DEPARTMENT OF HEALTH SERVICES
Title 9, Chapter 10

Amend: R9-10-1201, R9-10-1203, R9-10-1207, R9-10-1209, R9-10-1210

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 13, 2025

SUBJECT: **DEPARTMENT OF HEALTH SERVICES**
Title 9, Chapter 10

Amend: R9-10-1201, R9-10-1203, R9-10-1207, R9-10-1209, R9-10-1210

Summary:

This regular rulemaking from the Department of Health Services (Department) seeks to amend five (5) rules in Title 9, Chapter 10, Article 12 regarding Home Health Agencies. Specifically, the Department indicates it is proposing several rule changes to enhance the administration and oversight of home health agencies. The Department states amendments in R9-10-1203 will limit the number of agencies an administrator can serve to five, aiming to improve oversight and focus on patient care services. The Department indicates, since administrators are responsible for 87.6% of a facility's duties, the new rule changes are expected to provide a significant benefit to administrators for having more manageable workloads, leading to better patient outcomes. Furthermore, the Department is proposing changes in R9-10-1207 to require timely development and regular review of patient care plans to increase transparency and collaboration in patient care plans. Additionally, the Department is proposing amendments to R9-10-1209 to clarify medical record documentation, adding protection for healthcare providers. Lastly, the Department is proposing updates to R9-10-1210 to allow physician assistants to sign orders and include licensed health aides in the workforce, expanding service capabilities and benefiting home health agencies. Overall, the Department indicates these rule changes aim to improve management, patient outcomes, and operational efficiency in home health agencies.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Department is required to protect the health of the people in Arizona, and license and regulate health care institutions. This rulemaking is a result of a 2023 Five-Year Review Report and seeks to align the rules with standards set forth by the Centers for Medicare Medicaid Services. Wholly, the rulemaking seeks to satisfy requirements that the Department adopt rules for health care institutions to reduce monetary or regulatory costs on a person or individuals and facilitate licensing of "integrated health programs that provide both behavioral and physical health services." The Department estimates that stakeholders will benefit from the changes in the rules and that any moderate or substantial costs will be associated with administrators who can no longer oversee more than five facilities.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department has determined that there are no less intrusive or less costly alternatives for achieving the purpose of the rulemaking.

6. What are the economic impacts on stakeholders?

The Department, home health agencies, health care providers (including their patients and their families), and the general public will be directly affected by, bear the costs of, or directly benefit from the rules.

The rulemaking restricts the number of facilities an administrator can be associated with, which is anticipated to enhance oversight of home health agencies and allow for more focused services to patients and families. The Department estimates that administrators who oversee more than five facilities may incur moderate costs (between $1,000 and $10,000) for being stipulated with a limit of five facilities, however the management and operations of a facility will significantly benefit from the new changes in the rules. Further, the rulemaking amends existing

rules to provide greater opportunity for the patient and caregiver(s) to participate in the plan of care. The Department estimates that the new changes in the rule will cause home health agencies to incur minimal (less than $1,000) to no costs, and home health agencies and the patients receiving services from a home health agency will receive a significant benefit for an increase in transparency and collaboration. Other amendments are not expected to increase administrative burden or costs.

The Department is adding a requirement that a home health agency documents and responds to a referral from a health care provider within 48 hours of receiving the referral. The Department expects patients will receive a significant benefit from this change by having a quicker turnaround time in response to the referral. Health care providers and home health agencies may incur a minimal administrative burden; however, the Department believes the benefits of the new rule outweigh the costs.

The rulemaking will have no effect on state revenues.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register on August 9, 2024 and the Notice of Final Rulemaking now before the Council for consideration.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it received three (3) formal written comments during the public comment period from Erica Drury with MGA Healthcare, Jim Melancon with Aveanna Healthcare, and Catherine (Kate) Morrison with Maxim Healthcare. Additionally, at oral proceedings held on September 10, 2024, the Department heard comments from Catherine (Kate) Morrison and Heather Alvarez from Maxim Healthcare Services and Bill Sczepanski from Team Select Homecare. All comments appear to focus on concerns regarding the rules and their applicability to private duty nursing. Summaries of the comments received and the Department's response are included in Section 12 of the Department's Notice of Final Rulemaking Preamble. Additionally, copies of the written comments are included in the final materials for the Council's reference.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department indicates none of the rules included in this rulemaking package require the issuance of a license, permit, or agency authorization.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there is no corresponding federal law.

11. Conclusion

This regular rulemaking from the Department seeks to amend five (5) rules in Title 9, Chapter 10, Article 12 regarding Home Health Agencies. Specifically, the Department indicates it is proposing several rule changes to enhance the administration and oversight of home health agencies.

The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A).

Council staff recommends approval of this rulemaking.

ARIZONA DEPARTMENT OF HEALTH SERVICES

POLICY & INTERGOVERNMENTAL AFFAIRS

October 28, 2024

VIA EMAIL: grrc@azdoa.gov
Jessica Klein, Chair
Governor's Regulatory Review Council
100 North 15th Avenue, Suite 305
Phoenix, Arizona 85007

RE: Department of Health Services, 9 A.A.C. 10, Article 12, Home Health Agencies

Dear Ms. Klein:

The attached final rulemaking package is respectfully submitted for review and approval by the Council. The following information is provided for your use in reviewing the rulemaking package:

1. The close of record date: September 10, 2024

2. Whether the rulemaking relates to five-year-review report and, if applicable, the date the report was approved by the Council:
   The rulemaking for 9 A.A.C. 10, Article 12 is related to a five-year review report.

3. Whether the rulemaking establishes a new fee and, if so, the statutes authorizing the fee:
   The rulemaking does not establish a fee.

4. Whether the rulemaking contains a fee increase:
   The rulemaking does not contain a fee increase.

5. Whether an immediate effective date is requested pursuant to A.R.S. § 41-1032:
   The Department is not requesting an immediate effective date for the rules.

6. A certification that the preamble discloses a reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation or justification for the rule:
   The preamble discloses that the Department did not review any studies relevant to the rules and did not rely on any studies in its evaluation of or justification for the rules.

7. If one or more full-time employees are necessary to implement and enforce the rule, a certification that the preparer of the economic, small business, and consumer impact statement has notified the

Joint Legislative Budget Committee (JLBC) of the number of new full-time employees necessary to implement and enforce the rule:
The Department of Health Services is not required to make a certification to JLBC because the rule does not require any new full-time employees.

8. A list of all documents enclosed:
   - Notice of Final Rulemaking, including the Preamble, Table of Contents, and text of each rule;
   - An economic, small business, and consumer impact statement that contains the information required by A.R.S. §41-1055
   - General and specific statutes authorizing the rules, including relevant statutory definitions
   - Copy of written comments received
   - Copy of current rules
   - Governor's Office approval via e mail from the Policy Advisor (initial and of the Notice of Final Rulemaking)

The Department's point of contact for questions about the rulemaking documents is Lucinda Feeley at Lucinda.Feeley@azdhs.gov.

Sincerely,

Stacie Gravito
Director's Designee

NOTICE OF FINAL RULEMAKING

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES –

HEALTH CARE INSTITUTIONS: LICENSING

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039 by the governor on:

April 17, 2024

2. Article, Part, or Section Affected (as applicable) Rulemaking Action

R9-10-1201	Amend
R9-10-1203	Amend
R9-10-1207	Amend
R9-10-1209	Amend
R9-10-1210	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 36-132(A)(1) and 17, and 36-136(G)

Implementing statute: A.R.S. §§ 36-151 through 36-160, 36-405, 36-406, and 36-411

4. The effective date of the rule:

This rule shall become effective 60 days after a certified original and preamble are filed in the Office of the Secretary of State pursuant to A.R.S. § 41-1032(A). The effective date is (to be filled in by *Register* editor).

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

Not applicable

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 934, May 10, 2024, 19, [R24-78]

Notice of Proposed Rulemaking: 30 A.A.R. 2531, August 9, 2024, 32, File number: [R24-145]

6. The agency's contact person who can answer questions about the rulemaking:

Name:	Thomas Salow
Title:	Assistant Director
Division:	Public Health Licensing
Address:	150 N. 18th Ave., Suite 500, Phoenix, AZ 85007
Telephone:	(602) 542-6383
Email:	thomas.salow@azdhs.gov
or	
Name:	Stacie Gravito
Title:	Office Chief, Administrative Counsel and Rules
Division:	Policy and Intergovernmental Affairs
Address:	150 N. 18th Ave., Suite 200, Phoenix, AZ 85007
Telephone:	(602) 542-1020
Email:	stacie.gravito@azdhs.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes (A.R.S.) § 36-132(A)(1) and (17) require the Arizona Department of Health Services (Department) to

protect the health of the people in Arizona, and license and regulate health care institutions. The Department, in its 2023 Home Health Agencies Five Year Review Report (Report), identified matters that if addressed would improve the effectiveness of the rules. The matters identified in the Report include aligning the rules with standards set forth by the Centers for Medicare and Medicaid Services and amending the rules necessary for the proper administration and enforcement of the laws relating to public health to promote continuity and improve patient outcomes. The purpose of this rulemaking is to amend the rules to address the matters identified and to complete the proposed course of action stated in the Report. The Governor's Regulatory Review Council approved the Report on April 2, 2024, and the Department received rulemaking approval from the governor's office, pursuant to § 41-1039(A) on April 17, 2024.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

Arizona Revised Statutes (A.R.S.) § 36-132(A)(1) and (17) require the Arizona Department of Health Services (Department) to protect the health of the people in Arizona, and license and regulate health care institutions. The rules in 9 A.A.C. 10, Article 12 were established in 2013 to comply with Laws 2011, Ch. 96, which required the Department to adopt rules for health care institutions to reduce costs and facilitate licensing of integrated health programs. This rulemaking focuses on aligning rules with standards set by the Centers for Medicare and Medicaid Services and amending the rules to ensure proper administration and enforcement of public health laws, and improve patient outcomes. By making these changes, the Department aims to enhance the effectiveness of our regulations, promote continuity in care, and improve patient outcomes. This analysis covers the costs and benefits associated with the rule changes related to addressing issues identified in recent five-year review reports and amending rules related to public health and safety. The annual cost and revenue changes are designated as minimal when $1,000 or less, moderate when between $1,000 and $10,000, and substantial when $10,000 or greater in additional costs or revenues. Costs are listed as significant when meaningful or important, but not readily subject to quantification. The Department expects that the individuals who will be directly affected by, bear the costs of, or directly benefit from the rules include the Department, home health agencies, health care providers, patients and their families, and the general public.

The Department is proposing several rule changes to enhance the administration and oversight of home health agencies. Amendments in R9-10-1203 will limit the number of agencies an administrator can serve to five, aiming to improve oversight and focus on patient care services. Since administrators are responsible for 87.6% of a facility's duties, the new rule changes are expected to provide a significant benefit to administrators for having more manageable workloads, leading to better patient outcomes. Administrators who oversee more than five home health agencies may incur moderate costs from the new rules. Furthermore, the changes in R9-10-1207 require timely development and regular review of patient care plans are expected to increase transparency and collaboration in patient care plans, with minimal costs for home health agencies. Amendments to R9-10-1209 clarify medical record documentation, adding protection for healthcare providers without additional costs. Lastly, updates to R9-10-1210 will allow physician assistants to sign orders and include licensed health aides in the workforce, expanding service capabilities and benefiting home health agencies. Overall, these rule changes aim to improve management, patient outcomes, and operational efficiency in home health agencies. The Department estimates that the new changes in the rules may cause home health agencies to incur minimal to no costs, and home health agencies and the patients at a home health agency will receive a significant benefit from increased transparency and collaboration.

The Department expects that limiting the number of facilities an administrator can oversee will enhance oversight and provide more focused services, benefiting healthcare providers, patients, and their families. Additionally, new requirements in R9-10-1207 for documenting and responding to referrals within 48 hours aim to improve patient outcomes by ensuring quicker responses. Also, a new requirement in R9-10-1207 mandates that the care plan be established & implemented within five days. This new requirement may impose minimal costs on home health agencies, but since home health agencies that accept patients will have to implement the care plan, the new requirement clarifies the timeframe that the care plan must be implemented. While this may pose a minimal administrative burden, the Department believes the benefits will outweigh the costs, leading to better collaboration in care plans and overall improved patient care.

Home health agencies benefit the general public by providing essential medical and personal care services, improving health outcomes, and enhancing the quality of life for patients, which help elderly and disabled individuals maintain independence, reduce hospital stays, lower healthcare costs, and support families with professional assistance. The new rules are expected to significantly benefit the public by ensuring proper administration and enforcement of public health laws, promoting continuity, and improving patient outcomes.

The Department expects that most small businesses operating as home health agencies may incur minimal costs under the new rules. However, administrators overseeing more than 40 agencies could face substantial costs due to the new limit of five agencies per administrator. Despite these potential costs, the rule changes are expected to significantly benefit the public by reducing fraudulent activity and improving oversight. With home health and hospice agencies categorized as "high risk" by the Centers for Medicare and Medicaid, the stringent administrative requirements aim to enhance survey readiness and reduce the number of unprepared providers.

The new rules for home health agencies are expected to enhance oversight, improve patient care, and promote better health outcomes. By limiting the number of facilities an administrator can oversee and requiring timely responses to referrals, the rules aim to provide more focused and efficient services. These changes may incur minimal administrative costs for agencies, but the overall benefits, including improved collaboration in care plans, better patient outcomes, and reduced healthcare costs, outweigh the expenses. The general public will benefit from the proper administration and enforcement of public health laws, leading to improved continuity and quality of care.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

The Department did not make any changes between the proposed rulemaking and the final rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Department received three written formal comments from Erica Drury with MGA Healthcare, Jim Melancon with Aveanna Healthcare, and Catherine (Kate) Morrison with Maxim Healthcare.

Comment Summary from Erica Drury, MGA Healthcare:
Drury advocated for amendments to the proposed home health rule to better align with the unique nature of private duty nursing (PDN) services and highlighted that PDN, unlike home health, involves continuous, long-term care for medically stable patients with predictable routines. As such, the frequent supervision required for home health patients is unnecessary for stable PDN patients, imposing undue financial and administrative burdens on providers without improving care outcomes. Drury suggests exempting PDN services from the frequent supervision requirements in section R9-10-1207 and proposes amendments to clearly define PDN in the regulations

Department Response:
In response to Erica Drury's comments, the Department acknowledges the distinction between private duty nursing (PDN) and home health services, but clarifies that the requirement for a Home Health Agency (HHA) license to provide PDN is an Arizona Health Care Cost Containment System (AHCCCS) requirement, not within the Department's regulatory scope. Since PDN is not explicitly addressed in the current rules, the Department cannot define it or make specific exemptions for it in this rulemaking process. The focus of the rulemaking is on clarifying regulations, updating cross-references, and aligning with CMS standards. The Department encourages Erica to continue working with AHCCCS on PDN-related concerns.

Comment Summary from Jim Melancon with Aveanna Healthcare:
Melancon's comments emphasize the need for private duty nursing (PDN) services in Arizona to be distinguished from traditional home health services due to their continuous nature. The comment suggested that supervision requirements for PDN patients, who are often medically stable with well-established care routines, should align with the type of care being provided to avoid unnecessary administrative burdens and costs. Frequent supervision, as required for intermittent home health services, is unnecessary for stable PDN patients. Melancon suggested the Department to further amend the rules to exempt PDN from the rules.

Department Response:
The Department's response acknowledged the differences between private duty nursing (PDN) services and traditional home health care but clarifies that the requirement for a home health agency license to provide PDN services falls under Arizona Health Care Cost Containment System (AHCCCS) regulations, not state licensing rules. The Department does not define or regulate PDN services in the current Chapter 10 rules, and therefore cannot exempt PDN from the proposed changes. While recognizing

the concerns about supervision requirements for stable patients, the rules are designed to regulate home health services and align with state and CMS standards. The Department recommended engagement with AHCCCS for PDN-specific issues.

Comment Summary from Catherine (Kate) Morrison with Maxim Healthcare:

Morrison urges the rules to be amended to exempt PDN agencies from the proposed changes to home health agency licensing requirements under R9-10-1207. Morrison explained that while PDN agencies in Arizona must follow Medicare Conditions of Participation, most states do not require this, as PDN agencies do not typically provide Medicare services. Morrison stated that the proposed changes, particularly regarding care plan updates, are unnecessary and duplicative for PDN agencies, adding administrative burden without improving patient care. In addition, Morrison mentioned the continuous nature of PDN services, where patients have stable, long-term needs, unlike traditional home health patients. Morrison suggested the Department amend the rules to exempt PDN from the requirements outlined in Article 12.

Department Response:

The Department's response to Kate Morrison, the Department acknowledged the feedback on the proposed changes to Home Health Agency licensing requirements. The Department clarified that the requirement to follow Medicare Conditions of Participation for private duty nursing (PDN) services is governed by the Arizona Health Care Cost Containment System (AHCCCS), not the Department. The Department does not regulate or define PDN in Chapter 10 and, therefore, cannot exempt PDN services from the proposed rule changes, which are specific to home health agencies and aligned with Medicare and CMS standards. The Department recommends further engagement with AHCCCS on requirements for PDN services.

Oral Proceeding:

During the Oral Proceeding that the Department held on Tuesday, September 10, 2024, three individuals attended and made comments Catherine (Kate) Morrison and Heather Alvarez from Maxim Healthcare Services and Bill Sczepanski from Team Select Homecare.

Below is a summary of key concerns raised by Morrison and Alvarez:

1. **Care Plan Review and Documentation**: Section R9-10-1207 (Care Plan) requires agencies to review a patient's care plan every 30 days and document the review. However, they believe this is duplicative of their existing processes and would increase the administrative burden without adding significant value. The rule was designed with traditional home health in mind, where visits are short and less frequent (e.g., one hour a day or once a week). In contrast, PDN involves extended daily shifts with patients, often delivered by LPNs or RNs. Since PDN is deeply involved in patient care, reviewing the care plan every 30 days seems unnecessary. Adding this requirement would strain their staffing resources, particularly in rural areas, where they may have to decline patients due to increased workload. Alvarez requested clarification on whether the care plan review must be conducted by an RN or if an LPN, who is already working with the patient, could perform it. Additionally, she questioned whether the review must be in person or if telehealth would suffice since it's a verbal review, not an assessment.
2. **Referral Response Time**: The rule mandates that home health agencies respond to a referral from a healthcare provider within 48 hours. The team expressed concern about whether this requirement is necessary for their specific type of service, particularly for private duty nursing (PDN). This rule also seems suited to traditional home health, not PDN. PDN agencies receive a large number of irrelevant referrals, including for services they don't provide. Responding to every referral would require hiring additional staff and would burden healthcare providers unnecessarily.
3. **Private Duty Nursing (PDN) Exemption**: A key request was to exempt private duty nursing from these rules because PDN differs significantly from traditional home health. They emphasized that their patients typically have stable conditions and do not experience the same frequent changes that warrant the proposed requirements. They argue that PDN should be defined and treated separately in the regulations.

Sczepanski expressed his agreement with the points made by Morrison and Alvarez and mentioned that the proposed rules, while well-intentioned, were created with traditional home health services in mind, not private duty nursing (PDN). PDN patients are typically stable but have acute, long-term care needs. The current rules fail to recognize these differences. Sczepanski recommended the Department to amend the rules to clarify the distinction between PDN and other home health services before finalizing the rules. Bill clarifies that while PDN agencies fall under the home health umbrella in Arizona, they do not provide the same range of services as traditional home health. PDN agencies are focused solely on providing long-term, hourly care, primarily for children with serious medical needs (e.g., tube feeding, ventilators). Unlike home health, PDN does not involve short-term, intermittent care or use of a wide range of disciplines like occupational or physical therapy. He explained that in Arizona, PDN is billed under specific codes (e.g., s9123, s9124), and while agencies must be home health-certified to provide PDN, they are not required to offer all traditional home health services. This distinction is crucial, but it appears misunderstood by those drafting the regulations.

In conclusion, all three individuals who attended the Oral Proceeding advocated for the exemption of PDN services from these home health rules, as they feel the regulations are not well-suited to their specific type of care and operational needs.

Department's Response:

The Department thanked the stakeholders for their attendance and comments. The majority of comments made were geared towards private duty nursing, which is a term not used in the Article 12 rules. The Department clarified that the rules under discussion were for medical licensing by the Arizona Department of Health Services (AZDHS) and not related to access rules from other agencies. Amending the rules further to exempt private duty nurses from the requirements in Article 12 would be outside of the scope of this rulemaking. The Department was approved to amend the rules to address the issues identified in a recent five-year review report which include making the rules more clear, concise, and understandable; updating cross-references and correct grammatical errors; aligning the rules with the Centers for Medicare and Medicaid Services (CMS) standards; and amending rules necessary for the proper administration and enforcement of the laws relating to public health to promote continuity and improve patient outcomes. The proposed rules are intended to encompass all home health facilities, including PDN, under the state's home health services license. The Department acknowledged the concerns stakeholders expressed but emphasized that the Department does not specifically address PDNs in the rules and that the final rulemaking process was moving forward, pending approval from the Governor's office.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

Not applicable

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The rule does not require the issuance of a regulatory permit. Therefore, a general permit is not applicable.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

There are no federal rules applicable to the subject of the rule.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

Not applicable

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

16. The full text of the rules follows:

Rule text begins on the next page.

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES –

HEALTH CARE INSTITUTIONS: LICENSING

ARTICLE 12. HOME HEALTH AGENCIES

Section

ARTICLE 12. HOME HEALTH AGENCIES

R9-10-1201. Definitions

In addition to the definitions in A.R.S. §§ 36-401, 36-151 and R9-10-101, the following apply in this Article, unless otherwise specified:

1. "Branch office" means a location other than a home health agency's main administrative office that:
    a. Operates under the license of the home health agency, and
    b. Is under the control of the home health agency's administrator.
2. "Home health services director" means an individual who provides direction for the home health services provided by or through a home health agency.
3. "Medical social services" means activities that assist a patient to cope with concerns about the patient's illness or injury, and may include helping to find resources to address the patient's concerns.

R9-10-1203. Administration

A. A governing authority shall:

1. Consist of one or more individuals responsible for the organization, operation, and administration of the home health agency;
2. Establish, in writing:
    a. A home health agency's scope of services, and
    b. Qualifications for an administrator;
3. Designate, in writing, an administrator who has the qualifications established in subsection (A)(2)(b);
4. Adopt a quality management program according to R9-10-1204;
5. Review and evaluate the effectiveness of the quality management program at least once every 12 months;
6. Designate, in writing, an acting administrator who has the qualifications established in subsection (A)(2)(b) if the administrator is:
    a. Expected not to be present in a home health agency's administrative office for more than 30 calendar days, or
    b. Not present in a home health agency's administrative office for more than 30 calendar days;
7. Except as provided in subsection (A)(6), notify the Department according to A.R.S. § 36-425(I) when there is a change in the administrator and identify the name and qualifications of the new administrator;
8. Appoint, according to A.R.S. § 36-151(5)(b), an advisory group that consists of four or more members that include:
    a. A physician;
    b. A registered nurse who has at least one year of experience as a registered nurse providing home health services; and
    c. Two or more individuals who represent a medical, nursing, or health-related profession; and
9. Ensure that the advisory group appointed according to subsection (A)(8):
    a. Meets at least once every 12 months,
    b. Documents meetings, and
    c. Assists in establishing and evaluating policies and procedures for the home health agency.

B. An administrator:

1. Shall serve no more than five home health agencies;
~~1.~~2. Is directly accountable to the governing authority of a home health agency for all services provided by the home health agency;
~~2.~~3. Has the authority and responsibility to manage the home health agency;

~~3.~~4. Except as provided in subsection (A)(6), designates, in writing, an individual who is present at the home health agency's administrative office and accountable for services provided by the home health agency when the administrator is not present at the home health agency's administrative office; and

~~4.~~5. Ensures compliance with A.R.S. § 36-411.

C. An administrator shall:

1. Ensure that policies and procedures are established, documented, and implemented to protect the health and safety of a patient that:
    a. Cover job descriptions, duties, and qualifications, including required skills, knowledge, education, and experience for personnel members, employees, and volunteers;
    b. Cover orientation and in-service education for personnel members, employees, and volunteers;
    c. Cover how a personnel member may submit a complaint relating to patient care;
    d. Cover the requirements in A.R.S. Title 36, Chapter 4, Article 11;
    e. Include a method to identify a patient to ensure the patient receives the appropriate services;
    f. Cover patient rights, including assisting a patient who does not speak English or who has a disability to become aware of patient rights;
    g. Cover specific steps for:
        i. A patient to file a complaint, and
        ii. The home health agency to respond to a patient complaint;
    h. Cover health care directives;
    i. Cover medical records, including electronic medical records;
    j. Cover a quality management program, including incident reports and supporting documentation;
    k. Cover contracted services; and
    l. Cover and designate which personnel members or employees are required to have current certification in cardiopulmonary resuscitation and first aid training;
2. Ensure that policies and procedures for services provided by a home health agency are established, documented, and implemented to protect the health and safety of a patient that:
    a. Cover patient admission, discharge planning, and discharge;
    b. Cover the provision of home health services and, if applicable, specific types of supportive services and medical social services;
    c. Include when general consent and informed consent are required;
    d. Cover how personnel members will respond to a patient's sudden, intense, or out-of-control behavior to prevent harm to the patient or another individual;
    e. Cover medication procurement, if applicable, and administration; and
    f. Cover infection control;
3. Ensure that policies and procedures are:
    a. Available to personnel members, employees, and volunteers, and
    b. Reviewed at least once every three years and updated as needed;
4. Ensure that records of advisory group meetings are maintained for at least 24 months after the date of the meeting;
5. Designate, in writing, a home health services director who is:
    a. A physician with at least 24 months of experience working for or with a home health agency; or
    b. A registered nurse with at least three years of nursing experience, including at least 24 months of experience as a registered nurse providing home health services;
6. Ensure that:

a. Speech therapy or speech-language pathology services are provided by a speech-language pathologist according to A.R.S. § 36-1940.01 or speech-language pathologist assistant licensed according to A.R.S. § 36-1940.04;
b. Nutritional services are provided by a registered dietitian;
c. Occupational therapy services are provided by an occupational therapist or occupational therapy assistant;
d. Physical therapy services are provided by a physical therapist or a physical therapist assistant;
e. Respiratory care services are provided by a respiratory therapist, respiratory therapy technician licensed according to A.R.S. Title 32, Chapter 35, or a practical nurse or registered nurse licensed according to A.R.S. Title 32, Chapter 15;
f. Pharmacy services are provided by a pharmacist; and
g. Medical social services are provided:
i. By a personnel member qualified according to policies and procedures that coordinates medical social services; and
ii. For medical social services, related to the practice of social work in A.R.S. § 32-3251, by a personnel member licensed under A.R.S. Title 32, Chapter 33, Article 5;

7. Ensure that the services specified in subsection (C)(6) are provided to a patient only under an order by the patient's physician, registered nurse practitioner, or podiatrist, as applicable; and
8. Unless otherwise stated, ensure that:
a. Documentation required by this Article is provided to the Department within two hours after a Department request; and
b. When documentation or information is required by this Chapter to be submitted on behalf of a home health agency, the documentation or information is provided to the unit in the Department that is responsible for licensing and monitoring the home health agency.

R9-10-1207. Care Plan

A. An administrator shall ensure that a care plan is developed for each patient:
1. Based on an assessment of the patient as required in R9-10-1210(D)(1) or (F)(2)(e)(i);
2. With participation from:
a. The patient's physician, registered nurse practitioner, or podiatrist, as applicable; and
b. A registered nurse; ~~and~~
3. That includes:
a. The patient's diagnosis;
b. Surgery dates relevant to home health services, if applicable;
c. The patient's cognitive awareness of self, location, and time;
d. Functional abilities and limitations;
e. Goals for functional rehabilitation, if applicable;
f. The type, duration, and frequency of each service to be provided;
g. Treatments the patient is receiving from a source other than the home health agency;
h. Medications and herbal supplements reported by the patient or the patient's representative as being used by the patient, and the dose, route of administration, and schedule for administration of each medication or herbal supplement;
i. Any known drug allergies;
j. Nutritional requirements and preferences;
k. Specific measures to improve the patient's safety and protect the patient against injury; and

l. A discharge plan for the patient including, if applicable, a plan for assessing the accomplishment of treatment or therapy goals for the patient~~.~~; and

4. That is established and implemented within five days of start of care.

B. An administrator shall ensure that:

1. Home health services are provided to a patient by the home health agency according to the patient's care plan;
2. The patient's care plan is reviewed and updated:
   a. Whenever there is a change in the patient's condition that indicates a need for a change in the type, duration, or frequency of the services being provided;
   b. If the patient's physician, registered nurse practitioner, or podiatrist, as applicable, orders a change in the care plan; and
   c. At least every 60 calendar days; ~~and~~
3. The patient's care plan is reviewed and documented by a registered nurse, a occupational therapist, a occupational therapist assistant, a physical therapist, or a physical therapist assistant, with the patient or the patient's representative at least every 30 calendar days;
4. The patient's physician, physician assistant, registered nurse practitioner, or podiatrist, as applicable, authenticates the care plan with a signature within 30 calendar days after the care plan is initially developed and whenever the care plan is ~~reviewed or~~ updated~~.~~; and
5. A home health agency documents and responds to a referral from a health care provider within 48 hours of receiving the referral.

R9-10-1209. Medical Records

A. An administrator shall ensure that:

1. A medical record is established and maintained for each patient according to A.R.S. Title 12, Chapter 13, Article 7.1;
2. An entry in a patient's medical record is:
   a. Recorded only by an individual authorized by ~~a~~ policies and procedures to make the entry;
   b. Dated, timed, legible, and authenticated; and
   c. Not changed to make the initial entry illegible;
3. An order is:
   a. Dated when the order is entered in the patient's medical record and includes the time of the order;
   b. Authenticated by a physician, registered nurse practitioner, or podiatrist according to policies and procedures; and
   c. If the order is a verbal order, authenticated by the physician, registered nurse practitioner, or podiatrist issuing the order;
4. If a rubber-stamp signature or an electronic signature is used to authenticate an order, the individual whose signature the rubber-stamp signature or electronic signature represents is accountable for the use of the rubber-stamp signature or electronic signature;
5. A patient's medical record is available to personnel members, physicians, registered nurse practitioners, or podiatrists authorized by policies and procedures to access the patient's medical record;
6. Information in a patient's medical record is disclosed to an individual not authorized under subsection (A)(5) only with the written consent of a patient or the patient's representative or as permitted by law; and
7. A patient's medical record is protected from loss, damage, or unauthorized use.

B. If a home health agency maintains patients' medical records electronically, an administrator shall ensure that:

1. Safeguards exist to prevent unauthorized access, and
2. The date and time of an entry in a patient's medical record is recorded by the computer's internal clock.

C. An administrator shall ensure that a patient's medical record contains:

1. Patient information that includes:
    a. The patient's name;
    b. The patient's address and telephone number;
    c. The patient's date of birth; and
    d. Any known allergies, including medication allergies;
2. The date the patient began receiving services from the home health agency and, if applicable, the date the patient stopped receiving services from the home health agency;
3. The name and telephone of the patient's physician or registered nurse practitioner;
4. The name and telephone number of patient's podiatrist, if applicable;
5. Documentation of general consent and, if applicable, informed consent;
6. Documentation of medical history and current diagnoses;
7. A copy of the patient's health care directive, if applicable;
8. If applicable, the name and contact information of the patient's representative and:
    a. If the patient is 18 years of age or older or an emancipated minor, the document signed by the patient consenting for the patient's representative to act on the patient's behalf; or
    b. If the patient's representative;
        i. Is a legal guardian, a copy of the court order establishing guardianship; or
        ii. Has a health care power of attorney established under A.R.S. § 36-3221 or a mental health care power of attorney executed under A.R.S. § 36-3282, a copy of the health care power of attorney or mental health care power of attorney;
9. Orders;
10. Assessments;
11. Care plan;
12. Progress notes;
13. If applicable, documentation of any actions taken to control the patient's sudden, intense, or out-of-control behavior to prevent harm to the patient or another individual;
14. Documentation of meetings with the patient to assess the home health services and supportive services provided to the patient;
15. The disposition of the patient upon discharge;
16. The discharge plan;
17. Discharge instructions and discharge summary, if applicable;
18. If applicable:
    a. Laboratory reports,
    b. Radiologic reports,
    c. Diagnostic reports, and
    d. Consultation reports;
19. Documentation of a medication administered to the patient that includes:
    a. The date and time of administration;
    b. The name, strength, dosage, and route of administration;
    c. For a medication administered for pain:
        i. An assessment of the patient's pain before administering the medication, and
        ii. The effect of the medication administered;

d. For a psychotropic medication:
    i. An assessment of the patient's behavior before administering the psychotropic medication, and
    ii. The effect of the psychotropic medication administered;
e. The identification, signature, and professional designation of the individual administering or observing the self-administration of the medication; and
f. Any adverse reaction a patient has to the medication;

20. Documentation of tasks assigned to a home health aide or other personnel member;
21. Documentation of coordination of patient care;
22. Copies of patient summary reports sent to the patient's physician, registered nurse practitioner, or podiatrist, as applicable; and
23. Documentation of contacts with the patient's physician, registered nurse practitioner, or podiatrist, as applicable, by a personnel member or the patient.

R9-10-1210. Home Health Services

A. An administrator shall ensure that an individual admitted to the home health agency has an order from a physician, registered nurse practitioner, physician assistant, or podiatrist for home health services.

B. An administrator shall ensure that the home health services director provides direction for home health services provided by or through the home health agency.

C. A home health services director shall ensure that nursing services are provided by a registered nurse or practical nurse, according to policies and procedures.

D. A home health services director shall ensure that a registered nurse:

1. Unless a patient's physician, physician assistant, or registered nurse practitioner orders only speech therapy, occupational therapy, or physical therapy for the patient, within 48 hours after the patient begins receiving home health services provided by or through the home health agency, conducts and document an initial assessment of the patient to determine:
    a. The needs of the patient;
    b. Resources available to address the patient's needs;
    c. The patient's home and family environment;
    d. Goals for patient care;
    e. Medications used by the patient, including non-compliance, drug interactions, side effects, and contraindications; and
    f. Medical supplies or equipment needed by the patient;
2. Reviews a patient's health care directives at the time of the initial assessment;
3. Implements a patient's care plan, developed as specified in R9-10-1207;
4. Coordinates patient care with other individuals providing home health services or other services to the patient;
5. Immediately informs the patient's physician or registered nurse practitioner of a change in a patient's condition that requires medical services; and
6. At least every 60 calendar days until a patient is discharged:
    a. Reassesses the patient based on the patient's care plan, needs, and medical condition; and
    b. Summarizes the patient's condition and needs for the patient's physician, registered nurse practitioner, or podiatrist, as applicable.

E. A home health services director shall ensure that:

1. A patient's condition and the services provided to the patient are documented in the patient's medical record after each patient contact; and

2. Verbal orders from a patient's physician, registered nurse practitioner, or podiatrist, as applicable, are:
    a. Except as specified in subsection (F)(2)(d), received by a registered nurse and documented by the registered nurse in the patient's medical record; and
    b. Authenticated by the patient's physician, registered nurse practitioner, or podiatrist, as applicable, with a signature, within 30 calendar days.

F. A home health services director shall ensure that:

1. A registered nurse:
    a. Except as specified in subsection (F)(2)(b)(i) and (ii):
        i. Assigns tasks in writing to a home health aide or licensed health aide who is providing home health services to a patient; and
        ii. Verifies the competency of the home health aide or licensed health aide in performing assigned tasks;
    b. Except as specified in subsection (F)(2)(b)(iii), provides direction for the home health aide or licensed health aide services provided to a patient; and
    c. Except as specified in subsection (F)(2)(e)(ii), meets with a patient who is receiving home health aide or licensed health aide services to assess the home health services provided by the home health aide or licensed health aide:
        i. At least every two weeks when the patient is also receiving nursing services or therapy services, and
        ii. At least every 60 calendar days when the patient is only receiving home health aide or licensed health aide services;
2. When a patient's physician or registered nurse practitioner orders speech therapy, occupational therapy, or physical therapy for the patient, an individual specified in R9-10-1203(C)(6)(a), (c), or (d), as applicable:
    a. Provides the applicable therapy service to the patient according to the patient's care plan;
    b. If a home health aide or licensed health aide is assigned to assist the patient in performing activities related to the therapy service:
        i. Assigns tasks in writing to the home health aide or licensed health aide who is assisting the patient;
        ii. Verifies the competency of the home health aide or licensed health aide in performing assigned tasks; and
        iii. Provides direction to the home health aide or licensed health aide in performing the assigned tasks related to the therapy service;
    c. Coordinates the provision of the therapy service to the patient with the registered nurse providing direction for other home health services for the patient;
    d. Documents in the patient's medical record any orders by the patient's physician or registered nurse practitioner received concerning the therapy service; and
    e. If the only home health services ordered for the patient are speech therapy, occupational therapy, or physical therapy:
        i. Within 48 hours after the patient begins receiving home health services provided by or through the home health agency, conducts an initial assessment of the patient as specified in subsections (D)(1)(a) through (f); and
        ii. Meets with a patient who is receiving home health services from a home health aide or licensed health aide every two weeks to assess the home health services provided by the home health aide; and
3. A home health aide:
    a. Is only assigned to provide services the home health aide can competently perform; and

b. Only performs tasks assigned to the home health aide in writing by a registered nurse or as specified in subsection (F)(2)(b)(i).

4. A licensed health aide:

a. Is only licensed to provide services the licensed health aide can competently perform, and

b. Only performs tasks assigned to the licensed health aide in writing by a registered nurse and as specified under A.R.S. § 32-1601(14).

ARIZONA DEPARTMENT
OF HEALTH SERVICES

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES - HEALTH CARE INSTITUTIONS: LICENSING ARTICLE 12. HOME HEALTH AGENCIES

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

September 2024

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES -

HEALTH CARE INSTITUTIONS: LICENSING

ARTICLE 12. HOME HEALTH AGENCIES

1. An identification of the rulemaking

Arizona Revised Statutes (A.R.S.) § 36-132(A)(1) and (17) require the Arizona Department of Health Services (Department) to protect the health of the people in Arizona, and license and regulate health care institutions. The Department, in its 2023 Home Health Agencies Five Year Review Report (Report), identified matters that if addressed would improve the effectiveness of the rules. The matters identified in the Report include aligning the rules with standards set forth by the Centers for Medicare and Medicaid Services and amending the rules necessary for the proper administration and enforcement of the laws relating to public health to promote continuity and improve patient outcomes. The purpose of this rulemaking is to amend the rules to address the matters identified and to complete the proposed course of action stated in the Report. The Governor's Regulatory Review Council approved the Report on April 2, 2024, and the Department received rulemaking approval from the governor's office, pursuant to § 41-1039(A) on April 17, 2024. The changes will conform to the current rulemaking format and style requirements of the Governor's Regulatory Review Council and the Office of the Secretary of State.

2. Cost/Benefit Analysis

This analysis covers the costs and benefits associated with the rule changes related to addressing issues identified in recent five-year review reports and amending rules necessary for the proper administration and enforcement of the laws relating to public health. The annual cost and revenue changes are designated as minimal when $1,000 or less, moderate when between $1,000 and $10,000, and substantial when $10,000 or greater in additional costs or revenues. Costs are listed as significant when meaningful or important, but not readily subject to quantification.

3. Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the rules

a. The Department

b. Home health agencies

c. Health care providers, and patients and their families

d. The general public

A. The Department

The rules in 9 A.A.C. 10, Article 12 were made new in 2013 as part of an exempt rulemaking of 9 A.A.C. 10 and 9 A.A.C. 20 to comply with Laws 2011, Ch. 96 that required the Department to adopt rules for health care institutions to reduce monetary or regulatory costs on a person or individuals and facilitate licensing of "integrated health programs that provide both behavioral and physical health services."

In this rulemaking, the Department is amending four Sections to address issues identified in a recent five-year review report, align the rules with standards set forth by the Centers for Medicare and Medicaid Services, and amend the rules necessary for the proper administration and enforcement of the laws relating to public health to promote continuity and improve patient outcomes.

B. Home Health Agencies

In this rulemaking the Department is creating a new subsection in R9-10-1203, and including that a home health administrator can serve to no more than five. Currently the rules do not stipulate how many agencies an administrator can serve. Restricting the number of facilities an administrator can be associated with is anticipated to enhance oversight of home health agencies and allow for more focused services to patients and families. Of the approximately 113 responsibilities of a home health agency, 99 are the distinct responsibility of the administrator. That is 87.6% of a facility's responsibility directly on the administrator. To ensure that a facility has proper leadership, personnel and administrative oversight it is only logical to limit the number of facilities for which a single person can be the administrator. This does not take into account the travel time between facilities and the necessity for continuity of administrative duties, a greater opportunity to know and lead staff, all of which will undoubtedly lead to fewer negative outcomes. The Department estimates that administrators who oversee more than five facilities may incur moderate costs for being stipulated with a limit of five facilities, however the management and operations of a facility will significantly benefit from the new changes in the rules.

Furthermore, the Department is amending rules in R9-10-1207, *Care Plan* to provide for more transparency, along with increased patient and caregiver collaboration with the proposed plan of care. The Department is creating a new subsection requiring the administrator to ensure that a care plan is developed for each patient and established and implemented within five days of start of care, and another new subsection to require the administrator to ensure that care is reviewed and documented with the patient or the patient’s representative at least every 30 calendar days. The greater the opportunity for the patient and caregiver(s) to participate in the plan of care, the greater the feeling of autonomy is for the patient. The process is not financially or workplace intensive, but a simple and succinct declaration in the nursing/physical therapy/occupational therapy narrative stating that the care plan has been reviewed and that no changes are seen as necessary by the patient and

caregiver(s) at this time. No signature from a prescribing professional advisory group member or prescriber is needed if no change is warranted. No additional visits are required outside of the regularly scheduled care plan to accommodate the change. Therefore, the Department estimates that the new changes in the rule will cause home health agencies to incur minimal to no costs, and home health agencies and the patients receiving services from a home health agency will receive a significant benefit for an increase in transparency and collaboration.

To clarify that the time should also be documented in a patient's medical entry, the Department is amending the rules in R9-10-1209, *Medical Records.* The Department does not expect this change to increase any sort of cost, rather it is a clarification of the current rule and is not expected to increase administrative burden. Additionally, the new change is expected to benefit healthcare providers by adding an extra layer of protection to their work. For instance, if a patient claims they did not receive their medication on time, the documented records with precise time and date would serve as a safeguard. Lastly, in R9-10-1210, *Home Health Services*, the Department is amending the rules to allow for a physician assistant to sign an order. In addition, the Department is adding a licensed health aide in compliance with A.R.S. § 32-1601(14) to work in a similar capacity to a home health aide. Both of the new changes in R9-10-1210 are expected to significantly benefit a home health agency by expanding the services provided by these professionals.

C. Health care providers, and patients and their families

The Department expects that health care providers that work at a home health agency and patients, and their families will increase collaborative efforts in care plans which can lead to patients and families having better outcomes. Limiting the number of facilities that an administrator can be affiliated with is expected to provide greater oversight of home health agencies and provide more focused services to patients and families.

In R9-10-1207, the Department is adding a requirement that a home health agency documents and responds to a referral from a health care provider within 48 hours of receiving the referral. The Department expects patients will receive a significant benefit from this change by having a quicker turnaround time in response to the referral. Health care providers and home health agencies may incur a minimal administrative burden, however the Department believes the benefits of the new rule outweigh the costs.

D. The General Public

Home health agencies significantly impact the general public by providing essential medical and personal care services to individuals in their homes, often resulting in improved health outcomes and quality of life for patients. These agencies enable elderly and disabled individuals to maintain independence and avoid prolonged hospital stays, reducing the burden on healthcare facilities and lowering overall healthcare costs. Additionally,

they support families by offering care and professional assistance, which can alleviate stress on the families and improve the well-being of patients.

The general public is expected to receive a significant benefit from the new rules by updating rules related to home health agencies that allow for the proper administration and enforcement of the laws relating to public health to promote continuity and improve patient outcomes.

A statement of the probable impact of the rules on small businesses

The Department expects that most small businesses operating as a home health agency may incur minimal costs under the new rules. However, there are some administrators who oversee 40+ home health agencies. By the Department limiting the number of agencies to five, some administrators operating a small business may incur substantial costs by not being allowed to operate as many home health agencies. In recent months the Department has become aware of home health agency fraud that can be minimized by adhering to more stringent administrative requirements. The inclusion of home health and hospice agencies to the Center for Medicare and Medicaid's "high risk" category is indicative of the need to more aggressively address limitations on the number of facilities that one administrator can serve. The Department surveyors have seen a definite increase in the number of licenses surrendered due to poor survey outcomes and abandoned locations. The majority of responsibilities for a home health agency, more than 70%, depend on the acuity and timeliness of the administrator, to this end the Department is suggesting an administrator be limited to 5 facilities. Limiting the number of facilities can increase the time dedicated to the preparation, policies and survey readiness, which can assist in reducing the number of providers that are unprepared for surveys. The Department estimates that the costs associated with this change in the rule will provide a significant benefit to the public due to the amount of fraudulent activity related to home health agencies, as described above.

a. Identification of the small businesses subject to the rules

Small businesses subject to the rule may include home health agencies that are privately owned.

b. The administrative and other costs required for compliance with the rules

A summary of the administrative effects of the rulemaking is given in the cost and benefit analysis in Section 2.

c. A description of the methods that the agency may use to reduce the impact on small businesses

The Department knows of no other methods to further reduce the impact on small businesses.

d. The probable costs and benefits to private persons and consumers who are directly affected by the rules

A summary of the effects of the rulemaking on private persons and consumers is given in the cost and benefit analysis.

6. A statement of the probable effect on state revenues

The rulemaking is not expected to have an effect on state revenues.

7. A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking

The Department has determined that there are no less intrusive or less costly alternatives for achieving the purpose of the rulemaking.

8. A description of any data on which the rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data

Not applicable

Notice of Proposed Rulemaking 30 A.A.R. 2531

Lucinda Feeley <lucinda.feeley@azdhs.gov> Thu, Sep 12, 2024 at 2:27 PM
To: Erica Drury <edrury@mgahomecare.com>
Cc: "thomas.salow@azdhs.gov" <thomas.salow@azdhs.gov>, Stacie Gravito <stacie.gravito@azdhs.gov>, Emily Rice <erice@b3strategies.com>
Bcc: Kristy Egg <kristy.egg@azdhs.gov>, Stephanie Seitz <stephanie.seitz@azdhs.gov>

Good afternoon Erica,

Thank you for your comments and suggested amendments regarding the Notice of Proposed Rulemaking for home health. We appreciate your input regarding private duty nursing services and home health care services, as well as the implications for supervision and administrative burden.

However, the requirement for a Home Health Agency license to provide private duty nursing services is an Arizona Health Care Cost Containment System (AHCCCS) requirement, not a state licensing issue under the Department's purview. The Department does not license or define private duty nursing separately in Chapter 10, as this term is not used in the rules. As a rulemaking standard, the Department can only define terms that are used within the relevant regulations.

The current rulemaking process is focused on addressing issues identified in the recent five-year-review report, including improving clarity, updating cross-references, and aligning with CMS standards to ensure better continuity of care and patient outcomes. While private duty nursing is a crucial service, it does not fall under the scope of this specific rulemaking effort. We recommend that you continue engaging with AHCCCS on matters related to private duty nursing and home health agency licensing requirements.

Thank you again for your feedback and for your dedication to improving patient care.

Best Regards,

Administrative Counsel and Rules

>
> In order to provide private duty nursing (PDN) services in Arizona, a provider must have a home health agency license. While PDN may be under the umbrella of home health agency licensure, PDN services are continuous which differs greatly from home health care services which are short term and intermittent. Therefore, supervision of cares should correlate with the services and model. Overly stringent supervision can lead to unnecessary costs and administrative burdens, especially when the patients in question are stable given their medical complexities and their care routines are well-established. Below is an overview of the differences between a PDN patient and home health care patient as well as suggested amendments to the proposed rule.
>
> 1. **Patient Stability:**

- **PDN:** In cases where patients have chronic conditions but are medically stable, the need for continuous oversight is reduced. These patients typically have predictable care routines and require ongoing nursing interventions that are routine in nature, such as ventilator management, medication administration, or assistance with activities of daily living.
- **Home Health:** Often serves patients recovering from acute episodes, who may require more dynamic adjustments in care. This could justify more frequent supervision. However, for stable PDN patients, their conditions are not subject to sudden changes, making frequent supervisory check-ins unnecessary.

2. **Well-Established Care Plans:**
   - **PDN:** For stable patients, care plans are typically long-standing and well understood by both the nurse and the patient's family. These nurses often work with the same patient for extended periods, developing deep familiarity with their medical and personal needs. This consistency reduces the need for constant supervision, as the nurse is already highly attuned to the patient's care.
   - **Home Health:** May involve more intermittent care, often from different providers, justifying more supervision to ensure continuity. But in PDN cases, the established rapport between the nurse and the patient allows for less direct oversight.
3. **Cost Considerations:**
   - **PDN:** Requiring frequent supervision for stable patients results in significant additional costs without improving patient outcomes. The stable nature of these patients' conditions means that the existing supervision levels are already sufficient to ensure safety and quality of care. Reducing the frequency of supervision would cut costs without compromising care.
   - **Home Health:** For less predictable conditions, higher levels of oversight may be necessary. However, imposing the same supervision standards on stable PDN patients creates an unnecessary financial burden.
4. **Burden on Providers:**
   - **PDN:** The high demand for PDN nurses means that time spent on excessive supervision diverts resources away from direct patient care. Easing supervisory requirements for stable patients allows nurses to focus more on delivering quality care and reduces the administrative load on supervisors and healthcare agencies.
   - **Home Health:** For more dynamic or complex cases, supervision is essential to adapt care quickly. However, stable PDN patients do not require this level of oversight, making frequent supervision redundant and inefficient.

In summary, PDN for stable patients should involve less frequent supervision to reduce costs and alleviate unnecessary burdens on healthcare providers. Since these patients are medically stable, frequent check-ins provide little added value and are an inefficient use of resources. Thus, PDN should be defined in R9-10-1201 and exempt from provision R9-10-1207.B.3, due to the nature of private duty nursing services being continuous and changes to the plan of care are less frequent than those of traditional/intermittent home health care services. The proposed private duty nursing services definition comes from federal regulation under CFR Title 42, § 440.80. Please let me know if you have any questions regarding the proposed amendments or would like to discuss further.

PROPOSED AMENDMENTS:

Amend section R9-10-1201:

***4. Private duty nursing services* means nursing services for beneficiaries who require more individual and continuous care than is available from a visiting nurse or routinely provided by the nursing staff of the hospital or skilled nursing facility. These services are provided—**

(a) By a registered nurse or a licensed practical nurse;

(b) Under the direction of the beneficiary's physician; and

(c) To a beneficiary in one or more of the following locations at the option of the State—

(1) His or her own home;

(2) A hospital; or

(3) A skilled nursing facility.

Amend section R9-10-1207:

6. Private duty nursing services, as defined in R9-10-1201.4, shall not apply to subsection (B)(3).

Thank you for the opportunity to comment.

Best,

Erica Drury

Notice of Proposed Rulemaking 30 A.A.R. 2531

Lucinda Feeley <lucinda.feeley@azdhs.gov> Thu, Sep 12, 2024 at 3:03 PM
To: Jim Melancon <Jim.Melancon@aveanna.com>
Cc: "thomas.salow@azdhs.gov" <thomas.salow@azdhs.gov>, Stacie Gravito <stacie.gravito@azdhs.gov>, Jim Melancon <Jim.Melancon@aveanna.com>
Bcc: Kristy Egg <kristy.egg@azdhs.gov>, Stephanie Seitz <stephanie.seitz@azdhs.gov>

Hello Jim,

Thank you for submitting your comments and proposed amendments regarding the Notice of Proposed Rulemaking for Home Health Agencies. We appreciate your input and insights regarding private duty nursing (PDN) services and traditional home health care.

While PDN services may indeed differ from home health care in terms of continuity and patient stability, the requirement for a provider to hold a home health agency license to deliver PDN services is governed by Arizona Health Care Cost Containment System (AHCCCS) regulations, not by the state's licensing rules. The Department does not define or regulate PDN services under the current Chapter 10 rules, as this term is not used within the existing framework. Therefore, we are unable to exempt PDN services from the proposed rule changes or define them in the manner suggested.

Regarding your concern about supervision requirements under R9-10-1207, we understand the desire to reduce administrative burdens for providers serving stable patients. However, the proposed rules are designed to address the regulatory oversight necessary for home health services, which remain distinct from PDN services under our regulatory authority. These rules are in place to ensure compliance with state licensing standards and align with CMS requirements.

We encourage you to continue working with AHCCCS regarding potential adjustments to the oversight and supervision requirements specific to PDN services. Thank you again for your thoughtful feedback, and please feel free to reach out with any additional questions.

Best regards,

Administrative Counsel and Rules

> Thank you for the opportunity to comment and provide and suggested amendments for the Notice of Proposed Rulemaking 30 A.A.R. 2531 for home health.
>
> To provide private duty nursing (PDN) services in Arizona, a provider must be a duly licensed home health agency. And while PDN may fall under the umbrella of home health agency licensure, these services are continuous and not intermittent, or visit based like traditional home health services. Therefore, supervision of care should correlate with the services being provided. Overly stringent supervision can lead to unnecessary costs and administrative burden, especially when the patients receiving PDN services are stable given their medical complexities and their care routines are well-established. Below is an overview of some of the differences between a PDN patient and home health nursing patient. Additionally, suggested amendments are provided to the proposed rule.
>
> 1. **Patient Stability:**

- **PDN:** In cases where patients have chronic conditions but are medically stable, the need for continuous oversight is reduced. These patients typically have predictable care routines and require ongoing nursing interventions that are routine in nature, such as ventilator management, medication administration, or assistance with activities of daily living.
- **Home Health:** Often serves patients recovering from acute episodes, who may require more dynamic adjustments in care. This could justify more frequent supervision. However, for stable PDN patients, their conditions are not subject to sudden changes, making frequent supervisory check-ins unnecessary.

2. **Well-Established Care Plans:**
   - **PDN:** For stable patients, physician-approved care plans are typically long-standing and well understood by both the nurse and the patient's family. These nurses often work with the same patient for extended periods, developing deep familiarity with their patient's medical and personal needs. This consistency reduces the need for constant supervision, as the nurse is already highly attuned to the patient's care.
   - **Home Health:** Generally, involves more intermittent care, often from different providers, justifying more supervision to ensure continuity. With PDN cases, the established rapport between the nurse and the patient allows for less direct oversight.
3. **Cost Considerations:**
   - **PDN:** Requiring frequent supervision for stable patients results in significant additional costs without improving patient outcomes. The stable nature of these patients' conditions means that the existing supervision levels are already sufficient to ensure safety and quality of care. Reducing the frequency of supervision would cut costs without compromising care.
   - **Home Health:** For less predictable conditions, higher levels of oversight may be necessary. However, imposing the same supervision standards on stable PDN patients creates an unnecessary financial burden.
4. **Burden on Providers:**
   - **PDN:** The high demand for PDN nurses means that time spent on excessive supervision diverts resources away from direct patient care. Easing supervisory requirements for stable patients allows nurses to focus more on delivering quality care and reduces the administrative load on supervisors and healthcare agencies.
   - **Home Health:** For more dynamic or complex cases, supervision is essential to adapt care quickly. However, stable PDN patients do not require this level of oversight, making frequent supervision redundant and inefficient.

In summary, PDN for stable patients should involve less frequent supervision to reduce costs and alleviate unnecessary burdens on healthcare providers. Since these patients are medically stable, frequent check-ins provide little added value and are an inefficient use of resources. Thus, PDN should be defined in R9-10-1201 and exempt from provision R9-10-1207.B.3, due to the nature of private duty nursing services being continuous and changes to the plan of care are less frequent than those of traditional/intermittent home health care services. The proposed private duty nursing services definition comes from federal regulation under CFR Title 42, § 440.80. Please let me know if you have any questions regarding the proposed amendments or would like to discuss further.

PROPOSED AMENDMENTS:

Amend section R9-10-1201:

4. Private duty nursing services **means nursing services for beneficiaries who require more individual and continuous care than is available from a visiting nurse or routinely provided by the nursing staff of the hospital or skilled nursing facility. These services are provided—**

(a) By a registered nurse or a licensed practical nurse;

(b) Under the direction of the beneficiary's physician; and

(c) To a beneficiary in one or more of the following locations at the option of the State—

(1) His or her own home;

(2) A hospital; or

(3) A skilled nursing facility.

Amend section R9-10-1207:

6. Private duty nursing services, as defined in R9-10-1201.4, shall not apply to subsection (B)(3).

Comments // TITLE 9. HEALTH SERVICES - Article 12. Home Health Agencies

Lucinda Feeley <lucinda.feeley@azdhs.gov> Thu, Sep 12, 2024 at 2:52 PM
To: Catherine Morrison <caperezl@maxhealth.com>
Cc: "thomas.salow@azdhs.gov" <thomas.salow@azdhs.gov>, "stacie.gravito@azdhs.gov" <stacie.gravito@azdhs.gov>
Bcc: Kristy Egg <kristy.egg@azdhs.gov>, Stephanie Seitz <stephanie.seitz@azdhs.gov>

Hello Kate,

Thank you for your comments regarding the proposed changes to licensing requirements for Home Health Agencies. We appreciate your input and feedback on the potential impact of these changes.

It is important to note that the requirement to follow Medicare Conditions of Participation (CoP) for private duty nursing (PDN) services is an Arizona Health Care Cost Containment System (AHCCCS) requirement, not a licensing issue governed by the Department. The Department does not regulate or define private duty nursing in Chapter 10 since this term is not used in the existing rules. As such, we are unable to exempt PDN services from the proposed rule changes. These rules are specific to Home Health Agencies and align with the scope of services defined under Medicare and CMS standards.

Regarding your concern about R9-10-1207 and the care plan requirements, we recognize that PDN services involve continuous care, which differs from the intermittent care typical of home health services. However, the proposed rules are designed to address the regulatory needs of home health care services under state jurisdiction, and PDN services fall outside of this particular rulemaking.

We encourage you to continue engaging with AHCCCS regarding the Medicare CoP requirements for PDN services and appreciate your dedication to improving patient care. Thank you again for your feedback, and please feel free to reach out if you have any further questions or concerns.

Best regards,

Administrative Counsel and Rules

> Hello,
>
> Thank you for the opportunity to comment on proposed changes to licensing requirements for Home Health Agencies.
>
> As a private duty nursing (PDN) provider in Arizona, we are required to follow these licensing requirements under Medicare Conditions of Participation (CoP). Most states do not require PDN agencies to follow Medicare CoP regulations, as we do not provide Medicare services. We are eager to work with the state to remove those requirements.
>
> In the meantime, any new licensing rules for Home Health Agencies will impact PDN agencies. The proposed changes in R9-10-1207. Care Plan are unnecessary or duplicative to existing processes within our standard of care. This proposed change adds administrative burden that does not directly improve patient care or quality.

For example, a typical home health patient may receive care in their home for a short-term need, such recovery after knee surgery. A typical PDN patient requires continuous, skilled nursing care, often with ventilators or G-tubes, and does not frequently change status. However, when a PDN patient does enter the hospital, we are required to update the plan of care and authorization documents, ensuring quality of care and communication with the patient and patient representatives.

We urge you to please exempt PDN from the proposed rule changes. See language below.

Kate Morrison

Amend section R9-10-1201:

4. Private duty nursing services means nursing services for beneficiaries who require more individual and continuous care than is available from a visiting nurse or routinely provided by the nursing staff of the hospital or skilled nursing facility. These services are provided—

(a) By a registered nurse or a licensed practical nurse;

(b) Under the direction of the beneficiary's physician; and

(c) To a beneficiary in one or more of the following locations at the option of the State—

(1) His or her own home;

(2) A hospital; or

(3) A skilled nursing facility.

Amend section R9-10-1207:

6. Private duty nursing services, as defined in R9-10-1201.4, shall not apply to subsection (B)(3).

9 A.A.C. 10

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES - HEALTH CARE INSTITUTIONS: LICENSING

Authority: A.R.S. §§ 36-132(A)(1), 36-136(G)

ARTICLE 12. HOME HEALTH AGENCIES

Section

ARTICLE 12. HOME HEALTH AGENCIES

R9-10-1201. Definitions

In addition to the definitions in A.R.S. § 36-401 and R9-10-101, the following apply in this Article, unless otherwise specified:

1. "Branch office" means a location other than a home health agency's main administrative office that:
   a. Operates under the license of the home health agency, and
   b. Is under the control of the home health agency's administrator.
2. "Home health services director" means an individual who provides direction for the home health services provided by or through a home health agency.
3. "Medical social services" means activities that assist a patient to cope with concerns about the patient's illness or injury, and may include helping to find resources to address the patient's concerns.

R9-10-1202. Supplemental Application Requirements

In addition to the license application requirements in A.R.S. § 36-422 and R9-10-105, an applicant for a license as a home health agency shall:

1. Include on the application:
   a. The name and address of each proposed branch office, if applicable; and
   b. The geographic region to be served by:
      i. The proposed home health agency's administrative office, and
      ii. Each proposed branch office; and
2. Submit to the Department a copy of a valid fingerprint clearance card issued according to A.R.S. Title 41, Chapter 12, Article 3.1 for:
   a. The applicant, if the applicant is an individual; or
   b. Each individual with a 10% or greater ownership of the business organization, if the applicant is a business organization.

R9-10-1203. Administration

A. A governing authority shall:

1. Consist of one or more individuals responsible for the organization, operation, and administration of the home health agency;
2. Establish, in writing:
   a. A home health agency's scope of services, and
   b. Qualifications for an administrator;
3. Designate, in writing, an administrator who has the qualifications established in subsection (A)(2)(b);
4. Adopt a quality management program according to R9-10-1204;
5. Review and evaluate the effectiveness of the quality management program at least once every 12 months;
6. Designate, in writing, an acting administrator who has the qualifications established in subsection (A)(2)(b) if the administrator is:
   a. Expected not to be present in a home health agency's administrative office for more than 30 calendar days, or
   b. Not present in a home health agency's administrative office for more than 30 calendar days;
7. Except as provided in subsection (A)(6), notify the Department according to A.R.S. § 36-425(I) when there is a change in the administrator and identify the name and qualifications of the new administrator;

8. Appoint, according to A.R.S. § 36-151(5)(b), an advisory group that consists of four or more members that include:
   a. A physician;
   b. A registered nurse who has at least one year of experience as a registered nurse providing home health services; and
   c. Two or more individuals who represent a medical, nursing, or health-related profession; and
9. Ensure that the advisory group appointed according to subsection (A)(8):
   a. Meets at least once every 12 months,
   b. Documents meetings, and
   c. Assists in establishing and evaluating policies and procedures for the home health agency.

B. An administrator:
1. Is directly accountable to the governing authority of a home health agency for all services provided by the home health agency;
2. Has the authority and responsibility to manage the home health agency;
3. Except as provided in subsection (A)(6), designates, in writing, an individual who is present at the home health agency's administrative office and accountable for services provided by the home health agency when the administrator is not present at the home health agency's administrative office; and
4. Ensures compliance with A.R.S. § 36-411.

C. An administrator shall:
1. Ensure that policies and procedures are established, documented, and implemented to protect the health and safety of a patient that:
   a. Cover job descriptions, duties, and qualifications, including required skills, knowledge, education, and experience for personnel members, employees, and volunteers;
   b. Cover orientation and in-service education for personnel members, employees, and volunteers;
   c. Cover how a personnel member may submit a complaint relating to patient care;
   d. Cover the requirements in A.R.S. Title 36, Chapter 4, Article 11;
   e. Include a method to identify a patient to ensure the patient receives the appropriate services;
   f. Cover patient rights, including assisting a patient who does not speak English or who has a disability to become aware of patient rights;
   g. Cover specific steps for:
      i. A patient to file a complaint, and
      ii. The home health agency to respond to a patient complaint;
   h. Cover health care directives;
   i. Cover medical records, including electronic medical records;
   j. Cover a quality management program, including incident reports and supporting documentation;
   k. Cover contracted services; and
   l. Cover and designate which personnel members or employees are required to have current certification in cardiopulmonary resuscitation and first aid training;
2. Ensure that policies and procedures for services provided by a home health agency are established, documented, and implemented to protect the health and safety of a patient that:
   a. Cover patient admission, discharge planning, and discharge;
   b. Cover the provision of home health services and, if applicable, specific types of supportive services and medical social services;
   c. Include when general consent and informed consent are required;
   d. Cover how personnel members will respond to a patient's sudden, intense, or out-of-control behavior to prevent harm to the patient or another individual;
   e. Cover medication procurement, if applicable, and administration; and
   f. Cover infection control;
3. Ensure that policies and procedures are:
   a. Available to personnel members, employees, and volunteers, and
   b. Reviewed at least once every three years and updated as needed;
4. Ensure that records of advisory group meetings are maintained for at least 24 months after the date of the meeting;
5. Designate, in writing, a home health services director who is:
   a. A physician with at least 24 months of experience working for or with a home health agency; or
   b. A registered nurse with at least three years of nursing experience, including at least 24 months of experience as a registered nurse providing home health services;
6. Ensure that:
   a. Speech therapy or speech-language pathology services are provided by a speech-language pathologist according to A.R.S. § 36-1940.01 or speech-language pathologist assistant licensed according to A.R.S. § 36-1940.04;
   b. Nutritional services are provided by a registered dietitian;
   c. Occupational therapy services are provided by an occupational therapist or occupational therapy assistant;
   d. Physical therapy services are provided by a physical therapist or a physical therapist assistant;
   e. Respiratory care services are provided by a respiratory therapist, respiratory therapy technician licensed according to A.R.S. Title 32, Chapter 35, or a practical nurse or registered nurse licensed according to A.R.S. Title 32, Chapter 15;
   f. Pharmacy services are provided by a pharmacist; and
   g. Medical social services are provided:

i. By a personnel member qualified according to policies and procedures that coordinates medical social services; and
ii. For medical social services, related to the practice of social work in A.R.S. § 32-3251, by a personnel member licensed under A.R.S. Title 32, Chapter 33, Article 5;

7. Ensure that the services specified in subsection (C)(6) are provided to a patient only under an order by the patient's physician, registered nurse practitioner, or podiatrist, as applicable; and
8. Unless otherwise stated, ensure that:
   a. Documentation required by this Article is provided to the Department within two hours after a Department request; and
   b. When documentation or information is required by this Chapter to be submitted on behalf of a home health agency, the documentation or information is provided to the unit in the Department that is responsible for licensing and monitoring the home health agency.

R9-10-1204. Quality Management

An administrator shall ensure that:

1. A plan for a quality management program for the home health agency is established, documented, and implemented that includes:
   a. A method to identify, document, and evaluate incidents;
   b. A method to collect data to evaluate the provision of services, including oversight of personnel members;
   c. A method to evaluate the data collected to identify a concern about the provision of services;
   d. A method to make changes or take action as a result of the identification of a concern about the provision of services;
   e. A method to determine whether actions taken improved the provision of services; and
   f. The frequency of submitting the documented report required in subsection (2) to the governing authority;
2. A documented report is submitted to the governing authority that includes:
   a. Each identified concern about the delivery of services related to patient care, and
   b. Any change made or action taken as a result of the identification of a concern about the delivery of services related to patient care; and
3. The report in subsection (2) and the supporting documentation for the report are maintained for at least 12 months after the date the report is submitted to the governing authority .

R9-10-1205. Contracted Services

An administrator shall ensure that:

1. Contracted services are provided according to the requirements in this Article, and
2. Documentation of current contracted services is maintained that includes a description of the contracted services provided.

R9-10-1206. Personnel

A. An administrator shall ensure that:

1. The qualifications, skills, and knowledge required for each type of personnel member:
   a. Are based on:
      i. The type of services expected to be provided by the personnel member according to the established job description, and
      ii. The acuity of the patients receiving services from the personnel member according to the established job description; and
   b. Include:
      i. The specific skills and knowledge necessary for the personnel member to provide the expected services listed in the established job description,
      ii. The type and duration of education that may allow the personnel member to have acquired the specific skills and knowledge for the personnel member to provide the expected services listed in the established job description, and
      iii. The type and duration of experience that may allow the personnel member to have acquired the specific skills and knowledge for the personnel member to provide the expected services listed in the established job description;
2. A personnel member's skills and knowledge are verified and documented:
   a. Before the personnel member provides physical health services, and
   b. According to policies and procedures;
3. Sufficient personnel members are available with the qualifications, skills, and knowledge necessary to:
   a. Provide the services in the home health agency's scope of services,
   b. Meet the needs of a patient, and
   c. Ensure the health and safety of a patient; and
4. A personnel member, an employee, a volunteer, or a student who has or is expected to have direct interaction with a patient, provides evidence of freedom from infectious tuberculosis:
   a. On or before the date the individual begins providing services at or on behalf of the home health agency, and
   b. As specified in R9-10-113.

B. An administrator shall ensure that a personnel record for each personnel member, employee, or volunteer:

1. Includes:
   a. The individual's name, date of birth, and contact telephone number;
   b. The individual's starting date of employment or volunteer service, and if applicable, ending date; and
   c. Documentation of:
      i. The individual's qualifications, including skills and knowledge applicable to the individual's job duties;
      ii. The individual's education and experience applicable to the individual's job duties;

iii. The individual's completed orientation and in-service education as required by policies and procedures;
iv. The individual's license or certification, if the individual is required to be licensed or certified in this Article or policies and procedures;
v. The individual's compliance with the requirements in A.R.S. § 36-411;
vi. Cardiopulmonary resuscitation training, if required for the individual according to this Article and policies and procedures;
vii. First aid training, if required for the individual according to this Article and policies and procedures; and
viii. Evidence of freedom from infectious tuberculosis, if required according to subsection (A)(4);

2. Is maintained:
   a. Throughout the individual's period of providing services in or for the home health agency; and
   b. For at least 24 months after the last date the individual provided services in or for the home health agency; and
3. For a personnel member who has not provided services for the home health agency during the previous 12 months, provided to the Department within 72 hours after the Department's request.

R9-10-1207. Care Plan

A. An administrator shall ensure that a care plan is developed for each patient:
1. Based on an assessment of the patient as required in R9-10-1210(D)(1) or (F)(2)(e)(i);
2. With participation from:
   a. The patient's physician, registered nurse practitioner, or podiatrist, as applicable; and
   b. A registered nurse; and
3. That includes:
   a. The patient's diagnosis;
   b. Surgery dates relevant to home health services, if applicable;
   c. The patient's cognitive awareness of self, location, and time;
   d. Functional abilities and limitations;
   e. Goals for functional rehabilitation, if applicable;
   f. The type, duration, and frequency of each service to be provided;
   g. Treatments the patient is receiving from a source other than the home health agency;
   h. Medications and herbal supplements reported by the patient or the patient's representative as being used by the patient, and the dose, route of administration, and schedule for administration of each medication or herbal supplement;
   i. Any known drug allergies;
   j. Nutritional requirements and preferences;
   k. Specific measures to improve the patient's safety and protect the patient against injury; and
   l. A discharge plan for the patient including, if applicable, a plan for assessing the accomplishment of treatment or therapy goals for the patient.

B. An administrator shall ensure that:
1. Home health services are provided to a patient by the home health agency according to the patient's care plan;
2. The patient's care plan is reviewed and updated:
   a. Whenever there is a change in the patient's condition that indicates a need for a change in the type, duration, or frequency of the services being provided;
   b. If the patient's physician, registered nurse practitioner, or podiatrist, as applicable, orders a change in the care plan; and
   c. At least every 60 calendar days; and
3. The patient's physician, registered nurse practitioner, or podiatrist, as applicable, authenticates the care plan with a signature within 30 calendar days after the care plan is initially developed and whenever the care plan is reviewed or updated.

R9-10-1208. Patient Rights

A. An administrator shall ensure that:
1. The requirements in subsection (B) and the patient rights in subsection (C) are conspicuously posted at the home health agency's administrative office;
2. At the time of admission, a patient or the patient's representative receives a written copy of the requirements in subsection (B) and the patient rights in subsection (C); and
3. Policies and procedures include:
   a. How and when a patient or the patient's representative is informed of patient rights in subsection (C); and
   b. Where patient rights are posted as required in subsection (A)(1).

B. An administrator shall ensure that:
1. A patient is treated with dignity, respect, and consideration;
2. A patient is not subjected to:
   a. Abuse;
   b. Neglect;
   c. Exploitation;
   d. Coercion;
   e. Manipulation;
   f. Sexual abuse;

g. Sexual assault;
h. Seclusion;
i. Restraint;
j. Retaliation for submitting a complaint to the Department or another entity; or
k. Misappropriation of personal and private property by a home health agency's personnel members, employees, or volunteers; and

3. A patient or the patient's representative:
a. Except in an emergency, either consents to or refuses treatment;
b. May refuse or withdraw consent for treatment before treatment is initiated;
c. Except in an emergency, is informed of proposed alternatives to a psychotropic medication and the associated risks and possible complications of a psychotropic medication;
d. Is informed of the following:
i. The home health agency's policy on health care directives;
ii. The patient complaint process;
iii Home health services provided by or through the home health agency; and
iv. The rates and charges for services before the services are initiated and before a change in rates, charges, or services;
e. Consents to photographs of the patient before the patient is photographed, except that a patient may be photographed when admitted to a home health agency for identification and administrative purposes; and
f. Except as otherwise permitted by law, provides written consent to the release of information in the patient's:
i. Medical record, or
ii. Financial records.

C. A patient has the following rights:
1. Not to be discriminated against based on race, national origin, religion, gender, sexual orientation, age, disability, marital status, or diagnosis;
2. To receive treatment that supports and respects the patient's individuality, choices, strengths, and abilities;
3. To receive privacy in treatment and care for personal needs;
4. To review, upon written request, the patient's own medical record according to A.R.S. §§ 12-2293, 12-2294, and 12-2294.01;
5. To receive a referral to another health care institution if the home health agency is not authorized or not able to provide physical health services needed by the patient;
6. To participate or have the patient's representative participate in the development of a care plan or decisions concerning treatment;
7. To participate or refuse to participate in research or experimental treatment; and
8. To receive assistance from a family member, the patient's representative, or other individual in understanding, protecting, or exercising the patient's rights.

R9-10-1209. Medical Records

A. An administrator shall ensure that:
1. A medical record is established and maintained for each patient according to A.R.S. Title 12, Chapter 13, Article 7.1;
2. An entry in a patient's medical record is:
a. Recorded only by an individual authorized by a policies and procedures to make the entry;
b. Dated, legible, and authenticated; and
c. Not changed to make the initial entry illegible;
3. An order is:
a. Dated when the order is entered in the patient's medical record and includes the time of the order;
b. Authenticated by a physician, registered nurse practitioner, or podiatrist according to policies and procedures; and
c. If the order is a verbal order, authenticated by the physician, registered nurse practitioner, or podiatrist issuing the order;
4. If a rubber-stamp signature or an electronic signature is used to authenticate an order, the individual whose signature the rubber-stamp signature or electronic signature represents is accountable for the use of the rubber-stamp signature or electronic signature;
5. A patient's medical record is available to personnel members, physicians, registered nurse practitioners, or podiatrists authorized by policies and procedures to access the patient's medical record;
6. Information in a patient's medical record is disclosed to an individual not authorized under subsection (A)(5) only with the written consent of a patient or the patient's representative or as permitted by law; and
7. A patient's medical record is protected from loss, damage, or unauthorized use.

B. If a home health agency maintains patients' medical records electronically, an administrator shall ensure that:
1. Safeguards exist to prevent unauthorized access, and
2. The date and time of an entry in a patient's medical record is recorded by the computer's internal clock.

C. An administrator shall ensure that a patient's medical record contains:
1. Patient information that includes:
a. The patient's name;
b. The patient's address and telephone number;
c. The patient's date of birth; and
d. Any known allergies, including medication allergies;

2. The date the patient began receiving services from the home health agency and, if applicable, the date the patient stopped receiving services from the home health agency;
3. The name and telephone of the patient's physician or registered nurse practitioner;
4. The name and telephone number of patient's podiatrist, if applicable;
5. Documentation of general consent and, if applicable, informed consent;
6. Documentation of medical history and current diagnoses;
7. A copy of patient's health care directive, if applicable;
8. If applicable, the name and contact information of the patient's representative and:
   a. If the patient is 18 years of age or older or an emancipated minor, the document signed by the patient consenting for the patient's representative to act on the patient's behalf; or
   b. If the patient's representative;
      i. Is a legal guardian, a copy of the court order establishing guardianship; or
      ii. Has a health care power of attorney established under A.R.S. § 36-3221 or a mental health care power of attorney executed under A.R.S. § 36-3282, a copy of the health care power of attorney or mental health care power of attorney;
9. Orders;
10. Assessments;
11. Care plan;
12. Progress notes;
13. If applicable, documentation of any actions taken to control the patient's sudden, intense or out-of-control behavior to prevent harm to the patient or another individual;
14. Documentation of meetings with the patient to assess the home health services and supportive services provided to the patient;
15. The disposition of the patient upon discharge;
16. The discharge plan;
17. Discharge instructions and discharge summary, if applicable;
18. If applicable:
    a. Laboratory reports,
    b. Radiologic reports,
    c. Diagnostic reports, and
    d. Consultation reports;
19. Documentation of a medication administered to the patient that includes:
    a. The date and time of administration;
    b. The name, strength, dosage, and route of administration;
    c. For a medication administered for pain:
       i. An assessment of the patient's pain before administering the medication, and
       ii. The effect of the medication administered;
    d. For a psychotropic medication:
       i. An assessment of the patient's behavior before administering the psychotropic medication, and
       ii. The effect of the psychotropic medication administered;
    e. The identification, signature, and professional designation of the individual administering or observing the self-administration of the medication; and
    f. Any adverse reaction a patient has to the medication;
20. Documentation of tasks assigned to a home health aide or other personnel member;
21. Documentation of coordination of patient care;
22. Copies of patient summary reports sent to the patient's physician, registered nurse practitioner, or podiatrist, as applicable; and
23. Documentation of contacts with the patient's physician, registered nurse practitioner, or podiatrist, as applicable, by a personnel member or the patient.

R9-10-1210. Home Health Services

A. An administrator shall ensure that an individual admitted to the home health agency has an order from a physician, registered nurse practitioner, or podiatrist for home health services.

B. An administrator shall ensure that the home health services director provides direction for home health services provided by or through the home health agency.

C. A home health services director shall ensure that nursing services are provided by a registered nurse or practical nurse, according to policies and procedures.

D. A home health services director shall ensure that a registered nurse:
1. Unless a patient's physician or registered nurse practitioner orders only speech therapy, occupational therapy, or physical therapy for the patient, within 48 hours after the patient begins receiving home health services provided by or through the home health agency, conducts an initial assessment of the patient to determine:
   a. The needs of the patient;
   b. Resources available to address the patient's needs;
   c. The patient's home and family environment;
   d. Goals for patient care;

e. Medications used by the patient, including non-compliance, drug interactions, side effects, and contraindications; and
f. Medical supplies or equipment needed by the patient;
2. Reviews a patient's health care directives at the time of the initial assessment;
3. Implements a patient's care plan, developed as specified in R9-10-1207;
4. Coordinates patient care with other individuals providing home health services or other services to the patient;
5. Immediately informs the patient's physician or registered nurse practitioner of a change in a patient's condition that requires medical services; and
6. At least every 60 calendar days until a patient is discharged:
a. Reassesses the patient based on the patient's care plan, needs, and medical condition; and
b. Summarizes the patient's condition and needs for the patient's physician, registered nurse practitioner, or podiatrist, as applicable.

E. A home health services director shall ensure that:
1. A patient's condition and the services provided to the patient are documented in the patient's medical record after each patient contact; and
2. Verbal orders from a patient's physician, registered nurse practitioner, or podiatrist, as applicable, are:
a. Except as specified in subsection (F)(2)(d), received by a registered nurse and documented by the registered nurse in the patient's medical record; and
b. Authenticated by the patient's physician, registered nurse practitioner, or podiatrist, as applicable, with a signature, within 30 calendar days.

F. A home health services director shall ensure that:
1. A registered nurse:
a. Except as specified in subsection (F)(2)(b)(i) and (ii):
i. Assigns tasks in writing to a home health aide who is providing home health services to a patient; and
ii. Verifies the competency of the home health aide in performing assigned tasks;
b. Except as specified in subsection (F)(2)(b)(iii), provides direction for the home health aide services provided to a patient; and
c. Except as specified in subsection (F)(2)(e)(ii), meets with a patient who is receiving home health aide services to assess the home health services provided by the home health aide:
i. At least every two weeks when the patient is also receiving nursing services or therapy services, and
ii. At least every 60 calendar days when the patient is only receiving home health aide services;
2. When a patient's physician or registered nurse practitioner orders speech therapy, occupational therapy, or physical therapy for the patient, an individual specified in R9-10-1203(C)(6)(a), (c), or (d), as applicable:
a. Provides the applicable therapy service to the patient according to the patient's care plan;
b. If a home health aide is assigned to assist the patient in performing activities related to the therapy service:
i. Assigns tasks in writing to the home health aide who is assisting the patient;
ii. Verifies the competency of the home health aide in performing assigned tasks; and
iii. Provides direction to the home health aide in performing the assigned tasks related to the therapy service;
c. Coordinates the provision of the therapy service to the patient with the registered nurse providing direction for other home health services for the patient;
d. Documents in the patient's medical record any orders by the patient's physician or registered nurse practitioner received concerning the therapy service; and
e. If the only home health services ordered for the patient are speech therapy, occupational therapy, or physical therapy:
i. Within 48 hours after the patient begins receiving home health services provided by or through the home health agency, conducts an initial assessment of the patient as specified in subsections (D)(1)(a) through (f); and
ii. Meets with a patient who is receiving home health services from a home health aide every two weeks to assess the home health services provided by the home health aide; and
3. A home health aide:
a. Is only assigned to provide services the home health aide can competently perform; and
b. Only performs tasks assigned to the home health aide in writing by a registered nurse or as specified in subsection (F)(2)(b)(i).

R9-10-1211. Supportive Services

A. A governing authority may include supportive services, including personal care services, in the scope of services for a home health agency.

B. An administrator:
1. May allow:
a. Supportive services to be provided to a patient without an order from a physician, registered nurse practitioner, or podiatrist; and
b. A personnel member who is not a home health aide to perform personal care services; and
2. Shall ensure that:
a. Supportive services are provided to a patient according to policies and procedures;
b. A registered nurse:
i. Assesses a patient's need for supportive services,
ii. Assigns specific tasks in writing to a home health aide providing supportive services other than personal care services,

iii. Assigns specific tasks in writing to a personnel member providing personal care services,
iv. Provides direction for supportive services, and
v. Includes supportive services in the reassessment of a patient required in R9-10-1210(D)(6); and

c. Supportive services are documented in a patient's medical record.

36-132. Department of health services; functions; contracts

A. The department, in addition to other powers and duties vested in it by law, shall:

1. Protect the health of the people of the state.

2. Promote the development, maintenance, efficiency and effectiveness of local health departments or districts of sufficient population and area that they can be sustained with reasonable economy and efficient administration, provide technical consultation and assistance to local health departments or districts, provide financial assistance to local health departments or districts and services that meet minimum standards of personnel and performance and in accordance with a plan and budget submitted by the local health department or districts to the department for approval, and recommend the qualifications of all personnel.

3. Collect, preserve, tabulate and interpret all information required by law in reference to births, deaths and all vital facts, and obtain, collect and preserve information relating to the health of the people of this state and the prevention of diseases as may be useful in the discharge of functions of the department not in conflict with chapter 3 of this title and sections 36-693, 36-694 and 39-122.

4. Operate sanitariums, hospitals or other facilities assigned to the department by law or by the governor.

5. Conduct a statewide program of health education relevant to the powers and duties of the department, prepare educational materials and disseminate information as to conditions affecting health, including basic information to promote good health on the part of individuals and communities, and prepare and disseminate technical information concerning public health to the health professions, local health officials and hospitals. In cooperation with the department of education, the department of health services shall prepare and disseminate materials and give technical assistance for the purpose of educating children in hygiene, sanitation and personal and public health, and provide consultation and assistance in community organization to counties, communities and groups of people.

6. Administer or supervise a program of public health nursing, prescribe the minimum qualifications of all public health nurses engaged in official public health work, and encourage and aid in coordinating local public health nursing services.

7. Encourage and aid in coordinating local programs concerning control of preventable diseases in accordance with statewide plans that shall be formulated by the department.

8. Encourage and aid in coordinating local programs concerning maternal and child health, including midwifery, antepartum and postpartum care, infant and preschool

health and the health of schoolchildren, including special fields such as the prevention of blindness and conservation of sight and hearing.

9. Encourage and aid in coordinating local programs concerning nutrition of the people of this state.

10. Encourage, administer and provide dental health care services and aid in coordinating local programs concerning dental public health, in cooperation with the Arizona dental association. The department may bill and receive payment for costs associated with providing dental health care services and shall deposit the monies in the oral health fund established by section 36-138.

11. Establish and maintain adequate serological, bacteriological, parasitological, entomological and chemical laboratories with qualified assistants and facilities necessary for routine examinations and analyses and for investigations and research in matters affecting public health.

12. Supervise, inspect and enforce the rules concerning the operation of public bathing places and public and semipublic swimming pools adopted pursuant to section 36-136, subsection I, paragraph 10.

13. Take all actions necessary or appropriate to ensure that bottled water sold to the public and water used to process, store, handle, serve and transport food and drink are free from filth, disease-causing substances and organisms and unwholesome, poisonous, deleterious or other foreign substances. All state agencies and local health agencies involved with water quality shall provide to the department any assistance requested by the director to ensure that this paragraph is effectuated.

14. Enforce the state food, caustic alkali and acid laws in accordance with chapter 2, article 2 of this title, chapter 8, article 1 of this title and chapter 9, article 4 of this title, and collaborate in enforcing the federal food, drug, and cosmetic act (52 Stat. 1040; 21 United States Code sections 1 through 905).

15. Recruit and train personnel for state, local and district health departments.

16. Conduct continuing evaluations of state, local and district public health programs, study and appraise state health problems and develop broad plans for use by the department and for recommendation to other agencies, professions and local health departments for the best solution of these problems.

17. License and regulate health care institutions according to chapter 4 of this title.

18. Issue or direct the issuance of licenses and permits required by law.

19. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

20. Subject to the availability of monies, develop and administer programs in perinatal health care, including:

(a) Screening in early pregnancy for detecting high-risk conditions.

(b) Comprehensive prenatal health care.

(c) Maternity, delivery and postpartum care.

(d) Perinatal consultation, including transportation of the pregnant woman to a perinatal care center when medically indicated.

(e) Perinatal education oriented toward professionals and consumers, focusing on early detection and adequate intervention to avert premature labor and delivery.

21. License and regulate the health and safety of group homes and behavioral-supported group homes for persons with developmental disabilities. The department shall issue a license to an accredited facility for a period of the accreditation, except that a licensing period shall not be longer than three years. The department is authorized to conduct an inspection of an accredited facility to ensure that the facility meets health and safety licensure standards. The results of the accreditation survey shall be public information. A copy of the final accreditation report shall be filed with the department of health services. For the purposes of this paragraph, "accredited" means accredited by a nationally recognized accreditation organization.

B. The department may accept from the state or federal government, or any agency of the state or federal government, and from private donors, trusts, foundations or eleemosynary corporations or organizations grants or donations for or in aid of the construction or maintenance of any program, project, research or facility authorized by this title, or in aid of the extension or enforcement of any program, project or facility authorized, regulated or prohibited by this title, and enter into contracts with the federal government, or an agency of the federal government, and with private donors, trusts, foundations or eleemosynary corporations or organizations, to carry out such purposes. All monies made available under this section are special project grants. The department may also expend these monies to further applicable scientific research within this state.

C. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

D. The department may enter into contracts with organizations that perform nonrenal organ transplant operations and organizations that primarily assist in the management of end-stage renal disease and related problems to provide, as payors of last resort,

prescription medications necessary to supplement treatment and transportation to and from treatment facilities. The contracts may provide for department payment of administrative costs it specifically authorizes.

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop, tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health department, environmental department or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate

all or a part of any monies that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases that are reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases that are transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant

or other premises, except a meatpacking plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is prepared in a kitchen of a private home for commercial purposes consistent with chapter 8, article 2 of this title.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

(k) Spirituous liquor produced by a producer that is licensed by the department of liquor licenses and control or spirituous liquor imported and sold by wholesalers that is licensed by the department of liquor licenses and control. This exemption includes all commercially prepackaged spirituous liquor and all spirituous liquor poured at a licensed special event, festival or fair in this state.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in identifying, storing, handling and selling all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for submitting samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the

sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. Confidential information may not be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection and chapter 8, article 2 of this title. A registered food preparer shall renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout this state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction if the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall

determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product" has the same meaning prescribed in section 36-931.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

36-151. Definitions

In this article, unless the context otherwise requires:

1. "County department" means a county department of health.

2. "Department" means the department of health services.

3. "Home health services" means the items and services enumerated in this paragraph and furnished to a person who is under the care of a physician and surgeon, not including the services of a physician and surgeon. Such items and services may be furnished by a home health agency or by others under arrangements made by such agency, under a plan established and periodically reviewed by such physician and surgeon. Such items and services, except as provided in subdivision (b) of this

paragraph, shall be furnished on a visiting basis in a place of residence used as such person's home and shall consist of:

(a) Part-time or intermittent nursing care provided by or under the supervision of a registered professional nurse and either physical, occupational or speech therapy, or, to the extent permitted in department regulations, part-time or intermittent services of a home health aide, and such items and services may further consist of any or all of the following:

(i) Medical social services under the direct supervision of a physician and surgeon.

(ii) Medical supplies, other than drugs and biologicals, and the use of medical appliances, while under such a plan.

(iii) In the case of a home health agency which is affiliated or under common control with a hospital, medical services provided by an intern or resident-in-training of such hospital, under a teaching program of such hospital approved as provided in paragraph 4 of this section.

(b) Any of the items and services enumerated in subdivision (a) of this paragraph, which are provided on an outpatient basis, under arrangements made by the home health agency, at a hospital or extended care facility, or at a rehabilitation center which meets such standards as may be prescribed in regulations, and under one of the following conditions:

(i) The furnishing of such items and services involves the use of equipment of such a nature that the items and services cannot readily be made available to such person in such place of residence.

(ii) Such items and services are furnished at such facility while he is there to receive any such item or service described in item (i) of this subdivision, but not including transportation of such person in connection with any such item or service. Any item or service, if it would not be included under paragraph 4 of this section if furnished to an inpatient of a hospital, shall be excluded.

4. "Inpatient hospital services" means the following items and services, furnished to an inpatient of a hospital and, except as provided in subdivision (c) of this paragraph, by the hospital:

(a) Bed and board.

(b) Such nursing services and other related services, such use of hospital facilities, and such medical social services as are ordinarily furnished by the hospital for the care and treatment of inpatients, and such drugs, biologicals, supplies, appliances, and equipment, for use in the hospital, as are ordinarily furnished by such hospital for the care and treatment of inpatients.

(c) Such other diagnostic or therapeutic items or services, furnished by the hospital or by others under arrangements with them made by the hospital, as are ordinarily furnished to inpatients either by such hospital or by others under such arrangements, excluding the following:

(i) Medical or surgical services provided by a physician and surgeon, resident or intern.

(ii) The services of a private duty nurse or other private duty attendant. Item (i) of this subdivision shall not apply to services provided in the hospital by an intern or a resident-in-training under a teaching program approved by the council on medical education of the American medical association or, in the case of an osteopathic hospital, approved by the committee on hospitals of the bureau of professional education of the American osteopathic association, or, in the case of services in a hospital or osteopathic hospital by an intern or resident-in-training in the field of dentistry, approved by the council on dental education of the American dental association.

5. "Home health agency" means an agency or organization, or a subdivision of such an agency or organization, which meets all of the following requirements:

(a) Is primarily engaged in providing skilled nursing services and other therapeutic services.

(b) Has policies, established by a group of professional personnel, associated with the agency or organization, including one or more physicians and one or more registered professional nurses, to govern the services referred to in subdivision (a), which it provides, and provides for supervision of such services by a physician or registered professional nurse.

(c) Maintains clinical records on all patients.

6. "Supportive services" or "related supportive services" means services other than home health services which may reasonably be expected to help maintain an individual in his home as an alternative to institutionalization. Such services may include, but not limited to, nutrition counseling, meals services, homemaker services, general maintenance services and transportation services.

36-152. Authority to provide services; fees

The department may provide home health services to persons living in areas of the state in which adequate home nursing care is not otherwise available. For such services the department shall charge fees to be paid by persons to whom the department renders such services, or to be paid by any governmental agency purchasing such services for persons, except when such services are provided for demonstration and public health program activities.

36-153. Authority to contract for services and fees

The department may enter into contracts with any governmental or private agency, or with any person, whereby the department agrees to render such home health services to or for such agency or person in exchange for a fee to cover the cost of rendering such services.

36-154. Limitation of authority regarding services and fees

The authority granted by this article is limited to services voluntarily rendered and voluntarily received, and shall not apply to services required by statute, regulation, or ordinance to be rendered or received. Fees authorized by this article to be charged shall not exceed the cost to the department or county departments of rendering the services.

36-155. Personnel and equipment

The department may employ the necessary personnel, including nursing and supervisory personnel, and purchase equipment and materials necessary to maintain an effective program of home health services and to render such services.

36-156. Home health services and related supportive services; coordination and development; consultation; powers and duties of director

A. The director may act to coordinate the activities of the department with the activities of the department of economic security which relate, directly or indirectly, to home health services or related supportive services.

B. The director may act to coordinate the activities of existing home health agencies and other agencies or associations which supply, directly or indirectly, home health services or related supportive services.

C. Upon the request of any agency or organization, the director may provide consultation and assistance for:

1. The development and implementation of home health services programs to be carried out by such agency or association.

2. The coordination and integration of home health services provided by or planned by such agency or association with other existing or planned home health services programs or related supportive services programs.

3. The development and acquisition of funding sources for home health services.

D. In order to carry out the provisions of subsection C the director may enter into contracts or agreements with agencies or organizations specifying the type of consultation and assistance to be provided.

36-157. County authority to provide services; fees

County departments shall have the same authority as granted to the department, under the provisions of this article, to provide home health services within their county, enter into contracts therefor, charge fees for such services, and expend monies, employ personnel and to purchase equipment and materials.

36-158. Authority to receive funds; disbursement

The department and county departments may receive monies from any source for home health services. All such monies the department and county departments receive for such services shall be deposited in special accounts by the respective state and county treasurers. All such monies are appropriated to the department and county departments that receive them and shall be used to carry out the provisions of this article.

36-159. Authorized court action to collect fees

The department and county departments may maintain legal action through the attorney general or county attorney for the collection of fees charged for home health services which have been rendered to any person or agency.

36-160. Confidentiality of records; unauthorized disclosures unlawful; classification

A. Clinical records, medical reports and laboratory statements or reports, maintained as a result of services authorized by this article, and the information contained therein, shall be confidential and shall not be divulged to or open to inspection by any person other than attending physicians and surgeons, and persons authorized by them, the home health agency involved and state or local health officers. The director may, by regulation, authorize other persons or groups of persons to inspect or otherwise use such records and information.

B. A person who knowingly divulges such information or opens to inspection such clinical records, medical reports or laboratory statements or reports, without authority, to any person not by law or regulation entitled to such is guilty of a class 2 misdemeanor.

36-405. Powers and duties of the director

A. The director shall adopt rules to establish minimum standards and requirements for constructing, modifying and licensing health care institutions necessary to ensure the public health, safety and welfare. The standards and requirements shall relate to the construction, equipment, sanitation, staffing for medical, nursing and personal care services, and recordkeeping pertaining to administering medical, nursing, behavioral health and personal care services, in accordance with generally accepted practices of health care. The standards shall require that a physician who is licensed pursuant to

title 32, chapter 13 or 17 medically discharge patients from surgery and shall allow an outpatient surgical center to require that either an anesthesia provider who is licensed pursuant to title 32, chapter 13, 15 or 17 or a physician who is licensed pursuant to title 32, chapter 13 or 17 remain present on the premises until all patients are discharged from the recovery room. Except as otherwise provided in this subsection, the director shall use the current standards adopted by the joint commission on accreditation of hospitals and the commission on accreditation of the American osteopathic association or those adopted by any recognized accreditation organization approved by the department as guidelines in prescribing minimum standards and requirements under this section.

B. The director, by rule, may:

1. Classify and subclassify health care institutions according to character, size, range of services provided, medical or dental specialty offered, duration of care and standard of patient care required for the purposes of licensure. Classes of health care institutions may include hospitals, infirmaries, outpatient treatment centers, health screening services centers and residential care facilities. Whenever the director reasonably deems distinctions in rules and standards to be appropriate among different classes or subclasses of health care institutions, the director may make such distinctions.

2. Prescribe standards for determining a health care institution's substantial compliance with licensure requirements.

3. Prescribe the criteria for the licensure inspection process.

4. Prescribe standards for selecting health care-related demonstration projects.

5. Establish nonrefundable application and licensing fees for health care institutions, including a grace period and a fee for the late payment of licensing fees.

6. Establish a process for the department to notify a licensee of the licensee's licensing fee due date.

7. Establish a process for a licensee to request a different licensing fee due date, including any limits on the number of requests by the licensee.

C. The director, by rule, shall adopt licensing provisions that facilitate the colocation and integration of outpatient treatment centers that provide medical, nursing and health-related services with behavioral health services consistent with article 3.1 of this chapter.

D. The director shall establish a model in rule for the department to monitor health care institutions on-site that are found to not be in substantial compliance with the applicable licensure requirements. The director shall establish on-site monitoring fees

for health care institutions that are subject to the on-site monitoring requirements. The department may not charge a fee pursuant to this subsection for a complaint or compliance-related survey or inspection if a health care institution is in substantial compliance.

E. The department may provide in-service training to health care institutions that request in-service training relating to regulatory compliance outside of the survey process. The director shall establish in rule in-service training fees for health care institutions that request in-service training from the department.

F. Ninety percent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the health services licensing fund established by section 36-414 and ten percent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

G. Subsection B, paragraph 5 of this section does not apply to a health care institution operated by a state agency pursuant to state or federal law or to adult foster care residential settings.

36-406. Powers and duties of the department

In addition to its other powers and duties:

1. The department shall:

(a) Administer and enforce this chapter and the rules, regulations and standards adopted pursuant thereto.

(b) Review, and may approve, plans and specifications for construction or modification or additions to health care institutions regulated by this chapter.

(c) Have access to books, records, accounts and any other information of any health care institution reasonably necessary for the purposes of this chapter.

(d) Require as a condition of licensure that nursing care institutions and assisted living facilities make vaccinations for influenza and pneumonia available to residents on site on a yearly basis. The department shall prescribe the manner by which the institutions and facilities shall document compliance with this subdivision, including documenting residents who refuse to be immunized. The department shall not impose a violation on a licensee for not making a vaccination available if there is a shortage of that vaccination in this state as determined by the director.

2. The department may:

(a) Make or cause to be made inspections consistent with standard medical practice of every part of the premises of health care institutions which are subject to the

provisions of this chapter as well as those which apply for or hold a license required by this chapter.

(b) Make studies and investigations of conditions and problems in health care institutions, or any class or subclass thereof, as they relate to compliance with this chapter and rules, regulations and standards adopted pursuant thereto.

(c) Develop manuals and guides relating to any of the several aspects of physical facilities and operations of health care institutions or any class or subclass thereof for distribution to the governing authorities of health care institutions and to the general public.

36-411. Residential care institutions; nursing care institutions; home health agencies; fingerprinting requirements; exemptions; definitions

A. Except as provided in subsection F of this section, as a condition of licensure or continued licensure of a residential care institution, a nursing care institution or a home health agency and as a condition of employment in a residential care institution, a nursing care institution or a home health agency, employees and owners of residential care institutions, nursing care institutions or home health agencies, contracted persons of residential care institutions, nursing care institutions or home health agencies or volunteers of residential care institutions, nursing care institutions or home health agencies who provide medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services and who have not been subject to the fingerprinting requirements of a health professional's regulatory board pursuant to title 32 shall have a valid fingerprint clearance card that is issued pursuant to title 41, chapter 12, article 3.1 or shall apply for a fingerprint clearance card within twenty working days after employment or beginning volunteer work or contracted work.

B. A health professional who has complied with the fingerprinting requirements of the health professional's regulatory board as a condition of licensure or certification pursuant to title 32 is not required to submit an additional set of fingerprints to the department of public safety pursuant to this section.

C. Each residential care institution, nursing care institution and home health agency shall make documented, good faith efforts to:

1. Contact previous employers to obtain information or recommendations that may be relevant to a person's fitness to work in a residential care institution, nursing care institution or home health agency.

2. Verify the current status of a person's fingerprint clearance card.

3. Beginning January 1, 2025, verify that a potential employee is not on the adult protective services registry pursuant to section 46-459. If a potential employee is

found to be on the adult protective services registry, the residential care institution, nursing care institution or home health agency may not hire the potential employee.

4. On or before March 31, 2025, verify that each employee is not on the adult protective services registry pursuant to section 46-459. If an employee is found to be on the adult protective services registry, the residential care institution, nursing care institution or home health agency shall take action to terminate the employment of that employee.

5. Beginning March 31, 2025, annually reverify that each employee is not on the adult protective services registry pursuant to section 46-459.

D. An employee, an owner, a contracted person or a volunteer or a facility on behalf of the employee, the owner, the contracted person or the volunteer shall submit a completed application that is provided by the department of public safety within twenty days after the date the person begins work or volunteer service.

E. Except as provided in subsection F of this section, a residential care institution, nursing care institution or home health agency shall not allow an employee to continue employment or a volunteer or contracted person to continue to provide medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services if the person has been denied a fingerprint clearance card pursuant to title 41, chapter 12, article 3.1, has been denied approval pursuant to this section before May 7, 2001 or has had a fingerprint clearance card suspended or revoked.

F. An employee, volunteer or contractor of a residential care institution, nursing care institution or home health agency who is eligible pursuant to section 41-1758.07, subsection C to petition the board of fingerprinting for a good cause exception and who provides documentation of having applied for a good cause exception pursuant to section 41-619.55 but who has not yet received a decision is exempt from the fingerprinting requirements of this section if the person provides medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services to residents or patients while under the direct visual supervision of an owner or employee who has a valid fingerprint clearance card.

G. If a person's employment record contains a six-month or longer time frame during which the person was not employed by any employer, a completed application with a new set of fingerprints shall be submitted to the department of public safety.

H. For the purposes of this section:

1. "Direct supportive services":

(a) Means services other than home health services that provide direct individual care and that are not provided in a common area of a health care institution, including:

(i) Assistance with ambulating, bathing, toileting, grooming, eating and getting in and out of a bed or chair.

(ii) Assistance with self-administration of medication.

(iii) Janitorial, maintenance, housekeeping or other services provided in a resident's room.

(iv) Transportation services, including van services.

(b) Does not include services provided by persons contracted directly by a resident or the resident's family in a health care institution.

2. "Direct visual supervision" means continuous visual oversight of the supervised person that does not require the supervisor to be in a superior organizational role to the person being supervised.

3. "Home health services" has the same meaning prescribed in section 36-151.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - EXPEDITED RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 13, 2025

SUBJECT: **DEPARTMENT OF HEALTH SERVICES**
Title 9, Chapter 16

Amend: R9-16-601, R9-16-602, R9-16-603, R9-16-604, R9-16-605, R9-16-606, R9-16-607, R9-16-608, R9-16-609, R9-16-610, R9-16-611, R9-16-612, R9-16-613, R9-16-614, R9-16-615, R9-16-616, R9-16-617, R9-16-618, R9-16-619, R9-16-620, R9-16-621, Table 6.1, R9-16-622, R9-16-623, R9-16-624

Summary:

This expedited rulemaking from the Department of Health Services seeks to amend twenty-four (24) rules and one (1) table regarding the certification of radiation technologists in Arizona. Specifically, the Department indicates it has identified several rules that require changes to update incorporations by reference to the current national standards. Furthermore, the Department states other changes are needed to correct cross-references, to improve clarity and understandability, and to make the rules more effective. The Department believes that these changes may also reduce the administrative burden of the rules.

1. Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?

The Department indicates the proposed amendments to the rules do not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. Furthermore, the Department indicates the rulemaking amends requirements that are outdated or need clarification and addresses issues identified in a Five-Year Review Report, which was approved by the Council in October 2024. Council staff believes the Department's rulemaking satisfies the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)(6) and (7).

2. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

4. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking.

5. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates there were no changes between the Notice of Proposed Expedited Rulemaking published in the Administrative Register on November 15, 2024 and the Notice of Final Expedited Rulemaking now before the Council for consideration.

6. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates these rules are based on state statutes, rather than on federal requirements, except for those federal requirements related to mammography, such as 21 CFR 900.12. The Department states the rules are consistent with, and not more stringent than these federal requirements.

7. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

The Department indicates the radiation technologists certification issued pursuant to these rules meets the definition of the general permit in that the certification specifies the individual and the tasks/services the individual is authorized by certification to provide, but a certified individual is not limited to providing the tasks/services in any one location. As such, Council staff believes the Department is in compliance with A.R.S. § 41-1037

8. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review or rely on any study for this rulemaking.

9. Conclusion

This expedited rulemaking from the Department seeks to amend twenty-four (24) rules and one (1) table regarding the certification of radiation technologists in Arizona. Specifically, the Department indicates it has identified several rules that require changes to update incorporations by reference to the current national standards. Furthermore, the Department states other changes are needed to correct cross-references, to improve clarity and understandability, and to make the rules more effective. The Department believes that these changes may also reduce the administrative burden of the rules.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

VIA EMAIL: grrc@azdoa.gov
Jessica Klein, Esq., Chair
Governor's Regulatory Review Council
Arizona Department of Administration
100 N. 15th Avenue, Suite 305
Phoenix, AZ 85007

RE: Department of Health Services, 9 A.A.C. 16, Expedited Rulemaking

Dear Ms. Klein:

1. The close of record date: November 25, 2024

2. Explanation of how the expedited rule meets the criteria in A.R.S. § 41-1027(A):
The rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. The rulemaking amends requirements that are outdated or need clarification and address issues identified in a five-year-review report, meeting the requirements in A.R.S. § 41-1027(A)(6) and (7).

3. Whether the rulemaking relates to a five-year-review report and, if applicable, the date the report was approved by the Council:
The rulemaking for 9 A.A.C. 16 relates to a five-year-review report approved by the Council on October 1, 2024.

4. A list of all items enclosed:
   a. Notice of Final Expedited Rulemaking, including the Preamble, Table of Contents, and text of the rule
   b. Statutory authority
   c. Current rule

The Department is requesting that the rules be heard at the Council meeting on February 4, 2025.

The Department certifies that the Preamble of this rulemaking discloses a reference to any study relevant to the rule that the Department reviewed and either did or did not rely on in its evaluation of or justification for the rule.

The Department's point of contact for questions about the rulemaking documents is Ruthann Smejkal at Ruthann.Smejkal@azdhs.gov.

Sincerely,

Stacie Gravito
Director's Designee

Implementing statutes: A.R.S. §§ 32-2803, 32-2804, 32-2811 through 32-2819, 32-2821, 32-2824 and 36-2841 through 32-2843

4. The effective date of the rule:

This expedited rulemaking becomes effective immediately on the filing of the Notice of Final Expedited Rulemaking pursuant to A.R.S. § 41-1027(H). The effective date is (to be filled in by Register editor).

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the record of the final expedited rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 3067, October 18, 2024

Notice of Proposed Expedited Rulemaking: 30 A.A.R. 3435, November 15, 2024

6. The agency's contact person who can answer questions about the rulemaking:

Name: Megan Whitby, Deputy Assistant Director
Address: Arizona Department of Health Services
Public Health Licensing Services
Health Care Institutions Licensing
150 N. 18th Ave., Suite 400
Phoenix, AZ 85007
Telephone: (602) 364-3052
Fax: (602) 364-2079
E-mail: Megan.Whitby@azdhs.gov

or

Name: Stacie Gravito, Office Chief
Address: Arizona Department of Health Services
Office of Administrative Counsel and Rules
150 N. 18th Avenue, Suite 200
Phoenix, AZ 85007-3232
Telephone: (602) 542-1020

Fax: (602) 364-1150

E-mail: Stacie.Gravito@azdhs.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes (A.R.S.) Title 9, Chapter 28, Article 2, provides for the certification of different classes of radiation technologists. The Arizona Department of Health Services (Department) has adopted rules for certification of radiation technologists in Arizona Administrative Code (A.A.C.) Title 9, Chapter 16, Article 6. The Department had identified several rules that require changes to update incorporations by reference to the current national standards. Other changes are needed to correct cross-references, to improve clarity and understandability, and to make the rules more effective. The Department believes that these changes may also reduce the administrative burden of the rules. After obtaining approval for the rulemaking according to A.R.S. § 41-1039(A), the Department is revising the rules to address the identified issues.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review or rely on any study for this rulemaking.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a preliminary summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

Under A.R.S. § 41-1055(D)(2), the Department is not required to provide an economic, small business, and consumer impact statement.

11. A description of any change between the proposed expedited rulemaking, to include a supplemental proposed notice, and the final rulemaking:

No changes were made between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the

rulemaking and the agency response to the comments:

No comments were received.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Department believes the certification issued to an individual is a general permit in that certification specifies the individual and the tasks/services the individual is authorized by certification to provide, but a certified individual is not limited to providing the tasks/services in any one location.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

These rules are based on state statutes, rather than on federal requirements, except for those federal requirements related to mammography, such as 21 CFR 900.12. The rules are consistent with, and not more stringent that these federal requirements.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No business competitiveness analysis was received by the Department.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable

15. The full text of the rules follows:

TITLE 9. HEALTH SERVICES

CHAPTER 16. DEPARTMENT OF HEALTH SERVICES

OCCUPATIONAL LICENSING

ARTICLE 6. RADIATION TECHNOLOGISTS

Section

ARTICLE 6. RADIATION TECHNOLOGISTS

R9-16-601. Definitions

In addition to the definitions in A.R.S. § 32-2801, the following definitions apply in this Article unless otherwise specified:

1. "Applicant" means:
   a. An individual who submits an application ~~packet~~, or
   b. A person who submits a request for approval of a radiation technologist training program.
2. "Application ~~packet~~" means the information, documents, and fees required by the Department for a certificate or permit.
3. "ARRT" means the American Registry of Radiologic Technologists.
4. "Authorized user" means the same as in A.A.C. R9-7-102.
5. "Calendar day" means each day, not including the day of the act, event, or default, from which a designated period of time beings to run, but including the last day of the period unless it is a Saturday, Sunday, statewide furlough day, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, statewide furlough day, or legal holiday.
6. "CBRPA" means the Certification Board for Radiology Practitioner Assistants.
7. "Certification" means the issuing of a certificate.
8. "Chest radiography" means radiography performed to visualize the heart and lungs only.
9. "Continuing education" means a course or learning activity that provides instruction and training designed to develop or improve the professional competence of a certificate holder related to the certificate holder's scope of practice.
10. "Contrast media" means material intentionally administered to a human body to define a part or parts of the human body that are not normally radiographically visible.
11. "Department-approved educational program" means a curriculum of courses and learning activities that is accredited by a nationally recognized accreditation body or granted approval through the Department.

12. "Department-approved examination" means a test administered through ARRT, NMTCB, ISCD, or CBRPA.
13. "Extremity" means the same as in A.A.C. R9-7-102.
14. "Fluoroscopy" means the use of radiography to directly visualize internal structures of the human body, the motion of internal structures, and fluids in real time, or near real-time, to aid in the treatment or diagnosis of disease or the performance of other medical procedures.
15. "ISCD" means the International Society for Clinical Densitometry.
16. "Nationally recognized accreditation body" means ARRT, NMTCB, ISCD, or CBRPA.
17. "NMTCB" means the Nuclear Medicine Technology Certification Board.
18. "Radiograph" means the record of an image, representing anatomical details of a part of a human body examined through the use of ionizing radiation, formed by the differential absorption of ionizing radiation within the part of the human body.
19. "Radiography" means the use of ionizing radiation in making radiographs.
20. "Radiopharmaceutical agent" means a radionuclide or radionuclide compound designed and prepared for administration to human beings.

R9-16-602. Training Programs

A. The Department shall maintain a list of Department-approved educational programs according to A.R.S. § 32-2804 on the Department's website at https://www.azdhs.gov/licensing/special/index.php#mrt-approved-schools.

B. An applicant may request Department approval of a curriculum of courses and learning activities as a training program by submitting an application ~~packet~~ that contains:

1. An application, in a Department-provided format, that includes:
   a. The name and address of the school providing the training program;
   b. The name, title, telephone number, and e-mail address of the administrator or designee of the school; and
   c. A list of each training program for which approval is being requested, including the number of hours of instruction provided for each;
2. A copy of the curriculum that includes course titles and course descriptions; and
3. A list of instructors providing the instruction and the credentials of each.

C. The Department shall:

1. Review each application ~~packet~~ according to R9-16-621; and
2. If approved, add the applicant's school to the list of Department-approved educational programs in subsection (A).

D. If an applicant for certification or permit did not complete a Department-approved educational program, the applicant may submit to the Department a copy of the curriculum for the training program completed by the applicant with the applicant's application ~~packet~~ in R9-16-606(B), R9-16-607(A), or R9-16-609(A).

R9-16-603. Practical Technologist in Radiology - Eligibility and Scope of Practice

A. An individual is eligible for certification as a practical technologist in radiology if the individual:

1. Is at least 18 years of age; and
2. Either:
   a. Has completed a training program in radiologic technology through a Department-approved educational program and achieved a score of at least 67% on a Department-approved examination; or
   b. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a practical technologist in radiology shall:

1. Follow the standards specified for a Limited X-Ray Machine Operator in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Limited X-Ray Machine Operator~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_lxmo.pdf?sfvrsn=29e176d0_16~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments;
2. Perform only:
   a. Chest radiography, and
   b. Radiography of the extremities; and
3. Not use fluoroscopy or contrast media.

R9-16-604. Practical Technologist in Podiatry - Eligibility and Scope of Practice

A. An individual is eligible for certification as a practical technologist in podiatry if the individual:

1. Is at least 18 years of age; and

2. Either:

a. Has:

i. Completed a training program in podiatry radiology through a Department-approved educational program;

ii. Received a signed and dated attestation from a podiatrist licensed according to A.R.S. Title 32, Chapter 7, verifying that the applicant:

(1) Completed training under the direction of the licensed podiatrist, and

(2) Is proficient in independently taking radiographs; and

iii. Achieved a score of at least 70% on a Department-approved examination; or

b. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a practical technologist in podiatry shall:

1. Follow the standards specified for a Limited X-Ray Machine Operator in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Limited X-Ray Machine Operator~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_lxmo.pdf?sfvrsn=29e176d0_16~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments; and

2. Only perform radiographic examinations of the lower leg, ankle, and foot, without the use of fluoroscopy or contrast media.

R9-16-605. Practical Technologist in Bone Densitometry - Eligibility and Scope of Practice

A. An individual is eligible for certification as a practical technologist in bone densitometry if the individual:

1. Is at least 18 years of age; and

2. Either:

a. Has completed a training program in bone densitometry through a Department-approved educational program and achieved a score of at least 70% on a Department-approved examination, or

b. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a practical technologist in bone densitometry shall:

1. Follow the standards specified for Bone Densitometry in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Bone Densitometry~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_bd.pdf?sfvrsn=11e176d0_22~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. Apply ionizing radiation only to a person's hips, spine, and extremities through the use of a bone density machine without the use of fluoroscopy or contrast media.

R9-16-606. Application for Examination

A. An individual may apply for examination if the individual meets eligibility criteria for a:

1. Practical technologist in radiology listed in R9-16-603(A);
2. Practical technologist in podiatry listed in R9-16-604(A); or
3. Practical technologist in bone densitometry listed in R9-16-605(A).

B. An applicant for examination shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required in R9-16-619;
2. Except as provided in R9-16-602(D), documentation of completion of a Department-approved educational program; and
3. For an applicant for examination as a practical technologist in podiatry, the attestation specified in R9-16-604(A)(2)(a)(ii).

C. The Department shall approve or deny an individual's application for examination according to R9-16-621.

D. If the Department determines that the application ~~packet~~ submitted under subsection (B) is complete and in compliance, the Department shall notify the applicant that the applicant is approved to test.

E. Upon notification by the Department according to subsection (D), and applicant:

1. Shall arrange testing through ARRT, and

2. Has six months to complete testing before the applicant is required to re-apply for examination.

R9-16-607. Application for Initial Certification as a Practical Technologist in Radiology, Practical Technologist in Podiatry, or Practical Technologist in Bone Densitometry

A. Except as provided in subsection (B), an applicant for initial certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required in R9-16-619;
2. Except as provided in R9-16-602(D), documentation of completion of a Department-approved educational program;
3. Documentation of achieving the applicable minimum score on a Department-approved examination;
4. For an application for a practical technologist in podiatry, the signed attestation in R9-16-604(A)(2)(a)(ii) containing:
   a. The name and date of birth of the applicant,
   b. The name and license number of the licensed podiatrist,
   c. A statement by the licensed podiatrist verifying completion of the applicant's clinical training and approval of radiographic images taken by the applicant, and
   d. The licensed podiatrist's signature and date; and
5. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application ~~packet~~ to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the professional license or certification issued to the applicant by each state in which the applicant holds a professional license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
   a. Has been licensed or certified in another state for at least one year, with a scope of practice consistent with the scope of practice for which certification is being requested;

b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);

c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and

d. Does not have ~~an~~ any complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and

4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification according to R9-16-621.

R9-16-608. Radiologic Technologist, Nuclear Medicine Technologist, and Radiation Therapy Technologist - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a radiologic technologist, nuclear medicine technologist, or radiation therapy technologist if the individual:

1. Is at least 18 years of age; and
2. Satisfies one of the following:
   a. Holds current applicable ARRT or NMTCB certification,
   b. Has completed a Department-approved educational program in radiation technology and has a passing score on a Department-approved examination, or
   c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a radiologic technologist shall follow the standards specified for Radiography in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Radiography~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_rad.pdf?sfvrsn=13e176d0_18~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments.

C. An individual certified as a nuclear medicine technologist shall:

1. Follow the standards specified for Nuclear Medicine in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Nuclear Medicine~~ Practice

Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_nm.pdf?sfvrsn=1ee176d0_14~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments; and

2. Use radiopharmaceutical agents on humans for diagnostic or therapeutic purposes only.

D. An individual certified as a radiation therapy technologist shall follow the standards specified for Radiation Therapy in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Radiation Therapy~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_rt.pdf?sfvrsn=18e076d0_16~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments.

R9-16-609. Application for Initial Certification as a Radiation Technologist, Nuclear Medicine Technologist, or Radiation Therapy Technologist

A. Except as provided in subsection (B), an applicant for initial certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required in R9-16-619;
2. Either:
   a. A copy of the applicant's current ARRT or NMTCB certification; or
   b. Documentation of:
      i. Completing a Department-approved educational program, except as provided in R9-16-602(D); and
      ii. Having a passing score on a Department-approved examination; and
3. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application ~~packet~~ to the Department

that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the professional license or certification issued to the applicant by each state in which the applicant holds a professional license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
   a. Has been licensed or certified in another state for at least one year, with a scope of practice consistent with the scope of practice for which certification is being requested;
   b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
   c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
   d. Does not have ~~an~~ any complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and
4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification according to R9-16-621.

R9-16-610. Mammographic Technologist - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a mammographic technologist if the individual:

1. Is at least 18 years of age;
2. Possesses a current Department-issued certification in radiologic technology; and
3. Satisfies one of the following:
   a. Holds a current ARRT certification in mammography;
   b. Meets the initial training and education requirements in 21 CFR 900.12 and has a passing score on a Department-approved examination in mammography, or
   c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a mammographic technologist:

1. Shall follow the standards specified for Mammography in the ~~2019~~ American

Society of Radiologic Technologists (ASRT) ~~Mammography~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_mamm.pdf?sfvrsn=10e076d0_16~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments; and

2. May perform diagnostic mammography or screening mammography, as defined in A.R.S. § 30-651.

R9-16-611. Student Mammography Permits

A. Before beginning the initial training in 21 CFR 900.12 under R9-16-610(A)(3)(b), an individual shall obtain a student mammography permit from the Department.

B. An applicant for a student mammography permit shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required under R9-16-619; and
2. A Department-provided agreement form that includes the following:
   a. The name and date of birth of the applicant;
   b. The name, license number, e-mail address, and telephone number of a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology;
   c. A statement that the licensed radiologist is accepting responsibility for the applicant's supervision and training; and
   d. The licensed radiologist's signature and date of signing.

C. The Department shall approve or deny an individual's application for a student mammography permit according to R9-16-621.

D. A student mammography permit is valid for one year from the date issued and may not be renewed.

R9-16-612. Application for Initial Certification as a Mammographic Technologist

A. Except as provided in subsection (B), an applicant for initial certification as a mammographic technologist shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required in R9-16-619;
2. The applicant's current radiology technologist certificate number;

3. The applicant's current student mammography permit number, if applicable;
4. Either:
    a. A copy of current ARRT certification in mammography; or
    b. Documentation of:
        i. Completing of initial education and training that meets the requirements specified in 21 CFR 900.12, and
        ii. Having a passing score on a Department-approved examination in mammography; and
5. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a mammographic technologist may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application ~~packet~~ to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the license or certification as a mammographic technologist issued to the applicant by each state in which the applicant holds the license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
    a. Has been licensed or certified as a mammographic technologist in another state for at least one year;
    b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
    c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
    d. Does not have ~~an~~ any complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and
4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification as a mammographic technologist according to R9-16-621.

R9-16-613. Computed Tomography Technologist - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a computed tomography

technologist if the individual:

1. Is at least 18 years of age;
2. Possesses a current Department-issued certification as a radiologic technologist or nuclear medicine technologist; and
3. Satisfies one of the following:
   a. Holds a current ARRT or NMTCB certification in computed tomography,
   b. Has completed two years of training in computed tomography and twelve hours of computed tomography-specific education, or
   c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a computed tomography technologist:

1. Shall follow the standards specified for Computed Tomography in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Computed Tomography~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_ct.pdf?sfvrsn=9e076d0_16~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. May apply ionizing radiation to a human using a computed tomography machine for diagnostic purposes.

R9-16-614. Application for Computed Tomography Technologist Preceptorship and Temporary Certification

A. Before beginning training under R9-16-613(A)(3)(b), an individual shall obtain a computed tomography preceptorship certificate from the Department.

B. An applicant for a computed tomography preceptorship certificate shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required under R9-16-619;
2. A Department-provided agreement form from a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology, that includes the following:
   a. The name and date of birth of the applicant;
   b. The name, license number, e-mail address, and telephone number of the

licensed radiologist;

c. A statement that the licensed radiologist is accepting responsibility for the applicant's supervision and training; and

d. The licensed radiologist's signature and date of signing; and

3. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for a computed tomography preceptorship certificate according to R9-16-621.

D. A computed tomography preceptorship certificate is valid for one year from the date issued and may not be renewed.

E. At least 30 days before the expiration of an individual's computed tomography preceptorship certificate, the individual may apply for a computed tomography temporary certificate by submitting an application ~~packet~~ to the Department that includes:

1. The information and documents required under R9-16-619;

2. A Department-provided agreement form from a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology, that includes the following:

a. The name and date of birth of the applicant;

b. The name, license number, e-mail address, and telephone number of the licensed radiologist;

c. A statement that the licensed radiologist is accepting responsibility for the applicant's supervision and training; and

d. The licensed radiologist's signature and date of signing; and

3. The applicable fee in R9-16-623.

F. The Department shall approve or deny an individual's application for a computed tomography temporary certificate according to R9-16-621.

G. A computed tomography temporary certificate is valid for one year and may not be renewed.

R9-16-615. Application for Initial Certification for a Computed Tomography Technologist

A. Except as provided in subsection (B), an applicant for initial certification as a computed tomography technologist shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required in R9-16-619;

2. The applicant's current radiation technologist or nuclear medicine technologist certificate number;
3. The applicant's computed tomography preceptorship number or temporary certificate number, if applicable;
4. Either:
    a. A copy of the applicant's current ARRT or NMTCB certification in computed tomography; or
    b. Documentation of completion of:
        i. Two years of training in computed tomography, and
        ii. Twelve hours of computed tomography-specific education; and
5. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a computed tomography technologist may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application ~~packet~~ to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the license or certification as a computed tomography technologist issued to the applicant by each state in which the applicant holds the license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
    a. Has been licensed or certified as a computed tomography technologist in another state for at least one year;
    b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
    c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
    d. Does not have ~~an~~ any complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and
4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification as a computed tomography technologist according to R9-16-621.

R9-16-616. Radiologist Assistant - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a radiologist assistant if the individual:

1. Is at least 18 years of age; and
2. Satisfies one of the following:
   a. Holds a current ARRT or CBRPA certification as a radiologist assistant;
   b. Has:
      i. Completed a baccalaureate degree or post-baccalaureate certificate from an accredited educational institution that encompasses a radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship, and
      ii. Achieved a passing score on an ARRT or a CBRPA examination for radiologist assistants; or
   c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a radiologist assistant:

1. Shall follow the standards specified for Radiologist Assistant in the ~~2019~~ American Society of Radiologic Technologists (ASRT) ~~Radiologist Assistant~~ Practice Standards for Medical Imaging and Radiation Therapy, effective June 30, 2024, available at ~~https://www.asrt.org/docs/default-source/practice-standards-published/ps_raa.pdf?sfvrsn=1ae076d0_16~~ https://www.asrt.org/main/standards-and-regulations/professional-practice/practice-standards-online, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. May perform the following procedures under the direction of a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology:
   a. Fluoroscopy;
   b. Assessment and evaluation of the physiological and psychological responsiveness of individuals undergoing radiologic procedures;
   c. Evaluation of image quality, making initial image observations and communicating observations to the supervising radiologist; and
   d. Administration of contrast media or other medications prescribed by the supervising radiologist.

C. A radiologist assistant shall not interpret images, make diagnoses, or prescribe medications or therapies.

R9-16-617. Application for Initial Certification as a Radiologist Assistant

A. Except as provided in subsection (B), an applicant for initial certification as a radiologist assistant shall submit an application ~~packet~~ to the Department that includes:

1. The information and documents required in R9-16-619;
2. Either:
    a. The applicant's current ARRT or CBRPA certification as a radiologist assistant; or
    b. Documentation of:
        i. Completing a baccalaureate degree or post-baccalaureate certificate from an accredited educational institution that encompasses a radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship, and
        ii. Having a passing score an ARRT or a CBRPA examination for radiologist assistants; and
3. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a radiologist assistant may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application ~~packet~~ to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the license or certification as a radiologist assistant issued to the applicant by each state in which the applicant holds the license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
    a. Has been licensed or certified as a radiologist assistant in another state for at least one year;
    b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
    c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and

d. Does not have ~~an~~ any complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and

4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification as a radiologist assistant according to R9-16-621.

R9-16-618. Special Permits

A. An applicant for a special permit under A.R.S. § 32-2814(B) shall submit an application ~~packet~~ to the Department containing:

1. The information and documents required in R9-16-619;
2. An attestation, in a Department-provided format, from the health care institution in which the applicant proposes to practice:
   a. Stating that the requesting health care institution is located in an Arizona medically underserved area, AzMUA, as defined in A.A.C. R9-15-101(4), or a health professional shortage area, HPSA, as defined in A.A.C. R9-15-101(25);
   b. Verifying that the health care institution developed and is implementing a program of continuing education for the applicant to protect the health and safety of individuals undergoing radiologic procedures; and
   c. Signed and dated by the health care institution's administrator or designee; and
3. A letter signed by the health care institution's administrator or designee that provides justification for the issuance of a special permit.

B. The Department shall approve or deny an application for a special permit according to R9-16-621.

C. A special permit is valid for no more than one year, but may be renewed as provided in subsection (A) if the circumstances justifying the issuance of a special permit have not changed.

R9-16-619. Application Information

An applicant for certification shall submit to the Department:

1. The following information in a Department-provided format:
   a. The applicant's name;
   b. The applicant's residential address and, if different, mailing address;

c. The applicant's telephone number;

d. The applicant's e-mail address;

e. The applicant's Social Security number, as required under A.R.S. §§ 25-320 and 25-502;

f. The applicant's date of birth;

g. The applicant's current employment in the radiation technology field, if applicable, including:

   i. The employer's name,

   ii. The applicant's position,

   iii. Dates of employment,

   iv. The address of the employer,

   v. The supervisor's name,

   vi. The supervisor's email address, and

   vii. The supervisor's telephone number;

h. The applicant's educational history related to radiation technology, including:

   i. The name and address of each educational institution,

   ii. The degree or certification received, and

   iii. The applicant's date of graduation;

i. The type of certificate being applied for;

j. Whether the applicant has ever been convicted of a felony or a misdemeanor in this or another state;

k. If the applicant has been convicted of a felony or a misdemeanor:

   i. The date of the conviction,

   ii. The state or jurisdiction of the conviction,

   iii. An explanation of the crime of which the applicant was convicted, and

   iv. The disposition of the case;

l. Whether the applicant holds other professional licenses or certifications and, if so:

   i. The professional license or certification, and

   ii. The state in which the professional license or certification was issued;

m. Whether the applicant has had a professional license or certificate suspended, revoked, or had disciplinary action taken against the professional license or certificate;

n. Whether the applicant agrees to allow the Department to submit supplemental requests for information under R9-16-621;

o. An attestation that the information submitted as part of an application ~~packet~~ is true and accurate; and

p. The applicant's signature and date of signing;

2. If the applicant has had a professional license or certificate suspended, revoked, or had disciplinary action taken against the professional license or certificate within the previous five years, documentation that includes:

a. The date of the disciplinary action, revocation, or suspension;

b. The state or nationally accredited certifying body that issued the disciplinary action, revocation, or suspension; and

c. An explanation of the disciplinary action, revocation, or suspension;

3. If the applicant is currently ineligible for licensing or certification in any state because of a license revocation or suspension, documentation that includes:

a. The date of the ineligibility for licensing or certification,

b. The state or jurisdiction of the ineligibility for licensing or certification, and

c. An explanation of the ineligibility for licensing or certification; and

4. Documentation for the applicant that complies with A.R.S. § 41-1080.

R9-16-620. Renewal of Certification

A. Certifications issued under R9-16-607, R9-16-609, R9-16-612, R9-16-615, and R9-16-617 are valid for two years after issuance, unless revoked.

B. A certificate holder may apply to renew a certification:

1. Within 90 days before the expiration date of the certificate holder's current certification;

2. Within the 30-day period after the expiration date of the certificate holder's certification, if the certificate holder pays the late renewal penalty fee in R9-16-623; or

3. Within the extension time period granted under A.R.S. § 32-4301.

C. An applicant for renewal of a certification shall submit to the Department an application

~~packet~~, including:

1. The following in a Department-provided format:
    a. The applicant's name, address, telephone number, email address, date of birth, and Social Security number;
    b. The applicant's current certification number and type;
    c. The applicant's current employment in the radiation technology field, if applicable, including:
        i. The employer's name,
        ii. The applicant's position,
        iii. Dates of employment,
        iv. The address of the employer,
        v. The supervisor's name,
        vi. The supervisor's email address, and
        vii. The supervisor's telephone number;
    d. Whether the applicant has, within the two years before the date of the application, had:
        i. A certificate issued under this Article suspended or revoked; or
        ii. A professional license or certificate revoked by another state, jurisdiction, or nationally recognized accreditation body;
    e. Whether the applicant agrees to allow the Department to submit supplemental requests for information under R9-16-621;
    f. Attestation that all the information submitted as part of the application ~~packet~~ is true and accurate; and
    g. The applicant's signature and date of signature;
2. As applicable:
    a. For renewal of certification as a mammographic technologist, documentation that meets the requirements in A.R.S. § 32-2841(E); or
    b. For renewal of all other certifications issued under this Article, either:
        i. An attestation that the applicant completed continuing education required under A.R.S. § 32-2815(D) and that documentation of completion is available upon request, signed and dated by the applicant; or
        ii. A copy of the applicant's current certification from a nationally

recognized accreditation body; and

3. The applicable renewal fee and, if applicable, the late renewal penalty fee required in R9-16-623.

D. The Department shall approve or deny an application for recertification according to R9-16-621.

R9-16-621. Review Time-frames

A. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the overall time-frame described in A.R.S. § 41-1072(2).

1. An applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame.
2. The extension of the substantive review time-frame and overall time-frame may not exceed 25% of the overall time-frame.

B. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the administrative completeness review time-frame described in A.R.S. § 41-1072(1).

1. The administrative completeness review time-frame begins on the date the Department receives an application ~~packet~~ required in this Article.
2. Except as provided in subsection (B)(3), the Department shall provide written notice of administrative completeness or a notice of deficiencies to an applicant within the administrative completeness review time-frame.
    a. If an application ~~packet~~ is not complete, the notice of deficiencies shall list each deficiency and the information or documentation needed to complete the application ~~packet~~.
    b. A notice of deficiencies suspends the administrative completeness review time-frame and the overall time-frame from the date of the notice until the date the Department receives the missing information or documentation.
    c. If the applicant does not submit to the Department all the information or documentation listed in the notice of deficiencies within 30 calendar days after the date of the notice of deficiencies, the Department shall consider the application ~~packet~~ withdrawn.
3. If the Department issues a certificate during the administrative completeness review time-frame, the Department shall not issue a separate written notice of

administrative completeness.

C. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the substantive review time-frame described in A.R.S. § 41-1072(3), which begins on the date the Department sends a written notice of administrative completeness.

1. Within the substantive review time-frame, the Department shall provide written notice to the applicant that the Department approved or denied the application.
2. During the substantive review time-frame:
    a. The Department may make one comprehensive written request for additional information or documentation; and
    b. If the Department and the applicant agree in writing, the Department may make supplemental requests for additional information of documentation.
3. A comprehensive written request or a supplemental request for additional information or documentation suspends the substantive review time-frame and the overall time-frame from the date of the request until the date the Department receives all the information or documentation requested.
4. If the applicant does not submit to the Department all the information or documentation listed in a comprehensive written request or supplemental request for additional information or documentation within 30 calendar days after the date of the request, the Department shall deny the certificate or permit.

D. An applicant who is denied a certificate or permit may appeal the denial according to A.R.S. Title 41, Chapter 6, Article 10.

Table 6.1. Time-frames

Type of Application	Administrative Completeness Review Time-frame (in Calendar Days)	Substantive Review Time-frame (in Calendar Days)	Overall Time-frame (in Calendar Days)
Application for Examination	30	30	60
Initial Certificate	30	30	60
Renewal Certificate	30	30	60
Student Mammography Permit	30	30	60
Computed Tomography Preceptorship Certificate or Computed Tomography Temporary Certificate	30	30	60
Special Permit	30	30	60
Name Change	30	30	60
School Approval	60	60	120

R9-16-622. Changes Affecting a Certificate or Certificate Holder~~; Request for a Duplicate Certificate~~

A. A certificate holder shall notify the Department in writing, within 30 calendar days after the effective date of a change in:

1. The certificate holder's residential address, mailing address, or e-mail address, including the new residential address, mailing address, or e-mail address;
2. The certificate holder's name~~, including a copy of the legal document establishing the certificate holder~~'s new name; or
3. The certificate holder's employer, including the name and address of the new employer.

B. A certificate holder ~~may obtain~~ notifying the Department of a name change according to subsection (A)(2) shall request a ~~duplicate~~ revised certificate issued with the certificate holder's new name by submitting to the Department:

1. ~~A written request for a duplicate~~ An application for a revised certificate, in a

Department-provided format, that includes:

a. The certificate holder's name and address as included in Department records,

b. The certificate holder's certificate number and expiration date,

c. The certificate holder's new name, and

~~c.~~d. The certificate holder's signature and date of signature;

2. A copy of the legal document establishing the certificate holder's new name; and

~~2.~~3. The ~~duplicate~~ revised certificate fee in R9-16-623.

C. A certificate holder may submit to the Department, either as a separate written document or as part of the renewal application, a signed and dated request to transfer to inactive status or retirement status under A.R.S. § 32-2816(F).

R9-16-623. Fees

A. Except as provided in subsection (C) or (D), an applicant shall submit to the Department the following nonrefundable fees for:

1. An initial application or renewal application for certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry, $100;
2. An initial application or renewal application for certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist, $100;
3. An initial application or renewal application for certification as a mammographic technologist, $20;
4. A computed tomography preceptorship certificate or computed tomography temporary certificate, $10;
5. An initial application or renewal application for certification as a computed tomography technologist, $20;
6. An initial application or renewal application for certification as a radiologist assistant, $100; and
7. A late renewal penalty fee according to A.R.S. § 32-2816(C), $50.

B. The fee for a ~~duplicate~~ revised certificate is $10.

C. An applicant for initial certification is not required to submit the applicable fee in subsection (A) if the applicant, as part of the applicable application ~~packet~~ in R9-16-607, R9-16-609, R9-16-612, R9-16-615, or R9-16-617, submits an attestation that the

applicant meets the criteria for waiver of licensing fees in A.R.S. § 41-1080.01.

D. As allowed under A.R.S. § 32-2816(F), a certificate holder is not required to submit a fee for renewal of certification if the certificate holder submits to the Department an affidavit stating that the certificate holder:

1. Is retired from the practice of radiologic technology, or
2. Requests to be placed on inactive status.

R9-16-624. Enforcement

A. The Department may, as applicable:

1. Deny, revoke, or suspend a certificate or permit under A.R.S. § ~~36-2821~~ 32-2821;
2. Request an injunction under A.R.S. § ~~36-2825~~ 32-2825; or
3. Assess a civil money penalty under A.R.S. § ~~36-2821~~ 32-2821.

B. In determining which disciplinary action specified in subsection (A) is appropriate, the Department shall consider:

1. The type of violation,
2. The severity of the violation,
3. The danger to public health and safety,
4. The number of violations,
5. The number of individuals affected by the violations,
6. The degree of harm to an individual,
7. A pattern of noncompliance, and
8. Any mitigating or aggravating circumstances.

C. A certificate holder or permittee may appeal a disciplinary action taken by the Department according to A.R.S. Title 41, Chapter 6, Article 10.

ARTICLE 6. RADIATION TECHNOLOGISTS

Section

ARTICLE 6. RADIATION TECHNOLOGISTS

R9-16-601. Definitions

In addition to the definitions in A.R.S. § 32-2801, the following definitions apply in this Article unless otherwise specified:

1. "Applicant" means:
   a. An individual who submits an application packet, or
   b. A person who submits a request for approval of a radiation technologist training program.
2. "Application packet" means the information, documents, and fees required by the Department for a certificate or permit.
3. "ARRT" means the American Registry of Radiologic Technologists.
4. "Authorized user" means the same as in A.A.C. R9-7-102.
5. "Calendar day" means each day, not including the day of the act, event, or default, from which a designated period of time beings to run, but including the last day of the period unless it is a Saturday, Sunday, statewide furlough day, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, statewide furlough day, or legal holiday.
6. "CBRPA" means the Certification Board for Radiology Practitioner Assistants.
7. "Certification" means the issuing of a certificate.
8. "Chest radiography" means radiography performed to visualize the heart and lungs only.
9. "Continuing education" means a course or learning activity that provides instruction and training designed to develop or improve the professional competence of a certificate holder related to the certificate holder's scope of practice.
10. "Contrast media" means material intentionally administered to a human body to define a part or parts of the human body that are not normally radiographically visible.
11. "Department-approved educational program" means a curriculum of courses and learning activities that is accredited by a nationally recognized accreditation body or granted approval through the Department.

12. "Department-approved examination" means a test administered through ARRT, NMTCB, ISCD, or CBRPA.
13. "Extremity" means the same as in A.A.C. R9-7-102.
14. "Fluoroscopy" means the use of radiography to directly visualize internal structures of the human body, the motion of internal structures, and fluids in real time, or near real-time, to aid in the treatment or diagnosis of disease or the performance of other medical procedures.
15. "ISCD" means the International Society for Clinical Densitometry.
16. "Nationally recognized accreditation body" means ARRT, NMTCB, ISCD, or CBRPA.
17. "NMTCB" means the Nuclear Medicine Technology Certification Board.
18. "Radiograph" means the record of an image, representing anatomical details of a part of a human body examined through the use of ionizing radiation, formed by the differential absorption of ionizing radiation within the part of the human body.
19. "Radiography" means the use of ionizing radiation in making radiographs.
20. "Radiopharmaceutical agent" means a radionuclide or radionuclide compound designed and prepared for administration to human beings.

R9-16-602. Training Programs

A. The Department shall maintain a list of Department-approved educational programs according to A.R.S. § 32-2804 on the Department's website at https://www.azdhs.gov/licensing/special/index.php#mrt-approved-schools.

B. An applicant may request Department approval of a curriculum of courses and learning activities as a training program by submitting an application packet that contains:

1. An application, in a Department-provided format, that includes:
   a. The name and address of the school providing the training program;
   b. The name, title, telephone number, and e-mail address of the administrator or designee of the school; and
   c. A list of each training program for which approval is being requested, including the number of hours of instruction provided for each;
2. A copy of the curriculum that includes course titles and course descriptions; and
3. A list of instructors providing the instruction and the credentials of each.

C. The Department shall:

1. Review each application packet according to R9-16-621; and
2. If approved, add the applicant's school to the list of Department-approved educational programs in subsection (A).

D. If an applicant for certification or permit did not complete a Department-approved educational program, the applicant may submit to the Department a copy of the curriculum for the training program completed by the applicant with the applicant's application packet in R9-16-606(B), R9-16-607(A), or R9-16-609(A).

R9-16-603. Practical Technologist in Radiology - Eligibility and Scope of Practice

A. An individual is eligible for certification as a practical technologist in radiology if the individual:

1. Is at least 18 years of age; and
2. Either:
   a. Has completed a training program in radiologic technology through a Department-approved educational program and achieved a score of at least 67% on a Department-approved examination; or
   b. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a practical technologist in radiology shall:

1. Follow the standards specified in the 2019 American Society of Radiologic Technologists Limited X-Ray Machine Operator Practice Standards available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_lxmo.pdf?sfvrsn=29e176d0_16, incorporated by reference, on file with the Department, and including no future editions or amendments;
2. Perform only:
   a. Chest radiography, and
   b. Radiography of the extremities; and
3. Not use fluoroscopy or contrast media.

R9-16-604. Practical Technologist in Podiatry - Eligibility and Scope of Practice

A. An individual is eligible for certification as a practical technologist in podiatry if the individual:

1. Is at least 18 years of age; and

2. Either:
   a. Has:
      i. Completed a training program in podiatry radiology through a Department-approved educational program;
      ii. Received a signed and dated attestation from a podiatrist licensed according to A.R.S. Title 32, Chapter 7, verifying that the applicant:
         (1) Completed training under the direction of the licensed podiatrist, and
         (2) Is proficient in independently taking radiographs; and
      iii. Achieved a score of at least 70% on a Department-approved examination; or
   b. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a practical technologist in podiatry shall:

1. Follow the standards specified in the 2019 American Society of Radiologic Technologists Limited X-Ray Machine Operator Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_lxmo.pdf?sfvrsn=29e176d0_16, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. Only perform radiographic examinations of the lower leg, ankle, and foot, without the use of fluoroscopy or contrast media.

R9-16-605. Practical Technologist in Bone Densitometry - Eligibility and Scope of Practice

A. An individual is eligible for certification as a practical technologist in bone densitometry if the individual:

1. Is at least 18 years of age; and
2. Either:
   a. Has completed a training program in bone densitometry through a Department-approved educational program and achieved a score of at least 70% on a Department-approved examination, or
   b. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a practical technologist in bone densitometry shall:

1. Follow the standards specified in the 2019 American Society of Radiologic Technologists Bone Densitometry Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_bd.pdf?sfvrsn=11e176d0_22, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. Apply ionizing radiation only to a person's hips, spine, and extremities through the use of a bone density machine without the use of fluoroscopy or contrast media.

R9-16-606. Application for Examination

A. An individual may apply for examination if the individual meets eligibility criteria for a:
1. Practical technologist in radiology listed in R9-16-603(A);
2. Practical technologist in podiatry listed in R9-16-604(A); or
3. Practical technologist in bone densitometry listed in R9-16-605(A).

B. An applicant for examination shall submit an application packet to the Department that includes:
1. The information and documents required in R9-16-619;
2. Except as provided in R9-16-602(D), documentation of completion of a Department-approved educational program; and
3. For an applicant for examination as a practical technologist in podiatry, the attestation specified in R9-16-604(A)(2)(a)(ii).

C. The Department shall approve or deny an individual's application for examination according to R9-16-621.

D. If the Department determines that the application packet submitted under subsection (B) is complete and in compliance, the Department shall notify the applicant that the applicant is approved to test.

E. Upon notification by the Department according to subsection (D), and applicant:
1. Shall arrange testing through ARRT, and
2. Has six months to complete testing before the applicant is required to re-apply for examination.

R9-16-607. Application for Initial Certification as a Practical Technologist in Radiology, Practical Technologist in Podiatry, or Practical Technologist in Bone

Densitometry

A. Except as provided in subsection (B), an applicant for initial certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry shall submit an application packet to the Department that includes:

1. The information and documents required in R9-16-619;
2. Except as provided in R9-16-602(D), documentation of completion of a Department-approved educational program;
3. Documentation of achieving the applicable minimum score on a Department-approved examination;
4. For an application for a practical technologist in podiatry, the signed attestation in R9-16-604(A)(2)(a)(ii) containing:
    a. The name and date of birth of the applicant,
    b. The name and license number of the licensed podiatrist,
    c. A statement by the licensed podiatrist verifying completion of the applicant's clinical training and approval of radiographic images taken by the applicant, and
    d. The licensed podiatrist's signature and date; and
5. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application packet to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the professional license or certification issued to the applicant by each state in which the applicant holds a professional license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
    a. Has been licensed or certified in another state for at least one year, with a scope of practice consistent with the scope of practice for which certification is being requested;
    b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
    c. Has not voluntarily surrendered a license or certification in any other

state or country while under investigation for unprofessional conduct; and

d. Does not have an complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and

4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification according to R9-16-621.

R9-16-608. Radiologic Technologist, Nuclear Medicine Technologist, and Radiation Therapy Technologist - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a radiologic technologist, nuclear medicine technologist, or radiation therapy technologist if the individual:

1. Is at least 18 years of age; and
2. Satisfies one of the following:
   a. Holds current applicable ARRT or NMTCB certification,
   b. Has completed a Department-approved educational program in radiation technology and has a passing score on a Department-approved examination, or
   c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a radiologic technologist shall follow the standards specified in the 2019 American Society of Radiologic Technologists Radiography Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_rad.pdf?sfvrsn=13e176d0_18, incorporated by reference, on file with the Department, and including no future editions or amendments.

C. An individual certified as a nuclear medicine technologist shall:

1. Follow the standards specified in the 2019 American Society of Radiologic Technologists Nuclear Medicine Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_nm.pdf?sfvrsn=1ee176d0_14, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. Use radiopharmaceutical agents on humans for diagnostic or therapeutic purposes only.

D. An individual certified as a radiation therapy technologist shall follow the standards specified in the 2019 American Society of Radiologic Technologists Radiation Therapy Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_rt.pdf?sfvrsn=18e076d0_16, incorporated by reference, on file with the Department, and including no future editions or amendments.

R9-16-609. Application for Initial Certification as a Radiation Technologist, Nuclear Medicine Technologist, or Radiation Therapy Technologist

A. Except as provided in subsection (B), an applicant for initial certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist shall submit an application packet to the Department that includes:

1. The information and documents required in R9-16-619;
2. Either:
    a. A copy of the applicant's current ARRT or NMTCB certification; or
    b. Documentation of:
        i. Completing a Department-approved educational program, except as provided in R9-16-602(D); and
        ii. Having a passing score on a Department-approved examination; and
3. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application packet to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the professional license or certification issued to the applicant by each state in which the applicant holds a professional license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
    a. Has been licensed or certified in another state for at least one year, with a scope of practice consistent with the scope of practice for which certification is being requested;
    b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. §

32-4302(A)(3);

c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and

d. Does not have an complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and

4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification according to R9-16-621.

R9-16-610. Mammographic Technologist - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a mammographic technologist if the individual:

1. Is at least 18 years of age;
2. Possesses a current Department-issued certification in radiologic technology; and
3. Satisfies one of the following:
   a. Holds a current ARRT certification in mammography;
   b. Meets the initial training and education requirements in 21 CFR 900.12 and has a passing score on a Department-approved examination in mammography, or
   c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a mammographic technologist:

1. Shall follow the standards specified in the 2019 American Society of Radiologic Technologists Mammography Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_mamm.pdf?sfvrsn=10e076d0_16, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. May perform diagnostic mammography or screening mammography, as defined in A.R.S. § 30-651.

R9-16-611. Student Mammography Permits

A. Before beginning the initial training in 21 CFR 900.12 under R9-16-610(A)(3)(b), an

individual shall obtain a student mammography permit from the Department.

B. An applicant for a student mammography permit shall submit an application packet to the Department that includes:

1. The information and documents required under R9-16-619; and
2. A Department-provided agreement form that includes the following:
    a. The name and date of birth of the applicant;
    b. The name, license number, e-mail address, and telephone number of a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology;
    c. A statement that the licensed radiologist is accepting responsibility for the applicant's supervision and training; and
    d. The licensed radiologist's signature and date of signing.

C. The Department shall approve or deny an individual's application for a student mammography permit according to R9-16-621.

D. A student mammography permit is valid for one year from the date issued and may not be renewed.

R9-16-612. Application for Initial Certification as a Mammographic Technologist

A. Except as provided in subsection (B), an applicant for initial certification as a mammographic technologist shall submit an application packet to the Department that includes:

1. The information and documents required in R9-16-619;
2. The applicant's current radiology technologist certificate number;
3. The applicant's current student mammography permit number, if applicable;
4. Either:
    a. A copy of current ARRT certification in mammography; or
    b. Documentation of:
        i. Completing of initial education and training that meets the requirements specified in 21 CFR 900.12, and
        ii. Having a passing score on a Department-approved examination in mammography; and
5. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a mammographic technologist may be eligible

for certification under A.R.S. § 32-4302(A), the applicant shall submit an application packet to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the license or certification as a mammographic technologist issued to the applicant by each state in which the applicant holds the license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
   a. Has been licensed or certified as a mammographic technologist in another state for at least one year;
   b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
   c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
   d. Does not have an complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and
4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification as a mammographic technologist according to R9-16-621.

R9-16-613. Computed Tomography Technologist - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a computed tomography technologist if the individual:

1. Is at least 18 years of age;
2. Possesses a current Department-issued certification as a radiologic technologist or nuclear medicine technologist; and
3. Satisfies one of the following:
   a. Holds a current ARRT or NMTCB certification in computed tomography,
   b. Has completed two years of training in computed tomography and twelve hours of computed tomography-specific education, or

c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a computed tomography technologist:

1. Shall follow the standards specified in the 2019 American Society of Radiologic Technologists Computed Tomography Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_ct.pdf?sfvrsn=9e076d0_16, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. May apply ionizing radiation to a human using a computed tomography machine for diagnostic purposes.

R9-16-614. Application for Computed Tomography Technologist Preceptorship and Temporary Certification

A. Before beginning training under R9-16-613(A)(3)(b), an individual shall obtain a computed tomography preceptorship certificate from the Department.

B. An applicant for a computed tomography preceptorship certificate shall submit an application packet to the Department that includes:

1. The information and documents required under R9-16-619;
2. A Department-provided agreement form from a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology, that includes the following:
   a. The name and date of birth of the applicant;
   b. The name, license number, e-mail address, and telephone number of the licensed radiologist;
   c. A statement that the licensed radiologist is accepting responsibility for the applicant's supervision and training; and
   d. The licensed radiologist's signature and date of signing; and
3. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for a computed tomography preceptorship certificate according to R9-16-621.

D. A computed tomography preceptorship certificate is valid for one year from the date issued and may not be renewed.

E. At least 30 days before the expiration of an individual's computed tomography preceptorship certificate, the individual may apply for a computed tomography temporary

certificate by submitting an application packet to the Department that includes:

1. The information and documents required under R9-16-619;
2. A Department-provided agreement form from a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology, that includes the following:
    a. The name and date of birth of the applicant;
    b. The name, license number, e-mail address, and telephone number of the licensed radiologist;
    c. A statement that the licensed radiologist is accepting responsibility for the applicant's supervision and training; and
    d. The licensed radiologist's signature and date of signing; and
3. The applicable fee in R9-16-623.

F. The Department shall approve or deny an individual's application for a computed tomography temporary certificate according to R9-16-621.

G. A computed tomography temporary certificate is valid for one year and may not be renewed.

R9-16-615. Application for Initial Certification for a Computed Tomography Technologist

A. Except as provided in subsection (B), an applicant for initial certification as a computed tomography technologist shall submit an application packet to the Department that includes:

1. The information and documents required in R9-16-619;
2. The applicant's current radiation technologist or nuclear medicine technologist certificate number;
3. The applicant's computed tomography preceptorship number or temporary certificate number, if applicable;
4. Either:
    a. A copy of the applicant's current ARRT or NMTCB certification in computed tomography; or
    b. Documentation of completion of:
        i. Two years of training in computed tomography, and
        ii. Twelve hours of computed tomography-specific education; and

5. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a computed tomography technologist may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application packet to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the license or certification as a computed tomography technologist issued to the applicant by each state in which the applicant holds the license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
   a. Has been licensed or certified as a computed tomography technologist in another state for at least one year;
   b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
   c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
   d. Does not have an complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and
4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification as a computed tomography technologist according to R9-16-621.

R9-16-616. Radiologist Assistant - Eligibility and Scope of Practice

A. An individual is eligible to apply for initial certification as a radiologist assistant if the individual:

1. Is at least 18 years of age; and
2. Satisfies one of the following:
   a. Holds a current ARRT or CBRPA certification as a radiologist assistant;
   b. Has:
      i. Completed a baccalaureate degree or post-baccalaureate certificate from an accredited educational institution that

encompasses a radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship, and

ii. Achieved a passing score on an ARRT or a CBRPA examination for radiologist assistants; or

c. Meets the criteria in A.R.S. § 32-4302(A).

B. An individual certified as a radiologist assistant:

1. Shall follow the standards specified the 2019 American Society of Radiologic Technologists Radiologist Assistant Practice Standards, available at https://www.asrt.org/docs/default-source/practice-standards-published/ps_raa.pdf?sfvrsn=1ae076d0_16, incorporated by reference on file with the Department, and including no future editions or amendments; and

2. May perform the following procedures under the direction of a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology:

a. Fluoroscopy;

b. Assessment and evaluation of the physiological and psychological responsiveness of individuals undergoing radiologic procedures;

c. Evaluation of image quality, making initial image observations and communicating observations to the supervising radiologist; and

d. Administration of contrast media or other medications prescribed by the supervising radiologist.

C. A radiologist assistant shall not interpret images, make diagnoses, or prescribe medications or therapies.

R9-16-617. Application for Initial Certification as a Radiologist Assistant

A. Except as provided in subsection (B), an applicant for initial certification as a radiologist assistant shall submit an application packet to the Department that includes:

1. The information and documents required in R9-16-619;

2. Either:

a. The applicant's current ARRT or CBRPA certification as a radiologist assistant; or

b. Documentation of:

i. Completing a baccalaureate degree or post-baccalaureate

certificate from an accredited educational institution that encompasses a radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship, and

ii. Having a passing score an ARRT or a CBRPA examination for radiologist assistants; and

3. The applicable fee in R9-16-623.

B. If an applicant for initial certification as a radiologist assistant may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application packet to the Department that includes:

1. The information and documentation required in R9-16-619;
2. Documentation of the license or certification as a radiologist assistant issued to the applicant by each state in which the applicant holds the license or certification;
3. A statement, signed and dated by the applicant, attesting that the applicant:
   a. Has been licensed or certified as a radiologist assistant in another state for at least one year;
   b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
   c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
   d. Does not have an complaint, allegation, or investigation pending before another regulatory entity in another state or country related to unprofessional conduct; and
4. The applicable fee in R9-16-623.

C. The Department shall approve or deny an individual's application for initial certification as a radiologist assistant according to R9-16-621.

R9-16-618. Special Permits

A. An applicant for a special permit under A.R.S. § 32-2814(B) shall submit an application packet to the Department containing:

1. The information and documents required in R9-16-619;

2. An attestation, in a Department-provided format, from the health care institution in which the applicant proposes to practice:
    a. Stating that the requesting health care institution is located in an Arizona medically underserved area, as defined in A.A.C. R9-15-101(4), or a health professional shortage area, as defined in A.A.C. R9-15-101(25);
    b. Verifying that the health care institution developed and is implementing a program of continuing education for the applicant to protect the health and safety of individuals undergoing radiologic procedures; and
    c. Signed and dated by the health care institution's administrator or designee; and
3. A letter signed by the health care institution's administrator or designee that provides justification for the issuance of a special permit.

B. The Department shall approve or deny an application for a special permit according to R9-16-621.

C. A special permit is valid for no more than one year, but may be renewed as provided in subsection (A) if the circumstances justifying the issuance of a special permit have not changed.

R9-16-619. Application Information

An applicant for certification shall submit to the Department:

1. The following information in a Department-provided format:
    a. The applicant's name;
    b. The applicant's residential address and, if different, mailing address;
    c. The applicant's telephone number;
    d. The applicant's e-mail address;
    e. The applicant's Social Security number, as required under A.R.S. §§ 25-320 and 25-502;
    f. The applicant's date of birth;
    g. The applicant's current employment in the radiation technology field, if applicable, including:
        i. The employer's name,
        ii. The applicant's position,
        iii. Dates of employment,

iv. The address of the employer,

v. The supervisor's name,

vi. The supervisor's email address, and

vii. The supervisor's telephone number;

h. The applicant's educational history related to radiation technology, including:

i. The name and address of each educational institution,

ii. The degree or certification received, and

iii. The applicant's date of graduation;

i. The type of certificate being applied for;

j. Whether the applicant has ever been convicted of a felony or a misdemeanor in this or another state;

k. If the applicant has been convicted of a felony or a misdemeanor:

i. The date of the conviction,

ii. The state or jurisdiction of the conviction,

iii. An explanation of the crime of which the applicant was convicted, and

iv. The disposition of the case;

l. Whether the applicant holds other professional licenses or certifications and, if so:

i. The professional license or certification, and

ii. The state in which the professional license or certification was issued;

m. Whether the applicant has had a professional license or certificate suspended, revoked, or had disciplinary action taken against the professional license or certificate;

n. Whether the applicant agrees to allow the Department to submit supplemental requests for information under R9-16-621;

o. An attestation that the information submitted as part of an application packet is true and accurate; and

p. The applicant's signature and date of signing;

2. If the applicant has had a professional license or certificate suspended, revoked, or had disciplinary action taken against the professional license or certificate

within the previous five years, documentation that includes:

a. The date of the disciplinary action, revocation, or suspension;

b. The state or nationally accredited certifying body that issued the disciplinary action, revocation, or suspension; and

c. An explanation of the disciplinary action, revocation, or suspension;

3. If the applicant is currently ineligible for licensing or certification in any state because of a license revocation or suspension, documentation that includes:

a. The date of the ineligibility for licensing or certification,

b. The state or jurisdiction of the ineligibility for licensing or certification, and

c. An explanation of the ineligibility for licensing or certification; and

4. Documentation for the applicant that complies with A.R.S. § 41-1080.

R9-16-620. Renewal of Certification

A. Certifications issued under R9-16-607, R9-16-609, R9-16-612, R9-16-615, and R9-16-617 are valid for two years after issuance, unless revoked.

