(b) Other amounts that receive special tax benefits, such as premiums for group term life insurance, but only to the extent that the premiums are not includable in the gross income of the employee, qualified transportation fringe benefits as defined in section 132 of the internal revenue code and, effective for plan years beginning from and after December 31, 1987, any amounts under section 125 of the internal revenue code that are not available to a member in cash in lieu of group health coverage because the member is unable to certify that the member has other health coverage.

5. "Defined benefit dollar limitation" means the dollar limitation determined under subsection A of this section.

6. "Defined benefit plan" has the same meaning prescribed in section 414(j) of the internal revenue code.

7. "Defined contribution plan" has the same meaning prescribed in section 414(i) of the internal revenue code.

8. "Limitation year" and "years of service" mean the fiscal year.

### 38-770. [Eligible rollover distribution: definitions](#)

A. Notwithstanding any other provision of this article that would limit a distributee's election under this section, a distributee may elect, at any time and in the manner prescribed by the board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

B. An eligible rollover distribution may commence less than thirty days after the notice required under section 402(f) of the internal revenue code is given to the distributee, provided that both:

1. ASRS clearly informs the distributee that the distributee has a right to a period of at least thirty days after receiving the notice to consider the decision of whether or not to elect a direct rollover.

2. The distributee, after receiving the notice, affirmatively elects a distribution.

C. In addition to the other elections allowed in this section, effective for distributions made from and after December 31, 2006, a designated beneficiary of a member who is not the member's surviving spouse may elect, at any time and in the manner prescribed by ASRS, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan described in subsection D,

paragraph 3, subdivisions (a) and (b) of this section. For the purposes of this subsection, "designated beneficiary" has the same meaning prescribed in section 38-775.

D. For the purposes of this section:

1. "Direct rollover" means a payment by ASRS to the eligible retirement plan specified by the distributee.

2. "Distributee" means a member, a member's surviving spouse or a member's spouse or former spouse who is the alternate payee under an acceptable domestic relations order as defined in section 38-773.

3. "Eligible retirement plan" means any of the following that accepts a distributee's eligible rollover distribution:

(a) An individual retirement account described in section 408(a) of the internal revenue code.

(b) An individual retirement annuity described in section 408(b) of the internal revenue code.

(c) An annuity plan described in section 403(a) of the internal revenue code.

(d) A qualified trust described in section 401(a) of the internal revenue code.

(e) An annuity contract described in section 403(b) of the internal revenue code.

(f) An eligible deferred compensation plan described in section 457(b) of the internal revenue code that is maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state and that agrees to separately account for amounts transferred into the eligible deferred compensation plan from ASRS.

(g) Beginning January 1, 2008, a Roth individual retirement account described in section 408A of the internal revenue code.

(h) For distributions made after December 18, 2015, a simple retirement account that satisfies the requirements of section 408(p) of the internal revenue code.

4. "Eligible rollover distribution" means distribution of all or any portion of the balance to the credit of the distributee but does not include any of the following:

(a) Any distribution that is one of a series of substantially equal periodic payments made not less frequently than annually for the life or life expectancy of the member or the joint lives or joint life expectancies of the member and the member's designated beneficiary or for a specified period of ten years or more.

(b) Any distribution to the extent the distribution is required under section 401(a)(9) of the internal revenue code.

(c) Except as provided in this paragraph, the portion of any distribution that is not includable in gross income. A distribution does not fail to be an eligible rollover distribution merely because the portion

consists of after-tax employee contributions that are not includable in gross income if the portion is paid only to an individual retirement account or annuity described in section 408(a) or 408(b) of the internal revenue code, to a qualified plan described in section 401(a) of the internal revenue code or an annuity contract described in section 403(b) of the internal revenue code that agrees to separately account for amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income.

(d) Any distribution that is made due to hardship of the member.

**38-771. Benefit options for transferred defined contribution program members: definitions**

A. On or before December 31, 1995 a nonretired ASRS member who was a member of the defined contribution program administered by ASRS and who was transferred to the defined benefit program established by this article on July 1, 1981 shall elect to receive either retirement benefits provided under this section or retirement benefits as otherwise provided by this article. An election under this subsection is irrevocable. A member who fails to make an election under this subsection is deemed to have elected to receive retirement benefits provided under this section.

B. A member who elects to receive retirement benefits provided under this section is eligible only for those benefits.

C. If a member elects to receive retirement benefits provided under this section, the member shall elect to receive retirement benefits based on either of the following:

1. The contributions paid by the member and member's employer, plus all earnings attributed to the member's retirement account, through the member's retirement date.
2. Except as provided in subsections E and F of this section, contributions paid by the member and member's employer at the contribution rate in effect before July 1, 1975 and an employee and employer contribution rate of seven per cent calculated from July 1, 1975, plus all earnings attributed to the member's retirement account, through the member's retirement date.

D. Notwithstanding sections 38-736 and 38-737, members who elect to receive retirement benefits provided under this section and their employers shall each make contributions at a rate of seven per cent of the member's compensation and, beginning on July 1, 1998, employers shall make contributions to ASRS on behalf of their respective members who have elected to receive retirement benefits provided under this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for those retired members and their dependents as provided under section 38-783. Member contributions pursuant to this subsection shall be salary reduction contributions pursuant to section 38-747, subsections C and D.

E. Subject to subsection F of this section, if a member desires to receive retirement benefits based on subsection C, paragraph 2 of this section, the member shall make the election on or before June 30, 1999 and during the member's active employment. The election shall be made in accordance with section 38-747, subsections C, D and H. If a member elects to receive retirement benefits based on subsection C, paragraph 2 of this section, both the member and the member's employer shall pay to ASRS the difference between the contributions made and seven per cent of the member's gross compensation from July 1, 1984 through December 31, 1995. If a member elects to have the member's employer make payments for all or a portion of the contributions pursuant to section 38-747, subsection D, the member's employer shall make the contributions as required by

section 38-747, subsection D. If a member elects to make contributions pursuant to section 38-747, subsection H, both the member and the member's employer shall pay to ASRS the portion of the difference between the total required contributions and that portion of the required contributions that the member has elected to have the member's employer pay pursuant to section 38-747, subsection D. The member's employer shall make the employer's contributions attributable to a member's period of employment before July 1, 1999 in a single lump sum payment at the time and computed in the manner prescribed in section 38-771.01, subsections G and H. If a member elects pursuant to subsection C, paragraph 2 of this section to have contributions made or to make contributions pursuant to section 38-747, subsection D or H for less than the full amount permitted by this subsection the member's benefits shall be computed only with reference to the contributions actually made. A member shall make an election pursuant to this section with respect to contributions to be made by the member before July 1, 1999. This election shall remain in full force and effect on and after July 1, 1999 and may be modified or revoked by the member only if the modification or revocation is specifically authorized in section 38-747. Section 38-771.01 governs any elections made by a member with respect to contributions to be made by the member to ASRS on or after July 1, 1999.

F. Contributions made to ASRS by a member and the member's employer pursuant to subsections D and E of this section shall not exceed, in any one limitation year, the limits of section 38-747, subsection E. If for any reason, the member and employer contributions to ASRS made pursuant to subsections D and E of this section would, at the time such contributions are due, taking into account other employer and member contributions due to ASRS for the limitation year, exceed the limits of section 38-747, the amount to be paid by the member and the member's employer under subsection E of this section shall be proportionately reduced and such reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days of the beginning of such limitation year, unless the limits of section 38-747 would again be exceeded, in which event this procedure will be repeated until all such contributions have been made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires prior to making all contributions under subsections D and E of this section because of the limitations of section 38-747, the member's benefits under this section shall be calculated only with reference to the contributions actually made. For purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

G. A member who elects to receive retirement benefits provided under this section is subject to the provisions of section 38-771.01, subsection K that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article.

H. ASRS shall handle all retirement accounts of members who elect retirement benefits provided under this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits provided under this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

I. The election of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

J. For purposes of this section:

1. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

2. "Retirement account" means the combined member and employer contributions with interest or earnings on the contributions including any allocations credited as employer contributions.

38-771.01. Alternative benefits for transferred defined contribution program members; definitions

A. A retired or nonretired ASRS member who was a member of the defined contribution program administered by ASRS, who was transferred to the defined benefit program established by this article on July 1, 1981, who is determined by ASRS to qualify under paragraph 1 of this subsection and who is not excluded under paragraph 2 of this subsection shall receive defined contribution benefits pursuant to this section, or, if greater, defined benefit retirement benefits pursuant to this article. A retired or nonretired ASRS member qualifies or is excluded under this section based on the following criteria:

1. A member is entitled to receive benefits under this section only if the member satisfies at least one of the following requirements:

(a) Is not retired as of July 1, 1999 even though the member may have previously elected to receive benefits under the defined benefit program established by this article, may have transferred employment between or among employers on or after July 1, 1981 or may have terminated employment on or after July 1, 1981 and after that termination date returned to employment with an employer.

(b) Retired on or after July 1, 1984 and elected to receive benefits under the defined benefit program established by this article.

(c) Retired on or after July 1, 1984 and is receiving benefits under the defined contribution program administered by ASRS.

2. Even if the member otherwise qualifies under paragraph 1 of this subsection, a member is not entitled to receive benefits under this section if any of the following applies to the member:

(a) The member retired before July 1, 1984.

(b) The member is entitled to receive benefits pursuant to section 38-771 and has paid to ASRS pursuant to section 38-771 before July 1, 1999 the entire amount that is attributable to service performed on or after July 1, 1984 and that is equal to the contribution rate of seven per cent of compensation, the contribution has been matched by an equal contribution to ASRS by the member's employers and all applicable earnings and supplemental credits have been credited for the member's account.

(c) The member withdrew the member's contributions from the defined contribution program administered by ASRS and, as of July 1, 1999, is not entitled to any benefit under the defined contribution program administered by ASRS.

(d) The member transferred the member's benefits under either the defined benefit program established by this article or the defined contribution program administered by ASRS to any other retirement system.

B. A beneficiary is entitled to receive benefits pursuant to this section only if the beneficiary satisfies the requirements of paragraph 1 of this subsection and is not excluded under paragraph 2 of this subsection based on the following criteria:

1. The beneficiary is a beneficiary of a retired or nonretired member who qualifies for benefits under subsection A, paragraph 1 of this section, is not excluded under subsection A, paragraph 2 of this section and as of July 1, 1999 either:

(a) Is receiving a monthly benefit from the defined benefit program established by this article or the defined contribution program administered by ASRS.

(b) Is living, is a survivor of a deceased retired or nonretired member and elected to receive a lump sum distribution of the survivor benefit that was payable on the death of the member.

2. Even if the beneficiary satisfies the requirements of paragraph 1 of this subsection, a beneficiary is not entitled to receive benefits under this section if the beneficiary is a beneficiary of a deceased retired member who elected a form of benefit under either the defined benefit program established by this article or the defined contribution program administered by ASRS that did not provide for survivor benefits after the death of the retired member.

C. A member or a deceased member's beneficiary who receives benefits pursuant to this section shall receive benefits based on the sum of the following:

1. Contributions paid by the member and the member's employer at the contribution rates in effect before July 1, 1984, together with all applicable earnings and supplemental credits on those contributions.

2. Contributions paid by the member's employer at the contribution rates in effect beginning on July 1, 1984 through the earlier of June 30, 1999 or the member's retirement or death, together with all applicable earnings and supplemental credits on those contributions computed through the earlier of June 30, 1999 or the member's retirement or death.

3. The excess of employer contributions computed at the rate of seven per cent of compensation beginning on July 1, 1984 through June 30, 1999 over the actual contributions paid by the member's employer as described in paragraph 2 of this subsection, together with all earnings and supplemental credits that would have been earned on those excess contributions computed from the date the contributions would have been paid to ASRS.

4. Contributions paid by the member at the contribution rate in effect on and after July 1, 1984, together with all earnings on those contributions.

5. With respect to member contributions that were not paid to ASRS before July 1, 1999 pursuant to section 38-771, subsection C, paragraph 2, forty per cent of the earnings that would have been credited on those contributions through the earlier of June 30, 1999 or the member's retirement or death as if those member contributions had been paid.

6. Contributions paid by the member to ASRS before July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with all earnings on those contributions.

7. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with earnings on those contributions.

8. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to this section, together with earnings on those contributions.

9. Contributions paid by the member's employer to ASRS on or after July 1, 1999 pursuant to this section, together with all applicable earnings and supplemental credits on those contributions.

D. Effective on July 1, 1999, ASRS shall adjust the retirement account reserves under the defined contribution program administered by ASRS for retired members and the beneficiaries of deceased retired members entitled to benefits pursuant to this section to give effect to additional contributions, earnings and supplemental credits for those retired members prescribed in subsection C, paragraphs 1 through 6 of this section for the periods of the members' employment before July 1, 1999 and to give effect to the recomputation, adjustment and payment of benefits pursuant to subsection G of this section. After this recomputation, adjustment and payment, ASRS shall credit and charge these retirement account reserves with the amounts prescribed under the defined contribution program administered by ASRS based on the adjustments prescribed in this section.

E. Effective on July 1, 1999, ASRS shall adjust each nonretired member's accounts under the defined contribution program administered by ASRS to equal the sum of the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section with respect to periods of a member's employment before July 1, 1999. After the adjustment, these accounts shall accrue applicable interest and supplemental credits based on the entire amounts credited to the accounts.

F. For periods of a nonretired member's employment on or after July 1, 1999, a nonretired member who is entitled to receive benefits pursuant to this section and the nonretired member's employer shall each make contributions to ASRS at the rates established pursuant to sections 38-736 and 38-737, except as follows:

1. If a nonretired member made an election pursuant to section 38-771, subsection C, paragraph 2 and section 38-747, subsections C and D before July 1, 1999, the member's employer shall continue to make pickup contributions to ASRS on behalf of the member pursuant to the member's election, except that with respect to employer contributions that are required pursuant to section 38-771, subsection E for periods of a member's employment before July 1, 1999, the employer shall make a lump sum payment to ASRS as computed pursuant to subsection G of this section and required to be paid to ASRS pursuant to subsection H of this section.

2. If a nonretired member elected or was deemed to have elected benefits pursuant to section 38-771 before December 31, 1995, for periods of a member's employment from and after the election or deemed election the nonretired member's employer and the member shall each continue to pay to ASRS an amount equal to seven per cent of the member's compensation in lieu of the rates established pursuant to sections 38-736 and 38-737.

3. A nonretired member who is entitled to receive benefits pursuant to this section and who never elected to receive benefits pursuant to section 38-771 may elect pursuant to section 38-747, subsections C and D to make contributions at the rate of seven per cent of the member's compensation for periods of a member's employment on or after July 1, 1999. If a member makes an election pursuant to this paragraph, the election is irrevocable as provided in section 38-747,

subsection D and the member and the member's employer shall each make contributions at a rate of seven per cent of the member's compensation beginning on the effective date of the election.

4. A nonretired member who is entitled to receive benefits pursuant to this section may elect pursuant to section 38-747, subsections C, D and H to make contributions with respect to member contributions that were not made to ASRS but that could have been made pursuant to section 38-771, subsection C, paragraph 2 for periods of employment before July 1, 1999 other than member contributions for which an irrevocable election pursuant to section 38-747, subsections C and D was in effect before July 1, 1999.

5. In addition to any other employer contributions required pursuant to this section, a nonretired member's employer shall make contributions to ASRS on behalf of the nonretired member who will receive retirement benefits pursuant to this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for the nonretired member and the nonretired member's dependents as provided under section 38-783.

6. Notwithstanding any other provision of this article, an election permitted pursuant to this section shall not revoke, amend or alter any irrevocable election made by a member before July 1, 1999 pursuant to sections 38-747 and 38-771.

G. Effective on July 1, 1999, ASRS shall recompute the monthly and annual benefits for retired members entitled to receive benefits pursuant to this section and the monthly or lump sum survivor's benefits payable to beneficiaries entitled to receive benefits pursuant to this section. The recomputation of benefits shall be as if the member's retirement account or retirement reserve account on the date of retirement or death had been computed based on the amounts that would have been credited to the account as of that date based on the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section. In addition and after recomputing benefits described in this subsection, with respect to members who retired on or after July 1, 1984, ASRS shall recompute the annual payments that would have been made to the member or beneficiary of a deceased member entitled to receive benefits under this section in excess of the annual payments actually made. The recomputation shall be calculated and paid as follows:

1. The recomputation shall be calculated and paid based on the member's and, if applicable, the member's beneficiary's age, the benefit option selected at the date of the initial benefit payments and the actuarial assumptions used by ASRS at the time the initial benefit payments were computed.

2. Before July 1, 2000, ASRS shall pay to the retired member or beneficiary in a lump sum the difference between the recomputed amount and the actual distributions paid to the member or beneficiary through July 1, 1999, together with interest at the rate of eight per cent a year, compounded monthly, computed from the date each excess payment should have been paid through the date of payment to the retired member or beneficiary.

3. If the retired member is living, ASRS shall pay the lump sum payment to the member. If the member is deceased and is survived by a beneficiary who is then living and receiving a monthly benefit on account of the deceased member, ASRS shall pay the lump sum payment to the beneficiary. The payment to the beneficiary shall include the recomputed amount that is payable pursuant to this section and that would have been paid to the member through the date of the member's death plus the recomputed amount that is payable pursuant to this section and that would have been payable to the beneficiary from the member's date of death. Section 38-770 applies to a payment to a member or the member's beneficiary who is the surviving spouse of the member, if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

4. With respect to a beneficiary who is a survivor of a deceased nonretired member who would have been entitled to benefits under this section and who elected a lump sum distribution of the survivor benefit that was payable on the death of the nonretired member, ASRS shall pay the recomputed amount in a lump sum to the beneficiary. If the beneficiary is the surviving spouse of the member, section 38-770 applies to the payment.

5. Effective on July 1, 1999, ASRS shall increase the member's or beneficiary's monthly and annual benefit to the recomputed amount. After that adjustment, ASRS shall adjust the member's or beneficiary's annual benefit as otherwise provided under the defined contribution program administered by ASRS.

H. Before July 1, 2002, the employer of each nonretired or retired member or deceased member who has a beneficiary entitled to adjustments and payments pursuant to subsections E and G of this section for periods of a member's employment before July 1, 1999 shall pay to ASRS in one or more installments those amounts required by ASRS to make the recomputations and adjustments pursuant to this section. ASRS shall determine the amount to be paid by the employer to ASRS as of July 1, 1999, plus interest at the rate of eight per cent a year, compounded monthly, from July 1, 1999 through the date the payment is made by the employer to ASRS. Any payments by the employer shall first be applied to accrued and unpaid interest and then to the amount to be paid by the employer to ASRS. ASRS shall allocate the payment to the assets maintained under the defined contribution program administered by ASRS. When determining the amounts required to be paid by employers for the recomputations and adjustments pursuant to this section, ASRS first shall transfer on July 1, 1999 from the assets maintained by ASRS under the defined benefit program established by this article to the assets maintained by ASRS under the defined contribution program administered by ASRS an amount equal to the sum of the defined benefit program equity balances of the retired and nonretired members or their beneficiaries whose benefits are transferred from the defined benefit program to the defined contribution program pursuant to this section, except that the amount transferred for any member or beneficiary shall not be more than the amount required to fund the recomputations and adjustments required by this section for the member or beneficiary. The defined benefit program equity balance for a member or beneficiary of a deceased member shall equal the sum of the member's employee and employer account balances on the earlier of June 30, 1999 or the member's retirement or death, less the monthly annuity payments to a retired member or beneficiary, plus the earnings on the average balance of that amount for a plan year.

I. If a member retired before July 1, 1999, elected to receive benefits pursuant to section 38-771, subsection C, paragraph 2 and did not make all contributions pursuant to section 38-771, subsection E because of the limitations prescribed in section 38-747, subsection E, the member has the option of receiving the employer contributions prescribed in subsection C, paragraphs 3 and 5 of this section in a lump sum payment. If the retired member elects to receive a lump sum payment, ASRS shall pay the amount on or before July 1, 2000 and the amount shall be deducted from the member's account when computing the annuity benefits to which the member is otherwise entitled pursuant to this section. In no case shall the payment under this subsection duplicate the payment under subsection G of this section. Section 38-770 applies to a payment to a member under this subsection if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

J. Contributions made to ASRS by a member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall not exceed, in any one limitation year, the limits prescribed in section 38-747, subsection E. If for any reason the member and applicable employer contributions made pursuant to subsection F of this section would at the time the contributions are due, taking into account other annual additions due to ASRS for the limitation year, exceed the limits prescribed in section 38-747,

subsection E, the amount to be paid by the member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall be proportionately reduced and the reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days after the beginning of that limitation year, unless the limits prescribed in section 38-747, subsection E would again be exceeded. If the limits are exceeded again, the procedure prescribed in this subsection shall be repeated until all of the contributions are made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires before making all contributions pursuant to this section because of the limitations prescribed in section 38-747, subsection E, the member's benefits pursuant to this section shall be computed only with reference to the contributions actually made. For the purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

K. Unless otherwise provided in this section, a member who receives retirement benefits pursuant to this section and section 38-771 is subject to conditions that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article. Those conditions include the following:

1. A member who attains sixty-five years of age may retire and, on application, shall receive a life annuity derived from the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity is payable in equal monthly installments. The amount of the installments is based on the age of the member at the date of commencement of retirement and is determined by the interest and life expectancy tables applicable at the date of the commencement of retirement.
2. If a retired member who is receiving retirement benefits pursuant to this section dies before receipt of annuity payments in an amount equal to the member's retirement account balance immediately before retirement, ASRS shall pay the member's designated beneficiary or estate in a lump sum the difference between the retirement account balance and the total amount of annuity payments received.
3. A member who attains sixty-five years of age with at least five years of creditable service may retire and, on application, may elect to receive in lieu of the annuity payments from the member's prior service, if any, together with a life annuity derived from the member's retirement account as provided in paragraph 1 of this subsection, the actuarial equivalent of those retirement benefits under one of the options established by the board.
4. A member who attains sixty years of age with at least five years of creditable service may retire and, on application, may receive a life annuity derived from the actuarial equivalent of the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity shall be determined and paid in the manner set forth in paragraph 1 of this subsection.
5. In lieu of the retirement benefits pursuant to paragraph 4 of this subsection, on application, a member may elect to receive the actuarial equivalent of those retirement benefits under one of the options established by the board.
6. If a retired member who is receiving retirement benefits pursuant to this section is engaged to work by an employer for twenty or more weeks in a fiscal year and twenty hours or more a week, the member's retirement benefit payments pursuant to this section are suspended until the member terminates employment. On return to employment, the member shall accrue benefits pursuant to this

section, unless the member elects to be covered by the defined benefit program established by this article. If a formerly retired member elects to be covered by the defined benefit program established by this article, the formerly retired member shall be an active member in the defined benefit program with respect to all service performed after the member's return to work and shall not accrue additional benefits pursuant to this section. Notwithstanding the other provisions of this paragraph, if a retired member begins or returns to employment as an elected official or to any other type of service or employment that does not require the retired member to begin active membership in the defined contribution program administered by ASRS or the defined benefit program established by this article, the payment of retirement benefits pursuant to this section shall not be terminated, withheld or interrupted because of beginning or returning to the service or employment or holding the elected office, unless the formerly retired member actually elects to recommence active participation in the defined benefit program established by this article or pursuant to this section.

7. On termination of employment of a retired member previously receiving retirement benefits pursuant to this section, ASRS shall reinstate the member's retirement benefits pursuant to this section and, on reinstatement of retirement benefits, the benefit shall be recomputed on the basis of the member's attained age and shall be adjusted for retirement benefits previously received and additional contributions, interest and supplemental credits accrued during the period of employment. On this reinstatement of retirement benefits, if the member elected to be covered by the defined benefit program established by this article on the member's return to employment, the member is also entitled to receive retirement benefits pursuant to the defined benefit program established by this article for the credited service earned by the member after the member's active membership in the defined benefit program established by this article began.

L. ASRS shall handle all retirement accounts of members who elect retirement benefits provided pursuant to this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits pursuant to this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

M. The receipt of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

N. The board may administer and interpret this section in order to prevent any duplication of benefits provided by ASRS and the defined contribution program administered by ASRS and to provide all eligible members and beneficiaries with the benefits they are entitled to under the laws of this state.

O. For purposes of this section:

1. "Beneficiary" means the individual designated by the member in writing on forms approved by ASRS to receive benefits pursuant to this article after the death of the member.

2. "Creditable service" means service after April 8, 1953 in a position not subject to the defined contribution program administered by ASRS, prior service and membership service.

3. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

4. "Pension" means equal monthly installments that are derived from a member's prior service credits and that are payable during the member's lifetime after retirement.

5. "Prior service" means service for this state or a political subdivision before membership in the defined contribution program administered by ASRS.

6. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a pension on retirement.

7. "Retirement account" means the combined member and employer contributions with applicable interest and supplemental credits on the contributions as computed pursuant to subsection C of this section.

8. "Service" means any compensated employment by the state or a political subdivision and includes periods of nonpaid leave, including military leave, provided employment has not been terminated at the commencement of the leave period and employment is state service for retirement purposes or service for any political subdivision establishing a defined contribution program administered by ASRS.

#### 38-772. Prior service under defined contribution program administered by ASRS; definitions

A. Amounts required of employers as provided in section 38-737, subsections A and B are in addition to any payments required of employers on behalf of prior service credits under the defined contribution program administered by ASRS arising from members of ASRS. Payments made to ASRS on behalf of members with those prior service credits shall reduce by that amount the payments required to be paid to the defined contribution program administered by ASRS for those prior service credits.

B. Notwithstanding section 38-757, subsection B, any prior service credits to which the member was entitled under the defined contribution program administered by ASRS shall be added to the product of section 38-757, subsection B, paragraphs 1 and 2.

C. For the purposes of this section:

1. "Prior service" means service for this state or a political subdivision of this state before membership in the defined contribution program administered by ASRS.

2. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a retirement benefit.

#### 38-773. Benefit payments to alternate payee under acceptable domestic relations order; termination of marriage; revocation of beneficiary designation; definitions

A. The board shall review any domestic relations order to which a member is a party and that is submitted to the board to determine if the domestic relations order is acceptable under this section. After a determination that a domestic relations order is acceptable under this section, the board shall notify the member and the named alternate payee of the board's acceptance of the domestic relations order, and ASRS shall pay benefits in accordance with the applicable requirements of the order.

B. An acceptable domestic relations order shall:

1. Not require the board to provide any type, form or time of payment of severance, survivor or retirement benefits or any severance, survivor or retirement benefit option that is not provided under this article.
2. Value the member's benefit on the earliest date of service of the petition for annulment, dissolution of marriage or legal separation.

C. An acceptable domestic relations order shall specify all of the following:

1. The name and last known mailing address of the member.
2. The name and last known mailing address of each alternate payee who is covered by the order.
3. The method of determining the amount of the member's severance, survivor or retirement benefits to be paid by ASRS to each alternate payee covered by the order.
4. The number of payments or period to which the order applies.

D. Except as provided by the express terms of a domestic relations order, the divorce or annulment of a member's marriage revokes any revocable:

1. Disposition or appointment of benefits made by a divorced member to that member's former spouse or to a relative of the divorced member's former spouse in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse.
2. Provision in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse conferring any power or right on the divorced member's former spouse or on a relative of the divorced member's former spouse.

E. ASRS shall give effect to provisions of an instrument executed by a member before the divorce or annulment of the member's marriage to a former spouse as follows:

1. In the case of disposition or appointment of benefits, as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section.
2. In the case of a revoked power or right, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

F. Provisions of an instrument revoked solely as provided by this section are revived by the divorced member's remarriage to the former spouse or by a nullification of the member's divorce or annulment.

G. If an alternate payee predeceases the member, amounts payable to the alternate payee cease on the death of the alternate payee. ASRS shall cause the amount formerly payable to the alternate payee to revert to the member.

H. For the purposes of this section:

1. "Domestic relations order" means any judgment, decree, order or approval of a property settlement agreement entered in a court of competent jurisdiction that:

(a) Relates to marital property rights of a spouse or former spouse.

(b) Creates or recognizes in the spouse or former spouse the existence of an alternate payee's right to severance, survivor or retirement benefits.

(c) Assigns the spouse or former spouse as alternate payee the right to receive all or part of the severance, survivor or retirement benefits payable to the member.

2. "Relative of the divorced member's former spouse" means a person who is related to the divorced member's former spouse by blood, adoption or affinity and who, after the divorce or annulment, is not related to the divorced member by blood, adoption or affinity.

### 38-774. Excess benefit arrangement

A. A separate unfunded governmental excess benefit arrangement is established outside of and apart from the trust fund established by section 38-712 to pay members benefits that are otherwise payable by ASRS and that exceed the limitations on benefits imposed by section 415 of the internal revenue code. The board shall administer this excess benefit arrangement as a qualified governmental excess benefit arrangement pursuant to section 415(m) of the internal revenue code.

B. The board may adopt rules to implement this section subject to the following:

1. Benefits under this section are subject to section 38-773 and section 38-791, subsections D and F and are exempt from execution to the same extent as provided in section 38-792.

2. Contributions to this arrangement are not held in trust and shall not be commingled with other monies of ASRS.

C. A member is entitled to a monthly benefit under this section in an amount equal to the amount that the member's benefit that is payable by ASRS has been reduced by the limitation on benefits imposed by section 38-769 and section 415 of the internal revenue code. The benefit that is payable by this arrangement shall be paid at such time or times and in such form as the benefit under ASRS would be paid.

D. The benefit that is payable under this section shall be paid with employer contributions that would otherwise be made to ASRS under section 38-737. In lieu of the employer contributions being paid to the trust fund established by section 38-712, an amount determined by ASRS as necessary to pay benefits under this section shall be paid on a monthly basis to a separate account established by the board for this arrangement and may include amounts needed to pay reasonable and necessary expenses of this arrangement. The director may invest the monies in this account in suitable short-term investments between receipt of the monies and disbursement of the monies. The amount shall be paid to the account at least fifteen days before a disbursement is to be made under this section.

E. A member shall not directly or indirectly elect to defer compensation to purchase benefits provided under this section.

F. This section shall not be construed as requiring an employer or ASRS to purchase any investment or any contract to secure any obligations under this section. If an employer or ASRS purchases an investment or contract that the employer or ASRS earmarks to pay benefits under this section, title to and beneficial ownership of the investment or contract remain at all times in the employer or ASRS, and the member and the member's beneficiaries, if any, do not have any proprietary interest in any specific assets of the employer or ASRS. Any rights of the member and the member's beneficiaries, if any, to payment of any amounts under this section shall be those of general unsecured creditors of the employer or ASRS. This section and any action taken pursuant to this section by the employer or ASRS do not create and shall not be construed to create an irrevocable trust of any kind.

### 38-775. Required distributions: definitions

A. This section applies for purposes of determining required minimum distributions for calendar years beginning on and after January 1, 2006. In applying the requirements of this section, the following operational provisions govern:

1. Except as provided in the following sentence, the requirements of this section take precedence over any inconsistent provisions of this article and article 2.1 of this chapter. The rules of this section shall not restrict any form, calculation, adjustment or payment of benefit provided under this article in effect on April 17, 2002, if the form, calculation, adjustment or payment of benefit satisfied section 401(a)(9) of the internal revenue code based on a reasonable and good faith interpretation of that section.

2. All distributions required under this section shall be determined and made pursuant to section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury.

3. Notwithstanding this section, other than paragraph 2 of this subsection, distributions may be made under a designation made before January 1, 1984, pursuant to section 242(b)(2) of the tax equity and fiscal responsibility act of 1982 (P.L. 97-248) and the provisions of this article that relate to that section.

B. The member's entire interest shall be distributed, or begin to be distributed, to the member not later than the member's required beginning date.

C. If the member dies before distributions begin, the member's entire interest shall be distributed, or begin to be distributed, not later than as follows:

1. If the member's surviving spouse is the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained seventy-two years of age, if later.

2. If the member's surviving spouse is not the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the designated beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the member died.

3. For purposes of this subsection and subsection G of this section, distributions are considered to begin on the member's required beginning date or the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection. If annuity payments irrevocably commence to the member before the member's required beginning date, or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection, the date distributions are considered to begin is the date distributions actually commence.

4. If the member dies before distributions begin and there is a designated beneficiary, distribution to the designated beneficiary is not required to begin by the date prescribed in paragraph 1 or 2 of this subsection as long as the member's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth anniversary of the member's death. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to either the member or the surviving spouse begin, this paragraph applies as if the surviving spouse were the member.

D. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution, calendar year distributions shall be made pursuant to subsections E, F and G of this section. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions shall be made pursuant to the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury. Any part of the member's interest that is in the form of an individual account described in section 414(k) of the internal revenue code shall be distributed in a manner satisfying the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury that apply to individual accounts.

E. The following provisions govern the determination of the amount to be distributed each calendar year:

1. If the member's interest is paid in the form of annuity distributions, payments under the annuity shall satisfy the following requirements:

(a) The annuity distributions shall be paid in periodic payments made at intervals not longer than one year.

(b) The distribution period shall be over a life or lives or over a period certain not longer than the period described in subsection F or G of this section.

(c) Once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum allowed.

(d) Payments shall either be nonincreasing or increase only as follows:

(i) By an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the bureau of labor statistics.

(ii) To the extent of the reduction in the amount of the member's payments to provide for a survivor benefit on death, but only if the beneficiary whose life was being used to determine the distribution period described in subsection F of this section dies or is no longer the member's beneficiary

pursuant to a qualified domestic relations order within the meaning of section 414(p) of the internal revenue code.

(iii) To provide cash refunds of employee contributions on the member's death.

(iv) To pay increased benefits that result from a plan amendment.

2. The amount that must be distributed on or before the member's required beginning date or, if the member dies before distributions begin, the date distributions are required to begin under subsection C, paragraph 1 or 2 of this section, is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bimonthly, monthly, semiannually or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

3. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which the amount accrues.

F. The following provisions govern annuity distributions that commence during a member's lifetime:

1. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary, annuity payments to be made on or after the member's required beginning date to the designated beneficiary after the member's death must not at any time exceed the applicable percentage of the annuity payment for the period that would have been payable to the member using the table set forth in question and answer number 2 of section 1.401(a)(9)-6 of the regulations issued by the United States secretary of the treasury. If the form of distribution combines a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary and a period certain annuity, the requirement in the preceding sentence applies to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

2. Unless the member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the member's lifetime may not exceed the applicable distribution period for the member under the uniform lifetime table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the member reaches seventy years of age, the applicable distribution period for the member is the distribution period for seventy years of age under the uniform lifetime table set forth in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury plus the excess of seventy over the age of the member as of the member's birthday in the year that contains the annuity starting date. If the member's spouse is the member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the member's applicable distribution period, as determined under this paragraph, or the joint life and last survivor expectancy of the member and the member's spouse as determined under the joint and last survivor table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the calendar year that contains the annuity starting date.

G. The following provisions govern minimum distributions if a member dies before the date distributions begin:

1. Except as provided in subsection C, paragraph 4 of this section, if the member dies before the date distribution of the member's interest begins and there is a designated beneficiary, the member's entire interest shall be distributed, beginning not later than the time prescribed in subsection C, paragraph 1 or 2 of this section, over the life of the designated beneficiary or over a period certain not exceeding either of the following:

(a) Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the member's death.

(b) If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

2. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's entire interest shall be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

3. If the member dies before the date distribution of the member's interest begins, the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies before distributions to the surviving spouse begin, this subsection applies as if the surviving spouse were the member, except that the time by which distributions must begin shall be determined without regard to subsection C, paragraph 1 of this section.

H. If a member dies after the member's required beginning date and the member had not commenced distribution of retirement benefits, ASRS shall treat the member as having commenced distribution of retirement benefits on the member's required beginning date. Notwithstanding section 38-776, ASRS shall determine the member's retirement benefit as a straight annuity as of the date of the member's required beginning date. The member's estate is entitled to the member's benefit payments and any remaining member contributions on account shall be disbursed pursuant to section 38-763.

I. For the purposes of this section:

1. "Designated beneficiary" means the individual who is designated as the member's beneficiary to receive benefits under this article and is the designated beneficiary under section 401(a)(9) of the internal revenue code and question and answer number 1 of section 1.401(a)(9)-4 of the regulations issued by the United States secretary of the treasury.

2. "Distribution calendar year" means a calendar year for which a minimum distribution is required. For distributions beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year that contains the member's required beginning date. For distributions beginning after the member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to subsection C of this section.

3. "Life expectancy" means life expectancy as computed by use of the single life table in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury.

4. "Required beginning date" means the date payment of a member's benefits shall commence in accordance with section 401(a)(9)(C) of the internal revenue code.

### 38-776. Spousal waiver and consent

A. A member's current spouse may consent to one of the following requirements established in section 38-755 or 38-760 by signing and submitting an acknowledgement in a manner established by ASRS:

1. A change of beneficiary that provides the member's current spouse with less than fifty per cent of the member's account balance.

2. The member's retirement application that does not name the member's current spouse as a contingent annuitant of a joint and survivor annuity.

3. A change or rescission of the member's current spouse's contingent annuitant status.

B. If the member's current spouse is not capable of executing the acknowledgement because of an incapacitating mental or physical condition, a power of attorney or guardian may execute the acknowledgment on the current spouse's behalf.

C. The member may affirm in writing under penalty of perjury in a manner determined by ASRS that spousal consent is not required because of one of the following reasons:

1. The member is not married.

2. The member's current spouse has no identifiable community property interest in the member's benefits.

3. The member does not know, and has taken all reasonable steps to determine, the location of the member's current spouse.

4. The member has received notification from the board that a domestic relations order is acceptable pursuant to section 38-773 and that domestic relations order requires ASRS to pay benefits to an alternate payee that is contrary to the requirements of section 38-760.

5. Obtaining consent violates another law, an existing contract or a court order.

D. This section does not abrogate any community property laws of this state.

E. Payments or distributions made by ASRS in good faith reliance on the consent or waiver of a member's current spouse, the affirmations of a member contained in documents submitted to ASRS pursuant to this section or the member's indication to ASRS that the member is not married constitute a full and complete discharge and release of all liability of the board or ASRS, or both, respecting these payments or distributions.

F. If questions arise as to the distribution of a particular member's account, ASRS shall use reasonable judgment to distribute the account in a manner that is consistent with Arizona community property laws and interpretations of those laws.

38-781. Supplemental employee deferral plan; public employees; administration; immunity; definitions

A. One or more supplemental employee deferral plans may be established pursuant to this section to provide public employees an opportunity to save additional tax-deferred monies for retirement.

B. ASRS may establish, administer, manage and operate supplemental employee deferral plans for employers.

C. ASRS may:

1. Employ services it deems necessary, including legal services, for the operation and administration of the plans.

2. Administer the plans through contracts with multiple vendors.

3. Perform all acts, whether or not expressly authorized, that it deems necessary and proper for the operation and protection of the plans.

4. For the purposes of this section, enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3.

D. A supplemental employee deferral plan does not replace an employee's existing state defined benefit retirement plan.

E. If an employer, including this state, elects to participate in a supplemental employee deferral plan, any employee of the employer who meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan may participate in the supplemental employee deferral plan.

F. Notwithstanding subsection E of this section, on or after July 1, 2022, an employee of an employer who is not eligible to participate in a public retirement system established by article 3, 3.1, 4, 4.1 or 6 of this chapter may elect to participate in a supplemental employee deferral plan if the employee meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan.

G. Employee participation in a supplemental employee deferral plan requires the participant's employer to make salary reductions from the participant's compensation at no cost to the employee, ASRS or any vendor retained by ASRS and contribute such salary reductions to the plan. An employer may make employer contributions to the supplemental employee deferral plan if the plan allows. The employer shall submit any reports required by the plan. If the participant is an active member, any compensation deferred by an employee under a plan shall be included as regular compensation or compensation for the purpose of computing the retirement and pension benefits provided in this article earned by any employee participating in the plan.

H. Employee contributions and earnings on employee contributions are immediately vested. Employer contributions, if any, and the earnings on employer contributions shall vest according to the schedule established by the employer, if the employer completes and submits a schedule to ASRS. If the employer does not complete and submit a schedule to ASRS, employer contributions, if any, and the earnings on employer contributions shall vest according to the default schedule established by ASRS.

I. Notwithstanding any other law, this state and its officers and employees, the board and ASRS are immune from civil liability and are not subject to suit directly or by way of contribution for any act or omission resulting in any damage or injury arising out of the supplemental employee deferral plan.

J. A political subdivision or a political subdivision entity that is not participating in ASRS may elect to allow its employees to participate in a supplemental employee deferral plan that is overseen by ASRS pursuant to this section by entering into an agreement with ASRS. A political subdivision or political subdivision entity that elects to allow its employees to participate in a supplemental employee deferral plan pursuant to this subsection:

1. Is not an employer for the purposes of this article and its employees are not members for the purposes of this article.

2. May not provide any information indicating or implying that the political subdivision or political subdivision entity offers any ASRS benefits other than participation in a supplemental employee deferral plan pursuant to this subsection. A political subdivision or political subdivision entity that violates this paragraph may not elect to allow new employees to participate in a supplemental employee deferral plan pursuant to this subsection until the violation is corrected at the discretion of ASRS.

3. May elect to join ASRS pursuant to section 38-729.

K. For the purposes of this section:

1. "State" means this state, including any department, office, board, commission, agency or university, but does not mean any school district or community college district.

2. "Supplemental employee deferral plan" means a tax deferred annuity described in section 403(b) of the internal revenue code, including a custodial account described in 403(b)(7) of the internal revenue code, and an eligible deferred compensation plan described in section 457(b) of the internal revenue code. A supplemental employee deferral plan shall comply with all applicable provisions of the section of the internal revenue code under which such plan is adopted and maintained.

**38-782. Group health and accident coverage for retired public employees and elected officials and their dependents: definition**

A. The board shall establish group health and accident coverage for eligible retired members, surviving dependents and members with a disability and their dependents. The board may establish a self-insurance program for the purposes of this subsection if the board determines that self-insuring would be less expensive than and at least as effective as a fully insured plan, while considering the risks and costs. If the board establishes a self-insurance program, the board shall provide that the self-insurance program include all health coverage benefits that are required pursuant to title 20. ASRS shall establish a separate account for any self-insurance program established pursuant to this section in an amount determined appropriate by ASRS. ASRS shall not

use or divert any part of the corpus or income of the account for any purpose other than to provide benefits and to pay the administration costs for the self-insurance program pursuant to this section or the premium payments pursuant to section 38-783 unless the board determines that a self-insurance program should no longer be offered. If a self-insurance program is no longer offered, monies in the account shall be used to provide any remaining benefits and to pay administration costs for the self-insurance program pursuant to this section or the premium payments pursuant to section 38-783. If the liabilities of ASRS to provide the benefits under the self-insurance program and the premium payments pursuant to section 38-783 are satisfied, the board shall return any remaining monies in the account to the employer. If an insured retired member or member with a disability dies before the insured member's dependent beneficiary or an insured surviving dependent, the dependent beneficiary or insured surviving dependent is entitled to coverage at group rates if the dependent beneficiary or surviving dependent elects to continue in the coverage within six months of the insured member's death and the dependent beneficiary or surviving dependent agrees to pay the cost of the premium for group health and accident insurance. On notification of the insured member's death, the board shall immediately notify a dependent beneficiary or an insured surviving dependent of the provisions of this section.

B. Retired members of the public safety personnel retirement system, the public safety personnel defined contribution retirement plan established pursuant to article 4.1 of this chapter, the elected officials' retirement plan, the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter, the corrections officer retirement plan or the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628 and their dependents who are receiving benefits from the public safety personnel retirement system, the public safety personnel defined contribution retirement plan established pursuant to article 4.1 of this chapter, the elected officials' retirement plan, the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter, the corrections officer retirement plan or the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628 and who are not covered by section 38-651.01 may participate in group health and accident coverage provided pursuant to this section. On the death of an insured member of the public safety personnel retirement system, the public safety personnel defined contribution retirement plan established pursuant to article 4.1 of this chapter, the elected officials' retirement plan, the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter, the corrections officer retirement plan or the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628, the insured surviving dependent is entitled to coverage at group rates. Except as provided in subsection H of this section, the surviving dependent shall be charged amounts that are sufficient to pay for the premium and administrative expense of providing the coverage.

C. The board may enter into agreements with retired members, surviving dependents and members with a disability of ASRS and retired members of the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter who elect to obtain the coverage provided pursuant to subsection A of this section. Those agreements may include provisions for the deduction from the retirement benefits of the members who elect to obtain the coverage of amounts sufficient to pay for the premium not covered under retirement benefits and the administrative expense of providing the coverage.

D. The board of trustees of the public safety personnel retirement system may enter into agreements with retired members of the public safety personnel retirement system, the elected officials' retirement plan, the corrections officer retirement plan and their dependents who elect to obtain the coverage provided pursuant to this section. Those agreements may include provisions for the deduction from the retirement benefits of the members who elect to obtain the coverage of amounts sufficient to pay for the premium not covered under their retirement benefits and the administrative expense of providing the coverage.

E. The board may enter into agreements with retired members of the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628 and their dependents who elect to obtain the coverage provided pursuant to this section. Those agreements may include provisions for the payment of amounts sufficient to pay for the premium and administrative expense of providing the coverage.

F. If an insured member receiving long-term disability benefits pursuant to article 2.1 of this chapter becomes ineligible for the long-term disability benefits, the member and the covered dependents of the member may continue to participate in the group health and accident coverage provided pursuant to this section subject to the following conditions:

1. Participation in the coverage is limited to twelve months from the date the member ceases eligibility for benefits under article 2.1 of this chapter or the member commences employment, whichever occurs first.
2. The member shall pay the full premium cost of the coverage selected, and the member is not eligible for benefits pursuant to section 38-783.
3. A. The board shall select an actuary to determine required employer contributions on an annual basis. The actuary shall be a fellow of the society of actuaries.

B. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements of article 2 of this chapter, as the ASRS actuary determines

pursuant to this section. The actuary shall make this determination in an annual valuation performed as of June 30. The valuation as of June 30 of a calendar year shall determine the percentage to be applied to compensation for the fiscal year beginning July 1 of the following calendar year. The actuary shall determine the total employer contribution using an actuarial cost method consistent with generally accepted actuarial standards. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period consistent with generally accepted actuarial standards.

C. All contributions made by the employer and allocated to the LTD trust fund established by section 38-797.02 are irrevocable and shall be used as benefits under this article or to pay expenses of the LTD program.

D. ASRS shall provide a preliminary report on or before November 30 of the valuation year and a final report on or before January 15 of the following year to the governor, the speaker of the house of representatives and the president of the senate on the contribution rate for the ensuing fiscal year.

4. Monthly LTD program benefits are not payable to a member who files an initial claim for disability more than twelve months after the date of the member's date of disability unless the member demonstrates to ASRS good cause for not filing the initial claim within twelve months after the date of disability.

(ii) Is employed by an employer before July 1, 1988.

(e) For a member whose most recent membership in the LTD program commences on or after July 1, 2008, an injury or sickness for which the member received medical treatment within six months before the date of the member's coverage under the LTD program. (a) The date the member ceases to have a disability.

(b) The date the member:

(i) Ceases to be under the direct care of a doctor.

9. Except as provided in paragraph 2 of this subsection, the minimum benefit for a member who is entitled to receive monthly LTD program benefits is \$50 per month.

10. Members are eligible to receive the LTD program benefits and payments described in paragraph 1 of this subsection, and the reductions provided by paragraph 1 of this subsection apply even though the social security benefits are not actually paid as follows:

(a) For primary and dependent social security benefits, the members are eligible for the social security benefits until the social security benefits are actually awarded, or if the social security benefits are denied, until the member pursues the social security appeal process through a hearing before a social security administrative law judge or until the insurance company or claims administrator determines that the member is not eligible for social security benefits.

(b) For benefits and payments from any other source provided in paragraph 1 of this subsection, the members are eligible for the benefits if it is reasonable to believe that those benefits will be paid on proper completion of the claim or would have been paid except for the failure of the member to pursue the claim in time.

(a) During the first thirty months of a period of disability, the member is unable to perform one or more duties of the occupation held by the member when the member developed a disability.

B. A member who is eligible pursuant to article 2 of this chapter and who receives monthly LTD program benefits is entitled to receive service credit pursuant to article 2 of this chapter from the time disability commences until LTD program benefits cease to be payable, except that for a member who receives monthly LTD program benefits on or after June 30, 1999, the number of years of service credited to the member's retirement account during the period ASRS disburses LTD program benefit payments shall not cause the member's total credited service for retirement benefits to exceed the greater of thirty years or the total years of service credited to the member's retirement account on the commencement of disability.

C. This section does not prohibit a member whose disability has been established to the satisfaction of the board from relying on treatment by prayer through spiritual means in accordance with the tenets and practice of a recognized church, religious denomination or Native American traditional medicine by a duly accredited practitioner of the church, denomination or Native American traditional medicine without suffering reduction or suspension of the member's monthly LTD program benefits.

D. ASRS may suspend or terminate benefits under this article if a member fails to provide information, data, paperwork or other materials that are requested by ASRS or the insurance company or claims administrator that is selected by the board to administer the LTD program. ASRS or its contracted administrator may investigate information that indicates a member may have falsified information or records related to LTD program eligibility or benefits or may not otherwise meet the requirements of LTD program eligibility. In connection with an investigation involving the LTD program, ASRS or its contracted administrator may collect and examine any statement or evidence, or may authorize a third party to collect and examine any statement or evidence, that relates to a member falsifying information or records related to LTD program eligibility or benefits. If the member provides the information requested, ASRS shall retroactively reinstate the benefits or claim for which the member qualifies under this article.

E. For the purposes of this section:

#### 38-797.08. Errors; benefit recomputation

If any change or error in the records results in any member receiving from the LTD program more or less than the member would have been entitled to receive if the records had been correct, the board shall correct the error and shall adjust the payments in a manner so that the equivalent of the benefit to which the member was correctly entitled is paid. The board shall correct any change or error and shall pay the appropriate monies to a member or shall recover monies from the member if the member is overpaid. The board shall recover monies by reducing any benefit that is otherwise payable by ASRS or the LTD program to an active, inactive, member with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

All payments of benefits shall be made solely out of LTD program assets and neither the employers, the board nor any member of the board is liable for payment of benefits in any manner.

C. Benefits, employer and member contributions, earnings and all other credits payable under this article are not subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution or levy of any kind, either voluntary or involuntary, before actually being received by a person entitled to the benefit, earning or credit, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge, garnish, execute or levy or otherwise dispose of any benefit, earning or credit under this article is void. The LTD program is not in any manner liable for, or subject to, the debts, contracts, liabilities, engagements or torts of any person entitled to any benefit, earning or credit under this article.

D. Neither the employers, the board nor any member of the board guarantees the LTD trust fund established by section 38-797.02 in any manner against loss or depreciation, and they are not liable for any act or failure to act that is made in good faith pursuant to this article. The employers are not responsible for any act or failure to act of the board or any member of the board. Neither the board nor any member of the board is responsible for any act or failure to act of any employer.

The right to modify, amend or repeal this article, or any provisions of this article, is reserved to the legislature.

#### 38-797.14. Liquidation of LTD program

If the legislature determines that the LTD program is no longer to be operated for the purposes set forth in this article, any monies remaining in the LTD trust after paying all liabilities of the trust or after making adequate provision for paying those liabilities revert to the general funds of the employers that were making contributions to the LTD program at the time the legislature terminates the LTD program. The reverted monies shall be prorated according to the gross amount of contributions made by the employers to the LTD program.

#### 38-797.15. Interest paid to members and employers

ASRS may not pay interest on any amount paid to a member, an alternate payee or an employer pursuant to this article unless specifically authorized by this article.

#### 38-921. Transfer of retirement service credits from one retirement system or plan to another retirement system or plan in this state; definitions

A. An active or inactive member of a state retirement system or plan, including the retirement system provided for in article 2 of this chapter, the elected officials' retirement plan provided for in article 3 of this chapter, the public safety personnel retirement system provided for in article 4 of this chapter or the corrections officer retirement plan provided for in article 6 of this chapter, may transfer service credits from one system or plan to the member's current or former system or plan pursuant to section 38-922 if all of the following conditions are met:

1. The board governing the retirement system or plan from which the service credits are being transferred mutually agrees with the board governing the retirement system or plan to which the service credits are being transferred regarding the terms of the transfer.

2. The transfer does not cause either the retirement system or plan to which the transfer is made or the retirement system or plan from which the transfer is made to incur any unfunded accrued liabilities as a result of the transfer.

3. The member initiates the transfer by making written application to the governing board of the retirement system or plan to which the member is contributing or has contributed.

B. For the purposes of this section:

1. "Active member" means a member who satisfies the eligibility criteria of the state retirement system or plan and who is currently making member contributions to or receiving credited service from the state retirement system or plan.

2. "Inactive member" means a member of the state retirement system or plan who previously made contributions to the state retirement system or plan and who satisfies each of the following:

(d) Has not withdrawn contributions from the state retirement system or plan.

### **38-922. [Transfer or redemption of service credits](#)**

A. Service credits qualified in accordance with section 38-730 or 38-921 may be transferred or redeemed in accordance with this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall be calculated:

1. The prior system or plan shall calculate the amount equal to the actuarial present value of a member's projected benefits to the extent funded on a market value basis as of the most recent actuarial valuation under the prior system or plan as calculated by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer. If a system's or plan's market value is greater than one hundred per cent, the system or plan shall use a one hundred per cent market value.

2. The system or plan to which the member is transferring shall calculate the increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. This calculation shall be performed by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer.

C. In the event a member decides to transfer:

1. If the amount calculated in subsection B, paragraph 2 is greater than the amount calculated in subsection B, paragraph 1:

(a) The prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 1 or the member's accumulated contribution account balance.

(b) If the amount transferred is less than the amount calculated under subsection B, paragraph 2, the transferring member shall elect either to pay the difference or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits used in making the calculation under subsection B, paragraph 1 multiplied by the ratio of the amount calculated under subsection B, paragraph 1 to the amount calculated under subsection B, paragraph 2.

2. If the amount calculated in subsection B, paragraph 2 is less than or equal to the amount calculated in subsection B, paragraph 1, the prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 2 or the member's accumulated contribution account balance.

D. In the case of an applicant who has withdrawn the applicant's member contributions from another prior system or plan of this state, the applicant shall pay into the new system or plan to which the applicant is transferring an amount equal to the increase in the actuarial present value of the projected benefits provided by the service credits being redeemed and this amount shall be included in the member's current accumulated contribution account balance. This calculation shall be performed by the actuary of the system or plan to which the service credits are being transferred using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements.

E. Service credits shall not be applied to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

F. A member electing to transfer to or redeem service with the public safety personnel retirement system, the elected officials' retirement plan or the corrections officer retirement plan pursuant to this section may pay for the service being transferred or redeemed in the form of a lump sum payment to the system or plan, a trustee-to-trustee transfer or a direct rollover of an eligible distribution from a plan described in section 402(c)(8)(B)(iii), (iv), (v) or (vi) of the internal revenue code or a rollover of an eligible distribution from an individual retirement account or annuity described in section 408(a) or (b) of the internal revenue code.

1. The prior system or plan shall determine the amount of the member's accumulated contribution account balance under the prior system or plan plus accumulated interest as determined by the governing body of the system or plan.

2. The system or plan to which the member is transferring shall calculate any increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. The actuary of the system or plan to which the service credits are being transferred shall perform this calculation using the actuarial method and assumptions recommended by the actuary and adopted by the governing body of the retirement system or plan.

C. If a member decides to transfer:

1. The prior system or plan shall transfer to the present system or plan the amount determined pursuant to subsection B, paragraph 1 of this section. If the amount calculated in subsection B, paragraph 2 of this section is greater than the amount determined in subsection B, paragraph 1 of this section, the transferring member shall either elect to pay the difference in order to receive all service credits earned under the prior system or plan or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section multiplied by the ratio of the amount calculated under subsection B, paragraph 1 of this section to the amount calculated under subsection B, paragraph 2 of this section.

2. If the amount calculated in subsection B, paragraph 2 of this section is less than or equal to the amount determined in subsection B, paragraph 1 of this section, the current system or plan shall credit the member with service credits under the current system or plan equal to the service credit earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section.

**ARIZONA STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-117

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 13, 2024

**SUBJECT: STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-117

---

### **Summary:**

This regular rulemaking from the Arizona State Retirement System Board (ASRS) seeks to amend one (1) rule in Title 2, Chapter 8, Article 1 related to Return to Work After Retirement. Specifically, the ASRS seeks to amend its rules to clarify how a retired member may return to work.

The ASRS indicates this rulemaking will clarify how a retiree's benefits may be affected by returning to work, thereby increasing understandability of what benefits the member may continue to receive after returning to work. The ASRS indicates clarifying how benefits are affected when a member returns to work will ensure that retirees' benefits are processed more efficiently, if they return to work. The ASRS indicates these rules will increase the clarity and effectiveness of the return to work requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS processes benefits after a retiree returns to work.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The ASRS cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The ASRS indicates it did not review any study relevant to this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The ASRS states that a member who retires may return to work and return to active membership status or continue to receive their benefits if the member meets certain statutory requirements. The ASRS states that without this rulemaking, retirees will not have an adequate understanding of how returning to work after retirement may affect their benefits. By promulgating these rules, retirees will have a better understanding of when they are eligible to return to work and continue receiving benefits. The ASRS states that the rule will have minimal economic impact, if any, because it merely clarifies statutory restrictions related to how a retired member may return to work. Stakeholders include the ASRS and retirees of the ASRS. The ASRS indicates it currently has a total membership of approximately 652,864 and 664 employers.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The ASRS believes this is the least costly and least intrusive method because it will clarify how the ASRS processes benefits after a retiree returns to work.

6. **What are the economic impacts on stakeholders?**

The ASRS states that the rulemaking does not directly affect state agencies and does not provide any benefits or impose any costs on political subdivisions. They state no businesses, of any size, are directly affected by the rulemaking. The ASRS believes there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The ASRS indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The ASRS indicates it received no public comments related to this rulemaking and no one attended the oral proceeding held on September 5, 2023.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The ASRS indicates the proposed amended rules do not require issuance of a permit.

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The ASRS indicates there is no federal law applicable to these rules.

11. **Conclusion**

This regular rulemaking from the ASRS seeks to amend one (1) rule in Title 2, Chapter 8, Article 1 related to Return to Work After Retirement. Specifically, the ASRS seeks to amend its rules to clarify how a retired member may return to work.

The ASRS is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

7. List of documents enclosed:
  - a. Cover letter signed by the Board's Chief Strategy Officer;
  - b. Notice of Final Rulemaking including the preamble, table of contents for the rulemaking, and rule text; and
  - c. Economic, Small Business, and Consumer Impact Statement.

Sincerely,

Katie Daigneault  
Chief Strategy Officer

Not applicable.

**9. A summary of the economic, small business, and consumer impact:**

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies statutory restrictions related to how a retired member may return to work.

**10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

None

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The ASRS received no written comments regarding the rulemaking. No one attended the oral proceeding on September 5, 2023.

**12. All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

None.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rules do not require a permit.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

There are no federal laws applicable to these rules.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

No materials are incorporated by reference.

**14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable.

**CHAPTER 8. STATE RETIREMENT SYSTEM BOARD**  
**ARTICLE 1. RETIREMENT SYSTEM**

Section

R2-8-117. Return to Work after Retirement

**ARTICLE 1. RETIREMENT SYSTEM**

**R2-8-117. Return to Work After Retirement**

**A.** Unless otherwise specified, in this Section:

1. “Commencing employment” means the date a retired member who is not independently contracted or leased from a third party pursuant to R2-8-116(A)(4) renders services directly to an Employer for which the retired member is entitled to be paid.
2. “Returns to work” means the member retired from the ASRS prior to Commencing Employment with an Employer.

**B.** Pursuant to A.R.S. § 38-766.01(C), a retired member who returns to work directly with an Employer shall submit a Working After Retirement form to each of the retired member’s current Employers through the retired member’s secure website account within 30 days of the retired member Commencing Employment with an Employer.

**C.** Pursuant to A.R.S. § 38-766.02(E), within 14 days of receipt of a Working After Retirement form, an Employer shall verify the retired member’s employment information and submit the verified Working After Retirement form to the ASRS through the Employer’s secure website account for each retired member who returns to work with the Employer.

**D.** After a retired member returns to work, the Employer shall submit a verified Working After Retirement form to the ASRS through the Employer’s secure website account within 30 days of a change in the actual hours or intent of each retired member’s employment that results in:

1. The member’s number of hours worked per week increasing from less than 20 hours per week to 20 or more hours per week; or
2. The member’s number of weeks worked in a fiscal year increasing from less than 20 weeks per fiscal year to 20 or more weeks per fiscal year.

**E.** The Working After Retirement form shall contain the following information:

1. The retired member’s Social Security number or U.S. Tax Identification number;

2. The retired member's full name;
  3. The date the member retired;
  4. Whether the retired member terminated employment, and if so, the date the retired member terminated employment;
  5. The first date of Commencing Employment upon the retired member's return to work;
  6. The intent of the retired member's employment reflected as:
    - a. The anticipated number of hours the retired member is engaged to work per week and the anticipated number of weeks the retired member is engaged to work per fiscal year; or
    - b. The actual number of hours the retired member works for an Employer per week and the actual number of weeks the retired member works for an Employer in a fiscal year.
  7. Acknowledgement by the retired member that the retired member has read the Return to Work information on the ASRS website and intends to submit the Working After Retirement form to the Employer and submit any additional Working After Retirement forms to the Employer as required.
- F.** Upon discovering that the retired member's employment violates A.R.S. §§ 38-766 or 38-766.01, the ASRS shall send the retired member a Retiree Return to Work Notice of Non-Compliance with ASRS Statutes form.
- G.** By the due date specified on the Retiree Return to Work Notice of Non-Compliance with ASRS Statutes form, the retired member shall return the completed form and any supporting documentation to the ASRS indicating the action the retired member will take to correct the violation of A.R.S. §§ 38-766 or 38-766.01.
- H.** If the member does not submit the Retiree Return to Work Notice of Non-Compliance with ASRS Statutes form pursuant to subsection (G), the ASRS shall suspend the retired member's retirement benefits from the date on the Retiree Return to Work Notice of Non-Compliance with ASRS Statutes form.
- I.** If the ASRS suspends the retired member's retirement benefits pursuant to subsection (H), the ASRS shall reinstate the retired member's retirement benefits upon notice from the Employer that all violations pursuant to subsection (F) have been corrected.
- J.** Notwithstanding any other Section, a member who meets the required minimum distributions age according to A.R.S. § 38-775, may not elect to suspend the member's retirement benefit.
- K.** If a member elects to continue receiving the member's retirement benefit when the member Returns to Work according to A.R.S. § 38-766.01, the member's election is irrevocable, unless the member terminates employment with the Employer for which the member made the election.

- L. The ASRS shall suspend any Premium Benefit a member is receiving according to 2 A.A.C. 8, Article 2 if the member Returns to Work and resumes active membership in ASRS.**
- M. A member who Returns to Work is not eligible to request a return of contributions according to R2-8-115 for contributions remitted during the period of employment for which the member Returns to Work.**
- N. If a member received a lump sum payment according to R2-8-126(P), the ASRS shall not include any compensation and credited service the member earned prior to the date the member Returns to Work when the member re-retires according to R2-8-127.**

**ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT<sup>1</sup>**

**TITLE 2. ADMINISTRATION**

**CHAPTER 8. STATE RETIREMENT SYSTEM BOARD**

1. Identification of the rulemaking:

The ASRS needs to amend its rules relating to how a retired member may return to work.

a. The conduct and its frequency of occurrence that the rule is designed to change:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. A member who retires may return to work and return to active membership status, or continue to receive their benefits if the member meets certain statutory requirements.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Without this rulemaking, retirees will not have an adequate understanding of how returning to work after retirement may affect their benefits. Notice of such information is necessary in order to ensure that retirees have adequate understanding of how their benefits may be affected by returning to work after retirement. By promulgating these rules, retirees will have a better understanding of when they are eligible to return to work and continue receiving benefits. Increasing understanding of such requirements will increase the retiree's understanding of how the ASRS manages the return to work program and reduce confusion, which will reduce burden on the public.

---

<sup>1</sup> If adequate data are not reasonably available, the agency shall explain the limitations of the data, the methods used in an attempt to obtain the data, and characterize the probable impacts in qualitative terms. (A.R.S. § 41-1055(C)).

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking will clarify how a retiree's benefits may be affected by returning to work, thereby increasing understandability of what benefits the member may continue to receive after returning to work. Clarifying how benefits are affected when a member returns to work will ensure that retirees' benefits are processed more efficiently, if they return to work. As discussed above and below, these rules will increase the clarity and effectiveness of the return to work requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS processes benefits after a retiree returns to work.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies statutory restrictions related to how a retired member may return to work.

E-mail: [JessicaT@azasrs.gov](mailto:JessicaT@azasrs.gov)

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

All retirees of the ASRS will be directly affected by, bear the costs of, and directly benefit from this rulemaking. The ASRS incurred the cost of the rulemaking. The ASRS currently has a total membership of approximately 652,864 and 664 employers.

5. Cost-benefit analysis:

- a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

This rulemaking does not directly affect state agencies and the ASRS has determined that no new full-time employees will be required to implement and enforce the rules.

- b. Costs and benefits to political subdivisions directly affected by the rulemaking:

This rulemaking does not provide any benefits or impose any costs on political subdivisions.

- c. Costs and benefits to businesses directly affected by the rulemaking:

No businesses are directly affected by the rulemaking.

6. Impact on private and public employment:

The rulemaking will have no impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:

---

<sup>2</sup> Small business has the meaning specified in A.R.S. § 41-1001(20).

- a. Identification of the small business subject to the rulemaking:  
No businesses, regardless of size, are subject to the rulemaking.
  
  - b. Administrative and other costs required for compliance with the rulemaking:  
Not applicable.
  
  - c. Description of methods that may be used to reduce the impact on small businesses:  
Not applicable.
8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:  
All ASRS retirees are directly affected by the rulemaking. The effect has been previously described above.
9. Probable effects on state revenues:  
There will be no effect on state revenues.
10. Less intrusive or less costly alternative methods considered:  
The ASRS believes this is the least costly and least intrusive method because it will clarify how ASRS processes benefits after a retiree returns to work.

**PREFACE**

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

ADMINISTRATIVE RULES DIVISION

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

**RULE HISTORY**

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

**AUTHENTICATION OF PDF CODE CHAPTERS**

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

**HOW TO USE THE CODE**

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

**ARIZONA REVISED STATUTE REFERENCES**

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

**PERSONAL USE/COMMERCIAL USE**

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

If the member has less than 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit, then the ASRS will calculate the member's Baseline Salary as the total of the 12 months of Compensation the member received:
    - a. Starting with the first month of Compensation the member received in the 12 months immediately preceding the member's Average Monthly Compensation, or within the Average Monthly Compensation; and

- b. Ending with the 12th month of Compensation the member received after the first month of Compensation used in subsection (A)(2)(a).

- B.** Upon a member's retirement on or after January 1, 2018, the ASRS shall compare the member's Baseline Salary to the Average Monthly Compensation for each consecutive 12 months of Compensation used to calculate the member's retirement benefit in order to determine whether an Employer utilized a Termination Incentive Program as defined in A.R.S. § 38-749(D)(1). This subsection only applies to members who earned the Compensation used to calculate the member's Baseline Salary, on or after July 1, 2005.
- C.** Upon determining that a Termination Incentive Program exists under subsection (B), the ASRS shall send a Request for Documentation to the Employer through the Employer's secure ASRS account, in order to notify the Employer that the ASRS has identified a Termination Incentive Program for a particular member and the Employer may be required to pay the ASRS for the unfunded liability resulting from the Termination Incentive Program, unless the Employer can prove the increase in the member's salary was the result of a Promotion.
- D.** Within 90 days of the date on the Request for Documentation, the Employer shall respond to the Request for Documentation by:
  1. Submitting documentation through the Employer's secure ASRS account that shows the member's increase in Compensation was the result of a Promotion; or

- G.** If the Employer does not respond to the Request for Documentation within 90 days of the date on the Request for Documentation, the ASRS shall determine that the increase in the member's salary was not the result of a Promotion.
- H.** If the ASRS determines that the increase in the member's salary was not the result of a Promotion pursuant to subsections (F) or (G), the ASRS shall calculate the unfunded liability amount pursuant to subsection (I).
- I.** In consultation with the ASRS actuary, the ASRS shall use a determination under subsection (B) to calculate the unfunded liability resulting from the implementation of the Employer's Termination Incentive Program.
- J.** Upon calculating an unfunded liability amount pursuant to subsection (I), the ASRS shall send a Termination Incentive Program Liability Invoice to the Employer through the Employer's secure ASRS account, in order to notify the Employer of the unfunded liability amount the Employer shall owe to the ASRS as a result of implementing the Termination Incentive Program identified under subsection (B).

The board shall either approve or disapprove the supplemental retirement plan submitted by the governing body of the political subdivision.

C. On approval, the board shall administer the supplemental plan of the political subdivision.

D. The employer's share of contributions and payments in excess of those required of the employer under section 38-737 shall be paid from monies of the political subdivision.

E. On establishment of the supplemental retirement plan the governing body of the political subdivision shall deduct member contributions in the same amounts and in the same manner as provided in this article for state employees and shall pay those contributions, together with the employer contributions for the political subdivision, to ASRS for deposit in the ASRS depository. The governing body of the political subdivision shall reimburse ASRS in a similar manner for its pro rata share of administrative costs attributable to coverage of employees of the political subdivision.

F. In addition to the employer contributions required under section 38-737, on establishment of the supplemental retirement plan the governing body of the political subdivision shall pay to ASRS the amount equal to the present value required to fund additional costs of benefits attributable to service for the political subdivision before the effective date of the supplemental retirement plan using the actuarial assumptions that are approved by the board. The board may authorize payments to be made at such times as the board requires and in amounts that are less than the amount required for fully funding the additional costs.

G. If the supplemental retirement plan is authorized by a political subdivision, then on or after the effective date of the supplemental retirement plan the governing body of the political subdivision and the board may sign an agreement to waive the provisions of subsection F of this section and to authorize benefits under the supplemental retirement plan only for service with the political subdivision after the effective date of the supplemental retirement plan. In lieu of waiving benefits for all service before the effective date of the supplemental retirement plan, the governing body of the political subdivision may elect to waive benefits for a portion of that service. Amendments to the agreement may increase but shall not reduce the service for which a member is entitled to benefits. The governing body of the political subdivision shall certify for each member the years of service before the effective date of the supplemental retirement plan for which the member is entitled to benefits. In addition to the employer contributions required in section 38-737, the governing body of the political subdivision shall pay to ASRS the amount, as determined by the board, required to fund the cost of the benefits attributable to service before the effective date of the supplemental retirement plan for which members are entitled to benefits.

H. The new political subdivision shall designate the classification of employees that is eligible for membership in ASRS and shall make contributions each year as provided in this section.

I. The liability of the political subdivision providing a supplemental retirement plan within ASRS arises in consideration of the officer's or employee's retention in or entrance into service for the political subdivision.

J. Notwithstanding any other law, an employee of a political subdivision who was previously a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that public employee retirement system for any period of employment is ineligible to receive service credit from ASRS for the same period of employment.

### 38-730. Charter city or ASRS retirement service credits; transfers

A. On application the retirement service credits of an employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS whose job functions are shifted by law from one employer jurisdiction to another shall be transferred to the retirement system of the new employer.

B. An employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS who becomes employed by the other employer jurisdiction may apply to have the employee's retirement service credits transferred to the retirement system of the new employer. The retirement service credits of an employee of a charter city that is not an employer under ASRS shall not be transferred unless the governing body of that city approves the transfer. The retirement service credits of an employee of an employer that is an employer under ASRS shall not be transferred unless the board approves the transfer.

C. The transfer shall be made pursuant to section 38-922.

D. The accumulated retirement contributions of an employee whose retirement service credits are transferred that are paid to the retirement system of the new employer shall not be withdrawn by the employee unless the employee's employment terminates.

E. The retirement system to which the employee is transferring shall not apply service credits to the employee's account until such time as complete payment is made to the retirement system to which the employee is transferring. On completion of the transfer provided for in this section, the employee's rights in the retirement system from which the employee is transferring are extinguished.

#### **38-735. Payment of contributions: recovery of delinquent payments**

A. All amounts deducted from a member's compensation as provided in section 38-736 and employer contributions required pursuant to section 38-737 shall be paid to ASRS for deposit in the ASRS depository.

B. Each employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS.

C. Payments made by employers pursuant to this article or article 2.1, 7 or 8 of this chapter become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments at an annual rate equal to the interest rate assumption approved by the board from time to time for actuarial equivalency. Delinquent payments due under this article or article 2.1, 7 or 8 of this chapter, together with interest charges as provided in this subsection, may be recovered by action in a court of competent jurisdiction against an employer that is liable for payments or, at the request of the director, may be deducted from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state. The employer shall record delinquent payments that are recovered or deducted from other monies pursuant to this subsection pursuant to applicable accounting and financial reporting standards.

#### **38-736. Member contributions**

A. Member contributions are required as a condition of employment and shall be made by payroll deductions. Member contributions shall begin simultaneously with membership in ASRS. Beginning July 1, 2011, member contributions are a percentage of a member's compensation equal to the employer contribution required pursuant to section 38-737. Amounts so deducted by employers shall be deposited in the ASRS depository.

B. The employer shall pay the member contributions required of members on account of compensation earned. The paid contributions shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of the employer payment shall not be before the date ASRS has received notification from the United States internal revenue service that pursuant to section 414(h) of the internal revenue code the member contributions paid will not be included in gross income for income tax purposes until the paid contributions are distributed by refund or retirement benefit payments. The employer shall pay the member contributions from monies that are established and available in the retirement deduction account and that would otherwise have been designated as member contributions and paid to ASRS. Member contributions paid pursuant to this subsection shall be treated for all other purposes, in the same manner and to the same extent, as member contributions made before the approval of the United States internal revenue service pursuant to this section.

38-737. Employer contributions; prepayment; definitions

A. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements contained in this article, excluding the compensation of those employees who are members of the defined contribution program administered by ASRS, as determined by the ASRS actuary pursuant to this section for June 30 of the fiscal year immediately preceding the preceding fiscal year, except that beginning with fiscal year 2001-2002 the contribution rate shall not be less than two percent of compensation of all employees of the employers.

Beginning July 1, 2011 through June 29, 2016, the total employer contribution shall be determined on the projected unit credit method. Beginning June 30, 2016, the board shall determine the actuarial cost method pursuant to section 38-714. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period that is determined by the board and consistent with generally accepted actuarial standards.

B. All contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay expenses of ASRS.

C. The required employer contributions shall be determined on an annual basis by an actuary who is selected by the board and who is a fellow of the society of actuaries. ASRS shall provide by December 1 of each fiscal year to the governor, the speaker of the house of representatives and the president of the senate the contribution rate for the ensuing fiscal year and the unfunded actuarial accrued liability, the funded status based on the actuarial value of assets and market value of assets and the annualized rate of return and the ten-year rate of return as of June 30 of the prior fiscal year.

D. Notwithstanding any other provision of this article, an employer may prepay the employer's 401(a) pension contributions directly to ASRS according to a written agreement between the employer and ASRS as follows:

1. 401(a) pension contributions that the employer prepays according to this subsection may be deposited, as determined by the employer and managed by ASRS, directly in either the ASRS trust fund established by section 38-712 or a section 115 trust.

2. ASRS shall determine the following options available to the employer:

(a) The amortization time periods.

(b) The frequency and dates that prepayments can be made.

(c) The maximum and minimum amounts of 401(a) pension contributions that the employer can prepay.

(d) Any other options or obligations that the employer may have when entering into this written agreement.

3. The earnings accrual rate shall be the ASRS total 401(a) pension fund rate of return, or the actual rate of return of a short-term investment through ASRS, as requested by the employer and agreed to by ASRS.

4. The 401(a) pension contributions the employer prepays and the accrued earnings shall be managed at the discretion of ASRS subject to section 38-718.
  5. 401(a) pension contributions that the employer prepays and accrued earnings may be used solely to reduce the employer's future 401(a) pension contributions as required from the employer pursuant to this section and section 38-735.
  6. The employer shall determine when to use the 401(a) pension contributions the employer prepays and the accrued earnings from those 401(a) pension contributions.
  7. ASRS shall provide the employer an annual statement of 401(a) pension contributions the employer prepaid and the accrued earnings.
  8. Notwithstanding any other provision of this subsection, an employer may not prepay 401(a) pension contributions according to this subsection either:
    - (a) In an amount greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
    - (b) After the total of the unamortized prepaid 401(a) pension contributions and the accrued earnings is equal to or greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
  9. After an employer elects amortization terms, ASRS shall provide the employer an amortization schedule annually that is current and based on the employer's election.
  10. If ASRS determines to no longer offer the option of prepaying the employer's 401(a) pension contributions directly to ASRS, any 401(a) pension contributions the employer prepays and the accrued earnings remaining on account shall be used for future obligations according to the written agreement between the employer and ASRS.
  11. Assets transferred in or out of or held in the ASRS trust fund established by section 38-712, or a section 115 trust, and the accrued earnings are exempt from state, county and municipal taxes.
  12. The legislature intends that the accrued earnings not be subject to federal income tax. ASRS may adopt additional rules, policies and procedures as ASRS deems necessary or appropriate to fulfill the legislature's intent that the accrued earnings not be subject to federal income tax.
  13. If ASRS receives notification from the United States internal revenue service that this subsection or any portion of this subsection will jeopardize the tax-exempt status of the 401(a) pension contributions the employer prepays according to this subsection and the accrued earnings, the portion of this subsection that will cause the disqualification does not apply.
- E. In addition to the requirements of subsection D of this section, any prepayment agreement made between ASRS and this state or any state agency is subject to the following requirements:
1. Any prepayment amounts deposited with ASRS must be from an appropriation specifically for that purpose that is passed by the legislature and signed by the governor.

2. Any prepayment amounts or accrued earnings used to reduce the employer's 401(a) pension contributions must be authorized for a specific fiscal year by legislation that is passed by the legislature and signed by the governor.

F. For the purposes of this section:

1. "401(a) pension contributions" means the portion of an employer's pension contribution that is specific to the retirement program established under this article and qualified under section 401(a) of the internal revenue code.

2. "Section 115 trust" means a trust whose income is exempt from gross income pursuant to section 115 of the internal revenue code for essential government functions integral to this state and its political subdivisions.

### 38-738. Adjustment and refund

A. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of fact, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit or, if the request is made within one year after the date of overpayment, shall return the contributions to the employer. ASRS may not pay an employer earnings attributable to the excess contributions but shall reduce the amount returned to an employer pursuant to this subsection by the amount of losses attributable to the excess contributions. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of law, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit. On receipt of an employer credit or return of contributions pursuant to this subsection, the employer shall return any member portion of the returned contributions to the member.

B. If less than the correct amount of employer or member contributions is paid into ASRS by an employer, the following apply:

1. The member shall pay an amount that is equal to the amount that would have been paid in member contributions for the period in question. For active members, payments shall be made as provided in section 38-747. For members who are inactive, retired or on long-term disability, payments shall be made using after-tax income and a personal check, cashier's check or money order. If the member does not make the payment within ninety days after being notified by ASRS that the employer has paid all amounts due from the employer, the unpaid amount accrues interest until the amount is paid in full. The member is responsible for payment of the unpaid amount and interest. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

2. If the member contributions to ASRS made pursuant to this subsection exceed the limits prescribed in section 38-747, subsection E when taking into account other annual additions of the member for the limitation year, the amount to be paid by the member shall be adjusted as provided in section 38-747. For the purposes of this paragraph, "limitation year" has the same meaning prescribed in section 38-769.

3. The employer shall pay to ASRS an amount equal to the amount that would have been paid in employer contributions for the period in question together with accumulated interest that would have accrued on both the employer and member contributions due. If the employer does not remit full payment of all employer contributions and all interest due within ninety days after being notified by

ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

4. On satisfaction of the requirements of this subsection, the member's salary history on the records of ASRS shall be adjusted and any additional service credits acquired by the member shall be reinstated.

5. If the member retires before all contributions are made pursuant to this subsection, the member's benefits shall be calculated only based on the contributions actually made.

6. Annual additions shall be determined as provided in section 38-747, subsection O.

7. The initiator of the request for correction of salary history and service credits on records of ASRS is responsible for providing credible evidence of past employment and compensation to ASRS in a form or forms that would lead a reasonable person to conclude that a period of employment occurred under circumstances that made the employee eligible for membership in ASRS during that period. A determination of eligibility by ASRS may be appealed to the ASRS board in a manner prescribed by the board.

8. A member who previously received a return of contributions pursuant to section 38-740 may receive an adjustment of employer contributions or service credits pursuant to this section only for qualifying employment and compensation that occurred after the member's most recent return of contributions pursuant to section 38-740.

C. Subsection B of this section applies to eligible verified service that occurred less than or equal to fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made.

D. Eligible verified service that is more than fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made is considered public service credit. The member may purchase this service pursuant to section 38-743.

E. Notwithstanding any other law, an employer may correct a contributions error pursuant to subsection B of this section by making payment adjustments through the employer's payroll reporting for the contributions that were not submitted if both of the following apply:

1. The adjustment is made within the same fiscal year that the contributions were due to ASRS.

2. The employer obtains written consent from the employee to make the adjustment to the employee's paycheck.

F. Notwithstanding any other law, if an employer pays less than the correct amount of employer or member contributions into ASRS, the correct amount of member contributions may not be paid to ASRS after the death of the member.

### 38-739. Credited service

- A. A member shall not earn more than one year of credited service in any fiscal year.
- B. A member shall earn proportionate credited service for each month for which the member performs service and is compensated equal to the ratio that the month bears to the number of months in the member's service year.
- C. If a member is compensated for less than a full service year, the member shall earn credited service equal to the ratio that the number of months actually compensated bears to the number of months in the full service year.
- D. If a member holds two or more concurrent contracts in any fiscal year, credited service shall be determined on the basis of the terms of the contract with the longest term.
- E. Members on sabbatical leave for which they are paid on a full or partial basis shall make appropriate contributions while on sabbatical leave and are considered to be employed full time.
- F. The following years of service are excluded from credited service under this article:
  - 1. Years of prior service. For the purposes of this paragraph, "prior service" has the same meaning prescribed in section 38-772.
  - 2. Years in which the member made contributions to the defined contribution program administered by ASRS or the Arizona teachers' retirement system before membership in the defined contribution program administered by ASRS and for which those contributions were subsequently withdrawn and paid to the member.

#### 38-739.01. Credited service retention

Consistent with the compliance statement issued by the United States internal revenue service, an employee who is employed with an ASRS employer in a position that was exempt from ASRS membership because the position was not included in agreements providing for the employee's coverage under the federal old-age and survivors insurance system but on whose behalf the employer has remitted ASRS contributions shall retain credited service for the period of employment for which the employer remitted ASRS contributions on the employee's behalf.

### 38-740. Return of contributions

- A. A member whose membership commenced before July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of the contributions as follows:
  - 1. If the member has less than five years of credited service, ASRS shall disburse all of the member's contributions.
  - 2. If a member has five or more years of credited service, ASRS shall disburse the member's contributions and an amount equal to a percentage of the employer contributions paid on behalf of the member. This amount excludes payments made by an employer pursuant to section 38-738, subsection B, paragraph 3, unless the member has made the payment required by section 38-738,

subsection B, paragraph 1. The percentage of employer contributions paid on behalf of the member shall be as follows:

- (a) 5.0 to 5.9 years of credited service, twenty-five percent.

