pursuant to this section. The actuary shall make this determination in an annual valuation performed as of June 30. The valuation as of June 30 of a calendar year shall determine the percentage to be applied to compensation for the fiscal year beginning July 1 of the following calendar year. The actuary shall determine the total employer contribution using an actuarial cost method consistent with generally accepted actuarial standards. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period consistent with generally accepted actuarial standards.

C. All contributions made by the employer and allocated to the LTD trust fund established by section 38-797.02 are irrevocable and shall be used as benefits under this article or to pay expenses of the LTD program.

D. ASRS shall provide a preliminary report on or before November 30 of the valuation year and a final report on or before January 15 of the following year to the governor, the speaker of the house of representatives and the president of the senate on the contribution rate for the ensuing fiscal year.

**38-797.07. LTD program benefits; limitations; definitions**

3. Monthly LTD program benefits are not payable until a member has had a disability for a period of six consecutive months.

4. Monthly LTD program benefits are not payable to a member who files an initial claim for disability more than twelve months after the date of the member's date of disability unless the member demonstrates to ASRS good cause for not filing the initial claim within twelve months after the date of disability.

(ii) Is employed by an employer before July 1, 1988.

(e) For a member whose most recent membership in the LTD program commences on or after July 1, 2008, an injury or sickness for which the member received medical treatment within six months before the date of the member's coverage under the LTD program. (a) The date the member ceases to have a disability.

(b) The date the member:

(i) Ceases to be under the direct care of a doctor.

9. Except as provided in paragraph 2 of this subsection, the minimum benefit for a member who is entitled to receive monthly LTD program benefits is \$50 per month.

10. Members are eligible to receive the LTD program benefits and payments described in paragraph 1 of this subsection, and the reductions provided by paragraph 1 of this subsection apply even though the social security benefits are not actually paid as follows:

(a) For primary and dependent social security benefits, the members are eligible for the social security benefits until the social security benefits are actually awarded, or if the social security benefits are denied, until the member pursues the social security appeal process through a hearing before a social security administrative law judge or until the insurance company or claims administrator determines that the member is not eligible for social security benefits.

(b) For benefits and payments from any other source provided in paragraph 1 of this subsection, the members are eligible for the benefits if it is reasonable to believe that those benefits will be paid on proper completion of the claim or would have been paid except for the failure of the member to pursue the claim in time.

11. A member shall be considered to have a disability if based on objective medical evidence:

(a) During the first thirty months of a period of disability, the member is unable to perform one or more duties of the occupation held by the member when the member developed a disability.

B. A member who is eligible pursuant to article 2 of this chapter and who receives monthly LTD program benefits is entitled to receive service credit pursuant to article 2 of this chapter from the time disability commences until LTD program benefits cease to be payable, except that for a member who receives monthly LTD program benefits on or after June 30, 1999, the number of years of service credited to the member's retirement account during the period ASRS disburses LTD program benefit payments shall not cause the member's total credited service for retirement benefits to exceed the greater of thirty years or the total years of service credited to the member's retirement account on the commencement of disability.

C. This section does not prohibit a member whose disability has been established to the satisfaction of the board from relying on treatment by prayer through spiritual means in accordance with the tenets and practice of a recognized church, religious denomination or Native American traditional medicine by a duly accredited practitioner of the church, denomination or Native American traditional medicine without suffering reduction or suspension of the member's monthly LTD program benefits.

D. ASRS may suspend or terminate benefits under this article if a member fails to provide information, data, paperwork or other materials that are requested by ASRS or the insurance company or claims administrator that is selected by the board to administer the LTD program. ASRS or its contracted administrator may investigate information that indicates a member may have falsified information or records related to LTD program eligibility or benefits or may not otherwise meet the requirements of LTD program eligibility. In connection with an investigation involving the LTD program, ASRS or its contracted administrator may collect and examine any statement or evidence, or may authorize a third party to collect and examine any statement or evidence, that relates to a member falsifying information or records related to LTD program eligibility or benefits. If the member provides the information requested, ASRS shall retroactively reinstate the benefits or claim for which the member qualifies under this article.

E. For the purposes of this section:

1. "Objective medical evidence" means evidence that established facts and conditions, as perceived without distortion by personal feelings, prejudices or interpretations, and includes x-rays, quantitative tests, laboratory findings, data, records, reports from the attending physician and reports from a consulting physician, as applicable.

#### 38-797.08. Errors; benefit recomputation

If any change or error in the records results in any member receiving from the LTD program more or less than the member would have been entitled to receive if the records had been correct, the board shall correct the error and shall adjust the payments in a manner so that the equivalent of the benefit to which the member was correctly entitled is paid. The board shall correct any change or error and shall pay the appropriate monies to a member or shall recover monies from the member if the member is overpaid. The board shall recover monies by reducing any benefit that is otherwise payable by ASRS or the LTD program to an active, inactive, member with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

#### 38-797.10. Assurances and liabilities

A. Nothing contained in this article shall be construed as:

B. A member does not have any right to, or interest in, any LTD program assets on termination of the member's employment or otherwise, except as provided from time to time in the LTD program, and then only to the extent of the benefits payable to the member out of LTD program assets. All payments of benefits shall be made solely out of LTD program assets and neither the employers, the board nor any member of the board is liable for payment of benefits in any manner.

C. Benefits, employer and member contributions, earnings and all other credits payable under this article are not subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution or levy of any kind, either voluntary or involuntary, before actually being received by a person entitled to the benefit, earning or credit, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge, garnish, execute or levy or otherwise dispose of any benefit, earning or credit under this article is void. The LTD program is not in any manner liable for, or subject to, the debts, contracts, liabilities, engagements or torts of any person entitled to any benefit, earning or credit under this article.

D. Neither the employers, the board nor any member of the board guarantees the LTD trust fund established by section 38-797.02 in any manner against loss or depreciation, and they are not liable for any act or failure to act that is made in good faith pursuant to this article. The employers are not responsible for any act or failure to act of the board or any member of the board. Neither the board nor any member of the board is responsible for any act or failure to act of any employer.

E. This section does not exempt benefits of any kind from a writ of attachment, a writ of execution, a writ of garnishment and orders of assignment issued by a court of record as the result of a judgment for arrearages of child support or for child support debt.

#### 38-797.11. Exemptions from execution, attachment and taxation; exception

#### 38-797.13. Reservation to legislature

The right to modify, amend or repeal this article, or any provisions of this article, is reserved to the legislature.

#### 38-797.14. Liquidation of LTD program

If the legislature determines that the LTD program is no longer to be operated for the purposes set forth in this article, any monies remaining in the LTD trust after paying all liabilities of the trust or after making adequate provision for paying those liabilities revert to the general funds of the employers that were making contributions to the LTD program at the time the legislature terminates the LTD program. The reverted monies shall be prorated according to the gross amount of contributions made by the employers to the LTD program.

#### 38-797.15. Interest paid to members and employers

ASRS may not pay interest on any amount paid to a member, an alternate payee or an employer pursuant to this article unless specifically authorized by this article.

#### 38-921. Transfer of retirement service credits from one retirement system or plan to another retirement system or plan in this state; definitions

A. An active or inactive member of a state retirement system or plan, including the retirement system provided for in article 2 of this chapter, the elected officials' retirement plan provided for in article 3 of this chapter, the public safety personnel retirement system provided for in article 4 of this chapter or the corrections officer retirement plan provided for in article 6 of this chapter, may transfer service credits from one system or plan to the member's current or former system or plan pursuant to section 38-922 if all of the following conditions are met:

1. The board governing the retirement system or plan from which the service credits are being transferred mutually agrees with the board governing the retirement system or plan to which the service credits are being transferred regarding the terms of the transfer.

2. The transfer does not cause either the retirement system or plan to which the transfer is made or the retirement system or plan from which the transfer is made to incur any unfunded accrued liabilities as a result of the transfer.

3. The member initiates the transfer by making written application to the governing board of the retirement system or plan to which the member is contributing or has contributed.

B. For the purposes of this section:

1. "Active member" means a member who satisfies the eligibility criteria of the state retirement system or plan and who is currently making member contributions to or receiving credited service from the state retirement system or plan.

2. "Inactive member" means a member of the state retirement system or plan who previously made contributions to the state retirement system or plan and who satisfies each of the following:

(a) Has not retired.

(b) Is not eligible for active membership in the state retirement system or plan.

(c) Is not currently making contributions to the state retirement system or plan.

(d) Has not withdrawn contributions from the state retirement system or plan.

### **38-922. Transfer or redemption of service credits**

A. Service credits qualified in accordance with section 38-730 or 38-921 may be transferred or redeemed in accordance with this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall be calculated:

1. The prior system or plan shall calculate the amount equal to the actuarial present value of a member's projected benefits to the extent funded on a market value basis as of the most recent actuarial valuation under the prior system or plan as calculated by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer. If a system's or plan's market value is greater than one hundred per cent, the system or plan shall use a one hundred per cent market value.

2. The system or plan to which the member is transferring shall calculate the increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. This calculation shall be performed by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer.

C. In the event a member decides to transfer:

1. If the amount calculated in subsection B, paragraph 2 is greater than the amount calculated in subsection B, paragraph 1:

(a) The prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 1 or the member's accumulated contribution account balance.

(b) If the amount transferred is less than the amount calculated under subsection B, paragraph 2, the transferring member shall elect either to pay the difference or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits used in making the calculation under subsection B, paragraph 1 multiplied by the ratio of the amount calculated under subsection B, paragraph 1 to the amount calculated under subsection B, paragraph 2.

2. If the amount calculated in subsection B, paragraph 2 is less than or equal to the amount calculated in subsection B, paragraph 1, the prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 2 or the member's accumulated contribution account balance.

D. In the case of an applicant who has withdrawn the applicant's member contributions from another prior system or plan of this state, the applicant shall pay into the new system or plan to which the applicant is transferring an amount equal to the increase in the actuarial present value of the projected benefits provided by the service credits being redeemed and this amount shall be included in the member's current accumulated contribution account balance. This calculation shall be performed by the actuary of the system or plan to which the service credits are being transferred using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements.

E. Service credits shall not be applied to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

F. A member electing to transfer to or redeem service with the public safety personnel retirement system, the elected officials' retirement plan or the corrections officer retirement plan pursuant to this section may pay for the service being transferred or redeemed in the form of a lump sum payment to the system or plan, a trustee-to-trustee transfer or a direct rollover of an eligible distribution from a plan described in section 402(c)(8)(B)(iii), (iv), (v) or (vi) of the internal revenue code or a rollover of an eligible distribution from an individual retirement account or annuity described in section 408(a) or (b) of the internal revenue code.

2. The system or plan to which the member is transferring shall calculate any increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. The actuary of the system or plan to which the service credits are being transferred shall perform this calculation using the actuarial method and assumptions recommended by the actuary and adopted by the governing body of the retirement system or plan.

C. If a member decides to transfer:

1. The prior system or plan shall transfer to the present system or plan the amount determined pursuant to subsection B, paragraph 1 of this section. If the amount calculated in subsection B, paragraph 2 of this section is greater than the amount determined in subsection B, paragraph 1 of this section, the transferring member shall either elect to pay the difference in order to receive all service credits earned under the prior system or plan or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section multiplied by the ratio of the amount calculated under subsection B, paragraph 1 of this section to the amount calculated under subsection B, paragraph 2 of this section.

2. **ARIZONA STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-126, R2-8-133

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 13, 2024

**SUBJECT: STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-126, R2-8-133

---

### **Summary:**

This regular rulemaking from the Arizona State Retirement System Board (ASRS) seeks to amend two (2) rules in Title 2, Chapter 8, Article 1 related to Retirement Application and Survivor Benefit Applications. Specifically, the ASRS seeks to amend its rules to clarify when the ASRS may cancel a retirement debit card it has issued due to non-activation and how a member may have a benefit reinstated after such a cancellation.

The ASRS indicates, without this rulemaking, members will not have adequate notice about how a debit card may be canceled and how a member may have their retirement benefits reissued. The ASRS indicates notice of such information is necessary in order to ensure that retirement benefits are properly disbursed. By promulgating these rules, the ASRS indicates members will have a better understanding of when their debit card may be canceled and how to have their benefits reissued. Increasing understanding of how the ASRS may cancel a debit card will increase the member's understanding of how to request their retirement benefits be reissued and reduce confusion, which will reduce burden on the public.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The ASRS cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The ASRS indicates it did not review any study relevant to this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The ASRS states that when a retiree does not provide banking information in order to receive benefits, the ASRS will issue a debit card to the retiree. However, if the retiree does not activate the debit card, the ASRS must cancel the card and the retiree must contact the ASRS to have the benefits reissued. The ASRS states that without this rulemaking, members will not have adequate notice about how a debit card may be canceled and how a member may have their retirement benefits reissued. As such, the ASRS believes these rules will increase the clarity and effectiveness of the applicable debit card requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS manages debit cards. Stakeholders include the ASRS and all members of the ASRS, as well as their beneficiaries. The ASRS indicates it currently has a total membership of approximately 652,864 and 664 employers.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The ASRS believes this is the least costly and least intrusive method because it will clarify how the ASRS administers debit cards.

6. **What are the economic impacts on stakeholders?**

The ASRS states that the rulemaking does not directly affect state agencies and does not provide any benefits or impose any costs on political subdivisions. They state no businesses, of any size, are directly affected by the rulemaking. The ASRS believes there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The ASRS indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The ASRS indicates it received no public comments related to this rulemaking and no one attended the oral proceeding held on September 5, 2023.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The ASRS indicates the proposed amended rules do not require issuance of a permit.

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The ASRS indicates there is no federal law applicable to these rules.

11. **Conclusion**

This regular rulemaking from the ASRS seeks to amend two (2) rules in Title 2, Chapter 8, Article 1 to clarify when the ASRS may cancel a retirement debit card it has issued due to non-activation and how a member may have a benefit reinstated after such a cancellation.

The ASRS is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

**state:**

Not applicable.

**9. A summary of the economic, small business, and consumer impact:**

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies when the ASRS may cancel a retirement debit card it has issued due to non-activation and how a member may have a benefit reinstated after such a cancellation.

**10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

None

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

None.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rules do not require a permit.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

There are no federal laws applicable to these rules.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

No materials are incorporated by reference.

**14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

**ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT<sup>1</sup>**

**TITLE 2. ADMINISTRATION**

**CHAPTER 8. STATE RETIREMENT SYSTEM BOARD**

1. Identification of the rulemaking:

The ASRS needs to amend its rules relating to how the ASRS may cancel and reinstate a retirement debit card issued by the ASRS.

a. The conduct and its frequency of occurrence that the rule is designed to change:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. When a retiree does not provide banking information in order to receive retirement benefits, the ASRS will issue a debit card to the retiree. However, if the retiree does not activate the debit card, the ASRS must cancel the card and the retiree must contact the ASRS to have benefits reissued.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Without this rulemaking, members will not have adequate notice about how a debit card may be canceled and how a member may have their retirement benefits reissued. Notice of such information is necessary in order to ensure that retirement benefits are properly disbursed. By promulgating these rules, members will have a better understanding of when their debit card may be canceled and how to have their benefits reissued. Increasing understanding of how the ASRS may cancel a debit card will increase the member's understanding of how to request their retirement benefits be reissued and reduce confusion, which will reduce burden on the public.

---

<sup>1</sup> If adequate data are not reasonably available, the agency shall explain the limitations of the data, the methods used in an attempt to obtain the data, and characterize the probable impacts in qualitative terms. (A.R.S. § 41-1055(C)).

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking will clarify how the ASRS cancels debit cards, thereby increasing understandability of how members' benefits may be affected, thereby increasing the efficiency of the administration. Clarifying how the ASRS cancels a debit card and how a member may request benefits be reissued will ensure that payment efforts are processed more efficiently. As discussed above and below, these rules will increase the clarity and effectiveness of the applicable debit card requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how ASRS manages debit cards.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies when the ASRS may cancel a retirement debit card it has issued due to non-activation and how a member may have a benefit reinstated after such a cancellation.

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement:

E-mail: [JessicaT@azasrs.gov](mailto:JessicaT@azasrs.gov)

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

All members of the ASRS, as well as their beneficiaries, will be directly affected by, bear the costs of, and directly benefit from this rulemaking. The ASRS incurred the cost of the rulemaking. The ASRS currently has a total membership of approximately 652,864 and 664 employers.

5. Cost-benefit analysis:

- a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

This rulemaking does not directly affect state agencies and the ASRS has determined that no new full-time employees will be required to implement and enforce the rules.

- b. Costs and benefits to political subdivisions directly affected by the rulemaking:

This rulemaking does not provide any benefits or impose any costs on political subdivisions.

- c. Costs and benefits to businesses directly affected by the rulemaking:

No businesses are directly affected by the rulemaking.

6. Impact on private and public employment:

The rulemaking will have no impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:
  - a. Identification of the small business subject to the rulemaking:  
No businesses, regardless of size, are subject to the rulemaking.
  - b. Administrative and other costs required for compliance with the rulemaking:  
Not applicable.
  - c. Description of methods that may be used to reduce the impact on small businesses:  
Not applicable.
8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:  
All ASRS retired members and beneficiaries are directly affected by the rulemaking.  
The effect has been previously described above.
9. Probable effects on state revenues:  
There will be no effect on state revenues.
10. Less intrusive or less costly alternative methods considered:  
The ASRS believes this is the least costly and least intrusive method because it will clarify how the ASRS administers debit cards.

<sup>2</sup> Small business has the meaning specified in A.R.S. § 41-1001(20).

**PREFACE**

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
 ADMINISTRATIVE RULES DIVISION

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

**RULE HISTORY**

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

**AUTHENTICATION OF PDF CODE CHAPTERS**

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

**HOW TO USE THE CODE**

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

**ARIZONA REVISED STATUTE REFERENCES**

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

**PERSONAL USE/COMMERCIAL USE**

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

**R2-8-125. Termination Incentive Program by 30% Salary Increase; Unfunded Liability Calculations**

- A. The following definitions apply to this Section unless otherwise specified:
1. "Average monthly compensation" means the same as in A.R.S. § 38-711(5).
  2. "Baseline salary" means a member's Average Monthly Compensation during the 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit. The Baseline Salary shall include only Compensation from the Same Employer that paid the Compensation used in the calculation of a member's retirement benefit. If the member has less than 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit, then the ASRS will calculate the member's Baseline Salary as the total of the 12 months of Compensation the member received:
    - a. Starting with the first month of Compensation the member received in the 12 months immediately preceding the member's Average Monthly Compensation, or within the Average Monthly Compensation; and

- b. Ending with the 12th month of Compensation the member received after the first month of Compensation used in subsection (A)(2)(a).
- 3. "Compensation" means the same as in A.R.S. § 38-711(7).
- 4. "Job reclassification" means a change in the classification of an employment position made by the Employer when it finds the duties and responsibilities of the position have changed significantly, materially, and permanently from when the position was last classified.
- 5. "Promotion" means, excluding a Salary Regrade or Job Reclassification, the act of advancing an employee to a higher salary or higher rank within the organization, which is characterized by:
  - a. A change in the employee's primary job responsibilities; and
  - b. A pay increase that is supported by a standard salary administration practice that is documented by the Employer; and
  - c. A competitive selection process or a noncompetitive selection process supported by a standard hiring practice that is documented by the Employer.
- 6. "Salary regrade" means a change in the salary scale of an employment position made by the Employer in order to align the position's salary scale with market factors and/or the Employer's current salary practices.
- 7. "Same employer" means the Employer has the same ownership as another Employer, except that for purposes of this Section, each agency, board, commission, and department of the State of Arizona shall be considered a separate Employer.
- 8. "Termination Incentive Program" means the same as in A.R.S. § 38-749(D)(1).
- B. Upon a member's retirement on or after January 1, 2018, the ASRS shall compare the member's Baseline Salary to the Average Monthly Compensation for each consecutive 12 months of Compensation used to calculate the member's retirement benefit in order to determine whether an Employer utilized a Termination Incentive Program as defined in A.R.S. § 38-749(D)(1). This subsection only applies to members who earned the Compensation used to calculate the member's Baseline Salary, on or after July 1, 2005.
- C. Upon determining that a Termination Incentive Program exists under subsection (B), the ASRS shall send a Request for Documentation to the Employer through the Employer's secure ASRS account, in order to notify the Employer that the ASRS has identified a Termination Incentive Program for a particular member and the Employer may be required to pay the ASRS for the unfunded liability resulting from the Termination Incentive Program, unless the Employer can prove the increase in the member's salary was the result of a Promotion.
- D. Within 90 days of the date on the Request for Documentation, the Employer shall respond to the Request for Documentation by:
  - 1. Submitting documentation through the Employer's secure ASRS account that shows the member's increase in Compensation was the result of a Promotion; or
  - 2. Acknowledging in writing that the increase in the member's salary was not the result of a Promotion.
- E. Pursuant to subsection (D), the Employer bears the burden of producing evidence that a Promotion has occurred as defined in subsection (A)(5).
- F. The ASRS shall use any evidence the Employer submits to the ASRS pursuant to subsection (D) to determine whether a Promotion occurred.
- G. If the Employer does not respond to the Request for Documentation within 90 days of the date on the Request for Documentation, the ASRS shall determine that the increase in the member's salary was not the result of a Promotion.

C. The financial institution or the chief disbursing officer of the debtor's employer shall notify the debtor of the levy within five business days of the levy. The debtor may appeal the levy to ASRS.

D. The effect of a levy on salary or wages payable to or received by a debtor is continuous from the date the levy is first made until the liability out of which the levy arose is satisfied or becomes unenforceable. ASRS shall promptly release the levy when the liability out of which the levy arose is satisfied or becomes unenforceable and shall promptly notify the debtor on whom the levy was made that the levy has been released.

E. If a levy has been made or is about to be made, any person having custody or control of any books or records containing evidence or statements relating to the property subject to levy, on request from ASRS, shall exhibit the books or records to ASRS.

F. Except as otherwise provided in subsection D of this section, a levy extends only to property possessed and obligations existing at the time of the levy or within thirty days after the date of the levy. B. A person who fails or refuses to surrender any property subject to levy, on request by ASRS, is liable in person and estate to this state in a sum equal to the value of the property not so surrendered, but not exceeding the amount of debt for the collection of which the levy has been made, with costs and interest on the sum at the interest rate determined by the board from the date of the levy or, in the case of a levy described in section 38-723, subsection E, from the date the person would otherwise have been obligated to pay the amounts to the debtor. Any amount, other than costs, recovered under this subsection shall be credited against the debt for the collection of which the levy was made.

C. A person in possession of or obligated with respect to property subject to levy on which a levy has been made who, on request by ASRS, surrenders the property or discharges the obligation to ASRS is discharged from any obligation or liability to the debtor with respect to the property arising from the surrender or payment.

D. ASRS may release a levy on all or part of property levied on. The release shall not operate to prevent any subsequent levy.

C. ASRS or its agent may disclose a debtor's financial record under this section only in order to enforce the collection of the money the debtor owes to ASRS.

D. ASRS may pay a reasonable fee to a financial institution for conducting a data match. The fee shall not exceed the actual costs incurred by the financial institution.

E. For the purposes of this section "financial institutions" means state and federally chartered banks, trust companies, federal and state savings and loan associations, federal and state credit unions, consumer lenders, international banking facilities and financial institution holding companies, insurance companies, benefit associations, safe deposit companies, money market mutual funds and similar institutions authorized to do business in this state and any party affiliated with these financial institutions.

A. The following provisions apply to all employees hired on or after the effective date:

1. All employees and officers of this state and all officers and employees of political subdivisions establishing a retirement plan administered by the board pursuant to this article are subject to this article, except that membership is not mandatory:

(a) On the part of any employee who is eligible and who elects to participate in the optional retirement programs established by the Arizona board of regents pursuant to the authority conferred by section 15-1628 or by a community college district board pursuant to authority conferred by section 15-1451.

(b) For a state elected official who is subject to term limits, who is elected or appointed before January 1, 2014, who is eligible for participation in ASRS because the state elected official elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A and who elects not to participate in ASRS as provided in paragraph 7 of this subsection.

(c) On the part of any employee or officer who is eligible to participate and who participates in the elected officials' retirement plan pursuant to article 3 of this chapter, the elected officials' defined contribution retirement system pursuant to article 3.1 of this chapter, the public safety personnel retirement system pursuant to article 4 of this chapter or the corrections officer retirement plan pursuant to article 6 of this chapter.

3. Any member whose service terminates other than by death or withdrawal from membership is deemed to be a member of ASRS until the member's death benefit is paid.

4. Employees and officers shall not become members of ASRS and, if they are members immediately before becoming employed as provided by this section, shall have their membership status suspended while they are employed by state departments paying the salaries of their officers and employees wholly or in part from monies received from sources other than appropriations from the state general fund for the period or periods payment of the employer contributions is not made by or on behalf of the departments.

5. Notwithstanding other provisions of this section, a temporary employee of the legislature whose projected term of employment is for not more than six months is ineligible for membership in ASRS. If the employment continues beyond six successive months, the employee may elect to either:

(a) Receive credit for service for the first six months of employment and establish membership in ASRS as of the beginning of the current term of employment if, within forty-five days after the first six months of employment, both the employer and the employee contribute to ASRS the amount that would have been required to be contributed to ASRS during the first six months of employment as if the employee had been a member of ASRS during those six months.

(b) Establish membership in ASRS as of the day following the completion of six months of employment.

6. A person who is employed in postgraduate training in an approved medical residency training program of an employer or a postdoctoral scholar who is employed by a university under the jurisdiction of the Arizona board of regents is ineligible for membership in ASRS.

The election not to participate is specific for that term of office. The state elected official who is subject to term limits shall make the election in writing and file the election with ASRS within thirty days after the elected official's retirement plan mails the notice to the state elected official of the state elected official's eligibility to participate in ASRS. The election is effective on the first day of the state elected official's eligibility. If a state elected official who is subject to term limits fails to make an election as provided in this paragraph, the state elected official is deemed to have elected to participate in ASRS. The election not to participate in ASRS is irrevocable and constitutes a waiver of all benefits provided by ASRS for the state elected official's entire term, except for any benefits accrued by the state elected official in ASRS for periods of participation before being elected to an office subject to term limits or any benefits expressly provided by law.

8. A person may elect not to participate in ASRS if the person becomes employed by an employer after the person has attained at least sixty-five years of age, is not an active member, inactive member, retired member or receiving benefits pursuant to article 2.1 of this chapter and does not have any credited service or prior service in ASRS. The employee shall make the election not to participate in writing and file the election with ASRS within thirty days after employment. (e) A person who performs services under a program designed to relieve the person from unemployment.

B. The following elected officials are subject to this article if the member's employer is an employer under article 3 of this chapter:

1. A state elected official who is subject to term limits, who is elected or appointed on or before December 31, 2013 and who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability because the state elected official had previously elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A.

2. An elected official, as defined in section 38-831, who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability, if the elected official's employer is a participating employer under this article and the elected official is eligible for ASRS service credit for the elected official's service.

#### 38-729. Political subdivision plans

A. The governing body of any political subdivision may adopt, by appropriate legislation, a supplemental retirement plan for employees and officers of the political subdivision. The supplemental retirement plan shall provide the same retirement benefits and require the same obligations for entitlement as are provided for other members under this article, except that:

1. The supplemental retirement plan shall specify the date of commencement of the supplemental retirement plan as the first day of the month following board approval of the supplemental plan of the political subdivision as provided in this section.

2. Employer and employee obligations shall be paid to ASRS in accordance with that date.

B. The governing body of the political subdivision shall submit the supplemental retirement plan to the board in the form of an agreement. The agreement shall state the terms of the supplemental retirement plan as provided in this section. The board shall either approve or disapprove the supplemental retirement plan submitted by the governing body of the political subdivision.

C. On approval, the board shall administer the supplemental plan of the political subdivision.

D. The employer's share of contributions and payments in excess of those required of the employer under section 38-737 shall be paid from monies of the political subdivision.

E. On establishment of the supplemental retirement plan the governing body of the political subdivision shall deduct member contributions in the same amounts and in the same manner as provided in this article for state employees and shall pay those contributions, together with the employer contributions for the political subdivision, to ASRS for deposit in the ASRS depository. The governing body of the political subdivision shall reimburse ASRS in a similar manner for its pro rata share of administrative costs attributable to coverage of employees of the political subdivision.

F. In addition to the employer contributions required under section 38-737, on establishment of the supplemental retirement plan the governing body of the political subdivision shall pay to ASRS the amount equal to the present value required to fund additional costs of benefits attributable to service for the political subdivision before the effective date of the supplemental retirement plan using the actuarial assumptions that are approved by the board. The board may authorize payments to be made at such times as the board requires and in amounts that are less than the amount required for fully funding the additional costs.

G. If the supplemental retirement plan is authorized by a political subdivision, then on or after the effective date of the supplemental retirement plan the governing body of the political subdivision and the board may sign an agreement to waive the provisions of subsection F of this section and to authorize benefits under the supplemental retirement plan only for service with the political subdivision after the effective date of the supplemental retirement plan. In lieu of waiving benefits for all service before the effective date of the supplemental retirement plan, the governing body of the political subdivision may elect to waive benefits for a portion of that service. Amendments to the agreement may increase but shall not reduce the service for which a member is entitled to benefits. The governing body of the political subdivision shall certify for each member the years of service before the effective date of the supplemental retirement plan for which the member is entitled to benefits. In addition to the employer contributions required in section 38-737, the governing body of the political subdivision shall pay to ASRS the amount, as determined by the board, required to fund the cost of the benefits attributable to service before the effective date of the supplemental retirement plan for which members are entitled to benefits.

H. The new political subdivision shall designate the classification of employees that is eligible for membership in ASRS and shall make contributions each year as provided in this section.

I. The liability of the political subdivision providing a supplemental retirement plan within ASRS arises in consideration of the officer's or employee's retention in or entrance into service for the political subdivision.

J. Notwithstanding any other law, an employee of a political subdivision who was previously a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that public employee retirement system for any period of employment is ineligible to receive service credit from ASRS for the same period of employment.

### 38-730. Charter city or ASRS retirement service credits; transfers

A. On application the retirement service credits of an employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS whose job functions are shifted by law from one employer jurisdiction to another shall be transferred to the retirement system of the new employer.

B. An employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS who becomes employed by the other employer jurisdiction may apply to have the employee's retirement service credits transferred to the retirement system of the new employer. The retirement service credits of an employee of a charter city that is not an employer under ASRS shall not be transferred unless the governing body of that city approves the transfer. The retirement service credits of an employee of an employer that is an employer under ASRS shall not be transferred unless the board approves the transfer.

C. The transfer shall be made pursuant to section 38-922.

D. The accumulated retirement contributions of an employee whose retirement service credits are transferred that are paid to the retirement system of the new employer shall not be withdrawn by the employee unless the employee's employment terminates.

E. The retirement system to which the employee is transferring shall not apply service credits to the employee's account until such time as complete payment is made to the retirement system to which the employee is transferring. On completion of the transfer provided for in this section, the employee's rights in the retirement system from which the employee is transferring are extinguished.

#### **38-735. Payment of contributions: recovery of delinquent payments**

A. All amounts deducted from a member's compensation as provided in section 38-736 and employer contributions required pursuant to section 38-737 shall be paid to ASRS for deposit in the ASRS depository.

B. Each employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS.

C. Payments made by employers pursuant to this article or article 2.1, 7 or 8 of this chapter become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments at an annual rate equal to the interest rate assumption approved by the board from time to time for actuarial equivalency. Delinquent payments due under this article or article 2.1, 7 or 8 of this chapter, together with interest charges as provided in this subsection, may be recovered by action in a court of competent jurisdiction against an employer that is liable for payments or, at the request of the director, may be deducted from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state. The employer shall record delinquent payments that are recovered or deducted from other monies pursuant to this subsection pursuant to applicable accounting and financial reporting standards.

#### **38-736. Member contributions**

A. Member contributions are required as a condition of employment and shall be made by payroll deductions. Member contributions shall begin simultaneously with membership in ASRS. Beginning July 1, 2011, member contributions are a percentage of a member's compensation equal to the employer contribution required pursuant to section 38-737. Amounts so deducted by employers shall be deposited in the ASRS depository.

B. The employer shall pay the member contributions required of members on account of compensation earned. The paid contributions shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of the employer payment shall not be before the date ASRS has received notification from the United States internal revenue service that pursuant to section 414(h) of the internal revenue code the member contributions paid will not be included in gross income for income tax purposes until the paid contributions are distributed by refund or retirement benefit payments. The employer shall pay the member contributions from monies that are established and available in the retirement deduction account and that would otherwise have been designated as member contributions and paid to ASRS. Member contributions paid pursuant to this subsection shall be treated for all other purposes, in the same manner and to the same extent, as member contributions made before the approval of the United States internal revenue service pursuant to this section.

38-737. Employer contributions; prepayment; definitions

A. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements contained in this article, excluding the compensation of those employees who are members of the defined contribution program administered by ASRS, as determined by the ASRS actuary pursuant to this section for June 30 of the fiscal year immediately preceding the preceding fiscal year, except that beginning with fiscal year 2001-2002 the contribution rate shall not be less than two percent of compensation of all employees of the employers.

Beginning July 1, 2011 through June 29, 2016, the total employer contribution shall be determined on the projected unit credit method. Beginning June 30, 2016, the board shall determine the actuarial cost method pursuant to section 38-714. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period that is determined by the board and consistent with generally accepted actuarial standards.

B. All contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay expenses of ASRS.

C. The required employer contributions shall be determined on an annual basis by an actuary who is selected by the board and who is a fellow of the society of actuaries. ASRS shall provide by December 1 of each fiscal year to the governor, the speaker of the house of representatives and the president of the senate the contribution rate for the ensuing fiscal year and the unfunded actuarial accrued liability, the funded status based on the actuarial value of assets and market value of assets and the annualized rate of return and the ten-year rate of return as of June 30 of the prior fiscal year.

D. Notwithstanding any other provision of this article, an employer may prepay the employer's 401(a) pension contributions directly to ASRS according to a written agreement between the employer and ASRS as follows:

1. 401(a) pension contributions that the employer prepays according to this subsection may be deposited, as determined by the employer and managed by ASRS, directly in either the ASRS trust fund established by section 38-712 or a section 115 trust.

2. ASRS shall determine the following options available to the employer:

(a) The amortization time periods.

(b) The frequency and dates that prepayments can be made.

(c) The maximum and minimum amounts of 401(a) pension contributions that the employer can prepay.

(d) Any other options or obligations that the employer may have when entering into this written agreement.

3. The earnings accrual rate shall be the ASRS total 401(a) pension fund rate of return, or the actual rate of return of a short-term investment through ASRS, as requested by the employer and agreed to by ASRS.

4. The 401(a) pension contributions the employer prepays and the accrued earnings shall be managed at the discretion of ASRS subject to section 38-718.
  5. 401(a) pension contributions that the employer prepays and accrued earnings may be used solely to reduce the employer's future 401(a) pension contributions as required from the employer pursuant to this section and section 38-735.
  6. The employer shall determine when to use the 401(a) pension contributions the employer prepays and the accrued earnings from those 401(a) pension contributions.
  7. ASRS shall provide the employer an annual statement of 401(a) pension contributions the employer prepaid and the accrued earnings.
  8. Notwithstanding any other provision of this subsection, an employer may not prepay 401(a) pension contributions according to this subsection either:
    - (a) In an amount greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
    - (b) After the total of the unamortized prepaid 401(a) pension contributions and the accrued earnings is equal to or greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
  9. After an employer elects amortization terms, ASRS shall provide the employer an amortization schedule annually that is current and based on the employer's election.
  10. If ASRS determines to no longer offer the option of prepaying the employer's 401(a) pension contributions directly to ASRS, any 401(a) pension contributions the employer prepays and the accrued earnings remaining on account shall be used for future obligations according to the written agreement between the employer and ASRS.
  11. Assets transferred in or out of or held in the ASRS trust fund established by section 38-712, or a section 115 trust, and the accrued earnings are exempt from state, county and municipal taxes.
  12. The legislature intends that the accrued earnings not be subject to federal income tax. ASRS may adopt additional rules, policies and procedures as ASRS deems necessary or appropriate to fulfill the legislature's intent that the accrued earnings not be subject to federal income tax.
  13. If ASRS receives notification from the United States internal revenue service that this subsection or any portion of this subsection will jeopardize the tax-exempt status of the 401(a) pension contributions the employer prepays according to this subsection and the accrued earnings, the portion of this subsection that will cause the disqualification does not apply.
- E. In addition to the requirements of subsection D of this section, any prepayment agreement made between ASRS and this state or any state agency is subject to the following requirements:
1. Any prepayment amounts deposited with ASRS must be from an appropriation specifically for that purpose that is passed by the legislature and signed by the governor.

2. Any prepayment amounts or accrued earnings used to reduce the employer's 401(a) pension contributions must be authorized for a specific fiscal year by legislation that is passed by the legislature and signed by the governor.

F. For the purposes of this section:

1. "401(a) pension contributions" means the portion of an employer's pension contribution that is specific to the retirement program established under this article and qualified under section 401(a) of the internal revenue code.

2. "Section 115 trust" means a trust whose income is exempt from gross income pursuant to section 115 of the internal revenue code for essential government functions integral to this state and its political subdivisions.

### 38-738. Adjustment and refund

A. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of fact, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit or, if the request is made within one year after the date of overpayment, shall return the contributions to the employer. ASRS may not pay an employer earnings attributable to the excess contributions but shall reduce the amount returned to an employer pursuant to this subsection by the amount of losses attributable to the excess contributions. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of law, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit. On receipt of an employer credit or return of contributions pursuant to this subsection, the employer shall return any member portion of the returned contributions to the member.

B. If less than the correct amount of employer or member contributions is paid into ASRS by an employer, the following apply:

1. The member shall pay an amount that is equal to the amount that would have been paid in member contributions for the period in question. For active members, payments shall be made as provided in section 38-747. For members who are inactive, retired or on long-term disability, payments shall be made using after-tax income and a personal check, cashier's check or money order. If the member does not make the payment within ninety days after being notified by ASRS that the employer has paid all amounts due from the employer, the unpaid amount accrues interest until the amount is paid in full. The member is responsible for payment of the unpaid amount and interest. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

2. If the member contributions to ASRS made pursuant to this subsection exceed the limits prescribed in section 38-747, subsection E when taking into account other annual additions of the member for the limitation year, the amount to be paid by the member shall be adjusted as provided in section 38-747. For the purposes of this paragraph, "limitation year" has the same meaning prescribed in section 38-769.

3. The employer shall pay to ASRS an amount equal to the amount that would have been paid in employer contributions for the period in question together with accumulated interest that would have accrued on both the employer and member contributions due. If the employer does not remit full payment of all employer contributions and all interest due within ninety days after being notified by

ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

4. On satisfaction of the requirements of this subsection, the member's salary history on the records of ASRS shall be adjusted and any additional service credits acquired by the member shall be reinstated.

5. If the member retires before all contributions are made pursuant to this subsection, the member's benefits shall be calculated only based on the contributions actually made.

6. Annual additions shall be determined as provided in section 38-747, subsection O.

7. The initiator of the request for correction of salary history and service credits on records of ASRS is responsible for providing credible evidence of past employment and compensation to ASRS in a form or forms that would lead a reasonable person to conclude that a period of employment occurred under circumstances that made the employee eligible for membership in ASRS during that period. A determination of eligibility by ASRS may be appealed to the ASRS board in a manner prescribed by the board.

8. A member who previously received a return of contributions pursuant to section 38-740 may receive an adjustment of employer contributions or service credits pursuant to this section only for qualifying employment and compensation that occurred after the member's most recent return of contributions pursuant to section 38-740.

C. Subsection B of this section applies to eligible verified service that occurred less than or equal to fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made.

D. Eligible verified service that is more than fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made is considered public service credit. The member may purchase this service pursuant to section 38-743.

E. Notwithstanding any other law, an employer may correct a contributions error pursuant to subsection B of this section by making payment adjustments through the employer's payroll reporting for the contributions that were not submitted if both of the following apply:

1. The adjustment is made within the same fiscal year that the contributions were due to ASRS.

2. The employer obtains written consent from the employee to make the adjustment to the employee's paycheck.

F. Notwithstanding any other law, if an employer pays less than the correct amount of employer or member contributions into ASRS, the correct amount of member contributions may not be paid to ASRS after the death of the member.

### 38-739. Credited service

- A. A member shall not earn more than one year of credited service in any fiscal year.
- B. A member shall earn proportionate credited service for each month for which the member performs service and is compensated equal to the ratio that the month bears to the number of months in the member's service year.
- C. If a member is compensated for less than a full service year, the member shall earn credited service equal to the ratio that the number of months actually compensated bears to the number of months in the full service year.
- D. If a member holds two or more concurrent contracts in any fiscal year, credited service shall be determined on the basis of the terms of the contract with the longest term.
- E. Members on sabbatical leave for which they are paid on a full or partial basis shall make appropriate contributions while on sabbatical leave and are considered to be employed full time.
- F. The following years of service are excluded from credited service under this article:
  - 1. Years of prior service. For the purposes of this paragraph, "prior service" has the same meaning prescribed in section 38-772.
  - 2. Years in which the member made contributions to the defined contribution program administered by ASRS or the Arizona teachers' retirement system before membership in the defined contribution program administered by ASRS and for which those contributions were subsequently withdrawn and paid to the member.

#### 38-739.01. Credited service retention

Consistent with the compliance statement issued by the United States internal revenue service, an employee who is employed with an ASRS employer in a position that was exempt from ASRS membership because the position was not included in agreements providing for the employee's coverage under the federal old-age and survivors insurance system but on whose behalf the employer has remitted ASRS contributions shall retain credited service for the period of employment for which the employer remitted ASRS contributions on the employee's behalf.

### 38-740. Return of contributions

- A. A member whose membership commenced before July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of the contributions as follows:
  - 1. If the member has less than five years of credited service, ASRS shall disburse all of the member's contributions.
  - 2. If a member has five or more years of credited service, ASRS shall disburse the member's contributions and an amount equal to a percentage of the employer contributions paid on behalf of the member. This amount excludes payments made by an employer pursuant to section 38-738, subsection B, paragraph 3, unless the member has made the payment required by section 38-738,

subsection B, paragraph 1. The percentage of employer contributions paid on behalf of the member shall be as follows:

- (a) 5.0 to 5.9 years of credited service, twenty-five percent.

3. Interest on the returned contributions as determined by the board.

B. A member whose membership commenced on or after July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of all of the member's contributions with interest as determined by the board.

C. Notwithstanding subsection B of this section, if a member has five or more years of credited service and the member is terminated solely because of an employer reduction in force by reason of a lack of monies or elimination of the member's position, the member is entitled to receive the amounts prescribed in subsection A of this section.

D. Withdrawal of contributions with interest constitutes a withdrawal from membership in ASRS and results in a forfeiture of all other benefits under ASRS.

E. If ASRS has disbursed an overpayment pursuant to section 38-765 or 38-797.08, ASRS shall withhold the overpayment amount plus any required income tax withholding from the return of contributions.

F. Notwithstanding any other provision of this article, a member who has not received a return of contributions pursuant to this section may combine any two or more periods of service for purposes of determining the member's benefits.

G. If ASRS disburses more than the amount due to a member or an alternate payee pursuant to this section, the person who received the overpayment shall repay the amount of the overpayment together with interest at the interest rate earned on ASRS investments as reported on a quarterly basis, but not less than the valuation rate established by the board, from the time of overpayment to the settlement of the debt.

#### **38-741. Reemployment of inactive member**

A. ASRS shall return to active status an inactive member who terminates employment with an employer without terminating membership in ASRS and who later is reemployed by the same or another employer.

B. On retirement, ASRS shall disburse benefits derived from service for all employers that employed the member.

C. Retirement benefits attributable to service before membership in ASRS, if any, shall be paid only by the employer from which the retiring member obtained entitlement to the benefits as provided in section 38-729.

#### 38-742. Reinstatement

A. If an active member who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, is subsequently reemployed by an employer, the member's service shall be credited only from the date the member's most recent reemployment period commenced.

B. Notwithstanding subsection A of this section, the member may redeposit the amount of the contributions the ASRS paid at the time of the member's separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On satisfaction of this obligation, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

C. A member who is receiving benefits pursuant to section 38-797.07 and who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, may redeposit the amount of the contributions the ASRS paid at the time of the member's previous separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On redeposit of the contributions and interest, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). For a member whose membership date is on or after July 20, 2011, the member may receive not more than sixty months of credited service.

B. A member who elects to receive credit for service with the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States shall pay to ASRS an amount equal to the present value of the additional benefit that is

derived from the purchased credited service using the actuarial assumptions that are approved by the board.

C. A member who previously was a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that system for any period of employment is ineligible to receive retirement benefits from ASRS for the same period.

D. If a member's membership date is on or after July 1, 2010, the member shall have at least five years of credited service in ASRS before electing to receive credit for service pursuant to this section.

2. At the time the credit is requested the member is an active member of ASRS, receiving benefits pursuant to section 38-797.07 or a former active member of ASRS who has not withdrawn contributions from ASRS pursuant to section 38-740 and who was unable to resume employment because a position is not available.

3. The member returns to employment with the same employer, unless employment could not be resumed because of disability or a position was not available.

C. The cost to purchase military service credit is an amount equal to the present value of the additional benefit that is derived from the purchased credited service using the actuarial assumptions that are approved by the board.

D. An active member of ASRS who is called to active military service may receive credited service for not more than sixty months of active military service, except as provided by the uniformed services employment and reemployment rights act (38 United States Code section 4312(c)). F. Notwithstanding any other law, on payment of the contributions made pursuant to subsection D of this section, the member shall be credited with service for retirement purposes for the period of time of active military service of not more than sixty months.

G. The employer shall make contributions pursuant to subsection D of this section as follows:

1. Contributions shall be based on the compensation that a member would have received but for the period that the member was ordered into active military service.

2. If the employer cannot reasonably determine a member's rate of compensation for the period that the member was ordered into active military service, the employer shall make contributions based on the member's average rate of compensation during the twelve-month period immediately preceding the period of active military service.

3. If a member has been employed less than twelve months before being ordered into active military service, the employer shall make contributions based on the employment period immediately preceding the period of active military service.

#### 38-746. Compensation limitation: adjustments

A. Except as provided in subsection E, beginning on July 1, 2002, the annual compensation of each employee taken into account under ASRS for any fiscal year or for any other specified twelve consecutive month period shall not exceed two hundred thousand dollars. In determining benefit accruals under ASRS for fiscal years beginning after December 31, 2001 and except as provided for in subsection E, the annual compensation limit under this subsection for fiscal years beginning before January 1, 2002 is two hundred thousand dollars.

B. If compensation under ASRS is determined on a period of time that contains fewer than twelve calendar months, the compensation limit for that period of time is equal to the dollar limit for the calendar year during which the period of time begins, multiplied by the fraction in which the numerator is the number of full months in that period of time and the denominator is twelve.

C. For fiscal years beginning before July 1, 1997, the annual compensation limit prescribed in this section also applies to the combined compensation of a member who is a member of the group of ten highly compensated employees, as defined in section 414(q) of the internal revenue code, and who is paid the highest compensation during the fiscal year and any family member of the member who is either the member's spouse or the member's lineal descendant and who has not attained the age of nineteen before the close of the fiscal year. If the maximum compensation is adjusted pursuant to subsection D, the adjusted limitation shall be prorated among the affected members' compensation determined pursuant to this section before application of the adjusted limitation to the other provisions of this article.

D. The board shall adjust the maximum compensation under subsection A at the same time and in the same manner as adjusted by the United States secretary of the treasury under section 401(a)(17)(B) of the internal revenue code. The adjustment under this subsection for a calendar year applies to annual compensation for the fiscal year of ASRS that begins with or within the calendar year.

E. The dollar limitation prescribed in subsection A does not apply to an eligible member to the extent that the annual compensation of an eligible member taken into account by ASRS for any fiscal year or for any other specified twelve consecutive month period would be reduced below two hundred thirty-five thousand eight hundred forty dollars. This was the amount of compensation taken into account by ASRS as of July 1, 1993. The board shall adjust this amount as of the effective date of the increase prescribed by the United States secretary of the treasury. For the purposes of this subsection, "eligible member" means a person who first became a member of ASRS before July 1, 1996.

1. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The electing member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection. For the purposes of this paragraph, "other compensation" includes a member's termination pay.

2. The member shall make an election pursuant to this subsection at any time on or after the date the member elects to purchase credited service pursuant to the sections prescribed in subsection A of this section and before the member's termination of employment. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. In the case of an election to utilize all or any part of the member's termination pay to purchase credited service, the member's election shall be made at least three full calendar months before the date of the member's termination of employment and entitlement to receive the termination pay. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of current employment. After a member makes an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. For the purposes of this paragraph, "termination pay" means any lump sum that is paid at the member's termination of employment for accrued vacation, sick leave or overtime pay.

3. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's purchase of credited service may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's purchase of credited service. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's purchase of credited service does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's purchase of credited service.