B. A certificate holder may apply to renew a certification:

1. Within 90 days before the expiration date of the certificate holder's current certification;

2. Within the 30-day period after the expiration date of the certificate holder's certification, if the certificate holder pays the late renewal penalty fee in R9-16-623; or

3. Within the extension time period granted under A.R.S. § 32-4301.

C. An applicant for renewal of a certification shall submit to the Department an application packet, including:

1. The following in a Department-provided format:

a. The applicant's name, address, telephone number, email address, date of birth, and Social Security number;

b. The applicant's current certification number and type;

c. The applicant's current employment in the radiation technology field, if applicable, including:

i. The employer's name,

ii. The applicant's position,

iii. Dates of employment,
iv. The address of the employer,
v. The supervisor's name,
vi. The supervisor's email address, and
vii. The supervisor's telephone number;

d. Whether the applicant has, within the two years before the date of the application, had:
i. A certificate issued under this Article suspended or revoked; or
ii. A professional license or certificate revoked by another state, jurisdiction, or nationally recognized accreditation body;

e. Whether the applicant agrees to allow the Department to submit supplemental requests for information under R9-16-621;

f. Attestation that all the information submitted as part of the application packet is true and accurate; and

g. The applicant's signature and date of signature;

2. As applicable:

a. For renewal of certification as a mammographic technologist, documentation that meets the requirements in A.R.S. § 32-2841(E); or

b. For renewal of all other certifications issued under this Article, either:
i. An attestation that the applicant completed continuing education required under A.R.S. § 32-2815(D) and that documentation of completion is available upon request, signed and dated by the applicant; or
ii. A copy of the applicant's current certification from a nationally recognized accreditation body; and

3. The applicable renewal fee and, if applicable, the late renewal penalty fee required in R9-16-623.

D. The Department shall approve or deny an application for recertification according to R9-16-621.

R9-16-621. Review Time-frames

A. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the overall time-frame described in A.R.S. § 41-1072(2).

1. An applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame.
2. The extension of the substantive review time-frame and overall time-frame may not exceed 25% of the overall time-frame.

B. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the administrative completeness review time-frame described in A.R.S. § 41-1072(1).

1. The administrative completeness review time-frame begins on the date the Department receives an application packet required in this Article.
2. Except as provided in subsection (B)(3), the Department shall provide written notice of administrative completeness or a notice of deficiencies to an applicant within the administrative completeness review time-frame.
    a. If an application packet is not complete, the notice of deficiencies shall list each deficiency and the information or documentation needed to complete the application packet.
    b. A notice of deficiencies suspends the administrative completeness review time-frame and the overall time-frame from the date of the notice until the date the Department receives the missing information or documentation.
    c. If the applicant does not submit to the Department all the information or documentation listed in the notice of deficiencies within 30 calendar days after the date of the notice of deficiencies, the Department shall consider the application packet withdrawn.
3. If the Department issues a certificate during the administrative completeness review time-frame, the Department shall not issue a separate written notice of administrative completeness.

C. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the substantive review time-frame described in A.R.S. § 41-1072(3), which begins on the date the Department sends a written notice of administrative completeness.

1. Within the substantive review time-frame, the Department shall provide written notice to the applicant that the Department approved or denied the application.
2. During the substantive review time-frame:
    a. The Department may make one comprehensive written request for

additional information or documentation; and

b. If the Department and the applicant agree in writing, the Department may make supplemental requests for additional information of documentation.

3. A comprehensive written request or a supplemental request for additional information or documentation suspends the substantive review time-frame and the overall time-frame from the date of the request until the date the Department receives all the information or documentation requested.

4. If the applicant does not submit to the Department all the information or documentation listed in a comprehensive written request or supplemental request for additional information or documentation within 30 calendar days after the date of the request, the Department shall deny the certificate or permit.

D. An applicant who is denied a certificate or permit may appeal the denial according to A.R.S. Title 41, Chapter 6, Article 10.

Table 6.1. Time-frames

Type of Application	Administrative Completeness Review Time-frame (in Calendar Days)	Substantive Review Time-frame (in Calendar Days)	Overall Time-frame (in Calendar Days)
Application for Examination	30	30	60
Initial Certificate	30	30	60
Renewal Certificate	30	30	60
Student Mammography Permit	30	30	60
Computed Tomography Preceptorship Certificate or Computed Tomography Temporary Certificate	30	30	60
Special Permit	30	30	60
School Approval	60	60	120

R9-16-622. Changes Affecting a Certificate or Certificate Holder; Request for a Duplicate Certificate

A. A certificate holder shall notify the Department in writing, within 30 calendar days after the effective date of a change in:

1. The certificate holder's residential address, mailing address, or e-mail address, including the new residential address, mailing address, or e-mail address;

2. The certificate holder's name, including a copy of the legal document establishing the certificate holder's new name; or

3. The certificate holder's employer, including the name and address of the new employer.

B. A certificate holder may obtain a duplicate certificate by submitting to the Department:

1. A written request for a duplicate certificate, in a Department-provided format, that includes:
   a. The certificate holder's name and address,
   b. The certificate holder's certificate number and expiration date, and
   c. The certificate holder's signature and date of signature; and
2. The duplicate certificate fee in R9-16-623.

C. A certificate holder may submit to the Department, either as a separate written document or as part of the renewal application, a signed and dated request to transfer to inactive status or retirement status under A.R.S. § 32-2816(F).

R9-16-623. Fees

A. Except as provided in subsection (C) or (D), an applicant shall submit to the Department the following nonrefundable fees for:

1. An initial application or renewal application for certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry, $100;
2. An initial application or renewal application for certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist, $100;
3. An initial application or renewal application for certification as a mammographic technologist, $20;
4. A computed tomography preceptorship certificate or computed tomography temporary certificate, $10;
5. An initial application or renewal application for certification as a computed tomography technologist, $20;
6. An initial application or renewal application for certification as a radiologist assistant, $100; and
7. A late renewal penalty fee according to A.R.S. § 32-2816(C), $50.

B. The fee for a duplicate certificate is $10.

C. An applicant for initial certification is not required to submit the applicable fee in subsection (A) if the applicant, as part of the applicable application packet in R9-16-607, R9-16-609, R9-16-612, R9-16-615, or R9-16-617, submits an attestation that the

applicant meets the criteria for waiver of licensing fees in A.R.S. § 41-1080.01.

D. As allowed under A.R.S. § 32-2816(F), a certificate holder is not required to submit a fee for renewal of certification if the certificate holder submits to the Department an affidavit stating that the certificate holder:

1. Is retired from the practice of radiologic technology, or
2. Requests to be placed on inactive status.

R9-16-624. Enforcement

A. The Department may, as applicable:

1. Deny, revoke, or suspend a certificate or permit under A.R.S. § 36-2821;
2. Request an injunction under A.R.S. § 36-2825; or
3. Assess a civil money penalty under A.R.S. § 36-2821.

B. In determining which disciplinary action specified in subsection (A) is appropriate, the Department shall consider:

1. The type of violation,
2. The severity of the violation,
3. The danger to public health and safety,
4. The number of violations,
5. The number of individuals affected by the violations,
6. The degree of harm to an individual,
7. A pattern of noncompliance, and
8. Any mitigating or aggravating circumstances.

C. A certificate holder or permittee may appeal a disciplinary action taken by the Department according to A.R.S. Title 41, Chapter 6, Article 10.

Statutes Pertaining to 9 A.A.C. 16, Article 6

32-2801. Definitions

In this chapter, unless the context otherwise requires:

1. "Certificate" means a certificate that is granted and issued by the department.

2. "Certified technologist" means a person holding a certificate that is granted and issued by the department.

3. "Computed tomography technologist" means a person who applies ionizing radiation to a human using a computed tomography machine for diagnostic purposes.

4. "Department" means the department of health services.

5. "Direction" means responsibility for and control of the application of ionizing radiation to human beings for diagnostic or therapeutic purposes.

6. "Director" means the director of the department of health services.

7. "Ionizing radiation" means gamma rays and x-rays, alpha and beta particles, high speed electrons, neutrons, protons and other nuclear particles or rays.

8. "Leg" means that part of the lower limb between the knee and the foot.

9. "Licensed practitioner" means a person who is licensed or otherwise authorized by law to practice medicine, dentistry, osteopathic medicine, podiatry, chiropractic or naturopathic medicine in this state.

10. "Mammographic technologist" means a person who applies ionizing radiation to the breasts of a human being for diagnostic purposes.

11. "Nuclear medicine technologist" means a person who uses radiopharmaceutical agents on humans for diagnostic or therapeutic purposes as set forth in rules adopted pursuant to section 32-2815.

12. "Practical technologist in bone densitometry" means a technologist who holds a certificate to apply ionizing radiation to a person's hips, spine and extremities through the use of a bone density machine.

13. "Practical technologist in podiatry" means a person holding a practical technologist in podiatry certificate that is granted and issued by the department.

14. "Practical technologist in podiatry certificate" means a certificate that is issued to a person, other than a licensed practitioner, who applies ionizing radiation to the foot and leg for diagnostic purposes while under the specific direction of a licensed practitioner.

15. "Practical technologist in radiology" means a person holding a practical technologist in radiology certificate that is granted and issued by the department.

16. "Practical technologist in radiology certificate" means a certificate that is issued to a person,

other than a licensed practitioner, who applies ionizing radiation to specific parts of the human body for diagnostic purposes while under the specific direction of a licensed practitioner.

17. "Radiation therapy technologist" means a person who uses radiation on humans for therapeutic purposes.

18. "Radiologic technologist" means a person who holds a certificate that is issued by the department and that allows that person to apply ionizing radiation to individuals at the direction of a licensed practitioner for general diagnostic or therapeutic purposes.

19. "Radiologic technology" means the science and art of applying ionizing radiation to human beings for general diagnostic or therapeutic purposes.

20. "Radiologic technology certificate" means a certificate that is issued in radiologic technology to a person with at least twenty-four months of full-time study or its equivalent through an approved program and who has successfully completed an examination by a national certifying body.

21. "Radiologist" means a licensed practitioner of medicine or osteopathic medicine who has undertaken a course of training that meets the requirements for admission to the examination of the American board of radiology or the American osteopathic board of radiology.

22. "Radiologist assistant" means a person who holds a certificate pursuant to section 32-2819 and who performs independent advanced procedures in medical imaging and interventional radiology under the guidance, directions, supervision and discretion of a licensed practitioner of medicine or osteopathic medicine specializing in radiology as set forth in section 32-2819 and the rules adopted pursuant to that section.

23. "Unethical professional conduct" means the following acts, whether occurring in this state or elsewhere:

(a) Intentionally betraying a professional confidence or intentional violation of a privileged communication except as required by law. This subdivision does not prevent the department from exchanging information with the radiologic licensing and disciplinary boards of other states, territories or districts of the United States or foreign countries.

(b) Using controlled substances as defined in section 36-2501, narcotic drugs, dangerous drugs or marijuana as defined in section 13-3401 or hypnotic drugs, derivatives or any compounds, mixtures or preparations that may be used for producing hypnotic effects or the use of alcohol to the extent that it affects the ability of the certificate or permit holder to practice his profession.

(c) Using drugs for other than accepted therapeutic purposes.

(d) Committing gross malpractice.

(e) Procuring or attempting to procure a certificate or license by fraud or misrepresentation.

(f) Having professional connection with or lending one's name to an illegal practitioner of radiologic technology or any other health profession.

(g) Offering, undertaking or agreeing to correct, cure or treat a condition, disease, injury, ailment or infirmity by a secret means, method, device or instrumentality.

(h) Refusing to divulge to the department, on reasonable notice and demand, the means, method, device or instrumentality used in the treatment of a condition, disease, injury, ailment or infirmity. This subdivision does not apply to communication between a technologist or permit holder and a patient with reference to a disease, injury, ailment or infirmity, or as to any knowledge obtained by personal examination of the patient.

(i) Giving or receiving, or aiding or abetting the giving or receiving, of rebates, either directly or indirectly.

(j) Knowingly making any false or fraudulent statement, written or oral, in connection with the practice of radiologic technology.

(k) Having a certificate or license refused, revoked or suspended by any other state, territory, district or country for reasons that relate to the person's ability to safely and skillfully practice radiologic technology or to any act of unprofessional conduct.

(l) Engaging in any conduct or practice that does or would constitute a danger to the health of the patient or the public.

(m) Obtaining a fee by fraud or misrepresentation or wilfully or intentionally filing a fraudulent claim with a third party for services rendered or to be rendered to a patient.

(n) Employing uncertified persons to perform or aiding and abetting uncertified persons in the performance of work that can be done legally only by certified persons.

(o) Violating or attempting to violate, directly or indirectly, or assisting or abetting the violation of or conspiring to violate this chapter or a rule adopted by the department.

24. "Unlimited practical technologist in radiology" means a person holding an unlimited practical technologist in radiology certificate that is granted and issued by the department.

25. "Unlimited practical technologist in radiology certificate" means a certificate that was issued to a person in 1977 or 1978, other than a licensed practitioner, who applies ionizing radiation to the human body for diagnostic purposes while under the specific direction of a licensed practitioner.

32-2803. Rules

The director may adopt rules as may be needed to carry out the purposes of this chapter. The rules shall include:

1. Minimum standards of training and experience for persons to be certified pursuant to this chapter and procedures for examining applicants for certification.

2. Provisions identifying the types of applications of ionizing radiation for a practical technologist in podiatry, practical technologist in radiology, practical technologist in bone densitometry, radiologic technologist, radiation therapy technologist, mammographic technologist, nuclear medicine technologist, computed tomography technologist and radiologist assistant and any new radiologic modality technologist and those minimum standards of education and training to be met by each type of applicant.

32-2804. School approval; standards; considerations

A. The department may approve a school of radiologic technology as maintaining a satisfactory standard if its course of study:

1. Is for a period of at least twenty-four months of full-time study or its equivalent and is accredited by the committee on allied health accreditation or meets or exceeds the standards of this chapter.

2. Includes at least four hundred hours of classroom work, including radiation protection, x-ray physics, radiographic techniques, processing techniques, nursing procedures, anatomy and physiology, radiographic positioning, radiation therapy and professional ethics.

3. Includes at least one thousand eight hundred hours devoted to clinical experience.

4. Includes demonstrations, discussions, seminars and supervised practice.

5. Includes at least eighty hours of regularly scheduled supervised film critiques.

B. An approved school of radiologic technology may be operated by a medical or educational institution or other public or private agency or institution and, for the purpose of providing the requisite clinical experience, shall be affiliated with one or more hospitals that the department determines are likely to provide this experience.

C. In approving a school of radiologic technology, the department shall consider the standards adopted by appropriate professional organizations, including the joint review committee on education in radiologic technology, and may accept the certification of a school of radiologic technology or the accreditation of a hospital to provide requisite clinical experience if the department finds that certification or accreditation was granted on the basis of standards that will afford the same protection to the public as the standards provided by this chapter.

32-2811. Ionizing radiation; prohibitions; limitations; exceptions

A. Except as provided in subsection D of this section, a person may not use ionizing radiation on a human being unless the person is a licensed practitioner or the holder of a certificate as provided in this chapter.

B. A person holding a certificate may use ionizing radiation on human beings only for diagnostic or therapeutic purposes while operating in each particular case at the direction of a licensed practitioner, except that a person holding a certificate may use ionizing radiation on human beings for diagnostic purposes only while operating in each particular case at the direction of a licensed practitioner who is licensed in any other state, territory or district of the United States. The application of ionizing radiation and the direction to apply ionizing radiation are limited to those persons or parts of the human body specified in the law under which the licensed practitioner is licensed. The provisions of the technologist's certificate govern the extent of application of ionizing radiation.

C. The provisions of this chapter relating to technologists do not limit, enlarge or affect in any

respect the practice of their respective professions by duly licensed practitioners.

D. The requirement of a certificate does not apply to:

1. A hospital resident specializing in radiology who is not a licensed practitioner in this state or a student enrolled in and attending a school or college of medicine, osteopathic medicine, podiatry, dentistry, naturopathic medicine, chiropractic or radiologic technology and who applies ionizing radiation to a human being while under the specific direction of a licensed practitioner.

2. A person engaged in performing the duties of a technologist in that person's employment by an agency, bureau or division of the government of the United States.

3. Dental hygienists licensed in this state and dental assistants holding a valid certificate in dental radiology from a course approved by the state board of dental examiners.

4. Persons providing assistance during an ionizing radiation procedure, apart from such procedures conducted in a health care institution, under the direction of a person licensed to use an ionizing radiation machine.

5. A person who is employed by or acting on behalf of the state department of corrections or a county jail and who uses a low-dose ionizing radiation body scanning device to detect contraband, as defined in section 13-2501, in or on an inmate.

6. A podiatric medical assistant who holds a valid certificate in podiatric radiology from a course approved by the state board of podiatry examiners.

E. Subsection B of this section does not apply to ionizing radiation ordered by a licensed practitioner for other than diagnostic or therapeutic purposes pursuant to section 13-2505, subsection E.

32-2812. <u>Applications for certificate; qualifications; fees; examination; denial</u>

A. An applicant for a certificate shall submit an application for certification or an application for examination for certification, accompanied by a nonrefundable fee established by the director. An applicant who has practiced radiography without certification shall pay a prorated fee retroactively to the earliest date of uncertified practice. The fee for a replacement certificate is $10. The application for examination fee is $70 and shall not be prorated. An application shall contain information that the applicant:

1. Is at least eighteen years of age.

2. Meets one of the following requirements:

(a) In the case of an application for radiologic technologist, radiation therapy technologist or nuclear medicine technologist certification, has successfully completed a course of study at a school of radiologic technology that is approved by the department or an out-of-state school of radiologic technology that is approved by the joint review committee on education in radiologic technology, the American registry of radiologic technologists or the nuclear medicine technology certification board.

(b) In the case of an application for practical technologist in podiatry certification, practical

technologist in bone densitometry certification and practical technologist in radiology certification, satisfactorily meets the basic requisites determined by the department pursuant to section 32-2803.

(c) In the case of an application for radiologist assistant certification, has obtained a baccalaureate degree or postbaccalaureate certificate from an advanced academic program that encompasses a nationally recognized radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship. An applicant for certification before April 1, 2009 is not required to have a baccalaureate degree or postbaccalaureate certificate, but must have completed an advanced academic program that encompasses a nationally recognized radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship.

B. If the application is in proper form and it appears that the applicant meets the eligibility requirements, the applicant shall be notified of the time and place of the next examination.

C. The department may accept, in lieu of its own examination, a certificate issued on the basis of an examination by a certificate-granting body recognized by the department or a certificate, registration or license issued by another state if that state's standards for certification, registration or licensure are satisfactory to the department.

D. The department may deny a certificate to an applicant who has committed an act or engaged in conduct in any jurisdiction that resulted in a disciplinary action against the applicant or that would constitute grounds for disciplinary action under this chapter.

32-2813. Examination; contents; subsequent examinations

A. Examinations for certification shall include the subjects of radiation protection, x-ray physics, radiographic techniques, processing techniques, nursing procedures, anatomy terminology, radiological mathematics, professional ethics and such other subjects as the department may deem appropriate.

B. The department shall prepare lists of examination questions or problems and administer the examinations.

C. Examinations shall include written questions but may also include practical and oral portions. Following each examination, the papers and the practical and oral examinations shall be graded and the standing of each applicant shall be recorded. The department shall either pass or reject each applicant.

D. An applicant who fails to pass an examination may reapply for examination in the manner prescribed by section 32-2812. The department shall require a candidate who fails the examination three times to successfully complete additional training prescribed by the department before accepting the candidate for reexamination.

32-2814. Initial certificates; special permits; temporary certificates

A. The department shall issue an initial certificate that is valid for two years to each candidate who has paid the prescribed fee and who either has successfully passed the examination or has been accepted pursuant to section 32-2812.

B. The department, on application, may issue a special permit to exempt a person from this chapter if the department finds to its satisfaction that there is substantial evidence that the people in the locality of the state in which such an exemption is sought would be denied adequate medical care because of the unavailability of certified licensed practitioners or persons holding certificates pursuant to this chapter. The department shall issue a special permit for a limited period of time, not to exceed one year, to be prescribed by the department in accordance with the purposes of this chapter. The department may renew a special permit if the permittee's circumstances have not changed.

C. The department may issue a temporary certificate to any person whose certification or recertification is pending and in whose case the issuance of a temporary certificate may be justified by reason of special circumstances.

D. A temporary certificate shall be issued only if the department finds that its issuance will not violate the purposes of this chapter or tend to endanger the public health and safety. A temporary certificate expires thirty days after the date of the next examination if the applicant is required to take the examination or, if the applicant does not take the examination, on the date of the examination. In all other cases, a temporary certificate expires when the determination is made either to issue or to deny the issuance of a certificate. A temporary certificate shall not be valid for more than one year and may not be renewed.

E. A person shall submit an application for certification in a form prescribed by the department.

32-2815. Rules; bone densitometry certification; nuclear medicine certification; continuing education

A. The department shall adopt rules regarding the certification of practical technologists in bone densitometry to allow the certificate holder to apply ionizing radiation to a person's extremities through the use of a bone densitometry machine. The rules shall prescribe:

1. The minimum education and training qualifications for certification. The qualifications prescribed by the department shall allow a person who does not meet the education and training requirements of a radiologic technologist or a practical technologist in radiology to obtain a certificate as a practical technologist in bone densitometry.

2. The application and renewal fees.

B. Subsection A of this section does not prohibit a radiologic technologist or a practical technologist in radiology from operating a bone densitometry machine.

C. A person who wishes to practice as a nuclear medicine technologist must apply to the department for certification as prescribed by rule. The department shall adopt rules to establish minimum educational and training requirements for nuclear medicine technologists.

D. The department shall adopt rules to prescribe the following minimum continuing education requirements for the renewal of the following certificates:

1. Practical technologist in podiatry, two hours every two years.

2. Practical technologist in radiology, six hours every two years.

3. Practical technologist in bone densitometry, two hours every two years.

4. Unlimited practical technologist in radiology, twenty-four hours every two years.

5. Nuclear medicine technologist, twenty-four hours every two years.

6. Radiologist assistant, fifty hours every two years.

7. Radiologic technologist, twenty-four hours every two years.

8. Radiation therapy technologist, twenty-four hours every two years.

E. The department may require an applicant for renewal to document compliance with the appropriate continuing education requirements of subsection D of this section.

32-2816. Certificates; fee; terms; registration; renewal; cancellation; waiver

A. Except as provided in section 32-4301, a certificate issued under this section is valid for two years.

B. The department may renew a certificate for two years on payment of a renewal fee established by the director and submission of a renewal application containing information the department requires to show that the applicant for renewal is a technologist in good standing. The applicant for renewal shall also present evidence satisfactory to the department of having completed the required continuing education in radiologic technology within the preceding two years. If a radiologic technologist is certified by the American registry of radiologic technologists or nuclear medicine technology certification board, that person must satisfy the continuing education requirements of this subsection by providing the department with evidence of the technologist's good standing and current certification with that registry.

C. A certificate holder who fails to renew the certificate on or before the certificate's expiration as prescribed in subsection B of this section shall pay a penalty fee of fifty dollars for late renewal.

D. A certificate holder who does not renew a certificate within thirty days after the certificate expires and who continues the active practice of radiologic technology without adequate cause satisfactory to the department is subject to censure, reprimand or denial of right to renew the certificate pursuant to section 32-2821.

E. On the request of a certificate holder in good standing, the department shall cancel a certificate.

F. The department shall waive the renewal fee if a certificate holder submits an affidavit to the department stating that the certificate holder is retired from the practice of radiologic technology or wishes to be placed on inactive status. A retired or inactive technologist who practices is subject to the same penalties imposed pursuant to this chapter on a person who practices radiologic technology without a certificate.

G. The department may reinstate a technologist on retired or inactive status on payment of the renewal fee pursuant to subsection B of this section.

32-2817. Use of title; display of certificate or permit

A. A person holding a certificate may use the title "certified radiologic technologist", "certified nuclear medicine technologist", "certified radiation therapy technologist", "certified computed tomography technologist", "certified mammographic technologist", "certified radiologist assistant", "certified practical technologist in podiatry", "certified practical technologist in bone densitometry" or "certified practical technologist in radiology", as applicable. No other person shall be entitled to use such titles or title or letters after such person's name that indicates or implies that such person is a certified technologist or to represent the person in any way, whether orally or in writing, expressly or by implication, as being so certified.

B. Every technologist or special permit holder shall display a certificate or permit at the technologist's or permit holder's place of employment.

32-2818. Lapsed certification; inactive status; reinstatement

A person who was an unlimited practical technologist in radiology under this chapter from and after December 31, 1992 and whose certificate was not suspended or revoked but who failed to renew the certificate, on application to the department, may be placed on inactive status or reinstated pursuant to section 32-2816.

32-2819. Radiologist assistants; certification; rules; scope of practice

A. A person who wishes to practice as a radiologist assistant must apply to the department for a certificate on a form and in the manner prescribed by the department pursuant to the requirements of section 32-2812.

B. The department shall adopt rules to implement this section. The rules shall include the following:

1. Continuing education requirements.

2. Any other requirements the department considers appropriate to implement this section.

C. Pursuant to rules adopted by the department, a radiologist assistant may do the following under the direct supervision of a radiologist:

1. Perform fluoroscopic procedures.

2. Assess and evaluate the physiologic and psychological responsiveness of patients undergoing radiologic procedures.

3. Evaluate image quality, make initial image observations and communicate observations to the supervising radiologist.

4. Administer contrast media or other medications prescribed by the supervising radiologist.

5. Perform any other procedures consistent with rules adopted by the department.

D. In adopting rules pursuant to subsection C of this section, the department shall consider guidelines established by the American society of radiologic technologists and the American registry of radiologic technologists.

E. A radiologist assistant shall not interpret images, make diagnoses or prescribe medications or therapies.

F. A radiologist who supervises a radiologist assistant may authorize the assistant to perform only those radiologic procedures described in this section.

G. A person shall not do any of the following without a certificate issued pursuant to this section:

1. Perform the radiologic procedures described in subsection C of this section.

2. Claim to be a radiologist assistant, including using any sign, advertisement, card, letterhead, circular or other writing, document or design to induce others to believe the person is authorized to practice as a radiologist assistant.

H. Subsection G of this section does not apply to either of the following:

1. A person engaging in the scope of practice for which the person holds a valid license or certificate.

2. A person performing a task as part of an advanced academic program.

32-2821. Revocation or suspension of certificate or permit; civil penalties; enforcement; appeals; hearings

A. The director may revoke or suspend a certificate or permit issued under this chapter if the holder of the certificate or permit:

1. Is guilty of any fraud or deceit in activities as a technologist or radiologist assistant or has been guilty of any fraud or deceit in procuring or maintaining a certificate.

2. Has been convicted in a court of competent jurisdiction of a crime involving moral turpitude. If the conviction has been reversed and the holder of the certificate or permit has been discharged or acquitted or if the holder of the certificate or permit has been pardoned or the holder's civil rights have been restored, the certificate may be restored.

3. Is an habitual drunkard or is addicted to the use of morphine, cocaine or other drugs having similar effect, is insane or uses hallucinogens.

4. Has knowingly aided or abetted a person, not otherwise authorized, who is not a certified technologist or radiologist assistant or has not been issued a special permit in engaging in the activities of a technologist or radiologist assistant.

5. Has undertaken or engaged in any practice beyond the scope of the authorized activities of a certified technologist, radiologist assistant or permit holder pursuant to this chapter.

6. Has impersonated a duly certified technologist, radiologist assistant or permit holder or former duly certified technologist, radiologist assistant or permit holder or is engaging in the activities of a technologist, radiologist assistant or permit holder under an assumed name.

7. Has been guilty of unethical professional conduct.

8. Has continued to practice without obtaining a certificate renewal or a special permit renewal.

9. Has applied ionizing radiation to a human being when not operating in each particular case under the direction of a duly licensed practitioner or to any person or part of the human body other than specified in the law under which the practitioner is licensed.

10. Has acted or is acting as an owner, co-owner or employer in any enterprise engaged in the application of ionizing radiation to human beings for the purpose of diagnostic interpretation or the treatment of disease, without being under the direction of a licensed practitioner.

11. Has used or is using the prefix "Dr.", the word "doctor" or any prefix or suffix to indicate or imply that the person is a duly licensed practitioner if this is not true.

12. Is or has been guilty of incompetence or negligence in activities as a technologist.

13. Is or has been afflicted with any medical problem, disability or addiction that the department determines impairs the certificate or permit holder's professional competence.

14. Has interpreted a diagnostic image for a physician, a patient, the patient's family or the public.

15. Has violated any provision of this chapter or rule adopted pursuant to this chapter.

B. A person may appeal the revocation or suspension under subsection A of this section by requesting a hearing pursuant to title 41, chapter 6, article 10. If the revocation or suspension is appealed, the director may not take further action to enforce the revocation or suspension until after the hearing.

C. If the certificate of any person has been revoked or suspended, the department, after the expiration of two years, may consider an application for restoration of the certificate.

D. The director may assess a civil penalty against a person in an amount not to exceed two hundred fifty dollars for each violation of this chapter or a rule adopted pursuant to this chapter. Each day a violation occurs constitutes a separate violation.

E. The director shall issue a notice of assessment that includes the proposed amount of the assessment. In determining the amount of a civil penalty assessed against a person under this subsection, the department shall consider all of the following:

1. Repeated violations of statutes and rules.

2. Patterns of noncompliance.

3. Types of violations.

4. The severity of violations.

5. The potential for and occurrences of actual harm.

6. Threats to health and safety.

7. The number of persons affected by the violations.

8. The number of violations.

9. The length of time the violations have been occurring.

F. A person may appeal the civil penalty assessment by requesting a hearing pursuant to title 41, chapter 6, article 10. If an assessment is appealed, the director may not take further action to enforce and collect the assessment until after the hearing.

G. Actions to enforce the collection of civil penalties assessed pursuant to this section shall be brought by the attorney general or the county attorney in the name of the state in the justice court or the superior court in the county in which the violation occurred.

H. The department shall deposit, pursuant to sections 35-146 and 35-147, civil penalties collected pursuant to this section in the state general fund.

I. The department shall conduct any hearing to revoke or suspend a certificate or permit or impose a civil penalty under this section pursuant to title 41, chapter 6, article 10.

J. The department may issue a nondisciplinary order requiring the certificate holder or permit holder to complete a prescribed number of hours of continuing education in an area or areas prescribed by the department to provide the certificate holder or permit holder with the necessary understanding of current developments, skills, procedures or treatment. The department may also file a letter of concern, issue a decree of censure, prescribe a period of probation or restrict or limit the practice of a certificate or permit holder.

32-2824. Inspections

A. The department or its duly authorized representatives may enter during scheduled work hours on private or public property for the purpose of:

1. Ensuring that only certified individuals or individuals who are exempt from certification are operating ionizing radiation machines.

2. Determining whether a certified individual is practicing beyond the scope of the person's certificate.

3. Determining whether a certified individual has violated the provisions of this chapter.

4. Auditing ionizing radiation logbooks.

5. Determining compliance with this chapter and the rules adopted pursuant to this chapter.

B. The department may enter areas under the jurisdiction of the federal government only with its permission.

32-2841. Mammographic technologists; computed tomography technologists; certification; renewal

A. A person who wishes to perform diagnostic mammography or screening mammography as defined in section 30-651 shall obtain a mammographic technologist certificate from the department. A person who wishes to perform computed tomography shall obtain a computed tomography technologist certificate from the department. The department shall issue a certificate to an applicant who:

1. Pays a twenty dollar application fee.

2. Holds a current radiologic technology certificate issued by the department.

3. For a mammographic certification, completes the training and education requirements of subsection B of this section and passes an examination as prescribed in subsection D of this section.

4. For a computed tomography technologist certification, provides documentation of two years of experience in computed tomography and completion of twelve hours of computed tomography specific education or passes an examination as prescribed in subsection D of this section.

B. To satisfy the education requirements of subsection A of this section, an applicant shall meet the initial training and education requirements of the mammography quality standards act regulations for quality standards of mammographic technologists, 21 Code of Federal Regulations section 900.12.

C. The department shall issue a student mammography permit, preceptorship or temporary certificate to a person who is in training and meets the requirement of subsection A, paragraph 2 of this section if the applicant also provides the department with verification of employment and the name of the radiologist who agrees to be responsible for the applicant's supervision and training. A student mammography permit, preceptorship or temporary certificate is valid for one year from the date it is issued and may not be renewed. If the holder completes all of the requirements of subsection A of this section within the permitted period, the department shall issue a mammographic or computed tomography technologist certificate. The mammographic or computed tomography technologist certificate shall be renewed as prescribed under subsection E of this section.

D. To satisfy the examination requirements of this section an applicant shall pass an examination in mammography or computed tomography administered by the department or, in lieu of its own examination, the department may accept a certificate issued on the basis of an examination by a certificate-granting body recognized by the department.

E. Except as provided in section 32-4301, a certificate that is issued under this section is valid for two years. The department shall notify a certificate holder thirty days before the expiration date of the certificate. An applicant for renewal of a mammographic technologist certificate shall meet the continuing education requirements of the mammography quality standards act regulations for quality standards of mammographic technologists, 21 Code of Federal Regulations section 900.12. If a radiologic technologist is certified by the American registry of radiologic technologists, that person must satisfy the continuing education requirements of this subsection by providing the department with evidence of the technologist's good standing and current certification with that registry. The applicant shall also pay a twenty dollar renewal fee to the

department.

F. A person or facility that employs a person certified under this section shall report any suspected violations of section 32-2821 to the department. The department shall investigate the complaint. If in the course of its investigation the department determines that a person regulated by another regulatory agency of this state may have violated that agency's laws, the department shall report the violation to the other agency for disciplinary action.

32-2842. Mammographic images; physicians; requirements

A physician licensed under chapter 13 or 17 of this title who reads or interprets mammographic images shall meet the following requirements:

1. Have completed forty hours of medical education credits in mammography.

2. Be certified by either the American board of radiology in diagnostic radiology or the American osteopathic board of radiology in diagnostic radiology, as applicable, or meet the requirements of the mammography quality standards act regulations for quality standards of interpreting physicians, 21 Code of Federal Regulations section 900.12.

32-2843. Facilities; requirements

A. A facility that wishes to conduct patient self-referral mammographic screening examinations after January 1, 1994 shall submit the following to the department:

1. The physician-approved guide for accepting self-referrals by patients.

2. A copy of the facility's quality assurance program.

3. The medical physicist's evaluation report of the facility.

B. A facility that does not have a darkroom on-site or that does not develop the films within one hour of exposure shall submit the following to the department:

1. A description of how the facility plans to ensure that the equipment is operating properly at the start of each day.

2. Information regarding the darkroom that develops the film that demonstrates to the department's satisfaction that transportation conditions will not adversely affect a person's ability to interpret the films.

C. The director shall prescribe requirements for the documents required to be submitted to the department under subsections A and B of this section.

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop, tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital

lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health agency, environmental agency or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any funds that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion,

change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a meat packing plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for occasional sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is not potentially hazardous or a time or temperature control for safety food and that is prepared in a kitchen of a private home for commercial purposes, including fruit jams and jellies, dry mixes made with ingredients from approved sources, honey, dry pasta and roasted nuts. Cottage food products must be packaged at home with an attached label that clearly states the name and registration number of the food preparer, lists all the ingredients in the product and the product's production date and includes the following statement: "This product was produced in a home kitchen that may process common food allergens and is not subject to public health inspection." If the product was made in a facility for individuals with developmental disabilities, the label must also disclose that fact. The person preparing the food or supervising the food preparation must complete a food handler training course from an accredited program and maintain active certification. The food preparer must register with an online registry established by the department pursuant to paragraph 13 of this subsection. The food preparer must display the preparer's certificate of registration when operating as a temporary food establishment. For the purposes of this subdivision, "not potentially hazardous" means cottage food products that meet the requirements of the food code published by the United States food and drug administration, as modified and incorporated by reference by the department by rule.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in identity, storage, handling and sale of all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for the submission of samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. In no event shall confidential information be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection. A registered food preparer shall renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout the state and shall be enforced by each local board of health or public health services district, but

this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction, provided that the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product":

(a) Means a food that is not potentially hazardous or a time or temperature control for safety food as defined by the department in rule and that is prepared in a home kitchen by an individual who is registered with the department.

(b) Does not include foods that require refrigeration, perishable baked goods, salsas, sauces, fermented and pickled foods, meat, fish and shellfish products, beverages, acidified food products, nut butters or other reduced-oxygen packaged products.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

D-3.

DEPARTMENT OF HEALTH SERVICES
Title 9, Chapter 4

Amend: R9-4-602

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - EXPEDITED RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 13, 2025

SUBJECT: **DEPARTMENT OF HEALTH SERVICES**
Title 9, Chapter 4

Amend: R9-4-602

Summary:

This expedited rulemaking from the Department of Health Services (Department) seeks to amend one (1) rule in Title 9, Chapter 4, Article 6 regarding Opioid Poisoning-Related Reporting. Specifically, the Department indicates, on June 21, 2024, Governor Hobbs signed SB1211 (Laws 2024, Chapter 232) with an emergency measure. This emergency measure permits a pharmacist to dispense naloxone hydrochloride or any other opioid antagonist approved by the U.S. Food and Drug Administration without a signed prescription and repeals reporting requirements. The Department indicates this rulemaking intends to align the rules with statute by removing the same reporting requirement that was repealed in statute.

1. Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?

The Department indicates the proposed amendments do not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. Furthermore, the Department states this rulemaking aligns the rules with the statutory changes (Laws 2024, Chapter 232) by removing the same reporting requirement that was repealed in

statute. As such, Council staff believes the Department's rulemaking satisfies the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)(1) and (6).

2. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

4. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking.

5. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates there were no changes between the Notice of Proposed Expedited Rulemaking published in the Administrative Register on November 15, 2024 and the Notice of Final Expedited Rulemaking now before the Council for consideration.

6. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there is no corresponding federal law.

7. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department indicates the rules do not require the issuance of a license, permit, or agency authorization.

8. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review or rely on any study for this rulemaking.

9. Conclusion

This expedited rulemaking from the Department seeks to amend one (1) rule in Title 9, Chapter 4, Article 6 regarding Opioid Poisoning-Related Reporting. Specifically, SB1211 (Laws 2024, Chapter 232) permits a pharmacist to dispense naloxone hydrochloride or any other opioid antagonist approved by the U.S. Food and Drug Administration without a signed prescription and repeals reporting requirements. The Department indicates this rulemaking intends to align the rules with statute by removing the same reporting requirement that was repealed in statute.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

ARIZONA DEPARTMENT OF HEALTH SERVICES

December 18, 2024

VIA EMAIL: grrc@azdoa.gov
Jessica Klein, Chair
Governor's Regulatory Review Council
100 North 15th Avenue, Suite 305
Phoenix, Arizona 85007

RE: Department of Health Services, 9 A.A.C. 4, Article 6, Noncommunicable Diseases

Dear Ms. Klein:

The attached final expedited rulemaking package is respectfully submitted for review and approval by the Council. The following information is provided for your use in reviewing the rulemaking package:

1. The close of record date: November 29, 2024

2. An explanation of how the expedited rule meets the criteria in A.R.S. § 41-1027(A):

   The rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. This rulemaking aligns the rules with the statutory changes (Laws 2024, Chapter 232) by removing the same reporting requirement that was repealed in statute.

3. Whether the rulemaking activity relates to a five-year review report and, if applicable, the date the report was approved by the Council:
   This rulemaking for 9 A.A.C. 4, Article 6 is not related to a five-year review report.

4. A certification that the preamble discloses a reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation or justification for the rule:
   The Department certifies that the preamble accurately discloses that a study was not conducted or relied on in the agency's evaluation or justification of the rules.

5. A list of all documents enclosed:
   - Notice of Final Expedited Rulemaking, including the Preamble, Table of Contents, and text of each rule;
   - Copy of the general and specific statutes authorizing the rules;
   - Copy of current rules;

- Governor's Office approval via e mail from the Policy Advisor (initial and of the Notice of Final Rulemaking)

The Department's point of contact for questions about the rulemaking documents is Angie Trevino at angelica.trevino@azdhs.gov.

Sincerely

Stacie Gravito
Director's Designee

NOTICE OF FINAL EXPEDITED RULEMAKING

TITLE 9. HEALTH SERVICES

CHAPTER 4. DEPARTMENT OF HEALTH SERVICES - NONCOMMUNICABLE DISEASES

PREAMBLE

1. Permission to proceed with this final expedited rulemaking was granted under A.R.S. § 41-1039 by the governor on:

December 4, 2024

2. Article, Part, or Section Affected (as applicable) **Rulemaking Action**

R9-4-602 Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statutes: A.R.S. §§ 36-132(A)(1), 36-136(G)

Implementing statutes: A.R.S. § 36-133

4. The effective date of the rule:

This expedited rulemaking becomes effective immediately the date the notice is filed under A.R.S. § 41-1027(H). The effective date is (to be filled in by *Register* editor).

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final expedited rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 2903, Issue Date: September 27, 2024, Issue Number: 39, File number: R24-181

Notice of Proposed Expedited Rulemaking: 30 A.A.R. 3431, Issue Date: November 15, 2024, Issue Number: 36, File number: R24-234

6. The agency's contact person who can answer questions about the rulemaking:

Website:	azdhs.gov/policy-intergovernmental-affairs/administrative-counsel-rules/rules/index.php

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes § 36-133 requires the Arizona Department of Health Services (Department) to develop a chronic disease surveillance system for the collection, management, and analysis of information on the incidence of chronic diseases in Arizona. The Department has implemented this statute in Arizona Administrative Code (A.A.C.) Title 9, Chapter 4. The Department believes that opioid use disorder, which can lead to opioid overdose and death, has become a chronic disease in Arizona. The Department adopted rules for Opioid Poisoning-Related Reporting under 9 A.A.C. 4, Article 6. On June 21, 2024, Governor Hobbs signed SB1211 (Laws 2024, Chapter 232) with an emergency measure. This emergency measure permits a pharmacist to dispense naloxone hydrochloride or any other opioid antagonist approved by the U.S. Food and Drug Administration without a signed prescription and repeals reporting requirements. With this rulemaking, the Department intends to align the rules with statute by removing the same reporting requirement that was repealed in statute.

8. A reference to any study relevant to the rule that the agency reviewed and either to relied on or did not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review or rely on any study for this rulemaking.

9. A showing a good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

Under A.R.S. 41-1055(D)(2), the Department is not required to provide an economic, small business, and consumer impact statement.

11. A description of any change between the proposed expedited rulemaking, to include a supplemental proposed notice, and the final rulemaking:

There are no changes between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

No comments were received regarding this rulemaking.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable specifically to the Department or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The rules do not require a permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Not applicable

c. Whether a person submitted an analysis to the agency regarding the rule's impact of the competitiveness of business in this state as compared to competitiveness of business in other states under A.R.S. § 41-1055(I). If yes, include the analysis with the rulemaking package.

No business competitiveness analysis was submitted.

14. List all incorporated by reference material as specified in A.R.S. § 41-1028 and include

a citation where the material is located:

Not applicable

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A) state where the text was changed between the emergency and the final expedited rulemaking package:

No rule in this rulemaking was previously made, amended, or repealed as an emergency rule.

~~**E.**~~ ~~A pharmacist who dispenses naloxone or another opioid antagonist to an individual according to A.R.S. § 32-1979 shall, either personally or through a representative, submit a report as required in A.R.S. § 32-1979 to document the dispensing.~~

~~**F.**~~**E.** A medical examiner shall, either personally or through a representative, submit a report to the Department, in a Department-provided format and within five business days after the completion of the death investigation required in A.R.S. § 11-594 on the human remains of a deceased individual with a suspected opioid overdose, that includes:

1. The following information about the medical examiner:

a. Name; and

b. Street address, city, county, and zip code;

2. The following information about the deceased individual with a suspected opioid overdose:

a. The deceased individual's name;
b. The deceased individual's date of birth;
c. The deceased individual's gender;
d. The deceased individual's race and ethnicity;
e. Whether the deceased individual was pregnant and, if so, the expected date of delivery;
f. If applicable, the name of the deceased individual's guardian; and
g. Whether naloxone or another opioid antagonist was administered to the deceased individual before the deceased individual's death and, if known:
    i. The type of first response agency that administered the naloxone or other opioid antagonist to the deceased individual, or
    ii. That the naloxone or other opioid antagonist was administered to the deceased individual by another individual;

3. The following information about the diagnosis of opioid overdose:
    a. The reason for suspecting that the deceased individual had an opioid overdose;
    b. The date of the opioid overdose;
    c. The date of diagnosis; and
    d. If the diagnosis was confirmed by clinical laboratory tests:
        i. The name, address, and telephone number of the clinical laboratory;
        ii. The date a specimen was collected from the deceased individual;
        iii. The type of specimen collected;
        iv. The type of laboratory test performed; and
        v. The laboratory test result and date of the result;
4. If applicable, a copy of the clinical laboratory test results;
5. If known, the following information about the suspected opioid overdose:
    a. Whether the opioid overdose appeared to be intentional or unintentional;
    b. The location where the opioid overdose took place;
    c. Whether the deceased individual was alone at the time of the opioid overdose;
    d. The specific opioid that appeared to be responsible for the opioid

overdose;

e. Whether the deceased individual was prescribed an opioid within the 90 calendar days before the date of the opioid overdose; and

f. Whether the opioid overdose was the first time the deceased individual was known to have had an opioid overdose and, if not, the number of previous opioid overdoses the deceased individual had

6. Whether the deceased individual with the suspected opioid overdose:

a. Died from the suspected opioid overdose and, if so, the date of death; or

b. Died from another cause after experiencing a suspected opioid overdose and, if so, the date of death; and

7. The date of the report.

~~G.~~**F.** Information collected on individuals pursuant to this Article is confidential according to:

1. A.R.S. § 36-133(F); and

2. If applicable, A.R.S. §§ 36-2401 through 36-2403.

ll. The date of last contact; and
mm. If the patient has died:
i. The patient's date and county of death,
ii. The facility in which the patient's death occurred, and
iii. Whether an autopsy was performed on the patient.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 1702, effective June 30, 2007 (Supp. 07-2). Amended by final rulemaking at 25 A.A.R. 3429, effective January 1, 2020 (Supp. 19-4).

R9-4-504. Data Quality Assurance and Follow-up

A. The Department may request a hospital, clinic, high-risk perinatal practice, genetic testing facility, or prenatal diagnostic facility to revise a report:
1. That was submitted to the Department by the designee of the hospital, clinic, high-risk perinatal practice, genetic testing facility, or prenatal diagnostic facility under R9-4-502;
2. That was not prepared according to R9-4-502; and
3. By identifying the revisions that are needed in the report.

B. If a person receives a request from the Department for revision of a report under subsection (A), the person shall return a revised report, containing the revisions requested by the Department, to the Department within 15 business days after the date of the Department's request, or by a date agreed to by the person and the Department.

C. The Department may discuss the information submitted to the Department as specified in R9-4-502 or collected as specified in R9-4-503(B)(2) with:
1. Any of the entities specified in R9-4-503(A) to obtain additional information about a patient's diagnosis or treatment;
2. The Arizona Early Intervention Program, according to A.R.S. § 36-133(E); and
3. The parent or guardian of a patient, as allowed by A.R.S. § 36-133(E).

Historical Note

New Section made by final rulemaking at 13 A.A.R. 1702, effective June 30, 2007 (Supp. 07-2). Amended by final rulemaking at 25 A.A.R. 3429, effective January 1, 2020 (Supp. 19-4).

ARTICLE 6. OPIOID POISONING-RELATED REPORTING

R9-4-601. Definitions

In this Article, unless otherwise specified:
1. "Administrator" means the individual who is a senior leader in a health care institution or correctional facility.
2. "Ambulance service" has the same meaning as in A.R.S. § 36-2201.
3. "Business day" means the period from 8:00 a.m. to 5:00 p.m. on a Monday, Tuesday, Wednesday, Thursday, or Friday that is not a state holiday.
4. "Clinical laboratory" has the same meaning as in A.R.S. § 36-451.
5. "Correctional facility" has the same meaning as in A.A.C. R9-6-101.
6. "Dispense" has the same meaning as in A.R.S. § 32-1901.
7. "Emergency medical services provider" has the same meaning as in A.R.S. § 36-2201.
8. "First response agency" means:
a. An ambulance service,
b. An emergency medical services provider, or
c. A law enforcement agency.
9. "Health care institution" has the same meaning as in A.R.S. § 36-401.
10. "Health professional" has the same meaning as in A.R.S. § 32-3201.
11. "Law enforcement agency" has the same meaning as in A.A.C. R13-1-101.
12. "Medical examiner" has the same meaning as in A.R.S. § 36-301.
13. "Naloxone" means a specific opioid antagonist that has been used since 1971 to block the effects of an opioid in an individual.
14. "Neonatal abstinence syndrome" means a set of signs of opioid withdrawal occurring in an individual shortly after birth that are indicative of opioid exposure while in the womb.
15. "Opioid" means the same as "opiate" in A.R.S. § 36-2501.
16. "Opioid antagonist" means a prescription medication, as defined in A.R.S. § 32-1901, that:
a. Is approved by the U.S. Department of Health and Human Services, Food and Drug Administration; and
b. When administered, reverses, in whole or in part, the pharmacological effects of an opioid in the body.
17. "Opioid overdose" means respiratory depression, slowing heart rate, or unconsciousness or mental confusion caused by the administration, including self-administration, of an opioid to an individual.
18. "Pharmacist" has the same meaning as in A.R.S. § 32-1901.

Historical Note

New Section made by emergency rulemaking at 23 A.A.R. 2857, effective September 21, 2017, for 180 days (Supp. 17-3). Emergency expired; new Section amended by emergency rulemaking at 24 A.A.R. 630, effective March 20, 2018, for 180 days (Supp. 18-1). New permanent Section made by final rulemaking at 24 A.A.R. 783, with an immediate effective date of April 5, 2018 (Supp. 18-2).

R9-4-602. Opioid Poisoning-Related Reporting Requirements

A. A first response agency shall, either personally or through a representative, submit a report to the Department, in a Department-provided format and within five business days after an encounter with an individual with a suspected opioid overdose, that includes:
1. The following information about the first response agency:
a. Name;
b. Street address, city, county, and zip code;
c. Whether the first response agency reporting is:
i. An ambulance service,
ii. An emergency medical services provider, or
iii. A law enforcement agency; and
d. If applicable, the certificate number issued by the Department to the ambulance service;
2. The name, title, telephone number, and email address of a point of contact for the first response agency required to report;
3. The following information about the location at which the first response agency encountered the individual:

a. Street address or, if the location at which the first response agency encountered the individual does not have a street address, another indicator of the location at which the encounter occurred;
b. City, if applicable;
c. County;
d. State; and
e. Zip code;

4. If applicable, the date and time the first response agency was dispatched to the location specified according to subsection (A)(3);
5. The following information, as known, about the individual with a suspected opioid overdose or who died of a suspected opioid overdose:
   a. Name,
   b. Date of birth,
   c. Age in years,
   d. Gender,
   e. Race and ethnicity, and
   f. Reason for suspecting that the individual had an opioid overdose;
6. Whether naloxone or another opioid antagonist designated according to A.R.S. § 36-2228 was administered to the individual before the first response agency encountered the individual and, if so:
   a. The number of doses of naloxone or other opioid antagonist administered to the individual; and
   b. As applicable, that the naloxone or other opioid antagonist was administered to the individual by:
      i. Another individual; or
      ii. Another first response agency and, if so the type of first response agency that administered the naloxone or other opioid antagonist to the individual;
7. Whether naloxone or another opioid antagonist designated according to A.R.S. § 36-2228 was administered to the individual by the first response agency and, if so, the number of doses of naloxone or other opioid antagonist administered to the individual;
8. Whether the disposition of the individual was that the individual:
   a. Survived the suspected opioid overdose; or
   b. Was pronounced dead:
      i. At the location specified according to subsection (A)(3), or
      ii. After leaving the location specified according to subsection (A)(3);
9. If the individual was transported by a first response agency:
   a. The type of first response agency that transported the individual; and
   b. Whether the individual was transported to:
      i. A hospital and, if so, the name of the hospital to which the individual was transported;
      ii. Another class of health care institution and, if so, the name of the health care institution to which the individual was transported; or
      iii. A correctional facility and, if so, the name of the correctional facility to which the individual was transported; and
10. The date of the report.

B. The following are not required to submit a report under this Article:

1. An administrator of a health care institution licensed under 9 A.A.C. 10, for an opioid overdose resulting from the administration of the opioid to a patient in the health care institution if the opioid overdose is addressed through the health care institution's quality management program; or
2. A pharmacist for naloxone or another opioid antagonist that is dispensed in connection with a surgical procedure, as defined in A.A.C. R9-10-101, or other invasive procedure performed in a health care institution.

C. Except as prohibited by Title 42 Code of Federal Regulations, Chapter I, Subchapter A, Part 2 or as specified in subsection (B), a health professional or the administrator of a health care institution licensed under 9 A.A.C. 10 shall, either personally or through a representative, submit a report to the Department, in a Department-provided format and within five business days after an encounter with an individual with a suspected opioid overdose, that includes:

1. The name, street address, city, county, zip code, and telephone number of the health professional or health care institution;
2. If different from the person in subsection (C)(1), the name, title, telephone number, and email address of the individual reporting on behalf of the person in subsection (C)(1);
3. The following information about the individual with a suspected opioid overdose:
   a. The individual's name;
   b. The individual's street address, city, county, state, and zip code;
   c. The individual's date of birth;
   d. The individual's gender;
   e. The individual's race and ethnicity;
   f. Whether the individual is pregnant and, if so, the expected date of delivery;
   g. If applicable, the name of the individual's guardian; and
   h. Whether naloxone or another opioid antagonist designated according to A.R.S. § 36-2228 was administered to the individual before the health professional or health care institution encountered the individual and, if so:
      i. The type of first response agency that administered the naloxone or other opioid antagonist to the individual, or
      ii. That the naloxone or other opioid antagonist was administered to the individual by another individual;
4. The following information about the diagnosis of opioid overdose:
   a. The reason for suspecting that the individual had an opioid overdose;
   b. The date of the suspected opioid overdose;
   c. The date of diagnosis; and
   d. If the diagnosis was confirmed through one or more tests performed by a clinical laboratory, for each test:
      i. The name, address, and telephone number of the clinical laboratory;
      ii. The date a specimen was collected from the individual;
      iii. The type of specimen collected;
      iv. The type of laboratory test performed; and
      v. The laboratory test result and date of the result;

5. The following information about the suspected opioid overdose:
   a. Whether the opioid overdose appeared to be intentional or unintentional;
   b. The location where the opioid overdose took place;
   c. Whether the individual was alone at the time of the opioid overdose;
   d. Whether the individual was transported to the health professional or health care institution by a first response agency and, if so, the type of first response agency that transported the individual;
   e. The specific opioid that appeared to be responsible for the opioid overdose; and
   f. If known, whether:
      i. The individual was prescribed an opioid within the 90 calendar days before the date of the suspected opioid overdose;
      ii. The individual had been referred to receive behavioral health services, as defined in A.R.S. § 36-401; or
      iii. The opioid overdose was the first time the individual had an opioid overdose and, if not, the number of previous opioid overdoses the individual was known to have had;
6. Whether the individual with the suspected opioid overdose:
   a. Survived the suspected opioid overdose and:
      i. Was admitted to the health care institution;
      ii. Was transferred to another health care institution and, if so, the name of the health care institution;
      iii. Was discharged to a law enforcement agency or correctional facility and, if so, the name of the law enforcement agency or correctional facility;
      iv. Was discharged to home; or
      v. Left the health care institution against medical advice; or
   b. Died and, if so, the date of death; and
7. The date of the report.

D. Except as prohibited by Title 42 Code of Federal Regulations, Chapter I, Subchapter A, Part 2, a health professional or the administrator of a health care institution licensed under 9 A.A.C. 10 shall, either personally or through a representative, submit a report to the Department, in a Department-provided format and within five business days after an encounter with an individual with suspected neonatal abstinence syndrome, that includes:

1. The name, street address, city, county, zip code, and telephone number of the health professional or health care institution;
2. If different from the person in subsection (D)(1), the name, title, telephone number, and email address of the individual reporting on behalf of the person in subsection (D)(1);
3. The following information about the individual with suspected neonatal abstinence syndrome:
   a. The individual's name;
   b. The individual's date of birth;
   c. The individual's gender;
   d. The individual's race and ethnicity;
   e. The name of the individual's mother; and
   f. If not the individual's mother, the name of the individual's guardian;
4. The following information about a diagnosis of neonatal abstinence syndrome:
   a. The reason for suspecting that the individual has neonatal abstinence syndrome;
   b. The date of the onset of signs of neonatal abstinence syndrome;
   c. The date of diagnosis;
   d. If the diagnosis was confirmed through one or more tests performed by a clinical laboratory, for each test:
      i. The name, address, and telephone number of the clinical laboratory;
      ii. The date a specimen was collected from the individual;
      iii. The type of specimen collected;
      iv. The type of laboratory test performed; and
      v. The laboratory test result and date of the result; and
   e. Whether any of the following supported a diagnosis of neonatal abstinence syndrome:
      i. A maternal history of opioid use,
      ii. A positive laboratory test for opioid use by the individual's mother, or
      iii. A positive laboratory test for opioids in the individual;
5. If known, the following information about the suspected neonatal abstinence syndrome:
   a. The source of the opioid believed to have caused the neonatal abstinence syndrome; and
   b. If the source of the opioid used by the individual's mother was not through a prescription order, as defined in A.R.S. § 32-1901, the specific opioid used by the individual's mother; and
6. The date of the report.

E. A pharmacist who dispenses naloxone or another opioid antagonist to an individual according to A.R.S. § 32-1979 shall, either personally or through a representative, submit a report as required in A.R.S. § 32-1979 to document the dispensing.

F. A medical examiner shall, either personally or through a representative, submit a report to the Department, in a Department-provided format and within five business days after the completion of the death investigation required in A.R.S. § 11-594 on the human remains of a deceased individual with a suspected opioid overdose, that includes:

1. The following information about the medical examiner:
   a. Name; and
   b. Street address, city, county, and zip code;
2. The following information about the deceased individual with a suspected opioid overdose:
   a. The deceased individual's name;
   b. The deceased individual's date of birth;
   c. The deceased individual's gender;
   d. The deceased individual's race and ethnicity;
   e. Whether the deceased individual was pregnant and, if so, the expected date of delivery;
   f. If applicable, the name of the deceased individual's guardian; and
   g. Whether naloxone or another opioid antagonist was administered to the deceased individual before the deceased individual's death and, if known:
      i. The type of first response agency that administered the naloxone or other opioid antagonist to the deceased individual, or

ii. That the naloxone or other opioid antagonist was administered to the deceased individual by another individual;

3. The following information about the diagnosis of opioid overdose:
   a. The reason for suspecting that the deceased individual had an opioid overdose;
   b. The date of the opioid overdose;
   c. The date of diagnosis; and
   d. If the diagnosis was confirmed by clinical laboratory tests:
      i. The name, address, and telephone number of the clinical laboratory;
      ii. The date a specimen was collected from the deceased individual;
      iii. The type of specimen collected;
      iv. The type of laboratory test performed; and
      v. The laboratory test result and date of the result;
4. If applicable, a copy of the clinical laboratory test results;
5. If known, the following information about the suspected opioid overdose:
   a. Whether the opioid overdose appeared to be intentional or unintentional;
   b. The location where the opioid overdose took place;
   c. Whether the deceased individual was alone at the time of the opioid overdose;
   d. The specific opioid that appeared to be responsible for the opioid overdose;
   e. Whether the deceased individual was prescribed an opioid within the 90 calendar days before the date of the opioid overdose; and
   f. Whether the opioid overdose was the first time the deceased individual was known to have had an opioid overdose and, if not, the number of previous opioid overdoses the deceased individual had
6. Whether the deceased individual with the suspected opioid overdose:
   a. Died from the suspected opioid overdose and, if so, the date of death; or
   b. Died from another cause after experiencing a suspected opioid overdose and, if so, the date of death; and
7. The date of the report.

G. Information collected on individuals pursuant to this Article is confidential according to:
1. A.R.S. § 36-133(F); and
2. If applicable, A.R.S. §§ 36-2401 through 36-2403.

Historical Note

New Section made by emergency rulemaking at 23 A.A.R. 2857, effective September 21, 2017, for 180 days (Supp. 17-3). Emergency expired; new Section amended by emergency rulemaking at 24 A.A.R. 630, effective March 20, 2018, for 180 days (Supp. 18-1). New permanent Section made by final rulemaking at 24 A.A.R. 783, with an immediate effective date of April 5, 2018 (Supp. 18-2).

36-132. Department of health services; functions; contracts

A. The department, in addition to other powers and duties vested in it by law, shall:

1. Protect the health of the people of the state.

2. Promote the development, maintenance, efficiency and effectiveness of local health departments or districts of sufficient population and area that they can be sustained with reasonable economy and efficient administration, provide technical consultation and assistance to local health departments or districts, provide financial assistance to local health departments or districts and services that meet minimum standards of personnel and performance and in accordance with a plan and budget submitted by the local health department or districts to the department for approval, and recommend the qualifications of all personnel.

3. Collect, preserve, tabulate and interpret all information required by law in reference to births, deaths and all vital facts, and obtain, collect and preserve information relating to the health of the people of this state and the prevention of diseases as may be useful in the discharge of functions of the department not in conflict with chapter 3 of this title and sections 36-693, 36-694 and 39-122.

4. Operate sanitariums, hospitals or other facilities assigned to the department by law or by the governor.

5. Conduct a statewide program of health education relevant to the powers and duties of the department, prepare educational materials and disseminate information as to conditions affecting health, including basic information to promote good health on the part of individuals and communities, and prepare and disseminate technical information concerning public health to the health professions, local health officials and hospitals. In cooperation with the department of education, the department of health services shall prepare and disseminate materials and give technical assistance for the purpose of educating children in hygiene, sanitation and personal and public health, and provide consultation and assistance in community organization to counties, communities and groups of people.

6. Administer or supervise a program of public health nursing, prescribe the minimum qualifications of all public health nurses engaged in official public health work, and encourage and aid in coordinating local public health nursing services.

7. Encourage and aid in coordinating local programs concerning control of preventable diseases in accordance with statewide plans that shall be formulated by the department.

8. Encourage and aid in coordinating local programs concerning maternal and child health, including midwifery, antepartum and postpartum care, infant and preschool health and the health of schoolchildren, including special fields such as the prevention of blindness and conservation of sight and hearing.

9. Encourage and aid in coordinating local programs concerning nutrition of the people of this state.

10. Encourage, administer and provide dental health care services and aid in coordinating local programs concerning dental public health, in cooperation with the Arizona dental association. The department may bill and receive payment for costs associated with providing dental health care services and shall deposit the monies in the oral health fund established by section 36-138.

11. Establish and maintain adequate serological, bacteriological, parasitological, entomological and chemical laboratories with qualified assistants and facilities necessary for routine examinations and analyses and for investigations and research in matters affecting public health.

12. Supervise, inspect and enforce the rules concerning the operation of public bathing places and public and semipublic swimming pools adopted pursuant to section 36-136, subsection I, paragraph 10.

13. Take all actions necessary or appropriate to ensure that bottled water sold to the public and water used to process, store, handle, serve and transport food and drink are free from filth, disease-causing substances and organisms and unwholesome, poisonous, deleterious or other foreign substances. All state agencies and local health agencies involved with water quality shall provide to the department any assistance requested by the director to ensure that this paragraph is effectuated.

14. Enforce the state food, caustic alkali and acid laws in accordance with chapter 2, article 2 of this title, chapter 8, article 1 of this title and chapter 9, article 4 of this title, and collaborate in enforcing the federal food, drug, and cosmetic act (52 Stat. 1040; 21 United States Code sections 1 through 905).

15. Recruit and train personnel for state, local and district health departments.

16. Conduct continuing evaluations of state, local and district public health

programs, study and appraise state health problems and develop broad plans for use by the department and for recommendation to other agencies, professions and local health departments for the best solution of these problems.

17. License and regulate health care institutions according to chapter 4 of this title.

18. Issue or direct the issuance of licenses and permits required by law.

19. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

20. Subject to the availability of monies, develop and administer programs in perinatal health care, including:

(a) Screening in early pregnancy for detecting high-risk conditions.

(b) Comprehensive prenatal health care.

(c) Maternity, delivery and postpartum care.

(d) Perinatal consultation, including transportation of the pregnant woman to a perinatal care center when medically indicated.

(e) Perinatal education oriented toward professionals and consumers, focusing on early detection and adequate intervention to avert premature labor and delivery.

21. License and regulate the health and safety of group homes and behavioral-supported group homes for persons with developmental disabilities. The department shall issue a license to an accredited facility for a period of the accreditation, except that a licensing period shall not be longer than three years. The department is authorized to conduct an inspection of an accredited facility to ensure that the facility meets health and safety licensure standards. The results of the accreditation survey shall be public information. A copy of the final accreditation report shall be filed with the department of health services. For the purposes of this paragraph, "accredited" means accredited by a nationally recognized accreditation organization.

B. The department may accept from the state or federal government, or any agency of the state or federal government, and from private donors, trusts, foundations or eleemosynary corporations or organizations grants or donations for or in aid of the construction or maintenance of any program, project, research or facility authorized by this title, or in aid of the extension or

enforcement of any program, project or facility authorized, regulated or prohibited by this title, and enter into contracts with the federal government, or an agency of the federal government, and with private donors, trusts, foundations or eleemosynary corporations or organizations, to carry out such purposes. All monies made available under this section are special project grants. The department may also expend these monies to further applicable scientific research within this state.

C. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

D. The department may enter into contracts with organizations that perform nonrenal organ transplant operations and organizations that primarily assist in the management of end-stage renal disease and related problems to provide, as payors of last resort, prescription medications necessary to supplement treatment and transportation to and from treatment facilities. The contracts may provide for department payment of administrative costs it specifically authorizes.

36-133. Chronic disease surveillance system; confidentiality; immunity; violation; classification

A. A central statewide chronic disease surveillance system is established in the department. Diseases in the surveillance system shall include cancer, birth defects and other chronic diseases required by the director to be reported to the department.

B. The department, in establishing the surveillance system, shall:

1. Provide a chronic disease information system.

2. Provide a mechanism for patient follow-up.

3. Promote and assist hospital cancer registries.

4. Improve the quality of information gathered relating to the detection, diagnosis and treatment of patients with cancer, birth defects and other diseases included in the surveillance system.

5. Monitor the incidence patterns of diseases included in the surveillance system.

6. Pursuant to rules adopted by the director, establish procedures for reporting diseases included in the surveillance system.

7. Identify population subgroups at high risk for cancer, birth defects and other diseases included in the surveillance system.

8. Identify regions of this state that need intervention programs or epidemiological research, detection and prevention.

9. Establish a data management system to perform various studies, including epidemiological studies, and to provide biostatistic and epidemiologic information to the medical community relating to diseases in the surveillance system.

C. A person who provides a case report to the surveillance system or who uses case information from the system authorized pursuant to this section is not subject to civil liability with respect to providing the case report or accessing information in the system.

D. The department may authorize other persons and organizations to use surveillance data:

1. To study the sources and causes of cancer, birth defects and other chronic diseases.

2. To evaluate the cost, quality, efficacy and appropriateness of diagnostic, therapeutic, rehabilitative and preventive services and programs related to cancer, birth defects and other chronic diseases.

E. The department of health services and the Arizona early intervention program in the department of economic security may use surveillance data to notify the families of children with birth defects regarding services that are available to them and provide these families with information about organizations that provide services to these children and their families.

F. Information collected on individuals by the surveillance system that can identify an individual is confidential and may be used only pursuant to this section. A person who discloses confidential information in violation of this section is guilty of a class 3 misdemeanor.

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop, tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public

health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health department, environmental department or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for

local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any monies that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases that are reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases that are transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital

records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a meatpacking plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is prepared in a kitchen of a private home for commercial purposes consistent with chapter 8, article 2 of this title.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

(k) Spirituous liquor produced by a producer that is licensed by the department of liquor licenses and control or spirituous liquor imported and sold by wholesalers that is licensed by the department of liquor licenses and control. This exemption includes all commercially prepackaged spirituous liquor and all spirituous liquor poured at a licensed special event, festival or fair in this state.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in identifying, storing, handling and selling all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing,

labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for submitting samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational

vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. Confidential information may not be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection and chapter 8, article 2 of this title. A registered food preparer shall renew the registration every three years and shall provide to the department

updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout this state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction if the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous,

without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product" has the same meaning prescribed in section 36-931.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

pharmacists; prescribing; naloxone; reporting

State of Arizona
Senate
Fifty-sixth Legislature
Second Regular Session
2024

CHAPTER 232

SENATE BILL 1211

AN ACT

AMENDING SECTIONS 32-1907, 32-1968, 32-1979 AND 36-2608, ARIZONA REVISED STATUTES; RELATING TO THE ARIZONA STATE BOARD OF PHARMACY.

(TEXT OF BILL BEGINS ON NEXT PAGE)

Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 32-1907, Arizona Revised Statutes, is amended to read:

32-1907. Arizona state board of pharmacy fund

A. Except as provided in section 32-1939, the executive director shall receive and receipt for all fees and other monies provided for in this chapter and shall deposit, pursuant to sections 35-146 and 35-147, ten percent of such monies in the state general fund and ninety percent in the Arizona state board of pharmacy fund. All monies derived from civil penalties collected pursuant to this chapter shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

B. Except as provided in subsection C of this section, monies deposited in the Arizona state board of pharmacy fund ~~shall be~~ ARE subject to section 35-143.01.

C. From monies deposited in the Arizona state board of pharmacy fund pursuant to subsection A of this section, the executive director may transfer up to ~~five hundred thousand dollars~~ $500,000 annually to the controlled substances prescription monitoring program fund established by section 36-2605 for expenses related to the controlled substances prescription monitoring program as required by title 36, chapter 28.

D. From monies deposited in the Arizona state board of pharmacy fund pursuant to subsection A of this section, the executive director may transfer up to ~~one million dollars~~ $1,000,000 annually to EACH the Arizona poison and drug information center AND A POISON AND DRUG INFORMATION CENTER THAT SERVES MARICOPA COUNTY for the purposes specified in section 36-1161 to supplement, and not supplant, any state general fund appropriation for those purposes.

Sec. 2. Section 32-1968, Arizona Revised Statutes, is amended to read:

32-1968. Dispensing prescription-only drug; prescription orders; refills; labels; misbranding; dispensing soft contact lenses; opioid antagonists

A. A prescription-only drug shall be dispensed only under one of the following conditions:

1. By a medical practitioner in conformance with section 32-1921.

2. On a written prescription order bearing the prescribing medical practitioner's manual signature.

3. On an electronically transmitted prescription order containing the prescribing medical practitioner's electronic or digital signature.

4. On a written prescription order generated from electronic media containing the prescribing medical practitioner's electronic or manual signature. A prescription order that contains only an electronic signature must be applied to paper that uses security features that will ensure the prescription order is not subject to any form of copying or alteration.

5. On an oral prescription order that is reduced promptly to writing and filed by the pharmacist.

6. By refilling any written, electronically transmitted or oral prescription order if a refill is authorized by the prescriber either in the original prescription order, by an electronically transmitted refill order that is documented promptly and filed by the pharmacist or by an oral refill order that is documented promptly and filed by the pharmacist.

7. On a prescription order that the prescribing medical practitioner or the prescribing medical practitioner's agent transmits by fax or e-mail.

8. On a prescription order that the patient transmits by fax or by e-mail if the patient presents a written prescription order bearing the prescribing medical practitioner's manual signature when the prescription-only drug is picked up at the pharmacy.

B. A prescription order shall not be refilled if it is either:

1. Ordered by the prescriber not to be refilled.

2. More than one year since it was originally ordered.

C. A prescription order shall contain the date it was issued, the name and address of the person for whom or owner of the animal for which the drug is ordered, refills authorized, if any, the legibly printed name, address and telephone number of the prescribing medical practitioner, the name, strength, dosage form and quantity of the drug ordered and directions for its use.

D. Any drug dispensed in accordance with subsection A of this section is exempt from the requirements of section 32-1967, except section 32-1967, subsection A, paragraphs 1, 10 and 11 and the packaging requirements of section 32-1967, subsection A, paragraphs 7 and 8, if the drug container bears a label containing the name and address of the dispenser, the serial number, the date of dispensing, the name of the prescriber, the name of the patient, or, if an animal, the name of the owner of the animal and the species of the animal, directions for use and cautionary statements, if any, contained in the order. This exemption does not apply to any drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail or the internet or to a drug dispensed in violation of subsection A of this section.

E. The board by rule also may require additional information on the label of prescription medication that the board believes to be necessary for the best interest of the public's health and welfare.

F. A prescription-only drug or a controlled substance that requires a prescription order is deemed to be misbranded if, at any time before dispensing, its label fails to bear the statement "Rx only". A drug to which subsection A of this section does not apply is deemed to be misbranded if, at any time before dispensing, its label bears the caution statement quoted in this subsection.

G. A pharmacist may fill a prescription order for soft contact lenses only as provided in this chapter.

H. A pharmacist may dispense naloxone hydrochloride or any other opioid antagonist that is approved by the United States food and drug administration on the receipt of a standing order ~~and according to protocols adopted by the board pursuant to section 32-1979. For the purposes of this subsection, "standing order" means a signed prescription order that authorizes the pharmacist to dispense naloxone hydrochloride or any other opioid antagonist for emergency purposes and that is issued by a medical practitioner licensed in this state or a state or county health officer who is a medical practitioner licensed in this state~~ PURSUANT TO SECTION 36-2266. NALOXONE HYDROCHLORIDE OR ANY OTHER OPIOID ANTAGONIST THAT IS DISPENSED IN ACCORDANCE WITH SUBSECTION A OF THIS SECTION IS EXEMPT FROM THE REQUIREMENTS OF SECTION 32-1967.

Sec. 3. Section 32-1979, Arizona Revised Statutes, is amended to read:

32-1979. Pharmacists; dispensing opioid antagonists; immunity

A. A pharmacist may dispense, pursuant to a standing order issued pursuant to section 36-2266 ~~and according to protocols adopted by the board~~, naloxone hydrochloride or any other opioid antagonist that is approved by the United States food and drug administration for ~~use according to the protocols specified by board rule to~~ a person who is at risk of experiencing an opioid-related overdose or to a family member or community member who is in a position to assist that person.

B. A pharmacist who dispenses naloxone hydrochloride or any other opioid antagonist pursuant to subsection A of this section shall ~~:~~

~~1. Document the dispensing consistent with board rules.~~

~~2.~~ instruct the individual to whom the opioid antagonist is dispensed to summon emergency services as soon as practicable after administering the opioid antagonist.

C. This section does not affect the authority of a pharmacist to fill or refill a prescription for naloxone hydrochloride or any other opioid antagonist that is approved by the United States food and drug administration.

D. A pharmacist who dispenses an opioid antagonist pursuant to this section is immune from professional liability and criminal prosecution for any decision made, act or omission or injury that results from that act if the pharmacist acts with reasonable care and in good faith, except in cases of wanton or wilful neglect.

Sec. 4. Section 36-2608, Arizona Revised Statutes, is amended to read:

36-2608. Reporting requirements; waiver; exceptions

A. If a medical practitioner dispenses a controlled substance listed in section 36-2513, 36-2514, 36-2515 or 36-2516 or the rules adopted pursuant to chapter 27, article 2 of this title, or if a

prescription for a controlled substance listed in any of those sections ~~or naloxone hydrochloride or any other opioid antagonist~~ that is approved by the United States food and drug administration is dispensed by a pharmacy in this state, a health care facility in this state for outpatient use or a board-permitted nonresident pharmacy for delivery to a person residing in this state, the medical practitioner, health care facility or pharmacy must report the following information as applicable and as prescribed by the board by rule:

1. The name, address, telephone number, prescription number and United States drug enforcement administration controlled substance registration number of the dispenser.

2. The name, address and date of birth of the person for whom the prescription is written.

3. The name, address, telephone number and United States drug enforcement administration controlled substance registration number of the prescribing medical practitioner.

4. The name, strength, quantity, dosage and national drug code number of the schedule II, III, IV or V controlled substance ~~or naloxone hydrochloride or other opioid antagonist~~ dispensed.

5. The date the prescription was dispensed.

6. The number of refills, if any, authorized by the medical practitioner.

B. Except as provided in subsection D of this section, a dispenser must use the latest version of the standard implementation guide for prescription monitoring programs published by the American society for automation in pharmacy to report the required information.

C. The board shall allow the reporter to transmit the required information by electronic data transfer if feasible or, if not feasible, on reporting forms as prescribed by the board. The reporter shall submit the required information once each day.

D. A dispenser who does not have an automated recordkeeping system capable of producing an electronic report in the established format may request a waiver from electronic reporting by submitting a written request to the board. The board shall grant the request if the dispenser agrees in writing to report the data by submitting a completed universal claim form as prescribed by the board by rule.

E. The board by rule may prescribe the prescription form to be used in prescribing a schedule II, III, IV or V controlled substance if the board determines that this would facilitate the reporting requirements of this section.

F. The reporting requirements of this section do not apply to the following:

1. A controlled substance that is administered directly to a patient.

2. A controlled substance that is dispensed by a medical practitioner at a health care facility licensed by this state if the quantity dispensed is limited to an amount adequate to treat the patient for a maximum of seventy-two hours with not more than two seventy-two-hour cycles within any fifteen-day period.

3. A controlled substance sample.

4. The wholesale distribution of a schedule II, III, IV or V controlled substance. For the purposes of this paragraph, "wholesale distribution" has the same meaning prescribed in section 32-1981.

5. A facility that is registered by the United States drug enforcement administration as a narcotic treatment program and that is subject to the recordkeeping provisions of 21 Code of Federal Regulations section 1304.24.

~~G. A pharmacist who dispenses naloxone hydrochloride or another opioid antagonist to an individual pursuant to section 32-1979 shall report the information listed in subsection A, paragraphs 1, 2, 3 and 5 of this section and the name, strength, quantity, dosage and national drug code number as prescribed by the board by rule pursuant to subsection A of this section.~~

~~H. Naloxone hydrochloride or any other opioid antagonist shall not be viewable in the patient utilization report.~~

Sec. 5. Emergency

This act is an emergency measure that is necessary to preserve the public peace, health or safety and is operative immediately as provided by law.

APPROVED BY THE GOVERNOR JUNE 21, 2024.

FILED IN THE OFFICE OF THE SECRETARY OF STATE JUNE 21, 2024.

DEPARTMENT OF HEALTH SERVICES
Title 9, Chapter 8

New Section: R9-8-101.01, R9-8-101.02

Renumber: R9-8-118

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - EXPEDITED RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 14, 2025

SUBJECT: **DEPARTMENT OF HEALTH SERVICES**
Title 9, Chapter 8

Amend: R9-8-101, R9-8-101.01

New Section: R9-8-101.01, R9-8-101.02

Renumber: R9-8-118

Summary:

This expedited rulemaking from the Department of Health Services (Department) seeks to amend two (2) rules, add two (2) new sections, and renumber one (1) rule in Title 9, Chapter 8, Article 1 regarding sanitation for food establishments. Specifically, the Department indicates, on March 29, 2024, Governor Hobbs signed HB2042 creating new statutes pertaining to cottage foods. With this rulemaking, the Department indicates it plans to amend and create rules in Title 9, Chapter 8, Article 1 to align the rules with the new and amended statutory requirements.

1. Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?

The Department indicates the proposed amendments do not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons.

Furthermore, the Department states this rulemaking intends to align the rules with the statutory changes enacted under Laws 2024, Chapter 18 and incorporates these statutory updates into Title 9, Chapter 8, Article 1, focusing on rules related to cottage foods. As such, the Department indicates this rulemaking is making some clarifying language changes, adopting new statutes, and amending and repealing rules that are outdated due to statutory change. Council staff believes the Department's rulemaking satisfies the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)(3), (4), and (6)

2. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

4. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking.

5. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates there were no changes between the Notice of Proposed Expedited Rulemaking published in the Administrative Register on December 13, 2024 and the Notice of Final Expedited Rulemaking now before the Council for consideration.

6. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there is no corresponding federal law.

7. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

The Department indicates the rules in this Article and the proposed amendments pertaining to cottage foods require an individual, who intends to prepare and sell a cottage food product, to register with the Department. The Department states, pursuant to A.R.S. § 36-931, the cottage food product must be prepared in the home kitchen of the registrant. As such, the Department indicates a general permit is not used. Council staff believes the Department is in compliance with A.R.S. § 41-1037 as the issuance of a general permit is not technically feasible or would not meet the applicable statutory requirements pursuant to A.R.S. § 41-1037(A)(3).

8. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review or rely on any study for this rulemaking.

9. Conclusion

This expedited rulemaking from the Department seeks to amend two (2) rules, add two (2) new sections, and renumber one (1) rule in Title 9, Chapter 8, Article 1 regarding sanitation for food establishments. Specifically, the Department indicates HB2042 created new statutes pertaining to cottage foods. With this rulemaking, the Department indicates it plans to amend and create rules in Title 9, Chapter 8, Article 1 to align the rules with the new and amended statutory requirements.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

ARIZONA DEPARTMENT OF HEALTH SERVICES

December 24, 2024

VIA EMAIL: grrc@azdoa.gov
Jessica Klein, Chair
Governor's Regulatory Review Council
100 North 15th Avenue, Suite 305
Phoenix, Arizona 85007

RE: Department of Health Services, 9 A.A.C. 8. Food, Recreational, and Institutional Sanitation, Article 1. Food Establishments

Dear Ms. Klein:

The attached final expedited rulemaking package is respectfully submitted for review and approval by the Council. The following information is provided for your use in reviewing the rulemaking package:

1. The close of record date: December 20, 2024

2. An explanation of how the expedited rule meets the criteria in A.R.S. § 41-1027(A):

This expedited rulemaking meets the criteria outlined in A.R.S. § 41-1027(A). Specifically:

- The rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons.
- This rulemaking intends to align the rules with the statutory changes enacted under Laws 2024, Chapter 18.
- This rulemaking incorporates these statutory updates into 9 A.A.C. 8, Article 1, focusing on rules related to cottage foods.
- This rulemaking is making some clarifying language changes; adopting new statutes, and amending and repealing rules that outdated due to statutory change.

3. Whether the rulemaking activity relates to a five-year review report and, if applicable, the date the report was approved by the Council:
This rulemaking for 9 A.A.C. 8, Article 1 is not related to a five-year review report.

4. A certification that the preamble discloses a reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation or justification for the rule:

The Department certifies that the preamble accurately discloses that a study was not conducted or relied on in the agency's evaluation or justification of the rules.

5. A list of all documents enclosed:
   - Notice of Final Expedited Rulemaking, including the Preamble, Table of Contents, and text of each rule;
   - Copy of the general and specific statutes authorizing the rules;
   - Copy of current rules;
   - Governor's Office approval via e mail from the Policy Advisor (initial and of the Notice of Final Rulemaking)

The Department's point of contact for questions about the rulemaking documents is Angie Trevino at angelica.trevino@azdhs.gov.

Sincerely,

Stacie Gravito
Director's Designee

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes §§ 36-136 (A)(4) and (I)(4) require the Arizona Department of Health Services (Department) to make rules to ensure that food and drink are fit for human consumption. The Department has adopted rules to implement the statute requirements in 9 A.A.C. 8, Article 1. Exemptions to the requirements in 9 A.A.C. 8, Article 1, have been adopted in A.A.C. R9-8-118. On March 29, 2024, Governor Hobbs signed HB2042 creating new statutes pertaining to cottage foods. With this rulemaking, the Department plans to amend and create rules in 9 A.A.C. 8, Article 1, to align the rules with the new and amended statutory requirements.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review or rely on any study for this rulemaking.

9. A showing a good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political

subdivision of this state:

Not applicable

10. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a preliminary summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

Under A.R.S. 41-1055(D)(2), the Department is not required to provide an economic, small business, and consumer impact statement.

11. A description of any change between the proposed expedited rulemaking, to include a supplemental proposed notice, and the final rulemaking:

There are no changes between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

No comments were received regarding this rulemaking.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable specifically to the Department or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

Not applicable. The rules in this Article and the proposed amendments pertaining to cottage foods require an individual, who intends to prepare and sell a cottage food product, to register with the Department. According to A.R.S. § 36-931, the cottage food product must be prepared in the home kitchen of the registrant. A general permit is not used.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Not applicable

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on

business in other states:

No business competitiveness analysis was received by the Department of Health Services.

14. List all incorporated by reference material as specified in A.R.S. § 41-1028 and include a citation where the material is located:

Not applicable

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A) state where the text was changed between the emergency and the final expedited rulemaking package:

No rule in this rulemaking was previously made, amended, or repealed as an emergency rule.

16. The full text of the rules follows:

~~**D.** To be exempt from the requirements in this Article, a food preparer identified in subsection (C) shall:~~

~~1. Complete a food handler training course from an accredited program;~~

2. Register with the Department by submitting:
    a. An application in a Department-provided format that includes:
        i. The food preparer's name, address, telephone number, and e-mail address;
        ii. If the food preparer is supervised, the supervisor's name, address, telephone number, and e-mail address;
        iii. The address, including the county, of the home where the cottage FOOD is prepared;
        iv. Whether the home where the cottage FOOD is prepared is a facility for developmentally disabled individuals; and
        v. A description of each cottage FOOD prepared for commercial purposes;
    b. A copy of the food preparer's certificate of completion for the completed food handler training course;
    c. If the food preparer is supervised, the supervisor's certificate of completion for the completed food handler training course; and
    d. An attestation in a Department-provided format that the food preparer:
        i. Has reviewed Department-provided information on FOOD safety and safe FOOD handling practices;
        ii. Based on the Department-provided information, believes that the cottage FOOD prepared for commercial purposes is not time/temperature control for safety food or is not a FOOD that requires time or temperature control for safety to limit pathogenic microorganism growth or toxin formation; and
        iii. Includes the food preparer's printed name and date.
3. Maintain an active certification of completion for the completed food handler training course;
4. Renew the registration in subsection (D)(2) every three years;
5. Submit any change to the information or documents provided according to subsection (D)(2)(a) through (c) to the Department within 30 calendar days after the change; and
6. Display the food preparer's certificate of registration when operating as a temporary FOOD ESTABLISHMENT and selling cottage FOOD.

~~**E.** Food establishments shall have until January 31, 2022 to comply with the certified food protection manager requirement specified in this Article.~~

R9-8-101.02. Cottage Food

A. An individual wanting to prepare a cottage FOOD product, as defined in A.R.S. § 36-931, for commercial purposes and to be exempt from the requirements in all other Sections of this Article shall:

1. Complete a food handler training course from an accredited program that has been evaluated and listed by an accrediting agency as conforming to national standards for organizations that certify individuals;
2. Submit an application for registration to the Department that includes:
   a. The following information in a Department-provided format:
      i. The individual's name, address, telephone number, and e-mail address;
      ii. The street address, city, county, and state of the home where the cottage FOOD is prepared;
      iii. Whether the home where the cottage FOOD is prepared is a facility for developmentally disabled individuals; and
      iv. A description of each cottage FOOD prepared for commercial purposes;
   b. A copy of the individual's active certificate of completion for the food handler training course from the accredited program in subsection (A)(1); and
   c. A signed attestation, in a Department-provided format, that the individual:
      i. Has reviewed Department-provided information on FOOD safety and safe FOOD handling practices;
      ii. Will prepare and sell or offer for sale cottage FOOD to the public only if the cottage FOOD meets the requirements of A.R.S. Title 36, Chapter 8, Article 2, and this Section;
      iii. While preparing cottage FOOD for commercial purposes, will follow the safety guidance from the food handler's training course required according to subsection (A)(1), as well as the Department provided information on FOOD safety and safe

FOOD handling practices, including the requirements for the safe handling, processing, and storage of FOOD that is a TIME/TEMPERATURE CONTROL FOR SAFETY FOOD;

iv. Will prepare the cottage FOOD in the home kitchen at the address provided in subsection (A)(2)(a)(ii), as defined in A.R.S. § 36-931(3);

v. Will make, package, and attach a legible label according to A.R.S. § 36-932;

vi. Will dispose of FOOD waste and kitchen waste in a safe and sanitary manner;

vii. Will directly supervise and be responsible for the tasks undertaken by another individual who is not registered with the Department and assisting in preparing cottage FOODS for commercial purposes, in accordance with A.R.S. § 36-932(C);

viii. If selling cottage FOOD products online, will advertise the sale in accordance with A.R.S. § 36-932(B);

ix. Will sell, transport, and deliver cottage FOOD products according to A.R.S. § 36-932(E);

x. Except as otherwise permitted by A.R.S. § 36-931(1)(b), will not make cottage FOODS that are or that contain alcoholic beverages, unpasteurized milk products, fish, shellfish products, meat, meat by-products, poultry, or poultry by-products;

xi. Will not sell a cottage FOOD product with the intent for the cottage FOOD product to be used as an ingredient to make other products sold at a retail establishment, as specified in A.R.S. § 36-932(F)(1);

xii. Will not prepare products containing marijuana or marijuana products, as specified in A.R.S. § 36-932(F)(2);

xiii. Will only use an ingredient if the ingredient is from an approved source and allowed by law, as specified in A.R.S. § 36-932(G);

xiv. Will not use the home kitchen, as defined in A.R.S. § 36-931(3), as a commissary for a mobile food unit, as specified in A.R.S. § 36-932(H);

xv. Will not store cottage FOOD products or FOOD preparation equipment outside of the individual's home, in accordance with A.R.S. § 36-932(D)(2);

xvi. Will not prepare cottage FOODS for commercial purposes if the individual's certification according to subsection (A)(3) and registration with the Department, according to subsection (A)(4) have expired;

xvii. Understands and acknowledges that the individual's registration as a cottage FOOD preparer with the Department does not exempt the individual or the FOOD or drink products that the individual prepares and sells or offers for sale from the requirements for brand inspections, animal health inspections, or any FOOD inspections required by state or federal law or the requirements for the sale of milk, milk products, raw milk, and raw milk products under A.R.S. § 3-606 and that the individual may be subject to disciplinary action by the agencies charged with enforcing those requirements should those requirements be violated; and

xviii. Understands that noncompliance with the requirements in A.R.S. §§ 36-931 through 36-933 and this Section may result in suspension or revocation of registration, according to A.R.S. § 36-933(C), or to civil or criminal penalties;

3. Not prepare a cottage FOOD product for sale to a consumer, if the individual does not have a current registration with the Department;

4. Maintain an active certification from a food handler training course from an accredited program that has been evaluated and listed by an accrediting agency as conforming to national standards for organizations that certify individual;

5. Renew the registration in subsection (A)(3) every three years;

6. Submit any change to the information or documents provided according to subsection (A)(2) to the Department within 30 calendar days after the change; and

7. Display the cottage food preparer's certificate of registration when selling cottage FOOD at a location other than from the home kitchen.

B. An individual is not exempt from all other requirements in this Article if the individual does not maintain both an active food handler's certification, according to subsection (A)(4), and a current registration as a cottage food preparer with the Department, according to subsection (A)(5).

C. The registered cottage food preparer shall:

1. Prepare FOOD in the home kitchen of the registered cottage food preparer;
2. Only use ingredients from an approved source and allowed by law, as specified in A.R.S. § 36-932(G);
3. Package the food at the home with an attached label that meets the requirements in A.R.S. § 36-932, including:
    a. The name and registration number of the cottage food preparer registered with the Department;
    b. A list of all ingredients in the cottage FOOD;
    c. The date the cottage FOOD was prepared;
    d. The statement required by A.R.S. § 36-932(A)(3): This product was produced in a home kitchen that may come in contact with common FOOD allergens and pet allergens and is not subject to public health inspection;
    e. The statement required by A.R.S. § 36-932(A)(5): To obtain additional information about cottage foods or to report a foodborne illness, go to azdhs.gov/Cottagefood; and
    f. If applicable, a statement that the cottage FOOD was prepared in the home kitchen of a facility for individuals with developmental disabilities; and
4. Ensure that the packaging:
    a. Is clean and sanitary, and secure; is appropriate for the consistency and temperature of the food; and totally encloses the food; and
    b. Contains a tamper-evident seal, which could be the label.

D. The registered cottage food preparer selling the cottage food:

1. Shall only offer cottage FOODS for sale and delivery in Arizona;
2. For cottage food products that are not Time/Temperature Control for Safety FOODS, may:
    a. Sell and deliver directly to a consumer, or

b. Use a third-party food delivery platform for delivery to a consumer;

3. If using a third-party delivery platform, shall utilize a third-party delivery platform that agrees to comply with A.R.S. § 36-932 (E)(2);

4. For cottage food products that are Time/Temperature Control for Safety FOODS or contain meat or poultry products, shall ensure that the food:

a. Is delivered in person directly to the consumer;

b. Is not delivered by a third-party food delivery platform;

c. Is maintained at the appropriate temperature during delivery and until provided to the consumer;

d. Is transported to no more than one destination and for no longer than two hours in duration, including any time spent delayed in traffic; and

e. Is not sold to the public except at the initial destination; and

5. If selling a cottage food product through a third-party vendor, such as inside a store or kiosk, shall ensure that:

a. The cottage food product is sold in a separate section of the store or on a display case separate from non-homemade food items, and

b. The third-party vendor displays a sign that indicates that the cottage food product is homemade and exempt from state licensing and inspection.

E. If a cottage food product is offered for sale online, the registered cottage food preparer shall provide a prominent notification that includes all of the labeling information required in subsections (C)(3)(a) through (f).

F. The Department shall:

1. Process an application in subsection (A)(2) according to A.R.S. § 41-1073;

2. Issue a certificate of registration if the application is in compliance with the requirements of this Section;

3. Notify the applicant in writing if additional information is required;

4. Consider the application withdrawn if the Department does not receive a response to the notification in subsection (F)(3) within 30 days after the notification; and

5. Deny an application that is not in compliance with this Section.

G. The Department:

1. Shall notify the registered cottage food preparer in writing of:

a. Suspected noncompliance with A.R.S. Title 36, Chapter 8, Article 1, or

this Section; or

b. Receipt of a food safety complaint; and

2. May suspend or revoke the cottage food preparer's registration for:

a. Noncompliance with A.R.S. Title 36, Chapter 8, Article 1, or this Section;

b. Receipt of a verified food safety complaint;

c. Impeding the investigation, according to 9 A.A.C. 6, Article 2 or 3, of a reported foodborne illness; or

d. A violation under A.R.S. § 36-601.

H. A registered cottage food preparer may appeal a suspension or revocation according to A.R.S. Title 41, Chapter 6, Article 10.

ARTICLE 1. FOOD ESTABLISHMENTS

R9-8-101. Purpose and Definitions

A. The Department incorporates by reference the United States Food and Drug Administration publication, Food Code: 2017 Recommendations of the United States Public Health Service, Food and Drug Administration and shall comply with the 2017 Food Code (FC) as specified in this Article. This incorporation by reference contains no future editions or amendments. The incorporated material is on file with the Department and is available for order at: https://www.fda.gov/Food/Resources-ForYou/Consumers/ucm239035.htm, refer to publication number IFS17.

B. The Department incorporates FC Chapter 1 in whole, unless otherwise specified:
1. Part 1-1 Title, Intent, Scope; and
2. Part 1-2 Definitions in part.

C. In FC Part 1-2, Section 1-201.10(B), the Department:
1. Uses the word "License" in place of the word "Permit."
2. Uses the word "License holder" in place of the word "Permit holder."
3. Modifies the following:
   a. "Additive" means:
      i. "Food additive" means the same as in A.R.S. § 36-901(7), but also includes marijuana and marijuana concentrate, as defined in A.R.S. § 36-2850, when used by a marijuana establishment in compliance with and according to A.R.S. Title 36, Chapter 28.2 and 9 A.A.C. 18; and
      ii. "Color additive" means the same as in A.R.S. § 36-901(2).
   b. "Adulterated" means possessing one or more of the conditions enumerated in A.R.S. § 36-904(A), but does not include the addition of marijuana or marijuana concentrate, as defined in A.R.S. § 36-2850, when used by a marijuana establishment in compliance with and according to A.R.S. Title 36, Chapter 28.2 and 9 A.A.C. 18.
   c. "Approved" means acceptable to the REGULATORY AUTHORITY or to the FOOD regulatory agency that has jurisdiction based on a determination of conformity with principles, practices, and generally recognized standards that protect public health.
   d. "Consumer" means a PERSON who is a member of the public, takes possession of FOOD, is not functioning in the capacity of an operator of a FOOD ESTABLISHMENT and does not offer the FOOD for resale.
   e. "Food Establishment" does not include:
      i. An establishment that offers only prePACKAGED FOOD that are not TIME/TEMPERATURE CONTROL FOR SAFETY FOOD;
      ii. A produce stand that only offers whole, uncut fresh fruits and vegetables;
      iii. A kitchen in a private home if only FOOD that is not TIME/TEMPERATURE CONTROL FOR SAFETY FOOD, is prepared for sale or service at a function such as a religious or charitable (organization's bake sale if allowed by LAW and if the CONSUMER is informed by a clearly visible placard at the sales or service location that the FOOD is prepared in a kitchen that is not subject to regulation and inspection by the REGULATORY AUTHORITY;
      iv. An area where FOOD that is prepared as specified in Subparagraph (iii) of this definition is sold or offered for human consumption;
      v. A kitchen in a private home, such as a small family day-care provider; or a bed-and-breakfast operation that prepares and offers FOOD to guests if the home is owner occupied, the number of available guest bedrooms does not exceed 6, breakfast is the only meal offered, the number of guests served does not exceed 18, and the CONSUMER is informed by statements contained in published advertisements, mailed brochures, and placards posted at the registration area that the FOOD is prepared in a kitchen that is not regulated and inspected by the REGULATORY AUTHORITY; or
      vi. A private home that receives catered or home-delivered FOOD.
   f. "Packaged" means bottled, canned, cartoned, securely bagged, or securely wrapped compliant with LAW.
   g. "Person in charge" means the individual present at a FOOD ESTABLISHMENT who is responsible for the management of the operation of the FOOD ESTABLISHMENT at the time of inspection.
   h. "Regulatory authority' means the Department or a public health services district, local health department, department of environmental services, or department of environmental quality carrying out delegated functions, powers, and duties on behalf of the Department.

D. In addition to the requirements in FC Part 1-2, Section 1-201.10(B), the Department requires definitions for:
1. "Administrative completeness review time-frame" means the same as in A.R.S. § 41-1072.
2. "Agency" means any board, commission, department, office, or other administrative unit of the federal government, the state, or a political subdivision of the state.
3. "Applicant" means an individual requesting a FOOD ESTABLISHMENT license.
4. "Calendar day" means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, or legal holiday.
5. "Department" means the Arizona Department of Health Services.
6. "Developmental disability" means the same as in A.R.S. § 36-551.
7. "FC" means the United States Food and Drug Administration publication, Food Code: 2017 Recommendations of the United States Public Health Service, Food and Drug Administration incorporated by reference in subsection (A).
8. "Inspection report" means a document used to record the compliance status of a FOOD ESTABLISHMENT and conveys compliance information to the license holder or PERSON IN CHARGE at the conclusion of an inspection.
9. "License" means the same as "permit" as in the FC.

10. "License holder" means the same as "permit holder" as in the FC.
11. "Marijuana" means the same as in A.R.S. § 36-2850.
12. "Marijuana concentrate" means the same as in A.R.S. § 36-2850.
13. "Marijuana establishment" means the same as in A.R.S. § 36-2850.
14. "Overall time-frame" means the same as in A.R.S. § 41-1072.
15. "Public health nuisance" means an act, condition, or thing, specified in A.R.S. § 36-601, or any practice contrary to the health laws of this state that is harmful to the health of the public.
16. "Substantive review time-frame" means the same as in A.R.S. § 41-1072.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Amended by final rulemaking at 17 A.A.R. 2608, effective February 4, 2012 (Supp. 11-4). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3). Section amended by exempt rulemaking at 27 A.A.R. 693, effective May 3, 2021 (Supp. 21-2).

R9-8-102. Management and Personnel

A. The Department incorporates FC Chapter 2 in whole unless otherwise specified:
1. Part 2-1 Supervision;
2. Part 2-2 Employee Health in part;
3. Part 2-3 Personal Cleanliness;
4. Part 2-4 Hygienic Practices; and
5. Part 2-5 Responding to Contamination Events.

B. In addition to the requirements in FC Part 2-2, the Department in:
1. Section 2-201.12(B)(3), adds hepatitis A virus requirements specified in A.A.C. R9-6-343(B)(1) through (3);
2. Section 2-201.13(C)(2),
   a. Deletes "The FOOD EMPLOYEE provides to the PERSON IN CHARGE written medical documentation from a HEALTH PRACTITIONER that states the FOOD EMPLOYEE is free from Typhoid fever.P" and
   b. Adds Typhoid fever requirements in A.A.C. R9-6-388(A)(4)(a) and (b).

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Amended by final rulemaking at 9 A.A.R. 317, effective March 14, 2003 (Supp. 03-1). Amended by final rulemaking at 12 A.A.R. 2768, effective September 9, 2006 (Supp. 06-3). Amended by final rulemaking at 17 A.A.R. 2608, effective February 4, 2012 (Supp. 11-4). Amended by final rulemaking at 24 A.A.R. 1817, with an immediate effective date of June 8, 2018 (Supp. 18-2). Amended by final expedited rulemaking at 25 A.A.R. 1547, with an immediate effective date of June 5, 2019 (Supp. 19-2). Section R9-8-102 renumbered to R9-8-118; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-103. Food

A. The Department incorporates FC Chapter 3 in whole, unless otherwise specified:
1. Part 3-1 Characteristics;
2. Part 3-2 Sources, Specifications, and Original Containers and Records;
3. Part 3-3 Protection From Contamination After Receiving in part;
4. Part 3-4 Destruction of Organisms of Public Health Concern;
5. Part 3-5 Limitation of Growth of Organisms of Public Health Concern;
6. Part 3-6 Food Identity, Presentation, and On-Premises Labeling;
7. Part 3-7 Contaminated Food; and
8. Part 3-8 Special Requirements for Highly Susceptible Populations.

B. In FC Part 3-3, the Department:
1. In paragraph 3-301.11(B), requires employees to use "non-latex SINGLE-USE gloves."
2. In paragraph 3-304.15(E), requires "Latex gloves may not be used in direct contact with FOOD."

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-104. Equipment, Utensils, and Linens

The Department incorporates FC Chapter 4 in whole:
1. Part 4-1 Materials for Construction and Repair;
2. Part 4-2 Design and Construction;
3. Part 4-3 Numbers and Capacities;
4. Part 4-4 Location and Installation;
5. Part 4-5 Maintenance and Operation;
6. Part 4-6 Cleaning of Equipment;
7. Part 4-7 Sanitization of Equipment and Utensils;
8. Part 4-8 Laundering; and
9. Part 4-9 Protection of Clean Items.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

Table 1. Repealed

Historical Note

New Table made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Table 1, Time-Frames (in days) repealed by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-105. Water, Plumbing, and Waste

A. The Department incorporates FC Chapter 5 in whole, unless otherwise specified:
1. Part 5-1 Water in part;
2. Part 5-2 Plumbing System;
3. Part 5-3 Mobile Water Tank and Mobile Food Establishment Water Tank;
4. Part 5-4 Sewage, Other Liquid Waste, and Rainwater; and
5. Part 5-5 Refuse, Recyclables, and Returnable.

B. In FC Part 5-1, the Department in Section 5-101.13 requires "BOTTLED DRINKING WATER used or sold in a FOOD

ESTABLISHMENT shall be obtained from APPROVED sources in accordance with LAW."

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-106. Physical Facilities

A. The Department incorporates FC Chapter 6 in whole:
1. Part 6-1 Materials for Construction and Repair;
2. Part 6-2 Design, Construction, and Installation;
3. Part 6-3 Numbers and Capacities;
4. Part 6-4 Location and Placement; and
5. Part 6-5 Maintenance and Operation.

B. In addition to the requirements in FC Part 6-5, the Department requires:
1. A license holder for a VENDING MACHINE to affix to a VENDING MACHINE a permanent sign that includes:
   a. A unique identifier for the VENDING MACHINE, and
   b. A telephone number for CONSUMERS to contact the license holder.
2. A license holder operating a water vending machine shall comply with A.A.C. R18-4-216 and other applicable LAW.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-107. Poisonous or Toxic Materials

The Department incorporates FC Chapter 7 in whole:
1. Part 7-1 Labeling and Identification;
2. Part 7-2 Operational Supplies and Applications; and
3. Part 7-3 Stock and Retail Sale.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Amended by final rulemaking at 12 A.A.R. 2768, effective September 9, 2006 (Supp. 06-3). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-108. Compliance and Enforcement

A. The Department incorporates FC Chapter 8 in whole, unless otherwise specified:
1. Part 8-1 Code Applicability;
2. Part 8-2 Plans Submission and Approval;
3. Part 8-3 Permit to Operate in part;
4. Part 8-4 Inspection and Correction of Violations in part; and
5. Part 8-5 Prevention of Foodborne Disease Transmission by Employees.

B. In FC Part 8-3, the Department does not accept requirement in Section 8-303.30, Denial of Application for Permit, Notice.

C. In addition to the requirements in FC Part 8-3, Section 8-302.14, the Department requires an applicant for a FOOD ESTABLISHMENT application include:
1. The name, title, address, and telephone number of the owner's statutory agent or the individual designated by the owner to accept service of process and subpoenas;
2. Whether the applicant agrees to allow the REGULATORY AUTHORITY to submit a supplemental request for additional information or documentation in subsection (E);
3. An attestation that the applicant authorizes the REGULATORY AUTHORITY to verify all information provided in the application packet; and
4. An applicant who operates FOOD ESTABLISHMENTS at multiple locations shall submit an application for each location.

D. In addition to the requirements in FC Part 8-3, Section 8-303.20, the Department requires a licensee for a FOOD ESTABLISHMENT license renewal include:
1. Except for a FOOD ESTABLISHMENT operated by a state prison or behavioral health facility licensed by the Department, a FOOD ESTABLISHMENT'S license number and expiration date;
2. Whether the applicant agrees to allow the REGULATORY AUTHORITY to submit supplemental request for additional information or documentation in subsection (E); and
3. An attestation that the applicant authorizes the REGULATORY AUTHORITY to verify all information provided in the application packet.

E. In addition to FC Part 8-3, the Department adds application and license renewal time-frame requirements:
1. The overall time-frame begins, for:
   a. An application packet, on the date a REGULATORY AUTHORITY receives the applicant's application packet.
   b. A license renewal packet, on the date a REGULATORY AUTHORITY receives the applicant's license renewal packet.
2. An applicant and a REGULATORY AUTHORITY may agree in writing to extend the substantive review time-frame and the overall time-frame. The substantive review time-frame and the overall time-frame may not be extended by more than 25% of the overall time-frame.
3. Within the administrative completeness review time-frame specified in Table 1.1, a REGULATORY AUTHORITY shall:
   a. Provide a notice of administrative completeness to an applicant; or
   b. Provide a notice of deficiencies to an applicant, including a list of the missing information or documents.
4. If the REGULATORY AUTHORITY provides a notice of deficiencies to an applicant:
   a. The administrative completeness review time-frame and the overall time-frame are suspended from the date of the notice of deficiencies until the date the REGULATORY AUTHORITY receives the missing information or documents from the applicant;
   b. If the applicant submits the missing information or documents to the REGULATORY AUTHORITY within the time-frame in Table 1.1, the substantive review time-frame resumes on the date the REGULATORY AUTHORITY receives the missing information or documents; and
   c. If the applicant does not submit the missing information or documents to the regulatory authority within

the time-frame in Table 1.1, the regulatory authority shall consider the application withdrawn.

5. If a REGULATORY AUTHORITY issues a license or notice of approval during the administrative completeness review time-frame, the REGULATORY AUTHORITY may choose not to issue a separate written notice of administrative completeness.
6. Within the substantive review time-frame specified in Table 1.1, a REGULATORY AUTHORITY:
   a. Shall approve or deny:
      i. An application, or
      ii. A license renewal;
   b. May make one written comprehensive request for additional information or documentation; and
   c. May make supplemental requests for additional information and documentation if agreed to by the applicant or license holder.
7. If a REGULATORY AUTHORITY provides a written comprehensive request for additional information or documentation or a supplemental request to an applicant or license holder:
   a. The substantive review time-frame and overall time-frame are suspended from the date of the written comprehensive request or supplemental request until the date the REGULATORY AUTHORITY receives the information and documents requested; and
   b. An applicant or license holder shall submit the information and documents listed in the written comprehensive request in a format provided by the REGULATORY AUTHORITY within 15 calendar days after the date of the written comprehensive request or supplemental request.
8. The REGULATORY AUTHORITY shall issue to an applicant or license holder, as applicable:
   a. An approval for:
      i. An application, or
      ii. A license renewal; or
   b. A denial, including the reason for the denial and the appeal process in A.R.S. Title 41, Chapter 6, Article 10, if an applicant or license holder:
      i. Does not submit all of the information and documentation listed in a written comprehensive request or supplemental request for additional information or documentation; or
      ii. Does not comply with A.R.S. § 36-136 and this Article.

F. In FC Part 8-4, the Department:

1. In Section 8-402.11 requires "The REGULATORY AUTHORITY to comply with A.R.S. § 41-1009 when performing inspections."
2. Does not accept requirements in:
   a. Section 8-402.20, Refusal, Notification of Right to Access, and Final Request for Access;
   b. Section 8-402.30, Refusal, Reporting;
   c. Section 8-402.40, Inspection Order to Gain Access; and
   d. Section 8-403.10, Documenting Information and Observation.
3. In Section 8-403.50 requires "A REGULATORY AUTHORITY treat the inspection report as a public document and shall make it available for disclosure to a PERSON who requests it as provided in LAW."
4. In Section 8-404.12 requires "A REGULATORY AUTHORITY approve or deny resumption of operations within five days after receipt of the license holder's request to resume operations."

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

Table 1.1. Time-frames (in calendar days)

Type of Approval	Statutory Authority	Overall Time-frame	Administrative Completeness Review	Respond to Deficiency Notice	Substantive Review
Application	A.R.S. § 36-136(I)(4)	90	45	180	45
License Renewal	A.R.S. § 36-136(I)(4)	90	45	180	45

Historical Note

New Table 1.1 made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-109. Repealed

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). Repealed by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-110. Mobile Food Units

A. In addition to the definitions in A.R.S. § 36-1761 and in this Article, the following definitions apply to this Section, unless otherwise specified:

1. "Commissary" means a facility that:
   a. Is APPROVED by a REGULATORY AUTHORITY as safe and sanitary for FOOD preparation consistent with the FC and other state statutes and laws; and
   b. Provides support and servicing activities to a mobile food unit that may include:
      i. A cooking facility or commercial kitchen used to prepare FOOD for sale and consumption;
      ii. A space for storing FOOD, including refrigeration, and supplies;
      iii. A source for potable water and disposing of wastewater;
      iv. A source for refuse disposal; and
      v. An area for cleaning equipment or a mobile food unit.
2. "Commercially processed" means FOOD prepared or packaged by a FOOD manufacturer or licensed-permanent FOOD ESTABLISHMENT compliant with LAW.
3. "County" means a public health services district, local health department, department of environmental services,

or department of environmental quality authorized to issue a mobile food unit state-license.

4. "Individually packaged" means pre-packaged FOOD that are ready for consumption and are not re-packaged prior to sale to consumers.
5. "Food manufacturer" means a business engaged in making FOOD from one or more ingredients, or synthesizing, preparing, treating, modifying or manipulating FOOD, including FOOD crops or ingredients.
6. "Other servicing area" means a facility that may provide one or more services, such as:
   a. Disposing of refuse,
   b. Disposing of wastewater,
   c. Recharging potable water tank,
   d. Disposing of excreta, or
   e. Cleaning mobile food unit.
7. "Permit" means a document issued by a county authorizing a state-licensed mobile food unit, whose state-license was issued by a different county, to operate in the county issuing the permit according to A.R.S. § 36-1761(A)(3).
8. "Pre-packaged foods" means edible products sealed in a box, bag, can, or other container and sold to retailers or consumers in the same packaged box, bag, can, or other container.
9. "State-license" means a document:
   a. Issued by the county where a mobile food unit's commissary is located according to A.R.S. 36-1761(A)(3)(c); and
   b. Authorizes the mobile food unit to dispense FOOD for immediate service and human consumption.
10. "Statewide inspection" means a visual examination of a mobile food unit to ensure that the mobile food unit meets the standards specified A.R.S. § 36-1761 and in this Article.

B. A mobile food vendor shall not operate a mobile food unit:

1. Without a state-license authorizing the mobile food unit to dispense FOOD for immediate service and human consumption;
2. Without a service agreement with an APPROVED commissary according to A.R.S. § 36-1761(A);
3. In another county, other than the county that issued the mobile food unit's state-license, without a permit authorizing the mobile food unit to dispense FOOD for immediate service and human consumption; and
4. If the mobile food unit maintains or engages in a public health nuisance specified A.R.S. § 36-601.

C. A mobile food vendor shall for each mobile food unit:

1. Obtain a state-license that includes a statewide inspection specified in subsection (H).
2. Obtain a renewal state-license annually that includes a statewide inspection specified in subsection (H).
3. Except for the county in which a mobile food unit has a state-license, obtain a permit annually for each county where the mobile food unit operates.
4. Ensure all employees have a valid food handler card or a certificate from an accredited food handler training-provider as specified in the FC.
5. Comply with random statewide inspections at no additional cost except as provided in A.R.S. § 11-269.24.

D. A mobile food unit:

1. Shall display in a conspicuous location for public viewing the mobile food unit's:
   a. State-license, and
   b. County permits, if applicable.
2. Shall clearly indicate on the sides or back of the exterior of the vehicle in permanent letters the name of the licensed FOOD ESTABLISHMENT.
3. Shall report to a commissary or other serving area, as applicable, at least every 96 hours following A.R.S. § 11-269.24 or as determined by the county in which the mobile food unit's commissary is located for receiving necessary services during operations to ensure public health and safety.
4. May sell a cottage FOOD prepared for commercial purposes specified in R9-8-118(B)(13).
5. Is not required to operate a specific distance from the perimeter of an existing commercial establishment or restaurant.
6. Shall operate during hours determined by the mobile food vendor.
7. Shall ensure toilet facilities are accessible to employees at a location where the mobile food unit is proposed to stay during all hours of operation.

E. A mobile food unit's state-license shall indicate the mobile food unit classification based on the type of FOOD dispensed and the amount of handling and preparation required:

1. Type I mobile food unit is a FOOD ESTABLISHMENT that dispenses FOOD that are commercially processed, individually PACKAGED and frozen that requires time/temperature control for safety.
2. Type II mobile food unit is a FOOD ESTABLISHMENT that dispenses FOOD that requires limited handling and preparation and:
   a. Includes assemble-serve, heat-serve, and hold-serve of commercially processed FOOD;
   b. Except for bacon-wrapped hotdogs pre-wrapped at a mobile food unit's commissary, shall not cook raw animal FOOD for service from the mobile food unit;
   c. Shall only use produce that is commercially pre-washed or washed in advance at a commissary; and
   d. All cooking, processing, preparing, grilling, assembling, storage, and service of any FOOD shall be conducted from the mobile food unit and commissary.
3. Type III mobile food unit is a FOOD ESTABLISHMENT that prepares, cooks, holds, and serves FOOD and:
   a. Includes assemble-serve, heat-serve, cook-serve, and hold-serve of commercially processed FOOD;
   b. May prepare raw animal FOOD for service from the mobile food unit; and
   c. All cooking, processing, preparing, grilling, assembling, storage, and service of any FOOD shall be conducted inside the mobile food unit and commissary.

F. A mobile food vendor for each mobile food unit shall have a written agreement with a commissary or other servicing area, as applicable, located in the county that issues a mobile food unit's state-license:

1. Is APPROVED by a REGULATORY AUTHORITY as safe and sanitary for FOOD preparation consistent with the FC and other state statutes and laws;
2. Has a signed agreement with a commissary that includes:
   a. The commissary's name, address, and telephone number;
   b. The commissary's permit number issued by a REGULATORY AUTHORITY;
   c. The mobile food vendor's name, address, and telephone number;

d. The manager's name, address, and telephone number, if applicable;
e. A list of services to be provided to the mobile food vendor; and
f. The expiration date of the agreement, if applicable; or

3. Has a signed agreement with an other servicing area that includes:
a. The other servicing area's name, address, and telephone number;
b. The other servicing area's permit number, if applicable, issued by a REGULATORY AUTHORITY or other jurisdiction having authority to regulate the other servicing area;
c. The mobile food vendor's name, address, and telephone number;
d. The manager's name, address, and telephone number, if applicable;
e. A list of services to be provided to the mobile food vendor; and
f. The expiration date of the agreement, if applicable.

G. A mobile food vendor for each mobile food unit shall maintain a service log in a Department-provided format that:
1. Documents the type of services, specified in subsection (E), and dates received;
2. Is maintained in the mobile food unit for at least a period of 30 days; and
3. Is made available to a REGULATORY AUTHORITY upon request.

H. In addition to complying with the FC incorporated by reference in this Article, a mobile food unit is required to maintain general physical and operation requirements for:
1. Installation of compressors, generators, and similar mechanical units that are not an integral part of the FOOD preparation or storage equipment;
2. Waste disposal requirements during and after operation on public or private property, which may not include the size or dimensions of any required solid waste receptacle; and
3. A mobile food unit and equipment used in the mobile food unit shall:
a. Be free of dirt, debris, insects, and vermins;
b. Be maintained in a clean and sanitary condition;
c. Be in good repair and maintained according to manufacturer's requirement, as applicable;
d. Be properly ventilated; and
e. Not maintain or engage a public health nuisance.

I. A mobile food unit statewide inspection shall ensure:
1. A Type I mobile food unit:
a. Has equipment, including compressors, generators, and similar mechanical units approved by the National Sanitation Foundation or American National Standards Institute;
b. If selling or dispensing open FOOD, has a handwashing station that:
i. Is at least a 5 gallon insulated container for potable water that ensures proper handwashing consistent with FC;
ii. Has a catch-bucket to retain waste water generated from handwashing that is 15% greater than the potable water tank; and
iii. Has adequate soap and paper towels for time in service; and
c. Does not cook, prepare, or assemble FOOD.

2. A Type II mobile food unit:
a. Has equipment, including compressors, generators, and similar mechanical units are approved by the National Sanitation Foundation or American National Standards Institute;
b. Has a potable water tank that is at least five gallons;
c. Has a waste water tank that is 15% greater than the potable water tank and any other applicable hot water storage or water storage capacity;
d. Has a handwash sink;
e. Has a combination mixing faucet of hot and cold water at all sinks;
f. Has plumbing connections;
g. Has a waste water tank to drain at lowest point of tank;
h. Has a water tank with a fill connection located at the top;
i. Has a National Sanitation Foundation or American National Standards Institute approved FOOD grade water hose;
j. Has a water heater or other APPROVED hot water source; and
k. Has a quick-disconnect design for sewer and potable water.

3. In addition to subsection (I)(2)(a) through (k), a Type III mobile food unit:
a. Has a three-compartment sink that includes:
i. A potable water system under pressure, supplying hot and cold water with a minimum capacity of 30 gallons permanently installed for warewashing, sanitization, and handwashing;
ii. A waste water capacity that is 15% greater than the potable water tank; and
iii. A minimum flow rate of one-half gallon per minute; and
b. May include a FOOD preparation sink for the purpose of washing product if an additional 20 gallons of potable water is available for use.

J. Except for the Department, regulatory authorities through delegation in the county where a mobile food vendor's commissary is located shall issue state licensure and statewide inspection standards adopted pursuant to this Section.

Historical Note
New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-111. Compliance and Enforcement, Annex 1

A. The Department incorporates FC Annex 1 in whole, unless otherwise specified:
1. Section 1, Purpose;
2. Section 2, Explanation;
3. Section 3, Principle;
4. Section 4, Recommendation; and
5. Section 5, Parts in part.

B. In Annex 1, Section 5, the Department does not accept Part 8-911.10(B).

C. In addition to Annex 1, Section 5, the Department adds licensure suspension or revocation requirements that:
1. A REGULATORY AUTHORITY may suspend or revoke a FOOD ESTABLISHMENT license if the license holder:
a. Maintains or engages in a public health nuisance;

b. Falsifies records to interfere with or obstruct an investigation or regulatory process of the REGULATORY AUTHORITY; or
c. Provides false or misleading information to a regulatory authority.

2. A license revocation or suspension hearing shall be conducted as follows:
a. If a REGULATORY AUTHORITY is the Department, a hearing shall be conducted in accordance with A.R.S. Title 41, Chapter 6, Article 10;
b. If a REGULATORY AUTHORITY is a public health district, local health department, department of environmental services, or department of environmental quality, the hearing shall be conducted in accordance with A.R.S. Title 41, Chapter 6, Article 6 or Article 10.

D. In addition to Annex 1, Section 5, the Department adds cease and desist requirements that:
1. If a REGULATORY AUTHORITY determines a FOOD ESTABLISHMENT is creating, maintaining, or engaging a public health nuisance the REGULATORY AUTHORITY shall serve the FOOD ESTABLISHMENT'S license holder a written cease and desist order pursuant to A.R.S. Title 36, Chapter 6, Article 1.
2. If a written notice of appeal is not provided as specified in A.R.S. § 36-601(B), the cease and desist order shall become final.

Historical Note

Amended effective July 10, 1979 (Supp. 79-4). Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-112. References, Annex 2

The Department incorporates FC Annex 2 in whole:
1. Section 1, United States Code and Code of Federal Regulations;
2. Section 2, Bibliography;
3. Section 3, Principle; and
4. Section 4, Food Defense Guidance from Farm to Table.

Historical Note

Former Section R9-8-112 repealed, new Section R9-8-112 adopted effective July 10, 1979 (Supp. 79-4). Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-113. Public Health Reasons and Administrative Guidelines, Annex 3

The Department incorporates FC Annex 3 in whole:
1. Section 1, Purpose and Definitions;
2. Section 2, Management and Personnel;
3. Section 3, Food;
4. Section 4, Equipment, Utensils, and Linens;
5. Section 5, Water, Plumbing, and Waste;
6. Section 6, Physical Facilities;
7. Section 7, Poisonous or Toxic Materials; and
8. Section 8, Compliance and Enforcement.

Historical Note

Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-114. Management of Food Safety Practices, Annex 4

The Department incorporates FC Annex 4 in whole:
1. Section 1, Active Managerial Control;
2. Section 2, Introduction to HACCP;
3. Section 3, The HACCP Principles;
4. Section 4, The Process Approach - A Practical Application of HACCP;
5. Section 5, FDA Retail HACCP Manuals;
6. Section 6, Advantages of Using the Principles of HACCP;
7. Section 7, Summary;
8. Section 8, Acknowledgements; and
9. Section 9, Resources and References.

Historical Note

Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-115. Conducting Risk-based Inspections, Annex 5

The Department incorporates FC Annex 5 in whole:
1. Section 1, Purpose and Scope;
2. Section 2, Risk-Based Routine Inspections;
3. Section 3, What is Needed to Properly Conduct a Risk-Based Inspection;
4. Section 4, Risk-Based Inspection Methodology;
5. Section 5, Achieving On-Site and Long-Term Compliance;
6. Section 6, Inspection Form and Scoring;
7. Section 7, Closing Conference; and
8. Section 8, Summary.

Historical Note

Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-116. Food Processing Criteria, Annex 6

The Department incorporates FC Annex 6 in whole:
1. Section 1, Introduction;
2. Section 2, Reduced Oxygen Packaging; and
3. Section 3, Smoking and Curing.

Historical Note

Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-117. Model Forms, Guides, and Other Aids, Annex 7

The Department incorporates FC Annex in whole:
1. Section 1, Employee Health Information;
2. Section 2, Adoption Information; and
3. Section 3, Summary Information.

Historical Note

Corrected Article reference (Supp. 77-3). Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section made by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3).

R9-8-118. Exempt from Requirements and Inspections

A. Except as provided in subsection (B), this Article applies to any FOOD ESTABLISHMENT.

B. This Article does not apply to the following, which are not subject to routine inspection or other regulatory activities by a REGULATORY AUTHORITY:

1. The beneficial use of wildlife meat authorized in A.R.S. § 17-240 and 12 A.A.C. 4, Article 1;
2. Group homes, as defined in A.R.S. § 36-551;
3. Child care group homes, as defined in A.R.S. § 36-897 and licensed under 9 A.A.C. 3;
4. Residential group care facilities, as defined in A.A.C. R6-5-7401 that have 20 or fewer clients;
5. Assisted living homes, as defined in A.R.S. § 36-401(A) and licensed under 9 A.A.C. 10, Article 8;
6. Adult day health care facilities, as defined in A.R.S. § 36-401(A) and licensed under 9 A.A.C. 10, Article 11, that are authorized by the Department to provide services to 15 or fewer participants;
7. Behavioral health residential facilities, as defined in A.A.C. R9-10-101 and licensed under 9 A.A.C. 10, Article 7, that are authorized by the Department to provide services to 10 or fewer residents;
8. Hospice inpatient facilities, as defined in A.A.C. R9-10-101 and licensed under 9 A.A.C. 10, Article 6, that are authorized by the Department to provide services for 20 or fewer patients;
9. Substance abuse transitional facilities, as defined in A.A.C. R9-10-101 and licensed under 9 A.A.C. 10, Article 14, that are authorized by the Department to provide services to 10 or fewer participants;
10. Behavioral health respite homes, as defined in A.A.C. R9-10-101 and licensed under 9 A.A.C. 10, Article 16;
11. Adult behavioral health therapeutic homes, as defined in A.A.C. R9-10-101 and licensed under 9 A.A.C. 10, Article 18;
12. FOOD that is:
    a. Served at a noncommercial social event, such as a potluck;
    b. Prepared at a cooking school if:
        i. The cooking school is conducted in the kitchen of an owner-occupied home,
        ii. Only one meal per day is prepared and served by students of the cooking school,
        iii. The meal prepared at the cooking school is served to not more than 15 students of the cooking school, and
        iv. The students of the cooking school are provided with written notice that the FOOD is prepared in a kitchen that is not regulated or inspected by a REGULATORY AUTHORITY;
    c. Not time/temperature control for safety food and prepared in a kitchen of a private home for occasional sale or distribution for noncommercial purposes;
    d. Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fund-raising, or an employee social event;
    e. A demonstration of FOOD preparation or cooking class offered by:
        i. A culinary school or educational institution and all FOOD prepared is consumed by attending students;
        ii. A school or business and samples are not offered for human consumption; and
        iii. A business where an individual provides, prepares, cooks, and consumes their own FOOD.
    f. Offered at a child care facility and limited to commercially pre-packaged FOOD that is not time/temperature control for safety food and whole fruits and vegetables that are washed and cut onsite for immediate consumption; or
    g. Offered at locations that sell only commercially prepackaged FOOD that is not time/temperature control for safety food;
13. A cottage FOOD product, as defined in A.R.S. § 36-136(Q), prepared for commercial purposes that:
    a. Is not time/temperature control for safety food as defined in A.R.S. § 36-136(I)(4)(g); or
    b. Is not a FOOD that requires time and temperature control for safety to limit pathogenic microorganism growth or toxin formation; and
    c. Is prepared in the kitchen of a home by a food preparer or under the supervision of an individual who:
        i. Has a certificate of completion from completing a food handler training course from an accredited program;
        ii. Maintains an active certification of completion; and
        iii. If a food preparer, is registered with the Department, as required in A.R.S. § 36-136(I)(4)(g) and specified in subsection (D); and
    d. Is PACKAGED at the home with an attached label that includes:
        i. The name, and registration number of the food preparer registered with the Department as specified in subsection (D);
        ii. A list of the ingredients in the cottage FOOD;
        iii. The date the cottage FOOD was prepared; and
        iv. The statement: This product was produced in a home kitchen that may process common FOOD allergens and is not subject to public health inspection; and
        v. If applicable, a statement that the cottage FOOD was prepared in the home kitchen of a facility for individuals with developmental disabilities.
14. Fruits and vegetables grown in a garden at a public school, as defined in A.R.S. § 15-101, that are washed and cut on-site for immediate consumption.
15. Microbreweries, farm wineries, or craft distilleries licensed by the Department of Liquor Licenses and Control that sell only commercially prepackaged wrapped foods, crackers, or pretzels that are not time or temperature controlled and are served for immediate consumption.
16. Spirituous liquor, as defined in A.R.S. § 4-101, produced on the premises licensed by the Department of Liquor Licenses and Control including the area in which production and manufacturing of spirituous liquor occurs and does not provide, allow, or expose a common use cup, glass, or other receptacle used for drinking purposes without the receptacle being thoroughly cleansed and sanitized between consecutive uses, as specified in A.R.S. § 36-136.

C. A food preparer who meets the requirements in subsection (B)(13) is authorized to prepare cottage FOOD for commercial purpose.

D. To be exempt from the requirements in this Article, a food preparer identified in subsection (C) shall:

1. Complete a food handler training course from an accredited program;
2. Register with the Department by submitting:
   a. An application in a Department-provided format that includes:
      i. The food preparer's name, address, telephone number, and email address;
      ii. If the food preparer is supervised, the supervisor's name, address, telephone number, and email address;
      iii. The address, including the county, of the home where the cottage FOOD is prepared;
      iv. Whether the home where the cottage FOOD is prepared is a facility for developmentally disabled individuals; and
      v. A description of each cottage FOOD prepared for commercial purposes;
   b. A copy of the food preparer's certificate of completion for the completed food handler training course;
   c. If the food preparer is supervised, the supervisor's certificate of completion for the completed food handler training course; and
   d. An attestation in a Department-provided format that the food preparer:
      i. Has reviewed Department-provided information on FOOD safety and safe FOOD handling practices;
      ii. Based on the Department-provided information, believes that the cottage FOOD prepared for commercial purposes is not time/temperature control for safety food or is not a FOOD that requires time or temperature control for safety to limit pathogenic microorganism growth or toxin formation; and
      iii. Includes the food preparer's printed name and date.
3. Maintain an active certification of completion for the completed food handler training course;
4. Renew the registration in subsection (D)(2) every three years;
5. Submit any change to the information or documents provided according to subsection (D)(2)(a) through (c) to the Department within 30 calendar days after the change; and
6. Display the food preparer's certificate of registration when operating as a temporary FOOD ESTABLISHMENT and selling cottage FOOD.

E. Food establishments shall have until January 31, 2022 to comply with the certified food protection manager requirement specified in this Article.

Historical Note

Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section R9-8-118 renumbered from R9-8-102 and amended by final rulemaking at 26 A.A.R. 1516, with an immediate effective date of July 8, 2020 (Supp. 20-3). Amended by final expedited rulemaking at 30 A.A.R. 237 (February 2, 2024), with an immediate effective date of January 10, 2024 (Supp. 24-1).

R9-8-119. Manufactured Food Plants

A. The following definitions apply to this Section, unless otherwise specified:

1. "Consumer" means a person who:
   a. Is a member of the public,
   b. Takes possession of FOOD,
   c. Is not functioning in the capacity of an operator of a manufacture food plant, and
   d. Does not offer the FOOD for resale.
2. "FOOD PROCESSING PLANT" means a commercial operation that:
   a. Manufactures, packages, labels, or stores FOOD for human consumption;
   b. Provides FOOD for sale or distribution to other business entities such as FOOD ESTABLISHMENTS and retailers; and
   c. Does not provide FOOD directly to a consumer.

B. In FC Part 3-2, Subpart 3-202, the Department:

1. In paragraph 3-203.11(A) requires "Except as specified in (B), (C), and (D) of this Section, MOLLUSCAN SHELLFISH may not be removed from the container in which they are received other than immediately before sale, preparation for service, or preparation in a FOOD PROCESSING PLANT licensed by the REGULATORY AUTHORITY."
2. In paragraph 3-203.12(C) requires "The identity of the source of SHELLSTOCK that are prepared by a FOOD PROCESSING PLANT licensed by the REGULATORY AUTHORITY, sold, or served shall be maintained by retaining SHELLSTOCK tags or labels for 90 calendar days from the date the container is emptied by:
   a. Using an APPROVED record keeping system that keeps the tags or labels in chronological order correlated to the date when, or dates during which, the SHELLSTOCK are prepared by a FOOD PROCESSING PLANT licensed by the REGULATORY AUTHORITY, sold, or served; and
   b. If SHELLSTOCK are removed from their tagged or labeled container:
      i. Using only one tagged or labeled container at a time, or
      ii. Using more than one tagged or labeled container at a time and obtaining a VARIANCE from the REGULATORY AUTHORITY as specified in § 8-103.10 based on a HACCP PLAN that:
         (a) Is submitted by the license holder and APPROVED as specified under § 8-103.11,
         (b) Preserves source identification by using a record keeping system as specified under Subparagraph (B)(1) of this Section, and
         (c) Ensures that SHELLSTOCK from one tagged or labeled container are not commingled with SHELLSTOCK from another container before being ordered by the CONSUMER or prepared by a FOOD PROCESSING PLANT licensed by the REGULATORY AUTHORITY."

Historical Note

Section repealed by final rulemaking at 7 A.A.R. 1719, effective October 3, 2001 (Supp. 01-2). New Section

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop, tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer,

airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health department, environmental department or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any monies that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases that are reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases that are transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not

inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a meatpacking plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is prepared in a kitchen of a private home for

commercial purposes consistent with chapter 8, article 2 of this title.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

(k) Spirituous liquor produced by a producer that is licensed by the department of liquor licenses and control or spirituous liquor imported and sold by wholesalers that is licensed by the department of liquor licenses and control. This exemption includes all commercially prepackaged spirituous liquor and all spirituous liquor poured at a licensed special event, festival or fair in this state.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in identifying, storing, handling and selling all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for submitting samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules

adopted pursuant to this paragraph do not apply to two or fewer recreational vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. Confidential information may not be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection and chapter 8, article 2 of this title. A registered food preparer shall

renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout this state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction if the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell

only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product" has the same meaning prescribed in section 36-931.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

36-931. Definitions

In this article, unless the context otherwise requires:

1. "Cottage food product":

(a) Means a food that is prepared in a home kitchen by or under the direct supervision of an individual who is registered with the department and that either, as defined by the department in rule:

(i) Is not potentially hazardous or does not require time or temperature control for safety.

(ii) Is potentially hazardous or requires time or temperature control for safety.

(b) Does not include alcoholic beverages, unpasteurized milk or foods that are or that contain alcoholic beverages, fish and shellfish products, meat, meat by-

products, poultry or poultry by-products unless the sale of those items is allowed by federal law, including all of the following:

(i) Poultry, poultry by-products or poultry food products if the registered food preparer raised the poultry pursuant to the one thousand bird exemption set forth in 9 Code of Federal Regulations section 381.10(c).

(ii) Poultry, poultry by-products or poultry food products if the poultry is from an inspected source pursuant to 9 Code of Federal Regulations section 381.10(d).

(iii) Meat, meat by-products or meat food products if the meat is from an inspected source pursuant to 9 Code of Federal Regulations section 303.1(d).

2. "Department" means the department of health services.

3. "Home kitchen" means a kitchen in either, as applicable:

(a) The residential home or dwelling of the individual who is registered with the department to prepare cottage food products, of a type that is normally found in a residential home and that does not exceed one thousand square feet.

(b) A facility for individuals with developmental disabilities and of a type normally found in a facility for individuals with developmental disabilities.

4. "Potentially hazardous" means that a cottage food product does not meet the requirements of the food code published by the United States food and drug administration, as modified and incorporated by reference by the department by rule.

5. "Third-party food delivery platform" means an online business that acts as an intermediary between consumers and multiple food facilities to submit food orders from a consumer to a participating food facility and to arrange for the delivery of the order from the food facility to the consumer.

36-932. Labeling; food handler certification; sale and delivery requirements

A. Cottage food products must be packaged at home with an attached label in a clear and legible printed or handwritten font that does all of the following:

1. Clearly states the name and registration number of the food preparer.

2. Lists all the ingredients in the cottage food product and the cottage food product's production date.

3. Includes the following statement: "This product was produced in a home kitchen that may come in contact with common food allergens and pet allergens and is not subject to public health inspection."

4. If the cottage food product was made in a facility for individuals with developmental disabilities, discloses that fact.

5. Includes a website address provided by the department that includes all of the following:

(a) Contact information for consumers to report foodborne illnesses.

(b) Information on how to verify a food preparer's active registration status.

(c) Contact information for reporting issues regarding a food preparer's registration status.

B. If a cottage food product is offered for sale online, the food preparer must provide a prominent notification that includes all of the following:

1. The name and registration number of the food preparer.

2. A list of all ingredients in the cottage food product and the cottage food product's production date.

3. The following statement: "This product was produced in a home kitchen that may come in contact with common food allergens and pet allergens and is not subject to public health inspection."

4. A website address provided by the department that includes all of the following:

(a) Contact information for consumers to report foodborne illnesses.

(b) Information on how to verify a food preparer's active registration status.

(c) Contact information for reporting issues regarding a food preparer's registration status.

C. The person preparing the cottage food product or directly supervising the food preparation must complete a food handler training course from an accredited program and maintain active certification. The food preparer must register with the online registry established by the department pursuant to section 36-136, subsection I, paragraph 13. The food preparer must display the

preparer's certificate of registration when operating as a temporary food establishment.

D. A food preparer:

1. Except as otherwise provided in this article, may sell cottage food products to the maximum extent allowed by federal law.

2. May not store cottage food products or food preparation equipment outside of the food preparer's home.

E. Cottage food products may be sold and delivered only under the following conditions:

1. Cottage food products that do not contain dairy, meat or poultry must be sold by the food preparer of the cottage food product or an agent of the food preparer, including a third-party vendor, and delivered to the consumer by the food preparer, the agent of the food preparer, the third-party vendor or a third-party carrier.

2. Cottage food products that are dairy products or that contain meat or poultry must be sold by the food preparer of the cottage food product in person or remotely, including over the internet but excluding third-party food delivery platforms, and delivered to the consumer in person.

3. If a cottage food product is potentially hazardous or requires time or temperature control for safety and is transported before final delivery to consumers, the cottage food product must be maintained at an appropriate temperature during transport, cannot be transported more than once and cannot be transported for longer than two hours.

4. If a cottage food product is sold by a third-party vendor, the cottage food product must be sold in a separate section of the store or on a separate display case from nonhomemade food items and the vendor must display a sign that indicates that the cottage food products are homemade and exempt from state licensing and inspection.

F. A cottage food product may not:

1. Be used as an ingredient in food products sold at a permitted retail food establishment.

2. Include marijuana or marijuana by-products.

G. A cottage food product shall contain only ingredients that are from sources that are approved by law.

H. A home kitchen that is used to prepare cottage food products may not operate as a commissary for the purposes of section 36-1761.

36-933. Applicability of article; rules; enforcement

A. This article:

1. Is not more restrictive than the applicable federal laws.

2. Does not impede the department from investigating any reported foodborne illness.

3. Does not change the requirements for brand inspections, animal health inspections or any food inspections required by state or federal law, or change the requirements for the sale of milk, milk products, raw milk or raw milk products pursuant to section 3-606.

4. Does not affect any county or municipal building code, zoning code or ordinance or other land use regulation.

B. The department shall adopt rules relating to cottage food products that are consistent with this article and section 36-136, subsection I and that include both of the following:

1. A provision requiring recertification as a food handler or suspension or revocation of an individual's registration for failing to comply with the requirements of this article or impeding in the investigation of a reported foodborne illness.

2. Guidance relating to approved ingredient sources.

C. The department may enforce this article.

D. A county may not be required to enforce this article.

E. This article does not prevent the department and a local health agency, environmental agency or public health services agency from entering into a delegation agreement to enforce this article.

State of Arizona
House of Representatives
Fifty-sixth Legislature
Second Regular Session
2024

CHAPTER 18

HOUSE BILL 2042

AN ACT

AMENDING SECTION 36-136, ARIZONA REVISED STATUTES; AMENDING TITLE 36, CHAPTER 8, ARIZONA REVISED STATUTES, BY ADDING ARTICLE 2; RELATING TO THE DEPARTMENT OF HEALTH SERVICES.

(TEXT OF BILL BEGINS ON NEXT PAGE)

Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 36-136, Arizona Revised Statutes, is amended to read:

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop, tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third

parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health ~~agency~~ DEPARTMENT, environmental ~~agency~~ DEPARTMENT or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any ~~funds~~ MONIES that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases THAT ARE transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a ~~meat packing~~ MEATPACKING plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed,

stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for ~~occasional~~ sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product ~~that is not potentially hazardous or a time or temperature control for safety food and~~ that is prepared in a kitchen of a private home for commercial purposes~~, including fruit jams and jellies, dry mixes made with ingredients from approved sources, honey, dry pasta and roasted nuts~~ CONSISTENT WITH CHAPTER 8, ARTICLE 2 OF THIS TITLE. ~~Cottage food products must be packaged at home with an attached label that clearly states the name and registration number of the food preparer, lists all the ingredients in the product and the product's production date and includes the following statement: "This product was produced in a home kitchen that may process common food allergens and is not subject to public health inspection." If the product was made in a facility for individuals with developmental disabilities, the label must also disclose that fact. The person preparing the food or supervising the food preparation must complete a food handler training course from an accredited program and maintain active certification. The food preparer must register with an online registry established by the department pursuant to paragraph 13 of this subsection. The food preparer must display the preparer's certificate of registration when operating as a temporary food establishment. For the purposes of this subdivision, "not potentially hazardous" means cottage food products that meet the requirements of the food code published by the United States food and drug administration, as modified and incorporated by reference by the department by rule.~~

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in ~~identity~~ IDENTIFYING, ~~storage~~ STORING, handling and ~~sale of~~ SELLING all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for

~~the submission of~~ SUBMITTING samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall

prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. ~~In no event shall~~ Confidential information MAY NOT be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection AND CHAPTER 8, ARTICLE 2 OF THIS TITLE. A registered food preparer shall renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout ~~the~~ THIS state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction~~, provided that~~ IF the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the

fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product"~~:~~

~~(a) Means a food that is not potentially hazardous or a time or temperature control for safety food as defined by the department in rule and that is prepared in a home kitchen by an individual who is registered with the department.~~

~~(b) Does not include foods that require refrigeration, perishable baked goods, salsas, sauces, fermented and pickled foods, meat, fish and shellfish products, beverages, acidified food products, nut butters or~~

~~other reduced-oxygen packaged products~~ HAS THE SAME MEANING PRESCRIBED IN SECTION 36-931.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

Sec. 2. Title 36, chapter 8, Arizona Revised Statutes, is amended by adding article 2, to read:

ARTICLE 2. COTTAGE FOOD PRODUCTS

36-931. Definitions

IN THIS ARTICLE, UNLESS THE CONTEXT OTHERWISE REQUIRES:

1. "COTTAGE FOOD PRODUCT":

(a) MEANS A FOOD THAT IS PREPARED IN A HOME KITCHEN BY OR UNDER THE DIRECT SUPERVISION OF AN INDIVIDUAL WHO IS REGISTERED WITH THE DEPARTMENT AND THAT EITHER, AS DEFINED BY THE DEPARTMENT IN RULE:

(i) IS NOT POTENTIALLY HAZARDOUS OR DOES NOT REQUIRE TIME OR TEMPERATURE CONTROL FOR SAFETY.

(ii) IS POTENTIALLY HAZARDOUS OR REQUIRES TIME OR TEMPERATURE CONTROL FOR SAFETY.

(b) DOES NOT INCLUDE ALCOHOLIC BEVERAGES, UNPASTEURIZED MILK OR FOODS THAT ARE OR THAT CONTAIN ALCOHOLIC BEVERAGES, FISH AND SHELLFISH PRODUCTS, MEAT, MEAT BY-PRODUCTS, POULTRY OR POULTRY BY-PRODUCTS UNLESS THE SALE OF THOSE ITEMS IS ALLOWED BY FEDERAL LAW, INCLUDING ALL OF THE FOLLOWING:

(i) POULTRY, POULTRY BY-PRODUCTS OR POULTRY FOOD PRODUCTS IF THE REGISTERED FOOD PREPARER RAISED THE POULTRY PURSUANT TO THE ONE THOUSAND BIRD EXEMPTION SET FORTH IN 9 CODE OF FEDERAL REGULATIONS SECTION 381.10(c).

(ii) POULTRY, POULTRY BY-PRODUCTS OR POULTRY FOOD PRODUCTS IF THE POULTRY IS FROM AN INSPECTED SOURCE PURSUANT TO 9 CODE OF FEDERAL REGULATIONS SECTION 381.10(d).

(iii) MEAT, MEAT BY-PRODUCTS OR MEAT FOOD PRODUCTS IF THE MEAT IS FROM AN INSPECTED SOURCE PURSUANT TO 9 CODE OF FEDERAL REGULATIONS SECTION 303.1(d).

2. "DEPARTMENT" MEANS THE DEPARTMENT OF HEALTH SERVICES.

3. "HOME KITCHEN" MEANS A KITCHEN IN EITHER, AS APPLICABLE:

(a) THE RESIDENTIAL HOME OR DWELLING OF THE INDIVIDUAL WHO IS REGISTERED WITH THE DEPARTMENT TO PREPARE COTTAGE FOOD PRODUCTS, OF A TYPE THAT IS NORMALLY FOUND IN A RESIDENTIAL HOME AND THAT DOES NOT EXCEED ONE THOUSAND SQUARE FEET.

(b) A FACILITY FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES AND OF A TYPE NORMALLY FOUND IN A FACILITY FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES.

4. "POTENTIALLY HAZARDOUS" MEANS THAT A COTTAGE FOOD PRODUCT DOES NOT MEET THE REQUIREMENTS OF THE FOOD CODE PUBLISHED BY THE UNITED STATES

FOOD AND DRUG ADMINISTRATION, AS MODIFIED AND INCORPORATED BY REFERENCE BY THE DEPARTMENT BY RULE.

5. "THIRD-PARTY FOOD DELIVERY PLATFORM" MEANS AN ONLINE BUSINESS THAT ACTS AS AN INTERMEDIARY BETWEEN CONSUMERS AND MULTIPLE FOOD FACILITIES TO SUBMIT FOOD ORDERS FROM A CONSUMER TO A PARTICIPATING FOOD FACILITY AND TO ARRANGE FOR THE DELIVERY OF THE ORDER FROM THE FOOD FACILITY TO THE CONSUMER.

36-932. Labeling; food handler certification; sale and delivery requirements

A. COTTAGE FOOD PRODUCTS MUST BE PACKAGED AT HOME WITH AN ATTACHED LABEL IN A CLEAR AND LEGIBLE PRINTED OR HANDWRITTEN FONT THAT DOES ALL OF THE FOLLOWING:

1. CLEARLY STATES THE NAME AND REGISTRATION NUMBER OF THE FOOD PREPARER.

2. LISTS ALL THE INGREDIENTS IN THE COTTAGE FOOD PRODUCT AND THE COTTAGE FOOD PRODUCT'S PRODUCTION DATE.

3. INCLUDES THE FOLLOWING STATEMENT: "THIS PRODUCT WAS PRODUCED IN A HOME KITCHEN THAT MAY COME IN CONTACT WITH COMMON FOOD ALLERGENS AND PET ALLERGENS AND IS NOT SUBJECT TO PUBLIC HEALTH INSPECTION."

4. IF THE COTTAGE FOOD PRODUCT WAS MADE IN A FACILITY FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES, DISCLOSES THAT FACT.

5. INCLUDES A WEBSITE ADDRESS PROVIDED BY THE DEPARTMENT THAT INCLUDES ALL OF THE FOLLOWING:

(a) CONTACT INFORMATION FOR CONSUMERS TO REPORT FOODBORNE ILLNESSES.

(b) INFORMATION ON HOW TO VERIFY A FOOD PREPARER'S ACTIVE REGISTRATION STATUS.

(c) CONTACT INFORMATION FOR REPORTING ISSUES REGARDING A FOOD PREPARER'S REGISTRATION STATUS.

B. IF A COTTAGE FOOD PRODUCT IS OFFERED FOR SALE ONLINE, THE FOOD PREPARER MUST PROVIDE A PROMINENT NOTIFICATION THAT INCLUDES ALL OF THE FOLLOWING:

1. THE NAME AND REGISTRATION NUMBER OF THE FOOD PREPARER.

2. A LIST OF ALL INGREDIENTS IN THE COTTAGE FOOD PRODUCT AND THE COTTAGE FOOD PRODUCT'S PRODUCTION DATE.

3. THE FOLLOWING STATEMENT: "THIS PRODUCT WAS PRODUCED IN A HOME KITCHEN THAT MAY COME IN CONTACT WITH COMMON FOOD ALLERGENS AND PET ALLERGENS AND IS NOT SUBJECT TO PUBLIC HEALTH INSPECTION."

4. A WEBSITE ADDRESS PROVIDED BY THE DEPARTMENT THAT INCLUDES ALL OF THE FOLLOWING:

(a) CONTACT INFORMATION FOR CONSUMERS TO REPORT FOODBORNE ILLNESSES.

(b) INFORMATION ON HOW TO VERIFY A FOOD PREPARER'S ACTIVE REGISTRATION STATUS.

(c) CONTACT INFORMATION FOR REPORTING ISSUES REGARDING A FOOD PREPARER'S REGISTRATION STATUS.

C. THE PERSON PREPARING THE COTTAGE FOOD PRODUCT OR DIRECTLY SUPERVISING THE FOOD PREPARATION MUST COMPLETE A FOOD HANDLER TRAINING COURSE FROM AN ACCREDITED PROGRAM AND MAINTAIN ACTIVE CERTIFICATION. THE FOOD PREPARER MUST REGISTER WITH THE ONLINE REGISTRY ESTABLISHED BY THE DEPARTMENT PURSUANT TO SECTION 36-136, SUBSECTION I, PARAGRAPH 13. THE FOOD PREPARER MUST DISPLAY THE PREPARER'S CERTIFICATE OF REGISTRATION WHEN OPERATING AS A TEMPORARY FOOD ESTABLISHMENT.

D. A FOOD PREPARER:

1. EXCEPT AS OTHERWISE PROVIDED IN THIS ARTICLE, MAY SELL COTTAGE FOOD PRODUCTS TO THE MAXIMUM EXTENT ALLOWED BY FEDERAL LAW.

2. MAY NOT STORE COTTAGE FOOD PRODUCTS OR FOOD PREPARATION EQUIPMENT OUTSIDE OF THE FOOD PREPARER'S HOME.

E. COTTAGE FOOD PRODUCTS MAY BE SOLD AND DELIVERED ONLY UNDER THE FOLLOWING CONDITIONS:

1. COTTAGE FOOD PRODUCTS THAT DO NOT CONTAIN DAIRY, MEAT OR POULTRY MUST BE SOLD BY THE FOOD PREPARER OF THE COTTAGE FOOD PRODUCT OR AN AGENT OF THE FOOD PREPARER, INCLUDING A THIRD-PARTY VENDOR, AND DELIVERED TO THE CONSUMER BY THE FOOD PREPARER, THE AGENT OF THE FOOD PREPARER, THE THIRD-PARTY VENDOR OR A THIRD-PARTY CARRIER.

2. COTTAGE FOOD PRODUCTS THAT ARE DAIRY PRODUCTS OR THAT CONTAIN MEAT OR POULTRY MUST BE SOLD BY THE FOOD PREPARER OF THE COTTAGE FOOD PRODUCT IN PERSON OR REMOTELY, INCLUDING OVER THE INTERNET BUT EXCLUDING THIRD-PARTY FOOD DELIVERY PLATFORMS, AND DELIVERED TO THE CONSUMER IN PERSON.

3. IF A COTTAGE FOOD PRODUCT IS POTENTIALLY HAZARDOUS OR REQUIRES TIME OR TEMPERATURE CONTROL FOR SAFETY AND IS TRANSPORTED BEFORE FINAL DELIVERY TO CONSUMERS, THE COTTAGE FOOD PRODUCT MUST BE MAINTAINED AT AN APPROPRIATE TEMPERATURE DURING TRANSPORT, CANNOT BE TRANSPORTED MORE THAN ONCE AND CANNOT BE TRANSPORTED FOR LONGER THAN TWO HOURS.

4. IF A COTTAGE FOOD PRODUCT IS SOLD BY A THIRD-PARTY VENDOR, THE COTTAGE FOOD PRODUCT MUST BE SOLD IN A SEPARATE SECTION OF THE STORE OR ON A SEPARATE DISPLAY CASE FROM NONHOMEMADE FOOD ITEMS AND THE VENDOR MUST DISPLAY A SIGN THAT INDICATES THAT THE COTTAGE FOOD PRODUCTS ARE HOMEMADE AND EXEMPT FROM STATE LICENSING AND INSPECTION.

F. A COTTAGE FOOD PRODUCT MAY NOT:

1. BE USED AS AN INGREDIENT IN FOOD PRODUCTS SOLD AT A PERMITTED RETAIL FOOD ESTABLISHMENT.

2. INCLUDE MARIJUANA OR MARIJUANA BY-PRODUCTS.

G. A COTTAGE FOOD PRODUCT SHALL CONTAIN ONLY INGREDIENTS THAT ARE FROM SOURCES THAT ARE APPROVED BY LAW.

H. A HOME KITCHEN THAT IS USED TO PREPARE COTTAGE FOOD PRODUCTS MAY NOT OPERATE AS A COMMISSARY FOR THE PURPOSES OF SECTION 36-1761.

36-933. Applicability of article; rules; enforcement

A. THIS ARTICLE:

1. IS NOT MORE RESTRICTIVE THAN THE APPLICABLE FEDERAL LAWS.

2. DOES NOT IMPEDE THE DEPARTMENT FROM INVESTIGATING ANY REPORTED FOODBORNE ILLNESS.

3. DOES NOT CHANGE THE REQUIREMENTS FOR BRAND INSPECTIONS, ANIMAL HEALTH INSPECTIONS OR ANY FOOD INSPECTIONS REQUIRED BY STATE OR FEDERAL LAW, OR CHANGE THE REQUIREMENTS FOR THE SALE OF MILK, MILK PRODUCTS, RAW MILK OR RAW MILK PRODUCTS PURSUANT TO SECTION 3-606.

4. DOES NOT AFFECT ANY COUNTY OR MUNICIPAL BUILDING CODE, ZONING CODE OR ORDINANCE OR OTHER LAND USE REGULATION.

B. THE DEPARTMENT SHALL ADOPT RULES RELATING TO COTTAGE FOOD PRODUCTS THAT ARE CONSISTENT WITH THIS ARTICLE AND SECTION 36-136, SUBSECTION I AND THAT INCLUDE BOTH OF THE FOLLOWING:

1. A PROVISION REQUIRING RECERTIFICATION AS A FOOD HANDLER OR SUSPENSION OR REVOCATION OF AN INDIVIDUAL'S REGISTRATION FOR FAILING TO COMPLY WITH THE REQUIREMENTS OF THIS ARTICLE OR IMPEDING IN THE INVESTIGATION OF A REPORTED FOODBORNE ILLNESS.

2. GUIDANCE RELATING TO APPROVED INGREDIENT SOURCES.

C. THE DEPARTMENT MAY ENFORCE THIS ARTICLE.

D. A COUNTY MAY NOT BE REQUIRED TO ENFORCE THIS ARTICLE.

E. THIS ARTICLE DOES NOT PREVENT THE DEPARTMENT AND A LOCAL HEALTH AGENCY, ENVIRONMENTAL AGENCY OR PUBLIC HEALTH SERVICES AGENCY FROM ENTERING INTO A DELEGATION AGREEMENT TO ENFORCE THIS ARTICLE.

APPROVED BY THE GOVERNOR MARCH 29, 2024.

FILED IN THE OFFICE OF THE SECRETARY OF STATE MARCH 29, 2024.

DEPARTMENT OF HEALTH SERVICES
Title 9, Chapter 6

Amend: R9-6-403, R9-6-404

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 21, 2025

SUBJECT: DEPARTMENT OF HEALTH SERVICES
Title 9, Chapter 6, Article 4

Amend: R9-6-403, R9-6-404

Summary:

This Expedited rulemaking from the Arizona Department of Health Services (Department) seeks to amend two (2) rules in Title 9, Chapter 6, Article 4 related to the AIDS Drug Assistance Program (ADAP). ADAP is a predominantly federally funded program designed to help those who have been infected with HIV and to help reduce the spread of HIV related diseases. The Department is required to make rules deemed necessary for detecting, reporting, preventing and controlling communicable and preventable diseases.

This rulemaking satisfies the proposed course from the Five-Year-Review Reports (5YRR) approved by the Council on October 1, 2024. The rule amendments will improve the clarity of the rules and will help reduce the administrative burden by removing an incorrect cross reference, specify that an individual cannot be eligible for ADAP benefits if that individual is eligible for health insurance coverage and has voluntarily opted out, and to remove an unnecessary application step.

1. **Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?**

To qualify for expedited rulemaking, the rulemaking must not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of persons regulated and meet one or more criteria listed in A.R.S. § 41-1027(A). The Department indicates the rules satisfy the criteria for expedited rulemaking under A.R.S. § 41-1027 (A)(3) and (A)(6) as the rulemaking amends rules that are outdated or need clarification. In addition, the Department cites A.R.S. § 41-1027(A)(7) as this rulemaking makes changes consistent with amendments proposed in the 5YRR approved by the council on October 1, 2024.

2. **Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?**

The Department cites both general and specific statutory authority for these rules.

3. **Does the agency adequately address the comments on the proposed rules and any supplemental proposals?**

The Department states no comments were received in response to this rulemaking.

4. **Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?**

The Department states no changes were made between the proposed and final rulemaking.

5. **Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?**

The Department indicates that the rules are not more stringent than corresponding federal law.

6. **Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?**

The Department indicates that the rules do not require a permit or a license.

7. **Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?**

The Department states that no study was relied on or reviewed during the course of this rulemaking.

8. **Conclusion**

This Expedited rulemaking from the Arizona Department of Health Services seeks to amend two rules in Title 9, Chapter 6, Article 4 related to the AIDS Drug Assistance Program. This rulemaking satisfies the criteria of an expedited rulemaking pursuant to A.R.S. § 41-1027(A) because the amendments will provide increased clarity of the rules and ease regulatory burden as proposed in the Five Year Review Report approved by the Council on October 1, 2024.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

ARIZONA DEPARTMENT OF HEALTH SERVICES

October 28, 2024

VIA EMAIL: grrc@azdoa.gov
Jessica Klein, Esq., Chair
Governor's Regulatory Review Council
Arizona Department of Administration
100 N. 15th Avenue, Suite 305
Phoenix, AZ 85007

RE: Department of Health Services, 9 A.A.C. 6, Article 4, Expedited Rulemaking

Dear Ms. Klein:

1. The close of record date: October 14, 2024

2. Explanation of how the expedited rule meets the criteria in A.R.S. § 41-1027(A):
The rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. The rulemaking makes changes consistent with the most recent five-year-review report on these rules and amends rules that are outdated or need clarification, meeting the requirements in A.R.S. § 41-1027(A)(3), (6), and (7).

3. Whether the rulemaking relates to a five-year-review report and, if applicable, the date the report was approved by the Council:
The rulemaking for 9 A.A.C. 6, Article 4, relates to a five-year-review report approved by the Council on October 1, 2024.

4. A list of all items enclosed:
   a. Notice of Final Expedited Rulemaking, including the Preamble, Table of Contents, and text of the rule
   b. Statutory authority
   c. Current rule

The Department is requesting that the rules be heard at the Council meeting on February 4, 2025.

I certify that the Preamble of this rulemaking discloses a reference to any study relevant to the rule that the Department reviewed and either did or did not rely on in its evaluation of or justification for the rule.

The Department's point of contact for questions about the rulemaking documents is Ruthann Smejkal at Ruthann.Smejkal@azdhs.gov.