3. Interest on the returned contributions as determined by the board.

B. A member whose membership commenced on or after July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of all of the member's contributions with interest as determined by the board.

C. Notwithstanding subsection B of this section, if a member has five or more years of credited service and the member is terminated solely because of an employer reduction in force by reason of a lack of monies or elimination of the member's position, the member is entitled to receive the amounts prescribed in subsection A of this section.

D. Withdrawal of contributions with interest constitutes a withdrawal from membership in ASRS and results in a forfeiture of all other benefits under ASRS.

E. If ASRS has disbursed an overpayment pursuant to section 38-765 or 38-797.08, ASRS shall withhold the overpayment amount plus any required income tax withholding from the return of contributions.

F. Notwithstanding any other provision of this article, a member who has not received a return of contributions pursuant to this section may combine any two or more periods of service for purposes of determining the member's benefits.

G. If ASRS disburses more than the amount due to a member or an alternate payee pursuant to this section, the person who received the overpayment shall repay the amount of the overpayment together with interest at the interest rate earned on ASRS investments as reported on a quarterly basis, but not less than the valuation rate established by the board, from the time of overpayment to the settlement of the debt.

#### **38-741. Reemployment of inactive member**

A. ASRS shall return to active status an inactive member who terminates employment with an employer without terminating membership in ASRS and who later is reemployed by the same or another employer.

B. On retirement, ASRS shall disburse benefits derived from service for all employers that employed the member.

C. Retirement benefits attributable to service before membership in ASRS, if any, shall be paid only by the employer from which the retiring member obtained entitlement to the benefits as provided in section 38-729.

#### 38-742. Reinstatement

A. If an active member who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, is subsequently reemployed by an employer, the member's service shall be credited only from the date the member's most recent reemployment period commenced.

B. Notwithstanding subsection A of this section, the member may redeposit the amount of the contributions the ASRS paid at the time of the member's separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On satisfaction of this obligation, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

C. A member who is receiving benefits pursuant to section 38-797.07 and who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, may redeposit the amount of the contributions the ASRS paid at the time of the member's previous separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. For a member whose membership date is on or after July 20, 2011, the member may receive not more than sixty months of credited service.

B. A member who elects to receive credit for service with the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States shall pay to ASRS an amount equal to the present value of the additional benefit that is

derived from the purchased credited service using the actuarial assumptions that are approved by the board.

C. A member who previously was a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that system for any period of employment is ineligible to receive retirement benefits from ASRS for the same period.

D. If a member's membership date is on or after July 1, 2010, the member shall have at least five years of credited service in ASRS before electing to receive credit for service pursuant to this section.

H. In computing the length of total credited service of a member for the purpose of determining retirement benefits or eligibility, the period of military service, as prescribed by this section, shall be included.

I. Notwithstanding any other law, the member is not required to reimburse the member's employer or ASRS for any contribution made pursuant to subsection D of this section.

J. In addition to, but not in duplication of, the provisions of subsection D of this section, contributions, benefits and credited service provided pursuant to this section shall be provided in accordance with section 414(u) of the internal revenue code.

K. A member who does not currently perform services for an employer by reason of qualified military service, as that term is defined in section 414(u) of the internal revenue code, and who is receiving differential wage payments, as that term is defined in section 3401(h)(2) of the internal revenue code, shall not be considered as having a severance from employment for all purposes under ASRS during the period the differential wages are being paid by the employer to the employee.

#### 38-746. Compensation limitation: adjustments

A. Except as provided in subsection E, beginning on July 1, 2002, the annual compensation of each employee taken into account under ASRS for any fiscal year or for any other specified twelve consecutive month period shall not exceed two hundred thousand dollars. In determining benefit accruals under ASRS for fiscal years beginning after December 31, 2001 and except as provided for in subsection E, the annual compensation limit under this subsection for fiscal years beginning before January 1, 2002 is two hundred thousand dollars.

B. If compensation under ASRS is determined on a period of time that contains fewer than twelve calendar months, the compensation limit for that period of time is equal to the dollar limit for the calendar year during which the period of time begins, multiplied by the fraction in which the numerator is the number of full months in that period of time and the denominator is twelve.

C. For fiscal years beginning before July 1, 1997, the annual compensation limit prescribed in this section also applies to the combined compensation of a member who is a member of the group of ten highly compensated employees, as defined in section 414(q) of the internal revenue code, and who is paid the highest compensation during the fiscal year and any family member of the member who is either the member's spouse or the member's lineal descendant and who has not attained the age of nineteen before the close of the fiscal year. If the maximum compensation is adjusted pursuant to subsection D, the adjusted limitation shall be prorated among the affected members' compensation determined pursuant to this section before application of the adjusted limitation to the other provisions of this article.

D. The board shall adjust the maximum compensation under subsection A at the same time and in the same manner as adjusted by the United States secretary of the treasury under section 401(a)(17)(B) of the internal revenue code. The adjustment under this subsection for a calendar year applies to annual compensation for the fiscal year of ASRS that begins with or within the calendar year.

E. The dollar limitation prescribed in subsection A does not apply to an eligible member to the extent that the annual compensation of an eligible member taken into account by ASRS for any fiscal year or for any other specified twelve consecutive month period would be reduced below two hundred thirty-five thousand eight hundred forty dollars. This was the amount of compensation taken into account by ASRS as of July 1, 1993. The board shall adjust this amount as of the effective date of the increase prescribed by the United States secretary of the treasury. For the purposes of this subsection, "eligible member" means a person who first became a member of ASRS before July 1, 1996.

#### 38-747. Purchase of credited service; payment; limitations; definitions

A. A member who purchases credited service pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 shall either:

1. Make payments directly to ASRS as provided in subsection H of this section.
2. Elect to have the member's employer make payments as provided in subsection B of this section.

B. A member may elect to have the member's employer make payments for all or any portion of the amounts payable for the member's purchase of credited service pursuant to the sections prescribed in subsection A of this section through a salary reduction program in accordance with the following:

1. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The electing member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection. For the purposes of this paragraph, "other compensation" includes a member's termination pay.

2. The member shall make an election pursuant to this subsection at any time on or after the date the member elects to purchase credited service pursuant to the sections prescribed in subsection A of this section and before the member's termination of employment. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. In the case of an election to utilize all or any part of the member's termination pay to purchase credited service, the member's election shall be made at least three full calendar months before the date of the member's termination of employment and entitlement to receive the termination pay. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of current employment. After a member makes an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. For the purposes of this paragraph, "termination pay" means any lump sum that is paid at the member's termination of employment for accrued vacation, sick leave or overtime pay.

3. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's purchase of credited service may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's purchase of credited service. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's purchase of credited service does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's purchase of credited service.

4. If on termination of the member's employment with an ASRS employer all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection. ASRS shall not grant credited service for contributions made pursuant to this subsection until those contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any salary reduction election made pursuant to this subsection. The interest or administrative charges shall be added to the amount of contributions that is made to ASRS by the member each payroll period and that is paid by the member's employer. The interest or administrative charges shall not be treated as member contributions for any purposes under this article and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

C. A member who elects before July 1, 1999 to receive retirement benefits based on section 38-771, subsection C, paragraph 2 or a member who elects to make contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 shall either make the member's additional contributions required pursuant to section 38-771, subsection E or allowed pursuant to section 38-771.01, subsection F, paragraph 4 directly to ASRS as provided in subsection H of this section or shall elect to have the member's employer make payments for those additional contributions as provided in subsection D of this section. A member who elected to be covered or who was deemed to be covered by section 38-771 on or before December 31, 1995 or who elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 3 is deemed to have made an irrevocable election pursuant to subsection D of this section to make the member's contributions to ASRS that are required by section 38-771, subsection D or allowed by section 38-771.01, subsection F, paragraph 3.

D. Any member contributions that are required by section 38-771, subsection D or that are allowed pursuant to section 38-771.01, subsection F, paragraph 3 are deemed to be made by the member to ASRS through a salary reduction program in accordance with the following:

1. A member may make member contributions pursuant to section 38-771, subsection E or section 38-771.01, subsection F, paragraph 4 through a salary reduction program elected pursuant to this subsection. If a member makes an irrevocable election pursuant to this subsection before July 1, 1999 to have the member's employer make payments for additional contributions pursuant to section 38-771, subsection E, the election continues in effect from and after June 30, 1999 and shall not be revoked, amended or altered by any election made pursuant to section 38-771.01 or otherwise. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection.

2. Before a member's termination of employment, the member may make an election pursuant to this subsection at any time after the date the member elects to receive retirement benefits based on section 38-771, subsection C, paragraph 2 but before July 1, 1999 or at any time after the member elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 4. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of employment.

3. After a member makes or is deemed to have made an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4 may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's additional contributions. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 or pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's additional contributions pursuant to section 38-771.01, subsection F, paragraph 4 does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4.

4. If on termination of the member's employment all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

E. The following limits apply to contributions to ASRS:

1. Except to the extent paragraphs 2 and 3 of this subsection apply to certain contributions made by a member to ASRS and to the extent permitted under section 414(v) of the internal revenue code, if applicable, in any one limitation year, the annual additions contributed or allocated to ASRS for or on behalf of a member shall not exceed the lesser of either:

(a) \$40,000 or a larger amount that is prescribed by the board and that is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount prescribed by this subdivision as of the effective date of the increase announced by the United States secretary of the treasury.

(b) One hundred percent of the member's compensation for the limitation year. The compensation limit prescribed in this subdivision does not apply to any contribution to ASRS for medical benefits after a member's separation from service, within the meaning prescribed in section 401(h) or 419A(f)(2) of the internal revenue code, that is otherwise treated as an annual addition.

2. Unless paragraph 4 of this subsection applies, for plan years beginning on or after July 1, 1998, in any one limitation year, the annual additions credited to ASRS for or on behalf of a member who makes contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election has not been made pursuant to subsection B of this section shall not exceed the greater of either:

(a) The requirements of section 38-769. For the purposes of applying the limits prescribed in section 38-769 under this subdivision, the accrued benefit derived from the contributions shall be treated as an annual benefit and the reduced limit for certain early retirement in section 38-769, subsection C, paragraph 2 does not apply.

(b) Except as provided in paragraph 3 of this subsection, the requirements of paragraph 1 of this subsection. The contributions shall be treated as annual additions and any of the member's other annual additions for the limitation year shall be taken into account. For the purposes of applying the requirements of paragraph 1 of this subsection under this subdivision, the percentage of compensation limit in paragraph 1, subdivision (b) of this paragraph does not apply.

3. For plan years beginning on or after July 1, 1998, the requirements of paragraph 1 of this subsection shall not be applied to reduce the amount of credited service that may be purchased by an eligible member pursuant to section 38-743, 38-744, 38-745 or 38-922 to an amount that is less than the amount of credited service allowed to be purchased pursuant to those sections on August 5, 1997 without the application of any of the limits prescribed in this section or section 415 of the internal revenue code. For the purposes of this paragraph, "eligible member" means a person who first becomes a member of ASRS before July 1, 1999.

4. Member contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744 or 38-922 shall not be made by a member if recognition of that service would cause a member to receive a retirement benefit for the same service from ASRS and one or more other retirement plans. This paragraph does not apply to either of the following:

(a) Contributions made by an eligible member as defined in paragraph 3 of this subsection, except that any service purchase by an eligible member is subject to any other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

(b) Any member contributions with respect to which an irrevocable election has been made by a member pursuant to subsection B of this section, except that the service purchase is subject to any

other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

F. If a member's contributions are subject to the limitations of subsection E of this section, the contributions shall be treated as being made to a separate defined contribution plan. If the member's contributions exceed the limits prescribed in subsection E of this section when taking into account other member and employer contributions to ASRS on behalf of the member for the limitation year, the amount to be paid by the member shall be reduced to not exceed the limits prescribed in subsection E of this section and the remaining amount shall be carried forward to the next limitation year, unless the limits are exceeded in the next limitation year. If the limits are exceeded in the next limitation year, the procedure prescribed by this subsection shall be repeated until all payments have been made.

G. If, after the application of subsection F of this section, the annual additions on behalf of a member exceed the limitations prescribed in subsection E of this section, ASRS shall dispose of excess amounts by either of the following:

1. Returning to the member any contributions that are made by the member and that are nondeductible under the internal revenue code.

2. Holding the amounts in a suspense account established pursuant to subsection L of this section and allocating the amounts as either member or employer contributions for the benefit of the member in the next limitation year and before any further member or employer contributions are made that would constitute annual additions made to a defined contribution plan pursuant to section 415 of the internal revenue code. ASRS shall allocate contributions as prescribed in this section, and the amount allocated shall reduce the amount of the member or employer contributions for the limitation year in which the allocation is made.

H. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by the member pursuant to subsection B or D of this section, the board may accept contributions made pursuant to section 38-771 or member contributions for the payment for credited service purchases pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 or contributions made pursuant to section 38-771.01, subsection F, paragraph 4, in whole or in part, by any one or a combination of the following methods:

1. In lump sum payments.

2. Subject to the limitations prescribed in sections 401(a)(31) and 402(c) of the internal revenue code and subsection J of this section, accepting a direct transfer of any eligible rollover distribution from one or more:

- (a) Retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code.

- (b) Annuity contracts described in section 403(b) of the internal revenue code.

- (c) Eligible deferred compensation plans described in section 457(b) of the internal revenue code that are maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state.

3. Accepting from a member a direct transfer from an individual retirement account or individual retirement annuity described in section 408(a) or 408(b) of the internal revenue code of an amount that would otherwise be eligible to be rolled over to ASRS under the provisions of section 408(d)(3)(A)(ii) of the internal revenue code if the amount had been received by the member and would have otherwise been includible in the member's gross income but for the direct transfer.

4. Providing by rule that the contributions may be made in installment payments over a period of time.

I. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by a member pursuant to subsection B or D of this section, the board may accept a direct trustee-to-trustee transfer from retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code, an annuity contract described in section 403(b) of the internal revenue code or an eligible deferred compensation plan described in section 457(b) of the internal revenue code for the payment for credited service purchases pursuant to section 38-742, 38-743, 38-744, 38-745 or 38-922. If a direct trustee-to-trustee transfer is from a retirement program that is qualified under section 401(a) of the internal revenue code and that includes a cash or deferred arrangement described in section 401(k) of the internal revenue code, the member on whose behalf the transfer was made is not eligible to retire under section 38-764, subsection I before the date the member attains fifty-nine and one-half years of age.

J. ASRS shall separately account for all amounts rolled over or directly transferred to ASRS. Subject to the limitations contained in the internal revenue code applicable to the type of plan from which an eligible rollover distribution is transferred, to the extent any eligible rollover distribution that is directly transferred to ASRS consists wholly or partially of amounts that would otherwise not be included in the member's gross income if not so transferred, ASRS shall separately account for the amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the amount that is includable in gross income and the portion of the amount that is not includable in gross income.

K. ASRS shall not grant credited service under section 38-738, 38-742, 38-743, 38-744 or 38-922 for contributions made pursuant to subsection H of this section until the contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any installment payment made pursuant to subsection H, paragraph 4 of this section to purchase credited service pursuant to section 38-738, 38-742, 38-743, 38-744 or 38-922. The interest or administrative charges shall be added to the amount of contributions made to ASRS by the member. The interest or administrative charges shall not be treated as member contributions for any purposes under this article, and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

L. Notwithstanding any provision of this article to the contrary, if the annual additions credited on behalf of an ASRS member during any limitation year exceed the limits of section 415(c) of the internal revenue code and subsection E of this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance issued by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

M. If the member retires before all payments are made pursuant to this section, ASRS shall calculate the member's benefits based only on the payments actually made.

N. On satisfaction of the requirements of this section, ASRS shall adjust the member's credited service history and add any additional service credits acquired.

O. Annual additions on behalf of a member in any limitation year shall be the sum of:

1. The amount of the member contributions made to ASRS to purchase credited service pursuant to section 38-738, 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election made pursuant to subsection B of this section is not in effect.

2. The amount of member and employer contributions made to ASRS on behalf of a member who elected or was deemed to have elected to receive retirement benefits pursuant to section 38-771 or who is entitled to benefits pursuant to section 38-771.01, except that, other than as provided in subsection P of this section, corrective contributions shall be considered annual additions for the limitation years to which the contributions relate and interest and gains shall not be considered as annual additions for the purpose of any limitation prescribed in this article or in section 415 of the internal revenue code. If the corrective contributions exceed the limit on annual additions for a limitation year prior to the limitation year in which the corrective contributions are contributed by the employer to ASRS, the retirement benefit attributable to the excess corrective contributions shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess corrective contributions to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

3. Any member or employer contributions made to ASRS or any other plan that are treated as being made to a defined contribution plan maintained by an employer of the member.

4. Any forfeitures, including any income attributable to forfeitures, allocated for or on behalf of a member of ASRS or any other plan that are treated as being allocated under a defined contribution plan maintained by an employer of the member.

P. To the extent any portion of the subject benefits, if treated as subject to the benefit limitations of section 415(b) of the internal revenue code, exceed the applicable limitation on benefits pursuant to section 38-769 for the form of distribution, a percentage of corrective contributions and interest and gains shall be treated as annual additions for the limitation year in which contributed by the employer to ASRS. This percentage of corrective contributions and interest and gains shall be equal to the percentage determined by dividing the subject benefits that exceed the limitation on benefits pursuant to section 38-769 by the subject benefits. If the corrective contributions and interest and gains that are treated as annual additions for the limitation year in which the corrective contributions and interest and gains are contributed by the employer to ASRS exceed the limit on annual additions for the limitation year, the retirement benefit attributable to the excess shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

Q. Subsection O of this section shall be construed and interpreted in accordance with section 415 of the internal revenue code and the final treasury regulations issued under that section.

R. For the purposes of this section:

1. "Compensation" has the same meaning prescribed in section 38-769.

2. "Corrective contributions" means any contributions that are paid by an employer pursuant to section 38-771.01, subsection C, paragraph 3 and that are attributable to employer contributions that should have been made for prior limitation years.
3. "Defined contribution plan" has the same meaning prescribed in section 38-769.
4. "Eligible rollover distribution" has the same meaning prescribed in section 38-770.
5. "Interest and gains" means employer contributions to ASRS pursuant to section 38-771.01, subsection C, paragraphs 3, 5 and 6 that are attributable to earnings and supplemental credits that would have been earned or added to a member's annuity payment.
6. "Limitation year" has the same meaning prescribed in section 38-769.
7. "Participating employer" means an employer that participates in ASRS.
8. "Subject benefits" means the retirement benefit received by a member pursuant to section 38-771.01 minus the sum of the portion of such retirement benefit attributable to contributions that were made by or on behalf of the member to the defined contribution program administered by ASRS for periods before July 1, 1981 and contributions that were made by the member after June 30, 1981 and that were not picked up as provided in section 414(h)(2) of the internal revenue code.

**38-748. Employer payments for ineligible contributions; definitions**

A. If an employer pays contributions on behalf of any person who is not eligible by statute or rule for ASRS membership or pays contributions on compensation that is not eligible by statute or rule for ASRS contributions and either ASRS or a court determines that ASRS shall provide a person with any benefit or credit under this article or article 2.1 of this chapter based on such contributions, the employer shall pay to ASRS any unfunded liability resulting from the provision of benefits or credit to the person.

B. If the employer does not remit full payment of the unfunded liability pursuant to subsection A of this section within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full.

C. Credited service ceases to accrue as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

D. If the amount in the person's ASRS account is greater than the present value of the benefit or credit, ASRS shall retain the entire account and is not required to refund, credit or offset any excess against future contributions.

E. This section applies to an employer that employs, either directly or indirectly, a person who performs services for a third-party organization and that does not have a written representation by ASRS of the person's eligibility.

F. For the purposes of this section:

1. "Amount in the person's ASRS account" means two times the person's retirement contributions made pursuant to section 38-736:

(a) Plus:

(i) Interest on the person's retirement contributions made pursuant to section 38-736.

(ii) Any contributions made for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(iii) Interest on the amount contributed for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(b) Minus any amounts paid by ASRS pursuant to this article or article 2.1 of this chapter.

2. "Interest" means the interest rate assumption that is approved by ASRS for actuarial equivalency.

3. "Unfunded liability" means:

(a) For a person who is not eligible by statute or rule for ASRS membership, the amount, if any, that the present value of the person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount in the person's ASRS account calculated as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

(b) For contributions on compensation that is not eligible by statute or rule for ASRS contributions, the difference, if any, of the amount that the present value of a person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount of the present value of the benefit or credit the person would receive if the ineligible contributions, and the compensation and credit associated with those ineligible contributions, had not been reported to ASRS and the amount in the person's ASRS account that is associated with the ineligible contributions on compensation.

**38-749. Employer termination incentive program; employer payment of actuarial cost; definition**

A. If a termination incentive program that is offered by an employer results in an actuarial unfunded liability to ASRS, the employer shall pay to ASRS the amount of the unfunded liability. ASRS shall determine the amount of the unfunded liability in consultation with its actuary.

B. An employer shall notify ASRS if the employer plans to implement a termination incentive program that may affect ASRS funding.

C. If ASRS determines that an employer has implemented a termination incentive program that results in an actuarial unfunded liability to ASRS, ASRS shall assess the cost of the unfunded liability to that employer. If the employer does not remit full payment of all monies due within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

D. For the purposes of this section, "termination incentive program":

1. ### 38-750. Transfers out of the system

A. If an employee has made an irrevocable election pursuant to section 38-747, subsection B or D and transfers participation to another defined benefit retirement system or plan of this state without a termination of employment, within ninety days after the date of the transfer, ASRS shall transfer to the subsequent defined benefit retirement system or plan the amount the employee paid for the purchase of the credited service plus interest as determined by ASRS.

B. If the assets transferred from ASRS are less than the cost of the benefits accrued relative to the credited service as calculated pursuant to section 38-922, subsection B, paragraph 2, and unless a law otherwise provides, the employee shall elect either to pay the difference to the subsequent defined benefit retirement system or plan or accept a reduced amount of service credits. If the employee elects to pay the difference, the amount paid shall be added to the employee's accumulated contribution account balance. If the employee elects to accept a reduced amount of service credits, the amount of service credits granted shall be equal to the amount of service credits purchased multiplied by the ratio of the amount of assets transferred to the amount calculated pursuant to section 38-922, subsection B, paragraph 2.

C. The transferred employee and the employer shall complete the terms of the irrevocable election by making payments to ASRS.

D. If the employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, on termination of employment the employee shall elect to have ASRS:

1. Promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to elect to have the assets transferred within thirty days after termination of employment, the employee is deemed to have made an election as prescribed in paragraph 2.

2. On written request by the employee, promptly return to the employee the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If no application is received by ASRS within sixty days after termination of employment, ASRS shall issue the payment directly to the employee.

E. If the employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, after termination of employment the employee may elect within thirty days of termination of employment to have ASRS promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to make the election under this subsection, ASRS shall deem the employee as an inactive member of ASRS.

F. If an employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is

receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is eligible to transfer to the retirement system or plan, but the election to transfer terminates the benefit from ASRS on the effective date of the transfer.

G. If an employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is not eligible to transfer to another retirement system or plan.

**38-751. Nonparticipatory employer liability allocation; exemption; definitions**

A. ASRS shall establish a separate fund for an employer, other than a charter school, that is no longer participating in ASRS as a result of any of the following:

1. The character of the employer changes from a public entity to a private entity.
2. An employer, other than this state, dissolves.
3. Through legislative action, the employer is no longer enrolling new employees in ASRS or no longer contributing to ASRS on behalf of current employees or groups of employees who otherwise would be eligible for ASRS membership.

B. For a nonparticipating employer described in subsection A of this section, ASRS shall allocate an actuarial accrued liability and a designated asset amount to the nonparticipating employer's separate fund as of the nonparticipation date, which shall be calculated as follows:

1. The actuarial accrued liability shall equal the sum of the plan employer actuarial accrued liability and the LTD program employer actuarial accrued liability. Actuarial accrued liability shall be calculated based on the same actuarial assumptions and methods as the actuarial valuation performed immediately preceding the nonparticipating employer's nonparticipation date.

2. The designated asset amount shall equal the sum of the following:

- (a) The plan employer actuarial accrued liability multiplied by the plan funded percentage.
- (b) The LTD program employer actuarial accrued liability multiplied by the LTD program funded percentage.

C. All monies and securities transferred to the nonparticipating employer's separate fund shall be credited to that fund. A record of the market value and the cost value of such transferred contributions shall be maintained for actuarial and investment purposes. ASRS shall make all decisions regarding the nonparticipating employer's separate fund.

D. After establishing the nonparticipating employer's separate fund, the fund shall be adjusted for all of the following:

1. All contributions made by employees of the nonparticipating employer.
2. All contributions made by the nonparticipating employer.

3. All plan, all LTD program and any other benefits paid to the nonparticipating employer's members who are active, inactive, retired or on long-term disability.

4. All plan, all LTD program and any other benefits paid to the survivors of the nonparticipating employer's members.

5. The applicable share of the investment gains and losses.

6. Expenses associated with the administration of the nonparticipating employer's separate fund, including any administrative, development, actuarial, legal, custodial and investment management costs associated with the fund. These expenses shall be paid directly by the nonparticipating employer or included in the employer's liability for the purposes of determining the employer's contribution rate.

E. After establishing the nonparticipating employer's separate fund, the nonparticipating employer and any employees of that employer who are enrolled in ASRS shall continue to have contribution requirements to the nonparticipating employer's separate fund. The contribution requirements shall be calculated as follows:

1. All employees of the nonparticipating employer who are enrolled in ASRS shall continue to make contributions through payroll deductions based on the contribution rate determined for the employees of participating employers of ASRS pursuant to section 38-736.

2. The nonparticipating employer shall continue to make contributions through lump sum payments in accordance with section 38-735, equal to the sum of:

(a) Contributions owed through payroll deductions based on the contribution rate determined for participating employers pursuant to section 38-737.

(b) The amount required to amortize the past service funding requirement in the nonparticipating employer's separate fund over a period that is determined by the board and that is consistent with generally accepted actuarial standards. In determining the past service funding period, the board shall seek to improve the funded status whenever the nonparticipating employer's separate fund is less than one hundred percent funded.

F. The ASRS actuary shall determine the actuarial assumptions used to determine the contribution requirements for the nonparticipating employer under subsection E of this section. Notwithstanding section 38-737, the contribution for the nonparticipating employer may not be determined as a percentage of compensation due to the anticipated decline of compensation for employees of the nonparticipating employer participating in ASRS. The nonparticipating employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS at a rate that is consistent with the rate paid by the participating employers. Each fiscal year, amounts that are not remitted through payroll contributions pursuant to this section shall be invoiced to the employer and shall be paid within the same fiscal year the nonparticipating employer is invoiced.

G. This section does not permit an employer to alter the irrevocable agreement approved by the board under section 38-729.

H. For the purposes of calculating an employer's liability under this section, members who are active, inactive, retired or on long-term disability are considered employees of the nonparticipating employer

if the member's most recent employer was the nonparticipating employer as of the nonparticipation date.

I. This section does not apply to an employer whose existence was terminated by legislative action or otherwise became a nonparticipating employer as described in subsection A of this section on or before January 1, 2013.

B. For a member whose membership in ASRS commenced before July 1, 2011, the benefit payable to a member electing early retirement shall be determined by reducing the normal retirement benefit computed in accordance with section 38-757 either:

1. At the rate of three percent per year from age sixty to age sixty-five and five percent per year from age fifty to age sixty. The reduction in normal retirement benefits pursuant to this paragraph for an eligible member electing early retirement shall be based on the period from the date of commencement of early retirement benefits to the member's sixtieth birthday if the member has at least twenty years of total credited service, sixty-second birthday if the member has at least ten but less than twenty years of total credited service or sixty-fifth birthday if the member has at least five but less than ten years of total credited service.

The amount of retirement income shall be the actuarial equivalent of the retirement income to which the member would be entitled under normal or early retirement. The election in a manner prescribed by the board shall name the contingent annuitant. The election may be revoked at any time before the member's

effective date of retirement. At any time after benefits have commenced, the member may name a different contingent annuitant or rescind the election by written notice to the board as follows:

Payment of this adjusted life annuity shall continue under the provisions of the option previously elected by the member.

(b) If the member rescinds the election, the member shall thereafter receive a straight life annuity equal to what the member would otherwise be entitled to receive if the member had not elected the joint and survivor life annuity option, including all postretirement increases in retirement income that are authorized by law after the date of retirement. G. For the purposes of this section, "designated beneficiary" means any individual designated by the member as the member's beneficiary.

#### **38-763. Survivor benefits after retirement**

D. The board may pay the entire retirement benefit in a lump sum pursuant to subsection C of this section only if continued membership in ASRS will result in additional requests for lump sum payments based on cost of living adjustments or the establishment of minimum benefit awards.

E. If any benefit that is payable as a series of periodic payments amounts to less than a threshold amount determined by the board, the board, in its sole discretion and based on uniform rules it establishes, may order the amount to be paid in a lump sum. A member who receives a lump sum payment pursuant to this subsection remains a member of ASRS and is eligible for the coverage provided pursuant to section 38-782 and the payment pursuant to section 38-783 but is not eligible for a benefit increase pursuant to section 38-767.

#### **38-765. Errors; benefit recomputation**

If any change or error in the records results in any member or beneficiary receiving from ASRS more or less than the member or beneficiary would have been entitled to receive if the records had been correct, ASRS shall correct the error and as far as practicable shall adjust the payments in a manner so that the actuarial equivalent of the benefit to which the member or beneficiary was correctly entitled is paid. ASRS shall correct any change or error and shall pay the appropriate monies to a member or beneficiary or shall recover monies from the member or beneficiary if the member or beneficiary is overpaid. ASRS shall recover monies by reducing any benefit otherwise payable by ASRS or the LTD program established by article 2.1 of this chapter to an active, inactive, person with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

B. The ASRS actuary shall determine the alternate contribution rate in an annual valuation performed as of June 30. For the fiscal year beginning on July 1 of the following calendar year, the valuation shall determine the percentage to be applied to the compensation, gross salary or contract fee of a retired member who meets the requirements of this section.

C. The alternate contribution rate shall not be less than two percent in any fiscal year. The alternate contribution rate is equal to the lesser of:

1. The employer contribution rate established by the ASRS actuary pursuant to section 38-737 plus the employer contribution rate established by the ASRS actuary pursuant to section 38-797.06.

2. The total past service funding requirement rate established by the ASRS actuary pursuant to section 38-737 plus the total past service funding requirement rate established by the ASRS actuary pursuant to section 38-797.06.

D. ASRS shall determine the schedule and method of payment of the alternate contribution rate. Subject to section 38-738, subsection A, all contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay the expenses of ASRS. Payments made pursuant to this section by employers become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments as prescribed in section 38-711. ASRS may recover delinquent payments due under this section, together with interest charges as provided in this section, by action in a court of competent jurisdiction against an employer liable for payments or, at the request of the director, ASRS may deduct the delinquent payments and interest charges from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state.

E. An employer of a retired member shall submit any reports, data, paperwork or materials that are requested by ASRS and that are necessary to determine the compensation, gross salary or contract fee associated with a retired member who returns to work or to determine the function, utilization, efficacy or operation of the return to work program.

F. An employer is not required to pay contributions at an alternate contribution rate on behalf of a retired member under subsection A of this section if the retired member returns to work with the employer in a position that is currently filled by an employee of the employer who is an active member and for which the employer is currently required to pay and is paying contributions on behalf of the active member in that same position pursuant to sections 38-736 and 38-737. An employer may pay contributions at an alternate contribution rate for a retired member who meets the requirements for an exemption under this subsection.

G. For contributions made pursuant to subsection F of this section beginning July 1, 2019, if ASRS and the employer determine that the alternate contribution rate does not apply to a retired member who returns to work for whom the employer has paid contributions at the alternate contribution rate,

the employer may request an employer credit, not including interest, for those contributions within ninety days after the end of the fiscal year in which the contributions were paid. If ASRS determines that an employer credit is not feasible, ASRS shall issue a refund to an employer in a form determined by ASRS.

H. For the purposes of this section:

1. "Contract fee" means the gross amount paid to a retired member as an independent contractor minus an amount, not to exceed ten percent, for an administrative fee.
2. "Gross salary" means the gross amount paid to a retired member by a leasing company as salary or wages, including amounts that are subject to deferred compensation or tax shelter agreements, for services rendered or that would have been paid to the retired member except for the member's election or a legal requirement that all or part of the gross amount be used for other purposes.

**38-767. Benefit increases: applicability**

A. For a member whose membership commenced before the effective date of this amendment to this section, effective July 1 of each year, each retired member or beneficiary of a retired member is entitled to receive a permanent benefit increase in the base benefit equal to the amount determined in subsection D of this section if the retired member or beneficiary of a retired member was receiving benefits on or before July 31 of the previous calendar year. The annual permanent benefit increases shall be paid on a monthly basis. The benefit increase shall commence on July 1.

B. The total amount of the percentage increase provided in subsection A of this section shall not exceed four per cent in aggregate for all persons eligible for an increase. The percentage payable from excess investment earnings shall be determined as follows:

1. Determine any excess investment earnings account balance available.
2. Determine the total excess investment earnings as provided in subsection C of this section.
3. Add the amount determined in paragraph 1 of this subsection to the amount determined in paragraph 2 of this subsection.
4. Determine one per cent of the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
5. Divide the amount determined in paragraph 3 of this subsection by the amount determined in paragraph 4 of this subsection. If the quotient is equal to or more than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is four per cent. If the quotient is one or more but less than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is that per cent rounded to the nearest tenth of a per cent. If the quotient is less than one, no benefit increases shall be granted.

C. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are equal to the actuarial present value of benefits for all retired members and beneficiaries as of June 30 of the year prior to the year for which

an increase is being granted multiplied by the positive difference, if any, between the yield rate on the actuarial value of ASRS assets for the fiscal year that ended June 30 of the year prior to the year for which an increase is being granted and eight per cent. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are zero if the yield rate on ASRS assets is less than or equal to eight per cent.

D. The permanent benefit increase for each person entitled to receive an increase pursuant to subsection A of this section shall be determined based on years of credited service as follows:

1. Multiply the percentage determined in subsection B, paragraph 5 of this section by the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
2. Determine the actuarial present value of a one dollar per year of credited service annual increase in the base benefit amounts as of June 30 of the year prior to the year for which an increase is being granted, received by all persons entitled to receive an increase pursuant to subsection A of this section.
3. Divide the amount determined in paragraph 1 of this subsection by the amount determined in paragraph 2 of this subsection.
4. Multiply the amount determined in paragraph 3 of this subsection by the number of years of credited service for each retired member and the number of years of credited service earned by a retired member for each beneficiary entitled to receive an increase pursuant to subsection A of this section.

E. Any excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section from any year that are not used for benefit adjustments for that year are available for future benefit increases in the following years.

F. Monies available for future benefit increases shall earn interest at a rate of eight per cent per year. This interest shall be used to pay the additional benefit increases provided for in subsection G of this section.

G. In addition to a benefit increase pursuant to subsection A of this section, if a retired member who was eligible for an annual benefit increase pursuant to subsection A of this section had more than ten years of credited service, the retired member or beneficiary of the retired member is entitled to receive a benefit increase based on the number of years following retirement as follows:

1. At least five years but less than ten years, a monthly benefit increase equal to the amount determined in subsection H of this section.
2. At least ten years but less than fifteen years, a monthly benefit increase equal to two times the amount determined in subsection H of this section.
3. At least fifteen years but less than twenty years, a monthly benefit increase equal to three times the amount determined in subsection H of this section.

4. At least twenty years but less than twenty-five years, a monthly benefit increase equal to four times the amount determined in subsection H of this section.

5. At least twenty-five years but less than thirty years, a monthly benefit increase equal to five times the amount determined in subsection H of this section.

6. At least thirty years, a monthly benefit increase equal to six times the amount determined in subsection H of this section.

H. The amount of the monthly benefit increase under subsection G of this section for a retired member or beneficiary of a retired member who is entitled to the increase when at least five years but less than ten years have elapsed since the retired member's retirement date is equal to the amount obtained by dividing the amount of interest credited pursuant to subsection F of this section by the amount that equals the sum of:

1. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of one dollar per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least five years but less than ten years have elapsed since the retired members' retirement dates.

2. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of two dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least ten years but less than fifteen years have elapsed since the retired members' retirement dates.

3. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of three dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least fifteen years but less than twenty years have elapsed since the retired members' retirement dates.

4. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of four dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty years but less than twenty-five years have elapsed since the retired members' retirement dates.

5. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of five dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty-five years but less than thirty years have elapsed since the retired members' retirement dates.

6. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of six dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least thirty years have elapsed since the retired members' retirement dates.

I. A member of the defined contribution program administered by ASRS is only eligible for the benefit increases pursuant to this section if the member elects to transfer irrevocably from the defined

contribution program administered by ASRS to the defined benefit program established by this article.

J. The cost of the benefit increases granted pursuant to this section shall be added to the existing liabilities of ASRS.

K. As used in this section, the actuarial present value of benefits for retired members and beneficiaries does not include the value of benefits provided pursuant to section 38-783.

#### **38-768. Minimum retirement benefit**

A. Notwithstanding any other provision of this article, a retired member or beneficiary who is entitled to a benefit under this article shall receive at least a minimum monthly benefit that is computed pursuant to subsection B of this section if the retired member or beneficiary is at least seventy-five years of age and if the retired member or beneficiary is any of the following:

1. Retired from ASRS with at least twenty years of credited service.
2. A beneficiary of ASRS who is receiving benefits derived from a retired member who had at least twenty years of credited service.
3. A member with at least twenty years of service who irrevocably revokes the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elects to receive benefits under this article.
4. A beneficiary who is receiving benefits derived from a retired member who had at least twenty years of service, who irrevocably revoked the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elected to receive benefits under this article.

B. The minimum monthly benefit provided by subsection A of this section:

1. For retired members, is \$600.
2. For beneficiaries, is the amount determined by paragraph 1 of this subsection and reduced in accordance with the option chosen by multiplying the amount determined by paragraph 1 of this subsection by the actuarial figure for the option chosen and by the percentage of the option chosen.

C. If the minimum monthly benefit pursuant to subsections A and B of this section is more than the retired member's or beneficiary's current monthly benefit, the retired member or beneficiary is eligible to receive a monthly benefit equal to the minimum benefit. If the retired member's or beneficiary's current monthly benefit is more than the minimum benefit, the retired member's or beneficiary's benefit remains the same.

D. A member who receives a lump sum payment pursuant to section 38-764, subsection C is not eligible for a minimum benefit as provided by this section.

#### **38-769. Maximum retirement benefits; termination; definitions**

A. Notwithstanding any other provision of this article, except as provided in subsection C of this section, the employer provided portion of a member's annual benefit payable in the form of a straight life annuity, at any time within a limitation year, shall not exceed one hundred sixty thousand dollars or a larger amount that is effective as of January 1 of each calendar year, is prescribed by the board and is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount pursuant to this subsection as of the effective date of the increase as prescribed by the United States secretary of the treasury. Benefit increases provided in this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001 shall be provided to all current and former members who have benefits that are limited by section 415(b) of the internal revenue code and who have an accrued benefit under ASRS immediately before July 1, 2001, other than an accrued benefit resulting from a benefit increase solely as a result of the increases provided by this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001.

B. Notwithstanding the limitations of subsection A of this section, the benefits payable to a member are deemed not to exceed the limitations determined under subsection A of this section if the retirement benefits payable to the member under this article do not exceed ten thousand dollars for the limitation year and if an employer has not at any time maintained a defined contribution plan in which the member has participated.

C. The limitations determined under subsection A of this section are subject to the following adjustments:

1. If a member has less than ten years of membership in ASRS, the maximum dollar limitation determined under subsection A of this section shall be multiplied by a fraction, the numerator of which is the number of years, or partial years, of membership in ASRS and the denominator of which is ten. The reduction provided in this paragraph also applies to the ten thousand dollar floor limitation provided in subsection B of this section, except that the reduction applies to years of service with an employer rather than to years of membership in ASRS. The reduction in this paragraph does not reduce the limitations determined under subsection A of this section to an amount less than one-tenth of the limitations as determined without regard to this paragraph.

2. If the member's benefit under ASRS commences before the member reaches sixty-two years of age, the benefit will be limited to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for early retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight

life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity start date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-two, determined without applying the limitations of section 415 of the internal revenue code.

3. If the retirement benefit under ASRS commences after the member reaches sixty-five years of age, the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section on that benefit is increased to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) as adjusted under section 415(d) of the internal revenue code, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for delayed retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity starting date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-five, determined without applying the limitations of section 415 of the internal revenue code.

4. For purposes of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity and that is not subject to section 417(e)(3) of the internal revenue code must be adjusted to an actuarially equivalent straight life annuity that equals either:

(a) For limitation years beginning on or after July 1, 2007, the greater of the annual amount of the straight life annuity, if any, payable under ASRS at the same annuity starting date, and the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using an interest rate of five per cent and the applicable mortality table under section 417(e)(3) of the internal revenue code.

(b) For limitation years beginning before July 1, 2007, the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five per cent interest rate assumption and the applicable mortality table.

5. For the purpose of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity to which section 417(e)(3) of the internal revenue code would apply if that section of the internal revenue code were applicable to ASRS must be adjusted to an actuarially equivalent straight life annuity that equals:

(a) If the annuity starting date is in a plan year beginning on or after July 1, 2006, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest rate assumption and the applicable mortality table.

(iii) The applicable interest rate under section 417(e)(3) of the internal revenue code and the applicable mortality table, divided by 1.05. The stability period during which the applicable interest rate remains constant is the plan year. The look-back month that is used to determine the applicable interest rate during the stability period is the third full calendar month preceding the first day of the stability period. For the purposes of this item, "applicable interest rate" means the annual interest rate on thirty-year treasury securities as specified by the commissioner of the United States internal revenue service for a month in revenue rulings or notices or another guidance published by the commissioner in the internal revenue bulletin.

(b) If the annuity starting date is in a plan year beginning in July 1, 2004 or July 1, 2005, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit payable, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest assumption and the applicable mortality table.

(c) If the annuity starting date is on or after July 1, 2004 and before December 31, 2004, and ASRS applies the transition rule in section 101(d)(3) of the pension funding equity act of 2005 in lieu of the rule in subdivision (b) of this paragraph, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, determined in accordance with internal revenue service notice 2004-78.

6. When calculating the limitations of paragraph 4 or 5 of this subsection, the portion of any joint or survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code shall be disregarded.

D. Subsection C, paragraphs 1 and 2 of this section do not apply to income received from ASRS as a pension, annuity or similar allowance as a result of the recipient developing a disability by personal injury or sickness or to amounts received from ASRS by beneficiaries, survivors or the estate of a member as a result of the death of the member.

E. Notwithstanding any other provision of this section, the annual benefit payable under this article may be reduced to the extent necessary, as determined by the board, to prevent disqualification of ASRS under section 415 of the internal revenue code that imposes additional limitations on the annual benefits payable to members who also may be participating in another tax qualified pension or savings plan of this state. An employer shall not provide employee retirement or deferred benefits if the benefits authorized by this section and as required by federal law result in the failure of ASRS to meet federal qualification standards as applied to public pension plans. The board shall advise affected members of any additional information concerning their annual benefits required by this subsection. All benefits payable pursuant to this subsection shall comply with the limitations of benefits contained in section 415 of the internal revenue code and the final treasury regulations issued under that section. Notwithstanding any provision of this article to the contrary, if the annual benefits within the meaning of section 415 of the internal revenue code for any member exceed the limits of section 415(b) of the internal revenue code and this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

F. If the maximum amount of benefit allowed under section 415 of the internal revenue code is increased after the commencement date of a member's benefit due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to the provisions of section 415(d) of the internal revenue code, the amount of the monthly benefit payable under ASRS to a member whose benefit is restricted due to the provisions of section 415(d) of the internal revenue code shall be increased by the board as of the date prescribed by the United States secretary of the treasury on which the increase shall become effective. The increase shall reflect the increase in the amount of retirement income that may be payable under this article as a result of the cost of living adjustment.

G. In determining the adjustments to the defined benefit dollar limitation authorized by subsection A of this section, the board shall prescribe a larger defined benefit dollar limitation if prescribed by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. An adjustment to the defined benefit dollar limitation prescribed in subsection A of this section is not effective before the first calendar year for which the United States secretary of the treasury publishes the adjustment. After it is prescribed by the board, the new defined benefit dollar limitation applies to the limitation year ending with or within the calendar year for which the secretary of the treasury makes the adjustment.

H. For the purposes of the limitations prescribed by this section, all member and employer contributions made to ASRS to provide a member benefits pursuant to section 38-771 or 38-771.01 and all member contributions that are not treated as picked up by the employer under section 414(h)(2) of the internal revenue code shall be treated as made to a separate defined contribution plan.

I. On termination or partial termination of ASRS, the accrued benefit of each member is, as of the date of termination or partial termination, fully vested and nonforfeitable to the extent then funded.

J. If ASRS terminates, the benefit of any highly compensated employee as defined in section 414(q) of the internal revenue code and any highly compensated former employee is limited to a benefit that is nondiscriminatory under section 401(a)(4) of the internal revenue code and as follows:

1. Benefits distributed to any of the twenty-five active and former highly compensated employees with the greatest compensation in the current or any prior fiscal year are restricted so that the annual payments are no greater than an amount equal to the payment that would be made on behalf of the member under a straight life annuity that is the actuarial equivalent of the sum of the member's accrued benefit, the member's other benefits under ASRS, excluding a social security supplement as defined in 26 Code of Federal Regulations section 1.411(a)-7(C)(4)(ii), and the amount the member is entitled to receive under a social security supplement.

2. Paragraph 1 of this subsection does not apply if either:

(a) After payment of the benefit to a member described in paragraph 1 of this subsection, the value of ASRS assets equals or exceeds one hundred ten per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS.

(b) The value of the benefits for a member described in paragraph 1 of this subsection is less than one per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS before distribution.

(c) The value of the benefits payable by ASRS to a member described in paragraph 1 of this subsection does not exceed three thousand five hundred dollars.

K. For the purposes of subsection J of this section, "benefit" includes loans in excess of the amount prescribed in section 72(p)(2)(A) of the internal revenue code, any periodic income, any withdrawal values payable to a living member and any death benefits not provided for by insurance on the member's life.

L. On retirement of a member who was a retired member, who resumed active membership and who subsequently retires, the limitations of this section in effect on the member's subsequent retirement apply to the member's retirement benefit payable as recomputed pursuant to section 38-766. In

addition, the sum of the present value of the member's recomputed retirement benefits plus the present value of the benefits the member received during the member's prior retirement shall not exceed the present value of the limitations in effect on the member's subsequent retirement. The limitations prescribed in this subsection shall not reduce a member's retirement benefit below the retirement benefit the member was receiving before the member resumed active membership. For the purposes of determining present value under this subsection, the board shall use the actuarial equivalent assumptions provided in section 38-711, paragraph 2.

M. For the purposes of this section:

1. The following adjustments shall be made to the definition of compensation prescribed in subsection O of this section:

(a) Compensation shall be adjusted for the types of compensation that are prescribed in this paragraph and that are paid after a member's severance from employment with an employer. Amounts described in subdivisions (b), (c) and (d) of this paragraph may be included only as compensation to the extent the amounts are paid by the later of two and one-half months after severance from employment or by the end of the limitation year that includes the date of the severance from employment. Any other payment of compensation paid after severance of employment that is not described in the types of compensation prescribed in this paragraph is not considered compensation for purposes of this section, even if payment is made within the time period prescribed in this subdivision.

(b) Compensation shall include regular pay after severance of employment if the payment is regular compensation for services performed during the member's regular working hours or compensation for services performed outside the member's regular working hours, such as overtime or shift differential, commission, bonus or other similar payments, and the payment would have been paid to the member before a severance from employment if the member had continued in employment with the employer.

(c) Leave cash-outs shall be included in compensation if those amounts would have been included in compensation if they were paid before the member's severance from employment and the amounts are payment for unused accrued bona fide sick, vacation or other leave, but only if the member would have been able to use the leave if employment had continued.

(d) Deferred compensation shall be included in compensation if the compensation would have been included in compensation if it had been paid before the member's severance from employment and the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid at the same time if the member had continued in employment with the employer and only to the extent that the payment is includable in the member's gross income.

(e) Compensation does include payments to an individual who does not currently perform services for an employer by reason of qualified military service as defined in section 414(u)(5) of the internal revenue code to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(f) Compensation does not include compensation paid to a member who is a person with a permanent and total disability as defined in section 22(e)(3) of the internal revenue code.

(g) Compensation shall include amounts that are includable in the gross income of a member as required by section 409A or section 457(f)(1)(A) of the internal revenue code or because the amounts are constructively received by the member.

2. Compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

3. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate a member for lost wages are compensation for the limitation year to which the back pay relates, but only to the extent the payments represent wages and compensation that would otherwise be included in compensation under this section.

N. The definition of limitation year prescribed in subsection O of this section may only be changed by an amendment to subsection O, except that if ASRS is terminated effective as of a date other than the last day of the limitation year, the termination shall be treated as if this section has been amended to change the definition of limitation year.

O. For the purposes of this section:

1. Annual additions shall be determined as provided in section 38-747, subsection O.

2. "Annual benefit" means a benefit, including any portion of a member's retirement benefit payable to an alternate payee under a qualified domestic relations order that satisfies the requirements prescribed in section 414(p)(1)(A)(i) of the internal revenue code and section 38-773, payable annually in the form of a straight life annuity, disregarding the portion of a joint and survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code, with no ancillary or incidental benefits or rollover contributions and excluding any portion of the benefit derived from member contributions or other contributions that are treated as a separate defined contribution plan under section 415 of the internal revenue code but including any of those contributions that are picked up by the employer under section 414(h) of the internal revenue code, or that otherwise are not treated as a separate defined contribution plan. If the benefit is payable in another form, the determination as to whether the limitation described in subsection A of this section has been satisfied shall be made by the board by adjusting the benefit so that it is actuarially equivalent to the annual benefit described in this paragraph in accordance with the regulations promulgated by the United States secretary of the treasury. In addition, for determining the annual benefit attributable to member contributions, the factors described in section 411(c)(2)(B) of the internal revenue code and the regulations promulgated under the internal revenue code shall be used by the board regardless of whether section 411 of the internal revenue code applies to ASRS. The factors described in section 411(c)(2)(B) of the internal revenue code shall be those factors described under section 417(e)(3) of the internal revenue code and determined on the basis of the 417(e) mortality table and an interest rate as prescribed in subsection C, paragraph 5 of this section.

3. "Applicable mortality table" means the mortality table described in internal revenue service revenue ruling 2001-62.

4. "Compensation" means the member's earned income, wages, salaries, fees for professional service and other amounts received for personal services actually rendered in the course of employment with the employer and includes amounts described in sections 104(a)(3) and 105(a) of the internal revenue code, but only to the extent that these amounts are includable in the gross income of the member. Compensation also includes any elective deferral as defined in section 402(g)(3) of the internal revenue code and any amount that is contributed or deferred by an

employer at the election of a member and that is not includable in the gross income of the member by reason of section 125, 132(f)(4) or 457 of the internal revenue code. Compensation does not mean:

(a) Employer contributions to a plan of deferred compensation to the extent the contributions are not included in the gross income of the employee for the taxable year in which contributed and any distributions from a plan of deferred compensation, regardless of whether the amounts are includable in gross income of the employee when distributed, except that any amount received by a member pursuant to an unfunded nonqualified plan may be considered as compensation for the purposes of this section in the year the amounts are includable in the gross income of the member under the internal revenue code.

(b) Other amounts that receive special tax benefits, such as premiums for group term life insurance, but only to the extent that the premiums are not includable in the gross income of the employee, qualified transportation fringe benefits as defined in section 132 of the internal revenue code and, effective for plan years beginning from and after December 31, 1987, any amounts under section 125 of the internal revenue code that are not available to a member in cash in lieu of group health coverage because the member is unable to certify that the member has other health coverage.

5. "Defined benefit dollar limitation" means the dollar limitation determined under subsection A of this section.

6. "Defined benefit plan" has the same meaning prescribed in section 414(j) of the internal revenue code.

7. "Defined contribution plan" has the same meaning prescribed in section 414(i) of the internal revenue code.

8. "Limitation year" and "years of service" mean the fiscal year.

### 38-770. [Eligible rollover distribution: definitions](#)

A. Notwithstanding any other provision of this article that would limit a distributee's election under this section, a distributee may elect, at any time and in the manner prescribed by the board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

B. An eligible rollover distribution may commence less than thirty days after the notice required under section 402(f) of the internal revenue code is given to the distributee, provided that both:

1. ASRS clearly informs the distributee that the distributee has a right to a period of at least thirty days after receiving the notice to consider the decision of whether or not to elect a direct rollover.

2. The distributee, after receiving the notice, affirmatively elects a distribution.

C. In addition to the other elections allowed in this section, effective for distributions made from and after December 31, 2006, a designated beneficiary of a member who is not the member's surviving spouse may elect, at any time and in the manner prescribed by ASRS, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan described in subsection D,

paragraph 3, subdivisions (a) and (b) of this section. For the purposes of this subsection, "designated beneficiary" has the same meaning prescribed in section 38-775.

D. For the purposes of this section:

1. "Direct rollover" means a payment by ASRS to the eligible retirement plan specified by the distributee.

2. "Distributee" means a member, a member's surviving spouse or a member's spouse or former spouse who is the alternate payee under an acceptable domestic relations order as defined in section 38-773.

3. "Eligible retirement plan" means any of the following that accepts a distributee's eligible rollover distribution:

(a) An individual retirement account described in section 408(a) of the internal revenue code.

(b) An individual retirement annuity described in section 408(b) of the internal revenue code.

(c) An annuity plan described in section 403(a) of the internal revenue code.

(d) A qualified trust described in section 401(a) of the internal revenue code.

(e) An annuity contract described in section 403(b) of the internal revenue code.

(f) An eligible deferred compensation plan described in section 457(b) of the internal revenue code that is maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state and that agrees to separately account for amounts transferred into the eligible deferred compensation plan from ASRS.

(g) Beginning January 1, 2008, a Roth individual retirement account described in section 408A of the internal revenue code.

(h) For distributions made after December 18, 2015, a simple retirement account that satisfies the requirements of section 408(p) of the internal revenue code.

4. "Eligible rollover distribution" means distribution of all or any portion of the balance to the credit of the distributee but does not include any of the following:

(a) Any distribution that is one of a series of substantially equal periodic payments made not less frequently than annually for the life or life expectancy of the member or the joint lives or joint life expectancies of the member and the member's designated beneficiary or for a specified period of ten years or more.

(b) Any distribution to the extent the distribution is required under section 401(a)(9) of the internal revenue code.

(c) Except as provided in this paragraph, the portion of any distribution that is not includable in gross income. A distribution does not fail to be an eligible rollover distribution merely because the portion

consists of after-tax employee contributions that are not includable in gross income if the portion is paid only to an individual retirement account or annuity described in section 408(a) or 408(b) of the internal revenue code, to a qualified plan described in section 401(a) of the internal revenue code or an annuity contract described in section 403(b) of the internal revenue code that agrees to separately account for amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income.

(d) Any distribution that is made due to hardship of the member.

**38-771. Benefit options for transferred defined contribution program members: definitions**

A. On or before December 31, 1995 a nonretired ASRS member who was a member of the defined contribution program administered by ASRS and who was transferred to the defined benefit program established by this article on July 1, 1981 shall elect to receive either retirement benefits provided under this section or retirement benefits as otherwise provided by this article. An election under this subsection is irrevocable. A member who fails to make an election under this subsection is deemed to have elected to receive retirement benefits provided under this section.

B. A member who elects to receive retirement benefits provided under this section is eligible only for those benefits.

C. If a member elects to receive retirement benefits provided under this section, the member shall elect to receive retirement benefits based on either of the following:

1. The contributions paid by the member and member's employer, plus all earnings attributed to the member's retirement account, through the member's retirement date.
2. Except as provided in subsections E and F of this section, contributions paid by the member and member's employer at the contribution rate in effect before July 1, 1975 and an employee and employer contribution rate of seven per cent calculated from July 1, 1975, plus all earnings attributed to the member's retirement account, through the member's retirement date.

D. Notwithstanding sections 38-736 and 38-737, members who elect to receive retirement benefits provided under this section and their employers shall each make contributions at a rate of seven per cent of the member's compensation and, beginning on July 1, 1998, employers shall make contributions to ASRS on behalf of their respective members who have elected to receive retirement benefits provided under this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for those retired members and their dependents as provided under section 38-783. Member contributions pursuant to this subsection shall be salary reduction contributions pursuant to section 38-747, subsections C and D.

E. Subject to subsection F of this section, if a member desires to receive retirement benefits based on subsection C, paragraph 2 of this section, the member shall make the election on or before June 30, 1999 and during the member's active employment. The election shall be made in accordance with section 38-747, subsections C, D and H. If a member elects to receive retirement benefits based on subsection C, paragraph 2 of this section, both the member and the member's employer shall pay to ASRS the difference between the contributions made and seven per cent of the member's gross compensation from July 1, 1984 through December 31, 1995. If a member elects to have the member's employer make payments for all or a portion of the contributions pursuant to section 38-747, subsection D, the member's employer shall make the contributions as required by

section 38-747, subsection D. If a member elects to make contributions pursuant to section 38-747, subsection H, both the member and the member's employer shall pay to ASRS the portion of the difference between the total required contributions and that portion of the required contributions that the member has elected to have the member's employer pay pursuant to section 38-747, subsection D. The member's employer shall make the employer's contributions attributable to a member's period of employment before July 1, 1999 in a single lump sum payment at the time and computed in the manner prescribed in section 38-771.01, subsections G and H. If a member elects pursuant to subsection C, paragraph 2 of this section to have contributions made or to make contributions pursuant to section 38-747, subsection D or H for less than the full amount permitted by this subsection the member's benefits shall be computed only with reference to the contributions actually made. A member shall make an election pursuant to this section with respect to contributions to be made by the member before July 1, 1999. This election shall remain in full force and effect on and after July 1, 1999 and may be modified or revoked by the member only if the modification or revocation is specifically authorized in section 38-747. Section 38-771.01 governs any elections made by a member with respect to contributions to be made by the member to ASRS on or after July 1, 1999.

F. Contributions made to ASRS by a member and the member's employer pursuant to subsections D and E of this section shall not exceed, in any one limitation year, the limits of section 38-747, subsection E. If for any reason, the member and employer contributions to ASRS made pursuant to subsections D and E of this section would, at the time such contributions are due, taking into account other employer and member contributions due to ASRS for the limitation year, exceed the limits of section 38-747, the amount to be paid by the member and the member's employer under subsection E of this section shall be proportionately reduced and such reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days of the beginning of such limitation year, unless the limits of section 38-747 would again be exceeded, in which event this procedure will be repeated until all such contributions have been made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires prior to making all contributions under subsections D and E of this section because of the limitations of section 38-747, the member's benefits under this section shall be calculated only with reference to the contributions actually made. For purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

G. A member who elects to receive retirement benefits provided under this section is subject to the provisions of section 38-771.01, subsection K that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article.

H. ASRS shall handle all retirement accounts of members who elect retirement benefits provided under this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits provided under this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

I. The election of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

J. For purposes of this section:

1. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

2. "Retirement account" means the combined member and employer contributions with interest or earnings on the contributions including any allocations credited as employer contributions.

38-771.01. Alternative benefits for transferred defined contribution program members; definitions

A. A retired or nonretired ASRS member who was a member of the defined contribution program administered by ASRS, who was transferred to the defined benefit program established by this article on July 1, 1981, who is determined by ASRS to qualify under paragraph 1 of this subsection and who is not excluded under paragraph 2 of this subsection shall receive defined contribution benefits pursuant to this section, or, if greater, defined benefit retirement benefits pursuant to this article. A retired or nonretired ASRS member qualifies or is excluded under this section based on the following criteria:

1. A member is entitled to receive benefits under this section only if the member satisfies at least one of the following requirements:

(a) Is not retired as of July 1, 1999 even though the member may have previously elected to receive benefits under the defined benefit program established by this article, may have transferred employment between or among employers on or after July 1, 1981 or may have terminated employment on or after July 1, 1981 and after that termination date returned to employment with an employer.

(b) Retired on or after July 1, 1984 and elected to receive benefits under the defined benefit program established by this article.

(c) Retired on or after July 1, 1984 and is receiving benefits under the defined contribution program administered by ASRS.

2. Even if the member otherwise qualifies under paragraph 1 of this subsection, a member is not entitled to receive benefits under this section if any of the following applies to the member:

(a) The member retired before July 1, 1984.

(b) The member is entitled to receive benefits pursuant to section 38-771 and has paid to ASRS pursuant to section 38-771 before July 1, 1999 the entire amount that is attributable to service performed on or after July 1, 1984 and that is equal to the contribution rate of seven per cent of compensation, the contribution has been matched by an equal contribution to ASRS by the member's employers and all applicable earnings and supplemental credits have been credited for the member's account.

(c) The member withdrew the member's contributions from the defined contribution program administered by ASRS and, as of July 1, 1999, is not entitled to any benefit under the defined contribution program administered by ASRS.

(d) The member transferred the member's benefits under either the defined benefit program established by this article or the defined contribution program administered by ASRS to any other retirement system.

B. A beneficiary is entitled to receive benefits pursuant to this section only if the beneficiary satisfies the requirements of paragraph 1 of this subsection and is not excluded under paragraph 2 of this subsection based on the following criteria:

1. The beneficiary is a beneficiary of a retired or nonretired member who qualifies for benefits under subsection A, paragraph 1 of this section, is not excluded under subsection A, paragraph 2 of this section and as of July 1, 1999 either:

(a) Is receiving a monthly benefit from the defined benefit program established by this article or the defined contribution program administered by ASRS.

(b) Is living, is a survivor of a deceased retired or nonretired member and elected to receive a lump sum distribution of the survivor benefit that was payable on the death of the member.

2. Even if the beneficiary satisfies the requirements of paragraph 1 of this subsection, a beneficiary is not entitled to receive benefits under this section if the beneficiary is a beneficiary of a deceased retired member who elected a form of benefit under either the defined benefit program established by this article or the defined contribution program administered by ASRS that did not provide for survivor benefits after the death of the retired member.

C. A member or a deceased member's beneficiary who receives benefits pursuant to this section shall receive benefits based on the sum of the following:

1. Contributions paid by the member and the member's employer at the contribution rates in effect before July 1, 1984, together with all applicable earnings and supplemental credits on those contributions.

2. Contributions paid by the member's employer at the contribution rates in effect beginning on July 1, 1984 through the earlier of June 30, 1999 or the member's retirement or death, together with all applicable earnings and supplemental credits on those contributions computed through the earlier of June 30, 1999 or the member's retirement or death.

3. The excess of employer contributions computed at the rate of seven per cent of compensation beginning on July 1, 1984 through June 30, 1999 over the actual contributions paid by the member's employer as described in paragraph 2 of this subsection, together with all earnings and supplemental credits that would have been earned on those excess contributions computed from the date the contributions would have been paid to ASRS.

4. Contributions paid by the member at the contribution rate in effect on and after July 1, 1984, together with all earnings on those contributions.

5. With respect to member contributions that were not paid to ASRS before July 1, 1999 pursuant to section 38-771, subsection C, paragraph 2, forty per cent of the earnings that would have been credited on those contributions through the earlier of June 30, 1999 or the member's retirement or death as if those member contributions had been paid.

6. Contributions paid by the member to ASRS before July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with all earnings on those contributions.

7. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with earnings on those contributions.

8. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to this section, together with earnings on those contributions.

9. Contributions paid by the member's employer to ASRS on or after July 1, 1999 pursuant to this section, together with all applicable earnings and supplemental credits on those contributions.

D. Effective on July 1, 1999, ASRS shall adjust the retirement account reserves under the defined contribution program administered by ASRS for retired members and the beneficiaries of deceased retired members entitled to benefits pursuant to this section to give effect to additional contributions, earnings and supplemental credits for those retired members prescribed in subsection C, paragraphs 1 through 6 of this section for the periods of the members' employment before July 1, 1999 and to give effect to the recomputation, adjustment and payment of benefits pursuant to subsection G of this section. After this recomputation, adjustment and payment, ASRS shall credit and charge these retirement account reserves with the amounts prescribed under the defined contribution program administered by ASRS based on the adjustments prescribed in this section.

E. Effective on July 1, 1999, ASRS shall adjust each nonretired member's accounts under the defined contribution program administered by ASRS to equal the sum of the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section with respect to periods of a member's employment before July 1, 1999. After the adjustment, these accounts shall accrue applicable interest and supplemental credits based on the entire amounts credited to the accounts.

F. For periods of a nonretired member's employment on or after July 1, 1999, a nonretired member who is entitled to receive benefits pursuant to this section and the nonretired member's employer shall each make contributions to ASRS at the rates established pursuant to sections 38-736 and 38-737, except as follows:

1. If a nonretired member made an election pursuant to section 38-771, subsection C, paragraph 2 and section 38-747, subsections C and D before July 1, 1999, the member's employer shall continue to make pickup contributions to ASRS on behalf of the member pursuant to the member's election, except that with respect to employer contributions that are required pursuant to section 38-771, subsection E for periods of a member's employment before July 1, 1999, the employer shall make a lump sum payment to ASRS as computed pursuant to subsection G of this section and required to be paid to ASRS pursuant to subsection H of this section.

2. If a nonretired member elected or was deemed to have elected benefits pursuant to section 38-771 before December 31, 1995, for periods of a member's employment from and after the election or deemed election the nonretired member's employer and the member shall each continue to pay to ASRS an amount equal to seven per cent of the member's compensation in lieu of the rates established pursuant to sections 38-736 and 38-737.

3. A nonretired member who is entitled to receive benefits pursuant to this section and who never elected to receive benefits pursuant to section 38-771 may elect pursuant to section 38-747, subsections C and D to make contributions at the rate of seven per cent of the member's compensation for periods of a member's employment on or after July 1, 1999. If a member makes an election pursuant to this paragraph, the election is irrevocable as provided in section 38-747,

subsection D and the member and the member's employer shall each make contributions at a rate of seven per cent of the member's compensation beginning on the effective date of the election.

4. A nonretired member who is entitled to receive benefits pursuant to this section may elect pursuant to section 38-747, subsections C, D and H to make contributions with respect to member contributions that were not made to ASRS but that could have been made pursuant to section 38-771, subsection C, paragraph 2 for periods of employment before July 1, 1999 other than member contributions for which an irrevocable election pursuant to section 38-747, subsections C and D was in effect before July 1, 1999.

5. In addition to any other employer contributions required pursuant to this section, a nonretired member's employer shall make contributions to ASRS on behalf of the nonretired member who will receive retirement benefits pursuant to this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for the nonretired member and the nonretired member's dependents as provided under section 38-783.

6. Notwithstanding any other provision of this article, an election permitted pursuant to this section shall not revoke, amend or alter any irrevocable election made by a member before July 1, 1999 pursuant to sections 38-747 and 38-771.

G. Effective on July 1, 1999, ASRS shall recompute the monthly and annual benefits for retired members entitled to receive benefits pursuant to this section and the monthly or lump sum survivor's benefits payable to beneficiaries entitled to receive benefits pursuant to this section. The recomputation of benefits shall be as if the member's retirement account or retirement reserve account on the date of retirement or death had been computed based on the amounts that would have been credited to the account as of that date based on the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section. In addition and after recomputing benefits described in this subsection, with respect to members who retired on or after July 1, 1984, ASRS shall recompute the annual payments that would have been made to the member or beneficiary of a deceased member entitled to receive benefits under this section in excess of the annual payments actually made. The recomputation shall be calculated and paid as follows:

1. The recomputation shall be calculated and paid based on the member's and, if applicable, the member's beneficiary's age, the benefit option selected at the date of the initial benefit payments and the actuarial assumptions used by ASRS at the time the initial benefit payments were computed.

2. Before July 1, 2000, ASRS shall pay to the retired member or beneficiary in a lump sum the difference between the recomputed amount and the actual distributions paid to the member or beneficiary through July 1, 1999, together with interest at the rate of eight per cent a year, compounded monthly, computed from the date each excess payment should have been paid through the date of payment to the retired member or beneficiary.

3. If the retired member is living, ASRS shall pay the lump sum payment to the member. If the member is deceased and is survived by a beneficiary who is then living and receiving a monthly benefit on account of the deceased member, ASRS shall pay the lump sum payment to the beneficiary. The payment to the beneficiary shall include the recomputed amount that is payable pursuant to this section and that would have been paid to the member through the date of the member's death plus the recomputed amount that is payable pursuant to this section and that would have been payable to the beneficiary from the member's date of death. Section 38-770 applies to a payment to a member or the member's beneficiary who is the surviving spouse of the member, if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

4. With respect to a beneficiary who is a survivor of a deceased nonretired member who would have been entitled to benefits under this section and who elected a lump sum distribution of the survivor benefit that was payable on the death of the nonretired member, ASRS shall pay the recomputed amount in a lump sum to the beneficiary. If the beneficiary is the surviving spouse of the member, section 38-770 applies to the payment.

5. Effective on July 1, 1999, ASRS shall increase the member's or beneficiary's monthly and annual benefit to the recomputed amount. After that adjustment, ASRS shall adjust the member's or beneficiary's annual benefit as otherwise provided under the defined contribution program administered by ASRS.

H. Before July 1, 2002, the employer of each nonretired or retired member or deceased member who has a beneficiary entitled to adjustments and payments pursuant to subsections E and G of this section for periods of a member's employment before July 1, 1999 shall pay to ASRS in one or more installments those amounts required by ASRS to make the recomputations and adjustments pursuant to this section. ASRS shall determine the amount to be paid by the employer to ASRS as of July 1, 1999, plus interest at the rate of eight per cent a year, compounded monthly, from July 1, 1999 through the date the payment is made by the employer to ASRS. Any payments by the employer shall first be applied to accrued and unpaid interest and then to the amount to be paid by the employer to ASRS. ASRS shall allocate the payment to the assets maintained under the defined contribution program administered by ASRS. When determining the amounts required to be paid by employers for the recomputations and adjustments pursuant to this section, ASRS first shall transfer on July 1, 1999 from the assets maintained by ASRS under the defined benefit program established by this article to the assets maintained by ASRS under the defined contribution program administered by ASRS an amount equal to the sum of the defined benefit program equity balances of the retired and nonretired members or their beneficiaries whose benefits are transferred from the defined benefit program to the defined contribution program pursuant to this section, except that the amount transferred for any member or beneficiary shall not be more than the amount required to fund the recomputations and adjustments required by this section for the member or beneficiary. The defined benefit program equity balance for a member or beneficiary of a deceased member shall equal the sum of the member's employee and employer account balances on the earlier of June 30, 1999 or the member's retirement or death, less the monthly annuity payments to a retired member or beneficiary, plus the earnings on the average balance of that amount for a plan year.

I. If a member retired before July 1, 1999, elected to receive benefits pursuant to section 38-771, subsection C, paragraph 2 and did not make all contributions pursuant to section 38-771, subsection E because of the limitations prescribed in section 38-747, subsection E, the member has the option of receiving the employer contributions prescribed in subsection C, paragraphs 3 and 5 of this section in a lump sum payment. If the retired member elects to receive a lump sum payment, ASRS shall pay the amount on or before July 1, 2000 and the amount shall be deducted from the member's account when computing the annuity benefits to which the member is otherwise entitled pursuant to this section. In no case shall the payment under this subsection duplicate the payment under subsection G of this section. Section 38-770 applies to a payment to a member under this subsection if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

J. Contributions made to ASRS by a member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall not exceed, in any one limitation year, the limits prescribed in section 38-747, subsection E. If for any reason the member and applicable employer contributions made pursuant to subsection F of this section would at the time the contributions are due, taking into account other annual additions due to ASRS for the limitation year, exceed the limits prescribed in section 38-747,

subsection E, the amount to be paid by the member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall be proportionately reduced and the reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days after the beginning of that limitation year, unless the limits prescribed in section 38-747, subsection E would again be exceeded. If the limits are exceeded again, the procedure prescribed in this subsection shall be repeated until all of the contributions are made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires before making all contributions pursuant to this section because of the limitations prescribed in section 38-747, subsection E, the member's benefits pursuant to this section shall be computed only with reference to the contributions actually made. For the purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

K. Unless otherwise provided in this section, a member who receives retirement benefits pursuant to this section and section 38-771 is subject to conditions that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article. Those conditions include the following:

1. A member who attains sixty-five years of age may retire and, on application, shall receive a life annuity derived from the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity is payable in equal monthly installments. The amount of the installments is based on the age of the member at the date of commencement of retirement and is determined by the interest and life expectancy tables applicable at the date of the commencement of retirement.
2. If a retired member who is receiving retirement benefits pursuant to this section dies before receipt of annuity payments in an amount equal to the member's retirement account balance immediately before retirement, ASRS shall pay the member's designated beneficiary or estate in a lump sum the difference between the retirement account balance and the total amount of annuity payments received.
3. A member who attains sixty-five years of age with at least five years of creditable service may retire and, on application, may elect to receive in lieu of the annuity payments from the member's prior service, if any, together with a life annuity derived from the member's retirement account as provided in paragraph 1 of this subsection, the actuarial equivalent of those retirement benefits under one of the options established by the board.
4. A member who attains sixty years of age with at least five years of creditable service may retire and, on application, may receive a life annuity derived from the actuarial equivalent of the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity shall be determined and paid in the manner set forth in paragraph 1 of this subsection.
5. In lieu of the retirement benefits pursuant to paragraph 4 of this subsection, on application, a member may elect to receive the actuarial equivalent of those retirement benefits under one of the options established by the board.
6. If a retired member who is receiving retirement benefits pursuant to this section is engaged to work by an employer for twenty or more weeks in a fiscal year and twenty hours or more a week, the member's retirement benefit payments pursuant to this section are suspended until the member terminates employment. On return to employment, the member shall accrue benefits pursuant to this

section, unless the member elects to be covered by the defined benefit program established by this article. If a formerly retired member elects to be covered by the defined benefit program established by this article, the formerly retired member shall be an active member in the defined benefit program with respect to all service performed after the member's return to work and shall not accrue additional benefits pursuant to this section. Notwithstanding the other provisions of this paragraph, if a retired member begins or returns to employment as an elected official or to any other type of service or employment that does not require the retired member to begin active membership in the defined contribution program administered by ASRS or the defined benefit program established by this article, the payment of retirement benefits pursuant to this section shall not be terminated, withheld or interrupted because of beginning or returning to the service or employment or holding the elected office, unless the formerly retired member actually elects to recommence active participation in the defined benefit program established by this article or pursuant to this section.

7. On termination of employment of a retired member previously receiving retirement benefits pursuant to this section, ASRS shall reinstate the member's retirement benefits pursuant to this section and, on reinstatement of retirement benefits, the benefit shall be recomputed on the basis of the member's attained age and shall be adjusted for retirement benefits previously received and additional contributions, interest and supplemental credits accrued during the period of employment. On this reinstatement of retirement benefits, if the member elected to be covered by the defined benefit program established by this article on the member's return to employment, the member is also entitled to receive retirement benefits pursuant to the defined benefit program established by this article for the credited service earned by the member after the member's active membership in the defined benefit program established by this article began.

L. ASRS shall handle all retirement accounts of members who elect retirement benefits provided pursuant to this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits pursuant to this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

M. The receipt of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

N. The board may administer and interpret this section in order to prevent any duplication of benefits provided by ASRS and the defined contribution program administered by ASRS and to provide all eligible members and beneficiaries with the benefits they are entitled to under the laws of this state.

O. For purposes of this section:

1. "Beneficiary" means the individual designated by the member in writing on forms approved by ASRS to receive benefits pursuant to this article after the death of the member.

2. "Creditable service" means service after April 8, 1953 in a position not subject to the defined contribution program administered by ASRS, prior service and membership service.

3. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

4. "Pension" means equal monthly installments that are derived from a member's prior service credits and that are payable during the member's lifetime after retirement.
5. "Prior service" means service for this state or a political subdivision before membership in the defined contribution program administered by ASRS.
6. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a pension on retirement.
7. "Retirement account" means the combined member and employer contributions with applicable interest and supplemental credits on the contributions as computed pursuant to subsection C of this section.
8. "Service" means any compensated employment by the state or a political subdivision and includes periods of nonpaid leave, including military leave, provided employment has not been terminated at the commencement of the leave period and employment is state service for retirement purposes or service for any political subdivision establishing a defined contribution program administered by ASRS.

**38-772. Prior service under defined contribution program administered by ASRS; definitions**

- A. Amounts required of employers as provided in section 38-737, subsections A and B are in addition to any payments required of employers on behalf of prior service credits under the defined contribution program administered by ASRS arising from members of ASRS. Payments made to ASRS on behalf of members with those prior service credits shall reduce by that amount the payments required to be paid to the defined contribution program administered by ASRS for those prior service credits.
- B. Notwithstanding section 38-757, subsection B, any prior service credits to which the member was entitled under the defined contribution program administered by ASRS shall be added to the product of section 38-757, subsection B, paragraphs 1 and 2.
- C. For the purposes of this section:

1. "Prior service" means service for this state or a political subdivision of this state before membership in the defined contribution program administered by ASRS.
2. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a retirement benefit.

**38-773. Benefit payments to alternate payee under acceptable domestic relations order; termination of marriage; revocation of beneficiary designation; definitions**

- A. The board shall review any domestic relations order to which a member is a party and that is submitted to the board to determine if the domestic relations order is acceptable under this section. After a determination that a domestic relations order is acceptable under this section, the board shall notify the member and the named alternate payee of the board's acceptance of the domestic relations order, and ASRS shall pay benefits in accordance with the applicable requirements of the order.

B. An acceptable domestic relations order shall:

1. Not require the board to provide any type, form or time of payment of severance, survivor or retirement benefits or any severance, survivor or retirement benefit option that is not provided under this article.
2. Value the member's benefit on the earliest date of service of the petition for annulment, dissolution of marriage or legal separation.

C. An acceptable domestic relations order shall specify all of the following:

1. The name and last known mailing address of the member.
2. The name and last known mailing address of each alternate payee who is covered by the order.
3. The method of determining the amount of the member's severance, survivor or retirement benefits to be paid by ASRS to each alternate payee covered by the order.
4. The number of payments or period to which the order applies.

D. Except as provided by the express terms of a domestic relations order, the divorce or annulment of a member's marriage revokes any revocable:

1. Disposition or appointment of benefits made by a divorced member to that member's former spouse or to a relative of the divorced member's former spouse in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse.
2. Provision in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse conferring any power or right on the divorced member's former spouse or on a relative of the divorced member's former spouse.

E. ASRS shall give effect to provisions of an instrument executed by a member before the divorce or annulment of the member's marriage to a former spouse as follows:

1. In the case of disposition or appointment of benefits, as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section.
2. In the case of a revoked power or right, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

F. Provisions of an instrument revoked solely as provided by this section are revived by the divorced member's remarriage to the former spouse or by a nullification of the member's divorce or annulment.

G. If an alternate payee predeceases the member, amounts payable to the alternate payee cease on the death of the alternate payee. ASRS shall cause the amount formerly payable to the alternate payee to revert to the member.

H. For the purposes of this section:

1. "Domestic relations order" means any judgment, decree, order or approval of a property settlement agreement entered in a court of competent jurisdiction that:

(a) Relates to marital property rights of a spouse or former spouse.

(b) Creates or recognizes in the spouse or former spouse the existence of an alternate payee's right to severance, survivor or retirement benefits.

(c) Assigns the spouse or former spouse as alternate payee the right to receive all or part of the severance, survivor or retirement benefits payable to the member.

2. "Relative of the divorced member's former spouse" means a person who is related to the divorced member's former spouse by blood, adoption or affinity and who, after the divorce or annulment, is not related to the divorced member by blood, adoption or affinity.

#### 38-774. Excess benefit arrangement

A. A separate unfunded governmental excess benefit arrangement is established outside of and apart from the trust fund established by section 38-712 to pay members benefits that are otherwise payable by ASRS and that exceed the limitations on benefits imposed by section 415 of the internal revenue code. The board shall administer this excess benefit arrangement as a qualified governmental excess benefit arrangement pursuant to section 415(m) of the internal revenue code.

B. The board may adopt rules to implement this section subject to the following:

1. Benefits under this section are subject to section 38-773 and section 38-791, subsections D and F and are exempt from execution to the same extent as provided in section 38-792.

2. Contributions to this arrangement are not held in trust and shall not be commingled with other monies of ASRS.

C. A member is entitled to a monthly benefit under this section in an amount equal to the amount that the member's benefit that is payable by ASRS has been reduced by the limitation on benefits imposed by section 38-769 and section 415 of the internal revenue code. The benefit that is payable by this arrangement shall be paid at such time or times and in such form as the benefit under ASRS would be paid.

D. The benefit that is payable under this section shall be paid with employer contributions that would otherwise be made to ASRS under section 38-737. In lieu of the employer contributions being paid to the trust fund established by section 38-712, an amount determined by ASRS as necessary to pay benefits under this section shall be paid on a monthly basis to a separate account established by the board for this arrangement and may include amounts needed to pay reasonable and necessary expenses of this arrangement. The director may invest the monies in this account in suitable short-term investments between receipt of the monies and disbursement of the monies. The amount shall be paid to the account at least fifteen days before a disbursement is to be made under this section.

E. A member shall not directly or indirectly elect to defer compensation to purchase benefits provided under this section.

F. This section shall not be construed as requiring an employer or ASRS to purchase any investment or any contract to secure any obligations under this section. If an employer or ASRS purchases an investment or contract that the employer or ASRS earmarks to pay benefits under this section, title to and beneficial ownership of the investment or contract remain at all times in the employer or ASRS, and the member and the member's beneficiaries, if any, do not have any proprietary interest in any specific assets of the employer or ASRS. Any rights of the member and the member's beneficiaries, if any, to payment of any amounts under this section shall be those of general unsecured creditors of the employer or ASRS. This section and any action taken pursuant to this section by the employer or ASRS do not create and shall not be construed to create an irrevocable trust of any kind.

### 38-775. Required distributions: definitions

A. This section applies for purposes of determining required minimum distributions for calendar years beginning on and after January 1, 2006. In applying the requirements of this section, the following operational provisions govern:

1. Except as provided in the following sentence, the requirements of this section take precedence over any inconsistent provisions of this article and article 2.1 of this chapter. The rules of this section shall not restrict any form, calculation, adjustment or payment of benefit provided under this article in effect on April 17, 2002, if the form, calculation, adjustment or payment of benefit satisfied section 401(a)(9) of the internal revenue code based on a reasonable and good faith interpretation of that section.

2. All distributions required under this section shall be determined and made pursuant to section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury.

3. Notwithstanding this section, other than paragraph 2 of this subsection, distributions may be made under a designation made before January 1, 1984, pursuant to section 242(b)(2) of the tax equity and fiscal responsibility act of 1982 (P.L. 97-248) and the provisions of this article that relate to that section.

B. The member's entire interest shall be distributed, or begin to be distributed, to the member not later than the member's required beginning date.

C. If the member dies before distributions begin, the member's entire interest shall be distributed, or begin to be distributed, not later than as follows:

1. If the member's surviving spouse is the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained seventy-two years of age, if later.