4. If on termination of the member's employment with an ASRS employer all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection. ASRS shall not grant credited service for contributions made pursuant to this subsection until those contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any salary reduction election made pursuant to this subsection. The interest or administrative charges shall be added to the amount of contributions that is made to ASRS by the member each payroll period and that is paid by the member's employer. The interest or administrative charges shall not be treated as member contributions for any purposes under this article and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

C. A member who elects before July 1, 1999 to receive retirement benefits based on section 38-771, subsection C, paragraph 2 or a member who elects to make contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 shall either make the member's additional contributions required pursuant to section 38-771, subsection E or allowed pursuant to section 38-771.01, subsection F, paragraph 4 directly to ASRS as provided in subsection H of this section or shall elect to have the member's employer make payments for those additional contributions as provided in subsection D of this section. A member who elected to be covered or who was deemed to be covered by section 38-771 on or before December 31, 1995 or who elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 3 is deemed to have made an irrevocable election pursuant to subsection D of this section to make the member's contributions to ASRS that are required by section 38-771, subsection D or allowed by section 38-771.01, subsection F, paragraph 3.

D. Any member contributions that are required by section 38-771, subsection D or that are allowed pursuant to section 38-771.01, subsection F, paragraph 3 are deemed to be made by the member to ASRS through a salary reduction program in accordance with the following:

1. A member may make member contributions pursuant to section 38-771, subsection E or section 38-771.01, subsection F, paragraph 4 through a salary reduction program elected pursuant to this subsection. If a member makes an irrevocable election pursuant to this subsection before July 1, 1999 to have the member's employer make payments for additional contributions pursuant to section 38-771, subsection E, the election continues in effect from and after June 30, 1999 and shall not be revoked, amended or altered by any election made pursuant to section 38-771.01 or otherwise. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection.

2. Before a member's termination of employment, the member may make an election pursuant to this subsection at any time after the date the member elects to receive retirement benefits based on section 38-771, subsection C, paragraph 2 but before July 1, 1999 or at any time after the member elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 4. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of employment.

3. After a member makes or is deemed to have made an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4 may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's additional contributions. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 or pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's additional contributions pursuant to section 38-771.01, subsection F, paragraph 4 does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4.

4. If on termination of the member's employment all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

E. The following limits apply to contributions to ASRS:

1. Except to the extent paragraphs 2 and 3 of this subsection apply to certain contributions made by a member to ASRS and to the extent permitted under section 414(v) of the internal revenue code, if applicable, in any one limitation year, the annual additions contributed or allocated to ASRS for or on behalf of a member shall not exceed the lesser of either:

(a) \$40,000 or a larger amount that is prescribed by the board and that is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount prescribed by this subdivision as of the effective date of the increase announced by the United States secretary of the treasury.

(b) One hundred percent of the member's compensation for the limitation year. The compensation limit prescribed in this subdivision does not apply to any contribution to ASRS for medical benefits after a member's separation from service, within the meaning prescribed in section 401(h) or 419A(f)(2) of the internal revenue code, that is otherwise treated as an annual addition.

2. Unless paragraph 4 of this subsection applies, for plan years beginning on or after July 1, 1998, in any one limitation year, the annual additions credited to ASRS for or on behalf of a member who makes contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election has not been made pursuant to subsection B of this section shall not exceed the greater of either:

(a) The requirements of section 38-769. For the purposes of applying the limits prescribed in section 38-769 under this subdivision, the accrued benefit derived from the contributions shall be treated as an annual benefit and the reduced limit for certain early retirement in section 38-769, subsection C, paragraph 2 does not apply.

(b) Except as provided in paragraph 3 of this subsection, the requirements of paragraph 1 of this subsection. The contributions shall be treated as annual additions and any of the member's other annual additions for the limitation year shall be taken into account. For the purposes of applying the requirements of paragraph 1 of this subsection under this subdivision, the percentage of compensation limit in paragraph 1, subdivision (b) of this paragraph does not apply.

3. For plan years beginning on or after July 1, 1998, the requirements of paragraph 1 of this subsection shall not be applied to reduce the amount of credited service that may be purchased by an eligible member pursuant to section 38-743, 38-744, 38-745 or 38-922 to an amount that is less than the amount of credited service allowed to be purchased pursuant to those sections on August 5, 1997 without the application of any of the limits prescribed in this section or section 415 of the internal revenue code. For the purposes of this paragraph, "eligible member" means a person who first becomes a member of ASRS before July 1, 1999.

4. Member contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744 or 38-922 shall not be made by a member if recognition of that service would cause a member to receive a retirement benefit for the same service from ASRS and one or more other retirement plans. This paragraph does not apply to either of the following:

(a) Contributions made by an eligible member as defined in paragraph 3 of this subsection, except that any service purchase by an eligible member is subject to any other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

(b) Any member contributions with respect to which an irrevocable election has been made by a member pursuant to subsection B of this section, except that the service purchase is subject to any

other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

F. If a member's contributions are subject to the limitations of subsection E of this section, the contributions shall be treated as being made to a separate defined contribution plan. If the member's contributions exceed the limits prescribed in subsection E of this section when taking into account other member and employer contributions to ASRS on behalf of the member for the limitation year, the amount to be paid by the member shall be reduced to not exceed the limits prescribed in subsection E of this section and the remaining amount shall be carried forward to the next limitation year, unless the limits are exceeded in the next limitation year. If the limits are exceeded in the next limitation year, the procedure prescribed by this subsection shall be repeated until all payments have been made.

G. If, after the application of subsection F of this section, the annual additions on behalf of a member exceed the limitations prescribed in subsection E of this section, ASRS shall dispose of excess amounts by either of the following:

1. Returning to the member any contributions that are made by the member and that are nondeductible under the internal revenue code.

2. Holding the amounts in a suspense account established pursuant to subsection L of this section and allocating the amounts as either member or employer contributions for the benefit of the member in the next limitation year and before any further member or employer contributions are made that would constitute annual additions made to a defined contribution plan pursuant to section 415 of the internal revenue code. ASRS shall allocate contributions as prescribed in this section, and the amount allocated shall reduce the amount of the member or employer contributions for the limitation year in which the allocation is made.

H. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by the member pursuant to subsection B or D of this section, the board may accept contributions made pursuant to section 38-771 or member contributions for the payment for credited service purchases pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 or contributions made pursuant to section 38-771.01, subsection F, paragraph 4, in whole or in part, by any one or a combination of the following methods:

1. In lump sum payments.

2. Subject to the limitations prescribed in sections 401(a)(31) and 402(c) of the internal revenue code and subsection J of this section, accepting a direct transfer of any eligible rollover distribution from one or more:

- (a) Retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code.

- (b) Annuity contracts described in section 403(b) of the internal revenue code.

- (c) Eligible deferred compensation plans described in section 457(b) of the internal revenue code that are maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state.

3. Accepting from a member a direct transfer from an individual retirement account or individual retirement annuity described in section 408(a) or 408(b) of the internal revenue code of an amount that would otherwise be eligible to be rolled over to ASRS under the provisions of section 408(d)(3)(A)(ii) of the internal revenue code if the amount had been received by the member and would have otherwise been includible in the member's gross income but for the direct transfer.

4. Providing by rule that the contributions may be made in installment payments over a period of time.

I. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by a member pursuant to subsection B or D of this section, the board may accept a direct trustee-to-trustee transfer from retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code, an annuity contract described in section 403(b) of the internal revenue code or an eligible deferred compensation plan described in section 457(b) of the internal revenue code for the payment for credited service purchases pursuant to section 38-742, 38-743, 38-744, 38-745 or 38-922. If a direct trustee-to-trustee transfer is from a retirement program that is qualified under section 401(a) of the internal revenue code and that includes a cash or deferred arrangement described in section 401(k) of the internal revenue code, the member on whose behalf the transfer was made is not eligible to retire under section 38-764, subsection I before the date the member attains fifty-nine and one-half years of age.

J. ASRS shall separately account for all amounts rolled over or directly transferred to ASRS. Subject to the limitations contained in the internal revenue code applicable to the type of plan from which an eligible rollover distribution is transferred, to the extent any eligible rollover distribution that is directly transferred to ASRS consists wholly or partially of amounts that would otherwise not be included in the member's gross income if not so transferred, ASRS shall separately account for the amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the amount that is includable in gross income and the portion of the amount that is not includable in gross income.

K. ASRS shall not grant credited service under section 38-738, 38-742, 38-743, 38-744 or 38-922 for contributions made pursuant to subsection H of this section until the contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any installment payment made pursuant to subsection H, paragraph 4 of this section to purchase credited service pursuant to section 38-738, 38-742, 38-743, 38-744 or 38-922. The interest or administrative charges shall be added to the amount of contributions made to ASRS by the member. The interest or administrative charges shall not be treated as member contributions for any purposes under this article, and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

L. Notwithstanding any provision of this article to the contrary, if the annual additions credited on behalf of an ASRS member during any limitation year exceed the limits of section 415(c) of the internal revenue code and subsection E of this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance issued by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

M. If the member retires before all payments are made pursuant to this section, ASRS shall calculate the member's benefits based only on the payments actually made.

N. On satisfaction of the requirements of this section, ASRS shall adjust the member's credited service history and add any additional service credits acquired.

O. Annual additions on behalf of a member in any limitation year shall be the sum of:

1. The amount of the member contributions made to ASRS to purchase credited service pursuant to section 38-738, 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election made pursuant to subsection B of this section is not in effect.

2. The amount of member and employer contributions made to ASRS on behalf of a member who elected or was deemed to have elected to receive retirement benefits pursuant to section 38-771 or who is entitled to benefits pursuant to section 38-771.01, except that, other than as provided in subsection P of this section, corrective contributions shall be considered annual additions for the limitation years to which the contributions relate and interest and gains shall not be considered as annual additions for the purpose of any limitation prescribed in this article or in section 415 of the internal revenue code. If the corrective contributions exceed the limit on annual additions for a limitation year prior to the limitation year in which the corrective contributions are contributed by the employer to ASRS, the retirement benefit attributable to the excess corrective contributions shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess corrective contributions to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

3. Any member or employer contributions made to ASRS or any other plan that are treated as being made to a defined contribution plan maintained by an employer of the member.

4. Any forfeitures, including any income attributable to forfeitures, allocated for or on behalf of a member of ASRS or any other plan that are treated as being allocated under a defined contribution plan maintained by an employer of the member.

P. To the extent any portion of the subject benefits, if treated as subject to the benefit limitations of section 415(b) of the internal revenue code, exceed the applicable limitation on benefits pursuant to section 38-769 for the form of distribution, a percentage of corrective contributions and interest and gains shall be treated as annual additions for the limitation year in which contributed by the employer to ASRS. This percentage of corrective contributions and interest and gains shall be equal to the percentage determined by dividing the subject benefits that exceed the limitation on benefits pursuant to section 38-769 by the subject benefits. If the corrective contributions and interest and gains that are treated as annual additions for the limitation year in which the corrective contributions and interest and gains are contributed by the employer to ASRS exceed the limit on annual additions for the limitation year, the retirement benefit attributable to the excess shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

Q. Subsection O of this section shall be construed and interpreted in accordance with section 415 of the internal revenue code and the final treasury regulations issued under that section.

R. For the purposes of this section:

1. "Compensation" has the same meaning prescribed in section 38-769.

2. "Corrective contributions" means any contributions that are paid by an employer pursuant to section 38-771.01, subsection C, paragraph 3 and that are attributable to employer contributions that should have been made for prior limitation years.
3. "Defined contribution plan" has the same meaning prescribed in section 38-769.
4. "Eligible rollover distribution" has the same meaning prescribed in section 38-770.
5. "Interest and gains" means employer contributions to ASRS pursuant to section 38-771.01, subsection C, paragraphs 3, 5 and 6 that are attributable to earnings and supplemental credits that would have been earned or added to a member's annuity payment.
6. "Limitation year" has the same meaning prescribed in section 38-769.
7. "Participating employer" means an employer that participates in ASRS.
8. "Subject benefits" means the retirement benefit received by a member pursuant to section 38-771.01 minus the sum of the portion of such retirement benefit attributable to contributions that were made by or on behalf of the member to the defined contribution program administered by ASRS for periods before July 1, 1981 and contributions that were made by the member after June 30, 1981 and that were not picked up as provided in section 414(h)(2) of the internal revenue code.

**38-748. Employer payments for ineligible contributions; definitions**

A. If an employer pays contributions on behalf of any person who is not eligible by statute or rule for ASRS membership or pays contributions on compensation that is not eligible by statute or rule for ASRS contributions and either ASRS or a court determines that ASRS shall provide a person with any benefit or credit under this article or article 2.1 of this chapter based on such contributions, the employer shall pay to ASRS any unfunded liability resulting from the provision of benefits or credit to the person.

B. If the employer does not remit full payment of the unfunded liability pursuant to subsection A of this section within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full.

C. Credited service ceases to accrue as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

D. If the amount in the person's ASRS account is greater than the present value of the benefit or credit, ASRS shall retain the entire account and is not required to refund, credit or offset any excess against future contributions.

E. This section applies to an employer that employs, either directly or indirectly, a person who performs services for a third-party organization and that does not have a written representation by ASRS of the person's eligibility.

F. For the purposes of this section:

1. "Amount in the person's ASRS account" means two times the person's retirement contributions made pursuant to section 38-736:

(a) Plus:

(i) Interest on the person's retirement contributions made pursuant to section 38-736.

(ii) Any contributions made for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(iii) Interest on the amount contributed for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(b) Minus any amounts paid by ASRS pursuant to this article or article 2.1 of this chapter.

2. "Interest" means the interest rate assumption that is approved by ASRS for actuarial equivalency.

3. "Unfunded liability" means:

(a) For a person who is not eligible by statute or rule for ASRS membership, the amount, if any, that the present value of the person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount in the person's ASRS account calculated as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

(b) For contributions on compensation that is not eligible by statute or rule for ASRS contributions, the difference, if any, of the amount that the present value of a person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount of the present value of the benefit or credit the person would receive if the ineligible contributions, and the compensation and credit associated with those ineligible contributions, had not been reported to ASRS and the amount in the person's ASRS account that is associated with the ineligible contributions on compensation.

**38-749. Employer termination incentive program; employer payment of actuarial cost; definition**

A. If a termination incentive program that is offered by an employer results in an actuarial unfunded liability to ASRS, the employer shall pay to ASRS the amount of the unfunded liability. ASRS shall determine the amount of the unfunded liability in consultation with its actuary.

B. An employer shall notify ASRS if the employer plans to implement a termination incentive program that may affect ASRS funding.

C. If ASRS determines that an employer has implemented a termination incentive program that results in an actuarial unfunded liability to ASRS, ASRS shall assess the cost of the unfunded liability to that employer. If the employer does not remit full payment of all monies due within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

D. For the purposes of this section, "termination incentive program":

1. Means a total increase in compensation of thirty per cent or more that is given to a member in any one or more years before termination that are used to calculate the member's average monthly compensation if that increase in compensation is used to calculate the member's retirement benefit and that increase in compensation is not attributed to a promotion.

2. Means anything of value, including any monies, credited service or points that the employer provides to or on behalf of a member that is conditioned on the member's termination except for payments to an employee for accrued vacation, sick leave or compensatory time unless the payment is enhanced beyond the employer's customary payment.

### 38-750. Transfers out of the system

A. If an employee has made an irrevocable election pursuant to section 38-747, subsection B or D and transfers participation to another defined benefit retirement system or plan of this state without a termination of employment, within ninety days after the date of the transfer, ASRS shall transfer to the subsequent defined benefit retirement system or plan the amount the employee paid for the purchase of the credited service plus interest as determined by ASRS.

B. If the assets transferred from ASRS are less than the cost of the benefits accrued relative to the credited service as calculated pursuant to section 38-922, subsection B, paragraph 2, and unless a law otherwise provides, the employee shall elect either to pay the difference to the subsequent defined benefit retirement system or plan or accept a reduced amount of service credits. If the employee elects to pay the difference, the amount paid shall be added to the employee's accumulated contribution account balance. If the employee elects to accept a reduced amount of service credits, the amount of service credits granted shall be equal to the amount of service credits purchased multiplied by the ratio of the amount of assets transferred to the amount calculated pursuant to section 38-922, subsection B, paragraph 2.

C. The transferred employee and the employer shall complete the terms of the irrevocable election by making payments to ASRS.

D. If the employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, on termination of employment the employee shall elect to have ASRS:

1. Promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to elect to have the assets transferred within thirty days after termination of employment, the employee is deemed to have made an election as prescribed in paragraph 2.

2. On written request by the employee, promptly return to the employee the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If no application is received by ASRS within sixty days after termination of employment, ASRS shall issue the payment directly to the employee.

E. If the employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, after termination of employment the employee may elect within thirty days of termination of employment to have ASRS promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to make the election under this subsection, ASRS shall deem the employee as an inactive member of ASRS.

F. If an employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is

receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is eligible to transfer to the retirement system or plan, but the election to transfer terminates the benefit from ASRS on the effective date of the transfer.

G. If an employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is not eligible to transfer to another retirement system or plan.

**38-751. Nonparticipatory employer liability allocation; exemption; definitions**

A. ASRS shall establish a separate fund for an employer, other than a charter school, that is no longer participating in ASRS as a result of any of the following:

1. The character of the employer changes from a public entity to a private entity.
2. An employer, other than this state, dissolves.
3. Through legislative action, the employer is no longer enrolling new employees in ASRS or no longer contributing to ASRS on behalf of current employees or groups of employees who otherwise would be eligible for ASRS membership.

B. For a nonparticipating employer described in subsection A of this section, ASRS shall allocate an actuarial accrued liability and a designated asset amount to the nonparticipating employer's separate fund as of the nonparticipation date, which shall be calculated as follows:

1. The actuarial accrued liability shall equal the sum of the plan employer actuarial accrued liability and the LTD program employer actuarial accrued liability. Actuarial accrued liability shall be calculated based on the same actuarial assumptions and methods as the actuarial valuation performed immediately preceding the nonparticipating employer's nonparticipation date.

2. The designated asset amount shall equal the sum of the following:

- (a) The plan employer actuarial accrued liability multiplied by the plan funded percentage.
- (b) The LTD program employer actuarial accrued liability multiplied by the LTD program funded percentage.

C. All monies and securities transferred to the nonparticipating employer's separate fund shall be credited to that fund. A record of the market value and the cost value of such transferred contributions shall be maintained for actuarial and investment purposes. ASRS shall make all decisions regarding the nonparticipating employer's separate fund.

D. After establishing the nonparticipating employer's separate fund, the fund shall be adjusted for all of the following:

1. All contributions made by employees of the nonparticipating employer.
2. All contributions made by the nonparticipating employer.

3. All plan, all LTD program and any other benefits paid to the nonparticipating employer's members who are active, inactive, retired or on long-term disability.

4. All plan, all LTD program and any other benefits paid to the survivors of the nonparticipating employer's members.

5. The applicable share of the investment gains and losses.

6. Expenses associated with the administration of the nonparticipating employer's separate fund, including any administrative, development, actuarial, legal, custodial and investment management costs associated with the fund. These expenses shall be paid directly by the nonparticipating employer or included in the employer's liability for the purposes of determining the employer's contribution rate.

E. After establishing the nonparticipating employer's separate fund, the nonparticipating employer and any employees of that employer who are enrolled in ASRS shall continue to have contribution requirements to the nonparticipating employer's separate fund. The contribution requirements shall be calculated as follows:

1. All employees of the nonparticipating employer who are enrolled in ASRS shall continue to make contributions through payroll deductions based on the contribution rate determined for the employees of participating employers of ASRS pursuant to section 38-736.

2. The nonparticipating employer shall continue to make contributions through lump sum payments in accordance with section 38-735, equal to the sum of:

(a) Contributions owed through payroll deductions based on the contribution rate determined for participating employers pursuant to section 38-737.

(b) The amount required to amortize the past service funding requirement in the nonparticipating employer's separate fund over a period that is determined by the board and that is consistent with generally accepted actuarial standards. In determining the past service funding period, the board shall seek to improve the funded status whenever the nonparticipating employer's separate fund is less than one hundred percent funded.

F. The ASRS actuary shall determine the actuarial assumptions used to determine the contribution requirements for the nonparticipating employer under subsection E of this section. Notwithstanding section 38-737, the contribution for the nonparticipating employer may not be determined as a percentage of compensation due to the anticipated decline of compensation for employees of the nonparticipating employer participating in ASRS. The nonparticipating employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS at a rate that is consistent with the rate paid by the participating employers. Each fiscal year, amounts that are not remitted through payroll contributions pursuant to this section shall be invoiced to the employer and shall be paid within the same fiscal year the nonparticipating employer is invoiced.

G. This section does not permit an employer to alter the irrevocable agreement approved by the board under section 38-729.

H. For the purposes of calculating an employer's liability under this section, members who are active, inactive, retired or on long-term disability are considered employees of the nonparticipating employer

if the member's most recent employer was the nonparticipating employer as of the nonparticipation date.

I. This section does not apply to an employer whose existence was terminated by legislative action or otherwise became a nonparticipating employer as described in subsection A of this section on or before January 1, 2013.

If the percentage is greater than one hundred percent, the plan funded percentage is one hundred percent.

B. For a member whose membership in ASRS commenced before July 1, 2011, the benefit payable to a member electing early retirement shall be determined by reducing the normal retirement benefit computed in accordance with section 38-757 either:

1. At the rate of three percent per year from age sixty to age sixty-five and five percent per year from age fifty to age sixty. The reduction in normal retirement benefits pursuant to this paragraph for an eligible member electing early retirement shall be based on the period from the date of commencement of early retirement benefits to the member's sixtieth birthday if the member has at least twenty years of total credited service, sixty-second birthday if the member has at least ten but less than twenty years of total credited service or sixty-fifth birthday if the member has at least five but less than ten years of total credited service.

The amount of retirement income shall be the actuarial equivalent of the retirement income to which the member would be entitled under normal or early retirement. The election in a manner prescribed by the board shall name the contingent annuitant. The election may be revoked at any time before the member's

effective date of retirement. At any time after benefits have commenced, the member may name a different contingent annuitant or rescind the election by written notice to the board as follows:

(a) If a different contingent annuitant is named, the life annuity of the member under the same joint and survivor life annuity option previously elected shall be adjusted to the actuarial equivalent of the original annuity, based on the age of the new contingent annuitant. The adjustment shall include all postretirement increases in retirement income that are authorized by law after the member's date of retirement. Payment of this adjusted life annuity shall continue under the provisions of the option previously elected by the member.

(b) If the member rescinds the election, the member shall thereafter receive a straight life annuity equal to what the member would otherwise be entitled to receive if the member had not elected the joint and survivor life annuity option, including all postretirement increases in retirement income that are authorized by law after the date of retirement. The increased payment shall continue during the remainder of the member's lifetime.

(c) If a member whose original date of retirement is before July 1, 2008 rescinds the joint and survivor life annuity option previously elected and receives the straight life annuity pursuant to subdivision (b) of this paragraph, the member may again elect the same joint and survivor life annuity option previously elected subject to the same restrictions prescribed in subdivision (a) of this paragraph.

#### 38-762. Survivor benefits before retirement; definition

A. On the death of any active or inactive member before retirement, the designated beneficiary of the member shall be paid a survivor benefit equal to the sum of both of the following:

1. The member's contribution and interest and the employer's contribution and interest to the defined benefit plan established by this article for credited service that a member earned by working for an employer, plus all contributions and interest made for the purchase of military service, leave without pay or other public service credit. 2. The amount of the member's employee account and the member's employer account together with supplemental credits, if any, transferred from the defined contribution program administered by ASRS to the defined benefit program established by this article.

B. Subsection A, paragraphs 1 and 2 of this section shall be accumulated at compound interest at a rate determined by the board through the day of the payment of the benefit.

C. In lieu of a single payment, a designated beneficiary who is eligible for a survivor benefit pursuant to subsection A of this section may elect to receive the actuarial equivalent of the survivor benefit as monthly income for life, if the resulting monthly amount is greater than or equal to the amount determined by the board under section 38-764, subsection E.

D. If a member dies before distribution of the member's benefits commences, the member's entire benefits shall be distributed within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

1. The member's surviving spouse.
2. The member's surviving natural or adopted children in equal shares.
3. The member's surviving parents in equal shares.
4. The member's estate.

F. Any payment pursuant to this section is payment for the account of the member or the member's beneficiary and all persons entitled to payment and, to the extent of the payment, is a full and complete discharge of all liability of the board or ASRS, or both, under or in connection with ASRS.

G. For the purposes of this section, "designated beneficiary" means any individual designated by the member as the member's beneficiary.

#### **38-763. Survivor benefits after retirement**

A. Except as provided in subsection B of this section, if a member dies after distribution of retirement benefits commences, ASRS shall continue to distribute the remaining portion of retirement benefits within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

B. On the death of a retired member who is receiving benefits, the estate or beneficiary of the member is entitled to receive at least the amount of the member's contribution to ASRS plus interest, as determined by the director, less the benefits distributed by ASRS. This amount is payable either as a lump sum or at the same periodic rate in effect at the time of the member's death, as determined by the estate or beneficiary.

#### **38-764. Commencement of retirement; payment of retirement benefits; lump sum payments**

A. Retirement is deemed to commence on a date elected by the member. 2. Continue to and include the first day of the month in which death occurs or continue until the date of their cessation in accordance with any optional method of payment that may have been elected.

C. Except as provided in subsection D of this section, at the request of a retired member, a retired member's guardian or a court appointed conservator, the board may pay any increase in retirement

benefits or the entire retirement benefit in a lump sum payment based on the actuarial present value of the benefit or the increase in the benefit if the payment of the benefits would result in ineligibility, reduction or elimination of social service programs provided to the member by this state, its political subdivisions or the federal government.

D. The board may pay the entire retirement benefit in a lump sum pursuant to subsection C of this section only if continued membership in ASRS will result in additional requests for lump sum payments based on cost of living adjustments or the establishment of minimum benefit awards.

E. If any benefit that is payable as a series of periodic payments amounts to less than a threshold amount determined by the board, the board, in its sole discretion and based on uniform rules it establishes, may order the amount to be paid in a lump sum. A member who receives a lump sum payment pursuant to this subsection remains a member of ASRS and is eligible for the coverage provided pursuant to section 38-782 and the payment pursuant to section 38-783 but is not eligible for a benefit increase pursuant to section 38-767.

F. All distributions of retirement benefits to a member shall be distributed within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

G. Notwithstanding subsection H of this section, a member may elect to cancel the effective date of retirement within thirty days of retirement or before the member's receipt of retirement benefits, whichever is later.

H. A member may elect to make changes to a retirement application before the member's retirement date. A member may exercise a onetime election to make changes to the retirement application within sixty days after the member's retirement date. The member may not change the member's retirement date, and any changes made to the retirement application are retroactive to the member's retirement date.

I. A member who attains a normal retirement date may retire at any time without terminating employment if the member is employed for less than the hours required for active membership pursuant to section 38-711, paragraph 23, subdivision (b).

#### **38-765. Errors; benefit recomputation**

If any change or error in the records results in any member or beneficiary receiving from ASRS more or less than the member or beneficiary would have been entitled to receive if the records had been correct, ASRS shall correct the error and as far as practicable shall adjust the payments in a manner so that the actuarial equivalent of the benefit to which the member or beneficiary was correctly entitled is paid. ASRS shall correct any change or error and shall pay the appropriate monies to a member or beneficiary or shall recover monies from the member or beneficiary if the member or beneficiary is overpaid. ASRS shall recover monies by reducing any benefit otherwise payable by ASRS or the LTD program established by article 2.1 of this chapter to an active, inactive, person with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

#### **38-766. Retired members; return to work; suspension of benefits; exceptions; maximum benefit**

2. Attains a normal retirement date, no longer meets the requirements for active membership pursuant to this subsection and files an application for reretirement on a form that is approved by the director.

B. A retired member whose retirement benefits have been suspended pursuant to subsection A of this section shall repay ASRS any retirement benefits received by the member from the date ASRS notifies the member in writing that the member's employment resulted in active membership in ASRS pursuant to subsection A of this section, from the date ASRS determines that the member knew or should have known that the member's employment resulted in membership in ASRS pursuant to subsection A of this section or for any other period that approximates the duration of the violation, as determined by ASRS.

C. A member who satisfies subsection A, paragraph 1 or 2 of this section is entitled to receive an annuity recomputed to include the additional compensation and credited service. However, the recomputed annuity shall be in the original optional form chosen pursuant to section 38-760, with the same beneficiary, if applicable, as when the member first retired, unless the member has resumed active membership for at least sixty consecutive months. A member who retired under a provision of law allowing increased benefits if the retirement occurred during a specific period of time and who subsequently becomes an employee under ASRS shall not retain the increased benefits under the prior law when benefits are computed for the member's most recent retirement.

D. Notwithstanding subsection A of this section, ASRS shall not suspend the payment of retirement benefits if a retired member begins or returns to employment with an employer in a position that satisfies all of the following:

1. Results in a true change in position, job duties and job title from the position occupied by the member before ASRS retirement.

The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

F. Section 38-769, subsection L applies when determining the maximum benefit that may be paid to a retired member who resumes active membership and subsequently retires.

G. An employer that engaged the retired member to work pursuant to this section shall pay to ASRS an amount equal to the rate established by the actuary pursuant to section 38-766.02, subsection B for the period starting with the first day the retired member began working after retirement through the earlier of:

1. The date the member terminates employment.
2. The date the member resumes active membership pursuant to subsection A of this section and the member and employer are required to make contributions pursuant to section 38-736, 38-737 or 38-738.

**38-766.01. Retired members; return to work**

F. A retired member who returns to work pursuant to this section does not accrue credited service, member service as provided in section 15-1628, subsection B, paragraph 4, additional account balances, retirement benefits or long-term disability program benefits pursuant to article 2.1 of this chapter for the period the retired member returns to work. The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

**38-766.02. Retired members; return to work; employer contribution payments; exception; definitions**

A. Notwithstanding section 38-766.01, subsection E, beginning July 1, 2012, an employer shall pay contributions at an alternate contribution rate on behalf of a retired member who returns to work with an ASRS employer in any capacity in a position ordinarily filled by an employee of the employer or in a position that is similar in duties and responsibilities to that of a position ordinarily filled by an employee of the employer. This subsection applies to a retired member who has reached a normal retirement age or a retired member who retired under section 38-758 if the retired member's retirement benefit has not been suspended pursuant to section 38-766.

B. The ASRS actuary shall determine the alternate contribution rate in an annual valuation performed as of June 30. For the fiscal year beginning on July 1 of the following calendar year, the valuation shall determine the percentage to be applied to the compensation, gross salary or contract fee of a retired member who meets the requirements of this section.

C. The alternate contribution rate shall not be less than two percent in any fiscal year. The alternate contribution rate is equal to the lesser of:

1. The employer contribution rate established by the ASRS actuary pursuant to section 38-737 plus the employer contribution rate established by the ASRS actuary pursuant to section 38-797.06.

2. The total past service funding requirement rate established by the ASRS actuary pursuant to section 38-737 plus the total past service funding requirement rate established by the ASRS actuary pursuant to section 38-797.06.

D. ASRS shall determine the schedule and method of payment of the alternate contribution rate. Subject to section 38-738, subsection A, all contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay the expenses of ASRS. Payments made pursuant to this section by employers become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments as prescribed in section 38-711. ASRS may recover delinquent payments due under this section, together with interest charges as provided in this section, by action in a court of competent jurisdiction against an employer liable for payments or, at the request of the director, ASRS may deduct the delinquent payments and interest charges from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state.

E. An employer of a retired member shall submit any reports, data, paperwork or materials that are requested by ASRS and that are necessary to determine the compensation, gross salary or contract fee associated with a retired member who returns to work or to determine the function, utilization, efficacy or operation of the return to work program.

F. An employer is not required to pay contributions at an alternate contribution rate on behalf of a retired member under subsection A of this section if the retired member returns to work with the employer in a position that is currently filled by an employee of the employer who is an active member and for which the employer is currently required to pay and is paying contributions on behalf of the active member in that same position pursuant to sections 38-736 and 38-737. An employer may pay contributions at an alternate contribution rate for a retired member who meets the requirements for an exemption under this subsection.

G. For contributions made pursuant to subsection F of this section beginning July 1, 2019, if ASRS and the employer determine that the alternate contribution rate does not apply to a retired member who returns to work for whom the employer has paid contributions at the alternate contribution rate,

the employer may request an employer credit, not including interest, for those contributions within ninety days after the end of the fiscal year in which the contributions were paid. If ASRS determines that an employer credit is not feasible, ASRS shall issue a refund to an employer in a form determined by ASRS.

H. For the purposes of this section:

1. "Contract fee" means the gross amount paid to a retired member as an independent contractor minus an amount, not to exceed ten percent, for an administrative fee.
2. "Gross salary" means the gross amount paid to a retired member by a leasing company as salary or wages, including amounts that are subject to deferred compensation or tax shelter agreements, for services rendered or that would have been paid to the retired member except for the member's election or a legal requirement that all or part of the gross amount be used for other purposes.

**38-767. Benefit increases: applicability**

A. For a member whose membership commenced before the effective date of this amendment to this section, effective July 1 of each year, each retired member or beneficiary of a retired member is entitled to receive a permanent benefit increase in the base benefit equal to the amount determined in subsection D of this section if the retired member or beneficiary of a retired member was receiving benefits on or before July 31 of the previous calendar year. The annual permanent benefit increases shall be paid on a monthly basis. The benefit increase shall commence on July 1.

B. The total amount of the percentage increase provided in subsection A of this section shall not exceed four per cent in aggregate for all persons eligible for an increase. The percentage payable from excess investment earnings shall be determined as follows:

1. Determine any excess investment earnings account balance available.
2. Determine the total excess investment earnings as provided in subsection C of this section.
3. Add the amount determined in paragraph 1 of this subsection to the amount determined in paragraph 2 of this subsection.
4. Determine one per cent of the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
5. Divide the amount determined in paragraph 3 of this subsection by the amount determined in paragraph 4 of this subsection. If the quotient is equal to or more than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is four per cent. If the quotient is one or more but less than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is that per cent rounded to the nearest tenth of a per cent. If the quotient is less than one, no benefit increases shall be granted.

C. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are equal to the actuarial present value of benefits for all retired members and beneficiaries as of June 30 of the year prior to the year for which

an increase is being granted multiplied by the positive difference, if any, between the yield rate on the actuarial value of ASRS assets for the fiscal year that ended June 30 of the year prior to the year for which an increase is being granted and eight per cent. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are zero if the yield rate on ASRS assets is less than or equal to eight per cent.

D. The permanent benefit increase for each person entitled to receive an increase pursuant to subsection A of this section shall be determined based on years of credited service as follows:

1. Multiply the percentage determined in subsection B, paragraph 5 of this section by the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
2. Determine the actuarial present value of a one dollar per year of credited service annual increase in the base benefit amounts as of June 30 of the year prior to the year for which an increase is being granted, received by all persons entitled to receive an increase pursuant to subsection A of this section.
3. Divide the amount determined in paragraph 1 of this subsection by the amount determined in paragraph 2 of this subsection.
4. Multiply the amount determined in paragraph 3 of this subsection by the number of years of credited service for each retired member and the number of years of credited service earned by a retired member for each beneficiary entitled to receive an increase pursuant to subsection A of this section.

E. Any excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section from any year that are not used for benefit adjustments for that year are available for future benefit increases in the following years.

F. Monies available for future benefit increases shall earn interest at a rate of eight per cent per year. This interest shall be used to pay the additional benefit increases provided for in subsection G of this section.

G. In addition to a benefit increase pursuant to subsection A of this section, if a retired member who was eligible for an annual benefit increase pursuant to subsection A of this section had more than ten years of credited service, the retired member or beneficiary of the retired member is entitled to receive a benefit increase based on the number of years following retirement as follows:

1. At least five years but less than ten years, a monthly benefit increase equal to the amount determined in subsection H of this section.
2. At least ten years but less than fifteen years, a monthly benefit increase equal to two times the amount determined in subsection H of this section.
3. At least fifteen years but less than twenty years, a monthly benefit increase equal to three times the amount determined in subsection H of this section.

4. At least twenty years but less than twenty-five years, a monthly benefit increase equal to four times the amount determined in subsection H of this section.

5. At least twenty-five years but less than thirty years, a monthly benefit increase equal to five times the amount determined in subsection H of this section.

6. At least thirty years, a monthly benefit increase equal to six times the amount determined in subsection H of this section.

H. The amount of the monthly benefit increase under subsection G of this section for a retired member or beneficiary of a retired member who is entitled to the increase when at least five years but less than ten years have elapsed since the retired member's retirement date is equal to the amount obtained by dividing the amount of interest credited pursuant to subsection F of this section by the amount that equals the sum of:

1. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of one dollar per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least five years but less than ten years have elapsed since the retired members' retirement dates.

2. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of two dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least ten years but less than fifteen years have elapsed since the retired members' retirement dates.

3. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of three dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least fifteen years but less than twenty years have elapsed since the retired members' retirement dates.

4. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of four dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty years but less than twenty-five years have elapsed since the retired members' retirement dates.

5. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of five dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty-five years but less than thirty years have elapsed since the retired members' retirement dates.

6. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of six dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least thirty years have elapsed since the retired members' retirement dates.

I. A member of the defined contribution program administered by ASRS is only eligible for the benefit increases pursuant to this section if the member elects to transfer irrevocably from the defined

contribution program administered by ASRS to the defined benefit program established by this article.

J. The cost of the benefit increases granted pursuant to this section shall be added to the existing liabilities of ASRS.

K. As used in this section, the actuarial present value of benefits for retired members and beneficiaries does not include the value of benefits provided pursuant to section 38-783.

#### 38-768. Minimum retirement benefit

A. Notwithstanding any other provision of this article, a retired member or beneficiary who is entitled to a benefit under this article shall receive at least a minimum monthly benefit that is computed pursuant to subsection B of this section if the retired member or beneficiary is at least seventy-five years of age and if the retired member or beneficiary is any of the following:

1. Retired from ASRS with at least twenty years of credited service.
2. A beneficiary of ASRS who is receiving benefits derived from a retired member who had at least twenty years of credited service.
3. A member with at least twenty years of service who irrevocably revokes the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elects to receive benefits under this article.
4. A beneficiary who is receiving benefits derived from a retired member who had at least twenty years of service, who irrevocably revoked the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elected to receive benefits under this article.

B. The minimum monthly benefit provided by subsection A of this section:

1. For retired members, is \$600.
2. For beneficiaries, is the amount determined by paragraph 1 of this subsection and reduced in accordance with the option chosen by multiplying the amount determined by paragraph 1 of this subsection by the actuarial figure for the option chosen and by the percentage of the option chosen.

C. If the minimum monthly benefit pursuant to subsections A and B of this section is more than the retired member's or beneficiary's current monthly benefit, the retired member or beneficiary is eligible to receive a monthly benefit equal to the minimum benefit. If the retired member's or beneficiary's current monthly benefit is more than the minimum benefit, the retired member's or beneficiary's benefit remains the same.

D. A member who receives a lump sum payment pursuant to section 38-764, subsection C is not eligible for a minimum benefit as provided by this section.

#### 38-769. Maximum retirement benefits; termination; definitions

A. Notwithstanding any other provision of this article, except as provided in subsection C of this section, the employer provided portion of a member's annual benefit payable in the form of a straight life annuity, at any time within a limitation year, shall not exceed one hundred sixty thousand dollars or a larger amount that is effective as of January 1 of each calendar year, is prescribed by the board and is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount pursuant to this subsection as of the effective date of the increase as prescribed by the United States secretary of the treasury. Benefit increases provided in this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001 shall be provided to all current and former members who have benefits that are limited by section 415(b) of the internal revenue code and who have an accrued benefit under ASRS immediately before July 1, 2001, other than an accrued benefit resulting from a benefit increase solely as a result of the increases provided by this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001.

B. Notwithstanding the limitations of subsection A of this section, the benefits payable to a member are deemed not to exceed the limitations determined under subsection A of this section if the retirement benefits payable to the member under this article do not exceed ten thousand dollars for the limitation year and if an employer has not at any time maintained a defined contribution plan in which the member has participated.

C. The limitations determined under subsection A of this section are subject to the following adjustments:

1. If a member has less than ten years of membership in ASRS, the maximum dollar limitation determined under subsection A of this section shall be multiplied by a fraction, the numerator of which is the number of years, or partial years, of membership in ASRS and the denominator of which is ten. The reduction provided in this paragraph also applies to the ten thousand dollar floor limitation provided in subsection B of this section, except that the reduction applies to years of service with an employer rather than to years of membership in ASRS. The reduction in this paragraph does not reduce the limitations determined under subsection A of this section to an amount less than one-tenth of the limitations as determined without regard to this paragraph.

2. If the member's benefit under ASRS commences before the member reaches sixty-two years of age, the benefit will be limited to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for early retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight

life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity start date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-two, determined without applying the limitations of section 415 of the internal revenue code.

3. If the retirement benefit under ASRS commences after the member reaches sixty-five years of age, the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section on that benefit is increased to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) as adjusted under section 415(d) of the internal revenue code, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for delayed retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity starting date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-five, determined without applying the limitations of section 415 of the internal revenue code.

4. For purposes of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity and that is not subject to section 417(e)(3) of the internal revenue code must be adjusted to an actuarially equivalent straight life annuity that equals either:

(a) For limitation years beginning on or after July 1, 2007, the greater of the annual amount of the straight life annuity, if any, payable under ASRS at the same annuity starting date, and the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using an interest rate of five per cent and the applicable mortality table under section 417(e)(3) of the internal revenue code.

(b) For limitation years beginning before July 1, 2007, the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five per cent interest rate assumption and the applicable mortality table.

5. For the purpose of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity to which section 417(e)(3) of the internal revenue code would apply if that section of the internal revenue code were applicable to ASRS must be adjusted to an actuarially equivalent straight life annuity that equals:

(a) If the annuity starting date is in a plan year beginning on or after July 1, 2006, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest rate assumption and the applicable mortality table.

(iii) The applicable interest rate under section 417(e)(3) of the internal revenue code and the applicable mortality table, divided by 1.05. The stability period during which the applicable interest rate remains constant is the plan year. The look-back month that is used to determine the applicable interest rate during the stability period is the third full calendar month preceding the first day of the stability period. For the purposes of this item, "applicable interest rate" means the annual interest rate on thirty-year treasury securities as specified by the commissioner of the United States internal revenue service for a month in revenue rulings or notices or another guidance published by the commissioner in the internal revenue bulletin.

(b) If the annuity starting date is in a plan year beginning in July 1, 2004 or July 1, 2005, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit payable, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest assumption and the applicable mortality table.

(c) If the annuity starting date is on or after July 1, 2004 and before December 31, 2004, and ASRS applies the transition rule in section 101(d)(3) of the pension funding equity act of 2005 in lieu of the rule in subdivision (b) of this paragraph, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, determined in accordance with internal revenue service notice 2004-78.

6. When calculating the limitations of paragraph 4 or 5 of this subsection, the portion of any joint or survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code shall be disregarded.

D. Subsection C, paragraphs 1 and 2 of this section do not apply to income received from ASRS as a pension, annuity or similar allowance as a result of the recipient developing a disability by personal injury or sickness or to amounts received from ASRS by beneficiaries, survivors or the estate of a member as a result of the death of the member.

E. Notwithstanding any other provision of this section, the annual benefit payable under this article may be reduced to the extent necessary, as determined by the board, to prevent disqualification of ASRS under section 415 of the internal revenue code that imposes additional limitations on the annual benefits payable to members who also may be participating in another tax qualified pension or savings plan of this state. An employer shall not provide employee retirement or deferred benefits if the benefits authorized by this section and as required by federal law result in the failure of ASRS to meet federal qualification standards as applied to public pension plans. The board shall advise affected members of any additional information concerning their annual benefits required by this subsection. All benefits payable pursuant to this subsection shall comply with the limitations of benefits contained in section 415 of the internal revenue code and the final treasury regulations issued under that section. Notwithstanding any provision of this article to the contrary, if the annual benefits within the meaning of section 415 of the internal revenue code for any member exceed the limits of section 415(b) of the internal revenue code and this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

F. If the maximum amount of benefit allowed under section 415 of the internal revenue code is increased after the commencement date of a member's benefit due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to the provisions of section 415(d) of the internal revenue code, the amount of the monthly benefit payable under ASRS to a member whose benefit is restricted due to the provisions of section 415(d) of the internal revenue code shall be increased by the board as of the date prescribed by the United States secretary of the treasury on which the increase shall become effective. The increase shall reflect the increase in the amount of retirement income that may be payable under this article as a result of the cost of living adjustment.

G. In determining the adjustments to the defined benefit dollar limitation authorized by subsection A of this section, the board shall prescribe a larger defined benefit dollar limitation if prescribed by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. An adjustment to the defined benefit dollar limitation prescribed in subsection A of this section is not effective before the first calendar year for which the United States secretary of the treasury publishes the adjustment. After it is prescribed by the board, the new defined benefit dollar limitation applies to the limitation year ending with or within the calendar year for which the secretary of the treasury makes the adjustment.

H. For the purposes of the limitations prescribed by this section, all member and employer contributions made to ASRS to provide a member benefits pursuant to section 38-771 or 38-771.01 and all member contributions that are not treated as picked up by the employer under section 414(h)(2) of the internal revenue code shall be treated as made to a separate defined contribution plan.

I. On termination or partial termination of ASRS, the accrued benefit of each member is, as of the date of termination or partial termination, fully vested and nonforfeitable to the extent then funded.

J. If ASRS terminates, the benefit of any highly compensated employee as defined in section 414(q) of the internal revenue code and any highly compensated former employee is limited to a benefit that is nondiscriminatory under section 401(a)(4) of the internal revenue code and as follows:

1. Benefits distributed to any of the twenty-five active and former highly compensated employees with the greatest compensation in the current or any prior fiscal year are restricted so that the annual payments are no greater than an amount equal to the payment that would be made on behalf of the member under a straight life annuity that is the actuarial equivalent of the sum of the member's accrued benefit, the member's other benefits under ASRS, excluding a social security supplement as defined in 26 Code of Federal Regulations section 1.411(a)-7(C)(4)(ii), and the amount the member is entitled to receive under a social security supplement.

2. Paragraph 1 of this subsection does not apply if either:

(a) After payment of the benefit to a member described in paragraph 1 of this subsection, the value of ASRS assets equals or exceeds one hundred ten per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS.

(b) The value of the benefits for a member described in paragraph 1 of this subsection is less than one per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS before distribution.

(c) The value of the benefits payable by ASRS to a member described in paragraph 1 of this subsection does not exceed three thousand five hundred dollars.

K. For the purposes of subsection J of this section, "benefit" includes loans in excess of the amount prescribed in section 72(p)(2)(A) of the internal revenue code, any periodic income, any withdrawal values payable to a living member and any death benefits not provided for by insurance on the member's life.

L. On retirement of a member who was a retired member, who resumed active membership and who subsequently retires, the limitations of this section in effect on the member's subsequent retirement apply to the member's retirement benefit payable as recomputed pursuant to section 38-766. In

addition, the sum of the present value of the member's recomputed retirement benefits plus the present value of the benefits the member received during the member's prior retirement shall not exceed the present value of the limitations in effect on the member's subsequent retirement. The limitations prescribed in this subsection shall not reduce a member's retirement benefit below the retirement benefit the member was receiving before the member resumed active membership. For the purposes of determining present value under this subsection, the board shall use the actuarial equivalent assumptions provided in section 38-711, paragraph 2.

M. For the purposes of this section:

1. The following adjustments shall be made to the definition of compensation prescribed in subsection O of this section:

(a) Compensation shall be adjusted for the types of compensation that are prescribed in this paragraph and that are paid after a member's severance from employment with an employer. Amounts described in subdivisions (b), (c) and (d) of this paragraph may be included only as compensation to the extent the amounts are paid by the later of two and one-half months after severance from employment or by the end of the limitation year that includes the date of the severance from employment. Any other payment of compensation paid after severance of employment that is not described in the types of compensation prescribed in this paragraph is not considered compensation for purposes of this section, even if payment is made within the time period prescribed in this subdivision.

(b) Compensation shall include regular pay after severance of employment if the payment is regular compensation for services performed during the member's regular working hours or compensation for services performed outside the member's regular working hours, such as overtime or shift differential, commission, bonus or other similar payments, and the payment would have been paid to the member before a severance from employment if the member had continued in employment with the employer.

(c) Leave cash-outs shall be included in compensation if those amounts would have been included in compensation if they were paid before the member's severance from employment and the amounts are payment for unused accrued bona fide sick, vacation or other leave, but only if the member would have been able to use the leave if employment had continued.

(d) Deferred compensation shall be included in compensation if the compensation would have been included in compensation if it had been paid before the member's severance from employment and the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid at the same time if the member had continued in employment with the employer and only to the extent that the payment is includable in the member's gross income.

(e) Compensation does include payments to an individual who does not currently perform services for an employer by reason of qualified military service as defined in section 414(u)(5) of the internal revenue code to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(f) Compensation does not include compensation paid to a member who is a person with a permanent and total disability as defined in section 22(e)(3) of the internal revenue code.

(g) Compensation shall include amounts that are includable in the gross income of a member as required by section 409A or section 457(f)(1)(A) of the internal revenue code or because the amounts are constructively received by the member.

2. Compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

3. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate a member for lost wages are compensation for the limitation year to which the back pay relates, but only to the extent the payments represent wages and compensation that would otherwise be included in compensation under this section.

N. The definition of limitation year prescribed in subsection O of this section may only be changed by an amendment to subsection O, except that if ASRS is terminated effective as of a date other than the last day of the limitation year, the termination shall be treated as if this section has been amended to change the definition of limitation year.

