil penalties under A.R.S. § 3-3475 on the owner or operator of the gasoline dispensing site.~~

## ARTICLE 10. STAGE I VAPOR RECOVERY

### R3-7-1001. Material Incorporated by Reference

The following documents are incorporated by reference and on file with the Division. The documents incorporated by reference contain no later amendments or editions:

Resources Board, P.O. Box 2815, 2020 L. Street, Sacramento, California 95812-2815 (herein referred to as "CARB TP-201.3C").

### **R3-7-1002. Exemptions**

- ~~A.~~ The owner or operator of a gasoline dispensing site at which the site's stage II vapor recovery system has not been decommissioned in accordance with R3-7-913 is exempt from the provisions of this Article but shall comply with the provisions of Article 9.
- ~~B.~~ An owner or operator of a gasoline dispensing site with a gasoline throughput that does not exceed that specified in A.R.S. § 3-3512(B) may file for an exemption from this Article. To obtain an exemption, the owner or operator of the gasoline dispensing site shall submit an annual throughput report to the Division, using a form prescribed by the Division, no later than March 30 of each year and attest to the throughput during each month of the previous calendar year. If the owner or operator fails to file an annual throughput report timely or if the annual throughput report indicates the exemption limit specified in A.R.S. § 3-3512(B) was exceeded, the Division shall deem the exemption void.

### **R3-7-1003. Equipment and Installation**

- A. The Division shall reject a stage I vapor recovery system or component from future installation if:
1. Federal regulations prohibit its use;
  2. The vapor recovery system or component does not meet the manufacturer's specifications as certified by CARB using test methods approved in R3-7-1001; or
  3. The vapor recovery system or component fails greater than 20% of Division inspections for that system or component or the Division receives equivalent failure results from a vapor recovery registered service agency, as defined and regulated by Article 6, or from another jurisdiction's vapor recovery program, and the Division provides at least 30 days public notice of its proposed rejection.
- B. The piping of a stage I vapor recovery system shall be designed and constructed as certified by CARB for that specific vapor recovery system. A person shall not alter a stage I vapor recovery system or component from the CARB-certified configuration without obtaining Division approval under R3-7-1004. All components installed with the stage I vapor recovery system shall be certified by CARB or approved by the Division as required under A.R.S. § 3-3512.
- C. If Division inspection or test data reveal a deficiency in a fitting, assembly, or component that cannot be permanently corrected, the deficient fitting, assembly, or component shall not be used in Arizona.
- D. A stage I liquid or vapor spill containment bucket may have a plugged drain rather than a drain valve if a hand-operated pump is kept onsite for draining entrapped liquid.
- E. A stage I vapor recovery system shall have pressure/vacuum (P/V) threaded valves on top of the vent lines for gasoline storage tanks.

### **R3-7-1004. Application Requirements and Process for Authority to Construct Plan Approval**

- A. A person shall not begin to construct a ~~site requiring a~~ stage I vapor recovery system or to make a ~~major~~ modification of an existing stage I vapor recovery system before applying for and obtaining approval of an authority to construct an Authority to Construct plan application permit. A major modification is: A modification is:
1. Adding or replacing a gasoline storage tank that is equipped with a ~~Division approved~~ stage I vapor recovery system;
  2. Modifying, adding, or replacing ~~underground~~ vent piping; or
  3. Conducting construction ~~under R3-7-913(H)(2):~~ at the tank top that exposes stage I or stage II vapor recovery piping.
- B. A person shall file with the Division a written change order, using a form provided by the Division, to obtain a modification of the approved vapor recovery system or component if a modification is needed after the Division issues an ~~authority to construct Authority to Construct plan approval permit~~. The person shall not make any modification until the Division approves the change order.
- C. To obtain an ~~authority to construct Authority to Construct plan approval permit~~, a person shall submit to the Division, on a form provided by the Division, the following:
1. The name, address, and telephone number of any owner, operator, and proposed contractor, if known;
  2. The name of the stage I vapor recovery system or component to be installed along with the CARB certification for that system or component;
  3. The street address of the site where construction or ~~major~~ modification will take place with an estimated timetable for construction or modification;
  4. A copy of a blueprint or scaled site plan for the vapor recovery system or component including all stage I vapor recovery equipment and stage I vapor recovery piping detail; and
  5. The application fee specified under R3-7-1006.
- D. A person shall ensure that an installed or modified stage I vapor recovery system meets the following requirements:
1. Has CARB-certified product and vapor adaptors that prevent loosening or over-tightening of the stage I product and vapor adaptors;
  2. Consists of a two-point stage I system with separate fill and vapor connection points. Coaxial stage I vapor recovery systems shall not be used;
  3. Has a submerged fill pipe that has the fill pipe's highest point of discharge no more than six inches from the tank bottom;
  4. Has no tank containing motor fuel other than gasoline connected to the vapor piping;

- ~~5.~~ Has vapor piping with a minimum 1/8 inch slope per foot from the vent riser to the tank;
- ~~5-6.~~ Uses cement that is resistant to deterioration from exposure to water, hydrocarbons, and alcohol to join all pipes;
- ~~6-7.~~ Has tank vent pipes that extend at least 12 feet above the elevation of the stage I fill points;
- ~~7-8.~~ Has tank vent pipes with a minimum inside diameter of:
- Two inches if the pipe is not manifolded, or
  - Three inches from the point of manifold ~~if the pipe is manifolded for a single vent line;~~
- ~~8-9.~~ Has pressure vacuum vent valves that are attached to the tank vent pipes by a threaded connection;
- ~~9-10.~~ If a gasoline tank is installed in an enclosed vault, has an emergency vent in addition to the pressure vacuum vent valve required under subsection (D)(8);
- ~~10-11.~~ Has risers into gasoline storage tanks that are ~~capped~~ covered with UL-approved caps approved by Underwriters Laboratories;
- ~~11-12.~~ Has lead wires for instrumentation that pass through a leak-tight grommet with a compression fitting suitable for exposure to gasoline vapors;
- ~~12-13.~~ Has storage tank vent pipes and fill and vapor manhole tops that are painted a color that minimizes solar gain and has a ~~reflective effectiveness~~ Light Reflectance Value ("LRV") of at least 55-percent 55%, according to the following principles: Reflectivity shall be determined by visually comparing the paint with paint color cards obtained from a paint manufacturer that uses the Master Pallet Notation to specify the paint color (i.e., 58YY 88/180 where the number in italics is the paint reflectivity). Examples of colors have a reflective effectiveness of at least 55 percent include, but are not limited to, yellow, light gray, aluminum, tan, red iron oxide, cream or pale blue, light green, glossy gray, light blue, light pink, light cream, white, silver, beige, tin plate, and mirrored finish. A manhole cover that is color coded for product identification is exempt from this subsection; and
- Reflectivity shall be determined by visually comparing the paint with paint-color cards obtained from a paint manufacturer that uses either the Master Palette system to specify the paint color (e.g. 58YY 88/180, where "88" represents the paint reflectivity percentage), or notes the LRV for a specific color;
  - Examples of colors have a LRV of at least 55% include, but are not limited to, yellow, light gray, aluminum, tan, red iron oxide, cream or pale blue, light green, glossy gray, light blue, light pink, light cream, white, silver, beige, tin plate, and mirrored finish;
  - A manhole cover that is color coded for product identification is exempt from this subsection; and
- ~~13-14.~~ Complies with other requirements outlined in the ~~authority to construct~~ Authority to Construct permit.
- E. After review and approval of the ~~authority to construct~~ Authority to Construct ~~plan application~~, the Division shall issue the ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ and mail, ~~fax~~, or e-mail the ~~plan approval permit~~ to the address indicated on the application.
- A copy of the ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ shall be maintained at the facility during construction so that it is accessible for Division review.
  - Construction of a stage I vapor recovery system or component at a site not having an ~~approved authority to construct~~ Authority to Construct ~~plan permit~~, shall be stopped and no further installation work done until an ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ is obtained.
  - An ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ is not transferable.
- F. The Division shall deny an ~~authority to construct~~ Authority to Construct ~~plan application~~ for any of the following reasons:
- Providing incomplete, false, or misleading information; or
  - Failing to meet the requirements stated in this Chapter.
- G. If excavation is involved, the Division may visually inspect the stage I underground piping of a gasoline dispensing site before the piping is buried for compliance with the ~~authority to construct~~ Authority to Construct ~~plan approval permit~~. The owner or operator of a vapor recovery system or component shall give the Division notice by ~~fax or~~ e-mail at least two business days before the underground piping is complete to schedule the inspection. The Division may require the owner or operator to excavate all piping not inspected before burial if the owner or operator does not give the required two business days' notice.
- H. After construction is complete, a person who has a valid ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ may dispense gasoline for up to 90 days before final approval if an initial inspection is scheduled according to R3-7-1005.
- I. An ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ expires one year from the date of issue or ~~the completion of construction~~ when a gasoline dispensing site is placed into service following installation or modification of an approved vapor recovery system, whichever is sooner.

### **R3-7-1005. Initial Inspection and Testing**

- A. Within 10 days after beginning the dispensing of gasoline at a site that requires an ~~authority to construct~~ Authority to Construct ~~plan approval permit~~, a person shall provide the Division with a written certification of completion by the contractor and schedule an inspection that includes tests and acceptance criteria specified in the ~~authority to construct~~ Authority to Construct ~~plan approval permit~~ and this subsection. The inspection shall be witnessed by the Division at a time approved by the Division and include the following tests:
- A pressure decay test for each vapor control system including underground storage tanks and tank vents using CARB TP-201.3 test procedures, ~~as follows: All test procedures pertaining to stage I vapor recovery systems shall be followed except the~~

~~post-test procedures in section 8 and the calculations in section 9 of the CARB TP-201.3 test procedures. The compliance status of the site shall be determined by comparing the final five-minute pressure with the minimum allowable final pressure in Table 1. A calculated ullage exceeding that listed in Table 1 shall be rounded up to the next higher ullage volume in the table;~~

- ~~a. All test procedures pertaining to stage I vapor recovery systems shall be followed except the post-test procedures in section 8 and the calculations in section 9 of the CARB TP-201.3 test procedures;~~
  - ~~b. The compliance status of the site shall be determined by comparing the final five-minute pressure with the minimum allowable final pressure in Table 1; and~~
  - ~~c. A calculated ullage exceeding that listed in Table 1 shall be rounded up to the next higher ullage volume in the table;~~
  2. A test of each pressure vacuum vent valve using CARB TP-201.1E test procedures;
  3. A Tie-Tank test using CARB TP-201.3C test procedure; ~~and~~
  4. ~~A Static Torque test for each rotatable stage I adaptor using CARB TP-201.1B test procedures; and~~
  - 4.5. Procedures specified by a manufacturer or CARB for testing the vapor recovery system.
- B.** If there is a difference between a testing contractor's test results and the Division's test results, the Division's test results prevail.
- C.** If a site fails to pass any of the tests required by subsection (A), the affected vapor recovery system or component shall remain ~~out-of-service~~ out of service until the vapor recovery system and component pass all the appropriate tests in subsection (A).
- D.** A person who cancels an initial inspection shall notify the Division by calling the Division's designated telephone number at least one hour before the scheduled inspection and shall reschedule the inspection within 10 business days after this notification. The Division shall take enforcement action if a person fails to comply with this Section.
- E.** A person shall notify the Division when a vapor recovery system or component is repaired after failing an initial inspection. A registered service representative shall not proceed with a reinspection until the Division approves the reinspection date and time.
- F.** If a registered service representative does not start an initial inspection pressure decay test within 30 minutes of the scheduled start time, the Division shall fail the initial inspection of that site.
- G.** If a person cancels an initial inspection, the person shall reschedule the inspection within 90 days from the date gasoline was first dispensed.
1. The Division shall take enforcement action if the person fails to timely reschedule the inspection.
  2. The registered service agency shall notify the Division in writing at least 10 business days before the inspection of the time, date, and location of the inspection.
  3. The Division shall notify the registered service agency within five business days, by ~~fax or~~ e-mail, whether it approves the inspection date and time.

### **R3-7-1006. Fee**

~~The authority to construct~~ Authority to Construct ~~plan approval~~ permit fee is \$250.

### **R3-7-1007. Operation**

- A.** The owner or operator of a gasoline dispensing site with stage I vapor recovery shall not transfer or permit the transfer of gasoline into any gasoline storage tank subject to this Article unless stage I vapor recovery equipment is installed, maintained, operating, and being used according to the requirements of A.R.S. Title 3, Chapter 19, Article 7, and this Article.
- B.** The owner or operator of a gasoline dispensing site with stage I vapor recovery shall operate the stage I vapor recovery system and associated components in compliance with the CARB certification or Division approval under A.R.S. § 3-3512 for that system and these rules.
- C.** The owner or operator of a gasoline dispensing site with stage I vapor recovery located in area A shall inspect the system and its components at least once every seven days. The inspections shall include all stage I fittings and spill containment.
- D.** The owner or operator of a gasoline dispensing site shall immediately stop using a stage I vapor recovery system or component if one or more of the following system or component defects occur:
1. Tank vent pipes are not the proper height or are not properly capped with approved pressure and vacuum vent valves;
  2. Vent pipes do not meet the CARB-specified paint color code specified in R3-7-1004(D)(13);
  3. The stage I vapor recovery system is not properly installed or maintained as evidenced by the following:
    - a. Spill containment buckets are cracked, rusted, or not clean and empty of liquid; sidewalls are not attached or are otherwise improperly installed; and drain valves are non-functioning or do not seal;
    - b. A fill adaptor collar or vapor poppet (drybreak) is loose, damaged, or has a fill or vapor cap that is not installed or is missing, broken, not securely attached, or missing gaskets;
    - c. Coaxial stage I is not equipped with a functioning CARB-approved poppeted fill tube or the coaxial cap is not installed or is missing, broken, not securely attached, or missing gaskets; or
    - d. A fill tube is missing, broken, or not sealed; has holes or damaged overfill prevention; or the high point of the bottom opening is more than six inches above the tank bottom;
  4. The tank rise cap with instrument lead wire for an electronic monitoring system is not installed tightly or any other tank riser is not sealed and capped securely;
  5. An above-ground storage tank does not display a permanently attached UL approval plaque; or
  6. Any other component identified in the diagrams, exhibits, attachments, or other documents and certified by CARB or required by the ~~authority to construct~~ Authority to Construct permit for that system is missing, disconnected, or malfunctioning.

- E. For proper operation of a stage I vapor recovery system or component under A.R.S. § 3-3512(C)(4), the owner or operator of a gasoline dispensing site shall recover vapors during pump-out from a gasoline storage tank to a mobile transporter.
- F. The owner or operator of a gasoline dispensing site shall ensure that any underground tightness test is conducted in a manner that prevents gasoline vapors being emitted to the atmosphere.

**R3-7-1008. Training and Public Education**

Each owner or operator of a gasoline dispensing site using a stage I vapor recovery system or component shall obtain adequate training and written instructions to enable the system to be installed, operated, and maintained properly in accordance with the manufacturer's specifications and CARB certification. The owner or operator shall maintain documentation of this training onsite and make the documentation available to the Division ~~on~~ within two business days of a request.

**R3-7-1009. Recordkeeping and Reporting**

- A. The owner or operator of a gasoline dispensing site employing a stage I vapor recovery system or component in area A shall maintain records of the inspections done under R3-7-1007.
- B. The owner or operator of a gasoline dispensing site employing a stage I vapor recovery system or component in area A shall maintain a log and related records of all regularly scheduled maintenance and any repairs that have been made to stage I equipment.
- C. The owner or operator of a gasoline dispensing site that is exempt under A.R.S. § 3-3512(B) from requirements to install and operate a stage I vapor recovery equipment system or component shall maintain a log at the site showing monthly throughputs. The owner or operator shall make the log available to the Division within ~~24 hours~~ two business days after request. The owner or operator shall submit to the Division the throughput information required under R3-7-1002(B). If any throughput requirement provided in A.R.S. § 3-3512(B) and this Article is exceeded for any month, the owner or operator shall notify the Division in writing within 30 days. The owner or operator shall, within six months after the end of the month the throughput is exceeded, install and operate a stage I vapor recovery system or component conforming to this Article. If a stage I vapor recovery system is already installed, the owner or operator shall have the system tested under R3-7-1010 within 30 days after the end of the month in which the throughput was exceeded.
- ~~D. The owner or operator of a gasoline dispensing site that has decommissioned a stage II vapor recovery system under R3-7-913 shall maintain a copy of the decommissioning checklist required under R3-7-913(I) for three years.~~
- ~~E.D.~~ Except as specified in subsection (D), the The owner or operator of a gasoline dispensing site shall keep all records required by this Article at the gasoline dispensing site for at least one year and shall make these records available to the Division upon request.

**R3-7-1010. Annual Testing and Inspection**

- A. A person shall ensure that an annual inspection is conducted by a registered service representative on or before the annual inspection date. The annual inspection date is the last day of the month in which the last scheduled annual inspection was performed. A registered service agency shall notify the Division in writing at least 10 business days before an annual inspection of the time, date, and location of the inspection. The Division shall notify the registered service agency within five business days, by ~~fax or~~ e-mail, whether it approves the annual inspection date and time. The registered service agency shall not perform the annual inspection unless the Division approves the inspection date and time.
- B. The annual inspection shall include the tests defined in R3-7-1005(A)(1) through ~~(3)~~ (4) that pertain to the specific vapor recovery system installed.
- C. To verify proper operation of a vapor recovery system, the Division may perform or may require registered service representatives to perform additional tests under ~~R3-7-1005(A)(4)~~ R3-7-1005(A)(5) during the annual inspection and testing. The Division shall provide registered service agencies with six months' notice before requiring additional annual testing under ~~R3-7-1005(A)(4)~~ R3-7-1005(A)(5).
- D. If there is a difference between a testing contractor's test results and the Division's test results, the Division's test results prevail.
- E. If a site fails to pass any of the tests required under subsection (B), the affected vapor recovery system or component shall remain ~~out of service~~ out of service until the vapor recovery system and component pass all tests required under subsection (B).
- F. After an annual inspection begins, a person shall not make a repair to the vapor recovery system or component until the results of the inspection are recorded.
- G. A person shall notify the Division when a stage I vapor recovery system or component is repaired after failing an annual inspection. A registered service representative shall not conduct a reinspection until the Division approves the reinspection date and time.
- H. A registered service representative shall perform all tests according to this Article and any other vapor recovery procedure the Division issues to registered service agencies.
- I. A person that cancels an annual inspection shall notify the Division by calling the Division's designated telephone number at least one hour before the scheduled inspection and shall reschedule the test to be completed by the annual inspection date. A registered service agency shall notify the Division in writing at least 10 business days before an annual inspection of the time, date, and location of the inspection. The Division shall notify the registered service agency within five business days, by ~~fax or~~ e-mail, of its approval of the inspection date and time. The Division shall take enforcement action if a person does not comply with this subsection.
- J. Gasoline dispensing sites located in area B are exempt from the annual inspection and testing requirements of this Section.

**R3-7-1012. Enforcement**

If the Division finds that a stage I vapor recovery system or component is defective or non-compliant with one or more of the provisions of this Chapter or A.R.S. Title 3, Chapter 19, the Division shall issue to the owner or operator an administrative order and place a ~~stop-sale, stop-use~~ Stop-Sale, Stop-Use tag on the non-compliant vapor recovery system or component. The owner or operator may be required to schedule an inspection for a ~~stage II~~ stage I vapor recovery system or component to ensure that it meets all requirements of A.R.S. Title 3, Chapter 19 and this Chapter before the vapor recovery system or component is placed in service.

**R3-7-1013. Stage II Vapor Recovery**

If the Division identifies a gasoline dispensing site operating a stage II vapor recovery system within an ozone nonattainment area designated as moderate, serious, severe, or extreme by the EPA under section 107(d) of the Clean Air Act or in area A after September 30, 2018, the Division shall issue an administrative order to require that the stage II vapor recovery system be decommissioned within three months after identification, and may impose a civil penalty under A.R.S. §§ 3-3473 and 3-3475 ~~and require that the stage II vapor recovery system be decommissioned within three months after identification. Each day the stage II vapor recovery system is not decommissioned after the time specified in the administrative order constitutes a separate violation for the purpose of calculating the civil penalty under A.R.S. § 3-3475.~~

# ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT<sup>1</sup>

## TITLE 3. ARIZONA DEPARTMENT OF AGRICULTURE

### CHAPTER 7. DEPARTMENT OF AGRICULTURE

#### WEIGHTS AND MEASURES SERVICES DIVISION

#### A. Economic, small business and consumer impact summary:

##### 1. Identification of the rulemaking:

In this rulemaking, the Department amends the rules in Title 3, Chapter 7 related to the Department of Agriculture, Weights and Measures Services Division, including:

- Updating the rules in response to a proposal submitted by industry stakeholders to allow the sale of E15 motor fuel (a combination of 85% gasoline and 15% ethanol) within the Cleaner Burning Gasoline (“CBG”)-covered area. The CBG-covered area includes Maricopa County and portions of Pinal and Yavapai Counties, consisting of approximately 60 percent of gasoline sales in the state. E15 is already allowed to be sold in Arizona outside of the CBG-covered area.
- Amending rules to complete the proposed course of action noted in the recent Five-Year Review Report for Title 3, Chapter 7 to provide clarity and consistency with Arizona Revised Statutes, federal standards, and industry standards.
- Streamlining rules to reduce reporting requirements and other regulatory burdens without changing the air quality and/or consumer benefits associated with the programs.
- Updating requirements to remove stage II vapor recovery provisions following the decommissioning of such equipment in 2018, and updating testing methods for stage I vapor recovery.

The Department has conducted an extensive review of the proposed rules with interested stakeholders and taken into consideration numerous comments. Specific updates to the rules include:

- Removal of defined terminology that is no longer used within the rules;
- Streamlining of rules relating to administrative enforcement action to place emphasis on statutes that outline the limits for enforcement action and civil penalties;
- Incorporating requirements for CBG in area C provided by A.R.S. §3-3494.

- Incorporation of the latest edition of NIST handbooks that outline commercial device, method of sale, and packaging requirements;
- Clarifying administrative hearing procedures and the process for motion for rehearing or review;
- Clarifying the process for licensing changes;
- Requiring, upon sale of the commercial device, disclosure that a device has been labeled with an Out-of-Service or Stop-Sale, Stop-Use tag;
- Including requirements that a registered service agency file documentation with the Department when using field calibration standards or vapor recovery test equipment belonging to another registered service agency;
- Reorganization of rules to place commercial device, packaging, and retail pricing requirements in the appropriate Articles;
- Updating retail pricing inspections for clarity and better defining when an inspection is performed for educational purposes;
- Removal of unnecessary requirements for commercial devices and third-party registered service agencies;
- Updating motor fuel specifications and test methods to the most recent version;
- Updating motor fuel signage and description requirements for clarity;
- Addition of requirements to allow for the sale of E15 motor fuel in the Cleaner Burning Gasoline area, including certification, oxygenate blending, and survey procedures;
- Removal of Arizona-specific registration for biofuel blenders, producers, and suppliers;
- Streamlining of certification and reporting requirements for Cleaner Burning Gasoline suppliers;
- Reorganizing and updating CBG survey requirements for clarity;
- Providing an exemption from the summer and winter survey requirements for registered suppliers that provide less than 1,000,000 gallons of CBG to the CBG-covered area per year;
- Updating CBG test methods to provide maximum flexibility for registered suppliers;
- Removal of the averaging compliance option for CBG certification;
- Incorporation of the CARB Static Torque Test as part of initial and annual vapor recovery testing requirements to help protect air quality; and

- General reorganization and editorial changes to improve the clarity and consistency of the rules.
- a. **The conduct and its frequency of occurrence that the rule is designed to change:**

This rulemaking is primarily designed to incorporate language that will allow the sale of E15 motor fuel within the CBG-covered area. The Department has worked closely with the Arizona Department of Environmental Quality (“ADEQ”) and the Environmental Protection Agency (“EPA”) regarding the proposed rulemaking. Following rule completion, ADEQ will submit a revision of the State Implementation Plan for approval by EPA. Currently, E15 motor fuel is prohibited from sale within the CBG-covered area, but is allowed to be sold in the remainder of the state. In addition, the rulemaking is intended to:

  - Reduce the burden on regulated parties by removing requirements that are no longer relevant;
  - Incorporate the CARB Static Torque Test procedure as an additional annual test requirement for vapor recovery systems to prevent gasoline vapor emissions and protect air quality; and
  - Streamline language and improve the clarity and consistency of the rules.
- b. **The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed.**

If these rules are not adopted, motor fuel retailers and consumers may not benefit from any economic opportunities created by allowing the sale of E15 motor fuel within the CBG-covered area. In addition, many provisions for streamlining the rules and improving the overall clarity and consistency of the rules will not be implemented, which may continue unnecessary burden to regulated parties and generate confusion in interpretation of the rules.
- c. **The estimated change in frequency of the targeted conduct expected from the rule change:**

Approval of these rules will provide the opportunity for E15 motor fuel to enter the Arizona marketplace in the CBG-covered area, which may create new economic opportunities and increase the variety of emissions-reducing motor fuels that consumers can choose from at retail. In addition, the rules will continue necessary protections for consumers and businesses while reducing the burden imposed by the rule, and making the rules easier to read and understand.

**2. Brief summary of the information included in the economic, small business and consumer impact statement:**

The Department has revised rules to clarify many areas regulating commercial devices, weighmaster requirements, fuel quality, and vapor recovery. The Department licenses over 120,000 commercial devices at over 12,500 locations, in addition to individual licenses issued to 2,585 weighmasters, 29 vapor service representatives, 144 registered service agencies, 511 registered service representatives, as well as other regulated entities. The businesses that are impacted vary from small business to large corporations. In all cases, the changes to this rule are being implemented to have the least impact on business operations, while continuing to protect air quality and equity in the marketplace.

**3. Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:**

Name: Kevin Allen

Address: Department of Agriculture  
Weights and Measures Services Division  
1802 W. Jackson Street, #78  
Phoenix, AZ 85007

Telephone: (480) 848-1709

E-mail: kallen@azda.gov

Website: agriculture.az.gov

**B. Economic, small business and consumer impact statement:**

**1. Identification of the rulemaking:**

See paragraph (A)(1) above.

**2. Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:**

Motor fuel suppliers, retailers, and consumers will be directly affected by the rulemaking, and may directly benefit from economic opportunities created by allowing the sale of E15 motor fuel in the CBG-covered area. Since the sale of E15 motor fuel is a marketing decision, there are no mandatory costs; however, gasoline retailers that decide to sell this

type of gasoline may incur costs to comply with the rules and to ensure their gasoline storage tank systems and dispensers are compatible with E15 motor fuel.

Registered suppliers and biofuel producers will benefit through the removal of unnecessary reporting requirements. There may be a benefit to registered suppliers that certify CBG by allowing the use of additional test methods and a model (CARBOB model) for certification of CBG. The use of this model has been pending approval from EPA. With the immediate allowance of the use of the model, analysis of approximately 1,000 samples per year may be avoided through the use of the model. If EPA approves the State Implementation Plan prior to the effective date of this rulemaking, the use of the model will be allowed at that time. Additionally, allowing the use of additional test methods approved by EPA and CARB allows registered suppliers flexibility, saving both money and time.

All persons, including regulated parties, will benefit from rules that are simplified and have improved clarity, while continuing to uphold maximum protections for consumers, businesses, and the environment.

Motor fuel retailers who operate gasoline vapor recovery systems in the Phoenix and Tucson metropolitan areas may bear minimal, but additional testing costs and equipment replacement costs (for failing equipment) by mandating the CARB Static Torque Test as part of the initial and annual vapor recovery test requirements. In addition, vapor recovery registered service agencies and the Department may bear minimal costs to procure the equipment necessary to perform the CARB Static Torque Test and training necessary to conduct the test.

**3. Analysis of costs and benefits occurring in this state:**

Cost-revenue scale. Annual costs or revenues are defined as follows:

**Minimal**      Less than \$50,000

**Moderate**    \$50,000 to \$150,000

**Substantial**   \$150,000 or more

**a. Probable costs and benefits to the Department of Agriculture and other agencies directly affected by the implementation and enforcement of the rulemaking:**

Implementation of the rule may add minimal costs to the Department of Agriculture through sampling and testing of E15 motor fuel to ensure compliance with applicable fuel quality and performance specifications and training required to implement the CARB Static Torque Test. However, the Department will benefit by streamlining of the rules, which decreases the amount of time required to implement and enforce the rules. In particular, simplification and/or elimination of reporting requirements for CBG producers and biofuels producers may reduce the amount of administrative time required by Department staff to oversee these programs. ADEQ will have administrative costs related to the development and submittal of the State Implementation Plan Revision, which will be required for approval by EPA. The Department does not expect that the rulemaking will impose additional costs on other agencies.

**b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the rulemaking:**

Political subdivisions with stage I vapor recovery in the Phoenix and Tucson metropolitan areas will realize a minimal cost to conduct the CARB Static Torque Test on new and modified installations, as well as during annual testing in the Phoenix metropolitan area.

Political subdivisions in the CBG-covered area may benefit from the option to use E15 motor fuel.

**c. Probable costs and benefits to businesses directly affected by the rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the rulemaking:**

Retailers may directly benefit from economic opportunities created by allowing the sale of E15 motor fuel in the CBG-covered area.

Motor fuel retailers who operate gasoline vapor recovery systems in the Phoenix and Tucson metropolitan areas may have minimal additional testing costs with the requirement to complete the CARB Static Torque Test as part of the initial and annual vapor recovery test requirements. In addition, vapor recovery registered service agencies may have minimal costs to procure the equipment necessary to perform the CARB Static Torque Test and training required to implement the test.

Registered suppliers and biofuel producers will benefit from reduced reporting requirements, which may decrease the amount of staff resources dedicated to ensuring compliance with Department requirements. More flexible test methods for laboratory testing, and the option to use a model in lieu of laboratory testing for certification of CBG, will benefit registered suppliers.

All businesses regulated by the Department will benefit from rules that are simplified and have improved clarity and consistency.

**4. General description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the rulemaking:**

The Department does not expect the rulemaking to have an impact on private or public employment.

**5. Statement of the probable impact of the rulemaking on small businesses:**

**a. Identification of the small businesses subject to the rulemaking:**

Small businesses subject to the rulemaking include, but are not limited to, motor fuel dispensing sites, retailers, grocers, markets, biofuel producers and blenders, motor fuel distribution terminals, and other operators of commercial weighing and measuring devices.

**b. Administrative and other costs required for compliance with the rulemaking:**

The Department does not expect additional administrative or other costs that would be required for compliance with the rulemaking.

**c. Description of the methods that the Department may use to reduce the impact on small businesses:**

The Department does not expect the rulemaking to have a significant impact on small businesses and therefore has not developed methods to reduce any impacts.

**d. Probable cost and benefit to private persons and consumers who are directly affected by the rulemaking:**

The Department regulates businesses to promote equity in the marketplace and protect air quality. These rules will continue those protections to consumers and individuals. The allowance of the sale of E15 motor fuel in the CBG-covered area may provide consumers with an additional gasoline choice for their vehicles.

**6. Statement of the probable effect on state revenues:**

The Department does not anticipate any effect on state revenues because of the rulemaking.

**7. Description of any less intrusive or less costly alternative methods of achieving the purpose of the rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using non-selected alternatives:**

The Department consulted with the stakeholders to evaluate the rules in an effort to reduce the regulatory burden while continuing protections for consumers and air quality.

As such, the Department has chosen the least intrusive and costly methods.

**C. Explanation of limitations of the data and the methods that were employed in the attempt to obtain the data and a characterization of the probable impacts in qualitative terms. The absence of adequate data, if explained in accordance with this subsection, shall not be grounds for a legal challenge to the sufficiency of the economic, small business and consumer impact statement:**

None.

### § R3-7-101. Definitions

The definitions in A.R.S. §3-3401, 3-3414, 3-3436, and 3-3511 and the following definitions apply to this Chapter:

1. "ADEQ" means the Arizona Department of Environmental Quality.
2. "Administrative order" means a corrective action notice that the Division issues for a violation of A.R.S. Title 3, Chapter 19, or this Chapter, that orders a person to:
  - a. Remove from use or sale, or dispose of, a commercial device, commodity, or liquid fuel;
  - b. Stop selling a commodity or liquid fuel until the person provides documentation to the Division that the weight, measure, fuel quality, or price posting complies with the requirements of A.R.S. Title 3, Chapter 19, and this Chapter;
  - c. Stop using a commercial device, commodity, liquid fuel, vapor recovery system, or vapor recovery system component, until the person provides documentation to the Division that the weight, measure, fuel, vapor recovery system, or component complies with the requirements of A.R.S. Title 3, Chapter 19, and this Chapter;
  - d. Stop performing weighmaster, deputy public weighmaster, registered service agency, or registered service representative licensed duties until the person provides documentation to the Division that the person is complying with the requirements of A.R.S. Title 3, Chapter 19, and this Chapter;
  - e. Comply with labeling, policies, and cash register indicator displays according to A.R.S. Title 3, Chapter 19, and this Chapter;
  - f. Stop constructing or modifying a vapor recovery system until the person complies with A.R.S. Title 3, Chapter 19, and this Chapter;
  - g. Excavate a vapor recovery site according to R3-7-104(L); or
  - h. Comply with scheduling a test according to R3-7-104(L).
3. "Application" means, for purposes of R3-7-108, forms and all documents and additional information the Division requires an applicant to submit when applying for a license.
4. "ASTM" means American Society for Testing and Materials.
5. "Area A" has the same meaning as in A.R.S. §49-541.

6. "Area B" has the same meaning as in A.R.S. §49-541.
7. "CARB" means the California Air Resources Board.
8. "CARB certified" means, with respect to a vapor recovery system, that the system has been certified in an executive order of the CARB.
9. "Certified prover" means a calibrated device, traceable to the National Institute of Standards and Technology, used for measuring liquid volume.
10. "Completion of construction" means the point when a gasoline dispensing site is placed into or returned into service following installation or modification of an approved vapor recovery system.
11. "Construction commenced" means the point in time when construction of a gasoline dispensing site begins:
  - a. At a location where there was not one previously;
  - b. To replace all gasoline storage tanks; or
  - c. To replace, repair, or modify at least 75% of the facility's gasoline dispensing equipment.
12. "EPA" means the United States Environmental Protection Agency.
13. "Gasoline vapors" means volatile organic compounds in a gaseous state.
14. "Handbook 44" means the United States Department of Commerce, Technology Administration, National Institute of Standards and Technology (NIST) Handbook 44, *Specifications, Tolerances, and Other Technical Requirements for Weighing and Measuring Devices*, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (2018 edition), incorporated by reference and on file with the Division. This incorporation by reference contains no future editions or amendments.
15. "Handbook 130" means the United States Department of Commerce, Technology Administration, National Institute of Standards and Technology (NIST) Handbook 130, *Uniform Laws and Regulations*, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (2018 edition), incorporated by reference and on file with the Division. This incorporation by reference contains no future editions or amendments.

16. "Handbook 133" means the United States Department of Commerce, Technology Administration, National Institute of Standards and Technology (NIST) Handbook 133, *Checking The Net Contents of Packaged Goods*, Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov (January 2018 edition), incorporated by reference and on file with the Division. This incorporation by reference contains no future editions or amendments.
17. "Malfunction" means any failure of gasoline vapor recovery equipment to operate in the normal and usual manner.
18. "Modification" means adding to, replacing, or upgrading a site's stage II vapor recovery system, but does not include the repair or replacement of like parts.
19. "Monthly throughput" means the total amount of gasoline transferred into or dispensed from a gasoline dispensing site during one calendar month.
20. "Motor vehicle" means any vehicle equipped with a spark-ignited internal combustion engine, except vehicles that run on or are guided by rails, and vehicles that are designed primarily for travel through air or water.
21. "NCWM" means the National Conference on Weights and Measures.
22. "NIST" means the National Institute of Standards and Technology.
23. "Operator" means a person in control of, or having responsibility for, the daily operation of a gasoline dispensing site.
24. "Out-of-service tag" means a red rejection tag that signifies a commercial device does not meet the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, or this Chapter.
25. "Person" as defined in A.R.S. §3-3401, means an owner or operator of a commercial device or vapor recovery system, retail seller, wholesaler, registered supplier, pipeline distributor, packer, manufacturer, licensee, transporter, or consignee.
26. "Placed in service" means the certification by a registered service agency or representative that a commercial device meets the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter, and may be used, unless the Division orders otherwise.

27. "Placed-in-service report" means the form that a registered service representative completes and submits to the Division after placing a commercial device in service.
28. "Product transfer document" means the bill of lading, loading ticket, manifest, delivery receipt, invoice, or other customarily used documentation to denote delivery information for motor fuel.
29. "Retail" means the sale of a commodity to a consumer for profit by someone in the business of selling the commodity.
30. "Seal of authority" means a stamp or press of the Division's official mark, issued to a public weighmaster, certifying the weighmaster's authority to issue weight certificates.
31. "Service Counter" means a display staffed by a sales associate and requires a customer to receive assistance in order to purchase a product.
32. "Seizure" means taking into physical possession, or otherwise securing for evidence, a commodity, liquid fuel, weight, measure, commercial device, or component of a device by the Division.
33. "Stage II vapor recovery" means a system where at least ninety percent by weight of the gasoline vapors that are displaced or drawn from a vehicle fuel tank during refueling are transferred to a vapor-tight holding system or vapor control system.
34. "Stop-sale, stop-use tag" means a blue tag or blue tape that signifies that a commercial device, including a vapor recovery system or vapor recovery component, or a commodity or liquid fuel, does not meet the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, Handbook 130, Handbook 133, CARB Executive Orders, or this Chapter.
35. "Third-party registered service agency" means a registered service agency that performs work under contract for any business or company.
36. "Underground storage tank" means a tank as described in A.R.S. § 491001.
37. "Unit" means a quantity adopted as a standard of measurement.
38. "Vapor recovery registered service representative" means an individual to whom the Division has issued a license authorizing the individual to conduct all vapor-recovery tests required under A.R.S. Title 3, Chapter 19 or this Chapter including annual vapor-recovery tests.

39. "Warning tag" means a yellow tag that signifies a commercial device, vapor recovery system, or vapor recovery component does not comply with A.R.S. Title 3, Chapter 19, Handbook 44, CARB Executive Orders, or this Chapter.

40. "Weight certificate" means a document, issued by a public weighmaster in a form approved by the Division, which certifies the accuracy of the weight of the commodity measured.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-103. Licensing and Fees**

A. A license is effective on the first day of the month following the date that the license application is filed with the Division. If an application is filed on the first of a month and is complete and accurate, the license is effective on the first day of that month.

B. A payment is delinquent if not received or postmarked on or before the due date. The Division shall not process a license or renewal application for which payment is delinquent.

C. If the Division receives payment for a license that excludes the payment of applicable late fees or past due civil penalties, the Division shall apply the license fee payment to the licensee's account and issue a separate invoice for the additional monies owed to the Division. The license will not be issued by the Division until all fees due are paid.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-104. Administrative Enforcement Action**

A. The Division shall take progressive enforcement action for a violation of A.R.S. Title 3, Chapter 19, CARB Executive Orders, Handbook 44, Handbook 130, Handbook 133, or this Chapter.

B. The Division shall make available a copy of its inspection report to the person who owns or operates a location that the Division inspects. The report shall include the inspection results and violation. The Division shall send a copy of the inspection report to the owner of a location by e-mail if the owner has provided an e-mail address to the Division. Inspection results and violations shall be posted on the Division website.

C. The person who owns or operates a location inspected by the Division may request a hearing under R3-7-109 to dispute the inspection results, violation, or enforcement action.

D. The Division shall suspend, revoke, or refuse to renew any license if the licensee does not comply with an enforcement action imposed under this Section.

E. A maximum civil penalty may be doubled as stated in A.R.S. §3-3475(C).

F. Commercial device.

1. The Division may place out of service an unlicensed commercial device that it determines has been in use for more than 30 days.

2. The Division may confiscate a commercial device when a person violates an administrative order related to that commercial device, or removes a warning tag, out-of-service tag, or stop-sale, stop-use tag issued to that commercial device without Division authority.

3. The Division may condemn and confiscate a weight, measure, or other commercial device that the Division determines is incorrect and not capable of compliance with Handbook 44.

4. The Division shall issue an out-of-service tag or a stop-sale, stop-use tag if a commercial device is not in compliance with the requirements in A.R.S. Title 3 Chapter 19, Handbook 44 or this Chapter and the lack of compliance creates a situation favorable to the person who owns or operates the commercial device.

a. A person shall not use a commercial device that has an out-of-service tag until the person repairs the commercial device.

b. A person shall not sell or use a commercial device that has a stop-sale, stop-use tag until the commercial device meets the requirements of A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter.

5. The Division shall issue a warning tag when a commercial device is not in compliance with the requirements in A.R.S. Title 3, Chapter 19, Handbook 44, or this Chapter and the lack of compliance creates a situation favorable to the consumer. The Division shall issue an out-of-service tag if the commercial device is not repaired by the deadline on the warning tag. A person shall not use a commercial device after the period specified on the warning tag for repair unless the commercial device complies with A.R.S. Title 3, Chapter 19, Handbook 44, and this Chapter.

6. The Division may issue an out-of-service tag if a commercial device does not have a non-tampering seal affixed.

7. The Division shall issue an out-of-service tag if a Division inspector cannot conduct an inspection of a commercial device because of malfunction, abnormal performance, or a potential safety risk that the person who owns or operates the commercial device does not correct within 30 minutes of the attempted inspection.

8. The Division shall issue an out-of-service tag if a commercial device cannot begin weighing, measuring, metering, or counting at zero as prescribed in Handbook 44.

9. The Division shall issue a warning tag if the manufacturer's plate on a commercial device does not contain the information required by Handbook 44, is missing, or is unreadable. The Division shall issue an out-of-service tag if the person who owns or operates a commercial device does not obtain a compliant manufacturer's plate by the 30-day deadline imposed on the warning tag.

10. The Division shall issue a warning tag to a person who did not construct a large-scale approach according to Handbook 44. The Division shall issue a stop-sale, stop-use tag if the large-scale approach is not made compliant by the deadline imposed on the warning tag.

11. In addition to any enforcement action under subsections (F)(1) through (10):

a. If the Division finds during an inspection that a commercial device does not comply with the requirements of A.R.S. Title 3, Chapter 19, or this Chapter and the lack of compliance favors the owner or operator of the commercial device:

- i. The Division may impose a civil penalty up to \$300 on the person who owns or operates the commercial device; and
  - ii. The Division may impose a civil penalty up to \$500 on the person who owns or operates the commercial device for each reinspection until the commercial device is in compliance.
- b. If the Division finds during an inspection that a person who weighs a product on a commercial device violates Handbook 44 or does not post rates according to Handbook 44 or this Chapter:
- i. The Division may issue an administrative order to the person at the conclusion of the inspection and impose a civil penalty up to \$300; and
  - ii. The Division may issue an administrative order to the person and impose a civil penalty up to \$500 at each reinspection until the person complies with Handbook 44 and this Chapter.
- G. Public and deputy public weighmaster.
- 1. The Division may issue an administrative order if a public weighmaster's:
    - a. Weigh tickets are not in numbered sequence or are missing,
    - b. The seal, press, or electronic seal is not readable, or
    - c. Records are not maintained according to R3-7-505.
  - 2. The Division may issue an administrative order and impose a civil penalty up to \$500 on a public weighmaster if:
    - a. The public weighmaster's weigh tickets contain inaccurate information,
    - b. The public weighmaster violates an administrative order,
    - c. The public weighmaster misuses a seal or press or has an unauthorized seal or press; or
    - d. The public weighmaster misuses an electronic seal or signature.
  - 3. The Division shall confiscate a seal or press if a public weighmaster violates an administrative order issued to the public weighmaster.
  - 4. The Division shall suspend, revoke, or refuse to renew a license if a public weighmaster does not comply with an enforcement action under this Section.

5. The Division shall issue an administrative order and a civil penalty up to \$300 to a person who performs public weighmaster duties without a license.

6. If a public weighmaster permits an unlicensed person to perform deputy public weighmaster duties, the Division may:

a. Impose a civil penalty up to \$300 on the public weighmaster for the first time the public weighmaster permits an unlicensed person to perform deputy public weighmaster duties;

b. Impose a civil penalty up to \$500 on a public weighmaster for the second time the public weighmaster permits an unlicensed person to perform deputy public weighmaster duties; and

c. Confiscate the public weighmaster's records, equipment, and devices if the public weighmaster permits an unlicensed person to perform deputy public weighmaster duties more than twice.

#### H. Packaging.

1. The Division shall issue an administrative order to an owner or an employee of the owner where a package inspection is held if a package is not in compliance with a requirement in Handbook 130 or Handbook 133. The person to whom the administrative order is issued shall correct the package violation by:

a. Returning the package to the packer or manufacturer,

b. Labeling the package to reflect its correct quantity,

c. Placing a notice on the package that states the violation and pricing the package to reflect its correct quantity, or

d. Repackaging the commodity so the package contains the quantity represented.

2. In addition to an administrative order, the Division may impose a civil penalty up to \$500 per lot on a person who violates a requirement in Handbook 130 or Handbook 133.

#### I. Price verification.

1. The initial inspection of a retail location for price verification is for educational purposes and an enforcement action will not be imposed for a violation identified during the initial inspection.

2. The Division shall issue a stop-sale, stop-use tag to a person who fails a price verification inspection if the violation cannot be corrected within 30 minutes of the Division completing the inspection.
    - a. The Division may impose a civil penalty up to \$100 per violation on a person who fails a reinspection if the Division finds more than one item at more than its posted price.
    - b. The Division may impose a civil penalty up to \$200 per violation on a person who fails a second reinspection. The Division shall increase the per violation civil penalty imposed by \$100 for each subsequent reinspection until the violation is corrected.
  3. If the Division receives and substantiates a complaint about a person against whom the Division took an administrative enforcement action under subsection (I)(2) within the 60 days before the date of the complaint, the Division shall issue a stop-sale, stop-use tag and impose a civil penalty that is \$100 more than the civil penalty that the Division previously imposed against this person.
  4. The Division may issue a warning tag to a person who does not have a written price-error policy. The Division may impose a civil penalty up to \$500 if the person does not have a written price-error policy upon reinspection.
  5. The Division shall issue a warning tag to a person who does not have a price display visible to the consumer at a check-out location. The Division shall issue an out-of-service tag if the person does not have a price display visible to the consumer at a check-out location upon reinspection.
- J. Price posting.
1. The initial inspection of a retail location for price posting is for educational purposes and an enforcement action will not be imposed for a violation identified during the initial inspection.
  2. The Division shall issue a stop-sale, stop-use tag to a person who fails a price posting inspection if the violation cannot be corrected within 30 minutes of the Division completing the inspection.
  3. The Division may impose a civil penalty up to \$50 for each inspected lot not priced if a person fails a reinspection with a score of less than 96 percent.
  4. The Division may impose a civil penalty up to \$100 for each inspected lot not priced if a person fails a second reinspection.

5. If the Division receives and substantiates a complaint about a person against whom the Division took an administrative enforcement action under subsection (J)(2) within the 60 days before the date of the complaint, the Division shall issue a stop-sale, stop-use tag and impose a civil penalty that is \$100 more than the civil penalty that the Division previously imposed against this person.

**K. Fuel quality and labeling.**

1. The Division shall issue a warning tag to a person whose fuel dispenser labeling violates A.R.S. Title 3, Chapter 19, or this Chapter. The Division shall issue an out-of-service tag to the person if the person does not correct the fuel dispenser labeling violation within the time specified on the warning tag.

2. The Division may issue an administrative order to a person whose fuel storage tank labeling or external street signage violates A.R.S. Title 3, Chapter 19, or this Chapter. The Division may impose a civil penalty up to \$300 if the person does not correct the labeling or signage violation within the time specified in the administrative order.

3. The Division may issue an administrative order and impose a civil penalty up to \$500 per octane level or fuel grade to a person who violates a fuel-quality requirement under A.R.S. Title 41, Chapter 15, or this Chapter. The person shall correct the violation by:

- a. Removing non-compliant motor fuel from the storage tank and replacing it with compliant motor fuel,
- b. Selling the motor fuel at the correct octane level,
- c. Adding sufficient compliant motor fuel to the storage tank to bring the motor fuel in the storage tank into compliance,
- d. Removing all water from the storage tank or emptying the tank per R3-7-711 or R3-7-712, or
- e. Removing the non-compliant motor fuel to another area within the state if the motor fuel complies with specifications of that area.

4. The Division may issue an administrative order to a person who does not provide requested product transfer documentation within 24 hours of the Division's request. The Division may impose a civil penalty up to \$300 on a person who provides the requested documentation between 24 and 72 hours. The Division may impose a civil penalty up to \$500 on a person who does not provide the requested documentation within 72 hours.

L. Vapor recovery.

1. The Division may issue an administrative order to stop construction at a vapor recovery site and impose a civil penalty up to \$500 on a person who:

a. Begins construction or makes a major modification without an authority to construct plan approval,

b. Does not comply with the authority to construct plan approval, or

c. Does not obtain an approved change order for construction or major modification of the vapor recovery site unless:

i. The vapor recovery system and its components comply with A.R.S. Title 3, Chapter 19, and this Chapter; and

ii. The vapor recovery system passes the required vapor recovery tests according to A.R.S. Title 3, Chapter 19, and this Chapter.

2. The Division may issue an administrative order requiring a person to excavate a vapor recovery site if the person covers a vapor recovery component before a Division pre-burial inspection and may impose a civil penalty up to \$500 civil penalty if the excavated system does not pass required vapor recovery tests according to A.R.S. Title 3, Chapter 19, and this Chapter.

3. The Division shall issue an administrative order if a person fails to ensure that a vapor recovery site passes an initial test within 90 days of being opened or passes an annual test within the designated test month. The Division shall issue a stop-sale, stop-use tag if the person does not comply with the administrative order.

4. The Division may impose a civil penalty up to \$100 on a person who does not have an authority to construct plan approval available for inspection at the construction site during normal business hours.

5. The Division may issue a warning tag to a person whose vapor recovery system labeling does not comply with R3-7-713. The Division may issue a stop-sale, stop-use tag and impose a civil penalty up to \$500 on a person who does not correct a labeling violation within the time specified on a warning tag.

6. The Division shall issue a stop-sale, stop-use tag to a person whose vapor recovery system fails a test under R3-7-905, R3-7-910, R3-7-1005, or R3-7-1010. If the test failure is isolated to a system component, the Division's

stop-sale, stop-use tag shall pertain to that component so the rest of the system may operate.

M. The Division may impose a civil penalty up to \$500 and issue another stop-sale, stop-use tag to a person who violates a stop-sale, stop-use tag. The Division may impose a civil penalty up to \$500 and revoke, suspend, or refuse to renew a commercial device license if a person removes a stop-sale, stop-use tag without approval.

N. Registered service agency and registered service representative.

1. If a registered service agency submits to the Division an inaccurate or incomplete placed-in-service or test report, the Division may impose a civil penalty up to \$50 on the agency each time the agency resubmits a placed-in-service or test report without making all needed corrections.

2. The Division may impose a civil penalty up to \$300 on a registered service representative who incorrectly:

- a. Installs a commercial device,
- b. Repairs a commercial device,
- c. Tests a vapor recovery system, or
- d. Repairs a vapor recovery system.

3. If an unlicensed person represents itself as a registered service agency, the Division may:

- a. Issue an administrative order,
- b. Impose a civil penalty up to \$500 and confiscate the unlicensed person's calibration standards if the unlicensed person violates the administrative order, and
- c. Deny a registered service agency license to the unlicensed person if the unlicensed person fails to comply with the enforcement action under this subsection.

4. The Division may issue an administrative order to an unlicensed person who performs the duties of a registered service representative. The Division may impose a civil penalty up to \$300 on the registered service agency for which the unlicensed individual works.

5. The Division may issue an administrative order if a registered service representative places a commercial device into service without Division

authorization. The Division may impose a civil penalty up to \$500 on the registered service agency whose representative places a commercial device into service without Division authorization.

6. The Division may impose a civil penalty up to \$500 on a registered service agency whose registered service representative uses a metrology standard or vapor recovery testing equipment that is not certified according to this Chapter and, as applicable, CARB test methods. The Division may confiscate a metrology standard or vapor recovery testing equipment if a registered service representative uses the uncertified standard or equipment after the registered service agency is penalized. The Division shall return the standard or equipment when it is properly certified.

7. The Division shall issue an administrative order to a vapor recovery registered service agency or person who owns a vapor recovery system that does not, according to A.R.S. Title 3, Chapter 19, and this Chapter:

- a. Notify the Division of a test date and time,
- b. Begin a test at the approved time,
- c. Appear for a witnessed test,
- d. Close a vapor recovery system for repairs if the system fails, or
- e. Perform a test.

8. The Division may impose a civil penalty up to \$300 on a vapor RSA that violates subsections (M)(7)(a), (b), (d), or (e). The Division may impose a civil penalty up to \$300 on a vapor recovery registered service agency that violates subsection (M)(7)(c) twice in 12 months.

9. If a registered service agency's registered service representative does not attach a non-tampering seal on a commercial device that is equipped for a seal, the Division may:

- a. Impose a civil penalty up to \$300 on the registered service agency for the first violation, and
- b. Impose a civil penalty up to \$500 on the registered service agency for each subsequent violation by the registered service representative.

10. If a registered service representative determines that a vapor recovery system or component is not in compliance with A.R.S. Title 3, Chapter 19, or this Chapter, the registered service representative shall:

- a. Secure the non-compliant vapor recovery system or component from use before the registered service representative leaves the vapor recovery site or until the system or component passes the tests required by R3-7-910;
  - b. Notify the Division of the secured, non-compliant vapor recovery system or component before leaving the vapor recovery site; and
  - c. Notify the Division of the time of the test required by R3-7-910 or R3-7-1010 by 6:00 a.m. of the day after the non-compliant vapor recovery system or component is secured or one hour before the test, whichever is sooner.
11. If a registered service representative fails to comply with subsection (M)(10)(b) or (c), the Division may:
- a. Impose a civil penalty up to \$300 on the registered service representative;
  - b. Issue an administrative order, if the registered service representative is penalized under this subsection three times in 12 months, requiring the registered service representative to take and pass the licensing competency examination; and
  - c. Suspend or revoke the license of the registered service agency employing the registered service representative if the registered service representative does not comply with an order issued under subsection (M)(11)(b).
12. If a registered service representative fails to notify the Division of a non-compliant commercial device under R3-7-602(B)(1)(f), the Division may impose a civil penalty up to \$300.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-108. Time-frames for Licenses, Renewals, and Authorities to Construct**

A. For each type of license, renewal, or authority issued by the Division, the overall time-frame described in A.R.S. §41-1072(2) is set forth in Table 1.

B. For each type of license, renewal, or authority issued by the Division, the administrative completeness review time-frame described in A.R.S. §41-1072(1) is set forth in Table 1 and begins on the date the Division receives an application.

1. If the application is not administratively complete, the Division shall send a deficiency notice to the applicant.

a. The deficiency notice shall state each deficiency and the information needed to complete the application.

b. Within the time provided in Table 1 for response to the deficiency notice, the applicant shall submit to the Division the missing information specified in the deficiency notice. The time-frame for the Division to finish the administrative completeness review is suspended from the date the Division mails or e-mails the deficiency notice to the applicant until the date the Division receives the missing information.

c. If the applicant does not submit the missing information within the time to respond to the deficiency notice set forth in Table 1, the Division shall send a written notice to the applicant informing the applicant that the application is deemed withdrawn. An applicant who desires to reapply shall begin the application process anew.

2. If the application is administratively complete, the Division shall send a written notice of administrative completeness to the applicant. If the Division, within 10 days of submittal, fails to send a written notice of administrative completeness or deficiency notice outlined in subsection (B)(1), the application shall automatically be deemed administratively complete.

C. For each type of license, renewal, or authority issued by the Division, the substantive review time-frame described in A.R.S. §41-1072(3) is set forth in Table 1 and begins on the date the Division sends written notice of administrative completeness to the applicant.

1. During the substantive review time-frame, the Division may make one comprehensive written request for additional information. The applicant shall submit the additional information within the time provided in Table 1 for response to a comprehensive written request for additional information.

**Ariz. Admin. Code R3-7-108 Time-frames for Licenses, Renewals,  
and Authorities to Construct (Arizona Administrative Code (2022  
Edition))**

---

The time-frame for the Division to finish the substantive review is suspended from the date the Division mails or e-mails the request until the Division receives the information.

2. If the applicant does not submit the requested additional information within the time-frame in Table 1, the Division shall issue a written notice informing the applicant that the application is deemed withdrawn. The applicant may request in writing that the Division deny the application within 15 days of the date of the notice of withdrawal. An applicant who desires to reapply shall begin the application process anew.

3. The Division shall issue a written notice of denial of license, renewal, or authority if the Division determines that the applicant does not meet all of the substantive criteria required by A.R.S. Title 3, Chapter 19, and this Chapter for a license, renewal, or authority. The notice of denial shall include:

a. Reasons for the denial, with citations to the statutes or rules on which the denial is based; and

b. The name and telephone number of a Division employee who can answer questions regarding the application process.

4. If the applicant meets all of the substantive criteria required by A.R.S. Title 3, Chapter 19, and this Chapter for a license, renewal, or authority the Division shall issue the license, renewal, or authority to the applicant.

D. The time period for an applicant to respond to a deficiency notice or request for additional information shall commence on the date of personal service or the postmark date.

E. In computing any time period prescribed in this Section, the day of the act, event, or default shall not be included. The last day of the period shall be included unless it is Saturday, Sunday, or a state holiday, in which event the period runs until the end of the next day that is not a Saturday, Sunday, or state holiday. The computation shall include intermediate Saturdays, Sundays and holidays.

F. An applicant whose license, renewal, or authority is denied has a right to a hearing, an opportunity for rehearing, and if the denial is upheld, judicial review pursuant to A.R.S. Title 41, Chapter 6, Articles 6 and 10, and A.R.S. Title 12, Chapter 7, Article 6.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**Ariz. Admin. Code R3-7-108 Time-frames for Licenses, Renewals,  
and Authorities to Construct (Arizona Administrative Code (2022  
Edition))**

---

**§ R3-7-109. Administrative Hearing Procedures**

A.R.S. Title 41, Chapter 6, Articles 6 and 10 apply to the Division's hearings.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-110. Motion for Rehearing or Review**

A. Except as provided in subsection (G), any party in a contested case or appealable agency action before the Division who is aggrieved by a decision rendered in the case may file with the Division, a written motion for rehearing or review of the decision, pursuant to A.R.S. Title 41, Chapter 6, Article 10, specifying the particular grounds for the motion.

B. A motion for rehearing or review may be amended at any time before it is ruled upon by the Division. A response may be filed within 15 days after service of the motion or amended motion by any other party. The Division may require the filing of written briefs upon the issues raised in the motion and may provide for oral argument.

C. A rehearing or review of the decision may only be granted for any of the following reasons materially affecting the moving party's rights or ability to receive a fair hearing:

1. Any irregularity in the hearing, order, or abuse of discretion by the administrative law judge or the Division.
2. Misconduct of the Division, the administrative law judge, or the prevailing party.
3. Accident or surprise that could not have been prevented by ordinary prudence.
4. Newly discovered material evidence that could not have been discovered with reasonable diligence and produced at the original hearing.
5. Excessive or insufficient penalties.
6. Error in the admission or rejection of evidence or other errors of law occurring at the hearing.
7. That the decision is not justified by the evidence or is contrary to law.

D. The Division may affirm or modify its decision, or grant a rehearing or review. After giving the parties or their counsel notice and an opportunity to be heard, the Division may grant a rehearing or review for a reason not stated in a party's motion. An order granting a rehearing or review shall specify the grounds on which the rehearing or review is granted. The rehearing or review shall cover only those matters so specified.

E. The Division, within the time for filing a motion for rehearing or review under this rule, may order a rehearing or review for any of the reasons set

forth in subsection (C), after giving the parties notice and an opportunity to be heard.

F. When a motion for rehearing or review is based upon affidavits, the moving party shall serve the affidavits with the motion. An opposing party has 15 days from the date of service to serve opposing affidavits. The Division may extend the period to respond up to 20 days for good cause, or by written stipulation of the parties. If the Division permits reply affidavits, the replying party has five days in which to serve them.

G. If the Division makes specific findings that the immediate effectiveness of a decision is necessary for the immediate preservation of the public peace, health, and safety and that a rehearing or review of the decision is impracticable, unnecessary, or contrary to the public interest, the Division may issue the decision as a final decision without an opportunity for a rehearing or review. If a decision is issued as a final decision without an opportunity for rehearing or review, any application for judicial review of the decision shall be made within the time limits permitted for applications for judicial review of the Division's final decision.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**Table 1 Time-frames (calendar days) (Arizona Administrative Code (2022 Edition))**

---

**TABLE 1. Time-frames (calendar days)**

<b>Type of License</b>	<b>Authority</b>	<b>Administrative Completeness Review</b>	<b>Response to Completion Request</b>	<b>Substantive Completeness Review</b>	<b>R A I</b>
Commercial Device	R3-7-201	14	28	30	3
Public Weighmaster	R3-7-501	14	28	30	3
Registered Service Agency/Representative	R3-7-601	14	28	30	3
Authority to Construct	R3-7-904 R3-7-1004	14	28	30	3

**History:**

Article 1, Table 1, Time-frames (in days), recodified from 20 A.A.C. 2, Article 1, Table 1, Time-frames (in days), at 22 A.A.R. 2786, effective August 15, 2016 (Supp. 16-3). Amended by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-201. Licensing Process**

Before using a commercial device, a person or a contracted registered service representative shall apply for a license for the commercial device. The commercial device may be used without a license for up to 30 days after an application is filed with the Division. The application shall be on a form supplied by the Division that includes:

1. The applicant's name, address, and telephone number;
2. The name, address, and telephone number of the location where the commercial device will be operated;
3. A description of the commercial device;
4. The applicant's signature; and
5. An e-mail address for the owner or operator for the Division to provide licenses, invoices, inspections and reports, enforcement action, and other notifications.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-203. Approval, Installation, and Sale of Devices**

A. A commercial device installed or placed in use after January 1, 1975, shall have an NCWM National Type Evaluation Program (NTEP) Certificate of Conformance or have a certificate of approval from the California Type Evaluation Program. NTEP Certificate of Conformance issuance may be verified at the NCWM website: [http://www.ncwm.net/ntep/cert\\_search](http://www.ncwm.net/ntep/cert_search) .

1. If a commercial device has been continuously licensed, or evidence shows it has been in use by the owner in Arizona since January 1, 1975, the commercial device is exempt from NCWM or California Type Evaluation Program prototype approval.

2. If a commercial device exempt under subsection (A)(1) fails the specifications, tolerances, or other technical requirements of Handbook 44 during a Division inspection, the Division shall issue an out of service tag or confiscate the device per R3-7-104(F)(3) and revoke the commercial device license. A person shall no longer use the device commercially.

B. The seller of a commercial device that is remanufactured for the purpose of commercial sale shall mark the commercial device as remanufactured.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-302. Handbook 130 and Handbook 133**

A. A person shall comply with all packaging, labeling, and method of sale requirements in Handbook 130, except as otherwise stated in this Chapter. A person shall ensure that packaged commodities kept, offered, exposed for sale, sold, or in the process of delivery are weighed, measured, and inspected using sampling and testing procedures designated in Handbook 133, except as otherwise stated in this Chapter.

B. A retail seller shall ensure that a package that is offered for sale in a variable weight, measurement, or count, and that is weighed, measured, or counted at the time of sale, includes a label on the package identifying the net weight, measurement, or count, item description, and packer's name if the packer is not the retailer. Pre-packaged produce does not require a label on each package if the retailer:

1. Clearly labels the price-per-pound where the packaged produce is displayed, and
2. Deducts a tare for the packaging from the gross weight at the time of sale.

C. A retail seller shall price a commodity at the date and time that it is ordered by a customer.

D. A retail seller who offers, exposes, or advertises a commodity for sale or rent shall post a definite, plain, and conspicuous price on the commodity or adjacent to where the commodity is displayed. If the price of the commodity is by weight, measure, or count, the retailer shall place the price per weight, measure, or count on the commodity or adjacent to where the commodity is displayed. If a retailer offers a commodity for sale or rent at a price reduced by a percentage or a fixed amount from a previously offered price, the retailer shall place the reduction or reduced price on the commodity or adjacent to where the commodity is displayed.

E. A person who owns or operates a plant nursery shall label each commodity with its identity and price, or post a sign with this information adjacent to the point of display.

F. A retail seller shall ensure that the price of each item purchased is displayed visibly to the public at each check-out location.

G. Items in or behind a service counter that can be sold only with the assistance of a sales associate are not required to have a price displayed. If a price is displayed, it must meet the requirements of this Chapter.

**History:**

**Ariz. Admin. Code R3-7-302 Handbook 130 and Handbook 133  
(Arizona Administrative Code (2022 Edition))**

---

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-402. Price-posting Inspection Procedure and Violation Exceptions**

A. The Division shall choose one item that was used and up to four adjacent items that were not used for a price-verification inspection as the samples for a price-posting inspection.

B. If the Division finds an alleged price-posting violation involving an item used during its price-verification inspection, the Division shall record the price-posting violation on the inspection report.

C. The following are price-posting violations:

1. No price is posted or displayed for an inspected item unless it is not required under subsection (D)(12);
2. Less than 98 percent of the prices of inspected items are posted accurately; or
3. A percentage off is provided, but there is no price displayed for the item on, in, or behind a service counter.

D. The following are not price-posting violations:

1. A price is posted on a shelf where an item is displayed rather than marked on the item individually;
2. A price is posted on the shelf or on a hook in front of or behind a row of items at the farthest left side of all items with the same price for up to 3 feet of shelf space or at the farthest left and farthest right side of the shelf or hooks with the same priced items. For items of the same price, the uniform price codes may differ for the commodities with prices labeled in this manner, as long as the price posted is a generic price and does not refer to a specific product;
3. A price is posted on a vertical display in a location clearly visible to the consumer for items of the same price;
4. Self-contained refrigerated coolers may have prices posted on the inside or outside of the refrigerator doors located on the left, right, or center of the shelving units in a location clearly visible to the consumer.
5. A storage area that is posted as a storage area for which a customer should ask for assistance;

**Ariz. Admin. Code R3-7-402 Price-posting Inspection Procedure  
and Violation Exceptions (Arizona Administrative Code (2022  
Edition))**

---

6. A restocking area that is posted as a restocking area for which a customer should ask for assistance;
7. A price is posted on a hook in front of or behind a row of items but the price is clearly visible or a notice is clearly visible stating that the price is posted behind the row of items;
8. An item is located in an advertising display without a posted price but a notice is posted informing a customer to ask for price information assistance about an item in the display;
9. A menu-type sign at a point of display that lists the name and price of every item at the point of display in legible text. A menu-type sign may also be used to display single-item purchase prices in areas where space is limited, or used to display a price for purchase of multiple items and single-item purchase prices at the point of display as long as it is located at, above or near the point of display;
10. A point of display contains more than one item posted with the manufacturer's name or logo and the price and name of each item in the point of display is posted;
11. A price is posted only at each entrance to a store but that price is the price of each item in the store, or at each entrance to a department within a store but that price is the price of each item in the department;
12. A notice states that there is an additional charge based on an item's size and each size and the additional charge for each size is posted; and
13. An item that does not have a price and is located in or behind a service counter and available only with the assistance of a sales associate. If a price is displayed, it must meet the requirements of this Chapter.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-501. Qualifications; License and Renewal Application Process**

A. In addition to the requirements of A.R.S. §3-3453, to be a public weighmaster or a deputy public weighmaster, a person shall:

1. Be at least 18 years old,
2. Be able to operate a scale accurately, and
3. Be able to execute weight certificates properly.

B. A person shall not perform the duties of a public weighmaster until the person passes the written weighmaster examination administered by the Division with a minimum score of 75 percent. A person may not take the examination more than three times in six months and must wait 7 days before retaking the exam.

C. A person that meets the qualifications for public weighmaster or deputy public weighmaster may apply for a license on a form supplied by the Division. A separate application shall be submitted for each location the public weighmaster or deputy public weighmaster will issue weight tickets.

1. The application form includes:

- a. The applicant's name, address, and telephone number;
- b. A statement by the applicant that the applicant knows and understands weighmaster laws and rules;
- c. The name, address, and telephone number of each of the applicant's public weighmaster locations; and
- d. The applicant's signature.

2. The public weighmaster's application form also includes:

- a. The name of each deputy public weighmaster operating at each location;
- b. A statement that the public weighmaster understands they are responsible to ensure that any deputy public weighmasters working at the location are adequately trained and licensed;
- c. The name and address of the scale; and
- d. The scale description.

**Ariz. Admin. Code R3-7-501 Qualifications; License and Renewal  
Application Process (Arizona Administrative Code (2022  
Edition))**

---

3. The deputy public weighmaster application shall include a certification that they understand the requirements on a form provided by the Division and be signed by both the public weighmaster and the applicant.

4. An applicant may be required to submit evidence of qualifications.

5. The public weighmaster shall ensure all deputy public weighmasters are licensed for the location prior to their issuance of weight tickets.

6. An applicant shall submit information and documentation concerning lawful presence required by A.R.S. §41-1080.

D. Before the Division issues or renews a public weighmaster or deputy public weighmaster license, the applicant shall pay the required fees and provide information required in A.R.S. Title 3, Chapter 19, and this Chapter.

E. The Division does not charge a fee to process a change in name or address.

F. In the event a public weighmaster leaves employment, a licensed deputy public weighmaster may utilize a public weighmaster stamp which contains only the location identity as issued under R3-7-506(B) for 30 days at a location while a public weighmaster license application is underway. A public weighmaster stamp containing the public weighmaster's name may not be continued to be used following a public weighmaster's departure.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-502. Duties**

A public weighmaster shall:

1. Be responsible for the daily operation and maintenance of the licensed scale used when performing weighmaster duties;
2. Use scales according to applicable laws and rules;
3. Be responsible for all acts performed by any deputy public weighmaster designated by the weighmaster; and
4. Ensure deputy public weighmasters are licensed prior to their issuance of a weight ticket and cancel deputy public weighmasters licenses within 10 days of their leaving employment to ensure each location has the correct licensed deputy public weighmasters. A deputy public weighmaster license may be canceled by sending an e-mail or other written notification to the Division.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-503. Grounds for Denying License or Renewal; and  
Disciplinary Action**

A. The Division may deny a weighmaster license for any of the following reasons:

1. Providing false or misleading information;
2. Failing to meet the requirements stated in this Article; or
3. Any of the reasons stated in subsections (B)(1) through (9).

B. The Division may impose disciplinary action against, or refuse to renew a public weighmaster's license for any of the reasons stated in subsection (A)(1) or (2), or if the Division has determined that the public weighmaster:

1. Does not have the ability to weigh accurately;
2. Has not correctly made weight certificates;
3. Has been found to have violated any provision of A.R.S. Title 3, Chapter 19, or this Chapter;
4. Has falsified a weight certificate;
5. Has delegated authority to someone other than a licensed public weighmaster or deputy public weighmaster;
6. Has improperly used a weighmaster's seal of authority;
7. Has presigned certificates for later use;
8. Has issued a weight certificate on which changes or alterations were made; or
9. Has used a scale for public weighing that is not properly licensed.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-504. Scales and Vehicle Weighing**

- A. When making a weight determination, a public weighmaster shall use a weighing device that is suitable for the function.
- B. The public weighmaster shall not use a scale to weigh a load that exceeds the normal or rated capacity of the scale.
- C. The owner or user of a weighing device is responsible for the accuracy of the device used by a public weighmaster. The owner or user shall comply with Handbook 44.
- D. If a scale is equipped with a printing device, it shall be used for all relevant entries on the weight certificate.
- E. The Division shall separately license and regulate each scale location.
- F. A weighmaster shall weigh any vehicle or combination of vehicles on a scale having a platform that fully accommodates the vehicle or combination of vehicles as one unit.
- G. If a combination of vehicles is divided into separate units to be weighed, each separate unit shall be entirely disconnected before weighing and a separate weight certificate shall be issued for each unit.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-505. Weight Certificates**

A. In issuing a weight certificate, a public weighmaster shall enter only those weight values that the weighmaster or deputy public weighmaster has accurately and personally determined.

B. A public weighmaster or deputy public weighmaster shall not make any entries on a weight certificate issued by another person.

C. By signing a weight certificate, a weighmaster or the weighmaster's deputy shall be responsible for the accuracy of all entries on the weight certificate.

D. A weight certificate is valid only when properly signed and sealed by the issuing public weighmaster or the deputy public weighmaster. The name and image of the seal of the public weighmaster and deputy public weighmaster may be imprinted electronically on the weighmaster certificate in lieu of a handwritten signature and embossed seal if the electronically imprinted name and seal is that of the weighmaster or deputy public weighmaster who weighed, measured, or counted the commodity. To issue an electronic signature or seal, the weighmaster or deputy public weighmaster shall have an individual login associated with the electronic signature and seal or other security measures in place to prevent non-licensed persons from use.

E. If an error is made on a weight certificate, the weighmaster shall void the certificate and issue a new certificate. No changes or alterations shall be made on a certificate.

F. A weight certificate shall state:

1. The date of issuance;
2. The name of the declared owner, agent, or consignee of the material weighed;
3. The accurate weight of the material weighed or counted;
4. The means by which the material is being transported at the time it is weighed or counted;
5. An identification number of the transporting unit, including a license number; and
6. The following statement: "PUBLIC WEIGHMASTER'S CERTIFICATE OF WEIGHT AND MEASURE. This is to certify that the described merchandise

was weighed, counted, or measured by a public or deputy public weighmaster, and when properly signed and sealed, is prima facie evidence of the accuracy of the weight, count, or measure shown as prescribed by law."

7. The printed name, signature, and license number of the public weighmaster or deputy public weighmaster issuing the weight ticket.

G. A public weighmaster shall maintain a legible copy of each weight certificate issued at each scale location, for a minimum of one year. A weighmaster also shall ensure that weight certificates are consecutively numbered and filed numerically, including voids. A weighmaster shall not use another filing system without Division approval.