2. If the member's surviving spouse is not the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the designated beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the member died.

3. For purposes of this subsection and subsection G of this section, distributions are considered to begin on the member's required beginning date or the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection. If annuity payments irrevocably commence to the member before the member's required beginning date, or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection, the date distributions are considered to begin is the date distributions actually commence.

4. If the member dies before distributions begin and there is a designated beneficiary, distribution to the designated beneficiary is not required to begin by the date prescribed in paragraph 1 or 2 of this subsection as long as the member's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth anniversary of the member's death. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to either the member or the surviving spouse begin, this paragraph applies as if the surviving spouse were the member.

D. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution, calendar year distributions shall be made pursuant to subsections E, F and G of this section. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions shall be made pursuant to the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury. Any part of the member's interest that is in the form of an individual account described in section 414(k) of the internal revenue code shall be distributed in a manner satisfying the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury that apply to individual accounts.

E. The following provisions govern the determination of the amount to be distributed each calendar year:

1. If the member's interest is paid in the form of annuity distributions, payments under the annuity shall satisfy the following requirements:

(a) The annuity distributions shall be paid in periodic payments made at intervals not longer than one year.

(b) The distribution period shall be over a life or lives or over a period certain not longer than the period described in subsection F or G of this section.

(c) Once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum allowed.

(d) Payments shall either be nonincreasing or increase only as follows:

(i) By an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the bureau of labor statistics.

(ii) To the extent of the reduction in the amount of the member's payments to provide for a survivor benefit on death, but only if the beneficiary whose life was being used to determine the distribution period described in subsection F of this section dies or is no longer the member's beneficiary

pursuant to a qualified domestic relations order within the meaning of section 414(p) of the internal revenue code.

(iii) To provide cash refunds of employee contributions on the member's death.

(iv) To pay increased benefits that result from a plan amendment.

2. The amount that must be distributed on or before the member's required beginning date or, if the member dies before distributions begin, the date distributions are required to begin under subsection C, paragraph 1 or 2 of this section, is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bimonthly, monthly, semiannually or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

3. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which the amount accrues.

F. The following provisions govern annuity distributions that commence during a member's lifetime:

1. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary, annuity payments to be made on or after the member's required beginning date to the designated beneficiary after the member's death must not at any time exceed the applicable percentage of the annuity payment for the period that would have been payable to the member using the table set forth in question and answer number 2 of section 1.401(a)(9)-6 of the regulations issued by the United States secretary of the treasury. If the form of distribution combines a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary and a period certain annuity, the requirement in the preceding sentence applies to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

2. Unless the member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the member's lifetime may not exceed the applicable distribution period for the member under the uniform lifetime table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the member reaches seventy years of age, the applicable distribution period for the member is the distribution period for seventy years of age under the uniform lifetime table set forth in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury plus the excess of seventy over the age of the member as of the member's birthday in the year that contains the annuity starting date. If the member's spouse is the member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the member's applicable distribution period, as determined under this paragraph, or the joint life and last survivor expectancy of the member and the member's spouse as determined under the joint and last survivor table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the calendar year that contains the annuity starting date.

G. The following provisions govern minimum distributions if a member dies before the date distributions begin:

1. Except as provided in subsection C, paragraph 4 of this section, if the member dies before the date distribution of the member's interest begins and there is a designated beneficiary, the member's entire interest shall be distributed, beginning not later than the time prescribed in subsection C, paragraph 1 or 2 of this section, over the life of the designated beneficiary or over a period certain not exceeding either of the following:

(a) Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the member's death.

(b) If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

2. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's entire interest shall be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

3. If the member dies before the date distribution of the member's interest begins, the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies before distributions to the surviving spouse begin, this subsection applies as if the surviving spouse were the member, except that the time by which distributions must begin shall be determined without regard to subsection C, paragraph 1 of this section.

H. If a member dies after the member's required beginning date and the member had not commenced distribution of retirement benefits, ASRS shall treat the member as having commenced distribution of retirement benefits on the member's required beginning date. Notwithstanding section 38-776, ASRS shall determine the member's retirement benefit as a straight annuity as of the date of the member's required beginning date. The member's estate is entitled to the member's benefit payments and any remaining member contributions on account shall be disbursed pursuant to section 38-763.

I. For the purposes of this section:

1. "Designated beneficiary" means the individual who is designated as the member's beneficiary to receive benefits under this article and is the designated beneficiary under section 401(a)(9) of the internal revenue code and question and answer number 1 of section 1.401(a)(9)-4 of the regulations issued by the United States secretary of the treasury.

2. "Distribution calendar year" means a calendar year for which a minimum distribution is required. For distributions beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year that contains the member's required beginning date. For distributions beginning after the member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to subsection C of this section.

3. "Life expectancy" means life expectancy as computed by use of the single life table in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury.

4. "Required beginning date" means the date payment of a member's benefits shall commence in accordance with section 401(a)(9)(C) of the internal revenue code.

### 38-776. Spousal waiver and consent

A. A member's current spouse may consent to one of the following requirements established in section 38-755 or 38-760 by signing and submitting an acknowledgement in a manner established by ASRS:

1. A change of beneficiary that provides the member's current spouse with less than fifty per cent of the member's account balance.

2. The member's retirement application that does not name the member's current spouse as a contingent annuitant of a joint and survivor annuity.

3. A change or rescission of the member's current spouse's contingent annuitant status.

B. If the member's current spouse is not capable of executing the acknowledgement because of an incapacitating mental or physical condition, a power of attorney or guardian may execute the acknowledgment on the current spouse's behalf.

C. The member may affirm in writing under penalty of perjury in a manner determined by ASRS that spousal consent is not required because of one of the following reasons:

1. The member is not married.

2. The member's current spouse has no identifiable community property interest in the member's benefits.

3. The member does not know, and has taken all reasonable steps to determine, the location of the member's current spouse.

4. The member has received notification from the board that a domestic relations order is acceptable pursuant to section 38-773 and that domestic relations order requires ASRS to pay benefits to an alternate payee that is contrary to the requirements of section 38-760.

5. Obtaining consent violates another law, an existing contract or a court order.

D. This section does not abrogate any community property laws of this state.

E. Payments or distributions made by ASRS in good faith reliance on the consent or waiver of a member's current spouse, the affirmations of a member contained in documents submitted to ASRS pursuant to this section or the member's indication to ASRS that the member is not married constitute a full and complete discharge and release of all liability of the board or ASRS, or both, respecting these payments or distributions.

F. If questions arise as to the distribution of a particular member's account, ASRS shall use reasonable judgment to distribute the account in a manner that is consistent with Arizona community property laws and interpretations of those laws.

38-781. Supplemental employee deferral plan; public employees; administration; immunity; definitions

A. One or more supplemental employee deferral plans may be established pursuant to this section to provide public employees an opportunity to save additional tax-deferred monies for retirement.

B. ASRS may establish, administer, manage and operate supplemental employee deferral plans for employers.

C. ASRS may:

1. Employ services it deems necessary, including legal services, for the operation and administration of the plans.

2. Administer the plans through contracts with multiple vendors.

3. Perform all acts, whether or not expressly authorized, that it deems necessary and proper for the operation and protection of the plans.

4. For the purposes of this section, enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3.

D. A supplemental employee deferral plan does not replace an employee's existing state defined benefit retirement plan.

E. If an employer, including this state, elects to participate in a supplemental employee deferral plan, any employee of the employer who meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan may participate in the supplemental employee deferral plan.

F. Notwithstanding subsection E of this section, on or after July 1, 2022, an employee of an employer who is not eligible to participate in a public retirement system established by article 3, 3.1, 4, 4.1 or 6 of this chapter may elect to participate in a supplemental employee deferral plan if the employee meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan.

G. Employee participation in a supplemental employee deferral plan requires the participant's employer to make salary reductions from the participant's compensation at no cost to the employee, ASRS or any vendor retained by ASRS and contribute such salary reductions to the plan. An employer may make employer contributions to the supplemental employee deferral plan if the plan allows. The employer shall submit any reports required by the plan. If the participant is an active member, any compensation deferred by an employee under a plan shall be included as regular compensation or compensation for the purpose of computing the retirement and pension benefits provided in this article earned by any employee participating in the plan.

H. Employee contributions and earnings on employee contributions are immediately vested. Employer contributions, if any, and the earnings on employer contributions shall vest according to the schedule established by the employer, if the employer completes and submits a schedule to ASRS. If the employer does not complete and submit a schedule to ASRS, employer contributions, if any, and the earnings on employer contributions shall vest according to the default schedule established by ASRS.

I. Notwithstanding any other law, this state and its officers and employees, the board and ASRS are immune from civil liability and are not subject to suit directly or by way of contribution for any act or omission resulting in any damage or injury arising out of the supplemental employee deferral plan.

J. A political subdivision or a political subdivision entity that is not participating in ASRS may elect to allow its employees to participate in a supplemental employee deferral plan that is overseen by ASRS pursuant to this section by entering into an agreement with ASRS. A political subdivision or political subdivision entity that elects to allow its employees to participate in a supplemental employee deferral plan pursuant to this subsection:

1. Is not an employer for the purposes of this article and its employees are not members for the purposes of this article.

2. May not provide any information indicating or implying that the political subdivision or political subdivision entity offers any ASRS benefits other than participation in a supplemental employee deferral plan pursuant to this subsection. A political subdivision or political subdivision entity that violates this paragraph may not elect to allow new employees to participate in a supplemental employee deferral plan pursuant to this subsection until the violation is corrected at the discretion of ASRS.

3. May elect to join ASRS pursuant to section 38-729.

K. For the purposes of this section:

1. "State" means this state, including any department, office, board, commission, agency or university, but does not mean any school district or community college district.

2. "Supplemental employee deferral plan" means a tax deferred annuity described in section 403(b) of the internal revenue code, including a custodial account described in 403(b)(7) of the internal revenue code, and an eligible deferred compensation plan described in section 457(b) of the internal revenue code. A supplemental employee deferral plan shall comply with all applicable provisions of the section of the internal revenue code under which such plan is adopted and maintained.

**38-782. Group health and accident coverage for retired public employees and elected officials and their dependents: definition**

A. The board shall establish group health and accident coverage for eligible retired members, surviving dependents and members with a disability and their dependents. The board may establish a self-insurance program for the purposes of this subsection if the board determines that self-insuring would be less expensive than and at least as effective as a fully insured plan, while considering the risks and costs. If the board establishes a self-insurance program, the board shall provide that the self-insurance program include all health coverage benefits that are required pursuant to title 20. ASRS shall establish a separate account for any self-insurance program established pursuant to this section in an amount determined appropriate by ASRS. ASRS shall not

use or divert any part of the corpus or income of the account for any purpose other than to provide benefits and to pay the administration costs for the self-insurance program pursuant to this section or the premium payments pursuant to section 38-783 unless the board determines that a self-insurance program should no longer be offered. If a self-insurance program is no longer offered, monies in the account shall be used to provide any remaining benefits and to pay administration costs for the self-insurance program pursuant to this section or the premium payments pursuant to section 38-783. If the liabilities of ASRS to provide the benefits under the self-insurance program and the premium payments pursuant to section 38-783 are satisfied, the board shall return any remaining monies in the account to the employer. If an insured retired member or member with a disability dies before the insured member's dependent beneficiary or an insured surviving dependent, the dependent beneficiary or insured surviving dependent is entitled to coverage at group rates if the dependent beneficiary or surviving dependent elects to continue in the coverage within six months of the insured member's death and the dependent beneficiary or surviving dependent agrees to pay the cost of the premium for group health and accident insurance. On notification of the insured member's death, the board shall immediately notify a dependent beneficiary or an insured surviving dependent of the provisions of this section.

B. B. The board may determine the rights, benefits or obligations of any person under this article and afford any person dissatisfied with a determination of their rights, benefits or obligations under this article with a hearing on the determination. Notwithstanding section 38-431.03, the board shall hold a hearing or review of an administrative law judge's written decision in an executive session if the aggrieved person makes such a request. If the board holds a hearing or review in executive session pursuant to this subsection, the board shall use the procedures for an executive session as provided in section 38-431.03. Minutes of and discussions held at an executive session are confidential except from the aggrieved person for the purposes of an appeal of the board's decision to the superior court on the matter that is determined by the board. The aggrieved person must request an executive session hearing at least forty-eight hours before the hearing.

C. The board may enter into a contract with an insurance company or another entity to administer all or part of the LTD program and to determine eligibility for benefits under the LTD program.

D. The board shall pay from the LTD trust fund the amounts necessary to pay benefits under and costs of administering the LTD program.

#### 38-797.04. Eligibility

All members are subject to this article and shall participate in the LTD program.

#### 38-797.05. Employer and member contributions

A. Beginning July 1, 2011, employers shall contribute the percentage of the compensation of all of the members under their employment so that the total employer contributions equals the amount that the board determines is necessary to pay one-half of all benefits under and costs of administering the LTD program.

B. Beginning July 1, 2011, a member shall contribute a percentage of the member's compensation equal to the employer contribution for the member required pursuant to subsection A of this section.

C. The employer shall pay the member contributions required of members on account of compensation earned. All employer and member contributions shall be paid to the board. The board shall allocate the contributions to the LTD trust fund and shall place the contributions in the LTD program's depository.

D. Each employer shall certify on each payroll the amount to be contributed to the LTD program and shall remit that amount to the board. The contributions are irrevocable.

E. Payments due pursuant to this article by employers become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by the board. The board shall charge interest on the delinquent payments at an annual rate equal to the interest rate assumption approved by the board for actuarial equivalency pursuant to article 2 of this chapter. Delinquent payments due under this subsection, together with interest charges as provided in this subsection, may be recovered by an action in a court of competent jurisdiction against an employer liable for payments or, at the request of the director, may be deducted from any monies, including excise revenue taxes, payable to the employer by any department or agency of this state.

F. If more than the correct amount of contributions required is paid by an employer, proper adjustment shall be made in connection with subsequent payments. The board shall return excess contributions to the employer if the employer requests return of the contributions within one year after the date of overpayment.

G. Member contributions are not refundable and are not included in the calculation of survivor benefits pursuant to section 38-762.

#### 38-797.06. Contribution rate; annual report

A. The board shall select an actuary to determine required employer contributions on an annual basis. The actuary shall be a fellow of the society of actuaries.

B. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements of article 2 of this chapter, as the ASRS actuary determines

pursuant to this section. The actuary shall make this determination in an annual valuation performed as of June 30. The valuation as of June 30 of a calendar year shall determine the percentage to be applied to compensation for the fiscal year beginning July 1 of the following calendar year. The actuary shall determine the total employer contribution using an actuarial cost method consistent with generally accepted actuarial standards. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period consistent with generally accepted actuarial standards.

C. All contributions made by the employer and allocated to the LTD trust fund established by section 38-797.02 are irrevocable and shall be used as benefits under this article or to pay expenses of the LTD program.

D. ASRS shall provide a preliminary report on or before November 30 of the valuation year and a final report on or before January 15 of the following year to the governor, the speaker of the house of representatives and the president of the senate on the contribution rate for the ensuing fiscal year.

(a) For primary and dependent social security benefits, the members are eligible for the social security benefits until the social security benefits are actually awarded, or if the social security benefits are denied, until the member pursues the social security appeal process through a hearing before a social security administrative law judge or until the insurance company or claims administrator determines that the member is not eligible for social security benefits.

(b) For benefits and payments from any other source provided in paragraph 1 of this subsection, the members are eligible for the benefits if it is reasonable to believe that those benefits will be paid on proper completion of the claim or would have been paid except for the failure of the member to pursue the claim in time.

C. This section does not prohibit a member whose disability has been established to the satisfaction of the board from relying on treatment by prayer through spiritual means in accordance with the tenets and practice of a recognized church, religious denomination or Native American traditional medicine by a duly accredited practitioner of the church, denomination or Native American traditional medicine without suffering reduction or suspension of the member's monthly LTD program benefits.

D. ASRS may suspend or terminate benefits under this article if a member fails to provide information, data, paperwork or other materials that are requested by ASRS or the insurance company or claims administrator that is selected by the board to administer the LTD program. ASRS or its contracted administrator may investigate information that indicates a member may have falsified information or records related to LTD program eligibility or benefits or may not otherwise meet the requirements of LTD program eligibility. In connection with an investigation involving the LTD program, ASRS or its contracted administrator may collect and examine any statement or evidence, or may authorize a third party to collect and examine any statement or evidence, that relates to a member falsifying information or records related to LTD program eligibility or benefits. #### 38-797.08. Errors; benefit recomputation

If any change or error in the records results in any member receiving from the LTD program more or less than the member would have been entitled to receive if the records had been correct, the board shall correct the error and shall adjust the payments in a manner so that the equivalent of the benefit to which the member was correctly entitled is paid. The board shall correct any change or error and shall pay the appropriate monies to a member or shall recover monies from the member if the member is overpaid. The board shall recover monies by reducing any benefit that is otherwise payable by ASRS or the LTD program to an active, inactive, member with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

#### 38-797.14. Liquidation of LTD program

If the legislature determines that the LTD program is no longer to be operated for the purposes set forth in this article, any monies remaining in the LTD trust after paying all liabilities of the trust or after making adequate provision for paying those liabilities revert to the general funds of the employers that were making contributions to the LTD program at the time the legislature terminates the LTD program. The reverted monies shall be prorated according to the gross amount of contributions made by the employers to the LTD program.

3. The member initiates the transfer by making written application to the governing board of the retirement system or plan to which the member is contributing or has contributed.

B. For the purposes of this section:

A. Service credits qualified in accordance with section 38-730 or 38-921 may be transferred or redeemed in accordance with this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall be calculated:

1. The prior system or plan shall calculate the amount equal to the actuarial present value of a member's projected benefits to the extent funded on a market value basis as of the most recent actuarial valuation under the prior system or plan as calculated by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer. If a system's or plan's market value is greater than one hundred per cent, the system or plan shall use a one hundred per cent market value.

2. The system or plan to which the member is transferring shall calculate the increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. This calculation shall be performed by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer.

C. In the event a member decides to transfer:

2. If the amount calculated in subsection B, paragraph 2 is less than or equal to the amount calculated in subsection B, paragraph 1, the prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 2 or the member's accumulated contribution account balance.

D. In the case of an applicant who has withdrawn the applicant's member contributions from another prior system or plan of this state, the applicant shall pay into the new system or plan to which the applicant is transferring an amount equal to the increase in the actuarial present value of the projected benefits provided by the service credits being redeemed and this amount shall be included in the member's current accumulated contribution account balance. This calculation shall be performed by the actuary of the system or plan to which the service credits are being transferred using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements.

E. Service credits shall not be applied to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

F. A member electing to transfer to or redeem service with the public safety personnel retirement system, the elected officials' retirement plan or the corrections officer retirement plan pursuant to this section may pay for the service being transferred or redeemed in the form of a lump sum payment to the system or plan, a trustee-to-trustee transfer or a direct rollover of an eligible distribution from a plan described in section 402(c)(8)(B)(iii), (iv), (v) or (vi) of the internal revenue code or a rollover of an eligible distribution from an individual retirement account or annuity described in section 408(a) or (b) of the internal revenue code.

**ARIZONA STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-125

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 13, 2024

**SUBJECT: STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-125

---

### **Summary:**

This regular rulemaking from the Arizona State Retirement System Board (ASRS) seeks to amend one (1) rule in Title 2, Chapter 8, Article 1 related to Termination Incentive Program by 30% Salary Increase; Unfunded Liability Calculations. Specifically, the ASRS seeks to amend its rules relating to a termination incentive program to clarify how the ASRS identifies and calculates an unfunded liability resulting from a termination incentive program.

The ASRS indicates this rulemaking will clarify how an unfunded liability is determined and calculated, thereby increasing understandability of when an employer may be invoiced for such liability. The ASRS indicates clarifying how unfunded liabilities are calculated and invoiced will ensure that they are processed more efficiently. The ASRS indicates these rules will increase the clarity and effectiveness of the termination incentive program requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS processes unfunded liabilities resulting from termination incentive programs.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The ASRS cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The ASRS indicates it did not review any study relevant to this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The rule clarifies how the ASRS identifies and calculates an unfunded liability resulting from a termination incentive program. The ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, except for some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The ASRS believes this is the least costly and least intrusive method because it will clarify how the ASRS processes unfunded liabilities caused by termination incentive programs.

6. **What are the economic impacts on stakeholders?**

Stakeholders include all ASRS members and ASRS employers. The economic impact of the rule will be minimal because it only clarifies current statutory requirements and processes. There will be no economic impact on small businesses, private or public employment, or state agencies.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The ASRS indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

**8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The ASRS indicates it received no public comments related to this rulemaking and no one attended the oral proceeding held on September 5, 2023.

**9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The ASRS indicates the proposed amended rules do not require issuance of a permit.

**10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The ASRS indicates there is no federal law applicable to these rules.

**11. Conclusion**

This regular rulemaking from the ASRS seeks to amend one (1) rule in Title 2, Chapter 8, Article 1 related to Termination Incentive Program by 30% Salary Increase; Unfunded Liability Calculations. Specifically, the ASRS seeks to amend its rules relating to a termination incentive program to clarify how the ASRS identifies and calculates an unfunded liability resulting from a termination incentive program.

The ASRS is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

3. New fee or fee increase: This rulemaking does not establish a new fee or increase an existing fee.
4. Immediate effective date: An immediate effective date is not requested.

**state:**

Not applicable.

**9. A summary of the economic, small business, and consumer impact:**

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies current statutory requirements and processes.

**10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

None

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The ASRS received no written comments regarding the rulemaking. No one attended the oral proceeding on September 5, 2023.

**12. All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

None.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rules do not require a permit.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

There are no federal laws applicable to these rules.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

No materials are incorporated by reference.

**14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable.

**ARTICLE 1. RETIREMENT SYSTEM**

Section

R2-8-125. Termination Incentive Program by 30% Salary Increase; Unfunded Liability Calculations

**ARTICLE 1. RETIREMENT SYSTEM**

**R2-8-125. Termination Incentive Program by 30% Salary Increase; Unfunded Liability Calculations**

A. The following definitions apply to this Section unless otherwise specified:

1. "Average monthly compensation" means the same as in A.R.S. § 38-711(5).
2. "Baseline salary" means the average of a member's ~~Average Monthly~~ monthly Compensation during the 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit. The Baseline Salary shall include only Compensation from the Same Employer that paid the Compensation used in the calculation of a member's retirement benefit. If the member has less than 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit, then the ASRS will calculate the member's Baseline Salary as the total of the 12 months of Compensation the member received:
  - a. Starting with the first month of Compensation the member received in the 12 months immediately preceding the member's Average Monthly Compensation, or within the Average Monthly Compensation; and
  - b. Ending with the 12th month of Compensation the member received after the first month of Compensation used in subsection (A)(2)(a).
3. "Compensation" means the same as in A.R.S. § 38-711(7).
4. "Job reclassification" means a change in the classification of an employment position made by the Employer when it finds the duties and responsibilities of the position have changed significantly, materially, and permanently from when the position was last classified.
5. "Promotion" means, excluding a Salary Regrade or Job Reclassification, the act of advancing an employee to a higher salary or higher rank within the organization, which is characterized by:

- a. A change in the employee's primary job responsibilities; and
  - b. A pay increase that is supported by a standard salary administration practice that is documented by the Employer; and
  - c. A competitive selection process or a noncompetitive selection process supported by a standard hiring practice that is documented by the Employer.
6. "Salary regrade" means a change in the salary scale of an employment position made by the Employer in order to align the position's salary scale with market factors and/or the Employer's current salary practices.
  7. "Same employer" means the Employer has the same ownership as another Employer, except that for purposes of this Section, each agency, board, commission, and department of the State of Arizona shall be considered a separate Employer.
  8. "Termination Incentive Program" means the same as in A.R.S. § 38-749(D)(1).
- B.** Upon a member's retirement on or after January 1, 2018, the ASRS shall compare the member's Baseline Salary to the Average Monthly Compensation ~~for each consecutive 12 months of Compensation~~ used to calculate the member's retirement benefit in order to determine whether an Employer utilized a Termination Incentive Program as defined in A.R.S. § 38-749(D)(1). This subsection only applies to members who earned the Compensation used to calculate the member's Baseline Salary, on or after July 1, 2005.
- C.** Upon determining that a Termination Incentive Program exists under subsection (B), the ASRS shall send a Request for Documentation to the Employer through the Employer's secure ASRS account, in order to notify the Employer that the ASRS has identified a Termination Incentive Program for a particular member and the Employer may be required to pay the ASRS for the unfunded liability resulting from the Termination Incentive Program, unless the Employer can prove the increase in the member's salary was the result of a Promotion.
- D.** Within 90 days of the date on the Request for Documentation, the Employer shall respond to the Request for Documentation by:
1. Submitting documentation through the Employer's secure ASRS account that shows the member's increase in Compensation was the result of a Promotion; or
  2. Acknowledging in writing that the increase in the member's salary was not the result of a Promotion.
- E.** Pursuant to subsection (D), the Employer bears the burden of producing evidence that a Promotion has occurred as defined in subsection (A)(5).

- F.** The ASRS shall use any evidence the Employer submits to the ASRS pursuant to subsection (D) to determine whether a Promotion occurred.
- G.** If the Employer does not respond to the Request for Documentation within 90 days of the date on the Request for Documentation, the ASRS shall determine that the increase in the member's salary was not the result of a Promotion.
- H.** If the ASRS determines that the increase in the member's salary was not the result of a Promotion pursuant to subsections (F) or (G), the ASRS shall calculate the unfunded liability amount pursuant to subsection (I).
- I.** In consultation with the ASRS actuary, the ASRS shall use ~~a determination~~ the calculation under subsection (B) to calculate the unfunded liability resulting from the implementation of the Employer's Termination Incentive Program.
- J.** Upon calculating an unfunded liability amount pursuant to subsection (I), the ASRS shall send a Termination Incentive Program Liability Invoice to the Employer through the Employer's secure ASRS account, in order to notify the Employer of the unfunded liability amount the Employer shall owe to the ASRS as a result of implementing the Termination Incentive Program identified under subsection (B).
- K.** An Employer that owes an unfunded liability amount to the ASRS pursuant to A.R.S. § 38-749, shall remit full payment of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice.
- L.** Pursuant to A.R.S. § 38-735(C), if the ASRS does not receive full payment from the Employer of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice, the unpaid portion of the unfunded liability amount shall accrue interest at the assumed actuarial investment earnings rate listed in R2-8-118(A).
- M.** The ASRS may collect any unfunded liability amount pursuant to A.R.S. §§ 38-723 and 38-735(C).

## TITLE 2. ADMINISTRATION

### CHAPTER 8. STATE RETIREMENT SYSTEM BOARD

#### 1. Identification of the rulemaking:

The ASRS needs to amend its rules relating to a termination incentive program in order to clarify how the ASRS identifies and calculates an unfunded liability resulting from a termination incentive program.

##### a. The conduct and its frequency of occurrence that the rule is designed to change:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. An employer may be responsible for paying an unfunded liability that is created by an employer's termination incentive program where an employee retiring with a higher benefit than they otherwise would have, based on an increase in the member's compensation that is not attributed to a promotion.

##### b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Without this rulemaking, employers will not have an adequate understanding of how an unfunded liability may occur and how the ASRS may invoice the employer for such a liability. Notice of such information is necessary in order to ensure that employers have adequate understanding of how they may be responsible for an unfunded liability resulting from a termination incentive program. By promulgating these rules, employers will have a better understanding of when they may be invoiced for an unfunded liability cause by their termination incentive program. Increasing understanding of such

liabilities will increase the employer's understanding of how the ASRS manages the termination incentive program liabilities and reduce confusion, which will reduce burden on the public.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking will clarify how an unfunded liability is determined and calculated, thereby increasing understandability of when an employer may be invoiced for such liability. Clarifying how unfunded liabilities are calculated and invoiced will ensure that they are processed more efficiently. As discussed above and below, these rules will increase the clarity and effectiveness of the termination incentive program requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS processes unfunded liabilities resulting from termination incentive programs.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies current statutory requirements and processes.

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

All employers of the ASRS will be directly affected by, bear the costs of, and directly benefit from this rulemaking. The ASRS incurred the cost of the rulemaking. The ASRS currently has a total membership of approximately 652,864 and 664 employers.

5. Cost-benefit analysis:

a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

This rulemaking does not directly affect state agencies and the ASRS has determined that no new full-time employees will be required to implement and enforce the rules.

b. Costs and benefits to political subdivisions directly affected by the rulemaking:

This rulemaking does not provide any benefits or impose any costs on political subdivisions.

c. Costs and benefits to businesses directly affected by the rulemaking:

No businesses are directly affected by the rulemaking.

6. Impact on private and public employment:

The rulemaking will have no impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:

a. Identification of the small business subject to the rulemaking:

No businesses, regardless of size, are subject to the rulemaking.

b. Administrative and other costs required for compliance with the rulemaking:

Not applicable.

c. Description of methods that may be used to reduce the impact on small businesses:

Not applicable.

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:

All ASRS retirees are directly affected by the rulemaking. The effect has been previously described above.

9. Probable effects on state revenues:

There will be no effect on state revenues.

10. Less intrusive or less costly alternative methods considered:

The ASRS believes this is the least costly and least intrusive method because it will clarify how ASRS processes unfunded liabilities caused by termination incentive programs.

<sup>2</sup> Small business has the meaning specified in A.R.S. § 41-1001(20).

**PREFACE**

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

 ADMINISTRATIVE RULES DIVISION

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

**RULE HISTORY**

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

**AUTHENTICATION OF PDF CODE CHAPTERS**

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

**HOW TO USE THE CODE**

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

**ARIZONA REVISED STATUTE REFERENCES**

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

**PERSONAL USE/COMMERCIAL USE**

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

- H. If the ASRS determines that the increase in the member's salary was not the result of a Promotion pursuant to subsections (F) or (G), the ASRS shall calculate the unfunded liability amount pursuant to subsection (I).
- I. In consultation with the ASRS actuary, the ASRS shall use a determination under subsection (B) to calculate the unfunded liability resulting from the implementation of the Employer's Termination Incentive Program.

5. Notwithstanding other provisions of this section, a temporary employee of the legislature whose projected term of employment is for not more than six months is ineligible for membership in ASRS. If the employment continues beyond six successive months, the employee may elect to either:

(a) Receive credit for service for the first six months of employment and establish membership in ASRS as of the beginning of the current term of employment if, within forty-five days after the first six months of employment, both the employer and the employee contribute to ASRS the amount that would have been required to be contributed to ASRS during the first six months of employment as if the employee had been a member of ASRS during those six months.

(b) Establish membership in ASRS as of the day following the completion of six months of employment.

6. A person who is employed in postgraduate training in an approved medical residency training program of an employer or a postdoctoral scholar who is employed by a university under the jurisdiction of the Arizona board of regents is ineligible for membership in ASRS.

7. A state elected official who is subject to term limits, who is elected or appointed before January 1, 2014 and who is eligible for participation in ASRS because the state elected official elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A may elect not to participate in ASRS. The election not to participate is specific for that term of office. The state elected official who is subject to term limits shall make the election in writing and file the election with ASRS within thirty days after the elected official's retirement plan mails the notice to the state elected official of the state elected official's eligibility to participate in ASRS. The election is effective on the first day of the state elected official's eligibility. If a state elected official who is subject to term limits fails to make an election as provided in this paragraph, the state elected official is deemed to have elected to participate in ASRS. The election not to participate in ASRS is irrevocable and constitutes a waiver of all benefits provided by ASRS for the state elected official's entire term, except for any benefits accrued by the state elected official in ASRS for periods of participation before being elected to an office subject to term limits or any benefits expressly provided by law.

8. A person may elect not to participate in ASRS if the person becomes employed by an employer after the person has attained at least sixty-five years of age, is not an active member, inactive member, retired member or receiving benefits pursuant to article 2.1 of this chapter and does not have any credited service or prior service in ASRS. The employee shall make the election not to participate in writing and file the election with ASRS within thirty days after employment. The election not to participate is irrevocable for the remainder of the person's employment for which the person made the election and constitutes a waiver of all benefits provided by the Arizona state retirement system. The period the person works is not eligible for purchase under section 38-743 or 38-744.

9. The following are ineligible for membership in ASRS:

(a) A person who performs services in a hospital, home or other institution as an inmate or patient at the hospital, home or other institution.

(b) A person who performs agricultural labor services, as defined in section 210 of the social security act.

(c) A person who is a nonresident alien temporarily residing in the United States and who holds an F-1, J-1, M-1 or Q-1 visa when services are performed.

(d) A person who performs services for a school, college or university in this state at which the person is enrolled as a student, as defined by the employing institution. The employing institution

shall maintain an appeal process for a person who disagrees with the employing institution's determination that the person is a student and not eligible for membership in ASRS.

(e) A person who performs services under a program designed to relieve the person from unemployment.

B. The following elected officials are subject to this article if the member's employer is an employer under article 3 of this chapter:

1. A state elected official who is subject to term limits, who is elected or appointed on or before December 31, 2013 and who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability because the state elected official had previously elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A.

2. An elected official, as defined in section 38-831, who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability, if the elected official's employer is a participating employer under this article and the elected official is eligible for ASRS service credit for the elected official's service.

#### 38-729. Political subdivision plans

A. The governing body of any political subdivision may adopt, by appropriate legislation, a supplemental retirement plan for employees and officers of the political subdivision. The supplemental retirement plan shall provide the same retirement benefits and require the same obligations for entitlement as are provided for other members under this article, except that:

1. The supplemental retirement plan shall specify the date of commencement of the supplemental retirement plan as the first day of the month following board approval of the supplemental plan of the political subdivision as provided in this section.

2. Employer and employee obligations shall be paid to ASRS in accordance with that date.

B. The governing body of the political subdivision shall submit the supplemental retirement plan to the board in the form of an agreement. The agreement shall state the terms of the supplemental retirement plan as provided in this section. The board shall either approve or disapprove the supplemental retirement plan submitted by the governing body of the political subdivision.

C. On approval, the board shall administer the supplemental plan of the political subdivision.

D. The employer's share of contributions and payments in excess of those required of the employer under section 38-737 shall be paid from monies of the political subdivision.

E. On establishment of the supplemental retirement plan the governing body of the political subdivision shall deduct member contributions in the same amounts and in the same manner as provided in this article for state employees and shall pay those contributions, together with the employer contributions for the political subdivision, to ASRS for deposit in the ASRS depository. The governing body of the political subdivision shall reimburse ASRS in a similar manner for its pro rata share of administrative costs attributable to coverage of employees of the political subdivision.

F. In addition to the employer contributions required under section 38-737, on establishment of the supplemental retirement plan the governing body of the political subdivision shall pay to ASRS the amount equal to the present value required to fund additional costs of benefits attributable to service for the political subdivision before the effective date of the supplemental retirement plan using the actuarial assumptions that are approved by the board. The board may authorize payments to be made at such times as the board requires and in amounts that are less than the amount required for fully funding the additional costs.

G. If the supplemental retirement plan is authorized by a political subdivision, then on or after the effective date of the supplemental retirement plan the governing body of the political subdivision and the board may sign an agreement to waive the provisions of subsection F of this section and to authorize benefits under the supplemental retirement plan only for service with the political subdivision after the effective date of the supplemental retirement plan. In lieu of waiving benefits for all service before the effective date of the supplemental retirement plan, the governing body of the political subdivision may elect to waive benefits for a portion of that service. Amendments to the agreement may increase but shall not reduce the service for which a member is entitled to benefits. The governing body of the political subdivision shall certify for each member the years of service before the effective date of the supplemental retirement plan for which the member is entitled to benefits. In addition to the employer contributions required in section 38-737, the governing body of the political subdivision shall pay to ASRS the amount, as determined by the board, required to fund the cost of the benefits attributable to service before the effective date of the supplemental retirement plan for which members are entitled to benefits.

H. The new political subdivision shall designate the classification of employees that is eligible for membership in ASRS and shall make contributions each year as provided in this section.

I. The liability of the political subdivision providing a supplemental retirement plan within ASRS arises in consideration of the officer's or employee's retention in or entrance into service for the political subdivision.

J. Notwithstanding any other law, an employee of a political subdivision who was previously a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that public employee retirement system for any period of employment is ineligible to receive service credit from ASRS for the same period of employment.

### 38-730. Charter city or ASRS retirement service credits; transfers

A. On application the retirement service credits of an employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS whose job functions are shifted by law from one employer jurisdiction to another shall be transferred to the retirement system of the new employer.

B. An employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS who becomes employed by the other employer jurisdiction may apply to have the employee's retirement service credits transferred to the retirement system of the new employer. The retirement service credits of an employee of a charter city that is not an employer under ASRS shall not be transferred unless the governing body of that city approves the transfer. The retirement service credits of an employee of an employer that is an employer under ASRS shall not be transferred unless the board approves the transfer.

C. The transfer shall be made pursuant to section 38-922.

D. The accumulated retirement contributions of an employee whose retirement service credits are transferred that are paid to the retirement system of the new employer shall not be withdrawn by the employee unless the employee's employment terminates.

E. The retirement system to which the employee is transferring shall not apply service credits to the employee's account until such time as complete payment is made to the retirement system to which the employee is transferring. On completion of the transfer provided for in this section, the employee's rights in the retirement system from which the employee is transferring are extinguished.

#### **38-735. Payment of contributions: recovery of delinquent payments**

A. All amounts deducted from a member's compensation as provided in section 38-736 and employer contributions required pursuant to section 38-737 shall be paid to ASRS for deposit in the ASRS depository.

B. Each employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS.

C. Payments made by employers pursuant to this article or article 2.1, 7 or 8 of this chapter become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments at an annual rate equal to the interest rate assumption approved by the board from time to time for actuarial equivalency. Delinquent payments due under this article or article 2.1, 7 or 8 of this chapter, together with interest charges as provided in this subsection, may be recovered by action in a court of competent jurisdiction against an employer that is liable for payments or, at the request of the director, may be deducted from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state. The employer shall record delinquent payments that are recovered or deducted from other monies pursuant to this subsection pursuant to applicable accounting and financial reporting standards.

#### **38-736. Member contributions**

A. Member contributions are required as a condition of employment and shall be made by payroll deductions. Member contributions shall begin simultaneously with membership in ASRS. Beginning July 1, 2011, member contributions are a percentage of a member's compensation equal to the employer contribution required pursuant to section 38-737. Amounts so deducted by employers shall be deposited in the ASRS depository.

B. The employer shall pay the member contributions required of members on account of compensation earned. The paid contributions shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of the employer payment shall not be before the date ASRS has received notification from the United States internal revenue service that pursuant to section 414(h) of the internal revenue code the member contributions paid will not be included in gross income for income tax purposes until the paid contributions are distributed by refund or retirement benefit payments. The employer shall pay the member contributions from monies that are established and available in the retirement deduction account and that would otherwise have been designated as member contributions and paid to ASRS. Member contributions paid pursuant to this subsection shall be treated for all other purposes, in the same manner and to the same extent, as member contributions made before the approval of the United States internal revenue service pursuant to this section.

38-737. Employer contributions; prepayment; definitions

A. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements contained in this article, excluding the compensation of those employees who are members of the defined contribution program administered by ASRS, as determined by the ASRS actuary pursuant to this section for June 30 of the fiscal year immediately preceding the preceding fiscal year, except that beginning with fiscal year 2001-2002 the contribution rate shall not be less than two percent of compensation of all employees of the employers.

Beginning July 1, 2011 through June 29, 2016, the total employer contribution shall be determined on the projected unit credit method. Beginning June 30, 2016, the board shall determine the actuarial cost method pursuant to section 38-714. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period that is determined by the board and consistent with generally accepted actuarial standards.

B. All contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay expenses of ASRS.

C. The required employer contributions shall be determined on an annual basis by an actuary who is selected by the board and who is a fellow of the society of actuaries. ASRS shall provide by December 1 of each fiscal year to the governor, the speaker of the house of representatives and the president of the senate the contribution rate for the ensuing fiscal year and the unfunded actuarial accrued liability, the funded status based on the actuarial value of assets and market value of assets and the annualized rate of return and the ten-year rate of return as of June 30 of the prior fiscal year.

D. Notwithstanding any other provision of this article, an employer may prepay the employer's 401(a) pension contributions directly to ASRS according to a written agreement between the employer and ASRS as follows:

1. 401(a) pension contributions that the employer prepays according to this subsection may be deposited, as determined by the employer and managed by ASRS, directly in either the ASRS trust fund established by section 38-712 or a section 115 trust.

2. ASRS shall determine the following options available to the employer:

(a) The amortization time periods.

(b) The frequency and dates that prepayments can be made.

(c) The maximum and minimum amounts of 401(a) pension contributions that the employer can prepay.

(d) Any other options or obligations that the employer may have when entering into this written agreement.

3. The earnings accrual rate shall be the ASRS total 401(a) pension fund rate of return, or the actual rate of return of a short-term investment through ASRS, as requested by the employer and agreed to by ASRS.

4. The 401(a) pension contributions the employer prepays and the accrued earnings shall be managed at the discretion of ASRS subject to section 38-718.
  5. 401(a) pension contributions that the employer prepays and accrued earnings may be used solely to reduce the employer's future 401(a) pension contributions as required from the employer pursuant to this section and section 38-735.
  6. The employer shall determine when to use the 401(a) pension contributions the employer prepays and the accrued earnings from those 401(a) pension contributions.
  7. ASRS shall provide the employer an annual statement of 401(a) pension contributions the employer prepaid and the accrued earnings.
  8. Notwithstanding any other provision of this subsection, an employer may not prepay 401(a) pension contributions according to this subsection either:
    - (a) In an amount greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
    - (b) After the total of the unamortized prepaid 401(a) pension contributions and the accrued earnings is equal to or greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
  9. After an employer elects amortization terms, ASRS shall provide the employer an amortization schedule annually that is current and based on the employer's election.
  10. If ASRS determines to no longer offer the option of prepaying the employer's 401(a) pension contributions directly to ASRS, any 401(a) pension contributions the employer prepays and the accrued earnings remaining on account shall be used for future obligations according to the written agreement between the employer and ASRS.
  11. Assets transferred in or out of or held in the ASRS trust fund established by section 38-712, or a section 115 trust, and the accrued earnings are exempt from state, county and municipal taxes.
  12. The legislature intends that the accrued earnings not be subject to federal income tax. ASRS may adopt additional rules, policies and procedures as ASRS deems necessary or appropriate to fulfill the legislature's intent that the accrued earnings not be subject to federal income tax.
  13. If ASRS receives notification from the United States internal revenue service that this subsection or any portion of this subsection will jeopardize the tax-exempt status of the 401(a) pension contributions the employer prepays according to this subsection and the accrued earnings, the portion of this subsection that will cause the disqualification does not apply.
- E. In addition to the requirements of subsection D of this section, any prepayment agreement made between ASRS and this state or any state agency is subject to the following requirements:
1. Any prepayment amounts deposited with ASRS must be from an appropriation specifically for that purpose that is passed by the legislature and signed by the governor.

2. Any prepayment amounts or accrued earnings used to reduce the employer's 401(a) pension contributions must be authorized for a specific fiscal year by legislation that is passed by the legislature and signed by the governor.

F. For the purposes of this section:

1. "401(a) pension contributions" means the portion of an employer's pension contribution that is specific to the retirement program established under this article and qualified under section 401(a) of the internal revenue code.

2. "Section 115 trust" means a trust whose income is exempt from gross income pursuant to section 115 of the internal revenue code for essential government functions integral to this state and its political subdivisions.

### 38-738. Adjustment and refund

A. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of fact, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit or, if the request is made within one year after the date of overpayment, shall return the contributions to the employer. ASRS may not pay an employer earnings attributable to the excess contributions but shall reduce the amount returned to an employer pursuant to this subsection by the amount of losses attributable to the excess contributions. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of law, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit. On receipt of an employer credit or return of contributions pursuant to this subsection, the employer shall return any member portion of the returned contributions to the member.

B. If less than the correct amount of employer or member contributions is paid into ASRS by an employer, the following apply:

1. The member shall pay an amount that is equal to the amount that would have been paid in member contributions for the period in question. For active members, payments shall be made as provided in section 38-747. For members who are inactive, retired or on long-term disability, payments shall be made using after-tax income and a personal check, cashier's check or money order. If the member does not make the payment within ninety days after being notified by ASRS that the employer has paid all amounts due from the employer, the unpaid amount accrues interest until the amount is paid in full. The member is responsible for payment of the unpaid amount and interest. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

2. If the member contributions to ASRS made pursuant to this subsection exceed the limits prescribed in section 38-747, subsection E when taking into account other annual additions of the member for the limitation year, the amount to be paid by the member shall be adjusted as provided in section 38-747. For the purposes of this paragraph, "limitation year" has the same meaning prescribed in section 38-769.

3. The employer shall pay to ASRS an amount equal to the amount that would have been paid in employer contributions for the period in question together with accumulated interest that would have accrued on both the employer and member contributions due. If the employer does not remit full payment of all employer contributions and all interest due within ninety days after being notified by

ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

4. On satisfaction of the requirements of this subsection, the member's salary history on the records of ASRS shall be adjusted and any additional service credits acquired by the member shall be reinstated.

5. If the member retires before all contributions are made pursuant to this subsection, the member's benefits shall be calculated only based on the contributions actually made.

6. Annual additions shall be determined as provided in section 38-747, subsection O.

7. The initiator of the request for correction of salary history and service credits on records of ASRS is responsible for providing credible evidence of past employment and compensation to ASRS in a form or forms that would lead a reasonable person to conclude that a period of employment occurred under circumstances that made the employee eligible for membership in ASRS during that period. A determination of eligibility by ASRS may be appealed to the ASRS board in a manner prescribed by the board.

8. A member who previously received a return of contributions pursuant to section 38-740 may receive an adjustment of employer contributions or service credits pursuant to this section only for qualifying employment and compensation that occurred after the member's most recent return of contributions pursuant to section 38-740.

C. Subsection B of this section applies to eligible verified service that occurred less than or equal to fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made.

D. Eligible verified service that is more than fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made is considered public service credit. The member may purchase this service pursuant to section 38-743.

E. Notwithstanding any other law, an employer may correct a contributions error pursuant to subsection B of this section by making payment adjustments through the employer's payroll reporting for the contributions that were not submitted if both of the following apply:

1. The adjustment is made within the same fiscal year that the contributions were due to ASRS.

2. The employer obtains written consent from the employee to make the adjustment to the employee's paycheck.

F. Notwithstanding any other law, if an employer pays less than the correct amount of employer or member contributions into ASRS, the correct amount of member contributions may not be paid to ASRS after the death of the member.

### 38-739. Credited service

- A. A member shall not earn more than one year of credited service in any fiscal year.
- B. A member shall earn proportionate credited service for each month for which the member performs service and is compensated equal to the ratio that the month bears to the number of months in the member's service year.
- C. If a member is compensated for less than a full service year, the member shall earn credited service equal to the ratio that the number of months actually compensated bears to the number of months in the full service year.
- D. If a member holds two or more concurrent contracts in any fiscal year, credited service shall be determined on the basis of the terms of the contract with the longest term.
- E. Members on sabbatical leave for which they are paid on a full or partial basis shall make appropriate contributions while on sabbatical leave and are considered to be employed full time.
- F. The following years of service are excluded from credited service under this article:
  - 1. Years of prior service. For the purposes of this paragraph, "prior service" has the same meaning prescribed in section 38-772.
  - 2. Years in which the member made contributions to the defined contribution program administered by ASRS or the Arizona teachers' retirement system before membership in the defined contribution program administered by ASRS and for which those contributions were subsequently withdrawn and paid to the member.

#### 38-739.01. Credited service retention

Consistent with the compliance statement issued by the United States internal revenue service, an employee who is employed with an ASRS employer in a position that was exempt from ASRS membership because the position was not included in agreements providing for the employee's coverage under the federal old-age and survivors insurance system but on whose behalf the employer has remitted ASRS contributions shall retain credited service for the period of employment for which the employer remitted ASRS contributions on the employee's behalf.

### 38-740. Return of contributions

- A. A member whose membership commenced before July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of the contributions as follows:
  - 1. If the member has less than five years of credited service, ASRS shall disburse all of the member's contributions.
  - 2. If a member has five or more years of credited service, ASRS shall disburse the member's contributions and an amount equal to a percentage of the employer contributions paid on behalf of the member. This amount excludes payments made by an employer pursuant to section 38-738, subsection B, paragraph 3, unless the member has made the payment required by section 38-738,

subsection B, paragraph 1. The percentage of employer contributions paid on behalf of the member shall be as follows:

- (a) 5.0 to 5.9 years of credited service, twenty-five percent.
- (b) 6.0 to 6.9 years of credited service, forty percent.
- (c) 7.0 to 7.9 years of credited service, fifty-five percent.
- (d) 8.0 to 8.9 years of credited service, seventy percent.
- (e) 9.0 to 9.9 years of credited service, eighty-five percent.
- (f) 10.0 or more years of credited service, one hundred percent.

3. Interest on the returned contributions as determined by the board.

B. A member whose membership commenced on or after July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of all of the member's contributions with interest as determined by the board.

C. Notwithstanding subsection B of this section, if a member has five or more years of credited service and the member is terminated solely because of an employer reduction in force by reason of a lack of monies or elimination of the member's position, the member is entitled to receive the amounts prescribed in subsection A of this section.

D. Withdrawal of contributions with interest constitutes a withdrawal from membership in ASRS and results in a forfeiture of all other benefits under ASRS.

E. If ASRS has disbursed an overpayment pursuant to section 38-765 or 38-797.08, ASRS shall withhold the overpayment amount plus any required income tax withholding from the return of contributions.

F. Notwithstanding any other provision of this article, a member who has not received a return of contributions pursuant to this section may combine any two or more periods of service for purposes of determining the member's benefits.

G. If ASRS disburses more than the amount due to a member or an alternate payee pursuant to this section, the person who received the overpayment shall repay the amount of the overpayment together with interest at the interest rate earned on ASRS investments as reported on a quarterly basis, but not less than the valuation rate established by the board, from the time of overpayment to the settlement of the debt.

#### **38-741. Reemployment of inactive member**

A. ASRS shall return to active status an inactive member who terminates employment with an employer without terminating membership in ASRS and who later is reemployed by the same or another employer.

B. On retirement, ASRS shall disburse benefits derived from service for all employers that employed the member.

C. Retirement benefits attributable to service before membership in ASRS, if any, shall be paid only by the employer from which the retiring member obtained entitlement to the benefits as provided in section 38-729.

#### 38-742. Reinstatement

A. If an active member who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, is subsequently reemployed by an employer, the member's service shall be credited only from the date the member's most recent reemployment period commenced.

B. Notwithstanding subsection A of this section, the member may redeposit the amount of the contributions the ASRS paid at the time of the member's separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On satisfaction of this obligation, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

C. A member who is receiving benefits pursuant to section 38-797.07 and who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, may redeposit the amount of the contributions the ASRS paid at the time of the member's previous separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On redeposit of the contributions and interest, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

#### 38-743. Public service credit

A. If an active member of ASRS or a member who is receiving benefits pursuant to section 38-797.07 was previously employed by the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States, excluding any time worked for a prison while the member was incarcerated, the member may receive credited service for this prior employment if the member pays into ASRS the amount prescribed in subsection B of this section. For a member whose membership date is on or after July 20, 2011, the member may receive not more than sixty months of credited service.

B. A member who elects to receive credit for service with the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States shall pay to ASRS an amount equal to the present value of the additional benefit that is

derived from the purchased credited service using the actuarial assumptions that are approved by the board.

C. A member who previously was a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that system for any period of employment is ineligible to receive retirement benefits from ASRS for the same period.

D. If a member's membership date is on or after July 1, 2010, the member shall have at least five years of credited service in ASRS before electing to receive credit for service pursuant to this section.

**38-744. Leave of absence: credit for leave without pay**

A. A member may elect to be credited with service for retirement purposes for an officially granted leave of absence from employment without pay if all of the following apply:

1. At the time the absence was granted the member was an active member of ASRS or a member who was receiving benefits pursuant to section 38-797.07.

2. At the time the credit is requested the member is an active member of ASRS, receiving benefits pursuant to section 38-797.07 or a former active member of ASRS who has not withdrawn contributions from ASRS pursuant to section 38-740 and who was unable to resume employment because a position is not available.

3. The member returns to employment with the same employer, unless employment could not be resumed because of disability or a position was not available.

4. The member elects not more than one year of the leave and, for a member whose membership date is on or after July 20, 2011, not more than sixty months of credited service pursuant to this section.

5. The member pays the amount provided in subsection B of this section.

6. The member's employer has certified that the leave of absence benefits or is in the best interests of the employer.

B. A member who elects to be credited with a leave period as provided in subsection A of this section shall pay to ASRS an amount equal to the present value of the additional benefit that is derived from the purchased credited service using the actuarial assumptions that are approved by the board.

C. A member who previously was a member of another public employee retirement system and who receives or is eligible to receive a retirement benefit from that system for any period of employment is ineligible to receive retirement benefits from ASRS for the same period.

D. If a member's membership date is on or after July 1, 2010, the member shall have at least five years of credited service in ASRS before electing to receive credit for service pursuant to this section.

E. For the purposes of subsection A of this section, each employer shall adopt rules establishing guidelines for a leave of absence that benefits or is in the best interests of the employer.

**38-745. Credit for military service**

A. An active member of ASRS or a member who is receiving benefits pursuant to section 38-797.07 may purchase credited service in ASRS for active military service if all of the following apply:

1. The member was honorably separated from the military service.
2. The member submits a copy of the member's military service record (DD-214) or its equivalent with the member's application for military service credit.
3. If a member's membership date is on or after July 1, 2010, the member must have at least five years of credited service in ASRS.
4. Except as provided by 10 United States Code section 12736, the member is not yet eligible for a military retirement benefit.

B. For a member whose membership date is on or after July 20, 2011, the member may purchase not more than sixty months of credited service pursuant to subsection A of this section.

C. The cost to purchase military service credit is an amount equal to the present value of the additional benefit that is derived from the purchased credited service using the actuarial assumptions that are approved by the board.

D. An active member of ASRS who is called to active military service may receive credited service for not more than sixty months of active military service, except as provided by the uniformed services employment and reemployment rights act (38 United States Code section 4312(c)). The member's employer shall make employer contributions and member contributions for the member if the member meets the following requirements:

1. Was an active member of ASRS on the day before the member began active military service.
2. Is a member of the Arizona national guard or is a member of the reserves of any military establishment of the United States.
3. Volunteers or is ordered into active military service of the United States as part of a military call-up.
4. One of the following occurs:
  - (a) Is honorably separated from active military service and returns to employment for the same employer from which the member left for active military service within ninety days after the date active military service is terminated.
  - (b) Is hospitalized as a result of military service and returns to employment for the same employer from which the member left for active military service within ninety days after release from service related hospitalization.

(c) Develops a disability as a result of or during the military service and is unable to return to the same employer.

(d) Dies as a result of or during the military service.

E. Contributions made pursuant to subsection D of this section shall be for the period of time beginning on the date the member began active military service and ending on the later of one of the following dates:

1. The date the member returns to employment or the date the member should have returned to employment pursuant to 20 Code of Federal Regulations section 1002.115, whichever date is earlier.

2. The date the member is released from service related hospitalization or two years after initiation of service related hospitalization, whichever date is earlier.

3. One year after the date of disability.

4. The date the member dies as a result of or during active military service.

F. Notwithstanding any other law, on payment of the contributions made pursuant to subsection D of this section, the member shall be credited with service for retirement purposes for the period of time of active military service of not more than sixty months.

G. The employer shall make contributions pursuant to subsection D of this section as follows:

1. Contributions shall be based on the compensation that a member would have received but for the period that the member was ordered into active military service.

2. If the employer cannot reasonably determine a member's rate of compensation for the period that the member was ordered into active military service, the employer shall make contributions based on the member's average rate of compensation during the twelve-month period immediately preceding the period of active military service.

3. If a member has been employed less than twelve months before being ordered into active military service, the employer shall make contributions based on the employment period immediately preceding the period of active military service.

4. Employer contributions shall be made in a lump sum and without penalty when the member returns to employment, when it is determined that the member is unable to return to employment because of a disability as a result of or that occurred during military service or on receipt of the member's death certificate. If a member suffers a service related death, the employer shall make the employer and member contributions up to and including the date of the member's death. Death benefits shall be calculated as prescribed by law.

H. In computing the length of total credited service of a member for the purpose of determining retirement benefits or eligibility, the period of military service, as prescribed by this section, shall be included.

I. Notwithstanding any other law, the member is not required to reimburse the member's employer or ASRS for any contribution made pursuant to subsection D of this section.

J. In addition to, but not in duplication of, the provisions of subsection D of this section, contributions, benefits and credited service provided pursuant to this section shall be provided in accordance with section 414(u) of the internal revenue code.

K. A member who does not currently perform services for an employer by reason of qualified military service, as that term is defined in section 414(u) of the internal revenue code, and who is receiving differential wage payments, as that term is defined in section 3401(h)(2) of the internal revenue code, shall not be considered as having a severance from employment for all purposes under ASRS during the period the differential wages are being paid by the employer to the employee.

#### 38-746. Compensation limitation: adjustments

A. Except as provided in subsection E, beginning on July 1, 2002, the annual compensation of each employee taken into account under ASRS for any fiscal year or for any other specified twelve consecutive month period shall not exceed two hundred thousand dollars. In determining benefit accruals under ASRS for fiscal years beginning after December 31, 2001 and except as provided for in subsection E, the annual compensation limit under this subsection for fiscal years beginning before January 1, 2002 is two hundred thousand dollars.

B. If compensation under ASRS is determined on a period of time that contains fewer than twelve calendar months, the compensation limit for that period of time is equal to the dollar limit for the calendar year during which the period of time begins, multiplied by the fraction in which the numerator is the number of full months in that period of time and the denominator is twelve.

C. For fiscal years beginning before July 1, 1997, the annual compensation limit prescribed in this section also applies to the combined compensation of a member who is a member of the group of ten highly compensated employees, as defined in section 414(q) of the internal revenue code, and who is paid the highest compensation during the fiscal year and any family member of the member who is either the member's spouse or the member's lineal descendant and who has not attained the age of nineteen before the close of the fiscal year. If the maximum compensation is adjusted pursuant to subsection D, the adjusted limitation shall be prorated among the affected members' compensation determined pursuant to this section before application of the adjusted limitation to the other provisions of this article.

D. The board shall adjust the maximum compensation under subsection A at the same time and in the same manner as adjusted by the United States secretary of the treasury under section 401(a)(17)(B) of the internal revenue code. The adjustment under this subsection for a calendar year applies to annual compensation for the fiscal year of ASRS that begins with or within the calendar year.

E. The dollar limitation prescribed in subsection A does not apply to an eligible member to the extent that the annual compensation of an eligible member taken into account by ASRS for any fiscal year or for any other specified twelve consecutive month period would be reduced below two hundred thirty-five thousand eight hundred forty dollars. This was the amount of compensation taken into account by ASRS as of July 1, 1993. The board shall adjust this amount as of the effective date of the increase prescribed by the United States secretary of the treasury. For the purposes of this subsection, "eligible member" means a person who first became a member of ASRS before July 1, 1996.

#### 38-747. Purchase of credited service; payment; limitations; definitions

A. A member who purchases credited service pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 shall either:

1. Make payments directly to ASRS as provided in subsection H of this section.
2. Elect to have the member's employer make payments as provided in subsection B of this section.

B. A member may elect to have the member's employer make payments for all or any portion of the amounts payable for the member's purchase of credited service pursuant to the sections prescribed in subsection A of this section through a salary reduction program in accordance with the following:

1. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The electing member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection. For the purposes of this paragraph, "other compensation" includes a member's termination pay.

2. The member shall make an election pursuant to this subsection at any time on or after the date the member elects to purchase credited service pursuant to the sections prescribed in subsection A of this section and before the member's termination of employment. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. In the case of an election to utilize all or any part of the member's termination pay to purchase credited service, the member's election shall be made at least three full calendar months before the date of the member's termination of employment and entitlement to receive the termination pay. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of current employment. After a member makes an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. For the purposes of this paragraph, "termination pay" means any lump sum that is paid at the member's termination of employment for accrued vacation, sick leave or overtime pay.

3. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's purchase of credited service may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's purchase of credited service. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's purchase of credited service does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's purchase of credited service.

4. If on termination of the member's employment with an ASRS employer all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection. ASRS shall not grant credited service for contributions made pursuant to this subsection until those contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any salary reduction election made pursuant to this subsection. The interest or administrative charges shall be added to the amount of contributions that is made to ASRS by the member each payroll period and that is paid by the member's employer. The interest or administrative charges shall not be treated as member contributions for any purposes under this article and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

C. A member who elects before July 1, 1999 to receive retirement benefits based on section 38-771, subsection C, paragraph 2 or a member who elects to make contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 shall either make the member's additional contributions required pursuant to section 38-771, subsection E or allowed pursuant to section 38-771.01, subsection F, paragraph 4 directly to ASRS as provided in subsection H of this section or shall elect to have the member's employer make payments for those additional contributions as provided in subsection D of this section. A member who elected to be covered or who was deemed to be covered by section 38-771 on or before December 31, 1995 or who elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 3 is deemed to have made an irrevocable election pursuant to subsection D of this section to make the member's contributions to ASRS that are required by section 38-771, subsection D or allowed by section 38-771.01, subsection F, paragraph 3.

D. Any member contributions that are required by section 38-771, subsection D or that are allowed pursuant to section 38-771.01, subsection F, paragraph 3 are deemed to be made by the member to ASRS through a salary reduction program in accordance with the following:

1. A member may make member contributions pursuant to section 38-771, subsection E or section 38-771.01, subsection F, paragraph 4 through a salary reduction program elected pursuant to this subsection. If a member makes an irrevocable election pursuant to this subsection before July 1, 1999 to have the member's employer make payments for additional contributions pursuant to section 38-771, subsection E, the election continues in effect from and after June 30, 1999 and shall not be revoked, amended or altered by any election made pursuant to section 38-771.01 or otherwise. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection.

2. Before a member's termination of employment, the member may make an election pursuant to this subsection at any time after the date the member elects to receive retirement benefits based on section 38-771, subsection C, paragraph 2 but before July 1, 1999 or at any time after the member elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 4. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of employment.

3. After a member makes or is deemed to have made an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4 may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's additional contributions. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 or pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's additional contributions pursuant to section 38-771.01, subsection F, paragraph 4 does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4.

4. If on termination of the member's employment all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

E. The following limits apply to contributions to ASRS:

1. Except to the extent paragraphs 2 and 3 of this subsection apply to certain contributions made by a member to ASRS and to the extent permitted under section 414(v) of the internal revenue code, if applicable, in any one limitation year, the annual additions contributed or allocated to ASRS for or on behalf of a member shall not exceed the lesser of either:

(a) \$40,000 or a larger amount that is prescribed by the board and that is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount prescribed by this subdivision as of the effective date of the increase announced by the United States secretary of the treasury.

(b) One hundred percent of the member's compensation for the limitation year. The compensation limit prescribed in this subdivision does not apply to any contribution to ASRS for medical benefits after a member's separation from service, within the meaning prescribed in section 401(h) or 419A(f)(2) of the internal revenue code, that is otherwise treated as an annual addition.

2. Unless paragraph 4 of this subsection applies, for plan years beginning on or after July 1, 1998, in any one limitation year, the annual additions credited to ASRS for or on behalf of a member who makes contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election has not been made pursuant to subsection B of this section shall not exceed the greater of either:

(a) The requirements of section 38-769. For the purposes of applying the limits prescribed in section 38-769 under this subdivision, the accrued benefit derived from the contributions shall be treated as an annual benefit and the reduced limit for certain early retirement in section 38-769, subsection C, paragraph 2 does not apply.

(b) Except as provided in paragraph 3 of this subsection, the requirements of paragraph 1 of this subsection. The contributions shall be treated as annual additions and any of the member's other annual additions for the limitation year shall be taken into account. For the purposes of applying the requirements of paragraph 1 of this subsection under this subdivision, the percentage of compensation limit in paragraph 1, subdivision (b) of this paragraph does not apply.

3. For plan years beginning on or after July 1, 1998, the requirements of paragraph 1 of this subsection shall not be applied to reduce the amount of credited service that may be purchased by an eligible member pursuant to section 38-743, 38-744, 38-745 or 38-922 to an amount that is less than the amount of credited service allowed to be purchased pursuant to those sections on August 5, 1997 without the application of any of the limits prescribed in this section or section 415 of the internal revenue code. For the purposes of this paragraph, "eligible member" means a person who first becomes a member of ASRS before July 1, 1999.

4. Member contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744 or 38-922 shall not be made by a member if recognition of that service would cause a member to receive a retirement benefit for the same service from ASRS and one or more other retirement plans. This paragraph does not apply to either of the following:

(a) Contributions made by an eligible member as defined in paragraph 3 of this subsection, except that any service purchase by an eligible member is subject to any other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

(b) Any member contributions with respect to which an irrevocable election has been made by a member pursuant to subsection B of this section, except that the service purchase is subject to any

other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

F. If a member's contributions are subject to the limitations of subsection E of this section, the contributions shall be treated as being made to a separate defined contribution plan. If the member's contributions exceed the limits prescribed in subsection E of this section when taking into account other member and employer contributions to ASRS on behalf of the member for the limitation year, the amount to be paid by the member shall be reduced to not exceed the limits prescribed in subsection E of this section and the remaining amount shall be carried forward to the next limitation year, unless the limits are exceeded in the next limitation year. If the limits are exceeded in the next limitation year, the procedure prescribed by this subsection shall be repeated until all payments have been made.

G. If, after the application of subsection F of this section, the annual additions on behalf of a member exceed the limitations prescribed in subsection E of this section, ASRS shall dispose of excess amounts by either of the following:

1. Returning to the member any contributions that are made by the member and that are nondeductible under the internal revenue code.

2. Holding the amounts in a suspense account established pursuant to subsection L of this section and allocating the amounts as either member or employer contributions for the benefit of the member in the next limitation year and before any further member or employer contributions are made that would constitute annual additions made to a defined contribution plan pursuant to section 415 of the internal revenue code. ASRS shall allocate contributions as prescribed in this section, and the amount allocated shall reduce the amount of the member or employer contributions for the limitation year in which the allocation is made.

H. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by the member pursuant to subsection B or D of this section, the board may accept contributions made pursuant to section 38-771 or member contributions for the payment for credited service purchases pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 or contributions made pursuant to section 38-771.01, subsection F, paragraph 4, in whole or in part, by any one or a combination of the following methods:

1. In lump sum payments.

2. Subject to the limitations prescribed in sections 401(a)(31) and 402(c) of the internal revenue code and subsection J of this section, accepting a direct transfer of any eligible rollover distribution from one or more:

- (a) Retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code.

- (b) Annuity contracts described in section 403(b) of the internal revenue code.

- (c) Eligible deferred compensation plans described in section 457(b) of the internal revenue code that are maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state.

3. Accepting from a member a direct transfer from an individual retirement account or individual retirement annuity described in section 408(a) or 408(b) of the internal revenue code of an amount that would otherwise be eligible to be rolled over to ASRS under the provisions of section 408(d)(3)(A)(ii) of the internal revenue code if the amount had been received by the member and would have otherwise been includible in the member's gross income but for the direct transfer.

4. Providing by rule that the contributions may be made in installment payments over a period of time.

I. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by a member pursuant to subsection B or D of this section, the board may accept a direct trustee-to-trustee transfer from retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code, an annuity contract described in section 403(b) of the internal revenue code or an eligible deferred compensation plan described in section 457(b) of the internal revenue code for the payment for credited service purchases pursuant to section 38-742, 38-743, 38-744, 38-745 or 38-922. If a direct trustee-to-trustee transfer is from a retirement program that is qualified under section 401(a) of the internal revenue code and that includes a cash or deferred arrangement described in section 401(k) of the internal revenue code, the member on whose behalf the transfer was made is not eligible to retire under section 38-764, subsection I before the date the member attains fifty-nine and one-half years of age.

J. ASRS shall separately account for all amounts rolled over or directly transferred to ASRS. Subject to the limitations contained in the internal revenue code applicable to the type of plan from which an eligible rollover distribution is transferred, to the extent any eligible rollover distribution that is directly transferred to ASRS consists wholly or partially of amounts that would otherwise not be included in the member's gross income if not so transferred, ASRS shall separately account for the amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the amount that is includable in gross income and the portion of the amount that is not includable in gross income.

K. ASRS shall not grant credited service under section 38-738, 38-742, 38-743, 38-744 or 38-922 for contributions made pursuant to subsection H of this section until the contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any installment payment made pursuant to subsection H, paragraph 4 of this section to purchase credited service pursuant to section 38-738, 38-742, 38-743, 38-744 or 38-922. The interest or administrative charges shall be added to the amount of contributions made to ASRS by the member. The interest or administrative charges shall not be treated as member contributions for any purposes under this article, and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

L. Notwithstanding any provision of this article to the contrary, if the annual additions credited on behalf of an ASRS member during any limitation year exceed the limits of section 415(c) of the internal revenue code and subsection E of this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance issued by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

M. If the member retires before all payments are made pursuant to this section, ASRS shall calculate the member's benefits based only on the payments actually made.

N. On satisfaction of the requirements of this section, ASRS shall adjust the member's credited service history and add any additional service credits acquired.

O. Annual additions on behalf of a member in any limitation year shall be the sum of:

1. The amount of the member contributions made to ASRS to purchase credited service pursuant to section 38-738, 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election made pursuant to subsection B of this section is not in effect.

2. The amount of member and employer contributions made to ASRS on behalf of a member who elected or was deemed to have elected to receive retirement benefits pursuant to section 38-771 or who is entitled to benefits pursuant to section 38-771.01, except that, other than as provided in subsection P of this section, corrective contributions shall be considered annual additions for the limitation years to which the contributions relate and interest and gains shall not be considered as annual additions for the purpose of any limitation prescribed in this article or in section 415 of the internal revenue code. If the corrective contributions exceed the limit on annual additions for a limitation year prior to the limitation year in which the corrective contributions are contributed by the employer to ASRS, the retirement benefit attributable to the excess corrective contributions shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess corrective contributions to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

3. Any member or employer contributions made to ASRS or any other plan that are treated as being made to a defined contribution plan maintained by an employer of the member.

4. Any forfeitures, including any income attributable to forfeitures, allocated for or on behalf of a member of ASRS or any other plan that are treated as being allocated under a defined contribution plan maintained by an employer of the member.

P. To the extent any portion of the subject benefits, if treated as subject to the benefit limitations of section 415(b) of the internal revenue code, exceed the applicable limitation on benefits pursuant to section 38-769 for the form of distribution, a percentage of corrective contributions and interest and gains shall be treated as annual additions for the limitation year in which contributed by the employer to ASRS. This percentage of corrective contributions and interest and gains shall be equal to the percentage determined by dividing the subject benefits that exceed the limitation on benefits pursuant to section 38-769 by the subject benefits. If the corrective contributions and interest and gains that are treated as annual additions for the limitation year in which the corrective contributions and interest and gains are contributed by the employer to ASRS exceed the limit on annual additions for the limitation year, the retirement benefit attributable to the excess shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

Q. Subsection O of this section shall be construed and interpreted in accordance with section 415 of the internal revenue code and the final treasury regulations issued under that section.

R. For the purposes of this section:

1. "Compensation" has the same meaning prescribed in section 38-769.

2. "Corrective contributions" means any contributions that are paid by an employer pursuant to section 38-771.01, subsection C, paragraph 3 and that are attributable to employer contributions that should have been made for prior limitation years.

**38-748. Employer payments for ineligible contributions; definitions**

A. If an employer pays contributions on behalf of any person who is not eligible by statute or rule for ASRS membership or pays contributions on compensation that is not eligible by statute or rule for ASRS contributions and either ASRS or a court determines that ASRS shall provide a person with any benefit or credit under this article or article 2.1 of this chapter based on such contributions, the employer shall pay to ASRS any unfunded liability resulting from the provision of benefits or credit to the person.

B. If the employer does not remit full payment of the unfunded liability pursuant to subsection A of this section within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full.

C. Credited service ceases to accrue as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

D. If the amount in the person's ASRS account is greater than the present value of the benefit or credit, ASRS shall retain the entire account and is not required to refund, credit or offset any excess against future contributions.

E. This section applies to an employer that employs, either directly or indirectly, a person who performs services for a third-party organization and that does not have a written representation by ASRS of the person's eligibility.

F. For the purposes of this section:

1. "Amount in the person's ASRS account" means two times the person's retirement contributions made pursuant to section 38-736:

2. "Interest" means the interest rate assumption that is approved by ASRS for actuarial equivalency.

3. "Unfunded liability" means:

(b) For contributions on compensation that is not eligible by statute or rule for ASRS contributions, the difference, if any, of the amount that the present value of a person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount of the present value of the benefit or credit the person would receive if the ineligible contributions, and the compensation and credit associated with those ineligible contributions, had not been reported to ASRS and the amount in the person's ASRS account that is associated with the ineligible contributions on compensation.

**38-749. Employer termination incentive program; employer payment of actuarial cost; definition**

A. If a termination incentive program that is offered by an employer results in an actuarial unfunded liability to ASRS, the employer shall pay to ASRS the amount of the unfunded liability. ASRS shall determine the amount of the unfunded liability in consultation with its actuary.

B. An employer shall notify ASRS if the employer plans to implement a termination incentive program that may affect ASRS funding.

C. If ASRS determines that an employer has implemented a termination incentive program that results in an actuarial unfunded liability to ASRS, ASRS shall assess the cost of the unfunded liability to that employer. If the employer does not remit full payment of all monies due within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

D. For the purposes of this section, "termination incentive program":

1. Means a total increase in compensation of thirty per cent or more that is given to a member in any one or more years before termination that are used to calculate the member's average monthly compensation if that increase in compensation is used to calculate the member's retirement benefit and that increase in compensation is not attributed to a promotion.

2. Means anything of value, including any monies, credited service or points that the employer provides to or on behalf of a member that is conditioned on the member's termination except for payments to an employee for accrued vacation, sick leave or compensatory time unless the payment is enhanced beyond the employer's customary payment.

### 38-750. Transfers out of the system

A. If an employee has made an irrevocable election pursuant to section 38-747, subsection B or D and transfers participation to another defined benefit retirement system or plan of this state without a termination of employment, within ninety days after the date of the transfer, ASRS shall transfer to the subsequent defined benefit retirement system or plan the amount the employee paid for the purchase of the credited service plus interest as determined by ASRS.

B. If the assets transferred from ASRS are less than the cost of the benefits accrued relative to the credited service as calculated pursuant to section 38-922, subsection B, paragraph 2, and unless a law otherwise provides, the employee shall elect either to pay the difference to the subsequent defined benefit retirement system or plan or accept a reduced amount of service credits. If the employee elects to pay the difference, the amount paid shall be added to the employee's accumulated contribution account balance. If the employee elects to accept a reduced amount of service credits, the amount of service credits granted shall be equal to the amount of service credits purchased multiplied by the ratio of the amount of assets transferred to the amount calculated pursuant to section 38-922, subsection B, paragraph 2.

C. The transferred employee and the employer shall complete the terms of the irrevocable election by making payments to ASRS.

D. If the employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, on termination of employment the employee shall elect to have ASRS:

1. Promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to elect to have the assets transferred within thirty days after termination of employment, the employee is deemed to have made an election as prescribed in paragraph 2.

2. On written request by the employee, promptly return to the employee the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If no application is received by ASRS within sixty days after termination of employment, ASRS shall issue the payment directly to the employee.

E. If the employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, after termination of employment the employee may elect within thirty days of termination of employment to have ASRS promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to make the election under this subsection, ASRS shall deem the employee as an inactive member of ASRS.

F. If an employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is

receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is eligible to transfer to the retirement system or plan, but the election to transfer terminates the benefit from ASRS on the effective date of the transfer.

G. If an employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is not eligible to transfer to another retirement system or plan.

**38-751. Nonparticipatory employer liability allocation; exemption; definitions**

A. ASRS shall establish a separate fund for an employer, other than a charter school, that is no longer participating in ASRS as a result of any of the following:

1. The character of the employer changes from a public entity to a private entity.
2. An employer, other than this state, dissolves.
3. Through legislative action, the employer is no longer enrolling new employees in ASRS or no longer contributing to ASRS on behalf of current employees or groups of employees who otherwise would be eligible for ASRS membership.

B. For a nonparticipating employer described in subsection A of this section, ASRS shall allocate an actuarial accrued liability and a designated asset amount to the nonparticipating employer's separate fund as of the nonparticipation date, which shall be calculated as follows:

1. The actuarial accrued liability shall equal the sum of the plan employer actuarial accrued liability and the LTD program employer actuarial accrued liability. Actuarial accrued liability shall be calculated based on the same actuarial assumptions and methods as the actuarial valuation performed immediately preceding the nonparticipating employer's nonparticipation date.

2. The designated asset amount shall equal the sum of the following:

- (a) The plan employer actuarial accrued liability multiplied by the plan funded percentage.
- (b) The LTD program employer actuarial accrued liability multiplied by the LTD program funded percentage.

C. All monies and securities transferred to the nonparticipating employer's separate fund shall be credited to that fund. A record of the market value and the cost value of such transferred contributions shall be maintained for actuarial and investment purposes. ASRS shall make all decisions regarding the nonparticipating employer's separate fund.

D. After establishing the nonparticipating employer's separate fund, the fund shall be adjusted for all of the following:

1. All contributions made by employees of the nonparticipating employer.
2. All contributions made by the nonparticipating employer.

3. All plan, all LTD program and any other benefits paid to the nonparticipating employer's members who are active, inactive, retired or on long-term disability.

4. All plan, all LTD program and any other benefits paid to the survivors of the nonparticipating employer's members.

5. The applicable share of the investment gains and losses.

6. Expenses associated with the administration of the nonparticipating employer's separate fund, including any administrative, development, actuarial, legal, custodial and investment management costs associated with the fund. These expenses shall be paid directly by the nonparticipating employer or included in the employer's liability for the purposes of determining the employer's contribution rate.

E. After establishing the nonparticipating employer's separate fund, the nonparticipating employer and any employees of that employer who are enrolled in ASRS shall continue to have contribution requirements to the nonparticipating employer's separate fund. The contribution requirements shall be calculated as follows:

1. All employees of the nonparticipating employer who are enrolled in ASRS shall continue to make contributions through payroll deductions based on the contribution rate determined for the employees of participating employers of ASRS pursuant to section 38-736.

2. The nonparticipating employer shall continue to make contributions through lump sum payments in accordance with section 38-735, equal to the sum of:

(a) Contributions owed through payroll deductions based on the contribution rate determined for participating employers pursuant to section 38-737.

(b) The amount required to amortize the past service funding requirement in the nonparticipating employer's separate fund over a period that is determined by the board and that is consistent with generally accepted actuarial standards. In determining the past service funding period, the board shall seek to improve the funded status whenever the nonparticipating employer's separate fund is less than one hundred percent funded.

F. The ASRS actuary shall determine the actuarial assumptions used to determine the contribution requirements for the nonparticipating employer under subsection E of this section. Notwithstanding section 38-737, the contribution for the nonparticipating employer may not be determined as a percentage of compensation due to the anticipated decline of compensation for employees of the nonparticipating employer participating in ASRS. The nonparticipating employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS at a rate that is consistent with the rate paid by the participating employers. Each fiscal year, amounts that are not remitted through payroll contributions pursuant to this section shall be invoiced to the employer and shall be paid within the same fiscal year the nonparticipating employer is invoiced.

G. This section does not permit an employer to alter the irrevocable agreement approved by the board under section 38-729.

H. For the purposes of calculating an employer's liability under this section, members who are active, inactive, retired or on long-term disability are considered employees of the nonparticipating employer

if the member's most recent employer was the nonparticipating employer as of the nonparticipation date.

I. This section does not apply to an employer whose existence was terminated by legislative action or otherwise became a nonparticipating employer as described in subsection A of this section on or before January 1, 2013.

If the percentage is greater than one hundred percent, the plan funded percentage is one hundred percent.

1. At the rate of three percent per year from age sixty to age sixty-five and five percent per year from age fifty to age sixty. The reduction in normal retirement benefits pursuant to this paragraph for an eligible member electing early retirement shall be based on the period from the date of commencement of early retirement benefits to the member's sixtieth birthday if the member has at least twenty years of total credited service, sixty-second birthday if the member has at least ten but less than twenty years of total credited service or sixty-fifth birthday if the member has at least five but less than ten years of total credited service.

The amount of retirement income shall be the actuarial equivalent of the retirement income to which the member would be entitled under normal or early retirement. The election in a manner prescribed by the board shall name the contingent annuitant. The election may be revoked at any time before the member's

effective date of retirement. At any time after benefits have commenced, the member may name a different contingent annuitant or rescind the election by written notice to the board as follows:

G. For the purposes of this section, "designated beneficiary" means any individual designated by the member as the member's beneficiary.

#### **38-763. Survivor benefits after retirement**

B. On the death of a retired member who is receiving benefits, the estate or beneficiary of the member is entitled to receive at least the amount of the member's contribution to ASRS plus interest, as determined by the director, less the benefits distributed by ASRS. benefits or the entire retirement benefit in a lump sum payment based on the actuarial present value of the benefit or the increase in the benefit if the payment of the benefits would result in ineligibility, reduction or elimination of social service programs provided to the member by this state, its political subdivisions or the federal government.

D. The board may pay the entire retirement benefit in a lump sum pursuant to subsection C of this section only if continued membership in ASRS will result in additional requests for lump sum payments based on cost of living adjustments or the establishment of minimum benefit awards.

E. If any benefit that is payable as a series of periodic payments amounts to less than a threshold amount determined by the board, the board, in its sole discretion and based on uniform rules it establishes, may order the amount to be paid in a lump sum. A member who receives a lump sum payment pursuant to this subsection remains a member of ASRS and is eligible for the coverage provided pursuant to section 38-782 and the payment pursuant to section 38-783 but is not eligible for a benefit increase pursuant to section 38-767.

#### **38-765. Errors; benefit recomputation**

If any change or error in the records results in any member or beneficiary receiving from ASRS more or less than the member or beneficiary would have been entitled to receive if the records had been correct, ASRS shall correct the error and as far as practicable shall adjust the payments in a manner so that the actuarial equivalent of the benefit to which the member or beneficiary was correctly entitled is paid. ASRS shall correct any change or error and shall pay the appropriate monies to a member or beneficiary or shall recover monies from the member or beneficiary if the member or beneficiary is overpaid. ASRS shall recover monies by reducing any benefit otherwise payable by ASRS or the LTD program established by article 2.1 of this chapter to an active, inactive, person with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

B. A retired member whose retirement benefits have been suspended pursuant to subsection A of this section shall repay ASRS any retirement benefits received by the member from the date ASRS notifies the member in writing that the member's employment resulted in active membership in ASRS pursuant to subsection A of this section, from the date ASRS determines that the member knew or should have known that the member's employment resulted in membership in ASRS pursuant to subsection A of this section or for any other period that approximates the duration of the violation, as determined by ASRS.

C. A member who satisfies subsection A, paragraph 1 or 2 of this section is entitled to receive an annuity recomputed to include the additional compensation and credited service. However, the recomputed annuity shall be in the original optional form chosen pursuant to section 38-760, with the same beneficiary, if applicable, as when the member first retired, unless the member has resumed active membership for at least sixty consecutive months. A member who retired under a provision of law allowing increased benefits if the retirement occurred during a specific period of time and who subsequently becomes an employee under ASRS shall not retain the increased benefits under the prior law when benefits are computed for the member's most recent retirement.