Sincerely,

Stacie Gravito
Director's Designee

TITLE 9. HEALTH SERVICES

CHAPTER 6. DEPARTMENT OF HEALTH SERVICES

COMMUNICABLE DISEASES AND INFESTATIONS

ARTICLE 4. AIDS DRUG ASSISTANCE PROGRAM (ADAP)

PREAMBLE

1. Permission to proceed with this final expedited rulemaking was granted under A.R.S. § 41-1039(B) by the Governor on:

October 28, 2024

2.

Article, Part or Sections Affected (as applicable)	Rulemaking Action
R9-6-403	Amend
R9-6-404	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statutes: A.R.S. §§ 36-132(A)(1), 36-136(G)

Implementing statutes: A.R.S. § 36-136(I)

4. The effective date of the rule:

This expedited rulemaking becomes effective immediately on the filing of the Notice of Final Expedited Rulemaking pursuant to A.R.S. § 41-1027(H). The effective date is (to be filled in by Register editor).

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the record of the proposed rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 2844, September 13, 2024

Notice of Proposed Expedited Rulemaking: 30 A.A.R. 2953, October 4, 2024

6. The agency's contact person who can answer questions about the rulemaking:

Address: Arizona Department of Health Services
Public Health Preparedness
150 N. 18th Ave., Suite 110
Phoenix, AZ 85007

Telephone: (602) 364-3854

Fax: (602) 542-1155

E-mail: Ricardo.Fernandez @azdhs.gov

or

Name: Stacie Gravito, Office Chief

Address: Arizona Department of Health Services
Office of Administrative Counsel and Rules
150 N. 18th Ave., Suite 200
Phoenix, AZ 85007

Telephone: (602) 542-1020

Fax: (602) 364-1150

E-mail: Stacie.Gravito@azdhs.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes (A.R.S.) § 36-136(I)(1) requires the Arizona Department of Health Services (Department) to make rules defining and prescribing "reasonably necessary measures for detecting, reporting, preventing, and controlling communicable and preventable diseases." The AIDS Drug Assistance Program (ADAP) helps individuals with HIV infection to obtain necessary prescription drugs to prevent the occurrence of, or to alleviate, disability from HIV-related diseases, including AIDS, and to reduce the spread of the disease. The Department has adopted rules for ADAP in 9 A.A.C. 6, Article 4. As specified in a recent five-year-review report for the rules in 9 A.A.C. 6, Article 4, the Department identified a couple of minor issues that needed to be addressed to improve the effectiveness of the rules and reduce the administrative burden. After obtaining approval for the rulemaking according to A.R.S. § 41-1039(A), the Department is revising the rules to address the identified issues. The proposed amendments are consistent with the purpose for A.R.S. § 41-1027 in that this rulemaking does not increase the cost of regulatory compliance, does not increase a fee, or reduce a procedural right of regulated persons. In addition, the rulemaking implements, without material change, a course of action that was proposed in a five-year review report and reduces steps, procedures, or processes and amends rules that are outdated and unnecessary, while protecting the health and safety of patients and the general public.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review or rely on any study for this rulemaking.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a preliminary summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

Under A.R.S. § 41-1055(D)(2), the Department is not required to provide an economic, small business, and consumer impact statement.

11. A description of any change between the proposed expedited rulemaking, to include a supplemental proposed notice, and the final rulemaking:

No changes were made between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

No comments were received.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

Not applicable; the rules do not require the issuance of a permit or license.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

ADAP is mostly funded through federal funds under the Ryan White Comprehensive AIDS Resources Emergency Act (Ryan White CARE Act), Pub. L. 101-381, 104 Stat. 576, enacted August 18, 1990, and follows requirements of the federal funding agency. The rules also impose the same requirements on participants as the applicable provisions of Medicare Part D (*e.g.* 20 CFR Part 418, Subpart D) for acquiring prescription drugs through plans under contract to Medicare. The rules are not more stringent than these federal requirements but are based on a state statute, rather than federal regulation.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No business competitiveness analysis was received by the Department.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable

15. The full text of the rules follows:

COMMUNICABLE DISEASES AND INFESTATIONS

ARTICLE 4. AIDS DRUG ASSISTANCE PROGRAM (ADAP)

Section

ARTICLE 4. AIDS DRUG ASSISTANCE PROGRAM (ADAP)

R9-6-403. Eligibility Requirements

An individual is eligible to enroll in ADAP if the individual:

1. Has a diagnosis of HIV infection from a physician, registered nurse practitioner, or physician assistant;
2. Is a resident of Arizona, as established by documentation that complies with R9-6-404(A)(8);
3. Has an annual household income that is less than or equal to 400% of the poverty level; and
4. Satisfies one of the following:
    a. Has no health insurance coverage and has not opted out of health insurance coverage to which the individual is eligible;
    b. Has inadequate health insurance coverage, which may include Medicare or an AHCCCS health plan, limiting the ability of the individual to obtain drugs, such as health insurance coverage that:
        i. Does not cover drugs,
        ii. Does not include on its formulary at least one of the drugs prescribed for the individual, or
        iii. Requires the use of specific pharmacies or higher co-payments for obtaining a drug;
    c. Has health insurance that is unaffordable because premiums exceed 9.5% of the applicant's annual household income;
    d. Is an American Indian or Alaska Native who:
        i. Is eligible for, but chooses not to use, the Indian Health Service or a clinic operated by a sovereign tribal nation to receive drugs; and
        ii. Either has no other health insurance coverage or has other health insurance coverage that is inadequate or unaffordable, as described in subsections (4)(b) and (c); or
    e. Is an individual who has served in the United States Armed Forces and who:
        i. Is eligible for, but chooses not to use, Veterans Health Administration benefits to receive drugs; and
        ii. Either has no other health insurance coverage or has other health insurance coverage that is inadequate or unaffordable, as described in subsections (4)(b) and (c).

R9-6-404. Initial Application Process

A. An applicant for initial enrollment in ADAP or the applicant's representative shall submit to the Department the following application packet:

1. An application in a Department-provided format, completed by the applicant or the applicant's representative, containing:
    a. The applicant's name, date of birth, and gender;
    b. Except as provided in subsection (A)(1)(c), the applicant's residential address and mailing address;
    c. If the applicant is in non-permanent housing, the address of a person that has agreed to receive written communications for the applicant;
    d. If applicable, the address in Arizona to which the applicant would want drugs to be shipped;
    e. If applicable, the name of the applicant's representative and the mailing address of the applicant's representative, if different from the applicant's mailing address;
    f. Either:
        i. The telephone number of the applicant or a person that has agreed to receive telephone communications for the applicant, or
        ii. An email address for the applicant;
    g. The number of individuals in the applicant's household that can be claimed on the applicant's income taxes and the names and ages of the individuals;
    h. The names of individuals, other than the persons specified in subsection (A)(1)(s)(v), with whom the applicant authorizes the Department to speak about the applicant's enrollment in ADAP;
    i. The applicant's annual household income;
    j. The applicant's race and ethnicity;
    k. Whether the applicant or an adult in the applicant's household:
        i. Is employed;
        ii. Is self-employed;
        iii. Is receiving regular monetary payments from a source not specified in subsection (A)(1)(k)(i) or (ii) and, if so, an identification of the source of the monetary payments; or
        iv. Is using a source not specified in subsections (A)(1)(k)(i) through (iii) or savings to assist the applicant in obtaining food, water, housing, or clothing for the applicant and if so, an identification of the source;
    l. Whether the applicant is receiving health insurance coverage from AHCCCS and:

i. If so, the name of the AHCCCS health plan and the date enrolled; and

ii. If the applicant's eligibility determination for AHCCCS is pending, the date the application for AHCCCS was submitted;

m. Whether the applicant is eligible for Medicare health insurance coverage and, if not, the date on which the applicant will be eligible for Medicare health insurance coverage;

n. If the applicant is eligible for Medicare health insurance coverage, whether:

i. The applicant, or the applicant's representative has applied for a low-income subsidy for the applicant and, if so, the date of the application for the low-income subsidy; and

ii. Either:

(1) The applicant or the applicant's representative has applied for a Medicare drug plan for the applicant and, if so, the date of the application for the Medicare drug plan; or

(2) The applicant is enrolled in a Medicare drug plan;

o. Whether the applicant or the applicant's spouse has or is eligible to enroll in health insurance coverage other than AHCCCS or Medicare that would pay for drugs on the ADAP formulary;

p. If the applicant or the applicant's spouse is eligible to enroll in health insurance coverage other than Medicare that would pay for drugs on the ADAP formulary but enrollment is closed, the date the next health insurance enrollment period begins;

q. Whether the applicant is eligible to receive benefits from:

i. The Indian Health Service or a clinic operated by a sovereign tribal nation, or

ii. The Veterans Health Administration;

r. Whether the applicant is living in non-permanent housing or is in another situation in which the applicant's financial records to verify annual household income, as specified in subsection (A)(6), are not available to the applicant;

s. A statement by the applicant or the applicant's representative confirming that the applicant or the applicant's representative:

i. Understands that, if the annual household income of the applicant is at an amount that may make the applicant eligible for enrollment in AHCCCS, the applicant or the applicant's representative is required to submit to the Department documentation stating the applicant's status for enrollment in

AHCCCS before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

ii. Except as provided in R9-6-405(E), if the applicant is eligible for Medicare, understands that the applicant or the applicant's representative is required to submit to the Department proof of enrollment in a Medicare drug plan before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

iii. Except as provided in R9-6-405(E), if the applicant is eligible for Medicare and the annual household income of the applicant is less than 175% of the poverty level, understands that the applicant or the applicant's representative is required to submit to Department documentation of the applicant's status for a low-income subsidy before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

iv. Except as provided in R9-6-405(E), if the applicant or the applicant's spouse has or is eligible for health insurance coverage other than AHCCCS or Medicare, understands that the applicant or the applicant's representative is required to submit to the Department information about the health insurance coverage to enable the Department to determine if the health insurance coverage is inadequate, according to R9-6-403(4)(b), or unaffordable, according to R9-6-403(4)(c), before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

v. Grants permission to the Department to discuss the information provided to the Department under subsection (A) with:

(1) AHCCCS, for the purpose of determining AHCCCS eligibility;

(2) Medicare and the Social Security Administration, for the purpose of determining eligibility for a low-income subsidy and enrollment in a Medicare drug plan;

(3) The applicant's HIV-care provider or designee;

(4) The contract pharmacy or a pharmacy at which the applicant or the applicant's representative may request a drug through ADAP,

to assist with drug distribution;

(5) Other providers of services for persons living with HIV that are funded through Ryan White;

(6) Other providers of HIV-related services, as applicable to the applicant; and

(7) Any other entity as necessary to establish eligibility for enrollment in ADAP or assist with drug distribution to the applicant or payment of prescription co-payment costs;

vi. Understands that the applicant or the applicant's representative is required to submit to the Department proof of the applicant's annual household income as part of the application; and

vii. Understands that the applicant or the applicant's representative is required to notify the Department of changes specified in R9-6-406(A);

t. A statement by the applicant or the applicant's representative attesting that:

i. To the best of the knowledge and belief of the applicant or the applicant's representative, the information and documents provided to the Department in the application packet is accurate and complete;

ii. The applicant meets the eligibility criteria specified in R9-6-403; and

iii. The applicant or applicant's representative understands that eligibility does not guarantee that the Department will be able to provide drugs and understands that an individual's enrollment in ADAP may be terminated as specified in R9-6-408; and

u. The dated signature of the applicant or the applicant's representative;

2. The information specified in subsection (B), completed by the applicant's HIV-care provider in a Department-provided format;

3. If the annual household income of the applicant is an amount that may make the applicant eligible for enrollment in AHCCCS, a copy of documentation from AHCCCS, dated within 60 calendar days before the date of application, stating the status of the applicant's eligibility for enrollment in AHCCCS;

4. If the applicant is eligible for Medicare, a copy of valid documentation stating:

a. The applicant's enrollment in a Medicare drug plan; and

b. If the applicant's annual household income is at or below 175% of the poverty level, the status of the applicant's eligibility for a low-income subsidy;

5. If the applicant or the applicant's spouse has or is eligible for health insurance coverage other

than AHCCCS or Medicare:

a. Information about the health insurance coverage to enable the Department to determine whether the health insurance coverage is inadequate, according to R9-6-403(4)(b), or unaffordable, according to R9-6-403(4)(c); and

b. If the applicant has other health insurance coverage, documentation confirming the health insurance coverage;

6. Except as provided in subsection (C), proof of the applicant's annual household income, including the following items as applicable to the applicant's household:

a. An income tax return submitted by the applicant for the previous tax year to the U.S. Internal Revenue Service or the Arizona Department of Revenue;

b. If an income tax return in subsection (A)(6)(a) is not available, for each job held by an adult in the household:

i. Paycheck stubs from within 60 calendar days before the date of application, or

ii. A statement from the employer listing gross wages for the 30 calendar days before the date of application;

c. If an income tax return in subsection (A)(6)(a) is not available, from each self-employed adult in the household, documentation of the net income from self-employment, such as:

i. The Internal Revenue Service Forms 1099 prepared for the previous tax year for the self-employed adult in the household;

ii. A profit and loss statement for the self-employed adult's business, covering a period ending no earlier than three months before the date of application; or

iii. Bank statements from the self-employed adult's checking and savings accounts, covering a period ending no earlier than three months before the date of application; and

d. Documentation showing the amount and source of any regular monetary payments received by an adult in the household from sources other than those specified in subsection (A)(6)(a) through subsection (A)(6)(c);

7. If the applicant or the applicant's representative has stated according to subsection ~~(A)(1)(k)(v)~~ (A)(1)(k)(iv) that the applicant has no source of regular monetary payments and is unable to provide any of the documentation specified in subsection (A)(6), the following, in a Department-provided format, completed and signed within 30 calendar

days before the date of application, containing:

a. Information completed by the applicant or the applicant's representative stating whether:
    i. An adult in the applicant's household receives money from intermittent work performed by the adult in the household for which no paycheck stub is received and, if so, the average monthly earnings, and the adult's occupation;
    ii. The applicant is living in non-permanent housing;
    iii. The applicant is receiving assistance from another individual; and
    iv. The applicant has another source of assistance for obtaining food, water, housing, and clothing, and, if so, an identification of the source;
b. A statement by the applicant or the applicant's representative attesting that, to the best of the knowledge and belief of the applicant or the applicant's representative, the information submitted under subsection (A)(7)(a) is accurate and complete; and
c. The dated signature of the applicant or the applicant's representative; and

8. Proof that the applicant is a resident of Arizona that includes:
    a. One of the following that shows the Arizona residential address specified according to subsection (A)(1)(b) and the name of the applicant or an adult in the applicant's household:
        i. Documentation issued by a governmental entity related to the applicant's eligibility for benefits, dated within 60 calendar days before the date of application;
        ii. Valid documentation from the Social Security Administration or the Department of Veterans Affairs related to the applicant's eligibility for benefits;
        iii. A property tax statement for the most recent tax year issued by a governmental entity;
        iv. A homeowners' association assessment or fee statement, dated within 60 calendar days before the date of application;
        v. A valid lease agreement;
        vi. A mortgage statement for the most recent tax year;
        vii. A letter issued by an entity providing non-permanent housing to the applicant, dated within 30 calendar days before the date of application;

viii. Any document or mail dated within 60 calendar days before the date of application and received by the applicant, including a utility bill, check stub, or statement of direct deposit issued by an employer, a bank or credit union statement, a credit card statement, a mobile telephone company billing statement, a billing statement or receipt from an HIV-care provider's office, or a document from an insurance company;

ix. A non-expired Arizona driver license issued by the Arizona Department of Transportation's Motor Vehicle Division within the previous 12 months;

x. A non-expired Arizona vehicle registration issued by the Arizona Department of Transportation's Motor Vehicle Division within the previous 12 months;

xi. A non-expired Arizona identification card issued by the Arizona Department of Transportation's Motor Vehicle Division within the previous 12 months; or

xii. A tribal enrollment card or other type of tribal identification; or

b. If the applicant is unable to produce documentation that satisfies subsection (A)(8)(a), one of the following that includes the name of the applicant or an adult in the applicant's household and is dated within 30 calendar days before the date of application:

i. A written statement issued by the applicant's case manager verifying that the applicant is living in non-permanent housing and a resident of Arizona;

ii. A written statement issued by the applicant's case manager indicating that the case manager has conducted a home visit with the applicant at the Arizona residential address specified according to subsection (A)(1)(b); or

iii. A written statement issued by the applicant's HIV-care provider, verifying that the applicant is a resident of Arizona~~; and~~

~~9. If the applicant or the applicant's representative has stated according to subsection (A)(7) that the applicant receives assistance from another individual, a letter from the individual to support the statement of the applicant or the applicant's representative~~.

B. The HIV-care provider of an applicant for initial enrollment in ADAP shall provide:

1. The following information for the applicant in a Department-provided format:
   a. The applicant's name;
   b. The HIV-care provider's name, business address, telephone number, email address,

fax number, and professional license number;

c. A statement that the applicant has been diagnosed with HIV infection;

d. A list of each drug prescribed for the applicant by the HIV-care provider;

e. A statement by the HIV-care provider attesting that, to the best of the HIV-care provider's knowledge and belief, the information provided to the Department as specified in subsection (B) is accurate and complete; and

f. The dated signature of the HIV-care provider;

2. Documentation confirming HIV-infection of the applicant; and

3. A copy of the most recent laboratory report of a test for viral load and, if available, CD4-T-lymphocyte count conducted for the applicant.

C. If an applicant or the applicant's representative stated in subsection (A)(1)(r) that the applicant is in a situation in which the applicant's financial records to verify annual household income, as required in subsection (A)(6), are not available to the applicant, the applicant or the applicant's representative may submit to the Department a statement describing the applicant's situation and provide whatever documentation the applicant has available to demonstrate the applicant's annual household income.

TITLE 9. HEALTH SERVICES

CHAPTER 6. DEPARTMENT OF HEALTH SERVICES - COMMUNICABLE DISEASES AND INFESTATIONS

ARTICLE 4. AIDS DRUG ASSISTANCE PROGRAM (ADAP)

Section

ARTICLE 4. AIDS DRUG ASSISTANCE PROGRAM (ADAP)

R9-6-401. Definitions

In this Article, unless otherwise specified:

1. "ADAP" means the AIDS Drug Assistance Program.
2. "Adult" means an individual who is:
   a. Eighteen or more years old;
   b. Married; or
   c. Emancipated, as specified in A.R.S. Title 12, Chapter 15.
3. "AHCCCS" means the Arizona Health Care Cost Containment System.
4. "Annual household income" means the adjusted gross income of all adult individuals within a household, as would be reported on the federal income tax return for an individual in the household, modified to include:
   a. Federal taxable wages,
   b. Tips,
   c. Unemployment compensation,
   d. Social security income,
   e. Self-employment income,
   f. Social security disability income,
   g. Retirement or pension income,
   h. Capital gains,
   i. Investment income,
   j. Rental and royalty income,
   k. Excluded (untaxed) foreign income, and
   l. Alimony.
5. "Applicant" means an individual for whom a request for initial enrollment in ADAP is submitted to the Department, as specified in R9-6-404.
6. "Applying for a low-income subsidy" means submitting forms and supporting documentation to the Social Security Administration for determining eligibility for receiving a low-income subsidy.
7. "Calendar day" means any day of the week, including a Saturday, Sunday, or legal holiday.
8. "Case manager" means an individual who:
   a. Assesses the needs of a person living with HIV for:
      i. Medical services, nursing services, or health-related services, as defined in A.R.S. § 36-401;
      ii. Services not related to the treatment of HIV infection, intended to maintain or improve

the physical, mental, or psychosocial capabilities of a person living with HIV or an individual in the person living with HIV's household;

iii. Housing; or

iv. Financial assistance;

b. If applicable, assists the person living with HIV with obtaining housing, financial assistance, or the services specified in subsection (8)(a)(i) and (ii);

c. Coordinates the interaction of the person living with HIV with individuals providing the services specified in subsection (8)(a)(i) and (ii); and

d. Monitors the interaction of the person living with HIV with individuals providing the services specified in subsection (8)(a)(i) and (ii) to:

i. Determine the effects of the activities of individuals providing the services specified in subsection (8)(a)(i) and (ii) on the needs of the person living with HIV, and

ii. Develop strategies to reduce unmet needs.

9. "CD4-T-lymphocyte count" means the number of a specific type of white blood cell in a cubic millimeter of blood.

10. "Contract pharmacy" means an entity that has a legally binding agreement with the Department to dispense drugs through ADAP to enrolled individuals.

11. "Current" means within the six months before the date on which an:

a. Individual submits the documents specified in R9-6-404 to the Department as an application for initial enrollment in ADAP, or

b. Enrolled individual submits to the Department the documents required in R9-6-407 for continuing enrollment.

12. "Date of application" means the month, day, and year that the Department receives the documents specified in R9-6-404 for enrollment in ADAP.

13. "Drug" means a chemical substance or a compound made by or derived from a plant or animal source that:

a. Has been determined by the U.S. Food and Drug Administration to be useful in the treatment of individuals with HIV infection, and

b. Is available through a prescription order.

14. "Formulary" means a list of drugs that are available to an individual through the individual's health insurance or ADAP.

15. "Health insurance enrollment period" means an interval of time during which an individual may apply for health insurance coverage, including:

a. An annual interval of time, and

b. Any additional intervals of time due to a change in the individual's situation or circumstances.

16. "HIV infection" means the same as in A.R.S. § 36-661.
17. "HIV-care provider" means the physician, registered nurse practitioner, or physician assistant who is treating an applicant or enrolled individual for HIV infection.
18. "Household" means an applicant or enrolled individual and any of the following individuals, as applicable, residing with the applicant or enrolled individual:
    a. The applicant's or enrolled individual's spouse;
    b. A dependent parent;
    c. A parent of a child who is:
        i. The applicant or enrolled individual, and
        ii. Claimed as a dependent by the parent;
    d. A dependent sibling or other relative;
    e. A dependent child of the applicant or enrolled individual, regardless of age and including an adopted child or a foster child;
    f. A non-dependent child or other relative if claimed or could be claimed as a dependent on the applicant's or enrolled individual's taxes; and
    g. A child who is a part of a shared custody agreement of the applicant or enrolled individual, in years for which the child is claimed or could be claimed as a dependent on the applicant's or enrolled individual's taxes.
19. "Job" means a position in which an individual is employed.
20. "Low-income subsidy" means Medicare-provided assistance that may partially or fully cover the costs of drugs and is based on the annual household income for an individual.
21. "Medicare" means a federal health insurance program established under Title XVIII of the Social Security Act.
22. "Medicare drug plan" means insurance approved by Medicare to cover some of the costs of drugs for individuals enrolled in Medicare.
23. "Non-permanent housing" means a situation in which an individual is:
    a. Living in a place that is not designed to be a sleeping place for human beings or ordinarily used as a primary nighttime sleeping place for human beings, or
    b. Living in a shelter or other temporary living arrangement.
24. "Person living with HIV" means an individual who is HIV-infected.
25. "Physician" means an individual licensed as a:
    a. Doctor of allopathic medicine under A.R.S. Title 32, Chapter 13, or through a similar

licensing board in another state; or

b. Doctor of osteopathic medicine under A.R.S. Title 32, Chapter 17, or through a similar licensing board in another state.

26. "Physician assistant" means an individual licensed under A.R.S. Title 32, Chapter 25, or through a similar licensing board in another state.
27. "Poverty level" means the annual household income for a household of a particular size, as specified in the poverty guidelines updated annually in the Federal Register by the U.S. Department of Health and Human Services.
28. "Pre-approved enrollment status" means that an applicant may receive drugs or other services through ADAP on a temporary basis.
29. "Prescription order" means the same as in A.R.S. § 32-1901.
30. "Registered nurse practitioner" means an individual who meets the definition of registered nurse practitioner in A.R.S. § 32-1601 and is licensed under A.R.S. Title 32, Chapter 15, or through a similar licensing board in another state.
31. "Regular" means recurring at fixed intervals.
32. "Representative" means the:
    a. Guardian of an individual;
    b. Parent of an individual who is not an adult; or
    c. Person designated as an agent for an individual through a power of attorney, as specified in A.R.S. Title 14, Chapter 5, Article 5.
33. "Resident" means an individual who has a place of habitation in Arizona and is living in Arizona.
34. "Self-employed" means receiving money as a direct result of the work performed by an individual rather than from wages or a salary paid to the individual.
35. "Valid" means still in effect or having legal force.
36. "Viral load" means the amount of HIV circulating in the body of an individual.

R9-6-402. Limitations and Termination of Program

ADAP ceases to provide drugs when available funding is exhausted or terminated. ADAP is not an entitlement program and does not create a right to assistance absent available funding.

R9-6-403. Eligibility Requirements

An individual is eligible to enroll in ADAP if the individual:

1. Has a diagnosis of HIV infection from a physician, registered nurse practitioner, or physician assistant;

2. Is a resident of Arizona, as established by documentation that complies with R9-6-404(A)(8);
3. Has an annual household income that is less than or equal to 400% of the poverty level; and
4. Satisfies one of the following:
    a. Has no health insurance coverage;
    b. Has inadequate health insurance coverage, which may include Medicare or an AHCCCS health plan, limiting the ability of the individual to obtain drugs, such as health insurance coverage that:
        i. Does not cover drugs,
        ii. Does not include on its formulary at least one of the drugs prescribed for the individual, or
        iii. Requires the use of specific pharmacies or higher co-payments for obtaining a drug;
    c. Has health insurance that is unaffordable because premiums exceed 9.5% of the applicant's annual household income;
    d. Is an American Indian or Alaska Native who:
        i. Is eligible for, but chooses not to use, the Indian Health Service or a clinic operated by a sovereign tribal nation to receive drugs; and
        ii. Either has no other health insurance coverage or has other health insurance coverage that is inadequate or unaffordable, as described in subsections (4)(b) and (c); or
    e. Is an individual who has served in the United States Armed Forces and who:
        i. Is eligible for, but chooses not to use, Veterans Health Administration benefits to receive drugs; and
        ii. Either has no other health insurance coverage or has other health insurance coverage that is inadequate or unaffordable, as described in subsections (4)(b) and (c).

R9-6-404. Initial Application Process

A. An applicant for initial enrollment in ADAP or the applicant's representative shall submit to the Department the following application packet:

1. An application in a Department-provided format, completed by the applicant or the applicant's representative, containing:
    a. The applicant's name, date of birth, and gender;
    b. Except as provided in subsection (A)(1)(c), the applicant's residential address and mailing address;
    c. If the applicant is in non-permanent housing, the address of a person that has agreed to receive written communications for the applicant;

d. If applicable, the address in Arizona to which the applicant would want drugs to be shipped;
e. If applicable, the name of the applicant's representative and the mailing address of the applicant's representative, if different from the applicant's mailing address;
f. Either:
    i. The telephone number of the applicant or a person that has agreed to receive telephone communications for the applicant, or
    ii. An email address for the applicant;
g. The number of individuals in the applicant's household that can be claimed on the applicant's income taxes and the names and ages of the individuals;
h. The names of individuals, other than the persons specified in subsection (A)(1)(s)(v), with whom the applicant authorizes the Department to speak about the applicant's enrollment in ADAP;
i. The applicant's annual household income;
j. The applicant's race and ethnicity;
k. Whether the applicant or an adult in the applicant's household:
    i. Is employed;
    ii. Is self-employed;
    iii. Is receiving regular monetary payments from a source not specified in subsection (A)(1)(k)(i) or (ii) and, if so, an identification of the source of the monetary payments; or
    iv. Is using a source not specified in subsections (A)(1)(k)(i) through (iii) or savings to assist the applicant in obtaining food, water, housing, or clothing for the applicant and if so, an identification of the source;
l. Whether the applicant is receiving health insurance coverage from AHCCCS and:
    i. If so, the name of the AHCCCS health plan and the date enrolled; and
    ii. If the applicant's eligibility determination for AHCCCS is pending, the date the application for AHCCCS was submitted;
m. Whether the applicant is eligible for Medicare health insurance coverage and, if not, the date on which the applicant will be eligible for Medicare health insurance coverage;
n. If the applicant is eligible for Medicare health insurance coverage, whether:
    i. The applicant, or the applicant's representative has applied for a low-income subsidy for the applicant and, if so, the date of the application for the low-income subsidy; and
    ii. Either:
        (1) The applicant or the applicant's representative has applied for a Medicare drug plan for the applicant and, if so, the date of the application for the Medicare drug plan; or

(2) The applicant is enrolled in a Medicare drug plan;

o. Whether the applicant or the applicant's spouse has or is eligible to enroll in health insurance coverage other than AHCCCS or Medicare that would pay for drugs on the ADAP formulary;

p. If the applicant or the applicant's spouse is eligible to enroll in health insurance coverage other than Medicare that would pay for drugs on the ADAP formulary but enrollment is closed, the date the next health insurance enrollment period begins;

q. Whether the applicant is eligible to receive benefits from:

i. The Indian Health Service or a clinic operated by a sovereign tribal nation, or

ii. The Veterans Health Administration;

r. Whether the applicant is living in non-permanent housing or is in another situation in which the applicant's financial records to verify annual household income, as specified in subsection (A)(6), are not available to the applicant;

s. A statement by the applicant or the applicant's representative confirming that the applicant or the applicant's representative:

i. Understands that, if the annual household income of the applicant is at an amount that may make the applicant eligible for enrollment in AHCCCS, the applicant or the applicant's representative is required to submit to the Department documentation stating the applicant's status for enrollment in AHCCCS before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

ii. Except as provided in R9-6-405(E), if the applicant is eligible for Medicare, understands that the applicant or the applicant's representative is required to submit to the Department proof of enrollment in a Medicare drug plan before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

iii. Except as provided in R9-6-405(E), if the applicant is eligible for Medicare and the annual household income of the applicant is less than 175% of the poverty level, understands that the applicant or the applicant's representative is required to submit to Department documentation of the applicant's status for a low-income subsidy before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

iv. Except as provided in R9-6-405(E), if the applicant or the applicant's spouse has or is eligible for health insurance coverage other than AHCCCS or Medicare, understands that the applicant or the applicant's representative is required to submit to the Department

information about the health insurance coverage to enable the Department to determine if the health insurance coverage is inadequate, according to R9-6-403(4)(b), or unaffordable, according to R9-6-403(4)(c), before the end of the month after the month in which the applicant applied for ADAP, if not provided to the Department with the application;

v. Grants permission to the Department to discuss the information provided to the Department under subsection (A) with:
   (1) AHCCCS, for the purpose of determining AHCCCS eligibility;
   (2) Medicare and the Social Security Administration, for the purpose of determining eligibility for a low-income subsidy and enrollment in a Medicare drug plan;
   (3) The applicant's HIV-care provider or designee;
   (4) The contract pharmacy or a pharmacy at which the applicant or the applicant's representative may request a drug through ADAP, to assist with drug distribution;
   (5) Other providers of services for persons living with HIV that are funded through Ryan White;
   (6) Other providers of HIV-related services, as applicable to the applicant; and
   (7) Any other entity as necessary to establish eligibility for enrollment in ADAP or assist with drug distribution to the applicant or payment of prescription co-payment costs;

vi. Understands that the applicant or the applicant's representative is required to submit to the Department proof of the applicant's annual household income as part of the application; and

vii. Understands that the applicant or the applicant's representative is required to notify the Department of changes specified in R9-6-406(A);

t. A statement by the applicant or the applicant's representative attesting that:
   i. To the best of the knowledge and belief of the applicant or the applicant's representative, the information and documents provided to the Department in the application packet is accurate and complete;
   ii. The applicant meets the eligibility criteria specified in R9-6-403; and
   iii. The applicant or applicant's representative understands that eligibility does not guarantee that the Department will be able to provide drugs and understands that an individual's enrollment in ADAP may be terminated as specified in R9-6-408; and

u. The dated signature of the applicant or the applicant's representative;

2. The information specified in subsection (B), completed by the applicant's HIV-care provider in a Department-provided format;

3. If the annual household income of the applicant is an amount that may make the applicant eligible for enrollment in AHCCCS, a copy of documentation from AHCCCS, dated within 60 calendar days before the date of application, stating the status of the applicant's eligibility for enrollment in AHCCCS;
4. If the applicant is eligible for Medicare, a copy of valid documentation stating:
    a. The applicant's enrollment in a Medicare drug plan; and
    b. If the applicant's annual household income is at or below 175% of the poverty level, the status of the applicant's eligibility for a low-income subsidy;
5. If the applicant or the applicant's spouse has or is eligible for health insurance coverage other than AHCCCS or Medicare:
    a. Information about the health insurance coverage to enable the Department to determine whether the health insurance coverage is inadequate, according to R9-6-403(4)(b), or unaffordable, according to R9-6-403(4)(c); and
    b. If the applicant has other health insurance coverage, documentation confirming the health insurance coverage;
6. Except as provided in subsection (C), proof of the applicant's annual household income, including the following items as applicable to the applicant's household:
    a. An income tax return submitted by the applicant for the previous tax year to the U.S. Internal Revenue Service or the Arizona Department of Revenue;
    b. If an income tax return in subsection (A)(6)(a) is not available, for each job held by an adult in the household:
        i. Paycheck stubs from within 60 calendar days before the date of application, or
        ii. A statement from the employer listing gross wages for the 30 calendar days before the date of application;
    c. If an income tax return in subsection (A)(6)(a) is not available, from each self-employed adult in the household, documentation of the net income from self-employment, such as:
        i. The Internal Revenue Service Forms 1099 prepared for the previous tax year for the self-employed adult in the household;
        ii. A profit and loss statement for the self-employed adult's business, covering a period ending no earlier than three months before the date of application; or
        iii. Bank statements from the self-employed adult's checking and savings accounts, covering a period ending no earlier than three months before the date of application; and
    d. Documentation showing the amount and source of any regular monetary payments received by an adult in the household from sources other than those specified in subsection (A)(6)(a)

through subsection (A)(6)(c);

7. If the applicant or the applicant's representative has stated according to subsection (A)(1)(k)(v) that the applicant has no source of regular monetary payments and is unable to provide any of the documentation specified in subsection (A)(6), the following, in a Department-provided format, completed and signed within 30 calendar days before the date of application, containing:
    a. Information completed by the applicant or the applicant's representative stating whether:
        i. An adult in the applicant's household receives money from intermittent work performed by the adult in the household for which no paycheck stub is received and, if so, the average monthly earnings, and the adult's occupation;
        ii. The applicant is living in non-permanent housing;
        iii. The applicant is receiving assistance from another individual; and
        iv. The applicant has another source of assistance for obtaining food, water, housing, and clothing, and, if so, an identification of the source;
    b. A statement by the applicant or the applicant's representative attesting that, to the best of the knowledge and belief of the applicant or the applicant's representative, the information submitted under subsection (A)(7)(a) is accurate and complete; and
    c. The dated signature of the applicant or the applicant's representative;
8. Proof that the applicant is a resident of Arizona that includes:
    a. One of the following that shows the Arizona residential address specified according to subsection (A)(1)(b) and the name of the applicant or an adult in the applicant's household:
        i. Documentation issued by a governmental entity related to the applicant's eligibility for benefits, dated within 60 calendar days before the date of application;
        ii. Valid documentation from the Social Security Administration or the Department of Veterans Affairs related to the applicant's eligibility for benefits;
        iii. A property tax statement for the most recent tax year issued by a governmental entity;
        iv. A homeowners' association assessment or fee statement, dated within 60 calendar days before the date of application;
        v. A valid lease agreement;
        vi. A mortgage statement for the most recent tax year;
        vii. A letter issued by an entity providing non-permanent housing to the applicant, dated within 30 calendar days before the date of application;
        viii. Any document or mail dated within 60 calendar days before the date of application and received by the applicant, including a utility bill, check stub, or statement of direct deposit issued by an employer, a bank or credit union statement, a credit card statement, a

mobile telephone company billing statement, a billing statement or receipt from an HIV-care provider's office, or a document from an insurance company;

ix. A non-expired Arizona driver license issued by the Arizona Department of Transportation's Motor Vehicle Division within the previous 12 months;

x. A non-expired Arizona vehicle registration issued by the Arizona Department of Transportation's Motor Vehicle Division within the previous 12 months;

xi. A non-expired Arizona identification card issued by the Arizona Department of Transportation's Motor Vehicle Division within the previous 12 months; or

xii. A tribal enrollment card or other type of tribal identification; or

b. If the applicant is unable to produce documentation that satisfies subsection (A)(8)(a), one of the following that includes the name of the applicant or an adult in the applicant's household and is dated within 30 calendar days before the date of application:

i. A written statement issued by the applicant's case manager verifying that the applicant is living in non-permanent housing and a resident of Arizona;

ii. A written statement issued by the applicant's case manager indicating that the case manager has conducted a home visit with the applicant at the Arizona residential address specified according to subsection (A)(1)(b); or

iii. A written statement issued by the applicant's HIV-care provider, verifying that the applicant is a resident of Arizona; and

9. If the applicant or the applicant's representative has stated according to subsection (A)(7) that the applicant receives assistance from another individual, a letter from the individual to support the statement of the applicant or the applicant's representative.

B. The HIV-care provider of an applicant for initial enrollment in ADAP shall provide:

1. The following information for the applicant in a Department-provided format:
   a. The applicant's name;
   b. The HIV-care provider's name, business address, telephone number, email address, fax number, and professional license number;
   c. A statement that the applicant has been diagnosed with HIV infection;
   d. A list of each drug prescribed for the applicant by the HIV-care provider;
   e. A statement by the HIV-care provider attesting that, to the best of the HIV-care provider's knowledge and belief, the information provided to the Department as specified in subsection (B) is accurate and complete; and
   f. The dated signature of the HIV-care provider;
2. Documentation confirming HIV-infection of the applicant; and

3. A copy of the most recent laboratory report of a test for viral load and, if available, CD4-T-lymphocyte count conducted for the applicant.

C. If an applicant or the applicant's representative stated in subsection (A)(1)(r) that the applicant is in a situation in which the applicant's financial records to verify annual household income, as required in subsection (A)(6), are not available to the applicant, the applicant or the applicant's representative may submit to the Department a statement describing the applicant's situation and provide whatever documentation the applicant has available to demonstrate the applicant's annual household income.

R9-6-405. Enrollment Process; Pre-approved Enrollment Status

A. The Department shall:

1. Review the documents submitted by an applicant as required in R9-6-404(A);
2. Determine whether the applicant is eligible under R9-6-403;
3. Grant or deny enrollment based on applicant eligibility, the date of application, and the availability of funds; and
4. Notify the applicant or the applicant's representative of the Department's decision within five working days after receiving the documents specified in R9-6-404(A).

B. An applicant or the applicant's representative shall execute any consent forms or releases of information necessary for the Department to verify eligibility.

C. The Department shall send an applicant or the applicant's representative a written notice of denial, setting forth the information required under A.R.S. § 41-1092.03, if:

1. The applicant does not qualify for enrollment in ADAP, based on the documentation provided to establish eligibility;
2. The documentation submitted to the Department under R9-6-404 is found to contain false information; or
3. The Department does not have funds available to enroll the applicant in ADAP.

D. The Department shall grant pre-approved enrollment status in ADAP to an applicant, lasting until the end of the month after the month in which an applicant applied for ADAP, if:

1. The Department determines that the applicant meets the requirement in R9-6-403(1);
2. The applicant, whose annual household income is an amount that may make the applicant eligible for enrollment in AHCCCS, or the applicant's representative attests in writing that the applicant has applied for AHCCCS enrollment but is unable to provide documentation that states the status of the applicant's enrollment in AHCCCS;
3. Except as provided in subsection (E), the applicant, who is eligible for Medicare or other health insurance coverage, or the applicant's representative attests in writing that the applicant has

applied for, but is unable to provide documentation of, enrollment in Medicare and a Medicare drug plan or in other health insurance coverage, as applicable; and

4. The applicant or the applicant's representative attests in writing that the applicant or the applicant's representative will provide, before the end of the period during which the applicant has pre-approved enrollment status, a missing component of:
   a. Proof of the applicant's annual household income, according to R9-6-404(A)(6) or (7); or
   b. Proof of residency, according to R9-6-404(A)(8).

E. The Department shall grant pre-approved enrollment status in ADAP, lasting until the end of the month after the month in which an applicant may apply for Medicare or other health insurance, if the applicant or the applicant's representative provides documentation that the applicant would be eligible for Medicare or other health insurance coverage during the next health insurance enrollment period, but that enrollment was closed on the date of application for ADAP.

F. The Department shall provide an applicant to whom the Department has granted pre-approved enrollment status in ADAP with the drugs on the ADAP formulary during the period during which the applicant has pre-approved enrollment status.

G. Except as specified in subsection (I), to continue ADAP enrollment beyond the period in subsection (D) or (E) during which the applicant has pre-approved enrollment status, an applicant or the applicant's representative shall provide to the Department, before the end of the period, documentation that establishes eligibility according to R9-6-403.

H. Except as specified in subsection (I), if an applicant with pre-approved enrollment status or the applicant's representative fails to provide documentation as required in subsection (G) to the Department before the end of the period during which the applicant has pre-approved enrollment status, the Department shall send the applicant or the applicant's representative a written notice of denial, setting forth the information required under A.R.S. § 41-1092.03.

I. The Department may grant an extension of pre-approved enrollment status to an applicant beyond the period in subsection (D) or (E) if the applicant or the applicant's representative provides a justification for needing more time to obtain the required documentation to verify eligibility because of missing:

1. Documentation of health insurance coverage;
2. Financial records to verify annual household income, specified in R9-6-404(A)(6);
3. Proof of residency, specified in R9-6-404(A)(8); or
4. Viral load test results on the laboratory report required in R9-6-404(B)(2).

J. Based on the information provided by an applicant about the applicant's health insurance coverage and except as provided in R9-6-409(F), the Department shall:

1. For an applicant with no health insurance coverage, provide a drug on the ADAP formulary through the contract pharmacy;
2. For an applicant with health insurance coverage that is inadequate, according to R9-6-403(4)(b), provide a drug on the ADAP formulary that is not covered by the applicant's health insurance, as documented according to R9-6-409(E), through the contract pharmacy; or
3. For an applicant with health insurance coverage that is unaffordable, according to R9-6-403(4)(c), provide a drug on the ADAP formulary with no copayment cost to the applicant when requesting the filling of a prescription for the drug or obtaining a refill of the drug through ADAP.

R9-6-406. Notification Requirements

A. An enrolled individual or the enrolled individual's representative shall notify the Department in writing or by telephone and comply with the applicable requirements specified in R9-6-407 within 30 calendar days after any of the following occurs:
1. The residential or mailing address or the telephone number of the enrolled individual changes from that provided to the Department under R9-6-404(A)(1) or R9-6-407;
2. The enrolled individual adds or removes an individual with whom the Department may speak about the enrolled individual's ADAP enrollment from the list specified in R9-6-404(A)(1)(h);
3. The enrolled individual has:
   a. Lost health insurance coverage;
   b. Been determined eligible for and enrolled to receive drug coverage through AHCCCS;
   c. Been determined eligible for or obtained health insurance coverage, other than through AHCCCS, the Indian Health Service, the Veterans Health Administration, or the health insurance coverage previously used by the enrolled individual; or
   d. Been determined eligible for a low-income subsidy;
4. The enrolled individual's annual household income has changed; or
5. The enrolled individual establishes residency outside Arizona.

B. Within 30 calendar days after an enrolled individual loses health insurance coverage, the enrolled individual shall provide to the Department documentation stating the loss of health insurance coverage.

C. An enrolled individual's case manager shall notify the Department in writing or by telephone within 30 calendar days after the case manager learns that:
1. The residential or mailing address or the telephone number of the enrolled individual has changed from that provided to the Department under R9-6-404(A)(1) or R9-6-407;
2. The enrolled individual:

a. Has been determined eligible for and enrolled to receive drug coverage through AHCCCS;
b. Obtained health insurance coverage other than AHCCCS, the Indian Health Service, or the Veterans Health Administration; or
c. Has been determined eligible for a low-income subsidy;

3. The enrolled individual's annual household income has changed;
4. The enrolled individual has established residency outside Arizona; or
5. The enrolled individual has died.

R9-6-407. Continuing Enrollment

A. To continue enrollment in ADAP, an enrolled individual or the enrolled individual's representative shall:

1. When the enrolled individual's residential address changes, comply with subsection (B);
2. When the enrolled individual's annual household income changes, comply with subsection (C);
3. When the enrolled individual becomes eligible for Medicare or other health insurance coverage, comply with subsection (D);
4. Before the end of the month that is six months after the enrolled individual's month of birth, comply with subsection (E); and
5. Before the end of the enrolled individual's month of birth each year after an individual's initial enrollment, comply with subsection (F).

B. When an enrolled individual's residential address changes, the enrolled individual or the enrolled individual's representative shall submit to the Department:

1. The following information for the enrolled individual in a Department-provided format:
   a. The enrolled individual's name and date of birth;
   b. The new residential address and mailing address for the enrolled individual;
   c. If the enrolled individual is in non-permanent housing, the address of a person that has agreed to receive written communications for the enrolled individual; and
   d. If applicable, the address in Arizona to which the enrolled individual would want drugs to be shipped; and
2. Proof of Arizona residency, as specified in R9-6-404(A)(8), showing the new Arizona residential address specified in subsection (B)(1)(b).

C. When an enrolled individual's annual household income changes, the enrolled individual or the enrolled individual's representative shall:

1. Submit to the Department, within 30 calendar days after the change, documentation of the enrolled individual's annual household income, as specified in R9-6-404(A)(6) or (7); and

2. If the enrolled individual's annual household income has decreased to an amount that may make the individual eligible for enrollment in AHCCCS:
    a. Apply for enrollment in AHCCCS within 30 calendar days after the change in annual household income; and
    b. Submit to the Department, within 30 calendar days after the change, documentation that states the status of the enrolled individual's enrollment in AHCCCS.

D. When an enrolled individual becomes eligible for Medicare or other health insurance coverage, the enrolled individual or the enrolled individual's representative shall, within 30 calendar days after the enrolled individual becomes eligible for Medicare or other health insurance coverage:

1. If eligible for Medicare:
    a. Enroll in a Medicare drug plan; and
    b. If the enrolled individual's annual household income is at or below 175% of the poverty level, apply for a low-income subsidy; and
    c. Submit to the Department a copy of valid documentation stating:
        i. The enrolled individual's enrollment in a Medicare drug plan; and
        ii. If the enrolled individual's annual household income is at or below 175% of the poverty level, the status of the enrolled individual's eligibility for a low-income subsidy; and
2. If eligible for other health insurance coverage, submit to the Department information about the health insurance coverage to enable the Department to determine if the health insurance coverage is inadequate, according to R9-6-403(4)(b), or unaffordable, according to R9-6-403(4)(c).

E. Before the end of the month that is six months after the enrolled individual's month of birth, the enrolled individual or the enrolled individual's representative shall:

1. Either:
    a. Submit to the Department an attestation, in a Department-provided format, that there have been no changes specified in subsection (A)(1), (2), or (3); or
    b. Comply with subsections (B), (C), and (D), as applicable; and
2. Obtain from the enrolled individual's HIV-care provider and submit to the Department a copy of the most recent laboratory report of a test for viral load, and, if available, CD4-T-lymphocyte count conducted for the applicant.

F. Before the end of an enrolled individual's month of birth each year, an enrolled individual or the enrolled individual's representative shall submit to the Department the application packet required in R9-6-404(A).

G. The Department shall:

1. Review information about an enrolled individual and determine eligibility for continuing

enrollment for the enrolled individual:

a. At the end of the enrolled individual's month of birth each year,
b. At the end of the month that is six months after the enrolled individual's month of birth each year,
c. When the Department receives information from the enrolled individual or the enrolled individual's representative under subsection (A), or
d. When the Department no longer has sufficient funds to provide continuing enrollment to all enrolled individuals;

2. Grant continuing enrollment to an enrolled individual, subject to the availability of funds, when:
   a. The enrolled individual or the enrolled individual's representative complies with subsection (A); and
   b. The Department determines that:
      i. The information in the documents submitted to the Department is accurate and complete, and
      ii. The enrolled individual is eligible under R9-6-403; and
3. Notify the enrolled individual or the enrolled individual's representative of the Department's decision within five working days after receipt of the documents required in subsection (A).

H. The Department may grant pre-approved enrollment status in ADAP, according to R9-6-405(D) or (E) and ending according to R9-6-405(G), to an enrolled individual who is missing documentation to establish eligibility under R9-6-403.

I. If the Department denies continuing enrollment to an enrolled individual, the Department shall send to the enrolled individual or the enrolled individual's representative a written notice of denial setting forth the information required under A.R.S. § 41-1092.03.

R9-6-408. Termination from ADAP Services

A. The Department may terminate an enrolled individual's enrollment in ADAP if:

1. The Department learns that information submitted to the Department by the enrolled individual or the enrolled individual's representative under R9-6-404(A) or (C), R9-6-407(A), or R9-6-409(E) or (F) is inaccurate or incomplete;
2. The enrolled individual or the enrolled individual's representative does not request a refill of any drug through ADAP for a period of 90 calendar days; or
3. The enrolled individual or the enrolled individual's representative exhibits violent or threatening behavior to an employee of the Department, the contract pharmacy, or a pharmacy in which the enrolled individual or the enrolled individual's representative is filling a prescription for a drug or

requesting a refill of a drug through ADAP, as established by documentation such as a police report or a written document from the individual.

B. The Department may terminate approval of a drug approved under R9-6-409(E) or (F) for an enrolled individual if funding is no longer available to pay for the drug approved under R9-6-409(E) or (F).

C. The Department shall send to an enrolled individual or the enrolled individual's representative a written notice of termination setting forth the information required under A.R.S. § 41-1092.03 if the Department terminates:

1. The enrolled individual's enrollment in ADAP, or
2. Approval of a drug approved under R9-6-409(E) or (F) for the enrolled individual.

R9-6-409. Drug Prescription and Distribution Requirements

A. A HIV-care provider shall:

1. Issue a prescription order:
   a. For each drug on the ADAP formulary prescribed for an applicant or enrolled individual by the HIV-care provider; and
   b. For dispensing up to a 30-day supply of the drug; and
2. Provide a written prescription order to the applicant or enrolled individual or an electronic prescription order to the contract pharmacy or a pharmacy at which the applicant or enrolled individual may request a drug through ADAP.

B. The Department shall:

1. Except as specified in subsection (D), provide up to a 30-day supply of a drug to an enrolled individual; and
2. Ensure that a drug to be shipped to an enrolled individual is sent to the address in Arizona provided by the enrolled individual according to R9-6-404(A)(1)(d) or R9-6-407(B)(1)(d).

C. The Department may authorize replacement of a drug when:

1. The drug has been dispensed by the contract pharmacy or a pharmacy in which the enrolled individual or the enrolled individual's representative requested a refill of the drug through ADAP; and
2. The enrolled individual or the enrolled individual's representative claims the dispensed drug was lost, stolen, or damaged.

D. The Department may authorize an enrolled individual to receive more than a 30-day supply of a drug if the enrolled individual:

1. Submits to the Department:
   a. The enrolled individual's name and date of birth;

b. The number of days for which the enrolled individual is requesting a supply of the drug; and
c. A justification for receiving more than a 30-day supply of a drug, such as that:
i. The enrolled individual will be out of Arizona for more than 30 days without changing residency, or
ii. The enrolled individual's health insurance coverage will allow for more than a 30-day supply of a drug; and

2. Is expected to continue to be enrolled in ADAP:
a. Past the number of days for which the enrolled individual is requesting a supply of the drug, and
b. Without needing to submit information or documentation for continuing enrollment, according to R9-6-407(E) or (F), during the time period.

E. For an enrolled individual who has health insurance coverage, the HIV-care provider of the enrolled individual, independently or through the contract pharmacy, may request approval of a drug on the ADAP formulary that is not covered by the enrolled individual's health insurance by submitting to the Department documentation that:
1. The drug is not covered by the enrolled individual's health insurance,
2. A request for health insurance coverage of the drug as a medical exception has been denied by the enrolled individual's health insurance, and
3. An appeal of the denial of the request in subsection (E)(2) has been denied by the enrolled individual's health insurance.

F. The HIV-care provider of an enrolled individual, independently or through the contract pharmacy, may request approval of a drug that is not covered by health insurance and not on the ADAP formulary for the enrolled individual by:
1. Providing to the Department the following information, in a Department-provided format, for each requested drug:
a. The name, business address, email address, and telephone number of the HIV-care provider;
b. The date of the request;
c. The enrolled individual's name and date of birth;
d. The name and any other identifier of the drug;
e. The cost of the drug, if available;
f. The expected duration of the enrolled individual's use of the drug, including whether:
i. Use of the drug is expected to be a one-time occurrence, or
ii. The enrolled individual is expected to need multiple refills of the drug and the expected number of refills;

g. A justification for use of the drug that is not on the ADAP formulary by the enrolled individual;
h. Whether the Department should consider adding the drug to the ADAP formulary and the reasons for the recommendation; and
i. The dated signature of the HIV-care provider;

2. Issuing a valid prescription order for the drug that is not on the ADAP formulary to the contract pharmacy; and
3. Unless the enrolled individual has no health insurance coverage, submitting to the Department the documentation required in subsections (E)(1) through (3).

G. When the Department receives a request under subsection (E) or (F) for an enrolled individual, the Department shall:

1. Review the documents submitted according to subsection (E) or (F), as applicable;
2. Determine whether the information submitted to the Department:
   a. Is complete; and
   b. Substantiates that the enrolled individual's use of the drug is indicated; and
3. Notify, through the contract pharmacy, the following of the Department's decision within five working days after receiving the request:
   a. The enrolled individual or the enrolled individual's representative, and
   b. The enrolled individual's HIV-care provider.

H. If the Department denies a request under subsection (E) or (F) for an enrolled individual, the Department shall send to the enrolled individual or the enrolled individual's representative a written notice of denial setting forth the information required under A.R.S. § 41-1092.03.

I. The Department shall only authorize the distribution of drugs that are included on the ADAP formulary or approved for an enrolled individual according to subsection (F).

R9-6-410. Confidentiality

In administering ADAP, the Department shall comply with all applicable federal and state laws relating to confidentiality of information.

Statutory Authority for Rules in 9 A.A.C. 6, Article 4

36-132. Department of health services; functions; contracts

A. The department, in addition to other powers and duties vested in it by law, shall:

1. Protect the health of the people of the state.

2. Promote the development, maintenance, efficiency and effectiveness of local health departments or districts of sufficient population and area that they can be sustained with reasonable economy and efficient administration, provide technical consultation and assistance to local health departments or districts, provide financial assistance to local health departments or districts and services that meet minimum standards of personnel and performance and in accordance with a plan and budget submitted by the local health department or districts to the department for approval, and recommend the qualifications of all personnel.

3. Collect, preserve, tabulate and interpret all information required by law in reference to births, deaths and all vital facts, and obtain, collect and preserve information relating to the health of the people of this state and the prevention of diseases as may be useful in the discharge of functions of the department not in conflict with chapter 3 of this title and sections 36-693, 36-694 and 39-122.

4. Operate sanitariums, hospitals or other facilities assigned to the department by law or by the governor.

5. Conduct a statewide program of health education relevant to the powers and duties of the department, prepare educational materials and disseminate information as to conditions affecting health, including basic information to promote good health on the part of individuals and communities, and prepare and disseminate technical information concerning public health to the health professions, local health officials and hospitals. In cooperation with the department of education, the department of health services shall prepare and disseminate materials and give technical assistance for the purpose of educating children in hygiene, sanitation and personal and public health, and provide consultation and assistance in community organization to counties, communities and groups of people.

6. Administer or supervise a program of public health nursing, prescribe the minimum qualifications of all public health nurses engaged in official public health work, and encourage and aid in coordinating local public health nursing services.

7. Encourage and aid in coordinating local programs concerning control of preventable diseases in accordance with statewide plans that shall be formulated by the department.

8. Encourage and aid in coordinating local programs concerning maternal and child health, including midwifery, antepartum and postpartum care, infant and preschool health and the health of schoolchildren, including special fields such as the prevention of blindness and conservation of sight and hearing.

9. Encourage and aid in coordinating local programs concerning nutrition of the people of this state.

10. Encourage, administer and provide dental health care services and aid in coordinating local programs concerning dental public health, in cooperation with the Arizona dental association. The department may bill and receive payment for costs associated with providing dental health care services and shall deposit the monies in the oral health fund established by section 36-138.

11. Establish and maintain adequate serological, bacteriological, parasitological, entomological and chemical laboratories with qualified assistants and facilities necessary for routine examinations and analyses and for investigations and research in matters affecting public health.

12. Supervise, inspect and enforce the rules concerning the operation of public bathing places and

public and semipublic swimming pools adopted pursuant to section 36-136, subsection I, paragraph 10.

13. Take all actions necessary or appropriate to ensure that bottled water sold to the public and water used to process, store, handle, serve and transport food and drink are free from filth, disease-causing substances and organisms and unwholesome, poisonous, deleterious or other foreign substances. All state agencies and local health agencies involved with water quality shall provide to the department any assistance requested by the director to ensure that this paragraph is effectuated.

14. Enforce the state food, caustic alkali and acid laws in accordance with chapter 2, article 2 of this title, chapter 8, article 1 of this title and chapter 9, article 4 of this title, and collaborate in enforcing the federal food, drug, and cosmetic act (52 Stat. 1040; 21 United States Code sections 1 through 905).

15. Recruit and train personnel for state, local and district health departments.

16. Conduct continuing evaluations of state, local and district public health programs, study and appraise state health problems and develop broad plans for use by the department and for recommendation to other agencies, professions and local health departments for the best solution of these problems.

17. License and regulate health care institutions according to chapter 4 of this title.

18. Issue or direct the issuance of licenses and permits required by law.

19. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

20. Subject to the availability of monies, develop and administer programs in perinatal health care, including:

(a) Screening in early pregnancy for detecting high-risk conditions.

(b) Comprehensive prenatal health care.

(c) Maternity, delivery and postpartum care.

(d) Perinatal consultation, including transportation of the pregnant woman to a perinatal care center when medically indicated.

(e) Perinatal education oriented toward professionals and consumers, focusing on early detection and adequate intervention to avert premature labor and delivery.

21. License and regulate the health and safety of group homes and behavioral-supported group homes for persons with developmental disabilities. The department shall issue a license to an accredited facility for a period of the accreditation, except that a licensing period shall not be longer than three years. The department is authorized to conduct an inspection of an accredited facility to ensure that the facility meets health and safety licensure standards. The results of the accreditation survey shall be public information. A copy of the final accreditation report shall be filed with the department of health services. For the purposes of this paragraph, "accredited" means accredited by a nationally recognized accreditation organization.

B. The department may accept from the state or federal government, or any agency of the state or federal government, and from private donors, trusts, foundations or eleemosynary corporations or organizations grants or donations for or in aid of the construction or maintenance of any program, project, research or facility authorized by this title, or in aid of the extension or enforcement of any program, project or facility authorized, regulated or prohibited by this title, and enter into contracts with the federal government, or an agency of the federal government, and with private donors, trusts, foundations or eleemosynary corporations or organizations, to carry out such purposes. All monies made available under this section are special project grants. The department may also expend these

monies to further applicable scientific research within this state.

C. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

D. The department may enter into contracts with organizations that perform nonrenal organ transplant operations and organizations that primarily assist in the management of end-stage renal disease and related problems to provide, as payors of last resort, prescription medications necessary to supplement treatment and transportation to and from treatment facilities. The contracts may provide for department payment of administrative costs it specifically authorizes.

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop, tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property

related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health agency, environmental agency or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any funds that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a meat packing plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for occasional sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is not potentially hazardous or a time or temperature control for safety food and that is prepared in a kitchen of a private home for commercial purposes, including fruit jams and jellies, dry mixes made with ingredients from approved sources, honey, dry pasta and roasted nuts. Cottage food products must be packaged at home with an attached label that clearly states the name and registration number of the food preparer, lists all the ingredients in the product and the product's production date and includes the following statement: "This product was produced in a home kitchen that may process common food allergens and is not subject to public health inspection." If the product was made in a facility for individuals with developmental disabilities, the label must also disclose that fact. The person preparing the food or supervising the food preparation must complete a food handler training course from an accredited program and maintain active certification. The food preparer must register with an online registry established by the department pursuant to paragraph 13 of this subsection. The food preparer must display the preparer's certificate of registration when operating as a temporary food establishment. For the purposes of this subdivision, "not potentially hazardous" means cottage food products that meet the requirements of the food code published by the United States food and drug administration, as modified and incorporated by reference by the department by rule.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section

3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in identity, storage, handling and sale of all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for the submission of samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational

vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. In no event shall confidential information be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection. A registered food preparer shall renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout the state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction, provided that the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to

these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product":

(a) Means a food that is not potentially hazardous or a time or temperature control for safety food as defined by the department in rule and that is prepared in a home kitchen by an individual who is registered with the department.

(b) Does not include foods that require refrigeration, perishable baked goods, salsas, sauces, fermented and pickled foods, meat, fish and shellfish products, beverages, acidified food products, nut butters or other reduced-oxygen packaged products.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

DEPARTMENT OF AGRICULTURE
Title 3, Chapter 2

Amend: **R3-2-202, R3-2-203**

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 21, 2025

SUBJECT: **DEPARTMENT OF AGRICULTURE**
Title 3, Chapter 2, Article 2

AMEND: R3-2-202, R3-2-203

Summary:

This regular rulemaking from the Arizona Department of Agriculture (Department) seeks to amend two (2) rules in Title 3, Chapter 2, Article 2 regarding Meat and Poultry Inspection. The rulemaking will enact the course of action identified in the Five-Year Review Report (5YRR) approved by the council on August 2, 2022. The course of action identified is to incorporate by reference 9 CFR Chapter III so the Arizona Meat and Inspection program maintains equal requirements with the United States Department of Agriculture (USDA) standards. The Department has satisfied the requirements for incorporation of reference found in A.R.S. § 41-1028.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Board states no study was reviewed or relied upon during the course of this rulemaking.

4. Summary of the agency's economic impact analysis:

The Department's intent in proposing the amendments to A.A.C. R3-2-202 are intended to align with federal regulations for meat and poultry inspection and increase consumer protection. The Department anticipates the rulemaking will result in an overall benefit to the regulated community and the consumer. The Department has determined the rulemaking will not require any new full-time employees. The rulemaking is not expected to result in additional costs for the regulated community. The Department will not incur any additional costs associated with the rulemaking since these programs currently exist and the intent is to only update and improve those processes. Therefore, the Department has determined that the benefits of the rulemaking outweigh any costs.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

Given that the rulemaking is not expected to result in additional costs for the regulated community, the Department has determined there is no less intrusive or costly alternative method of achieving the purpose of the rulemaking.

6. What are the economic impacts on stakeholders?

The persons directly affected by the rulemaking are the 30 official establishments and the 54 custom exempt establishments. The proposed rulemaking will not impose any additional costs. The benefits to the regulated parties will include clearer and more concise rule language to reduce confusion and will align with current federal regulations for consistency. Incidentally, the newer federal regulations have eased some of the regulatory burdens.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

ARS §41-1057(D)(7) states the Council shall not approve the rule unless "[th]e rule is not a substantial change, considered as a whole, from the proposed rule and any supplemental notices."

The Department received no comments and did not make any changes from the proposed rules.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates that they did not receive any comments on the proposed rules.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing

The Department indicated to Council staff that a general permit does not apply under A.R.S. § 41-1037(A)(1) because it is prohibited by federal law under the Federal Meat Inspect Act. The Department has also indicated that a general permit does not apply under A.R.S. § 41-1037(A)(3) because of the requirements found in Arizona Revised Statutes Title 3, Chapter 13 which proscribe specific qualifying conditions prior to the issuance of a license, permit, or certification.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

A.R.S. §3-2046(B) requires that the Department closely follow the United States Department of Agriculture (USDA) regulations and the Department cannot exceed those requirements. The Department indicates that the rules are not more stringent than federal law because the rules will implement by reference all relevant federal requirements.

11. Conclusion

This regular rulemaking from the Department of Agriculture seeks to amend two (2) rules in Title 3, Chapter 2, Article 2 regarding meat and poultry inspection by incorporating by reference USDA requirements. The Department indicates that the proposed amendments are necessary to comply with the state statute that requires the Department to align with USDA guidelines as closely as possible.

The Department is seeking the standard 60-day delayed effective date.

The Department has satisfied the requirements of incorporation by reference and staff recommends approval.

RE: Department of Agriculture, Title 3, Chapter 2, Article 2, Request for Placement on Agenda

Dear Ms. Klein:

The Arizona Department of Agriculture is requesting to place a final rulemaking on the Governor's Regulatory Review Council agenda for consideration and approval. Enclosed with this letter you will find the Arizona Department of Agriculture's (Department) final rulemaking packet for A.A.C. Title 3, Chapter 2, Article 2.

The close of record for the proposed rulemaking occurred on September 4, 2024 following a public hearing for oral comments. During the comment period, the Department did not receive any comments. This rulemaking activity is primarily intended to update an incorporated reference as indicated in the proposed course of action in the August, 2022 five-year rule reveiew report. The coure of action was not completed by July, 2023 as inducated in the report due to the fact that more changes to the federal law were not effective until January, 2024. The rulemaking does not establish any new fees or increase any existing fees. The Department is not requesting an immediate effective date pursuant to A.R.S. § 41-1032. There were no studies conducted related to the rulemaking. No additional employees are necessary to implement and enforce the changes to the rules. The Department received final approval the agency's policy advisor to proceed with final rulemaking on October 17, 2024.

Enclosed with this letter is:

1. A copy of the Notice of Final Rulemaking
2. A copy of the Economic, Small Business, and Consumer Impact Statement
3. A copy of the materials for the incorporated references in the rulemaking.
4. A copy of the Authorizing statutes
5. A copy of the initial and final requests and authorizations from the Governor's Office for approval to conduct rulemaking and proceed with final rulemaking pursuant to EO 2022-01, and the law pursuant to A.R.S. § 41-1039.

Please contact Brian McGrew at (602) 542-3228 or bmcgrew@azda.gov with any questions about this rulemaking.

Sincerely,

Paul E. Brierley
Director

cc: Sheldon Jones, Deputy Director
Rob Smook, Associate Director

NOTICE OF FINAL RULEMAKING

TITLE 3. agriculture

CHAPTER 2. department of agriculture - animal services division

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039 by the governor on:

October 18, 2024

2. Article, Part, or Section Affected (as applicable) **Rulemaking Action**

R3-2-202	Amend
R3-2-203	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. § 3-107(A)

Implementing statute: A.R.S. § 3-2002, 3-2046, 3-2083

4. The effective date of the rule:

This rule shall become effective 60 days after a certified original and preamble are filed in the Office of the Secretary of State pursuant to A.R.S. § 41-1032(A). The effective date is (to be filled in by *Register* editor).

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

n/a

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

n/a

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 2505, Issue Date: August 2, 2024, Issue Number: 31, File number: #R24-142

Notice of Proposed Rulemaking: 30 A.A.R. 2465, Issue Date: August 2, 2024, Issue Number: 31, File number: #R24-137

E-mail:	rmann@azda.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

On May 10, 2024, the Department received approval from the Natural Resources Policy Advisor, in compliance with A.R.S. § 41-1039(A)(2) by reducing or ameliorating a regulatory burden on the public, while achieving the same regulatory objective; and (A)(6) by complying with an existing state statutory requirement. The main purpose of this rulemaking is to update A.A.C. R3-2-202 to incorporate by reference the most current federal regulations under 9 CFR Chapter III so that meat and poultry inspection in the state can align with federal regulations and maintain the statutory requirement under A.R.S. § 3-2046(B), which is to conform to the rules governing meat inspection of the U.S. Department of Agriculture by referencing existing federal meat inspection regulations, but does not exceed those requirements. The last update to the incorporated reference in A.A.C. R3-2-202 was in 2016 and several changes have occurred since that time. These include:

1. Elimination of Trichinae control regulations. (formerly 9 CFR § 318.10 (a)(1))
2. Eliminating unnecessary requirements for hog carcass cleaning. (formerly 9 CFR § 310.11 & amended portions of § 310.18)
3. Updates to the preparation of uninspected products outside of the hours of inspectional supervision. (as amended 9 CFR §§ 318.12 and 381.152)
4. Modernization of swine slaughter inspection. (9 CFR § 310.18 (c) and (d)
5. Elimination of the requirement to defibrinate livestock blood saved as an edible product. (as amended in 9 CFR § 310.20)
6. Rescission of the condemnation of poultry carcasses affected with any form of Avian Leukosisi Complex. (formerly 9 CFR § 381.82 and as amended in § 381.87)
7. Establishing a uniform time period requirement and clarifying related procedures for the filing of appeals of agency inspection decision actions. (as amended 9 CFR § 500.9)
8. Rescission of dual labeling requirements for certain packages of meat and poultry. (as amended in 9 CFR §§ 317.2 and 381.121)
9. Elimination of the requirement that livestock carcasses be marked "Inspected and Passed" at the time inspection within a slaughter establishment for carcasses to be further processed within the same establishment. (as amended in 9 CFR § 316.9(a))
10. Adding section 9 CFR §§ 530 through 561 to the "EXCEPT" portion of this rule. This section applies to the inspection of fish in the Order Siluriformes (catfish) which the AZDA would defer these inspections to the U.S. Department of Agriculture, Food

Safety and Inspection Service, if requested.

One other minor changes in rule R3-2-203 to modernize application requirements to include an email address that will help with communicating more efficiently and effectively with licensed facilities.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

n/a

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

The rulemaking does not diminish any previous authority of a political subdivision of this state.

10. A summary of the economic, small business, and consumer impact:

The Department's intent in proposing the amendments to A.A.C. R3-2-202 are intended to align with federal regulations for meat and poultry inspection and increase consumer protection. The Department anticipates the rulemaking will result in an overall benefit to the regulated community and the consumer. The Department has determined the rulemaking will not require any new full-time employees. The rulemaking is not expected to result in additional costs for the regulated community. The Department has determined there is no less intrusive or costly alternative methods of achieving the purpose of the rulemaking. The Department will not incur any additional costs associated with the rulemaking since these programs currently exist and the intent is to only update and improve those processes. Therefore, the Department has determined that the benefits of the rulemaking outweigh any costs.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

n/a

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

n/a

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

A.R.S. § 3-104(F) requires the Arizona Department of Agriculture Advisory Council assist the Director of the Department on all rulemaking activities. The council shall review, advise and make recommendations before they are adopted. During the June 28, 2024 Advisory Council Meeting, council members approved the Department's recommendations to amend rules R3-2-202 and R3-2-203.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Department believes it qualifies for an exemption of a general permit for two reasons. 41-1037(A)(1) Federal laws would prohibit the issuance of a general permit under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), and 41-1037(A)(3) it is not technically feasible given the requirements authorized in Title 3, Chapter 13 and in the rules adopted that prescribe the qualifying conditions and requirements prior to the issuance of a license, permit, or certification.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Federal laws 7 U.S.C. §§ 1633, 1901-1907 and 21 U.S.C. §§ 451-472 and 601-695 applies to the subject of the rulemaking for the incorporated reference 9 CFR Chapter III in rule R3-2-202. The rule is not more stringent than federal law.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was conducted

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

The Federal regulation 9 CFR Chapter III is incorporated in rule R3-2-202 as it relates to the plan for state agencies.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

n/a

16. The full text of the rules follows:

Rule text begins on the next page.

ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT

TITLE 3. AGRICULTURE

CHAPTER 2. DEPARTMENT OF AGRICULTURE - ANIMAL SERVICES DIVISION

ARTICLE 2

Summary

The objective of the rules in Article 2 is to prescribe standards for meat and poultry processing facilitates and align with federal regulations under 9 CFR Chapter III the inspection of these facilities. The Article also prescribes the licensing requirements to obtain a license as an official establishment or as an exempt establishment.

1. Identification of the proposed rulemaking.

The main purpose of this rulemaking is to update A.A.C. R3-2-202 to incorporate by reference the most current federal regulations under 9 CFR Chapter III so that meat and poultry inspection in the state can align with federal regulations and maintain the statutory requirement under A.R.S. § 3-2046(B), which is to conform to the rules governing meat inspection of the U.S. Department of Agriculture by referencing existing federal meat inspection regulations, but does not exceed those requirements. The last update to the incorporated reference in A.A.C. R3-2-202 was in 2016 and several changes have occurred since that time. These include:

1. Elimination of Trichinae control regulations. (formerly 9 CFR § 318.10 (a)(1))
2. Eliminating unnecessary requirements for hog carcass cleaning. (formerly 9 CFR § 310.11 & amended portions of § 310.18)
3. Updates to the preparation of uninspected products outside of the hours of inspectional supervision. (as amended 9 CFR §§ 318.12 and 381.152)
4. Modernization of swine slaughter inspection. (9 CFR § 310.18 (c) and (d)
5. Elimination of the requirement to defibrinate livestock blood saved as an edible product. (as amended in 9 CFR § 310.20)
6. Rescission of the condemnation of poultry carcasses affected with any form of Avian Leukosisi Complex. (formerly 9 CFR § 381.82 and as amended in § 381.87)
7. Establishing a uniform time period requirement and clarifying related procedures for the filing of appeals of agency inspection decision actions. (as amended 9 CFR § 500.9)
8. Rescission of dual labeling requirements for certain packages of meat and poultry. (as amended in 9 CFR §§ 317.2 and 381.121)

9. Elimination of the requirement that livestock carcasses be marked “Inspected and Passed” at the time inspection within a slaughter establishment for carcasses to be further processed within the same establishment. (as amended in 9 CFR § 316.9(a))
10. Adding section 9 CFR §§ 530 through 561 to the "EXCEPT" portion of this rule. This section applies to the inspection of fish in the Order Siluriformes (catfish) which the AZDA would defer these inspections to the U.S. Department of Agriculture, Food Safety and Inspection Service, if requested.

One other minor changes in rule R3-2-203 to modernize application requirements to include an email address that will help with communicating more efficiently and effectively with licensed facilities.

2. Identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking.

The persons directly affected by the rulemaking are the 30 official establishments and the 54 custom exempt establishments. The proposed rulemaking will not impose any additional costs. The benefits to the regulated parties will include clearer and more concise rule language to reduce confusion and will align with current federal regulations for consistency. Incidentally, the newer federal regulations have eased some of the regulatory burdens.

3. A cost benefit analysis of the following:

(a) The probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rule making. The probable costs to the implementing agency shall include the number of new full-time employees necessary to implement and enforce the proposed rule. The preparer of the economic, small business and consumer impact statement shall notify the joint legislative budget committee of the number of new full-time employees necessary to implement and enforce the rule before the rule is approved by the council.

The effect of the rulemaking will not require any additional full-time employees to the Department and there will be no additional costs for the implementation of the rulemaking since the Department has already established a framework for the programs affected by the rulemaking.

(b) The probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rule making.

There are no identified costs or benefits to any political subdivision of the state.

(c) The probable costs and benefits to businesses directly affected by the proposed rule making, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rule making.

The rulemaking is not expected to effect revenues or payrolls for the regulated community. Businesses will benefit from the proposed changes throughout the rulemaking that align with current federal regulations, and the rulemaking is intended to remove inconsistencies and reduce the overall regulatory burden.

4. A general description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rule making.

It is not expected that employment in businesses, agencies, or political subdivisions will be directly affected by the rulemaking.

5. A statement of the probable impact of the proposed rule making on small businesses. The statement shall include:

(a) An identification of the small businesses subject to the proposed rule making.

Small businesses could include a majority of the official and custom exempt meat and poultry processing facilities since most operate with fewer than 100 employees.

(b) The administrative and other costs required for compliance with the proposed rule making.

It is expected that there will not be any additional administrative or other costs required for compliance associated with the proposed rulemaking.

(c) A description of the methods prescribed in section 41-1035 that the agency may use to reduce the impact on small businesses, with reasons for the agency's decision to use or not to use each method.

The Department finds that the use of any method in section 41-1035 is not feasible since establishing less stringent compliance or reporting requirements; establishing less stringent schedules or deadlines; consolidating compliance or reporting requirements; or exempting a small business would not comply with federal law. The use of performance standards is not applicable to this rulemaking.

(d) The probable cost and benefit to private persons and consumers who are directly affected by the proposed rule making.

The proposed rulemaking does not infer any costs or benefits to private persons or consumers.

6. A statement of the probable effect on state revenues.

The proposed rulemaking will not have an effect on state revenues since there is no change to the certification or licensing fees; and there is no increase to the penalties for program violations.

7. A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rule making, including the monetizing of the costs and benefits for each option and providing the rationale for not using nonselected alternatives.

The Department finds there are no less intrusive or less costly alternatives to the proposed rulemaking. The substance of the rules is dictated, to a large extent, by the federal government.

8. A description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data. An agency advocating that any data is acceptable data has the burden of proving that the data is acceptable. For the purposes of this paragraph, "acceptable data" means empirical, replicable and testable data as evidenced in supporting documentation, statistics, reports, studies or research.

No data was produced from any studies or research for the rulemaking.

The release of this Chapter in Supp. 24-3 replaces Supp. 24-1, 1-58 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 3. AGRICULTURE

CHAPTER 2. DEPARTMENT OF AGRICULTURE - ANIMAL SERVICES DIVISION

Authorizing statute: A.R.S. § 3-107(A)(1)

Supp. 24-3

CHAPTER TABLE OF CONTENTS

Chapter 2, Articles 1 through 7 renumbered from Title 3, Chapter 9, Articles 1 through 7; Article 8, consisting of Sections R3-2-801 through R3-2-808, renumbered from Title 3, Chapter 5, Article 1, Sections R3-5-01 through R3-5-08; Article 9, consisting of Sections R3-2-901 through R3-2-909 renumbered from Title 3, Chapter 6, Article 1, Sections R3-6-101 through R3-6-109 (Supp. 91-4).

Article 1 consisting of Sections R3-9-101 through R3-9-103; Article 2 consisting of Sections R3-9-201 through R3-9-208; Article 3 consisting of Sections R3-9-301 and R3-9-302; Article 4 consisting of Sections R3-9-401 through R3-9-409; Article 5 consisting of Sections R3-9-501 through R3-9-504; Article 6 consisting of Sections R3-9-601 through R3-9-620; Article 7 consisting of Sections R3-9-701 and R3-9-702 adopted effective August 19, 1983.

Former Article 1 consisting of Sections R3-9-01 through R3-9-11; Article 2 consisting of Sections R3-9-16 through R3-9-26; Article 3 consisting of Sections R3-9-22 through R3-9-35; Article 4 consisting of Sections R3-9-46 through R3-9-48 repealed effective August 19, 1983.

ARTICLE 1. GENERAL PROVISIONS

Article 1, consisting of Section R3-2-101, adopted effective May 7, 1997 (Supp. 97-2).

Article 1, consisting of Sections R3-2-101 through R3-2-109, recodified to Article 11, Sections R3-2-1101 through R3-2-1109 (Supp. 97-1).

Article 1, consisting of Sections R3-2-101 through R3-2-109, adopted effective September 11, 1996 (Supp. 96-3).

Article 1, consisting of Sections R3-2-101 through R3-2-103, renumbered from R3-9-101 through R3-9-103 (Supp. 91-4).

ARTICLE 2. MEAT AND POULTRY INSPECTION

Article 2, consisting of Sections R3-2-201 through R3-2-208, renumbered from Sections R3-9-201 through R3-9-208 (Supp. 91-4).

ARTICLE 3. FEEDING OF ANIMALS

Article 3, consisting of Sections R3-2-301 and R3-2-302, renumbered from R3-9-301 and R3-9-302 (Supp. 91-4).

ARTICLE 4. ANIMAL DISEASE PREVENTION AND CONTROL

Article 4, consisting of Sections R3-2-401 through R3-2-409 renumbered from R3-9-401 through R3-9-409 (Supp. 91-4).

ARTICLE 5. STATE-FEDERAL COOPERATIVE DISEASE CONTROL PROGRAM

Article 5, consisting of Sections R3-2-501 and R3-2-504, renumbered from R3-9-501 and R3-9-504 (Supp. 91-4).

ARTICLE 6. HEALTH REQUIREMENTS GOVERNING ADMISSION OF ANIMALS

Article 6, consisting of Sections R3-2-601 and R3-2-620, renumbered from R3-9-601 and R3-9-620 (Supp. 91-4).

ARTICLE 7. LIVESTOCK INSPECTION

Article 7, consisting of Sections R3-2-701 and R3-2-703, renumbered from R3-9-701 and R3-9-703 (Supp. 91-4).

ARTICLE 8. DAIRY AND DAIRY PRODUCTS CONTROL

(Authority: A.R.S. § 3-601 et seq.)

Article 8, consisting of Sections R3-2-801 through R3-2-808, renumbered from R3-5-01 through R3-5-08 (Supp. 91-4).

ARTICLE 9. EGG AND EGG PRODUCTS CONTROL

(Authority: A.R.S. § 3-701 et seq.)

Article 9, consisting of Sections R3-2-901 through R3-2-909 renumbered from R3-6-101 through R3-6-109 (Supp. 91-4).

ARTICLE 10. AQUACULTURE

(Authority: A.R.S. § 3-2901 et seq.)

Article 10, consisting of Sections R3-2-1001 through R3-2-1010, adopted effective May 3, 1993 (Supp. 93-2).

ARTICLE 11. VOLUNTARY EGG GRADING PROGRAM

Article 11, consisting of Sections R3-2-1101 through R3-2-1125, made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

Article 11, consisting of Sections R3-2-1101 through R3-2-1109, expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3).

Article 11, consisting of Sections R3-2-1101 through R3-2-1109, recodified from Article 1, Sections R3-2-101 through R3-2-109 (Supp. 97-1).

ARTICLE 12. ACQUISITION AND USE OF SODIUM PENTOBARBITAL AND DERIVATIVES BY UNLICENSED INDIVIDUALS IN ANIMAL SHELTERS

Article 12, consisting of Sections R3-2-1201 through R3-2-1203, made by final rulemaking at 29 A.A.R. 1327 (June 9, 2023), effective July 8, 2023 (Supp. 23-2).

ARTICLE 1. GENERAL PROVISIONS

R3-2-101. Definitions

In addition to the definitions provided in A.R.S. §§ 3-1201, 3-1451, and 3-1771, the following terms apply to this Chapter:

"Accredited veterinarian" means a veterinarian approved by the State Veterinarian and USDA Area Veterinarian In Charge (A.V.I.C.) to perform functions required by cooperative State-Federal animal disease control and eradication programs.

"Animal" means livestock, bison, dogs, cats, rabbits, rodents, aquatic animals, game animals, furbearing and wildlife mammals, poultry and psittacines.

"APHIS" means the Animal and Plant Health Inspection Service of the United States Department of Agriculture.

"Beef cattle" means all cattle other than dairy cattle.

"Certificate of Veterinary Inspection" or "CVI" means a legible record that is issued by a VS animal health official, state animal health official, or accredited veterinarian at the point of origin of a shipment of animals, conforms to the requirements of R3-2-606, and is written on a form approved by the chief animal health official of the state of origin or an equivalent form of the USDA attesting that the animal described has been inspected and found to meet the Arizona entry requirements.

"Dairy cattle" means any domesticated bovine dairy animal or crosses of the Bos genus that show at least 50 percent phenotypic characteristics of a dairy breed, including; Ayrshire, Brown Swiss, Canadienne, Dutch Belt, Holstein, Jersey, Guernsey, Kerry, Milking Devon, Milking Shorthorn, or Norwegian Red.

"Designated feedlot" means a feedlot containing a confined drylot area under state quarantine that is approved and authorized by the State Veterinarian; contains a restricted feeding pen; and is maintained for finish feeding of cattle or bison that do not meet the brucellosis or tuberculosis import test requirements.

"Entry permit number" or "Import permit number" means a serialized number issued by the State Veterinarian's Office that conforms to the requirements of this chapter and allows the regulated movement of certain animals into Arizona.

"Equine Infectious Anemia" or "EIA" means an infectious, noncontagious, and potentially fatal viral disease of members of equine caused by a RNA virus classified in the Lentivirus genus, family Retroviridae.

"Official Identification" as defined in 9 CFR 71.19 (b) as revised on January 1, 2018 for swine; 9 CFR 79.2 (a)(2) as revised on January 1, 2018 for sheep and goats; and 9 CFR 86.4 as revised on January 1, 2018 for cattle.

"Poultry" means any bird except psittacine, whether live or dead, including but not limited to chickens, turkeys, ducks, geese, guineas, ratites, squabs, and any exotic birds not regulated as restricted wildlife by the Arizona Game and Fish Department. The definition "poultry" also includes hatching eggs, which are fertilized eggs produced by breeding poultry.

"Psittacine" means a bird belonging to the family Psittacidae, which includes macaws, parakeets, and parrots.

"USDA" means the United States Department of Agriculture.

"VS" means the Veterinary Services branch of APHIS.

Historical Note

Reserved Section R3-2-101 renumbered from R3-9-101 (Supp. 91-4). New Section adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-101 recodified to R3-2-1101 (Supp. 97-1). New Section adopted effective May 7, 1997 (Supp. 97-2). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-102. Licensing Time-frames

A. Overall time-frame. The Department shall issue or deny a license within the overall time-frames listed in Table 1 after receipt of the complete application. The overall time-frame is the total of the number of calendar days provided for the administrative completeness review and the substantive review.

B. Administrative completeness review.

1. The administrative completeness review time-frame established in Table 1 begins on the date the Department receives the application. The Department shall notify the applicant in writing within the administrative completeness review time-frame whether the application or request is incomplete. The notice shall specify what information is missing. If the Department does not provide notice to the applicant within the administrative completeness review time-frame, the Department considers the application complete.
2. An applicant with an incomplete license application shall supply the missing information within the completion request period established in Table 1. The administrative completeness review time-frame is suspended from the date the Department sends the notice of missing information to the applicant until the date the Department receives the information.
3. If the applicant fails to submit the missing information before the expiration of the completion request period, the Department shall close the file, unless the applicant requests an extension. An applicant whose file has been closed may obtain a license by submitting a new application.

C. Substantive review. The substantive review time-frame established in Table 1 shall begin after the application is administratively complete.

1. If the Department makes a comprehensive written request for additional information, the applicant shall submit the additional information identified by the request within the additional information period provided in Table 1. The substantive review time-frame is suspended from the date of the Department request until the information is received by the Department. If the applicant fails to provide the information identified in the written request within the additional information period, the Department shall deny the license.
2. The Department shall issue a written notice granting or denying a license within the substantive review time-frame. If the application is denied, the Department shall send the applicant written notice explaining the reason for the denial with citations to supporting statutes or rules, the applicant's right to seek a fair hearing, and the time period in which the applicant may appeal the denial.

Historical Note

Reserved Section R3-2-102 renumbered from R3-9-102 (Supp. 91-4). New Section adopted effective September

11, 1996 (Supp. 96-3). Section R3-2-102 recodified to R3-2-1102 (Supp. 97-1). New Section R3-2-102 adopted effective October 8, 1998 (Supp. 98-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-103. Recodified

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). R3-2-103 renumbered from Section R3-9-103 (Supp. 91-4). Repealed effective April 11, 1994 (Supp. 94-2). New Section adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-103 recodified to R3-2-1103 (Supp. 97-1).

R3-2-104. Recodified

Historical Note

Adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-104 recodified to R3-2-1104 (Supp. 97-1).

R3-2-105. Recodified

Historical Note

Adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-105 recodified to R3-2-1105 (Supp. 97-1).

R3-2-106. Recodified

Historical Note

Adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-106 recodified to R3-2-1106 (Supp. 97-1).

R3-2-107. Recodified

Historical Note

Adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-107 recodified to R3-2-1107 (Supp. 97-1).

R3-2-108. Recodified

Historical Note

Adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-108 recodified to R3-2-1108 (Supp. 97-1).

R3-2-109. Recodified

Historical Note

Adopted effective September 11, 1996 (Supp. 96-3). Section R3-2-109 recodified to R3-2-1109 (Supp. 97-1).

Historical Note
Adopted effective October 8, 1998 (Supp. 98-4). Amended by final rulemaking at 8 A.A.R. 3625, effective August 7, 2002 (Supp. 02-3). Amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

ARTICLE 2. MEAT AND POULTRY INSPECTION

R3-2-201. Definitions
In addition to the definitions provided in A.R.S. §§ 3-101 and 3-2001 and 9 CFR 301.2 and 9 CFR 381.1, which are incorporated by reference in R3-2-202, the following terms apply to this Article:

1. "Animal" means any steer, heifer, calf, cow, bull, sheep, goat, swine, horse, ass, mule, burro, ratite, or poultry.
2. "Dead animal" means an animal that died other than by slaughter in a place where inspection is performed by the Department or by the United States Department of Agriculture.
3. "Inedible meat" means:
   a. Meat or meat food product from an animal that died by slaughter or was processed in an inspected slaughterhouse, but which an inspector did not pass as fit for human consumption; or
   b. Meat condemned by a federal or state inspector.
4. "Rendering" means the conversion of packinghouse waste or dead animal carcasses and parts into industrial fat, oil, or other product unfit for human consumption.

Historical Note
Adopted effective August 19, 1983 (Supp. 83-4). Amended effective June 4, 1987 (Supp. 87-2). Amended subsection (A) effective February 28, 1989 (Supp. 89-1). Section R3-2-201 renumbered from Section R3-9-201 (Supp. 91-4). Section repealed, new Section adopted effective July 13, 1995 (Supp. 95-3). Amended by final rulemaking at 10 A.A.R. 2661, effective August 7, 2004 (Supp. 04-2).

R3-2-202. Meat and Poultry Inspection; Slaughtering Standards
All meat and poultry inspection, slaughtering, production, processing, labeling, storing, handling, transportation and sanitation procedures shall be conducted as prescribed in 9 CFR Chapter III, revised January 1, 2016, as amended by 80 FR 75590-01 (December 2, 2015), except sections 302.2, 307.5, 307.6, 312, 322, 327, 329.7, 329.9, 331, 335, 351, 352, 354, 355, 381.38, 381.39, 381.96 through 381.112, 381.195 through 381.209, 381.218 through 381.225, 390, 391, 392, 590 and 592. This material is incorporated by reference and does not include any later amendments or editions. A copy of the incorporated material is available from the Department and may also be viewed online at www.gpo.gov/fdsys.

Historical Note
Adopted effective August 19, 1983 (Supp. 83-4). Amended effective June 4, 1987 (Supp. 87-2). Amended subsection (A) effective February 28, 1989 (Supp. 89-1). Section R3-2-202 renumbered from Section R3-9-202 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3). Amended effective March 5, 1997 (Supp. 97-1). Amended by final rulemaking at 6 A.A.R. 465, effective January 5, 2000 (Supp. 00-1). Amended by final rulemaking at 8 A.A.R. 3625, effective August 7, 2002 (Supp. 02-3). Amended by final rulemaking at 10 A.A.R. 1971, effective May 4, 2004 (Supp. 04-2). Amended by emergency rulemaking at 15 A.A.R. 1890, effective October 21, 2009 for 180 days (Supp. 09-4). Emergency expired; Section amended by final rulemaking at 16 A.A.R. 351, effective April 3, 2010 (Supp. 10-1). Amended by emergency rulemaking at 19 A.A.R. 150, effective January 9, 2013 (Supp. 13-1). Amended by final rulemaking at 19 A.A.R. 1789, effective July 9, 2013 (Supp. 13-3). Amended by final rulemaking at 22 A.A.R. 2167, effective October 2, 2016 (Supp. 16-3).

R3-2-203. Licenses; Registration; Records
A. Any person operating a business in any of the following categories shall obtain the appropriate license from the Department.

1. Types of slaughter licenses.
   a. Official slaughter – the slaughtering of animals in a slaughterhouse for sale for human consumption.
   b. Exempt slaughter.
      i. Exempt non-mobile slaughter – the slaughtering or dressing of an animal in a stationary building for human consumption, that is not sold or offered for sale.
      ii. Exempt mobile slaughter – the slaughtering or dressing of an animal for human consumption

by using a mobile structure on the property of the animal's owner, that is not sold or offered for sale.

2. Types of meat licenses.
   a. Broker – any person, firm or corporation engaged in buying or selling carcasses, parts of carcasses, meat or poultry food products, or by-products from state or federally inspected establishments. A broker negotiates purchases or sales of these products other than for the broker's own account, as an employee of another person, and is paid a commission.
   b. Exempt – any person, firm, or corporation engaged in processing meat or poultry products without meat inspection, for an individual owner of meat that is not for sale.
   c. Distributor – any person, firm, or corporation engaged in receiving carcasses, parts of carcasses, meat or poultry food products, or by-products from state or federally inspected establishments and storing or distributing these products to commercial outlets, processors, or individuals. A distributor does not process any of these products.
   d. Jobber – any person, firm, or corporation with an established place of business that buys meat or poultry food products and offers the products for sale to someone other than the end-use consumer.
   e. Pet food manufacturer – any person, firm, or corporation engaged in manufacturing animal food from meat or poultry unfit for human consumption.
   f. Processor – any person, firm, or corporation that changes meat or poultry food products by cutting, mixing, blending, canning, curing or otherwise preparing meat or meat food products wholesale for human consumption.
   g. Renderer – any person, firm, or corporation that renders and tallows and any person, firm, or corporation engaged commercially in the hide, hair, or pelt removal, cutting up, or rendering of animals.

B. Applications for a license or registration pursuant to A.R.S. § 3-2081(A), shall be made on forms provided by the Department and shall contain the following:
1. The name of the applicant and the applicant's partners, officers or directors of the business, if any;
2. The business name, mailing address, telephone number, and Social Security number of the applicant;
3. The exact location of the business, if different from subsection (B)(2).

C. All persons licensed or registered under this Section, and all other persons described in A.R.S. § 3-2081, shall maintain the records required under A.R.S. § 3-2081 for a minimum of one year. In addition, all registered dead animal haulers, licensed rendering and tallow plants, and pet food manufacturing plants shall prepare and submit the reports required under A.R.S. § 3-2695 and shall include copies of those reports as part of records maintained under this Section and A.R.S. § 3-2081.

D. During fiscal year 2024, the fee to obtain or renew a license to slaughter is:
1. Not to exceed 45 head of cattle, and not to exceed 55 head of sheep, goats or swine in one calendar year: $250.
2. For more than 45 and not to exceed 150 head of cattle and more than 45 and not to exceed 160 head of sheep, goats or swine in one calendar year: $300.
3. For more than 150 head of cattle and more than 160 head of sheep, goats or swine in any one calendar year: $450.

E. During fiscal year 2024, the fee to obtain or renew a meat license is:
1. For a broker, $450.
2. For exempt processing, $300.
3. For a distributor, $500 for a large distributor (more than $100,000 in sales per calendar year) and $150 for a small distributor (not to exceed $100,000 in sales per calendar year).
4. For a jobber, $450.
5. For a pet food manufacturer, $300.
6. For a processor, $300.
7. For meat storage, $450.
8. For transportation, $300.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-208 renumbered from Section R3-9-208 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3). Former Section R3-2-203 renumbered to R3-2-208; new Section R3-2-203 renumbered from Section R3-2-208 and amended by final rulemaking at 5 A.A.R. 1593, effective May 5, 1999 (Supp. 99-2). Amended by exempt rulemaking at 16 A.A.R. 1331, effective June 29, 2010 (Supp. 10-2). Amended by exempt rulemaking at 17 A.A.R. 1756, effective July 20, 2011 (Supp. 11-3). Amended by exempt rulemaking at 18 A.A.R. 2060, effective August 2, 2012 (Supp. 12-3). Amended by exempt rulemaking at 19 A.A.R. 3127, effective September 14, 2013 (Supp. 13-3). Amended by exempt rulemaking at 20 A.A.R. 2449, effective July 24, 2014 (Supp. 14-3). Amended by exempt rulemaking pursuant to Laws 2015, Ch. 10, § 14, at 21 A.A.R. 2404, effective July 3, 2015 (Supp. 15-3). Amended by final exempt rulemaking at 23 A.A.R. 1937, effective August 9, 2017 (Supp. 17-2). Amended by final exempt rulemaking at 24 A.A.R. 2219, effective August 3, 2018 (Supp. 18-3). Amended by final exempt rulemaking at 25 A.A.R. 2081, effective August 27, 2019 (Supp. 19-3). Amended by final exempt rulemaking at 26 A.A.R. 1471, effective August 25, 2020 (Supp. 20-3). Amended by final exempt rulemaking at 27 A.A.R. 1264, effective September 29, 2021 (Supp. 21-3). Amended by final exempt rulemaking at 28 A.A.R. 2017 (August 12, 2022), effective September 24, 2022 (Supp. 22-3). Amended by exempt rulemaking at 29 A.A.R. 3483 (November 3, 2023), effective October 30, 2023 (Supp. 23-4).

R3-2-204. Official Slaughter Establishment

In addition to the requirements in A.R.S. § 3-2051, the following shall be provided when slaughtering cattle, calves, sheep, and hogs:
1. Cattle.
   a. A metal knocking box or concrete box with metal door to confine the animals prior to stunning;
   b. A separately drained, dry landing area at least five feet wide in front of the knocking box;
   c. A curbed-in bleeding area at least eight feet wide and seven feet long, located so that blood will not splash upon stunned animals lying in the dry landing area or upon carcasses being skinned on the siding bed. Curbing shall be at least six inches high and six inches wide;
   d. A separately drained area at least five feet from the curbed-in bleeding area to the siding bed;
   e. A distance of at least 14 feet from the vertical of the dropoff to the vertical of the hoist where carcasses

are eviscerated. For multiple-bed plants, this distance shall be increased to 16 feet;

f. A distance of at least 14 feet between the vertical of the hoist where carcasses are eviscerated and the header rail leading to the cooler. This distance may be shortened when a single rail hang-off is used;

g. A distance of at least three feet from the header rail to the adjacent wall;

h. A bleeding rail with its top at least 16 feet above the floor or a traveling hoist on an I-beam which will provide an equivalent distance of the carcass from the floor;

i. Floor space for a head-flushing cabinet and head inspection rack with removable hooks;

j. When hides are dropped to a room below, a hide chute near the point where hides are removed from the carcasses. The chute shall have a vented hood with a self-closing, push-in door. The vent shall be approximately 10 inches in diameter and extend to a point above the roof. Additional chutes, which meet the requirements of this subsection, for inedible and condemned materials shall be provided separate from the hide chutes;

k. A two-level viscera inspection truck for evisceration, except when a moving top viscera inspection table is used;

l. An area for washing and shrouding carcasses which shall be curbed and sloped to a separate drain or have a slope of approximately 1/2 inch to the foot leading to a separate drain;

m. Dressing rails and cooler rails at least 11 feet in height.

2. Calves and sheep.

a. A bleeding rail with its top approximately 11 feet from the floor. The floor of the bleeding area shall be curbed and separately drained;

b. Dressing and cooler rails of such height as to provide a clearance of at least eight inches from the carcasses to the floor. Calves which are of such size that there is not a clearance of at least eight inches above the floor, or whose viscera cannot be transferred manually and unaided to the inspection stand, shall be skinned and eviscerated as cattle;

c. Facilities for washing hides of calves before any incision is made (except the sticking wound) when carcasses are dressed hide on. The heads of calves and veal slaughtered by the Kosher method shall be skinned prior to the washing of the carcasses;

d. Facilities for flushing, washing, and inspecting calf heads, including head-flushing cabinet and head inspection rack with removal calf loops;

e. Facilities for the inspection of the viscera. A hoppered metal stand shall be provided which accommodates two removal inspection pans. One inspection pan is for the thoracic viscera; the other is for the abdominal viscera. The pans shall have perforated bottoms and handles or hand holes for removal. A sterilizing receptacle shall be provided for sterilization of contaminated pans;

f. Facilities for washing sheep carcasses after removal of the pelt. Calves and sheep shall be washed again after they have been eviscerated.

3. Hogs.

a. Facilities for bleeding hogs in a hanging position, over a separately drained, curbed-in bleeding area;

b. A scalding vat and gambreling table, including the platforms, of metal construction;

c. A shaving rail to assure that carcasses are cleaned;

d. A hoppered metal stand for the inspection of viscera. A sterilizing receptacle shall be provided at a convenient location for the sterilization of contaminated pans;

e. Dressing and cooler rails at least nine feet high or of such height as to provide a clearance of at least eight inches between the lowest point of the carcass, or head if left attached, and the floor.

4. Coolers. A chill cooler and separate holding coolers may be provided or both may be combined in one room. The chill cooler shall have floors of concrete sloped to a drain. The walls shall be smooth, light colored, impervious, and the room shall be sealed. The other coolers shall have floors of concrete; the walls shall be smooth, free of cracks, light colored, impervious, and the room shall be sealed. The door between the slaughtering department and the chill cooler shall be clad with rust-resistant metal. Rails shall be spaced at least two feet from walls, columns, refrigerating equipment, or other fixed equipment to prevent contact with the carcasses. Header rails shall be three feet from the walls. When overhead refrigerating facilities are provided, insulated drip pans must be installed beneath them and the pans connected to the drainage system. If wall coils are installed, a drip gutter of impervious material and connected with the drainage system shall be installed beneath the coils. When edible offal is chilled or stored in a cooler other than a separate offal cooler, that area shall be separately drained.

5. Other edible products departments.

a. Floors, walls, and ceilings in the various edible products departments of the plant shall be constructed of material that can be readily kept clean. Wooden structures and equipment shall be kept at a minimum. Floors requiring drainage shall be constructed of dense concrete or floor brick laid on a concrete base. The interior walls and, where practical, ceiling surfaces shall be smooth and flat. Walls shall be constructed of glazed tile, smooth cement plaster, or other USDA-approved impervious material. Walls shall be free of cracks and crevices, and, where brick or tile is used, the mortar joints shall be flush with the surface of the walls. Walls shall be light colored.

b. The floors of the plant shall be well-drained; a slope of not less than 1/4 inch to the foot to drainage inlets is required. The floors shall be smooth, impervious, and in good repair; they shall be free from cracks and depressions which could hold floor liquids. Wooden floors are not permitted. Junctions of floors and walls shall be coved.

c. Walls, ceilings, beams, and hangers shall be cleaned. Rails may be oiled instead of painted. Rust and scale shall be removed from hangers and meat trolleys. Smooth Portland cement plaster walls shall not be painted.

6. Hide room. The floor of the hide room, if provided, shall be of concrete and drained. Walls shall be smooth and impervious to at least the highest point of the hide pile. The hide room shall not connect with the slaughtering

department except for one opening which shall be equipped with a tight-fitting, self-closing door. The hide room shall not connect with any other room in which edible products are stored, processed, or handled.

7. Disposal of blood. When blood is not permitted to drain into the sewage system, it may be collected in a metal tank and removed from the premises or blown to the blood drier in a manner that will not mask odors or create a harborage for pests.
8. Other inedible products departments.
    a. An inedible products department, completely separate and apart from edible products departments, shall be provided. Walls shall be of smooth, finished, Portland cement plaster, glazed tile, or other USDA-approved material impervious to moisture. Floors shall be constructed of dense concrete or floor tile, sloped to drain. Hot and cold water connections shall be provided. With the exception of one opening to the slaughtering department, there shall be no openings between an inedible products department and an edible products department. This one opening shall be approximately five feet in width to allow the free passage of materials and shall be equipped with a close-fitting, self-closing door of solid construction. This door shall be kept closed at all times, except when in actual use, to prevent the entrance of undesirable odors to the slaughtering department. The area at the loading dock shall be paved, drained, and of sufficient size to accommodate the largest truck used. If inedible offal is stored in an edible offal room, the room is classed as an inedible products department. Paunches may be opened in the slaughtering department only when a hydraulic mechanically operated paunch lift table is provided and used for this purpose. Otherwise, the paunches shall be opened in the inedible offal rooms.
    b. Requests for permission for rendering of shop scraps and outside dead animals shall be made to the inspector who shall grant or deny the request pursuant to Article 2.
9. Pens.
    a. Holding pens shall be surfaced with an impervious material, sloped to drains. A curb shall be installed around the outside of the pens to prevent the wash from escaping. Water under pressure shall be available for washing out the pens. Feeding pens shall be at least 300 feet from the plant and shall not be located in front of the plant.
    b. Holding and shackling pens shall be located outside of, or separated from, the slaughtering department.
10. Drainage
    a. Floors which require flushing during operations shall have sloped floor drains to carry off the floor drainage. Each floor drain shall be equipped with a deep-seal trap; the drainage lines shall be vented to the outside in accordance with local plumbing codes. In no case shall a drain line be less than four inches in diameter.
    b. Sewage may be disposed of into a municipal sewer system, if permitted by local ordinance, or it may be disposed of into a stream or other similar body of water, provided that:
        i. This method is acceptable to local health authorities having jurisdiction over sewage disposal, and
        ii. The flow of the stream or other body of water is sufficient to carry the sewage away from the plant at all seasons of the year. When cesspools are used, they shall be of sufficient size to receive the sewage from the plant at all times; they shall be so constructed that they do not create a nuisance by breeding flies or other insects.
    c. Grease recovery basins shall not mask odors or create a harborage for pests.
11. Equipment and utensils.
    a. Equipment shall be constructed of metal and shall be so constructed that it can be easily cleaned. Cutting boards may be of hard wood or synthetic material, but equipment, such as the framework of boning or cutting tables, scalding vats, offal racks and trees, product storage racks, and product trucks shall be of metal construction. Rusty or worn-out equipment shall be replaced.
    b. All equipment shall be thoroughly cleaned following each day's operations. The use of a clear, colorless, odorless, tasteless, edible mineral oil may be used on metal equipment, such as choppers, grinders, mixers, tables, meat trucks, offal racks, hooks, and trolleys. Scale shall not be permitted to accumulate on metal equipment.
    c. Sterilizing receptacles equipped with drains to permit draining and cleaning shall be placed at convenient locations in the slaughtering department for the cleaning and sterilization of contaminated tools and equipment. Water wasting from equipment shall not flow across the floor.
    d. Shovels used for transferring ice or other edible materials from one container to another shall not touch the floor.
12. Ventilation and lighting. Natural ventilation may be supplemented by artificial means and shall be sufficient to assure the absence of dust, masking odors, or steam vapors. Points where inspection is conducted may require special lighting. The glass area shall be at least 1/4 of the floor area in all nonrefrigerated work rooms. To assure adequate lighting at all times and at all places, natural lighting must be supplemented by well-distributed artificial lighting.
13. Water supply, wash basins, sterilizing facilities.
    a. Hot and cold running water, under pressure, shall be available at all parts of the establishment and in conformity with the requirements of the Arizona Department of Health Services. The hot water used for sterilizing equipment, floors, and walls that may be contaminated by the dressing procedure or handling of diseased carcasses, viscera, and other animal parts, shall be at least 180° F. A thermometer shall be installed to verify the temperature of the water at the point of use. A cleanup hose shall be available for use.
    b. Foot-pedal operated wash basins shall be placed in or near dressing rooms. These wash basins shall be equipped with running hot and cold water, delivered through a combination mixing faucet with an outlet at least 12 inches above the rim of the bowl. The

drainage outlet shall lead directly into the sewage lines. Soap and towels, and a receptacle for dirty paper towels or other trash, shall be convenient to the wash basin.

c. One or more wash basins shall be located in the slaughtering department, and one or more in the sausage manufacturing room and at any other place in the establishment essential to ensure cleanliness of all persons handling products. The wash basins shall be equipped with hot and cold running water, delivered through a combination mixing faucet with an outlet at least 12 inches above the rim of the bowl. The water delivery shall be foot-pedal operated, and the drainage outlet shall lead directly into the sewage lines. Soap and disposable towels shall be convenient to the wash basins.

d. Water for sterilizing purposes shall be maintained at a temperature of at least 180° F. One or more sterilizing receptacles of rust-resisting, impervious material shall be placed at convenient locations in the slaughtering department for the sterilization of all implements that have been contaminated or used on a diseased carcass or part of a diseased carcass. The sterilizer shall be equipped with a cold water and steam line, or other means to maintain water at a temperature of at least 180° F during slaughtering operations. The sterilizer shall contain a drain so that water may be completely drained out for daily cleaning. Boilers and water heaters shall not be located in the slaughtering department or in any edible products department. To prevent possible back siphonage, vacuum breakers shall be provided on all steam and water lines when open ends are submerged or connected to equipment.

14. Protection against flies, rodents, or other vermin.

a. Plants must be kept free of flies, rats, mice, roaches, and other pests or vermin. The plant shall be constructed to prevent entrance of rodents to the premises and to eliminate their breeding places from the surrounding areas and in the establishment. Construction of the plant shall be such as to eliminate roach and other insect harbors. Windows, doors, and other openings to the plant shall be provided with insect screens, or other measures to prevent entrance of flies or other insects. The screens shall be kept in good repair. Sprays containing residual-acting chemicals shall not be used in edible products departments.

b. Animal-handling facilities such as stock pens and runways shall be cleaned as often as necessary and the manure or other waste materials removed shall not be permitted to accumulate at or near the plant.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-204 renumbered from Section R3-9-204 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3). Amended by final rulemaking at 5 A.A.R. 1593, effective May 5, 1999 (Supp. 99-2).

R3-2-205. Expired

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-205 renumbered from Section R3-9-205 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 135, effective December 15, 2016 (Supp. 16-4).

R3-2-206. Purchase, Sale, Collection, Transportation, Disposition, and Use of Meat or Meat Food Products; Dead Animals; Animal Bone, Animal Fat, Animal Offal

A. A person shall not buy, sell, offer for sale, store, transport, receive, or collect any meat or meat food product except as provided in this subsection.

1. Any of the following meat or meat food products may be bought, sold, or offered for sale as animal food and may be stored, transported, received, or collected anywhere within the state:
   a. Any meat or meat food product that is processed in an animal food manufacturing plant licensed by the Department;
   b. Any meat or meat food product that comes from an animal that died by slaughter or is approved or passed for animal food by either state or federal meat inspectors;
   c. Any meat or meat food product that is thoroughly cooked at a minimum temperature of 180° F for 30 minutes and is certified by a state or a federal meat inspector having jurisdiction at the place of processing.
2. A carcass with the hide, hair, or pelt still on the carcass may be bought, sold, offered for sale, collected and transported to or received by the following only:
   a. A rendering or tallow plant;
   b. A state or county diagnostic laboratory, a veterinarian's clinic, or crematory;
   c. An animal food manufacturing plant;
   d. A landfill regulated by the Arizona Department of Environmental Quality;
   e. An out-of-state landfill regulated by that state's landfill regulatory authority; or
   f. A landfill located on a Native American reservation that is regulated by equivalent standards to those prescribed by the Arizona Department of Environmental Quality.
3. Any meat or meat food product described in subsection (A)(1) or a carcass with the hide, hair, or pelt still on the carcass from an official state or federal slaughter establishment shall be denatured with a denaturant that will not leave a toxic residue and is removable when steam-distilled at atmospheric pressure.
4. Any meat or meat food product that has been condemned by state or federal meat inspectors shall be treated as provided in 9 CFR 314.3, which has been incorporated by reference in R3-2-202, and may be disposed of as provided in that rule or may be collected and transported to or received by a rendering or tallow plant or a state or county diagnostic laboratory or crematory.

B. A person engaged commercially in the collection or transportation of dead animal carcasses or inedible meat shall register with the Department as a dead animal hauler as prescribed in R3-2-203(B) and shall maintain and keep all records for the time required by R3-2-203(C).

C. A vehicle or other means of conveyance used to transport a dead animal carcass or inedible meat shall be:

1. Leak-proof,
2. Constructed of impervious materials that permit thorough cleaning and sanitizing,
3. Equipped to control insects and odors and prevent the spread of disease, and

4. Comply with the Department of Environmental Quality vehicle requirements prescribed in R18-13-310(A) and (B).

D. Except as provided in subsection (E), a dead animal carcass may be rendered or made into animal food only at a licensed rendering or animal food manufacturing plant as prescribed in A.R.S. § 3-2088 and this Article.

E. Dead animals diagnosed with anthrax or an animal disease foreign to the United States shall be handled as directed by the State Veterinarian.

F. Discarded animal bone, animal fat, and animal offal generated by a wholesale food manufacturer shall be transported to and received by only a:
1. Licensed rendering plant, or
2. Landfill, as prescribed in subsections (A)(2)(d), (A)(2)(e), and (A)(2)(f).

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-206 renumbered from Section R3-9-206 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3). Citation in subsection (B) corrected to R3-2-203(C) from R3-2-208(C) under R1-1-109(C) (Supp. 01-2). Amended by final rulemaking at 8 A.A.R. 3015, effective July 10, 2002 (Supp. 02-3).

R3-2-207. Meat from Dead Animals Processed and Decharacterized for Use as Animal Food

A. The following are minimum requirements for animal food manufacturing plants:
1. Hot and cold water shall be provided with facilities for its distribution in the plant which shall conform with the minimum requirements of the state Department of Health Services. The hot water shall be at least 180° F and shall be used for the cleaning of equipment, floors, and walls.
2. There shall be a drainage and plumbing system and a sewage disposal system that will not serve as a breeding place for flies, constitute a hazard, or endanger public health. Both systems shall meet the minimum requirements of the state Department of Health Services.
3. The floors, walls, ceilings, partitions, posts, doors, and other parts of all structures shall be of materials, construction, and finish that are capable of being thoroughly cleaned. The floors shall be tile, cement or other material impervious to water and shall have sufficient drainage to preclude stagnant accumulations of moisture.
4. All outside windows and doors shall be screened.
5. All rooms shall have natural or artificial lighting and well-distributed ventilation sufficient to prevent uncontrolled mold growth and filth or bacteria that may endanger health.
6. The plant shall be kept free from flies, rats, mice, and other vermin. Dogs and cats shall be excluded from the plants.
7. Tables, benches, and other equipment shall be provided so that processing can be performed free from filth or bacteria that may endanger health.
8. Each plant shall provide toilets, wash basins, towels, hot and cold running water, and soap for the employees with separate facilities when both sexes are employed. Toilets and wash basins shall be kept free from filth or bacteria that may endanger health. The rooms in which the toilet facilities are located shall be ventilated and shall be separated from the rooms in which the animal food is manufactured.
9. Coolers shall be maintained below 40^{o} F. Freezers shall be maintained below 10^{o} F.

B. Decharacterizing or denaturant agents: The following USDA-approved denaturant agents may be used: Charcoal (finely powdered) with a minimum l lb. per 100 lbs. meat, F-D & C Blue 1, F-D & C Blue 2, F-D & C Green 3, or liquid charcoal.
1. In addition to the application of the denaturing agents listed, meat or meat products shall be identified with the following information:
   a. The kind of animal,
   b. The following phrases:
      i. For pet food only from dead animals,
      ii. Denatured with _____,
   c. The correct statement of net weight, and
   d. The name and address of processor or manufacturer.
2. Before the denaturing agents are applied to pieces more than four inches in diameter, the pieces shall be freely slashed or sectioned. The application of any of the denaturing agents listed in this Section to the outer surfaces of molds or blocks of boneless meat, meat by-products, or meat food products shall not be considered adequate. The denaturing agent shall be mixed thoroughly with all of the material to be denatured and shall be applied in such quantity and manner that it cannot easily and readily be removed by washing or soaking. Denaturant shall be used to give the meat, meat by-products, raw animal fat, or rendered animal fats and oils, a distinctive color, odor, or taste so that such material cannot be confused with an article of human food.
3. All denaturing shall be done immediately upon condemnation of the meat or product, or immediately after the meat or product is prepared or during preparation.
4. True containers shall be legibly marked with the words "Beef or horse meat from dead animals for pet food only and not for human consumption" in letters at least 3/4 inch in height, on all sides and in at least two places if the container has less than four sides.
5. Every carrying container in which meat obtained from a dead animal is packaged shall have an exterior surface sufficiently absorbent so that the markings on at least two sides, in letters two inches high "Pet food only," will not become illegible during handling, storage, or transportation of the container.

C. Sales of meat obtained from a dead animal are permitted only to kennels, zoos, and animal food manufacturing plants registered by the Department, and records of sales shall be maintained by the purchaser and animal food manufacturing plant.

D. Each vehicle used for the transportation of fresh or frozen pet food shall be clearly and legibly marked with the name of the manufacturer in letters not less than four inches in height on both sides of the cab or body.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-207 renumbered from Section R3-9-207 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3).

R3-2-208. Diseased and Injured Animals

A. Diseased animals.
1. No meat from any diseased animal shall be processed, sold or stored at premises where food is sold or prepared for human consumption, unless it is decharacterized and clearly identified "Not for Human Consumption."
2. Subsection (A)(1) does not apply to meat from animals affected by any disease that does not render the meat unfit

for human consumption if the affected animals are slaughtered in establishments where meat inspection is maintained under A.R.S. § 3-2051 and 9 CFR, Chapter III, Subchapter A, which is incorporated by reference in R3-2-202(A).

B. Injured animals. An injured animal may be slaughtered by:
1. The animal's owner at the owner's premises if the meat is used solely for consumption by the owner, the owner's immediate family, or employees. The owner shall keep the animal's hide until it has been inspected and marked or tagged by a livestock officer under A.R.S. § 3-2011.
2. An official slaughter establishment, if:
   a. The animal is inspected by a livestock officer at origin; or
   b. The animal is transported to the official slaughter establishment with a self-inspection certificate; or
   c. The animal is transported to an official slaughter establishment with a waiver from the Associate Director and the waiver is documented by the livestock officer.
3. An exempt slaughterer, if the meat is used solely for consumption by the animal's owner, the owner's immediate family or employees, and if:
   a. The animal's body temperature is 103º F or less and except for the injury its condition appears normal; and
   b. The animal is inspected by a livestock officer at origin who verifies the temperature and condition of the animal and approves it for slaughter; or
   c. The Associate Director waives the inspection and the waiver is documented by the livestock officer, and the exempt slaughterer verifies the temperature and condition of the animal.

C. Non-ambulatory disabled cattle. Non-ambulatory disabled cattle shall not be slaughtered by any official or exempt slaughterer. Non-ambulatory disabled cattle are cattle that cannot rise from a recumbent position or that cannot walk, including, but not limited to, those with broken appendages, severed tendons or ligaments, nerve paralysis, fractured vertabal column, or metabolic conditions.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-203 renumbered from Section R3-9-203 (Supp. 91-4). Amended effective July 13, 1995 (Supp. 95-3). Former Section R3-2-208 renumbered to R3-2-203; new Section R3-2-208 renumbered from Section R3-2-203 and amended by final rulemaking at 5 A.A.R. 1593, effective May 5, 1999 (Supp. 99-2). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-209. Exempt Non-mobile Slaughter Establishments

In addition to A.R.S. § 3-2050 and the material incorporated in R3-2-202(A), the following shall be provided when slaughtering animals in an exempt non-mobile slaughter establishment:
1. General.
   a. A metal knocking box or concrete box with metal door to confine the animal before stunning;
   b. A distance of at least three feet from the header rail to the adjacent wall;
   c. A bleeding rail with its top at least 16 feet above the floor; and
   d. Dressing rails and cooler rails placed so the lowest part of the carcass is at least 12 inches from the floor.
2. Coolers. A chill cooler and separate holding cooler may be provided or both may be combined in one unit. The walls shall be light colored, smooth, free from cracks, and impervious to moisture. The door between the slaughtering department and the chill cooler shall be clad with rust-resistant material. Rails shall be spaced at least two feet from walls, columns, refrigeration equipment, or other fixed equipment to prevent contact with the carcasses.
3. Disposal of blood. If blood is not permitted to drain into the sewage system, it may be collected in a metal tank and removed from the premises.
4. Drainage.
   a. Floors that require flushing during operations shall have sloped floor drains to carry off the effluent. Drainage systems shall conform to state and local plumbing codes.
   b. Grease recovery systems shall not mask odors or create a harborage for pests.
5. Ventilation and lighting. Natural ventilation may be supplemented by artificial means and shall be sufficient to ensure the absence of dust, masking odors, or steam vapors. To ensure adequate lighting at all times and at all places, natural lighting shall be supplemented by well-distributed artificial lighting.
6. Potable water supply, wash basins, sterilizing facilities.
   a. Hot and cold running water, under pressure, shall be available in all parts of the plant and in conformity with the requirements of the Arizona Department of Health Services. The hot water used for sterilizing equipment, floors, and walls that may be contaminated by the dressing procedure or handling of diseased carcasses, viscera, and other animal parts, shall be at least 180° F. A thermometer shall be installed to verify the temperature of the water at the point of use. A cleanup hose shall be available for use.
   b. One or more wash basins shall be located in the slaughtering department. The wash basins shall be equipped with hot and cold running water, delivered through a combination mixing faucet with an outlet at least 12 inches above the rim of the bowl. The water delivery shall be foot-pedal operated, and the drainage outlet shall lead directly into the sewage lines. Soap and disposable towels shall be convenient to the wash basins.
   c. The tool sterilizer shall be maintained at 180° F and be in operation at all times during slaughter activities.
7. Protection against flies, rodents, or other vermin.
   a. Establishments shall be free of flies, rats, mice, roaches, and other pests or vermin. The establishment shall be constructed and maintained to prevent entrance of pests to the premises and to eliminate breeding places from the surrounding area and in the establishment.
   b. Animal handling facilities such as stock pens and runways shall be clean and manure or other waste materials removed shall not accumulate at or near the establishment.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 1593, effective May 5, 1999 (Supp. 99-2).

ARTICLE 3. FEEDING OF ANIMALS

R3-2-301. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-301 renumbered from Section R3-9-301 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Section repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-302. Permit to Feed Garbage to Swine; Requirements

A swine garbage feeding permit holder or applicant for a permit to feed garbage to swine shall comply with the following requirements:

1. An approved cooker is installed, is in operating condition on the premises, and fenced off from all swine.
2. A concrete slab, trough, or other easily cleanable area, and equipment for feeding garbage is provided.
3. Premises utilized for swine garbage feeding are reasonably clean, free of litter, adequately drained, and provide for removal of animal excrement and garbage not consumed.
4. Individually operated swine garbage feeding premises are separated from other swine premises by a minimum distance of 200 feet in all directions and constructed to prevent the escape of any swine.
5. In addition, all swine garbage feeding permit holders shall follow all federal garbage feeding regulations as outlined in 9 CFR Part 166 as revised on January 1, 2018.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-302 renumbered from Section R3-9-302 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

ARTICLE 4. ANIMAL DISEASE PREVENTION AND CONTROL

R3-2-401. Definitions

1. "Animal Name" refers to the shelter impound number of the animal.
2. "Anti-Rabies Vaccine" is an active immunizing agent used to prevent infection caused by the rabies virus approved by the State Veterinarian pursuant to A.R.S. § 11-1002.
3. "Approved Rabies Vaccinator Curriculum" means an in-person vaccination training curriculum approved by the State Veterinarian of Arizona and administered by a supervising veterinarian.
4. "Biologics" means medical preparations made from living organisms and their products, including serums, vaccines, antigens, and antitoxins.
5. "Certified Rabies Vaccinator" means an unlicensed individual who is appointed and certified by a supervising veterinarian and authorized under A.R.S. § 32-2240.02 to vaccinate domestic animals against rabies, who is employed by a shelter, as defined herein, and who in the absence of a licensed veterinarian, has agreed to supervise the acquisition, storage, administration, and record keeping of the anti-rabies vaccine.
6. "Compendium of Animal Rabies Prevention and Control" refers to the 2016 edition of the NASPHV Compendium of Animal Rabies Prevention and Control, incorporated by reference, and does not include any later amendments or editions of the incorporated matter, and is on file with the Department.
7. "Domestic animal" means a mammal, not regulated by title 3, that is kept primarily as a pet or companion or that is bred to be a pet or companion.
8. "Foreign Animal Disease" means a transboundary animal disease or pest, or an aquatic animal disease or pest, not known to exist in the United States.
9. "NASPHV" refers to the National Association of State Public Health Veterinarians.
10. "Rabies Certificate" refers to the NASPHV FORM 51 (revised 2007) or equivalent computer-generated form.
11. "Shelter" means an animal care and control shelter or pound operated by any town, city, county or the state, including privately run animal shelters that are utilized by a town, city, county or the state.
12. "State Veterinarian" means the person appointed as the State Veterinarian under A.R.S. § 3-1211.
13. "Supervising Veterinarian" means a veterinarian licensed by the Arizona Veterinary Medical Examining Board, who is authorized under these rules to designate a Certified Rabies Vaccinator.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-401 renumbered from Section R3-9-401 (Supp. 91-4). Former Section R3-2-401 renumbered to R3-2-402; new Section R3-2-401 adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final rulemaking at 30 A.A.R. 311 (February 16, 2024), effective March 24, 2024 (Supp. 24-1).

R3-2-402. Mandatory Disease Reporting by Veterinarians and Veterinary Laboratories

A. All veterinarians and laboratories performing diagnostic services on animals shall:

B. Notify the State Veterinarian at (602) 542-4293 and diseasereporting@azda.gov, within four hours of diagnosing or suspecting any disease or clinical signs of disease listed below:

1. African horse sickness
2. African swine fever
3. African trypanosomiasis
4. Anthrax
5. Avian influenza
6. Bovine Babesiosis
7. Bovine spongiform encephalopathy
8. Classical Swine Fever
9. Contagious agalactia
10. Contagious bovine pleuropneumonia
11. Contagious caprine pleuropneumonia
12. Crimean Congo Hemorrhagic Disease
13. Dourine
14. Enterovirus encephalomyelitis
15. Equine infectious anaemia

16. Equine Neurologic Diseases (Eastern, Western, Venezuelan, West Nile Virus, Equine Herpesvirus-1/ Equine Herpesvirus Myeloencephalopathy)
17. Foot and Mouth Disease
18. Glanders
19. Heartwater (Ehrlichia ruminantium)
20. Hemorrhagic septicemia (Pasteurella multocida)
21. Hendra virus (Equine morbillivirus)
22. Infectious haematopoietic necrosis of fish
23. Japanese encephalitis
24. Lumpy skin disease
25. Malignant catarrhal fever
26. Melioidosis (Burkholderia pseudomallei)
27. Nairobi sheep disease
28. Newcastle Disease
29. Nipah
30. Peste des Petits Ruminants
31. Rabies
32. Rabbit Hemorrhagic Disease
33. Rift Valley Fever
34. Rinderpest
35. Schmallenberg virus/Akabane
36. Senecavirus A
37. Screwworm myiasis
38. Sheep and goat pox
39. Surra (Trypanosoma evansi)
40. Swine Vesicular Disease
41. Theileriosis (T. parva or T. annulata)
42. Tuberculosis (Mycobacterium bovis)
43. Tularemia
44. Turkey rhinotracheitis (Avian metapneumovirus)
45. Trypanosomiasis
46. Viral hemorrhagic septicemia of fish
47. Vesicular exanthema of swine virus
48. Vesicular stomatitis

B. Notify the State Veterinarian at (602) 542-4293 and diseasereporting@azda.gov, within 24 hours of diagnosing or suspecting any disease or clinical signs of disease listed below:

1. Brucellosis (Brucella spp.)
2. Chronic Wasting Disease in Cervids
3. Contagious Equine Metritis
4. Epizootic Lymphangitis
5. Equine Piroplasmosis
6. Equine Viral Arteritis
7. Fowl typhoid (Salmonella gallinarum)
8. Ornithosis (Psittacosis, Avian Chlamydiosis, Chlamydophila psittaci)
9. Pigeon Fever (Corynebacterium pseudotuberculosis)
10. Pseudorabies (Aujeszky's disease)
11. Q fever
12. Pullorum disease (Salmonella pullorum)
13. Scrapie
14. Sheep scabies
15. Strangles (Strep equi spp. equi)
16. Swine enteric coronavirus diseases
17. Trichomoniasis (Tritrichomonas foetus)

Aquatic Diseases

1. Crayfish plague
2. Epizootic hematopoietic necrosis disease
3. Epizootic ulcerative syndrome
4. Gyrodactylosis
5. Abalone Viral Ganglioneuritis
6. Bonamiosis (B. exitiosa/ostreae)
7. Marteiliosis (M. refringens)
8. Perkinsosis (P. marinus /olseni)
9. Salmonid alphavirus infection
10. Infection with Xenohaliotis californiensis
11. Infectious hematopoietic necrosis
12. Infectious hypodermal and haematopoietic necrosis
13. Infectious myonecrosis
14. Infectious salmon anemia
15. Koi herpesvirus disease
16. Necrotizing hepatopancreatitis
17. Red sea bream iridoviral disease
18. Spring viremia of carp
19. Taura syndrome
20. Tilapia Lake Virus (TiLV)
21. Viral hemorrhagic septicemia
22. Viral nervous necrosis (VNN)
23. White spot disease
24. White tail disease
25. Yellowhead

C. Notify the State Veterinarian by email at diseasereporting@azda.gov or facsimile at (602) 542-4290 within 30 days after diagnosing any of the diseases listed below:

1. Anaplasmosis
2. Avian infectious bronchitis
3. Avian infectious laryngotracheitis
4. Bluetongue
5. Bovine cysticercosis
6. Bovine genital campylobacteriosis
7. Bovine viral diarrhea
8. Camelpox
9. Caprine arthritis/encephalitis
10. Duck viral hepatitis
11. Echinococcosis/hydatidosis
12. Enzootic abortion of ewes
13. Enzootic bovine leukosis (BLV)
14. Epizootic hemorrhagic disease
15. Equine Herpesvirus - 4
16. Equine influenza
17. Infectious bovine rhinotracheitis
18. Infectious bursal disease
19. Johne's disease
20. Leishmaniasis
21. Leptospirosis
22. Maedi-visna (OPP)
23. Marek's disease
24. Mycoplasma Gallisepticum
25. Mycoplasma Synoviae
26. Myxomatosis in rabbits
27. Porcine cysticercosis
28. Porcine Reproductive and Respiratory Syndrome
29. Paratyphoid abortion in Ewes (Salmonella abortusovis)
30. Swine influenza
31. Trichinellosis (Trichinella spiralis)

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-402 renumbered from Section R3-9-402 (Supp. 91-4). Former Section R3-2-402 renumbered to R3-2-403; new Section R3-2-402 renumbered from R3-2-401 and amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26

A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-403. Quarantine for Diseased Animals

A. A quarantine order shall be issued by the Director or his designee when the presence of a Foreign Animal Disease is suspected or diagnosed.

B. A quarantine order may be issued by the Director or his designee on the advice of the State Veterinarian when the presence of a disease is suspected or diagnosed.

C. The quarantine order may isolate specific animals, premises, counties, districts, or sections of the state and shall restrict the movement of animals.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-403 renumbered from Section R3-9-403 (Supp. 91-4). Former Section R3-2-403 repealed; new Section R3-2-403 renumbered from Section R3-2-402 and amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 135, effective December 15, 2016 (Supp. 16-4). New Section made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-404. Importation, Manufacture, Sale, and Distribution of Biologics

A. Any person importing, manufacturing, selling, or distributing any biologic intended for diagnostic or therapeutic treatment of animals shall request, in writing, permission from the State Veterinarian.

B. The State Veterinarian shall not approve the importation, manufacture, sale, or distribution of any biologic that will interfere with the state's animal disease control programs.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-404 renumbered from Section R3-9-404 (Supp. 91-4). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-405. Depopulation of Animals Infected with a Foreign Animal Disease

When a Foreign Animal Disease is diagnosed, the State Veterinarian may order the owner, agent, or feedlot operator to immediately depopulate and dispose of all infected and exposed animals on the premises if necessary to prevent the spread of the disease among animals.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-405 renumbered from Section R3-9-405 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-406. Disease Control; Designated Feedlots

A. Designated feedlots are subject to the following restrictions:

B. A designated feedlot shall have a restricted feeding pen. A restricted feeding pen shall:

1. Be isolated from all other pens,
2. Have separate loading and unloading chutes, alleys, and handling facilities from all other pens,
3. Not share water or feeding facilities accessible to other areas,
4. Be posted at all corners with permanently affixed signs stating "Restricted Feeding Area,"
5. Have a minimum of eight feet between restricted and other pens and facilities, and
6. Have no common fences or gates with other pens.

C. An operator may place diseased cattle or bison that are under state quarantine into a restricted feeding pen as follows:

1. All cattle or bison, except steers and spayed heifers, shall be branded with an "F" at least two inches in height, adjacent to the tailhead before entering the pen; and
   a. Imported cattle or bison, of any age and from any area shall be transported under seal and shall be accompanied by an entry permit number and a Certificate of Veterinary Inspection or federal restricted movement document; or
   b. Native Arizona cattle or bison shall be accompanied by an Arizona livestock inspection certificate, as approved by the State Veterinarian or designee.

D. An operator may move cattle or bison from a restricted feeding pen to slaughter or to another designated feedlot only by prior written approval of the State Veterinarian or APHIS veterinarian.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-406 renumbered from Section R3-9-406 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-407. Disease Control; Equine Infectious Anemia

A. The Arizona official test for EIA is either the agar-gel immunodiffusion test, known as the Coggins Test, or the Competitive Enzyme-Linked Immunosorbent Assay test, known as the CELISA test. The test shall be performed in a laboratory approved by APHIS, and required samples shall be drawn by an accredited veterinarian, the State Veterinarian, the State Veterinarian's designee, or an APHIS veterinarian.

B. Disposal of equine testing positive.

1. When an Arizona equine tests positive to EIA, the testing laboratory shall notify the State Veterinarian by telephone at (602) 542-4293 and email at diseasereporting@azda.gov, within four hours.
2. The EIA-positive equine shall be quarantined at its current location, segregated from other equine, and shall not be moved unless authorized by the State Veterinarian. The equine shall be retested by the State Veterinarian, the State Veterinarian's designee, or an APHIS veterinarian within two weeks of the notification.
3. Within 14 days of being notified by the testing laboratory of a positive test conducted under subsection (B)(2), the State Veterinarian or the State Veterinarian's designee

shall brand the equine on the left side of its neck with "86A" not less than two inches in height.

4. Within 10 days after being branded, the EIA-positive equine shall be:
   a. Humanely destroyed,
   b. Confined to a screened stall marked "EIA Quarantine" that is at least 200 yards from other equine, or
   c. Consigned to slaughter at a slaughtering establishment. If consigned to slaughter, the equine shall be accompanied by a Permit for Movement of Restricted Animals, VS 1-27, issued by the State Veterinarian, the State Veterinarian's designee, or an APHIS veterinarian.
5. Offspring of mares testing EIA-positive shall be quarantined, segregated from other equine, and tested for EIA at six months of age. Offspring testing positive shall be handled as prescribed in subsections (B)(3) and (B)(4).
6. If an EIA-positive equine is located on premises other than those of the owner at the time a quarantine under this Section, the State Veterinarian may authorize movement of the EIA-positive equine to the owner's premises if requested by the owner. Movement shall be under the direct supervision of the State Veterinarian or the State Veterinarian's designee. If the owner lives in another state, the owner may move the equine to that state with the permission of the chief livestock health official of the state and APHIS.

C. The State Veterinarian shall require testing of any equine located in the same facility as the EIA-positive equine or any equine considered exposed to the EIA-positive equine. The owner of the equine tested shall pay the expenses for the testing.

D. The owner of any equine found to be EIA-positive shall not be indemnified by the state for any loss caused by the destruction or loss of value of the equine.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-407 renumbered from Section R3-9-407 (Supp. 91-4). Amended effective February 4, 1998 (Supp. 98-1). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-408. Disposition of Livestock Exposed to Rabies

Livestock bitten by a known or suspected rabid animal shall be handled using the methods prescribed in the NASPHV Compendium of Animal Rabies Control.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-408 renumbered from Section R3-9-408 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final rulemaking at 30 A.A.R. 311 (February 16, 2024), effective March 24, 2024 (Supp. 24-1).

R3-2-409. Rabies Vaccines for Animals

A. All animals in Arizona vaccinated against rabies shall be vaccinated as prescribed in the NASPHV Compendium of Animal Rabies Control.

B. A person who is not a licensed veterinarian may be certified as a rabies vaccinator by a licensed veterinarian after completing the approved rabies-vaccinator curriculum. Initial certification shall be valid for one year and renewals after the first year shall be valid for two years. Each renewal shall only be granted upon completion of the current rabies-vaccinator curriculum.

C. Anti-rabies vaccines may be administered under the supervision of a licensed veterinarian or by a Certified Rabies Vaccinator to animals on the premises of shelters before release.

D. Duties and responsibilities of the Certified Rabies Vaccinator are to:

1. Abide by all local, state, and federal laws and regulations pertaining to the operation of a shelter, including those laws and regulations governing possession and use of anti-rabies vaccine.
2. Comply with the Compendium of Animal Rabies Prevention and Control, including storage of anti-rabies vaccine at the required temperature, and administration of anti-rabies vaccine in an aseptic manner that meets the current standards of veterinary practice.
3. Refer for appropriate treatment domestic animals that experience an adverse event to a licensed veterinarian; and report the adverse event to the supervising veterinarian and the vaccine manufacturer.
4. Procure anti-rabies vaccine through the state veterinary license number of the supervising veterinarian.
5. A Rabies Certificate must be completed in full for every vaccinated domestic animal, shall include the legible name of the Certified Rabies Vaccinator, and shall be signed by the Certified Rabies Vaccinator or supervising veterinarian.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Amended effective October 16, 1986 (Supp. 86-5). Amended effective January 6, 1989 (Supp. 89-1). Section R3-2-409 renumbered from Section R3-9-409 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final rulemaking at 30 A.A.R. 311 (February 16, 2024), effective March 24, 2024 (Supp. 24-1).

R3-2-409.01. Requirements of Certified Rabies Vaccinator Approved Curriculum; Recordkeeping; Inspection

A. Approved curriculum training shall include an instructional section and a practical exam showing competency; and shall include, but not be limited to, the following topics:

1. Anatomy.
2. Personnel safety.
3. Acceptable methods of disposal of supplies.
4. Humane methods of handling domestic animals.
5. Proper vaccine storage and handling.
6. Proper vaccine administration.
7. Record keeping.

8. Management and reporting of adverse events.

B. These rules are provided as components of a certified rabies-vaccinator program, and no fee shall be charged by the State Veterinarian, however the State Veterinarian takes no position on establishment of reasonable fees by a supervising veterinarian for implementation of a certified rabies-vaccinator program.

C. The Certified Rabies Vaccinator shall keep records of all vaccination-related activities for three years including, but not limited to:
1. Rabies certificates.
2. Adverse event reports, including reports of human exposure to rabies vaccines.

D. A shelter is subject to periodic random inspection by the Office of the State Veterinarian. Upon request by the Office of the State Veterinarian, the responsible supervising veterinarian or Certified Rabies Vaccinator shall immediately produce requested records.

E. Following an audit or inspection, if evidence exists of non-compliance with the above standards, the State Veterinarian reserves the right to terminate a Certified Rabies Vaccinator's certification.

Historical Note

New Section made by final rulemaking at 30 A.A.R. 311 (February 16, 2024), effective March 24, 2024 (Supp. 24-1).

R3-2-410. Trichomonas Testing Requirements

A. Definitions. For purposes of this Section, the following definitions shall apply.

"Accredited Veterinarian" means an individual who is currently licensed to practice veterinary medicine in the State of Arizona and is an Accredited Level II by the United States Department of Agriculture, Animal Plant Health Inspection Service.

"Approved Laboratory" means any laboratory designated and approved by the State Veterinarian for examining *T. foetus* samples and reporting all results to the State Veterinarian.

"Bull" means an intact male bovine 12 months of age and older and is not confined to a drylot dairy.

"Change of Ownership" means when a bull is sold, leased, gifted, or exchanged and changes premises for breeding purposes in Arizona.

"Commingle" means cattle of opposite sex in the same enclosure or pasture with a reasonable opportunity for sexual contact.

"Direct to Slaughter" means transporting an animal from site of testing to a sale yard or directly to a slaughter plant without unloading or commingling prior to arrival.

"Official *T. foetus* bull test" means the sampling of a bull by a licensed, accredited veterinarian. Such test must be conducted after at least seven days separation from all female bovine. The bull and sample must be officially and individually identified and documented for laboratory submission. The official laboratory test shall be a polymerase chain reaction (PCR), or other technologies as approved by the State Veterinarian and adopted through a Director's Administrative Order. The test is not considered official until results are reported by the testing laboratory.

"Official *T. foetus* laboratory testing" means the laboratory procedures that shall be approved by the State Veterinarian for identification of *T. foetus*.

"Positive *T. foetus* bull" means a bull that has had a positive official *T. foetus* bull test.

"Tritrichomonas foetus" OR "*T. foetus*" means a protozoan parasite that is the causative agent to the contagious venereal disease Trichomoniasis.

B. Testing requirements for Official *T. foetus*.
1. All Arizona origin bulls sold, leased, gifted, exchanged or otherwise changing possession for breeding purposes in Arizona shall be tested for *T. foetus* via Official *T. foetus* bull test prior to sale or change of ownership in the state, unless going to direct slaughter. *T. foetus* testing shall be performed on bulls prior to change of ownership of that bull.
2. The Official *T. foetus* test shall be collected by an Accredited Veterinarian and performed though an Approved Laboratory.
3. Pooled testing is not an official test.
4. The *T. foetus* negative test is valid for 60 days after the test is performed, providing the bull is kept separated from all female bovine.

C. Positive bull identification.
1. When a positive *T. foetus* bull is identified, the Accredited Veterinarian shall notify the producer upon receipt of the positive test results.
2. Regardless of R3-2-402, the Accredited Veterinarian and Approved Laboratory shall notify the State Veterinarian of a positive *T. foetus* bull within 24 hours of receiving the results. The State Veterinarian's Office, working in coordination with the regional livestock inspection staff, shall to the best of their ability notify the regional bovine producers about the positive test within 14 days upon notification of positive test. The State Veterinarian and/or livestock inspection staff is not required to reveal any details of the test just that there is a positive test in the region.
3. The Accredited Veterinarian that performed the test shall return to place of testing to verify the Official Identification of the positive bull.
4. The Accredited Veterinarian, or a person under direct supervision of the Veterinarian, shall brand the bull with an official "S" brand adjacent to the tailhead on the right hip.
5. If the bull testing positive is not at the premises where the *T. foetus* testing occurred, the Accredited Veterinarian will immediately notify the State Veterinarian's Office.
6. If an Accredited Veterinarian is unable to return to the premises in a time that is reasonable for sale of the bull, the producer shall take the positive *T. foetus* bull directly to the regional livestock sale yard.
   a. The producer shall immediately notify the sale yard of the positive *T. foetus* bull. Failure to notify the sale yard of the positive *T. foetus* bull will result in a violation of this Section and the producer shall be subject to the penalties of A.R.S. § 3-1205(D).
   b. Prior to sale at the sale yard, a Livestock Officer shall verify the official identification of the positive *T. foetus* test bull.
   c. After the official identification is verified, the bull shall be branded with an official "S" brand adjacent to the tailhead on the right hip. The branding shall be

done under direct supervision of a Livestock Officer or Livestock Inspector.

7. If a bull arrives at a livestock auction without an Official *T. foetus* bull test, the bull shall be quarantined at the auction and tested at the expense of the owner or shall be branded with an "S" brand and be sold only for slaughter.

D. Disposal of bull testing positive.

1. A bull testing positive for *T. foetus* or branded with the official "S" brand shall go direct to slaughter or shall be placed under State Quarantine and fed in a restricted feeding pen within a designated feedlot according to R3-2-406.
2. The *T. foetus* positive bull shall not be commingled with any other female bovine. The bull shall go from the testing premises to direct slaughter or to the restricted feeding pen within 30 days of the positive *T. foetus* test.
3. All remaining herd bulls shall be under a Trichomonas Herd Management Program overseen by the Herd Veterinarian until two negative *T. foetus* tests are performed and documented.
4. "S" branded bulls purchased at a sale yard shall go direct to a slaughter plant without unloading or commingling prior to arrival.

E. Trespassing or Stray Bulls.

1. In the event of a trespassing or stray bull, the herd owner who locates the bull, may request an Official *T. foetus* bull test for that bull. In the event of a positive Official *T. foetus* bull test, subsections (B) and (C) shall apply.
2. The cost of the veterinary services and Official *T. foetus* bull test shall be the responsibility of the herd owner. In the event of a stray bull, the animal will be subject to A.R.S. §§ 3-1401 et seq.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020; new Section made by final rulemaking at 26 A.A.R. 812, effective June 8, 2020 (Supp. 20-2).

R3-2-411. Repealed

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 4812, effective December 7, 2000 (Supp. 00-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by exempt rulemaking under Laws 2016, Ch. 160, § 9 at 22 A.A.R. 2400, effective August 6, 2016 (Supp. 16-3). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-412. Repealed

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3628, effective August 7, 2002 (Supp. 02-3). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-413. Sheep and Goats; Intrastate Movement

A. Before intrastate movement of a sheep more than 18 months of age, or a sheep or goat of any age not in a slaughter channel, the producer shall identify the animal to the flock of birth using official identification before leaving the flock of birth. A sheep or goat not in a slaughter channel includes an animal not for sale, transfer, or movement to:

1. A slaughter facility,
2. Custom slaughter, or
3. A feeding operation before movement to slaughter.

B. Subsection (A) does not apply if the first point of commingling with animals other than those in the flock of birth is an Arizona auction market that is an approved tagging site.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3628, effective January 1, 2003 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

ARTICLE 5. STATE-FEDERAL COOPERATIVE DISEASE CONTROL PROGRAM

R3-2-501. Tuberculosis Control and Eradication Procedures

A. Procedures for tuberculosis control and eradication in cattle, bison, and goats shall be as prescribed in 9 CFR Part 77 as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Office of the Secretary of State.

B. Procedures for tuberculosis control and eradication in cervidae not listed as restricted live wildlife in A.A.C. R12-4-406 shall be as prescribed in 9 CFR 77 Subpart C as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Office of the Secretary of State.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Amended subsection (A) effective October 16, 1986 (Supp. 86-5). Section R3-2-501 renumbered from Section R3-9-501 (Supp. 91-4). Amended effective March 5, 1997 (Supp. 97-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-502. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-502 renumbered from Section R3-9-502 (Supp. 91-4). Amended effective March 5, 1997 (Supp. 97-1). Section repealed by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1).

R3-2-503. Brucellosis Control and Eradication Procedures

A. Procedures for brucellosis control and eradication in cattle and bison shall be as prescribed in 9 CFR 78 as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department.

B. Procedures for brucellosis control and eradication in swine shall be as prescribed in 9 CFR 78 Subpart D as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department.

C. Procedures for brucellosis control and eradication in animals not listed as restricted live wildlife in A.A.C. R12-4-406, shall be as prescribed in the USDA publication, Brucellosis in Cervidae: Uniform Methods and Rules, effective September 30, 2003. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Amended effective October 16, 1986 (Supp. 86-5). Amended effective January 6, 1989 (Supp. 89-1). Section R3-2-503 renumbered from Section R3-9-503 (Supp. 91-4). Amended March 5, 1997 (Supp. 97-1). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-504. Pseudorabies Procedures for Eradication

Procedures for pseudorabies control and eradication in swine shall be as prescribed in 9 CFR 85 as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department.

Historical Note

Adopted effective March 5, 1997 (Supp. 97-1). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-505. Scrapie Procedures for Eradication

The Department controls and eradicates scrapie using the procedures outlined in 9 CFR 79 as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions, and is on file with the Department.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3628, effective August 7, 2002 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

ARTICLE 6. HEALTH REQUIREMENTS GOVERNING ADMISSION OF ANIMALS

R3-2-601. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-601 renumbered from Section R3-9-601 (Supp. 91-4). Amended effective March 5, 1997 (Supp. 97-1). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-602. Importation Requirements

A. All animals transported or moved into the state of Arizona, shall be accompanied by a valid, official Certificate of Veterinary Inspection from the state of origin, or a VS 9-3 form for National Poultry Improvement Plan flocks. All animals shall be imported in accordance with this Section and the species-specific Section in this Article. Any violation of this Article is subject to a hold order pursuant to R3-2-605.

B. Livestock may not enter the state of Arizona unless accompanied by an Arizona entry permit number documented on the Certificate of Veterinary Inspection. This requirement applies regardless of the species, breed, sex, class, age, point of origin, place of destination, or purpose of the movement of the livestock entering the state, except:

1. Equine;
2. Livestock consigned directly to slaughter at a state or federally licensed slaughter establishment; or
3. Livestock being transported through the state.

C. An animal affected with or recently exposed to any infectious, contagious, or communicable disease, or which originates in a state or federal quarantine area, shall not be transported or moved into the state of Arizona unless a permit for the entry is first obtained from the Arizona State Veterinarian's Office. All conditions for the movement of animals from a quarantined area established by the quarantining authority or APHIS shall be met. Animals imported from a quarantine area may be subject to additional import requirements by the State Veterinarian prior to entry into Arizona.

D. The owner or owner's agent shall obtain prior permission from the State Veterinarian to ship or move into the state of Arizona any animal from a lot or herd from which an animal shows clinical signs of disease or positive reaction to a test required for admission to Arizona.

E. The Director may enter into an agreement to allow New Mexico livestock consigned directly to an Arizona livestock auction to enter the state on a New Mexico brand inspection certificate in place of a Certificate of Veterinary Inspection. If the agreement is entered, it shall be posted on the Arizona Department of Agriculture's website. In the event the agreement is terminated or expires, the Department shall put notice of the termination on the website. The livestock owner or owner's agent is responsible for ensuring that the agreement is current prior to shipping the livestock. This process is subject to the restrictions included in the agreement.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-602 renumbered from Section R3-9-602 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-603. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section

R3-2-603 renumbered from Section R3-9-603 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-604. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-604 renumbered from Section R3-9-604 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-605. Hold Order for Animals Entering Illegally

A. Animals entering the state in violation of any Section under this Article, may be placed under a hold order at the risk and expense of the owner until released by an authorized representative of the State Veterinarian. Animals placed under a hold order for noncompliance with this Article may be released only after the State Veterinarian is satisfied by testing, dipping, or observation over time, that the animals are not a threat to the livestock industry.

B. The State Veterinarian may order that an imported animal failing to meet entry requirements be returned to the state of origin, consigned directly to slaughter, confined to a designated feedlot, or consigned to a feedlot in another state within two weeks of the request. Any extension to this time-frame must be approved in writing by the State Veterinarian.

C. If the owner or owner's agent fails to comply with an order to return an animal to the state of origin within the time-frame required in subsection (B), the Department shall require that the animal be immediately gathered and tested at the owner's risk and expense to avoid exposure of Arizona animals to disease. The owner shall pay the expenses no later than five days after receipt of the bill. Failure to do so will result in an auction of sufficient livestock to pay the expenses which shall be held within 10 days at public auction. If additional expenses occur due to lack of cooperation by the owner or the owner's agent, the Director shall order the further sale of livestock.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Former Section R3-9-605 renumbered to R3-2-605 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-606. Certificate of Veterinary Inspection

A. A Certificate of Veterinary Inspection is valid for not more than 30 days after the date of issue, except where otherwise noted in this Article, and shall contain:
1. The name and address of the Consignor and Consignee;
2. The physical address of the origin of the animal;
3. The physical address of the animal's final destination;
   a. Entry permit number if applicable;
   b. Official identification if applicable; and
   c. Certificate of Veterinary Inspection individual certificate number.
   d. Qualifying required tests with completion dates.

B. The Certificate of Veterinary Inspection shall be forwarded to the State Veterinarian in Arizona within 14 days of issue.

C. A VS form 17-30 is deemed a valid international CVI if the following conditions are met:
1. Accompanied by a valid brand inspection certificate from a southern border state with an entry permit number; and
2. Official identification as documented on the VS form 17-30.

D. Official Certificates of Veterinary Inspection may be used in electronic or paper form.

E. Additions, deletions, and unauthorized or uncertified changes inserted or applied to a Certificate of Veterinary Inspection renders the certificate void and may be subject to state or federal penalties.

F. The veterinarian issuing a Certificate of Veterinary Inspection shall certify that the animals shown on the Certificate of Veterinary Inspection are free from evidence of any infectious, contagious, or communicable disease or known exposure.

G. An accredited veterinarian shall inspect animals for entry into the state.

H. The Director may limit the period for which a Certificate of Veterinary Inspection is valid to less than 30 days if advised by the State Veterinarian of the occurrence of a disease that constitutes a threat to the livestock industry.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-606 renumbered from Section R3-9-606 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 8 A.A.R. 3628, effective August 7, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 884, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-607. Entry Permit Number

A. An entry permit number for interstate movement may be obtained from the Office of the State Veterinarian, by calling (602) 542-4293 during the hours of 8 a.m. to 5 p.m. Monday through Friday, excluding state holidays. Any person applying for an entry permit number shall provide the following information:
1. The name and address of the Consignor and Consignee;
2. The number and kind of animals;
3. The physical address of the origin of shipment;
4. The physical address of the shipment's final destination;
5. The method of transportation; and
6. Any other information required by the State Veterinarian.

B. An entry permit number is valid for a maximum of 30 calendar days from the date of issuance unless otherwise indicated on the CVI.

C. An entry permit number shall be issued if the animals listed on the Certificate of Veterinary Inspection are in compliance with this Article. To cope with changing disease conditions, the State Veterinarian may refuse to issue an entry permit number or may require additional conditions not specifically established in this Article if necessary to protect animal health in Arizona.

D. The entry permit number issued shall be affixed or written on the Certificate of Veterinary Inspection, brand inspection certificate, and any other official documents as follows: "Arizona Permit No. _____" followed by the serialized number.

E. The State Veterinarian shall refuse to grant an entry permit number to any person who repeatedly commits the following:

1. Giving false information concerning an entry permit number for transportation of animals,
2. Failing to fulfill the conditions of an entry permit number, or
3. Failing to obtain an entry permit number.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-607 renumbered from Section R3-9-607 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-608. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-608 renumbered from Section R3-9-608 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Repealed by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-609. Diversion; Prohibitions

A person consigning, transporting, or receiving an animal into the state of Arizona shall not authorize, order, or carry out diversion of the animal to a destination or consignee other than as set forth on the Certificate of Veterinary Inspection and entry permit, if required, without first obtaining permission from the State Veterinarian.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-609 renumbered from Section R3-9-609 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-610. Tests; Official Confirmation

A state or federal animal diagnostic laboratory or APHIS-approved laboratory shall perform or confirm any animal testing required by a state or federal authority as a condition for entry into Arizona.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-610 renumbered from Section R3-9-610 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4).

R3-2-611. Transporter Duties

A. All owners and operators of railroads, trucks, airplanes, or other conveyances transporting animals into or through the state shall possess all of the importation documents required by this Article. These documents shall be attached to the waybill, or be in the possession of the vehicle driver, or person in charge of the animals. When a single Certificate of Veterinary Inspection and entry permit number is issued for animals being moved in more than one vehicle, the driver of each vehicle shall possess the original or a copy of the Certificate of Veterinary Inspection containing the entry permit number, if required.

B. The owner or operator of a railroad car, truck, airplane, or other conveyance used to transport animals into or through the state shall maintain the conveyance in a clean and sanitary condition.

C. The owners and operators of railroads, trucks, airplanes, or other conveyances who transport animals into the state in violation of this Section shall clean and disinfect the conveyance in which the animals were illegally brought into the state before using the conveyance for transporting more animals. The cleaning and disinfection shall be performed under the supervision of an authorized representative of the State Veterinarian or the USDA.

D. The owners or operators of railroads, trucks, airplanes, or other conveyances shall follow the USDA requirements and Arizona Department of Agriculture rules and statutes, in the humane transport of animals into, within, or through the state.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-611 renumbered from Section R3-9-611 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-612. Importation of Cattle and Bison

A. The Certificate of Veterinary Inspection for cattle and bison shall include:

1. A valid entry permit number.

2. The number of cattle and bison covered by the Certificate of Veterinary Inspection, an accurate description and official identification, if applicable except for "F" branded heifers consigned to a designated feedlot identified by brand.
3. The health status of the cattle and bison including:
   a. The date of the inspection;
   b. The dipping date, if applicable;
   c. The date of negative results for required testing under this Article; and
   d. The vaccination status as required by this Article.
4. The method of transportation; and
5. For bulls subject to testing under R3-2-612(I), a statement that the bulls:
   a. Tested negative for Tritrichomonas foetus within 30 days prior to shipment using a polymerase chain reaction test; and
   b. Have had no breeding activity during the interval between the collection of the samples and the date of shipment.

B. The owner of cattle and bison entering Arizona or the owner's agent shall comply with the requirements in this Article. Failure to comply with entry requirements will incur the following conditions:
1. Pay the expenses incurred by a hold order to test and retest the imported cattle or bison or return them to the state of origin.
2. For imported beef breeding cattle, breeding bison, and dairy cattle, ensure that an accredited veterinarian applies official identification to each bovine or bison.

C. Arizona shall not accept:
1. Cattle or bison from brucellosis infected, exposed, or quarantined herds regardless of their vaccination or test status, or both, except:
   a. Steers and spayed females, and
   b. Cattle or bison shipped directly for immediate slaughter to an official state or federal slaughter establishment;
2. Cattle or bison of unknown brucellosis exposure status, unless consigned for feeding purposes to a designated feedlot;
3. Dairy cattle from a state or region within a foreign country without brucellosis status comparable to a Class-Free State, or without tuberculosis status comparable to an Accredited-Free State;
4. Dairy and dairy cross steers, and dairy and dairy cross spayed heifers from Mexico;
5. Beef breeding cattle or breeding bison from a state or region within a foreign country without brucellosis status comparable to a Class A State, or without tuberculosis status comparable to a Modified Accredited State.

D. Brucellosis testing requirements for beef breeding cattle, breeding bison, and dairy cattle imported into Arizona from other states.
1. Brucellosis testing is not required in dairy and beef cattle from a brucellosis Class-Free State that does not have free-ranging brucellosis infected bison or wildlife.
2. Brucellosis not required for any cattle or bison consigned to a designated feedlot that are branded with an "F" adjacent to the tail head as long as the State Veterinarian grants permission to apply the "F" brand upon arrival. All "F" branded cattle or bison that leave the designated feedlot shall be shipped directly to:
   a. An official state or federal slaughter establishment for immediate slaughter,
   b. Another designated feedlot, or
   c. Another state if shipping is permitted by the State Veterinarian in the state of destination.
3. All female dairy cattle four months of age or older, imported into Arizona, shall be official calfhood vaccinates, officially identified, certified, and legibly tattooed except for the following:
   a. Show cattle for exhibition,
   b. Cattle consigned directly to an official state or federal slaughter establishment for immediate slaughter, and
   c. Cattle consigned for feeding purposes to a designated feedlot with an entry permit number.
4. For beef breeding cattle, breeding bison, and dairy breeding cattle from a Class A state the owner or owner's agent:
   a. Shall ensure that the cattle remain under quarantine and isolation until the cattle test negative for brucellosis. The test shall be performed no earlier than 45 days and no later than 120 days after entry.
   b. Shall retest dairy cattle if the State Veterinarian determines there is a potential risk of the introduction of brucellosis in the state.
   c. Is not required to quarantine or test for brucellosis official calfhood vaccinates less than 18 months of age, if permission is granted by the State Veterinarian.
5. The owner or owner's agent:
   a. Shall notify the State Veterinarian within seven days of moving cattle or bison that are under quarantine from the destination listed on the import permit and Certificate of Veterinary Inspection.
   b. Shall notify the State Veterinarian at the time animals are retested for brucellosis, if the animals are under quarantine and are not moved from the destination listed on the import permit and Certificate of Veterinary Inspection.
   c. Is not required to notify the State Veterinarian if the cattle or bison are shipped directly to an official state or federal slaughter establishment for immediate slaughter.

E. Tuberculosis testing requirements for beef breeding cattle, breeding bison, and dairy cattle imported into Arizona from other states.
1. No tuberculosis test is required for:
   a. Beef breeding cattle or breeding bison, from a tuberculosis accredited Free State if the state accredited status is documented on the Certificate of Veterinary Inspection and entry permit; or
   b. Steers and spayed heifers.
2. Beef breeding cattle and breeding bison from a Tuberculosis Modified Accredited State or Tuberculosis Class Free State with a Tuberculosis Quarantine in effect, shall test negative for Bovine Tuberculosis within 60 days prior to entry into Arizona.
3. All dairy breeding cattle greater than 120 days of age shall test negative for Bovine Tuberculosis within 60 days prior to entry into Arizona.