O. For the purposes of this section:

1. Annual additions shall be determined as provided in section 38-747, subsection O.

2. "Annual benefit" means a benefit, including any portion of a member's retirement benefit payable to an alternate payee under a qualified domestic relations order that satisfies the requirements prescribed in section 414(p)(1)(A)(i) of the internal revenue code and section 38-773, payable annually in the form of a straight life annuity, disregarding the portion of a joint and survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code, with no ancillary or incidental benefits or rollover contributions and excluding any portion of the benefit derived from member contributions or other contributions that are treated as a separate defined contribution plan under section 415 of the internal revenue code but including any of those contributions that are picked up by the employer under section 414(h) of the internal revenue code, or that otherwise are not treated as a separate defined contribution plan. If the benefit is payable in another form, the determination as to whether the limitation described in subsection A of this section has been satisfied shall be made by the board by adjusting the benefit so that it is actuarially equivalent to the annual benefit described in this paragraph in accordance with the regulations promulgated by the United States secretary of the treasury. In addition, for determining the annual benefit attributable to member contributions, the factors described in section 411(c)(2)(B) of the internal revenue code and the regulations promulgated under the internal revenue code shall be used by the board regardless of whether section 411 of the internal revenue code applies to ASRS. The factors described in section 411(c)(2)(B) of the internal revenue code shall be those factors described under section 417(e)(3) of the internal revenue code and determined on the basis of the 417(e) mortality table and an interest rate as prescribed in subsection C, paragraph 5 of this section.

3. "Applicable mortality table" means the mortality table described in internal revenue service revenue ruling 2001-62.

4. "Compensation" means the member's earned income, wages, salaries, fees for professional service and other amounts received for personal services actually rendered in the course of employment with the employer and includes amounts described in sections 104(a)(3) and 105(a) of the internal revenue code, but only to the extent that these amounts are includable in the gross income of the member. Compensation also includes any elective deferral as defined in section 402(g)(3) of the internal revenue code and any amount that is contributed or deferred by an

employer at the election of a member and that is not includable in the gross income of the member by reason of section 125, 132(f)(4) or 457 of the internal revenue code. Compensation does not mean:

(a) Employer contributions to a plan of deferred compensation to the extent the contributions are not included in the gross income of the employee for the taxable year in which contributed and any distributions from a plan of deferred compensation, regardless of whether the amounts are includable in gross income of the employee when distributed, except that any amount received by a member pursuant to an unfunded nonqualified plan may be considered as compensation for the purposes of this section in the year the amounts are includable in the gross income of the member under the internal revenue code.

(b) Other amounts that receive special tax benefits, such as premiums for group term life insurance, but only to the extent that the premiums are not includable in the gross income of the employee, qualified transportation fringe benefits as defined in section 132 of the internal revenue code and, effective for plan years beginning from and after December 31, 1987, any amounts under section 125 of the internal revenue code that are not available to a member in cash in lieu of group health coverage because the member is unable to certify that the member has other health coverage.

5. "Defined benefit dollar limitation" means the dollar limitation determined under subsection A of this section.

6. "Defined benefit plan" has the same meaning prescribed in section 414(j) of the internal revenue code.

7. "Defined contribution plan" has the same meaning prescribed in section 414(i) of the internal revenue code.

8. "Limitation year" and "years of service" mean the fiscal year.

### 38-770. [Eligible rollover distribution: definitions](#)

A. Notwithstanding any other provision of this article that would limit a distributee's election under this section, a distributee may elect, at any time and in the manner prescribed by the board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

B. An eligible rollover distribution may commence less than thirty days after the notice required under section 402(f) of the internal revenue code is given to the distributee, provided that both:

1. ASRS clearly informs the distributee that the distributee has a right to a period of at least thirty days after receiving the notice to consider the decision of whether or not to elect a direct rollover.

2. The distributee, after receiving the notice, affirmatively elects a distribution.

C. In addition to the other elections allowed in this section, effective for distributions made from and after December 31, 2006, a designated beneficiary of a member who is not the member's surviving spouse may elect, at any time and in the manner prescribed by ASRS, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan described in subsection D,

paragraph 3, subdivisions (a) and (b) of this section. For the purposes of this subsection, "designated beneficiary" has the same meaning prescribed in section 38-775.

D. For the purposes of this section:

1. "Direct rollover" means a payment by ASRS to the eligible retirement plan specified by the distributee.

2. "Distributee" means a member, a member's surviving spouse or a member's spouse or former spouse who is the alternate payee under an acceptable domestic relations order as defined in section 38-773.

3. "Eligible retirement plan" means any of the following that accepts a distributee's eligible rollover distribution:

(a) An individual retirement account described in section 408(a) of the internal revenue code.

(b) An individual retirement annuity described in section 408(b) of the internal revenue code.

(c) An annuity plan described in section 403(a) of the internal revenue code.

(d) A qualified trust described in section 401(a) of the internal revenue code.

(e) An annuity contract described in section 403(b) of the internal revenue code.

(f) An eligible deferred compensation plan described in section 457(b) of the internal revenue code that is maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state and that agrees to separately account for amounts transferred into the eligible deferred compensation plan from ASRS.

(g) Beginning January 1, 2008, a Roth individual retirement account described in section 408A of the internal revenue code.

(h) For distributions made after December 18, 2015, a simple retirement account that satisfies the requirements of section 408(p) of the internal revenue code.

4. "Eligible rollover distribution" means distribution of all or any portion of the balance to the credit of the distributee but does not include any of the following:

(a) Any distribution that is one of a series of substantially equal periodic payments made not less frequently than annually for the life or life expectancy of the member or the joint lives or joint life expectancies of the member and the member's designated beneficiary or for a specified period of ten years or more.

(b) Any distribution to the extent the distribution is required under section 401(a)(9) of the internal revenue code.

(c) Except as provided in this paragraph, the portion of any distribution that is not includable in gross income. A distribution does not fail to be an eligible rollover distribution merely because the portion

consists of after-tax employee contributions that are not includable in gross income if the portion is paid only to an individual retirement account or annuity described in section 408(a) or 408(b) of the internal revenue code, to a qualified plan described in section 401(a) of the internal revenue code or an annuity contract described in section 403(b) of the internal revenue code that agrees to separately account for amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income.

(d) Any distribution that is made due to hardship of the member.

**38-771. Benefit options for transferred defined contribution program members: definitions**

A. On or before December 31, 1995 a nonretired ASRS member who was a member of the defined contribution program administered by ASRS and who was transferred to the defined benefit program established by this article on July 1, 1981 shall elect to receive either retirement benefits provided under this section or retirement benefits as otherwise provided by this article. An election under this subsection is irrevocable. A member who fails to make an election under this subsection is deemed to have elected to receive retirement benefits provided under this section.

B. A member who elects to receive retirement benefits provided under this section is eligible only for those benefits.

C. If a member elects to receive retirement benefits provided under this section, the member shall elect to receive retirement benefits based on either of the following:

1. The contributions paid by the member and member's employer, plus all earnings attributed to the member's retirement account, through the member's retirement date.
2. Except as provided in subsections E and F of this section, contributions paid by the member and member's employer at the contribution rate in effect before July 1, 1975 and an employee and employer contribution rate of seven per cent calculated from July 1, 1975, plus all earnings attributed to the member's retirement account, through the member's retirement date.

D. Notwithstanding sections 38-736 and 38-737, members who elect to receive retirement benefits provided under this section and their employers shall each make contributions at a rate of seven per cent of the member's compensation and, beginning on July 1, 1998, employers shall make contributions to ASRS on behalf of their respective members who have elected to receive retirement benefits provided under this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for those retired members and their dependents as provided under section 38-783. Member contributions pursuant to this subsection shall be salary reduction contributions pursuant to section 38-747, subsections C and D.

E. Subject to subsection F of this section, if a member desires to receive retirement benefits based on subsection C, paragraph 2 of this section, the member shall make the election on or before June 30, 1999 and during the member's active employment. The election shall be made in accordance with section 38-747, subsections C, D and H. If a member elects to receive retirement benefits based on subsection C, paragraph 2 of this section, both the member and the member's employer shall pay to ASRS the difference between the contributions made and seven per cent of the member's gross compensation from July 1, 1984 through December 31, 1995. If a member elects to have the member's employer make payments for all or a portion of the contributions pursuant to section 38-747, subsection D, the member's employer shall make the contributions as required by

section 38-747, subsection D. If a member elects to make contributions pursuant to section 38-747, subsection H, both the member and the member's employer shall pay to ASRS the portion of the difference between the total required contributions and that portion of the required contributions that the member has elected to have the member's employer pay pursuant to section 38-747, subsection D. The member's employer shall make the employer's contributions attributable to a member's period of employment before July 1, 1999 in a single lump sum payment at the time and computed in the manner prescribed in section 38-771.01, subsections G and H. If a member elects pursuant to subsection C, paragraph 2 of this section to have contributions made or to make contributions pursuant to section 38-747, subsection D or H for less than the full amount permitted by this subsection the member's benefits shall be computed only with reference to the contributions actually made. A member shall make an election pursuant to this section with respect to contributions to be made by the member before July 1, 1999. This election shall remain in full force and effect on and after July 1, 1999 and may be modified or revoked by the member only if the modification or revocation is specifically authorized in section 38-747. Section 38-771.01 governs any elections made by a member with respect to contributions to be made by the member to ASRS on or after July 1, 1999.

F. Contributions made to ASRS by a member and the member's employer pursuant to subsections D and E of this section shall not exceed, in any one limitation year, the limits of section 38-747, subsection E. If for any reason, the member and employer contributions to ASRS made pursuant to subsections D and E of this section would, at the time such contributions are due, taking into account other employer and member contributions due to ASRS for the limitation year, exceed the limits of section 38-747, the amount to be paid by the member and the member's employer under subsection E of this section shall be proportionately reduced and such reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days of the beginning of such limitation year, unless the limits of section 38-747 would again be exceeded, in which event this procedure will be repeated until all such contributions have been made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires prior to making all contributions under subsections D and E of this section because of the limitations of section 38-747, the member's benefits under this section shall be calculated only with reference to the contributions actually made. For purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

G. A member who elects to receive retirement benefits provided under this section is subject to the provisions of section 38-771.01, subsection K that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article.

H. ASRS shall handle all retirement accounts of members who elect retirement benefits provided under this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits provided under this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

I. The election of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

J. For purposes of this section:

1. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

2. "Retirement account" means the combined member and employer contributions with interest or earnings on the contributions including any allocations credited as employer contributions.

38-771.01. Alternative benefits for transferred defined contribution program members; definitions

A. A retired or nonretired ASRS member who was a member of the defined contribution program administered by ASRS, who was transferred to the defined benefit program established by this article on July 1, 1981, who is determined by ASRS to qualify under paragraph 1 of this subsection and who is not excluded under paragraph 2 of this subsection shall receive defined contribution benefits pursuant to this section, or, if greater, defined benefit retirement benefits pursuant to this article. A retired or nonretired ASRS member qualifies or is excluded under this section based on the following criteria:

1. A member is entitled to receive benefits under this section only if the member satisfies at least one of the following requirements:

(a) Is not retired as of July 1, 1999 even though the member may have previously elected to receive benefits under the defined benefit program established by this article, may have transferred employment between or among employers on or after July 1, 1981 or may have terminated employment on or after July 1, 1981 and after that termination date returned to employment with an employer.

(b) Retired on or after July 1, 1984 and elected to receive benefits under the defined benefit program established by this article.

(c) Retired on or after July 1, 1984 and is receiving benefits under the defined contribution program administered by ASRS.

2. Even if the member otherwise qualifies under paragraph 1 of this subsection, a member is not entitled to receive benefits under this section if any of the following applies to the member:

(a) The member retired before July 1, 1984.

(b) The member is entitled to receive benefits pursuant to section 38-771 and has paid to ASRS pursuant to section 38-771 before July 1, 1999 the entire amount that is attributable to service performed on or after July 1, 1984 and that is equal to the contribution rate of seven per cent of compensation, the contribution has been matched by an equal contribution to ASRS by the member's employers and all applicable earnings and supplemental credits have been credited for the member's account.

(c) The member withdrew the member's contributions from the defined contribution program administered by ASRS and, as of July 1, 1999, is not entitled to any benefit under the defined contribution program administered by ASRS.

(d) The member transferred the member's benefits under either the defined benefit program established by this article or the defined contribution program administered by ASRS to any other retirement system.

B. A beneficiary is entitled to receive benefits pursuant to this section only if the beneficiary satisfies the requirements of paragraph 1 of this subsection and is not excluded under paragraph 2 of this subsection based on the following criteria:

1. The beneficiary is a beneficiary of a retired or nonretired member who qualifies for benefits under subsection A, paragraph 1 of this section, is not excluded under subsection A, paragraph 2 of this section and as of July 1, 1999 either:

(a) Is receiving a monthly benefit from the defined benefit program established by this article or the defined contribution program administered by ASRS.

(b) Is living, is a survivor of a deceased retired or nonretired member and elected to receive a lump sum distribution of the survivor benefit that was payable on the death of the member.

2. Even if the beneficiary satisfies the requirements of paragraph 1 of this subsection, a beneficiary is not entitled to receive benefits under this section if the beneficiary is a beneficiary of a deceased retired member who elected a form of benefit under either the defined benefit program established by this article or the defined contribution program administered by ASRS that did not provide for survivor benefits after the death of the retired member.

C. A member or a deceased member's beneficiary who receives benefits pursuant to this section shall receive benefits based on the sum of the following:

1. Contributions paid by the member and the member's employer at the contribution rates in effect before July 1, 1984, together with all applicable earnings and supplemental credits on those contributions.

2. Contributions paid by the member's employer at the contribution rates in effect beginning on July 1, 1984 through the earlier of June 30, 1999 or the member's retirement or death, together with all applicable earnings and supplemental credits on those contributions computed through the earlier of June 30, 1999 or the member's retirement or death.

3. The excess of employer contributions computed at the rate of seven per cent of compensation beginning on July 1, 1984 through June 30, 1999 over the actual contributions paid by the member's employer as described in paragraph 2 of this subsection, together with all earnings and supplemental credits that would have been earned on those excess contributions computed from the date the contributions would have been paid to ASRS.

4. Contributions paid by the member at the contribution rate in effect on and after July 1, 1984, together with all earnings on those contributions.

5. With respect to member contributions that were not paid to ASRS before July 1, 1999 pursuant to section 38-771, subsection C, paragraph 2, forty per cent of the earnings that would have been credited on those contributions through the earlier of June 30, 1999 or the member's retirement or death as if those member contributions had been paid.

6. Contributions paid by the member to ASRS before July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with all earnings on those contributions.

7. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with earnings on those contributions.

8. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to this section, together with earnings on those contributions.

9. Contributions paid by the member's employer to ASRS on or after July 1, 1999 pursuant to this section, together with all applicable earnings and supplemental credits on those contributions.

D. Effective on July 1, 1999, ASRS shall adjust the retirement account reserves under the defined contribution program administered by ASRS for retired members and the beneficiaries of deceased retired members entitled to benefits pursuant to this section to give effect to additional contributions, earnings and supplemental credits for those retired members prescribed in subsection C, paragraphs 1 through 6 of this section for the periods of the members' employment before July 1, 1999 and to give effect to the recomputation, adjustment and payment of benefits pursuant to subsection G of this section. After this recomputation, adjustment and payment, ASRS shall credit and charge these retirement account reserves with the amounts prescribed under the defined contribution program administered by ASRS based on the adjustments prescribed in this section.

E. Effective on July 1, 1999, ASRS shall adjust each nonretired member's accounts under the defined contribution program administered by ASRS to equal the sum of the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section with respect to periods of a member's employment before July 1, 1999. After the adjustment, these accounts shall accrue applicable interest and supplemental credits based on the entire amounts credited to the accounts.

F. For periods of a nonretired member's employment on or after July 1, 1999, a nonretired member who is entitled to receive benefits pursuant to this section and the nonretired member's employer shall each make contributions to ASRS at the rates established pursuant to sections 38-736 and 38-737, except as follows:

1. If a nonretired member made an election pursuant to section 38-771, subsection C, paragraph 2 and section 38-747, subsections C and D before July 1, 1999, the member's employer shall continue to make pickup contributions to ASRS on behalf of the member pursuant to the member's election, except that with respect to employer contributions that are required pursuant to section 38-771, subsection E for periods of a member's employment before July 1, 1999, the employer shall make a lump sum payment to ASRS as computed pursuant to subsection G of this section and required to be paid to ASRS pursuant to subsection H of this section.

2. If a nonretired member elected or was deemed to have elected benefits pursuant to section 38-771 before December 31, 1995, for periods of a member's employment from and after the election or deemed election the nonretired member's employer and the member shall each continue to pay to ASRS an amount equal to seven per cent of the member's compensation in lieu of the rates established pursuant to sections 38-736 and 38-737.

3. A nonretired member who is entitled to receive benefits pursuant to this section and who never elected to receive benefits pursuant to section 38-771 may elect pursuant to section 38-747, subsections C and D to make contributions at the rate of seven per cent of the member's compensation for periods of a member's employment on or after July 1, 1999. If a member makes an election pursuant to this paragraph, the election is irrevocable as provided in section 38-747,

subsection D and the member and the member's employer shall each make contributions at a rate of seven per cent of the member's compensation beginning on the effective date of the election.

4. A nonretired member who is entitled to receive benefits pursuant to this section may elect pursuant to section 38-747, subsections C, D and H to make contributions with respect to member contributions that were not made to ASRS but that could have been made pursuant to section 38-771, subsection C, paragraph 2 for periods of employment before July 1, 1999 other than member contributions for which an irrevocable election pursuant to section 38-747, subsections C and D was in effect before July 1, 1999.

5. In addition to any other employer contributions required pursuant to this section, a nonretired member's employer shall make contributions to ASRS on behalf of the nonretired member who will receive retirement benefits pursuant to this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for the nonretired member and the nonretired member's dependents as provided under section 38-783.

6. Notwithstanding any other provision of this article, an election permitted pursuant to this section shall not revoke, amend or alter any irrevocable election made by a member before July 1, 1999 pursuant to sections 38-747 and 38-771.

G. Effective on July 1, 1999, ASRS shall recompute the monthly and annual benefits for retired members entitled to receive benefits pursuant to this section and the monthly or lump sum survivor's benefits payable to beneficiaries entitled to receive benefits pursuant to this section. The recomputation of benefits shall be as if the member's retirement account or retirement reserve account on the date of retirement or death had been computed based on the amounts that would have been credited to the account as of that date based on the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section. In addition and after recomputing benefits described in this subsection, with respect to members who retired on or after July 1, 1984, ASRS shall recompute the annual payments that would have been made to the member or beneficiary of a deceased member entitled to receive benefits under this section in excess of the annual payments actually made. The recomputation shall be calculated and paid as follows:

1. The recomputation shall be calculated and paid based on the member's and, if applicable, the member's beneficiary's age, the benefit option selected at the date of the initial benefit payments and the actuarial assumptions used by ASRS at the time the initial benefit payments were computed.

2. Before July 1, 2000, ASRS shall pay to the retired member or beneficiary in a lump sum the difference between the recomputed amount and the actual distributions paid to the member or beneficiary through July 1, 1999, together with interest at the rate of eight per cent a year, compounded monthly, computed from the date each excess payment should have been paid through the date of payment to the retired member or beneficiary.

3. If the retired member is living, ASRS shall pay the lump sum payment to the member. If the member is deceased and is survived by a beneficiary who is then living and receiving a monthly benefit on account of the deceased member, ASRS shall pay the lump sum payment to the beneficiary. The payment to the beneficiary shall include the recomputed amount that is payable pursuant to this section and that would have been paid to the member through the date of the member's death plus the recomputed amount that is payable pursuant to this section and that would have been payable to the beneficiary from the member's date of death. Section 38-770 applies to a payment to a member or the member's beneficiary who is the surviving spouse of the member, if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

4. With respect to a beneficiary who is a survivor of a deceased nonretired member who would have been entitled to benefits under this section and who elected a lump sum distribution of the survivor benefit that was payable on the death of the nonretired member, ASRS shall pay the recomputed amount in a lump sum to the beneficiary. If the beneficiary is the surviving spouse of the member, section 38-770 applies to the payment.

5. Effective on July 1, 1999, ASRS shall increase the member's or beneficiary's monthly and annual benefit to the recomputed amount. After that adjustment, ASRS shall adjust the member's or beneficiary's annual benefit as otherwise provided under the defined contribution program administered by ASRS.

H. Before July 1, 2002, the employer of each nonretired or retired member or deceased member who has a beneficiary entitled to adjustments and payments pursuant to subsections E and G of this section for periods of a member's employment before July 1, 1999 shall pay to ASRS in one or more installments those amounts required by ASRS to make the recomputations and adjustments pursuant to this section. ASRS shall determine the amount to be paid by the employer to ASRS as of July 1, 1999, plus interest at the rate of eight per cent a year, compounded monthly, from July 1, 1999 through the date the payment is made by the employer to ASRS. Any payments by the employer shall first be applied to accrued and unpaid interest and then to the amount to be paid by the employer to ASRS. ASRS shall allocate the payment to the assets maintained under the defined contribution program administered by ASRS. When determining the amounts required to be paid by employers for the recomputations and adjustments pursuant to this section, ASRS first shall transfer on July 1, 1999 from the assets maintained by ASRS under the defined benefit program established by this article to the assets maintained by ASRS under the defined contribution program administered by ASRS an amount equal to the sum of the defined benefit program equity balances of the retired and nonretired members or their beneficiaries whose benefits are transferred from the defined benefit program to the defined contribution program pursuant to this section, except that the amount transferred for any member or beneficiary shall not be more than the amount required to fund the recomputations and adjustments required by this section for the member or beneficiary. The defined benefit program equity balance for a member or beneficiary of a deceased member shall equal the sum of the member's employee and employer account balances on the earlier of June 30, 1999 or the member's retirement or death, less the monthly annuity payments to a retired member or beneficiary, plus the earnings on the average balance of that amount for a plan year.

I. If a member retired before July 1, 1999, elected to receive benefits pursuant to section 38-771, subsection C, paragraph 2 and did not make all contributions pursuant to section 38-771, subsection E because of the limitations prescribed in section 38-747, subsection E, the member has the option of receiving the employer contributions prescribed in subsection C, paragraphs 3 and 5 of this section in a lump sum payment. If the retired member elects to receive a lump sum payment, ASRS shall pay the amount on or before July 1, 2000 and the amount shall be deducted from the member's account when computing the annuity benefits to which the member is otherwise entitled pursuant to this section. In no case shall the payment under this subsection duplicate the payment under subsection G of this section. Section 38-770 applies to a payment to a member under this subsection if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

J. Contributions made to ASRS by a member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall not exceed, in any one limitation year, the limits prescribed in section 38-747, subsection E. If for any reason the member and applicable employer contributions made pursuant to subsection F of this section would at the time the contributions are due, taking into account other annual additions due to ASRS for the limitation year, exceed the limits prescribed in section 38-747,

subsection E, the amount to be paid by the member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall be proportionately reduced and the reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days after the beginning of that limitation year, unless the limits prescribed in section 38-747, subsection E would again be exceeded. If the limits are exceeded again, the procedure prescribed in this subsection shall be repeated until all of the contributions are made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires before making all contributions pursuant to this section because of the limitations prescribed in section 38-747, subsection E, the member's benefits pursuant to this section shall be computed only with reference to the contributions actually made. For the purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

K. Unless otherwise provided in this section, a member who receives retirement benefits pursuant to this section and section 38-771 is subject to conditions that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article. Those conditions include the following:

1. A member who attains sixty-five years of age may retire and, on application, shall receive a life annuity derived from the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity is payable in equal monthly installments. The amount of the installments is based on the age of the member at the date of commencement of retirement and is determined by the interest and life expectancy tables applicable at the date of the commencement of retirement.
2. If a retired member who is receiving retirement benefits pursuant to this section dies before receipt of annuity payments in an amount equal to the member's retirement account balance immediately before retirement, ASRS shall pay the member's designated beneficiary or estate in a lump sum the difference between the retirement account balance and the total amount of annuity payments received.
3. A member who attains sixty-five years of age with at least five years of creditable service may retire and, on application, may elect to receive in lieu of the annuity payments from the member's prior service, if any, together with a life annuity derived from the member's retirement account as provided in paragraph 1 of this subsection, the actuarial equivalent of those retirement benefits under one of the options established by the board.
4. A member who attains sixty years of age with at least five years of creditable service may retire and, on application, may receive a life annuity derived from the actuarial equivalent of the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity shall be determined and paid in the manner set forth in paragraph 1 of this subsection.
5. In lieu of the retirement benefits pursuant to paragraph 4 of this subsection, on application, a member may elect to receive the actuarial equivalent of those retirement benefits under one of the options established by the board.
6. If a retired member who is receiving retirement benefits pursuant to this section is engaged to work by an employer for twenty or more weeks in a fiscal year and twenty hours or more a week, the member's retirement benefit payments pursuant to this section are suspended until the member terminates employment. On return to employment, the member shall accrue benefits pursuant to this

section, unless the member elects to be covered by the defined benefit program established by this article. If a formerly retired member elects to be covered by the defined benefit program established by this article, the formerly retired member shall be an active member in the defined benefit program with respect to all service performed after the member's return to work and shall not accrue additional benefits pursuant to this section. Notwithstanding the other provisions of this paragraph, if a retired member begins or returns to employment as an elected official or to any other type of service or employment that does not require the retired member to begin active membership in the defined contribution program administered by ASRS or the defined benefit program established by this article, the payment of retirement benefits pursuant to this section shall not be terminated, withheld or interrupted because of beginning or returning to the service or employment or holding the elected office, unless the formerly retired member actually elects to recommence active participation in the defined benefit program established by this article or pursuant to this section.

7. On termination of employment of a retired member previously receiving retirement benefits pursuant to this section, ASRS shall reinstate the member's retirement benefits pursuant to this section and, on reinstatement of retirement benefits, the benefit shall be recomputed on the basis of the member's attained age and shall be adjusted for retirement benefits previously received and additional contributions, interest and supplemental credits accrued during the period of employment. On this reinstatement of retirement benefits, if the member elected to be covered by the defined benefit program established by this article on the member's return to employment, the member is also entitled to receive retirement benefits pursuant to the defined benefit program established by this article for the credited service earned by the member after the member's active membership in the defined benefit program established by this article began.

L. ASRS shall handle all retirement accounts of members who elect retirement benefits provided pursuant to this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits pursuant to this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

M. The receipt of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

N. The board may administer and interpret this section in order to prevent any duplication of benefits provided by ASRS and the defined contribution program administered by ASRS and to provide all eligible members and beneficiaries with the benefits they are entitled to under the laws of this state.

O. For purposes of this section:

1. "Beneficiary" means the individual designated by the member in writing on forms approved by ASRS to receive benefits pursuant to this article after the death of the member.

2. "Creditable service" means service after April 8, 1953 in a position not subject to the defined contribution program administered by ASRS, prior service and membership service.

4. "Pension" means equal monthly installments that are derived from a member's prior service credits and that are payable during the member's lifetime after retirement.
5. "Prior service" means service for this state or a political subdivision before membership in the defined contribution program administered by ASRS.
6. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a pension on retirement.
7. "Retirement account" means the combined member and employer contributions with applicable interest and supplemental credits on the contributions as computed pursuant to subsection C of this section.
8. "Service" means any compensated employment by the state or a political subdivision and includes periods of nonpaid leave, including military leave, provided employment has not been terminated at the commencement of the leave period and employment is state service for retirement purposes or service for any political subdivision establishing a defined contribution program administered by ASRS.

**38-772. Prior service under defined contribution program administered by ASRS; definitions**

- A. Amounts required of employers as provided in section 38-737, subsections A and B are in addition to any payments required of employers on behalf of prior service credits under the defined contribution program administered by ASRS arising from members of ASRS. Payments made to ASRS on behalf of members with those prior service credits shall reduce by that amount the payments required to be paid to the defined contribution program administered by ASRS for those prior service credits.
- B. Notwithstanding section 38-757, subsection B, any prior service credits to which the member was entitled under the defined contribution program administered by ASRS shall be added to the product of section 38-757, subsection B, paragraphs 1 and 2.
- C. For the purposes of this section:

1. "Prior service" means service for this state or a political subdivision of this state before membership in the defined contribution program administered by ASRS.
2. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a retirement benefit.

**38-773. Benefit payments to alternate payee under acceptable domestic relations order; termination of marriage; revocation of beneficiary designation; definitions**

- A. The board shall review any domestic relations order to which a member is a party and that is submitted to the board to determine if the domestic relations order is acceptable under this section. After a determination that a domestic relations order is acceptable under this section, the board shall notify the member and the named alternate payee of the board's acceptance of the domestic relations order, and ASRS shall pay benefits in accordance with the applicable requirements of the order.

B. An acceptable domestic relations order shall:

1. Not require the board to provide any type, form or time of payment of severance, survivor or retirement benefits or any severance, survivor or retirement benefit option that is not provided under this article.
2. Value the member's benefit on the earliest date of service of the petition for annulment, dissolution of marriage or legal separation.

C. An acceptable domestic relations order shall specify all of the following:

1. The name and last known mailing address of the member.
2. The name and last known mailing address of each alternate payee who is covered by the order.
3. The method of determining the amount of the member's severance, survivor or retirement benefits to be paid by ASRS to each alternate payee covered by the order.
4. The number of payments or period to which the order applies.

D. Except as provided by the express terms of a domestic relations order, the divorce or annulment of a member's marriage revokes any revocable:

1. Disposition or appointment of benefits made by a divorced member to that member's former spouse or to a relative of the divorced member's former spouse in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse.
2. Provision in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse conferring any power or right on the divorced member's former spouse or on a relative of the divorced member's former spouse.

E. ASRS shall give effect to provisions of an instrument executed by a member before the divorce or annulment of the member's marriage to a former spouse as follows:

1. In the case of disposition or appointment of benefits, as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section.
2. In the case of a revoked power or right, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

F. Provisions of an instrument revoked solely as provided by this section are revived by the divorced member's remarriage to the former spouse or by a nullification of the member's divorce or annulment.

G. If an alternate payee predeceases the member, amounts payable to the alternate payee cease on the death of the alternate payee. ASRS shall cause the amount formerly payable to the alternate payee to revert to the member.

H. For the purposes of this section:

1. "Domestic relations order" means any judgment, decree, order or approval of a property settlement agreement entered in a court of competent jurisdiction that:

(a) Relates to marital property rights of a spouse or former spouse.

(b) Creates or recognizes in the spouse or former spouse the existence of an alternate payee's right to severance, survivor or retirement benefits.

(c) Assigns the spouse or former spouse as alternate payee the right to receive all or part of the severance, survivor or retirement benefits payable to the member.

2. "Relative of the divorced member's former spouse" means a person who is related to the divorced member's former spouse by blood, adoption or affinity and who, after the divorce or annulment, is not related to the divorced member by blood, adoption or affinity.

### 38-774. Excess benefit arrangement

A. A separate unfunded governmental excess benefit arrangement is established outside of and apart from the trust fund established by section 38-712 to pay members benefits that are otherwise payable by ASRS and that exceed the limitations on benefits imposed by section 415 of the internal revenue code. The board shall administer this excess benefit arrangement as a qualified governmental excess benefit arrangement pursuant to section 415(m) of the internal revenue code.

B. The board may adopt rules to implement this section subject to the following:

1. Benefits under this section are subject to section 38-773 and section 38-791, subsections D and F and are exempt from execution to the same extent as provided in section 38-792.

2. Contributions to this arrangement are not held in trust and shall not be commingled with other monies of ASRS.

C. A member is entitled to a monthly benefit under this section in an amount equal to the amount that the member's benefit that is payable by ASRS has been reduced by the limitation on benefits imposed by section 38-769 and section 415 of the internal revenue code. The benefit that is payable by this arrangement shall be paid at such time or times and in such form as the benefit under ASRS would be paid.

D. The benefit that is payable under this section shall be paid with employer contributions that would otherwise be made to ASRS under section 38-737. In lieu of the employer contributions being paid to the trust fund established by section 38-712, an amount determined by ASRS as necessary to pay benefits under this section shall be paid on a monthly basis to a separate account established by the board for this arrangement and may include amounts needed to pay reasonable and necessary expenses of this arrangement. The director may invest the monies in this account in suitable short-term investments between receipt of the monies and disbursement of the monies. The amount shall be paid to the account at least fifteen days before a disbursement is to be made under this section.

E. A member shall not directly or indirectly elect to defer compensation to purchase benefits provided under this section.

F. This section shall not be construed as requiring an employer or ASRS to purchase any investment or any contract to secure any obligations under this section. If an employer or ASRS purchases an investment or contract that the employer or ASRS earmarks to pay benefits under this section, title to and beneficial ownership of the investment or contract remain at all times in the employer or ASRS, and the member and the member's beneficiaries, if any, do not have any proprietary interest in any specific assets of the employer or ASRS. Any rights of the member and the member's beneficiaries, if any, to payment of any amounts under this section shall be those of general unsecured creditors of the employer or ASRS. This section and any action taken pursuant to this section by the employer or ASRS do not create and shall not be construed to create an irrevocable trust of any kind.

### 38-775. Required distributions: definitions

A. This section applies for purposes of determining required minimum distributions for calendar years beginning on and after January 1, 2006. In applying the requirements of this section, the following operational provisions govern:

1. Except as provided in the following sentence, the requirements of this section take precedence over any inconsistent provisions of this article and article 2.1 of this chapter. The rules of this section shall not restrict any form, calculation, adjustment or payment of benefit provided under this article in effect on April 17, 2002, if the form, calculation, adjustment or payment of benefit satisfied section 401(a)(9) of the internal revenue code based on a reasonable and good faith interpretation of that section.

2. All distributions required under this section shall be determined and made pursuant to section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury.

3. Notwithstanding this section, other than paragraph 2 of this subsection, distributions may be made under a designation made before January 1, 1984, pursuant to section 242(b)(2) of the tax equity and fiscal responsibility act of 1982 (P.L. 97-248) and the provisions of this article that relate to that section.

B. The member's entire interest shall be distributed, or begin to be distributed, to the member not later than the member's required beginning date.

C. If the member dies before distributions begin, the member's entire interest shall be distributed, or begin to be distributed, not later than as follows:

1. If the member's surviving spouse is the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained seventy-two years of age, if later.

2. If the member's surviving spouse is not the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the designated beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the member died.

3. For purposes of this subsection and subsection G of this section, distributions are considered to begin on the member's required beginning date or the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection. If annuity payments irrevocably commence to the member before the member's required beginning date, or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection, the date distributions are considered to begin is the date distributions actually commence.

4. If the member dies before distributions begin and there is a designated beneficiary, distribution to the designated beneficiary is not required to begin by the date prescribed in paragraph 1 or 2 of this subsection as long as the member's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth anniversary of the member's death. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to either the member or the surviving spouse begin, this paragraph applies as if the surviving spouse were the member.

D. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution, calendar year distributions shall be made pursuant to subsections E, F and G of this section. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions shall be made pursuant to the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury. Any part of the member's interest that is in the form of an individual account described in section 414(k) of the internal revenue code shall be distributed in a manner satisfying the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury that apply to individual accounts.

E. The following provisions govern the determination of the amount to be distributed each calendar year:

1. If the member's interest is paid in the form of annuity distributions, payments under the annuity shall satisfy the following requirements:

(a) The annuity distributions shall be paid in periodic payments made at intervals not longer than one year.

(b) The distribution period shall be over a life or lives or over a period certain not longer than the period described in subsection F or G of this section.

(c) Once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum allowed.

(d) Payments shall either be nonincreasing or increase only as follows:

(i) By an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the bureau of labor statistics.

(ii) To the extent of the reduction in the amount of the member's payments to provide for a survivor benefit on death, but only if the beneficiary whose life was being used to determine the distribution period described in subsection F of this section dies or is no longer the member's beneficiary

pursuant to a qualified domestic relations order within the meaning of section 414(p) of the internal revenue code.

(iii) To provide cash refunds of employee contributions on the member's death.

(iv) To pay increased benefits that result from a plan amendment.

2. The amount that must be distributed on or before the member's required beginning date or, if the member dies before distributions begin, the date distributions are required to begin under subsection C, paragraph 1 or 2 of this section, is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bimonthly, monthly, semiannually or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

3. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which the amount accrues.

F. The following provisions govern annuity distributions that commence during a member's lifetime:

1. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary, annuity payments to be made on or after the member's required beginning date to the designated beneficiary after the member's death must not at any time exceed the applicable percentage of the annuity payment for the period that would have been payable to the member using the table set forth in question and answer number 2 of section 1.401(a)(9)-6 of the regulations issued by the United States secretary of the treasury. If the form of distribution combines a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary and a period certain annuity, the requirement in the preceding sentence applies to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

2. Unless the member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the member's lifetime may not exceed the applicable distribution period for the member under the uniform lifetime table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the member reaches seventy years of age, the applicable distribution period for the member is the distribution period for seventy years of age under the uniform lifetime table set forth in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury plus the excess of seventy over the age of the member as of the member's birthday in the year that contains the annuity starting date. If the member's spouse is the member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the member's applicable distribution period, as determined under this paragraph, or the joint life and last survivor expectancy of the member and the member's spouse as determined under the joint and last survivor table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the calendar year that contains the annuity starting date.

G. The following provisions govern minimum distributions if a member dies before the date distributions begin:

1. Except as provided in subsection C, paragraph 4 of this section, if the member dies before the date distribution of the member's interest begins and there is a designated beneficiary, the member's entire interest shall be distributed, beginning not later than the time prescribed in subsection C, paragraph 1 or 2 of this section, over the life of the designated beneficiary or over a period certain not exceeding either of the following:

(a) Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the member's death.

(b) If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

2. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's entire interest shall be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

3. If the member dies before the date distribution of the member's interest begins, the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies before distributions to the surviving spouse begin, this subsection applies as if the surviving spouse were the member, except that the time by which distributions must begin shall be determined without regard to subsection C, paragraph 1 of this section.

H. If a member dies after the member's required beginning date and the member had not commenced distribution of retirement benefits, ASRS shall treat the member as having commenced distribution of retirement benefits on the member's required beginning date. Notwithstanding section 38-776, ASRS shall determine the member's retirement benefit as a straight annuity as of the date of the member's required beginning date. The member's estate is entitled to the member's benefit payments and any remaining member contributions on account shall be disbursed pursuant to section 38-763.

I. For the purposes of this section:

1. "Designated beneficiary" means the individual who is designated as the member's beneficiary to receive benefits under this article and is the designated beneficiary under section 401(a)(9) of the internal revenue code and question and answer number 1 of section 1.401(a)(9)-4 of the regulations issued by the United States secretary of the treasury.

2. "Distribution calendar year" means a calendar year for which a minimum distribution is required. For distributions beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year that contains the member's required beginning date. For distributions beginning after the member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to subsection C of this section.

3. "Life expectancy" means life expectancy as computed by use of the single life table in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury.

4. "Required beginning date" means the date payment of a member's benefits shall commence in accordance with section 401(a)(9)(C) of the internal revenue code.

### 38-776. Spousal waiver and consent

A. A member's current spouse may consent to one of the following requirements established in section 38-755 or 38-760 by signing and submitting an acknowledgement in a manner established by ASRS:

1. A change of beneficiary that provides the member's current spouse with less than fifty per cent of the member's account balance.

2. The member's retirement application that does not name the member's current spouse as a contingent annuitant of a joint and survivor annuity.

3. A change or rescission of the member's current spouse's contingent annuitant status.

B. If the member's current spouse is not capable of executing the acknowledgement because of an incapacitating mental or physical condition, a power of attorney or guardian may execute the acknowledgment on the current spouse's behalf.

C. The member may affirm in writing under penalty of perjury in a manner determined by ASRS that spousal consent is not required because of one of the following reasons:

1. The member is not married.

2. The member's current spouse has no identifiable community property interest in the member's benefits.

3. The member does not know, and has taken all reasonable steps to determine, the location of the member's current spouse.

4. The member has received notification from the board that a domestic relations order is acceptable pursuant to section 38-773 and that domestic relations order requires ASRS to pay benefits to an alternate payee that is contrary to the requirements of section 38-760.

5. Obtaining consent violates another law, an existing contract or a court order.

D. This section does not abrogate any community property laws of this state.

E. Payments or distributions made by ASRS in good faith reliance on the consent or waiver of a member's current spouse, the affirmations of a member contained in documents submitted to ASRS pursuant to this section or the member's indication to ASRS that the member is not married constitute a full and complete discharge and release of all liability of the board or ASRS, or both, respecting these payments or distributions.

F. If questions arise as to the distribution of a particular member's account, ASRS shall use reasonable judgment to distribute the account in a manner that is consistent with Arizona community property laws and interpretations of those laws.

38-781. Supplemental employee deferral plan; public employees; administration; immunity; definitions

A. One or more supplemental employee deferral plans may be established pursuant to this section to provide public employees an opportunity to save additional tax-deferred monies for retirement.

B. ASRS may establish, administer, manage and operate supplemental employee deferral plans for employers.

C. ASRS may:

1. Employ services it deems necessary, including legal services, for the operation and administration of the plans.

2. Administer the plans through contracts with multiple vendors.

3. Perform all acts, whether or not expressly authorized, that it deems necessary and proper for the operation and protection of the plans.

4. For the purposes of this section, enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3.

D. A supplemental employee deferral plan does not replace an employee's existing state defined benefit retirement plan.

E. If an employer, including this state, elects to participate in a supplemental employee deferral plan, any employee of the employer who meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan may participate in the supplemental employee deferral plan.

F. Notwithstanding subsection E of this section, on or after July 1, 2022, an employee of an employer who is not eligible to participate in a public retirement system established by article 3, 3.1, 4, 4.1 or 6 of this chapter may elect to participate in a supplemental employee deferral plan if the employee meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan.

G. Employee participation in a supplemental employee deferral plan requires the participant's employer to make salary reductions from the participant's compensation at no cost to the employee, ASRS or any vendor retained by ASRS and contribute such salary reductions to the plan. An employer may make employer contributions to the supplemental employee deferral plan if the plan allows. The employer shall submit any reports required by the plan. If the participant is an active member, any compensation deferred by an employee under a plan shall be included as regular compensation or compensation for the purpose of computing the retirement and pension benefits provided in this article earned by any employee participating in the plan.

H. Employee contributions and earnings on employee contributions are immediately vested. Employer contributions, if any, and the earnings on employer contributions shall vest according to the schedule established by the employer, if the employer completes and submits a schedule to ASRS. If the employer does not complete and submit a schedule to ASRS, employer contributions, if any, and the earnings on employer contributions shall vest according to the default schedule established by ASRS.

I. Notwithstanding any other law, this state and its officers and employees, the board and ASRS are immune from civil liability and are not subject to suit directly or by way of contribution for any act or omission resulting in any damage or injury arising out of the supplemental employee deferral plan.

J. A political subdivision or a political subdivision entity that is not participating in ASRS may elect to allow its employees to participate in a supplemental employee deferral plan that is overseen by ASRS pursuant to this section by entering into an agreement with ASRS. A political subdivision or political subdivision entity that elects to allow its employees to participate in a supplemental employee deferral plan pursuant to this subsection:

1. Is not an employer for the purposes of this article and its employees are not members for the purposes of this article.

2. May not provide any information indicating or implying that the political subdivision or political subdivision entity offers any ASRS benefits other than participation in a supplemental employee deferral plan pursuant to this subsection. A political subdivision or political subdivision entity that violates this paragraph may not elect to allow new employees to participate in a supplemental employee deferral plan pursuant to this subsection until the violation is corrected at the discretion of ASRS.

3. May elect to join ASRS pursuant to section 38-729.

K. For the purposes of this section:

1. "State" means this state, including any department, office, board, commission, agency or university, but does not mean any school district or community college district.

2. "Supplemental employee deferral plan" means a tax deferred annuity described in section 403(b) of the internal revenue code, including a custodial account described in 403(b)(7) of the internal revenue code, and an eligible deferred compensation plan described in section 457(b) of the internal revenue code. A supplemental employee deferral plan shall comply with all applicable provisions of the section of the internal revenue code under which such plan is adopted and maintained.

**38-782. Group health and accident coverage for retired public employees and elected officials and their dependents: definition**

A. The board shall establish group health and accident coverage for eligible retired members, surviving dependents and members with a disability and their dependents. The board may establish a self-insurance program for the purposes of this subsection if the board determines that self-insuring would be less expensive than and at least as effective as a fully insured plan, while considering the risks and costs. If the board establishes a self-insurance program, the board shall provide that the self-insurance program include all health coverage benefits that are required pursuant to title 20. ASRS shall establish a separate account for any self-insurance program established pursuant to this section in an amount determined appropriate by ASRS. ASRS shall not

use or divert any part of the corpus or income of the account for any purpose other than to provide benefits and to pay the administration costs for the self-insurance program pursuant to this section or the premium payments pursuant to section 38-783 unless the board determines that a self-insurance program should no longer be offered. If a self-insurance program is no longer offered, monies in the account shall be used to provide any remaining benefits and to pay administration costs for the self-insurance program pursuant to this section or the premium payments pursuant to section 38-783. If the liabilities of ASRS to provide the benefits under the self-insurance program and the premium payments pursuant to section 38-783 are satisfied, the board shall return any remaining monies in the account to the employer. If an insured retired member or member with a disability dies before the insured member's dependent beneficiary or an insured surviving dependent, the dependent beneficiary or insured surviving dependent is entitled to coverage at group rates if the dependent beneficiary or surviving dependent elects to continue in the coverage within six months of the insured member's death and the dependent beneficiary or surviving dependent agrees to pay the cost of the premium for group health and accident insurance. On notification of the insured member's death, the board shall immediately notify a dependent beneficiary or an insured surviving dependent of the provisions of this section.

B. Retired members of the public safety personnel retirement system, the public safety personnel defined contribution retirement plan established pursuant to article 4.1 of this chapter, the elected officials' retirement plan, the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter, the corrections officer retirement plan or the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628 and their dependents who are receiving benefits from the public safety personnel retirement system, the public safety personnel defined contribution retirement plan established pursuant to article 4.1 of this chapter, the elected officials' retirement plan, the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter, the corrections officer retirement plan or the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628 and who are not covered by section 38-651.01 may participate in group health and accident coverage provided pursuant to this section. On the death of an insured member of the public safety personnel retirement system, the public safety personnel defined contribution retirement plan established pursuant to article 4.1 of this chapter, the elected officials' retirement plan, the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter, the corrections officer retirement plan or the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628, the insured surviving dependent is entitled to coverage at group rates. Except as provided in subsection H of this section, the surviving dependent shall be charged amounts that are sufficient to pay for the premium and administrative expense of providing the coverage.

C. The board may enter into agreements with retired members, surviving dependents and members with a disability of ASRS and retired members of the elected officials' defined contribution retirement system established pursuant to article 3.1 of this chapter who elect to obtain the coverage provided pursuant to subsection A of this section. Those agreements may include provisions for the deduction from the retirement benefits of the members who elect to obtain the coverage of amounts sufficient to pay for the premium not covered under retirement benefits and the administrative expense of providing the coverage.

D. The board of trustees of the public safety personnel retirement system may enter into agreements with retired members of the public safety personnel retirement system, the elected officials' retirement plan, the corrections officer retirement plan and their dependents who elect to obtain the coverage provided pursuant to this section. Those agreements may include provisions for the deduction from the retirement benefits of the members who elect to obtain the coverage of amounts sufficient to pay for the premium not covered under their retirement benefits and the administrative expense of providing the coverage.

E. The board may enter into agreements with retired members of the optional retirement programs authorized pursuant to sections 15-1451 and 15-1628 and their dependents who elect to obtain the coverage provided pursuant to this section. Those agreements may include provisions for the payment of amounts sufficient to pay for the premium and administrative expense of providing the coverage.

F. If an insured member receiving long-term disability benefits pursuant to article 2.1 of this chapter becomes ineligible for the long-term disability benefits, the member and the covered dependents of the member may continue to participate in the group health and accident coverage provided pursuant to this section subject to the following conditions:

1. Participation in the coverage is limited to twelve months from the date the member ceases eligibility for benefits under article 2.1 of this chapter or the member commences employment, whichever occurs first.
2. The member shall pay the full premium cost of the coverage selected, and the member is not eligible for benefits pursuant to section 38-783.
3. If a member who participates in the coverage dies during the twelve-month period provided by this subsection, covered dependents of the member may continue coverage after the death of the member through the end of the twelve-month period. Covered dependents of the member who continue coverage pursuant to this paragraph shall pay the full premium cost of the coverage selected and are not eligible for benefits pursuant to section 38-783.

G. Retired members, surviving dependents or members with a disability who are not eligible for medicare, who live in this state, who enroll in a qualifying health maintenance organization under this section and who reside outside the area of a qualifying health maintenance organization shall be offered the option of enrolling with a qualified health maintenance organization offered through their provider under the same premiums as if they lived within the area boundaries of the qualified health maintenance organization provided that:

1. All medical services are rendered and received at an office designated by the qualifying health maintenance organization or at a facility referred by the health maintenance organization.
2. All nonemergency or nonurgent travel, ambulatory and other expenses from the residence area of the member to the designated office of the qualifying health maintenance organization or the facility referred by the health maintenance organization are the responsibility of and at the expense of the member.
3. 3. Monthly LTD program benefits are not payable until a member has had a disability for a period of six consecutive months.

4. Monthly LTD program benefits are not payable to a member who files an initial claim for disability more than twelve months after the date of the member's date of disability unless the member demonstrates to ASRS good cause for not filing the initial claim within twelve months after the date of disability.

(ii) Is employed by an employer before July 1, 1988.

(e) For a member whose most recent membership in the LTD program commences on or after July 1, 2008, an injury or sickness for which the member received medical treatment within six months before the date of the member's coverage under the LTD program. (i) Ceases to be under the direct care of a doctor.