D. Notwithstanding subsection A of this section, ASRS shall not suspend the payment of retirement benefits if a retired member begins or returns to employment with an employer in a position that satisfies all of the following:

1. Results in a true change in position, job duties and job title from the position occupied by the member before ASRS retirement.

2. Either:

- (a) Requires participation in another state retirement system, plan or program and the retired member makes contributions or waives participation pursuant to section 38-804, subsection A.

- (b) Allows a member to elect to participate in another state retirement system, plan or program and the member makes such an election.

3. Does not require membership in the defined benefit plan established by this article.

E. A retired member who returns to work pursuant to subsection D of this section does not accrue credited service, member service as provided in section 15-1628, subsection B, paragraph 4, additional account balances, retirement benefits or long-term disability program benefits pursuant to article 2.1 of this chapter for the period the retired member returns to work. The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

F. Section 38-769, subsection L applies when determining the maximum benefit that may be paid to a retired member who resumes active membership and subsequently retires.

G. An employer that engaged the retired member to work pursuant to this section shall pay to ASRS an amount equal to the rate established by the actuary pursuant to section 38-766.02, subsection B for the period starting with the first day the retired member began working after retirement through the earlier of:

1. The date the member terminates employment.
2. The date the member resumes active membership pursuant to subsection A of this section and the member and employer are required to make contributions pursuant to section 38-736, 38-737 or 38-738.

**38-766.01. Retired members; return to work**

A. Notwithstanding section 38-766, at a retired member's election, a retired member may return to work and still be eligible to receive retirement benefits if all of the following requirements are satisfied:

1. The retired member has attained the member's normal retirement age.
2. The retired member terminated direct employment with an employer at least three hundred sixty-five consecutive days before returning to work.
3. If the retired member returns to work as a teacher, the retired member's employment is not subject to the requirements prescribed in sections 15-536, 15-538, 15-538.01 and 15-539 through 15-543.

B. Notwithstanding section 38-766 and subsection A of this section, at a retired member's election, a retired member may return to work as a state elected official who is subject to term limits and still be eligible to receive retirement benefits.

C. A retired member's election to return to work under this section is irrevocable for the remainder of the retired member's employment for which the retiree made the election.

D. The retired member shall acknowledge this section in writing and file the acknowledgement with the employer within thirty days after returning to work.

E. An employer of a retired member who returns to work pursuant to this section shall not pay contributions on behalf of the retired member pursuant to section 38-736, 38-737 or 38-797.05.

F. A retired member who returns to work pursuant to this section does not accrue credited service, member service as provided in section 15-1628, subsection B, paragraph 4, additional account balances, retirement benefits or long-term disability program benefits pursuant to article 2.1 of this chapter for the period the retired member returns to work. The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

**38-766.02. Retired members; return to work; employer contribution payments; exception; definitions**

A. Notwithstanding section 38-766.01, subsection E, beginning July 1, 2012, an employer shall pay contributions at an alternate contribution rate on behalf of a retired member who returns to work with an ASRS employer in any capacity in a position ordinarily filled by an employee of the employer or in a position that is similar in duties and responsibilities to that of a position ordinarily filled by an employee of the employer. This subsection applies to a retired member who has reached a normal retirement age or a retired member who retired under section 38-758 if the retired member's retirement benefit has not been suspended pursuant to section 38-766.

B. The ASRS actuary shall determine the alternate contribution rate in an annual valuation performed as of June 30. For the fiscal year beginning on July 1 of the following calendar year, the valuation shall determine the percentage to be applied to the compensation, gross salary or contract fee of a retired member who meets the requirements of this section.

C. The alternate contribution rate shall not be less than two percent in any fiscal year. The alternate contribution rate is equal to the lesser of:

1. The employer contribution rate established by the ASRS actuary pursuant to section 38-737 plus the employer contribution rate established by the ASRS actuary pursuant to section 38-797.06.

2. The total past service funding requirement rate established by the ASRS actuary pursuant to section 38-737 plus the total past service funding requirement rate established by the ASRS actuary pursuant to section 38-797.06.

D. ASRS shall determine the schedule and method of payment of the alternate contribution rate. Subject to section 38-738, subsection A, all contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay the expenses of ASRS. Payments made pursuant to this section by employers become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments as prescribed in section 38-711. ASRS may recover delinquent payments due under this section, together with interest charges as provided in this section, by action in a court of competent jurisdiction against an employer liable for payments or, at the request of the director, ASRS may deduct the delinquent payments and interest charges from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state.

E. An employer of a retired member shall submit any reports, data, paperwork or materials that are requested by ASRS and that are necessary to determine the compensation, gross salary or contract fee associated with a retired member who returns to work or to determine the function, utilization, efficacy or operation of the return to work program.

F. An employer is not required to pay contributions at an alternate contribution rate on behalf of a retired member under subsection A of this section if the retired member returns to work with the employer in a position that is currently filled by an employee of the employer who is an active member and for which the employer is currently required to pay and is paying contributions on behalf of the active member in that same position pursuant to sections 38-736 and 38-737. An employer may pay contributions at an alternate contribution rate for a retired member who meets the requirements for an exemption under this subsection.

G. For contributions made pursuant to subsection F of this section beginning July 1, 2019, if ASRS and the employer determine that the alternate contribution rate does not apply to a retired member who returns to work for whom the employer has paid contributions at the alternate contribution rate,

the employer may request an employer credit, not including interest, for those contributions within ninety days after the end of the fiscal year in which the contributions were paid. If ASRS determines that an employer credit is not feasible, ASRS shall issue a refund to an employer in a form determined by ASRS.

H. For the purposes of this section:

1. "Contract fee" means the gross amount paid to a retired member as an independent contractor minus an amount, not to exceed ten percent, for an administrative fee.
2. "Gross salary" means the gross amount paid to a retired member by a leasing company as salary or wages, including amounts that are subject to deferred compensation or tax shelter agreements, for services rendered or that would have been paid to the retired member except for the member's election or a legal requirement that all or part of the gross amount be used for other purposes.

**38-767. Benefit increases: applicability**

A. For a member whose membership commenced before the effective date of this amendment to this section, effective July 1 of each year, each retired member or beneficiary of a retired member is entitled to receive a permanent benefit increase in the base benefit equal to the amount determined in subsection D of this section if the retired member or beneficiary of a retired member was receiving benefits on or before July 31 of the previous calendar year. The annual permanent benefit increases shall be paid on a monthly basis. The benefit increase shall commence on July 1.

B. The total amount of the percentage increase provided in subsection A of this section shall not exceed four per cent in aggregate for all persons eligible for an increase. The percentage payable from excess investment earnings shall be determined as follows:

1. Determine any excess investment earnings account balance available.
2. Determine the total excess investment earnings as provided in subsection C of this section.
3. Add the amount determined in paragraph 1 of this subsection to the amount determined in paragraph 2 of this subsection.
4. Determine one per cent of the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
5. Divide the amount determined in paragraph 3 of this subsection by the amount determined in paragraph 4 of this subsection. If the quotient is equal to or more than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is four per cent. If the quotient is one or more but less than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is that per cent rounded to the nearest tenth of a per cent. If the quotient is less than one, no benefit increases shall be granted.

C. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are equal to the actuarial present value of benefits for all retired members and beneficiaries as of June 30 of the year prior to the year for which

an increase is being granted multiplied by the positive difference, if any, between the yield rate on the actuarial value of ASRS assets for the fiscal year that ended June 30 of the year prior to the year for which an increase is being granted and eight per cent. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are zero if the yield rate on ASRS assets is less than or equal to eight per cent.

D. The permanent benefit increase for each person entitled to receive an increase pursuant to subsection A of this section shall be determined based on years of credited service as follows:

1. Multiply the percentage determined in subsection B, paragraph 5 of this section by the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
2. Determine the actuarial present value of a one dollar per year of credited service annual increase in the base benefit amounts as of June 30 of the year prior to the year for which an increase is being granted, received by all persons entitled to receive an increase pursuant to subsection A of this section.
3. Divide the amount determined in paragraph 1 of this subsection by the amount determined in paragraph 2 of this subsection.
4. Multiply the amount determined in paragraph 3 of this subsection by the number of years of credited service for each retired member and the number of years of credited service earned by a retired member for each beneficiary entitled to receive an increase pursuant to subsection A of this section.

E. Any excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section from any year that are not used for benefit adjustments for that year are available for future benefit increases in the following years.

F. Monies available for future benefit increases shall earn interest at a rate of eight per cent per year. This interest shall be used to pay the additional benefit increases provided for in subsection G of this section.

G. In addition to a benefit increase pursuant to subsection A of this section, if a retired member who was eligible for an annual benefit increase pursuant to subsection A of this section had more than ten years of credited service, the retired member or beneficiary of the retired member is entitled to receive a benefit increase based on the number of years following retirement as follows:

1. At least five years but less than ten years, a monthly benefit increase equal to the amount determined in subsection H of this section.
2. At least ten years but less than fifteen years, a monthly benefit increase equal to two times the amount determined in subsection H of this section.
3. At least fifteen years but less than twenty years, a monthly benefit increase equal to three times the amount determined in subsection H of this section.

4. At least twenty years but less than twenty-five years, a monthly benefit increase equal to four times the amount determined in subsection H of this section.

5. At least twenty-five years but less than thirty years, a monthly benefit increase equal to five times the amount determined in subsection H of this section.

6. At least thirty years, a monthly benefit increase equal to six times the amount determined in subsection H of this section.

H. The amount of the monthly benefit increase under subsection G of this section for a retired member or beneficiary of a retired member who is entitled to the increase when at least five years but less than ten years have elapsed since the retired member's retirement date is equal to the amount obtained by dividing the amount of interest credited pursuant to subsection F of this section by the amount that equals the sum of:

1. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of one dollar per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least five years but less than ten years have elapsed since the retired members' retirement dates.

2. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of two dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least ten years but less than fifteen years have elapsed since the retired members' retirement dates.

3. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of three dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least fifteen years but less than twenty years have elapsed since the retired members' retirement dates.

4. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of four dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty years but less than twenty-five years have elapsed since the retired members' retirement dates.

5. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of five dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty-five years but less than thirty years have elapsed since the retired members' retirement dates.

6. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of six dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least thirty years have elapsed since the retired members' retirement dates.

I. A member of the defined contribution program administered by ASRS is only eligible for the benefit increases pursuant to this section if the member elects to transfer irrevocably from the defined

contribution program administered by ASRS to the defined benefit program established by this article.

J. The cost of the benefit increases granted pursuant to this section shall be added to the existing liabilities of ASRS.

K. As used in this section, the actuarial present value of benefits for retired members and beneficiaries does not include the value of benefits provided pursuant to section 38-783.

**38-768. Minimum retirement benefit**

A. Notwithstanding any other provision of this article, a retired member or beneficiary who is entitled to a benefit under this article shall receive at least a minimum monthly benefit that is computed pursuant to subsection B of this section if the retired member or beneficiary is at least seventy-five years of age and if the retired member or beneficiary is any of the following:

1. Retired from ASRS with at least twenty years of credited service.
2. A beneficiary of ASRS who is receiving benefits derived from a retired member who had at least twenty years of credited service.
3. A member with at least twenty years of service who irrevocably revokes the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elects to receive benefits under this article.
4. A beneficiary who is receiving benefits derived from a retired member who had at least twenty years of service, who irrevocably revoked the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elected to receive benefits under this article.

B. The minimum monthly benefit provided by subsection A of this section:

1. For retired members, is \$600.
2. For beneficiaries, is the amount determined by paragraph 1 of this subsection and reduced in accordance with the option chosen by multiplying the amount determined by paragraph 1 of this subsection by the actuarial figure for the option chosen and by the percentage of the option chosen.

C. If the minimum monthly benefit pursuant to subsections A and B of this section is more than the retired member's or beneficiary's current monthly benefit, the retired member or beneficiary is eligible to receive a monthly benefit equal to the minimum benefit. If the retired member's or beneficiary's current monthly benefit is more than the minimum benefit, the retired member's or beneficiary's benefit remains the same.

D. A member who receives a lump sum payment pursuant to section 38-764, subsection C is not eligible for a minimum benefit as provided by this section.

**38-769. Maximum retirement benefits; termination; definitions**

A. Notwithstanding any other provision of this article, except as provided in subsection C of this section, the employer provided portion of a member's annual benefit payable in the form of a straight life annuity, at any time within a limitation year, shall not exceed one hundred sixty thousand dollars or a larger amount that is effective as of January 1 of each calendar year, is prescribed by the board and is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount pursuant to this subsection as of the effective date of the increase as prescribed by the United States secretary of the treasury. Benefit increases provided in this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001 shall be provided to all current and former members who have benefits that are limited by section 415(b) of the internal revenue code and who have an accrued benefit under ASRS immediately before July 1, 2001, other than an accrued benefit resulting from a benefit increase solely as a result of the increases provided by this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001.

B. Notwithstanding the limitations of subsection A of this section, the benefits payable to a member are deemed not to exceed the limitations determined under subsection A of this section if the retirement benefits payable to the member under this article do not exceed ten thousand dollars for the limitation year and if an employer has not at any time maintained a defined contribution plan in which the member has participated.

C. The limitations determined under subsection A of this section are subject to the following adjustments:

1. If a member has less than ten years of membership in ASRS, the maximum dollar limitation determined under subsection A of this section shall be multiplied by a fraction, the numerator of which is the number of years, or partial years, of membership in ASRS and the denominator of which is ten. The reduction provided in this paragraph also applies to the ten thousand dollar floor limitation provided in subsection B of this section, except that the reduction applies to years of service with an employer rather than to years of membership in ASRS. The reduction in this paragraph does not reduce the limitations determined under subsection A of this section to an amount less than one-tenth of the limitations as determined without regard to this paragraph.

2. If the member's benefit under ASRS commences before the member reaches sixty-two years of age, the benefit will be limited to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for early retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight

life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity start date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-two, determined without applying the limitations of section 415 of the internal revenue code.

3. If the retirement benefit under ASRS commences after the member reaches sixty-five years of age, the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section on that benefit is increased to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) as adjusted under section 415(d) of the internal revenue code, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for delayed retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity starting date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-five, determined without applying the limitations of section 415 of the internal revenue code.

4. For purposes of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity and that is not subject to section 417(e)(3) of the internal revenue code must be adjusted to an actuarially equivalent straight life annuity that equals either:

(a) For limitation years beginning on or after July 1, 2007, the greater of the annual amount of the straight life annuity, if any, payable under ASRS at the same annuity starting date, and the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using an interest rate of five per cent and the applicable mortality table under section 417(e)(3) of the internal revenue code.

(b) For limitation years beginning before July 1, 2007, the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five per cent interest rate assumption and the applicable mortality table.

5. For the purpose of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity to which section 417(e)(3) of the internal revenue code would apply if that section of the internal revenue code were applicable to ASRS must be adjusted to an actuarially equivalent straight life annuity that equals:

(a) If the annuity starting date is in a plan year beginning on or after July 1, 2006, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest rate assumption and the applicable mortality table.

(iii) The applicable interest rate under section 417(e)(3) of the internal revenue code and the applicable mortality table, divided by 1.05. The stability period during which the applicable interest rate remains constant is the plan year. The look-back month that is used to determine the applicable interest rate during the stability period is the third full calendar month preceding the first day of the stability period. For the purposes of this item, "applicable interest rate" means the annual interest rate on thirty-year treasury securities as specified by the commissioner of the United States internal revenue service for a month in revenue rulings or notices or another guidance published by the commissioner in the internal revenue bulletin.

(b) If the annuity starting date is in a plan year beginning in July 1, 2004 or July 1, 2005, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit payable, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest assumption and the applicable mortality table.

(c) If the annuity starting date is on or after July 1, 2004 and before December 31, 2004, and ASRS applies the transition rule in section 101(d)(3) of the pension funding equity act of 2005 in lieu of the rule in subdivision (b) of this paragraph, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, determined in accordance with internal revenue service notice 2004-78.

6. When calculating the limitations of paragraph 4 or 5 of this subsection, the portion of any joint or survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code shall be disregarded.

D. Subsection C, paragraphs 1 and 2 of this section do not apply to income received from ASRS as a pension, annuity or similar allowance as a result of the recipient developing a disability by personal injury or sickness or to amounts received from ASRS by beneficiaries, survivors or the estate of a member as a result of the death of the member.

E. Notwithstanding any other provision of this section, the annual benefit payable under this article may be reduced to the extent necessary, as determined by the board, to prevent disqualification of ASRS under section 415 of the internal revenue code that imposes additional limitations on the annual benefits payable to members who also may be participating in another tax qualified pension or savings plan of this state. An employer shall not provide employee retirement or deferred benefits if the benefits authorized by this section and as required by federal law result in the failure of ASRS to meet federal qualification standards as applied to public pension plans. The board shall advise affected members of any additional information concerning their annual benefits required by this subsection. All benefits payable pursuant to this subsection shall comply with the limitations of benefits contained in section 415 of the internal revenue code and the final treasury regulations issued under that section. Notwithstanding any provision of this article to the contrary, if the annual benefits within the meaning of section 415 of the internal revenue code for any member exceed the limits of section 415(b) of the internal revenue code and this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

F. If the maximum amount of benefit allowed under section 415 of the internal revenue code is increased after the commencement date of a member's benefit due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to the provisions of section 415(d) of the internal revenue code, the amount of the monthly benefit payable under ASRS to a member whose benefit is restricted due to the provisions of section 415(d) of the internal revenue code shall be increased by the board as of the date prescribed by the United States secretary of the treasury on which the increase shall become effective. The increase shall reflect the increase in the amount of retirement income that may be payable under this article as a result of the cost of living adjustment.

G. In determining the adjustments to the defined benefit dollar limitation authorized by subsection A of this section, the board shall prescribe a larger defined benefit dollar limitation if prescribed by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. An adjustment to the defined benefit dollar limitation prescribed in subsection A of this section is not effective before the first calendar year for which the United States secretary of the treasury publishes the adjustment. After it is prescribed by the board, the new defined benefit dollar limitation applies to the limitation year ending with or within the calendar year for which the secretary of the treasury makes the adjustment.

H. For the purposes of the limitations prescribed by this section, all member and employer contributions made to ASRS to provide a member benefits pursuant to section 38-771 or 38-771.01 and all member contributions that are not treated as picked up by the employer under section 414(h)(2) of the internal revenue code shall be treated as made to a separate defined contribution plan.

I. On termination or partial termination of ASRS, the accrued benefit of each member is, as of the date of termination or partial termination, fully vested and nonforfeitable to the extent then funded.

J. If ASRS terminates, the benefit of any highly compensated employee as defined in section 414(q) of the internal revenue code and any highly compensated former employee is limited to a benefit that is nondiscriminatory under section 401(a)(4) of the internal revenue code and as follows:

1. Benefits distributed to any of the twenty-five active and former highly compensated employees with the greatest compensation in the current or any prior fiscal year are restricted so that the annual payments are no greater than an amount equal to the payment that would be made on behalf of the member under a straight life annuity that is the actuarial equivalent of the sum of the member's accrued benefit, the member's other benefits under ASRS, excluding a social security supplement as defined in 26 Code of Federal Regulations section 1.411(a)-7(C)(4)(ii), and the amount the member is entitled to receive under a social security supplement.

2. Paragraph 1 of this subsection does not apply if either:

(a) After payment of the benefit to a member described in paragraph 1 of this subsection, the value of ASRS assets equals or exceeds one hundred ten per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS.

(b) The value of the benefits for a member described in paragraph 1 of this subsection is less than one per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS before distribution.

(c) The value of the benefits payable by ASRS to a member described in paragraph 1 of this subsection does not exceed three thousand five hundred dollars.

K. For the purposes of subsection J of this section, "benefit" includes loans in excess of the amount prescribed in section 72(p)(2)(A) of the internal revenue code, any periodic income, any withdrawal values payable to a living member and any death benefits not provided for by insurance on the member's life.

L. On retirement of a member who was a retired member, who resumed active membership and who subsequently retires, the limitations of this section in effect on the member's subsequent retirement apply to the member's retirement benefit payable as recomputed pursuant to section 38-766. In

addition, the sum of the present value of the member's recomputed retirement benefits plus the present value of the benefits the member received during the member's prior retirement shall not exceed the present value of the limitations in effect on the member's subsequent retirement. The limitations prescribed in this subsection shall not reduce a member's retirement benefit below the retirement benefit the member was receiving before the member resumed active membership. For the purposes of determining present value under this subsection, the board shall use the actuarial equivalent assumptions provided in section 38-711, paragraph 2.

M. For the purposes of this section:

1. The following adjustments shall be made to the definition of compensation prescribed in subsection O of this section:

(a) Compensation shall be adjusted for the types of compensation that are prescribed in this paragraph and that are paid after a member's severance from employment with an employer. Amounts described in subdivisions (b), (c) and (d) of this paragraph may be included only as compensation to the extent the amounts are paid by the later of two and one-half months after severance from employment or by the end of the limitation year that includes the date of the severance from employment. Any other payment of compensation paid after severance of employment that is not described in the types of compensation prescribed in this paragraph is not considered compensation for purposes of this section, even if payment is made within the time period prescribed in this subdivision.

(b) Compensation shall include regular pay after severance of employment if the payment is regular compensation for services performed during the member's regular working hours or compensation for services performed outside the member's regular working hours, such as overtime or shift differential, commission, bonus or other similar payments, and the payment would have been paid to the member before a severance from employment if the member had continued in employment with the employer.

(c) Leave cash-outs shall be included in compensation if those amounts would have been included in compensation if they were paid before the member's severance from employment and the amounts are payment for unused accrued bona fide sick, vacation or other leave, but only if the member would have been able to use the leave if employment had continued.

(d) Deferred compensation shall be included in compensation if the compensation would have been included in compensation if it had been paid before the member's severance from employment and the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid at the same time if the member had continued in employment with the employer and only to the extent that the payment is includable in the member's gross income.

(e) Compensation does include payments to an individual who does not currently perform services for an employer by reason of qualified military service as defined in section 414(u)(5) of the internal revenue code to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(f) Compensation does not include compensation paid to a member who is a person with a permanent and total disability as defined in section 22(e)(3) of the internal revenue code.

(g) Compensation shall include amounts that are includable in the gross income of a member as required by section 409A or section 457(f)(1)(A) of the internal revenue code or because the amounts are constructively received by the member.

2. Compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

3. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate a member for lost wages are compensation for the limitation year to which the back pay relates, but only to the extent the payments represent wages and compensation that would otherwise be included in compensation under this section.

N. The definition of limitation year prescribed in subsection O of this section may only be changed by an amendment to subsection O, except that if ASRS is terminated effective as of a date other than the last day of the limitation year, the termination shall be treated as if this section has been amended to change the definition of limitation year.

O. For the purposes of this section:

1. Annual additions shall be determined as provided in section 38-747, subsection O.

2. "Annual benefit" means a benefit, including any portion of a member's retirement benefit payable to an alternate payee under a qualified domestic relations order that satisfies the requirements prescribed in section 414(p)(1)(A)(i) of the internal revenue code and section 38-773, payable annually in the form of a straight life annuity, disregarding the portion of a joint and survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code, with no ancillary or incidental benefits or rollover contributions and excluding any portion of the benefit derived from member contributions or other contributions that are treated as a separate defined contribution plan under section 415 of the internal revenue code but including any of those contributions that are picked up by the employer under section 414(h) of the internal revenue code, or that otherwise are not treated as a separate defined contribution plan. If the benefit is payable in another form, the determination as to whether the limitation described in subsection A of this section has been satisfied shall be made by the board by adjusting the benefit so that it is actuarially equivalent to the annual benefit described in this paragraph in accordance with the regulations promulgated by the United States secretary of the treasury. In addition, for determining the annual benefit attributable to member contributions, the factors described in section 411(c)(2)(B) of the internal revenue code and the regulations promulgated under the internal revenue code shall be used by the board regardless of whether section 411 of the internal revenue code applies to ASRS. The factors described in section 411(c)(2)(B) of the internal revenue code shall be those factors described under section 417(e)(3) of the internal revenue code and determined on the basis of the 417(e) mortality table and an interest rate as prescribed in subsection C, paragraph 5 of this section.

3. "Applicable mortality table" means the mortality table described in internal revenue service revenue ruling 2001-62.

4. "Compensation" means the member's earned income, wages, salaries, fees for professional service and other amounts received for personal services actually rendered in the course of employment with the employer and includes amounts described in sections 104(a)(3) and 105(a) of the internal revenue code, but only to the extent that these amounts are includable in the gross income of the member. Compensation also includes any elective deferral as defined in section 402(g)(3) of the internal revenue code and any amount that is contributed or deferred by an

employer at the election of a member and that is not includable in the gross income of the member by reason of section 125, 132(f)(4) or 457 of the internal revenue code. Compensation does not mean:

(a) Employer contributions to a plan of deferred compensation to the extent the contributions are not included in the gross income of the employee for the taxable year in which contributed and any distributions from a plan of deferred compensation, regardless of whether the amounts are includable in gross income of the employee when distributed, except that any amount received by a member pursuant to an unfunded nonqualified plan may be considered as compensation for the purposes of this section in the year the amounts are includable in the gross income of the member under the internal revenue code.

(b) Other amounts that receive special tax benefits, such as premiums for group term life insurance, but only to the extent that the premiums are not includable in the gross income of the employee, qualified transportation fringe benefits as defined in section 132 of the internal revenue code and, effective for plan years beginning from and after December 31, 1987, any amounts under section 125 of the internal revenue code that are not available to a member in cash in lieu of group health coverage because the member is unable to certify that the member has other health coverage.

5. "Defined benefit dollar limitation" means the dollar limitation determined under subsection A of this section.

6. "Defined benefit plan" has the same meaning prescribed in section 414(j) of the internal revenue code.

7. "Defined contribution plan" has the same meaning prescribed in section 414(i) of the internal revenue code.

8. "Limitation year" and "years of service" mean the fiscal year.

### 38-770. [Eligible rollover distribution: definitions](#)

A. Notwithstanding any other provision of this article that would limit a distributee's election under this section, a distributee may elect, at any time and in the manner prescribed by the board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

B. An eligible rollover distribution may commence less than thirty days after the notice required under section 402(f) of the internal revenue code is given to the distributee, provided that both:

1. ASRS clearly informs the distributee that the distributee has a right to a period of at least thirty days after receiving the notice to consider the decision of whether or not to elect a direct rollover.

2. The distributee, after receiving the notice, affirmatively elects a distribution.

C. In addition to the other elections allowed in this section, effective for distributions made from and after December 31, 2006, a designated beneficiary of a member who is not the member's surviving spouse may elect, at any time and in the manner prescribed by ASRS, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan described in subsection D,

paragraph 3, subdivisions (a) and (b) of this section. For the purposes of this subsection, "designated beneficiary" has the same meaning prescribed in section 38-775.

D. For the purposes of this section:

1. "Direct rollover" means a payment by ASRS to the eligible retirement plan specified by the distributee.

2. "Distributee" means a member, a member's surviving spouse or a member's spouse or former spouse who is the alternate payee under an acceptable domestic relations order as defined in section 38-773.

3. "Eligible retirement plan" means any of the following that accepts a distributee's eligible rollover distribution:

(a) An individual retirement account described in section 408(a) of the internal revenue code.

(b) An individual retirement annuity described in section 408(b) of the internal revenue code.

(c) An annuity plan described in section 403(a) of the internal revenue code.

(d) A qualified trust described in section 401(a) of the internal revenue code.

(e) An annuity contract described in section 403(b) of the internal revenue code.

(f) An eligible deferred compensation plan described in section 457(b) of the internal revenue code that is maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state and that agrees to separately account for amounts transferred into the eligible deferred compensation plan from ASRS.

(g) Beginning January 1, 2008, a Roth individual retirement account described in section 408A of the internal revenue code.

(h) For distributions made after December 18, 2015, a simple retirement account that satisfies the requirements of section 408(p) of the internal revenue code.

4. "Eligible rollover distribution" means distribution of all or any portion of the balance to the credit of the distributee but does not include any of the following:

(a) Any distribution that is one of a series of substantially equal periodic payments made not less frequently than annually for the life or life expectancy of the member or the joint lives or joint life expectancies of the member and the member's designated beneficiary or for a specified period of ten years or more.

(b) Any distribution to the extent the distribution is required under section 401(a)(9) of the internal revenue code.

(c) Except as provided in this paragraph, the portion of any distribution that is not includable in gross income. A distribution does not fail to be an eligible rollover distribution merely because the portion

consists of after-tax employee contributions that are not includable in gross income if the portion is paid only to an individual retirement account or annuity described in section 408(a) or 408(b) of the internal revenue code, to a qualified plan described in section 401(a) of the internal revenue code or an annuity contract described in section 403(b) of the internal revenue code that agrees to separately account for amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income.

(d) Any distribution that is made due to hardship of the member.

**38-771. Benefit options for transferred defined contribution program members: definitions**

A. On or before December 31, 1995 a nonretired ASRS member who was a member of the defined contribution program administered by ASRS and who was transferred to the defined benefit program established by this article on July 1, 1981 shall elect to receive either retirement benefits provided under this section or retirement benefits as otherwise provided by this article. An election under this subsection is irrevocable. A member who fails to make an election under this subsection is deemed to have elected to receive retirement benefits provided under this section.

B. A member who elects to receive retirement benefits provided under this section is eligible only for those benefits.

C. If a member elects to receive retirement benefits provided under this section, the member shall elect to receive retirement benefits based on either of the following:

1. The contributions paid by the member and member's employer, plus all earnings attributed to the member's retirement account, through the member's retirement date.
2. Except as provided in subsections E and F of this section, contributions paid by the member and member's employer at the contribution rate in effect before July 1, 1975 and an employee and employer contribution rate of seven per cent calculated from July 1, 1975, plus all earnings attributed to the member's retirement account, through the member's retirement date.

D. Notwithstanding sections 38-736 and 38-737, members who elect to receive retirement benefits provided under this section and their employers shall each make contributions at a rate of seven per cent of the member's compensation and, beginning on July 1, 1998, employers shall make contributions to ASRS on behalf of their respective members who have elected to receive retirement benefits provided under this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for those retired members and their dependents as provided under section 38-783. Member contributions pursuant to this subsection shall be salary reduction contributions pursuant to section 38-747, subsections C and D.

E. Subject to subsection F of this section, if a member desires to receive retirement benefits based on subsection C, paragraph 2 of this section, the member shall make the election on or before June 30, 1999 and during the member's active employment. The election shall be made in accordance with section 38-747, subsections C, D and H. If a member elects to receive retirement benefits based on subsection C, paragraph 2 of this section, both the member and the member's employer shall pay to ASRS the difference between the contributions made and seven per cent of the member's gross compensation from July 1, 1984 through December 31, 1995. If a member elects to have the member's employer make payments for all or a portion of the contributions pursuant to section 38-747, subsection D, the member's employer shall make the contributions as required by

section 38-747, subsection D. If a member elects to make contributions pursuant to section 38-747, subsection H, both the member and the member's employer shall pay to ASRS the portion of the difference between the total required contributions and that portion of the required contributions that the member has elected to have the member's employer pay pursuant to section 38-747, subsection D. The member's employer shall make the employer's contributions attributable to a member's period of employment before July 1, 1999 in a single lump sum payment at the time and computed in the manner prescribed in section 38-771.01, subsections G and H. If a member elects pursuant to subsection C, paragraph 2 of this section to have contributions made or to make contributions pursuant to section 38-747, subsection D or H for less than the full amount permitted by this subsection the member's benefits shall be computed only with reference to the contributions actually made. A member shall make an election pursuant to this section with respect to contributions to be made by the member before July 1, 1999. This election shall remain in full force and effect on and after July 1, 1999 and may be modified or revoked by the member only if the modification or revocation is specifically authorized in section 38-747. Section 38-771.01 governs any elections made by a member with respect to contributions to be made by the member to ASRS on or after July 1, 1999.

F. Contributions made to ASRS by a member and the member's employer pursuant to subsections D and E of this section shall not exceed, in any one limitation year, the limits of section 38-747, subsection E. If for any reason, the member and employer contributions to ASRS made pursuant to subsections D and E of this section would, at the time such contributions are due, taking into account other employer and member contributions due to ASRS for the limitation year, exceed the limits of section 38-747, the amount to be paid by the member and the member's employer under subsection E of this section shall be proportionately reduced and such reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days of the beginning of such limitation year, unless the limits of section 38-747 would again be exceeded, in which event this procedure will be repeated until all such contributions have been made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires prior to making all contributions under subsections D and E of this section because of the limitations of section 38-747, the member's benefits under this section shall be calculated only with reference to the contributions actually made. For purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

G. A member who elects to receive retirement benefits provided under this section is subject to the provisions of section 38-771.01, subsection K that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article.

H. ASRS shall handle all retirement accounts of members who elect retirement benefits provided under this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits provided under this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

I. The election of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

J. For purposes of this section:

1. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

2. "Retirement account" means the combined member and employer contributions with interest or earnings on the contributions including any allocations credited as employer contributions.

38-771.01. Alternative benefits for transferred defined contribution program members; definitions

A retired or nonretired ASRS member who was a member of the defined contribution program administered by ASRS, who was transferred to the defined benefit program established by this article on July 1, 1981, who is determined by ASRS to qualify under paragraph 1 of this subsection and who is not excluded under paragraph 2 of this subsection shall receive defined contribution benefits pursuant to this section, or, if greater, defined benefit retirement benefits pursuant to this article. A retired or nonretired ASRS member qualifies or is excluded under this section based on the following criteria:

1. A member is entitled to receive benefits under this section only if the member satisfies at least one of the following requirements:

(a) Is not retired as of July 1, 1999 even though the member may have previously elected to receive benefits under the defined benefit program established by this article, may have transferred employment between or among employers on or after July 1, 1981 or may have terminated employment on or after July 1, 1981 and after that termination date returned to employment with an employer.

(b) Retired on or after July 1, 1984 and elected to receive benefits under the defined benefit program established by this article.

(c) Retired on or after July 1, 1984 and is receiving benefits under the defined contribution program administered by ASRS.

(a) The member retired before July 1, 1984.

(b) The member is entitled to receive benefits pursuant to section 38-771 and has paid to ASRS pursuant to section 38-771 before July 1, 1999 the entire amount that is attributable to service performed on or after July 1, 1984 and that is equal to the contribution rate of seven per cent of compensation, the contribution has been matched by an equal contribution to ASRS by the member's employers and all applicable earnings and supplemental credits have been credited for the member's account.

(c) The member withdrew the member's contributions from the defined contribution program administered by ASRS and, as of July 1, 1999, is not entitled to any benefit under the defined contribution program administered by ASRS.

(d) The member transferred the member's benefits under either the defined benefit program established by this article or the defined contribution program administered by ASRS to any other retirement system.

B. A beneficiary is entitled to receive benefits pursuant to this section only if the beneficiary satisfies the requirements of paragraph 1 of this subsection and is not excluded under paragraph 2 of this subsection based on the following criteria:

1. The beneficiary is a beneficiary of a retired or nonretired member who qualifies for benefits under subsection A, paragraph 1 of this section, is not excluded under subsection A, paragraph 2 of this section and as of July 1, 1999 either:

(a) Is receiving a monthly benefit from the defined benefit program established by this article or the defined contribution program administered by ASRS.

(b) Is living, is a survivor of a deceased retired or nonretired member and elected to receive a lump sum distribution of the survivor benefit that was payable on the death of the member.

2. Even if the beneficiary satisfies the requirements of paragraph 1 of this subsection, a beneficiary is not entitled to receive benefits under this section if the beneficiary is a beneficiary of a deceased retired member who elected a form of benefit under either the defined benefit program established by this article or the defined contribution program administered by ASRS that did not provide for survivor benefits after the death of the retired member.

C. A member or a deceased member's beneficiary who receives benefits pursuant to this section shall receive benefits based on the sum of the following:

1. Contributions paid by the member and the member's employer at the contribution rates in effect before July 1, 1984, together with all applicable earnings and supplemental credits on those contributions.

2. Contributions paid by the member's employer at the contribution rates in effect beginning on July 1, 1984 through the earlier of June 30, 1999 or the member's retirement or death, together with all applicable earnings and supplemental credits on those contributions computed through the earlier of June 30, 1999 or the member's retirement or death.

3. The excess of employer contributions computed at the rate of seven per cent of compensation beginning on July 1, 1984 through June 30, 1999 over the actual contributions paid by the member's employer as described in paragraph 2 of this subsection, together with all earnings and supplemental credits that would have been earned on those excess contributions computed from the date the contributions would have been paid to ASRS.

4. Contributions paid by the member at the contribution rate in effect on and after July 1, 1984, together with all earnings on those contributions.

5. With respect to member contributions that were not paid to ASRS before July 1, 1999 pursuant to section 38-771, subsection C, paragraph 2, forty per cent of the earnings that would have been credited on those contributions through the earlier of June 30, 1999 or the member's retirement or death as if those member contributions had been paid.

6. Contributions paid by the member to ASRS before July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with all earnings on those contributions.

7. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with earnings on those contributions.

8. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to this section, together with earnings on those contributions.

9. Contributions paid by the member's employer to ASRS on or after July 1, 1999 pursuant to this section, together with all applicable earnings and supplemental credits on those contributions.

D. Effective on July 1, 1999, ASRS shall adjust the retirement account reserves under the defined contribution program administered by ASRS for retired members and the beneficiaries of deceased retired members entitled to benefits pursuant to this section to give effect to additional contributions, earnings and supplemental credits for those retired members prescribed in subsection C, paragraphs 1 through 6 of this section for the periods of the members' employment before July 1, 1999 and to give effect to the recomputation, adjustment and payment of benefits pursuant to subsection G of this section. After this recomputation, adjustment and payment, ASRS shall credit and charge these retirement account reserves with the amounts prescribed under the defined contribution program administered by ASRS based on the adjustments prescribed in this section.

E. Effective on July 1, 1999, ASRS shall adjust each nonretired member's accounts under the defined contribution program administered by ASRS to equal the sum of the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section with respect to periods of a member's employment before July 1, 1999. After the adjustment, these accounts shall accrue applicable interest and supplemental credits based on the entire amounts credited to the accounts.

F. For periods of a nonretired member's employment on or after July 1, 1999, a nonretired member who is entitled to receive benefits pursuant to this section and the nonretired member's employer shall each make contributions to ASRS at the rates established pursuant to sections 38-736 and 38-737, except as follows:

1. If a nonretired member made an election pursuant to section 38-771, subsection C, paragraph 2 and section 38-747, subsections C and D before July 1, 1999, the member's employer shall continue to make pickup contributions to ASRS on behalf of the member pursuant to the member's election, except that with respect to employer contributions that are required pursuant to section 38-771, subsection E for periods of a member's employment before July 1, 1999, the employer shall make a lump sum payment to ASRS as computed pursuant to subsection G of this section and required to be paid to ASRS pursuant to subsection H of this section.

2. If a nonretired member elected or was deemed to have elected benefits pursuant to section 38-771 before December 31, 1995, for periods of a member's employment from and after the election or deemed election the nonretired member's employer and the member shall each continue to pay to ASRS an amount equal to seven per cent of the member's compensation in lieu of the rates established pursuant to sections 38-736 and 38-737.

3. A nonretired member who is entitled to receive benefits pursuant to this section and who never elected to receive benefits pursuant to section 38-771 may elect pursuant to section 38-747, subsections C and D to make contributions at the rate of seven per cent of the member's compensation for periods of a member's employment on or after July 1, 1999. If a member makes an election pursuant to this paragraph, the election is irrevocable as provided in section 38-747,

subsection D and the member and the member's employer shall each make contributions at a rate of seven per cent of the member's compensation beginning on the effective date of the election.

4. A nonretired member who is entitled to receive benefits pursuant to this section may elect pursuant to section 38-747, subsections C, D and H to make contributions with respect to member contributions that were not made to ASRS but that could have been made pursuant to section 38-771, subsection C, paragraph 2 for periods of employment before July 1, 1999 other than member contributions for which an irrevocable election pursuant to section 38-747, subsections C and D was in effect before July 1, 1999.

5. In addition to any other employer contributions required pursuant to this section, a nonretired member's employer shall make contributions to ASRS on behalf of the nonretired member who will receive retirement benefits pursuant to this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for the nonretired member and the nonretired member's dependents as provided under section 38-783.

6. Notwithstanding any other provision of this article, an election permitted pursuant to this section shall not revoke, amend or alter any irrevocable election made by a member before July 1, 1999 pursuant to sections 38-747 and 38-771.

G. Effective on July 1, 1999, ASRS shall recompute the monthly and annual benefits for retired members entitled to receive benefits pursuant to this section and the monthly or lump sum survivor's benefits payable to beneficiaries entitled to receive benefits pursuant to this section. The recomputation of benefits shall be as if the member's retirement account or retirement reserve account on the date of retirement or death had been computed based on the amounts that would have been credited to the account as of that date based on the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section. In addition and after recomputing benefits described in this subsection, with respect to members who retired on or after July 1, 1984, ASRS shall recompute the annual payments that would have been made to the member or beneficiary of a deceased member entitled to receive benefits under this section in excess of the annual payments actually made. The recomputation shall be calculated and paid as follows:

1. The recomputation shall be calculated and paid based on the member's and, if applicable, the member's beneficiary's age, the benefit option selected at the date of the initial benefit payments and the actuarial assumptions used by ASRS at the time the initial benefit payments were computed.

2. Before July 1, 2000, ASRS shall pay to the retired member or beneficiary in a lump sum the difference between the recomputed amount and the actual distributions paid to the member or beneficiary through July 1, 1999, together with interest at the rate of eight per cent a year, compounded monthly, computed from the date each excess payment should have been paid through the date of payment to the retired member or beneficiary.

3. If the retired member is living, ASRS shall pay the lump sum payment to the member. If the member is deceased and is survived by a beneficiary who is then living and receiving a monthly benefit on account of the deceased member, ASRS shall pay the lump sum payment to the beneficiary. The payment to the beneficiary shall include the recomputed amount that is payable pursuant to this section and that would have been paid to the member through the date of the member's death plus the recomputed amount that is payable pursuant to this section and that would have been payable to the beneficiary from the member's date of death. Section 38-770 applies to a payment to a member or the member's beneficiary who is the surviving spouse of the member, if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

4. With respect to a beneficiary who is a survivor of a deceased nonretired member who would have been entitled to benefits under this section and who elected a lump sum distribution of the survivor benefit that was payable on the death of the nonretired member, ASRS shall pay the recomputed amount in a lump sum to the beneficiary. If the beneficiary is the surviving spouse of the member, section 38-770 applies to the payment.

5. Effective on July 1, 1999, ASRS shall increase the member's or beneficiary's monthly and annual benefit to the recomputed amount. After that adjustment, ASRS shall adjust the member's or beneficiary's annual benefit as otherwise provided under the defined contribution program administered by ASRS.

H. Before July 1, 2002, the employer of each nonretired or retired member or deceased member who has a beneficiary entitled to adjustments and payments pursuant to subsections E and G of this section for periods of a member's employment before July 1, 1999 shall pay to ASRS in one or more installments those amounts required by ASRS to make the recomputations and adjustments pursuant to this section. ASRS shall determine the amount to be paid by the employer to ASRS as of July 1, 1999, plus interest at the rate of eight per cent a year, compounded monthly, from July 1, 1999 through the date the payment is made by the employer to ASRS. Any payments by the employer shall first be applied to accrued and unpaid interest and then to the amount to be paid by the employer to ASRS. ASRS shall allocate the payment to the assets maintained under the defined contribution program administered by ASRS. When determining the amounts required to be paid by employers for the recomputations and adjustments pursuant to this section, ASRS first shall transfer on July 1, 1999 from the assets maintained by ASRS under the defined benefit program established by this article to the assets maintained by ASRS under the defined contribution program administered by ASRS an amount equal to the sum of the defined benefit program equity balances of the retired and nonretired members or their beneficiaries whose benefits are transferred from the defined benefit program to the defined contribution program pursuant to this section, except that the amount transferred for any member or beneficiary shall not be more than the amount required to fund the recomputations and adjustments required by this section for the member or beneficiary. The defined benefit program equity balance for a member or beneficiary of a deceased member shall equal the sum of the member's employee and employer account balances on the earlier of June 30, 1999 or the member's retirement or death, less the monthly annuity payments to a retired member or beneficiary, plus the earnings on the average balance of that amount for a plan year.

I. If a member retired before July 1, 1999, elected to receive benefits pursuant to section 38-771, subsection C, paragraph 2 and did not make all contributions pursuant to section 38-771, subsection E because of the limitations prescribed in section 38-747, subsection E, the member has the option of receiving the employer contributions prescribed in subsection C, paragraphs 3 and 5 of this section in a lump sum payment. If the retired member elects to receive a lump sum payment, ASRS shall pay the amount on or before July 1, 2000 and the amount shall be deducted from the member's account when computing the annuity benefits to which the member is otherwise entitled pursuant to this section. In no case shall the payment under this subsection duplicate the payment under subsection G of this section. Section 38-770 applies to a payment to a member under this subsection if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

J. Contributions made to ASRS by a member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall not exceed, in any one limitation year, the limits prescribed in section 38-747, subsection E. If for any reason the member and applicable employer contributions made pursuant to subsection F of this section would at the time the contributions are due, taking into account other annual additions due to ASRS for the limitation year, exceed the limits prescribed in section 38-747,

subsection E, the amount to be paid by the member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall be proportionately reduced and the reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days after the beginning of that limitation year, unless the limits prescribed in section 38-747, subsection E would again be exceeded. If the limits are exceeded again, the procedure prescribed in this subsection shall be repeated until all of the contributions are made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires before making all contributions pursuant to this section because of the limitations prescribed in section 38-747, subsection E, the member's benefits pursuant to this section shall be computed only with reference to the contributions actually made. For the purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

K. Unless otherwise provided in this section, a member who receives retirement benefits pursuant to this section and section 38-771 is subject to conditions that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article. Those conditions include the following:

1. A member who attains sixty-five years of age may retire and, on application, shall receive a life annuity derived from the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity is payable in equal monthly installments. The amount of the installments is based on the age of the member at the date of commencement of retirement and is determined by the interest and life expectancy tables applicable at the date of the commencement of retirement.
2. If a retired member who is receiving retirement benefits pursuant to this section dies before receipt of annuity payments in an amount equal to the member's retirement account balance immediately before retirement, ASRS shall pay the member's designated beneficiary or estate in a lump sum the difference between the retirement account balance and the total amount of annuity payments received.
3. A member who attains sixty-five years of age with at least five years of creditable service may retire and, on application, may elect to receive in lieu of the annuity payments from the member's prior service, if any, together with a life annuity derived from the member's retirement account as provided in paragraph 1 of this subsection, the actuarial equivalent of those retirement benefits under one of the options established by the board.
4. A member who attains sixty years of age with at least five years of creditable service may retire and, on application, may receive a life annuity derived from the actuarial equivalent of the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity shall be determined and paid in the manner set forth in paragraph 1 of this subsection.
5. In lieu of the retirement benefits pursuant to paragraph 4 of this subsection, on application, a member may elect to receive the actuarial equivalent of those retirement benefits under one of the options established by the board.
6. If a retired member who is receiving retirement benefits pursuant to this section is engaged to work by an employer for twenty or more weeks in a fiscal year and twenty hours or more a week, the member's retirement benefit payments pursuant to this section are suspended until the member terminates employment. On return to employment, the member shall accrue benefits pursuant to this

section, unless the member elects to be covered by the defined benefit program established by this article. If a formerly retired member elects to be covered by the defined benefit program established by this article, the formerly retired member shall be an active member in the defined benefit program with respect to all service performed after the member's return to work and shall not accrue additional benefits pursuant to this section. Notwithstanding the other provisions of this paragraph, if a retired member begins or returns to employment as an elected official or to any other type of service or employment that does not require the retired member to begin active membership in the defined contribution program administered by ASRS or the defined benefit program established by this article, the payment of retirement benefits pursuant to this section shall not be terminated, withheld or interrupted because of beginning or returning to the service or employment or holding the elected office, unless the formerly retired member actually elects to recommence active participation in the defined benefit program established by this article or pursuant to this section.

7. On termination of employment of a retired member previously receiving retirement benefits pursuant to this section, ASRS shall reinstate the member's retirement benefits pursuant to this section and, on reinstatement of retirement benefits, the benefit shall be recomputed on the basis of the member's attained age and shall be adjusted for retirement benefits previously received and additional contributions, interest and supplemental credits accrued during the period of employment. On this reinstatement of retirement benefits, if the member elected to be covered by the defined benefit program established by this article on the member's return to employment, the member is also entitled to receive retirement benefits pursuant to the defined benefit program established by this article for the credited service earned by the member after the member's active membership in the defined benefit program established by this article began.

L. ASRS shall handle all retirement accounts of members who elect retirement benefits provided pursuant to this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits pursuant to this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

M. The receipt of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

N. The board may administer and interpret this section in order to prevent any duplication of benefits provided by ASRS and the defined contribution program administered by ASRS and to provide all eligible members and beneficiaries with the benefits they are entitled to under the laws of this state.

O. For purposes of this section:

1. "Beneficiary" means the individual designated by the member in writing on forms approved by ASRS to receive benefits pursuant to this article after the death of the member.

2. "Creditable service" means service after April 8, 1953 in a position not subject to the defined contribution program administered by ASRS, prior service and membership service.

3. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

4. "Pension" means equal monthly installments that are derived from a member's prior service credits and that are payable during the member's lifetime after retirement.

5. "Prior service" means service for this state or a political subdivision before membership in the defined contribution program administered by ASRS.

6. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a pension on retirement.

7. "Retirement account" means the combined member and employer contributions with applicable interest and supplemental credits on the contributions as computed pursuant to subsection C of this section.

8. "Service" means any compensated employment by the state or a political subdivision and includes periods of nonpaid leave, including military leave, provided employment has not been terminated at the commencement of the leave period and employment is state service for retirement purposes or service for any political subdivision establishing a defined contribution program administered by ASRS.

#### 38-772. Prior service under defined contribution program administered by ASRS; definitions

A. Amounts required of employers as provided in section 38-737, subsections A and B are in addition to any payments required of employers on behalf of prior service credits under the defined contribution program administered by ASRS arising from members of ASRS. Payments made to ASRS on behalf of members with those prior service credits shall reduce by that amount the payments required to be paid to the defined contribution program administered by ASRS for those prior service credits.

B. Notwithstanding section 38-757, subsection B, any prior service credits to which the member was entitled under the defined contribution program administered by ASRS shall be added to the product of section 38-757, subsection B, paragraphs 1 and 2.

C. For the purposes of this section:

1. "Prior service" means service for this state or a political subdivision of this state before membership in the defined contribution program administered by ASRS.

2. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a retirement benefit.

#### 38-773. Benefit payments to alternate payee under acceptable domestic relations order; termination of marriage; revocation of beneficiary designation; definitions

A. The board shall review any domestic relations order to which a member is a party and that is submitted to the board to determine if the domestic relations order is acceptable under this section. After a determination that a domestic relations order is acceptable under this section, the board shall notify the member and the named alternate payee of the board's acceptance of the domestic relations order, and ASRS shall pay benefits in accordance with the applicable requirements of the order.

B. An acceptable domestic relations order shall:

1. Not require the board to provide any type, form or time of payment of severance, survivor or retirement benefits or any severance, survivor or retirement benefit option that is not provided under this article.
2. Value the member's benefit on the earliest date of service of the petition for annulment, dissolution of marriage or legal separation.

C. An acceptable domestic relations order shall specify all of the following:

1. The name and last known mailing address of the member.
2. The name and last known mailing address of each alternate payee who is covered by the order.
3. The method of determining the amount of the member's severance, survivor or retirement benefits to be paid by ASRS to each alternate payee covered by the order.
4. The number of payments or period to which the order applies.

D. Except as provided by the express terms of a domestic relations order, the divorce or annulment of a member's marriage revokes any revocable:

1. Disposition or appointment of benefits made by a divorced member to that member's former spouse or to a relative of the divorced member's former spouse in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse.
2. Provision in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse conferring any power or right on the divorced member's former spouse or on a relative of the divorced member's former spouse.

E. ASRS shall give effect to provisions of an instrument executed by a member before the divorce or annulment of the member's marriage to a former spouse as follows:

1. In the case of disposition or appointment of benefits, as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section.
2. In the case of a revoked power or right, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

F. Provisions of an instrument revoked solely as provided by this section are revived by the divorced member's remarriage to the former spouse or by a nullification of the member's divorce or annulment.

G. If an alternate payee predeceases the member, amounts payable to the alternate payee cease on the death of the alternate payee. ASRS shall cause the amount formerly payable to the alternate payee to revert to the member.

H. For the purposes of this section:

1. "Domestic relations order" means any judgment, decree, order or approval of a property settlement agreement entered in a court of competent jurisdiction that:

(a) Relates to marital property rights of a spouse or former spouse.

(b) Creates or recognizes in the spouse or former spouse the existence of an alternate payee's right to severance, survivor or retirement benefits.

(c) Assigns the spouse or former spouse as alternate payee the right to receive all or part of the severance, survivor or retirement benefits payable to the member.

2. "Relative of the divorced member's former spouse" means a person who is related to the divorced member's former spouse by blood, adoption or affinity and who, after the divorce or annulment, is not related to the divorced member by blood, adoption or affinity.

### 38-774. Excess benefit arrangement

A. A separate unfunded governmental excess benefit arrangement is established outside of and apart from the trust fund established by section 38-712 to pay members benefits that are otherwise payable by ASRS and that exceed the limitations on benefits imposed by section 415 of the internal revenue code. The board shall administer this excess benefit arrangement as a qualified governmental excess benefit arrangement pursuant to section 415(m) of the internal revenue code.

B. The board may adopt rules to implement this section subject to the following:

1. Benefits under this section are subject to section 38-773 and section 38-791, subsections D and F and are exempt from execution to the same extent as provided in section 38-792.

2. Contributions to this arrangement are not held in trust and shall not be commingled with other monies of ASRS.

C. A member is entitled to a monthly benefit under this section in an amount equal to the amount that the member's benefit that is payable by ASRS has been reduced by the limitation on benefits imposed by section 38-769 and section 415 of the internal revenue code. The benefit that is payable by this arrangement shall be paid at such time or times and in such form as the benefit under ASRS would be paid.

D. The benefit that is payable under this section shall be paid with employer contributions that would otherwise be made to ASRS under section 38-737. In lieu of the employer contributions being paid to the trust fund established by section 38-712, an amount determined by ASRS as necessary to pay benefits under this section shall be paid on a monthly basis to a separate account established by the board for this arrangement and may include amounts needed to pay reasonable and necessary expenses of this arrangement. The director may invest the monies in this account in suitable short-term investments between receipt of the monies and disbursement of the monies. The amount shall be paid to the account at least fifteen days before a disbursement is to be made under this section.

E. A member shall not directly or indirectly elect to defer compensation to purchase benefits provided under this section.

F. This section shall not be construed as requiring an employer or ASRS to purchase any investment or any contract to secure any obligations under this section. If an employer or ASRS purchases an investment or contract that the employer or ASRS earmarks to pay benefits under this section, title to and beneficial ownership of the investment or contract remain at all times in the employer or ASRS, and the member and the member's beneficiaries, if any, do not have any proprietary interest in any specific assets of the employer or ASRS. Any rights of the member and the member's beneficiaries, if any, to payment of any amounts under this section shall be those of general unsecured creditors of the employer or ASRS. This section and any action taken pursuant to this section by the employer or ASRS do not create and shall not be construed to create an irrevocable trust of any kind.

### 38-775. Required distributions: definitions

A. This section applies for purposes of determining required minimum distributions for calendar years beginning on and after January 1, 2006. In applying the requirements of this section, the following operational provisions govern:

1. Except as provided in the following sentence, the requirements of this section take precedence over any inconsistent provisions of this article and article 2.1 of this chapter. The rules of this section shall not restrict any form, calculation, adjustment or payment of benefit provided under this article in effect on April 17, 2002, if the form, calculation, adjustment or payment of benefit satisfied section 401(a)(9) of the internal revenue code based on a reasonable and good faith interpretation of that section.

2. All distributions required under this section shall be determined and made pursuant to section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury.

3. Notwithstanding this section, other than paragraph 2 of this subsection, distributions may be made under a designation made before January 1, 1984, pursuant to section 242(b)(2) of the tax equity and fiscal responsibility act of 1982 (P.L. 97-248) and the provisions of this article that relate to that section.

B. The member's entire interest shall be distributed, or begin to be distributed, to the member not later than the member's required beginning date.

C. If the member dies before distributions begin, the member's entire interest shall be distributed, or begin to be distributed, not later than as follows:

1. If the member's surviving spouse is the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained seventy-two years of age, if later.

2. If the member's surviving spouse is not the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the designated beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the member died.

3. For purposes of this subsection and subsection G of this section, distributions are considered to begin on the member's required beginning date or the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection. If annuity payments irrevocably commence to the member before the member's required beginning date, or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection, the date distributions are considered to begin is the date distributions actually commence.

4. If the member dies before distributions begin and there is a designated beneficiary, distribution to the designated beneficiary is not required to begin by the date prescribed in paragraph 1 or 2 of this subsection as long as the member's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth anniversary of the member's death. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to either the member or the surviving spouse begin, this paragraph applies as if the surviving spouse were the member.

D. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution, calendar year distributions shall be made pursuant to subsections E, F and G of this section. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions shall be made pursuant to the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury. Any part of the member's interest that is in the form of an individual account described in section 414(k) of the internal revenue code shall be distributed in a manner satisfying the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury that apply to individual accounts.

E. The following provisions govern the determination of the amount to be distributed each calendar year:

1. If the member's interest is paid in the form of annuity distributions, payments under the annuity shall satisfy the following requirements:

(a) The annuity distributions shall be paid in periodic payments made at intervals not longer than one year.

(b) The distribution period shall be over a life or lives or over a period certain not longer than the period described in subsection F or G of this section.

(c) Once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum allowed.

(d) Payments shall either be nonincreasing or increase only as follows:

(i) By an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the bureau of labor statistics.

(ii) To the extent of the reduction in the amount of the member's payments to provide for a survivor benefit on death, but only if the beneficiary whose life was being used to determine the distribution period described in subsection F of this section dies or is no longer the member's beneficiary

pursuant to a qualified domestic relations order within the meaning of section 414(p) of the internal revenue code.

(iii) To provide cash refunds of employee contributions on the member's death.

(iv) To pay increased benefits that result from a plan amendment.

2. The amount that must be distributed on or before the member's required beginning date or, if the member dies before distributions begin, the date distributions are required to begin under subsection C, paragraph 1 or 2 of this section, is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bimonthly, monthly, semiannually or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

3. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which the amount accrues.

F. The following provisions govern annuity distributions that commence during a member's lifetime:

1. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary, annuity payments to be made on or after the member's required beginning date to the designated beneficiary after the member's death must not at any time exceed the applicable percentage of the annuity payment for the period that would have been payable to the member using the table set forth in question and answer number 2 of section 1.401(a)(9)-6 of the regulations issued by the United States secretary of the treasury. If the form of distribution combines a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary and a period certain annuity, the requirement in the preceding sentence applies to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

2. Unless the member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the member's lifetime may not exceed the applicable distribution period for the member under the uniform lifetime table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the member reaches seventy years of age, the applicable distribution period for the member is the distribution period for seventy years of age under the uniform lifetime table set forth in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury plus the excess of seventy over the age of the member as of the member's birthday in the year that contains the annuity starting date. If the member's spouse is the member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the member's applicable distribution period, as determined under this paragraph, or the joint life and last survivor expectancy of the member and the member's spouse as determined under the joint and last survivor table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the calendar year that contains the annuity starting date.

G. The following provisions govern minimum distributions if a member dies before the date distributions begin:

1. Except as provided in subsection C, paragraph 4 of this section, if the member dies before the date distribution of the member's interest begins and there is a designated beneficiary, the member's entire interest shall be distributed, beginning not later than the time prescribed in subsection C, paragraph 1 or 2 of this section, over the life of the designated beneficiary or over a period certain not exceeding either of the following:

(a) Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the member's death.

(b) If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

2. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's entire interest shall be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

3. If the member dies before the date distribution of the member's interest begins, the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies before distributions to the surviving spouse begin, this subsection applies as if the surviving spouse were the member, except that the time by which distributions must begin shall be determined without regard to subsection C, paragraph 1 of this section.

H. If a member dies after the member's required beginning date and the member had not commenced distribution of retirement benefits, ASRS shall treat the member as having commenced distribution of retirement benefits on the member's required beginning date. Notwithstanding section 38-776, ASRS shall determine the member's retirement benefit as a straight annuity as of the date of the member's required beginning date. The member's estate is entitled to the member's benefit payments and any remaining member contributions on account shall be disbursed pursuant to section 38-763.

I. For the purposes of this section:

1. "Designated beneficiary" means the individual who is designated as the member's beneficiary to receive benefits under this article and is the designated beneficiary under section 401(a)(9) of the internal revenue code and question and answer number 1 of section 1.401(a)(9)-4 of the regulations issued by the United States secretary of the treasury.

2. "Distribution calendar year" means a calendar year for which a minimum distribution is required. For distributions beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year that contains the member's required beginning date. For distributions beginning after the member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to subsection C of this section.

3. "Life expectancy" means life expectancy as computed by use of the single life table in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury.

4. "Required beginning date" means the date payment of a member's benefits shall commence in accordance with section 401(a)(9)(C) of the internal revenue code.

### 38-776. Spousal waiver and consent

A. A member's current spouse may consent to one of the following requirements established in section 38-755 or 38-760 by signing and submitting an acknowledgement in a manner established by ASRS:

1. A change of beneficiary that provides the member's current spouse with less than fifty per cent of the member's account balance.

2. The member's retirement application that does not name the member's current spouse as a contingent annuitant of a joint and survivor annuity.

3. A change or rescission of the member's current spouse's contingent annuitant status.

B. If the member's current spouse is not capable of executing the acknowledgement because of an incapacitating mental or physical condition, a power of attorney or guardian may execute the acknowledgment on the current spouse's behalf.

C. The member may affirm in writing under penalty of perjury in a manner determined by ASRS that spousal consent is not required because of one of the following reasons:

1. The member is not married.

2. The member's current spouse has no identifiable community property interest in the member's benefits.

3. The member does not know, and has taken all reasonable steps to determine, the location of the member's current spouse.

4. The member has received notification from the board that a domestic relations order is acceptable pursuant to section 38-773 and that domestic relations order requires ASRS to pay benefits to an alternate payee that is contrary to the requirements of section 38-760.

5. Obtaining consent violates another law, an existing contract or a court order.

D. This section does not abrogate any community property laws of this state.

E. Payments or distributions made by ASRS in good faith reliance on the consent or waiver of a member's current spouse, the affirmations of a member contained in documents submitted to ASRS pursuant to this section or the member's indication to ASRS that the member is not married constitute a full and complete discharge and release of all liability of the board or ASRS, or both, respecting these payments or distributions.

F. If questions arise as to the distribution of a particular member's account, ASRS shall use reasonable judgment to distribute the account in a manner that is consistent with Arizona community property laws and interpretations of those laws.

38-781. Supplemental employee deferral plan; public employees; administration; immunity; definitions

A. One or more supplemental employee deferral plans may be established pursuant to this section to provide public employees an opportunity to save additional tax-deferred monies for retirement.

B. ASRS may establish, administer, manage and operate supplemental employee deferral plans for employers.

C. ASRS may:

1. Employ services it deems necessary, including legal services, for the operation and administration of the plans.

2. Administer the plans through contracts with multiple vendors.

C. This section does not prohibit a member whose disability has been established to the satisfaction of the board from relying on treatment by prayer through spiritual means in accordance with the tenets and practice of a recognized church, religious denomination or Native American traditional medicine by a duly accredited practitioner of the church, denomination or Native American traditional medicine without suffering reduction or suspension of the member's monthly LTD program benefits.

If any change or error in the records results in any member receiving from the LTD program more or less than the member would have been entitled to receive if the records had been correct, the board shall correct the error and shall adjust the payments in a manner so that the equivalent of the benefit to which the member was correctly entitled is paid. The board shall correct any change or error and shall pay the appropriate monies to a member or shall recover monies from the member if the member is overpaid. 1. The board governing the retirement system or plan from which the service credits are being transferred mutually agrees with the board governing the retirement system or plan to which the service credits are being transferred regarding the terms of the transfer.

2. The transfer does not cause either the retirement system or plan to which the transfer is made or the retirement system or plan from which the transfer is made to incur any unfunded accrued liabilities as a result of the transfer.

3. The member initiates the transfer by making written application to the governing board of the retirement system or plan to which the member is contributing or has contributed.

B. For the purposes of this section:

1. "Active member" means a member who satisfies the eligibility criteria of the state retirement system or plan and who is currently making member contributions to or receiving credited service from the state retirement system or plan.

A. Service credits qualified in accordance with section 38-730 or 38-921 may be transferred or redeemed in accordance with this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall be calculated:

1. The prior system or plan shall calculate the amount equal to the actuarial present value of a member's projected benefits to the extent funded on a market value basis as of the most recent actuarial valuation under the prior system or plan as calculated by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer. If a system's or plan's market value is greater than one hundred per cent, the system or plan shall use a one hundred per cent market value.

2. The system or plan to which the member is transferring shall calculate the increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. This calculation shall be performed by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer.

C. In the event a member decides to transfer:

(a) The prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 1 or the member's accumulated contribution account balance.

(b) If the amount transferred is less than the amount calculated under subsection B, paragraph 2, the transferring member shall elect either to pay the difference or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits used in making the calculation under subsection B, paragraph 1 multiplied by the ratio of the amount calculated under subsection B, paragraph 1 to the amount calculated under subsection B, paragraph 2.

2. If the amount calculated in subsection B, paragraph 2 is less than or equal to the amount calculated in subsection B, paragraph 1, the prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 2 or the member's accumulated contribution account balance.

D. In the case of an applicant who has withdrawn the applicant's member contributions from another prior system or plan of this state, the applicant shall pay into the new system or plan to which the applicant is transferring an amount equal to the increase in the actuarial present value of the projected benefits provided by the service credits being redeemed and this amount shall be included in the member's current accumulated contribution account balance. This calculation shall be performed by the actuary of the system or plan to which the service credits are being transferred using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements.

E. Service credits shall not be applied to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

F. A member electing to transfer to or redeem service with the public safety personnel retirement system, the elected officials' retirement plan or the corrections officer retirement plan pursuant to this section may pay for the service being transferred or redeemed in the form of a lump sum payment to the system or plan, a trustee-to-trustee transfer or a direct rollover of an eligible distribution from a plan described in section 402(c)(8)(B)(iii), (iv), (v) or (vi) of the internal revenue code or a rollover of an eligible distribution from an individual retirement account or annuity described in section 408(a) or (b) of the internal revenue code.

(d) Has not withdrawn contributions from the retirement system or plan.

3. "Municipality" means a city in this state with a population of more than five hundred thousand persons.

#### 38-924. Transfer of service credits

A. Service credits qualified pursuant to section 38-923 may be transferred pursuant to this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall occur:

1. The prior system or plan shall determine the amount of the member's accumulated contribution account balance under the prior system or plan plus accumulated interest as determined by the governing body of the system or plan.

2. The system or plan to which the member is transferring shall calculate any increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. The actuary of the system or plan to which the service credits are being transferred shall perform this calculation using the actuarial method and assumptions recommended by the actuary and adopted by the governing body of the retirement system or plan.

C. If a member decides to transfer:

1. The prior system or plan shall transfer to the present system or plan the amount determined pursuant to subsection B, paragraph 1 of this section. If the amount calculated in subsection B, paragraph 2 of this section is greater than the amount determined in subsection B, paragraph 1 of this section, the transferring member shall either elect to pay the difference in order to receive all service credits earned under the prior system or plan or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section multiplied by the ratio of the amount calculated under subsection B, paragraph 1 of this section to the amount calculated under subsection B, paragraph 2 of this section.

2. If the amount calculated in subsection B, paragraph 2 of this section is less than or equal to the amount determined in subsection B, paragraph 1 of this section, the current system or plan shall credit the member with service credits under the current system or plan equal to the service credit earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section.

D. The retirement system or plan shall not apply service credits to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 14, 2024

**SUBJECT:** **BOARD OF EXAMINERS OF NURSING CARE INSTITUTION  
ADMINISTRATORS AND ASSISTED LIVING FACILITY MANAGERS**  
Title 4, Chapter 33

**Amend:** R4-33-104

---

### **Summary:**

This regular rulemaking from the Board of Examiners of Nursing Care Institution Administrators and Assisted Living Facility Managers (Board) seeks to amend one (1) rule in Title 4, Chapter 33, Article 1 related to Fees. Specifically, the Board is proposing a 22% fee increase to remedy an anticipated fund deficiency and allow for an increased budget appropriation to fund a future Investigator full-time employee. The Board indicates it has not requested or implemented a fee increase in over 10 years.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Board cites both general and specific statutory authority for these rules.

**2. Do the rules establish a new fee or contain a fee increase?**

The Board is proposing a 22% fee increase to fees outlined in R4-33-104. As a reminder, pursuant to A.R.S. § 41-1052(E), the Council “shall not approve a rule that contains a fee increase unless two-thirds of the voting quorum present votes to approve the rule.”

**3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Board indicates it did not review any study relevant to this rulemaking.

**4. Summary of the agency’s economic impact analysis:**

The rulemaking proposes a 22% increase in existing fees for the approval and renewal of training programs for nursing care institution administrators and assisted living facility managers. The Board determined that such an increase is necessary to ensure sufficient funds to carry out its statutory requirements. Ten percent of the increased fees will go to the state’s general fund. To reduce the economic impact of the rules as originally proposed, the Board reduced the number of training hours required to be an assisted living facility caregiver and expanded the number of individuals qualified to serve as a training program instructor.

**5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

Because most of the businesses directly affected by the rulemaking are small businesses, no less intrusive or less costly alternative methods could be considered and still enable the Board to generate revenue sufficient to support its statutory responsibilities.

**6. What are the economic impacts on stakeholders?**

Providers of assisted living facility training programs will be directly affected by, bear the costs of, and directly benefit from this rulemaking. The affected institutions will benefit from the Board being able to continue fulfilling its statutory responsibilities. Additionally, the basis on which the fee charged to review sponsorship of a continuing education is changed from a fee per continuing education to a fee per credit hour. This will result in increased fees for review of sponsorship of most continuing education.

**7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The Board indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

**8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Board indicates it received no public comments in opposition to this rulemaking.

**9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(11), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

The Board states it issues general permits to licensees who meet the criteria established in statute and rule. As such, Council staff believes the Board is in compliance with A.R.S. § 41-1037.

**10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The Board indicates there is no federal law applicable to these rules.

**11. Conclusion**

This regular rulemaking from the Board seeks to amend one (1) rule in Title 4, Chapter 33, Article 1 related to Fees. Specifically, the Board is proposing a 22% fee increase to remedy an anticipated fund deficiency and allow for an increased budget appropriation to fund a future Investigator full-time employee. The Board indicates it has not requested or implemented a fee increase in over 10 years.

Pursuant to A.R.S. § 41-1052(E), the Council “shall not approve a rule that contains a fee increase unless two-thirds of the voting quorum present votes to approve the rule.”

The Board is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

- 6. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**

The Board needs to amend its rules to update its fees.

**7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

Not applicable.

**9. A summary of the economic, small business, and consumer impact:**

There is little to no economic, small business, or consumer impact, other than the cost to the Board to prepare the rule package, because the rulemaking simply clarifies statutory requirements that already exist. **CHAPTER 33. BOARD OF EXAMINERS FOR NURSING CARE INSTITUTION**

**ADMINISTRATORS AND ASSISTED LIVING FACILITY MANAGERS**

1. Identification of the rulemaking:

The Board approved a 22% fee increase at its' July 10, 2023 public Board Meeting. The increase was approved to remedy an anticipated fund deficiency and allow for an increased budget appropriation to fund a future Investigator FTE. The Board has not requested or implemented a fee increase in over 10 years.

The Board currently licenses 339 nursing care institution administrators and certifies 2,185 assisted living facility managers. In addition, the Board has approximately 43 caregiver training programs and 17 Assisted Living Manager Training Programs. It collected approximately \$630,000 in fees last year and was appropriated \$604,900. Its current appropriation is \$377,700. The Board is a self-supporting (funded) 90/10 agency and transfers 10% of a revenue collected to the General Fund.

The Board expects the fee increases to generate the following amounts:

<b>FEE</b>	<b>AMOUNT OF INCREASE</b>	<b>NUMBER TO BE COLLECTED</b>	<b>COLLECTED INCREASE</b>
Administrator/Manager's Initial application	\$33	387	\$12,771
Administrator's License Initial Issuance	\$88 or 20.33 prorated per month	20	\$1,760
Administrator Initial Arizona Examination	\$110	20	\$2,200
Administrator Re-examination	\$33	5	\$165
Manager's certificate issuance	\$33 or 7.63 prorated per month	250	\$8,250
Duplicate Administrator License or Manager Certificate	\$16.50	227	\$3,745.5

Administrator License Renewal	\$88 biennially	339	\$29,832
Administrator Inactive Renewal	\$44	10	\$440
Administrator Temporary License	\$66	20	\$1320
Administrator License Verification	\$3.30	10	\$33
Manager Examination	\$33	275	\$9075
Manager Re-Examination	\$33		
Manager's active certificate renewal	\$33 biennially	1975	\$36053
Manager's inactive certificate renewal	\$22	20	\$440
Administrator's late renewal fee	\$22	10	\$220
Manager's late renewal fee	\$16.50	20	\$330
Temporary license/ certificate	\$22	50	\$1,100
License certification	\$5	15	\$75
Review sponsorship of CE	\$2.20/ credit hour	700	\$1540
Individual CE approval	\$2.20/credit hour	400	\$880
Manager Training Program	\$220	5	\$1,100
Manager Training Program Renewal	\$132	17	\$2,244
Caregiver Training Program	\$330	5	\$1,650
Caregiver Training Program Renewal	\$55	43	\$2,365

This means the fee increases will produce approximately \$117,588.55 annually. Ten percent of this amount goes to the state's general fund leaving the Board with \$105,829.70 in additional funds.

2. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

Nursing care institution administrators and assisted living facility managers will directly bear the cost of increased licensing and regulatory fees. These fees are a cost of doing business that may be passed to consumers of nursing care institution or assisted living facility services. If a nursing care institution or assisted living facility pays the licensing fees for its administrator or manager, the institution or facility will have increased costs. Administrators and managers and the institutions and facilities at which they work will benefit from the Board being able to continue fulfilling its statutory responsibilities.

The basis on which the fee charged to review sponsorship of a continuing education is changed from a fee per continuing education to a fee per credit hour. This will result in increased fees for review of sponsorship of most continuing education. The fee for review of sponsorship of a continuing education is a cost of doing business as a continuing education provider that may be passed to the nursing care institution administrators and assisted living facility managers required to obtain continuing education.

3. Cost-benefit analysis:

a. Costs and benefits to state agencies directly affected by the rulemaking:

The Board is the only state agency directly affected by this rulemaking. It incurred the cost of completing the rulemaking and will incur the cost of informing licensees of the increased fees. The Board will benefit from being able to continue fulfilling its statutory responsibilities.

b. Costs and benefits to political subdivisions directly affected by the rulemaking:

No political subdivision is directly affected by the rulemaking.

c. Costs and benefits to businesses directly affected by the rulemaking:

Nursing care institution administrators, assisted living facility managers, training programs and continuing education providers are the only businesses directly affected by the rulemaking. Their costs and benefits are described in item 2. Nursing care institutions and assisted living facilities may be affected by the rulemaking in the manner described in item 2.

4. Impact on private and public employment:

The rulemaking is expected to have no impact on private or public employment.

5. Impact on small businesses:

Nursing care institution administrators and assisted living facility managers are small businesses. The impact on them is described in item 2. Most nursing care institutions, assisted living facilities, and continuing education providers are also small business. The impact on them is described in item 2.

6. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:

Private persons and consumers will not be directly affected by the rulemaking. However, the fee increases are a cost of doing business that likely will be passed to consumers of nursing care institution and assisted living facility services.

7. Probable effects on state revenues:

Ten percent of the increased fees will go to the state's general fund.

8. Less intrusive or less costly alternative methods considered:

Because most of the businesses directly affected by the rulemaking are small businesses, no less intrusive or less costly alternative methods could be considered and still enable the Board to generate revenue sufficient to support its statutory responsibilities.

## TITLE 4. PROFESSIONS AND OCCUPATIONS

### CHAPTER 33. BOARD OF EXAMINERS FOR NURSING CARE INSTITUTION

#### ADMINISTRATORS AND ASSISTED LIVING FACILITY MANAGERS

1. Identification of the rulemaking:

During the 2011 session, the legislature enacted SB1038, which transferred regulatory oversight of training programs for assisted living facility managers from the Arizona Department of Health Services to the Board. The Board is charged with establishing standards and approving training programs for managers and caregivers of assisted living facilities; specifically authorized to make nonrefundable fees for review of initial and renewal applications; and authorized to impose discipline if a training program violates the Board's rules. The Board is making the rules necessary to fulfill its statutory responsibility. This rulemaking is exempt from the rulemaking moratorium contained in Executive Order 2012-03 under paragraph (4)(c) of the Order.

a. The conduct and its frequency of occurrence that the rule is designed to change:

A.R.S. § 36-446.03(O) requires the Board to make rules prescribing standards for assisted living facility training programs. Until the rules are made, the Board will not be in compliance with this statute. The Board currently is approving training programs using rules developed by the Arizona Department of Health Services.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

The Board is not in compliance with A.R.S. § 36-446.03(O) and will continue not to be in compliance until these rules are made.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

When the rules are made, the Board will be in compliance with A.R.S. § 36-446.03(O).

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The primary economic impact results from the legislative decision to require that assisted living facility training programs be approved by the Board. Before the legislature made this decision, it was necessary for training providers to obtain approval from both the Arizona Department of Health Services and the Board for Private Postsecondary Education. The

<sup>1</sup> If adequate data are not reasonably available, the agency shall explain the limitations of the data, the methods used in an attempt to obtain the data, and characterize the probable impacts in qualitative terms. (A.R.S. § 41-1055(C)).

economic impact from these rules results from the requirement that an application for approval be submitted, fees paid, and compliance with requirements designed to ensure that assisted living facility managers and caregivers are trained adequately to care for the fragile individuals entrusted to them.

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement:

Name: Allen Imig, Executive Director

Ste. B8

Phoenix, AZ 85007

Telephone: (602) 542-8156

Fax: (602) 542-8316

E-mail: allen.imig@aznciaboard.us

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

Providers of assisted living facility training programs will be directly affected by, bear the costs of, and directly benefit from this rulemaking. It is providers of training programs who will have to apply to the Board for approval of training programs, pay fees for approval, ensure that training programs comply with new standards, maintain records, and be subject to oversight and possible discipline by the Board.

The Board established the fees for initial approval and renewal of a training program based on a careful assessment of the time involved to review and act on an application, including conducting a site visit, and the time involved to assist providers to comply with standards for approval. The Board expects to collect approximately \$37,500 in fees during the first year after the rules are implemented. This means that the Board will not collect as much in fees as it spends to implement the program.

Currently, Arizona has 1,709 assisted living homes and 234 assisted living centers, with a total of 29,902 beds. The residents of these homes and centers and their families and friends will be indirectly affected by these rules. The Arizona chapter of the Assisted Living Federation of American estimates that the assisted living industry affects 500,000 to 750,000 individuals in Arizona and has an economic impact measured in millions of dollars.

The Board expects to receive applications from about 15 providers of manager training programs during the first year these rules are in place. It expects 15 to 20 applications from providers of caregiver training programs during the first year and an additional 13 applications in the next five years. There are currently 2,416 certified managers of assisted living facilities in Arizona. The manager of an assisted living center earns approximately \$65,000 annually while the manager of an assisted living home earns \$25,000. Caregivers, who earn between the minimum wage and \$12 per hour, are not required to be licensed so there is no accurate estimate of how many individuals are employed as caregivers. Assisted living facility managers and caregivers will be indirectly affected by these rules.

If, as a result of this rulemaking, providers of assisted living facility training programs increase the cost of participating in an approved training program, the individuals who pay for the training will be indirectly affected by the rulemaking. Paying to obtain required training is a cost of doing business that these individuals may pass to those to whom care is provided.

The Board will be directly affected by, bear the costs of, and directly benefit from this rulemaking. The Board incurred the cost of making the rules and will incur the cost of implementing them. The Board was appropriated \$64,300 with which to employ one person full time to manage oversight of approved assisted living facility training programs. The Board will benefit from having rules that are consistent with statute and current industry standards.

5. Cost-benefit analysis:

- a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

The Board is the only state agency directly affected by the rulemaking. Its costs and benefits are discussed in item 4. The legislature appropriated \$64,300 for the Board to employ one person full time to manage oversight of training programs.

- b. Costs and benefits to political subdivisions directly affected by the rulemaking:

Political subdivisions are not directly affected by the rulemaking.

- c. Costs and benefits to businesses directly affected by the rulemaking:

Providers of assisted living facility training programs are the only businesses directly affected by the rulemaking. The costs and benefits of these businesses are discussed in item 4.

6. Impact on private and public employment:

The Board plans to employ one person full time to manage oversight of approved assisted living facility training programs. This is the only impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:

a. Identification of the small business subject to the rulemaking:

Providers of assisted living facility training programs are the only businesses directly affected by the rulemaking. The Board believes that most of the providers are small businesses organized either as sole proprietors or limited-liability corporations. The Board estimates that most of the providers operate independently from any assisted living facility.

b. Administrative and other costs required for compliance with the rulemaking:

Costs associated with the rules include making application for initial approval and renewal, paying application fees, and complying with minimum standards including recordkeeping.

c. Description of methods that may be used to reduce the impact on small businesses:

Because most of the businesses impacted by the rules are small businesses and because so few businesses are providers of assisted living facility training programs, it is not possible to reduce the impact on small businesses and have the Board fulfill its statutory responsibilities.

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:

No private persons or consumers are directly affected by the rulemaking. However, if the cost to participate in an approved assisted living facility training program increases as a result of this rulemaking, the cost may be passed to consumers of assisted living facility care.

9. Probable effects on state revenues:

Under A.R.S. § 36-446.08(B), 10 percent of the monies collected by the Board is deposited in the state's general fund. This means that 10 percent, or approximately \$3,750, of the funds collected to approve assisted living facility training programs will go to the general fund.

10. Less intrusive or less costly alternative methods considered:

---

<sup>2</sup> Small business has the meaning specified in A.R.S. § 41-1001(20).

In response to comments received regarding the Notice of Proposed Rulemaking, the Board made substantive changes to reduce the economic impact of the rules as originally proposed. The Board reduced the number of training hours required to be an assisted living facility caregiver and expanded the number of individuals qualified to serve as a training program instructor. No other less intrusive or less costly alternative methods were considered.

The board shall review and consider the administrator's file in determining whether to renew the administrator's license.

F. Except as provided in subsection R of this section, every holder of an assisted living facility manager's certificate shall renew it biennially by making application to the board. The renewals shall be granted as a matter of course if the holder has successfully completed continuing education every two years as established by the board in its rules, unless the applicant has acted or failed to act in a manner or under circumstances that constitute grounds for taking disciplinary action permitted by this section. The board shall maintain a log of each complaint substantiated by the board or deficiency report concerning a manager and shall retain in the manager's file a copy of each complaint or report and the action taken on it, if any. The board shall review and consider the manager's file in determining whether to renew the manager's certificate.