F. Brucellosis testing requirements for beef breeding cattle, breeding bison, and dairy cattle imported into Arizona from Mexico.

1. Prior to entry into Arizona, beef breeding cattle, breeding bison, or dairy cattle from Mexico shall meet the requirements of 9 CFR 93.424 through 93.427, as revised on January 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007.
2. The owner or owner's agent shall ensure that beef breeding cattle, breeding bison, and dairy cattle from Mexico remain under import quarantine and isolation until tested negative for brucellosis. The test shall not be performed earlier than 60 days nor later than 120 days after entry into Arizona. All cattle or bison consigned to a designated feedlot shall be branded with an "F" adjacent to the tail head before entry into Arizona unless the State Veterinarian grants permission to apply the "F" brand on arrival. Unless neutered, all beef breeding cattle, breeding bison, and dairy cattle leaving the designated feedlot shall go directly to an official state or federal slaughter establishment for immediate slaughter or to another designated feedlot. The owner of the designated feedlot shall ensure that official identification records are kept on all incoming consignments and then submit the records monthly to the State Veterinarian. An accredited veterinarian shall identify, on a form approved by the State Veterinarian, all cattle and bison leaving the designated feedlot. A copy of the form shall accompany the cattle or bison to slaughter and a copy shall be submitted to the State Veterinarian.
3. Dairy cattle from Mexico shall test for brucellosis again 30 days after calving, unless the dairy cattle were consigned directly to a feedlot.

G. Tuberculosis testing requirements for cattle and bison imported into Arizona from Mexico.

1. Prior to entry into Arizona, cattle and bison from Mexico shall meet the requirements of 9 CFR 93.424 through 93.427 as revised on January 1, 2018, incorporated by reference in subsection (F)(1).
2. Steers and spayed heifers from states or regions in Mexico shall not enter the state if they have not been determined by the State Veterinarian to have fully implemented the Control, Eradication, or Free Phase of the bovine tuberculosis eradication program of Mexico.
3. Steers and spayed heifers from states or regions in Mexico determined by the State Veterinarian to have fully implemented the Control Phase of the bovine tuberculosis eradication program of Mexico shall not be imported into Arizona without permission of the State Veterinarian.
4. Steers and spayed heifers from states or regions in Mexico determined by the State Veterinarian to have fully implemented the Eradication Phase of the bovine tuberculosis eradication program of Mexico may be imported into Arizona, if they have either:
   a. Tested negative for tuberculosis in accordance with procedures equivalent to the 9 CFR Part 77 as amended on January 9, 2013 within 60 days before entry into the United States, or
   b. Originated from a herd that is equivalent to an accredited herd in the United States and are moved directly from the herd of origin across the border as a single group and not commingled with other cattle or bison before arriving at the border.
5. Steers and spayed heifers from states or regions in Mexico determined by the State Veterinarian to have achieved the Free Phase of the bovine tuberculosis eradication program of Mexico may move directly into Arizona without testing or further restrictions if they are moved as a single group and not commingled with other cattle before arriving at the border.
6. Beef breeding cattle and breeding bison from states or regions in Mexico may be imported into Arizona if the State Veterinarian determines the Eradication or Free Phase of the bovine tuberculosis eradication program of Mexico has been fully implemented and the breeding cattle and breeding bison remain under quarantine and isolation until retested negative for tuberculosis in accordance 9 CFR Part 77 as revised on January 1, 2018. The test shall be performed not earlier than 60 days but not later than 120 days after entry unless consigned to a designated feedlot for feeding purposes only. Unless neutered, all beef breeding cattle or breeding bison consigned to a designated feedlot shall be branded with an "F" adjacent to the tail head before entry into Arizona, unless permission is granted by the State Veterinarian to apply the "F" brand on arrival. All beef breeding cattle or breeding bison leaving the designated feedlot shall go directly to an official state or federal slaughter establishment for immediate slaughter or to another designated feedlot. The owner of the designated feedlot shall ensure that official identification records are kept on all incoming consignments and submit the records monthly to the State Veterinarian. An accredited veterinarian shall identify, on a form approved by the State Veterinarian, all beef breeding cattle and breeding bison leaving the designated feedlot. A copy of the form shall accompany the cattle and bison to slaughter and a copy shall be submitted to the State Veterinarian.

H. Bovine scabies requirements.

1. The owner or owner's agent shall ensure that no cattle or bison affected with or exposed to scabies is shipped, trailed, driven, or otherwise transported or moved into Arizona except cattle or bison identified and moving under a VS Form 1-27 and seal for immediate slaughter at an official state or federal slaughter establishment.
2. The owner or owner's agent of cattle or bison from an official state or federal scabies quarantined area shall comply with the requirements of 9 CFR 73, Scabies in Cattle, as revised on January 1, 2018, before moving the cattle or bison into Arizona. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department.
3. The State Veterinarian may require that breeding and feeding cattle and bison from known scabies infected areas and states be dipped or treated even if the animals are not known to be exposed. The State Veterinarian shall require that dairy cattle be dipped only if the animals are known to be exposed; otherwise an accredited veterinarian's examination and certification shall be sufficient.

I. Trichomoniasis requirements for bulls imported into Arizona from other states.

1. The owner or owner's agent shall ensure bulls:
   a. Test negative for Tritrichomonas foetus within 30 days prior to shipment using a polymerase chain reaction test or a diagnostic test approved by the state veterinarian, except for bulls:
      i. Less than 12 months of age,
      ii. Consigned directly to a state or federal licensed slaughter facility,

iii. Consigned directly to a dairy,
iv. Consigned directly to an exhibition or rodeo,
v. Consigned directly to a licensed feedlot for castration on arrival,
vi. Branded with an "F" adjacent to the tailhead and consigned directly to a designated feedlot for feeding and later movement directly to slaughter, and

b. Have no breeding activity during the interval between the collection of a sample and the date of shipment.
c. The following statements documented on the CVI in reference to R3-2-612(A)(5):
i. Test negative for Tritrichomonas foetus within 30 days prior to shipment using a polymerase chain reaction test; and
ii. Have had no breeding activity during the interval between the collection of the samples and the date of shipment.

2. An accredited veterinarian approved to collect samples for Tritrichomonas foetus testing by the state animal health official in the state of origin shall collect the Tritrichomonas foetus test samples.
3. A laboratory approved to conduct tests for Tritrichomonas foetus by the state animal health official in the state of origin shall perform the test for Tritrichomonas foetus.

J. For purposes of this Section beef breeding cattle means intact beef cattle.

Historical Note
Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-612 renumbered from Section R3-9-612 (Supp. 91-4). Amended effective March 5, 1997 (Supp. 97-1). Amended effective February 4, 1998 (Supp. 98-1). Amended by final rulemaking at 14 A.A.R. 884, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-613. Importation of Swine

A. A Certificate of Veterinary Inspection for swine shall include:
1. A valid entry permit number;
2. The following statements recorded on the CVI;
a. The swine listed on this CVI have never been fed garbage; and
b. The swine listed on this CVI have not been vaccinated for pseudorabies;
3. Official Identification; and
4. If applicable, the validated brucellosis-free herd number and last test date for swine originating from a validated brucellosis-free herd.

B. Brucellosis test requirements. Swine imported into Arizona from other states shall:
1. Originate from a validated swine brucellosis-free herd or from a swine brucellosis-free state; or
2. Test negative for brucellosis within 30 days before entry.

C. For purposes of this Section, breeding swine means intact swine that have had breeding activity.

D. It is unlawful for any person to import into the state of Arizona live feral swine. Any person or corporation owning or possessing a live feral swine in this state shall at all times keep such feral swine in a safe and suitable enclosure so that it may not run at large or damage the person or property of others. For purposes of this Section, feral swine means a hog, boar, or pig that appear to be untamed, undomesticated, or in a wild state; or appear to be contained for commercial hunting or trapping.

Historical Note
Adopted effective August 19, 1983 (Supp. 83-4). Amended effective June 29, 1984 (Supp. 84-3). Section R3-2-613 renumbered from Section R3-9-613 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 4812, effective December 7, 2000 (Supp. 00-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-614. Importation of Sheep and Goats

A. A Certificate of Veterinary Inspection for sheep and goats shall include:
1. A valid entry permit number; and
2. A statement that:
a. The sheep or goats are not infected with bluetongue, or exposed to scrapie, and do not originate from a scrapie-infected or source flock; and
b. The sheep or goats test negative for Brucella ovis if a test is required by subsection (B); and if applicable
c. Breeding rams have been individually examined and are free of gross lesions of ram epididymitis.

B. A breeding ram six months of age or older shall test negative for Brucella ovis within 30 days of entry or originate from a certified brucellosis-free flock. An exhibition ram that returns to the out-of-state flock of origin within five days of the conclusion of the exhibit is exempt from the testing requirement of this subsection.

C. Arizona native commercial flocks participating in a Brucella ovis control program through testing performed by an accredited and licensed veterinarian may return to Arizona from another state without testing, provided the flock has not commingled with other flocks.

Historical Note
Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-614 renumbered from Section R3-9-614 (Supp. 91-4). Amended by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 8 A.A.R. 3628, effective August 7, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-615. Importation of Equine

A. A Certificate of Veterinary Inspection for equine shall include:
1. An accurate identification for each equine including age, sex, breed, color, name, brand, tattoo, scars, microchip if any, and distinctive markings; and
2. A statement that the equine has a negative test for EIA, including:
a. The date and results of the test;
b. The name of the testing laboratory; and
c. The laboratory accession number.

B. Equine entering the state are not required to obtain an entry permit number.

C. All equine six months of age or older shall, using a test established in R3-2-407(A), test negative for EIA within 12 months before entry. Testing expenses shall be paid by the owner.

D. Extended Equine Certificates of Veterinary Inspection (EECVI) are valid for the life of the certificate (up to 6 months) in the state of Arizona. The equine listed on the EECVI shall be officially identified with a microchip.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-615 renumbered from Section R3-9-615 (Supp. 91-4). Amended effective February 4, 1998 (Supp. 98-1). Amended by final rulemaking at 8 A.A.R. 3628, effective August 7, 2002 (Supp. 02-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-616. Importation of Cats and Dogs

A dog or cat shall be accompanied by a Certificate of Veterinary Inspection that documents the animal is currently vaccinated against rabies if older than three months of age according to the requirements of the National Association of State Public Health Veterinarians' Compendium of Animals Rabies Control, incorporated by reference in R3-2-409.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-616 renumbered from Section R3-9-616 (Supp. 91-4). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-617. Importation of Poultry

Poultry entering the state shall appear healthy, not originate from a poultry quarantine area, comply with all interstate requirements of APHIS, and be accompanied by a Certificate of Veterinary Inspection or Form 9-3 from the National Poultry Improvement Program.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-617 renumbered from Section R3-9-617 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Repealed by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-618. Importation of Psittacine Birds

A. The owner or the owner's agent of a psittacine bird entering Arizona shall obtain a Certificate of Veterinary Inspection issued by a veterinarian within 30 days of entry, certifying:

1. The bird is not infected with the agent that causes avian chlamydiosis, and
2. The bird was not exposed to birds known to be infected with avian chlamydiosis within the past 30 days.

B. The Certificate of Veterinary Inspection shall accompany the psittacine bird at the time of entry into Arizona.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-618 renumbered from Section R3-9-618 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Repealed by emergency rulemaking at 22 A.A.R. 1750, effective immediately upon filing, June 22, 2016, as determined by the attorney general, for 180 days at 22 A.A.R. 1750 (Supp. 16-2). Emergency expired December 19, 2016 (Supp. 16-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-619. Repealed

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-619 renumbered from Section R3-9-619 (Supp. 91-4). Section repealed by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1).

R3-2-620. Importation of Zoo Animals

A. An owner or owner's agent may transport or move zoo animals into the state of Arizona if the animals are accompanied by an official Certificate of Veterinary Inspection, and consigned to a zoo or in the charge of a circus or show.

B. The owner, or owner's agent, of livestock except swine and equine in a "Petting Zoo" shall have the livestock tested for tuberculosis within 12 months before importation. A negative test result is required for entry into Arizona.

C. A business that transports or exhibits zoo animals shall be licensed by the Arizona Game and Fish Department.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-620 renumbered from Section R3-9-620 (Supp. 91-4). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-621. Expired

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Amended by final rulemaking at 14 A.A.R. 876, effective May 3, 2008 (Supp. 08-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 135, effective December 15, 2016 (Supp. 16-4).

R3-2-622. Expired

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 25, effective December 8, 1999 (Supp. 99-4). December 8, 1999 effective date corrected to reflect what is on file in

the Office of the Secretary of State; correct effective date is January 1, 2000 (Supp. 01-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 135, effective December 15, 2016 (Supp. 16-4).

ARTICLE 7. LIVESTOCK INSPECTION

R3-2-701. Department Livestock Inspection

A. A Division employee shall inspect range cattle, as defined in R3-2-702(A), at a ranch if the owner or agent of livestock is:
1. Moving cattle out-of-state,
2. Transferring cattle ownership, or
3. Shipping cattle for custom slaughter.

B. An owner or agent of cattle cannot be issued both non-range and range self-inspection certificates.

C. With prior approval from a Division employee, livestock can be moved to a licensed custom slaughter facility using the livestock owner's or agent's or feedlot operator's self-inspection certificate. A Division employee must validate the self-inspection certificate prior to slaughter.

D. The Department shall not issue a self-inspection certificate to an owner or agent of livestock or feedlot operator if that individual has been convicted of a felony under A.R.S. Title 3 within the three-year period before the date on the self-inspection application. The Department may deny self-inspection to an applicant if within the five-year period before the date on the self-inspection application, the applicant was convicted of any A.R.S. Title 3 offense or an A.R.S. Title 13 offense related to livestock. A Division employee shall inspect livestock if an applicant is denied self-inspection authority.

E. During fiscal year 2024, livestock officers and inspectors shall collect from the person in charge of cattle, dairy cattle, or sheep inspected a service charge of $10 plus the per head inspection fee set out in A.R.S. § 3-1337 for making inspections for the transfer of ownership, sale, slaughter or transportation of the animals.

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-701 renumbered from Section R3-9-701 (Supp. 91-4). Section R3-2-701 repealed; new Section R3-2-701 adopted effective February 4, 1998 (Supp. 98-1). Error in subsection (A)(3) corrected under R1-1-109, filed with the Office of the Secretary of State October 18, 2001 (Supp. 01-3). Amended by final rulemaking at 9 A.A.R. 513, effective April 6, 2003 (Supp. 03-1). Amended by exempt rulemaking at 16 A.A.R. 1331, effective June 29, 2010 (Supp. 10-2). Amended by exempt rulemaking at 17 A.A.R. 1756, effective July 20, 2011 (Supp. 11-3). Amended by exempt rulemaking at 18 A.A.R. 2060, effective August 2, 2012 (Supp. 12-3). Amended by exempt rulemaking at 19 A.A.R. 3127, effective September 14, 2013 (Supp. 13-3). Amended by exempt rulemaking at 20 A.A.R. 2449, effective July 24, 2014 (Supp. 14-3). Amended by exempt rulemaking pursuant to Laws 2015, Ch. 10, § 14, at 21 A.A.R. 2404, effective July 3, 2015 (Supp. 15-3). Amended by final exempt rulemaking at 23 A.A.R. 1937, effective August 9, 2017 (Supp. 17-2). Amended by final exempt rulemaking at 24 A.A.R. 2219, effective August 3, 2018 (Supp. 18-3). Amended by final exempt rulemaking at 25 A.A.R. 2081, effective August 27, 2019 (Supp. 19-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final exempt rulemaking at 26 A.A.R. 1471, effective August 25, 2020 (Supp. 20-3). Amended by final exempt rulemaking at 27 A.A.R. 1264, effective September 29, 2021 (Supp. 21-3). Amended by final exempt rulemaking at 28 A.A.R. 2017 (August 12, 2022), effective September 24, 2022 (Supp. 22-3). Amended by exempt rulemaking at 29 A.A.R. 3483 (November 3, 2023), effective October 30, 2023 (Supp. 23-4).

R3-2-702. Livestock Self-inspection

A. Definitions.

"Dairy" means an owner or agent of a place or premise where one or more lactating animals are kept for milking purposes and from which a part or all of the milk is provided, sold, or offered for sale that meets both of the following conditions: the livestock is not permitted to range and the dairy is permitted by the Department. If these conditions are met, then a Division employee may grant the applicant dairy status.

"Description" means sex, breed, color, and markings, as applicable to the type of livestock.

"Exhibition" means an event including a fair, show, or field day that has as its primary purpose the opportunity for a member of a livestock organization, including 4-H and FFA, to display an animal raised by the individual in a judged competition.

"Feedlot" means an operator of a beef cattle feedlot or feed yard in which the livestock is not permitted to range and that is licensed by the Department. If these conditions are met, then a Division employee may grant the applicant feedlot status.

"Livestock" means cattle, sheep, goats, and swine.

"Livestock broker" means an owner or agent who engages in the business of buying and selling livestock and has immediate possession of the livestock for 10 days or less in which the livestock is not permitted to range. If these conditions are met, then a Division employee may grant the applicant livestock broker status.

"Non-range" means any owner or agent of an enclosed property that is 100 acres or less that meets all of the following conditions: the fence enclosing the livestock is well maintained, the livestock is not permitted to range, and the owner or agent of the livestock lives where the livestock are kept. If these conditions are met, then a Division employee may grant the applicant non-range status.

"Range" means every character of lands, enclosed or unenclosed, outside of cities and towns, upon which livestock is permitted by custom, license or permit to roam and feed. A.R.S. § 3-1201(7)

"Range cattle" means cattle *customarily permitted to roam upon the ranges of the state, whether public domain or in private control, and not in the immediate actual possession or control of the owner although occasionally placed in enclosures for temporary purposes.* A.R.S. § 3-1201(8)

B. Application.
1. Owners or agents of livestock or feedlot operators shall request a book of self-inspection certificates from the Department. The applicant shall submit a written application form obtained from the Department and provide the following information:
   a. Name, mailing address, physical address, telephone number, and email address;
   b. Name of business and type of livestock operation;
   c. Whether the applicant has been convicted of a violation of A.R.S. Title 3, or a violation of A.R.S. Title

13 related to livestock within the past five years, and if so, the case number, court, charge, and sentence;
d. Recorded brand number;
e. Individual or individuals designated to sign self-inspection certificates, if applicable; and
f. Signature and date.

2. The holder of a self-inspection book shall advise the Department within 30 days of any change to the information provided on an application form.
3. The holder of a self-inspection book shall renew registration with the Department every three years from the date the initial or renewal application form is signed.
4. If a holder with self-inspection privileges has been convicted of a criminal violation under A.R.S. Title 3, or a violation of Title 13 related to livestock, that holder shall notify the Department immediately and their privileges shall be revoked.
5. Prior to a Department employee issuing a book of self-inspection certificates, the owner shall submit the following payment amount and the Department shall receive the payment in full prior to issuing the book:
a. $25.00 for a twenty five page feedlot or livestock broker book;
b. $20.00 for a twenty page dairy book; or
c. $10.00 for a ten page non-range, range, sheep, goat, or swine book.

C. Self-inspection certificate.

1. An owner or agent of livestock or feedlot operator shall provide the following information, as applicable, on a self-inspection certificate whenever livestock subject to self-inspection are moved or ownership is transferred:
a. Name, address, and signature, of the owner or agent of livestock or feedlot operator;
b. Date of the shipment or transfer of ownership;
c. If moved, location from which and to which the livestock are moved, including the name of the auction, feedlot, arena, slaughter establishment, pasture, or other premises, and physical location;
d. Name of transporter;
e. Number and description of livestock;
f. Official identification of each dairy cattle and sexually intact cattle over 18 months of age shipped out of state and back tag numbers of culled dairy cattle;
g. Brand number, expiration date, and location;
h. Name and address of buyer;
i. Number of head of cattle sold for which Beef Council fees are payable under A.R.S. §§ 3-1236 and 3-1238.
2. The owner or agent of livestock or feedlot operator shall complete a self-inspection certificate, except when livestock are subject to inspection by a Division employee under R3-2-701, and distribute copies of the certificate as follows:
a. One copy and any fees that are owed under subsection (C)(1)(i) shall be sent to the Department within 10 days after the end of the month in which it was used;
b. If the livestock are shipped, the original certificate shall accompany the livestock whenever they are in transit and one copy shall be retained by the person transporting the livestock; or
c. If ownership of the livestock is transferred without shipment, two copies shall be provided to the new owner or agent of livestock or feedlot operator; and one copy shall be retained by the seller.
3. A certificate may be used once to either transfer livestock ownership or to move livestock to a specific destination. If the livestock are diverted to a destination other than that stated on the self-inspection certificate, the certificate is void. The owner or agent of livestock, or feedlot operator shall complete a new certificate and send both the voided and new certificates to the Department within 10 days after the end of the month in which the certificates are used or voided.
4. An owner or agent of livestock or feedlot operator shall use a self-inspection certificate only with a shipment of livestock matching the description for which the certificate is issued and only for the self-inspection issued date. If any of the information on the self-inspection certificate changes, the certificate is void and the owner or agent of livestock or feedlot operator shall complete a new certificate.
5. An altered, erased, completed but unused, or defaced self-inspection certificate is void. A voided certificate shall be returned to the Department within 10 days after the end of the month in which it is voided.
6. Upon request, certificates shall be returned to the Department by the owner or agent of livestock or feedlot operator. If an operation licensed for self-inspection is sold, leased, transferred, or otherwise disposed of, the owner or agent of livestock or feedlot operator shall notify the Department and return all self-inspection certificates to the Department within 30 days of the transaction.
7. If the owner or agent of livestock or feedlot operator cannot find an unused or used certificate, they must sign an affidavit provided by the Department verifying the certificate is lost and cannot be found. New certificates will not be issued until the signed affidavit has been received by the Department.

D. Sale of livestock. A seller shall document a sale by completing a self-inspection certificate as prescribed in subsection (C) and providing a bill of sale to the purchaser as required under A.R.S. § 3-1291.

E. Feedlot receiving form.

1. The operator of a feedlot shall document receipt of incoming cattle on a form obtained from the Department. The operator shall include the following information on the form:
a. Name of feedlot and location;
b. Month and year for which report is made;
c. Number of cattle received, date received, and name and address of owner;
d. Description of the cattle;
e. If not Arizona native cattle, the import permit and Certificate of Veterinary Inspection numbers;
f. If native Arizona cattle, self-inspection certificate number or Department inspection certificate number; and
g. Pen number to which cattle are initially assigned.
2. The operator shall return the completed form within 10 days after the end of the month of the reporting period.

F. Quarantine. Livestock under quarantine by the Department shall not be shipped or sold by use of a self-inspection certificate.

G. Violations. The Department shall process violations of this Section as prescribed under A.R.S. § 3-1203(D).

Historical Note

Adopted effective August 19, 1983 (Supp. 83-4). Section R3-2-702 renumbered from Section R3-9-702 (Supp. 91-4). Section R3-2-702 repealed; new Section R3-2-702 adopted effective February 4, 1998 (Supp. 98-1). Amended by final rulemaking at 9 A.A.R. 513, effective April 6, 2003 (Supp. 03-1). Amended by exempt rulemaking under Laws 2016, Ch. 160, § 9 at 22 A.A.R. 2400, effective August 6, 2016 (Supp. 16-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-703. Seasonal Self-inspection Certificate

Exhibition cattle, sheep, goats, and swine.

1. An applicant for a seasonal self-inspection certificate prescribed under A.R.S. § 3-1346 shall request a seasonal self-inspection certificate from the Department. The applicant shall provide the following information, as applicable:
   a. Name, mailing address, physical address if different from mailing address, telephone number, and email address;
   b. Name of 4-H or FFA group, and group leader;
   c. Physical description of livestock;
   d. Official identification of livestock, except for native cattle born and raised in Arizona;
   e. Permit number and Certificate of Veterinary Inspection number for livestock imported from another state;
   f. Name of seller and self-inspection certificate number or Department inspection certificate number for livestock purchased from an Arizona seller; and
   g. Signature and date of signature of the owner or lessee. If the owner or lessee is under 18 years of age, a signature of the parent or guardian and date of signature are required.
2. The Department employee who records the information required in subsection (1) shall advise the applicant of the required fee prescribed under A.R.S. § 3-1346(A). The Department shall issue a seasonal self-inspection certificate upon receipt of the fee.
3. An exhibitor shall provide the following information, as applicable, on a seasonal self-inspection certificate whenever livestock subject to seasonal self-inspection is moved or ownership is transferred:
   a. Name, address, telephone number, email address, and signature;
   b. Date of movement;
   c. Name of exhibition and location;
   d. Final disposition of the livestock (sale, death, or retention) and date of occurrence; and
   e. If the livestock is sold, name, address, and phone number of purchaser (person or slaughter plant).
4. The holder of a seasonal self-inspection certificate shall return the certificate to the Department within two weeks of the sale or slaughter of the livestock or at the end of the show season if the livestock is retained.

Historical Note

Adopted effective November 27, 1987 (Supp. 87-4). Section R3-2-703 renumbered from Section R3-9-703 (Supp. 91-4). Section R3-2-703 repealed; new Section R3-2-703 adopted effective February 4, 1998 (Supp. 98-1). Section repealed; new Section made by final rulemaking at 9 A.A.R. 513, effective April 6, 2003 (Supp. 03-1). Amended by exempt rulemaking under Laws 2016, Ch. 160, § 9 at 22 A.A.R. 2400, effective August 6, 2016 (Supp. 16-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-704. Emergency Expired

Historical Note

Adopted effective February 4, 1998 (Supp. 98-1). Section repealed by final rulemaking at 9 A.A.R. 513, effective April 6, 2003 (Supp. 03-1). Section made by emergency rulemaking at 24 A.A.R. 3589, with an immediate effective date of December 13, 2018, valid for 180 days (Supp. 18-4). Emergency expired (Supp. 20-2).

R3-2-705. Repealed

Historical Note

Adopted effective February 4, 1998 (Supp. 98-1). Amended by final rulemaking at 8 A.A.R. 3628, effective August 7, 2002 (Supp. 02-3). Section repealed by final rulemaking at 9 A.A.R. 513, effective April 6, 2003 (Supp. 03-1).

R3-2-706. Repealed

Historical Note

Adopted effective February 4, 1998 (Supp. 98-1). Section repealed by final rulemaking at 9 A.A.R. 513, effective April 6, 2003 (Supp. 03-1).

R3-2-707. Ownership and Hauling Certificate for Equines; Fees

The fee for a new, transferred, or replacement Ownership and Hauling Certificate for Equines as prescribed under A.R.S. §§ 3-1344(B) and 3-1345(B) is $10 per certificate.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 3932, effective August 22, 2002 (Supp. 02-3).

R3-2-708. Equine Rescue Facility Registration

A. "Arizona Equine Rescue Standards" means the American Association of Equine Practitioners Care Guidelines for Equine Rescue and Retirement Facilities, 2004 Edition. This material, which includes the Veterinary Checklist for Rescue/Retirement Facilities, is incorporated by reference, does not include any later amendments or editions, and is available for inspection at the Department of Agriculture, 1688 W. Adams St., Phoenix, Arizona 85007. A copy of this material may also be obtained from the American Association of Equine Practitioners web site at http://www.aaep.org/pdfs/rescue_retirement_guidelines.pdf. The American Association of Equine Practitioners is located at 4033 Iron Works Parkway, Lexington, Kentucky 40511.

B. An equine rescue facility shall pay the annual registration fee and file the following documents with the Department's Animal Services Division for the facility to be included on the Department's registry of equine rescue facilities:

1. An application form containing the facility's name, physical and mailing address, and contact person and the contact person's phone number and email address.
2. A copy of documents filed with the Arizona Corporation Commission demonstrating the facility's current status as a nonprofit corporation in good standing in this state.
3. A letter from a licensed veterinarian, dated within 15 days of filing, certifying that the facility is not inadequate with respect to any of the Arizona Equine Rescue Stan-

dards and attaching a signed copy of the completed Arizona Equine Rescue Standards' veterinary checklist.

C. Registration is valid for one year. Registration may be renewed annually by complying with subsection (B).

D. The annual registration fee is $75.

E. A nonprofit corporation owning multiple equine rescue facilities must file the letter and checklist described in subsection (B)(3) and pay the annual registration fee for each location it wants included on the registry.

F. The Department shall remove a facility from the registry if it determines that the facility is not presently incorporated as a nonprofit corporation in this state or is inadequate with respect to any of the Arizona Equine Rescue Standards.

Historical Note

New Section made by final rulemaking at 16 A.A.R. 876, effective July 3, 2010 (Supp. 10-2). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

ARTICLE 8. DAIRY AND DAIRY PRODUCTS CONTROL

R3-2-801. Definitions

In addition to the definitions in A.R.S. §§ 3-601 and 3-661, the following terms apply to this Article:

"3-A Sanitary Standards" and "3-A Accepted Practices," as published by the International Association for Food Protection, effective on or before October 15, 2017, means the criteria for design, materials, construction and use of dairy processing equipment. This material is incorporated by reference, does not include any later amendments or editions, and is available for inspection at the Department located at 1110 W. Washington St., Ste. 450, Phoenix, AZ 85007 or available for purchase online at https://www.3-a.org/.

"C-I-P" means a procedure by which equipment, pipelines, and other facilities are cleaned-in-place as prescribed in the 3-A Accepted Practices.

"Converted" means the process by which a frozen dessert is changed from a frozen to semi-frozen form without any change in the ingredients.

"Fluid milk" means milk and any other product made by the addition of a substance to milk or to a liquid form of milk product if the milk or other product is produced, processed, distributed, sold or offered or exposed for sale for human consumption.

"Fluid trade product" means any trade product as defined in A.R.S. § 3-661(5) that resembles or imitates any fluid milk product.

"Food establishment" means any establishment, except a private residence, that prepares or serves food for human consumption, regardless of whether the food is consumed on the premises.

"Frozen desserts mix" or "mix" means any frozen dessert before being frozen.

"Grade A raw milk" means raw milk produced on a dairy farm that conforms to Section 7 of the PMO and the requirements of R3-2-805.

"Parlor" and "milk room" mean the facilities used for the production of Grade A raw milk for pasteurization or Grade A raw milk.

"Plant" means any place, premise, or establishment, or any part, including specific areas in retail stores, stands, hotels, restaurants, and other establishments where frozen desserts are manufactured, processed, assembled, stored, frozen, or converted for distribution or sale, or both. A plant may consist of rooms or space where utensils or equipment is stored, washed, or sanitized and where ingredients used in manufacturing frozen desserts are stored. Plant includes:

"Manufacturing plant" means a location where frozen desserts are manufactured, processed, pasteurized, and converted.

"Handling plant" means a location that is not equipped or used to manufacture, process, pasteurize, or convert frozen desserts, but where frozen desserts are sold or offered for sale other than at retail.

"PMO" means the Grade A Pasteurized Milk Ordinance, 2023 Revision. This material is incorporated by reference, does not include any later amendments or editions, and is on file with the Department at 1110 W. Washington St., Suite 450, Phoenix, AZ 85007. A copy of the incorporated material may also be viewed at https://agriculture.az.gov/.

"Retail food store" means any establishment offering packaged or bulk goods for human consumption for retail sale.

Historical Note

Former Regulations 1-11. Section R3-2-801 renumbered from R3-5-01 (Supp. 91-4). R3-2-801 renumbered to R3-2-803; new Section R3-2-801 adopted effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 7 A.A.R. 2215, effective May 9, 2001 (Supp. 01-2). Amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 3030, effective September 30, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 889, effective May 3, 2008 (Supp. 08-1). Amended by emergency rulemaking at 20 A.A.R. 1134, effective May 2, 2014, for 180 days (Supp. 14-2). Emergency expired. Amended by exempt rulemaking at 21 A.A.R. 2407, effective September 22, 2015 (Supp. 15-3). Amended by final rulemaking at 22 A.A.R. 2169, effective October 2, 2016 (Supp. 16-3). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by exempt rulemaking at 20 A.A.R. 2841 (September 13, 2024), with an immediate effective date of August 27, 2024 (Supp. 24-3).

R3-2-802. Milk and Milk Products Standards

Unless specifically mentioned in A.R.S. Title 3, Chapter 4, Article 1, or in this Article, all milk and milk products, except frozen desserts, sold or distributed for human consumption shall meet the PMO standards for production, processing, storing, handling, and transportation.

Historical Note

Former Regulations 1, 2. Section R3-2-802 renumbered from R3-5-02 (Supp. 91-4). Section repealed; new Section adopted effective December 2, 1998 (Supp. 98-4).

R3-2-803. Milk and Milk Products Labeling

A. The manufacturer or processor shall ensure that milk and milk products listed in A.R.S. § 3-601(10), and Sections 1 and 2 of the PMO are designated by the name of the product and shall conform to its definition.

B. The manufacturer or processor of milk and milk products shall conform with the labeling requirements in A.R.S. §§ 3-601.01 and 3-627, Section 4 of the PMO, and 21 CFR 101, 131, and 133, amended April 1, 2017. This CFR material is incorporated by reference, does not include any later amendments or editions, and is on file with the Department.

C. The name of the manufacturer or processor shall be on all cartons or closures where it can be easily seen. A manufacturer or processor that has plants in other states shall use a code number or letter to designate the state in which a carton or closure is manufactured or processed. If a manufacturer or processor has a plant within Arizona, the Dairy Supervisor shall issue a code number or letter for each plant and shall keep a record of the number or letter issued. Manufacturers and processors shall include the Arizona code, 04, with the plant code assigned by the Dairy Supervisor.

D. If milk or milk products are manufactured or processed and packaged at a plant for other retailers and the container or closure is not labeled the same as the manufacturer's or processor's like product, the manufacturer or processor shall include the statement "Manufactured or Processed at (name and address of plant or code number or letter)" on the carton or closure. The carton or closure may also contain the statement, "Distributed by: (name of person or firm)."

E. Any person planning to use a new or modified label on a container shall submit the proposed label to the Dairy Supervisor for review.

1. If the proposed label does not meet labeling standards specified in subsection (B), the Dairy Supervisor shall note the required changes on the proposed label, and sign and return the proposed label to the applicant.
2. A person who requests additional time to use the inventory amounts of slow moving cartons or closures before using a modified label shall submit a written request to the Dairy Supervisor. The Dairy Supervisor may approve continued use of the existing cartons and closures if:
   a. The use does not present a public health issue, and
   b. The information on the cartons and closures is not misleading.

Historical Note

Former Regulations 1 - 21; Amended effective August 4, 1978 (Supp. 78-4). Section R3-2-803 renumbered from R3-5-03 (Supp. 91-4). R3-2-803 renumbered to R3-2-804; new Section R3-2-803 renumbered from R3-2-801 and amended effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-804. Trade Products

A. Any fluid trade product containing milk solids shall be regulated as a fluid milk product.

B. Advertising, display, and sale:

1. Any retail food store may submit its methods and techniques for the advertising, display, and sale of trade products and real products to the Dairy Supervisor to determine compliance with this Section.
2. No food establishment shall sell or provide any patron or employee, for use as food, any trade product or food whose main ingredient is a trade product, unless one of the following disclosures is posted for each trade product, in a prominent place on the premises, or is plainly visible on each menu where other food items are described:
   a. "_____ served here
      (brand or common name of trade product)
      instead of _____."
      (common name of dairy product)
   b. "Nondairy products served here."
3. No food establishment shall advertise or otherwise represent to the public that it serves, or uses in the preparation of a food, a real product when it actually serves or uses a trade product.

C. Labeling: Except as follows, all labels shall comply with the PMO and 21 CFR 101, 131, and 133.

1. The Dairy Supervisor shall approve a new or modified trade product label before the label is used. The applicant shall file a written request with duplicate copies of the proposed label and any supporting materials necessary to establish the truthfulness, reasonableness, relevancy, and completeness of the label.
2. Unless each ingredient of a trade product is homogenized or pasteurized, the whole product shall not be labeled or advertised as an homogenized or pasteurized product. Individual ingredients that are homogenized or pasteurized may be identified as homogenized or pasteurized in the listing of ingredients.
3. Except for combined ingredients constituting less than 1% of the whole product or unless each ingredient of a trade product qualifies as grade A, the whole product shall not be labeled or advertised as a grade A product. Ingredients that qualify as grade A may be identified as grade A in the listing of ingredients.
4. Any trade product produced outside the state and labeled as prescribed in R3-2-802 and R3-2-803, may be sold within the state provided that the product meets the requirements of A.R.S. §§ 3-663 and 3-665.

Historical Note

Former Regulations 1 - 8; Amended effective December 7, 1976 (Supp. 76-5). Correction, subsection (A)(2) through (H) omitted, Supp. 76-5 (Supp. 79-4). Section R3-2-804 renumbered from R3-5-04 (Supp. 91-4). R3-2-804 renumbered to R3-2-805; new Section R3-2-804 renumbered from R3-2-803 and amended effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-805. Grade A Raw Milk For Consumption

A. All cattle and other dairy animals from which Grade A raw milk is produced shall be tested and found free of tuberculosis before any milk is sold. All herds shall be tested for tuberculosis at least every 12 months. All cattle and other dairy animals from which Grade A raw milk is produced shall be tested and found free of brucellosis before any milk is sold, and shall be tested every 12 months or have negative brucellosis ring tests of the milk at least once each month, or both, as determined by the State Veterinarian.

B. Grade A raw milk shall be cooled immediately after completion of milking to 45° F or less and shall be maintained at that temperature until delivery.

C. Grade A raw milk shall be bottled on the farm where it is produced. Raw milk products authorized under A.R.S. § 3-606, except for hard cheeses aged 60 days or more as defined in 7 CFR 58.439, shall be processed, manufactured and packaged on the farm where the milk is produced. Bottling and capping shall be done in a sanitary manner on approved equipment. Hand-capping is prohibited. Caps and cap stock shall be kept in sanitary containers until used.

D. All vehicles used for the distribution of Grade A raw milk shall prominently display the distributor's name.

E. Grade A raw milk shall be labeled as prescribed in R3-2-803 and A.R.S. § 3-606.

Historical Note

Former Regulations 1, 2. Section R3-2-805 renumbered from R3-5-05 (Supp. 91-4). Section R3-2-805 repealed; new Section R3-2-805 renumbered from R3-2-804 and amended effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-806. Parlors and Milk Rooms

A. Construction Plans.

1. Any person constructing or extensively altering a parlor or milk room shall submit the plans and specifications to the Dairy Supervisor for written approval before work begins. The Dairy Supervisor shall approve or deny the plans within 10 business days.
2. Plans shall consist of a scaled plot design with elevations and pertinent dimensions.
3. Any deviations from the requirements in this Section and from approved plans and specifications may be made only after written approval of the Dairy Supervisor.

B. Site.

1. The parlor and milk room shall be located in a place free from contaminated surroundings.
2. Feed racks, calf pens, bull pens, hog pens, poultry pens, horse stables, horse corrals, and shelter sheds shall not be closer than 100 feet to the milk room or closer than 50 feet to the parlor.

C. Surroundings.

1. Dirt or unpaved corrals and unpaved lanes shall not be closer than 25 feet to the parlor or closer than 50 feet to the milk room; corrals shall be constructed to remove runoff from the lowest point of the grade.
2. A paved (concrete or equivalent) ramp or corral shall be provided to allow the animals to enter and leave the parlor. This paved area shall be curbed sufficiently high enough to contain waste material and water used to clean this area.

D. Drains and waste disposal systems shall be adequate to drain the volume of water used in rinsing and cleaning, as well as the waste created by animals in the parlor. Instead of natural drainage, automatic pumps or other means shall be provided for drainage disposal.

E. Milk room.

1. The milk room shall consist of one or more rooms for the handling of the milk and the cleaning, sanitization, and storage of the milk-handling equipment. Hot and cold running water outlets shall be provided as needed for sanitation. There shall be a minimum of five feet between a farm milk tank at the widest point and the milk room wall where the wash vats are installed. Except for currently installed milk tanks, there shall be at least three feet between any farm tank or farm tank appurtenance and the milk room walls.
2. Passageway. The passageway between the milk room and parlor shall have at least a 3-foot clearance for ingress and egress. Equipment such as milk receivers, dump tanks, or coolers that are part of an enclosed milk line system may be installed in the passageway if:
   a. A 3-foot clearance is allowed for the walkway;
   b. Space is provided between walls and equipment to permit the disassembly of equipment for cleaning or inspection;
   c. The passageway between the parlor and the milk room may be closed at one end. The parlor may be separated from the passageway by a pipe rail fence if the slope of the parlor floor is away from the passageway. If the slope of the parlor floor is toward the passageway, a concrete wall between the passageway and parlor floor of at least 12 inches in height shall be provided.
   d. Rustless pipe sleeves with tight-fitting flanges and protective closures shall be installed where the milk lines, hoses for tankers, and wash lines go through the walls of the passageway.
3. Floors.
   a. The floors of the milk room, and passageway, if provided, shall be constructed of four-inch thick concrete, or other impervious material troweled smooth. The milk room floor shall slope at least 1/4 inch per 12 inches to a vented trapped drain. The passageway floor shall slope at least one inch per 10 feet toward a drain or gutter. All floor and wall junctions shall have at least a two-inch radius cove.
   b. Drainage from the milk room may be independent from or connected to the parlor drainage. Floor drains shall be vented, have a water trap, and a clean-out plug. All floor drains and pipes under the milk room and parlor floor shall meet all applicable plumbing codes.
4. Walls and ceilings.
   a. All walls and ceilings shall be constructed of a light colored, impervious material with a smooth finish. If concrete block or masonry construction is used, all voids below the floor line shall be filled with concrete.
   b. The main ceiling height shall allow sufficient room for access to, and sampling from, the bulk milk storage tank.
5. Doors and windows.
   a. All opening windows shall have at least 16-inch mesh screen.
   b. Exterior doors of the milk room shall open outward, be solid, self-closing, and tight fitting. Any door from the passageway shall be a solid door, metal covered on both sides of the bottom half. Wooden door jambs or frames shall terminate six inches above the floor, and the concrete floor cove shall extend to the jambs or frames.
   c. All working areas in the milk room shall contain at least 30 foot-candles of natural and/or artificial lighting.
6. Ventilation. The milk room shall provide adequate ventilation to minimize condensation on ceilings, walls and equipment. Vents shall be protected from the penetration of insects, dust and other contaminants. The milk room shall contain one or more ceiling vents. Ceiling vents shall not be installed directly above bulk milk storage tanks.
7. Tanker loading area. A tanker-loading area, at least 10 feet by 12 feet, paved, curbed, and sloped to drain, shall be provided adjacent to the milk room where milk is transferred from a farm tank to a milk tanker. If a tanker is used instead of a farm tank, a tanker shelter shall be

provided that complies with the construction, light, drainage, and general maintenance requirements of the milk room.

8. Farm tank installations. All farm tanks for the cooling and storing of milk shall be installed in the milk room. Bulk milk tanks equipped with agitator shaft opening seals may, if approved by the Dairy Supervisor, be bulkheaded through a wall.

F. Parlor.

1. Floors.
   a. The floors shall be constructed of four-inch thick concrete or other, light-colored, impervious material, finished smooth. The floors, alleys, gutters, mangers, and curbs shall slope lengthwise toward a drain or gutter. The cow standing platform in the elevated stall parlor shall slope sufficiently to provide for adequate drainage and cleaning.
   b. Floor and wall junctions shall have at least a two-inch radius cove and shall be an integral part of the floor.
   c. The cow standing platform, litter alley, holding corral and concrete lane shall be treated to prevent slipping.
2. Walls. All walls shall be constructed of a light-colored, impervious material. If necessary, means shall be provided to prevent the entrance of swine, fowl and other prohibited animals. All walls shall be finished smooth on the inside with the top ledge rounded on open walls. If a parlor wall forms a part of the holding corral or an entrance or exit lane, it shall be finished smooth on the outside. If a concrete block or masonry construction is used, all voids below the floor line shall be filled with concrete. In elevated stall parlors, the wall under the cow standing platform adjacent to the milking area shall be finished smooth and designed to prevent leakage.
3. Stalls. A tandem stall and a herringbone stall shall have a smooth, flat, non-absorbent splash panel behind each cow.
4. Light. Natural and/or artificial light shall be at least 30 foot-candles at the floor level and located to minimize shadows in the milking area.
5. Gutters.
   a. All parlors shall have gutters to catch the defecation of cows while in the stall and for any water used for rinsing.
   b. Pipe used for parlor gutter drainage shall be at least four inches in diameter and meet applicable plumbing codes.
6. Curbs.
   a. In elevated stall parlors, the cow standing platform shall be curbed on the side next to the milking alley and the curb shall be at least six inches in height with the top rounded to retain the elevated stall floor washings. This curb may be lowered to not less than two inches at the area where the milking machines are applied. Metal curbs shall be free of voids and sealed to stall and floor or wall.
   b. Floor level parlors shall contain a curb under the stanchion line at least six inches wide, 12 inches high from the stall floor, except if metal mangers are used the top of this curb shall be rounded.
7. Stanchions.
   a. The stanchion shall be metal or other impervious, easily cleanable material.
   b. Mangers and feed boxes in all types of parlors shall be constructed of impervious materials, finished smooth, and provided with drainage outlets at low points.
8. Ventilation. Adequate ventilation shall be provided in the parlor, holding corral, and wash area, if roofed.

G. Roof drainage from parlors and milk rooms shall not drain into a corral unless the corral is paved and properly drained.

H. If animals are fed in the parlor, feed storage facilities shall be provided. Feed storage rooms, when installed, shall be partitioned from the parlor and shall be fly and rodent proof. The feed discharge area of the bulk feed storage shall be concrete or other impervious material that is curbed and drained. Bulk feed may discharge directly into the parlor. A bulk feed tank located opposite the passageway shall be at least six feet from the milk room. Overhead feed storage is permissible if it is fly, rodent, and dust tight. Feed shall be conveyed to the manger or feed box in a tightly closed dust-free system. Overhead metal feed tanks may be used.

I. Facilities to store dairy supplies shall be provided. Only supplies that come in contact with the milk or milk contact surface of the milk-handling equipment may be stored in the milk room and shall be protected from toxic materials, vectors, and dust.

Historical Note

Former Regulations 1 - 11. Section R3-2-806 renumbered from R3-5-06 (Supp. 91-4). Section amended effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 22 A.A.R. 2169, effective October 2, 2016 (Supp. 16-3).

R3-2-807. Frozen Dessert Plant and Processing Standards

A. Plant and Processing Standards.

1. The plant area shall be clean, orderly and free from refuse, rubbish, smoke, dust, air pollution and strong or foul odors originating on the premises. A drainage system shall be provided for the rapid drainage of water away from the building. If unsatisfactory conditions occur in the plant area, with respect to smoke, dust, air pollution, or odors, provision shall be made to protect the frozen desserts and ingredients from contamination.
2. Sewage and industrial waste shall be disposed in accordance with the provisions of the state or county environmental laws. Refuse, unless in appropriate containers, shall not accumulate on the premises.
3. Roads, driveways, yards, and parking areas adjacent to the plant shall be paved or treated to prevent dust and shall be smooth and well drained to prevent accumulation of stagnant liquid.
4. Buildings.
   a. The building exterior and interior shall be kept clean and in good repair.
   b. In processing and packaging areas, outside doors, windows, skylights, transoms, or other openings shall be protected and operated to preclude the entrance of dust, insects, vermin, rodents, and other animals. Outside doors shall be self-closing wherever practical. Window sills on new construction shall slope inward at least 45-degrees. Outside conveyor openings and other outside openings shall be protected by doors, screens, flaps, fans, or tunnels. Pipes shall be sealed where they extend through exterior walls. Outside pipe openings shall be covered when not in use.

c. Rooms. All rooms, compartments, coolers, freezers, and dry storage space in which any raw material, packaging or ingredient supplies, or finished products are handled, processed, manufactured, packaged, or stored shall be constructed to ensure clean and orderly operations.
   i. Boiler and tool rooms shall be separate from rooms where milk products are received, where processing and packaging is done, or where equipment, facilities, and containers are washed and stored.
   ii. Toilets and dressing rooms shall be conveniently located and toilets shall not open directly into any room where milk products, ingredients, or frozen desserts are handled, processed, packaged, or stored. Toilet and dressing room doors shall be self-closing. Toilets and dressing rooms shall be well vented to the outer air, and contain hand-washing facilities, hot and cold running water, soap, single-service towels or air dryers. Hand-washing signs shall be posted. Fixtures shall be kept clean and in good repair.
   iii. Rooms for receiving milk and other raw ingredients and materials shall be separated from the processing area to avoid contamination of frozen desserts in the processing operations, except that products in cans or other closed containers may be received and transferred to a cooler or other storage without being received in a separate room.
   iv. If tank truck deliveries of milk, milk products, or frozen desserts mix are made, other than occasional deliveries, a tank truck room large enough to accommodate the entire truck shall be provided with equipment for cleaning. A covered outside unloading pad may be used for truck tankers with filter dome vents, if washing and sanitizing facilities are provided. If a tank truck room is not located on the premises of an existing plant, facilities for washing and sanitizing tank trucks shall be provided at another location where the washing and sanitizing facility is free from dust and extreme weather conditions.
   v. Except for existing processing and packaging rooms, there shall be at least three feet clearance between installations and the wall to prevent overcrowding and to facilitate cleaning. Existing facilities not meeting this requirement shall be permitted if cleaning can be accomplished and permission is obtained from the Dairy Supervisor or the Dairy Supervisor's designee. All processing and packaging rooms shall be equipped with hand-washing facilities including hot and cold running water, soap, single-service towels, or air-dryer.
   vi. Refrigeration rooms and units shall be constructed of impervious material and shall be kept clean and sanitary.
   vii. Separate rooms shall be provided so that the manufacturing, processing, and packaging are separate from the cleaning and sterilizing of utensils and containers.
   viii. No person shall reside or sleep in a frozen desserts plant or in any room connected with it. No animal shall be kept or permitted in a frozen desserts plant.

d. Walls and ceilings shall be constructed of smooth, washable, impervious material. They shall be light-colored, kept clean and sanitary, and refinished when discolored. A darker color material may be used to a height not exceeding 60 inches from the floor.

e. Floors shall be an impervious, smooth-surfaced material that may be flushed clean with water. Except for hardening rooms, floors shall slope 3/16 to 1/4 inch per foot to one or more trapped outlets. No open channel drainage is permitted in new construction or in extensive remodeling of existing plants. Floor drains are not required in freezers used for storing frozen desserts or frozen ingredients. However, the floors shall be sloped to drain to at least one exit and shall be kept clean. Floors in new construction or extensive remodeling shall be joined and coved with the walls to form water-tight joints. Smooth wood floors may only be permitted in rooms where there will be no spillage of product or ingredients, such as rooms where wrapped or packaged frozen products are packed in multiple-pack containers. Toilets and dressing rooms shall have impervious floors and smooth walls.

f. Plumbing shall be installed to prevent back-up of sewage or odors into the plant.

g. All rooms and compartments, including storage space for materials, ingredients, and packages, and toilets and dressing rooms, shall be ventilated to maintain sanitary conditions, and to minimize or eliminate condensation and odors.

h. Lighting, whether natural or artificial, shall be well distributed in all rooms and compartments. Light bulbs and fluorescent tubes shall be protected so that broken glass cannot fall into any product or equipment.
   i. Rooms where frozen desserts are handled, processed, manufactured, or packaged, or where equipment or utensils are washed, shall have at least 30 footcandles of light on all working surfaces;
   ii. Areas where dairy products are examined for condition and quality shall have at least 50 footcandles of light; and
   iii. All other rooms shall have at least 20 footcandles of light 30 inches above the floor.

i. Containers for collecting and holding waste other than dry waste paper and other dry packaging material shall be constructed of metal or other impervious material, covered with tight-fitting lids or covers, and emptied or disposed of daily or at least once during the shift. Clothing, tools, equipment, and other material not used with the frozen desserts operations shall not accumulate in the work areas or in the storage rooms.

j. A room or other space separate from any room or space where milk products or frozen desserts are received, handled, processed, packaged, or stored, shall be provided where employees may change and store clothing. This area shall contain hand-washing

facilities, with hot and cold running water, soap or other detergents, and single-service towels or air dryers. Self-closing containers shall be provided for used towels and other wastes.

k. Approval of plans. Plans shall be submitted to the Dairy Supervisor, for any new or remodeled frozen dessert manufacturer, to be reviewed for compliance with this Section. The Dairy Supervisor may allow variances to the requirements in this Section, if protection from contamination is provided for all products handled.

5. Water and steam.
   a. Potable hot and cold water shall be available in sufficient quantity for all plant operations and facilities. Non-potable water may be used for boiler feed and condenser water, if the water lines are separated from the water lines carrying the potable water supply and the equipment is constructed to preclude contamination of any product or product contact surface. If water for washing frozen desserts equipment and utensils and for use in rehydration or as an ingredient in any frozen desserts is obtained from other than a regulated municipal supply, a bacteriological examination shall be made of the water supply at least once every six months by a laboratory acceptable to the Dairy regulatory program to determine potability. If the examination indicates contamination of the water supply, a device shall be installed to eliminate the contamination.
   b. If steam is used, it shall be provided in sufficient volume and pressure for the operation of equipment or for sterilization, or both. Steam that comes in contact with frozen desserts, ingredients, or with the product contact surface, shall be steam of culinary quality as prescribed in Appendix H, Part III, Culinary Steam – Milk and Milk Products, of the PMO.
6. Equipment and utensils.
   a. New equipment shall meet applicable 3-A Sanitary Standards. All equipment, including connections, coming in contact with frozen desserts or ingredients during processing, manufacturing, handling, or packaging, shall be made of stainless steel. No equipment shall be permitted that is rusted, corroded, or in any other condition that may result in contamination of the frozen desserts. Non-metallic parts with product contact surfaces shall consist of material that meets 3-A Sanitary Standards for Plastic or Rubber and Rubber-like Materials or shall be of plastic approved by the United States Food and Drug Administration. Equipment, apparatus, and piping shall be easily accessible for cleaning and shall be kept in good repair and free from cracks and corroded surfaces. Stationary equipment, including welded sanitary lines and apparatus that permit in-place-cleaning, may be used if prior approval from the Dairy Supervisor has been obtained. C-I-P piping and welded sanitary pipeline systems shall be permitted if engineered and installed according to 3-A Accepted Practices for Permanently Installed Sanitary Product and Solution Pipelines and Cleaning Systems. If rigid pipelines are not practical, plastic pipelines listed in the 3-A Accepted Practices may be used. Product pumps shall be sanitary and easily dismantled for cleaning or shall be constructed to allow C-I-P procedures. All parts of interior surfaces of equipment, pipes (except C-I-P piping), or fittings, including valves and connections shall be accessible for inspection. The Dairy Supervisor may require other equipment, apparatus or piping if stationary equipment, apparatus or piping cannot or is not being effectively cleaned-in-place.
   b. Equipment for storage and distribution of liquid sweetening agents shall be constructed of metals, alloys, or other material that will withstand corrosive action by the ingredient. The equipment and the ingredients shall be protected from contamination.
   c. Pasteurizing equipment shall meet the standards prescribed in the PMO and 3-A Accepted Practices for Sanitary Construction, Installation, Testing and Operation of High-Temperature-Short-Time Pasteurizers and 3-A Sanitary Standards for Non-Coiled Type Batch Pasteurizers. Batch-type pasteurizers shall be provided with close-coupled outlet valves protected against leakage and shall be equipped with thermometers that record the information of each day's operation on separate charts. Air space thermometers and indicating thermometers shall be provided to check the recording thermometers. The recording thermometer chart shall contain the date, the identity of the pasteurizing number, the batch and product name, and the signature of the employee responsible for this information. The record shall be kept on file at the plant for at least six months. The accuracy of the recording thermometer shall be checked daily using the indicating thermometer and the time and temperature shall be documented on the recording chart. Chart recorders and thermometers for batch pasteurizers shall be tested and sealed by the Dairy Supervisor or the Supervisor's designee after testing and seals shall not be removed without immediately notifying the Dairy Supervisor or the Supervisor's designee.
   d. Every plant shall contain hardening rooms, refrigerating rooms, or refrigerated cabinets with space for storage of frozen desserts and perishable ingredients.
   e. All utensils used in the receiving, storing, processing, manufacturing, packaging, and handling of frozen desserts or any ingredients shall be of smooth, stainless steel, or plastic listed in the 3-A Accepted Practices and shall have flush seams. Utensils that are badly worn, rusted, or corroded or that cannot be rendered clean and sanitary by washing shall not be used. Lead solder shall not come in contact with milk or milk products or frozen desserts.
7. Cleaning and sanitizing.
   a. Cleaning and sanitizing. Equipment, sanitary piping and utensils used in receiving, storing, processing, manufacturing, packaging, and handling frozen desserts and ingredients, and all product contact surfaces of homogenizers, high pressure pumps, packing glands on agitators, pumps and vats, and lines shall be kept clean. Before use, all equipment coming in contact with milk products or frozen desserts shall have a bactericidal or sanitizing treatment. Equipment not designed for C-I-P cleaning shall be disassembled, thoroughly cleaned and sanitized. Biodegradable dairy cleaners, wetting agents,

detergents, sanitizing agents, or other similar material that does not adversely affect or contaminate the frozen desserts or ingredients may be used. Steel wool or metal sponges shall not be used to clean any equipment or utensils with product contact surfaces. C-I-P cleaning shall be used only on equipment and pipeline systems designed, engineered, and installed for that type of cleaning. Other equipment and areas in the plant shall be thoroughly cleaned with appropriate methods that prevent potential contamination of ingredients, packaging and frozen desserts. Exhaust stacks, elevators and elevator pits, conveyors and similar facilities shall be inspected and cleaned regularly.

b. Equipment shall be sanitized by using one of the following methods:
   i. Using 180° F water for at least two minutes.
   ii. Using steam under pressure for at least two minutes or until all parts of the equipment being sanitized have reached 180° F, or the condensate off the equipment remains at 180° F for at least two minutes.
   iii. Using chlorine with a residual of at least 50 ppm after one minute contact with equipment, or if sprayed, with a residual of at least 100 ppm after five minutes.
   iv. Using any other sanitizing substance prescribed in Appendix F of the PMO.

8. Pasteurization and cooling.
   a. All frozen desserts mix, except for flavoring agents used in frozen desserts, shall be pasteurized.
   b. Frozen desserts mix shall be pasteurized by heating every particle as described in Table 1.
   c. Continuous flow pasteurizers, high-temperature-short-time and higher-heat-shorter-time, shall have all public health controls sealed against access and alteration. The seals shall be applied by the Dairy Supervisor or the Supervisor's designee after testing and shall not be removed without immediately notifying the Dairy Supervisor or the Supervisor's designee. The system shall be designed to meet the requirements of the PMO.
   d. After pasteurization all mix shall be cooled immediately to 45° F or less and shall be maintained at that temperature until frozen. Milk, cream, and other fluid milk products other than sterilized, evaporated or sweetened condensed milk in hermetically sealed containers shall be stored at 45° F or less.
      i. Refrigerated vehicles or approved insulated containers shall be used when transporting frozen desserts mix from the manufacturing or other plant to a retail manufacturer, and
      ii. Mix shall be moved from coolers or refrigeration units in a manufacturing plant to freezers by using pipes, tubing, or other means listed in the Permanently Installed Product and Solution Pipelines and Cleaning Systems Used in Milk and Milk Product Processing Plants section of the 3-A Accepted Practices.
9. Storage.
   a. Utensils and equipment. Utensils and portable equipment used in processing, handling, or packaging of frozen desserts shall be stored above the floor in clean, dry locations and in a self-draining position on racks constructed of impervious, corrosion-resistant material.
   b. Supplies and containers. Whenever possible, supplies shall be kept in a room separate from the processing, handling, and packaging of frozen desserts and under conditions that result in keeping the materials clean and free from dust, moisture, insects, rodents, or other possible contamination. Supplies shall be arranged to permit cleaning of the area and easy inspection and access. Insecticides and rodenticides shall be plainly labeled, segregated, and stored in a separate room or cabinet away from the edible material or packaging supplies. Caps, parchment papers, wrappers, liners, gaskets, and single-service sticks, spoons, covers, and containers for frozen desserts or ingredients shall be stored only in sanitary tubes, wrappings, or cartons and kept in a clean, dry place until used and shall be handled in a sanitary manner.
   c. Raw milk products. Raw products for use in frozen desserts that are conducive to bacterial growth shall be handled and stored to minimize bacterial growth. When stored, raw products shall be maintained at 45° F or lower until processing commences.
   d. Non-refrigerated products. Products such as non-fat dry milk and other frozen desserts ingredients that do not require refrigeration for proper storing shall be placed in dry storage to be easily accessible for inspection and removal, and for adequate cleaning of the room. Dunnage, pallets or other similar method of elevation shall be used. Frozen desserts or ingredients shall not be stored with any product that would damage them or impair their quality. Opened containers of ingredients shall be protected from contamination.
   e. Refrigerated products. All products that require refrigeration shall, except as otherwise specified, be stored under conditions of temperature and humidity that best maintain quality and condition. Products shall not be stored directly on wet floors or be exposed to foreign odors or conditions such as dripping or condensation that may cause package or product damage.
10. Notification of change in products to be manufactured. Any person manufacturing only frozen desserts with butterfat, or only frozen desserts with fats other than butterfat, and uses the other type of fat shall first notify the Dairy Supervisor.
11. Clearing lines and equipment. If the same equipment is used for processing, pasteurizing, and packaging frozen desserts made with dairy products and frozen desserts made with vegetable fats, oils, or proteins, any remaining product shall be completely removed from the lines and equipment and sanitized before introducing another product into the lines and equipment. All equipment and lines shall be sanitized either at the end or beginning of each day's operations.
12. Packaging and containers.
   a. Frozen desserts shall be packaged in commercial containers using packaging material that protects the product from contamination. The packaging, cutting, molding, dispensing, and other handling or preparation of frozen desserts and their ingredients shall be in a sanitary manner. Frozen dessert con-

tainers shall be filled at the place of pasteurization using approved mechanical equipment. Existing manual processes may be permitted if done in a manner that prevents all contact surface contamination and is approved by the Dairy Supervisor.

b. Multi-use containers for frozen desserts shall be kept clean and dry. If used for transporting frozen desserts, the containers shall be:
   i. Rinsed immediately after emptying,
   ii. Cleaned upon return to the plant, and
   iii. Protected from contamination during storage.

c. Metal cans and containers shall be free from rust and corrosion.

d. Paper and plastic containers, liners, covers, or other materials coming in contact with frozen desserts shall be free from contamination.

e. Single-service containers shall not be reused.

B. Personnel.

1. Plant employees shall wash their hands before beginning work and upon returning to work after using toilet facilities, eating, smoking, or otherwise soiling their hands. Employees shall keep their hands clean and follow good hygienic practices while on duty. Expectorating or using tobacco in rooms or compartments where frozen desserts or ingredients are exposed is prohibited. Clean, white, or light-colored, washable outer garments shall be worn by all employees engaged in handling dairy products, mix or frozen desserts. Hair coverings for head and facial hair shall be worn by all employees engaged in the processing, pasteurizing, packaging, handling, and storage of frozen desserts, product containers, and utensils.
2. Frozen desserts shall be handled so that there is no direct contact between an employee's hands and the product.
3. A person who has a discharging or infected wound, sore or lesion on hands, arms or other exposed portions of the body shall not work in any plant processing or packaging room or in any capacity resulting in contact with milk products or frozen desserts or equipment used in the processing or handling of milk products or frozen desserts. An employee returning to work following illness from a communicable disease shall provide a certificate from a physician attesting to the employee's complete recovery before processing or handling milk products or frozen desserts.

C. Quality standards.

1. Milk products used in the manufacture of frozen desserts shall meet the following standards:

Product	Standard Plate Count Not to Exceed
Raw Milk	500,000 per ml.
Pasteurized Milk	50,000 per ml.
Raw Cream	500,000 per ml.
Pasteurized Cream	100,000 per ml.

2. Butter, 80% cream, plastic cream, mixtures of butterfat, sugar or sweetening agent, moisture and flavoring, condensed milk, mixes and all other similar products shall meet the following standards:

Bacterial Standards	Not to Exceed
Standard Plate Count	50,000 per gram
Coliform Count	20 per gram
Yeast Count	50 per gram
Mold Count	50 per gram

3. Powdered non-fat dry milk, dry whey, and dry buttermilk shall meet the PMO standards.
4. Fats and oils other than from milk shall meet the standards of the United States Food, Drug and Cosmetic Act as amended, or those of any applicable state regulation for fats and oils of food grade standards.
5. Frozen desserts in broken or opened containers or in containers from which the product has been partially used may be returned to the plant for examination but shall not be used or sold for making frozen desserts.
6. All reconstituted frozen desserts shall be pasteurized before packaging.

D. Labeling.

1. All packages of frozen desserts, including cans or other containers of frozen desserts mix but not including frozen desserts packaged in accordance with a customer's request and in the presence of the customer, shall be labeled as prescribed in the federal Food, Drug and Cosmetic Act, as amended.
2. Each frozen dessert package shall contain:
   a. The code number assigned by the Dairy Supervisor, identifying the specific manufacturing plant; or
   b. The name and address of the frozen dessert manufacturer.

E. License suspension. The Dairy Supervisor may suspend the license of a frozen dessert plant whenever the bacteria count, coliform determination, yeast or mold count exceeds the quality standards for frozen desserts in three out of the last five samples taken on separate days. In addition, the Dairy Supervisor may suspend the permit of a frozen dessert plant for failure to comply with any of the provisions of this Section.

Historical Note
Adopted effective December 7, 1976 (Supp. 76-5). Amended effective December 5, 1977 (Supp. 77-6). Section R3-2-807 renumbered from R3-5-07 (Supp. 91-4). Amended effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

Table 1. Pasteurization

Batch (Vat) Pasteurization	
Temperature	**Time**
69ºC (155ºF)	30 minutes
Continuous Flow (HTST) Pasteurization	
Temperature	**Time**
80ºC (175ºF)	25 seconds
83ºC (180ºF)	15 seconds
Continuous Flow (HHST) Pasteurization	
89ºC (191°F)	1.0 seconds
90ºC (194°F)	0.5 seconds
94ºC (201°F)	0.10 seconds
96ºC (204°F)	0.05 seconds
100ºC (212°F)	0.01 seconds

Historical Note
Table 1 made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Table 1 heading added for clarity (Supp. 21-3).

R3-2-808. Frozen Desserts Reconstituted from Powdered Mixes

Except for R3-2-807(A)(8), retail establishments that reconstitute frozen desserts from powdered mixes and dispense the desserts on the premises shall comply with the requirements prescribed in R3-2-807 and the following standards:

1. All equipment, containers, and utensils shall be washed and air-dried after each use and shall be sanitized before each use, in accordance with the sanitation standards established in subsection R3-2-807(A)(7)(b).
2. When not in use, all equipment, utensils, and containers shall be stored above the floor in a clean, dry location free from dust, moisture, insects, rodents, or other possible sources of contamination.
3. Excess quantities of the reconstituted frozen dessert shall not be made from the powdered mix in advance and stored outside the dispensing machine.
4. Frozen desserts shall be reconstituted according to the directions provided by the powdered mix manufacturer.

Historical Note

Adopted effective May 11, 1977 (Supp. 77-3). Section R3-2-808 renumbered from R3-5-08 (Supp. 91-4). Section R3-2-808 renumbered to Section R3-2-809; new Section R3-2-808 adopted effective December 2, 1998 (Supp. 98-4). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-809. Medicinal, Chemical, and Radioactive Residues in Milk

A. All dairies shall comply with the following procedures to exclude medicinal, chemical, and radioactive residues from milk intended for human consumption:

1. Identify all cows that have been treated with or have consumed medicinal, chemical, and radioactive agents capable of being secreted in milk;
2. Maintain a written record of the date of treatment, type, and quantity of the medicine or chemical administered to each cow;
3. Milk all treated cows last, or with separate equipment to prevent contamination of the wholesome milk supply;
4. Clean and sanitize all equipment, utensils, and containers used in the handling of milk from the treated cows before the equipment is used in the handling of any milk intended for human consumption; and
5. Discard all milk from the treated cows for the period of time recommended by the attending veterinarian or as indicated on the package or label of the medicine used in the treatment of the cow.

B. Enforcement.

1. When the residue of a chemical, medicinal, or radioactive agent is found in the milk of a dairy and the Dairy Supervisor determines that the residue may be deleterious to human health, the Director shall immediately suspend the dairy from further selling, offering for sale, or distributing milk for human consumption until:
   a. The Dairy Supervisor determines that the practice causing the contamination of the milk has been corrected and the dairy is in compliance with the procedures established in subsection (A);
   b. Any milk that has not been excluded from human consumption as required by subsection (A) is appropriately discarded; and
   c. The first milk shipment following suspension indicates negative test results for medicinal, chemical, or radioactive residues.
2. If the Dairy Supervisor determines that a dairy is not in compliance with the procedures established in subsection (A), the Dairy Supervisor may suspend the dairy until the prescribed procedures are observed.

Historical Note

Section R3-2-809 renumbered from R3-2-808 and amended effective December 2, 1998 (Supp. 98-4).

R3-2-810. License Fees

During fiscal year 2024, an applicant shall pay the following fee to obtain or renew a dairy license:

1. For a license to operate a milk distributing plant or business: $300 plus $2,500 per pasteurizer.
2. For a license to operate a manufacturing milk processing plant: $100.
3. For a license to engage in the business of producer-distributor as an interstate milk shipper listed facility: $150 plus $2,500 per pasteurizer.
4. For a license to engage in the business of producer-distributor: $150.
5. For a license to engage in the business of producer-manufacturer: $25.
6. For a license to engage in the manufacture of trade products: $100.
7. For a license to engage in the business of selling at wholesale milk or dairy products, or both: $100.
8. For a license to sample milk or cream: an initial fee of $50 and a renewal fee of $30.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1331, effective June 29, 2010 (Supp. 10-2). Amended by exempt rulemaking at 17 A.A.R. 1756, effective July 20, 2011 (Supp. 11-3). Amended by exempt rulemaking at 18 A.A.R. 2060, effective August 2, 2012 (Supp. 12-3). Amended by exempt rulemaking at 18 A.A.R. 2060, effective August 2, 2012 (Supp. 12-3). Amended by exempt rulemaking at 19 A.A.R. 3127, effective September 14, 2013 (Supp. 13-3). Amended by exempt rulemaking at 20 A.A.R. 2449, effective July 24, 2014 (Supp. 14-3). Amended by exempt rulemaking pursuant to Laws 2015, Ch. 10, § 14, at 21 A.A.R. 2404, effective July 3, 2015 (Supp. 15-3). Amended by final exempt rulemaking at 23 A.A.R. 1937, effective August 9, 2017 (Supp. 17-2). Amended by final exempt rulemaking at 24 A.A.R. 2219, effective August 3, 2018 (Supp. 18-3). Amended by final exempt rulemaking at 25 A.A.R. 2081, effective August 27, 2019 (Supp. 19-3). Amended by final exempt rulemaking at 26 A.A.R. 1471, effective August 25, 2020 (Supp. 20-3). Amended by final exempt rulemaking at 27 A.A.R. 1264, effective September 29, 2021 (Supp. 21-3). Amended by final exempt rulemaking at 28 A.A.R. 2017 (August 12, 2022), effective September 24, 2022 (Supp. 22-3). Amended by exempt rulemaking at 29 A.A.R. 3483 (November 3, 2023), effective October 30, 2023 (Supp. 23-4).

R3-2-811. Dairy Farm Permit

A. A dairy farm, as defined in the PMO, may apply for a PMO milk producer permit by submitting the following information about the dairy farm on a form provided by the Department:

1. Legal name,
2. Physical and mailing address,
3. Telephone number,
4. Owner's name,

5. Herd size,
6. Daily milk production,
7. Water source,
8. Waste water disposal system,
9. Number of bulk storage tanks, and
10. Certification that the dairy farm facilities comply with Grade A requirements.

B. An applicant for a dairy farm permit shall demonstrate compliance with the minimum standards set out in the PMO by a Department inspection.

C. A permittee shall maintain compliance with the minimum standards set out in the PMO and shall be subject to inspection by the Department in accordance with the PMO.

D. The Department may suspend a permit for a permittee's failure to comply with the minimum standards and may revoke a permit if the permittee fails to correct deficiencies within a reasonable time.

E. Dairy farm permits are not transferable.

Historical Note

New Section made by emergency rulemaking at 20 A.A.R. 1134, effective May 2, 2014, for 180 days (Supp. 14-2). Emergency expired; new Section made by exempt rulemaking at 21 A.A.R. 2407, effective September 22, 2015 (Supp. 15-3).

ARTICLE 9. EGG AND EGG PRODUCTS CONTROL

R3-2-901. Definitions and Interpretation Guidance

A. In addition to the definitions provided in A.R.S. §§ 3-701, 3-703 and 3-704, the following shall apply to this Article:

1. "Business owner or operator" means any person who owns ten percent or more of a business, or a person who controls the operations of a business.
2. "Check" means an individual egg that has a broken shell or crack in the shell but with its shell membranes intact and its contents do not leak. A "check" is considered to be lower in quality than a "dirty."
3. "Dirty" means a shell that is unbroken and that has dirt or foreign material adhering to its surface, which has prominent stains, or moderate stains covering more than 1/32 of the shell surface if localized, or 1/16 of the shell surface if scattered.
4. "Egg-laying hen" means any hen that produces eggs for human consumption.
5. "Egg products":
   a. Means eggs, in raw or pasteurized form, that are removed from the shell in a liquid, frozen, dried, or freeze-dried state, but are not fully cooked.
   b. May consist of whole eggs, yolks, whites, or any blend of yolk and white, with or without additives, if eggs are the main ingredient.
6. "Housed in a cage-free manner" means confined in a housing system that provides egg-laying hens with all of the following:
   a. The amount of usable floor space per egg-laying hen equal to or greater than that required by the 2017 edition of the United Egg Producers' Animal Husbandry Guidelines for U.S. Egg-Laying Flocks: Guidelines for Cage-Free Housing.
   b. An indoor or outdoor controlled environment, which can consist of multi-tiered aviaries, partially-slatted systems, single-level all litter floor systems, or other systems, and which allows egg-laying hens to have:
      i. Unrestricted freedom to roam;
      ii. An environment that allows them to exhibit natural behaviors, including, at a minimum, scratch areas, perches, nest boxes, and dust bathing areas; and
      iii. An environment in which farm employees can provide care while standing within the hens' usable floor space.
7. "Leaker" means an individual egg that has a crack or break in the shell and shell membranes to the extent that the egg contents are exuding or free to exude through the shell.
8. "Lot" means any quantity of two or more eggs.
9. "Lot Consolidation" means the removal of damaged eggs from cartons labeled by a producer or producer dealer and replacement of the damaged eggs with eggs of the same grade, size, brand, expiration date and source.
10. "Multi-tiered aviaries" means cage-free housing systems in which egg-laying hens have unfettered access to multiple elevated flat platforms that provide the egg-laying hens with usable floor space both on top of and underneath the platforms.
11. "Partially-slatted systems" means cage-free housing systems in which egg-laying hens have unfettered access to elevated flat platforms under which manure drops through the flooring to a pit or litter removal belt below.
12. "Pasteurized in-shell eggs" means eggs that have been pasteurized with the shell intact by any method approved by the Federal Food and Drug Administration or the department.
13. "Repacking" means changing the identity of a lot of eggs by removing them from the original container labeled by a packer and placing them into another container not labeled by the packer at the point of origin with the same grade, size, lot number, source and/or brand.
14. "Single-level all-litter floor systems" means cage-free housing systems bedded with litter, in which egg-laying hens have limited or no access to elevated flat platforms.
15. "Spot-check" sample means any sample less than a representative sample described in the chart in R3-2-903(B).
16. "Ultimate consumer" means a person consuming eggs or egg products and a restaurant using eggs in the preparation of a meal.
17. "Usable floor space" means the total square footage of floor space provided to each egg-laying hen, as calculated by dividing the total square footage of floor space provided to the egg-laying hens in an enclosure by the number of egg-laying hens in that enclosure. "Usable floor space" shall include both ground space and elevated level flat platforms upon which hens can roost, but shall not include perches or ramps.
18. "UEP" means United Egg Producers.
19. "United Egg Producers Animal Husbandry Guidelines" means the United Egg Producers Animal Husbandry Guidelines for U.S. Egg Laying Flocks, 2017 Edition. This material is incorporated by reference, does not include any later amendments or editions, and is available for inspection at the Department of Agriculture, 1688 W. Adams St., Phoenix, AZ 85007, or the United Egg Producers at 1720 Windward Concourse, Ste. 230, Alpharetta, GA 30005.
20. "United Egg Producers Certified" means a company that has achieved United Egg Producers Certified status pursuant to the requirements prescribed by the United Egg Producers Animal Husbandry Guidelines.

21. "United Egg Producers Certified logo" means the official symbol and accompanying language used to identify eggs produced by United Egg Producers Certified companies.
22. "United Egg Producers Cage Free Certified logo" means the official symbol and accompanying language used to identify cage-free eggs produced by United Egg Producers Certified companies.

B. Wherever appropriate, and if not expressly indicated, words in the singular form shall be construed to include the plural and vice versa. Nouns and pronouns in masculine, feminine and neuter genders shall be construed to include any other gender.

C. Examples shall not be construed to limit, expressly or by implication, the matter they illustrate.

D. The word "includes" and its derivatives means "includes, but is not limited to" and corresponding derivative expressions.

Historical Note

Former Rule 1; Amended as an emergency effective November 18, 1981, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 81-6). Former Section R3-6-01 amended as an emergency now adopted and amended as a permanent rule effective February 19, 1982. Section renumbered as R3-2-901 (Supp. 82-1). Section R3-6-101 renumbered to R3-2-901 (Supp. 91-4). Section repealed, new Section adopted effective July 13, 1995 (Supp. 95-3). Amended by final rulemaking at 15 A.A.R. 863, effective October 1, 2009 (Supp. 09-2). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final rulemaking at 28 A.A.R. 802 (April 22, 2022), effective October 1, 2022 (Supp. 22-2).

R3-2-902. Standards, Grades, and Weight Classes for Eggs; Pasteurized In-Shell Eggs

A. Standards for Eggs. All standards, grades, and weight classes of quality for chicken eggs in the shell shall meet the grades for eggs as prescribed in AMS 56, United States Standards, Grades, and Weight Classes for Shell Eggs, revised as of July 20, 2000. This material is incorporated by reference, does not include any later amendments or editions, and is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007 and the United States Department of Agriculture, Agricultural Marketing Service, Poultry Programs, STOP 0259, Room 3944-South, 1400 Independence Ave., S.W., Washington, DC 20250-0259, or online at www.ams.usda.gov/grades-standards/eggs. "AMS" means Agricultural Marketing Service, United States Department of Agriculture.

B. Standards for Pasteurized In-Shell Eggs. It is unlawful for a producer, producer dealer, dealer, or retailer to sell, offer for sale, or expose for sale pasteurized in-shell eggs that are packed for human consumption unless both of the following conditions are met:

1. Quality and weight classes:
   a. The eggs used to produce pasteurized in-shell eggs shall meet Consumer Grades A or AA and Weight Classes for Eggs of subsection (A).
   b. At destination:
      i. Pasteurized in-shell eggs shall contain no more than 7 percent (9 percent for Jumbo size) Checks and not more than 1 percent Leakers, Dirties, or Loss (due to meat or blood spots) in any combination, except that such Loss may not exceed 0.30 percent. Other types of Loss are not permitted.
      ii. In lots of two or more cases, no individual case may exceed 10 percent Checks.
   c. Pasteurized in-shell eggs shall meet the weight classes as indicated in Table I. Weight Classes for Pasteurized In-Shell Eggs.
2. Labeling requirements. Except as provided in subsection (B)(2)(j), it is unlawful for an egg producer, producer dealer, dealer or retailer to sell, offer for sale, or expose for sale pasteurized in-shell eggs that are packed for human consumption unless each container intended for sale to the ultimate consumer is labeled on one outside top, side, or end with all of the following:
   a. The consumer container is conspicuously labeled "KEEP REFRIGERATED" or with words of similar meaning as approved by the Department. Consumer container labeling that complies with the safe handling instructions required by Section 101.17 of Title 21 of the Code of Federal Regulations shall be deemed to comply with this subsection.
   b. The consumer container is conspicuously labeled "produced from" in conjunction with the appropriate consumer grade in letters no smaller than 1/2 size of the labeled consumer grade. The use of the consumer grade without the qualifier "produced from" is not permitted.
   c. The words "Best By", or "Use by" immediately followed by the month and day in bold type. Months shall be abbreviated Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov or Dec. The "Use by," or "Best before" date shall not exceed 75 days from the date on which the pasteurized in-shell eggs were pasteurized, excluding the date of pasteurization. Processors of in-shell eggs that subject the eggs to the pasteurization process shall establish a sell-by date by completion of an appropriate shelf stability study that includes public health and safety criteria. The processor shall retain the study on file at the processing plant and make it available to the Department upon request.
   d. If the pasteurized in-shell eggs are repacked, the original "Best By" or "Use by" date shall apply.
   e. A Julian pack date which is the consecutive day of the year on which the pasteurized in-shell eggs were pasteurized.
   f. The identification number of the plant of origin.
   g. A conspicuous identification of the eggs as "pasteurized."
   h. All state and federal labeling requirements.
   i. This Section does not apply to pasteurized in-shell eggs that are packaged for export.
   j. Subsection (B) does not apply to pasteurized in-shell eggs that are packaged for interstate commerce or pasteurized in-shell eggs that are packaged for military sales if exported to a state or federal agency that requires a different format for the sell-by or best-if-used-by date on pasteurized in-shell eggs, and the processor is utilizing that format.

Historical Note

Former Rule 2; Amended as an emergency effective November 18, 1981, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 81-6). Former Section R3-6-02 amended as an emergency now adopted and amended as a permanent rule effective February 19, 1982. Section renumbered as R3-2-902 (Supp. 82-1). Section R3-6-102

renumbered to R3-2-902 (Supp. 91-4). Section repealed, new Section adopted effective July 13, 1995 (Supp. 95-3). Amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). Amended by final rulemaking at 14 A.A.R. 892, effective May 3, 2008 (Supp. 08-1). Amended by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

Table I. Weight Classes for Pasteurized In-Shell Eggs

Weight Classes for Pasteurized In-Shell Eggs			
Size or weight class	Minimum net weight per dozen (ounces)	Minimum net weight 30 per dozen (pounds)	Minimum net weight for individual eggs at rate per dozen (ounces)
Jumbo Extra large Large Medium	30 27 24 21	56 50 1/2 45 39 1/2	29 26 23 20
*A lot average tolerance of 3.3 percent for individual eggs in the next lower weight class is permitted as long as no individual case within the lot exceeds 5 percent.			

Historical Note
Table I. Weight Classes for Pasteurized In-Shell Eggs made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-903. Sampling: Schedule and Methods for Evidence

A. An inspector may conduct random spot-check sampling of a lot of eggs to determine whether the lot meets minimum quality and weight standards and is in compliance with R3-2-907.

B. Representative egg sampling, under A.R.S. § 3-710(G), shall be based on Table II. A lot that does not meet minimum quality or weight standards or is not in compliance with R3-2-907 shall receive a warning notice hold tag.

1. An inspector may draw additional samples to determine whether the lot meets the minimum requirements.
2. When loose eggs are out of the case, the sample shall be based on a carton.
3. Eggs shall be sampled on a 30-dozen-case basis. When eggs are packed in other lot quantities, an inspector shall convert the quantity of eggs to the equivalent 30-dozen-case basis to establish the official sample size.

Historical Note
Former Rule 3; Amended effective March 17, 1976 (Supp. 76-2). Amended as an emergency effective November 18, 1981, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 81-6). Former Section R3-6-03 amended as an emergency now adopted and amended as a permanent rule effective February 19, 1982. Section renumbered as R3-2-903 (Supp. 82-1). Section R3-6-103 renumbered to R3-2-903 (Supp. 91-4). Section repealed, new Section R3-2-903 renumbered from R3-2-906 and amended effective July 13, 1995 (Supp. 95-3). Amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). Amended by final rulemaking at 15 A.A.R. 863, effective October 1, 2009 (Supp. 09-2). Amended by final rulemaking at 28 A.A.R. 802 (April 22, 2022), effective October 1, 2022 (Supp. 22-2).

Table II. Minimum Number of Cases and Cartons Comprising a Representative Sample

Lot size of cartons	Minimum eggs for inspection	Lot size of 30 doz. per case	Minimum cases for inspection[1]
1 - 4 cartons	All	1 case	1 case
5 - 30 cartons inclusive	50	2 - 10 cases inclusive	2 cases
31 - 120 cartons inclusive	100	11 - 25 cases inclusive	3 cases
120 - 210 cartons inclusive	200	26 - 50 cases inclusive	4 cases
211 - 315 cartons inclusive	300	51 - 100 cases inclusive	5 cases
		101 - 200 cases inclusive	8 cases
		201 - 300 cases inclusive	11 cases
		301 - 400 cases inclusive	13 cases
		401 - 500 cases inclusive	14 cases
		501 - 600 cases inclusive	16 cases
		For each additional 50 cases or fraction of a case in excess of 600 cases	1 case

[1]An inspector shall take 100 eggs from each case for inspection.

Historical Note
Table II was made under new Section R3-2-903 renumbered from R3-2-906 and amended effective July 13, 1995 (Supp. 95-3); it was last amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). The table and historical notes were moved out of R3-2-903 to maintain the numbering codification scheme of tables made at 26 A.A.R. 781 (Supp. 20-2).

R3-2-904. Quarterly Report Periods

Quarterly reports are due as prescribed in A.R.S. § 3-716(D). The quarterly report periods for inspection fees are:

1. July 1 to September 30,
2. October 1 to December 31,
3. January 1 to March 31, and
4. April 1 to June 30.

Historical Note

Former Rule 4; Amended effective March 17, 1976 (Supp. 76-2). Amended as an emergency effective November 18, 1981, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 81-6). Former Section R3-6-04 amended as an emergency now adopted and amended as a permanent rule effective February 19, 1982. Section renumbered as R3-2-904 (Supp. 82-1). Section R3-6-104 renumbered to R3-2-904 (Supp. 91-4). Section repealed, new Section R3-2-904 renumbered from R3-2-907 and amended effective July 13, 1995 (Supp. 95-3).

R3-2-905. Inspection Fee Rate

A. All dealers, producer-dealers, manufacturers, and producers shall pay an inspection fee at the rate of 3.0 mills (.00300) per dozen on all shell eggs sold as prescribed in A.R.S. § 3-716(A).

B. All dealers, producer-dealers, manufacturers, and producers shall pay an inspection fee at the rate of 3.0 mills (.00300) per pound on all egg products sold as prescribed in A.R.S. § 3-716(A).

C. For scheduled continuous grading, certification, and inspection services. The following rates apply to continuous grading service on a resident basis and continuous grading service on a nonresident basis per grader:

1. Regular rate: $38.00/hour;
2. Overtime rate: $57.00/hour;
3. Holiday rate: $58.00/hour.

D. For plant survey, unscheduled temporary, certification, auditing and appeal grading services. The following rates apply to temporary and auditing service per grader:

1. Regular rate: $57.00/hour;
2. Overtime rate: $85.00/hour;
3. Holiday rate: $87.00/hour.

Historical Note

Former Rule 5; Former Section R3-6-05 renumbered as Section R3-2-905 (Supp. 82-1). Section R3-6-105 renumbered to R3-2-905 (Supp. 91-4). Section repealed, new Section R3-2-905 renumbered from R3-2-908 and amended effective July 13, 1995 (Supp. 95-3). Amended by emergency rulemaking at 12 A.A.R. 4063, effective October 1, 2006 for 180 days (Supp. 06-4). Emergency renewed at 13 A.A.R. 1509, effective April 9, 2007 for 180 days (Supp. 07-2). Amended by final rulemaking at 13 A.A.R 1639, effective June 30, 2007 (Supp. 07-2). Amended by final rulemaking at 28 A.A.R. 802 (April 22, 2022), effective October 1, 2022 (Supp. 22-2).

R3-2-906. Violations and Penalties

A. A dealer, producer-dealer, manufacturer, producer, or retailer, at each individual location, is subject to the penalties in subsection (B) for any of the following violations:

1. Category A:
   a. Making a false or misleading statement relating to advertising or selling eggs and egg products;
   b. Acting as a dealer, producer-dealer, producer, or manufacturer without a valid license;
   c. Selling shell eggs with an incorrect or incomplete expiration date, or without an expiration date;
   d. Selling grade AA or grade A eggs after the expiration date on the carton, case, or container. Selling pasteurized in-shell eggs without or past the "Best By" or "Use by" date;
   e. Failing to maintain records and reports required by this Article;
   f. Failing to label a carton, case, or container with one size, one grade, one brand name, or, as required under R3-2-907;
   g. Moving eggs or an egg case, carton, or container with a warning tag or notice, or removing a warning tag or notice without permission from the Director;
   h. Refusing to submit egg or egg product, an egg case, carton, container, subcontainer, lot, load, or display of eggs to inspection; or
   i. Refusing to stop, at the request of an authorized representative of the Department, any vehicle transporting eggs or egg products;
   j. Selling eggs that have not been produced in accordance with the standards prescribed under R3-2-907;
   k. Failing to raise egg-laying hens in this state in accordance with the standards prescribed under R3-2-907.
2. Category B:
   a. Extending the expiration date of shell eggs as defined in A.R.S. § 3-701(13); or
   b. Advertising, representing, or selling out-of-state eggs as local eggs.
3. Category C:
   a. Failing to ensure that shell eggs for human consumption are kept refrigerated at an ambient temperature not higher than 45° F;
   b. Failing to ensure that frozen egg products for human consumption, labeled for storage at 0° F or below, are kept under refrigeration at a temperature of 0° F or lower;
   c. Failing to ensure that liquid egg products for human consumption are kept refrigerated at a temperature not higher than 40° F; or
   d. Failing to meet the sanitary standards egg processing of R3-2-908.

B. Any violation of this Article or of A.R.S. Title 3, Chapter 5, Article 1 not listed in subsection (A) is subject to a Category A civil penalty.

C. Under A.R.S. § 3-739, the civil penalty for a violation of subsection (A) is in Table III.

Historical Note

Former Rule 6; Amended effective February 19, 1982. Former Section R3-6-06 renumbered as Section R3-2-906 (Supp. 82-1). Section R3-6-106 renumbered to R3-2-906 (Supp. 91-4). Former Section R3-2-906 renumbered to R3-2-903, new Section adopted effective July 13, 1995 (Supp. 95-3). Amended by final rulemaking at 5 A.A.R. 4058, effective October 7, 1999 (Supp. 99-4). Amended by final rulemaking at 9 A.A.R. 2089, effective August 2, 2003 (Supp. 03-2). Amended by final rulemaking at 15 A.A.R. 863, effective October 1, 2009 (Supp. 09-2). Amended by made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final rulemaking at 28 A.A.R. 802 (April 22, 2022), effective

October 1, 2022 (Supp. 22-2).

Table III. Violations and Penalties

Number of Violations	Category A	Category B	Category C
1	Warning	Warning	Warning
2	$50	$50	$100
3	$100	$100	$200
4		$150	$400
5		$200	$500
6		$250	
7		$300	

Historical Note
Table III made by made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Heading added for clarity (Supp. 21-3).

R3-2-907. Poultry Husbandry; Standards for Production of Eggs and Biosecurity Requirements

A. Until September 30, 2022, all egg-laying hens in this state shall be raised according to UEP Animal Husbandry Guidelines.

B. Until September 30, 2022, all eggs sold in this state produced by hens shall be from hens raised according to the UEP Animal Husbandry Guidelines. All eggs shall display the UEP Certified logo on their cases, cartons, and containers, or the egg dealer shall annually provide the Department with a copy of a current independent third-party audit that demonstrates that the eggs were produced by hens raised according to UEP Animal Husbandry Guidelines.

C. Beginning October 1, 2022, all egg-laying hens in this state shall be housed in accordance with the UEP Animal Husbandry Guidelines and shall be provided with no less than one square foot of usable floor space per egg-laying hen.

D. Beginning October 1, 2022, all eggs and egg products sold in this state shall be from hens that are housed in accordance with the UEP Animal Husbandry Guidelines and provided with no less than one square foot of usable floor space per egg-laying hen.

E. Beginning no later than January 1, 2025, all egg-laying hens in this state shall be housed in a cage-free manner.

F. Beginning no later than January 1, 2025, all eggs and egg products sold in this state shall be from hens housed in a cage-free manner.

G. Subsections (A) through (F) do not apply to egg producers or business owners or operators operating or controlling the operation of one or more egg ranches each having fewer than 20,000 egg-laying hens producing eggs. Subsections (A) through (E) also do not apply to any hens that are raised cage-free or any eggs produced by hens that are raised cage-free.

H. Beginning no later than October 1, 2022, in order to sell eggs or egg products within the state, a business owner or operator must have a certificate from the Supervisor certifying that the eggs or egg products are produced in compliance with subsections (C) through (F), or are exempt under subsection (G). The Supervisor will certify that eggs and egg products are produced in compliance with subsections (C) through (G) if the eggs or egg products are accompanied by documentation from a government or private third-party inspection and continuous process verification service that the Supervisor deems acceptable establishing that the eggs or egg products were produced in compliance with this Section. The immediate container of eggs and egg products shall be plainly and conspicuously marked with the words "ARS 710J" in bold-faced type not less than one-eighth inch in height; or in another manner pre-approved by the Department.

I. It shall be a defense to any action to enforce this Rule that a business owner or operator relied in good faith upon a written certification by the supplier that the eggs or egg products at issue were derived from an egg-laying hen which was housed in compliance with this Section.

J. All producers and producer dealers with operations within the state shall have a written biosecurity plan in place. At a minimum each producer and producer dealer shall:

1. Restrict access to all areas where poultry are housed or kept.
2. Take steps to ensure that contaminated material is not transported into any poultry barns.
3. Cover and secure feed in a manner that prevents wild bird, rodents or other animals from accessing the feed.
4. Cover and properly contain poultry carcasses, used litter, or other disease-containing organic materials that prevents wild birds, rodents or other animals from accessing the material and movement of the materials by the wind.
5. Keep houses in good repair and all areas to which the birds have access should be kept free of materials hazardous to the birds.

K. The biosecurity plan shall contain the following:

1. Methods for the disposal and handling of poultry manure.
2. Procedures for prevention, control and eradication of vectors for poultry diseases.
3. Procedures for the detection, control and treatment of poultry diseases.
4. Methods for the disposal and handling of culled birds and entire flocks under normal cyclic operations and following emergency depletion as a result of disease.
5. A facility poultry disease control and prevention plan which includes standard operating procedures with respect to specific measures to control and prevent disease including but not limited to structural and operational disease control and prevention provisions.
6. Procedures to prevent cross contamination between nest run and in line eggs.
7. Procedures to prevent the introduction and transmittal of diseases by vehicles and any other forms of transportation.
8. Signed agreements with all employees containing biosecurity procedures regarding contact with outside poultry and wild birds.

L. A producer and producer dealer shall allow the Department to enter the premises during normal working hours to inspect the biosecurity plan documents and the biosecurity that is implemented.

Historical Note
Former Rule 7; Former Section R3-6-07 renumbered as Section R3-2-907 (Supp. 82-1). Section R3-6-107 renumbered to R3-2-907 (Supp. 91-4). Section R3-2-907 renumbered to R3-2-904 effective July 13, 1995 (Supp. 95-3). New Section made by final rulemaking at 15 A.A.R. 863, effective October 1, 2009 (Supp. 09-2). Amended by made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2). Amended by final rulemaking at 28 A.A.R. 802 (April 22, 2022), effective October 1, 2022 (Supp. 22-2).

R3-2-908. Sanitary Standards; Egg Processing

A. All egg producers and retail locations where lot consolidation is conducted in this state shall meet the facility and sanitary operation requirements prescribed by the Regulations Governing the Voluntary Grading of Shell Eggs, 7 CFR 56, effective March 30, 2008. This material is incorporated by reference, does not include any later editions, and is available for inspection at the Department of Agriculture, 1688 W. Adams St., Phoenix, AZ 85007.

B. No person other than a producer or producer dealer shall repack eggs. All eggs sold to the ultimate consumer must be pre-packaged with all required labeling requirements of this Article and A.R.S. Title 3 Chapter 5. A producer, producer dealer shall not pack or repack eggs that have been in retail distribution channels.

C. A retailer may lot consolidate eggs labeled for the ultimate consumer by a packer. A daily log with lot information is required and shall include volume consolidated, grade, size, brand, lot and source.

Historical Note

Former Rule 8; Amended effective October 1, 1979 (Supp. 79-5). Former Section R3-6-08 renumbered as Section R3-2-908 (Supp. 82-1). Amended effective January 1, 1985 (Supp. 84-6). Amended effective December 30, 1987 (Supp. 87-4). Amended effective March 23, 1990 (Supp. 90-1). Section R3-6-108 renumbered to R3-2-908 (Supp. 91-4). Section R3-2-908 renumbered to R3-2-905 effective July 13, 1995 (Supp. 95-3). New Section made by final rulemaking at 15 A.A.R. 863, effective October 1, 2009 (Supp. 09-2). Amended by made by final rulemaking at 26 A.A.R. 781, effective June 8, 2020 (Supp. 20-2).

R3-2-909. Repealed

Historical Note

Former Rule 9; Former Section R3-6-09 renumbered as Section R3-2-909 (Supp. 82-1). Section R3-6-109 renumbered to R3-2-909 (Supp. 91-4). Section repealed effective July 13, 1995 (Supp. 95-3).

ARTICLE 10. AQUACULTURE

R3-2-1001. Definitions

In addition to the definitions provided in A.R.S. § 3-2901, the following shall apply unless the context otherwise requires:

1. "Certificate of Aquatic Health" is an official document from an issuing state or an equivalent form published by the United States Fish and Wildlife Service or the United States Department of Agriculture attesting that the live aquatic animals described thereon have been inspected and are free of the diseases and causative agents set forth in R3-2-1009.
2. "Department" means the Arizona Department of Agriculture.

Historical Note

Adopted effective May 3, 1993 (Supp. 93-2).

R3-2-1002. Fees for Licenses; Inspection Authorization and Fees

A. License fees are established as follows:

1. Aquaculture facility: $100 annually.
2. Fee fishing facility: $100 annually.
3. Aquaculture processor: $100 annually.
4. Aquaculture transporter: $100 annually.
5. Special licenses: $10 annually.

B. An expired license may be renewed within 90 days after expiration by payment of a $50 late fee.

C. Upon request of the licensee, the Department shall assess the licensed facility and, if applicable, certify the facility is free from infectious diseases and causative agents listed in R3-2-1009 before issuing a Certificate of Aquatic Health. All expenses properly incurred in the certification procedure of the inspection, including time, travel, and laboratory expenses, shall be paid to the Department by the licensee requesting certification.

Historical Note

Adopted effective May 3, 1993 (Supp. 93-2). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3).

R3-2-1003. General Licensing Provisions

A. An applicant for a license to operate an aquaculture facility or a fee fishing facility, or to operate as an aquaculture processor or aquaculture transporter shall provide the following information on a form furnished by the Department:

1. Whether the applicant is an individual, corporation, partnership, cooperative, association, or other type of organization;
2. The name and address of the applicant;
3. A corporation shall specify the date and state of incorporation;
4. The principal name of the business, and all other business names that may be used;
5. The name, mailing address, and telephone number of the applicant's authorized agent;
6. The street address or legal description of the location of the facility to be licensed; and
7. The signature of the person designated in subsection (A)(5), and the date the application is completed for submission to the Department.

B. The Department shall grant a license when all conditions are met and assign a Department establishment number to each facility.

C. All licenses expire on December 31 for the year issued.

D. A licensee shall advise the Department in writing of any change in the information provided on the application during the license year. This information shall be provided within 30 calendar days of the change.

E. To prevent the spread of diseases and causative agents listed in R3-2-1009, the Department may inspect and take samples from any facility or shipment being transported. A licensee shall notify the Department within 72 hours of becoming aware of the presence of any disease or causative agent listed in R3-2-1009. Aquatic animals found to be infected with a disease or causative agent listed in R3-2-1009 are prohibited from interstate or intrastate movement without prior written Department approval.

F. The Department shall quarantine or seize aquatic animals, alive or dead, plants, or products for examination or diagnostic study when there is a potential for spread of a disease or causative agent listed in R3-2-1009, or any other disease or causative agent that could constitute a threat to aquatic animals or plants of the state. The Department shall issue a written notice to the licensee specifying:

1. The reason for the Department's action; and
2. The licensee's right to request a hearing as prescribed in A.R.S. § 3-2906.

G. A licensee shall conspicuously mark all quarantined aquatic products and quarantined areas in a manner specified by the Department.

H. A licensee shall pay all diagnostic, quarantine, and destruction costs.

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3).

R3-2-1004. Specific Licensing Provisions; Aquaculture Facility; Fee Fishing Facility; Special License Facility

A. In addition to the application requirements in R3-2-1003, an applicant for a license to operate an aquaculture facility, a fee fishing facility, or a special license facility under A.R.S. § 3-2908(A) shall provide the following information on a form provided by the Department:
1. Water sources, transmission, and conveyances;
2. Method used to dispose of tailing waters and solid wastes;
3. Number and size of ponds, raceways, and tanks, if applicable;
4. Whether hatchery facilities are included;
5. A list of all animals and plants to be authorized under the license by genus, species, and common name.

B. An application to culture or possess an aquatic animal or plant that has not previously occurred in the drainage where the facility is located shall be accompanied by a written proposal. The applicant's proposal shall include:
1. Anticipated benefits from introducing the species;
2. Anticipated adverse effects from introducing the species, as it may affect indigenous or game fish, including hybridization;
3. Anticipated diseases inherent to introducing the species;
4. Suggestions for post-introduction evaluation of status and impacts of the introduced species; and
5. Structural and operational methods implemented to prevent escape of the species, if applicable.

C. Each body of water serving a facility shall be contained within the boundaries of the land owned or leased by the licensee.

D. A facility using public waters having natural or artificial inlets, rivers, creeks, washes, or canals shall provide mechanical screening approved by the Department to prevent live aquatic animals and plants, including eggs and fry, from escaping beyond the aquaculture facility boundaries or into public bodies of water.

E. An applicant for a special license under A.R.S. § 3-2908(A) shall also provide the following information to the Department at the time of application:
1. A written narrative describing the project in detail, the project purpose, the hypothesis, and the project duration; and
2. The proposed disposition of the aquatic animals or plants upon completion of the project.

F. The Department shall consider the recommendations of the Arizona Game and Fish Department, under A.R.S. § 3-2903, when determining whether to issue a license or an import permit under R3-2-1010. The Department may issue a license excluding some of the aquatic animal or plant species listed in the application.

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2). Amended by final rulemaking at 10 A.A.R. 673, effective April 3, 2004 (Supp. 04-1).

R3-2-1005. Fee Fishing Facility

A licensee shall not allow an aquatic animal to be removed from a fee fishing facility unless:
1. The aquatic animal is dead, and
2. The licensee provides the person removing the aquatic animal with written proof of sale identifying the:
   a. Facility, by name, address, and Department establishment number issued under R3-2-1003(B);
   b. Date of harvest; and
   c. Number and species of aquatic animals transported from the facility.

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2). Amended by final rulemaking at 10 A.A.R. 673, effective April 3, 2004 (Supp. 04-1).

R3-2-1006. Processor License

A. In addition to complying with the application requirements of R3-2-1003, applicants for a license to operate as an aquaculture processor as defined in A.R.S. § 3-2901(12) shall provide the following information on a form furnished by the Department:
1. Water sources, transmission, conveyances, and annual consumption in gallons or acre feet;
2. Method used to dispose of tailing waters and solid wastes;

B. A processing facility shall operate in a clean and sanitary condition during all periods of operation. The following are the minimum requirements for such establishments.
1. Each establishment shall have sanitary floors and walls impervious to water.
2. All outside windows and doors shall be screened.
3. There shall be a supply of potable water.
4. There shall be a sewage disposal system of such a type as not to be a breeding place for insects and not to constitute a hazard or to endanger public health.

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2).

R3-2-1007. Transporter License; Transport; Delivery

A. In addition to the application requirements in R3-2-1003, an applicant for a license to operate as an aquaculture transporter of live aquatic animals as defined in A.R.S. § 3-2901(15) shall, on a form provided by the Department:
1. Designate whether the license is for interstate or intrastate transport, or both;
2. List aquatic transporting equipment to be used, including tanks and vehicles, and vehicle license number; and
3. State prior year volume or anticipated annual tonnage of live aquatic animals transported.

B. A transporter shall ensure that the aquatic transporting equipment has adequate water and oxygen at a temperature and in a quantity normal for the health of the live aquatic animals and shall be clearly marked, "Live Fish."

C. In addition to a copy of the Certificate of Aquatic Health, a transporter shall transport each container of live aquatic animals within the state with a document identifying:
1. Consignor's name, address, and telephone number;
2. Consignee's name, address, and telephone number;
3. Quantity and size of the aquatic animal being transported;
4. Genus, species, and common name of the aquatic animal being transported;
5. Date of shipment; and

6. Department establishment number.

D. A transporter shall deliver live aquatic animals only to a retail outlet, as prescribed at A.R.S. § 3-2907(J) or to a person listed in R3-2-1010(B).

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2). Amended by final rulemaking at 10 A.A.R. 673, effective April 3, 2004 (Supp. 04-1).

R3-2-1008. Repealed

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2). Section repealed by final rulemaking at 10 A.A.R. 673, effective April 3, 2004 (Supp. 04-1).

R3-2-1009. Disease Certification

A. A licensee requesting and receiving a Certificate of Aquatic Health shall have their facility inspected and all live aquatic animals, fertilized eggs and milt shall be found free of, but not limited to, the following diseases and causative agents:
1. Causative agent: Egtved Virus. Disease: VHS, Viral Hemorrhagic Septicemia of Salmonids.
2. Causative agent: Infectious Hematopoietic Necrosis Virus. Disease: IHN, Infectious Hematopoietic Necrosis of Salmonids.
3. Causative agent: Infectious Pancreatic Necrosis Virus. Disease: IPN, Infectious Pancreatic Necrosis of Salmonids.
4. Causative agent: *Ceratomyxa shasta*. Disease: Ceratomyxosis of Salmonids.
5. Causative agent: *Rhabdovirus carpio*. Disease: Spring Viremia of carp. Certification is required in this case only when the original origin of the shipment is from outside the United States.
6. Causative agent: *Renibacterium salmoniarum*. Disease: BKD, Bacterial Kidney Disease of Salmonids.
7. Causative agent: *Aeromonas salmonicida*. Disease: Furunculosis.
8. Causative agent: *Myxobolus cerebralis*. Disease: Whirling Disease of Salmonids.

B. The Department may require inspection for any disease or causative agent not listed in subsection (A) when there is evidence that the disease or causative agent may constitute a threat to aquatic animals or plants, aquatic wildlife or the aquaculture industry. The Department shall send written notice to all licensees pursuant to this Chapter when implementing this subsection, naming the disease or causative agent of concern. Action to quarantine or seize aquatic animals or plants pursuant to this subsection shall not be subject to delay pending such written notice.

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2).

R3-2-1010. Importation of Aquatic Animals

A. The owner, or owner's agent, importing live aquatic animals into the state shall ensure the animals are accompanied by the following:
1. A Certificate of Aquatic Health as defined in R3-2-1001, based upon an inspection of the originating facility within the 12 months preceding the shipment;
2. A transporter license issued under R3-2-1007; and
3. An import permit number issued by the Department under this Section, legibly written or typed on the certificate of aquatic health.

B. The owner, or owner's agent, of live aquatic animals, except those imported by a retail outlet as prescribed in A.R.S. § 3-2907(J), shall ensure that the animals are consigned to or in the care of:
1. An Arizona resident;
2. An aquaculture facility, fee fishing facility, or special license holder licensed by the Department;
3. A holder of an aquatic wildlife stocking permit issued by the Arizona Game and Fish Department; or
4. A holder of any aquatic animal license issued by the Arizona Game and Fish Department.

C. The owner, or owner's agent, may obtain an import permit number from the Department, Office of the State Veterinarian, by providing the following information:
1. Consignor's name, address, and telephone number;
2. Consignee's name, address, and telephone number;
3. Consignee's Department establishment number issued by the Department or a copy of an aquatic wildlife stocking permit or the license issued by the Arizona Game and Fish Department;
4. Origin of the shipment;
5. Genus, species, and common name of aquatic animals to be imported; and
6. Quantity and size classification of aquatic animals to be imported.

D. An import permit number remains valid for 15 calendar days from the date of issuance by the Department.

E. The Department shall refuse entry to any shipment that does not comply with this rule.

F. The Department shall quarantine and require destruction of any shipment, after its arrival, that it determines is infected with or was previously exposed to any causative agent or disease listed in R3-2-1009.

Historical Note
Adopted effective May 3, 1993 (Supp. 93-2). Amended by final rulemaking at 8 A.A.R. 4043, effective November 9, 2002 (Supp. 02-3).

ARTICLE 11. VOLUNTARY EGG GRADING PROGRAM

R3-2-1101. Definitions

For the purpose of this Article, unless the context otherwise requires, the terms in this Section shall have the following meaning:

"Acceptable" means suitable for the purpose intended.

"Administrator" means the supervisor as defined in A.R.S. § 3-701.

"Ambient temperature" means the air temperature maintained in an egg storage facility or transport vehicle.

"AMS" means Agricultural Marketing Service, United States Department of Agriculture.

"Applicant" means any person or entity who requests any grading service.

"Appeal grading" means a re-grading requested by a recipient who is dissatisfied with an initial grading decision.

"Associate Director" means the associate director of the animal service division.

"Auditing services" means the act of providing independent verification of written quality assurance and value added standards for production, processing and distribution of eggs. Auditing services are performed by graders authorized by the Administrator to perform such audits and the service provided

will be in accordance with the provisions of this Article for grading services, as appropriate.

"Cage mark" means any stain-type mark caused by an egg coming in contact with a material that imparts a rusty or blackish appearance to the shell.

"Case" means, when referring to containers, an egg case, as used in commercial practice in the United States, holding 30 dozens of eggs.

"Class" means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same size, kind, species, or method of processing.

"Chick papers" means the papers in which chicks are delivered.

"Condition" means any condition (including, but not being limited to, the state of preservation, cleanliness, soundness, wholesomeness, or fitness for human food) of any product which affects its merchantability.

"Consumer grades" means U.S. Grade AA, A, and B.

"Controlling person" means a person at least 21 years of age legally accountable for operations and management of the egg production plant.

"Department" or "AZDA" means the Arizona Department of Agriculture.

"Director" means the Director of the Arizona Department of Agriculture.

"Egg grading service" means the personnel who are actively engaged in the administration, application, and direction of egg grading programs and services pursuant to this Article.

"Eggs" means eggs of domesticated chickens.

"Eggs of current production" means eggs that are no more than 21 days old.

"Grademark" means the official identification symbol used to identify eggs officially graded by AZDA in accordance with this Article.

"Grader" means any employee assigned by AZDA to investigate and certify in accordance with this Article, the class, quality, quantity, or condition of products.

"Grading or grading service" means the determination by a grader that a product meets the standards of this Article regarding the class, quality, quantity, or condition of the product for the purpose of issuing a grade or grading certificate. Such determination may be performed by examining all product units or representative samples drawn by the grader; may be performed as a temporary, resident or non-resident grading service; and includes regrading performed in response to an appeal of a previous grading decision.

"Grading certificate" means a statement, either written or printed, issued by a grader pursuant to this Article, relative to the class, quantity, quality, or condition of products.

"Holiday or legal holiday" means the legal public holidays specified by State of Arizona Accounting Manual (SAAM).

"Identify" means to apply a grademark to products or the containers thereof.

"Interested party" means any person financially interested in a transaction involving any grading, appeal grading, or regrading of any product.

"Office of grading" means the office of any resident grader at the plant.

"Official AZDA certificate" means any form of certification, either written or printed, used under this Article to certify with respect to the sampling, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

"Official AZDA memorandum" means any initial record of findings made by an authorized person in the process of grading or sampling pursuant to this Article, any processing or plant-operation report made by an authorized person in connection with grading or sampling under this Article, and any report made by an authorized person of services performed pursuant to this Article.

"Official AZDA mark" means the grademark and any other mark, or any variations in such marks approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded, or indicating the appropriate U.S. grade or condition of the product, or for the purpose of maintaining the identity of products graded under this Article, including but not limited to, those set forth in R3-2-1111.

"Official identification" means any AZDA standard designation of class, grade, quality, size, quantity, or condition specified in this Article or any symbol, stamp, label, logo, or seal indicating that the product has been officially AZDA graded and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Supervisor and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

"Official plant" means the facilities used for a shell egg operation that has been approved by AZDA for grading purposes.

"Origin grading" means a grading made on a lot of eggs at a plant where the eggs are graded and packed.

"Packaging" means the primary or immediate container in which eggs are packaged and which serves to protect, preserve, and maintain the condition of the eggs.

"Packing" means the secondary container in which the primary or immediate container is placed to protect, preserve, and maintain the condition of the eggs during transit or storage.

"Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

"Plant" means the facilities used for a shell egg operation.

"Potable water" means water that has been approved by the State health authority or agency or laboratory acceptable to the Administrator as safe for drinking and suitable for food processing.

"Product or products" means eggs of the domesticated chicken.

"Quality" means the inherent properties of any product which determine its relative degree of excellence.

"Quality assurance inspector" means any designated company employee other than the plant owner, manager, foreman, or

supervisor, authorized by the State supervisor to examine product and to supervise the labeling, dating, and lotting of officially graded eggs and to assure that such product is packaged under sanitary conditions, graded by authorized personnel, and maintained under proper inventory control until released by an employee of the Department.

"Recipient" means the individual or entity whose application for grading services has been approved by the Department.

"Resident grading service" means continuous supervision, in an official plant, of the handling or packaging of any product.

"Sampling" means the act of taking samples of any product for grading or certification.

"SE" means *Salmonella* Enteritidis.

"Shell protected" means eggs which have had a protective covering such as oil applied to the shell surface. The product used shall be acceptable to the Food and Drug Administration.

"Shipped for retail sale" means eggs that are forwarded from the processing facility for distribution to the ultimate consumer.

"State supervisor" means the immediate supervisor of a Grader.

"Washed ungraded eggs" means eggs which have been washed and that are either sized or unsized, but not segregated for quality.

Historical Note

Section R3-2-1101 recodified from R3-2-101 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). New Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1102. General Provisions

A. Administration. The Administrator shall perform such duties as the Associate Director may require in the enforcement or administration of the provisions of this Article. The Administrator is authorized to waive for limited periods any particular provisions of this Article to permit experimentation so that new procedures, equipment, and processing techniques may be tested to facilitate definite improvements and at the same time to determine full compliance with the spirit and intent of this Article. The AZDA and its officers and employees shall not be liable in damages through acts of commission or omission in the administration of this Article.

B. Basis of grading service.

1. Grading service with respect to the determination of the quality of products shall be on the basis of the United States Standards, Grades, and Weight Classes for shell eggs. However, grading service may be rendered with respect to products which are bought and sold on the basis of institutional contract specifications or specifications of the recipient; and such service, when approved by the Administrator, shall be rendered on the basis of such specifications. The supervision of packaging shall be in accordance with such instructions as may be approved or issued by the Administrator.
2. Whenever grading service is performed on a representative sample basis, such sample shall be drawn and consist of not less than the minimum number of cases as indicated in:
   a. R3-2-903 for stationary lots; or
   b. QAD 700 Shell Egg Graders Handbook Section 8 on-line sampling of Shell Eggs (8-30-2016).
3. Accessibility of product. Each product for which grading service is requested shall be so conditioned and placed as to permit a proper determination of the class, quality, quantity, or condition of such product.

C. Prerequisites to grading. Grading of products shall be rendered pursuant to this Article and under such conditions and in accordance with such methods as may be prescribed or approved by the Administrator.

D. Supervision. All plant grading service shall be subject to supervision at all times by an AZDA grader. Such service shall be rendered in accordance with instructions issued by the Administrator where the facilities and conditions are satisfactory for the conduct of the service and the requisite graders are available.

E. Other applicable regulations. Compliance with this Article shall not excuse failure to comply with any other applicable Federal, State, or local laws or regulations.

Historical Note

Section R3-2-1102 recodified from R3-2-102 (Supp. 97-1). Amended effective October 8, 1998 (Supp. 98-4). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1103. Equipment and Facilities for Graders

Equipment and facilities to be furnished by the recipient for use of graders in performing service on a resident basis shall include, but not be limited to, the following:

A. An accurate metal stem thermometer.

B. An accurate means to determine pH level of wash water.

C. Test kits for checking the concentration level of the solution used for sanitizing eggs and monitoring the concentration level of potable water treatment compounds in plants having chlorinators. The kit must be designed for testing the compound being used.

D. Protective equipment including, general purpose gloves and safety glasses to all egg graders who are monitoring the strength of potable water treatment compounds and egg sanitizing solutions, unless plant employees are trained to perform the testing under the direct supervision of the grader.

E. Electronic digital-display scales graduated in increments of 1/10-ounce or less for weighing individual eggs and test weights for calibrating such scales. Plants packing product based on metric weight must provide scales graduated in increments of one gram or less.

F. Electronic digital-display scales graduated in increments of 1/4-ounce or less for weighing the lightest and heaviest consumer packages packed in the plant and test weights for calibrating such scales.

G. Scales graduated in increments of 1/4-pound or less for weighing shipping containers and test weights for calibrating such scales.

H. Test weights sufficient in size to verify the accuracy of the lightest and heaviest unit of measurement weighed on any given scale located in the plant.

I. Two candling lights that provide a sufficient combined illumination through both the aperture and downward through the bottom to facilitate accurate interior and exterior quality determinations.

J. A candling booth adequately darkened and located in close proximity to the work area that is reasonably free of excessive noise. The booth must be sufficient in size to accommodate two graders, two candling lights, and other necessary grading equipment.

K. If deemed necessary by the supervisor, a cart or method of conveyance for the transportation of samples to and from the candling booth.

L. Furnished office space, suitable wireless internet connection, a desk and file or storage cabinets (equipped with a satisfactory locking device), suitable for the security and storage of official supplies, and other facilities and equipment as may otherwise be required. Such space and equipment must meet the approval of the Administrator.

Historical Note

Section R3-2-1103 recodified from R3-2-103 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1104. Schedule of Operation of Official Plants

Grading operating schedules for services performed pursuant to this Article shall be requested in writing and be approved by the Administrator. Normal operating schedules for a full week consist of a continuous eight-hour period per day (excluding not to exceed one hour for lunch), five consecutive days per week, within the administrative workweek, Saturday through Friday, for each shift required. Less than eight-hour schedules may be requested and will be approved if a grader is available. Clock hours of daily operations need not be specified in the request, although as a condition of continued approval, the hours of operation shall be reasonably uniform from day to day. Graders are to be notified by management one day in advance of any change in the hours grading service is requested.

Historical Note

Section R3-2-1104 recodified from R3-2-104 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1105. Application for Grading Service

A. An application for AZDA grading service may be made by egg producer or a producer dealer with operations located in Arizona.

B. Form of application. Each application for grading or sampling a specified lot of any product shall include such information as may be required by the Administrator in regard to the product and the premises where such product is to be graded or sampled. The applicant shall designate the employees of the applicant who will authorized to provide information to the AZDA grader or graders as may be necessary for the performance of the grading service.

C. Application for grading service in official plants; approval. Any person desiring to process and pack products in a plant under grading service must receive approval of such plant and facilities as an official plant prior to the rendition of such service. When a signed application for service has been received, the State supervisor or the supervisor's assistant shall complete a plant survey pursuant to this Article. An application for grading service shall be approved when the application has been filed for grading service; a successful plant survey is completed; and all required facility or equipment modifications are completed.

D. Denial of service. An application for grading service may be denied by the Administrator when:

1. The applicant fails to meet the requirements of this Article prescribing the conditions under which the service is made available.
2. The product is owned by or located on the premises of a person currently denied the benefits of this Article.
3. Any individual holding office or a responsible position with or having a substantial financial interest or share in the applicant is currently denied the benefits of the Act or was responsible in whole or in part for the current denial of the benefits of this Article to any person or entity.
4. The Administrator determines that the application is an attempt on the part of a person currently denied the benefits of this Article to obtain grading services.
5. The applicant, after an initial survey has been made in accordance with this Article, fails to bring the grading facilities and equipment into compliance with this Article within a reasonable period of time.
6. Notwithstanding any prior approval whenever, before initiation of service, the applicant fails to fulfill commitments concerning the initiation of the service.
7. It appears that performing the services specified in this Article would not be in the best interests of the public welfare or of the Government.
8. It appears to the Administrator, in his sole discretion, that prior commitments of the Department or lack of resources necessitate denial of service.

E. Debarment. An applicant may be permanently debarred for the following reasons:

1. The giving or offering, directly or indirectly, of a bribe, or any money, loan, gift, or anything of value to an employee of the Department to obtain any benefit or special treatment;
2. Taking any action that falsely brings the Department in disrepute or that creates the appearance of impropriety;
3. Knowingly making a false or misleading statement of a material fact to the Department;
4. Using any official identification, grademark, stamp, symbol, label, seal, or identification without authority from the Department;
5. Forging, counterfeiting, or falsely simulating any grading certificate, symbol, stamp, label, seal, or identification authorized pursuant to this Article;
6. Use of an official grademark, certificate, symbol, stamp, label, seal, or identification without authority;
7. Failure to make an official plant or product accessible for grading service;
8. Interference with the performance of duty of an AZDA grader, licensee, contractor, or employee.
9. Failure to pay a Department invoice within 30 days after issuance of the invoice; or
10. Any other violation of any provision of the statutes, rules and regulations of the Department that threatens the health, safety, or welfare of the public.

F. Notification. An applicant shall be promptly notified of the reasons for a denial of service. A written petition for reconsideration of such denial may be filed by the applicant with the Administrator if postmarked or delivered within 10 days after the receipt of notice of the denial. Such petition shall state specifically the errors alleged to have been made by the Administrator in denying the application. Within 20 days following the

receipt of such a petition for reconsideration, the Administrator shall approve the application or notify the applicant of the reasons for the denial thereof. Service of notice may be accomplished by regular mail and/or email.

G. Withdrawal of application. An application for grading service may be withdrawn by the applicant at any time before the service is performed, provided that the applicant pays all expenses incurred by the AZDA in connection with such application.

Historical Note

Section R3-2-1105 recodified from R3-2-105 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1106. Authority of Applicant

A. Proof that an authorized controlling person is applying for any grading service may be required at the discretion of the Administrator. Such proof may include, but is not limited to:

1. Documentation, as specified under A.R.S. § 41-1080(A), of the applicant's lawful presence in the U.S.
2. Proof of business entity structure of the plant.
3. Proof of ownership interest or position held in the plant.
4. Documentation of designated authority from the business entity under which the plant operates.

B. The approved recipient of grading services must notify the Department of a change of control or ownership of the official plant within 15 days after such change is effective.

Historical Note

Section R3-2-1106 recodified from R3-2-106 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1107. Order of Service

AZDA grading service shall be performed, insofar as practicable and subject to the availability of qualified graders, on a first-come, first-served basis, except that precedence may be given to an application for an appeal grading.

Historical Note

Section R3-2-1107 recodified from R3-2-107 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1108. Types of Grading Service

A. Scheduled continuous grading service on a resident basis and continuous grading service on a nonresident basis. Service on a resident basis has a scheduled tour of duty, while service on a nonresident basis has a nonscheduled tour of duty, but is of a reoccurring nature. Both of these services are performed when an applicant requests that an AZDA/inspector grader be stationed in the applicant's processing plant and grade eggs in accordance with U.S. Standards. The applicant agrees to comply with the facility, operating, and sanitary requirements of resident service. The charges for resident grading services are based on the hours of the regular tour of duty. Eggs graded under AZDA resident grading service are only eligible to be identified with the official grademarks shown in R3-2-1111 when processed and graded under the supervision of a grader/inspector, or quality assurance inspector as provided in R3-2-1114.

B. Unscheduled temporary grading service. Temporary grading service is performed when an applicant requests resident grading on a fee basis. The applicant must meet all of the facility, operating, and sanitary requirements of resident service. Charges or fees are based on the time and expenses needed to perform the work. Eggs graded under temporary grading service are only eligible to be identified with the official AZDA grademarks when they are processed and graded under the supervision of a grader or quality assurance inspector as provided in R3-2-1114.

C. Auditing service. Auditing service is performed when an applicant requests independent verification of written quality assurance and value added standards for production, processing, and distribution of eggs. Charges or fees are based on time, travel, and expenses needed to perform the work.

D. The Department shall determine the number of graders needed to perform grading services. Recipients shall not ask AZDA graders to assume plant managerial responsibilities.

Historical Note

Section R3-2-1108 recodified from R3-2-108 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1109. Suspension of Grading Service or Plant Approval for Correctable Cause

A. Provision of grading services is a privilege and not a right. Any plant approval of grading services given pursuant to this Article may be suspended by the Administrator for:

1. Failure to maintain grading facilities and equipment in a satisfactory state of repair, sanitation, or cleanliness.
2. The use of operating procedures which are not in accordance with this Article;
3. Alterations of grading facilities or equipment which have not been approved in accordance with this Article; or
4. Any reasons listed under R3-2-1105(D) "Denial of Service," or required by any other need to protect public health, safety, or welfare.

B. Suspension may occur prior to the right to have a hearing in cases in which immediate suspension is required to protect public health, safety, or welfare. Whenever it is feasible to do so, written notice in advance of such suspension of plant approval shall be given to the person concerned and shall specify a reasonable period of time in which corrective action must be taken. If advance written notice is not given, the action shall be promptly confirmed in writing after the suspension and the reasons therefor shall be stated, except in instances where the person has already corrected the deficiency. During such period of suspension, grading service shall not be rendered. After appropriate corrective action is taken, grading service will be restored immediately, or as soon thereafter as a grader can be made available.

C. If the grading facilities or methods of operation are not brought into compliance within a reasonable period of time as specified by the Administrator, the Administrator shall send formal notice of the suspension pursuant to A.R.S. Title 41, Chapter 6, Article 10. Any suspension shall continue in effect

pending the outcome of a hearing unless otherwise ordered by the Administrator.

D. Upon suspension of grading service, all grademarks (labels, seals, tags, or packaging material bearing other official identification), shall, under the supervision of a person designated by the AZDA, be destroyed, obliterated, or sequestered in a manner acceptable to the AZDA.

E. In any case where grading service is suspended under this Section, the person concerned may thereafter apply for grading service once the conditions giving rise to the suspension or withdrawal have been remediated.

Historical Note

Section R3-2-1109 recodified from R3-2-109 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1110. Authority to Use Official Insignia

A. Authority to use official AZDA grademarks. Authority to use an AZDA grademark on products is granted only to recipients who utilize the services of a grader or quality assurance inspector in accordance with this Article. Packaging materials bearing official identification marks shall be approved pursuant to R3-2-1110 to R3-2-1111, inclusive, and shall be used only for the purpose for which approved and prescribed by the Administrator. Any unauthorized use or disposition of approved labels or packaging materials which bear any official AZDA identification may result in cancellation of grading service, denial of the permission to use of labels or packaging materials bearing official identification, or denial of other benefits of the Act pursuant to the provisions of R3-2-1105 D.

B. Approval of official identification. No label, container, or packaging material which bears official identification may contain any statement that is false or misleading. No label, container, or packaging material bearing official identification may be printed or prepared for use until the printers' or other final proof has been approved by the Administrator in accordance with this Article. It is the recipient's responsibility to ensure label compliance with the Federal Food, Drug, and Cosmetic Act, the Fair Packaging and Labeling Act, and the regulations promulgated under this Article. The use of finished labels must be approved as prescribed by the Administrator. A grader may apply official identification stamps to shipping containers if they do not bear any statement that is false or misleading. If the label is printed or otherwise applied directly to the container, the principal display panels of such container shall for this purpose be considered as the label. The label shall contain the name, address, and ZIP Code of the packer or distributor of the product, the name of the product, a statement of the net contents of the container, and the AZDA grademark.

C. Nutritional labeling. Nutrition information must be included on the labeling of each unit container of consumer packaged eggs in accordance with the General Regulations for the Enforcement of the Federal Food, Drug, and Cosmetic Act and the Fair Packaging and Labeling Act, located at 21 CFR §§ 101.1 to 101.108. The nutrition information included on labels is subject to review by the Food and Drug Administration prior to approval by the Department.

D. Refrigeration labeling. All containers bearing official AZDA "Grade AA" or "Grade A" identification shall be labeled to indicate that refrigeration is required, for example, "Keep refrigerated," or words of similar meaning.

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1111. Form of AZDA Grademark and Information Required

A. Form of official identification symbol and grademark. The logo set forth in Illustration 1 shall be the official identification symbol for purposes of this Article and when used, imitated, or simulated in any manner in connection with eggs, shall be *prima facia* evidence that the product has been officially graded in compliance with this Article.

B. Eggs with consumer grades. Except as otherwise authorized, the AZDA grademark used to officially identify AZDA consumer-graded eggs shall be of the form and design indicated in Illustrations 2 through 4. The logo shall be of sufficient size so that the printing and other information contained therein is legible and in approximately the same proportion as shown in these figures. No variation may be used for the color scheme of Illustration 4.

C. The **"**Produced From**"** AZDA grademark. The Illustration 5 grademark may be used to identify products for which there are no official U.S. grade standards (for example, pasteurized shell eggs, and/or hard boiled eggs), provided that these products are approved by the Department and are prepared from AZDA compliant Consumer Grade AA or A eggs. The Illustration 5 grademark may utilize any one of the designs shown in Illustrations 2 through 4. The "Produced From" text outside the symbol shall be conspicuous, legible, and in approximately the same proportion and close proximity to the symbol as shown in Illustration 5.

D. Information required on AZDA grademark. Except as otherwise authorized by the Administrator, each AZDA grademark shall include the letters "AZDA" and the U.S. grade of the product it identifies, such as "Grade AA," as shown in Illustration 2. Such information shall be printed with the symbol and the wording within the symbol in contrasting colors in a manner such that the design is legible and conspicuous on the material upon which it is printed.

E. Product class. The size or weight class of the product, such as **"**Large,**"** may appear within the grademark as shown in Illustration 3. If the size or weight class is omitted from the grademark, it must appear prominently on the main panel of the carton.

F. Plant number. The plant number of the official plant preceded by the letter **"P"** must be shown on each carton or packaging material.

R3-4-1112. Lot Marking of Officially Identified Eggs
Each carton identified with the AZDA grademarks shown in R3-2-1111 shall be legibly lot-numbered on the consumer package and the carton, and may also be shown on the individual egg. The lot number shall be the consecutive day of the year (Julian date) on which the eggs were packed (for example, 132), except other lot-numbering systems may be used when submitted in writing and approved by the Administrator.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1113. Retention Directives
A grader may use retention tags or other devices and methods as approved by the Administrator for the identification and control of eggs which are not in compliance with this Article or are held for further examination, and for any equipment, utensils, rooms or

compartments which are found unclean or otherwise in violation of this Article. Any such item shall not be released until in compliance with this Article and retention identification shall not be removed by anyone other than a grader.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1114. Prerequisites to Packaging Eggs Identified with Grademarks
Quality assurance inspector required. The official grademark identification of any product as provided in this Article shall be done only under the supervision of a grader or quality assurance inspector. The grader or quality assurance inspector shall have supervision over the use and handling of all material bearing any official grademark identification.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1115. Grading Requirements of Eggs Identified with AZDA Grademarks
A. Eggs to be identified with the AZDA grademarks illustrated in R3-2-1111 must be individually graded by a grader.
B. In order to be officially identified with an AZDA consumer grademark, eggs shall:
1. Be of current production;
2. Be produced and processed within the borders of Arizona;
3. Not possess any undesirable odors or flavors;
4. Not have previously been shipped for retail sale;
5. Meet consumer Grade A or Grade AA, as prescribed in AMS 56, United States Standards, Grades, and Weight Classes for Shell Eggs, revised as of July 20, 2000, which is incorporated by reference, does not include any later amendments or editions of the incorporated matter, is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007, and can be found online at https://www.ams.usda.gov/sites/default/files/media/Shell_Egg_-Standard%5B1%5D.pdf;
6. Be produced and packaged in a facility in accordance with the Food and Drug Administration, Department of Health and Human Services' requirements for the Production, Storage, and transportation of Shell Eggs as specified in 21 CFR §§ 118.1 to 118.12, revised as of April 1, 2011, which is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007;
7. Be produced and packaged in a facility that meets the Regulations Governing the Inspection of Eggs under the Egg Products Inspection Act (EPIA), as specified in 7 CFR §§ 57.1 to 57.970, revised as of April 12, 2006, which is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007;
8. Be produced in a facility that has implemented a SE environmental monitoring program which includes testing for SE in chick papers and in the house environment when the pullets are 14-16 weeks of age, 40-45 weeks of age, four to six weeks post-molt, and pre-depopulation.
9. Be produced in a facility that has implemented and maintained a vaccination program to protect against SE infection, which includes a minimum of two attenuated live vaccinations and one killed or inactivated vaccination, or an alternative vaccination program that has been approved by the Department after having been demonstrated in the Department's estimation to be equally effective.

C. Management at an official plant is responsible for notifying the AZDA grader whenever contaminated or adulterated eggs are present in the official plant. Any eggs identified as contaminated or adulterated must be properly labeled and controlled by plant management. This includes eggs originating from a layer house with an SE-positive environment or eggs testing positive for the presence of SE. Failure to control, detain and/or notify the grader of the presence of contaminated or adulterated eggs in the official plant will constitute a violation of this Article. Department employees are authorized to inspect lay houses and review plant documents to determine compliance with this Article.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1116. Payment of Fees and Charges
A. Fees and charges for any grading service shall be paid by the recipient by check, draft, or money order payable to the "Arizona Department of Agriculture Egg Program." AZDA may require that fees and charges shall be paid in advance, and shall include travel, per diem, or other expenses incurred by the Department in connection with providing grading services.
B. The cost of an appeal grading or review of a grader's decision shall be borne by the appellant on a unscheduled temporary basis at rates set forth in R3-2-1117, plus travel, per diem, or other expenses. If the appeal grading or review of a grader's decision discloses that a material error was made in the original determination, no fee or expenses will be charged for the regrading.
C. Invoices for services previously rendered will be issued no later than the 10th day following the end of the period in which the service was rendered and are payable in full upon receipt.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1117. Charges for Grading Service
A. Scheduled continuous grading service. The following rates apply to continuous grading service on a resident basis and continuous grading service on a nonresident basis per grader:
1. Regular rate: $38.00/hour
2. Overtime rate: $57.00/hour
3. Holiday rate: $58.00/hour

B. Plant survey, unscheduled temporary, auditing and appeal grading services. The following rates apply to temporary and auditing service per grader:
1. Regular rate: $57.00/hour
2. Overtime rate: $85.00/hour
3. Holiday rate: $87.00/hour

C. Reapplication after termination of service by recipient. If a recipient causes termination under R3-2-1105(D), and reapplies within 12 months from the date of termination, there will

be an additional re-application fee of $300 in addition to the above fees.

D. Extra charges. The following extra charges shall be assessed:

1. All hours worked by an assigned grader or another grader in excess of the approved tour of duty, worked on a non-scheduled workday, or worked on a State holiday outside of the approved tour of duty, will be considered as overtime, at the rate of time and one-half.
2. For all hours of work performed in a plant without an approved tour of duty, the charge will be the temporary grading service.

E. No charges. No charges will be assessed:

1. Solely because of a change in name or ownership of the official plant, unless the recipient of services fails to notify the Department within the time limit specified in R3-2-1105, in which case the above charges will apply.
2. When the assigned grader is temporarily reassigned by AZDA to perform grading service for another service recipient.

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1118. Termination by Recipient

Grading services under this Article shall be unilaterally terminated by the recipient of such service when:

A. Service is not installed within six months from the date the application is filed due to inaction by the applicant or recipient on Department requirements.

B. Service remains inactive for a period of more than six months due to a recipient's request for removal of a grader and the recipient does not accept reassignment of another grader by the Department.

C. The recipient is terminated for cause based on violations listed in R3-2-1105(D).

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1119. Mutual Termination

A. The Department and the recipient of service may mutually agree to termination of the service, under the following terms:

B. Previously paid fees will not be returned to the service recipient.

C. Pending charges will be paid in full for completed work of the Department.

D. A pending application will be considered terminated, but a new application may be filed at any time, without penalty.

E. Termination shall not take effect until the end of a 30-days' notice period, unless the parties agree otherwise.

F. The mutual decision to terminate and any related agreements are documented in writing.

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1120. Appeals

A. Appeal grading. An appeal grading may be requested by any recipient or authorized designee or other interested party ("appellant") who is dissatisfied with the determination by a grader of the class, quality, quantity, or condition of any product as evidenced by the AZDA grademark and accompanying label, or as stated on a grading certificate.

1. The appeal shall be filed with the original grader's immediate supervisor.
2. Initial review of the appeal shall be made by the original grader's immediate supervisor, or by one or more licensed graders assigned by the immediate supervisor to review the appeal.
2. An appeal may be made orally or in writing. If made orally, written confirmation is required. The appellant shall clearly state the reasons for requesting the appeal grading and a description of the product, or the decision which is questioned. If such appeal request is based on the results stated on an official certificate, the original and all available copies of the certificate shall be provided to the grader assigned to perform the appeal grading.
3. The appellant's request for the appeal grading may be refused when it appears to the reviewer that the reasons given in the request are frivolous or not substantial, the quality or condition of the product has undergone a material change since the original grading, the original lot has changed in some manner, or the appellant has not materially complied with the requirements of this Article. In such case, the appellant shall be promptly notified of the reason or reasons for such refusal.
4. If an appeal grading is granted, it shall be performed by a grader other than the original grader. Whenever practical, an appeal grading shall be conducted jointly by two independent graders.
5. The following procedures shall be used for appeal grading:
   a. The appeal sample shall consist of product taken from the original sample container plus an equal number of samples selected at random.
   b. When the original samples are not available or have been altered, such as the removal of undergrades, the appeal sample size for the lot shall consist of double the samples required in R3-2-1102.
   c. Eggs shall not have been moved from the original place of grading and must have been maintained under adequate refrigeration.
6. Immediately after an appeal grading is completed, an appeal certificate shall be issued to show that the original grading was upheld, modified, or rejected. Such certificate shall supersede any previously issued certificate for the product involved and shall clearly identify the number and date of the superseded certificate. The issuance of the appeal certificate may be withheld until any previously issued certificate and all copies have been returned when such action is deemed necessary to protect the interest of the Department. When the appeal grader assigns a different grade to the lot, the existing AZDA grademark shall be changed or obliterated as necessary. When the appeal grader assigns a different class or quantity designation to the lot, the labeling shall be corrected.

B. Appeal for suspension, termination or denial of service or debarment. Any person whose grading service is suspended, terminated, denied service, or debarred, may request a hearing before an administrative law judge pursuant to A.R.S. Title 41, Chapter 6, Article 10. The decision of the administrative law judge is subject to review by the Director as provided by A.R.S. Title 41, Chapter 6, Article 10.

Historical Note

Section made by final exempt rulemaking at 26 A.A.R.

916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1121. AZDA Grading Certificates

A. Forms. AZDA grading certificates and sampling report forms (including appeal grading certificates and regrading certificates) shall be issued on forms approved by the Administrator.

B. Issuance.

1. Resident grading basis. Certificates will be issued only upon request therefor by the applicant or AZDA. When requested, a grader shall issue a certificate covering product graded by such grader. In addition, a grader may issue a grading certificate covering product graded in whole or in part by another grader when the grader has knowledge that the product is eligible for certification based on personal examination of the product or official grading records.
2. Other than resident grading. Each grader shall, in person or by the grader's authorized agent, issue a grading certificate covering each product graded by such grader. A grader's name may be signed on a grading certificate by a person other than the grader, if such person has been designated as the authorized agent of such grader by the Administrator, provided that:
   a. The certificate is prepared from an official memorandum of grading signed by the grader; and
   b. A notarized power of attorney authorizing such signature has been issued to such person by the grader and is on file in the office of grading. In such case, the authorized agent shall sign both the agent's name and the grader's name, for example, "John Doe by Mary Roe."

C. Disposition. The original and required or requested copies of the grading certificate, immediately upon issuance, shall be delivered, mailed, or electronically submitted to the recipient or the recipient's designee. One copy is required to be sent and the recipient may request additional copies. Other copies shall be filed and retained in accordance with the disposition schedule for grading program records.

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1122. Minimum Facility and Operating Requirements for Egg Grading and Packing Plants

A. For grading services that are provided on a resident or temporary basis, QAD 700 Shell Egg Graders Handbook Section 02 through Section 08, revised as of August 30, 2016. This material is incorporated by reference, does not include any later amendments or editions of the incorporate matter, and is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007; and the following minimum facility and operating conditions will be required:

B. Applicants must comply with all applicable Federal, State and local government occupational safety and health regulations.

C. Processing facilities are required to have a documented and implemented Quality Management System that meets Title 21, Part 117 of the U.S. Code of Federal Regulations "Current Good Manufacturing Practice, Hazard Analysis, and Risk-based Preventive Controls for Human Foods," revised as of April 1, 2018. This material is incorporated by reference, does not include any later amendments or editions of the incorporate matter, and is on file with the Department at 1688 W. Adams St., Phoenix, AZ 85007.

D. General requirements for premises, buildings and plant facilities.

1. The outside premises shall be free from refuse, rubbish, waste, unused equipment, and other materials and conditions which constitute a source of odors or a harbor for insects, rodents, and other vermin.
2. The outside premises adjacent to grading, packing, cooler, and storage rooms must be constructed to provide proper drainage to prevent conditions that may constitute a source of odors or propagate insects or rodents.
3. Buildings shall be of sound construction so as to prevent, insofar as practicable, the entrance or harboring of vermin.
4. Grading and packing rooms shall be of sufficient size to permit installation of necessary equipment and conduct grading and packing in a sanitary manner. These rooms shall be kept reasonably clean during grading and packing operations and shall be thoroughly cleaned at the end of each operating day.
5. The floors, walls, ceilings, partitions, and other parts of the grading and packing rooms including benches and platforms shall be constructed of materials that are readily cleanable, maintained in a sanitary condition, and impervious to moisture in areas exposed to cleaning solutions or moist conditions. The floors shall be constructed as to provide proper drainage.
6. Adequate toilet accommodations that are conveniently located and separated from the grading and packing rooms are to be provided. Handwashing facilities shall be provided with hot and cold running water, an acceptable handwashing detergent, and a sanitary method for drying hands. Toilet rooms shall be ventilated to the outside of the building and be maintained in a clean and sanitary condition. Signs shall be posted in the toilet rooms instructing employees to wash their hands before returning to work. In new or remodeled construction, toilet rooms shall be located in areas that do not open directly into processing rooms.
7. A separate refuse room or a designated area for the accumulation of trash must be provided in plants which do not have a system for the daily removal or destruction of such trash.
8. Adequate packing and packaging storage areas are to be provided that protect packaging materials and are dry and maintained in a clean and sanitary condition.

E. Grading and packing room requirements.

1. The egg grading or candling area shall be capable of adequate darkening to make possible the accurate quality determination of the candled appearance of eggs. There shall be no light source or reflection of light that interferes with, or prohibits the accurate quality determination of eggs in the grading or candling areas.
2. The grading and candling equipment shall provide adequate light to facilitate quality determinations. When needed, other light sources and equipment or facilities shall be provided to permit the detection and removal of stained and dirty eggs or other undergrade eggs.
3. The grading and candling equipment must be sanitarily designed and constructed to facilitate cleaning. Such equipment shall be kept reasonably clean during grading and packing operations and be thoroughly cleaned at the end of each operating day.

4. Egg weighing equipment shall be constructed of materials to permit cleaning; operated in a clean, sanitary manner; and shall be capable of ready adjustment.
5. Adequate ventilation, heating, and cooling shall be provided where needed.

F. Cooler room requirements.

1. Cooler rooms holding eggs that are identified with a consumer grade shall be refrigerated and capable of maintaining an ambient temperature no greater than 45 °F (7.2 °C).
2. Accurate thermometers shall be provided for monitoring cooler room temperatures.
3. Cooler rooms shall be free from objectionable odors and from mold, and shall be maintained in a sanitary condition.

G. Egg protecting operations.

1. Egg protecting (oil application) operations shall be conducted in a manner to avoid contamination of the product and maximize conservation of its quality.
2. Component equipment within the egg protecting system, including holding tanks and containers, must be sanitarily designed and maintained in a clean and sanitary manner, and the application equipment must provide an adequate amount of oil for shell coverage of the volume of eggs processed.
3. Eggs with excess moisture on the shell shall not be shell protected.
4. Oil having any off odor, or that is obviously contaminated, shall not be used in egg protection operations. Oil is to be filtered prior to application.
5. The component equipment of the application system shall be washed, rinsed, and treated with a bactericidal agent each time the oil is removed.
6. Adequate coverage and protection against dust and dirt shall be provided when the equipment is not in use.

H. Egg cleaning operations.

1. Egg washing equipment must be sanitarily designed, maintained in a clean and sanitary manner, and thoroughly cleaned at the end of each operating day.
2. Egg drying equipment must be sanitarily designed and maintained in a clean and sanitary manner. Air used for drying purposes must be filtered. These filters shall be cleaned or replaced as needed to maintain a sanitary process.
3. The temperature of the wash water shall be maintained at 90 ^{o}F (32.2 ^{o}C) or higher, and shall be at least 20 ^{o}F (6.7 ^{o}C) warmer than the internal temperature of the eggs to be washed. These temperatures shall be maintained throughout the cleaning cycle. Accurate thermometers shall be provided for monitoring wash water temperatures.
4. Approved cleaning compounds shall be used in the wash water.
5. Wash water shall be maintained at a measurable pH level of 11 or higher. Accurate testing equipment shall be provided and accessible to the grader. If continuous monitoring of pH is not possible, the applicant should devise a monitoring system for documenting pH with a frequency that has been validated.
6. Wash water shall be changed approximately every four hours or more often if needed to maintain sanitary conditions, and at the end of each shift. Remedial measures shall be taken to prevent excess foaming during the egg washing operation.
7. Replacement water shall be added continuously to the wash water of washers. Chlorine or quaternary sanitizing rinse water may be used as part of the replacement water, provided, they are compatible with the washing compound. Iodine sanitizing rinse water may not be used as part of the replacement water.
8. Only potable water may be used to wash eggs. Each official plant shall submit certification to the office of grading stating that their water supply is potable. An analysis of the iron content of the water supply, stated in parts per million, is also required. When the iron content exceeds two parts per million, equipment shall be provided to reduce the iron content below the maximum allowed level. Frequency of testing for potability and iron content shall be determined by the Administrator. When the water source is changed, new tests are required.
9. Waste water from the egg washing operation shall be piped directly to drains.
10. The washing, rinsing, and drying operations shall be continuous and shall be completed as rapidly as possible to maximize conservation of the egg's quality and to prevent sweating of eggs. Eggs shall not be allowed to stand or soak in water. Immersion-type washers shall not be used.
11. Prewetting eggs prior to washing may be accomplished by spraying a continuous flow of water over the eggs in a manner which permits the water to drain away or other methods which may be approved by the Administrator. The temperature of the water shall be the same as prescribed in this Section.
12. Washed eggs shall be spray-rinsed with water having a temperature equal to, or warmer than, the temperature of the wash water. The spray-rinse water shall contain a sanitizer that has been determined acceptable for the intended use by the supervisor and of not less than 100 PPM nor more than 200 PPM of available chlorine or its equivalent. Alternate procedures, in lieu of a sanitizer rinse, may be approved by the Administrator.
13. Test kits shall be provided and used to determine the strength of the sanitizing solution.
14. During non-processing periods, eggs shall be removed from the washing and rinsing area of the egg washer and from the scanning area whenever there is a buildup of heat that may diminish the quality of the egg.
15. Washed eggs shall be reasonably dry before packaging and packing.
16. Steam, vapors, or odors originating from the washing and rinsing operation shall be continuously and directly exhausted to the outside of the building.

I. Requirements for eggs officially identified with a grademark.

1. Eggs that are officially identified with an AZDA grademark shall be placed under refrigeration at an ambient temperature no greater than 45 °F (7.2 °C) promptly after packaging.
2. Eggs that are to be officially identified with the AZDA grademark shall be packed only in new packaging materials that are clean, free of mold, mustiness and off odors, or clean and sanitized packaging material designed to be reused, and must be of sufficient strength and durability to adequately protect the eggs during normal distribution. When packed in other than fiber packing material, the containers must be of sound construction and maintained in a reasonably clean manner.

J. Use of approved chemicals and compounds.

1. All egg washing and equipment cleaning compounds, defoamers, destainers, sanitizers, inks, oils, lubricants, or any other compound that comes into contact with the eggs shall be approved by the national supervisor for their specified use and handled in accordance with the manufacturer's instructions.
2. All pesticides, insecticides, and rodenticides shall be approved for their specified use and handled in accordance with the manufacturer's instructions.

K. Marking individual eggs. The marking of individual eggs may be requested by processors as part of a specification requirement or for other marketing purposes.

1. Stamping eggs. Recognizing the difficulty in clearly stamping the rounded surface of an egg, a lot average tolerance of 10-percent for individual eggs with partial, illegible, or no marks in any combination is permitted with no individual case exceeding 20-percent. These tolerances may be applied as a moving average when performing online sampling or as a lot average while performing stationary lot gradings. If more than 50% of the image or letter or letters is missing, the symbol is illegible. Stamped eggs are not classified as stains or dirty. They are to be graded without regard to marking. An official grade cannot be assigned to a mixed lot of eggs that contains individually marked and unmarked eggs. If requested, the lot may be graded for all factors except ink stains. Lot averages may be shown on the certificate. The section "Official Grade and Size" shall state "No AZDA Grade." The following statement shall also be placed in the "Remarks" section: "Lot contains marked and unmarked eggs. Eggs graded for all factors except ink stains." Individual eggs with ink blotches or smears from dating devices are to be classified as stains or dirty, depending on the intensity and/or area of the stain [guidance not clear]. Inks used in marking individual eggs which will be officially graded are to be approved by the Administrator prior to their use. The request for approval should be accompanied with a copy of the ink formula, the name of the product, and the name and address of the manufacturer.
2. Laser etching (marking eggs). The use of a laser etching system to mark information is subject to joint review by the Food and Drug Administration (food safety impact evaluation) and AZDA (quality impact evaluation). Only approved laser etching systems may be used to identify eggs to be officially graded and identified with an AZDA grademark. The amount of the shell surface available for laser etching and the information etched on the shell is subject to review by the resident grader and the supervisor. The information etched on the shell must not interfere with the graders ability to evaluate the quality attributes of the egg.
3. When an individual egg is marked, whether an applied ink or laser etched, the information must be consistent with the information on the label, for example, any marketing claims, production code, or packer identity. If this information is not consistent throughout the lot, the eggs are not eligible to be identified with an AZDA grademark.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1123. Health and Hygiene of Personnel

A. No person known to be affected by a communicable or infectious disease shall be permitted to come in contact with the product.

B. Plant personnel coming into contact with the product shall wear clean clothing.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1124. Use of the "Produced From" Labeling

A. Use of the wording "Produced From" in conjunction with the AZDA grademark, is limited to products derived from AZDA Grade AA or Grade A eggs for which there are no U.S. grade standards (for example, pasteurized eggs or hard-cooked eggs). The following guidelines are to be used when monitoring the official grade identification of these types of products.

1. Approval. Applicants interested in utilizing the "Produced From" labeling must submit a written proposal to the Administrator. The proposal is to include the type or types of product to be labeled and the applicant's plan for controlling the use and labeling of officially identified product. After review by the supervisor, the supervisor is to forward the request to the Administrator for final review and approval. Upon approval, the supervisor is to reconfirm all of the requirements with the applicant prior to any actual grade identification.
2. Verification visits. To assure that only officially graded eggs are being used, the processing, packing, and packaging must be closely monitored. Each verification visit shall include a review of records, product inventory, processing procedures, packing, packaging, storage, and shipping practices to confirm that the applicant is following the protocol outlined in their approved plan. In plants with resident service, the supervisor or Administrator is to be present during the initial production period to monitor the process and verify compliance. The grader will conduct all subsequent monitoring and verification activities with oversight from the supervisor. In temporary or fee locations, plant management must notify the supervisor each time the "produced from" labeling will be used or, alternatively, provide the supervisor with a projected production schedule. At these locations, compliance will be based on the applicant's established history of compliance as outlined in the following schedule:
   a. Level 1 - The supervisor or administrator is to monitor and verify the process on the initial day of production. The supervisor or a grader will conduct subsequent visits. At least one additional verification visit is to be conducted during the next 10 production days. If no discrepancies are noted, one visit is to be conducted for each 30 days of production until three consecutive satisfactory visits have been completed. Once this verification period has ended without any noted program non-conformance, monitoring may proceed to Level 2.
   b. Level 2 - Supervisor or a grader is to conduct quarterly verification visits provided the applicant continues to meet all program requirements. If any nonconformance is noted during these visits, monitoring reverts back to Level 1. Misuse of the labeling will result in cancellation of the approval.

B. Recordkeeping. Recipients shall maintain, and make available for review, all invoices or applicable Grading Certificates covering product received, produced, and shipped. At a minimum, these records must include the name and address of original packer, amount received, quantity produced, brand names, lot numbers, quantity shipped and name and address of receivers. Records must be maintained for two years.

C. Cost. There will be no additional charge to resident plants when graders monitor product labeling during their normal grading activities. When graded product is shipped from official plants to other processing locations for re-packaging that are not under continuous AZDA supervision, time and expenses associated in conducting the verification visits will be charged to the recipient at the current Temporary grading and auditing service rate.

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1125. Specification Grading

A. Applicants may request for additional specifications to be certified that exceed the standards of this Chapter. The requested specifications must be submitted in writing to the administrator for approval. The approving official will review the information for approval or advise the applicant of the reason or reasons for disapproval. If the specification is approved, a letter enclosing a copy of the approved application and specification will be returned to the applicant with a request to provide copies of the specification to each supplier and applicable AZDA grader. Each page of the approved specification will have an approval stamp bearing the date of approval and the signature of the approving official. Additionally, each page will be sequentially numbered such as page 1 of 5, page 2 of 5, etc.

B. Plant management is responsible for advising graders when they are preparing to pack eggs in accordance with an approved specification. However, each grader must be familiar with the approved specification list and, to the extent practically possible, be aware when products with approved specifications are being packed at the duty location. When a plant packs product requiring compliance with an approved specification, the grader shall obtain a copy of the specification from plant management and assure that all provisions of the specification are met. As applicable, product that meets specification requirements will be identified in accordance with procedures outlined in the approved specification. When the specification requires the issuance of a grading certificate, the following statement is to be placed in the remarks section of the certificate: "Product covered by this certificate meets specification requirements for_____."

Historical Note

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

ARTICLE 12. ACQUISITION AND USE OF SODIUM PENTOBARBITAL AND DERIVATIVES BY UNLICENSED INDIVIDUALS IN ANIMAL SHELTERS

R3-2-1201. Definitions

1. "Agreement" shall refer to a contract signed by the responsible person and the State Veterinarian whereby the responsible person has met all requirements set forth in Section R3-2-1202. The agreement remains in effect until the expiration of the DEA registration or a change in employment status of the responsible person with the animal shelter.
2. "Approved curriculum" means any euthanasia-training curriculum approved by the AVMA or the State Veterinarian of Arizona.
3. "Authorized employee" means an unlicensed individual who is authorized to euthanize animals, takes direction from a responsible person or a licensed person, and has obtained State-Veterinarian-approved training in the use and handling of controlled substances as set forth in this Article.
4. "AVMA" means the American Veterinary Medical Association.
5. "AVMA Guidelines for the Euthanasia of Animals: 2020 Edition" means that specific edition of guidelines and does not include any later amendments or editions of the incorporated material, and is on file with the Department.
6. "Controlled Substances Act" refers to 21 U.S.C.A. § 801, et seq.
7. "Controlling person" means the natural person who exercises legal ownership, control, or designated leadership of a shelter.
8. "DEA" refers to the federal Drug Enforcement Agency.
9. "Licensed person" means a veterinarian licensed by the Arizona Veterinary Medical Examining Board, who is exempt from the euthanasia training requirements.
10. "Responsible person" means an unlicensed individual who meets the requirements of R3-2-1202, who is employed by the shelter, and who in the absence of a licensed person, has agreed to supervise the acquisition, storage, administration, and record- keeping of the controlled substances in accordance with the Controlled Substances Act and this Article.
11. "Shelter" means an animal care and control shelter operated by any town, city, county or the state, including privately operated animal shelters that are utilized by a town, city, county or the state.
12. "State Veterinarian" means the person appointed as the State Veterinarian under A.R.S. § 3-1211.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1327 (June 9, 2023), effective July 8, 2023 (Supp. 23-2).

R3-2-1202. General Provisions

A. Euthanasia of animals shall be done in compliance with the provisions of this Article and in accordance with procedures established under A.R.S. § 11-1021 by the local governing body.

B. Any shelter that does not employ a licensed supervisory veterinarian may apply for a DEA controlled-substances registration for each physical location in order to administer euthanasia. DEA will only grant the registration if the shelter is approved by, and meets the standards of, the State Veterinarian, as follows:

1. The responsible person is formally designated by the controlling person of the shelter as the individual responsible to obtain and manage controlled substances on behalf of the shelter;
2. The responsible person must successfully complete an approved euthanasia training course;
3. The responsible person and the State Veterinarian must execute an agreement obligating the responsible person to comply with this Article;

4. The responsible person is 21 years of age or older; and
5. The responsible person shall provide three professional references to the State Veterinarian to demonstrate professionalism and good moral character.

C. Duties and responsibilities of the responsible person are to:
1. Abide by all local, state, and federal laws and regulations pertaining to the operation of a shelter, including those laws and regulations governing possession and use of controlled substances.
2. Ensure that any authorized employee who administers euthanasia complies with the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals: 2020 Edition.
3. Ensure that any authorized employee who administers euthanasia has successfully completed a curriculum of euthanasia training approved by the State Veterinarian.

D. Prior to the expiration of the current DEA registration, the responsible person shall submit an application to the State Veterinarian at least 45 days prior to that expiration, requesting re-approval of the shelter according to the requirements of this Article. The State Veterinarian approval shall run concurrently with the DEA registration, except as indicated in subsection (E).

E. The shelter shall inform the State Veterinarian within 14 days of a change in:
1. Ownership or controlling person;
2. Location;
3. Responsible person; or
4. Expiration or termination of an agreement or contract between a town, city, county or state utilizing the services of a privately operated shelter or shelters.

F. Upon a change listed in subsection (E), the controlling person shall file an application with the State Veterinarian, requesting re-approval of the shelter according to the requirements of this Article. The existing agreement terminates upon the date of the change, and the shelter shall not administer any controlled substances until the State Veterinarian approves the new application and a new DEA registration is obtained.

Historical Note
New Section made by final rulemaking at 29 A.A.R. 1327 (June 9, 2023), effective July 8, 2023 (Supp. 23-2).

R3-2-1203. Requirements of Euthanasia Approved Curriculum; Recordkeeping; Inspection

A. The following organizations offer approved euthanasia courses: The American Humane Association; The National Animal Care and Control Association; Companion Animal Euthanasia Training Academy. The State Veterinarian reserves the right to approve or withdraw the approval of curricula at any time. Approved curriculum training shall include an instructional section and a practical exam showing skill competency; and shall include, but not be limited to, the following topics:
1. Anatomy;
2. Personnel safety, controlled substance diversion, and compassion fatigue;
3. Controlled substance handling and mechanism of action;
4. Humane methods of handling and euthanasia of domestic animals;
5. Methods to ensure barriers between animals during euthanasia;
6. Concepts particular to euthanasia of wild or feral animals;
7. Administering pre-euthanasia sedatives;
8. Verification of death; and
9. Acceptable methods of disposal of animal remains and euthanasia supplies.