H. A public weighmaster is liable for any forged signatures or electronic signatures.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-506. Seal of Authority**

A. A weighmaster shall obtain a seal for the certification of weight certificates at cost through the Division.

B. The Division shall assign a number to a seal identifying the specific location for which the seal is issued.

C. A seal is the property of the state. A weighmaster shall surrender a seal to the Division within 30 days after the weighmaster no longer operates as a licensed public weighmaster if the seal contains the public weighmaster's name. If the seal was issued under R3-7-506(B) and only contains the location identification, it may be retained for use by the next licensed public weighmaster if it is still legible. Illegible seals shall be surrendered to the Division.

D. A public weighmaster shall have one seal for use at each scale location.

E. A seal shall be accessible to the weighmaster and authorized deputies during all business hours at the scale location for the timely and proper certification of weight certificates.

F. A public weighmaster shall keep a seal of authority at each scale location and make it available for inspection by the Division during all business hours.

G. A public weighmaster may recreate the state-assigned seal in an electronic format for use as provided under subsection R3-7-505(D). The Division shall provide a template of seal.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-507. Prohibited Acts**

A. A person shall not:

1. Issue a certified weight certificate without being a licensed public weighmaster or a person properly authorized to act for a public weighmaster;
2. Procure, print, or cause to be printed any public weighmaster weight certificate without being a licensed public weighmaster or a deputy public weighmaster authorized to act for a public weighmaster;
3. Possess unfilled or unused public weighmaster weight certificate forms without being a licensed public weighmaster or a deputy public weighmaster authorized to act for a public weighmaster;
4. Furnish or give false information to a weighmaster for use in the completion of a weight certificate;
5. Present a certificate for payment falsified by the insertion of any weight, measure, or count not determined by the issuing weigh-master;
6. Use without authorization the title "licensed public weighmaster" or any similar title;
7. Represent oneself to be a public weighmaster without holding a license issued by the Division;
8. Engage in public weighing without holding a valid license as a public weighmaster, or acting under the authority of a licensed public weighmaster;
9. Use an unlicensed scale in the performance of public weighmaster duties;  
or
10. Operate a scale for public weighing unless that person is licensed as a public or deputy public weighmaster.
11. Nothing in this subsection shall be construed to prevent administrative staff of the public or deputy public weighmaster from performing administrative duties such as filing weight tickets.

B. People engaged in the business of printing weight certificate forms, their representatives, and the Division are exempt from the prohibitions specified in subsections (A)(2) and (3).

**History:**

**Ariz. Admin. Code R3-7-507 Prohibited Acts (Arizona  
Administrative Code (2022 Edition))**

---

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-602. Duties**

A. Registered service agency.

1. A registered service agency shall:

a. Maintain all equipment used for commercial device certification according to standards traceable to NIST, and

b. Maintain and use equipment for testing vapor recovery systems and vapor recovery system components according to this Chapter, CARB test procedures, and manufacturer specifications.

2. When a registered service agency restores or newly places in service a commercial device, the registered service agency shall complete a placed-in-service report form prescribed by the Division.

a. Within seven calendar days after the commercial device is restored to service or newly placed in service, the registered service agency shall complete an online placed-in-service report to the Division. If an online placed-in-service report is not available for the device, a paper report shall be submitted;

b. The registered service agency shall give a copy of the placed-in-service report to the person who owns or operates the commercial device;

c. The registered service agency shall retain a copy of the placed-in-service report or any required vapor recovery report for one year;

d. The registered service agency shall ensure that the placed-in-service report contains the assigned license number of the registered service representative who installs or repairs the commercial device and completes the report;

e. The registered service agency shall ensure that the placed-in-service report is completed and signed by the registered service representative noting each rejected commercial device restored to service and each newly installed commercial device placed in service;

f. The registered service agency shall ensure that the placed-in-service report includes the serial or identification number of each standard used by the registered service representative to calibrate the commercial device for each rejected device restored to service and for each newly installed device placed in service; and

3. A registered service agency shall have all equipment used for commercial device certification certified annually by the manufacturer. Vapor recovery test equipment shall be certified as required by the CARB test procedure or this Chapter.

4. A registered service agency shall not use new equipment for commercial device certification until it is certified by a NIST-traceable laboratory.

5. A registered service agency shall ensure that employees do not perform registered service representative duties until licensed. A registered service agency may train an employee in registered service representative duties only if the employee is within the direct line of sight and hearing of a supervising licensed registered service representative.

6. A registered service agency shall use a form approved by the Division to record vapor recovery test results and violations. The test results shall be e-mailed to the Division within seven days after completion of the test.

7. A registered service agency shall ensure that its registered service representative provides a vapor recovery system owner or operator with written test preparation instructions, at least 5 business days before an initial or annual test.

B. Registered service representative.

1. A registered service representative shall:

a. Install only commercial devices that meet the requirements of this Chapter;

b. Perform all vapor recovery tests according to this Chapter;

c. Perform all appropriate tests when repairing a commercial device or repairing or replacing a vapor recovery system or component to ensure that the requirements of A.R.S. Title 3, Chapter 19, this Chapter, Handbook 44, and CARB Executive Orders are met;

d. Report to the user equipment or commercial devices that do not conform to NIST standards; and

e. Complete placed-in-service reports accurately.

f. Report to the Division within 1 hour by e-mail or phone of finding a device that is not certified as part of the Certificate of Conformance under R3-7-203(A) and is installed to fraudulently obtain consumer credit card

information. Additionally, the registered service representative shall contact the local law enforcement agency for collection of the device as evidence.

2. If a vapor recovery registered service representative cannot correct a violation and has to leave the vapor recovery site, the registered service representative shall secure the non-compliant vapor recovery system or component from commercial use. The non-compliant system or component shall not be used for commercial purposes until it is repaired and passes the test required by R3-7-910. The registered service representative shall notify the Division of the stop-sale, stop-use prior to leaving the site. The registered service representative shall notify the Division regarding retest of the site by 6:00 a.m. of the day after the non-compliant vapor recovery system or component is secured or one hour before the test, whichever is sooner, so that the Division may witness the test.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-602. Duties**

A. Registered service agency.

1. A registered service agency shall:

a. Maintain all equipment used for commercial device certification according to standards traceable to NIST, and

b. Maintain and use equipment for testing vapor recovery systems and vapor recovery system components according to this Chapter, CARB test procedures, and manufacturer specifications.

2. When a registered service agency restores or newly places in service a commercial device, the registered service agency shall complete a placed-in-service report form prescribed by the Division.

a. Within seven calendar days after the commercial device is restored to service or newly placed in service, the registered service agency shall complete an online placed-in-service report to the Division. If an online placed-in-service report is not available for the device, a paper report shall be submitted;

b. The registered service agency shall give a copy of the placed-in-service report to the person who owns or operates the commercial device;

c. The registered service agency shall retain a copy of the placed-in-service report or any required vapor recovery report for one year;

d. The registered service agency shall ensure that the placed-in-service report contains the assigned license number of the registered service representative who installs or repairs the commercial device and completes the report;

e. The registered service agency shall ensure that the placed-in-service report is completed and signed by the registered service representative noting each rejected commercial device restored to service and each newly installed commercial device placed in service;

f. The registered service agency shall ensure that the placed-in-service report includes the serial or identification number of each standard used by the registered service representative to calibrate the commercial device for each rejected device restored to service and for each newly installed device placed in service; and

3. A registered service agency shall have all equipment used for commercial device certification certified annually by the manufacturer. Vapor recovery test equipment shall be certified as required by the CARB test procedure or this Chapter.

4. A registered service agency shall not use new equipment for commercial device certification until it is certified by a NIST-traceable laboratory.

5. A registered service agency shall ensure that employees do not perform registered service representative duties until licensed. A registered service agency may train an employee in registered service representative duties only if the employee is within the direct line of sight and hearing of a supervising licensed registered service representative.

6. A registered service agency shall use a form approved by the Division to record vapor recovery test results and violations. The test results shall be e-mailed to the Division within seven days after completion of the test.

7. A registered service agency shall ensure that its registered service representative provides a vapor recovery system owner or operator with written test preparation instructions, at least 5 business days before an initial or annual test.

B. Registered service representative.

1. A registered service representative shall:

a. Install only commercial devices that meet the requirements of this Chapter;

b. Perform all vapor recovery tests according to this Chapter;

c. Perform all appropriate tests when repairing a commercial device or repairing or replacing a vapor recovery system or component to ensure that the requirements of A.R.S. Title 3, Chapter 19, this Chapter, Handbook 44, and CARB Executive Orders are met;

d. Report to the user equipment or commercial devices that do not conform to NIST standards; and

e. Complete placed-in-service reports accurately.

f. Report to the Division within 1 hour by e-mail or phone of finding a device that is not certified as part of the Certificate of Conformance under R3-7-203(A) and is installed to fraudulently obtain consumer credit card

information. Additionally, the registered service representative shall contact the local law enforcement agency for collection of the device as evidence.

2. If a vapor recovery registered service representative cannot correct a violation and has to leave the vapor recovery site, the registered service representative shall secure the non-compliant vapor recovery system or component from commercial use. The non-compliant system or component shall not be used for commercial purposes until it is repaired and passes the test required by R3-7-910. The registered service representative shall notify the Division of the stop-sale, stop-use prior to leaving the site. The registered service representative shall notify the Division regarding retest of the site by 6:00 a.m. of the day after the non-compliant vapor recovery system or component is secured or one hour before the test, whichever is sooner, so that the Division may witness the test.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-603. Grounds for Denying License or Renewal; Disciplinary Action; and Certification of Standards and Testing Equipment**

- A. The Division shall not issue a license or renewal until an applicant pays all appropriate fees.
- B. Upon receipt and acceptance of all required documents, fees, and Division certification of standards, the Division shall issue the agency a license or renewal.
- C. The Division shall include on a license an assigned number, that remains effective until either withdrawn by the Division or until it expires. The Division shall issue a license with the agency's assigned license number to each registered service representative employed by the agency who has passed the competency examination.
- D. Neither a registered service agency nor a registered service representative shall transfer a license.
- E. A registered service agency shall submit the renewal fee for the agency license and the agency's representatives' licenses by the first day of the month that each license expires.
- F. The Division may deny a license or renewal for any of the following reasons:
1. Providing false or misleading information;
  2. Failure to meet annual certification requirements for standards or testing equipment;
  3. Failure to meet the requirements stated in this Article; or
  4. For any reason that would be grounds for suspension, revocation, or refusal to renew.
- G. The Division may suspend, revoke, or refuse to renew a license if the applicant is not qualified to perform those duties required or has been found to have violated any provision of A.R.S. Title 3, Chapter 19, or this Chapter.
- H. Every registered service agency and representative shall comply with the Division's metrology laboratory annual schedule for certification of field standards contained in A.R.S. § 3-3416(F).

**History:**

**Ariz. Admin. Code R3-7-603 Grounds for Denying License or  
Renewal; Disciplinary Action; and Certification of Standards and  
Testing Equipment (Arizona Administrative Code (2022 Edition))**

---

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-604. Prohibited Acts**

A. A person shall not:

1. Perform any duty or do any act required to be done by a registered service agency or registered service representative without holding a registered service agency or registered service representative license issued by the Division;
2. Use the title of registered service agency or registered service representative, any similar title, or hold oneself out as a registered service agency or representative without a valid license; or
3. Remove an official out-of-service, warning, or stop-sale, stop-use tag except as authorized in this Chapter, or by the Division.

B. A registered service agency or registered service representative shall not:

1. Fraudulently complete or file a placed-in-service report;
2. Delegate licensed authority or responsibility to an unlicensed person;
3. Perform a function without certified equipment;
4. Install or place in service a commercial device before satisfying all of the statutory and rule requirements;
5. Fail to report a commercial device to the Division that is found to be out of compliance under R3-7-602;
6. Install, calibrate, or repair a commercial device without placing a decal or label on the device as prescribed by the associate director;
7. Leave a location where there is a non-compliant commercial device without securing the commercial device from commercial use; or
8. Leave a vapor recovery site where there is a non-compliant system or component without securing the system or component from commercial use.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

## § R3-7-701. Definitions

In addition to the definitions in A.R.S. §3-3401 and R3-7-101, the following definitions apply to this Article unless the context otherwise requires:

"Address" means a street number, street name, city, state, and zip code.

"Approved oxygenate" means an oxygenate not prohibited by A.R.S. 3-3491(E).

"Area A" has the same meaning as in A.R.S. §3-3401.

"Area B" has the same meaning as in A.R.S. §3-3401.

"Area C" has the same meaning as in A.R.S. §3-3401.

"Arizona Cleaner Burning Gasoline" or "Arizona CBG" means a gasoline blend that meets the requirements of this Article for gasoline produced and shipped to or within Arizona and sold or offered for sale for use in motor vehicles within the CBG-covered area, except as provided under A.R.S. §3-3493(I).

"AST" means aboveground storage tank.

"AZRBOB" or "Arizona Reformulated Blendstock for Oxygenate Blending" means a combination of gasoline blendstocks that is intended to be or represented to constitute Arizona CBG upon the addition of a specified amount (or range of amounts) of an approved oxygenate after the blendstock is supplied from the facility at which it was produced or imported.

"Batch" means a quantity of motor fuel or AZRBOB that is homogeneous for motor fuel properties specific for the motor fuel standards applicable to that motor fuel or AZRBOB.

"Beginning of transport" means the point at which: A registered supplier relinquishes custody of Arizona CBG or AZRBOB to a transporter or third-party terminal; or A registered supplier that retains custody of Arizona CBG or AZRBOB begins transfer of the Arizona CBG or AZRBOB into a vessel, tanker, or other container for transport to the CBG-covered area.

"Biodiesel" has the same meaning as prescribed under A.R.S. §3-3401.

"Biodiesel blend" has the same meaning as prescribed under A.R.S. §3-3401. Per ASTM D975, diesel fuel may contain 5 percent or less biodiesel and is not considered to be a biodiesel blend.

"Biofuel" has the same meaning as prescribed under A.R.S. §3-3401.

"Biofuel blend" has the same meaning as prescribed under A.R.S. §3-3401.

"Biofuel blender" means a person that modifies a motor fuel by adding a biofuel.

"Biofuel producer" means a person that owns, leases, operates, controls, or supervises a facility at which biofuel is produced.

"Biofuel Supplier" means a marketer or jobber of a biofuel or biofuel blend.

"Biomass" has the same meaning as prescribed under A.R.S. §3-3401.

"Biomass-based diesel" has the same meaning as prescribed under A.R.S. §3-3401.

"Biomass-based diesel blend" has the same meaning as prescribed under A.R.S. §3-3401.

"Blendstock" means any liquid compound that is blended with another liquid compound to produce a motor fuel, including Arizona CBG. A deposit-control or similar additive registered under 40 CFR 79 is not a blendstock.

"CARB" means the California Air Resources Board.

"CARBOB Model" means the procedures incorporated by reference in R3-7-702(11).

"CARB Phase 2 gasoline" means gasoline that meets the specifications incorporated by reference in R3-7-702(8).

"CBG-covered area" means a county with a population of 1,200,000 or more persons according to the most recent United States decennial census and any portion of a county within area A.

"Conventional gasoline" means gasoline that conforms to the requirements of this Chapter for sale or use in Arizona, but does not meet the requirements of Arizona CBG or AZRBOB.

"Diesel fuel" or "Diesel" has the same meaning as prescribed under A.R.S. §3-3401. Per ASTM D975, diesel fuel may contain 5 percent or less biodiesel.

"Duplicate" means a portion of a sample that is treated the same as the original sample to determine the accuracy and precision of an analytical method.

"EPA" means the United States Environmental Protection Agency.

"EPA waiver" means a waiver granted by the Environmental Protection Agency as described in "Waiver Requests under Section 211(f) of the Clean Air Act," which is incorporated by reference in R3-7-702.

"Ethanol flex fuel" has the same meaning as prescribed under A.R.S. §3-3401.

"Final destination" means the name and address of the location to which a transferee will deliver motor fuel for further distribution or final consumption.

"Final distribution facility" means a stationary motor-fuel transfer point at which motor fuel or AZRBOB is transferred into a cargo tank truck, pipeline, or other delivery vessel from which the motor fuel or AZRBOB will be delivered to a motor-fuel dispensing site. A cargo tank truck is a final distribution facility if the cargo tank truck transports motor fuel or AZRBOB and carries documentation that the type and amount or range of amounts of oxygenates designated by the registered supplier will be or have been blended directly into the cargo tank truck before delivery of the resulting motor fuel to a motor-fuel dispensing site.

"Fleet" means at least 25 motor vehicles owned or leased by the same person.

"Fleet vehicle fueling facility" means a facility or location where a motor fuel is dispensed for final use by a fleet.

"Fuel ethanol" means denatured ethanol that meets the requirements in ASTM D4806, which is incorporated by reference in R3-7-702.

"Gasoline" has the same meaning as prescribed under A.R.S. §3-3401.

"Isobutanol" means butanol isomer 2-methyl-1-propanol that meets the requirements in ASTM D7862, which is incorporated by reference in R3-7-702.

"Jobber" means a person that distributes a motor fuel from a bulk storage plant to the owner or operator of a UST or AST or purchases a motor fuel from a terminal for distribution to the owner or operator of a UST or AST.

"Manufacturer's proving ground" has the same meaning as prescribed under A.R.S. §3-3401.

"Marketer" means a person engaged in selling or offering for sale motor fuels.

"Motor Fuel" has the same meaning as prescribed under A.R.S. §3-3401.

"Motor fuel dispensing site" means a facility or location where a motor fuel is dispensed into commerce for final use.

"Motor fuel property" means any characteristic listed in R3-7-751(A)(1) through (7), R3-7-751(B)(1) through (7), Table 1, Table 2, or any other motor fuel standard referenced in this Article.

"Motor vehicle" means a vehicle equipped with a spark-ignited or compression-ignition internal combustion engine except:

A vehicle that runs on or is guided by rails, or

A vehicle designed primarily for travel through air or water.

"Motor vehicle racing event" has the same meaning as prescribed under A.R.S. §3-3401.

"MTBE" means methyl tertiary butyl ether.

"Neat" means pure or 100 percent.

"NOx" means oxides of nitrogen.

"Octane," "octane number," or "octane rating" mean the anti-knock characteristic of gasoline as determined by the resultant arithmetic test average of ASTM D2699 and ASTM D2700.

"Oxygenate" has the same meaning as prescribed under A.R.S. §3-3401.

"Oxygenate blender" means a person that owns, leases, operates, controls, or supervises an oxygenate-blending facility, or that owns or controls the blendstock or gasoline used, or the gasoline produced, at an oxygenate-blending facility.

"Oxygen content" means the percentage by weight of oxygen contained in a gasoline oxygenate blend as determined under ASTM D4815.

"Pipeline" means a transporter that owns or operates an interstate common-carrier pipe or is subject to Federal Energy Regulatory Commission tariffs to transport motor fuels into Arizona.

"Premium Diesel" means a diesel fuel meeting the requirements in ASTM D975 and in Handbook 130, Uniform Engine Fuels and Automotive Lubricants Regulations, Section 2.2.1(a) through 2.2.1(d).

"Producer" means a refiner, blender, or other person that produces a motor fuel, including Arizona CBG or AZRBOB.

"Production facility" means a facility at which a motor fuel, including Arizona CBG or AZRBOB, is produced. Upon request of a producer, the associate director may designate, as part of the producer's production facility, a physically separate bulk storage facility that:

Is owned or leased by the producer;

Is operated by or at the direction of the producer; and

Is used to store or distribute motor fuels, including Arizona CBG or AZRBOB, that are supplied only from the production facility.

"Product transfer document" has the same meaning as prescribed under A.R.S. §3-3401.

"Refiner" means a person that owns, leases, operates, controls, or supervises a refinery in the United States, including its trust territories.

"Refinery" means a facility that produces a liquid fuel, including Arizona CBG or AZRBOB, by distilling petroleum, or a trans-mix facility that produces a motor fuel offered for sale or sold into commerce as a finished motor fuel.

"Reproducibility" means the testing method margin of error as provided in the ASTM specification or other testing method required under this Article.

"Supply" means to provide or transfer motor fuel to a physically separate facility, vehicle, or transportation system.

"Terminal" means an owner or operator of a motor fuel storage tank facility that accepts custody, but not necessarily ownership, of a motor fuel from a registered supplier, oxygenate blender, pipeline, or other terminal and relinquishes custody of the motor fuel to a transporter or another terminal.

"Test result" means any document that contains a result of testing including all original test measures, all subsequent test measures that are not identical to the original test measure, and all worksheets on which calculations are performed.

"Transferee" means a person that receives title to or custody of a motor fuel.

"Transferor" means a person that relinquishes title to or custody of a motor fuel to a transporter, marketer, jobber, or motor fuel dispensing site.

"Transmix" means a mixture of petroleum distillate fuel and gasoline that does not meet the Arizona standards for either petroleum distillate fuels or gasoline.

"Transmix facility" means a facility at which transmix is processed into its components and then the components either are combined with a finished product or further processed to produce a finished motor fuel.

"Transporter" means a person that causes motor fuels, including Arizona CBG or AZRBOB, to be transported into or within Arizona.

"UST" means underground storage tank.

"Vapor pressure" means dry vapor pressure equivalent of gasoline or blendstock as measured according to ASTM D5191.

"Vehicle emissions control area" has the same meaning as prescribed under A.R.S. §3-3401.

"VOC" means volatile organic compound.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-702. Material Incorporated by Reference**

A. The following documents are incorporated by reference and on file with the Division. The documents incorporated by reference contain no future editions or amendments.

1. 16 CFR 306 - Automotive Fuel Ratings, Certification and Posting, January 14, 2016 Edition, Government Publishing Office, 732 North Capitol Street, NW, Washington, D.C. 20401-0001 or [bookstore.gpo.gov](http://bookstore.gpo.gov).
2. API Recommended Practice 1637 (API RP 1637), "Using the API Color-Symbol System to Mark Equipment and Vehicles for Product Identification at Gasoline Dispensing Facilities and Distribution Terminals," published July 2006, Reaffirmed May 2012, American Petroleum Institute (API), 6300 Interfirst Drive, Ann Arbor, MI, 48108.
3. ASTM Standard D975, 2016a (ASTM D975-16a), "Standard Specification for Diesel Fuel Oils," published 2016, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or [www.astm.org](http://www.astm.org).
4. ASTM Standard D4806, 2016a (ASTM D4806-16a), "Standard Specification for Denatured Fuel Ethanol for Blending with Gasolines for Use as Automotive Spark-Ignition Engine Fuel," published 2016, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or [www.astm.org](http://www.astm.org).
5. ASTM Standard D4814, 2016ee1 (ASTM D4814-16ee1), "Standard Specification for Automotive Spark-Ignition Engine Fuel," published 2016, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or [www.astm.org](http://www.astm.org).

13. California Air Resources Board, Procedures for Using the California Model for California Reformulated Gasoline Blendstocks for Oxygenate Blending (CARBOB), adopted April 25, 2001. A copy may be obtained at: CARB, P.O. Box 2815, Sacramento, CA 95812 or [www.arb.ca.gov](http://www.arb.ca.gov) .

14. ASTM Standard D7467, 2015ce1 (ASTM D7467-15ce1), "Standard Specification for Diesel Fuel Oil, Biodiesel Blend (B6 to B20)," published 2015, ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 or [www.astm.org](http://www.astm.org) .

15. SAE International, SAE J285, "Dispenser Nozzle Spouts for Liquid Fuels Intended for Use with Spark Ignition and Compression Ignition Engines," published May 5, 2012, SAE International, 400 Commonwealth Drive, Warrendale, PA 15096-0001 or [www.sae.org](http://www.sae.org) .

B. Subsection (A)(11) will not become effective until Arizona's revised State Implementation Plan submitted by ADEQ to EPA in August 2013 and subsequent supplement submitted July 2014 is approved by EPA.

### **History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-703. Volumetric Inspection of Motor Fuels and Motor Fuel  
Dispensers**

A. After completing an inspection, the Division shall return all motor fuel to the owner or operator of a motor fuel dispensing site at the site where the Division collected the motor fuel.

B. After completing an inspection, if a motor fuel cannot be returned to the owner or operator of a motor fuel dispensing site at the site where the Division collected the motor fuel, the Division shall transport the motor fuel to another site of the owner or operator's choice and within a 20-mile radius of the inspection site.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-704. Motor Fuel Dispensing Site Price and Grade Posting  
on External Signs**

A. A person who owns or operates a motor fuel dispensing site that has an external sign shall ensure that the sign:

1. Identifies whether the price differs depending on whether the payment is cash, credit, or debit;
2. Identifies the self-service and full-service prices, if different;
3. Discloses the full price of motor fuel including fractions of a cent and all federal and state taxes, if the sign displays the motor fuel price. A decimal point shall be used in the displayed price when a dollar sign precedes the posted price;
4. Displays lettering at a height of at least  $1/5$  of the letter height of the motor fuel price displayed on the external sign or  $2\ 1/2$ ", whichever is larger, and is visible from the road;
5. States the terms of any condition if the displayed price is conditional upon the sale of another product or service. The terms of any condition shall comply with the letter height requirement in subsection (A)(4);
6. Describes the motor fuel that meets ASTM D975 as No. 1 Diesel, #1 Diesel, No. 2 Diesel, #2 Diesel, or premium diesel. Describes other fuel for use in compression ignition engines as biodiesel, or biodiesel blend. Diesel fuel No. 2 may be labeled on dispensers as diesel fuel without indication of the fuel grade;
7. Describes motor fuel with an ethanol concentration of 51 to 83 volume percent as ethanol flex fuel;
8. Identifies the unit of measure of the price, if it is other than per gallon; and
9. Sites that sell Ethanol Flex Fuel previously labeled as "E-85" shall update the signage to reflect the sale of Ethanol Flex Fuel no later than January 1, 2018. In no case shall signage with an incorrect ethanol content be advertised at the motor fuel dispensing site.

B. For the following terms used on a sign to describe a gasoline grade or gasoline-oxygenate blend, the grade or blend shall meet the following minimum antiknock index as determined by the test average of ASTM D 2699 and ASTM D 2700, also known as the (R+M)/2 method:

**Ariz. Admin. Code R3-7-704 Motor Fuel Dispensing Site Price and  
Grade Posting on External Signs (Arizona Administrative Code  
(2022 Edition))**

---

Term	Minimum Antiknock Index
1. Regular, Reg, Unleaded, UNL, or UL	87
2. Midgrade, Mid, or Plus	89
3. Premium, PREM, Super, Supreme, High, or High Performance	91

C. A person may use an alternative to the descriptions provided in subsection (B) upon receipt of written approval by the associate director.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

### **§ R3-7-705. Dispenser Labeling at Motor Fuel Dispensing Sites**

The owner or operator of a motor fuel dispensing site shall label dispensers in accordance with the following provisions:

A. Pricing, motor fuel grade, octane rating, and lead substitute. A motor fuel dispensing station owner or operator shall ensure that information regarding pricing, motor fuel grade, octane rating, and lead-substitute addition displayed on a motor fuel dispenser:

1. Lists the full price of the motor fuel including fractions of a cent and all federal and state taxes;
2. Displays the highest price of motor fuel sold from the dispenser prior to any deliberate action of the customer resulting in a discounted price being displayed, provided the dispenser is capable of dispensing and computing the price of motor fuel at more than one price;
3. Complies with the requirements of R3-7-704(A)(1), (A)(2), (A)(3), (A)(5), (A)(6), (A)(7), (A)(8), (A)(9) and (B).
4. Displays the octane rating of each grade of gasoline;
5. Displays the signs required by Handbook 130 for motor fuel dispensers that dispense gasoline with lead substitute, in letters at least 1/4" in height; and
6. Sites that sell ethanol flex fuel previously labeled as "E-85" shall update the signage to reflect the sale of ethanol flex fuel no later than January 1, 2018. In no case shall signage with an incorrect ethanol content be advertised at the motor fuel dispensing site.

B. All motor fuels shall meet the labeling requirements of 16 CFR 306. Additionally, the following requirements apply:

1. Gasoline containing fuel ethanol.
  - a. Gasoline containing greater than 1.5 percent by weight oxygen or 4.3 percent by volume fuel ethanol shall be labeled with the following statement to indicate the maximum percent by volume of fuel ethanol contained in the gasoline: "May contain up to \_\_\_\_\_ % fuel ethanol."
  - b. Within the CBG-covered area and area B, gasoline containing fuel ethanol shall be labeled with the following statement: "This gasoline is oxygenated with fuel ethanol and will reduce carbon monoxide emissions from motor vehicles."

c. Gasoline for sale outside of the CBG-covered area with an ethanol content greater than 10 volume percent and less than or equal to 15 volume percent shall additionally be labeled in accordance with 40 CFR 80.1501, as it existed on July 18, 2014, is incorporated by reference and on file with the Division. A copy may be obtained at the Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov.

2. Gasoline containing an oxygenate other than fuel ethanol. Gasoline containing greater than 1.5 percent by weight shall be labeled with the following statement to indicate the type and maximum percent by volume of oxygenate contained in the gasoline: "May contain up to \_\_\_\_\_ % \_\_\_\_\_."

3. The labels in subsection B(1) and (B)(2) shall be printed in black and white block letters on a sharply contrasting background with lettering no smaller than ¼ inch. The statements in subsection (B)(1)(i) and (B)(1)(ii) may be printed on the same label or on separate labels if the statements are displayed next to each other.

4. Non-oxygenated gasoline. It is prohibited to label a dispenser as containing no oxygenate if the gasoline contains more than 0.5 percent by volume of any oxygenates.

5. Biodiesel blends. The diesel grade component as contained within ASTM D975 for grades other than No. 2 diesel shall be identified.

C. Unattended retail motor fuel dispensers. In addition to all labeling and sign requirements in this Article, the owner or operator of a motor fuel dispensing site that is unstaffed shall post on or next to each motor fuel dispenser a sign or label, in public view, that conspicuously lists the owner's or operator's name, address, and telephone number.

D. All dispensers shall have a decal that contains the Division's name and phone number. A template of the decal shall be placed on the Weights and Measures Services Division website for use by retailers. The seal placed by the Division under A.R.S. §3-3414(A)(13) satisfies this requirement.

E. All labels required under this section shall be in the upper 50 percent of the front panel of each motor fuel dispenser and shall be clean, legible, and visible at all times.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-707. Product Transfer Documentation and Record Retention for Motor Fuel other than Arizona CBG and AZRBOB**

A. When a transferor transfers custody or title to a motor fuel that is not Arizona CBG or AZRBOB, and the motor fuel is not sold or dispensed at a motor fuel dispensing site or fleet vehicle fueling facility, the transferor shall provide to the transferee documents that include the following information:

1. The grade of the motor fuel;
2. The volume of each grade of motor fuel being transferred;
3. The date of the transfer;
4. Product transfer document number;
5. For conventional gasoline, the minimum octane rating of each grade as prescribed by 16 CFR 306;
6. For conventional gasoline, the type and maximum volume of oxygenate contained in each grade;
7. For conventional gasoline transported in or through the CBG-covered area, the statement, "This gasoline is not intended for use inside the CBG-covered area";
8. If a lead substitute is present in the gasoline, the type of lead substitute present;
9. For the following biofuel or biofuel blends;
  - a. Ethanol Flex Fuel shall contain a declaration of the volume percent of ethanol in the blend; or
  - b. Biodiesel and biomass-based diesel blends containing more than 5 percent biodiesel or biomass-based diesel shall contain a declaration of the volume percent biodiesel or biomass-based diesel in the blend, as well as the grade of diesel in the blend; and
  - c. All other biofuel or biofuel blends shall contain the percentage of biofuel in the finished product.
10. The final destination:
  - a. When a terminal is the transferor, the owner or operator of the terminal shall include on the product transfer document the terminal name and address and the transporter name and address;

**Ariz. Admin. Code R3-7-707 Product Transfer Documentation and  
Record Retention for Motor Fuel other than Arizona CBG and  
AZRBOB (Arizona Administrative Code (2022 Edition))**

---

b. When a transporter is the transferor, the transporter shall include on the product transfer document the name and address of the transporter and the final destination, which is the location at which the motor fuel will be delivered and off loaded from the truck; and

c. When a jobber or marketer is the transferor, the jobber or marketer shall include on the product transfer document the name and address of the jobber or marketer and the final destination, which may be a final distribution facility or a motor fuel dispensing site.

B. To enable a transferor to comply fully with the requirement in subsection (A)(10)(b) and (A)(10)(c), the transferee shall supply to the transferor information regarding the final destination.

C. A registered supplier, third-party terminal, or pipeline may use standardized product codes on pipeline tickets as the product transfer documentation.

D. A person identified in subsection (A) shall retain product transfer documentation for each shipment delivered for 12 months. This documentation shall be available within two working days from the time of the Division's request.

E. A person identified in subsection (A) shall maintain product transfer documentation for a transfer or delivery during the preceding 30 days at that person's address listed on the product transfer documentation.

F. An owner or operator of a motor fuel dispensing site or fleet owner shall maintain product transfer documentation for the three most recent deliveries of each grade of motor fuel on the premises of the motor fuel dispensing site owner or operator or fleet owner. This documentation shall be available for Division review.

G. The Division shall accept a legible photocopy of a product transfer document instead of the original.

H. A person transferring custody or title of Arizona CBG or AZRBOB shall comply with R3-7-757.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-708. Gasoline Oxygenate Blends**

A. A person that has custody of gasoline blended with an oxygenate shall ensure that the amount of oxygenate does not exceed the amount allowed by EPA waivers, Section 211(f) of the Clean Air Act, and A.R.S. §3-3491.

B. Special provisions for gasoline ethanol blends.

1. A gasoline ethanol blend that meets the requirements in subsections (B)(1)(a) and (b) shall not exceed the vapor pressure specified in ASTM D4814 by more than 1 psi:

a. The concentration of the ethanol, excluding the required denaturing agent, shall be:

i. From May 1 through September 15, at least nine percent and no more than 10 percent by volume of the gasoline ethanol blend; and

ii. From September 16 through April 30, at least 1.5 percent by weight and no more than 10 percent by volume of the gasoline ethanol blend; and

b. The ethanol content of the gasoline ethanol blend shall:

i. Be determined using the appropriate test method listed in ASTM D4814, and

ii. Not exceed any applicable waiver condition under Section 211(f) of the Clean Air Act.

2. The provision in subsection (B)(1) is effective for gasoline ethanol blends sold:

a. Outside the CBG-covered area year around, and

b. Within the CBG-covered area during April.

3. Gasoline blended with no more than 10 percent by volume of fuel ethanol shall be blended using one of the following alternatives:

a. The base gasoline complies with the standards in ASTM D4814, the fuel ethanol complies with the standards in ASTM D4806, and the finished blend complies with the standards in ASTM D4814 with the following permissible exceptions:

i. The distillation minimum temperature at the 50 volume percent evaporated point is not less than 66°C (150°F), and

ii. The minimum test temperature at which the vapor/liquid ratio is equal to 20 is waived;

b. The finished blend complies with the standards in ASTM D4814; or

c. The base gasoline complies with the standards in ASTM D4814 except distillation and the finished blend complies with the standards in ASTM D4814 with the following permissible exceptions:

i. The distillation minimum temperature at the 50 volume percent evaporated point is not less than 66°C (150°F), and

ii. The minimum test temperature at which the vapor/liquid ratio is equal to 20 is waived.

4. A gasoline ethanol blend shall meet the standards specified in ASTM D4814.

C. In addition to complying with the requirements in R3-7-707, the transferor of an oxygenated gasoline blend shall ensure that the product transfer document contains a legible and conspicuous statement that the gasoline being transferred contains an oxygenate and lists the type and percentage concentration of the oxygenate.

D. Nothing in this subsection shall preclude the sale of gasoline with an ethanol content greater than 10 percent by volume and less than or equal to 15 percent by volume of ethanol outside of the CBG-covered area.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-710. Blending Requirements**

A. A person that has custody of or transports an oxygenated gasoline blend shall ensure that no neat oxygenate blending occurs at a motor fuel dispensing site or fleet vehicle fueling facility.

B. If a motor fuel dispensing site storage tank contains an oxygenated gasoline blend that does not contain the amount of oxygen required by A.R.S. §§3-3491, 3-3492, 3-3495, or R3-7-751, the owner or operator of the motor fuel dispensing site shall do one of the following:

1. Add a gasoline blend that dilutes the non-compliant oxygenated gasoline blend to the level of oxygen content required by A.R.S. §§ 3-3491, 3-3492, 3-3495, or R3-7-751;
2. Empty the storage tank and replace the non-compliant oxygenated gasoline blend with a required oxygenate blend;
3. Upon written permission of the associate director, add gasoline that contains no more than 20 percent by volume of the same oxygenate to the non-compliant oxygenated gasoline blend.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-712. Water in Motor Fuel Dispensing Site Storage Tanks**

A motor fuel dispensing site owner or operator shall ensure that water in a motor fuel storage tank other than an alcohol gasoline blend, does not exceed 1" in depth when measured from the bottom through the fill pipe. The owner or operator shall remove all water from the tank before delivery or sale of motor fuel from that tank.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-713. Motor Fuel Storage Tank Labeling**

A. An owner or operator of a motor fuel dispensing site shall ensure that all motor fuel storage tank fill pipes and gasoline vapor return lines located at the motor fuel dispensing site are labeled to identify the contents accurately as:

1. Unleaded gasoline,
2. Unleaded midgrade gasoline,
3. Unleaded premium gasoline,
4. No. 1 or #1 diesel fuel,
5. No. 2, #2 diesel fuel, or diesel fuel,
6. Premium diesel,
7. Gasoline vapor return,
8. Biodiesel or biodiesel blend, for blends containing more than 5 percent by volume,
9. E85 or Ethanol flex fuel, or
10. Other fuel as designated on the product transfer document.

B. An owner or operator of a motor fuel dispensing site shall ensure that the label required under subsection (A) is at least 1 1/2" x 5" with at least 1/4" black or white block lettering on a sharply contrasting background and that the label is clean, visible, and legible at all times.

C. An owner or operator of a motor fuel dispensing site may display other information on the reverse side of a two-sided label.

D. An owner or operator of a motor fuel dispensing site shall not put motor fuel into storage tanks without attaching the proper label.

E. A person shall not deliver motor fuel to a motor fuel dispensing site unless the product transfer documents confirm the motor fuel is the correct type as indicated on the tank fill pipes labeled under subsection (A) or the product being delivered meets or exceeds the standards.

F. If tank manhole covers are color-coded, the color coding shall comply with API 1637.

**Ariz. Admin. Code R3-7-713 Motor Fuel Storage Tank Labeling  
(Arizona Administrative Code (2022 Edition))**

---

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-715. Motor Fuel Testing Methods and Requirements**

A. Unless otherwise required in A.R.S. Title 3, Chapter 19, or this Chapter, the producer of a motor fuel shall test and certify the motor fuel for its motor fuel properties using the methodologies in R3-7-702.

B. The octane rating shall be determined and certified in accordance with 16 CFR 306 using the average of ASTM D2699 and ASTM D2700, also known as the (R+M)/2 method.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-716. Sampling and Access to Records**

A. The Division shall obtain motor fuel samples for testing from:

1. The same motor fuel dispenser used for sales to customers;
2. The same motor fuel dispenser used for dispensing motor fuel into fleet vehicles;
3. A bulk storage facility;
4. A pipeline having custody of motor fuel, including Arizona CBG or AZRBOB;
5. A transporter of motor fuel, including Arizona CBG or AZRBOB;
6. A final distribution facility;
7. A third-party terminal having custody of motor fuel, including Arizona CBG or AZRBOB;
8. An oxygenate blender or registered supplier; or
9. A transmix or production facility.

B. An owner or operator of a motor fuel dispensing site, pipeline, third-party terminal, or storage, transmix, production, or distribution facility, or a transporter, registered supplier, or oxygenate blender shall maintain for five years records relating to producing, importing, blending, transporting, distributing, delivering, testing, or storing motor fuels, including Arizona CBG or AZRBOB, and shall make the records available for Division inspection upon request.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-717. Motor Fuel Dispensing Site Equipment**

A. Hold-open latch. If an owner or operator of a motor fuel dispensing site has a dispensing device with a motor fuel nozzle equipped with a hold-open latch, the owner or operator shall ensure that the latch operates according to the manufacturer's specifications.

B. Nozzle requirements for diesel fuel. An owner or operator of a motor fuel dispensing site with a dispensing device from which diesel fuel is sold at retail shall ensure that the dispensing device has a nozzle spout with a diameter that conforms to SAE J285, "Dispenser Nozzle Spouts for Liquid Fuels Intended for Use with Spark Ignition and Compression Ignition Engines."

C. Motor fuel dispenser filters. An owner or operator of a motor fuel dispensing site shall ensure that:

1. All gasoline, gasoline-alcohol blends, and ethanol flex fuel dispensers have a 10 micron or smaller nominal pore-sized filter;
2. Dispensers that dispense gasoline-alcohol blends shall have fuel filters designed for use with gasoline-alcohol blends;
3. All biodiesel, biodiesel blends, diesel, and kerosene dispensers have a 30 micron or smaller nominal pore-sized filter; or
4. In the event a fuel dispenser is not manufactured to be equipped to use fuel filters, they shall be installed in line with the fuel dispensing hose at the base of the dispenser. If this is not feasible, the motor fuel dispensing site owner may provide evidence that fuel filters cannot be installed at the site due to the configuration and apply for a waiver from these requirements from the Associate Director.

D. From and after September 30, 2018, all retail diesel fuel dispensers shall be equipped with nozzles that have a green grip guard and ethanol flex fuel dispensers shall be equipped with nozzles that have a yellow grip guard. No other nozzles shall be equipment with these color grip guards.

E. Motor fuel dispensers shall meet appropriate UL ratings and be compatible with the motor fuel being dispensed.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-718. Additional Requirements for Production, Transport, Distribution, and Sale of Biofuels and Biofuel Blends**

A. Registration and reporting requirements for biofuel blenders, biofuel producers, and biofuel suppliers of biofuel or biofuel blends in Arizona.

1. Registration requirement.

a. A biofuel producer, biofuel supplier, or biofuel blender shall register with the associate director, using a form prescribed by the associate director, before producing or supplying biofuel or biofuel blend in Arizona.

b. A person required to register under subsection (A)(1)(a) shall notify the associate director within 10 days after the effective date of a change in any of the information provided under subsection (A)(1)(a).

c. If a biofuel producer, biofuel supplier, or biofuel blender fails to register under subsection (A)(1)(a), the associate director shall take action as allowed under A.R.S. § 3-3475 and R3-7-762.

d. The Division shall maintain and make available to the public a list of all persons registered under this Section.

2. Reporting requirement.

a. A person required to register under subsection (A)(1)(a) shall report to the Division by January 30th of each year for the previous calendar year. The person shall:

i. Report on a form or in a format prescribed by the associate director;

ii. Provide the total amount of biofuel or biofuel blend produced or supplied for the previous calendar year, including the total amount of each blend component;

iii. Attest to the truthfulness and accuracy of the information submitted;

iv. Ensure that the report form is signed or submitted electronically by a corporate officer, or the officer's designee, responsible for operations at the facility at or from which the biofuel or biofuel blend was produced or supplied.

b. The Division shall classify the information submitted under subsection (A)(2)(a) as confidential and protected under A.R.S. §44-1374 if the person that submits the information expressly designates the information as confidential.

**Ariz. Admin. Code R3-7-718 Additional Requirements for  
Production, Transport, Distribution, and Sale of Biofuels and  
Biofuel Blends (Arizona Administrative Code (2022 Edition))**

---

**B. Quality Assurance and Quality Control (QA/QC) program requirements.**

1. A biofuel producer or biofuel blender shall implement a QA/QC program to ensure the quality of a biofuel or biofuel blend produced in or supplied in or into Arizona;

2. The QA/QC program implemented by a biofuel producer shall include the following minimum requirements:

a. A sampling and testing program to certify that the biofuel meets applicable ASTM requirements. All samples shall be collected following addition of any applicable blend components in accordance with ASTM methods. The plan shall include a policy for sample retention;

b. A Certificate of Analysis with a unique identification number generated for each batch produced and indicated on the product transfer document;

c. The Certificate of Analysis required under subsection (B)(2)(b) and any other supporting sampling and testing documentation required under this Section is made available to the Division within 24 hours of a request; and

d. Any storage tank containing biofuel that is inactive for more than 30 days is resampled and analyzed to verify the fuel meets ASTM standards.

3. The QA/QC program implemented by a biofuel blender shall include the following minimum requirements:

a. Retention of:

i. Documentation that demonstrates the applicable biofuel blend components were received from a facility registered with the EPA under 40 CFR 80, subpart K or M;

ii. Certificates of Analysis for the biofuel used as a blend component in the blending process; and

iii. Documentation such as a product transfer document that demonstrates the diesel fuel used in the blending process meets the requirements of ASTM D975;

b. For biodiesel blending, all diesel fuel used as a blend component is analyzed to verify the biodiesel content before blending if the initial volume percent of biodiesel content in the diesel fuel component is unknown; alternatively, for biodiesel blends blended at a motor fuel dispensing site, the biofuel blender may assume the diesel contains 5% biodiesel and prepare and maintain calculations demonstrating the biodiesel content of the final

**Ariz. Admin. Code R3-7-718 Additional Requirements for  
Production, Transport, Distribution, and Sale of Biofuels and  
Biofuel Blends (Arizona Administrative Code (2022 Edition))**

---

biodiesel blend if it is advertised to consumers as a B6 to B20 biodiesel blend and the calculations demonstrate the biodiesel blend will be compliant with the biodiesel content advertised;

c. Any storage tank containing biofuel that is inactive for more than 30 days is resampled and analyzed to verify the fuel meets ASTM standards; and

d. All biodiesel used as a blend component in biodiesel blends consists of at least 99 percent biodiesel unless approved by the Division.

4. All records required under this subsection are maintained either onsite or at an offsite location for at least five years and made available to the Division upon request.

5. In the event the Division identifies biofuel or biofuel blends that do not meet ASTM requirements, the producer or biofuel blender shall evaluate the QA/QC program and make any additional changes that may be required to bring the fuel into compliance.

C. Ethanol flex fuel sold or offered for sale within the CBG-covered area shall:

1. Use fuel ethanol that meets the standards in this Chapter, and

2. Have a maximum vapor pressure that does not exceed the maximum vapor pressure requirements in R3-7-751(A)(6).

D. Requirements for motor fuel dispensing sites. The owner or operator of a motor fuel dispensing site at which ethanol flex fuel is dispensed shall ensure that any ethanol flex fuel, biodiesel or biodiesel blend sold, offered or exposed for sale, or dispensed was received from and traceable to a person registered with the Division under subsection (A)(1) and the Environmental Protection Agency under 40 CFR 80, subparts K or M.

E. Exemptions.

1. A biofuel producer, biofuel supplier, or biofuel blender located outside of Arizona and supplying biofuel to a registered biofuel producer, biofuel supplier, or biofuel blender located within Arizona is not required to register under subsection (A)(1)(a);

2. Diesel fuel containing five percent by volume or less biodiesel is exempt from this Section if the following conditions are met:

a. The diesel fuel meets the standards of ASTM D975; and

**Ariz. Admin. Code R3-7-718 Additional Requirements for  
Production, Transport, Distribution, and Sale of Biofuels and  
Biofuel Blends (Arizona Administrative Code (2022 Edition))**

---

- b. If the initial volume percent of biodiesel content is unknown, the person blending the biodiesel into diesel fuel analyzes the diesel fuel to verify the initial biodiesel content and ensure the resulting blend meets the requirements in ASTM D975.
3. A biofuel producer, biofuel supplier, or biofuel blender who produces, supplies, or blends diesel fuel blended with a biomass-based diesel where the resulting fuel meets the requirements in ASTM D975 is exempt from this section.
4. Gasoline containing up to 10 percent ethanol is exempt from this section.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-750. Registration Relating to Arizona CBG or AZRBOB**

A. Each of the following shall register with the associate director before producing, importing, or obtaining custody of Arizona CBG or AZRBOB:

1. A refiner that produces Arizona CBG or AZRBOB;
2. An importer that imports Arizona CBG or AZRBOB;
3. An oxygenate blender that blends oxygenate with AZRBOB to produce Arizona CBG; or
4. A pipeline or third-party terminal that has custody of Arizona CBG or AZRBOB.

B. A person listed in subsection (A) shall register on a form prescribed by the associate director and include the following information:

1. Business name, business address, and contact name or position title and telephone number;
2. For each refinery or oxygenate blending facility, the facility name, physical location, contact name or position title and telephone number, and type of facility;
3. For each refinery, oxygenate blending facility, or importer:
  - a. The location of the records required under this Article. If records are kept off-site, the primary off-site storage facility name, physical location, and contact name or position title and telephone number; and
  - b. If an independent laboratory is used to meet the requirements of R3-7-752(F), the name and address of the independent laboratory, and contact name or position title and telephone number;
4. If required under 40 CFR 80.76(d), the EPA registration number; and
5. A statement of consent permitting the Division or its authorized agent to collect samples and access records as provided in R3-7-716.

C. A person registered under subsection (B) shall notify the associate director within 10 days after the effective date of a change in any of the information provided under subsection (B).

D. If a refiner, importer, or oxygenate blender fails to register under this Section, all Arizona CBG or AZRBOB produced by the refiner or oxygenate blender or imported by the importer and transported to the CBG-covered

area is presumed to be noncompliant from the date that registration should have occurred.

E. The Division shall maintain a list of all registered suppliers.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-750. Registration Relating to Arizona CBG or AZRBOB**

A. Each of the following shall register with the associate director before producing, importing, or obtaining custody of Arizona CBG or AZRBOB:

1. A refiner that produces Arizona CBG or AZRBOB;
2. An importer that imports Arizona CBG or AZRBOB;
3. An oxygenate blender that blends oxygenate with AZRBOB to produce Arizona CBG; or
4. A pipeline or third-party terminal that has custody of Arizona CBG or AZRBOB.

B. A person listed in subsection (A) shall register on a form prescribed by the associate director and include the following information:

1. Business name, business address, and contact name or position title and telephone number;
2. For each refinery or oxygenate blending facility, the facility name, physical location, contact name or position title and telephone number, and type of facility;
3. For each refinery, oxygenate blending facility, or importer:
  - a. The location of the records required under this Article. If records are kept off-site, the primary off-site storage facility name, physical location, and contact name or position title and telephone number; and
  - b. If an independent laboratory is used to meet the requirements of R3-7-752(F), the name and address of the independent laboratory, and contact name or position title and telephone number;
4. If required under 40 CFR 80.76(d), the EPA registration number; and
5. A statement of consent permitting the Division or its authorized agent to collect samples and access records as provided in R3-7-716.

C. A person registered under subsection (B) shall notify the associate director within 10 days after the effective date of a change in any of the information provided under subsection (B).

D. If a refiner, importer, or oxygenate blender fails to register under this Section, all Arizona CBG or AZRBOB produced by the refiner or oxygenate blender or imported by the importer and transported to the CBG-covered

area is presumed to be noncompliant from the date that registration should have occurred.

E. The Division shall maintain a list of all registered suppliers.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-751. Arizona CBG Requirements**

A. General fuel property and performance requirements. In addition to the other requirements of this Article and except as provided in subsection (B), all Arizona CBG shall meet the following requirements and for any fuel property not specified, shall meet the requirements in ASTM D4814. The dates in this subsection are compliance dates for the owner or operator of a motor fuel dispensing site or a fleet vehicle fueling facility.

1. Sulfur: 95 ppm by weight (max).
2. Aromatics: 50 percent by volume (max).
3. Olefins: 25 percent by volume (max).
4. E200: 70-30 percent volume.
5. E300: 100-70 percent volume.
6. Maximum vapor pressure:
  - a. October: 9.0 psi.
  - b. November 1 - March 31: 9.0 psi.
  - c. April: 10.0 psi.
  - d. May: 9.0 psi.
  - e. June 1 - September 30: 7.0 psi.
  - f. A gasoline ethanol blend in the CBG-covered area is subject to the 1 psi vapor pressure waiver, as described in R3-7-708(B), during April only.
7. Oxygen and oxygenates:
  - a. Minimum content:
    - i. November 1 - March 31: 10 percent fuel ethanol by volume or 12.5 percent isobutanol by volume. If A.R.S. §3-3493(C) petition in effect: 2.7 percent oxygen by weight as approved by the associate director.
    - ii. April 1 - October 31: 0 percent by weight (any oxygenate).
  - b. The maximum oxygen content shall not exceed 4.0 percent by weight for fuel ethanol and shall not exceed the amount allowed by EPA waivers under Section 211(f) of the Clean Air Act for other oxygenates. Additionally, the

oxygen content shall comply with the requirements of A.R.S. §3-3491 and §3-3492.

c. Arizona CBG shall not contain more than 0.3 volume percent MTBE nor more than 0.1 weight percent oxygen from all other ethers or alcohols listed in A.R.S. §3-3491.

8. Type 1 Arizona CBG shall meet the Federal Complex Model VOC emissions reduction percentage May 1 through September 15: 27.5 percent (Federal Complex Model settings: Summer, Area Class B, Phase 2). Type 2 Arizona CBG shall meet CARB Phase 2 requirements.

B. Wintertime requirements. In addition to the other requirements of this Article, the owner or operator of a motor fuel dispensing site or a fleet vehicle fueling facility shall ensure that beginning November 1 through March 31 of each year, all Arizona CBG meets the following fuel property requirements.

1. Sulfur: 80 ppm by weight (max),

2. Aromatics: 30% by volume (max),

3. Olefins: 10% by volume (max),

4. 90% Distillation Temp. (T90): 330° F (max),

5. 50% Distillation Temp. (T50): 220° F (max),

6. Vapor Pressure: 9.0 psi (max), and

7. Oxygenate ;

a. Minimum oxygenate content - 10 percent fuel ethanol by volume or 12.5 percent isobutanol by volume;

b. Maximum oxygen content - 4.0 percent oxygen by weight, and shall comply with the requirements of A.R.S. §3-3492; and

c. Alternative minimum fuel ethanol or isobutanol content may be used if approved by the associate director under A.R.S. §3-3493(C).

C. Fuel ethanol and other oxygenate specifications. A person that uses fuel ethanol or other oxygenates as a blending component with AZRBOB or Arizona CBG shall ensure that the fuel ethanol or other oxygenates meet the following requirements :

1. A sulfur content not exceeding 10 ppm by weight;

2. The fuel ethanol or other oxygenate must be composed solely of carbon, hydrogen, nitrogen, oxygen, and sulfur;
3. For fuel ethanol, only gasoline previously certified under 40 CFR Part 80 (including previously certified blendstocks for oxygenate blending), gasoline blendstocks, or natural gas liquids may be used as denaturants; and
4. For fuel ethanol, the concentration of all denaturants is limited to a maximum of 3.0 volume percent.

D. General elections. Except as provided in subsection (E), a registered supplier shall make an initial election, and a subsequent election each time a change occurs, before beginning to transport Arizona CBG or AZRBOB. A registered supplier shall make the election with the associate director on a form or in a format prescribed by the associate director. The election shall state:

1. Whether the registered supplier (at each point where the Arizona CBG or AZRBOB is certified) will supply Arizona CBG or AZRBOB that complies with Type 1 Arizona CBG, Type 2 Arizona CBG, or the PM alternative gasoline formulation requirements and, if the registered supplier will supply Arizona CBG or AZRBOB that complies with the PM alternative gasoline formulation requirements, whether the registered supplier will certify using the CARB Phase 2 model; and
2. For each applicable fuel property or performance standard in the election under subsection (D)(1), whether the Arizona CBG or AZRBOB will comply with the average standards or per-gallon standards. A registered supplier shall not elect to comply with average standards unless the registered supplier is in compliance with R3-7-760. A registered supplier shall not elect to comply with Type 1 Arizona CBG average standards in Table 1, columns B and C, from September 16 through October 31 and February 1 through April 30.

E. Winter elections. Beginning November 1 through March 31 of each year, a registered supplier shall ensure that all Arizona CBG or AZRBOB complies with Type 2 Arizona CBG requirements or the PM alternative gasoline formulation requirements under Table 2. A registered supplier shall make an initial election, and a subsequent election each time a change occurs, before beginning to transport Arizona CBG or AZRBOB. A registered supplier shall make the election with the associate director on a form or in a format prescribed by the associate director. The election shall state:

1. Whether the registered supplier (at each point where the Arizona CBG or AZRBOB is certified) will supply Arizona CBG or AZRBOB that complies

with the Type 2 Arizona CBG or the PM alternative gasoline formulation requirements; and

2. For each applicable fuel property, whether the Arizona CBG or AZRBOB will comply with the average standards or per-gallon standards.

F. A registered supplier may elect and produce Type 1 Arizona CBG from December 1 through March 31 but the registered supplier shall not distribute the Arizona CBG to a motor fuel dispensing site within the CBG-covered area before April 1.

G. Certification as Type 1 Arizona CBG or Type 2 Arizona CBG. A registered supplier shall certify Arizona CBG or AZRBOB under R3-7-752 as meeting all requirements of the election made in subsection (D) or (E). For each fuel property, Type 1 Arizona CBG shall comply with the requirements in either column A or columns B through D of Table 1, and shall be certified using the Federal Complex Model, which is incorporated by reference in R3-7-702. For each fuel property, Type 2 Arizona CBG shall comply with the requirements of columns A and B (averaging option), or column C in Table 2. The PM alternative gasoline formulation shall meet the requirements of subsections (H), (I), and (J), and column A of Table 2. A registered supplier may certify Arizona CBG or AZRBOB using an equivalent test method that the Division approves using the criteria stated in R3-7-759.

H. Certification and use of Predictive Model for alternative PM gasoline formulations.

1. Except as provided in subsections (H)(4) and (J), a registered supplier shall use the PM as provided in the Predictive Model Procedures.

2. A registered supplier shall certify a PM alternative gasoline formulation with the associate director by either:

a. Submitting to the associate director a complete copy of the documentation provided to the executive officer of CARB according to 13 California Code of Regulations, Section 2264 and subsection (J); or

b. Notifying the associate director, on a form prescribed by or in a format acceptable to the associate director, of:

i. The PM alternative specifications that apply to the final blend, including for each specification whether it is a PM flat limit or a PM averaging limit; and

- ii. The numerical values for percent change in emissions for oxides of nitrogen and hydrocarbons determined in accordance with the Predictive Model Procedures.
- 3. A registered supplier shall deliver the certification required under subsection (H)(2) to the associate director before transporting the PM alternative gasoline formulation.
- 4. Restrictions for elections to sell or supply final blends as PM alternative gasoline formulations.
  - a. A registered supplier shall not make a new election to sell or supply from its production or import facility a final blend of Arizona CBG as a PM alternative gasoline formulation if the registered supplier has an outstanding requirement under subsection (K) to provide offsets for fuel properties at the same production or import facility.
  - b. If a registered supplier elects to sell or supply from its production or import facility a final blend of Arizona CBG as a PM alternative gasoline formulation subject to a PM averaging compliance option for one or more fuel properties, the registered supplier shall not elect any other compliance option, including another PM alternative gasoline formulation, if an outstanding requirement to provide offsets for fuel properties exists under the provisions of subsection (K). This subsection does not preclude a registered supplier from electing another PM alternative gasoline formulation if:
    - i. The PM flat limit for one or more fuel properties is changed to a PM averaging limit, or a single PM averaging limit for which there is no outstanding requirement to provide offsets is changed to a PM flat limit;
    - ii. There are no changes to the PM alternative specifications for remaining fuel properties; and
    - iii. The new PM alternative formulation meets the criteria in the Predictive Model Procedures.
  - c. If a registered supplier elects to sell or supply from the registered supplier's production or import facility a final blend of Arizona CBG as a PM alternative gasoline formulation, the registered supplier shall not use a previously assigned designated alternative limit for a fuel property to provide offsets under subsection (K).
  - d. If a registered supplier notifies the associate director under subsection (D) or (E) that a final blend of Arizona CBG is sold or supplied from a production or import facility as a PM alternative gasoline formulation, all

final blends of Arizona CBG or AZRBOB subsequently sold or supplied from that production or import facility are subject to the same PM alternative specifications until the registered supplier either:

- i. Designates a final blend at that facility as a PM alternative gasoline formulation subject to different PM alternative specifications; or
- ii. Elects, under subsection (D) or (E), a final blend at that facility subject to a flat limit compliance option or an averaging compliance option.

I. Prohibited activities regarding PM alternative gasoline formulations. A registered supplier shall not sell, offer for sale, supply, or offer to supply from the registered supplier's production or import facility Arizona CBG that is reported as a PM alternative gasoline formulation under R3-7-752 if any of the following occur:

1. The elected PM alternative specifications do not meet the criteria for approval in the Predictive Model Procedures,
2. The registered supplier is prohibited by subsection (H)(4)(a) from electing to sell or supply the gasoline as a PM alternative gasoline formulation,
3. The gasoline fails to conform with any PM flat limit in the PM alternative specifications election, or
4. With respect to any fuel property for which the registered supplier elects a PM averaging limit:
  - a. The gasoline exceeds the applicable PM average limit in Table 2, column B, and no designated alternative limit for the fuel property is established for the gasoline in accordance with subsection (H)(2); or
  - b. A designated alternative limit for the fuel property is established for the gasoline in accordance with subsection (H)(2), and either the gasoline exceeds the designated alternative limit for the fuel property or the designated alternative limit for the fuel property exceeds the PM averaging limit and the exceedance is not fully offset in accordance with subsection (K).

J. Oxygen content requirements for PM alternative gasoline formulations. A registered supplier shall ensure that from November 1 through March 31, all alternative PM gasoline formulations comply with oxygen content requirements for the CBG-covered area. Regardless of the oxygen content, a registered supplier shall certify the final alternative PM gasoline formulation using the PM with a minimum oxygen content of 2.0 percent by weight. A

registered supplier may use the CARBOB Model as a substitute for the preparation of a fuel ethanol hand blend and use the fuel qualities calculated under the CARBOB Model for compliance and reporting purposes.

K. Offsetting fuel properties and performance standards. A registered supplier that elects to comply with the averaging standards for any of the fuel properties or performance standards contained in Tables 1 and 2, or the PM, shall, from a single production or import facility, complete physical transfer of certified Arizona CBG or AZRBOB in sufficient quantity to offset the amount by which the Arizona CBG or AZRBOB exceeds the averaging standard according to the following schedule:

1. A registered supplier that elects to comply with the averaging standards contained in Table 2 or the PM shall offset each exceeded average standard within 90 days before or after beginning to transport any final blend of Arizona CBG or AZRBOB from the production or import facility;
2. A registered supplier that elects to comply with the averaging standard for the VOC Emission Reduction Percentage in Table 1, column B, shall offset an exceedance of the standard that occurs from May 1 through September 15 during that same period; and
3. A registered supplier that elects to comply with the averaging standard for the NOx Emission Reduction Percentage contained in Table 1, column B, shall offset an exceedance of the standard that occurs from May 1 through September 15 during that same period.

L. Consequence of failure to comply with averages.

1. In addition to a penalty under R3-7-762, if any, a registered supplier that fails to comply with a requirement of subsection (K) shall meet the applicable per-gallon standards contained in Table 1, Table 2, or an alternative PM gasoline formulation, for a probationary period as follows:
  - a. For a registered supplier that elects to comply with the standards contained in Table 1, the probationary period begins on the first day of the next averaging season and ends on the last day of that averaging season if the conditions of subsection (L)(2) are met;
  - b. For a registered supplier that elects to comply with the standards contained in Table 2 or the PM, the probationary period begins no later than 90 days after the registered supplier determines, or receives a notice from the associate director, that the registered supplier did not comply with the requirements of subsection (K). Before the probationary period begins, the registered supplier shall notify the associate director in writing of the

beginning date of the probationary period. The probationary period ends 90 days after its beginning date.

2. A registered supplier shall not produce or import Arizona CBG or AZRBOB under an averaging compliance election until:

a. The registered supplier submits a compliance plan to the associate director that includes:

- i. An implementation schedule for actions to correct noncompliance, and
- ii. Reporting requirements that document implementation of the compliance plan,

b. The associate director approves the plan,

c. The registered supplier implements the plan, and

d. The registered supplier achieves compliance.

3. If a registered supplier fails to comply with the requirements of subsection (K) within one year of the end of a probationary period under subsection (L)(1), the registered supplier shall comply with applicable per-gallon standards for a subsequent probationary period of two years, or until the conditions in subsection (L)(2) are satisfied, whichever is later.

a. If a registered supplier elects to comply with the Table 1 standards, the probationary period begins on the first day of the next averaging season.

b. If a registered supplier elects to comply with the Table 2 standards or the PM, the probationary period begins no later than 90 days after the registered supplier determines, or receives notice from the associate director, that the registered supplier did not comply with the requirements of subsection (K). Before the probationary period begins, the registered supplier shall notify the associate director in writing of the beginning date of the probationary period.

4. If a registered supplier fails to comply with the requirements of subsection (K) within one year after the end of a probationary period provided under subsection (L)(3), the registered supplier shall permanently comply with applicable per-gallon standards.

M. Effect of VOC survey failure. Each time a VOC survey conducted under R3-7-760 shows excess VOC emissions in the CBG-covered area, the VOC emissions performance reduction in R3-7-751(A)(8) and the minimum per-gallon VOC emission reduction percentage in Table 1, column C shall be

increased by an absolute 1.0 percent, not to exceed the VOC percent emissions reduction percentage per-gallon standard in Table 1, column A.

N. Effect of NO<sub>x</sub> survey failure. Each time a NO<sub>x</sub> survey conducted under R3-7-760 shows excess NO<sub>x</sub> emissions in the CBG-covered area, the NO<sub>x</sub> average emission reduction percentage applicable to the period of May 1 through September 15 in Table 1, column B shall be increased by an absolute 1.0 percent.

O. Subsequent survey compliance. If the minimum VOC or average NO<sub>x</sub> emissions reduction percentage has been made more stringent according to subsection (M) or (N) and all emissions reduction surveys for VOC or NO<sub>x</sub> for two consecutive years show emissions within the applicable adjusted reduction percentage in the CBG-covered area, the applicable VOC or NO<sub>x</sub> emissions adjusted reduction percentage shall be reduced by an absolute 1.0 percent beginning in the year following the year in which the second compliant survey is conducted. Each emissions reduction percentage adjusted under this subsection shall not be decreased below the following:

1. >27 percent for the VOC emissions reduction percentage, May 1 - through September 15, Table 1, column C; and
2. >6.8 percent for the NO<sub>x</sub> emissions reduction percentage, May 1 - through September 15, Table 1, column B.

P. Subsequent survey failures. If a VOC or NO<sub>x</sub> emissions reduction percentage is made less stringent under subsection (O) and a subsequent VOC or NO<sub>x</sub> survey shows excess VOC or NO<sub>x</sub> emissions in the CBG-covered area:

1. For a VOC survey failure, the Federal Complex Model VOC emissions reduction percentage in R3-7-751(A)(8) and the minimum per gallon VOC emission reduction percentage in Table 1, column C shall be increased by an absolute 1.0 percent, not to exceed the VOC percent emissions reduction percentage per gallon standard in Table 1, column A;
2. For a NO<sub>x</sub> survey failure, the NO<sub>x</sub> average emission reduction percentage applicable May 1 through September 15 in Table 1, column B shall be increased by an absolute 1.0 percent; and
3. If the VOC or NO<sub>x</sub> emission reduction percentage is increased under subsection (P)(1) or (2), the VOC or NO<sub>x</sub> emission reduction percentage shall not be made less stringent regardless of the result of subsequent surveys for VOC or NO<sub>x</sub> emissions.

Q. Effective date for adjusted standards. If a performance standard is adjusted by operation of subsection (M), (N), (O), or (P), the effective date for the change is the beginning of the next averaging season for which the standard is applicable.

R. The use of oxygenates other than ethanol under subsection (A)(7)(a)(i) and (B)(7)(a) is prohibited until EPA approves a revision to the state implementation plan allowing the use of oxygenates other than ethanol.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-752. General Requirements for Registered Suppliers**

A. A registered supplier shall certify that each batch of Arizona CBG or AZRBOB transported for sale or use in the CBG-covered area meets the standards in this Article.

B. A registered supplier shall make the certification on a form or in a format prescribed by the associate director. The registered supplier shall include in the certification information on shipment volumes, fuel properties as determined under R3-7-759, and performance standards for each batch of Arizona CBG or AZRBOB. The registered supplier shall submit the certification to the associate director on or before the 15th day of each month for each batch of Arizona CBG or AZRBOB transported during the previous month.

C. Recordkeeping and records retention.

1. A registered supplier that samples and analyzes a final blend or shipment of Arizona CBG or AZRBOB under this Section shall maintain, for five years from the date of each sampling, records of the following:

a. Sample date;

b. Identity of blend or product sampled;

c. Container or other vessel sampled;

d. The final blend or shipment volume; and

e. The test results for sulfur, aromatic hydrocarbon, olefin, oxygen, vapor pressure, and as applicable, T50, T90, E200, and E300 as determined under R3-7-759.

2. If Arizona CBG or AZRBOB produced or imported by a registered supplier is not tested and documented as required by this Section, the associate director shall deem the Arizona CBG or AZRBOB to have a vapor pressure, sulfur, aromatic hydrocarbon, olefin, oxygen, T50, and T90 that exceeds the standards specified in R3-7-751 or the comparable PM averaging limits, unless the registered supplier demonstrates to the associate director that the Arizona CBG or AZRBOB meets all applicable fuel property limits and performance standards.

3. A registered supplier shall provide to the associate director any records maintained by the registered supplier under this Section within 20 days of a written request from the associate director. If a registered supplier fails to provide records for a blend or shipment of Arizona CBG or AZRBOB, the

associate director shall deem the final blend or shipment of Arizona CBG or AZRBOB in violation of R3-7-751, unless the registered supplier demonstrates to the associate director that the Arizona CBG or AZRBOB meets all applicable fuel property limits and performance standards.

D. Notification requirement. A registered supplier shall notify the associate director by fax or e-mail before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.

E. Quality Assurance and Quality Control (QA/QC) Program. A registered supplier shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the registered supplier's laboratory testing of Arizona CBG or AZRBOB. The registered supplier shall submit the QA/QC program to the associate director for approval at least three months before the registered supplier transports Arizona CBG or AZRBOB. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the registered supplier's laboratory testing procedures comply with R3-7-759 and the data generated by the registered supplier's laboratory are complete, accurate, and reproducible. If the registered supplier makes significant changes to the QA/QC program, the registered supplier shall resubmit the QA/QC program to the associate director for review and approval. Within 30 days of receiving the changed QA/QC program, the associate director shall determine whether the changed QA/QC program meets the original quality objectives. The associate director shall approve the changed QA/QC program if it meets the quality objectives. Instead of developing a QA/QC program, a registered supplier may comply with the independent testing requirements of subsection (F).

F. Independent testing.

1. A registered supplier of Arizona CBG or AZRBOB that does not develop a QA/QC program shall conduct a program of independent sample collection and analysis for the Arizona CBG or AZRBOB produced or imported, that complies with one of the following:

a. Option 1. A registered supplier shall, for each batch of Arizona CBG or AZRBOB produced or imported, have an independent laboratory collect and analyze a representative sample from the batch using the methodology specified in R3-7-759 for compliance with each fuel property and performance standard for which the Arizona CBG or AZRBOB is certified.

b. Option 2. A registered supplier shall have an independent testing program for all Arizona CBG or AZRBOB that the registered supplier produces or imports that consists of the following:

i. An independent laboratory shall collect a representative sample from each batch;

ii. The associate director or designee shall identify up to 10% of the samples collected under subsection (F)(1)(b)(i) for analysis; and

iii. The independent laboratory shall, for each sample identified by the associate director or designee, analyze the sample using the methodology specified in R3-7-759 for compliance with each fuel property and performance standard for which the Arizona CBG or AZRBOB is certified.

2. The associate director or designee may request in writing a duplicate of the batch sample collected under subsection (F)(1)(a) or (b) for analysis by a laboratory selected by the associate director or designee. The registered supplier shall submit a duplicate of the sample to the associate director within 24 hours of the written request.

3. Designation of independent laboratory.

a. A registered supplier that does not develop a QA/QC program shall designate one independent laboratory for each production or import facility at which the registered supplier produces or imports Arizona CBG or AZRBOB. The independent laboratory shall collect samples and perform analyses according to subsection (F).

b. A registered supplier shall identify the designated independent laboratory to the associate director under the registration requirements of R3-7-750.

c. A laboratory is considered independent if:

i. The laboratory is not operated by a registered supplier or the registered supplier's subsidiary or employee,

ii. The laboratory does not have any interest in any registered supplier, and

iii. The registered supplier does not have any interest in the designated laboratory.

d. Notwithstanding the restrictions in subsection (F)(3)(c), the associate director shall consider a laboratory independent if it is owned or operated by a pipeline owned or operated by four or more registered suppliers.

e. A registered supplier shall not use a laboratory that is debarred, suspended, or proposed for debarment according to the Government-wide Debarment and Suspension regulations, 40 CFR 32, or the Debarment,

Suspension and Ineligibility provisions of the Federal Acquisition Regulations, 48 CFR 9.4.

4. A registered supplier shall ensure that its designated independent laboratory:

a. Records the following at the time the designated independent laboratory collects a representative sample from a batch of Arizona CBG or AZRBOB:

i. The producer's or importer's assigned batch number for the batch sampled;

ii. The volume of the batch;

iii. The identification number of the gasoline storage tank in which the batch is stored at the time the sample is collected;

iv. The date and time the batch became Arizona CBG or AZRBOB;

v. The date and time the sample is collected;

vi. The grade of the batch (for example, unleaded premium, unleaded mid-grade, or unleaded); and vii. For Arizona CBG or AZRBOB produced by computer-controlled in-line blending, the date and time the blending process began and the date and time the blending process ended, unless exempt under subsection (G);

b. Retains each sample collected under this subsection for at least 45 days, unless this time is extended by the associate director for up to 180 days;

c. Submits to the associate director a quarterly report on or before the 15th day of January, April, July, and October of each year that includes, for each sample of Arizona CBG or AZRBOB analyzed under subsection (F):

i. The results of the independent laboratory's analyses for each fuel property, and

ii. The information specified in subsection (F)(4)(a) for each sample; and

d. Supplies to the associate director, upon request, a duplicate of the sample.