8. Monthly LTD program benefits are payable only for disabilities that commence on or after July 1, 1988.

9. Except as provided in paragraph 2 of this subsection, the minimum benefit for a member who is entitled to receive monthly LTD program benefits is \$50 per month.

10. Members are eligible to receive the LTD program benefits and payments described in paragraph 1 of this subsection, and the reductions provided by paragraph 1 of this subsection apply even though the social security benefits are not actually paid as follows:

(a) For primary and dependent social security benefits, the members are eligible for the social security benefits until the social security benefits are actually awarded, or if the social security benefits are denied, until the member pursues the social security appeal process through a hearing before a social security administrative law judge or until the insurance company or claims administrator determines that the member is not eligible for social security benefits.

(b) For benefits and payments from any other source provided in paragraph 1 of this subsection, the members are eligible for the benefits if it is reasonable to believe that those benefits will be paid on proper completion of the claim or would have been paid except for the failure of the member to pursue the claim in time.

11. A member shall be considered to have a disability if based on objective medical evidence:

(a) During the first thirty months of a period of disability, the member is unable to perform one or more duties of the occupation held by the member when the member developed a disability.

(b) For a member who has received monthly LTD program benefits for twenty-four months within a five-year period, the member is unable to perform any work for compensation or gain for which the member is reasonably qualified by education, training or experience in an amount at least equal to the scheduled LTD program benefits prescribed in paragraph 1 of this subsection.

B. A member who is eligible pursuant to article 2 of this chapter and who receives monthly LTD program benefits is entitled to receive service credit pursuant to article 2 of this chapter from the time disability commences until LTD program benefits cease to be payable, except that for a member who receives monthly LTD program benefits on or after June 30, 1999, the number of years of service credited to the member's retirement account during the period ASRS disburses LTD program benefit payments shall not cause the member's total credited service for retirement benefits to exceed the greater of thirty years or the total years of service credited to the member's retirement account on the commencement of disability.

C. This section does not prohibit a member whose disability has been established to the satisfaction of the board from relying on treatment by prayer through spiritual means in accordance with the tenets and practice of a recognized church, religious denomination or Native American traditional medicine by a duly accredited practitioner of the church, denomination or Native American traditional medicine without suffering reduction or suspension of the member's monthly LTD program benefits.

D. ASRS may suspend or terminate benefits under this article if a member fails to provide information, data, paperwork or other materials that are requested by ASRS or the insurance company or claims administrator that is selected by the board to administer the LTD program. ASRS or its contracted administrator may investigate information that indicates a member may have falsified information or records related to LTD program eligibility or benefits or may not otherwise meet the requirements of LTD program eligibility. In connection with an investigation involving the LTD program, ASRS or its contracted administrator may collect and examine any statement or evidence, or may authorize a third party to collect and examine any statement or evidence, that relates to a member falsifying information or records related to LTD program eligibility or benefits. If the member provides the information requested, ASRS shall retroactively reinstate the benefits or claim for which the member qualifies under this article.

E. For the purposes of this section:

1. "Objective medical evidence" means evidence that established facts and conditions, as perceived without distortion by personal feelings, prejudices or interpretations, and includes x-rays, quantitative tests, laboratory findings, data, records, reports from the attending physician and reports from a consulting physician, as applicable.

#### 38-797.08. Errors; benefit recomputation

If any change or error in the records results in any member receiving from the LTD program more or less than the member would have been entitled to receive if the records had been correct, the board shall correct the error and shall adjust the payments in a manner so that the equivalent of the benefit to which the member was correctly entitled is paid. The board shall correct any change or error and shall pay the appropriate monies to a member or shall recover monies from the member if the member is overpaid. The board shall recover monies by reducing any benefit that is otherwise payable by ASRS or the LTD program to an active, inactive, member with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

#### 38-797.10. Assurances and liabilities

A. Nothing contained in this article shall be construed as:

2. A right of any member to continue in the employment of an employer.
3. A limitation of the rights of an employer to discharge any of its employees, with or without cause.

B. A member does not have any right to, or interest in, any LTD program assets on termination of the member's employment or otherwise, except as provided from time to time in the LTD program, and then only to the extent of the benefits payable to the member out of LTD program assets. All payments of benefits shall be made solely out of LTD program assets and neither the employers, the board nor any member of the board is liable for payment of benefits in any manner.

C. Benefits, employer and member contributions, earnings and all other credits payable under this article are not subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution or levy of any kind, either voluntary or involuntary, before actually being received by a person entitled to the benefit, earning or credit, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge, garnish, execute or levy or otherwise dispose of any benefit, earning or credit under this article is void. The LTD program is not in any manner liable for, or subject to, the debts, contracts, liabilities, engagements or torts of any person entitled to any benefit, earning or credit under this article.

D. Neither the employers, the board nor any member of the board guarantees the LTD trust fund established by section 38-797.02 in any manner against loss or depreciation, and they are not liable for any act or failure to act that is made in good faith pursuant to this article. The employers are not responsible for any act or failure to act of the board or any member of the board. Neither the board nor any member of the board is responsible for any act or failure to act of any employer.

E. This section does not exempt benefits of any kind from a writ of attachment, a writ of execution, a writ of garnishment and orders of assignment issued by a court of record as the result of a judgment for arrearages of child support or for child support debt.

#### 38-797.11. Exemptions from execution, attachment and taxation; exception

#### 38-797.13. Reservation to legislature

The right to modify, amend or repeal this article, or any provisions of this article, is reserved to the legislature.

#### 38-797.14. Liquidation of LTD program

If the legislature determines that the LTD program is no longer to be operated for the purposes set forth in this article, any monies remaining in the LTD trust after paying all liabilities of the trust or after making adequate provision for paying those liabilities revert to the general funds of the employers that were making contributions to the LTD program at the time the legislature terminates the LTD program. The reverted monies shall be prorated according to the gross amount of contributions made by the employers to the LTD program.

#### 38-797.15. Interest paid to members and employers

ASRS may not pay interest on any amount paid to a member, an alternate payee or an employer pursuant to this article unless specifically authorized by this article.

#### 38-921. Transfer of retirement service credits from one retirement system or plan to another retirement system or plan in this state; definitions

A. An active or inactive member of a state retirement system or plan, including the retirement system provided for in article 2 of this chapter, the elected officials' retirement plan provided for in article 3 of this chapter, the public safety personnel retirement system provided for in article 4 of this chapter or the corrections officer retirement plan provided for in article 6 of this chapter, may transfer service credits from one system or plan to the member's current or former system or plan pursuant to section 38-922 if all of the following conditions are met:

1. The board governing the retirement system or plan from which the service credits are being transferred mutually agrees with the board governing the retirement system or plan to which the service credits are being transferred regarding the terms of the transfer.

2. The transfer does not cause either the retirement system or plan to which the transfer is made or the retirement system or plan from which the transfer is made to incur any unfunded accrued liabilities as a result of the transfer.

3. The member initiates the transfer by making written application to the governing board of the retirement system or plan to which the member is contributing or has contributed.

B. For the purposes of this section:

1. "Active member" means a member who satisfies the eligibility criteria of the state retirement system or plan and who is currently making member contributions to or receiving credited service from the state retirement system or plan.

2. "Inactive member" means a member of the state retirement system or plan who previously made contributions to the state retirement system or plan and who satisfies each of the following:

(a) Has not retired.

(b) Is not eligible for active membership in the state retirement system or plan.

(c) Is not currently making contributions to the state retirement system or plan.

(d) Has not withdrawn contributions from the state retirement system or plan.

### **38-922. Transfer or redemption of service credits**

A. Service credits qualified in accordance with section 38-730 or 38-921 may be transferred or redeemed in accordance with this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall be calculated:

1. The prior system or plan shall calculate the amount equal to the actuarial present value of a member's projected benefits to the extent funded on a market value basis as of the most recent actuarial valuation under the prior system or plan as calculated by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer. If a system's or plan's market value is greater than one hundred per cent, the system or plan shall use a one hundred per cent market value.

2. The system or plan to which the member is transferring shall calculate the increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. This calculation shall be performed by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer.

C. In the event a member decides to transfer:

1. If the amount calculated in subsection B, paragraph 2 is greater than the amount calculated in subsection B, paragraph 1:

(a) The prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 1 or the member's accumulated contribution account balance.

(b) If the amount transferred is less than the amount calculated under subsection B, paragraph 2, the transferring member shall elect either to pay the difference or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits used in making the calculation under subsection B, paragraph 1 multiplied by the ratio of the amount calculated under subsection B, paragraph 1 to the amount calculated under subsection B, paragraph 2.

2. If the amount calculated in subsection B, paragraph 2 is less than or equal to the amount calculated in subsection B, paragraph 1, the prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 2 or the member's accumulated contribution account balance.

D. In the case of an applicant who has withdrawn the applicant's member contributions from another prior system or plan of this state, the applicant shall pay into the new system or plan to which the applicant is transferring an amount equal to the increase in the actuarial present value of the projected benefits provided by the service credits being redeemed and this amount shall be included in the member's current accumulated contribution account balance. This calculation shall be performed by the actuary of the system or plan to which the service credits are being transferred using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements.

E. Service credits shall not be applied to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

F. A member electing to transfer to or redeem service with the public safety personnel retirement system, the elected officials' retirement plan or the corrections officer retirement plan pursuant to this section may pay for the service being transferred or redeemed in the form of a lump sum payment to the system or plan, a trustee-to-trustee transfer or a direct rollover of an eligible distribution from a plan described in section 402(c)(8)(B)(iii), (iv), (v) or (vi) of the internal revenue code or a rollover of an eligible distribution from an individual retirement account or annuity described in section 408(a) or (b) of the internal revenue code.

1. The board governing the retirement system or plan from which the service credits are being transferred and the board governing the retirement system or plan to which the service credits are being transferred approve the terms of the transfer.

2. The transfer does not cause either the retirement system or plan to which the transfer is made or the retirement system or plan from which the transfer is made to incur any unfunded accrued liabilities as a result of the transfer.

3. The member initiates the transfer by making written application to the governing board of the retirement system or plan to which the member is contributing.

A. Service credits qualified pursuant to section 38-923 may be transferred pursuant to this section.

B. In the case of a member whose contributions remain on deposit with the prior retirement system or plan, the following shall occur:

1. The prior system or plan shall determine the amount of the member's accumulated contribution account balance under the prior system or plan plus accumulated interest as determined by the governing body of the system or plan.

2. The system or plan to which the member is transferring shall calculate any increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. The actuary of the system or plan to which the service credits are being transferred shall perform this calculation using the actuarial method and assumptions recommended by the actuary and adopted by the governing body of the retirement system or plan.

C. If a member decides to transfer:

1. The prior system or plan shall transfer to the present system or plan the amount determined pursuant to subsection B, paragraph 1 of this section. If the amount calculated in subsection B, paragraph 2 of this section is greater than the amount determined in subsection B, paragraph 1 of this section, the transferring member shall either elect to pay the difference in order to receive all service credits earned under the prior system or plan or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section multiplied by the ratio of the amount calculated under subsection B, paragraph 1 of this section to the amount calculated under subsection B, paragraph 2 of this section.

2. If the amount calculated in subsection B, paragraph 2 of this section is less than or equal to the amount determined in subsection B, paragraph 1 of this section, the current system or plan shall credit the member with service credits under the current system or plan equal to the service credit earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section.

D. The retirement system or plan shall not apply service credits to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 13, 2024

**SUBJECT: STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-205, R2-8-207

---

### **Summary:**

This regular rulemaking from the Arizona State Retirement System Board (ASRS) seeks to amend two (2) rules in Title 2, Chapter 8, Article 2 related to Health Insurance Premium Benefit. Specifically, the ASRS seeks to amend its rules relating to the health insurance premium benefit in order to clarify when an employer must provide updated health insurance information and when a member may cease to be eligible for a premium benefit.

The ASRS indicates, without this rulemaking, members will not have adequate notice about how they may not be eligible to continue receiving a health insurance premium benefit. The ASRS indicates notice of such information is necessary in order to ensure that such health benefits are properly disbursed. By promulgating these rules, the ASRS indicates members will have a better understanding of when they are eligible for a health insurance premium benefit and what information an employer must keep updated with the ASRS. Increasing understanding of how a member may be eligible for health insurance premium benefits will increase the member's understanding of how the ASRS processes such benefits and reduce confusion, which will reduce burden on the public.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The ASRS cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The ASRS indicates it did not review any study relevant to this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The ASRS states that it needs to amend its rules relating to the health insurance premium benefit to clarify when an employer must provide updated health insurance information and when a member may cease to be eligible. The ASRS believes that by promulgating these rules, members will have a better understanding of when they are eligible for a health insurance premium benefit and what information an employer must keep updated with the ASRS. The ASRS states that the rule will have minimal economic impact, if any, because it merely clarifies what information an employer must communicate to the ASRS and when a member may no longer be eligible to receive a premium benefit. Stakeholders include the ASRS and all employees and members of the ASRS and their beneficiaries. The ASRS indicates it currently has a total membership of approximately 652,864 and 664 employers.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The ASRS believes this is the least costly and least intrusive method because it will clarify how the ASRS administers health insurance premium benefits.

6. **What are the economic impacts on stakeholders?**

The ASRS states that the rulemaking does not directly affect state agencies and does not provide any benefits or impose any costs on political subdivisions. They state no businesses, of any size, are directly affected by the rulemaking. The ASRS believes there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The ASRS indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The ASRS indicates it received no public comments related to this rulemaking and no one attended the oral proceeding held on September 5, 2023.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The ASRS indicates the proposed amended rules do not require issuance of a permit.

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The ASRS indicates there is no federal law applicable to these rules.

11. **Conclusion**

This regular rulemaking from the ASRS seeks to amend two (2) rules in Title 2, Chapter 8, Article 2 related to Health Insurance Premium Benefit. Specifically, the ASRS seeks to amend its rules relating to the health insurance premium benefit in order to clarify when an employer must provide updated health insurance information and when a member may cease to be eligible for a premium benefit.

The ASRS is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

Notice of Proposed Rulemaking:  29 A.A.R. 1775, August 18, 2023
- 5. The agency's contact person who can answer questions about the rulemaking:**

Name:                             Jessica A.R. Thomas, Rules Writer

Address:                         Arizona State Retirement System  
3300 N. Central Ave., Ste. 1400  
Phoenix, AZ 85012-0250

Telephone:                       (602) 240-2039

E-Mail:                            [Ruleswriter@azasrs.gov](mailto:Ruleswriter@azasrs.gov)
- 6. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**

The ASRS needs to amend its rules relating to the health insurance premium benefit in order to clarify when an employer must provide updated health insurance information and when a member may cease to be eligible for a premium benefit.
- 7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

No study was reviewed.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable.

**9. A summary of the economic, small business, and consumer impact:**

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies what information an employer must communicate to the ASRS and when a member may no longer be eligible to receive a premium benefit.

**10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

None

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The ASRS received no written comments regarding the rulemaking. No one attended the oral proceeding on September 5, 2023.

**12. All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

None.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rules do not require a permit.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

There are no federal laws applicable to these rules.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

No materials are incorporated by reference.

**14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable.

**15. The full text of the rules follows:**

**ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT<sup>1</sup>**

**TITLE 2. ADMINISTRATION**

**CHAPTER 8. STATE RETIREMENT SYSTEM BOARD**

1. Identification of the rulemaking:

The ASRS needs to amend its rules relating to the health insurance premium benefit in order to clarify when an employer must provide updated health insurance information and when a member may cease to be eligible for a premium benefit.

a. The conduct and its frequency of occurrence that the rule is designed to change:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. An employer must provide updated health insurance information for retirees and failure to do so may affect how the ASRS administers the health insurance premium benefit.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Without this rulemaking, members will not have adequate notice about how they may not be eligible to continue receiving a health insurance premium benefit. Notice of such information is necessary in order to ensure that such health benefits are properly disbursed. By promulgating these rules, members will have a better understanding of when they are eligible for a health insurance premium benefit and what information an employer must keep updated with the ASRS. Increasing understanding of how a member may be eligible for health insurance premium benefits will increase the member's understanding of how the ASRS processes such benefits and reduce confusion, which will reduce burden on the public.

---

<sup>1</sup> If adequate data are not reasonably available, the agency shall explain the limitations of the data, the methods used in an attempt to obtain the data, and characterize the probable impacts in qualitative terms. (A.R.S. § 41-1055(C)).

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking will clarify how the ASRS administers the health insurance premium benefit, thereby increasing understandability of how members' benefits may be affected, thereby increasing the efficiency of the administration. Clarifying how a member may be eligible for a health insurance premium benefit and how an employer must provide health insurance information will ensure that payment efforts are processed more efficiently. As discussed above and below, these rules will increase the clarity and effectiveness of the applicable health insurance requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS manages health insurance premium benefits.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely clarifies what information an employer must communicate to the ASRS and when a member may no longer be eligible to receive a premium benefit.

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement:

Name: Jessica A.R. Thomas, Rules Writer

Telephone: (602) 240-2039  
E-mail: [JessicaT@azasrs.gov](mailto:JessicaT@azasrs.gov)

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

All employers and members of the ASRS, as well as their beneficiaries, will be directly affected by, bear the costs of, and directly benefit from this rulemaking. The ASRS incurred the cost of the rulemaking. The ASRS currently has a total membership of approximately 652,864 and 664 employers.

5. Cost-benefit analysis:

a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

This rulemaking does not directly affect state agencies and the ASRS has determined that no new full-time employees will be required to implement and enforce the rules.

b. Costs and benefits to political subdivisions directly affected by the rulemaking:

This rulemaking does not provide any benefits or impose any costs on political subdivisions.

c. Costs and benefits to businesses directly affected by the rulemaking:

No businesses are directly affected by the rulemaking.

6. Impact on private and public employment:

The rulemaking will have no impact on private or public employment.

7. Impact on small businesses<sup>2</sup>:

a. Identification of the small business subject to the rulemaking:

No businesses, regardless of size, are subject to the rulemaking.

b. Administrative and other costs required for compliance with the rulemaking:

Not applicable.

c. Description of methods that may be used to reduce the impact on small businesses:

Not applicable.

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:

All ASRS employers, members, and beneficiaries are directly affected by the rulemaking. The effect has been previously described above.

9. Probable effects on state revenues:

There will be no effect on state revenues.

10. Less intrusive or less costly alternative methods considered:

The ASRS believes this is the least costly and least intrusive method because it will clarify how the ASRS administers health insurance premium benefits.

---

<sup>2</sup> Small business has the meaning specified in A.R.S. § 41-1001(20).

**PREFACE**

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
 ADMINISTRATIVE RULES DIVISION

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

**RULE HISTORY**

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

**AUTHENTICATION OF PDF CODE CHAPTERS**

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

**HOW TO USE THE CODE**

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

**ARIZONA REVISED STATUTE REFERENCES**

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

**PERSONAL USE/COMMERCIAL USE**

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

- H.** If the ASRS determines that the increase in the member's salary was not the result of a Promotion pursuant to subsections (F) or (G), the ASRS shall calculate the unfunded liability amount pursuant to subsection (I).
- I.** In consultation with the ASRS actuary, the ASRS shall use a determination under subsection (B) to calculate the unfunded liability resulting from the implementation of the Employer's Termination Incentive Program.
- J.** Upon calculating an unfunded liability amount pursuant to subsection (I), the ASRS shall send a Termination Incentive Program Liability Invoice to the Employer through the Employer's secure ASRS account, in order to notify the Employer of the unfunded liability amount the Employer shall owe to the ASRS as a result of implementing the Termination Incentive Program identified under subsection (B).

The election is effective on the first day of the state elected official's eligibility. If a state elected official who is subject to term limits fails to make an election as provided in this paragraph, the state elected official is deemed to have elected to participate in ASRS. The election not to participate in ASRS is irrevocable and constitutes a waiver of all benefits provided by ASRS for the state elected official's entire term, except for any benefits accrued by the state elected official in ASRS for periods of participation before being elected to an office subject to term limits or any benefits expressly provided by law.

8. A person may elect not to participate in ASRS if the person becomes employed by an employer after the person has attained at least sixty-five years of age, is not an active member, inactive member, retired member or receiving benefits pursuant to article 2.1 of this chapter and does not have any credited service or prior service in ASRS. The employee shall make the election not to participate in writing and file the election with ASRS within thirty days after employment. The election not to participate is irrevocable for the remainder of the person's employment for which the person made the election and constitutes a waiver of all benefits provided by the Arizona state retirement system. The period the person works is not eligible for purchase under section 38-743 or 38-744.

9. The following are ineligible for membership in ASRS:

(a) A person who performs services in a hospital, home or other institution as an inmate or patient at the hospital, home or other institution.

(b) A person who performs agricultural labor services, as defined in section 210 of the social security act.

(c) A person who is a nonresident alien temporarily residing in the United States and who holds an F-1, J-1, M-1 or Q-1 visa when services are performed.

(d) A person who performs services for a school, college or university in this state at which the person is enrolled as a student, as defined by the employing institution. The employing institution

shall maintain an appeal process for a person who disagrees with the employing institution's determination that the person is a student and not eligible for membership in ASRS.

(e) A person who performs services under a program designed to relieve the person from unemployment.

B. The following elected officials are subject to this article if the member's employer is an employer under article 3 of this chapter:

1. A state elected official who is subject to term limits, who is elected or appointed on or before December 31, 2013 and who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability because the state elected official had previously elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A.

2. An elected official, as defined in section 38-831, who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability, if the elected official's employer is a participating employer under this article and the elected official is eligible for ASRS service credit for the elected official's service.

#### 38-729. Political subdivision plans

A. The governing body of any political subdivision may adopt, by appropriate legislation, a supplemental retirement plan for employees and officers of the political subdivision. The supplemental retirement plan shall provide the same retirement benefits and require the same obligations for entitlement as are provided for other members under this article, except that:

1. The supplemental retirement plan shall specify the date of commencement of the supplemental retirement plan as the first day of the month following board approval of the supplemental plan of the political subdivision as provided in this section.

2. Employer and employee obligations shall be paid to ASRS in accordance with that date.

B. The governing body of the political subdivision shall submit the supplemental retirement plan to the board in the form of an agreement. The agreement shall state the terms of the supplemental retirement plan as provided in this section. The board shall either approve or disapprove the supplemental retirement plan submitted by the governing body of the political subdivision.

C. On approval, the board shall administer the supplemental plan of the political subdivision.

D. The employer's share of contributions and payments in excess of those required of the employer under section 38-737 shall be paid from monies of the political subdivision.

E. On establishment of the supplemental retirement plan the governing body of the political subdivision shall deduct member contributions in the same amounts and in the same manner as provided in this article for state employees and shall pay those contributions, together with the employer contributions for the political subdivision, to ASRS for deposit in the ASRS depository. The governing body of the political subdivision shall reimburse ASRS in a similar manner for its pro rata share of administrative costs attributable to coverage of employees of the political subdivision.

F. In addition to the employer contributions required under section 38-737, on establishment of the supplemental retirement plan the governing body of the political subdivision shall pay to ASRS the amount equal to the present value required to fund additional costs of benefits attributable to service for the political subdivision before the effective date of the supplemental retirement plan using the actuarial assumptions that are approved by the board. The board may authorize payments to be made at such times as the board requires and in amounts that are less than the amount required for fully funding the additional costs.

G. If the supplemental retirement plan is authorized by a political subdivision, then on or after the effective date of the supplemental retirement plan the governing body of the political subdivision and the board may sign an agreement to waive the provisions of subsection F of this section and to authorize benefits under the supplemental retirement plan only for service with the political subdivision after the effective date of the supplemental retirement plan. In lieu of waiving benefits for all service before the effective date of the supplemental retirement plan, the governing body of the political subdivision may elect to waive benefits for a portion of that service. Amendments to the agreement may increase but shall not reduce the service for which a member is entitled to benefits. The governing body of the political subdivision shall certify for each member the years of service before the effective date of the supplemental retirement plan for which the member is entitled to benefits. In addition to the employer contributions required in section 38-737, the governing body of the political subdivision shall pay to ASRS the amount, as determined by the board, required to fund the cost of the benefits attributable to service before the effective date of the supplemental retirement plan for which members are entitled to benefits.

H. The new political subdivision shall designate the classification of employees that is eligible for membership in ASRS and shall make contributions each year as provided in this section.

I. The liability of the political subdivision providing a supplemental retirement plan within ASRS arises in consideration of the officer's or employee's retention in or entrance into service for the political subdivision.

J. Notwithstanding any other law, an employee of a political subdivision who was previously a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that public employee retirement system for any period of employment is ineligible to receive service credit from ASRS for the same period of employment.

### 38-730. Charter city or ASRS retirement service credits; transfers

A. On application the retirement service credits of an employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS whose job functions are shifted by law from one employer jurisdiction to another shall be transferred to the retirement system of the new employer.

B. An employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS who becomes employed by the other employer jurisdiction may apply to have the employee's retirement service credits transferred to the retirement system of the new employer. The retirement service credits of an employee of a charter city that is not an employer under ASRS shall not be transferred unless the governing body of that city approves the transfer. The retirement service credits of an employee of an employer that is an employer under ASRS shall not be transferred unless the board approves the transfer.

C. The transfer shall be made pursuant to section 38-922.

D. The accumulated retirement contributions of an employee whose retirement service credits are transferred that are paid to the retirement system of the new employer shall not be withdrawn by the employee unless the employee's employment terminates.

E. The retirement system to which the employee is transferring shall not apply service credits to the employee's account until such time as complete payment is made to the retirement system to which the employee is transferring. On completion of the transfer provided for in this section, the employee's rights in the retirement system from which the employee is transferring are extinguished.

#### **38-735. Payment of contributions: recovery of delinquent payments**

A. All amounts deducted from a member's compensation as provided in section 38-736 and employer contributions required pursuant to section 38-737 shall be paid to ASRS for deposit in the ASRS depository.

B. Each employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS.

C. Payments made by employers pursuant to this article or article 2.1, 7 or 8 of this chapter become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments at an annual rate equal to the interest rate assumption approved by the board from time to time for actuarial equivalency. Delinquent payments due under this article or article 2.1, 7 or 8 of this chapter, together with interest charges as provided in this subsection, may be recovered by action in a court of competent jurisdiction against an employer that is liable for payments or, at the request of the director, may be deducted from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state. The employer shall record delinquent payments that are recovered or deducted from other monies pursuant to this subsection pursuant to applicable accounting and financial reporting standards.

#### **38-736. Member contributions**

A. Member contributions are required as a condition of employment and shall be made by payroll deductions. Member contributions shall begin simultaneously with membership in ASRS. Beginning July 1, 2011, member contributions are a percentage of a member's compensation equal to the employer contribution required pursuant to section 38-737. Amounts so deducted by employers shall be deposited in the ASRS depository.

B. The employer shall pay the member contributions required of members on account of compensation earned. The paid contributions shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of the employer payment shall not be before the date ASRS has received notification from the United States internal revenue service that pursuant to section 414(h) of the internal revenue code the member contributions paid will not be included in gross income for income tax purposes until the paid contributions are distributed by refund or retirement benefit payments. The employer shall pay the member contributions from monies that are established and available in the retirement deduction account and that would otherwise have been designated as member contributions and paid to ASRS. Member contributions paid pursuant to this subsection shall be treated for all other purposes, in the same manner and to the same extent, as member contributions made before the approval of the United States internal revenue service pursuant to this section.

38-737. Employer contributions; prepayment; definitions

A. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements contained in this article, excluding the compensation of those employees who are members of the defined contribution program administered by ASRS, as determined by the ASRS actuary pursuant to this section for June 30 of the fiscal year immediately preceding the preceding fiscal year, except that beginning with fiscal year 2001-2002 the contribution rate shall not be less than two percent of compensation of all employees of the employers.

Beginning July 1, 2011 through June 29, 2016, the total employer contribution shall be determined on the projected unit credit method. Beginning June 30, 2016, the board shall determine the actuarial cost method pursuant to section 38-714. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period that is determined by the board and consistent with generally accepted actuarial standards.

B. All contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay expenses of ASRS.

C. The required employer contributions shall be determined on an annual basis by an actuary who is selected by the board and who is a fellow of the society of actuaries. ASRS shall provide by December 1 of each fiscal year to the governor, the speaker of the house of representatives and the president of the senate the contribution rate for the ensuing fiscal year and the unfunded actuarial accrued liability, the funded status based on the actuarial value of assets and market value of assets and the annualized rate of return and the ten-year rate of return as of June 30 of the prior fiscal year.

D. Notwithstanding any other provision of this article, an employer may prepay the employer's 401(a) pension contributions directly to ASRS according to a written agreement between the employer and ASRS as follows:

1. 401(a) pension contributions that the employer prepays according to this subsection may be deposited, as determined by the employer and managed by ASRS, directly in either the ASRS trust fund established by section 38-712 or a section 115 trust.

2. ASRS shall determine the following options available to the employer:

(a) The amortization time periods.

(b) The frequency and dates that prepayments can be made.

(c) The maximum and minimum amounts of 401(a) pension contributions that the employer can prepay.

(d) Any other options or obligations that the employer may have when entering into this written agreement.

3. The earnings accrual rate shall be the ASRS total 401(a) pension fund rate of return, or the actual rate of return of a short-term investment through ASRS, as requested by the employer and agreed to by ASRS.

4. The 401(a) pension contributions the employer prepays and the accrued earnings shall be managed at the discretion of ASRS subject to section 38-718.
  5. 401(a) pension contributions that the employer prepays and accrued earnings may be used solely to reduce the employer's future 401(a) pension contributions as required from the employer pursuant to this section and section 38-735.
  6. The employer shall determine when to use the 401(a) pension contributions the employer prepays and the accrued earnings from those 401(a) pension contributions.
  7. ASRS shall provide the employer an annual statement of 401(a) pension contributions the employer prepaid and the accrued earnings.
  8. Notwithstanding any other provision of this subsection, an employer may not prepay 401(a) pension contributions according to this subsection either:
    - (a) In an amount greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
    - (b) After the total of the unamortized prepaid 401(a) pension contributions and the accrued earnings is equal to or greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
  9. After an employer elects amortization terms, ASRS shall provide the employer an amortization schedule annually that is current and based on the employer's election.
  10. If ASRS determines to no longer offer the option of prepaying the employer's 401(a) pension contributions directly to ASRS, any 401(a) pension contributions the employer prepays and the accrued earnings remaining on account shall be used for future obligations according to the written agreement between the employer and ASRS.
  11. Assets transferred in or out of or held in the ASRS trust fund established by section 38-712, or a section 115 trust, and the accrued earnings are exempt from state, county and municipal taxes.
  12. The legislature intends that the accrued earnings not be subject to federal income tax. ASRS may adopt additional rules, policies and procedures as ASRS deems necessary or appropriate to fulfill the legislature's intent that the accrued earnings not be subject to federal income tax.
  13. If ASRS receives notification from the United States internal revenue service that this subsection or any portion of this subsection will jeopardize the tax-exempt status of the 401(a) pension contributions the employer prepays according to this subsection and the accrued earnings, the portion of this subsection that will cause the disqualification does not apply.
- E. In addition to the requirements of subsection D of this section, any prepayment agreement made between ASRS and this state or any state agency is subject to the following requirements:
1. Any prepayment amounts deposited with ASRS must be from an appropriation specifically for that purpose that is passed by the legislature and signed by the governor.

2. Any prepayment amounts or accrued earnings used to reduce the employer's 401(a) pension contributions must be authorized for a specific fiscal year by legislation that is passed by the legislature and signed by the governor.

F. For the purposes of this section:

1. "401(a) pension contributions" means the portion of an employer's pension contribution that is specific to the retirement program established under this article and qualified under section 401(a) of the internal revenue code.

2. "Section 115 trust" means a trust whose income is exempt from gross income pursuant to section 115 of the internal revenue code for essential government functions integral to this state and its political subdivisions.

### 38-738. Adjustment and refund

A. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of fact, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit or, if the request is made within one year after the date of overpayment, shall return the contributions to the employer. ASRS may not pay an employer earnings attributable to the excess contributions but shall reduce the amount returned to an employer pursuant to this subsection by the amount of losses attributable to the excess contributions. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of law, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit. On receipt of an employer credit or return of contributions pursuant to this subsection, the employer shall return any member portion of the returned contributions to the member.

B. If less than the correct amount of employer or member contributions is paid into ASRS by an employer, the following apply:

1. The member shall pay an amount that is equal to the amount that would have been paid in member contributions for the period in question. For active members, payments shall be made as provided in section 38-747. For members who are inactive, retired or on long-term disability, payments shall be made using after-tax income and a personal check, cashier's check or money order. If the member does not make the payment within ninety days after being notified by ASRS that the employer has paid all amounts due from the employer, the unpaid amount accrues interest until the amount is paid in full. The member is responsible for payment of the unpaid amount and interest. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

2. If the member contributions to ASRS made pursuant to this subsection exceed the limits prescribed in section 38-747, subsection E when taking into account other annual additions of the member for the limitation year, the amount to be paid by the member shall be adjusted as provided in section 38-747. For the purposes of this paragraph, "limitation year" has the same meaning prescribed in section 38-769.

3. The employer shall pay to ASRS an amount equal to the amount that would have been paid in employer contributions for the period in question together with accumulated interest that would have accrued on both the employer and member contributions due. If the employer does not remit full payment of all employer contributions and all interest due within ninety days after being notified by

ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

4. On satisfaction of the requirements of this subsection, the member's salary history on the records of ASRS shall be adjusted and any additional service credits acquired by the member shall be reinstated.

5. If the member retires before all contributions are made pursuant to this subsection, the member's benefits shall be calculated only based on the contributions actually made.

6. Annual additions shall be determined as provided in section 38-747, subsection O.

7. The initiator of the request for correction of salary history and service credits on records of ASRS is responsible for providing credible evidence of past employment and compensation to ASRS in a form or forms that would lead a reasonable person to conclude that a period of employment occurred under circumstances that made the employee eligible for membership in ASRS during that period. A determination of eligibility by ASRS may be appealed to the ASRS board in a manner prescribed by the board.

8. A member who previously received a return of contributions pursuant to section 38-740 may receive an adjustment of employer contributions or service credits pursuant to this section only for qualifying employment and compensation that occurred after the member's most recent return of contributions pursuant to section 38-740.

C. Subsection B of this section applies to eligible verified service that occurred less than or equal to fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made.

D. Eligible verified service that is more than fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made is considered public service credit. The member may purchase this service pursuant to section 38-743.

E. Notwithstanding any other law, an employer may correct a contributions error pursuant to subsection B of this section by making payment adjustments through the employer's payroll reporting for the contributions that were not submitted if both of the following apply:

1. The adjustment is made within the same fiscal year that the contributions were due to ASRS.

2. The employer obtains written consent from the employee to make the adjustment to the employee's paycheck.

F. Notwithstanding any other law, if an employer pays less than the correct amount of employer or member contributions into ASRS, the correct amount of member contributions may not be paid to ASRS after the death of the member.

### 38-739. Credited service

- A. A member shall not earn more than one year of credited service in any fiscal year.
- B. A member shall earn proportionate credited service for each month for which the member performs service and is compensated equal to the ratio that the month bears to the number of months in the member's service year.
- C. If a member is compensated for less than a full service year, the member shall earn credited service equal to the ratio that the number of months actually compensated bears to the number of months in the full service year.
- D. If a member holds two or more concurrent contracts in any fiscal year, credited service shall be determined on the basis of the terms of the contract with the longest term.
- E. Members on sabbatical leave for which they are paid on a full or partial basis shall make appropriate contributions while on sabbatical leave and are considered to be employed full time.
- F. The following years of service are excluded from credited service under this article:
  - 1. Years of prior service. For the purposes of this paragraph, "prior service" has the same meaning prescribed in section 38-772.
  - 2. Years in which the member made contributions to the defined contribution program administered by ASRS or the Arizona teachers' retirement system before membership in the defined contribution program administered by ASRS and for which those contributions were subsequently withdrawn and paid to the member.

#### 38-739.01. Credited service retention

Consistent with the compliance statement issued by the United States internal revenue service, an employee who is employed with an ASRS employer in a position that was exempt from ASRS membership because the position was not included in agreements providing for the employee's coverage under the federal old-age and survivors insurance system but on whose behalf the employer has remitted ASRS contributions shall retain credited service for the period of employment for which the employer remitted ASRS contributions on the employee's behalf.

### 38-740. Return of contributions

- A. A member whose membership commenced before July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of the contributions as follows:
  - 1. If the member has less than five years of credited service, ASRS shall disburse all of the member's contributions.
  - 2. If a member has five or more years of credited service, ASRS shall disburse the member's contributions and an amount equal to a percentage of the employer contributions paid on behalf of the member. This amount excludes payments made by an employer pursuant to section 38-738, subsection B, paragraph 3, unless the member has made the payment required by section 38-738,

subsection B, paragraph 1. The percentage of employer contributions paid on behalf of the member shall be as follows:

- (a) 5.0 to 5.9 years of credited service, twenty-five percent.
- (b) 6.0 to 6.9 years of credited service, forty percent.
- (c) 7.0 to 7.9 years of credited service, fifty-five percent.
- (d) 8.0 to 8.9 years of credited service, seventy percent.
- (e) 9.0 to 9.9 years of credited service, eighty-five percent.
- (f) 10.0 or more years of credited service, one hundred percent.

3. Interest on the returned contributions as determined by the board.

B. A member whose membership commenced on or after July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of all of the member's contributions with interest as determined by the board.

C. Notwithstanding subsection B of this section, if a member has five or more years of credited service and the member is terminated solely because of an employer reduction in force by reason of a lack of monies or elimination of the member's position, the member is entitled to receive the amounts prescribed in subsection A of this section.

D. Withdrawal of contributions with interest constitutes a withdrawal from membership in ASRS and results in a forfeiture of all other benefits under ASRS.

E. If ASRS has disbursed an overpayment pursuant to section 38-765 or 38-797.08, ASRS shall withhold the overpayment amount plus any required income tax withholding from the return of contributions.

F. Notwithstanding any other provision of this article, a member who has not received a return of contributions pursuant to this section may combine any two or more periods of service for purposes of determining the member's benefits.

G. If ASRS disburses more than the amount due to a member or an alternate payee pursuant to this section, the person who received the overpayment shall repay the amount of the overpayment together with interest at the interest rate earned on ASRS investments as reported on a quarterly basis, but not less than the valuation rate established by the board, from the time of overpayment to the settlement of the debt.

#### **38-741. Reemployment of inactive member**

A. ASRS shall return to active status an inactive member who terminates employment with an employer without terminating membership in ASRS and who later is reemployed by the same or another employer.

B. On retirement, ASRS shall disburse benefits derived from service for all employers that employed the member.

C. Retirement benefits attributable to service before membership in ASRS, if any, shall be paid only by the employer from which the retiring member obtained entitlement to the benefits as provided in section 38-729.

#### 38-742. Reinstatement

A. If an active member who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, is subsequently reemployed by an employer, the member's service shall be credited only from the date the member's most recent reemployment period commenced.

B. Notwithstanding subsection A of this section, the member may redeposit the amount of the contributions the ASRS paid at the time of the member's separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On satisfaction of this obligation, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

C. A member who is receiving benefits pursuant to section 38-797.07 and who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, may redeposit the amount of the contributions the ASRS paid at the time of the member's previous separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On redeposit of the contributions and interest, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

#### 38-743. Public service credit

If an active member of ASRS or a member who is receiving benefits pursuant to section 38-797.07 was previously employed by the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States, excluding any time worked for a prison while the member was incarcerated, the member may receive credited service for this prior employment if the member pays into ASRS the amount prescribed in subsection B of this section. For a member whose membership date is on or after July 20, 2011, the member may receive not more than sixty months of credited service.

B. A member who elects to receive credit for service with the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States shall pay to ASRS an amount equal to the present value of the additional benefit that is

derived from the purchased credited service using the actuarial assumptions that are approved by the board.

C. A member who previously was a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that system for any period of employment is ineligible to receive retirement benefits from ASRS for the same period.

D. If a member's membership date is on or after July 1, 2010, the member shall have at least five years of credited service in ASRS before electing to receive credit for service pursuant to this section.

**38-744. Leave of absence: credit for leave without pay**

A. A member may elect to be credited with service for retirement purposes for an officially granted leave of absence from employment without pay if all of the following apply:

2. At the time the credit is requested the member is an active member of ASRS, receiving benefits pursuant to section 38-797.07 or a former active member of ASRS who has not withdrawn contributions from ASRS pursuant to section 38-740 and who was unable to resume employment because a position is not available.

3. The member returns to employment with the same employer, unless employment could not be resumed because of disability or a position was not available.

4. The member elects not more than one year of the leave and, for a member whose membership date is on or after July 20, 2011, not more than sixty months of credited service pursuant to this section.

4. Except as provided by 10 United States Code section 12736, the member is not yet eligible for a military retirement benefit.

B. For a member whose membership date is on or after July 20, 2011, the member may purchase not more than sixty months of credited service pursuant to subsection A of this section.

C. The cost to purchase military service credit is an amount equal to the present value of the additional benefit that is derived from the purchased credited service using the actuarial assumptions that are approved by the board.

D. An active member of ASRS who is called to active military service may receive credited service for not more than sixty months of active military service, except as provided by the uniformed services employment and reemployment rights act (38 United States Code section 4312(c)). The member's employer shall make employer contributions and member contributions for the member if the member meets the following requirements:

1. Was an active member of ASRS on the day before the member began active military service.
2. Is a member of the Arizona national guard or is a member of the reserves of any military establishment of the United States.
3. Volunteers or is ordered into active military service of the United States as part of a military call-up.
4. One of the following occurs:
  - (a) Is honorably separated from active military service and returns to employment for the same employer from which the member left for active military service within ninety days after the date active military service is terminated.
  - (b) Is hospitalized as a result of military service and returns to employment for the same employer from which the member left for active military service within ninety days after release from service related hospitalization.

(c) Develops a disability as a result of or during the military service and is unable to return to the same employer.

(d) Dies as a result of or during the military service.

E. Contributions made pursuant to subsection D of this section shall be for the period of time beginning on the date the member began active military service and ending on the later of one of the following dates:

1. The date the member returns to employment or the date the member should have returned to employment pursuant to 20 Code of Federal Regulations section 1002.115, whichever date is earlier.

2. The date the member is released from service related hospitalization or two years after initiation of service related hospitalization, whichever date is earlier.

3. One year after the date of disability.

4. The date the member dies as a result of or during active military service.

F. Notwithstanding any other law, on payment of the contributions made pursuant to subsection D of this section, the member shall be credited with service for retirement purposes for the period of time of active military service of not more than sixty months.

G. The employer shall make contributions pursuant to subsection D of this section as follows:

1. Contributions shall be based on the compensation that a member would have received but for the period that the member was ordered into active military service.

2. If the employer cannot reasonably determine a member's rate of compensation for the period that the member was ordered into active military service, the employer shall make contributions based on the member's average rate of compensation during the twelve-month period immediately preceding the period of active military service.

3. If a member has been employed less than twelve months before being ordered into active military service, the employer shall make contributions based on the employment period immediately preceding the period of active military service.

4. Employer contributions shall be made in a lump sum and without penalty when the member returns to employment, when it is determined that the member is unable to return to employment because of a disability as a result of or that occurred during military service or on receipt of the member's death certificate. If a member suffers a service related death, the employer shall make the employer and member contributions up to and including the date of the member's death. Death benefits shall be calculated as prescribed by law.

H. In computing the length of total credited service of a member for the purpose of determining retirement benefits or eligibility, the period of military service, as prescribed by this section, shall be included.

I. Notwithstanding any other law, the member is not required to reimburse the member's employer or ASRS for any contribution made pursuant to subsection D of this section.

J. In addition to, but not in duplication of, the provisions of subsection D of this section, contributions, benefits and credited service provided pursuant to this section shall be provided in accordance with section 414(u) of the internal revenue code.

K. A member who does not currently perform services for an employer by reason of qualified military service, as that term is defined in section 414(u) of the internal revenue code, and who is receiving differential wage payments, as that term is defined in section 3401(h)(2) of the internal revenue code, shall not be considered as having a severance from employment for all purposes under ASRS during the period the differential wages are being paid by the employer to the employee.

#### 38-746. Compensation limitation: adjustments

A. Except as provided in subsection E, beginning on July 1, 2002, the annual compensation of each employee taken into account under ASRS for any fiscal year or for any other specified twelve consecutive month period shall not exceed two hundred thousand dollars. In determining benefit accruals under ASRS for fiscal years beginning after December 31, 2001 and except as provided for in subsection E, the annual compensation limit under this subsection for fiscal years beginning before January 1, 2002 is two hundred thousand dollars.

B. If compensation under ASRS is determined on a period of time that contains fewer than twelve calendar months, the compensation limit for that period of time is equal to the dollar limit for the calendar year during which the period of time begins, multiplied by the fraction in which the numerator is the number of full months in that period of time and the denominator is twelve.

C. For fiscal years beginning before July 1, 1997, the annual compensation limit prescribed in this section also applies to the combined compensation of a member who is a member of the group of ten highly compensated employees, as defined in section 414(q) of the internal revenue code, and who is paid the highest compensation during the fiscal year and any family member of the member who is either the member's spouse or the member's lineal descendant and who has not attained the age of nineteen before the close of the fiscal year. If the maximum compensation is adjusted pursuant to subsection D, the adjusted limitation shall be prorated among the affected members' compensation determined pursuant to this section before application of the adjusted limitation to the other provisions of this article.

D. The board shall adjust the maximum compensation under subsection A at the same time and in the same manner as adjusted by the United States secretary of the treasury under section 401(a)(17)(B) of the internal revenue code. The adjustment under this subsection for a calendar year applies to annual compensation for the fiscal year of ASRS that begins with or within the calendar year.

E. The dollar limitation prescribed in subsection A does not apply to an eligible member to the extent that the annual compensation of an eligible member taken into account by ASRS for any fiscal year or for any other specified twelve consecutive month period would be reduced below two hundred thirty-five thousand eight hundred forty dollars. This was the amount of compensation taken into account by ASRS as of July 1, 1993. The board shall adjust this amount as of the effective date of the increase prescribed by the United States secretary of the treasury. For the purposes of this subsection, "eligible member" means a person who first became a member of ASRS before July 1, 1996.

#### 38-747. Purchase of credited service; payment; limitations; definitions

A. A member who purchases credited service pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 shall either:

1. Make payments directly to ASRS as provided in subsection H of this section.
2. Elect to have the member's employer make payments as provided in subsection B of this section.

B. A member may elect to have the member's employer make payments for all or any portion of the amounts payable for the member's purchase of credited service pursuant to the sections prescribed in subsection A of this section through a salary reduction program in accordance with the following:

1. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The electing member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection. For the purposes of this paragraph, "other compensation" includes a member's termination pay.

2. The member shall make an election pursuant to this subsection at any time on or after the date the member elects to purchase credited service pursuant to the sections prescribed in subsection A of this section and before the member's termination of employment. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. In the case of an election to utilize all or any part of the member's termination pay to purchase credited service, the member's election shall be made at least three full calendar months before the date of the member's termination of employment and entitlement to receive the termination pay. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of current employment. After a member makes an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. For the purposes of this paragraph, "termination pay" means any lump sum that is paid at the member's termination of employment for accrued vacation, sick leave or overtime pay.

3. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's purchase of credited service may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's purchase of credited service. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's purchase of credited service does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's purchase of credited service.

4. If on termination of the member's employment with an ASRS employer all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection. ASRS shall not grant credited service for contributions made pursuant to this subsection until those contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any salary reduction election made pursuant to this subsection. The interest or administrative charges shall be added to the amount of contributions that is made to ASRS by the member each payroll period and that is paid by the member's employer. The interest or administrative charges shall not be treated as member contributions for any purposes under this article and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

C. A member who elects before July 1, 1999 to receive retirement benefits based on section 38-771, subsection C, paragraph 2 or a member who elects to make contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 shall either make the member's additional contributions required pursuant to section 38-771, subsection E or allowed pursuant to section 38-771.01, subsection F, paragraph 4 directly to ASRS as provided in subsection H of this section or shall elect to have the member's employer make payments for those additional contributions as provided in subsection D of this section. A member who elected to be covered or who was deemed to be covered by section 38-771 on or before December 31, 1995 or who elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 3 is deemed to have made an irrevocable election pursuant to subsection D of this section to make the member's contributions to ASRS that are required by section 38-771, subsection D or allowed by section 38-771.01, subsection F, paragraph 3.

D. Any member contributions that are required by section 38-771, subsection D or that are allowed pursuant to section 38-771.01, subsection F, paragraph 3 are deemed to be made by the member to ASRS through a salary reduction program in accordance with the following:

1. A member may make member contributions pursuant to section 38-771, subsection E or section 38-771.01, subsection F, paragraph 4 through a salary reduction program elected pursuant to this subsection. If a member makes an irrevocable election pursuant to this subsection before July 1, 1999 to have the member's employer make payments for additional contributions pursuant to section 38-771, subsection E, the election continues in effect from and after June 30, 1999 and shall not be revoked, amended or altered by any election made pursuant to section 38-771.01 or otherwise. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection.

2. Before a member's termination of employment, the member may make an election pursuant to this subsection at any time after the date the member elects to receive retirement benefits based on section 38-771, subsection C, paragraph 2 but before July 1, 1999 or at any time after the member elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 4. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of employment.

3. After a member makes or is deemed to have made an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4 may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's additional contributions. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 or pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's additional contributions pursuant to section 38-771.01, subsection F, paragraph 4 does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4.