B. The responsible person shall keep records of all euthanasia-related activities including, but not limited to:
1. Identification of animals euthanized;
2. Reason for euthanasia;
3. Method of euthanasia;
4. Adverse events; and
5. All recordkeeping required by the Controlled Substances Act.

C. A shelter is subject to periodic random inspection by the Office of the State Veterinarian. Upon request by the Office of the State Veterinarian, the responsible person or controlling person shall immediately produce records.

D. Following an audit or inspection, if evidence exists of non-compliance with the standards in this Section, the State Veterinarian reserves the right to modify the agreement. The State Veterinarian may also terminate the agreement, and notify the DEA that the shelter has lost approval by the State Veterinarian to administer euthanasia by unlicensed individuals.

Historical Note
New Section made by final rulemaking at 29 A.A.R. 1327 (June 9, 2023), effective July 8, 2023 (Supp. 23-2).

3-2002. Application for license to slaughter

Every person, including an exempt slaughterer, before he begins or carries on the slaughter of livestock, sheep, goats or swine for compensation, shall make written application to the division for a license to slaughter, stating that the applicant will comply with the law and will not slaughter animals, or sell, exchange, or expose for sale the meat thereof, except in conformity with the law relating thereto and the rules of the director.

3-2046. Meat inspection rules; violation; classification

A. The director shall adopt reasonable rules necessary to assure that all meat and meat products subject to inspection under this article which are to be sold or distributed for human consumption are free from unwholesome, poisonous or other foreign substances and filth, insects or disease causing organisms. The rules shall provide reasonably necessary measures governing the production, processing, labeling, storing, handling and transportation of such products. The rules shall prescribe minimum standards for the sanitary facilities and conditions which shall be maintained at any plant, packing house or abattoir and in any truck or other vehicle in which meat or meat products are produced, processed, stored, handled or transported.

B. The director upon the advice of the chief veterinary meat inspector shall adopt reasonable rules, including, but not limited to, what the antemortem and postmortem inspection shall consist of, to carry out the purposes of this chapter. The rules shall conform so far as possible to the rules governing meat inspection of the United States department of agriculture. To the extent deemed appropriate by the director the rules may incorporate by reference existing federal meat inspection regulations, but in no case shall the rules exceed the requirements of the United States department of agriculture. All rules adopted to implement this section shall be adopted in compliance with title 41, chapter 6.

3-2083. Authority of inspector to search for and seize unstamped meat

Inspectors may stop and search without warrant any vehicle, and may search without warrant any container which the inspector suspects contains unstamped meat, and if any is found it shall be taken by the inspector. Unless proof is submitted within twenty-four hours after such seizure which satisfies the inspector that the person from whom the meat was taken is the lawful owner thereof, such meat shall be forfeited to the state and sold or disposed of by the agency.

DEPARTMENT OF ENVIRONMENTAL QUALITY
Title 18, Chapter 4

Amend: R18-4-103, R18-4-603

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - EXPEDITED RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 21, 2025

SUBJECT: **DEPARTMENT OF ENVIRONMENTAL QUALITY**
Title 18, Chapter 4

Amend: R18-4-103, R18-4-603

Summary:

This expedited rulemaking from the Arizona Department of Environmental Quality (Department) seeks to amend two (2) rules in Title 18, Chapter 4. Chapter 4 covers Safe Drinking Water. One amendment is to change an outdated statutory reference in R18-4-103(B). The other amendment is for R18-4-603 with the proposal being to correct references to other Department rules, which is necessary because these references have been renumbered as a result of other Department rulemakings.

1. Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?

The Department believes that these changes are consistent with the purpose for A.R.S. § 41-1027 in that this portion of the rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce a procedural right of regulated persons; but amends rules that are outdated, and clarifies language of rules without changing their effects.

Council staff believes this rulemaking satisfies the criteria for expedited rulemaking under A.R.S. § 41-1027(A)(1) and (3). The rulemaking will remove a statutory reference to the repealed A.R.S. § 49-331 and the rulemaking will correct references to other rules because of changes that have occurred as a result of other Department rulemakings.

2. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

3. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking.

4. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates no changes were made between the proposed and final rulemaking.

5. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Safe Drinking Water Act, 42 U.S.C. §300f et seq., is applicable to these rules. However, the Department has indicated that the proposed rules are not more stringent than this corresponding federal law.

6. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Not applicable. The Department has indicated that no permit or license is required or issued as part of these rules.

7. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

8. Conclusion

This expedited rulemaking from the Department of Environmental Quality (Department) seeks to amend two rules in Title 18, Chapter 4 for the purpose of fulfilling objectives from a previous 5 YRR and to correct terminology and references to statutes and other rules. The

substantive content of the rules will remain the same and will have improved clarity by updating the references.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

Arizona Department of Environmental Quality

Katie Hobbs
Governor

Karen Peters
Deputy Director

December 11, 2024

Jessica Klein, Chair
Governor's Regulatory Review Council
100 N. 15th Ave., Ste. 302
Phoenix, AZ 85007

Re: Expedited Rulemaking: Title 18, Environmental Quality, Chapters 4, 5, 9, and 11 – "Water Quality Rule Corrections"

Dear Chair Klein:

The Arizona Department of Environmental Quality (ADEQ) hereby submits this final rulemaking package to the Governor's Regulatory Review Council (GRRC) for consideration and approval at the Council Meeting scheduled for February 4, 2025.

The following information is provided for your use in reviewing the enclosed rules for approval pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-202:

I. Information Required by A.A.C. R1-6-202(A)(1)
   A. The public record closed for all rules on October 7, 2024 at midnight.
   B. Pursuant to A.R.S. § 41-1027(A)(4), this expedited rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. The rulemakings, additionally, fulfill the requirements under A.R.S. § 41-1027(A)(3), "correct[ing] typographical errors…or clarifies language of a rule without changing its effect"; (A)(4), "adopt[ing] or incorporat[ing] by reference without material change federal statutes or regulations; (A)(6), "amend[ing] or repeal[ing] rules that are outdated, redundant or otherwise no longer necessary for the operation of state government"; and (A)(7), "implement[ing], without material change, a course of action that is proposed in a five-year review report approved by the council".
   C. The rulemaking activities relate to the following five-year review reports:
      1. 18 A.A.C. 4, Art. 1, 2, 3, 6, & 8 (submitted February 28, 2022, approved October 4, 2022);
      2. 18 A.A.C. Ch. 5, Art. 1, 2, 3, 4, & 5 (submitted August 27, 2021, approved November 2, 2021);

3. 18 A.A.C. Ch. 9, Art. 2 (submitted January 20, 2021, approved April 6, 2021), Art. 9 (submitted April 26, 2022, approved August 2, 2022) ;

D. The Department certifies that the preamble discloses reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation of or justification for the rule.

E. A list of documents enclosed under A.A.C. R1-6-202(A)(1)(e) and (A)(2)-(8), which are enclosed as electronic copies:

1. This cover letter.
2. The Notice of Final Expedited Rulemakings (NFERMs) for Chapter 4, 5, Chapter 9, and Chapter 11, including the preamble, table of contents, and text of each rule.
3. ADEQ did not receive any written comments on the NPERMs for Chapters 4, 5, 9, or 11.
4. ADEQ did not receive an analysis regarding the rules' impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states.
5. There was no new material incorporated by reference in the rulemakings.
6. No statute was declared unconstitutional.
7. The general and specific statutes authorizing the rule, including relevant statutory definitions:
    a. Chapter 4:
        i. Authorizing statutes (general): A.R.S. §§ 49-104(B)(4), 49-353(A)(2)
        ii. Implementing statutes (specific): A.R.S. § 49-353.01
    b. Chapter 5:
        i. Authorizing statutes (general): A.R.S. § 49-104(B)(11)-(13)
        ii. Implementing statutes (specific): A.R.S. §§ 49-352, 49-353(A)(2), 49-353.01(A)(1), and 49-361
    c. Chapter 9:
        i. Authorizing statutes (general): A.R.S. §§ 49-104 (B)(13), 49-203(A)(2), (A)(4), (A)(7), (A)(10), (A)(11)
        ii. Implementing statutes (specific): A.R.S. §§ 49-241, 49-242, 49-245, 49-255.01(B) and (C), and 49-255.02
    d. Chapter 11:
        i. Authorizing statutes (general): A.R.S. § 49-104(A)(1), (A)(7), (A)(10), (A)(13), (B)(4), (B)(11)
        ii. Implementing statutes (specific): A.R.S. §§ 49-202(A), (H); 49-203(A)(1), (2), (3), (5), (6) - (10); 49-221; 49-222; 49-223
8. No term is defined in the rule by referring to another rule or a statute other than the general and specific statutes authorizing the rule.

II. Additional items required by GRRC:

A. Exemption Memo Request.

B. Governor's Office initial written approval.
C. Governor's Office final written approval.

Thank you for your timely review and approval. Please contact Trevor Baggiore, Division Director, Water Quality Division, 602-771-2321 or baggiore.trevor@azdeq.gov, if you have any questions.

Sincerely,

Karen Peters, Deputy Director
Arizona Department of Environmental Quality

NOTICE OF FINAL EXPEDITED RULEMAKING

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 4. DEPARTMENT OF ENVIRONMENTAL QUALITY – SAFE DRINKING WATER

PREAMBLE

1. Permission to proceed with this final expedited rulemaking was granted under A.R.S. § 41-1039 by the governor on:

May 6, 2024

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**
R18-4-103	Amend
R18-4-603	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 49-104(B)(4), 49-353(A)(2)

Implementing statute: A.R.S. § 49-353.01

4. The effective date of the rule:

Pursuant to A.R.S. § 41-1027(H), the rule will become effective immediately on the filing of the Notice of Final Expedited Rulemaking with the Secretary of State.

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final expedited rule:

Notice of Expedited Rulemaking Docket Opening: 30 A.A.R. 2087, Issue Date: June 21, 2024, Issue Number: 25, File Number: R24-104.

Notice of Proposed Expedited Rulemaking: 30 A.A.R. 2787, Issue Date: September 6, 2024, Issue Number: 36, File number: R24-165.

6. The agency's contact person who can answer questions about the rulemaking:

Name: Tiffany Tom

Title: Attorney

Division: Office of Administrative Counsel

Address: Arizona Department of Environmental Quality
Office of Administrative Counsel
1110 W. Washington Street
Phoenix, AZ 85007

Telephone: (520) 625-6355

Email: waterqualityrulecorrections@azdeq.gov

Website: https://www.azdeq.gov/wqd-5yr-rule-review-commitmentscleanup

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Summary:

The objective of the rulemakings is two-fold:

1. Fulfill five-year rule review (5YRR) commitments to the Governor's Regulatory Review Council (GRRC), in accordance with A.R.S. § 41-1056(E), to amend rules in Chapter 4; and
2. Correct additional typographical errors, update outdated citations and references, clarify language, and fix similar clerical issues in Chapter 4, which will not add regulatory burden.

The Arizona Department of Environmental Quality (ADEQ) is pursuing an expedited rulemaking to amend rules related to the safe drinking water program. An expedited rulemaking is appropriate pursuant to A.R.S. §§ 41-1027(A)(1) and 41-1027(A)(6). Under A.R.S. § 41-1027(A)(1), ADEQ proposes to replace a repealed statute in a definition with a current and correct definition. Under A.R.S. § 41-1027(A)6), ADEQ proposes to update cross-references to other ADEQ rules that have changed due to previous rulemakings. Furthermore, none of the proposed amendments will increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of persons regulated.

Section by Section Explanation of Proposed Rules:

R18-4-103(B): Incorporation of 40 CFR 141, Subpart A by reference and Definitions

This rule incorporates by reference 40 CFR 141, Subpart A, and establishes specific sections of Subpart A of the Code of Federal Regulations that are not incorporated by reference. The rule defines important terms in 18 A.A.C. Chapter 4 so that the rules are understandable to the general public. This rule also establishes which sections of the Code of Federal Regulations are modified to convey the proper context that Arizona is the regulator, not the EPA. In defining "protected water source," this rule contains an outdated reference to A.R.S. § 49-331, which was repealed. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(1), ADEQ proposes to replace the statutory reference with a reference to the correct definition found in R18-9-101(21).

R18-4-603(3): Infrastructure, Treatment, and Storage Design Requirements to Demonstrate Adequate Technical Capacity for New Public Water Systems

This rule contains references to applicable ADEQ rules which have since become outdated following previous recodifications of referenced Articles. The references to 18 A.A.C. 4, Articles 3 and 5 are now incorrect. The applicable infrastructure, treatment, and storage design requirements can now be found in 18 A.A.C. 4, Articles 1, 2, and 4 and 18 A.A.C. 5, Article 5. The following rulemakings impacted the outdated references:

1. In 2008, 18 A.A.C. 4, Article 3 was amended and treatment requirements were removed and replaced with the Monitoring Assistance Program rules. *See* 14 A.A.R. 2978, 2982 and 3015 (Aug. 1, 2008). Treatment requirements can now be found in 18 A.A.C. 4, Article 1 concerning the "National Primary Drinking Water Regulations" and Article 2 "Safe Drinking Water Regulations." *See* 14 A.A.R. 2978, 3013-3015 (Aug. 1, 2008).
2. In 2004, the minimum design criteria for public water systems (PWS) were recodified from 18 A.A.C. 4, Article 5 to 18 A.A.C. 5, Article 5. *See generally* 10 A.A.R. 585 (Feb. 20, 2004).
3. In 2023, ADEQ updated 18 A.A.C. 4 to conform with the EPA's final regulation entitled "Use of Free Pipes, Fittings, Fixtures, Solder, and Flux for Drinking Water," which applies to new PWSs. *See generally* 29 A.A.R. 1472 (Jun. 30, 2023).

Updating the references to the applicable infrastructure, treatment, and storage requirements for new PWSs serves to clarify the language of R18-4-603(3) by removing references that are no longer necessary for the operation of state government. Therefore, pursuant to its authority A.R.S. § 41-1027(A)(6), ADEQ proposes to amend the outdated references to the relevant ADEQ rules.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable.

9. A showing good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

10. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

This expedited rulemaking is exempt from the requirements to obtain and file an economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2).

11. A description of any change between the proposed expedited rulemaking, to include a supplemental proposed notice, and the final rulemaking:

No changes were made between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Agency did not receive any public comments on A.A.C. Title 18 Chapter 4.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statutes applicable specifically to ADEQ or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

Not applicable.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

The Safe Drinking Water Act, as amended, is applicable to the subject of this rule. *See* 42 U.S.C. § 300f et seq. This rulemaking is not more stringent than is required by federal law.

c. Whether a person submitted an analysis to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states under A.R.S. § 41-1055(I). If yes, include the analysis with the rulemaking package.

Not applicable.

14. List all incorporated by reference material as specified in A.R.S. § 41-1028 and include a citation where the material is located:

Not applicable.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A) state where the text was changed between the emergency and the final expedited rulemaking package:

The rules were not previously made as an emergency rule.

16. The full text of the rules follows:

Rule text begins on the next page.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 4. DEPARTMENT OF ENVIRONMENTAL QUALITY - SAFE DRINKING WATER

ARTICLE 1. PRIMARY DRINKING WATER REGULATIONS

Section

ARTICLE 6. CAPACITY DEVELOPING REQUIREMENTS FOR A NEW PUBLIC DRINKING WATER SYSTEM

Section

ARTICLE 1. PRIMARY DRINKING WATER REGULATIONS

R18-4-103. General – 40 CFR 141, Subpart A

A. 40 CFR 141, Subpart A (40 CFR 141.1 through 141.6), is incorporated by reference as of the date specified in R18-4- 102, except for the changes listed in this Section; this incorporation does not include any later amendments or editions.

B. The definition of "State" in 40 CFR 141.2 is not incorporated by reference. In addition to the terms defined in A.R.S. §§ 49-201 and 49-351, and 40 CFR 141.2, in this Chapter, unless otherwise specified, the terms listed below have the following meanings.

"Air-gap separation" means a physical separation between the discharge end of a supply pipe and the top rim of its receiving vessel of at least 1 inch or twice the diameter of the supply pipe, whichever is greater.

"ANSI/NSF Standard 60" means American National Standards Institute/NSF International Standard 60 - 2014a, Drinking Water Treatment Chemicals - Health Effects, November 17, 2014, incorporated by reference and on file with the Department. This material is available from NSF International, 789 N. Dixboro Road, P.O. Box 130140, Ann Arbor, MI 48113-0140, USA; (734) 769-8010; http://www.nsf.org. This incorporation by reference includes no future editions or amendments.

"ANSI/NSF Standard 61" means American National Standards Institute/NSF International Standard 61 - 2014a, Drinking Water System Components - Health Effects, October 19, 2014, incorporated by reference and on file with the Department. This material is available from NSF International, 789 N. Dixboro Road, P.O. Box 130140, Ann Arbor, MI 48113-0140, USA; (734) 769- 8010; http://www.nsf.org. This incorporation by reference includes no future editions or amendments.

"Backflow" means a reverse flow condition that causes water or mixtures of water and other liquids, gases, or substances to flow back into the distribution system. Backflow can be created by a difference in water pressure (backpressure), a vacuum or partial vacuum (backsiphonage), or a combination of both.

"Backflow-prevention assembly" means a mechanical device used to prevent backflow.

"Capacity" means the overall capability of a water system to consistently produce and deliver water meeting all national and state primary drinking water regulations in effect when new or modified operations begin. Capacity includes the technical, managerial, and financial capacities of the water system to plan for, achieve, and maintain compliance with applicable national and state primary drinking water regulations.

"Capacity development" means improving public water system finances, management, infrastructure, and operations, so that the public water system can provide safe drinking water consistently, reliably, and cost-effectively.

"Capacity development report" means an annual report adopted by the Department that describes progress made in improving technical, managerial, or financial capacity of public water systems in Arizona.

"Cross connection" means a physical connection between a public water system and any source of water or other substance that may lead to contamination of the water provided by the public water system through backflow.

"Distribution system" means a pipeline, appurtenance, device, and facility of a public water system that conducts water from a source or water treatment plant to persons served by the system.

"Department" means the Arizona Department of Environmental Quality.

"Double check valve assembly" means a backflow-prevention assembly that contains two independently acting check valves with tightly closing, resilient-seated shut-off valves on each end of the assembly and properly located, resilient-seated test cocks.

"Elementary business plan" means a document containing all of the items necessary for a complete review of the technical, managerial, and financial capacity of a new public water system under Article 6 of this Chapter.

"Entry point to the distribution system" means a compliance sampling point anywhere on a finished water line that is representative of a water source and located after the well, surface water intake, treatment plant, storage tank, or pressure tank, whichever is last in the process flow, but prior to where the water is discharged into the distribution system and prior to the first service connection.

"EPA" means the United States Environmental Protection Agency.

"Exclusion" means a waiver granted by the Department under R18-4-219 from a requirement of this Chapter that is not a requirement contained in a federal drinking water law.

"Exemption" means a form of temporary relief from a maximum contaminant level or treatment technique granted by the Department to a public water system, pending installation and operation of treatment facilities, acquisition of an alternate source, or completion of improvements in treatment processes to bring the system into compliance with drinking water regulations.

"Financial capacity" means the ability of a public water system to acquire and manage sufficient financial resources for the system to achieve and maintain compliance with the federal Safe Drinking Water Act.

"Groundwater system" means a public water system that is supplied solely by groundwater that is not under the direct influence of surface water.

"Lead-free" has the same meaning prescribed in A.R.S. § 49-353(B).

"Major stockholder" means a person who has 20% or more ownership interest in a public water system.

"Master priority list" means a list created by the Department that ranks public water systems according to the criteria in R18-4-803.

"Monitoring assistance program" means the program established by A.R.S. § 49-360 to assist public water systems with mandatory monitoring for contaminants and administered by the Department under 18 A.A.C. 4.

"Operational assistance" means professional or financial assistance provided to a public water system to improve the technical, managerial, or financial operations of the public water system.

"Protected water source" means a groundwater source that:

- Meets the requirements of A.A.C. R18-5- 502(D);
- Is not located within 100 feet of a drywell as defined by ~~A.R.S. § 49-331(3)~~ A.A.C. R18-9-101(21), and
- Is not located within 100 feet of a condition that can constitute an environmental nuisance as described in A.R.S. § 49-141(A).

"Reduced pressure principle backflow-prevention assembly" means a backflow-prevention assembly that contains two independently acting check valves; a hydraulically operating, mechanically independent pressure differential relief valve located between the two check valves; tightly closing, resilient seated shut-off valves on each end of the check valve assembly; and properly located resilient seated test cocks.

"Service connection" means a location at the meter or, in the absence of a meter, at the curbstop or building inlet.

"Service line" means the water line that runs from the corporation stop at a water main to the building inlet, including any pigtail, gooseneck, or fitting.

"State" means the Arizona Department of Environmental Quality, except during any time period during which the Department does not have primary enforcement responsibility pursuant to Section 1413 of the Act, the term "State" means the Regional Administrator of EPA Region 9.

"System evaluation assistance" means assistance provided to assess the status of the public water system's technical, managerial, and financial components, with emphasis on infrastructure status.

"Technical assistance" means operational assistance, system evaluation assistance, or both.

"Treatment" means a process that changes the quality of water by physical, chemical, or biological means.

"Treatment technique" means a treatment procedure promulgated by EPA in lieu of an MCL.

"Variance" means relief from a maximum contaminant level or treatment technique granted by the Department to a public water system when characteristics of a system's raw water source preclude the system from complying with maximum contaminant levels prescribed by drinking water regulations, despite application of best technology treatment techniques, or other means available to the system.

"Water main" means a pipe that is exterior to buildings and is used to distribute drinking water to more than one property.

"Water Infrastructure Finance Authority" means the entity created under A.R.S. § 49-1201 et seq. to provide financial assistance to political subdivisions, Indian tribes, and eligible drinking water facilities for constructing, acquiring, or improving wastewater treatment facilities, drinking water facilities, nonpoint source projects, and other related water quality facilities and projects.

"Water treatment plant" means a process, device, or structure used to improve the physical, chemical, or biological quality of the water in a public water system. A booster chlorination facility that is designed to maintain an effective disinfectant residual in water in the distribution system is not a water treatment plant.

C. 40 CFR 141.4, entitled "variances and exemptions," is incorporated by reference subject to the following modifications:

1. The phrase "entity with primary enforcement responsibility" is changed to "Department."
2. When reviewing and acting on requests for variances and exemptions, the Department shall act in accordance with the procedures at 42 U.S.C. 300g-4 and 300g-5 (2004) of the Act (Public Health Service Act §§ 1415 and 1416), including:
   a. The Department shall require a public water system granted a variance under subsection (C) to comply with the requirements in a compliance schedule as expeditiously as practicable.
   b. The Department shall promptly notify EPA of all variances and exemptions granted by the Department in the manner specified in the Act.
   c. The Department shall enforce a schedule or other requirement on which a variance or exemption is conditioned under 42 U.S.C. 300g-3 and A.R.S. § 49-354, as if the schedule or other requirement is part of a national primary drinking water regulation incorporated by reference in this Chapter.
   d. "Treatment technique requirement," for the purpose of subsection (C), means a requirement in a national primary drinking water regulation which specifies for a contaminant, in accordance with 42 U.S.C. 300f(1)(C)(ii), each treatment technique known to lead to a reduction in the level of the contaminant sufficient to satisfy the requirements of 42 U.S.C. 300g-1(b).
   e. If the Department grants a variance or exemption, the Department shall prescribe:
      i. A compliance schedule that includes increments of progress or measures to develop an alternative source of water supply; and
      ii. An implementation schedule that includes such control measures as the Department deems necessary for each contaminant.

D. 40 CFR 142, 142.2, 142.20, and Subparts E, F, G, and K, are incorporated by reference as of the date specified in R18-4- 102, with the following changes; this incorporation does not include any later amendments or editions. The following substitutions are to be applied in the listed order.

1. 40 CFR 142.46, 142.302, 142.313 are not incorporated by reference.
2. 40 CFR 142.20(a), (b). The phrase “States with primary enforcement responsibility” is changed to “the Department”; the second sentences in 142.20(a) and 142.20(b) are deleted.
3. 40 CFR 142.60(b), 142.61(b). The phrase “Administrator in a state that does not have primary enforcement responsibility or a state with primary enforcement responsibility (primacy state) that issues variances” is changed to “Department.”
4. 40 CFR 142.40(a), (b); 142.41; 142.50(a); 142.51. The phrase “a State that does not have primary enforcement responsibility” is changed to “Arizona”.
5. 40 CFR 142.60(b), (c), (d); 142.61(b), (c). The phrase “Administrator or [`primacy' or `primary'] state that issues variances” is changed to “Department.”
6. 40 CFR 142.60(b), (d); 142.61(b), (d); 142.62(e), (g)(1); 142.65(a)(4). The phrase “Administrator or [the] primacy state” is changed to “Department”; the phrase “Administrator's or primacy state's” is changed to “Department's.”
7. In 40 CFR 142, Subpart K:
    a. The phrases “[`a' or `the'] State or [the] Administrator,” “Administrator or State,” “the public water system, State and the Administrator,” and “a State exercising primary enforcement responsibility for public water systems (or the Administrator for other systems)” are changed to “the Department.”
    b. 40 CFR 142.301. The last sentence is deleted.
    c. 40 CFR 142.303(b). The phrase “a State exercising primary enforcement responsibility for public water systems” is changed to “the Department.”
    d. 40 CFR 142.306(b)(2). The phrase “(or by the Administrator in States which do not have primary enforcement responsibility)” is deleted.
    e. 40 CFR 142.308(a), 142.309(c). The phrase “the State, Administrator, or [the] public water system as directed by the State or Administrator” is changed to “the Department or the public water system, as determined by the Department.”
    f. 40 CFR 142.308(b). The text of this subsection is replaced by the following: “At the time of proposal, the Department must publish a notice in the Arizona Administrative Register or a newspaper or newspapers of wide circulation in the affected region of the State. This notice shall include the information listed in paragraph (c) of this section.”
    g. 40 CFR 142.308(c)(7). The phrase “the primacy agency” is changed to “the Department.”
8. In all parts of 40 CFR 142 incorporated by reference other than Subpart K, the term “Administrator” is changed to “Department”; the pronoun “he” is changed to “the Department”; and the pronoun “his” is changed to “the Department's.”
9. In all parts of 40 CFR 142 incorporated by reference, the term “a state” or “the state” is changed to “the Department”; the term “the State's” is changed to “the Department's.”
10. 40 CFR 142.62(h)(3). The term “State-approved” is changed to “Department-approved.”
11. In 40 CFR 142.44(b). The text of this subsection is replaced by the following: “Public notice of an opportunity for hearing on a variance schedule shall be circulated in a manner designed to inform interested and potentially interested persons of the proposed schedule, and shall meet the notice requirements of A.A.C. R18-1-401.”
12. In 40 CFR 142.54(b). The text of this subsection is replaced by the following: “Public notice of an opportunity for hearing on an exemption schedule shall be circulated in a manner designed to inform interested and potentially interested persons of the proposed schedule, and shall meet the notice requirements of A.A.C. R18-1- 401.”
13. 40 CFR 142.44(d), 142.54(d). The third, fourth, and fifth sentences of these subsections are deleted.
14. 40 CFR 142.44(e), 142.54(e). The text of these subsections is replaced by the following: “A hearing convened pursuant to paragraph (d) of this section shall be conducted according to the procedural requirements of A.A.C. R18-1-402.”

E. 40 CFR 141.5 is not incorporated by reference.

ARTICLE 6. CAPACITY DEVELOPING REQUIREMENTS FOR A NEW PUBLIC DRINKING WATER SYSTEM

R18-4-603. Technical Capacity Requirements

An owner of a new public water system shall submit the following to the Department for a determination of technical capacity:

1. Documentation of a drinking water source minimum of 50 gallons of water per person per day for a period of 100 years, a 100 year water availability designation from the Arizona Department of Water Resources (ADWR), or a Certificate of Assured Water Supply from ADWR;
2. Documentation that the drinking water served to the public will meet the safe drinking water standards of this Chapter;
3. Documentation that infrastructure, treatment, and storage design meets the requirements of this Chapter, Articles ~~2, 3, and 5~~ 1, 2, and 4, and Chapter 5, Article 5;
4. Documentation that the public water system is operated by a certified operator of the sufficient grade and type; and
5. Documentation that contains at least the following:
   a. Day 1 to final build-out technical and engineering needs projections;
   b. Proposed water system design specification and proposed uses including commercial and domestic use phases;
   c. Information describing the life of the plant;
   d. A demonstration that all site-specific components meet nationally recognized standards, such as those established by the American Water Works Association, National Sanitation Foundation, or Underwriter's Laboratory;
   e. Manufacturers' specifications on components used in the construction of the water system; and
   f. Corrective action plan to address site-specific component replacement or repair protocols based on manufacturer's recommendations or engineer's specification.

ADMINISTRATIVE RULES DIVISION

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 4. DEPARTMENT OF ENVIRONMENTAL QUALITY - SAFE DRINKING WATER

The table of contents on page one contains links to the referenced page numbers in this Chapter.
Refer to the notes at the end of a Section to learn about the history of a rule as it was published in the *Arizona Administrative Register*.

This Chapter contains rules that were filed to be codified in the *Arizona Administrative Code* between the dates of April 1, 2023 through June 30, 2023

Questions about these rules? Contact:

Department:	Arizona Department of Environmental Quality
Address:	1110 W. Washington St. Phoenix, AZ 85007
Website:	www.azdeq.gov
Name:	Laura Carusona, Safe Drinking Water Manager
Telephone:	(602) 771-0053
Email:	carusona.laura@azdeq.gov

The release of this Chapter in Supp. 23-2 replaces Supp. 16-1, 1-38 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

Washington Street, Fl. 7 Phoenix, AZ 85007

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 4. DEPARTMENT OF ENVIRONMENTAL QUALITY - SAFE DRINKING WATER

Authority: A.R.S. § 49-104 et seq.

Supp. 23-2

CHAPTER TABLE OF CONTENTS

ARTICLE 1. PRIMARY DRINKING WATER REGULATIONS

Article 1, consisting of Sections R18-4-101 through R18-4-123, adopted effective April 28, 1995 (Supp. 95-2).

Article 1, consisting of R18-4-101 through R18-4-115, recodified to 18 A.A.C. Title 5, Article 1, R18-5-101 through R18-5-115 (Supp. 95-2).

ARTICLE 2. STATE DRINKING WATER REGULATIONS

Article 2, consisting of Sections R18-4-201 through R18-4-223 adopted effective April 28, 1995 (Supp. 95-2).

Article 2, consisting of Sections R18-4-201 through R18-4-290, repealed effective April 28, 1995 (Supp. 95-2).

Article 2 consisting of Sections R18-4-201 through R18-4-290, adopted effective August 8, 1991 (Supp. 91-3).

Article 2 consisting of Sections R18-4-201 through R18-4-290 and Appendices 1-7, repealed effective August 8, 1991 (Supp. 91-3).

Article 2 consisting of Sections R9-8-210 through R9-8-213, R9-8-220 through R9-8-227, R9-8-230 through R9-8-236, R9-8-250 through R9-8-253, R9-8-260 through R9-8-273, R9-8-290, and Appendices 1 through 6 renumbered as Article 2, Sections R18-4-210 through R18-4-213, R18-4-220 through R18-4-227, R18-4-230 through R18-4-236, R18-4-250 through R18-4-253, R18-4-260 through R18-4-273, R18-4-290, and Appendices 1 through 6 (Supp. 87-3).

ARTICLE 3. MONITORING ASSISTANCE PROGRAM

Article 3, consisting of Sections R18-4-301 thru R18-4-317, adopted effective April 28, 1995 (Supp. 95-2).

ARTICLE 4. OTHER SAFE DRINKING WATER ACT REGULATIONS

New Article 4, consisting of Section R18-1-402, made by final expedited rulemaking at 29 A.A.R. 1472 (June 30, 2023), with an immediate effective date of June 7, 2023 (Supp. 23-2).

Article 4, consisting of Sections R18-4-401 through R18-4-405, repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

Article 4, consisting of Sections R18-4-401 thru R18-4-405, adopted effective April 28, 1995 (Supp. 95-2).

ARTICLE 5. RECODIFIED

Article 5 recodified to 18 A.A.C. 5, Article 5 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

Article 5, consisting of Sections R18-4-501 through R18-4-509, adopted effective April 28, 1995 (Supp. 95-2).

Appendices A, B, and C adopted effective April 28, 1995 (Supp. 95-2).

ARTICLE 6. CAPACITY DEVELOPMENT REQUIREMENTS FOR A NEW PUBLIC DRINKING WATER SYSTEM

Article 6, consisting of Sections R18-4-601 through R18-4-607, adopted by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

Article 6, consisting of Sections R18-4-601 through R18-4-607, adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3).

ARTICLE 7. REPEALED

Article 7, consisting of Sections R18-4-701 through R18-4-710 and Appendices A and B, adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2).

ARTICLE 8. TECHNICAL ASSISTANCE

Article 8, consisting of Sections R18-4-801 through R18-4-804, made by final rulemaking at 8 A.A.R. 262, effective December 27, 2001 (Supp. 01-4).

ARTICLE 1. PRIMARY DRINKING WATER REGULATIONS

R18-4-101. Authority and Purpose

A. This Chapter is created under the authority of A.R.S. Title 49, Chapter 2, Article 9, and the federal Safe Drinking Water Act, 42 U.S.C. 300f through 300j-26.

B. The purposes of this Chapter include the following:

1. To protect the public health and welfare by ensuring that all potable water distributed or sold to the public by public water systems is free from unwholesome, poisonous, deleterious, or other foreign substances, and filth or disease-causing substances or organisms; and
2. To enable the state to maintain primary enforcement responsibility of the Safe Drinking Water Act, including the requirements of 40 CFR 141 and 142.

Historical Note

Former Section R9-20-504 repealed, new Section R9-20-504 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-504 amended, renumbered as Section R9-20-501, then renumbered as Section R18-4-101 effective October 23, 1987 (Supp. 87-4). R18-4-101 recodified to R18-5-101 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-102. Incorporation by Reference of 40 CFR 141 and 142

A. Unless otherwise specified in this Chapter, all references to regulations in 40 CFR 141 and 142 in this Chapter refer to the July 1, 2014, version of the regulations. Copies of the incorporated material are available for review at the Arizona Department of Environmental Quality, 1110 W. Washington St., Phoenix, AZ, 85007, and are available from the U.S. General Printing office at http://www.gpo.gov/fdsys/browse/collectionCfr.action?collectionCode=CFR.

B. A reference to a federal statute or regulation in a federal statute or regulation incorporated by reference in this Chapter shall refer to and incorporate by reference the referenced statute or regulation as of the date specified in subsection (A), unless the referenced statute or regulation is incorporated by reference elsewhere in this Chapter in a modified form, in which case the reference shall be to the statute or regulation as incorporated in this Chapter.

C. Documents incorporated by reference in a federal statute or regulation incorporated by reference in this Chapter are also incorporated by reference in this Chapter, as of the date specified in the federal statute or regulation.

D. A federal rule incorporated by reference in this Chapter shall include all "Effective Date Notes" associated with the federal rule.

E. The term "State" or "primacy agency" in the text of a federal statute or regulation incorporated by reference in this Chapter shall mean the Arizona Department of Environmental Quality unless otherwise noted.

Historical Note

Adopted as Section R9-20-502 and renumbered as Section R18-4-102 effective October 23, 1987 (Supp. 87-4). R18-4-102 recodified to R18-5-102 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). Amended by final rulemaking at 22 A.A.R. 379, effective April 2, 2016 (Supp. 16-1).

R18-4-103. General – 40 CFR 141, Subpart A

A. 40 CFR 141, Subpart A (40 CFR 141.1 through 141.6), is incorporated by reference as of the date specified in R18-4-102, except for the changes listed in this Section; this incorporation does not include any later amendments or editions.

B. The definition of "State" in 40 CFR 141.2 is not incorporated by reference. In addition to the terms defined in A.R.S. §§ 49-201 and 49-351, and 40 CFR 141.2, in this Chapter, unless otherwise specified, the terms listed below have the following meanings.

"Air-gap separation" means a physical separation between the discharge end of a supply pipe and the top rim of its receiving vessel of at least 1 inch or twice the diameter of the supply pipe, whichever is greater.

"ANSI/NSF Standard 60" means American National Standards Institute/NSF International Standard 60 - 2014a, Drinking Water Treatment Chemicals - Health Effects, November 17, 2014, incorporated by reference and on file with the Department. This material is available from NSF International, 789 N. Dixboro Road, P.O. Box 130140, Ann Arbor, MI 48113-0140, USA; (734) 769-8010; http://www.nsf.org. This incorporation by reference includes no future editions or amendments.

"ANSI/NSF Standard 61" means American National Standards Institute/NSF International Standard 61 - 2014a, Drinking Water System Components - Health Effects, October 19, 2014, incorporated by reference and on file with the Department. This material is available from NSF International, 789 N. Dixboro Road, P.O. Box 130140, Ann Arbor, MI 48113-0140, USA; (734) 769-8010; http://www.nsf.org. This incorporation by reference includes no future editions or amendments.

"Backflow" means a reverse flow condition that causes water or mixtures of water and other liquids, gases, or substances to flow back into the distribution system. Backflow can be created by a difference in water pressure (backpressure), a vacuum or partial vacuum (backsiphonage), or a combination of both.

"Backflow-prevention assembly" means a mechanical device used to prevent backflow.

"Capacity" means the overall capability of a water system to consistently produce and deliver water meeting all national and state primary drinking water regulations in effect when new or modified operations begin. Capacity includes the technical, managerial, and financial capacities of the water system to plan for, achieve, and maintain compliance with applicable national and state primary drinking water regulations.

"Capacity development" means improving public water system finances, management, infrastructure, and operations, so that the public water system can provide safe drinking water consistently, reliably, and cost-effectively.

"Capacity development report" means an annual report adopted by the Department that describes progress made in improving technical, managerial, or financial capacity of public water systems in Arizona.

"Cross connection" means a physical connection between a public water system and any source of water or other substance that may lead to contamination of the water provided by the public water system through backflow.

"Distribution system" means a pipeline, appurtenance, device, and facility of a public water system that conducts water from a source or water treatment plant to persons served by the system.

"Department" means the Arizona Department of Environmental Quality.

"Double check valve assembly" means a backflow-prevention assembly that contains two independently acting check valves with tightly closing, resilient-seated shut-off valves on each end of the assembly and properly located, resilient-seated test cocks.

"Elementary business plan" means a document containing all of the items necessary for a complete review of the technical, managerial, and financial capacity of a new public water system under Article 6 of this Chapter.

"Entry point to the distribution system" means a compliance sampling point anywhere on a finished water line that is representative of a water source and located after the well, surface water intake, treatment plant, storage tank, or pressure tank, whichever is last in the process flow, but prior to where the water is discharged into the distribution system and prior to the first service connection.

"EPA" means the United States Environmental Protection Agency.

"Exclusion" means a waiver granted by the Department under R18-4-219 from a requirement of this Chapter that is not a requirement contained in a federal drinking water law.

"Exemption" means a form of temporary relief from a maximum contaminant level or treatment technique granted by the Department to a public water system, pending installation and operation of treatment facilities, acquisition of an alternate source, or completion of improvements in treatment processes to bring the system into compliance with drinking water regulations.

"Financial capacity" means the ability of a public water system to acquire and manage sufficient financial resources for the system to achieve and maintain compliance with the federal Safe Drinking Water Act.

"Groundwater system" means a public water system that is supplied solely by groundwater that is not under the direct influence of surface water.

"Lead-free" has the same meaning prescribed in A.R.S. § 49-353(B).

"Major stockholder" means a person who has 20% or more ownership interest in a public water system.

"Master priority list" means a list created by the Department that ranks public water systems according to the criteria in R18-4-803.

"Monitoring assistance program" means the program established by A.R.S. § 49-360 to assist public water systems with mandatory monitoring for contaminants and administered by the Department under 18 A.A.C. 4.

"Operational assistance" means professional or financial assistance provided to a public water system to improve the technical, managerial, or financial operations of the public water system.

"Protected water source" means a groundwater source that:

- Meets the requirements of A.A.C. R18-5-502(D);
- Is not located within 100 feet of a drywell as defined by A.R.S. § 49-331(3), and
- Is not located within 100 feet of a condition that can constitute an environmental nuisance as described in A.R.S. § 49-141(A).

"Reduced pressure principle backflow-prevention assembly" means a backflow-prevention assembly that contains two independently acting check valves; a hydraulically operating, mechanically independent pressure differential relief valve located between the two check valves; tightly closing, resilient seated shut-off valves on each end of the check valve assembly; and properly located resilient seated test cocks.

"Service connection" means a location at the meter or, in the absence of a meter, at the curbstop or building inlet.

"Service line" means the water line that runs from the corporation stop at a water main to the building inlet, including any pigtail, gooseneck, or fitting.

"State" means the Arizona Department of Environmental Quality, except during any time period during which the Department does not have primary enforcement responsibility pursuant to Section 1413 of the Act, the term "State" means the Regional Administrator of EPA Region 9.

"System evaluation assistance" means assistance provided to assess the status of the public water system's technical, managerial, and financial components, with emphasis on infrastructure status.

"Technical assistance" means operational assistance, system evaluation assistance, or both.

"Treatment" means a process that changes the quality of water by physical, chemical, or biological means.

"Treatment technique" means a treatment procedure promulgated by EPA in lieu of an MCL.

"Variance" means relief from a maximum contaminant level or treatment technique granted by the Department to a public water system when characteristics of a system's raw water source preclude the system from complying with maximum contaminant levels prescribed by drinking water regulations, despite application of best technology,

treatment techniques, or other means available to the system.

"Water main" means a pipe that is exterior to buildings and is used to distribute drinking water to more than one property.

"Water Infrastructure Finance Authority" means the entity created under A.R.S. § 49-1201 et seq. to provide financial assistance to political subdivisions, Indian tribes, and eligible drinking water facilities for constructing, acquiring, or improving wastewater treatment facilities, drinking water facilities, nonpoint source projects, and other related water quality facilities and projects.

"Water treatment plant" means a process, device, or structure used to improve the physical, chemical, or biological quality of the water in a public water system. A booster chlorination facility that is designed to maintain an effective disinfectant residual in water in the distribution system is not a water treatment plant.

C. 40 CFR 141.4, entitled "variances and exemptions," is incorporated by reference subject to the following modifications:

1. The phrase "entity with primary enforcement responsibility" is changed to "Department."
2. When reviewing and acting on requests for variances and exemptions, the Department shall act in accordance with the procedures at 42 U.S.C. 300g-4 and 300g-5 (2004) of the Act (Public Health Service Act §§ 1415 and 1416), including:
   a. The Department shall require a public water system granted a variance under subsection (C) to comply with the requirements in a compliance schedule as expeditiously as practicable.
   b. The Department shall promptly notify EPA of all variances and exemptions granted by the Department in the manner specified in the Act.
   c. The Department shall enforce a schedule or other requirement on which a variance or exemption is conditioned under 42 U.S.C. 300g-3 and A.R.S. § 49-354, as if the schedule or other requirement is part of a national primary drinking water regulation incorporated by reference in this Chapter.
   d. "Treatment technique requirement," for the purpose of subsection (C), means a requirement in a national primary drinking water regulation which specifies for a contaminant, in accordance with 42 U.S.C. 300f(1)(C)(ii), each treatment technique known to lead to a reduction in the level of the contaminant sufficient to satisfy the requirements of 42 U.S.C. 300g-1(b).
   e. If the Department grants a variance or exemption, the Department shall prescribe:
      i. A compliance schedule that includes increments of progress or measures to develop an alternative source of water supply; and
      ii. An implementation schedule that includes such control measures as the Department deems necessary for each contaminant.

D. 40 CFR 142, 142.2, 142.20, and Subparts E, F, G, and K, are incorporated by reference as of the date specified in R18-4-102, with the following changes; this incorporation does not include any later amendments or editions. The following substitutions are to be applied in the listed order.

1. 40 CFR 142.46, 142.302, 142.313 are not incorporated by reference.
2. 40 CFR 142.20(a), (b). The phrase "States with primary enforcement responsibility" is changed to "the Department"; the second sentences in 142.20(a) and 142.20(b) are deleted.
3. 40 CFR 142.60(b), 142.61(b). The phrase "Administrator in a state that does not have primary enforcement responsibility or a state with primary enforcement responsibility (primacy state) that issues variances" is changed to "Department."
4. 40 CFR 142.40(a), (b); 142.41; 142.50(a); 142.51. The phrase "a State that does not have primary enforcement responsibility" is changed to "Arizona".
5. 40 CFR 142.60(b), (c), (d); 142.61(b), (c). The phrase "Administrator or [`primacy' or `primary'] state that issues variances" is changed to "Department."
6. 40 CFR 142.60(b), (d); 142.61(b), (d); 142.62(e), (g)(1); 142.65(a)(4). The phrase "Administrator or [the] primacy state" is changed to "Department"; the phrase "Administrator's or primacy state's" is changed to "Department's."
7. In 40 CFR 142, Subpart K:
   a. The phrases "[`a' or `the'] State or [the] Administrator," "Administrator or State," "the public water system, State and the Administrator," and "a State exercising primary enforcement responsibility for public water systems (or the Administrator for other systems)" are changed to "the Department."
   b. 40 CFR 142.301. The last sentence is deleted.
   c. 40 CFR 142.303(b). The phrase "a State exercising primary enforcement responsibility for public water systems" is changed to "the Department."
   d. 40 CFR 142.306(b)(2). The phrase "(or by the Administrator in States which do not have primary enforcement responsibility)" is deleted.
   e. 40 CFR 142.308(a), 142.309(c). The phrase "the State, Administrator, or [the] public water system as directed by the State or Administrator" is changed to "the Department or the public water system, as determined by the Department."
   f. 40 CFR 142.308(b). The text of this subsection is replaced by the following: "At the time of proposal, the Department must publish a notice in the *Arizona Administrative Register* or a newspaper or newspapers of wide circulation in the affected region of the State. This notice shall include the information listed in paragraph (c) of this section."
   g. 40 CFR 142.308(c)(7). The phrase "the primacy agency" is changed to "the Department."
8. In all parts of 40 CFR 142 incorporated by reference other than Subpart K, the term "Administrator" is changed to "Department"; the pronoun "he" is changed to "the Department"; and the pronoun "his" is changed to "the Department's."
9. In all parts of 40 CFR 142 incorporated by reference, the term "a state" or "the state" is changed to "the Department"; the term "the State's" is changed to "the Department's."
10. 40 CFR 142.62(h)(3). The term "State-approved" is changed to "Department-approved."
11. In 40 CFR 142.44(b). The text of this subsection is replaced by the following: "Public notice of an opportunity for hearing on a variance schedule shall be circulated in a manner designed to inform interested and potentially

interested persons of the proposed schedule, and shall meet the notice requirements of A.A.C. R18-1-401."

12. In 40 CFR 142.54(b). The text of this subsection is replaced by the following: "Public notice of an opportunity for hearing on an exemption schedule shall be circulated in a manner designed to inform interested and potentially interested persons of the proposed schedule, and shall meet the notice requirements of A.A.C. R18-1-401."
13. 40 CFR 142.44(d), 142.54(d). The third, fourth, and fifth sentences of these subsections are deleted.
14. 40 CFR 142.44(e), 142.54(e). The text of these subsections is replaced by the following: "A hearing convened pursuant to paragraph (d) of this section shall be conducted according to the procedural requirements of A.A.C. R18-1-402."

E. 40 CFR 141.5 is not incorporated by reference.

Historical Note

Former Section R9-20-505 repealed, new Section R9-20-505 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-505 amended, renumbered as Section R9-20-503, then renumbered as Section R18-4-103 effective October 23, 1987 (Supp. 87-4). R18-4-103 recodified to R18-5-103 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-103 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). Amended by final rulemaking at 22 A.A.R. 379, effective April 2, 2016 (Supp. 16-1).

R18-4-104. Maximum Contaminant Levels – 40 CFR 141, Subpart B

40 CFR 141, Subpart B (40 CFR 141.11 through 141.13), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note

Former Section R9-20-506 repealed, new Section R9-20-506 adopted effective November 1, 1979 (Supp. 79-6). Amended effective March 19, 1980 (Supp. 80-2). Former Section R9-20-506 amended, renumbered as Section R9-20-504, then renumbered as Section R18-4-104 effective October 23, 1987 (Supp. 87-4). R18-4-104 recodified to R18-5-104 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Amended under R1-1-109(B) to correct a manifest clerical error; subsection R18-4-104(J)(3) moved to its proper place as subsection R18-4-104(K)(3); compare at 8 A.A.R. 3086, July 26, 2002 (Supp. 03-1). Section R18-4-104 renumbered to R18-4-211; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-105. Monitoring and Analytical Requirements – 40 CFR 141, Subpart C

A. 40 CFR 141, Subpart C (40 CFR 141.21 through 141.29 and Appendix A), is incorporated by reference as of the date specified in R18-4-102, subject to the modifications specified in this Section; this incorporation does not include any later amendments or editions.

B. 40 CFR 141.21(c)(2), 141.21(d) and 141.21(f) are not incorporated by reference.

C. 40 CFR 141.22: the last sentence of 141.22(a) is replaced by the following: "Turbidity measurements shall be made using analytical methods approved by EPA and the Arizona Department of Health Services."

D. 40 CFR 141.23(k) is not incorporated by reference.

E. 40 CFR 141.24(f)(17), 141.24(f)(20), and 141.24(h)(19) are not incorporated by reference.

F. 40 CFR 141.25: the following text replaces the text of 40 CFR 141.25(a) and (b): "Analysis for the following contaminants shall be conducted to determine compliance with 40 CFR 141.66 (radioactivity) using analytical methods approved by EPA and the Arizona Department of Health Services:

1. Naturally occurring contaminants: gross alpha and beta, gross alpha, radium 226, radium 228, and uranium.
2. Man-made contaminants: radioactive cesium, radioactive iodine, radioactive strontium 89, 90, tritium, and gamma emitters."

G. 40 CFR 141.27, alternate analytical techniques, is not incorporated by reference; the following text is substituted in its place: "The use of an alternate analytical technique approved by EPA and the Arizona Department of Health Services shall not decrease the frequency of monitoring required by this Chapter."

H. 40 CFR 141.28:

1. In 40 CFR 141.28(a), the term "State" is changed to "Arizona Department of Health Services."
2. In 40 CFR 141.28(b), the term "State" is changed to "Arizona Department of Health Services or Arizona Department of Environmental Quality."
3. A new subsection (c) is added: "A laboratory that performs drinking water analysis in Arizona shall be certified by EPA or the Arizona Department of Health Services."

Historical Note

Former Section R9-20-507 repealed, new Section R9-20-507 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-507 amended, renumbered as Section R9-20-505, then renumbered as Section R18-4-105 effective October 23, 1987 (Supp. 87-4). R18-4-105 recodified to R18-5-105 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section repealed by final rulemaking at 8 A.A.R. 3046, effective May 6, 2002 (Supp. 02-3). New Section R18-4-105 renumbered from R18-4-105.01 at 8 A.A.R. 2756, effective June 6, 2002 (Supp. 02-3). Subsection citation in part 4 of Table 2 corrected (Supp. 04-1). Section R18-4-105 and Tables 1 through 4 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). Amended by final rulemaking at 22 A.A.R. 379, effective April 2, 2016 (Supp. 16-1).

R18-4-105.01. Renumbered

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3046, effective May 6, 2002 (Supp. 02-3). Section renumbered to R18-4-105 at 8 A.A.R. 2756, effective June 6, 2002 (Supp. 02-3).

R18-4-106. Reporting and Recordkeeping – 40 CFR 141, Subpart D

A. 40 CFR 141, Subpart D (40 CFR 141.31 through 141.35), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions. The requirements in the following subsections are in addition to the requirements of 40 CFR 141, Subpart D.

B. Department reporting forms. A public water system shall report to the Department the results of all analyses completed under this Chapter on Department-approved forms.

C. Direct reporting. A public water system may contract with a laboratory or another agent to report monitoring results to the Department, but the public water system remains legally responsible for compliance with reporting requirements.

Historical Note

Adopted effective March 19, 1980 (Supp. 80-2). Former Section R9-20-508 amended, renumbered as Section R9-20-506, then renumbered as Section R18-4-106 effective October 23, 1987 (Supp. 87-4). Amended subsection (F) effective November 30, 1988 (Supp. 88-4). R18-4-106 recodified to R18-5-106 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-106 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-107. Special Regulations, Including Monitoring - 40 CFR 141, Subpart E

40 CFR 141, Subpart E (40 CFR 141.40 through 141.42) revised as of July 1, 2021 and published by the Office of the Federal Register, National Archives and Records Administration is incorporated by reference. This rule does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the U.S. Government Publishing Office, bookstore.gpo.gov, P.O. Box. 979050, St. Louis, MO 63197-9000.

Historical Note

Former Section R9-20-509 repealed, new Section R9-20-509 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-509 amended, renumbered as Section R9-20-507, then renumbered as Section R18-4-107 effective October 23, 1987 (Supp. 87-4). Amended subsection (B) effective November 30, 1988 (Supp. 88-4). R18-4-107 recodified to R18-5-107 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-107 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). Amended by final expedited rulemaking at 29 A.A.R. 1472 (June 30, 2023), with an immediate effective date of June 7, 2023 (Supp. 23-2).

R18-4-108. Maximum Contaminant Level Goals and Maximum Residual Disinfectant Level Goals – 40 CFR 141, Subpart F

40 CFR 141, Subpart F (40 CFR 141.50 through 141.55), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note

Former Section R9-20-510 repealed, new Section R9-20-510 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-510 amended, renumbered as Section R9-20-508, then renumbered as Section R18-4-108 effective October 23, 1987 (Supp. 87-4). Amended subsection (D) effective November 30, 1988 (Supp. 88-4). R18-4-108 recodified to R18-5-108 (Supp. 95-2). New Section R18-4-108 renumbered from R18-4-109 and amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-108 renumbered to R18-4-205; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-109. Primary Drinking Water Regulations: Maximum Contaminant Levels and Maximum Residual Disinfectant Levels – 40 CFR 141, Subpart G

40 CFR 141, Subpart G (40 CFR 141.60 through 141.66), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note

Former Section R9-20-511 repealed, new Section R9-20-511 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-511 amended, renumbered as Section R9-20-509, then renumbered as Section R18-4-109 effective October 23, 1987 (Supp. 87-4). R18-4-109 recodified to R18-5-109 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Former Section R18-4-109 renumbered to R18-4-108; new Section R18-4-109 made by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-109 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-110. Filtration and Disinfection – 40 CFR 141, Subpart H

A. 40 CFR 141, Subpart H (40 CFR 141.70 through 141.76), is incorporated by reference as of the date specified in R18-4-102, subject to the modifications specified in this Section; this incorporation does not include any later amendments or editions.

B. The text of 40 CFR 141.74(a) is replaced by the following: "*Analytical requirements*. In order to demonstrate compliance with the requirements of this Part, public water systems shall use analytical methods approved by EPA and the Arizona Department of Health Services for monitoring under this Part."

Historical Note

Former Section R9-20-512 repealed, new Section R9-20-512 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-512 amended, renumbered as Section R9-20-510, then renumbered as Section R18-4-110 effective October 23, 1987 (Supp. 87-4). Amended subsection (B) effective November 30, 1988 (Supp. 88-4). R18-4-110 recodified to R18-5-110 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-110 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-111. Control of Lead and Copper – 40 CFR 141, Subpart I

A. 40 CFR 141, Subpart I (40 CFR 141.80 through 141.91), is incorporated by reference as of the date specified in R18-4-102, subject to the modifications specified in this Section; this incorporation does not include any later amendments or editions.

B. The first sentence of 40 CFR 141.89(a) is replaced by the following: "Analyses for lead, copper, pH, conductivity, calcium, alkalinity, orthophosphate, silica, and temperature shall be conducted using analytical methods approved by EPA and the Arizona Department of Health Services. Analyses under this Section for lead and copper shall be conducted by laboratories that have been certified by EPA or the Arizona Department of Health Services."

C. The text of 40 CFR 141.89(a)(1) is not incorporated by reference.

Historical Note

Adopted as Section R9-20-511 and renumbered as Section R18-4-111 effective October 23, 1987 (Supp. 87-4). R18-4-111 recodified to R18-5-111 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-111 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-112. Use of Non-Centralized Treatment Devices – 40 CFR 141, Subpart J

40 CFR 141.101 is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note

Former Section R9-20-517 repealed, new Section R9-20-517 adopted effective November 1, 1979 (Supp. 79-6). Amended effective March 19, 1980 (Supp. 80-2). Former Section R9-20-517 amended, renumbered as Section R9-20-512, then renumbered as Section R18-4-112 effective October 23, 1987 (Supp. 87-4). R18-4-112 recodified to R18-5-112 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-112 renumbered to R18-4-219; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-113. Treatment Techniques – 40 CFR 141, Subpart K

40 CFR 141, Subpart K (40 CFR 141.110 through 141.111), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note

Adopted as Section R9-20-513 and renumbered as Section R18-4-113 effective October 23, 1987 (Supp. 87-4). Amended subsections (A) and (C) effective November 30, 1988 (Supp. 88-4). R18-4-113 recodified to R18-5-113 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-113 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-114. Disinfectant Residuals, Disinfection Byproducts, and Disinfection Byproduct Precursors – 40 CFR 141, Subpart L

A. 40 CFR 141, Subpart L (40 CFR 141.130 through 141.135), is incorporated by reference as of the date specified in R18-4-102, subject to the modifications specified in this Section; this incorporation does not include any later amendments or editions.

B. 40 CFR 141.131 is not incorporated by reference.

C. In order to demonstrate compliance with the requirements of this Chapter:

1. Public water systems shall use analytical methods approved by EPA and the Arizona Department of Health Services for monitoring under this Chapter; and
2. Analyses of drinking water samples shall be conducted by laboratories that have been certified by EPA or the Arizona Department of Health Services.

D. A party approved by the Department shall measure daily chlorite samples at the entrance to the distribution system.

E. A public water system may measure residual disinfectant concentrations for chlorine, chloramines, and chlorine dioxide by using N,N-diethyl-p-phenylenediamine (DPD) colorimetric test kits. A party approved by the Department shall measure residual disinfectant concentration.

Historical Note

Former Section R9-20-519 repealed, new Section R9-20-519 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-519 amended, renumbered as Section R9-20-514, then renumbered as Section R18-4-114 effective October 23, 1987 (Supp. 87-4). R18-4-114 recodified to R18-5-114 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-114 renumbered to R18-4-202; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-115. Renumbered

Historical Note

Former Section R9-20-520 repealed, new Section R9-20-520 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-520 amended, renumbered as Section R9-20-515, then renumbered as Section R18-4-115 effective October 23, 1987 (Supp. 87-4). R18-4-115 recodified to R18-5-115 (Supp. 95-2). New Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-115 renumbered to R18-4-215 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-116. Renumbered

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-116 renumbered to R18-4-204 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-117. Consumer Confidence Reports – 40 CFR 141, Subpart O

40 CFR 141, Subpart O (40 CFR 141.151 through 141.155 and Appendix A), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-117 renumbered to R18-4-209; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-118. Enhanced Filtration and Disinfection - Systems Serving 10,000 or More People – 40 CFR 141, Subpart P

40 CFR 141, Subpart P (40 CFR 141.170 through 141.175), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-118 renumbered to R18-4-208; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-119. Public Notification of Drinking Water Violations – 40 CFR 141, Subpart Q
40 CFR 141, Subpart Q (40 CFR 141.201 through 141.211 and Appendices A, B, and C), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note
Former Section R18-4-215 renumbered R18-4-119 pursuant to R1-1-404 effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-119 renumbered to R18-4-213; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-120. Renumbered

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective December 8, 1998 (Supp. 98-4). Section R18-4-120 renumbered to R18-4-206 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-121. Ground Water Rule – 40 CFR 141, Subpart S
A. 40 CFR Part 141, Subpart S (40 CFR 141.400 through 141.405), is incorporated by reference as of the date specified in R18-4-102, subject to the modifications specified in this Section; this incorporation does not include any later amendments or editions.
B. 40 CFR 141.402(a)(4) is modified as follows:
Consecutive and wholesale systems.
(i) In addition to the other requirements of this paragraph (a), a consecutive ground water system that has a total coliform-positive sample, collected under § 141.21(a) until March 31, 2016 or under §§ 141.854 through 141.857 beginning April 1, 2016, within 24 hours of being notified of the total coliform-positive sample must:
(A) Notify the wholesale system(s) and,
(B) Collect a sample from its consecutive connection with the wholesale ground water system and analyze it for a fecal indicator under paragraph (c) of this section.
(ii) If the sample collected under paragraph (a)(4)(i)(B) of this section is fecal indicator-positive, within 24 hours:
(A) The consecutive system must notify the wholesale ground water system, and
(B) Both systems must consult with the Department on additional sampling to meet the requirements of paragraph (a)(3) of this section.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-121 renumbered to R18-4-201; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). Amended by final rulemaking at 22 A.A.R. 379, effective April 2, 2016 (Supp. 16-1).

R18-4-122. Enhanced Filtration and Disinfection – Systems Serving Fewer Than 10,000 People – 40 CFR 141, Subpart T
40 CFR 141, Subpart T (40 CFR 141.500 through 141.571), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-122 renumbered to R18-4-207; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

Appendix A. Renumbered

Historical Note
New Appendix made by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Appendix A repealed; new Appendix A made by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Appendix A renumbered to a position after R18-4-125 at 8 A.A.R. 2756, effective June 6, 2002 (Supp. 02-3).

R18-4-123. Initial Distribution System Evaluations – 40 CFR 141, Subpart U
40 CFR 141, Subpart U (40 CFR 141.600 through 141.605), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-123 renumbered to R18-4-216; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-124. Stage 2 Disinfection Byproducts Requirements – 40 CFR 141, Subpart V
40 CFR 141, Subpart V (40 CFR 141.620 through 141.629), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note
Adopted effective February 9, 1996 (Supp. 96-1). Section R18-4-124 renumbered to R18-4-203; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-125. Enhanced Treatment For *Cryptosporidium* – 40 CFR 141, Subpart W
40 CFR 141, Subpart W (40 CFR 141.700 through 141.723), is incorporated by reference as of the date specified in R18-4-102; this incorporation does not include any later amendments or editions.

Historical Note
Adopted effective February 9, 1996 (Supp. 96-1). Section R18-4-125 renumbered to R18-4-214; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-126. Revised Total Coliform Rule 40 CFR Part 141, Subpart Y
A. 40 CFR Part 141, Subpart Y (40 CFR 141.851 through 141.861), is incorporated by reference as of the date specified in R18-4-102, subject to modifications specified in this Section; this incorporation does not include any later amendments or editions.
B. 40 CFR 141.851(d), 141.852, 141.853(c)(2), and 141.854(h)(2)(i) – (ii) are not incorporated by reference.

Historical Note
New Section made by final rulemaking at 22 A.A.R. 379, effective April 2, 2016 (Supp. 16-1).

Appendix A. Repealed

Historical Note
Appendix A renumbered from a position after R18-4-122 to a position after R18-4-125 at 8 A.A.R. 2756, effective June 6, 2002 (Supp. 02-3). Subsection citation in Appendix A corrected (Supp. 04-1). Appendix A repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

ARTICLE 2. STATE DRINKING WATER REGULATIONS

R18-4-201. Enforcement

A. A water supplier who constructs, operates, or maintains a public water system contrary to the provisions of this Chapter or fails to maintain the quality of water within the public water system as required by this Chapter is subject to the actions provided in A.R.S. §§ 49-142 and 49-354.

B. If the Department determines that a public water system is not in compliance with any of the provisions of this Chapter, the Department may issue an order to the water supplier that requires the public water system to make no further service connections or that limits the number of service connections until the Department determines that the public water system achieves compliance.

C. The Department may determine compliance or initiate enforcement action based upon analytical results and other information compiled by the Department or other federal, state, or local agencies.

D. The Department shall round compliance data to the same number of significant figures as the MCL in question to determine compliance with the MCL.

Historical Note
Former Section R9-8-212 repealed, new Section R9-8-212 adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended effective November 2, 1982 (Supp. 82-6). Amended by renumbering subsections (P) thru (W) as (Q) thru (X) and adding a new subsection (P) effective January 6, 1984 (Supp. 84-1). Former Section R9-8-212 renumbered without change as Section R18-4-212 (Supp. 87-3). Former Section R18-4-212 amended and renumbered as Section R18-4-201 effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-201 repealed; new Section renumbered from R18-4-121 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-202. Certified Operators

A water supplier of a public water system shall ensure that:

1. The water system is operated in accordance with 18 A.A.C. 5, Article 1.
2. The water system is operated by an operator who is properly certified pursuant to 18 A.A.C. 5, Article 1, to operate each water treatment plant in the system and the distribution system.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-202 repealed; new Section renumbered from R18-4-114 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-203. Operation and Maintenance

A water supplier shall maintain and keep in proper operating condition all facilities used in production, treatment, and distribution of the water supply so as to comply with the requirements of this Chapter and 18 A.A.C. 5.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-203 renumbered to R18-4-210; new Section renumbered from R18-4-124 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-204. Emergency Operation Plans

A. The water supplier for a community water system shall develop and keep an emergency operations plan in an easily accessible location. At a minimum, the emergency operations plan shall detail the steps that the community water system will take to assure continuation of service in the following emergency situations:
1. Loss of a source;
2. Loss of water supply due to major component failure;
3. Damage to power supply equipment or loss of power;
4. Contamination of water in the distribution system from backflow;
5. Collapse of a reservoir, reservoir roof, or pumphouse structure;
6. A break in a transmission or distribution line; and
7. Chemical or microbiological contamination of the water supply.

B. The emergency operations plan required by subsection (A) shall address all of the following:
1. Provision of alternate sources of water during the emergency;
2. Notice procedures for regulatory agencies, news media, and users;
3. Disinfection and testing of the distribution system once service is restored;
4. Identification of critical system components that shall remain in service or be returned to service quickly;
5. Critical spare parts inventory; and
6. Staff training in emergency response procedures.

C. In the event that an emergency situation that is listed in subsection (A) occurs, the Emergency Operation Plan shall be implemented by the community water system.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-204 repealed; new Section renumbered from R18-4-116 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-205. Sample Collection, Preservation, and Transportation

A public water system shall collect each sample using the sample preservation, container, and maximum holding time procedure prescribed by the Arizona Department of Health Services in 9 A.A.C. 14, Article 6, and approved by EPA for the analytical method used.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-205 repealed; new Section renumbered from R18-4-108 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-206. Monitoring and Sampling by the Department and MAP Contractors

A. The Department may take samples from a public water system. If the Department takes a sample at a public water system, the Department shall forward a copy of the analytical results to the water supplier.

B. If a public water system fails to monitor, the Department may monitor to determine compliance with MCLs. A public water system shall not use Department monitoring to satisfy monitoring requirements prescribed by this Chapter. This subsection does not apply to monitoring under the monitoring assistance program.

C. A contractor shall take compliance samples for the categories of contaminants listed in A.R.S. § 49-360(A) for a public water system that participates in the monitoring assistance program.

D. The sampling location for chemical contaminants must be the entry point to the distribution system or the compliance monitoring point specified by the Department, unless otherwise specified in this Chapter. An entry point to a distribution system is the point at which water is discharged into the distribution system from a well, storage tank, pressure tank, or water treatment plant.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Section R18-4-206 repealed; new Section renumbered from R18-4-120 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-207. Entry and Inspection of Public Water Systems

A. A Department inspection shall comply with A.R.S. § 41-1009.

B. 40 CFR 142.34(a) is incorporated by reference as of the date specified in R18-4-102, subject to the modifications specified in this Section; this incorporation does not include any later amendments or editions. The phrase "Administrator" is changed to "Department."

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-207 repealed; new Section renumbered from R18-4-122 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-208. Sanitary Surveys

A. Each public water system shall undergo sanitary surveys in accordance with a schedule established by the Department, or when the Department determines that a sanitary survey is necessary to assure compliance with this Chapter.

B. A sanitary survey shall be performed for a public water system at least once every five years; however, a non-community water system using only protected and disinfected ground water shall have a sanitary survey performed at least every 10 years.

C. When establishing a sanitary survey schedule or determining that a sanitary survey is required prior to the next scheduled sanitary survey, the Department shall consider:
1. The quality and quantity of the source water; and
2. Whether the system is properly designed, maintained and operated.

D. Proper operation and maintenance means operating and maintaining the public water system in compliance with this Chapter; 18 A.A.C. 5, Article 5; and in conformance with the applicable portions of Engineering Bulletin No. 10, "Guidelines for the Construction of Water Systems," incorporated by reference in A.A.C. R18-5-502.

E. The Department shall review the results of a sanitary survey to determine whether the existing monitoring frequency is adequate, and whether any additional measures are required in order to ensure that the system will remain in compliance with this Chapter.

F. In conducting a sanitary survey of a groundwater system, information on sources of contamination within a delineated wellhead protection area shall be considered by the Department instead of collecting new information, if the information was collected since the last time the system was subject to a sanitary survey.

G. A water supplier shall make the changes to the design, operation, and maintenance of the public water system specified by the Department in order to bring the system into compliance with the requirements of this Chapter, and shall make the changes within the time limits set by the Department.

H. A sanitary survey of a public water system shall be made by a representative of the Department, a professional engineer or sanitarian who is registered in Arizona, a certified water system operator, or other person approved by the Department.

I. A sanitary survey shall comply with A.R.S. § 41-1009 when conducted by the Department.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-208 repealed; new Section renumbered from R18-4-118 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-209. Unsafe Supplies

The Department may order a public water system to disconnect a source to protect the public health from an acute health risk that is attributable to the source. An acute health risk is posed when one of the following occurs:
1. A violation of a MCL for total coliform and fecal coliform or *E. coli* are present that is attributable to the source,
2. A violation of the MCL for nitrate or nitrite that is attributable to the source, or
3. An occurrence of a waterborne disease outbreak that is attributable to the source.

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-209 repealed; new Section renumbered from R18-4-117 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-210. Total Coliform; Special Events

A. A water system that does not meet the definition of a public water system, but serves a large number of persons for a short

duration of time, such as a special event, must take corrective action as required in R18-4-126 after receiving a positive coliform result, including taking additional samples until all samples test negative for total coliform and negative for E.coli if:

1. The total number of user-days exceeds 600.
2. A user-day is calculated by multiplying the number of days the event will run by the average number of persons expected to be served each day.

B. The water system shall submit a minimum of two sample results to the Department at least seven days before the beginning of the special event. The water system shall submit a minimum of one additional sample result to the Department for each day of the special event.

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended subsection (C) and added subsection (D) effective January 6, 1984 (Supp. 84-1). Former Section R9-8-210 renumbered without change as Section R18-4-210 (Supp. 87-3). Repealed effective June 30, 1989 (Supp. 89-2). New Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section repealed by final rulemaking at 8 A.A.R. 3046, effective May 6, 2002 (Supp. 02-3). New Section R18-4-210 renumbered from R18-4-203 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). Amended by final rulemaking at 22 A.A.R. 379, effective April 2, 2016 (Supp. 16-1).

R18-4-211. Reporting Requirements

A. Cross connection incidents. A public water system shall submit a written cross connection incident report to the Department and the local county health department within five days of the occurrence of a cross connection problem that results in contamination of water provided by the public water system. The report shall address all of the following:

1. Date and time of discovery of the cross connection incident,
2. Nature of the cross connection incident,
3. Affected area,
4. Cause of the cross connection incident,
5. Public health impact,
6. Date and text of any public health advisory issued,
7. Corrective action taken, and
8. Date of completion of corrective action.

B. Emergencies. A public water system shall notify the Department, by telephone or facsimile, as soon as possible but no later than 24 hours after the occurrence of any of the following emergencies:

1. Loss of water supply from a source;
2. Loss of water supply due to major component failure;
3. Damage to power supply equipment or loss of power;
4. Contamination of water in the distribution system from backflow;
5. Collapse of a reservoir, reservoir roof, or pumphouse structure;
6. Break in a transmission or distribution line that results in a loss of service to customers for more than four hours; and
7. Chemical or microbiological contamination of the water supply.

C. Waterborne disease outbreak. A public water system shall report to the Department the occurrence of a waterborne disease outbreak that may be attributable to water provided by the public water system as soon as possible but no later than 24 hours after the public water system receives actual notice of the waterborne disease outbreak.

D. Department requests for records. A public water system shall submit to the Department, within the time stated in the Department's request, copies of any records that the public water system is required to retain under this Chapter or copies of any documents that the Department is entitled to inspect under 42 U.S.C. 300j-4 (2001).

E. Department reporting forms. A public water system shall report to the Department the results of all analyses completed under this Chapter on Department-approved forms.

F. Direct reporting. A public water system may contract with a laboratory or another agent to report monitoring results to the Department, but the public water system remains legally responsible for compliance with reporting requirements.

G. Forty eight-hour reporting requirement. A public water system shall report the failure to comply with any of the provisions of this Chapter to the Department within 48 hours, except where a different reporting period is specified in this Chapter.

Historical Note

Corrected A.R.S. reference (Supp. 77-3). Amended effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-211 renumbered without change as Section R18-4-211 (Supp. 87-3). Amended effective Dec. 1, 1988 (Supp. 88-4). Repealed effective June 30, 1989 (Supp. 89-2). New Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-211 repealed; new Section renumbered from R18-4-104 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-212. Groundwater Under the Direct Influence of Surface Water

A. The Department suspects the following sources to be groundwater under the direct influence of surface water:

1. A spring;
2. An infiltration gallery;
3. A radial well collector, Ranney well, or horizontal well;
4. A well that is less than 500 feet from a surface water, and:
   a. The Department conducts a vulnerability assessment and determines that the source is vulnerable to direct surface water influence, or
   b. The Department cannot assess the vulnerability of the groundwater source to direct surface water influence because of a lack of information or the uncertainty of available information on the local hydrogeology or well construction characteristics;
5. A shallow well with perforations or well screens that are less than 50 feet below the ground surface;
6. A hand-dug or auger-bored well without a casing;
7. A groundwater source for which turbidity data is available that shows that the groundwater violates an interim MCL for turbidity;
8. A groundwater source for which data is available that shows that total coliform, fecal coliform, or *E. Coli* are present in untreated groundwater from the source that are not related to new well development, source modification, repair, or maintenance; and

9. Any groundwater source if the temperature of the groundwater fluctuates 15% to 20% from the mean groundwater temperature over the course of a year or if changes in the temperature of the groundwater correlate to similar changes in the temperature of surface water.

B. The Department shall conduct a sanitary survey of each public water system that the Department suspects is using a groundwater source under the direct influence of surface water.

C. The Department shall provide written notice to a public water system that the Department suspects a groundwater source is under the direct influence of surface water. A public water system may submit information to the Department to show that a groundwater source is not under the direct influence of surface water. Information that is submitted to show that a suspect groundwater source is not under the direct influence of surface water shall be in writing and shall be prepared by a qualified professional, such as a professional engineer registered in Arizona, registered geologist, water system operator, or hydrogeologist. The Department shall review any information submitted by a qualified professional to show a suspect groundwater source is not under the direct influence of surface water within 90 days after receipt of the information and determine if the source remains suspect.

D. If a groundwater source continues to be suspect after the analyses required in subsections (A) through (C), the Department may require a public water system that is suspected of using a groundwater source that is under the direct influence of surface water to conduct Microscopic Particle Analysis (MPA) monitoring of the groundwater source. A public water system may request that the Department allow the system to use an alternative method to determine whether a groundwater source is under the direct influence of surface water. An alternative method to determine whether a groundwater source is under the direct influence of surface water shall be approved by the Arizona Department of Health Services under 9 A.A.C. 14, Article 6.

E. A public water system shall conduct MPA monitoring as follows:

1. Each sample shall be representative of the groundwater source. A public water system shall not take a sample of blended water or a sample of water from the distribution system.
2. Each sample shall be collected and analyzed according to the procedures prescribed in the "Consensus Method for Determining Groundwaters Under the Direct Influence of Surface Water Using Microscopic Particulate Analysis (MPA)," EPA 910/9-92-029, United States Environmental Protection Agency, Environmental Services Division, Manchester Environmental Laboratory, 7411 Beach Dr. E., Port Orchard, WA 98366, October 1992 (and no future editions or amendments), which is incorporated by reference and on file with the Department.
3. The Department shall schedule MPA monitoring at a time when the groundwater source is most susceptible to direct surface water influence.
4. The Department shall use the MPA risk ratings in Table 1 to determine whether groundwater is under the direct influence of surface water.
   a. If the MPA risk rating of the initial sample indicates a high or moderate risk of direct surface water influence, the public water system shall collect a second sample for MPA at the same location on a date scheduled by the Department. If the MPA risk rating of the second sample indicates a high or moderate risk of direct surface water influence, the Department shall determine that the groundwater is under the direct influence of surface water. If the risk rating of the second sample indicates a low risk of direct surface water influence, the public water system shall collect a third sample for MPA at the same location on a date scheduled by the Department. If a third sample is taken, the Department shall determine whether the groundwater is under the direct influence of surface water under subsection (E)(4)(c).
   b. If the MPA risk rating of the initial sample indicates a low risk of direct surface water influence, the public water system shall collect a second sample for MPA at the same location on a date scheduled by the Department. If the MPA risk rating of the second sample indicates a low risk of direct surface water influence, the Department shall determine that the groundwater is not under the direct influence of surface water. If the MPA risk rating of the second sample indicates a high or moderate risk of direct surface water influence, the public water system shall collect a third sample for MPA at the same location on a date scheduled by the Department. If a third sample is taken, the Department shall determine whether the groundwater is under the direct influence of surface water under subsection (E)(4)(c).
   c. If a third sample is required and the MPA risk rating of the third sample indicates a high or moderate risk of direct surface water influence, the Department shall determine that the groundwater is under the direct influence of surface water. If the MPA risk rating of the third sample indicates a low risk of direct surface water influence, the Department shall determine that the groundwater is not under the direct influence of surface water.

F. If the Department determines a source to be groundwater under the direct influence of surface water under subsection (E) and a public water system demonstrates to the Department that it is feasible to take corrective action to prevent direct surface water influence, the Department shall establish a schedule of compliance for the public water system to take corrective action instead of requiring installation of filtration and disinfection treatment. A schedule of compliance to take corrective action shall require:

1. Completion of corrective action no later than 18 months after receipt of the initial MPA monitoring results, and
2. A second round of MPA monitoring to determine whether the source is under the direct influence of surface water after completion of the corrective action.

G. Except as provided in subsection (F), a public water system with a source that the Department determines to be groundwater under the direct influence of surface water shall provide filtration and disinfection required under 40 CFR 141 Subparts H, P, and T, as incorporated by reference in this Chapter, within 18 months after the date that the Department makes the final determination that the groundwater is under the direct influence of surface water.

H. The Department shall provide a written notice to a public water system of a final determination that a groundwater source is under the direct influence of surface water. The notice shall contain the information required by A.R.S. § 41-1092.03(A).

I. A public water system may appeal a final determination that a groundwater source is under the direct influence of surface water by serving notice of appeal with the Department under the Uniform Administrative Hearing Procedures in A.R.S. Title 41, Chapter 6, Article 10. A public water system shall file notice of appeal with the Department within 30 days after receiving notice of the Department's determination that a groundwater source is under the direct influence of surface water. The Department shall notify the Office of Administrative Hearings which shall schedule a hearing on the appeal within 60 days after the date that notice of appeal is filed with the Department. Hearings shall be conducted according to the Uniform Administrative Hearing Procedures in A.R.S. Title 41, Chapter 6, Article 10.

Historical Note

Adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Section R18-4-212 repealed; new Section renumbered from R18-4-301.01 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

Table 1. Decision Matrix for Determining Groundwater Under the Direct Influence of Surface Water

Initial Sample MPA Risk Rating	Second Sample MPA Risk Rating	Third Sample MPA Risk Rating	Groundwater Under the Direct Influence of Surface Water
High	High or Moderate		Yes
High	Low	High or Moderate	Yes
High	Low	Low	No
Moderate	High or Moderate		Yes
Moderate	Low	High or Moderate	Yes
Moderate	Low	Low	No
Low	High or Moderate	High or Moderate	Yes
Low	High or Moderate	Low	No
Low	Low		No

Historical Note

New Table 1 renumbered from R18-4-301.01, Table 1 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-213. Standards for Additives, Materials, and Equipment

A. Each product added directly to water during production or treatment shall conform to ANSI/NSF Standard 60. Products covered by this subsection include but are not limited to:

1. Coagulation and flocculation chemicals;
2. Chemicals for corrosion and scale control;
3. Chemicals for softening, precipitation, sequestering, and pH adjustment;
4. Disinfection and oxidation chemicals;
5. Chemicals for fluoridation, defluoridation, algae control, and dechlorination;
6. Dyes and tracers;
7. Antifreezes, antifoamers, regenerants, and separation process scale inhibitors and cleaners; and
8. Water well drilling and rehabilitation aids.

B. Except as identified in subsections (D) and (E), a material or product installed after January 1, 1993, that comes into contact with water or a water treatment chemical shall conform to ANSI/NSF Standard 61. Products and materials covered by this subsection include but are not limited to:

1. Process media, such as carbon and sand;
2. Joining and sealing materials, such as solvents, cements, welding materials, and gaskets;
3. Lubricants;
4. Pipes and related products, such as tanks and fittings;
5. Mechanical devices used in treatment, transmission, or distribution systems such as valves, chlorinators, and separation membranes; and
6. Surface coatings and paints.

C. Evidence that a product conforms to the requirements of this Section shall be the appearance on the product or product package of a seal of a certifying entity that is accredited by the American National Standards Institute to provide the certification.

D. *Chemicals and additives certified as conforming to the national sanitation foundation standards comply with the standards required by this section. ... In those instances where chemicals, additives and drinking water system components that come into contact with drinking water are essential to the design, construction or operation of the drinking water system and have not been certified by the national sanitation foundation or have national sanitation foundation certification but are not available from more than one source, the standards shall provide for the use of alternatives which include:*

1. *Chemicals and additives composed entirely of ingredients determined by the environmental protection agency, the food and drug administration or other federal agencies as appropriate for addition to potable water or aqueous food.*
2. *Chemicals and additives composed entirely of ingredients listed in the national academy of sciences water chemicals codex.*
3. *Chemicals, additives and drinking water system components consistent with the specifications of the American water works association.*
4. *Chemicals, additives and drinking water system components that are designed for use in drinking water systems and that are consistent with the specifications of the American society for testing and materials.*
5. *Drinking water system components that are historically used or in use in drinking water systems consistent with standard practice and that have not been demonstrated during past applications in the United States to contribute to water contamination.* A.R.S. §§ 49-353.01(B) and (C) (2006).

E. The Department exempts the following materials and products from the requirement to conform to ANSI/NSF Standard 61:

1. A concrete structure, tank, or treatment tank basin that is constructed onsite if the structure, tank, or basin is not normally coated or sealed and the construction materials used in the concrete are consistent with subsection (D). If a coating or sealant is specified by the design engineer, the coating or sealant shall comply with ANSI/NSF Standard 61;
2. An earthen reservoir or canal located upstream of water treatment;
3. A water treatment plant that is comprised of components that comply with subsections (B), (C), and (D);
4. A synthetic tank constructed of material that meets Food and Drug Administration standards for a material that comes into contact with drinking water or aqueous food, or a galvanized steel tank, either of which is:
   a. Less than 15,000 gallons in capacity, and
   b. Used in a public water system with 500 or fewer service connections; or
5. A pipe, treatment plant component, or water distribution system component made of lead-free stainless steel.

Historical Note

Former Section R9-8-213 repealed, new Section R9-8-213 adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-213 renumbered without change as Section R18-4-213 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-213 repealed; new Section renumbered from R18-4-119 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-214. Hauled Water

A. All hauled water for delivery to a public water system shall be obtained from a source that is approved pursuant to 18 A.A.C. 5, Article 5, or a regulated public water system.

B. Materials or products that come into contact with the water shall comply with R18-4-213(B).

C. Roof hatches shall be fitted with a watertight cover.

D. A bottom drain valve or other provisions to allow complete drainage and cleaning of a water transport container shall be provided.

E. Hoses that are used to deliver drinking water shall be equipped with a cap and shall remain capped when not in use.

F. A water hauler shall, at all times, maintain a residual free chlorine level of 0.2 mg/l to 1.0 mg/l in the water that is hauled in a water transport container. A chlorine disinfectant shall be added at the time water is loaded into the container. The residual free chlorine level shall be measured each time water is off-loaded from the container. The water hauler shall maintain a log of all on-loading, chlorine disinfectant additions and residual-free chlorine measurements. Such records shall be maintained for at least three years and made available to the Department for review upon request.

G. A water transport container shall be for hauling drinking water only. The container shall be plainly and conspicuously labeled "For Drinking Water Use Only."

Historical Note

Adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-214 repealed; new Section renumbered from R18-4-125 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-214.01. Repealed

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-214.01 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-214.02. Repealed

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3046, effective January 1, 2004 (Supp. 02-3). R18-4-214.02 including Table 1 and Table 2 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-215. Backflow Prevention

A. A public water system shall protect its system from contamination caused by backflow through unprotected cross-connections by requiring the installation and periodic testing of backflow-prevention assemblies. Required backflow-prevention assemblies shall be installed as close as practicable to the service connection.

B. A public water system shall ensure that a backflow-prevention assembly is installed whenever any of the following occur:
1. A substance harmful to human health is handled in a manner that could permit its entry into the public water system. These substances include chemicals, chemical or biological process waters, water from public water supplies that has deteriorated in sanitary quality, and water that has entered a fire sprinkler system. A Class 1 or Class 2 fire sprinkler system is exempt from the requirements of this Section;
2. A source of water supply exists on the user's premises that is not accepted as an additional source by the public water system or is not approved by the Department;
3. An unprotected cross-connection exists or a cross-connection problem has previously occurred within a user's premises; or
4. There is a significant possibility that a cross-connection problem will occur and entry to the premises is restricted to the extent that cross-connection inspections cannot be made with sufficient frequency or on sufficiently short notice to ensure that unprotected cross-connections do not exist.

C. Unless a cross-connection problem is specifically identified, or as otherwise provided in this Section, the requirements of this Section shall not apply to single-family residences used solely for residential purposes.

D. A backflow-prevention assembly required by this Section shall comply with the following:
1. If equipped with test cocks, it shall have been issued a certificate of approval by:
   a. The University of Southern California Foundation for Cross-Connection Control and Hydraulic Research (USC-FCCCHR), or
   b. A third-party certifying entity that is unrelated to the product's manufacturer or vendor, and is approved by the Department.
2. If not equipped with test cocks, it shall be approved by a third-party certifying entity that is unrelated to the prod-

uct's manufacturer or vendor and is approved by the Department.

E. The minimum level of backflow protection that is provided to protect a public water system shall be the level recommended in Section 7.2 of the Manual of Cross-Connection Control, Ninth Edition, USC-FCCCHR, KAP-200 University Park MC-2531, Los Angeles, CA, 90089-2531, December 1993, (and no future editions or amendments), incorporated by reference and on file with the Department. The types of backflow prevention that may be required, listed in decreasing order according to the level of protection they provide, include: an air-gap separation (AG), a reduced pressure principle backflow prevention (RP) assembly, a pressure vacuum breaker (PVB) assembly, and a double check valve (DC) assembly. Nothing contained in this Section shall prevent a public water system from requiring the use of a higher level of protection than the level required by this subsection.

1. A public water system may make installation of a required backflow-prevention assembly a condition of service. A user's failure to comply with this requirement shall be sufficient cause for the public water system to terminate water service.
2. Specific installation requirements for backflow prevention include the following:
   a. Any backflow prevention required by this Section shall be installed in accordance with the manufacturer's specifications.
   b. For an AG installation, all piping between the user's connection and the receiving tank shall be entirely visible unless otherwise approved in writing by the public water system.
   c. An RP assembly shall not be installed in a meter box, pit, or vault unless adequate drainage is provided.
   d. A PVB assembly may be installed for use on a landscape water irrigation system if the irrigation system conforms to all of the criteria listed below. An RP assembly is required whenever any of the criteria are not met.
      i. The water use beyond the assembly is for irrigation purposes only;
      ii. The PVB is installed in accordance with the manufacturer's specifications;
      iii. The irrigation system is designed and constructed to be incapable of inducing backpressure; and
      iv. The injection of chemical pesticides and fertilizers, chemigation, is not used or provided in the irrigation system.

F. Each backflow-prevention assembly required by this Section shall be tested at least annually, or more frequently if directed by the public water system or the Department. Each assembly shall also be tested after installation, relocation, or repair. An assembly shall not be placed in service unless it has been tested and is functioning as designed. The following provisions shall apply to the testing of backflow-prevention assemblies:

1. Testing shall be in accordance with procedures described in Section 9 of the Manual of Cross-Connection Control. The public water system shall notify the water user when testing of backflow-prevention assemblies is needed. The notice shall specify the date by which the testing must be completed and the results forwarded to the public water system.
2. Testing shall be performed by a person who is currently certified as a "general" tester by the California-Nevada Section of the American Water Works Association (CA-NV Section, AWWA), the Arizona State Environmental Technical Training (ASETT) Center, or other certifying authority approved by the Department.
3. When a backflow-prevention assembly is tested and found to be defective, it shall be repaired or replaced in accordance with the provisions of this Section.

G. A public water system shall maintain records of backflow-prevention assembly installations and tests performed on backflow-prevention assemblies in its service area. Records shall be retained by the public water system for at least three years and shall be made available for review by the Department upon request. These records shall include an inventory of backflow-prevention assemblies required by this Section and, for each assembly, all of the following information:

1. Assembly identification number and description,
2. Location,
3. Date of tests,
4. Description of repairs and recommendations for repairs made by the tester, and
5. The tester's name and certificate number.

H. A public water system shall submit a written cross-connection incident report to the Department and the local health authority within five business days after a cross-connection problem occurs that results in contamination of the public water system. The report shall address all of the following:

1. Date and time of discovery of the unprotected cross-connection,
2. Nature of the cross-connection problem,
3. Affected area,
4. Cause of the cross-connection problem,
5. Public health impact,
6. Date and text of any public health advisory issued,
7. Each corrective action taken, and
8. Date of completion of each corrective action.

I. An individual with direct responsibility for implementing a backflow prevention program for a water system serving more than 50,000 persons, or an individual with direct responsibility for implementing a backflow prevention program for a for a water system serving 50,000 or fewer persons if the Department has determined that such a need exists, shall be licensed as a "cross-connection control program specialist" by the CA-NV Section, AWWA, the ASETT Center, or another certifying authority approved by the Department.

Historical Note

Adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Section R18-4-215 repealed; new Section renumbered from R18-4-115 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-216. Vending Machines

An owner of a water vending machine shall be responsible for the proper operation of each water vending machine. The owner shall do all of the following:

1. Clean and maintain each water vending machine according to the manufacturer's recommendations;
2. Retain maintenance and cleaning records for one year;
3. Have analyses performed at least once every six months for total coliform bacteria. Results of such analyses shall be retained for one year. If a sample is positive for total

coliform, the water vending machine shall be removed from service, and all components shall be cleaned, replaced, or serviced. The water vending machine shall not be placed back into service until another total coliform bacteria analysis is performed and the result is negative; and

4. Maintain in operable condition all ultraviolet, ozone, or other disinfection components and automatic disabling capabilities built into the vending machine for use in the event of a disinfection system malfunction.

Historical Note

Adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-216 repealed; new Section renumbered from R18-4-123 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-217. Use of Blending to Achieve Compliance with Maximum Contaminant Levels

A. A public water system may use blending to achieve compliance with a MCL if all of the following requirements are met:

1. The public water system has obtained the Department's written approval for a blending plan that includes the following elements:
   a. Detailed drawings and schematics that show flow, concentrations, and controls;
   b. Proposed automatic or electronic devices that will be incorporated to ensure that the blend remains in the desired range or shuts off the offending source or triggers an alarm when the blend falls out of the desired range;
   c. Individual test results from all sources proposed to be blended;
   d. Projected contaminant levels that will result from blending that show both best-case and worst-case scenarios;
   e. Identified techniques, and any other information requested by the Department, that show how the blending plan will produce water that will comply with MCLs; and
2. The public water system has obtained the Department's written approval for a monitoring program designed to verify continued compliance with MCLs at all subsequent downstream service connections. This program shall include monitoring on at least a quarterly basis of both of the following:
   a. All sources contributing to the blend; and
   b. Blended water to ensure that the provisions of this Section are met.

B. A public water system shall submit an amended blending plan to the Department to confirm that the new blend achieves compliance with MCLs whenever sources are added to or removed from service or the relative flow rates from blended sources are changed in a way that changes the blend.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-217 repealed; new Section renumbered from R18-4-221 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-218. Criteria and Procedures for Public Water Systems Using Point-of-Entry or Point-of-Use Treatment Devices

A. A water supplier may use a point-of-entry (POE) or point-of-use (POU) treatment technology to achieve compliance with a MCL or treatment technique if the water supplier meets the requirements of this Section.

B. A public water system may use a POE or POU treatment device to achieve compliance with a MCL, if the treatment device:

1. Is not used to achieve compliance with an MCL or treatment technique for a microbial contaminant or an indicator for a microbial contaminant, in accordance with 42 U.S.C. 300g-1(b)(4)(E)(ii) (2007);
2. Is listed in 40 CFR 141 as an acceptable compliance technology for the applicable contaminant;
3. Is certified against the applicable NSF/ANSI Standards;
4. Is owned, controlled and maintained by a public water system or by a person under contract with the public water system to ensure proper operation, maintenance, and compliance with MCLs or treatment techniques; and
5. Is equipped with mechanical warnings to ensure that customers are automatically notified of recommended system maintenance and or operational problems. This performance indication device shall provide notice to the end user at a defined moment in time without shutting off the POE or POU device.

C. Prior to installing a POE or POU treatment device, a public water system shall obtain the Department's written approval of a POE or POU operation and maintenance (O & M) plan. A public water system shall submit an O & M plan to the Department that ensures proper long-term operation, maintenance, and monitoring of the POE or POU treatment devices. An O & M plan shall ensure that:

1. The POE or POU treatment device provides health protection equivalent to the health protection provided by centralized water treatment. "Equivalent" means that water treated by the POE or POU treatment device meets all national primary drinking water regulations.
2. A residential building, or a nonresidential building that uses water for human consumption, that is connected to the public water system has a POE or POU treatment device that is installed, operated, maintained, and monitored in a manner that assures continuous compliance with the MCLs, treatment techniques, and other requirements of this Chapter.
3. Multi-unit residential and nonresidential buildings utilizing POU treatment devices to achieve compliance with this Chapter have a sufficient number of POU devices installed to provide adequate potable water for all residents, employees, and customers.
4. The rights and responsibilities of persons served by the public water system are conveyed with the title upon the sale of property containing a POU treatment device, including but not limited to the following:
   a. The public water system owns and is responsible for maintaining a POU treatment device that is installed to meet the requirements of this Section; and
   b. Persons served by public water systems must grant public water system employees reasonable access to POU treatment devices, so that the devices can be properly maintained. Public water systems may discontinue water service to a customer who refuses to

allow public water system employees to enter the customer's home or business to inspect and maintain POU treatment devices.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-218 repealed; new Section renumbered from R18-4-222 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-219. Exclusions

A. A water supplier may request an exclusion from any requirement contained in this Chapter if such requirement is not also a requirement contained in a federal drinking water law. The Department shall consider the application of a water supplier for an exclusion from compliance with portions of this Chapter if the water supplier satisfactorily demonstrates that:

1. The request is not for a requirement that could be the subject of a variance or exemption under R18-4-103;
2. The request is not for requirements relating to turbidity, nitrate, or microbiological contaminants; and
3. The exclusion will not result in unreasonable risk to public health.

B. An application for an exclusion shall contain the following information:

1. The nature and duration of the exclusion requested,
2. Analytical results of water quality sampling of the water system including tests conducted as required by this Chapter,
3. An explanation and submittal of evidence that the exclusion will not result in an unreasonable risk to public health, and
4. Other information that the applicant believes to be pertinent or that the Department requires.

C. The Department shall take the following action on the application:

1. If the Department grants the request for an exclusion, it shall notify the applicant of that decision in writing within 90 days of receipt of the application. Such notice shall identify the facility covered, the conditions and requirements of the exclusion, including control measures, and that the exclusion may be terminated upon a finding that the water system has failed to comply with any conditions or requirements of the exclusion.
2. If the Department determines that an exclusion is not justified, it shall notify the applicant of the intention of denial within 90 days of receipt of the application, indicating the reasons for the proposed denial, and shall offer the applicant an opportunity to submit additional information to the Department within 30 days of the notice of intention to deny application. The Department shall make a final determination and notify the applicant within 30 days after receiving such additional information. If no additional information is submitted, the application shall be denied.

D. In addition to reviewing a request submitted by a water supplier, the Department may, on its own initiative, grant exclusions to water systems, either individually or on a group basis, if the exclusions meet criteria prescribed in subsection (A).

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-219 repealed; new Section renumbered from R18-4-112 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-220. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-220 renumbered without change as Section R18-4-220 (Supp. 87-3). Section repealed effective June 30, 1989 (Supp. 89-2). New Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-220 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-221. Renumbered

Historical Note

Former Section R9-8-221 repealed, new Section R9-8-221 adopted effective May 26, 1978 (Supp. 78-3). Correction, subsection (D), paragraph (2), subparagraph (b), drinking water standard for silvex, should read 0.01 mg/l as amended effective May 26, 1978 (Supp. 82-3). Amended subsection (D) effective November 2, 1982 (Supp. 82-6). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-221 renumbered without change as Section R18-4-221 (Supp. 87-3). Amended and new subsections (F) and (G) added effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-221 renumbered to R18-4-217 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-222. Renumbered

Historical Note

Former Section R9-8-222 repealed, new Section R9-8-222 adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-222 renumbered without change as Section R18-4-222 (Supp. 87-3). Amended and new subsections (C) and (D) added effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-222 renumbered to R18-4-218 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-223. Use of Bottled Water

A. A public water system may use bottled water on a temporary basis to avoid an unreasonable risk to health. A public water

system shall not use bottled water to achieve compliance with a MCL.

B. If a public water system uses bottled water to avoid an unreasonable risk to health, the public water system is responsible for the provision of sufficient quantities of bottled water to every person served by the public water system via door-to-door bottled water delivery.

C. A public water system that uses bottled water as a condition for receiving a variance or an exemption shall comply with the following:

1. The public water system shall develop and put in place a monitoring program approved by the Department that provides reasonable assurances that the bottled water meets applicable MCLs. The public water system shall monitor a representative sample of the bottled water to determine compliance with applicable MCLs during the first three-month period that it supplies the bottled water to the public and annually thereafter. Results of the bottled water monitoring program shall be provided to the Department annually; or
2. The public water system shall receive a certification from the bottled water company that the bottled water supplied has been taken from an "approved source" as defined in 21 CFR 129.3(a); the bottled water company has conducted monitoring in accordance with 21 CFR 129.80(g)(1) through (3); and the bottled water does not exceed any MCLs or quality limits as set out in 21 CFR 165.110, 21 CFR 110, and 21 CFR 129. The public water system shall provide the certification to the Department in the first quarter after it supplies bottled water and annually thereafter. The Department may waive the certification requirements prescribed in this subsection if an approved monitoring program is already in place in another state; and
3. The public water system is fully responsible for the provision of sufficient quantities of bottled water to every person served by the public water system via door-to-door bottled water delivery.

Historical Note

Former Section R9-8-223 repealed, new Section R9-8-223 adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended subsection (D), paragraph (4) effective November 2, 1982 (Supp. 82-6). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-223 renumbered without change as Section R18-4-223 (Supp. 87-3). Amended and a new subsection (F) added effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1).

R18-4-224. Renumbered

Historical Note

Former Section R9-224 repealed, new Section R9-8-224 adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-224 renumbered without change as Section R18-4-224 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Former Section R18-4-224 repealed effective August 8, 1991 (Supp. 91-3). New Section adopted effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-224 renumbered to R18-4-301 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-225. Renumbered

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-225 renumbered without change as Section R18-4-225 (Supp. 87-3). Former Section R18-4-224 repealed effective August 8, 1991 (Supp. 91-3). New Section adopted effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-225 renumbered to R18-4-304 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-226. Renumbered

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended subsection (B) effective January 6, 1984 (Supp. 84-1). Former Section R9-8-226 renumbered without change as Section R18-4-226 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Former Section R18-4-224 repealed effective August 8, 1991 (Supp. 91-3). New Section adopted effective December 8, 1998 (Supp. 98-4). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-226 renumbered to R18-4-305 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-227. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-3-227 renumbered without change as Section R18-4-227 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Former Section R18-4-224 repealed effective August 8, 1991 (Supp. 91-3).

R18-4-228. Repealed

Historical Note

Adopted effective June 30, 1989 (Supp. 89-2). Former Section R18-4-224 repealed effective August 8, 1991 (Supp. 91-3).

R18-4-229. Repealed

Historical Note

Adopted effective June 30, 1989 (Supp. 89-2). Former Section R18-4-224 repealed effective August 8, 1991 (Supp. 91-3).

R18-4-230. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-230 renumbered without change as Section R18-4-230 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-231. Repealed

Historical Note

Former Section R9-8-231 repealed, new Section R9-8-231 adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-231 renumbered without change as Section R18-4-231 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-232. Repealed

Historical Note

Former Section R9-8-232 repealed, new Section R9-8-232 adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-232 renumbered without change as Section R18-4-232 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-233. Repealed

Historical Note

Former Section R9-8-233 repealed, new Section R9-8-232 adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-233 renumbered without change as Section R18-4-233 (Supp. 87-3). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-234. Repealed

Historical Note

Former Section R9-8-234 repealed, new Section R9-8-234 adopted effective May 26, 1978 (Supp. 78-3). Amended effective Feb. 20, 1980 (Supp. 80-1). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-234 renumbered without change as Section R18-4-234 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-235. Repealed

Historical Note

Adopted effective January 6, 1984 (Supp. 84-1). Former Section R9-8-235 renumbered without change as Section R18-4-235 (Supp. 87-3). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-236. Repealed

Historical Note

Adopted effective January 6, 1984 (Supp. 84-1). Former Section R9-8-236 renumbered without change as Section R18-4-236 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-237. Repealed

Historical Note

Adopted effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-238. Repealed

Historical Note

Adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-239. Repealed

Historical Note

Adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-261 renumbered without change as Section R18-4-261 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-262. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-262 renumbered without change as Section R18-4-262 (Supp. 87-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-263. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-263 renumbered without change as Section R18-4-263 (Supp. 87-3). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-264. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended subsection (B) effective January 6, 1984 (Supp. 84-1). Former Section R9-8-264 renumbered without change as Section R18-4-264 (Supp. 87-3). Repealed effective June 30, 1989 (Supp. 89-2). New Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-265. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-265 renumbered without change as Section R18-4-265 (Supp. 87-3). Amended subsections (B) and (C) effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-266. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-266 renumbered without change as Section R18-4-266 (Supp. 87-3). Amended subsection (A) effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-267. Repealed

Historical Note

Adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-267 renumbered without change as Section R18-4-267 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-268. Repealed

Historical Note
Adopted effective May 26, 1978 (Supp. 78-3). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-268 renumbered without change as Section R18-4-268 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-269. Repealed

Historical Note
Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-269 renumbered without change as Section R18-4-269 (Supp. 87-3). Amended subsection (A) effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-270. Repealed

Historical Note
Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-270 renumbered without change as Section R18-4-270 (Supp. 87-3). Repealed effective June 30, 1989 (Supp. 89-2). New Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-271. Repealed

Historical Note
Adopted effective May 26, 1978 (Supp. 78-3). Former Section R9-8-271 renumbered without change as Section R18-4-271 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-272. Repealed

Historical Note
Adopted effective May 26, 1978 (Supp. 78-3). Amended subsections (A) and (D) effective January 6, 1984 (Supp. 84-1). Former Section R9-8-272 renumbered without change as Section R18-4-272 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

R18-4-273. Repealed

Historical Note
Adopted effective May 26, 1978 (Supp. 78-3). Amended effective August 7, 1979 (Supp. 79-4). Amended effective January 6, 1984 (Supp. 84-1). Former Section R9-8-273 renumbered without change as Section R18-4-273 (Supp. 87-3). Amended effective June 30, 1989 (Supp. 89-2). Section repealed, new Section adopted effective August 8, 1991 (Supp. 91-3). Repealed effective April 28, 1995 (Supp. 95-2).

Historical Note
Former Appendix 4 repealed, new Appendix 4 adopted effective January 6, 1984 (Supp. 84-1). Amended effective June 30, 1989 (Supp. 89-2). Repealed effective August 8, 1991 (Supp. 91-3).

Appendix 5. Repealed

Historical Note

Former Appendix 5 renumbered as Appendix 6, new Appendix 5 adopted effective November 2, 1982 (Supp. 82-6). Amended effective June 30, 1989 (Supp. 89-2). Repealed effective August 8, 1991 (Supp. 91-3).

Appendix 6. Repealed

Historical Note

Former Appendix 5 renumbered as Appendix 6 effective November 2, 1982 (Supp. 82-6). Former Appendix 6 repealed, new Appendix 6 adopted effective January 6, 1984 (Supp. 84-1). Amended effective June 30, 1989 (Supp. 89-2). Repealed effective August 8, 1991 (Supp. 91-3).

Appendix 7. Repealed

Historical Note

Adopted effective June 30, 1989 (Supp. 89-2). Repealed effective August 8, 1991 (Supp. 91-3).

ARTICLE 3. MONITORING ASSISTANCE PROGRAM

R18-4-301. Applicability

A. A public water system that serves 10,000 or fewer persons shall participate in the monitoring assistance program. Within 60 days after receiving notice of participation in the monitoring assistance program from the Department, a public water system that determines that it serves more than 10,000 persons shall substantiate its determination by submitting to the Department the portion of the most recent census provided by the Arizona Department of Economic Security, Research Administration, Population Statistics Unit that supports the public water system's determination.

B. A public water system that is not obligated to participate in the monitoring assistance program may elect to participate in the monitoring assistance program if the owner of the public water system:

1. Notifies the Department in writing of the public water system's intention to participate in the monitoring assistance program,
2. Agrees to participate in the monitoring assistance program for a minimum of three years, and
3. Pays the fees required by R18-4-304. Subject to payment of the required fees, the public water system's participation shall begin at the start of the next full calendar year of a compliance period.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-301 repealed; new Section renumbered from R18-4-224 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-301.01. Renumbered

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 1686, effective April 19, 1999 (Supp. 99-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-301.01 renumbered to R18-4-212 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3)

Table 1. Renumbered

Historical Note

New Table made by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Table 1 following R18-4-301.01 renumbered to R18-4-212, Table 1 by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-301.02. Repealed

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-301.02 and Tables 1 and 2 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-302. Contractor Responsibilities

A. Under the monitoring assistance program, a contractor is authorized to collect, transport, analyze, and report water samples on behalf of a participating public water system. The contractor or a party designated by the contractor shall conduct baseline monitoring for all chemicals for which the system is required to monitor under this Chapter, except for copper, lead, disinfection byproducts, and microbiological contaminants, which remain the responsibility of the public water system. Baseline monitoring includes routine monitoring for contaminants included in the monitoring assistance program. Baseline monitoring does not include increased monitoring required by this Chapter when the results of baseline monitoring indicate the presence of a contaminant at a level that requires increased monitoring by a participating public water system.

B. A contractor shall deliver copies of monitoring analysis results to the public water system and to the Department.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-302 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-303. Public Water System Responsibilities

A. Although a contractor performs baseline monitoring when a public water system participates in the monitoring assistance program, the public water system remains legally responsible for compliance with all other requirements of this Chapter.

B. The legal owner of a public water system participating in the monitoring assistance program shall notify the Department by July 1 of each year of:

1. The legal owner's name, current mailing address, and phone number;
2. The population currently served by the public water system;
3. The public water system identification number; and
4. The number of meters and service connections currently in the public water system.

C. A public water system that participates in the monitoring assistance program shall not deny a contractor access to or restrict a contractor's access to the public water system or prevent a contractor from collecting a sample covered under the monitoring assistance program.

D. Direct reporting. A public water system may contract with a laboratory or another agent to report monitoring results to the Department, but the public water system remains legally responsible for compliance with reporting requirements.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-303 repealed; new Section made by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-304. Fees for the Monitoring Assistance Program

A. The Department shall assess, and a public water system participating in the monitoring assistance program shall pay, the following annual fees, subject to adjustments referenced in subsection (B):
1. An annual fee of $250, and
2. A unit fee of $2.57 per meter or service connection.

B. If the monitoring assistance fund has a surplus after execution of the previous year's contract, any surplus in excess of $200,000 in any year shall be used to reduce future fees for public water systems that paid annual fees in the previous compliance period, in a manner consistent with the program invoicing system. In the first compliance period that a public water system participates in the monitoring assistance program, the public water system shall pay the full amount of annual fees due under this Section, and is not entitled to a fee reduction resulting from a surplus in the monitoring assistance fund from a prior compliance period.

C. If a public water system serving 10,000 or fewer persons at the beginning of a compliance period increases service during the compliance period so that the public water system serves more than 10,000 persons annually, the public water system may elect to cease participation in the monitoring assistance program under the following conditions:
1. If the monitoring assistance program has already conducted monitoring for the public water system during the compliance period, the public water system shall remain in the monitoring assistance program, and pay annual fees, for the remainder of the compliance period.
2. If the monitoring assistance program has not conducted monitoring for the public water system during the compliance period, the public water system may cease participating in the monitoring assistance program, and if so, the Department shall refund any monitoring fees paid by the public water system during the compliance period.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-304 repealed; new Section renumbered from R18-4-225 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-305. Collection and Payment of Fees

A. The Department shall annually mail an invoice for fees to the legal owner of a public water system participating in the monitoring assistance program. The owner of the public water system shall pay the invoiced amount to the Department, at the address listed on the invoice, by the due date indicated on the invoice.

B. The Department shall make refunds or billing corrections if a public water system demonstrates an error in the amount billed. The owner of a public water system shall send a written request for a refund or correction to the Department, at the address on the invoice, within 90 days of the invoice date.

C. The Department may verify the number of meters and service connections of a participating public water system.

D. The Department shall not waive fees prescribed by R18-4-304.

E. The owner of a public water system that fails to pay fees assessed by the Department in a timely manner shall be subject to the penalties listed in A.R.S. § 49-354. Failure to notify the Department of the owner's current mailing address does not relieve the owner of a public water system from liability for penalties.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Section R18-4-305 renumbered to R18-4-306 by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). New Section R18-4-305 renumbered from R18-4-226 and amended by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-306. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Former Section R18-4-306 repealed; new Section R18-4-306 renumbered from R18-4-305 and amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-307. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-308. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-309. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-310. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-311. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-312. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-313. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-314. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-315. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-316. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-317. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

Table 1. Repealed

Historical Note

Table 1 adopted by final rulemaking at 5 A.A.R. 1686, effective April 19, 1999 (Supp. 99-2). Table repealed by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1).

Appendix A. Repealed

Historical Note

New Appendix made by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Appendix A repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

Appendix B. Repealed

Historical Note

New Appendix made by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Appendix B repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

ARTICLE 4. OTHER SAFE DRINKING WATER ACT REGULATIONS

R18-4-401. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective December 8, 1998 (Supp. 98-4). Former Section R18-4-401 repealed; new Section R18-4-401 renumbered from R18-4-402 and amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-402. Use of Lead Free Pipes, Fittings, Fixtures, Solder, and Flux for Drinking Water – 40 CFR 143, Subpart B

40 CFR 143, Subpart B (40 CFR 143.10 through 143.20) revised as of July 1, 2021 and published by the Office of the Federal Register, National Archives and Records Administration is incorporated by reference. This rule does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the U.S. Government Publishing Office, bookstore.gpo.gov, P.O. Box. 979050, St. Louis, MO 63197-9000.

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended effective December 8, 1998 (Supp. 98-4). Former Section R18-4-402 renumbered to R18-4-401; new Section R18-4-402 renumbered from R18-4-403 and amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3). New Section made by final expedited rulemaking at 29 A.A.R. 1472 (June 30, 2023), with an immediate effective date of June 7, 2023 (Supp. 23-2).

R18-4-403. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Section repealed; new Section adopted effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 7 A.A.R. 5067, effective October 16, 2001 (Supp. 01-4). Section R18-4-403 renumbered to R18-4-402 by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). New Section made by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-404. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective December 8, 1998 (Supp. 98-4). Section repealed by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1).

R18-4-405. Repealed

Historical Note

Adopted effective April 28, 1995 (Supp. 95-2). Amended effective December 8, 1998 (Supp. 98-4). Section repealed by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1).

ARTICLE 5. RECODIFIED

Article 5 recodified to 18 A.A.C. 5, Article 5 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-501. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Section recodified to R18-5-501 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-502. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). A.R.S. citation in subsection (D)(4) corrected (Supp. 04-1). Section recodified to R18-5-502 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-503. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section recodified to R18-5-503 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-504. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended effective June 3, 1998 (Supp. 98-3). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section recodified to R18-5-504 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-505. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Subsection citation in subsection (B) corrected (Supp. 04-1). Section recodified to R18-5-505 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-506. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section recodified to R18-5-506 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-507. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section recodified to R18-5-507 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-508. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section recodified to R18-5-508 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-4-509. Recodified

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section recodified to R18-5-509 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

Appendix A. Repealed

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Correction of word "sued" to "used" in subsection (71) (Supp. 96-1). Appendix A amended effective June 3, 1998 (Supp. 98-3). Appendix A repealed by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1).

Appendix B. Repealed

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Appendix B repealed; new Appendix B renumbered from Appendix C without change effective June 3, 1998 (Supp. 98-3). Appendix B repealed by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1).

Appendix C. Renumbered

Historical Note
Adopted effective April 28, 1995 (Supp. 95-2). Appendix C renumbered to Appendix B without change effective June 3, 1998 (Supp. 98-3).

ARTICLE 6. CAPACITY DEVELOPMENT REQUIREMENTS FOR A NEW PUBLIC DRINKING WATER SYSTEM

R18-4-601. Applicability

This Article applies to new CWSs and new NTNCWSs that begin operation on or after October 1, 1999. This Article does not apply to an existing public water system.

Historical Note
New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

R18-4-602. Elementary Business Plan

A. To become a new public water system, an owner shall file an elementary business plan for review and approval by the Department, on a form provided by the Department. The elementary business plan shall meet the requirements of and contain all information required in R18-4-603, R18-4-604, and R18-4-605.

B. An owner shall not commence operation of a public water system without Department approval under R18-4-606.

C. If the owner of a new public water system fails to submit a complete application, the Department shall suspend the review process and send a notice of incomplete elementary business plan to the owner. The owner shall submit the missing information to the Department within 60 days of the date of the notice of incomplete elementary business plan. If missing information is not received at the Department within the 60 day time period, the Department shall deny the elementary business plan and return the elementary business plan to the owner.

Historical Note
New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4

(Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

R18-4-603. Technical Capacity Requirements

An owner of a new public water system shall submit the following to the Department for a determination of technical capacity:

1. Documentation of a drinking water source adequacy minimum of 50 gallons of water per person per day for a period of 100 years, a 100 year water availability designation from the Arizona Department of Water Resources (ADWR), or a Certificate of Assured Water Supply from ADWR;
2. Documentation that the drinking water served to the public will meet the safe drinking water standards of this Chapter;
3. Documentation that infrastructure, treatment, and storage design meets the requirements of this Chapter, Articles 2, 3, and 5;
4. Documentation that the public water system is operated by a certified operator of the sufficient grade and type; and
5. Documentation that contains at least the following:
   a. Day 1 to final build-out technical and engineering needs projections;
   b. Proposed water system design specification and proposed uses including commercial and domestic use phases;
   c. Information describing the life of the plant;
   d. A demonstration that all site-specific components meet nationally recognized standards, such as those established by the American Water Works Association, National Sanitation Foundation, or Underwriter's Laboratory;
   e. Manufacturers' specifications on components used in the construction of the water system; and
   f. Corrective action plan to address site-specific component replacement or repair protocols based on manufacturer's recommendations or engineer's specification.

Historical Note

New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

R18-4-604. Managerial Capacity Requirements

An owner of a new public water system shall submit the following information as part of the elementary business plan to the Department for a determination of managerial capacity:

1. A statement of how the public water system is owned, such as by major stockholders, board of directors, sole proprietor cooperative, governmental agency or district, corporation, limited partnership, or limited liability corporation;
2. Name, address, and phone number of owner;
3. Organizational chart of the new public water system;
4. Staff job descriptions and responsibilities;
5. Water system capital improvement plan up to the proposed full system build-out or for a five-year projection, whichever is greater;
6. Certified operator grade and type that will be required by the new public water system, based upon water system design specifications;
7. A statement of the intent to create a CWS or NTNCWS and any intent to transfer ownership of the public water system as part of the construction plan or project phase build-out;
8. Method to ensure provision of information listed in Appendix B, item 4 to subsequent owners; and
9. A disclosure statement signed by the owner setting forth the owner's responsibility to comply with the requirements of this Article and to disclose all information relevant to the operation of the public water system upon transfer of ownership as outlined in Appendix B.

Historical Note

New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

R18-4-605. Financial Capacity Requirements

An owner of a new public water system shall submit information for a five-year financial capacity plan, or a financial capacity plan to the end of the build-out phase, whichever is longer, that demonstrates financial capacity and documents or contains all of the information listed in Appendices C and D.

Historical Note

New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

R18-4-606. Review, Approval, Denial Process

A. The Department shall review and evaluate technical capacity, based upon the requirements in R18-4-603 and Appendix A.

B. The Department shall review and evaluate managerial capacity, based upon the requirements in R18-4-604 and Appendix A.

C. The Department shall accept a financial determination made by the Arizona Corporation Commission (ACC) as meeting the financial capacity requirements contained in this Article for a new CWS or new NTNCWS under the jurisdiction of the ACC. The applicant shall submit documentation to the Department that verifies ACC approval of the public water system's financial capacity.

D. The Department shall accept a financial determination as set forth in the certificate of assured water supply from the Arizona Department of Water Resources, Active Management Area Program (ADWR) as meeting the financial capacity requirements contained in this Article for a new CWS or new NTNCWS. The owner shall submit documentation to the Department that verifies ADWR approval of its financial capacity.

E. If a new public water system does not fall under financial review jurisdiction of the ACC or ADWR, the new CWS or new NTNCWS shall submit to the Department for review a completed financial capacity portion of the elementary business plan. The Department shall review and evaluate financial capacity, based upon the requirements in R18-4-605 and Appendices A, C, and D.

F. The Department shall notify an owner of a new public water system in writing of a deficiency in the elementary business plan or approve or deny the elementary business plan within 90 days of a receipt of a complete elementary business plan. The owner shall have 60 days from the date of a notice of defi-

ciency to submit to the Department the information necessary to correct the deficiency in the elementary business plan. If the owner of the new public water system fails to send the requested information so that it is received by the Department within 60 days of the date of the notice of deficiency, the Department shall deny the elementary business plan and return it to the owner with a written explanation for the denial and information on the appeal process.

G. If an owner modifies technical or managerial specifications at any time between the approval to construct and the approval of construction, the owner shall notify the Department of the need to modify the elementary business plan in the technical, managerial, and financial capacity documentation. The Department shall revoke approval of the elementary business plan if the owner fails to notify the Department within 30 days of a modification.

Historical Note

New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

R18-4-607. Appeals

An owner may appeal denial of an elementary business plan under A.R.S. § 41-1092 et seq.

Historical Note

New Section adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

Appendix A. Elementary Business Plan Checklist

Elementary Business Plan Checklist

Technical Capacity	Yes	No	N/A
1. Source Adequacy - Does the documentation demonstrate 50 gallons of water per person per day for 100 years or does the system have an Arizona Department of Water Resources Certificate of assured water supply?	_____	_____	_____
2. Source Adequacy - Does the source approval information demonstrate that the source meets drinking water quality standards or have applicable drinking water technologies been described?	_____	_____	_____
3. Infrastructure - Do the design criteria meet the requirements of R18-4-502 through R18-4-509?	_____	_____	_____
4. Treatment - Do the design criteria include treatment technologies approved by ADEQ in 18 A.A.C. 4, Articles 2, 3, and 5?	_____	_____	_____
5. Does the system have a certified operator of the appropriate grade and type?	_____	_____	_____
6. Does the documentation include an elementary business plan containing technical and engineering needs projections for a time period covering day 1 to final build-out or for a five-year time period, which ever is greater?	_____	_____	_____
7. Does the documentation include the proposed water system design specifications and proposed uses including commercial and domestic use phases?	_____	_____	_____
8. Does the documentation include an elementary business plan containing the information on the components used in the design and construction of the system along with the components life span based upon manufacturer's specifications?	_____	_____	_____
9. Does the documentation include an Operations and Maintenance Plan that contains standards that are nationally recognized on all site-specific components, such as American Water Works Association, National Sanitation Foundation, or Underwriter's Laboratory?	_____	_____	_____
10. Does the documentation include an operation and maintenance plan with the manufacturer's specifications on all components used in the construction of the water system?	_____	_____	_____
11. Does the documentation include an operations and maintenance plan and emergency operation plan to address site-specific component replacement or repair protocols based on manufacturer's recommendations or engineer's specifications?	_____	_____	_____
Managerial Capacity	Yes	No	N/A
12. Does the documentation include ownership type?	_____	_____	_____
Select all that apply.			
Sole Proprietor	_____	_____	_____
Major Stockholders	_____	_____	_____
Board of Directors	_____	_____	_____
Cooperative	_____	_____	_____
Government Agency or District	_____	_____	_____
Corporation	_____	_____	_____
Limited Liability Corporation	_____	_____	_____
Partnership	_____	_____	_____
Other_____	_____	_____	_____
13. Does the documentation include name, address, and telephone number of owner?	_____	_____	_____
14. Does the documentation include an organizational chart of owners, management, and staff with their position or job titles?	_____	_____	_____
15. Does the documentation include staff job descriptions and responsibilities?	_____	_____	_____
16. Does the documentation include a capital improvement plan up to the proposed full system build-out or for a five-year projection, whichever is greater?	_____	_____	_____
17. Does the documentation identify the grade and type of certified operator that will be needed to operate the system according to site-specific components?	_____	_____	_____
18. Does the documentation identify the intent to create a CWS or NTNCWS?	_____	_____	_____
19. Does the documentation transfer the ownership of the water system as part of the build-out phase of the project?	_____	_____	_____
20. Does the documentation identify the policies or mechanisms to ensure that all system-specific technical, managerial, and financial information of the water system is transferred to a new owner?	_____	_____	_____
21. Does the documentation include the owner's signed disclosure statement agreeing to comply with the requirements of these Articles and a general disclosure statement agreeing to disclose all information relevant to the operation of the water system to any transferee of ownership? (See Appendix B).	_____	_____	_____

Financial Capacity	Yes	No	N/A
22. Is the system regulated by the Arizona Corporation Commission (ACC) or ADWR? If Yes go to Question 23. If No go to Question 25.	_____	_____	_____
23. Has the system received an approval from the ACC on its fee structure, or ADWR on its financial capacity?	_____	_____	_____
24. Systems regulated by the Arizona Corporation Commission or Department of Water Resources shall provide information required in 22 and 23 for the financial capacity determination review by ADEQ.	_____	_____	_____
25. For New CWSs and NTNCWS NOT regulated by ACC, is all information listed in Appendices C and D included?	_____	_____	_____

Historical Note

Appendix A adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

Appendix B. Drinking Water Capacity Development Statement of Responsibility

Drinking Water Capacity Development Statement of Responsibility

Applicant Information:

Name:

Mailing Address:

Phone Number: **Fax Number:** **E-mail:**

Statement Information:

1) Name of Water System:_____PWS ID#_____

2) Ownership Type (Please check all that apply):

____Sole Proprietor ___Major Stockholders ___Board of Directors
____Cooperative ___Government Agency ___District
____Public Entity ___Corporation ___Limited Liability Corporation
____Other (please explain) _____

3) Name of Owner(s): (Check one) See below Attach a separate sheet if more space is needed

Owner 1:

Owner 2:

Owner 3:

4) Agencies with rules applicable to the Water System: (Please check all that apply)

____Arizona Department of Environmental Quality
____Arizona Department of Water Resources
____Arizona Department of Commerce
____Arizona Department of Corrections
____Arizona Land Department
____Arizona Department of Transportation
____Pima County Department of Environmental Quality
____Arizona Corporation Commission
____Arizona Department of Real Estate
____Arizona Department of Agriculture
____Office of the Fire Marshal
____Arizona Department of Revenue
____Maricopa County Environmental Services
____Environmental Protection Agency Region IX
____Other(s) please specify_____

page 1 of 2

5) Statement of Intent (Select one):

____It **IS** the intent of the owner or developer of this NEW CWS or NEW NTNCWS to transfer ownership of the water system. As part of the ownership transfer, it is understood that the owner or developer has a responsibility to disclose and transfer ALL information relevant to the construction and operation of the water system to the new owner.
____It is **NOT** the intent of the owner to transfer ownership of the NEW CWS or NTNCWS within one year of the completion of construction of the water system.

6) Date owner expects to begin operation:

Month_____ Day _____ Year_____

7) Drinking Water Sources used: (Select all that apply)

____Ground Water ____Purchased Ground Water
____Surface Water ____Purchased Surface Water

8) Table of Contents of Systems Elementary Business Plan (Please check one):

____The Table of Contents of the Elementary Business Plan is attached.
____The Table of Contents of the Elementary Business Plan is summarized below.
Summary_____
_____
_____

9) Signature of each current owner: Check if additional signature page is attached.____

I agree to comply with the requirements of 18 A.A.C. 4, Article 6.

Appendix C. (Continued) Financial Capacity for New CWSs and NTNCWSs, Definitions for Worksheet 1

Arizona Financial Capacity For New CWSs and NTNCWSs Definitions for Worksheet 1

5-Year Financial Projection	Year 1 Projection	Year 2 Projection	Year 3 Projection	Year 4 Projection	Year 5 Projection
1. Beginning Cash on Hand	For the current year budget, use the actual cash balance. For all other years, cash on hand should equal item #12 from the previous period.				
a) Unmetered Water Revenue	All cash received or estimated for water supplied to residential, commercial, industrial and public customers where the customer charge is not based on quantity, but is based on other criteria such as diameter of service pipe, room, or foot of frontage.				
b) Metered Water Revenue	All cash received or estimated for water supplied to residential, commercial, industrial, and public customers where the charge is based on quantity of water delivered.				
c) Other water revenues	Other cash received or estimated from sales of water, sales for irrigation, sales for resale, inter-municipal sales, or ad valorem taxes.				
d) Total Water Revenues	Total 1(a) thru 1(c)				
e) Connection Fee	All cash received or estimated for connection of customer service during the year.				
f) Interest and Dividend Income	All cash received or estimated on interest income from securities, loans, notes, and similar instruments, whether the securities are carried as investments or included in sinking or reserve accounts.				
g) Other income	Other revenues collected or estimated during the period (such as disconnection or change in service fees, profit on materials billed to customers, servicing of customer lines, late payment fees, rents, sales of assets, or ad valorem taxes (infrastructure portion).				
h) Total Cash Revenues	**Add 1(d) thru 1(g)**				
i) Additional Revenues Needed	Additional cash needed to cover cash needs.				
j) Loans, Grants or other Cash Injections	Includes loans or grants from financial institutions, inter-municipal loans, state or federal sources.				
2. Total Cash Balance	**Add items 1(h) thru 1(j)**				
3. Total Cash Available	**Add items 1 and 2**				
4. Operating Expenses	Use actual amounts paid when completing the prior year. Estimate the amounts for projected years based on prior year amounts, trends, and other known variables.				
a) Salaries and wages	Cash expenditures made or estimated for salaries, bonuses, and other considerations for work related to the operation and maintenance of the facility, including administration and compensation for officers and directors.				
b) Employee Pensions and Benefits	Paid vacations, paid sick leave, health insurance, unemployment insurance, pension plan, and other similar liabilities.				
c) Utilities	Amounts paid or estimated for all fuel or electrical power.				
d) Chemicals	Amounts paid or estimated for chemicals used in treatment and distribution.				
e) Materials and Supplies	Amounts paid or estimated for materials and supplies used for operation and maintenance of the new public water system other than those under contractual services.				

f) Laboratory	Amounts paid or estimated for laboratory and associated services.
g) Contractual Services	Amounts paid or estimated for outside engineering, accounting, legal, managerial, and other services.
h) Insurance	Amounts paid or estimated for vehicle, liability, worker's compensation, and other insurance associated with the public water system.
i) Miscellaneous	Amounts paid or estimated for all expenses not included elsewhere (such as permit fees, training, and certification fees).
j) Total operation and maintenance expenditures	**Add amounts in lines 4(a) thru 4(i).**
k) Replacement expenditures	Amounts paid or estimated for replacement of equipment to maintain system integrity (capital improvement plan).
l) Total Operations and Maintenance expenditures plus Replacement expenditures	**Add amounts in 4(j) and 4(k)**
m) Loan Principal, Capital Lease or Loan payment	Include cash payments made or estimated for principal and interest on all loans, including vehicle loans and equipment on time payments, and capital lease payments.
n) Loan Interest payments	Include cash payments made or estimated for interest on all loans, including vehicle loans, and equipment on time payments, and capital lease payments.
o) Capital Purchases	Amount of cash outlays or estimates for items such as equipment, building, or vehicle purchases and leasehold improvements that were not a part of the initial design of the water system.
5) Total Cash Paid Out	**Add amounts in 4(m) thru 4(o)**
6) Total Cash Available Minus Expenditures Calculation	**Take Amount in 1 and subtract Amount in 5.** If this amount is positive, there is operating cash left over after all calculated expenditure obligations have been met. If the number is negative, there are more expenses than there are funds available to pay for the expenses to operate the water system.
7) Number of Customer Accounts	Use most recent system data or expected increases.
8) Average User Charge per Customer	**Take amount listed in 1(d) and divide it by amount listed in 7.**
9) Coverage Ratio	**Take amount in 1(h) and subtract the amount in 4(l). Then divide that amount with the sum of 4(m) + 4(n).** The equation looks like this: **[1(h) - 4(l)]) [4(m) + 4(n)]** and measures the sufficiency of net operating profit to cover the debt service requirements of the system. A bond covenant might require the debt service to meet or exceed certain limits.
10) Operating Ratio	**Take amount in 1(d) and divide it by the amount in 4(l). The equation looks like this: 1(d)) 4(l).** This figure measures whether operating revenues are sufficient to cover operation, maintenance, replacement expenses. An operating ratio of 1:0 is the minimum for a self-supporting facility. If there are debt service requirements, the operating ratio would have to be higher.
11) End of Year Operating Cash	All non-reserved cash. **Add amounts from 6 thru 12.**
12) End of Year Reserves	Do not include depreciation as a reserve unless there is actually a designated depreciation reserve containing cash set aside for future expansion.

a) Operating Cash Reserve	Funds set aside to meet cash flow, operating, and seasonal fluctuations.
b) Debt Service Reserve	Funds specifically set aside to retire debt as it is scheduled.
c) Capital Improvement Reserve	Funds specifically set aside to meet long-term objectives for a major facility expansion, improvement, or the construction of a new facility.
d) Replacement Reserves	Funds specifically set aside for the future replacement of equipment needed to maintain the integrity of the facility over the useful life of the equipment.
e) Total End of Year Reserves	**Add amounts 12 (a) thru 12 (d).**

Historical Note

Appendix C adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999 (Supp. 99-4).

Appendix D. Water System Financial Viability Tests

Water System Financial Viability Tests

Test 1: Will the proposed water system collect sufficient revenues to meet all of its projected expenses?

Measurements:

a. Total Revenues - Total Expenses = Net Income > 0

b. Total Revenues - One-Time Revenues - Interest Income - Other Income = Operating Revenues

c. Total Expenses - One-Time Expenditures - Debt Service - Capital Outlays = Operating Expenditures

d. Operating Revenues - Operating Expenses = Net Revenues > 0

e. Operating Ratio = Operating Expenses ≤ 1 Operating Revenues

Test 2: Will the proposed water system generate reserves?

The following measurements shall be > 0 at the time submitted:

a. Operating Cash Reserve = $_____

b. Replacement Reserve = $_____

c. Working Capital = Current Assets - Current Liabilities

Test 3: Are the proposed rates reasonable compared to the median household income of the area to be served?

The following measurement shall be:

Average Annual Rates < Median Household Income* x 2.5%.

* The sources of median household income data include the most recent United States Census Bureau (USCB) data collected by the Department or generated by an impartial third party experienced in collecting income data and supplied to the Department by the applicant seeking viability determinations. Acceptable sources of income data, other than USCB data include feasibility studies, engineering reports, market studies, income surveys, or another source or collection methodology approved by the Department.

Historical Note

Appendix D adopted by final rulemaking effective September 23, 1999; the A.A.R. citation was not available at the time of publication and will appear in Supp. 99-4 (Supp. 99-3). Amended by final rulemaking at 5 A.A.R. 4456, effective September 23, 1999; Test 1(e) amended to correct a manifest clerical error (Supp. 99-4).

ARTICLE 7. REPEALED

R18-4-701. Repealed

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Section R18-4-701 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-702. Repealed

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Section R18-4-702 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-703. Repealed

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-703 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-704. Repealed

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Clarifying words “of Article 1” added to subsection (A)(1) (Supp. 04-1). Section R18-4-703 and Table 1 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-705. Repealed

Historical Note
New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-705 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-706. Repealed

Historical Note
New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-706 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-707. Repealed

Historical Note
New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-707 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-708. Repealed

Historical Note
New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Section R18-4-708 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-709. Repealed

Historical Note
New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Amended by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3). Section R18-4-709 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-710. Repealed

Historical Note
New Section adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Section R18-4-710 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

Appendix A. Repealed

Historical Note
New Appendix adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Appendix A repealed by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3).

Appendix B. Repealed

Historical Note
New Appendix adopted by final rulemaking at 6 A.A.R. 2019, effective May 10, 2000 (Supp. 00-2). Former Appendix B renumbered to Appendix C; new Appendix B made by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Appendix B repealed by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3).

Appendix C. Repealed

Historical Note
New Appendix C renumbered from Appendix B by final rulemaking at 8 A.A.R. 973, effective February 19, 2002 (Supp. 02-1). Appendix C repealed by final rulemaking at 8 A.A.R. 3046, effective May 1, 2002 (Supp. 02-3).

ARTICLE 8. TECHNICAL ASSISTANCE

R18-4-801. Repealed

Historical Note
New Section made by final rulemaking at 8 A.A.R. 262, effective December 27, 2001 (Supp. 01-4). Section R18-4-801 repealed by final rulemaking at 14 A.A.R. 2978, effective August 30, 2008 (Supp. 08-3).

R18-4-802. Technical Assistance Plan
The Department shall include a technical assistance plan in the capacity development report it publishes annually. The technical assistance plan shall include a description of the types of technical assistance the Department expects to provide, the sources and uses of technical assistance, and a master priority list.

Historical Note
New Section made by final rulemaking at 8 A.A.R. 262, effective December 27, 2001 (Supp. 01-4).

R18-4-803. Master Priority List

A. Each year the Department shall develop a master priority list that ranks public water systems according to their need for technical assistance.

B. The Department shall rank public water systems on the master priority list based on consideration of the following criteria:
1. Size of population served,
2. Type of public water system,
3. Type of ownership,
4. Water source (surface water or ground water),
5. Participation in the monitoring assistance program,
6. History of major monitoring or reporting deficiencies,
7. History of acute or non-acute MCL violations,
8. History of operation or maintenance violations,
9. Lack of a certified operator,
10. Prior assistance from the Department or the Water Infrastructure Finance Authority within the last five years, and
11. Any or other measurable objective criteria related to the technical, managerial, or financial capacity of a public water system.

C. If all other criteria are equal, the Department shall assign priority to public water systems with the most operation or maintenance violations.

D. The Department shall publish the master priority list annually in the Arizona Administrative Register and hold an oral proceeding to obtain public comment on the master priority list.

Historical Note
New Section made by final rulemaking at 8 A.A.R. 262, effective December 27, 2001 (Supp. 01-4).

R18-4-804. Technical Assistance Awards

A. The Department shall award technical assistance to the public water systems with the highest ranking on the master priority list, as funding permits.

B. The Department may provide technical assistance directly, or the Department may employ a consultant to provide the assistance.

C. If a public water system refuses technical assistance offered by the Department, or the Department determines that a public water system is not able to proceed with technical assistance within the next fiscal year, the Department shall bypass the public water system on the master priority list. The Department shall replace a bypassed public water system with the public water system next in line to receive technical assistance in accordance with the priority criteria in R18-4-803(B).

Historical Note

New Section made by final rulemaking at 8 A.A.R. 262, effective December 27, 2001 (Supp. 01-4).

49-104. Powers and duties of the department and director

A. The department shall:

1. Formulate policies, plans and programs to implement this title to protect the environment.

2. Stimulate and encourage all local, state, regional and federal governmental agencies and all private persons and enterprises that have similar and related objectives and purposes, cooperate with those agencies, persons and enterprises and correlate department plans, programs and operations with those of the agencies, persons and enterprises.

3. Conduct research on its own initiative or at the request of the governor, the legislature or state or local agencies pertaining to any department objectives.

4. Provide information and advice on request of any local, state or federal agencies and private persons and business enterprises on matters within the scope of the department.

5. Consult with and make recommendations to the governor and the legislature on all matters concerning department objectives.

6. Promote and coordinate the management of air resources to ensure their protection, enhancement and balanced utilization consistent with the environmental policy of this state.

7. Promote and coordinate the protection and enhancement of the quality of water resources consistent with the environmental policy of this state.

8. Encourage industrial, commercial, residential and community development that maximizes environmental benefits and minimizes the effects of less desirable environmental conditions.

9. Ensure the preservation and enhancement of natural beauty and man-made scenic qualities.

10. Provide for the prevention and abatement of all water and air pollution including that related to particulates, gases, dust, vapors, noise, radiation, odor, nutrients and heated liquids in accordance with article 3 of this chapter and chapters 2 and 3 of this title.

11. Promote and recommend methods for the recovery, recycling and reuse or, if recycling is not possible, the disposal of solid wastes consistent with sound health, scenic and environmental quality policies. The department shall report annually on its revenues and expenditures relating to the solid and hazardous waste programs overseen or administered by the department.

12. Prevent pollution through regulating the storage, handling and transportation of solids, liquids and gases that may cause or contribute to pollution.

13. Promote the restoration and reclamation of degraded or despoiled areas and natural resources.

14. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

15. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

16. Unless specifically authorized by the legislature, ensure that state laws, rules, standards, permits, variances and orders are adopted and construed to be consistent with and not more stringent than the corresponding federal law that addresses the same subject matter. This paragraph does not adversely affect standards adopted by an Indian tribe under federal law.

17. Provide administrative and staff support for the oil and gas conservation commission.

B. The department, through the director, shall:

1. Contract for the services of outside advisers, consultants and aides reasonably necessary or desirable to enable the department to adequately perform its duties.

2. Contract and incur obligations reasonably necessary or desirable within the general scope of department activities and operations to enable the department to adequately perform its duties.

3. Use any medium of communication, publication and exhibition when disseminating information, advertising and publicity in any field of its purposes, objectives or duties.

4. Adopt procedural rules that are necessary to implement the authority granted under this title but that are not inconsistent with other provisions of this title.

5. Contract with other agencies, including laboratories, in furthering any department program.

6. Use monies, facilities or services to provide matching contributions under federal or other programs that further the objectives and programs of the department.

7. Accept gifts, grants, matching monies or direct payments from public or private agencies or private persons and enterprises for department services and publications and to conduct programs that are consistent with the general purposes and objectives of this chapter. Monies received pursuant to this paragraph shall be deposited in the department fund corresponding to the service, publication or program provided.

8. Provide for the examination of any premises if the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed on the premises. The director shall give the owner or operator the opportunity for its representative to accompany the director on an examination of those premises. Within forty-five days after the date of the examination, the department shall provide to the owner or operator a copy of any report produced as a result of any examination of the premises.

9. Supervise sanitary engineering facilities and projects in this state, authority for which is vested in the department, and own or lease land on which sanitary engineering facilities are located, and operate the facilities, if the director determines that owning, leasing or operating is necessary for the public health, safety or welfare.

10. Adopt and enforce rules relating to approving design documents for constructing, improving and operating sanitary engineering and other facilities for disposing of solid, liquid or gaseous deleterious matter.

11. Define and prescribe reasonably necessary rules regarding the water supply, sewage disposal and garbage collection and disposal for subdivisions. The rules shall:

(a) Provide for minimum sanitary facilities to be installed in the subdivision and may require that water systems plan for future needs and be of adequate size and capacity to deliver specified minimum quantities of drinking water and to treat all sewage.

(b) Provide that the design documents showing or describing the water supply, sewage disposal and garbage collection facilities be submitted with a fee to the department for review and that no lots in any subdivision be offered for sale before compliance with the standards and rules has been demonstrated by approval of the design documents by the department.

12. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious conditions at those places. The rules shall prescribe minimum standards for the design of and for sanitary conditions at any public or semipublic swimming pool or bathing place and provide for abatement as public nuisances of premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of health services and shall be consistent with the rules adopted by the director of the department of health services pursuant to section 36-136, subsection I, paragraph 10.

13. Prescribe reasonable rules regarding sewage collection, treatment, disposal and reclamation systems to prevent the transmission of sewage borne or insect borne diseases. The rules shall:

(a) Prescribe minimum standards for the design of sewage collection systems and treatment, disposal and reclamation systems and for operating the systems.

(b) Provide for inspecting the premises, systems and installations and for abating as a public nuisance any collection system, process, treatment plant, disposal system or reclamation system that does not comply with the minimum standards.

(c) Require that design documents for all sewage collection systems, sewage collection system extensions, treatment plants, processes, devices, equipment, disposal systems, on-site wastewater treatment facilities and reclamation systems be submitted with a fee for review to the department and may require that the design documents anticipate and provide for future sewage treatment needs.

(d) Require that construction, reconstruction, installation or initiation of any sewage collection system, sewage collection system extension, treatment plant, process, device, equipment, disposal system, on-site wastewater treatment facility or reclamation system conform with applicable requirements.

14. Prescribe reasonably necessary rules regarding excreta storage, handling, treatment, transportation and disposal. The rules may:

(a) Prescribe minimum standards for human excreta storage, handling, treatment, transportation and disposal and shall provide for inspection of premises, processes and vehicles and for abating as public nuisances any premises, processes or vehicles that do not comply with the minimum standards.

(b) Provide that vehicles transporting human excreta from privies, septic tanks, cesspools and other treatment processes be licensed by the department subject to compliance with the rules. The department may require payment of a fee as a condition of licensure. The department shall establish by rule a fee as a condition of licensure, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

15. Perform the responsibilities of implementing and maintaining a data automation management system to support the reporting requirements of title III of the superfund amendments and reauthorization act of 1986 (P.L. 99-499) and article 2 of this chapter.

16. Approve remediation levels pursuant to article 4 of this chapter.

17. Establish or revise fees by rule pursuant to the authority granted under title 44, chapter 9, articles 8 and 9 and chapters 4 and 5 of this title for the department to adequately perform its duties. All fees shall be fairly assessed and impose the least burden and cost to the parties subject to the fees. In establishing or revising fees, the department shall base the fees on the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses as defined in title 41, chapter 6 and enforcing the requirements of the applicable regulatory program.

18. Appoint a person with a background in oil and gas conservation to act on behalf of the oil and gas conservation commission and administer and enforce the applicable provisions of title 27, chapter 4 relating to the oil and gas conservation commission.

C. The department may:

1. Charge fees to cover the costs of all permits and inspections it performs to ensure compliance with rules adopted under section 49-203 except that state agencies are exempt from paying the fees.

2. Monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210.

3. Contract with private consultants for the purposes of assisting the department in reviewing applications for licenses, permits or other authorizations to determine whether an applicant meets the criteria for issuance of the license, permit or other authorization. If the department contracts with a consultant under this paragraph, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding any other law, monies paid by applicants for expedited reviews pursuant to this paragraph are appropriated to the department for use in paying consultants for services.

D. The director may:

1. If the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed, inspect any person or property in transit through this state and any vehicle in which the person or property is being transported and detain or disinfect the person, property or vehicle as reasonably necessary to protect the environment if a violation exists.

2. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.

49-353. Duties of director; rules; prohibited lead use

A. The director shall:

1. Exercise general supervision over all matters related to water quality control of public water systems throughout this state.

2. Prescribe rules regarding the production, treatment, distribution and testing of potable water by public water systems, except that such rules shall not apply to irrigation, industrial or similar systems where the water is used for nonpotable purposes. The rules shall comply with at least the following:

(a) The requirements established by the United States environmental protection agency for state primary enforcement responsibility of the safe drinking water act, including the requirements of 40 Code of Federal Regulations parts 141 and 142.

(b) Require that the plans and specifications for all public water systems, including water treatment plants, distribution systems, distribution system extensions, water treatment methods and devices and all appurtenances and devices for sale to be used in water supplies and public water systems be submitted with a fee for review to the department. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section. Monies collected from the fees shall be deposited in the water quality fee fund established by section 49-210. The director may require that plans and specifications for public water systems include programs to meet future needs for drinking water and to supply specified minimum quantities of drinking water. The director shall:

(i) Require that a new public water system demonstrate that the system possesses adequate managerial and financial capacity to operate in compliance with this article and the rules adopted pursuant to this article.

(ii) Accept adequate findings of other public authorities regarding the adequate managerial and financial capacity of a public water system to operate in compliance with this article and the rules adopted pursuant to this article.

(c) Provide that no public water system, including a water treatment plant, distribution system, distribution system extension, water treatment method or device, appurtenance and device used in water supplies or public water systems be constructed, reconstructed, installed or initiated before compliance with the standards and rules has been demonstrated by approval of the plans and specifications by the department. The rules shall prescribe minimum standards for the bacteriological, physical and chemical quality of water distributed through public water systems. The director of environmental quality may consult with the director of the department of health services in developing these standards.

(d) Provide for a simplified administrative procedure for approving structural revisions, additions, extensions or modifications to existing small public water systems for potable water serving a population of three thousand three hundred or fewer persons.

(e) Exempt from the plan review requirements of this paragraph, including any requirements for approval to construct or approval of construction, any structural revisions, additions, extensions or modifications to public water systems which are in compliance with the department's rules applicable to those systems or which are making satisfactory progress towards compliance under a schedule approved by the department if either of the following conditions is satisfied:

(i) The revision, addition, extension or modification has a project cost of twelve thousand five hundred dollars or less.

(ii) The revision, addition, extension or modification is made to a water line which is not for a subdivision requiring plat approval by a city, town or county, and has a project cost of more than twelve thousand five hundred dollars but less than fifty thousand dollars, the design of which is sealed by a professional engineer

registered in this state and the construction of which is reviewed for conformance with the design by a professional engineer.

(f) Require a notice of compliance with the conditions for exemption on the completion of any revisions, additions, extensions or modifications completed in accordance with subdivision (e) of this paragraph.

(g) Provide for the submission of samples at stated intervals.

(h) Provide for inspection and certification of such water supplies.

(i) Provide for the abatement as public nuisances of any premises, equipment, process or device, or public water system that does not comply with the minimum standards and rules.

(j) Provide for records regarding water quality to be kept by owners and operators of the public water systems and that reports regarding water quality be filed with the department.

(k) Provide for appropriate actions to be taken if a water supply does not meet the standards established by the department.

(l) Require a public water system to implement a specified program to control contamination from backflow, backsiphonage or cross connection. All such programs shall be consistent with section 37-1388.

(m) Require that public water systems identify and provide notice to persons that may be affected by lead contamination of their drinking water where such contamination results from either or both of the following:

(i) The lead content in the construction materials of the public water distribution system.

(ii) Corrosivity of the water supply sufficient to cause leaching of lead.

(n) Provide for relief from water testing and monitoring requirements for public water systems qualifying under the federal safe drinking water act (P.L. 93-523; 88 Stat. 1661; P.L. 95-190; 91 Stat. 1393; P.L. 104-182; 110 Stat. 1613), as amended in 1996.

3. Develop and implement strategies to assist public water systems in acquiring and maintaining the technical, managerial and financial capacity to operate in compliance with this article and the rules adopted pursuant to this article. Assistance may be provided based on the needs of the water system.

B. Pipes, pipe fittings and plumbing fittings and fixtures having a lead content in excess of a weighted average of one-quarter of one percent lead when used with respect to the wetted surfaces and solders and flux having a lead content in excess of two-tenths of one percent shall not be used in the installation or repair of public water systems or of any plumbing in residential or nonresidential facilities providing water for human consumption. The weighted average lead content of a pipe, pipe fitting or plumbing fitting or fixture shall be calculated as follows:

1. For each wetted component, the percentage of lead in the component shall be multiplied by the ratio of the wetted surface area of that component to the total wetted surface area of the entire product to arrive at the weighted percentage of lead of the component.

2. The weighted percentage of lead of each wetted component shall be added together, and the sum of these weighted percentages shall constitute the weighted average lead content of the product.

3. The lead content of the material used to produce a wetted component shall be used to determine compliance with this subsection.

4. For lead content of materials that are provided as a range, the maximum content of that range shall be used.

C. Subsection B of this section does not apply to:

1. Leaded joints necessary for the repair of cast iron pipes.

2. Pipes, pipe fittings and plumbing fittings and fixtures, including backflow preventers, that are used exclusively for nonpotable water services such as manufacturing, industrial processing, irrigation, outdoor watering or any other uses where the water is not anticipated to be used for human consumption.

3. Toilets, bidets, urinals, fill valves, flushometer valves, tub fillers, shower valves or service saddles or water distribution main gate valves that are two inches in diameter or larger.

D. Notwithstanding subsection A, paragraph 2, subdivision (c) of this section, a public water system may construct, reconstruct, install, extend or initiate a water supply system, water treatment plant, distribution system, water treatment method or device, or appurtenance that is used in water supply or in a public water system when the system is out of compliance with standards and rules adopted pursuant to this article only if the construction is necessary to correct the system's noncompliance.

E. This section and the rules adopted pursuant to this section apply to public water systems as described by section 49-352, subsection B.

49-353.01. Duties of director; rules; standards; water supply; definition

A. The director shall adopt rules which prescribe minimum standards for the:

1. Sanitary facilities and conditions that shall be maintained by any public water system.

2. Chemicals, additives and drinking water system components that come into contact with drinking water that is used by any domestic or industrial water supply and that is sold or distributed to the public.

B. Chemicals and additives certified as conforming to the national sanitation foundation standards comply with the standards required by this section.

C. In those instances where chemicals, additives and drinking water system components that come into contact with drinking water are essential to the design, construction or operation of the drinking water system and have not been certified by the national sanitation foundation or have national sanitation foundation certification but are not available from more than one source, the standards shall provide for the use of alternatives which include:

1. Chemicals and additives composed entirely of ingredients determined by the environmental protection agency, the food and drug administration or other federal agencies as appropriate for addition to potable water or aqueous food.

2. Chemicals and additives composed entirely of ingredients listed in the national academy of sciences water chemicals codex.

3. Chemicals, additives and drinking water system components consistent with the specifications of the American water works association.

4. Chemicals, additives and drinking water system components that are designed for use in drinking water systems and that are consistent with the specifications of the American society for testing and materials.

5. Drinking water system components that are historically used or in use in drinking water systems consistent with standard practice and that have not been demonstrated during past applications in the United States to contribute to water contamination.

D. Except as identified by the department as an alternative in accordance with this section at or after the time of use or installation, drinking water system components installed and used after January 1, 1993 shall conform to the national sanitation foundation standards.

E. The director of the department of environmental quality may consult with the director of the department of health services in developing the standards prescribed by this section.

F. For the purposes of this section, "drinking water system components" means equipment and materials that are used in a drinking water system, including process media, protective materials, joining and sealing materials, pipes and related products, mechanical devices and mechanical plumbing devices.

DEPARTMENT OF ENVIRONMENTAL QUALITY
Title 18, Chapter 5

Amend: **R18-5-116, R18-5-208, R18-5-408**

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - EXPEDITED RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 21, 2025

SUBJECT: **DEPARTMENT OF ENVIRONMENTAL QUALITY**
Title 18, Chapter 5

Amend: R18-5-116, R18-5-208, R18-5-408

Summary:

This expedited rulemaking from the Arizona Department of Environmental Quality (Department) seeks to amend three (3) rules in Title 18, Chapter 5. The subject matter for Chapter 5 is Environmental reviews and certification. The Department is proposing the following amendments:

- R18-5-116; The Department is proposing to remove redundant references to statutes and other Department regulations regarding initial grading and regrading of facilities.
- R18-5-208; The Department is proposing to correct a misnumbered citation.
- R18-5-408; The Department is proposing multiple changes to this rule.
    - The first change is to replace the term "individual sewage disposal systems" to "on-site wastewater treatment facilities". Both terms mean the same thing and the latter term is the term used in other Department regulations so the change is to reduce confusion by using two terms that have the same meaning.
    - The second change is to remove outdated references to a bulletin and to add update references found in a separate chapter.

- The third change is to add a reference to a separate chapter to clarify who can submit a geological report. This change does not change the requirements only specifies where the already existing requirements can be found.
- The Department also proposes adding references to guidelines for percolation testing and the number of percolation tests required because while 408 currently references percolation testing it does not mention where the actual rule is found.
- The final proposal by the Department is to include references to the total nitrogen discharge requirements found in Chapter 9.

1. Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?

The Department believes that these changes are consistent with the purpose for A.R.S. § 41-1027 in that this portion of the rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce a procedural right of regulated persons; but amends rules that are outdated, and clarifies language of rules without changing their effects.

Council staff believe the current rulemaking satisfies the criteria for expedited rulemaking under A.R.S. § 41-1027(A)(3) and (6).

For R18-5-116, the Department is removing a redundant reference to statute and other Department rule, satisfying the requirement of §41-1027(A)(6).

In R18-5-208 the Department will amend a reference to another Department rule because the rule contains a typographical error satisfying the requirements in §41-1027(A)(3).

For R18-5-408, the Department is proposing five amendments. For four of these amendments, the Department will be clarifying language that is already present in the rule by adding references to other Department rules that expand on those specific areas. These changes satisfy the requirements of §41-1027(A)(3). The final amendment is removing an outdated reference which satisfies the requirements of §41-1027(A)(6).

2. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

3. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking.

4. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates no changes were made between the proposed and final rulemaking.

5. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Safe Drinking Water Act, 42 U.S.C. §300f et seq., is applicable to these rules. However, the Department has indicated that the proposed rules are not more stringent than this corresponding federal law.

6. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Not applicable. The Department has indicated that no permit or license is required or issued as part of these rules.

7. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

8. Conclusion

This expedited rulemaking from the Department of Environmental Quality (Department) seeks to amend three rules in Title 18, Chapter 5 for the purpose of fulfilling objectives from a previous 5 YRR and to correct terminology and references to statutes and other rules. The proposed amendments do not implement any substantive changes and make the rules more user friendly by adding references to other Department rules.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

Arizona Department of Environmental Quality

Katie Hobbs
Governor

Karen Peters
Deputy Director

December 11, 2024

Jessica Klein, Chair
Governor's Regulatory Review Council
100 N. 15th Ave., Ste. 302
Phoenix, AZ 85007

Re: Expedited Rulemaking: Title 18, Environmental Quality, Chapters 4, 5, 9, and 11 – "Water Quality Rule Corrections"

Dear Chair Klein:

The Arizona Department of Environmental Quality (ADEQ) hereby submits this final rulemaking package to the Governor's Regulatory Review Council (GRRC) for consideration and approval at the Council Meeting scheduled for February 4, 2025.

The following information is provided for your use in reviewing the enclosed rules for approval pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-202:

I. Information Required by A.A.C. R1-6-202(A)(1)
   A. The public record closed for all rules on October 7, 2024 at midnight.
   B. Pursuant to A.R.S. § 41-1027(A)(4), this expedited rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. The rulemakings, additionally, fulfill the requirements under A.R.S. § 41-1027(A)(3), "correct[ing] typographical errors…or clarifies language of a rule without changing its effect"; (A)(4), "adopt[ing] or incorporat[ing] by reference without material change federal statutes or regulations; (A)(6), "amend[ing] or repeal[ing] rules that are outdated, redundant or otherwise no longer necessary for the operation of state government"; and (A)(7), "implement[ing], without material change, a course of action that is proposed in a five-year review report approved by the council".
   C. The rulemaking activities relate to the following five-year review reports:
      1. 18 A.A.C. 4, Art. 1, 2, 3, 6, & 8 (submitted February 28, 2022, approved October 4, 2022);
      2. 18 A.A.C. Ch. 5, Art. 1, 2, 3, 4, & 5 (submitted August 27, 2021, approved November 2, 2021);

3. 18 A.A.C. Ch. 9, Art. 2 (submitted January 20, 2021, approved April 6, 2021), Art. 9 (submitted April 26, 2022, approved August 2, 2022) ;

D. The Department certifies that the preamble discloses reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation of or justification for the rule.

E. A list of documents enclosed under A.A.C. R1-6-202(A)(1)(e) and (A)(2)-(8), which are enclosed as electronic copies:

1. This cover letter.
2. The Notice of Final Expedited Rulemakings (NFERMs) for Chapter 4, 5, Chapter 9, and Chapter 11, including the preamble, table of contents, and text of each rule.
3. ADEQ did not receive any written comments on the NPERMs for Chapters 4, 5, 9, or 11.
4. ADEQ did not receive an analysis regarding the rules' impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states.
5. There was no new material incorporated by reference in the rulemakings.
6. No statute was declared unconstitutional.
7. The general and specific statutes authorizing the rule, including relevant statutory definitions:
    a. Chapter 4:
        i. Authorizing statutes (general): A.R.S. §§ 49-104(B)(4), 49-353(A)(2)
        ii. Implementing statutes (specific): A.R.S. § 49-353.01
    b. Chapter 5:
        i. Authorizing statutes (general): A.R.S. § 49-104(B)(11)-(13)
        ii. Implementing statutes (specific): A.R.S. §§ 49-352, 49-353(A)(2), 49-353.01(A)(1), and 49-361
    c. Chapter 9:
        i. Authorizing statutes (general): A.R.S. §§ 49-104 (B)(13), 49-203(A)(2), (A)(4), (A)(7), (A)(10), (A)(11)
        ii. Implementing statutes (specific): A.R.S. §§ 49-241, 49-242, 49-245, 49-255.01(B) and (C), and 49-255.02
    d. Chapter 11:
        i. Authorizing statutes (general): A.R.S. § 49-104(A)(1), (A)(7), (A)(10), (A)(13), (B)(4), (B)(11)
        ii. Implementing statutes (specific): A.R.S. §§ 49-202(A), (H); 49-203(A)(1), (2), (3), (5), (6) - (10); 49-221; 49-222; 49-223
8. No term is defined in the rule by referring to another rule or a statute other than the general and specific statutes authorizing the rule.

II. Additional items required by GRRC:

A. Exemption Memo Request.

B. Governor's Office initial written approval.
C. Governor's Office final written approval.

Thank you for your timely review and approval. Please contact Trevor Baggiore, Division Director, Water Quality Division, 602-771-2321 or baggiore.trevor@azdeq.gov, if you have any questions.

Sincerely,

Karen Peters, Deputy Director
Arizona Department of Environmental Quality

Enclosures

NOTICE OF FINAL EXPEDITED RULEMAKING

TITLE 18. ENVIRONMENTAL QUALITY CHAPTER #. HEADING

CHAPTER 5. ENVIRONMENTAL REVIEWS AND CERTIFICATION

PREAMBLE

1. Permission to proceed with this final expedited rulemaking was granted under A.R.S. § 41-1039 by the governor on:

May 6, 2024.