G. Exemptions to QA/QC and independent laboratory testing requirements. A registered supplier that produces or imports Arizona CBG or AZRBOB using computer-controlled in-line blending equipment and operates under an exemption from EPA under 40 CFR 80.65(f)(iv), is exempt from the requirements of subsections (E) and (F), if reports of the results of the independent audit program of the registered supplier's computer-controlled

in-line blending operation, which are submitted to EPA under 40 CFR 80.65(f)(iv), are submitted to the associate director by March 1 of each year.

H. Use of laboratory analysis for certification of Arizona CBG and AZRBOB.

1. If both a registered supplier and an independent laboratory collect a sample from the same batch of Arizona CBG or AZRBOB and perform a laboratory analysis under subsection (F) to determine compliance of the sample with a fuel property, the registered supplier and independent laboratory shall use the same test methodology. The results of the analysis conducted by the registered supplier shall be used for certification of the Arizona CBG or AZRBOB under subsection (B), unless the absolute value of the difference between the two results is larger than one of the following:

a. Sulfur content: 25 ppm by weight,

b. Aromatics: 2.7% by volume,

c. Olefins: 2.5% by volume,

d. Fuel ethanol: 0.4% by volume,

e. Isobutanol: 0.6% by volume

f. Vapor pressure: 0.3 psi,

g. 50% distillation temperature: ASTM reproducibility for that sample using the slope from the registered supplier's results,

h. 90% distillation temperature: ASTM reproducibility for that sample using the slope from the registered supplier's results,

i. E200: 2.5% by volume,

j. E300: 3.5% by volume, or

k. API gravity: 0.3° API.

2. If the absolute value of the difference between the results of the analyses conducted by the registered supplier and independent laboratory is larger than one of the values specified in subsection (H)(1), the registered supplier shall use one of the following for certification of the batch of Arizona CBG or AZRBOB under subsection (B):

a. The larger of the two values for each fuel property, except the smaller of the two values shall be used for measures of oxygenates; or

b. Have a second independent laboratory analyze the Arizona CBG or AZRBOB for each fuel property. If the difference between the results obtained by the second independent laboratory and those obtained by the registered supplier are within the range listed in subsection (H)(1), the registered supplier's results shall be used for certifying the Arizona CBG or AZRBOB under subsection (B).

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.  
Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-753. General Requirements for Pipelines and Third-party Terminals**

A. A pipeline or third-party terminal shall not accept Arizona CBG or AZRBOB for transport unless:

1. The Arizona CBG or AZRBOB is physically transferred from an importer, refiner, oxygenate blender, pipeline, or third-party terminal registered with the Division under R3-7-750; and
2. The registered supplier provides written verification that the gasoline is Arizona CBG or AZRBOB and complies with the standards in R3-7-751(A) or (B), as applicable, without reproducibility or numerical rounding.

B. A pipeline or third-party terminal that transports Arizona CBG or AZRBOB shall collect a sample of each incoming batch. The pipeline or third-party terminal shall retain the sample for at least 30 days unless this time is extended for an individual sample for up to 180 days by the associate director.

C. A pipeline shall conduct quality control testing of Arizona CBG or AZRBOB at a frequency of at least one sample from one batch completing shipment for each registered supplier each day at each input location.

D. A pipeline shall provide the associate director with a report summarizing the quality control testing results obtained under subsection (C) within 10 days of the end of each month. The report shall contain the quantity of Arizona CBG or AZRBOB, date tendered, whether the Arizona CBG or AZRBOB was transported by pipeline, present sample location, and laboratory analysis results.

E. If a batch does not meet the standards in R3-7-751(A) or (B), as applicable, but is within reproducibility, the pipeline shall notify the associate director by fax or e-mail within 48 hours of the batch volume and date tendered, proposed shipment date, whether the batch was transported by the pipeline, present batch location, and laboratory analysis results.

F. If a batch does not meet the standards in R3-7-751(A) or (B), as applicable, including reproducibility, the pipeline or third-party terminal shall notify the associate director by fax or e-mail within 24 hours of the batch quantity and date tendered, proposed shipment date, whether the batch was transported by the pipeline, present batch location, and laboratory analysis results. If the batch is in the pipeline's or third-party terminal's control, the pipeline or third-party terminal shall prevent release

**Ariz. Admin. Code R3-7-753 General Requirements for Pipelines and Third-party Terminals (Arizona Administrative Code (2022 Edition))**

---

of the batch from a distribution point until the batch is certified as meeting the standards in R3-7-751(A) or (B), as applicable.

G. A pipeline or third-party terminal shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the pipeline's or third-party terminal's laboratory testing. The QA/QC program for a pipeline or third-party terminal shall include a description of the laboratory testing protocol used to verify that Arizona CBG or AZRBOB transported to the CBG-covered area meets the standards in R3-7-751(A) or (B). A pipeline or third-party terminal shall submit the QA/QC program to the associate director for approval at least three months before the pipeline or third-party terminal begins to transport Arizona CBG or AZRBOB. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the pipeline's or third-party terminal's laboratory testing produces data that are complete, accurate, and reproducible. If a pipeline or third-party terminal makes significant changes to the QA/QC program, the pipeline or third-party terminal shall resubmit the QA/QC program to the associate director for review and approval. Within 30 days of receiving the changed QA/QC program, the associate director shall determine whether the changed QA/QC program meets the quality objectives originally approved by the Division. The associate director shall approve the changed QA/QC program if it meets the quality objectives.

H. A portion of a facility that a third-party terminal uses for production, import, or oxygenate blending is exempt from this Section, but the third-party terminal shall operate the exempt portion of the facility in compliance with requirements for registered suppliers in R3-7-752 and oxygenate blenders in R3-7-755, as applicable.

I. A pipeline is not liable under R3-7-761 if it follows all of the procedures in this Section.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-754. Downstream Blending Exceptions for Transmix**

A. A pipeline or third-party terminal may blend transmix into Arizona CBG or AZRBOB at a rate not to exceed 1/4 of one percent by volume. Each pipeline or third-party terminal shall document the transmix blending (recording each batch and volume of transmix blended) and maintain the records at the third-party terminal for two years from the date of blending.

B. One of two methods shall be used to measure the transmix as it is blended into the product stream:

1. Meters, calibrated at least twice each year; or

2. Tank gauge as per American Petroleum Institute (API) Manual of Petroleum Measurement Standards, Chapters 3.1A (1st edition, December 1994) and 3.1B (1st edition, April 1992), incorporated by reference and on file with the Division. A copy may also be obtained at American Petroleum Institute, 1220 L St., N.W., Washington, D.C. 20005-4070. This incorporation by reference contains no future editions or amendments.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-755. Additional Requirements for AZRBOB and  
Downstream Oxygenate Blending**

A. Application of Arizona CBG standards to AZRBOB.

1. Determining whether AZRBOB complies with Arizona CBG standards.

a. If a registered supplier designates a final blend as AZRBOB and complies with the provisions of this Section, the fuel properties and performance standards of the AZRBOB, for purposes of compliance with Table 2, are determined by adding the specified type and amount of oxygenate to a representative sample of the AZRBOB and determining the fuel properties and performance standards of the resulting gasoline using the test methods in R3-7-759 or, in the case of fuel ethanol blends, certifying the AZRBOB using the CARBOB model. If the registered supplier designates a range of amounts of oxygenate to be added to the AZRBOB, the minimum designated amount of oxygenate shall be added to the AZRBOB to determine the fuel properties and performance standards of the resulting Arizona CBG. If a registered supplier does not comply with this subsection, the Division shall determine whether the AZRBOB complies with applicable fuel properties and performance standards, excluding requirements for vapor pressure, without adding oxygenate to the AZRBOB.

b. In determining whether AZRBOB complies with the Arizona CBG standards, the registered supplier shall ensure that the oxygenate added to the representative sample under subsection (A)(1)(a) is representative of the oxygenate the registered supplier reasonably expects will be subsequently added to the AZRBOB.

2. Calculating the volume of AZRBOB. If a registered supplier designates a final blend as AZRBOB and complies with this Section, the volume of AZRBOB is calculated for compliance purposes under R3-7-751 by adding the minimum amount of oxygenate designated by the registered supplier. If a registered supplier fails to comply with this subsection, the Division shall calculate the volume of AZRBOB for purposes of compliance with applicable fuel properties and performance standards without adding the amount of oxygenate to the AZRBOB.

B. Restrictions on transferring AZRBOB.

1. A person shall not transfer ownership or custody of AZRBOB to any other person unless the transferee notifies the transferor in writing that:

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

a. The transferee is a registered oxygenate blender and will add oxygenate in the type and amount (or within the range of amounts) designated in R3-7-757 before the AZRBOB is transferred from a final distribution facility, or

b. The transferee will take all reasonably prudent steps necessary to ensure that the AZRBOB is transferred to a registered oxygenate blender that adds the type and amount (or within the range of amounts) of oxygenate designated in R3-7-757 to the AZRBOB before the AZRBOB is transferred from a final distribution facility.

2. A person shall not sell or supply Arizona CBG from a final distribution facility if the type and amount or range of amounts of oxygenate designated in R3-7-757 have not been added to the AZRBOB.

C. Restrictions on blending AZRBOB with other products. A person shall not combine AZRBOB supplied from the facility at which the AZRBOB is produced or imported with any other AZRBOB, gasoline, blendstock, or oxygenate, except for:

1. Oxygenate in the type and amount (or within the range of amounts) specified by the registered supplier at the time the AZRBOB is supplied from the production or import facility, or

2. Other AZRBOB for which the same oxygenate type and amount (or range of amounts) is specified by the registered supplier at the time the AZRBOB is supplied from the production or import facility.

3. A registered oxygenate blender may utilize an oxygenate type other than the one specified by the registered supplier provided all the requirements of R3-7-751, R3-7-752, R3-7-755, and R3-7-759 are demonstrated with the addition of the different oxygenate type.

D. Quality assurance sampling and testing requirements for a registered supplier supplying AZRBOB from a production or import facility. A registered supplier supplying AZRBOB from a production or import facility shall use an independent third-party quality assurance sampling and testing program as described in subsection (E) or conduct a quality assurance sampling and testing program that meets the requirements of 40 CFR 80.69(a)(7), as it existed on July 1, 1996, except for the changes listed in subsections (D)(1) through (3). 40 CFR 80.69(a)(7), July 1, 1996, is incorporated by reference and on file with the Division. A copy may be obtained at the Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or [bookstore.gpo.gov](http://bookstore.gpo.gov). The material incorporated includes no future editions or amendments.

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

1. 40 CFR 80.69(a)(7). The word "RBOB" is changed to read "AZRBOB";
2. 40 CFR 80.69(a)(7). "...using the methodology specified in § 80.46..." is changed to read "...using the methodology specified in R3-7-759...;" and
3. 40 CFR 80.69(a)(7)(ii). "(within the correlation ranges specified in § 80.65(e)(2)(i))" is changed to read "(within the ranges of the applicable test methods).

E. General requirements for an independent third-party quality assurance sampling and testing program. A registered supplier may contract with an independent third party that conducts a quality assurance sampling and testing program for one or more registered suppliers. The registered supplier shall ensure that the quality assurance sampling and testing program:

1. Is designed and conducted by a third party that is independent of the registered supplier. To be considered independent:
  - a. The third party shall not be an employee of a registered supplier,
  - b. The third party shall not have an obligation to or interest in any registered supplier, and
  - c. The registered supplier shall not have an obligation to or interest in the third party;
2. Is conducted from November 1 through March 31 on all samples collected under the program design previously approved by the associate director under subsection (G);
3. Involves sampling and testing that is representative of all Arizona CBG dispensed in the CBG-covered area;
4. Analyzes each sample for oxygenate according to the methodologies specified in R3-7-759;
5. Bases results on an analysis of each sample collected during the sampling period unless a specific sample does not comply with the applicable per gallon maximum or minimum standards for the fuel property being evaluated in addition to any reproducibility applicable to the fuel property;
6. Participates in a correlation program with the associate director to ensure the validity of analysis results;

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

7. Does not provide advance notice, except as provided in subsection (F), of the date or location of any sampling;
  8. Provides a duplicate of any sample, with information regarding where and the date on which the sample was collected, upon request of the associate director, within 30 days after submitting the report required under subsection (E)(10);
  9. Permits a Division official to monitor sample collection, transportation, storage, and analysis at any time; and
  10. Prepares and submits a report to the associate director within 30 days after the sampling is completed that includes the following information:
    - a. Name of the person collecting the samples;
    - b. Attestation by an officer of the third party that the sampling and testing was done according to the program plan approved by the associate director under subsection (G) and the results are accurate;
    - c. Identification of the registered supplier for whom the sampling and testing program was conducted if the sampling and testing program was conducted for only one registered supplier;
    - d. Identification of the area from which the samples were collected;
    - e. Address of each motor fuel dispensing site from which a sample was collected;
    - f. Dates on which the samples were collected;
    - g. Results of the analysis of the samples for oxygenate type and oxygen weight percent, aromatic hydrocarbon, and olefin content, E200, E300, and vapor pressure, and the calculated VOC or NO<sub>x</sub> emissions reduction percentage, as applicable;
    - h. Name and address of each laboratory at which the samples were analyzed;
    - i. Description of the method used to select the motor fuel dispensing sites from which a sample was collected;
    - j. Number of samples collected at each motor fuel dispensing site; and
    - k. Justification for excluding a collected sample if one was excluded.
- F. An independent third party that contracts with one or more registered suppliers to conduct a quality assurance sampling and testing program shall

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

begin the sampling on the date selected by the associate director. The associate director shall inform the third party of the date selected at least 10 business days before sampling is to begin.

G. To obtain the associate director's approval of an independent third-party quality assurance sampling and testing program plan, the person seeking the approval shall:

1. Submit the plan to the associate director no later than January 1 to cover the sampling and testing period from November 1 through March 31 of each year, and
2. Have the plan signed by an officer of the third party that will conduct the sampling and testing program.

H. No later than September 1 of each year, a registered supplier that intends to meet the requirements in subsection (D) by contracting with an independent third party to conduct quality assurance sampling and testing from November 1 through March 31 shall enter into the contract and pay all of the money necessary to conduct the sampling and testing program. The registered supplier may pay the money necessary to conduct the sampling and testing program to the third party or to an escrow account with instructions to the escrow agent to release the money to the third party as the testing program is implemented. No later than September 15, the registered supplier shall submit to the associate director a copy of the contract with the third party, proof that the money necessary to conduct the sampling and testing program has been paid, and, if applicable, a copy of the escrow agreement.

I. Requirements for oxygenate blenders.

1. Requirement to add oxygenate to AZRBOB. If an oxygenate blender receives AZRBOB from a transferor to whom the oxygenate blender represents that oxygenate will be added to the AZRBOB, the oxygenate blender shall add oxygenate to the AZRBOB in the type and amount (or within the range of amounts) identified in the documentation accompanying the AZRBOB.

2. Additional requirements for oxygenate blending at terminals. An oxygenate blender that makes Arizona CBG by blending oxygenate with AZRBOB in a motor fuel storage tank, other than a truck used to deliver motor fuel to a retail outlet or bulk-purchaser consumer facility, shall determine the oxygen content and volume of the Arizona CBG before shipping, by collecting and analyzing a representative sample of the Arizona CBG, using the methodology in R3-7-759.

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

3. Additional requirements for oxygenate blending in trucks. An oxygenate blender that blends AZRBOB in a motor fuel delivery truck shall conduct quality assurance sampling and testing that meets the requirements in 40 CFR 80.69(e)(2), as it existed on July 1, 1996, except for the changes listed in subsections (I)(3)(a) through (c). 40 CFR 80.69(e)(2), July 1, 1996, is incorporated by reference and on file with the Division. A copy may be obtained at the Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000 or bookstore.gpo.gov. The material incorporated includes no future editions or amendments.

a. 40 CFR 80.69(e)(2). The word "RBOB" is changed to read "AZRBOB;"

b. 40 CFR 80.69(e)(2)(iv). "... using the testing methodology specified at § 80.46 ..." is changed to read "... using the testing methodology specified in R3-7-759...;" and

c. 40 CFR 80.69(e)(2)(v). "(within the ranges specified in § 80.70(b)(2)(I))" is changed to read "(within the ranges of the applicable test methods)."

4. Additional requirements for in-line oxygenate blending in pipelines using computer-controlled blending.

a. An oxygenate blender that produces Arizona CBG by blending oxygenate with AZRBOB into a pipeline using computer-controlled in-line blending shall, for each batch of Arizona CBG produced:

i. Obtain a flow proportional composite sample after the addition of oxygenate and before combining the resulting Arizona CBG with any other Arizona CBG;

ii. Determine the oxygen content of the Arizona CBG by analyzing the composite sample within 24 hours of blending using the methodology in R3-7-759; and

iii. Determine the volume of the resulting Arizona CBG.

b. If the test results for the Arizona CBG indicate that it does not contain the amount of oxygenate specified by the ranges of the applicable test methods, the oxygenate blender shall:

i. Notify the pipeline to downgrade the Arizona CBG to conventional gasoline or transmix upon arrival in Arizona;

ii. Begin an investigation to determine the cause of the noncompliance;

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

iii. Collect a representative sample every two hours during each in-line blend of AZRBOB and oxygenate, and analyze the samples within 12 hours of collection, until the cause of the noncompliance is determined and corrected; and

iv. Notify the associate director in writing within one business day that the Arizona CBG does not comply with the requirements of this Article.

c. The oxygenate blender shall comply with subsection (I)(4)(b)(iii) until the associate director determines that the corrective action has remedied the noncompliance.

5. Recordkeeping and records retention.

a. An oxygenate blender shall maintain, for five years from the date of each sampling, records of the following:

i. Sample date,

ii. Identity of blend or product sampled,

iii. Container or other vessel sampled,

iv. Volume of final blend or shipment,

v. Oxygen content as determined under R3-7-759, and

vi. Results from all testing.

b. The associate director shall deem that Arizona CBG blended by an oxygenate blender and not tested and documented as required by this Section has an oxygen content that exceeds the standards specified in R3-7-751 or exceeds the comparable PM averaging limits, if applicable, unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards in R3-7-751.

c. Within 20 days of the associate director's written request, an oxygenate blender shall provide any records maintained by the oxygenate blender under this Section. If the oxygenate blender fails to provide records requested for a blend or shipment of Arizona CBG, the associate director shall deem that the blend or shipment of Arizona CBG violates R3-7-751 or exceeds the comparable PM averaging limits, if applicable, unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards and limits under R3-7-751.

**Ariz. Admin. Code R3-7-755 Additional Requirements for  
AZRBOB and Downstream Oxygenate Blending (Arizona  
Administrative Code (2022 Edition))**

---

6. Notification requirement. An oxygenate blender shall notify the associate director by fax or e-mail before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.

7. Quality assurance and quality control (QA/QC) program. An oxygenate blender that conducts sampling and testing under subsection (I) in the oxygenate blender's own laboratory shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the oxygenate blender's sampling and testing of Arizona CBG or AZRBOB. The oxygenate blender shall submit the QA/QC program to the associate director for approval at least three months before transporting Arizona CBG. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the oxygenate blender's sampling and testing produces data that are complete, accurate, and reproducible. Instead of developing a QA/QC program, an oxygenate blender may comply with the independent testing requirements of R3-7-752(F), except that, for sampling and testing conducted under subsection (I)(3), the minimum number of samples collected and tested by the independent laboratory shall be 10% of the number of samples required to be collected and tested under subsection (I).

8. An oxygenate blender that does not conduct laboratory sampling and testing required under subsection (I) in its own laboratory shall designate an independent laboratory, as described in R3-7-752(F), to conduct the sampling and testing required under subsection (I)(7).

9. Within 24 hours of the associate director's or designee's written request, an oxygenate blender shall submit a duplicate of any sample collected under subsection (I)(7).

J. Subsection (A)(1)(a) will not become effective until Arizona's revised State Implementation Plan submitted by ADEQ to EPA in August 2013 and subsequent supplement submitted July 2014 is approved by EPA.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-756. Downstream Blending of Arizona CBG with  
Nonoxygenate Blendstocks**

A. A person shall not combine Arizona CBG supplied from a production or import facility with any nonoxygenate blendstock, other than vapor recovery condensate, unless the person demonstrates to the associate director:

1. The blendstock added to the Arizona CBG meets all of the Arizona CBG standards regardless of the fuel properties and performance standards of the Arizona CBG to which the blendstock is added;
2. The person meets the requirements in this Article applicable to producers of Arizona CBG; and
3. The resulting fuel blend is not used within the CBG-covered area.

B. Notwithstanding subsection (A), a person may add nonoxygenate blendstock to a previously certified batch or mixture of certified batches of Arizona CBG that does not comply with one or more of the applicable per-gallon standards contained in R3-7-751(A) or (B) if the person obtains prior written approval from the associate director based on a demonstration that adding the blend-stock will bring the previously certified Arizona CBG into compliance with the applicable per-gallon standards for Arizona CBG. The oxygenate blender or registered supplier shall certify the re-blended Arizona CBG to the Division.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-757. Product Transfer Documentation; Records Retention**

A. If a person transfers custody or title to Arizona CBG or AZRBOB, other than when Arizona CBG is sold or dispensed at a motor fuel dispensing site or fleet vehicle fueling facility, the transferor shall provide to the transferee documents that include the following:

1. Volume of Arizona CBG or AZRBOB being transferred;
2. Location of the Arizona CBG or AZRBOB at the time of transfer;
3. Date of the transfer;
4. Product transfer document number;
5. Identification of the gasoline as Arizona CBG or AZRBOB;
6. Minimum octane rating of the Arizona CBG or AZRBOB;
7. For oxygenated Arizona CBG designated for sale for use in motor vehicles from November 1 through March 31, the type and minimum quantity of oxygenate contained in the Arizona CBG;
8. If the product transferred is AZRBOB for which oxygenate blending is intended:
  - a. Identification of the fuel as AZRBOB and a statement that the "AZRBOB does not comply with the standards for Arizona CBG without the addition of oxygenate";
  - b. Oxygenate type or types and amount or range of amounts that the AZRBOB requires to meet the fuel properties or performance standards claimed by the registered supplier of the AZRBOB, and the applicable specifications for volume percent of oxygenate and weight percent oxygen content; and
  - c. Instructions to the transferee that the AZRBOB may not be combined with any other AZRBOB unless the other AZRBOB has the same requirements for oxygenate type or types and amount or range of amounts; and
9. The final destination:
  - a. When a terminal is the transferor, the owner or the operator of the product transfer document the terminal name and address and the transporter name and address;

b. When a transporter is the transferor, the transporter shall include on the product transfer document the name and address of the transporter and the final destination, which is the location at which the motor fuel will be delivered and off loaded from the truck; and

c. When a jobber or marketer is the transferor, the jobber or marketer shall include on the product transfer document the name and address of the jobber or marketer and the final destination, which may be a final distribution facility or a motor fuel dispensing site.

B. To enable a transferor to comply fully with the requirement in subsection (A)(9), the transferee shall supply to the transferor information regarding the final destination.

C. A registered supplier, third-party terminal, or pipeline may comply with subsection (A) by using standardized product codes on pipeline tickets if the codes are specified in a manual distributed by the pipeline to transferees of the Arizona CBG or AZRBOB, and the manual includes all required information for the Arizona CBG or AZRBOB.

D. Any transferee in subsection (A), other than a registered supplier, oxygenate blender, third-party terminal, pipeline, motor fuel dispensing site, or fleet vehicle fueling facility shall retain product transfer documents for each shipment of Arizona CBG or AZRBOB transferred during the 24 months before the most recent transfer. The transferee shall maintain product transfer documents for the 30 days before the most recent transfer at the business address listed on the product transfer document. The transferee may maintain all remaining product transfer documents for the preceding 24 months elsewhere.

E. A motor fuel dispensing site or fleet vehicle fueling facility shall retain product transfer documents for each shipment of Arizona CBG transferred during the 12 months before the most recent transfer. The motor fuel dispensing site or fleet vehicle fueling facility shall maintain product transfer documents for the three most recent transfers on the premises. The motor fuel dispensing site or fleet vehicle fueling facility may maintain the remaining product transfer documents for the preceding 12 months elsewhere.

F. A registered supplier, oxygenate blender, third-party terminal, or pipeline shall retain product transfer documents for each shipment of Arizona CBG or AZRBOB transferred during the 60 months before the most recent transfer. The transferee shall maintain product transfer documents for each shipment of Arizona CBG or AZRBOB transferred during the 30 days preceding the most recent transfer at the business address listed on the

product transfer document. The transferee may maintain all remaining product transfer documents for the preceding 60 months elsewhere.

G. When a person transfers custody or title of an oxygenate that is intended for use in AZRBOB or Arizona CBG, the person shall provide the transferee a document that prominently states that the oxygenate complies with the standards for an oxygenate intended for use in AZRBOB or Arizona CBG.

H. Upon request by the associate director or designee, a person shall present product transfer documents to the Division within two working days of the request. Legible photocopies of the product transfer documents are acceptable.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

### § R3-7-759. Testing Methodologies

A. Except as provided in subsection (C), a registered supplier or importer certifying Arizona CBG or AZRBOB as meeting the requirements of this Article shall use one of the methods listed in Table A. A copy of the EPA- or CARB-approved ASTM methods may be obtained at: ASTM International (formerly American Society for Testing and Materials), 100 Bar Harbor Drive, West Conshohocken, PA 19428-2959 or [www.astm.org](http://www.astm.org) . A copy of the CARB methods may be obtained at: California Air Resources Board, P.O. Box 2815, Sacramento, CA 95812 or [www.arb.ca.gov](http://www.arb.ca.gov) .

B. An oxygenate blender or third-party terminal certifying Arizona CBG or AZRBOB before transport to the CBG-covered area shall measure the oxygenate content in accordance with the oxygenate blender's or third-party terminal's approved QA/QC program or in accordance with one of the methods listed in Table A.

C. Rather than using a method listed in Table A to certify Arizona CBG or AZRBOB, a registered supplier may use the CARBOB Model and use the fuel-quality measures calculated using the CARBOB Model for compliance and reporting purposes.

D. A test method that the Division determines is equivalent to those listed in Table A may be used to certify Arizona CBG or AZRBOB. The Division has determined that test methods approved by either the EPA or CARB are equivalent test methods. To determine whether a proposed test method is equivalent to those listed in Table A, the Division shall thoroughly review data from both the proposed and designated test methods and assess whether the accuracy and precision of the proposed method is equal to or better than the accuracy and precision of the designated method and whether there is significant bias between the two methods. The Division shall approve a proposed test method only if the Division determines that the accuracy and precision of the proposed test method is equal to or better than the accuracy and precision of the designated method and receives the concurrence of the EPA Regional Administrator. A correlation equation may be required to align the two methods. If a correlation equation is required to align the two methods, the correlation equation becomes part of the equivalent method.

E. Subsections (C) and (D) will not become effective until Arizona's revised State Implementation Plan submitted by ADEQ to EPA in August 2013 and subsequent supplement submitted July 2014 is approved by EPA.

#### History:

**Ariz. Admin. Code R3-7-759 Testing Methodologies (Arizona  
Administrative Code (2022 Edition))**

---

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.  
Amended by final rulemaking at 24 A.A.R. 2666, effective 11/10/2018.

**§ R3-7-760. Compliance Surveys**

A. A registered supplier that elects to certify that Arizona CBG or AZRBOB meets an averaging standard under R3-7-751 shall ensure that compliance surveys are conducted in accordance with a compliance survey program plan approved by the associate director. The associate director shall approve a compliance survey program plan if it:

1. Consists of at least four VOC and NO<sub>x</sub> surveys conducted at least one per month between May 1 through September 15 of each year, and
2. Complies with subsection (J).

B. If a registered supplier fails to ensure that an approved compliance survey program is conducted, the associate director shall issue an order requiring the registered supplier to comply with all applicable fuel property and performance standards on a per-gallon basis for six months or through the end of the survey period identified in subsection (A)(1), whichever is longer. Regardless of when a failure to survey occurs, the associate director's order shall require compliance with per-gallon standards from the beginning of the survey period during which the failure to survey occurs.

C. General compliance survey requirements. A registered supplier shall ensure that a compliance survey conforms to the following:

1. Consists of all samples that are collected under an approved survey program plan during any consecutive seven days and that are not excluded under subsection (C)(4);
2. Is representative of all Arizona CBG being dispensed in the CBG-covered area as provided in subsection (G);
3. Analyzes each sample included in the compliance survey for oxygenate type and content, olefins, sulfur, aromatic hydrocarbons, E200, E300, and vapor pressure according to the test methods in R3-7-759. Vapor pressure is required to be analyzed only from May 1 through September 15;
4. Bases the results of the compliance survey upon an analysis of each sample collected during the course of the compliance survey, unless a sample does not comply with the applicable per gallon maximum or minimum fuel property standard being evaluated in addition to any reproducibility that applies to the fuel property standard; and
5. If a laboratory analyzes the compliance survey samples, the laboratory participates in a correlation program with the associate director to ensure the validity of analysis results.

D. If the associate director determines that a sample used in a compliance survey does not comply with R3-7-751 or another requirement under this Article, the associate director shall take enforcement action against the registered supplier.

E. A registered supplier shall comply with the following VOC and NO<sub>x</sub> compliance survey requirements:

1. For each compliance survey sample, determine the VOC and NO<sub>x</sub> emissions reduction percentage based upon the tested fuel properties for that sample using the methodology for calculating VOC and NO<sub>x</sub> emissions reductions at 40 CFR 80.45, as incorporated by reference in R3-7-702;
2. The CBG-covered area fails a VOC compliance survey if the VOC emissions reduction percentage average of all samples collected during the compliance survey is less than the per-gallon standard for VOC emissions reduction percentage in Table 1, column A.
3. The CBG-covered area fails a NO<sub>x</sub> compliance survey if the NO<sub>x</sub> emissions reduction percentage average of all samples collected during the compliance survey is less than the per-gallon standard for NO<sub>x</sub> emissions reduction percentage in Table 1, column A.

F. A registered supplier shall determine the result of the series of NO<sub>x</sub> compliance surveys conducted May 1 through September 15 as follows:

1. For each compliance survey sample, the NO<sub>x</sub> emissions reduction percentage is determined based upon the tested fuel properties for that sample using the methodology for calculating NO<sub>x</sub> emissions reduction at 40 CFR 80.45, as incorporated by reference in R3-7-702; and
2. The CBG-covered area fails the NO<sub>x</sub> series of compliance surveys conducted May 1 through September 15 if the NO<sub>x</sub> emissions reduction percentage average for all compliance survey samples collected during that time is less than the Federal Complex Model per-gallon standard for the NO<sub>x</sub> emissions reduction percentage in Table 1, column A.

G. General requirements for an independent surveyor conducting a compliance survey. A registered supplier may have the compliance surveys required by this Section conducted by an independent surveyor. The associate director shall approve a compliance survey program conducted by an independent surveyor if the compliance survey program:

1. Is designed and conducted by a surveyor that is independent of the registered supplier. To be considered independent:

- a. The surveyor shall not be an employee of any registered supplier,
  - b. The surveyor shall not have an obligation to or interest in any registered supplier, and
  - c. The registered supplier shall not have an obligation to or interest in the surveyor;
2. Includes enough samples to ensure that the average levels of oxygen, vapor pressure, aromatic hydrocarbons, olefins, T50, T90, and sulfur are determined with a 95 percent confidence level, with error of less than 0.1 psi for vapor pressure, 0.1 percent for oxygen (by weight), 0.5 percent for aromatic hydrocarbons (by volume), 0.5 percent for olefins (by volume), 5°F for T50 and T90, and 10 wppm for sulfur;
  3. Requires that the surveyor not provide advance notice, except as provided in subsection (H), of the date or location of any survey sampling;
  4. Requires that the surveyor provide a duplicate of any sample taken during the survey, with information regarding the name and address of the facility from and the date on which the sample was taken, upon request of the associate director, within 30 days following submission of the survey report required under subsection (G)(6);
  5. Requires that the surveyor permit a Division official to monitor sample collection, transportation, storage, and analysis at any time;
  6. Requires the surveyor to submit a report of each survey to the associate director within 30 days after sampling for the survey is completed that includes the following information:
    - a. Name of the person conducting the survey;
    - b. Attestation by an officer of the surveyor that the sampling and testing was conducted according to the compliance survey program plan and the results are accurate;
    - c. Identification of the registered supplier for whom the compliance survey was conducted if the compliance survey was conducted for only one registered supplier;
    - d. Identification of the area from which survey samples were selected;
    - e. Dates on which the survey was conducted;

- f. Address of each facility at which a sample was collected, and the date of collection;
  - g. Results of the analysis of samples for oxygenate type and oxygen weight percent, aromatic hydrocarbon, and olefin content, E200, E300, and vapor pressure, and the calculated VOC or NO<sub>x</sub> emissions reduction percentage, as applicable, for each survey conducted during the period identified in subsection (A)(1);
  - h. Name and address of each laboratory at which samples were analyzed;
  - i. Description of the method used to select the facilities from which a sample was collected;
  - j. Number of samples collected from each facility;
  - k. Justification for excluding a collected sample from the survey, if one was excluded; and
  - l. Average VOC and NO<sub>x</sub> emissions reduction percentage.
- H. An independent surveyor shall begin each survey on a date selected by the associate director. The associate director shall notify the surveyor of the date selected at least 10 business days before the survey is to begin.
- I. To obtain the associate director's approval of a compliance survey program plan, the person seeking approval shall:
- 1. Submit the plan to the associate director no later than January 1 to cover the survey period of May 1 through September 15 of each year, and
  - 2. Have the plan signed by a corporate officer of the registered supplier or by an officer of the independent surveyor.
- J. No later than April 1 of each year, a registered supplier that intends to meet the requirements in subsection (A) by contracting with an independent surveyor to conduct the compliance survey plan for the next summer and winter season shall enter into the contract and pay all of the money necessary to conduct the compliance survey plan. The registered supplier may pay the money necessary to conduct the compliance survey plan to the independent surveyor or to an escrow account with instructions to the escrow agent to release the money to the independent surveyor as the compliance survey plan is implemented. No later than April 15, the registered supplier shall submit to the associate director a copy of the contract with the independent surveyor, proof that the money necessary to

conduct the compliance survey plan has been paid, and, if applicable, a copy of the escrow agreement.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-761. Liability for Noncompliant Arizona CBG or AZRBOB**

A. Persons liable. If motor fuel designated as Arizona CBG or AZRBOB does not comply with R3-7-751, the following are liable for the violation:

1. Each person who owns, leases, operates, controls, or supervises a facility where the noncompliant Arizona CBG or AZRBOB is found;
2. Each registered supplier whose corporate, trade, or brand name, or whose marketing subsidiary's corporate, trade, or brand name, appears at a facility where the noncompliant Arizona CBG or AZRBOB is found; and
3. Each person who manufactured, imported, sold, offered for sale, dispensed, supplied, offered for supply, stored, transported, or caused the transportation of any gasoline in a storage tank containing Arizona CBG or AZRBOB found to be noncompliant.

B. Defenses.

1. A person who is otherwise liable under subsection (A) is not liable if that person demonstrates:

a. That the violation was not caused by the person or person's employee or agent;

b. That product transfer documents account for all of the noncompliant Arizona CBG or AZRBOB and indicate that the Arizona CBG or AZRBOB complied with this Article; and

c. That the person had a quality assurance sampling and testing program, as described in subsection (C) in effect at the time of the violation; except that any person who transfers Arizona CBG or AZRBOB, but does not assume title, may rely on the quality assurance program carried out by another person, including the person who owns the noncompliant Arizona CBG or AZRBOB, provided the quality assurance program is properly administered.

2. If a violation is found at a facility that operates under the corporate, trade, or brand name of a registered supplier, that registered supplier must show, in addition to the defense elements in subsection (B)(1), that the violation was caused by:

a. A violation of law other than A.R.S. Title 3, Chapter 19, Article 6, this Article, or an act of sabotage or vandalism;

- b. A violation of a contract obligation imposed by the registered supplier designed to prevent noncompliance, despite periodic compliance sampling and testing by the registered supplier; or
  - c. The action of any person having custody of Arizona CBG or AZRBOB not subject to a contract with the registered supplier but engaged by the registered supplier for transportation of Arizona CBG or AZRBOB, despite specification or inspection of procedures and equipment by the registered supplier designed to prevent violations.
3. To show that the violation was caused by any of the actions in subsection (B)(2), the person must demonstrate by reasonably specific showings, by direct or circumstantial evidence, that the violation was caused or must have been caused by another person.
- C. Quality assurance sampling and testing program. To demonstrate an acceptable quality assurance program for Arizona CBG or AZRBOB, at all points in the gasoline distribution network, other than at a motor fuel dispensing site or fleet owner facility, a person shall present evidence:
- 1. Of a periodic sampling and testing program to determine compliance with the maximum or minimum standards in R3-7-751; and
  - 2. That each time Arizona CBG or AZRBOB is noncompliant with one of the requirements in R3-7-751:
    - a. The person immediately ceases selling, offering for sale, dispensing, supplying, offering for supply, storing, transporting, or causing the transportation of the noncompliant Arizona CBG or AZRBOB; and
    - b. The person remedies the violation as soon as practicable.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-762. Penalties**

Any person who violates any provision of this Article is subject to the following:

1. Prosecution for a Class 2 misdemeanor under A.R.S. §3-3473(B)(4);
2. Civil penalties in the amount of \$500 per violation under A.R.S. §3-3475;  
and
3. Stop-use, stop-sale, hold, and removal orders under A.R.S. §3-3415(A)(2).

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1001. Material Incorporated by Reference**

The following documents are incorporated by reference and on file with the Division. The documents incorporated by reference contain no later amendments or editions:

1. California Environmental Protection Agency, Air Resources Board, Vapor Recovery Test Procedure TP-201.1B, Static Torque of Rotatable Phase 1 Adaptors, October 8, 2003 edition, California Air Resources Board, P.O. Box 2815, 2020 L. Street, Sacramento, California 95812-2815.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1002. Exemptions**

A. The owner or operator of a gasoline dispensing site at which the site's stage II vapor recovery system has not been decommissioned in accordance with R3-7-913 is exempt from the provisions of this Article but shall comply with the provisions of Article 9.

B. An owner or operator of a gasoline dispensing site with a gasoline throughput that does not exceed that specified in A.R.S. §3-3512(B) may file for an exemption from this Article. To obtain an exemption, the owner or operator of the gasoline dispensing site shall submit an annual throughput report to the Division, using a form prescribed by the Division, no later than March 30 of each year and attest to the throughput during each month of the previous calendar year. If the owner or operator fails to file an annual throughput report timely or if the annual throughput report indicates the exemption limit specified in A.R.S. §3-3512(B) was exceeded, the Division shall deem the exemption void.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1003. Equipment and Installation**

A. The Division shall reject a vapor recovery system or component from future installation if:

1. Federal regulations prohibit its use;
2. The vapor recovery system or component does not meet the manufacturer's specifications as certified by CARB using test methods approved in R3-7-1001; or
3. The vapor recovery system or component fails greater than 20% of Division inspections for that system or component or the Division receives equivalent failure results from a vapor recovery registered service agency or from another jurisdiction's vapor recovery program, and the Division provides at least 30 days public notice of its proposed rejection.

B. The piping of a stage I vapor recovery system shall be designed and constructed as certified by CARB for that specific vapor recovery system. A person shall not alter a stage I vapor recovery system or component from the CARB-certified configuration without obtaining Division approval under R3-7-1004. All components installed with the stage I vapor recovery system shall be certified by CARB or approved by the Division as required under A.R.S. §3-3512.

C. If Division inspection or test data reveal a deficiency in a fitting, assembly, or component that cannot be permanently corrected, the deficient fitting, assembly, or component shall not be used in Arizona.

D. A stage I liquid or vapor spill containment bucket may have a plugged drain rather than a drain valve if a hand-operated pump is kept onsite for draining entrapped liquid.

E. A stage I vapor recovery system shall have pressure/vacuum (P/V) threaded valves on top of the vent lines for gasoline storage tanks.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1004. Application Requirements and Process for Authority to Construct Plan Approval**

A. A person shall not begin to construct a site requiring a stage I vapor recovery system or to make a major modification of an existing vapor recovery system before obtaining approval of an authority to construct plan application. A major modification is:

1. Adding or replacing a gasoline storage tank that is equipped with a Division approved stage I vapor recovery system;
2. Modifying, adding, or replacing underground vent piping; or
3. Conducting construction under R3-7-913(H)(2).

B. A person shall file with the Division a written change order, using a form provided by the Division, to obtain a modification of the approved vapor recovery system or component if a modification is needed after the Division issues an authority to construct plan approval. The person shall not make any modification until the Division approves the change order.

C. To obtain an authority to construct plan approval, a person shall submit to the Division, on a form provided by the Division, the following:

1. The name, address, and telephone number of any owner, operator, and proposed contractor, if known;
2. The name of the stage I vapor recovery system or component to be installed along with the CARB certification for that system or component;
3. The street address of the site where construction or major modification will take place with an estimated timetable for construction or modification;
4. A copy of a blueprint or scaled site plan for the vapor recovery system or component including all stage I vapor recovery equipment and stage I vapor recovery piping detail; and
5. The application fee specified under R3-7-1006.

D. A person shall ensure that an installed or modified stage I vapor recovery system meets the following requirements:

1. Has CARB-certified product and vapor adaptors that prevent loosening or over-tightening of the stage I product and vapor adaptors;
2. Consists of a two-point stage I system with separate fill and vapor connection points. Coaxial stage I vapor recovery systems shall not be used;

**Ariz. Admin. Code R3-7-1004 Application Requirements and  
Process for Authority to Construct Plan Approval (Arizona  
Administrative Code (2022 Edition))**

---

3. Has a submerged fill pipe that has the fill pipe's highest point of discharge no more than six inches from the tank bottom;
4. Has no tank containing motor fuel other than gasoline connected to the vapor piping;
5. Uses cement that is resistant to deterioration from exposure to water, hydrocarbons, and alcohol to join all pipes;
6. Has tank vent pipes that extend at least 12 feet above the elevation of the stage I fill points;
7. Has tank vent pipes with a minimum inside diameter of:
  - a. Two inches if the pipe is not manifolded, or
  - b. Three inches from the point of manifold if the pipe is manifolded;
8. Has pressure vacuum vent valves that are attached to the tank vent pipes by a threaded connection;
9. If a gasoline tank is installed in an enclosed vault, has an emergency vent in addition to the pressure vacuum vent valve required under subsection (D)(8);
10. Has risers into gasoline storage tanks that are capped with UL-approved caps;
11. Has lead wires for instrumentation that pass through a leak-tight grommet with a compression fitting suitable for exposure to gasoline vapors;
12. Has storage tank vent pipes and fill and vapor manhole tops that are painted a color that minimizes solar gain and has a reflective effectiveness of at least 55 percent. Reflectivity shall be determined by visually comparing the paint with paint-color cards obtained from a paint manufacturer that uses the Master Pallet Notation to specify the paint color (i.e. 58YY 88/180 where the number in italics is the paint reflectivity). Examples of colors have a reflective effectiveness of at least 55 percent include, but are not limited to, yellow, light gray, aluminum, tan, red iron oxide, cream or pale blue, light green, glossy gray, light blue, light pink, light cream, white, silver, beige, tin plate, and mirrored finish. A manhole cover that is color coded for product identification is exempt from this subsection; and
13. Complies with other requirements outlined in the authority to construct permit.

**Ariz. Admin. Code R3-7-1004 Application Requirements and  
Process for Authority to Construct Plan Approval (Arizona  
Administrative Code (2022 Edition))**

---

E. After review and approval of the authority to construct plan, the Division shall issue the authority to construct plan approval and mail, fax, or e-mail the plan approval to the address indicated on the application.

1. A copy of the authority to construct plan approval shall be maintained at the facility during construction so that it is accessible for Division review.
2. Construction of a stage I vapor recovery system or component at a site not having an approved authority to construct plan, shall be stopped and no further installation work done until an authority to construct plan approval is obtained.
3. An authority to construct plan approval is not transferable.

F. The Division shall deny an authority to construct plan for any of the following reasons:

1. Providing incomplete, false, or misleading information; or
2. Failing to meet the requirements stated in this Chapter.

G. If excavation is involved, the Division may visually inspect the stage I underground piping of a gasoline dispensing site before the piping is buried for compliance with the authority to construct plan approval. The owner or operator of a vapor recovery system or component shall give the Division notice by fax or e-mail at least two business days before the underground piping is complete to schedule the inspection. The Division may require the owner or operator to excavate all piping not inspected before burial if the owner or operator does not give the required two business days' notice.

H. After construction is complete, a person who has a valid authority to construct plan approval may dispense gasoline for up to 90 days before final approval if an initial inspection is scheduled according to R3-7-1005.

I. An authority to construct plan approval expires one year from the date of issue or the completion of construction, whichever is sooner.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

<sup>A</sup> A refinery or importer may determine aromatics content using ASTM D1319-02a (2003) if the result is correlated to ASTM D5769-98 (2004). <sup>B</sup> A refinery or importer may determine oxygenate content using ASTM D4815-99 (2004) if the result is correlated to ASTM D5599-00 (2005). Footnotes: 1. Replace the last sentence in ASTM D6550-00 (2005) Section 1.1 with the following: "The application range is from 0.3 to 25 mass percent total olefin, as defined in Section 2263(b), Title 13, California Code of Regulations. If olefin concentrations are not detected, substitute one-half of the detection limit." 2. When determining vapor pressure, the only correlation equation to be used is equation 1 in ASTM D5191-07, Section 14.2, ASTM equation ((.965X)-A).

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1005. Initial Inspection and Testing**

A. Within 10 days after beginning the dispensing of gasoline at a site that requires an authority to construct plan approval, a person shall provide the Division with a written certification of completion by the contractor and schedule an inspection that includes tests and acceptance criteria specified in the authority to construct plan approval and this subsection. The inspection shall be witnessed by the Division at a time approved by the Division and include the following tests:

1. A pressure decay test for each vapor control system including underground storage tanks and tank vents using CARB TP-201.3 test procedures. All test procedures pertaining to stage I vapor recovery systems shall be followed except the post-test procedures in section 8 and the calculations in section 9 of the CARB TP-201.3 test procedures. The compliance status of the site shall be determined by comparing the final five-minute pressure with the minimum allowable final pressure in Table 1. A calculated ullage exceeding that listed in Table 1 shall be rounded up to the next higher ullage volume in the table;
2. A test of each pressure vacuum vent valve using CARB TP-201.1E test procedures;
3. A Tie-Tank test using CARB TP-201.3C test procedure; and
4. Procedures specified by a manufacturer or CARB for testing the vapor recovery system.

B. If there is a difference between a testing contractor's test results and the Division's test results, the Division's test results prevail.

C. If a site fails to pass any of the tests required by subsection (A), the affected vapor recovery system or component shall remain out-of-service until the vapor recovery system and component pass all the appropriate tests in subsection (A).

D. A person who cancels an initial inspection shall notify the Division by calling the Division's designated telephone number at least one hour before the scheduled inspection and shall reschedule the inspection within 10 business days after this notification. The Division shall take enforcement action if a person fails to comply with this Section.

E. A person shall notify the Division when a vapor recovery system or component is repaired after failing an initial inspection. A registered service representative shall not proceed with a reinspection until the Division approves the reinspection date and time.

F. If a registered service representative does not start an initial inspection pressure decay test within 30 minutes of the scheduled start time, the Division shall fail the initial inspection of that site.

G. If a person cancels an initial inspection, the person shall reschedule the inspection within 90 days from the date gasoline was first dispensed.

1. The Division shall take enforcement action if the person fails to timely reschedule the inspection.

2. The registered service agency shall notify the Division in writing at least 10 business days before the inspection of the time, date, and location of the inspection.

3. The Division shall notify the registered service agency within five business days, by fax or e-mail, whether it approves the inspection date and time.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1006. Fee**

The authority to construct plan approval fee is \$250.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017. New Section R3-7-1006 recodified from Section R20-2-1006 at 22 A.A.R. 2786, effective August 15, 2016 (Supp. 16-3).

**§ R3-7-1007. Operation**

A. The owner or operator of a gasoline dispensing site with stage I vapor recovery shall not transfer or permit the transfer of gasoline into any gasoline storage tank subject to this Article unless stage I vapor recovery equipment is installed, maintained, operating, and being used according to the requirements of A.R.S. Title 3, Chapter 19, Article 7, and this Article.

B. The owner or operator of a gasoline dispensing site with stage I vapor recovery shall operate the stage I vapor recovery system and associated components in compliance with the CARB certification or Division approval under A.R.S. §3-3512 for that system and these rules.

C. The owner or operator of a gasoline dispensing site with stage I vapor recovery located in area A shall inspect the system and its components at least once every seven days. The inspections shall include all stage I fittings and spill containment.

D. The owner or operator of a gasoline dispensing site shall immediately stop using a stage I vapor recovery system or component if one or more of the following system or component defects occur:

1. Tank vent pipes are not the proper height or are not properly capped with approved pressure and vacuum vent valves;
2. Vent pipes do not meet the CARB-specified paint color code specified in R3-7-1004(D)(13);
3. The stage I vapor recovery system is not properly installed or maintained as evidenced by the following:
  - a. Spill containment buckets are cracked, rusted, or not clean and empty of liquid; sidewalls are not attached or are otherwise improperly installed; and drain valves are non-functioning or do not seal;
  - b. A fill adaptor collar or vapor poppet (drybreak) is loose, damaged, or has a fill or vapor cap that is not installed or is missing, broken, not securely attached, or missing gaskets;
  - c. Coaxial stage I is not equipped with a functioning CARB-approved poppeted fill tube or the coaxial cap is not installed or is missing, broken, not securely attached, or missing gaskets; or
  - d. A fill tube is missing, broken, or not sealed; has holes or damaged overflow prevention; or the high point of the bottom opening is more than six inches above the tank bottom;

4. The tank rise cap with instrument lead wire for an electronic monitoring system is not installed tightly or any other tank riser is not sealed and capped securely;
  5. An above-ground storage tank does not display a permanently attached UL approval plaque; or
  6. Any other component identified in the diagrams, exhibits, attachments, or other documents and certified by CARB or required by the authority to construct permit for that system is missing, disconnected, or malfunctioning.
- E. For proper operation of a stage I system under A.R.S. §3-3512(C)(4), the owner or operator of a gasoline dispensing site shall recover vapors during pump-out from a gasoline storage tank to a mobile transporter.
- F. The owner or operator of a gasoline dispensing site shall ensure that any underground tightness test is conducted in a manner that prevents gasoline vapors being emitted to the atmosphere.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1008. Training and Public Education**

Each owner or operator of a gasoline dispensing site using stage I vapor recovery shall obtain adequate training and written instructions to enable the system to be installed, operated, and maintained properly in accordance with the manufacturer's specifications and CARB certification. The owner or operator shall maintain documentation of this training onsite and make the documentation available to the Division on request.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1009. Recordkeeping and Reporting**

A. The owner or operator of a gasoline dispensing site employing stage I vapor recovery in area A shall maintain records of the inspections done under R3-7-1007.

B. The owner or operator of a gasoline dispensing site employing stage I vapor recovery in area A shall maintain a log and related records of all regularly scheduled maintenance and any repairs that have been made to stage I equipment.

C. The owner or operator of a gasoline dispensing site that is exempt under A.R.S. §3-3512(B) from requirements to install and operate stage I vapor recovery equipment shall maintain a log at the site showing monthly throughputs. The owner or operator shall make the log available to the Division within 24 hours after request. The owner or operator shall submit to the Division the throughput information required under R3-7-1002(B). If any throughput requirement provided in A.R.S. §3-3512(B) and this Article is exceeded for any month, the owner or operator shall notify the Division in writing within 30 days. The owner or operator shall, within six months after the end of the month the throughput is exceeded, install and operate a stage I vapor recovery system conforming to this Article. If a stage I vapor recovery system is already installed, the owner or operator shall have the system tested under R3-7-1010 within 30 days after the end of the month in which the throughput was exceeded.

D. The owner or operator of a gasoline dispensing site that has decommissioned a stage II vapor recovery system under R3-7-913 shall maintain a copy of the decommissioning checklist required under R3-7-913(I) for three years.

E. Except as specified in subsection (D), the owner or operator of a gasoline dispensing site shall keep all records required by this Article at the gasoline dispensing site for at least one year and shall make these records available to the Division upon request.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1010. Annual Testing and Inspection**

A. A person shall ensure that an annual inspection is conducted by a registered service representative on or before the annual inspection date. The annual inspection date is the last day of the month in which the last scheduled annual inspection was performed. A registered service agency shall notify the Division in writing at least 10 business days before an annual inspection of the time, date, and location of the inspection. The Division shall notify the registered service agency within five business days, by fax or e-mail, whether it approves the annual inspection date and time. The registered service agency shall not perform the annual inspection unless the Division approves the inspection date and time.

B. The annual inspection shall include the tests defined in R3-7-1005(A)(1) through (3) that pertain to the specific vapor recovery system installed.

C. To verify proper operation of a vapor recovery system, the Division may perform or may require registered service representatives to perform additional tests under R3-7-1005(A)(4) during the annual inspection and testing. The Division shall provide registered service agencies with six months' notice before requiring additional annual testing under R3-7-1005(A)(4).

D. If there is a difference between a testing contractor's test results and the Division's test results, the Division's test results prevail.

E. If a site fails to pass any of the tests required under subsection (B), the affected vapor recovery system or component shall remain out-of-service until the vapor recovery system and component pass all tests required under subsection (B).

F. After an annual inspection begins, a person shall not make a repair to the vapor recovery system or component until the results of the inspection are recorded.

G. A person shall notify the Division when a vapor recovery system or component is repaired after failing an annual inspection. A registered service representative shall not conduct a reinspection until the Division approves the reinspection date and time.

H. A registered service representative shall perform all tests according to this Article and any other vapor recovery procedure the Division issues to registered service agencies.

I. A person that cancels an annual inspection shall notify the Division by calling the Division's designated telephone number at least one hour before

the scheduled inspection and shall reschedule the test to be completed by the annual inspection date. A registered service agency shall notify the Division in writing at least 10 business days before an annual inspection of the time, date, and location of the inspection. The Division shall notify the registered service agency within five business days, by fax or e-mail, of its approval of the inspection date and time. The Division shall take enforcement action if a person does not comply with this subsection.

J. Gasoline dispensing sites located in area B are exempt from the annual inspection and testing requirements of this Section.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1012. Enforcement**

If the Division finds that a stage I vapor recovery system or component is defective or non-compliant with one or more of the provisions of this Chapter or A.R.S. Title 3, Chapter 19, the Division shall issue to the owner or operator an administrative order and place a stop-sale, stop-use tag on the non-compliant vapor recovery system or component. The owner or operator may be required to schedule an inspection for a stage II vapor recovery system or component to ensure that it meets all requirements of A.R.S. Title 3, Chapter 19 and this Chapter before the vapor recovery system or component is placed in service.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

**§ R3-7-1013. Stage II Vapor Recovery**

If the Division identifies a gasoline dispensing site operating a stage II vapor recovery system within an ozone nonattainment area designated as moderate, serious, severe, or extreme by the EPA under section 107(d) of the Clean Air Act or in area A after September 30, 2018, the Division shall issue an administrative order and civil penalty under A.R.S. §3-3475 and require that the stage II vapor recovery system be decommissioned within three months after identification. Each day the stage II vapor recovery system is not decommissioned after the time specified in the administrative order constitutes a separate violation for the purpose of calculating the civil penalty under A.R.S. §3-3475.

**History:**

Adopted by final rulemaking at 23 A.A.R. 2280, effective 10/2/2017.

# **AUTHORIZING STATUTES**

### 3-107. Organizational and administrative powers and duties of the director

#### A. The director shall:

1. Formulate the program and policies of the department and adopt administrative rules to effect its program and policies.
2. Ensure coordination and cooperation in the department in order to achieve a unified policy of administering and executing its responsibilities.
3. Subject to section 35-149, accept, expend and account for gifts, grants, devises and other contributions of money or property from any public or private source, including the federal government. All contributions shall be included in the annual report under paragraph 6 of this subsection. Monies received under this paragraph shall be deposited, pursuant to sections 35-146 and 35-147, in special funds for the purpose specified, which are exempt from the provisions of section 35-190 relating to lapsing of appropriations.
4. Contract and enter into interagency and intergovernmental agreements pursuant to title 11, chapter 7, article 3 with any private party or public agency.
5. Administer oaths to witnesses and issue and direct the service of subpoenas requiring witnesses to attend and testify at or requiring the production of evidence in hearings, investigations and other proceedings.
6. Not later than September 30 each year, issue a report to the governor and the legislature of the department's activities during the preceding fiscal year. The report may recommend statutory changes to improve the department's ability to achieve the purposes and policies established by law. The director shall provide a copy of the report to the Arizona state library, archives and public records.
7. Establish, equip and maintain a central office in Phoenix and field offices as the director deems necessary.
8. Sign all vouchers to expend money under this title, which shall be paid as other claims against this state out of the appropriations to the department.
9. Coordinate agricultural education efforts to foster an understanding of Arizona agriculture and to promote a more efficient cooperation and understanding among agricultural educators, producers, dealers, buyers, mass media and the consuming public to stimulate the production, consumption and marketing of Arizona agricultural products.
10. Employ staff subject to title 41, chapter 4, article 4 and terminate employment for cause as provided by title 41, chapter 4, article 5.
11. Conduct hearings on appeals by producers regarding the assessed actual costs of the plow up and the penalty of one hundred fifty per cent for unpaid costs pursuant to section 3-204.01. The director may adopt rules to implement this paragraph.
12. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

#### B. The director may:

1. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.
2. Construct and operate border inspection stations or other necessary facilities in this state and cooperate by joint agreement with an adjoining state in constructing and operating border inspection stations or other facilities within the boundaries of this state or of the adjoining state.
3. Cooperate with agencies of the United States and other states and other agencies of this state and enter into agreements in developing and administering state and federal agricultural programs regarding the use of department officers, inspectors or other resources in this state, in other states or in other countries.
4. Cooperate with the office of tourism in distributing Arizona tourist information.
5. Enter into compliance agreements with any person, state or regulatory agency. For the purposes of this paragraph, "compliance agreement" means any written agreement or permit between a person and the department for the purpose of enforcing the department's requirements.
6. Abate, suppress, control, regulate, seize, quarantine or destroy any agricultural product or foodstuff that is adulterated or contaminated as the result of an accident at a commercial nuclear generating station as defined in section 26-301, paragraph 1. A person owning an agricultural product or foodstuff that has been subject to this paragraph may request a hearing pursuant to title 41, chapter 6, article 10.
7. Engage in joint venture activities with businesses and commodity groups that are specifically designed to further the mission of the department, that comply with the constitution and laws of the United States and that do not compete with private enterprise.
8. Sell, exchange or otherwise dispose of personal property labeled with the "Arizona grown" trademark. Revenues received pursuant to this paragraph shall be credited to the commodity promotion fund established by section 3-109.02.

### 3-3414. Powers and duties; definition

A. The division shall:

1. Maintain custody of the state reference standards of weights and measures that are traceable to the United States prototype standards and that are supplied to the states by the federal government or that are otherwise approved as being satisfactory by the national institute of standards and technology.
2. Keep the state reference standards in a safe and suitable place in the metrology laboratory of the division and ensure that they are not removed from the laboratory except for repairs or for calibration as may be prescribed by the national institute of standards and technology.
3. Keep accurate records of all standards and equipment.
4. Adopt any rules necessary to carry out this chapter and adopt reasonable rules for the enforcement of this chapter. These rules have the force and effect of law and shall be adopted pursuant to title 41, chapter 6. In adopting these rules, the associate director shall consider, as far as is practicable, the requirements established by other states and by authority of the United States, except that rules shall not be made in conflict with this chapter.
5. Publish rules adopted pursuant to this chapter and issue appropriate copies at no cost to all new applicants for licensure and certification. Updated copies of the rules shall be distributed, on request, at no cost to the public.
6. Investigate complaints made to the division concerning violations of this chapter and, on its own initiative, conduct investigations it deems appropriate to develop information relating to prevailing procedures in commercial quantity determination and relating to possible violations of this chapter, in order to educate the public and regulated persons to encourage and promote the general objective of accuracy in the determination and representation of quantity in commercial transactions.
7. Establish labeling standards, establish standards of weight, measure or count and establish reasonable standards of fill for any packaged commodity, and may establish standards for open dating information.
8. Grant, pursuant to this chapter, exemptions from the licensing provisions of this chapter for weighing and measuring instruments, standards or devices when the ownership or use of the instrument or device is limited to federal, state or local government agencies in the performance of official functions. On request, the division may conduct inspections of instruments, standards or devices and shall charge a fee pursuant to section 3-3452.
9. Delegate to appropriate personnel any of the responsibilities of the associate director for the proper administration of this chapter.
10. Inspect and test weights and measures that are kept, offered or exposed for sale.
11. Inspect and test, to ascertain if they are correct, weights and measures that are commercially used either:
  - (a) In determining the weight, measure or count of commodities or things sold, or offered or exposed for sale, on the basis of weight, measure or count.
  - (b) In computing the basic charge or payment for services rendered on the basis of weight, measure or count.

12. Test, at random, commodities, weights and measures that are used in public institutions for which monies are appropriated by the legislature. The testing of commodities, weights and measures in public institutions includes items:
- (a) That have historically been of short weight, measure or count.
  - (b) That have been found to be of short weight, measure or count by other jurisdictions.
  - (c) That are to be tested as part of a regional or national survey.
13. Test, approve for use and affix a seal of approval for use on all weights, measures and commercial devices that are manufactured in or brought into this state as it finds to be correct and shall reject and mark as rejected weights, measures and devices that it finds to be incorrect. Weights, measures and devices that have been rejected may be seized by the division if not corrected within the time specified or if used or disposed of in a manner not specifically authorized. The division shall condemn and may seize weights, measures and devices that are found to be incorrect and that are not capable of being made correct. The division may affix a nontampering seal to commercial devices that are tested and found to be within applicable tolerance.
14. Sample and test motor fuel that is stored, sold or exposed or offered for sale or that is stored for use by a fleet owner to determine whether the motor fuel meets the standards for motor fuel set forth in section 3-3433 and article 6 of this chapter and in any rule adopted by the associate director pursuant to this chapter.
15. Randomly witness tests on all mandated vapor recovery systems that are installed or operated in this state and, if the systems are determined to be in compliance with the law, approve those systems for use and reject, mark as rejected and stop the use of those systems that are determined not to be in compliance with the law.
16. Inspect facilities at which motor fuel is stored, sold or exposed or offered for sale to determine whether dispensing devices are properly labeled.
17. Publish and distribute to consumers and regulated persons weighing and measuring information.
18. Weigh, measure or inspect commodities that are kept, offered or exposed for sale, sold or in the process of delivery to determine whether they contain the amounts represented and whether they are kept, offered or exposed for sale in accordance with this chapter or rules adopted pursuant to this chapter. In carrying out this section, the associate director shall employ recognized sampling procedures, such as are designated in appropriate national institute of standards and technology handbooks and supplements to those handbooks, except as modified or rejected by rule.
19. Allow reasonable variations from the stated quantity of contents only after a commodity has entered intrastate commerce. These variations shall include those caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice.
20. Prescribe the standards of weight and measure and additional equipment methods of test and inspection to be employed in the enforcement of this chapter. The associate director may prescribe or provide the official test and inspection forms to be used in the enforcement of this chapter.
21. Apply to any court of competent jurisdiction for a temporary or permanent injunction restraining any person from violating this chapter.

22. Subject to title 41, chapter 4, article 4, employ such personnel as needed to assist in administering this chapter.

23. Ensure that any information that is required to be filed with the division, that relates to the contents of motor fuels that are sold in this state and that is a trade secret as defined in section 49-201 is not disclosed.

24. Establish by rule labeling standards for tanks and containers of motor fuels.

B. The associate director may provide for the periodic examination and inspection of metering devices, including devices used to measure usage of electricity, natural gas or water by a consumer. Examination and inspection authority shall not apply to metering devices owned by federal, state or local government agencies unless requested by the government agency that owns the metering devices.

C. The associate director may establish standards for the presentation of cost-per-unit information. This subsection does not mandate the use of cost-per-unit information in connection with the sale of any standard packed commodity.

D. The associate director, when necessary to carry out this chapter, may adopt and enforce rules relating to quality standards for motor fuel, kerosene, oil, except used oil fuel, and hazardous waste fuel, lubricating oils, lubricants, antifreeze and other liquid or gaseous fuels. The associate director shall adopt rules to ensure that oxygenated fuels, as described in article 6 of this chapter, that are stored, used, sold or exposed or offered for use or sale are blended and stored, sold, exposed or offered in such a manner as to ensure that the oxygenated fuels are properly blended, that they meet the standards set forth in section 3-3433 and article 6 of this chapter, and in rules adopted pursuant to this chapter, and that dispensers at which the oxygenated fuels are dispensed are labeled as defined by rule of the division in such a manner as to notify persons of the type of oxygenated fuel being dispensed and the maximum percentage of oxygenate by volume contained in the oxygenated fuel. The associate director of the division shall consult with the director of the department of environmental quality in adopting rules pursuant to this subsection.

E. Testing and inspection conducted pursuant to this chapter shall be done, to the extent practicable, without prior notice, by a random systematic method determined by the associate director or in response to a complaint by the public. The testing and inspection may be done by private persons and firms pursuant to contracts entered into by the associate director in accordance with title 41, chapter 23 or by a registered service agency or registered service representative licensed pursuant to section 3-3454. The associate director shall establish qualifications of persons and firms for selection for purposes of this subsection. The persons or firms conducting the testing and inspection shall immediately report to the division any violations of this chapter and incorrect weights, measures, devices, vapor recovery systems or vapor recovery components for investigation and enforcement by the division. A person or firm that tests or inspects a weight, measure, device, vapor recovery system or vapor recovery component that is rejected shall not correct the defect causing the rejection without the permission of the division.

F. During the course of an investigation or an enforcement action by the division, information regarding the complainant is confidential and is exempt from title 39, chapter 1, unless the complainant authorizes the information to be public.

G. For the purposes of the labeling requirements prescribed in this section, "oxygenated fuel" means a motor fuel blend containing 1.5 percent or more by weight of oxygen.

# **IMPLEMENTING STATUTES**

### 3-3413. Technical requirements for commercial devices

The specifications, tolerances and other technical requirements for commercial devices as adopted by the national conference on weights and measures and published in national institute of standards and technology handbook 44, "specifications, tolerances, and other technical requirements for commercial weighing and measuring devices" shall apply to commercial weighing and measuring devices in the state. The edition of the national institute of standards and technology handbook 44 shall be determined by rule, pursuant to section 3-3414, subsection A, paragraph 4.

### 3-3414. Powers and duties; definition

A. The division shall:

1. Maintain custody of the state reference standards of weights and measures that are traceable to the United States prototype standards and that are supplied to the states by the federal government or that are otherwise approved as being satisfactory by the national institute of standards and technology.
2. Keep the state reference standards in a safe and suitable place in the metrology laboratory of the division and ensure that they are not removed from the laboratory except for repairs or for calibration as may be prescribed by the national institute of standards and technology.
3. Keep accurate records of all standards and equipment.
4. Adopt any rules necessary to carry out this chapter and adopt reasonable rules for the enforcement of this chapter. These rules have the force and effect of law and shall be adopted pursuant to title 41, chapter 6. In adopting these rules, the associate director shall consider, as far as is practicable, the requirements established by other states and by authority of the United States, except that rules shall not be made in conflict with this chapter.
5. Publish rules adopted pursuant to this chapter and issue appropriate copies at no cost to all new applicants for licensure and certification. Updated copies of the rules shall be distributed, on request, at no cost to the public.
6. Investigate complaints made to the division concerning violations of this chapter and, on its own initiative, conduct investigations it deems appropriate to develop information relating to prevailing procedures in commercial quantity determination and relating to possible violations of this chapter, in order to educate the public and regulated persons to encourage and promote the general objective of accuracy in the determination and representation of quantity in commercial transactions.
7. Establish labeling standards, establish standards of weight, measure or count and establish reasonable standards of fill for any packaged commodity, and may establish standards for open dating information.
8. Grant, pursuant to this chapter, exemptions from the licensing provisions of this chapter for weighing and measuring instruments, standards or devices when the ownership or use of the instrument or device is limited to federal, state or local government agencies in the performance of official functions. On request, the division may conduct inspections of instruments, standards or devices and shall charge a fee pursuant to section 3-3452.
9. Delegate to appropriate personnel any of the responsibilities of the associate director for the proper administration of this chapter.
10. Inspect and test weights and measures that are kept, offered or exposed for sale.
11. Inspect and test, to ascertain if they are correct, weights and measures that are commercially used either:
  - (a) In determining the weight, measure or count of commodities or things sold, or offered or exposed for sale, on the basis of weight, measure or count.
  - (b) In computing the basic charge or payment for services rendered on the basis of weight, measure or count.

12. Test, at random, commodities, weights and measures that are used in public institutions for which monies are appropriated by the legislature. The testing of commodities, weights and measures in public institutions includes items:
- (a) That have historically been of short weight, measure or count.
  - (b) That have been found to be of short weight, measure or count by other jurisdictions.
  - (c) That are to be tested as part of a regional or national survey.
13. Test, approve for use and affix a seal of approval for use on all weights, measures and commercial devices that are manufactured in or brought into this state as it finds to be correct and shall reject and mark as rejected weights, measures and devices that it finds to be incorrect. Weights, measures and devices that have been rejected may be seized by the division if not corrected within the time specified or if used or disposed of in a manner not specifically authorized. The division shall condemn and may seize weights, measures and devices that are found to be incorrect and that are not capable of being made correct. The division may affix a nontampering seal to commercial devices that are tested and found to be within applicable tolerance.
14. Sample and test motor fuel that is stored, sold or exposed or offered for sale or that is stored for use by a fleet owner to determine whether the motor fuel meets the standards for motor fuel set forth in section 3-3433 and article 6 of this chapter and in any rule adopted by the associate director pursuant to this chapter.
15. Randomly witness tests on all mandated vapor recovery systems that are installed or operated in this state and, if the systems are determined to be in compliance with the law, approve those systems for use and reject, mark as rejected and stop the use of those systems that are determined not to be in compliance with the law.
16. Inspect facilities at which motor fuel is stored, sold or exposed or offered for sale to determine whether dispensing devices are properly labeled.
17. Publish and distribute to consumers and regulated persons weighing and measuring information.
18. Weigh, measure or inspect commodities that are kept, offered or exposed for sale, sold or in the process of delivery to determine whether they contain the amounts represented and whether they are kept, offered or exposed for sale in accordance with this chapter or rules adopted pursuant to this chapter. In carrying out this section, the associate director shall employ recognized sampling procedures, such as are designated in appropriate national institute of standards and technology handbooks and supplements to those handbooks, except as modified or rejected by rule.
19. Allow reasonable variations from the stated quantity of contents only after a commodity has entered intrastate commerce. These variations shall include those caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice.
20. Prescribe the standards of weight and measure and additional equipment methods of test and inspection to be employed in the enforcement of this chapter. The associate director may prescribe or provide the official test and inspection forms to be used in the enforcement of this chapter.
21. Apply to any court of competent jurisdiction for a temporary or permanent injunction restraining any person from violating this chapter.

22. Subject to title 41, chapter 4, article 4, employ such personnel as needed to assist in administering this chapter.

23. Ensure that any information that is required to be filed with the division, that relates to the contents of motor fuels that are sold in this state and that is a trade secret as defined in section 49-201 is not disclosed.

24. Establish by rule labeling standards for tanks and containers of motor fuels.

B. The associate director may provide for the periodic examination and inspection of metering devices, including devices used to measure usage of electricity, natural gas or water by a consumer. Examination and inspection authority shall not apply to metering devices owned by federal, state or local government agencies unless requested by the government agency that owns the metering devices.

C. The associate director may establish standards for the presentation of cost-per-unit information. This subsection does not mandate the use of cost-per-unit information in connection with the sale of any standard packed commodity.

D. The associate director, when necessary to carry out this chapter, may adopt and enforce rules relating to quality standards for motor fuel, kerosene, oil, except used oil fuel, and hazardous waste fuel, lubricating oils, lubricants, antifreeze and other liquid or gaseous fuels. The associate director shall adopt rules to ensure that oxygenated fuels, as described in article 6 of this chapter, that are stored, used, sold or exposed or offered for use or sale are blended and stored, sold, exposed or offered in such a manner as to ensure that the oxygenated fuels are properly blended, that they meet the standards set forth in section 3-3433 and article 6 of this chapter, and in rules adopted pursuant to this chapter, and that dispensers at which the oxygenated fuels are dispensed are labeled as defined by rule of the division in such a manner as to notify persons of the type of oxygenated fuel being dispensed and the maximum percentage of oxygenate by volume contained in the oxygenated fuel. The associate director of the division shall consult with the director of the department of environmental quality in adopting rules pursuant to this subsection.

E. Testing and inspection conducted pursuant to this chapter shall be done, to the extent practicable, without prior notice, by a random systematic method determined by the associate director or in response to a complaint by the public. The testing and inspection may be done by private persons and firms pursuant to contracts entered into by the associate director in accordance with title 41, chapter 23 or by a registered service agency or registered service representative licensed pursuant to section 3-3454. The associate director shall establish qualifications of persons and firms for selection for purposes of this subsection. The persons or firms conducting the testing and inspection shall immediately report to the division any violations of this chapter and incorrect weights, measures, devices, vapor recovery systems or vapor recovery components for investigation and enforcement by the division. A person or firm that tests or inspects a weight, measure, device, vapor recovery system or vapor recovery component that is rejected shall not correct the defect causing the rejection without the permission of the division.

F. During the course of an investigation or an enforcement action by the division, information regarding the complainant is confidential and is exempt from title 39, chapter 1, unless the complainant authorizes the information to be public.

G. For the purposes of the labeling requirements prescribed in this section, "oxygenated fuel" means a motor fuel blend containing 1.5 percent or more by weight of oxygen.