G. Except as provided in subsection R of this section, failure on the part of any licensed nursing care institution administrator or certified assisted living facility manager to furnish evidence of having attended the required continuing education hours during the preceding two years shall preclude renewal of the license or certificate unless the continuing education requirement is fulfilled within one hundred twenty days.

H. On written request to the board, a nursing care institution administrator in good standing may cause the administrator's name and license to be transferred to an inactive list. Any nursing care institution administrator on inactive license status shall pay a license renewal fee. On written request to the board, and subsequent approval by the board, a nursing care institution administrator on inactive license status may resume active license status on meeting twenty-five hours of continuing education requirements within six months and payment of the current fee.

I. On written request to the board, the board shall transfer an assisted living facility manager in good standing to an inactive list. An assisted living facility manager on inactive certificate status shall pay a certificate renewal fee prescribed by the board of not more than one hundred dollars every two years. On written request to the board, and subsequent approval by the board, an assisted living facility manager on inactive certificate status may resume active certificate status on meeting requirements for six hours of continuing education within six months and payment of the current fee.

J. Suspension, revocation or denial of renewal of a license or certificate or censure or probation of a licensee or certificate holder by the board becomes effective only on the board's first giving the

licensee or certificate holder prior written notice and affording the licensee or certificate holder the right to request a hearing within thirty-five days of the receipt of notice. A hearing is not required before the denial of an original application for a license or a certificate. All hearings shall be conducted pursuant to title 41, chapter 6, article 10.

K. Any person wishing to make a complaint against a licensee or certificate holder under this article shall file a written complaint with the board within one year from the date of the action causing the complaint. If the board determines that the charges made in the complaint are sufficient, if true, to warrant suspension or revocation of a license or certificate issued under this article or censure or probation of a licensee or certificate holder under this article, it shall issue an order fixing the time and place for a hearing and requiring the licensee or certificate holder complained against to appear and answer the complaint. The order shall have affixed to it a copy of the complaint, and both shall be served on the licensee or certificate holder either personally or by certified mail sent to the licensee's or the certificate holder's last known address at least thirty-five days before the date set for the hearing. All hearings shall be conducted pursuant to title 41, chapter 6, article 10.

L. The board and an administrator or manager may enter into a settlement of any matter under investigation either before or after a notice of the hearing has been issued if the board determines that the proposed settlement adequately protects the public safety, health and welfare. The board shall record the terms of each settlement entered into and shall make the record available for public inspection.

M. Except as provided in section 41-1092.08, subsection H, final decisions of the board are subject to judicial review pursuant to title 12, chapter 7, article 6.

N. If the board has initiated an investigation pursuant to this section, the board may continue the investigation and discipline the person under investigation even if that person resigns from practice after the board has initiated the investigation.

O. A licensee or certificate holder shall respond in writing to the board within thirty-five days after the board serves the complaint and notice of a formal hearing by certified mail. Service is complete on the date the board places the notice in the mail. The board shall consider a licensee's or certificate holder's failure to respond to the notice within thirty-five days as an admission by default to the allegations stated in the complaint. The board may then take disciplinary action against the licensee or certificate holder without conducting a formal hearing.

P. The board may set aside an admission by default if a licensee or certificate holder shows good cause. A licensee or certificate holder who applies to the board to set aside an admission by default shall demonstrate the following to the satisfaction of the board:

1. The failure to respond to the notice of the board was due to excusable neglect.
2. The licensee or certificate holder has a meritorious defense.
3. The licensee or certificate holder made prompt application to the board for relief.

Q. The board shall not consider an application to set aside an admission by default filed later than one hundred eighty days after the board's entry of the admission by default.

R. A license or certificate issued pursuant to this chapter to any member of the Arizona national guard or the United States armed forces reserves shall not expire while the member is serving on federal active duty and shall be extended one hundred eighty days after the member returns from federal active duty, provided that the member, or the legal representative of the member, notifies the board of the federal active duty status of the member. A license or certificate issued pursuant to this chapter to any member serving in the regular component of the United States armed forces shall be extended one hundred eighty days from the date of expiration, provided that the member, or the legal representative of the member, notifies the board of the federal active duty status of the member. If the license or certificate is renewed during the applicable extended time period, the member is responsible only for normal fees and activities relating to renewal of the license and shall not be charged any additional costs such as late fees or delinquency fees. The member, or the legal representative of the member, shall present to the board a copy of the member's official military orders, a redacted military identification card or a written verification from the member's commanding officer before the end of the applicable extended time period in order to qualify for the extension.

S. A license or certificate issued pursuant to this chapter to any member of the Arizona national guard, the United States armed forces reserves or the regular component of the United States armed forces shall not expire and shall be extended one hundred eighty days from the date the military member is able to perform activities necessary under the license or certificate if the member both:

1. Is released from active duty service.
2. Suffers an injury as a result of active duty service that temporarily prevents the member from being able to perform activities necessary under the license, certificate or registration.

**36-446.08. Nursing care institution administrators' licensing and assisted living facility managers' certification fund; investment of fund monies**

B. Pursuant to sections 35-146 and 35-147, the board shall deposit ten per cent of all monies collected pursuant to this article in the state general fund and deposit the remaining ninety per cent in the nursing care institution administrators' licensing and assisted living facility managers' certification fund. All monies derived from civil penalties collected pursuant to section 36-446.07, subsection C shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

C. Monies deposited in the nursing care institution administrators' licensing and assisted living facility managers' certification fund are subject to the provisions of section 35-143.01.

D. On notice from the board, the state treasurer shall invest and divest monies in the fund as provided by section 35-313, and monies earned from investment shall be credited to the fund.

**36-446.09. Violations: classification**

A. Any person who manages, directs and controls the operation of a nursing care institution or an assisted living facility without a current and valid license or certificate as required by this article or who otherwise violates any provisions of this article is guilty of a class 2 misdemeanor. Each day of violation shall constitute a separate offense.

B. Action taken under subsection A shall not be a bar to enforcement of this article and the standards and rules issued and adopted pursuant to this article, by injunction or other appropriate remedy, and the board may institute and maintain in the name of this state any such enforcement proceeding.

#### 36-446.10. Confidentiality of records; release of complainant's name and nature of complaint

A. Except as provided in subsection B, all records concerning a pending investigation, examination materials, records of examination grading and applicants' performance and transcripts of educational institutions concerning applicants are confidential and are not public records. "Records of applicants' performance" does not include records of whether an applicant passed or failed an examination.

B. During a pending investigation, the board shall inform the administrator or manager who is the subject of the complaint of the name of the complainant and the nature of the complaint if so requested.

#### 36-446.11. Relief from civil liability

Members, employees and agents of the board and members of review committees shall not be held civilly liable for acts done or actions taken by any of these persons if such persons act in good faith following the requirements of this article. A person who in good faith reports or provides information to the board shall not be held civilly liable as a result of doing so.

C. The board by rule shall limit by percentage the amount it may increase a fee above the amount of a fee previously prescribed by the board pursuant to this section.

**36-446.13. Unlawful act; unlicensed operation; injunction**

A. On application by the board, the superior court may issue an injunction to enjoin the activities of a person who purports to be licensed pursuant to this article or who is engaging in the activities of a nursing care institution administrator without a license.

B. In a petition for injunction filed pursuant to this section, it is sufficient to charge that the respondent on a certain day in a named county engaged in the activities of a nursing care institution administrator without a license and without being exempt from the licensing requirements of this article.

C. For the purposes of this section, damage or injury is presumed.

D. A petition for an injunction to enjoin unlicensed activities shall be filed in the name of this state in the superior court in the county where the respondent resides or may be found or in Maricopa county. On request of the board, the attorney general shall file the injunction.

E. Issuance of an injunction does not relieve the respondent from being subject to other proceedings as provided in this article.

**36-446.14. Referral agencies; assisted living facilities and assisted living homes; disclosure; acknowledgement; fee; notice; requirements; civil penalty; definitions**

A. A referral agency shall disclose, in the form prescribed by subsection D of this section, to any prospective resident or representative of a prospective resident at the time or before any referral is made for care at an assisted living facility or assisted living home all of the following:

1. The existence of any current business relationship or any common ownership or control and any other financial, business, management or familial relationship that exists between the referral agency and the assisted living facility or assisted living home.

2. That the assisted living facility or assisted living home pays a fee to the referral agency in connection with the referral.

3. The amount of the fee, if determined, or a good faith estimate of the fee, if not determined, that the assisted living facility or assisted living home will pay to the referral agency. The referral agency may describe the fee as a dollar amount or as a percentage of the prospective resident's first month's rent and care charges at the facility or home.

B. After the first instance of the referral agency providing the disclosure required by subsection A of this section, the referral agency shall request from the prospective resident or representative of a prospective resident an acknowledgement of receiving the disclosure in the same manner and form in which the disclosure was delivered.

C. The prospective resident may terminate all services of the referral agency for the prospective resident at any time, including the use of the prospective resident's personal information, by providing a written or electronic termination notice to the referral agency. If the prospective resident delivers a termination notice, the referral agency is not entitled to any fee for the resident's move-in after the date of the termination notice unless either of the following applies:

1. The assisted living facility or assisted living home chosen by the resident within twelve months after the date of termination was specifically identified and referred to the resident after evaluating the prospective resident's profile and requests before the resident delivered the notice of termination.
2. The referral agency provides documentation to the assisted living facility or assisted living home that the resident communicated with the referral agency for referral services before the resident's admission to the assisted living facility or assisted living home.

D. The referral agency's written, electronic or oral disclosure shall be in the following format and, if written, shall be in fourteen-point font type:

Arizona law requires that we provide you with the following disclosure notice.

We are in the business of referring residents to assisted living facilities and assisted living homes. We will be paid by the facility or home if you move into one of the referred facilities or homes. The fee we receive from the facility or home into which you move typically ranges from (\_\_\_) to (\_\_\_) percent of your first month's rent and care charges or from (\$\_\_\_) to (\$\_\_\_). We (do/do not) have a current business relationship (but/and) we (do/do not) have a common ownership or control in, or any other financial, business, management or familial relationship with, (any) (one or more) of the homes and facilities to which we are referring you.

By providing us with a written or electronic notice, you have the right to terminate our services to you at any time, including our use of your personal information. If you terminate our services, we will not be entitled to any fee for any move-in you make after the date of the termination notice unless either:

1. The facility or home you choose within the next twelve months is one that we specifically identify and refer to you after we evaluate your profile and requests but before we receive your notice of termination.
2. You communicate with us before you move into the facility or home.

E. Within fourteen days after a resident is admitted to an assisted living facility or assisted living home, the facility or home shall notify the referral agency of the resident's admission if the facility or home is contracted with the referral agency. Not later than fourteen days after receiving notice of the resident's admission, the referral agency shall provide the assisted living facility or assisted living home with a written or electronic copy or recording of the disclosure made to the resident and the resident's acknowledgement of receiving the disclosure as prescribed in subsections B and D of this section, along with the date and time of the disclosure to the resident. The assisted living facility or assisted

living home shall maintain a copy of the disclosure for as long as the resident is at the facility or home. The referral agency shall maintain a copy of the disclosure and acknowledgement for one year. The assisted living facility or assisted living home shall not pay any referral fee associated with a resident until the facility or home receives the written or electronic copy or recording of the disclosure made to the resident and the resident's acknowledgement of receiving the disclosure provided and maintained in the same manner and form.

F. A referral agency that violates this section is subject to a civil penalty of up to \$1,000 for each violation. The attorney general or a county attorney may institute a proceeding in superior court to recover the civil penalty under this subsection and to restrain and enjoin a violation of this section. Any civil penalty recovered pursuant to this subsection shall be deposited in the general fund of the jurisdiction that prosecuted the violation.

G. For the purposes of this section:

1. "Electronically" includes an audio recording that conforms with the Arizona rules of evidence, that is maintained by the referral agency and that is transmitted to the assisted living facility or assisted living home and the resident or the resident's representative in a format that can be downloaded.

2. "Referral agency":

(a) Means a person or entity that provides referrals for a fee that is collected from either the resident or the assisted living facility or assisted living home.

(b) Does not include either:

(i) An assisted living facility or assisted living home, or its employees.

(ii) A resident, a resident's family member or a patron of an assisted living facility or assisted living home who refers a prospective resident to an assisted living facility or assisted living home and receives a discount or other remuneration from the assisted living facility or assisted living home.

[36-446.15. Assisted living facility caregivers; training and competency requirements; medication administration; testing](#)

A. Notwithstanding any other law, a person who successfully completes the training and competency requirements developed by the Arizona health care cost containment system administration for in-home direct care workers satisfies the training requirements for assisted living facility caregivers, except for medication administration training required by the assisted living facility caregiver's scope of practice.

B. An individual who meets the requirements specified in subsection A of this section and who registers for a medication administration examination is required to take and successfully complete only the part of the assisted living facility caregiver examination that covers the subject of medication administration.

C. The testing of an individual for medication administration competency:

**Summary:**

This regular rulemaking with the Barbering and Cosmetology Board (Board) seeks to amend thirty-eight (38) rules, two (2) tables, and two (2) articles; renumber fifty (50) rules, four (4) tables, and two (2) articles; add seven (7) new sections; adding two (2) new articles; adding eight (8) new parts; and repeal twenty-four (24) rules, three (3) articles, and two (2) exhibits in Title 4, Chapter 10. Specifically, Article 1 relates to General Provisions, Part A relates to Barbering, Part B relates to Cosmetology, Article 2 relates to Personal Licensure or Registration, Article 3 relates to Schools; Eyelash Technology Training Program, Part A relates to Barbering, Part B relates to Cosmetology, Article 4 relates to Establishments, Part A relates to Barbering, Part B relates to Cosmetology, and Articles 5-9 are being repealed.

The legislature eliminated the Cosmetology and Barbers Board and created the Barbering and Cosmetology Board. The purpose of the consolidation was to ensure the public is protected from the incompetent practice of barbering and cosmetology by establishing minimum qualifications for entry into these disciplines and swift and effective discipline for practitioners who violate barbering or cosmetology statutes or rules. With this rulemaking, the Board is amending existing cosmetology and barbering rules that are needed to comply with statutory changes, establishing rules for eyelash technicians, and establishing five new fees: a fee for a barbering license by universal recognition and fees for an initial and renewal registration as an eyelash technician, delinquent renewal of an eyelash technician registration, and approval of an eyelash technician training program . The Board is also making minor, non-substantive changes to clarify the rules. Some of these changes address issues identified in 5YRRs approved by Council for the two previous boards in 2020.

**1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Board cites both general and specific statutory authority for these rules.

**2. Do the rules establish a new fee or contain a fee increase?**

The Board states it is establishing five new fees: a fee for a barbering license by universal recognition (See A.R.S. §§ 32-328 and 32-4302) and fees for an initial and renewal registration as an eyelash technician, delinquent renewal of an eyelash technician registration, and approval of an eyelash technician training program (See A.R.S. § 32-507).

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Board states no study was reviewed or relied upon during the course of this rulemaking.

4. **Summary of the agency's economic impact analysis:**

To ensure that the public is protected from incompetent practice of barbering and cosmetology, the legislature created the Barbering and Cosmetology Board to help establish minimum qualifications for entry into these disciplines and to provide discipline to offending practitioners. This eliminated both the existing Boards of Cosmetology and Barbers, but the statutes regarding the two occupations were never combined. This rulemaking makes changes to existing cosmetology and barbering rules that are needed to comply with statutory changes. The Board believes the economic impact of this rulemaking will be minimal because the only substantive changes made to existing rules are those required by statute. Individuals who choose to register as an eyelash technician and those who choose to provide training programs for eyelash technicians will be required to comply with procedures for registration and program approval and pay specified fees.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

Because the rules are neither intrusive nor costly, the Board did not consider an alternative method.

6. **What are the economic impacts on stakeholders?**

The Board, on which the primary economic impact of this rulemaking falls, must pay to complete and implement the rulemaking, modify all application forms, modify licensing procedures, and ensure Board employees are trained in the new procedures. Additionally, licensees and registrants, schools, approved eyelash technician training programs, and establishments are directly affected by the rulemaking. Persons subject to the rulemaking are required to apply to the Board for a license, registration, or approval, and renew such documentation when specified: this process includes paying any associated fees.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

ARS §41-1057(D)(7) states the Council shall not approve the rule unless “[th]e rule is not a substantial change, considered as a whole, from the proposed rule and any supplemental notices.”

ARS § 41-1025(A) states that “An agency may not submit a rule to the council that is substantially different from the proposed rule contained in the notice of proposed rulemaking or a supplemental notice filed with the secretary of state pursuant to section 41-1022. However, an

agency may terminate a rulemaking proceeding and commence a new rulemaking proceeding for the purpose of making a substantially different rule.”

ARS § 41-1025(B) continues with “In determining whether a rule is substantially different from the published proposed rule on which it is required to be based, all of the following must be considered:

1. The extent to which all persons affected by the rule should have understood that the published proposed rule would affect their interests.
2. The extent to which the subject matter of the rule or the issues determined by that rule are different from the subject matter or issues involved in the published proposed rule.
3. The extent to which the effects of the rule differ from the effects of the published proposed rule if it had been made instead.”

Under ARS 41-1022(E), “If, as a result of public comments or internal review, an agency determines that a proposed rule requires a substantial change pursuant to section 41-1025, the agency shall prepare a notice of supplemental rulemaking that contains the change in the proposed rule. The agency shall provide for additional public comment pursuant to section 41-1023 and file the notice with the secretary of state.”

**8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Board received written comments from 14 individuals. Six individuals attended the October 26, 2023, oral proceeding with two individuals commenting. These comments were related to the following items: how to calculate school hours, instructor required hours, and requirements for eyelash technicians.

**9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Board does not issue general permits but individual licenses as required by the Board’s statutes to each person that is qualified by statute.

**10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Board states no federal law is directly applicable to the subject matter of these rules.

**11. Conclusion**

This regular rulemaking with the Barbering and Cosmetology Board seeks to amend thirty-eight rules, two tables, and two articles; renumber fifty rules, four tables, and two articles; add seven new sections; adding two new articles; adding eight new parts; and repeal twenty-four rules, three articles, and two exhibits in Title 4, Chapter 10. As indicated above, this rulemaking

establishes five new fees. The Department is seeking the standard 60-day delayed effective date. Council staff recommends approval of this rulemaking.

**6. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**

Under Laws 2021, Chapter 334, the legislature created the Barbering and Cosmetology Board (Board) and eliminated both the existing Boards of Cosmetology and Barbers. The legislature did not, however, combine the statutes regarding the two occupations. As required under A.R.S. § 41-2955(B), the legislature indicate the purpose of the consolidation was to ensure the public is protected from the incompetent practice of barbering and cosmetology by establishing minimum qualifications for entry into these disciplines and swift and effective discipline for practitioners who violate barbering or cosmetology statutes or rules. Under Laws 2021, Chapter 334, Section 34, the consolidation was effective on December 31, 2021.

Under Laws 2023, Chapter 18, the legislature added A.R.S. § 32-519, which created the position of eyelash technician and required eyelash technicians to register with the Board and pay a fee established by the Board. The statute also required an eyelash technician to complete a Board-approved training program.

Under Laws 2023, Chapter 20, the legislature amended A.R.S. §§ 32-532 and 32-557 regarding becoming a cosmetology, aesthetics, nail technology, or hairstyling instructor by reciprocity and allowing a student enrolled in a school for the purpose of becoming an instructor to be a paid employee of the school.

Under Laws 2023, Chapter 22, the legislature amended A.R.S. §§ 32-510, 32-512, and 32-512.01 to add aestheticians, nail technicians, and hairstylists as disciplines able to obtain required training through a U.S. Department of Labor or Department of Economic Security-approved apprenticeship program.

In this rulemaking, the Board makes the changes to existing cosmetology and barbering rules that are needed to comply with statutory changes. The Board also makes minor, non-substantive changes to clarify the rules. Some of these changes address issues identified in 5YRRs approved by Council for the two previous boards in 2020. An exemption from Executive Order 2022-01 was provided for this rulemaking by Brian Norman, of the governor's office, in an e-mail dated October 24, 2022. Approval to submit this rulemaking to GRRC, as required under A.R.S. § 41-1039(B), was provided by Hannah Johnson, of the governor's office, in an e-mail dated January 24, 2024.

**7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

The Board did not review or rely on a study in its evaluation of or justification for any rule in this rulemaking.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable

**9. A summary of the economic, small business, and consumer impact:**

The Board believes the economic impact of this rulemaking will be minimal because the only substantive changes made to existing rules are those required by statute. Individuals who choose to register as an eyelash technician and those who choose to provide training programs for eyelash technicians will be required to comply with procedures for registration and program approval and pay specified fees.

**10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

In addition to the changes identified in item 11, the Board made the following non-substantive changes between the proposed and final notices of rulemaking:

R4-10-114(C)(1) and (3): The Board corrected an oversight by adding schools to these two subsections.

R4-10-B202(B)(3)(b)(i) and R4-10-B307(B)(1): On advice of the Board’s AAG, the date in these subsections was changed to coincide with when the rules will go into effect.

R4-10-B306(B)(2): Subsection (g), requiring dates of training completed was added to the provisional registration provided to trainees in an approved eyelash technician training program.

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to comments:**

The Board received written comments from 14 individuals. Six individuals attended the October 26, 2023, oral proceeding but only two of them made comments. In addition to the comments addressed below, two individuals expressed appreciation for the provisions regarding eyelash technician training and registration. The other comments made and the Board’s analysis of and response to the comments follows:

COMMENT	ANALYSIS	RESPONSE
R4-10-306(P)(1): Students frequently travel long distances to attend school. Allowing extended school days is in their interest. Leave the provision that students attend school no more than 56 hours per week rather than eight hours per day.	The Board agrees with the comment.	The amended language was removed leaving the existing language.

<p>R4-10-307(B)(1) and (B)(2): Why is a potential instructor for nail technology allowed to obtain fewer credit hours at an accredited college or university than an instructor in other disciplines? All instructors are required to obtain 350 hours of training.</p>	<p>The Board agrees with the comment.</p>	<p>The language was changed to allow potential nail technology instructors to obtain the same number of credit hours at an accredited college or university as potential instructors in other disciplines.</p>
<p>R4-10-309: The current R4-10-306, addressing curricula hours for all disciplines, seems missing from the amended rules.</p>	<p>The information regarding curricular hours is now at R4-10-309.</p>	<p>No change</p>
<p>R4-10-B202: It's not right that a person who spent many hours and paid many dollars to obtain a cosmetology or aesthetician license will now have to obtain 30 hours of training in eyelash technology, pay a fee to register, and complete with those who are not licensed.</p> <p>Because a licensed aesthetician or cosmetologist can already do lash extensions, there should not be an additional fee.</p> <p>“Certification” on lash extensions could be included in continuing education under the existing license.</p>	<p>It is the legislature, not the Board, which established the separate discipline of eyelash technology and required training and registration. Because the requirements are in statute, the Board must include them in the rules.</p> <p>As indicated, it is the legislature that decided the additional training and registration, including a small fee, was necessary. Additionally, there is no statutory or rule requirement regarding continuing education of aestheticians or cosmetologists.</p>	<p>No change</p> <p>No change</p>

<p>It's upsetting that after putting me through aesthetics school and thousands in debt to be able to do lash extension, I now don't even need a license. I strongly believe taking away the requirement to have a license does not help anybody.</p>	<p>This is a legislative matter. It cannot be addressed in the rules.</p>	<p>No change</p>
<p>Those who are licensed can already do lashing. There is no need for them to pay a separate fee to do what they already do safely. And the limited training being proposed could pose a huge risk to clients.</p>	<p>A.R.S. § 32-519 specifically sets a maximum of 30 hours of training to be an eyelash technician.</p>	<p>No change</p>
<p>Currently licensed aestheticians should be certified by the state to do eyelash extensions.</p>	<p>See A.R.S. § 32-519</p>	<p>No change</p>
<p>Is it accurate that a person with no other training needs only 30 hours of training to perform eyelash extensions? This is dangerous.</p>	<p>Yes—see A.R.S. § 32-519</p>	<p>No change</p>
<p>Has a class ratio been determined? Is this going to be up to the training instructor?</p>	<p>The Board will not determine a class ratio. This decision will be made by the person responsible for an approved eyelash technician training program.</p>	<p>No change</p>

<p>Is there a sanitation class?</p> <p>There may be confusion with those who are instructors in eyelash technician training programs claiming to be Board-approved instructors.</p> <p>An instructor in an eyelash technician training program should be knowledgeable in how to teach.</p>	<p>Yes—see R4-10-B307(C)(1)(e).</p> <p>Training program instructors are not approved or licensed by the Board. The training program is approved by the Board and responsibility for complying with all requirements is on the person responsible for the training program.</p> <p>The Board does not have authority to impose a requirement on eyelash technician training program instructors.</p>	<p>No change</p> <p>No change</p> <p>No change</p>
<p>R4-10-B301(B)(2)(n): The Arizona and American Societies of Plastic Surgeons opposed having aesthetician schools teach about light therapy for cosmetic purposes. They argue that patient safety and quality outcome requires this procedure be done by a medical professional.</p>	<p>The provision objected to has been part of the rules of the Board of Cosmetology for many years (See R4-10-303(A)(2)(n) at supplement 22-2 of the Arizona Administrative Code). The Board has enforced the provision without difficulty during all those years.</p>	<p>No change</p>
<p>R4-10-B307: At the oral proceeding, it was suggested that an eyelash technician instructor be required to provide</p>	<p>R4-10-B307(B)(2) requires a notarized letter from an individual licensed or registered by the Board with personal</p>	<p>No change</p>

<p>a notarized letter from an already licensed instructor.</p>	<p>knowledge of the potential instructor’s work. An instructor in an eyelash technician training program is not required to be a licensed instructor but rather, to have practiced as an eyelash technician for at least 30 hours a week for two years.</p>	
<p>R4-10-B307(B): Add that a currently licensed nail technician instructor is qualified to be an eyelash technician instructor.</p>	<p>No currently licensed instructor is automatically qualified to be an eyelash technician instructor. Only currently licensed cosmetologists or aestheticians and registered eyelash technicians are qualified to become eyelash technician instructors because these disciplines are the only ones with a scope of practice that includes eyelash extensions.</p>	<p>No change</p>
<p>R4-10-B307(C): Thirty hours of education is NOT enough for someone who does not have a foundation in cosmetology or aesthetics to be working around the eyes</p>	<p>A.R.S. § 32-519 specifically sets a maximum of 30 hours of training to be an eyelash technician.</p>	<p>No change</p>
<p>Because facials are part of the curriculum for both cosmetologists and barbers, there needs to be language to “grandfather” barbers, cosmetologist, and aestheticians.</p>	<p>Except for the provisions regarding eyelash technology, the rule changes are minor and non-substantive. The Board sees no need to “grandfather” licensees regarding these changes.</p>	<p>No changes</p>

It would be helpful if currently licensed practitioners who register as an eyelash technician could have their license and registration renewals occur at the same time.	The Board agrees this is a good idea and will work to implement it.	No change

## **TITLE 4. PROFESSIONS AND OCCUPATIONS**

### **CHAPTER 10. BARBERING AND COSMETOLOGY BOARD**

#### **1. Identification of the rulemaking:**

Under Laws 2021, Chapter 334, the legislature created the Barbering and Cosmetology Board (Board) and eliminated both the existing Boards of Cosmetology and Barbers. The legislature did not, however, combine the statutes regarding the two occupations. As required under A.R.S. § 41-2955(B), the legislature indicate the purpose of the consolidation was to ensure the public is protected from the incompetent practice of barbering and cosmetology by establishing minimum qualifications for entry into these disciplines and swift and effective discipline for practitioners who violate barbering or cosmetology statutes or rules. Under Laws 2021, Chapter 334, Section 34, the consolidation was effective on December 31, 2021.

Under Laws 2023, Chapter 18, the legislature added A.R.S. § 32-519, which created the position of eyelash technician and required eyelash technicians to register with the Board and pay a fee established by the Board. The statute also required an eyelash technician to complete a Board-approved training program.

Under Laws 2023, Chapter 20, the legislature amended A.R.S. §§ 32-532 and 32-557 regarding becoming a cosmetology, aesthetics, nail technology, or hairstyling instructor by reciprocity and allowing a student enrolled in a school for the purpose of becoming an instructor to be a paid employee of the school.

Under Laws 2023, Chapter 22, the legislature amended A.R.S. §§ 32-510, 32-512, and 32-512.01 to add aestheticians, nail technicians, and hairstylists as disciplines able to obtain required training through a U.S. Department of Labor or Department of Economic Security-approved apprenticeship program.

In this rulemaking, the Board makes the changes to existing cosmetology and barbering rules that are needed to comply with statutory changes. The Board also makes minor, non-substantive changes to clarify the rules. Some of these changes address issues identified

in 5YRRs approved by Council for the two previous boards in 2020. An exemption from Executive Order 2022-01 was provided for this rulemaking by Brian Norman, of the governor's office, in an e-mail dated October 24, 2022. Approval to submit this rulemaking to GRRC, as required under A.R.S. § 41-1039(B), was provided by Hannah Johnson, of the governor's office, in an e-mail dated January 24, 2024.

a. The conduct and its frequency of occurrence that the rule is designed to change:

Until the rulemaking is completed, the Board's rules will not be consistent with recent statutory changes and integration of rules applicable to the two previous boards will not be fulfilled.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

It is not good government to have rules that are inconsistent with statute because the inconsistent rules cause confusion and create regulatory burdens.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

When the rulemaking is completed, the rules will be consistent with statute.

Integration of rules applicable to the two previous boards will be fulfilled.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The Board believes the economic impact of this rulemaking will be minimal because the only substantive changes made to existing rules are those required by statute. Individuals who choose to register as an eyelash technician and those who choose to provide training programs for eyelash technicians will be required to comply with procedures for registration and program approval and pay specified fees.

Changes having minimal positive economic impact or reducing regulatory burdens include:

- For business-entity applicants, reducing the number of officers, partners, or members required to submit an application;
- Clarifying the difference between crossover and transfer hours;
- Reducing the potential maximum fee for a cosmetologist to renew a delinquent personal license;
- Allowing use of plastic liners to maintain cleanliness of pedicure tubs;

- Reducing the amount of time a barbering instructor applicant has to have practiced barbering before applying to become an instructor;
- Clarifying that no license issued by the Board is transferrable;
- Allowing use of virtual learning for theory curriculum requirements.

Changes having minimal negative economic impact or adding small regulatory burdens include:

- Requiring all applications be submitted online;
- Reducing the amount of time for a school licensee to provide notice and updated information to the Board;
- Requiring the school licensee of a closing school to release student and employee belongings without request;
- Reducing the amount of time for the school licensee of a closing school to deliver student records to the Board;
- Clarifying information required for certificates of graduation and hours and requiring school licensees to provide the certificates to applicable students;

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement:

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

Licensees, applicants, and the Board will be directly affected by, bear the costs of, and directly benefit from the rulemaking.

The Board licenses or registers individuals in seven disciplines: barber, aesthetician, cosmetologist, hair stylist, nail technician, eyelash technician, and instructor. The Board licenses individuals or business entities to operate a school or an establishment. The Board also approves eyelash technician training programs. On the advice of the Board's assistant attorney general, the Board is waiting until the rules are in effect to register eyelash

technicians and approve eyelash technician training programs. The number of current licensees by discipline is:

Barbers: 7,402

Aestheticians: 21,398

Cosmetologists: 51,820

Hair stylists: 1,010

Nail technicians: 17,926

Schools: 123

Establishments: 15,648

During the last year, the Board received 9,471 applications for an initial license and 21,318 applications for renewal. Of the renewal applications from a cosmetologist, aesthetician, hair stylist, or nail technician, 229 were renewing after being inactive for more than five years. During the last year, the Board, which has 22.5 FTEs, collected \$2,704,800 in fees and charges for services. The Board was appropriated \$2,864,800

Under Laws 2021, Chapter 334, which created the Board and eliminated the existing Boards of Barbering and Cosmetology, it became necessary to create one set of rules rather than two separate sets. In 2022, the Board re-codified rules of both the Barber and Cosmetology Boards into one Chapter. The recodification did not amend the rules or combine them so there were duplications and inconsistencies within the rules. This rulemaking combines the existing rules into one set of rules with a focus on maintaining only rule provisions necessary to protect public health and safety. Even though there are no substantive changes other than those required by statute, combining two sets of rules may present challenges to existing licensees who are used to doing things in a particular way. In particular, requiring all applications to be submitted electronically may be challenging for some. The rule changes also present a challenge to the Board, which has to amend application forms and licensing procedures.

One of the goals of the legislature when it created the Barbering and Cosmetology Board was swift and effective discipline for practitioners who violate statutes or rules. During the last year, the Board received 555 complaints regarding licensees. The complaints frequently alleged unlicensed activity and unsanitary conditions. Of the complaints received, 251 went

before the Board and 39 licensees were disciplined. The discipline imposed included a non-disciplinary letter or concern, a disciplinary letter of concern, and civil penalties.

During the last year, two schools for which a license to operate had been issued, closed. Some of the provisions in this rulemaking require the licensee of a closing school to act more quickly to protect the interests and property of students and employees. This minor regulatory burden is designed to protect the public.

The Board has not started to register eyelash technicians or approve eyelash technician training programs under the recent statutory change. However, currently licensed cosmetologists and aestheticians may engage in eyelash technology. The Board believes there will be high demand from individuals seeking to register as an eyelash technician or offer an approved eyelash technician training program. The Board anticipates that at least 2,500 individuals will register as an eyelash technician and 75 persons will seek approval of an eyelash technician training program in the first year.

The primary economic impact of this rulemaking is on the Board, which has to pay to complete and implement the rulemaking, modify all application forms, modify licensing procedures, and ensure Board employees are trained in the new procedures. The Board has the benefit of having rules that comply with statute.

5. Cost-benefit analysis:

- a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

The Board is the only state agency directly affected by the rulemaking. The Board's costs and benefits are described in item 4. The Board will not need additional full-time employees to implement and enforce the rules.

- b. Costs and benefits to political subdivisions directly affected by the rulemaking:

No political subdivision is directly affected by the rulemaking.

- c. Costs and benefits to businesses directly affected by the rulemaking:

Licensees and registrants, schools, approved eyelash technician training programs, and establishments are businesses directly affected by the rulemaking. Their costs and benefits are described in item 4.

6. Impact on private and public employment:

The rulemaking will have no impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:

a. Identification of the small business subject to the rulemaking:

Licenses and registrants, schools, approved eyelash technician training programs, and establishments are small businesses subject to the rulemaking.

b. Administrative and other costs required for compliance with the rulemaking:

All persons subject to the rulemaking are required to apply to the Board for a license, registration, or approval, pay the specified fee, and renew the license, registration, or approval when specified. Those licensed, registered, or approved by the Board are required to comply with all statutes and rules. The rules, which are designed to protect public health and safety, include requirements regarding infect control and safety, equipment necessary to provide the services for which a license was issued, and curriculum and operational standards for schools.

c. Description of methods that may be used to reduce the impact on small businesses:

The Board believes all those subject to the rulemaking are small businesses. As a result, it is not possible to reduce the already minimal impact of the rulemaking on small businesses.

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:

The rulemaking will not directly affect private persons or consumers.

9. Probable effects on state revenues:

There will be a small increase in state revenues resulting from new fees to register as an eyelash technician, obtain approval of an eyelash technician training program, and renew the registration. If the Board's estimate in item 4 is correct, the Board will collect \$131,250 during the first year from registering eyelash technicians and approving eyelash technician training programs. Ten percent of this will go to the state's general fund.

The 229 cosmetologists, aestheticians, hair stylists, and nail technologists who renewed their personal license after it was inactive for more than five years would have saved as much as \$60 each under the amended rules. This would produce a small decreased in state revenues.

10. Less intrusive or less costly alternative methods considered:

Because the rules are neither intrusive nor costly, the Board did not consider an alternative method.

File a letter of concern if, in the opinion of the board, while there is insufficient evidence to support direct action against the license there is sufficient evidence for the board to notify the licensee that continuation of the activities which led to the information or report being made to the board may result in action against his license.

C. If, in the opinion of the board, it appears the information or report is or may be true, the board shall request an informal interview with the licensee concerned. The interview shall be requested by the board in writing, stating the reasons for the interview and setting a date not less than ten days from the date of the notice for conducting the interview.

D. If, after an informal interview, the board finds that the evidence warrants suspension or revocation of a license issued pursuant to this chapter, imposition of a civil penalty or public reproof or if the licensee under investigation refuses to attend the informal interview, a complaint shall be issued and formal proceedings shall be initiated. All proceedings pursuant to this subsection shall be conducted in accordance with title 41, chapter 6, article 10.

D. A person who violates this section is guilty of a class 1 misdemeanor.

### 32-356. Injunctions

1. Proceed with an investigation of a licensee or registrant.

2. Proceed with an action or disciplinary proceeding against a licensee or registrant.

3. Suspend or revoke a license or registration.

4. Deny the renewal or right of renewal of a license or registration.

investigate the report of any person that appears to show the existence of any of the causes set forth in section 32-572. A person who reports pursuant to this section and who provides the information in good faith is not subject to liability for civil damages as a result.

B. If, after completing its investigation, the board finds that the evidence is not of sufficient seriousness to merit direct action against a license or registration, it may take either of the following actions:

1. Dismiss if, in the opinion of the board, the evidence is without merit.
2. File a letter of concern if, in the opinion of the board, while there is insufficient evidence to support direct action against the license or registration there is sufficient evidence for the board to notify the licensee or registrant that continuation of the activities that led to the information or report being made to the board may result in action against the licensee's license or registrant's registration.

C. If, in the opinion of the board, it appears the information or report is or may be true, the board shall request an informal interview with the licensee or registrant concerned. The interview shall be requested by the board in writing, stating the reasons for the interview and setting a date at least ten days after the date of the notice for conducting the interview.

D. If, after an informal interview, the board finds that the evidence warrants suspension or revocation of a license or registration issued pursuant to this chapter, imposition of a civil penalty or public reproof or if the licensee or registrant under investigation refuses to attend the informal interview, a complaint shall be issued and formal proceedings shall be initiated. All proceedings pursuant to this subsection shall be conducted in accordance with title 41, chapter 6, article 10.

E. A licensee or registrant who has been notified pursuant to subsection D of this section of charges pending against the licensee or registrant shall file with the board an answer in writing to the charges not more than thirty days after the licensee or registrant receives the complaint. If the licensee or registrant fails to answer in writing within this time, it is deemed an admission by the licensee or registrant of the acts charged in the complaint and the board may take disciplinary action allowed by this chapter without a hearing.

F. If the board finds that the evidence is not of sufficient seriousness to merit suspension or revocation of a license or registration issued pursuant to this chapter, imposition of a civil penalty or public reproof, the board may take the following actions:

1. Dismiss if, in the opinion of the board, the evidence is without merit.

2. File a letter of concern if, in the opinion of the board, while there is insufficient evidence to support direct action against the license or registration there is sufficient evidence for the board to notify the licensee or registrant that continuation of the activities which led to the information or report being made to the board may result in action against the licensee's license or registrant's registration.

3. Impose probation requirements.

G. If a licensee or registrant violates this chapter or a rule adopted pursuant to this chapter, the board may assess the licensee or registrant with the board's reasonable costs and expenses, including attorney fees, incurred in conducting the investigation and administrative hearing. All monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in a separate account in the barbering and cosmetology fund established by section 32-505. The board may only use these monies to defray its expenses in connection with investigation related training and education, disciplinary investigations and all costs related to administrative hearings. Notwithstanding section 35-143.01 the separate account monies may be spent without legislative appropriation.

H. Except as provided in section 41-1092.08, subsection H, final decisions of the board are subject to judicial review pursuant to title 12, chapter 7, article 6.

licensed by the board unless the person is requested by a customer to go to a place other than a salon licensed pursuant to this chapter and is sent to the customer from the salon, except that a person who is licensed or registered pursuant to this chapter may practice, without the salon's request, cosmetology, aesthetics, nail technology, hairstyling or personal services related to eyelash extensions in a health care facility, hospital, residential care institution, nursing home or residence of a person requiring home care because of an illness, infirmity or disability.

6. Obtain or attempt to obtain a license or registration by the use of monies other than the prescribed fees or any other thing of value or by fraudulent misrepresentation.

7. Provide any service to a person having a visible disease, pediculosis or open sores suggesting a communicable disease until the person furnishes a statement signed by a physician who is licensed pursuant to chapter 13 or 17 of this title stating that the disease or condition is not in an infectious, contagious or communicable stage.

Frank Migali, *Executive Director*  
Barbering and Cosmetology Board  
1740 W. Adams St., Suite 4400  
Phoenix, AZ 85007

**RE: Recommendations for R4-10-B301(B)(2)(n)**

Dear Executive Director Migali:

On behalf of the Arizona Society of Plastic Surgeons (AzSPS) and the American Society of Plastic Surgeons (ASPS), we are writing **in opposition to** R4-10-B301 and recommend striking amended subsection (B)(2)(n) that would add “*Introduction to Electricity and Light Therapy for Cosmetic Purposes Including Lasers/Intense Pulsed Light (IPL) Procedures and Devices*” to the Aesthetic School curriculum. ASPS is the largest association of plastic surgeons in the world, representing more than 8,000 members and 92 percent of all board-certified plastic surgeons in the United States – including 193 board-certified plastic surgeons in Arizona. Our mission is to advance quality care for plastic surgery patients and promote public policy that protects patient safety.

While laser procedures are extremely safe and effective when used by medical professionals with appropriate training and oversight, they can cause painful burns and permanent scarring in the wrong hands. Even when used at the manufacturer’s recommended settings, these devices can cause profound skin injury. For instance, despite only one-third of laser hair removal procedures being performed by non-physicians (including nurses, nurse practitioners, estheticians, or “technicians”), they accounted for 76 percent of injury lawsuits from 2002-2012. This number jumped to 85.7 percent of lawsuits filed between 2008-2012, with 64 percent of treatments performed outside of a traditional medical setting.

For patient safety and quality outcomes, it is critical that all lasers and IPL devices are only operated by physicians or other licensed medical professionals under direct physician supervision. These licensed professionals include physician assistants (PAs), nurse practitioners (NPs), and registered nurses (RNs) who are acting within the scope of their licensure and are under a physician's supervision. This should not include estheticians, cosmetologists, or other professionals who have no medical training. Additionally, physicians and PAs or NPs acting under physician supervision can conduct the initial assessment of the patient, but treatment should not commence until reviewed by the physician.

No amount of training can provide the medical expertise necessary to perform procedures involving lasers or light-based devices. Requiring a 600-hour curriculum that would, as written, include an introduction-level course on lasers and IPLs is insufficient and can never supplement the medical training obtained by nurses, physician assistants or physicians – training which is necessary to identify complications that may arise while performing the laser procedure. Therefore, it would not be appropriate for estheticians, or any other nonmedical professional, to perform procedures that could jeopardize patient safety.

We respectfully urge the Board to allow only licensed medical professionals, and those they supervise, to use lasers and light-based hair removal or reduction devices. As subsection (B)(2)(n) of R4-10-B301 would require non-physician estheticians to receive minimal training in complex medical procedures that fall squarely within the practice of medicine, we ask that it be stricken from the proposed rule's amended language.

Thank you for consideration of our comments. Please do not hesitate to contact Joe Mullin, ASPS State Affairs Manager, at [jmullin@plasticsurgery.org](mailto:jmullin@plasticsurgery.org) or (847) 981-5412 with any questions or concerns.

Public comment - Re Lash Tech: I would encourage considering - qualified instructor to include Nail Tech Instructor who would be qualified with substantial safety baseline and understanding of anatomy, chemistry, skin, board rules and statues, health & safety. The nail instructor is capable to add the protocol of Eye structure and products particular to the the lash protocol can be added

Re: Proposed rulemaking: - Current Law : R4 10 306 give specifics to "Curricula Hours" for all disciplines. I do not see a corresponding area or revision or inclusion of the content of this section R4-10-306 in the proposed rulemaking.... is this info contained or specified going forward? Public Rulemaking comment.... As a Schoolowner of 24 years i offer the following input:

R4-10-307 B1, and B2 - Why differentiate credit hours fro all disciplines @ nine credit hours / vs nail @ 6 credit hours. (Both Esthetic and Nail are 600 hour courses) - Total instructor is 350 - there seems no basis for differentiation as all instructor training is more closely related to teaching methodology and not core (practical) subject knowledge. , propose - include nail technology in B1.

R4-10-307: P1 - The change to a max 8 hours a day is a disservice and does not serve to improve the current max of 56 hours per week. As nail courses are limited, We have candidated driving long distances: Prescott, Payson - to Phoenix, and doing 12 hour lextended days. As work forces and other environments do 12 hour shifts, why penalize a candidate in cosmetology with extended time frames and a restriction that surpasses current law?

Recommend- Leave 56 max per week.

Sincerely,  
Brian McKew

To whom it may concern,

I Christine Mendez do not approve of the changes in regards to Lash Extension Technician Certification and would like to petition the Arizona State Board of Cosmetology to reconsider a required separate certification with a bi-annual fee when the professional is a licensed Esthetician or a licensed cosmetologist. Being a licensed professional, we pay thousands of dollars to obtain a license that allows us to safely perform such services. Many licensed professionals in the beauty Industry have obtained said Licenses due to previous requirements. The changes will allow others with very minimal training (30 hours) to obtain the same certification at the same cost but not in addition to a license fee. Changes to current regulations are in a sense penalizing those that have received a license with an added fee and additional requirements.

I hope that you will take this into consideration before everything is finalized.

Thank you for your time and consideration,

Hello, my name is **Cirocco Stout**,

I'm one of the original lash artists in the United States. I actually live here in Arizona. I started lashing in California, 2003/2004. I currently have my Arizona aesthetic license and primarily have been doing Lash services for the last 20 years!!

I've been able to watch the Lash industry shift and change over all of these years. All the good, all the bad & everything in between!

I unfortunately can't make it to the oral hearing on October 26 which I'm so sad I will be missing!! I have prior obligations at EVIT talking to students working towards getting their Cosmo and aesthetic licenses!

I wanted to extend myself to you or anyone regarding all of the Lash requirements for teaching and training purposes!

I do see so many things that are missing in our industry regarding the health and safety of the eyes with lash extensions. It is just absolutely shocking to me how many technicians don't understand the importance of chemicals/fumes around something delicate like an eye! So much could be added to the curriculum that will be required in the future for Lashes and Arizona to help the health and safety of all clients seeking out the service!

I would love to talk openly with anyone who has any questions or comments moving forward to better our state's rules and regulations for lash technicians and training programs. I'm very excited for all of the upcoming shifts and changes.

Thank you so much for!!!

## TITLE 4. PROFESSIONS AND OCCUPATIONS

### CHAPTER 10. BARBERING AND COSMETOLOGY BOARD

#### 1. Identification of the rulemaking:

Under Laws 2021, Chapter 334, the legislature created the Barbering and Cosmetology Board (Board) and eliminated both the existing Boards of Cosmetology and Barbers. The legislature did not, however, combine the statutes regarding the two occupations. As required under A.R.S. § 41-2955(B), the legislature indicate the purpose of the consolidation was to ensure the public is protected from the incompetent practice of barbering and cosmetology by establishing minimum qualifications for entry into these disciplines and swift and effective discipline for practitioners who violate barbering or cosmetology statutes or rules. Under Laws 2021, Chapter 334, Section 34, the consolidation was effective on December 31, 2021.

Under Laws 2023, Chapter 18, the legislature added A.R.S. § 32-519, which created the position of eyelash technician and required eyelash technicians to register with the Board and pay a fee established by the Board. The statute also required an eyelash technician to complete a Board-approved training program.

Under Laws 2023, Chapter 20, the legislature amended A.R.S. §§ 32-532 and 32-557 regarding becoming a cosmetology, aesthetics, nail technology, or hairstyling instructor by reciprocity and allowing a student enrolled in a school for the purpose of becoming an instructor to be a paid employee of the school.

Under Laws 2023, Chapter 22, the legislature amended A.R.S. §§ 32-510, 32-512, and 32-512.01 to add aestheticians, nail technicians, and hairstylists as disciplines able to obtain required training through a U.S. Department of Labor or Department of Economic Security-approved apprenticeship program.

In this rulemaking, the Board makes the changes to existing cosmetology and barbering rules that are needed to comply with statutory changes. The Board also makes minor, non-substantive changes to clarify the rules. Some of these changes address issues identified

in 5YRRs approved by Council for the two previous boards in 2020. An exemption from Executive Order 2022-01 was provided for this rulemaking by Brian Norman, of the governor's office, in an e-mail dated October 24, 2022. Approval to submit this rulemaking to GRRC, as required under A.R.S. § 41-1039(B), was provided by Hannah Johnson, of the governor's office, in an e-mail dated January 24, 2024.

a. The conduct and its frequency of occurrence that the rule is designed to change:

Until the rulemaking is completed, the Board's rules will not be consistent with recent statutory changes and integration of rules applicable to the two previous boards will not be fulfilled.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

It is not good government to have rules that are inconsistent with statute because the inconsistent rules cause confusion and create regulatory burdens.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

When the rulemaking is completed, the rules will be consistent with statute.

Integration of rules applicable to the two previous boards will be fulfilled.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The Board believes the economic impact of this rulemaking will be minimal because the only substantive changes made to existing rules are those required by statute. Individuals who choose to register as an eyelash technician and those who choose to provide training programs for eyelash technicians will be required to comply with procedures for registration and program approval and pay specified fees.

Changes having minimal positive economic impact or reducing regulatory burdens include:

- For business-entity applicants, reducing the number of officers, partners, or members required to submit an application;
- Clarifying the difference between crossover and transfer hours;
- Reducing the potential maximum fee for a cosmetologist to renew a delinquent personal license;
- Allowing use of plastic liners to maintain cleanliness of pedicure tubs;

- Reducing the amount of time a barbering instructor applicant has to have practiced barbering before applying to become an instructor;
- Clarifying that no license issued by the Board is transferrable;
- Allowing use of virtual learning for theory curriculum requirements.

Changes having minimal negative economic impact or adding small regulatory burdens include:

- Requiring all applications be submitted online;
- Reducing the amount of time for a school licensee to provide notice and updated information to the Board;
- Requiring the school licensee of a closing school to release student and employee belongings without request;
- Reducing the amount of time for the school licensee of a closing school to deliver student records to the Board;
- Clarifying information required for certificates of graduation and hours and requiring school licensees to provide the certificates to applicable students;

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

Licensees, applicants, and the Board will be directly affected by, bear the costs of, and directly benefit from the rulemaking.

The Board licenses or registers individuals in seven disciplines: barber, aesthetician, cosmetologist, hair stylist, nail technician, eyelash technician, and instructor. The Board licenses individuals or business entities to operate a school or an establishment. The Board also approves eyelash technician training programs. On the advice of the Board's assistant attorney general, the Board is waiting until the rules are in effect to register eyelash

technicians and approve eyelash technician training programs. The number of current licensees by discipline is:

Barbers: 7,402

Aestheticians: 21,398

Cosmetologists: 51,820

Hair stylists: 1,010

Nail technicians: 17,926

Schools: 123

Establishments: 15,648

During the last year, the Board received 9,471 applications for an initial license and 21,318 applications for renewal. Of the renewal applications from a cosmetologist, aesthetician, hair stylist, or nail technician, 229 were renewing after being inactive for more than five years. During the last year, the Board, which has 22.5 FTEs, collected \$2,704,800 in fees and charges for services. The Board was appropriated \$2,864,800

Under Laws 2021, Chapter 334, which created the Board and eliminated the existing Boards of Barbering and Cosmetology, it became necessary to create one set of rules rather than two separate sets. In 2022, the Board re-codified rules of both the Barber and Cosmetology Boards into one Chapter. The recodification did not amend the rules or combine them so there were duplications and inconsistencies within the rules. This rulemaking combines the existing rules into one set of rules with a focus on maintaining only rule provisions necessary to protect public health and safety. Even though there are no substantive changes other than those required by statute, combining two sets of rules may present challenges to existing licensees who are used to doing things in a particular way. In particular, requiring all applications to be submitted electronically may be challenging for some. The rule changes also present a challenge to the Board, which has to amend application forms and licensing procedures.

One of the goals of the legislature when it created the Barbering and Cosmetology Board was swift and effective discipline for practitioners who violate statutes or rules. During the last year, the Board received 555 complaints regarding licensees. The complaints frequently alleged unlicensed activity and unsanitary conditions. Of the complaints received, 251 went

before the Board and 39 licensees were disciplined. The discipline imposed included a non-disciplinary letter or concern, a disciplinary letter of concern, and civil penalties.

During the last year, two schools for which a license to operate had been issued, closed. Some of the provisions in this rulemaking require the licensee of a closing school to act more quickly to protect the interests and property of students and employees. This minor regulatory burden is designed to protect the public.

The Board has not started to register eyelash technicians or approve eyelash technician training programs under the recent statutory change. However, currently licensed cosmetologists and aestheticians may engage in eyelash technology. The Board believes there will be high demand from individuals seeking to register as an eyelash technician or offer an approved eyelash technician training program. The Board anticipates that at least 2,500 individuals will register as an eyelash technician and 75 persons will seek approval of an eyelash technician training program in the first year.

The primary economic impact of this rulemaking is on the Board, which has to pay to complete and implement the rulemaking, modify all application forms, modify licensing procedures, and ensure Board employees are trained in the new procedures. The Board has the benefit of having rules that comply with statute.

5. Cost-benefit analysis:

- a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

The Board is the only state agency directly affected by the rulemaking. The Board's costs and benefits are described in item 4. The Board will not need additional full-time employees to implement and enforce the rules.

- b. Costs and benefits to political subdivisions directly affected by the rulemaking:

No political subdivision is directly affected by the rulemaking.

- c. Costs and benefits to businesses directly affected by the rulemaking:

Licensees and registrants, schools, approved eyelash technician training programs, and establishments are businesses directly affected by the rulemaking. Their costs and benefits are described in item 4.

6. Impact on private and public employment:

The rulemaking will have no impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:

a. Identification of the small business subject to the rulemaking:

Licenses and registrants, schools, approved eyelash technician training programs, and establishments are small businesses subject to the rulemaking.

b. Administrative and other costs required for compliance with the rulemaking:

All persons subject to the rulemaking are required to apply to the Board for a license, registration, or approval, pay the specified fee, and renew the license, registration, or approval when specified. Those licensed, registered, or approved by the Board are required to comply with all statutes and rules. The rules, which are designed to protect public health and safety, include requirements regarding infect control and safety, equipment necessary to provide the services for which a license was issued, and curriculum and operational standards for schools.

c. Description of methods that may be used to reduce the impact on small businesses:

The Board believes all those subject to the rulemaking are small businesses. As a result, it is not possible to reduce the already minimal impact of the rulemaking on small businesses.

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:

The rulemaking will not directly affect private persons or consumers.

9. Probable effects on state revenues:

There will be a small increase in state revenues resulting from new fees to register as an eyelash technician, obtain approval of an eyelash technician training program, and renew the registration. If the Board's estimate in item 4 is correct, the Board will collect \$131,250 during the first year from registering eyelash technicians and approving eyelash technician training programs. Ten percent of this will go to the state's general fund.

The 229 cosmetologists, aestheticians, hair stylists, and nail technologists who renewed their personal license after it was inactive for more than five years would have saved as much as \$60 each under the amended rules. This would produce a small decreased in state revenues.

10. Less intrusive or less costly alternative methods considered:

Because the rules are neither intrusive nor costly, the Board did not consider an alternative method.

It may be helpful to allow current Cos or Aesti practitioners to pay for registration and license renewals all on the same date (and screen). Is there a way to make it all one fee? could their lash registration # be added to the Cosmetology or Aesthetician license- all on one license to simplify what has to be posted and renewed?

30 hours of education is NOT enough for someone who does not have a foundation in Cosmetology or Aesthetician to be working on an eye area safely.

To whom it may concern,

I am in favor of the new lashing bill. I am the exact person who this bill would greatly help!

I'm a Chiropractic Physician of 10 years and I've had my manicurist license for 20 years. I'd like to do lashes in order to supplement my income, as I cannot see as many chiropractic patients due to the physical demand on my body.

With the prior regulations, I would have had to go back to school for a year or more for esthetics. I could really use a career change now, and to be frank I already have my doctorate. It doesn't really make sense that I'd need an entire year or more to perform a topical beauty enhancement. I also already have 500,000 in loans with my advanced degree and I don't think I could afford another 1-2 full years.

Thank you so much for this alternative option! I really feel like a weight has been lifted.

Kind regards,

I find it upsetting that I put myself through esthetician school, put myself thousands in debt in order to do Lash Extensions, and now you don't even need a license. I believe Lash Extension Professionals should be required to have a cosmetology or estheticians license still.

Otherwise I did all of that for nothing.

I don't do anything but lashes.

I hope it's an easy process for those of us already licensed, certified, and experienced to be Registered.

I still strongly believe taking away the requirement of having a license does not help anybody.

I am opposed to this new rule/oversight regarding those who place lashes. One reason is those who went through the full esthetician programs are passed the board exams already pay for this license with encompasses their ability to do lashing after training. There should be no need for those to pay a separate fee now to do what they are already doing safely.

The other reason I oppose is that those who place lashes are working around clients eyes. The limited amount of training being proposed could pose a huge risk to their clients with a lack of full training under the esthetician licensing.

Thanks for listening

Eye Lash Extensions,

I believe each aesthetician doing eye lash work should be certified by the State of Arizona for this procedure. A certification notifies the public that the staff member has qualified and passed criteria for working in this field.

Questions that I have in regards to the new statues:

-The option to become a Registered Eye Lash Technician requires no other training than the minimum required 30 hours. So with that being said any person who would want to pursue a Lash Tech Registration could have no other connections than that? The amount of damage that can be sustained during a lashing session, if the Tech is negligent, could amount in a monstrous amount of medical debt.

I do not believe that 30 hours is sufficient to convey the importance of someone's eye sight.

-Has a class ratio been determined? Or is that going to be on the Certifying Lash Tech Teacher?

-Is there a sanitation class that will need to be completed prior to issuance of Registration? All of our licenses in this state require some minimum safety level to keep the general public safe.

Why is that not being included in this Registration?

- Legislation states that the 'Lash Registration Trainers' would be the ones to teach the board approved curriculum. However, some of us have our instructor license so how is the board to distinguish who is "Teaching"? For years we have had to go through additional instruction to learn proper classroom management and now you are going to have an increase of licensed individuals who are going to "claim" that they are the board approved "instructor" for lashes.

This may lead to a confusion for the those that are seeking a registration certification and had the potential to mislead the public on false claims.

- Virtual Option to Listen to public comments?

Another Note not related to the lash thing:

What are the possibilities of having a camera in the Google Meet, so that those that do virtual connect are able to see the members? I will say that seeing the Board of Massage Therapy vs. the BCB meetings. It is a nice touch to be able to see who is talking.

Thank you for your time,

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 8, 2024

**SUBJECT:** ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM  
Title 9, Chapter 22, Article 15

---

### Summary

This Five Year Review Report (5YRR) from the Arizona Health Care Cost Containment System (AHCCCS) or (Department) covers five (5) rules in Title 9, Chapter 22, Article 15 related to AHCCCS Medical Coverage for People who are Aged, Blind, or Disabled.

In a January 2014 rulemaking, AHCCCS amended the rules in Article 15 to update the incorporations by reference to federal laws related to AHCCCS eligibility for people who are aged, blind, or disabled and amended the Article to include reference to Article 3 for general applicability requirements for AHCCCS coverage.

There was no prior proposed course of action in the 5YRR approved by Council on April 5, 2019.

### Proposed Action

The Department states there is no proposed course of action as these rules are the state explanation of federal eligibility requirements and timelines for individuals who are aged, blind and disabled. As there are no changes to the federal eligibility requirements, there are no changes to these rules.

**1. Has the agency analyzed whether the rules are authorized by statute?**

The Department cites both general and specific statutory authority for these rules.

**2. Summary of the agency's economic impact comparison and identification of stakeholders:**

The Administration provides essential medical coverage for individuals who are aged, blind, or disabled in Arizona. The program provides support to healthcare providers by reimbursing for services rendered to eligible individuals. It creates job opportunities in the healthcare sector, including physicians, nurses, allied health professionals, and administrative staff. Access to coverage through this program also reduces the financial burden on individuals and families and alleviates the financial strain of medical expenses. Improved health outcomes resulting from access to the program enhance productivity and economic participation. It reduces out-of-pocket costs and contributes to overall economic activity in the state.

Stakeholders include the Administration; individuals in Arizona who are aged, blind, or disabled; workers in the healthcare sector; and the general public.

**3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Administration proposes no changes and maintains that the current rules are the most cost-effective method.

**4. Has the agency received any written criticisms of the rules over the last five years?**

The Department states they have not received any written criticisms of the rules in the last five years.

**5. Has the agency analyzed the rules' clarity, conciseness, and understandability?**

The Department states the rules are clear, concise, and understandable.

**6. Has the agency analyzed the rules' consistency with other rules and statutes?**

The Department states the rules are consistent with other rules and statutes.

**7. Has the agency analyzed the rules' effectiveness in achieving its objectives?**

The Department states the rules are effective in achieving their objectives.

**8. Has the agency analyzed the current enforcement status of the rules?**

The Department states the rules are enforced as written.

**9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department states the rules are not more stringent than corresponding federal law.

**10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Department indicates the rules are not applicable as the rules do not require a permit or license.

**11. Conclusion**

This Five Year Review Report from the Arizona Health Care Cost Containment System covers five rules in Title 9, Chapter 22, Article 15 related to AHCCCS Medical Coverage for People who are Aged, Blind, or Disabled. As indicated above, the rules are generally clear, concise, and understandable and enforced as written.

The report meets the requirements of A.R.S. § 41-1056 and R1-6-301. Council staff recommends approval.

professionals, and administrative staff. Access to coverage through this program also reduces the financial burden on individuals and families and alleviates the financial strain of medical expenses. Improved health outcomes resulting from access to the program enhance productivity and economic participation. It reduces out-of-pocket costs and contributes to overall economic activity in the state.

9. **Has the agency received any business competitiveness analyses of the rules?** Yes \_\_\_ No X

10. **Has the agency completed the course of action indicated in the agency's previous five-year-review report?**

Due to the fact that these rules are the state explanation of federal eligibility requirements and timelines for individuals who are aged, blind and disabled, there are no changes needed. There was no proposed course of action in the prior 5YRR.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

No changes proposed, therefore maintaining the current rules is the most cost effective method.

12. **Are the rules more stringent than corresponding federal laws?** Yes \_\_\_ No X

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:**

The agency is not proposing a new rule or an amendment to an existing rule due to the fact that federal eligibility criteria and timelines outlined in these rules, have not changed. Therefore, agency's need to be aligned with the general permit requirements of A.R.S. 41-1037 or otherwise explain why the agency believes an exception applies does not exist.

14. **Proposed course of action**

No proposed course of action.

In determining the net income of a married couple living with a child or the net income of a person who is not living with a spouse but living with a child, a child allocation is allowed as a deduction from the combined net income of the couple for each child regardless of whether the child is ineligible or eligible. For the purposes of this Section, a child means a person who is unmarried, natural or adopted, and under age 18 or under age 22 if a full-time student. Each child's allocation deduction is reduced by that child's income, including public income maintenance payments, using the methodology under 20 CFR 416.1163(b)(1) and (2) as of April 1, 2013, which is incorporated by reference and on file with the Adminis-

4. In determining the income deemed available to an applicant who is a child from an ineligible parent or parents, an allocation for each eligible or ineligible child of the parent is allowed as a deduction from the parent's income under 20 CFR 416.1165(b). The child's allocation is reduced by that child's income, including public income maintenance payments.
5. In determining the income of a person who receives an annual Title II Cost of Living Allowance (COLA) increase, the COLA amount is disregarded from January until the Administration applies the effective income limits under R9-22-1504 based on the FPL for the calendar year.

### 36-2903.01. Additional powers and duties; report; definition

A. The director of the Arizona health care cost containment system administration may adopt rules that provide that the system may withhold or forfeit payments to be made to a noncontracting provider by the system if the noncontracting provider fails to comply with this article, the provider agreement or rules that are adopted pursuant to this article and that relate to the specific services rendered for which a claim for payment is made.

B. The director shall:

1. Prescribe uniform forms to be used by all contractors. The rules shall require a written and signed application by the applicant or an applicant's authorized representative, or, if the person is incompetent or incapacitated, a family member or a person acting responsibly for the applicant may obtain a signature or a reasonable facsimile and file the application as prescribed by the administration.

2. Enter into an interagency agreement with the department to establish a streamlined eligibility process to determine the eligibility of all persons defined pursuant to section 36-2901, paragraph 6, subdivision (a). At the administration's option, the interagency agreement may allow the administration to determine the eligibility of certain persons, including those defined pursuant to section 36-2901, paragraph 6, subdivision (a).

3. Enter into an intergovernmental agreement with the department to:

(a) Establish an expedited eligibility and enrollment process for all persons who are hospitalized at the time of application.

(b) Establish performance measures and incentives for the department.

(c) Establish the process for management evaluation reviews that the administration shall perform to evaluate the eligibility determination functions performed by the department.

(d) Establish eligibility quality control reviews by the administration.

(e) Require the department to adopt rules, consistent with the rules adopted by the administration for a hearing process, that applicants or members may use for appeals of eligibility determinations or redeterminations.

(f) Establish the department's responsibility to place sufficient eligibility workers at federally qualified health centers to screen for eligibility and at hospital sites and level one trauma centers to ensure that persons seeking hospital services are screened on a timely basis for eligibility for the system, including a process to ensure that applications for the system can be accepted on a twenty-four hour basis, seven days a week.

(g) Withhold payments based on the allowable sanctions for errors in eligibility determinations or redeterminations or failure to meet performance measures required by the intergovernmental agreement.

(h) Recoup from the department all federal fiscal sanctions that result from the department's inaccurate eligibility determinations. The director may offset all or part of a sanction if the department submits a corrective action plan and a strategy to remedy the error.

4. By rule establish a procedure and time frames for the intake of grievances and requests for hearings, for the continuation of benefits and services during the appeal process and for a grievance process at the contractor level. Notwithstanding sections 41-1092.02, 41-1092.03 and 41-1092.05, the administration shall develop rules to establish the procedure and time frame for the informal resolution of grievances and appeals. A grievance that is not related to a claim for payment of system covered services shall be filed in writing with and received by the administration or the prepaid capitated provider or program contractor not later than sixty days after the date of the adverse action, decision or policy implementation being grieved. A grievance that is related to a claim for payment of system covered services must be filed in writing and received by the administration or the prepaid capitated provider or program contractor within twelve months after the date of service, within twelve months

after the date that eligibility is posted or within sixty days after the date of the denial of a timely claim submission, whichever is later. A grievance for the denial of a claim for reimbursement of services may contest the validity of any adverse action, decision, policy implementation or rule that related to or resulted in the full or partial denial of the claim. A policy implementation may be subject to a grievance procedure, but it may not be appealed for a hearing. The administration is not required to participate in a mandatory settlement conference if it is not a real party in interest. In any proceeding before the administration, including a grievance or hearing, persons may represent themselves or be represented by a duly authorized agent who is not charging a fee. A legal entity may be represented by an officer, partner or employee who is specifically authorized by the legal entity to represent it in the particular proceeding.

5. Apply for and accept federal funds available under title XIX of the social security act (P.L. 89-97; 79 Stat. 344; 42 United States Code section 1396 (1980)) in support of the system. The application made by the director pursuant to this paragraph shall be designed to qualify for federal funding primarily on a prepaid capitated basis. Such funds may be used only for the support of persons defined as eligible pursuant to title XIX of the social security act or the approved section 1115 waiver.

6. At least thirty days before the implementation of a policy or a change to an existing policy relating to reimbursement, provide notice to interested parties. Parties interested in receiving notification of policy changes shall submit a written request for notification to the administration.

7. In addition to the cost sharing requirements specified in subsection D, paragraph 4 of this section:

(a) Charge monthly premiums up to the maximum amount allowed by federal law to all populations of eligible persons who may be charged.

(b) Implement this paragraph to the extent permitted under the federal deficit reduction act of 2005 and other federal laws, subject to the approval of federal waiver authority and to the extent that any changes in the cost sharing requirements under this paragraph would permit this state to receive any enhanced federal matching rate.

C. The director is authorized to apply for any federal funds available for the support of programs to investigate and prosecute violations arising from the administration and operation of the system. Available state funds appropriated for the administration and operation of the system may be used as matching funds to secure federal funds pursuant to this subsection.

D. The director may adopt rules or procedures to do the following:

1. Authorize advance payments based on estimated liability to a contractor or a noncontracting provider after the contractor or noncontracting provider has submitted a claim for services and before the claim is ultimately resolved. The rules shall specify that any advance payment shall be conditioned on the execution before payment of a contract with the contractor or noncontracting provider that requires the administration to retain a specified percentage, which shall be at least twenty percent, of the claimed amount as security and that requires repayment to the administration if the administration makes any overpayment.

2. Defer liability, in whole or in part, of contractors for care provided to members who are hospitalized on the date of enrollment or under other circumstances. Payment shall be on a capped fee-for-service basis for services other than hospital services and at the rate established pursuant to subsection G of this section for hospital services or at the rate paid by the health plan, whichever is less.

3. Deputize, in writing, any qualified officer or employee in the administration to perform any act that the director by law is empowered to do or charged with the responsibility of doing, including the authority to issue final administrative decisions pursuant to section 41-1092.08.

4. Notwithstanding any other law, require persons eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2931 and section 36-2981, paragraph 6 to be financially responsible for any cost sharing requirements established in a state plan or a section 1115 waiver and approved by the centers for medicare and

medicaid services. Cost sharing requirements may include copayments, coinsurance, deductibles, enrollment fees and monthly premiums for enrolled members, including households with children enrolled in the Arizona long-term care system.

E. The director shall adopt rules that further specify the medical care and hospital services that are covered by the system pursuant to section 36-2907.

F. In addition to the rules otherwise specified in this article, the director may adopt necessary rules pursuant to title 41, chapter 6 to carry out this article. Rules adopted by the director pursuant to this subsection shall consider the differences between rural and urban conditions on the delivery of hospitalization and medical care.

G. For inpatient hospital admissions and outpatient hospital services on and after March 1, 1993, the administration shall adopt rules for the reimbursement of hospitals according to the following procedures:

1. For inpatient hospital stays from March 1, 1993 through September 30, 2014, the administration shall use a prospective tiered per diem methodology, using hospital peer groups if analysis shows that cost differences can be attributed to independently definable features that hospitals within a peer group share. In peer grouping the administration may consider such factors as length of stay differences and labor market variations. If there are no cost differences, the administration shall implement a stop loss-stop gain or similar mechanism. Any stop loss-stop gain or similar mechanism shall ensure that the tiered per diem rates assigned to a hospital do not represent less than ninety percent of its 1990 base year costs or more than one hundred ten percent of its 1990 base year costs, adjusted by an audit factor, during the period of March 1, 1993 through September 30, 1994. The tiered per diem rates set for hospitals shall represent no less than eighty-seven and one-half percent or more than one hundred twelve and one-half percent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1994 through September 30, 1995 and no less than eighty-five percent or more than one hundred fifteen percent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1995 through September 30, 1996. For the periods after September 30, 1996 no stop loss-stop gain or similar mechanisms shall be in effect. An adjustment in the stop loss-stop gain percentage may be made to ensure that total payments do not increase as a result of this provision. If peer groups are used, the administration shall establish initial peer group designations for each hospital before implementation of the per diem system. The administration may also use a negotiated rate methodology. The tiered per diem methodology may include separate consideration for specialty hospitals that limit their provision of services to specific patient populations, such as rehabilitative patients or children. The initial per diem rates shall be based on hospital claims and encounter data for dates of service November 1, 1990 through October 31, 1991 and processed through May of 1992. The administration may also establish a separate reimbursement methodology for claims with extraordinarily high costs per day that exceed thresholds established by the administration.

2. For rates effective on October 1, 1994, and annually through September 30, 2011, the administration shall adjust tiered per diem payments for inpatient hospital care by the data resources incorporated market basket index for prospective payment system hospitals. For rates effective beginning on October 1, 1999, the administration shall adjust payments to reflect changes in length of stay for the maternity and nursery tiers.

3. Through June 30, 2004, for outpatient hospital services, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to the covered charges. Beginning on July 1, 2004 through June 30, 2005, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to covered charges. If the hospital increases its charges for outpatient services filed with the Arizona department of health services pursuant to chapter 4, article 3 of this title, by more than 4.7 percent for dates of service effective on or after July 1, 2004, the hospital specific cost-to-charge ratio will be reduced by the amount that it exceeds 4.7 percent. If charges exceed 4.7 percent, the effective date of the increased charges will be the effective date of the adjusted Arizona health care cost containment system cost-to-charge ratio. The administration shall develop the methodology for a capped fee-for-service schedule and a statewide cost-to-charge ratio. Any covered outpatient service not included in the capped fee-for-service schedule shall be reimbursed by applying the statewide cost-to-charge ratio that is based on the services not included in the capped fee-for-service schedule. Beginning on July 1, 2005, the administration shall reimburse clean claims with dates of service on or after July 1, 2005, based on the capped fee-for-service schedule or the statewide cost-to-charge

ratio established pursuant to this paragraph. The administration may make additional adjustments to the outpatient hospital rates established pursuant to this section based on other factors, including the number of beds in the hospital, specialty services available to patients and the geographic location of the hospital.

4. Except if submitted under an electronic claims submission system, a hospital bill is considered received for purposes of this paragraph on initial receipt of the legible, error-free claim form by the administration if the claim includes the following error-free documentation in legible form:

- (a) An admission face sheet.
- (b) An itemized statement.
- (c) An admission history and physical.
- (d) A discharge summary or an interim summary if the claim is split.
- (e) An emergency record, if admission was through the emergency room.
- (f) Operative reports, if applicable.
- (g) A labor and delivery room report, if applicable.

Payment received by a hospital from the administration pursuant to this subsection or from a contractor either by contract or pursuant to section 36-2904, subsection I is considered payment by the administration or the contractor of the administration's or contractor's liability for the hospital bill. A hospital may collect any unpaid portion of its bill from other third-party payors or in situations covered by title 33, chapter 7, article 3.

5. For services rendered on and after October 1, 1997, the administration shall pay a hospital's rate established according to this section subject to the following:

- (a) If the hospital's bill is paid within thirty days of the date the bill was received, the administration shall pay ninety-nine percent of the rate.
- (b) If the hospital's bill is paid after thirty days but within sixty days of the date the bill was received, the administration shall pay one hundred percent of the rate.
- (c) If the hospital's bill is paid any time after sixty days of the date the bill was received, the administration shall pay one hundred percent of the rate plus a fee of one percent per month for each month or portion of a month following the sixtieth day of receipt of the bill until the date of payment.

6. In developing the reimbursement methodology, if a review of the reports filed by a hospital pursuant to section 36-125.04 indicates that further investigation is considered necessary to verify the accuracy of the information in the reports, the administration may examine the hospital's records and accounts related to the reporting requirements of section 36-125.04. The administration shall bear the cost incurred in connection with this examination unless the administration finds that the records examined are significantly deficient or incorrect, in which case the administration may charge the cost of the investigation to the hospital examined.

7. Except for privileged medical information, the administration shall make available for public inspection the cost and charge data and the calculations used by the administration to determine payments under the tiered per diem system, provided that individual hospitals are not identified by name. The administration shall make the data and calculations available for public inspection during regular business hours and shall provide copies of the data and calculations to individuals requesting such copies within thirty days of receipt of a written request. The administration may charge a reasonable fee for the provision of the data or information.

8. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the prospective payment of inpatient hospital capital related costs. The capital payment shall

include hospital specific and statewide average amounts. For tiered per diem rates beginning on October 1, 1999, the capital related cost component is frozen at the blended rate of forty percent of the hospital specific capital cost and sixty percent of the statewide average capital cost in effect as of January 1, 1999 and as further adjusted by the calculation of tier rates for maternity and nursery as prescribed by law. Through September 30, 2011, the administration shall adjust the capital related cost component by the data resources incorporated market basket index for prospective payment system hospitals.

9. For graduate medical education programs:

(a) Beginning September 30, 1997, the administration shall establish a separate graduate medical education program to reimburse hospitals that had graduate medical education programs that were approved by the administration as of October 1, 1999. The administration shall separately account for monies for the graduate medical education program based on the total reimbursement for graduate medical education reimbursed to hospitals by the system in federal fiscal year 1995-1996 pursuant to the tiered per diem methodology specified in this section. The graduate medical education program reimbursement shall be adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Subject to legislative appropriation, on an annual basis, each qualified hospital shall receive a single payment from the graduate medical education program that is equal to the same percentage of graduate medical education reimbursement that was paid by the system in federal fiscal year 1995-1996. Any reimbursement for graduate medical education made by the administration shall not be subject to future settlements or appeals by the hospitals to the administration. The monies available under this subdivision shall not exceed the fiscal year 2005-2006 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement, except for monies distributed for expansions pursuant to subdivision (b) of this paragraph.

(b) The monies available for graduate medical education programs pursuant to this subdivision shall not exceed the fiscal year 2006-2007 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Graduate medical education programs eligible for such reimbursement are not precluded from receiving reimbursement for funding under subdivision (c) of this paragraph. Beginning July 1, 2006, the administration shall distribute any monies appropriated for graduate medical education above the amount prescribed in subdivision (a) of this paragraph in the following order or priority:

(i) For the direct costs to support the expansion of graduate medical education programs established before July 1, 2006 at hospitals that do not receive payments pursuant to subdivision (a) of this paragraph. These programs must be approved by the administration.

(ii) For the direct costs to support the expansion of graduate medical education programs established on or before October 1, 1999. These programs must be approved by the administration.

(c) The administration shall distribute to hospitals any monies appropriated for graduate medical education above the amount prescribed in subdivisions (a) and (b) of this paragraph for the following purposes:

(i) For the direct costs of graduate medical education programs established or expanded on or after July 1, 2006. These programs must be approved by the administration.

(ii) For a portion of additional indirect graduate medical education costs for programs that are located in a county with a population of less than five hundred thousand persons at the time the residency position was created or for a residency position that includes a rotation in a county with a population of less than five hundred thousand persons at the time the residency position was established. These programs must be approved by the administration.

(d) The administration shall develop, by rule, the formula by which the monies are distributed.

(e) Each graduate medical education program that receives funding pursuant to subdivision (b) or (c) of this paragraph shall identify and report to the administration the number of new residency positions created by the funding provided in this paragraph, including positions in rural areas. The program shall also report information related to the number of funded residency positions that resulted in physicians locating their practices in this state. The administration shall report to the joint legislative budget committee by February 1 of each year on the number of new residency positions as reported by the graduate medical education programs.

(f) Local, county and tribal governments and any university under the jurisdiction of the Arizona board of regents may provide monies in addition to any state general fund monies appropriated for graduate medical education in order to qualify for additional matching federal monies for providers, programs or positions in a specific locality and costs incurred pursuant to a specific contract between the administration and providers or other entities to provide graduate medical education services as an administrative activity. Payments by the administration pursuant to this subdivision may be limited to those providers designated by the funding entity and may be based on any methodology deemed appropriate by the administration, including replacing any payments that might otherwise have been paid pursuant to subdivision (a), (b) or (c) of this paragraph had sufficient state general fund monies or other monies been appropriated to fully fund those payments. These programs, positions, payment methodologies and administrative graduate medical education services must be approved by the administration and the centers for medicare and medicaid services. The administration shall report to the president of the senate, the speaker of the house of representatives and the director of the joint legislative budget committee on or before July 1 of each year on the amount of money contributed and number of residency positions funded by local, county and tribal governments, including the amount of federal matching monies used.

(g) Any funds appropriated but not allocated by the administration for subdivision (b) or (c) of this paragraph may be reallocated if funding for either subdivision is insufficient to cover appropriate graduate medical education costs.

10. Notwithstanding section 41-1005, subsection A, paragraph 9, the administration shall adopt rules pursuant to title 41, chapter 6 establishing the methodology for determining the prospective tiered per diem payments that are in effect through September 30, 2014.

11. For inpatient hospital services rendered on or after October 1, 2011, the prospective tiered per diem payment rates are permanently reset to the amounts payable for those services as of October 1, 2011 pursuant to this subsection.

12. The administration shall adopt a diagnosis-related group based hospital reimbursement methodology consistent with title XIX of the social security act for inpatient dates of service on and after October 1, 2014. The administration may make additional adjustments to the inpatient hospital rates established pursuant to this section for hospitals that are publicly operated or based on other factors, including the number of beds in the hospital, the specialty services available to patients, the geographic location and diagnosis-related group codes that are made publicly available by the hospital pursuant to section 36-437. The administration may also provide additional reimbursement for extraordinarily high cost cases that exceed a threshold above the standard payment. The administration may also establish a separate payment methodology for specific services or hospitals serving unique populations.

H. The director may adopt rules that specify enrollment procedures, including notice to contractors of enrollment. The rules may provide for varying time limits for enrollment in different situations. The administration shall specify in contract when a person who has been determined eligible will be enrolled with that contractor and the date on which the contractor will be financially responsible for health and medical services to the person.

I. The administration may make direct payments to hospitals for hospitalization and medical care provided to a member in accordance with this article and rules. The director may adopt rules to establish the procedures by which the administration shall pay hospitals pursuant to this subsection if a contractor fails to make timely payment to a hospital. Such payment shall be at a level determined pursuant to section 36-2904, subsection H

or I. The director may withhold payment due to a contractor in the amount of any payment made directly to a hospital by the administration on behalf of a contractor pursuant to this subsection.

J. The director shall establish a special unit within the administration for the purpose of monitoring the third-party payment collections required by contractors and noncontracting providers pursuant to section 36-2903, subsection B, paragraph 10 and subsection F and section 36-2915, subsection E. The director shall determine by rule:

1. The type of third-party payments to be monitored pursuant to this subsection.
2. The percentage of third-party payments that is collected by a contractor or noncontracting provider and that the contractor or noncontracting provider may keep and the percentage of such payments that the contractor or noncontracting provider may be required to pay to the administration. Contractors and noncontracting providers must pay to the administration one hundred percent of all third-party payments that are collected and that duplicate administration fee-for-service payments. A contractor that contracts with the administration pursuant to section 36-2904, subsection A may be entitled to retain a percentage of third-party payments if the payments collected and retained by a contractor are reflected in reduced capitation rates. A contractor may be required to pay the administration a percentage of third-party payments that are collected by a contractor and that are not reflected in reduced capitation rates.

K. The administration shall establish procedures to apply to the following if a provider that has a contract with a contractor or noncontracting provider seeks to collect from an individual or financially responsible relative or representative a claim that exceeds the amount that is reimbursed or should be reimbursed by the system:

1. On written notice from the administration or oral or written notice from a member that a claim for covered services may be in violation of this section, the provider that has a contract with a contractor or noncontracting provider shall investigate the inquiry and verify whether the person was eligible for services at the time that covered services were provided. If the claim was paid or should have been paid by the system, the provider that has a contract with a contractor or noncontracting provider shall not continue billing the member.