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**
R18-5-116	Amend
R18-5-208	Amend
R18-5-408	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 49-104(B)(11)-(13)

Implementing statute: A.R.S. § 49-352, 49-353(A)(2), 49-353.01(A)(1), 49-361

4. The effective date of the rule:

Pursuant to A.R.S. § 41-1027(H), the rule will become effective immediately on the filing of the Notice of Final Expedited Rulemaking with the Secretary of State.

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final expedited rule:

Notice of Expedited Rulemaking Docket Opening: 30 A.A.R. 2088, Issue Date: June 21, 2024, Issue Number: 25, File Number: R24-105.

Notice of Proposed Expedited Rulemaking: 30 A.A.R. 2792, Issue Date: September 6, 2024, Issue Number: 36, File number: R24-166.

6. The agency's contact person who can answer questions about the rulemaking:

Name: Tiffany Tom

Title: Attorney

Division: Office of Administrative Counsel

Address: Arizona Department of Environmental Quality
Office of Administrative Counsel
1110 W. Washington Street
Phoenix, AZ 85007

Telephone: (520) 625-6355

Email: waterqualityrulecorrections@azdeq.gov

Website: https://www.azdeq.gov/wqd-5yr-rule-review-commitmentscleanup

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Summary:

The objective of the rulemakings is two-fold:

1. Fulfill five-year rule review (5YRR) commitments to the Governor's Regulatory Review Council (GRRC), in accordance with A.R.S. § 41-1056(E), to amend rules in Chapter 5; and
2. Correct additional typographical errors, update outdated citations and references, clarify language, and fix similar clerical issues in Chapter 5, which will not add regulatory burden.

The Arizona Department of Environmental Quality (ADEQ) is pursuing an expedited rulemaking to amend rules in Title 18, Chapter 5, Articles 1, 2, and 4. The purpose of Chapter 5, Articles 1, 2, and 4, respectively, is to establish requirements for facility operators under water quality programs, regulate the design and construction of public and semipublic pools and spas, as well as set requirements for subdivision development relative to water quality programs. Expedited rulemaking is appropriate pursuant to A.R.S. §§ 41-1027(A)(1), 41-1027(A)(3), and 41-1027(A)(6) as explained below.

Section by Section Explanation of Proposed Rules:

R18-5-116: Initial Grading and Regrading of Facilities

This rule contains references to A.R.S. Title 41, Chapter 6, Article 10 and 18 A.A.C. 1, Article 2 regarding appeal rights concerning ADEQ initially grading or regrading a facility. Appeal rights are embedded in the program and, consequently, the references are redundant. In addition, almost all of the rules in 18 A.A.C. 1, Article 2 have either expired or been repealed, with the exception of R18-1-205, an inapplicable rule related to license applications. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(1) and A.R.S. § 41-1027(A)(6), ADEQ proposes to remove these references.

R18-5-208(C): Maximum Bathing Load

This rule contains an incorrect citation to R18-5-242, concerning semipublic pools. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ proposes to amend the incorrect citation from R18-5-242, concerning semipublic pools, to R18-5-241, concerning public pools.

18 A.A.C. 5, Article 4 provides the requirements for obtaining approval for the design, installation, and operation of on-site wastewater treatment facilities on subdivision plats. In addition, 18 A.A.C. 9, Articles 1 and 3 prescribe the requirements for permitting on-site wastewater treatment facilities under the Aquifer Protection Permit program. Currently 18 A.A.C. 5, Article 4 does not contain any reference to 18 A.A.C. 9, concerning requirements for on-site wastewater treatment facilities on subdivision plats. Therefore, ADEQ proposes updating and clarifying the rule to ensure it is congruous with the relevant on-site wastewater treatment facility requirements in Chapter 9.

R18-5-408: Requirements for the Approval of Subdivisions that Use On-site Wastewater Treatment Facilities

The rule's section heading as well as references in subsections (A), (B), (C), and (E) utilize the term "individual sewage disposal systems." "Individual sewage disposal systems" is not defined in the A.A.C. and is not a definition that is utilized in Chapter 9 to refer to these types of facilities. The correct term utilized in Chapter 9 is "on-site wastewater treatment facilities." This term is a synonym of "individual sewage disposal systems" and is, in fact, defined and utilized in Chapter 9. Therefore, the term "individ-

ual sewage disposal systems" is incorrect, and confusing to the general public.

ADEQ proposes replacing the term "individual sewage disposal systems" with "on-site wastewater treatment facilities" in the rule. This amendment clarifies the language of the rule without changing its effect. Therefore, pursuant to A.R.S. § 41-1027(A)(3), ADEQ proposes to amend the heading and R18-5-408(A), (B), (C), and (E) to change "individual sewage disposal systems" to "on-site wastewater treatment facilities."

Next, subsection (A) references guidance found in engineering bulletins for on-site wastewater treatment facilities. The applicable engineering bulletin is Engineering Bulletin #12 titled, "Minimum Requirements for the Design and Installation of Septic Tank Systems and Alternative On-site Disposal Systems," published in June 1989. Engineering Bulletin #12 is no longer used and has been replaced with the current rules found in A.A.C. Title 18, Chapter 9, Articles 1 and 3, which were adopted in 2001. In addition, subsection (A) states that there may be additional requirements provided by local health departments to assist in approval of on-site wastewater treatment facilities. Removing a reference to engineering bulletins from this subsection will not impact the availability of these bulletins to the public as a resource. In addition, removing from this subsection a reference to local health departments that may exist will not impact any applicable local health department requirements. Therefore, pursuant to A.R.S. § 41-1027(A)(6), ADEQ proposes to remove language in subsection (A) that references engineering bulletins and local health department requirements that may be required and replace the language with a reference to the applicable rules at 18 A.A.C. 9, Articles 1 and 3.

Next, subsection (E)(1) describes the qualifications of a person submitting a geological report containing the percolation tests and boring logs, which includes an engineer, geologist or other qualified person. R18-9-A310, which covers the method for percolation tests for subsurface characterization, describes in R18-9-A310(H) the qualifications for a person performing a percolation test. R18-5-408(E)(1) uses the term "geological report," while R18-9-A310(H) uses the term "site investigation," but the terms are synonyms. While the requirements of R18-9-A310(H) apply to this rule currently, including a reference to the applicable Chapter 9 rule in this rule would clarify the language in subsection (E)(1). The proposed amendment provides clarity to R18-5-408(E)(1) as to who can perform and submit a report, without changing its effect. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ proposes to amend R18-5-408(E)(1) to include a reference to R18-9-A310(H).

Next, subsection (E)(1) sets forth requirements for conducting percolation testing for subdivision plats, but it does not reference the applicable rules guiding percolation testing methods for on-site wastewater treatment facilities. These requirements are found in R18-9-A310(F)(1), which describes percolation test methods for subsurface characterization of on-site wastewater treatment facilities. While the requirements of R18-9-A310(F)(1) apply to the rule currently, a reference to the percolation test methods for subsurface characterization in Chapter 9 would clarify the language in the rule, and make subsection (E)(1) more user-friendly.

ADEQ proposes referencing the requirements of R18-9-A310(F)(1), with the exception of the requirement in R18-9-A310(F)(1)(a) because R18-5-408(E)(1) already delineates the number of percolation tests required to be performed for a subdivision. The proposed amendment to R18-5-408(E) clarifies the language of the rule without changing its effect. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ proposes to amend R18-5-408(E)(1) to include a reference to R18-9-A310(F)(1), with the exception of the requirements of R18-9-A310(F)(1)(a).

Finally, ADEQ proposes to insert a reference to the total nitrogen discharge requirements found in R18-9-A309(8)(c) for subdivisions, which are required to be included in the geological report in R18-5-408(E)(1). The proposed amendment clarifies the language of the rule without changing its effect. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ proposes to amend R18-5-408(E)(1) to include a reference to R18-9-A309(8)(c).

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

10. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

This expedited rulemaking is exempt from the requirements to obtain and file an economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2).

11. A description of any change between the proposed expedited rulemaking, to include a supplemental proposed notice, and the final rulemaking:

No changes were made between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Agency did not receive any public comments on A.A.C. Title 18 Chapter 5.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statutes applicable specifically to ADEQ or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

Not applicable.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

The Safe Drinking Water Act, as amended, is applicable to the subject of this rule. *See* 42 U.S.C. § 300f et seq. This rulemaking is not more stringent than is required by federal law.

c. Whether a person submitted an analysis to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states under A.R.S. § 41-1055(I). If yes, include the analysis with the rulemaking package.

Not applicable.

14. List all incorporated by reference material as specified in A.R.S. § 41-1028 and include a citation where the material is located:

Not applicable.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A) state where the text was changed between the emergency and the final expedited rulemaking package:

The rules were not previously made as an emergency rule.

16. The full text of the rules follows:

Rule text begins on the next page.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 5. DEPARTMENT OF ENVIRONMENTAL QUALITY – ENVIRONMENTAL REVIEWS AND CERTIFICATION

ARTICLE 1. CLASSIFICATION OF WATER AND WASTEWATER FACILITIES AND CERTIFICATION OF OPERATORS

Section

ARTICLE 2. PUBLIC AND SEMIPUBLIC SWIMMING POOLS AND SPAS

Section

ARTICLE 4. SUBDIVISIONS

Section

ARTICLE 1. CLASSIFICATION OF WATER AND WASTEWATER FACILITIES AND CERTIFICATION OF OPERATORS

R18-5-116. Initial Grading and Regrading of Facilities

~~**A.** The Department shall act under A.R.S. Title 41, Chapter 6, Article 10 and 18 A.A.C. 1, Article 2 when initially grading or when re-grading a facility.~~

~~**B.**~~ **A.** If it is determining the initial grade of a facility or whether to regrade a facility, the Department shall consider the facility characteristics in R18-5-114 and R18-5-115, and whether:

1. The facility has special design features or characteristics that make it unusually difficult to operate;
2. The water or wastewater is unusually difficult to treat;
3. The facility uses effluent; or
4. The facility poses a potential risk to public health, safety or welfare.

~~**C.**~~ **B.** The owner of a facility that is regraded under this Article shall ensure that the facility is operated by an operator, in compliance with this Article, no later than one year from the effective date of the facility regrading.

ARTICLE 2. PUBLIC AND SEMIPUBLIC SWIMMING POOLS AND SPAS

R18-5-208. Maximum Bathing Load

A. The maximum bathing load for a public or semipublic swimming pool or spa shall not be exceeded.

B. The maximum bathing load for a public or semipublic swimming pool shall be calculated as the sum of the following:

1. The shallow area of the swimming pool in square feet divided by 10 square feet, plus
2. The deep area of the swimming pool in square feet minus 300 square feet for each diving board divided by 24 square feet.

C. The maximum bathing load for a public swimming pool shall be limited by the number of users for the toilets, showers, or lavatories that are provided in the bathhouses or dressing rooms prescribed in ~~R18-5-242~~ R18-5-241.

D. The maximum bathing load for a public or semipublic spa shall not exceed the area of the spa in square feet divided by 9 square feet.

E. The maximum bathing load for a public or semipublic swimming pool or spa shall be posted.

ARTICLE 4. SUBDIVISIONS

R18-5-408. ~~Individual sewage disposal systems~~ On-Site Wastewater Treatment Facilities

A. ~~Recommendations are found in the engineering bulletins of the Department and such additional requirements as may be provided by local health departments to assist in approval regarding the design, installation and operation of individual sewage disposal systems. Copies of these bulletins may be obtained from the Department.~~ On-site wastewater treatment facilities shall be governed by A.A.C. Title 18, Chapter 9, Articles 1 and 3.

B. Where soil conditions and terrain features or other conditions are such that ~~individual sewage disposal systems~~ on-site wastewater treatment facilities cannot be expected to function satisfactorily or where groundwater or soil conditions are such that ~~individual sewage disposal systems~~ on-site wastewater treatment facilities may cause pollution of groundwater, they are prohibited.

C. Where such installations may create an unsanitary condition or public health nuisance, ~~individual sewage disposal systems~~ on-site wastewater treatment facilities are prohibited.

D. The use of cesspools is prohibited

E. Where an ~~individual sewage disposal system~~ on-site wastewater treatment facility is proposed, the following conditions shall be satisfied:

1. A geological report shall be made by an engineer, geologist or other ~~qualified~~ person who meets the qualifications in R18-9-A310(H). The geological report shall include the total nitrogen discharge requirements of R18-9-A309(8)(c). The geological report shall include results from percolation tests and boring logs obtained at locations designated by the county health departments. There shall be a minimum of one percolation test and boring log per acre, or one percolation test and boring log per lot where lots are larger than one acre, except when it can be shown by submission of other reliable data that soil conditions are such that ~~individual disposal systems~~ on-site wastewater treatment facilities could reasonably be expected to function properly on each lot in the proposed subdivision. The Department may require additional tests when it deems necessary. Percolation tests shall be performed in accordance with all of the requirements in R18-9-A310(F), except for the requirements in R18-9-A310(F)(1)(a). The approval of a subdivision, based upon such reports, shall not extend to the plat if it is further subdivided or lot lines are substantially relocated.
2. Results of all tests shall be submitted to the Department and the local health department for review and approval of the subdivision for the use of ~~individual sewage disposal systems~~ on-site wastewater treatment facilities.
3. Such approval must be obtained in writing from the local health department and a copy of the approval shall be submitted to the Department with the subdivision application for approval.

49-104. Powers and duties of the department and director

A. The department shall:

1. Formulate policies, plans and programs to implement this title to protect the environment.

2. Stimulate and encourage all local, state, regional and federal governmental agencies and all private persons and enterprises that have similar and related objectives and purposes, cooperate with those agencies, persons and enterprises and correlate department plans, programs and operations with those of the agencies, persons and enterprises.

3. Conduct research on its own initiative or at the request of the governor, the legislature or state or local agencies pertaining to any department objectives.

4. Provide information and advice on request of any local, state or federal agencies and private persons and business enterprises on matters within the scope of the department.

5. Consult with and make recommendations to the governor and the legislature on all matters concerning department objectives.

6. Promote and coordinate the management of air resources to ensure their protection, enhancement and balanced utilization consistent with the environmental policy of this state.

7. Promote and coordinate the protection and enhancement of the quality of water resources consistent with the environmental policy of this state.

8. Encourage industrial, commercial, residential and community development that maximizes environmental benefits and minimizes the effects of less desirable environmental conditions.

9. Ensure the preservation and enhancement of natural beauty and man-made scenic qualities.

10. Provide for the prevention and abatement of all water and air pollution including that related to particulates, gases, dust, vapors, noise, radiation, odor, nutrients and heated liquids in accordance with article 3 of this chapter and chapters 2 and 3 of this title.

11. Promote and recommend methods for the recovery, recycling and reuse or, if recycling is not possible, the disposal of solid wastes consistent with sound health, scenic and environmental quality policies. The department shall report annually on its revenues and expenditures relating to the solid and hazardous waste programs overseen or administered by the department.

12. Prevent pollution through regulating the storage, handling and transportation of solids, liquids and gases that may cause or contribute to pollution.

13. Promote the restoration and reclamation of degraded or despoiled areas and natural resources.

14. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

15. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

16. Unless specifically authorized by the legislature, ensure that state laws, rules, standards, permits, variances and orders are adopted and construed to be consistent with and not more stringent than the corresponding federal law that addresses the same subject matter. This paragraph does not adversely affect standards adopted by an Indian tribe under federal law.

17. Provide administrative and staff support for the oil and gas conservation commission.

B. The department, through the director, shall:

1. Contract for the services of outside advisers, consultants and aides reasonably necessary or desirable to enable the department to adequately perform its duties.

2. Contract and incur obligations reasonably necessary or desirable within the general scope of department activities and operations to enable the department to adequately perform its duties.

3. Use any medium of communication, publication and exhibition when disseminating information, advertising and publicity in any field of its purposes, objectives or duties.

4. Adopt procedural rules that are necessary to implement the authority granted under this title but that are not inconsistent with other provisions of this title.

5. Contract with other agencies, including laboratories, in furthering any department program.

6. Use monies, facilities or services to provide matching contributions under federal or other programs that further the objectives and programs of the department.

7. Accept gifts, grants, matching monies or direct payments from public or private agencies or private persons and enterprises for department services and publications and to conduct programs that are consistent with the general purposes and objectives of this chapter. Monies received pursuant to this paragraph shall be deposited in the department fund corresponding to the service, publication or program provided.

8. Provide for the examination of any premises if the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed on the premises. The director shall give the owner or operator the opportunity for its representative to accompany the director on an examination of those premises. Within forty-five days after the date of the examination, the department shall provide to the owner or operator a copy of any report produced as a result of any examination of the premises.

9. Supervise sanitary engineering facilities and projects in this state, authority for which is vested in the department, and own or lease land on which sanitary engineering facilities are located, and operate the facilities, if the director determines that owning, leasing or operating is necessary for the public health, safety or welfare.

10. Adopt and enforce rules relating to approving design documents for constructing, improving and operating sanitary engineering and other facilities for disposing of solid, liquid or gaseous deleterious matter.

11. Define and prescribe reasonably necessary rules regarding the water supply, sewage disposal and garbage collection and disposal for subdivisions. The rules shall:

(a) Provide for minimum sanitary facilities to be installed in the subdivision and may require that water systems plan for future needs and be of adequate size and capacity to deliver specified minimum quantities of drinking water and to treat all sewage.

(b) Provide that the design documents showing or describing the water supply, sewage disposal and garbage collection facilities be submitted with a fee to the department for review and that no lots in any subdivision be offered for sale before compliance with the standards and rules has been demonstrated by approval of the design documents by the department.

12. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious conditions at those places. The rules shall prescribe minimum standards for the design of and for sanitary conditions at any public or semipublic swimming pool or bathing place and provide for abatement as public nuisances of premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of health services and shall be consistent with the rules adopted by the director of the department of health services pursuant to section 36-136, subsection I, paragraph 10.

13. Prescribe reasonable rules regarding sewage collection, treatment, disposal and reclamation systems to prevent the transmission of sewage borne or insect borne diseases. The rules shall:

(a) Prescribe minimum standards for the design of sewage collection systems and treatment, disposal and reclamation systems and for operating the systems.

(b) Provide for inspecting the premises, systems and installations and for abating as a public nuisance any collection system, process, treatment plant, disposal system or reclamation system that does not comply with the minimum standards.

(c) Require that design documents for all sewage collection systems, sewage collection system extensions, treatment plants, processes, devices, equipment, disposal systems, on-site wastewater treatment facilities and reclamation systems be submitted with a fee for review to the department and may require that the design documents anticipate and provide for future sewage treatment needs.

(d) Require that construction, reconstruction, installation or initiation of any sewage collection system, sewage collection system extension, treatment plant, process, device, equipment, disposal system, on-site wastewater treatment facility or reclamation system conform with applicable requirements.

14. Prescribe reasonably necessary rules regarding excreta storage, handling, treatment, transportation and disposal. The rules may:

(a) Prescribe minimum standards for human excreta storage, handling, treatment, transportation and disposal and shall provide for inspection of premises, processes and vehicles and for abating as public nuisances any premises, processes or vehicles that do not comply with the minimum standards.

(b) Provide that vehicles transporting human excreta from privies, septic tanks, cesspools and other treatment processes be licensed by the department subject to compliance with the rules. The department may require payment of a fee as a condition of licensure. The department shall establish by rule a fee as a condition of licensure, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

15. Perform the responsibilities of implementing and maintaining a data automation management system to support the reporting requirements of title III of the superfund amendments and reauthorization act of 1986 (P.L. 99-499) and article 2 of this chapter.

16. Approve remediation levels pursuant to article 4 of this chapter.

17. Establish or revise fees by rule pursuant to the authority granted under title 44, chapter 9, articles 8 and 9 and chapters 4 and 5 of this title for the department to adequately perform its duties. All fees shall be fairly assessed and impose the least burden and cost to the parties subject to the fees. In establishing or revising fees, the department shall base the fees on the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses as defined in title 41, chapter 6 and enforcing the requirements of the applicable regulatory program.

18. Appoint a person with a background in oil and gas conservation to act on behalf of the oil and gas conservation commission and administer and enforce the applicable provisions of title 27, chapter 4 relating to the oil and gas conservation commission.

C. The department may:

1. Charge fees to cover the costs of all permits and inspections it performs to ensure compliance with rules adopted under section 49-203 except that state agencies are exempt from paying the fees.

2. Monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210.

3. Contract with private consultants for the purposes of assisting the department in reviewing applications for licenses, permits or other authorizations to determine whether an applicant meets the criteria for issuance of the license, permit or other authorization. If the department contracts with a consultant under this paragraph, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding any other law, monies paid by applicants for expedited reviews pursuant to this paragraph are appropriated to the department for use in paying consultants for services.

D. The director may:

1. If the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed, inspect any person or property in transit through this state and any vehicle in which the person or property is being transported and detain or disinfect the person, property or vehicle as reasonably necessary to protect the environment if a violation exists.

2. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.

49-352. Classifying systems and certifying personnel; limitation

A. The department shall establish and enforce rules for the classification of systems for potable water and certifying operating personnel according to the skill, knowledge and experience necessary within the classification. The rules shall also provide that operating personnel may be certified on the basis of training and supervision at the place of employment. The department may assess and collect reasonable certification fees to reimburse the cost of certification services, which shall be deposited in the water quality fee fund established by section 49-210. Such rules apply to all public water systems involved in the collection, storage, treatment or distribution of potable water. The rules do not apply to systems that are not public water systems, including irrigation, industrial or similar systems where the water is used for nonpotable purposes.

B. For the purposes of this article:

1. A public water system is a water system that:

(a) Provides water for human consumption through pipes or other constructed conveyances.

(b) Has at least fifteen service connections or regularly serves an average of at least twenty-five persons daily for at least sixty days a year.

2. A public water system as described in paragraph 1, subdivisions (a) and (b) of this subsection includes any collection, treatment, storage and distribution facilities that are under the control of the operator of a public water system and that are used primarily in connection with the system and any collection or pretreatment storage facilities that are not under the control of the operator of a public water system and that are used primarily in connection with a public water system.

3. A service connection does not include a connection to a system that delivers water by a constructed conveyance other than a pipe, if any of the following applies:

(a) The water is used exclusively for purposes other than residential uses consisting of drinking, cooking or bathing or other similar uses.

(b) The department determines that alternative water is provided for residential or similar uses for drinking and cooking and that the water achieves a level of public health protection that is equivalent to the applicable national primary drinking water regulations.

(c) The department determines that the water that is provided for residential or similar uses for drinking, cooking and bathing is centrally treated or is treated at the point of entry by the water provider, a pass-through entity or the user to achieve the level of public health protection that is equivalent to the applicable national primary drinking water regulations.

4. An irrigation district in existence before May 18, 1994 and that provides primarily agricultural service through a piped water system with only incidental residential or similar use is not a public water system if the system or the residential or other similar users of the system comply with paragraph 3, subdivision (b) or (c) of this subsection.

5. Persons who receive water through connections that are not service connections pursuant to paragraph 3 of this subsection are not included in the computation of the number of persons prescribed by paragraph 1, subdivision (b) of this subsection.

49-353. Duties of director; rules; prohibited lead use

A. The director shall:

1. Exercise general supervision over all matters related to water quality control of public water systems throughout this state.

2. Prescribe rules regarding the production, treatment, distribution and testing of potable water by public water systems, except that such rules shall not apply to irrigation, industrial or similar systems where the water is used for nonpotable purposes. The rules shall comply with at least the following:

(a) The requirements established by the United States environmental protection agency for state primary enforcement responsibility of the safe drinking water act, including the requirements of 40 Code of Federal Regulations parts 141 and 142.

(b) Require that the plans and specifications for all public water systems, including water treatment plants, distribution systems, distribution system extensions, water treatment methods and devices and all appurtenances and devices for sale to be used in water supplies and public water systems be submitted with a fee for review to the department. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section. Monies collected from the fees shall be deposited in the water quality fee fund established by section 49-210. The director may require that plans and specifications for public water systems include programs to meet future needs for drinking water and to supply specified minimum quantities of drinking water. The director shall:

(i) Require that a new public water system demonstrate that the system possesses adequate managerial and financial capacity to operate in compliance with this article and the rules adopted pursuant to this article.

(ii) Accept adequate findings of other public authorities regarding the adequate managerial and financial capacity of a public water system to operate in compliance with this article and the rules adopted pursuant to this article.

(c) Provide that no public water system, including a water treatment plant, distribution system, distribution system extension, water treatment method or device, appurtenance and device used in water supplies or public water systems be constructed, reconstructed, installed or initiated before compliance with the standards and rules has been demonstrated by approval of the plans and specifications by the department. The rules shall prescribe minimum standards for the bacteriological, physical and chemical quality of water distributed through public water systems. The director of environmental quality may consult with the director of the department of health services in developing these standards.

(d) Provide for a simplified administrative procedure for approving structural revisions, additions, extensions or modifications to existing small public water systems for potable water serving a population of three thousand three hundred or fewer persons.

(e) Exempt from the plan review requirements of this paragraph, including any requirements for approval to construct or approval of construction, any structural revisions, additions, extensions or modifications to public water systems which are in compliance with the department's rules applicable to those systems or which are making satisfactory progress towards compliance under a schedule approved by the department if either of the following conditions is satisfied:

(i) The revision, addition, extension or modification has a project cost of twelve thousand five hundred dollars or less.

(ii) The revision, addition, extension or modification is made to a water line which is not for a subdivision requiring plat approval by a city, town or county, and has a project cost of more than twelve thousand five hundred dollars but less than fifty thousand dollars, the design of which is sealed by a professional engineer

registered in this state and the construction of which is reviewed for conformance with the design by a professional engineer.

(f) Require a notice of compliance with the conditions for exemption on the completion of any revisions, additions, extensions or modifications completed in accordance with subdivision (e) of this paragraph.

(g) Provide for the submission of samples at stated intervals.

(h) Provide for inspection and certification of such water supplies.

(i) Provide for the abatement as public nuisances of any premises, equipment, process or device, or public water system that does not comply with the minimum standards and rules.

(j) Provide for records regarding water quality to be kept by owners and operators of the public water systems and that reports regarding water quality be filed with the department.

(k) Provide for appropriate actions to be taken if a water supply does not meet the standards established by the department.

(l) Require a public water system to implement a specified program to control contamination from backflow, backsiphonage or cross connection. All such programs shall be consistent with section 37-1388.

(m) Require that public water systems identify and provide notice to persons that may be affected by lead contamination of their drinking water where such contamination results from either or both of the following:

(i) The lead content in the construction materials of the public water distribution system.

(ii) Corrosivity of the water supply sufficient to cause leaching of lead.

(n) Provide for relief from water testing and monitoring requirements for public water systems qualifying under the federal safe drinking water act (P.L. 93-523; 88 Stat. 1661; P.L. 95-190; 91 Stat. 1393; P.L. 104-182; 110 Stat. 1613), as amended in 1996.

3. Develop and implement strategies to assist public water systems in acquiring and maintaining the technical, managerial and financial capacity to operate in compliance with this article and the rules adopted pursuant to this article. Assistance may be provided based on the needs of the water system.

B. Pipes, pipe fittings and plumbing fittings and fixtures having a lead content in excess of a weighted average of one-quarter of one percent lead when used with respect to the wetted surfaces and solders and flux having a lead content in excess of two-tenths of one percent shall not be used in the installation or repair of public water systems or of any plumbing in residential or nonresidential facilities providing water for human consumption. The weighted average lead content of a pipe, pipe fitting or plumbing fitting or fixture shall be calculated as follows:

1. For each wetted component, the percentage of lead in the component shall be multiplied by the ratio of the wetted surface area of that component to the total wetted surface area of the entire product to arrive at the weighted percentage of lead of the component.

2. The weighted percentage of lead of each wetted component shall be added together, and the sum of these weighted percentages shall constitute the weighted average lead content of the product.

3. The lead content of the material used to produce a wetted component shall be used to determine compliance with this subsection.

4. For lead content of materials that are provided as a range, the maximum content of that range shall be used.

C. Subsection B of this section does not apply to:

1. Leaded joints necessary for the repair of cast iron pipes.

2. Pipes, pipe fittings and plumbing fittings and fixtures, including backflow preventers, that are used exclusively for nonpotable water services such as manufacturing, industrial processing, irrigation, outdoor watering or any other uses where the water is not anticipated to be used for human consumption.

3. Toilets, bidets, urinals, fill valves, flushometer valves, tub fillers, shower valves or service saddles or water distribution main gate valves that are two inches in diameter or larger.

D. Notwithstanding subsection A, paragraph 2, subdivision (c) of this section, a public water system may construct, reconstruct, install, extend or initiate a water supply system, water treatment plant, distribution system, water treatment method or device, or appurtenance that is used in water supply or in a public water system when the system is out of compliance with standards and rules adopted pursuant to this article only if the construction is necessary to correct the system's noncompliance.

E. This section and the rules adopted pursuant to this section apply to public water systems as described by section 49-352, subsection B.

49-353.01. Duties of director; rules; standards; water supply; definition

A. The director shall adopt rules which prescribe minimum standards for the:

1. Sanitary facilities and conditions that shall be maintained by any public water system.

2. Chemicals, additives and drinking water system components that come into contact with drinking water that is used by any domestic or industrial water supply and that is sold or distributed to the public.

B. Chemicals and additives certified as conforming to the national sanitation foundation standards comply with the standards required by this section.

C. In those instances where chemicals, additives and drinking water system components that come into contact with drinking water are essential to the design, construction or operation of the drinking water system and have not been certified by the national sanitation foundation or have national sanitation foundation certification but are not available from more than one source, the standards shall provide for the use of alternatives which include:

1. Chemicals and additives composed entirely of ingredients determined by the environmental protection agency, the food and drug administration or other federal agencies as appropriate for addition to potable water or aqueous food.

2. Chemicals and additives composed entirely of ingredients listed in the national academy of sciences water chemicals codex.

3. Chemicals, additives and drinking water system components consistent with the specifications of the American water works association.

4. Chemicals, additives and drinking water system components that are designed for use in drinking water systems and that are consistent with the specifications of the American society for testing and materials.

5. Drinking water system components that are historically used or in use in drinking water systems consistent with standard practice and that have not been demonstrated during past applications in the United States to contribute to water contamination.

D. Except as identified by the department as an alternative in accordance with this section at or after the time of use or installation, drinking water system components installed and used after January 1, 1993 shall conform to the national sanitation foundation standards.

E. The director of the department of environmental quality may consult with the director of the department of health services in developing the standards prescribed by this section.

F. For the purposes of this section, "drinking water system components" means equipment and materials that are used in a drinking water system, including process media, protective materials, joining and sealing materials, pipes and related products, mechanical devices and mechanical plumbing devices.

49-361. Sewage treatment plants; operator certification

The department shall adopt and enforce rules to classify sewage collection systems and treatment plants and to certify operating personnel according to the skill, knowledge and experience necessary within the classification. The rules shall provide that operating personnel may be certified on the basis of training and supervision at the place of employment. The department may assess and collect reasonable certification fees to reimburse the cost of certification services, and the fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. The rules apply to all sewage treatment plants that receive and treat wastes from common collection sewers and industrial plants but do not apply to septic tanks, to devices that serve a single home or to industrial treatment devices that are used to perform or allow recycling or impounding wastes within the boundaries of the industry's property.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 5. DEPARTMENT OF ENVIRONMENTAL QUALITY ENVIRONMENTAL REVIEWS AND CERTIFICATION

ARTICLE 1. CLASSIFICATION OF WATER AND WASTEWATER FACILITIES AND CERTIFICATION OF OPERATORS

Article 1, consisting of Sections R18-5-101 through R18-5-115, recodified from R18-4-101 through R18-4-115 (Supp. 95-2).

Article 5 renumbered as Article 1 consisting of Sections R18-4-101 through R18-4-115, effective October 23, 1987.

Former Sections R9-20-504 through R9-20-512, R9-20-517, R9-20-519, and R9-20-520 amended and renumbered as Article 5 consisting of Sections R9-20-501, R9-20-503 through R9-20-510, R9-20-512, R9-20-514, and R9-20-515; and new Sections R9-20-502, R9-20-511, and R9-20-513 adopted effective October 23, 1987.

Former Sections R9-20-501 through R9-20-503, R9-20-513 through R9-20-516, and R9-20-518 repealed effective October 23, 1987.

Section

ARTICLE 2. PUBLIC AND SEMIPUBLIC SWIMMING POOLS AND SPAS

Article 2, consisting of Sections R18-5-201 through R18-5-251 and Illustrations A and B, adopted effective February 19, 1998 (Supp. 98-1).

Section

ARTICLE 3. WATER QUALITY MANAGEMENT PLANNING

Article 3, consisting of Sections R18-5-301 through R18-5-303, adopted by final rulemaking at 7 A.A.R. 559, effective January 2, 2001 (Supp. 01-1).

Section

ARTICLE 4. SUBDIVISIONS

Former Title 9, Chapter 8, Article 11, consisting of Sections R9-8-1011 through R9-8-1015, R9-8-1021, R9-8-1026, R9-8-1027, R9-8-1031, and R9-8-1032 through R9-8-1036 renumbered as Title 18, Chapter 5, Article 4, consisting of Sections R18-5-401 through R18-5-411 (Supp. 89-2).

Section

ARTICLE 5. MINIMUM DESIGN CRITERIA

Article 5, consisting of R18-5-501 through R18-5-509, recodified from 18 A.A.C. 4, Article 5 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

ARTICLE 1. CLASSIFICATION OF WATER AND WASTEWATER FACILITIES AND CERTIFICATION OF OPERATORS

R18-5-101. Definitions

The terms in this Article have the following meanings:

"Certified operator" or "operator" means an individual who holds a current certificate issued by the Department in the field of water or wastewater treatment, water distribution, or wastewater collection.

"Collection system" means a pipeline or conduit, a pumping station, a force main, or any other device or appurtenance used to collect and conduct wastewater to a central point for treatment and disposal.

"Department" means the Department of Environmental Quality or its designated representative.

"Director" means the Director of the Department of Environmental Quality or the Director's designated representative.

"Direct responsible charge" means day-to-day decision making responsibility for a facility or a major portion of a facility.

"Distribution system" means a pipeline, appurtenance, or device of a public water system that conducts water from a water source or treatment plant to consumers for domestic or potable use.

"Facility" means a water treatment plant, wastewater treatment plant, distribution system, or collection system.

"Industrial waste" means the liquid, gaseous, or solid waste produced at an industrial operation.

"Onsite operator" means an operator who visits a facility at least daily to ensure that the facility is operating properly.

"Onsite representative" means an individual located at a facility who monitors the daily operation at the facility and maintains contact with the remote operator regarding the facility.

"Operator" has the same meaning as certified operator, as defined in this Section.

"PDH" means professional development hour, as defined in this Section.

"Population equivalent" means the population that would contribute an equal amount of biochemical oxygen demand (BOD) computed on the basis of 0.17 pounds of five-day, 20-degree centigrade BOD per capita per day.

"Professional development hour" or "PDH" means one hour of participation in an organized educational activity related to engineering, biological or chemical sciences, a closely related technical or scientific discipline, or operations management.

"Public water system" has the same meaning prescribed in A.R.S. § 49-352.

"Qualifying discipline" means engineering, biology, chemistry, or a closely related technical or scientific discipline.

"Qualifying experience" means experience, skill, or knowledge obtained through employment that is applicable to the technical or operational control of all or part of a facility.

"Remote operator" means an operator who is not an onsite operator.

"Validated examination" means an examination that is approved by the Department after being reviewed to ensure that the examination is based on the class and grade of a system or facility.

"Wastewater" means sewage, industrial waste, and all other waterborne waste that may pollute any lands or waters of the state.

"Wastewater treatment plant" means a process, device, or structure used to treat or stabilize wastewater or industrial waste and dispose of the effluent.

"Water treatment plant" means a process, device, or structure used to improve the physical, chemical, or biological quality of the water in a public water system.

Historical Note

Former Section R9-20-504 repealed, new Section R9-20-504 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-504 amended, renumbered as Section R9-20-501, then renumbered as Section R18-4-101 effective October 23, 1987 (Supp. 87-4). R18-5-101 recodified from R18-4-101 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 5079, effective October 16, 2001 (Supp. 01-4). Amended by final rulemaking at 11 A.A.R. 998, effective April 2, 2005 (Supp. 05-1).

R18-5-102. Applicability

A. The rules in this Article apply to owners and operators of facilities in Arizona.

B. The following facilities are exempt from the requirements of this Article:

1. A public water system that meets the nonapplicability criteria in R18-4-102.
2. A septic tank or collection system that discharges to a septic tank.
3. A collection system that serves 2,500 or fewer persons and discharges into a facility that is operated by a certified operator.

4. A collection system that serves a nonresident population and discharges into a collection system operated by a certified operator.
5. An irrigation system, an industrial water facility, or a similar facility in which water is not used for domestic or drinking purposes.
6. An irrigation or industrial wastewater facility used to treat, recycle, or impound industrial or agricultural wastes within the boundaries of the industrial or agricultural property.
7. An industrial waste pretreatment facility in which treated wastewater is released to a collection system or wastewater treatment plant that is regulated by this Article.
8. A facility for treating industrial wastes that are not treatable by biological means.
9. A facility used to impound surface water before the water is conducted to a water treatment plant.
10. A wastewater treatment device that serves a home.

Historical Note
Adopted as Section R9-20-502 and renumbered as Section R18-4-102 effective October 23, 1987 (Supp. 87-4). R18-5-102 recodified from R18-4-102 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 5079, effective October 16, 2001 (Supp. 01-4).

R18-5-103. Certification Committee

A. Upon the effective date of this rule, the Director shall establish a certification committee to make recommendations and to provide the Department with technical advice and assistance related to this Article when requested.

B. The certification committee shall consist of 11 members as follows:
1. One employee of the Department;
2. One currently employed wastewater treatment plant operator with Grade 4 certification;
3. One currently employed water treatment plant operator with Grade 4 certification;
4. One currently employed wastewater collection system operator with Grade 4 certification;
5. One currently employed water distribution system operator with Grade 4 certification;
6. One faculty member teaching sanitary sciences at an Arizona university or community college;
7. One professional engineer, registered and residing in Arizona, engaged in consulting in the field of sanitary engineering;
8. One elected or appointed municipal official;
9. One representative of an investor-owned water or wastewater facility;
10. One representative of a small public water system; and
11. One currently employed remote operator representative.

C. The Director shall appoint each certification committee member.

D. The certification committee shall meet at least twice a year. At the first meeting of each calendar year, the certification committee shall select, from its membership, a chairperson and other officers as necessary. The Department's certification committee member is the executive secretary, who is responsible for keeping records of all meetings.

E. The term of a certification committee member is three years.

F. A meeting quorum consists of the chairperson or the chairperson's designated representative, the executive secretary or the executive secretary's designated representative, and three other members of the committee.

G. In the event of a vacancy caused by death, resignation, or removal for cause, the Director shall appoint a successor for the unexpired term.

H. A certification committee member may be reappointed, but a member shall not serve more than three consecutive terms.

Historical Note
Former Section R9-20-505 repealed, new Section R9-20-505 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-505 amended, renumbered as Section R9-20-503, then renumbered as Section R18-4-103 effective October 23, 1987 (Supp. 87-4). R18-5-103 recodified from R18-4-103 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

R18-5-104. General Requirements

A. A facility owner shall ensure that at all times:
1. A facility has an operator in direct responsible charge who is certified for the class of the facility and at or above the grade of the facility;
2. An operator makes all decisions about process control or system integrity regarding water quality or water quantity that affects public health; however, an administrator who is not a certified operator may make a planning decision regarding water quality or water quantity if the decision is not a direct operational process control or system integrity decision that affects public health;
3. An operator who is in direct responsible charge of more than one facility is certified for the class of each facility and at or above the grade of the facility with the highest grade;
4. An operator who replaces the operator in direct responsible charge does not begin operation of the facility before being certified for the applicable class and at or above the grade of the facility;
5. In the absence of the operator in direct responsible charge, the operator in charge of the facility is certified for the applicable class of facility and at a grade no lower than one grade below the grade of the facility; and
6. The names of all current operators are on file with the Department.

B. If the owner of a facility replaces an operator in direct responsible charge with another operator, the facility owner shall notify the Department in writing within 10 days of the replacement.

C. An operator shall notify the Department in writing within 10 days of the date the operator either ceases operation of a facility or commences operation of another facility.

D. An operator shall operate each facility in compliance with applicable state and federal law.

E. A facility owner shall ensure that a Grade 3 or Grade 4 facility has an onsite operator.

F. An operator holding certification in a particular class and grade may operate one or more Grade 1 or Grade 2 facilities as a remote operator if the facility owner ensures that the following requirements are met:
1. The remote operator is certified for the class of each facility and at or above the grade of each facility operated by the remote operator.
2. There is an onsite representative on the premises of each Grade 1 or Grade 2 facility, except for a Grade 1 water distribution system that serves fewer than 100 people, which is not required to have an onsite representative if the conditions of subsection (F)(8) are met. The onsite representative is not required to be an operator if the

facility has a remote operator who is certified at or above the grade of the facility.

3. The remote operator instructs, supervises, and provides written instructions to the onsite representative in the proper operation and maintenance of each facility and ensures that adequate records are kept.
4. The remote operator provides the onsite representative with a telephone number at which the remote operator can be reached at all times. If the remote operator is not available for any reason, the remote operator shall provide the onsite representative with the name and telephone number of a qualified substitute operator who will be available while the remote operator is not available.
5. The remote operator resides no more than 200 miles by ground travel from any facility that the remote operator serves.
6. The remote operator operates each facility in compliance with applicable state and federal laws.
7. The remote operator inspects a facility as often as necessary to ensure proper operation and maintenance, but in no case less than:
   a. Monthly for a Grade 1 or Grade 2 water treatment plant or distribution system that produces and distributes groundwater;
   b. Monthly for a Grade 1 wastewater treatment plant;
   c. Twice a month for a collection system that serves fewer than 2,500 people; and
   d. Weekly for a Grade 2 wastewater treatment plant or collection system that serves fewer than 1,000 people.
8. For a Grade 1 water distribution system that does not have an onsite representative and serves fewer than 100 people, the following conditions are met:
   a. The name and telephone number at which the remote operator can be reached is posted at the facility, enclosed with water bills, or otherwise made readily available to water users. If the remote operator is not available for any reason, the remote operator shall post at the facility the name and telephone number of a substitute operator of the applicable facility class and grade who will be available while the remote operator is not available;
   b. The remote operator or substitute operator resides no more than 200 miles by ground travel from the facility; and
   c. The remote operator inspects the facility weekly.

Historical Note

Former Section R9-20-506 repealed, new Section R9-20-506 adopted effective November 1, 1979 (Supp. 79-6). Amended effective March 19, 1980 (Supp. 80-2). Former Section R9-20-506 amended, renumbered as Section R9-20-504, then renumbered as Section R18-4-104 effective October 23, 1987 (Supp. 87-4). R18-5-104 recodified from R18-4-104 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 5079, effective October 16, 2001 (Supp. 01-4). Amended by final rulemaking at 11 A.A.R. 998, effective April 2, 2005 (Supp. 05-1).

R18-5-105. Certification

A. The Department shall issue an operator certificate to an applicant if the applicant:
1. Meets the experience and education requirements in R18-5-112 for the applicable class and grade,
2. Passes a written examination for the applicable class and grade, and
3. Has not had an operator's certificate revoked in Arizona or permanently revoked in another jurisdiction.

B. To apply for operator certification, an applicant shall submit or arrange to have submitted to the Department the following information, as applicable, in a format acceptable to the Department:
1. The applicant's full name, Social Security number, and operator number;
2. The applicant's current mailing address, home and work telephone numbers, fax number, and e-mail address;
3. The applicant's place of employment, including the facility identification number;
4. The class and grade of the facility where the applicant is employed;
5. Proof of successful completion of the examination for the applicable class and grade; and
6. Documentation of the applicant's experience and education required under R18-5-112.

Historical Note

Former Section R9-20-507 repealed, new Section R9-20-507 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-507 amended, renumbered as Section R9-20-505, then renumbered as Section R18-4-105 effective October 23, 1987 (Supp. 87-4). R18-5-105 recodified from R18-4-105 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 14 A.A.R. 4527, effective January 31, 2009 (Supp. 08-4).

R18-5-106. Examinations

A. The Department shall provide for examinations for certification of operators. The Department may contract with third party examiners for administration of examinations, based on its assessment of the quality of the examination services. The Department shall ensure that a list of approved examiners is available upon request.

B. The Department shall validate all examinations before administration. Each examination shall include topics such as treatment technologies, system maintenance, regulatory protocols, safety, mathematics, and general system management.

C. The examiner shall grade the examination and make the results available to the applicant and the Department within seven days of the date of the examination.

D. An applicant shall not be admitted to an examination without a valid picture I.D.

E. An individual shall make a score of 70 percent on the examination in order to attain a passing grade.

Historical Note

Adopted effective March 19, 1980 (Supp. 80-2). Former Section R9-20-508 amended, renumbered as Section R9-20-506, then renumbered as Section R18-4-106 effective October 23, 1987 (Supp. 87-4). Amended subsection (F) effective November 30, 1988 (Supp. 88-4). R18-5-106 recodified from R18-4-106 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

R18-5-107. Certificate Renewal

A. If the Department renews a certificate, the certificate is renewed for three years, unless the operator requests a shorter renewal period in writing.

B. To renew a certificate, an operator shall complete and submit to the Department an operator certificate renewal form

approved by the Department. An operator shall maintain documentation and provide the documentation to the Department upon request to verify completion of at least 30 PDHs accumulated during a certification period. The operator shall provide documentation of PDHs in a format acceptable to the Department. At least 10 of the PDHs shall directly relate to the specific job functions of the operator. If an operator holds multiple certificates, the operator may apply required PDHs to all certificates if the PDHs are acquired within the applicable certification period. The operator's supervisor or the entity that provides the education or training shall verify completion of each PDH in writing. An operator shall maintain documentation of completion of PDHs for a minimum of five years.

C. As an alternative to the requirements of subsection (B), an operator may renew a certificate by taking and passing an examination for the applicable class and grade.

Historical Note

Former Section R9-20-509 repealed, new Section R9-20-509 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-509 amended, renumbered as Section R9-20-507, then renumbered as Section R18-4-107 effective October 23, 1987 (Supp. 87-4). Amended subsection (B) effective November 30, 1988 (Supp. 88-4). R18-5-107 recodified from R18-4-107 (Supp. 95-1). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 11 A.A.R. 998, effective April 2, 2005 (Supp. 05-1).

R18-5-108. Certificate Expiration

A. A certificate expires on the expiration date printed on the certificate. An operator may reinstate an expired certificate for the same class and grade without examination if the operator files the documentation required in R18-5-107(B) with the Department within 90 days of the certificate expiration date.

B. If an expired certificate is not renewed within 90 days of the certificate expiration date, the Department shall not reinstate the certificate. To be recertified, the operator shall reapply and be reexamined as a new applicant.

Historical Note

Former Section R9-20-510 repealed, new Section R9-20-510 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-510 amended, renumbered as Section R9-20-508, then renumbered as Section R18-4-108 effective October 23, 1987 (Supp. 87-4). Amended subsection (D) effective November 30, 1988 (Supp. 88-4). R18-5-108 recodified from R18-4-108 (Supp. 95-2). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

R18-5-109. Denial, Suspension, Probation, and Revocation

A. If the Department decides to deny, suspend, or revoke a certificate, or to place an operator on probation, the Department shall act in accordance with A.R.S. Title 41, Chapter 6, Article 10 and 18 A.A.C. 1, Article 2.

B. The Department may revoke or suspend a certificate, or place an operator on probation, if the Department finds that the operator:

1. Operates a facility in a manner that violates federal or state law;
2. Negligently operates a facility or negligently supervises the operation of a facility;
3. Fails to comply with a Department order or order of a court;
4. Obtains, or attempts to obtain, a certificate by fraud, deceit, or misrepresentation;
5. Engages in fraud, deceit, or misrepresentation in the operation or supervision of a facility;
6. Knowingly or negligently prepares a false or fraudulent report or record regarding the operation or supervision of a facility;
7. Endangers the public health, safety, or welfare;
8. Fails to comply with the terms or conditions of probation or suspension; or
9. Fails to cooperate with an investigation by the Department including failing or refusing to provide information required by this Article.

C. The Department shall deny certification to an applicant who does not meet the requirements of R18-5-105 or R18-5-110, or who is ineligible for certification pursuant to a Department order or order of a court.

D. The Department may place an operator on probation or suspend an operator's certificate to address deficiencies in operator performance. The terms of probation or suspension may include completion of additional PDHs, increased reporting of operator activity, limitations on activities the operator may perform, or other terms to address deficiencies in operator performance.

E. During the period of suspension, an individual whose certificate is suspended shall not operate a facility of the class of the suspended certificate.

F. An operator whose certificate is suspended or revoked, or who has been placed on probation, shall immediately notify the owner of a facility where the operator is employed of the suspension, revocation, or probation.

Historical Note

Former Section R9-20-511 repealed, new Section R9-20-511 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-511 amended, renumbered as Section R9-20-509, then renumbered as Section R18-4-109 effective October 23, 1987 (Supp. 87-4). R18-5-109 recodified from R18-4-109 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 11 A.A.R. 998, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 14 A.A.R. 4527, effective January 31, 2009 (Supp. 08-4).

R18-5-110. Reciprocity

The Department shall issue a certificate to an applicant who holds a valid certificate from another jurisdiction, if the applicant:

1. Passes a written, validated examination in Arizona or in another jurisdiction that administers an examination that is substantially equivalent to the examination in Arizona and validated by the Department, and
2. Submits written evidence of the experience and education required under R18-5-112.

Historical Note

Former Section R9-20-512 repealed, new Section R9-20-512 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-512 amended, renumbered as Section R9-20-510, then renumbered as Section R18-4-110 effective October 23, 1987 (Supp. 87-4). Amended subsection (B) effective November 30, 1988 (Supp. 88-4). R18-5-110 recodified from R18-4-110 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

R18-5-111. Repealed

Historical Note
Adopted as Section R9-20-511 and renumbered as Section R18-4-111 effective October 23, 1987 (Supp. 87-4). R18-5-111 recodified from R18-4-111 (Supp. 95-2). Section repealed by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

R18-5-112. Experience and Education

A. The Department shall consider the following criteria to determine whether an applicant has the experience and education required for certification in a specific class and grade:
1. Years of experience at a lower grade;
2. Qualifying experience in the same or a related field; and
3. Education in a qualifying discipline.

B. An applicant shall provide written evidence of education in a qualifying discipline. The applicant shall provide transcripts if the Department determines that the transcripts are necessary to verify completion of the education requirements.

C. An applicant shall provide written evidence of qualifying experience in the applicable facility class.

D. An applicant shall meet the following requirements for admission to a certification examination:
1. For Grade 1, high school graduation or the equivalent.
2. For Grade 2, at least:
   a. High school graduation or the equivalent and one year of qualifying experience as a Grade 1 operator or the equivalent of a Grade 1 operator in another jurisdiction;
   b. Two years of postsecondary education in a qualifying discipline and one year of qualifying experience, including six months as a Grade 1 operator or the equivalent of a Grade 1 operator in another jurisdiction; or
   c. A bachelor's degree in a qualifying discipline and six months of qualifying experience.
3. For Grade 3, at least:
   a. High school graduation or the equivalent and two years of qualifying experience, including one year as a Grade 2 operator or the equivalent of a Grade 2 operator in another jurisdiction;
   b. Two years of postsecondary education in a qualifying discipline, and 18 months of qualifying experience as a Grade 2 operator or the equivalent of a Grade 2 operator in another jurisdiction; or
   c. A bachelor's degree in a qualifying discipline and one year of qualifying experience.
4. For Grade 4, at least:
   a. High school graduation or the equivalent and three years of qualifying experience, including one year as a Grade 3 operator or the equivalent of a Grade 3 operator in another jurisdiction;
   b. Two years of postsecondary education in a qualifying discipline and 30 months of qualifying experience, including one year as a Grade 3 operator or the equivalent of a Grade 3 operator in another jurisdiction; or
   c. A bachelor's degree in a qualifying discipline, and two years of qualifying experience.

Historical Note
Former Section R9-20-517 repealed, new Section R9-20-517 adopted effective November 1, 1979 (Supp. 79-6). Amended effective March 19, 1980 (Supp. 80-2). Former Section R9-20-517 amended, renumbered as Section R9-20-512, then renumbered as Section R18-4-112 effective October 23, 1987 (Supp. 87-4). R18-5-112 recodified from R18-4-112 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 5079, effective October 16, 2001 (Supp. 01-4).

R18-5-113. Classes of Facilities

A. The Department shall classify a facility in one of four classes:
1. Water treatment plant,
2. Water distribution system,
3. Wastewater treatment plant, or
4. Wastewater collection system.

B. The Department shall classify a facility as one of four grades, Grades 1–4. The grade corresponds with the level of system complexity, with Grade 1 being the most simple and Grade 4 being the most complex.

C. For a multi-facility system, the Department shall grade each facility according to complexity and the total population or population equivalent served.

Historical Note
Adopted as Section R9-20-513 and renumbered as Section R18-4-113 effective October 23, 1987 (Supp. 87-4). Amended subsections (A) and (C) effective November 30, 1988 (Supp. 88-4). R18-5-113 recodified from R18-4-113 (Supp. 95-2). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

R18-5-114. Grades of Wastewater Treatment Plants and Collection Systems

The Department shall grade a wastewater treatment plant or collection system according to population equivalent served, degree of hazard to public health, class of facility, and degree of treatment, as follows:
1. Grade 1 includes:
   a. A stabilization pond that serves 2,000 or fewer persons;
   b. A wastewater treatment plant not designated as Grade 2, 3, or 4; or
   c. A collection system that serves 2,500 or fewer persons.
2. Grade 2 includes:
   a. A stabilization pond that is designed to serve more than 2,000 persons;
   b. An aerated lagoon;
   c. A facility that employs biological treatment based upon the activated sludge principle or trickling filters and is designed to serve 5,000 or fewer persons, except as provided in subsection (3)(c); or
   d. A collection system that serves between 2,501 to 10,000 persons.
3. Grade 3 includes:
   a. A facility that employs biological treatment based upon the activated sludge principle and is designed to serve 5,001 to 20,000 persons;
   b. A facility that employs trickling filtration and is designed to serve 5,001 to 25,000 persons;
   c. A variation of biological treatment based on the activated sludge principle that requires specialized knowledge, including contact stabilization, and is designed to serve 20,000 or fewer persons; or
   d. A collection system that serves 10,001 to 25,000 persons.
4. Grade 4 includes:

a. A facility that employs biological treatment based upon the activated sludge principle and is designed to serve more than 20,000 persons;
b. A facility that employs trickling filtration and is designed to serve a population equivalent more than 25,000 persons; or
c. A collection system that serves more than 25,000 persons.

Historical Note

Former Section R9-20-519 repealed, new Section R9-20-519 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-519 amended, renumbered as Section R9-20-514, then renumbered as Section R18-4-114 effective October 23, 1987 (Supp. 87-4). R18-5-114 recodified from R18-4-114 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended to correct manifest typographical error in subsection (3)(d) (Supp. 01-3).

R18-5-115. Grades of Water Treatment Plants and Distribution Systems

A. Grading of water treatment plants. This subsection does not apply to a facility that distributes water but does not treat water or to a facility that distributes water and disinfects by chlorine gas or hypochlorite only to maintain disinfection levels in the distribution system. The Department shall grade a water treatment plant according to the sum of the points it the Department assigns for each plant characteristic.

1. The Department shall assign points for the purpose of grading a water treatment plant as follows:

Plant Characteristics	**Points**
Population	1 per 5,000
Maximum Design Capacity	1 per Millions of Gallons per Day up to 10
Groundwater Source	3
Surface or Groundwater Under the Direct Influence of Surface Water Source	5
Carbon Dioxide	2
pH Adjustment	3
Packed Tower Aeration	6
Air Stripping	6
Stability or Corrosion Control	3
Taste and Odor	8
Iron/Manganese Removal	8
Ion Exchange Softening	10
Chemical Precipitation Softening	15
Coagulant Addition	6
Flocculation	4
Sedimentation	4
Upflow Clarification	2
Fluoridation	5
Activated Alumina	6
Blending	5
Residual Waste Stream	5
Control Systems Technology	2
Biologically Active Filter	20
Granular Media Filter	15
Pressure Filter	15
Gravity Sand Filter	10
Membrane Filtration	15
Chlorine Gas	6
Hypochlorite Liquid	2
Hypochlorite Solid	2
Chloramine	9
Chlorine Dioxide	9
Ozone	12
Ultraviolet	3

2. The Department shall assign a grade by the total number of points assigned to the facility, as follows:

Grade	**Point Range**
Grade 1	1 to 25
Grade 2	26 to 50
Grade 3	51 to 70
Grade 4	More than 70

B. Grading of water distribution systems. The Department shall grade a distribution system according to the sum of the points the Department assigns for each system characteristic.

1. The Department shall assign points for the purpose of grading a distribution system as follows:

System Characteristics	**Points**
Population	1 per 5,000
Maximum Design Capacity	1 per Millions of Gallons per Day up to 10
Pressure Zones	5
Booster Stations	5
Storage Tanks	3
Blending	5
Fire Protection Systems/Testable Backflow Prevention Assemblies*	5
Cathodic Protection	3
Control System Technologies	2
Chlorine Gas	6
Hypochlorite Liquid	2
Hypochlorite Solid	2
Chloramine	9

Chlorine Dioxide	9

*The presence of one or both of these devices earns five points for the facility.

2. No points are added for Grade 1 small systems that:
   a. Only distribute groundwater;
   b. Serve fewer than 501 persons;
   c. Have no disinfection or disinfect by chlorine gas or hypochlorite only; and
   d. Do not store water or store water only in storage tanks.
3. The Department shall assign a grade by the total number of points assigned to the facility, as follows:

Grade	Point Range
Grade 1	0
Grade 2	1 to 20
Grade 3	21 to 35
Grade 4	More than 35

Historical Note
Former Section R9-20-520 repealed, new Section R9-20-520 adopted effective November 1, 1979 (Supp. 79-6). Former Section R9-20-520 amended, renumbered as Section R9-20-515, then renumbered as Section R18-4-115 effective October 23, 1987 (Supp. 87-4). R18-5-115 recodified from R18-4-115 (Supp. 95-2). Amended by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 5079, effective October 16, 2001 (Supp. 01-4). Amended by final rulemaking at 11 A.A.R. 998, effective April 2, 2005 (Supp. 05-1).

R18-5-116. Initial Grading and Regrading of Facilities

A. The Department shall act under A.R.S. Title 41, Chapter 6, Article 10 and 18 A.A.C. 1, Article 2 when initially grading or when regrading a facility.

B. If it is determining the initial grade of a facility or whether to regrade a facility, the Department shall consider the facility characteristics in R18-5-114 and R18-5-115, and whether:
1. The facility has special design features or characteristics that make it unusually difficult to operate;
2. The water or wastewater is unusually difficult to treat;
3. The facility uses effluent; or
4. The facility poses a potential risk to public health, safety or welfare.

C. The owner of a facility that is regraded under this Article shall ensure that the facility is operated by an operator, in compliance with this Article, no later than one year from the effective date of the facility regrading.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 1171, effective February 16, 2001 (Supp. 01-1).

ARTICLE 2. PUBLIC AND SEMIPUBLIC SWIMMING POOLS AND SPAS

R18-5-201. Definitions

"Air induction system" means a system whereby a volume of air is induced into a hollow ducting in a spa floor, bench, or wall. An air induction system is activated by an air power blower and is separate from the water circulation system.

"Artificial lake" means a man-made lake, lagoon, or basin, lined or unlined, with a surface area equal to or greater than two acres (87,120 square feet), that is used or intended to be used for water contact recreation.

"Backwash" means the process of thoroughly cleaning a filter by the reverse flow of water through the filter.

"Barrier" means a fence, wall, building, or landscaping that obstructs access to a public or semipublic swimming pool or spa.

"Cartridge filter" means a depth, pleated, or surface-type filter component with fixed dimensions that is designed to remove suspended particles from water flowing through the filter.

"Construct" means to build or install a new public or semipublic swimming pool or spa or to enlarge, deepen, or make a major modification to an existing public or semipublic swimming pool or spa.

"Coping" means the cap on a swimming pool or spa wall that provides a finished edge around the swimming pool or spa.

"Cross-connection" means any physical connection or structural arrangement between a potable water system and the piping system for a public or semipublic swimming pool or spa through which it is possible to introduce used water, gas, or any other substance into the potable water system. A bypass arrangement, jumper connection, removable section, swivel or change-over device, or any other temporary or permanent device that may cause backflow is a cross-connection.

"Deck" means a hard surface area immediately adjacent or attached to a swimming pool or spa that is designed for sitting, standing, or walking.

"Deep area" means the portion of a public or semipublic swimming pool that is more than 5 feet in depth.

"Discharge piping" means the portion of the circulation system that carries water from the filter back to the swimming pool or spa.

"Diving area" means the area of a public or semipublic swimming pool that is designated for diving from a diving board, diving platform, or starting block.

"Fill-and-draw swimming pool or spa" means a swimming pool or spa where the principal means of cleaning is the complete removal of the used water and its replacement with potable water.

"Filtration rate" means the rate of water flowing through a filter during the filter cycle expressed in gallons per minute per square foot of effective filter area.

"Flow-through swimming pool or spa" means a swimming pool or spa where new water enters the swimming pool or spa to replace an equal quantity of water that constantly flows out.

"Freeboard" means the vertical wall section of a swimming pool or spa wall between the waterline and the deck.

"Hose bibb" means a faucet with a threaded nozzle to which a hose may be attached.

"Hydrotherapy jet" means a fitting that blends air and water and creates a high-velocity, turbulent stream of air-enriched water for injection into a spa.

"Make-up water" means fresh water used to fill or refill a swimming pool or spa.

"Maximum bathing load" means the design capacity or the maximum number of users that a public or semipublic swimming pool or spa is designed to hold.

"Natural bathing place" means a lake, pond, river, stream, swimming hole, or hot springs which has not been modified by man.

"Operate" means to run, maintain, or otherwise control or direct the functioning of a public or semipublic swimming pool or spa.

"Overflow collection system" means equipment designed to remove water from a swimming pool or spa, including gutters, overflows, surface skimmers, and other surface water collection systems of various designs and manufacture.

"Potable water" means drinking water.

"Private residential spa" means a spa at a private residence used only by the owner, members of the owner's family, and invited guests, or a spa that serves a housing group consisting of no more than three living units [for example, duplexes or triplexes].

"Private residential swimming pool" means a swimming pool at a private residence used only by the owner, members of the owner's family, and invited guests, or a swimming pool that serves a housing group consisting of no more than three living units [for example, duplexes or triplexes].

"Public spa" means a spa that is open to the public with or without a fee, including a spa that is operated by a county, municipality, political subdivision, school district, university, college, or a commercial establishment whose primary business is the operation of a spa.

"Public swimming pool" means a swimming pool that is open to the public with or without a fee, including a swimming pool that is operated by a county, municipality, political subdivision, school district, university, college, or a commercial establishment whose primary business is the operation of a swimming pool.

"Recessed treads" means a series of vertically spaced, preformed stepholes in a swimming pool wall.

"Return inlet" means an aperture or fitting through which filtered water returns to a swimming pool or spa.

"Rope and float line" means a continuous line not less than 3/4 inch in diameter that is supported by buoys and attached to opposite sides of a swimming pool to separate areas of the swimming pool.

"Semi-artificial bathing place" means a natural bathing place that has been modified by man.

"Semipublic spa" means a spa operated for the residents of lodgings such as hotels, motels, resorts, apartments, condominiums, townhouse complexes, trailer courts, mobile home parks, or similar establishments. A semipublic spa includes a spa that is operated by a neighborhood or community association for the residents of the community and their guests and any spa at a country club, health club, camp, or similar establishment where the primary business of the establishment is not the operation of a spa and where the use of the spa is included in the fee for the primary use of the establishment.

"Semipublic swimming pool" means a swimming pool operated for the residents of lodgings such as hotels, motels, resorts, apartments, condominiums, townhouse complexes, trailer courts, mobile home parks, or similar establishments. A semipublic swimming pool includes a swimming pool that is operated by a neighborhood or community association for the residents of the community and their guests and a swimming pool at a country club, health club, camp, or similar establishment where the primary business of the establishment is not the operation of a swimming pool and where the use of the swimming pool is included in the fee for the primary use of the establishment.

"Shallow area" means the portion of a public or semipublic swimming pool that is 5 feet or less in depth.

"Slip-resistant" means a surface that has a static coefficient of friction [wet or dry] of at least 0.50.

"Spa" means an artificial basin, chamber, or tank of irregular or geometric shell design that is intended only for bathing or soaking and that is not drained, cleaned, or refilled for each user. A spa may include features such as hydrotherapy jet circulation, hot water, cold water mineral baths, or an air induction system. Industry terminology for a spa includes "hydrotherapy pool," "whirlpool," "hot tub," and "therapy pool."

"Special use pool" means a swimming pool intended for competitive aquatic events, aquatic exercise, or lap swimming. A special use pool includes a wave action pool, exit pool for a water slide, swimming pool that is part of an attraction at a water recreation park, water volleyball pool, or a swimming pool with special features used for training and instruction.

"Suction outlet" means the aperture or fitting through which water is withdrawn from a swimming pool or spa.

"Suction piping" means the water circulation system piping that carries water from a swimming pool or spa to the filter.

"Swimming pool" means an artificial basin, chamber, or tank that is designed for swimming or diving.

"Turnover rate" means the number of hours required to circulate a volume of water equal to the capacity of the swimming pool or spa.

"User" means a person who uses a swimming pool, spa, or adjoining deck area.

"Wading pool" means a shallow swimming pool used for bathing and wading by small children.

"Water circulation system" means an arrangement of mechanical equipment connected to a swimming pool or spa by piping in a closed loop that directs water from the swimming pool or spa to the filtration and disinfection equipment and returns the water to the swimming pool or spa.

"Water circulation system components" means the mechanical components that are part of a water circulation system of a swimming pool or spa, including pumps, filters, valves, surface skimmers, ion generators, electrolytic chlorine generators, ozone process equipment, and chemical feeding equipment.

"Water level" means either:

a. On swimming pools and spas with skimmer systems, the midpoint of the operating range of the skimmers, or
b. On swimming pools and spas with overflow gutters, the height of the overflow rim of the gutter.

Historical Note

Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-202. Applicability

A. This Article applies to public and semipublic swimming pools and spas.

B. This Article does not apply to the following:
1. A private residential swimming pool or spa,
2. A swimming pool or spa used for medical treatment or physical therapy and supervised by licensed medical personnel,
3. A semi-artificial bathing place,
4. A natural bathing place, or
5. An artificial lake.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-203. Design Approval

A. A person shall obtain design approval from the Department before starting construction of:
1. A new public or semipublic swimming pool or spa;
2. A major modification to an existing public or semipublic swimming pool or spa. For purposes of this subsection, a major modification means a change to the shape, depth, water circulation system, or disinfection system of a public or semipublic swimming pool or spa or the installation of diving equipment at a public or semipublic swimming pool;
3. A change in use from a semipublic swimming pool to a public swimming pool; and
4. A change in use from a private residential swimming pool to a public or semipublic swimming pool.

B. An applicant for a design approval shall submit an ADEQ application form to the Department in quadruplicate with four complete sets of plans and specifications for the swimming pool or spa and the information in subsection (C).

C. The application for design approval shall include four copies of the following:
1. A general plot plan;
2. Plans and specifications showing the size, shape, cross-section, slope, and dimensions of each swimming pool or spa, deck areas, and barriers;
3. Plans and specifications showing the water circulation and disinfection systems, including all piping, fittings, drains, suction outlets, filters, pumps, surface skimmers, return inlets, chemical feeders, disinfection equipment, gauges, flow meters, and strainers;
4. Plans and specifications showing the source of water supply and the method of disposal of filter backwash water; used swimming pool or spa water, and wastewater from toilets, urinals, sinks, and showers;
5. Detailed plans of bathhouses, dressing rooms, equipment rooms, and other appurtenances; and
6. Additional data required by the Department for a complete understanding of the project.

D. A professional engineer, architect, or a swimming pool or spa contractor with a current A-9, A-19, KA-5, KA-6 license shall prepare or supervise the preparation of all plans and specifications submitted to the Department for review.

E. An applicant shall submit an application for design approval to the Department at least 60 days prior to the date that the applicant wishes to begin construction of a swimming pool or spa.

F. The Department shall determine whether the application for design approval is complete within 30 days of the date of receipt of the application by the Department.

G. The Department shall issue or deny the application for design approval within 30 days of the date that the Department determines that the application for design approval is complete.

H. Unless an extension of time is granted in writing by the Department, a design approval is void if construction is not started within one year after the date of its issuance or there is a halt in construction of more than one year.

I. The Department may issue a design approval with conditions. The Department shall not issue an Approval of Construction if the design approval is conditioned and the construction of the swimming pool or spa does not comply with the stated conditions.

J. The Department may issue design approvals in phases to allow a political subdivision to start construction of a public swimming pool or spa without issuing a design approval for the entire construction project. A design approval may be issued in phases provided all of the following conditions are met:
1. A phased design approval is needed to accommodate a design/build contract, phased construction contract, multiple construction contracts, turnkey contract, or special contract that requires construction to begin prior to the completion of design plans and specifications for the entire public swimming pool or spa construction project.
2. The applicant submits a detailed project description for the entire public swimming pool or spa construction project to the Department.
3. There is a written agreement between the applicant and the Department which includes the following:
   a. A construction project schedule,
   b. A schedule to submit applications and supporting documentation for the phased design approval including any anticipated variance requests,
   c. Negotiated time-frames for administrative completeness and substantive review of each application for phased design approval, and
   d. A schedule of construction inspections by the Department or third-party certifications by the applicant.
4. The applicant certifies in writing that the applicant understands that the public swimming pool or spa cannot be operated without an Approval of Construction for each phase of the construction project pursuant to R18-5-204.
5. If the applicant and the Department cannot reach agreement regarding a phased design approval or Approval of Construction, then the requirements of R18-5-203(A) through (I) and R18-5-204 apply.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-204. Approval of Construction

A. A public or semipublic swimming pool or spa shall not operate without receiving an Approval of Construction issued by the Department.

B. The construction of a public or semipublic swimming pool or spa shall conform to plans and specifications that have been approved by the Department. If the applicant wishes to make a change to the approved plans and specifications, the applicant shall submit revised plans and specifications with a written statement of the reasons for the change to the Department. The applicant shall obtain Department approval of the revised plans and specifications before starting any work affected by the change.

C. Prior to any construction that will cover the piping arrangement of the swimming pool or spa and at least 30 days prior to the expected date of completion of construction of a public swimming pool or spa, the applicant shall notify the Department to permit a construction inspection. The Department shall inspect the construction of a swimming pool or spa to determine if the swimming pool or spa has been constructed in

accordance with Department-approved plans, specifications, and conditions unless a professional engineer, architect, or registered sanitarian certifies that the swimming pool or spa has been constructed in accordance with Department-approved plans, specifications, and conditions.

D. If the swimming pool or spa has been constructed in accordance with Department-approved plans, specifications, and conditions, the Department shall issue the Approval of Construction within 30 days of the date of the construction inspection by the Department or the date the Department receives third-party certification.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-205. Prohibitions

A. A fill-and-draw swimming pool or spa shall not be used as a public or semipublic swimming pool or spa.

B. A private residential spa shall not be used as a public or semipublic spa.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-206. Water Source

Only water from a source that is approved by the Department shall be used in a public or semipublic swimming pool or spa. Reclaimed wastewater shall not be used as make-up water for a public or semipublic swimming pool or spa.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-207. Construction Materials

A. A public or semipublic swimming pool or spa shall be constructed of concrete or other structurally rigid material that is equivalent in strength or durability to concrete, except that a public or semipublic spa may be constructed of fiberglass or acrylic.

B. A public or semipublic swimming pool or spa shall be constructed of materials that are nontoxic.

C. A public or semipublic swimming pool or spa shall be constructed of waterproof materials that provide a watertight structure.

D. A public or semipublic swimming pool or spa shall have a smooth and easily cleaned surface, without cracks or joints, excluding structural joints, or to which a smooth, easily cleaned surface finish is applied or attached.

E. All corners in a public or semipublic swimming pool or spa shall be rounded, including the corners formed by the intersection of a wall and floor.

F. A surface within a public or semipublic swimming pool or spa intended to provide footing for users shall have a slip-resistant surface. The roughness or irregularity of the surface shall not cause injury or discomfort to users' feet during normal use.

G. The color, pattern, or finish of the interior of a public or semipublic swimming pool or spa shall not obscure objects, surfaces within the swimming pool or spa, debris, sediment, or algae. Surface finishes shall be white, pastel, or other light color. The interior finish shall completely line the swimming pool or spa to the coping, tile, or gutter system.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-208. Maximum Bathing Load

A. The maximum bathing load for a public or semipublic swimming pool or spa shall not be exceeded.

B. The maximum bathing load for a public or semipublic swimming pool shall be calculated as the sum of the following:

1. The shallow area of the swimming pool in square feet divided by 10 square feet, plus
2. The deep area of the swimming pool in square feet minus 300 square feet for each diving board divided by 24 square feet.

C. The maximum bathing load for a public swimming pool shall be limited by the number of users for the toilets, showers, or lavatories that are provided in the bathhouses or dressing rooms prescribed in R18-5-242.

D. The maximum bathing load for a public or semipublic spa shall not exceed the area of the spa in square feet divided by 9 square feet.

E. The maximum bathing load for a public or semipublic swimming pool or spa shall be posted.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-209. Shape

A. A public or semipublic swimming pool or spa may be any shape except that the designer shall shape a public or semipublic swimming pool or spa to minimize hazards to users and provide adequate circulation of swimming pool or spa water.

B. There shall be no protrusions, extensions, means of entanglement, or other obstructions in a public or semipublic swimming pool or spa that may cause entrapment of or injury to the user. This subsection does not prohibit water features such as water fountains, slides, water play equipment, or water volleyball and basketball nets.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-210. Walls

A. Where a racing lane terminates in a swimming pool, the wall shall be plumb to a minimum depth of 5 feet below the waterline. Below the 5-foot depth, the wall shall be radiused to join the floor.

B. There shall be no projections from a swimming pool or spa wall except for coping, cantilevered deck, ladders, and steps.

C. An underwater seat shall comply with the following:

1. The edges of an underwater seat shall be outlined with a sharply contrasting colored tile or other material that is clearly visible from the deck adjacent to the underwater seat;
2. An underwater seat shall have a slip-resistant surface;
3. An underwater seat shall be located outside of the deep area of a swimming pool that is equipped for diving. An underwater seat may be located in the deep area of a swimming pool that is not equipped for diving provided the underwater seat is either completely recessed into the swimming pool wall, shaped to be compatible with the shape of the swimming pool wall, or in a corner of the swimming pool;
4. The maximum depth of an underwater seat is 24 inches below the waterline. The minimum depth of an underwater seat is 12 inches below the waterline; and
5. The maximum width of an underwater seat is 20 inches.

D. If a spa is located immediately adjacent to a swimming pool, the separating wall between the spa and the swimming pool shall be no more than 8 inches wide. The top of the separating wall shall be no lower than the level of the coping of the swimming pool. If a separating wall is more than 8 inches wide, then the deck width shall comply with R18-5-217(D). A spa

shall not be located immediately adjacent to the deep area of a swimming pool.

E. Coping or cantilevered deck may project from a swimming pool or spa wall to provide a handhold for users. The coping or deck shall be rounded, have a slip-resistant surface finish, and shall not exceed 3 1/2 inches in thickness. The overhang of the coping or deck shall not exceed 2 inches or be less than 1 inch. All corners created by coping or cantilevered deck shall be rounded in both the vertical and horizontal dimensions to eliminate sharp corners.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-211. Freeboard

A. The freeboard in a public or semipublic swimming pool or spa shall not exceed 8 inches, except as provided in subsection (B).

B. The freeboard in a semipublic swimming pool may exceed 8 inches to provide for walls, terraces, or other design features. The Department shall review each request to allow an increase in freeboard on a case-by-case basis. In reviewing the request, the Department shall consider safety, exit distances, alternative exits, and location. The length and height of the section where the freeboard area may be increased is limited. All of the following requirements shall be met:

1. Guard rails or similar devices are provided to prevent any raised area from being used as a diving platform.
2. The vertical surfaces of the freeboard area are constructed of inorganic materials. All vertical surfaces shall be rigid, smooth, and easily cleanable.
3. The horizontal surface areas comply with the provisions of this Article for decks.
4. The vertical surface area is included as surface area of the swimming pool to determine the type, size, location, and numbers of equipment and piping.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-212. Floors

A. The slope of the floor of a public or semipublic swimming pool, from the end wall in the shallow area towards the deep area to the point of the first slope change shall be uniform and shall not exceed 1 foot of fall in 10 feet. The floor slope in a public or semipublic spa shall not exceed 1 foot of fall in 10 feet.

B. The floor slope of a public or semipublic swimming pool, from the point of the first slope change to the deepest part of the swimming pool, shall not exceed 1 foot of fall in 3 feet.

C. For a public or semipublic swimming pool that is equipped for diving, the depth of the swimming pool at the point of the first slope change shall be a minimum of 5 feet. For a public or semipublic swimming pool that is not equipped for diving, the depth of the swimming pool at the point of the first slope change shall be a minimum of 4 feet.

D. All portions of a swimming pool or spa floor shall slope towards a main drain.

E. The transitional radius where the floor of a public or semipublic swimming pool joins a wall shall comply with the following:

1. The center of the radius shall be no less than 3 feet below the waterline in the deep area or 2 feet below the waterline in the shallow area.
2. The radius shall be tangent at the point where the radius meets the wall or floor.
3. The radius shall be equal to or greater than the depth of the swimming pool minus the vertical wall depth measured from the waterline minus 3 inches.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-213. Entries and Exits

A. Each public or semipublic swimming pool shall have at least two means of entry or exit consisting of ladders, steps, or recessed treads.

B. There shall be at least one ladder, set of steps, or set of recessed treads for each 75 feet of perimeter of a public or semipublic swimming pool or spa.

C. At least one means of entry and exit shall be provided in the deep area and at least one means of entry and exit shall be provided in the shallow area of a public or semipublic swimming pool. Where the water depth is 2 feet at the swimming pool wall in the shallow area or where there is a zero depth entry pool [for example, an artificial beach], the area shall be considered a means of entry or exit.

D. A set of steps shall be provided in a public or semipublic spa.

E. The location of stairs, ladders, and recessed treads shall not interfere with racing lanes.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-214. Steps

A. Each set of steps shall be provided with at least one handrail to serve all treads and risers. Handrails shall be provided at one side or in the center of all steps. Handrails shall be installed in such a way that they can be removed only with tools.

B. Steps shall be permanently marked to be clearly visible from above and below the water level in a swimming pool or spa. The edges of steps shall be outlined with a sharply contrasting colored tile or other material that is clearly visible from the deck adjacent to the steps.

C. Steps may be constructed only in the shallow area of a public or semipublic swimming pool.

D. Steps shall not project into a public or semipublic swimming pool or spa in a manner that creates a hazard to users.

E. All tread surfaces on steps shall have slip-resistant surfaces.

F. Step treads shall have a minimum unobstructed horizontal depth of 10 inches. Risers shall have a maximum uniform height of 12 inches, with the bottom riser height allowed to vary ± 2 inches from the uniform riser height.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-215. Ladders

A. At least one ladder shall be provided in the deep area of a public or semipublic swimming pool. If the width of the deep area of a swimming pool is greater than 20 feet, then one ladders shall be located on opposite sides of the deep area.

B. A swimming pool or spa ladder shall be equipped with two handrails.

C. All treads on ladders shall have slip-resistant surfaces.

D. Ladder treads shall have a minimum horizontal depth of 1 1/2 inches. The distance between ladder treads shall range from a minimum of 7 inches to a maximum of 12 inches.

E. Below the waterline, there shall be a clearance of not more than 6 inches and not less than 3 inches between any ladder tread edge and the wall as measured from the side of the tread closest to the wall.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-216. Recessed Treads

A. Recessed treads with handrails may be substituted for ladders.
B. Recessed treads shall be pre-formed, readily cleanable, and designed to drain into the swimming pool or spa to prevent the accumulation of dirt in the recessed treads.
C. Each set of recessed treads shall be equipped with two handrails.
D. All recessed treads shall have slip-resistant surfaces.
E. The vertical distance between the swimming pool or spa coping edge or deck and the uppermost recessed tread shall be a maximum of 12 inches. Recessed treads at the centerline shall have a uniform vertical spacing of 12 inches maximum and 7 inches minimum.
F. Recessed treads shall be at least 5 inches deep and 12 inches wide.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-217. Decks and Deck Equipment

A. Decks, ramps, coping, and similar step surfaces shall be constructed of concrete or other inorganic material, have a slip-resistant finish, and be easily cleanable.
B. The minimum continuous unobstructed deck width, including the coping, shall be 10 feet for a public swimming pool and 4 feet for a semipublic swimming pool. The dimensional design of decks at public and semipublic swimming pools shall comply with the dimensions shown in Illustration B.
C. A minimum 5 feet of deck width shall be provided on the sides and rear of any diving equipment at a public swimming pool. A minimum 4 feet of deck width shall be provided on the sides and rear of any diving equipment at a semipublic swimming pool. If diving equipment is installed at a public swimming pool, there shall be a minimum 15 feet of deck width from the swimming pool wall to the edge of the deck behind the diving equipment [See Illustration B].
D. A continuous unobstructed deck width of at least 4 feet, which may include the coping, shall be provided on at least two contiguous sides and around at least 50% of the perimeter of a public or semipublic spa.
E. Decks shall be sloped to effectively drain either to perimeter areas or to deck drains. Drainage shall remove splash water, deck cleaning water, and rain water without leaving standing water. The minimum slope of the deck shall be 1/4 inch per 1 foot. The maximum slope of the deck shall be 1 inch per 1 foot, except for ramps.
F. Decks shall be edged to eliminate sharp corners.
G. Site drainage shall be provided to direct all perimeter deck drainage and general site and roof drainage away from a public or semipublic swimming pool or spa. Yard drains may be required to prevent the accumulation or puddling of water in the general area of the deck and related improvements.
H. Hose bibbs shall be provided along the perimeter of the deck so that all parts of the deck may be washed down. At a minimum, each hose bibb shall be protected against back siphonage with an atmospheric vacuum breaker. The Department may approve quick disconnect style hose bibbs.
I. Any valve that is installed in or under any deck shall provide a minimum 10-inch diameter access cover and a valve pit to facilitate the repair and maintenance of the valve.
J. Joints in decks shall be provided to minimize the potential for cracks due to changes in elevations or movement of the slab. The maximum voids between adjoining concrete slabs or between concrete slabs and expansion joint material shall be 3/16 inch of horizontal clearance with a maximum difference in vertical elevation of 1/4 inch. Areas where the deck joins concrete shall be protected by expansion joints to protect the swimming pool or spa from the pressures of relative movements. Construction joints where pool or spa coping meets the deck shall be watertight and shall not allow water to pass through to the underlying ground.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-218. Lighting

A. A public or semipublic swimming pool or spa and adjacent deck areas shall be lighted by natural or artificial means when they are in use.
B. A public or semipublic swimming pool or spa that is intended to be used at night shall be equipped with artificial lighting that is designed and spaced so that all parts of the swimming pool or spa, including the bottom, may be seen without glare.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-219. Water Depths

A. Except as provided in subsection (B), the minimum water depth in the shallowest area of a public or semipublic swimming pool shall be 2 feet. The maximum water depth in the shallowest area of a public or semipublic swimming pool shall be 3 feet. In public swimming pools, where racing lanes terminate, the minimum depth shall be 5 feet from the water level to the point where the vertical wall is radiused to join the floor.
B. The Department may approve a depth of less than 2 feet in a wading pool or to allow a zero depth entry swimming pool.
C. The maximum water depth in a public or semipublic spa shall be 42 inches, measured from the water level.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-220. Depth Markers

A. Water depths shall be conspicuously and permanently marked at or above the water level on the vertical wall and on the top of the coping or the edge of the deck next to a swimming pool.
  1. Depth markers on a vertical wall shall be positioned to be read from the water side.
  2. Depth markers on a deck shall be located within 18 inches of the side of the swimming pool and positioned to be read while standing on the deck facing the water. Depth markers that are located on a deck shall be made of slip-resistant materials.

B. Depth markers for a public or semipublic swimming pool shall be installed at points of maximum and minimum water depth and at all points of slope change. Depth markers are required in the shallow area at 1-foot depth intervals to a depth of 5 feet. Thereafter, depth markers shall be installed at 2-foot depth intervals. Depth markers shall not be spaced at distances greater than 25 feet.
C. Depth markers shall be located on both sides and at both ends of a public or semipublic swimming pool.
D. Depth markers shall be in Arabic numerals with a 4-inch minimum height. Arabic numerals shall be of contrasting color to the background.
E. In public swimming pools with racing lanes, approach warning markers shall be placed below the water level on the opposite walls at the ends of each racing lane. Warning markers shall be of contrasting color to the background. Warning markers shall be clearly visible in or out of the water from a minimum distance of 10 feet.

F. The shallow area of a public swimming pool shall be visually set apart from the deep area of the pool by a rope and float line.

G. Depth markers for a public or semipublic spa shall comply with all of the following:
1. A public or semipublic spa shall have permanent depth markers with numbers that are a minimum of 4 inches high. Depth markers shall be plainly and conspicuously visible from all points of entry.
2. The maximum depth of a public or semipublic spa shall be clearly indicated by depth markers.
3. There shall be a minimum of 2 depth markers at each public or semipublic spa.
4. Depth markers shall be spaced at no more than 25-foot intervals and shall be uniformly located around the perimeter of the spa.
5. Depth markers shall be positioned on the deck within 18 inches of the side of the spa. A depth marker shall be positioned so that it can be read by a person standing on the deck facing the water.
6. Depth markers that are on deck surfaces shall be made of slip-resistant material.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-221. Diving Areas and Equipment

A. The dimensions of a diving area in a public or semipublic swimming pool shall comply with minimum requirements for length, width, depth, area, and other dimensions specified in Illustration A. The diving well profile in Illustration A does not apply to a special use pool that is intended for competitive diving and has been approved by Department pursuant to R18-5-248(A).

B. Diving equipment shall be permanently anchored to the swimming pool deck. Equipment shall be rigidly constructed with sufficient bracing to ensure stability. Supports, platforms, steps, and ladders for diving equipment shall be designed to carry anticipated loads.

C. All diving stands higher than 21 inches, measured from the deck to the top of the board, shall be provided with stairs or a ladder.

D. Diving equipment shall have a durable finish. The surface finish shall be free of tears, splinters, or cracks that may be a hazard to users.

E. Steps and ladders leading to diving boards and diving platforms shall be of corrosion-resisting materials and shall have slip-resistant tread surfaces. Step treads shall be self-draining.

F. Diving boards, diving platforms, and starting blocks shall have slip-resistant tread surfaces.

G. Handrails shall be provided at all steps and ladders leading to diving boards that are 1 meter or more above the water.

H. Diving boards and diving platforms that are 1 meter or higher shall be protected with guard rails. Guard rails shall be at least 30 inches above the diving board or diving platform and shall extend to the edge of the swimming pool wall.

I. A label shall be permanently affixed to a diving board and shall include the following:
1. Manufacturer's name and address,
2. Board length, and
3. Fulcrum setting instructions.

J. The maximum diving board height over the water is 3 meters. The maximum height of a diving platform over the water is 10 meters.

K. Starting blocks shall be located in the deep end of a public swimming pool or where the depth of the water is at least 5 feet.

L. There shall be a completely unobstructed clear vertical distance of 13 feet above any diving board measured from the center of the front end of the board. This clear, unobstructed vertical space shall extend horizontally at least 8 feet behind, 8 feet to each side, and 16 feet ahead of the front end of the board.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-222. Prohibition Against Diving; Warning Signs

A. Diving equipment is prohibited in a public or semipublic swimming pool that does not meet the minimum diving well dimensions specified in Illustration A. If a public or semipublic swimming pool does not meet the dimensional requirements prescribed in Illustration A for diving, then the owner shall prominently display at least one sign that cautions users that the swimming pool is not suitable for diving. The warning sign shall state "NO DIVING" in letters that are 4 inches or larger or display the international symbol for no diving.

B. Diving from the deck of a public or semipublic swimming pool into water that is less than 5 feet deep shall be prohibited. Warning markers indicating in words or symbols that diving is prohibited shall be placed on the deck within 18 inches of the side of the shallow area of the swimming pool. A warning marker shall be positioned so that it can be read by a person standing on the deck facing the water.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-223. Water Circulation System

A. A public or semipublic swimming pool or spa shall have a water circulation system that provides complete circulation of water through all parts of the swimming pool or spa and can maintain water chemistry and water clarity requirements.

B. The water circulation system for a public or semipublic swimming pool shall have a turnover rate of at least once every 8 hours. The water circulation system of a public or semipublic spa shall have a turnover rate of at least once every 30 minutes. The water circulation system for a wading pool shall have a turnover rate of at least once every hour. The water circulation system shall be designed to give the proper turnover rate without exceeding the maximum filtration rate for the filter in R18-5-227(E).

C. Water circulation system components shall comply with American National Standard/NSF International Standard Number 50, "Circulation System Components and Related Materials for Swimming Pools, Spas/Hot Tubs," NSF International, 3475 Plymouth Road, P.O. Box 130140, Ann Arbor, Michigan [revised July, 1996, and no future editions] which is incorporated by reference and on file with the Office of the Secretary of State and the Department.

D. Water circulation system components shall be accessible for inspection, repair, or replacement.

E. Except as provided by this subsection, water withdrawn from a public or semipublic swimming pool or spa shall not be returned unless it has been filtered and adequately disinfected. Water may be withdrawn from a swimming pool for a water slide or a water fountain without being filtered or disinfected.

F. In a swimming pool complex with more than one swimming pool or where there is a combination of swimming pools and spas, each swimming pool and spa shall have a separate water circulation system.

G. Hydrotherapy jets or other devices which create roiling water or similar effects in a spa shall not be connected to the water

circulation system, but shall be operated through a separate system.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1). Manifest typographical error corrected in subsection (B) (Supp. 01-1).

R18-5-224. Piping and Fittings

A. The water velocity in discharge piping for public and semipublic swimming pools and spas shall not exceed 10 feet per second, except for copper discharge piping where the velocity shall not exceed 8 feet per second. The water velocity in suction piping shall not exceed 6 feet per second. Piping shall be sized to permit the rated flows for filtering and cleaning without exceeding the maximum head of the pump.

B. Water circulation system piping and fittings shall be constructed of materials that are able to withstand 150% of normal operating pressures. Suction piping shall be of sufficient strength so that it does not collapse when there is a complete shutoff of flow on the suction side of the pump. A licensed Arizona contractor shall conduct an induced static hydraulic pressure test of the water circulation system piping at 25 pounds per square inch for at least 30 minutes. The pressure test shall be performed before the deck is poured. Pressure in the water circulation system piping shall be maintained during the deck pour.

C. Water circulation piping and fittings shall be made of nontoxic, corrosion-resistant materials.

D. Water circulation piping and fittings shall be installed so that piping or fittings do not project into a public or semipublic swimming pool or spa in a manner that is hazardous to users.

E. Piping that is subject to damage by freezing shall have a uniform slope in one direction and shall be equipped with valves that will permit the complete drainage of the water in the swimming pool or spa.

F. Piping shall be designed to drain the swimming pool or spa water by removing drain plugs, manipulating valves, or other means.

G. Piping systems shall be identified by color or by stencils or labels located at conspicuous points.

H. Plastic water circulation piping shall comply with American National Standard/NSF International Standard Number 14, "Plastics Piping System Components and Related Materials," NSF International, 3475 Plymouth Road, P.O. Box 130140, Ann Arbor, Michigan [revised September, 1996, and no future editions] which is incorporated by reference and on file with the Office of the Secretary of State and the Department.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-225. Pumps and Motors

A. A pump and motor shall be provided for each water circulation system. The pump shall be sized to meet but not to exceed the flow rate required for filtering against the total head developed by the complete water circulation system. The pump shall be sized to comply with the turnover rate prescribed in R18-5-223(B).

B. Pumps and motors shall be readily and easily accessible for inspection, maintenance, and repair. When the pump is below the waterline, valves shall be installed on permanently connected suction and discharge lines. The valves shall be readily and easily accessible for maintenance and removal of the pump.

C. Each motor shall have an open, drip-proof enclosure. Each motor shall be constructed electrically and mechanically to perform satisfactorily and safely under the conditions of load in the environment normally encountered in swimming pool or spa installations. Each motor shall be capable of operating the pump under full load with a voltage variation of ± 10% from the nameplate rating. Each motor shall have thermal or current overload protection to provide locked rotor and running protection. Thermal or current overload protection may be built into the motor or in the line starter.

D. The pump shall be equipped with an emergency shut-off switch that is located within the swimming pool or spa enclosure to cut off power to the water circulation system if someone is entrapped on a main drain or suction outlet.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-226. Drains and Suction Outlets

A. A public and semipublic swimming pool shall be equipped with at least two main drains located in the deepest part of the swimming pool or a single gravity drain that discharges to a surge tank.

B. Each main drain shall be covered by a grate that is not be readily removable by users. The openings in the grate shall have a total area that is at least four times the area of the drain pipe.

C. The spacing of the main drains shall not be greater than 20 feet on centers and not more than 15 feet from each side wall.

D. A minimum of two suction outlets shall be provided for each pump in a suction outlet system for a public or semipublic spa. The suction outlets shall be separated by a minimum of 3 feet or located on two different planes [that is, one suction outlet on the bottom and one on a vertical wall or one suction outlet each on two separate vertical walls]. The suction outlets shall be plumbed to draw water through them simultaneously through a common line to the pump. Suction outlets shall be plumbed to eliminate the possibility of entrapping suction.

E. If the suction outlet system for a public or semipublic swimming pool or spa has multiple suction outlets that can be isolated by valves, then each suction outlet shall protect against user entrapment by either an antivortex cover, a grate, or other means approved by the Department.

F. A public or semipublic spa may be equipped with a single gravity drain which discharges to a surge tank instead of suction outlets. The total velocity of water through grate openings of the drain shall not exceed 2 feet per second.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-227. Filters

A. Filters shall be designed, located, and constructed to permit removal of filter manhole covers or heads for inspection, replacement, or repair of filter elements or filter media. No filtration system shall be installed beneath the surface of the ground or within an enclosure without providing adequate access for inspection and maintenance.

B. Pressure-type filters shall be equipped with a means to release internal pressure. Each pressure filter shall be equipped with an air relief piping system connected at an accessible point near the crown. Automatic air relief systems may be used instead of manual systems. The design of a filter with an automatic air relief system as its principal means of air release shall include lids that provide a slow and safe release of pressure. The design of a separation tank used in conjunction with any filter tank shall include a manual means of air release or a lid which provides a slow and safe release of pressure as it is opened.

C. Pressure filter systems shall be equipped with a sight glass installed on the waste discharge pipe.

D. Swimming pool and spa filters shall comply with American National Standard/NSF International Standard Number 50, "Circulation System Components and Related Materials for Swimming Pools, Spas/Hot Tubs," NSF International, 3475 Plymouth Road, P.O. Box 130140, Ann Arbor, Michigan [revised July, 1996, and no future editions] which is incorporated by reference and on file with the Office of the Secretary of State and the Department.

E. The maximum filtration rate shall not exceed the design flow rate prescribed by the National Sanitation Foundation Standard 50 for commercial filters. In no case shall the maximum filtration rate exceed the following:

1. The rate of filtration in a high-rate sand filter shall not exceed 25 gallons/minute/square foot.
2. The rate of filtration of a diatomaceous earth filter shall not exceed 2 gallons/minute/square foot.
3. The rate of filtration of a cartridge filter shall not exceed 0.375 gallons/minute/square foot.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-228. Return Inlets

A. Adjustable return inlets shall be provided for each public and semipublic swimming pool or spa. Return inlets shall be designed, sized, and installed to produce a uniform circulation of water throughout the swimming pool or spa. Where surface skimmers are used, return inlets on vertical walls shall be located to help bring floating particles within range of the surface skimmers.

B. A public or semipublic swimming pool shall have a minimum of two return inlets, regardless of the size of the swimming pool. The number of return inlets shall be based on two return inlets per 600 square feet of surface area, or fraction thereof.

C. Return inlets in a public or semipublic swimming pool shall be on a closed loop piping system. Public or semipublic spas with three or more return inlets shall be on a closed loop piping system.

D. Where the width of a public or semipublic swimming pool exceeds 30 feet, bottom returns shall be required. Bottom returns shall be flush with the pool bottom or designed to prevent injury to users.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-229. Gauges

A. Pressure gauges shall be installed on the water circulation system for each public and semipublic swimming pool and spa. Pressure gauges shall be installed in accessible locations where they can be read easily.

B. Pressure gauges shall be installed on the inlet and outlet manifold of the filter. Pressure gauges shall read at intervals of 1 pound per square inch [psi].

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-230. Flow meter

A public swimming pool shall be equipped with, a flow meter which indicates the rate of backwash through the filter. The flow meter shall be installed between the pump and the filter on a straight section of pipe in accordance with the manufacturer's specifications in a location where it can be read easily. The flow meter shall measure the rate of flow through the filter in gallons per minute and shall be accurate to within 5% under all conditions of flow. The flow meter shall have an indicator with a range of at least 150% of the normal flow rate.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-231. Strainers

The water circulation system shall include a removable strainer located upstream of the pump to prevent solids, debris, hair, or lint from reaching the pump and filters. The strainer shall be made of corrosion-resistant material. A strainer shall have openings that have a total area which is equal to at least four times the area of the suction piping.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-232. Overflow Collection Systems

A. An overflow collection system shall be installed in each public or semipublic swimming pool or spa.

B. The overflow collection system shall be designed and constructed so that the water level of the swimming pool is maintained at the mid-point of the operating range of the system's rim or weir device.

C. Rim type overflow collection systems shall be installed on at least two opposite sides and have a total length of at least 50% of the perimeter of a public or semipublic swimming pool. The overflow collection system shall be capable of carrying 50% of the design capacity of the water circulation system.

D. If overflow gutters are used, they shall be installed continuously around the swimming pool with the lip of the gutter level throughout its perimeter. Overflow gutters shall be provided with sufficient opening at the top and width at the bottom to permit easy cleaning. The overflow gutter bottom shall be pitched 1/4 inch per foot to drainage outlets located not more than 10 feet apart. Outlet piping shall be sized to circulate at least 50% of the capacity of the water circulation system and be properly covered by a drain grate. The surge tank for the overflow gutters shall be equipped with float controls which regulate the main drain, fill line, and overflow. The system surge capacity shall not be less than one gallon for each square foot of swimming pool surface area. Stainless steel gutters and other specialty gutter systems may be used if they are hydraulically equivalent to overflow gutters.

E. Surface skimmers shall be recessed into the swimming pool or spa wall and shall be installed to achieve effective skimming action throughout the swimming pool or spa.

1. A surface skimmer shall be provided for each 400 square feet of surface area, or fraction thereof, of a public or semipublic swimming pool. A minimum of two surface skimmers are required in a public or semipublic swimming pool. A surface skimmer shall be provided for each 200 square feet of surface area, or fraction thereof, of a public or semipublic spa.
2. The overflow slot shall be set level and shall not be less than 8 inches in width at the narrowest section.
3. The rate of flow through the skimmers shall be a minimum of 75% of the water circulation system capacity. Surface skimmers shall be designed to carry at least 30 gallons per minute per lineal foot of weir throat.
4. Where three or more surface skimmers are used, they must be on a closed loop piping system.
5. At least one surface skimmer shall be located on the side or near the corner of the swimming pool that is downwind of the area's prevailing winds.
6. Main drain piping shall be designed to carry at least 50% of the design flow.

F. Mixed inlet types [for example, surface skimmers and gutters] are prohibited in a public or semipublic swimming pool.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-233. Vacuum Cleaning Systems
A vacuum cleaning system shall be provided for each public and semipublic swimming pool. A vacuum cleaning system shall not create a hazard or interfere with the operation or use of the swimming pool. In integral systems, a sufficient number of vacuum cleaner fittings shall be located in accessible positions at least 10 inches below the water line. Alternatively, vacuum cleaner fittings may be installed as an attachment to the surface skimmers. A pressure cleaning system may be installed in addition to the required vacuum cleaning system.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-234. Disinfection
A. An adjustable automatic chemical feeder shall be provided to ensure the continuous disinfection of the water in a public or semipublic swimming pool or spa. Timers on disinfection equipment are prohibited. Disinfection shall be accomplished by chlorination or by another method that is approved by the Department. The method of disinfection shall effectively maintain an adequate disinfectant residual in the water which is subject to field testing by methods that are easy to use and accurate.
1. Chlorine disinfection equipment for a public or semipublic swimming pool shall be designed to maintain a free chlorine residual of 1.0 to 3.0 ppm. Chlorine disinfection equipment for a public or semipublic spa shall be designed to maintain a free chlorine residual of 3.0 to 5.0 ppm.
2. Bromine disinfection equipment for a public or semipublic swimming pool shall be designed to maintain a bromine residual of 2.0 to 4.0 ppm. Bromine disinfection equipment for a public or semipublic spa shall be designed to maintain a bromine residual of 3.0 to 5.0 ppm.

B. The use of chlorinated isocyanurates or cyanuric acid stabilizer for disinfection and stabilization is permitted. If used, chlorinated isocyanurates shall be fed so as to maintain required disinfectant residual levels. Cyanuric acid levels, whether from chlorinated isocyanurates or from the separate addition of cyanuric acid stabilizer, shall not exceed 150 ppm.

C. The use of chloramines as a primary disinfectant of swimming pool or spa water is prohibited.

D. The addition of gaseous disinfectant directly into a public or semipublic swimming pool is prohibited. The addition of dry or liquid disinfectant directly into a public or semipublic swimming pool or spa for routine disinfection is prohibited. This prohibition does not prohibit the use of liquid or dry disinfectants for shock treatment of a swimming pool or spa. A chlorine gas disinfection system shall not be used for the disinfection of water in a public or semipublic spa.

E. A common chlorine gas disinfection system may be utilized in separate swimming pools if separate metering and feeding devices are provided for each swimming pool.

F. If gaseous chlorine is used for disinfection, the following shall be provided:
1. The chlorinator, chlorine cylinders, and associated chlorination equipment shall be located in a separate well ventilated enclosure at or above ground level. The enclosure shall be reasonably gas-tight, noncombustible, and corrosion-resistant. The door of the enclosure shall open to the outside and shall not open directly toward the swimming pool.
2. If chlorination equipment is placed in a room, then an exhaust fan or gravity ventilation system shall be provided. Mechanical exhausters shall take suction 6 inches or less above the floor and discharge through corrosion-resistant louvers to a safe outside location. A gravity ventilation system shall be designed and constructed to discharge to the outside from floor level. Fresh air intakes shall be located no closer than 3 feet above the ventilation discharge. Chlorine room exhausts shall be directed away from the swimming pool to an area which is normally unoccupied. Chlorine room fans shall be capable of completely changing the air in the room at least once a minute.
3. Electrical switches to control lighting and ventilation in the chlorine room shall be located on the outside of the enclosure and adjacent to the door.
4. Chlorine cylinders shall be kept in an upright position and securely anchored to prevent them from falling. Chlorine cylinders may be stored indoors or out. If stored outside, chlorine cylinders shall not be stored in direct sunlight. Chlorine cylinders shall not be stored near an elevator, ventilation system, or heat source.
5. A warning sign shall be placed on the outside of the door to the chlorine room which cautions persons of the danger of chlorine gas within the enclosure. The warning shall be in letters 3 inches high or larger. The door to the chlorine room shall be provided with a shatter resistant inspection window.
6. Chlorinators shall be a solution-feed type, capable of delivering chlorine at its maximum rate without releasing chlorine gas to the atmosphere. Chlorinators shall be designed to prevent the backflow of water into the chlorine solution container.

G. Granular, tablet, stick, and other forms of dry disinfectant shall be fed by an adjustable automatic feeding device.

H. Disinfection equipment and chemical feeders shall comply with the requirements set forth in American National Standard/NSF International Standard 50, "Circulation System Components and Related Materials for Swimming Pools, Spas/Hot Tubs," NSF International, 3475 Plymouth Road, P.O. Box 130140, Ann Arbor, Michigan [revised July, 1996, and no future editions] which is incorporated by reference and on file with the Office of the Secretary of State and the Department.

I. If a chemical feeder is used, it shall be installed to inject solution downstream from the filter and the heater. An erosion-type feeder may be installed to feed solution to the suction side of the pump. A chemical feeder shall be wired so it cannot operate unless the filter pump is running.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-235. Cross-Connection Control
A. Cross-connections between the distribution system of a public water system and the water circulation system of a public or semipublic swimming pool or spa are prohibited.

B. Potable water for make-up water purposes may be introduced into a public or semipublic swimming pool or spa in any of the following ways:
1. Through an over-the-rim spout with an air-gap of at least twice the diameter of the pipe and not less than 6 inches above the overflow level. If an over-the-rim spout is used, it shall be located so that it does present a tripping hazard. The open end of an over-the-rim spout shall have no

sharp edges and shall not protrude more than 2 inches beyond the edge of the swimming pool or spa wall;

2. Through a float controlled make-up water feed tank with an air gap of at least 3 inches above the overflow level; or
3. Through a submerged inlet that is protected against back-siphonage by at least a pressure vacuum breaker that is installed so that the bottom of the backflow prevention assembly is a minimum of 12 inches above the level of the coping.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-236. Disposal of Filter Backwash, Wasted Swimming Pool or Spa Water, and Wastewater

All sewage from plumbing fixtures, including urinals, toilets, lavatories, showers, drinking fountains, floor drains, and other sanitary facilities shall be disposed of in a sanitary manner. Filter backwash and wasted swimming pool or spa water shall be discharged into a sanitary sewer through an approved air gap, an approved subsurface disposal system, or by other means that are approved by the Department. The method of disposal shall comply with applicable disposal requirements established by a county, municipal, or other local authority. There shall be no direct physical connection between the sewer system and the water circulation system of a public or semipublic swimming pool or spa.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-237. Lifeguard Chairs

Each public swimming pool shall have at least one elevated lifeguard chair for each 3,000 square feet of pool surface area or fraction thereof. At least one lifeguard chair shall be located close to the deep area of the swimming pool and shall provide a clear, unobstructed view of the swimming pool bottom. If a public swimming pool is provided with more than one lifeguard chair or the width of the public swimming pool is 45 feet or more, then lifeguard chairs shall be located on each side of the public swimming pool.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-238. Lifesaving and Safety Equipment

A. Public and semipublic swimming pools shall have lifesaving and safety equipment that is conspicuously and conveniently located and maintained ready for immediate use at all times.

B. Each public or semipublic swimming pool shall have one ring buoy or a similar flotation device. Each ring buoy or flotation device shall be attached to 50 feet of 1/4 inch rope.

C. Each semipublic and public swimming pool shall have at least one shepherd crook that is mounted on a rigid 16-foot pole.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-239. Rope and Float Lines

A rope and float line shall be installed across each public swimming pool on the shallow side of the break in grade between the shallow and deep portions of the pool [that is, within 1 to 2 feet of the point where the floor slope begins to exceed 1 foot in 10 feet]. The rope shall be a minimum of 3/4 inch in diameter and supported by floats spaced at intervals not greater than 7 feet. The rope and float line shall be securely fastened to wall anchors that are made of corrosion-resistant materials. The wall anchors shall be recessed or have no projection that constitutes a hazard when the float line is removed.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-240. Barriers

A. A public swimming pool or spa and deck shall be entirely enclosed by a fence, wall, or barrier that is at least 6 feet high. A semipublic swimming pool or spa and deck shall be entirely enclosed by a fence, wall, or barrier that is at least 5 feet high. The height of the fence, wall, or barrier shall be measured on the side of the barrier which faces away from the swimming pool or spa.

B. Fences or walls shall:

1. Be constructed to afford no external handholds or footholds;
2. Be of materials that are impenetrable to small children;
3. Have no openings or spacings of a size that a spherical object 4 inches in diameter can pass through; and
4. Be equipped with a gate that opens outward from the swimming pool or spa. The gate shall be equipped with a self-closing and self-latching closure mechanism or a locking closure located at or near the top of the gate, on the pool side of the gate, and at least 54 inches above the floor.

C. The distance between the horizontal components of a fence shall not be less than 45 inches apart. The horizontal members shall be located on the interior side of the fence. Spacing or openings between vertical members shall be of a size that a spherical object 4 inches in diameter cannot pass through.

D. The maximum mesh size for a wire mesh or chain link fence shall be a 1 3/4 inches square.

E. Masonry or stone walls shall not contain indentations or protrusions except for normal construction tolerances and tooled masonry joints.

F. If a wall of a building serves as part of the barrier around a public or semipublic swimming pool or spa, there shall be no direct access to the swimming pool or spa through the wall except as follows:

1. Windows leading to the swimming pool or spa area shall be equipped with a screwed-in place wire mesh screen or a keyed lock that prevents opening the window more than 4 inches.
2. A hinged door leading to the swimming pool or spa area shall be self-closing and shall have a self-latching device. The release mechanism of the self-latching device shall be located at least 54 inches above the floor.
3. If an additional set of doors is required by the fire code allowing access to the swimming pool or spa, they shall be self-closing and self-latching, equipped with panic bars no less than 54 inches from the floor to the bottom of the bar and designated "For Emergency Use Only."
4. Sliding doors leading to the swimming pool or spa area are prohibited except for sliding doors that are self-closing and self-latching.

G. If a barrier is composed of a combination concrete masonry unit and wrought-iron, the wrought iron portion shall be installed flush with the outside vertical surface of the concrete masonry unit. The space between the wrought iron and the concrete masonry unit shall be 1/2 inch or less. The vertical members of the wrought iron shall be spaced 4 inches on center.

H. Filtration, disinfection, and water circulation equipment shall be enclosed by a wall or fence.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-241. Public Swimming Pools; Bathhouses and Dressing Rooms

A. Separate dressing rooms shall be provided for each sex. Dressing rooms shall be equipped with baskets or other checking facilities.

B. All entrances to and exits from the dressing rooms shall be effectively screened to interrupt the line of sight of persons outside the dressing rooms.

C. Walls and partitions of dressing rooms, locker rooms, toilets, and showers shall be light colored, smooth, nonabsorbent, and easily cleanable. Concrete or pumice blocks used for interior wall construction in these locations shall be finished and sealed to provide a smooth and easily cleanable surface. Partitions shall be designed so that a waterway is provided between partitions and the floor to permit thorough cleaning of the walls and floor areas with hoses and brooms.

D. Floors shall be of nonslip construction, free of cracks or openings, and sloped to adequate drains so the surface will be free of standing water and puddles. Floors shall be sloped not less than 1/4 inch per foot toward the drains to ensure positive drainage. Carpeting is prohibited.

E. All furniture shall be of simple character and easily cleanable. Locker compartments, partitions, booths, furniture, and other appurtenances in dressing rooms shall be so installed or raised above the floor to permit washing down the dressing rooms and bathhouse interiors.

F. An adequate number of hose bibs shall be provided for washing down the dressing room or bathhouse interior.

G. Dressing rooms, toilets, and showers shall be provided with adequate lighting and ventilation.

H. Toilet facilities shall be provided for each sex. For male users, there shall be one toilet and one urinal for each 100 bathers or fraction thereof. For female users, there shall be one toilet for each 50 bathers, or fraction thereof. In no case shall less than two toilets be provided for female users. Sanitary napkin dispensers shall be installed in toilet or shower areas designated for female users.

I. Shower and handwashing facilities with hot and cold water and soap shall be provided for each dressing room. Hot and cold water shall be provided at all shower heads. The water heater and thermostatic mixing valve shall be inaccessible to users and shall be capable of providing two gallons per minute of 90°F water to each shower head. A minimum of two shower heads shall be provided in each dressing room. Each dressing room shall have one shower head for each 50 bathers or fraction thereof.

J. One lavatory with an unbreakable mirror shall be provided in each dressing room for the first 100 users. An additional lavatory and unbreakable mirror shall be provided for each additional 100 users or fraction thereof. Soap dispensers for providing either liquid or powdered soap shall be provided at each lavatory. Soap dispensers shall be made of metal or plastic with no glass permitted.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-242. Semipublic Swimming Pools; Toilets and Lavatories

A. A bathroom with a minimum of one toilet shall be provided for each sex.

B. Each bathroom shall have at least one lavatory. Soap dispensers for providing either liquid or powdered soap shall be provided at each lavatory. Soap dispensers shall be made of metal or plastic with no glass permitted.

C. An establishment that operates a semipublic swimming pool or spa and provides a private room with a toilet and lavatory for bathers shall be deemed to have complied with the requirements of this Section.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-243. Drinking Water Fountains

Drinking water from an approved source and dispensed through one or more drinking fountains shall be located on the deck of each public swimming pool or spa.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-244. Wading Pools

A. A wading pool is a type of public or semipublic swimming pool. The design criteria prescribed in this Article for public or semipublic swimming pools apply, except as provided in this Section.

B. A wading pool shall be physically set apart from public and semipublic swimming pools.
1. A wading pool shall be separated from a public swimming pool by a minimum 4-foot high fence or partition with a self-closing, self-latching gate.
2. A wading pool shall be separated from a semipublic swimming pool by at least 4 feet of deck.
3. A wading pool shall not be located adjacent to the deep area of a public or semipublic swimming pool.

C. A wading pool shall have a maximum depth of 24 inches. Water depths may be reduced from the stated maximums and brought to zero at the most shallow point of the wading pool.

D. The floor of a wading pool shall be uniform with a maximum slope of 1 foot of fall in 10 feet. The floor of a wading pool shall have a slip-resistant surface.

E. All wading pools shall have separate equipment for water circulation and disinfection. There shall be no cross-connection between the water circulation system of a wading pool and a public or semipublic swimming pool. The water in a wading pool shall have a maximum turnover cycle of 1 hour.

F. At least two main drains shall be provided at the deepest point in a wading pool. Each main drain shall be covered by a grate which cannot be removed by users. The openings in the grate shall have a total area that is at least four times the area of the drain pipe. In the alternative, a wading pool may be equipped with a single gravity drain which discharges to a surge tank.

G. Surface skimmers shall be provided on the basis of at least one skimmer for each 200 square feet of wading pool surface area. Surface skimmer flow rates shall be the same as required for public and semipublic swimming pools. Where only one skimmer is provided, the main drain may be connected through the skimmer.

H. Return inlets shall be provided and arranged to produce a uniform circulation of water and maintain a uniform disinfectant residual throughout the wading pool. Where three or more return inlets are required, they shall be on a closed loop piping system.

I. Suction outlets in a wading pool shall have plumbing provisions so as to relieve any possibility of entrapping suction.

J. Gaseous chlorine shall not be used for the disinfection of wading pool water.

K. A drinking fountain at a height convenient to small children or a drinking fountain with a raised step shall be provided in the area of the wading pool.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-245. Timers for Public and Semipublic Spas
The timer for a public or semipublic spa which controls the hydrotherapy jets shall be located at least 5 feet from the spa and shall have a maximum time limit of 15 minutes.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-246. Air blower and Air Induction Systems for Public and Semipublic Spas
An air blower system or air induction system for a public or semipublic spa shall comply with the following requirements:

1. The system shall prevent water backflow which could cause an electrical shock hazard.
2. Air intake sources shall not introduce water, dirt, or contaminants into the spa.
3. The system shall be properly sized for a commercial spa application.
4. If the air blower is installed within an enclosure or indoors, then adequate ventilation shall be provided.
5. Integral air passages shall be pressure tested and shall provide structural integrity to a value of 1 1/2 times the intended working pressure.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-247. Water Temperature in Public and Semipublic Spas
The temperature of heated water coming into a public or semipublic spa shall not exceed 104°.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-248. Special Use Pools

A. A person who intends to construct a special use pool shall notify the Department and provide plans, specifications, and a description of the intended use of the special use pool. The Department shall use best professional judgment in approving a special use pool, taking into consideration the intended use of the pool, the conditions under which it will operate, and the safety of users. The Department may consider the design requirements prescribed by an official sanctioning athletic body such as the National Collegiate Athletic Association [NCAA], National Federation of State High School Associations [NFSHSA], U.S. Swimming, U.S. Diving, or the Internationale de Natation Amateur [FINA] in using best professional judgement to approve a special use pool that is intended for competitive swimming and diving.

B. A special use pool that is designed with exercise or training bars in the pool shall be restricted to the special use when the bars are located in the pool. The bars shall:

1. Be constructed of durable and corrosion-resistant material;
2. Be sealed, welded shut, or capped at both ends to prevent retention of water within the bars;
3. Bars may be removable. Removable bars shall be wedge anchored in place and the anchors shall be covered. Water-tight anchor plugs [95% efficiency] shall be provided when the bars are removed; and
4. Extend not more than 4 inches from the side of the pool into the water. The minimum clear opening from the inside of the bar to the side of the swimming pool shall not be less than 2 inches.

D. A special use pool that is designed with a ramp shall comply with the following:

1. The ramp shall be constructed of slip-resistant material;
2. The slope of the ramp shall not exceed 1 foot in 12 feet;
3. The width of the ramp shall be at least 3 feet;
4. The ramp shall have a level platform at the top and the bottom of the ramp;
5. The ramp shall be equipped with at least a 3 1/2 foot high guardrail installed on the deck and extending the length of the ramp;
6. The ramp shall be constructed with return inlets located on the pool and ramp walls along the length of the ramp.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-249. Variances

A. The Department may grant a variance from a requirement prescribed in this Article upon a demonstration by the applicant that an alternative design, material, appurtenance, or technology is equivalent to a requirement prescribed in this Article. If a variance is granted, it shall be conditioned upon the applicant's use of the approved alternative.

B. The Department shall not grant a variance that results in an unreasonable risk to the health of swimming pool or spa users.

C. The applicant shall request a variance in writing. A variance request shall contain the following information:

1. Identification of the requirement prescribed in this Article for which a variance is requested;
2. Explanation of the reasons why the applicant cannot comply with the requirement;
3. A complete description of the alternative design, material, or technology to be installed and used in the swimming pool or spa, including design plans, specifications, and a description of the cost;
4. A demonstration that the alternative design, material, or technology to be installed and used in the swimming pool or spa is equivalent to the requirement in this Article and will not result in an unreasonable risk to users; and
5. A statement that the applicant will perform reasonable requirements prescribed by the Department that are conditions of a variance.

D. The applicant shall submit a request for a variance with an application for design approval. The Department shall determine whether the application for design approval and the variance request are complete. Within 30 days after the date of the submittal of the application for design approval and the variance request, the Department shall issue a written notice to the applicant that states that the request for a variance and the application for design approval are complete or which states that the request for a variance or the application for design approval is incomplete and identifies specific information deficiencies in the application for design approval or the variance request.

E. The Department may convene an advisory committee consisting of representatives of public and semipublic swimming pool and spa owners, public and semipublic swimming pool and spa building contractors, professional engineers, and county environmental and health departments to make a recommendation on a variance request.

F. If the Department grants the request for a variance, the Department shall identify the requirement for which the variance is granted, specify any conditions to the grant of a variance, and issue a design approval. If the Department denies the request for a variance, the Department shall issue a notice of intent to deny the request for a variance to the applicant. The notice shall state the reasons for the denial of the request for a variance and shall include a description of the applicant's right to request a hearing on the denial of the variance request pursuant to A.R.S. § 41-1092.03 and to request an informal settlement

conference pursuant to A.R.S. § 41-1092.06. If the Department denies a request for a variance, the Department may either deny the application for design approval or issue a design approval that requires compliance with the requirement for which the variance is requested.

G. In considering a request for a variance from a requirement prescribed in this Article, the Director shall consider the following factors:

1. The intended use of the public or semipublic swimming pool or spa;
2. The safety of the alternative design, material, or technology for which a variance is requested; and
3. The cost and other economic considerations associated with requiring compliance with the requirement prescribed in this Article as compared to the alternative for which a variance is requested.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

R18-5-250. Inspections

A. An inspector from the Department, upon presentation of credentials, may enter into any public or semipublic swimming pool or spa to determine compliance with this Article. The inspector may inspect records, equipment, and facilities; take photographs; and take other action reasonably necessary to determine compliance with this Article.

B. The owner or manager of a public or semipublic swimming pool or spa may accompany the inspector during an inspection.

C. An inspector from the Department may inspect a public or semipublic swimming pool or spa without giving prior notice of the inspection to the owner or operator of the swimming pool or spa.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

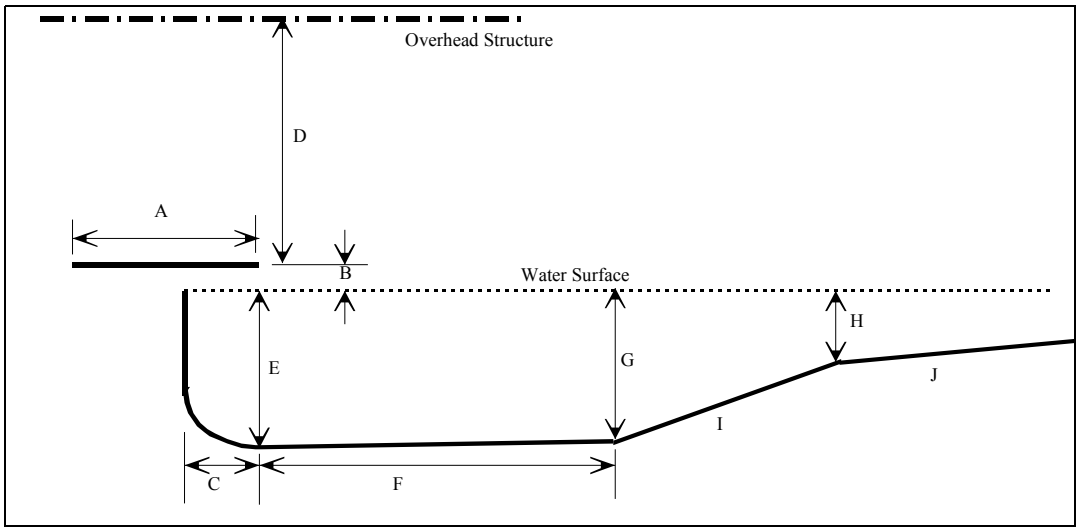
R18-5-251. Enforcement

A. If an inspector finds a violation of this Article, the Department may issue a notice of violation to the owner of a public or semipublic swimming pool or spa. A notice of violation shall state specifically the nature of the violation and shall allow a reasonable time for the owner to correct the violation.

B. If the Director has reasonable cause to believe that a person has constructed a public or semipublic swimming pool or spa in violation of this Article, the Director may order the closure of the swimming pool or spa by issuing a cease and desist order by following the procedures for abatement of environmental nuisances in A.R.S. § 49-142.

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

Illustration A. Diving Well Dimensions for Swimming Pools



Note: This profile does not apply to a special use pool that is designed for competitive diving.

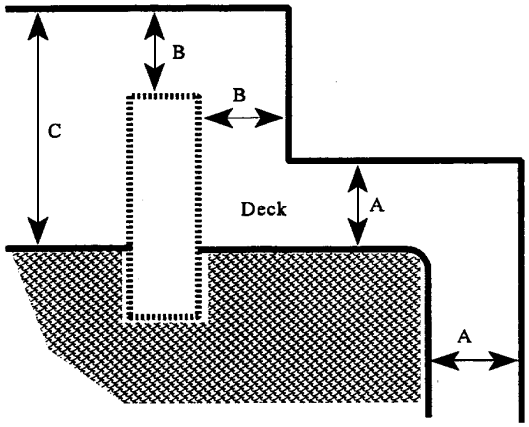
A. Maximum length of diving board	10 feet
B. Maximum height of board above the water	20 inches
C. Overhang of the board from wall	Minimum: 2 feet Maximum: 3 feet
D. Minimum distance to an overhead structure	15 feet
E. Minimum depth of water at the plummet	9 feet
F. Distance from plummet to start of upslope	18 feet
G. Minimum depth of water at start of the upslope	Depth of water at plummet minus 6 inches

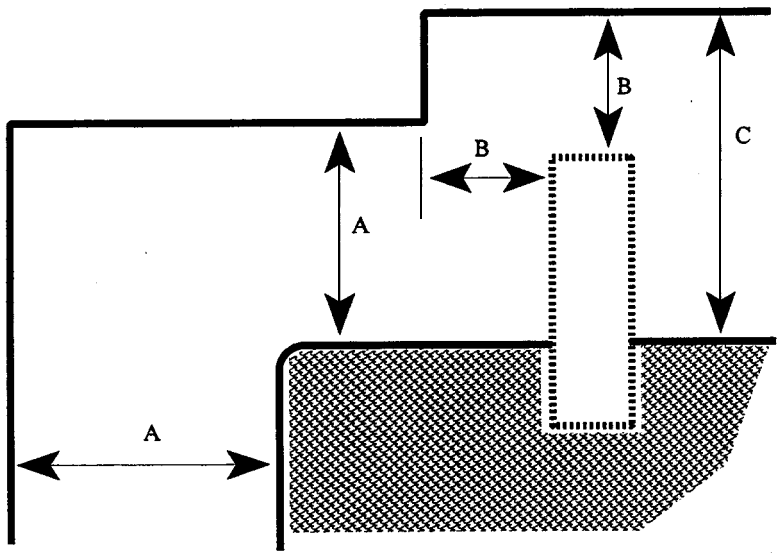
H. Depth of water at the breakpoint	Public swimming pool: 5 feet Semipublic swimming pool: 4 feet
I. Maximum slope: breakpoint towards deep end	1 foot of fall in 3 feet
J. Slope of bottom in shallow area	1 foot of fall in 10 feet
Minimum width of pool in diving area	20 feet
From plummet to pool wall at the side	10 feet

Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

Illustration B. Minimum Distance Requirements for Decks

Dimension	Public (in Feet)	Semipublic (in feet)
A	**10**	**4**
B	**5**	**4**
C	**15**	**11**





Historical Note
Adopted effective February 19, 1998 (Supp. 98-1).

ARTICLE 3. WATER QUALITY MANAGEMENT PLANNING

R18-5-301. Definitions
In addition to the definitions established in R18-9-101, the following terms apply to this Article:

1. "Certified Areawide Water Quality Management Plan" means a plan prepared by a designated Water Quality Management Planning Agency under Section 208 of the Federal Water Pollution Control Act (P.L. 92-500) as amended by the Water Quality Act of 1987 (P.L. 100-4), certified by the Governor or the Governor's designee, and approved by the United States Environmental Protection Agency.
2. "Designated management agency" means those entities designated in a Certified Areawide Water Quality Management Plan to manage sewage treatment facilities and sewage collection systems in their respective area.
3. "Designated water quality planning agency" means the single representative organization designated by the Governor under Section 208 of the Federal Water Pollution Control Act (P.L. 92-500) as amended by the Water Quality Act of 1987 (P.L. 100-4) as capable of developing effective areawide sewage treatment management plans for the respective area. The state acts as the planning agency for those non-tribal portions of the state for which there is no designated water quality planning agency.
4. "Facility Plan" means the plans, specifications, and estimates for a proposed sewage treatment facility, prepared under Section 201 and 203 of the Federal Water Pollution Control Act (P.L. 92-500) as amended by the Water Quality Act of 1987 (P.L. 100-4), and submitted to the Department by and for a designated management agency.
5. "General Plan" means a municipal statement of land-development policies that may include maps, charts, graphs, and text that list objectives, principles, and standards for local growth and development enacted under state law.
6. "Service area" means the geographic region specified for a designated management agency by the applicable Certified Areawide Water Quality Management Plan, Facility Plan, or General Plan.
7. "State water quality management plan" means the following elements:
   a. Certified Areawide Water Quality Management Plans and amendments;
   b. Water quality rules and laws;
   c. Final total maximum daily loads approved by the United States Environmental Protection Agency for impaired waters;
   d. Water quality priorities established by the Department;
   e. Intergovernmental agreements between the Department and a designated water quality planning agency or a designated management agency; and
   f. Active management area plans adopted by the Department of Water Resources.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 559, effective January 2, 2001 (Supp. 01-1).

R18-5-302. Certified Areawide Water Quality Management Plan Approval
A designated water quality planning agency shall submit a proposed Certified Areawide Water Quality Management Plan or plan amendment to the Director for review and approval. Upon approval, the Governor or the Governor's designee shall:

1. Certify that the plan or plan amendment is incorporated into and is consistent with the state water quality management plan, and
2. Submit the plan or plan amendment to the United States Environmental Protection Agency for approval.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 559, effective January 2, 2001 (Supp. 01-1).

R18-5-303. Determination of Conformance
All sewage treatment facilities, including an expansion of a facility, shall, before construction, conform with the Certified Areawide Water Quality Management Plan, Facility Plan, and General Plans as specified in subsections (1) and (2).

1. The Department shall make the determination of conformance if the sewage treatment facility or expansion of the facility conforms with the Certified Areawide Water Quality Management Plan and Facility Plan that prescribe a configuration for sewage treatment and sewage collection system management by a designated management agency within the service area.
2. If the condition specified in subsection (1) is not met, the Department shall make the determination of conformance as follows:
   a. If no Facility Plan is applicable and a Certified Areawide Water Quality Management Plan as described in subsection (1) is available, the Department shall rely on the Certified Areawide Water Quality Management Plan for the determination of conformance.
   b. If no Certified Areawide Water Quality Management Plan as described in subsection (1) is available, the Department shall make the determination of conformance based on conformance with applicable General Plans and after conferring with the designated water quality planning agency for the area and any responsible and affected governmental unit.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 559, effective January 2, 2001 (Supp. 01-1).

ARTICLE 4. SUBDIVISIONS

R18-5-401. Definitions
In this Article unless the context otherwise requires:

1. "Approved" or "approval" means approved in writing by the Department.
2. "Condominium" means a subdivision established as a horizontal property regime pursuant to A.R.S. § 33-551 et seq.
3. "Department" means the Department of Environmental Quality or its designated representative.
4. "Garbage" means putrescible animal and vegetable wastes resulting from the handling, preparation, cooking and consumption of food.
5. "Refuse" means all putrescible and nonputrescible solid wastes (except body wastes), including garbage, rubbish, ashes, street cleanings, dead animals, abandoned automobiles, and solid market and industrial wastes.
6. "Subdivision" has the meaning defined in A.R.S. § 32-2101.

Historical Note
Correction in subsection (E) citation to A.R.S. should have read § 32-2101. Amended effective June 21, 1978 (Supp. 78-3). Former Section R9-8-1011 renumbered without change as Section R18-5-401 (Supp. 89-2).

R18-5-402. Approval of plans required

A. No subdivision or portion thereof shall be sold, offered for sale, leased or rented by any corporation, company or person, or offered to the public in any manner, and no permanent building shall be erected thereon until plans and specifications for the water supply, sewage disposal and method of garbage disposal to be provided in or to serve such subdivision shall have been submitted to and approved by the Department.

B. The plans of any proposed water supply and sewage disposal system shall be submitted in quadruplicate on a plat of the subdivision as recorded, or as will be recorded, in the office of the county recorder.

Historical Note
Former Section R9-8-1012 renumbered without change as Section R18-5-402 (Supp. 89-2).

R18-5-403. Application for approval

A. An application for approval, prepared in duplicate on forms furnished by the Department, shall be filed at the time the plans are submitted for approval. The form shall be completely filled out unless indicated otherwise.

B. The distance to the nearest public water supply main and to a sewer main of a municipal or community system shall be given.

Historical Note
Former Section R9-8-1013 renumbered without change as Section R18-5-403 (Supp. 89-2).

R18-5-404. Size of lots

The minimum size lot approved by the Department will be governed largely by the area necessary for the safe accommodation of individual wells and/or sewage disposal systems. Where both the water supply and sewage disposal system must be developed on the same lot, the minimum size shall be at least one acre, excluding streets, alleys and other rights-of-way. Where water from a central system is provided for residential uses, the lot shall be sufficient to accommodate the sewage disposal system and provide for at least 100 percent expansion of the system based on a four-bedroom house within the bounds of the property allowing a minimum of five feet distance to the property lines. Where lots are zoned for commercial uses, the lot shall be sufficient to accommodate the sewage disposal system and provide for at least 100 percent expansion of the system within the bounds of the property allowing a minimum of five feet distance to the property lines.

Historical Note
Former Section R9-8-1014 renumbered without change as Section R18-5-404 (Supp. 89-2).

R18-5-405. Responsibility of subdivider

Where plans for a subdivision include a public water supply system, or public sewerage system, it shall be the responsibility of the subdivider to provide the facilities to each lot in the subdivision prior to human occupancy. The installation of such facilities shall be in accordance with plans, or any revisions thereof, approved by the Department.

Historical Note
Former Section R9-8-1015 renumbered without change as Section R18-5-405 (Supp. 89-2).

R18-5-406. Public water systems

A. Where water from an approved public water system is proposed for use in a subdivision, the inside diameter, length, and location of all proposed and existing water mains and valves necessary to serve each and every lot shall be shown on the subdivision plat. If the existing main to which a connection will be made is not immediately adjacent to the property, the direction and distance shall be indicated on the plat by an arrow or other suitable means.

B. A letter shall be obtained and submitted with the application for approval of the subdivision from responsible officials of the water system indicating that an agreement has been reached to supply water to each individual lot in the subdivision.

C. Where the owner of a subdivision, or other interested person, firm, company or corporation, proposes to develop a source or sources of supply and to construct a distribution system to furnish water to the subdivision, either free or for charge, complete details of the proposed water system including plans and specifications shall be furnished. Department approval of the supply and proposed system shall first be obtained before an approval for the sale of lots will be granted. The installation of such facilities shall be in accordance with the plans, and any revisions thereof, approved by the Department.

D. Proposed water supply and distribution systems shall comply with A.A.C. Title 18, Chapter 4, Article 2, except those distribution lines which are a common element of a condominium shall be exempt from A.A.C. R18-4-234.

E. Where water from an approved public water system is proposed for use in a subdivision, the Department shall issue a Certificate of Approval for Sanitary Facilities for a Subdivision only if the applicant has complied with subsections (A) and (B) of this Section and the public water system is either:
1. in compliance with the provisions of A.A.C. Title 18, Chapter 4, Article 2; or
2. making satisfactory progress toward compliance with the provisions of A.A.C. Title 18, Chapter 4, Article 2 under a schedule approved by the Department.

F. The Department shall revoke the Certificate of Approval for Sanitary Facilities for a Subdivision and notify the Department of Real Estate of such action if the public water system in use by the subdivision is creating an environmental nuisance pursuant to A.R.S. § 49-141 and is neither:
1. is compliance with the provisions of A.A.C. Title 18, Chapter 4, Article 2; nor
2. making satisfactory progress toward compliance with the provisions of A.A.C. Title 18, Chapter 4, Article 2 under a schedule approved by the Department.

Historical Note
Amended effective June 21, 1978 (Supp. 78-3). Former Section R9-8-1021 renumbered without change as Section R18-5-406 (Supp. 89-2). Amended effective July 25, 1990 (Supp. 90-3).

R18-5-407. Public sewerage systems

A. Where a public sewerage system is already in existence, or if sewers are proposed and have been approved by the Department, it shall be necessary to show lines indicating the approximate location and size of the sewers on the subdivision plat.

B. Where the proposed sewers will connect to an existing public sewerage system, a letter from officials of the system shall be required stating that acceptable plans have been submitted and that the subdivider has been granted permission to connect to and become a part of the public sewerage system.

C. Proposed sewage disposal facilities shall comply with A.A.C. Title 18, Chapter 9, Article 8, except those drain lines which

are a common element of a condominium shall be exempt from R18-5-811.

D. Where a public sewerage system is already in existence, or if sewers are proposed and have been approved by the Department, the Department shall issue a Certificate of Approval for Sanitary Facilities for a Subdivision only if the applicant has complied with subsections (A) and (B) of this Section and the public sewerage system is either:
1. in compliance with the provisions of A.A.C. Title 18, Chapter 9, Article 8; or
2. making satisfactory progress toward compliance with the provisions of A.A.C. Title 18, Chapter 9, Article 8 under a schedule approved by the Department.

E. The Department shall revoke the Certificate of Approval for Sanitary Facilities for a Subdivision and notify the Department of Real Estate of such action if the public sewerage system in use by the subdivision is creating an environmental nuisance pursuant to A.R.S. § 49-141 and is neither:
1. In compliance with the provisions of A.A.C. Title 18, Chapter 9, Article 8; nor
2. Making satisfactory progress toward compliance with the provisions of A.A.C. Title 18, Chapter 9, Article 8 under a schedule approved by the Department.

Historical Note
Amended effective June 21, 1978 (Supp. 78-3). Former Section R9-8-1026 renumbered without change as Section R18-5-407 (Supp. 89-2). Amended effective July 25, 1990 (Supp. 90-3).

R18-5-408. Individual sewage disposal systems

A. Recommendations are found in the engineering bulletins of the Department and such additional requirements as may be provided by local health departments to assist in approval regarding the design, installation and operation of individual sewage disposal systems. Copies of these bulletins may be obtained from the Department.

B. Where soil conditions and terrain features or other conditions are such that individual sewage disposal systems cannot be expected to function satisfactorily or where groundwater or soil conditions are such that individual sewage disposal systems may cause pollution of groundwater, they are prohibited.

C. Where such installations may create an unsanitary condition or public health nuisance, individual sewage disposal systems are prohibited.

D. The use of cesspools is prohibited.

E. Where an individual sewage disposal system is proposed, the following conditions shall be satisfied:
1. A geological report shall be made by an engineer, geologist or other qualified person. The geological report shall include results from percolation tests and boring logs obtained at locations designated by the county health departments. There shall be a minimum of one percolation test and boring log per acre, or one percolation test and boring log per lot where lots are larger than one acre, except when it can be shown by submission of other reliable data that soil conditions are such that individual disposal systems could reasonably be expected to function properly on each lot in the proposed subdivision. The Department may require additional tests when it deems necessary. The approval of a subdivision, based upon such reports, shall not extend to the plat if it is further subdivided or lot lines are substantially relocated.
2. Results of all tests shall be submitted to the Department and the local health department for review and approval of the subdivision for the use of individual sewage disposal systems.
3. Such approval must be obtained in writing from the local health department and a copy of the approval shall be submitted to the Department with the subdivision application for approval.

Historical Note
Former Section R9-8-1027 renumbered without change as Section R18-5-408 (Supp. 89-2).

R18-5-409. Refuse disposal

A. The storage, collection, transportation and disposal of refuse and other objectionable wastes shall be governed by A.A.C. Title 18, Chapter 8, Article 5.

B. Where an approved community or private refuse collection service is available, arrangements shall be made to have this service furnished to the subdivision. A letter, from the community or private collection company, stating that the collection service will be made available to the subdivision, is required.

C. Where refuse collection service is not available, it will be the responsibility of the subdivider to notify each purchaser or tenant that the hauling of all refuse is an individual responsibility and that all refuse must be properly stored pending removal and disposed of at disposal areas specified in the plan approved by the Department.

D. Where a collection service or an existing approved disposal area is not available to the subdivision, a plan approval will not be granted unless a separate disposal area is provided by the subdivider or arrangements are made to utilize a new, conveniently located disposal area. Such arrangements shall include, but not be limited to, the written permission of the person responsible for the operation of the new site.

Historical Note
Former Section R9-8-1031 renumbered without change as Section R18-5-409 (Supp. 89-2).

R18-5-410. Condominiums

A. New water distribution lines and new wastewater drain lines which are to be used as a common element of a condominium and are not under the ownership and control of a public utility shall be constructed in accordance with applicable provisions of the Uniform Plumbing Code adopted by reference in A.A.C. R9-1-412(D), including the minimum standards for construction contained therein.

B. Plans to be submitted shall include inside diameter, length and location of all proposed and existing common usage water distribution lines and inside diameter, length, slope and location of all proposed and existing common usage wastewater drain lines necessary to serve each and every unit. Plans and specifications should be submitted with sufficient detail to indicate compliance with subsection (A) above.

C. Appropriate sections of the covenants shall be submitted that indicate adequate provisions have been made for the maintenance of water distribution lines and wastewater drain lines in common usage.

D. Approval of existing housing to be converted to condominiums is conditioned upon the water distribution system and wastewater drainage system being:
1. Approved in writing at the time of original construction by the local building inspection authority, or
2. Currently operating under a permit issued by a local building inspection authority, or
3. Certified to be adequate by an Arizona registered professional engineer who has affixed his signature and seal to as-built plans submitted for approval.

Historical Note
Adopted effective June 21, 1978 (Supp. 78-3). Former Section R9-8-1032 renumbered without change as Section R18-5-410 (Supp. 89-2).

R18-5-411. Violations
Any person, firm, company or corporation who offers for sale, lease or rent any tract of land contrary to these regulations shall be prosecuted in accordance with A.R.S. § 49-142 or as otherwise may be provided by law.

Historical Note
Adopted effective June 21, 1978 (Supp. 78-3). Former Section R9-8-1036 renumbered without change as Section R18-5-411 (Supp. 89-2). Amended effective April 2, 1990 (Supp. 90-2).

ARTICLE 5. MINIMUM DESIGN CRITERIA

Article 5, consisting of R18-5-501 through R18-5-509, recodified from 18 A.A.C. 4, Article 5 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-501. Siting Requirements
To the extent practicable, a new public water system or an extension to an existing public water system shall be geographically located to avoid a site which is:

1. Subject to a significant risk from earthquakes, floods, fires, or other disasters which could cause a breakdown of the public water system or portion thereof; or
2. Within the flood plain of a 100-year flood, except for intake structures and properly protected wells.

Historical Note
Section recodified from R18-4-501 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-502. Minimum Design Criteria

A. A public water system shall be designed using good engineering practices. A public water system which is designed in a manner consistent with the criteria contained in Engineering Bulletin No. 10, "Guidelines for the Construction of Water Systems," issued by the Arizona Department of Health Services, May 1978 (and no future editions), which is incorporated herein by reference and on file with the Office of the Secretary of State, shall be considered to have been designed using good engineering practices. Other system designs shall be approved if the applicant can demonstrate that the system will function properly and may be operated reliably in compliance with this Chapter. Minimum design criteria which are not subject to modification are listed in this Section.

B. A potable water distribution system shall be designed to maintain and shall maintain a pressure of at least 20 pounds per square inch at ground level at all points in the distribution system under all conditions of flow.

C. Water and sewer mains shall be separated in order to protect public water systems from possible contamination. All distances are measured perpendicularly from the outside of the sewer main to the outside of the water main. Separation requirements are as follows:

1. A water main shall not be placed:
   a. Within 6 feet, horizontal distance, and below 2 feet, vertical distance, above the top of a sewer main unless extra protection is provided. Extra protection shall consist of constructing the sewer main with mechanical joint ductile iron pipe or with slip-joint ductile iron pipe if joint restraint is provided. Alternate extra protection shall consist of encasing both the water and sewer mains in at least 6 inches of concrete for at least 10 feet beyond the area covered by this subsection (C)(1)(a).
   b. Within 2 feet horizontally and 2 feet below the sewer main.
2. No water pipe shall pass through or come into contact with any part of a sewer manhole. The minimum horizontal separation between water mains and manholes shall be 6 feet, measured from the center of the manhole.
3. The minimum separation between force mains or pressure sewers and water mains shall be 2 feet vertically and 6 feet horizontally under all conditions. Where a sewer force main crosses above or less than 6 feet below a water line, the sewer main shall be encased in at least 6 inches of concrete or constructed using mechanical joint ductile iron pipe for 10 feet on either side of the water main.
4. The separation requirements do not apply to building, plumbing, or individual house service connections.
5. Sewer mains (gravity, pressure, and force) shall be kept a minimum of 50 feet from wells unless the following conditions are met:
   a. Water main pipe, pressure tested in place to 50 psi without excessive leakage, is used for gravity sewers at distances greater than 20 feet from water wells; or
   b. Water main pipe, pressure tested in place to 150 psi without excessive leakage, is used for pressure sewers and force mains at distances greater than 20 feet from water wells. "Excessive leakage" means any amount of leakage which is greater than that permitted under the AWWA Standard applicable to the particular pipe material or valve type.
6. Requests for authorization to use alternate construction techniques, materials, and joints shall be reviewed by the Department, and such requests may be approved on a case-by-case basis.

D. A public water system shall not construct or add to its system a well which is located:

1. Within 50 feet from existing sewers unless the sewer main has been constructed in accordance with subsection (C)(5)(a) or (b) of this Section;
2. Within 100 feet of any existing septic tank or subsurface disposal system;
3. Within 100 feet of a discharge or activity which is required to obtain an Individual Aquifer Protection Permit, pursuant to A.R.S. §§ 49-241(A) through 49-251;
4. Within 100 feet of an underground storage tank as defined in A.R.S. § 49-1001; or
5. Within 100 feet of hazardous waste facilities operated by large quantity generators and treatment, storage, and disposal facilities regulated under the Arizona Hazardous Waste Management Act, A.R.S. § 49-921 et seq.

Historical Note
Section recodified from R18-4-502 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-503. Storage Requirements

A. The minimum storage capacity for a CWS or a noncommunity water system that serves a residential population or a school shall be equal to the average daily demand during the peak month of the year. Storage capacity may be based on existing consumption and phased as the water system expands.

B. The minimum storage capacity for a multiple-well system for a CWS or a noncommunity water system that serves a residential population or a school may be reduced by the amount of the total daily production capacity minus the production from the largest producing well.

Historical Note
Section recodified from R18-4-503 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-504. Prohibition on the Use of Lead Pipe, Solder, and Flux
Construction materials used in a public water system, including residential and non-residential facilities connected to the public water system, shall be lead-free as defined at R18-4-101. This Section shall not apply to leaded joints necessary for the repair of cast iron pipes.

Historical Note
Section recodified from R18-4-504 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-505. Approval to Construct
A. The Department shall only approve an addition or a water main extension to a public water system that is in compliance with this Chapter or is making satisfactory progress towards compliance under a schedule approved by the Department. The Department shall approve a properly designed modification that can be expected to return a public water system to compliance.
B. A person shall not start to construct a new public water system, modify an existing facility, including an extension to an existing public water system, or make an alteration that will affect the treatment, capacity, water quality, flow, distribution, or operational performance of a public water system before receiving an Approval to Construct from the Department. Designing or consulting engineers may confer with the Department before proceeding with detailed designs of complex or innovative facilities. The following provisions shall apply:
1. An application for Approval to Construct, including the following documents and data, shall be submitted to the Department:
   a. Detailed construction plans of the site and work to be done, presented in legible form and of sufficient scale, to establish construction requirements to facilitate effective review;
   b. Complete specifications to supplement the plans;
   c. A design report that describes the proposed construction and basis of design, provides design data and other pertinent information that defines the work to be done, and establishes the adequacy of the design to meet the system demand;
   d. Analyses of a proposed new source of water that include:
      i. Microbiological; physical; radiochemical; inorganic, organic, and volatile organic chemicals; and
      ii. Microscopic particulates if the source meets the criteria of R18-4-301.01(A); and
   e. Other pertinent data required to evaluate the application for Approval to Construct.
2. All plans, specifications, and design reports submitted for a public water system shall be prepared by, or under the supervision of, a professional engineer registered in Arizona and have the seal and signature of the engineer affixed to them, except that an engineer not registered in Arizona may design a water treatment plant or additions, modifications, revisions, or extensions, which include extensions to potable water distribution systems, if the total cost of the construction does not exceed $12,500 for material, equipment, and labor, as verified by a cost estimate submitted with plan documents.
3. An existing public water system shall be exempt from the plan review requirements of this Article if the public water system is in compliance with this Chapter or is making satisfactory progress towards compliance under a schedule approved by the Department if the applicable structural revision, addition, extension, or modification:
   a. Has a project cost of $12,500 or less; or
   b. Is made to a water line that:
      i. Is not for a subdivision requiring plat approval by a city, town, or county;
      ii. Has a project cost of more than $12,500 but less than $50,000; and
      iii. Has a design that is sealed and signed by a professional engineer registered in Arizona and the construction of which is reviewed for conformance with the design by a professional engineer registered in Arizona.
4. Upon completion of a project exempt from the plan review requirements of this Article pursuant to subsection (B)(3), the public water system shall submit a notice of compliance which contains:
   a. A fair market value cost estimate for the project,
   b. The name of the design engineer and the review engineer, and
   c. The project completion date and the total construction time.

C. The Department shall act upon a complete Approval to Construct application submitted for approval within 30 days after its receipt.
D. The Department shall issue an Approval to Construct only when the following conditions have been met:
1. Plans and specifications submitted to the Department demonstrate that the proposed public water system reasonably can be expected to comply with this Chapter, including the MCLs in Article 2; and
2. The water system is in compliance with this Chapter or reasonably can be expected to return to compliance with this Chapter as a result of the proposed construction.

E. An Approval to Construct becomes void if an extension of time is not granted by the Department within 90 days after the passage of one of the following:
1. Construction does not begin within one year after the date the Approval to Construct is issued, or
2. There is a halt in construction of more than one year, or
3. Construction is not completed within three years after the date construction begins.

Historical Note
Section recodified from R18-4-505 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-506. Compliance with Approved Plans
All construction shall conform to approved plans and specifications. In order to make a change in an approved design that will affect water quality, capacity, flow, sanitary features, or performance, a public water system shall submit revised plans and specifications to the Department for review, together with a written statement regarding the reasons for the change. The public water system shall not proceed with the construction affected by the design change without written approval from the Department. Revisions not affecting water quality, capacity, flow, sanitary features, or performance may be permitted during construction without further approval if record drawings documenting these changes, prepared by a professional engineer registered in Arizona, are submitted to the Department under R18-5-508.

Historical Note
Section recodified from R18-4-506 at 10 A.A.R. 585,

effective January 30, 2004 (Supp. 04-1).

R18-5-507. Approval of Construction

A. A person shall not operate a newly constructed facility until an Approval of Construction is issued by the Department.

B. The Department shall not issue an Approval of Construction on a newly constructed public water system, an extension to an existing public water system, or any alteration of an existing public water system that affects its treatment, capacity, water quality, flow, distribution, or operational performance unless the following requirements have been met:

1. A professional engineer registered in Arizona or a person under the direct supervision of a professional engineer registered in Arizona, has completed a final inspection and submitted a Certificate of Completion on a form approved by the Department to which the seal and signature of the professional engineer registered in Arizona have been affixed;
2. The construction conforms to approved plans and specifications, as indicated in the Certificate of Completion, and all changes have been documented by the submission of record drawings under R18-5-508;
3. An operations and maintenance manual has been submitted and approved by the Department if construction includes a new water treatment facility; and
4. An operator, who is certified by the Department at a grade appropriate for each facility, is employed to operate each water treatment plant and the potable water distribution system.

C. The Department may conduct the final inspection required in subsection (B)(1), at a public water system's request, if both of the following notification requirements are met:

1. The public water system notifies the Department at least seven days before beginning construction on a public water system installation, change, or addition that is authorized by an Approval to Construct; and
2. The public water system notifies the Department of completion of construction at least 10 working days before the expected completion date.

Historical Note

Section recodified from R18-4-507 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-508. Record Drawings

A. A professional engineer registered in Arizona shall clearly and accurately record or mark, on a complete set of working project drawings, each deviation from the original plan and the dimensions of the deviation. The set of marked drawings becomes the record drawings, reflecting the project as actually built.

B. The professional engineer registered in Arizona shall sign, date, and place the engineer's seal on each sheet of the record drawings and submit them to the Department upon completion of the project. The record drawings shall be accompanied by an Engineer's Certificate of Completion, signed by the professional engineer registered in Arizona, and submitted on a form approved by the Department for any project inspected under R18-5-507(B).

C. Quality control testing results and calculations, including pressure and microbiological testing, and disinfectant residual records, shall be submitted with the Engineer's Certificate of Completion together with field notes and the name of the individual witnessing the tests.

Historical Note

Section recodified from R18-4-508 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

R18-5-509. Modification to Existing Treatment Process

Before a public water system may make a modification to its existing treatment process, the public water system shall submit and obtain the Department's approval for a detailed plan that explains the proposed modifications and the safeguards that the public water system will implement to ensure that the quality of the water served by the system will not be adversely affected by the modification. The public water system shall comply with the provisions in the approved plans.

Historical Note

Section recodified from R18-4-509 at 10 A.A.R. 585, effective January 30, 2004 (Supp. 04-1).

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - EXPEDITED RULEMAKING

MEETING DATE: February 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: January 21, 2025

SUBJECT: **Arizona Department of Environmental Quality (ADEQ)**
Title 18, Chapter 9

Amend: R18-9-101, R18-9-A213, R18-9-B201, R18-9-B205, R18-9-C301, R18-9-C302, R18-9-C304, R18-9-D302, R18-9-C620, R18-9-D635, R18-9-F645, R18-9-I650, R18-9-A701, R18-9-A902, R18-9-A904, R18-9-A907, R18-9-1001

Summary:

This expedited rulemaking from the Arizona Department of Environmental Quality (Department) seeks to amend seventeen (17) rules in Title 18, Chapter 9. The subject matter for Chapter 9 is Water Pollution Control. The Department is proposing to make amendments that will remove out of date statutory references, correct references to other Department rules, remove out of date references, and to correct typographical errors. This rulemaking also makes changes consistent with amendments proposed during the most recent 5 YRR. Of the 17 rules being amended, 8 are being amended for the purposes of correcting statutory references or references to other rules. Two rules are being amended to correct typos. The other 7 changes are intended to provide clarification to the rules, including replacing incorrect language related to the now repealed drywell registration with the new Class V injection well which was required as part of the Underground Injection Control Program.

1. **Do the rules satisfy the criteria for expedited rulemaking pursuant to A.R.S. § 41-1027(A)?**

The Department believes that these changes are consistent with the purpose for A.R.S. § 41-1027 in that this portion of the rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce a procedural right of regulated persons; but amends rules that are outdated, and clarifies language of rules without changing their effects.

Council staff believe the current rulemaking satisfies the criteria for expedited rulemaking under A.R.S. § 41-1027(A)(1), (3), and (6) in that the rulemaking amends or repeals rules made obsolete by statutory authority, corrects typographical errors, makes address or name changes or clarifies language of a rule without changing its effect, and amends or repeals rules that are outdated, redundant or otherwise no longer necessary for the operation of state government.

2. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

3. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking.

4. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates no changes were made between the proposed and final rulemaking.

5. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department has identified 40 CFR 124.10 as corresponding federal law applicable to R18-9-C620. Both the CFR and Department rule concern public notice of permit actions.

The Department has also identified 40 CFR 124.10 and 40 C.F.R. 123.25 as being applicable to R18-9-A902, R18-9-A904, and R18-9-A907. Both the CFR and Department rule concern permits, along with public notice of permit actions.

The Department has indicated that the proposed rules are not more stringent than any of the corresponding federal law.

6. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Not applicable. The Department has indicated that no permit or license is required or issued as part of these rules.

7. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

8. Conclusion

This expedited rulemaking from the Department of Environmental Quality (Department) seeks to amend three rules in Title 18, Chapter 9 for the purpose of fulfilling objectives from a previous 5 YRR, to correct terminology and references to statutes and other rules, and to clarify language. The proposed amendments do not implement any substantive changes and make the rules more user friendly by adding references to other Department rules.

Pursuant to A.R.S. § 41-1027(H), an expedited rulemaking becomes effective immediately on the filing of the approved Notice of Final Expedited Rulemaking with the Secretary of State.

Council staff recommends approval of this rulemaking.

Arizona Department of Environmental Quality

Katie Hobbs
Governor

Karen Peters
Deputy Director

December 11, 2024

Jessica Klein, Chair
Governor's Regulatory Review Council
100 N. 15th Ave., Ste. 302
Phoenix, AZ 85007

Re: Expedited Rulemaking: Title 18, Environmental Quality, Chapters 4, 5, 9, and 11 – "Water Quality Rule Corrections"

Dear Chair Klein:

The Arizona Department of Environmental Quality (ADEQ) hereby submits this final rulemaking package to the Governor's Regulatory Review Council (GRRC) for consideration and approval at the Council Meeting scheduled for February 4, 2025.

The following information is provided for your use in reviewing the enclosed rules for approval pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-202:

I. Information Required by A.A.C. R1-6-202(A)(1)
   A. The public record closed for all rules on October 7, 2024 at midnight.
   B. Pursuant to A.R.S. § 41-1027(A)(4), this expedited rulemaking does not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of regulated persons. The rulemakings, additionally, fulfill the requirements under A.R.S. § 41-1027(A)(3), "correct[ing] typographical errors…or clarifies language of a rule without changing its effect"; (A)(4), "adopt[ing] or incorporat[ing] by reference without material change federal statutes or regulations; (A)(6), "amend[ing] or repeal[ing] rules that are outdated, redundant or otherwise no longer necessary for the operation of state government"; and (A)(7), "implement[ing], without material change, a course of action that is proposed in a five-year review report approved by the council".
   C. The rulemaking activities relate to the following five-year review reports:
      1. 18 A.A.C. 4, Art. 1, 2, 3, 6, & 8 (submitted February 28, 2022, approved October 4, 2022);
      2. 18 A.A.C. Ch. 5, Art. 1, 2, 3, 4, & 5 (submitted August 27, 2021, approved November 2, 2021);

3. 18 A.A.C. Ch. 9, Art. 2 (submitted January 20, 2021, approved April 6, 2021), Art. 9 (submitted April 26, 2022, approved August 2, 2022) ;

D. The Department certifies that the preamble discloses reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation of or justification for the rule.

E. A list of documents enclosed under A.A.C. R1-6-202(A)(1)(e) and (A)(2)-(8), which are enclosed as electronic copies:

1. This cover letter.
2. The Notice of Final Expedited Rulemakings (NFERMs) for Chapter 4, 5, Chapter 9, and Chapter 11, including the preamble, table of contents, and text of each rule.
3. ADEQ did not receive any written comments on the NPERMs for Chapters 4, 5, 9, or 11.
4. ADEQ did not receive an analysis regarding the rules' impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states.
5. There was no new material incorporated by reference in the rulemakings.
6. No statute was declared unconstitutional.
7. The general and specific statutes authorizing the rule, including relevant statutory definitions:
    a. Chapter 4:
        i. Authorizing statutes (general): A.R.S. §§ 49-104(B)(4), 49-353(A)(2)
        ii. Implementing statutes (specific): A.R.S. § 49-353.01
    b. Chapter 5:
        i. Authorizing statutes (general): A.R.S. § 49-104(B)(11)-(13)
        ii. Implementing statutes (specific): A.R.S. §§ 49-352, 49-353(A)(2), 49-353.01(A)(1), and 49-361
    c. Chapter 9:
        i. Authorizing statutes (general): A.R.S. §§ 49-104 (B)(13), 49-203(A)(2), (A)(4), (A)(7), (A)(10), (A)(11)
        ii. Implementing statutes (specific): A.R.S. §§ 49-241, 49-242, 49-245, 49-255.01(B) and (C), and 49-255.02
    d. Chapter 11:
        i. Authorizing statutes (general): A.R.S. § 49-104(A)(1), (A)(7), (A)(10), (A)(13), (B)(4), (B)(11)
        ii. Implementing statutes (specific): A.R.S. §§ 49-202(A), (H); 49-203(A)(1), (2), (3), (5), (6) - (10); 49-221; 49-222; 49-223
8. No term is defined in the rule by referring to another rule or a statute other than the general and specific statutes authorizing the rule.

II. Additional items required by GRRC:

A. Exemption Memo Request.

B. Governor's Office initial written approval.
C. Governor's Office final written approval.

Thank you for your timely review and approval. Please contact Trevor Baggiore, Division Director, Water Quality Division, 602-771-2321 or baggiore.trevor@azdeq.gov, if you have any questions.