### 3-3415. Enforcement powers of the associate director, agents and inspectors

A. When necessary for the enforcement of this chapter and rules adopted pursuant to this chapter, the associate director or the associate director's agents and inspectors shall:

1. Enter any commercial, nonprofit business or governmental premises during normal operating hours, except that if the premises are not open to the public, the associate director or the associate director's agents and inspectors shall first present their credentials.
2. Issue stop-use, hold and removal orders with respect to any weights and measures commercially used, stop-sale, hold and removal orders with respect to any commodities, bulk commodities or motor fuel kept, offered or exposed for sale, stop-use and hold orders with respect to a vapor recovery system or parts of a vapor recovery system and stop-use, stop-sale, hold and removal orders with respect to any motor fuel found to be in violation of this chapter or rules adopted pursuant to this chapter.
3. Seize for use as evidence, without formal warrant, any incorrect or unapproved weight, measure, package or commodity found to be used, retained, offered or exposed for sale or sold in violation of this chapter or rules adopted pursuant to this chapter.
4. Stop any commercial vehicle on reasonable cause to believe that the vehicle contains evidence of a violation of this chapter and, after presentment of the credentials of the associate director or the associate director's agents or inspectors, inspect the contents, require that the person in charge of the vehicle produce any documents in the person's possession concerning the contents and require the person to proceed with the vehicle to some specified place for inspection.

B. With respect to the enforcement of this chapter, the associate director or the associate director's agents or inspectors may issue a warning requiring corrective action or a citation to any violators of this chapter in accordance with section 13-3903.

C. The associate director or the associate director's agents or inspectors may apply for a special inspection warrant for inspection of real or personal property for the purpose of enforcement of this chapter. The special inspection warrant shall be issued as provided in section 49-433.

3-3416. State metrology laboratory; operation; standards; testing

- A. The associate director shall establish and operate within the division the state metrology laboratory.
- B. A commercial device shall not be approved for use in the state unless the design and construction comply with national institute of standards and technology requirements.
- C. All commercial devices approved and certified shall meet the tolerance, design and construction requirements prescribed by the national institute of standards and technology.
- D. All commercial devices that are determined unfit for approval shall be rejected without testing.
- E. All weights, weight sets, measures, meters, counters or other devices that are used by registered service representatives shall show an indication of the approval date and jurisdiction issuing the approval.
- F. All persons who install, service or repair commercial devices in this state shall submit the test equipment used to the division's metrology laboratory for approval at least annually. A certificate of approval that specifically identifies the test equipment and that is issued by another state laboratory may be accepted in lieu of submitting equipment if the other state laboratory is certified by the national institute of standards and technology.
- G. All weights, measures, meters, counters or other devices shall be tested in the order they are scheduled in the laboratory unless arrangements for testing have been made in advance.
- H. Work that is completed in the metrology laboratory shall be paid for pursuant to the fees prescribed in the rules of the division.

### 3-3431. Sale of commodities

- A. A person shall not sell or offer or expose for sale less than the quantity the person represents.
- B. As a buyer, a person shall not take any more than the quantity the person represents when the person furnishes the weight or measure by means of which the quantity is determined.
- C. A person shall not misrepresent the price of any commodity or service sold or offered, exposed or advertised for sale by weight, measure or count or represent the price in any manner calculated or tending to mislead or in any way deceive a person.
- D. Except as otherwise provided by the associate director, commodities in liquid form shall be sold by liquid measure or by weight, and commodities not in liquid form shall be sold only by weight, by measure or by count, as long as the method of sale provides accurate quantity information.
- E. If the quantity is determined by the seller, bulk sales shall be accompanied by a delivery ticket containing the following information unless exempted by rule:
1. The name and address of the vendor and purchaser.
  2. The date delivered.
  3. The quantity delivered and the quantity on which the price is based, if this differs from the delivered quantity.
  4. The identity in the most descriptive terms commercially practicable, including any quality representation made in connection with the sale.
  5. The count of individually wrapped packages, if more than one.
- F. Except as otherwise provided in this chapter or by rules adopted pursuant to this chapter, any package kept for the purpose of sale or offered or exposed for sale shall bear on the outside of the package a definite, plain and conspicuous declaration of:
1. The identity of the commodity in the package, unless the commodity can easily be identified through the wrapper or container.
  2. The quantity of contents in terms of weight, measure or count.
  3. The name and place of business of the manufacturer, packer or distributor, in the case of any package kept, offered or exposed for sale or sold in any place other than on the premises where packed.
  4. The price, except as provided in subsections L, M and N of this section.
- G. In addition to the declarations required by subsection F of this section, any package being one of a lot containing random weights of the same commodity and bearing the total selling price of the package shall bear on the outside of the package a plain and conspicuous declaration of the price per single unit of weight.

H. If a packaged commodity is advertised in any manner with the retail price stated, there shall be closely and conspicuously associated with the retail price a declaration of quantity as is required by law or rule to appear on the package. If a dual declaration is required, only the declaration that sets forth the quantity in terms of the smaller unit of weight or measure need appear in the advertisement.

I. The packager of a short weighted item offered for sale is liable under this chapter.

J. If a retail seller engaging in the sale of motor fuel posts the selling price of the fuel on the premises, the seller shall post the selling price only by the price per gallon, except that if the fuel is dispensed by a measure other than whole gallons the seller shall represent the selling price for each unit of such other measure on the individual pump or other dispensing device. If a retail seller engaging in the sale of motor fuel advertises the price of the fuel off the premises, the retail seller shall advertise the price only by the price per gallon.

K. The owner or operator of a motor fuel dispensing site shall ensure that a sticker provided by the department of transportation that is three inches by five inches and that depicts the amount of federal and state taxes imposed on one gallon of gasoline is displayed on one side of each motor fuel dispenser. The sticker required by this subsection shall contain white lettering on a black background or black lettering on a white background to ensure a contrasting color to the motor fuel dispenser and shall be placed on the upper sixty percent of the dispenser. The division shall use stickers provided by the department of transportation. A template of the sticker shall be placed on the division's website for use by retailers.

L. Instead of each package bearing the price as required under subsection F, paragraph 4 of this section, the seller may post the price of the package on the shelf or may display the price at or near the point of display of the product.

M. Instead of each package bearing the price as required under subsection F, paragraph 4 of this section, if the package is available for sale only with the assistance of a salesperson, the seller may display the package at a service counter staffed by the salesperson.

N. Instead of each package bearing the price as required under subsection F, paragraph 4 of this section, if the package is offered for sale at a price reduced by a percentage or a fixed amount from a previously offered price or at a reduced price for the purchase of multiple items, the reduction shall be displayed at the point of display of the package or near the point of display of the package in the manner required by this section.

O. On the request of a consumer, a retail seller shall provide:

1. A means of recording prices such as grease pencils, felt markers, scanners or other similar instruments for recording the price.
2. A written statement of the retail seller's policies regarding errors in pricing.

### 3-3433. Standards for motor fuel; exceptions

A. Except as provided in section 3-3434 and subsections C, D, E, F, G and K of this section, a retail seller or fleet owner shall not store, sell or expose or offer for sale any motor fuel, kerosene, oil or other liquid or gaseous fuel or lubricating oil, lubricant, mixtures of lubricants or other similar products if the product fails to meet the standards specified in this section and in the rules adopted by the associate director.

B. A person shall not misrepresent the nature, origination, quality, grade or identity of any product specified in subsection A of this section or represent the nature, origination, quality, grade or identity of such product in any manner calculated or tending to mislead or in any way deceive. This subsection does not prohibit product origination disclaimer labeling on the retail dispenser.

C. After consultation with the director of the department of environmental quality, the standards and test methods for motor fuels shall be established by the associate director of the division by rule.

D. Maximum vapor pressure for gasoline that is supplied or sold by any person and that is intended as a final product for the fueling of motor vehicles in a county with a population of one million two hundred thousand or more persons and any portion of a county contained in area A shall be 9.0 pounds per square inch from and after September 30 through March 31 of each year. Fuel used in motor vehicles at a manufacturer's proving ground or a motor vehicle racing event is exempt from this subsection.

E. From and after September 30 through March 31 of each year, a person shall not supply or sell gasoline that exceeds the ASTM D4814 class A vapor pressure/distillation class ten volume percent evaporated distillation temperature.

F. Maximum vapor pressure for gasoline that is supplied or sold by any person and that is intended as a final product for the fueling of motor vehicles in a county with a population of one million two hundred thousand persons or more and any portion of a county contained in area A shall be 7.0 pounds per square inch from and after May 31 through September 30 of each year. Fuel used in motor vehicles at a manufacturer's proving ground or a motor vehicle racing event is exempt from this subsection.

G. Exclusively for the purposes of transportation conformity and only if the administrator of the United States environmental protection agency fails to approve the applicable plan required pursuant to section 49-406, maximum vapor pressure for gasoline that is supplied or sold by any person and that is intended as a final product for the fueling of motor vehicles in area B shall be ten pounds per square inch from and after September 30 through March 31 of each year. Fuel used in motor vehicles at a manufacturer's proving ground or a motor vehicle racing event is exempt from this subsection.

H. Notwithstanding subsections D, F and G of this section, the associate director of the division in consultation with the director of the department of environmental quality shall approve alternate fuel control measures that are submitted by gasoline providers and that the director and the associate director determine will result in either of the following:

1. Motor vehicle carbon monoxide emissions that are equal to or less than emissions that result under compliance with subsection D of this section and section 3-3492. In making this determination, the associate director of the division and the director of the department of environmental quality shall compare the emissions of the alternate fuel control measure with the emissions of a fuel with a maximum vapor pressure standard as prescribed by this section and with the minimum oxygen content or percentage by volume of ethanol as prescribed by section 3-3492.

2. Motor vehicle non-methane hydrocarbon emissions that are equal to or less than the emissions that result under compliance with subsection F of this section. In making this determination, the associate director of the division and the director of the department of environmental quality shall compare the motor vehicle non-methane hydrocarbon emissions of the alternate fuel control measure with the motor vehicle non-methane hydrocarbon emissions of a fuel that complies with the maximum vapor pressure standard as prescribed by subsection F of this section.

I. Any alternate fuel control measures that are approved shall not increase emissions of non-methane hydrocarbons, particulates, carbon monoxide or oxides of nitrogen. Alternate fuel control measures approved pursuant to subsection H of this section and this subsection may be used by any gasoline provider unless the approval is rescinded more than one hundred eighty days before the first day of a gasoline control period. Gasoline providers that use an approved alternate fuel control measure shall annually submit a compliance plan to the associate director no later than sixty days before the first day of a gasoline control period.

J. A person shall not sell or offer or expose for sale diesel fuel grade 1, 2 or 4 as defined in ASTM D975, biodiesel, biodiesel blends or biomass-based diesel or biomass-based diesel blends that contain sulfur in excess of fifteen parts per million. Locomotive and marine diesel fuel is exempt from this requirement if the fuel meets the requirements of 40 Code of Federal Regulations section 80.513(g) and (h).

K. A person shall label dispensers at which biodiesel, biodiesel blends, biomass-based diesel or biomass-based diesel blends are dispensed in conformance with 16 Code of Federal Regulations part 306. This section does not preclude a person from labeling a dispenser that dispenses diesel fuel that contains up to five percent biodiesel or biomass-based diesel with a label that states "may contain up to five percent biodiesel" or "may contain up to five percent biomass-based diesel".

L. For biodiesel blends that contain more than five percent by volume of biodiesel, a person shall prepare product transfer documents in a manner that notifies the transferee of the percent by volume of biodiesel in the product.

M. The associate director shall adopt rules regarding the establishment and enforcement of all of the following:

1. National or federal standards for individual biofuels and biofuel blends.
2. United States environmental protection agency and ASTM test methods for individual biofuels and biofuel blends.
3. Registration and reporting requirements for producers, blenders and suppliers of biofuels and biofuel blends.
4. Labeling requirements for biofuels and biofuel blends other than biodiesel or biodiesel blends.
5. Quality assurance and quality control programs for producers, blenders and suppliers of biofuels and biofuel blends addressing rack, batch or other blending.
6. Requirements that the dispensing equipment meet appropriate UL ratings where available and applicable, that the equipment comply with rules adopted by the division relating to approval, installation and sale of devices and that the equipment be compatible with the products being dispensed.

N. A biofuels or biofuel blends producer, blender, distributor, supplier or retail seller that is in compliance with this section and the rules adopted pursuant to this section is not liable to a consumer for any injuries or property damage related to a consumer who misfuels.

O. If any person transfers custody or title of a diesel fuel or distillate, biodiesel, a biodiesel blend, biomass-based diesel or a biomass-based diesel blend, except if the fuel is dispensed into a motor vehicle or nonroad, locomotive or marine equipment, the transferor shall provide to the transferee product transfer documents that conform with 40 Code of Federal Regulations section 80.590.

P. If the transfer of a motor fuel is from a terminal, storage facility, or transmix facility, the product transfer documents shall contain the information prescribed in subsection O of this section. In addition, the fuel transporter shall ensure that the name and address of the final destination for the shipment, as prescribed by division rule, are included and that the product transfer documents accompany the shipment to its final destination.

### 3-3434. Area C; standards for motor fuel; exceptions

- A. Except as provided in subsections C and D of this section, after May 31, 2008, a retail seller or fleet owner shall not store, sell or expose or offer for sale in area C any motor fuel, kerosene, oil or other liquid or gaseous fuel or lubricating oil, lubricant, mixtures of lubricants or other similar products if the product fails to meet the standards specified in this section and in the rules adopted by the associate director.
- B. A person shall not misrepresent the nature, origination, quality, grade or identity of any product specified in subsection A of this section or represent the nature, origination, quality, grade or identity of such product in any manner calculated or tending to mislead or in any way deceive.
- C. After consultation with the director of the department of environmental quality, the standards and test methods for motor fuels shall be established by the associate director of the division by rule.
- D. Maximum vapor pressure for gasoline that is supplied or sold by any person and that is intended as a final product for the fueling of motor vehicles in area C shall be 7.0 pounds per square inch from and after May 31 through September 30 of each year. Fuel used in motor vehicles at a manufacturer's proving ground or a motor vehicle racing event is exempt from this subsection.
- E. The associate director of the division in consultation with the director of the department of environmental quality shall approve alternate fuel control measures that are submitted by gasoline providers and that the director and associate director determine will result in motor vehicle non-methane hydrocarbon emissions that are equal to or less than the emissions that result under compliance with subsection D of this section. In making this determination, the associate director of the division and the director of the department of environmental quality shall compare the motor vehicle non-methane hydrocarbon emissions of the alternate fuel control measure with the motor vehicle non-methane hydrocarbon emissions of a fuel that complies with the maximum vapor pressure standard as prescribed by subsection D of this section.
- F. Any alternate fuel control measures that are approved shall not increase emissions of non-methane hydrocarbons, particulates, carbon monoxide or oxides of nitrogen. Alternate fuel control measures approved pursuant to subsection E of this section and this subsection may be used by any gasoline provider unless the approval is rescinded more than one hundred eighty days before the first day of a gasoline control period. Gasoline providers that use an approved alternate fuel control measure shall annually submit a compliance plan to the associate director no later than sixty days before the first day of a gasoline control period.

3-3452. Licensing fees; proration; cancellation for nonpayment

A. The following fees shall be paid to the division as license fees for devices used for commercial purposes:

Schedules of Fees

1. Weighing devices:

0 - 500 pounds capacity (or metric equivalent) \$ 12.00

501 - 2,000 pounds capacity 18.00

2,001 - 7,500 pounds capacity 36.00

7,501 - 20,000 pounds capacity 80.00

20,001 - 60,000 pounds capacity 120.00

60,001 pounds capacity and over 180.00

2. Liquid metering devices (meters) other than

|||||for liquid petroleum gas and utility meters:

maximum 12 gallons per minute and under 12.00

maximum 13 - 150 gallons per minute 36.00

maximum 151 - 500 gallons per minute 90.00

maximum 501 - 1,000 gallons per minute 138.00

maximum 1,001 gallons per minute and over 168.00

3. Motor fuel devices (dispensers) other than

|||||for liquid petroleum gas (not including

|||||satellite hoses or nozzles):

Standard Vapor Recovery Test

each meter 15.00 30.00

each blending valve 15.00 30.00

high volume (over 19 gallons per minute)

diesel per hose and nozzle 15.00

keylock, limited access, with accumulators,

per hose and nozzle 22.50

remote indicator and control unit (no hoses

or nozzles) (accessory only) 22.50

#### 4. Liquid measuring devices for liquid petroleum

|||||gas (meters):

small bottle fill measuring devices 24.00

motor fuel measuring devices, uncompensated 24.00

motor fuel measuring devices, temperature

compensating, including compressed natural

gas filling devices 48.00

motor fuel measuring devices, keylocks 48.00

3/4" and 1" meters, uncompensated 48.00

1 1/4", 1 1/2" and 1 3/4" meters, uncompensated 72.00

2" meters and larger, uncompensated 72.00

3/4" and 1" meters, temperature compensating 54.00

1 1/4", 1 1/2" and 1 3/4" meters, temperature

compensating 90.00

2" meters and larger, temperature compensating 96.00

5. Linear measuring devices:

|||||||all linear measuring mechanical devices 24.00

6. Time measuring devices:

|||||||all time measuring mechanical, electrical and

||||||| electronic devices 24.00

7. Counting devices:

all mechanical and electronic counting devices 12.00

B. Testing, inspection, certification and calibration fees shall be paid pursuant to the fee schedule set forth in subsection A of this section or the rules of the division. The division shall waive license fees for customer parking time measuring meters owned by municipalities.

C. Issuance or renewal of license as:

1. Public weighmaster 48.00

2. Registered service agency 24.00

3. Registered service representative 4.80

D. The fees set forth in this section are the maximum amounts that may be charged, but the associate director, at the associate director's discretion, may reduce the fees to any amount the associate director deems necessary.

E. The associate director may prorate the fees set forth in this section for partial-year application.

F. If a person fails to pay a license, permit or certification fee on or before the date the fee is due, the division shall impose a penalty equal to twenty percent of the fee. For each thirty-day period after the date the fee is due, the division shall impose an additional penalty equal to twenty percent of the fee. If a person fails to pay a license, permit or certification fee and all related penalties for ninety days after the fee is due, the division shall cancel the license, permit or certification.

3-3453. License as public weighmaster or deputy weighmaster required; application; fee; renewal; training; exemptions

A. A person shall not serve as a public weighmaster or deputy weighmaster unless the person is issued a public weighmaster or deputy weighmaster license by the division in accordance with practices and procedures to be established by the associate director. An applicant for a public weighmaster or deputy weighmaster license shall:

1. Demonstrate a thorough knowledge of all appropriate weights and measures laws, rules and policies.
2. Have possession of, or have available for use, a scale that is of sufficient capacity and size and that is licensed and certified pursuant to section 3-3451.
3. Demonstrate the necessary experience and training to operate the scale.
4. Pass the required examination administered by the division. The associate director may waive the examination required by this paragraph.

B. An application for a public weighmaster or deputy weighmaster license shall be submitted to the division on a form prescribed and furnished by the division and shall be accompanied by the license fee prescribed in section 3-3452. The division shall issue a public weighmaster or deputy weighmaster license for a period of twelve calendar months. The license expires on the first day of the month and year indicated on the license. A public weighmaster or deputy weighmaster license shall be posted at the licensed scale site in a manner that provides the division access to the license during normal business hours.

C. If a licensee submits a license renewal application to the division before the date of expiration of the current license together with the renewal fee prescribed by the division, the existing license shall be valid for thirty days following its expiration date, or until issuance of the renewal license, whichever occurs first.

D. A public weighmaster shall provide the necessary training for any deputy weighmaster using the public weighmaster's seal to certify weigh tickets.

E. Except as otherwise provided in subsection G of this section, the certified weighing of any property, livestock or commodity shall be performed only by a public weighmaster or deputy weighmaster. The following persons are not required to obtain licenses as public weighmasters or deputy weighmasters:

1. A person weighing property, livestock or a commodity that the person or the person's employer is either buying or selling for the own account of the person or the person's employer.
2. A person weighing property, livestock or a commodity in conjunction with or on behalf of a publicly sponsored or nonprofit organization sponsored exposition, fair or show event.

F. The official weighing of vehicles or conveyances by any employee of a city, county or state agency for weight-control regulatory purposes on public highways, roads or streets does not constitute public weighing.

G. On request and without charge, the division may issue a limited weighmaster license to any qualified officer or employee of a city, a county or the state authorizing the officer or employee to act as a public weighmaster only within the scope of the officer's or employee's official employment and

duties in enforcing local ordinances substantially complying with the requirements of this chapter. While performing the duties of a limited weighmaster, a limited weighmaster shall have the limited weighmaster's license in the limited weighmaster's possession.

H. The division shall approve all forms, certificates, seals and other documents together with practices, procedures and equipment used by public weighmasters or deputy weighmasters in the performance of their duties. A public weighmaster or deputy weighmaster shall keep for such a period as the division by rule may require a legible copy of each weight certificate the public weighmaster or deputy weighmaster issues. Copies of weight certificates shall be available at all reasonable times for inspection by the division.

3-3454. License required as registered service agency or registered service representative; qualifications; application; fees; renewal

A. A person shall not operate as a registered service agency or as a registered service representative until a license is issued as provided in this section.

B. An applicant for a registered service agency license shall:

1. Submit application information satisfactory to the division.
2. Comply with section 3-3416, subsection E or provide evidence that the applicant's vapor recovery test equipment has been certified by the manufacturer of the equipment within one year of the date of the application or as deemed appropriate by the division.
3. Pay all required fees.

C. An applicant for a registered service representative license shall:

1. Demonstrate a thorough working knowledge of all appropriate weights and measures laws, orders and rules.
2. Demonstrate to the division that the applicant has possession of, or has available for use, weights and testing equipment appropriate in design and adequate in amount.
3. Demonstrate the necessary knowledge, training and experience regarding appropriate standards and testing equipment to service commercial devices, vapor recovery systems or vapor recovery components.
4. Pass the required examination administered by the division.
5. Pay all required fees.

D. An application for a registered service agency or registered service representative license shall be submitted by the applicant to the division on a form prescribed and furnished by the division. The division shall issue a registered service agency or registered service representative license for a period of twelve calendar months. The license expires on the first day of the month and year indicated on the license. Each license shall contain, among other information, a license number. A registered service agency license shall be posted at the licensed business location in a manner that provides the division with access to the license during normal business hours. While performing the duties of a registered service representative, a registered service representative shall have the registered service representative's license in the registered service representative's possession.

E. If a licensee submits a license renewal application to the division before the date of expiration of the current license, together with the prescribed renewal fee, the existing license is valid for thirty days following its expiration date or until issuance of the renewal license, whichever occurs first.

F. The associate director shall publish, from time to time as the associate director deems appropriate, and may supply on request lists of registered service representatives and registered service agencies.

G. Each registered service representative license issued by the division shall indicate the type of service approved by the division for the licensee.

H. A registered service agency shall use forms and related procedures prescribed by the division in the performance of its duties. A registered service agency shall keep a legible copy of each form used for at least the time period prescribed by the division in its rules. Copies of the forms shall be available during normal business hours for inspection by the division.

3-3471. Registered service representative; powers; violation; classification

A. When any commercial device specified in this chapter is in commercial use and a valid license for the device has not been procured by the owner, the owner's agent or the operator of the device, the division, after giving notice of the licensing requirements to the owner, the owner's agent or the operator, shall prohibit the further commercial use of the unlicensed device until the proper license has been issued. The division may employ and attach to the device such forms, notices or security seals as it considers necessary to prevent the continued unauthorized use of the device.

B. A registered service representative may:

1. With approval of the division, remove an official rejection tag placed on a commercial device, vapor recovery system or vapor recovery component.
2. Place in service, until such time as an official examination can be made, a commercial device, vapor recovery system or vapor recovery component that has been officially rejected or placed out of service.
3. Place in service, until such time as an official examination can be made, a commercial device for which a commercial device application has been completed and submitted to the division.

C. The owner of any business who has not applied for and has not been issued a license for the right to do business, involving the use of a commercial device, by the division and who is found selling or offering for sale or delivering or distributing to a consumer is guilty of a class 2 misdemeanor, and the division shall confiscate and seize the commercial device or any vehicle tank, or vehicle tank and meter, or any other such measuring device used by the business for the sale, delivery or distribution as evidence.

D. The associate director and any other authorized personnel shall not be liable to the owner or any other persons, firms, partnerships, corporations, trusts or agencies for damages, directly or indirectly, caused by or resulting from the seizure.

E. If a commercial device licensed pursuant to this chapter is used contrary to any provision of this chapter or any rule adopted pursuant to this chapter, the division, in addition to any other penalty imposed by this chapter, shall suspend, revoke or refuse to renew the license.

3-3472. Revocation or suspension of licenses; procedure; judicial review

- A. Except as otherwise provided by this section, any proceeding to revoke or suspend a license issued pursuant to this chapter shall be conducted in accordance with title 41, chapter 6, article 10.
- B. The associate director may initiate proceedings for revocation or suspension of a license issued pursuant to this chapter on the associate director's own motion or on a verified complaint for noncompliance with or a violation of this chapter or of any rule adopted pursuant to this chapter.
- C. If, after having been served with the notice of hearing as provided for in title 41, chapter 6, article 10, the licensee fails to appear at the hearing and defend, the division shall proceed to hear evidence against the licensee and shall enter such order as is justified by the evidence, which order shall be final unless the licensee petitions for a review as provided in title 41, chapter 6, article 10.
- D. At all hearings the attorney general of this state, one of the attorney general's assistants, or a special assistant designated by the attorney general shall appear and represent the division.
- E. Except as provided in section 41-1092.08, subsection H, any final administrative decision made pursuant to this chapter is subject to judicial review pursuant to title 12, chapter 7, article 6.

### 3-3473. Violations; classification; jurisdiction

#### A. A person is guilty of a class 1 misdemeanor who:

1. Knowingly hinders, interferes with or obstructs in any way the associate director or any of the associate director's agents or inspectors in entering the premises where a commercial device may be kept for inspecting or testing or in the performance of the official duties of the associate director or the associate director's agent or inspector.
2. Impersonates in any way the associate director or any one of the associate director's agents or inspectors by the use of the associate director's seal or badge or a counterfeit of the associate director's seal or badge, or in any other manner.
3. Uses, or possesses for the purpose of using for any commercial purpose, sells, offers or exposes for sale or hire, or possesses for the purpose of selling or hiring an incorrect weight or measure or any device or instrument used or calculated to falsify any weight or measure.
4. Sells, or offers or exposes for sale, less than the quantity the person represents of any commodity, thing or service.
5. Takes more than the quantity the person represents of any commodity, thing or service, when, as buyer, the person furnishes the weight or measure by means of which the amount of the commodity, thing or service is determined.

#### B. A person is guilty of a class 2 misdemeanor who:

1. Uses, or possesses for the purpose of current use for any commercial purpose, a weight or measure that does not bear a seal or mark of approval based on inspection and test as provided in section 3-3414, subsection A, paragraph 11, unless the weight or measure has been exempted from testing by order of the division, or unless the device has been placed in service as provided in this chapter. Any person or persons making use of a commercial device that is subject to this chapter shall report to the associate director or the associate director's representatives, in writing, the number and location of the commercial device and shall promptly report the installation of any new commercial device.
2. Disposes of any rejected or condemned weight or measure in a manner contrary to law or rule.
3. Removes from any weight or measure, contrary to law or rule, any tag, seal or mark placed on the weight or measure by the appropriate authority pursuant to this chapter.
4. Keeps for the purpose of selling, advertising or offering or exposing for sale or sells any commodity, thing or service in a condition or manner contrary to law or rule.
5. Uses in retail trade, except in the preparation of packages put up in advance of sale and of medical prescriptions, a weight or measure that is so positioned that its indications may not be accurately read and the weighing, metering, measuring or counting operation observed from some position that may reasonably be assumed by a customer.
6. Violates this chapter or rules adopted under this chapter. A continuing violation may be deemed to be a separate violation each day during which the violation is committed for the purpose of imposing a fine.

C. The provisions of this section are in addition to and not in limitation of any other provision of law.

D. The attorney general and the county attorney shall have concurrent jurisdiction to prosecute violations of this chapter.

### 3-3475. Civil penalties; hearing

A. A person who violates this chapter, any rule of the division or any license requirement is subject to a civil penalty imposed by the associate director.

B. A person who violates this chapter, any rule of the division or any license requirement may request an informal or formal hearing to review a civil penalty imposed under this section. If the person requests an informal hearing, the division may conduct the informal hearing, in person or telephonically, to resolve a warning or citation. If the person requests a formal hearing or the warning or citation is not resolved in the informal hearing, the division shall conduct a formal hearing in accordance with title 41, chapter 6, article 10. Except as prescribed in subsection C of this section, the civil penalty shall not exceed one thousand dollars for each infraction nor more than ten thousand dollars for any thirty-day period at each business location, for each registered service representative or for each public weighmaster, provided that no person shall be assessed more than fifty thousand dollars per thirty-day period.

C. The associate director may double the maximum civil penalty if any of the following applies:

1. A commercial device is found to be in violation with results that favor the retailer at more than twice the allowable tolerance as stated in national institute of standards and technology handbook 44.
2. A package is found to exceed the maximum allowable variation for the labeled quantity allowed in national institute of standards and technology handbook 133 or the average error of the lot is twice the sample error limit in favor of the retailer.
3. A vapor recovery system reinspection fails the required tests.
4. A maximum civil penalty has been imposed on a retailer for a price posting or price verification violation and in a reinspection, if conducted within ninety days, the failure rate is ten percent or more and at least one error is in favor of the retailer.
5. A maximum civil penalty has been imposed on a refiner, refinery, pipeline, terminal, fuel transporter, registered supplier or transmix processing facility for a violation of motor fuel quality standards or producing a product transfer document that is incorrect, incomplete or produced in any manner tending to mislead or deceive a person.

D. The attorney general shall bring actions to recover civil penalties pursuant to this section in the superior court in the county in which the violation occurred or in a county where the agency has its office. All monies derived from civil penalties shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

### 3-3491. Standards for oxygenated fuel; volatility; exceptions

A. From and after September 30 through March 31 of each year, in a county with a population of one million two hundred thousand or more persons and in any portion of a county contained in area A, blends of gasoline with ethanol shall not exceed the volatility requirements prescribed by section 3-3433 and rules adopted by the associate director under that section. From and after September 30 through March 31 of each year, in area B, blends of gasoline with ethanol may exceed the volatility requirements prescribed by section 3-3433 and rules adopted by the associate director under that section by up to one pound per square inch if the base fuel meets the requirements of ASTM D4814 and the final gasoline-ethanol blend contains at least six percent ethanol by volume but does not exceed United States environmental protection agency waivers. For any other locations and period of time, blends of gasoline with ethanol shall meet the volatility requirements as determined by division rule.

B. Notwithstanding subsection D of this section, the associate director of the division in consultation with the director of the department of environmental quality shall approve alternate fuel control measures that are submitted by gasoline providers and that the director and the associate director determine will result in motor vehicle carbon monoxide emission reductions that will equal or exceed the reductions that result under subsection D of this section. In making those determinations, the director of the department of environmental quality and the associate director shall compare the alternative measure against the emission reduction that would be obtained from a fuel with the maximum vapor pressure standard prescribed by subsection D of this section and the minimum oxygen standard prescribed by section 3-3492 or 3-3495. Alternative fuel control measures approved by the associate director of the division in consultation with the director of the department of environmental quality may be used by any gasoline provider unless the approval is rescinded by the associate director of the division at least one hundred eighty days before the beginning of any oxygenate period in the future. Gasoline providers that choose to use an approved alternate fuel control measure shall annually submit a compliance plan to the associate director not later than sixty days before the start of the oxygenate period.

C. From and after September 30 through March 31 of each year, all blends of gasoline with alcohol other than ethanol shall satisfy all of the requirements prescribed by section 3-3433 and rules adopted by the associate director under that section and the provisions of a waiver issued by the United States environmental protection agency pursuant to 42 United States Code section 7545(f).

D. Notwithstanding subsection A of this section, if the director of the department of environmental quality has previously raised the minimum oxygen content to the maximum percentage of oxygen allowed for each oxygenate as provided by section 3-3495, the designated air quality planning agency for area B has considered, analyzed and reviewed the costs and benefits of all other reasonable and available control measures in lieu of reducing volatility requirements to nine pounds per square inch and the director of the department of environmental quality finds that area B has failed to maintain the carbon monoxide national ambient air quality standards by violating the standard, beginning with the oxygenate period beginning on the following September 30 and for each oxygenate period thereafter in area B, the volatility requirements described by section 3-3433, subsection G may be reduced to nine pounds per square inch. If a violation of the carbon monoxide national ambient air quality standards is recorded after the volatility requirements have been reduced to nine pounds per square inch, the director of the department of environmental quality shall remove the one pound per square inch waiver for gasoline-ethanol blends.

E. Gasoline that is supplied or sold by any person and that is intended as a final product for the fueling of motor vehicles within this state shall not contain the following:

1. Methyl tertiary butyl ether that exceeds 0.3 percent by volume.
2. A total of more than 0.10 percent oxygen by weight collectively from all of the following oxygenates:

- (a) Diisopropylether (DIPE).
- (b) Ethyl tert-butylether (ETBE).
- (c) Isopropanol.
- (d) Methanol.
- (e) N-butanol.
- (f) N-propanol.
- (g) Sec-butanol.
- (h) Tert-amylmethylether (TAME).
- (i) Tert-butanol.
- (j) Tert-pentanol (tert-amylalcohol).

F. Subsection E of this section does not prohibit the transshipment through this state, including storage incident to that transshipment, of gasoline that contains the oxygenates prescribed by subsection E of this section if both of the following apply:

1. The gasoline is used or disposed outside this state.
2. The gasoline is segregated from gasoline that is intended for use inside this state.

### 3-3493. Area A; fuel reformulation; rules

(L16, Ch. 232, sec. 27)

A. All gasoline produced and shipped to or within this state and sold or offered for sale for use in motor vehicles in a county with a population of one million two hundred thousand or more persons and any portion of a county contained in area A, subject to an appropriate waiver granted by the administrator of the United States environmental protection agency pursuant to section 211(c)(4) of the clean air act as defined in section 49-401.01, shall comply with either of the following fuel reformulation options:

1. A gasoline that meets standards for federal phase II reformulated gasoline, as provided in 40 Code of Federal Regulations section 80.41, paragraphs (e) through (h), in effect on January 1, 1999, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3433, subsections D and F.
2. California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3433, subsections D and F.

B. For the period beginning November 1 through March 31 of each year, all gasoline produced and shipped to or within this state and sold or offered for sale for use in motor vehicles in a county with a population of one million two hundred thousand or more persons and any portion of a county contained in area A, subject to an appropriate waiver granted by the administrator of the United States environmental protection agency pursuant to section 211(c)(4) of the clean air act as defined in section 49-401.01, shall comply with standards for California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997 and shall meet the maximum vapor pressure requirements in section 3-3433, subsections D and F. The fuel described in this subsection shall meet the requirements of section 3-3492, subsection A, paragraph 1.

C. Any registered supplier or oxygenate blender, as defined in division rules, may petition the associate director to request that all registered suppliers or oxygenate blenders be allowed to comply with standards other than the standards prescribed by section 3-3492, subsection A if the petitioner can demonstrate that ethanol supply shortages are imminent.

D. The petition shall:

1. Identify specific supply conditions that will result in a shortage of ethanol.
2. Identify which oxygenate or oxygenates and the concentration that will be blended into gasoline for sale or use in area A.
3. Demonstrate that the alternative oxygenate blend comes closest to meeting a three and one-half percent by weight oxygen content at reasonable cost, unless the registered supplier or oxygenate blender is petitioning to use a gasoline-ethanol blend containing less than ten percent by volume of

ethanol.

4. Specify a time period for compliance with any provision of section 3-3492, subsection A, not to exceed sixty days.

E. The associate director shall either grant or deny the petition in writing within seven days of its receipt. Any decision by the associate director to grant the petition shall be equally applicable to all registered suppliers or oxygenate blenders and shall not be selectively applied to any single registered supplier or oxygenate blender. The petition may be granted only if the associate director verifies that the basis for requesting the petition is factual.

F. The associate director may reauthorize a petition if the petitioner can demonstrate that the conditions have continued. The reauthorization of a petition shall not exceed thirty days.

G. The associate director of the division shall consult with the director of the department of environmental quality before granting, reauthorizing or denying any such petition.

H. The director of environmental quality in consultation with the associate director of the division shall adopt by rule:

1. Requirements to implement subsections A, B, C and D of this section.

2. Requirements for recordkeeping, reporting and analytical methods for fuel providers to demonstrate compliance with subsections A, B, C and D of this section.

I. This section does not apply to fuel sold for use at a motor vehicle manufacturer proving ground or at a motor vehicle racing event.

### 3-3493. Area A; fuel reformulation; rules

(L17, Ch. 295, sec. 2. Conditionally Eff.)

A. All gasoline produced and shipped to or within this state and sold or offered for sale for use in motor vehicles in a county with a population of one million two hundred thousand or more persons and any portion of a county contained in area A, subject to an appropriate waiver granted by the administrator of the United States environmental protection agency pursuant to section 211(c)(4) of the clean air act as defined in section 49-401.01, shall comply with either of the following fuel reformulation options:

1. A gasoline that meets standards for federal phase II reformulated gasoline, as provided in 40 Code of Federal Regulations section 80.41, paragraphs (e) through (h), in effect on January 1, 1999, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3433, subsections D and F.
2. California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3433, subsections D and F.

B. For the period beginning November 1 through March 31 of each year, all gasoline produced and shipped to or within this state and sold or offered for sale for use in motor vehicles in a county with a population of one million two hundred thousand or more persons and any portion of a county contained in area A, subject to an appropriate waiver granted by the administrator of the United States environmental protection agency pursuant to section 211(c)(4) of the clean air act as defined in section 49-401.01, shall comply with standards for California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997 and shall meet the maximum vapor pressure requirements in section 3-3433, subsections D and F. The fuel described in this subsection shall meet the requirements of section 3-3492, subsection A, paragraph 1 or 2.

C. Any registered supplier or oxygenate blender, as defined in division rules, may petition the associate director to request that all registered suppliers or oxygenate blenders be allowed to comply with standards other than the standards prescribed by section 3-3492, subsection A if the petitioner can demonstrate that ethanol supply shortages are imminent.

D. The petition shall:

1. Identify specific supply conditions that will result in a shortage of ethanol.
2. Identify which oxygenate or oxygenates and the concentration that will be blended into gasoline for sale or use in area A.

3. Demonstrate that the alternative oxygenate blend comes closest to meeting a three and one-half percent by weight oxygen content at reasonable cost, unless the registered supplier or oxygenate blender is petitioning to use a gasoline-ethanol blend containing less than ten percent by volume of ethanol.
  4. Specify a time period for compliance with any provision of section 3-3492, subsection A, not to exceed sixty days.
- E. The associate director shall either grant or deny the petition in writing within seven days of its receipt. Any decision by the associate director to grant the petition shall be equally applicable to all registered suppliers or oxygenate blenders and shall not be selectively applied to any single registered supplier or oxygenate blender. The petition may be granted only if the associate director verifies that the basis for requesting the petition is factual.
- F. The associate director may reauthorize a petition if the petitioner can demonstrate that the conditions have continued. The reauthorization of a petition shall not exceed thirty days.
- G. The associate director of the division shall consult with the director of the department of environmental quality before granting, reauthorizing or denying any such petition.
- H. The director of environmental quality in consultation with the associate director of the division shall adopt by rule:
1. Requirements to implement subsections A, B, C and D of this section.
  2. Requirements for recordkeeping, reporting and analytical methods for fuel providers to demonstrate compliance with subsections A, B, C and D of this section.
- I. This section does not apply to fuel sold for use at a motor vehicle manufacturer proving ground or at a motor vehicle racing event.

### 3-3494. Area C; fuel reformulation; rules

A. From and after May 31 through September 30 of each year, all gasoline produced and shipped to or within this state and sold or offered for sale for use in motor vehicles in area C shall comply with either of the following fuel reformulation options:

1. A gasoline that meets standards for federal phase II reformulated gasoline, as provided in 40 Code of Federal Regulations section 80.41, paragraphs (e) through (h), in effect on January 1, 1999, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3434, subsection D.

2. California phase 2 reformulated gasoline, including alternative formulations allowed by the predictive model, as adopted by the California air resources board pursuant to California Code of Regulations title 13, sections 2261 through 2262.7 and 2265, in effect on January 1, 1997, except that the minimum oxygen content standard does not apply. The gasoline shall also meet the maximum vapor pressure requirements in section 3-3434, subsection D.

B. Any registered supplier or oxygenate blender, as defined in division rules, may petition the associate director to request that all registered suppliers or oxygenate blenders be allowed to supply gasoline in area C that does not meet the standards in subsection A of this section if the petitioner demonstrates that a shortage in the supply of gasoline meeting the standards in subsection A of this section is imminent.

C. A petition under subsection B of this section shall:

1. Identify specific supply conditions that will result in a shortage of gasoline meeting the standards in subsection A of this section.

2. Identify the formulation of gasoline that will be sold in area C in lieu of gasoline meeting the standards in subsection A of this section.

3. Specify a time period for compliance with the standards of subsection A of this section not to exceed sixty days.

D. The associate director shall either grant or deny a petition under subsection B of this section in writing within seven days of its receipt. Any decision by the associate director to grant the petition shall be equally applicable to all registered suppliers or oxygenate blenders and shall not be selectively applied to any single registered supplier or oxygenate blender. The petition may be granted only if the associate director verifies that the basis for requesting the petition is factual.

E. The associate director may reauthorize a petition granted under subsection B of this section if the petitioner demonstrates that the conditions identified in the petition have continued. The reauthorization of a petition shall not exceed thirty days.

F. The associate director of the division shall consult with the director of the department of environmental quality before granting, reauthorizing or denying any petition under subsection B of this section.

G. The associate director, in consultation with the director of the department of environmental quality, shall adopt by rule:

1. Requirements to implement subsections A, B and C of this section.

2. Requirements for recordkeeping, reporting and analytical methods for fuel providers to demonstrate compliance with subsection A of this section.

H. This section does not apply to fuel sold for use at a motor vehicle manufacturer proving ground or at a motor vehicle racing event.

3-3498. Inspections

A. On request, an interstate pipeline terminal or a motor fuel storage or dispensing site shall provide a product transfer document to the division. Product transfer documents may be stored off site as provided by division rule.

B. On request, a motor fuel storage or dispensing site shall provide access to motor fuel dispensing cabinets to the division for inspection of fuel dispensing meters and blending valves.

### 3-3512. Stage I vapor recovery systems; stage II vapor recovery systems

A. A person shall not offer for sale, sell, install or use a new gasoline stage I vapor recovery system, or any new or rebuilt component parts of the system, unless the system or component part has been certified by the California air resources board as of March 31, 2001 or after that date, or has been approved by a third party that is accredited to test equipment and recognized by industry and the division, and has not been rejected by the division. The division shall maintain and keep current a list of stage I vapor recovery systems and component parts that are approved by the division. Only those systems that are approved shall be used in this state. All certified vapor recovery components must be clearly identified by a permanent identification affixed by the certified manufacturer or rebuilder.

B. For gasoline dispensing sites with a throughput of over ten thousand gallons per month in area A or area B, a person shall not transfer or allow the transfer of gasoline into storage tanks at gasoline dispensing sites unless the storage tank is equipped with a stage I vapor recovery system consisting of a vapor-tight return line from the storage tank or its vent to the gasoline transport vehicle.

C. An owner or operator of a gasoline storage tank, gasoline transport vehicle or gasoline dispensing site that is subject to stage I vapor recovery requirements shall comply with the following:

1. Install all necessary stage I vapor recovery systems and make any modifications necessary to comply with the requirements.
2. Provide adequate training and written instructions to the operator of the affected gasoline dispensing site and the gasoline transport vehicle.
3. Replace, repair or modify any worn or ineffective component or design element to ensure the vapor-tight integrity and efficiency of the stage I vapor recovery systems.
4. Connect and ensure proper operation of the stage I vapor recovery systems whenever gasoline is being loaded, unloaded or dispensed.
5. In area A and other geographical areas as provided by subsection G of this section, have the stage I vapor recovery system tested annually by a registered service representative that is licensed by the division.

D. Before the initial installation or modification of any stage I vapor recovery system, the owner or operator of a gasoline storage tank, gasoline transport vehicle or gasoline dispensing site shall obtain a plan review and approval from the division. Application for the plan review and approval shall be on forms prescribed and provided by the division.

E. The division in consultation with the department of environmental quality and the office of the state fire marshal shall establish by rule standards for the installation and operation of stage I vapor recovery systems. The division shall establish by rule plan review and approval fees. In establishing those rules and standards, the associate director shall consider requirements in other states to ensure that only state-of-the-art technology is used.

F. Approval of a stage I vapor recovery system by the division does not relieve the owner or operator of the responsibility to comply with other applicable statutes, codes and rules pertaining to fire prevention, environmental quality and safety matters.

G. Any county, city or town outside of area A or area B may require gasoline dispensing sites with a throughput greater than ten thousand gallons per month to install, operate and maintain stage I vapor recovery systems in accordance with this section. Any county, city or town, including cities and towns within area B, also may require annual testing of required stage I vapor recovery systems pursuant to subsection C of this section. For a county,

city or town considering the adoption of a resolution to require stage I vapor recovery systems or annual testing within its jurisdiction and on request, the department of environmental quality shall provide technical assistance in evaluating the air quality in that county, city or town and shall provide final review and approval of an adopted resolution.

H. A county board of supervisors or governing body of a city or town shall submit a resolution approved by the department of environmental quality to the associate director of the division requesting the imposition of the requirements for stage I vapor recovery systems within its jurisdiction.

I. The associate director shall adopt, by rule, compliance schedules for gasoline dispensing sites located within the jurisdiction requesting stage I vapor recovery system requirements no later than twelve months after receipt of the resolution from the county board of supervisors or governing board of a city or town. All gasoline dispensing sites shall be required to comply with stage I vapor recovery system rules within twenty-four months after the rules have been filed with the secretary of state. Sites with stage I vapor recovery systems that are already installed must comply with the testing requirements at the time the rules become effective.

J. A county board of supervisors or governing body of a city or town that adopts the requirements for stage I vapor recovery systems may repeal those requirements by adopting a resolution to remove the imposition of those requirements within its jurisdiction unless the county, city or town is in an ozone nonattainment area that has since been designated as moderate, serious or severe by the United States environmental protection agency under section 107(d) of the clean air act. On receipt of the resolution, the associate director of the division shall consult with the director of the department of environmental quality to verify that a county, city or town is outside of an ozone nonattainment area designated as moderate, serious or severe by the United States environmental protection agency under section 107(d) of the clean air act. After consultation with the department of environmental quality, the associate director of the division shall revise the rules to repeal the requirements for stage I vapor recovery systems within that jurisdiction as soon as practicable.

K. From and after September 30, 2018, stage II vapor recovery systems that collect vapors during vehicle refueling are prohibited in an ozone nonattainment area designated as moderate, serious, severe or extreme by the United States environmental protection agency under section 107(d) of the clean air act or area A.

### 3-3513. Compliance schedules

Notwithstanding section 3-3512, subsection I relating to schedules of compliance:

1. Gasoline dispensing facilities located in area A or in any other geographical area as provided in section 3-3512, subsection G for which construction began after the certification of rules adopted pursuant to section 3-3512 shall be constructed to include stage I vapor recovery systems that meet the minimum standards set forth in this chapter and division rules.
2. All gasoline dispensing sites located in area A or in any other geographical area as provided in section 3-3512, subsection G that begin underground storage tank replacement and that apply for a permit pursuant to title 49, chapter 3, article 3 or 5 on or after September 30, 1992 shall be in compliance within six months after the effective date of the rules adopted pursuant to section 3-3512. Compliance with this article is a condition of the permit.

3-3514. Stage I rule effectiveness; enhanced enforcement

The associate director shall adopt rules to:

1. Enhance enforcement of the division's stage I vapor recovery program. The enforcement shall be enhanced through programs that may include increased frequency of or targeting of inspections, increased sampling frequency, use of portable analyzers or any other technique.
2. Establish standards and fees for required inspections of vapor recovery systems.

**DEPARTMENT OF ENVIRONMENTAL EQUALITY**

Title 18 Chapter 9

**Amend:** R18-9-A90

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** December 6, 2022

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** 10/21/2022

**SUBJECT:** DEPARTMENT OF ENVIRONMENTAL EQUALITY  
Title 18 Chapter 9,

**Amend:** R18-9-A903

---

### **Summary:**

This regular rulemaking from the Arizona Department of Environmental Equality (Department) seeks to amend one (1) rule in Title 18 Chapter 9, Article 9, R18-9-A903 related to Prohibitions. Under the Federal Clean Water Act, Arizona created the Arizona Pollution Discharge Elimination System (AZPDES), that regulates the discharge of pollutants into surface waters considered to be Waters of the United States (WOTUS). HB2691 directs the Department to create a Surface Water Protection Program (SWPP) for waters not designated as WOTUS so they can receive similar protections. The amendment to R18-9-A903 allows for the regulation of discharge of pollutants into non-WOTUS surface waters.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Department cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department indicates it did not review or rely on any study in conducting this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The Department indicates that HB2691 (2021) directs ADEQ to develop the Surface Water Protection Program (SWPP) and establish a variety of regulations by December 31, 2022. The Department further states that this rulemaking modifies Title 18, Chapter 9, Article 9, which contains regulations for the permitting program. Large portions of the permitting provisions in HB2691 are self-executing. In addition, the Department does not intend to meaningfully modify the Arizona Pollution Discharge Elimination System (AZPDES) permitting program in this initial SWPP rulemaking, although the need to do so may arise in later rulemakings. The rulemaking contains amendments made by ADEQ to 18 A.A.C.9, Article 9, in order to adopt and revise Surface Water Quality Standards (WQS) within the State of Arizona

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department states they have developed the proposed WQS to comply with federal and state law, and to avoid federally promulgated WQS. The Department further states that water quality criteria must be based on sound scientific rationale to protect the designated use, and not economic considerations. ADEQ is not aware of any less intrusive or less costly alternative methods that would meet ADEQ's legal obligations.

6. **What are the economic impacts on stakeholders?**

The Department indicates this rulemaking could affect ADEQ, political subdivisions, public and private entities who wish to obtain an AZPDES permit for discharge to a listed surface water, public and private entities who may need to operate under an AZPDES general permit, and public and private laboratories that test for permit compliance. The Department believes the rulemaking will create health, social, and economic benefits to the general public from access to clean water and protection of fish and wildlife.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The Department indicates that it modified this rule during the notice and comment process to provide additional clarity on the restrictions that must be present in any AZPDES permit for a discharge to a non-WOTUS protected surface water. Council staff does not believe this change constitutes a substantially different rule pursuant to A.R.S. § 41-1025.

**8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Department indicates that it received commentary asking for change in the language to clarify potential permitting actions. The Department made these revisions as outlined in subsection 7 of this memo.

**9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Department indicates that their regulations allow for many facilities to qualify for general permit, however those that do not qualify may be required to apply for an individual AZPDES permit.

**10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department indicates that this rulemaking is not more stringent than federal law, but that they may apply to waters not protected under federal law.

**11. Conclusion**

This regular rulemaking from the Arizona Department of Environmental Quality seeks to amend one (1) rule in Title 18 Chapter 9, Article 9, R18-9-A903 related to Prohibitions. The Department indicates this rule is being updated to provide surface water protections for non-WOTUS waters in Arizona as directed by HB2691. The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

October 18, 2022

Nicole Sornsin, Chair  
Governor's Regulatory Review Council  
100 N. 15<sup>th</sup> Avenue, #305  
Phoenix, AZ 85007

Re: Rulemaking for Title 18. Environmental Quality, Chapter 11. Department of Environmental Quality - Water Quality Standards, Article 1 and Article 2; Title 18. Environmental Quality, Chapter 9. Department of Environmental Quality - Water Pollution Control, Article 9.

Dear Chair Sornsin:

The Arizona Department of Environmental Quality (ADEQ) hereby submits two (2) Notices of Final Rulemaking to the Governor's Regulatory Review Council (GRRC) for its consideration and approval at the Council meeting scheduled for December 6, 2022. This rulemaking implements the new Arizona Surface Water Protection Program.

The following information is provided for your use in reviewing the enclosed rules for approval pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-201:

#### I. Information Required by A.A.C. R1-6-201(A)

- a. The public record closed for all rules on October 17, 2022 at 11:59 p.m.
- b. The rulemaking activity does not relate to a five-year review report.
- c. The rulemaking activity does not establish a new fee; please see A.R.S. § 49-203(A)(9) for authority.
- d. An immediate effective date is not requested.
- e. The Department certifies that the preamble discloses reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation of or justification for the rule.
- g. There will be no new full-time employees necessary to implement and enforce the rule before the rule is approved by the council, pursuant to A.R.S. § 41-1055(B)(3)(a).

- h. A list of documents enclosed under A.A.C. R1-6-201(A)(2) through (8), which are enclosed as electronic copies:
1. This cover letter.
  2. Two Notices of Final Rulemaking (NFRMs), including the preamble, table of contents, and text of each rule. The preambles contain:
    - a. an economic, small business, and consumer impact statement that contains the information required by A.R.S. § 41-1055;
    - b. comments received by the agency, both written and oral, concerning the proposed rule;
    - c. the general and specific statutes authorizing the rule, including relevant statutory definitions;
  3. No analyses were submitted to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states;
  4. No material is incorporated by reference in this rulemaking;
  5. A list of statutes or other rules referred to in the definitions.

Thank you for your timely review and approval. Please contact Jonathan Quinsey, Legal Specialist, Water Quality Division, 602-771-8193 or [quinsey.jonathan@azdeq.gov](mailto:quinsey.jonathan@azdeq.gov), if you have any questions.

Sincerely,

NOTICE OF FINAL RULEMAKING

TITLE 18. Environmental quality

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - water pollution control

PREAMBLE

1. **Article, Part, or Section Affected (as applicable)**      **Rulemaking Action**  
Article 9, R18-9-A903      Amend
  
2. **Citations to the agency’s statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):**  
  
Authorizing statute:      A.R.S. §§49-202(A), 49-203(A)(1)  
  
Implementing statute:      A.R.S. §§ 49-221, 49-222
  
3. **The effective date of the rule:**
  - a. **If the agency selected a date earlier than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason or reasons the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):**
  
  - b. **If the agency selected a date later than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason or reasons the agency selected the later effective date as provided in A.R.S. § 41-1032(B):**
  
4. **Citations to all related notices published in the Register as specified in R1-1-409(A) that pertain to the record of the proposed rule:**  
  
Notice of Rulemaking Docket Opening: 28 A.A.R. 124, January 7, 2022  
  
Notice of Proposed Rulemaking: 28 A.A.R. 2327, September 16, 2022
  
5. **The agency’s contact person who can answer questions about the rulemaking:**  
  
Name:      Jonathan Quinsey  
  
Address:      Department of Environmental Quality

Telephone: (602) 771-8193  
Email: Quinsey.Jonathan@azdeq.gov or PSWL@azdeq.gov  
Website: <http://www.azdeq.gov/swpp>

**6. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

***Background***

Historically, a broad spectrum of Arizona’s lakes, ponds, streams and wetlands have been protected under the Federal Clean Water Act (CWA). This protection includes the regulation of discharges of pollutants to surface waters via the Arizona Pollution Discharge Elimination System (AZPDES). This regulatory program has only been implemented to regulate discharges into “waters of the United States” (WOTUS).

The CWA does not define WOTUS, instead, it provides discretion for the U.S. Environmental Protection Agency (EPA) and the US Army Corps of Engineers (USACE) to define WOTUS in their rules. Courts have heard a number of cases and issued rulings that effectively modify the extent of federal jurisdiction and different Federal administrations have attempted to change the definition as well. The Arizona Department of Environmental Quality (ADEQ) created the Surface Water Protection Program (SWPP) to provide clear and consistent regulation for stakeholders despite these changes to the jurisdictional reach of the Federal CWA. The SWPP is the result of a rigorous public process that has resulted in this effort to create a radically simple but effective approach to protect important state waters that are not WOTUS and therefore would not receive the protections of a WOTUS.

HB2691 (2021) directs ADEQ to develop the SWPP and establish a variety of regulations by December 31, 2022. ADEQ is meeting that goal in this publication of the register by amending the proposed Title 18, Chapter 11, Article 2 titled “Water Quality Standards for Non-WOTUS Protected Surface Waters.” This specific rulemaking modifies Title 18, Chapter 9, Article 9 which contains the regulations for the permitting program.

***Permitting***

This proposed rulemaking includes modifications to A.A.C. Title 18, Chapter 9, Article 9. Large portions of the permitting provisions in HB2691 are intentionally self-executing. ADEQ does not intend to meaningfully

modify the AZPDES permitting program in this initial SWPP rulemaking, although the need to do so may arise in later rulemakings.

There are currently no permitted discharges to non-WOTUS protected surface waters. The cost of building a separate permitting program will issue no permits in this initial adoption is prohibitive as ADEQ would not see environmental benefits from adopting entirely separate provisions nor would the agency reduce permitting costs.

**7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

None.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable.

**9. The preliminary summary of the economic, small business, and consumer impact:**

**A. An identification of this rulemaking:**

The rulemaking addressed by this Economic, Small Business, and Consumer Impact Statement (EIS) contains amendments made by ADEQ to 18 A.A.C. 9, Article 9, in order to adopt and revise Surface Water Quality Standards (WQS) within the State of Arizona. Additionally, this EIS addresses the adoption of 18 A.A.C 11, Article 2, which adopts WQS for non-WOTUS protected surface waters listed on the Protected Surface Waters List. The WQS in Article 2 do not apply generally, and may only be applied to listed surface waters.

**B. A brief summary of the EIS:**

Interested stakeholders should review ADEQ's Social, Environmental, and Economic cost/benefit analysis technical paper at [azdeq.gov/node/8173](http://azdeq.gov/node/8173) for more in-depth information. ADEQ's contractors have drafted the paper to meet the requirements statutory EIS requirements. Additionally, ADEQ has also addressed this topic earlier in the preamble and provided specific information regarding the costs and benefits of this proposed rule. The three case-study waterbodies ADEQ has used to in this rulemaking provide a contrasting and otherwise informative set of examples by which to illustrate various aspects of the economic impact of this rule.

McClure’s quantitative analysis based on the data available for various cost and benefit factors incorporates a framework for addressing additional, qualitative aspects of protecting Arizona waterbodies. These qualitative components add context to the quantified portion of ADEQ’s analysis and reflect potential elements of the cost/benefit analysis that could be refined during formal rulemaking. Including these qualitative discussions also helps illustrate certain limitations in the current modeling process.

The quantitative elements synthesize the following types of information:

1. Key characteristics of the three case-study waterbodies for which the cost/benefit process will be performed and which influence the application of various cost and benefit factors.
2. Quantified cost and benefit factors to apply to the waterbodies and to the households in the two types of analysis areas.
3. Factors for updating cost and benefit estimates derived (by others) in preceding years and for discounting streams of costs and benefits estimated to occur over a subsequent 20-year period.
4. Cost and benefit totals for each waterbody, and the ratio of benefits to costs.

Qualitative aspects of the analysis are summarized in the contractor report through a series of tables that discuss the broad implications of additional benefit and cost categories not quantified in the current model, Environmental Justice observations based on the quantified demographic data, and the sensitivity of model results to various quantified variables, including how results compared to certain Arizona-specific cost and benefit estimates in the EPA document.

**C. Identification of the person who will be directly affected by, bear the costs of, or directly benefit from the rules:**

The table below summarizes the persons who will be directly affected by, bear the costs of, or directly benefit from the rules in a manner consistent with the requirements of the EIS statute. Although the analysis completed by the consultant is more complete, this section may serve as a more accessible summary.

This rulemaking could affect ADEQ, political subdivisions, public and private entities who wish to obtain an AZPDES permit for a discharge to a listed surface water, public and private entities who may need to operate under and AZPDES general permit, and public and private laboratories that test for permit compliance. It will also create health, social, and economic benefits to the general public from access to clean water and protection of fish and wildlife.

The AZPDES permitting program is implemented by ADEQ through various general and individual permits. Individual permit holders can include public and private WWTPs, publicly owned treatment works (POTW), fish hatcheries, power plants, mines, truck stops, drinking water plants, marinas, and Water Quality Assurance Revolving Fund (WQARF) remediation projects. Because the WQS adopted in Article 1 of this rulemaking are already in effect, and there are planned of current discharges to any waters listed in Article 2, ADEQ expects the costs of adopting this rulemaking to be extremely low. Nonetheless, based on the information above, ADEQ has identified the following list of potential affected parties:

*State and local government agencies*

ADEQ,  
Agencies operating under individual or general AZPDES permits

*Political subdivisions*

Political subdivisions generally, public WWTPs, POTWs, public laboratories Non-WWTP government entities operating under AZPDES individual permits Non-WWTP government entities operating under AZPDES general permits

*Privately-Owned Businesses*

Private entities operating under general permits Private, non-WWTP individual permit holders  
Private WWTPs  
Private laboratories

*The General Public*

**D. Cost/Benefit analysis:**

The costs/benefits for each of these potentially affected parties is listed below. Use the following key to decipher the range of costs:

<b>Minimal</b>	<b>Moderate</b>	<b>Substantial</b>	<b>Significant</b>
\$10,000 or less	\$10,001 to \$1,000,000	\$1,000,001 or more	Cost/Burden cannot be calculated, but the Department expects it to be important to the analysis.

<b>Description of Affected Groups</b>	<b>Description of Effect</b>	<b>Increased Cost/ Decreased Revenue</b>	<b>Decreased Cost/ Increased Revenue</b>
ADEQ	Possible increase in number of surface waters identified as impaired and corresponding changes in 303(d) listings and TMDLs.	Minimal	
	Improved implementation and enforcement of the SWQS	Minimal	

	Administrative costs associated with future rulemakings	Significant	
	Predictability, reduced transaction costs, and responsiveness to stakeholders from avoiding federally-promulgated SWQS.		Minimal
	Compliance with state and federal law.		Minimal
	Support of ADEQ's mission to protect and enhance public health and the environment.		Substantial
Political subdivisions generally	Tax revenues and indirect benefits of clean water dependent industries (including outdoor recreation, tourism, etc.)		Cumulatively substantial
Public WWTP and/or POTW	Increased monitoring costs	Minimal	
	Evaluation of compliance with standards	Minimal	
	Cost of compliance with new WQS	Minimal	
	Improved implementation and enforcement of water quality standards by political subdivisions with pretreatment programs.		
	Clarification and correction of errors.		Moderate
Public laboratories	Testing for WQS with accompanying costs.	Minimal	
Non-WWTP Government entities	Clarification and correction of errors.		Significant
	Cost of compliance with new WQS.	Minimal	
Private entities operating under general permits	Clarification and correction of errors.		Significant
	Cost of compliance with new SWQS.	Minimal	
Private WWTP	Clarification and correction of errors.		Significant
	Cost of compliance with new SWQS		
Laboratories	Clarification and correction of errors.		Significant
	Testing for new SWQS with accompanying costs.	Minimal	
General Public	Economic and social benefits of clean water		Cumulatively substantial
Non-WWTP individual permit holders (Power Plants, Mines, Marinas, etc.)	Clarification and correction of errors.		Significant
	Cost of compliance with new SWQS.	Minimal, if any	

**E. A general description of the probable impact on private and public employment in business agencies, and political subdivisions of this state directly affected by the rulemaking:**

ADEQ estimates that this rulemaking will not have an impact on public or private employment. To the best of ADEQ's knowledge, the agency does not believe that any of the rule contained in this rulemaking package will result in a private or public entity needed an AZPDES permit.

**F. A statement of the probable impact of the rules on small business:**

The agency uses the term "small business" consistent with A.R.S. § 41-1001(21) which defines a "small business" as a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year.

**1. An identification of the small business subject to the rules.**

Among the stakeholders listed above, many could meet the A.R.S. § 41-1001(21) definition of small business. For example, a WWTP that would potentially discharge to a non-WOTUS protected surface water could be affected by this rule. In its current form, ADEQ cannot identify any small businesses that will be negatively affected by this rulemaking. Conversely, some small businesses may see some benefit in the clarification of WOTUS status of some waters and a clarification of what standards apply to those waters. Some recreational tourism related group may also see benefits from this rulemaking.

**2. The administrative and other costs required for compliance with the rules:**

Any potential compliance costs associated with this rulemaking would vary based on the stakeholder involved. ADEQ's examination of those costs is addressed in the matrix above and the consultants report.

**3. A description of the methods that the agency may use to reduce the impact on small businesses, as required in A.R.S. § 41-1035.**

In the event that a small business must acquire an AZPDES permit for a discharge to a non-WOTUS protected surface water, ADEQ has adopted water quality standards that allow ADEQ to establish variances, site-specific standards, or account for natural background pollutants when designing the permit.

**4. The probable costs and benefits to private persons and consumers who are directly affected by the rules:**

ADEQ's economic consultants prepared an executive summary which address the probable costs/benefits of and individual affected by these rules.

**G. A statement of the probable effect on state revenues.**

This rule should have a de minimus effect on state revenues.

**H. A description of any less instructive or less costly alternative methods of achieving the purpose of this rulemaking:**

ADEQ continually reviews and revises its WQS. These standards are adopted to protect public health or welfare and enhance the quality of water in the state. This means that WQS should, wherever attainable, provide water quality for the protection and propagation of fish, shellfish and wildlife and for recreation in and on the water

and take into consideration the use and value of water for public water supplies, recreation in and on the water, and agricultural, industrial, and other purposes including navigation.

EPA will review ADEQ's Article 1 WQS to determine if they are consistent with the requirements of the CWA. If EPA determines that ADEQ's SWQS do not meet the requirements of the CWA, EPA will disapprove ADEQ's SWQS and promulgate federal standards. ADEQ has, therefore, developed the proposed WQS to comply with federal and state law, and to avoid federally promulgated WQS. Additionally, water quality criteria must be based on sound scientific rationale to protect the designated use, and not economic considerations. ADEQ is not aware of any less intrusive or less costly alternative methods that would meet ADEQ's legal obligations.

**I. A description of any data on which the rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data.**

ADEQ recommends that interested stakeholder review ADEQ's Arizona Water Quality Standards technical paper for additional information about how data for calculating water quality standards is obtained. The paper can be accessed here: [https://static.azdeq.gov/wqd/swpp/wqs\\_tp.pdf](https://static.azdeq.gov/wqd/swpp/wqs_tp.pdf).

For information regarding ADEQ's economic analysis, ADEQ recommends that interested stakeholder review the consultant's final report and ADEQ's technical paper describing it. ADEQ's technical paper is available here: [https://static.azdeq.gov/wqd/swpp/ese\\_tp.pdf](https://static.azdeq.gov/wqd/swpp/ese_tp.pdf) and a copy of the consultant report is available here: [https://static.azdeq.gov/wqd/swpp/ese\\_report.pdf](https://static.azdeq.gov/wqd/swpp/ese_report.pdf).

**10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

ADEQ has modified this rule during the notice and comment process to provide additional clarity on the restrictions that must be present in any AZPDES permit for a discharge to a non-WOTUS protected surface water.

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

During this rulemaking commentors asked for a change in language that would provide more clarity about potential permitting actions. Specifically, a comment stating the following was received:

*"Because ADEQ intends to utilize the existing AZPDES permit program (with some changes mandated by statute) to develop and issue point source discharge permits for discharges to non-WOTUS protected surface waters, the Department has not proposed new permitting regulations. Instead, it has proposed modifying A.A.C. R18-9-A903 to add language stating that AZPDES permits for discharges to non-WOTUS protected surface*

waters should not include conditions that violate the restrictions of A.R.S. § 49-255.04.

*[Stakeholder] supports the intention of this change, but believes additional clarity is required regarding the scope of AZPDES permits for discharges to non-WOTUS protected surface waters. Specifically, some of the prohibitions listed in A.A.C. R18-9-A903 may not “violate the restrictions of” A.R.S. § 49-255.04, but they nevertheless are not appropriate for consideration when issuing an AZPDES permit for a discharge to a non-WOTUS protected surface water. Yet, as the language is proposed, it is possible that some of these prohibitions could be applied when issuing permits for discharges to non-WOTUS protected surface waters.”*

**ADEQ Response:** ADEQ has modified the language in this rulemaking to address the stakeholder's concerns.

**12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

None.

a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

ADEQ’s regulations do allow for general permits for many different types of facilities, but not all facilities qualify for general permits. In the case that a general permit does not apply this rule may require that entities that discharge to non-WOTUS protected surface water apply for an individual AZPDES permit. Requirements for discharge vary depending on the facility, so many of these discharges would not be able to receive coverage under a general permit.

b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

The Clean Water Act and implementing regulations adopted by EPA apply to the subject of this rule, as described in Section 5 above. Article 2 of this rulemaking establishes water quality standards that are applicable to surface waters that are not protected under the Clean Water Act. These standards are not more stringent than those the standards implemented by federal law, but they apply to waters that may not be protected under federal law.

ADEQ was given explicit statutory authority to develop a program to protect these surface waters by HB2691(2021). That bill is codified at A.R.S. §§ 49-202.01, 49-221, 49-255.04, and 49-255.05.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No such analysis was submitted.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

No such material shall be incorporated by reference.

**14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable.

**15. The full text of the rules follows:**

**CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY – WATER POLLUTION CONTROL**

**ARTICLE 9. ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM**

**PART A. GENERAL REQUIREMENTS**

Section  
R18-9-A903. Prohibitions

**ARTICLE 9. ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM**

**PART A. GENERAL REQUIRMENTS**

**R18-9-A903. Prohibitions**

A. The Director shall not issue a permit for a discharge to a WOTUS:

1. If the conditions of the permit do not provide for compliance with the applicable requirements of A.R.S. Title 49, Chapter 2, Article 3.1; 18 A.A.C. 9, Articles 9 and 10; and the Clean Water Act;
2. Before resolution of an EPA objection to a draft or proposed permit under R18-9-A908(C);
3. If the imposition of conditions cannot ensure compliance with the applicable water quality requirements from Arizona or an affected state or tribe, or a federally promulgated water quality standard under 40 CFR 131.31;
4. If in the judgment of the Secretary of the U.S. Army, acting through the Chief of Engineers, the discharge will substantially impair anchorage and navigation in or on any navigable water;
5. For the discharge of any radiological, chemical, or biological warfare agent, or high-level radioactive waste;
6. For any discharge inconsistent with a plan or plan amendment approved under section 208(b) of the Clean Water Act (33 U.S.C. 1288); and
7. To a new source or a new discharger if the discharge from its construction or operation will cause or contribute to the violation of a water quality standard. The owner or operator of a new source or new discharger proposing to discharge into a water segment that does not meet water quality standards or is not expected to meet those standards even after the application of the effluent limitations required under R18-9-A905(A)(8), and for which the Department has

performed a wasteload allocation for the proposed discharge, shall demonstrate before the close of the public comment period that:

- a. There are sufficient remaining wasteload allocations to allow for the discharge, and
- b. The existing dischargers into the segment are subject to schedules of compliance designed to bring the segment into compliance with water quality standards.

B. The Director shall not issue a permit for a discharge to a non-WOTUS protected surface water:

1. If the permit or the conditions of the permit violate the restrictions listed in A.R.S. §49-255.04; and
2. If the conditions of the permit do not provide for compliance with 18 A.A.C. 11, Article 2 and the applicable requirements of 18 A.A.C. 9, Article 9.

### **§ R18-9-A903. Prohibitions**

The Director shall not issue a permit:

1. If the conditions of the permit do not provide for compliance with the applicable requirements of A.R.S. Title 49, Chapter 2, Article 3.1; 18 A.A.C. 9, Articles 9 and 10; and the Clean Water Act;
2. Before resolution of an EPA objection to a draft or proposed permit under R18-9-A908(C);
3. If the imposition of conditions cannot ensure compliance with the applicable water quality requirements from Arizona or an affected state or tribe, or a federally promulgated water quality standard under 40 CFR 131.31;
4. If in the judgment of the Secretary of the U.S. Army, acting through the Chief of Engineers, the discharge will substantially impair anchorage and navigation in or on any navigable water;
5. For the discharge of any radiological, chemical, or biological warfare agent, or high-level radioactive waste;
6. For any discharge inconsistent with a plan or plan amendment approved under section 208(b) of the Clean Water Act (33 U.S.C. 1288); and
7. To a new source or a new discharger if the discharge from its construction or operation will cause or contribute to the violation of a water quality standard. The owner or operator of a new source or new discharger proposing to discharge into a water segment that does not meet water quality standards or is not expected to meet those standards even after the application of the effluent limitations required under R18-9-A905(A)(8), and for which the Department has performed a wasteload allocation for the proposed discharge, shall demonstrate before the close of the public comment period that:
  - a. There are sufficient remaining wasteload allocations to allow for the discharge, and
  - b. The existing dischargers into the segment are subject to schedules of compliance designed to bring the segment into compliance with water quality standards.

### **History:**

**Ariz. Admin. Code R18-9-A903 Prohibitions (Arizona  
Administrative Code (2022 Edition))**

---

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 2704, effective June 5, 2002 (Supp. 02-2).

**CHAPTER 325**  
**HOUSE BILL 2691**

AN ACT

AMENDING SECTIONS 49-175, 49-201, 49-202, 49-202.01, 49-203, 49-210, 49-221, 49-222, 49-225, 49-231, 49-232, 49-233, 49-234, 49-242, 49-245.01, 49-245.02, 49-250, 49-255, 49-255.01, 49-255.02 AND 49-255.03, ARIZONA REVISED STATUTES; AMENDING TITLE 49, CHAPTER 2, ARTICLE 3.1, ARIZONA REVISED STATUTES, BY ADDING SECTIONS 49-255.04 AND 49-255.05; AMENDING SECTIONS 49-256, 49-256.01, 49-256.02, 49-261, 49-262, 49-371, 49-391 AND 49-701, ARIZONA REVISED STATUTES; RELATING TO WATER QUALITY CONTROL.