2. If the claim was paid or should have been paid by the system and the disputed claim has been referred for collection to a collection agency or referred to a credit reporting bureau, the provider that has a contract with a contractor or noncontracting provider shall:

- (a) Notify the collection agency and request that all attempts to collect this specific charge be terminated immediately.

- (b) Advise all credit reporting bureaus that the reported delinquency was in error and request that the affected credit report be corrected to remove any notation about this specific delinquency.

- (c) Notify the administration and the member that the request for payment was in error and that the collection agency and credit reporting bureaus have been notified.

3. If the administration determines that a provider that has a contract with a contractor or noncontracting provider has billed a member for charges that were paid or should have been paid by the administration, the administration shall send written notification by certified mail or other service with proof of delivery to the provider that has a contract with a contractor or noncontracting provider stating that this billing is in violation of federal and state law. If, twenty-one days or more after receiving the notification, a provider that has a contract with a contractor or noncontracting provider knowingly continues billing a member for charges that were paid or should have been paid by the system, the administration may assess a civil penalty in an amount equal to three times the amount of the billing and reduce payment to the provider that has a contract with a contractor or noncontracting provider accordingly. Receipt of delivery signed by the addressee or the addressee's employee is prima facie evidence of knowledge. Civil penalties collected pursuant to this subsection shall be deposited in the state general fund. Section 36-2918, subsections C, D and F, relating to the imposition, collection and enforcement of civil penalties, apply to civil penalties imposed pursuant to this paragraph.

L. The administration may conduct postpayment review of all claims paid by the administration and may recoup any monies erroneously paid. The director may adopt rules that specify procedures for conducting postpayment review. A contractor may conduct a postpayment review of all claims paid by the contractor and may recoup monies that are erroneously paid.

M. Subject to title 41, chapter 4, article 4, the director or the director's designee may employ and supervise personnel necessary to assist the director in performing the functions of the administration.

N. The administration may contract with contractors for obstetrical care who are eligible to provide services under title XIX of the social security act.

O. Notwithstanding any other law, on federal approval the administration may make disproportionate share payments to private hospitals, county operated hospitals, including hospitals owned or leased by a special health care district, and state operated institutions for mental disease beginning October 1, 1991 in accordance with federal law and subject to legislative appropriation. If at any time the administration receives written notification from federal authorities of any change or difference in the actual or estimated amount of federal funds available for disproportionate share payments from the amount reflected in the legislative appropriation for such purposes, the administration shall provide written notification of such change or difference to the president and the minority leader of the senate, the speaker and the minority leader of the house of representatives, the director of the joint legislative budget committee, the legislative committee of reference and any hospital trade association within this state, within three working days not including weekends after receipt of the notice of the change or difference. In calculating disproportionate share payments as prescribed in this section, the administration may use either a methodology based on claims and encounter data that is submitted to the administration from contractors or a methodology based on data that is reported to the administration by private hospitals and state operated institutions for mental disease. The selected methodology applies to all private hospitals and state operated institutions for mental disease qualifying for disproportionate share payments.

P. Disproportionate share payments made pursuant to subsection O of this section include amounts for disproportionate share hospitals designated by political subdivisions of this state, tribal governments and universities under the jurisdiction of the Arizona board of regents. Subject to the approval of the centers for medicare and medicaid services, any amount of federal funding allotted to this state pursuant to section 1923(f) of the social security act and not otherwise spent under subsection O of this section shall be made available for distribution pursuant to this subsection. Political subdivisions of this state, tribal governments and universities under the jurisdiction of the Arizona board of regents may designate hospitals eligible to receive disproportionate share payments in an amount up to the limit prescribed in section 1923(g) of the social security act if those political subdivisions, tribal governments or universities provide sufficient monies to qualify for the matching federal monies for the disproportionate share payments.

Q. Notwithstanding any law to the contrary, the administration may receive confidential adoption information to determine whether an adopted child should be terminated from the system.

R. The adoption agency or the adoption attorney shall notify the administration within thirty days after an eligible person receiving services has placed that person's child for adoption.

S. If the administration implements an electronic claims submission system, it may adopt procedures pursuant to subsection G of this section requiring documentation different than prescribed under subsection G, paragraph 4 of this section.

T. In addition to any requirements adopted pursuant to subsection D, paragraph 4 of this section, notwithstanding any other law, subject to approval by the centers for medicare and medicaid services, beginning July 1, 2011, members eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2931 and section 36-2981, paragraph 6 shall pay the following:

1. A monthly premium of fifteen dollars, except that the total monthly premium for an entire household shall not exceed sixty dollars.

2. A copayment of five dollars for each physician office visit.
3. A copayment of ten dollars for each urgent care visit.
4. A copayment of thirty dollars for each emergency department visit.

U. Subject to the approval of the centers for medicare and medicaid services, political subdivisions of this state, tribal governments and any university under the jurisdiction of the Arizona board of regents may provide to the Arizona health care cost containment system administration monies in addition to any state general fund monies appropriated for critical access hospitals in order to qualify for additional federal monies. Any amount of federal monies received by this state pursuant to this subsection shall be distributed as supplemental payments to critical access hospitals.

V. For the purposes of this section, "disproportionate share payment" means a payment to a hospital that serves a disproportionate share of low-income patients as described by 42 United States Code section 1396r-4.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

---

**MEETING DATE:** February 6, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** January 16, 2024

**SUBJECT: GAME AND FISH COMMISSION**  
Title 12, Chapter 4, Article 2

---

### Summary

This Five-Year Review Report (5YRR) from the Game and Fish Commission (Commission) relates to fourteen (14) rules in Title 12, Chapter 4, Article 2 regarding Licenses, Permits, Stamps, and Tags. Specifically, the Commission indicates the intent of these rules is to provide greater clarity to the rules governing hunting and fishing licenses. The Commission indicates these rules establish the privileges associated with the hunting and fishing licenses, permits, stamps, and tags issued by the Department, to include exemptions from hunting and fishing license requirements.

In the prior 5YRR for these rules, which was approved by the Council in June 2019, the Commission proposed to amend the rules to remove the Department website URL and simply reference "Department website" to ensure the rule remains concise in the event the Department's URL should change. The Department also proposed amending R12-4-211 to clarify the privileges included with the lifetime license do not include permit-tags, non-permit-tags, or any stamp required to validate the lifetime license for the take of big game animals, migratory game birds, or other wildlife authorized by an applicable tag or stamp in response to customer comments received by the Department. The Commission indicates it completed the prior proposed course of action through a regular rulemaking which became effective on December 18, 2020.

## **Proposed Action**

In the current report, Commission proposes to amend the following rules as outlined in more detail below:

- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License
- R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp
- R12-4-205. High Achievement Scout License
- R12-4-208. Guide License
- R12-4-216. Crossbow Permit

The Commission states it anticipates requesting an exception to the rulemaking moratorium proscribed under A.R.S. 41-1039(A) by December 2023 and submitting the Notice of Final Rulemaking for actions proposed in this report to the Council by March 2025, provided the Commission is granted permission to pursue rulemaking.

### **1. Has the agency analyzed whether the rules are authorized by statute?**

The Commission cites both general and specific statutory authority for these rules.

### **2. Summary of the agency’s economic impact comparison and identification of stakeholders:**

The Commission states that the rulemakings resulted in the estimated economic, small business, and consumer impacts as stated in the final rulemaking packages approved on December 1, 2020, and July 2, 2019. The Commission anticipated these rulemakings to benefit persons regulated by the rules, members of the public, the Arizona Game and Fish Department (Department), and licensed taxidermists by clarifying rule language, creating consistency among existing Commission rules, reducing the burden on persons regulated by the rules where practical, by complying with statute, and through a reduced fee for licensed taxidermists.

The Commission anticipates R12-4-202, which was last amended through exempt rulemaking made effective September 26, 2022, will benefit persons regulated by the rule by creating the reduced-fee Purple Heart Medal license. The rule will not impose increased costs for other state agencies, political subdivisions, or businesses, and will not significantly impact public or private employment and revenue, or State revenues or the general fund.

### **3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Commission states that the rules allow for the adoption of updated business practices and represent the most cost-effective and efficient method of fulfilling the Commission’s and

Department's responsibilities and impose only those requirements that are necessary to meet the Commission's objectives. The Commission/Department believes that the rules impose the least burdens and costs to persons regulated by the rules.

4. **Has the agency received any written criticisms of the rules over the last five years?**

The Commission indicates it received several comments related to these rules. The comments and the Commission's response to those comments are summarized in Section 7 of the Commission's report.

5. **Has the agency analyzed the rules' clarity, conciseness, and understandability?**

The Commission indicates the rules are generally clear, concise, and understandable except for the following:

- **R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp:** The rule requires a person to purchase a stamp in order to take band-tailed pigeons, moorhen, coots, doves, ducks, geese, snipe, or swans. The Department recommends amending the rule to replace the term "moorhen" with "gallinules" as this is the current reference for the group of legal species that may be found in Arizona.
- **R12-4-205. High Achievement Scout License:** The "Boy Scouts of America" program where young men could earn an Eagle Scout has been rebranded to "Scouts BSA" to include both male and female participants. The Department recommends amending the rule to reflect the organization's current program.

6. **Has the agency analyzed the rules' consistency with other rules and statutes?**

The Commission indicates the rules are generally clear, concise, and understandable except for the following:

- **R12-4-202. Complimentary and Reduced-fee Disabled Veteran's License; Reduced-fee Purple Heart Medal License:** Like the lifetime licenses issued under R12-4-211 (Lifetime License), the permanent (lifetime) Disabled Veteran's License is valid for the person's lifetime and continues to remain valid if the license holder moves out-of-state. The out-of-state license holder must pay the nonresident fee when purchasing any required hunt permit-tag, nonpermit-tag, or stamp to hunt and fish in Arizona, but the hunt- permit tag issuance limitations for nonresident permit holders do not apply to a Disabled Veteran's License holder. The Department recommends amending the rule to clarify the Disabled Veteran's License (lifetime license) benefits and limitations to increase consistency between rules within Article 2. This change is in response to customer comments received by the Department.
- **R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp:** Internal discussions indicate the U.S. Fish and Wildlife Service is considering amending the federal regulation to offer a tiered stamp structure to increase

participation in migratory game bird hunting. The tiered structure will offer hunters the option to select either a 'standard' waterfowl season, with set harvest limits on particular species, or a 'splash' waterfowl season that offers a reduced harvest limit but allows hunters to harvest any legal waterfowl species to meet that limit. The Department will monitor the proposed regulation and may amend the rule to reflect the tiered structure if the proposed regulation is adopted in the future. In addition, the U.S. Fish and Wildlife Service is exploring the concept of issuing e-stamps that are valid the entire waterfowl season rather than a hard copy stamp a hunter has to carry with them, in addition to their hunting license. The Department will monitor the proposed regulation and may amend the rule to reflect the e-stamp if the proposed regulation is adopted in the future.

7. **Has the agency analyzed the rules' effectiveness in achieving its objectives?**

The Commission indicates the rules are generally effective in achieving its objectives except for the following:

- **R12-4-216. Crossbow Permit:** The difference between a crossbow and the typically used compound bow is that a crossbow can be drawn, locked into place, and stabilized on an object when firing. From January 1, 1996 through January 2, 2015, the Department offered only permanent (lifetime) crossbow permits to persons with a permanent disability of at least 90% impairment of function of one arm. In response to customer comments regarding the overly restrictive eligibility requirements and the need for a temporary crossbow permit, on January 3, 2015, the Commission established a temporary crossbow permit that was valid for the time-frame specified by the healthcare professional and greatly expanded the eligibility criteria.

The Department relies on the medical health professional to determine whether the applicant's medical condition is temporary or permanent. No specific testing is required by the medical health professional conducting the evaluation and no documentation of the evaluation is required to be submitted with the application for the crossbow permit. The only requirement is a general diagnosis as to whether the applicant's disability is permanent or temporary and a signature from the medical health professional. As a result, some applicants were receiving the permit who should not have otherwise qualified, while other applicants were denied permits.

The Department has heard the permits are too easy to obtain and the continuing steady rise in the number of permits being issued each year are an indication that this is a possibility. The Department has also heard the number of crossbow permits on the landscape has negatively impacted archery-only hunts but this remains to be proven.

The Department believes it necessary to more fully evaluate the challenges resulting from the ability to use these devices during an archery-only hunt and recommends conducting public outreach activities (i.e., public meetings, webinars, surveys, working groups, etc.) to evaluate the current crossbow permit eligibility requirements and make recommendations to increase consistency in how eligibility is established and permits are

issued; and increase equity between crossbow and archery hunters in the field during an archery-only hunt. Ultimately, the Department's goal is to establish a standardized evaluation process and provide equal opportunity to all disabled individuals interested in obtaining a crossbow permit. The information gained from this evaluation will help shape future revisions to the crossbow permit rule.

**8. Has the agency analyzed the current enforcement status of the rules?**

The Commission indicates the rules are current enforced as written except for the following:

- **R12-4-208. Guide License:** Under subsection (T), a licensed guide is required to report any violation of a federal or state wildlife regulation, law, or rule personally witnessed by the guide license holder. In addition, most guides use support personnel (who are not licensed guides) to assist the guide in locating an animal. The Department was recently involved with a lengthy criminal trial, civil lawsuit, and Office of Administrative Hearings (OAH) hearing with a licensed guide and a friend of the guide who operated a powered parachute plane. The guide accepted information through text and phone calls regarding wildlife locations, herd size, horn size of bighorn sheep, and various essential information from the friend who operated the powered parachute plane to locate wildlife during an open big game season in violation of R12-4-319. The Department was successful in prosecuting the friend of the guide for locating wildlife during a big game season and the OAH hearing regarding the guide accepting this information in violation of R12-4-319(B) and failing to report this information to the Department in violation of R12-4-208(T)(2)(d), but it was a difficult hearing. The argument used by the defense was the guide did not "personally witness the violation." The Department recommends amending the rule to replace "personally witnessed the violation" with "knew or should have known of the violation" to increase the ability to enforce the rule. In addition, internal discussions indicate guides and their assistants are using e-bikes to enter areas that are closed to motorized travel. This activity is unlawful and damages wildlife habitat, some of which may never recover. The Department recommends evaluating measures, to include rulemaking, that will reduce the number of occurrences. In addition, a person whose hunting and fishing privileges are revoked is prohibited from obtaining a guide license while under revocation. A guide whose license is revoked is also unable to assist a person in locating or taking wildlife. The Department is aware of instances where a revoked guide will hire another licensed guide to take their clients on a guided hunt, thus usurping the Commission-ordered revocation while collecting guiding fees from the customer. The Department recommends amending the rule to prohibit a licensed guide from acting as an agent for a revoked guide: "A guide license holder shall not aid, assist, serve as an agent or represent a person whose privilege to take wildlife or guide has been revoked pursuant to A.R.S. §§ 17-340 or 17-362."
- **R12-4-216. Crossbow Permit:** In 2019, the Commission amended the rule to allow a person issued a permanent or temporary crossbow permit to use a pneumatic weapon that discharges an arrow or bolt during an Archery-only hunt. In a subsequent rulemaking, this language was deleted in error. The intent of the amendment was to allow a person

with a permanent disability to use a pneumatic weapon during an Archery-only hunt. To align the rule with the original intent, the Department recommends amending the rule to allow a CHAMP holder who also possesses a Department-issued crossbow permit to use a pneumatic weapon that discharges an arrow or bolt during an Archery-only hunt.

**9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Commission indicates federal regulation 50 C.F.R. Part 20 is applicable to the subject of rule R12-4-203 (National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp). 50 C.F.R. Part 20 establishes migratory bird hunting stamp requirements as they apply to the take, possession, and transport of migratory birds and are in addition to the provisions of the Migratory Bird Hunting Stamp Act of 1934. The Commission indicates this rule is not more stringent than corresponding federal law.

**10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(11), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

The Commission indicates the follow rules require the issuance of a “general permit” as defined under A.R.S. § 41-1001(11) and are in compliance with A.R.S. § 41-1037:

- **R12-4-201. Pioneer License**
- **R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License**
- **R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp**
- **R12-4-204. Taxidermy Registration; Register**
- **R12-4-205. High Achievement Scout License**
- **R12-4-206. General Hunting License; Exemption**
- **R12-4-207. General Fishing License; Exemption**
- **R12-4-208. Guide License**
- **R12-4-210. Combination Hunting and Fishing License; Exemption**
- **R12-4-211. Lifetime License; Benefactor License**
- **R12-4-213. Hunt Permit-tags and Nonpermit-tags**
- **R12-4-215. Youth Group Two-day Fishing License**
- **R12-4-216. Crossbow Permit**
- **R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP)**

## **11. Conclusion**

This 5YRR from the Commission relates to fourteen (14) rules in Title 12, Chapter 4, Article 2 regarding Licenses, Permits, Stamps, and Tags. Specifically, the Commission indicates the intent of these rules is to provide greater clarity to the rules governing hunting and fishing licenses. Commission proposes to amend the following rules as outlined above to improve their clarity, conciseness, understandability, consistency, effectiveness, and enforcement:

- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License
- R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp
- R12-4-205. High Achievement Scout License

**2. Objective of the rule, including the purpose for the existence of the rule.**

**R12-4-201. Pioneer License:** The objective of the rule is to establish application requirements and hunting and fishing privileges for the pioneer license. The rule was adopted to comply with the statutory mandate under A.R.S. § 17-333(C)(1). This license may be issued to a person who is seventy years of age or older and who has been a resident of this state for twenty-five or more consecutive years immediately preceding application for the license. The pioneer license is valid for the lifetime of the licensee and does not require renewal. The complimentary combination hunting and fishing license is valid state-wide for all game species, with the proper tags where applicable, and the tale of all aquatic wildlife, allows simultaneous fishing, and includes community program fishing privileges.

- The complimentary pioneer license is valid for the lifetime of the licensee.

- The Department issues an average of 4,529 complimentary pioneer licenses on an annual basis.
- The pioneer license is free of charge to eligible applicants.

**R12-4-202. Complimentary and Reduced-fee Disabled Veteran's License; Reduced-fee Purple Heart Medal License:** The objective of the rule is to establish eligibility, application requirements, and hunting and fishing privileges for the complimentary licenses that are issued to disabled veterans and Purple Heart Medal recipients. The rule was adopted to comply with the statutory mandate under A.R.S. § 17-333(C)(2) and (3). The Department offers three types of veterans' licenses: a complimentary license available to veterans who are receiving compensation from the United States government for a service connected disability rated as 100% disabling, a 25% reduced fee license to a veteran who is receiving such compensation for a service connected disability of any rating, and a 50% reduced-fee license to a person who is a bona fide recipient of a Purple Heart Medal. Under A.R.S. § 17-333(C)(2) and (3), a person applying for one of these licenses must have been a resident of Arizona for at least one year immediately preceding application. The disabled veteran's license and reduced-fee disabled veteran and Purple Heart Medal grant all of the hunting and fishing privileges of a combination hunting and fishing license.

- The complimentary disabled veteran's license is either valid for the lifetime of the licensee and does not require renewal, or for three years if the certification or benefits letter indicates the veteran's disability status will be re-examined in a three-year period.
  - The Department issues an average of 769 complimentary disabled veteran's licenses on an annual basis.
- The reduced fee veteran's licenses are valid for one year from the date of purchase or activation, when activated no more than 60 days after initial purchase.
  - The Department issued approximately 108 reduced-fee disabled veteran's licenses since the rule was adopted on August 21, 2021.
    - The fee for the reduced-fee disabled veteran's license is \$42.
  - The Department issued approximately 8 Purple Heart Medal licenses since the rule was adopted on September 26, 2022.
    - The fee for the reduced-fee Purple Heart Medal license is \$28.

**R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp:** The objective of the rule is to establish requirements for the application and use of the Arizona migratory bird stamp, which covers the take of waterfowl and migratory game birds. The Arizona stamp is separate from the Federal waterfowl stamp (also known as "Duck stamp"), which is required when a person wants to hunt waterfowl in Arizona. The stamp enables the Department to obtain hunter participation and harvest data for migratory game birds in compliance with the requirements of the federally mandated National Harvest Information Program, which is administered by the United States Fish and Wildlife Service (USFWS).

- The State waterfowl and migratory bird stamp is valid from July 1 through June 30 of each year.
- The Department issues an average of 69,588 Arizona Migratory Bird Stamps on an annual basis.

- The fee for the Arizona Migratory Bird stamp is \$5.

**R12-4-204. Taxidermy Registration; Register:** The objective of the rule is to establish the requirements necessary to allow a person to engage in the business of taxidermy for hire. A taxidermy registration authorizes a person to mount, refurbish, maintain, restore, or preserve wildlife as defined under A.R.S. § 17-101. The rule was adopted to comply with the requirements established under A.R.S. § 17-363.

- The taxidermy registration expires on December 31 each year.
- The Department recently implemented an online registration and reporting process which has skewed the registration data. It is believed the number of registered taxidermists has increased since the Department went from issuing a license to a registration and the annual fee was lowered \$50.
- The fee for the taxidermy registration is \$100.

**R12-4-205. High Achievement Scout License:** The objective of the rule is to establish application requirements and hunting and fishing privileges for the high achievement scout license. The combination hunting and fishing license is offered to a resident of this state who is a member of the Boy Scouts of America "Scouts BSA" program and who has attained the rank of Eagle Scout or a member of the Girl Scouts of the U.S.A. who has received the Gold Award provided the scout is under 21 years of age. The rule was adopted to comply with amendments made to A.R.S. § 17-336(B), which honored the 100th anniversary of the Boy Scouts of America.

- The high achievement scout license is valid for one year from the date of purchase or activation, when activated no more than 60 days after initial purchase.
- The Department issues an average of 61 high achievement scout licenses on an annual basis.
- The fee for the high achievement scout license is \$5.

**R12-4-206. General Hunting License; Exemption:** The objective of the rule is to establish application requirements and hunting privileges for the general hunting license. The rule was adopted to ensure compliance with statutory amendments resulting from the Fifty-first Legislature, 1st Regular Session, which amended statutes within Title 17 to authorize the Commission to establish license, permit, tag, and stamp fees by rule. The resident general hunting license is valid for the take of small game, fur-bearing animals, predatory animals, nongame animals, and upland game birds. The general hunting license is also valid for the take of migratory birds when the person possesses the applicable migratory bird stamps, and for big game when the person possesses the applicable big game tag. The general hunting license is not available to nonresidents. The license is valid for a one-year period as follows: when the license is purchased from a license dealer, as defined under R12-4-101, the license is valid for one-year from the date of purchase; the applicant may choose the license start date when purchasing the license online or at a Department office, provided that date is in the future and is no more than 60 calendar days from the date of purchase. The general license must be valid on the last day of the application deadline for the big game draw or last day of an extended deadline. A person under 10 years of age may hunt wildlife other than big game without a license, when accompanied by a person, 18 years of age or older, who

possesses a valid Arizona hunting license.

- The general hunting license is valid for one year from the date of purchase or activation, when activated no more than 60 days after initial purchase.
- The Department issues an average of 40,643 general hunting licenses on an annual basis.
- The fee for the resident hunting license is \$37.

**R12-4-207. General Fishing License; Exemption:** The objective of the rule is to establish application requirements and hunting privileges for the general fishing license. The rule was adopted to ensure compliance with statutory amendments resulting from the Fifty-first Legislature, 1st Regular Session, which amended statutes within Title 17 to authorize the Commission to establish license, permit, tag, and stamp fees by rule. The resident and nonresident general fishing license is valid for the take of aquatic wildlife, includes trout, community, and Colorado River fishing privileges and allows simultaneous fishing as defined under R12-4-301. The license is valid for a one-year period as follows: when the license is purchased from a license dealer, as defined under R12-4-101, the license is valid for one-year from the date of purchase; and when the applicant purchases the license online or at a Department office, the applicant may choose their start date, provided that date is in the future and is no more than 60 calendar days from the date of purchase. A person under 10 years of age may fish without a fishing license, when accompanied by a person, 18 years of age or older, who possesses a valid Arizona fishing license.

- The general fishing license is valid for one year from the date of purchase or activation, when activated no more than 60 days after initial purchase.
- On an annual basis, the Department issues approximately:
  - 158,846 resident fishing licenses, and
  - 24,182 nonresident fishing licenses.
- The fees for the general fishing licenses are as follows:
  - Resident general fishing license - \$37, and
  - Nonresident general fishing license - \$55.

**R12-4-208. Guide License:** The objective of the rule is to establish the application, reporting, and guiding requirements for those persons who provide commercial guiding services in Arizona. The rule was adopted to clarify what a guide may legally do while aiding or assisting a client in the taking of wildlife and ensure compliance with wildlife laws and rules.

- The guide license expires on December 31 each year.
- The Department issues an average of 1072 guide licenses on an annual basis
- The fee for the resident and nonresident guide license is \$300.

**R12-4-210. Combination Hunting and Fishing License; Exemption:** The rule establishes the requirements and privileges of both the resident and nonresident hunting and fishing combination licenses. The rule was adopted to

ensure compliance with statutory amendments resulting from the Fifty-first Legislature, 1st Regular Session, which amended statutes within Title 17 to authorize the Commission to establish license, permit, tag, and stamp fees by rule. The combination hunting and fishing license is valid state-wide for the take of small game, fur-bearing animals, predatory animals, nongame animals, and upland game and the take of all aquatic wildlife, allows simultaneous fishing, and includes community program fishing privileges. The combination hunting and fishing license is also valid for the take of migratory birds when the person possesses the applicable migratory bird stamp(s), and for big game when the person possesses the applicable big game tag. The Commission established three variations of the combination hunting and fishing license: a resident and nonresident one-year combination hunting and fishing license available to persons 18 years of age and older, resident and nonresident one-year youth combination hunting and fishing license available to persons age 10 through 17, and resident and nonresident short-term combination hunting and fishing license available to persons age 18 and older. The short-term license is valid for one 24-hour period from midnight to midnight. The short-term combination hunting and fishing license is the only short-term license offered by the Department and provides the same privileges as the one-year combination hunting and fishing license, except that it is not valid for the take of big game animals. The Commission does not limit the number of short-term licenses a person may purchase in any given year or require a person to purchase consecutive short-term licenses, however, the Department will offer an annual license when the cost of short-term licenses being purchased meets or exceeds the price of the applicable combination hunting and fishing license. A person under 10 years of age may hunt wildlife other than big game without a license, when accompanied by a person, 18 years of age or older, who possesses a valid Arizona hunting license. The only hunting license the Commission offers a nonresident is the combination hunting and fishing license.

- The combination hunting and fishing license is valid for one year from the date of purchase or activation, when activated no more than 60 days after initial purchase.
  - On an annual basis, the Department issues approximately:
    - 67,230 resident youth combination hunting and fishing licenses,
    - 113,381 resident combination hunting and fishing licenses,
    - 8,732 nonresident youth combination hunting and fishing licenses, and
    - 40,397 nonresident combination hunting and fishing licenses.
  - The fee for the combination hunting and fishing licenses are as follows:
    - Resident and nonresident youth combination hunting and fishing license - \$5,
    - Resident combination hunting and fishing license - \$57, and
    - Nonresident combination hunting and fishing license - \$160.
- The short-term combination hunting and fishing license is valid for one 24-hour period from midnight to midnight.
  - On an annual basis, the Department issues approximately:
    - 18,555 resident short-term combination hunting and fishing licenses, and
    - 33,331 nonresident short-term combination hunting and fishing licenses.
  - The fee for the short-term combination hunting and fishing licenses are as follows:
    - Resident combination hunting and fishing license - \$15, and

- Nonresident combination hunting and fishing license - \$20.

**R12-4-211. Lifetime License; Benefactor License:** The objective of the rule is to establish the hunting and/or fishing privileges for the three lifetime licenses, application requirements, and fees for lifetime licenses. The rule was adopted to ensure compliance with statutory amendments resulting from the Fifty-first Legislature, 1st Regular Session, which amended statutes within Title 17 to authorize the Commission to establish license, permit, tag, and stamp fees by rule. Arizona's lifetime general hunting and fishing license program provides a unique opportunity for resident sportsmen and sportswomen to participate in the long-term funding of Arizona's Wildlife Conservation programs. The dollars derived from the sale of these special licenses are deposited into the established Arizona Wildlife Endowment Fund from which only the interest accrued will be used for management programs. The license is a great value; the initial investment pays off in 18 years even when purchasing the costliest lifetime license: combination license for a person aged 14 to 29 for \$1029. The purchaser of a lifetime license is entitled to hunt and fish (as applicable) in Arizona for their lifetime, even if the license holder moves out-of-state. In addition, a lifetime license holder who moved out-of-state is not subject to the limits placed on nonresident permit-tags. The lifetime hunting license is valid for the take of small game, fur-bearing animals, predatory animals, nongame animals, and upland game birds. The lifetime fishing license is valid for the take of aquatic wildlife, includes trout, community, and Colorado River fishing privileges and allows simultaneous fishing as defined under R12-4-301. The lifetime combination hunting and fishing license is valid state-wide for the take of small game, fur-bearing animals, predatory animals, nongame animals, and upland game and the take of all aquatic wildlife, allows simultaneous fishing, and includes community program fishing privileges. The benefactor license is an additional type of lifetime license and is similar to the lifetime hunting and fishing license, except the person purchasing the license pays an additional amount that is considered a tax-deductible donation to the state for the continued management, protection and conservation of the state's wildlife. The lifetime hunting license, combination hunting and fishing license, and the benefactor license are also valid for the take of migratory birds when the person possesses the applicable migratory bird stamp(s), and for big game when the person possesses the applicable big game tag.

- On an annual basis, the Department issues:
  - 85 lifetime fishing licenses,
  - 211 lifetime hunting licenses, and
  - 392 lifetime combination hunting and fishing licenses, and
  - 11 lifetime benefactor combination hunting and fishing licenses.
- Fees for the lifetime fishing, lifetime hunting, and lifetime combination licenses are based on the applicant's age as follows:
  - Age 0 through 13 years is 17 times the applicable annual license fee,
  - Age 14 through 29 years is 18 times the applicable annual license fee,
  - Age 30 through 44 years is 16 times the applicable annual license fee,
  - Age 45 through 61 years is 15 times the applicable annual license fee, and
  - Age 62 and older is 8 times the applicable annual license fee.

## Article 2. Licenses; Permits; Stamps; Tags Five-year Review Report Continued

- Fee for the lifetime benefactor combination hunting and fishing license is \$1,500. The difference between the cost of the lifetime combination hunting and fishing license and the cost of the benefactor combination hunting and fishing license is considered a donation and may be tax deductible to the extent allowed by federal and state income tax statutes for contributions to qualifying tax-exempt organizations.

**R12-4-213. Hunt Permit-tags and Nonpermit-tags:** The objective of the rule is to establish requirements to validate a license for the taking of a big game animal or any other wildlife requiring a valid tag. The rule was adopted to establish permit-tag and nonpermit-tag requirements. Tags are issued by the season and validate the hunting or combination hunting and fishing license that is valid for the same season; the Commission believed the rule was necessary.

**R12-4-215. Youth Group Two-day Fishing License:** The objective of the rule is to establish youth group two-day fishing license privileges and requirements by rule to comply with the recent statutory amendments. The rule was adopted to ensure compliance with statutory amendments resulting from the Fifty-first Legislature, 1st Regular Session, which amended statutes within Title 17 to authorize the Commission to establish license, permit, tag, and stamp fees by rule. Youth group two-day fishing license privileges were previously prescribed under A.R.S. § 17-333. The youth group two-day fishing license is issued to a nonprofit organization that sponsors adult supervised activities for groups of no more than 25 youth, ages 10 through 17. The youth group two-day fishing license is valid for taking all aquatic wildlife.

- The Department issues an average of 39 youth group two-day fishing licenses on an annual basis.
- The fee for the youth group two-day fishing license is \$25.

**R12-4-216. Crossbow Permit:** The objective of the rule is to establish eligibility requirements, conditions, and restrictions for the crossbow permit. The permit allows a person who cannot draw and hold a bow to use a crossbow during an archery-only hunt. The rule was adopted to provide a mechanism that afforded persons with a disability the opportunity to participate in hunting.

- The crossbow permits are valid as follows:
  - The permanent crossbow permit is valid for the permit holder's lifetime.
  - The temporary crossbow permit is valid for one-year from the date the medical certification portion of the application is signed by the healthcare provider.
- On an annual basis, the Department issues approximately:
  - 1014 permanent crossbow permits, and
  - 208 temporary crossbow permits.

**R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP):** The objective of the rule is to establish eligibility requirements, conditions, and restrictions for the Challenged Hunter Access/Mobility Permit (CHAMP). The permit allows a disabled person to perform activities while hunting normally prohibited under

## Article 2. Licenses; Permits; Stamps; Tags Five-year Review Report Continued

A.R.S. § 17-301. The rule was adopted to provide a mechanism that afforded persons with a disability the opportunity to participate in hunting.

- The CHAMP is free of charge to eligible applicants.
- The Department issues an average of 627 CHAMPs on an annual basis.

### 3. Effectiveness of the rule in achieving the objective, including a summary of any available data supporting the conclusion reached.

At the beginning of each rule review, Department employees are asked to provide comments and suggested rule changes. In addition, comments received since the last rule review was conducted are reviewed and considered. Comments indicate the rules are understandable and applicable. The Department believes this data indicates the rules are effective. The Department believes the following rules are effective in achieving the objectives identified above:

- R12-4-201. Pioneer License
- R12-4-202. Complimentary and Reduced-fee Disabled Veteran's License; Reduced-fee Purple Heart Medal License
- R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp
- R12-4-204. Taxidermy Registration; Register
- R12-4-205. High Achievement Scout License
- R12-4-206. General Hunting License; Exemption
- R12-4-207. General Fishing License; Exemption
- R12-4-208. Guide License
- R12-4-210. Combination Hunting and Fishing License; Exemption
- R12-4-211. Lifetime License; Benefactor License
- R12-4-213. Hunt Permit-tags and Nonpermit-tags
- R12-4-215. Youth Group Two-day Fishing License
- R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP)
- **R12-4-216. Crossbow Permit:** The difference between a crossbow and the typically used compound bow is that a crossbow can be drawn, locked into place, and stabilized on an object when firing. From January 1, 1996 through January 2, 2015, the Department offered only permanent (lifetime) crossbow permits to persons with a permanent disability of at least 90% impairment of function of one arm. In response to customer comments regarding the overly restrictive eligibility requirements and the need for a temporary crossbow permit, on January 3, 2015, the Commission established a temporary crossbow permit that was valid for the time-frame specified by the healthcare professional and greatly expanded the eligibility criteria.

## Article 2. Licenses; Permits; Stamps; Tags Five-year Review Report Continued

The Department relies on the medical health professional to determine whether the applicant's medical condition is temporary or permanent. No specific testing is required by the medical health professional conducting the evaluation and no documentation of the evaluation is required to be submitted with the application for the crossbow permit. The only requirement is a general diagnosis as to whether the applicant's disability is permanent or temporary and a signature from the medical health professional. As a result, some applicants were receiving the permit who should not have otherwise qualified, while other applicants were denied permits.

The Department has heard the permits are too easy to obtain and the continuing steady rise in the number of permits being issued each year are an indication that this is a possibility. The Department has also heard the number of crossbow permits on the landscape has negatively impacted archery-only hunts but this remains to be proven.

The Department believes it necessary to more fully evaluate the challenges resulting from the ability to use these devices during an archery-only hunt and recommends conducting public outreach activities (i.e., public meetings, webinars, surveys, working groups, etc.) to evaluate the current crossbow permit eligibility requirements and make recommendations to increase consistency in how eligibility is established and permits are issued; and increase equity between crossbow and archery hunters in the field during an archery-only hunt. Ultimately, the Department's goal is to establish a standardized evaluation process and provide equal opportunity to all disabled individuals interested in obtaining a crossbow permit. The information gained from this evaluation will help shape future revisions to the crossbow permit rule.

#### **4. Consistency of the rule with state and federal statutes and other rules made by the agency, and a listing of the statutes or rules used in determining the consistency.**

The Department believes the following rules are consistent with regulations, statutes, and rules; regulations, statutes, and rules used to determine consistency include 50 C.F.R. Part 20, A.R.S. § Title 17 and 12 A.A.C. Chapter 4:

- R12-4-201. Pioneer License
- R12-4-204. Taxidermy Registration; Register
- R12-4-205. High Achievement Scout License
- R12-4-206. General Hunting License; Exemption
- R12-4-207. General Fishing License; Exemption
- R12-4-208. Guide License
- R12-4-210. Combination Hunting and Fishing License; Exemption
- R12-4-211. Lifetime License; Benefactor License

## Article 2. Licenses; Permits; Stamps; Tags Five-year Review Report Continued

- R12-4-213. Hunt Permit-tags and Nonpermit-tags
- R12-4-215. Youth Group Two-day Fishing License
- R12-4-216. Crossbow Permit
- R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP)

Overall the following rules are not consistent with or are in conflict with statutes and rules; the Department proposes to increase their consistency with statutes and rules as described below:

- **R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License:** Like the lifetime licenses issued under R12-4-211 (Lifetime License), the permanent (lifetime) Disabled Veteran’s License is valid for the person’s lifetime and continues to remain valid if the license holder moves out-of-state. The out-of-state license holder must pay the nonresident fee when purchasing any required hunt permit-tag, nonpermit-tag, or stamp to hunt and fish in Arizona, but the hunt-permit tag issuance limitations for nonresident permit holders do not apply to a Disabled Veteran’s License holder. The Department recommends amending the rule to clarify the Disabled Veteran’s License (lifetime license) benefits and limitations to increase consistency between rules within Article 2. This change is in response to customer comments received by the Department.
- **R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp:** Internal discussions indicate the U.S. Fish and Wildlife Service is considering amending the federal regulation to offer a tiered stamp structure to increase participation in migratory game bird hunting. The tiered structure will offer hunters the option to select either a ‘standard’ waterfowl season, with set harvest limits on particular species, or a ‘splash’ waterfowl season that offers a reduced harvest limit but allows hunters to harvest any legal waterfowl species to meet that limit. The Department will monitor the proposed regulation and may amend the rule to reflect the tiered structure if the proposed regulation is adopted in the future. In addition, the U.S. Fish and Wildlife Service is exploring the concept of issuing e-stamps that are valid the entire waterfowl season rather than a hard copy stamp a hunter has to carry with them, in addition to their hunting license. The Department will monitor the proposed regulation and may amend the rule to reflect the e-stamp if the proposed regulation is adopted in the future.

### 5. Agency enforcement policy, including whether the rule is currently being enforced and, if so, whether there are any problems with enforcement.

The following rules are currently being enforced. Department employees can inspect documentation for rule compliance. Officers can check for rule compliance when routinely patrolling the lands and waterways of Arizona, and issue warning orders or citations. To the extent that the Department is aware, the Department believes there are no problems with the enforcement of the following rules:

- R12-4-201. Pioneer License
- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal

The Department proposes to increase the ability to enforce the following rules as indicated:

- **R12-4-208. Guide License:** Under subsection (T), a licensed guide is required to report any violation of a federal or state wildlife regulation, law, or rule personally witnessed by the guide license holder. In addition, most guides use support personnel (who are not licensed guides) to assist the guide in locating an animal. The Department was recently involved with a lengthy criminal trial, civil lawsuit, and Office of Administrative Hearings (OAH) hearing with a licensed guide and a friend of the guide who operated a powered parachute plane. The guide accepted information through text and phone calls regarding wildlife locations, herd size, horn size of bighorn sheep, and various essential information from the friend who operated the powered parachute plane to locate wildlife during an open big game season in violation of R12-4-319. The Department was successful in prosecuting the friend of the guide for locating wildlife during a big game season and the OAH hearing regarding the guide accepting this information in violation of R12-4-319(B) and failing to report this information to the Department in violation of R12-4-208(T)(2)(d), but it was a difficult hearing. The argument used by the defense was the guide did not “personally witness the violation.” The Department recommends amending the rule to replace "personally witnessed the violation" with “knew or should have known of the violation” to increase the ability to enforce the rule. In addition, internal discussions indicate guides and their assistants are using e-bikes to enter areas that are closed to motorized travel. This activity is unlawful and damages wildlife habitat, some of which may never recover. The Department recommends evaluating measures, to include rulemaking, that will reduce the number of occurrences. In addition, a person whose hunting and fishing privileges are revoked is prohibited from obtaining a guide license while under revocation. A guide whose license is revoked is also unable to assist a person in locating or taking wildlife. The Department is aware of instances where a revoked guide will hire another licensed guide to take their clients on a guided hunt, thus usurping the Commission-ordered revocation while collecting guiding fees from the customer. The Department recommends amending the rule to prohibit a licensed guide from acting as an agent for a revoked guide: “A guide license holder shall not aid, assist, serve as an agent or represent a person whose privilege to take wildlife or guide has been revoked

pursuant to A.R.S. §§ 17-340 or 17-362.”

- **R12-4-216. Crossbow Permit:** In 2019, the Commission amended the rule to allow a person issued a permanent or temporary crossbow permit to use a pneumatic weapon that discharges an arrow or bolt during an Archery-only hunt. In a subsequent rulemaking, this language was deleted in error. The intent of the amendment was to allow a person with a permanent disability to use a pneumatic weapon during an Archery-only hunt. To align the rule with the original intent, the Department recommends amending the rule to allow a CHAMP holder who also possesses a Department-issued crossbow permit to use a pneumatic weapon that discharges an arrow or bolt during an Archery-only hunt.

#### 6. Clarity, conciseness, and understandability of the rule.

The Department believes the following rules are clear, concise, understandable, are logically organized, and generally written in the active voice:

- R12-4-201. Pioneer License
- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License
- R12-4-204. Taxidermy Registration; Register
- R12-4-206. General Hunting License; Exemption
- R12-4-207. General Fishing License; Exemption
- R12-4-208. Guide License
- R12-4-210. Combination Hunting and Fishing License; Exemption
- R12-4-211. Lifetime License; Benefactor License
- R12-4-213. Hunt Permit-tags and Nonpermit-tags
- R12-4-215. Youth Group Two-day Fishing License
- R12-4-216. Crossbow Permit
- R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP)

Overall, the following rules are clear, concise, understandable, are logically organized, and generally written in the active voice, however, the Department proposes to further clarify the following rules as indicated:

- **R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp:** The rule requires a person to purchase a stamp in order to take band-tailed pigeons, moorhen, coots, doves, ducks, geese, snipe, or swans. The Department recommends amending the rule to replace the term “moorhen” with “gallinules” as this is the current reference for the group of legal species that may be found in Arizona.
- **R12-4-205. High Achievement Scout License:** The “Boy Scouts of America” program where young men could earn an Eagle Scout has been rebranded to “Scouts BSA” to include both male and female participants. The Department recommends amending the rule to reflect the organization’s current program.

7. **Summary of the written criticisms of the rule received by the agency within the five years immediately preceding the Five-year Review Report, including letters, memoranda, reports, written analyses submitted to the agency questioning whether the rule is based on scientific or reliable principles, or methods, and written allegations made in litigation and administrative proceedings in which the agency was a party that the rule is discriminatory, unfair, unclear, inconsistent with statute, or beyond the authority of the agency to enact, and the conclusion of the litigation and administrative proceedings.**

The Department did not receive any written comments for the following rules.

- R12-4-202. Complimentary and Reduced-fee Disabled Veteran's License; Reduced-fee Purple Heart Medal License
- R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp
- R12-4-204. Taxidermy Registration; Register
- R12-4-205. High Achievement Scout License
- R12-4-206. General Hunting License; Exemption
- R12-4-211. Lifetime License; Benefactor License
- R12-4-213. Hunt Permit-tags and Nonpermit-tags
- R12-4-215. Youth Group Two-day Fishing License
- R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP)

The Department received the following comments relating to rules within Article 2. Licenses; Permits; Stamps; Tags:

**R12-4-201. Pioneer License:**

*Comments suggest the Commission amend the rule to reduce the age and years of continuous residency requirement.*

**Agency Response:** The age and residency requirements are established in statute, see A.R.S. § 17-333(C)(1). A legislative amendment is required before the Commission is able to amend the rule as suggested.

*Comments suggest the Pioneer license also include crossbow permit privileges which allow a person to use a crossbow during an archery-only hunt.*

**Agency Response:** The Department disagrees with this suggestion. The Crossbow Permit has specific requirements related to medical conditions that make it difficult for a person to draw and hold a bow; age and residency are not considered. However, a Pioneer License holder who does not apply for and obtain a crossbow permit may still use a crossbow during the general season.

**R12-4-206. General Hunting License; Exemption**

**R12-4-207. General Fishing License; Exemption**

*Comments suggest the Department offer a reduced fee hunting and/or fishing license to seniors, disabled persons,*

*and veterans (other than the 100% disabled veteran's license).*

**Agency Response:** License, permit, stamp, and tag fees are set, through the Commission, utilizing a public process. The current fee structure serves the best interest of the public and the Department for preserving and protecting Arizona's wildlife. In 2014, the rules were amended to offer licenses that are valid for one-year from the date of purchase. Previously, most licenses were valid for the calendar year (January 1 through December 31), which gave the perception that the license had less value when purchased later in the year. The Department and Commission are currently reviewing requests and contemplating the best way to offer benefits to seniors and maintain the critical funding necessary to properly manage the state's wildlife. The Commission will again seek public input before making any change to the current license structure or fees. It is important to note, sportsmen are the nation's oldest conservationists and provide more direct support for wildlife than any other group. The purchase of a license is the cornerstone of the user pay public benefit model, not only providing direct revenue for conservation but factoring in to other constructs such as the apportionment of Wildlife and Sportfish Restoration dollars to the states.

*Comments suggest the Commission establish a fishing license that would allow two people to use one license and/or allow a family to share one pole, one license.*

**Agency Response:** The Commission sets bag limits based on an individual person; there are no "party" bag limits. This would also be very difficult to enforce.

**R12-4-208. Guide License:**

*Comments suggest the Commission should decrease or limit the number of guides in Arizona.*

**Agency Response:** The Department has no interest in reducing or limiting the number of licensed guides in the State. Guides provide a necessary service and can benefit persons who are unfamiliar with the territory or the type of game they're after. Guides can be important to hunters and/or anglers who do not have the ability or resources to have a safe and legal trip.

*Comments suggest the Commission should limit the number of assistants/scouts a guide can employ in Arizona.*

**Agency Response:** Under A.R.S. § 41-1093.01, State agencies are restricted to making only those occupational regulations that are demonstrated to be necessary to specifically fulfill a public health, safety, or welfare concern. The Department has no interest in limiting the number of assistants/scouts a particular guide may use.

**R12-4-210. Combination Hunting and Fishing License; Exemption:**

*Comments suggest the Commission consider issuing a complimentary hunting and fishing license to its employees. The intent is that Game and Fish employees could be "hunt/fish license ambassadors" to the general public. A lifetime license could be issued to an employee who has been with the Department a significant amount of time, for example ten to fifteen years of service.*

**Agency Response:** The Department recommends exploring the ability to issue a complimentary license to

Department employees.

*Comments suggest the Commission amend the rule to allow military spouses to maintain their Arizona resident status throughout the spouse's active duty military career while stationed at duty station outside of Arizona.*

**Agency Response:** Resident, nonresident, and domicile are defined in statute. A legislative amendment is required before the Commission may implement this suggestion.

**R12-4-216. Crossbow Permit:**

*Comments suggest the Commission amend the rule to establish the crossbow permit is only valid for a particular season.*

**Agency Response:** The Commission established a temporary crossbow permit in response to customer comments, however, internal discussions indicate the perceived abuse of the temporary crossbow permit is cause for concern. Requiring a person with a permanent disability to reapply for a crossbow permit after every season is not cost effective for the Department and imposes additional costs and burdens to persons regulated by the rule. However, the Department agrees the current process allowing the medical professional to establish the time-frame has resulted in inconsistencies in the way these permits are issued. The Department intends to benchmark with other states and evaluate options to determine whether a process or rule change is required.

*Comments suggest the Commission limit persons who possess a crossbow permit to participating in handgun, archery, and muzzleloader (HAM) hunts, only.*

**Agency Response:** The Department encourages people to hunt with all applicable weapon types in a safe and legal manner and does not intend to restrict crossbow permit holders to HAM hunts.

*Comments suggest the crossbow permit is too easy to obtain and the Commission should repeal the rule so a crossbow cannot be used during an archery-only hunt.*

**Agency Response:** The Department strongly supports offering/providing hunting opportunities to persons with disabilities. The crossbow permit application requires the healthcare provider to certify the person named on the application meets eligibility criteria.

- 8. A comparison of the estimated economic, small business, and consumer impact of the rule with the economic, small business, and consumer impact statement prepared on the last making of the rule or, if no economic, small business, and consumer impact statement was prepared on the last making of the rule, an assessment of the actual economic, small business, and consumer impact of the rule.**

The last rulemaking resulted in the estimated economic, small business, and consumer impacts as stated in the final rulemaking package approved by the Governor's Regulatory Review Council (G.R.R.C.) on December 1, 2020.

The Commission anticipated the rulemaking would benefit persons regulated by the rule, members of the public, and the Department by clarifying rule language, creating consistency among existing Commission rules, and reducing the burden on persons regulated by the rule where practical.

**R12-4-204. Taxidermy Registration; Register:** The last rulemaking resulted in the estimated economic, small business, and consumer impacts as stated in the final rulemaking package approved by Governor's Regulatory Review Council (G.R.R.C.) on July 2, 2019.

The Commission anticipated the rulemaking would benefit the Department through compliance with statute and benefit currently licensed taxidermist through the reduced fee (reduced from \$150 to \$100).

**R12-4-202. Complimentary and Reduced-fee Disabled Veteran's License; Reduced-fee Purple Heart Medal License,** was last amended through exempt rulemaking made effective September 26, 2022, and the Department offers the following economic, small business, and consumer impact statement: The exempt rulemaking establishes a reduced-fee license for a person who has been a resident of this state for one year or more immediately before applying for the license and who is a bona fide Purple Heart Medal recipient as authorized under A.R.S. § 17-333(C)(4). The purchase of a license is the cornerstone of the user pay public benefit model, not only providing direct revenue for conservation but factoring into other constructs such as the apportionment of Wildlife and Sportfish Restoration dollars to the states. The Department receives no appropriations from the general fund and operates primarily with the revenue it generates. A disabled veteran who does not qualify for the complimentary or reduced-fee disabled veteran's licenses authorized under A.R.S. § 17-333(C)(2) and (C)(3) will benefit from the amended rule by being able to purchase the 25% reduced-fee Disabled Veteran's License. The Commission anticipates these changes will result in a decline in revenue due to the \$29 fee reduction. Data from the U.S. Department of Veterans Affairs indicates there are close to 500,000 living

Purple Heart Medal recipients in the world. Because it is not possible to extract the number of Purple Heart Medal recipients living in Arizona, the specific amount of revenue lost is difficult to quantify.

The Commission anticipates the rulemaking will benefit the Department through compliance with the requirements of A.R.S. § 17-333(C)(4). The Commission anticipates the rulemaking will not impose increased monetary or regulatory costs on other state agencies, political subdivisions of this State, persons, or individuals so regulated. The Commission anticipates the rulemaking will have no impact on businesses, both large and small. The Commission anticipates the rulemaking will have a minimal impact on persons regulated by the rule. The Commission anticipates the rulemaking in general will benefit persons regulated by the rule by creating the reduced-fee Purple Heart Medal license. The Commission anticipates the proposed amendments will not significantly affect a person's ability to practice an activity or have a significant impact on a person's income, revenue, or employment in this state related to that activity. The Commission anticipates the rulemaking will not impact public or private employment. The Commission anticipates the rulemaking will not have any impact on State revenues or the general fund. The Commission has determined that there are no alternative methods of achieving the objectives of the proposed exempt rulemaking and that the benefits of the proposed exempt rulemaking outweigh the costs.

**9. Any analysis submitted to the agency by another person regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states.**

The Department did not receive any analyses for Article 2 rules.

**10. If applicable, how the agency completed the course of action indicated in the agency's previous five-year review report.**

The Department completed the course of action indicated in the previous five-year review report as follows:

- Permission to pursue rulemaking granted: September 23, 2019
- Notice of Rulemaking Docket Opening: 26 A.A.R. 1135, June 5, 2020
- Notice of Proposed Rulemaking: 26 A.A.R. 1117, June 5, 2020
- Public Comment Period: June 5, 2020 through July 5, 2020
- G.R.R.C. approved the Notice of Final Rulemaking at the December 2, 2020 Council Meeting
- Notice of Final Rulemaking: 26 A.A.R. 3225, December 18, 2020

The Department did not indicate a course of action in the previous five-year review report for the following rules:

- R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp
- R12-4-205. High Achievement Scout License
- R12-4-213. Hunt Permit-tags and Nonpermit-tags

R12-4-204. Taxidermy Registration; Register was adopted after the previous five-year review report was approved by the Governor's Regulatory Review Council on June 4, 2019.

**11. A determination after analysis that the probable benefits of the rule within this state outweigh the probable costs of the rule and the rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective.**

The purpose of the Arizona Game and Fish Commission (Commission), the Arizona Game and Fish Department (Department), and the Director of the Department is "to manage wildlife and wildlife habitat in this state as provided by law." Laws 2012, Ch. 283 § 3. "Control of the department is vested in the game and fish commission." A.R.S. § 17-201(A). The Commission appoints the Director who is "the chief administrative officer of the game and fish department." A.R.S. § 17-211(A).

With regard to general rulemaking authority, the Commission is required to "[a]dopt rules and establish services it deems necessary to carry out the provisions and purposes of [A.R.S. Title 17, Game and Fish]."

The Department actively seeks to ensure its processes and programs align with current technology and circumstances, such as implementing an online guide license examination. Rules are also designed to update best business practices, such as requiring taxidermy registration license holders to retain license related documentation (includes names and addresses of persons who furnish raw and unmounted specimens, the taker's tag or license number, and the date and number of each species of wildlife received) for an established period of time (five years).

The rules allow for the adoption of updated business practices and represent the most cost-effective and efficient method of fulfilling the Commission's and Department's responsibilities and impose only those requirements that are necessary to meet the Commission's objectives.

When amending Commission rules, the Department tasks a team of subject matter experts to review and make recommendations for rules. In its review, the team considers all comments from the public and agency staff that administer and enforce the rules, historical data, current processes and environment, and the Department's overall mission. The team takes a customer-focused approach, considers each recommendation from a resource perspective and determines whether the recommendation would cause undue harm to the Department's goals and objectives. The team then determines whether the request is in keeping with overarching guidance provided by the Governor, authorized by statute, in keeping with overarching guidance provided by the Commission, consistent with the Department's overall mission, is least burdensome to persons regulated by the rule, if it could

be effectively implemented given agency resources, and if it is acceptable to the public.

A.A.C. Title 12, Chapter 4, Article 2 contains fourteen rules denominated as licenses, permits, stamps, and tags. The intent of the Article 2 rules is to provide greater clarity to the rules governing hunting and fishing licenses. Article 2 rules establish the privileges associated with the hunting and fishing licenses, permits, stamps, and tags issued by the Department, to include exemptions from hunting and fishing license requirements. It is important to note; hunters and anglers are the nation's oldest conservationists and provide more direct support for wildlife than any other group. The purchase of a license is the cornerstone of the user pay public benefit model, not only providing direct revenue for conservation but factoring in other constructs such as the apportionment of Wildlife and Sportfish Restoration dollars to the states.

In 2014, the Commission established a simpler license structure after deploying an extensive outreach campaign from May through June 2013 to collect feedback on a conceptual license and fee structure. The campaign included public meetings in Ajo, Eagar, Flagstaff, Globe, Havasu, Kingman, Mesa, Page, Payson, Phoenix, Pinetop, Prescott, Safford, Sierra Vista, Tucson, Wickenburg, and Yuma (the Phoenix meeting was also webcast through the Department website). The Department also held meetings with a number of conservation groups to discuss the conceptual license structure and fees. The public meeting campaign resulted in 658 comments from people who attended the public meetings, and another 800 comments were submitted via e-mail during this same time-frame. The Department also received more than 1,480 responses from a science-based mail survey of hunters and anglers. In establishing the new license structure that is simpler and easier to understand, the Commission also increased the value of hunting and fishing licenses offered by the Department. For example, the general fishing license includes trout, simultaneous fishing (means taking fish using two lines), community (urban) fishing privileges and Colorado River privileges for one \$37 fee (previously, all of these additional privileges were purchased separately for a combined total cost of \$69.75). In addition, a one-year (365-day) license program was implemented. Previously, most licenses were valid for a calendar year (January 1 through December 31).

The public benefits from rules that clearly outline hunting and fishing license privileges, requirements, and exemptions.

The public benefits from rules that support the North American Model of Conservation. There is no alternative funding system in place to replace the potential lost funds for conservation. If hunting ends, funding for wildlife conservation is in peril. The Department benefits from rules that help ensure the proper management and conservation of the State's wildlife resources.

The public benefits from rules that are clear and concise. The Department benefits from rules that allow continued regulatory oversight of activities pertaining to wildlife. The public and Department benefit from rules that are understandable.

The Department believes the rules impose the least burdens and costs to persons regulated by the rule.

**12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law.**

The following rules are based on state law and federal law is not directly applicable to the rule:

- R12-4-201. Pioneer License
- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License
- R12-4-204. Taxidermy Registration; Register
- R12-4-205. High Achievement Scout License
- R12-4-206. General Hunting License; Exemption
- R12-4-207. General Fishing License; Exemption
- R12-4-208. Guide License
- R12-4-210. Combination Hunting and Fishing License; Exemption
- R12-4-211. Lifetime License; Benefactor License
- R12-4-213. Hunt Permit-tags and Nonpermit-tags
- R12-4-215. Youth Group Two-day Fishing License
- R12-4-216. Crossbow Permit
- R12-4-217. Challenged Hunter Access/Mobility Permit (CHAMP)

The Department has determined the following rule is not more stringent than its corresponding federal laws:

- **R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp**, federal regulation 50 C.F.R. Part 20 is applicable to the subject of the rule. 50 C.F.R. Part 20 establishes migratory bird hunting stamp requirements as they apply to the take, possession, and transport of migratory birds and are in addition to the provisions of the Migratory Bird Hunting Stamp Act of 1934.

**13. For a rule adopted after July 29, 2010, that requires the issuance of a regulatory permit, license, or agency authorization, whether the rule complies with A.R.S. § 41-1037.**

The following rules require the issuance of a “general permit” as defined under A.R.S. § 41-1001(11) and are in compliance with A.R.S. § 41-1037.

- R12-4-201. Pioneer License
- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License

**14. Course of action the agency proposes to take regarding the rule, including the month and year in which the agency anticipates submitting the rule to the Council if the agency determines it is necessary to amend or repeal an existing rule or make a rule. If no issues are identified for a rule in the report, an agency may indicate that no action is necessary for the rule.**

The Department proposes to amend the following rules as indicated in this report:

- R12-4-202. Complimentary and Reduced-fee Disabled Veteran’s License; Reduced-fee Purple Heart Medal License
- R12-4-203. National Harvest Information Program (HIP); State Waterfowl and Migratory Bird Stamp
- R12-4-205. High Achievement Scout License
- R12-4-208. Guide License
- R12-4-216. Crossbow Permit

The Department anticipates requesting an exception to the rulemaking moratorium proscribed under A.R.S. 41-1039(A) by December 2023 and submitting the Notice of Final Rulemaking for actions proposed in this report to the Council by March 2025, provided the Commission is granted permission to pursue rulemaking.

The Department proposes no action for the following rules:

- R12-4-201. Pioneer License
- R12-4-204. Taxidermy Registration; Register
- R12-4-206. General Hunting License; Exemption

#### **R12-4-201. Pioneer License**

- A.** A pioneer license grants all of the hunting and fishing privileges of a combination hunting and fishing license. The pioneer license is only available at a Department office.
- B.** The pioneer license is a complimentary license and is valid for the license holder's lifetime. The license remains valid if the licensee subsequently resides outside of this state.
  - 1. A licensee who resides outside of Arizona shall submit the nonresident fee to purchase any required hunt permit-tag, nonpermit-tag, or stamp to hunt and fish in this state.

## ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

---

**MEETING DATE:** February 6, 2024; March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** January 16, 2024

**SUBJECT: ARIZONA STATE LAND DEPARTMENT**  
Title 12, Chapter 5, Articles 1, 2, 4, 5

---

### Summary

At the December 6, 2022 Council Meeting, the Council voted to require the State Land Department (Department) to conduct a review of the rules in Title 12, Chapter 5, Articles 1, 2, 4, and 5 outside the Five-Year Review Report (5YRR) process pursuant to A.R.S. § 41-1056(D) and directed the Department to submit its report by July 1, 2023. On May 22, 2023, Council staff received an extension request from the Department to submit the 5YRR for Title 12, Chapter 5, Articles 1, 2, 4, and 5 by November 1, 2023. At the June 6, 2023 Council Meeting, the Council voted to grant the extension. On October 27, 2023, the Department submitted the report which is now before the Council now for consideration.

This 5YRR from the Department relates to forty-six (46) rules in Title 12, Chapter 5, Articles 1, 2, 4, and 5. Specifically, the Articles reviewed cover the following areas:

- Article 1 – General Provisions
- Article 2 – Practice and Procedure in Administrative Hearings for Protesting Auctions Before the Arizona State Land Commissioner
- Article 4 – Sales
- Article 5 – Leases

The Department indicates it partially completed its prior proposed course of action through a rulemaking which became effective January 5, 2021.

### **Proposed Action**

In the current report, the Department is proposing to amend several rules and anticipates submitting the rulemaking to the Council by April 2024 and a separate rulemaking to the Council by March 2025.

**1. Has the agency analyzed whether the rules are authorized by statute?**

The Department cites both general and specific statutory authority for these rules.

**2. Summary of the agency's economic impact comparison and identification of stakeholders:**

According to the Department, most rules under review have no net negative economic impact and do not have a previously estimated economic, small business, or consumer impact statement (EIS) available for comparison. For the rules for which a 2020 EIS is available, the Department reports beneficial impacts to the Department, political subdivisions of the State, and independent businesses primarily due to realized efficiencies.

The Department also provides the following: As of the end of Fiscal Year 2023, the Department held: 345 Agricultural Leases covering 157,439,161 acres of Trust Land which generated \$4,339,836 in income; 1203 Grazing Leases and Permits covering 8,333,585,519 acres which generated \$2,962,499 in income; 292 Commercial Leases covering 73,697,182 acres which generated \$32,504,784 in income; 5,422 Right-of-Way Grants and Permits covering 87,970,595 acres which generated \$11,308,524 in income; 773 Mineral Leases covering 409,210,731 acres of Trust Land which generated \$14,317,086 in rental income; 43 auctions for sales of 4,760,441 acres of Land and generated revenue in the amount of 374,719,009 from those land sales.

The rental payments received from the above leases are deposited into the Trust's expendable fund and distributed directly to the beneficiaries annually. The payments received from the above land sales are deposited into the Trust's permanent fund, which is invested by the Treasurer, and proceeds therefrom are distributed to beneficiaries in accordance with formulas established in the Constitution. In addition to the direct impacts to the 13 beneficiaries of Trust Land, activities on Trust Lands provide opportunities for local economies via the labor force and the communities of homes, retail, and offices that are built thereon.

**3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department contends that the rules' probable benefits outweigh the probable costs, and the rules impose the least burden and costs to persons regulated by the rules.

4. **Has the agency received any written criticisms of the rules over the last five years?**

The Department indicates it has not received any written criticisms of the rules over the last five years.

5. **Has the agency analyzed the rules' clarity, conciseness, and understandability?**

The Department indicates the rules are generally clear, concise, and understandable except for the following rules:

- **R12-5-102:** As currently written, the “computation of time” in subsection (A) is confusing and unnecessarily complex – it also lacks specificity as to what agency decisions, or processes this provision would apply.
- **R12-5-207:** The rule is concise and understandable, though it could benefit from elimination of the reference to “tapes” to improve clarity.
- **R12-5-214:** The rule is concise and understandable, although clarity could be improved by articulating that only the hearing officer may exercise judicial notice.
- **R12-5-402:** The rule is clear, concise, and understandable. Notably, however, Subsection (C) is reflective of A.R.S. § 37-233(C) in that the statute allows the Commissioner to require funds to be advanced for the purchase of state land under certain circumstances, while the rule requires it.
- **R12-5-404:** The rule needs clarification because it is not written in complete sentences. Also, the rule is not entirely concise because subsection (E) is redundant of statute.
- **R12-5-405:** Subsection (A) of the rule is clear, but the concept within subsection (B) of the rule is better elaborated in A.R.S. § 37-247, and the reference to R12-5-102(B) regarding computation of timeframes is not needed here.
- **R12-5-406:** The rule is mostly concise and understandable, but: 1) clarity could be gained by recognizing that, due to escrows, the release or a satisfaction of a lien or mortgage may come prior to the completion of the assignment and not at the time of application and 2) the elimination of subsection (C), which is redundant of A.R.S. 37-244(C) would improve conciseness.
- **R12-5-413:** The rule is concise and understandable, but the rule’s clarity could be improved by differentiating brokers representing non-applicant bidders and those representing applicant bidders.
- **R12-5-508:** The rule is clear and understandable, but it is not concise because it partially reiterates what is articulated in A.A.C. R12-5-104.
- **R12-5-509:** The rule is not easily understood as it is verbose, outdated and is not organized well. The rule is not clear because the effective date of a lease is never the date of application upon open land, but rather the date both parties have signed the lease; the date of administrative approval differs depending on the type of lease. While all of these dates fall under the “or such other subsequent date as the Commissioner may prescribe,” it is not clear what those dates are. The rule is not concise because mention of the Department seal being affixed to lease documents is redundant of A.R.S. § 37-103.

- **R12-5-524:** The rule is understandable, but the first paragraph is redundant of A.R.S. 37-255. Also, additional information could add clarity to the process of filing mortgages and liens with the Department.

6. **Has the agency analyzed the rules' consistency with other rules and statutes?**

The Department indicates the rules are generally consistent with other rules and statutes except for the following:

- **R12-5-402:** Subsection (A) is inconsistent with agency operations because it limits an application to one section or subdivision of a section, and ASLD allows an application to cover more than one section or subdivision thereof for the sake of efficiency. Subsections (B) through (D) are consistent.
- **R12-5-408:** The rule is mostly consistent, except that Subsection (A)(1) references the filing fee in A.R.S. § 37-108(A)(9)(c) whereas A.A.C. R12-5-1201 prescribes Department filing fees.
- **R12-5-509:** This rule was created when the agency largely transacted and executed agreements with paper; reflected in several portions of this section. Also, the rule is inconsistent with agency operations, as receipts are not provided unless requested following execution of the lease or permit. Further, where it notes that the rental statement is sent with a copy of lease for execution by the lessee or permittee, in actuality the Department mostly sends a copy of the rental statement under separate cover prior to sending out the lease documents.
- **R12-5-513:** The rule is mostly consistent. It is inconsistent with agency operations in that the Department does not require a copy of the lease or permit to be provided at the time of application, and the Department does not allow for an assignment of an undivided interest.
- **R12-5-517:** The rule is mostly consistent, although it is inconsistent with agency operations in that grazing lease rentals are not fixed amounts (as they are based on a formula derived from an index and computed annually), and grazing and agricultural leases currently do not contain rental fee amounts in the lease documents (however, the Department is considering changing this practice).

7. **Has the agency analyzed the rules' effectiveness in achieving its objectives?**

The Department indicates the rules are generally effective in achieving their objectives except for the following rules:

- **R12-5-402:** Subsection (A) is not effective as it is inconsistent with agency operations as outlined above. Subsections (B) through (D) are effective.
- **R12-5-533:** The rule is effective, but misplaced within the Chapter, as it does not only apply to leases.

**8. Has the agency analyzed the current enforcement status of the rules?**

The Department indicates the rules are generally enforced as written except for the following rules:

- **R12-5-402:** Subsection (A) is not enforced as it is inconsistent with agency operations as outlined above. Subsections (B) through (D) are enforced.
- **R12-5-406:** The rule is mostly enforced except: per Subsection (B)(3), the Department does not require release or satisfaction of a lien of mortgage to be submitted at the time of application because most applicants assigning a CP will submit such documentation simultaneously at closing; and per Subsection (B)(4), as the Department does not citizenship-test its applicants.
- **R12-5-408:** The rule is enforced except that the requirement of the drawing size of the survey plat and the format of same mentioned in Subsection (A)(3) is only enforced when necessary.
- **R12-5-509:** The rule is mostly enforced, except that an application for reclassification does not serve as an effective date for a new lease.
- **R12-5-513:** The rule is mostly enforced, except where it is inconsistent with agency operations, as noted above.
- **R12-5-517:** The rule is enforced as written, except as to grazing leases as outlined above.

**9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The Department indicates there are no federal laws applicable to these rules.

**10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

For those rules which were amended in 2021, the Department indicates the rules are in compliance with A.R.S. § 41-1037. Council staff believes the Department is in compliance with A.R.S. § 41-1037.

**11. Conclusion**

The Council voted to require the Department to conduct a review of the rules in Title 12, Chapter 5, Articles 1, 2, 4, and 5 outside the 5YRR process pursuant to A.R.S. § 41-1056(D). This 5YRR from the Department relates to forty-six (46) rules in Title 12, Chapter 5, Articles 1, 2, 4, and 5. Specifically, the Articles reviewed cover the following areas: Article 1 – General Provisions; Article 2 – Practice and Procedure in Administrative Hearings for Protesting Auctions Before the Arizona State Land Commissioner; Article 4 – Sales; and Article 5 – Leases.

The Department has identified rules that are not clear, concise, understandable, consistent, effective, and enforced as written. The Department proposes to amend these rules in two separate rulemakings, the first of which will be submitted to the Council by April 2024 and the second by March 2025.

Council staff recommends approval of this report.

## Summary

A.R.S. § 41-1056(D) states: “The council may review rules outside of the five-year review process if requested by at least four council members.” At a meeting of the Governor’s Regulatory Review Council (“GRRC”) on December 6, 2022, the Council voted to require the Arizona State Land Department (“Department”) to review all of its rules in Title 12, Chapter 5 according to the following schedule: Articles 1-11 are due no later than July 1, 2023, and Articles 12-25 are due no later than November 1, 2023. At the meeting of the GRRC on June 6, 2023, the Council voted to extend the due date of the § 41-1056(D) Report of all Articles to November 1, 2023. The review of Articles 1, 2, 4 and 5 are contained herein. The review of Articles 7, 8, 9, and 11 are submitted separately to and simultaneously with this report as a revision to the 5-year rule report of those same Articles which was originally due July 31, 2022, and returned to the Department in November 2022.

The Department, while not a regulatory agency, is a public agency that should ensure that the public has clear understanding and consistent guidelines for State Trust land (“STL”) transactions.. The Department serves as the trustee of the State’s 9.2 million acres of STL and the appurtenant natural resources. The trust status of STL imposes obligations and constraints that would not apply if the State held the land outright. These obligations and constraints are outlined in the extensive and detailed provisions of Sections 24-30 of the State’s Enabling Act, Article X of the Arizona Constitution, statutes in A.R.S. Titles 27 (sub-surface) and 37 (surface estate), and a century of case law.

STL, managed for its highest and best use, while also preserving its finite natural resources, is supported by the laws of the Enabling Act, Constitution, and judiciary of this state. The Commissioner is granted broad statutory discretion in her decision-making powers and authorities; which are necessary for the management of a perpetual trust in a time of increasing demand for all types of land uses. The Department also has a public duty to ensure that its expectations for applicants, lessees and permittees are clear and consistent. To that end, the Department is proposing amendments to some of our rules within Title 12, Chapter 5 in order to conform with changes to statutes and internal processes and to clarify language and drafting nuances where necessary.

Under this Rule Review Report, the Department evaluated 46 rules broken down as follows: 9 rules within Article 1; 18 rules within Article 2; 7 rules within Article 4; and 12 rules within Article 5. The Department plans to amend many of these rules in a rulemaking that shall be initiated via submission to the Governor’s Office no later than March 1, 2024.

The Department, under this new administration, will be creating a standardized framework for all future rule writing and reviews; which has been lost over the past few decades. The Department also recognizes that there is great opportunity for improvement to several internal

work flow processes; and has begun identifying areas of necessary improvements that will ensure agency transparency, accountability and efficiency in all surface and subsurface STL transactions. As the Department works through these improvements over the course of the next few years, it will return to GRRC with proposed conforming improvements to rule, providing greater clarity to customers and stakeholders.

## **Factors analyzed pursuant to A.A.C. R1-6-301(A)**

1. General and specific authority, including any statute that authorizes the agency to make rules;
2. Objective of the rule, including the purpose for the existence of the rule;
3. Effectiveness of the rule in achieving the objective, including a summary of any available data supporting the conclusion reached;
4. Consistency of the rule with state and federal statutes and other rules made by the agency;
5. Agency enforcement policy, including whether the rule is currently being enforced and, if so, whether there are any problems with enforcement;
6. Clarity, conciseness, and understandability of the rule;
7. Summary of the written criticisms of the rule received by the agency within the five years immediately preceding the five-year review report;
8. A comparison of the estimated economic, small business and consumer impact with prior economic impact statement or assessment;
9. Any analysis submitted to the agency by another person regarding the rule's impact on this State's business competitiveness;
10. If applicable, how the agency completed the course of action indicated in the agency's previous five- year review report;
11. A determination that the rule's probable benefits outweigh the probable costs and that rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective;
12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law;
13. For a rule adopted after July 29, 2010, that requires issuance of a regulatory permit, license or agency authorization, whether the rule complies with A.R.S. § 41-1037; and

The previous Economic Impact Statement submitted along with the rulemaking of this rule in 2020 noted beneficial, albeit minimal, economic impacts of the 2020 proposed rulemaking to the Department, Political subdivisions of the State, and independent businesses primarily due to realized efficiencies, such as processing of electronic applications instead of paper applications; the ability to pay certain fees with credit cards; and the reduction in penalty and interest fees charged to businesses by changing the receipt date for payments to the postmarked date instead of the date of receipt by the Department. There is no additional economic impact of this rule in its current, amended form.
9. **External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.

**11. Cost v. Benefit and Least Burden Analyses:**

ASLD contends that this rule's probable benefits outweigh its probable costs and impose the least burden and costs to persons regulated by the rule because definitions serve to improve clarity and understandability of the rules without harming stakeholders, customers, or the Department.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

## A.A.C. Rule 12-5-102 Computation of Extension of Time

1. **Statutory Authority:**  
A.R.S. § 37-132

3. **Effectiveness:**  
The rule is effective.
4. **Consistency:**  
The rule is consistent.
5. **Enforcement policy:**  
The rule is enforced.
6. **Clear, concise, and understandable:**  
As currently written, the “computation of time” in subsection (A) is confusing and unnecessarily complex – it also lacks specificity as to what agency decisions, or processes this provision would apply.
7. **Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
8. **Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
9. **External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule’s impact on business competitiveness received by ASLD.
10. **Previous 5yRR Report Course of Action:**  
ASLD considered the entirety of Articles 1 and 2, including this rule, for a proposed rulemaking initiated in 2020. This rule ultimately was not included in that rulemaking because there were no substantive changes to be made.
11. **Cost v. Benefit and Least Burden Analyses:**  
ASLD contends that this rule’s probable benefits outweigh its probable costs and impose the least burden and costs to persons regulated by the rule because the rule offers specificity

regarding the computation of time periods that is fair and balanced in its approach to affording customers adequate time to act without becoming unduly lengthy.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1137 Compliance:**

This factor does not apply as this rule was adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

ASLD intends to consider revisions to subsection (A) to clarify it in list form, as well as add revisions that would add a set amount of time to the time period calculation when service of process is given by certified mail. This rule will be amended in April, 2024.

## **A.A.C. Rule 12-5-103 Records; Correction of Errors; Public Docket; Removal of Records**

- 1. Statutory Authority:**

- 2. Objective:**  
The objectives of the rule are to: establish standards in which documents submitted to the Department become part of the Department's records, establish guidelines for correcting clerical errors within documents, describe the process for a person to obtain a copy of a public docket, and prohibit the removal of documents from the Department.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**

The previous Economic Impact Statement submitted along with the rulemaking of this rule in 2020 noted beneficial, albeit minimal, economic impacts to the Department, Political subdivisions of the State, and independent businesses primarily due to realized efficiencies, such as processing of electronic applications instead of paper applications; the ability to pay certain fees with credit cards; and the reduction in penalty and interest fees charged to businesses by changing the receipt date for payments to the postmarked date instead of the date of receipt by the Department. There is no additional economic impact of this rule in its current, amended form.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**

In the previous 5YRRR, the Department proposed to amend the rule to reflect acceptance of documents physically and electronically filed. The Department completed this action in its 2020/21 rulemaking.

**11. Cost v. Benefit and Least Burden Analyses:**

ASLD contends that this rule's probable benefits outweigh its probable costs and impose the least burden and costs to persons regulated by the rule because the benefit derives from providing uniform guidance regarding filings, acceptance of records and correction of errors, without which a layperson would not have clear direction or ability to transact with the Department in an efficient and effective manner.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This rule, as amended in 2021, complies with A.R.S. § 41-1037.

**1. Statutory Authority:**

A.R.S. § 37-132

**2. Objective:**

The objective of the rule is to inform customers how to file an application or other required documents with the Department, the information required, and the rights, if any, granted to an applicant.

**3. Effectiveness:**

The rule is effective.

**4. Consistency:**

The rule is consistent.

**5. Enforcement policy:**

The rule is enforced.

**6. Clear, concise, and understandable:**

There is no additional economic impact of this rule in its current, amended form.

**9. External Analysis of impact on business competitiveness:**

There have been no external analyses of this rule's impact on business competitiveness received by ASLD.

**10. Previous 5yRRR Report Course of Action:**

In the previous 5YRRR, the Department intended to amend Subsection (C) of this rule to reflect the Department's practice of receiving documents electronically. The Department completed this action, in addition to further changes to the rule.

**11. Cost v. Benefit and Least Burden Analyses:**

ASLD contends that this rule's probable benefits outweigh its probable costs and impose the least burden and costs to persons regulated by the rule because the benefit derives from requiring applications to be uniform and contain certain information that allows the Department to consider proposed transactions in a fair and consistent manner, helping customers and the Department's objective.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This rule, as amended in 2021, complies with A.R.S. § 41-1037.

**14. Course of Action Proposed:**

ASLD intends to amend this rule to include application information that is currently located elsewhere in the Chapter, as well as provide clarity to applicants of the Department's expectations following incomplete application filings. The Department has experienced some difficulties in follow-up from applicants who have submitted incomplete applications, which can unfairly suspend parcel(s) of land for other applicants/uses. Applications can sit in suspense for years as a result. This rule will be amended in April, 2024.

## **A.A.C. Rule 12-5-105 Manner of Signing Documents Before the Department**

The previous Economic Impact Statement submitted along with the rulemaking of this rule in 2020 noted beneficial, albeit minimal, economic impacts to the Department, Political subdivisions of the State, and independent businesses primarily due to realized efficiencies, such as processing of electronic applications instead of paper applications; the ability to pay certain fees with credit cards; and the reduction in penalty and interest fees charged to businesses by changing the receipt date for payments to the postmarked date instead of the date of receipt by the Department. There is no additional economic impact of this rule in its current, amended form.

## Article 4 Sales

### A.A.C. Rule 12-5-402 Conditions for Filing Application

1. **Statutory Authority:**  
A.R.S. § 37-132(A)(1); § 37-233
2. **Objective:**  
The objective of this rule is to outline conditions for filing a purchase application for State Land.
3. **Effectiveness:**  
Subsection (A) is not effective as it is inconsistent with agency operations. Subsections (B) through (D) are effective.
4. **Consistency:**  
Subsection (A) is inconsistent with agency operations because it limits an application to one section or subdivision of a section, and ASLD allows an application to cover more than one section or subdivision thereof for the sake of efficiency. Subsections (B) through (D) are consistent.
5. **Enforcement policy:**  
Subsection (A) is not enforced. Subsections (B) through (D) are enforced.
6. **Clear, concise, and understandable:**  
The rule is clear, concise, and understandable. Notably, however, Subsection (C) is reflective of A.R.S. § 37-233(C) in that the statute allows the Commissioner to require funds to be advanced for the purchase of state land under certain circumstances, while the rule requires it.
7. **Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
8. **Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
9. **External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.

**10. Previous 5yRRR Report Course of Action:**

The previous 5YRRR noted the following: “While subsection (A) of the rule is misleading in that it is inconsistent with agency operations, it is well known that the Department does not enforce this subsection which is to the advantage of both the Department and its purchase applicants. Nothing in this rule costs staff additional time and resources.” Rules under Article 4 were considered for a rulemaking effort following a rulemaking to amend Articles 1 & 2. A rulemaking for Article 4 did not occur.

**11. Cost v. Benefit and Least Burden Analyses:**

ASLD contends that the rules’ probable benefits outweigh their probable costs and impose the least burden and costs to persons regulated by the rule (absent subsections (A) and (C) which are unnecessary) because it provides the Department with information that is necessary to consider an application, in the case of subsection (B), and it limits a party from withdrawing an application that the Department has agreed to take to auction by expending considerable resources, in the case of subsection (D), neither of which create an undue burden on a party seeking to purchase State Land.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department intends to amend the rule to eliminate subsections (A) and (C). This rule will be amended in March, 2025.

## **A.A.C. Rule 12-5-403 Restrictions Subsequent to Filing Application to Purchase**

- 1. Statutory Authority:**  
A.R.S. § 37-132
- 2. Objective:**  
The objective of this rule is to restrict any state land Lessee from adversely impacting lands for which an application to purchase has been made by that same Lessee.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
Rules under Article 4 were to be considered for the Department's 2020 rulemaking effort. A rulemaking for this rule was not considered necessary and was not completed.
- 11. Cost v. Benefit and Least Burden Analyses:**  
ASLD contends that the rules' benefits outweigh their costs because an applicant to purchase state land has no interest in the land due to the existence of the application; so if there is no interest to dispose of or encumber, there is no cost to the applicant. On the other hand, premature dispositions or encumbrances of state land prior to sale would devalue the land and therefore be costly to the Trust.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

## **A.A.C. Rule 12-5-404 Responsibility of the Purchaser**

- 1. Statutory Authority:**

- 2. Objective:**  
The objective of this rule is to inform purchasers of State Land of certain responsibilities post-auction.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule needs clarification because it is not written in complete sentences. Also, the rule is not entirely concise because subsection (E) is redundant of statute.
- 7. Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
Rules under Article 4 were to be considered for the Department's 2020 rulemaking effort. A rulemaking for this rule was not considered necessary and was not completed.
- 11. Cost v. Benefit and Least Burden Analyses:**  
While there are costs associated with a customer's compliance with this rule (e.g. recordation, payment of taxes, insurance, etc.), some of these costs are required of the Department to impose upon a purchaser as a conditions to a Certificate of Purchase, and all of these costs are standard in the real estate industry and essential to discharge of the

Department's fiduciary duty to the Trust which mandates protection of the Trust assets until a Patent has been issued.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department proposes to amend this rule to create complete sentences; to require a purchaser of state land to furnish a copy of the recorded CP to the Department; to require a holder of a CP to provide proof of payment of those items enumerated under subsection (B) (which is already a requirement under R12-5-405(A)); to eliminate subsection (E); and to eliminate the requirement of a CP holder to acquire the consent of the Department in situations when the Right-of-way would not survive the cancellation of the CP. This rule will be amended in March, 2025.