Sincerely,

Karen Peters, Deputy Director
Arizona Department of Environmental Quality

NOTICE OF FINAL EXPEDITED RULEMAKING

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039 by the governor on:

May 6, 2024.

2. Article, Part, or Section Affected (as applicable) **Rulemaking Action**

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute(s): A.R.S. §§ 49-104 (B)(13), 49-203(A)(2), (A)(4), (A)(7), (A)(10), (A)(11).

Implementing statute(s): A.R.S. §§ 49-241, 49-242, 49-245, 49-255.01(B) and (C), 49-255.02.

4. The effective date of the rule:

Pursuant to A.R.S. § 41-1027(H), the rule will become effective immediately on the filing of the Notice of Final Expedited Rulemaking with the Secretary of State.

If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

Not applicable.

If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable.

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Expedited Rulemaking Docket Opening: 30 A.A.R. 2088, Issue Date: June 21, 2024, Issue Number: 25, File Number: R24-106.

Notice of Proposed Expedited Rulemaking: 30 A.A.R. 2795, Issue Date: September 6, 2024, Issue Number: 36, File number: R24-167.

6. The agency's contact person who can answer questions about the rulemaking:

Name: Katherine Silvestri

Address: Arizona Department of Environmental Quality
1110 W. Washington Ave.
Phoenix, AZ 85007

Telephone: (602) 809-4869

Fax: (602) 771-2366

Email: silvestri.katherine@azdeq.gov
Website: https://www.azdeq.gov/wqd-5yr-rule-review-commitmentscleanup

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The objective of this rulemaking is to fulfill five-year rule review (5YRR) commitments to the Governor's Regulatory Review Council (GRRC), in accordance with A.R.S. § 41-1056(E), to amend rules in Chapter 9, as well as correct typographical errors, update outdated citations and references, clarify language, and fix similar clerical issues therein.

The amendments to the rule are justified under the expedited rulemaking requirements in A.R.S. § 41-1027. Specifically, Subsection (A) limits an agency to conduct an expedited rulemaking only if the rulemaking "does not increase the cost of regulatory compliance, increase a fee or reduce procedural rights of persons regulated and does one or more of the following [requirements outlined in (A)(1) - (A)(8)]". The applicable requirements relied upon in this rulemaking include the following, which are individually assigned for each amendment (as shown in the section by section explanation below): (A)(1) "Amends or repeals rules made obsolete by repeal or supersession of an agency's statutory authority'; (A)(3) "Corrects typographical errors, makes address or name changes or clarifies language of a rule without changing its effect"; and (A)(6) "Amends or repeals rules that are outdated, redundant or otherwise no longer necessary for the operation of state government".

Section by Section Explanation of the Rules:

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 1. Aquifer Protection Permits - General Provisions
This rule provides definitions for Title 18, Chapter 9, Articles 1, 2, 3, and 4 in addition to those established in A.R.S. § 49-201.	101(21)	Update following repeal	This rule contains an outdated reference to A.R.S. § 49-331 which is repealed. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(1), ADEQ removes the statutory reference in the definition, and un-italicize the definition accordingly.

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 2. Aquifer Protection Permits - Individual Permits
This rule contains the requirements for the suspension, revocation, denial, or termination of an Aquifer Protection Permit (APP) individual permit.	R18-9-A213(C)(1)	Correction	This rule contains an incorrect reference to R18-9-A209 in subsection (C)(1) when referencing ADEQ's issuance of a Permit Release Notice. The rule directs that the Director shall terminate an individual permit if the facility covered under the permit has closed and the Director has issued a Permit Release Notice. Currently the rule cites R18-9-A209(B)(3)(a)(ii) which discusses the elements of a site investigation plan under a closure plan. The reference for the Director's determination to send a Permit Release Notice is found, instead, at R18-9-A209(B)(4)(a)(ii). Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ updates the rule with the correct reference to R18-9-A209(B)(4)(a)(ii).
This rule contains general considerations and prohibitions for sewage treatment facilities permitted under an Aquifer Protection Permit (APP) individual permit.	R18-9-B201(I)	Clarification	There are two amendments to this rule in subsection (I). First, ADEQ clarifies the rule language. This rule establishes setback requirements for new sewage treatment facilities or facilities undergoing a major modification. Currently the rule provides a setback table and prescribes setbacks to be measured from the treatment and disposal components within the facility. However, the rule does not clearly explain that the setbacks must be measured from the noise or odor-producing treatment and disposal components within the facility, despite this being the interpretation consistently applied by ADEQ and most reasonably applied when reading the rule as a whole and analyzing the corresponding setback table. The setback table, itself, details the required distance (in feet) of the setbacks depending on the proposed level of noise, odor, or

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 2. Aquifer Protection Permits - Individual Permits
			aesthetic controls, corresponding with the design flow of the sewage treatment facility. Clarifying that the setbacks are measured from the noise or odor-producing components will assist the public with understanding how to apply and follow the required setbacks to achieve the goal and intention of the subsection, which is to mitigate and control noise and odor from facilities. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ clarifies the rule by explicitly stating that setbacks are measured from the noise or odor-producing components of the facility. Next, ADEQ clarifies the setback table within subsection (I). Currently, the setback table, as described above, prescribes the required distance (in feet) of the setbacks depending on the proposed level of noise, odor, or aesthetic controls, corresponding with the design flow of the sewage treatment facility. The table would be better understood by the public if the setback distances were, instead, clarified as "minimum" distances. This proposal clarifies the rule in accordance with the original intention of the rule, itself, evidenced by the original setback table in Chapter VI, "Sewage Treatment Works Design Considerations", of Engineering Bulletin No. 11, published by ADHS in July 1978, upon which the setback table in R18-9-B201 was based (*see* 7 A.A.R. 294 (January 12, 2001)). There, the setback table is entitled "Minimum Setback vs. Treatment Plant Size" and the corresponding explanation of the table further explains that the distances are the required "minimum setback[s]". Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ clarifies the rule by updating the setback table to make clear the fact that the setbacks are minimum distances.
This rule contains treatment performance requirements for an existing sewage treatment facility permitted under an Aquifer Protection Permit (APP) individual permit.	R18-9-B205	Update	This rule contains an outdated reference to A.R.S. § 49-201(16) for the definition of "existing facility". The reference has since changed to A.R.S. § 49-201(18). Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(6), ADEQ updates the reference from A.R.S. § 49-201(16) to A.R.S. § 49-201(18).

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 3. Aquifer Protection Permits - General Permits
This rule sets forth the requirements for a 2.01 Aquifer Protection Permit (APP) general permit for drywells that drain areas where hazardous substances are used, stored, loaded, or treated.	R18-9-C301(B) & (H)(2)(b)	Update following repeal	This rule requires an applicant for a 2.01 general permit to submit to the Department a Notice of Intent to discharge along with their "Department registration number" for the drywell. This refers to a state-based drywell registration program, previously authorized by A.R.S. Title 49 Article 8, which was repealed on September 24, 2022 in anticipation of ADEQ's impending primacy over the Underground Injection Control (UIC) program. The UIC program regulates drywells as a Class V underground injection well which must be inventoried pursuant to A.A.C. R18-9-I652. The reference to a "Department registration number" in this

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 3. Aquifer Protection Permits - General Permits
			rule is inconsistent with the requirement in R18-9-I652 to submit "inventory information" and is, furthermore, outdated following the repeal of Article 8. An applicant for a 2.01 general permit must demonstrate compliance with the UIC rules and related requirements. Removal of the outdated reference to "Department registration number" is necessary to retain functionality of the rule and increase public understanding of the requirements incumbent upon applicants for a 2.01 general permit. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(1), ADEQ updates the language in the rule to include a reference to the "Class V injection well inventory".
This rule sets forth the requirements for a 2.02 Aquifer Protection Permit (APP) general permit for intermediate stockpiles at mining sites.	R18-9-C302(A)	Update	This rule contains an outdated reference to A.R.S. § 49-201(19) for the definition of "inert material". The reference has since changed to A.R.S. § 49-201(22). Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(6), ADEQ updates the reference from A.R.S. § 49-201(19) to A.R.S. § 49-201(22).
This rule sets forth the requirements for a 2.04 Aquifer Protection Permit (APP) general permit for drywells that drain areas at motor fuel dispensing facilities where motor fuels are used, stored, or loaded.	R18-9-C304(B) & (I)(2)(b)	Update following repeal	This rule requires an applicant for a 2.04 general permit to submit to the Department a Notice of Intent to discharge along with their "Department registration number" for the drywell. This refers to a state-based drywell registration program, previously authorized by A.R.S. Title 49 Article 8, which was repealed on September 24, 2022 in anticipation of ADEQ's impending primacy over the Underground Injection Control (UIC) program. The UIC program regulates drywells as a Class V underground injection well which must be inventoried pursuant to A.A.C. R18-9-I652. The reference to a "Department registration number" is inconsistent with the requirement in R18-9-I652 to submit "inventory information" and is, furthermore, outdated following the repeal of Article 8. An applicant for a 2.04 general permit must demonstrate compliance with the UIC rules and related requirements. Removal of the outdated reference to "Department registration number" is necessary to retain functionality of the rule and increase public understanding of the requirements incumbent upon applicants for a 2.04 general permit. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(1), ADEQ updates the language in the rule to include a reference to the "Class V injection well inventory".
This rule sets forth the requirements for a 3.02 Aquifer Protection Permit (APP) general	R18-9-D302(A)(2)	Update	This rule contains an outdated reference to A.R.S. § 49-201(19) for the definition of "inert material." This has changed in statute to (22). Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(6), ADEQ updates the reference from A.R.S. § 49-201(19) to A.R.S. § 49-201(22).

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 3. Aquifer Protection Permits - General Permits
permit for process water discharges from water treatment facilities.			

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 6. Underground Injection Control (UIC)
This rule outlines the public notice requirements for the UIC program	R18-9-C620(D)(1)(f)	Update	Subsection (D)(1) in the rule is not correctly scoped to encompass the federal UIC rules in 40 CFR 124.10(C)(1)(VIII) & (XI). Currently, the language states that the Director shall give public notice of UIC permit actions and public hearings, and shall deliver a copy of the public notice to certain entities. ADEQ is applying for primacy of the Safe Drinking Water Act - Underground Injection Control regulatory program (*see* A.R.S. §§ 49-203(A)(6), 49-257.01). One of the requirements is for ADEQ to have rules that are at least as stringent as the Federal analog. Therefore, the rule needs to be scoped to match the federal rules by clarifying that a copy of the notice shall be provided to state and local oil and gas regulatory agencies for Classes I and VI injection wells. Notably, the requirement in 40 CFR 124.10(C)(1)(XI) to notify the state Director of the Public Water Supply Supervision (PWSS) program is not necessary to add in the A.A.C. because the Director of the PWSS is the Director of ADEQ, and is therefore not separately notified of permit actions. Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(1), ADEQ amends the language in this subsection to align the public notice requirements with the federal UIC rules by scoping Class I wells into the public notice requirements.
This rule provides the general permit conditions applicable to all UIC permits	R18-9-D635(9)(d)	Correction	This rule contains a typographical error. The language in subsection (9)(d) provides that the permittee shall allow the Director to sample or monitor for the purposes of assuring permit compliance "or as otherwise authorized by this Article the SDWA…". The language should, instead, say "...by this Article or the SDWA…". Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ revises the language and adds the word "or".
This rule sets forth the information that must be considered by the Director in authorizing Class II wells under the UIC program.	R18-9-F645(B)(2)	Correction	This rule contains a typographical error. The language in subsection (B)(2) discusses the requirement for the Director to consider a map which may show pertinent surface features "if known or suspended". The language should, instead, say "suspected". Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ revises the language to "suspected".
This rule sets forth general	R18-9-I650(A)(4)(b)	Correction	This rule contains a typographical error to an incorrect citation. Subsection (A)(4)(b) cites a transfer fee rule in R18-14-111(3). The correct citation is, instead, R18-14-111(A)(3). Therefore, pursuant

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 6. Underground Injection Control (UIC)
requirements for Class V UIC wells			to its authority under A.R.S. § 41-1027(A)(3), ADEQ fixes the error by changing the reference to R18-14-111(A)(3).

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 7. Use of Recycled Water
This rule provides definitions for Title 18, Chapter 9, Article 7 in addition to those established in A.R.S. § 49-201.	R18-9-A701(5)	Update	This rule contains an outdated reference to A.R.S. § 49-201(18) for the definition of "gray water". The reference has since changed to A.R.S. § 49-201(20). Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(6), ADEQ updates the reference from A.R.S. § 49-201(18) to A.R.S. § 49-201(20).
This rule provides definitions for Title 18, Chapter 9, Article 7 in addition to those established in A.R.S. § 49-201.	R18-9-A701(11)	Update	This rule contains an outdated reference to A.R.S. § 49-201(32) for the definition of "reclaimed water". The reference has since changed to A.R.S. § 49-201(41). Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(6), ADEQ updates the reference from A.R.S. § 49-201(32) to A.R.S. § 49-201(41).

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 9. Arizona Pollutant Discharge Elimination System
This rule outlines the relevant sections of Arizona assuming regulatory authority over the Environmental Protection Agency's National Pollutant Discharge System (NPDES).	R18-9-A902 (A) & (F)	Clarification	This rule should be revised to exclude outdated criteria under the public notice requirements for NPDES permittees in Arizona. Currently, the rule requires ADEQ to provide notice to all Arizona NPDES permittees, through one or more newspapers, which shall contain certain requirements as detailed in the rule. ADEQ has primacy over the Environmental Protection Agency's (EPA) NPDES program, and is authorized to implement and regulate a state-based program, AZPDES. ADEQ received authorization from the EPA to administer the NPDES Program on December 5, 2002. Now that ADEQ has administered the AZPDES program for roughly twenty-two years, these sections under R18-9-A902 are no longer necessary or appropriate. By updating this rule such that the Department would not be required to publish the date of EPA's approval of the AZPDES program, as well as information related to state and federal laws related to the permitting program, the contents of the public notice will be clearer and concise, fostering more public awareness of the most relevant aspects of a permit at issue. ADEQ removes paragraphs (A) and (F) under this section pursuant to its authority under A.R.S. § 41-1027(A)(6) to update this rule.
This rule intends to clarify that the scope of AZPDES permits do not convey property rights or special privileges.	R18-9-A904(B)	Clarification	This rule would benefit from improving grammar of the language so as to make it clearer for AZPDES permittees. The purpose of this rule is to more clearly delineate that an authorization to discharge under the AZPDES program does not instill property rights in the permittee (e.g., property rights over surface water or specialized licenses/privileges beyond the scope of the AZPDES permit). While

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 9. Arizona Pollutant Discharge Elimination System
			the rule currently includes language to this effect, it would benefit from clarification to the grammar and the addition of the term "to the permittee" to further clarify to whom the prohibition applies. Therefore, ADEQ seeks to add clarifying language pursuant to its authority under A.R.S. § 41-1027(A)(3).
This rule outlines public notice requirements for Individual AZPDES permits.	R18-9-A907(A)(1) & (B)	Clarification	This rule outlines public notice requirements for AZPDES individual permits. Subsection (A)(1) of this rule addresses public notice requirements for Individual AZPDES Permits. Subsection (B) outlines requirements for General Permits. ADEQ seeks to add clarifying language pursuant to its authority under A.R.S. § 41-1027(A)(3) for Individual Permits to make it clear that the Department has authority to post public notice to its website in order to make the information more widely available online. Furthermore, this change comports with notice requirements of the National Pollutant Discharge Elimination System (NPDES) as set forth in the Code of Federal Regulations (CFR) under 40 C.F.R. 124.10. Additionally, in subsection (B), the rule prescribes notice requirements for General Permits. ADEQ updates the rule to add the option for ADEQ to post notice on the website, in addition to its requirement to post in the Arizona Administrative Register. This will allow the notice to reach potentially broader audiences and boost public engagement in the permitting process. Therefore, pursuant to its authority in A.R.S. § 41-1027(A)(3), ADEQ adds this notice option to the language of the rule.

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 10. Arizona Pollutant Discharge Elimination System - Transportation and Use of Biosolids
This rule provides definitions for Title 18, Chapter 9, Article 10 in addition to those established in A.R.S. § 49-225 and R18-9-A901.	R18-9-1001(26)	Correction	This rule contains an incorrect reference to A.R.S. § 49-201(21) for the definition of "navigable waters." There are three issues with this rule: 1) A.R.S. § 49-201(21) defines "hazardous substance" and the reference is therefore incorrect; 2) There is no corresponding definition for "navigable waters" in the statute; and 3) The definition in the rule is not actually defining the term "navigable waters". The language in the rule more appropriately and accurately defines "WOTUS" which is defined in statute at A.R.S. § 49-201(53). ADE corrects and clarifies the rule by changing "navigable waters" to "WOTUS". Additionally, ADEQ updates the reference to the definition of WOTUS in A.R.S. § 49-201(53) Therefore, pursuant to its authority under A.R.S. § 41-1027(A)(3), ADEQ changes the definition to "WOTUS" and update the statutory reference accordingly.
This rule provides definitions for Title 18, Chapter 9, Article	R18-9-1001(29)	Update	This rule contains an outdated reference to A.R.S. § 49-201(26) for the definition of "person". The reference has since changed to A.R.S. § 49-201(33). Therefore, pursuant to its authority under A.R.S. § 41-

Rule Content Summary	Rule(s) affected (R18-9-xxxx)	Type of Change	Explanation of Changes to: Article 10. Arizona Pollutant Discharge Elimination System - Transportation and Use of Biosolids
10 in addition to those established in A.R.S. § 49-225 and R18-9-A901.			1027(A)(6), ADEQ updates the reference from A.R.S. § 49-201(26) to A.R.S. § 49-201(33).

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

10. A summary of the economic, small business, and consumer impact:

Not applicable. The agency is exempt from the requirements to prepare and file an economic, small business, and consumer impact statement under A.R.S. § 41-1055(D)(2).

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

No changes were made between the proposed expedited rulemaking and the final expedited rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Agency did not receive any public comments on A.A.C. Title 18 Chapter 9.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

Not applicable.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

Not applicable.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

40 CFR 124.10 is applicable to the subject of R18-9-C620.

Additionally, 40 C.F.R. 124.10 and 40 C.F.R. 123.25 are applicable to the subject of R18-9A902, R18-9-A904, and R18-9-A907.

However, these rules are not more stringent than federal law in accordance with A.R.S. § 49-104(A)(16).

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

Not applicable.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable.

16. The full text of the rules follows:

Rule text begins on the next page.

H. No change

I. The owner or operator of a sewage treatment facility that is a new facility or undergoing a major modification shall provide setbacks established in the following table. Setbacks are measured from the noise or odor-producing treatment and disposal components within the sewage treatment facility to the nearest property line of an adjacent dwelling, workplace, or private property. If an owner or operator cannot meet a setback for a facility undergoing a major modification that incorporates full noise, odor, and aesthetic controls, the owner or operator shall not further encroach into setback distances existing before the major modification except as allowed in

subsection (I)(2).

	Minimum Setback Distance (feet)	
Sewage Treatment Facility Design Flow (gallons per day)	**No Noise, Odor, or Aesthetic Controls ~~(feet)~~**	**Full Noise, Odor, and Aesthetic Controls ~~(feet)~~**
3000 to less than 24,000	250	25
24,000 to less than 100,000	350	50
100,000 to less than 500,000	500	100
500,000 to less than 1,000,000	750	250
1,000,000 or greater	1000	350

1. Full noise, odor, and aesthetic controls means that:
   a. Noise due to the sewage treatment facility does not exceed 50 decibels at the facility property boundary on the A network of a sound level meter or a level established in a local noise ordinance,
   b. All odor-producing components of the sewage treatment facility are fully enclosed,
   c. Odor scrubbers or other odor-control devices are installed on all vents, and
   d. Fencing aesthetically matched to the area surrounding the facility.
2. The owner or operator of a sewage treatment facility undergoing a major modification may decrease setbacks if:
   a. Allowed by local ordinance; or
   b. Setback waivers are obtained from affected property owners in which the property owner acknowledges awareness of the established setbacks, basic design of the sewage treatment facility, and the potential for noise and odor.

J. The owner or operator of a sewage treatment facility shall not operate the facility so that it emits an offensive odor on a persistent basis beyond the setback distances specified in subsection (I).

R18-9-B205. TREATMENT PERFORMANCE REQUIREMENTS FOR AN EXISTING FACILITY

For a sewage treatment facility that is an existing facility defined in ~~A.R.S. § 49-201(16)~~ A.R.S. § 49-201(18), the BADCT shall conform with the following:

1. No change
2. No change
3. No change

ARTICLE 3. AQUIFER PROTECTION PERMITS - GENERAL PERMITS

R18-9-C301. 2.01 GENERAL PERMIT: DRYWELLS THAT DRAIN AREAS WHERE HAZARDOUS SUBSTANCES ARE USED, STORED, LOADED, OR TREATED

A. No change

B. Notice of Intent to Discharge. In addition to the requirements in R18-9-A301(B), an applicant shall submit:

1. The ~~Department registration~~ Class V injection well inventory number for the drywell or documentation that ~~a drywell registration form~~ inventory information was submitted to the Department;

H. Closure and decommissioning requirements.

1. A permittee shall:
    a. Retain a drywell drilling contractor, licensed under 4 A.A.C. 9, to close the drywell;
    b. Remove sediments and any drainage component, such as standpipes and screens from the drywell's settling chamber and backfill the injection pipe with cement grout;
    c. Remove the settling chamber;
    d. Backfill the settling chamber excavation to the land surface with clean silt, clay, or engineered material. Materials containing hazardous substances are prohibited from use in backfilling the drywell; and
    e. Mechanically compact the backfill.
2. Within 30 days of closure and decommissioning, the permittee shall submit a written verification to the Department that all material that contributed to a discharge has been removed and any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance has been eliminated to the greatest degree practical. The written verification shall specify:
    a. The reason for the closure;

b. The ~~drywell registration~~Class V injection well inventory number;

c. The general permit reference number;

d. The materials and methods used to close the drywell;

e. The name of the contractor who performed the closure;

f. The completion date;

g. Any sampling data;

h. Sump construction details, if a sump was constructed to replace the abandoned drywell; and

i. Any other information necessary to verify that closure has been achieved.

R18-9-C302. 2.02 GENERAL PERMIT: INTERMEDIATE STOCKPILES AT MINING SITES

A. A 2.02 General Permit allows for intermediate stockpiles not qualifying as inert material under ~~A.R.S. §49-201(19)~~ A.R.S. §49-201(22) at a mining site.

2. No change
3. No change

B. Notice of Intent to Discharge. In addition to the requirements in R18-9-A301(B), an applicant shall submit:

1. The ~~Department registration~~Class V injection well inventory number for the drywell or documentation that ~~a drywell registration form~~inventory information was submitted to the Department;
2. For a drywell constructed more than 90 days before submitting the Notice of Intent to Discharge to the Department, a certification signed, dated, and sealed by an Arizona-registered professional engineer or geologist that a site investigation concluded that:
   a. Analytical results from sampling sediment from the drywell settling chamber sediment for pollutants reasonably expected to be present do not exceed either the residential soil remediation levels or the groundwater protection levels;
   b. The settling chamber does not contain sediment that could be used to characterize and compare results to soil remediation levels and the chamber has not been cleaned out within the last six months;
   c. Neither a soil remediation level nor groundwater protection level is exceeded in soil samples collected from a boring drilled

within 5 feet of the drywell and sampled in 5 foot increments starting at a depth of 5 feet below ground surface and extending to a depth of 10 feet below the base of the drywell injection pipe; or

d. If coarse grained lithology prevents the collection of soil samples in a soil boring, a groundwater investigation demonstrates compliance with Aquifer Water Quality Standards in groundwater at the applicable point of compliance.

3. Design information to demonstrate that the requirements in subsection (C) are satisfied.

I. Closure and decommissioning requirements.

1. A permittee shall:
    a. Retain a drywell drilling contractor, licensed under 4 A.A.C. 9, to close the drywell;
    b. Remove sediments and any drainage component, such as standpipes and screens from the drywell's settling chamber and backfill the injection pipe with cement grout;
    c. Remove the settling chamber;
    d. Backfill the settling chamber excavation to the land surface with clean silt, clay, or engineered material. A permittee shall not use materials containing hazardous substances in backfilling the drywell; and
    e. Mechanically compact the backfill.
2. Within 30 days of closure and decommissioning, the permittee shall submit a written verification to the Department that all material that contributed to a discharge has been removed and any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance has been eliminated to the greatest degree practical. The written verification shall specify:
    a. The reason for the closure;
    b. The ~~drywell registration~~ Class V injection well inventory number or;
    c. The general permit reference number;
    d. The materials and methods used to close the drywell;
    e. The name of the contractor who performed the closure;
    f. The completion date;
    g. Any sampling data;
    h. Sump construction details, if a sump was constructed to replace the abandoned drywell; and
    i. Any other information necessary to verify that closure has been achieved.

R18-9-D302. 3.02 GENERAL PERMIT: PROCESS WATER DISCHARGES FROM WATER TREATMENT FACILITIES

A. A 3.02 General Permit allows filtration backwash and discharges obtained from sedimentation and coagulation in the water treatment process from facilities that treat water for industrial process or potable uses. The permittee shall ensure that:

1. Liquid fraction. The discharge meets:
    a. All numeric Aquifer Water Quality Standards for inorganic chemicals, organic chemicals, and pesticides established in R18-11-406(B) through (D);
    b. The discharge meets one of the following criteria for microbiological contaminants:
        i. Either the concentration of fecal coliform organisms is not more than 2/100 ml or the concentration of E. coli bacteria is not more than 1/ 100 ml, or
        ii. Either the concentration of fecal coliform organisms is less than 200/100 ml or the concentration of E. coli bacteria is less than 126/ 100 ml if the average daily flow processed by the water treatment facility is less than 250,000 gallons; and
2. Solid Fraction. The solid material in the discharge qualifies as inert material, as defined in ~~A.R.S. § 49-201(19)~~ A.R.S. § 49-201(22).

PART F. CLASS II INJECTION WELL REQUIREMENTS

R18-9-F645. CLASS II; INFORMATION TO BE CONSIDERED BY THE DIRECTOR

A. No change

B. Prior to the issuance of a permit for an existing Class II well to operate or the construction or conversion of a new Class II well the Director shall consider the following:

1. Information required in R18-9-C616.
2. A map showing the injection well or project area for which a permit is sought and the applicable area of review. Within the area of review, the map must show the number or name and location of all existing producing wells, injection wells, abandoned wells, dry holes, and water wells. The map may also show surface bodies of waters, mines (surface and subsurface), quarries and other pertinent surface features including residences and roads, and faults if known or ~~suspended~~ suspected. Only information of public record and pertinent information known to the applicant is required to be included on this map. This requirement does not apply to existing Class II wells.
3. A tabulation of data reasonably available from public records or otherwise known to the applicant on all wells within the area of review included on the map required under subsection (B)(2) which penetrate the proposed injection zone or, in the case of Class II wells operating over the fracture pressure of the injection formation, all known wells within the area of review which penetrate formations affected by the increase in pressure. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of plugging and completion, and any additional information the Director may require. In cases where the information would be repetitive and the wells are of similar age, type, and construction the Director may elect to only require data on a representative number of wells. This requirement does not apply to existing Class II wells.
4. Proposed operating data:
    a. Average and maximum daily rate and volume of fluids to be injected;
    b. Average and maximum injection pressure; and
    c. Source and an appropriate analysis of the chemical and physical characteristics of the injection fluid.
5. Appropriate geological data on the injection zone and confining zone including lithologic description, geological name, thickness and depth.
6. Geologic name and depth to bottom of all USDWs which may be affected by the injection.
7. Schematic or other appropriate drawings of the surface and subsurface construction details of the well.
8. In the case of new injection wells the corrective action proposed to be taken by the applicant under R18-9-D639.
9. A certificate that the applicant has assured through a performance bond or other appropriate means, the resources necessary to close, plug or abandon the well as required by R18-9-D636(A)(6).

PART I. CLASS V INJECTION WELL REQUIREMENTS

R18-9-I650. CLASS V; GENERAL REQUIREMENTS

A. The following requirements apply to Class V Wells authorized by rule:

1. A Class V Injection well is authorized by rule subject to the conditions under this Section.
2. Well authorization under this Section expires upon the effective date of a permit issued pursuant to R18-9-I651, R18-9-C616, R18-9-C624, R18-9-C625, or upon proper closure of the well.
3. An owner or operator of a well that is authorized by rule pursuant to this Section is prohibited from injecting into the well:
   a. Upon the effective date of an applicable permit denial;
   b. Upon failure to submit a permit application in a timely manner pursuant to R18-9-I651 or R18-9- C616;
   c. Upon failure to submit inventory information in a timely manner pursuant to R18-9-I652; or d. Upon failure to comply with a request for information in a timely manner pursuant to R18-9-I653.
4. Submission of the following is required in order to transfer ownership of a well that is authorized by rule pursuant to this Section:
   a. An inventory, and
   b. Class V authorized by rule transfer fee pursuant to ~~R18-14-111(3)~~ R18-14-111(A)(3).

16. "Sewage Treatment Facility" No change

ARTICLE 9. ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM

R18-9-A902. AZPDES PERMIT TRANSITION, APPLICABILITY, AND EXCLUSIONS

A. Upon the effective date of EPA approval of the AZPDES program, the Department shall, under A.R.S. Title 49, Chapter 2, Article 3.1 and Articles 9 and 10 of this Chapter, administer any permit authorized or issued under the NPDES program, including an expired permit that EPA has continued in effect under 40 CFR 122.6.

1. The Director shall give a notice to all Arizona NPDES permittees, except NPDES permittees located on and discharging in Indian Country, and shall publish a notice in one or more newspapers of general circulation in the state. The notice shall contain:
    ~~a. The effective date of EPA approval of the AZPDES program;~~
    ~~b.~~a. The name and address of the Department;
    ~~c.~~b. The name of each individual permitted facility and its permit number;
    ~~d.~~c. The title of each general permit administered by the Department;
    ~~e.~~d. The name and address of the contact person, to which the permittee will submit notification and monitoring reports; and
    ~~f. Information specifying the state laws equivalent to the federal laws or regulations referenced in a NPDES permit; and~~
    ~~g.~~e. The name, address, and telephone number of a person from whom an interested person may obtain further information about the transition.

2. The Department shall provide the following entities with a copy of the notice:
    a. Each county department of health, environmental services, or comparable department;
    b. Each Arizona council of government, tribal government, the states of Utah, Nevada, New Mexico, and California, and EPA Region 9;
    c. Any person who requested, in writing, notification of the activity;
    d. The Mexican Secretaria de Medio Ambiente y Recursos Naturales, and
    e. The United States Section of the International Boundary and Water Commission.
3. If a timely application for a NPDES permit was ~~is~~ submitted to EPA before approval of the AZPDES program, the applicant may continue the process with EPA or request the Department to act on the application. In either case, the Department shall issue the permit.
4. The terms and conditions under which the permit was issued remain the same until the permit is modified.

R18-9-A904. EFFECT OF A PERMIT

A. Except for a standard or prohibition imposed under section 307 of the Clean Water Act (33 U.S.C. 1317) for a toxic pollutant that is injurious to human health and standards for sewage sludge use or disposal under Article 10 of this Chapter, compliance with an AZPDES permit during its term constitutes compliance, for purposes of enforcement, with Article 9 of this Chapter. However, the Director may modify, revoke and reissue, suspend, or terminate a permit during its term for cause under R18-9-B906.

B. The issuance of a permit does not convey any property rights ~~of any sort,~~ or ~~any~~ exclusive privilege to the permittee.

C. The issuance of a permit does not authorize any injury to a person or property or invasion of other private rights, or any infringement of federal, state, or local law, or regulations.

R18-9-A907. PUBLIC NOTICE REQUIREMENTS

A. Individual permits.

1. The Director shall publish a notice that a draft individual permit has been prepared, or a permit application has been tentatively denied~~,~~ and may publish all notices of these activities in one or more newspapers of general circulation where the facility is located, or to the Department's website. If the Department publishes notice of a draft individual permit on the website, it shall additionally post on the website the draft permit and fact sheet for the duration of the public comment period. The notice shall contain:
    a. The name and address of the Department;
    b. The name and address of the permittee or permit applicant and if different, the name of the facility or activity regulated by the permit;
    c. A brief description of the business conducted at the facility or activity described in the permit application;
    d. The name, address, and telephone number of a person from whom an interested person may obtain further information, including copies of the draft permit, fact sheet, and application;
    e. A brief description of the comment procedures, the time and place of any hearing, including a statement of procedures to request a hearing (unless a hearing has already been scheduled), and any other procedure by which the public may participate in the final permit decision;
    f. A general description of the location of each existing or proposed discharge point and the name of the receiving water;
    g. For sources subject to section 316(a) of the Clean Water Act, a statement that the thermal component of the discharge is subject to effluent limitations under the Clean Water Act, section 301 (33 U.S.C. 1311) or 306 (33 U.S.C. 1316) and a brief description, including a quantitative statement, of the thermal effluent limitations proposed under section 301 (33 U.S.C. 1311) or 306 (33 U.S.C. 1316);
    h. Requirements applicable to cooling water intake structures at new facilities subject to 40 CFR 125, subpart I; and
    i. Any additional information considered necessary to the permit decision.
2. No change

B. General permits. If the Director considers issuing a general permit applicable to a category of discharge under R18-9- C901, the Director shall publish a general notice of the draft permit in the Director shall publish a notice that a draft individual permit has been

prepared, or a permit application has been tentatively denied~~,~~ and may publish all notices of these activities in one or more newspapers of general circulation where the facility is located, or to the Department's website. If the Department publishes notice of a draft individual permit on the website, it shall additionally post on the website the draft permit and fact sheet for the duration of the public comment period. The notice shall contain:

1. The name and address of the Department,
2. The name of the person to contact regarding the permit,
3. The general permit category,
4. A brief description of the proposed general permit,
5. A map or description of the permit area,
6. The web site or any other location where the proposed general permit may be obtained, and
7. The ending date for public comment

13. "Cumulative pollutant loading rate" No change
14. "Domestic septage" No change

15. “Domestic sewage” No change
16. “Dry-weight basis” No change
17. “Exceptional quality biosolids” No change
18. “Feed crops” No change
19. “Fiber crops” No change
20. “Food crops” No change
21. “Gravel” No change
22. “Industrial wastewater” No change
23. “Land application,” “apply biosolids,” or “biosolids applied to the land” No change
24. “Monthly average” No change
25. “Municipality” No change
26. *~~“Navigable waters”~~ “WOTUS” means the waters of the United States as defined by section 502(7) of the clean water act (33 United States Code section 1362(7)). ~~A.R.S. § 49- 201(21)~~ A.R.S. § 49- 201(53).*
27. “Other container” No change
28. “Pathogen” No change
29. *“Person” means an individual, employee, officer, managing body, trust, firm, joint stock company, consortium, public or private corporation, including a government corporation, partnership, association or state, a political subdivision of this state, a commission, the United States government or a federal facility, interstate body or other entity. ~~A.R.S. § 49-201(26)~~ A.R.S. § 49-201(33).*
30. “Person who prepares biosolids” No change
31. “pH” No change
32. “Pollutant” No change
33. “Pollutant limit” No change
34. “Privately owned treatment works” No change
35. “Public contact site” No change
36. “Reclamation” No change
37. “Responsible official” No change
38. “Runoff” No change
39. “Sand” No change
40. “Sewage sludge” No change
    a. No change
    b. No change
    c. No change
41. “Sewage sludge unit” No change
42. “Specific oxygen uptake rate (SOUR)” No change
43. “Store biosolids” or “storage of biosolids” No change
44. “Surface disposal site” No change

45. “Ton” No change
46. “Total solids” No change
47. “Treatment of biosolids” No change
48. “Unstabilized solids” No change
49. “Vectors” No change
50. “Volatile solids” No change
51. “Wetlands” No change

Arizona Administrative CODE

Office of the Secretary of State
ADMINISTRATIVE RULES DIVISION

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

The table of contents on page one contains links to the referenced page numbers in this Chapter.
Refer to the notes at the end of a Section to learn about the history of a rule as it was published in the *Arizona Administrative Register*.

This Chapter contains rules that were filed to be codified in the *Arizona Administrative Code* between the dates of October 1, 2023 through December 31, 2023

Questions about these rules? Contact:
Name: Chris Montague-Breakwell
Address: Arizona Department of Environmental Quality
1110 W. Washington St.
Phoenix, AZ 85007
Telephone: (602) 771-4162
Email: montague-breakwell.chris@azdeq.gov

The release of this Chapter in Supp. 23-4 replaces Supp. 23-2, 1-180 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Authority: A.R.S. §§ 49-203(A)(2), 49-203(A)(6), 49-203(A)(9), 49-104(C)(1)

Supp. 23-4

CHAPTER TABLE OF CONTENTS

ARTICLE 1. AQUIFER PROTECTION PERMITS - GENERAL PROVISIONS

ARTICLE 2. AQUIFER PROTECTION PERMITS - INDIVIDUAL PERMITS

PART A. APPLICATION AND GENERAL PROVISIONS

PART B. BADCT FOR SEWAGE TREATMENT FACILITIES

ARTICLE 3. AQUIFER PROTECTION PERMITS - GENERAL PERMITS

PART A. GENERAL PROVISIONS

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

PART B. TYPE 1 GENERAL PERMITS

PART C. TYPE 2 GENERAL PERMITS

PART D. TYPE 3 GENERAL PERMITS

PART E. TYPE 4 GENERAL PERMITS

ARTICLE 4. NITROGEN MANAGEMENT GENERAL PERMITS

ARTICLE 5. GRAZING BEST MANAGEMENT PRACTICES

Article 5, consisting of Section R18-9-501, made by final rulemaking at 7 A.A.R. 1768, effective April 5, 2001 (Supp. 01-2).

ARTICLE 6. UNDERGROUND INJECTION CONTROL

Article 6, consisting of Parts A through J, and Table 1, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

Article 6, consisting of Sections R18-9-601 through R18-9-603, repealed by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

Article 6, consisting of Sections R18-9-601 through R18-9-603, adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1).

PART A. GENERAL PROVISIONS

Article 6, Part A, consisting of Sections R18-9-A601 through R18-9-A606, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART B. GENERAL PROGRAM REQUIREMENTS

Article 6, Part B, consisting of Sections R18-9-B607 through R18-9-B615, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART C. AUTHORIZATION BY PERMIT FOR UNDERGROUND INJECTION

Article 6, Part C, consisting of Sections R18-9-C616 through R18-9-C634, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART D. PERMIT CONDITIONS FOR UNDERGROUND INJECTION

Article 6, Part D, consisting of Sections R18-9-D635 through R18-9-D639, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART E. CLASS I INJECTION WELL REQUIREMENTS

Article 6, Part E, consisting of Sections R18-9-E640 through R18-9-E642, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART F. CLASS II INJECTION WELL REQUIREMENTS

Article 6, Part F, consisting of Sections R18-9-F643 through R18-9-F645, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART G. CLASS III INJECTION WELL REQUIREMENTS

Article 6, Part F, consisting of Sections R18-9-G646 through R18-9-G648, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART H. CLASS IV INJECTION WELL REQUIREMENTS

Article 6, Part H, consisting of Section R18-9-H649, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART I. CLASS V INJECTION WELL REQUIREMENTS

Article 6, Part I, consisting of Sections R18-9-I650 through R18-9-I655, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

PART J. CLASS VI INJECTION WELL REQUIREMENTS

Article 6, Part J, consisting of Sections R18-9-J656 through R18-9-J670, made by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

ARTICLE 7. USE OF RECYCLED WATER

Article 4, consisting of Sections R9-20-401 through R9-20-40,7 renumbered as Article 7, Sections R18-9-701 through R18-9-707 (Supp. 87-3).

Article 4, consisting of Sections R9-20-401 through R9-20-407, adopted effective May 24, 1985.

Former Article 4, consisting of Sections R9-20-401 through R9-20-408, repealed effective May 24, 1985.

PART A. GENERAL PROVISIONS

PART B. RECLAIMED WATER

PART C. RECYCLED INDUSTRIAL WASTEWATER

PART D. GRAY WATER

PART E. PURIFIED WATER FOR POTABLE USE

ARTICLE 8. REPEALED

Article 8, consisting of Sections R18-9-801 through R18-9-819, repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

Article 3, consisting of Sections R9-8-311 through R9-8-361, renumbered as Article 8, Sections R18-9-801 through R18-9-819 (Supp. 87-3).

ARTICLE 9. ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM

Editor's Note: The recodification at 7 A.A.R. 2522 described below erroneously moved Sections into 18 A.A.C. 9, Article 9. Those Sections were actually recodified to 18 A.A.C. 9, Article 10. See the Historical Notes for more information (Supp. 01-4).

Article 9, consisting of Sections R18-9-901 through R18-9-914 and Appendix A, recodified from 18 A.A.C. 13, Article 15 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2).

PART A. GENERAL REQUIREMENTS

PART B. INDIVIDUAL PERMITS

PART C. GENERAL PERMITS

PART D. ANIMAL FEEDING OPERATIONS AND CONCENTRATED ANIMAL FEEDING OPERATIONS

ARTICLE 10. ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM - DISPOSAL, USE, AND TRANSPORTATION OF BIOSOLIDS

Article 10, consisting of Sections R18-9-1001 through R18-9-1014 and Appendix A, recodified from 18 A.A.C. 13, Article 15 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2).

ARTICLE 1. AQUIFER PROTECTION PERMITS - GENERAL PROVISIONS

R18-9-101. Definitions

In addition to the definitions established in A.R.S. § 49-201, the following terms apply to Articles 1, 2, 3, and 4 of this Chapter:

1. "Aggregate" means a clean graded hard rock, volcanic rock, or gravel of uniform size, between 3/4 inch and 2 1/2 inches in diameter, offering 30 percent or more void space, washed or prepared to be free of fine materials that will impair absorption surface performance, and has a hardness value of three or greater on the Moh's Scale of Hardness (can scratch a copper penny).
2. "Alert level" means a value or criterion established in an individual permit that serves as an early warning indicating a potential violation of a permit condition related to BADCT or the discharge of a pollutant to groundwater.
3. "AQL" means an aquifer quality limit and is a permit limitation set for aquifer water quality measured at the point of compliance that either represents an Aquifer Water Quality Standard or, if an Aquifer Water Quality Standard for a pollutant is exceeded in an aquifer at the time of permit issuance, represents the ambient water quality for that pollutant.
4. "Aquifer Protection Permit" means an individual permit or a general permit issued under A.R.S. §§ 49-203, 49-241 through 49-252, and Articles 1, 2, and 3 of this Chapter.
5. "Aquifer Water Quality Standard" means a standard established under A.R.S. §§ 49-221 and 49-223.
6. "AZPDES" means the Arizona Pollutant Discharge Elimination System, which is the state program for issuing, modifying, revoking, reissuing, terminating, monitoring, and enforcing permits, and imposing and enforcing pretreatment and biosolids requirements under A.R.S. Title 49, Chapter 2, Article 3.1 and 18 A.A.C. 9, Articles 9 and 10.
7. "BADCT" means the best available demonstrated control technology, process, operating method, or other alternative to achieve the greatest degree of discharge reduction determined for a facility by the Director under A.R.S. § 49-243.
8. "Bedroom" means, for the purpose of determining design flow for an on-site wastewater treatment facility for a dwelling, any room that has:
   a. A floor space of at least 70 square feet in area, excluding closets;
   b A ceiling height of at least 7 feet;
   c. Electrical service and ventilation;
   d. A closet or an area where a closet could be constructed;
   e. At least one window capable of being opened and used for emergency egress; and
   f. A method of entry and exit to the room that allows the room to be considered distinct from other rooms in the dwelling and to afford a level of privacy customarily expected for such a room.
9. "Book net worth" means the net difference between total assets and total liabilities.
10. "CCR" means coal combustion residuals which include fly ash, bottom ash, boiler slag, and flue gas desulfurization materials generated from burning coal for the purpose of generating electricity by electric utilities and independent power producers.
11. "CCR landfill" means an area of land or an excavation that receives CCR and which is not a municipal solid waste landfill, a surface impoundment, an underground injection well, a salt dome formation, a salt bed formation, an underground or surface coal mine, or a cave. A CCR landfill also includes sand and gravel pits and quarries that receive CCR, CCR piles, and any practice that does not meet the definition of beneficial use of CCR.
12. "CCR surface impoundment" means a natural topographic depression, man-made excavation, or diked area, which is designed to hold an accumulation of CCR and liquids, and the unit treats, stores, or disposes of CCR.
13. "CCR unit" means any CCR landfill which receives CCR, any CCR surface impoundment designed to hold an accumulation of CCR and liquids, and the unit treats, stores or disposes of CCR. CCR unit includes a lateral expansion of a CCR unit, or a combination of more than one of these units that receives CCR.
14. "Cesspool" means a pit, collection structure, or subsurface fluid distribution system, which may or may not be partially lined, that receives discharged sewage. A cesspool is not an on-site wastewater treatment facility, such as a septic tank, vault, or other structure permitted under Article 3 of this Chapter.
15. "Chamber technology" means a method for dispersing treated wastewater into soil from an on-site wastewater treatment facility by one or more manufactured leaching chambers with an open bottom and louvered, load-bearing sidewalls that substitute for an aggregate-filled trench described in R18-9-E302.
16. "CMOM Plan" means a Capacity, Management, Operations, and Maintenance Plan, which is a written plan that describes the activities a permittee will engage in and actions a permittee will take to ensure that the capacity of the sewage collection system, when unobstructed, is sufficient to convey the peak wet weather flow through each reach of sewer, and provides for the management, operation, and maintenance of the permittee's sewage collection system.
17. "Design capacity" means the volume of a containment feature at a discharging facility that accommodates all permitted flows and meets all Aquifer Protection Permit conditions, including allowances for appropriate peaking and safety factors to ensure sustained, reliable operation.
18. "Design flow" means the daily flow rate a facility is designed to accommodate on a sustained basis while satisfying all Aquifer Protection Permit discharge limitations and treatment and operational requirements. The design flow either incorporates or is used with appropriate peaking and safety factors to ensure sustained, reliable operation.
19. "Direct reuse site" means an area where reclaimed water is applied or impounded.
20. "Disposal works" means the system for disposing treated wastewater generated by the treatment works of a sewage treatment facility or on-site wastewater treatment facility, by surface or subsurface methods. Disposal works do not include systems for activities regulated under 18 A.A.C. 9, Article 7.
21. "*Drywell*" *means a well which is a bored, drilled or driven shaft or hole whose depth is greater than its width and is designed and constructed specifically for the disposal of storm water. Drywells do not include class 1, class 2, class 3 or class 4 injection wells as defined by the*

Federal Underground Injection Control Program (P.L. 93-523, part C), as amended. A.R.S. § 49-331(3)

22. "Dwelling" means any building, structure, or improvement intended for residential use or related activity, including a house, an apartment unit, a condominium unit, a townhouse, or a mobile or manufactured home that has been constructed or will be constructed on real property.
23. "Final permit determination" means a written notification to the applicant of the Director's final decision whether to issue or deny an Individual Aquifer Protection Permit.
24. *"Gray water" means wastewater that has been collected separately from a sewage flow and that originates from a clothes washer or a bathroom tub, shower or sink but that does not include wastewater from a kitchen sink, dishwasher or toilet.* A.R.S. § 49-201(20).
25. "Groundwater Quality Protection Permit" means a permit issued by the Arizona Department of Health Services or the Department before September 27, 1989 that regulates the discharge of pollutants that may affect groundwater.
26. "Homeowner's association" means a nonprofit corporation or unincorporated association of owners created pursuant to a declaration to own and operate portions of a planned community and which has the power under the declaration to assess association members to pay the costs and expenses incurred in the performance of the association's obligations under the declaration.
27. "Injection well" means a well that receives a discharge through pressure injection or gravity flow.
28. "Intermediate stockpile" means in-process material not intended for long-term storage that is in transit from one process to another at a mining site. Intermediate stockpile does not include metallic ore concentrate stockpiles or feedstocks not originating at the mining site.
29. "Land treatment facility" means an operation designed to treat and improve the quality of waste, wastewater, or both, by placement wholly or in part on the land surface to perform part or all of the treatment. A land treatment facility includes a facility that performs biosolids drying, processing, or composting, but not land application performed in compliance with 18 A.A.C. 9, Article 10.
30. "Mining site" means a site assigned one or more of the following primary Standard Industrial Classification Codes: 10, 12, 14, 32, and 33, and includes noncontiguous properties owned or operated by the same person and connected by a right-of-way controlled by that person to which the public is not allowed access.
31. "Nitrogen Management Area" means an area designated by the Director for which the Director prescribes measures on an area-wide basis to control sources of nitrogen, including cumulative discharges from on-site wastewater treatment facilities, that threaten to cause or have caused an exceedance of the Aquifer Water Quality Standard for nitrate.
32. "Notice of Disposal" means a document submitted to the Arizona Department of Health Services or the Department before September 27, 1989, giving notification of a pollutant discharge that may affect groundwater.
33. *"On-site wastewater treatment facility" means a conventional septic tank system or alternative system that is installed at a site to treat and dispose of wastewater of predominantly human origin that is generated at that site.* A.R.S. § 49-201(29). An on-site wastewater treatment facility does not include a pre-fabricated, manufactured treatment works that typically uses an activated sludge unit process and has a design flow of 3000 gallons per day or more.
34. "Operational life" means the designed or planned period during which a facility remains operational while being subject to permit conditions, including closure requirements. Operational life does not include post-closure activities.
35. "*Person*" *means an individual, employee, officer, managing body, trust, firm, joint stock company, consortium, public or private corporation, including a government corporation, partnership, association or state, a political subdivision of this state, a commission, the United States government or any federal facility, interstate body or other entity.* A.R.S. § 49-201(33). For the purposes of permitting a sewage treatment facility under Article 2 of this Chapter, person does not include a homeowner's association.
36. "Pilot project" means a short-term, limited-scale test designed to gain information regarding site conditions, project feasibility, or application of a new technology.
37. "Process solution" means a pregnant leach solution, barren solution, raffinate, or other solution uniquely associated with the mining or metals recovery process.
38. "Residential soil remediation level" means the applicable predetermined standard established in 18 A.A.C. 7, Article 2, Appendix A.
39. "Seasonal high water table" means the free surface representing the highest point of groundwater rise within an aquifer due to seasonal water table changes over the course of a year.
40. "Setback" means a minimum horizontal distance maintained between a feature of a discharging facility and a potential point of impact.
41. "Sewage" means untreated wastes from toilets, baths, sinks, lavatories, laundries, other plumbing fixtures, and waste pumped from septic tanks in places of human habitation, employment, or recreation. Sewage does not include gray water as defined in A.R.S. § 49-201(20), if the gray water is reused according to 18 A.A.C. 9, Article 7.
42. "Sewage collection system" means a system of pipelines, conduits, manholes, pumping stations, force mains, and all other structures, devices, and appurtenances that collect, contain, and convey sewage from its sources to the entry of a sewage treatment facility or on-site wastewater treatment facility serving sources other than a single-family dwelling.
43. "Sewage treatment facility" means a plant or system for sewage treatment and disposal, except for an on-site wastewater treatment facility, that consists of treatment works, disposal works and appurtenant pipelines, conduits, pumping stations, and related subsystems and devices. A sewage treatment facility does not include components of the sewage collection system or the reclaimed water distribution system.
44. "Surface impoundment" means a pit, pond, or lagoon with a surface dimension equal to or greater than its depth, and used for the storage, holding, settling, treatment, or discharge of liquid pollutants or pollutants containing free liquids.
45. "Tracer" means a substance, such as a dye or other chemical, used to change the characteristic of water or some other fluid to detect movement.

46. "Tracer study" means a test conducted using a tracer to measure the flow velocity, hydraulic conductivity, flow direction, hydrodynamic dispersion, partitioning coefficient, or other property of a hydrologic system.
47. "Treatment works" means a plant, device, unit process, or other works, regardless of ownership, used for treating, stabilizing, or holding municipal or domestic sewage in a sewage treatment facility or on-site wastewater treatment facility.
48. "Typical sewage" means sewage conveyed to an on-site wastewater treatment facility in which the total suspended solids (TSS) content does not exceed 430 mg/l, the five-day biochemical oxygen demand (BOD_5) does not exceed 380 mg/l, the total nitrogen does not exceed 53 mg/l, and the content of oil and grease does not exceed 75 mg/l.
49. "*Underground storage facility*" *means a constructed underground storage facility or a managed underground storage facility.* A.R.S. § 45-802.01(21).
50. "Waters of the United States" means:
    a. All waters that are currently used, were used in the past, or may be susceptible to use in interstate or foreign commerce, including all waters that are subject to the ebb and flow of the tide;
    b. All interstate waters, including interstate wetlands;
    c. All other waters such as intrastate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, or natural ponds the use, degradation, or destruction of which would affect or could affect interstate or foreign commerce including any waters:
        i. That are or could be used by interstate or foreign travelers for recreational or other purposes;
        ii. From which fish or shellfish are or could be taken and sold in interstate or foreign commerce; or
        iii. That are used or could be used for industrial purposes by industries in interstate commerce;
    d. All impoundments of waters defined as waters of the United States under this definition;
    e. Tributaries of waters identified in subsections (a) through (d);
    f. The territorial sea; and
    g. Wetlands adjacent to waters (other than waters that are themselves wetlands) identified in subsections (a) through (f).

Historical Note
Adopted effective September 27, 1989 (Supp. 89-3). Amended by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final expedited rulemaking at 25 A.A.R. 3060, effective immediately September 23, 2019, pursuant to A.R.S. § 41-1027(H) (Supp. 19-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-102. Facilities to which Articles 1, 2, and 3 Do Not Apply
Articles 1, 2, and 3 do not apply to:

1. A drywell used solely to receive storm runoff and located so that no use, storage, loading, or treating of hazardous substances occurs in the drainage area;
2. A direct pesticide application in the commercial production of plants and animals subject to the Federal Insecticide, Fungicide, and Rodenticide Act (P.L. 92-516; 86 Stat. 975; 7 United States Code 135 et seq., as amended), or A.R.S. §§ 49-301 through 49-309 and applicable rules, or A.R.S. Title 3, Chapter 2, Article 6 and applicable rules.

Historical Note
Adopted effective September 27, 1989 (Supp. 89-3). Amended by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-103. Class Exemptions
Class exemptions. In addition to the classes or categories of facilities listed in A.R.S. § 49-250(B), the following classes or categories of facilities are exempt from the Aquifer Protection Permit requirements in Articles 1, 2, and 3 of this Chapter:

1. Facilities that treat, store, or dispose of hazardous waste and have been issued a permit or have interim status, under the Resource Conservation and Recovery Act (P.L. 94580; 90 Stat. 2796; 42 U.S.C. 6901 et seq., as amended), or have been issued a permit according to the hazardous waste management rules adopted under 18 A.A.C. 8, Article 2;
2. Underground storage tanks that contain a regulated substance as defined in A.R.S. § 49-1001;
3. Facilities for the disposal of solid waste, as defined in A.R.S. § 49-701.01, that are located in unincorporated areas and receive solid waste from four or fewer households;
4. Land application of biosolids in compliance with 18 A.A.C. 9, Articles 9 and 10;
5. CCR Units regulated by 40 CFR 257, Subpart D or by a permit in effect under a Department program approved by the United States Environmental Protection Agency in accordance with 42 U.S.C. § 6945(d)(1);
6. Underground Injection Control Class V injection wells regulated under an area or individual permit per 18 A.A.C. 9, Article 6, Part I.

Historical Note
Adopted effective September 27, 1989 (Supp. 89-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Subsection 4 citation corrected to reflect recodification at 7 A.A.R. 2522 (Supp. 03-1). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final expedited rulemaking at 25 A.A.R. 3060, effective immediately September 23, 2019, pursuant to A.R.S. § 41-1027(H) (Supp. 19-3). Amended by final rulemaking at 28 A.A.R. 1903 (August 5, 2022), effective September 6, 2022 (Supp. 22-3).

R18-9-104. Transition from Notices of Disposal and Groundwater Quality Protection Permitted Facilities
A person who owns, operates, or operated a facility on or after January 1, 1986 for which a Notice of Disposal was filed or a Groundwater Quality Protection Permit was issued shall, within 90 days from the date on the Director's notification, submit an application for an Aquifer Protection Permit or a closure plan as specified under A.R.S. § 49-252. The person shall obtain a permit for continued operation, closure of the facility, or clean closure approval.

Failure to submit an application or closure plan as required terminates continuance of the Notice of Disposal or Groundwater Quality Protection Permit.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Amended by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-105. Permit Continuance

A. Continuance.
1. Groundwater Quality Protection Permits.
   a. Subject to R18-9-104 and other provisions of this Section, a Groundwater Quality Protection Permit issued before September 27, 1989 is valid according to the terms of the permit until replaced by an Aquifer Protection Permit issued by the Department.
   b. A person who owns or operates a facility to which a Groundwater Quality Protection Permit was issued is in compliance with Articles 1, 2, and 3 of this Chapter and A.R.S. Title 49, Chapter 2, Article 3, if the facility:
      i. Meets the conditions of the Groundwater Quality Protection Permit; and
      ii. Is not causing or contributing to the violation of any Aquifer Water Quality Standard at a point of compliance, determined by the criteria in A.R.S. § 49-244.
2. Notice of Disposal. A person who owns or operates a facility for which a Notice of Disposal was filed before September 27, 1989 complies with Articles 1, 2, and 3 of this Chapter and A.R.S. Title 49, Chapter 2, Article 3 if the facility is not causing or contributing to the violation of an Aquifer Water Quality Standard at a point of compliance, determined by the criteria in A.R.S. § 49-244.
3. Aquifer Protection Permit application submittal. A person who did not file a Notice of Disposal and does not possess a Groundwater Quality Protection Permit or an Aquifer Protection Permit for an existing facility, but submitted the information required in applicable rules before December 27, 1989, is in compliance with Articles 1, 2, and 3 of this Chapter only if the person submitted an Aquifer Protection Permit application to the Department before January 1, 2001.

B. Applicability. Subsection (A) applies until the Director:
1. Issues an Aquifer Protection Permit for the facility,
2. Denies an Aquifer Protection Permit for the facility,
3. Issues a letter of clean closure approval for the facility under A.R.S. § 49-252, or
4. Determines that the person failed to submit an application under R18-9-104.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Amended effective November 12, 1996 (Supp. 96-4). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-106. Determination of Applicability

A. A person who engages or who intends to engage in an operation or an activity that may result in a discharge regulated under Articles 1, 2, and 3 of this Chapter may submit a request, on a form provided by the Department, that the Department determine the applicability of A.R.S. §§ 49-241 through 49-252 and Articles 1, 2, and 3 of this Chapter to the operation or activity.

B. A person requesting a determination of applicability shall provide the following information and the applicable fee under 18 A.A.C. 14:
1. The name and location of the operation or activity;
2. The name of any person who is engaging or who proposes to engage in the operation or activity;
3. A description of the operation or activity;
4. A description of the volume, chemical composition, and characteristics of materials stored, handled, used, or disposed of in the operation or activity; and
5. Any other information required by the Director to make the determination of applicability.

C. Within 45 days after receipt of a request for a determination of applicability, the Director shall notify in writing the person making the request that the operation or activity:
1. Is not subject to the requirements of A.R.S. §§ 49-241 through 49-252 and Articles 1, 2, and 3 of this Chapter because the operation or facility does not discharge as described under A.R.S. § 49-241;
2. Is not subject to the requirements of A.R.S. §§ 49-241 through 49-252 and Articles 1, 2, and 3 of this Chapter because the operation or activity is exempted by A.R.S. § 49-250 or R18-9-103;
3. Is eligible for a general permit under A.R.S. §§ 49-245.01, 49-245.02 or 49-247 or Article 3 of this Chapter, specifying the particular general permit that would apply if the person meets the conditions of the permit; or
4. Is subject to the permit requirements of A.R.S. §§ 49-241 through 49-252 and Articles 1, 2, and 3 of this Chapter.

D. If, after issuing a determination of applicability under this Section, the Director concludes that the determination or the information relied upon for a determination is inaccurate, the Director may modify or withdraw its determination upon written notice to the person who requested the determination of applicability.

E. If the Director determines that an operation or activity is subject to the requirements of A.R.S. §§ 49-241 through 49-252, the person who owns or operates the discharging facility shall, within 90 days from receiving the Director's written notification, submit an application for an Aquifer Protection Permit or a closure plan.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Amended by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-107. Consolidation of Aquifer Protection Permits

A. The Director may consolidate any number of individual permits or the coverage for any facility authorized to discharge under a general permit into a single individual permit, if:
1. The facilities are part of the same project or operation and are located in a contiguous geographic area, or
2. The facilities are part of an area under the jurisdiction of a single political subdivision.

B. All applicable individual permit requirements established in Articles 1 and 2 of this Chapter apply to the consolidation of Aquifer Protection Permits.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-108. Public Notice

A. Individual permits.

1. The Department shall provide the entities specified in subsection (A)(2), with monthly written notification, by regular mail or electronically, of the following:
   a. Individual permit applications,
   b. Temporary permit applications,
   c. Preliminary and final decisions by the Director whether to issue or deny an individual or temporary permit,
   d. Closure plans received under R18-9-A209(B),
   e. Significant permit amendments and "other" permit amendments,
   f. Permit revocations, and
   g. Clean closure approvals.
2. Entities.
   a. Each county department of health, environmental services department, or comparable department;
   b. A federal, state, local agency, or council of government, that may be affected by the permit action; and
   c. A person who requested, in writing, notification of the activities described in subsection (A).
3. The Department may post the information referenced in subsections (A)(1) and (2) on the Department web site: www.azdeq.gov.

B. General permits. Public notice requirements do not apply.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-109. Public Participation

A. Notice of Preliminary Decision.

1. The Department shall publish a Notice of Preliminary Decision regarding the issuance or denial of a significant permit amendment or a final permit determination in one or more newspapers of general circulation where the facility is located.
2. The Department shall accept written comments from the public before a significant permit amendment or a final permit determination is made.
3. The written public comment period begins on the publication date of the Notice of Preliminary Decision and extends for 30 calendar days.

B. Public hearing.

1. The Department shall provide notice and conduct a public hearing to address a Notice of Preliminary Decision regarding a significant permit amendment or final permit determination if:
   a. Significant public interest in a public hearing exists, or
   b. Significant issues or information has been brought to the attention of the Department that has not been considered previously in the permitting process.
2. If, after publication of the Notice of Preliminary Decision, the Department determines that a public hearing is necessary, the Department shall schedule a public hearing and publish the Notice of Preliminary Decision at least once, in one or more newspapers of general circulation where the facility is located.
3. The Department shall accept written public comment until the close of the hearing record as specified by the person presiding at the public hearing.

C. The Department shall respond in writing to all comments submitted during the formal public comment period.

D. At the same time the Department notifies a permittee of a significant permit amendment or an applicant of the final permit determination, the Department shall send, through regular mail or electronically, a notice of the amendment or determination and the summary of response to comments to any person who submitted comments or attended a public hearing on the significant permit amendment or final permit determination.

E. General permits. Public participation requirements do not apply.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-110. Inspections, Violations, and Enforcement

A. The Department shall conduct an inspection of a permitted facility as specified under A.R.S. § 41-1009.

B. A person who owns or operates a facility contrary to a provision of Articles 1, 2, and 3 of this Chapter, violates a condition of an Aquifer Protection Permit, or violates a condition of a Groundwater Quality Protection Permit continued under R189105(A)(1) is subject to the enforcement actions established under A.R.S. Title 49, Chapter 2, Article 4.

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-111. Repealed

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-112. Repealed

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-113. Repealed

Historical Note

Adopted effective September 27, 1989 (Supp. 89-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-114. Repealed

Historical Note
Adopted effective September 27, 1989 (Supp. 89-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-115. Repealed

Historical Note
Adopted effective September 27, 1989 (Supp. 89-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-116. Repealed

Historical Note
Adopted effective September 27, 1989 (Supp. 89-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

Appendix I. Repealed

Historical Note
Appendix I repealed by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

ARTICLE 2. AQUIFER PROTECTION PERMITS - INDIVIDUAL PERMITS

PART A. APPLICATION AND GENERAL PROVISIONS

R18-9-A201. Individual Permit Application

A. An individual permit application covers one or more of the following categories:
1. Drywell,
2. Industrial,
3. Mining,
4. Wastewater,
5. Solid waste disposal, or
6. Land treatment facility.

B. An applicant for an individual permit shall provide the Department with:
1. The following information on an application form:
   a. The name and mailing address of the applicant;
   b. The name and mailing address of the owner of the facility;
   c. The name and mailing address of the operator of the facility;
   d. The legal description, including latitude and longitude, of the location of the facility;
   e. The expected operational life of the facility; and

f. The permit number for any other federal or state environmental permit issued to the applicant for that facility or site.

2. A copy of the certificate of disclosure required by A.R.S. § 49-109;
3. Evidence that the facility complies with applicable municipal or county zoning ordinances, codes, and regulations;
4. Two copies of the technical information required in R18-9-A202(A);
5. Cost estimates for facility construction, operation, maintenance, closure, and post-closure as follows.
   a. The applicant shall ensure that the cost estimates are derived by an engineer, controller, or accountant using competitive bids, construction plan take-off's, specifications, operating history for similar facilities, or other appropriate sources, as applicable.
   b. The following cost estimates that are representative of regional fair market costs:
      i. The cost of closure estimate under R18-9-A209(B)(2), consistent with the closure plan or strategy submitted under R18-9-A202(A)(10);
      ii. The estimated cost of post-closure monitoring and maintenance under R18-9-A209(C), consistent with the post-closure plan or strategy submitted under R18-9-A202(A)(10); and
      iii. For a sewage treatment facility or utility subject to Title 40 of the Arizona Revised Statutes, the operation and maintenance costs of those elements of the facility used to make the demonstration under A.R.S. § 49-243(B);
6. For a sewage treatment facility:
   a. Documentation that the sewage treatment facility or expansion conforms with the Certified Areawide Water Quality Management Plan and the Facility Plan, and
   b. The additional information required in R18-9-B202 and R18-9-B203;
7. Certification in writing that the information submitted in the application is true and accurate to the best of the applicant's knowledge; and
8. The applicable fee established in 18 A.A.C. 14.

C. Special provision for an underground storage facility as defined in A.R.S. § 45-802.01(21). A person applying for an individual permit for an underground storage facility shall submit the information described in R18-9-A201 through R18-9-A203, except for the BADCT information specified in R18-9-A202(A)(5).
1. Upon receipt of the application, the Department shall process the application in coordination with the underground storage facility permit process administered by the Department of Water Resources.
2. The Department shall advise the Department of Water Resources of each permit application received.

D. Pre-application conference. Upon request of the applicant, the Department shall schedule and hold a pre-application conference with the applicant to discuss any requirements in Articles 1 and 2 of this Chapter.

E. Draft permit. The Department shall provide the applicant with a draft of the individual permit before publication of the Notice of Preliminary Decision specified in R18-9-109.

F. Permit duration. Except for a temporary permit, an individual permit is valid for the operational life of the facility and any period during which the facility is subject to a post-closure plan under R18-9-A209(C).

G. Permit issuance or denial.
1. The Director shall issue an individual permit, based upon the information obtained by or made available to the Department, if the Director determines that the applicant will comply with A.R.S. §§ 49-241 through 49-252 and Articles 1 and 2 of this Chapter.
2. The Director shall provide the applicant with written notification of the final decision to issue or deny the permit within the overall licensing time-frame requirements under 18 A.A.C. 1, Article 5, Table 10 and the following:
   a. The applicant's right to appeal the final permit determination, including the number of days the applicant has to file a protest and the name and telephone number of the Department contact person who can answer questions regarding the appeals process;
   b. If the permit is denied under R18-9-A213(B), the reason for the denial with reference to the statute or rule on which the denial is based; and
   c. The applicant's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A202. Technical Requirements

A. Except as specified in R18-9-A201(C)(1), an applicant shall, as required under R18-9-A201(B)(4), submit the following technical information as attachments to the individual permit application:
1. A topographic map, or other appropriate map approved by the Department, of the facility location and contiguous land area showing the known use of adjacent properties, all known water well locations found within one-half mile of the facility, and a description of well construction details and well uses, if available;
2. A facility site plan showing all known property lines, structures, water wells, injection wells, drywells and their uses, topography, and the location of points of discharge. The facility site plan shall include all known borings. If the Department determines that borings are numerous, the applicant shall satisfy this requirement with a narrative description of the number and location of the borings;
3. The facility design documents indicating proposed or as-built design details and proposed or as-built configuration of basins, ponds, waste storage areas, drainage diversion features, or other engineered elements of the facility affecting discharge. When formal as-built plan submittals are not available, the applicant shall provide documentation sufficient to allow evaluation of those elements of the facility affecting discharge, following the demonstration requirements of A.R.S. § 49-243(B). An applicant seeking an Aquifer Protection Permit for a sewage treatment facility satisfies the requirements of this subsection by submitting the documents required in R18-9-B202 and R18-9-B203;
4. A summary of the known past facility discharge activities and the proposed facility discharge activities indicating all of the following:

a. The chemical, biological, and physical characteristics of the discharge;
b. The rate, volume, and frequency of the discharge for each facility; and
c. The location of the discharge and a map outlining the pollutant management area described in A.R.S. § 49-244(1);

5. A description of the BADCT employed in the facility, including:
   a. A statement of the technology, processes, operating methods, or other alternatives proposed to meet the requirements of A.R.S. § 49-243(B), (G), or (P), as applicable. The statement shall describe:
      i. The alternative discharge control measures considered,
      ii. The technical and economic advantages and disadvantages of each alternative, and
      iii. The justification for selection or rejection of each alternative;
   b. An evaluation of each alternative discharge control technology relative to the amount of discharge reduction achievable, site-specific hydrologic and geologic characteristics, other environmental impacts, and water conservation or augmentation;
   c. For a new facility, an industry-wide evaluation of the economic impact of implementation of each alternative discharge control technology;
   d. For an existing facility, a statement reflecting the consideration of factors listed in A.R.S. § 49-243(B)(1)(a) through (h);
   e. A sewage treatment facility meeting the BADCT requirements under Article 2, Part B of this Chapter satisfies the requirements under subsections (A)(5)(a) through (d).
6. Proposed points of compliance for the facility based on A.R.S. § 49-244. An applicant shall demonstrate that:
   a. The facility will not cause or contribute to a violation of an Aquifer Water Quality Standard at the proposed point of compliance; or
   b. If an Aquifer Water Quality Standard for a pollutant is exceeded in an aquifer at the time of permit issuance, no additional degradation of the aquifer relative to that pollutant and determined at the proposed point of compliance will occur as a result of the discharge from the proposed facility. In this case, the applicant shall submit an Ambient Groundwater Monitoring Report that includes:
      i. Data from eight or more rounds of ambient groundwater samples collected to represent groundwater quality at the proposed points of compliance, and
      ii. An AQL proposal for each pollutant that exceeds an Aquifer Water Quality Standard;
7. A contingency plan that meets the requirements of R18-9-A204;
8. A hydrogeologic study that defines the discharge impact area for the expected duration of the facility. The Department may allow the applicant to submit an abbreviated hydrogeologic study or, if warranted, no hydrogeologic study, based upon the quantity and characteristics of the pollutants discharged, the methods of disposal, and the site conditions. The applicant may include information from a previous study of the affected area to meet a requirement of the hydrogeologic study, if the previous study accurately represents current hydrogeologic conditions.
   a. The hydrogeologic study shall demonstrate:
      i. That the facility will not cause or contribute to a violation of an Aquifer Water Quality Standard at the applicable point of compliance; or
      ii. If an Aquifer Water Quality Standard for a pollutant is exceeded in an aquifer at the time of permit issuance, that no additional degradation of the aquifer relative to that pollutant and determined at the applicable point of compliance will occur as a result of the discharge from the proposed facility;
   b. Based on the quantity and characteristics of pollutants discharged, methods of disposal, and site conditions, the Department may require the applicant to provide:
      i. A description of the surface and subsurface geology, including a description of all borings;
      ii. The location of any perennial, intermittent, or ephemeral surface water bodies;
      iii. The characteristics of the aquifer and geologic units with limited permeability, including depth, hydraulic conductivity, and transmissivity;
      iv. The rate, volume, and direction of surface water and groundwater flow, including hydrographs, if available, and equipotential maps;
      v. The precise location or estimate of the location of the 100-year flood plain and an assessment of the 100-year flood surface flow and potential impacts on the facility;
      vi. Documentation of the existing quality of the water in the aquifers underlying the site, including, where available, the method of analysis, quality assurance, and quality control procedures associated with the documentation;
      vii. Documentation of the extent and degree of any known soil contamination at the site;
      viii. An assessment of the potential of the discharge to cause the leaching of pollutants from surface soils or vadose materials;
      ix. For an underground water storage facility, an assessment of the potential of the discharge to cause the leaching of pollutants from surface soils or vadose materials or cause the migration of contaminated groundwater;
      x. Any changes in the water quality expected because of the discharge;
      xi. A description of any expected changes in the elevation or flow directions of the groundwater expected to be caused by the facility;
      xii. A map of the facility's discharge impact area; or
      xiii. The criteria and methodologies used to determine the discharge impact area.
9. A detailed proposal indicating the alert levels, discharge limitations, monitoring requirements, compliance schedules, and temporary cessation or plans that the applicant will use to satisfy the requirements of A.R.S. Title 49, Chapter 2, Article 3, and Articles 1 and 2 of this Chapter;
10. Closure and post-closure strategies or plans; and
11. Any other relevant information required by the Department to determine whether to issue a permit.

B. An applicant shall demonstrate the ability to maintain the technical capability necessary to carry out the terms of the individual permit, including a demonstration that a certified operator will operate the facility if a certified operator is required under 18 A.A.C. 5. The applicant shall make the demonstration by submitting the following information for each person principally responsible for designing, constructing, or operating the facility:
1. Pertinent licenses or certifications held by the person;
2. Professional training relevant to the design, construction, or operation of the facility; and
3. Work experience relevant to the design, construction, or operation of the facility.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A203. Financial Requirements

A. Definitions.
1. "Book net worth" means the net difference between total assets and total liabilities.
2. "Face amount" means the total amount the insurer is obligated to pay under the policy.
3. "Net working capital" means current assets minus current liabilities.
4. "Substantial business relationship" means a pattern of recent or ongoing business transactions to the extent that a guaranty contract issued incident to that relationship is valid and enforceable.
5. "Tangible net worth" means an owner or operator's book net worth, plus subordinated debts, less goodwill, patent rights, royalties, and assets and receivables due from affiliates or shareholders.

B. Financial demonstration. A person applying for an individual permit shall demonstrate financial capability to construct, operate, close, and ensure proper post-closure care of the facility in compliance with A.R.S. Title 49, Chapter 2, Article 3; Articles 1 and 2 of this Chapter; and the conditions of the individual permit. The applicant shall:
1. Submit a letter signed by the chief financial officer stating that the applicant is financially capable of meeting the costs described in R18-9-A201(B)(5);
2. For a state or federal agency, county, city, town, or other local governmental entity, submit a statement specifying the details of the financial arrangements used to meet the estimated closure and post-closure costs submitted under R18-9-A201(B)(5), including any other details that demonstrate how the applicant is financially capable of meeting the costs described in R18-9-A201(B)(5);
3. For other than a state or federal agency, county, city, town, or other local governmental entity, submit the information required for at least one of the financial assurance mechanisms listed in subsection (C) that covers the closure and post-closure costs submitted under R18-9-A201(B)(5), including:
   a. The selected financial mechanism or mechanisms;
   b. The amount covered by each financial mechanism;
   c. The institution or company that is responsible for each financial mechanism used in the demonstration; and
   d. Any other details that demonstrate how the applicant is financially capable of meeting the costs described in R18-9-A201(B)(5); and
4. For a facility subject to R18-9-A201(B)(5)(b)(iii) and not owned by a state or federal agency, county, city, town, or other local governmental entity, submit evidence of financial arrangements to cover the operation and maintenance costs described in R18-9-A201(B)(5).

C. Financial assurance mechanisms. The applicant may use any of the following mechanisms to cover the financial assurance obligation under R18-9-A201(B)(5):
1. Financial test for self-assurance. If an applicant uses a financial test for self-assurance, the applicant shall not consolidate the financial statement with a parent or sibling company. The applicant shall make the demonstration in either subsection (C)(1)(a) or (b) and submit the information required in subsection (C)(1)(c):
   a. The applicant may demonstrate:
      i. One of the following:
         (1) A ratio of total liabilities to net worth less than 2.0 and a ratio of current assets to current liabilities greater than 1.5;
         (2) A ratio of total liabilities to net worth less than 2.0 and a ratio of the sum of net annual income plus depreciation, depletion, and amortization to total liabilities greater than 0.1; or
         (3) A ratio of the sum of net annual income plus depreciation, depletion, and amortization to total liabilities greater than 0.1 and a ratio of current assets to current liabilities greater than 1.5;
      ii. The net working capital and tangible net worth of the applicant each are at least six times the closure cost estimate; and
      iii. The applicant has assets in the U.S. of at least 90 percent of total assets or six times the closure and post-closure cost estimate; or
   b. The applicant may demonstrate:
      i. The applicant's senior unsecured debt has a current investment-grade rating as issued by Moody's Investor Service, Inc.; Standard and Poor's Corporation; or Fitch Ratings;
      ii. The tangible net worth of the applicant is at least six times the closure cost estimate; and
      iii. The applicant has assets in the U.S. of at least 90 percent of total assets or six times the closure and post-closure cost estimate; and
   c. The applicant shall submit:
      i. A letter signed by the applicant's chief financial officer that identifies the criterion specified in subsection (C)(1)(a) or (b) and used by the applicant to satisfy the financial assurance requirements of this Section, an explanation of how the applicant meets the criterion, and certification of the letter's accuracy, and
      ii. A statement from an independent certified public accountant verifying that the demonstration submitted under subsection (C)(1)(c)(i) is accurate based on a review of the applicant's financial statements for the latest completed fiscal year or more recent financial data and no adjustment to the financial statement is necessary.

2. Performance surety bond. The applicant may use a performance surety bond if the following conditions are met:
   a. The company providing the performance bond is listed as an acceptable surety on federal bonds in Circular 570 of the U.S. Department of the Treasury;
   b. The bond provides for performance of all the covered items listed in R18-9-A201(B)(5) by the surety, or by payment into a standby trust fund of an amount equal to the penal amount if the permittee fails to perform the required activities;
   c. The penal amount of the bond is at least equal to the amount of the cost estimate developed in R18-9-A201(B)(5) if the bond is the only method used to satisfy the requirements of this Section or a pro-rata amount if used with another financial assurance mechanism;
   d. The surety bond names the Arizona Department of Environmental Quality as beneficiary;
   e. The original surety bond is submitted to the Director;
   f. Under the terms of the bond, the surety is liable on the bond obligation when the permittee fails to perform as guaranteed by the bond; and
   g. The surety payments under the terms of the bond are deposited directly into the Standby Trust Fund.
3. Certificate of deposit. The applicant may use a certificate of deposit if the following conditions are met:
   a. The applicant submits to the Director one or more certificates of deposit made payable to or assigned to the Department to cover the applicant's financial assurance obligation or a pro-rata amount if used with another financial assurance mechanism;
   b. The certificate of deposit is insured by the Federal Deposit Insurance Corporation and is automatically renewable;
   c. The bank assigns the certificate of deposit to the Arizona Department of Environmental Quality;
   d. Only the Department has access to the certificate of deposit; and
   e. Interest accrues to the permittee during the period the applicant gives the certificate as financial assurance, unless the interest is required to satisfy the requirements in R18-9-A201(B)(5).
4. Trust fund. The applicant may use a trust fund if the following conditions are met:
   a. The trust fund names the Arizona Department of Environmental Quality as beneficiary, and
   b. The trust is initially funded in an amount at least equal to:
      i. The cost estimate of the closure plan or strategy submitted under R18-9-A201(B)(5),
      ii. The amount specified in a compliance schedule approved in the permit, or
      iii. A pro-rata amount if used with another financial assurance mechanism.
5. Letter of credit. The applicant may use a letter of credit if the following conditions are met:
   a. The financial institution issuing the letter is regulated and examined by a federal or state agency;
   b. The letter of credit is irrevocable and issued for at least one year in an amount equal to the cost estimate submitted under R18-9-A201(B)(5) or a pro-rata amount if used with another financial assurance mechanism. The letter of credit provides that the expiration date is automatically extended for a period of at least one year unless the issuing institution has canceled the letter of credit by sending notice of cancellation by certified mail to the permittee and to the Director 90 days in advance of cancellation or expiration. The permittee shall provide alternate financial assurance within 60 days of receiving the notice of expiration or cancellation;
   c. The financial institution names the Arizona Department of Environmental Quality as beneficiary for the letter of credit; and
   d. The letter is prepared by the financial institution and identifies the letter of credit issue date, expiration date, dollar sum of the credit, the name and address of the Department as the beneficiary, and the name and address of the applicant as the permittee.
6. Insurance policy. The applicant may use an insurance policy if the following conditions are met:
   a. The insurance is effective before signature of the permit or substitution of insurance for other extant financial assurance instruments posted with the Director;
   b. The insurer is authorized to transact the business of insurance in the state and has an AM BEST Rating of at least a B+ or the equivalent;
   c. The permittee submits a copy of the insurance policy to the Department;
   d. The insurance policy guarantees that funds are available to pay costs as submitted under R18-9-A201(B)(5) without a deductible. The policy also guarantees that once cleanup steps begin that the insurer will pay out funds to the Director or other entity designated by the Director up to an amount equal to the face amount of the policy;
   e. The policy guarantees that while closure and post-closure activities are conducted the insurer will pay out funds to the Director or other entity designated by the Director up to an amount equal to the face amount of the policy;
   f. The insurance policy is issued for a face amount at least equal to the current cost estimate submitted to the Director for performance of all items listed in R18-9-A201(B)(5) or a pro-rata amount if used with another financial assurance mechanism. Actual payments by the insurer will not change the face amount, although the insurer's future liability is reduced by the amount of the payments, during the policy period;
   g. The insurance policy names the Arizona Department of Environmental Quality as additional insured;
   h. The policy contains a provision allowing assignment of the policy to a successor permittee. The transfer of the policy is conditional upon consent of the insurer and the Department; and
   i. The insurance policy provides that the insurer does not cancel, terminate, or fail to renew the policy except for failure to pay the premium. The automatic renewal of the policy, at a minimum, provides the insured with a renewal option at the face amount of the expiring policy. If the permittee fails to pay the premium, the insurer may cancel the policy by sending notice of cancellation by certified mail to the permittee and to the Director 90 days in advance of the cancellation. If the insurer cancels the policy, the

permittee shall provide alternate financial assurance within 60 days of receiving the notice of cancellation.

7. Cash deposit. The applicant may use a cash deposit if the cash is deposited with the Department to cover the financial assurance obligation under R18-9-A201(B)(5).
8. Guarantees.
   a. The applicant may use guarantees to cover the financial assurance obligation under R18-9-A201(B)(5) if the following conditions are met:
      i. The applicant submits to the Department an affidavit certifying that the guarantee arrangement is valid under all applicable federal and state laws. If the applicant is a corporation, the applicant shall include a certified copy of the corporate resolution authorizing the corporation to enter into an agreement to guarantee the permittee's financial assurance obligation;
      ii. The applicant submits to the Department documentation that explains the substantial business relationship between the guarantor and the permittee;
      iii. The applicant demonstrates that the guarantor meets conditions of the financial mechanism listed in subsection (C)(1). For purposes of applying the criteria in subsection (C)(1) to a guarantor, substitute "guarantor" for the term "applicant" as used in subsection (C)(1);
      iv. The guarantee is governed by and complies with state law;
      v. The guarantee continues in full force until released by the Director or replaced by another financial assurance mechanism listed under subsection (C);
      vi. The guarantee provides that, if the permittee fails to perform closure or post-closure care of a facility covered by the guarantee, the guarantor shall perform or pay a third party to perform closure or post-closure care, as required by the permit, or establish a fully funded trust fund as specified under subsection (C)(4) in the name of the owner or operator; and
      vii. The guarantor names the Arizona Department of Environmental Quality as beneficiary of the guarantee.
   b. Guarantee reporting. The guarantor shall notify or submit a report to the Department within 30 days of:
      i. An increase in financial responsibility during the fiscal year that affects the guarantor's ability to meet the financial demonstration;
      ii. Receiving an adverse auditor's notice, opinion, or qualification; or
      iii. Receiving a Department notification requesting an update of the guarantor's financial condition.
9. An applicant may use a financial assurance mechanism not listed in subsection (C)(1) through (8) if approved by the Director.

D. Loss of coverage. If the Director believes that a permittee will lose financial capability under subsection (C), the permittee shall, within 30 days from the date of receipt of the Director's request, submit evidence that the financial demonstration under subsection (B) is being met or provide an alternative financial assurance mechanism.

E. Financial assurance mechanism substitution. A permittee may substitute one financial assurance mechanism for another if the substitution is approved by the Director through an amendment under subsection (F).

F. Permit amendment. The permittee shall apply for an amendment to the individual permit if the permittee changes a financial assurance mechanism or if the permittee's revision of the closure strategy results in an increase in the estimated cost under R18-9-A201(B)(5). If a permittee seeks to amend a permit under R18-9-A211(B), the permittee shall submit a financial capability demonstration for all facilities covered by the amended individual permit with the permit amendment request.

G. Previous financial demonstration. If an applicant shows that the financial assurance demonstration required under this Section is covered within a financial demonstration already made to a governmental agency and the Department has access to that information, the applicant is not required to resubmit the information. The applicant shall certify that the current financial condition is equal to or better than the condition reflected in the financial demonstration provided to the other governmental agency. This provision does not apply to a demonstration required under subsection (F).

H. Recordkeeping. A permittee shall maintain the financial capability for the duration of the permit and report as specified in the permit.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A204. Contingency Plan

A. An individual permit shall specify a contingency plan that defines the actions to be taken if a discharge results in any of the following:
1. A violation of an Aquifer Water Quality Standard or an AQL,
2. A violation of a discharge limitation,
3. A violation of any other permit condition,
4. An alert level is exceeded, or
5. An imminent and substantial endangerment to the public health or the environment.

B. The contingency plan may include one or more of the following actions if a discharge results in any of the conditions described in subsection (A):
1. Verification sampling;
2. Notification to downstream or downgradient users who may be directly affected by the discharge;
3. Further monitoring that may include increased frequency, additional constituents, or additional monitoring locations;
4. Inspection, testing, operation, or maintenance of discharge control features at the facility;
5. Evaluation of the effectiveness of discharge control technology at the facility that may include technology upgrades;
6. Evaluation of pretreatment for sewage treatment facilities;
7. Preparation of a hydrogeologic study to assess the extent of soil, surface water, or aquifer impact;
8. Corrective action that includes any of the following measures:
   a. Control of the source of an unauthorized discharge,

b. Soil cleanup,
c. Cleanup of affected surface waters,
d. Cleanup of affected parts of the aquifer, or
e. Mitigation measures to limit the impact of pollutants on existing uses of the aquifer.

C. A permittee shall not take a corrective action proposed under subsection (B)(8) unless the action is approved by the Department.
1. Emergency response provisions and corrective actions specifically identified in the contingency plan submitted with a permit application are subject to approval by the Department during the application review process.
2. The permittee may propose to the Department a corrective action other than those already identified in the contingency plan if a discharge results in any of the conditions identified in subsection (A).
3. The Department shall approve the proposed corrective action if the corrective action provides a plan and expedient time-frame to return the facility to compliance with the facility's permit conditions, A.R.S. Title 49, Chapter 2, and Articles 1 and 2 of this Chapter.
4. The Director may incorporate corrective actions into an Aquifer Protection Permit.

D. A contingency plan shall contain emergency response provisions to address an imminent and substantial endangerment to public health or the environment including:
1. Twenty-four hour emergency response measures;
2. The name of an emergency response coordinator responsible for implementing the contingency plan;
3. Immediate notification to the Department regarding any emergency response measure taken;
4. A list of people to contact, including names, addresses, and telephone numbers if an imminent and substantial endangerment to public health or the environment arises; and
5. A general description of the procedures, personnel, and equipment proposed to mitigate unauthorized discharges.

E. A permittee may amend a contingency plan required by the Federal Water Pollution Control Act (P.L. 92-500; 86 Stat. 816; 33 U.S.C. 1251, et seq., as amended), or the Resource Conservation and Recovery Act of 1976 (P.L. 94-580; 90 Stat. 2796; 42 U.S.C. 6901 et seq., as amended), to meet the requirements of this Section and submit it to the Department for approval instead of a separate aquifer protection contingency plan.

F. A permittee shall maintain at least one copy of the contingency plan required by the individual permit at the location where day-to-day decisions regarding the operation of the facility are made. A permittee shall advise all employees responsible for the operation of the facility of the location of the contingency plan.

G. A permittee shall promptly revise the contingency plan upon any change to the information contained in the plan.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A205. Alert Levels, Discharge Limitations, and AQLs

A. Alert levels.
1. If the Department prescribes an alert level in an individual permit, the Department shall base the alert level on the site-specific conditions described by the applicant in the application submitted under R18-9-A201(A)(2) or other information available to the Department.
2. The Department may specify an alert level based on a pollutant that indicates the potential appearance of another pollutant.
3. The Department may specify the measurement of an alert level at a location appropriate for the discharge activity, considering the physical, chemical, and biological characteristics of the discharge, the particular treatment process, and the site-specific conditions.

B. Discharge limitations. If the Department prescribes discharge limitations in an individual permit, the Department shall base the discharge limitations on the considerations described in A.R.S. § 49-243.

C. AQLs. The Department may prescribe an AQL in an individual permit to ensure that the facility continues to meet the criteria under A.R.S. § 49-243(B)(2) or (3).
1. If the concentration of a pollutant in the aquifer does not exceed the Aquifer Water Quality Standard, the Department shall set the AQL at the Aquifer Water Quality Standard.
2. If the concentration of a pollutant in the aquifer exceeds the Aquifer Water Quality Standard, the Department shall set the AQL higher than the Aquifer Water Quality Standard.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A206. Monitoring Requirements

A. Monitoring.
1. The Department shall determine whether monitoring is required to assure compliance with Aquifer Protection Permit conditions and with the applicable Aquifer Water Quality Standards established under A.R.S. §§ 49-221, 49-223, 49-241 through 49-244, and 49-250 through 49-252.
2. If monitoring is required, the Director shall specify to the permittee:
   a. The type and method of monitoring;
   b. The frequency of monitoring;
   c. Any requirements for the installation, use, or maintenance of monitoring equipment; and
   d. The intervals at which the permittee reports the monitoring results to the Department.

B. Recordkeeping.
1. A permittee shall make a monitoring record for each sample taken as required by the individual permit consisting of all of the following:
   a. The date, time, and exact place of a sampling and the name of each individual who performed the sampling;
   b. The procedures used to collect the sample;
   c. The date sample analysis was completed;
   d. The name of each individual or laboratory performing the analysis;
   e. The analytical techniques or methods used to perform the sampling and analysis;
   f. The chain of custody records; and
   g. Any field notes relating to the information described in subsections (B)(1)(a) through (f).

2. A permittee shall make a monitoring record for each measurement made, as required by the individual permit, consisting of all of the following:
   a. The date, time, and exact place of the measurement and the name of each individual who performed the measurement;
   b. The procedures used to make the measurement; and
   c. Any field notes relating to the information described in subsections (B)(2)(a) and (b).
3. A permittee shall maintain monitoring records for at least 10 years after the date of the sample or measurement, unless the Department specifies a shorter time period in the permit.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A207. Reporting Requirements

A. A permittee shall notify the Department within five days after becoming aware of a violation of a permit condition or that an alert level was exceeded. The permittee shall inform the Department whether the contingency plan described in R18-9-A204 was implemented.

B. In addition to the requirements in subsection (A), a permittee shall submit a written report to the Department within 30 days after the permittee becomes aware of a violation of a permit condition. The report shall contain:
1. A description of the violation and its cause;
2. The period of violation, including exact date and time, if known, and the anticipated time period the violation is expected to continue;
3. Any action taken or planned to mitigate the effects of the violation or to eliminate or prevent recurrence of the violation;
4. Any monitoring activity or other information that indicates that a pollutant is expected to cause a violation of an Aquifer Water Quality Standard; and
5. Any malfunction or failure of a pollution control device or other equipment or process.

C. A permittee shall notify the Department within five days after the occurrence of any of the following:
1. The permittee's filing of bankruptcy, or
2. The entry of any order or judgment not issued by the Director against the permittee for the enforcement of any federal or state environmental protection statute or rule.

D. The Director shall specify the format for submitting results from monitoring conducted under R18-9-A206.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A208. Compliance Schedule

A. A permittee shall follow the compliance schedule established in the individual permit.
1. If a compliance schedule provides that an action is required more than one year after the date of permit issuance, the schedule shall establish interim requirements and dates for their achievement.
2. If the time necessary for completion of an interim requirement is more than one year and is not readily divisible into stages for completion, the permit shall contain interim dates for submission of reports on progress toward completion of the interim requirements and shall indicate a projected completion date.
3. Unless otherwise specified in the permit, within 30 days after the applicable date specified in a compliance schedule, a permittee shall submit to the Department a report documenting that the required action was taken within the time specified.
4. After reviewing the compliance schedule activity the Director may amend the Aquifer Protection Permit, based on changed circumstances relating to the required action.

B. The Department shall consider all of the following factors when setting the compliance schedule requirements:
1. The character and impact of the discharge,
2. The nature of construction or activity required by the permit,
3. The number of persons affected or potentially affected by the discharge,
4. The current state of treatment technology, and
5. The age of the facility.

C. For a new facility, the Department shall not defer to a compliance schedule any requirement necessary to satisfy the criteria under A.R.S. § 49-243(B).

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A209. Temporary Cessation, Closure, Post-closure

A. Temporary cessation.
1. A permittee shall notify the Department before a cessation of operations at the facility of at least 60 days duration.
2. The permittee shall implement any condition specified in the individual permit for the temporary cessation.
3. If the permit does not specify any temporary cessation condition, the permittee shall, prior to implementation, submit the proposed temporary cessation plan for Department approval.

B. Closure.
1. Before providing notice under subsection (B)(2), a person may request that the Director review a site investigation plan for a facility under subsection (B)(3)(a) or the results of a site investigation at a facility to determine compliance with this subsection and A.R.S. § 49-252.
2. A person shall notify the Department of the person's intent to cease operations without resuming an activity for which the facility was designed or operated.
3. The person shall submit a closure plan for Director approval within 90 days following the notification of intent to cease operations with the applicable fee established in 18 A.A.C. 14. A complete closure plan shall include:
   a. A site investigation plan that includes a summary of relevant site studies already conducted and a proposed scope of work for any additional site investigation necessary to identify:
      i. The lateral and vertical extent of contamination in soils and groundwater, using applicable standards;
      ii. The approximate quantity and chemical, biological, and physical characteristics of each

waste, contaminated water, or contaminated soil proposed for removal from the facility;

iii. The approximate quantity and chemical, biological, and physical characteristics of each waste, contaminated water, or contaminated soil that will remain at the facility; and

iv. Information regarding site conditions related to pollutant fate and transport that may influence the scope of sampling necessary to characterize the site for closure;

b. A summary describing the results of a site investigation and any other information used to identify:

i. The lateral and vertical extent of soil and groundwater contamination, using applicable standards, and the analytical results that support the determination;

ii. The approximate quantity and chemical, biological, and physical characteristics of each material scheduled for removal;

iii. The destination of the materials and documentation that the destination is approved to accept the materials;

iv. The approximate quantity and chemical, biological, and physical characteristics of each material that remains at the facility; and

v. Any other relevant information the Department determines is necessary;

c. A closure design that identifies:

i. The method used, if any, to treat any material remaining at the facility;

ii. The method used to control the discharge of pollutants from the facility;

iii. Any limitation on future land or water uses created as a result of the facility's operations or closure activities and a Declaration of Environmental Use Restriction according to A.R.S. § 49-152, if necessary; and

iv. The methods used to secure the facility;

d. An estimate of the cost of closure;

e. A schedule for implementation of the closure plan and submission of a post-closure plan if clean closure is not achieved; and

f. For an implemented closure plan, a summary report of the results of site investigation performed during closure activities, including confirmation and verification sampling.

4. Within 60 days of receipt of a complete closure plan, the Department shall determine whether the closure plan achieves clean closure.

a. If the implemented complete closure plan achieves clean closure, the Director shall:

i. If the facility is not covered by an Aquifer Protection Permit, send the person a letter of approval; or

ii. If the facility is covered by an Aquifer Protection Permit, send the person a Permit Release Notice issued under subsection (C)(2)(c).

b. If the implemented complete closure plan did not achieve clean closure, the person shall submit a post-closure plan under subsection (C) and the following documents within 90 days from the date on the Department's notice or as specified under A.R.S. § 49-252(E):

i. An application for an individual permit, or

ii. A request to amend a current individual permit to address closure activities and post-closure monitoring and maintenance at the facility.

C. Post-closure. A person shall describe post-closure monitoring and maintenance activities in an application for a permit or an amendment to an individual permit and submit it to the Department for approval.

1. The application shall include:

a. The duration of post-closure care;

b. The monitoring procedures proposed by the permittee, including monitoring frequency, type, and location;

c. A description of the operating and maintenance procedures proposed for maintaining aquifer quality protection devices, such as liners, treatment systems, pump-back systems, surface water and stormwater management systems, and monitoring wells;

d. A schedule and description of physical inspections proposed at the facility following closure;

e. An estimate of the cost of post-closure maintenance and monitoring;

f. A description of limitations on future land or water uses, or both, at the facility site as a result of facility operations; and

g. The applicable fee established in 18 A.A.C. 14.

2. The Director shall include the post-closure plan submitted under subsection (C)(1) in the individual permit or permit amendment.

a. The permittee shall provide the Department written notice that a closure plan or a post-closure plan was fully implemented within 30 calendar days of implementation of the plan. The notice shall include a summary report confirming the closure design and describing the results of sampling performed during closure activities and post-closure activities, if any, to demonstrate the level of cleanup achieved.

b. The Director may, upon receipt of the notice, inspect the facility to ensure that the closure plan has been fully implemented.

c. The Director shall issue a Permit Release Notice if the permittee satisfies all closure and post-closure requirements.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A210. Temporary Individual Permit

A. A person may apply for a temporary individual permit for either of the following:

1. A pilot project to develop data for an Aquifer Protection Permit application for the full-scale project, or

2. A facility with a discharge lasting no more than six months.

B. The applicant shall submit a preliminary application containing the information required in R18-9-A201(B)(1).

C. The Department shall, based on the preliminary application and in consultation with the applicant, determine and provide the applicant notice of any additional information in R18-9-A201(B) that is necessary to complete the application.

D. Public participation.

1. If the Director issues a temporary individual permit, the Director shall postpone the public participation requirements under R18-9-109.
2. The Director shall not postpone notification of the opportunity for public participation for more than 30 days from the date on the temporary individual permit.
3. The Director may amend or revoke the temporary individual permit after consideration of public comments.
4. The Director shall not issue a public notice or hold a public hearing if a temporary individual permit is renewed without change.
5. The Director shall follow the public participation requirements under R18-9-109 when making a significant amendment to a temporary individual permit.

E. A temporary individual permit expires after one year unless it is renewed. The Director may renew a temporary individual permit no more than one time.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A211. Permit Amendments

A. The Director may amend an individual permit based upon a request or upon the Director's initiative.
1. A permittee shall submit a request for permit amendment in writing on a form provided by the Department with the applicable fee established in 18 A.A.C. 14, explaining the facts and reasons justifying the request.
2. The Department shall process amendment requests following the licensing time-frames established under 18 A.A.C. 1, Article 5, Table 10.
3. An amended permit supersedes the previous permit upon the effective date of the amendment.

B. Significant permit amendment. The Director shall make a significant amendment to an individual permit if:
1. Part or all of an existing facility becomes a new facility under A.R.S. § 49-201;
2. A physical change in a permitted facility or a change in its method of operation results in:
   a. An increase of 10 percent or more in the permitted volume of pollutants discharged, except a sewage treatment facility;
   b. An increase in design flow of a sewage treatment facility as follows:

Permitted Design Flow	Increase in Design Flow
500,000 gallons per day or less	10%
Greater than 500,000 gallons per day but less than or equal to five million gallons per day	6%
Greater than five million gallons per day but less than or equal to 50 million gallons per day	4%
Greater than 50 million gallons per day	2%

   c. Discharge of an additional pollutant not allowed by a facility's original individual permit. The Director may consider the addition of a pollutant with a chemical composition substantially similar to a pollutant the permit currently allows by making an "other" amendment to the individual permit as prescribed in subsection (D);
   d. For any pollutant not addressed in a facility's individual permit, any increase that brings the level of the pollutant to within 80 percent or more of a numeric Aquifer Water Quality Standard at the point of compliance; or
   e. An increase in the concentration in the discharge of a pollutant listed under A.R.S. § 49-243(I);
3. Based upon available information, the facility can no longer demonstrate that its discharge will comply with A.R.S. § 49-243(B)(2) or (3);
4. The permittee requests and the Department agrees to less stringent monitoring that reduces the frequency in monitoring or reporting or reduces the number of pollutants monitored, and the permittee demonstrates that the changes will not affect the permittee's ability to remain in compliance with Articles 1 and 2 of this Chapter;
5. It is necessary to change the designation of a point of compliance;
6. It is necessary to update BADCT for a facility that was issued an individual permit and was not constructed within five years of permit issuance;
7. The permittee requests and the Department agrees to less stringent discharge limitations when the permittee demonstrates that the changes will not affect the permittee's ability to remain in compliance with Articles 1 and 2 of this Chapter;
8. It is necessary to make an addition to or a substantial change in closure requirements or to provide for post-closure maintenance and monitoring; or
9. Material and substantial alterations or additions to a permitted facility, including a change in disposal method, justify a change in permit conditions.

C. Minor permit amendment. The Director shall make a minor amendment to an individual permit to:
1. Correct a typographical error;
2. Change nontechnical administrative information, excluding a permit transfer;
3. Correct minor technical errors, such as errors in calculation, locational information, citations of law, and citations of construction specifications;
4. Increase the frequency of monitoring or reporting, or to revise a laboratory method;
5. Make a discharge limitation more stringent;
6. Make a change in a recordkeeping retention requirement; or
7. Insert calculated alert levels, AQLs, or other permit limits into a permit based on monitoring subsequent to permit issuance, if a requirement to establish the levels or limits and the method for calculation of the levels or limits was established in the original permit.

D. "Other" permit amendment.
1. The Director may make an "other" amendment to an individual permit if the amendment is not a significant or minor permit amendment prescribed in this Section, based on an evaluation of the information relevant to the amendment.
2. Examples of an "other" amendment to an individual permit include:
   a. A change in a construction requirement, treatment method, or operational practice, if the alteration complies with the requirements of Articles 1 and 2

of this Chapter and provides equal or better performance;

b. A change in an interim or final compliance date in a compliance schedule, if the Director determines just cause exists for changing the date;

c. A change in the permittee's financial assurance mechanism under R18-9-A203(C);

d. A permit transfer under R18-9-A212;

e. The replacement of monitoring equipment, including a well, if the replacement results in equal or greater monitoring effectiveness;

f. Any increase in the volume of pollutants discharged that is less than that described in subsection (B)(2)(a) or (b);

g. An adjustment of the permit to conform to rule or statutory provisions;

h. A calculation of an alert level, AQL, or other permit limit based on monitoring subsequent to permit issuance;

i. An addition of a point of compliance monitor well;

j. A combination of two or more permits at the same site as specified under R18-9-107;

k. An adjustment or incorporation of monitoring requirements to ensure Reclaimed Water Quality Standards developed under 18 A.A.C. 11, Article 3 are met; or

l. A change in a contingency plan resulting in equal or more efficient responsiveness.

E. The public notice and public participation requirements of R18-9-108 and R18-9-109 apply to a significant amendment. The public notice requirements apply to an "other" amendment. A minor amendment does not require a public notice or public participation.

F. The Director shall not amend or reissue a permit to allow use of a discharge control technology that provides a lesser degree of pollutant discharge reduction than the BADCT established in the individual Aquifer Protection Permit previously issued for a facility, unless:

1. The industrial classification of the facility has changed so that a new assessment of BADCT is appropriate,
2. The pollutant load has decreased or the pollutant composition has changed significantly to warrant a new assessment of the BADCT,
3. The Director approves a corrective or contingency action that necessitates a change in the treatment technology, or
4. The approved discharge control technology is not operating properly due to circumstances beyond the control of the owner or operator.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A212. Permit Transfer

A. The person subject to the continuance requirements under R18-9-105(A)(1), (2), or (3) shall notify the Department by certified mail within 15 days following a change of ownership. The notice shall include:

1. The name of the person transferring the facility;
2. The name of the new owner or operator;
3. The name and location of the facility;
4. The written agreement between the person transferring the facility and the new owner or operator indicating a specific date for transfer of all permit responsibility, coverage, and liability;
5. A signed declaration by the new owner or operator that the new owner or operator has reviewed the permit and agrees to the terms of the permit, including fee obligations under A.R.S. § 49-242; and
6. The applicable fee established in 18 A.A.C. 14.

B. A permittee may request that the Department transfer an individual permit to a new owner or operator.

1. The new owner or operator shall:
   a. Notify the Department by certified mail within 15 days after the change of ownership and include a written agreement between the previous and new owner indicating a specific date for transfer of all permit responsibility, coverage, and liability;
   b. Submit the applicable fee established in 18 A.A.C. 14;
   c. Demonstrate the technical and financial capability necessary to fully carry out the terms of the permit according to R18-9-A202 and R18-9-A203;
   d. Submit a signed statement that the new owner or operator has reviewed the permit and agrees to the terms of the permit; and
   e. Provide the Department with a copy of the Certificate of Disclosure if required by A.R.S. § 49-109.
2. If the Director amends the individual permit for the transfer, the new permittee is responsible for all conditions of the permit.

C. A permittee shall comply with all permit conditions until the Director transfers the permit, regardless of whether the permittee has sold or disposed of the facility.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A213. Permit Suspension, Revocation, Denial, or Termination

A. The Director may, after notice and opportunity for hearing, suspend or revoke an individual permit or a continuance under R18-9-105(A)(1), (2), or (3) for any of the following:

1. A permittee failed to comply with any applicable provision of A.R.S. Title 49, Chapter 2, Article 3; Articles 1 and 2 of this Chapter; or any permit condition;
2. A permittee misrepresented or omitted a fact, information, or data related to an Aquifer Protection Permit application or permit condition;
3. The Director determines that a permitted activity is causing or will cause a violation of an Aquifer Water Quality Standard at a point of compliance;
4. A permitted discharge is causing or will cause imminent and substantial endangerment to public health or the environment;
5. A permittee failed to maintain the financial capability under R18-9-A203(B); or
6. A permittee failed to construct a facility within five years of permit issuance and:
   a. It is necessary to update BADCT for the facility, and
   b. The Department has not issued an amended permit under R18-9-A211(B)(6).

B. The Director may deny an individual permit if the Director determines upon completion of the application process that the applicant has:

1. Failed or refused to correct a deficiency in the permit application;
2. Failed to demonstrate that the facility and the operation will comply with the requirements of A.R.S. §§ 49-241 through 49-252 and Articles 1 and 2 of this Chapter. The Director shall base this determination on:
   a. The information submitted in the Aquifer Protection Permit application,
   b. Any information submitted to the Department following a public hearing, or
   c. Any relevant information that is developed or acquired by the Department; or
3. Provided false or misleading information.

C. The Director shall terminate an individual permit if each facility covered under the individual permit:
1. Has closed and the Director issued a Permit Release Notice under R18-9-A209(C)(2)(c) or R18-9-A209(B)(3)(a)(ii) for the closed facility, or
2. Is covered under another Aquifer Protection Permit.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A214. Requested Coverage Under a General Permit

A. If a person who applied for or was issued an individual permit qualifies to operate a facility under a general permit established in Article 3 of this Chapter, the person may request that the individual permit be terminated and replaced by the general permit. The person shall submit the Notice of Intent to Discharge under R18-9-A301(B) with the appropriate fee established in 18 A.A.C. 14.

B. The individual permit is valid and enforceable with respect to a discharge from each facility until the Director determines that the discharge from each facility is covered under a general permit.

C. The owner or operator operating under a general permit shall comply with all applicable general permit requirements in Article 3 of this Chapter.

Historical Note
New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART B. BADCT FOR SEWAGE TREATMENT FACILITIES

R18-9-B201. General Considerations and Prohibitions

A. Applicability. The requirements in this Article apply to all sewage treatment facilities, including expansions of existing sewage treatment facilities, that treat wastewater containing sewage, unless the discharge is authorized by a general permit under Article 3 of this Chapter.

B. The Director may specify alert levels, discharge limitations, design specifications, and operation and maintenance requirements in the permit that are based upon information provided by the applicant and that meet the requirements under A.R.S. § 49-243(B)(1).

C. The permittee shall ensure that a sewage treatment facility is operated by a person certified under 18 A.A.C. 5, Article 1, for the grade of the facility.

D. Operation and maintenance.
1. The owner or operator shall maintain, at the sewage treatment facility, an operation and maintenance manual for the facility and shall update the manual as needed.
2. The owner or operator shall use the operation and maintenance manual to guide facility operations to ensure compliance with the terms of the Aquifer Protection Permit and to prevent any environmental nuisance described under A.R.S. § 49-141(A).
3. The Director may specify adherence to any operation or maintenance requirement as an Aquifer Protection Permit condition to ensure that the terms of the Aquifer Protection Permit are met.
4. The owner or operator shall make the operation and maintenance manual available to the Department upon request.

E. A person shall not create or maintain a connection between any part of a sewage treatment facility and a potable water supply so that sewage or wastewater contaminates a potable or public water supply.

F. A person shall not bypass or release sewage or partially treated sewage that has not completed the treatment process from a sewage treatment facility.

G. Reclaimed water dispensed to a direct reuse site from a sewage treatment facility is regulated under Reclaimed Water Quality Standards in 18 A.A.C. 11, Article 3.

H. The preparation, transport, or land application of any biosolids generated by a sewage treatment facility is regulated under 18 A.A.C. 9, Article 10.

I. The owner or operator of a sewage treatment facility that is a new facility or undergoing a major modification shall provide setbacks established in the following table. Setbacks are measured from the treatment and disposal components within the sewage treatment facility to the nearest property line of an adjacent dwelling, workplace, or private property. If an owner or operator cannot meet a setback for a facility undergoing a major modification that incorporates full noise, odor, and aesthetic controls, the owner or operator shall not further encroach into setback distances existing before the major modification except as allowed in subsection (I)(2).

Sewage Treatment Facility Design Flow (gallons per day)	No Noise, Odor, or Aesthetic Controls (feet)	Full Noise, Odor, and Aesthetic Controls (feet)
3000 to less than 24,000	250	25
24,000 to less than 100,000	350	50
100,000 to less than 500,000	500	100
500,000 to less than 1,000,000	750	250
1,000,000 or greater	1000	350

1. Full noise, odor, and aesthetic controls means that:
   a. Noise due to the sewage treatment facility does not exceed 50 decibels at the facility property boundary on the A network of a sound level meter or a level established in a local noise ordinance,
   b. All odor-producing components of the sewage treatment facility are fully enclosed,
   c. Odor scrubbers or other odor-control devices are installed on all vents, and
   d. Fencing aesthetically matched to the area surrounding the facility.
2. The owner or operator of a sewage treatment facility undergoing a major modification may decrease setbacks if:
   a. Allowed by local ordinance; or
   b. Setback waivers are obtained from affected property owners in which the property owner acknowledges awareness of the established setbacks, basic design

of the sewage treatment facility, and the potential for noise and odor.

J. The owner or operator of a sewage treatment facility shall not operate the facility so that it emits an offensive odor on a persistent basis beyond the setback distances specified in subsection (I).

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-B202. Design Report

A. A person applying for an individual permit shall submit a design report signed, dated, and sealed by an Arizona-registered professional engineer. The design report shall include the following information:

1. Wastewater characterization, including quantity, quality, seasonality, and impact of increased flows as the facility reaches design flow;
2. The proposed method of disposal, including solids management;
3. A description of the treatment unit processes and containment structures, including diagrams and calculations that demonstrate that the design meets BADCT requirements and will achieve treatment levels specified in R18-9-B204 through R18-9-B206, as applicable, for all flow conditions indicated in subsection (A)(9). If soil aquifer treatment or other aspects of site conditions are used to meet BADCT requirements, the applicant shall document performance of the site in the design report or the hydrogeologic report;
4. A description of planned normal operation;
5. A description of key maintenance activities and a description of contingency and emergency operation for the facility;
6. A description of construction management controls;
7. A description of the facility startup plan, including preoperational testing, expected treated wastewater characteristics and monitoring requirements during startup, expected time-frame for meeting performance requirements specified in R18-9-B204, and any other special startup condition that may merit consideration in the individual permit;
8. A site diagram depicting compliance with the setback requirements established in R18-9-B201(I) for the facility at design flow, and for each phase if the applicant proposes expansion of the facility in phases;
9. The following flow information in gallons per day for the proposed sewage treatment facility. If the application proposes expansion of the facility in phases, the following flow information for each phase:
   a. The design flow of the sewage treatment facility. The design flow is the average daily flow over a calendar year calculated as the sum of all influent flows to the facility based on Table 1, Unit Design Flows, unless a different basis for determining influent flows is approved by the Department;
   b. The maximum day. The maximum day is the greatest daily total flow that occurs over a 24-hour period within an annual cycle of flow variations;
   c. The maximum month. The maximum month is the average daily flow of the month with the greatest total flow within the annual cycle of flow variations;
   d. The peak hour. The peak hour is the greatest total flow during one hour, expressed in gallons per day, within the annual cycle of flow variations;
   e. The minimum day. The minimum day is the least daily total flow that occurs over a 24-hour period within the annual cycle of flow variations;
   f. The minimum month. The minimum month is the average daily flow of the month with the least total flow within the annual cycle of flow variations; and
   g. The minimum hour. The minimum hour is the least total flow during one hour, expressed in gallons per day, within the annual cycle of flow variations; and
10. Specifications for pipe, standby power source, and water and sewer line separation.

B. The Department may inspect an applicant's facility without notice to ensure that construction conforms to the design report.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-B203. Engineering Plans and Specifications

A. A person applying for an individual permit for a sewage treatment facility with a design flow under one million gallons per day, shall submit engineering plans and specifications to the Department. The Director may waive this requirement if the Director previously approved engineering plans and specifications submitted by the same owner or operator for a sewage treatment facility with a design flow of more than one million gallons per day.

B. A person applying for an individual permit for a sewage treatment facility with a design flow of one million gallons per day or greater shall submit engineering plans and specifications if, upon review of the design report required in R18-9-B202, the Department finds that:

1. The design report fails to provide sufficient detail to determine adequacy of the proposed sewage treatment facility design;
2. The described design is innovative and does not reflect treatment technologies generally accepted within the industry;
3. The Department's calculations of removal efficiencies based on the design report show that the treatment facility cannot achieve treatment performance requirements;
4. The design report does not demonstrate:
   a. Protection from physical damage due to a 100-year flood,
   b. Ability to continuously operate during a 25-year flood, or
   c. Provision for a standby power source;
5. The design report shows inconsistency in sizing or compatibility between two or more unit process components of the sewage treatment facility;
6. The designer of the facility has:
   a. Designed a sewage treatment facility of at least a similar size on less than three previous occasions,
   b. Designed a sewage treatment facility that has been the subject of a Director enforcement action due to the facility design, or
   c. Been found by the Board of Technical Registration to have violated a provision in A.R.S. Title 32, Chapter 1;

7. The permittee seeks to expand its sewage treatment facility and the Department believes that the facility will require upgrades to the design not described and evaluated in the design report to meet the treatment performance requirements; or
8. The construction does not conform to the design report if the sewage treatment facility has already been constructed.

C. The Department shall review engineering plans and specifications upon request by an applicant seeking a permit for a sewage treatment facility, regardless of its flow.

D. The Department may inspect an applicant's facility without notice to ensure that construction generally conforms to engineering plans and specifications, as applicable.

E. Before discharging under a permit, the permittee shall submit an Engineer's Certificate of Completion signed, dated, and sealed by an Arizona-registered professional engineer in a format approved by the Department, that confirms that the facility is constructed according to the Department-approved design report or plans and specifications, as applicable.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-B204. Treatment Performance Requirements for a New Facility

A. Definition. "Week" means a seven-day period starting on Sunday and ending on the following Saturday.

B. An owner or operator of a new sewage treatment facility shall ensure that the facility meets the following performance requirements upon release of the treated wastewater at the outfall:

1. Secondary treatment levels.
   a. Five-day biochemical oxygen demand (BOD_5) less than 30 mg/l (30-day average) and 45 mg/l (seven-day average), or carbonaceous biochemical oxygen demand ($CBOD_5$) less than 25 mg/l (30-day average) or 40 mg/l (seven-day average);
   b. Total suspended solids (TSS) less than 30 mg/l (30-day average) and 45 mg/l (seven-day average);
   c. pH maintained between 6.0 and 9.0 standard units; and
   d. A removal efficiency of 85 percent for BOD_5, $CBOD_5$, and TSS;
2. Secondary treatment by waste stabilization ponds is not considered BADCT unless an applicant demonstrates to the Department that site-specific hydrologic and geologic characteristics and other environmental factors are sufficient to justify secondary treatment by waste stabilization ponds;
3. Total nitrogen in the treated wastewater is less than 10 mg/l (five-month rolling geometric mean). If an applicant demonstrates, using appropriate monitoring that soil aquifer treatment will produce a total nitrogen concentration less than 10 mg/l in wastewater that percolates to groundwater, the Department may approve soil aquifer treatment for removal of total nitrogen as an alternative to meeting the performance requirement of 10 mg/l at the outfall;
4. Pathogen removal.
   a. For a sewage treatment facility with a design flow of less than 250,000 gallons per day at a site where the depth to the seasonally high groundwater table is greater than 20 feet and there is no karstic or fractured bedrock at the surface:
      i. The concentration of fecal coliform organisms in four of the wastewater samples collected during the week is less than 200 cfu/100 ml or the concentration of *E. coli* bacteria in four of the wastewater samples collected during the week is less than 126 cfu/100 ml, based on a sampling frequency of seven daily samples per week;
      ii. The single sample maximum concentration of fecal coliform organisms in a wastewater sample is not greater than 800 cfu/100 ml or the single sample maximum concentration of *E. coli* bacteria in a wastewater sample is not greater than 504 cfu/100 ml; and
      iii. An owner or operator of a facility may request a reduction in the monitoring frequency required in subsection (B)(4)(a)(i) if equipment is installed to continuously monitor an alternative indicator parameter and the owner or operator demonstrates that the continuous monitoring will ensure reliable production of wastewater that meets the numeric concentration levels in subsections (B)(4)(a)(i) and (ii) at the discharge point;
   b. For any other sewage treatment facility:
      i. No fecal coliform organisms or no *E. coli* bacteria are detected in four of the wastewater samples collected during the week, based on a sampling frequency of seven daily samples per week;
      ii. The single sample maximum concentration of fecal coliform organisms in a wastewater sample is not greater than 23 cfu/100 ml or the single sample maximum concentration of *E. coli* is not greater than 15 cfu/100 ml;
      iii. An owner or operator may request a reduction in the monitoring frequency required in subsection (B)(4)(b)(i) if equipment is installed to continuously monitor an alternative indicator parameter and the owner or operator demonstrates that the continuous monitoring will ensure reliable production of wastewater that meets the numeric concentration levels in subsections (B)(4)(b)(i) or (ii) at the discharge point;
   c. An owner or operator may use unit treatment processes, such as chlorination-dechlorination, ultraviolet, and ozone to achieve the pathogen removal performance requirements specified in subsections (B)(4)(a) and (b);
   d. The Department may approve soil aquifer treatment for the removal of fecal coliform or *E. coli* bacteria as an alternative to meeting the performance requirement in subsection (B)(4)(a) or (b), if the soil aquifer treatment process will produce a fecal coliform or *E. coli* bacteria concentration less than that required under subsection (B)(4)(a) or (b), in wastewater that percolates to groundwater;
5. Unless governed by A.R.S. § 49-243(I), the performance requirement for each constituent regulated under R18-11-

406(B) through (E) is the numeric Aquifer Water Quality Standard;

6. The performance requirement for a constituent regulated under A.R.S. § 49-243(I) is removal to the greatest extent practical regardless of cost.
   a. An operator shall minimize trihalomethane compounds generated as disinfection byproducts using chlorination, dechlorination, ultraviolet, or ozone as the disinfection system or using a technology demonstrated to have equivalent or better performance for removing or preventing trihalomethane compounds.
   b. For other pollutants regulated by A.R.S. § 49-243(I), an operator shall use one of the following methods to achieve industrial pretreatment:
      i. Regulate industrial sources of influent to the sewage treatment facility by setting limits on pollutant concentrations, monitoring for pollutants, and enforcing the limits to reduce, eliminate, or alter the nature of a pollutant before release into a sewage collection system;
      ii. Meet the pretreatment requirements of A.R.S. § 49-255.02; or
      iii. For sewage treatment facilities without significant industrial input, conduct periodic monitoring to detect industrial discharge; and
   7. A maximum seepage rate less than 550 gallons per day per acre for all containment structures within the treatment works. A sewage treatment facility that consists solely of containment structures with no other form of discharge complies with Article 2 Part B by operating below the maximum 550 gallon per day per acre seepage rate.

C. The Director shall incorporate treated wastewater discharge limitations and associated monitoring specified in this Section into the individual permit to ensure compliance with the BADCT requirements.

D. An applicant shall formally request in writing and justify an alternative that allows less stringent performance than that established in this Section, based on the criteria specified in A.R.S. § 49-243(B)(1).

E. If the request specified in subsection (D) involves treatment or disposal works that are a demonstration, experimental, or pilot project, the Director may issue an individual permit that places greater reliance on monitoring to ensure operational capability.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-B205. Treatment Performance Requirements for an Existing Facility

For a sewage treatment facility that is an existing facility defined in A.R.S. § 49-201(16), the BADCT shall conform with the following:

1. The designer shall identify one or more design improvements that brings the facility closer to or within the treatment performance requirements specified in R18-9-B204, considering the factors listed in A.R.S. § 49-243(B)(1)(a) and (B)(1)(c) through (h);
2. The designer may eliminate from consideration alternatives identified in subsection (1) that are more expensive than the number of gallons of design flow times $1.00 per gallon; and
3. The designer shall select a design that incorporates one or more of the considered alternatives by giving preference to measures that will provide the greatest improvement toward meeting the treatment performance requirements specified in R18-9-B204.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-B206. Treatment Performance Requirements for Expansion of a Facility

For an expansion of a sewage treatment facility, the BADCT shall conform with the following:

1. New facility BADCT requirements in R18-9-B204 apply to the following expansions:
   a. An increase in design flow by an amount equal to or greater than the increases specified in R18-9-A211(B)(2)(b); or
   b. An addition of a physically separate process or major piece of production equipment, building, or structure that causes a separate discharge to the extent that the treatment performance requirements for the pollutants addressed in R18-9-B204 can practicably be achieved by the addition.
2. BADCT requirements for existing facilities established in R18-9-B205 apply to an expansion not covered under subsection (1).

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended to correct a manifest typographical error in subsection (1) (Supp. 01-1). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

ARTICLE 3. AQUIFER PROTECTION PERMITS - GENERAL PERMITS

PART A. GENERAL PROVISIONS

R18-9-A301. Discharging Under a General Permit

A. Discharging requirements.

1. Type 1 General Permit. A person may discharge under a Type 1 General Permit without submitting a Notice of Intent to Discharge if the discharge is authorized by and meets:
   a. The applicable requirements of Article 3, Part A of this Chapter; and
   b. The specific terms of the Type 1 General Permit established in Article 3, Part B of this Chapter.
2. Type 2 General Permit. A person may discharge under a Type 2 General Permit if:
   a. The discharge is authorized by and meets the applicable requirements of Article 3, Part A of this Chapter and the specific terms of the Type 2 General Permit established in Article 3, Part C of this Chapter;
   b. The person files a Notice of Intent to Discharge under subsection (B); and
   c. The person submits the applicable fee established in 18 A.A.C. 14.
3. Type 3 General Permit. A person may discharge under a Type 3 General Permit if:

a. The discharge is authorized by and meets the applicable requirements of Article 3, Part A of this Chapter and the specific terms of the Type 3 General Permit established in Article 3, Part D of this Chapter;
b. The person files a Notice of Intent to Discharge under subsection (B);
c. The person satisfies any deficiency requests from the Department regarding the administrative completeness review and substantive review and receives a written Discharge Authorization from the Director; and
d. The person submits the applicable fee established in 18 A.A.C. 14.

4. Type 4 General Permit. A person may discharge under a Type 4 General Permit if:
a. The discharge is authorized by and meets the applicable requirements of Article 3, Part A of this Chapter and the specific terms of the Type 4 General Permit established in Article 3, Part E of this Chapter;
b. The person files a Notice of Intent to Discharge under subsection (B);
c. The person satisfies any deficiency requests from the Department regarding the administrative completeness review and substantive review, including any deficiency relating to the construction of the facility;
d. The person receives a written Discharge Authorization from the Director before the facility discharges; and
e. The person submits the applicable fee established in 18 A.A.C. 14 or according to A.R.S. §§ 49-107 and 49-112.

B. Notice of Intent to Discharge.
1. A person seeking a Discharge Authorization under a general permit under subsections (A)(2), (3), or (4) shall submit, by certified mail, in person, or by another method approved by the Department, a Notice of Intent to Discharge on a form provided by the Department.
2. The Notice of Intent to Discharge shall include:
a. The name, address, and telephone number of the applicant;
b. The name, address, and telephone number of a contact person familiar with the operation of the facility;
c. The name, position, address, and telephone number of the owner or operator of the facility who has overall responsibility for compliance with the permit;
d. The legal description of the discharge areas, including the latitude and longitude coordinates;
e. A narrative description of the facility or project, including expected dates of operation, rate, and volume of discharge;
f. The additional requirements, if any, specified in the general permit for which the authorization is being sought;
g. A listing of any other federal or state environmental permits issued for or needed by the facility, including any individual permit, Groundwater Quality Protection Permit, or Notice of Disposal that may have previously authorized the discharge; and
h. A signature on the Notice of Intent to Discharge certifying that the applicant agrees to comply with all applicable requirements of this Article, including specific terms of the general permit.
3. Receipt of a completed Notice of Intent to Discharge by the Department begins the administrative completeness review for a Type 3 or Type 4 General Permit.

C. Type 3 General Permit authorization review.
1. Inspection. The Department may inspect the facility to determine that the applicable terms of the general permit have been met.
2. Discharge Authorization issuance.
a. If the Department determines, based on its review and an inspection, if conducted, that the facility conforms to the requirements of the general permit and the applicable requirements of this Article, the Director shall issue a Discharge Authorization.
b. The Discharge Authorization authorizes the person to discharge under terms of the general permit and applicable requirements of this Article.
3. Discharge Authorization denial. If the Department determines, based on its review and an inspection, if conducted, that the facility does not conform to the requirements of the general permit or other applicable requirements of this Article, the Director shall notify the person of the decision not to issue the Discharge Authorization and the person shall not discharge under the general permit. The notification shall inform the person of:
a. The reason for the denial with reference to the statute or rule on which the denial is based;
b. The person's right to appeal the denial, including the number of days the applicant has to file a protest challenging the denial and the name and telephone number of the Department contact person who can answer questions regarding the appeals process; and
c. The person's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.

D. Type 4 General Permit review.
1. Pre-construction phase and facility construction. A person shall not begin facility construction until the Director issues a Construction Authorization.
a. Inspection. The Department may inspect the facility site before construction to determine that the applicable terms of the general permit will be met.
b. Review. If the Department determines, based on an inspection or its review of design plans, specifications, or other required documents that the facility does not conform to the requirements of the general permit or other applicable requirements of this Article, the Department shall make a written request for additional information to determine whether the facility will meet the requirements of the general permit.
c. Construction Authorization. If the Department determines, based on the review described in subsection (D)(1)(b) and any additional information submitted in response to a written request, that the facility design conforms with the requirements of the general permit and other applicable requirements of this Article, the Director shall issue a Construction Authorization to the person seeking to discharge. A Construction Authorization for an on-site wastewater treatment facility shall contain:
i. The design flow of the facility,

ii. The characteristics of the wastewater sources contributing to the facility,
iii. The general permits that apply, and
iv. A list of the documents that are the basis for the authorization.

d. Construction Authorization denial. If the Department determines, based on the review described in subsection (D)(1)(b) and any additional information submitted in response to a written request, that the facility design does not conform to the requirements of the general permit or other applicable requirements of this Article, the Director shall notify the person of the decision not to issue a Construction Authorization. The notification shall include the information listed in subsections (D)(2)(d).

e. Construction.
i. A person shall complete construction within two years of receiving a Construction Authorization.
ii. Construction shall conform with the plans and documents approved by the Department in the Construction Authorization. A change in location, configuration, dimension, depth, material, or installation procedure does not require approval by the Department if the change continues to conform with the specific standard in this Article used as the basis for the original design.
iii. The person shall record all changes made during construction, including any changes approved under R18-9-A312(G) on the site plan as specified in R18-9-A309(C)(1) or on documents as specified in R18-9-A309(C)(2) or R18-9-E301(E), as applicable.

f. Completion of construction.
i. After completing construction of the facility, the person seeking to discharge shall submit any applicable documents specified in R18-9-A309(C) with the Request for Discharge Authorization form for an on-site wastewater treatment facility and the Engineer's Certificate of Completion specified in R18-9-E301(E) for a sewage collection system. Receipt of the documents by the Department initiates the post-construction review phase.
ii. If the Department does not receive the documentation specified in subsection (D)(1)(f)(i) by the end of the two-year construction period, the Notice of Intent to Discharge expires, and the person shall not continue construction or discharge.
iii. If the Notice of Intent to Discharge expires, the person shall submit a new Notice of Intent to Discharge under subsection (B) and the applicable fee under subsection (A)(4)(e) to begin or continue construction.

2. Post-construction phase.
a. Inspection. The Department may inspect the facility before issuing a Discharge Authorization to determine whether:
i. The construction conforms with the design authorized by the Department under subsection (D)(1)(c) and any changes recorded on the site plan as specified in R18-9-A309(C)(1) or other documents as specified in R18-9-A309(C)(2), or R18-9-E301(E), as applicable; and
ii. Terms of the general permit and applicable terms of this Article are met.

b. Deficiencies. If the Department identifies deficiencies based on an inspection of the constructed facility or during the review of documents submitted with the request for the Discharge Authorization, the Director shall provide a written explanation of the deficiencies to the person.

c. Discharge Authorization issuance.
i. Upon satisfactory completion of construction and documents required under R18-9-A309(C)(1) R18-9-A309(C)(2), or R18-9-E301(E), as applicable, the Director shall issue a Discharge Authorization.
ii. The Discharge Authorization allows a person to discharge under terms of the general permit and applicable requirements of this Article and the stated terms of the Construction Authorization.

d. Discharge Authorization denial. If, after receiving evidence of correction submitted by the person seeking to discharge, the Department determines that the deficiencies are not satisfactorily corrected, the Director shall notify the person seeking to discharge of the Director's decision not to issue the Discharge Authorization and the person shall not discharge under the general permit. The notification shall inform the person of:
i. The reason for the denial with reference to the statute or rule on which the denial is based;
ii. The person's right to appeal the denial, including the number of days the applicant has to file a protest challenging the denial and the name and telephone number of the Department contact person who can answer questions regarding the appeals process; and
iii. The person's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A302. Point of Compliance

The point of compliance is the point at which compliance with Aquifer Water Quality Standards is determined.

1. Except as provided in this Section or as stated in a specific general permit, the applicable point of compliance at a facility operating under a general permit is a vertical plane downgradient of the facility that extends through the uppermost aquifers underlying that facility.
2. The point of compliance is the limit of the pollutant management area.
a. The pollutant management area is the horizontal plane of the area on which pollutants are or will be placed.
b. If a facility operating under a general permit is located within a larger pollutant management area established under an individual permit issued to the same person, the point of compliance is the applica-

ble point of compliance established in the individual permit.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4).

R18-9-A303. Renewal of a Discharge Authorization

A. Unless a Discharge Authorization under a general permit is transferred, revoked, or expired, a person may discharge under the general permit for the authorization period as specified by the permit type, including any closure activities required by a specific general permit.

B. An authorization to discharge under a Type 1 or Type 4 General Permit is valid for the operational life of the facility.

C. A permittee authorized under a Type 2 or Type 3 General Permit shall submit an application for renewal on a form provided by the Department with the applicable fee established in 18 A.A.C. 14 at least 30 days before the end of the renewal period.
1. The following are the renewal periods for Type 2 and Type 3 General Permit Discharge Authorizations:
   a. 2.01 General Permit, five years;
   b. 2.02 General Permit, seven years;
   c. 2.03 General Permit, two years;
   d. 2.04 General Permit, five years;
   e. 2.05 General Permit, five years;
   f. 2.06 General Permit, five years; and
   g. Type 3 General Permits, five years.
2. The renewal period for coverage under a Type 2 General Permit begins on the date the Department receives the Notice of Intent to Discharge.
3. The renewal period for coverage under a Type 3 General Permit begins on the date the Director issues the written Discharge Authorization.

D. If the Discharge Authorization is not renewed within the renewal period specified in subsection (C)(1), the Discharge Authorization expires.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A304. Notice of Transfer

A. Transfer of authorization under a Type 1 General Permit.
1. A permittee transferring ownership of a facility covered by a Type 1.01 through 1.08, or 1.10 through 1.12 General Permit is not required to notify the Department of the transfer.
2. A permittee transferring ownership of an on-site wastewater treatment facility operating under a Type 1.09 General Permit shall follow the requirements under R18-9-A316.
3. A permittee transferring ownership of a sewage treatment facility operating under a Type 1.09 General Permit shall submit a Notice of Transfer to the Department by certified mail within 15 days after the date that ownership changes.

B. Transfer of authorization under a Type 2, 3, or 4.01 General Permit.
1. If a change of ownership occurs for a facility covered by a Type 2, 3, or 4.01 General Permit facility, the permittee shall provide a Notice of Transfer to the Department or to the health or environmental agency delegated by the Director to administer Type 4.01 General Permits, by certified mail within 15 days after the date that ownership changes. The Notice of Transfer, on a form approved by the Department, shall include:
   a. Any information that has changed from the original Notice of Intent to Discharge,
   b. Any other transfer requirements specified for the general permit, and
   c. The applicable fee established in 18 A.A.C. 14.
2. The Department may require a permittee covered by a Type 2, 3, or Type 4.01 General Permit to submit a new Notice of Intent to Discharge and to obtain a new authorization under R18-9-A301(A)(2), (3) and (4), as applicable, if the volume or characteristics of the discharge have changed from the original application.

C. Transfer of a Type 4.02 through 4.23 General Permit. A permittee transferring ownership of an on-site wastewater treatment facility operating under one or more Type 4.02 through 4.23 General Permits shall follow the requirements under R18-9-A316.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A305. Facility Expansion

A. A permittee may expand a facility covered by a Type 2 General Permit if, before the expansion, the permittee provides the Department with the following information by certified mail:
1. An updated Notice of Intent to Discharge,
2. A certification signed by the facility owner stating that the expansion continues to meet all the conditions of the applicable general permit, and
3. The applicable fee established under 18 A.A.C. 14.

B. A permittee may expand a facility covered by a Type 3 or Type 4 General Permit if the permittee submits a new Notice of Intent to Discharge and the Department issues a new Discharge Authorization.
1. The person submitting the Notice of Intent to Discharge for the expansion may reference the previous Notice of Intent to Discharge if the previous information is identical, but shall provide full and detailed information for any changed items.
2. The Notice of Intent to Discharge shall include:
   a. Any applicable fee established under 18 A.A.C. 14, and
   b. A certification signed by the facility owner stating that the expansion continues to meet all of the requirements relating to the applicable general permit.
3. Upon receiving the Notice of Intent to Discharge, the Department shall follow the applicable review and authorization procedures described in R18-9-A301(A)(3) or (4).

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A306. Closure

A. To satisfy the requirements under A.R.S. § 49-252, a permittee shall close a facility authorized to discharge under a general permit as follows:
1. If the discharge is authorized under a Type 1.01 through 1.08, 1.10, 1.11, 2.05, 2.06, or 4.01 General Permit, closure notification is unnecessary and clean closure is met when:
   a. The permittee removes material that may contribute to a continued discharge; and
   b. The permittee eliminates, to the greatest degree practical, any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance;
2. For a discharge authorized under a Type 2.02, 3.02, 3.05 through 3.07, or 4.23 General Permit, the facility meets clean closure requirements if the permittee provides notice and submits sufficient information for the Department to determine that:
   a. Any material that may contribute to a continued discharge is removed;
   b. The permittee has eliminated to the greatest degree practicable any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance; and
   c. Closure requirements, if any, established in the general permit are met;
3. If the discharge is authorized under a Type 1.12, 2.01, 2.03, 2.04, 3.01, 3.03, or 3.04 General Permit, the permittee shall comply with the closure requirements in the general permit;
4. If the discharge is from an on-site wastewater treatment facility authorized under a Type 1.09 or 4.02 through 4.22 General Permit, the permittee shall comply with the closure requirements in R18-9-A309(D); and
5. If the discharge is from a sewage treatment facility authorized under a Type 1.09 General Permit, the permittee shall comply with the closure requirements under subsection (A)(1).

B. For a facility operating under a general permit and located at a site where an individual area-wide permit has been issued, a permittee may defer some or all closure activities required by this subsection if the Director approves the deferral in writing. The permittee shall complete closure activities no later than the date that closure activities identified in the individual area-wide permit are performed.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A307. Revocation of Coverage Under a General Permit

A. After notice and opportunity for a hearing, the Director may revoke coverage under a general permit and require the permittee to obtain an individual permit for any of the following:
1. The permittee fails to comply with the terms of the general permit as described in this Article, or
2. The discharge activity conducted under the terms of the general permit causes or contributes to the violation of an Aquifer Water Quality Standard at the applicable point of compliance.

B. The Director may revoke coverage under a general permit for any or all facilities within a specific geographic area, if, due to geologic or hydrologic conditions, the cumulative discharge of the facilities has violated or will violate an Aquifer Water Quality Standard established under A.R.S. §§ 49-221 and 49-223. Unless the public health or safety is jeopardized, the Director may allow continuation of a discharge until the Department:
1. Issues a single individual permit,
2. Authorizes a discharge under another general permit, or
3. Consolidates the discharges authorized under the general permits by following R18-9-107.

C. If an individual permit is issued to replace general permit coverage, the coverage under the general permit allowing the discharge is automatically revoked upon issuance of the individual permit and notification under subsection (E) is not required.

D. If the Director revokes coverage under a general permit, the facility shall not discharge unless allowed under subsection (B) or under an individual permit.

E. If coverage under the general permit is revoked under subsections (A) or (B), the Director shall notify the permittee by certified mail of the decision. The notification shall include:
1. A brief statement of the reason for the decision;
2. The effective revocation date of the general permit coverage;
3. A statement of whether the discharge shall cease or whether the discharge may continue under the terms of revocation in subsection (B);
4. Whether the Director requires a person to obtain an individual permit, and if so:
   a. An individual permit application form, and
   b. Identification of a deadline between 90 and 180 days after receipt of the notification for filing the application;
5. The applicant's right to appeal the revocation, the number of days the applicant has to file an appeal, and the name and telephone number of the Department contact person who can answer questions regarding the appeals process; and
6. The applicant's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A308. Repealed

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Repealed by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A309. General Provisions for On-site Wastewater Treatment Facilities

A. General requirements and prohibitions.
1. No person shall discharge sewage or wastewater that contains sewage from an on-site wastewater treatment facility except under an Aquifer Protection Permit issued by the Director.

2. A person shall not install, allow to be installed, or maintain a connection between any part of an on-site wastewater treatment facility and a drinking water system or supply so that sewage or wastewater contaminates the drinking water.
3. A person shall not bypass or release sewage or partially treated sewage that has not completed the treatment process from an on-site wastewater treatment facility.
4. A person shall not use a cesspool for sewage disposal.
5. A person constructing a new on-site wastewater treatment facility or replacing the treatment works or disposal works of an existing on-site wastewater treatment facility shall connect to a sewage collection system if either (a) or (b) apply:
   a. One of the following applies:
      i. A provision of a Nitrogen Management Area designation under R18-9-A317(C) requires connection;
      ii. A county, municipal, or sanitary district ordinance requires connection; or
      iii. The on-site wastewater treatment facility is located within an area identified for connection to a sewage collection system by a Certified Area-wide Water Quality Management Plan adopted under 18 A.A.C. 5 or a master plan adopted by a majority of the elected officials of a board or council for a county, municipality, or sanitary district; or
   b. A sewer service line extension is available at the property boundary and both of the following apply:
      i. The service connection fee is not more than $6000 for a dwelling or $10 times the daily design flow in gallons for a source other than a dwelling, and
      ii. The cost of constructing the building sewer from the wastewater source to the service connection is not more than $3000 for a dwelling or $5 times the daily design flow in gallons for a source other than a dwelling.
6. The Department shall prohibit installation of an on-site wastewater treatment facility if the installation will create an unsanitary condition or environmental nuisance or cause or contribute to a violation of an Aquifer Water Quality Standard.
7. A person shall design and operate the permitted on-site wastewater treatment facility so that:
   a. Flows to the facility consist of typical sewage and do not include any motor oil, gasoline, paint, varnish, solvent, pesticide, fertilizer, or other material not generally associated with toilet flushing, food preparation, laundry, or personal hygiene;
   b. Flows to the facility from commercial operations do not contain hazardous wastes as defined under A.R.S. § 49921(5) or hazardous substances;
   c. If the sewage contains a component of nonresidential flow such as food preparation, laundry service, or other source, the sewage is adequately pretreated by an interceptor that complies with R18-9-A315 or another device authorized by a general permit or approved by the Department under R18-9-A312(G);
   d. Except as provided in subsection (A)(7)(c), a sewage flow that does not meet the numerical levels for typical sewage is adequately pretreated to meet the numerical levels before entry into an on-site wastewater treatment facility authorized by this Article;
   e. Flow to the facility does not exceed the design flow specified in the Discharge Authorization;
   f. The facility does not create an unsanitary condition or environmental nuisance, or cause or contribute to a violation of either a Aquifer Water Quality Standard or a Surface Water Quality Standard; and
   g. Activities at the site do not adversely affect the operation of the facility.
8. A person shall control the discharge of total nitrogen from an on-site wastewater treatment facility as follows:
   a. For an on-site wastewater treatment facility operating under the 1.09 General Permit or proposed for construction in a Notice of Intent to Discharge under a Type 4 General Permit and the facility is located within a Nitrogen Management Area, the provisions of R18-9-A317(D) apply;
   b. For an on-site wastewater treatment facility proposed for construction in a Notice of Intent to Discharge under R18-9-E323, the provisions of R18-9-E323(A)(4) apply;
   c. For a subdivision proposed under 18 A.A.C. 5, Article 4, for which on-site wastewater treatment facilities are used for sewage disposal, the permittee shall demonstrate in the geological report required in R18-5-408(E)(1) that total nitrogen loading from the on-site wastewater treatment facilities to groundwater is controlled by providing one of the following:
      i. For a subdivision platted for a single family dwelling on each lot, calculations that demonstrate that the number of lots within the subdivision does not exceed the number of acres contained within the boundaries of the subdivision;
      ii. For a subdivision platted for dwellings that do not meet the criteria specified in subsection (A)(8)(c)(i), calculations that demonstrate that the nitrogen loading over the total area of the subdivision is not more than 0.088 pounds (39.9 grams) of total nitrogen per day per acre calculated at a horizontal plane immediately beneath the active treatment of the disposal fields, based on a total nitrogen contribution to raw sewage of 0.0333 pounds (15.0 grams) of total nitrogen per day per person; or
      iii. An analysis by another means of demonstration showing that the nitrogen loading to the aquifer due to on-site wastewater treatment facilities within the subdivision does not cause or contribute to a violation of the Aquifer Water Quality Standard for nitrate at the applicable point of compliance.
9. Repairs and Routine Work.
   a. A Notice of Intent to Discharge is not required for repair or routine work that maintains a facility.
   b. A Notice of Intent to Discharge is required for the following non-routine work or repairs:
      i. Converting a facility from operation under gravity to one requiring a pump or other mechanical device for treatment or disposal;
      ii. Modifying or replacing a treatment works or disposal works, as defined in R18-9-101; or

iii. Modifying a facility in any manner that is inconsistent with the originally approved design and installation of the facility.

c. A permittee shall comply with any local ordinance that provides independent permitting requirements for repair or routine work.

d. A person, as defined in R18-9-101, shall not modify the facility so as to create an unsanitary condition or environmental nuisance or cause or contribute to an exceedance of a water quality standard.

10. Cumulative flows. When there is more than one on-site wastewater treatment facility on a property or on a site under common ownership or subject to a larger plan of sale or development, the Director shall determine whether an individual permit is required or whether the applicant qualifies for coverage to discharge under a general permit based on the sum of the design flows from the proposed installation and existing on-site wastewater treatment facilities on the property or site.
    a. If the sum of the design flows is less than 3000 gallons per day, the Department will process the application under R18-9-E302 through R18-9-E322, as applicable.
    b. If the sum of the design flows is equal to or more than 3000 gallons per day but less than 24,000 gallons per day, the Department will process the application under R18-9-E323.
    c. If the sum of the design flows is equal to or more than 24,000 gallons per day, the project does not qualify for coverage under a Type 4 General Permit and the applicant shall submit an application for an individual permit under Article 2 of this Chapter.
11. The use of a gray water system does not change the design, capacity, or reserve area requirements for an on-site wastewater treatment facility regulated under R18-9-E302 through R18-9-E323. The design of an on-site facility shall ensure the on-site facility can treat and dispose of the combined black water and gray water flows generated at the site. Black water includes wastewater flows from a kitchen sink. Kitchen sink wastewater flows are not gray water. Kitchen sink wastewater flows are not gray water even if a holding tank receiving kitchen sink wastewater, such as a recreational vehicle holding tank, is labeled as holding gray water. Gray water, as defined in R18-9-101, may be utilized in accordance with Article 7 of this Chapter.
12. To obtain coverage under a Type 4 General Permit, an applicant must, in the following order:
    a. Submit a Notice of Intent to Discharge according to requirements in R18-9-A301(B), R18-9-A309(B), and according to permit-specific requirements in Part E of Article 3,
    b. Receive a Construction Authorization from the Director pursuant to R18-9-A301(D)(1)),
    c. Submit a Request for Discharge Authorization according to requirements in R18-9-A301(D)(1)(f), R18-9-A309(C), and according to permit-specific requirements in Part E of Article 3, and
    d. Receive a Discharge Authorization from the Director pursuant to R18-9-A301(D)(2) and R18-9-A309(C).

B. Notice of Intent to Discharge under a Type 4 General Permit. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit the following information in a format approved by the Department:

1. A site investigation report that summarizes the results of the site investigation conducted under R18-9-A310(B), including:
    a. Results from any soil evaluation, percolation test, or seepage pit performance test;
    b. Any surface limiting condition identified in R18-9-A310(C)(2); and
    c. Any subsurface limiting condition identified in R18-9-A310(D)(2);
2. A site plan that includes:
    a. The parcel and lot number, if applicable, the property address or other appropriate legal description, the property size in acres, and the boundaries of the property;
    b. A plan of the site drawn to scale, dimensioned, and with a north arrow that shows:
        i. Proposed and existing on-site wastewater treatment facilities; dwellings and other buildings; driveways, swimming pools, tennis courts, wells, ponds, and any other paved, concrete, or water feature; down slopes and cut banks with a slope greater than 15 percent; retaining walls; and any other constructed feature that affects proper location, design, construction, or operation of the facility;
        ii. Any feature less than 200 feet from the on-site wastewater treatment facility excavation and reserve area that constrains the location of the on-site wastewater treatment facility because of setback limitations specified in R18-9-A312(C);
        iii. Topography, delineated with an appropriate contour interval, showing original and post-installation grades;
        iv. Drainage patterns, and as applicable, drainage controls and erosion protection for the facility;
        v. Location and identification of the treatment and disposal works and wastewater pipelines, the reserve disposal area, and location and identification of all sites of percolation testing and soil evaluation performed under R18-9-A310; and
        vi. Location of any public sewer if 400 feet or less from the property line;
3. The design flow of the on-site wastewater treatment facility, consisting of gray water and black water flows, expressed in gallons per day based on Table 1, Unit Design Flows, the expected strength of the wastewater if the strength exceeds the levels for typical sewage, and:
    a. For a single family dwelling, a list of the number of bedrooms and plumbing fixtures and corresponding unit flows used to calculate the design flow of the facility; and
    b. For a dwelling other than for a single family, a list of each wastewater source and corresponding unit flows used to calculate the design flow of the facility;
4. A list of materials, components, and equipment for constructing the on-site wastewater treatment facility;
5. Drawings, reports, and other information that are clear, reproducible, and in a size and format specified by the Department;

6. If pretreatment is necessary for a facility to comply with the requirements of this Chapter, including R18-9-A309(A)(7), then a design report approved by the on-site wastewater treatment facility manufacturer or manufacturers that specifies component capacities, control settings, and supplemental installation and operation practices necessary to produce typical sewage numerical levels before entry into an on-site wastewater treatment facility; and
7. For a facility that includes treatment or disposal works permitted under R18-9-E303 through R18-9-E323:
   a. Construction quality drawings that show the following:
      i. Systems, subsystems, and key components, including manufacturer's name, model number, and associated construction notes and inspection milestones, as applicable;
      ii. A title block, including facility owner, revision date, space for addition of the Department's application number, and page numbers;
      iii. A plan and profile with the elevations of wastewater pipelines, and treatment and disposal components, including calculations justifying the absorption area, to allow Department verification of hydraulic and performance characteristics;
      iv. Cross sections showing wastewater pipelines, construction details and elevations of treatment and disposal components, original and finished grades of the land surface, seasonal high water table if less than 10 feet below the bottom of a disposal works or 60 feet below the bottom of a seepage pit, and a soil elevation evaluation to allow Department verification of installation design and performance; and
   b. A draft operation and maintenance manual for the on-site wastewater treatment facility consisting of the tasks and schedules for operating and maintaining performance over a 20-year operational life;

C. Additional requirements for a Request for Discharge Authorization and for the issuance of a Discharge Authorization under a Type 4 General Permit.
1. If the entire on-site wastewater treatment facility, including treatment works and disposal works, will be permitted under R18-9-E302, the Director shall issue the Discharge Authorization if, as a part of the Request for Discharge Authorization:
   a. The site plan accurately reflects the final location and configuration of the components of the treatment and disposal works, and
   b. The applicant or the applicant's agent certifies on the Request for Discharge Authorization form that the septic tank passed the watertightness test required by R18-9-A314(5)(d).
2. If the on-site wastewater treatment facility is proposed under R18-9-E303 through R18-9-E323, either separately or in any combination with each other or with R18-9-E302, the Director shall issue the Discharge Authorization if the following documents are submitted to the Department as part of the Request for Discharge Authorization:
   a. As-built plans showing changes from construction quality drawings submitted under subsection (B)(6)(a);
   b. A final list of equipment and materials showing changes from the list submitted under subsection (B)(4);
   c. A final operation and maintenance manual for the on-site wastewater treatment facility consisting of the tasks and schedules for operating and maintaining performance over a 20-year operational life;
   d. A certification that a service contract for ensuring that the facility is operated and maintained to meet the performance and other requirements of the applicable general permits exists for at least one year following the beginning of the operation of the on-site wastewater treatment facility, including the name of the service provider, if the on-site wastewater treatment facility is permitted under:
      i. R18-9-E304;
      ii. R18-9-E308 through R18-9-E315;
      iii. R18-9-E316, if the facility includes a pump; or
      iv. R18-9-E318 through R18-9-E322;
   e. Other documents, if required by the separate general permits in 18 A.A.C. 9, Article 3, Part E;
   f. A Certificate of Completion signed by the current engineer or designer of record assuring that installation of the facility conforms to the design approved under the Construction Authorization under R18-9-A301(D)(1)(c); and a regulatory representative, such as an inspector, may not act as an applicant's agent, nor authorize backfill before the current engineer or designer of record has verified proper installation of the system;
   g. The name of the installation contractor and the Registrar of Contractor's license number issued to the installation contractor; and
   h. A certification that any septic tank installed as a component of the on-site wastewater treatment facility passed the watertightness test required by R18-9-A314(5)(d).
3. The Director shall specify in the Discharge Authorization:
   a. The permitted design flow of the facility,
   b. The characteristics of the wastewater sources contributing to the facility, and
   c. A list of the documents submitted to and reviewed by the Department satisfying subsection (C)(2).

D. Closure requirements. A person who permanently discontinues use of an on-site wastewater treatment facility or a cesspool, or is ordered by the Director to close an abandoned facility shall:
1. Remove all sewage from the facility and dispose of the sewage in a lawful manner;
2. Disconnect and remove electrical and mechanical components;
3. Remove or collapse the top of any tank or containment structure.
   a. Punch a hole in the bottom of the tank or containment structure if the bottom is below the seasonal high groundwater table;
   b. Fill the tank or containment structure or any cavity resulting from its removal with earth, sand, gravel, concrete, or other approved material; and
   c. Regrade the surface to provide drainage away from the closed area;
4. Cut and plug both ends of the abandoned sewer drain pipe between the building and the on-site wastewater treat-

ment facility not more than 5 feet outside the building foundation if practical, or cut and plug as close to each end as possible; and

5. Notify the Department within 30 days of closure.

E. Proprietary and other reviewed products.

1. The Department shall maintain a list of proprietary and other reviewed products that may be used for on-site wastewater treatment facilities to comply with the requirements of this Article. The list shall include appropriate information on the applicability and limitations of each product.
2. The list of proprietary and other reviewed products may include manufactured systems, subsystems, or components within the treatment works and disposal works if the products significantly contribute to the treatment performance of the system or provide the means to overcome site limitations. The Department will not list septic tanks, effluent filters or components that do not significantly affect treatment performance or provide the means to overcome site limitations.
3. A person may request that the Department add a product to the list of proprietary and other reviewed products. The request may include a proposed reference design for review. The Department shall ensure that performance values in the list reflect the treatment performance for defined wastewater characteristics. The Department shall assess fees under 18 A.A.C. 14 for product review.

F. Recordkeeping. A permittee authorized to discharge under one or more Type 4 General Permits shall maintain the Discharge Authorization and associated documents for the life of the facility.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A310. Site Investigation for Type 4 On-site Wastewater Treatment Facilities

A. Definition. For purposes of this Section, "clean water" means water free of colloidal material or additives that could affect chemical or physical properties if the water is used for percolation or seepage pit performance testing.

B. Site investigation. An applicant shall ensure that an investigator qualified under subsection (H) conducts a site investigation consisting of a surface characterization under subsection (C) and a subsurface characterization under subsection (D). The applicant shall submit the results in a format prescribed by the Department. The site investigation shall provide sufficient data to:

1. Select appropriate primary and reserve disposal areas for an on-site wastewater treatment facility considering all surface and subsurface limiting conditions in subsections (C)(2) and (D)(2); and;
2. Effectively design and install the selected facility to serve the anticipated development at the site, whether or not limiting conditions exist.

C. Surface characterization.

1. Surface characterization method. The investigator shall characterize the surface of the site where an on-site wastewater treatment facility is proposed for installation using one of the following methods:
   a. The "Standard Practice for Surface Site Characterization for On-site Septic Systems, D5879-95 (2003)," published by the American Society for Testing and Materials. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959; or
   b. Another method of surface characterization that can, with accuracy and reliability, identify and delineate the surface limiting conditions specified in subsection (C)(2).
2. Surface limiting conditions. The investigator shall determine whether, and if so, where any of the following surface limiting conditions exist:
   a. The surface slope is greater than 15 percent at the intended location of the on-site wastewater treatment facility;
   b. Minimum setback distances are not within the limits specified in R18-9-A312(C);
   c. Surface drainage characteristics at the intended location of the on-site wastewater treatment facility will adversely affect the ability of the facility to function properly;
   d. A 100-year flood hazard zone, as indicated on the applicable flood insurance rate map, is located within the property on which the on-site wastewater treatment facility will be installed, and the flood hazard zone may adversely affect the ability of the facility to function properly;
   e. An outcropping of rock that cannot be excavated exists in the intended location of the on-site wastewater treatment facility or will impair the function of soil receiving the discharge; and
   f. Fill material deposits exist in the intended location of the on-site wastewater treatment facility.

D. Subsurface characterization.

1. Subsurface characterization method. The investigator shall characterize the subsurface of the site where an on-site wastewater treatment facility is proposed for installation using one or more of the following methods:
   a. The following ASTM standard practice, which is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959: "Standard Practice for Subsurface Site Characterization of Test Pits for On-site Septic Systems, D5921-96(2003)e1 (2003)," published by the American Society for Testing and Materials;
   b. Percolation testing as specified in subsection (F);
   c. Seepage pit performance testing as specified in subsection (G); or
   d. Another method of subsurface characterization, approved by the Department, that ensures compli-

ance with water quality standards through proper system location, selection, design, installation, and operation.

2. Subsurface limiting conditions. The investigator shall determine whether any of the following limiting conditions exist in the primary and reserve areas of the on-site wastewater treatment facility within a minimum of 12 feet of the land surface or to an impervious soil or rock layer if encountered at a shallower depth:
   a. The soil absorption rate determined under R18-9-A312(D)(2) is:
      i. More than 1.20 gallons per day per square foot, or
      ii. Less than 0.20 gallons per day per square foot;
   b. The vertical separation distance from the bottom of the lowest point of the disposal works to the seasonal high water table is less than the minimum vertical separation specified in R18-9-A312(E)(1);
   c. Seasonal saturation occurs within surface soils that could affect the performance of the on-site wastewater treatment facility;
   d. One of the following subsurface conditions that may cause or contribute to the surfacing of wastewater:
      i. An impervious soil or rock layer,
      ii. A zone of saturation that substantially limits downward percolation from the disposal works,
      iii. Soil with more than 50 percent rock fragments;
   e. One of the following subsurface conditions that promotes accelerated downward movement of insufficiently treated wastewater:
      i. Fractures or joints in rock that are open, continuous, or interconnected;
      ii. Karst voids or channels; or
      iii. Highly permeable materials such as deposits of cobbles or boulders; or
   f. A subsurface condition that may convey wastewater to a water of the state and cause or contribute to an exceedance of a water quality standard established in 18 A.A.C. 11, Articles 1 and 4.
3. Applicability of subsurface characterization methods. The investigator shall:
   a. For a seepage pit constructed under R18-9-E302, test seepage pit performance using the procedure specified in subsection (G);
   b. For an on-site wastewater treatment facility other than a seepage pit, characterize soil by using the ASTM method specified in subsection (D)(1)(a) if any of the following site conditions exists:
      i. The natural surface slope at the intended location of the on-site wastewater treatment facility is greater than 15 percent;
      ii. Bedrock or similar consolidated rock formation that cannot be excavated with a shovel outcrops on the property or occurs less than 12 feet below the land surface;
      iii. The native soil at the surface or encountered in a boring, trench, or hole consists of more than 35 percent rock fragments;
      iv. The seasonal high water table occurs within 12 feet of the natural land surface as encountered in trenches or borings, or evidenced by well records or hydrologic reports;
      v. Seasonal saturation at the natural land surface occurs as indicated by soil mottling, vegetation adapted to near-surface saturated soils, or springs, seeps, or surface water near enough to the intended location of the on-site wastewater treatment facility to have a connection with potential seasonal saturation at the land surface; or
      vi. A percolation test yields results outside the limits specified in subsection (D)(2)(a) and (b).
   c. Percolation testing. The investigator may perform percolation testing as specified in subsection (F):
      i. To augment another method of subsurface characterization if useful to locate or design an on-site wastewater treatment facility, or
      ii. As the sole method of subsurface characterization if a subsurface characterization by an ASTM method is not required under subsection (D)(3)(b).