(TEXT OF BILL BEGINS ON NEXT PAGE)

1 Be it enacted by the Legislature of the State of Arizona:

2 Section 1. Section 49-175, Arizona Revised Statutes, is amended to  
3 read:

4 49-175. Work plans

5 A. A work plan to address a release of a contaminant to the  
6 environment shall include the following:

7 1. A summary of existing information on site characterization,  
8 including references to known site characterization and assessment  
9 information and information regarding any remediation previously conducted  
10 at the site or portion of the site. The applicant shall provide copies of  
11 the referenced reports to the department.

12 2. If the site or portion of the site addressed in the application  
13 has not been characterized, a plan to conduct site characterization and a  
14 schedule for completion. The applicant shall provide a schedule for the  
15 submission of a work plan for remediation following approval of site  
16 characterization.

17 3. If site characterization is completed for the site or portion of  
18 the site addressed in the application, a plan for remediation which will  
19 comply with subsection B of this section and a schedule for completion as  
20 follows:

21 (a) The work plan shall describe how the remediation will comply  
22 with subsection B of this section and how the completion of remediation  
23 will be verified. The applicant and the department may agree on interim  
24 performance goals. The interim performance goals shall be guidelines used  
25 to determine the ongoing effectiveness of the remediation toward reaching  
26 the final remediation levels.

27 (b) The work plan may provide for the remediation to be conducted  
28 in phases or tasks that, if agreed to by the applicant, provide for the  
29 department to review and approve a completed phase or task before  
30 initiation of the next phase or task of the work plan.

31 4. A schedule for submission of progress reports to the department.  
32 The progress reports shall be sufficient to allow the department to  
33 determine the effectiveness of the characterization if it has not been  
34 completed, followed by the remediation.

35 5. A proposal for community involvement as prescribed by section  
36 49-176.

37 6. If known, a list of institutional or engineering controls  
38 necessary during remediation and after completion of the proposed  
39 remediation to control exposure to contaminants.

40 7. A proposal for monitoring of a site or portion of a site during  
41 the remediation and after the remediation if necessary to verify whether  
42 the approved remediation levels or controls have been attained and will be  
43 maintained.

1           8. A list of any permits or legal requirements known by the  
2 applicant to apply to the work to be performed or already performed by the  
3 applicant.

4           9. If requested by the department, information regarding the  
5 financial capability of the applicant to conduct the work identified in  
6 the application.

7           B. Remediation levels or controls for remediation conducted  
8 pursuant to this article shall be established in accordance with rules  
9 adopted pursuant to section 49-282.06 unless one or more of the following  
10 ~~applies~~ APPLY:

11           1. The applicant demonstrates that remediation levels,  
12 institutional controls or engineering controls for remediation of  
13 contaminated soil comply with section 49-152 and the rules adopted  
14 pursuant to that section.

15           2. The applicant demonstrates that remediation levels,  
16 institutional controls or engineering controls for remediation of  
17 landfills or other facilities that contain materials that are not subject  
18 to section 49-152 and the rules adopted pursuant to that section will  
19 result in a condition that does not exceed a cumulative excess lifetime  
20 cancer risk between  $1 \times 10^{-4}$  and  $1 \times 10^{-6}$ , and a hazard index no greater  
21 than 1. The excess lifetime cancer risk shall be selected based on site-  
22 specific factors, including the presence of multiple contaminants, the  
23 existence of multiple pathways of exposure, the uncertainty of exposure  
24 and the sensitivity of the exposed population. Approval of the use of  
25 institutional or engineering controls shall require a demonstration that  
26 the controls will be maintained and that the requirements of section  
27 49-158 have been met.

28           3. The applicant demonstrates that on achieving remediation levels  
29 or controls for a source or potential source of contamination to a  
30 ~~navigable water~~ WOTUS, the source of contamination will not cause or  
31 contribute to an exceedance of surface water quality standards, or if a  
32 permit is required pursuant to 33 United States Code section 1342 for any  
33 discharge from the source, that any discharges from the source will comply  
34 with the permit. Approval of the use of institutional or engineering  
35 controls shall require a demonstration that the controls will be  
36 maintained and that the requirements of section 49-158 have been met.

37           4. The applicant demonstrates that, on achieving remediation levels  
38 or controls for a source of contamination to an aquifer, the source will  
39 not cause or contribute to an exceedance of aquifer water quality  
40 standards beyond the boundary of the facility where the source is located.  
41 In determining whether remediation levels or controls satisfy this  
42 requirement, the department shall consider a demonstration by the  
43 applicant that aquifer water quality standards are exceeded beyond the  
44 boundary of the facility due to naturally occurring contamination or from  
45 sources outside of the boundary. The applicant is not required to

1 identify or evaluate other sources. Approval of the use of institutional  
2 or engineering controls shall require a demonstration that the controls  
3 will be maintained and that the requirements of section 49-158 have been  
4 met.

5 C. The department, at its sole discretion, may waive any work plan  
6 requirement under this section that it determines to be unnecessary to  
7 make any of the determinations required under section 49-177. Decisions  
8 under this subsection are not subject to appeal or dispute resolution  
9 under section 49-185.

10 Sec. 2. Section 49-201, Arizona Revised Statutes, is amended to  
11 read:

12 49-201. Definitions

13 In this chapter, unless the context otherwise requires:

14 1. "Administrator" means the administrator of the United States  
15 environmental protection agency.

16 2. "Aquifer" means a geologic unit that contains sufficient  
17 saturated permeable material to yield usable quantities of water to a well  
18 or spring.

19 3. "Best management practices" means those methods, measures or  
20 practices to prevent or reduce discharges and includes structural and  
21 nonstructural controls and operation and maintenance procedures. Best  
22 management practices may be applied before, during and after discharges to  
23 reduce or eliminate the introduction of pollutants into receiving waters.  
24 Economic, institutional and technical factors shall be considered in  
25 developing best management practices.

26 4. "CERCLA" means the comprehensive environmental response,  
27 compensation, and liability act of 1980, as amended (P.L. 96-510; 94 Stat.  
28 2767; 42 United States Code sections 9601 through 9657), commonly known as  
29 "superfund".

30 5. "Clean closure" means implementation of all actions specified in  
31 an aquifer protection permit, if any, as closure requirements, as well as  
32 elimination, to the greatest degree practicable, of any reasonable  
33 probability of further discharge from the facility and of either exceeding  
34 aquifer water quality standards at the applicable point of compliance or,  
35 if an aquifer water quality standard is exceeded at the time the permit is  
36 issued, causing further degradation of the aquifer at the applicable point  
37 of compliance as provided in section 49-243, subsection B, paragraph 3.  
38 Clean closure also means postclosure monitoring and maintenance are  
39 unnecessary to meet the requirements in an aquifer protection permit.

40 6. "Clean water act" means the federal water pollution control act  
41 amendments of 1972 (P.L. 92-500; 86 Stat. 816; 33 United States Code  
42 sections 1251 through 1376), as amended.

43 7. "Closed facility" means:

44 (a) A facility that ceased operation before January 1, 1986, that  
45 is not, on August 13, 1986, engaged in the activity for which the facility

1 was designed and that was previously operated and for which there is no  
2 intent to resume operation.

3 (b) A facility that has been approved as a clean closure by the  
4 director.

5 (c) A facility at which any postclosure monitoring and maintenance  
6 plan, notifications and approvals required in a permit have been  
7 completed.

8 8. "Concentrated animal feeding operation" means an animal feeding  
9 operation that meets the criteria prescribed in 40 Code of Federal  
10 Regulations part 122, appendix B for determining a concentrated animal  
11 feeding operation for purposes of 40 Code of Federal Regulations sections  
12 122.23 and 122.24, appendix C.

13 9. "Department" means the department of environmental quality.

14 10. "Direct reuse" means the beneficial use of reclaimed water for  
15 specific purposes authorized pursuant to section 49-203, subsection A,  
16 paragraph ~~6~~ 7.

17 11. "Director" means the director of environmental quality or the  
18 director's designee.

19 12. "Discharge" means the direct or indirect addition of any  
20 pollutant to the waters of the state from a facility. For purposes of the  
21 aquifer protection permit program prescribed by article 3 of this chapter,  
22 discharge means the addition of a pollutant from a facility either  
23 directly to an aquifer or to the land surface or the vadose zone in such a  
24 manner that there is a reasonable probability that the pollutant will  
25 reach an aquifer.

26 13. "Discharge impact area" means the potential areal extent of  
27 pollutant migration, as projected on the land surface, as the result of a  
28 discharge from a facility.

29 14. "Discharge limitation" means any restriction, prohibition,  
30 limitation or criteria established by the director, through a rule, permit  
31 or order, on quantities, rates, concentrations, combinations, toxicity and  
32 characteristics of pollutants.

33 15. "EFFLUENT-DEPENDENT WATER" MEANS A SURFACE WATER OR PORTION OF A  
34 SURFACE WATER THAT CONSISTS OF A POINT SOURCE DISCHARGE WITHOUT WHICH THE  
35 SURFACE WATER WOULD BE EPHEMERAL. AN EFFLUENT-DEPENDENT WATER MAY BE  
36 PERENNIAL OR INTERMITTENT DEPENDING ON THE VOLUME AND FREQUENCY OF THE  
37 POINT SOURCE DISCHARGE OF TREATED WASTEWATER.

38 ~~15:~~ 16. "Environment" means ~~navigable waters~~ WOTUS, any other  
39 surface waters, groundwater, drinking water supply, land surface or  
40 subsurface strata or ambient air, within or bordering on this state.

41 17. "EPHEMERAL WATER" MEANS A SURFACE WATER OR PORTION OF SURFACE  
42 WATER THAT FLOWS OR POOLS ONLY IN DIRECT RESPONSE TO PRECIPITATION.

43 ~~16:~~ 18. "Existing facility" means a facility on which construction  
44 began before August 13, 1986 and ~~which~~ THAT is neither a new facility nor

1 a closed facility. For the purposes of this definition, construction on a  
2 facility has begun if the facility owner or operator has either:

3 (a) Begun, or caused to begin, as part of a continuous on-site  
4 construction program any placement, assembly or installation of a  
5 building, structure or equipment.

6 (b) Entered a binding contractual obligation to purchase a  
7 building, structure or equipment ~~which~~ THAT is intended to be used in its  
8 operation within a reasonable time. Options to purchase or contracts  
9 ~~which~~ THAT can be terminated or modified without substantial loss, and  
10 contracts for feasibility engineering and design studies, do not  
11 constitute a contractual obligation for purposes of this definition.

12 ~~17.~~ 19. "Facility" means any land, building, installation,  
13 structure, equipment, device, conveyance, area, source, activity or  
14 practice from which there is, or with reasonable probability may be, a  
15 discharge.

16 ~~18.~~ 20. "Gray water" means wastewater that has been collected  
17 separately from a sewage flow and that originates from a clothes washer or  
18 a bathroom tub, shower or sink but that does not include wastewater from a  
19 kitchen sink, dishwasher or toilet.

20 ~~19.~~ 21. "Hazardous substance" means:

21 (a) Any substance designated pursuant to sections 311(b)(2)(A) and  
22 307(a) of the clean water act.

23 (b) Any element, compound, mixture, solution or substance  
24 designated pursuant to section 102 of CERCLA.

25 (c) Any hazardous waste having the characteristics identified under  
26 or listed pursuant to section 49-922.

27 (d) Any hazardous air pollutant listed under section 112 of the  
28 federal clean air act (42 United States Code section 7412).

29 (e) Any imminently hazardous chemical substance or mixture with  
30 respect to which the administrator has taken action pursuant to section 7  
31 of the federal toxic substances control act (15 United States Code section  
32 2606).

33 (f) Any substance ~~which~~ THAT the director, by rule, either  
34 designates as a hazardous substance following the designation of the  
35 substance by the administrator under the authority described in  
36 subdivisions (a) through (e) of this paragraph or designates as a  
37 hazardous substance on the basis of a determination that such substance  
38 represents an imminent and substantial endangerment to public health.

39 ~~20.~~ 22. "Inert material" means broken concrete, asphaltic pavement,  
40 manufactured asbestos-containing products, brick, rock, gravel, sand and  
41 soil. Inert material also includes material that when subjected to a  
42 water leach test that is designed to approximate natural infiltrating  
43 waters will not leach substances in concentrations that exceed numeric  
44 aquifer water quality standards established pursuant to section 49-223,  
45 including overburden and wall rock that is not acid generating, taking

1 into consideration acid neutralization potential, and that has not and  
2 will not be subject to mine leaching operations.

3 23. "INTERMITTENT WATER" MEANS A SURFACE WATER OR PORTION OF SURFACE  
4 WATER THAT FLOWS CONTINUOUSLY DURING CERTAIN TIMES OF THE YEAR AND MORE  
5 THAN IN DIRECT RESPONSE TO PRECIPITATION, SUCH AS WHEN IT RECEIVES WATER  
6 FROM A SPRING, ELEVATED GROUNDWATER TABLE OR ANOTHER SURFACE SOURCE, SUCH  
7 AS MELTING SNOWPACK.

8 ~~21.~~ 24. "Major modification" means a physical change in an existing  
9 facility or a change in its method of operation that results in a  
10 significant increase or adverse alteration in the characteristics or  
11 volume of the pollutants discharged, or the addition of a process or major  
12 piece of production equipment, building or structure that is physically  
13 separated from the existing operation and that causes a discharge,  
14 provided that:

15 (a) A modification to a groundwater protection permit facility as  
16 defined in section 49-241.01, subsection C that would qualify for an  
17 area-wide permit pursuant to section 49-243 consisting of an activity or  
18 structure listed in section 49-241, subsection B shall not constitute a  
19 major modification solely because of that listing.

20 (b) For a groundwater protection permit facility as defined in  
21 section 49-241.01, subsection C, a physical expansion that is accomplished  
22 by lateral accretion or upward expansion within the pollutant management  
23 area of the existing facility or group of facilities shall not constitute  
24 a major modification if the accretion or expansion is accomplished through  
25 sound engineering practice in a manner compatible with existing facility  
26 design, taking into account safety, stability and risk of environmental  
27 release. For a facility described in section 49-241.01, subsection C,  
28 paragraph 1, expansion of a facility shall conform with the terms and  
29 conditions of the applicable permit. For a facility described in section  
30 49-241.01, subsection C, paragraph 2, if the area of the contemplated  
31 expansion is not identified in the notice of disposal, the owner or  
32 operator of the facility shall submit to the director the information  
33 required by section 49-243, subsection A, paragraphs 1, 2, 3 and 7.

34 ~~22. "Navigable waters" means the waters of the United States as~~  
35 ~~defined by section 502(7) of the clean water act (33 United States Code~~  
36 ~~section 1362(7)).~~

37 ~~23.~~ 25. "New facility" means a previously closed facility that  
38 resumes operation or a facility on which construction was begun after  
39 August 13, 1986 on a site at which no other facility is located or to  
40 totally replace the process or production equipment that causes the  
41 discharge from an existing facility. A major modification to an existing  
42 facility is deemed a new facility to the extent that the criteria in  
43 section 49-243, subsection B, paragraph 1 can be practicably applied to  
44 such modification. For the purposes of this definition, construction on a  
45 facility has begun if the facility owner or operator has either:

1 (a) Begun, or caused to begin as part of a continuous on-site  
2 construction program, any placement, assembly or installation of a  
3 building, structure or equipment.

4 (b) Entered a binding contractual obligation to purchase a  
5 building, structure or equipment ~~which~~ THAT is intended to be used in its  
6 operation within a reasonable time. Options to purchase or contracts  
7 ~~which~~ THAT can be terminated or modified without substantial loss, and  
8 contracts for feasibility engineering and design studies, do not  
9 constitute a contractual obligation for purposes of this definition.

10 ~~24.~~ 26. "Nonpoint source" means any conveyance ~~which~~ THAT is not a  
11 point source from which pollutants are or may be discharged to ~~navigable~~  
12 ~~waters~~ WOTUS.

13 27. "NON-WOTUS PROTECTED SURFACE WATER" MEANS A PROTECTED SURFACE  
14 WATER THAT IS NOT A WOTUS.

15 28. "NON-WOTUS WATERS OF THE STATE" MEANS WATERS OF THE STATE THAT  
16 ARE NOT WOTUS.

17 ~~25.~~ 29. "On-site wastewater treatment facility" means a  
18 conventional septic tank system or alternative system that is installed at  
19 a site to treat and dispose of wastewater of predominantly human origin  
20 that is generated at that site.

21 30. "ORDINARY HIGH WATER MARK" MEANS THE LINE ON THE SHORE OF AN  
22 INTERMITTENT OR PERENNIAL PROTECTED SURFACE WATER ESTABLISHED BY THE  
23 FLUCTUATIONS OF WATER AND INDICATED BY PHYSICAL CHARACTERISTICS SUCH AS A  
24 CLEAR, NATURAL LINE IMPRESSED ON THE BANK, SHELVING, CHANGES IN THE  
25 CHARACTER OF SOIL, DESTRUCTION OF TERRESTRIAL VEGETATION, THE PRESENCE OF  
26 LITTER AND DEBRIS OR OTHER APPROPRIATE MEANS THAT CONSIDER THE  
27 CHARACTERISTICS OF THE CHANNEL, FLOODPLAIN AND RIPARIAN AREA.

28 31. "PERENNIAL WATER" MEANS A SURFACE WATER OR PORTION OF SURFACE  
29 WATER THAT FLOWS CONTINUOUSLY THROUGHOUT THE YEAR.

30 ~~26.~~ 32. "Permit" means a written authorization issued by the  
31 director or prescribed by this chapter or in a rule adopted under this  
32 chapter stating the conditions and restrictions governing a discharge or  
33 governing the construction, operation or modification of a facility. FOR  
34 THE PURPOSES OF REGULATING NON-WOTUS PROTECTED SURFACE WATERS, A PERMIT  
35 SHALL NOT INCLUDE PROVISIONS GOVERNING THE CONSTRUCTION, OPERATION OR  
36 MODIFICATION OF A FACILITY EXCEPT AS NECESSARY FOR THE PURPOSE OF ENSURING  
37 THAT A DISCHARGE MEETS WATER QUALITY-RELATED EFFLUENT LIMITATIONS OR TO  
38 REQUIRE BEST MANAGEMENT PRACTICES FOR THE PURPOSE OF ENSURING THAT A  
39 DISCHARGE DOES NOT CAUSE AN EXCEEDANCE OF AN APPLICABLE SURFACE WATER  
40 QUALITY STANDARD.

41 ~~27.~~ 33. "Person" means an individual, employee, officer, managing  
42 body, trust, firm, joint stock company, consortium, public or private  
43 corporation, including a government corporation, partnership, association  
44 or state, a political subdivision of this state, a commission, the United

1 States government or any federal facility, interstate body or other  
2 entity.

3 ~~28.~~ 34. "Point source" means any discernible, confined and discrete  
4 conveyance, including, ~~but not limited to,~~ any pipe, ditch, channel,  
5 tunnel, conduit, well, discrete fissure, container, rolling stock,  
6 concentrated animal feeding operation or vessel or other floating craft  
7 from which pollutants are or may be discharged to ~~navigable waters~~ WOTUS  
8 OR PROTECTED SURFACE WATER. Point source does not include return flows  
9 from irrigated agriculture.

10 ~~29.~~ 35. "Pollutant" means fluids, contaminants, toxic wastes, toxic  
11 pollutants, dredged spoil, solid waste, substances and chemicals,  
12 pesticides, herbicides, fertilizers and other agricultural chemicals,  
13 incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum  
14 products, chemical wastes, biological materials, radioactive materials,  
15 heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining,  
16 industrial, municipal and agricultural wastes or any other liquid, solid,  
17 gaseous or hazardous substances.

18 ~~30.~~ 36. "Postclosure monitoring and maintenance" means those  
19 activities that are conducted after closure notification and that are  
20 necessary to:

21 (a) Keep the facility in compliance with either the aquifer water  
22 quality standards at the applicable point of compliance or, for any  
23 aquifer water quality standard that is exceeded at the time the aquifer  
24 protection permit is issued, the requirement to prevent the facility from  
25 further degrading the aquifer at the applicable point of compliance as  
26 provided under section 49-243, subsection B, paragraph 3.

27 (b) Verify that the actions or controls specified as closure  
28 requirements in an approved closure plan or strategy are routinely  
29 inspected and maintained.

30 (c) Perform any remedial, mitigative or corrective actions or  
31 controls as specified in the aquifer protection permit or perform  
32 corrective action as necessary to comply with this paragraph and article 3  
33 of this chapter.

34 (d) Meet property use restrictions.

35 ~~31.~~ 37. "Practicably" means able to be reasonably done from the  
36 standpoint of technical practicability and, except for pollutants  
37 addressed in section 49-243, subsection I, economically achievable on an  
38 industry-wide basis.

39 38. "PROTECTED SURFACE WATERS" MEANS WATERS OF THE STATE LISTED ON  
40 THE PROTECTED SURFACE WATERS LIST UNDER SECTION 49-221, SUBSECTION G AND  
41 ALL WOTUS.

42 39. "PUBLIC WATERS" MEANS WATERS OF THE STATE OPEN TO OR MANAGED FOR  
43 USE BY MEMBERS OF THE GENERAL PUBLIC.

1           40. "RECHARGE PROJECT" MEANS A FACILITY NECESSARY OR CONVENIENT TO  
2 OBTAIN, DIVERT, WITHDRAW, TRANSPORT, EXCHANGE, DELIVER, TREAT OR STORE  
3 WATER TO INFILTRATE OR REINTRODUCE THAT WATER INTO THE GROUND.

4           ~~32.~~ 41. "Reclaimed water" means water that has been treated or  
5 processed by a wastewater treatment plant or an on-site wastewater  
6 treatment facility.

7           ~~33.~~ 42. "Regulated agricultural activity" means the application of  
8 nitrogen fertilizer or a concentrated animal feeding operation.

9           ~~34.~~ 43. "Safe drinking water act" means the federal safe drinking  
10 water act, as amended (P.L. 93-523; 88 Stat. 1660; 95-190; 91 Stat. 1393).

11           ~~35.~~ 44. "Standards" means water quality standards, pretreatment  
12 standards and toxicity standards established pursuant to this chapter.

13           ~~36.~~ 45. "Standards of performance" means performance standards,  
14 design standards, best management practices, technologically based  
15 standards and other standards, limitations or restrictions established by  
16 the director by rule or by permit condition.

17           ~~37.~~ 46. "Tank" means a stationary device, including a sump, that is  
18 constructed of concrete, steel, plastic, fiberglass, or other non-earthen  
19 material that provides substantial structural support, and that is  
20 designed to contain an accumulation of solid, liquid or gaseous materials.

21           ~~38.~~ 47. "Toxic pollutant" means a substance that will cause  
22 significant adverse reactions if ingested in drinking water. Significant  
23 adverse reactions are reactions that may indicate a tendency of a  
24 substance or mixture to cause long lasting or irreversible damage to human  
25 health.

26           ~~39.~~ 48. "Trade secret" means information to which all of the  
27 following apply:

28           (a) A person has taken reasonable measures to protect from  
29 disclosure and the person intends to continue to take such measures.

30           (b) The information is not, and has not been, reasonably obtainable  
31 without the person's consent by other persons, other than governmental  
32 bodies, by use of legitimate means, other than discovery based on a  
33 showing of special need in a judicial or quasi-judicial proceeding.

34           (c) No statute specifically requires disclosure of the information  
35 to the public.

36           (d) The person has satisfactorily shown that disclosure of the  
37 information is likely to cause substantial harm to the business's  
38 competitive position.

39           ~~40.~~ 49. "Vadose zone" means the zone between the ground surface and  
40 any aquifer.

41           ~~41.~~ 50. "Waters of the state" means all waters within the  
42 jurisdiction of this state including all perennial or intermittent  
43 streams, lakes, ponds, impounding reservoirs, marshes, watercourses,  
44 waterways, wells, aquifers, springs, irrigation systems, drainage systems  
45 and other bodies or accumulations of surface, underground, natural,

1 artificial, public or private water situated wholly or partly in or  
2 bordering on the state.

3 ~~42.~~ 51. "Well" means a bored, drilled or driven shaft, pit or hole  
4 whose depth is greater than its largest surface dimension.

5 52. "WETLAND" MEANS, FOR THE PURPOSES OF NON-WOTUS PROTECTED SURFACE  
6 WATERS, AN AREA THAT IS INUNDATED OR SATURATED BY SURFACE OR GROUNDWATER  
7 AT A FREQUENCY AND DURATION SUFFICIENT TO SUPPORT, AND UNDER NORMAL  
8 CONDITIONS DOES SUPPORT, A PREVALENCE OF VEGETATION TYPICALLY ADAPTED FOR  
9 LIFE IN SATURATED SOIL CONDITIONS.

10 53. "WOTUS" MEANS WATERS OF THE STATE THAT ARE ALSO NAVIGABLE WATERS  
11 AS DEFINED BY SECTION 502(7) OF THE CLEAN WATER ACT.

12 54. "WOTUS PROTECTED SURFACE WATER" MEANS A PROTECTED SURFACE WATER  
13 THAT IS A WOTUS.

14 Sec. 3. Section 49-202, Arizona Revised Statutes, is amended to  
15 read:

16 49-202. Designation of state agency

17 A. The department is designated as the agency for this state for  
18 all purposes of the clean water act, including section 505, the resource  
19 conservation and recovery act, including section 7002, and the safe  
20 drinking water act. The department may take all actions necessary to  
21 administer and enforce these acts as provided in this section, including  
22 entering into contracts, grants and agreements, ~~the adoption, modification~~  
23 ~~ADOPTING, MODIFYING~~ or ~~repeat of~~ ~~REPEALING~~ rules, and initiating  
24 administrative and judicial actions to secure to this state the benefits,  
25 rights and remedies of such acts.

26 B. The department shall process requests under section 401 of the  
27 clean water act for certification of permits required by section 404 of  
28 the clean water act in accordance with subsections C through ~~H~~ I of this  
29 section. Subsections C, ~~and D, subsection E, paragraph 3, subsection F,~~  
30 ~~paragraph 3~~ G and ~~subsection H~~ I of this section apply to the  
31 certification of nationwide or general permits issued under section 404 of  
32 the clean water act. If the department has denied or failed to act on  
33 certification of a nationwide permit or general permit, subsections C  
34 through ~~H~~ I of this section apply to the certification of applications  
35 for or notices of coverage under those permits.

36 C. The department shall review the application for section 401  
37 certification solely to determine whether the effect of the discharge will  
38 comply with the water quality standards for ~~navigable waters~~ WOTUS  
39 established by department rules adopted pursuant to section 49-221,  
40 subsection A, and section 49-222. The department's review shall extend  
41 only to activities conducted within the ordinary high watermark of  
42 ~~navigable waters~~ WOTUS. To the extent that any other standards are  
43 considered applicable pursuant to section 401(a)(1) of the clean water  
44 act, certification of these standards is waived.

1 D. The department may include only those conditions on  
2 certification under section 401 of the clean water act that are required  
3 to ensure compliance with the standards identified in subsection C of this  
4 section. The department may impose reporting and monitoring requirements  
5 as conditions of certification under section 401 of the clean water act  
6 only in accordance with department rules.

7 ~~E. Until January 1, 1999:~~

8 ~~1. The department may request supplemental information from the~~  
9 ~~section 401 certification applicant if the information is necessary to~~  
10 ~~make the certification determination pursuant to subsection C of this~~  
11 ~~section. The department shall request this information in writing within~~  
12 ~~thirty calendar days after receipt of the application for section 401~~  
13 ~~certification. The request shall specifically describe the information~~  
14 ~~requested. Within fifteen calendar days after receipt of the applicant's~~  
15 ~~written response to a request for supplemental information, the department~~  
16 ~~shall either issue a written determination that the application is~~  
17 ~~complete or request specific additional information. The applicant may~~  
18 ~~deem any additional requests for supplemental information as a denial of~~  
19 ~~certification for purposes of subsection H of this section. If the~~  
20 ~~department fails to act within the time limits prescribed by this~~  
21 ~~subsection, the application is deemed complete.~~

22 ~~2. The department shall grant or deny section 401 certification and~~  
23 ~~shall send a written notice of the department's decision to the applicant~~  
24 ~~within thirty calendar days after receipt of a complete application for~~  
25 ~~certification. Written notice of a denial of section 401 certification~~  
26 ~~shall include a detailed description of the reasons for denial.~~

27 ~~3. The department may waive its right to certification by giving~~  
28 ~~written notice of that waiver to the applicant. The department's failure~~  
29 ~~to grant or deny an application within the time limits prescribed by this~~  
30 ~~section is deemed a waiver of certification pursuant to this subsection~~  
31 ~~and section 401(a)(2) of the clean water act.~~

32 ~~F. Beginning January 1, 1999:~~

33 ~~1. E.~~ E. The department may request supplemental information from the  
34 section 401 certification applicant if the information is necessary to  
35 make the certification determination pursuant to subsection C of this  
36 section. The department shall request this information in writing. The  
37 request shall specifically describe the information requested. After  
38 receipt of the applicant's written response to a request for supplemental  
39 information, the department shall either issue a written determination  
40 that the application is complete or request specific additional  
41 information. The applicant may deem any additional requests for  
42 supplemental information as a denial of certification for THE purposes of  
43 subsection ~~H~~ I of this section. In all other instances, the application  
44 is complete on submission of the information requested by the department.

1           ~~F.~~ F. The department shall grant or deny section 401 certification  
2 and shall send a written notice of the department's decision to the  
3 applicant after receipt of a complete application for certification.  
4 Written notice of a denial of section 401 certification shall include a  
5 detailed description of the reasons for denial.

6           ~~G.~~ G. The department may waive its right to certification by  
7 giving written notice of that waiver to the applicant. The department's  
8 failure to act on an application is deemed a waiver pursuant to this  
9 subsection and section 401(a)(2) of the clean water act.

10          ~~H.~~ H. The department shall adopt rules specifying the information  
11 the department requires an applicant to submit under this section in order  
12 to make the determination required by subsections C and D of this  
13 section. Until these rules are adopted, the department shall require an  
14 applicant to submit only the following information for certification under  
15 this section:

- 16           1. The name, address and telephone number of the applicant.
- 17           2. A description of the project to be certified, including an  
18 identification of the ~~navigable waters~~ WOTUS in which the certified  
19 activities will occur.
- 20           3. The project location, including latitude, longitude and a legal  
21 description.
- 22           4. A United States geological service topographic map or other  
23 contour map of the project area, if available.
- 24           5. A map delineating the ordinary high watermark of ~~navigable~~  
25 ~~waters~~ WOTUS affected by the activity to be certified.
- 26           6. A description of any measures to be applied to the activities  
27 being certified in order to control the discharge of pollutants to  
28 ~~navigable waters~~ WOTUS from those activities.
- 29           7. A description of the materials being discharged to or placed in  
30 ~~navigable waters~~ WOTUS.
- 31           8. A copy of the application for a federal permit or license that  
32 is the subject of the requested certification.

33          ~~I.~~ I. Pursuant to title 41, chapter 6, article 10 an applicant for  
34 certification may appeal a denial of certification or any conditions  
35 imposed on certification. Any person who is or may be adversely affected  
36 by the denial of or imposition of conditions on the certification of a  
37 nationwide or general permit may appeal that decision pursuant to title  
38 41, chapter 6, article 10.

39          ~~J.~~ J. Certification under section 401 of the clean water act is  
40 automatically granted for quarrying, crushing and screening of nonmetallic  
41 minerals in ephemeral waters if all of the following conditions are  
42 satisfied within the ordinary high watermark of jurisdictional waters:

- 43           1. There is no disposal of construction and demolition wastes and  
44 contaminated wastewater.

1           2. Water for dust suppression, if used, does not contain  
2 contaminants that could violate water quality standards.

3           3. Pollution from the operation of equipment in the mining area is  
4 removed and properly disposed.

5           4. Stockpiles of processed materials containing ten ~~per cent~~  
6 PERCENT or more of particles of silt are placed or stabilized to minimize  
7 loss or erosion during flow events. ~~As used in~~ FOR THE PURPOSES OF this  
8 paragraph, "silt" means particles finer than 0.0625 millimeter diameter on  
9 a dry weight basis.

10          5. Measures are implemented to minimize upstream and downstream  
11 scour during flood events to protect the integrity of buried pipelines.

12          6. On completion of quarrying operations in an area, areas denuded  
13 of shrubs and woody vegetation are revegetated to the maximum extent  
14 practicable.

15          ~~J.~~ K. For THE purposes of subsection ~~I~~ J of this section,  
16 "ephemeral waters" means waters of the state that have been designated as  
17 ephemeral in rules adopted by the department.

18          ~~K.~~ L. Certification under section 401 of the clean water act is  
19 automatically granted for any license or permit required for:

20           1. Corrective actions taken pursuant to chapter 6, article 1 of  
21 this title in response to a release of a regulated substance as defined in  
22 section 49-1001 except for those off-site facilities that receive for  
23 treatment or disposal materials that are contaminated with a regulated  
24 substance and that are received as part of a corrective action.

25           2. Response or remedial actions undertaken pursuant to chapter 2,  
26 article 5 of this title or pursuant to CERCLA.

27           3. Corrective actions taken pursuant to chapter 5, article 1 of  
28 this title or the resource conservation AND recovery act of 1976, as  
29 amended (42 United States Code sections 6901 through 6992).

30           4. Other remedial actions that have been reviewed and approved by  
31 the appropriate government authority and taken pursuant to applicable  
32 federal or state laws.

33          ~~I.~~ M. The department of environmental quality is designated as the  
34 state water pollution control agency for this state for all purposes of  
35 CERCLA, except that the department of water resources has joint authority  
36 with the department of environmental quality to conduct feasibility  
37 studies and remedial investigations relating to groundwater quality and  
38 may enter into contracts and cooperative agreements under section 104 of  
39 CERCLA for such studies and remedial investigations. The department of  
40 environmental quality may take all action necessary or appropriate to  
41 secure to this state the benefits of the act, and all such action shall be  
42 taken at the direction of the director of environmental quality as ~~his~~ THE  
43 DIRECTOR'S duties are prescribed in this chapter.

44          ~~M.~~ N. The director and the department of environmental quality may  
45 enter into an interagency contract or agreement with the director of water

1 resources under title 11, chapter 7, article 3 to implement the provisions  
2 of section 104 of CERCLA and to carry out the purposes of subsection ~~4~~ M  
3 of this section.

4 Sec. 4. Section 49-202.01, Arizona Revised Statutes, is amended to  
5 read:

6 49-202.01. Surface water quality general grazing permit; best  
7 management practices for grazing activities;  
8 definition

9 A. As part of the duties established pursuant to section 49-203,  
10 subsection A, paragraph ~~3~~ 4, the director shall implement a surface water  
11 quality general grazing permit consisting of voluntary best management  
12 practices for grazing activities.

13 B. The terms and conditions of the surface water quality general  
14 grazing permit shall be voluntary best management practices that have been  
15 determined by the committee to be the most practical and effective means  
16 of reducing or preventing the nonpoint source discharge of pollutants into  
17 ~~navigable waters~~ WOTUS by grazing activities.

18 C. In adopting voluntary grazing best management practices, the  
19 committee shall consider:

20 1. The availability and effectiveness of alternative technologies.

21 2. The economic and social impacts of alternative technologies on  
22 grazing and associated industries.

23 3. The institutional considerations of alternative technologies.

24 4. The potential nature and severity of discharges from grazing  
25 activities and their effect on ~~navigable waters~~ WOTUS.

26 D. For the purposes of this section, "grazing activities" means the  
27 feeding of all classes of domestic ruminant and nonruminant animals on  
28 grasses, forbs and shrubs in Arizona watersheds.

29 Sec. 5. Section 49-203, Arizona Revised Statutes, is amended to  
30 read:

31 49-203. Powers and duties of the director and department

32 A. The director shall:

33 1. Adopt, by rule, water quality standards in the form and subject  
34 to the considerations prescribed by article 2 of this chapter.

35 2. Adopt, by rule, a permit program FOR WOTUS that is consistent  
36 with but ~~no~~ NOT more stringent than the requirements of the clean water  
37 act for the point source discharge of any pollutant or combination of  
38 pollutants into ~~navigable waters~~ WOTUS. The program and the rules shall  
39 be sufficient to enable this state to administer the permit program  
40 identified in section 402(b) of the clean water act, including the sewage  
41 sludge requirements of section 405 of the clean water act and as  
42 prescribed by article 3.1 of this chapter.

43 3. APPLY THE PROGRAM AND RULES AUTHORIZED UNDER PARAGRAPH 2 OF THIS  
44 SUBSECTION TO POINT SOURCE DISCHARGES TO NON-WOTUS PROTECTED SURFACE  
45 WATERS, CONSISTENT WITH SECTION 49-255.04, WHICH ESTABLISHES THE PROGRAM

1 COMPONENTS AND RULES THAT DO NOT APPLY TO NON-WOTUS PROTECTED SURFACE  
2 WATERS. THE FOLLOWING ARE EXEMPT FROM THE NON-WOTUS PROTECTED SURFACE  
3 WATERS POINT SOURCE DISCHARGE PROGRAM:

4 (a) DISCHARGES TO A NON-WOTUS PROTECTED SURFACE WATER INCIDENTAL TO  
5 A RECHARGE PROJECT.

6 (b) ESTABLISHED OR ONGOING FARMING, RANCHING AND SILVICULTURE  
7 ACTIVITIES SUCH AS PLOWING, SEEDING, CULTIVATING, MINOR DRAINAGE OR  
8 HARVESTING FOR THE PRODUCTION OF FOOD, FIBER OR FOREST PRODUCTS OR UPLAND  
9 SOIL AND WATER CONSERVATION PRACTICES.

10 (c) MAINTENANCE BUT NOT CONSTRUCTION OF DRAINAGE DITCHES.

11 (d) CONSTRUCTION AND MAINTENANCE OF IRRIGATION DITCHES.

12 (e) MAINTENANCE OF STRUCTURES SUCH AS DAMS, DIKES AND LEVEES.

13 ~~5-~~ 4. Adopt, by rule, a program to control nonpoint source  
14 discharges of any pollutant or combination of pollutants into ~~navigable~~  
15 ~~waters~~ WOTUS.

16 ~~4-~~ 5. Adopt, by rule, an aquifer protection permit program to  
17 control discharges of any pollutant or combination of pollutants that are  
18 reaching or may with a reasonable probability reach an aquifer. The  
19 permit program shall be as prescribed by article 3 of this chapter.

20 ~~5-~~ 6. Adopt, by rule, the permit program for underground injection  
21 control described in the safe drinking water act.

22 ~~6-~~ 7. Adopt, by rule, technical standards for conveyances of  
23 reclaimed water and a permit program for the direct reuse of reclaimed  
24 water.

25 ~~7-~~ 8. Adopt, by rule or as permit conditions, discharge  
26 limitations, best management practice standards, new source performance  
27 standards, toxic and pretreatment standards and other standards and  
28 conditions as reasonable and necessary to carry out the permit programs  
29 and regulatory duties described in paragraphs 2 through ~~5-~~ 6 of this  
30 subsection.

31 ~~8-~~ 9. Assess and collect fees to revoke, issue, deny, modify or  
32 suspend permits issued pursuant to this chapter and to process permit  
33 applications. The director may also assess and collect costs reasonably  
34 necessary if the director must conduct sampling or monitoring relating to  
35 a facility because the owner or operator of the facility has refused or  
36 failed to do so on order by the director. The director shall set fees  
37 that are reasonably related to the department's costs of providing the  
38 service for which the fee is charged. Monies collected from aquifer  
39 protection permit fees and from Arizona pollutant discharge elimination  
40 system permit fees shall be deposited, pursuant to sections 35-146 and  
41 35-147, in the water quality fee fund established by section 49-210.  
42 Monies from other permit fees shall be deposited, pursuant to sections  
43 35-146 and 35-147, in the water quality fee fund unless otherwise provided  
44 by law. Monies paid by an applicant for review by consultants for the  
45 department pursuant to section 49-241.02, subsection D shall be deposited,

1 pursuant to sections 35-146 and 35-147, in the water quality fee fund  
2 established by section 49-210. State agencies are exempt from all fees  
3 imposed pursuant to this chapter except for those fees associated with the  
4 dredge and fill permit program established pursuant to article 3.2 of this  
5 chapter. For services provided under the dredge and fill permit program,  
6 a state agency shall pay either:

7 (a) The fees established by the department under the dredge and  
8 fill permit program.

9 (b) The reasonable cost of services provided by the department  
10 pursuant to an interagency service agreement.

11 ~~9.~~ 10. Adopt, modify, repeal and enforce other rules that are  
12 reasonably necessary to carry out the director's functions under this  
13 chapter.

14 ~~10.~~ 11. Require monitoring at an appropriate point of compliance  
15 for any organic or inorganic pollutant listed under section 49-243,  
16 subsection I if the director has reason to suspect the presence of the  
17 pollutant in a discharge.

18 ~~11.~~ 12. Adopt rules establishing what constitutes a significant  
19 increase or adverse alteration in the characteristics or volume of  
20 pollutants discharged for purposes of determining what constitutes a major  
21 modification to an existing facility under the definition of new facility  
22 pursuant to section 49-201. Before the adoption of these rules, the  
23 director shall determine whether a change at a particular facility results  
24 in a significant increase or adverse alteration in the characteristics or  
25 volume of pollutants discharged on a case-by-case basis, taking into  
26 account site conditions and operational factors.

27 13. CONSIDER EVIDENCE GATHERED BY THE ARIZONA NAVIGABLE STREAM  
28 ADJUDICATION COMMISSION ESTABLISHED BY SECTION 37-1121 WHEN DECIDING  
29 WHETHER A PERMIT IS REQUIRED TO DISCHARGE PURSUANT TO ARTICLE 3.1 OF THIS  
30 CHAPTER.

31 B. The director may:

32 1. On presentation of credentials, enter into, on or through any  
33 public or private property from which a discharge has occurred, is  
34 occurring or may occur or on which any disposal, land application of  
35 sludge or treatment regulated by this chapter has occurred, is occurring  
36 or may be occurring and any public or private property where records  
37 relating to a discharge or records that are otherwise required to be  
38 maintained as prescribed by this chapter are kept, as reasonably necessary  
39 to ensure compliance with this chapter. The director or a department  
40 employee may take samples, inspect and copy records required to be  
41 maintained pursuant to this chapter, inspect equipment, activities,  
42 facilities and monitoring equipment or methods of monitoring, take  
43 photographs and take other action reasonably necessary to determine the  
44 application of, or compliance with, this chapter. The owner or managing  
45 agent of the property shall be afforded the opportunity to accompany the

1 director or department employee during inspections and investigations, but  
2 prior notice of entry to the owner or managing agent is not required if  
3 reasonable grounds exist to believe that notice would frustrate the  
4 enforcement of this chapter. If the director or department employee  
5 obtains any samples before leaving the premises, the director or  
6 department employee shall give the owner or managing agent a receipt  
7 describing the samples obtained and a portion of each sample equal in  
8 volume or weight to the portion retained. If an analysis is made of  
9 samples, or monitoring and testing are performed, a copy of the results  
10 shall be furnished promptly to the owner or managing agent.

11 2. Require any person who has discharged, is discharging or may  
12 discharge into the waters of the state under article 3, 3.1, ~~or~~ 3.2 or 3.3  
13 of this chapter and any person who is subject to pretreatment standards  
14 and requirements or sewage sludge use or disposal requirements under  
15 article 3.1 of this chapter to collect samples, to establish and maintain  
16 records, including photographs, and to install, use and maintain sampling  
17 and monitoring equipment to determine the absence or presence and nature  
18 of the discharge or indirect discharge or sewage sludge use or disposal.

19 3. Administer state or federal grants, including grants to  
20 political subdivisions of this state, for the construction and  
21 installation of publicly and privately owned pollutant treatment works and  
22 pollutant control devices and establish grant application priorities.

23 4. Develop, implement and administer a water quality planning  
24 process, including a ranking system for applicant eligibility, wherein  
25 appropriated state monies and available federal monies are awarded to  
26 political subdivisions of this state to support or assist regional water  
27 quality planning programs and activities.

28 5. Enter into contracts and agreements with the federal government  
29 to implement federal environmental statutes and programs.

30 6. Enter into intergovernmental agreements pursuant to title 11,  
31 chapter 7, article 3 if the agreement is necessary to more effectively  
32 administer the powers and duties described in this chapter.

33 7. Participate in, conduct and contract for studies,  
34 investigations, research and demonstrations relating to the causes,  
35 minimization, prevention, correction, abatement, mitigation, elimination,  
36 control and remedy of discharges and collect and disseminate information  
37 relating to discharges.

38 8. File bonds or other security as required by a court in any  
39 enforcement actions under article 4 of this chapter.

40 9. Adopt by rule a permit program for the discharge of dredged or  
41 fill material into ~~navigable waters~~ WOTUS for purposes of implementing the  
42 permit program established by 33 United States Code section 1344.

43 C. Subject to section 38-503 and other applicable statutes and  
44 rules, the department may contract with a private consultant ~~for the~~  
45 ~~purposes of assisting~~ TO ASSIST the department in reviewing aquifer

1 protection permit applications and on-site wastewater treatment facilities  
2 to determine whether a facility meets the criteria and requirements of  
3 this chapter and the rules adopted by the director. Except as provided in  
4 section 49-241.02, subsection D, the department shall not use a private  
5 consultant if the fee charged for that service would be greater than the  
6 fee the department would charge to provide that service. The department  
7 shall pay the consultant for the services rendered by the consultant from  
8 fees paid by the applicant or facility to the department pursuant to  
9 subsection A, paragraph ~~8~~ 9 of this section.

10 D. The director shall integrate all of the programs authorized in  
11 this section and other programs affording water quality protection that  
12 are administered by the department for purposes of administration and  
13 enforcement and shall avoid duplication and dual permitting to the maximum  
14 extent practicable.

15 Sec. 6. Section 49-210, Arizona Revised Statutes, is amended to  
16 read:

17 49-210. Water quality fee fund; appropriation; exemption;  
18 monies held in trust

19 A. The water quality fee fund is established consisting of monies  
20 appropriated by the legislature and fees received pursuant to sections  
21 49-104, 49-203, 49-241, 49-241.02, 49-242, 49-255.01, 49-332, 49-352,  
22 49-353 and 49-361. The director shall administer the fund.

23 B. Monies in the fund are subject to annual legislative  
24 appropriation to the department for water quality programs. Monies in the  
25 fund are exempt from the provisions of section 35-190 relating to lapsing  
26 of appropriations.

27 C. On notice from the director, the state treasurer shall invest  
28 and divest monies in the fund as provided by section 35-313, and monies  
29 earned from investment shall be credited to the fund.

30 D. Monies in the water quality fee fund shall be used for the  
31 following purposes:

32 1. ~~The issuance of~~ TO ISSUE aquifer protection permits pursuant to  
33 section 49-241.

34 2. The aquifer protection permit registration fee procedures  
35 pursuant to section 49-242.

36 3. Dry well registration fee procedures pursuant to section 49-332.

37 4. Technical review fee procedures pursuant to section 49-353.

38 5. Inspection fee procedures pursuant to section 49-104,  
39 subsection C.

40 6. ~~The issuance of~~ TO ISSUE permits under the Arizona pollutant  
41 discharge elimination system program pursuant to section 49-255.01.

42 7. Operator certification pursuant to sections 49-352 and 49-361.

43 8. Paying the cost of implementing section 49-203, subsection A,  
44 paragraph ~~6~~ 7 and section 49-221, subsection E.

1 9. Water quality monitoring pursuant to section 49-225 and  
2 reporting of aquifer pollution information pursuant to section 49-249.

3 10. ~~Implementation TO IMPLEMENT~~ and ~~administration of ADMINISTER~~  
4 the underground injection control permit program established pursuant to  
5 article 3.3 of this chapter.

6 11. ~~Implementation TO IMPLEMENT~~ and ~~administration of ADMINISTER~~  
7 the dredge and fill permit program established pursuant to article 3.2 of  
8 this chapter, including review and analysis for issuing jurisdictional  
9 determinations.

10 E. Any fee, assessment or other levy that is authorized by law or  
11 administrative rule and that is collected and deposited in the water  
12 quality fee fund shall be held in trust. The monies in the fund may be  
13 used only for the purposes prescribed by statute and shall not be  
14 appropriated or transferred by the legislature to fund the general  
15 operations of this state or to otherwise meet the obligations of the  
16 general fund of this state. This subsection does not apply to any taxes  
17 or other levies that are imposed pursuant to title 42 or 43.

18 Sec. 7. Section 49-221, Arizona Revised Statutes, is amended to  
19 read:

20 49-221. Water quality standards in general; protected surface  
21 waters list

22 A. The director shall:

23 1. Adopt, by rule, water quality standards for all ~~navigable~~  
24 ~~waters~~ WOTUS and for all waters in all aquifers to preserve and protect  
25 the quality of those waters for all present and reasonably foreseeable  
26 future uses. FOR NON-WOTUS PROTECTED SURFACE WATERS, THE DIRECTOR SHALL  
27 APPLY SURFACE WATER QUALITY STANDARDS ESTABLISHED AS OF JANUARY 1, 2021,  
28 UNTIL SPECIFICALLY CHANGED BY THE DIRECTOR PURSUANT TO PARAGRAPH 2 OF THIS  
29 SUBSECTION. RULES REGARDING THE FOLLOWING SHALL NOT BE ADOPTED OR APPLIED  
30 AS WATER QUALITY STANDARDS FOR NON-WOTUS PROTECTED SURFACE WATERS:

- 31 (a) ANTIDEGRADATION.
- 32 (b) ANTIDEGRADATION CRITERIA.
- 33 (c) OUTSTANDING ARIZONA WATERS.

34 2. ADOPT, BY RULE, WATER QUALITY STANDARDS FOR NON-WOTUS PROTECTED  
35 SURFACE WATERS, BY DECEMBER 31, 2022, CONSISTENT WITH PARAGRAPH 1 OF THIS  
36 SUBSECTION AND AS DETERMINED NECESSARY IN THE RULEMAKING PROCESS. IN  
37 ADOPTING THOSE STANDARDS, THE DIRECTOR SHALL CONSIDER THE UNIQUE  
38 CHARACTERISTICS OF THIS STATE'S SURFACE WATERS AND THE ECONOMIC, SOCIAL  
39 AND ENVIRONMENTAL COSTS AND BENEFITS THAT WOULD RESULT FROM THE ADOPTION  
40 OF A WATER QUALITY STANDARD AT A PARTICULAR LEVEL OR FOR A PARTICULAR  
41 WATER CATEGORY.

42 B. The director may adopt, by rule, water quality standards for  
43 waters of the state other than those described in subsection A of this  
44 section, including standards for the use of water pumped from an aquifer  
45 that does not meet the standards adopted pursuant to section 49-223,

1 subsections A and B and that is put to a beneficial use other than  
2 drinking water. These standards may include standards for the use of  
3 water pumped as part of a remedial action. In adopting such standards,  
4 the director shall consider the economic, social and environmental costs  
5 and benefits that would result from the adoption of a water quality  
6 standard at a particular level or for a particular water category.

7 C. In setting standards pursuant to subsection A or B of this  
8 section, the director shall consider, ~~but not be limited to,~~ the  
9 following:

10 1. The protection of the public health and the environment.

11 2. The uses that have been made, are being made or with reasonable  
12 probability may be made of these waters.

13 3. The provisions and requirements of the clean water act and safe  
14 drinking water act and the regulations adopted pursuant to those acts.

15 4. The degree to which standards for one category of waters could  
16 cause violations of standards for other, hydrologically connected, water  
17 categories.

18 5. Guidelines, action levels or numerical criteria adopted or  
19 recommended by the United States environmental protection agency or any  
20 other federal agency.

21 6. Any unique physical, biological or chemical properties of the  
22 waters.

23 D. Water quality standards shall be expressed in terms of the uses  
24 to be protected and, if adequate information exists to do so, numerical  
25 limitations or parameters, in addition to any narrative standards that the  
26 director deems appropriate.

27 E. The director may adopt by rule water quality standards for the  
28 direct reuse of reclaimed water. In establishing these standards, the  
29 director shall consider the following:

30 1. The protection of public health and the environment.

31 2. The uses that are being made or may be made of the reclaimed  
32 water.

33 3. The degree to which standards for the direct reuse of reclaimed  
34 water may cause violations of water quality standards for other  
35 hydrologically connected water categories.

36 F. If the director proposes to adopt water quality standards for  
37 agricultural water, the director shall consult, cooperate, collaborate  
38 and, if necessary, enter into interagency agreements and memoranda of  
39 understanding with the Arizona department of agriculture relating to its  
40 administration, ~~pursuant to title 3, chapter 3, article 4.1,~~ of this  
41 state's authority relating to agricultural water under the United States  
42 food and drug administration produce safety rule (21 Code of Federal  
43 Regulations part 112, subpart E) and any other federal produce safety  
44 regulation, order or guideline or other requirement adopted pursuant to

1 the FDA food safety modernization act (P.L. 111-353; 21 United States Code  
2 sections 2201 through 2252). For the purposes of this subsection:

3 1. "Agricultural water":

4 (a) Means water that is used in a covered activity on produce where  
5 water is intended to, or is likely to, contact produce or food contact  
6 surfaces.

7 (b) Includes all of the following:

8 (i) Water used in growing activities, including irrigation water,  
9 water used for preparing crop sprays and water used for growing sprouts.

10 (ii) Water used in harvesting, packing and holding activities,  
11 including water used for washing or cooling harvested produce and water  
12 used for preventing dehydration of produce.

13 2. "Covered activity" means growing, harvesting, packing or holding  
14 produce. Covered activity includes processing produce to the extent that  
15 the activity is within the meaning of farm as defined in section 3-525.

16 3. "Harvesting" has the same meaning prescribed in section 3-525.

17 4. "Holding" has the same meaning prescribed in section 3-525.

18 5. "Packing" has the same meaning prescribed in section 3-525.

19 6. "Produce" has the same meaning prescribed in section 3-525.

20 G. THE DIRECTOR SHALL MAINTAIN AND PUBLISH A PROTECTED SURFACE  
21 WATERS LIST. THE DEPARTMENT SHALL PUBLISH THE INITIAL LIST ON THE  
22 DEPARTMENT'S WEBSITE AND IN THE ARIZONA ADMINISTRATIVE REGISTER WITHIN  
23 THIRTY DAYS AFTER THE EFFECTIVE DATE OF THIS AMENDMENT TO THIS SECTION.  
24 NOT LATER THAN DECEMBER 31, 2022, THE DEPARTMENT SHALL ADOPT BY RULE THE  
25 PROTECTED SURFACE WATERS LIST, INCLUDING PROCEDURES FOR DETERMINING  
26 ECONOMIC, SOCIAL AND ENVIRONMENTAL COSTS AND BENEFITS. PUBLICATION OF THE  
27 LIST IN THE ARIZONA ADMINISTRATIVE REGISTER IS AN APPEALABLE AGENCY ACTION  
28 PURSUANT TO TITLE 41, CHAPTER 6, ARTICLE 10 AND MAY BE APPEALED BY ANY  
29 PARTY THAT PROVIDES EVIDENCE OF AN ACTUAL ADVERSE EFFECT THAT THE PARTY  
30 APPEALING THE DECISION WOULD SUFFER AS A RESULT OF THE DIRECTOR'S  
31 DECISION. ALL OF THE FOLLOWING APPLY TO THE PROTECTED SURFACE WATER LIST:

32 1. THE PROTECTED SURFACE WATERS LIST SHALL INCLUDE:

33 (a) ALL WOTUS.

34 (b) ANY PERENNIAL, INTERMITTENT AND EPHEMERAL REACHES AND ANY  
35 IMPOUNDMENTS OF THE FOLLOWING RIVERS, NOT INCLUDING TRIBUTARIES OR REACHES  
36 OF WATERS WHOLLY WITHIN TRIBAL JURISDICTION OR REACHES OF WATERS OUTSIDE  
37 OF THE UNITED STATES:

38 (i) THE BILL WILLIAMS RIVER, FROM THE CONFLUENCE OF THE BIG SANDY  
39 AND SANTA MARIA RIVERS AT 113°31'38.617"W, 34°18'22.373"N, TO ITS  
40 CONFLUENCE WITH THE COLORADO RIVER AT 114°8'9.854"W, 34°18'9.33"N.

41 (ii) THE COLORADO RIVER, FROM THE ARIZONA-UTAH BORDER AT  
42 111°32'35.741"W, 36°58'51.698"N, TO THE ARIZONA-MEXICO BORDER AT 114°  
43 43'12.564"W, 32°43'6.218"N.

1 (iii) THE GILA RIVER, FROM THE ARIZONA-NEW MEXICO BORDER AT  
2 109°2'52.8"W, 32°41'11.2015"N, TO THE CONFLUENCE WITH THE COLORADO RIVER  
3 AT 114°33'28.145"W, 32°43'14.408"N.

4 (iv) THE LITTLE COLORADO RIVER, FROM THE CONFLUENCE OF THE EAST AND  
5 WEST FORKS OF THE LITTLE COLORADO RIVER AT 109°28'7.131"W, 33°59'39.852"N,  
6 TO ITS CONFLUENCE WITH THE COLORADO RIVER AT 111°49'4.693"W,  
7 36°12'10.243"N.

8 (v) THE SALT RIVER, FROM THE CONFLUENCE OF THE BLACK AND WHITE  
9 RIVERS AT 110°13'39.5"W, 33°44'6.082"N, TO THE CONFLUENCE WITH THE GILA  
10 RIVER AT 112°18'5.704"W, 33°22'42.978"N.

11 (vi) THE SAN PEDRO RIVER, FROM THE ARIZONA-MEXICO BORDER AT  
12 110°9'1.704"W, 31°20'2.387"N, TO THE CONFLUENCE WITH THE GILA RIVER AT  
13 110°47'0.905"W, 32°59'5.671"N.

14 (vii) THE SANTA CRUZ RIVER, FROM ITS ORIGINS IN THE CANELO HILLS OF  
15 SOUTHEASTERN ARIZONA AT 110°37'3.968"W, 31°27'39.21"N, TO ITS CONFLUENCE  
16 WITH THE GILA RIVER AT 111°33'26.02"W, 32°41'39.058"N.

17 (viii) THE VERDE RIVER, FROM SULLIVAN LAKE AT 112°28'10.588"W,  
18 34°52'11.136"N, TO ITS CONFLUENCE WITH THE SALT RIVER AT 111°39'48.32"W,  
19 33°33'20.538"N.

20 (c) ANY NON-WOTUS WATERS OF THE STATE THAT ARE ADDED UNDER  
21 PARAGRAPHS 3 AND 4 OF THIS SUBSECTION.

22 2. NOTWITHSTANDING PARAGRAPH 1 OF THIS SUBSECTION, THE PROTECTED  
23 SURFACE WATERS LIST SHALL NOT CONTAIN ANY OF THE FOLLOWING NON-WOTUS  
24 WATERS:

25 (a) CANALS IN THE YUMA PROJECT AND DITCHES, CANALS, PIPES,  
26 IMPOUNDMENTS AND OTHER FACILITIES THAT ARE OPERATED BY DISTRICTS ORGANIZED  
27 UNDER TITLE 48, CHAPTERS 18, 19, 20, 21 AND 22 AND THAT ARE NOT USED TO  
28 DIRECTLY DELIVER WATER FOR HUMAN CONSUMPTION, EXCEPT WHEN ADDED PURSUANT  
29 TO PARAGRAPH 4 OF THIS SUBSECTION AND IN RESPONSE TO A WRITTEN REQUEST  
30 FROM THE OWNER AND OPERATOR OF THE DITCH OR CANAL UNTIL THE OWNER AND  
31 OPERATOR WITHDRAWS ITS REQUEST.

32 (b) IRRIGATED AREAS, INCLUDING FIELDS FLOODED FOR AGRICULTURAL  
33 PRODUCTION.

34 (c) ORNAMENTAL AND URBAN PONDS AND LAKES SUCH AS THOSE OWNED BY  
35 HOMEOWNERS' ASSOCIATIONS AND GOLF COURSES, EXCEPT WHEN ADDED PURSUANT TO  
36 PARAGRAPH 4 OF THIS SUBSECTION AND IN RESPONSE TO A WRITTEN REQUEST FROM  
37 THE OWNER OF THE ORNAMENTAL OR URBAN POND OR LAKE UNTIL THE OWNER  
38 WITHDRAWS ITS REQUEST.

39 (d) SWIMMING POOLS AND OTHER BODIES OF WATER THAT ARE REGULATED  
40 PURSUANT TO SECTION 49-104, SUBSECTION B.

41 (e) LIVESTOCK AND WILDLIFE WATER TANKS AND AQUACULTURE TANKS THAT  
42 ARE NOT CONSTRUCTED WITHIN A PROTECTED SURFACE WATER.

43 (f) STORMWATER CONTROL FEATURES.

44 (g) GROUNDWATER RECHARGE, WATER REUSE AND WASTEWATER RECYCLING  
45 STRUCTURES, INCLUDING UNDERGROUND STORAGE FACILITIES AND GROUNDWATER

1 SAVINGS FACILITIES PERMITTED UNDER TITLE 45, CHAPTER 3.1 AND DETENTION AND  
2 INFILTRATION BASINS, EXCEPT WHEN ADDED PURSUANT TO PARAGRAPH 4 OF THIS  
3 SUBSECTION AND IN RESPONSE TO A WRITTEN REQUEST FROM THE OWNER OF THE  
4 GROUNDWATER RECHARGE, WATER REUSE OR WASTEWATER RECYCLING STRUCTURE UNTIL  
5 THE OWNER WITHDRAWS ITS REQUEST.

6 (h) WATER-FILLED DEPRESSIONS CREATED AS PART OF MINING OR  
7 CONSTRUCTION ACTIVITIES OR PITS EXCAVATED TO OBTAIN FILL, SAND OR GRAVEL.

8 (i) ALL WASTE TREATMENT SYSTEMS COMPONENTS, INCLUDING CONSTRUCTED  
9 WETLANDS, LAGOONS AND TREATMENT PONDS, SUCH AS SETTLING OR COOLING PONDS,  
10 DESIGNED TO EITHER CONVEY OR RETAIN, CONCENTRATE, SETTLE, REDUCE OR REMOVE  
11 POLLUTANTS, EITHER ACTIVELY OR PASSIVELY, FROM WASTEWATER BEFORE DISCHARGE  
12 OR TO ELIMINATE DISCHARGE.

13 (j) GROUNDWATER.

14 (k) EPHEMERAL WATERS EXCEPT FOR THOSE PRESCRIBED IN PARAGRAPH 1,  
15 SUBDIVISION (b) OF THIS SUBSECTION.

16 (l) LAKES AND PONDS OWNED AND MANAGED BY THE UNITED STATES  
17 DEPARTMENT OF DEFENSE AND OTHER SURFACE WATERS LOCATED ON AND THAT DO NOT  
18 LEAVE UNITED STATES DEPARTMENT OF DEFENSE PROPERTY, EXCEPT WHEN ADDED  
19 PURSUANT TO PARAGRAPH 4 OF THIS SUBSECTION AND IN RESPONSE TO A WRITTEN  
20 REQUEST FROM THE UNITED STATES DEPARTMENT OF DEFENSE UNTIL IT WITHDRAWS  
21 ITS REQUEST.

22 3. UNLESS LISTED IN PARAGRAPH 2 OF THIS SUBSECTION, THE DIRECTOR  
23 SHALL ADD THE FOLLOWING NON-WOTUS SURFACE WATERS TO THE PROTECTED SURFACE  
24 WATERS LIST:

25 (a) ALL LAKES, PONDS AND RESERVOIRS THAT ARE PUBLIC WATERS USED AS A  
26 DRINKING SOURCE, FOR RECREATIONAL OR COMMERCIAL FISH CONSUMPTION OR FOR  
27 WATER-BASED RECREATION SUCH AS SWIMMING, WADING AND BOATING AND OTHER  
28 TYPES OF RECREATION IN AND ON THE WATER.

29 (b) PERENNIAL WATERS OR INTERMITTENT WATERS OF THE STATE THAT ARE  
30 USED AS A DRINKING WATER SOURCE, INCLUDING DITCHES AND CANALS.

31 (c) PERENNIAL OR INTERMITTENT TRIBUTARIES TO THE BILL WILLIAMS  
32 RIVER, THE COLORADO RIVER, THE GILA RIVER, THE LITTLE COLORADO RIVER, THE  
33 SALT RIVER, THE SAN PEDRO RIVER, THE SANTA CRUZ RIVER AND THE VERDE RIVER.

34 (d) PERENNIAL OR INTERMITTENT PUBLIC WATERS USED FOR RECREATIONAL OR  
35 COMMERCIAL FISH CONSUMPTION.

36 (e) PERENNIAL OR INTERMITTENT PUBLIC WATERS USED FOR WATER-BASED  
37 RECREATION SUCH AS SWIMMING, WADING, BOATING AND OTHER TYPES OF RECREATION  
38 IN AND ON THE WATER.

39 (f) PERENNIAL OR INTERMITTENT WETLANDS ADJACENT TO WATERS ON THE  
40 PROTECTED SURFACE WATERS LIST.

41 (g) PERENNIAL OR INTERMITTENT WATERS OF THE STATE THAT CROSS INTO  
42 ANOTHER STATE, THE REPUBLIC OF MEXICO OR THE RESERVATION OF A FEDERALLY  
43 RECOGNIZED TRIBE.

44 4. THE DIRECTOR MAY ADD ADDITIONAL NON-WOTUS SURFACE WATERS TO THE  
45 PROTECTED SURFACE WATERS LIST IF ALL OF THE FOLLOWING APPLY:

1 (a) THE WATER IS NOT REQUIRED TO BE LISTED UNDER PARAGRAPH 1 OR 3 OF  
2 THIS SUBSECTION.

3 (b) THE WATER IS NOT EXCLUDED UNDER PARAGRAPH 2 OF THIS SUBSECTION.

4 (c) THE ECONOMIC, ENVIRONMENTAL AND SOCIAL BENEFITS OF ADDING THE  
5 WATER OUTWEIGH THE ECONOMIC, ENVIRONMENTAL AND SOCIAL COSTS OF EXCLUDING  
6 THE WATER FROM THE LIST.

7 5. THE DIRECTOR SHALL REMOVE ANY ERRONEOUSLY LISTED, NON-WOTUS  
8 WATERS FROM THE PROTECTED SURFACE WATERS LIST WHEN THE WATER IS EXCLUDED  
9 UNDER PARAGRAPH 2 OF THIS SUBSECTION AND SHALL NOT REGULATE DISCHARGES TO  
10 THOSE WATERS IN THE INTERIM.

11 6. THE DIRECTOR SHALL REMOVE NON-WOTUS WATERS FROM THE PROTECTED  
12 SURFACE WATERS LIST WHEN THE WATER IS NOT REQUIRED TO BE LISTED UNDER  
13 PARAGRAPH 3 OF THIS SUBSECTION AND THE ECONOMIC, ENVIRONMENTAL AND SOCIAL  
14 BENEFITS OF REMOVING THE WATER OUTWEIGH THE ECONOMIC, ENVIRONMENTAL AND  
15 SOCIAL COSTS OF RETAINING THE WATER ON THE LIST.

16 7. THE DIRECTOR, ON AN EMERGENCY BASIS, MAY ADD A WATER TO THE  
17 PROTECTED SURFACE WATERS LIST IF THE DIRECTOR DISCOVERS AN IMMINENT AND  
18 SUBSTANTIAL DANGER TO PUBLIC HEALTH OR WELFARE OR THE ENVIRONMENT, IF THE  
19 WATER WOULD OTHERWISE QUALIFY TO BE ADDED UNDER PARAGRAPH 3 OF THIS  
20 SUBSECTION. NOTWITHSTANDING ANY OTHER LAW, THE EMERGENCY ADDITION SHALL  
21 TAKE EFFECT IMMEDIATELY ON THE DIRECTOR'S DETERMINATION THAT DESCRIBES THE  
22 IMMINENT AND SUBSTANTIAL DANGER IN WRITING. WITHIN THIRTY DAYS AFTER THE  
23 DIRECTOR'S DETERMINATION, THE DEPARTMENT SHALL PUBLISH A NOTICE OF THAT  
24 DETERMINATION IN THE ARIZONA ADMINISTRATIVE REGISTER AND ON THE  
25 DEPARTMENT'S WEBSITE. WATERS ADDED UNDER THIS SUBSECTION SHALL BE  
26 INCORPORATED INTO THE PROTECTED SURFACE WATERS LIST DURING THE NEXT  
27 RULEMAKING THAT FOLLOWS THE ADDITION.

28 Sec. 8. Section 49-222, Arizona Revised Statutes, is amended to  
29 read:

30 49-222. Water quality standards for WOTUS

31 A. Standards for the quality of ~~navigable waters~~ WOTUS shall assure  
32 water quality, if attainable, which provides for protecting the public  
33 health and welfare, and shall enhance the quality of water taking into  
34 consideration its use and value for public water supplies, the propagation  
35 of fish and wildlife and recreational, agricultural, industrial and other  
36 purposes including navigation.

37 B. ~~Not later than January 1, 1990,~~ The director shall adopt  
38 standards for the quality of all ~~navigable waters which~~ WOTUS THAT  
39 establish numeric limitations on the concentrations of each of the toxic  
40 pollutants listed by the administrator pursuant to section 307 of the  
41 clean water act (33 United States Code section 1317).

42 C. In setting numeric standards for the quality of ~~navigable waters~~  
43 WOTUS, the director may consider the effect of local water quality  
44 characteristics on the toxicity of specific pollutants and the varying  
45 sensitivities of local affected aquatic populations to such pollutants,

1 and the extent to which the natural flow of the stream is intermittent or  
2 ephemeral, as a result of which the instream flow consists mostly of  
3 treated wastewater effluent, except that such standards shall not, in any  
4 event, be inconsistent with the clean water act. In applying such  
5 standards the director may establish appropriate mixing zones.

6 Sec. 9. Section 49-225, Arizona Revised Statutes, is amended to  
7 read:

8 49-225. Water quality monitoring

9 A. The director of environmental quality, with the advice and  
10 cooperation of the Arizona department of agriculture and the director of  
11 water resources when appropriate, shall conduct ongoing monitoring of the  
12 waters of the state including the state's ~~navigable waters~~ WOTUS and  
13 aquifers to detect the presence of new and existing pollutants, determine  
14 compliance with applicable water quality standards, determine the  
15 effectiveness of best management practices, agricultural best management  
16 practices and best available demonstrated control technologies, evaluate  
17 the effects of pollutants on public health or the environment and  
18 determine water quality trends.

19 B. The director shall maintain a statewide database of groundwater  
20 and soils sampled for pollutants. All agencies shall submit to the  
21 director, in a timely manner, the results of any groundwater or soils  
22 sampling for pollutants and the results of any groundwater or soils  
23 sampling that detect any pollutants.

24 C. The director shall establish minimum requirements and schedules  
25 for groundwater and soils sampling that will ensure precise and accurate  
26 results. The requirements shall be distributed to all agencies that  
27 conduct sampling. All sampling conducted shall meet the minimum  
28 requirements established pursuant to this subsection.

29 Sec. 10. Section 49-231, Arizona Revised Statutes, is amended to  
30 read:

31 49-231. Definitions

32 In this article, unless the context otherwise requires:

33 1. "Impaired water" means a ~~navigable~~ PROTECTED SURFACE water for  
34 which credible scientific data exists that satisfies the requirements of  
35 section 49-232, and that, IN THE CASE OF WOTUS, demonstrates that the  
36 water should be identified pursuant to 33 United States Code section  
37 1313(d) and the regulations implementing that statute.

38 2. "Surface water quality standard" means a standard adopted for a  
39 ~~navigable~~ PROTECTED SURFACE water pursuant to ~~sections SECTION 49-221 and~~  
40 ~~49-222 and section 303(c) of the clean water act (33 United States Code~~  
41 ~~section 1313(c)) AND, IN THE CASE OF WOTUS, PURSUANT TO SECTION 49-222.~~

42 3. "TMDL implementation plan" means a written strategy to implement  
43 a total maximum daily load that is developed for an impaired water. TMDL  
44 implementation plans may rely on any combination of the following  
45 components that the department determines will result in achieving and

1 maintaining compliance with applicable surface water quality standards in  
2 the most cost-effective and equitable manner:

- 3 (a) Permit limitations.
- 4 (b) Best management practices.
- 5 (c) Education and outreach efforts.
- 6 (d) Technical assistance.
- 7 (e) Cooperative agreements, voluntary measures and incentive-based  
8 programs.
- 9 (f) Load reductions resulting from other legally required programs  
10 or activities.
- 11 (g) Land management programs.
- 12 (h) Pollution prevention planning, waste minimization or pollutant  
13 trading agreements.
- 14 (i) Other measures deemed appropriate by the department.

15 4. "Total maximum daily load" means an estimation of the total  
16 amount of a pollutant from all sources that may be added to a water while  
17 still allowing the water to achieve and maintain applicable surface water  
18 quality standards. Each total maximum daily load shall include  
19 allocations for sources that contribute the pollutant to the water. ~~as~~  
20 ~~required by~~ TOTAL MAXIMUM DAILY LOADS FOR WOTUS SHALL MEET THE  
21 REQUIREMENTS OF section 303(d) of the clean water act (33 United States  
22 Code section 1313(d)) and regulations implementing that statute to achieve  
23 applicable surface water quality standards. TOTAL MAXIMUM DAILY LOADS FOR  
24 NON-WOTUS PROTECTED SURFACE WATERS SHALL NOT BE SUBJECT TO REVIEW,  
25 APPROVAL OR ENFORCEMENT BY THE UNITED STATES ENVIRONMENTAL PROTECTION  
26 AGENCY.