4. If on termination of the member's employment all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

E. The following limits apply to contributions to ASRS:

1. Except to the extent paragraphs 2 and 3 of this subsection apply to certain contributions made by a member to ASRS and to the extent permitted under section 414(v) of the internal revenue code, if applicable, in any one limitation year, the annual additions contributed or allocated to ASRS for or on behalf of a member shall not exceed the lesser of either:

(a) \$40,000 or a larger amount that is prescribed by the board and that is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount prescribed by this subdivision as of the effective date of the increase announced by the United States secretary of the treasury.

(b) One hundred percent of the member's compensation for the limitation year. The compensation limit prescribed in this subdivision does not apply to any contribution to ASRS for medical benefits after a member's separation from service, within the meaning prescribed in section 401(h) or 419A(f)(2) of the internal revenue code, that is otherwise treated as an annual addition.

2. Unless paragraph 4 of this subsection applies, for plan years beginning on or after July 1, 1998, in any one limitation year, the annual additions credited to ASRS for or on behalf of a member who makes contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election has not been made pursuant to subsection B of this section shall not exceed the greater of either:

(a) The requirements of section 38-769. For the purposes of applying the limits prescribed in section 38-769 under this subdivision, the accrued benefit derived from the contributions shall be treated as an annual benefit and the reduced limit for certain early retirement in section 38-769, subsection C, paragraph 2 does not apply.

(b) Except as provided in paragraph 3 of this subsection, the requirements of paragraph 1 of this subsection. The contributions shall be treated as annual additions and any of the member's other annual additions for the limitation year shall be taken into account. For the purposes of applying the requirements of paragraph 1 of this subsection under this subdivision, the percentage of compensation limit in paragraph 1, subdivision (b) of this paragraph does not apply.

3. For plan years beginning on or after July 1, 1998, the requirements of paragraph 1 of this subsection shall not be applied to reduce the amount of credited service that may be purchased by an eligible member pursuant to section 38-743, 38-744, 38-745 or 38-922 to an amount that is less than the amount of credited service allowed to be purchased pursuant to those sections on August 5, 1997 without the application of any of the limits prescribed in this section or section 415 of the internal revenue code. For the purposes of this paragraph, "eligible member" means a person who first becomes a member of ASRS before July 1, 1999.

4. Member contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744 or 38-922 shall not be made by a member if recognition of that service would cause a member to receive a retirement benefit for the same service from ASRS and one or more other retirement plans. This paragraph does not apply to either of the following:

(a) Contributions made by an eligible member as defined in paragraph 3 of this subsection, except that any service purchase by an eligible member is subject to any other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

(b) Any member contributions with respect to which an irrevocable election has been made by a member pursuant to subsection B of this section, except that the service purchase is subject to any

other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

F. If a member's contributions are subject to the limitations of subsection E of this section, the contributions shall be treated as being made to a separate defined contribution plan. If the member's contributions exceed the limits prescribed in subsection E of this section when taking into account other member and employer contributions to ASRS on behalf of the member for the limitation year, the amount to be paid by the member shall be reduced to not exceed the limits prescribed in subsection E of this section and the remaining amount shall be carried forward to the next limitation year, unless the limits are exceeded in the next limitation year. If the limits are exceeded in the next limitation year, the procedure prescribed by this subsection shall be repeated until all payments have been made.

G. If, after the application of subsection F of this section, the annual additions on behalf of a member exceed the limitations prescribed in subsection E of this section, ASRS shall dispose of excess amounts by either of the following:

1. Returning to the member any contributions that are made by the member and that are nondeductible under the internal revenue code.

2. Holding the amounts in a suspense account established pursuant to subsection L of this section and allocating the amounts as either member or employer contributions for the benefit of the member in the next limitation year and before any further member or employer contributions are made that would constitute annual additions made to a defined contribution plan pursuant to section 415 of the internal revenue code. ASRS shall allocate contributions as prescribed in this section, and the amount allocated shall reduce the amount of the member or employer contributions for the limitation year in which the allocation is made.

H. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by the member pursuant to subsection B or D of this section, the board may accept contributions made pursuant to section 38-771 or member contributions for the payment for credited service purchases pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 or contributions made pursuant to section 38-771.01, subsection F, paragraph 4, in whole or in part, by any one or a combination of the following methods:

1. In lump sum payments.

2. Subject to the limitations prescribed in sections 401(a)(31) and 402(c) of the internal revenue code and subsection J of this section, accepting a direct transfer of any eligible rollover distribution from one or more:

- (a) Retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code.

- (b) Annuity contracts described in section 403(b) of the internal revenue code.

- (c) Eligible deferred compensation plans described in section 457(b) of the internal revenue code that are maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state.

3. Accepting from a member a direct transfer from an individual retirement account or individual retirement annuity described in section 408(a) or 408(b) of the internal revenue code of an amount that would otherwise be eligible to be rolled over to ASRS under the provisions of section 408(d)(3)(A)(ii) of the internal revenue code if the amount had been received by the member and would have otherwise been includible in the member's gross income but for the direct transfer.

4. Providing by rule that the contributions may be made in installment payments over a period of time.

I. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by a member pursuant to subsection B or D of this section, the board may accept a direct trustee-to-trustee transfer from retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code, an annuity contract described in section 403(b) of the internal revenue code or an eligible deferred compensation plan described in section 457(b) of the internal revenue code for the payment for credited service purchases pursuant to section 38-742, 38-743, 38-744, 38-745 or 38-922. If a direct trustee-to-trustee transfer is from a retirement program that is qualified under section 401(a) of the internal revenue code and that includes a cash or deferred arrangement described in section 401(k) of the internal revenue code, the member on whose behalf the transfer was made is not eligible to retire under section 38-764, subsection I before the date the member attains fifty-nine and one-half years of age.

J. ASRS shall separately account for all amounts rolled over or directly transferred to ASRS. Subject to the limitations contained in the internal revenue code applicable to the type of plan from which an eligible rollover distribution is transferred, to the extent any eligible rollover distribution that is directly transferred to ASRS consists wholly or partially of amounts that would otherwise not be included in the member's gross income if not so transferred, ASRS shall separately account for the amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the amount that is includable in gross income and the portion of the amount that is not includable in gross income.

K. ASRS shall not grant credited service under section 38-738, 38-742, 38-743, 38-744 or 38-922 for contributions made pursuant to subsection H of this section until the contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any installment payment made pursuant to subsection H, paragraph 4 of this section to purchase credited service pursuant to section 38-738, 38-742, 38-743, 38-744 or 38-922. The interest or administrative charges shall be added to the amount of contributions made to ASRS by the member. The interest or administrative charges shall not be treated as member contributions for any purposes under this article, and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

L. Notwithstanding any provision of this article to the contrary, if the annual additions credited on behalf of an ASRS member during any limitation year exceed the limits of section 415(c) of the internal revenue code and subsection E of this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance issued by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

M. If the member retires before all payments are made pursuant to this section, ASRS shall calculate the member's benefits based only on the payments actually made.

N. On satisfaction of the requirements of this section, ASRS shall adjust the member's credited service history and add any additional service credits acquired.

O. Annual additions on behalf of a member in any limitation year shall be the sum of:

1. The amount of the member contributions made to ASRS to purchase credited service pursuant to section 38-738, 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election made pursuant to subsection B of this section is not in effect.

2. The amount of member and employer contributions made to ASRS on behalf of a member who elected or was deemed to have elected to receive retirement benefits pursuant to section 38-771 or who is entitled to benefits pursuant to section 38-771.01, except that, other than as provided in subsection P of this section, corrective contributions shall be considered annual additions for the limitation years to which the contributions relate and interest and gains shall not be considered as annual additions for the purpose of any limitation prescribed in this article or in section 415 of the internal revenue code. If the corrective contributions exceed the limit on annual additions for a limitation year prior to the limitation year in which the corrective contributions are contributed by the employer to ASRS, the retirement benefit attributable to the excess corrective contributions shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess corrective contributions to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

3. Any member or employer contributions made to ASRS or any other plan that are treated as being made to a defined contribution plan maintained by an employer of the member.

4. Any forfeitures, including any income attributable to forfeitures, allocated for or on behalf of a member of ASRS or any other plan that are treated as being allocated under a defined contribution plan maintained by an employer of the member.

P. To the extent any portion of the subject benefits, if treated as subject to the benefit limitations of section 415(b) of the internal revenue code, exceed the applicable limitation on benefits pursuant to section 38-769 for the form of distribution, a percentage of corrective contributions and interest and gains shall be treated as annual additions for the limitation year in which contributed by the employer to ASRS. This percentage of corrective contributions and interest and gains shall be equal to the percentage determined by dividing the subject benefits that exceed the limitation on benefits pursuant to section 38-769 by the subject benefits. If the corrective contributions and interest and gains that are treated as annual additions for the limitation year in which the corrective contributions and interest and gains are contributed by the employer to ASRS exceed the limit on annual additions for the limitation year, the retirement benefit attributable to the excess shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

Q. Subsection O of this section shall be construed and interpreted in accordance with section 415 of the internal revenue code and the final treasury regulations issued under that section.

R. For the purposes of this section:

1. "Compensation" has the same meaning prescribed in section 38-769.

2. "Corrective contributions" means any contributions that are paid by an employer pursuant to section 38-771.01, subsection C, paragraph 3 and that are attributable to employer contributions that should have been made for prior limitation years.
3. "Defined contribution plan" has the same meaning prescribed in section 38-769.
4. "Eligible rollover distribution" has the same meaning prescribed in section 38-770.
5. "Interest and gains" means employer contributions to ASRS pursuant to section 38-771.01, subsection C, paragraphs 3, 5 and 6 that are attributable to earnings and supplemental credits that would have been earned or added to a member's annuity payment.
6. "Limitation year" has the same meaning prescribed in section 38-769.
7. "Participating employer" means an employer that participates in ASRS.
8. "Subject benefits" means the retirement benefit received by a member pursuant to section 38-771.01 minus the sum of the portion of such retirement benefit attributable to contributions that were made by or on behalf of the member to the defined contribution program administered by ASRS for periods before July 1, 1981 and contributions that were made by the member after June 30, 1981 and that were not picked up as provided in section 414(h)(2) of the internal revenue code.

**38-748. Employer payments for ineligible contributions; definitions**

A. If an employer pays contributions on behalf of any person who is not eligible by statute or rule for ASRS membership or pays contributions on compensation that is not eligible by statute or rule for ASRS contributions and either ASRS or a court determines that ASRS shall provide a person with any benefit or credit under this article or article 2.1 of this chapter based on such contributions, the employer shall pay to ASRS any unfunded liability resulting from the provision of benefits or credit to the person.

B. If the employer does not remit full payment of the unfunded liability pursuant to subsection A of this section within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full.

C. Credited service ceases to accrue as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

D. If the amount in the person's ASRS account is greater than the present value of the benefit or credit, ASRS shall retain the entire account and is not required to refund, credit or offset any excess against future contributions.

E. This section applies to an employer that employs, either directly or indirectly, a person who performs services for a third-party organization and that does not have a written representation by ASRS of the person's eligibility.

F. For the purposes of this section:

1. "Amount in the person's ASRS account" means two times the person's retirement contributions made pursuant to section 38-736:

(a) Plus:

(i) Interest on the person's retirement contributions made pursuant to section 38-736.

(ii) Any contributions made for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(iii) Interest on the amount contributed for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(b) Minus any amounts paid by ASRS pursuant to this article or article 2.1 of this chapter.

2. "Interest" means the interest rate assumption that is approved by ASRS for actuarial equivalency.

3. "Unfunded liability" means:

(a) For a person who is not eligible by statute or rule for ASRS membership, the amount, if any, that the present value of the person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount in the person's ASRS account calculated as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

(b) For contributions on compensation that is not eligible by statute or rule for ASRS contributions, the difference, if any, of the amount that the present value of a person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount of the present value of the benefit or credit the person would receive if the ineligible contributions, and the compensation and credit associated with those ineligible contributions, had not been reported to ASRS and the amount in the person's ASRS account that is associated with the ineligible contributions on compensation.

**38-749. Employer termination incentive program; employer payment of actuarial cost; definition**

A. If a termination incentive program that is offered by an employer results in an actuarial unfunded liability to ASRS, the employer shall pay to ASRS the amount of the unfunded liability. ASRS shall determine the amount of the unfunded liability in consultation with its actuary.

B. An employer shall notify ASRS if the employer plans to implement a termination incentive program that may affect ASRS funding.

C. If ASRS determines that an employer has implemented a termination incentive program that results in an actuarial unfunded liability to ASRS, ASRS shall assess the cost of the unfunded liability to that employer. If the employer does not remit full payment of all monies due within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

D. For the purposes of this section, "termination incentive program":

1. Means a total increase in compensation of thirty per cent or more that is given to a member in any one or more years before termination that are used to calculate the member's average monthly compensation if that increase in compensation is used to calculate the member's retirement benefit and that increase in compensation is not attributed to a promotion.

2. Means anything of value, including any monies, credited service or points that the employer provides to or on behalf of a member that is conditioned on the member's termination except for payments to an employee for accrued vacation, sick leave or compensatory time unless the payment is enhanced beyond the employer's customary payment.

### 38-750. Transfers out of the system

A. If an employee has made an irrevocable election pursuant to section 38-747, subsection B or D and transfers participation to another defined benefit retirement system or plan of this state without a termination of employment, within ninety days after the date of the transfer, ASRS shall transfer to the subsequent defined benefit retirement system or plan the amount the employee paid for the purchase of the credited service plus interest as determined by ASRS.

B. If the assets transferred from ASRS are less than the cost of the benefits accrued relative to the credited service as calculated pursuant to section 38-922, subsection B, paragraph 2, and unless a law otherwise provides, the employee shall elect either to pay the difference to the subsequent defined benefit retirement system or plan or accept a reduced amount of service credits. If the employee elects to pay the difference, the amount paid shall be added to the employee's accumulated contribution account balance. If the employee elects to accept a reduced amount of service credits, the amount of service credits granted shall be equal to the amount of service credits purchased multiplied by the ratio of the amount of assets transferred to the amount calculated pursuant to section 38-922, subsection B, paragraph 2.

C. The transferred employee and the employer shall complete the terms of the irrevocable election by making payments to ASRS.

D. If the employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, on termination of employment the employee shall elect to have ASRS:

1. Promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to elect to have the assets transferred within thirty days after termination of employment, the employee is deemed to have made an election as prescribed in paragraph 2.

2. On written request by the employee, promptly return to the employee the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If no application is received by ASRS within sixty days after termination of employment, ASRS shall issue the payment directly to the employee.

E. If the employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, after termination of employment the employee may elect within thirty days of termination of employment to have ASRS promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to make the election under this subsection, ASRS shall deem the employee as an inactive member of ASRS.

F. If an employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is

receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is eligible to transfer to the retirement system or plan, but the election to transfer terminates the benefit from ASRS on the effective date of the transfer.

G. If an employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is not eligible to transfer to another retirement system or plan.

**38-751. Nonparticipatory employer liability allocation; exemption; definitions**

A. ASRS shall establish a separate fund for an employer, other than a charter school, that is no longer participating in ASRS as a result of any of the following:

1. The character of the employer changes from a public entity to a private entity.
2. An employer, other than this state, dissolves.
3. Through legislative action, the employer is no longer enrolling new employees in ASRS or no longer contributing to ASRS on behalf of current employees or groups of employees who otherwise would be eligible for ASRS membership.

B. For a nonparticipating employer described in subsection A of this section, ASRS shall allocate an actuarial accrued liability and a designated asset amount to the nonparticipating employer's separate fund as of the nonparticipation date, which shall be calculated as follows:

1. The actuarial accrued liability shall equal the sum of the plan employer actuarial accrued liability and the LTD program employer actuarial accrued liability. Actuarial accrued liability shall be calculated based on the same actuarial assumptions and methods as the actuarial valuation performed immediately preceding the nonparticipating employer's nonparticipation date.

2. The designated asset amount shall equal the sum of the following:

- (a) The plan employer actuarial accrued liability multiplied by the plan funded percentage.
- (b) The LTD program employer actuarial accrued liability multiplied by the LTD program funded percentage.

C. All monies and securities transferred to the nonparticipating employer's separate fund shall be credited to that fund. A record of the market value and the cost value of such transferred contributions shall be maintained for actuarial and investment purposes. ASRS shall make all decisions regarding the nonparticipating employer's separate fund.

D. After establishing the nonparticipating employer's separate fund, the fund shall be adjusted for all of the following:

1. All contributions made by employees of the nonparticipating employer.
2. All contributions made by the nonparticipating employer.

3. All plan, all LTD program and any other benefits paid to the nonparticipating employer's members who are active, inactive, retired or on long-term disability.

4. All plan, all LTD program and any other benefits paid to the survivors of the nonparticipating employer's members.

5. The applicable share of the investment gains and losses.

6. Expenses associated with the administration of the nonparticipating employer's separate fund, including any administrative, development, actuarial, legal, custodial and investment management costs associated with the fund. These expenses shall be paid directly by the nonparticipating employer or included in the employer's liability for the purposes of determining the employer's contribution rate.

E. After establishing the nonparticipating employer's separate fund, the nonparticipating employer and any employees of that employer who are enrolled in ASRS shall continue to have contribution requirements to the nonparticipating employer's separate fund. The contribution requirements shall be calculated as follows:

1. All employees of the nonparticipating employer who are enrolled in ASRS shall continue to make contributions through payroll deductions based on the contribution rate determined for the employees of participating employers of ASRS pursuant to section 38-736.

2. The nonparticipating employer shall continue to make contributions through lump sum payments in accordance with section 38-735, equal to the sum of:

(a) Contributions owed through payroll deductions based on the contribution rate determined for participating employers pursuant to section 38-737.

(b) The amount required to amortize the past service funding requirement in the nonparticipating employer's separate fund over a period that is determined by the board and that is consistent with generally accepted actuarial standards. In determining the past service funding period, the board shall seek to improve the funded status whenever the nonparticipating employer's separate fund is less than one hundred percent funded.

F. The ASRS actuary shall determine the actuarial assumptions used to determine the contribution requirements for the nonparticipating employer under subsection E of this section. Notwithstanding section 38-737, the contribution for the nonparticipating employer may not be determined as a percentage of compensation due to the anticipated decline of compensation for employees of the nonparticipating employer participating in ASRS. The nonparticipating employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS at a rate that is consistent with the rate paid by the participating employers. Each fiscal year, amounts that are not remitted through payroll contributions pursuant to this section shall be invoiced to the employer and shall be paid within the same fiscal year the nonparticipating employer is invoiced.

G. This section does not permit an employer to alter the irrevocable agreement approved by the board under section 38-729.

H. For the purposes of calculating an employer's liability under this section, members who are active, inactive, retired or on long-term disability are considered employees of the nonparticipating employer

if the member's most recent employer was the nonparticipating employer as of the nonparticipation date.

I. This section does not apply to an employer whose existence was terminated by legislative action or otherwise became a nonparticipating employer as described in subsection A of this section on or before January 1, 2013.

J. For the purposes of this section:

1. "LTD program" means the program established by article 2.1 of this chapter.

2. "LTD program employer actuarial accrued liability" means the actuarial accrued liability for the employer's active and inactive members and the open LTD program claims for the employees of the employer as of the nonparticipation date.

3. "LTD program funded percentage" means the total market value of LTD program assets divided by the total LTD program actuarial accrued liabilities, as of the actuarial valuation performed immediately preceding the nonparticipation date. If the percentage is greater than one hundred percent, the LTD program funded percentage is one hundred percent.

4. "Nonparticipation date" means the date on which the employer is no longer participating in ASRS.

If the percentage is greater than one hundred percent, the plan funded percentage is one hundred percent.

A. A member who has attained age fifty, who has terminated employment with all employers and who has five years of total credited service is eligible to elect, in a form and manner prescribed by the board, to receive a reduced retirement income.

B. For a member whose membership in ASRS commenced before July 1, 2011, the benefit payable to a member electing early retirement shall be determined by reducing the normal retirement benefit computed in accordance with section 38-757 either:

1. At the rate of three percent per year from age sixty to age sixty-five and five percent per year from age fifty to age sixty. The reduction in normal retirement benefits pursuant to this paragraph for an eligible member electing early retirement shall be based on the period from the date of commencement of early retirement benefits to the member's sixtieth birthday if the member has at least twenty years of total credited service, sixty-second birthday if the member has at least ten but less than twenty years of total credited service or sixty-fifth birthday if the member has at least five but less than ten years of total credited service.

The amount of retirement income shall be the actuarial equivalent of the retirement income to which the member would be entitled under normal or early retirement. The election in a manner prescribed by the board shall name the contingent annuitant. The election may be revoked at any time before the member's

effective date of retirement. At any time after benefits have commenced, the member may name a different contingent annuitant or rescind the election by written notice to the board as follows:

(a) If a different contingent annuitant is named, the life annuity of the member under the same joint and survivor life annuity option previously elected shall be adjusted to the actuarial equivalent of the original annuity, based on the age of the new contingent annuitant. The adjustment shall include all postretirement increases in retirement income that are authorized by law after the member's date of retirement. Payment of this adjusted life annuity shall continue under the provisions of the option previously elected by the member.

(b) If the member rescinds the election, the member shall thereafter receive a straight life annuity equal to what the member would otherwise be entitled to receive if the member had not elected the joint and survivor life annuity option, including all postretirement increases in retirement income that are authorized by law after the date of retirement. The increased payment shall continue during the remainder of the member's lifetime.

(c) If a member whose original date of retirement is before July 1, 2008 rescinds the joint and survivor life annuity option previously elected and receives the straight life annuity pursuant to subdivision (b) of this paragraph, the member may again elect the same joint and survivor life annuity option previously elected subject to the same restrictions prescribed in subdivision (a) of this paragraph.

#### 38-762. Survivor benefits before retirement; definition

A. On the death of any active or inactive member before retirement, the designated beneficiary of the member shall be paid a survivor benefit equal to the sum of both of the following:

1. The member's contribution and interest and the employer's contribution and interest to the defined benefit plan established by this article for credited service that a member earned by working for an employer, plus all contributions and interest made for the purchase of military service, leave without pay or other public service credit. 2. The amount of the member's employee account and the member's employer account together with supplemental credits, if any, transferred from the defined contribution program administered by ASRS to the defined benefit program established by this article.

B. Subsection A, paragraphs 1 and 2 of this section shall be accumulated at compound interest at a rate determined by the board through the day of the payment of the benefit.

C. In lieu of a single payment, a designated beneficiary who is eligible for a survivor benefit pursuant to subsection A of this section may elect to receive the actuarial equivalent of the survivor benefit as monthly income for life, if the resulting monthly amount is greater than or equal to the amount determined by the board under section 38-764, subsection E.

D. If a member dies before distribution of the member's benefits commences, the member's entire benefits shall be distributed within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

2. The member's surviving natural or adopted children in equal shares.
3. The member's surviving parents in equal shares.
4. The member's estate.

F. Any payment pursuant to this section is payment for the account of the member or the member's beneficiary and all persons entitled to payment and, to the extent of the payment, is a full and complete discharge of all liability of the board or ASRS, or both, under or in connection with ASRS.

G. For the purposes of this section, "designated beneficiary" means any individual designated by the member as the member's beneficiary.

#### **38-763. Survivor benefits after retirement**

A. Except as provided in subsection B of this section, if a member dies after distribution of retirement benefits commences, ASRS shall continue to distribute the remaining portion of retirement benefits within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

B. On the death of a retired member who is receiving benefits, the estate or beneficiary of the member is entitled to receive at least the amount of the member's contribution to ASRS plus interest, as determined by the director, less the benefits distributed by ASRS. This amount is payable either as a lump sum or at the same periodic rate in effect at the time of the member's death, as determined by the estate or beneficiary.

#### **38-764. Commencement of retirement; payment of retirement benefits; lump sum payments**

A. Retirement is deemed to commence on a date elected by the member. 2. Continue to and include the first day of the month in which death occurs or continue until the date of their cessation in accordance with any optional method of payment that may have been elected.

C. Except as provided in subsection D of this section, at the request of a retired member, a retired member's guardian or a court appointed conservator, the board may pay any increase in retirement

benefits or the entire retirement benefit in a lump sum payment based on the actuarial present value of the benefit or the increase in the benefit if the payment of the benefits would result in ineligibility, reduction or elimination of social service programs provided to the member by this state, its political subdivisions or the federal government.

D. The board may pay the entire retirement benefit in a lump sum pursuant to subsection C of this section only if continued membership in ASRS will result in additional requests for lump sum payments based on cost of living adjustments or the establishment of minimum benefit awards.

E. If any benefit that is payable as a series of periodic payments amounts to less than a threshold amount determined by the board, the board, in its sole discretion and based on uniform rules it establishes, may order the amount to be paid in a lump sum. A member who receives a lump sum payment pursuant to this subsection remains a member of ASRS and is eligible for the coverage provided pursuant to section 38-782 and the payment pursuant to section 38-783 but is not eligible for a benefit increase pursuant to section 38-767.

F. All distributions of retirement benefits to a member shall be distributed within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

G. Notwithstanding subsection H of this section, a member may elect to cancel the effective date of retirement within thirty days of retirement or before the member's receipt of retirement benefits, whichever is later.

H. A member may elect to make changes to a retirement application before the member's retirement date. A member may exercise a onetime election to make changes to the retirement application within sixty days after the member's retirement date. The member may not change the member's retirement date, and any changes made to the retirement application are retroactive to the member's retirement date.

I. A member who attains a normal retirement date may retire at any time without terminating employment if the member is employed for less than the hours required for active membership pursuant to section 38-711, paragraph 23, subdivision (b).

#### **38-765. Errors; benefit recomputation**

If any change or error in the records results in any member or beneficiary receiving from ASRS more or less than the member or beneficiary would have been entitled to receive if the records had been correct, ASRS shall correct the error and as far as practicable shall adjust the payments in a manner so that the actuarial equivalent of the benefit to which the member or beneficiary was correctly entitled is paid. ASRS shall correct any change or error and shall pay the appropriate monies to a member or beneficiary or shall recover monies from the member or beneficiary if the member or beneficiary is overpaid. ASRS shall recover monies by reducing any benefit otherwise payable by ASRS or the LTD program established by article 2.1 of this chapter to an active, inactive, person with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

#### **38-766. Retired members; return to work; suspension of benefits; exceptions; maximum benefit**

2. Attains a normal retirement date, no longer meets the requirements for active membership pursuant to this subsection and files an application for reretirement on a form that is approved by the director.

B. A retired member whose retirement benefits have been suspended pursuant to subsection A of this section shall repay ASRS any retirement benefits received by the member from the date ASRS notifies the member in writing that the member's employment resulted in active membership in ASRS pursuant to subsection A of this section, from the date ASRS determines that the member knew or should have known that the member's employment resulted in membership in ASRS pursuant to subsection A of this section or for any other period that approximates the duration of the violation, as determined by ASRS.

C. A member who satisfies subsection A, paragraph 1 or 2 of this section is entitled to receive an annuity recomputed to include the additional compensation and credited service. However, the recomputed annuity shall be in the original optional form chosen pursuant to section 38-760, with the same beneficiary, if applicable, as when the member first retired, unless the member has resumed active membership for at least sixty consecutive months. A member who retired under a provision of law allowing increased benefits if the retirement occurred during a specific period of time and who subsequently becomes an employee under ASRS shall not retain the increased benefits under the prior law when benefits are computed for the member's most recent retirement.

D. Notwithstanding subsection A of this section, ASRS shall not suspend the payment of retirement benefits if a retired member begins or returns to employment with an employer in a position that satisfies all of the following:

1. Results in a true change in position, job duties and job title from the position occupied by the member before ASRS retirement.

2. Either:

- (a) Requires participation in another state retirement system, plan or program and the retired member makes contributions or waives participation pursuant to section 38-804, subsection A.

- (b) Allows a member to elect to participate in another state retirement system, plan or program and the member makes such an election.

3. Does not require membership in the defined benefit plan established by this article.

E. A retired member who returns to work pursuant to subsection D of this section does not accrue credited service, member service as provided in section 15-1628, subsection B, paragraph 4, additional account balances, retirement benefits or long-term disability program benefits pursuant to article 2.1 of this chapter for the period the retired member returns to work. The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

F. Section 38-769, subsection L applies when determining the maximum benefit that may be paid to a retired member who resumes active membership and subsequently retires.

G. An employer that engaged the retired member to work pursuant to this section shall pay to ASRS an amount equal to the rate established by the actuary pursuant to section 38-766.02, subsection B for the period starting with the first day the retired member began working after retirement through the earlier of:

1. The date the member terminates employment.
2. The date the member resumes active membership pursuant to subsection A of this section and the member and employer are required to make contributions pursuant to section 38-736, 38-737 or 38-738.

**38-766.01. Retired members; return to work**

A. Notwithstanding section 38-766, at a retired member's election, a retired member may return to work and still be eligible to receive retirement benefits if all of the following requirements are satisfied:

1. The retired member has attained the member's normal retirement age.
2. The retired member terminated direct employment with an employer at least three hundred sixty-five consecutive days before returning to work.
3. If the retired member returns to work as a teacher, the retired member's employment is not subject to the requirements prescribed in sections 15-536, 15-538, 15-538.01 and 15-539 through 15-543.

B. Notwithstanding section 38-766 and subsection A of this section, at a retired member's election, a retired member may return to work as a state elected official who is subject to term limits and still be eligible to receive retirement benefits.

C. A retired member's election to return to work under this section is irrevocable for the remainder of the retired member's employment for which the retiree made the election.

D. The retired member shall acknowledge this section in writing and file the acknowledgement with the employer within thirty days after returning to work.

E. An employer of a retired member who returns to work pursuant to this section shall not pay contributions on behalf of the retired member pursuant to section 38-736, 38-737 or 38-797.05.

F. A retired member who returns to work pursuant to this section does not accrue credited service, member service as provided in section 15-1628, subsection B, paragraph 4, additional account balances, retirement benefits or long-term disability program benefits pursuant to article 2.1 of this chapter for the period the retired member returns to work. The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

**38-766.02. Retired members; return to work; employer contribution payments; exception; definitions**

A. Notwithstanding section 38-766.01, subsection E, beginning July 1, 2012, an employer shall pay contributions at an alternate contribution rate on behalf of a retired member who returns to work with an ASRS employer in any capacity in a position ordinarily filled by an employee of the employer or in a position that is similar in duties and responsibilities to that of a position ordinarily filled by an employee of the employer. This subsection applies to a retired member who has reached a normal retirement age or a retired member who retired under section 38-758 if the retired member's retirement benefit has not been suspended pursuant to section 38-766.

B. The ASRS actuary shall determine the alternate contribution rate in an annual valuation performed as of June 30. For the fiscal year beginning on July 1 of the following calendar year, the valuation shall determine the percentage to be applied to the compensation, gross salary or contract fee of a retired member who meets the requirements of this section.

C. The alternate contribution rate shall not be less than two percent in any fiscal year. The alternate contribution rate is equal to the lesser of:

1. The employer contribution rate established by the ASRS actuary pursuant to section 38-737 plus the employer contribution rate established by the ASRS actuary pursuant to section 38-797.06.

2. The total past service funding requirement rate established by the ASRS actuary pursuant to section 38-737 plus the total past service funding requirement rate established by the ASRS actuary pursuant to section 38-797.06.

D. ASRS shall determine the schedule and method of payment of the alternate contribution rate. Subject to section 38-738, subsection A, all contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay the expenses of ASRS. Payments made pursuant to this section by employers become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments as prescribed in section 38-711. ASRS may recover delinquent payments due under this section, together with interest charges as provided in this section, by action in a court of competent jurisdiction against an employer liable for payments or, at the request of the director, ASRS may deduct the delinquent payments and interest charges from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state.

E. An employer of a retired member shall submit any reports, data, paperwork or materials that are requested by ASRS and that are necessary to determine the compensation, gross salary or contract fee associated with a retired member who returns to work or to determine the function, utilization, efficacy or operation of the return to work program.

F. An employer is not required to pay contributions at an alternate contribution rate on behalf of a retired member under subsection A of this section if the retired member returns to work with the employer in a position that is currently filled by an employee of the employer who is an active member and for which the employer is currently required to pay and is paying contributions on behalf of the active member in that same position pursuant to sections 38-736 and 38-737. An employer may pay contributions at an alternate contribution rate for a retired member who meets the requirements for an exemption under this subsection.

G. For contributions made pursuant to subsection F of this section beginning July 1, 2019, if ASRS and the employer determine that the alternate contribution rate does not apply to a retired member who returns to work for whom the employer has paid contributions at the alternate contribution rate,

the employer may request an employer credit, not including interest, for those contributions within ninety days after the end of the fiscal year in which the contributions were paid. If ASRS determines that an employer credit is not feasible, ASRS shall issue a refund to an employer in a form determined by ASRS.

H. For the purposes of this section:

1. "Contract fee" means the gross amount paid to a retired member as an independent contractor minus an amount, not to exceed ten percent, for an administrative fee.
2. "Gross salary" means the gross amount paid to a retired member by a leasing company as salary or wages, including amounts that are subject to deferred compensation or tax shelter agreements, for services rendered or that would have been paid to the retired member except for the member's election or a legal requirement that all or part of the gross amount be used for other purposes.

**38-767. Benefit increases: applicability**

A. For a member whose membership commenced before the effective date of this amendment to this section, effective July 1 of each year, each retired member or beneficiary of a retired member is entitled to receive a permanent benefit increase in the base benefit equal to the amount determined in subsection D of this section if the retired member or beneficiary of a retired member was receiving benefits on or before July 31 of the previous calendar year. The annual permanent benefit increases shall be paid on a monthly basis. The benefit increase shall commence on July 1.

B. The total amount of the percentage increase provided in subsection A of this section shall not exceed four per cent in aggregate for all persons eligible for an increase. The percentage payable from excess investment earnings shall be determined as follows:

1. Determine any excess investment earnings account balance available.
2. Determine the total excess investment earnings as provided in subsection C of this section.
3. Add the amount determined in paragraph 1 of this subsection to the amount determined in paragraph 2 of this subsection.
4. Determine one per cent of the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
5. Divide the amount determined in paragraph 3 of this subsection by the amount determined in paragraph 4 of this subsection. If the quotient is equal to or more than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is four per cent. If the quotient is one or more but less than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is that per cent rounded to the nearest tenth of a per cent. If the quotient is less than one, no benefit increases shall be granted.

C. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are equal to the actuarial present value of benefits for all retired members and beneficiaries as of June 30 of the year prior to the year for which

an increase is being granted multiplied by the positive difference, if any, between the yield rate on the actuarial value of ASRS assets for the fiscal year that ended June 30 of the year prior to the year for which an increase is being granted and eight per cent. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are zero if the yield rate on ASRS assets is less than or equal to eight per cent.

D. The permanent benefit increase for each person entitled to receive an increase pursuant to subsection A of this section shall be determined based on years of credited service as follows:

1. Multiply the percentage determined in subsection B, paragraph 5 of this section by the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
2. Determine the actuarial present value of a one dollar per year of credited service annual increase in the base benefit amounts as of June 30 of the year prior to the year for which an increase is being granted, received by all persons entitled to receive an increase pursuant to subsection A of this section.
3. Divide the amount determined in paragraph 1 of this subsection by the amount determined in paragraph 2 of this subsection.
4. Multiply the amount determined in paragraph 3 of this subsection by the number of years of credited service for each retired member and the number of years of credited service earned by a retired member for each beneficiary entitled to receive an increase pursuant to subsection A of this section.

E. Any excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section from any year that are not used for benefit adjustments for that year are available for future benefit increases in the following years.

F. Monies available for future benefit increases shall earn interest at a rate of eight per cent per year. This interest shall be used to pay the additional benefit increases provided for in subsection G of this section.

G. In addition to a benefit increase pursuant to subsection A of this section, if a retired member who was eligible for an annual benefit increase pursuant to subsection A of this section had more than ten years of credited service, the retired member or beneficiary of the retired member is entitled to receive a benefit increase based on the number of years following retirement as follows:

1. At least five years but less than ten years, a monthly benefit increase equal to the amount determined in subsection H of this section.
2. At least ten years but less than fifteen years, a monthly benefit increase equal to two times the amount determined in subsection H of this section.
3. At least fifteen years but less than twenty years, a monthly benefit increase equal to three times the amount determined in subsection H of this section.

4. At least twenty years but less than twenty-five years, a monthly benefit increase equal to four times the amount determined in subsection H of this section.

5. At least twenty-five years but less than thirty years, a monthly benefit increase equal to five times the amount determined in subsection H of this section.

6. At least thirty years, a monthly benefit increase equal to six times the amount determined in subsection H of this section.

H. The amount of the monthly benefit increase under subsection G of this section for a retired member or beneficiary of a retired member who is entitled to the increase when at least five years but less than ten years have elapsed since the retired member's retirement date is equal to the amount obtained by dividing the amount of interest credited pursuant to subsection F of this section by the amount that equals the sum of:

1. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of one dollar per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least five years but less than ten years have elapsed since the retired members' retirement dates.

2. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of two dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least ten years but less than fifteen years have elapsed since the retired members' retirement dates.

3. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of three dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least fifteen years but less than twenty years have elapsed since the retired members' retirement dates.

4. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of four dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty years but less than twenty-five years have elapsed since the retired members' retirement dates.

5. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of five dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty-five years but less than thirty years have elapsed since the retired members' retirement dates.

6. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of six dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least thirty years have elapsed since the retired members' retirement dates.

I. A member of the defined contribution program administered by ASRS is only eligible for the benefit increases pursuant to this section if the member elects to transfer irrevocably from the defined

contribution program administered by ASRS to the defined benefit program established by this article.

J. The cost of the benefit increases granted pursuant to this section shall be added to the existing liabilities of ASRS.

K. As used in this section, the actuarial present value of benefits for retired members and beneficiaries does not include the value of benefits provided pursuant to section 38-783.

#### **38-768. Minimum retirement benefit**

A. Notwithstanding any other provision of this article, a retired member or beneficiary who is entitled to a benefit under this article shall receive at least a minimum monthly benefit that is computed pursuant to subsection B of this section if the retired member or beneficiary is at least seventy-five years of age and if the retired member or beneficiary is any of the following:

1. Retired from ASRS with at least twenty years of credited service.
2. A beneficiary of ASRS who is receiving benefits derived from a retired member who had at least twenty years of credited service.
3. A member with at least twenty years of service who irrevocably revokes the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elects to receive benefits under this article.
4. A beneficiary who is receiving benefits derived from a retired member who had at least twenty years of service, who irrevocably revoked the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elected to receive benefits under this article.

B. The minimum monthly benefit provided by subsection A of this section:

1. For retired members, is \$600.
2. For beneficiaries, is the amount determined by paragraph 1 of this subsection and reduced in accordance with the option chosen by multiplying the amount determined by paragraph 1 of this subsection by the actuarial figure for the option chosen and by the percentage of the option chosen.

C. If the minimum monthly benefit pursuant to subsections A and B of this section is more than the retired member's or beneficiary's current monthly benefit, the retired member or beneficiary is eligible to receive a monthly benefit equal to the minimum benefit. If the retired member's or beneficiary's current monthly benefit is more than the minimum benefit, the retired member's or beneficiary's benefit remains the same.

D. A member who receives a lump sum payment pursuant to section 38-764, subsection C is not eligible for a minimum benefit as provided by this section.

#### **38-769. Maximum retirement benefits; termination; definitions**

A. Notwithstanding any other provision of this article, except as provided in subsection C of this section, the employer provided portion of a member's annual benefit payable in the form of a straight life annuity, at any time within a limitation year, shall not exceed one hundred sixty thousand dollars or a larger amount that is effective as of January 1 of each calendar year, is prescribed by the board and is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount pursuant to this subsection as of the effective date of the increase as prescribed by the United States secretary of the treasury. Benefit increases provided in this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001 shall be provided to all current and former members who have benefits that are limited by section 415(b) of the internal revenue code and who have an accrued benefit under ASRS immediately before July 1, 2001, other than an accrued benefit resulting from a benefit increase solely as a result of the increases provided by this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001.

B. Notwithstanding the limitations of subsection A of this section, the benefits payable to a member are deemed not to exceed the limitations determined under subsection A of this section if the retirement benefits payable to the member under this article do not exceed ten thousand dollars for the limitation year and if an employer has not at any time maintained a defined contribution plan in which the member has participated.

C. The limitations determined under subsection A of this section are subject to the following adjustments:

1. If a member has less than ten years of membership in ASRS, the maximum dollar limitation determined under subsection A of this section shall be multiplied by a fraction, the numerator of which is the number of years, or partial years, of membership in ASRS and the denominator of which is ten. The reduction provided in this paragraph also applies to the ten thousand dollar floor limitation provided in subsection B of this section, except that the reduction applies to years of service with an employer rather than to years of membership in ASRS. The reduction in this paragraph does not reduce the limitations determined under subsection A of this section to an amount less than one-tenth of the limitations as determined without regard to this paragraph.

2. If the member's benefit under ASRS commences before the member reaches sixty-two years of age, the benefit will be limited to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for early retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight

life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity start date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-two, determined without applying the limitations of section 415 of the internal revenue code.

3. If the retirement benefit under ASRS commences after the member reaches sixty-five years of age, the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section on that benefit is increased to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) as adjusted under section 415(d) of the internal revenue code, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for delayed retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity starting date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-five, determined without applying the limitations of section 415 of the internal revenue code.

4. For purposes of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity and that is not subject to section 417(e)(3) of the internal revenue code must be adjusted to an actuarially equivalent straight life annuity that equals either:

(a) For limitation years beginning on or after July 1, 2007, the greater of the annual amount of the straight life annuity, if any, payable under ASRS at the same annuity starting date, and the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using an interest rate of five per cent and the applicable mortality table under section 417(e)(3) of the internal revenue code.

(b) For limitation years beginning before July 1, 2007, the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five per cent interest rate assumption and the applicable mortality table.

5. For the purpose of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity to which section 417(e)(3) of the internal revenue code would apply if that section of the internal revenue code were applicable to ASRS must be adjusted to an actuarially equivalent straight life annuity that equals:

(a) If the annuity starting date is in a plan year beginning on or after July 1, 2006, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest rate assumption and the applicable mortality table.

(iii) The applicable interest rate under section 417(e)(3) of the internal revenue code and the applicable mortality table, divided by 1.05. The stability period during which the applicable interest rate remains constant is the plan year. The look-back month that is used to determine the applicable interest rate during the stability period is the third full calendar month preceding the first day of the stability period. For the purposes of this item, "applicable interest rate" means the annual interest rate on thirty-year treasury securities as specified by the commissioner of the United States internal revenue service for a month in revenue rulings or notices or another guidance published by the commissioner in the internal revenue bulletin.

(b) If the annuity starting date is in a plan year beginning in July 1, 2004 or July 1, 2005, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit payable, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest assumption and the applicable mortality table.

(c) If the annuity starting date is on or after July 1, 2004 and before December 31, 2004, and ASRS applies the transition rule in section 101(d)(3) of the pension funding equity act of 2005 in lieu of the rule in subdivision (b) of this paragraph, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, determined in accordance with internal revenue service notice 2004-78.

6. When calculating the limitations of paragraph 4 or 5 of this subsection, the portion of any joint or survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code shall be disregarded.

D. Subsection C, paragraphs 1 and 2 of this section do not apply to income received from ASRS as a pension, annuity or similar allowance as a result of the recipient developing a disability by personal injury or sickness or to amounts received from ASRS by beneficiaries, survivors or the estate of a member as a result of the death of the member.

E. Notwithstanding any other provision of this section, the annual benefit payable under this article may be reduced to the extent necessary, as determined by the board, to prevent disqualification of ASRS under section 415 of the internal revenue code that imposes additional limitations on the annual benefits payable to members who also may be participating in another tax qualified pension or savings plan of this state. An employer shall not provide employee retirement or deferred benefits if the benefits authorized by this section and as required by federal law result in the failure of ASRS to meet federal qualification standards as applied to public pension plans. The board shall advise affected members of any additional information concerning their annual benefits required by this subsection. All benefits payable pursuant to this subsection shall comply with the limitations of benefits contained in section 415 of the internal revenue code and the final treasury regulations issued under that section. Notwithstanding any provision of this article to the contrary, if the annual benefits within the meaning of section 415 of the internal revenue code for any member exceed the limits of section 415(b) of the internal revenue code and this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

F. If the maximum amount of benefit allowed under section 415 of the internal revenue code is increased after the commencement date of a member's benefit due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to the provisions of section 415(d) of the internal revenue code, the amount of the monthly benefit payable under ASRS to a member whose benefit is restricted due to the provisions of section 415(d) of the internal revenue code shall be increased by the board as of the date prescribed by the United States secretary of the treasury on which the increase shall become effective. The increase shall reflect the increase in the amount of retirement income that may be payable under this article as a result of the cost of living adjustment.

G. In determining the adjustments to the defined benefit dollar limitation authorized by subsection A of this section, the board shall prescribe a larger defined benefit dollar limitation if prescribed by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. An adjustment to the defined benefit dollar limitation prescribed in subsection A of this section is not effective before the first calendar year for which the United States secretary of the treasury publishes the adjustment. After it is prescribed by the board, the new defined benefit dollar limitation applies to the limitation year ending with or within the calendar year for which the secretary of the treasury makes the adjustment.

H. For the purposes of the limitations prescribed by this section, all member and employer contributions made to ASRS to provide a member benefits pursuant to section 38-771 or 38-771.01 and all member contributions that are not treated as picked up by the employer under section 414(h)(2) of the internal revenue code shall be treated as made to a separate defined contribution plan.

I. On termination or partial termination of ASRS, the accrued benefit of each member is, as of the date of termination or partial termination, fully vested and nonforfeitable to the extent then funded.

J. If ASRS terminates, the benefit of any highly compensated employee as defined in section 414(q) of the internal revenue code and any highly compensated former employee is limited to a benefit that is nondiscriminatory under section 401(a)(4) of the internal revenue code and as follows:

1. Benefits distributed to any of the twenty-five active and former highly compensated employees with the greatest compensation in the current or any prior fiscal year are restricted so that the annual payments are no greater than an amount equal to the payment that would be made on behalf of the member under a straight life annuity that is the actuarial equivalent of the sum of the member's accrued benefit, the member's other benefits under ASRS, excluding a social security supplement as defined in 26 Code of Federal Regulations section 1.411(a)-7(C)(4)(ii), and the amount the member is entitled to receive under a social security supplement.

2. Paragraph 1 of this subsection does not apply if either:

(a) After payment of the benefit to a member described in paragraph 1 of this subsection, the value of ASRS assets equals or exceeds one hundred ten per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS.

(b) The value of the benefits for a member described in paragraph 1 of this subsection is less than one per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS before distribution.

(c) The value of the benefits payable by ASRS to a member described in paragraph 1 of this subsection does not exceed three thousand five hundred dollars.

K. For the purposes of subsection J of this section, "benefit" includes loans in excess of the amount prescribed in section 72(p)(2)(A) of the internal revenue code, any periodic income, any withdrawal values payable to a living member and any death benefits not provided for by insurance on the member's life.

L. On retirement of a member who was a retired member, who resumed active membership and who subsequently retires, the limitations of this section in effect on the member's subsequent retirement apply to the member's retirement benefit payable as recomputed pursuant to section 38-766. In

addition, the sum of the present value of the member's recomputed retirement benefits plus the present value of the benefits the member received during the member's prior retirement shall not exceed the present value of the limitations in effect on the member's subsequent retirement. The limitations prescribed in this subsection shall not reduce a member's retirement benefit below the retirement benefit the member was receiving before the member resumed active membership. For the purposes of determining present value under this subsection, the board shall use the actuarial equivalent assumptions provided in section 38-711, paragraph 2.

M. For the purposes of this section:

1. The following adjustments shall be made to the definition of compensation prescribed in subsection O of this section:

(a) Compensation shall be adjusted for the types of compensation that are prescribed in this paragraph and that are paid after a member's severance from employment with an employer. Amounts described in subdivisions (b), (c) and (d) of this paragraph may be included only as compensation to the extent the amounts are paid by the later of two and one-half months after severance from employment or by the end of the limitation year that includes the date of the severance from employment. Any other payment of compensation paid after severance of employment that is not described in the types of compensation prescribed in this paragraph is not considered compensation for purposes of this section, even if payment is made within the time period prescribed in this subdivision.

(b) Compensation shall include regular pay after severance of employment if the payment is regular compensation for services performed during the member's regular working hours or compensation for services performed outside the member's regular working hours, such as overtime or shift differential, commission, bonus or other similar payments, and the payment would have been paid to the member before a severance from employment if the member had continued in employment with the employer.

(c) Leave cash-outs shall be included in compensation if those amounts would have been included in compensation if they were paid before the member's severance from employment and the amounts are payment for unused accrued bona fide sick, vacation or other leave, but only if the member would have been able to use the leave if employment had continued.

(d) Deferred compensation shall be included in compensation if the compensation would have been included in compensation if it had been paid before the member's severance from employment and the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid at the same time if the member had continued in employment with the employer and only to the extent that the payment is includable in the member's gross income.

(e) Compensation does include payments to an individual who does not currently perform services for an employer by reason of qualified military service as defined in section 414(u)(5) of the internal revenue code to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(f) Compensation does not include compensation paid to a member who is a person with a permanent and total disability as defined in section 22(e)(3) of the internal revenue code.