**A.A.C. Rule 12-5-405 Evidence of Taxes and Assessments Being Paid; Extension of Time to Pay**

- 1. Statutory Authority:**  
A.R.S. § 37-132
- 2. Objective:**  
The objective of this rule is to cause a holder of a Certificate of Purchase to prove annually that taxes and assessments against any land subject to a Certificate of Purchase have been paid for the year.
- 3. Effectiveness:**  
The rule is partially effective. See below.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
Subsection (A) of the rule is clear, but the concept within subsection (B) of the rule is better elaborated in A.R.S. § 37-247, and the reference to R12-5-102(B) regarding computation of timeframes is not needed here.
- 7. Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.

There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
Rules under Article 4 were to be considered for a rulemaking effort following a rulemaking to amend Articles 1 & 2. A rulemaking for Article 4 did not occur.

- 11. Cost v. Benefit and Least Burden Analyses:**  
ASLD contends that the rules' benefits outweigh their costs because subsection (A) only requires production of a document, i.e. proof of a payment of taxes, therefore there is minimal costs to customers while the benefit to the Department to ensure there is no default of tax payments under a CP is substantial as it allows the Department to protect the trust.
- 12. Comparison with Federal Law:**  
There are no federal laws with which to compare this rule.
- 13. A.R.S. § 41-1037 Compliance:**  
This factor does not apply as the rules were adopted prior to July 30, 2010.
- 14. Course of Action Proposed:**  
The Department intends to eliminate this rule after it relocates subsection (A) to R12-5-404(B). This rule will be amended in March, 2025.

## A.A.C. Rule 12-5-406 Assignment of a Certificate of Purchase

- 1. Statutory Authority:**  
A.R.S. § 37-132; A.R.S. § 37-244
- 2. Objective:**  
The objective of this rule is to inform Certificate of Purchase holders who wish to assign their CP of the conditions that would prohibit assignment.
- 3. Effectiveness:**  
The rule is mostly effective.
- 4. Consistency:**  
The rule is mostly consistent, except for those parts not enforced as explained below.
- 5. Enforcement policy:**  
The rule is mostly enforced except: per Subsection (B)(3), the Department does not require release or satisfaction of a lien of mortgage to be submitted at the time of application because most applicants assigning a CP will submit such documentation simultaneously at closing; and per Subsection (B)(4), as the Department does not citizenship-test its applicants.
- 6. Clear, concise, and understandable:**  
The rule is mostly concise and understandable, but: 1) clarity could be gained by recognizing that, due to escrows, the release or a satisfaction of a lien or mortgage may come prior to the completion of the assignment and not at the time of application and 2) the elimination of subsection (C), which is redundant of A.R.S. 37-244(C) would improve conciseness.
- 7. Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.

- 10. Previous 5yRR Report Course of Action:**  
Rules under Article 4 were to be considered for the 2020 rulemaking effort. A rulemaking for this rule did not occur.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The benefit to the Trust of this rule far exceeds the costs to customers who are CP holders because allowing a transfer of a CP when there are potential defaults under the CP would adversely affect the Trust and the lands under the CP.
- 12. Comparison with Federal Law:**  
There are no federal laws with which to compare this rule.
- 13. A.R.S. § 41-1037 Compliance:**  
This factor does not apply as the rules were adopted prior to July 30, 2010.
- 14. Course of Action Proposed:**  
The Department intends to amend the rule to adopt grammatical changes, to clarify Subsection (B)(3), to amend (B)(4) to eliminate the reference to citizenship-testing of applicants, and to eliminate subsection (C). This rule will be amended in March, 2025.

## A.A.C. Rule 12-5-408 Partial Patent

- 1. Statutory Authority:**  
A.R.S. § 37-132(A); § 37-251(B)
- 2. Objective:**  
The objective of this rule is to inform Certificate of Purchase holders of the conditions to receive a partial patent.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is mostly consistent, except that Subsection (A)(1) references the filing fee in A.R.S. § 37-108(A)(9)(c) whereas A.A.C. R12-5-1201 prescribes Department filing fees.
- 5. Enforcement policy:**  
The rule is enforced except that the requirement of the drawing size of the survey plat and the format of same mentioned in Subsection (A)(3) is only enforced when necessary.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
Rules under Article 4 were to be considered for the 2020 rulemaking effort. A rulemaking for this rule did not occur.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The benefit of this rule to the Department and its customers is primarily that it allows the Department to process an application more efficiently for a partial patent. While there are costs associated with the due diligence required, the Department needs this information to

comply with statute and to adequately protect the remainder of the lands under a CP and any surrounding state lands.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department intends to amend the rule to reference the correct rule providing for filing fees; to require the information required in (A)(3) to be provided in digital format; to make grammatical changes; and to consider elimination of Subsection (E) in exchange for a Department-wide approach to treating incomplete applications. This rule will be amended in March, 2025.

## **A.A.C. Rule 12-5-413 Real Estate Broker Commissions**

- 1. Statutory Authority:**  
A.R.S. § 37-132(A)(1); § 37-132(B)(2)
- 2. Objective:**  
The objective of this rule is to provide criteria by which private real estate brokers may assist the Department in marketing state land for sale and long-term lease auctions and by which those same brokers may be paid a commission for doing so.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is concise and understandable, but the rule's clarity could be improved by differentiating brokers representing non-applicant bidders and those representing applicant bidders.
- 7. Written criticisms:**  
There have been no written criticisms of this rule received in the previous five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. The current state of this rule does not have a net negative economic impact.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
Rules under Article 4 were to be considered for the 2020 rulemaking effort. A rulemaking for this rule did not occur.
- 11. Cost v. Benefit and Least Burden Analyses:**  
ASLD contends that this rule's probable benefits outweigh its probable costs and impose the least burden and costs to persons regulated by the rule because the Department pays a

fee to real estate brokers who bring clients to purchase auctioned lands for sale or long-term lease, which is a benefit to the Department and the bidders.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department intends to amend the rule as follows: to differentiate broker requirements for brokers representing applicant and non-applicant bidders; to require submission of broker forms via electronic means versus in person document filings at the Department's public counter; and to restrict payment to brokers representing themselves or state land beneficiaries. This rule will be incorporated as a new section through April, 2024 Rulemaking.

## Article 5 Leases

### A.A.C. Rule 12-5-505 Time for Filing Conflicting Applications

1. **Statutory Authority:**  
A.R.S. § 37-132(A)(1); § 37-284
2. **Objective:**  
The objective of the rule is to notify all stakeholders as to when the Department will not accept a conflicting application to use Trust land, to provide time frames for the acceptance of conflicting applications, and to define a conflicting application.
3. **Effectiveness:**  
The rule is effective.
4. **Consistency:**  
The rule is consistent.
5. **Enforcement policy:**  
The rule is enforced.
6. **Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
7. **Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
8. **Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. There is an economic impact of the rule on the Department, as the processing of conflicting applications is both resource- and time-intensive. Nonetheless, statutes dictate that the Department accept conflicting applications in certain circumstances.
9. **External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
10. **Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, no specific changes or improvements were highlighted.

**11. Cost v. Benefit and Least Burden Analyses:**

The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it informs applicants of timelines and deadlines for processing conflicting applications without creating any burdensome actions for those same applicants.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department does not intend to amend this rule at this time.

## **A.A.C. Rule 12-5-506 Procedure in Processing Conflicting Applications**

- 1. Statutory Authority:**  
A.R.S. § 37-132(A)(1); § 37-284
- 2. Objective:**  
The objective of the rule is to articulate how the Department processes and awards a lease when there are conflicting applications.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. There is an economic impact of the rule on the Department, as the processing of conflicting applications is both resource- and time-intensive. Nonetheless, statutes dictate that the Department accept conflicting applications in certain circumstances
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, no specific changes or improvements were highlighted.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it

provides an efficient and fair means to process and decide conflicting applications despite the inherent burden of conflicts on applicants which cannot be entirely circumvented.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department does not intend to amend this rule at this time.

## **A.A.C. Rule 12-5-508 Application Confers No Right to Land**

- 1. Statutory Authority:**  
A.R.S. § 37-132(A)(1); 37-294
- 2. Objective:**  
The objective of this rule is to articulate the rights which are and are not conferred in the land subject to a pending new or renewal application.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is clear and understandable, but it is not concise because it partially reiterates what is articulated in A.A.C. R12-5-104.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, no rule changes were highlighted or proposed.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule. The rule only states what is helpful for applicants to know, but there is no situation in which allowing a

lessee any equitable rights in the land would be a good idea from a trust land management perspective.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department proposed to incorporate this rule into A.A.C. R12-5-104. This rule will be amended in April, 2024.

**A.A.C. Rule 12-5-509 Execution of Leases or Permits; Covenants; Effective Date and Completion of Lease or Permit**

**1. Statutory Authority:**

A.R.S. § 37-132; § 37-103; § 37-215; § 37-281

**2. Objective:**

The objective of this rule is to explain the requirements to finalize a STL lease or permit, including the requirements for signing, payment of rent or fees, timeframes, and deadlines. The rule describes how effective dates are determined and includes instructions on appealing an appraised rental value.

**3. Effectiveness:**

The rule is mostly effective.

**4. Consistency:**

This rule was created when the agency largely transacted and executed agreements with paper; reflected in several portions of this section. Also, the rule is inconsistent with agency operations, as receipts are not provided unless requested following execution of the lease or permit. Further, where it notes that the rental statement is sent with a copy of lease for execution by the lessee or permittee, in actuality the Department mostly sends a copy of the rental statement under separate cover prior to sending out the lease documents.

**5. Enforcement policy:**

The rule is mostly enforced, except that an application for reclassification does not serve as an effective date for a new lease.

**6. Clear, concise, and understandable:**

The rule is not easily understood as it is verbose, outdated and is not organized well. The rule is not clear because the effective date of a lease is never the date of application upon open land, but rather the date both parties have signed the lease; the date of administrative approval differs depending on the type of lease. While all of these dates fall under the “or such other subsequent date as the Commissioner may prescribe,” it is not clear what those dates are. The rule is not concise because mention of the Department seal being affixed to lease documents is redundant of A.R.S. § 37-103

**7. Written criticisms:**

The Department has not received any written criticisms of this rule in the past five years.

**8. Economic impact:**

There is no previous estimated economic, small business, or consumer impact statement of record associated with this rule available for comparison. However, the economic impact of the rule is primarily to the Department staff and resources in processing applications and managing the applications through to execution or cancellation or withdrawal.

**9. External Analysis of impact on business competitiveness:**

There have been no external analyses of this rule’s impact on business competitiveness received by ASLD.

**10. Previous 5yRR Report Course of Action:**

The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, the Department noted, “ASLD only in the past year implemented an electronic application process and is currently working toward an electronic signature process for executing documents. Until those processes are implemented fully and standardized, it is not clear what ASLD would propose in the new rule regarding the treatment of insert sheets and whether those will need additional execution or be incorporated by addendum into the ASLD contracts. Further consideration needs to be made as to whether rights-of-way and grantees of rights-of-way should be incorporated into this and other rules within this Article. This review will occur after the rulemaking effort the Department is preparing for March 2019 and will be made in light of the operation changes that are ongoing. As to whether ASLD should resolve the inconsistency in the mailing of billing statements will depend on the extent to which electronic means continue to be developed and standardized at the Department. The reference to the seal and to reclassification and appeal should be amended once the entirety of the rule is ready for amendment.”

**11. Cost v. Benefit and Least Burden Analyses:**

The Department contends that the rule’s probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule, although it needs to be amended to be transparent of processes and even more helpful to customers.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department proposes to amend this rule to eliminate inconsistent and redundant provisions; to enumerate lease commencement dates for specific types of leases; and to add numbered formatting. This rule will be amended in March, 2025.

## A.A.C. Rule 12-5-512 Assignments

1. **Statutory Authority:**  
A.R.S. § 37-132(A)(1); 37-286
2. **Objective:**  
The objective of this rule is to notify assignors of leases or permits of the prerequisites for assigning a lease or permit.
3. **Effectiveness:**  
The rule is effective.
4. **Consistency:**  
The rule is consistent.
5. **Enforcement policy:**  
The rule is enforced.
6. **Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
7. **Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
8. **Economic impact:**  
The estimated economic impact of the rule to assignment applicants would be the following year's rent payment required in advance of an assignment application made within 30 days of the rent's due date.
9. **External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
10. **Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, the Department noted, "Further consideration needs to be made as to whether rights-of-way and grantees of rights-of-way should be incorporated into this and other rules within this Article. This review will occur after the rulemaking effort the Department is preparing for March 2019. The interchange of "Commissioner" and "Department" do not present a substantive or immediate issue, but should other issues necessitate a rulemaking, ASLD would likely propose to change some references to "Commissioner" to "Department"." These considerations were made, but no changes

were proposed or completed based on these considerations.

**11. Cost v. Benefit and Least Burden Analyses:**

The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because this burden of requiring payment prior to assignment is outweighed by the benefit that accrues to an assignee (in taking an assignment that would otherwise not be current on rent) and to the Department (in ensuring rent is paid timely).

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department does not intend to amend this rule at this time.

## **A.A.C. Rule 12-5-513 Manner of Assignments**

- 1. Statutory Authority:**  
A.R.S. § 37-132(A)(1); § 37-255(A); § 37-286(B)
- 2. Objective:**  
The objective of this rule is to notify assignors of leases or permits of the manner in which assignments are required to be done, including reference to forms, fees, map requirements, and lienholder consent.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is mostly consistent. It is inconsistent with agency operations in that the Department does not require a copy of the lease or permit to be provided at the time of application, and the Department does not allow for an assignment of an undivided interest.
- 5. Enforcement policy:**  
The rule is mostly enforced, except where it is inconsistent with agency operations, as noted above.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is no estimated economic impact of the rule to assignment applicants.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, the Department noted that "Further consideration needs to be made as to whether rights-of-way and grantees of rights-of-way should be incorporated into this and other rules within this Article. This review will occur after the rulemaking effort the Department is preparing for March 2019. The other amendments referenced in the 2013 report may also be beneficial to make." The Department made these considerations and

decided against amending this rule accordingly.

**11. Cost v. Benefit and Least Burden Analyses:**

The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it provides a clear guideline pertaining to assignment, which allows the Department to assess each assignment on its merits.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department intends to amend this rule to address the inconsistencies with agency operations, specifically to remove the requirement of an applicant to provide a copy of a lease or permit at the time of application and the ability of an applicant to apply for an assignment of an undivided interest. This rule will be amended in March, 2025.

## **A.A.C. Rule 12-5-517 Rentals**

- 1. Statutory Authority:**  
A.R.S. § 37-132
- 2. Objective:**  
The objective of the rule is to inform stakeholders of the nature and payment of rental amounts.
- 3. Effectiveness:**  
The rule is mostly effective.
- 4. Consistency:**  
The rule is mostly consistent, although it is inconsistent with agency operations in that grazing lease rentals are not fixed amounts (as they are based on a formula derived from an index and computed annually), and grazing and agricultural leases currently do not contain rental fee amounts in the lease documents (however, the Department is considering changing this practice).
- 5. Enforcement policy:**  
The rule is enforced as written, except as to grazing leases.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is no estimated economic impact of the rule to lessees.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, the Department noted that "Further consideration needs to be made as to whether rights-of-way and grantees of rights-of-way should be incorporated into this and other rules within this Article. This review will occur after the rulemaking effort the Department is preparing for March 2019. Specifically, the Department has most recently litigated an issue regarding the treatments of rights-of-way by ASLD. That litigation is

still pending, and the resolution of that litigation, along with other legal considerations of the treatments of rights-of-way, may bring clarity to whether ASLD will include the reference to rights-of-way and right-of-way grantees in certain rules pertaining to Leases.” The litigation mentioned has culminated, and the change in practice associated with this litigation would not be addressed here but rather in Article 8. The other considerations were made by the Department, which then decided against amending this rule.

**11. Cost v. Benefit and Least Burden Analyses:**

The Department contends that the rule’s probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it outlines the very important requirement that all rentals be paid annually in advance, while leaving leeway for the Commissioner to alter this requirement on a case-by-case basis, which is done so mostly for the Federal government.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department does not intend to amend this rule at this time.

## A.A.C. Rule 12-5-518 Rental Notices

1. **Statutory Authority:**  
A.R.S. § 37-132
2. **Objective:**  
The objective of the rule is to explain how the Department notifies lessees that rent is due or is changing and when rent is due.
3. **Effectiveness:**  
The rule is effective.
4. **Consistency:**  
The rule is consistent.
5. **Enforcement policy:**  
The rule is enforced.
6. **Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
7. **Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
8. **Economic impact:**  
There is no estimated economic impact of the rule to the Department's customers.
9. **External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
10. **Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, the Department mentioned replacing "Commissioner" with "Department" if other updates necessitated a rulemaking; the Department determined that such non-substantive changes were not necessary.
11. **Cost v. Benefit and Least Burden Analyses:**  
The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it provides information on rental notices and reasonable due dates of payments.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department does not intend to amend this rule at this time.

## **A.A.C. Rule 12-5-521 Modification or Amendment of Existing Lease or Permit**

- 1. Statutory Authority:**  
A.R.S. § 37-132
- 2. Objective:**  
The objective of the rule is to explain a limitation on the modification of an existing lease or permit term.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is no estimated economic impact of the rule to stakeholders.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, like in other rules in this article, the Department noted considering whether to add mention of rights-of-way to this rule. The Department decided against this course of action and did not amend the rule.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it outlines in a regulation that which is already contractually stipulated.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department does not intend to amend this rule at this time.

## **A.A.C. Rule 12-5-524 Sale, Mortgage or Lien on Interest of Holder of Lease or Permit**

- 1. Statutory Authority:**  
A.R.S. § 37-132; § 37-255
- 2. Objective:**  
The objective of the rule is to explain the responsibilities of lessees, the Department, and lienholders with respect to liens filed, foreclosure, lien balance, and notices of certain actions to parties to a lien.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is understandable, but the first paragraph is redundant of A.R.S. 37-255. Also, additional information could add clarity to the process of filing mortgages and liens with the Department.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is a potential economic impact to stakeholders, i.e. lienholders in this instance, if they do not follow the rule and the liens are not recorded and the Department defaults or cancels a lease due to non-payment. But, if the lienholders do not file notice with the Department, the Department is unable to notify them of an adverse event. This rule benefits lienholders because it allows them a process by which to have their liens recognized.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, no specific changes were proposed or made.

**11. Cost v. Benefit and Least Burden Analyses:**

The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule because it affords a formal process to have liens recognized and lienholders notified in the event of a default.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department intends to amend this rule to remove the first paragraph and to add clarity to the remaining provisions regarding both the process for lienholder filings and the limitations of such filings. This rule will be amended in March, 2025.

## **A.A.C. Rule 12-5-533 Trespass on State Land**

- 1. Statutory Authority:**  
A.R.S. § 37-132; § 37-501; § 37-502
- 2. Objective:**  
The objective of the rule is to explain a trespass action and legal off-highway vehicle (“OHV”) use, as well as designate authorized uses and prescribe penalties for trespass. The rule also defines terms used.
- 3. Effectiveness:**  
The rule is effective, but misplaced within the Chapter, as it does not only apply to leases.
- 4. Consistency:**  
This rule is consistent with statute.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is concise and understandable.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
There is no estimated economic impact to stakeholders.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule’s impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, no specific changes were proposed or made.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The Department contends that the rule’s probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule.
- 12. Comparison with Federal Law:**  
There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

The Department proposes no action at this time.

## A.A.C. Rule 12-5-534 Closing Land to Recreational Use

- 1. Statutory Authority:**  
A.R.S. § 37-132
- 2. Objective:**  
The objective of the rule is to describe when the Commissioner may close lands to recreational use.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule is enforced.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 7. Written criticisms:**  
The Department has not received any written criticisms of this rule in the past five years.
- 8. Economic impact:**  
The objective of the rule is to describe when the Commissioner may close lands to recreational use.
- 9. External Analysis of impact on business competitiveness:**  
There have been no external analyses of this rule's impact on business competitiveness received by ASLD.
- 10. Previous 5yRR Report Course of Action:**  
The Department proposed to make general rulemaking efforts beginning in March 2019 but did not propose a timeline specifically for rules in Article 5. The Department did initiate and complete a rulemaking in 2020-21, but this did not include rules in Article 5. For this rule, no specific changes were proposed or made.
- 11. Cost v. Benefit and Least Burden Analyses:**  
The Department contends that the rule's probable benefits outweigh its probable costs, and the rule imposes the least burden and costs to persons regulated by the rule. The ability of the Commissioner to close lands in the best interests of the trust supersedes any interest in recreation.

**12. Comparison with Federal Law:**

There are no federal laws with which to compare this rule.

**13. A.R.S. § 41-1037 Compliance:**

This factor does not apply as the rules were adopted prior to July 30, 2010.

**14. Course of Action Proposed:**

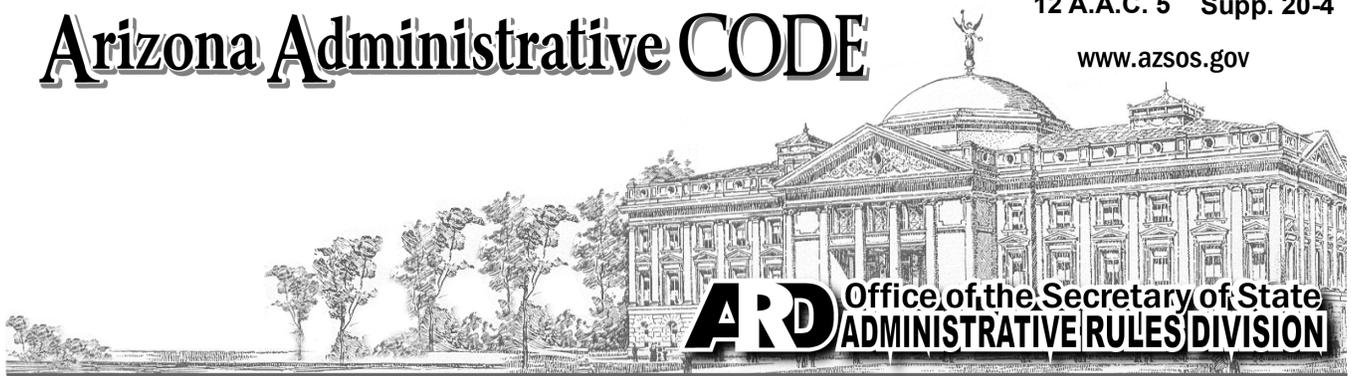

The Department intends to relocate this rule to Article 1.

## **Economic Impact Statement**

As of the end of Fiscal Year 2023, the Department held: 345 Agricultural Leases covering 157,439,161 acres of Trust Land which generated \$4,339,836 in income; 1203 Grazing Leases and Permits covering 8,333,585,519 acres which generated \$2,962,499 in income; 292 Commercial Leases covering 73,697,182 acres which generated \$32,504,784 in income; 5,422 Right-of-Way Grants and Permits covering 87,970,595 acres which generated \$11,308,524 in income; and 773 Mineral Leases covering 409,210,731 acres of Trust Land which generated \$14,317,086 in rental income.

Additionally, in Fiscal Year 2023, the Department held 43 auctions for sales of 4,760,441 acres of land and generated revenue in the amount of 374,719,009 from those land sales.

The rental payments received from the above leases are deposited into the Trust's expendable fund and distributed directly to the beneficiaries annually. The payments received from the above land sales are deposited into the Trust's permanent fund, which is invested by the Treasurer, and proceeds therefrom are distributed to beneficiaries in accordance with formulas established in the Constitution. In addition to the direct impacts to the 13 beneficiaries of Trust Land, activities on Trust Lands provide opportunities for local economies via the labor force and the communities of homes, retail, and offices that are built thereon.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

---

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into titles. Titles are divided into chapters. A chapter includes state agency rules. Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2019 is cited as Supp. 19-1.

Please note: The Office publishes by chapter, not by individual rule section. Therefore there might be only a few sections codified in each chapter released in a supplement. Historical notes at the end of a section provide an effective date and information when a rule was last updated.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate chapters of the *Administrative Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority

note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a chapter can be found at the Secretary of State’s website, under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a chapter provide information about rulemaking sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### EXEMPTIONS AND PAPER COLOR

At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

### PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Administrative Rules Division  
 The Arizona Secretary of State electronically publishes each A.A.C. Chapter with a digital certificate. The certificate-based signature displays the date and time the document was signed and can be validated in Adobe Acrobat Reader.

**CHAPTER 5. STATE LAND DEPARTMENT**

Authority: A.R.S. § 37-102 et seq.

*Editor’s Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 02-1).*

*Editor’s Note: The proposed summary action repealing R12-5-901 through R12-5-920 was remanded by the Governor’s Regulatory Review Council which revoked the interim effectiveness of the summary rules. Sections in effect before the proposed summary action have been restored (Supp. 98-3).*

*Editor’s Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1992, Ch. 297, § 6. Exemption from A.R.S. Title 41, Chapter 6 means that the Land Department did not submit notice of this rulemaking to the Secretary of State’s Office for publication in the Arizona Administrative Register; the Governor’s Regulatory Review Council did not review these rules; the Land Department was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.*

*Title 12, Chapter 5, Articles 1 thru Article 23, were renumbered to bring the Chapter numbering into compliance with current format. For the old and new Section numbers, please refer to the introductory notes at the beginning of each Article in the table of contents or in the historical notes for the specific Sections.*

**R12-5-412. Expired****Historical Note**

Adopted effective March 6, 1979 (Supp. 79-2). Section R12-5-412 renumbered from Section R12-5-82 (Supp. 93-3). Section expired under A.R.S. § 41-1056(E) at 9 A.A.R. 5476, effective October 31, 2003 (Supp. 03-4).

*Editor's Note: The following Section was amended by emergency rulemaking effective December 20, 2002 to November 18, 2003. The State Land Department filed a rulemaking package for the permanent Section October 8, 2003, without requesting an immediate effective date. The effective date of the permanent rule would have been December 7, 2003, creating a three-week "window" during which neither the emergency rule nor the amended permanent rule would have been in effect. To avoid this, the Department refiled the permanent rule with the Governor's Regulatory Review Council, this time requesting an immediate effective date. G.R.R.C. approved the refiled rule and filed it with the Secretary of State November 4, 2003, thereby resolving the issue (Supp. 03-4).*

**R12-5-413. Real Estate Broker Commissions**

- A.** The Commissioner may offer a commission for the sale or long-term commercial lease of state land at public auction. In determining whether to offer a commission for the sale or long-term commercial lease of state land at public auction, the Commissioner shall consider the following factors:
1. The appraised value of the parcel being offered,
  2. The location and size of the parcel being offered,
  3. The terms of the sale or lease,
  4. The marketability of the land, and
  5. The best interest of the State Trust.
- B.** If a commission is offered for the sale or long-term commercial lease of state land at public auction, the Department shall pay the commission from the fees collected under A.R.S. § 37-108(A)(10)(a).
- C.** The Department shall publish the decision of the Commissioner to pay or not pay a commission for the sale or long-term commercial lease of state land and the amount and terms of the commission offered, if any, in the public notice of the auction.
- D.** Upon determination by the Commissioner that a commission will be offered on a sale or long-term commercial lease, a person holding an active real estate broker license in this state is eligible to receive the commission, from the Department, by registering with the Department the successful purchaser or lessee at public auction. A broker shall register himself or herself and the potential purchaser or lessee with the Department no later than three business days before the auction. The broker shall register in writing and include the following:
1. Name and address of the brokerage;
  2. Name and real estate license number of the broker and any real estate salesperson acting as an agent for the broker at the public auction;

## CHAPTER 5. STATE LAND DEPARTMENT

5. Signature of the broker or salesperson and the potential purchaser or lessee verifying that the broker or salesperson represents the potential purchaser or lessee and that together they have inspected the land to be auctioned for sale or lease.
- E. A broker shall submit registration meeting the requirements of subsection (D) by mail or hand-delivery to the Department's public counter, Phoenix, Arizona 85007. The Department deems registration received on the date postmarked if mailed or time-stamped if hand-delivered. A broker shall not register the following:
1. A potential purchaser or lessee who is registered with another broker for the same auction, or
  2. A governmental agency.
- F. The Department shall pay the commission to the broker representing the successful purchaser or long-term commercial lessee at the time of delivery of the certificate of purchase or patent, or lease, or after final disposition of any protests or appeals resulting from the auction, whichever occurs later.
- G. The Department shall not pay a commission to a broker if the Commissioner determines that the broker has violated this Section.
- H. For the purpose of this Section, the following definitions apply:
1. "Long-term commercial lease" means a lease granted on state land for commercial purposes to the highest and best bidder at public auction for a term in excess of 10 years, but not more than 99 years.
  2. "Commercial lease" means an agreement by which an owner of real property (lessor) gives the right of possession to another (lessee) for a specified period of time (term) and for a specified consideration (rent).

- A. If two or more applicants apply for a lease or permit on the same land for the same purpose, the Department shall send a Notice of Conflicting Applications to each applicant requiring each applicant to submit to the Department a statement of equities containing the basis of the applicant's claim to the lease or permit and to serve a copy upon the other applicants within 30 days from the date of the Department's Notice, unless the time is extended by the Department or by stipulation of the applicants. If an applicant fails to submit a statement of equities, the Department may examine evidence or records, or review testimony from a hearing conducted under subsection (E)(2) and make a decision regarding the conflicting applications. The Department shall make its decision regarding an application filed for lease or permit under this Section in the best interest of the Trust.
- B. ## CHAPTER 5. STATE LAND DEPARTMENT

2. Whether the applicant's proposed land use or land management plan is beneficial to the Trust;
  3. The applicant's access to or control of facilities or resources necessary to accomplish the proposed use;
  4. The applicant's willingness to reimburse the owner of reimbursable non-removable improvements;
  5. The applicant's previous management of land leases, land management plans, or any history of land or resource management activities on private or leased lands;

  7. Impact of the proposed use on future utility and income potential of the land;
  8. Impact to surrounding state land;
  9. Recommendations of the Department's staff; and

An application or permit for state land confers no right of occupancy, possession or use of said land until a lease or permit is issued thereunder or permission is granted in writing by the Commissioner. Provided, however, a prior lessee or permittee may occupy and use said land pending action on his application for renewal. In the event that the prior lessee or permittee should not be awarded a renewed lease or permit, the Commissioner may assess and collect from said lessee or permittee the reasonable value of the use of said land pending action upon the application to renew said lease or permit.

**Historical Note**

**R12-5-509. Execution of Leases or Permits; Covenants; Effective Date and Completion of Lease or Permit**

All leases and permits shall be signed by the lessee or permittee as provided by these rules and regulations and by the Commissioner or his Deputy, with the seal of the Department affixed thereto. All leases and permits shall contain such provisions, covenants, conditions and restrictions as may be prescribed by the Commissioner, hereinafter more particularly set forth under each type of lease. The effective date of the lease will be the date of application upon open land, or such other subsequent date as the Commissioner may prescribe. Upon lands previously leased, the date following the expiration date of the lease shall be the effective date; provided, that where the lands under lease have been reclassified, the effective date of the lease shall bear the date of such reclassification, if no appeal from reclassification is taken or if the Commissioner's decision is upheld if so appealed, or such other subsequent date as the Commissioner may prescribe.

Upon approval of the application to lease or permit and an appraisal or fixing of the rental value thereof, a lease or permit in duplicate will be mailed to the lessee or permittee, which lease or permit shall be signed in duplicate by the lessee or the permittee in the manner prescribed by these rules and regulations. Insert sheets which, when required, described the land being leased or for which permit is issued are a part of the lease or permit and shall be signed in the same manner as the lease or permit. A statement of the rental due and the permit or lease issuance fee will accompany the transmittal of the lease or permit. Upon the lease and permit and insert sheets, when required, being signed, they are to be returned to the Commissioner with the rental payment and lease or permit issuance fee in accordance with the statement rendered. When the lease or permit and insert sheets, when required, are received by the Commissioner, the same will be executed by the Commissioner as above provided and entered upon the records of the Commissioner. After execution by the Commissioner, one copy of the lease or permit, including the insert sheets when required, will be returned to the lessee or permittee with a receipt for the payment of rental.

## CHAPTER 5. STATE LAND DEPARTMENT

If the lease, permit and insert sheets, when required, are not executed by the lessee or permittee and returned to the Commissioner, together with the payment of the rental as indicated by the statement therefor forwarded with such instruments, within 60 days from the date of mailing by the Commissioner, the lease or permit will be declared to be null and void and of no force and effect, and the land will become open and available for leasing by other persons. Provided, however, that should the applicant object to the appraised rental value, he may appeal from said appraisal as provided by law and the rules and regulations of the Department to the Board of Appeals of the State Land Department without prejudice to his rights to the offered lease or permit.

The interest of the holder of any lease or permit shall be subject to sale, mortgage or other lien to the same extent as patented land. No contract of sale, mortgage or other lien shall become effective unless and until an executed or conformed copy thereof showing the recording data is filed with the Commissioner. When so filed, no assignment of the lease or permit affected shall be made without the consent of all parties. Upon the foreclosure of a contract of sale, mortgage or other lien filed with the Commissioner, the Commissioner shall assign the instrument in question to the party entitled thereto.

No action shall be taken by the Commissioner affecting the rights of the lienholder, mortgagee or contract purchaser or seller affecting the canceling, modification or declaration of the lien or permit to be forfeited without written notice to all parties in interest.

If a mortgagee, trustee under a deed of trust, lienholder or other person entitled to payment, receives full satisfaction of a mortgage, deed of trust or other obligation evidence of which has been filed with the Commissioner, he shall, at the request of the person making satisfaction or the Commissioner file with the Commissioner a sufficient release or satisfaction of mortgage or deed of release of the mortgage or deed of trust or lien.

Filing of these documents in no way obligates the Commissioner to the terms of them.

The Commissioner may on his own initiative, or at the request of a lessee or permittee, request of any mortgagee, trustee under a deed of trust, lienholder or other person entitled to payment who has filed with the Commissioner evidence of an obligation as set forth above, to notify the Department in writing as to the principal balance remaining due, if any, on such obligation; such request shall be made in writing and shall be mailed by the Commissioner to the last known address of record of such obligee -- the failure of such obligee to respond within 90 days from the date of receipt of such notice shall ipso facto be deemed as a consent by such obligee to any action that may be taken thereafter by the Commissioner with respect to any land covered by such mortgage, deed of trust, contract of sale; or other instrument evidencing an obligation.

**R12-5-533. Trespass on State Land**

- A.** Whoever knowingly and wilfully commits a trespass upon state lands, either by cutting down or destroying any timber or wood standing or growing thereon, or by carrying away any timber or wood therefrom, or by mowing, cutting, or removing any hay or grass thereof or therefrom or the grazing of livestock thereon, unless he shall have pending an application for the leasing of such lands, or by extracting or removing any oils, gases, coal, minerals, earth, rocks, fertilizer or fossils of any kind or description thereon or therefrom, or who, without right, injures or removes any building, fence or improvements thereon, or unlawfully occupies, plows or cultivates any of said lands, or negligently or wilfully exposes growing trees, shrubs, or undergrowth standing thereon to danger or destruction by fire, shall be guilty of a misdemeanor.
- B.** Whoever commits any trespass upon state lands, as above stated, shall also be liable in a civil action, brought in the name of the state in the county in which the trespass was committed, for three times the amount of the damage caused by such trespass, if the trespass was wilful, but for single damages only, if casual or involuntary. In the case of unfenced state land included within a fenced range, it shall be prima facie evidence of wilful trespass to permit the grazing of livestock thereon, unless the defendant shall have pending an application for the leasing of such lands. The damage referred to will be the rate per acre as found for the year for the appraised carrying capacities of the land. The Commissioner may also, without legal process, seize and take any product or property whatsoever unlawfully severed from such land, whether the same has been removed from such land or not, and may dispose of the product or property so seized in the manner prescribed by law for disposing of the products of state lands. The county officers of the several counties shall report to the Commissioner any trespass upon state lands which may come to their knowledge.
- C.** All lessees and permittees and holders of Certificates of Purchase are requested to inform the Commissioner in writing of any trespass committed on state lands, giving full information concerning such acts of trespass and by whom the same has been committed.
- D.** It shall be unlawful to utilize any type of motorized vehicle for travel on state trust lands except:
1. By the general public using public roads and highways that cross state trust lands;
  2. By lessees and permittees of the Department acting within the limits of their leases and permits, employees of public agencies acting within the scope of their duties, and any persons using military, fire, search and rescue, or law enforcement vehicles for emergency purposes; and
  3. By holders of valid Arizona hunting, fishing, or trapping licenses within the scope of such license:
    - a. On existing roads; or

- b. For cross-country travel without damaging croplands, improvements, or cultural or historic sites to pick up legally killed big game animals.
- E.** For the purpose of this Section, the following definitions apply:
1. "Cross-country travel" means travel over the countryside other than on existing roads.
  2. "Existing road" means any maintained or unmaintained way, road, highway, trail, or path that has been utilized for motorized vehicular travel and clearly shows or has a history of established vehicle use. A one-time use or a single set of vehicle tracks created by an off-highway vehicle does not constitute a road under this definition.
  3. "Motorized vehicle" means any vehicle deriving motive power from any source other than muscle or wind.
  4. "Public roads and highways" means the entire width between the boundary lines of every public road or highway maintained by the Federal Government, the state, the Department, or a city, town, or county if any part of the road or highway is generally open to the use of the public for purposes of vehicular travel.

**Historical Note**

**R12-5-534. Closing Land to Recreational Use**

- A.** The Commissioner may close Trust land in a specific area to recreational use for any of the following purposes when the Commissioner determines that it is in the best interest of the Trust and this state to restrict recreational access to reduce liability to the state or protect the public:
1. Dust abatement: To abate dust caused by the unauthorized use of motorized or non-motorized off-road vehicles on Trust land;
  2. Human-caused hazardous environmental conditions: Conditions posing a risk to the public health or safety resulting from human-caused environmental hazards. Examples include illegal dumping of toxic or hazardous materials, leaking or abandoned underground storage fuel tanks, abandoned or unauthorized landfills, abandoned airfields used for pesticide or herbicide storage, abandoned mine workings, and other sites with similar characteristics;
  3. Naturally-occurring hazardous conditions: To reduce the risk from naturally-occurring conditions posing a risk to public health or safety. Examples include fissures, sink holes, and flood-damaged areas; or
  4. Damaged Trust lands: For protection or remediation of Trust lands that have been damaged by toxic or hazardous materials, mining, fires, off-road vehicles, or other human-caused or natural occurrences.
- B.** The Commissioner shall, by order, close land only to the extent necessary to prevent unauthorized recreational access, and shall specify the period of time deemed necessary for closure.
- C.** The Department shall post the order of Trust land closure to recreation in the Department's Public Records Room at 1616 W. Adams, Phoenix, AZ 85007 and in the Department's District Offices. The Department shall maintain evidence of public notice of Trust land closure in the Department's records.

**R12-5-702. Agricultural Leases**

- A. Land subject to agricultural lease; term of lease
  1. All state lands classified as agricultural land are subject to agricultural leasing for such term as may be established by the Commissioner but in no event for a term of more than ten years.
    - a. The term of an agricultural lease of undeveloped agricultural land shall not exceed two years.
- B. Application for lease of lands not classified as agricultural. An application for an agricultural lease of lands not classified as agricultural shall be accompanied by an application for reclassification as provided by the general rules and regulations governing leasing of state lands.
- C. Application for agricultural lease
  1. Application for an agricultural lease shall be made upon the appropriate form as provided by the Department and in accordance with the general rules and regulations governing the leasing of state lands.
    - a. Each application shall be limited to the lands in one section or part thereof.
- D. Rental rates; appraisal
  1. No agricultural lease shall provide for a rental less than the appraised rental value of the leased land, and in no event a rental less than \$1.00 per acre per annum.

2. Minimum rental for each agricultural lease shall be \$10.00 per annum; provided, however, that the minimum rental of \$10.00 per annum shall apply to each section or portion thereof covered by the lease.

- E. Number of leases issued on farm unit
  1. Ordinarily, leases issued by the Department will combine into one lease, all contiguous and adjoining state agricultural lands within the lessee's farm unit.
    - a. It is recognized that such consolidation may work hardship on the lessee because of the resultant common due date of rentals.
      - i. A lessee thus affected and desirous of dividing his lease may make application to the Department to do so. Such application shall be in writing, setting forth the reasons therefor in such detail as to enable the Department to act with full knowledge of the circumstances.
      - ii. If such application is approved by the Department, division of the lease will be made in as reasonable a manner as possible, compatible with the best interests of the state.
- F. Agricultural lease form; provisions. Agricultural leases shall be made on the appropriate form provided by the Department, and shall contain such provisions and supplemental conditions as may be prescribed by the Commissioner in accordance with the provisions of the law and Department rules and regulations.
- G. Sequence of development and improvement of lands under agricultural development lease
  1. The first allowable acts of development on the leased premises under an agricultural development lease shall include only those necessary and incident to the acquisition of a water supply adequate for the development of the leased acreage.
  2. The placing of any improvement not necessary to the accomplishment of subsection (A) above shall not be approved until after the acquisition of such water supply has been accomplished or assured and in all cases only after proper application made and approval had in accordance with the provisions of the Department's rules and regulations in regard to permits to place improvements.
  3. When rules and regulations promulgated by state or federal regulatory agencies would affect state lands or crops grown thereon, and when, in his opinion, the best interests of the state would be so served, the State Land Commissioner may require the lessee to conform with these regulatory practices to prevent the deterioration of the soil or crops grown thereon. If the lessee fails to comply with the requirements of the Commissioner, the Commissioner may have the required remedial work accomplished and bill the lessee the amount due the Department. Failure by the lessee to pay for such remedial work will, after the proper notice, subject the lease to forfeiture for nonpayment and noncompliance.
- H. Application for renewal; right of renewal; developmental lease
  1. Application for renewal of an agricultural lease shall be made on the appropriate form provided by the Department and in accordance with the general rules and regulations governing leasing of state lands.
    - a. A separate application form shall be submitted for each section of land or portion thereof within the lease.
    - b. The filing fee for each application shall be the same as for an initial application.

### 37-103. Seal of state land department

The state land department shall have a seal, and it shall be affixed with the signature of the state land commissioner to all instruments of conveyance, leases, certificates and other official acts. The signature of the commissioner and seal of the department upon the original or copy of any paper, plat, map or document from the state land department shall impart verity thereto.

### 37-132. Powers and duties

#### A. The commissioner shall:

1. Exercise and perform all powers and duties vested in or imposed on the department and prescribe such rules as are necessary to discharge those duties.
2. Exercise the powers of surveyor-general except for the powers of the surveyor-general exercised by the treasurer as a member of the selection board pursuant to section 37-202.
3. Make long-range plans for the future use of state lands in cooperation with other state agencies, local planning authorities and political subdivisions.
4. Promote the infill and orderly development of state lands in areas beneficial to the trust and prevent urban sprawl or leapfrog development on state lands.
5. Classify and appraise all state lands, together with the improvements on state lands, for the purpose of sale, lease or grant of rights-of-way. The commissioner may impose such conditions and covenants and make such reservations in the sale of state lands as the commissioner deems to be in the best interest of the state trust. The provisions of this paragraph are subject to hearing procedures pursuant to title 41, chapter 6, article 10 and, except as provided in section 41-1092.08, subsection H, are subject to judicial review pursuant to title 12, chapter 7, article 6.
6. Have authority to lease for grazing, agricultural, homesite or other purposes, except commercial, all land owned or held in trust by this state.
7. Have authority to lease for commercial purposes and sell all land owned or held in trust by this state, but any such lease for a term longer than ten years for commercial purposes or any such sale shall first be approved by the board of appeals.
8. Except as otherwise provided, determine all disputes, grievances or other questions pertaining to the administration of state lands.
9. Appoint deputies and other assistants and employees necessary to perform the duties of the department and assign their duties subject to title 41, chapter 4, article 4 and require of them such surety bonds as the commissioner deems proper. The compensation of the deputy, assistants or employees shall be as determined pursuant to section 38-611.
10. Make a written report to the governor annually, not later than September 1, disclosing in detail the activities of the department for the preceding fiscal year and publish it for distribution. The report shall include an evaluation of auctions of state land leases held during the preceding fiscal year considering the advantages and disadvantages to the state trust of the existence and exercise of preferred rights to lease reclassified state land.
11. Withdraw state land from surface or subsurface sales or lease applications if the commissioner deems it to be in the best interest of the trust. This closure of state lands to new applications for sale or lease does not affect the rights that existing lessees have under law for renewal of their leases and reimbursement for improvements.

#### B. The commissioner may:

1. Take evidence relating to, and may require of the various county officers information on, any matter that the commissioner has the power to investigate or determine.
2. Under such rules as the commissioner adopts, use private real estate brokers to assist in any sale or long-term lease of state land and pay, from fees collected under section 37-107, subsection B, paragraph 1, a commission to a broker that is licensed pursuant to title 32, chapter 20 and that provides the purchaser or lessee at auction. The

purchaser or lessee at auction is not eligible to receive a commission pursuant to this subsection. A commission shall not be paid on a sale or a long-term lease if the purchaser or lessee is a political subdivision of this state.

3. Require a permittee, lessee or grantee to post a surety bond or any form of collateral deemed sufficient by the commissioner for performance or restoration purposes. The commissioner shall use the proceeds of a bond or collateral only for the purposes determined at the time the bond or collateral is posted. For agricultural lessees, the commissioner may require collateral as follows:

(a) As security for payment of the annual assessments levied by the irrigation district in which the state land is located if the lessee has a history of late payments or defaults. The amount of the collateral required may not exceed the annual assessment levied by the irrigation district.

(b) As security for payment of rent, if an extension of time for payment is requested or if the lessee has a history of late payments of rent. The collateral shall be submitted at the time any extension of time for payment is requested. The amount of the collateral required may not exceed the annual amount of rent for the land.

(c) A surety bond shall be required only if the commissioner determines that other forms of collateral are insufficient.

4. Withhold market and economic analyses, preliminary engineering, site and area studies and appraisals that are collected during the urban planning process from public viewing before they are submitted to local planning and zoning authorities.

5. Withhold from public inspection proprietary information received during lease negotiations. The proprietary information shall be released to public inspection unless the release may harm the competitive position of the applicant and the information could not have been obtained by other legitimate means.

6. Issue permits for short-term use of state land for specific purposes as prescribed by rule.

7. Contract with a third party to sell recreational permits. A third party under contract pursuant to this paragraph may assess a surcharge for its services as provided in the contract, in addition to the fees prescribed pursuant to section 37-107.

8. Close urban lands to specific uses as prescribed by rule if necessary for dust abatement, to reduce a risk from hazardous environmental conditions that pose a risk to human health or safety or for remediation purposes.

9. Notwithstanding subsection A, paragraph 4 of this section, authorize, in the best interest of the trust, the extension of public services and facilities either:

(a) That are necessary to implement plans of the local governing body, including plans adopted or amended pursuant to section 9-461.06 or 11-805.

(b) Across state lands that are either:

(i) Classified as suitable for conservation pursuant to section 37-312.

(ii) Sold or leased at auction for conservation purposes.

C. The commissioner or any deputy or employee of the department may not have, own or acquire, directly or indirectly, any state lands or the products on any state lands, any interest in or to such lands or products, or improvements on leased state lands, or be interested in any state irrigation project affecting state lands.

### 37-215. Appeal from decision of commissioner or board of appeals

- A. An appeal from a final decision of the state land commissioner relating to classification or appraisal of lands or improvements may be taken to the board of appeals by any person adversely affected by the decision. Appeals shall be taken by giving notice in writing to the commissioner within thirty days from the date notice of the decision is mailed to the last known post office address of the appellant by the commissioner.
- B. As a condition for filing an appeal of an order regarding an appraisal conducted under section 37-285 or a reappraisal required by the terms of a lease, the appellant, with the notice of appeal, shall pay to the department all amounts of the billed rental during the pendency of the appeal. The disputed amount shall be held by the state treasurer in an impound fund to be invested subject to the final disposition of the appeal, and the undisputed amount shall be credited to the appropriate trust. If the appellant fails to pay any amount before the deadline for filing notice of the appeal and fails to provide proof of payment of the amount with the notice of appeal, any notice of appeal to the board of appeals or to superior court shall not be accepted for filing and the decision of the commissioner is final. If billed rental becomes due during the pendency of an appeal and is not paid on or before the due date, the appeal shall be dismissed and the decision of the commissioner is final. If the commissioner's decision is upheld on final disposition of the appeal, the monies in the impound fund, with interest, shall be paid to the appropriate trust. If the commissioner's decision is not upheld on final disposition of the appeal, the monies in the impound fund, with interest, shall be credited first to the accrued rent determined to be due and the remainder shall be paid to the appellant.
- C. The board of appeals, within one hundred twenty days from the date of the notice of appeal, shall conduct a hearing in the county in which the major portion of the land involved in the appeal is located, unless otherwise stipulated by the parties to the appeal. The board shall render its decision upon the hearing within sixty days from the date of the hearing unless the parties to the appeal otherwise stipulate. The board shall make its findings and decision in writing and shall furnish a copy to all parties to the appeal. A majority of a quorum of the board may render the decision.
- D. All records of the board of appeals shall be kept in the offices of the state land department. The department shall provide clerical assistants to the board as necessary to perform its duties.
- E. Except as provided in section 41-1092.08, subsection H, the commissioner or any person adversely affected by a final decision of the board of appeals may seek judicial review pursuant to title 12, chapter 7, article 6.
- F. Any person adversely affected by a final decision of the commissioner not relating to the classification or appraisal of lands or improvements is entitled to a hearing pursuant to title 41, chapter 6, article 10.
- G. If no appeal is taken, the decision of the commissioner or the board of appeals, as the case may be, is final and conclusive.

37-233. Sale of state lands; restriction on sale of timber land; expense of sale

- A. On receiving an application, or on the commissioner's initiative, the state land department, under the rules of the department, may cause state lands to be sold if the sale of them is not prohibited by law.
- B. Land containing timber of a value which in the opinion of the commissioner should be sold separately from the land shall not be subject to sale until after the timber is sold.
- C. When an application is filed with the department for selection or sale of land under the laws of this state, and the department determines that the benefit to be derived from the selection or sale is less than the expense involved, the commissioner may accept from the applicant an amount of money sufficient to pay the expense incidental to the selection or sale. If the applicant fails to secure a lease after selection of land, or fails to purchase land after bidding for it, the successful lessee or purchaser shall reimburse the original applicant for all funds so advanced.

37-244. Certificate of purchase; conditions

A. Upon compliance by a purchaser of state lands with the requirements of this article, the department shall make and deliver to the purchaser a certificate of purchase, which shall set forth:

1. The name of the purchaser.
2. A description of the entire tract of land purchased.
3. The amount paid.
4. The amount paid for improvements, if any.
5. The amount remaining due.
6. The date when each of the deferred payments falls due, the amount of each deferred payment and the rate of interest on the first deferred payment.
7. An agreement by the purchaser that he will pay taxes, water assessments and other charges which may be assessed against the land.

B. Each certificate of purchase shall be signed by the commissioner or his deputy and by the purchaser, and shall contain the following covenants in addition to any others imposed pursuant to section 37-132:

1. That the purchaser will not permit any loss or commit any waste to or upon the lands.
2. That any right to the use of water appurtenant to the lands shall be maintained to prevent the forfeiture or abandonment of the right.
3. That all taxes levied against the land and all construction and maintenance charges of a United States reclamation project from which the lands may receive water will be promptly paid.
4. That all things will be done to insure the acquisition and maintenance of the rights and the use of the water, except if the successful irrigation of lands susceptible to irrigation from works constructed or controlled by the United States government is not dependent upon the irrigation works it shall not be necessary to acquire and maintain water rights on such lands.

C. After sale of state land and issuance of a certificate of purchase, the department shall not issue a certificate of purchase that covers only a part of the entire tract of land sold for the purposes of obtaining a patent to part of the land.

37-246. Sale of natural products of lands by purchaser under certificate of purchase; disposition of proceeds; violation; classification

- A. If a purchaser of state land under a certificate of purchase sells or contracts to sell directly or indirectly any sand, gravel, stone or other natural product from the land described in the certificate, he shall file with the department within ten days after the sale or making the contract, a statement under oath on a form furnished by the department, of the kind and quantity of natural product sold, the terms of the sale, and the amount received or to be received therefor.
- B. Upon receipt of any money from a sale or contract described in subsection A, the holder of the certificate shall promptly pay the money to the department. The money shall be applied by the department first to payment of the interest accrued under the certificate, and the remainder, if any, to payment of the principal amount owing on the land described in the certificate. If the payment is sufficient to discharge the total debt owing under the certificate, with accrued interest thereon, the department shall issue a patent to the purchaser as provided in this article.
- C. The department shall cancel the certificate of purchase of a purchaser of state land who fails or refuses to make or knowingly makes any false statement in any statement required by subsection A, or who fails or refuses to pay to the department any money required to be paid by subsection B. The land described in the certificate, together with all improvements thereon, shall revert to the state, and all amounts theretofore paid for the land by the purchaser shall be forfeited to the state.
- D. A person who violates a provision of this section is guilty of a class 2 misdemeanor.

### 37-251. Issuance of patents for state lands

- A. On filing the certificate of purchase, together with evidence of full payment of principal and interest, for the entire tract of land sold, and evidence that all terms and conditions of the certificate of purchase have been satisfied, the department shall issue to the purchaser a patent under the seal of this state, signed by the governor and countersigned by the secretary of state.
- B. On application by the purchaser, a patent for less than the entire tract may be issued to the purchaser if the commissioner finds that it is in the best interest of the applicable trust, subject to the following:
1. The parcel to be patented may consist of one or more pieces of land, described either by metes and bounds or by legal subdivision.
  2. Before any parcel less than the entire tract is patented, the department shall determine that the remaining lands are of greater value than the unpaid balance of the certificate of purchase and that the remaining lands have development potential independent of the acreage that is being patented. Before patenting, the commissioner shall require to be paid an amount, on the lands to be patented, in excess of the purchase price per acre of the entire tract until the total price of the entire tract has been paid. In establishing the amount to be paid for the partial patent, the commissioner shall take into account the amount of the down payment made on the entire tract. This paragraph does not affect certificates of purchase issued before September 30, 1988.
  3. When paid, the partial purchase price shall be credited on the total purchase price stated in the certificate of purchase. The department may issue a supplement to the certificate of purchase deleting the land patented and reducing the amount of each of the remaining annual installments to that amount which, when all installments are paid in full, will discharge the entire unpaid balance due on the original certificate of purchase.
- C. Any land patented under this section is subject to existing valid rights-of-way.
- D. If the purchaser has died and the land described has been sold and confirmed by order of court, the patent shall be issued to the purchaser to whom confirmation of sale was made. If the estate of the deceased person is distributed by order of the court, the patent shall be issued to the heirs of the deceased person, or to the person to whom the lands are distributed. Patents issued to a deceased person shall inure to the benefit of the heirs or assigns of the deceased person.
- E. If an assignment of the certificate of purchase has been filed with and approved by the department, the patent shall be issued to the assignee, and if proper evidence of a transfer of the certificate by operation of law is filed with the department, the patent shall be issued to the transferee.
- F. A record of all patents issued shall be kept in the records of the department.

### 37-255. Sale of or mortgage or other lien on interest of lessee or holder of certificate of purchase

A. The interest of the holder of any certificate of purchase of state land, or any lease or permit on state land, shall be subject to sale, mortgage or other lien to the same extent as patented land, without prejudice to the state. A contract of sale, mortgage or other lien affecting any certificate of purchase, lease or permit on state land shall not become effective unless a copy of the document is filed with the state land department. When filed, no assignment of the certificate of purchase, lease or permit affected shall be made without notice to and the consent of all parties.

B. Upon foreclosure of a contract of sale, mortgage or other lien filed with the department as provided in subsection A of this section, the department shall assign the instrument in question to the party entitled to the instrument, if all taxes, rent and assessment payments are current.

C. If a cancellation or assignment order is issued pursuant to section 37-247, 37-281.04 or 37-289, the cancellation or assignment order shall not become final until any foreclosure action by a party registered with the department as a mortgagee or other lienholder of the purchaser's interest or the lessee's interest is finally resolved, if the mortgagee or lienholder does both of the following:

1. Within thirty days of the date of issuance of a notice of default, files written notice with the department of its intent to proceed with a foreclosure action.

2. Within one hundred twenty days of the date of issuance of a notice of default, has commenced either a foreclosure action in court or a nonjudicial foreclosure of a deed of trust, and has provided the department with a certified copy of the complaint or other document that officially commences the foreclosure process, and thereafter prosecutes the foreclosure with reasonable diligence.

D. If a default notice has been sent to a purchaser pursuant to section 37-247, subsection A or to a lessee pursuant to section 37-289, subsection A, and the purchaser or lessee thereafter applies to assign the certificate of purchase or lease to a mortgagee or lienholder registered with the department, before the date a cancellation or assignment order becomes final and conclusive, the department shall approve the assignment if all taxes, purchase payments, rent and assessment payments are current and subject to the written consent of any other mortgagees or lienholders of record.

E. On proof that a lessee or purchaser has rejected a lease or certificate of purchase in a bankruptcy proceeding, the department shall issue a lease or certificate of purchase to the registered mortgagee or other lienholder in order of priority on application by the mortgagee or other lienholder within thirty days after the rejection if all taxes, purchase payments, rent and assessment payments are current. Any lease or certificate of purchase that is issued pursuant to this subsection shall be for the remaining term and on the same conditions and priority as the rejected lease or certificate of purchase.

37-281. Lease of state lands for certain purposes without advertising; terms and conditions

A. All state lands are subject to lease as provided in this article for a term of not more than ten years for agricultural, commercial and homesite purposes, without advertising. The leases shall be granted according to the constitution, the law and the rules of the state land department.

B. No lease shall be granted as provided by this section without application. All applications for leases shall be made upon forms prepared and furnished by the department, shall be signed and sworn to by the applicant or his authorized agent or attorney and shall be filed with the department. In lieu of signing and swearing to the application before a notary public or other person authorized to take acknowledgments, the applicant may affix his signature to the application, accompanied by a certification, under penalty of perjury, that the information and statements made in the application are to the best of his knowledge and belief true, correct and complete, and the application shall be accepted as duly executed.

C. Any material false statement or concealment of facts made by an applicant, his authorized agent or his attorney in the application to lease, which, if known to the department, would have prevented issuance of the lease in the form or to the person issued, shall be grounds for cancellation of a lease issued upon such application.

D. No lessee shall use lands leased to him except for the purpose for which the lands are leased.

E. No lessee shall sublease lands leased to him without written permission of the state land department.

### 37-284. Conflicting short-term lease applications; preference rights

- A. A conflicting application for an existing lease for a term of not more than ten years shall be filed at least two hundred seventy days but not more than one year before the expiration date on the lease. The conflicting application must be accompanied by a list of nonremovable improvements on the leased lands on file with the department, including fences. The conflicting applicant must post a surety bond or other form of security in the amount of two thousand five hundred dollars or twenty per cent of the rental payments over the term of the current lease, whichever is greater. The department shall calculate the amount of the security within thirty days after receiving the conflicting application, and the conflicting applicant must post the security within thirty days after the department determines the amount. If the conflicting applicant is unsuccessful or withdraws the application, the department shall return the security to the applicant. If the conflicting applicant is successful, the security shall be applied against the value of the nonremovable improvements.
- B. When the department receives a conflicting application, the department shall give the existing lessee thirty days' notice to file an application for renewal pursuant to this section.
- C. If two or more applicants apply to lease the same land for a term of not more than ten years, the department shall approve the application of the one who, after investigation or hearing, appears to have the best right and equity to the lease. The order of filing shall not be a controlling factor in deciding who is entitled to the lease. If it appears that none of the applicants has any right or equities superior to those of another that would outweigh an offer of additional rent, and if it is in the best interest of the trust, the department, at a stated time and after due notice to all applicants, may receive bids submitted in accordance with rules of the department. If one of the competing applicants is the existing lessee who has a preferred right of renewal pursuant to section 37-291, the department shall extend the preferred right of renewal to the existing lessee if the existing lessee offers a bid matching the highest bid. The department shall approve the application of the bidder who in all respects is eligible to receive a lease upon the land and will pay the highest annual rental, or the department may reject all bids.
- D. Before the department issues a lease to the successful bidder, the successful bidder shall pay one full year of rent and, unless all parties agree to an extended payment schedule, the appraised value of any nonremovable improvements pursuant to section 37-322.01. If the successful bidder does not pay one full year of rent or the value of any nonremovable improvements within thirty days after the department requests payment, the department may offer the lease to the next best bidder. A lease that is issued pursuant to this section shall require the lessee to pay annual rent that is equal to the amount of annual rent bid, unless a reappraisal or rental adjustment requires a higher amount.
- E. Any person residing upon contiguous land for which the person has an allowed United States homestead entry or for which the person has received a patent from the United States upon a homestead entry, upon application, shall have a preferred right to lease the amount of contiguous state land necessary for personal use.
- F. Any person lawfully occupying any lands, the title to which is acquired by the state by operation of law, shall have a preference right to lease the occupied land provided application to do so is made within thirty days from and after written notice by the department to such occupant of the acquisition of title.

37-286. Execution of leases by land department; covenants; assignment of lease by lessee

A. Leases shall be signed by the commissioner and sealed with the seal of the state land department, and shall contain covenants that the lessee will not permit any loss, cause any waste in or upon the land, or cut, waste or allow to be cut or wasted, any timber or standing trees thereon without written consent of the department, except for fuel for domestic uses, or for necessary improvements on the land, and that the lessee will surrender peaceable possession of the lands at the expiration of the lease. Nothing in this section shall be construed to permit the cutting of saw timber for any purpose without the written consent of the department.

B. A lessee of state lands who is not in default in rent, and who has kept and performed all the conditions of his lease, may, with the written consent of the department, assign the lease, but a lessee who assigns a holding lease shall pay to the department one-half of the consideration received for the assignment.

37-288. Default on short-term lease; forfeiture and cancellation of lease; extension of time for payment; penalty and interest on delinquent rental; automatic termination for arrearage

- A. If a lessee of a lease of ten years or less defaults in a payment of rent, as provided in the lease, or fails to comply with a condition, covenant or requirement of the lease, the lease and the lessee's rights under the lease are subject to forfeiture and cancellation as provided by this section and section 37-289.
- B. If the lessee of a lease of ten years or less fails to pay the rent when due, the department may extend the time for payment an additional period not to exceed ninety days. The department shall not extend the period for payment of rental more than three times in one lease year and in no event for more than two hundred seventy days.
- C. There shall be added to the delinquent rental a penalty and delinquent interest. The rate of interest on delinquent rent shall be set by the state treasurer. The penalty shall be the greater of a minimum processing cost as determined by the commissioner or five per cent. The delinquent rent, penalty and interest shall be a lien on the improvements, crops and property on the land.
- D. If, on a lease of ten years or less, the annual rental at any time is one calendar year in arrears from the date the rental payment was due, the lease shall automatically terminate and the department shall proceed to cancel it on the records of the department.

37-294. Recovery of lands unlawfully held

A. Nothing in this article shall confer any rights upon occupants or lessees of lands who have not executed and received a lease under the provisions of this article.

B. The state land department shall examine into the rights of all persons in possession of state lands, or improvements thereon, or claiming compensation for improvements on the lands. If it is determined that any person is unlawfully in possession of such lands, or is unlawfully claiming compensation for improvements, the department shall bring an action to recover possession of the lands and improvements, or otherwise establish the rights of the state.

### 37-301. Procedure for protesting auctions

A. Any person who desires to protest any of the terms of a proposed auction for the sale of state land, the lease of state land, or the sale of natural products of state land shall file a written protest with the department within thirty days after the first day of publication of the terms of the proposed auction. All protests shall state specifically the term or terms of the auction to which objection is made and state specifically the reasons for each objection. An objection not specifically stated or timely made is deemed to be waived.

B. At his discretion, the commissioner, on ten days' notice, may order a hearing on any protest. Whether or not a hearing is held, the commissioner, not less than seven days before the auction date, shall enter a final order determining the validity of the protests. If the commissioner determines that a protest is correct, the pending auction shall be cancelled. If the commissioner determines that the grounds of protest are incorrect, the auction shall proceed at the time and place for which it was noticed.

C. Notwithstanding section 37-133, the commissioner's order granting or denying a protest is subject to review only through a special action to the court of appeals or supreme court, served on the department within twenty days after the commissioner's order is entered. Notwithstanding any law or rule applicable to other orders of the commissioner, no motion for rehearing is required before seeking review of an order of the commissioner rejecting a protest to the terms of an auction. Any rehearing motion shall be filed within ten days of the entry of the commissioner's order. Unless otherwise ordered by the commissioner, the filing of a motion for rehearing does not extend the time for seeking review of the commissioner's order granting or denying a protest. Unless the commissioner orders a rehearing within five days after the rehearing motion is filed, the rehearing motion is deemed denied. If a special action review is not sought within twenty days after the commissioner enters his order granting or denying a protest, or if the commissioner's order is sustained on special action review and the decision becomes final, no further action contesting the legality of the terms of the auction may be brought.

37-501. Trespass on state lands; classification

A person is guilty of a class 2 misdemeanor who:

1. Knowingly commits a trespass upon state lands, either by cutting down or destroying timber or wood standing or growing thereon, by carrying away timber or wood therefrom, by mowing, cutting, or removing hay or grass thereon or therefrom, or by grazing livestock thereon, unless he has a lease or sublease approved by the department for the area being grazed.
2. Knowingly extracts or removes oil, gas, coal, mineral, earth, rock, fertilizer or fossils of any kind or description therefrom.
3. Knowingly without right injures or removes any building, fence or improvements on state lands, or unlawfully occupies, plows or cultivates any of the lands.
4. With criminal negligence exposes growing trees, shrubs or undergrowth standing on state lands to danger or destruction by fire.

37-502. Damages in civil action for trespass on state lands; seizure of products; report of trespasses

- A. Whoever commits any trespass upon state lands as defined by section 37-501 is also liable in a civil action brought in the name of the state in the county in which the trespass was committed, for three times the amount of the damage caused by the trespass, if the trespass was wilful, but for single damages only if casual or involuntary.
- B. When unfenced state land is included within a fenced range, it is prima facie evidence of wilful trespass to permit the grazing of livestock thereon, unless the person has a lease or sublease approved by the department for the area being grazed.
- C. The damage provided for in this section is the rate per acre as determined for the year for the appraised carrying capacity of the lands.
- D. The state land department may also, without legal process, seize and take any product or property unlawfully severed from the land, whether it has been removed from the land or not, and may dispose of the product or property so seized in the manner prescribed by law for disposing of products of state lands.
- E. The county officers of the several counties shall report to the department any trespass upon state lands which comes to their knowledge.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

---

**MEETING DATE:** December 6, 2022; June 6, 2023; February 6, 2024; March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** January 16, 2024

**SUBJECT: STATE LAND DEPARTMENT**  
Title 12, Chapter 5, Articles 7-9, 11

---

### Summary

As a reminder, the State Land Department (Department) originally submitted this Five-Year Review Report (5YRR) for Title 12, Chapter 5, Articles 7-9 and 11 on July 29, 2022. Therein, the Department identified rules that were inconsistent, not clear, concise, and understandable, not enforced as written, and overly burdensome. However, the Department did not put forth a proposed course of action to address the problematic rules. At the November 1, 2022 Council Meeting, the Council voted to return the 5YRR for the rules in Title 12, Chapter 5, Articles 7-9 and 11 in whole pursuant to A.R.S. § 41-1056(C) for its lack of a proposed course of action to address issues identified in the report under A.R.S. § 41-1056(A). At the December 6, 2022 Council Meeting, the Council voted to direct the Department to resubmit the 5YRR for Title 12, Chapter 5, Articles 7-9 and 11 with an updated proposed course of action by July 1, 2023.

On May 22, 2023, Council staff received an extension request from the Department to resubmit the 5YRR for Title 12, Chapter 5, Articles 7-9 and 11 by November 1, 2023. At the June 6, 2023 Council Meeting, the Council voted to grant the extension to resubmit the 5YRR for Title 12, Chapter 5, Articles 7-9 and 11 by November 1, 2023. On October 27, 2023, the Department resubmitted the revised report which is before the Council now for consideration.

This 5YRR relates to eleven (11) rules in Title 12, Chapter 5, Articles 7-9 and 11. These articles cover the following topics:

- **Article 7** governing Special Leasing Provisions contains three rules: agricultural leases (R12-5-702), grazing leases (R12-5-703), and commercial leases (R12-5-705)
- **Article 8** governing Right-of-way contains two rules: one pertaining to rights-of-way generally (R12-5-801) and one specifically for Reservoir, Dams, and Other Sites (R12-5-802).
- **Article 9** governing Exchanges contains five rules pertaining to scope of rules (R12-5-901), definitions (R12-5-902), application (R12-5-904), maps and photographs (R12-5-910), and controversy as to title or leasehold rights (R12-5-918).
- **Article 11** governing Special Use Permits (also known as Special Land Use Permits) contains one rule (R12-5-1101 Policy; Use of Lands).

The Department's previous review of these rules, which was approved by the Council in January 2018, stated, at that time, that many of the rules should be amended. Specifically, the Department stated that it recognized the flaws within the rules and planned to amend them to strike language that is inconsistent with statute, agency operations, or the Arizona Constitution. Also, the Department stated in the previous report that language should also be added and modified to improve clarity and conciseness. The Department indicated in the previous report that it intended to begin the rulemaking process to amend the rules by March 2019. The Department indicates the prior proposed course of action was not completed.

### **Proposed Action**

In the current report, the Department indicates it intends to amend the rules to eliminate inconsistencies and redundancies and to articulate the Department's operations. The Department indicates the rules will be amended in April 2024.

Council staff notes, the Council previously voted, pursuant to A.R.S. § 41-1056(E), to require the Department to propose amendments to the rules in Title 12, Chapter 5, Articles 7-9 and 11 that the Department's analysis in its 5YRR demonstrated were materially flawed by being not authorized by statute, inconsistent with other statutes, rules, or agency enforcement policies, not clear, concise, and understandable, and not imposing the least burden to persons regulated by the rule as necessary to achieve the underlying regulatory objective of the rule. The Department's current deadline to submit that rulemaking is April 30, 2024.

#### **1. Has the agency analyzed whether the rules are authorized by statute?**

The Department cites both general and specific statutory authority for these rules.

**2. Summary of the agency's economic impact comparison and identification of stakeholders:**

The Department states that there is no current Economic Impact Statement (EIS) to compare with a previous EIS, but offers the following statistics and analysis:

As of Fiscal Year 2021, the Department held: 348 Agricultural Leases covering 157,920 acres of Trust Land which generated \$4,265,005 in income; 1,196 Grazing Leases covering 8,344,576 acres which generated \$2,749,775 in income; 273 Commercial Leases covering 70,274 acres which generated \$31,888,877 in income; 7,818 Right-of-Way Grants covering 128,567 acres which generated \$9,614,946 in income; and 652 Use Permits covering 600,900 which generated \$4,419,661 in income.

The rental payments from all of the above leases are deposited into funds managed by the State Treasurer and distributed directly to the beneficiaries on a monthly basis. In addition to the direct impacts to the 13 beneficiaries of Trust Land, activities on Trust Lands provides opportunities for the labor force and businesses that supply services and goods directly, as well as support for local businesses that sell services, consumer goods, groceries, and other personal and family needs. Economic development is increased by rights-of-way that provide for the development of roads and utilities, and taxes are paid by the companies and individuals who engage in activities on Trust Land. The taxes are then utilized by the State, county, and local governments to support schools, create infrastructure, and provide government and community services.

**3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The Department states that, while the rules need improvement to conform with updated Department operations, their general applicability and existence are necessary to provide transparency in their respective areas and articulate the land disposition types and programs that the Department executes.

**4. Has the agency received any written criticisms of the rules over the last five years?**

The Department indicates it has not received any written criticisms of the rules over the last five years and since the last 5YRR was submitted to the Council.

**5. Has the agency analyzed the rules' clarity, conciseness, and understandability?**

The Department indicates the rules are generally clear, concise, and understandable except for the following rules:

- **R12-5-702:** The Department indicates this rule has redundancies. Specifically, subsection (C)(1) is consistent with yet redundant of A.R.S. § 37-281(B); subsection (F)

is consistent with, yet redundant of, A.R.S. § 37-285; and subsection (H)(1) is consistent with, yet redundant of, statute.

- **R12-5-703:** The Department indicates subsection (A) is not concise because it is unnecessary; subsection (B) is not concise because the first portion is addressed in statute; and subsection (C) is not concise because it is redundant of the Enabling Act.
- **R12-5-705:** The Department indicates the rule is not clear, concise, or understandable as it is redundant or inconsistent with statute, and conflicts with the Department's standard work and lease instruments. Specifically, the Department notes R12-5-705(C) is inconsistent in that it specifies only one section may be applied for per application for an initial lease whereas the Department currently allows new and renewal applications to include an entire ranch unit covering multiple sections, while a fee is charged for each section covered in the application pursuant to R12-5-1201.
- **R12-5-801:** The Department indicates subsections (A)(1) and (A)(2) are redundant of statute and subsection (B) is not concise in that sub-subsection (1) is unnecessary and sub-subsection (2) would best be served by being relocated to subsection (C). Also, subsection (C)(1)(a) is not concise in that some of the language is overly restrictive. The Department indicates much of Subsection (C)(3) is not concise or clear; subsection (C)(5)(a) is not clear in that it does not refer to the regulation that promulgates Department-wide fees; and proposed changes to subsections not mentioned above may benefit from style or language changes to aid clarity and conciseness.
- **R12-5-802:** The Department indicates subsection (D) is partially not concise, as it could be combined with subsection (C) to address initial and renewal applications at the same time; subsection (E) is not clear and could benefit from redrafting; and subsection (I) is not clear nor concise and could benefit from redrafting.
- **R12-5-902:** The Department indicates the rule is clear and understandable, but it is not concise as three definitions - Commissioner, Department, and Selection Board - are redundant of statute and one definition - private owner - does not need to be defined as a legal term of art.
- **R12-5-1101:** The Department indicates the rule is not clear, concise, and understandable because the preamble publishes policy, which is improper; the preamble contains language which is redundant of language elsewhere within the rule; subsections (6) and (8) are unnecessary; subsection (9) is not clear not concise and should be redrafted; subsection (10) is partially not concise where "advertising display" is defined, and should be stricken, while the remainder of the subsection can be transferred to within subsection (9), except for (10)(f); and subsection (11) is unnecessary and redundant.

6. **Has the agency analyzed the rules' consistency with other rules and statutes?**

The Department indicates the rules are consistent with other rules and statutes except for the following rules:

- **R12-5-702:** Subsection (B) is inconsistent with statute as the rule requires applicants to submit an application to have lands reclassified, but no such application is needed or taken if lands are to be reclassified as agricultural lands (*see* A.R.S. § 37-212 which authorizes the Commissioner to reclassify lands in the best interest of the Trust and of the

State); Subsection (C)(1)(a) is inconsistent with agency operations, as an applicant may currently apply to lease multiple sections of land using one application despite the restriction within the subsection (N.B. Fees are charged on a per section basis in accordance with A.A.C. R12-5-1201 despite the use of one application form.); Subsection D is inconsistent with itself and with statute: Sub-subsections (1) and (2) may possibly conflict with each other, as (D)(1) applies a minimum of \$1.00 per acre per year while (D)(2) applies a minimum rental of \$10.00 a year to each section or portion of a section. So, for example, under (D)(1), leasing 639 acres within a single section equals \$639.00 (\$1 x 639 acres, while under (D)(2), it amounts to \$10.00 (\$10.00 per section). Further, A.R.S. § 37-132(A)(5) authorizes the Commissioner to appraise state lands for leasing; A.R.S. § 37-285(A) requires agricultural leases to have annual rents not less than the appraised rental value subject to adjustment each year, with a minimum cap of \$0.05 per acre per year; and A.R.S. § 37-282.01(G) allows the Commissioner to conduct mass appraisals at their discretion – given market conditions, and other variable conditions that may warrant mass appraisal without a specified timeframe; (H)(1)(a) is inconsistent with agency operations, as it requires a separate renewal application to be submitted for each section, or portion thereof, of land, whereas currently only one application form, and (H)(1)(b) is inconsistent with the filing fees delineated in A.A.C. R 12-5-1201.

- **R12-5-703:** Subsection (B) is not inconsistent because it conflicts with the Department's mandate to determine the highest and best use of the land held in trust; Subsection (D) is inconsistent with agency operations because the Department does not receive applications to petition for reclassification of lands, but rather reclassifies the lands *sua sponte*; Subsection (H) is inconsistent with agency operations; and Subsection (M) is, in part, inconsistent with agency operations and inaccurate.
- **R12-5-705:** Subsection (B) is inconsistent with agency operations in that the Department does not impose age- or citizen-based restrictions on its applicants; Subsection (C) is inconsistent in that: 1) it specifies only one section may be applied for per application for an initial lease whereas the Department currently allows new and renewal applications to include an entire ranch unit covering multiple sections, while a fee is charged for each section covered in the application pursuant to R12-5-1201; 2) it requires the use of forms, i.e., Land Division forms, that no longer exist; and 3) it indicates that if a renewal applicant has an up-to-date and current statement of his holdings within the ranch unit on file with the Department then completion of detailed questions concerning holdings on the application form are not required to be filled out, when in actuality, the applicant must provide a map of the leased land including any controlling interests in conjunction with the lease at the time of the renewal of the lease; Subsection (E) is inconsistent with statute and agency operations in that it requires applicants to apply to have lands reclassified as Grazing Lands but no such application is needed or taken if lands are to be reclassified as Grazing Lands (see A.R.S. § 37-212 which authorizes the Commissioner to reclassify lands in the best interest of the trust and of the state); Commissioner based on the recommendation of the grazing land valuation commission (See A.R.S. § 37-285); Subsection (G) is inconsistent with agency operations because it permits the splitting of a Grazing Lease into many leases to dissect due dates and payments of a large Grazing Lease into more palatable portions, which amounts to a hardship exception to the common anniversary date practice which the Department follows without exception (i.e.

all Grazing Lease rents are due in March); Subsection (H) is inconsistent with agency operations because the Land Division and its corresponding forms no longer exist; Subsection (K) is inconsistent with A.R.S. § 37-283(A) and the provisions of Department Grazing Leases; Subsection (L) is inconsistent with agency operations, as crops may not be grown on Grazing Lands under a Grazing Lease; Subsection (N) is inconsistent with agency operations as to the prescribed form which no longer exists, but the intent is consistent; and Subsection (O) is partially inconsistent with agency operations, as Grazing Leases are limited to grazing purposes.

- **R12-5-801:** Subsection (C)(2)(b) is inconsistent with agency operations as the agency does not require an application for each county crossed because it would be overly burdensome for the applicant and for the agency to implement; Subsection (C)(3)(xi) is inconsistent with agency operations and conflicts with (C)(4)(a); Subsection (C)(8)(c) is inconsistent with agency operations because the commencement date is not the date that the instrument is mailed to the applicant, as stated, but rather it is the date of in-house review, or, if required, the day after the review by the Board of Land Appeals or of the auction; Subsection (C)(8)(c) is inconsistent with agency operations; Subsection (D)(7)(a) is inconsistent with agency operations as the Department does not require this; and Subsection (E)(1)(a) is inconsistent with agency operations because the Department does not require applications to place improvements for Right-of-Way grantees.
- **R12-5-802:** Subsection (B) is inconsistent with A.R.S. § 37-461(C) in that site leases in excess of ten years are not, in fact, required to be advertised and sold at public auction – it is fifty years; Subsection (C) is inconsistent with agency operations, and overly burdensome to the applicant. The agency has a standardized process for notifying surface and subsurface lessees of applications in queue, thereby avoiding confrontational interactions with existing and prospective users; Subsection (D) is partially inconsistent with agency operations, as non-use is not addressed in the way iterated, and the lease instruments don't authorize uses/purposes outside the scope/lease type; Subsection (F) is not consistent with agency operations and within itself, as the application of it could amount to two separate findings; and Subsection (H) is inconsistent with agency operations in that the Department requires an amendment application to be filed if a different use is contemplated other than that which is included in the ROW grant.
- **R12-5-902:** The rule is inconsistent with statute. The statute creating the Selection Board and referenced within this rule, A.R.S. 37-202, appoints the Governor, the State Treasurer, and the Attorney General to the Selection Board. This rule, however, has the Land Commissioner in place of the State Treasurer.
- **R12-5-904:** The rule is mostly consistent with statute, except for the age and residence requirements mentioned, which was removed from § 37-604(B)(1)(a).
- **R12-5-1101:** Subsection (I) is not consistent with agency operations as the Department does not age test or citizen-test its applicants; Subsection (2) is inconsistent with agency operations as the Department no longer has a "Land Division form," though it does provide application forms; Subsection (5) is inconsistent with the minimum fee charged by the Department; Subsection (10)(f) is inconsistent with agency operations because these types of signs are not permitted without application and a subsequent permit; Subsection (12)(a) is inconsistent with agency operations because it conflicts with A.A.C. R12-5-1201; Subsection (12)(b) is inconsistent with A.R.S. § 37-132; and Subsection

(16) is inconsistent with agency operations because the Department does not legalize a sign installed and maintained in trespass.

**7. Has the agency analyzed the rules' effectiveness in achieving its objectives?**

The Department indicates some rules are ineffective in achieving the Department's objectives when they are inconsistent with statute and with the Department's operations as outlined above. Furthermore, the Department indicates R12-5-801 is not effective in that subsections (C)(5)(c)(iii) and (D)(8) articulate overly burdensome payment methods for customers, specifically, municipalities and other government entities.

**8. Has the agency analyzed the current enforcement status of the rules?**

The Department indicates that the rules are enforced when not inconsistent with statute or other rules. However, if the rule is inconsistent with statute, statutes are followed. For example, rule R12-5-802, where site leases in excess of fifty (50) years are required to be advertised and sold at public auction, rather than the current rule language which states ten (10) years. If the rule is inconsistent with other rules, the newer rule is followed, such as is the case with filing fees. For example, rules indicating fees charged are superseded by fees outlined in rule R12-5-1201.

**9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The Department indicates there are no federal laws applicable to these rules.

**10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The Department indicates the rules reviewed pursuant to this report were adopted before July 29, 2010.

**11. Conclusion**

This 5YRR from the Department was previously considered by the Council, returned in whole, and scheduled for resubmission, which is now before the Council. As indicated above, the Department has identified rules that are not clear, concise, understandable, consistent, effective, or enforced as written. The Department indicates it intends to amend the rules to eliminate inconsistencies and redundancies and to articulate the Department's operations. The Department indicates the rules will be amended in April 2024. The Council has also previously voted, pursuant to A.R.S. § 41-1056(E), to require the Department to propose amendments to the rules in Title 12, Chapter 5, Articles 7-9 and 11 by April 30, 2024.

Council staff recommends approval of this report.

CHAPTER 5 – State Land Department**

**Article 7 – Special Leasing Provisions**

**Article 8 – Right-of-way**

**Article 9 – Exchanges**

**Article 11 – Special Use Permits**

*Originally Submitted July 29, 2022*

*Revised and resubmitted November 1, 2023*

## **Abstract of Rules Analyses**

The Administrative Procedures Act (“APA”) mandates a periodic review of agency rules. A.R.S. § 41-1056 provides criteria by which an agency must examine each rule, compile the examination into a report, and submit the report to the Governor’s Regulatory Review Council (the “Council”) for review. The Arizona State Land Department’s (the “Department”) rules are published in the Arizona Administrative Code (“A.A.C.”) Title 12, Chapter 5, Articles 1 through 25 and can be found on the Arizona Secretary of State’s website. The Department was scheduled to file a review of its rules under Title 12, Chapter 5, Articles 7, 8, 9 and 11 with the Council by the end of July 2022. The Department completed this report, which was subsequently rejected by the Council and returned to the Department. The Department has amended this report in light of the comments and concerns reflected by the Council.