27 Sec. 11. Section 49-232, Arizona Revised Statutes, is amended to  
28 read:

29 49-232. Lists of impaired waters; data requirements; rules

30 A. At least once every five years, the department shall prepare a  
31 list of impaired ~~waters for the purpose of complying~~ WOTUS TO COMPLY with  
32 section 303(d) of the clean water act (33 United States Code section  
33 1313(d)). The department shall provide public notice and allow for  
34 comment on a draft list of impaired ~~waters~~ WOTUS prior to its submission  
35 to the United States environmental protection agency. The department  
36 shall prepare written responses to comments received on the draft list.  
37 The department shall publish the list of impaired ~~waters~~ WOTUS that it  
38 plans to submit initially to the regional administrator and a summary of  
39 the responses to comments on the draft list in the Arizona administrative  
40 register at least forty-five days before submission of the list to the  
41 regional administrator. Publication of the list in the Arizona  
42 administrative register is an appealable agency action pursuant to title  
43 41, chapter 6, article 10 that may be appealed by any party that submitted  
44 written comments on the draft list. If the department receives a notice  
45 of appeal of a listing pursuant to section ~~41-1092, subsection B~~

1 41.1092.03 within forty-five days ~~of~~ AFTER the publication of the list in  
2 the Arizona administrative register, the department shall not include the  
3 challenged listing in its initial submission to the regional  
4 administrator. The department may subsequently submit the challenged  
5 listing to the regional administrator if the listing is upheld in the  
6 director's final administrative decision pursuant to section 41-1092.08,  
7 or if the challenge to the listing is withdrawn prior to a final  
8 administrative decision.

9 B. ON OR BEFORE DECEMBER 31, 2022 AND AT LEAST ONCE EVERY FIVE  
10 YEARS THEREAFTER, THE DEPARTMENT SHALL PREPARE A LIST OF IMPAIRED  
11 NON-WOTUS PROTECTED SURFACE WATERS. THE DEPARTMENT SHALL PROVIDE PUBLIC  
12 NOTICE AND OPPORTUNITY TO COMMENT ON A DRAFT LIST OF IMPAIRED NON-WOTUS  
13 PROTECTED SURFACE WATERS PREPARED UNDER THIS SUBSECTION. THE DEPARTMENT  
14 SHALL PREPARE WRITTEN RESPONSES TO COMMENTS RECEIVED ON THE DRAFT LIST.  
15 THE DEPARTMENT SHALL PUBLISH THE LIST OF IMPAIRED NON-WOTUS PROTECTED  
16 SURFACE WATERS AND A SUMMARY OF THE RESPONSES TO COMMENTS ON THE DRAFT  
17 LIST IN THE ARIZONA ADMINISTRATIVE REGISTER. PUBLICATION OF THE LIST IN  
18 THE ARIZONA ADMINISTRATIVE REGISTER IS AN APPEALABLE AGENCY ACTION  
19 PURSUANT TO TITLE 41, CHAPTER 6, ARTICLE 10 AND MAY BE APPEALED BY ANY  
20 PARTY THAT SUBMITTED WRITTEN COMMENTS ON THE DRAFT LIST.

21 ~~B.~~ C. In determining whether a water is impaired, the department  
22 shall consider only reasonably current credible and scientifically  
23 defensible data that the department has collected or has received from  
24 another source. Results of water sampling or other assessments of water  
25 quality, including physical or biological health, shall be considered  
26 credible and scientifically defensible data only if the department has  
27 determined all of the following:

28 1. Appropriate quality assurance and quality control procedures  
29 were followed and documented in collecting and analyzing the data.

30 2. The samples or analyses are representative of water quality  
31 conditions at the time the data was collected.

32 3. The data consists of an adequate number of samples based on the  
33 nature of the water in question and the parameters being analyzed.

34 4. The method of sampling and analysis, including analytical,  
35 statistical and modeling methods, is generally accepted and validated in  
36 the scientific community as appropriate for use in assessing the condition  
37 of the water.

38 ~~C.~~ D. The department shall adopt by rule the methodology to be  
39 used in identifying waters as impaired. The rules shall specify all of  
40 the following:

41 1. Minimum data requirements and quality assurance and quality  
42 control requirements that are consistent with subsection ~~B.~~ C of this  
43 section and that must be satisfied in order for the data to serve as the  
44 basis for listing and delisting decisions.

1           2. Appropriate sampling, analytical and scientific techniques that  
2 may be used in assessing whether a water is impaired.

3           3. Any statistical or modeling techniques that the department uses  
4 to assess or interpret data.

5           4. Criteria for including and removing waters from the list of  
6 impaired waters, including any implementation procedures developed  
7 pursuant to subsection ~~F~~ G of this section. The criteria for removing a  
8 water from the list of impaired waters shall not be any more stringent  
9 than the criteria for adding a water to that list.

10          ~~D~~ E. In assessing whether a water is impaired, the department  
11 shall consider the data available in light of the nature of the water in  
12 question, including whether the water is an ephemeral water. A water in  
13 which pollutant loadings from naturally occurring conditions alone are  
14 sufficient to cause a violation of applicable surface water quality  
15 standards shall not be listed as impaired.

16          ~~E~~ F. If the department has adopted a numeric surface water  
17 quality standard for a pollutant and that standard is not being exceeded  
18 in a water, the department shall not list the water as impaired based on a  
19 conclusion that the pollutant causes a violation of a narrative or  
20 biological standard unless:

21           1. The department has determined that the numeric standard is  
22 insufficient to protect water quality.

23           2. The department has identified specific reasons that are  
24 appropriate for the water in question, that are based on generally  
25 accepted scientific principles and that support the department's  
26 determination.

27          ~~F~~ G. Before listing a ~~navigable~~ water as impaired based on a  
28 violation of a narrative or biological surface water quality standard and  
29 after providing an opportunity for public notice and comment, the  
30 department shall adopt implementation procedures that specifically  
31 identify the objective basis for determining that a violation of the  
32 narrative or biological criterion exists. A total maximum daily load  
33 designed to achieve compliance with a narrative or biological surface  
34 water quality standard shall not be adopted until the implementation  
35 procedure for the narrative or biological surface water quality standard  
36 has been adopted.

37          ~~G~~ H. On request, the department shall make available to the  
38 public data used to support the listing of a water as impaired and may  
39 charge a reasonable fee to persons requesting the data.

40          ~~H~~ I. By January 1, 2002, the department shall review the list of  
41 waters identified as impaired as of January 1, 2000 to determine whether  
42 the data that supports the listing of those waters complies with this  
43 section. If the data that supports a listing does not comply with this  
44 section, the listed water shall not be included on future lists submitted  
45 to the United States environmental protection agency pursuant to 33 United

1 States Code section 1313(d) unless in the interim data that satisfies the  
2 requirements of this section has been collected or received by the  
3 department.

4 ~~i.~~ J. The department shall add a water to or remove a water from  
5 the list using the process described in ~~section 49-232~~, subsection A OR B  
6 OF THIS SECTION outside of the normal listing cycle if it collects or  
7 receives credible and scientifically defensible data that satisfies the  
8 requirements of this section and that demonstrates that the current  
9 quality of the water is such that it should be removed from or added to  
10 the list. A listed water may no longer warrant classification as impaired  
11 or an unlisted water may be identified as impaired if the applicable  
12 surface water quality standards, implementation procedures or designated  
13 uses have changed or if there is a change in water quality.

14 K. THE DIRECTOR SHALL APPLY THE RULES ADOPTED PURSUANT TO  
15 SUBSECTION D OF THIS SECTION FOR IDENTIFICATION OF IMPAIRED WATERS TO  
16 NON-WOTUS PROTECTED SURFACE WATERS UNTIL SPECIFICALLY CHANGED BY RULE.  
17 THE DIRECTOR SHALL AMEND RULES TO UPDATE THE IMPAIRED WATERS  
18 IDENTIFICATION RULES WITHIN ONE YEAR AFTER ADOPTING SURFACE WATER QUALITY  
19 STANDARDS FOR NON-WOTUS PROTECTED SURFACE WATERS PURSUANT TO SECTION  
20 49-221, SUBSECTION A, PARAGRAPH 2.

21 Sec. 12. Section 49-233, Arizona Revised Statutes, is amended to  
22 read:

23 49-233. Priority ranking and schedule

24 A. Each list developed by the department pursuant to section  
25 49-232 shall contain a priority ranking of ~~navigable waters~~ WOTUS  
26 identified as impaired and for which total maximum daily loads are  
27 required pursuant to section 49-234 and a schedule for the development of  
28 all required total maximum daily loads.

29 B. In the first list submitted to the United States environmental  
30 protection agency after ~~the effective date of this article~~ JULY 18, 2000,  
31 the schedule shall be sufficient to ensure that all required total maximum  
32 daily loads will be developed within fifteen years ~~of~~ AFTER the date the  
33 list is approved by the environmental protection agency. Total maximum  
34 daily loads that are required to be developed for ~~navigable waters~~ WOTUS  
35 that are included for the first time on subsequent lists shall be  
36 developed within fifteen years of the initial inclusion of the water on  
37 the list.

38 C. As part of the ~~rule-making~~ RULEMAKING prescribed by section  
39 49-232, subsection ~~e~~ D, the department shall identify the factors that it  
40 will use to prioritize ~~navigable waters~~ WOTUS that require development of  
41 total maximum daily loads. At a minimum and to the extent relevant data  
42 is available, the department shall consider the following factors in  
43 prioritizing ~~navigable waters~~ WOTUS for development of total maximum daily  
44 loads:

1. The designated uses of the ~~navigable water~~ WOTUS.

- 1           2. The type and extent of risk from the impairment to human health
- 2           or aquatic life.
- 3           3. The degree of public interest and support, or its lack.
- 4           4. The nature of the ~~navigable water~~ WOTUS, including whether it is
- 5           an ephemeral, intermittent or effluent-dependent water.
- 6           5. The pollutants causing the impairment.
- 7           6. The severity, magnitude and duration of the violation of the
- 8           applicable surface water quality standard.
- 9           7. The seasonal variation caused by natural events such as storms
- 10          or weather patterns.
- 11          8. Existing treatment levels and management practices.
- 12          9. The availability of effective and economically feasible
- 13          treatment techniques, management practices or other pollutant loading
- 14          reduction measures.
- 15          10. The recreational and economic importance of the water.
- 16          11. The extent to which the impairment is caused by discharges or
- 17          activities that have ceased.
- 18          12. The extent to which natural sources contribute to the
- 19          impairment.
- 20          13. Whether the water is accorded special protection under federal
- 21          or state water quality law.
- 22          14. Whether action that is taken or that is likely to be taken under
- 23          other programs, including voluntary programs, is likely to make
- 24          significant progress toward achieving applicable standards even if a total
- 25          maximum daily load is not developed.
- 26          15. The time expected to be required to achieve compliance with
- 27          applicable surface water quality standards.
- 28          16. The availability of documented, effective analytical tools for
- 29          developing a total maximum daily load for the water with reasonable
- 30          accuracy.
- 31          17. Department resources and programmatic needs.

32          Sec. 13. Section 49-234, Arizona Revised Statutes, is amended to  
33          read:

34            49-234. Total maximum daily loads; implementation plans

35          A. The department shall develop total maximum daily loads for those  
36          ~~navigable~~ WOTUS listed as impaired pursuant to this article and for which  
37          total maximum daily loads are required to be adopted pursuant to 33 United  
38          States Code section 1313(d) and the regulations implementing that statute  
39          OR THAT THE DEPARTMENT OTHERWISE DETERMINES ARE REQUIRED TO RESTORE AN  
40          IMPAIRED WATER. The department may estimate total maximum daily loads for  
41          ~~navigable~~ WOTUS not listed as impaired pursuant to this article, ~~for the~~  
42          ~~purposes of developing~~ TO DEVELOP information to satisfy the requirements  
43          of 33 United States Code section 1313(d)(3), ~~only~~ only after it has developed  
44          total maximum daily loads for all ~~navigable waters~~ WOTUS identified as

1 impaired pursuant to this article or if necessary to support permitting of  
2 new point source discharges.

3 B. In developing total maximum daily loads, the department shall  
4 use only statistical and modeling techniques that are properly validated  
5 and broadly accepted by the scientific community. The modeling technique  
6 may vary based on the type of water and the quantity and quality of  
7 available data that meets the quality assurance and quality control  
8 requirements of section 49-232. The department may establish the  
9 statistical and modeling techniques in rules adopted pursuant to section  
10 49-232, subsection ~~C~~ D.

11 C. Each total maximum daily load shall:

12 1. Be based on data and methodologies that comply with section  
13 49-232.

14 2. Be established at a level that will achieve and maintain  
15 compliance with applicable surface water quality standards.

16 3. Include a reasonable margin of safety that takes into account  
17 any lack of knowledge concerning the relationship between effluent  
18 limitations and water quality. The margin of safety shall not be used as  
19 a substitute for adequate data when developing the total maximum daily  
20 load.

21 4. Account for seasonal variations that may include setting total  
22 maximum daily loads that apply on a seasonal basis.

23 D. For each impaired water, **EITHER OF THE FOLLOWING APPLIES:**

24 1. **FOR EACH IMPAIRED WOTUS**, the department shall prepare a draft  
25 estimate of the total amount of each pollutant that causes the impairment  
26 from all sources and that may be added to the ~~navigable water~~ WOTUS while  
27 still allowing the ~~navigable water~~ WOTUS to achieve and maintain  
28 applicable surface water quality standards. In addition, the department  
29 shall determine draft allocations among the contributing sources that are  
30 sufficient to achieve the total loadings. The department shall provide  
31 public notice and allow for comment on each draft estimate and draft  
32 allocation and shall prepare written responses to comments received on the  
33 draft estimates and draft allocations. The department shall publish the  
34 determinations of total pollutant loadings that will not result in  
35 impairment and the draft allocations among the contributing sources that  
36 are sufficient to achieve the total loading that it intends to submit  
37 initially to the regional administrator, along with a summary of the  
38 responses to comments on the estimated loadings and allocations, in the  
39 Arizona administrative register at least forty-five days before submission  
40 of the loadings and allocations to the regional administrator.  
41 Notwithstanding this subsection, draft allocations shall be submitted to  
42 the regional administrator only if that submission is required by the  
43 rules that implement 33 United States Code section 1313(d).

44 2. **FOR NON-WOTUS IMPAIRED WATERS, THE DEPARTMENT MAY PREPARE A**  
45 **DRAFT ESTIMATE OF THE TOTAL AMOUNT OF EACH POLLUTANT THAT CAUSES THE**

1 IMPAIRMENT FROM ALL SOURCES AND THAT MAY BE ADDED TO THE WATER WHILE STILL  
2 ALLOWING THE WATER TO ACHIEVE AND MAINTAIN APPLICABLE SURFACE WATER  
3 QUALITY STANDARDS. IF THE DEPARTMENT CHOOSES TO PREPARE A DRAFT ESTIMATE  
4 FOR A NON-WOTUS IMPAIRED WATER, THE DEPARTMENT SHALL DO ALL OF THE  
5 FOLLOWING:

6 (a) DETERMINE DRAFT ALLOCATIONS AMONG CONTRIBUTING SOURCES THAT ARE  
7 SUFFICIENT TO ACHIEVE TOTAL LOADINGS.

8 (b) PROVIDE PUBLIC NOTICE AND ALLOW FOR COMMENT ON THE DRAFT  
9 ESTIMATES AND DRAFT ALLOCATIONS.

10 (c) PREPARE WRITTEN RESPONSES TO COMMENTS RECEIVED ON THE DRAFT  
11 ESTIMATES AND DRAFT ALLOCATIONS.

12 (d) PUBLISH THE DETERMINATIONS OF TOTAL POLLUTANT LOADINGS THAT  
13 WILL NOT RESULT IN IMPAIRMENT AND THE DRAFT ALLOCATIONS AMONG THE  
14 CONTRIBUTING SOURCES THAT ARE SUFFICIENT TO ACHIEVE THE TOTAL LOADING,  
15 ALONG WITH A SUMMARY OF THE RESPONSES TO COMMENTS ON THE ESTIMATED  
16 LOADINGS AND ALLOCATIONS, IN THE ARIZONA ADMINISTRATIVE REGISTER.

17 E. Publication of the loadings and allocations in the Arizona  
18 administrative register is an appealable agency action pursuant to title  
19 41, chapter 6, article 10 that may be appealed by any party that submitted  
20 written comments on the estimated loadings and allocations. IN THE CASE  
21 OF WOTUS, if the department receives a notice of appeal of a loading and  
22 allocation pursuant to section 41-1092.03 within forty-five days ~~of~~ AFTER  
23 the publication of the loading and allocations in the Arizona  
24 administrative register, the department shall not submit the challenged  
25 loading and allocations to the regional administrator until either the  
26 challenge to the loading and allocation is withdrawn or the director has  
27 made a final administrative decision pursuant to section 41-1092.08.

28 F. The department shall make reasonable and equitable allocations  
29 among sources when developing total maximum daily loads. At a minimum,  
30 the department shall consider the following factors in making allocations:

31 1. The environmental, economic and technological feasibility of  
32 achieving the allocation.

33 2. The cost and benefit associated with achieving the allocation.

34 3. Any pollutant loading reductions that are reasonably expected to  
35 be achieved as a result of other legally required actions or voluntary  
36 measures.

37 G. For each total maximum daily load, the department shall  
38 establish a TMDL implementation plan that explains how the allocations and  
39 any reductions in existing pollutant loadings will be achieved. Any  
40 reductions in loadings from nonpoint sources shall be achieved  
41 voluntarily. The department shall provide for public notice and comment on  
42 each TMDL implementation plan. Any sampling or monitoring components of a  
43 TMDL implementation plan shall comply with section 49-232.

44 H. Each TMDL implementation plan shall provide the time frame in  
45 which compliance with applicable surface water quality standards is

1 expected to be achieved. The plan may include a phased process with  
2 interim targets for load reductions. Longer time frames are appropriate in  
3 situations involving multiple dischargers, technical, legal or economic  
4 barriers to achieving necessary load reductions, scientific uncertainty  
5 regarding data quality or modeling, significant loading from natural  
6 sources or significant loading resulting from discharges or activities  
7 that have already ceased.

8 I. For ~~navigable~~ IMPAIRED waters that are impaired due in part to  
9 historical factors that are difficult to address, including contaminated  
10 sediments, the department shall consider those historical factors in  
11 determining allocations for existing point source discharges of the  
12 pollutant or pollutants that cause the impairment. In developing total  
13 maximum daily loads for those ~~navigable~~ waters, the department shall use a  
14 phased approach in which expected long-term loading reductions from the  
15 historical sources are considered in establishing short-term allocations  
16 for the point sources. While total maximum daily loads and TMDL  
17 implementation plans are being completed, any permits issued for the point  
18 sources are deemed consistent with this article if the permits require  
19 reasonable reductions in the discharges of the pollutants causing the  
20 impairment and are not required to include additional reductions if those  
21 reductions would not significantly contribute to attainment of surface  
22 water quality standards.

23 J. After a total maximum daily load and a TMDL implementation plan  
24 have been adopted for a ~~navigable~~ PROTECTED SURFACE water, the department  
25 shall review the status of the ~~navigable~~ PROTECTED SURFACE water at least  
26 once every five years to determine if compliance with applicable surface  
27 water quality standards has been achieved. If compliance with applicable  
28 surface water quality standards has not been achieved, the department  
29 shall evaluate whether modification of the total maximum daily load or  
30 TMDL implementation plan is required.

31 Sec. 14. Section 49-242, Arizona Revised Statutes, is amended to  
32 read:

33 49-242. Procedural requirements for individual permits;  
34 annual registration of permittees; fee

35 A. The director shall prescribe by rule requirements for issuing,  
36 denying, suspending or modifying individual permits, including  
37 requirements for submitting notices, permit applications and any  
38 additional information necessary to determine whether an individual permit  
39 should be issued, and shall prescribe conditions and requirements for  
40 individual permits.

41 B. Each owner of an injection well, a land treatment facility, a  
42 dry well, an on-site wastewater treatment facility with a capacity of more  
43 than three thousand gallons per day, a recharge facility or a facility  
44 that discharges to ~~navigable~~ PROTECTED SURFACE waters to whom an  
45 individual or area-wide permit is issued shall register the permit with

1 the director each year and pay an annual registration fee for each permit  
2 based on the total daily discharge of pollutants pursuant to subsection E  
3 of this section.

4 C. Each owner of a surface impoundment, a facility that adds a  
5 pollutant to a salt dome formation, salt bed formation, underground cave  
6 or mine, a mine tailings pile or pond, a mine leaching operation, a sewage  
7 or sludge pond or a wastewater treatment facility to whom an individual or  
8 area-wide permit is issued shall register the permit with the director  
9 each year and pay an annual registration fee for each permit based on the  
10 total daily influent of pollutants pursuant to subsection E of this  
11 section.

12 D. Pending the issuance of individual or area-wide aquifer  
13 protection permits, each owner of a facility that is prescribed in  
14 subsection B or C of this section that is operating on September 27, 1990  
15 pursuant to the filing of a notice of disposal or a groundwater quality  
16 protection permit issued under title 36 shall register the notice of  
17 disposal or the permit with the director each year and shall pay an annual  
18 registration fee for each notice of disposal or permit based on the total  
19 daily influent or discharge of pollutants pursuant to subsection E of this  
20 section.

21 E. Only for a ~~one-time rule making~~ ONETIME RULEMAKING after ~~the~~  
22 ~~effective date of this amendment to this section~~ JULY 29, 2010, the  
23 director shall establish by rule an annual registration fee for facilities  
24 prescribed by subsections B, C and D of this section. The fee shall be  
25 measured in part by the amount of discharge or influent per day from the  
26 facility. After the ~~one-time rule making~~ ONETIME RULEMAKING, the director  
27 shall not increase those fees by rule without specific statutory authority  
28 for the increase.

29 F. For a site with more than one permit subject to the requirements  
30 of this section, the owner or operator of the facility at that site shall  
31 pay the annual registration fee prescribed pursuant to subsection E of  
32 this section based on the permit that covers the greatest gallons of  
33 discharge or influent per day plus one-half of the annual registration fee  
34 for gallons of discharge or influent for each additional permit.

35 G. The director shall prescribe the procedures to register the  
36 notice of disposal or permit and collect the fee under this section. The  
37 director shall deposit, pursuant to sections 35-146 and 35-147, all monies  
38 collected under this section in the water quality fee fund established by  
39 section 49-210 and may authorize expenditures from the fund to pay the  
40 reasonable and necessary costs of administering the registration program.

41 Sec. 15. Section 49-245.01, Arizona Revised Statutes, is amended to  
42 read:

43 49-245.01. Storm water general permit

44 A. A general permit is issued for facilities used solely for the  
45 management of storm water and that are regulated by the clean water act OR

1 ARTICLE 3.1 OF THIS CHAPTER, including catchments, impoundments and sumps,  
2 provided the following conditions are met:

3 1. The owner or operator of the facility has obtained a national  
4 pollutant discharge elimination system permit issued pursuant to the clean  
5 water act OR AN ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT  
6 UNDER ARTICLE 3.1 OF THIS CHAPTER for any storm water discharges at the  
7 facility, or that the facility has applied, and not been denied coverage,  
8 for ~~this type of permit~~ THESE TYPES OF PERMITS for any storm water  
9 discharges at the facility.

10 2. The owner or operator notifies the director that the facility  
11 has met the requirements of paragraph 1 of this subsection.

12 3. The owner or operator of the facility has in place any required  
13 storm water pollution prevention plan.

14 B. If the director determines that discharges of storm water from a  
15 facility or facilities covered by this general permit are causing a  
16 violation of aquifer water quality standards at the applicable point of  
17 compliance, the director may revoke the general permit of the facility or  
18 facilities or may require that an individual permit be obtained pursuant  
19 to section 49-243. If the director determines that discharges of storm  
20 water from a facility or facilities covered by this general permit, with  
21 reasonable probability, may cause a violation of aquifer water quality  
22 standards at the applicable point of compliance, the director may require  
23 a facility or facilities covered by the general permit to obtain an  
24 individual permit pursuant to section 49-243.

25 Sec. 16. Section 49-245.02, Arizona Revised Statutes, is amended to  
26 read:

27 49-245.02. General permit for certain discharges associated  
28 with man-made bodies of water

29 A. A general permit is issued for the following discharges:

30 1. Disposal in vadose zone injection wells of storm water mixed  
31 with reclaimed wastewater or groundwater, or both, from man-made bodies of  
32 water associated with golf courses, parks and residential common areas,  
33 provided that:

34 (a) The vadose zone injection wells are registered pursuant to  
35 section 49-332.

36 (b) The discharge occurs only in response to storm events.

37 (c) With the exception of the aquifer water quality standard for  
38 microbiological contaminants, the reclaimed wastewater meets aquifer water  
39 quality standards before being placed into the body of water, as  
40 documented by a water quality analysis submitted with the vadose zone  
41 injection well registration. The owner or operator of the vadose zone  
42 injection wells shall demonstrate continued compliance with this  
43 subdivision by submitting to the department the results of any monitoring  
44 required as part of an aquifer protection permit or wastewater reuse  
45 permit for any facility providing reclaimed wastewater to the man-made

1 body of water. For purposes of this general permit, monitoring shall be  
2 conducted at least semiannually. The monitoring results shall be  
3 submitted to the department semiannually beginning six months after  
4 registration made PURSUANT to subdivision (a) of this paragraph.

5 (d) The vadose zone injection wells shall be located at least one  
6 hundred feet from any water supply well.

7 (e) A vertical separation of forty feet shall be provided between  
8 the bottom of the vadose zone injection wells and the water table to allow  
9 the aquifer water quality standard for microbiological contaminants to be  
10 met in the uppermost aquifer.

11 (f) The vadose zone injection wells are not used for any other  
12 purpose.

13 2. Subsurface discharges from man-made bodies of water associated  
14 with golf courses, parks and residential common areas, provided that:

15 (a) The body of water contains only groundwater, storm water or  
16 reclaimed wastewater, or a combination thereof.

17 (b) The reclaimed wastewater complies with the terms of a  
18 wastewater reuse permit before being placed into the body of water.

19 (c) The body of water is lined and maintained to achieve a  
20 hydraulic conductivity of 10<sup>-7</sup> cm/sec or less.

21 3. Point source discharges to ~~waters of the United States~~ PROTECTED  
22 SURFACE WATERS from man-made bodies of water associated with golf courses,  
23 parks and residential common areas that contain only groundwater, storm  
24 water or reclaimed wastewater, or a combination thereof, provided that:

25 (a) The discharges are subject to a valid national pollutant  
26 discharge elimination system permit OR AN ARIZONA POLLUTANT DISCHARGE  
27 ELIMINATION SYSTEM PERMIT UNDER ARTICLE 3.1 OF THIS CHAPTER.

28 (b) The discharges occur only in response to storm events.

29 (c) With the exception of the aquifer water quality standard for  
30 microbiological contaminants, the reclaimed wastewater meets aquifer water  
31 quality standards before being placed into the body of water.

32 B. If the director determines that discharges from a facility  
33 covered by this general permit are causing a violation of aquifer water  
34 quality standards, the director may revoke the general permit of the  
35 facility or may require that an individual permit be obtained pursuant to  
36 section 49-243. If the director determines that discharges from a  
37 facility covered by this general permit may cause, with reasonable  
38 probability, a violation of aquifer water quality standards, the director  
39 may require the facility to obtain an individual permit pursuant to  
40 section 49-243

41 Sec. 17. Section 49-250, Arizona Revised Statutes, is amended to  
42 read:

43 49-250. Exemptions

44 A. The director may, by rule, MAY exempt specifically described  
45 classes or categories of facilities from the aquifer protection permit

1 requirements of this article on a finding either that there is no  
2 reasonable probability of degradation of the aquifer or that aquifer water  
3 quality will be maintained and protected because the discharges from the  
4 facilities are regulated under other federal or state programs that  
5 provide the same or greater aquifer water quality protection as provided  
6 by this article.

7 B. The following are exempt from the aquifer protection permit  
8 requirement of this article:

9 1. Household and domestic activities.

10 2. Household gardening, lawn watering, lawn care, landscape  
11 maintenance and related activities.

12 3. The noncommercial use of consumer products generally available  
13 to and used by the public.

14 4. Ponds used for watering livestock and wildlife.

15 5. Mining overburden returned to the excavation site including any  
16 common material that has been excavated and removed from the excavation  
17 site and has not been subjected to any chemical or leaching agent or  
18 process of any kind.

19 6. Facilities used solely for surface transportation or storage of  
20 groundwater, surface water for beneficial use or reclaimed water that is  
21 regulated pursuant to section 49-203, subsection A, paragraph ~~6~~ 7 for  
22 beneficial use.

23 7. Discharge to a community sewer system.

24 8. Facilities that are required to obtain a permit for the direct  
25 reuse of reclaimed water.

26 9. Leachate resulting from the direct, natural infiltration of  
27 precipitation through undisturbed regolith or bedrock if pollutants are  
28 not added to the leachate as a result of any material or activity placed  
29 or conducted by man on the ground surface.

30 10. Surface impoundments used solely to contain storm runoff, except  
31 for surface impoundments regulated by the federal clean water act **OR**  
32 **ARTICLE 3.1 OF THIS CHAPTER.**

33 11. Closed facilities. However, if the facility ever resumes  
34 operation the facility shall obtain an aquifer protection permit and the  
35 facility shall be treated as a new facility for purposes of section  
36 49-243.

37 12. Facilities for the storage of water pursuant to title 45,  
38 chapter 3.1 unless reclaimed water is added.

39 13. Facilities using central Arizona project water for underground  
40 storage and recovery projects under title 45, chapter 3.1, article 6.

41 14. Water storage at a groundwater saving facility that has been  
42 permitted under title 45, chapter 3.1.

43 15. Application of water from any source, including groundwater,  
44 surface water or wastewater, to grow agricultural crops or for landscaping  
45 purposes, except as provided in section 49-247.

1 16. Discharges to a facility that is exempt pursuant to paragraph 6  
2 **OF THIS SUBSECTION** if those discharges are regulated pursuant to 33 United  
3 States Code section 1342 **OR ARTICLE 3.1 OF THIS CHAPTER**.

4 17. Solid waste and special waste facilities ~~when~~ **IF** rules  
5 addressing aquifer protection are adopted by the director pursuant to  
6 section 49-761 or 49-855 and those facilities obtain plan approval  
7 pursuant to those rules. This exemption shall ~~only~~ **ONLY** if the  
8 director determines that aquifer water quality standards will be  
9 maintained and protected because the discharges from those facilities are  
10 regulated under rules adopted pursuant to section 49-761 or 49-855 that  
11 provide aquifer water quality protection that is equal to or greater than  
12 aquifer water quality protection provided pursuant to this article.

13 18. Facilities used in:

14 (a) Corrective actions taken pursuant to chapter 6, article 1 of  
15 this title in response to a release of a regulated substance as defined in  
16 section 49-1001 except for those off-site facilities that receive for  
17 treatment or disposal materials that are contaminated with a regulated  
18 substance and that are received as part of a corrective action.

19 (b) Response or remedial actions undertaken pursuant to article 5  
20 of this chapter or pursuant to CERCLA.

21 (c) Corrective actions taken pursuant to chapter 5, article 1 of  
22 this title or the resource conservation and recovery act of 1976, as  
23 amended (42 United States Code sections 6901 through 6992).

24 (d) Other remedial actions that have been reviewed and approved by  
25 the appropriate governmental authority and taken pursuant to applicable  
26 federal or state laws.

27 19. Municipal solid waste landfills as defined in section 49-701  
28 that have solid waste facility plan approval pursuant to section 49-762.

29 20. Storage, treatment or disposal of inert material.

30 21. Structures that are designed and constructed not to discharge  
31 and that are built on an impermeable barrier that can be visually  
32 inspected for leakage.

33 22. Pipelines and tanks designed, constructed, operated and  
34 regularly maintained so as not to discharge.

35 23. Surface impoundments and dry wells that are used to contain  
36 storm water in combination with discharges from one or more of the  
37 following activities or sources:

38 (a) Firefighting system testing and maintenance.

39 (b) Potable water sources, including waterline flushings.

40 (c) Irrigation drainage and lawn watering.

41 (d) Routine external building wash down without detergents.

42 (e) Pavement wash water ~~where~~ **IF** no spills or leaks of toxic or  
43 hazardous material have occurred unless all spilled material has first  
44 been removed and no detergents have been used.

1 (f) Air conditioning, compressor and steam equipment condensate  
2 that has not contacted a hazardous or toxic material.

3 (g) Foundation or footing drains in which flows are not  
4 contaminated with process materials.

5 (h) Occupational safety and health administration or mining safety  
6 and health administration safety equipment.

7 24. Industrial wastewater treatment facilities designed, constructed  
8 and operated as required by section 49-243, subsection B, paragraph 1 and  
9 using a treatment system approved by the director to treat wastewater to  
10 meet aquifer water quality standards prior to discharge, if that water is  
11 stored at a groundwater storage facility pursuant to title 45,  
12 chapter 3.1.

13 25. Any point source discharge caused by a storm event and  
14 authorized in a permit issued pursuant to section 402 of the clean water  
15 act OR AN ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT UNDER  
16 ARTICLE 3.1 OF THIS CHAPTER.

17 26. Except for class V wells, any underground injection well covered  
18 by a permit issued under article 3.3 of this chapter or under 42 United  
19 State STATES Code section 300h-1(c). This exemption does not apply until  
20 the date that the United States environmental protection agency approves  
21 the department's underground injection control permit program established  
22 pursuant to article 3.3 of this chapter.

23 Sec. 18. Section 49-255, Arizona Revised Statutes, is amended to  
24 read:

25 49-255. Definitions

26 In this article, unless the context otherwise requires:

27 1. "AZPDES" means the Arizona pollutant discharge elimination  
28 system program as adopted under section 402(b) of the clean water act FOR  
29 WOTUS AND UNDER SECTION 49-255.04 FOR NON-WOTUS PROTECTED SURFACE WATER.

30 2. "Discharge":

31 (a) Means any addition of any pollutant to ~~navigable~~ PROTECTED  
32 SURFACE waters from any point source.

33 (b) DOES NOT INCLUDE THE ADDITION OF DREDGED MATERIAL OR FILL  
34 MATERIAL TO NON-WOTUS PROTECTED SURFACE WATERS.

35 3. "Indirect discharge" means EITHER OF THE FOLLOWING:

36 (a) The introduction of pollutants into a publicly owned treatment  
37 works from any nondomestic source that is regulated under section 307(b),  
38 (c) or (d) of the clean water act.

39 (b) FOR A PUBLICLY OWNED TREATMENT WORKS THAT DISCHARGES TO  
40 NON-WOTUS PROTECTED SURFACE WATERS, THE INTRODUCTION OF POLLUTANTS FROM  
41 ANY NONDOMESTIC SOURCE THAT WOULD BE REGULATED UNDER SECTION 307(b), (c)  
42 OR (d) OF THE CLEAN WATER ACT IF THE PUBLICLY OWNED TREATMENT WORKS WERE  
43 TO DISCHARGE TO A WOTUS.

44 4. "Industrial user" means a source of indirect discharge.

1           5. "Publicly owned treatment works" means a treatment works owned  
2 by this state or a municipality of this state as defined in section 502(4)  
3 of the clean water act **OR THAT DISCHARGES TO A PROTECTED SURFACE WATER.**

4           6. "Sewage sludge":

5           (a) Means solid, semisolid or liquid residue that is generated  
6 during the treatment of domestic sewage in a treatment works.

7           (b) Includes domestic septage, scum or solids that are removed in  
8 primary, secondary or advanced wastewater treatment processes, and any  
9 material derived from sewage sludge.

10          (c) Does not include ash that is generated during the firing of  
11 sewage sludge in a sewage sludge incinerator or grit and screenings that  
12 are generated during preliminary treatment of domestic sewage in a  
13 treatment works.

14          7. "Treatment works" means any devices and systems that are used in  
15 the storage, treatment, recycling and reclamation of municipal sewage or  
16 industrial wastes of a liquid nature, the elements essential to providing  
17 a reliable recycled supply such as standby treatment units and clear well  
18 facilities, and any works that will be an integral part of the treatment  
19 process or that are used for residues resulting from that treatment. For  
20 the ~~purposes of the~~ programs required by sections 49-255.02 and 49-255.03,  
21 treatment works include intercepting sewers, outfall sewers, sewage  
22 collection systems, pumping, power and other equipment and any  
23 appurtenances, extensions, improvements, remodeling, additions and  
24 alterations.

25          8. "Upset":

26          (a) Means an exceptional incident in which there is unintentional  
27 and temporary noncompliance with technology-based permit discharge  
28 limitations because of factors that are beyond the reasonable control of  
29 the permittee.

30          (b) Does not include noncompliance to the extent that it is caused  
31 by operational error, improperly designed treatment facilities, inadequate  
32 treatment facilities, lack of preventive maintenance or careless or  
33 improper operation.

34          Sec. 19. Section 49-255.01, Arizona Revised Statutes, is amended to  
35 read:

36          49-255.01. Arizona pollutant discharge elimination system  
37 program; rules and standards; affirmative  
38 defense; fees; general permit; exemption from  
39 termination

40          A. A person shall not discharge except under either of the  
41 following conditions:

42           1. In conformance with a permit that is issued or authorized under  
43 this article **OR RULES AUTHORIZED UNDER SECTION 49-203, SUBSECTION A,**  
44 **PARAGRAPH 2.**

1           2. Pursuant to a permit that is issued or authorized by the United  
2 States environmental protection agency until a permit that is issued or  
3 authorized under this article takes effect.

4           B. The director shall adopt rules to establish an AZPDES permit  
5 program FOR DISCHARGES TO WOTUS consistent with the requirements of  
6 sections 402(b) and 402(p) of the clean water act. This program shall  
7 include requirements to ensure compliance with section 307 and  
8 requirements for the control of discharges consistent with sections 318  
9 and 405(a) of the clean water act. The director shall not adopt any  
10 requirement FOR WOTUS that is more stringent than ~~or conflicts with~~ any  
11 requirement of the clean water act. THE DIRECTOR SHALL NOT ADOPT ANY  
12 REQUIREMENT THAT CONFLICTS WITH ANY REQUIREMENT OF THE CLEAN WATER ACT.  
13 The director may adopt federal rules pursuant to section 41-1028 or may  
14 adopt rules to reflect local environmental conditions to the extent that  
15 the rules are consistent with and ~~no~~ NOT more stringent than the clean  
16 water act and this article.

17           C. The rules adopted by the director UNDER SUBSECTION B OF THIS  
18 SECTION shall provide for:

19           1. Issuing, authorizing, denying, modifying, suspending or revoking  
20 individual or general permits.

21           2. Establishment of permit conditions, discharge limitations and  
22 standards of performance as prescribed by section 49-203, subsection A,  
23 paragraph ~~7, 8~~ including ~~case by case~~ CASE-BY-CASE effluent limitations  
24 that are developed in a manner consistent with 40 Code of Federal  
25 Regulations section 125.3(c).

26           3. Modifications and variances as allowed by the clean water act.

27           4. Other provisions necessary for maintaining state program  
28 authority under section 402(b) of the clean water act.

29           D. This article does not affect the validity of any existing rules  
30 that are adopted by the director and that are equivalent to and consistent  
31 with the national pollutant discharge elimination system program  
32 authorized under section 402 of the clean water act until new rules for  
33 AZPDES discharges are adopted pursuant to this article.

34           E. An upset constitutes an affirmative defense to any  
35 administrative, civil or criminal enforcement action brought for  
36 noncompliance with technology-based permit discharge limitations if the  
37 permittee complies with all of the following:

38           1. The permittee demonstrates through properly signed  
39 contemporaneous operating logs or other relevant evidence that:

40           (a) An upset occurred and that the permittee can identify the  
41 specific cause of the upset.

42           (b) The permitted facility was being properly operated at the time  
43 of the upset.

1 (c) If the upset causes the discharge to exceed any discharge  
2 limitation in the permit, the permittee submitted notice to the department  
3 within twenty-four hours ~~of~~ AFTER the upset.

4 (d) The permittee has taken appropriate remedial measures including  
5 all reasonable steps to minimize or prevent any discharge or sewage sludge  
6 use or disposal that is in violation of the permit and that has a  
7 reasonable likelihood of adversely affecting human health or the  
8 environment.

9 2. In any administrative, civil or criminal enforcement action, the  
10 permittee shall prove, by a preponderance of the evidence, the occurrence  
11 of an upset condition.

12 F. Compliance with a permit issued pursuant to this article shall  
13 be deemed compliance with both of the following:

14 1. All requirements in this article or rules adopted pursuant to  
15 this article relating to state implementation of sections 301, 302, 306  
16 and 307 of the clean water act, except for any standard that is imposed  
17 under section 307 of the clean water act for a toxic pollutant that is  
18 injurious to human health.

19 2. Limitations for pollutants in ~~navigable waters~~ WOTUS adopted  
20 pursuant to sections 49-221 and 49-222, if the discharge of the pollutant  
21 is specifically limited in a permit issued pursuant to this article or the  
22 pollutant was specifically identified as present or potentially present in  
23 facility discharges during the application process for the permit.

24 G. Notwithstanding section 49-203, subsection D, permits that are  
25 issued under this article shall not be combined with permits issued under  
26 article 3 of this chapter.

27 H. The decision of the director to issue or modify a permit takes  
28 effect on issuance if there were no changes requested in comments that  
29 were submitted on the draft permit unless a later effective date is  
30 specified in the decision. In all other cases, the decision of the  
31 director to issue, deny, modify, suspend or revoke a permit takes effect  
32 thirty days after the decision is served on the permit applicant, unless  
33 either of the following applies:

34 1. Within the ~~thirty day~~ THIRTY-DAY period, an appeal is filed with  
35 the water quality appeals board pursuant to section 49-323.

36 2. A later effective date is specified in the decision.

37 I. In addition to other reservations of rights provided by this  
38 chapter, ~~nothing in~~ this article ~~shall~~ DOES NOT impair or affect rights or  
39 the exercise of rights to water claimed, recognized, permitted,  
40 certificated, adjudicated or decreed pursuant to state or other law.

41 J. Only for a ~~one-time rule making~~ ONETIME RULEMAKING after July  
42 29, 2010, the director shall establish by rule fees, including maximum  
43 fees, for processing, issuing and denying an application for a permit  
44 pursuant to this section. After the ~~one-time rule making~~ ONETIME  
45 RULEMAKING, the director shall not increase those fees by rule without

1 specific statutory authority for the increase. Monies collected pursuant  
2 to this section shall be deposited, pursuant to sections 35-146 and  
3 35-147, in the water quality fee fund established by section 49-210.

4 K. Any permit conditions concerning threatened or endangered  
5 species shall be limited to those required by the endangered species act.

6 L. When developing a general permit for discharges of storm water  
7 from construction activity, the director shall provide for reduced control  
8 measures at sites that retain storm water in a manner that eliminates  
9 discharges from the site, except for the occurrence of an extreme event.  
10 Reduced control measures shall be available if all of the following  
11 conditions are met:

12 1. The nearest downstream receiving water is ephemeral and the  
13 construction site is a sufficient distance from a water warranting  
14 additional protection as described in the general permit.

15 2. The construction activity occurs on a site designed so that all  
16 storm water generated by disturbed areas of the site exclusive of public  
17 rights-of-way is directed to one or more retention basins that are  
18 designed to retain the runoff from an extreme event. For the purposes of  
19 this subsection, "extreme event" means a rainfall event that meets or  
20 exceeds the local one hundred-year, two-hour storm event as calculated by  
21 an Arizona registered professional engineer using industry practices.

22 3. The owner or operator complies with good housekeeping measures  
23 included in the general permit.

24 4. The owner or operator maintains the capacity of the retention  
25 basins.

26 5. Construction conforms to the standards prescribed by this  
27 section.

28 M. If the director commences proceedings for the renewal of a  
29 general permit issued pursuant to this article, the existing general  
30 permit shall not expire and coverage may continue to be obtained by new  
31 dischargers until the proceedings have resulted in a final determination  
32 by the director. If the proceedings result in a decision not to renew the  
33 general permit, the existing general permit shall continue in effect until  
34 the last day for filing for review of the decision of the director not to  
35 renew the permit or until any later date that is fixed by court order.

36 N. This program is exempt from section 41-3102.

37 Sec. 20. Section 49-255.02, Arizona Revised Statutes, is amended to  
38 read:

39 49-255.02. Pretreatment program; rules and standards

40 A. The director shall adopt rules to establish a pretreatment  
41 program that is consistent with the requirements of sections 307, 308 and  
42 402 of the clean water act. The director shall not adopt any requirement  
43 that is more stringent than or conflicts with any requirements of the  
44 clean water act, EXCEPT THE DIRECTOR SHALL APPLY THE PRETREATMENT PROGRAM

1 TO PUBLICLY OWNED TREATMENT WORKS THAT DISCHARGE TO A NON-WOTUS PROTECTED  
2 SURFACE WATER.

3 B. The rules adopted by the director shall provide for all of the  
4 following:

5 1. Development or modification of local pretreatment programs by  
6 the owners of publicly owned treatment works that discharge or as  
7 otherwise required under the clean water act or this article to prevent  
8 the use or disposal of sewage sludge produced by a publicly owned  
9 treatment works in violation of section 405 of the clean water act or  
10 requirements established pursuant to section 49-255.03, subsection A.

11 2. Approval by the director of new or modified local pretreatment  
12 programs or site specific modifications to pretreatment standards.

13 3. Oversight by the director of local program implementation.

14 C. The rules adopted by the director shall provide for the  
15 department to ensure that any industrial user of any publicly owned  
16 treatment works will comply with the requirements of sections 307 and 308  
17 of the clean water act.

18 Sec. 21. Section 49-255.03, Arizona Revised Statutes, is amended to  
19 read:

20 49-255.03. Sewage sludge program; rules and requirements

21 A. The director shall adopt rules to establish a sewage sludge  
22 program that is consistent with the requirements of sections 402 and 405  
23 of the clean water act. EXCEPT AS OTHERWISE REQUIRED BY THIS ARTICLE, the  
24 director shall not adopt any requirement that is more stringent than ~~or~~  
25 ~~conflicts with~~ any requirements of the clean water act. THE DIRECTOR  
26 SHALL NOT ADOPT ANY REQUIREMENT THAT CONFLICTS WITH ANY REQUIREMENT OF THE  
27 CLEAN WATER ACT.

28 B. The rules adopted by the director shall provide for the  
29 regulation of all sewage sludge use or disposal practices used in this  
30 state.

31 Sec. 22. Title 49, chapter 2, article 3.1, Arizona Revised  
32 Statutes, is amended by adding sections 49-255.04 and 49-255.05, to read:

33 49-255.04. Special provisions for discharges to non-WOTUS  
34 protected surface waters

35 A. PERMITS AND CONDITIONS OF PERMITS FOR DISCHARGES TO NON-WOTUS  
36 PROTECTED SURFACE WATERS SHALL NOT IMPLEMENT ANY SECTIONS OF THE CLEAN  
37 WATER ACT, INCLUDING SECTIONS 301, 302, 306, 307, 308, 312, 318 AND 405,  
38 AND SHALL NOT BE SUBJECT TO REVIEW, APPROVAL OR ENFORCEMENT BY THE UNITED  
39 STATES ENVIRONMENTAL PROTECTION AGENCY.

40 B. THE DIRECTOR SHALL APPLY THE RULES ESTABLISHED PURSUANT TO  
41 SECTIONS 49-255.01, 49-255.02 AND 49-255.03 TO NON-WOTUS PROTECTED SURFACE  
42 WATERS UNTIL THE DIRECTOR ADOPTS RULES FOR DISCHARGES TO NON-WOTUS  
43 PROTECTED SURFACE WATERS, EXCEPT THE DIRECTOR IS NOT REQUIRED TO FOLLOW  
44 ANY PROVISIONS RELATED TO UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
45 REVIEW, APPROVAL OR INVOLVEMENT IN PERMIT REVIEW OR APPROVAL. THE

1 DIRECTOR SHALL NOT ADOPT OR APPLY RULES REGARDING THE FOLLOWING DISCHARGES  
2 TO NON-WOTUS PROTECTED SURFACE WATERS:

3 1. EXCEPT AS APPLIED TO DISCHARGES FROM PUBLICLY OWNED TREATMENT  
4 WORKS, REQUIREMENTS SPECIFIC TO NEW SOURCES OR NEW DISCHARGERS UNDER THE  
5 CLEAN WATER ACT.

6 2. EXCEPT AS APPLIED TO DISCHARGES FROM PUBLICLY OWNED TREATMENT  
7 WORKS, TECHNOLOGY-BASED EFFLUENT LIMITATIONS, STANDARDS OR CONTROLS,  
8 INCLUDING NEW SOURCE PERFORMANCE STANDARDS, UNDER SECTIONS 301(b), 304(b),  
9 AND 306 OF THE CLEAN WATER ACT.

10 3. REQUIREMENTS TO EXPRESS ALL PERMIT LIMITATIONS, STANDARDS OR  
11 PROHIBITIONS FOR A METAL SOLELY IN TERMS OF TOTAL RECOVERABLE METAL.

12 4. REQUIREMENTS FOR REVIEW AND APPROVAL OF PERMITS BY THE UNITED  
13 STATES ENVIRONMENTAL PROTECTION AGENCY BEFORE ISSUANCE.

14 C. THE DIRECTOR SHALL ISSUE GENERAL PERMITS OR AUTHORIZE COVERAGE  
15 UNDER EXISTING GENERAL PERMITS, SUBJECT TO THE LIMITATIONS PRESCRIBED IN  
16 SUBSECTION B OF THIS SECTION AND SECTION 49-221, SUBSECTION A, PARAGRAPH 1  
17 FOR POINT SOURCE DISCHARGES OF STORM WATER FROM INDUSTRIAL OR CONSTRUCTION  
18 ACTIVITY TO NON-WOTUS PROTECTED SURFACE WATERS. THE DIRECTOR SHALL USE A  
19 BEST MANAGEMENT PRACTICES APPROACH WHEN ISSUING AND IMPLEMENTING GENERAL  
20 PERMITS FOR STORM WATER DISCHARGES FROM INDUSTRIAL OR CONSTRUCTION  
21 ACTIVITY TO NON-WOTUS PROTECTED SURFACE WATERS AND MAY INCLUDE ANALYTICAL  
22 MONITORING AND DISCHARGE LIMITS IF BEST MANAGEMENT PRACTICES CANNOT  
23 ACHIEVE APPLICABLE SURFACE WATER QUALITY STANDARDS. THE DIRECTOR MAY  
24 ISSUE AN INDIVIDUAL PERMIT FOR THOSE DISCHARGES ONLY IF THE DIRECTOR  
25 DETERMINES, USING REASONABLY CURRENT CREDIBLE AND SCIENTIFICALLY  
26 DEFENSIBLE DATA, THAT A PARTICULAR DISCHARGE IS A SIGNIFICANT CONTRIBUTOR  
27 OF POLLUTANTS TO A NON-WOTUS PROTECTED SURFACE WATER THAT CAUSES THE WATER  
28 TO EXCEED ONE OR MORE APPLICABLE WATER QUALITY STANDARDS. WHEN MAKING  
29 THIS DETERMINATION, THE DIRECTOR SHALL CONSIDER THE LOCATION OF THE  
30 DISCHARGE WITH RESPECT TO THE NON-WOTUS PROTECTED SURFACE WATER, THE SIZE  
31 OF THE DISCHARGE AND THE QUANTITY AND NATURE OF THE POLLUTANTS  
32 DISCHARGED. IF THE DIRECTOR DETERMINES THAT AN INDIVIDUAL PERMIT IS  
33 REQUIRED FOR A DISCHARGE OF STORM WATER FROM INDUSTRIAL OR CONSTRUCTION  
34 ACTIVITY TO A NON-WOTUS PROTECTED SURFACE WATER, THE DISCHARGER MUST BE  
35 NOTIFIED IN WRITING AND INFORMED OF THE REASONS FOR THE DETERMINATION AND  
36 THE RIGHT TO APPEAL THE INDIVIDUAL PERMIT DETERMINATION.

37 D. THE DIRECTOR SHALL ISSUE GENERAL PERMITS OR AUTHORIZE COVERAGE  
38 UNDER EXISTING GENERAL PERMITS, SUBJECT TO THE LIMITATIONS IN SUBSECTION B  
39 OF THIS SECTION AND SECTION 49-221, SUBSECTION A, PARAGRAPH 1 FOR OTHER  
40 CATEGORIES OF POTENTIAL POINT SOURCE DISCHARGES, INCLUDING DE MINIMIS  
41 DISCHARGES, TO NON-WOTUS PROTECTED SURFACE WATERS THAT INVOLVE THE SAME OR  
42 SUBSTANTIALLY SIMILAR TYPES OF OPERATIONS, CONTAIN THE SAME OR  
43 SUBSTANTIALLY SIMILAR TYPES OF POLLUTANTS AND ARE MORE APPROPRIATELY  
44 CONTROLLED UNDER A GENERAL PERMIT THAN UNDER AN INDIVIDUAL PERMIT.

1 E. THE DIRECTOR MAY ADOPT RULES FOR POINT SOURCE DISCHARGES TO  
2 NON-WOTUS PROTECTED SURFACE WATERS. THE RULES ADOPTED BY THE DIRECTOR  
3 UNDER THIS SUBSECTION SHALL NOT INCLUDE ANY REQUIREMENT THAT IS MORE  
4 STRINGENT THAN REQUIREMENTS OF THE CLEAN WATER ACT, SHALL PROVIDE FOR  
5 ISSUING, AUTHORIZING, DENYING, MODIFYING, SUSPENDING OR REVOKING  
6 INDIVIDUAL OR GENERAL PERMITS AND SHALL ESTABLISH PERMIT CONDITIONS TO  
7 CARRY OUT THE PERMIT PROGRAM ESTABLISHED BY THIS SECTION.

8 F. THE DIRECTOR SHALL NOT CONSTRUE ANY RULE TO REQUIRE OVERSIGHT BY  
9 THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY OF PERMITS OR PORTIONS  
10 OF PERMITS FOR DISCHARGES TO NON-WOTUS PROTECTED SURFACE WATERS, AND A  
11 RULE SHALL NOT APPLY IF IT WOULD REQUIRE REVIEW, APPROVAL OR ENFORCEMENT  
12 BY THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY OF DISCHARGES TO  
13 NON-WOTUS PROTECTED SURFACE WATERS.

14 G. IN PERMITS FOR DISCHARGES TO WOTUS AND NON-WOTUS PROTECTED  
15 SURFACE WATERS, THE DIRECTOR SHALL NOT IMPOSE DUPLICATIVE PERMIT  
16 REQUIREMENTS.

17 H. THE DIRECTOR SHALL NOT DELEGATE TO ANY CITY, TOWN OR COUNTY THE  
18 AUTHORITY TO REQUIRE PERMITS FOR POINT SOURCE DISCHARGES FROM CONSTRUCTION  
19 ACTIVITY TO NON-WOTUS PROTECTED SURFACE WATERS.

20 49-255.05. Best management practices for activities within  
21 non-WOTUS

22 A. THE DIRECTOR SHALL ADOPT BY RULE BEST MANAGEMENT PRACTICES AND  
23 NOTIFICATION REQUIREMENTS TO ENSURE THAT THE ACTIVITIES PRESCRIBED IN THIS  
24 SECTION DO NOT VIOLATE APPLICABLE SURFACE WATER QUALITY STANDARDS. THE  
25 DIRECTOR MAY INCLUDE ONLY THOSE BEST MANAGEMENT PRACTICES THAT EXTEND TO:

26 1. ACTIVITIES CONDUCTED WITHIN THE ORDINARY HIGH WATERMARK OF  
27 PERENNIAL OR INTERMITTENT NON-WOTUS PROTECTED SURFACE WATERS.

28 2. ACTIVITIES CONDUCTED WITHIN THE BED AND BANKS OF WATERS THAT  
29 MATERIALLY IMPACT DOWNSTREAM NON-WOTUS PROTECTED SURFACE WATERS. THE  
30 DIRECTOR SHALL DETERMINE THROUGH RULEMAKING WHAT CONSTITUTES A MATERIAL  
31 IMPACT AND THAT RULEMAKING SHALL BE BASED ON FACTORS THAT INCLUDE DISTANCE  
32 AND TOPOGRAPHY.

33 3. ACTIVITIES THAT ARE NOT ALREADY REGULATED UNDER THIS TITLE.

34 B. THE DIRECTOR MAY NOT ADOPT BEST MANAGEMENT PRACTICES AND  
35 NOTIFICATION REQUIREMENTS FOR THE FOLLOWING:

36 1. DISCHARGES TO A NON-WOTUS PROTECTED SURFACE WATER INCIDENTAL TO  
37 A RECHARGE PROJECT.

38 2. ESTABLISHED OR ONGOING FARMING, RANCHING AND SILVICULTURE  
39 ACTIVITIES SUCH AS PLOWING, SEEDING, CULTIVATING, MINOR DRAINAGE OR  
40 HARVESTING FOR THE PRODUCTION OF FOOD, FIBER OR FOREST PRODUCTS OR UPLAND  
41 SOIL AND WATER CONSERVATION PRACTICES.

42 3. MAINTENANCE BUT NOT CONSTRUCTION OF DRAINAGE DITCHES.

43 4. CONSTRUCTION AND MAINTENANCE OF IRRIGATION DITCHES.

44 5. MAINTENANCE OF STRUCTURES SUCH AS DAMS, DIKES AND LEVEES.

1           Sec. 23. Section 49-256, Arizona Revised Statutes, is amended to  
2 read:

3           49-256. Adoption and enactment of federal definitions

4           For the purposes of this article and for establishing primacy for  
5 this state's dredge and fill permit program under 33 United States Code  
6 section 1344, the following definitions are adopted and enacted as  
7 follows:

8           1. "Compensatory mitigation" means the restoration  
9 (re-establishment or rehabilitation), establishment (creation),  
10 enhancement, and/or in certain circumstances preservation of aquatic  
11 resources for the purposes of offsetting unavoidable adverse impacts ~~which~~  
12 ~~THAT~~ remain after all appropriate and practicable avoidance and  
13 minimization has been achieved.

14           2. "Dredged material" means material that is excavated or dredged  
15 from ~~navigable waters~~ WOTUS.

16           3. "Fill material" means:

17           (a) Except as specified in subdivision (c) of this definition, the  
18 term fill material means material placed in ~~navigable waters~~ WOTUS where  
19 the material has the effect of EITHER:

20           (i) Replacing any portion of a ~~navigable water~~ WOTUS with dry land.

21           ~~;~~ ~~or~~

22           (ii) Changing the bottom elevation of any portion of a ~~navigable~~  
23 ~~water~~ WOTUS.

24           (b) Examples of such fill material include, but are not limited to:  
25 rock, sand, soil, clay, plastics, construction debris, wood chips,  
26 overburden from mining or other excavation activities, and materials used  
27 to create any structure or infrastructure in the ~~navigable waters~~ WOTUS.

28           (c) The term fill material does not include trash or garbage.

29           4. "General permit" means a permit authorizing a category of  
30 discharges of dredged or fill material under this article. General  
31 permits are permits for categories of discharge which are similar in  
32 nature, will cause only minimal adverse environmental effects when  
33 performed separately, and will have only minimal cumulative adverse effect  
34 on the environment.

35           5. "In-lieu fee program" means a program involving the restoration,  
36 establishment, enhancement, and/or preservation of aquatic resources  
37 through funds paid to a governmental or non-profit natural resources  
38 management entity to satisfy compensatory mitigation requirements for  
39 dredge and fill permits issued pursuant to this article. Similar to but  
40 distinct from a mitigation bank, an in-lieu fee program sells compensatory  
41 mitigation credits to permittees whose obligation to provide compensatory  
42 mitigation is then transferred to the in-lieu program sponsor. The  
43 operation and use of an in-lieu fee program are governed by an in-lieu fee  
44 program instrument.

1           6. "Mitigation bank" means a site, or suite of sites, where  
2 resources (e.g., wetlands, streams, riparian areas) are restored,  
3 established, enhanced, and/or preserved for the purpose of providing  
4 compensatory mitigation for impacts authorized by dredge and fill permits  
5 issued pursuant to this article. In general, a mitigation bank sells  
6 compensatory mitigation credits to permittees whose obligation to provide  
7 compensatory mitigation is then transferred to the mitigation bank  
8 sponsor. The operation and use of a mitigation bank are governed by a  
9 mitigation banking instrument.

10           7. "Party affected by a jurisdictional determination" means a  
11 permit applicant, landowner, a lease, easement or option holder, or other  
12 individual who has an identifiable and substantial legal interest in the  
13 property (or a person acting with the approval of any of the foregoing)  
14 who has received an approved jurisdictional determination.

15           8. "Permittee-responsible mitigation" means an aquatic resource  
16 restoration, establishment, enhancement, and/or preservation activity  
17 undertaken by the permittee (or an authorized agent or contractor) to  
18 provide compensatory mitigation for which the permittee retains full  
19 responsibility.

20           9. "Practicable" means available and capable of being done after  
21 taking into consideration cost, existing technology, and logistics in  
22 light of overall project purposes.

23           10. "Wetlands" means those areas that are inundated or saturated by  
24 surface or groundwater at a frequency and duration sufficient to support,  
25 and that under normal circumstances do support, a prevalence of vegetation  
26 typically adapted for life in saturated soil conditions. Wetlands  
27 generally include swamps, marshes, bogs, and similar areas.

28           Sec. 24. Section 49-256.01, Arizona Revised Statutes, is amended to  
29 read:

30           49-256.01. Dredge and fill permit program; permits; rules;  
31           prohibitions; exemptions; exceptions; notice

32           A. ~~For purposes of implementing~~ TO IMPLEMENT the permit program  
33 established by 33 United States Code section 1344, the director may  
34 establish by rule a dredge and fill permit program that is consistent with  
35 and ~~no~~ NOT more stringent than the clean water act dredge and fill  
36 program, including a permitting process.

37           B. During any period in which the state has been granted authority  
38 to administer the permit program established by 33 United States Code  
39 section 1344, a person may not discharge dredged or fill material unless  
40 the discharge is exempt under 33 United States Code section 1344(f) or  
41 rules adopted pursuant to this article, except under either of the  
42 following conditions:

43           1. In conformance with a permit that is issued or authorized under  
44 this article.

1           2. Pursuant to a permit that is issued or authorized by the United  
2 States army corps of engineers until a permit that is issued or authorized  
3 under this article takes effect.

4           C. Rules adopted by the director for the purposes of a permit  
5 program for dredge and fill shall:

6           1. Provide for issuing, authorizing, denying, modifying, suspending  
7 or revoking individual permits, general permits and emergency permits for  
8 the discharge of dredged or fill material into ~~navigable waters~~ WOTUS  
9 regulated by this state under the clean water act for purposes of  
10 implementing the permit program established by 33 United States Code  
11 section 1344.

12           2. Establish permit conditions that ensure compliance with the  
13 applicable requirements of section 404 of the clean water act, including  
14 the guidelines issued under 33 United States Code section 1344(b)(1).

15           3. Establish maintenance, monitoring, sampling, reporting,  
16 recordkeeping and any other permitting requirements as necessary to  
17 maintain primary enforcement responsibility or to determine compliance  
18 with this article.

19           4. Establish the following in accordance with 33 United States Code  
20 section 1344:

21           (a) Circumstances and activities that do not require a dredge or  
22 fill permit.

23           (b) Activities that are exempt from the requirements of this  
24 article for any discharge or fill material that may result from those  
25 activities, and the conditions under which those activities are exempt.

26           (c) Circumstances under which a discharge of dredged or fill  
27 material shall not be permitted.

28           5. Establish procedures for the director to make jurisdictional  
29 determinations that determine whether a wetland or waterbody is a  
30 ~~navigable water~~ WOTUS subject to regulatory jurisdiction under this  
31 article. Jurisdictional determinations:

32           (a) Shall be in writing and be identified as either preliminary or  
33 approved.

34           (b) Do not include determinations that a particular activity  
35 requires a permit under this article.

36           6. Establish public notice and comment procedures as necessary to  
37 maintain primacy for the dredge and fill PERMIT program and as the  
38 director deems appropriate to inform the public.

39           7. Provide for any other provisions necessary to maintain state  
40 primary enforcement responsibility under 33 United States Code section  
41 1344 and to implement the provisions of this article.

42           D. Approved jurisdictional determinations are appealable agency  
43 actions as defined by section 41-1092 and may be appealed by a party  
44 affected by a jurisdictional determination. Preliminary jurisdictional  
45 determinations are not appealable agency actions and notwithstanding

1 section 41-1092.03, the right to appeal an approved jurisdictional  
2 determination does not extend to adjacent landowners or to third parties  
3 that are not parties affected by a jurisdictional determination.

4 E. On assuming authority to administer the permit program  
5 established by 33 United States Code section 1344, the department shall:

6 1. On request by a party affected by a jurisdictional  
7 determination, recognize and adopt any existing approved jurisdictional  
8 determinations that were originally issued by the United States army corps  
9 of engineers if the federal definition of ~~navigable waters~~ WOTUS that is  
10 applicable in this state has not changed since the issuance of the  
11 approved jurisdictional determinations.

12 2. On request by a party affected by a jurisdictional  
13 determination, renew approved jurisdictional determinations that were  
14 originally issued by the United States army corps of engineers on the same  
15 terms as the original unless:

16 (a) Physical changes have occurred affecting the determination that  
17 are likely to alter the jurisdictional status.

18 (b) The federal definition of ~~navigable waters~~ WOTUS that is  
19 applicable in this state has changed since the issuance of the approved  
20 jurisdictional determinations.

21 (c) Additional field data show that the original determination was  
22 based on inaccurate data and the new data warrant a revision to the  
23 original determination.

24 F. The program established pursuant to this article is exempt from  
25 section 41-3102.

26 Sec. 25. Section 49-256.02, Arizona Revised Statutes, is amended to  
27 read:

28 49-256.02. Compensatory mitigation

29 A. As a part of the program established pursuant to section  
30 49-256.01, and consistent with the guidelines established pursuant to  
31 33 United States Code section 1344(b)(1), the director shall establish by  
32 rule standards and criteria for the use of all types of compensatory  
33 mitigation, including on-site and off-site permittee-responsible  
34 mitigation, mitigation banks and in-lieu fee mitigation to offset  
35 unavoidable impacts to ~~navigable waters~~ WOTUS authorized by permits issued  
36 under this article.

37 B. Mitigation banks and in-lieu fee programs may be used to  
38 compensate for unavoidable impacts to ~~navigable waters~~ WOTUS that are  
39 authorized by general permits and individual permits, including  
40 after-the-fact permits, in accordance with rules established pursuant to  
41 this section. In addition to other potential injunctive relief or other  
42 relief requested under section 49-262, mitigation banks and in-lieu fee  
43 programs may be used to satisfy requirements arising from an enforcement  
44 action under this article.

1 C. Rules established by the director pursuant to this section shall  
2 identify alternative compensatory mitigation options for a permit  
3 applicant if an approved mitigation bank or in-lieu fee program that is  
4 located in the same watershed as the permit applicant's proposed discharge  
5 rejects that permit applicant's participation in that mitigation bank or  
6 in-lieu fee program.

7 Sec. 26. Section 49-261, Arizona Revised Statutes, is amended to  
8 read:

9 49-261. Compliance orders; appeal; enforcement

10 A. If the director determines that a person is in violation of a  
11 rule adopted or a condition of a permit issued pursuant to section 49-203,  
12 subsection A, paragraph ~~6~~ 7, any provision of article 2, 3, 3.1, ~~or~~ 3.2  
13 or 3.3 of this chapter, a rule adopted pursuant to article 2, 3, 3.1, ~~or~~  
14 3.2 or 3.3 of this chapter, a discharge limitation or any other condition  
15 of a permit issued under article 2, 3, 3.1, ~~or~~ 3.2 or 3.3 of this chapter  
16 or is creating an imminent and substantial endangerment to the public  
17 health or environment, the director may issue an order requiring  
18 compliance within a reasonable time period.

19 B. A compliance order shall state with reasonable specificity the  
20 nature of the violation, a time for compliance if applicable and the right  
21 to a hearing.

22 C. A compliance order shall be transmitted to the alleged violator  
23 by certified mail, return receipt requested, or by personal service.

24 D. A compliance order becomes final and enforceable in the superior  
25 court unless within thirty days after the receipt of the order the alleged  
26 violator requests a hearing before an administrative law judge. If a  
27 hearing is requested, the order does not become final until the  
28 administrative law judge has issued a final decision on the appeal.  
29 Appeals shall be conducted pursuant to section 49-321.

30 E. At the request of the director the attorney general may commence  
31 an action in superior court to enforce orders issued under this section  
32 once an order becomes final.

33 Sec. 27. Section 49-262, Arizona Revised Statutes, is amended to  
34 read:

35 49-262. Injunctive relief; civil penalties; recovery of  
36 litigation costs; affirmative defense

37 A. Whether or not a person has requested a hearing, the director,  
38 through the attorney general, may request a temporary restraining order, a  
39 preliminary injunction, a permanent injunction or any other relief  
40 necessary to protect the public health if the director has reason to  
41 believe either of the following:

42 1. That a person is in violation of:

43 (a) Any provision of article 2, 3, 3.1, 3.2 or 3.3 of this chapter.

44 (b) A rule adopted pursuant to section 49-203, subsection A,  
45 paragraph ~~6~~ 7.

1 (c) A rule adopted pursuant to article 2, 3, 3.1, 3.2 or 3.3 of  
2 this chapter.

3 (d) A discharge limitation or any other condition of a permit  
4 issued under article 2, 3, 3.1, 3.2 or 3.3 of this chapter.

5 2. That a person is creating an actual or potential endangerment to  
6 the public health or environment because of acts performed ~~in violation of~~  
7 **THAT VIOLATE** this chapter.

8 B. Notwithstanding any other provision of this chapter, if the  
9 director, the county attorney or the attorney general has reason to  
10 believe that a person is creating an imminent and substantial endangerment  
11 to the public health or environment because of acts performed ~~in violation~~  
12 ~~of~~ **THAT VIOLATE** article 2, 3, 3.1, 3.2 or 3.3 of this chapter or a rule  
13 adopted or a condition of a permit issued pursuant to section 49-203,  
14 subsection A, paragraph 2, ~~6- 7~~ or ~~7- 8~~, the county attorney or attorney  
15 general may request a temporary restraining order, a preliminary  
16 injunction, a permanent injunction or any other relief necessary to  
17 protect the public health.

18 C. A person who violates any provision of article 2, 3, 3.1 or 3.2  
19 of this chapter or a rule, permit, discharge limitation or order issued or  
20 adopted pursuant to article 2, 3, 3.1 or 3.2 of this chapter is subject to  
21 a civil penalty of not more than \$25,000 per day per violation. A person  
22 who violates any rule adopted or a condition of a permit issued pursuant  
23 to section 49-203, subsection A, paragraph ~~6- 7~~ is subject to a civil  
24 penalty of not more than \$5,000 per day per violation. A person who  
25 violates any rule adopted, permit condition or other provision of article  
26 3.3 of this chapter is subject to a civil penalty of not more than \$5,000  
27 per day per violation. The attorney general may, and at the request of  
28 the director shall, commence an action in superior court to recover civil  
29 penalties provided by this section.

30 D. The court, in issuing any final order in any civil action  
31 brought under this section, may award costs of litigation, including  
32 reasonable attorney and expert witness fees, to any substantially  
33 prevailing party if the court determines such an award is appropriate. If  
34 a temporary restraining order is sought, the court may require the filing  
35 of a bond or equivalent security.

36 E. All civil penalties except litigation costs obtained under this  
37 section shall be deposited, pursuant to sections 35-146 and 35-147, in the  
38 state general fund.

39 F. Except as applied to permits issued or authorized pursuant to  
40 article 3.1, 3.2 or 3.3 of this chapter, it is an affirmative defense to  
41 civil liability under this section and section 49-261 for causing or  
42 contributing to a violation of a water quality standard established  
43 pursuant to this chapter, or a violation of a permit condition prohibiting  
44 a violation of an aquifer water quality standard or limitation at the  
45 point of compliance or a surface water quality standard if the release

1 that caused or contributed to the violation came from a facility owned or  
2 operated by a party that has either:

3 1. Undertaken a remedial or response action approved by the  
4 director or the administrator under this title or CERCLA in response to  
5 the release of a hazardous substance, pollutant or contaminant that caused  
6 or contributed to the violation of article 2 of this chapter and is in  
7 compliance with that remedial or response action.

8 2. Otherwise resolved its liability for the release of a hazardous  
9 substance that caused or contributed to the violation of article 2 of this  
10 chapter in whole or in part by the execution of a settlement agreement or  
11 consent decree with the director or administrator under this article,  
12 CERCLA or any other environmental law and is in compliance with that  
13 settlement agreement or consent decree.

14 G. Subsection F of this section does not prevent the director from  
15 taking an appropriate enforcement action to address the release of a  
16 hazardous substance, pollutant or contaminant or the violation of a permit  
17 condition before or as an element of an approved remedial or response  
18 action, settlement agreement or consent decree.

19 H. In determining the amount of a civil penalty for a violation  
20 under article 3, 3.1, 3.2 or 3.3 of this chapter, the court shall consider  
21 the following factors:

22 1. The seriousness of the violation or violations.

23 2. The economic benefit, if any, that results from the violation.

24 3. Any history of similar violations.

25 4. Any good faith efforts to comply with the applicable  
26 requirements.

27 5. The economic impact of the penalty on the violator.

28 6. The extent to which the violation was caused by a third party.

29 7. Other matters as justice may require.

30 I. A single operational upset that leads to simultaneous violations  
31 of more than one pollutant limitation in a permit issued or authorized  
32 pursuant to section 49-255.01 constitutes a single violation for purposes  
33 of any penalty calculation.

34 J. If a permittee holds both a permit issued or authorized pursuant  
35 to article 3 of this chapter and a permit issued or authorized pursuant to  
36 article 3.1, 3.2 or 3.3 of this chapter and the permittee violates a  
37 similar provision in both permits simultaneously, the department shall not  
38 recover penalties for violations of both permits based on the same act or  
39 omission.

40 K. For a wastewater treatment facility or system that is regulated  
41 as a public service corporation by the corporation commission, the  
42 department may make a written request to the corporation commission to  
43 take necessary corrective actions within thirty calendar days after both  
44 of the following occur:

45 1. The department does any one or more of the following:

1 (a) Determines that the wastewater treatment facility or system is  
2 out of compliance with an administrative order issued by the department  
3 for a violation of this chapter.