(g) Compensation shall include amounts that are includable in the gross income of a member as required by section 409A or section 457(f)(1)(A) of the internal revenue code or because the amounts are constructively received by the member.

2. Compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

3. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate a member for lost wages are compensation for the limitation year to which the back pay relates, but only to the extent the payments represent wages and compensation that would otherwise be included in compensation under this section.

N. The definition of limitation year prescribed in subsection O of this section may only be changed by an amendment to subsection O, except that if ASRS is terminated effective as of a date other than the last day of the limitation year, the termination shall be treated as if this section has been amended to change the definition of limitation year.

O. For the purposes of this section:

1. Annual additions shall be determined as provided in section 38-747, subsection O.

2. "Annual benefit" means a benefit, including any portion of a member's retirement benefit payable to an alternate payee under a qualified domestic relations order that satisfies the requirements prescribed in section 414(p)(1)(A)(i) of the internal revenue code and section 38-773, payable annually in the form of a straight life annuity, disregarding the portion of a joint and survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code, with no ancillary or incidental benefits or rollover contributions and excluding any portion of the benefit derived from member contributions or other contributions that are treated as a separate defined contribution plan under section 415 of the internal revenue code but including any of those contributions that are picked up by the employer under section 414(h) of the internal revenue code, or that otherwise are not treated as a separate defined contribution plan. If the benefit is payable in another form, the determination as to whether the limitation described in subsection A of this section has been satisfied shall be made by the board by adjusting the benefit so that it is actuarially equivalent to the annual benefit described in this paragraph in accordance with the regulations promulgated by the United States secretary of the treasury. In addition, for determining the annual benefit attributable to member contributions, the factors described in section 411(c)(2)(B) of the internal revenue code and the regulations promulgated under the internal revenue code shall be used by the board regardless of whether section 411 of the internal revenue code applies to ASRS. The factors described in section 411(c)(2)(B) of the internal revenue code shall be those factors described under section 417(e)(3) of the internal revenue code and determined on the basis of the 417(e) mortality table and an interest rate as prescribed in subsection C, paragraph 5 of this section.

3. "Applicable mortality table" means the mortality table described in internal revenue service revenue ruling 2001-62.

4. "Compensation" means the member's earned income, wages, salaries, fees for professional service and other amounts received for personal services actually rendered in the course of employment with the employer and includes amounts described in sections 104(a)(3) and 105(a) of the internal revenue code, but only to the extent that these amounts are includable in the gross income of the member. Compensation also includes any elective deferral as defined in section 402(g)(3) of the internal revenue code and any amount that is contributed or deferred by an

employer at the election of a member and that is not includable in the gross income of the member by reason of section 125, 132(f)(4) or 457 of the internal revenue code. Compensation does not mean:

(a) Employer contributions to a plan of deferred compensation to the extent the contributions are not included in the gross income of the employee for the taxable year in which contributed and any distributions from a plan of deferred compensation, regardless of whether the amounts are includable in gross income of the employee when distributed, except that any amount received by a member pursuant to an unfunded nonqualified plan may be considered as compensation for the purposes of this section in the year the amounts are includable in the gross income of the member under the internal revenue code.

(b) Other amounts that receive special tax benefits, such as premiums for group term life insurance, but only to the extent that the premiums are not includable in the gross income of the employee, qualified transportation fringe benefits as defined in section 132 of the internal revenue code and, effective for plan years beginning from and after December 31, 1987, any amounts under section 125 of the internal revenue code that are not available to a member in cash in lieu of group health coverage because the member is unable to certify that the member has other health coverage.

5. "Defined benefit dollar limitation" means the dollar limitation determined under subsection A of this section.

6. "Defined benefit plan" has the same meaning prescribed in section 414(j) of the internal revenue code.

7. "Defined contribution plan" has the same meaning prescribed in section 414(i) of the internal revenue code.

8. "Limitation year" and "years of service" mean the fiscal year.

### 38-770. [Eligible rollover distribution: definitions](#)

A. Notwithstanding any other provision of this article that would limit a distributee's election under this section, a distributee may elect, at any time and in the manner prescribed by the board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

B. An eligible rollover distribution may commence less than thirty days after the notice required under section 402(f) of the internal revenue code is given to the distributee, provided that both:

1. ASRS clearly informs the distributee that the distributee has a right to a period of at least thirty days after receiving the notice to consider the decision of whether or not to elect a direct rollover.

2. The distributee, after receiving the notice, affirmatively elects a distribution.

C. In addition to the other elections allowed in this section, effective for distributions made from and after December 31, 2006, a designated beneficiary of a member who is not the member's surviving spouse may elect, at any time and in the manner prescribed by ASRS, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan described in subsection D,

paragraph 3, subdivisions (a) and (b) of this section. For the purposes of this subsection, "designated beneficiary" has the same meaning prescribed in section 38-775.

D. For the purposes of this section:

1. "Direct rollover" means a payment by ASRS to the eligible retirement plan specified by the distributee.

2. "Distributee" means a member, a member's surviving spouse or a member's spouse or former spouse who is the alternate payee under an acceptable domestic relations order as defined in section 38-773.

3. "Eligible retirement plan" means any of the following that accepts a distributee's eligible rollover distribution:

(a) An individual retirement account described in section 408(a) of the internal revenue code.

(b) An individual retirement annuity described in section 408(b) of the internal revenue code.

(c) An annuity plan described in section 403(a) of the internal revenue code.

(d) A qualified trust described in section 401(a) of the internal revenue code.

(e) An annuity contract described in section 403(b) of the internal revenue code.

(f) An eligible deferred compensation plan described in section 457(b) of the internal revenue code that is maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state and that agrees to separately account for amounts transferred into the eligible deferred compensation plan from ASRS.

(g) Beginning January 1, 2008, a Roth individual retirement account described in section 408A of the internal revenue code.

(h) For distributions made after December 18, 2015, a simple retirement account that satisfies the requirements of section 408(p) of the internal revenue code.

4. "Eligible rollover distribution" means distribution of all or any portion of the balance to the credit of the distributee but does not include any of the following:

(a) Any distribution that is one of a series of substantially equal periodic payments made not less frequently than annually for the life or life expectancy of the member or the joint lives or joint life expectancies of the member and the member's designated beneficiary or for a specified period of ten years or more.

(b) Any distribution to the extent the distribution is required under section 401(a)(9) of the internal revenue code.

(c) Except as provided in this paragraph, the portion of any distribution that is not includable in gross income. A distribution does not fail to be an eligible rollover distribution merely because the portion

consists of after-tax employee contributions that are not includable in gross income if the portion is paid only to an individual retirement account or annuity described in section 408(a) or 408(b) of the internal revenue code, to a qualified plan described in section 401(a) of the internal revenue code or an annuity contract described in section 403(b) of the internal revenue code that agrees to separately account for amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income.

(d) Any distribution that is made due to hardship of the member.

**38-771. Benefit options for transferred defined contribution program members: definitions**

A. On or before December 31, 1995 a nonretired ASRS member who was a member of the defined contribution program administered by ASRS and who was transferred to the defined benefit program established by this article on July 1, 1981 shall elect to receive either retirement benefits provided under this section or retirement benefits as otherwise provided by this article. An election under this subsection is irrevocable. A member who fails to make an election under this subsection is deemed to have elected to receive retirement benefits provided under this section.

B. A member who elects to receive retirement benefits provided under this section is eligible only for those benefits.

C. If a member elects to receive retirement benefits provided under this section, the member shall elect to receive retirement benefits based on either of the following:

1. The contributions paid by the member and member's employer, plus all earnings attributed to the member's retirement account, through the member's retirement date.
2. Except as provided in subsections E and F of this section, contributions paid by the member and member's employer at the contribution rate in effect before July 1, 1975 and an employee and employer contribution rate of seven per cent calculated from July 1, 1975, plus all earnings attributed to the member's retirement account, through the member's retirement date.

D. Notwithstanding sections 38-736 and 38-737, members who elect to receive retirement benefits provided under this section and their employers shall each make contributions at a rate of seven per cent of the member's compensation and, beginning on July 1, 1998, employers shall make contributions to ASRS on behalf of their respective members who have elected to receive retirement benefits provided under this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for those retired members and their dependents as provided under section 38-783. Member contributions pursuant to this subsection shall be salary reduction contributions pursuant to section 38-747, subsections C and D.

E. Subject to subsection F of this section, if a member desires to receive retirement benefits based on subsection C, paragraph 2 of this section, the member shall make the election on or before June 30, 1999 and during the member's active employment. The election shall be made in accordance with section 38-747, subsections C, D and H. If a member elects to receive retirement benefits based on subsection C, paragraph 2 of this section, both the member and the member's employer shall pay to ASRS the difference between the contributions made and seven per cent of the member's gross compensation from July 1, 1984 through December 31, 1995. If a member elects to have the member's employer make payments for all or a portion of the contributions pursuant to section 38-747, subsection D, the member's employer shall make the contributions as required by

section 38-747, subsection D. If a member elects to make contributions pursuant to section 38-747, subsection H, both the member and the member's employer shall pay to ASRS the portion of the difference between the total required contributions and that portion of the required contributions that the member has elected to have the member's employer pay pursuant to section 38-747, subsection D. The member's employer shall make the employer's contributions attributable to a member's period of employment before July 1, 1999 in a single lump sum payment at the time and computed in the manner prescribed in section 38-771.01, subsections G and H. If a member elects pursuant to subsection C, paragraph 2 of this section to have contributions made or to make contributions pursuant to section 38-747, subsection D or H for less than the full amount permitted by this subsection the member's benefits shall be computed only with reference to the contributions actually made. A member shall make an election pursuant to this section with respect to contributions to be made by the member before July 1, 1999. This election shall remain in full force and effect on and after July 1, 1999 and may be modified or revoked by the member only if the modification or revocation is specifically authorized in section 38-747. Section 38-771.01 governs any elections made by a member with respect to contributions to be made by the member to ASRS on or after July 1, 1999.

F. Contributions made to ASRS by a member and the member's employer pursuant to subsections D and E of this section shall not exceed, in any one limitation year, the limits of section 38-747, subsection E. If for any reason, the member and employer contributions to ASRS made pursuant to subsections D and E of this section would, at the time such contributions are due, taking into account other employer and member contributions due to ASRS for the limitation year, exceed the limits of section 38-747, the amount to be paid by the member and the member's employer under subsection E of this section shall be proportionately reduced and such reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days of the beginning of such limitation year, unless the limits of section 38-747 would again be exceeded, in which event this procedure will be repeated until all such contributions have been made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires prior to making all contributions under subsections D and E of this section because of the limitations of section 38-747, the member's benefits under this section shall be calculated only with reference to the contributions actually made. For purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

G. A member who elects to receive retirement benefits provided under this section is subject to the provisions of section 38-771.01, subsection K that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article.

H. ASRS shall handle all retirement accounts of members who elect retirement benefits provided under this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits provided under this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

I. The election of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

J. For purposes of this section:

1. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

2. "Retirement account" means the combined member and employer contributions with interest or earnings on the contributions including any allocations credited as employer contributions.

38-771.01. Alternative benefits for transferred defined contribution program members; definitions

A. A retired or nonretired ASRS member who was a member of the defined contribution program administered by ASRS, who was transferred to the defined benefit program established by this article on July 1, 1981, who is determined by ASRS to qualify under paragraph 1 of this subsection and who is not excluded under paragraph 2 of this subsection shall receive defined contribution benefits pursuant to this section, or, if greater, defined benefit retirement benefits pursuant to this article. A retired or nonretired ASRS member qualifies or is excluded under this section based on the following criteria:

1. A member is entitled to receive benefits under this section only if the member satisfies at least one of the following requirements:

(a) Is not retired as of July 1, 1999 even though the member may have previously elected to receive benefits under the defined benefit program established by this article, may have transferred employment between or among employers on or after July 1, 1981 or may have terminated employment on or after July 1, 1981 and after that termination date returned to employment with an employer.

(b) Retired on or after July 1, 1984 and elected to receive benefits under the defined benefit program established by this article.

(c) Retired on or after July 1, 1984 and is receiving benefits under the defined contribution program administered by ASRS.

2. Even if the member otherwise qualifies under paragraph 1 of this subsection, a member is not entitled to receive benefits under this section if any of the following applies to the member:

(a) The member retired before July 1, 1984.

(b) The member is entitled to receive benefits pursuant to section 38-771 and has paid to ASRS pursuant to section 38-771 before July 1, 1999 the entire amount that is attributable to service performed on or after July 1, 1984 and that is equal to the contribution rate of seven per cent of compensation, the contribution has been matched by an equal contribution to ASRS by the member's employers and all applicable earnings and supplemental credits have been credited for the member's account.

(c) The member withdrew the member's contributions from the defined contribution program administered by ASRS and, as of July 1, 1999, is not entitled to any benefit under the defined contribution program administered by ASRS.

(d) The member transferred the member's benefits under either the defined benefit program established by this article or the defined contribution program administered by ASRS to any other retirement system.

B. A beneficiary is entitled to receive benefits pursuant to this section only if the beneficiary satisfies the requirements of paragraph 1 of this subsection and is not excluded under paragraph 2 of this subsection based on the following criteria:

1. The beneficiary is a beneficiary of a retired or nonretired member who qualifies for benefits under subsection A, paragraph 1 of this section, is not excluded under subsection A, paragraph 2 of this section and as of July 1, 1999 either:

(a) Is receiving a monthly benefit from the defined benefit program established by this article or the defined contribution program administered by ASRS.

(b) Is living, is a survivor of a deceased retired or nonretired member and elected to receive a lump sum distribution of the survivor benefit that was payable on the death of the member.

2. Even if the beneficiary satisfies the requirements of paragraph 1 of this subsection, a beneficiary is not entitled to receive benefits under this section if the beneficiary is a beneficiary of a deceased retired member who elected a form of benefit under either the defined benefit program established by this article or the defined contribution program administered by ASRS that did not provide for survivor benefits after the death of the retired member.

C. A member or a deceased member's beneficiary who receives benefits pursuant to this section shall receive benefits based on the sum of the following:

1. Contributions paid by the member and the member's employer at the contribution rates in effect before July 1, 1984, together with all applicable earnings and supplemental credits on those contributions.

2. Contributions paid by the member's employer at the contribution rates in effect beginning on July 1, 1984 through the earlier of June 30, 1999 or the member's retirement or death, together with all applicable earnings and supplemental credits on those contributions computed through the earlier of June 30, 1999 or the member's retirement or death.

3. The excess of employer contributions computed at the rate of seven per cent of compensation beginning on July 1, 1984 through June 30, 1999 over the actual contributions paid by the member's employer as described in paragraph 2 of this subsection, together with all earnings and supplemental credits that would have been earned on those excess contributions computed from the date the contributions would have been paid to ASRS.

4. Contributions paid by the member at the contribution rate in effect on and after July 1, 1984, together with all earnings on those contributions.

5. With respect to member contributions that were not paid to ASRS before July 1, 1999 pursuant to section 38-771, subsection C, paragraph 2, forty per cent of the earnings that would have been credited on those contributions through the earlier of June 30, 1999 or the member's retirement or death as if those member contributions had been paid.

6. Contributions paid by the member to ASRS before July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with all earnings on those contributions.

7. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to an election under section 38-771, subsection C, paragraph 2 and subsection E, together with earnings on those contributions.

8. Contributions paid by the member to ASRS on or after July 1, 1999 pursuant to this section, together with earnings on those contributions.

9. Contributions paid by the member's employer to ASRS on or after July 1, 1999 pursuant to this section, together with all applicable earnings and supplemental credits on those contributions.

D. Effective on July 1, 1999, ASRS shall adjust the retirement account reserves under the defined contribution program administered by ASRS for retired members and the beneficiaries of deceased retired members entitled to benefits pursuant to this section to give effect to additional contributions, earnings and supplemental credits for those retired members prescribed in subsection C, paragraphs 1 through 6 of this section for the periods of the members' employment before July 1, 1999 and to give effect to the recomputation, adjustment and payment of benefits pursuant to subsection G of this section. After this recomputation, adjustment and payment, ASRS shall credit and charge these retirement account reserves with the amounts prescribed under the defined contribution program administered by ASRS based on the adjustments prescribed in this section.

E. Effective on July 1, 1999, ASRS shall adjust each nonretired member's accounts under the defined contribution program administered by ASRS to equal the sum of the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section with respect to periods of a member's employment before July 1, 1999. After the adjustment, these accounts shall accrue applicable interest and supplemental credits based on the entire amounts credited to the accounts.

F. For periods of a nonretired member's employment on or after July 1, 1999, a nonretired member who is entitled to receive benefits pursuant to this section and the nonretired member's employer shall each make contributions to ASRS at the rates established pursuant to sections 38-736 and 38-737, except as follows:

1. If a nonretired member made an election pursuant to section 38-771, subsection C, paragraph 2 and section 38-747, subsections C and D before July 1, 1999, the member's employer shall continue to make pickup contributions to ASRS on behalf of the member pursuant to the member's election, except that with respect to employer contributions that are required pursuant to section 38-771, subsection E for periods of a member's employment before July 1, 1999, the employer shall make a lump sum payment to ASRS as computed pursuant to subsection G of this section and required to be paid to ASRS pursuant to subsection H of this section.

2. If a nonretired member elected or was deemed to have elected benefits pursuant to section 38-771 before December 31, 1995, for periods of a member's employment from and after the election or deemed election the nonretired member's employer and the member shall each continue to pay to ASRS an amount equal to seven per cent of the member's compensation in lieu of the rates established pursuant to sections 38-736 and 38-737.

3. A nonretired member who is entitled to receive benefits pursuant to this section and who never elected to receive benefits pursuant to section 38-771 may elect pursuant to section 38-747, subsections C and D to make contributions at the rate of seven per cent of the member's compensation for periods of a member's employment on or after July 1, 1999. If a member makes an election pursuant to this paragraph, the election is irrevocable as provided in section 38-747,

subsection D and the member and the member's employer shall each make contributions at a rate of seven per cent of the member's compensation beginning on the effective date of the election.

4. A nonretired member who is entitled to receive benefits pursuant to this section may elect pursuant to section 38-747, subsections C, D and H to make contributions with respect to member contributions that were not made to ASRS but that could have been made pursuant to section 38-771, subsection C, paragraph 2 for periods of employment before July 1, 1999 other than member contributions for which an irrevocable election pursuant to section 38-747, subsections C and D was in effect before July 1, 1999.

5. In addition to any other employer contributions required pursuant to this section, a nonretired member's employer shall make contributions to ASRS on behalf of the nonretired member who will receive retirement benefits pursuant to this section to pay the actuarially determined amount necessary to provide the group health and accident insurance benefits for the nonretired member and the nonretired member's dependents as provided under section 38-783.

6. Notwithstanding any other provision of this article, an election permitted pursuant to this section shall not revoke, amend or alter any irrevocable election made by a member before July 1, 1999 pursuant to sections 38-747 and 38-771.

G. Effective on July 1, 1999, ASRS shall recompute the monthly and annual benefits for retired members entitled to receive benefits pursuant to this section and the monthly or lump sum survivor's benefits payable to beneficiaries entitled to receive benefits pursuant to this section. The recomputation of benefits shall be as if the member's retirement account or retirement reserve account on the date of retirement or death had been computed based on the amounts that would have been credited to the account as of that date based on the contribution amounts prescribed in subsection C, paragraphs 1 through 6 of this section. In addition and after recomputing benefits described in this subsection, with respect to members who retired on or after July 1, 1984, ASRS shall recompute the annual payments that would have been made to the member or beneficiary of a deceased member entitled to receive benefits under this section in excess of the annual payments actually made. The recomputation shall be calculated and paid as follows:

1. The recomputation shall be calculated and paid based on the member's and, if applicable, the member's beneficiary's age, the benefit option selected at the date of the initial benefit payments and the actuarial assumptions used by ASRS at the time the initial benefit payments were computed.

2. Before July 1, 2000, ASRS shall pay to the retired member or beneficiary in a lump sum the difference between the recomputed amount and the actual distributions paid to the member or beneficiary through July 1, 1999, together with interest at the rate of eight per cent a year, compounded monthly, computed from the date each excess payment should have been paid through the date of payment to the retired member or beneficiary.

3. If the retired member is living, ASRS shall pay the lump sum payment to the member. If the member is deceased and is survived by a beneficiary who is then living and receiving a monthly benefit on account of the deceased member, ASRS shall pay the lump sum payment to the beneficiary. The payment to the beneficiary shall include the recomputed amount that is payable pursuant to this section and that would have been paid to the member through the date of the member's death plus the recomputed amount that is payable pursuant to this section and that would have been payable to the beneficiary from the member's date of death. Section 38-770 applies to a payment to a member or the member's beneficiary who is the surviving spouse of the member, if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

4. With respect to a beneficiary who is a survivor of a deceased nonretired member who would have been entitled to benefits under this section and who elected a lump sum distribution of the survivor benefit that was payable on the death of the nonretired member, ASRS shall pay the recomputed amount in a lump sum to the beneficiary. If the beneficiary is the surviving spouse of the member, section 38-770 applies to the payment.

5. Effective on July 1, 1999, ASRS shall increase the member's or beneficiary's monthly and annual benefit to the recomputed amount. After that adjustment, ASRS shall adjust the member's or beneficiary's annual benefit as otherwise provided under the defined contribution program administered by ASRS.

H. Before July 1, 2002, the employer of each nonretired or retired member or deceased member who has a beneficiary entitled to adjustments and payments pursuant to subsections E and G of this section for periods of a member's employment before July 1, 1999 shall pay to ASRS in one or more installments those amounts required by ASRS to make the recomputations and adjustments pursuant to this section. ASRS shall determine the amount to be paid by the employer to ASRS as of July 1, 1999, plus interest at the rate of eight per cent a year, compounded monthly, from July 1, 1999 through the date the payment is made by the employer to ASRS. Any payments by the employer shall first be applied to accrued and unpaid interest and then to the amount to be paid by the employer to ASRS. ASRS shall allocate the payment to the assets maintained under the defined contribution program administered by ASRS. When determining the amounts required to be paid by employers for the recomputations and adjustments pursuant to this section, ASRS first shall transfer on July 1, 1999 from the assets maintained by ASRS under the defined benefit program established by this article to the assets maintained by ASRS under the defined contribution program administered by ASRS an amount equal to the sum of the defined benefit program equity balances of the retired and nonretired members or their beneficiaries whose benefits are transferred from the defined benefit program to the defined contribution program pursuant to this section, except that the amount transferred for any member or beneficiary shall not be more than the amount required to fund the recomputations and adjustments required by this section for the member or beneficiary. The defined benefit program equity balance for a member or beneficiary of a deceased member shall equal the sum of the member's employee and employer account balances on the earlier of June 30, 1999 or the member's retirement or death, less the monthly annuity payments to a retired member or beneficiary, plus the earnings on the average balance of that amount for a plan year.

I. If a member retired before July 1, 1999, elected to receive benefits pursuant to section 38-771, subsection C, paragraph 2 and did not make all contributions pursuant to section 38-771, subsection E because of the limitations prescribed in section 38-747, subsection E, the member has the option of receiving the employer contributions prescribed in subsection C, paragraphs 3 and 5 of this section in a lump sum payment. If the retired member elects to receive a lump sum payment, ASRS shall pay the amount on or before July 1, 2000 and the amount shall be deducted from the member's account when computing the annuity benefits to which the member is otherwise entitled pursuant to this section. In no case shall the payment under this subsection duplicate the payment under subsection G of this section. Section 38-770 applies to a payment to a member under this subsection if the payment is substantially larger or smaller than the monthly benefit payable by ASRS to the member.

J. Contributions made to ASRS by a member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall not exceed, in any one limitation year, the limits prescribed in section 38-747, subsection E. If for any reason the member and applicable employer contributions made pursuant to subsection F of this section would at the time the contributions are due, taking into account other annual additions due to ASRS for the limitation year, exceed the limits prescribed in section 38-747,

subsection E, the amount to be paid by the member and the member's employer pursuant to subsection F of this section, other than employer contributions required pursuant to subsections G and H of this section, shall be proportionately reduced and the reduction shall be carried into the succeeding limitation year and paid by the member and the member's employer within thirty days after the beginning of that limitation year, unless the limits prescribed in section 38-747, subsection E would again be exceeded. If the limits are exceeded again, the procedure prescribed in this subsection shall be repeated until all of the contributions are made. If more than one employer is contributing on behalf of a member, the reduction and contributions in succeeding years shall be proportionately allocated among the employers. If a member retires before making all contributions pursuant to this section because of the limitations prescribed in section 38-747, subsection E, the member's benefits pursuant to this section shall be computed only with reference to the contributions actually made. For the purposes of this subsection, "limitation year" has the same meaning prescribed in section 38-769.

K. Unless otherwise provided in this section, a member who receives retirement benefits pursuant to this section and section 38-771 is subject to conditions that are equivalent to those imposed before the member's transfer from the defined contribution program administered by ASRS to the defined benefit program established by this article. Those conditions include the following:

1. A member who attains sixty-five years of age may retire and, on application, shall receive a life annuity derived from the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity is payable in equal monthly installments. The amount of the installments is based on the age of the member at the date of commencement of retirement and is determined by the interest and life expectancy tables applicable at the date of the commencement of retirement.
2. If a retired member who is receiving retirement benefits pursuant to this section dies before receipt of annuity payments in an amount equal to the member's retirement account balance immediately before retirement, ASRS shall pay the member's designated beneficiary or estate in a lump sum the difference between the retirement account balance and the total amount of annuity payments received.
3. A member who attains sixty-five years of age with at least five years of creditable service may retire and, on application, may elect to receive in lieu of the annuity payments from the member's prior service, if any, together with a life annuity derived from the member's retirement account as provided in paragraph 1 of this subsection, the actuarial equivalent of those retirement benefits under one of the options established by the board.
4. A member who attains sixty years of age with at least five years of creditable service may retire and, on application, may receive a life annuity derived from the actuarial equivalent of the member's prior service credit, if any, together with a life annuity derived from the member's retirement account. The annuity shall be determined and paid in the manner set forth in paragraph 1 of this subsection.
5. In lieu of the retirement benefits pursuant to paragraph 4 of this subsection, on application, a member may elect to receive the actuarial equivalent of those retirement benefits under one of the options established by the board.
6. If a retired member who is receiving retirement benefits pursuant to this section is engaged to work by an employer for twenty or more weeks in a fiscal year and twenty hours or more a week, the member's retirement benefit payments pursuant to this section are suspended until the member terminates employment. On return to employment, the member shall accrue benefits pursuant to this

section, unless the member elects to be covered by the defined benefit program established by this article. If a formerly retired member elects to be covered by the defined benefit program established by this article, the formerly retired member shall be an active member in the defined benefit program with respect to all service performed after the member's return to work and shall not accrue additional benefits pursuant to this section. Notwithstanding the other provisions of this paragraph, if a retired member begins or returns to employment as an elected official or to any other type of service or employment that does not require the retired member to begin active membership in the defined contribution program administered by ASRS or the defined benefit program established by this article, the payment of retirement benefits pursuant to this section shall not be terminated, withheld or interrupted because of beginning or returning to the service or employment or holding the elected office, unless the formerly retired member actually elects to recommence active participation in the defined benefit program established by this article or pursuant to this section.

7. On termination of employment of a retired member previously receiving retirement benefits pursuant to this section, ASRS shall reinstate the member's retirement benefits pursuant to this section and, on reinstatement of retirement benefits, the benefit shall be recomputed on the basis of the member's attained age and shall be adjusted for retirement benefits previously received and additional contributions, interest and supplemental credits accrued during the period of employment. On this reinstatement of retirement benefits, if the member elected to be covered by the defined benefit program established by this article on the member's return to employment, the member is also entitled to receive retirement benefits pursuant to the defined benefit program established by this article for the credited service earned by the member after the member's active membership in the defined benefit program established by this article began.

L. ASRS shall handle all retirement accounts of members who elect retirement benefits provided pursuant to this section and all member and employer contributions attributable to those members in the same manner as retirement accounts and contributions that are part of the defined contribution program administered by ASRS. Retirement accounts of members who elect to receive retirement benefits pursuant to this section are eligible for interest and supplemental credits on the same basis as members who retired under the defined contribution program administered by ASRS.

M. The receipt of retirement benefits by a member pursuant to this section is a waiver of all claims and demands by the member that the retirement benefits are less than the amount of retirement benefits payable to the member under the defined contribution program administered by ASRS if the member had remained a member of the defined contribution program administered by ASRS.

N. The board may administer and interpret this section in order to prevent any duplication of benefits provided by ASRS and the defined contribution program administered by ASRS and to provide all eligible members and beneficiaries with the benefits they are entitled to under the laws of this state.

O. For purposes of this section:

1. "Beneficiary" means the individual designated by the member in writing on forms approved by ASRS to receive benefits pursuant to this article after the death of the member.

2. "Creditable service" means service after April 8, 1953 in a position not subject to the defined contribution program administered by ASRS, prior service and membership service.

3. "Member's employer" means an employer who compensated the member during a period when the member's contributions were less than seven per cent.

4. "Pension" means equal monthly installments that are derived from a member's prior service credits and that are payable during the member's lifetime after retirement.

5. "Prior service" means service for this state or a political subdivision before membership in the defined contribution program administered by ASRS.

6. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a pension on retirement.

7. "Retirement account" means the combined member and employer contributions with applicable interest and supplemental credits on the contributions as computed pursuant to subsection C of this section.

8. "Service" means any compensated employment by the state or a political subdivision and includes periods of nonpaid leave, including military leave, provided employment has not been terminated at the commencement of the leave period and employment is state service for retirement purposes or service for any political subdivision establishing a defined contribution program administered by ASRS.

#### 38-772. Prior service under defined contribution program administered by ASRS; definitions

A. Amounts required of employers as provided in section 38-737, subsections A and B are in addition to any payments required of employers on behalf of prior service credits under the defined contribution program administered by ASRS arising from members of ASRS. Payments made to ASRS on behalf of members with those prior service credits shall reduce by that amount the payments required to be paid to the defined contribution program administered by ASRS for those prior service credits.

B. Notwithstanding section 38-757, subsection B, any prior service credits to which the member was entitled under the defined contribution program administered by ASRS shall be added to the product of section 38-757, subsection B, paragraphs 1 and 2.

C. For the purposes of this section:

1. "Prior service" means service for this state or a political subdivision of this state before membership in the defined contribution program administered by ASRS.

2. "Prior service credits" means the amount that is allowed for services before membership in the defined contribution program administered by ASRS and that is payable as a retirement benefit.

#### 38-773. Benefit payments to alternate payee under acceptable domestic relations order; termination of marriage; revocation of beneficiary designation; definitions

A. The board shall review any domestic relations order to which a member is a party and that is submitted to the board to determine if the domestic relations order is acceptable under this section. After a determination that a domestic relations order is acceptable under this section, the board shall notify the member and the named alternate payee of the board's acceptance of the domestic relations order, and ASRS shall pay benefits in accordance with the applicable requirements of the order.

B. An acceptable domestic relations order shall:

1. Not require the board to provide any type, form or time of payment of severance, survivor or retirement benefits or any severance, survivor or retirement benefit option that is not provided under this article.
2. Value the member's benefit on the earliest date of service of the petition for annulment, dissolution of marriage or legal separation.

C. An acceptable domestic relations order shall specify all of the following:

1. The name and last known mailing address of the member.
2. The name and last known mailing address of each alternate payee who is covered by the order.
3. The method of determining the amount of the member's severance, survivor or retirement benefits to be paid by ASRS to each alternate payee covered by the order.
4. The number of payments or period to which the order applies.

D. Except as provided by the express terms of a domestic relations order, the divorce or annulment of a member's marriage revokes any revocable:

1. Disposition or appointment of benefits made by a divorced member to that member's former spouse or to a relative of the divorced member's former spouse in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse.
2. Provision in an instrument executed by the member before the divorce or annulment of the member's marriage to the former spouse conferring any power or right on the divorced member's former spouse or on a relative of the divorced member's former spouse.

E. ASRS shall give effect to provisions of an instrument executed by a member before the divorce or annulment of the member's marriage to a former spouse as follows:

1. In the case of disposition or appointment of benefits, as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section.
2. In the case of a revoked power or right, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

F. Provisions of an instrument revoked solely as provided by this section are revived by the divorced member's remarriage to the former spouse or by a nullification of the member's divorce or annulment.

G. If an alternate payee predeceases the member, amounts payable to the alternate payee cease on the death of the alternate payee. ASRS shall cause the amount formerly payable to the alternate payee to revert to the member.

H. For the purposes of this section:

1. "Domestic relations order" means any judgment, decree, order or approval of a property settlement agreement entered in a court of competent jurisdiction that:

(a) Relates to marital property rights of a spouse or former spouse.

(b) Creates or recognizes in the spouse or former spouse the existence of an alternate payee's right to severance, survivor or retirement benefits.

(c) Assigns the spouse or former spouse as alternate payee the right to receive all or part of the severance, survivor or retirement benefits payable to the member.

2. "Relative of the divorced member's former spouse" means a person who is related to the divorced member's former spouse by blood, adoption or affinity and who, after the divorce or annulment, is not related to the divorced member by blood, adoption or affinity.

### 38-774. Excess benefit arrangement

A. A separate unfunded governmental excess benefit arrangement is established outside of and apart from the trust fund established by section 38-712 to pay members benefits that are otherwise payable by ASRS and that exceed the limitations on benefits imposed by section 415 of the internal revenue code. The board shall administer this excess benefit arrangement as a qualified governmental excess benefit arrangement pursuant to section 415(m) of the internal revenue code.

B. The board may adopt rules to implement this section subject to the following:

1. Benefits under this section are subject to section 38-773 and section 38-791, subsections D and F and are exempt from execution to the same extent as provided in section 38-792.

2. Contributions to this arrangement are not held in trust and shall not be commingled with other monies of ASRS.

C. A member is entitled to a monthly benefit under this section in an amount equal to the amount that the member's benefit that is payable by ASRS has been reduced by the limitation on benefits imposed by section 38-769 and section 415 of the internal revenue code. The benefit that is payable by this arrangement shall be paid at such time or times and in such form as the benefit under ASRS would be paid.

D. The benefit that is payable under this section shall be paid with employer contributions that would otherwise be made to ASRS under section 38-737. In lieu of the employer contributions being paid to the trust fund established by section 38-712, an amount determined by ASRS as necessary to pay benefits under this section shall be paid on a monthly basis to a separate account established by the board for this arrangement and may include amounts needed to pay reasonable and necessary expenses of this arrangement. The director may invest the monies in this account in suitable short-term investments between receipt of the monies and disbursement of the monies. The amount shall be paid to the account at least fifteen days before a disbursement is to be made under this section.

E. A member shall not directly or indirectly elect to defer compensation to purchase benefits provided under this section.

F. This section shall not be construed as requiring an employer or ASRS to purchase any investment or any contract to secure any obligations under this section. If an employer or ASRS purchases an investment or contract that the employer or ASRS earmarks to pay benefits under this section, title to and beneficial ownership of the investment or contract remain at all times in the employer or ASRS, and the member and the member's beneficiaries, if any, do not have any proprietary interest in any specific assets of the employer or ASRS. Any rights of the member and the member's beneficiaries, if any, to payment of any amounts under this section shall be those of general unsecured creditors of the employer or ASRS. This section and any action taken pursuant to this section by the employer or ASRS do not create and shall not be construed to create an irrevocable trust of any kind.

### 38-775. Required distributions: definitions

A. This section applies for purposes of determining required minimum distributions for calendar years beginning on and after January 1, 2006. In applying the requirements of this section, the following operational provisions govern:

1. Except as provided in the following sentence, the requirements of this section take precedence over any inconsistent provisions of this article and article 2.1 of this chapter. The rules of this section shall not restrict any form, calculation, adjustment or payment of benefit provided under this article in effect on April 17, 2002, if the form, calculation, adjustment or payment of benefit satisfied section 401(a)(9) of the internal revenue code based on a reasonable and good faith interpretation of that section.

2. All distributions required under this section shall be determined and made pursuant to section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury.

3. Notwithstanding this section, other than paragraph 2 of this subsection, distributions may be made under a designation made before January 1, 1984, pursuant to section 242(b)(2) of the tax equity and fiscal responsibility act of 1982 (P.L. 97-248) and the provisions of this article that relate to that section.

B. The member's entire interest shall be distributed, or begin to be distributed, to the member not later than the member's required beginning date.

C. If the member dies before distributions begin, the member's entire interest shall be distributed, or begin to be distributed, not later than as follows:

1. If the member's surviving spouse is the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained seventy-two years of age, if later.

2. If the member's surviving spouse is not the member's sole designated beneficiary, except as provided in paragraph 4 of this subsection, distributions to the designated beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the member died.

3. For purposes of this subsection and subsection G of this section, distributions are considered to begin on the member's required beginning date or the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection. If annuity payments irrevocably commence to the member before the member's required beginning date, or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under paragraph 1 of this subsection, the date distributions are considered to begin is the date distributions actually commence.

4. If the member dies before distributions begin and there is a designated beneficiary, distribution to the designated beneficiary is not required to begin by the date prescribed in paragraph 1 or 2 of this subsection as long as the member's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth anniversary of the member's death. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to either the member or the surviving spouse begin, this paragraph applies as if the surviving spouse were the member.

D. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution, calendar year distributions shall be made pursuant to subsections E, F and G of this section. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions shall be made pursuant to the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury. Any part of the member's interest that is in the form of an individual account described in section 414(k) of the internal revenue code shall be distributed in a manner satisfying the requirements of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury that apply to individual accounts.

E. The following provisions govern the determination of the amount to be distributed each calendar year:

1. If the member's interest is paid in the form of annuity distributions, payments under the annuity shall satisfy the following requirements:

(a) The annuity distributions shall be paid in periodic payments made at intervals not longer than one year.

(b) The distribution period shall be over a life or lives or over a period certain not longer than the period described in subsection F or G of this section.

(c) Once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum allowed.

(d) Payments shall either be nonincreasing or increase only as follows:

(i) By an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the bureau of labor statistics.

(ii) To the extent of the reduction in the amount of the member's payments to provide for a survivor benefit on death, but only if the beneficiary whose life was being used to determine the distribution period described in subsection F of this section dies or is no longer the member's beneficiary

pursuant to a qualified domestic relations order within the meaning of section 414(p) of the internal revenue code.

(iii) To provide cash refunds of employee contributions on the member's death.

(iv) To pay increased benefits that result from a plan amendment.

2. The amount that must be distributed on or before the member's required beginning date or, if the member dies before distributions begin, the date distributions are required to begin under subsection C, paragraph 1 or 2 of this section, is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bimonthly, monthly, semiannually or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

3. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which the amount accrues.

F. The following provisions govern annuity distributions that commence during a member's lifetime:

1. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary, annuity payments to be made on or after the member's required beginning date to the designated beneficiary after the member's death must not at any time exceed the applicable percentage of the annuity payment for the period that would have been payable to the member using the table set forth in question and answer number 2 of section 1.401(a)(9)-6 of the regulations issued by the United States secretary of the treasury. If the form of distribution combines a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary and a period certain annuity, the requirement in the preceding sentence applies to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

2. Unless the member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the member's lifetime may not exceed the applicable distribution period for the member under the uniform lifetime table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the member reaches seventy years of age, the applicable distribution period for the member is the distribution period for seventy years of age under the uniform lifetime table set forth in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury plus the excess of seventy over the age of the member as of the member's birthday in the year that contains the annuity starting date. If the member's spouse is the member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the member's applicable distribution period, as determined under this paragraph, or the joint life and last survivor expectancy of the member and the member's spouse as determined under the joint and last survivor table prescribed in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the calendar year that contains the annuity starting date.

G. The following provisions govern minimum distributions if a member dies before the date distributions begin:

1. Except as provided in subsection C, paragraph 4 of this section, if the member dies before the date distribution of the member's interest begins and there is a designated beneficiary, the member's entire interest shall be distributed, beginning not later than the time prescribed in subsection C, paragraph 1 or 2 of this section, over the life of the designated beneficiary or over a period certain not exceeding either of the following:

(a) Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the member's death.

(b) If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

2. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's entire interest shall be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

3. If the member dies before the date distribution of the member's interest begins, the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies before distributions to the surviving spouse begin, this subsection applies as if the surviving spouse were the member, except that the time by which distributions must begin shall be determined without regard to subsection C, paragraph 1 of this section.

H. If a member dies after the member's required beginning date and the member had not commenced distribution of retirement benefits, ASRS shall treat the member as having commenced distribution of retirement benefits on the member's required beginning date. Notwithstanding section 38-776, ASRS shall determine the member's retirement benefit as a straight annuity as of the date of the member's required beginning date. The member's estate is entitled to the member's benefit payments and any remaining member contributions on account shall be disbursed pursuant to section 38-763.

I. For the purposes of this section:

1. "Designated beneficiary" means the individual who is designated as the member's beneficiary to receive benefits under this article and is the designated beneficiary under section 401(a)(9) of the internal revenue code and question and answer number 1 of section 1.401(a)(9)-4 of the regulations issued by the United States secretary of the treasury.

2. "Distribution calendar year" means a calendar year for which a minimum distribution is required. For distributions beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year that contains the member's required beginning date. For distributions beginning after the member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to subsection C of this section.

3. "Life expectancy" means life expectancy as computed by use of the single life table in section 1.401(a)(9)-9 of the regulations issued by the United States secretary of the treasury.

4. "Required beginning date" means the date payment of a member's benefits shall commence in accordance with section 401(a)(9)(C) of the internal revenue code.

### 38-776. Spousal waiver and consent

A. A member's current spouse may consent to one of the following requirements established in section 38-755 or 38-760 by signing and submitting an acknowledgement in a manner established by ASRS:

1. A change of beneficiary that provides the member's current spouse with less than fifty per cent of the member's account balance.

2. The member's retirement application that does not name the member's current spouse as a contingent annuitant of a joint and survivor annuity.

3. A change or rescission of the member's current spouse's contingent annuitant status.

B. If the member's current spouse is not capable of executing the acknowledgement because of an incapacitating mental or physical condition, a power of attorney or guardian may execute the acknowledgment on the current spouse's behalf.

C. The member may affirm in writing under penalty of perjury in a manner determined by ASRS that spousal consent is not required because of one of the following reasons:

1. The member is not married.

2. The member's current spouse has no identifiable community property interest in the member's benefits.

3. The member does not know, and has taken all reasonable steps to determine, the location of the member's current spouse.

4. The member has received notification from the board that a domestic relations order is acceptable pursuant to section 38-773 and that domestic relations order requires ASRS to pay benefits to an alternate payee that is contrary to the requirements of section 38-760.

5. Obtaining consent violates another law, an existing contract or a court order.

D. This section does not abrogate any community property laws of this state.

E. Payments or distributions made by ASRS in good faith reliance on the consent or waiver of a member's current spouse, the affirmations of a member contained in documents submitted to ASRS pursuant to this section or the member's indication to ASRS that the member is not married constitute a full and complete discharge and release of all liability of the board or ASRS, or both, respecting these payments or distributions.

F. If questions arise as to the distribution of a particular member's account, ASRS shall use reasonable judgment to distribute the account in a manner that is consistent with Arizona community property laws and interpretations of those laws.

38-781. Supplemental employee deferral plan; public employees; administration; immunity; definitions

A. One or more supplemental employee deferral plans may be established pursuant to this section to provide public employees an opportunity to save additional tax-deferred monies for retirement.

B. ASRS may establish, administer, manage and operate supplemental employee deferral plans for employers.

C. ASRS may:

1. Employ services it deems necessary, including legal services, for the operation and administration of the plans.

2. Administer the plans through contracts with multiple vendors.

3. Perform all acts, whether or not expressly authorized, that it deems necessary and proper for the operation and protection of the plans.

4. For the purposes of this section, enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3.

D. A supplemental employee deferral plan does not replace an employee's existing state defined benefit retirement plan.

E. If an employer, including this state, elects to participate in a supplemental employee deferral plan, any employee of the employer who meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan may participate in the supplemental employee deferral plan.

F. Notwithstanding subsection E of this section, on or after July 1, 2022, an employee of an employer who is not eligible to participate in a public retirement system established by article 3, 3.1, 4, 4.1 or 6 of this chapter may elect to participate in a supplemental employee deferral plan if the employee meets the eligibility requirements that are prescribed by ASRS for participation in the supplemental employee deferral plan.

G. Employee participation in a supplemental employee deferral plan requires the participant's employer to make salary reductions from the participant's compensation at no cost to the employee, ASRS or any vendor retained by ASRS and contribute such salary reductions to the plan. An employer may make employer contributions to the supplemental employee deferral plan if the plan allows. The employer shall submit any reports required by the plan. C. This section does not prohibit a member whose disability has been established to the satisfaction of the board from relying on treatment by prayer through spiritual means in accordance with the tenets and practice of a recognized church, religious denomination or Native American traditional medicine by a duly accredited practitioner of the church, denomination or Native American traditional medicine without suffering reduction or suspension of the member's monthly LTD program benefits.

The board shall correct any change or error and shall pay the appropriate monies to a member or shall recover monies from the member if the member is overpaid. 1. The prior system or plan shall calculate the amount equal to the actuarial present value of a member's projected benefits to the extent funded on a market value basis as of the most recent actuarial valuation under the prior system or plan as calculated by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer. If a system's or plan's market value is greater than one hundred per cent, the system or plan shall use a one hundred per cent market value.

2. The system or plan to which the member is transferring shall calculate the increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. This calculation shall be performed by that system's or plan's actuary using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements based on the transferring member's service credits at the time of transfer.

2. If the amount calculated in subsection B, paragraph 2 is less than or equal to the amount calculated in subsection B, paragraph 1, the prior system or plan shall transfer to the present system or plan the greater of the amount calculated in subsection B, paragraph 2 or the member's accumulated contribution account balance.

D. In the case of an applicant who has withdrawn the applicant's member contributions from another prior system or plan of this state, the applicant shall pay into the new system or plan to which the applicant is transferring an amount equal to the increase in the actuarial present value of the projected benefits provided by the service credits being redeemed and this amount shall be included in the member's current accumulated contribution account balance. This calculation shall be performed by the actuary of the system or plan to which the service credits are being transferred using the same actuarial method and assumptions used in calculating that system's or plan's funding requirements.

E. Service credits shall not be applied to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

F. A member electing to transfer to or redeem service with the public safety personnel retirement system, the elected officials' retirement plan or the corrections officer retirement plan pursuant to this section may pay for the service being transferred or redeemed in the form of a lump sum payment to the system or plan, a trustee-to-trustee transfer or a direct rollover of an eligible distribution from a plan described in section 402(c)(8)(B)(iii), (iv), (v) or (vi) of the internal revenue code or a rollover of an eligible distribution from an individual retirement account or annuity described in section 408(a) or (b) of the internal revenue code.

The system or plan to which the member is transferring shall calculate any increase in the actuarial present value of the projected benefits provided as a result of the transfer of the member's service credits. The actuary of the system or plan to which the service credits are being transferred shall perform this calculation using the actuarial method and assumptions recommended by the actuary and adopted by the governing body of the retirement system or plan.

C. If a member decides to transfer:

1. The prior system or plan shall transfer to the present system or plan the amount determined pursuant to subsection B, paragraph 1 of this section. If the amount calculated in subsection B, paragraph 2 of this section is greater than the amount determined in subsection B, paragraph 1 of this section, the transferring member shall either elect to pay the difference in order to receive all service credits earned under the prior system or plan or to accept a reduced transfer of service credits. If the member elects to pay the difference, the amount paid shall be added to the member's accumulated contribution account balance. If the member elects to accept a reduced transfer of service credits, the amount of service credits transferred shall be equal to the amount of service credits earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section multiplied by the ratio of the amount calculated under subsection B, paragraph 1 of this section to the amount calculated under subsection B, paragraph 2 of this section.

2. If the amount calculated in subsection B, paragraph 2 of this section is less than or equal to the amount determined in subsection B, paragraph 1 of this section, the current system or plan shall credit the member with service credits under the current system or plan equal to the service credit earned under the prior system or plan corresponding to the amount determined under subsection B, paragraph 1 of this section.

D. The retirement system or plan shall not apply service credits to the applicant's account until such time as complete payment is made to the retirement system or plan to which the applicant is transferring. On completion of the transfer provided for in this article, the member's rights in the retirement system or plan from which the member is transferring are extinguished.

# GOVERNOR'S REGULATORY REVIEW COUNCIL

## ATTORNEY MEMORANDUM - REGULAR RULEMAKING

---

**MEETING DATE:** March 5, 2024

**TO:** Members of the Governor's Regulatory Review Council (Council)

**FROM:** Council Staff

**DATE:** February 13, 2024

**SUBJECT: STATE RETIREMENT SYSTEM BOARD**  
Title 2, Chapter 8

**Amend:** R2-8-1001, R2-8-1003, R2-8-1004

---

### **Summary:**

This regular rulemaking from the Arizona State Retirement System Board (ASRS) seeks to amend two (2) rules in Title 2, Chapter 8, Article 10 related to Membership. Specifically, the ASRS seeks to amend its rules to clarify how an employer may join the ASRS to remove outdated references regarding 218 Agreements.

The ASRS indicates, in order to join the ASRS, an employer must provide Social Security 218 Agreements. However, the ASRS indicates 218 Agreements are currently managed by the Arizona Department of Administration, not the ASRS. The ASRS indicates clarifying how an employer may be eligible to join the ASRS and how an employer must provide 218 Agreement information will ensure that requests to join the ASRS are processed more efficiently. The ASRS indicates these rules will increase the clarity and effectiveness of the applicable 218 Agreement requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS processes requests to join the ASRS.

1. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The ASRS cites both general and specific statutory authority for these rules.

2. **Do the rules establish a new fee or contain a fee increase?**

This rulemaking does not establish a new fee or contain a fee increase.

3. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The ASRS indicates it did not review any study relevant to this rulemaking.

4. **Summary of the agency's economic impact analysis:**

The ASRS states that to join the ASRS, an employer must provide Social Security 218 agreements. ASRS states that the rulemaking will clarify how an employer may join the ASRS, thereby increasing understandability of what information is necessary to join the ASRS, thereby increasing the efficiency of the administration. Clarifying how an employer may be eligible to join the ASRS and how an employer must provide 218 Agreement information will ensure that requests to join the ASRS are processed efficiently. The ASRS believes the rule will have minimal economic impact, if any, because it merely updates outdated references regarding 218 Agreements. Stakeholders include the ASRS and all potential employers of the ASRS. The ASRS indicates it currently has a total membership of approximately 652,864 and 664 employers.

5. **Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?**

The ASRS believes this is the least costly and least intrusive method because it will clarify how an employer may join the ASRS.

6. **What are the economic impacts on stakeholders?**

The ASRS states that the rulemaking does not directly affect state agencies and does not provide any benefits or impose any costs on political subdivisions. They state no businesses, of any size, are directly affected by the rulemaking. The ASRS believes there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package.

7. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The ASRS indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register and the Notice of Final Rulemaking now before the Council.

8. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The ASRS indicates it received no public comments related to this rulemaking and no one attended the oral proceeding held on September 5, 2023.

9. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

Not applicable. The ASRS indicates the proposed amended rules do not require issuance of a permit.

10. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

Not applicable. The ASRS indicates there is no federal law applicable to these rules.

11. **Conclusion**

This regular rulemaking from the ASRS seeks to amend two (2) rules in Title 2, Chapter 8, Article 10 related to Membership. Specifically, the ASRS seeks to amend its rules to clarify how an employer may join the ASRS to remove outdated references regarding 218 Agreements.

The ASRS is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A). Council staff recommends approval of this rulemaking.

**9. A summary of the economic, small business, and consumer impact:**

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administers how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely updates outdated references regarding 218 Agreements.

None

**11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The rules do not require a permit.

No materials are incorporated by reference.

**ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT<sup>1</sup>**

**TITLE 2. ADMINISTRATION**

**CHAPTER 8. STATE RETIREMENT SYSTEM BOARD**

1. Identification of the rulemaking:

The ASRS needs to amend its rules relating to how an employer may join the ASRS to remove outdated references regarding 218 Agreements.

a. The conduct and its frequency of occurrence that the rule is designed to change:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. In order to join the ASRS, an employer must provide Social Security 218 Agreements. However, 218 Agreements are currently managed by Arizona Department of Administration, not the ASRS.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Without this rulemaking, employers will not have an adequate understanding of what information is managed by ASRS and necessary to join the ASRS. Notice of such information is necessary in order to ensure that employers have adequate notice of how to join the ASRS. By promulgating these rules, employers will have a better understanding of when they are eligible to join the ASRS and what information an employer must provide to the ASRS. Increasing understanding of such requirements will increase the employer's understanding of how to join the ASRS and reduce confusion, which will reduce burden on the public.

---

<sup>1</sup> If adequate data are not reasonably available, the agency shall explain the limitations of the data, the methods used in an attempt to obtain the data, and characterize the probable impacts in qualitative terms. (A.R.S. § 41-1055(C)).

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking will clarify how an employer may join the ASRS, thereby increasing understandability of what information is necessary to join the ASRS, thereby increasing the efficiency of the administration. Clarifying how an employer may be eligible to join the ASRS and how an employer must provide 218 Agreement information will ensure that requests to join the ASRS are processed more efficiently. As discussed above and below, these rules will increase the clarity and effectiveness of the applicable 218 Agreement requirements, which should result in reducing confusion, as well as any potential administrative delay caused by a misunderstanding of how the ASRS processes requests to join the ASRS.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

The ASRS promulgates rules that allow the agency to provide for the proper administration of the state retirement trust fund. ASRS rules affect ASRS members and ASRS employers regarding how they contribute to, and receive benefits from, the ASRS. The ASRS effectively administrates how public-sector employers and employees participate in the ASRS. As such, the ASRS does not issue permits or licenses, or charge fees, and its rules have little to no economic impact on private-sector businesses, with the exception of some employer partner charter schools, which have voluntarily contracted to join the ASRS. Thus, there is little to no economic, small business, or consumer impact, other than the minimal cost to the ASRS to prepare the rule package. The rule will have minimal economic impact, if any, because it merely updates outdated references regarding 218 Agreements.

**PREFACE**

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

**RULE HISTORY**

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

**AUTHENTICATION OF PDF CODE CHAPTERS**

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

**HOW TO USE THE CODE**

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

**ARIZONA REVISED STATUTE REFERENCES**

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

**RULES**

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

**PERSONAL USE/COMMERCIAL USE**

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

- B.** Upon a member's retirement on or after January 1, 2018, the ASRS shall compare the member's Baseline Salary to the Average Monthly Compensation for each consecutive 12 months of Compensation used to calculate the member's retirement benefit in order to determine whether an Employer utilized a Termination Incentive Program as defined in A.R.S. § 38-749(D)(1). This subsection only applies to members who earned the Compensation used to calculate the member's Baseline Salary, on or after July 1, 2005.
- C.** Upon determining that a Termination Incentive Program exists under subsection (B), the ASRS shall send a Request for Documentation to the Employer through the Employer's secure ASRS account, in order to notify the Employer that the ASRS has identified a Termination Incentive Program for a particular member and the Employer may be required to pay the ASRS for the unfunded liability resulting from the Termination Incentive Program, unless the Employer can prove the increase in the member's salary was the result of a Promotion.

  - 1. Submitting documentation through the Employer's secure ASRS account that shows the member's increase in Compensation was the result of a Promotion; or

- G.** If the Employer does not respond to the Request for Documentation within 90 days of the date on the Request for Documentation, the ASRS shall determine that the increase in the member's salary was not the result of a Promotion.
- H.** If the ASRS determines that the increase in the member's salary was not the result of a Promotion pursuant to subsections (F) or (G), the ASRS shall calculate the unfunded liability amount pursuant to subsection (I).
- I.** In consultation with the ASRS actuary, the ASRS shall use a determination under subsection (B) to calculate the unfunded liability resulting from the implementation of the Employer's Termination Incentive Program.
- J.** Upon calculating an unfunded liability amount pursuant to subsection (I), the ASRS shall send a Termination Incentive Program Liability Invoice to the Employer through the Employer's secure ASRS account, in order to notify the Employer of the unfunded liability amount the Employer shall owe to the ASRS as a result of implementing the Termination Incentive Program identified under subsection (B).
- K.** An Employer that owes an unfunded liability amount to the ASRS pursuant to A.R.S. § 38-749, shall remit full payment of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice.

B. Monies in the ASRS trust fund and the LTD trust fund established by section 38-797.02 are presumed abandoned if the apparent owner, as defined in section 44-301, has not communicated in writing with ASRS and has not otherwise indicated an interest in the monies for the three year period following the required beginning date of distributions pursuant to section 38-775.

C. At the time monies are presumed abandoned pursuant to subsection B of this section, any other property right accrued or accruing to the owner as a result of the interest in those monies, and not previously presumed abandoned, is also presumed abandoned.

D. Interest ceases to accrue on the monies on the date the monies are presumed abandoned.

E. Before monies are presumed abandoned, ASRS shall attempt to contact the apparent owner in writing. If the apparent owner is a member, beginning five years before the apparent owner's required beginning date of distributions pursuant to section 38-775 and for three years after that date, ASRS shall annually send a notice to the apparent owner notifying the apparent owner of the owner's eligibility for a retirement benefit. If the apparent owner is a beneficiary, beginning in the calendar year containing the fifth anniversary of the member's death and for three years, ASRS shall annually send a notice to the apparent owner notifying the apparent owner of the owner's eligibility for a survivor benefit. If this notice is returned by the postal authority as undeliverable, ASRS shall make a good faith attempt to locate the apparent owner, including contacting any known beneficiary on record with ASRS, searching public databases to identify the address of the apparent owner or using the services of a third-party address verification service. If the good faith attempt to locate the apparent owner fails and the base amount of the unclaimed monies is three hundred dollars or more, ASRS may use the services of a people search service. A fee imposed by the people search service shall not be deducted from the member's benefit and these expenditures are continuously appropriated and shall be paid from the administration account established pursuant to section 38-721 in the amount deemed necessary by the board.

F. If at any time an owner, as defined in section 44-301, establishes an entitlement in the monies, ASRS shall withdraw the monies from either the ASRS trust fund or the LTD trust fund, whichever is applicable, and pay the owner the monies or benefit to which the owner is entitled pursuant to this article or article 2.1 of this chapter, including interest at a rate determined by ASRS, if applicable.

A. A debtor who fails to pay any monies owed to ASRS is liable for all costs and expenses incurred by ASRS to collect the monies owed. ASRS may collect these expenses and costs at the time of collecting the monies owed to ASRS.

B. If a debtor neglects or refuses to pay a debt owed to ASRS after ASRS has made at least two separate attempts to collect the debt and not fewer than thirty days after ASRS determines a debt is owed, ASRS may collect the debt and such other sums as are sufficient to cover the expenses of the levy, by levy on:

1. Cash and cash equivalent property at financial institutions.

2. The accrued salary or wages of the debtor, by serving notice of levy on the chief disbursing officer of the debtor's employer.

C. The financial institution or the chief disbursing officer of the debtor's employer shall notify the debtor of the levy within five business days of the levy. The debtor may appeal the levy to ASRS.

D. The effect of a levy on salary or wages payable to or received by a debtor is continuous from the date the levy is first made until the liability out of which the levy arose is satisfied or becomes unenforceable. ASRS shall promptly release the levy when the liability out of which the levy arose is satisfied or becomes unenforceable and shall promptly notify the debtor on whom the levy was made that the levy has been released.

E. If a levy has been made or is about to be made, any person having custody or control of any books or records containing evidence or statements relating to the property subject to levy, on request from ASRS, shall exhibit the books or records to ASRS.

F. Except as otherwise provided in subsection D of this section, a levy extends only to property possessed and obligations existing at the time of the levy or within thirty days after the date of the levy. In any case in which ASRS may levy on property, ASRS may seize the cash property and may seize and convert cash equivalent property to cash.

G. For the purposes of this section:

1. "Financial institutions" means state and federally chartered banks, trust companies, federal and state savings and loan associations, federal and state credit unions, consumer lenders, international banking facilities and financial institution holding companies, insurance companies, benefit associations, safe deposit companies, money market mutual funds and similar institutions authorized to do business in this state and any party affiliated with these financial institutions.

ASRS, except the part of the property that is, at the time of the request, subject to an attachment or execution under any judicial process.

B. A person who fails or refuses to surrender any property subject to levy, on request by ASRS, is liable in person and estate to this state in a sum equal to the value of the property not so surrendered, but not exceeding the amount of debt for the collection of which the levy has been made, with costs and interest on the sum at the interest rate determined by the board from the date of the levy or, in the case of a levy described in section 38-723, subsection E, from the date the person would otherwise have been obligated to pay the amounts to the debtor. Any amount, other than costs, recovered under this subsection shall be credited against the debt for the collection of which the levy was made.

C. A person in possession of or obligated with respect to property subject to levy on which a levy has been made who, on request by ASRS, surrenders the property or discharges the obligation to ASRS is discharged from any obligation or liability to the debtor with respect to the property arising from the surrender or payment.

D. ASRS may release a levy on all or part of property levied on. The release shall not operate to prevent any subsequent levy.

E. If ASRS determines that property has been wrongfully levied on, ASRS shall return the specific property levied on or an amount of money equal to the value of the property levied on.

F. For the purposes of this section:

1. "Levy" includes the power of distraint and seizure by any means.

2. "Person" includes an officer or employee of a corporation, an officer, employee or elected official of this state or its political subdivisions, or any agency or instrumentality of this state or its political subdivisions, or a member or employee of a partnership, who as such officer, employee, elected official or member is under a duty to surrender the property or rights to property or to discharge the obligation.

B. The data exchanges shall include the name, address of record, social security number and any other identifying information for each person who maintains an account at the institution and who owes money as identified by ASRS by name and social security number.

C. ASRS or its agent may disclose a debtor's financial record under this section only in order to enforce the collection of the money the debtor owes to ASRS.

D. ASRS may pay a reasonable fee to a financial institution for conducting a data match. The fee shall not exceed the actual costs incurred by the financial institution.

E. For the purposes of this section "financial institutions" means state and federally chartered banks, trust companies, federal and state savings and loan associations, federal and state credit unions, consumer lenders, international banking facilities and financial institution holding companies, insurance companies, benefit associations, safe deposit companies, money market mutual funds and similar institutions authorized to do business in this state and any party affiliated with these financial institutions.

**38-727. Eligibility; options**

A. The following provisions apply to all employees hired on or after the effective date:

1. All employees and officers of this state and all officers and employees of political subdivisions establishing a retirement plan administered by the board pursuant to this article are subject to this article, except that membership is not mandatory:

(a) On the part of any employee who is eligible and who elects to participate in the optional retirement programs established by the Arizona board of regents pursuant to the authority conferred by section 15-1628 or by a community college district board pursuant to authority conferred by section 15-1451.

(b) For a state elected official who is subject to term limits, who is elected or appointed before January 1, 2014, who is eligible for participation in ASRS because the state elected official elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A and who elects not to participate in ASRS as provided in paragraph 7 of this subsection.

(c) On the part of any employee or officer who is eligible to participate and who participates in the elected officials' retirement plan pursuant to article 3 of this chapter, the elected officials' defined contribution retirement system pursuant to article 3.1 of this chapter, the public safety personnel retirement system pursuant to article 4 of this chapter or the corrections officer retirement plan pursuant to article 6 of this chapter.

2. All employees and officers of political subdivisions whose compensation is provided wholly or in part from state monies and who are declared to be state employees and officers by the legislature for retirement purposes are subject, on legislative enactment, to this article and are members of ASRS.

3. Any member whose service terminates other than by death or withdrawal from membership is deemed to be a member of ASRS until the member's death benefit is paid.

4. Employees and officers shall not become members of ASRS and, if they are members immediately before becoming employed as provided by this section, shall have their membership status suspended while they are employed by state departments paying the salaries of their officers and employees wholly or in part from monies received from sources other than appropriations from the state general fund for the period or periods payment of the employer contributions is not made by or on behalf of the departments.

5. Notwithstanding other provisions of this section, a temporary employee of the legislature whose projected term of employment is for not more than six months is ineligible for membership in ASRS. If the employment continues beyond six successive months, the employee may elect to either:

(a) Receive credit for service for the first six months of employment and establish membership in ASRS as of the beginning of the current term of employment if, within forty-five days after the first six months of employment, both the employer and the employee contribute to ASRS the amount that would have been required to be contributed to ASRS during the first six months of employment as if the employee had been a member of ASRS during those six months.

(b) Establish membership in ASRS as of the day following the completion of six months of employment.

6. A person who is employed in postgraduate training in an approved medical residency training program of an employer or a postdoctoral scholar who is employed by a university under the jurisdiction of the Arizona board of regents is ineligible for membership in ASRS.

7. A state elected official who is subject to term limits, who is elected or appointed before January 1, 2014 and who is eligible for participation in ASRS because the state elected official elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A may elect not to participate in ASRS. The election not to participate is specific for that term of office. The state elected official who is subject to term limits shall make the election in writing and file the election with ASRS within thirty days after the elected official's retirement plan mails the notice to the state elected official of the state elected official's eligibility to participate in ASRS. The election is effective on the first day of the state elected official's eligibility. If a state elected official who is subject to term limits fails to make an election as provided in this paragraph, the state elected official is deemed to have elected to participate in ASRS. The election not to participate in ASRS is irrevocable and constitutes a waiver of all benefits provided by ASRS for the state elected official's entire term, except for any benefits accrued by the state elected official in ASRS for periods of participation before being elected to an office subject to term limits or any benefits expressly provided by law.

8. A person may elect not to participate in ASRS if the person becomes employed by an employer after the person has attained at least sixty-five years of age, is not an active member, inactive member, retired member or receiving benefits pursuant to article 2.1 of this chapter and does not have any credited service or prior service in ASRS. The employee shall make the election not to participate in writing and file the election with ASRS within thirty days after employment. The election not to participate is irrevocable for the remainder of the person's employment for which the person made the election and constitutes a waiver of all benefits provided by the Arizona state retirement system. The period the person works is not eligible for purchase under section 38-743 or 38-744.

9. The following are ineligible for membership in ASRS:

(a) A person who performs services in a hospital, home or other institution as an inmate or patient at the hospital, home or other institution.

(d) A person who performs services for a school, college or university in this state at which the person is enrolled as a student, as defined by the employing institution. The employing institution

shall maintain an appeal process for a person who disagrees with the employing institution's determination that the person is a student and not eligible for membership in ASRS.

(e) A person who performs services under a program designed to relieve the person from unemployment.

B. The following elected officials are subject to this article if the member's employer is an employer under article 3 of this chapter:

1. A state elected official who is subject to term limits, who is elected or appointed on or before December 31, 2013 and who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability because the state elected official had previously elected not to participate in the elected officials' retirement plan as provided in section 38-804, subsection A.

2. An elected official, as defined in section 38-831, who is an active, an inactive or a retired member of ASRS or a member of ASRS with a disability, if the elected official's employer is a participating employer under this article and the elected official is eligible for ASRS service credit for the elected official's service.

#### 38-729. Political subdivision plans

A. The governing body of any political subdivision may adopt, by appropriate legislation, a supplemental retirement plan for employees and officers of the political subdivision. The supplemental retirement plan shall provide the same retirement benefits and require the same obligations for entitlement as are provided for other members under this article, except that:

1. The supplemental retirement plan shall specify the date of commencement of the supplemental retirement plan as the first day of the month following board approval of the supplemental plan of the political subdivision as provided in this section.

2. Employer and employee obligations shall be paid to ASRS in accordance with that date.

B. The governing body of the political subdivision shall submit the supplemental retirement plan to the board in the form of an agreement. The agreement shall state the terms of the supplemental retirement plan as provided in this section. The board shall either approve or disapprove the supplemental retirement plan submitted by the governing body of the political subdivision.

C. On approval, the board shall administer the supplemental plan of the political subdivision.

D. The employer's share of contributions and payments in excess of those required of the employer under section 38-737 shall be paid from monies of the political subdivision.

E. On establishment of the supplemental retirement plan the governing body of the political subdivision shall deduct member contributions in the same amounts and in the same manner as provided in this article for state employees and shall pay those contributions, together with the employer contributions for the political subdivision, to ASRS for deposit in the ASRS depository. The governing body of the political subdivision shall reimburse ASRS in a similar manner for its pro rata share of administrative costs attributable to coverage of employees of the political subdivision.

F. In addition to the employer contributions required under section 38-737, on establishment of the supplemental retirement plan the governing body of the political subdivision shall pay to ASRS the amount equal to the present value required to fund additional costs of benefits attributable to service for the political subdivision before the effective date of the supplemental retirement plan using the actuarial assumptions that are approved by the board. The board may authorize payments to be made at such times as the board requires and in amounts that are less than the amount required for fully funding the additional costs.

G. If the supplemental retirement plan is authorized by a political subdivision, then on or after the effective date of the supplemental retirement plan the governing body of the political subdivision and the board may sign an agreement to waive the provisions of subsection F of this section and to authorize benefits under the supplemental retirement plan only for service with the political subdivision after the effective date of the supplemental retirement plan. In lieu of waiving benefits for all service before the effective date of the supplemental retirement plan, the governing body of the political subdivision may elect to waive benefits for a portion of that service. Amendments to the agreement may increase but shall not reduce the service for which a member is entitled to benefits. The governing body of the political subdivision shall certify for each member the years of service before the effective date of the supplemental retirement plan for which the member is entitled to benefits. In addition to the employer contributions required in section 38-737, the governing body of the political subdivision shall pay to ASRS the amount, as determined by the board, required to fund the cost of the benefits attributable to service before the effective date of the supplemental retirement plan for which members are entitled to benefits.

H. The new political subdivision shall designate the classification of employees that is eligible for membership in ASRS and shall make contributions each year as provided in this section.

I. The liability of the political subdivision providing a supplemental retirement plan within ASRS arises in consideration of the officer's or employee's retention in or entrance into service for the political subdivision.

J. Notwithstanding any other law, an employee of a political subdivision who was previously a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that public employee retirement system for any period of employment is ineligible to receive service credit from ASRS for the same period of employment.

### 38-730. Charter city or ASRS retirement service credits; transfers

A. On application the retirement service credits of an employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS whose job functions are shifted by law from one employer jurisdiction to another shall be transferred to the retirement system of the new employer.

B. An employee of a charter city that is not an employer under ASRS or an employee of an employer that is an employer under ASRS who becomes employed by the other employer jurisdiction may apply to have the employee's retirement service credits transferred to the retirement system of the new employer. The retirement service credits of an employee of a charter city that is not an employer under ASRS shall not be transferred unless the governing body of that city approves the transfer. The retirement service credits of an employee of an employer that is an employer under ASRS shall not be transferred unless the board approves the transfer.

C. The transfer shall be made pursuant to section 38-922.

D. The accumulated retirement contributions of an employee whose retirement service credits are transferred that are paid to the retirement system of the new employer shall not be withdrawn by the employee unless the employee's employment terminates.

E. The retirement system to which the employee is transferring shall not apply service credits to the employee's account until such time as complete payment is made to the retirement system to which the employee is transferring. On completion of the transfer provided for in this section, the employee's rights in the retirement system from which the employee is transferring are extinguished.

### **38-735. Payment of contributions: recovery of delinquent payments**

A. All amounts deducted from a member's compensation as provided in section 38-736 and employer contributions required pursuant to section 38-737 shall be paid to ASRS for deposit in the ASRS depository.

B. Each employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS.

C. Payments made by employers pursuant to this article or article 2.1, 7 or 8 of this chapter become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments at an annual rate equal to the interest rate assumption approved by the board from time to time for actuarial equivalency. Delinquent payments due under this article or article 2.1, 7 or 8 of this chapter, together with interest charges as provided in this subsection, may be recovered by action in a court of competent jurisdiction against an employer that is liable for payments or, at the request of the director, may be deducted from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state. The employer shall record delinquent payments that are recovered or deducted from other monies pursuant to this subsection pursuant to applicable accounting and financial reporting standards.

### **38-736. Member contributions**

A. Member contributions are required as a condition of employment and shall be made by payroll deductions. Member contributions shall begin simultaneously with membership in ASRS. Beginning July 1, 2011, member contributions are a percentage of a member's compensation equal to the employer contribution required pursuant to section 38-737. Amounts so deducted by employers shall be deposited in the ASRS depository.

B. The employer shall pay the member contributions required of members on account of compensation earned. The paid contributions shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of the employer payment shall not be before the date ASRS has received notification from the United States internal revenue service that pursuant to section 414(h) of the internal revenue code the member contributions paid will not be included in gross income for income tax purposes until the paid contributions are distributed by refund or retirement benefit payments. The employer shall pay the member contributions from monies that are established and available in the retirement deduction account and that would otherwise have been designated as member contributions and paid to ASRS. Member contributions paid pursuant to this subsection shall be treated for all other purposes, in the same manner and to the same extent, as member contributions made before the approval of the United States internal revenue service pursuant to this section.

38-737. Employer contributions; prepayment; definitions

A. Employer contributions shall be a percentage of compensation of all employees of the employers who meet the eligibility requirements contained in this article, excluding the compensation of those employees who are members of the defined contribution program administered by ASRS, as determined by the ASRS actuary pursuant to this section for June 30 of the fiscal year immediately preceding the preceding fiscal year, except that beginning with fiscal year 2001-2002 the contribution rate shall not be less than two percent of compensation of all employees of the employers.

Beginning July 1, 2011 through June 29, 2016, the total employer contribution shall be determined on the projected unit credit method. Beginning June 30, 2016, the board shall determine the actuarial cost method pursuant to section 38-714. The total employer contributions shall be equal to the employer normal cost plus the amount required to amortize the past service funding requirement over a period that is determined by the board and consistent with generally accepted actuarial standards.

B. All contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay expenses of ASRS.

C. The required employer contributions shall be determined on an annual basis by an actuary who is selected by the board and who is a fellow of the society of actuaries. ASRS shall provide by December 1 of each fiscal year to the governor, the speaker of the house of representatives and the president of the senate the contribution rate for the ensuing fiscal year and the unfunded actuarial accrued liability, the funded status based on the actuarial value of assets and market value of assets and the annualized rate of return and the ten-year rate of return as of June 30 of the prior fiscal year.

D. Notwithstanding any other provision of this article, an employer may prepay the employer's 401(a) pension contributions directly to ASRS according to a written agreement between the employer and ASRS as follows:

1. 401(a) pension contributions that the employer prepays according to this subsection may be deposited, as determined by the employer and managed by ASRS, directly in either the ASRS trust fund established by section 38-712 or a section 115 trust.

2. ASRS shall determine the following options available to the employer:

(a) The amortization time periods.

(b) The frequency and dates that prepayments can be made.

(c) The maximum and minimum amounts of 401(a) pension contributions that the employer can prepay.

(d) Any other options or obligations that the employer may have when entering into this written agreement.

3. The earnings accrual rate shall be the ASRS total 401(a) pension fund rate of return, or the actual rate of return of a short-term investment through ASRS, as requested by the employer and agreed to by ASRS.

4. The 401(a) pension contributions the employer prepays and the accrued earnings shall be managed at the discretion of ASRS subject to section 38-718.
  5. 401(a) pension contributions that the employer prepays and accrued earnings may be used solely to reduce the employer's future 401(a) pension contributions as required from the employer pursuant to this section and section 38-735.
  6. The employer shall determine when to use the 401(a) pension contributions the employer prepays and the accrued earnings from those 401(a) pension contributions.
  7. ASRS shall provide the employer an annual statement of 401(a) pension contributions the employer prepaid and the accrued earnings.
  8. Notwithstanding any other provision of this subsection, an employer may not prepay 401(a) pension contributions according to this subsection either:
    - (a) In an amount greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
    - (b) After the total of the unamortized prepaid 401(a) pension contributions and the accrued earnings is equal to or greater than the employer's net pension liability as reflected by ASRS in its most recent applicable governmental accounting standards report.
  9. After an employer elects amortization terms, ASRS shall provide the employer an amortization schedule annually that is current and based on the employer's election.
  10. If ASRS determines to no longer offer the option of prepaying the employer's 401(a) pension contributions directly to ASRS, any 401(a) pension contributions the employer prepays and the accrued earnings remaining on account shall be used for future obligations according to the written agreement between the employer and ASRS.
  11. Assets transferred in or out of or held in the ASRS trust fund established by section 38-712, or a section 115 trust, and the accrued earnings are exempt from state, county and municipal taxes.
  12. The legislature intends that the accrued earnings not be subject to federal income tax. ASRS may adopt additional rules, policies and procedures as ASRS deems necessary or appropriate to fulfill the legislature's intent that the accrued earnings not be subject to federal income tax.
  13. If ASRS receives notification from the United States internal revenue service that this subsection or any portion of this subsection will jeopardize the tax-exempt status of the 401(a) pension contributions the employer prepays according to this subsection and the accrued earnings, the portion of this subsection that will cause the disqualification does not apply.
- E. In addition to the requirements of subsection D of this section, any prepayment agreement made between ASRS and this state or any state agency is subject to the following requirements:
1. Any prepayment amounts deposited with ASRS must be from an appropriation specifically for that purpose that is passed by the legislature and signed by the governor.

2. Any prepayment amounts or accrued earnings used to reduce the employer's 401(a) pension contributions must be authorized for a specific fiscal year by legislation that is passed by the legislature and signed by the governor.

### 38-738. Adjustment and refund

A. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of fact, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit or, if the request is made within one year after the date of overpayment, shall return the contributions to the employer. ASRS may not pay an employer earnings attributable to the excess contributions but shall reduce the amount returned to an employer pursuant to this subsection by the amount of losses attributable to the excess contributions. If more than the correct amount of employer or member contributions is paid into ASRS by an employer through a mistake of law, ASRS shall provide the employer with an employer credit against future contributions if the employer requests an employer credit. On receipt of an employer credit or return of contributions pursuant to this subsection, the employer shall return any member portion of the returned contributions to the member.

B. If less than the correct amount of employer or member contributions is paid into ASRS by an employer, the following apply:

1. The member shall pay an amount that is equal to the amount that would have been paid in member contributions for the period in question. For active members, payments shall be made as provided in section 38-747. For members who are inactive, retired or on long-term disability, payments shall be made using after-tax income and a personal check, cashier's check or money order. If the member does not make the payment within ninety days after being notified by ASRS that the employer has paid all amounts due from the employer, the unpaid amount accrues interest until the amount is paid in full. The member is responsible for payment of the unpaid amount and interest. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

2. If the member contributions to ASRS made pursuant to this subsection exceed the limits prescribed in section 38-747, subsection E when taking into account other annual additions of the member for the limitation year, the amount to be paid by the member shall be adjusted as provided in section 38-747. For the purposes of this paragraph, "limitation year" has the same meaning prescribed in section 38-769.

3. The employer shall pay to ASRS an amount equal to the amount that would have been paid in employer contributions for the period in question together with accumulated interest that would have accrued on both the employer and member contributions due. If the employer does not remit full payment of all employer contributions and all interest due within ninety days after being notified by

ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

4. On satisfaction of the requirements of this subsection, the member's salary history on the records of ASRS shall be adjusted and any additional service credits acquired by the member shall be reinstated.

5. If the member retires before all contributions are made pursuant to this subsection, the member's benefits shall be calculated only based on the contributions actually made.

6. Annual additions shall be determined as provided in section 38-747, subsection O.

7. The initiator of the request for correction of salary history and service credits on records of ASRS is responsible for providing credible evidence of past employment and compensation to ASRS in a form or forms that would lead a reasonable person to conclude that a period of employment occurred under circumstances that made the employee eligible for membership in ASRS during that period. A determination of eligibility by ASRS may be appealed to the ASRS board in a manner prescribed by the board.

8. A member who previously received a return of contributions pursuant to section 38-740 may receive an adjustment of employer contributions or service credits pursuant to this section only for qualifying employment and compensation that occurred after the member's most recent return of contributions pursuant to section 38-740.

C. Subsection B of this section applies to eligible verified service that occurred less than or equal to fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made.

D. Eligible verified service that is more than fifteen years before the date the initiator of the request for correction of salary history and service credits on the records of ASRS provides ASRS with credible evidence in writing that less than the correct amount of contributions was paid into ASRS or ASRS otherwise determines that less than the correct amount of contributions was made is considered public service credit. The member may purchase this service pursuant to section 38-743.

E. Notwithstanding any other law, an employer may correct a contributions error pursuant to subsection B of this section by making payment adjustments through the employer's payroll reporting for the contributions that were not submitted if both of the following apply:

1. The adjustment is made within the same fiscal year that the contributions were due to ASRS.

2. The employer obtains written consent from the employee to make the adjustment to the employee's paycheck.

F. Notwithstanding any other law, if an employer pays less than the correct amount of employer or member contributions into ASRS, the correct amount of member contributions may not be paid to ASRS after the death of the member.

### 38-739. Credited service

- A. A member shall not earn more than one year of credited service in any fiscal year.
- B. A member shall earn proportionate credited service for each month for which the member performs service and is compensated equal to the ratio that the month bears to the number of months in the member's service year.
- C. If a member is compensated for less than a full service year, the member shall earn credited service equal to the ratio that the number of months actually compensated bears to the number of months in the full service year.
- D. If a member holds two or more concurrent contracts in any fiscal year, credited service shall be determined on the basis of the terms of the contract with the longest term.
- E. Members on sabbatical leave for which they are paid on a full or partial basis shall make appropriate contributions while on sabbatical leave and are considered to be employed full time.

Consistent with the compliance statement issued by the United States internal revenue service, an employee who is employed with an ASRS employer in a position that was exempt from ASRS membership because the position was not included in agreements providing for the employee's coverage under the federal old-age and survivors insurance system but on whose behalf the employer has remitted ASRS contributions shall retain credited service for the period of employment for which the employer remitted ASRS contributions on the employee's behalf.

### 38-740. Return of contributions

- A. A member whose membership commenced before July 1, 2011 and who leaves employment other than by retirement or death may elect to receive a return of the contributions as follows:
  - 1. If the member has less than five years of credited service, ASRS shall disburse all of the member's contributions.
  - 2. If a member has five or more years of credited service, ASRS shall disburse the member's contributions and an amount equal to a percentage of the employer contributions paid on behalf of the member. This amount excludes payments made by an employer pursuant to section 38-738, subsection B, paragraph 3, unless the member has made the payment required by section 38-738,

subsection B, paragraph 1. The percentage of employer contributions paid on behalf of the member shall be as follows:

C. Notwithstanding subsection B of this section, if a member has five or more years of credited service and the member is terminated solely because of an employer reduction in force by reason of a lack of monies or elimination of the member's position, the member is entitled to receive the amounts prescribed in subsection A of this section.

D. Withdrawal of contributions with interest constitutes a withdrawal from membership in ASRS and results in a forfeiture of all other benefits under ASRS.

E. If ASRS has disbursed an overpayment pursuant to section 38-765 or 38-797.08, ASRS shall withhold the overpayment amount plus any required income tax withholding from the return of contributions.

F. Notwithstanding any other provision of this article, a member who has not received a return of contributions pursuant to this section may combine any two or more periods of service for purposes of determining the member's benefits.

G. If ASRS disburses more than the amount due to a member or an alternate payee pursuant to this section, the person who received the overpayment shall repay the amount of the overpayment together with interest at the interest rate earned on ASRS investments as reported on a quarterly basis, but not less than the valuation rate established by the board, from the time of overpayment to the settlement of the debt.

#### **38-741. Reemployment of inactive member**

A. ASRS shall return to active status an inactive member who terminates employment with an employer without terminating membership in ASRS and who later is reemployed by the same or another employer.

B. On retirement, ASRS shall disburse benefits derived from service for all employers that employed the member.

C. Retirement benefits attributable to service before membership in ASRS, if any, shall be paid only by the employer from which the retiring member obtained entitlement to the benefits as provided in section 38-729.

#### 38-742. Reinstatement

A. If an active member who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, is subsequently reemployed by an employer, the member's service shall be credited only from the date the member's most recent reemployment period commenced.

B. Notwithstanding subsection A of this section, the member may redeposit the amount of the contributions the ASRS paid at the time of the member's separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. On satisfaction of this obligation, the member's service credits acquired by the previous employment shall be reinstated. The member is subject to the benefits and duties in effect at the time of the member's most recent reemployment except as provided in section 38-711, paragraph 5, subdivision (a). If a member redeposits less than the amount required under this subsection, ASRS shall proportionately reduce the member's reinstated service credits.

C. A member who is receiving benefits pursuant to section 38-797.07 and who received a return of contributions on termination of employment and by receipt of those contributions forfeited credited service earned on that employment, as provided in section 38-740, subsection A or B, may redeposit the amount of the contributions the ASRS paid at the time of the member's previous separation from service, with interest on that amount to the date of redeposit at the interest rate assumption approved by the board for actuarial equivalency. For a member whose membership date is on or after July 20, 2011, the member may receive not more than sixty months of credited service.

B. A member who elects to receive credit for service with the United States government, a state, territory, commonwealth, overseas possession or insular area of the United States or a political subdivision of a state, territory, commonwealth, overseas possession or insular area of the United States shall pay to ASRS an amount equal to the present value of the additional benefit that is

derived from the purchased credited service using the actuarial assumptions that are approved by the board.

C. A member who previously was a member of another public employee retirement system and who receives or is eligible to receive retirement benefits from that system for any period of employment is ineligible to receive retirement benefits from ASRS for the same period.

2. At the time the credit is requested the member is an active member of ASRS, receiving benefits pursuant to section 38-797.07 or a former active member of ASRS who has not withdrawn contributions from ASRS pursuant to section 38-740 and who was unable to resume employment because a position is not available.

3. The member returns to employment with the same employer, unless employment could not be resumed because of disability or a position was not available.

D. An active member of ASRS who is called to active military service may receive credited service for not more than sixty months of active military service, except as provided by the uniformed services employment and reemployment rights act (38 United States Code section 4312(c)). F. Notwithstanding any other law, on payment of the contributions made pursuant to subsection D of this section, the member shall be credited with service for retirement purposes for the period of time of active military service of not more than sixty months.

G. The employer shall make contributions pursuant to subsection D of this section as follows:

1. Contributions shall be based on the compensation that a member would have received but for the period that the member was ordered into active military service.

2. If the employer cannot reasonably determine a member's rate of compensation for the period that the member was ordered into active military service, the employer shall make contributions based on the member's average rate of compensation during the twelve-month period immediately preceding the period of active military service.

3. If a member has been employed less than twelve months before being ordered into active military service, the employer shall make contributions based on the employment period immediately preceding the period of active military service.

4. Employer contributions shall be made in a lump sum and without penalty when the member returns to employment, when it is determined that the member is unable to return to employment because of a disability as a result of or that occurred during military service or on receipt of the member's death certificate. #### 38-746. Compensation limitation: adjustments

A. Except as provided in subsection E, beginning on July 1, 2002, the annual compensation of each employee taken into account under ASRS for any fiscal year or for any other specified twelve consecutive month period shall not exceed two hundred thousand dollars. In determining benefit accruals under ASRS for fiscal years beginning after December 31, 2001 and except as provided for in subsection E, the annual compensation limit under this subsection for fiscal years beginning before January 1, 2002 is two hundred thousand dollars.

B. If compensation under ASRS is determined on a period of time that contains fewer than twelve calendar months, the compensation limit for that period of time is equal to the dollar limit for the calendar year during which the period of time begins, multiplied by the fraction in which the numerator is the number of full months in that period of time and the denominator is twelve.

C. For fiscal years beginning before July 1, 1997, the annual compensation limit prescribed in this section also applies to the combined compensation of a member who is a member of the group of ten highly compensated employees, as defined in section 414(q) of the internal revenue code, and who is paid the highest compensation during the fiscal year and any family member of the member who is either the member's spouse or the member's lineal descendant and who has not attained the age of nineteen before the close of the fiscal year. If the maximum compensation is adjusted pursuant to subsection D, the adjusted limitation shall be prorated among the affected members' compensation determined pursuant to this section before application of the adjusted limitation to the other provisions of this article.

D. The board shall adjust the maximum compensation under subsection A at the same time and in the same manner as adjusted by the United States secretary of the treasury under section 401(a)(17)(B) of the internal revenue code. The adjustment under this subsection for a calendar year applies to annual compensation for the fiscal year of ASRS that begins with or within the calendar year.

E. The dollar limitation prescribed in subsection A does not apply to an eligible member to the extent that the annual compensation of an eligible member taken into account by ASRS for any fiscal year or for any other specified twelve consecutive month period would be reduced below two hundred thirty-five thousand eight hundred forty dollars. This was the amount of compensation taken into account by ASRS as of July 1, 1993. The board shall adjust this amount as of the effective date of the increase prescribed by the United States secretary of the treasury. For the purposes of this subsection, "eligible member" means a person who first became a member of ASRS before July 1, 1996.

#### 38-747. Purchase of credited service; payment; limitations; definitions

A. A member who purchases credited service pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 shall either:

1. Make payments directly to ASRS as provided in subsection H of this section.
2. Elect to have the member's employer make payments as provided in subsection B of this section.

B. A member may elect to have the member's employer make payments for all or any portion of the amounts payable for the member's purchase of credited service pursuant to the sections prescribed in subsection A of this section through a salary reduction program in accordance with the following:

1. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The electing member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection. For the purposes of this paragraph, "other compensation" includes a member's termination pay.

2. The member shall make an election pursuant to this subsection at any time on or after the date the member elects to purchase credited service pursuant to the sections prescribed in subsection A of this section and before the member's termination of employment. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. In the case of an election to utilize all or any part of the member's termination pay to purchase credited service, the member's election shall be made at least three full calendar months before the date of the member's termination of employment and entitlement to receive the termination pay. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of current employment. After a member makes an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. For the purposes of this paragraph, "termination pay" means any lump sum that is paid at the member's termination of employment for accrued vacation, sick leave or overtime pay.

3. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's purchase of credited service may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's purchase of credited service. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's purchase of credited service does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's purchase of credited service.

4. If on termination of the member's employment with an ASRS employer all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection. ASRS shall not grant credited service for contributions made pursuant to this subsection until those contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any salary reduction election made pursuant to this subsection. The interest or administrative charges shall be added to the amount of contributions that is made to ASRS by the member each payroll period and that is paid by the member's employer. The interest or administrative charges shall not be treated as member contributions for any purposes under this article and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

C. A member who elects before July 1, 1999 to receive retirement benefits based on section 38-771, subsection C, paragraph 2 or a member who elects to make contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 shall either make the member's additional contributions required pursuant to section 38-771, subsection E or allowed pursuant to section 38-771.01, subsection F, paragraph 4 directly to ASRS as provided in subsection H of this section or shall elect to have the member's employer make payments for those additional contributions as provided in subsection D of this section. A member who elected to be covered or who was deemed to be covered by section 38-771 on or before December 31, 1995 or who elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 3 is deemed to have made an irrevocable election pursuant to subsection D of this section to make the member's contributions to ASRS that are required by section 38-771, subsection D or allowed by section 38-771.01, subsection F, paragraph 3.

D. Any member contributions that are required by section 38-771, subsection D or that are allowed pursuant to section 38-771.01, subsection F, paragraph 3 are deemed to be made by the member to ASRS through a salary reduction program in accordance with the following:

1. A member may make member contributions pursuant to section 38-771, subsection E or section 38-771.01, subsection F, paragraph 4 through a salary reduction program elected pursuant to this subsection. If a member makes an irrevocable election pursuant to this subsection before July 1, 1999 to have the member's employer make payments for additional contributions pursuant to section 38-771, subsection E, the election continues in effect from and after June 30, 1999 and shall not be revoked, amended or altered by any election made pursuant to section 38-771.01 or otherwise. The amounts paid pursuant to a salary reduction program are in lieu of contributions by the electing member. The member's salary or other compensation shall be reduced by the amount paid by the employer pursuant to this subsection.

2. Before a member's termination of employment, the member may make an election pursuant to this subsection at any time after the date the member elects to receive retirement benefits based on section 38-771, subsection C, paragraph 2 but before July 1, 1999 or at any time after the member elects to make member contributions pursuant to section 38-771.01, subsection F, paragraph 4. The election shall specify the number of payroll periods that deductions will be made from the member's compensation and the dollar amount of deductions for each payroll period during the specified number of payroll periods. After an election is made pursuant to this subsection, the election is binding on and irrevocable for the member and the member's employer during the member's remaining period of employment.

3. After a member makes or is deemed to have made an irrevocable election pursuant to this subsection, the member does not have the option of choosing to receive the contributed amounts directly. A member who makes an irrevocable election pursuant to this subsection to have the member's employer make payments for less than all of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4 may irrevocably elect to have the member's employer make payments for all or any portion of the remaining amounts payable for the member's additional contributions. A member who makes one or more irrevocable elections pursuant to this subsection may also make other contributions to ASRS pursuant to section 38-771.01, subsection F, paragraph 4 or pursuant to subsection H of this section to the extent of any remaining amounts payable for which the member has not made an election pursuant to this subsection. An additional election or contribution with respect to a portion of the amounts payable for the member's additional contributions pursuant to section 38-771.01, subsection F, paragraph 4 does not alter, amend or revoke an irrevocable election already made pursuant to this subsection for any other portion of the amounts payable for the member's additional contributions allowed by section 38-771.01, subsection F, paragraph 4.

4. If on termination of the member's employment all amounts have not been paid to ASRS pursuant to the member's irrevocable election pursuant to this subsection, the member may pay ASRS, within thirty days after the member's termination of employment and subject to other limitations prescribed in this section, all or any portion of the unpaid amounts as provided in subsection H of this section. These payments do not alter, amend or revoke any irrevocable election already made pursuant to this subsection with respect to any amount to be paid by the member's employer while the member is employed by the member's employer.

5. Amounts paid by an employer pursuant to this subsection shall be treated as employer contributions for the purpose of determining tax treatment under the internal revenue code. The effective date of employer payments pursuant to this subsection shall not be before the date ASRS receives notification from the United States internal revenue service that pursuant to section 414(h)(2) of the internal revenue code the amounts paid by an employer pursuant to this subsection will not be included in the member's gross income for income tax purposes until those amounts are distributed by refund or retirement benefit payments.

6. Unless otherwise provided, member contributions paid by an employer pursuant to this subsection are treated for all other purposes under ASRS in the same manner and to the same extent as member contributions that are not paid by an employer pursuant to this subsection.

7. If a member transfers employment from one participating employer with which the member has made an irrevocable election pursuant to this subsection to another participating employer, the member and the successor participating employer shall complete the terms of the irrevocable election that the member made with the original participating employer.

E. The following limits apply to contributions to ASRS:

1. Except to the extent paragraphs 2 and 3 of this subsection apply to certain contributions made by a member to ASRS and to the extent permitted under section 414(v) of the internal revenue code, if applicable, in any one limitation year, the annual additions contributed or allocated to ASRS for or on behalf of a member shall not exceed the lesser of either:

(a) \$40,000 or a larger amount that is prescribed by the board and that is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount prescribed by this subdivision as of the effective date of the increase announced by the United States secretary of the treasury.

(b) One hundred percent of the member's compensation for the limitation year. The compensation limit prescribed in this subdivision does not apply to any contribution to ASRS for medical benefits after a member's separation from service, within the meaning prescribed in section 401(h) or 419A(f)(2) of the internal revenue code, that is otherwise treated as an annual addition.

2. Unless paragraph 4 of this subsection applies, for plan years beginning on or after July 1, 1998, in any one limitation year, the annual additions credited to ASRS for or on behalf of a member who makes contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election has not been made pursuant to subsection B of this section shall not exceed the greater of either:

(a) The requirements of section 38-769. For the purposes of applying the limits prescribed in section 38-769 under this subdivision, the accrued benefit derived from the contributions shall be treated as an annual benefit and the reduced limit for certain early retirement in section 38-769, subsection C, paragraph 2 does not apply.

(b) Except as provided in paragraph 3 of this subsection, the requirements of paragraph 1 of this subsection. The contributions shall be treated as annual additions and any of the member's other annual additions for the limitation year shall be taken into account. For the purposes of applying the requirements of paragraph 1 of this subsection under this subdivision, the percentage of compensation limit in paragraph 1, subdivision (b) of this paragraph does not apply.

3. For plan years beginning on or after July 1, 1998, the requirements of paragraph 1 of this subsection shall not be applied to reduce the amount of credited service that may be purchased by an eligible member pursuant to section 38-743, 38-744, 38-745 or 38-922 to an amount that is less than the amount of credited service allowed to be purchased pursuant to those sections on August 5, 1997 without the application of any of the limits prescribed in this section or section 415 of the internal revenue code. For the purposes of this paragraph, "eligible member" means a person who first becomes a member of ASRS before July 1, 1999.

4. Member contributions to ASRS to purchase credited service pursuant to section 38-743, 38-744 or 38-922 shall not be made by a member if recognition of that service would cause a member to receive a retirement benefit for the same service from ASRS and one or more other retirement plans. This paragraph does not apply to either of the following:

(a) Contributions made by an eligible member as defined in paragraph 3 of this subsection, except that any service purchase by an eligible member is subject to any other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

(b) Any member contributions with respect to which an irrevocable election has been made by a member pursuant to subsection B of this section, except that the service purchase is subject to any

other limitations, including limitations on duplicative service purchase, otherwise provided in this article.

F. If a member's contributions are subject to the limitations of subsection E of this section, the contributions shall be treated as being made to a separate defined contribution plan. If the member's contributions exceed the limits prescribed in subsection E of this section when taking into account other member and employer contributions to ASRS on behalf of the member for the limitation year, the amount to be paid by the member shall be reduced to not exceed the limits prescribed in subsection E of this section and the remaining amount shall be carried forward to the next limitation year, unless the limits are exceeded in the next limitation year. If the limits are exceeded in the next limitation year, the procedure prescribed by this subsection shall be repeated until all payments have been made.

G. If, after the application of subsection F of this section, the annual additions on behalf of a member exceed the limitations prescribed in subsection E of this section, ASRS shall dispose of excess amounts by either of the following:

1. Returning to the member any contributions that are made by the member and that are nondeductible under the internal revenue code.

2. Holding the amounts in a suspense account established pursuant to subsection L of this section and allocating the amounts as either member or employer contributions for the benefit of the member in the next limitation year and before any further member or employer contributions are made that would constitute annual additions made to a defined contribution plan pursuant to section 415 of the internal revenue code. ASRS shall allocate contributions as prescribed in this section, and the amount allocated shall reduce the amount of the member or employer contributions for the limitation year in which the allocation is made.

H. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by the member pursuant to subsection B or D of this section, the board may accept contributions made pursuant to section 38-771 or member contributions for the payment for credited service purchases pursuant to section 38-738, 38-742, 38-743, 38-744, 38-745 or 38-922 or contributions made pursuant to section 38-771.01, subsection F, paragraph 4, in whole or in part, by any one or a combination of the following methods:

1. In lump sum payments.

2. Subject to the limitations prescribed in sections 401(a)(31) and 402(c) of the internal revenue code and subsection J of this section, accepting a direct transfer of any eligible rollover distribution from one or more:

- (a) Retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code.