The Department while not a regulatory agency, is a public agency that should ensure that the public has clear understanding and consistent guidelines for State Trust land (“STL”) transactions. The Department serves as the trustee of the State’s 9.2 million acres of STL and the appurtenant natural resources. The trust status of STL imposes obligations and constraints that would not apply if the State held the land outright. These obligations and constraints are outlined in the extensive and detailed provisions of Sections 24-30 of the State’s Enabling Act, Article X of the Arizona Constitution, statutes in A.R.S. Titles 27 (sub-surface) and 37 (surface estate), and a century of case law.

STL, managed for its highest and best use while also preserving its finite natural resources, is governed by the laws of the Enabling Act, Constitution, and judiciary of this state. The Commissioner is granted broad statutory discretion in her decision-making powers and authorities, which are necessary for the management of a perpetual trust in a time of increasing demand for all types of land uses. The Department also has a public duty to ensure that its expectations for applicants, lessees and permittees are clear and consistent. To that end, the Department is proposing amendments to some of our rules within Title 12, Chapter 5 in order to conform with changes to statutes and internal processes and to clarify language and drafting nuances where necessary.

Within this report, the Department evaluated 11 separate rules relating to Articles 7, 8, 9 and 11. Article 7 governing Special Leasing Provisions contains three rules: agricultural leases (R12-5-702), grazing leases (R12-5-703), and commercial leases (R12-5-705). Article 8 governing Right-of-way contains two rules: one pertaining to rights-of-way generally (R12-5-801) and one specifically for Reservoir, Dams, and Other Sites (R12-5-802). Article 9 governing Exchanges contains five rules pertaining to scope of rules (R12-5-901), definitions (R12-5-902), application (R12-5-904), maps and photographs (R12-5-910), and controversy as to title or leasehold rights (R12-5-918). Article 11 governing Special Use Permits (also known as Special Land Use Permits) contains one rule (R12-5-1101 Policy; Use of Lands).

### **Legend of Factors Used in Analysis pursuant to A.A.C. R1-6-301(A)**

Each rule required to be reviewed in this report has been analyzed according to the following factors:

1. General and specific authority, including any statute that authorizes the agency to make rules;
2. Objective of the rule, including the purpose for the existence of the rule;
3. Effectiveness of the rule in achieving the objective, including a summary of any available data supporting the conclusion reached;
4. Consistency of the rule with state and federal statutes and other rules made by the agency;
5. Agency enforcement policy, including whether the rule is currently being enforced and, if so, whether there are any problems with enforcement;
6. Clarity, conciseness, and understandability of the rule;
7. Summary of the written criticisms of the rule received by the agency within the five years immediately preceding the five-year review report;
8. A comparison of the estimated economic, small business and consumer impact with prior economic impact statement or assessment;
9. Any analysis submitted to the agency by another person regarding the rule's impact on this State's business competitiveness;
10. If applicable, how the agency completed the course of action indicated in the agency's previous five- year review report;
11. A determination that the rule's probable benefits outweigh the probable costs and that rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective;
12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law;
13. For a rule adopted after July 29, 2010, that requires issuance of a regulatory permit, license or agency authorization, whether the rule complies with A.R.S. § 41-1037; and
14. Course of action the agency proposes to take regarding each rule.

### **Identical Information for All the Rules**

Pursuant to A.A.C. R1-6-301(B), rules reviewed within the same report that render identical answers for any factor or factors delineated above shall have those identical answers provided only once. The rules contained in this report are identical in the following ways:

**7. Written Criticisms:**

No written criticisms of the rules reviewed herein were received in the last five years and since the last 5YRRR was submitted to GRRC.

**8. Economic impact comparison:**

There is no current EIS to compare with a previous EIS. However, specific revenues and general economic impacts of activities that are governed by these rules are included in the economic impact analysis at the end of this report.

**9. External Analysis of impact of State's business competitiveness:**

The Department has not received any external analysis of the rules' impact on Arizona's business competitive position.

**10. Previous 5yRR Report Course of Action:**

The Department previously submitted a review of the rules in Articles 7, 8, 9, & 11 in 2017 and stated, at that time, that many of the rules should be amended. The Department intended to begin that process by March 2019. The Department did not complete this course of action.

**11. Cost v. Benefit and Least Burden Analysis:**

While the rules need improvement to conform with updated Department operations, as outlined in the analyses herein, their general applicability and existence are necessary to provide transparency in their respective areas and articulate the land disposition types and programs that the Department executes.

**12. Comparison with Federal Law:**

There are no federal laws that apply to these rules.

**13. A.R.S. § 41-1037 Compliance:**

The rules reviewed herein were adopted prior to July 29, 2010, so this factor was not analyzed for § 41-1037 Compliance.

## ANALYSES OF RULES

### Article 7. Special Leasing Provisions

#### A.A.C. Rule 12-5-702 Agricultural Leases

**1. Statutory Authority:**

Enabling Act, § 28; A.R.S. §§ 37-101, 37-211, 37-281, & 37-285

**2. Objective:**

The objectives of the rule are to clarify and direct the application process for agricultural leasing and agricultural leasing requirements, including development and improvement requirements.

**3. Effectiveness:**

Some subsections of the rule are ineffective where there are inconsistencies with agency operations.

**4. Consistency:**

The rule's subsections are inconsistent in the following ways:

Subsection (B) is inconsistent with statute as the rule requires applicants to submit an application to have lands reclassified, but no such application is needed or taken if lands are to be reclassified as agricultural lands (*see* A.R.S. § 37-212 which authorizes the Commissioner to reclassify lands in the best interest of the Trust and of the State);

Subsection (C)(1)(a) is inconsistent with agency operations, as an applicant may currently apply to lease multiple sections of land using one application despite the restriction within the subsection (N.B. Fees are charged on a per section basis in accordance with A.A.C. R12-5-1201 despite the use of one application form.);

Subsection D is inconsistent with itself and with statute: Sub-subsections (1) and (2) may possibly conflict with each other, as (D)(1) applies a minimum of \$1.00 per acre per year while (D)(2) applies a minimum rental of \$10.00 a year to each section or portion of a section. So, for example, under (D)(1), leasing 639 acres within a single section equals \$639.00 (\$1 x 639 acres, while under (D)(2), it amounts to \$10.00 (\$10.00 per section). Further, A.R.S. § 37-132(A)(5) authorizes the Commissioner to appraise state lands for leasing; A.R.S. § 37-285(A) requires agricultural leases to have annual rents not less than the appraised rental value subject to adjustment each year, with a minimum cap of \$0.05 per acre per year; and A.R.S. § 37-282.01(G) allows the Commissioner to conduct mass

appraisals at their discretion – given market conditions, and other variable conditions that may warrant mass appraisal without a specified timeframe;

(H)(1)(a) is inconsistent with agency operations, as it requires a separate renewal application to be submitted for each section, or portion thereof, of land, whereas currently only one application form, and (H)(1)(b) is inconsistent with the filing fees delineated in A.A.C. R 12-5-1201.

**5. Enforcement policy:**

The rule is enforced when it is not inconsistent with statute or other rules. If inconsistent with statute, statutes are followed. If inconsistent with other rules, the newer rule is followed, such as is the case with filing fees.

**6. Clear, concise, and understandable:**

The rule is generally not clear, concise, and understandable because of redundancies and drafting style, specifically:

Subsection (C)(1) is consistent with yet redundant of A.R.S. § 37-281(B);

Subsection (F) is consistent with, yet redundant of, A.R.S. § 37-285; and

Subsection (H)(1) is consistent with, yet redundant of, statute.

**14. Proposed Course of Action:**

The Department intends to amend the rule to eliminate inconsistencies and redundancies and to articulate the Department's operations. This rule will be amended in April, 2024.

## A.A.C. Rule 12-5-703 Commercial Leases

**1. Statutory Authority:**

A.R.S. § 37-132

**2. Objective:**

The objectives of the rule are to direct the application process for commercial leases and to clarify commercial lease requirements and restrictions.

**3. Effectiveness:**

The rule is not entirely effective as it exhibits inconsistencies and lacks transparencies.

**4. Consistency:**

The rule is inconsistent in the following ways:

Subsection (B) is not inconsistent because it conflicts with the Department's mandate to determine the highest and best use of the land held in trust;

Subsection (D) is inconsistent with agency operations because the Department does not receive applications to petition for reclassification of lands, but rather reclassifies the lands sua sponte;

Subsection (H) is inconsistent with agency operations; and

Subsection (M) is, in part, inconsistent with agency operations and inaccurate.

**5. Enforcement policy:**

The rule is enforced where is not inconsistent with other laws, and the conditions and rights of lessees are further articulated in lease contracts.

**6. Clear, concise, and understandable:**

Subsection (A) is not concise because it is unnecessary;

Subsection (B) is not concise because the first portion is addressed in statute; and

Subsection (C) is not concise because it is redundant of the Enabling Act;

**14. Proposed Course of Action:**

The Department intends to amend the rule to relocate some of the provisions to the -100s and to eliminate inconsistent and redundant subsections. This rule will be amended in April, 2024.

## A.A.C. Rule 12-5-705 Grazing Leases

**1. Statutory Authority:**

A.R.S. §§ 37-132, 37-283, & 37-285

**2. Objective:**

The objectives of the rule are to clarify and direct the application process for grazing leases and to clarify grazing lease requirements and restrictions.

**3. Effectiveness:**

The rule is mostly effective in articulating grazing lease requirements. However, some subsections of the rule are ineffective where inconsistent with statute or agency operations, as noted below.

**4. Consistency:**

The rule is inconsistent in the following ways:

Subsection (B) is inconsistent with agency operations in that the Department does not impose age- or citizen-based restrictions on its applicants;

Subsection (C) is inconsistent in that: 1) it specifies only one section may be applied for per application for an initial lease whereas the Department currently allows new and renewal applications to include an entire ranch unit covering multiple sections, while a fee is charged for each section covered in the application pursuant to R12-5-1201; 2) it requires the use of forms, i.e., Land Division forms, that no longer exist; and 3) it indicates that if a renewal applicant has an up-to-date and current statement of his holdings within the ranch unit on file with the Department then completion of detailed questions concerning holdings on the application form are not required to be filled out, when in actuality, the applicant must provide a map of the leased land including any controlling interests in conjunction with the lease at the time of the renewal of the lease;

Subsection (E) is inconsistent with statute and agency operations in that it requires applicants to apply to have lands reclassified as Grazing Lands but no such application is needed or taken if lands are to be reclassified as Grazing Lands (see A.R.S. § 37-212 which authorizes the Commissioner to reclassify lands in the best interest of the trust and of the state);

Commissioner based on the recommendation of the grazing land valuation commission (See A.R.S. § 37-285);

Subsection (G) is inconsistent with agency operations because it permits the splitting of a Grazing Lease into many leases to dissect due dates and payments of a large Grazing Lease into more palatable portions, which amounts to a hardship exception to the

common anniversary date practice which the Department follows without exception (i.e. all Grazing Lease rents are due in March);

Subsection (H) is inconsistent with agency operations because the Land Division and its corresponding forms no longer exist;

Subsection (K) is inconsistent with A.R.S. § 37-283(A) and the provisions of Department Grazing Leases;

Subsection (L) is inconsistent with agency operations, as crops may not be grown on Grazing Lands under a Grazing Lease;

Subsection (N) is inconsistent with agency operations as to the prescribed form which no longer exists, but the intent is consistent; and

Subsection (O) is partially inconsistent with agency operations, as Grazing Leases are limited to grazing purposes.

**5. Enforcement policy:**

The rule is enforced when it is not inconsistent with statute or updated agency operations.

**6. Clear, concise, and understandable:**

The rule is not clear, concise, and understandable.

Several subsections are outdated, redundant or inconsistent with statute, and conflict with the Department's standard work and lease instruments.

Some of the provisions have been incorporated into a different article.

**14. Proposed Course of Action:**

The Department intends to amend the rule to relocate some of the provisions to the -100s and to eliminate inconsistent and redundant subsections. This rule will be amended in April, 2024.

## **Article 8. Right-of-way**

### **A.A.C. Rule 12-5-801 Right-of-way**

**1. Statutory Authority:**

A.R.S. §§ 37-107, 37-132, 37-287 & 37-461

**2. Objective:**

The objective of this rule is to inform Right-of-way applicants of the application process and Right-of-way grantees of the uses and restrictions pertaining to Right-of-way instruments on State Land.

**3. Effectiveness:**

Some provisions of this rule are ineffective in articulating its objective, as noted below. Some of provisions are verbose and conflicting with law which reduce the effectiveness of the rule. Further, subsections (C)(5)(c)(iii) and (D)(8) articulate overly burdensome payment methods for customers, specifically, municipalities and other government entities.

**4. Consistency:**

The rule is inconsistent in the following ways:

Subsection (C)(2)(b) is inconsistent with agency operations as the agency does not require an application for each county crossed because it would be overly burdensome for the applicant and for the agency to implement;

Subsection (C)(3)(xi) is inconsistent with agency operations and conflicts with (C)(4)(a);

Subsection (C)(8)(c) is inconsistent with agency operations because the commencement date is not the date that the instrument is mailed to the applicant, as stated, but rather it is the date of in-house review, or, if required, the day after the review by the Board of Land Appeals or of the auction;

Subsection (C)(8)(c) is inconsistent with agency operations;

Subsection (D)(7)(a) is inconsistent with agency operations as the Department does not require this; and

Subsection (E)(1)(a) is inconsistent with agency operations because the Department does not require applications to place improvements for Right-of-Way grantees.

**5. Enforcement policy:**

The rule is enforced when it is not inconsistent with statutes or updated agency operations.

**6. Clear, concise, and understandable:**

The rule is not clear, concise, and understandable.

Subsections (A)(1) and (A)(2) are redundant of statute; and

Subsection (B) is not concise in that sub-subsection (1) is unnecessary and sub-subsection (2) would best be served by being relocated to subsection (C);

Subsection (C)(1)(a) is not concise in that some of the language is overly restrictive;

Much of Subsection (C)(3) is not concise or clear;

Subsection (C)(5)(a) is not clear in that it does not refer to the regulation that promulgates Department-wide fees; and

Proposed changes to subsections not mentioned above may benefit from style or language changes to aid clarity and conciseness.

**14. Proposed Course of Action:**

The Department intends to amend the rule to relocate some of the provisions to the -100s and to eliminate inconsistent, conflicting, and redundant subsections. This rule will be amended in April, 2024.

## A.A.C. Rule 12-5-802 Reservoir Dams and Other Sites

**1. Statutory Authority:**

A.R.S. §§ 37-132 & 37-461

**2. Objective:**

The objective of this rule is to notify reservoir, dam, and other site lease applicants and lessees, as well as the public, of the Department's requirements for a reservoir, dam, and site lease application, i.e. Non-linear Rights-of-way, as well as the rights and obligations of such lessees.

**3. Effectiveness:**

The rule is effective.

**4. Consistency:**

The rule is consistent in part, yet inconsistent in the following ways:

Subsection (B) is inconsistent with A.R.S. § 37-461(C) in that site leases in excess of ten years are not, in fact, required to be advertised and sold at public auction – it is fifty years;

Subsection (C) is inconsistent with agency operations, and overly burdensome to the applicant. The agency has a standardized process for notifying surface and subsurface lessees of applications in queue, thereby avoiding confrontational interactions with existing and prospective users;

Subsection (D) is partially inconsistent with agency operations, as non-use is not addressed in the way iterated, and the lease instruments don't authorize uses/purposes outside the scope/lease type;

Subsection (F) is not consistent with agency operations and within itself, as the application of it could amount to two separate findings; and

Subsection (H) is inconsistent with agency operations in that the Department requires an amendment application to be filed if a different use is contemplated other than that which is included in the ROW grant.

**5. Enforcement policy:**

The rule is enforced except as to auctions of site leases for terms over 10 years but not over 50 years.

**6. Clear, concise, and understandable:**

On the whole, the rule could benefit from general style improvements, and conformance with agency practice and contractual law. Specifically:

Subsection (D) is partially not concise, as it could be combined with subsection (C) to address initial and renewal applications at the same time;

Subsection (E) is not clear and could benefit from a redrafting; and

Subsection (I) is not clear nor concise and could benefit from redrafting.

**14. Proposed Course of Action:**

The Department intends to amend the rule to relocate some of the provisions to the -100s and to eliminate inconsistent and redundant subsections. The Department also intends to amend some of the provisions to provide clarity to ensure the public has clearer guidance on the agency's expectations on issuance and non-use of non-linear ROWs. This rule will be amended in April, 2024.

## **Article 9. Exchanges**

### **A.A.C. Rule 12-5-901 Scope of Rules**

- 1. Statutory Authority:**  
A.R.S. § 37-604
- 2. Objective:**  
The objective of the rule is to inform exchange applicants of the scope of this rule and succeeding rules, i.e., R12-5-902 et seq.
- 3. Effectiveness:**  
The rule is effective in that it articulates the scope of subsequent rules.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The rule would be enforced as a statement of scope of purpose for subsequent rules if and when the Department executes an exchange.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 14. Proposed Course of Action:**  
The Department does not intend to amend this rule.

## **A.A.C. Rule 12-5-902 Definitions**

- 1. Statutory Authority:**  
A.R.S. § 37-604
  
- 2. Objective:**  
The purpose of this rule is to define terms used within Article 9, Chapter 5, Title 12 of the A.A.C.
  
- 3. Effectiveness:**  
The rule is not effective.
  
- 4. Consistency:**  
The rule is inconsistent with statute. The statute creating the Selection Board and referenced within this rule, A.R.S. 37-202, appoints the Governor, the State Treasurer, and the Attorney General to the Selection Board. This rule, however, has the Land Commissioner in place of the State Treasurer.
  
- 5. Enforcement policy:**  
The rule would not be enforced if the Department executed an exchange.
  
- 6. Clear, concise, and understandable:**  
The rule is clear and understandable, but it is not concise as three definitions - Commissioner, Department, and Selection Board - are redundant of statute and one definition - private owner - does not need to be defined as a legal term of art.
  
- 14. Proposed Course of Action:**  
The Department intends to repeal this rule in a future rulemaking in April, 2024.

## **A.A.C. Rule 12-5-904 Application**

- 1. Statutory Authority:**  
A.R.S. § 37-604
- 2. Objective:**  
The purpose of this rule is to inform exchange applicants of the exchange application requirements.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is mostly consistent with statute, except for the age and residence requirements mentioned, which was removed from § 37-604(B)(1)(a).
- 5. Enforcement policy:**  
The Department would enforce the rule if presented with an exchange applicant.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 14. Proposed Course of Action:**  
The Department intends to amend this rule to incorporate R12-5-910 in a future rulemaking in April, 2024.

## **A.A.C. Rule 12-5-910 Maps and Photographs**

- 1. Statutory Authority:**  
A.R.S. § 37-604
- 2. Objective:**  
The purpose of this rule is to inform exchange applicants of map and photograph requirements.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent with statute.
- 5. Enforcement policy:**  
The Department would enforce the rule if presented with an exchange applicant.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 14. Proposed Course of Action:**  
The Department intends to repeal this rule while incorporating the information into R12-5-904 in a future rulemaking in April, 2024.

## **A.A.C. Rule 12-5-918 Controversy as to Title or Leasehold Rights**

- 1. Statutory Authority:**  
A.R.S. § 37-604
- 2. Objective:**  
The purpose of this rule is to give the Department the right to hold in suspension or reject an application for exchange of State Lands when there are title defects or conflicting interests.
- 3. Effectiveness:**  
The rule is effective.
- 4. Consistency:**  
The rule is consistent.
- 5. Enforcement policy:**  
The Department would enforce the rule if presented with an exchange applicant.
- 6. Clear, concise, and understandable:**  
The rule is clear, concise, and understandable.
- 14. Proposed Course of Action:**  
The Department does not intend to amend this rule.

## Article 11. Special Use Provisions

### A.A.C. Rule 12-5-1101 Policy; Use of Lands

**1. Statutory Authority:**

A.R.S. § 37-132

**2. Objective:**

The objective of this rule is to demarcate the role and use of Special Land Use Permits and to provide guidance to Special Land Use Permit applicants.

**3. Effectiveness:**

Though the rule attempts to achieve its stated objective and has done so successfully in the past, it is inconsistent and lacks clarity.

**4. Consistency:**

The rule itself is partially consistent. For example:

Subsection (1) is not consistent with agency operations as the Department does not age test or citizen-test its applicants;

Subsection (2) is inconsistent with agency operations as the Department no longer has a “Land Division form,” though it does provide application forms;

Subsection (5) is inconsistent with the minimum fee charged by the Department;

Subsection (10)(f) is inconsistent with agency operations because these types of signs are not permitted without application and a subsequent permit;

Subsection (12)(a) is inconsistent with agency operations because it conflicts with A.A.C. R12-5-1201;

Subsection (12)(b) is inconsistent with A.R.S. § 37-132; and

Subsection (16) is inconsistent with agency operations because the Department does not legalize a sign installed and maintained in trespass.

**5. Enforcement policy:**

The rule is enforced where it is effective.

**6. Clear, concise, and understandable:**

The rule is not clear, concise, and understandable in the following ways:

The preamble publishes policy, which is improper;

The preamble contains language which is redundant of language elsewhere within the rule;

Subsections (6) and (8) are unnecessary;

Subsection (9) is not clear not concise and should be redrafted;

Subsection (10) is partially not concise where "advertising display" is defined, and should be stricken, while the remainder of the subsection can be transferred to within subsection (9), except for (10)(f); and

Subsection (11) is unnecessary and redundant.

**14. Proposed Course of Action:**

The Department intends to amend the rule to relocate some of the provisions to the -100s and to eliminate inconsistent and redundant subsections in April, 2024.

## **ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT**

As of Fiscal Year 2021, the Department held: 348 Agricultural Leases covering 157,920 acres of Trust Land which generated \$4,265,005 in income; 1,196 Grazing Leases covering 8,344,576 acres which generated \$2,749,775 in income; 273 Commercial Leases covering 70,274 acres which generated \$31,888,877 in income; 7,818 Right-of-Way Grants covering 128,567 acres which generated \$9,614,946 in income; and 652 Use Permits covering 600,900 which generated \$4,419,661 in income.

The rental payments from all of the above leases are deposited into funds managed by the State Treasurer and distributed directly to the beneficiaries on a monthly basis. In addition to the direct impacts to the 13 beneficiaries of Trust Land, activities on Trust Lands provides opportunities for the labor force and businesses that supply services and goods directly, as well as support for local businesses that sell services, consumer goods, groceries, and other personal and family needs. Economic development is increased by rights-of-way that provide for the development of roads and utilities, and taxes are paid by the companies and individuals who engage in activities on Trust Land. The taxes are then utilized by the State, county, and local governments to support schools, create infrastructure, and provide government and community services.

**A.** Land subject to agricultural lease; term of lease

1. All state lands classified as agricultural land are subject to agricultural leasing for such term as may be established by the Commissioner but in no event for a term of more than ten years.

a. The term of an agricultural lease of undeveloped agricultural land shall not exceed two years.

**B.** Application for lease of lands not classified as agricultural. An application for an agricultural lease of lands not classified as agricultural shall be accompanied by an application for reclassification as provided by the general rules and regulations governing leasing of state lands.

**C.** Application for agricultural lease

1. Application for an agricultural lease shall be made upon the appropriate form as provided by the Department and in accordance with the general rules and regulations governing the leasing of state lands.

a. Each application shall be limited to the lands in one section or part thereof.

**D.** Rental rates; appraisal

1. No agricultural lease shall provide for a rental less than the appraised rental value of the leased land, and in no event a rental less than \$1.00 per acre per annum.

2. Minimum rental for each agricultural lease shall be \$10.00 per annum; provided, however, that the minimum rental of \$10.00 per annum shall apply to each section or portion thereof covered by the lease.

**E.** Number of leases issued on farm unit

1. Ordinarily, leases issued by the Department will combine into one lease, all contiguous and adjoining state agricultural lands within the lessee's farm unit.

a. It is recognized that such consolidation may work hardship on the lessee because of the resultant common due date of rentals.

i. A lessee thus affected and desirous of dividing his lease may make application to the Department to do so. Such application shall be in writing, setting forth the reasons therefor in such detail as to enable the Department to act with full knowledge of the circumstances.

ii. If such application is approved by the Department, division of the lease will be made in as reasonable a manner as possible, compatible with the best interests of the state.

**F. Agricultural lease form; provisions.** Agricultural leases shall be made on the appropriate form provided by the Department, and shall contain such provisions and supplemental conditions as may be prescribed by the Commissioner in accordance with the provisions of the law and Department rules and regulations.

**G. Sequence of development and improvement of lands under agricultural development lease**

1. The first allowable acts of development on the leased premises under an agricultural development lease shall include only those necessary and incident to the acquisition of a water supply adequate for the development of the leased acreage.

2. The placing of any improvement not necessary to the accomplishment of subsection (A) above shall not be approved until after the acquisition of such water supply has been accomplished or assured and in all cases only after proper application made and approval had in accordance with the provisions of the Department's rules and regulations in regard to permits to place improvements.

3. When rules and regulations promulgated by state or federal regulatory agencies would affect state lands or crops grown thereon, and when, in his opinion, the best interests of the state would be so served, the State Land Commissioner may require the lessee to conform with these regulatory practices to prevent the deterioration of the soil or crops grown thereon. If the lessee fails to comply with the requirements of the Commissioner, the Commissioner may have the required remedial work accomplished and bill the lessee the amount due the Department. Failure by the lessee to pay for such remedial work will, after the proper notice, subject the lease to forfeiture for nonpayment and noncompliance.

**H. Application for renewal; right of renewal; developmental lease**

1. Application for renewal of an agricultural lease shall be made on the appropriate form provided by the Department and in accordance with the general rules and regulations governing leasing of state lands.

a. A separate application form shall be submitted for each section of land or portion thereof within the lease.

- b. The filing fee for each application shall be the same as for an initial application.
2. A preferred right of renewal of an agricultural development lease shall not extend to a lessee who has not acquired a water supply deemed by the Commissioner to be adequate.
3. Proper diligence on the part of the lessee toward complete agricultural subjugation and development of the land under lease shall be the measure for the Commissioner's determination as to whether renewal of an agricultural development lease is in the best interests of the State.

#### I. Application to assign lease

1. Application to assign and application for assumption of lease shall be made on the appropriate form provided by the Department and in accordance with the general rules and regulations governing leasing of state lands.

- a. Upon approval of the application, the assignment will be noted on the lease and made of record in the Department.

## R12-5-703. Commercial Leases

### Currentness

**A.** Scope of commercial leasing rules. An applicant for a commercial lease shall be subject to the general leasing rules enumerated, *supra*. Such applicant shall also be subject to the commercial leasing rules set out, *infra*. In a commercial leasing situation where the general leasing rules and the commercial leasing rules conflict, the latter rules shall be controlling.

**B.** Lands subject to commercial lease. All state lands classified as suitable for commercial purposes are subject to a commercial lease. Unless it is deemed to be for the best interests of the state, it is not the policy of the State Land Department to allow and issue commercial leases which will seriously interfere with, damage, or break up operations of an established ranch or farm unit. There is no limit to the amount of commercial land that may be leased to any one individual, corporation, partnership or association.

**C.** Term of commercial lease. State lands suitable for commercial purposes may be leased for a period of not more than ten years without advertising, or subject to such lesser term as may be established by the Commissioner if he deems such lesser term to be in the best interests of the state.

**D.** Applications to lease state lands not classified as commercial. Applications to lease lands not classified as commercial shall be accompanied by a petition for reclassification as provided by the general leasing rules.

**E.** Application for commercial lease; application for commercial lease renewal. All applications for commercial leases and all applications for renewal of commercial leases shall be made on such form or forms as may from time to time be prescribed by the Commissioner and provided by the Commissioner. A commercial lease before the time of execution or renewal will be subject to the provisions and supplemental conditions and restrictions as may be added thereto and the provisions of law and these rules.

**F.** Additional conditions for commercial leases.

1. Unless otherwise directed by the Commissioner in writing, the lessee shall:

a. Notify the Commissioner in writing as to the number of any license issued by the state Tax Commission of Arizona to the lessee, any sublessee, any concessionaire or any assignee; such notice shall also include the exact name in which license is issued.

- b. Keep and maintain an accounting system satisfactory to the Commissioner.
  
- c. Allow access to accounting records during business hours where the same are kept for the purpose of inspecting and auditing the same.
  
- d. File with the Commissioner, if requested by the Commissioner, a statement of the total gross sales made for the period specified. Unless otherwise directed by the Commissioner, this report may be made by filing with the Commissioner the requested information on the form used by the state Tax Commission.
  
- e. Acquire consent in writing from the Commissioner for any improvements made on the site.
  
- f. Acquire consent in writing for moving buildings from other premises onto the leased premises. All buildings and structures shall be of acceptable construction.
  
- g. Keep any gas, electric, power, telephone, water, sewer, cable television and other utility or service lines under ground unless prohibited by law.
  
- h. File with the Commissioner, prior to the approval of any application to place improvements, plans and specifications showing the nature, location, cost, quality of proposed material, size, area, height, color, shape and design of the proposed improvements. The Commissioner may also require a perimeter survey of the leased premises upon which shall be shown the location of the completed improvements. The lessee shall also submit grading plans.

2. The above conditions shall apply to any assignee, sublessee or concessionaire of the original lessee.

**G.** Maps required as part of application for commercial lease. The applicant shall furnish such information map of the lands to be leased as the Commissioner may require and deem necessary to evaluate the application and assist in making an appraisal; and, in addition, the Commissioner may require an aerial photograph or photographs of such lands as he may specify in a request therefor.

**H.** Minimum rental rates for commercial leases. No commercial lease shall provide for an annual rental of less than the appraised rental value of the land and in no event shall the rent be less than 5¢ per acre per annum or less than \$10.00 per annum per lease.

**I.** Division of leases. The State Land Commissioner may at any time divide a commercial lease into two or more separate leases when such division would, in the opinion of the Commissioner, facilitate administration and management of the subject lands or would result in separating one commercial use from another. The rent for the lease year in which such division is made shall be allocated to the separate leases.

**J.** Sublease of commercial lease by lessee. No commercial lessee shall sublet his lease without the written permission of the Commissioner. Approval of a sublease may be granted at the discretion of the Commissioner and shall be obtained by the lessee submitting for approval of the Commissioner the sublease executed in triplicate. Upon the approval by the Commissioner, two

copies of the sublease, with the Commissioner's approval and any limitation to such approval endorsed by the Commissioner thereon will be returned to the lessee, one copy thereof being retained in the files of the Department.

**K. Application to assign lease.** Application to assign and application for assumption of lease and transfer shall be made upon such forms as may from time to time be prescribed by the Commissioner; upon the approval of the application, the action taken by the Commissioner will be noted upon the lease and made of record in the Department.

**L. Use of state lands; failure to use.** No lessee or permittee shall use lands under permit or lease except for the uses and purposes specifically set forth in the lease or other such uses or purposes as may be subsequently authorized by the Commissioner in writing.

**M. Rights of commercial lessee or permittee.** All leases or permits granted by the Commissioner are only a license or permit to use the land described in the lease or permit for commercial purposes in a manner compatible with the terms of said lease or permit. The state of Arizona reserves the right to grant other leases or permits for the use of said lands or the removal of natural products therefrom.

No lessee or permittee has the authority or right to issue any person any right to the use of said land or the removal of any products therefrom, but such right to use vests solely in the Commissioner and must be granted by the Commissioner in writing.

## R12-5-705. Grazing Leases

### Currentness

**A. Definitions.** Unless the context otherwise requires, the words hereinafter defined shall have the following meaning when found in these rules, to wit:

1. “Grazing lands” means lands which can be used only for the ranging of animals.
2. “Carrying capacity” or “average annual carrying capacity” means the average number of animal units which can be supported by a section of grazing land with due consideration for sustained production of the forage consistent with conservative range management.
3. “A section of land” for appraisal of carrying capacity purposes means an area of land consisting of 640 acres.
4. “Animal unit” means one weaned beef animal over six months of age, or one horse, five goats, or five sheep, or the equivalent thereof.
5. “Average market price of cattle” means the average price by the hundredweight received during the calendar year under consideration by producers of cattle, exclusive of calves, in the states of Arizona, New Mexico, California, Utah, Nevada, Colorado, Wyoming, Montana, Idaho, Washington and Oregon, as determined by the Bureau of Agricultural Economics, United States Department of Agriculture, and, if that service is not available, from such sources as the Commissioner determines best to establish said price.

**B. Qualifications to leasing grazing lands.** Any person of the age of 21 years or over, a citizen of the United States, or who has declared an intention to become a citizen of the United States, or any firm, association or corporation which has complied with the laws of the state, shall be qualified to lease state land for grazing purposes.

**C. Applications for grazing lease and renewals.** Application for a grazing lease shall be made upon Land Division form and an application for renewal thereof shall be made upon Land Division form in accordance with the general rules and regulations relating to the leasing of state lands. Only one section or subdivision thereof may be applied for on one application for an initial lease. Application for renewal of an existing lease may include an entire ranch unit or any part thereof; provided, however, the filing fees must be paid in the same manner as in the original application.

An applicant for an initial lease shall fill out the form in complete detail. An applicant for a renewal of an existing lease, if he has an up-to-date and current statement of his holdings within the ranch unit used in connection with the lands sought to be leased, will not be required to fill out in detail answers to questions concerning his holdings appearing on the applicant form.

**D. Land subject to grazing lease and term of lease.** All state lands classified as grazing lands, not under lease, are subject to grazing lease for a period of not more than ten years without advertising, or for such lesser term as may be established by the Commissioner if he deems such lesser term to be to the best interests of the state. It is the policy of the Department not to offer open land for lease within an established ranch unit without first offering said lands to the owner or the person having control of the lands in such ranch unit. There is no limit to the amount of grazing land that may be leased to any one individual, corporation, partnership or association.

**E. Application to lease lands not classified as grazing.** Applications to lease lands not classified as grazing shall be accompanied by a petition for reclassification as provided by the general rules and regulations relating to the leasing of state lands.

**F. Rental rates of grazing land; appraisal.** No grazing lease shall provide for a rental of less than the appraised rate of the land, and in no event less than 2¢ per acre per annum, or a minimum of \$2.50 per annum per lease, said minimum of \$2.50 per annum per lease applying to one section or portion thereof.

The Commissioner shall appraise all grazing land on the basis of its annual carrying capacity. The annual rental rate for grazing land shall be the amount found by multiplying the carrying capacity of the lands by the annual rental rate per animal unit. The annual rental rate per animal unit shall be 22% of the average market price of beef for the preceding year. The annual carrying capacity is determined by a field appraisal by the Department, and the basis for said appraisal is the average carrying capacity of the land over a ten-year period. Notice of the appraised rental of the land will be contained in the annual billing statement which will be sent to the lessee by registered mail unless he has previously signified his acceptance of said carrying capacity together with the Commissioner's final decision regarding the appraised rental. Prevailing annual rental schedules will be published annually and furnished each lessee at the time of mailing the notice of appraised rental.

An appeal from any final decision of the Commissioner relating to the appraisal of lands may be taken to the Board of Appeals as provided in the general rules and regulations relating to state lands.

**G. Number of leases issued on ranch unit.** Leases issued by the Department will include all state grazing lands within the ranch unit in one lease unless a hardship results therefrom to the lessee, in which case the lessee may at his election divide the state lands in his ranch unit in not more than four separate leases in such a manner that lease rentals will not become due and payable at the same time but will be payable on an approximate quarterly or semi-annual basis. To divide a ranch unit it is necessary for the lessee to apply in writing or in person to the Department, supplying sufficient information in order that a division of the state lands in his ranch unit can be separated topographically or by an exact line. In such cases, instead of one lease covering all the state lands in a ranch unit being issued, additional leases may be issued with different dates of payment of rentals.

**H. Form of grazing lease and provisions thereof.** The form of grazing lease offered by the Department to an applicant will be on Land Division form No. A-11 and will be subject to the provisions and supplemental conditions therein contained and such other conditions as may be added thereto and the provisions of law and these rules and regulations.

**I. Rights of grazing lessee.** All grazing leases granted by the Commissioner are only a license to graze livestock and to use the land described in the lease in a manner compatible with the terms of the lease. The state of Arizona reserves the right to grant other forms of leases or permits for the use of said lands or the removal of natural products therefrom. No grazing lessee has

the authority or right to issue to any person any rights to the use of said lands or the removal of any products therefrom, but such right of use vests solely in the Commissioner and must be granted by the Commissioner in writing.

**J. Sublease or pasturage agreement.** No grazing lessee shall sublet his lease, sell or lease pasturage of lands embraced in his lease without the written permission of the Commissioner. Approval of a sublease or pasturage agreement may be granted at the discretion of the Commissioner and shall be obtained by the lessee submitting for approval of the Commissioner the sublease or pasturage agreement executed in triplicate. Upon the approval by the Commissioner, two copies of the sublease or pasturage agreement, with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon, will be returned to the lessee, one copy thereof being retained in the files of the Department.

**K. Carrying capacity and application to exceed the same.** No grazing lessee, sublessee or users under a pasturage agreement shall graze, without permission of the Commissioner, in excess of 110% of the carrying capacity as previously determined by the Commissioner upon state lands under lease within the exterior boundaries of any one ranch unit or units in the same general locality jointly operated. Approval to exceed the carrying capacity may be obtained by submitting a written request therefor. The request should contain the number of head of animals the lessee, sublessee or user desires to place upon the leased lands in excess of 110% of the carrying capacity, together with a statement as to how long the additional animals will remain upon the leased lands. If the Commissioner approves said request, the lessee, sublessee or user will be notified of such approval of increase in the carrying capacity and the period granted therefor. In the event of the approval of any such excess the Commissioner shall assess and collect the rental for such excess as provided by law and these rules and regulations.

**L. Cultivation and growing of crops on grazing land.** State land under grazing lease is limited to the ranging of animals only and may be cultivated and crops grown thereon only with the approval of the Commissioner. Upon approval of the Commissioner the land may be cultivated and crops grown thereon provided such crops are forage crops in nature that are pastured by animals or, if severed from the land, are fed to animals upon the ranch unit. Under no circumstances may the lessee grow crops commercially under the provisions of a grazing lease. In the event any crops are grown with the approval of the Commissioner which will be pastured or removed from the land for use at other times of the year upon the ranch unit, the carrying capacity will be adjusted in accordance with the forage crops grown.

**M. Cutting of timber, standing trees or posts.** The lessee shall not cut or waste, nor allow to be cut or wasted, any timber or standing trees growing on the leased land without the written consent of the Commissioner, except for fuel for domestic uses or for the necessary improvements upon the land; provided, however, that nothing herein contained shall be construed to permit the cutting of saw timber for any purpose except with the written consent of the Commissioner. Posts cut primarily from cedar, mesquite and juniper trees may be used for the erection and use of improvements by the lessee upon state lands without cost, provided the written consent of the Commissioner is first obtained. Such posts may not be used on other than state lands without payment therefor. The lessee is required to file an affidavit with the Department indicating the number of posts cut, the number used for improvement of state land and the number used on other than state lands or stockpiled for future use. At the time approval to cut posts is granted by the Commissioner, the price will be determined by him, which will be comparable to the price of posts from the United States Forest Service, and the price will be payable at the time the affidavit indicating the number of posts cut is filed with the Department. The Commissioner, or his representative, upon the granting of approval to cut posts, will from time to time visit the lessee to determine the number of posts cut. The Commissioner recognizes that the removal of cedars, mesquite and juniper trees from grazing lands is a conservation measure that will maintain or increase the range carrying capacity and that the removal of these trees in most cases would benefit state lands.

In the event the lessee does not desire to purchase the trees as above provided, the Commissioner, if he deems it for the best interest of the state, may sell the same under such terms and conditions that he may require.

A purchaser other than a lessee shall not injure the lessee's surface rights and improvements or interfere with the lessee's use of the land under lease to him and may be required to file a surety bond with the Commissioner in such amount and under such conditions as to indemnify the lessee for any damage which may result due to his removal of the trees.

**N.** Application to assign lease. Applications to assign and application for assumption of lease and transfer shall be made upon Land Division form No. A-13-1 and in accordance with the general rules and regulations relating to the leasing of state lands. Upon approval of the application, the assignment of the lease will be made by the Commissioner upon the lease where indicated and made of record in the Department.

**O.** Use of state lands; failure to use. No lessee or permittee shall use lands under lease or permit to him except for grazing purposes unless authorized by the Commissioner in writing. Applications for a special use of lands under permit or lease to a lessee or permittee for purposes other than grazing shall be made in writing in triplicate, and shall state in detail the reasons for such use. The application shall be signed and verified as provided for in applications to lease. Upon approval of the application by the Commissioner, two copies of the application with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon will be returned by the Commissioner to the lessee, one copy thereof being retained in the files of the Department. Failure of any lessee or permittee to use the land for the purposes for which he holds a lease or permit, without having been authorized so to do by the Commissioner in writing, may, in the discretion of the Commissioner, subject said lease or permit to forfeiture or to cancellation as provided by law and these rules and regulations.

**P.** Posting to prohibit hunting and fishing on state land. State land under lease or permit may not be posted to prohibit hunting and fishing without the consent of the Arizona Game and Fish Commission.

    - iii. Fencing and other protective requirements deemed necessary by the Commissioner.
    - iv. That the grantee shall restore the surface of the land within the right-of-way to a reasonable condition as required by the Commissioner.
    - v. That the grantee will indemnify, hold and save grantor harmless against all loss, damage, liability, expenses, costs and charges incident to or resulting in any way from the use, condition or occupation of the land.

vi. A statement of the purpose for which the right-of-way was granted.

vii. The right of the grantee to assign the right-of-way, provided that such an assignment shall not become effective until approved in writing by the Commissioner as being in the best interests of the state and until a copy thereof is filed with the Department.

viii. The right of termination of the right-of-way by the grantee at any time during its term by giving the Commissioner 30 days notice of termination in writing, provided that the grantee is not delinquent in any payments and has complied with all conditions on the date of termination.

5. Assignment of right-of-way; sublease prohibited

a. Grantee of each right-of-way contract, if not in default of rental or other payments, and who has kept and performed all the conditions of his lease, may, with written approval of the Commissioner, assign the right-of-way.

i. Application for assignment, the assignment and the assumption of the right-of-way will be on such forms as the Commissioner may prescribe.

ii. An assignment shall not become effective unless and until it is approved by the Commissioner.

iii. The assignee shall succeed to all the rights and shall be subject to the obligations of the assignor.

iv. A sub-grant of the right-of-way contract is prohibited.

6. Right-of-way renewal. Upon application to the Commissioner, not less than 30 days, nor more than 60 days prior to the expiration of the right-of-way contract, the grantee of a right-of-way contract, if he is not delinquent in the payment of rental or of monies due the State Land Department on the date of expiration of the contract, shall have a preferred right to renew the right-of-way contract bearing even date with the expiration of the old contract.

7. Bonds

a. The Commissioner may require the grantee to post a cash deposit or surety bond to guarantee the payment of all monies due under the contract.

b. The Commissioner may require the grantee to furnish bond, in a reasonable amount, to be fixed by the Commissioner, conditioned that the grantee will guarantee restoration of the surface of the land described in the contract to a reasonable condition, upon the termination of the right-of-way contract.

c. The Commissioner may require the lessee to file with the Department a surety bond in the form, amount, and with surety approved by the Commissioner, conditioned upon prompt payment to the lessee of the surface, subsurface or otherwise of the state land covered by the right-of-way, for any loss to such owner or lessee from damage or destruction caused by the construction or use of the right-of-way, his or its agents, or employees, to grasses, forage, crops and improvements upon such land.

d. Assignment of any or all of the right-of-way contract will not relieve the assignor of his obligation as principal under the bond. Release of the assignor's obligation under bond may be effected through the posting of a replacement bond by the assignee, but then only after approval by the Commissioner and subsequent notification of the release by the Commissioner in writing to the principal and surety.

e. The Commissioner, in his discretion, may reduce or increase the principal amount of the bond.

f. Immediately after determination by the Commissioner that full discharge of the conditions of the obligations under any bond has been effected, he will, in writing, notify the principal and surety held by the bond so that it may be formally terminated.

g. Surety on the bond shall have the right to cancel the bond and be relieved of further liability after the period of notice, by giving 30 days' notice to the Department of its desire to so cancel.

i. Upon receipt of such notification, the Department will immediately notify the grantee by certified mail of the impending action by surety.

ii. Failure by the grantee to post a replacement bond before the expiration of the 30 days mentioned next above, shall constitute a default by the grantee and cause for cancellation of the right-of-way.

8. Principal payments. Each right-of-way granted to governmental agencies of the state or political subdivisions and municipal corporations thereof for exclusive use or perpetual use shall provide for payment of principal in the full amount of the appraised value as provided by the Commissioner after appraisal.

## E. Reports

### 1. Report of improvements

a. Applications for and reports of improvements placed shall be presented to the Commissioner on forms provided by the Department.

b. Grantee of every right-of-way shall submit to the Department an application to place any improvement to be placed on the right-of-way and shall secure written approval from the Commissioner to place the improvement before any work is commenced toward the improvement.

c. The grantee shall report any completed improvements to the Commissioner and secure approval from the Commissioner.

## R12-5-802. Reservoir, Dam, and Other Sites

### Currentness

#### A. Definitions

1. “Site lease” shall mean a lease issued upon state lands by the Department for reservoir or dam sites primarily used for purposes other than stock watering on lands leased for grazing purposes, and power or irrigation plant sites requiring more width than general rights-of-way leases for transmission lines or canals, or for such other purposes not classified as commercial.
2. “Surface lessee” means the holder of a lease on the surface of any state land for grazing, agricultural, commercial, homesite or natural products.
3. “Subsurface lessee” means the holder of a lease on the subsurface of any state land for oil and gas, mineral or natural products.

**B.** Land subject to site lease and term of lease. All state lands are subject to site lease for a term of not more than ten years without advertising, or for such lesser term as may be established by the Commissioner if he deems such lesser term to be to the best interests of the state. Site leases in excess of ten years are required by law to be advertised and sold at public auction to the highest bidder.

No lease for a site will be granted where damage or injury to improvements owned by a surface or subsurface leaseholder would result from the granting of the site by the Department without giving rise to a cause of action by the owner of said improvements, unless compensation for the value or damage or injury to said improvements has first been determined and a settlement made.

**C.** Application for site lease. An application for a site lease shall be made upon Land Division form No. A-82, and in accordance with the general rules and regulations relating to the leasing of state lands.

The application shall be accompanied by a map showing in detail the survey of the site applied for, or, if not surveyed, a map of reasonable accuracy so that the site may be located upon the land itself by either a survey or protraction. The Commissioner reserves the right to require a survey to be made by a regularly licensed registered engineer or land surveyor at any time. The map need be of no particular scale but should be of sufficiently large enough scale that improvements upon the surface of the land applied for may be shown. The map is considered a part of the application to lease as a line of definite location which will bind the applicant in the same manner as the lease application itself to the statements made therein.

An application for a site lease over or across state lands, the surface or subsurface of which is leased and in use, should be accompanied by a statement from such surface or subsurface lessee that he has no objection to the granting of the site lease, or, if such consent cannot be obtained, a statement from the applicant stating the reasons why such consent has not been obtained.

**D. Renewal application for site lease.** Application for renewal of a site lease shall be made upon Land Division form No. A-13-3 and in accordance with the general rules and regulations relating to state lands.

If the applicant has not used the land for the purpose for which the initial lease was granted to him, he must state in detail reasons therefor unless he has obtained from the Commissioner authorization in writing for such non-use as required by law and the rules and regulations of the Department.

**E. Rights of surface and subsurface lessees.** Under the law the Commissioner has the right to grant sites without the consent of the surface or subsurface lessee. However, in many instances the surface or subsurface lessee owns improvements upon the lands desired for a site lease and these improvements are protected by law. In the event the site applicant and the surface or subsurface lessee are unable to arrive at the value of any improvements which may be injured or damaged by the grant of a site lease and the consent of the surface or subsurface lessee cannot be secured, the Commissioner may, if it is to the best interest of the state, appraise the improvements as provided by law and grant the lease upon evidence of tender to the owner of improvements of the appraised value of the same. The owner of the improvements may appeal from the appraisal of the improvements to the Appeal Board of the Department as authorized by law and these rules and regulations.

**F. Rental.** No site lease shall provide for an annual rental of less than the appraised rental value of the land and in no event for less than 5¢ per acre per annum or a minimum of \$10.00 per annum per lease.

**G. Form of site lease and provisions thereof.** The form of site lease offered by the Department to an applicant will be on Land Division form No. A-83 and will be subject to the provisions and supplemental conditions therein contained, and such other conditions as may be added thereto, and the provisions of law and these rules and regulations.

**H. Effect of a site lease.** No lessee shall use lands under lease to him except for site purposes unless authorized by the Commissioner in writing.

Applications for a special use of lands under lease to a lessee for purposes other than which the lease was issued shall be made in writing in triplicate and shall state in detail the reasons for such use. The application shall be signed and verified as provided for in applications to lease. Upon approval of the application by the Commissioner, two copies of the application with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon will be returned by the Commissioner to the lessee, one copy thereof being retained in the files of the Department.

Failure of any lessee to use the land for the purposes for which he holds a lease, without having been authorized so to do by the Commissioner in writing, may, in the discretion of the Commissioner, subject said lease to forfeiture or to cancellation as provided by law and these rules and regulations.

**I. Rights of site lessee.** All leases granted by the Commissioner are only a license to use the land described in the lease for site purposes in a manner compatible with the terms of said lease. The state reserves the right to grant other leases for the use of said lands or the renewal of natural products therefrom. No site lessee has the authority or right to issue to any person any right to the use of said land or the removal of any products therefrom, but such right of use vests solely in the Commissioner and must be granted by the Commissioner in writing.

[Article 11. Special Use Permits \(Refs & Annos\)](#)

A.A.C. R12-5-1101

## R12-5-1101. Policy; Use of Lands

### Currentness

It is the policy of the Commissioner in the administration of state lands to permit, where practical, the beneficial use thereof for special purposes not specifically provided for by existing law or the rules and regulations of the Land Division and the leasing of state lands. Permits for such special use will not be issued, however, in any case where the provisions of existing state land laws may be invoked.

The contemplated use must not be in conflict with any federal or state laws.

An applicant must state in his application the use to which he intends to put the lands and he will not be permitted to devote them to any other use unless he secures an additional permit.

1. Qualifications of applicants. Any person of the age of 21 years or over, a citizen of the United States or who has declared an intention to become a citizen of the United States or any firm, association or corporation which has complied with the laws of the state, shall be qualified to apply for a special use permit.

2. Application for special use permit; renewal thereof; application fee. An application for general special use permit shall be made on Land Division form. Such application shall describe with particularity the land applied for, and shall state in detail the use to which the applicant intends to put the lands and the period for such use.

A renewal of a general special use permit shall be made on Land Division form.

If an applicant for renewal of a special use permit has not used the land for the purpose for which the initial permit was granted him, he must state in detail reasons therefor unless he has obtained from the Commissioner authorization in writing for such non-use as required by law and these rules and regulations.

3. Form of special use permit. The form of a general special use permit will be prepared by the Department and will be subject to the provisions and supplemental conditions therein contained and the provisions of law and these rules and regulations.

4. Term of permit. A special use permit shall not be issued for a period to exceed ten years or such lesser term as may be established by the Commissioner if he deems such lesser term to be in the best interest of the state. An application for an initial special use permit shall not be approved for a period of longer than two years. Unless it is deemed to be for the best interest of the state, it is not the policy of the Department to allow and issue a special use permit which will seriously

interfere with the operations of an established lessee or permittee holding a lease or permit from the Department to the surface or subsurface rights to the land.

5. Minimum fee. No special use permit shall provide for an annual fee for less than appraised rental value of the land and in no event for less than 5¢ per acre per annum or a minimum of \$10.00 per annum per permit.

6. Failure to use land for purposes authorized. Any permittee who shall fail to use the land for the purpose for which he holds a permit during the term of his permit, unless for good cause such failure has been authorized or ratified by the Commissioner in writing, may subject his permit to forfeiture or cancellation as provided by law and these rules and regulations.

7. Rights of permittee. All permits granted by the Commissioner are only a license or permit for the use of the land described in the permit for the purpose for which the permit is issued and in a manner compatible with the terms of said permit. The Commissioner reserves the right to grant other permits for the use of said lands for the removal of natural products therefrom. No permittee has the authority or right to issue to any person any right to the use of said land or the removal of any products therefrom, but such right of use vests solely in the Commissioner and must be granted by the Commissioner in writing.

8. Use of state lands. No permittee shall use lands under permit to him except for the purpose for which the permit is issued, unless authorized by the Commissioner in writing.

Applications for a special use of lands under permit to a permittee for purposes other than which the permit was issued shall be made in writing in triplicate, and shall state in detail the reasons for such use. The application shall be signed and verified as provided for in applications for permit. Upon approval of the application by the Commissioner, two copies of the application with the Commissioner's approval and any limitations to such approval endorsed by the Commissioner thereon will be returned by the Commissioner to the permittee, one copy thereof being retained in the files of the Department. Failure of any permittee to use the land for the purposes for which he holds a permit, without having been authorized to do so by the Commissioner in writing, may, in the discretion of the Commissioner, subject said permit to forfeiture or to the cancellation as provided by law and these rules and regulations.

9. Advertising displays on state lands without permits unauthorized. The erection or maintenance on state lands of advertising displays, without permission, is unauthorized by law. Any person erecting or maintaining one or more advertising displays on state lands, except under authority of a permit issued by the Commissioner as hereinafter provided, shall be deemed a trespasser.

10. Advertising displays defined. The words "advertising displays" as used in this Article shall include structures of any kind with or without lighting effects erected or maintained for outdoor advertising purposes, upon which any poster, bill, printing, painting, or other advertisement of any kind whatsoever, including statuary, may be placed for advertising purposes but shall not include:

- a. Official notices or advertisements posted by or under the direction of any public or court officer in the performance of his official duties;

b. Danger, precautionary and information signs erected by officials of the Federal Government or officials of the state or any subdivision thereof, or any non-profit organization in the state, relating to the premises, or warning of the conditions of travel on a highway, or of forest fires, or road symbols, or speed limits, and including all civil defense directional signs;

c. Highway markers or signs relating to any city, town, village or historic place or shrine;

d. Notice of any railroad, bridge, ferry, or other transportation or transmission company necessary for the direction or safety of the public;

e. Official signs, notices or symbols for the information of aviators, as to location, direction or landings, and conditions affecting safety in aviation;

f. Signs containing 16 square feet or less bearing an announcement of any town, village or city, or non-profit association, or chamber of commerce, advertising itself, or local industries, buildings, meetings, or attractions, but not advertising any particular individual or corporation engaged in business for a profit; providing not more than one sign bearing the same or similar announcement shall be placed on any one approach to the city or village involved;

g. Signs erected by Red Cross authorities relating to Red Cross Emergency Station.

11. Applications for advertising display permits. Applications for permits must be executed upon Land Division form No. A-73-3. Each application must contain a sufficient recital of the facts relative to the advertising display, including its size and lighting effect, if any, to enable its substantial production from the description. A sketch showing the location on which the display is to be placed with respect to adjacent physical features should be furnished. The application should identify the highway or other medium of travel along which it is proposed to erect the display and should give the distance and direction of the site, measured by highway travel, to the nearest cities or towns. If the land on which it is desired to place the display has been surveyed, its description should be given in terms of the public land surveys.

12. Fees and rentals for advertising display permits

a. A fee of \$1.00 must accompany each application for an advertising display permit.

b. The initial and annual charges for advertising displays shall be as follows: not less than 10¢ per annum for each square foot of sign surface and not less than \$2.50 per annum for each display. The amount of the charge, subject to such minima, will be fixed by the Commissioner, which in no event will be less than the appraised rental value for such use.

c. Due consideration will be given in fixing the amounts to all pertinent facts and circumstances, including the charges made for corresponding privileges on privately owned lands similarly situated.

d. When conflicting applications are filed, due consideration will be given to the showing of each applicant and such action will be taken as is deemed to be warranted by the facts and circumstances.

13. Form of advertising display permit and terms. Special use permits to erect and maintain advertising displays on state lands may be issued by or under authority of the Commissioner on forms provided by the Department, or, in his discretion, will be issued on Land Division form and will be subject to the provisions and supplemental conditions therein contained and to such other conditions as may be added thereto, and the provisions of law and these rules and regulations. The term thereof shall be for periods of not exceeding ten years and the permits will be revocable in the discretion of the Commissioner at any time.

14. Renewal of advertising display permits. An advertising display permit issued pursuant to these rules and regulations may be renewed, in the discretion of the Commissioner, upon the filing of an application for renewal not more than 60 nor less than 30 days prior to its expiration.

15. Identification of authorized advertising displays. Each advertising display erected or maintained under a permit issued pursuant to these rules and regulations shall, for convenient identification, have the serial number of such permit marked or painted thereon.

16. Unauthorized advertising displays

a. Persons who heretofore have erected advertising displays on state lands must either obtain permits to continue such displays, if authorized by these rules and regulations, or must remove the displays as promptly as possible.

b. Where an unauthorized advertising display on state land is found, the Commissioner will take appropriate steps to secure its removal, unless the owner obtains a permit. The owner, if known, will be given notice in writing of the requirements. Displays erected without permission prior to January 1, 1953, must be removed within three months from and after the date of the approval of these rules and regulations, unless application for a permit is made within that period. Displays erected prior to January 1, 1953, for which applications for permits are made but for which permits are refused, and unauthorized displays thereafter erected must be removed within such reasonable time as may be fixed by the Commissioner. If the owner fails to remove the display within the time allowed, it may be removed by the Commissioner and the owner will be held liable to the Department for expenses incurred in removing it. If the owner is unknown, or cannot be found, the display may be removed by the Commissioner without notice. A registered letter addressed to the owner at his last known place of residence, if returned unclaimed, will be considered sufficient service of notice.

17. Restrictions on advertising displays

a. No advertising display shall be permitted which, in the opinion of the Commissioner, would mar the landscape, hide road intersections or crossing, or which, in his opinion, is otherwise objectionable.

b. No advertising display shall be affixed to, or painted on any tree or rock situate on state lands or on any other natural object on such lands.

c. All advertising displays shall conform to the applicable state laws and local ordinances or regulations.

As amended Dec. 7, 1999, H.R. 747, 113 Stat. 1682.

No mortgage or other encumbrance of the said lands, or any part thereof, shall be valid in favor of any person or for any purpose or under any circumstances whatsoever. Said lands shall not be sold or leased, in whole or in part, except to the highest and best bidder at a public auction to be held at the county seat of the county wherein the lands to be affected, or the major portion thereof, shall lie, notice of which public auction shall first have been duly given by advertisement, which shall set forth the nature, time, and place of transaction to be had, with a full description of the lands to be offered, and be published once each week for not less than ten successive weeks in a newspaper of general circulation published regularly at the state capital, and in that newspaper of like circulation which shall then be regularly published nearest to the location of the lands so offered; nor shall any sale or contract for the sale of any timber or other natural product of such lands be made, save at the place, in the manner, and after the notice by publication provided for sales and leases of the lands themselves. Nothing herein contained shall prevent: (1) the leasing of any of the lands referred to in this section, in such manner as the legislature of the state of Arizona may prescribe, for grazing, agricultural, commercial, and domestic purposes, for a term of ten years or less; (2) the leasing of any of said lands, in such manner as the legislature of the state of Arizona may prescribe, whether or not also leased for grazing and agricultural purposes, for mineral purposes, other than for the exploration, development, and production of oil, gas, and other hydrocarbon substances, for a term of twenty years or less; (3) the leasing of any said lands, whether or not also leased for other purposes, for the exploration, development, and production of oil, gas and other hydrocarbon substances on, in, or under lands for an initial term of twenty years or less and as long thereafter as oil, gas, or other hydrocarbon substance may be produced therefrom in paying quantities, the leases to be made in any manner, with or without advertisement, bidding, or appraisalment, and under such terms and provisions as the legislature of the state of Arizona may prescribe, the terms and provisions to include a reservation of a royalty to said state of not less than 12 ½ per centum of production; or (4) the legislature of the state of Arizona from providing by proper laws of the protection of lessees of said lands, whereby such lessees shall be protected in their rights to their improvements (including water rights) in such manner that in case of lease or sale of said lands to other parties the former lessee shall be paid by the succeeding lessee or purchaser the value of such improvements and rights placed thereon by such lessee. As amended June 5, 1936, c. 517, 49 Stat. 1477; June 2, 1951, c. 120, 65 Stat. 51.

All lands, leaseholds, timber and other products of land, before being offered, shall be appraised at their true value, and no sale or other disposal thereof shall be made for a consideration less than the value so ascertained, nor upon credit unless accompanied by ample security, and the legal title shall not be deemed to have passed until the consideration shall have been paid. As amended June 5, 1936, c. 517, 49 Stat. 1477.

No lands shall be sold for less than their appraised value, and no lands which are or shall be susceptible of irrigation under any projects now or hereafter completed or adopted by the United States under legislation for the reclamation of lands, or under any other project for the reclamation of lands, shall be sold at less than twenty-five dollars per acre: *Provided*, that said state, at the request of the secretary of the Interior, shall from time to time relinquish such of its lands to the United States as at any time are needed for irrigation works in connection with any such government project. Added June 5, 1936, c. 517, 49 Stat. 1477.

There is hereby reserved to the United States and excepted from the operation of any and all grants made or confirmed by this act to said proposed state all land actually or prospectively valuable for the development of water power or power for hydro-electric use or transmission and which shall be ascertained and designated by the secretary of the Interior within five years after the proclamation of the President declaring the admission of the state; and no land so reserved and excepted shall be subject to any disposition whatsoever of said state, and any conveyance or transfer of such land by said state or any officer thereof shall be absolutely null and void within the period above named; and in lieu of the land so reserved to the United States and excepted from the operation of any of said grants there be, and is hereby, granted to the proposed state an equal quantity of land to be selected from land of the character named and in the manner prescribed in section twenty-four of this act.

Every sale, lease, conveyance, or contract of or concerning any of the lands hereby granted or confirmed, or the use thereof or the natural products thereof, not made in substantial conformity with the provisions of this act shall be null and void, any provisions of the constitution or laws of the said state to the contrary notwithstanding. It shall be the duty of the Attorney General of the United States to prosecute, in the name of the United States and in its courts, such proceedings at law or in equity as may from time to time be necessary and appropriate to enforce the provisions hereof relative to the application and disposition of the said lands and the products thereof and the funds derived therefrom.

The commissioner shall deposit the revenues derived from the fees in the trust land management fund pursuant to [§ 37-527](#).

**B.** The commissioner may establish selling and administrative fees, which may include:

1. Up to three per cent of the consideration paid for all lands and improvements sold or long-term leased.
2. Zoning application fees paid by the department to rezone land.
3. Legal advertising expenses required by law and paid by the department.

**C.** The revenues derived from the fees established pursuant to subsection B of this section shall be deposited as follows:

2. The monies collected pursuant to subsection B, paragraph 2 of this section as actual costs of zoning application fees paid by the department to rezone lands shall be deposited in a separate account of the state land department fund designated as the zoning application fee account. A.R.S. § 37-132

§ 37-132. Powers and duties

Effective: September 29, 2012

[Currentness](#)

A. The commissioner shall:

1. Exercise and perform all powers and duties vested in or imposed upon the department, and prescribe such rules as are necessary to discharge those duties.
2. Exercise the powers of surveyor-general except for the powers of the surveyor-general exercised by the treasurer as a member of the selection board pursuant to [§ 37-202](#).
3. Make long-range plans for the future use of state lands in cooperation with other state agencies, local planning authorities and political subdivisions.
4. Promote the infill and orderly development of state lands in areas beneficial to the trust and prevent urban sprawl or leapfrog development on state lands.
5. Classify and appraise all state lands, together with the improvements on state lands, for the purpose of sale, lease or grant of rights-of-way. The commissioner may impose such conditions and covenants and make such reservations in the sale of state lands as the commissioner deems to be in the best interest of the state trust. The provisions of this paragraph are subject to hearing procedures pursuant to title 41, chapter 6, article 10<sup>1</sup> and, except as provided in [§ 41-1092.08, subsection H](#), are subject to judicial review pursuant to title 12, chapter 7, article 6.<sup>2</sup>
6. Have authority to lease for grazing, agricultural, homesite or other purposes, except commercial, all land owned or held in trust by the state.
7. Have authority to lease for commercial purposes and sell all land owned or held in trust by the state, but any such lease for commercial purposes or any such sale shall first be approved by the board of appeals.

8. Except as otherwise provided, determine all disputes, grievances or other questions pertaining to the administration of state lands.

9. Appoint deputies and other assistants and employees necessary to perform the duties of the department and assign their duties subject to title 41, chapter 4, article 4<sup>3</sup> and require of them such surety bonds as the commissioner deems proper. The compensation of the deputy, assistants or employees shall be as determined pursuant to [§ 38-611](#).

10. Make a written report to the governor annually, not later than September 1, disclosing in detail the activities of the department for the preceding fiscal year, and publish it for distribution. The report shall include an evaluation of auctions of state land leases held during the preceding fiscal year considering the advantages and disadvantages to the state trust of the existence and exercise of preferred rights to lease reclassified state land.

11. Withdraw state land from surface or subsurface sales or lease applications if the commissioner deems it to be in the best interest of the trust. This closure of state lands to new applications for sale or lease does not affect the rights that existing lessees have under law for renewal of their leases and reimbursement for improvements.

**B.** The commissioner may:

1. Take evidence relating to, and may require of the various county officers information on, any matter that the commissioner has the power to investigate or determine.

2. Under such rules as the commissioner adopts, use private real estate brokers to assist in any sale or long-term lease of state land and pay, from fees collected under [§ 37-107, subsection B](#), paragraph 1, a commission to a broker that is licensed pursuant to title 32, chapter 20<sup>4</sup> and that provides the purchaser or lessee at auction. The purchaser or lessee at auction is not eligible to receive a commission pursuant to this subsection. A commission shall not be paid on a sale or a long-term lease if the purchaser or lessee is a political subdivision of this state.

3. Require a permittee, lessee or grantee to post a surety bond or any form of collateral deemed sufficient by the commissioner for performance or restoration purposes. The commissioner shall use the proceeds of a bond or collateral only for the purposes determined at the time the bond or collateral is posted. For agricultural lessees, the commissioner may require collateral as follows:

(a) As security for payment of the annual assessments levied by the irrigation district in which the state land is located if the lessee has a history of late payments or defaults. The amount of the collateral required shall not exceed the annual assessment levied by the irrigation district.

(b) As security for payment of rent, if an extension of time for payment is requested or if the lessee has a history of late payments of rent. The collateral shall be submitted at the time any extension of time for payment is requested. The amount of the collateral required shall not exceed the annual amount of rent for the land.

(c) A surety bond shall be required only if the commissioner determines that other forms of collateral are insufficient.

4. Withhold market and economic analyses, preliminary engineering, site and area studies and appraisals that are collected during the urban planning process from public viewing before they are submitted to local planning and zoning authorities.

5. Withhold from public inspection proprietary information received during lease negotiations. The proprietary information shall be released to public inspection unless the release may harm the competitive position of the applicant and the information could not have been obtained by other legitimate means.

6. Issue permits for short-term use of state land for specific purposes as prescribed by rule.

7. Contract with a third party to sell recreational permits. A third party under contract pursuant to this paragraph may assess a surcharge for its services as provided in the contract, in addition to the fees prescribed pursuant to [§ 37-107](#).

8. Close urban lands to specific uses as prescribed by rule if necessary for dust abatement, to reduce a risk from hazardous environmental conditions that pose a risk to human health or safety or for remediation purposes.

9. Notwithstanding subsection A, paragraph 4 of this section, authorize, in the best interest of the trust, the extension of public services and facilities either:

(a) That are necessary to implement plans of the local governing body, including plans adopted or amended pursuant to [§ 9-461.06](#) or [11-805](#).

(b) Across state lands that are either:

(i) Classified as suitable for conservation pursuant to [§ 37-312](#).

(ii) Sold or leased at auction for conservation purposes.

C. The commissioner or any deputy or employee of the department shall not have, own or acquire, directly or indirectly, any state lands or the products on any state lands, any interest in or to such lands or products, or improvements on leased state lands, or be interested in any state irrigation project affecting state lands.

The surcharge shall be assessed only for that period of time the state trust land is subleased. The surcharge shall be paid to the department when the annual rental is due, or upon receiving department permission to sublease if the sublease is approved after the annual rental is due.

A.R.S. § 37-285

§ 37-285. Rental rates for grazing and other lands; grazing land valuation commission; reclassification and reappraisal; definitions

Effective: July 29, 2010

[Currentness](#)

**A.** An agricultural, commercial or homesite lease shall provide for an annual rental of not less than the appraised rental value of the land, and never less than five cents per acre per year. The rental provided in such leases is subject to adjustment each year.

**B.** A grazing lease shall provide for an annual rental of the grazing land as computed under this section. All grazing land shall be classified and appraised on the basis of its forage and annual carrying capacity, measured in animal unit months. The annual rental rate for grazing land shall be the amount determined by multiplying the number of animal unit months to be grazed on the lands by the true value rental rate per animal unit month as established by the commissioner. The rental rate per animal unit month is the rental rate determined by the commissioner based on the recommendations of the grazing land valuation commission under subsection E of this section.

**C.** Before September 1, 1994, and at other times the commissioner may propose, but not more frequently than every five years, the governor shall appoint a grazing land valuation commission consisting of five members appointed by the governor pursuant to [§ 38-211](#). The commission shall serve for a period of one year from the date the members assume office during which period the commission shall complete the appraisal. The commission shall consist of the following members, each of whom shall have experience in analyzing and valuing the use of forage on grazing land:

1. One member who is a professional appraiser and who is certified in this state.
2. One member who is a professor and who serves on the faculty of the college of agriculture at the university of Arizona.
3. One member who is a retired employee of a financial institution that is actively engaged in agricultural lending.
4. One member who primarily derives income from livestock grazing and who does not hold a state lease.
5. One member who is a conservationist and who represents a natural resource conservation district in this state.

**D.** Each member of the grazing land valuation commission shall receive compensation at the rate of one hundred dollars for each meeting. Each member of the commission shall receive reimbursement for expenses pursuant to title 38, chapter 4, article 2.<sup>1</sup>

**E.** The grazing land valuation commission may employ a person who is experienced in analyzing and valuing the use of forage on grazing land and who, together with the members of the commission, shall gather the information that is necessary to prepare an appraisal to determine the true value of the use of forage on state grazing land and shall prepare this appraisal using both the market and income approaches. The appraisal report shall recommend a grazing fee that will equal the true value as recommended by the commission. The information and work products gathered in preparing the appraisal shall be available to the public. In determining the rental rate using the market approach the commission shall determine the typical lease of two years or more of private grazing land located in this state during normal years. The commission shall compare all factors that make up the bundle of rights and obligations in the typical private lease with the factors that make up the bundle of rights and obligations in the typical state lease. The commission shall document all adjustments, calculations and assumptions made in reaching a conclusion of true rental value for the state land grazing fee and shall determine economic benefit, burden or value attributable to each of these factors. These factors shall include the following:

1. All services, equipment and water rights provided by the lessor or lessee.
2. All improvements typically constructed and maintained to facilitate or enhance the use of the land for livestock grazing, wildlife, hunting or recreation.
3. All management and protection services that are typically provided.
4. The tenure, right to renew, assignability, right to reimbursement for improvements, responsibility for property taxes, right of others to share in the use of the land and ability to control access by others.
5. The size, location, accessibility, condition and carrying capacity of the land being leased and all related costs.

**F.** The commissioner's decision under this section may be appealed by any affected lessee to the board of appeals pursuant to [§ 37-215](#), and, except as provided in [§ 41-1092.08, subsection H](#), the decision of the board of appeals may be appealed to the superior court pursuant to title 12, chapter 7, article 6.<sup>2</sup>

**G.** The commissioner may make a reclassification or reappraisal, or both, at any time. If a reclassification or reappraisal, or both, is made pursuant to a request of a lessee, before expiration of the lease, the lessee shall pay a reclassification fee prescribed pursuant to [§ 37-107](#) plus the actual expenses incurred in making a reappraisal.

**H.** The department may authorize nonuse for part or all of the grazing use upon request of the lessee at least sixty days prior to the beginning of the billing date. The rental fee shall be based on the animal unit months used, but the total rental fee for partial or full nonuse shall not be less than five cents per acre per year.

**I.** For the purposes of this section:

1. “Animal unit” means one weaned beef animal over six months of age, or one horse, or five goats, or five sheep, or the equivalent.

2. “Animal unit month” means one animal unit grazing for one month.

[Chapter 2. Administration of State and Other Public Lands \(Refs & Annos\)](#)

[Article 14. Exchange of Public Lands \(Refs & Annos\)](#)

A.R.S. § 37-604

§ 37-604. Exchange of state land; procedure; limitation and exceptions; definition

Effective: December 13, 2012

[Currentness](#)

**A.** State land may be exchanged for public land in this state to improve the management of state lands for the purpose of sale or lease or conversion to public use of state lands or to assist in preserving and protecting military facilities in this state. Exchanges may be made for land owned or administered by other state agencies, counties, municipalities or the United States or its agencies. Exchanges with the United States or its agencies shall be in conformance with [§ 37-722](#), but the department shall also follow the procedures and requirements prescribed by [article X, section 12, Constitution of Arizona](#), subsection C, paragraph 7 of this section and the classification procedures in [§ 37-212](#).

**B.** The department shall adopt rules governing the application and procedure for the exchange of state land. Such rules shall include the following requirements:

1. The application shall include:

(a) The name, mailing address, telephone number and relevant affiliation, if any, of the applicant.

(b) A legal description of all lands to be considered for exchange.

(c) A list of permanent improvements on the state lands to be considered for exchange.

(d) A list of the leasehold interest in the state land to be considered for exchange.

(e) Accompanying agreements, if any, with the leaseholder or owner of improvements on the state land to be considered for exchange.

2. Payment of fees prescribed for that purpose pursuant to [§ 37-107](#).

3. Such additional requirements as the department determines to be necessary. On determining that the application is complete and correct, including payment of the required fees, and on completion of processing and analyzing the application, and on determining that the proposed exchange would benefit the applicable trust, the department shall notify and deliver a report

containing details of the proposed exchange to the president of the senate, the speaker of the house of representatives and the state legislators from the legislative districts in which the lands proposed to be exchanged are located.

C. Exchanges of state lands are subject to the following requirements:

1. The commissioner shall determine by at least two independent appraisals that the state lands being considered for exchange are of substantially equal value or of lesser value than the land offered by the applicant.

2. At least two independent analyses of the proposed exchange must be conducted to determine:

(a) The income to the trust from the lands before the exchange and the projected income to the trust after the exchange.

(b) The fiscal impact of the exchange on each county, city or town and school district in which all the lands involved in the exchange are located.

(c) The physical, economic and natural resource impacts of the proposed exchange on the surrounding or directly adjacent communities and the impacts on military facilities, local land uses and land use plans.

3. The commissioner may require the applicant to pay the cost of the independent appraisals and analyses required by this subsection.

4. No county or municipality may be permitted to select lands in another county or municipality.

5. State lands known to contain oil, gases and other hydrocarbon substances, coal or stone, metals, minerals, fossils and fertilizer, in paying quantities, and state lands adjoining lands on which there are producing oil or gas wells, or adjoining lands known to contain any of such substances in paying quantities shall not be exchanged. These prohibitions against exchange shall not prevent the exchange of lands where the state does not own such substances, minerals or metals in the lands to be considered for exchange.

6. All state lands offered for trade pursuant to this section must be located in the same county as the lands offered to the state. However, lands in adjoining counties more than three miles outside the corporate boundaries of incorporated cities and towns having a population of ten thousand people or less and lands in adjoining counties but more than five miles outside the corporate boundaries of incorporated cities and towns having a population in excess of ten thousand people may be exchanged to facilitate consolidating land ownership if the boards of supervisors of the counties in which lands are to be exchanged give their prior approval.

7. Prior to public notice of a proposed exchange of state lands for other lands, the department shall give thirty days' notice in writing to other interested state agencies, counties, municipalities, the military affairs commission established by [§ 26-261](#), each military facility at the address on record at the department and to leaseholders on state lands that are to be exchanged and on state lands that are adjacent to the lands to be exchanged.

8. Before any state land may be considered for exchange under this article, the land shall be classified as suitable for such purposes in accordance with [§ 37-212](#). Any person adversely affected by such classification may appeal from the decision as provided in [§ 37-215](#).

9. After determining that the application is complete and correct and all required payments, appraisals and analyses have been completed, the department shall publish notice of the proposed exchange in the same manner and places as is required for the sale of state lands pursuant to [§ 37-237](#), except that the notice shall be published once each week for six consecutive weeks. The notice shall contain a legal description of the properties involved and other pertinent terms and conditions of the exchange. The department shall also schedule at least two public hearings on the exchange contemplated in the notice. One hearing must be held at the state capital and another hearing must be held in a location of general accessibility in the proximate vicinity of the state lands being exchanged. Any person may appear and comment on the proposed exchange at that time.

10. Within sixty days after the conclusion of the last hearing, the commissioner shall determine and issue a written finding recommending either that the exchange be denied or approved and shall transmit the finding to the governor, the president of the senate, the speaker of the house of representatives and the secretary of state.

**D.** Each exchange transaction must be approved by the qualified electors of this state in the form of a referendum submitted and conducted pursuant to [article IV, part 1, section 1, Constitution of Arizona](#), at the next regular general election. To be approved, the proposition must receive an affirmative vote of a majority of the qualified electors voting on the measure.

**E.** Lands conveyed to the state under this article shall, on acceptance of title and recording, be dedicated to the same purpose and administered under the same laws to which the lands conveyed were subject, but may be reclassified as provided in [§ 37-212](#).

**F.** This section applies with respect to the exchange of lands held in trust by this state pursuant to the enabling act and the Constitution of Arizona and does not apply with respect to any other state land under the jurisdiction of the department or the commissioner.

**G.** The provisions of this section do not diminish or otherwise affect the commissioner's fiduciary responsibilities with respect to lands held in trust by this state as provided by the enabling act and the Constitution of Arizona.

**H.** For the purposes of this section, “military facilities” includes:

1. Military airports, ancillary military facilities, military training routes, high noise or accident potential zones and territory in the vicinity as defined in [§ 28-8461](#).

2. Military reservations or other real property owned by, leased to, designated for, reserved to or under the jurisdiction of an active unit of the uniformed services of the United States or any reserve or national guard component of the uniformed services of the United States.

RE: Arizona State Land Department's Stakeholder process update

Dear Chairperson Sornsins:

Pursuant to the request from GRRC Council Members to provide detailed information on the Department's stakeholder engagement relative to the current Proposed Rulemaking process for Articles 1, 7, 8, 9, and 11.

The Department engaged with 55 stakeholders which represented major stakeholder interest groups including, but not limited to, Appraisers, Agribusiness, Agriculture and Range Producers, Public Service Corporations, Municipalities and other Governmental Entities, Communications Providers, and Commercial Professional Groups, as an example.

While the Department has implemented a webpage process to receive comments, it is important to note that this webpage was activated after the Notice of Proposed Rulemaking was submitted to the Secretary of State's Office for publication. As such, the webpage location, and any reference to the webpage, has not been provided to the public for implementation. The Department did, however, advise the Stakeholders of the webpage being another alternative for them to use for the current Rulemaking Comment period, and continues to provide this webpage as another option for Stakeholders and members of the public to utilize in addition to email or written letter comments for future public comments. As of Feb 1, 2024, the Department has only been provided comments from stakeholders via email at the published rules@azland.gov address.

A timeline of activities is provided below, for the purpose of outlining the Department's activity relative to stakeholder engagement for Rulemaking.

Attn: GRRC Board Members

RE: Arizona State Land Department's Bi-Monthly Check-in

Dear GRRC Board Members:

The Arizona State Land Department (“Department”) is currently conducting major Rulemaking and Rule Review initiatives and continues to express its commitment to prioritizing the Rulemaking process with the Governor's Regulatory Review Council (“Council”), Department Stakeholders, and members of the Public.

The Department is celebrating its achievements in making wonderful progress, in advance of schedule, to meet the deadlines that GRRC has mandated. While continuing to meet the deadlines for both rule writing and rule review processes, the Department team charged with this effort is also working on standardizing and continuously improving our rule writing processes. We are pleased to provide this celebratory update to GRRC, while also working to ensure that we are producing work that meets statutory obligations.

The Department has put together a team of employees who are committed to the rulemaking process. This team has been working very hard to meet the expectations of the Council, despite the other work on their plate and strict deadlines approaching. It is a priority for the Department to rise to the challenges of this process, some of which were put into motion prior to the formation of the current rulemaking team. We continue to learn and strive to do our best to meet the goals set, and with that commitment we humbly ask that the Council grant us the grace to do the work.

At the Council's January 30, 2024 Study Session, several councilmembers expressed concern regarding the Department's Stakeholder outreach. The Department provided an outline of the activities which were conducted with Stakeholders, along with a list of Stakeholders who were contacted by the Department. Stakeholder outreach was conducted in the context of the Proposed Rulemaking Process, not regarding the Five Year Rule Reviews which were the items included on the Study Session agenda.

At the Council's meeting on February 6, 2024, several councilmembers indicated their concern for the exclusion of Stakeholders who they believed would have an interest in the Proposed Rulemaking. Councilmembers noted that members of the Agriculture, Livestock and Mining trades were not included in the Stakeholder engagement for the current Proposed Rulemaking. The Department would like to highlight that it did include members of the above trades that were relevant to the articles and subject matter proposed for amendments, as noted below.

### Agriculture and Farming/Ranching/Livestock:

American Society of Farm Manager and Rural Appraisers  
Arizona Agribusiness and Water Council  
Arizona Beef Council  
Arizona Cattle Feeders' Association  
Arizona Cattle Growers Association  
Arizona Cotton Growers Association  
Arizona Farm and Ranch Group  
Arizona Farm Bureau  
Arizona Farm Bureau Federation  
Arizona Milk Producers  
Western Growers

Many of these Associations reached out to their membership to encourage review of the Proposed Rulemaking and to provide written comment. ASLD is also conducting concurrent Stakeholder initiatives and did not include these in the list provided to the Council. Those Stakeholders include members of the Arizona Mining Association and the Arizona Rock Products Association, who are currently working with the Department on a - significant continuous improvement project and will have direct impact on the Department's Articles 18, 19, 20, and 21.

In addition to the above, a Notice of Public Comment was published in the Administrative Register, Volume 29, Issue 46, Page 3588 on November 17, 2023. The initial deadline for the close of Public Comment was December 29, 2023 at 4:00 pm. Due to Stakeholder feedback, the Department filed an extension of Public Comment through February 2, 2024, at 4:00 pm, as published in the Administrative Register, Volume 29, Issue 52, Page 3958 on December 29, 2023.

The Department acknowledges councilmembers' feedback regarding the online portal. The Department created this portal in response to the Council's feedback in order to provide an additional, convenient option for submission of Public Comment. The portal was not in operation prior to Notice of Docket for rulemaking on Articles 7, 8, 9, and 11, however Stakeholders were provided the portal information. The portal enhances the Department's