4 (b) Files a civil action against the owner or operator of the  
5 wastewater treatment facility or system for a violation of this chapter.

6 (c) Determines that an emergency exists with respect to the  
7 wastewater treatment facility or system.

8 2. The department determines that the corporation commission taking  
9 necessary corrective actions would expedite the wastewater treatment  
10 facility's or system's return to compliance with this chapter.

11 Sec. 28. Section 49-371, Arizona Revised Statutes, is amended to  
12 read:

13 49-371. Local stormwater quality programs; authority;  
14 limitations; fee; civil penalty; definition

15 A. A county that is required by the clean water act to obtain  
16 coverage under a national or state pollutant discharge elimination system  
17 stormwater program OR A COUNTY THAT IS REQUIRED TO OBTAIN COVERAGE UNDER  
18 AN ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT PURSUANT TO  
19 ARTICLE 3.1 OF THIS CHAPTER may do all of the following:

20 1. Develop and implement stormwater pollution prevention plans and  
21 stormwater management programs as prescribed by the clean water act OR  
22 ARTICLE 3.1 OF THIS CHAPTER.

23 2. Adopt, amend, repeal and implement any ordinances, rules or  
24 regulations necessary to comply with the minimum requirements of the clean  
25 water act OR ARTICLE 3.1 OF THIS CHAPTER, including the imposition and  
26 collection of fees for issuing and administering permits, reviewing plans  
27 and conducting inspections. Any fees imposed pursuant to this section  
28 shall not exceed the reasonable costs of the county to issue and  
29 administer permits, review plans and conduct inspections. Fees collected  
30 pursuant to this section may not be used to fund stormwater infrastructure  
31 costs.

32 3. Adopt rules, regulations or ordinances regulating the use of  
33 lands or rights-of-way owned or leased by the county as may be necessary  
34 to implement and enforce its national or state pollutant discharge  
35 elimination system stormwater management program. Rules, regulations or  
36 ordinances adopted pursuant to this paragraph may include provisions for  
37 both of the following:

38 (a) ~~Establishment~~ ESTABLISHING and ~~enforcement~~ ENFORCING of a  
39 county permit program, including conditions for the review, issuance,  
40 revision, renewal, revocation, administration and enforcement of a permit.

41 (b) ~~Establishment~~ ESTABLISHING of fees for the use of lands or  
42 rights-of-way and the discharge of stormwater or other waters onto or  
43 across those lands or rights-of-way pursuant to a permit.

44 4. Enforce the ordinances, rules or regulations adopted pursuant to  
45 this section consistent with section 49-372.

1           5. Seek a civil penalty of not more than ~~two thousand five hundred~~  
2 ~~dollars~~ \$2,500 for each violation. Each day of a violation constitutes a  
3 separate offense.

4           B. An ordinance, rule or regulation adopted pursuant to this  
5 section, or a stormwater management program developed and implemented by a  
6 county pursuant to this section, shall not be more stringent than or  
7 conflict with any requirement of the clean water act OR ARTICLE 3.1 OF  
8 THIS CHAPTER. A CITY, TOWN OR COUNTY MAY NOT REGULATE UNDER THIS SECTION  
9 ANY ACTIVITY THAT DOES NOT DISCHARGE TO A PROTECTED SURFACE WATER.

10          C. A county that operates a regulated small municipal separate  
11 storm sewer system THAT DISCHARGES TO A PROTECTED SURFACE WATER shall  
12 conduct its pollutant discharge elimination system stormwater management  
13 program and shall limit the application of any ordinance, rule or  
14 regulation as follows:

15           1. In urbanized areas as described in 40 Code of Federal  
16 Regulations section 122.32 as necessary to meet the requirements of 40  
17 Code of Federal Regulations section 122.34(b)(3). FOR SMALL MUNICIPAL  
18 SEPARATE STORM SEWER SYSTEMS THAT DISCHARGE TO NON-WOTUS PROTECTED SURFACE  
19 WATERS, THE COUNTY SHALL APPLY THIS PARAGRAPH AS IF THE SMALL MUNICIPAL  
20 SEPARATE STORM SEWER SYSTEM DISCHARGED TO A WOTUS PROTECTED SURFACE WATER.

21           2. As necessary to meet the requirements of public education and  
22 outreach, public involvement and participation as provided by the clean  
23 water act OR ARTICLE 3.1 OF THIS CHAPTER.

24          D. ~~For the purposes of this section and~~ Except as required by the  
25 clean water act, a county may not require a permit from any person with a  
26 federal or state pollutant discharge elimination system permit regulating  
27 the same activity at the same location.

28          E. ~~For the purposes of this section and~~ Except as required by 40  
29 Code of Federal Regulations section 122.34, a county may not regulate any  
30 person or activity exempt under 33 United States Code section 1342(l), 40  
31 Code of Federal Regulations section 122.3 or Arizona administrative code  
32 ~~18-9-A902(G)~~ R18-9-A902(G).

33          F. ~~For the purposes of~~ IF adopting an ordinance, rule or regulation  
34 pursuant to this section, a county shall use the definitions prescribed in  
35 section 49-255.

36          G. Fees received by a county pursuant to an ordinance or rule  
37 adopted pursuant to this article shall be deposited with the county for  
38 use in administering the programs or plans developed and implemented  
39 pursuant to this section.

40          H. Before adopting any ordinance, rule or regulation pursuant to  
41 this section, a county shall file with the secretary of state a written  
42 statement including a summary of the proposed rule, ordinance or other  
43 regulation. The summary shall provide the name of the person with the  
44 county to contact with questions or comments. The secretary of state  
45 shall publish the written statement in the next issue of the Arizona

1 administrative register at no cost to the county. The county shall make  
2 the text of the rule, ordinance or other regulation available to the  
3 public at the same time it files the written summary of the rule,  
4 ordinance or other regulation with the secretary of state as provided in  
5 this subsection. The county shall also comply with the requirements of  
6 section 49-112, subsection D, paragraphs 2, 3 and 4.

7 I. For the purposes of this article, "county" means a county that  
8 operates a regulated small municipal separate ~~stormwater~~ STORM SEWER  
9 system pursuant to 40 Code of Federal Regulations section 122.32. FOR  
10 SMALL MUNICIPAL SEPARATE STORM SEWER SYSTEMS THAT DISCHARGE TO NON-WOTUS  
11 PROTECTED SURFACE WATERS, THIS DEFINITION SHALL APPLY AS IF THE SMALL  
12 MUNICIPAL SEPARATE STORM SEWER SYSTEM DISCHARGED TO A WOTUS PROTECTED  
13 SURFACE WATER.

14 Sec. 29. Section 49-391, Arizona Revised Statutes, is amended to  
15 read:

16 49-391. Local enforcement of water pretreatment requirements;  
17 civil penalties

18 A. A city, town, county or sanitary district of this state may  
19 adopt, amend or repeal any ordinances necessary for implementing and  
20 enforcing the pretreatment requirements under the federal water pollution  
21 control act amendments of 1972 (P.L. 92-500; 86 Stat. 816; 33 United  
22 States Code sections 1251 through 1376), as amended, AND ARTICLE 3.1 OF  
23 THIS CHAPTER and enforce the ordinances by imposing and recovering a civil  
24 penalty of not more than ~~twenty-five thousand dollars~~ \$25,000 for each  
25 violation as prescribed by this section. For continuing violations, each  
26 day may constitute a separate offense.

27 B. A city, town, county or sanitary district shall not receive  
28 civil penalties under this section if an interested person, the United  
29 States, this state, or another city, town, county or sanitary district has  
30 received civil penalties or is diligently prosecuting a civil penalty  
31 action in a court of the United States or this state, or in an  
32 administrative enforcement proceeding, with respect to the same  
33 allegations, standard, requirement, or order. This state, and any city,  
34 town, county or sanitary district of this state that is or may be affected  
35 by a civil, judicial or administrative action, may intervene as a matter  
36 of right in any pending civil, judicial or administrative action for  
37 purposes of obtaining injunctive or declaratory relief.

38 C. The city, town, county or sanitary district may seek compliance  
39 with pretreatment ordinances and recovery of the civil penalties provided  
40 by this section either by an action in superior court or by a negotiated  
41 settlement agreement. Before a consent decree filed with superior court  
42 or a negotiated settlement becomes final, the city, town, county or  
43 sanitary district seeking compliance shall provide a period of thirty days  
44 for public comment. In determining the amount of a civil penalty the  
45 court and the city, town, county or sanitary district shall consider:

- 1           1. The seriousness of the violation.
- 2           2. The economic benefit, if any, resulting from the violation.
- 3           3. Any history of such violation.
- 4           4. Any good faith efforts to comply with the applicable
- 5 requirements.
- 6           5. The economic impact of the penalty on the violator.
- 7           6. Such other factors as justice may require.
- 8           D. In addition to the remedies provided in this section,
- 9 enforcement of such ordinances may include injunctive or other equitable
- 10 relief.
- 11           E. All monies collected pursuant to an ordinance adopted under this
- 12 section shall be deposited with the respective city, town, county or
- 13 sanitary district.
- 14           Sec. 30. Section 49-701, Arizona Revised Statutes, is amended to
- 15 read:
- 16           49-701. Definitions
- 17           In this chapter, unless the context otherwise requires:
- 18           1. "Administratively complete plan" means an application for a
- 19 solid waste facility plan approval that the department has determined
- 20 contains each of the components required by statute or rule but that has
- 21 not undergone technical review or public notice by the department.
- 22           2. "Administrator" means the administrator of the United States
- 23 environmental protection agency.
- 24           3. "Closed solid waste facility" means any of the following:
- 25           (a) A solid waste facility that ceases storing, treating,
- 26 processing or receiving for disposal solid waste before the effective date
- 27 of design and operation rules for that type of facility adopted pursuant
- 28 to section 49-761.
- 29           (b) A public solid waste landfill that meets any of the following
- 30 criteria:
- 31           (i) Ceased receiving solid waste prior to July 1, 1983.
- 32           (ii) Ceased receiving solid waste and received at least two feet of
- 33 cover material prior to January 1, 1986.
- 34           (iii) Received approval for closure from the department.
- 35           (c) A public composting plant or a public incinerating facility
- 36 that closed in accordance with an approved plan.
- 37           4. "Conditionally exempt small quantity generator waste" means
- 38 hazardous waste in quantities as defined by rules adopted pursuant to
- 39 section 49-922.
- 40           5. "Construction debris" means solid waste derived from the
- 41 construction, repair or remodeling of buildings or other structures.
- 42           6. "County" means:
- 43           (a) The board of supervisors in the context of the exercise of
- 44 powers or duties.

- 1 (b) The unincorporated areas in the context of area of  
2 jurisdiction.
- 3 7. "Demolition debris" means solid waste derived from the  
4 demolition of buildings or other structures.
- 5 8. "Discharge" has the same meaning prescribed in section 49-201.
- 6 9. "Existing solid waste facility" means a solid waste facility  
7 that begins construction or is in operation on the effective date of the  
8 design and operation rules adopted by the director pursuant to section  
9 49-761 for that type of solid waste facility.
- 10 10. "Facility plan" means any design or operating plan for a solid  
11 waste facility or group of solid waste facilities.
- 12 11. "40 C.F.R. part 257" means 40 Code of Federal Regulations part  
13 257 in effect on May 1, 2004.
- 14 12. "40 C.F.R. part 258" means 40 Code of Federal Regulations part  
15 258 in effect on May 1, 2004.
- 16 13. "Household hazardous waste" means solid waste as described in 40  
17 Code of Federal Regulations section 261.4(b)(1) as incorporated by  
18 reference in the rules adopted pursuant to chapter 5 of this title.
- 19 14. "Household waste" means any solid waste including garbage,  
20 rubbish and sanitary waste from septic tanks that is generated from  
21 households including single and ~~multiple-family~~ MULTIPLE-FAMILY  
22 residences, hotels and motels, bunkhouses, ranger stations, crew quarters,  
23 campgrounds, picnic grounds and day use recreation areas, not including  
24 construction debris, landscaping rubble or demolition debris.
- 25 15. "Inert material":
- 26 (a) Means material that satisfies all of the following conditions:
- 27 (i) Is not flammable.
- 28 (ii) Will not decompose.
- 29 (iii) Will not leach substances in concentrations that exceed  
30 applicable aquifer water quality standards prescribed by section 49-201,  
31 paragraph ~~20~~ 22 when subjected to a water leach test that is designed to  
32 approximate natural infiltrating waters.
- 33 (b) Includes concrete, asphaltic pavement, brick, rock, gravel,  
34 sand, soil and metal, if used as reinforcement in concrete, but does not  
35 include special waste, hazardous waste, glass or other metal.
- 36 16. "Land disposal" means placement of solid waste in or on land.
- 37 17. "Landscaping rubble" means material that is derived from  
38 landscaping or reclamation activities and that may contain inert material  
39 and ~~no~~ NOT more than ten ~~per cent~~ PERCENT by volume of vegetative waste.
- 40 18. "Management agency" means any person responsible for the  
41 day-to-day operation, maintenance and management of a particular public  
42 facility or group of public facilities.
- 43 19. "Medical waste" means any solid waste ~~which~~ THAT is generated in  
44 the diagnosis, treatment or immunization of a human being or animal or in  
45 any research relating to that diagnosis, treatment or immunization, or in

1 the production or testing of biologicals, and includes discarded drugs but  
2 does not include hazardous waste as defined in section 49-921 other than  
3 conditionally exempt small quantity generator waste.

4 20. "Municipal solid waste landfill" means any solid waste landfill  
5 that accepts household waste, household hazardous waste or conditionally  
6 exempt small quantity generator waste.

7 21. "New solid waste facility" means a solid waste facility that  
8 begins construction or operation after the effective date of design and  
9 operating rules that are adopted pursuant to section 49-761 for that type  
10 of solid waste facility.

11 22. "On site" means the same or geographically contiguous property  
12 that may be divided by public or private right-of-way if the entrance and  
13 exit between the properties are at a crossroads intersection and access is  
14 by crossing the right-of-way and not by traveling along the right-of-way.  
15 Noncontiguous properties that are owned by the same person and connected  
16 by a right-of-way that is controlled by that person and to which the  
17 public does not have access are deemed on site property. Noncontiguous  
18 properties that are owned or operated by the same person regardless of  
19 right-of-way control are also deemed on site property.

20 23. "Person" means any public or private corporation, company,  
21 partnership, firm, association or society of persons, the federal  
22 government and any of its departments or agencies, this state or any of  
23 its agencies, departments, political subdivisions, counties, towns or  
24 municipal corporations, as well as a natural person.

25 24. "Process" or "processing" means the reduction, separation,  
26 recovery, conversion or recycling of solid waste.

27 25. "Public solid waste facility" means a transfer facility and any  
28 site owned, operated or utilized by any person for the storage,  
29 processing, treatment or disposal of solid waste that is not generated on  
30 site.

31 26. "Recycling facility" means a solid waste facility that is owned,  
32 operated or used for the storage, treatment or processing of recyclable  
33 solid waste and that handles wastes that have a significant adverse effect  
34 on the environment.

35 27. "Salvaging" means the removal of solid waste from a solid waste  
36 facility with the permission and in accordance with rules or ordinances of  
37 the management agency for purposes of productive reuse.

38 28. "Scavenging" means the unauthorized removal of solid waste from  
39 a solid waste facility.

40 29. "Solid waste facility" means a transfer facility and any site  
41 owned, operated or ~~utilized~~ USED by any person for the storage,  
42 processing, treatment or disposal of solid waste, conditionally exempt  
43 small quantity generator waste or household hazardous waste but does not  
44 include the following:

1 (a) A site at which less than one ton of solid waste that is not  
2 household waste, household hazardous waste, conditionally exempt small  
3 quantity generator waste, medical waste or special waste and that was  
4 generated on site is stored, processed, treated or disposed in compliance  
5 with section 49-762.07, subsection F.

6 (b) A site at which solid waste that was generated on site is  
7 stored for ninety days or less.

8 (c) A site at which nonputrescible solid waste that was generated  
9 on site in amounts of less than one thousand kilograms per month per type  
10 of nonputrescible solid waste is stored and contained for one hundred  
11 eighty days or less.

12 (d) A site that stores, treats or processes paper, glass, wood,  
13 cardboard, household textiles, scrap metal, plastic, vegetative waste,  
14 aluminum, steel or other recyclable material and that is not a waste tire  
15 facility, a transfer facility or a recycling facility.

16 (e) A site where sludge from a wastewater treatment facility is  
17 applied to the land as a fertilizer or beneficial soil amendment in  
18 accordance with sludge application requirements.

19 (f) A closed solid waste facility.

20 (g) A solid waste landfill that is performing or has completed  
21 postclosure care before July 1, 1996 in accordance with an approved  
22 postclosure plan.

23 (h) A closed solid waste landfill performing a onetime removal of  
24 solid waste from the closed solid waste landfill, if the operator provides  
25 a written notice that describes the removal project to the department  
26 within thirty days after completion of the removal project.

27 (i) A site where solid waste generated in street sweeping  
28 activities is stored, processed or treated prior to disposal at a solid  
29 waste facility authorized under this chapter.

30 (j) A site where solid waste generated at either a drinking water  
31 treatment facility or a wastewater treatment facility is stored,  
32 processed, or treated on site prior to disposal at a solid waste facility  
33 authorized under this chapter, and any discharge is regulated pursuant to  
34 chapter 2, article 3 of this title.

35 (k) A closed solid waste landfill where development activities  
36 occur on the property or where excavation or removal of solid waste is  
37 performed for maintenance and repair provided the following conditions are  
38 met:

39 (i) When the project is completed there will not be an increase in  
40 leachate that would result in a discharge.

41 (ii) When the project is completed the concentration of methane gas  
42 will not exceed twenty-five ~~per cent~~ PERCENT of the lower explosive limit  
43 in on-site structures, or the concentration of methane gas will not exceed  
44 the lower explosive limit at the property line.

- 1 (iii) Protection has been provided to prevent remaining waste from  
2 causing any vector, odor, litter or other environmental nuisance.
- 3 (iv) The operator provides a notice to the department containing  
4 the information required by section 49-762.07, subsection A, paragraphs 1,  
5 2 and 5 and a brief description of the project.
- 6 (l) Agricultural on-site disposal as provided in section 49-766.
- 7 (m) The use, storage, treatment or disposal of by-products of  
8 regulated agricultural activities as defined in section 49-201 and that  
9 are subject to best management practices pursuant to section 49-247 or  
10 by-products of livestock, range livestock and poultry as defined in  
11 section 3-1201, pesticide containers that are regulated pursuant to title  
12 3, chapter 2, article 6 or other agricultural crop residues.
- 13 (n) Household hazardous waste collection events held at a temporary  
14 site for not more than six days in any calendar quarter.
- 15 (o) Wastewater treatment facilities as defined in section 49-1201.
- 16 (p) An on-site ~~single-family~~ SINGLE-FAMILY household waste  
17 composting facility.
- 18 (q) A site at which five hundred or fewer waste tires are stored.
- 19 (r) A site at which mining industry off-road waste tires are stored  
20 or are disposed of as prescribed by rules in effect on February 1, 1996,  
21 until the director by rule determines that on-site recycling methods exist  
22 that are technically feasible and economically practical.
- 23 (s) A site at which underground piping, conduit, pipe covering or  
24 similar structures are abandoned in place in accordance with applicable  
25 state and federal laws.
- 26 30. "Solid waste landfill" means a facility, area of land or  
27 excavation in which solid wastes are placed for permanent disposal. Solid  
28 waste landfill does not include a land application unit, surface  
29 impoundment, injection well, compost pile or waste pile or an area  
30 containing ash from the on-site combustion of coal that does not contain  
31 household waste, household hazardous waste or conditionally exempt small  
32 quantity generator waste.
- 33 31. "Solid waste management" means the systematic administration of  
34 activities ~~which~~ THAT provide for the collection, source separation,  
35 storage, transportation, transfer, processing, treatment or disposal of  
36 solid waste in a manner that protects public health and safety and the  
37 environment and prevents and abates environmental nuisances.
- 38 32. "Solid waste management plan" means the plan ~~which~~ THAT is  
39 adopted pursuant to section 49-721 and ~~which~~ THAT provides guidelines for  
40 the collection, source separation, storage, transportation, processing,  
41 treatment, reclamation and disposal of solid waste in a manner that  
42 protects public health and safety and the environment and prevents and  
43 abates environmental nuisances.
- 44 33. "Storage" means the holding of solid waste.

1           34. "Transfer facility" means a site that is owned, operated or used  
2 by any person for the rehandling or storage for ninety days or less of  
3 solid waste that was generated off site for the primary purpose of  
4 transporting that solid waste. Transfer facility includes those  
5 facilities that include significant solid waste transfer activities that  
6 warrant the facility's regulation as a transfer facility.

7           35. "Treatment" means any method, technique or process used to  
8 change the physical, chemical or biological character of solid waste so as  
9 to render that waste safer for transport, amenable for processing,  
10 amenable for storage or reduced in volume.

11           36. "Vegetative waste" means waste derived from plants, including  
12 tree limbs and branches, stumps, grass clippings and other waste plant  
13 material. Vegetative waste does not include processed lumber, paper,  
14 cardboard and other manufactured products that are derived from plant  
15 material.

16           37. "Waste pile" means any noncontainerized accumulation of solid,  
17 nonflowing waste that is used for treatment or storage.

18           38. "Waste tire" does not include tires used for agricultural  
19 purposes as bumpers on agricultural equipment or as ballast to maintain  
20 covers at an agricultural site, or any tire disposed of using any of the  
21 methods in section 44-1304, subsection D, paragraphs 1, 2, 3, 5 through 8  
22 and 11 and means any of the following:

23           (a) A tire that is no longer suitable for its original intended  
24 purpose because of wear, damage or defect.

25           (b) A tire that is removed from a motor vehicle and is retained for  
26 further use.

27           (c) A tire that has been chopped or shredded.

28           39. "Waste tire facility" means a solid waste facility at which  
29 five thousand or more waste tires are stored outdoors on any day.

APPROVED BY THE GOVERNOR MAY 5, 2021.

FILED IN THE OFFICE OF THE SECRETARY OF STATE MAY 5, 2021.

**§ 49-202. Designation of state agency**

A. The department is designated as the agency for this state for all purposes of the clean water act, including section 505, the resource conservation and recovery act, including section 7002, and the safe drinking water act. The department may take all actions necessary to administer and enforce these acts as provided in this section, including entering into contracts, grants and agreements, adopting, modifying or repealing rules, and initiating administrative and judicial actions to secure to this state the benefits, rights and remedies of such acts.

B. The department shall process requests under section 401 of the clean water act for certification of permits required by section 404 of the clean water act in accordance with subsections C through I of this section. Subsections C, D, G and I of this section apply to the certification of nationwide or general permits issued under section 404 of the clean water act. If the department has denied or failed to act on certification of a nationwide permit or general permit, subsections C through I of this section apply to the certification of applications for or notices of coverage under those permits.

C. The department shall review the application for section 401 certification solely to determine whether the effect of the discharge will comply with the water quality standards for WOTUS established by department rules adopted pursuant to section 49-221, subsection A, and section 49-222. The department's review shall extend only to activities conducted within the ordinary high watermark of WOTUS. To the extent that any other standards are considered applicable pursuant to section 401(a)(1) of the clean water act, certification of these standards is waived.

D. The department may include only those conditions on certification under section 401 of the clean water act that are required to ensure compliance with the standards identified in subsection C of this section. The department may impose reporting and monitoring requirements as conditions of certification under section 401 of the clean water act only in accordance with department rules.

E. The department may request supplemental information from the section 401 certification applicant if the information is necessary to make the certification determination pursuant to subsection C of this section. The department shall request this information in writing. The request shall specifically describe the information requested. After receipt of the applicant's written response to a request for supplemental information, the department shall either issue a written determination that the application is complete or request specific additional information. The applicant may

deem any additional requests for supplemental information as a denial of certification for the purposes of subsection I of this section. In all other instances, the application is complete on submission of the information requested by the department.

F. The department shall grant or deny section 401 certification and shall send a written notice of the department's decision to the applicant after receipt of a complete application for certification. Written notice of a denial of section 401 certification shall include a detailed description of the reasons for denial.

G. The department may waive its right to certification by giving written notice of that waiver to the applicant. The department's failure to act on an application is deemed a waiver pursuant to this subsection and section 401(a)(2) of the clean water act.

H. The department shall adopt rules specifying the information the department requires an applicant to submit under this section in order to make the determination required by subsections C and D of this section. Until these rules are adopted, the department shall require an applicant to submit only the following information for certification under this section:

1. The name, address and telephone number of the applicant.
2. A description of the project to be certified, including an identification of the WOTUS in which the certified activities will occur.
3. The project location, including latitude, longitude and a legal description.
4. A United States geological service topographic map or other contour map of the project area, if available.
5. A map delineating the ordinary high watermark of WOTUS affected by the activity to be certified.
6. A description of any measures to be applied to the activities being certified in order to control the discharge of pollutants to WOTUS from those activities.
7. A description of the materials being discharged to or placed in WOTUS.
8. A copy of the application for a federal permit or license that is the subject of the requested certification.

I. Pursuant to title 41, chapter 6, article 10 an applicant for certification may appeal a denial of certification or any conditions imposed on certification.

Any person who is or may be adversely affected by the denial of or imposition of conditions on the certification of a nationwide or general permit may appeal that decision pursuant to title 41, chapter 6, article 10.

J. Certification under section 401 of the clean water act is automatically granted for quarrying, crushing and screening of nonmetallic minerals in ephemeral waters if all of the following conditions are satisfied within the ordinary high watermark of jurisdictional waters:

1. There is no disposal of construction and demolition wastes and contaminated wastewater.
2. Water for dust suppression, if used, does not contain contaminants that could violate water quality standards.
3. Pollution from the operation of equipment in the mining area is removed and properly disposed.
4. Stockpiles of processed materials containing ten percent or more of particles of silt are placed or stabilized to minimize loss or erosion during flow events. for the purposes of this paragraph, "silt" means particles finer than 0.0625 millimeter diameter on a dry weight basis.
5. Measures are implemented to minimize upstream and downstream scour during flood events to protect the integrity of buried pipelines.
6. On completion of quarrying operations in an area, areas denuded of shrubs and woody vegetation are revegetated to the maximum extent practicable.

K. For the purposes of subsection J of this section, "ephemeral waters" means waters of the state that have been designated as ephemeral in rules adopted by the department.

L. Certification under section 401 of the clean water act is automatically granted for any license or permit required for:

1. Corrective actions taken pursuant to chapter 6, article 1 of this title in response to a release of a regulated substance as defined in section 49-1001 except for those off-site facilities that receive for treatment or disposal materials that are contaminated with a regulated substance and that are received as part of a corrective action.
2. Response or remedial actions undertaken pursuant to chapter 2, article 5 of this title or pursuant to CERCLA.

3. Corrective actions taken pursuant to chapter 5, article 1 of this title or the resource conservation and recovery act of 1976, as amended (42 United States Code sections 6901 through 6992).

4. Other remedial actions that have been reviewed and approved by the appropriate government authority and taken pursuant to applicable federal or state laws.

M. The department of environmental quality is designated as the state water pollution control agency for this state for all purposes of CERCLA, except that the department of water resources has joint authority with the department of environmental quality to conduct feasibility studies and remedial investigations relating to groundwater quality and may enter into contracts and cooperative agreements under section 104 of CERCLA for such studies and remedial investigations. The department of environmental quality may take all action necessary or appropriate to secure to this state the benefits of the act, and all such action shall be taken at the direction of the director of environmental quality as the director's duties are prescribed in this chapter.

N. The director and the department of environmental quality may enter into an interagency contract or agreement with the director of water resources under title 11, chapter 7, article 3 to implement the provisions of section 104 of CERCLA and to carry out the purposes of subsection M of this section.

**History:**

Amended by L. 2021, ch. 88,s. 2, eff. 9/29/2021. Amended by L. 2021, ch. 325,s. 3, eff. 9/29/2021.

**§ 49-203. Powers and duties of the director and department**

A. The director shall:

1. Adopt, by rule, water quality standards in the form and subject to the considerations prescribed by article 2 of this chapter.
2. Adopt, by rule, a permit program for WOTUS that is consistent with but not more stringent than the requirements of the clean water act for the point source discharge of any pollutant or combination of pollutants into WOTUS. The program and the rules shall be sufficient to enable this state to administer the permit program identified in section 402(b) of the clean water act, including the sewage sludge requirements of section 405 of the clean water act and as prescribed by article 3.1 of this chapter.
3. Apply the program and rules authorized under paragraph 2 of this subsection to point source discharges to non-WOTUS protected surface waters, consistent with section 49-255.04, which establishes the program components and rules that do not apply to non-WOTUS protected surface waters. The following are exempt from the non-WOTUS protected surface waters point source discharge program:
  - (a) Discharges to a non-WOTUS protected surface water incidental to a recharge project.
  - (b) Established or ongoing farming, ranching and silviculture activities such as plowing, seeding, cultivating, minor drainage or harvesting for the production of food, fiber or forest products or upland soil and water conservation practices.
  - (c) Maintenance but not construction of drainage ditches.
  - (d) Construction and maintenance of irrigation ditches.
  - (e) Maintenance of structures such as dams, dikes and levees.
4. Adopt, by rule, a program to control nonpoint source discharges of any pollutant or combination of pollutants into WOTUS.
5. Adopt, by rule, an aquifer protection permit program to control discharges of any pollutant or combination of pollutants that are reaching or may with a reasonable probability reach an aquifer. The permit program shall be as prescribed by article 3 of this chapter.
6. Adopt, by rule, the permit program for underground injection control described in the safe drinking water act.

7. Adopt, by rule, technical standards for conveyances of reclaimed water and a permit program for the direct reuse of reclaimed water.
8. Adopt, by rule or as permit conditions, discharge limitations, best management practice standards, new source performance standards, toxic and pretreatment standards and other standards and conditions as reasonable and necessary to carry out the permit programs and regulatory duties described in paragraphs 2 through 6 of this subsection.
9. Assess and collect fees to revoke, issue, deny, modify or suspend permits issued pursuant to this chapter and to process permit applications. The director may also assess and collect costs reasonably necessary if the director must conduct sampling or monitoring relating to a facility because the owner or operator of the facility has refused or failed to do so on order by the director. The director shall set fees that are reasonably related to the department's costs of providing the service for which the fee is charged. Monies collected from aquifer protection permit fees and from Arizona pollutant discharge elimination system permit fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. Monies from other permit fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund unless otherwise provided by law. Monies paid by an applicant for review by consultants for the department pursuant to section 49-241.02, subsection B shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. State agencies are exempt from all fees imposed pursuant to this chapter except for those fees associated with the dredge and fill permit program established pursuant to article 3.2 of this chapter. For services provided under the dredge and fill permit program, a state agency shall pay either:
  - (a) The fees established by the department under the dredge and fill permit program.
  - (b) The reasonable cost of services provided by the department pursuant to an interagency service agreement.
10. Adopt, modify, repeal and enforce other rules that are reasonably necessary to carry out the director's functions under this chapter.
11. Require monitoring at an appropriate point of compliance for any organic or inorganic pollutant listed under section 49-243, subsection I if the director has reason to suspect the presence of the pollutant in a discharge.

12. Adopt rules establishing what constitutes a significant increase or adverse alteration in the characteristics or volume of pollutants discharged for purposes of determining what constitutes a major modification to an existing facility under the definition of new facility pursuant to section 49-201. Before the adoption of these rules, the director shall determine whether a change at a particular facility results in a significant increase or adverse alteration in the characteristics or volume of pollutants discharged on a case-by-case basis, taking into account site conditions and operational factors.

13. Consider evidence gathered by the Arizona navigable stream adjudication commission established by section 37-1121 when deciding whether a permit is required to discharge pursuant to article 3.1 of this chapter.

B. The director may:

1. On presentation of credentials, enter into, on or through any public or private property from which a discharge has occurred, is occurring or may occur or on which any disposal, land application of sludge or treatment regulated by this chapter has occurred, is occurring or may be occurring and any public or private property where records relating to a discharge or records that are otherwise required to be maintained as prescribed by this chapter are kept, as reasonably necessary to ensure compliance with this chapter. The director or a department employee may take samples, inspect and copy records required to be maintained pursuant to this chapter, inspect equipment, activities, facilities and monitoring equipment or methods of monitoring, take photographs and take other action reasonably necessary to determine the application of, or compliance with, this chapter. The owner or managing agent of the property shall be afforded the opportunity to accompany the director or department employee during inspections and investigations, but prior notice of entry to the owner or managing agent is not required if reasonable grounds exist to believe that notice would frustrate the enforcement of this chapter. If the director or department employee obtains any samples before leaving the premises, the director or department employee shall give the owner or managing agent a receipt describing the samples obtained and a portion of each sample equal in volume or weight to the portion retained. If an analysis is made of samples, or monitoring and testing are performed, a copy of the results shall be furnished promptly to the owner or managing agent.

2. Require any person who has discharged, is discharging or may discharge into the waters of the state under article 3, 3.1, 3.2 or 3.3 of this chapter and any person who is subject to pretreatment standards and requirements or sewage sludge use or disposal requirements under article 3.1 of this chapter

to collect samples, to establish and maintain records, including photographs, and to install, use and maintain sampling and monitoring equipment to determine the absence or presence and nature of the discharge or indirect discharge or sewage sludge use or disposal.

3. Administer state or federal grants, including grants to political subdivisions of this state, for the construction and installation of publicly and privately owned pollutant treatment works and pollutant control devices and establish grant application priorities.

4. Develop, implement and administer a water quality planning process, including a ranking system for applicant eligibility, wherein appropriated state monies and available federal monies are awarded to political subdivisions of this state to support or assist regional water quality planning programs and activities.

5. Enter into contracts and agreements with the federal government to implement federal environmental statutes and programs.

6. Enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3 if the agreement is necessary to more effectively administer the powers and duties described in this chapter.

7. Participate in, conduct and contract for studies, investigations, research and demonstrations relating to the causes, minimization, prevention, correction, abatement, mitigation, elimination, control and remedy of discharges and collect and disseminate information relating to discharges.

8. File bonds or other security as required by a court in any enforcement actions under article 4 of this chapter.

9. Adopt by rule a permit program for the discharge of dredged or fill material into WOTUS for purposes of implementing the permit program established by 33 United States Code section 1344.

C. Subject to section 38-503 and other applicable statutes and rules, the department may contract with a private consultant to assist the department in reviewing aquifer protection permit applications and on-site wastewater treatment facilities to determine whether a facility meets the criteria and requirements of this chapter and the rules adopted by the director. Except as provided in section 49-241.02, subsection B, the department shall not use a private consultant if the fee charged for that service would be greater than the fee the department would charge to provide that service. The department shall pay the consultant for the services rendered by the

**ARS 49-203 Powers and duties of the director and department  
(Arizona Revised Statutes (2022 Edition))**

---

consultant from fees paid by the applicant or facility to the department pursuant to subsection A, paragraph 9 of this section.

D. The director shall integrate all of the programs authorized in this section and other programs affording water quality protection that are administered by the department for purposes of administration and enforcement and shall avoid duplication and dual permitting to the maximum extent practicable.

**History:**

Amended by L. 2022, ch. 204,s. 1, eff. 9/23/2022. Amended by L. 2021, ch. 325,s. 5, eff. 9/29/2021. Amended by L. 2018, ch. 280,s. 2, eff. 8/3/2018. Repealed by L. 2018, ch. 225,s. 11, eff. August 1, 2023 unless the U.S. E.P.A. approves the department of environmental quality's clean water act section 406 . Amended by L. 2018, ch. 225,s. 4, eff. 8/3/2018. Amended by L. 2018, ch. 170,s. 1, eff. 8/3/2018.

**§ 49-221. Water quality standards in general; protected surface waters list**

A. The director shall:

1. Adopt, by rule, water quality standards for all WOTUS and for all waters in all aquifers to preserve and protect the quality of those waters for all present and reasonably foreseeable future uses. For non-wotus protected surface waters, the director shall Apply surface water quality standards established as of January 1, 2021, until specifically changed by the director pursuant to Paragraph 2 of this subsection. Rules regarding the following shall Not be adopted or applied as water quality standards for non-wotus Protected surface waters:

(a) Antidegradation.

(b) antidegradation Criteria.

(c) outstanding arizona Waters.

2. Adopt, by rule, water quality standards for Non-wotus protected surface waters, by December 31, 2022, Consistent with paragraph 1 of this subsection and as determined Necessary in the rulemaking process. In adopting those standards, The director shall consider the unique characteristics of this State's surface waters and the economic, social and Environmental costs and benefits that would result from the Adoption of a water quality standard at a particular level or for a Particular water category.

B. The director may adopt, by rule, water quality standards for waters of the state other than those described in subsection A of this section, including standards for the use of water pumped from an aquifer that does not meet the standards adopted pursuant to section 49-223, subsections A and B and that is put to a beneficial use other than drinking water. These standards may include standards for the use of water pumped as part of a remedial action. In adopting such standards, the director shall consider the economic, social and environmental costs and benefits that would result from the adoption of a water quality standard at a particular level or for a particular water category.

C. In setting standards pursuant to subsection A or B of this section, the director shall consider the following:

1. The protection of the public health and the environment.

2. The uses that have been made, are being made or with reasonable probability may be made of these waters.

3. The provisions and requirements of the clean water act and safe drinking water act and the regulations adopted pursuant to those acts.
4. The degree to which standards for one category of waters could cause violations of standards for other, hydrologically connected, water categories.
5. Guidelines, action levels or numerical criteria adopted or recommended by the United States environmental protection agency or any other federal agency.
6. Any unique physical, biological or chemical properties of the waters.

D. Water quality standards shall be expressed in terms of the uses to be protected and, if adequate information exists to do so, numerical limitations or parameters, in addition to any narrative standards that the director deems appropriate.

E. The director may adopt by rule water quality standards for the direct reuse of reclaimed water. In establishing these standards, the director shall consider the following:

1. The protection of public health and the environment.
2. The uses that are being made or may be made of the reclaimed water.
3. The degree to which standards for the direct reuse of reclaimed water may cause violations of water quality standards for other hydrologically connected water categories.

F. If the director proposes to adopt water quality standards for agricultural water, the director shall consult, cooperate, collaborate and, if necessary, enter into interagency agreements and memoranda of understanding with the Arizona department of agriculture relating to its administration pursuant to title 3, chapter 3, article 4.1 of this state's authority relating to agricultural water under the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112, subpart E) and any other federal produce safety regulation, order or guideline or other requirement adopted pursuant to the FDA food safety modernization act (P.L. 111-353; 21 United States Code sections 2201 through 2252). For the purposes of this subsection:

1. "Agricultural water":

(a) Means water that is used in a covered activity on produce where water is intended to, or is likely to, contact produce or food contact surfaces.

(b) Includes all of the following:

(i) Water used in growing activities, including irrigation water, water used for preparing crop sprays and water used for growing sprouts.

(ii) Water used in harvesting, packing and holding activities, including water used for washing or cooling harvested produce and water used for preventing dehydration of produce.

2. "Covered activity" means growing, harvesting, packing or holding produce. Covered activity includes processing produce to the extent that the activity is within the meaning of farm as defined in section 3-525.

3. "Harvesting" has the same meaning prescribed in section 3-525.

4. "Holding" has the same meaning prescribed in section 3-525.

5. "Packing" has the same meaning prescribed in section 3-525.

6. "Produce" has the same meaning prescribed in section 3-525.

G. The director shall maintain and publish a protected Surface waters list. The department shall publish the initial list On the department's website and in the arizona administrative Register within thirty days after the effective date of this Amendment to this section. Not later than december 31, 2022, the Department shall adopt by rule the protected surface waters list, Including procedures for determining economic, social and Environmental costs and benefits. Publication of the list in the Arizona administrative register is an appealable agency action Pursuant to title 41, chapter 6, article 10 and may be appealed by Any party that provides evidence of an actual adverse effect that The party appealing the decision would suffer as a result of the Director's decision. All of the following apply to the Protected surface water list:

1. The protected surface waters list shall Include:

(a) All WOTUS.

(b) Any perennial, intermittent and Ephemeral reaches and any impoundments of the following rivers, not Including tributaries or reaches of waters wholly within tribal Jurisdiction or reaches of waters outside of the united States:

(i) The bill williams river, from the Confluence of the big sandy and santa maria rivers at 113°31'38.617"W, 34°18'22.373"N, To its Confluence with the colorado river at 114°8'9.854"W, 34°18'9.33"N.

(ii) The colorado river, from the Arizona-utah border at 111°32'35.741"W, 36°58'51.698"N, To the arizona-mexico border at 114° 43'12.564"W, 32°43'6.218"N.

(iii) The gila river, from the Arizona-new mexico border at 109°2'52.8"W, 32°41'11.2015"N, To the confluence with the colorado River at 114°33'28.145"W, 32°43'14.408"N.

(iv) The little colorado river, from The confluence of the east and west forks of the little colorado River at 109°28'7.131"W, 33°59'39.852"N, to its confluence with the colorado river at 111°49'4.693"W, 36°12'10.243"N.

(v) The salt river, from the Confluence of the black and white rivers at 110°13'39.5"W, 33°44'6.082"N, To the Confluence with the Gila river AT 112°18'5.704"W, 33°22'42.978"N.

(vi) The san pedro river, from the Arizona-mexico border at 110°9'1.704"W, 31°20'2.387"N, To the confluence with the gila river At 110°47'0.905"W, 32°59'5.671"N.

(vii) The santa cruz river, from its Origins in the canelo hills of southeastern arizona at 110°37'3.968"W, 31°27'39.21"N, To its Confluence with the Gila river AT 111°33'26.02"W, 32°41'39.058"N.

(viii) The verde river, from sullivan Lake at 112°28'10.588"W, 34°52'11.136"N, To its confluence with the Salt river at 111°39'48.32"W, 33°33'20.538"N.

(c) any non-wotus waters of the state That are added under paragraphs 3 and 4 of this Subsection.

2. notwithstanding paragraph 1 of this subsection, the Protected surface waters list shall not contain any of the Following non-WOTUS waters:

(a) Canals in the yuma project and Ditches, canals, pipes, impoundments and other facilities that are Operated by districts organized under Title 48, chapters 18, 19, 20, 21 and 22 and that are not used to directly deliver water for Human consumption, except when added pursuant to paragraph 4 of This subsection and in response to a written request from the owner And operator of the ditch or canal until the owner and operator Withdraws its request.

(b) irrigated areas, including fields Flooded for agricultural production.

(c) Ornamental and urban ponds and Lakes such as those owned by homeowners' associations and golf Courses, except when added pursuant to

paragraph 4 of this Subsection and in response to a written request from the owner of The ornamental or urban pond or lake until the owner withdraws its Request.

(d) swimming pools and other bodies Of water that are regulated pursuant to section 49 \_ 104, Subsection b.

(e) Livestock and wildlife water Tanks and aquaculture tanks that are not constructed within a Protected surface water.

(f) stormwater control features.

(g) Groundwater recharge, water reuse And wastewater recycling structures, including underground storage Facilities and groundwater savings facilities permitted under title 45, chapter 3.1 and detention and infiltration basins, except when Added pursuant to paragraph 4 of this subsection and in response to A written request from the owner of the groundwater recharge, water Reuse or wastewater recycling structure until the owner withdraws Its request.

(h) Water-filled depressions created As part of mining or construction activities or pits excavated to Obtain fill, sand or gravel.

(i) All waste treatment systems Components, including constructed wetlands, lagoons and treatment Ponds, such as settling or cooling ponds, designed to either convey Or retain, concentrate, settle, reduce or remove pollutants, either Actively or passively, from wastewater before discharge or to Eliminate discharge.

(j) Groundwater.

(k) Ephemeral waters except for those Prescribed in paragraph 1, subdivision (b) of This subsection.

(l) Lakes and ponds owned and managed By the united states department of defense and other surface waters Located on and that do not leave united states department of Defense property, except when added pursuant to paragraph 4 of this Subsection and in response to a written request from the united States department of defense until it withdraws its Request.

3. Unless listed in paragraph 2 of this subsection, the Director shall add the following non-wotus surface waters to the Protected surface waters list:

(a) all lakes, ponds and reservoirs That are public waters used as a drinking source, for recreational Or commercial fish consumption or for water-based

recreation such As swimming, wading and boating and other types of recreation in And on the water.

(b) Perennial waters or intermittent Waters of the state that are used as a drinking water source, Including ditches and canals.

(c) Perennial or intermittent Tributaries to the bill williams river, the colorado river, the Gila river, the little colorado river, the salt river, the san Pedro river, the santa cruz river and the verde river.

(d) Perennial or intermittent public Waters used for recreational or commercial fish Consumption.

(e) perennial or intermittent public Waters used for water-based recreation such as swimming, wading, Boating and other types of recreation in and on the Water.

(f) perennial or intermittent Wetlands adjacent to waters on the protected surface waters List.

(g) perennial or intermittent waters Of the state that cross into another state, the Republic of Mexico Or the reservation of a federally recognized tribe.

4. the director may add additional non-wotus surface Waters to the protected surface waters list if all of the following Apply:

(a) the water is not required to be Listed under paragraph 1 or 3 of this subsection.

(b) the water is not excluded under Paragraph 2 of this subsection.

(c) the economic, environmental and Social benefits of adding the water outweigh the economic, Environmental and social costs of excluding the water from the List.

5. the director shall remove any erroneously listed, Non-wotus waters from the protected surface waters list when the Water is excluded under paragraph 2 of this subsection and shall Not regulate discharges to those waters in the Interim.

6. the director shall remove non-wotus waters from the Protected surface waters list when the water is not required to be Listed under paragraph 3 of this subsection and the economic, Environmental and social benefits of removing the water outweigh The economic, environmental and social costs of retaining the water On the list.

7. the director, on an emergency basis, may add a water To the protected surface waters list if the director discovers an Imminent and substantial danger to public health or welfare or the Environment, if the water would otherwise qualify to be added under Paragraph 3 of this subsection. Notwithstanding any other law, the Emergency addition shall take effect immediately on the Director's determination that describes the imminent and Substantial danger in writing. Within thirty days after the Director's determination, the department shall publish a notice Of that determination in the arizona administrative register and on The department's website. Waters added under this subsection Shall be incorporated into the protected surface waters list during The next rulemaking that follows the addition.

**History:**

Amended by L. 2021, ch. 325,s. 7, eff. 9/29/2021. Amended by L. 2018, ch. 48,s. 46, eff. 8/3/2018.

**§ 49-222. Water quality standards for WOTUS**

A. Standards for the quality of WOTUS shall assure water quality, if attainable, which provides for protecting the public health and welfare, and shall enhance the quality of water taking into consideration its use and value for public water supplies, the propagation of fish and wildlife and recreational, agricultural, industrial and other purposes including navigation.

B. The director shall adopt standards for the quality of all WOTUS that establish numeric limitations on the concentrations of each of the toxic pollutants listed by the administrator pursuant to section 307 of the clean water act (33 United States Code section 1317).

C. In setting numeric standards for the quality of WOTUS, the director may consider the effect of local water quality characteristics on the toxicity of specific pollutants and the varying sensitivities of local affected aquatic populations to such pollutants, and the extent to which the natural flow of the stream is intermittent or ephemeral, as a result of which the instream flow consists mostly of treated wastewater effluent, except that such standards shall not, in any event, be inconsistent with the clean water act. In applying such standards the director may establish appropriate mixing zones.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** December 6, 2022

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** October 21, 2022

**SUBJECT: DEPARTMENT OF ENVIRONMENTAL QUALITY  
Title 18 Chapter 11,**

**Amend:** R18-11-101, Appendix A- Table 1, Appendix B

**New Article:** Article 2

**New Section:** R18-11-201, R18-11-202, R18-11-203, R18-11-204, R18-11-205,  
R18-11-206, R18-11-207, R18-11-208, R18-11-209, R18-11-210, R18-11-211,  
R18-11-212, R18-11-213, R18-11-214, R18-11-215, R18-11-216, R18-11-217,

---

### **Summary:**

This regular rulemaking from the Arizona Department of Environmental Quality (Department) seeks to amend one (1) rule, two (2) Appendix, and one (1) Table; add one (1) New Article; and add seventeen (17) new sections in Title 18 Chapter 11, Article 1 related to Water Quality Standards for Surface Waters and Article 2 related to Water Quality Standards for Non-WOTUS Protected Surface Waters. This rulemaking proposes to protect thirty-five (35) non-Waters of the United States (WOTUS) surface waters via an Arizona specific program established by the Department that is similar to the Federal Clean Water Act.

### **1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Department cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department indicates that it referenced and relied upon multiple studies in drafting these rules. Most of these studies contributed to the economic, small business, and consumer impact statements. The Department has provided a detailed list of its studies in section 7 of the preamble to their NFR.

4. **Summary of the agency's economic impact analysis:**

The Department indicates that HB2691 (2021) directs ADEQ to develop the Surface Water Protection Program (SWPP) and establish a variety of regulations by December 31, 2022. The Department further states that they are meeting that goal by adopting Title 18, Chapter 11, Article 2, titled "Water quality Standards for Non-WOTUS (waters of the United States) Protected Surface Waters." As part of the rulemaking to adopt standards for non-WOTUS protected surface areas, ADEQ must also modify the portions of the Arizona Administrative Code (A.A.C.) that houses the Arizona-specific rules to implement Federal Clean Water Act (CWA) requirements to the state. This rule making, according to the Department, modifies Title 18, Chapter 11, Article 1 to conform to the requirements of the statute and to ensure that the Federal and State programs can co-exist.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department states they have developed the proposed WQS to comply with federal and state law, and to avoid federally promulgated WQS. The Department further states that water quality criteria must be based on sound scientific rationale to protect the designated use, and not economic considerations. ADEQ is not aware of any less intrusive or less costly alternative methods that would meet ADEQ's legal obligations.

6. **What are the economic impacts on stakeholders?**

The Department indicates this rulemaking could affect ADEQ, political subdivisions, public and private entities who wish to obtain an AZPDES permit for discharge to a listed surface water, public and private entities who may need to operate under an AZPDES general permit, and public and private laboratories that test for permit compliance. The Department believes the rulemaking will create health, social, and economic benefits to the general public from access to clean water and protection of fish and wildlife.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The Department indicates, between the Notice of Proposed Rulemaking and the Notice of Final Rulemaking, changes were made to Appendix A; Appendix B; R18-11-201; R18-11-202, R18-11-210; R18-11-215; R18-11-216 Table A, Table B, Table C; R18-11-217. The Department has provided a detailed list of changes in section 10 of the preamble. Council staff does not believe these changes constitute as substantially different rules pursuant to A.R.S. § 41-1025.

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Department indicates that it received public comment during the formal comment period. These comments are grouped into three sections: commentary pertaining to how waters on the protected surface water list are regulated; commentary regarding the process used to determine the economic, social, and environmental cost benefit analysis (ESE); and commentary regarding typographical errors. In response to these comments, the Department modified text for clarity, corrected typographical errors, and is continuing to work with stakeholders regarding the ESE to ensure that their particular concerns are addressed.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Department indicates that their regulations allow for many facilities to qualify for general permit, however those that do not qualify may be required to apply for an individual AZPDES permit.

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department indicates that the rules are not more stringent than federal law, but that they apply to waters that may not be protected under federal law.

11. **Conclusion**

This regular rulemaking from the Arizona Department of Environmental Quality (Department) seeks to amend one (1) rule, two (2) Appendix, and one (1) Table; add one (1) New Article; and add seventeen (17) new sections in Title 18 Chapter 11, Article 1 related to Water Quality Standards for Surface Waters and Article 2 related to Water Quality Standards for Non-WOTUS Protected Surface Waters. The Department indicates this rule is being updated to provide protections for non-WOTUS surface waters in Arizona. The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

Douglas A. Ducey  
Governor

# ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY

Misael Cabrera  
Director

October 18, 2022

Nicole Sornsin, Chair  
Governor's Regulatory Review Council  
100 N. 15<sup>th</sup> Avenue, #305  
Phoenix, AZ 85007

Re: Rulemaking for Title 18. Environmental Quality, Chapter 11. Department of Environmental Quality - Water Quality Standards, Article 1 and Article 2; Title 18. Environmental Quality, Chapter 9. Department of Environmental Quality - Water Pollution Control, Article 9.

Dear Chair Sornsin:

The Arizona Department of Environmental Quality (ADEQ) hereby submits two (2) Notices of Final Rulemaking to the Governor's Regulatory Review Council (GRRC) for its consideration and approval at the Council meeting scheduled for December 6, 2022. This rulemaking implements the new Arizona Surface Water Protection Program.

The following information is provided for your use in reviewing the enclosed rules for approval pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-201:

I. Information Required by A.A.C. R1-6-201(A)

- a. The public record closed for all rules on October 17, 2022 at 11:59 p.m.
- b. The rulemaking activity does not relate to a five-year review report.
- c. The rulemaking activity does not establish a new fee; please see A.R.S. § 49-203(A)(9) for authority.
- d. An immediate effective date is not requested.
- e. The Department certifies that the preamble discloses reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation of or justification for the rule.
- g. There will be no new full-time employees necessary to implement and enforce the rule before the rule is approved by the council, pursuant to A.R.S. § 41-1055(B)(3)(a).

- h. A list of documents enclosed under A.A.C. R1-6-201(A)(2) through (8), which are enclosed as electronic copies:
1. This cover letter.
  2. Two Notices of Final Rulemaking (NFRMs), including the preamble, table of contents, and text of each rule. The preambles contain:
    - a. an economic, small business, and consumer impact statement that contains the information required by A.R.S. § 41-1055;
    - b. comments received by the agency, both written and oral, concerning the proposed rule;
    - c. the general and specific statutes authorizing the rule, including relevant statutory definitions;
  3. No analyses were submitted to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states;
  4. No material is incorporated by reference in this rulemaking;
  5. A list of statutes or other rules referred to in the definitions.

Thank you for your timely review and approval. Please contact Jonathan Quinsey, Legal Specialist, Water Quality Division, 602-771-8193 or [quinsey.jonathan@azdeq.gov](mailto:quinsey.jonathan@azdeq.gov), if you have any questions.

Sincerely,  
**DocuSigned by:**

Telephone: (602) 771-8193  
Email: Quinsey.Jonathan@azdeq.gov or PSWL@azdeq.gov  
Website: <http://www.azdeq.gov/swpp>

**6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

**Background**

Historically, a broad spectrum of Arizona’s lakes, ponds, streams and wetlands have been protected under the Federal Clean Water Act (CWA). This protection includes regulating the discharge of pollutants to surface waters via the Arizona Pollution Discharge Elimination System (AZPDES). AZPDES has only been implemented to regulate discharges into “waters of the United States” (WOTUS).

The CWA does not define WOTUS, instead, it provides discretion for the U.S. Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers (USACE) to define WOTUS in their rules. Courts have heard a number of cases and issued rulings that effectively modify the extent of federal jurisdiction, and different Federal administrations have attempted to change the definition as well. Arizona leadership created the Surface Water Protection Program (SWPP) to provide clear and consistent regulation for stakeholders despite these changes to the jurisdictional reach of the Federal CWA. The SWPP is the result of a rigorous public process that has resulted in this effort to create a radically simple but effective approach to protect important state waters that are not WOTUS and therefore would not receive the protections of a WOTUS.

House Bill 2691 (2021) directs ADEQ to develop the SWPP and establish a variety of regulations by December 31, 2022. ADEQ is meeting that goal in this rulemaking by adopting Title 18, Chapter 11, Article 2 titled “Water Quality Standards for Non-WOTUS Protected Surface Waters.” As part of the rulemaking to adopt standards for non-WOTUS protected surface waters, ADEQ must also modify the portion of the Arizona Administrative Code (A.A.C) that houses the Arizona-specific rules to implement Federal CWA requirements in the State. This rulemaking modifies Title 18, Chapter 11, Article 1 to conform with the requirements of the statute and to ensure that the Federal and State programs can co-exist. Additionally, this edition of the Arizona Administrative Register also includes a separate action which modifies Title 18, Chapter 9, Article 9 which contains the permitting program that implements the standards in Title 18, Chapter 11, Articles 1 and 2.

The scope of the SWPP rulemaking has changed since the initial legislation was passed. The original intent of the SWPP was to fill the gap between the Pre-2015 WOTUS definition and the Navigable Waters Protection Rule (NWPR). In August of 2021, the NWPR was vacated, removing the gap in regulation that the SWPP program was originally intended to fill. Still, ADEQ cannot overstate the importance of building a state-level program to protect surface waters and provide certainty to stakeholders about the future of surface waters in Arizona. At the time of this submission there is more change to the WOTUS definition on the horizon. The EPA is in the process of working on another new WOTUS rule through the regulatory process, and the Supreme Court has granted certiorari on a case that could impact how ADEQ implements the existing pre-2015 rule.

ADEQ wants to be clear in this preamble that both of those actions could have an impact on Arizona's regulatory programs for surface water, as well as the rules adopted in this rulemaking.

### **Rulemaking Summary**

This Notice of Final Rulemaking proposes to protect 35 non-WOTUS waters, 33 of which were previously listed on Appendix B of Article 1. Additionally, it adopts water quality-based standards that apply to those waters. The SWPP creates a dual-pronged approach for regulating surface water in Arizona. Waters that are considered Waters of the United States (WOTUS) will be regulated under the CWA program that is codified in Title 18, Chapter 11, Article 1 of the Arizona Administrative Code. Surface waters that are not WOTUS, but qualify to be listed on the Protected Surface Waters List (PSWL) as non-WOTUS protected surface waters, will be regulated by an Arizona-specific program established by ADEQ in this rulemaking in Title 18, Chapter 11, Article 2.

These two programs will exist in tandem, but a surface water reach will only be regulated by either the Federal program or the SWPP. There will be no joint jurisdiction of surface waters. During this initial SWPP rulemaking, ADEQ is striving to keep the two programs as similar as possible to provide consistency and clarity to permittees while the legal reach of the Federal CWA is in flux. The similarities between the two programs will ensure the original goal of the SWPP is met, and an ever-changing Federal definition of WOTUS will not result in significant compliance issues in Arizona as waters change between being regulated by the Federal program or the State program.

This NFRM is divided into two sections. The first section addresses the changes to Article 1, or the Federal portion of the program that is subject to EPA review. The second section explains the adoption of the new state program.

### **Modifications to the CWA Program - Article 1**

Section 303(c) of the CWA requires that all states adopt and maintain water quality standards. Adopting water quality standards allows the state to assess the health of Arizona waters and provides a legal basis for controlling pollutants entering a protected surface water. Arizona Revised Statutes (A.R.S.) § 49-222 provides the state-level authorization for ADEQ to adopt those water quality standards.

ADEQ uses the adopted water quality standards as the backbone of Arizona's implementation of the federal permitting program implemented by ADEQ that's called AZPDES. The AZPDES program provides permits for discharges to WOTUS that limit the additions of pollutants to those surface waters using five general types of provisions:

1. Technology-based effluent limitations;
2. Water-quality-based effluent limitations;
3. Monitoring and reporting requirements;
4. "Boilerplate" conditions;
5. Special conditions, for example, site-specific standards that are applicable.

#### Designated Uses

Arizona's water quality standards under the CWA designate specific uses and then establish standards to protect those uses. The designated uses of a surface water are the most fundamental articulation of the use attainment goal in Arizona's aquatic or human environment. These adopted uses express goals for the water, such as supporting aquatic life and human activities. The concept of protected surface waters having designated uses is central to establishing appropriate water quality standards. Arizona's "menu" of designated uses listed at R18-11-104(B) provides for the protection and propagation of fish, shellfish, and wildlife and for recreation in and on the water. The current ADEQ-adopted designated uses are:

1. Domestic water source (DWS),
2. Fish consumption (FC),
3. Full body contact recreation (FBC),
4. Partial body contact recreation (PBC),
5. Aquatic and wildlife (cold water) (A&Wc),
6. Aquatic and wildlife (warm water) (A&Ww),
7. Aquatic and wildlife (effluent-dependent water) (A&Wedw),
8. Aquatic and wildlife (ephemeral water) (A&We),
9. Agricultural irrigation (AgI), and
10. Agricultural livestock watering (AgL).

ADEQ's four subcategories of aquatic and wildlife designated uses are meant to protect fish, shellfish, plants and wildlife (A&Wc, A&Ww, A&Wedw, and A&We). The A&We use is assigned based on the flow characteristics of the water itself. The A&Wedw use is assigned for waters that receive a permitted discharge. The A&Wc and A&Ww are assigned based on the relative elevation of the water, as well as the flow regime of the water. Intermittent and perennial protected surface waters located above 5000' are assigned the A&Wc use and those below 5000' are assigned the A&Ww use.

ADEQ protects water quality for "recreation in and on the water" with the full-body contact recreation (FBC) and partial body contact recreation (PBC) designated uses. These designated uses are intended to maintain and protect water quality for swimming, water-skiing, boating, wading, fishing, and other recreational uses. The FBC designated use is intended to protect public health when people engage in recreational activities that may involve full submergence in the water and likely ingestion of the water. The PBC designated use is intended to protect public health when people engage in water-based recreational activities where full submergence and ingestion of the water are unlikely such as wading or boating. The FC designated use is intended to protect human health when fish or other aquatic organisms are taken from a surface water for human consumption.

ADEQ has considered the use and value of surface waters for public water supply by establishing the domestic water source (DWS) designated use. The DWS designated use applies to a surface water that is used as a raw water source for drinking water supply. The water quality criteria for the DWS designated use were developed assuming that treatment is necessary to yield drinking water suitable for human consumption. The DWS designated use applies to a surface water that has a water intake located along it which uses the surface water as a raw water source.

Finally, ADEQ recognizes the use and value of surface waters for agricultural purposes by establishing the agricultural irrigation (AgI) and agricultural livestock watering (AgL) designated uses. These uses are intended to maintain and protect surface water quality so water can be used for crop irrigation or to water cattle and other livestock.

### Water Quality Criteria

The term "criteria" is used when referencing water quality standards in a few different ways. The term is a

reference to a specific part of a state water quality standard – that is, a water quality standard is composed of designated uses and the water quality criteria necessary to protect those uses. When Arizona adopts specific criteria they become the applicable regulatory requirements for protected waters. Criteria to protect designated uses in Arizona are expressed in three ways:

1. Chemical-specific concentrations;
2. Toxicity levels; or
3. Narrative statements representing a quality of water that supports a particular use of a surface water.

#### Chemical-Specific and Toxicity Criteria

The most direct way ADEQ protects a listed designated use is by adopting numeric surface water standards that establish specific limits on the concentrations of pollutants that will protect and maintain that use. ADEQ adopts criteria recommendations for pollutants when they are listed by the EPA as either a toxic pollutant, priority pollutant, or other type of regulated substance. When EPA lists a pollutant, they also publish an analytical test methodology that ADEQ can use to set numeric criteria that are appropriate for Arizona. These individual pollutant parameters are listed in A.A.C. Title 18, Chapter 11, Article 1, Appendix A, and R18-11-109. In adopting numeric water quality standards, ADEQ considers:

1. The effect of unique local water quality characteristics on the toxicity of pollutants;
2. The varying sensitivities of local affected aquatic populations to these pollutants; and
3. The extent to which the stream's natural flow is perennial, intermittent, effluent-dependent, or ephemeral.

#### Arizona Water Quality Standards Current State

ADEQ revises existing water quality standards under a timetable established by the CWA. The CWA requires the agency to review A.A.C. Title 18, Chapter 11, Article 1, once every three years. This process is called the triennial review. ADEQ makes modifications to Arizona's WOTUS water quality standards through the State's rulemaking process, however, those changes don't take effect until EPA approval is received. EPA is required to review any modifications ADEQ makes to Article 1 water quality standards and approves the standards that meet the requirements of the CWA.

The EPA must approve or disapprove ADEQ's standards within a set amount of time established in the CWA and implementing regulations. If EPA approves ADEQ's submitted standards, the EPA must notify ADEQ within 60 days of receiving the submittal of Arizona's standards, rules, and supporting documentation. If EPA disapproves of Arizona's surface water quality standards, it must do so within 90 days of receiving the complete submittal of the surface water quality standards rules. If the Regional Administrator disapproves a water quality standard, EPA must notify ADEQ, specifying:

1. Why the state standards are not in compliance with the CWA, and
2. The revisions ADEQ must make to its standards to assure compliance with the CWA before EPA could fully approve the standards. Under § 303(c)(4) of the CWA, EPA must federally promulgate water quality standards no later than 90 days after the date of notice of the disapproval described above if ADEQ does not adopt the necessary revisions as specified by EPA within that time.

ADEQ completed its obligation and submitted the regulatory modifications made during the 2019 triennial review to the EPA on November 19, 2019 (2019 TR). During the review process, EPA signaled to ADEQ that a non-trivial number of individual pollutant parameters developed by ADEQ and listed in A.A.C. Title 18, Chapter 11, Article 1, Appendix A, Table 1 for certain designated uses would be disapproved as they did not meet the requirements of the CWA.

ADEQ submitted a request to formally withdraw portions of the 2019 Triennial Review on December 21, 2021. Specifically, ADEQ withdrew modifications of the individual pollutant parameters established in Appendix A, Table 1 for the domestic water source, fish consumption, full-body contact, and partial body contact designated uses from review. The EPA signaled that the Federal government could not approve these standards for individual pollutants due to incorrect assumptions ADEQ made during their development. ADEQ is committed to resolving those issues before submitting the next triennial review package to the EPA.

As part of the EPA's concurrence with ADEQ's partial withdrawal of the 2019 TR, EPA took additional action to approve some changes to water quality standards (WQS) in the 2019 TR that ADEQ did not withdraw. EPA approved the revisions to the definitions, antidegradation, mixing zones, and variance standards adopted in 2019 on January 24, 2022. The EPA also approved portions of ADEQ's submittal that made minor formatting revisions and other corrections that were non-substantive.

The EPA has not acted in full on the changes to the 2019 TR individual pollutant parameters in Appendix A, Table 1 for the aquatic and wildlife cold, aquatic and wildlife warm, aquatic and wildlife ephemeral, aquatic and wildlife effluent-dependent water, agricultural irrigation, and agricultural livestock watering designated uses. EPA has communicated to ADEQ that they are waiting on the United States Fish and Wildlife Service to complete a consultation as to whether ADEQ’s new standards are protective enough of Arizona’s threatened and endangered species. EPA has approved some water quality standards submitted during the 2019 TR but not all.

The above facts have left Arizona with a patchwork of effective standards to apply to WOTUS, as illustrated below. Specifically:

1. For the domestic water source, fish consumption, full-body contact, and partial body contact designated uses, the individual pollutant parameters from Arizona’s 2016 Triennial Review will apply until modified and approved by the EPA in an upcoming Arizona action.
2. For all aquatic and wildlife uses and agricultural irrigation use, the individual pollutant parameters from Arizona’s 2016 triennial review are currently effective until EPA approves the modifications made during the 2019 TR.
3. Narrative standards and changes made to the definitions, antidegradation, mixing zone, and variance portions of Arizona’s water quality standards in the 2019 TR are currently effective.

\*Dependent on USFWS review and EPA approval.

***Arizona Water Quality Standards after this Rulemaking***

This rulemaking revises Article 1 to align the individual criteria for pollutants that are published in the Arizona Administrative Code with the 2016 EPA-approved criteria. The 2019 water quality criteria that ADEQ is modifying were never approved and never took effect in the state. The tables below explicate the changes to the Arizona Administrative Code that will be made to align ADEQ’s Article 1 rules with currently approved WQS.

Drinking Water Source Standards Alignment:

Parameter	CAS NUM	EPA Approved 2016 DWS standard (µg/L)	Withdrawn 2019 DWS standard (µg/L)

### Aquatic and Wildlife Standards After the SWPP Rulemaking

In this rulemaking ADEQ has retained some other standards from the 2019 TR that have not yet been approved by the EPA. Specifically, the individual pollutant parameters for Aquatic and Wildlife and Agricultural uses.

EPA has communicated to ADEQ that US Fish and Wildlife Service is still doing an Endangered Species Act (ESA) analysis on those changes. EPA originally had expected that review to be finished sometime in the summer.

The EPA has not completed their review by the time of publication of this rulemaking. ADEQ must complete the SWPP rulemaking by the end of the year. ADEQ has reviewed standards not yet reviewed by the EPA and has re-promulgated the most scientifically viable standards to protect the uses they are associated with. ADEQ's actions in this regard will help insulate AZPDES permittees from any potential ESA liability. ADEQ is working with EPA to maintain the aquatic and wildlife criteria that the agency set during the 2019 TR. This rulemaking makes no modifications to those standards. The agency will continue to follow up with stakeholders regarding standards throughout the rulemaking process.

**Appendix B Changes**

ADEQ has invested considerable resources in making WOTUS evaluations during this rulemaking. For a water to be protected as an Article 2 water under the state program adopted in this rulemaking, ADEQ must make a determination that the water is not protected under our federal program in Article 1.

ADEQ's work product beyond this functional rulemaking includes developing a brand-new internal database that aggregates all the data ADEQ has gathered that can be used for WOTUS evaluations and producing non-WOTUS reports for each state-protected water that have been published to our website alongside the draft rules. Each one of these non-WOTUS reports have been informally reviewed by the EPA before the publication of this NFRM. EPA has taken no affirmative or opposing action with regard to the non-WOTUS reports ADEQ has published and has simply responded to most non-WOTUS reports with a "no comment" designation. After the SWPP rulemaking is complete all Appendix B changes, which includes removing non-WOTUS waters, will be submitted to the EPA for final action pursuant to EPA's authorities under CWA sections 303(c) and (d).

Stakeholders can review all associated non-WOTUS reports at [azdeq.gov/SWPP](http://azdeq.gov/SWPP). This rulemaking removes the following waters and their associated designated uses from Appendix B:

**Adding Drinking Water Use for Bonita Creek in Appendix B**

During the rulemaking process, ADEQ received information that Bonita Creek, an indirect tributary to the East Verde River, is used as the source of water for the Bonita Creek Water Company. Pursuant to this information, ADEQ is adding a Domestic Water Source (DWS) use to this water.

**The Surface Water Protection Program – Article 2**

This portion of the preamble outlines the adoption of the Arizona Surface Water Protection Program (SWPP).

### *Economic, Social and Environmental Cost-Benefit Analysis*

Outside of the process deployed to determine the extent of federal jurisdiction under the currently effective WOTUS rule, the most overarching analysis ADEQ has performed in this rulemaking is the economic, social, and environmental cost/benefit analysis required for SWPP implementation. A.R.S. §49-221 requires that the Director adopt “procedures for determining economic, social and environmental costs and benefits.” The procedure for determining the economic, social and environmental costs and benefits of the new SWPP program will be applied in two ways:

1. If the water is not categorically excluded from the SWPP as defined in § 49-221 and the economic, social and environmental benefits of adding the water outweigh the economic, environmental and social costs of excluding the water from the list, the water *may* be added to the PSWL.
2. In adopting water quality standards at a particular level or for a particular water category for non-WOTUS protected surface waters.

This rulemaking addresses both statutory requirements and includes a regulatory procedure for conducting this crucial analysis in R18-11-213. This rulemaking includes water quality standards for non-WOTUS protected surface waters that have been adopted at a particular level for waters that will be protected by the SWPP. As mentioned in the background section of this preamble, the definition of water quality standard is wide-ranging and encompasses every rule adopted in this article. This rulemaking also adds waters to the PSWL where ADEQ has demonstrated that the benefit of adding that water to the list outweighs the cost.

Although the requirements specific to the SWPP were introduced in HB2691 (2021), ADEQ has performed cost/benefit analyses in a number of historical contexts. A.R.S. § 41-1055 has required a formalized Economic Impact Statement for agency rulemakings since 1995. As these analyses require specialized economic knowledge, the agency has frequently relied on outside expertise to perform baseline economic reports that inform our policy decisions. To conduct the wide-ranging economic analysis required by the SWPP and § 41-1055, ADEQ contracted with McClure Consulting, LLC (McClure) to produce two separate reports to inform the procedure adopted in R18-11-213 and the economic analysis deployed by ADEQ in this rulemaking. The first report was delivered on July 7, 2021, and a second report was delivered on April 29, 2022. This preamble

and the accompanying technical paper available at <http://azdeq.gov/node/8173> source extensively from those two reports.

The first report drafted by McClure focused generally on the process ADEQ could use to model economic, social and environmental costs and benefits. The second report provides deeper analysis and delves into specific case studies that ADEQ has used to display how the procedures adopted in the rulemaking will be applied. In addition to the reports produced by McClure, ADEQ conducted a 50-state survey to provide an overview of how other states conduct similar analyses. That 50-state report is also available for stakeholder review on ADEQ's website at <http://azdeq.gov/node/8173>.

### McClure Report #1

For the first report, ADEQ asked McClure to produce recommendations for a model-based approach to demonstrate how the procedures adopted in the SWPP rulemaking might work. ADEQ is familiar with modeling in several environmental contexts, so pursuing a model-based approach is a logical outgrowth of institutional expertise within the agency. ADEQ can provide accurate costs of our own regulatory programs through known and quantifiable internal costs. Additionally, ADEQ can estimate costs to permittees through our historic economic impact statements associated with rulemaking. However, for environmental benefits, there are no easily ascertainable market prices as the benefits often relate to "goods and services" that are not traded in markets and therefore are not subject to market-based pricing.

Since there is a need for the economic value of these non-market environmental resources to be expressed in market prices for the purposes of the SWPP rulemaking, ADEQ's consultants provided a literature review for valuing non-market goods and worked with agency staff to evaluate how they could be used to build the statutorily required analysis. Then, McClure built a draft framework for an economic model to display how they would estimate the market value of those resources. The initial report presented the agency with a number of different techniques and research the consultant relied on to build the required procedure.

### Modeling Elements and the Benefit Transfer Approach

ADEQ recommends interested stakeholders read the consultant's report for more in-depth information, but this section provides a summary of their work. In their first report, McClure Consulting proposed various valuation

methods that all came with their own unique practical and scientific challenges. For example, one such suggestion was using a survey-based methodology. A survey-based methodology would have required ADEQ to use a survey process to derive hypothetical costs and benefits by surveying individuals and businesses who used potentially protected waters. Then, ADEQ would use that input to derive some sort of market cost or price for the protection the SWPP rules would provide.