- (b) Annuity contracts described in section 403(b) of the internal revenue code.

- (c) Eligible deferred compensation plans described in section 457(b) of the internal revenue code that are maintained by a state, a political subdivision of a state or any agency or instrumentality of a state or a political subdivision of a state.

3. Accepting from a member a direct transfer from an individual retirement account or individual retirement annuity described in section 408(a) or 408(b) of the internal revenue code of an amount that would otherwise be eligible to be rolled over to ASRS under the provisions of section 408(d)(3)(A)(ii) of the internal revenue code if the amount had been received by the member and would have otherwise been includible in the member's gross income but for the direct transfer.

4. Providing by rule that the contributions may be made in installment payments over a period of time.

I. To the extent that a payment under this subsection does not alter, amend or revoke any one or more currently effective irrevocable elections made by a member pursuant to subsection B or D of this section, the board may accept a direct trustee-to-trustee transfer from retirement programs that are qualified under section 401(a) or 403(a) of the internal revenue code, an annuity contract described in section 403(b) of the internal revenue code or an eligible deferred compensation plan described in section 457(b) of the internal revenue code for the payment for credited service purchases pursuant to section 38-742, 38-743, 38-744, 38-745 or 38-922. If a direct trustee-to-trustee transfer is from a retirement program that is qualified under section 401(a) of the internal revenue code and that includes a cash or deferred arrangement described in section 401(k) of the internal revenue code, the member on whose behalf the transfer was made is not eligible to retire under section 38-764, subsection I before the date the member attains fifty-nine and one-half years of age.

J. ASRS shall separately account for all amounts rolled over or directly transferred to ASRS. Subject to the limitations contained in the internal revenue code applicable to the type of plan from which an eligible rollover distribution is transferred, to the extent any eligible rollover distribution that is directly transferred to ASRS consists wholly or partially of amounts that would otherwise not be included in the member's gross income if not so transferred, ASRS shall separately account for the amounts so transferred, and earnings on those amounts, including separately accounting for the portion of the amount that is includable in gross income and the portion of the amount that is not includable in gross income.

K. ASRS shall not grant credited service under section 38-738, 38-742, 38-743, 38-744 or 38-922 for contributions made pursuant to subsection H of this section until the contributions are received by ASRS. ASRS may assess interest or administrative charges attributable to any installment payment made pursuant to subsection H, paragraph 4 of this section to purchase credited service pursuant to section 38-738, 38-742, 38-743, 38-744 or 38-922. The interest or administrative charges shall be added to the amount of contributions made to ASRS by the member. The interest or administrative charges shall not be treated as member contributions for any purposes under this article, and a member or a member's beneficiary does not have a right to the return of the interest or administrative charges pursuant to any other provision of this article. Interest assessed pursuant to this subsection shall be at the rate specified by the board pursuant to section 38-711, paragraph 2.

L. Notwithstanding any provision of this article to the contrary, if the annual additions credited on behalf of an ASRS member during any limitation year exceed the limits of section 415(c) of the internal revenue code and subsection E of this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance issued by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

M. If the member retires before all payments are made pursuant to this section, ASRS shall calculate the member's benefits based only on the payments actually made.

N. On satisfaction of the requirements of this section, ASRS shall adjust the member's credited service history and add any additional service credits acquired.

O. Annual additions on behalf of a member in any limitation year shall be the sum of:

1. The amount of the member contributions made to ASRS to purchase credited service pursuant to section 38-738, 38-743, 38-744, 38-745 or 38-922 and with respect to which an irrevocable election made pursuant to subsection B of this section is not in effect.

2. The amount of member and employer contributions made to ASRS on behalf of a member who elected or was deemed to have elected to receive retirement benefits pursuant to section 38-771 or who is entitled to benefits pursuant to section 38-771.01, except that, other than as provided in subsection P of this section, corrective contributions shall be considered annual additions for the limitation years to which the contributions relate and interest and gains shall not be considered as annual additions for the purpose of any limitation prescribed in this article or in section 415 of the internal revenue code. If the corrective contributions exceed the limit on annual additions for a limitation year prior to the limitation year in which the corrective contributions are contributed by the employer to ASRS, the retirement benefit attributable to the excess corrective contributions shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess corrective contributions to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

3. Any member or employer contributions made to ASRS or any other plan that are treated as being made to a defined contribution plan maintained by an employer of the member.

4. Any forfeitures, including any income attributable to forfeitures, allocated for or on behalf of a member of ASRS or any other plan that are treated as being allocated under a defined contribution plan maintained by an employer of the member.

P. To the extent any portion of the subject benefits, if treated as subject to the benefit limitations of section 415(b) of the internal revenue code, exceed the applicable limitation on benefits pursuant to section 38-769 for the form of distribution, a percentage of corrective contributions and interest and gains shall be treated as annual additions for the limitation year in which contributed by the employer to ASRS. This percentage of corrective contributions and interest and gains shall be equal to the percentage determined by dividing the subject benefits that exceed the limitation on benefits pursuant to section 38-769 by the subject benefits. If the corrective contributions and interest and gains that are treated as annual additions for the limitation year in which the corrective contributions and interest and gains are contributed by the employer to ASRS exceed the limit on annual additions for the limitation year, the retirement benefit attributable to the excess shall be treated as an excess benefit and shall be payable to the member as any other excess benefit is payable pursuant to section 38-774, and the employer shall pay the excess to the separate unfunded governmental excess benefit arrangement administered by the board pursuant to section 38-774.

Q. Subsection O of this section shall be construed and interpreted in accordance with section 415 of the internal revenue code and the final treasury regulations issued under that section.

R. For the purposes of this section:

1. "Compensation" has the same meaning prescribed in section 38-769.

2. "Corrective contributions" means any contributions that are paid by an employer pursuant to section 38-771.01, subsection C, paragraph 3 and that are attributable to employer contributions that should have been made for prior limitation years.
3. "Defined contribution plan" has the same meaning prescribed in section 38-769.
4. "Eligible rollover distribution" has the same meaning prescribed in section 38-770.
5. "Interest and gains" means employer contributions to ASRS pursuant to section 38-771.01, subsection C, paragraphs 3, 5 and 6 that are attributable to earnings and supplemental credits that would have been earned or added to a member's annuity payment.
6. "Limitation year" has the same meaning prescribed in section 38-769.
7. "Participating employer" means an employer that participates in ASRS.
8. "Subject benefits" means the retirement benefit received by a member pursuant to section 38-771.01 minus the sum of the portion of such retirement benefit attributable to contributions that were made by or on behalf of the member to the defined contribution program administered by ASRS for periods before July 1, 1981 and contributions that were made by the member after June 30, 1981 and that were not picked up as provided in section 414(h)(2) of the internal revenue code.

**38-748. Employer payments for ineligible contributions; definitions**

A. If an employer pays contributions on behalf of any person who is not eligible by statute or rule for ASRS membership or pays contributions on compensation that is not eligible by statute or rule for ASRS contributions and either ASRS or a court determines that ASRS shall provide a person with any benefit or credit under this article or article 2.1 of this chapter based on such contributions, the employer shall pay to ASRS any unfunded liability resulting from the provision of benefits or credit to the person.

B. If the employer does not remit full payment of the unfunded liability pursuant to subsection A of this section within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full.

C. Credited service ceases to accrue as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

D. If the amount in the person's ASRS account is greater than the present value of the benefit or credit, ASRS shall retain the entire account and is not required to refund, credit or offset any excess against future contributions.

E. This section applies to an employer that employs, either directly or indirectly, a person who performs services for a third-party organization and that does not have a written representation by ASRS of the person's eligibility.

F. For the purposes of this section:

1. "Amount in the person's ASRS account" means two times the person's retirement contributions made pursuant to section 38-736:

(a) Plus:

(i) Interest on the person's retirement contributions made pursuant to section 38-736.

(ii) Any contributions made for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(iii) Interest on the amount contributed for the purchase of service credits pursuant to section 38-742, 38-743, 38-744 or 38-745.

(b) Minus any amounts paid by ASRS pursuant to this article or article 2.1 of this chapter.

2. "Interest" means the interest rate assumption that is approved by ASRS for actuarial equivalency.

3. "Unfunded liability" means:

(a) For a person who is not eligible by statute or rule for ASRS membership, the amount, if any, that the present value of the person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount in the person's ASRS account calculated as of the date that ASRS or a court first determines that ASRS shall provide any benefit or credit to the person.

(b) For contributions on compensation that is not eligible by statute or rule for ASRS contributions, the difference, if any, of the amount that the present value of a person's benefit or credit, using the actuarial assumptions approved by ASRS, exceeds the amount of the present value of the benefit or credit the person would receive if the ineligible contributions, and the compensation and credit associated with those ineligible contributions, had not been reported to ASRS and the amount in the person's ASRS account that is associated with the ineligible contributions on compensation.

**38-749. Employer termination incentive program; employer payment of actuarial cost; definition**

A. If a termination incentive program that is offered by an employer results in an actuarial unfunded liability to ASRS, the employer shall pay to ASRS the amount of the unfunded liability. ASRS shall determine the amount of the unfunded liability in consultation with its actuary.

B. An employer shall notify ASRS if the employer plans to implement a termination incentive program that may affect ASRS funding.

C. If ASRS determines that an employer has implemented a termination incentive program that results in an actuarial unfunded liability to ASRS, ASRS shall assess the cost of the unfunded liability to that employer. If the employer does not remit full payment of all monies due within ninety days after being notified by ASRS of the amount due, the unpaid amount accrues interest until the amount is paid in full. The interest rate is the interest rate assumption that is approved by the board for actuarial equivalency for the period in question to the date payment is received.

D. For the purposes of this section, "termination incentive program":

1. Means a total increase in compensation of thirty per cent or more that is given to a member in any one or more years before termination that are used to calculate the member's average monthly compensation if that increase in compensation is used to calculate the member's retirement benefit and that increase in compensation is not attributed to a promotion.

2. Means anything of value, including any monies, credited service or points that the employer provides to or on behalf of a member that is conditioned on the member's termination except for payments to an employee for accrued vacation, sick leave or compensatory time unless the payment is enhanced beyond the employer's customary payment.

### 38-750. Transfers out of the system

A. If an employee has made an irrevocable election pursuant to section 38-747, subsection B or D and transfers participation to another defined benefit retirement system or plan of this state without a termination of employment, within ninety days after the date of the transfer, ASRS shall transfer to the subsequent defined benefit retirement system or plan the amount the employee paid for the purchase of the credited service plus interest as determined by ASRS.

B. If the assets transferred from ASRS are less than the cost of the benefits accrued relative to the credited service as calculated pursuant to section 38-922, subsection B, paragraph 2, and unless a law otherwise provides, the employee shall elect either to pay the difference to the subsequent defined benefit retirement system or plan or accept a reduced amount of service credits. If the employee elects to pay the difference, the amount paid shall be added to the employee's accumulated contribution account balance. If the employee elects to accept a reduced amount of service credits, the amount of service credits granted shall be equal to the amount of service credits purchased multiplied by the ratio of the amount of assets transferred to the amount calculated pursuant to section 38-922, subsection B, paragraph 2.

C. The transferred employee and the employer shall complete the terms of the irrevocable election by making payments to ASRS.

D. If the employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, on termination of employment the employee shall elect to have ASRS:

1. Promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to elect to have the assets transferred within thirty days after termination of employment, the employee is deemed to have made an election as prescribed in paragraph 2.

2. On written request by the employee, promptly return to the employee the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If no application is received by ASRS within sixty days after termination of employment, ASRS shall issue the payment directly to the employee.

E. If the employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system, after termination of employment the employee may elect within thirty days of termination of employment to have ASRS promptly transfer to the subsequent defined benefit retirement system or plan the principal amount paid by the employee for the purchase of credited service plus interest as determined by ASRS. If an unfunded liability is created, subsection B of this section applies. If the employee fails to make the election under this subsection, ASRS shall deem the employee as an inactive member of ASRS.

F. If an employee is given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is

receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is eligible to transfer to the retirement system or plan, but the election to transfer terminates the benefit from ASRS on the effective date of the transfer.

G. If an employee is not given an election to transfer to another defined benefit retirement system or plan of this state or to remain with the employee's current retirement system and the employee is receiving a benefit pursuant to this article based on the employee's own service or article 2.1 of this chapter, the employee is not eligible to transfer to another retirement system or plan.

**38-751. Nonparticipatory employer liability allocation; exemption; definitions**

A. ASRS shall establish a separate fund for an employer, other than a charter school, that is no longer participating in ASRS as a result of any of the following:

1. The character of the employer changes from a public entity to a private entity.
2. An employer, other than this state, dissolves.
3. Through legislative action, the employer is no longer enrolling new employees in ASRS or no longer contributing to ASRS on behalf of current employees or groups of employees who otherwise would be eligible for ASRS membership.

B. For a nonparticipating employer described in subsection A of this section, ASRS shall allocate an actuarial accrued liability and a designated asset amount to the nonparticipating employer's separate fund as of the nonparticipation date, which shall be calculated as follows:

1. The actuarial accrued liability shall equal the sum of the plan employer actuarial accrued liability and the LTD program employer actuarial accrued liability. Actuarial accrued liability shall be calculated based on the same actuarial assumptions and methods as the actuarial valuation performed immediately preceding the nonparticipating employer's nonparticipation date.

2. The designated asset amount shall equal the sum of the following:

- (a) The plan employer actuarial accrued liability multiplied by the plan funded percentage.
- (b) The LTD program employer actuarial accrued liability multiplied by the LTD program funded percentage.

C. All monies and securities transferred to the nonparticipating employer's separate fund shall be credited to that fund. A record of the market value and the cost value of such transferred contributions shall be maintained for actuarial and investment purposes. ASRS shall make all decisions regarding the nonparticipating employer's separate fund.

D. After establishing the nonparticipating employer's separate fund, the fund shall be adjusted for all of the following:

1. All contributions made by employees of the nonparticipating employer.
2. All contributions made by the nonparticipating employer.

3. All plan, all LTD program and any other benefits paid to the nonparticipating employer's members who are active, inactive, retired or on long-term disability.

4. All plan, all LTD program and any other benefits paid to the survivors of the nonparticipating employer's members.

5. The applicable share of the investment gains and losses.

6. Expenses associated with the administration of the nonparticipating employer's separate fund, including any administrative, development, actuarial, legal, custodial and investment management costs associated with the fund. These expenses shall be paid directly by the nonparticipating employer or included in the employer's liability for the purposes of determining the employer's contribution rate.

E. After establishing the nonparticipating employer's separate fund, the nonparticipating employer and any employees of that employer who are enrolled in ASRS shall continue to have contribution requirements to the nonparticipating employer's separate fund. The contribution requirements shall be calculated as follows:

1. All employees of the nonparticipating employer who are enrolled in ASRS shall continue to make contributions through payroll deductions based on the contribution rate determined for the employees of participating employers of ASRS pursuant to section 38-736.

2. The nonparticipating employer shall continue to make contributions through lump sum payments in accordance with section 38-735, equal to the sum of:

(a) Contributions owed through payroll deductions based on the contribution rate determined for participating employers pursuant to section 38-737.

(b) The amount required to amortize the past service funding requirement in the nonparticipating employer's separate fund over a period that is determined by the board and that is consistent with generally accepted actuarial standards. In determining the past service funding period, the board shall seek to improve the funded status whenever the nonparticipating employer's separate fund is less than one hundred percent funded.

F. The ASRS actuary shall determine the actuarial assumptions used to determine the contribution requirements for the nonparticipating employer under subsection E of this section. Notwithstanding section 38-737, the contribution for the nonparticipating employer may not be determined as a percentage of compensation due to the anticipated decline of compensation for employees of the nonparticipating employer participating in ASRS. The nonparticipating employer shall certify on each payroll the amount to be contributed and shall remit that amount to ASRS at a rate that is consistent with the rate paid by the participating employers. Each fiscal year, amounts that are not remitted through payroll contributions pursuant to this section shall be invoiced to the employer and shall be paid within the same fiscal year the nonparticipating employer is invoiced.

G. This section does not permit an employer to alter the irrevocable agreement approved by the board under section 38-729.

H. For the purposes of calculating an employer's liability under this section, members who are active, inactive, retired or on long-term disability are considered employees of the nonparticipating employer

if the member's most recent employer was the nonparticipating employer as of the nonparticipation date.

I. This section does not apply to an employer whose existence was terminated by legislative action or otherwise became a nonparticipating employer as described in subsection A of this section on or before January 1, 2013.

J. For the purposes of this section:

1. "LTD program" means the program established by article 2.1 of this chapter.

2. "LTD program employer actuarial accrued liability" means the actuarial accrued liability for the employer's active and inactive members and the open LTD program claims for the employees of the employer as of the nonparticipation date.

3. "LTD program funded percentage" means the total market value of LTD program assets divided by the total LTD program actuarial accrued liabilities, as of the actuarial valuation performed immediately preceding the nonparticipation date. If the percentage is greater than one hundred percent, the LTD program funded percentage is one hundred percent.

4. "Nonparticipation date" means the date on which the employer is no longer participating in ASRS.

5. "Plan" means the retirement plan established by this article.

6. "Plan employer actuarial accrued liability" means the plan's actuarial accrued liability for all benefits provided under this article, including benefits established in section 38-783, for the employer's active, inactive or retired members as of the actuarial valuation performed immediately preceding the nonparticipation date.

7. "Plan funded percentage" means the plan's total market value of assets divided by the plan's actuarial accrued liability for all benefits provided under this article, including benefits established in section 38-783, for all active, inactive or retired members as of the actuarial valuation performed immediately preceding the nonparticipation date. If the percentage is greater than one hundred percent, the plan funded percentage is one hundred percent.

**38-755. Member's account information: beneficiary designation: spousal consent: confidentiality**

A. ASRS shall make information concerning a member's account accessible to the member in written or electronic form. This information shall include the member's current account balance, contact information, beneficiary election, estimated retirement date and estimated benefit amount.

B. The member may change the member's beneficiary at any time in a manner established by ASRS.

C. The amount of retirement income shall be the actuarial equivalent of the retirement income to which the member would be entitled under normal or early retirement. The election in a manner prescribed by the board shall name the contingent annuitant. The election may be revoked at any time before the member's

The adjustment shall include all postretirement increases in retirement income that are authorized by law after the member's date of retirement. Payment of this adjusted life annuity shall continue under the provisions of the option previously elected by the member.

(b) If the member rescinds the election, the member shall thereafter receive a straight life annuity equal to what the member would otherwise be entitled to receive if the member had not elected the joint and survivor life annuity option, including all postretirement increases in retirement income that are authorized by law after the date of retirement. C. In lieu of a single payment, a designated beneficiary who is eligible for a survivor benefit pursuant to subsection A of this section may elect to receive the actuarial equivalent of the survivor benefit as monthly income for life, if the resulting monthly amount is greater than or equal to the amount determined by the board under section 38-764, subsection E.

D. If a member dies before distribution of the member's benefits commences, the member's entire benefits shall be distributed within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

G. For the purposes of this section, "designated beneficiary" means any individual designated by the member as the member's beneficiary.

#### **38-763. Survivor benefits after retirement**

A. Except as provided in subsection B of this section, if a member dies after distribution of retirement benefits commences, ASRS shall continue to distribute the remaining portion of retirement benefits within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

B. On the death of a retired member who is receiving benefits, the estate or beneficiary of the member is entitled to receive at least the amount of the member's contribution to ASRS plus interest, as determined by the director, less the benefits distributed by ASRS. This amount is payable either as a lump sum or at the same periodic rate in effect at the time of the member's death, as determined by the estate or beneficiary.

C. Except as provided in subsection D of this section, at the request of a retired member, a retired member's guardian or a court appointed conservator, the board may pay any increase in retirement

benefits or the entire retirement benefit in a lump sum payment based on the actuarial present value of the benefit or the increase in the benefit if the payment of the benefits would result in ineligibility, reduction or elimination of social service programs provided to the member by this state, its political subdivisions or the federal government.

D. The board may pay the entire retirement benefit in a lump sum pursuant to subsection C of this section only if continued membership in ASRS will result in additional requests for lump sum payments based on cost of living adjustments or the establishment of minimum benefit awards.

E. If any benefit that is payable as a series of periodic payments amounts to less than a threshold amount determined by the board, the board, in its sole discretion and based on uniform rules it establishes, may order the amount to be paid in a lump sum. A member who receives a lump sum payment pursuant to this subsection remains a member of ASRS and is eligible for the coverage provided pursuant to section 38-782 and the payment pursuant to section 38-783 but is not eligible for a benefit increase pursuant to section 38-767.

F. All distributions of retirement benefits to a member shall be distributed within the required distribution provisions of section 401(a)(9) of the internal revenue code and the regulations that are issued under that section by the United States secretary of the treasury as prescribed in section 38-775.

G. Notwithstanding subsection H of this section, a member may elect to cancel the effective date of retirement within thirty days of retirement or before the member's receipt of retirement benefits, whichever is later.

H. A member may elect to make changes to a retirement application before the member's retirement date. A member may exercise a onetime election to make changes to the retirement application within sixty days after the member's retirement date. The member may not change the member's retirement date, and any changes made to the retirement application are retroactive to the member's retirement date.

I. A member who attains a normal retirement date may retire at any time without terminating employment if the member is employed for less than the hours required for active membership pursuant to section 38-711, paragraph 23, subdivision (b).

#### **38-765. Errors; benefit recomputation**

If any change or error in the records results in any member or beneficiary receiving from ASRS more or less than the member or beneficiary would have been entitled to receive if the records had been correct, ASRS shall correct the error and as far as practicable shall adjust the payments in a manner so that the actuarial equivalent of the benefit to which the member or beneficiary was correctly entitled is paid. ASRS shall correct any change or error and shall pay the appropriate monies to a member or beneficiary or shall recover monies from the member or beneficiary if the member or beneficiary is overpaid. ASRS shall recover monies by reducing any benefit otherwise payable by ASRS or the LTD program established by article 2.1 of this chapter to an active, inactive, person with a disability or retired member, survivor, contingent annuitant, beneficiary or alternate payee.

#### **38-766. Retired members; return to work; suspension of benefits; exceptions; maximum benefit**

A. A retired member who is engaged to work by an employer for at least twenty weeks in each fiscal year and at least twenty hours per week resumes active membership in ASRS. ASRS shall suspend payment of the member's retirement benefits until the member either:

2. Attains a normal retirement date, no longer meets the requirements for active membership pursuant to this subsection and files an application for reretirement on a form that is approved by the director.

B. A retired member whose retirement benefits have been suspended pursuant to subsection A of this section shall repay ASRS any retirement benefits received by the member from the date ASRS notifies the member in writing that the member's employment resulted in active membership in ASRS pursuant to subsection A of this section, from the date ASRS determines that the member knew or should have known that the member's employment resulted in membership in ASRS pursuant to subsection A of this section or for any other period that approximates the duration of the violation, as determined by ASRS.

C. A member who satisfies subsection A, paragraph 1 or 2 of this section is entitled to receive an annuity recomputed to include the additional compensation and credited service. However, the recomputed annuity shall be in the original optional form chosen pursuant to section 38-760, with the same beneficiary, if applicable, as when the member first retired, unless the member has resumed active membership for at least sixty consecutive months. A member who retired under a provision of law allowing increased benefits if the retirement occurred during a specific period of time and who subsequently becomes an employee under ASRS shall not retain the increased benefits under the prior law when benefits are computed for the member's most recent retirement.

D. Notwithstanding subsection A of this section, ASRS shall not suspend the payment of retirement benefits if a retired member begins or returns to employment with an employer in a position that satisfies all of the following:

1. Results in a true change in position, job duties and job title from the position occupied by the member before ASRS retirement.

The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

F. Section 38-769, subsection L applies when determining the maximum benefit that may be paid to a retired member who resumes active membership and subsequently retires.

G. An employer that engaged the retired member to work pursuant to this section shall pay to ASRS an amount equal to the rate established by the actuary pursuant to section 38-766.02, subsection B for the period starting with the first day the retired member began working after retirement through the earlier of:

1. The date the member terminates employment.
2. The date the member resumes active membership pursuant to subsection A of this section and the member and employer are required to make contributions pursuant to section 38-736, 38-737 or 38-738.

**38-766.01. Retired members; return to work**

F. A retired member who returns to work pursuant to this section does not accrue credited service, member service as provided in section 15-1628, subsection B, paragraph 4, additional account balances, retirement benefits or long-term disability program benefits pursuant to article 2.1 of this chapter for the period the retired member returns to work. The period the retired member returns to work is not eligible for purchase under section 38-743 or 38-744.

**38-766.02. Retired members; return to work; employer contribution payments; exception; definitions**

A. Notwithstanding section 38-766.01, subsection E, beginning July 1, 2012, an employer shall pay contributions at an alternate contribution rate on behalf of a retired member who returns to work with an ASRS employer in any capacity in a position ordinarily filled by an employee of the employer or in a position that is similar in duties and responsibilities to that of a position ordinarily filled by an employee of the employer. This subsection applies to a retired member who has reached a normal retirement age or a retired member who retired under section 38-758 if the retired member's retirement benefit has not been suspended pursuant to section 38-766.

B. The ASRS actuary shall determine the alternate contribution rate in an annual valuation performed as of June 30. For the fiscal year beginning on July 1 of the following calendar year, the valuation shall determine the percentage to be applied to the compensation, gross salary or contract fee of a retired member who meets the requirements of this section.

C. The alternate contribution rate shall not be less than two percent in any fiscal year. The alternate contribution rate is equal to the lesser of:

1. The employer contribution rate established by the ASRS actuary pursuant to section 38-737 plus the employer contribution rate established by the ASRS actuary pursuant to section 38-797.06.

2. The total past service funding requirement rate established by the ASRS actuary pursuant to section 38-737 plus the total past service funding requirement rate established by the ASRS actuary pursuant to section 38-797.06.

D. ASRS shall determine the schedule and method of payment of the alternate contribution rate. Subject to section 38-738, subsection A, all contributions made by the employer and allocated to the fund established by section 38-712 are irrevocable and shall be used as benefits under this article or to pay the expenses of ASRS. Payments made pursuant to this section by employers become delinquent after the due date prescribed in the board's rules and thereafter shall be increased by interest from and after that date until payment is received by ASRS. ASRS shall charge interest on the delinquent payments as prescribed in section 38-711. ASRS may recover delinquent payments due under this section, together with interest charges as provided in this section, by action in a court of competent jurisdiction against an employer liable for payments or, at the request of the director, ASRS may deduct the delinquent payments and interest charges from any other monies, including excise revenue taxes, payable to the employer by any department or agency of this state.

E. An employer of a retired member shall submit any reports, data, paperwork or materials that are requested by ASRS and that are necessary to determine the compensation, gross salary or contract fee associated with a retired member who returns to work or to determine the function, utilization, efficacy or operation of the return to work program.

F. An employer is not required to pay contributions at an alternate contribution rate on behalf of a retired member under subsection A of this section if the retired member returns to work with the employer in a position that is currently filled by an employee of the employer who is an active member and for which the employer is currently required to pay and is paying contributions on behalf of the active member in that same position pursuant to sections 38-736 and 38-737. An employer may pay contributions at an alternate contribution rate for a retired member who meets the requirements for an exemption under this subsection.

G. For contributions made pursuant to subsection F of this section beginning July 1, 2019, if ASRS and the employer determine that the alternate contribution rate does not apply to a retired member who returns to work for whom the employer has paid contributions at the alternate contribution rate,

the employer may request an employer credit, not including interest, for those contributions within ninety days after the end of the fiscal year in which the contributions were paid. If ASRS determines that an employer credit is not feasible, ASRS shall issue a refund to an employer in a form determined by ASRS.

H. For the purposes of this section:

1. "Contract fee" means the gross amount paid to a retired member as an independent contractor minus an amount, not to exceed ten percent, for an administrative fee.
2. "Gross salary" means the gross amount paid to a retired member by a leasing company as salary or wages, including amounts that are subject to deferred compensation or tax shelter agreements, for services rendered or that would have been paid to the retired member except for the member's election or a legal requirement that all or part of the gross amount be used for other purposes.

**38-767. Benefit increases: applicability**

A. For a member whose membership commenced before the effective date of this amendment to this section, effective July 1 of each year, each retired member or beneficiary of a retired member is entitled to receive a permanent benefit increase in the base benefit equal to the amount determined in subsection D of this section if the retired member or beneficiary of a retired member was receiving benefits on or before July 31 of the previous calendar year. The annual permanent benefit increases shall be paid on a monthly basis. The benefit increase shall commence on July 1.

B. The total amount of the percentage increase provided in subsection A of this section shall not exceed four per cent in aggregate for all persons eligible for an increase. The percentage payable from excess investment earnings shall be determined as follows:

1. Determine any excess investment earnings account balance available.
2. Determine the total excess investment earnings as provided in subsection C of this section.
3. Add the amount determined in paragraph 1 of this subsection to the amount determined in paragraph 2 of this subsection.
4. Determine one per cent of the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
5. Divide the amount determined in paragraph 3 of this subsection by the amount determined in paragraph 4 of this subsection. If the quotient is equal to or more than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is four per cent. If the quotient is one or more but less than four, the percentage increase payable from excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section is that per cent rounded to the nearest tenth of a per cent. If the quotient is less than one, no benefit increases shall be granted.

C. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are equal to the actuarial present value of benefits for all retired members and beneficiaries as of June 30 of the year prior to the year for which

an increase is being granted multiplied by the positive difference, if any, between the yield rate on the actuarial value of ASRS assets for the fiscal year that ended June 30 of the year prior to the year for which an increase is being granted and eight per cent. The excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section are zero if the yield rate on ASRS assets is less than or equal to eight per cent.

D. The permanent benefit increase for each person entitled to receive an increase pursuant to subsection A of this section shall be determined based on years of credited service as follows:

1. Multiply the percentage determined in subsection B, paragraph 5 of this section by the actuarial present value of benefits for retired members and beneficiaries as of June 30 of the year prior to the year for which an increase is being granted.
2. Determine the actuarial present value of a one dollar per year of credited service annual increase in the base benefit amounts as of June 30 of the year prior to the year for which an increase is being granted, received by all persons entitled to receive an increase pursuant to subsection A of this section.
3. Divide the amount determined in paragraph 1 of this subsection by the amount determined in paragraph 2 of this subsection.
4. Multiply the amount determined in paragraph 3 of this subsection by the number of years of credited service for each retired member and the number of years of credited service earned by a retired member for each beneficiary entitled to receive an increase pursuant to subsection A of this section.

E. Any excess investment earnings on accounts associated with those persons eligible for an annual benefit increase pursuant to subsection A of this section from any year that are not used for benefit adjustments for that year are available for future benefit increases in the following years.

F. Monies available for future benefit increases shall earn interest at a rate of eight per cent per year. This interest shall be used to pay the additional benefit increases provided for in subsection G of this section.

G. In addition to a benefit increase pursuant to subsection A of this section, if a retired member who was eligible for an annual benefit increase pursuant to subsection A of this section had more than ten years of credited service, the retired member or beneficiary of the retired member is entitled to receive a benefit increase based on the number of years following retirement as follows:

1. At least five years but less than ten years, a monthly benefit increase equal to the amount determined in subsection H of this section.
2. At least ten years but less than fifteen years, a monthly benefit increase equal to two times the amount determined in subsection H of this section.
3. At least fifteen years but less than twenty years, a monthly benefit increase equal to three times the amount determined in subsection H of this section.

4. At least twenty years but less than twenty-five years, a monthly benefit increase equal to four times the amount determined in subsection H of this section.

5. At least twenty-five years but less than thirty years, a monthly benefit increase equal to five times the amount determined in subsection H of this section.

6. At least thirty years, a monthly benefit increase equal to six times the amount determined in subsection H of this section.

H. The amount of the monthly benefit increase under subsection G of this section for a retired member or beneficiary of a retired member who is entitled to the increase when at least five years but less than ten years have elapsed since the retired member's retirement date is equal to the amount obtained by dividing the amount of interest credited pursuant to subsection F of this section by the amount that equals the sum of:

1. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of one dollar per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least five years but less than ten years have elapsed since the retired members' retirement dates.

2. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of two dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least ten years but less than fifteen years have elapsed since the retired members' retirement dates.

3. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of three dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least fifteen years but less than twenty years have elapsed since the retired members' retirement dates.

4. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of four dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty years but less than twenty-five years have elapsed since the retired members' retirement dates.

5. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of five dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least twenty-five years but less than thirty years have elapsed since the retired members' retirement dates.

6. The actuarial present value, as of June 30 of the year prior to the year for which the increase is granted, of a benefit increase of six dollars per month for the retired members and beneficiaries of retired members who are eligible for an increase under subsection G of this section and for whom at least thirty years have elapsed since the retired members' retirement dates.

I. A member of the defined contribution program administered by ASRS is only eligible for the benefit increases pursuant to this section if the member elects to transfer irrevocably from the defined

contribution program administered by ASRS to the defined benefit program established by this article.

J. The cost of the benefit increases granted pursuant to this section shall be added to the existing liabilities of ASRS.

K. As used in this section, the actuarial present value of benefits for retired members and beneficiaries does not include the value of benefits provided pursuant to section 38-783.

**38-768. Minimum retirement benefit**

A. Notwithstanding any other provision of this article, a retired member or beneficiary who is entitled to a benefit under this article shall receive at least a minimum monthly benefit that is computed pursuant to subsection B of this section if the retired member or beneficiary is at least seventy-five years of age and if the retired member or beneficiary is any of the following:

1. Retired from ASRS with at least twenty years of credited service.
2. A beneficiary of ASRS who is receiving benefits derived from a retired member who had at least twenty years of credited service.
3. A member with at least twenty years of service who irrevocably revokes the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elects to receive benefits under this article.
4. A beneficiary who is receiving benefits derived from a retired member who had at least twenty years of service, who irrevocably revoked the receipt of benefits determined on the basis of membership in the defined contribution program administered by ASRS and who elected to receive benefits under this article.

B. The minimum monthly benefit provided by subsection A of this section:

1. For retired members, is \$600.
2. For beneficiaries, is the amount determined by paragraph 1 of this subsection and reduced in accordance with the option chosen by multiplying the amount determined by paragraph 1 of this subsection by the actuarial figure for the option chosen and by the percentage of the option chosen.

C. If the minimum monthly benefit pursuant to subsections A and B of this section is more than the retired member's or beneficiary's current monthly benefit, the retired member or beneficiary is eligible to receive a monthly benefit equal to the minimum benefit. If the retired member's or beneficiary's current monthly benefit is more than the minimum benefit, the retired member's or beneficiary's benefit remains the same.

D. A member who receives a lump sum payment pursuant to section 38-764, subsection C is not eligible for a minimum benefit as provided by this section.

**38-769. Maximum retirement benefits; termination; definitions**

A. Notwithstanding any other provision of this article, except as provided in subsection C of this section, the employer provided portion of a member's annual benefit payable in the form of a straight life annuity, at any time within a limitation year, shall not exceed one hundred sixty thousand dollars or a larger amount that is effective as of January 1 of each calendar year, is prescribed by the board and is due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. The board shall increase the amount pursuant to this subsection as of the effective date of the increase as prescribed by the United States secretary of the treasury. Benefit increases provided in this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001 shall be provided to all current and former members who have benefits that are limited by section 415(b) of the internal revenue code and who have an accrued benefit under ASRS immediately before July 1, 2001, other than an accrued benefit resulting from a benefit increase solely as a result of the increases provided by this section resulting from the increase in the limitations of section 415(b) of the internal revenue code as amended by the economic growth and tax relief reconciliation act of 2001.

B. Notwithstanding the limitations of subsection A of this section, the benefits payable to a member are deemed not to exceed the limitations determined under subsection A of this section if the retirement benefits payable to the member under this article do not exceed ten thousand dollars for the limitation year and if an employer has not at any time maintained a defined contribution plan in which the member has participated.

C. The limitations determined under subsection A of this section are subject to the following adjustments:

1. If a member has less than ten years of membership in ASRS, the maximum dollar limitation determined under subsection A of this section shall be multiplied by a fraction, the numerator of which is the number of years, or partial years, of membership in ASRS and the denominator of which is ten. The reduction provided in this paragraph also applies to the ten thousand dollar floor limitation provided in subsection B of this section, except that the reduction applies to years of service with an employer rather than to years of membership in ASRS. The reduction in this paragraph does not reduce the limitations determined under subsection A of this section to an amount less than one-tenth of the limitations as determined without regard to this paragraph.

2. If the member's benefit under ASRS commences before the member reaches sixty-two years of age, the benefit will be limited to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for early retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight

life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity start date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-two, determined without applying the limitations of section 415 of the internal revenue code.

3. If the retirement benefit under ASRS commences after the member reaches sixty-five years of age, the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section on that benefit is increased to:

(a) If the annuity starting date is in a limitation year beginning before July 1, 2007, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) as adjusted under section 415(d) of the internal revenue code, with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for determining actuarial equivalence for delayed retirement purposes.

(ii) A five per cent interest rate assumption and the applicable mortality table.

(b) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS does not have an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, with actuarial equivalence computed using a five per cent interest rate assumption and the applicable mortality table and expressing the member's age based on completed calendar months as of the annuity starting date.

(c) If the annuity starting date is in a limitation year beginning on or after July 1, 2007 and ASRS has an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the lesser of:

(i) The adjusted dollar limitation determined in accordance with subdivision (b) of this paragraph, determined without applying the limitations of section 415 of the internal revenue code.

(ii) The product of the dollar limitation under section 415(b)(1)(A) of the internal revenue code as adjusted in subsection A of this section, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under ASRS at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under ASRS at age sixty-five, determined without applying the limitations of section 415 of the internal revenue code.

4. For purposes of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity and that is not subject to section 417(e)(3) of the internal revenue code must be adjusted to an actuarially equivalent straight life annuity that equals either:

(a) For limitation years beginning on or after July 1, 2007, the greater of the annual amount of the straight life annuity, if any, payable under ASRS at the same annuity starting date, and the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using an interest rate of five per cent and the applicable mortality table under section 417(e)(3) of the internal revenue code.

(b) For limitation years beginning before July 1, 2007, the annual amount of a straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five per cent interest rate assumption and the applicable mortality table.

5. For the purpose of applying the limits of section 415 of the internal revenue code, a retirement benefit that is payable in any form other than a straight life annuity to which section 417(e)(3) of the internal revenue code would apply if that section of the internal revenue code were applicable to ASRS must be adjusted to an actuarially equivalent straight life annuity that equals:

(a) If the annuity starting date is in a plan year beginning on or after July 1, 2006, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest rate assumption and the applicable mortality table.

(iii) The applicable interest rate under section 417(e)(3) of the internal revenue code and the applicable mortality table, divided by 1.05. The stability period during which the applicable interest rate remains constant is the plan year. The look-back month that is used to determine the applicable interest rate during the stability period is the third full calendar month preceding the first day of the stability period. For the purposes of this item, "applicable interest rate" means the annual interest rate on thirty-year treasury securities as specified by the commissioner of the United States internal revenue service for a month in revenue rulings or notices or another guidance published by the commissioner in the internal revenue bulletin.

(b) If the annuity starting date is in a plan year beginning in July 1, 2004 or July 1, 2005, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit payable, using whichever of the following produces the greater annual amount:

(i) The interest rate and mortality table or other tabular factor specified by the board for adjusting benefits in the same form.

(ii) A five and one-half per cent interest assumption and the applicable mortality table.

(c) If the annuity starting date is on or after July 1, 2004 and before December 31, 2004, and ASRS applies the transition rule in section 101(d)(3) of the pension funding equity act of 2005 in lieu of the rule in subdivision (b) of this paragraph, the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, determined in accordance with internal revenue service notice 2004-78.

6. When calculating the limitations of paragraph 4 or 5 of this subsection, the portion of any joint or survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code shall be disregarded.

D. Subsection C, paragraphs 1 and 2 of this section do not apply to income received from ASRS as a pension, annuity or similar allowance as a result of the recipient developing a disability by personal injury or sickness or to amounts received from ASRS by beneficiaries, survivors or the estate of a member as a result of the death of the member.

E. Notwithstanding any other provision of this section, the annual benefit payable under this article may be reduced to the extent necessary, as determined by the board, to prevent disqualification of ASRS under section 415 of the internal revenue code that imposes additional limitations on the annual benefits payable to members who also may be participating in another tax qualified pension or savings plan of this state. An employer shall not provide employee retirement or deferred benefits if the benefits authorized by this section and as required by federal law result in the failure of ASRS to meet federal qualification standards as applied to public pension plans. The board shall advise affected members of any additional information concerning their annual benefits required by this subsection. All benefits payable pursuant to this subsection shall comply with the limitations of benefits contained in section 415 of the internal revenue code and the final treasury regulations issued under that section. Notwithstanding any provision of this article to the contrary, if the annual benefits within the meaning of section 415 of the internal revenue code for any member exceed the limits of section 415(b) of the internal revenue code and this section, ASRS may only correct the excess pursuant to the employee plans compliance resolution system prescribed in internal revenue service revenue procedure 2008-50 or any future guidance by the internal revenue service, including the preamble of the final treasury regulations issued under section 415 of the internal revenue code.

F. If the maximum amount of benefit allowed under section 415 of the internal revenue code is increased after the commencement date of a member's benefit due to any cost of living adjustment announced by the United States secretary of the treasury pursuant to the provisions of section 415(d) of the internal revenue code, the amount of the monthly benefit payable under ASRS to a member whose benefit is restricted due to the provisions of section 415(d) of the internal revenue code shall be increased by the board as of the date prescribed by the United States secretary of the treasury on which the increase shall become effective. The increase shall reflect the increase in the amount of retirement income that may be payable under this article as a result of the cost of living adjustment.

G. In determining the adjustments to the defined benefit dollar limitation authorized by subsection A of this section, the board shall prescribe a larger defined benefit dollar limitation if prescribed by the United States secretary of the treasury pursuant to section 415(d) of the internal revenue code. An adjustment to the defined benefit dollar limitation prescribed in subsection A of this section is not effective before the first calendar year for which the United States secretary of the treasury publishes the adjustment. After it is prescribed by the board, the new defined benefit dollar limitation applies to the limitation year ending with or within the calendar year for which the secretary of the treasury makes the adjustment.

H. For the purposes of the limitations prescribed by this section, all member and employer contributions made to ASRS to provide a member benefits pursuant to section 38-771 or 38-771.01 and all member contributions that are not treated as picked up by the employer under section 414(h)(2) of the internal revenue code shall be treated as made to a separate defined contribution plan.

I. On termination or partial termination of ASRS, the accrued benefit of each member is, as of the date of termination or partial termination, fully vested and nonforfeitable to the extent then funded.

J. If ASRS terminates, the benefit of any highly compensated employee as defined in section 414(q) of the internal revenue code and any highly compensated former employee is limited to a benefit that is nondiscriminatory under section 401(a)(4) of the internal revenue code and as follows:

1. Benefits distributed to any of the twenty-five active and former highly compensated employees with the greatest compensation in the current or any prior fiscal year are restricted so that the annual payments are no greater than an amount equal to the payment that would be made on behalf of the member under a straight life annuity that is the actuarial equivalent of the sum of the member's accrued benefit, the member's other benefits under ASRS, excluding a social security supplement as defined in 26 Code of Federal Regulations section 1.411(a)-7(C)(4)(ii), and the amount the member is entitled to receive under a social security supplement.

2. Paragraph 1 of this subsection does not apply if either:

(a) After payment of the benefit to a member described in paragraph 1 of this subsection, the value of ASRS assets equals or exceeds one hundred ten per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS.

(b) The value of the benefits for a member described in paragraph 1 of this subsection is less than one per cent of the value of the current liabilities, as defined in section 412(l)(7) of the internal revenue code, of ASRS before distribution.

(c) The value of the benefits payable by ASRS to a member described in paragraph 1 of this subsection does not exceed three thousand five hundred dollars.

K. For the purposes of subsection J of this section, "benefit" includes loans in excess of the amount prescribed in section 72(p)(2)(A) of the internal revenue code, any periodic income, any withdrawal values payable to a living member and any death benefits not provided for by insurance on the member's life.

L. On retirement of a member who was a retired member, who resumed active membership and who subsequently retires, the limitations of this section in effect on the member's subsequent retirement apply to the member's retirement benefit payable as recomputed pursuant to section 38-766. In

addition, the sum of the present value of the member's recomputed retirement benefits plus the present value of the benefits the member received during the member's prior retirement shall not exceed the present value of the limitations in effect on the member's subsequent retirement. The limitations prescribed in this subsection shall not reduce a member's retirement benefit below the retirement benefit the member was receiving before the member resumed active membership. For the purposes of determining present value under this subsection, the board shall use the actuarial equivalent assumptions provided in section 38-711, paragraph 2.

M. For the purposes of this section:

1. The following adjustments shall be made to the definition of compensation prescribed in subsection O of this section:

(a) Compensation shall be adjusted for the types of compensation that are prescribed in this paragraph and that are paid after a member's severance from employment with an employer. Amounts described in subdivisions (b), (c) and (d) of this paragraph may be included only as compensation to the extent the amounts are paid by the later of two and one-half months after severance from employment or by the end of the limitation year that includes the date of the severance from employment. Any other payment of compensation paid after severance of employment that is not described in the types of compensation prescribed in this paragraph is not considered compensation for purposes of this section, even if payment is made within the time period prescribed in this subdivision.

(b) Compensation shall include regular pay after severance of employment if the payment is regular compensation for services performed during the member's regular working hours or compensation for services performed outside the member's regular working hours, such as overtime or shift differential, commission, bonus or other similar payments, and the payment would have been paid to the member before a severance from employment if the member had continued in employment with the employer.

(c) Leave cash-outs shall be included in compensation if those amounts would have been included in compensation if they were paid before the member's severance from employment and the amounts are payment for unused accrued bona fide sick, vacation or other leave, but only if the member would have been able to use the leave if employment had continued.

(d) Deferred compensation shall be included in compensation if the compensation would have been included in compensation if it had been paid before the member's severance from employment and the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid at the same time if the member had continued in employment with the employer and only to the extent that the payment is includable in the member's gross income.

(e) Compensation does include payments to an individual who does not currently perform services for an employer by reason of qualified military service as defined in section 414(u)(5) of the internal revenue code to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(f) Compensation does not include compensation paid to a member who is a person with a permanent and total disability as defined in section 22(e)(3) of the internal revenue code.

(g) Compensation shall include amounts that are includable in the gross income of a member as required by section 409A or section 457(f)(1)(A) of the internal revenue code or because the amounts are constructively received by the member.

2. Compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

3. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate a member for lost wages are compensation for the limitation year to which the back pay relates, but only to the extent the payments represent wages and compensation that would otherwise be included in compensation under this section.

N. The definition of limitation year prescribed in subsection O of this section may only be changed by an amendment to subsection O, except that if ASRS is terminated effective as of a date other than the last day of the limitation year, the termination shall be treated as if this section has been amended to change the definition of limitation year.

O. For the purposes of this section:

1. Annual additions shall be determined as provided in section 38-747, subsection O.

2. "Annual benefit" means a benefit, including any portion of a member's retirement benefit payable to an alternate payee under a qualified domestic relations order that satisfies the requirements prescribed in section 414(p)(1)(A)(i) of the internal revenue code and section 38-773, payable annually in the form of a straight life annuity, disregarding the portion of a joint and survivor annuity that constitutes a qualified joint and survivor annuity as defined in section 417 of the internal revenue code, with no ancillary or incidental benefits or rollover contributions and excluding any portion of the benefit derived from member contributions or other contributions that are treated as a separate defined contribution plan under section 415 of the internal revenue code but including any of those contributions that are picked up by the employer under section 414(h) of the internal revenue code, or that otherwise are not treated as a separate defined contribution plan. If the benefit is payable in another form, the determination as to whether the limitation described in subsection A of this section has been satisfied shall be made by the board by adjusting the benefit so that it is actuarially equivalent to the annual benefit described in this paragraph in accordance with the regulations promulgated by the United States secretary of the treasury. In addition, for determining the annual benefit attributable to member contributions, the factors described in section 411(c)(2)(B) of the internal revenue code and the regulations promulgated under the internal revenue code shall be used by the board regardless of whether section 411 of the internal revenue code applies to ASRS. The factors described in section 411(c)(2)(B) of the internal revenue code shall be those factors described under section 417(e)(3) of the internal revenue code and determined on the basis of the 417(e) mortality table and an interest rate as prescribed in subsection C, paragraph 5 of this section.

3. "Applicable mortality table" means the mortality table described in internal revenue service revenue ruling 2001-62.

4. "Compensation" means the member's earned income, wages, salaries, fees for professional service and other amounts received for personal services actually rendered in the course of employment with the employer and includes amounts described in sections 104(a)(3) and 105(a) of the internal revenue code, but only to the extent that these amounts are includable in the gross income of the member. Compensation also includes any elective deferral as defined in section 402(g)(3) of the internal revenue code and any amount that is contributed or deferred by an

employer at the election of a member and that is not includable in the gross income of the member by reason of section 125, 132(f)(4) or 457 of the internal revenue code. Compensation does not mean:

(a) Employer contributions to a plan of deferred compensation to the extent the contributions are not included in the gross income of the employee for the taxable year in which contributed and any distributions from a plan of deferred compensation, regardless of whether the amounts are includable in gross income of the employee when distributed, except that any amount received by a member pursuant to an unfunded nonqualified plan may be considered as compensation for the purposes of this section in the year the amounts are includable in the gross income of the member under the internal revenue code.