While the idea of a survey-based methodology seemed viable, the kind of information ADEQ would need to gather from a survey process would require the agency to do an additional level of analysis beyond the scope of the SWPP rulemaking. Although HB2691 prescribed an analysis, the SWPP enabling legislation allowed ADEQ to develop the most reasonable form for that analysis. Given these real-world challenges of developing a valuation procedure, the consultant recommended ADEQ leverage the concept of benefit transfer as a valuation methodology. This approach had substantial appeal to ADEQ as it seemed to be the most reasonable way to conduct the sweeping analyses required to adopt the SWPP within the timeline required by the statute.

The benefit transfer method is a tool that is used to estimate economic values for environmental costs and benefits by transferring available information from studies already completed in another location and/or context. For example, values for recreational fishing in a particular state may be estimated by applying measures of recreational fishing values from a study conducted in another state. Thus, the basic goal of benefit transfer is to estimate benefits for one context by adapting an estimate of benefits from some other context. ADEQ's consultants informed the agency that benefit transfer is often used when it is too expensive and/or there is too little time available to conduct an original valuation study, yet some measure of cost or benefits is needed. It is important to note that benefit transfers can only be as accurate as the initial study. However, this approach comes with challenges of its own, including finding case studies that align with the local policy under consideration.

Based on the consultant's recommendation in the first report, ADEQ expressed interest in using the benefit transfer approach during the deployment of our SWPP program. This approach also gave ADEQ a way to explicitly incorporate opportunities for stakeholder input to supplement and validate the values generated by the model. ADEQ's consultants conducted an extensive search for studies that would be relevant for this approach. Those studies are listed in the consultant's paper and reproduced in the section of this preamble that requires ADEQ to disclose the studies the agency relied on during the rulemaking action.

The next step was to construct a list of inputs that would be relevant in the final model. ADEQ once again relied heavily on the consultant's recommendations, and the first suggestions were wide-ranging and included everything from administrative to scientific influences. The modeling elements proposed by the contractor are discussed at length in the first report and modified heavily in the final report which is addressed later in this preamble. ADEQ has not reproduced the elements suggested in the first report because they were modified in the second report. The appendix list of the first report is annotated with questions and commentary intended to help guide the benefit/cost modeling process for stakeholders who are interested in the evolution of agency thinking.

The initial framework in the first report also did not focus on applying the model in specific situations or for "certain category of waters," although one high-level process did entertain the idea of setting individual pollutant parameters for designated uses. After publication ADEQ and the McClure began work on scoping the second leg of our review to narrow that framework and apply it in the specific contexts.

### McClure Report #2

The process of developing the first McClure report highlighted areas that needed further analysis. Simply put, ADEQ determined that the process of assigning "costs" or "value" in a vacuum was untenable for the purposes of SWPP adoption. Surface waters in Arizona have unique characteristics that require a valuation approach that considers those local characteristics. The SWPP enabling legislation contemplated this and contains the requirement that ADEQ consider "the unique characteristics of [Arizona's] surface waters." With this in mind, ADEQ entered into an additional contract with McClure to hone the analysis to meet that specific requirement of the statute. ADEQ received the first draft report on March 2, 2022 and provided input to McClure. The final report and model were delivered on April 29, 2022 and is posted at <http://azdeq.gov/node/8173> on the Stakeholder Meetings and Materials link.

### Example Water Analysis

The first McClure report contains a section that explains the limitations of the recommended benefits transfer approach. The largest limitation on the recommended approach was simply that it wasn't geared towards any particular real-world scenario. Adjusting water quality standards and applying them to water bodies in a hypothetical situation simply does not work. To develop a methodology, ADEQ needed to first develop a

framework for analysis. ADEQ and our consultants prepared three categories of “example waters” to meet the requirement that standards be adopted for a “particular water category” and then be considered to potentially be added to the PSWL. ADEQ developed three categories of waters as a framework for the SWPP cost/benefit analysis:

Class 1 – Sky Island Streams. Representative Water – Stronghold Canyon East. Waterbody ID: AZ15050201-299

Sky Islands are isolated mountain ranges in southeastern Arizona. Some of the mountains rise more than 9,000 feet above the surrounding desert floor making the lowlands and high peaks drastically different. These mountains contain a number of potentially perennial or intermittent surface waters that may have no significant nexus to a traditionally navigable water as the water generally infiltrates or evaporates in the deserts surrounding the sky island. In the mountains, these streams provide valuable habitat, recreational opportunities, and some may hold a level of cultural significance.

ADEQ has picked Stronghold Canyon as an example for this category of waters. The Cochise Stronghold is located in southeast Arizona within the Dragoon Mountains at an elevation of approximately 5,000 ft. This woodland area lies in a protective rampart of granite domes and sheer cliffs which were once the refuge of the Apache Chief Cochise and his people. Perennial springs feeding streams in this area provide water to animals and historically to the people that lived in the area. Now located within the Coronado National Forest, the area remains a popular recreation destination with opportunities for hiking, birding, climbing, mountain biking and camping.

Class 2 – Isolated Lakes. Representative Water – Pintail Lake, Show Low. Waterbody ID: AZ15020005-5000

Pintail Lake is a man-made lake and wetland created from treated water from the City of Show Low. Developed in 1979, it is recognized nationally as one of the first of its kind in the country. Water covers approximately 50 to 100 acres at any given time due to seasonal or climate variations. The lake is an important source of water for local and migrating wildlife, including a variety of birds and big game such as elk and pronghorn antelope. Hunting is allowed in the area and Pintail Lake is popular with waterfowl hunters between November and January. The area is managed in partnership with the City of Show Low, Arizona Game and Fish Department, Apache-Sitgreaves National Forest, and other parties, including the White Mountain Audubon Society.

Class 3 – Ecologically, Culturally, or Historically significant water. Representative Water – Quitobaquito Pond.

Quitobaquito pond is located in the Organ Pipe Cactus National Monument, which was created in 1937 by President Franklin Roosevelt. Historically, the spring-fed pond was located on a prehistoric trade route known as the Old Salt Trail. This route was used to trade salt, obsidian, seashells, and other commodities from the salt beds of Sonora, Mexico. The pond remains culturally significant to the Tohono O’odham Nation located in southern Arizona. From the 1860s and until the area was designated a national monument, the water was used by the settlers for their homes and businesses and to irrigate fruit trees and crops. The pond is home to a species of turtle and snail unique to the pond, as well as a butterfly that coexists solely with a plant found only in this area.

***ADEQ’s Final Model:***

After developing the categories of waters for analysis, ADEQ’s consultants began the work to build the final model. The valuation framework used by the contractor includes national and state-level costs as well as estimates for benefits, along with a proposed framework for evaluating benefits at smaller levels of geography. The resulting ADEQ cost/benefit model was adapted by the Consultants to address the types of policy actions that are most likely to occur in Arizona. These adaptations took into account the unique nature of Arizona’s surface waters that are described in more detail in the consultant’s final report.

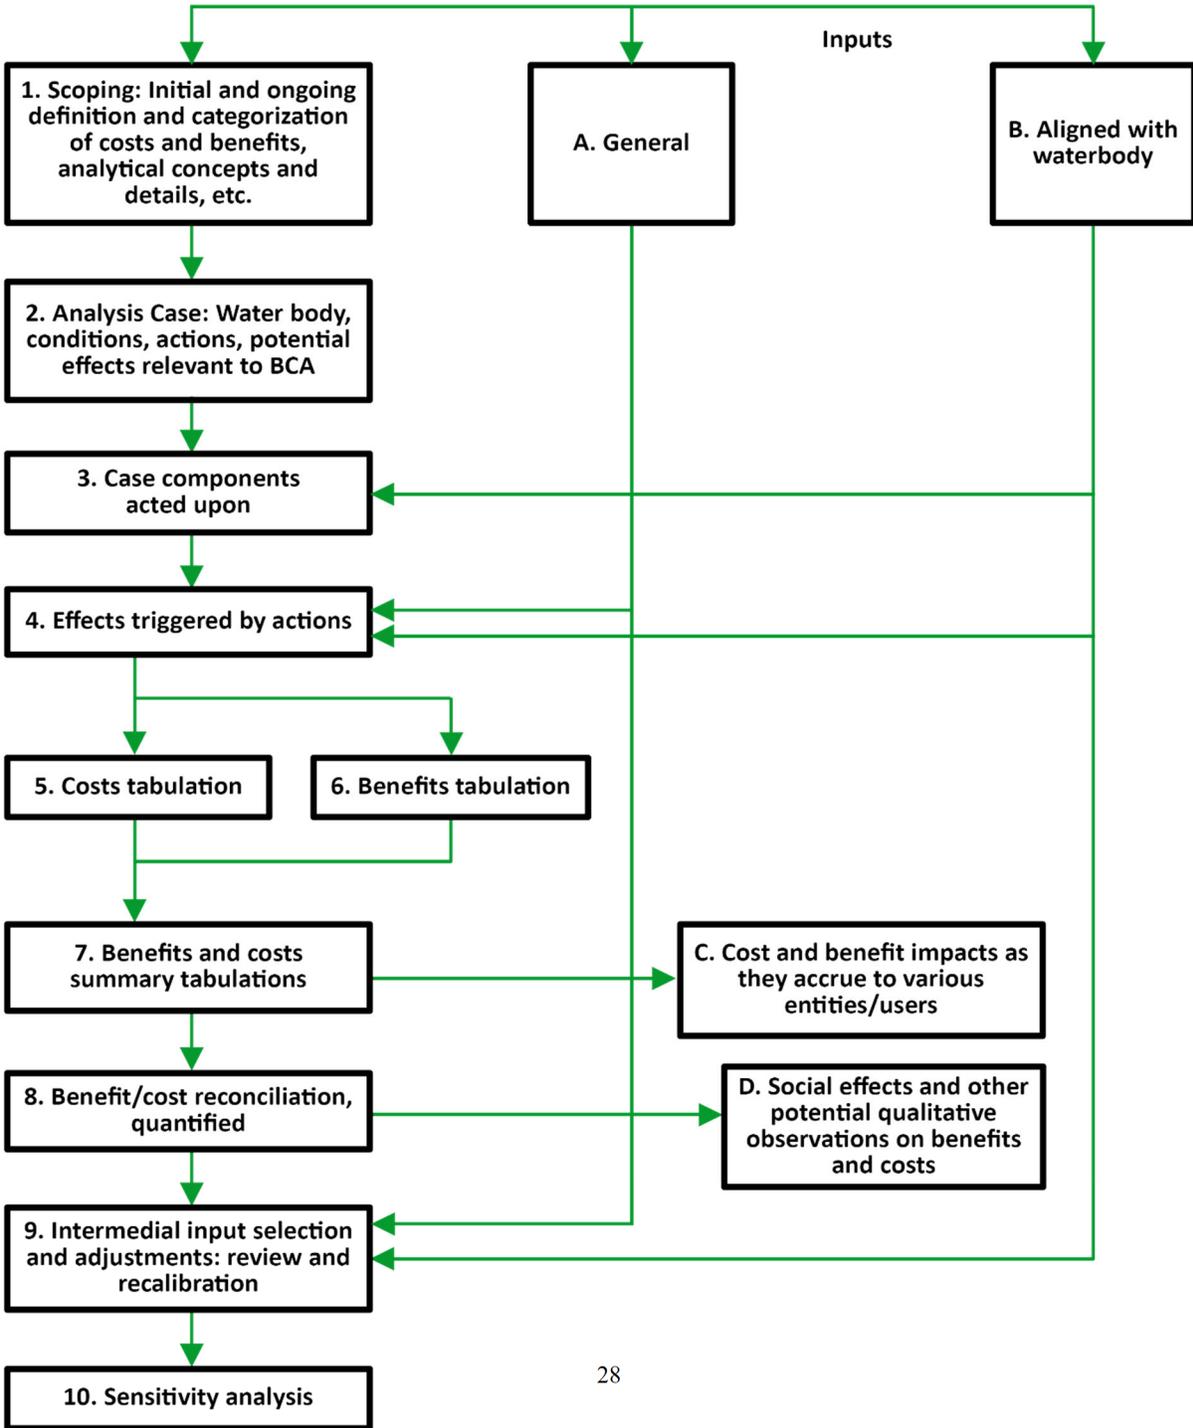

The currently effective CWA program deployed in Arizona works. The water quality standards that ADEQ has adopted as part of that program protect the important uses of Arizona’s surface waters without creating undue burdens for those who need an AZPDES permit. The contractor's framework models the adopted SWPP program allows ADEQ to demonstrate the costs/benefits of adopting a state-level program that has similar standards to those in our federal program. ADEQ’s consultants used portions of that model but used Arizona specific variables to come to their final result.

The importance of using an ESE analysis framework similar to that of the CWA is because the standards in the SWPP borrow significantly from those adopted to protect waters under the CWA program. This is especially true for the numeric standards adopted by ADEQ in this rulemaking. As mentioned elsewhere in this preamble,

ADEQ spends a significant amount of time reviewing the science behind setting numeric standards for protected surface waters. The amount of science that has been done to establish the formulas ADEQ uses to set those standards simply is not replicable by ADEQ in the timeframe available for this rulemaking.

Additionally, the numeric standards that are set by ADEQ for the Federal portion of the program already include Arizona specific information where appropriate. ADEQ uses Arizona specific species lists when setting numeric criteria for aquatic and wildlife uses. In the 2019 TR, ADEQ attempted to use Arizona specific body weight and consumption rates for human health and safety uses.

Thus, the consultants final model implements that unique process into a unified model, where costs/benefits are assessed through an already adopted level of water quality standards to categories of waters that represent those most likely to be protected by the SWPP. The figure below is another conceptual flow chart that ADEQ has included in this preamble to illustrate the inputs the consultants used to model the cost/benefits of the new SWPP program. Key components of the model are also described below (letters and numbers match the diagram labeling and are therefore not necessarily sequential).

## Explanation of Inputs.

### Item A. Inputs, general:

1. Standards by water type, if/as applicable to current or future modeling efforts, and relationships to uses, etc.
2. Per-user dollar values tied to specific water use types, such as specific recreation activities, etc.
3. Cost factors: permitting or other compliance for public and private entities; ADEQ administrative costs based on categories shown in Appendix D, estimated by ADEQ staff for each of the three case studies classes, for use in the BCA model; possible user charges per unit by type; and consideration of other factors such as health impacts (as burden), as applicable or practical at this level of analysis (current or future). Factors may be directly quantifiable in economic terms, and/or indirectly quantifiable in economic terms or as social effects (as relevant).
4. Benefit categories:
  - a. Directly quantifiable economic benefits, as willingness to pay (“WTP”) dollar values on a per-household, per-acre basis.
  - b. Benefits applicable, as dollars on some unit basis, to participants in specific activities, recreational or other.
  - c. Benefits indirectly quantifiable in economic terms, or identifiable and addressed on qualitative terms only, including economic and social effects (as relevant).
5. Discount rates to apply to future costs and the stream of annual benefits both local and non-local households would experience.

### **Item B. Inputs, aligned with WTP categorical distinctions:**

1. Distinctions include: forested, non-forested, and possible other categories, and other conditions specific to the waterbody.
2. Cost factors: any variation from general factors based on specifics of waterbody; opportunity costs.
3. Selection of local and non-local affected households, as described in relation to Figure 1 Scoping.

### **Item 9. Recalibration, as appropriate:**

1. Maintaining “adding up” integrity in the course of producing benefit and cost estimates related to any single waterbody. This is accomplished primarily by examining estimates for individual waterbodies in

comparison with Arizona-wide estimated annualized totals for costs and WTP benefits, which would be initially informed by EPA documentation of estimated state-level costs and benefits.

**Item 10. Sensitivity analysis component:**

1. Reviewing how the overall model structure relates to the specific analysis conditions in ways that could tend to over- or underestimate costs and/or benefits.
2. Considering whether and to what extent results of a BCA could be unduly skewed or otherwise unusually sensitive, based on some modeling input or some particular characteristic of the waterbody being analyzed. This would be addressed initially by reviewing: 1) market area designations, 2) identified cost and benefit categories, and 3) cost and benefit factors applied to the estimating model. If warranted by the review, inputs and factors may then be modified, modified model results examined for effects of the sensitivity testing, and modeling components adjusted if necessary, along with accompanying notations.

**Item C. Affected entities:**

1. For benefits: geographic and demographic general description of affected households that are both “local” and “non-local” with respect to waterbody.
2. For costs: types of entities affected, with costs allocated among them to extent possible.

**Item D. Social effects:**

1. Documenting Environmental Justice conditions. Data on disadvantaged minority populations within local and non-local market areas are compiled as part of the documentation of demographic conditions within these areas, which at a minimum, for all populations, includes number of households and household incomes as well as racial/ethnic designations by geographic sub-area.
2. Categories that may be quantified in the future, but in the interim addressed qualitatively as discussed in the following section.

Modeling Results

ADEQ recommends that stakeholders review the final contractor report for a full discussion of the cost/benefit modeling analysis, but quantitative aspects are summarized in the tables below.

Cost and Benefit Factors	Class 1 - sky island stream - Cochise Stonghold Cyn.	Class 2 - isolated lake - Pintail Lake & marshes	Class 3 - unique waterbody - Quitobaquito Pond
Size (acres or acre-equivalents (Class 1))	21.76	65.00	0.50
Forested?	Yes	Yes	No
<b>Costs and benefits over a 20-yr. period, discounted</b>			
<b>Costs</b>			
404 permits	\$9,344	\$9,344	\$9,344
Mitigation			
ADEQ Admin	\$62,641	\$111,067	\$74,938
<b>Total</b>	<b>\$71,985</b>	<b>\$120,411</b>	<b>\$84,282</b>
<b>Benefits, from willingness-to-pay (WTP) factors</b>			
Local	\$5,509,181	\$7,840,675	\$3,151
Non-local	\$8,635,112	\$54,780,036	\$4,066
<b>Total</b>	<b>\$14,144,293</b>	<b>\$62,620,711</b>	<b>\$7,216</b>
Arizona component	\$14,982,646	\$68,136,424	\$8,045
<b>Benefit/cost comparison</b>			
Total benefits, Arizona	\$14,982,646	\$68,136,424	\$8,045
Total costs	\$71,985	\$120,411	\$84,282
Benefits/costs (first number in ratio: __ to 1)	208.1	565.9	0.10

Of the three case-study classes, class 1 and class 2 both had benefit/cost ratios well in excess of 1. Class 3 had the opposite condition – a very low cost/benefit ratio of 0.1. A meaningful issue, however, is that the willingness to pay approach to estimate benefits does not encompass a way of capturing the value for the vital role of the Quitobaquito Pond in protecting rare and endangered species. The low cost/benefit ratio of protecting Quitobaquito Pond led to ADEQ excluding this class of water bodies from potential inclusion in the SWPP.

Based on the modeling efforts provided by the contractors, this rulemaking proposes to protect class 1 and class 2 waters with water quality standards that are similar to those applied to the federal program. The modeling effort has demonstrated a significant benefit for protecting these surface waters, especially when considering the context that there are no current discharge permits to any of the surface waters protected by the SWPP. If, in the

future, ADEQ proposes to protect a water with a discharge permit, the agency expects that the costs considered by the analysis would dramatically change.

### *Arizona SWPP Water Quality Standards, Generally*

ADEQ's ESE model showed that the benefits of protecting certain classes of waters with water quality standards similar to those adopted for Arizona's CWA program outweighed the costs. However, the SWPP enabling legislation restricts the water quality standards that ADEQ can adopt and the permitting provisions that can be applied to discharges to non-WOTUS protected surface waters. This is best summarized in how the legislation redefined the word "permit." A.R.S. §49-201(32) defines the word permit as follows: "[f]or the purposes of regulating non-WOTUS protected surface waters, [a] *permit shall not include provisions governing the construction, operation, or modification of a facility except as necessary for the purpose of ensuring that discharge meets water quality-related effluent limitation or to require best management practices for the purpose of ensuring that a discharge does not cause an exceedance of an applicable surface water quality standard.*"

The restrictions present in the legislation mean the SWPP will regulate discharges to waters primarily based on water quality-based effluent limitations (WQBELs). WQBELs regulate discharges based upon the *actual impact* that a discharge has on receiving waters. The water quality standards established for a particular waterbody serve as the basis for imposing water-quality-based treatment controls in AZPDES permits.

### The Difference between CWA and SWPP Standards, Generally

To reiterate an earlier portion of this preamble, water quality standards are laws or regulations that consist of:

1. The designated use or uses of a waterbody;
2. The water quality criteria that are necessary to protect the use or uses; and
3. An antidegradation policy.

The SWPP borrows significantly from the Federal CWA structure with a few crucial distinctions. ADEQ *may not* adopt or apply water quality standards for non-WOTUS protected surface waters based on:

1. Antidegradation
2. Antidegradation Criteria
3. Outstanding Arizona Waters

Because antidegradation standards and criteria are prohibited from being used in AZPDES permits for discharges to non-WOTUS protected surface waters, the rules that ADEQ is adopting in Title 18, Chapter 11, Article 2 do not include those types of water quality standards. Additionally, permits and conditions for discharges to non-WOTUS protected surface waters are prohibited from implementing any sections of the CWA directly, including sections 301, 302, 306, 307, 308, 312, 318, and 405. Permits issued for these discharges to non-WOTUS waters are not subject to review by the EPA. ADEQ is prohibited from adopting or applying rules regarding the following discharges to non-WOTUS protected surface waters:

1. Except as applied to discharges from publicly owned treatment works, requirements specific to new sources or new dischargers under the CWA.
2. Except for discharges from publicly owned treatment works, technology-based effluent limitations, standards, or controls, including new source performance standards, under sections 301(b), 304(b), and 306 of the CWA.
3. Requirements to express all permit limitations, standards, or prohibitions for a metal solely in terms of total recoverable metal.
4. Requirements for review and approval of permits by the USEPA before issuance.

#### ***SWPP Definitions – R18-2-201***

Regulatory definitions provide clarity and certainty to the public when they engage with ADEQ's regulations. This rulemaking adopts 30 discrete definitions for terms that appear in Article 2. Generally, ADEQ has included specific definitions for designated uses, flow conditions, categories of surface waters, and terms that are defined in the enabling legislation that are implemented for user convenience.

ADEQ has determined some definitions were necessary during the rulemaking process due to stakeholder feedback. The definitions in Article 2 do not deviate significantly from the comparable definitions adopted in the federal program.

### ***SWPP Applicability – R18-2-202***

The SWPP enabling legislation prescribes limitations on what types of waters the program ADEQ can protect under this program. ADEQ has drafted R18-2-202 to make the types of waters that the SWPP applies to abundantly clear.

### ***SWPP Designated Uses – R18-2-203***

Adopting designated uses for a surface water allows ADEQ to provide a fundamental articulation of its role in Arizona's aquatic or human environment to the public. These adopted uses express goals for the water, such as supporting aquatic life and human activities. The concept of protected surface waters having designated uses is central to establishing appropriate water quality standards and setting those standards at an appropriate level.

Pursuant to the information produced by our economic, social, and environmental cost/benefit analysis, ADEQ is endeavoring to keep as many of the aspects of the new SWPP as similar as possible to the traditional AZPDES program that has already been deployed in Arizona. As a result, this rulemaking includes eight designated uses that are similar to the 10 uses that Arizona has developed for the CWA program. Notably, the SWPP does not apply to ephemeral waterways, therefore, ADEQ will not adopt an aquatic and wildlife (ephemeral) use for the SWPP. ADEQ has determined at this time that there are no EDWs eligible for protection under the SWPP, therefore, ADEQ is not currently adopting EDW standards for non-WOTUS protected surface waters. Standards that cannot be applied to waters only create costs and provide no benefits. Arizona's non-WOTUS protected surface waters list will use the following designated uses:

1. Domestic water source AZ (DWSAZ),
2. Fish consumption AZ (FCAZ),
3. Full body contact recreation AZ (FBCAZ),
4. Partial body contact recreation AZ (PBCAZ),
5. Aquatic and wildlife (cold water) AZ (A&WcAZ) (acute and chronic),
6. Aquatic and wildlife (warm water) AZ (A&WwAZ) (acute and chronic),
7. Agricultural irrigation AZ (AgIAZ), and
8. Agricultural livestock watering AZ (AgLAZ).

Future rulemakings for non-WOTUS protected surface waters may add or revise these designated uses. The two

subcategories of aquatic and wildlife designated uses adopted in the SWPP are meant to protect fish, shellfish, plants, and wildlife. In this initial version of the rulemaking, the A&WcAZ and A&WwAZ are assigned based on the relative elevation of the water, as well as the flow regime of the water. Intermittent and perennial protected surface waters located above 5000' are assigned the A&Wc use and those below 5000' are assigned the A&Ww use. These designations comport with the longstanding science the agency has used to assign the similar uses in the Federal program.

The SWPP will ensure that non-WOTUS protected surface waters will maintain water quality for recreation in and on the water with the full-body contact recreation (FBCAZ) and partial body contact recreation (PBCAZ) designated uses. These designated uses are intended to maintain and protect water quality for swimming, boating, wading, fishing, and other recreational uses. The FCAZ designated use is intended to protect human health when fish or other aquatic organisms are taken from a surface water for human consumption. ADEQ has considered the use and value of surface waters for public water supply by establishing the domestic water source (DWSAZ) designated use. The DWS designated use applies to a surface water that is used as a raw water source for drinking water supply. Grant Creek, Pinery Creek, and Mormon Lake have all traditionally been protected for this use in Article 1.

A.R.S. § 49-221(G)(3)(a) specifically contemplates protecting non-WOTUS surface waters “that are public waters used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water.” A.R.S. § 49-221(G)(3)(b) specifically protects “perennial waters or intermittent waters of the state that are used as a drinking water source, including ditches and canals.” A.R.S. § 49-221(G)(3)(d) specifically protects “perennial or intermittent public waters used for recreational or commercial fish consumption” and A.R.S. § 49-221(G)(3)(e) specifically protects “perennial or intermittent public waters used for water-based recreation such as swimming, wading, boating and other types of recreation in and around the water. The adoption of the DWSAZ, FBCAZ, PBCAZ, FCAZ, A&WcAZ, and A&WwAZ ensure that the specific goals of the statute are met.

Finally, ADEQ recognizes the use and value of surface waters for agricultural purposes by establishing the agricultural irrigation (AgIAZ) and agricultural livestock watering (AgLAZ) designated uses. These uses are intended to maintain and protect surface water quality so water can be used for crop irrigation or to water cattle and other livestock.

#### ***SWPP Interim, Presumptive Designated Uses – R18-2-204***

ADEQ has endeavored to build a set of regulations that could be used if the definition of WOTUS changes again in the near future. In our federal program, the tributary rule is used to assign standards to surface waters that are discovered to be WOTUS but haven't had designated uses assigned in Appendix B. One of the major limitations towards establishing a lever like the tributary rule is that the SWPP enabling legislation explicitly states that for a water to be protected, it must be listed on the PSWL.

The only time this is not the case is when the director discovers an imminent or substantial threat to public health or the environment that may occur if a surface water isn't listed. In the unlikely event that this happens, ADEQ is proposing the interim, presumptive designated uses rule in Article 2. The intention of this rule is that if the Director discovers an imminent or substantial threat to public health or the environment may occur, then the Director could list a water on the PSWL through the process prescribed in statute and use this rule to assign the proper designated uses outlined in this rule.

#### ***SWPP Analytical Methods – R18-2-205***

ADEQ has adopted a similar rule to our federal program to ensure that our sampling methodology remains consistent across both state and federal waters. The analytical methods rule ensures that samples collected by ADEQ are analyzed by qualified individuals at qualified locations that have the equipment necessary to produce scientifically verifiable results. This rule ensures that decisions made on non-WOTUS protected surface waters are made with the same level of scientific accuracy and credibility as decisions in the Federal program.

#### ***SWPP Mixing Zones – R18-2-206***

Occasionally, due to design and economic constraints, permit holders for discharges to non-WOTUS protected surface waters may need to discharge certain pollutants at concentrations that exceed SWQS. ADEQ has added mixing zone provisions to the SWPP to allow dischargers greater flexibility in permitting conditions while still protecting the environment.

A mixing zone is a limited area or volume of water where dilution of a discharge takes place and where numeric water quality criteria may be exceeded in a receiving surface water. The boundary of a mixing zone is the point

where the discharged pollutant is completely mixed. The goal of a mixing zone is to ensure that pollutant discharges are mixed so as to prevent acute toxicity and lethality to organisms passing through the mixing zone, and to protect the biological, chemical, and physical integrity of a surface water as a whole.

To ensure the prevention of acute toxicity, the requester of a mixing zone will generally propose a mixing zone boundary based on the following steps:

1. Identify the critical flow conditions of the receiving water and discharge, in order to predict the worst-case mixing scenario of the pollutants in the mixing zone.
2. Identify conservative pollutant concentration inputs.
3. Model the mixing of the discharged pollutants based on the critical flow conditions and concentration assumptions.
4. The model run will produce an acceptable mixing zone size. The model will account for whether a mixing zone should or should not be allowed.

Modeling for mixing zone size may be performed, as appropriate, by simple calculation. Ultimately, the factors in determining whether acute toxicity is prevented are (1) duration of exposure, and (2) pollutant concentration. While it is a goal to ensure that mixing zones are not larger than necessary, the size of the mixing zone is not as important as toxicity. The mixing zone standards and requirements in this rulemaking ensure protection of all water quality standards and also are flexible enough for practicable and scientifically defensible implementation.

This rulemaking includes a definition of critical flow conditions. Mixing zone size and boundaries are based on calculations and modeling to account for critical flow conditions. Assigning critical flow conditions for discharge and receiving water flows will allow for sizing of mixing zones based on exposure risk and exceedance frequencies and the particular designated use and criteria.

#### ***SWPP Natural Background – R18-2-207***

ADEQ has implemented a natural background rule in the SWPP rulemaking. The natural background rule allows ADEQ to consider whether the concentration of the pollutant is caused solely by natural background if a violation of water quality standards occurs.

### ***SWPP Schedules of Compliance – R18-2-208***

R18-2-208 allows ADEQ to work with permittees to develop an enforceable schedule in order to allow them time to come back into compliance with their AZPDES permit.

### ***SWPP Variances – R18-2-209***

A water quality variance is a time limited exception to an existing water quality criterion. A temporary water quality criterion for a designated use is identified which maintains the highest attainable condition of that water. The highest attainable condition of the water essentially means that the receiving water quality aligns as much as possible with a designated use and is the best water quality that can be achieved during the term of a variance.

A variance is time-limited, discharger or water body-specific, and pollutant-specific. A variance does not result in any change to the underlying designated use and criteria of the receiving water. This means that any discharger to which a variance does not apply must still comply with the applicable designated use and criteria of the water.

Variances are a vital tool to improving water quality in partnership with facilities and ADEQ has had some form of a rule allowing for variances in the federal program since 1996. The variance rule aligns with the federal version of the rule and EPA guidance as no EPA rule previously existed to prescribe and define variance requirements.

Under the rule, variances are tied to a specific discharger/facility or water body segment. For example, if a discharger is granted a variance, the variance will be adopted as a rule, and that rule will be referred to as a basis for a permit condition in that discharger's permit in the next permit renewal or modification. Note that if a variance is repealed, which may occur for some reason that necessitates immediate action, ADEQ would have the authority under the standard reopener clause to modify the permit condition.

ADEQ had adopted the requirements that a variance must protect the "highest attainable condition" of the water body to which a variance applies. "Highest attainable condition" will be defined in a similar way as it is with

the federal program, specifically that:

1. The condition does not have to be expressed as a use, but rather as a quantifiable expression of the condition;
2. The condition cannot lower currently attaining water quality in that the condition does not change the designated use underlying a variance.

Thus, the highest attainable use is a modified aquatic life, wildlife, or recreational use, while the highest attainable condition is an expression of pollutant reduction. Because the “highest attainable condition” must be met at any time throughout a variance term, variance requirements may need to be expressed as a range, and dependent on particular parameters, to account for change over time, or multiple variances may be adopted to allow for incremental change in water quality. The rule allows variances to be issued for longer than five years, but for no longer than is necessary to achieve the highest attainable condition.

#### ***SWPP Site-specific Standards – R18-2-210***

ADEQ is proposing to adopt a rule that is similar to the federal version of this rule in order to allow the agency to set site-specific standards for listed waters.

#### ***Enforcement of Non-Permitted Discharges for Non-WOTUS Waters – R18-2-211***

The rule prescribes the minimum data collection requirements for identifying a violation of a standard for enforcement purposes. To be clear, this rule does not apply to exceedances of a permit. ADEQ has included the language that a “non-permitted discharge violation” does not include a discharge regulated under an AZPDES permit. Therefore, this enforcement rule will not be applied in situations where there is a permitted discharge.

What this rule does provide is a mechanism to determine the need for enforcement of suspected unpermitted discharges to non-WOTUS protected surface waters and ensuing violations of water quality standards. ADEQ believes the language in the rule clarifies that it only applies to non-permitted discharge violations.

Although the rule does prescribe the minimum data collection requirements, these requirements are for enforcement purposes only in the situation where a discharge is not permitted. However, because this rule is

located in the standards rules, it may be unclear that this rule is not intended to be used for “assessment” purposes. An “assessment” is a required action whereby, every 5 years, ADEQ assesses whether each water or segment of a non-WOTUS protected surface water is meeting the water quality standards that have been set for it.

For assessment and impaired water identification purposes, ADEQ wishes to clarify that the agency must use the relevant standard rule and associated calculation method pursuant to A.A.C. Chapter 11, Article 2 for each pollutant/use, and use the credible data and data interpretation requirements and methodologies in the Impaired Waters Identification rules in A.A.C. Chapter 11, Article 6 to determine whether each water is attaining applicable standards or not. The impaired water identification rules in that article currently apply to non-WOTUS protected surface waters, although ADEQ has a duty to modify those rules within a year of publishing this rulemaking.

***SWPP Statements of Intent – R18-2-212***

Because the SWPP enabling legislation contains a significant number of limitations regarding the reach of ADEQ’s potential regulations, ADEQ has included a rule to specifically suggest the intent of the agency during rulemaking.

***SWPP Narrative Standards – R18-2-214***

Narrative criteria are general statements designed to protect the aesthetics and health of a waterway. ADEQ is proposing to adopt a majority of the existing narrative criteria to prevent the discharge of pollutants that cause any conditions listed in R18-2-214.

Water quality criteria, numeric criteria, and narrative criteria are all based on a significant body of scientific work. Generally, standards are developed using a workgroup process or informal public meetings and are eventually proposed for public comment. This rule does not include narrative-numeric criteria for bottom deposits, biocriteria, or nutrient standards for lakes. The rules in R18-11-108.03 have not been approved by the EPA, so their inclusion was not part of the ESE analysis that ADEQ performed. There are no waters on this first draft of the PSWL that are perennial, wadable streams so standards that are similar to R18-11-108.01 and R18-11-108.02 would not apply to any listed waters.

### ***SWPP Numeric Standards – R18-2-215***

R18-2-215 lists the numeric water quality standards applicable to non-WOTUS protected surface waters. The numeric water quality criteria have been adopted at the same level as those in our federal program.

When calculating water quality standards for human health, the State uses base equation factors found in EPA human health criteria methodology documentation, and then modifies the formulas to reflect the different uses assigned to Arizona waters.

Arizona's human health standards are broken down into domestic water source AZ (DWS AZ), fish consumption AZ (FC AZ), full body contact AZ (FBC AZ) and partial body contact AZ (PBC AZ). The first three standards (DWSAZ, FCAZ, FBCAZ) are further divided and calculated using carcinogenic and non-carcinogenic endpoints. Where the FBCAZ use assumes acute exposure to carcinogens through water consumption, the PBCAZ standard, due to the infrequent, short, and episodic nature of the exposure, assumes an acute dose and uses only the non-carcinogenic endpoint.

Aquatic and wildlife standards are derived using empirical toxicity data for Arizona species to calculate acute and chronic endpoints. For human health standards, data are mainly extrapolated from animal studies. Because of this, the reference dose (RfD) used to calculate a standard incorporates safety factors addressing aspects such as extrapolation of animal data and human weight, age, and sex differences. Also, because humans don't have constant and direct exposure to waterborne toxins, for non-carcinogenic pollutants, ADEQ uses relative source contribution factors (RSC) to account for exposures from other sources, such as food and occupational exposures. For fish consumption, ADEQ also considers the average bioaccumulation potential of a chemical in edible tissues of aquatic organisms that are commonly consumed by humans.

Carcinogenic standards are functionally statistical risk equations that take the potency of a carcinogen and calculate the concentration that would cause one additional cancer case per 1,000,000 people. One in a million is considered an "acceptable" risk when calculating standards. Every exposure carries exactly the same risk for developing cancer.

Unlike aquatic and wildlife standards, human health standards are not broken down into chronic and acute

concentrations. A more conservative approach is employed, which assumes acute lifetime exposure due to: a) the unknowns due to lack of empirical data, b) other uncontrolled exposures to toxins, c) the statistical nature of carcinogenic standards and d) the fact that standards are set for the human population as a whole.

For all of the aquatic and wildlife uses (A&W AZ) the State uses data contained in the US EPA CWA § 304(a) Aquatic Life Table for the individual pollutant in question. To tailor the standard to one of the four A&W uses, the State uses the EPA “Revised Deletion Process for the Site-Specific Recalculation Procedure for Aquatic Life Criteria” (EPA, 2013). In this procedure, species that do not occur in a particular waterbody type (e.g. salmonids for the A&W warmwater use) are deleted from the data set to better reflect the taxonomy of species that occur in that waterbody type and their respective toxicity values in the criteria derivation process. ADEQ utilizes a state-specific species list to tailor the aquatic and wildlife uses as much as possible to calculate A&W standards for Arizona.

For standards for the Aquatic and Wildlife Coldwater use, ADEQ uses salmonids and other coldwater species. For Aquatic and Wildlife Warmwater, coldwater species like salmonids are usually not considered. For Aquatic and Wildlife Effluent Dependent, ADEQ uses warmwater species that generally occur in nutrient rich, lower oxygen environments.

#### ***The Protected Surface Waters List – R18-2-216***

One of the main features of the new Arizona SWPP is that it requires the Director of ADEQ to maintain and publish a Protected Surface Waters List (PSWL). The Final PSWL is the version of the list that will be codified in this rulemaking at R18-2-216. Pursuant to the requirements of HB2691, the PSWL does include:

1. Waters of the United States;
2. The Bill Williams River, from its confluence of the Big Sandy River and the Santa Maria River to its confluence with the Colorado River;
3. The Colorado River, from the Arizona-Utah border to the Arizona-Mexico border;
4. The Gila River, from the Arizona-New Mexico border to its confluence with the Colorado River;
5. The Little Colorado River, from the confluence of the East and West Forks of the Little Colorado River to its confluence with the Colorado River;

6. The Salt River, from the confluence of the Black River and White River to its confluence with the Gila River;
7. The San Pedro River, from the Arizona-Mexico Border to the confluence with the Gila River;
8. The Santa Cruz River, from its origins in the Canelo Hills of Southeastern Arizona to its confluence with the Gila River; and
9. The Verde River, from Sullivan Lake to its confluence with the Salt River.

The PSQL does not include non-WOTUS waters that are:

1. Canals in the Yuma project and ditches, canals, pipes, impoundments and other facilities that are operated by districts organized under Arizona Revised Statutes (A.R.S.) Title 48, Chapters 18, 19, 20, 21 and 22 and that are not used to directly deliver water for human consumption, except when added pursuant to A.R.S. § 49-221(G)(4) and in response to a written request from the owner and operator of the ditch or canal until the owner and operator withdraws its request.
2. Irrigated areas, including fields flooded for agricultural production.
3. Ornamental and urban ponds and lakes such as those owned by homeowners' associations and golf courses, except when added pursuant to an economic, environmental, and social cost-benefit analysis where the benefits of listing the water outweigh the costs and in response to a written request from the owner of the ornamental or urban pond or lake until the owner withdraws its request.
4. Swimming pools and other bodies of water that are regulated pursuant to A.R.S. § 49-104, subsection (B).
5. Livestock and wildlife water tanks and aquaculture tanks that are not constructed within a protected surface water.
6. Stormwater control features.
7. Groundwater recharge, water reuse and wastewater recycling structures, including underground storage facilities and groundwater savings facilities permitted under A.R.S. Title 45, Chapter 3.1 and detention and infiltration basins, except when added pursuant to A.R.S. §49-221(G)(4) and in response to a written request from the owner of the groundwater recharge, water reuse or wastewater recycling structure until the owner withdraws its request.
8. Water-filled depressions created as part of mining or construction activities or pits excavated to obtain fill, sand or gravel.

9. All water treatment systems components, including constructed wetlands, lagoons and treatment ponds, such as settling or cooling ponds, designed to either convey or retain, concentrate, settle, reduce or remove pollutants, either actively or passively, from wastewater before discharge to eliminate discharge.
10. Groundwater.
11. Ephemeral waters
12. Lakes and ponds owned and managed by the United States Department of Defense and other surface waters located on and that do not leave United States Department of Defense property, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the United States Department of Defense until it withdraws its request.

The PSWL also includes non-WOTUS surface waters that fall into the following categories:

1. All lakes, ponds, and reservoirs that are public waters used as a drinking water source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water;
2. Perennial waters or intermittent waters of the state that are used as a drinking water source, including ditches and canals;
3. Perennial or intermittent tributaries to the Bill Williams River, the Colorado River, the Gila River, the Little Colorado River, the Salt River, the San Pedro River, the Santa Cruz River and the Verde River;
4. Perennial or intermittent public waters used for recreational or commercial fish consumption;
5. Perennial or intermittent public waters used for water-based recreation such as swimming, wading, boating and other types of recreation in and on the water;
6. Perennial or intermittent wetlands adjacent to waters on the protected surface waters list; and
7. Perennial or intermittent waters of the state that cross into another state, the Republic of Mexico or the reservation of a federally recognized tribe.

#### Non-WOTUS Waters – Table A

This rulemaking adds the following non-WOTUS waters to the PSWL. The table below also includes a rationale for listing the water.

Surface Waters	Segment Description and Location (Latitude and Longitudes are in NAD 83)	Comments
Cottonwood Creek	Headwaters to confluence with unnamed tributary at 35°20'46"/113°35'31"	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Cottonwood Creek	Below confluence with unnamed tributary to confluence with Truxton Wash	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Wright Canyon Creek	Headwaters to confluence with unnamed tributary at 35°20'48"/113°30'40"	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Wright Canyon Creek	Below confluence with unnamed tributary to confluence with Truxton Wash	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Boot Lake	34°58'54"/111°20'11"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Little Ortega Lake	34°22'47"/109°40'06"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Mormon Lake	34°56'38"/111°27'25"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Potato Lake	35°03'15"/111°24'13"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Pratt Lake	34°01'32"/109°04'18"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.

Sponseller Lake	34°14'09"/109°50'45"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Vail Lake	35°05'23"/111°30'46"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Water Canyon Reservoir	34°03'38"/109°26'20"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Bonsall Park Lake	59th Avenue & Bethany Home Road at 33°31'24"/112°11'08"	Ornamental or urban ponds and lakes such as those owned by homeowners' associations and golf courses, added pursuant to an economic, environmental, and social cost-benefit analysis where the benefits of listing the water outweigh the costs and in response to a written request from the owner of the ornamental or urban pond or lake until the owner withdraws its request. ADEQ has received a request from the relevant municipality and determined that protecting this hydrologically isolated lake with the water quality standards in this article produces more benefits than costs.
Canal Park Lake	College Avenue & Curry Road, Tempe at 33°26'54"/ 111°56'19"	Ornamental or urban ponds and lakes such as those owned by homeowners' associations and golf courses, added pursuant to an economic, environmental, and social cost-benefit analysis where the benefits of listing the water outweigh the costs and in response to a written request from the owner of the ornamental or urban pond or lake until the owner withdraws its request. ADEQ has received a request from the relevant municipality and determined that protecting this hydrologically isolated lake with the water quality standards in this article produces more benefits than costs.
Big Creek	Headwaters to confluence with Pitchfork Canyon Wash	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS that are similar to those in the federal program pursuant to ADEQ's ESE analysis.
Goudy Canyon Wash	Headwaters to confluence with Grant Creek	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Grant Creek	Headwaters to confluence with unnamed tributary at 32°38'10"/109°56'37"	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Grant Creek	Below confluence with unnamed tributary to terminus near Willcox Playa	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.

High Creek	Headwaters to confluence with unnamed tributary at 32°33'08"/110°14'42"	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
High Creek	Below confluence with unnamed tributary to terminus near Willcox Playa	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Pinery Creek	Headwaters to State Highway 181	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Pinery Creek	Below State Highway 181 to terminus near Willcox Playa	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Post Creek	Headwaters to confluence with Grant Creek	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Riggs Flat Lake	32°42'28"/109°57'53"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS that are similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Rock Creek	Headwaters to confluence with Turkey Creek	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Soldier Creek	Headwaters to confluence with Post Creek at 32°40'50"/109°54'41"	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Snow Flat Lake	32°39'10"/109°51'54"	Lake, pond, or reservoir that is a public water used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water. Protected by WQS similar to those adopted in the federal program pursuant to ADEQ's ESE analysis.
Stronghold Canyon East	Headwaters to 31°55'9.28"/109°57'53.24"	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis. ADEQ has assigned designated uses of A&WcAZ, PBCAZ, and AgLAZ to this water in this rulemaking pursuant to the ESE analysis. Stronghold Canyon East was split into two reaches because the original reach is 3.76 miles in length with 1.44 miles above 5000' and 2.32 miles below 5000'.
Stronghold Canyon East	31°55'9.28"/109°57'53.24" to confluence with Carlink Canyon	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis. ADEQ has assigned

		designated uses of A&WcAZ, PBCAZ, and AgLAZ to this water in this rulemaking pursuant to the ESE analysis. Stronghold Canyon East was split into two reaches because the original reach is 3.76 miles in length with 1.44 miles above 5000' and 2.32 miles below 5000'.
Turkey Creek	Headwaters to confluence with Rock Creek	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Turkey Creek	Below confluence with Rock Creek to terminus near Willcox Playa	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Ward Canyon Creek	Headwaters to confluence with Turkey Creek	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.
Moonshine Creek	Headwaters to confluence with Post Creek	Perennial or intermittent public water used for recreational or commercial fish consumption or water-based recreation such as swimming, wading and boating, and other types of recreation in and on the water. Protected by WQS similar to those in the federal program pursuant to ADEQ's ESE analysis.

WOTUS-Protected Surface Waters – Table B

This rulemaking includes a list of WOTUS protected surface waters to provide consistency and clarity to stakeholders about how surface waters in Arizona are regulated. The waters listed in Table B have been regulated by ADEQ as WOTUS, under the law that is effective on 11/18/2022. Notwithstanding its inclusion in Table B, the status of a particular water identified as WOTUS can be contested by a person subject to an enforcement or permit proceeding related to that water.

Historically Regulated as WOTUS and Pending Confirmation – Table C

ADEQ has included Table C in this rulemaking as a table of waters that are regulated as WOTUS but do not have a formal WOTUS determination. ADEQ will continue gathering data on these waters to determine whether they should continue to be regulated under the Federal program or if they should more appropriately be protected by the SWPP. Notwithstanding its inclusion in Table C, the status of a particular water identified as WOTUS can be contested by a person subject to an enforcement or permit proceeding related to that water.

ADEQ has included Table C as a separate designation in this rulemaking to provide clarity to stakeholders on the status of a water during the SWPP rulemaking process. The waters on this list need additional analysis to determine whether they should continue to be considered a WOTUS. This list includes waters that are also

listed on Appendix B, waters that have been assessed as impaired during ADEQ bi-yearly water quality assessment, and waters that are protected by active AZPDES permits. The inclusion of a surface water in Table C of the PSWL does not change the jurisdictional status of a surface water for purposes of the CWA.

#### SWPP Best Management Practices – R18-2-217

ADEQ engaged WestLand Engineering & Environmental Associates (WestLand) to identify best management practices (BMPs) that would conform with the requirement in A.R.S. § 49-255.05. Specifically, the statute requires the identification of appropriate BMPs to be used when working within the ordinary high-water mark (OHWM) of intermittent or perennial non-WOTUS protected surface waters, or within the bed and bank of surface waters that materially impact state protected surface waters.

WestLand produced two reports that describe a list of BMPs to meet the following requirements:

1. Rules establishing BMPs for various activities enumerated in §49-255.05.
2. Notification requirements to ensure that activities enumerated in §49-255.05 do not violate applicable surface water quality standards.

The Construction General Permit (CGP) (see, e.g., Parts 1.5(3), 1.5(4), 2.3(3)(c), 3.8(2), and 7.0) uses a ¼ mile upstream distance to identify situations where activities near sensitive waters (impaired waters or outstanding Arizona waters) require additional review or discharge monitoring. ADEQ has determined that it is protective, including from both a distance and topography perspective (see A.R.S. § 49-255.05(A)(2)), to use a similar ¼ mile upstream threshold to determine material impact for purposes of determining applicability of these BMPs.

- 7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

#### **Arizona Administrative Register**

*Summary:* The Administrative Register (Register) is a legal publication published by the Administrative Rules

Division that contains information about rulemaking activity in the state of Arizona. The issues referenced below include code sections being amended and introduced to Chapter 11, which involves the Department of Environmental Quality Water Quality Standards.

*Study Resource:* These publications mainly refer to and make reference to topics that contribute to the Economic, Small Business, and Consumer Impact Statements. The studies referred to and referenced in this publication provide a brief summary of tourism, agriculture, or other benefits as well as cost categories or data produced from the findings. The following items are addressed in individual registers cited below:

Arizona Administrative Register (1995). Notice of Proposed Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 1, Issue 50.

*Publication Study Resource:* Proposed new section to the modification of water quality standards on the grounds of net ecological benefit based on the following criteria:

1. The discharge of effluent creates or supports an ecologically valuable aquatic; wetland, or riparian habitat in an area where such resources are limited
2. The cost of treatment to comply with a water quality standard is so high that it is more cost effective to eliminate the discharge of effluent rather than upgrade treatment
3. It is feasible for a point source discharger to completely eliminate the discharge of effluent
4. The environmental benefits associated with the discharge of effluent under a modified water quality standard exceed the environmental costs associated with elimination of the discharge and destruction of the effluent dependent ecosystem
5. All practicable point source control discharge programs, including local pretreatment, waste minimization, and source reduction programs are implemented
6. The discharge of effluent under a modified water quality standard will not cause or contribute to a violation of a water quality standard that has been established for a downstream surface water
7. The discharge of effluent will not produce or contribute to the concentration of a pollutant in the tissues of aquatic organisms or wildlife that is likely to be harmful to humans or wildlife through food chain concentration.

Arizona Administrative Register (1996). Notice of Final Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards For Surface Waters – Economic Small Business and Consumer Impact Statement, Volume 2, Issue 20.

*Publication Study Resource:* The adopted Net Ecological Benefit rule provides a benefit to the owners of wastewater treatment plants that support or create effluent dependent waters because it provides a mechanism for relief from a water quality standard that otherwise might force costly treatment plant upgrades. The adopted rule also provides ecosystem benefits in that it provides a regulatory incentive to maintain and preserve in-stream flows in areas where riparian and aquatic resources are limited. The continued discharge of effluent may provide net ecological benefits, even though an applicable water quality standard is not being met. Examples of possible ecological benefits include:

1. Enhancement, expansion or restoration of aquatic and riparian habitat for native, threatened or endangered aquatic species, or for migratory waterfowl
2. Provision or enhancement of habitat or food sources for native, threatened and endangered species that are terrestrial
3. Enhancement of species diversity
4. Enhancement or restoration of riparian values (e.g. cottonwood/willow habitat, improved bird and wildlife habitat)

Arizona Administrative Register (2001). Notice of Proposed Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 7, Issue 11.

*Publication Study Resource:* Proposed decision criteria for *Social and economic impact of Tier 3 antidegradation protection:* The Director may take into consideration the potential social and economic impact of a unique water classification and the establishment of Tier 3 antidegradation protection, including:

1. Impact of a prohibition of new point source discharges and expansion of existing point source discharges, including possible limits on discharges to the tributaries of a proposed unique water and possible impacts on growth and development.
2. Impact of possible future restrictions on land use activities in a unique water's watershed, including cattle grazing, timber harvesting, mining, recreation, and agriculture.
3. The impact of stricter requirements for §401 certification of federal permits and licenses, including NPDES and §404 permits.
4. Impact on private property rights and the potential for regulatory "takings."
5. Ecosystem and preservation values.

Arizona Administrative Register (2002). Notice of Final Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 8, Issue 13.

Arizona Administrative Register (2008). Notice of Final Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 14, Issue 52.

Arizona Administrative Register (2016). Agency Certificate Notice of Final Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 22, Issue 36.

*Publication Study Resource:* ADEQ proposed to eliminate the requirement that a discharger have a plan to eliminate the discharge under active consideration as part of what must be demonstrated. Communities and developers should benefit by eliminating an extra burden in seeking to use high quality effluent to create aquatic and riparian ecosystems.

Arizona Administrative Register (2017). Notice of Final Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 23, Issue 6.

*Publication Study Resource:* Estimated costs and benefits to consumers and the public mentioned in recreation activities (e.g., Ironman at Tempe Town Lake), fishing activities, and agricultural productivity.

Arizona Administrative Register (2019). Notice of Final Rulemaking, Title 18, Environmental Quality, Chapter 11, Department of Environmental Quality, Water Quality Standards, Volume 25, Issue 5.

*Publication Study Resource:* See notes regarding interface with AOT studies under *Agriculture in Arizona's Economy* and *The Economic Contributions of Water-related Outdoor Recreation in Arizona*, below.

### **Agriculture in Arizona's Economy**

*Summary:* This report explores agriculture's contribution to the Arizona economy by examining the entire agribusiness system in Arizona.

*Study Resource:* The economic contribution analysis was conducted using input-output modeling and the premiere software for this type of analysis, IMPLAN Version 3.1. IMPLAN is a modeling system of a regional economy that is based on national averages of production conditions. This model was refined based on the best available data to more accurately reflect production conditions in Arizona.

*Applicability to current benefit/cost estimating procedures:* Uses IMPLAN system to translate *direct* economic effects of some action into *secondary* effects, reflecting the multiplier effects of actions through the economic system. The practice represented by this modeling tool, widely used in economic impact assessments, would be a logical eventual extension of cost and benefit estimating for Arizona water bodies.

Kerna, A., & Frisvold, G. (2014). Agriculture in Arizona's Economy: An Economic Contribution Analysis. *Department of Agricultural & Resource Economics. University of Arizona.*

### **Buehman Canyon Creek – Economic Benefits of Unique Water Designation Study of Buehman Canyon Creek**

*Summary:* This study reviews the economic benefits of Buehman Canyon Creek for the consideration of determining the water body as a unique water designation.

*Study Resource:* Provides guidance on factors that need to be considered in a comprehensive examination of costs and benefits in the economic impact statement for proposed unique water designation.

*Applicability to current benefit/cost estimating procedures:* This study mentions economic benefits that are quantifiable but does not include the data methodology used to support the economic benefits associated with the proposed unique water designation for Buehman Canyon Creek.

Colby, B.G. (1996) Buehman Canyon Creek – Economic Benefits of Unique Water Designation Study – March 1996. *Arizona Department of Environmental Quality.*

### **The Economic Benefits of Recreation in Rural Arizona**

*Summary:* This report provides a summary analysis of tourism and recreation as factors influencing the state's economy and local economy's within the state.

*Study Resource:* This report summarizes park recreation tourism economic benefits, the benefits to rural areas, and the need to develop more facilities to access recreation lands. Drawing from the published survey of visitors of Arizona State Parks conducted between 1987-1988, visitors were asked how much money their group spent during their trip within 50 miles of the state park they were visiting, average expenditures were produced per visitor group per trip and were applied to park attendance counts to document total expenditures spent within 50 miles of state parks by visitors in 1987.

*Applicability to current benefit/cost estimating procedures:* The reference cited for this document, entitled "*The 1987-1988 Use Study of Arizona State Parks Visitors*," for the Arizona State Parks Board in 1989, provides some quantified data for visitor expenditures that lends itself to capturing economic benefits of this type.

Spear, S. (1989) Rural Arizona... The Economic Benefits of Recreation, A Summary Analysis of Tourism and Recreation as Factors Influencing State and Local Economies. *Arizona State Parks Board Statewide Planning Section*.

### **The Economic Contributions of Water-related Outdoor Recreation in Arizona**

*Summary:* A study of outdoor recreational activity on or along the water to estimate the level of participation in the state and the contributions from these activities to the county and state economies.

*Study Resource:* The analysis is structured around estimating three sets of metrics: participation, spending, and economic contributions. Participation estimates for this study relied largely on two data sources to characterize outdoor recreation on or along the water. Economic Contributions were estimated by combining spending estimates with data that models economic sector interactions in a given geography. Expenditure data were collected for different categories (e.g., groceries, fuel, equipment, etc.) as part of the OIA survey, which enabled allocation of spending to specific economic sectors. These data were then run through an IMPLAN™ model of the Arizona statewide economy using software produced by MIG, Inc. The resulting county-level and water-specific estimates reflect the contribution that outdoor recreation in those locales has on the statewide economy.

Appendix A in the document provides additional background information on economic contributions.

*Applicability to current benefit/cost estimating procedures:* See notes on IMPLAN under *Agriculture in Arizona's Economy*. The Arizona Office of Tourism (AOT) sponsors periodic generalized studies related to Arizona visitors, including types of activities, expenditures, economic impacts, etc. To the extent that benefit/cost modeling of water bodies/designations is expanded into specific consideration of benefits related to riparian-focused activities, these location/activity-specific studies (#4 as well as this one) can add to the specificity of benefits associated with activities of particular interest.

Southwick Associates (2019). *The Economic Contributions of Water-related Outdoor Recreation in Arizona: A Technical Report on Study Scope, Methods, and Procedures. Audubon Arizona.*

### **Socioeconomic consequences of mercury use and pollution**

*Summary:* In the past, human activities often resulted in mercury releases to the biosphere with little consideration of undesirable consequences for the health of humans and wildlife. This paper outlines the pathways through which humans and wildlife are exposed to mercury.

*Study Resource:* This paper examines the life cycle of mercury from a global perspective and then identifies several approaches to measuring the benefits of reducing mercury exposure, policy options for reducing Hg emissions, possible exposure reduction mechanisms, and issues associated with mercury risk assessment and communication for different populations. This study also briefly reviews the methods used to quantify the benefits to human health associated with reduced mercury exposure, which include Benefit-cost Analysis and the Cost-effectiveness Analysis.

*Applicability to current benefit/cost estimating procedures:* This paper does not include any quantifiable data used in its review of the Benefit-cost Analysis or Cost-effectiveness Analysis.

Swain, E. B., Jakus, P. M., Rice, G., Lupi, F., Maxson, P. A., Pacyna, J. M., ... & Veiga, M. M. (2007). Socioeconomic consequences of mercury use and pollution. *Ambio*, 45-61.

### **Nature-based Tourism and the Economy of Southeastern Arizona**

*Summary:* This study documents expenditures in the Sierra Vista area by visitors to the San Pedro Riparian National Conservation Area (RNCA) and by bird watchers at Ramsey Canyon Preserve. Information on visitor expenditures, characteristics and preferences is reported, along with implications for nature-based tourism in southeastern Arizona. This study examined visitation to only two natural areas and so economic impacts reported here represent only a portion of the impacts of visitor spending associated with all nature preserves located in southeastern Arizona. The study indicates that 95% of visitors to Ramsey Canyon and the San Pedro RNCA go to at least one other site in southern Arizona on a typical visit to the area, and make expenditures in communities located near these sites.

*Study Resource:* The expenditure analysis indicates the importance of an overnight stay for communities to experience significant economic benefits from visitors.

*Applicability to current benefit/cost estimating procedures:* See notes regarding interface with AOT studies under *The Economic Contributions of Water-related Outdoor Recreation in Arizona*, above.

Crandall, K., Leones, J., & Colby, B. G. (1992). *Nature-based Tourism and the Economy of Southeastern Arizona: Economic Impacts of Visitation to Ramsey Canyon Preserve and the San Pedro Riparian National Conservation Area, Final Report*. Department of Agricultural and Resource Economics, the University of Arizona.

#### **Notes on inclusion of source studies and data preparation for wetlands meta-data**

*Summary:* This memorandum provides reasons for excluding specific wetland valuation studies from the meta-data that was used in the meta-analysis for estimating national benefits in the *Economic Analysis for the Proposed “Revised Definition of ‘Waters of the United States’” Rule* (U.S. EPA and Army, 2021).

*Study Resource:* Provides an overview of valuation scenarios considered in literature and the assumptions made to fill in data gaps for each study used for wetlands meta-data.

*Applicability to current benefit/cost estimating procedures:* Provides a critical meta-analysis of literature and studies that support estimating national benefits in the *Economic Analysis for the Proposed “Revised Definition of ‘Waters of the United States’” Rule* (U.S. EPA and Army, 2021).

ICF. 2021. Notes on inclusion of source studies and data preparation for wetlands meta-data. Memorandum to Todd Doley and Steve Whitlock. November 22, 2021.

### **Using Meta-Analysis for Large-Scale Ecosystem Service Valuation: Progress, Prospects, and Challenges**

*Summary:* This article discusses prospects and challenges related to the use of meta-regression models (MRMs) for ecosystem service benefit transfer, with an emphasis on validity criteria and post-estimation procedures given sparse attention in the ecosystem services literature. Includes a meta-analysis of willingness to pay for water quality changes that support aquatic ecosystem services, and the application of the model to estimate water quality benefits under alternative riparian buffer restoration scenarios in New Hampshire’s Great Bay Watershed. These illustrations highlight the advantages of MRM benefit transfers, together with the challenges and data needs encountered when quantifying ecosystem service values.

*Study Resource:* The illustrated case study discussed in this paper helps to demonstrate how evaluations of issues can help clarify the suitability of Meta-Regression Modeling (MRM) predictions for benefit transfers.

*Applicability to current benefit/cost estimating procedures:* This illustrates benefit transfers using scenarios of potential water quality, setting variables, geospatial and socioeconomic data for benefit transfer scenarios, the data methodology, indexing calibration, WTP estimate predictions per household, and the challenges for Large-Scale Ecosystem Service Valuations.

Johnston, R. J., & Bauer, D. M. (2020). Using meta-analysis for large-scale ecosystem service valuation: progress, prospects, and challenges. *Agricultural and Resource Economics Review*, 49(1), 23-63

### **Economic Analysis for the Proposed “Revised Definition of ‘Waters of the United States’” Rule**

*Summary:* This Economic Analysis (EA) assesses the potential impacts of the proposed changes to the definition of “waters of the United States” based on the potential effects to Clean Water Act (CWA) programs that rely on that definition.

*Study Resource:* Provides an overview of economic analysis under the primary and secondary baselines for the CWA. The paper discusses the multiple components of the secondary baseline assessment, and provides

estimates of the benefits and costs associated with this assessment, by states and for the US.

*Applicability to current benefit/cost estimating procedures:* This report provides broad guidance for estimating costs and benefits, key components of which, including benefits based on WTP, and various cost categories, were incorporated into a recommended BCA modeling structure for ADEQ.

U.S. Environmental Protection Agency and Department of the Army. (2021). *Economic Analysis for the Proposed “Revised Definition of ‘Waters of the United States’” Rule.*

[https://www.epa.gov/system/files/documents/2021-11/revised-definition-of-wotus\\_nprm\\_economic-analysis.pdf](https://www.epa.gov/system/files/documents/2021-11/revised-definition-of-wotus_nprm_economic-analysis.pdf)

### **Supplementary Material to the Economic Analysis for the Proposed “Revised Definition of ‘Waters of the United States’” Rule**

*Summary:* This document includes the Compendium of State and Tribal Regulations for CWA programs by state that corresponds to the *Economic Analysis for the Proposed “Revision Definition of ‘Waters of the United States’” Rule* report cited above.

*Study Resource:* See *Economic Analysis for the Proposed “Revision Definition of ‘Waters of the United States’” Rule* report cited above.

*Applicability to current benefit/cost estimating procedures:* Adds additional context to the approach EPA used in preparing estimates of costs and benefits, as addressed in *Revised Definition of ‘Waters of the United States Rule.*

U.S. Environmental Protection Agency and Department of the Army. (2021). *Supplementary Material to the Economic Analysis for the Proposed “Revised Definition of ‘Waters of the United States’” Rule.*

### **Upgrading Wetland Valuation via Benefit Transfer**

*Summary:* This study uses updated meta-data on wetland valuation to illustrate how a state-of-the-art meta-regression framework that is consistent with economic theory can be adapted to generate benefit transfer

predictions for incremental changes in wetland acreage over space and time. This study also applies this framework to estimate losses in benefits for realistic changes in wetland acreage for some sub-watersheds, as can be expected under the proposed re-definition of the “Waters of the United States” to be protected under the Clean Water Act (CWA).

*Study Resource:* This study provides an illustration of how recent advances in meta-analytic methods could be applied to value changes in wetland acreage regionally or nationally.

*Applicability to current benefit/cost estimating procedures:* This study compiles an updated meta-data set on willingness to pay (WTP) to preserve or restore wetlands in the United States, drawing from 17 primary valuation studies as current as 2016. This study also takes advantage of recent advances in meta-regression modeling and computation of predicted benefits via the econometric framework proposed in the previous Moeltner 2019 study within the context of valuing surface water quality changes via Benefit Transfers (BT).

Moeltner, K., Balukas, J. A., Besedin, E., & Holland, B. (2019). Waters of the United States: Upgrading wetland valuation via benefit transfer. *Ecological Economics*, 164, 106336.

All of the above studies are available at: <http://azdeq.gov/node/8173>.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable.

**9. A summary of the economic, small business, and consumer impact:**

**A. An identification of this rulemaking:**

The rulemaking addressed by this Economic, Small Business, and Consumer Impact Statement (EIS) contains amendments made by ADEQ to 18 A.A.C. 11, Article 1, in order to adopt and revise Surface Water Quality Standards (WQS) within the State of Arizona. Additionally, this EIS addresses the adoption of 18 A.A.C 11, Article 2, which adopts WQS for non-WOTUS protected surface waters listed on the Protected Surface Waters List. The WQS in Article 2 do not apply generally, and may only be applied to listed surface waters.

## **B. A brief summary of the EIS:**

Interested stakeholders should review ADEQ's Social, Environmental, and Economic cost/benefit analysis technical paper at [azdeq.gov/node/8173](http://azdeq.gov/node/8173) for more in-depth information. ADEQ's contractors have drafted the paper to meet the requirements statutory EIS requirements. Additionally, ADEQ has also addressed this topic earlier in the preamble and provided specific information regarding the costs and benefits of this proposed rule. The three case-study waterbodies ADEQ has used to in this rulemaking provide a contrasting and otherwise informative set of examples by which to illustrate various aspects of the economic impact of this rule.

McClure's quantitative analysis based on the data available for various cost and benefit factors incorporates a framework for addressing additional, qualitative aspects of protecting Arizona waterbodies. These qualitative components add context to the quantified portion of ADEQ's analysis and reflect potential elements of the cost/benefit analysis that could be refined during formal rulemaking. Including these qualitative discussions also helps illustrate certain limitations in the current modeling process.

The quantitative elements synthesize the following types of information:

1. Key characteristics of the three case-study waterbodies for which the cost/benefit process will be performed and which influence the application of various cost and benefit factors.
2. Quantified cost and benefit factors to apply to the waterbodies and to the households in the two types of analysis areas.
3. Factors for updating cost and benefit estimates derived (by others) in preceding years and for discounting streams of costs and benefits estimated to occur over a subsequent 20-year period.
4. Cost and benefit totals for each waterbody, and the ratio of benefits to costs.

Qualitative aspects of the analysis are summarized in the contractor report through a series of tables that discuss the broad implications of additional benefit and cost categories not quantified in the current model, Environmental Justice observations based on the quantified demographic data, and the sensitivity of model results to various quantified variables, including how results compared to certain Arizona-specific cost and benefit estimates in the EPA document.

## **C. Identification of the person who will be directly affected by, bear the costs of, or directly benefit from**

**the rules:**

The table below summarizes the persons who will be directly affected by, bear the costs of, or directly benefit from the rules in a manner consistent with the requirements of the EIS statute. Although the analysis completed by the consultant is more complete, this section may serve as a more accessible summary.

This rulemaking could affect ADEQ, political subdivisions, public and private entities who wish to obtain an AZPDES permit for a discharge to a listed surface water, public and private entities who may need to operate under and AZPDES general permit, and public and private laboratories that test for permit compliance. It will also create health, social, and economic benefits to the general public from access to clean water and protection of fish and wildlife.

The AZPDES permitting program is implemented by ADEQ through various general and individual permits. Individual permit holders can include public and private WWTPs, publicly owned treatment works (POTW), fish hatcheries, power plants, mines, truck stops, drinking water plants, marinas, and Water Quality Assurance Revolving Fund (WQARF) remediation projects. Because the WQS adopted in Article 1 of this rulemaking are already in effect, and there are planned of current discharges to any waters listed in Article 2, ADEQ expects the costs of adopting this rulemaking to be extremely low. Nonetheless, based on the information above, ADEQ has identified the following list of potential affected parties:

*State and local government agencies*

ADEQ,

Agencies operating under individual or general AZPDES permits

*Political subdivisions*

Political subdivisions generally, public WWTPs, POTWs, public laboratories Non-WWTP

government entities operating under AZPDES individual permits Non-WWTP government entities

operating under AZPDES general permits

*Privately-Owned Businesses*

Private entities operating under general permits Private, non-WWTP individual permit holders

Private WWTPs

Private laboratories

*The General Public*

**D. Cost/Benefit analysis:**

The costs/benefits for each of these potentially affected parties is listed below. Use the following key to decipher the range of costs:

<b>Minimal</b>	<b>Moderate</b>	<b>Substantial</b>	<b>Significant</b>
\$10,000 or less	\$10,001 to \$1,000,000	\$1,000,001 or more	Cost/Burden cannot be calculated, but the Department expects it to be important to the analysis.

<b>Description of Affected Groups</b>	<b>Description of Effect</b>	<b>Increased Cost/ Decreased Revenue</b>	<b>Decreased Cost/ Increased Revenue</b>	
ADEQ	Possible increase in number of surface waters identified as impaired and corresponding changes in 303(d) listings and TMDLs.	Minimal		
	Improved implementation and enforcement of the SWQS	Minimal		
	Administrative costs associated with future rulemakings	Significant		
	Predictability, reduced transaction costs, and responsiveness to stakeholders from avoiding federally-promulgated SWQS.		Minimal	
	Compliance with state and federal law.		Minimal	
	Support of ADEQ's mission to protect and enhance public health and the environment.		Substantial	
Political subdivisions generally	Tax revenues and indirect benefits of clean water dependent industries (including outdoor recreation, tourism, etc.)		Cumulatively substantial	
	Increased monitoring costs	Minimal		
	Public WWTP and/or POTW	Evaluation of compliance with standards	Minimal	
		Cost of compliance with new WQS	Minimal	
	Public laboratories	Improved implementation and enforcement of water quality standards by political subdivisions with pretreatment programs.		
		Clarification and correction of errors.		Moderate
	Testing for WQS with accompanying costs.	Minimal		

Non-WWTP Government entities	Clarification and correction of errors. Cost of compliance with new WQS.	Minimal	Significant
Private entities operating under general permits	Clarification and correction of errors. Cost of compliance with new SWQS.	Minimal	Significant
Private WWTP	Clarification and correction of errors. Cost of compliance with new SWQS		Significant
Laboratories	Clarification and correction of errors. Testing for new SWQS with accompanying costs.	Minimal	Significant
General Public	Economic and social benefits of clean water		Cumulatively substantial
Non-WWTP individual permit holders (Power Plants, Mines, Marinas, etc.)	Clarification and correction of errors. Cost of compliance with new SWQS.	Minimal, if any	Significant

**E. A general description of the probably impact on private and public employment in business agencies, and political subdivisions of this state directly affected by the rulemaking:**

ADEQ estimates that this rulemaking will not have an impact on public or private employment. To the best of ADEQ's knowledge, the agency does not believe that any of the rule contained in this rulemaking package will result in a private or public entity needed an AZPDES permit.

**F. A statement of the probably impact of the rules on small business:**

The agency uses the term "small business" consistent with A.R.S. § 41-1001(21) which defines a "small business" as a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year.

**1. An identification of the small business subject to the rules.**

Among the stakeholders listed above, many could meet the A.R.S. § 41-1001(21) definition of small business. For example, a WWTP that would potentially discharge to a non-WOTUS protected surface water could be affected by this rule. In its current form, ADEQ cannot identify any small businesses that will be negatively

affected by this rulemaking. Conversely, some small businesses may see some benefit in the clarification of WOTUS status of some waters and a clarification of what standards apply to those waters. Some recreational tourism related group may also see benefits from this rulemaking.

**2. The administrative and other costs required for compliance with the rules:**

Any potential compliance costs associated with this rulemaking would vary based on the stakeholder involved. ADEQ's examination of those costs is addressed in the matrix above and the consultants report.

**3. A description of the methods that the agency may use to reduce the impact on small businesses, as required in A.R.S. § 41-1035.**

In the event that a small business must acquire an AZPDES permit for a discharge to a non-WOTUS protected surface water, ADEQ has adopted water quality standards that allow ADEQ to establish variances, site-specific standards, or account for natural background pollutants when designing the permit.

**4. The probable costs and benefits to private persons and consumers who are directly affected by the rules:**

ADEQ's economic consultants prepared an executive summary which address the probable costs/benefits of and individual affected by these rules.

**G. A statement of the probable effect on state revenues.**

This rule should have a de minimus effect on state revenues.

**H. A description of any less instructive or less costly alternative methods of achieving the purpose of this rulemaking:**

ADEQ continually reviews and revises its WQS. These standards are adopted to protect public health or

Cost and Benefit Factors	Class 1 - sky island stream - Cochise Stonghold Cyn.	Class 2 - isolated lake - Pintail Lake & marshes	Class 3 - unique waterbody - Quitobaquito Pond