E. If an ASTM method is used for subsurface characterization, the investigator shall conduct subsurface characterization tests at the site to provide adequate, credible, and representative information to ensure proper location, selection, design, and installation of the on-site wastewater treatment facility. The investigator shall:
1. Select at least two test locations in the primary area and one test location in the reserve area to conduct the tests;
2. Perform the characterization at each test location at appropriate depths to:
   a. Establish the wastewater absorption capacity of the soil under R18-9-A312(D), and
   b. Aid in determining that a sufficient zone of unsaturated flow is provided below the disposal works to achieve necessary wastewater treatment; and
3. Submit with the site investigation report:
   a. A log of soil formations for each test location with information on soil type, texture, and classification; percentage of rock; structure; consistence; and mottles;
   b. A determination of depth to groundwater below the land surface by test trenches or borings, published groundwater data, subdivision reports, or relevant well data; and
   c. A determination of the water absorption characteristics of the soil, under R18-9-A312(D)(2)(b), sufficient to allow location and design of the on-site wastewater treatment facility.

F. Percolation testing method for subsurface characterization.
1. Planning and preparation. The investigator shall:
   a. Select at least two locations in the primary area and at least one location in the reserve area for percolation testing, to provide adequate and credible information to ensure proper location, selection, design, and installation of a properly working on-site wastewater treatment facility;
   b. Perform percolation testing at each location at intervals in the soil profile sufficient to:
      i. Establish the wastewater absorption capability of the soil under R18-9-A312(D), and
      ii. Aid in determining that a sufficient zone of unsaturated flow is provided below the disposal works to achieve necessary wastewater treatment. The investigator shall perform percolation tests at multiple depths if there is an indication of an obvious change in soil characteristics that affect the location, selection,

design, installation, or disposal performance of the on-site wastewater treatment facility;

c. Excavate percolation test holes in undisturbed soil at least 12 inches deep with dimensions of 12 inches by 12 inches, if square, or a diameter of 15 inches, if round. The investigator shall not alter the structure of the soil during the excavation;

d. Place percolation test holes away from site or soil features that yield unrepresentative or misleading data pertaining to the location, selection, design, installation, or performance of the on-site wastewater treatment facility;

e. Scarify smeared soil surfaces within the percolation test holes and remove any loosened materials from the bottom of the hole; and

f. Use buckets with holes in the sides to support the sidewalls of the percolation test hole, if necessary. The investigator shall fill any voids between the walls of the hole and the bucket with pea gravel to reduce the impact of the enlarged hole.

2. Presoaking procedure. The investigator shall:

a. Fill the percolation test hole with clean water to a depth of 12 inches above the bottom of the hole;

b. Observe the decline of the water level in the hole and record time in minutes for the water to completely drain away;

c. Repeat the steps specified in subsection (F)(2)(a) and (b) if the water drains away in less than 60 minutes.

i. If the water drains away the second time in less than 60 minutes, the investigator shall repeat the steps specified in subsections (F)(2)(a) and (b).

ii. If the water drains away a third time in less than 60 minutes, the investigator shall perform the percolation test by following subsection (F)(3); and

d. Add clean water to the hole after 60 minutes and maintain the water at a minimum depth of 9 inches for at least four more hours if it takes 60 minutes or longer for the water to drain away. The investigator shall protect the hole from precipitation and runoff, and perform the percolation test specified in subsection (F)(3) between 16 and 24 hours after presoaking.

3. Conducting the test. The investigator shall:

a. Conduct the percolation test before soil hydraulic conditions established by the presoaking procedure substantially change. The investigator shall remove loose materials in the percolation test hole to ensure that the specified dimensions of the hole are maintained and the infiltration surfaces are undisturbed native soil;

b. Fill the test hole to a depth of six inches above the bottom with clean water;

c. Observe the decline of the water level in the test hole and record the time in minutes for the water level to fall exactly 1 inch from a fixed reference point. The investigator shall:

i. Immediately refill the hole with clean water to a depth of 6 inches above the bottom, and determine and record the time in minutes for the water level to fall exactly 1 inch,

ii. Refill the hole again with clean water to a depth of 6 inches above the bottom and determine and record the time in minutes for the water to fall exactly 1 inch, and

iii. Ensure that the method for measuring water level depth is accurate and does not significantly affect the percolation rate of the test hole;

d. If the percolation rate stabilizes for three consecutive measurements by varying no more than 10 percent, use the highest percolation rate value of the three measurements. If three consecutive measurements indicate that the percolation rate results are not stabilizing or the percolation rate is between 60 and 120 minutes per inch, the investigator shall use an alternate method based on a graphical solution of the test data to approximate the stabilized percolation rate;

e. Record the percolation rate results in minutes per inch; and

f. Submit the following information with the site investigation report:

i. A log of the soil formations encountered for all percolation tests including information on texture, structure, consistence, percentage of rock fragments, and mottles, if present;

ii. Whether and which test hole was reinforced with a bucket;

iii. The locations, depths, and bottom elevations of the percolation test holes on the site investigation map;

iv. A determination of depth to groundwater below the land surface by test trenches or borings, published groundwater data, subdivision reports, or relevant well data; and

v. A determination of the water absorption characteristics of the soil, under R18-9-A312(D)(2)(a), sufficient to allow location and design of the on-site wastewater treatment facility.

G. Seepage pit performance testing method for subsurface characterization. The investigator shall test seepage pits described in R18-9-E302 as follows:

1. Planning and Preparation. The investigator shall:

a. Identify the disposal areas at the site and drill a test hole at least 18 inches in diameter to the depth of the proposed seepage pit, at least 30 feet deep, and

b. Scarify soil surfaces within the test hole and remove loosened materials from the bottom of the hole.

2. Presoaking procedure. The investigator shall:

a. Fill the bottom 6 inches of the test hole with gravel, if necessary, to prevent scouring;

b. Fill the test hole with clean water up to 3 feet below the land surface;

c. Observe the decline of the water level in the hole and determine the time in hours and minutes for the water to completely drain away;

d. Repeat the procedure if the water drains away in less than four hours; If the water drains away the second time in less than four hours, the investigator shall conduct the seepage pit performance test by following subsection (G)(3);

e. Add water to the hole and maintain the water at a depth that leaves at least the top 3 feet of hole

exposed to air for at least four more hours if the water drains away in four or more hours; and

f. Not remove the water from the hole before the seepage pit performance test if there is standing water in the hole after at least 16 hours of presoaking.

3. Conducting the test. The investigator shall:
   a. Fill the test hole with clean water up to 3 feet below land surface;
   b. Observe the decline of the water level in the hole and determine and record the vertical distance to the water level from a fixed reference point every 10 minutes. The investigator shall ensure that the method for measuring water level depth is accurate and does not significantly affect the rate of fall of the water level in the test hole;
   c. Measure the decline of the water level continually until three consecutive 10-minute measurements indicate that the infiltration rates are within 10 percent. If measurements indicate that infiltration is not approaching a steady rate or if the rate is close to a numerical limit specified in R18-9-A312(E)(1), the investigator shall use, an alternate method based on a graphical solution of the test data to approximate the final stabilized infiltration rate;
   d. Percolation test rate. Calculate the stabilized infiltration rate for a seepage pit determined by the test hole procedure specified in subsection (G)(1)(a) using the formula P = (15 / DS) x IS to determine an equivalent percolation test rate. Once "P" is determined, the investigator shall use R18-9-A312(D)(2)(a) to establish the design SAR for wastewater treated under R18-9-E302 and to calculate the required minimum sidewall area for the seepage pit using the equation specified in R18-9-E302(C)(5)(k).
      i. "P" is the percolation test rate (minutes per inch) tabulated in the first column of the table in R18-9-A312(D)(2)(a),
      ii. "DS" is the diameter of the seepage pit test hole in inches, and
      iii. "IS" is the seepage pit stabilized infiltration rate (minutes per inch) determined by the procedure specified in R18-9-A310(G)(3)(c);
   e. Submit the following information with the site investigation report:
      i. The results of the seepage pit performance testing including data, calculations, and findings on a form provided by the Department;
      ii. The log of the test hole indicating lithologic characteristics and points of change;
      iii. The location of the test hole on the site investigation map;
      iv. A determination of depth to groundwater below the land surface by borings, published groundwater data, subdivision reports, or relevant well data.
   f. Fill the test hole so that groundwater quality and public safety are not compromised if the seepage pit is drilled elsewhere or if a seepage pit cannot be sited at the location because of unfavorable test results.

H. Qualifications. An investigator shall not perform a site investigation under this Section unless the investigator has knowledge and competence in the subject area and is licensed in good standing or otherwise qualified in one of the following categories:

1. Arizona-registered professional engineer,
2. Arizona-registered geologist,
3. Arizona-registered sanitarian,
4. A certificate of training from a course recognized by the Department as sufficiently covering the information specified in this Section, or
5. Qualifies under another category designated in writing by the Department.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A311. Facility Selection for Type 4 On-site Wastewater Treatment Facilities

A. A person shall select, design, and install an on-site wastewater treatment facility that is appropriate for the site's geographic location, setback limitations, slope, topography, drainage and soil characteristics, wastewater infiltration capability, depth to the seasonal high water table, and any surface or subsurface limiting condition.

1. A person may use on-site treatment and disposal technologies covered by a Type 4 General Permit alone or in combination with another Type 4 General Permit to overcome site limitations.
2. An applicant may submit a single Notice of Intent to Discharge for an on-site wastewater treatment facility consisting of components or technologies covered by multiple general permits if the information submittal requirements of all the general permits are met.
3. The Director shall issue a single Construction Authorization under R18-9-A301(D)(1) and a single Discharge Authorization under R18-9-A301(D)(2) for an on-site wastewater treatment facility that consists of components or technologies covered by multiple general permits.
4. If either a septic tank or disposal method, or both, as identified in R18-9-E302, is appropriately used in combination with an alternative technology listed under R18-9-E303 through R18-9-E322, the applicant shall apply the design requirements specified in R18-9-E302, except that the specific requirements for R18-9-E303 through R18-9-E323, as applicable, supersede requirements in R18-9-E302 if the rules conflict. If additional modifications are necessary and appropriate to ensure adequate treatment, the applicant may request review under R18-9-A312(G) to allow the Department to approve the application.

B. A person may install a septic tank and disposal works system described in R18-9-E302 as the sole method of wastewater treatment and disposal at a site if the site investigation conducted under R18-9-A310 indicates that no limiting condition identified under R18-9-A310(C) or R18-9-A310(D) exists at the site.

1. A person may install a seepage pit only in valley-fill sediments in a basin-and-range alluvial basin and only if the seepage pit performance test results meet the criteria specified in R18-9-A312(E).
2. The person shall specify in the Notice of Intent to Discharge that no limiting conditions described in R18-9-A310(C) and (D) were identified at the site.

C. If any surface or subsurface limiting condition is identified in the site investigation report, an applicant may propose installation of a septic tank and disposal works system described in R18-9-E302 as the sole method of wastewater treatment and disposal at a facility only if:
1. The applicant submits information under R18-9-A312(G) that describes:
   a. How the design of the septic tank and disposal works system specified in R18-9-E302 was modified to overcome limiting conditions;
   b. How the modified design meets the criteria of R18-9-A312(G)(3); and
   c. A site-specific SAR under R18-9-A312(D)(2)(a) or (b), as applicable; and
2. None of the following surface or subsurface limiting conditions are identified at the site:
   a. An outcropping of rock that cannot be excavated or will impair the function of soil receiving the discharge exists in the intended location of the on-site wastewater treatment facility, as described in R18-9-A310(C)(2)(e);
   b. The vertical separation distance from the bottom of the lowest point of the disposal works to the seasonal high water table is less than the minimum vertical separation distance, as described in R18-9-A310(D)(2)(b); or
   c. A subsurface condition that promotes accelerated downward movement of insufficiently treated wastewater as described in R18-9-A310(D)(2)(e).

D. If a site can accommodate a septic tank and disposal works system described in R18-9-E302, the applicant shall not install a treatment works or disposal works described in R18-9-E303 through R18-9-E322 unless the applicant submits a statement to the Department with the Notice of Intent to Discharge acknowledging the following:
1. The applicant is aware that although a septic tank and disposal works system described in R18-9-E302 is appropriate for the site, the applicant desires to install a treatment works or disposal works authorized under R18-9-E303 through R18-9-E322; and
2. The applicant is aware that a treatment works or disposal works authorized under R18-9-E303 through R18-9-E322 may result in higher capital, operation, and maintenance costs than a septic tank and disposal works system described in R18-9-E302.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A312. Facility Design for Type 4 On-site Wastewater Treatment Facilities

A. General design requirements. An applicant shall ensure that the person designing an on-site wastewater treatment facility:
1. Signs the design documents submitted as part of the Notice of Intent to Discharge to obtain a Construction Authorization, including plans, specifications, drawings, reports, and calculations; and
2. Locates and designs the on-site wastewater treatment facility project using good design judgment and relies on appropriate design methods and calculations.

B. Design considerations and flow determination. An applicant shall ensure that the person designing the on-site wastewater treatment facility shall:
1. Design the facility to satisfy a 20-year operational life;
2. Design the facility based on the provisions of one or more of the general permits in R18-9-E302 through R18-9-E322 for facilities with a design flow of less than 3000 gallons per day, and R18-9-E323 for facilities with a design flow of 3000 gallons per day to less than 24,000 gallons per day;
3. Design the facility based on the facility's design flow and wastewater characteristics as specified in R18-9-A309(A)(7), (10) and (11) and R18-9-A309(B)(3);
4. For on-site wastewater treatment facilities permitted under R18-9-E303 through R18-9-E323, apply the following design requirements, as applicable:
   a. Include the power source and power components in construction drawings if electricity or another type of power is necessary for facility operation;
   b. If a hydraulic analysis is required under subsection (E), perform the analysis based on the location and dimensions of the bottom and sidewall surfaces of the disposal works that are identified in the design documentation;
   c. Design components, piping, ports, seals, and appurtenances to withstand installation loads, internal and external operational loads, and buoyant forces. Design ports for resistance against movement, and cap or cover openings for protection from damage and entry by rodents, mosquitoes, flies, or other organisms capable of transporting a disease-causing organism;
   d. Design tanks, liners, ports, seals, piping to and within the facility, and appurtenances for watertightness under all operational conditions;
   e. Provide adequate storage capacity above high operating level to:
      i. Accommodate a 24-hour power or pump outage, and
      ii. Contain wastewater that is incompletely treated or cannot be released by the disposal works to the native soil;
   f. If a fixed media process is used, provide in the construction drawings the media material, installation specification, media configuration, and wastewater loading rate of the media at the daily design flow;
   g. Provide a fail-safe wastewater control or operational process, if required by the general permit to prevent discharge of inadequately treated wastewater; and
   h. Reference design. If using a reference design on file with the Department, indicate the reference design within the information submitted with the Notice of Intent to Discharge.

C. Setbacks. The following setbacks apply unless the Department:
1. Specifies alternative setbacks under Article 3, Part E of this Chapter;
2. Approves a different setback under the procedure specified in subsection (G); or
3. Establishes a more stringent setback on a site- or area-specific basis to ensure compliance with water quality standards.

Features Requiring Setbacks	Setback For An On-Site Wastewater Treatment Facility, Including Reserve Area (In Feet)	Special Provisions
1. Building	10	Includes porches, decks (including pool decks), and steps (covered or uncovered), breezeways, roofed patios, carports, covered walks, and similar structures and appurtenances.
2. Property line shared with any adjoining lot or parcel not served by a common drinking water system* or an existing water well	50	A person may reduce the setback to a minimum of 5 feet from the property line if: a. The owners of any affected undeveloped adjacent properties agree, as evidenced by an appropriately recorded document, to limit the location of any new well on their property to at least 100 feet from the proposed treatment works and primary and reserve disposal works; and b. The arrangements and documentation are approved by the Department.
3. All other property lines	5	None
4. Public or private water supply well	100	None
5. Perennial or intermittent stream	100	Measured horizontally from the high water line of the peak streamflow from a 10-year, 24-hour rainfall event.
6. Lake, reservoir, or canal	100	Measured horizontally from the high water line from a 10-year, 24-hour rainfall event at the lake or reservoir and measured horizontally from the edge of the canal.
7. Drinking water intake from a surface water source (includes an open water body, downslope spring or a well tapping streamside saturated alluvium)	200	Measured horizontally from the on-site wastewater treatment facility to the structure or mechanism for withdrawing raw water such as a pipe inlet, grate, pump, intake or diversion box, spring box, well, or similar structure.
8. Wash or drainage easement with a drainage area of more than 20 acres	50	Measured horizontally from the nearest edge of the defined natural channel bank or drainage easement boundary. A person may reduce the setback to 25 feet if natural or constructed erosion protection is approved by the appropriate flood plain administrator.
9. Water main or branch water line	10	None
10. Domestic service water line (including domestic water holding tanks)	5	Measured horizontally between the water line and the wastewater pipe, except that the following are allowed: a. A water line may cross above a wastewater pipe if the crossing angle is between 45 and 90 degrees and the vertical separation distance is 1 foot or more. b. A water line may parallel a wastewater pipe with a horizontal separation distance of 1 foot to 5 feet if the bottom of the water line is 1 foot or more above the top of the wastewater pipe and is in a separate trench or on a bench in the same trench.

11. Downslopes or cut banks greater than 15 percent, culverts, and ditches from:		
a. Treatment works components	10	Measured horizontally from the bottom of the treatment works component to the closest point of daylighting on the surface.
b. Trench, bed, chamber technology, or gravelless trench with:		Measured horizontally from the bottom of the lowest point of the disposal pipe or drip lines, as applicable, to the closest point of daylighting on the surface.
i. No limiting subsurface condition specified in R18-9-A310(D)(2),	20	
ii. A limiting subsurface condition.	50	
c. Subsurface drip lines.	3	Measured horizontally from the bottom of the lowest point of the disposal pipe or drip lines, as applicable, to the closest point of daylighting on the surface.
12. Driveway	5	Measured horizontally to the nearest edge of an on-site wastewater treatment facility excavation. A person may place a properly reinforced and protected wastewater treatment facility, except for disposal works, at any location relative to a driveway if access openings, risers, and covers carry the design load and are protected from inflow.
13. Swimming pool excavation	5	Except if soil loading or stability concerns indicate the need for a greater separation distance.
14. Easement (except drainage easement)	5	None
15. Earth fissures	100	None
* A "common drinking water system" means a system that currently serves or is under legal obligation to serve the property and may include a drinking water utility, a well-sharing agreement, or other viable water supply agreement.		

D. Soil absorption rate (SAR) and disposal works sizing.

1. An applicant shall determine the soil absorption area by dividing the design flow by the applicable soil absorption rate. If soil characterization and percolation test methods yield different SAR values or if multiple applications of the same approach yield different values, the designer of the disposal works shall use the lowest SAR value unless a higher SAR value is proposed and justified to the Department's satisfaction in the Notice of Intent to Discharge.
2. The SAR used to calculate disposal works size for systems described in R18-9-E302 is as follows:
   a. The SAR by percolation testing as described in R18-9-A310(F) or (G), as applicable, is determined as follows:

Percolation Rate from Percolation Test (minutes per inch)	**SAR, Trench, Chamber, and Pit (gal/day/ft^2)**	**SAR, Bed (gal/day/ft^2)**
Less than 1.00	A site-specific SAR is required	A site-specific SAR is required
1.00 to less than 3.00	1.20	0.93
3.00	1.10	0.73
4.00	1.00	0.67
5.00	0.90	0.60
7.00	0.75	0.50
10.0	0.63	0.42
15.0	0.50	0.33
20.0	0.44	0.29
25.0	0.40	0.27
30.0	0.36	0.24
35.0	0.33	0.22

40.0	0.31	0.21
45.0	0.29	0.20
50.0	0.28	0.19
55.0	0.27	0.18
55.0+ to 60.0	0.25	0.17
60.0+ to 120	0.20	0.13
Greater than 120	A site-specific SAR is required	A site-specific SAR is required

b. The SAR using the soil evaluation method described in R18-9-A310(E) is determined by answering the questions in the following table. The questions are read in sequence starting with "A." The first "yes" answer determines the SAR. A seepage pit is required to determine percolation rate under the procedure described in R18-9-A310(G) and would only use this table to augment the percolation test results, if appropriate.

Sequence of Soil Characteristics Questions	**SAR, Trench, Chamber, and Pit gal/day/ft^2**	**SAR, Bed gal/day/ft^2**
A. Is the horizon gravelly coarse sand or coarser?	A site-specific SAR is required	A site-specific SAR is required
B. Is the structure of the horizon moderate or strongly platy?	A site-specific SAR is required	A site-specific SAR is required
C. Is the texture of the horizon sandy clay loam, clay loam, silty clay loam, or finer and the soil structure weak platy?	A site-specific SAR is required	A site-specific SAR is required
D. Is the moist consistence stronger than firm or any cemented class?	A site-specific SAR is required	A site-specific SAR is required
E. Is the texture sandy clay, clay, or silty clay of high clay content and the structure massive or weak?	A site-specific SAR is required	A site-specific SAR is required
F. Is the texture sandy clay loam, clay loam, silty clay loam, or silt loam and the structure massive?	A site-specific SAR is required	A site-specific SAR is required
G. Is the texture of the horizon loam or sandy loam and the structure massive?	0.20	0.13
H. s the texture sandy clay, clay, or silty clay of low clay content and the structure moderate or strong?	0.20	0.13
I. Is the texture sandy clay loam, clay loam, or silty clay loam and the structure weak?	0.20	0.13
J. Is the texture sandy clay loam, clay loam, or silty clay loam and the structure moderate or strong?	0.40	0.27
K. Is the texture sandy loam, loam, or silty loam and the structure weak?	0.40	0.27
L. Is the texture sandy loam, loam, or silt loam and the structure moderate or strong?	0.60	0.40
M. Is the texture fine sand, very fine sand, loamy fine sand, or loamy very fine sand?	0.40	0.27
N. Is the texture loamy sand or sand?	0.80	0.53
O. Is the texture coarse sand?	1.20	A site-specific SAR is required

c. If the percolation rate determined under R18-9-A310(F) or (G), whichever is applicable, is a value that lies between two consecutive percolation rate values listed in subsection (2)(a), the applicant must use the higher of the two listed percolation rates to obtain the most conservative SAR.

3. For an on-site wastewater treatment facility described in a general permit other than R18-9-E302, the SAR is dependent on the ability of the facility to reduce the level of TSS and BOD_5 and is calculated using the following formula:

$$SAR_a = \left[\left(\frac{11.39}{\sqrt[3]{TSS + BOD_5}} - 1.87\right) SAR^{1.13} + 1\right] SAR$$

a. "SAR_a" is the adjusted soil absorption rate for disposal works design in gallons per day per square foot,

b. "TSS" is the total suspended solids in wastewater delivered to the disposal works in milligrams per liter,

c. "BOD_5" is the five-day biochemical oxygen demand of wastewater delivered to the disposal works in milligrams per liter, and

d. "SAR" is the soil absorption rate for septic tank effluent determined by the subsurface characterization method described in R18-9-A310.

4. An applicant shall ensure that the facility is designed so that the area of the intended installation is large enough to allow for construction of the facility and for future replacement or repair and is at least as large as the following:

a. For a dwelling, a primary area for the disposal works sized according to subsection (D)(1) and a reserve area of 100 percent of the primary area, excluding the footprint of the treatment works. A reserve area is not required for a lot in a subdivision approved before 1974 if the lot conforms to its original approved configuration;

b. For other than a dwelling, a primary area for the disposal works sized according to subsection (D)(1) and a reserve area of 100 percent of the primary area, excluding the footprint of the treatment works.

5. An applicant shall ensure that the subsurface disposal works is designed to achieve the design flow established in R18-9-A309(B)(3) through proper hydraulic function, including conditions of seasonally cold and wet weather.

E. Vertical separation distances.

1. Minimum vertical separation to the seasonal high water table for a disposal works described in R18-9-E302 receiving septic tank effluent. For a disposal works described in R18-9-E302 receiving septic tank effluent at a facility where the septic tank and disposal system described in R18-9-E302 is the sole method of treatment and disposal of wastewater, the minimum vertical separation distance between the lowest point in the disposal works and the seasonal high water table is dependent on the soil absorption rate and is determined as follows:

Soil Absorption Rate (gallons per day per square foot)			**Minimum Vertical Separation Between The Bottom Of The Disposal Works And The Seasonal High Water Table (feet)**	
Trench and Chamber	Bed	Seepage Pit	Trench, Chamber, and Bed	Seepage Pit
1.20+	0.93+	1.20+	Not allowed for septic tank effluent	Not Allowed
0.63+ to 1.20	0.42 to 0.93	0.63+ to 1.20	10	60
0.20 to 0.63	0.13 to 0.42	0.36 to 0.63	5	60
Less than 0.20	Less than 0.13	Less than 0.36	Not allowed for septic tank effluent	Not Allowed

2. Minimum vertical separation to the seasonal high water table for treatment and disposal works technologies described in R18-9-E303 through R18-9-E322. If the minimum vertical separation distance to the seasonal high water table for a disposal works receiving septic tank effluent specified in subsection (E)(1) is not met, the applicant shall comply with the following:

a. Employ one or more technologies described in R18-9-E303 through R18-9-E322 to achieve a reduced concentration of harmful microorganisms, expressed as total coliform in colony forming units per 100 milliliters (cfu/100 ml) delivered to native soil at the bottom of the disposal works. The applicant shall use the following table to select works that achieve a reduced total coliform concentration corresponding to the available vertical separation distance between the bottom of the disposal works and the seasonal high water table:

Available Vertical Separation Distance Between the Bottom of The Disposal Works and the Seasonal High Water Table (feet)		**Maximum Allowable Total Coliform Concentration, 95th Percentile, Delivered to Natural Soil by the Disposal Works (Log_{10} of coliform concentration in cfu per 100 milliliters)**
For SAR*, 0.20 to 0.63	**For SAR*, 0.63+ to 1.20**	
5	10	8**
4	8	7
3.5	7	6
3	6	5
2.5	5	4
2	4	3
1.5	3	2
1	2	1
0	0	0***

* Soil absorption rate from percolation testing or soil characterization, in gallons per square foot per day.
** Nominal value for a standard septic tank and disposal field (10^8 colony forming units per 100 ml).
*** Nominally free of coliform bacteria.

b. Include a hydraulic analysis with the Notice of Intent to Discharge, based on the dimensions of the absorption surfaces specified in R18-9-A312(B)(4)(b), showing that the soil is sufficiently permeable to conduct wastewater downward and laterally without surfacing for the site conditions at the disposal works.

3. Vertical separation from a subsurface limiting condition described in R18-9-A310(D)(2)(d) that may cause or contribute to surfacing of wastewater. If a subsurface limiting condition described in R18-9-A310(D)(2)(d) exists at the location of the disposal works, the applicant shall ensure that the design for the on-site wastewater treatment facility meets one of the following:
   a. A zone of acceptable native soil with the following characteristics exists between the bottom of the disposal works and the top of the subsurface limiting condition:
      i. The zone of soil is at least 4 feet thick, and
      ii. The zone of soil is sufficiently permeable to conduct wastewater released from the disposal works vertically downward and laterally without causing surfacing of the wastewater as documented by a hydraulic analysis submitted with the Notice of Intent to Discharge that is based on the dimensions of the absorption surfaces specified in R18-9-A312(B)(4)(b);
   b. The subsurface limiting condition is thin enough to allow placement of a disposal works into acceptable native soil beneath the subsurface limiting condition if the following criteria are met:
      i. The bottom of the subsurface limiting condition is not deeper than 10 feet below the land surface, and
      ii. The vertical separation distance from the bottom of the disposal works to the seasonal high water table complies with subsection (E)(1) or (2), as applicable; or
   c. If the disposal works is placed above the subsurface limiting condition and the depth to the subsurface limiting condition is less than 4 feet below the bottom of the disposal works, the design for the on-site wastewater treatment facility shall comply with all of the following:
      i. Employ one or more technologies described in R18-9-E303 through R18-9-E322 to achieve a reduced concentration of harmful microorganisms, expressed as total coliform in colony forming units per 100 milliliters (cfu/100 ml), delivered to acceptable native soil at the bottom of the disposal works, as follows:

Available Vertical Separation Distance from the Bottom of the Disposal Works to the Subsurface Limiting Condition (feet)	**Maximum Allowable Total Coliform Concentration, 95th Percentile, Delivered to Acceptable Native Soil by the Disposal Works (Log_{10} of coliform concentration in cfu per 100 milliliters)**
3.5	7
3	6
2.5	5
2	4
1.5	0*
1	0*
0.5	0*
0	0*

* Nominally free of coliform bacteria.

      ii. Include a hydraulic analysis with the Notice of Intent to Discharge, based on the location and dimensions of the absorption surfaces specified in R18-9-A312(B)(4)(b), showing that the soil is sufficiently permeable to conduct wastewater vertically downward and laterally without surfacing for the site conditions at the disposal works; and
      iii. If a disinfection device under R18-9-E320 is proposed but is not used with surface disposal of wastewater under R18-9-E321 or "Category A" drip irrigation disposal under R18-9-E322, provide a justification with the Notice of Intent to Discharge stating why the selected type of disposal works is favored over disposal under R18-9-E321 or R18-9-E322.
4. Vertical separation from a subsurface limiting condition described in R18-9-A310(D)(2)(e) that promotes accelerated downward movement of insufficiently treated wastewater. If a subsurface limiting condition described in R18-9-A310(D)(2)(e) exists at the location of the proposed disposal works, the applicant shall ensure that the design for the on-site wastewater treatment facility meets one of the following:
   a. A zone of naturally occurring soil with the following characteristics exists between the bottom of the disposal works and the top of the subsurface limiting condition:
      i. The zone of soil is at least 2 feet thick, and
      ii. The SAR of the soil is not less than 0.20 gallons per day per square foot nor more than 1.20 gallons per day per square foot; or
   b. The on-site wastewater treatment facility employs one or more technologies described in R18-9-E303 through R18-9-E322 that produces treated wastewater that meets a total coliform concentration of 1,000,000 ($Log_{10}6$) colony forming units per 100 milliliters, 95th percentile.

F. Materials and manufactured system components.
1. Materials. An applicant shall use aggregate if no specification for disposal works material is provided in this Article.
2. Manufactured components. If manufactured components are used, an applicant shall design, install, and operate the on-site wastewater treatment facility following the manufacturer's specifications. The applicant shall ensure that:
   a. Treatment and containment components, mechanical equipment, instrumentation, and controls have mon-

itoring, inspection, access and cleanout ports or covers, as appropriate, for monitoring and service;

b. Treatment and containment components, pipe, fittings, pumps, and related components and controls are durable, watertight, structurally sound, and capable of withstanding stress from installation and operational service; and

c. Distribution lines for disposal works are constructed of perforated high density polyethylene pipe, perforated ABS pipe, perforated PVC pipe, or other pipe material, if the pipe is suitable for wastewater disposal use and sufficient openings are available for distribution of the wastewater into the trench or bed area.

3. Electronic components. When electronic components are used, the applicant shall ensure that:

a. The component connections are compliant with the electrical code encompassed in the local building codes applicable in the county in which the facility is installed, except as required for a pressure distribution system under R18-9-E304(D)(2)(e);

b. Instructions and a wiring diagram are mounted on the inside of a control panel cover;

c. The control panel is equipped with a multimode operation switch, red alarm light, buzzer, and reset button;

d. The multimode operation switch operates in the automatic position for normal system operation; and

e. An anomalous condition is indicated by a glowing alarm light and sounding buzzer. The continued glowing of the alarm light after pressing the reset button shall signal the need for maintenance or repair of the system at the earliest practical opportunity.

4. If a conflict exists between this Article and the manufacturer's specifications, the requirements of this Article apply. Except for the requirements in subsection (D) and (E), which always apply, if the conflict voids a manufacturer's warranty, the applicant may submit a request under subsection (G) justifying use of the manufacturer's specifications.

G. Alternative design, setback, installation, or operational features. When an applicant submits a Notice of Intent to Discharge, the applicant may request that the Department review and approve a feature of improved or alternative technology, design, setback, installation, or operation that differs from a general permit requirement in this Article. Designs incorporating alternative features already approved in a current listing on the "proprietary and other reviewed product list" pursuant to R18-9-A309(E) do not need additional approval under this subsection for only those specific alternative features already approved in the proprietary products listing.

1. The applicant shall make the request for an improved or alternative feature of technology, design, setback, installation, or operation on a form provided by the Department and include:

a. A description of the requested change;

b. A citation to the applicable feature or technology, design, setback, installation, or operational requirement for which the change is being requested; and

c. Justification for the requested change, including any necessary supporting documentation.

2. The applicant shall submit the appropriate fee specified under 18 A.A.C. 14 for each requested change. For purposes of calculating the fee, a requested change that is applied multiple times in a similar manner throughout the facility is considered a single request if submitted for concurrent review.

3. The applicant shall provide sufficient information for the Department to determine that the change achieves equal or better performance compared with the general permit requirement, or addresses site or system conditions more satisfactorily than the requirements of this Article.

4. The Department shall review and may approve the request for change.

5. The Department shall deny the request for the change if the change will adversely affect other permittees or cause or contribute to a violation of an Aquifer Water Quality Standard.

6. The Department shall deny the request for the change if the change:

a. Fails to achieve equal or better performance compared to the general permit requirement;

b. Fails to address site or system conditions more satisfactorily than the general permit requirement;

c. Is insufficiently justified based on the information provided in the submittal;

d. Requires excessive review time, research, or specialized expertise by the Department to act on the request; or

e. For any other justifiable cause.

7. The Department may approve a reduced setback for a facility authorized to discharge under one or more of the general permits in R18-9-E302 through R18-9-E323, either separately or in combination, if the applicant additionally demonstrates at least one of the following:

a. The treatment performance is significantly better than that provided under R18-9-E302(B),

b. The wastewater loading rate is reduced, or

c. Surface or subsurface characteristics ensure that reduced setbacks are protective of human health or water quality.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended to correct a manifest typographical error in subsection (E)(1) (Supp. 01-1). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A313. Facility Installation, Operation, and Maintenance for On-site Wastewater Treatment Facilities

A. Facility installation. In addition to installation requirements in the general permit, the applicant shall ensure that the following tasks are performed, as applicable:

1. The facility is installed as described in design documents submitted with the Notice of Intent to Discharge;

2. Components are installed on a firm foundation that supports the components and operating loads;

3. The site is prepared to protect native soil beneath the soil absorption area and in adjacent areas from compaction, prevent smeared absorption surfaces, minimize disturbances from grubbing, and otherwise preclude damage to the disposal area that would impair performance;

4. Components are protected from damage at the construction site and installed in conformance with the manufacturer's instructions if consistent with this Article;

5. Treatment media are placed to achieve uniform density, prevent differential settling, produce a level inlet surface unless otherwise specified by the manufacturer, and avoid introduction of construction contaminants;
6. Backfill is placed to prevent damage to geotextile, liners, tanks, and other components;
7. Soil cover is shaped to shed rainfall away from the backfill areas and prevent ponding of runoff; and
8. Anti-buoyancy measures are implemented during construction if temporary saturated backfill conditions are anticipated during construction.

B. Operation and maintenance. In addition to operation and maintenance requirements in the general permit or specified in the operation and maintenance manual, the permittee shall ensure that the following tasks are performed, as applicable:

1. Pump accumulated residues, inspect and clean wastewater treatment and distribution components, and manage residues to protect human health and the environment;
2. Clean, backwash, or replace effluent filters according to the manufacturer's instructions, and manage residues to protect human health and the environment;
3. Inspect and clean the effluent baffle screen and pump tank, and properly dispose of cleaning residue;
4. Clean the dosing tank effluent screen, pump switches, and floats, and properly dispose of cleaning residue;
5. Flush lateral lines and return flush water to the pretreatment headworks;
6. Inspect, remove and replace, if necessary, and properly dispose of filter media;
7. Rod pressurized wastewater delivery lines and secondary distribution lines (for dosing systems), and return cleaning water to the pretreatment headworks;
8. Inspect and clean pump inlets and controls and return cleaning water to the pretreatment headworks;
9. Implement corrective measures if anomalous ponding, dryness, noise, odor, or differential settling is observed;
10. Inspect and monitor inspection and access ports, as applicable, to verify that operation is within expected limits for:
    a. Influent wastewater quality;
    b. The pressurized dosing system;
    c. The aggregate infiltration bed and mound system;
    d. Wastewater delivery and the engineered pad;
    e. The pressurized delivery system, filter, underdrain, and native soil absorption system;
    f. Saturation condition status in peat and other media; and
    g. Treatment system components;
11. Inspect tanks, liners, ports, seals, piping, and appurtenances for watertightness under all operational conditions;
12. Manage vegetation in areas that contain components subject to physical impairment or damage due to root invasion or animals;
13. Maintain drainage, berms, protective barriers, cover materials, and other features; and
14. Maintain the usefulness of the reserve area to allow for repair or replacement of the on-site wastewater treatment facility.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A314. Septic Tank Design, Manufacturing, and Installation for On-site Wastewater Treatment Facilities

A person shall not install a septic tank in an on-site wastewater treatment facility unless the tank meets the following requirements:

1. The tank is:
    a. Designed to produce a clarified effluent and provide adequate space for sludge and scum accumulations;
    b. Watertight and constructed of solid durable materials not subject to excessive corrosion or decay;
    c. Manufactured with at least two compartments unless two separate structures are placed in series. The tank is designed so that:
        i. The inlet compartment of any septic tank not placed in series is nominally 67 percent to 75 percent of the total required capacity of the tank,
        ii. Septic tanks placed in series are considered a unit and meet the same criteria as a single tank,
        iii. The liquid depth of the septic tank is at least 42 inches, and
        iv. A septic tank of 1000 gallon capacity is at least 8 feet long and the tank length of septic tanks of greater capacity is at least 2 times but not more than 3 times the width;
    d. Manufactured with at least two access openings to the tank interior, each at least 20 inches in diameter. The tank is designed so that:
        i. One access opening is located over the inlet end of the tank and one access opening is located over the outlet end;
        ii. Whenever a first compartment exceeds 12 feet in length, another access opening is provided over the baffle wall; and
        iii. Access openings and risers are constructed to ensure accessibility within 6 inches below finished grade;
    e. Manufactured so that the sewage inlet and wastewater outlet openings are not smaller than the connecting sewer pipe. The tank is designed so that:
        i. The vertical leg of round inlet and outlet fittings is at least 4 inches but not smaller than the connecting sewer pipe, and
        ii. A baffle fitting has the equivalent cross-sectional area of the connecting sewer pipe and not less than a 4 inch horizontal dimension if measured at the inlet and outlet pipe inverts;
    f. Manufactured so that the inlet and outlet pipe or baffle extends 4 inches above and at least 12 inches below the water surface when the tank is installed according to the manufacturer's instructions consistent with this Chapter. The invert of the inlet pipe is at least 2 inches above the invert of the outlet pipe;
    g. Manufactured so that the inlet and outlet fittings or baffles and compartment partitions have a free vent area equal to the required cross-sectional area of the connected sewer pipe to provide free ventilation above the water surface from the disposal works or seepage pit through the septic tank, house sewer, and stack to the outer air;
    h. Manufactured so that the open space extends at least 9 inches above the liquid level and the cover of the

septic tank is at least 2 inches above the top of the inlet fitting vent opening;

i. Manufactured so that partitions or baffles between compartments are of solid durable material (wooden baffles are prohibited) and extend at least 4 inches above the liquid level. The open area of the baffle shall be between one and 2 times the open area of the inlet pipe or horizontal slot and located at the midpoint of the liquid level of the baffle. If a horizontal slot is used, the slot shall be no more than 6 inches in height;

j. Structurally designed to withstand all anticipated earth or other loads. The tank is designed so that:

i. All septic tank covers are capable of supporting an earth load of 300 pounds per square foot; and

ii. If the top of the tank is greater than 2 feet below finish grade, the septic tank and cover are capable of supporting an additional load of 150 pounds per square foot for each additional foot of cover;

k. Manufactured or installed so that the influent and effluent ends of the tank are clearly and permanently marked on the outside of the tank with the words "INLET" or "IN," and "OUTLET" or "OUT," above or to the right or left of the corresponding openings; and

l. Clearly and permanently marked with the manufacturer's name or registered trademark, or both, the month and year, or Julian date, of manufacture, the maximum recommended depth of earth cover in feet, and the design liquid capacity of the tank. The tank is manufactured to protect the markings from corrosion so that they remain permanent and readable for the operational life of the tank.

2. Materials used to construct or manufacture septic tanks.

a. A septic tank cast-in-place at the site of use shall be protected from corrosion by coating the tank with a bituminous coating, by constructing the tank using a concrete mix that incorporates 15 percent to 18 percent fly ash, or by any other Department-approved means. The tank is designed so that:

i. The coating extends at least 4 inches below the wastewater line and covers all of the internal area above that point; and

ii. A septic tank cast-in-place complies with the "Building Code Requirements for Structural Concrete and Commentary ACI 318-02/318R-02 (2002)," and the "Code Requirements for Environmental Engineering Concrete Structures and Commentary, ACI 350/350R-01 (2001)," published by the American Concrete Institute. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington Street, Phoenix, AZ 85007 or may be obtained from American Concrete Institute, P.O. Box 9094, Farmington Hills, MI 48333-9094.

b. A steel septic tank shall have a minimum wall thickness of No. 12 U.S. gauge steel and be protected from corrosion, internally and externally, by a bituminous coating or other Department-approved means.

c. A prefabricated concrete septic tank shall meet the "Standard Specification for Precast Concrete Septic Tanks, C1227-20," published by the American Society for Testing and Materials. This information is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington Street, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International West.

d. A septic tank manufactured using fiberglass or thermoplastic shall meet the requirements set forth in "Prefabricated Septic Tanks – IAPMO/ANSI Z1000-2019," published by the International Association of Plumbing and Mechanical Officials. This information is incorporated by reference, does not include any later amendments or editions of the incorporated material, and may be viewed at the Arizona Department of Environmental Quality, 1110 W. Washington Street, Phoenix, AZ 85007 or obtained from International Association of Plumbing and Mechanical Officials, 4755 E. Philadelphia Street, Ontario, CA 917761.

3. Conformance with design, materials, and manufacturing requirements.

a. If any conflict exists between this Article and the information incorporated by reference in subsection (2), the requirements of this Article apply.

b. The Department may approve use of alternative construction materials under R18-9-A312(G). Tanks constructed of wood, block, or bare steel are prohibited.

c. The Department may inspect septic tanks at the site of manufacturing to verify compliance with subsections (1) and (2).

d. The septic tank sale documentation includes:

i. A certificate attesting that the septic tank conforms with the design, materials, and manufacturing requirements in subsections (1) and (2); and

ii. Instructions for handling and installing the septic tank.

4. The septic tank's daily design flow is determined as follows:

a. For a single family dwelling:

i. The design liquid capacity of the septic tank and the septic tank's daily design flow are determined based on the number of bedrooms and fixture count as follows:

Criteria for Septic Tank Size and Design Flow			
Number of Bedrooms	**Fixture Count**	**Minimum Design Liquid Capacity (gallons)**	**Design Flow (gal/day)**

1	7 or less	1000	150
	More than 7	1000	300
2	14 or less	1000	300
	More than 14	1000	450
3	21 or less	1000	450
	More than 21	1250	600
4	28 or less	1250	600
	More than 28	1500	750
5	35 or less	1500	750
	More than 35	2000	900
6	42 or less	2000	900
	More than 42	2500	1050
7	49 or less	2500	1050
	More than 49	3000	1200
8	56 or less	3000	1200
	More than 56	3000	1350

ii. Fixture count is determined as follows:

Residential Fixture Type	Fixture Units	Residential Fixture Type	Fixture Units
Bathtub	2	Sink, bar	1
Bidet	2	Sink, kitchen (including dishwasher)	2
Clothes washer	2	Sink, service	3
Dishwasher (Separate from kitchen)	2	Utility tub or sink	2
Lavatory, single	1	Water closet, 1.6 gallons per flush (gpf)	3
Lavatory, double in master bedroom	1	Water closet, >1.6 to 3.2 gpf	4
Shower, single stall	2	Water closet, greater than 3.2 gpf	6

b. For other than a single family dwelling, the design liquid capacity of a septic tank in gallons is 2.1 times the daily design flow into the tank as determined from Table 1, Unit Design Flows. If the wastewater strength exceeds that of typical sewage, additional tank volume is required.

c. A person may place two septic tanks in series to meet the septic tank design liquid capacity requirements if the capacity of the first tank is at least 67 percent of the total required tank capacity and the capacity of the second tank is at least 33 percent of the total required tank capacity.

5. The following requirements regarding new or replacement septic tank installation apply:
   a. Permanent surface markers for locating the septic tank access openings are provided for maintenance;
   b. A septic tank installed under concrete or pavement has the required access openings extended to grade;
   c. A septic tank effluent filter is installed on the septic tank. The filter shall:
      i. Prevent the passage of solids larger than 1/8 inch in diameter while under two feet of hydrostatic head; and
      ii. Be constructed of materials that are resistant to corrosion and erosion, sized to accommodate hydraulic and organic loading, and removable for cleaning and maintenance; and
   d. The septic tank is tested for watertightness after installation by the water test described in subsections (5)(d)(i) and (5)(d)(ii) and repaired or replaced, if necessary.
      i. The septic tank is filled with clean water, as specified in R18-9-A310(A), to the invert of the outlet and the water left standing in the tank for 24 hours and:
         (1) After 24 hours, the tank is refilled to the invert, if necessary;
         (2) The initial water level and time is recorded; and
         (3) After one hour, water level and time is recorded.
      ii. The tank passes the water test if the water level does not drop over the one-hour period. Any visible leak of flowing water is considered a failure. A damp or wet spot that is not flowing is not considered a failure.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A315. Interceptor Design, Manufacturing, and Installation for On-site Wastewater Treatment Facilities

A. Interceptor requirement. An applicant shall ensure that an interceptor as required by R18-9-A309(A)(7)(c) or necessary due to excessive amounts of grease, garbage, sand, or other

wastes in the sewage is installed between the sewage source and the on-site wastewater treatment facility.

B. Interceptor design. An applicant shall ensure that:

1. An interceptor has not less than two compartments with fittings designed for grease retention and capable of removing excessive amounts of grease, garbage, sand, or other similar wastes. An interceptor may not accept human excreta or toilet wastewater. Applicable structural and materials requirements prescribed in R18-9-A314 apply;
2. Interceptors are located as close to the source as possible and are accessible for servicing. The applicant shall ensure that access openings for servicing are at grade level and gas-tight;
3. The interceptor size for grease and garbage from non-residential kitchens is calculated using by the following equation: Interceptor Size (in gallons) = M × F × T × S.
   a. "M" is the number of meals per peak hour;
   b. "F" is the applicable waste flow rate from Table 1, Unit Design Flows.
   c. "T" is the estimated retention time:
      i. Commercial kitchen waste, dishwasher or disposal: 2.5 hours; or
      ii. Single service kitchen with utensil wash disposal: 1.5 hours;
   d. "S" is the estimated storage factor:
      i. Fully equipped commercial kitchen, 8-hour operation: 1.0;
      ii. Fully equipped commercial kitchen, 16-hour operation: 2.0;
      iii. Fully equipped commercial kitchen, 24-hour operation: 3.0; or
      iv. Single service kitchen, 1.5;
4. The interceptor size for silt and grease from laundries and laundromats is calculated using the following equation: Interceptor Size (in gallons) = M × C × F × T × S.
   a. "M" is the number of machines;
   b. "C" is the machine cycles per hour (assume 2);
   c. "F" is the waste flow rate from Table 1, Unit Design Flows;
   d. "T" is the estimated retention time (assume 2); and
   e. "S" is the estimated storage factor (assume 1.5 that allows for rock filter).

C. The applicant may calculate the size of an interceptor using different factor values than those given in subsections (B)(3) and (4) based on the values justified by the applicant in the Notice of Intent to Discharge submitted to the Department for the on-site wastewater treatment facility.

D. The Department may require installation of a sampling box if the volume or characteristics of the waste will impair the performance of the on-site wastewater treatment facility.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-A316. Transfer of Ownership Inspection for On-site Wastewater Treatment Facilities

A. Conforming with this Section satisfies the Notice of Transfer requirements under R18-9-A304.

B. Within six months before the date of property transfer, the person who is transferring a property served by an on-site wastewater treatment facility shall retain an inspector to perform a transfer of ownership inspection of the on-site wastewater treatment facility who meets the following qualifications:

1. Possesses working knowledge of the type of facility and the inspection process;
2. Holds a certificate of training from a course recognized by the Department as sufficiently covering the information specified in this Section by July 1, 2006; and
3. Holds a license in one of the following categories:
   a. An Arizona-registered engineer;
   b. An Arizona-registered sanitarian;
   c. An owner of a vehicle with a human excreta collection and transport license issued under 18 A.A.C. 13, Article 11 or an employee of the owner of the vehicle;
   d. A contractor licensed by the Registrar of Contractors in one of the following categories:
      i. Residential license B-4 or C-41;
      ii. Commercial license A, A-12, or L-41; or
      iii. Dual license KA or K-41;
   e. A wastewater treatment plant operator certified under 18 A.A.C 5, Article 1; or
   f. A person qualifying under another category designated by the Department.

C. The inspector shall complete a Report of Inspection on a form approved by the Department, sign it, and provide it to the person transferring the property. The Report of Inspection shall:

1. Address the physical and operational condition of the on-site wastewater treatment facility and describe observed deficiencies and repairs completed, if any;
2. Indicate that each septic tank or other wastewater treatment container on the property was pumped or otherwise serviced to remove, to the maximum extent possible, solid, floating, and liquid waste accumulations, or that pumping or servicing was not performed for one of the following reasons:
   a. A Discharge Authorization for the on-site wastewater treatment facility was issued and the facility was put into service within 12 months before the transfer of ownership inspection,
   b. Pumping or servicing was not necessary at the time of the inspection based on the manufacturer's written operation and maintenance instructions, or
   c. No accumulation of floating or settled waste was present in the septic tank or wastewater treatment container; and
3. Indicate the date the inspection was performed.

D. Before the property is transferred, the person transferring the property shall provide to the person to whom the property is transferred:

1. The completed Report of Inspection; and
2. Documents in the person's possession relating to permitting, operation, and maintenance of the on-site wastewater treatment facility.

E. The person to whom the property is transferred shall complete a Notice of Transfer on a form approved by the Department and send the form with the applicable fee specified in 18 A.A.C. 14 within 15 calendar days after the property transfer to:

1. The Department for transfer of a property with an on-site wastewater treatment facility for which construction was completed before January 1, 2001; or

2. The health or environmental agency delegated by the Director to administer the on-site wastewater treatment facility program for transfer of a property with an on-site wastewater treatment facility constructed on or after January 1, 2001.

F. If the Department issued a Discharge Authorization for the on-site wastewater treatment facility but the facility was not put into service before the property transfer, an inspection of the facility is not required and the transferee shall complete the Notice of Transfer form as specified in subsection (E).

G. Effective date.
1. The owner of an on-site wastewater treatment facility operating under a Type 4 General Permit shall comply with this Section by November 12, 2005.
2. The owner of any on-site wastewater treatment facility other than a facility identified in subsection (G)(1) shall comply with this Section by July 1, 2006.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2002 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A317. Nitrogen Management Area

A. The Director may designate a new Nitrogen Management Area to control groundwater pollution by sources of nitrogen regulated by Title 49, Chapter 2, Article 3 of the Arizona Revised Statutes and not covered under an individual permit, modify the boundaries or requirements of a Nitrogen Management Area, or rescind designation of a Nitrogen Management Area.
1. If existing conditions or trends in nitrogen loading to an aquifer will cause or contribute to an exceedance of the Aquifer Water Quality Standard for nitrate at a point or points of current or reasonably foreseeable use of the aquifer, the Director shall use the following criteria to determine whether to designate the area as a Nitrogen Management Area:
   a. Population of the area;
   b. The degree to which the area is unsewered;
   c. Gross areal nitrogen loading, calculated as the amount of nitrogen discharged into the subsurface by use of on-site wastewater treatment facilities, divided by the land area under consideration for designation as a Nitrogen Management Area;
   d. Population growth rate of area;
   e. Existing contamination of groundwater by nitrogen species;
   f. Existing and potential impact to groundwater by sources of nitrogen other than on-site wastewater treatment facilities;
   g. Characteristics of the vadose zone and aquifer;
   h. Location, number, and areal extent of existing and potential sources of nitrogen;
   i. Location and characteristics of existing and potential drinking water supplies; and
   j. Any other information relevant to determining the severity of actual or potential nitrogen impact on the aquifer.
2. The Director may modify the boundaries or requirements of a Nitrogen Management Area or rescind designation of a Nitrogen Management Area based on:
   a. A material change to one or more criterion specified in subsection (A)(1); or
   b. The adoption by a local agency of a master plan to substantially sewer the area as soon as possible, but with a completion deadline within 10 years, unless a completion deadline of more than 10 years is approved by the Director.

B. Preliminary designation, modification, or rescission.
1. The Director shall provide a report to the mayors and members of the Board of Supervisors of all towns, cities, and counties and the directors of all sanitary districts affected by the Department's proposed action to designate, modify, or rescind a Nitrogen Management Area as follows:
   a. If the Department proposes to designate a Nitrogen Management Area, the Department shall provide a report discussing each criterion specified in subsection (A)(1).
   b. If the Department proposes to modify the boundaries or requirements of a Nitrogen Management Area or rescind the designation of a Nitrogen Management Area, the Department shall provide a report discussing applicable criteria in subsections (A)(1) and (2).
2. The town, city, county, or sanitary district receiving the Director's report may provide written comments to the Department within 120 days to dispute the factual information presented in the report and supply any information supporting the comments.
3. The Director shall evaluate the comments and supporting information obtained under subsection (B)(2) and either designate, modify, or rescind the Nitrogen Management Area or withdraw the proposal.

C. Final designation.
1. If the Director designates or modifies the Nitrogen Management Area, the Department shall:
   a. Issue or modify the Nitrogen Management Area designation and any special provisions established for the area to control groundwater pollution by sources of nitrogen regulated by Title 49, Chapter 2, Article 3 of the Arizona Revised Statutes but not covered under an individual permit. The Department shall provide notice to the mayors and members of the Board of Supervisors of all towns, cities, and counties and the directors of all sanitary districts affected by the determination;
   b. Maintain the designation and a map showing the boundaries of the Nitrogen Management Area at the Arizona Department of Environmental Quality, 1110 West Washington, Phoenix, Arizona 85007 and on the Department's web site at www.azdeq.gov; and
   c. Provide, upon request, a copy of the Nitrogen Management Area designation and a map of the area.
2. If the Director withdraws the preliminary Nitrogen Management Area designation or rescinds the Nitrogen Management Area designation, the Director shall issue a determination stating the decision and post it on the Department's web site at www.azdeq.gov.

D. Nitrogen Management Area requirements. Within a Nitrogen Management Area:
1. The Department shall issue a Construction Authorization, under R18-9-A301(D)(1)(c), for an on-site wastewater treatment facility only if the applicant proposes, in the Notice of Intent to Discharge, to employ one or more of the technologies allowed under R18-9-E302 through R18-9-E322 that achieves a discharge level containing not more than 15 mg/l of total nitrogen.

2. An agricultural operation shall use the best control measure necessary to reduce nitrogen discharge when implementing the best management practices developed under 18 A.A.C. 9, Article 4. The Director may require the owner or operator to reassess the performance of the impoundment liner systems constructed under R18-9-403 before November 12, 2005.
3. A person shall comply with any special provision established for the Nitrogen Management Area, as applicable, for the person's facility.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART B. TYPE 1 GENERAL PERMITS

R18-9-B301. Type 1 General Permit

A. A 1.01 General Permit allows any discharge of wash water from a sand and gravel operation, placer mining operation, or other similar activity, including construction, foundation, and underground dewatering, if only physical processes are employed and only hazardous substances at naturally occurring concentrations in the sand, gravel, or other rock material are present in the discharge.

B. A 1.02 General Permit allows any discharge from hydrostatic tests of a drinking water distribution system and pipelines not previously used, if all the following conditions are met:
1. The quality of the water used for the test does not exceed an Aquifer Water Quality Standard or for non-drinking water pipelines, if reclaimed water is used, the reclaimed water meets Class A+ Reclaimed Water Quality Standards under A.A.C. R18-11-303 or Class B+ Reclaimed Water Quality Standards under A.A.C. R18-11-305;
2. The discharge is not to a water of the United States, unless the discharge is under an AZPDES permit; and
3. The test site is restored to its natural grade.

C. A 1.03 General Permit allows any discharge from hydrostatic tests of a pipeline, tank, or appurtenance previously used for transmission of fluid, other than those previously used for drinking water distribution systems, if all the following conditions are met:
1. All liquid discharge is contained in an impoundment lined with flexible geomembrane. The liquid is evaporated or removed from the impoundment and taken to a treatment works or landfill authorized to accept the material within:
   a. 60 days of the hydrostatic test if the liner is 10 mils, or
   b. 180 days of the hydrostatic test if the liner is 30 mils or greater;
2. The liner is placed over a layer, at least 3 inches thick, of well-sorted sand or finer grained material, or over an underliner that provides protection equal to or better than sand or finer grained material and the calculated seepage is less than 550 gallons per acre per day;
3. The liner is removed and disposed of at an approved landfill unless the liner can be reused at another test location without a reduction in integrity;
4. The test site is restored to its natural grade; and
5. If the test waters are removed using a method not specified in subsection (C)(1), including a discharge under an AZPDES permit, the test waters meet Aquifer Water Quality Standards and the specific method is approved by the Department before the discharge.

D. A 1.04 General Permit allows any discharge from a facility that, for water quality sampling, hydrologic parameter testing, well development, redevelopment, or potable water system maintenance and repair purposes, receives water, drilling fluids, or drill cuttings from a well if the discharge is to the same aquifer in approximately the same location from which the water supply was originally withdrawn, or the discharge is under an AZPDES permit.

E. A 1.05 General Permit allows a discharge to an injection well, surface impoundment, and leach line only if the discharge is filter backwash from a potable water treatment system, condensate from a refrigeration unit, overflows from an evaporative cooler, heat exchange system return water, or swimming pool filter backwash and the discharge is less than 1000 gallons per day. The 1.05 General Permit allows a discharge of those sources to a navigable water if the discharge is authorized by an AZPDES permit.

F. A 1.06 General Permit allows the burial of mining industry off-road motor vehicle waste tires at the mine site in a manner consistent with the cover requirements in R18-13-1203.

G. A 1.07 General Permit allows the operation of dockside facilities and watercraft if the following conditions are met:
1. Docks that service watercraft equipped with toilets provide sanitary facilities at dockside for the disposal of sewage from watercraft toilets. No wastewater from sinks, showers, laundries, baths, or other plumbing fixtures at a dockside facility is discharged into waters of the state;
2. Docks that service watercraft have conveniently located toilet facilities for men and women;
3. No boat, houseboat, or other type of watercraft is equipped with a marine toilet constructed and operated to discharge sewage directly or indirectly into a water of the state, nor is any container of sewage placed, left, discharged, or caused to be placed, left, or discharged in or near any waters of the state by a person;
4. Watercraft with marine toilets constructed to allow sewage to be discharged directly into waters of the state are locked and sealed to prevent usage. Chemical or other type marine toilets with approved storage containers are permitted if dockside disposal facilities are provided; and
5. No bilge water or wastewater from sinks, showers, laundries, baths, or other plumbing fixtures on houseboats or other watercraft is discharged into waters of the state.

H. A 1.08 General Permit allows for any earth pit privy, fixed or transportable chemical toilet, incinerator toilet or privy, or pail or can-type privy if allowed by a county health or environmental department under A.R.S. Title 36 or a delegation agreement under A.R.S. § 49-107.

I. A 1.09 General Permit allows:
1. The operation of:
   a. A sewage treatment facility with flows less than 20,000 gallons per day and approved by the Department before January 1, 2001, and
   b. An on-site wastewater treatment facility with flows less than 20,000 gallons per day operating before January 1, 2001;
2. The person who owns or operates a facility under subsections (I)(1)(a) or (b) to operate the facility if the following conditions are met:
   a. The discharge from the facility does not cause or contribute to a violation of a water quality standard;
   b. The owner or operator does not expand the facility to accommodate flows above the design flow or 20,000 gallons per day, whichever is less;

c. The facility only treats typical sewage;
d. The facility does not treat flows from commercial operations using hazardous substances or creating hazardous wastes, as defined in A.R.S. § 49-921(5);
e. The discharge from the facility does not create any environmental nuisance condition listed in A.R.S. § 49-141; or
f. The owner or operator does not alter the treatment or disposal characteristics of the original facility, except as allowed under R18-9-A309(A)(9)(a).

J. A 1.10 General Permit allows the operation of a sewage collection system installed before January 1, 2001 that serves downstream from the point where the daily design flow is 3000 gallons per day or that includes a manhole, force main, or lift station serving more than one dwelling regardless of flow, if:
1. The system complies with the performance standards in R18-9-E301(B),
2. No sewage is released from the sewage collection system to the land surface, and
3. The system is not operating under the 2.05 General Permit.

K. A 1.11 General Permit allows the operation of a sewage collection system that serves upstream from the point where the daily design flow is 3000 gallons per day to the building drains, or a single gravity sewer line conveying sewage from a building drain directly to an interceptor, lateral, or manhole, regardless of daily design flow, if all of the following are met:
1. The system does not cause or contribute to an exceedance of a water quality standard established in 18 A.A.C. 11, Articles 1 and 4;
2. No sewage is released from the sewage collection system to the land surface;
3. No environmental nuisance condition listed in A.R.S. § 49-141 is created;
4. The system does not include a manhole, force main, or lift station serving more than one dwelling;
5. Applicable local administrative requirements for review and approval of design and construction are followed;
6. The performance standards specified in R18-9-E301(B) are met using:
   a. Local building and construction codes,
   b. Relevant design and construction standards specified in R18-9-E301, and
   c. Appropriate operation and maintenance;
7. The system flows directly into one of the following downstream facilities:
   a. An on-site wastewater treatment facility;
   b. A sewage treatment facility operating under an individual permit; or
   c. A sewage collection system operating under a 1.10, 2.05, or 4.01 General Permit; and
8. The system is not operating under a 2.05 General Permit.

L. A 1.12 General Permit allows the discharge of wastewater resulting from washing concrete from trucks, pumps, and ancillary equipment to an impoundment if the following conditions are met:
1. The person holds an AZPDES Construction General Permit authorizing the concrete washout activities;
2. The Stormwater Pollution Prevention Plan required by the Construction General Permit issued according to 18 A.A.C. 9, Article 9, Part C, for the construction activity addresses the concrete washout activities;
3. The vegetation at the soil base of the impoundment is cleared, grubbed, and compacted to uniform density not less than 95 percent. If the impoundment is located above grade, the berms or dikes are compacted to a uniform density not less than 95 percent;
4. If groundwater is less than 20 feet below land surface, the impoundment is lined with a synthetic liner at least 30 mils thick;
5. The impoundment is located at least 50 feet from any storm drain inlet, open drainage facility, or watercourse and 100 feet from any water supply well;
6. The impoundment is designed and operated to maintain adequate freeboard to prevent overflow or discharge of wastewater;
7. The concrete washout wastewater from any wash pad is routed to the impoundment;
8. The impoundment receives only concrete washout wastewater;
9. The annual average daily flow of wastewater to the impoundment is less than 3000 gallons per day; and
10. The following closure requirements are met.
    a. The facility is closed by removing and appropriately disposing of any liquids remaining in the impoundment,
    b. The area is graded to prevent ponding of water, and
    c. Closure activities are completed before filing of the Notice of Termination under the AZPDES Construction General Permit.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART C. TYPE 2 GENERAL PERMITS

R18-9-C301. 2.01 General Permit: Drywells That Drain Areas Where Hazardous Substances Are Used, Stored, Loaded, or Treated

A. A 2.01 General Permit allows for a drywell that drains an area where hazardous substances are used, stored, loaded, or treated.

B. Notice of Intent to Discharge. In addition to the requirements in R18-9-A301(B), an applicant shall submit:
1. The Department registration number for the drywell or documentation that a drywell registration form was submitted to the Department;
2. For a drywell constructed more than 90 days before submitting the Notice of Intent to Discharge to the Department, a certification signed, dated, and sealed by an Arizona-registered professional engineer or geologist that a site investigation has concluded that:
   a. Analytical results from sampling the drywell settling chamber sediment for pollutants reasonably expected to be present do not exceed either the residential soil remediation levels or the groundwater protection levels;
   b. The settling chamber does not contain sediments that could be used to characterize and compare results to soil remediation levels and the chamber has not been cleaned out within the last six months;
   c. Neither a soil remediation level nor groundwater protection level is exceeded in soil samples collected from a boring drilled within 5 feet of the drywell and sampled in 5-foot increments starting from 5 feet

below ground surface and extending to 10 feet below the base of the drywell injection pipe; or

d. If coarse grained lithology prevents the collection of representative soil samples in a soil boring, a groundwater investigation demonstrates compliance with Aquifer Water Quality Standards in groundwater at the applicable point of compliance;

3. Design information to demonstrate that the requirements in subsection (C) are satisfied; and
4. A copy of the Best Management Practices Plan described in subsection (D)(5).

C. Design requirements. An applicant shall:

1. Locate the drywell no closer than 100 feet from a water supply well and 20 feet from an underground storage tank;
2. Clearly mark the drywell "Stormwater Only" on the surface grate or manhole cover;
3. Locate the bottom of the drywell hole at least 10 feet above groundwater. If during drilling and well installation the drywell borehole encounters saturated conditions, the applicant shall backfill the borehole with cement grout to at least 10 feet above the elevation of saturated conditions before constructing the drywell in the borehole;
4. Ensure that the drywell design or drainage area design includes a method to remove, intercept, or collect pollutants that may be present at the operation with the potential to reach the drywell. The applicant may include a flow control or pretreatment device, such as an interceptor, sump, or another device or structure designed to remove, intercept, or collect pollutants. The applicant may use flow control or pretreatment devices listed under R18-9-C304(D)(1) or (2) to satisfy the design requirements of this subsection;
5. Record the accurate latitude and longitude of the drywell using a Global Positioning System device or site survey; and
6. Develop and maintain a current site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns, the location of floor drains and French drains plumbed to the drywell, water supply wells, monitor wells, underground storage tanks, and chemical and waste usage, storage, loading, and treatment areas.

D. Operational and maintenance requirements.

1. A permittee shall operate the drywell only for the disposal of stormwater. The permittee shall not release industrial process waters or wastes in the drywell or drywell retention basin drainage area.
2. The permittee shall implement a Best Management Practices Plan for operation of the drywell and control of pollutants in the drywell drainage area.
3. The permittee shall keep the Best Management Practices Plan on-site or at the closest practical place of work and provide the plan to the Department upon request.
4. The permittee may substitute any Spill Prevention Containment and Control Plan, facility response plan, or an AZPDES Stormwater Pollution Prevention Plan that meets the requirements of this subsection for a Best Management Practices Plan. If the permittee submits a substitute for the Best Management Practices Plan, the permittee shall identify the conditions within the substitute plan that satisfy the requirements of subsection (D).
5. The Best Management Practices Plan shall include:
   a. A site plan showing surface drainage patterns and the location of floor drains, water supply, monitor wells, underground storage tanks, and chemical and waste usage, storage, loading, and treatment areas. The site plan shall show surface grading details designed to prevent drainage and spills of hazardous substances from leaving the drainage area and entering the drywell;
   b. A design plan showing details of drywell design and drainage design, including flow control or pretreatment devices, such as interceptors, sumps, and other devices and structures designed to remove, intercept, and collect any pollutant that may be present at the operation with the potential to reach the drywell;
   c. Procedures to prevent and contain spills and minimize discharges to the drywell;
   d. Operational practices that include routine inspection and maintenance of the drywell and associated pretreatment and flow-control devices, periodic inspection of waste storage facilities, and proper handling of hazardous substances to prevent discharges to the drywell. Routine inspection and maintenance shall include:
      i. Replacing the adsorbent material in the skimmers, if installed, when the adsorbent capacity is reached;
      ii. Maintaining valves and associated piping for a drywell injection and treatment system;
      iii. Maintaining magnetic caps and mats, if installed;
      iv. Removing sludge from the oil/water separator, if installed, and replacing the filtration or adsorption material to maintain treatment capacity;
      v. Removing sediment from the catch basin inlet filters and retention basin to maintain required storage capacity; and
   e. Procedures for periodic employee training on practices required by the Best Management Practices Plan specific to the drywell and prevention of unauthorized discharges.
6. The permittee shall implement waste management practices to prohibit and prevent discharges, other than those exempted in A.R.S. § 49-250(B)(23), in the drywell drainage area, including:
   a. Maintaining an up-to-date inventory of generated wastes and waste products;
   b. Disposing or recycling all wastes or solvents through a company licensed to handle the material;
   c. Where possible, collecting and storing waste in waste receptacles located outside the drywell drainage area. If the permittee collects and stores the waste within the drywell drainage area, the permittee shall collect and store the waste in properly designed receptacles; and
   d. Using a licensed waste hauler to transport waste offsite to a permitted waste disposal facility.

E. Inspection. A permittee shall:

1. Conduct an annual inspection of the drywell for sediment accumulation in the chambers and the flow-control and treatment systems, and remove sediment annually or when 25 percent of the effective capacity is filled, whichever comes first, to restore capacity and ensure that the drywell functions properly. The permittee shall character-

ize the sediments that are removed from the drywell after inspection and dispose of the sediments according to local, state, and federal requirements; and

2. If the stormwater fails to drain through the drywell within 36 hours, inspect the treatment system and piping to ensure that the treatment system is functioning properly, make repairs, and perform maintenance as needed to restore proper function.

F. Recordkeeping. A permittee shall maintain for at least 10 years, the following documents on-site or at the closest place of work and make the documents available to the Department upon request:

1. Documentation of drywell maintenance, inspections, employee training, and sampling activities;
2. A site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns and the location of floor drains or French drains that are plumbed to the drywell or are used to alter drainage patterns, the location of water supply wells, monitor wells, underground storage tanks, and places where hazardous substances are used, stored, or loaded;
3. A design plan showing details of drywell design and drainage design, including any flow control and pretreatment technologies;
4. An operations and maintenance manual that includes:
   a. Procedures to prevent and contain spills and minimize any discharge to the drywell and a list of actions and methods proposed to prevent and contain hazardous substance spills or leaks;
   b. Methods and procedures for inspection, operation, and maintenance activities;
   c. Procedures for spill response; and
   d. A description of the employee training program for drywell inspections, operations, maintenance, and waste management practices;
5. Drywell sediment waste characteristics and disposal manifest records for sediments removed during routine inspections and maintenance activities; and
6. Sampling plans, certified laboratory reports, and chain of custody forms for soil, sediment, and groundwater sampling associated with drywell site investigations.

G. Spills.

1. In the event of a spill, the permittee shall:
   a. Notify the Department within 24 hours of any spill of hazardous or toxic substance that enters the drywell inlet;
   b. Contain, clean up, and dispose of, according to local, state, and federal requirements, any spill or leak of a hazardous substance in the drywell drainage area and basin drainage area;
   c. If a pretreatment system is present, verify that treatment capacity has not been exceeded; and
   d. If the spill reaches the drywell injection pipe, drill a soil boring within 5 feet of the drywell inlet chamber and sample the soil in 5-foot increments from 5 feet below ground surface to a depth extending at least 10 feet below the base of the injection pipe to determine whether a soil remediation level or groundwater protection level has been exceeded in the subsurface. The permittee shall:
      i. Submit the results to the Department within 60 days of the date of the spill; and
      ii. Notify the Department if soil contamination at the facility, not related to the spill, is being addressed by an existing approved remedial action plan.
2. Based on the results of subsection (G)(1)(d), the Director may require the permittee to submit an application for clean closure or an individual Aquifer Protection Permit.

H. Closure and decommissioning requirements.

1. A permittee shall:
   a. Retain a drywell drilling contractor, licensed under 4 A.A.C. 9, to close the drywell;
   b. Remove sediments and any drainage component, such as standpipes and screens from the drywell's settling chamber and backfill the injection pipe with cement grout;
   c. Remove the settling chamber;
   d. Backfill the settling chamber excavation to the land surface with clean silt, clay, or engineered material. Materials containing hazardous substances are prohibited from use in backfilling the drywell; and
   e. Mechanically compact the backfill.
2. Within 30 days of closure and decommissioning, the permittee shall submit a written verification to the Department that all material that contributed to a discharge has been removed and any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance has been eliminated to the greatest degree practical. The written verification shall specify:
   a. The reason for the closure;
   b. The drywell registration number;
   c. The general permit reference number;
   d. The materials and methods used to close the drywell;
   e. The name of the contractor who performed the closure;
   f. The completion date;
   g. Any sampling data;
   h. Sump construction details, if a sump was constructed to replace the abandoned drywell; and
   i. Any other information necessary to verify that closure has been achieved.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C302. 2.02 General Permit: Intermediate Stockpiles at Mining Sites

A. A 2.02 General Permit allows for intermediate stockpiles not qualifying as inert material under A.R.S. § 49-201(19) at a mining site.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge under R18-9-A301(B), an applicant shall submit the construction and operation specifications used to satisfy the requirements in subsection (C)(1).

C. Design and operational requirements.

1. An applicant shall design, construct, and operate the stockpile so that it does not impound water. An applicant may rely on stormwater run-on controls or facility design features, such as drains, or both.

2. An applicant shall direct storm runoff contacting the stockpile to a mine pit or a facility covered by an individual or general permit.
3. A permittee shall maintain any engineered feature of the facility in good working condition.
4. A permittee shall visually inspect the facility at least quarterly and repair any defect as soon as practical.
5. A permittee shall not add hazardous substances to the stockpiled material.

D. Closure requirements. In addition to the closure requirements in R18-9-A306, the following apply:
1. If an intermediate stockpile covered under a 2.02 General Permit is permanently closed, a permittee shall remove any remaining material, to the greatest extent practical, and regrade the area to prevent impoundment of water.
2. The permittee shall submit a narrative description of closure measures to the Department within 30 days after closure.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C303. 2.03 General Permit: Hydrologic Tracer Studies

A. A 2.03 General Permit allows for a discharge caused by the performance of tracer studies.
1. The 2.03 General Permit does not authorize the use of any hazardous substance, radioactive material, or any substance identified in A.R.S. § 49-243(I) in a tracer study.
2. A permittee shall complete a single tracer test within two years of the Notice of Intent to Discharge.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. A narrative description of the tracer test including the type and amount of tracer used;
2. A Material Safety Data Sheet for the tracer; and
3. Unless the injection or distribution is within the capture zone of an established passive containment system meeting the requirements of A.R.S. § 49-243(G), the following information:
   a. A narrative description of the impacts that may occur if a solution migrates outside the test area, including a list of downgradient users, if any;
   b. The anticipated effects and expected concentrations, if possible to calculate; and
   c. A description of the monitoring, including types of tests and frequency.

C. Design and operational requirements. A permittee shall:
1. Ensure that injection into a well inside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G) does not exceed the total depth of the influence of the hydrologic sink;
2. Ensure that injection into a well outside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G) does not exceed rock fracture pressures during injection of the tracer;
3. Not add a substance to a well that is not compatible with the well's construction;
4. Ensure that a tracer is compatible with the construction materials at the impoundment if a tracer is placed or collected in an existing impoundment;
5. For at least two years, monitor quarterly a well that is hydraulically downgradient of the test site for the tracer if a tracer is used outside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G) and less than 85 percent of the tracer is recovered. The permittee may adjust this period with the consent of the Department if the permittee shows that the hydraulic gradient causes the tracer to reach the monitoring point in a shorter or longer period of time;
6. Ensure that a tracer does not leave the site in concentrations distinguishable from background water quality; and
7. Monitor the amount of tracer used and recovered and submit a report summarizing the test and results to the Department within 30 calendar days of test completion.

D. Recordkeeping. A permittee shall retain the following information at the site where the facility is located for at least three years after test completion and make it available to the Department upon request.
1. Test protocols,
2. Material Safety Data Sheet information,
3. Recovery records, and
4. A copy of the report submitted to the Department under subsection (C)(7).

E. Closure requirements.
1. If a tracer was used outside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G), a permittee shall account for any tracer not recovered through attenuation, modeling, or monitoring.
2. The permittee shall achieve closure immediately following the test, or if the test area is within a pollutant management area defined in an individual permit, at the conclusion of operations.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C304. 2.04 General Permit: Drywells that Drain Areas at Motor Fuel Dispensing Facilities Where Motor Fuels are Used, Stored, or Loaded

A. A 2.04 General Permit allows for a drywell that drains an area at a facility for dispensing motor fuel, as defined in A.A.C. R20-2-701(19), including a commercial gasoline station with an underground storage tank.
1. A drywell at a motor fuel dispensing facility using hazardous substances is eligible for coverage under the 2.04 General Permit.
2. A drywell at a vehicle maintenance facility owned or operated by a commercial enterprise or by a federal, state, county, or local government is not eligible for coverage under this general permit, unless the facility design ensures that only motor fuel dispensing areas will drain to the drywell. Areas where hazardous substances other than motor fuels are used, stored, or loaded, including service bays, are not covered under the 2.04 General Permit.
3. Definition. For purposes of this Section, "hazardous substances" means substances that are components of commercially packaged automotive supplies, such as motor oil, antifreeze, and routine cleaning supplies such as those

used for cleaning windshields, but not degreasers, engine cleaners, or similar products.

B. Notice of Intent to Discharge. In addition to the requirements in R18-9-A301(B), an applicant shall submit:

1. The Department registration number for the drywell or documentation that a drywell registration form was submitted to the Department;
2. For a drywell constructed more than 90 days before submitting the Notice of Intent to Discharge to the Department, a certification signed, dated, and sealed by an Arizona-registered professional engineer or geologist that a site investigation concluded that:
   a. Analytical results from sampling sediment from the drywell settling chamber sediment for pollutants reasonably expected to be present do not exceed either the residential soil remediation levels or the groundwater protection levels;
   b. The settling chamber does not contain sediment that could be used to characterize and compare results to soil remediation levels and the chamber has not been cleaned out within the last six months;
   c. Neither a soil remediation level nor groundwater protection level is exceeded in soil samples collected from a boring drilled within 5 feet of the drywell and sampled in 5 foot increments starting at a depth of 5 feet below ground surface and extending to a depth of 10 feet below the base of the drywell injection pipe; or
   d. If coarse grained lithology prevents the collection of soil samples in a soil boring, a groundwater investigation demonstrates compliance with Aquifer Water Quality Standards in groundwater at the applicable point of compliance.
3. Design information to demonstrate that the requirements in subsection (C) are satisfied.

C. Design requirements.

1. An applicant shall:
   a. Include a flow control or pretreatment device identified in subsections (D)(1) or (2), or both, that removes, intercepts, or collects spilled motor fuel or hazardous substances before stormwater enters the drywell injection pipe;
   b. Calculate the volume of runoff generated in the design storm event and anticipate the maximum potential contaminant release quantity to design the treatment and holding capacity of the drywell;
   c. Follow local codes and regulations to meet retention periods for removing standing water;
   d. Locate the drywell at least 100 feet from a water supply well and 20 feet from an underground storage tank;
   e. Locate the bottom of the drywell injection pipe at least 10 feet above groundwater. If during drilling and well installation the drywell borehole encounters saturated conditions, the applicant shall backfill the borehole with cement grout to a level at least 10 feet above the elevation at which saturated conditions were encountered in the borehole before constructing the drywell in the borehole;
   f. Record the accurate latitude and longitude of the drywell using a Global Positioning System device or site survey and record the location on the site plans;
   g. Clearly mark the drywell "Stormwater Only" on the surface grate or manhole cover;
   h. Develop and maintain a current site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns and the location of floor drains and French drains that are plumbed to the drywell or are used to alter drainage patterns, water supply wells, monitor wells, underground storage tanks, and chemical and waste usage, storage, loading, and treatment areas; and
   i. Prepare design plans showing details of drywell design and drainage design, including one or a combination of pre-approved technologies described in subsections (D)(1) and (2) designed to remove, intercept, and collect any pollutant that may be present at the operation with the potential to reach the drywell.
2. For an existing drywell, an applicant that cannot meet the design requirements in subsections (C)(1)(d) and (e) shall provide the Department with the date of drywell construction, the depth of the drywell borehole and injection pipe, the distance from the drywell to the nearest water supply well and from the drywell to the underground storage tank, and the depth to the groundwater from the bottom of the drywell injection pipe.

D. Flow control and pretreatment. A permittee shall ensure that motor fuels and other hazardous substances are not discharged to the subsurface. A permittee may use any of the following flow control or pretreatment technologies:

1. Flow control. The permittee shall ensure that motor fuel and hazardous substance spills are removed before allowing stormwater to enter the drywell.
   a. Normally closed manual or automatic valve. The permittee shall leave a normally closed valve in a closed position except when stormwater is allowed to enter the drywell;
   b. Raised drywell inlet. The permittee shall:
      i. Raise the drywell inlet at least six inches above the bottom of the retention basin or other storage structure, or install a six-inch asphalt or concrete raised barrier encircling the drywell inlet to provide a non-draining storage capacity within the retention basin or storage structure for complete containment of a spill; and
      ii. Ensure that the storage capacity is at least 110 percent of the volume of the design storm event required by the local jurisdiction and the estimated volume of a potential motor fuel spill based on the facility's past incident reports or incident reports for other facilities that are similar in design;
   c. Magnetic mat or cap. The permittee shall ensure that the drywell inlet is sealed with a mat or cap at all times, except after rainfall or a storm event when the mat or cap is temporarily removed to allow stormwater to enter the drywell; and that the mat or cap is always used with a retention basin or other type of storage;
   d. Primary sump, interceptor, or settling chamber. The permittee may use a primary sump, interceptor, or settling chamber only in combination with another flow control or pre-treatment technology.
      i. The permittee shall remove motor fuel or hazardous substances from the sump, interceptor,

or chamber before allowing stormwater to enter the drywell.

ii. The permittee shall install a settling chamber or sump and allow the suspended solids to settle before stormwater flows into a drywell; install the drywell injection pipe in a separate chamber and connect the sump, interceptor, or chamber to the drywell inlet by piping and valving to allow the stormwater to enter the drywell.

iii. The permittee may install fuel hydrocarbon detection sensors in the sump, interceptor, or settling chamber that use flow control to prevent fuel from discharging into the drywell;

2. Pretreatment. The permittee shall prevent the bypass of motor fuels and hazardous substances from the pretreatment system to the drywell during periods of high flow.

a. Catch basin inlet filter. The permittee shall:

i. Install a catch basin inlet filter to fit inside a catchment drain to prevent motor fuels and hazardous substances from entering the drywell,

ii. Ensure that a motor fuel spill or a spill during a high rainfall does not bypass the system and directly release to the drywell injection pipe, and

iii. Combine the catch basin inlet filter with a flow control technology to prevent contaminated stormwater from entering the drywell injection pipe;

b. Combined settling chamber and an oil/water separator.

i. The permittee shall install a system that incorporates a catch basin inlet, a settling chamber, and an oil/water separator.

ii. The permittee may incorporate a self-sealing mechanism, such as fuel hydrocarbon detection sensors that activate a valve to cut off flow to the drywell inlet.

c. Combined settling chamber and oil/water separator, and filter/adsorption. The permittee shall:

i. Allow for adequate collection and treatment capacity for solid and liquid separation; and

ii. Allow a minimum treated outflow from the system to the drywell inlet of 20 gallons per minute. If a higher outflow rate is anticipated, the applicant shall design a larger collection system with storage capacity.

d. Passive skimmer.

i. If a passive skimmer is used, the permittee shall install sufficient hydrocarbon adsorbent materials, such as pads and socks, or suspend the materials on top of the static water level in a sump or other catchment to absorb the entire volume of expected or potential spill.

ii. The permittee may use a passive skimmer only in combination with another flow control or pre-treatment technology.

E. Operation and maintenance. A permittee shall:

1. Operate the drywell only for the subsurface disposal of stormwater;
2. Remove or treat any motor fuel or hazardous substance spills;
3. Replace the adsorbent material in skimmers, if installed; when the adsorbent capacity is reached;
4. Maintain valves and associated piping;
5. Maintain magnetic caps and mats, if installed;
6. Remove sludge from the oil/water separator and replace the filtration or adsorption materials to maintain treatment capacity;
7. Remove sediment from the catch basin inlet filters and retention basins to maintain required storage capacity;
8. Remove accumulated sediment from the settling chamber annually or when 25 percent of the effective settling capacity is filled, whichever occurs first; and
9. Provide new employee training within one month of hire and annual employee training on how to maintain and operate flow control and pretreatment technology used in the drywell.

F. Inspection. A permittee shall:

1. Conduct an annual inspection of the drywell for sediment accumulation in the chambers and in the flow control and treatment systems to ensure that the drywell is functioning properly; and
2. If the stormwater fails to drain through the drywell within 36 hours, inspect the treatment system and piping to ensure that it is functioning properly, make repairs, and perform maintenance as needed to restore proper function.

G. Recordkeeping. A permittee shall maintain, for at least 10 years, the following documents on-site or at the closest place of work and make the documents available to the Department upon request:

1. Documentation of drywell maintenance, inspections, employee training, and sampling activities;
2. A site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns and the location of floor drains or French drains that are plumbed to the drywell or are used to alter drainage patterns, water supply wells, monitor wells, underground storage tanks, and places where motor fuel and hazardous substances are used, stored, or loaded;
3. A design plan showing details of drywell design and drainage design, including one or a combination of the pre-approved flow control and pretreatment technologies;
4. An operations and maintenance manual that includes:
   a. Procedures to prevent and contain spills and minimize any discharge to the drywell and a list of actions and specific methods proposed for motor fuel and hazardous substance spills or leaks;
   b. Methods and procedures for inspection, operation, and maintenance activities;
   c. Procedures for spill response; and
   d. A description of the employee training program for drywell inspections, operations, and maintenance;
5. Drywell sediment waste characterization and disposal manifest records for sediments removed during routine inspections and maintenance activities; and
6. Sampling plans, certified laboratory reports, and chain of custody forms for soil, sediment, and groundwater sampling associated with drywell site investigations.

H. Spills.

1. In the event of a spill, a permittee shall:
   a. Notify the Department within 24 hours of any spill of motor fuel or hazardous or toxic substances that enters into the drywell inlet;
   b. Contain, clean up, and dispose of, according to local, state, and federal requirements, any spill or leak of

motor fuel or hazardous substance in the drywell drainage area and basin drainage area;

c. If a pretreatment system is present, verify that treatment capacity has not been exceeded; and

d. If the spill reaches the injection pipe, drill a soil boring within 5 feet of the drywell inlet chamber and sample in 5-foot increments from 5 feet below ground surface to a depth extending at least 10 feet below the base of the injection pipe to determine whether a soil remediation level or groundwater protection level has been exceeded in the subsurface. The permittee shall:

i. Submit the results to the Department within 60 days of the date of the spill; and

ii. Notify the Department if soil contamination at the facility, not related to the spill, is being addressed by an existing approved remedial action plan.

2. The Director may, based on the results of subsection (H)(1)(d), require the permittee to submit an application for clean closure or an individual Aquifer Protection Permit.

I. Closure and decommissioning requirements.

1. A permittee shall:
   a. Retain a drywell drilling contractor, licensed under 4 A.A.C. 9, to close the drywell;
   b. Remove sediments and any drainage component, such as standpipes and screens from the drywell's settling chamber and backfill the injection pipe with cement grout;
   c. Remove the settling chamber;
   d. Backfill the settling chamber excavation to the land surface with clean silt, clay, or engineered material. A permittee shall not use materials containing hazardous substances in backfilling the drywell; and
   e. Mechanically compact the backfill.
2. Within 30 days of closure and decommissioning, the permittee shall submit a written verification to the Department that all material that contributed to a discharge has been removed and any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance has been eliminated to the greatest degree practical. The written verification shall specify:
   a. The reason for the closure;
   b. The drywell registration number;
   c. The general permit reference number;
   d. The materials and methods used to close the drywell;
   e. The name of the contractor who performed the closure;
   f. The completion date;
   g. Any sampling data;
   h. Sump construction details, if a sump was constructed to replace the abandoned drywell; and
   i. Any other information necessary to verify that closure has been achieved.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 4096, effective September 15, 2002 (Supp. 02-3). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C305. 2.05 General Permit: Capacity, Management, Operation, and Maintenance of a Sewage Collection System

A. Definition. For purposes of this Section, "imminent and substantial threat to public health or the environment" means when:

1. The volume of a release is more than 2000 gallons; or
2. The volume of a release is more than 50 gallons but less than 2000 gallons and any one of the following apply:
   a. The release entered onto a recognized public area and members of the public were present during the release or before the release was mitigated;
   b. The release occurred on a public or private street and pedestrians were at risk of being splashed by vehicles during the release or before the release was mitigated;
   c. The release entered a perennial stream, an intermittent stream during a time of flow, a waterbody other than an ephemeral stream, a normally dry detention or sedimentation basin, or a drywell;
   d. The release occurred within an occupied building due to a condition in the permitted sewage collection system; or
   e. The release occurred within 100 feet of a school or a public or private drinking water supply well.

B. A 2.05 General Permit allows a permittee to manage, operate, and maintain a sewage collection system under the terms of a CMOM Plan that complies with subsection (D). The Department considers a sewage collection system operating in compliance with an AZPDES permit that incorporates provisions for capacity, management, operation, and maintenance of the system to comply with the provisions of the 2.05 General Permit regardless of whether a Notice of Intent to Discharge for the system was submitted to the Department.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:

1. The name and ownership of any downstream sewage collection system and sewage treatment facility that receives sewage from the applicant's sewage collection system;
2. A map of the service area for which general permit coverage is sought, showing streets and sewage service boundaries for the sewage collection system;
3. A statement indicating that the CMOM Plan is in effect and the principal officer or ranking elected official of the sewage collection system has approved the plan; and
4. A statement indicating whether a local ordinance requires an on-site wastewater treatment facility to hookup to the sewage collection system.

D. CMOM Plan.

1. A permittee shall continuously implement a CMOM Plan for the sewage collection system under the permittee's ownership, management, or operational control. The CMOM Plan shall include information to comply with subsection (E)(1) and instructions on:
   a. How to properly manage, operate, and maintain all parts of the sewage collection system that are owned or managed by the permittee or under the permittee's operational control, to meet the performance requirements in R18-9-E301(B);
   b. How to maintain sufficient capacity to convey the base flows and peak wet weather flow of a 10-year, 24-hour storm event for all parts of the collection system owned or managed by the permittee or under the permittee's operational control;

c. All reasonable and prudent steps to minimize infiltration to the sewage collection system;
d. All reasonable and prudent steps to stop all releases from the collection system owned or managed by the permittee or under the permittee's operational control; and
e. The procedure for reporting releases described in subsection (F).

2. The permittee shall maintain and update the CMOM Plan for the duration of this general permit and make it available for Department and public review.
3. If the Department requests the CMOM Plan and upon review finds that the CMOM Plan is deficient, the Department shall:
a. Notify the permittee in writing of the specific deficiency and the reason for the deficiency, and
b. Establish a deadline of at least 60 days to allow the permittee to correct the deficiency and submit the amended provision to the Department for approval.

E. Sewage release response determination. If the sewage collection system releases sewage, the Director shall consider any of the following factors in determining compliance:
1. Sufficiency of the CMOM Plan.
a. The level of detail provided by the CMOM Plan is appropriate for the size, complexity, and age of the system;
b. The level of detail provided by the CMOM Plan is appropriate considering geographic, climatic, and hydrological factors that may influence the sewage collection system;
c. The CMOM Plan provides schedules for the periodic preventative maintenance of the sewage collection system, including cleaning of all reaches of the sewage collection system below a specified pipe diameter.
i. The CMOM Plan may allow inspection of sewer lines by Closed Circuit Television (CCTV) and postponement of cleaning to the next scheduled cleaning cycle if the CCTV inspection indicated that cleaning of a reach of the sewer is not needed.
ii. The CMOM Plan may specify inspection and cleaning schedules that differ according to pipe diameter or other characteristics of the sewer;
d. The CMOM Plan identifies components of the sewage collection system that have insufficient capacity to convey, when properly maintained, the peak wet weather flow of a 10-year, 24-hour storm event. For those identified components, a capital improvement plan exists for achieving sufficient wet weather flow capacity within ten years of the effective date of permit coverage;
e. The CMOM Plan includes an overflow emergency response plan appropriate to the size, complexity, and age of the sewage collection system considering geographic, climatic, and hydrological factors that may influence the system;
f. The CMOM Plan establishes a procedure to investigate and enforce against any commercial or industrial entity whose flows to the sewage collection system have caused or contributed to a release;
g. The CMOM Plan adequately addresses management of flows from upstream sewage collection systems not under the ownership, management, or operational control of the permittee; or
h. Any other factor necessary to determine if the CMOM Plan is sufficient;

2. Compliance with the CMOM Plan.
a. The permittee's response to releases as established in the overflow emergency response plan, including whether:
i. Maintenance staff responds to and arrive at the release within the time period specified in the plan;
ii. Maintenance staff follow all written procedures to remove the cause of the release;
iii. Maintenance staff contain, recover, clean up, disinfect, and otherwise mitigate the release of sewage; and
iv. Required notifications to the Department, public health agencies, drinking water suppliers, and the public are provided;
b. The permittee's activities and timeliness in:
i. Implementing specified periodic preventative maintenance measures;
ii. Implementing the capital improvement plan; and
iii. Investigating and enforcing against an upstream sewage collection system, not under the ownership and operational control of the permittee, if those systems are impediments to the proper management of flows in the permittee's sewage collection system; or
c. Any other factor necessary to determine CMOM Plan compliance;

3. Compliance with the reporting requirements in subsection (F) and the public notice requirements in subsection (G); or
4. The release substantially endangers public health or the environment.

F. Reporting requirements.
1. Sewage releases.
a. A permittee shall report to the Department, by telephone, facsimile, or on the applicable notification form on the Department's Internet web site, any release that is an imminent and substantial threat to public health or the environment as soon as practical, but no later than 24 hours of becoming aware of the release.
b. A permittee shall submit a report to the Department within five business days after becoming aware of a release that is an imminent and substantial threat to public health or the environment. The report shall include:
i. The location of the release;
ii. The sewage collection system component from which the release occurred;
iii. The date and time the release began, was stopped, and when mitigation efforts were completed;
iv. The estimated number of persons exposed to the release, the estimated volume of sewage released, the reason the release is considered an imminent and substantial threat to public health or the environment if the volume is 2000 gallons or less, and where the release flowed;

v. The efforts made by the permittee to stop, contain, and clean up the released material;
vi. The amount and type of disinfectant applied to mitigate any associated public health or environmental risk; and
vii. The cause of the release or effort made to determine the cause and any effort made to help prevent a future reoccurrence.

2. Annual report. The permittee shall:
   a. Submit an annual report to the Department postmarked no later than March 1. The report shall:
      i. Tabulate all releases of more than 50 gallons from the permitted sewage collection system;
      ii. Provide the date of any release that is an imminent and substantial threat to public health or the environment; and
      iii. For other reportable releases under subsection (F)(2)(a)(i), provide the information in subsection (F)(1)(b);
   b. Provide an amended map of the service area boundaries if, during the calendar year, any area was removed from the service area or if any area was added to the service area that the permittee wishes to include under the 2.05 General Permit and associated CMOM Plan.

G. Public notice. The permittee shall:
1. Post a notice, in a format approved by the Department, at any location where there were more than three reportable releases under subsection (F)(2)(a) from the sewage collection system during any 12-month period,
2. Include within the notice a warning that identified the releases or potential releases at the location and potential health hazards from any release,
3. Post the notice at a place where the public is likely to come in contact with the release, and
4. Maintain the postings until no releases from the location are reported for at least 12 months from the last release and the permittee followed all actions specified in the CMOM Plan to prevent releases at that location during the period.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C306. 2.06 General Permit: Fish Hatchery Discharge to a Perennial Surface Water

A. A 2.06 General Permit allows a fish hatchery to discharge to a perennial surface water if Aquifer Water Quality Standards are met at the point of discharge and the fish hatchery is operating under a valid AZPDES permit.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall provide:
1. The applicable AZPDES permit number;
2. A description of the facility; and
3. A laboratory report characterizing the wastewater discharge, including the analytical results for all numeric Aquifer Water Quality Standards under R18-11-406.

C. Design and operational requirements. An applicant shall:
1. Collect a representative sample of the discharge to demonstrate compliance with all numeric Aquifer Water Quality Standards and make the results available to the Department upon request, and
2. Maintain a record of the average and daily flow rates and make it available to the Department upon request.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART D. TYPE 3 GENERAL PERMITS

R18-9-D301. 3.01 General Permit: Lined Impoundments

A. A 3.01 General Permit allows a lined surface impoundment and a lined secondary containment structure. A permittee shall:
1. Ensure that inflow to the lined surface impoundment or lined secondary containment structure does not contain organic pollutants identified in A.R.S. § 49-243(I);
2. Ensure that inflow to the lined surface impoundment or lined secondary containment structure is from one or more of the following sources:
   a. Evaporative cooler overflow, condensate from a refrigeration unit, or swimming pool filter backwash;
   b. Wastewater that does not contain sewage, temporarily stored for short periods of time due to process upsets or rainfall events, provided the wastewater is promptly removed from the facility as required under subsection (D)(5). Facilities that continually contain wastewater as a normal function of facility operations are not covered under this general permit;
   c. Stormwater runoff that is not permitted under A.R.S. § 49-245.01 because the facility does not receive solely stormwater or because the runoff is regulated but not considered stormwater under the Clean Water Act;
   d. Emergency fire event water;
   e. Wastewater from air pollution control devices at asphalt plants if the wastewater is routed through a sedimentation trap or sump and an oil/water separator before discharge;
   f. Non-contact cooling tower blowdown and non-contact cooling water, except discharges from electric generating stations with more than 100 megawatts generating capacity;
   g. Boiler blowdown;
   h. Wastewater derived from a potable water treatment system, including clarification sludge, filtration backwash, lime and lime-softening sludge, ion exchange backwash, and reverse osmosis spent waste;
   i. Wastewater from food washing;
   j. Heat exchanger return water;
   k. Wastewater from industrial laundries;
   l. Hydrostatic test water from a pipeline, tank, or appurtenance previously used for transmission of fluid;
   m. Wastewater treated through an oil/water separator before discharge; and
   n. Cooling water or wastewater from food processing.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. A listing and description of all sources of inflow;
2. A representative chemical analysis of each expected source of inflow. If a sample is not available before facility construction, a permittee shall provide the chemical

analysis of each inflow to the Department within 60 days of each inflow to the facility;

3. A narrative description of how the conditions of this general permit are satisfied. The narrative shall include a Quality Assurance/Quality Control program for liner installation, impoundment maintenance and repair, and impoundment operational procedures; and
4. A contingency plan that specifies actions proposed in case of an accidental release from the facility, overtopping of the impoundment, breach of the berm, or unauthorized inflows into the impoundment or containment structure.

C. Design and installation requirements. An applicant shall:

1. Design and construct surface water controls to:
   a. Ensure that the impoundment or secondary containment structure maintains, using design volume or mechanical systems, normal operating volumes, if any, and any inflow from the 100-year, 24-hour storm event. The facility shall maintain at least 2 feet of freeboard or an alternative level of freeboard that the applicant demonstrates is reasonable, considering the size of the impoundment and meteorologic and other site-specific factors; and
   b. Direct any surface water run-on from the 100-year 24-hour storm event around the facility if not intended for capture by facility;
2. Ensure that the facility design accommodates any significant geologic hazard, addressing static and seismic stability. The applicant shall document any design adjustments made for this reason in the Notice of Intent to Discharge;
3. Ensure that site preparation includes, as appropriate, clearing the area of vegetation, grubbing, grading, and embankment and subgrade preparation. The applicant shall ensure that supporting surface slopes and foundation are stable and structurally sound; and
4. Comply with the following impoundment lining requirements:
   a. If a synthetic liner is used, ensure that the liner is at least a 30-mil geomembrane liner or a 60-mil liner if High Density Polyethylene, or an alternative, that the liner's calculated seepage rate is less than 550 gallons per acre per day, and:
      i. Anchor the liner by securing it in an engineered anchor trench;
      ii. Ensure that the liner is ultraviolet resistant if it is regularly exposed to sunlight; and
      iii. Ensure that the liner is constructed of a material that is chemically compatible with the wastewater or impounded solution and is not affected by corrosion or degradation;
   b. If a soil liner is used:
      i. Ensure that it resists swelling, shrinkage, and cracking and that the liner's calculated seepage rate is less than 550 gallons per acre per day;
      ii. Ensure that the soil is at least 1-foot thick and compacted to a uniform density of 95 percent to meet the "Standard Test Method for Laboratory Compaction Characteristics of Soil Using Standard Effect (12,400 ft-lbf/ft^3), D698-00ae1," (2000) published by the American Society for Testing and Materials. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959; and
      iii. Upon installation, protect the soil liner to prevent desiccation; and
   c. For new facilities, develop and implement a construction Quality Assurance/Quality Control program that addresses site and subgrade preparation, inspection procedures, field testing, laboratory testing, and final inspection after construction of the liner to ensure functional integrity.

D. Operational requirements. A permittee shall:

1. Maintain sufficient freeboard to manage the 100-year, 24-hour storm event including at least 2 feet of freeboard under normal operating conditions. Management of the 100-year, 24-hour storm event may be through design, pumping, or a combination of both;
2. Remove accumulated residues, sediments, debris, and vegetation to maintain the integrity of the liner and the design capacity of the impoundment;
3. Perform and document a visual inspection for damage to the liner and for accumulation of residual material at least monthly. The operator shall conduct an inspection within 72 hours after the facility receives a significant volume of stormwater inflow;
4. Repair damage to the liner by following the Quality Assurance/Quality Control Plan required under subsection (B)(3); and
5. Remove all inflow from the impoundment as soon as practical, but no later than 60 days after a temporary event, for facilities designed to contain inflow only for temporary events, such as process upsets.

E. Recordkeeping. A permittee shall maintain at the site, the following information for at least 10 years and make it available to the Department upon request:

1. Construction drawings and as-built plans, if available;
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure;
3. Capacity design criteria;
4. A list of standard operating procedures;
5. The construction Quality Assurance/Quality Control program documentation; and
6. Records of any inflow into the impoundment other than those permitted by this Section.

F. Reporting requirements.

1. If the liner leaks, as evidenced by a drop in water level not attributable to evaporation, or if the berm breaches or an impoundment is overtopped due to a catastrophic or other significant event, the permittee shall report the circumstance to the Department within five days of discovery and implement the contingency plan required in subsection (B)(4). The permittee shall submit a final report to the Department within 60 days of the event summarizing the circumstances of the problem and corrective actions taken.
2. The permittee shall report unauthorized flows into the impoundment to the Department within five days of discovery and implement the contingency plan required in subsection (B)(4).

G. Closure requirements. The permittee shall notify the Department of the intent to close the facility permanently. Within 90 days following closure notification the permittee shall comply with the following requirements, as applicable:
1. Remove liquids and any solid residue on the liner and dispose appropriately;
2. Inspect the liner for evidence of holes, tears, or defective seams that could have leaked;
3. If evidence of leakage is discovered, remove the liner in the area of suspected leakage and sample potentially impacted soil. If soil remediation levels are exceeded, the permittee shall define the lateral and vertical extent of contamination and, within 60 days of the exceedance, notify the Department and submit an action plan for achieving clean closure for the Department's approval before implementing the plan;
4. If there is no evidence of holes, tears, or defective seams that could have leaked:
   a. Cover the liner in place or remove it for disposal or reuse if the impoundment is an excavated impoundment,
   b. Remove and dispose of the liner elsewhere if the impoundment is bermed, and
   c. Grade the facility to prevent the impoundment of water; and
5. Notify the Department within 60 days following closure that the action plan was implemented and the closure is complete.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D302. 3.02 General Permit: Process Water Discharges from Water Treatment Facilities

A. A 3.02 General Permit allows filtration backwash and discharges obtained from sedimentation and coagulation in the water treatment process from facilities that treat water for industrial process or potable uses. The permittee shall ensure that:
1. Liquid fraction. The discharge meets:
   a. All numeric Aquifer Water Quality Standards for inorganic chemicals, organic chemicals, and pesticides established in R18-11-406(B) through (D);
   b. The discharge meets one of the following criteria for microbiological contaminants:
      i. Either the concentration of fecal coliform organisms is not more than 2/100 ml or the concentration of *E. coli* bacteria is not more than 1/100 ml, or
      ii. Either the concentration of fecal coliform organisms is less than 200/100 ml or the concentration of *E. coli* bacteria is less than 126/100 ml if the average daily flow processed by the water treatment facility is less than 250,000 gallons; and
2. Solid Fraction. The solid material in the discharge qualifies as inert material, as defined in A.R.S. § 49-201(19).

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. A characterization of the discharge, including a representative chemical and biological analysis of expected discharges and all source waters; and
2. The design capacity of any impoundment covered by this general permit.

C. Impoundment design and siting requirements. An applicant shall:
1. Ensure that the depth to the static groundwater table is greater than 20 feet;
2. Not locate the area of discharge immediately above karstic or fractured bedrock, unless the discharge meets the microbial limits specified in subsection (A)(1)(b)(i);
3. Maintain a minimum horizontal setback of 100 feet between the facility and any water supply well;
4. Design and construct an impoundment to maintain, using design volume or mechanical systems, normal operating volumes and any inflow from the 100-year, 24-hour storm event. The applicant shall:
   a. Divert any surface water run-on from the 100-year, 24-hour storm event around the facility if not intended for capture by facility design; and
   b. Design the facility to maintain 2 feet of freeboard or an alternative level of freeboard that the applicant demonstrates is reasonable, considering meteorological factors, the size of the impoundment, and other site-specific factors; or
   c. Discharge to surface water under the conditions of an AZPDES permit; and
5. Manage off-site disposal of sludge according to A.R.S. Title 49, Chapter 4.

D. Operational requirements.
1. Inorganic chemical, organic chemical, and pesticide monitoring.
   a. The permittee shall monitor any discharge annually to determine compliance with the requirements of subsection (A).
   b. If the concentration of any pollutant exceeds the numeric Aquifer Water Quality Standard, the permittee shall submit a report to the Department with a proposal for mitigation and shall increase monitoring frequency for that pollutant to quarterly.
   c. If, in the quarterly sampling, the condition in subsection (D)(1)(b) continues for two consecutive quarters, the permittee shall submit an application for an individual permit.
2. Microbiological contaminant monitoring.
   a. The permittee shall monitor any discharge annually to determine compliance with the requirements of subsection (A)(1)(b).
   b. If the concentration of any pollutant exceeds the limits established in subsection (A)(1)(b), the permittee shall submit a report to the Department with a proposal for mitigation and increase monitoring frequency for that pollutant to monthly.
   c. If, in the monthly sampling, the condition in subsection (D)(2)(b) continues for three consecutive months, the permittee shall submit an application for an individual permit.

E. Recordkeeping. A permittee shall maintain at the site, the following information, if applicable for the disposal method, for at least 10 years, and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available;

2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure;
3. Water quality data collected under subsection (D);
4. Standard operating procedures; and
5. Records of any discharge other than those identified under subsection (B).

F. Reporting requirements. The permittee shall:
1. Report unauthorized flows into the impoundment to the Department within five days of discovery, and
2. Submit the report required in subsections (D)(1)(b) or (2)(b) within 30 days of receiving the analytical results.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D303. 3.03 General Permit: Vehicle and Equipment Washes

A. A 3.03 General Permit allows a facility to discharge water from washing vehicle exteriors and vehicle equipment. The 3.03 General Permit does not authorize:
1. Discharge water that typically results from the washing of vehicle engines unless the discharge is to a lined surface impoundment;
2. Direct discharges of sanitary sewage, vehicle lubricating oils, antifreeze, gasoline, paints, varnishes, solvents, pesticides, or fertilizers;
3. Discharges resulting from washing the interior of vessels used to transport fuel products or chemicals, or washing equipment contaminated with fuel products or chemicals; or
4. Discharges resulting from washing the interior of vehicles used to transport mining concentrates that originate from the same mine site, unless the discharge is to a lined surface impoundment.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit a narrative description of the facility and a design of the disposal system and wash operations.

C. Design, installation, and testing requirements. An applicant shall:
1. Design and construct the wash pad:
   a. To drain and route wash water to a sump or similar sediment-settling structure and an oil/water separator or a comparable pretreatment technology;
   b. Of concrete or material chemically compatible with the wash water and its constituents; and
   c. To support the maximum weight of the vehicle or equipment being washed with an appropriate safety factor;
2. Not use unlined ditches or natural channels to convey wash water;
3. Ensure that a surface impoundment meets the requirements in R18-9-D301(C)(1) through (3). The applicant shall ensure that berms or dikes at the impoundment can withstand wave action erosion and are compacted to a uniform density not less than 95 percent;
4. Ensure that a surface impoundment required for wash water described in subsection (A)(1) meets the design and installation requirements in R18-9-D301(C);
5. If wash water is received by an unlined surface impoundment or engineered subsurface disposal system, the applicant shall:
   a. Ensure that the annual daily average flow is less than 3000 gallons per day;
   b. Maintain a minimum horizontal setback of 100 feet between the impoundment or subsurface disposal system and any water supply well;
   c. Ensure that the bottom of the surface impoundment or subsurface disposal system is at least 50 feet above the static groundwater level and the intervening material does not consist of karstic or fractured bedrock;
   d. Ensure that the wash water receives primary treatment before discharge through, at a minimum, a sump or similar structure for settling sediments or solids and an oil/water separator or a comparable pretreatment technology designed to reduce oil and grease in the wastewater to 15 mg/l or less;
   e. Withdraw the separated oil from the oil/water separator using equipment such as adjustable skimmers, automatic pump-out systems, or level sensing systems to signal manual pump-out; and
   f. If a subsurface disposal system is used, design the system to prevent surfacing of the wash water.

D. Operational requirements. The permittee shall:
1. Inspect the oil/water separator before operation to ensure that there are no leaks and that the oil/water separator is in operable condition;
2. Inspect the entire facility at least quarterly. The inspection shall, at a minimum, consist of a visual examination of the wash pad, the sump or similar structure, the oil/water separator, and all surface impoundments;
3. Visually inspect each surface impoundment at least monthly, to ensure the volume of wash water is maintained within the design capacity and freeboard limitation;
4. Repair damage to the integrity of the wash pad or impoundment liner as soon as practical;
5. Maintain the oil/water separator to achieve the operational performance of the separator;
6. Remove accumulated sediments in all surface impoundments to maintain design capacity; and
7. Use best management practices to minimize the introduction of chemicals not typically associated with the wash operations. Only biodegradable surfactant or soaps are allowed. The permittee shall not use products that contain chemicals in concentrations likely to cause a violation of an Aquifer Water Quality Standard at the applicable point of compliance.

E. Monitoring requirements.
1. If wash water is discharged to an unlined surface impoundment or other area for subsurface disposal, the permittee shall monitor the wash water quarterly at the point of discharge for pH and for the presence of C_{10} through C_{32} hydrocarbons using a Department of Health Services certified method.
2. If pH is not between 6.0 and 9.0 or the concentration of C_{10} through C_{32} hydrocarbons exceeds 50 mg/l, the permittee shall, within 30 days of the monitorings, submit a report to the Department with a proposal for mitigation and shall increase monitoring frequency to monthly.

3. If the condition in subsection (E)(2) persists for three consecutive months, the permittee shall submit, within 90 days, an application for an individual permit.

F. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available;
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure; and
3. The Material Safety Data Sheets for the chemicals used in the wash operations and any required monitoring results.

G. Closure requirements. A permittee shall comply with the closure requirements specified in R18-9-D301(G) if a liner has been used. If no liner is used the permittee shall remove and appropriately dispose of any liquids and grade the facility to prevent impoundment of water.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D304. 3.04 General Permit: Non-Stormwater Impoundments at Mining Sites

A. A 3.04 General Permit allows discharges to lined surface impoundments, lined secondary containment structures, and associated lined conveyance systems at mining sites.
1. The following discharges are allowed under the 3.04 General Permit:
   a. Seepage from tailing impoundments, unleached rock piles, or process areas;
   b. Process solution temporarily stored for short periods of time due to process upsets or rainfall, provided the solution is promptly removed from the facility as required under subsection (D);
   c. Stormwater runoff not permitted under A.R.S. § 49-245.01 because the facility does not receive solely stormwater or because the runoff is regulated but not considered stormwater under the Clean Water Act; and
   d. Wash water specific to sand and gravel operations not covered by R18-9-B301(A).
2. Facilities that continually contain process solution as a normal function of facility operations are not eligible for coverage under the 3.04 General Permit. If a normal process solution contains a pollutant regulated under A.R.S. § 49-243(I) the 3.04 General Permit does not apply if the pollutant will compromise the integrity of the liner.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. A description of the sources of inflow to the facility. An applicant shall include a representative chemical analysis of expected sources of inflow to the facility unless a sample is not available, before facility construction, in which case the applicant shall provide a chemical analysis of solution present in the facility to the Department within 90 days after the solution first enters the facility;
2. Documentation demonstrating that the facility design and operation under subsections (C) and (D) have been reviewed by a mining engineer or an Arizona-registered professional engineer before submission to the Department; and
3. A contingency plan that specifies actions proposed in case of an accidental release from the facility, overtopping of the impoundment, breach of the berm, or unauthorized inflows into the impoundment or containment structure.

C. Design, construction, and installation requirements. An applicant shall:
1. Design and construct the impoundment or secondary containment structure as specified under R18-9-D301(C)(1);
2. Ensure that conveyance systems are capable of handling the peak flow from the 100-year storm;
3. Construct the liner as specified in R18-9-D301(C)(4)(a);
4. Develop and implement a Quality Assurance/Quality Control program that meets or exceeds the liner manufacturer's guidelines. The program shall address site and subgrade preparation, inspection procedures, field testing, laboratory testing, repair of seams during installation, and final inspection of the completed liner for functional integrity;
5. If the facility is located in the 100-year flood plain, design the facility so it is protected from damage or flooding as a result of a 100-year, 24-hour storm event;
6. Design and manage the facility so groundwater does not come into contact with the liner;
7. Ensure that the facility design addresses any significant geologic hazard relating to static and seismic stability. The applicant shall document any design adjustments made for this reason in the Notice of Intent to Discharge;
8. Ensure that the site preparation includes, as appropriate, clearing the area of vegetation, grubbing, grading, and embankment and subgrade preparation. The applicant shall ensure that supporting surface slopes and foundation are stable and structurally sound;
9. Ensure that the liner is anchored by being secured in an engineered anchor trench. If regularly exposed to sunlight, the applicant shall ensure that the liner is ultraviolet resistant; and
10. Use compacted clay subgrade in areas with shallow groundwater conditions.

D. Operational requirements. The permittee shall:
1. Maintain the freeboard required in subsection (C)(1) through design, pumping, or both;
2. Remove accumulated residues, sediments, debris, and vegetation to maintain the integrity of the liner and the design capacity of the impoundment;
3. Perform and document a visual inspection for cracks, tears, perforations and residual build-up at least monthly. The operator shall conduct and document an inspection after the facility receives significant volumes of stormwater inflow;
4. Report cracks, tears, and perforations in the liner to the Department, and repair them as soon as practical, but no later than 60 days under normal operating conditions, after discovery of the crack, tear, or perforation;
5. For facilities that temporarily contain a process solution due to process upsets, remove the process solution from the facility as soon as practical, but no later than 60 days after cessation of the upset; and
6. For facilities that temporarily contain a process solution due to rainfall, remove the process solution from the facility as soon as practical.

E. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:

1. Construction drawings and as-built plans, if available;
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results and facility closure;
3. Capacity design criteria;
4. A list of standard operating procedures;
5. The Quality Assurance/Quality Control program required under subsection (C)(4); and
6. Records of any unauthorized flows into the impoundment.

F. Reporting requirements.
1. If the liner is breached, as evidenced by a drop in water level not attributable to evaporation, or if the impoundment breaches or is overtopped due to a catastrophic or other significant event, the permittee shall report the circumstance to the Department within five days of discovery and implement the contingency plan required in subsection (B)(3). The permittee shall submit a final report to the Department within 60 days of the event summarizing the circumstances of the problem and corrective actions taken.
2. The permittee shall report unauthorized flows into the impoundment to the Department within five days of discovery and implement the contingency plan required in subsection (B)(3).

G. Closure requirements.
1. The permittee shall notify the Department of the intent to close the facility permanently.
2. Within 90 days following closure notification the permittee shall comply with the following requirements, as applicable:
   a. Remove liquids and any solid residue on the liner and dispose appropriately;
   b. Inspect the liner for evidence of holes, tears, or defective seams that could have leaked;
   c. If evidence of leakage is discovered, remove the liner in the area of suspected leakage and sample potentially impacted soil. If soil remediation levels are exceeded, the permittee shall, within 60 days notify the Department and submit an action plan for the Department's approval before implementing the plan;
   d. If there is no evidence of holes, tears, or defective seams that could have leaked:
      i. Cover the liner in place or remove it for disposal or reuse if the impoundment is an excavated impoundment,
      ii. Remove and dispose of the liner elsewhere if the impoundment is bermed, and
      iii. Grade the facility to prevent the impoundment of water; and
3. Notify the Department within 60 days following closure that the action plan has been implemented and the closure is complete.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D305. 3.05 General Permit: Disposal Wetlands

A. A 3.05 General Permit allows discharges of reclaimed water into constructed or natural wetlands, including waters of the United States, waters of the state, and riparian areas, for disposal. This general permit does not apply if the purpose of the wetlands is to provide treatment.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit the name and individual permit number of the facility providing the reclaimed water.

C. Design requirements. An applicant shall:
1. Ensure that the reclaimed water released into the wetland meets numeric and narrative Aquifer Water Quality Standards for all parameters except for coliform bacteria and is Class A+ reclaimed water. A+ reclaimed water is wastewater that has undergone secondary treatment established under R18-9-B204(B)(1), filtration, and meets a total nitrogen concentration under R18-9-B204(B)(3) and fecal coliform limits under R18-9-B204(B)(4);
2. Maintain a minimum horizontal separation of 100 feet between any water supply well and the maximum wetted area of the wetland;
3. Post signs at points of access and every 250 feet along the perimeter of the wetland stating, "CAUTION. THESE WETLANDS CONTAIN RECLAIMED WATER. DO NOT DRINK." The applicant shall ensure that the signs are in English and Spanish, or in English with inclusion of the international "do not drink" symbol; and
4. Ensure that wetland siting is consistent with local zoning and land use requirements.

D. Operational requirements.
1. A permittee shall manage the wetland to minimize vector problems.
2. The permittee shall submit to the Department and implement a Best Management Practices Plan for operation of the wetland. The Best Management Practices Plan shall include:
   a. A site plan showing the wetland footprint, point of inflow, stormwater drainage, and placement of vegetation;
   b. Management of flows into and through the wetland to minimize erosion and damage to vegetation;
   c. Management of visitation and use of the wetlands by the public;
   d. A management plan for vector control;
   e. A plan or criteria for enhancing or supplementing of wetland vegetation; and
   f. Management of shallow groundwater conditions on existing on-site wastewater treatment facilities.
3. The permittee shall perform quarterly inspections to review bank integrity, erosion evidence, the condition of signage and vegetation, and correct any problem noted.

E. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available; and
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure.

F. Reporting requirements. The permittee shall, by January 30, provide the Department in writing with an annual assessment of the biological condition of the wetland, including the volume of inflow to the wetland in the past year.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by

final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D306. 3.06 General Permit: Constructed Wetlands to Treat Acid Rock Drainage at Mining Sites

A. A 3.06 General Permit allows the operation of constructed wetlands that receive, with the intent to treat, acid rock drainage from a closed facility.

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit a design, including information on the quality of the influent, the treatment process to be used, the expected quality of the wastewater, and the nutrients and other constituents that will indicate wetland performance.

C. Design, construction, and installation. An applicant shall:
1. Ensure that:
   a. Water released into the treatment wetland is compatible with construction materials and vegetation;
   b. Water released from the treatment wetland:
      i. Meets numeric Aquifer Water Quality Standards,
      ii. Has a pH between 6.0 and 9.0, and
      iii. Has a sulfate concentration less than 1000 mg/l; and
   c. Water released from the treatment wetland complies with and is released under an individual permit and an AZPDES Permit, if required;
2. Construct the treatment wetland with a liner, using a low-hydraulic conductivity synthetic liner, site-specific liner, or both, to achieve a calculated seepage rate of less than 550 gallons per acre per day. The applicant shall:
   a. Ensure that, if a synthetic liner is used, such as geomembrane, the liner is underlain by at least 6 inches of prepared and compacted subgrade;
   b. Anchor the liner along the perimeter of the treatment wetland; and
   c. Manage the plants in the treatment wetland to prevent species with root penetration that impairs liner performance;
3. Design the treatment wetland for optimum:
   a. Sizing appropriate for the anticipated treatment,
   b. Cell configuration,
   c. Vegetative species composition, and
   d. Berm configuration;
4. Construct and locate the treatment wetland so that it:
   a. Maintains physical integrity during a 100-year, 24-hour storm event; and
   b. Operates properly during a 25-year, 24-hour storm event;
5. Ensure that the bottom of the treatment wetland is at least 20 feet above the seasonal high groundwater table; and
6. If public access to the treatment wetland is anticipated or encouraged, post signs at points of access and every 250 feet along the perimeter of the treatment wetland stating, "CAUTION. THESE WETLANDS CONTAIN MINE DRAINAGE WATER. DO NOT DRINK." The permittee shall ensure that the signs are in English and Spanish, or in English with inclusion of the international "do not drink" symbol.

D. Operational requirements.
1. The permittee shall monitor the water leaving the treatment wetlands at least quarterly for the standards specified in subsection (C)(1)(b). Monitoring shall include nutrients or other constituents used as indicators of treatment wetland performance.
2. The permittee shall submit to the Department and implement a Best Management Practices Plan for operation of the treatment wetland. The Best Management Practices Plan shall include:
   a. A site plan showing the treatment wetland footprint, point of inflow, stormwater drainage, and placement of vegetation;
   b. A contingency plan to address problems, including treatment performance, wash-out and vegetation die-off, and a plan to apply for an individual permit if the treatment wetland is unable to achieve the treatment standards in subsection (C)(1)(b) on a continued basis;
   c. Management of flows into and through the treatment wetland to minimize erosion and damage to vegetation;
   d. A description of the measures for restricting access to the treatment wetlands by the public;
   e. A management plan for vector control; and
   f. A plan or criteria for enhancing or supplementing treatment wetland vegetation.
3. The permittee shall perform quarterly inspections to review the bank and liner integrity, erosion evidence, and the condition of signage and vegetation, and correct any problems noted.

E. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available; and
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure.

F. Reporting requirements.
1. If preliminary laboratory results indicate that the quality of the water leaving the treatment wetlands does not meet the standards specified in subsection (C)(1)(b), the permittee may request that the laboratory re-analyze the sample before reporting the results to the Department. The permittee shall:
   a. Conduct verification sampling within 15 days of receiving final laboratory results,
   b. Conduct verification sampling only for parameters that are present in concentrations greater than the standards specified in subsection (C)(1)(b), and
   c. Notify the Department in writing within five days of receiving final laboratory results.
2. If the final laboratory result confirms that the quality of the water leaving the treatment wetlands does not meet the standards in subsection (C)(1)(b), the permittee shall implement the contingency plan required by subsection (D)(2)(b) and notify the Department that the plan is being implemented.
3. The permittee shall, by January 30, provide the Department in writing with an annual assessment of the biological condition of the treatment wetland, including the volume of inflow to the treatment wetland in the past year.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by

final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D307. 3.07 General Permit: Tertiary Treatment Wetlands

A. A 3.07 General Permit allows constructed wetlands that receive with the intent to treat, discharges of reclaimed water that meet the secondary treatment level requirements specified in R18-9-B204(B)(1).

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. The name and individual permit number of any facility that provides the reclaimed water to the treatment wetland;
2. The name and individual permit number of any facility that receives water released from the treatment wetland;
3. The design of the treatment wetland construction and management project, including information on the quality of the influent, the treatment process, and the expected quality of the wastewater;
4. A Best Management Practices Plan that includes:
   a. A site plan showing the treatment wetland footprint, point of inflow, stormwater drainage, and placement of vegetation;
   b. A contingency plan to address any problem, including treatment performance, wash-out, and vegetation die-off;
   c. A management plan for flows into and through the treatment wetland to minimize erosion and damage to vegetation;
   d. A description of the measures for restricting access to the treatment wetlands by the public;
   e. A management plan for vector control; and
   f. A plan or criteria for enhancing or supplementing treatment wetland vegetation.

C. Design requirements. An applicant shall:
1. Release water from the treatment wetland under an individual permit and an AZPDES permit, if required. The applicant shall release water from the treatment wetland only to a direct reuse site if the site is permitted to receive reclaimed water of the quality generated under the individual permit specified in subsection (B)(1);
2. Construct and locate the treatment wetland so that it:
   a. Maintains physical integrity during a 100-year, 24-hour storm event; and
   b. Operates properly during a 25-year, 24-hour storm event;
3. Ensure that the bottom of the treatment wetland is at least 20 feet above the seasonal high groundwater table;
4. Maintain a minimum horizontal separation of 100 feet between a water supply well and the maximum wetted area of the treatment wetland;
5. Maintain the setbacks specified in R18-9-B201(I) for no noise, odor, or aesthetic controls between the property boundary at the site and the maximum wetted area of the treatment wetland;
6. Fence the treatment wetland area to prevent unauthorized access;
7. Post signs at points of access stating "CAUTION. THESE WETLANDS CONTAIN RECLAIMED WATER, DO NOT DRINK." The applicant shall ensure that the signs are in English and Spanish, or in English with inclusion of the international "do not drink" symbol;
8. Construct the treatment wetland with a liner using low hydraulic conductivity liner, site-specific liner, or both, to achieve a calculated seepage rate of less than 550 gallons per acre per day. The applicant shall:
   a. Ensure that if a synthetic liner is used, such as geomembrane, the liner is underlain by at least 6 inches of prepared and compacted subgrade;
   b. Anchor the liner along the perimeter of the treatment wetland; and
   c. Manage the plants in the treatment wetland to prevent species with root penetration that impairs liner performance;
9. Calculate the size and depth of the treatment wetland so that the rate of flow allows adequate treatment detention time. The applicant shall design the treatment wetland with at least two parallel treatment cells to allow for efficient system operation and maintenance;
10. Ensure that the treatment wetland vegetation includes cattails, bulrush, common reed, or other species of plants with high pollutant treatment potential to achieve the intended water quality identified in subsection (B)(3); and
11. Ensure that construction and operation of the treatment wetlands is consistent with local zoning and land use requirements.

D. Operational requirements. The permittee shall:
1. Implement the Best Management Practices Plan approved under subsection (B);
2. Monitor wastewater leaving the treatment wetland to ensure that discharge water quality meets the expected wastewater quality specified in subsection (B)(3). The permittee shall ensure that analyses of wastewater samples are conducted by a laboratory certified by the Department of Health Services, following the Department's Quality Assurance/Quality Control requirements;
3. Follow the prescribed measures as required in the contingency plan under subsection (B)(4)(b) and submit a written report to the Department within five days if verification sampling demonstrates that an alert level or discharge limit is exceeded;
4. Inspect the treatment wetlands at least quarterly for bank and liner integrity, erosion evidence, and condition of signage and vegetation, and correct any problem discovered; and
5. Ensure that the treatment wetland is operated by a certified operator under 18 A.A.C. 5, Article 1.

E. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available; and
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure.

F. Reporting requirements. The permittee shall, by January 30, provide the Department in writing with an annual assessment of the biological condition of the treatment wetland including the volume of inflow to the treatment wetland in the past year.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART E. TYPE 4 GENERAL PERMITS

R18-9-E301. 4.01 General Permit: Sewage Collection Systems

A. A 4.01 General Permit allows for construction and operation of a new sewage collection system or expansion of an existing sewage collection system involving new construction as follows:
1. A sewage collection system or portion of a sewage collection system that serves downstream from the point where the daily design flow is 3000 gallons per day based on Table 1, Unit Design Flows, except a gravity sewer line conveying sewage from a single building drain directly to an interceptor, collector sewer, lateral, or manhole regardless of daily design flow;
2. A sewage collection system that includes a manhole; or
3. A sewage collection system that includes a force main or lift station serving more than one dwelling.

B. Performance. An applicant shall design, construct, and operate a sewage collection system so that the sewage collection system:
1. Provides adequate wastewater flow capacity for the planned service area;
2. Minimizes sedimentation, blockage, and erosion through maintenance of proper flow velocities throughout the system;
3. Prevents releases of sewage to the land surface through appropriate sizing, capacities, and inflow and infiltration prevention measures throughout the system;
4. Protects water quality through minimization of exfiltration losses from the system;
5. Provides for adequate inspection, maintenance, testing, visibility, and accessibility;
6. Maintains system structural integrity; and
7. Minimizes septic conditions in the sewage collection system.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit the following information:
1. A statement on a form approved by the Director, signed by the owner or operator of the sewage treatment facility that treats or processes the sewage from the proposed sewage collection system.
   a. The statement shall affirm that the additional volume of wastewater delivered to the facility by the proposed sewage collection system will not cause any flow or effluent quality limits of the individual permit for the facility to be exceeded.
   b. If the facility is classified as a groundwater protection permit facility under A.R.S. § 49-241.01(C), or if no flow or effluent limits are applicable, the statement shall affirm that the design flow of the facility will not be exceeded;
2. If the proposed sewage collection system delivers wastewater to a downstream sewage collection system under different ownership or control, a statement on a form approved by the Director, signed by the owner or operator of the downstream sewage collection system, affirming that the downstream system can maintain the performance required by subsection (B) when receiving the increased flows;
3. A general site plan showing the boundaries and key aspects of the project;
4. Construction quality drawings that provide overall details of the site and the engineered works comprising the project including:
   a. The plans and profiles for all sewer lines, manholes, force mains, depressed sewers, and lift stations with sufficient detail to allow Department verification of design and performance characteristics;
   b. Relevant cross sections showing construction details and elevations of key components of the sewage collection system to allow Department verification of design and performance characteristics, including the slope of each gravity sewer segment stated as a percentage; and
   c. Drainage features and controls, and erosion protection as applicable, for the components of the project; and
   d. Horizontal and vertical location of utilities within the area affected by the sewer line construction;
5. Documentation of design flows for significant components of the sewage collection system and the basis for calculating the design flows;
6. Drawings, reports, and other information that are clear, reproducible, and in a size and format specified by the Department. The applicant may submit the drawings in a Department-approved electronic format; and
7. Design documents, including plans, specifications, drawings, reports, and calculations that are signed, dated, and sealed by an Arizona-registered professional engineer. The designer shall use good engineering judgment by following engineering standards of practice, and rely on appropriate engineering methods, calculations, and guidance.

D. Design requirements.
1. General Provisions. An applicant shall design and construct a new sewage collection system or an expansion of an existing sewage collection system involving new construction, according to the requirements of this general permit. An applicant shall:
   a. Base design flows for components of the system on unit flows specified in Table 1, Unit Design Flows.
   b. Design gravity sewer lines and all other sewage collection system components, including, manholes, force mains, lift stations, depressed sewers, and appurtenant devices and structures to accommodate maximum sewage flows as follows:
      i. Any point in a sewer main when flowing full can accommodate a peak wet weather flow calculated by multiplying the sum of the upstream sources of flow from Table 1, Unit Design Flows by a dry weather peaking factor based on upstream population, as tabulated below, and adding a wet weather infiltration and inflow rate based on either a percentage of peak dry weather flow or a gallons per acre rate of flow;

Upstream Population	Dry Weather Peaking Factor
100	3.62
200	3.14
300	2.90
400	2.74
500	2.64
600	2.56

700	2.50
800	2.46
900	2.42
1000	2.38
1001 to 10,000	$PF = (6.330 \times p^{-0.231}) + 1.094$
10,001 to 100,000	$PF = (6.177 \times p^{-0.233}) + 1.128$
More than 100,000	$PF = (4.500 \times p^{-0.174}) + 0.945$
PF = Dry Weather Peaking Factor p = Upstream Population	

ii. For a lift station serving less than 600 single family dwelling units (d.u.), use either of the following methods to size the pumps for peak dry weather flow in gallons per minute and add an allowance for wet weather flow and infiltration:

(1) Peak dry weather flow = 17 $d.u.^{0.42}$, or

(2) Peak dry weather flow = 11.2 $(population)^{0.42}$

iii. If justified by the applicant, the Department may accept lower unit flow values in the served area due to significant use of low-flow fixtures, hydrographs of actual flows, or other factors;

c. Use the "Uniform Standard Specifications for Public Works Construction" (revisions through 2004) and the "Uniform Standard Details for Public Works Construction" (revisions through 2004) published by the Maricopa Association of Governments, and the "Standard Specifications for Public Improvements," (2003 Edition), and "Standard Details for Public Improvements," (2003 Edition), published jointly by Pima County Wastewater Management and the City of Tucson, as the applicable design and construction criteria, unless the Department approves alternative design standards or specifications. An applicant in a county other than Maricopa and Pima shall use design and construction criteria from either the Maricopa Association of Governments or the Pima County Wastewater Management and the City of Tucson for the facility unless alternative criteria are designated by the Department.

i. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material.

ii. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the Maricopa Association of Governments, 302 N. 1st Avenue, Suite 300, Phoenix, Arizona 85003, or on the web at http://www.mag.maricopa.gov/archive/Newpages/on-line.htm; or from Pima County Wastewater Management, 201 N. Stone Avenue, Tucson, Arizona 85701-1207, or on the web at http://www.pima.gov/wwm/stddet;

d. Ensure that sewage collection system components are separated from drinking water distribution system components as specified in 18 A.A.C. 5, Article 5;

e. Ensure that sewage collection system components are separated from reclaimed water system components as specified in 18 A.A.C. 9, Article 6; and

f. Request review and approval of an alternative to a design feature specified in this Section by following the requirements in R18-9-A312(G).

2. Gravity sewer lines. An applicant shall:

a. Ensure that any sewer line that runs between manholes, if not straight, is of constant horizontal curvature with a radius of curvature not less than 200 feet;

b. Cover each sewer line with at least 3 feet of earth cover meeting the requirements of subsection (D)(2)(h). The applicant shall:

i. Include at least one note specifying this requirement in construction plans;

ii. If site-specific limitations prevent 3 feet of earth cover, provide the maximum cover attainable, construct the sewer line of ductile iron pipe or other design of equivalent or greater tensile and compressive strength, and note the change on the construction plans; and

iii. Ensure that the design of the pipe and joints can withstand crushing or shearing from any expected static and live load to protect the structural integrity of the pipe. Construction plans shall note locations requiring these measures;

c. If sewer lines cross or are constructed in floodways;

i. Place the lines at least 2 feet below the level of the 100-year storm scour depth and calculated 100-year bed degradation and construct the lines using ductile iron pipe or pipe with equivalent tensile strength, compressive strength, shear resistance, and scour protection.

ii. If it is not possible to maintain the 2 feet of clearance specified in subsection (D)(2)(c)(i), using the process described in R18-9-A312(G), provide a design that ensures that the sewer line will withstand any lateral and vertical load for the scour and bed degradation conditions specified in subsection (D)(2)(c)(i);

iii. Ensure that sewer lines constructed in a floodway extend at least 10 feet beyond the boundary of the 100-year storm scouring;

iv. If a sewer line is constructed in a floodway and is longer than the applicable maximum manhole spacing distance in subsection (D)(3)(a), using the process described in R18-9-A312(G), provide a design that ensures the performance standards in subsection (B) are met; and

v. Note locations requiring these measures on the construction plans;

d. Ensure that each sewer line is 8 inches in diameter or larger except the first 400 feet of a dead end sewer line with no potential for extension may be 6 inches in diameter if the design flow criteria specified in subsections (D)(1)(a) and (D)(1)(b) are met and the sewer line is installed with a slope sufficient to achieve a velocity of at least 3 feet per second when flowing full. If the line is extended, the applicant seeking the extension shall replace the entire length with larger pipe to accommodate the new design flow unless the applicant demonstrates with engineering calculations that using the existing 6-inch pipe will accommodate the design flow;

e. Design sewer lines with at least the minimum slope calculated from Manning's Formula using a coeffi-

cient of roughness of 0.013 and a sewage velocity of 2 feet per second when flowing full.

i. An applicant may request a smaller minimum slope under R18-9-A312(G) if the smaller slope is justified by a quarterly program of inspections, flushings, and cleanings.

ii. If a smaller minimum slope is requested, the applicant shall not specify a slope that is less than 50 percent of that calculated from Manning's formula using a coefficient of roughness of 0.013 and a sewage velocity of 2 feet per second.

iii. The ratio of flow depth in the pipe to the diameter of the pipe shall not exceed 0.75 in peak dry weather flow conditions;

f. Design sewer lines to avoid a slope that creates a sewage velocity greater than 10 feet per second. The applicant shall construct any sewer line carrying a flow with a normal velocity of greater than 10 feet per second using ductile iron pipe or pipe with equivalent erosion resistance, and structurally reinforce the receiving manhole or sewer main;

g. Design and install sewer lines, connections, and fittings with materials that meet or exceed manufacturer's specifications consistent with this Chapter to:

i. Limit inflows, infiltration, and exfiltration;

ii. Resist corrosion in the ambient electrochemical environment;

iii. Withstand anticipated static and live loads; and

iv. Provide internal erosion protection;

h. Indicate trenching and bedding details applicable for each pipe material and size in the design plans. Unless the Department approved alternative design standards or specifications under subsection (D)(1)(c), the applicant shall place and bed the sewer lines in trenches following the specifications in "Trench Excavation, Backfilling, and Compaction" (Section 601) revised 2004, published by the Maricopa Association of Governments; and "Rigid Pipe Bedding for Sanitary Sewers" (WWM 104) revised July 2002, and "Flexible Pipe Bedding for Sanitary Sewers" (WWM 105) revised July 2002, published by Pima County Wastewater Management. This material is part of the material incorporated by reference in subsection (D)(1)(b).

i. Perform a deflection test of the total length of all sewer lines made of flexible materials to ensure that the installation meets or exceeds the manufacturer's recommendations and record the results;

j. Test each segment of the sewer line for leakage using the applicable method below and record the results:

i. "Standard Test Method for Installation of Acceptance of Plastic Gravity Sewer Lines Using Low-Pressure Air, F1417-92(1998)," published by the American Society for Testing and Materials;

ii. "Standard Practice for Testing Concrete Pipe Sewer Lines by Low-Pressure Air Test Method, C924-02 (2002)," published by the American Society for Testing and Materials;

iii. "Standard Test Method for Low-Pressure Air Test of Vitrified Clay Pipe Lines, C828-03 (2003)," published by the American Society for Testing and Materials;

iv. "Standard Test Method for Hydrostatic Infiltration Testing of Vitrified Clay Pipe Lines, C1091-03a (2003)," published by the American Society for Testing Materials;

v. "Standard Practice for Infiltration ion and Exfiltration Acceptance Testing of Installed Precast Concrete Pipe Sewer Lines, C969-02 (2002)," published by the American Society for Testing Material; or

vi. "Standard Practice for Underground Installation of Thermoplastic Pipe for Sewers and Other Gravity-Flow Applications, D2321-00 (2000)," published by the American Society for Testing Materials; or

vii. The material listed in subsections (D)(2)(j)(i) through (vi) is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;

k. Test the total length of the sewer line for uniform slope by lamp lighting, remote camera or similar method approved by the Department, and record the results; and

l. Minimize the planting within the disturbed area of new sewage collection system construction of plant species having roots that are likely to reach and damage the sewer or impair the operation of the sewer or visual and vehicular access to any manhole.

3. Manholes.

a. An applicant shall install manholes at all grade changes, size changes, alignment changes, sewer intersections, and at any location necessary to comply with the following spacing requirements:

Sewer Pipe Diameter (inches)	Maximum Manhole Spacing (feet)
Less than 8	400
8 to less than 18	500
18 to less than 36	600
36 to less than 60	800
60 or greater	1300

b. The Department shall allow greater manhole spacing if the applicant follows the procedure provided in R18-9-A312(G) and provides documentation showing the operator possesses or has available specialized sewer cleaning equipment suitable for the increased spacing.

c. The applicant shall ensure that manhole design is consistent with "Pre-cast Concrete Sewer Manhole" #420-1, revised January 1, 2004 and #420-2, revised January 1, 2001, "Offset Manhole for 8" – 30" Pipe" #421 (1998), and "Sewer Manhole and Cover Frame Adjustment" #422, revised January 1, 2001, published by the Maricopa Association of Governments; and "Manholes and Appurtenant Items" (WWM 201 through WWM 211, except WWM 204, 205, and

206), revised July 2002, published by Pima County Wastewater Management. This material is part of the material incorporated by reference in subsection (D)(1)(b).

d. The applicant shall not locate manholes in areas subject to more than incidental runoff from rain falling in the immediate vicinity unless the manhole cover assembly is designed to restrict or eliminate stormwater inflow.

e. The applicant shall test each manhole using one of the following test protocols:

i. Watertightness testing by filling the manhole with water. The applicant shall ensure that the drop in water level following presoaking does not exceed 0.0034 of total manhole volume per hour;

ii. Negative air pressure testing using the "Standard Test Method for Concrete Sewer Manholes by Negative Air Pressure (Vacuum) Test, C1244-02e1 (2002)," published by the American Society for Testing and Materials. This material is incorporated by reference, does not include any later amendments or editions of the incorporated material and may be viewed at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007, or obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959; or

iii. Holiday testing of a lined manhole constructed with uncoated rebar using the "High-Voltage Electrical Inspection of Pipeline Coatings, RP0274-2004 (2004)," published by the National Association of Corrosion Engineers (NACE International). This material is incorporated by reference as modified below, does not include any later amendments or editions of the incorporated material and may be viewed at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or obtained from NACE International, 1440 South Creek Drive, Houston, Texas 77084-4906. The following substitutions apply:

(1) Where the word "metal" is used in the standard, use the word "surface" instead; and

(2) Where the words "pipe" or "pipeline" are used, use the word "manhole" instead.

f. The applicant shall perform manhole testing under subsection (D)(3)(e) after installation of the manhole cone or top riser to verify watertightness integrity of the manhole from the top of the cone or riser down.

i. Upon satisfactory test results, the applicant shall install the manhole ring and any spacers, complete the joints, and seal the manhole to a watertight condition.

ii. If the applicant can install the manhole cone or top riser, spacers, and ring to final grade without disturbance or adjustment by later construction, the applicant may perform the testing from the top of the manhole ring on down.

g. The applicant shall locate a manhole to provide adequate visibility and vehicular maintenance accessibility following construction.

4. Force mains. An applicant may install a force main if it meets the following design, installation, and testing requirements. The applicant shall:

a. Design force mains to maintain a minimum flow velocity of 3 feet per second and a maximum flow velocity of 7 feet per second. The applicant may design for sustained periods of flow above 7 feet per second, if the applicant justifies the design using the process specified in R18-9-A312(G);

b. Ensure that force mains have the appropriate valves and controls required to prevent drainback to the lift station. If drainback is necessary during cold weather to prevent freezing, the control system may allow manual or automatic drainback;

c. Incorporate air release valves or other appropriate components in force mains at all high points along the line to eliminate air accumulation. If engineering calculations provided by the applicant demonstrate that air will not accumulate in a given high point under typical flow conditions, the Department shall waive the requirement for an air release valve;

d. Design restrained joints or thrust blocks on force mains to accommodate water hammer, surge control, and to prevent excessive movement of the force main. Submitted construction plans shall show restrained joint or thrust block locations and details;

e. If a force main is proposed to discharge directly to a sewage treatment facility without entering a flow equalization basin, include in the Notice of Intent to Discharge a statement from the owner or operator of the sewage treatment facility that the design is acceptable;

f. Design a force main to withstand a pressure of 50 pounds per square inch or more above the design working pressure for two hours and test upon completion to ensure no leakage;

g. Supply flow to a force main using a lift station that meets the requirements of subsection (D)(5); and

h. Ensure that force mains are designed to control odor.

5. Lift stations. An applicant shall:

a. Secure a lift station to prevent tampering and affix on its exterior, or on the nearest vertical object if the lift station is entirely below grade, at least one warning sign that includes the 24-hour emergency phone number of the owner or operator of the collection system;

b. Protect lift stations from physical damage from a 100-year flood event. An applicant shall not construct a lift station in a floodway;

c. Lift station wet well design.

i. Ensure that the minimum wet well volume in gallons is 1/4 of the product of the minimum pump cycle time, in minutes, and the total pump capacity, in gallons per minute;

ii. Protect the wet well against corrosion to provide at least a 20-year operational life;

iii. Ensure that wet well volume does not allow the sewage retention time to exceed 30 minutes unless the sewage is aerated, chemicals are added to prevent or eliminate hydrogen sulfide formation, or adequate ventilation is provided.

Notwithstanding these measures, the applicant shall not allow the septic condition of the sewage to adversely affect downstream collection systems or sewage treatment facility performance;

iv. Ensure that excessively high or low levels of sewage in the wet well trigger an audible or visible alarm at the wet well site and at the system control center;

v. Ensure that a wet well designed to accommodate more than 5000 gallons per day has a horizontal cross-sectional area of at least 20 square feet; and

vi. Ensure that lift stations are designed to prevent odor from emanating beyond the lift station site;

d. Equip a lift station wet well with at least two pumps. The applicant shall ensure that:

i. The pumps are capable of passing a 2.5-inch sphere or are grinder pumps;

ii. The lift station is capable of operating at design flow with any one pump out of service; and

iii. Piping, valves, and controls are arranged to allow independent operation of each pump;

e. Not use suction pumps if the sewage lift is more than 15 feet. The applicant shall ensure that other types of pumps are self-priming and that pump water brake horsepower is at least 0.00025 times the product of the required discharge, in gallons per minute, and the required total dynamic head, in feet; and

f. For lift stations receiving an average flow of more than 10,000 gallons per day, include a standby power source and redundant wastewater level controls in the lift station design that will provide immediate service and remain available for 24 hours per day if the main power source or controls fail.

6. Depressed sewers. An applicant shall:

a. Size the depressed sewer to attain a minimum velocity of 3 feet per second through all barrels of the depressed sewer when the flow equals or exceeds the design daily peak dry weather flow,

b. Design the depressed sewer to convey the sewage flow through at least two parallel pipes at least 6 inches in diameter,

c. Include an inlet and outlet structure at each end of the inverted sewer,

d. Design the depressed sewer so that the barrels are brought progressively into service as flow increases to its design value, and

e. Design the depressed sewer to minimize release of odors to the atmosphere.

E. Additional Discharge Authorization requirements. An applicant shall:

1. Supply a signed, dated, and sealed Engineer's Certificate of Completion in a format approved by the Department that provides the following:

a. Confirmation that the project was completed in compliance with the requirements of this Chapter, as described in the plans and specifications corresponding to the Construction Authorization issued by the Director, or with changes that are reflected in as-built plans submitted with the Engineer's Certificate of Completion;

b. As-built plans, if required, that are properly identified and numbered; and

c. Satisfactory field test results from deflection, leakage, and uniform slope testing;

2. Provide any other relevant information required by the Department to determine that the facility conforms to the terms of the 4.01 General Permit; and

3. Provide a signed certification on a form approved by the Department that:

a. Confirms that an operation and maintenance manual exists for the sewage collection system;

b. Confirms that the operation and maintenance manual addresses components of operation and maintenance specified on the certification form;

c. Provides the 24-hour emergency number of the owner or operator of the sewage collection system; and

d. Provides an address where the operation and maintenance manual is maintained and confirms that the manual is available for inspection at that address by the Department on request.

F. Operation and maintenance requirements. The permittee shall:

1. Operate the new sewage collection system or expansion of an existing sewage collection system involving new construction using the operation and maintenance manual certified by the owner or operator in subsection (E)(3), to meet the performance standards specified in subsection (B), unless the permittee is operating the sewage collection system under a CMOM Plan under the general permit established in R18-9-C305;

2. Ensure that the sewage collection system is operated according to the operator certification requirements in 18 A.A.C. 5, Article 1; and

3. For safety during operation and maintenance of lift station and other confined space components of the sewage collection system, follow all applicable state and federal confined space entry requirements.

G. Recordkeeping. A person owning or operating a facility permitted under this Section shall maintain the documents listed in subsection (E) for the life of the facility and make them available to the Department upon request.

H. Repairs.

1. A Notice of Intent to Discharge is not required for sewage collection system repairs. Repairs include work performed in response to deterioration or damage of existing structures, devices, and appurtenances with the intent to maintain or restore the system to its original design flow and operational characteristics. Repairs do not include changes in vertical or horizontal alignment.

2. Components used in the repair shall meet the design, installation, and operational requirements of this Section.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E302. 4.02 General Permit: Septic Tank with Disposal by Trench, Bed, Chamber Technology, or Seepage Pit, Less Than 3000 Gallons Per Day Design Flow

A. A 4.02 General Permit allows for the construction and operation of a system with less than 3000 gallons per day design flow consisting of a septic tank dispensing wastewater to an approved means of disposal described in this Section. Only

gravity flow of wastewater from the septic tank to the disposal works is authorized by this general permit.

1. The standard septic tank and disposal works design specified in the 4.02 General Permit serves sites where no site limitations are identified by the site investigation conducted under R18-9-A310.
2. If site conditions allow, this general permit authorizes the discharge of wastewater from a septic tank meeting the requirements of R18-9-A314 to one of the following disposal works:
   a. Trench,
   b. Bed,
   c. Chamber technology, or
   d. Seepage pit.

B. Performance. An applicant shall design a system consisting of a septic tank and one of the disposal works listed in subsection (A)(2) so that treated wastewater released to the native soil meets the following criteria:

1. TSS of 75 milligrams per liter, 30-day arithmetic mean;
2. BOD_5 of 150 milligrams per liter, 30-day arithmetic mean;
3. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
4. Total coliform level of 100,000,000 (Log_{10} 8) colony forming units per 100 milliliters, 95th percentile.

C. Design and installation requirements.

1. General provisions. In addition to the applicable requirements in R18-9-A312, the applicant shall:
   a. Ensure that the septic tank meets the requirements specified in R18-9-A314;
   b. Before placing aggregate or disposal pipe in a prepared excavation, remove all smeared or compacted surfaces from trenches by raking to a depth of 1 inch and removing loose material. The applicant shall:
      i. Place aggregate in the trench to the depth and grade specified in subsection (C)(2);
      ii. Place the drain pipe on aggregate and cover it with aggregate to the minimum depth specified in subsection (C)(2); and
      iii. Cover the aggregate with landscape filter material, geotextile, or similar porous material to prevent filling of voids with earth backfill;
   c. Use a grade board stake placed in the trench to the depth of the aggregate if the disposal pipe is constructed of drain tile or flexible pipe that will not maintain alignment without continuous support;
   d. Disposal pipe. If two or more disposal pipes are installed, install a distribution box approved by the Department of sufficient size to receive all lateral lines and flows at the head of each disposal works and:
      i. Ensure that the inverts of all outlets are level and the invert of the inlet is at least 1 inch above the outlets;
      ii. Design distribution boxes to ensure equal flow and install the boxes on a stable level surface such as a concrete slab or native or compacted soil; and
      iii. Protect concrete distribution boxes from corrosion by coating them with an appropriate bituminous coating, constructing the boxes with concrete that has a 15 to 18 percent fly ash content, or by using other equivalent means;
   e. Construct all lateral pipes running from a distribution box to the disposal works with watertight joints and ensure that multiple disposal laterals, wherever practical, are of uniform length;
   f. Lay pipe connections between the septic tank and a distribution box on natural ground or compact fill and construct the pipe connections with watertight joints;
   g. Construct steps within distribution line trenches or beds, if necessary, to maintain a level disposal pipe on sloping ground. The applicant shall construct the lines between each horizontal section with watertight joints and install them on natural or unfilled ground; and
   h. Ensure that a disposal works consisting of trenches, beds, chamber technology, or seepage pits is not paved over or covered by concrete or any material that can reduce or inhibit possible evaporation of wastewater through the soil to the land surface or oxygen transport to the soil absorption surfaces.
2. Trenches.
   a. The applicant shall calculate the trench absorption area as the total of the trench bottom area and the sum of both trench sidewall areas to a maximum depth of 48 inches below the bottom of the disposal pipe.
   b. The applicant shall ensure that trench bottoms and disposal pipe are level. The applicant shall calculate trench sizing from the soil absorption rate specified under R18-9-A312(D) and the design flow established in R18-9-A312(B).
   c. The following design criteria for trenches apply:

Trenches	**Minimum**	**Maximum**
1. Number of trenches	1 (2 are recommended)	No Maximum
2. Length of trench[1]	----	100 feet
3. Bottom width of trench	12 inches	36 inches
4. Trench absorption area (sq. ft. of absorption area per linear foot of trench)	No Minimum	11 sq. ft.
5. Depth of cover over aggregate surrounding disposal pipe	9 inches	24 inches[2]
6. Thickness of aggregate material over disposal pipe	2 inches	2 inches
7. Thickness of aggregate material under disposal pipe	12 inches	No Maximum
8. Slope of disposal pipe	Level	Level
9. Disposal pipe diameter	3 inches	4 inches
10. Spacing of trenches (measured between nearest sidewalls)	2 times effective depth[3] or five feet, whichever is greater	No Maximum

Notes:
[1] If unequal trench lengths are used, proportional distribution of wastewater is required.
[2] For more than 24 inches, Standard Dimensional Ratio 35 or equivalent strength pipe is required.
[3] The effective depth is the distance between the bottom of the disposal pipe and the bottom of the trench bed.

d. The applicant may substitute clean, durable, crushed, and washed recycled concrete for aggregate if noted in design documents and the trench absorption area calculation excludes the trench bottom.

3. Beds. An applicant shall:
   a. If a bed is installed, use the soil absorption rate specified in R18-9-A312(D) for "SAR, Bed. The applicant may, in computing the bed bottom absorption area, include the bed bottom and the perimeter sidewall area not more than 36 inches below the disposal pipe;
   b. Comply with the following design criteria for beds:

Gravity Beds	Minimum	Maximum
1. Number of disposal pipes	2	No Maximum
2. Length of bed	No Minimum	100 feet
3. Distance between disposal pipes	4 feet	6 feet
4. Spacing of beds measured between nearest sidewalls	2 times effective depth[1] or 5 feet, whichever is greater	No Maximum
5. Width of bed	10 feet	12 feet
6. Distance from disposal pipe to sidewall	3 feet	3 feet
7. Depth of cover over disposal pipe	9 inches	14 inches
8. Thickness of aggregate material under disposal pipe	12 inches	No Maximum
9. Thickness of aggregate material over disposal pipe	2 inches	2 inches
10. Slope of disposal pipe	Level	Level
11. Disposal pipe diameter	3 inches	4 inches

Note:
[1] The effective depth is the distance between the bottom of the disposal pipe and the bottom of the bed.

4. Chamber technology. An applicant shall:
   a. Calculate an effective chamber absorption area to size the disposal works area and determine the number of chambers needed. The effective absorption area of each chamber is calculated as follows:
      $A = (1.8 \times B \times L) + (2 \times V \times L)$
      i. "A" is the effective absorption area of each chamber,
      ii. "B" is the exterior width of the bottom of the chamber,
      iii. "V" is the vertical height of the louvered sidewall of the chamber, and
      iv. "L" is the length of the chamber;
   b. Calculate the disposal works size and number of chambers from the effective absorption area of each chamber and the soil absorption rates specified in R18-9-A312(D);
   c. Ensure that the sidewall of the chamber provides at least 35 percent open area for sidewall credit and that the design and construction minimizes the movement of fines into the chamber area. The applicant shall not use filter fabric or geotextile against the sidewall openings.

5. Seepage pits. If allowed by R18-9-A311(B)(1), the applicant shall:
   a. Design a seepage pit to comply with R18-9-A312(E)(1) for minimum vertical separation distance;
   b. Ensure that multiple seepage pit installations are served through a distribution box approved by the Department or connected in series with a watertight connection laid on undisturbed or compacted soil. The applicant shall ensure that the outlet from the pit has a sanitary tee with the vertical leg extending at least 12 inches below the inlet;
   c. Ensure that each seepage pit is circular and has an excavated diameter of 4 to 6 feet. If multiple seepage pits are installed, ensure that the minimum spacing between seepage pit sidewalls is 12 feet or three times the diameter of the seepage pit, whichever is greater. The applicant may use the alternative design procedure specified in R18-9-A312(G) for a proposed seepage pit more than 6 feet in diameter;
   d. For a gravel filled seepage pit, backfill the entire pit with aggregate. The applicant shall ensure that each pit has a breather conductor pipe that consists of a perforated pipe at least 4 inches in diameter, placed vertically within the backfill of the pit. The pipe shall extend from the bottom of the pit to within 12 inches below ground level;
   e. For a lined, hollow seepage pit, lay a concrete liner or a liner of a different protective material in the pit on a firm foundation and fill excavation voids behind the liner with at least 9 inches of aggregate;
   f. For the cover of a lined seepage pit, use an approved one or two piece reinforced concrete slab with a minimum compressive strength of 2500 pounds per square inch. The applicant shall ensure that the cover:
      i. Is at least 5 inches thick and designed to support an earth load of at least 400 pounds per square foot;
      ii. Has a 12-inch square or diameter minimum access hole with a plug or cap that is coated on the underside with an protective bituminous seal, constructed of concrete with 15 percent to 18 percent fly ash content, or made of other nonpermeable protective material; and
      iii. Has a 4 inch or larger inspection pipe placed vertically not more than 6 inches below ground level;
   g. Ensure that the top of the seepage pit cover is 4 to 18 inches below the surface of the ground;

h. Install a vented inlet fitting in every seepage pit to prevent flows into the seepage pit from damaging the sidewall. An applicant may use a 1/4 bend fitting placed through an opening in the top of the slab cover if a one or two piece concrete slab cover inlet is used;

i. Bore seepage pits five feet deeper than the proposed pit depth to verify underlying soil characteristics and backfill the five feet of overdrill with low permeability drill cuttings or other suitable material;

j. Backfill seepage pits that terminate in gravelly, coarse sand zones five feet above the beginning of the zone with low permeability drill cuttings or other suitable material;

k. Determine the minimum sidewall area for a seepage pit from the design flow and the soil absorption rate derived from the testing procedure described in R18-9-A310(G). The effective absorption surface for a seepage pit is the sidewall area only. The sidewall area is calculated using the following formula:

$A = 3.14 \times D \times H$

i. "A" is the minimum sidewall area in square feet needed for the design flow and soil absorption rate for the installation,

ii. "D" is the diameter of the proposed seepage pit in feet,

iii. "H" is the vertical height in feet in the seepage pit through which wastewater infiltrates native soil. The applicant shall ensure that H is at least 10 feet for any seepage pit.

D. Operation and maintenance. The permittee shall follow the applicable operation and maintenance requirements in R18-9-A313.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E303. 4.03 General Permit: Composting Toilet, Less Than 3000 Gallons Per Day Design Flow

A. A 4.03 General Permit allows for the use of a composting toilet with less than 3000 gallons per day design flow.

1. Definition. For purposes of this Section, "composting toilet" means a manufactured turnkey or kit form treatment technology that receives human waste from a waterless toilet directly into an aerobic composting chamber where dehydration and biological activity reduce the waste volume and the content of nutrients and harmful microorganisms to an appropriate level for later disposal at the site or by other means.
2. An applicant may use a composting toilet if:
   a. Limited water availability prevents use of other types of on-site wastewater treatment facilities,
   b. Environmental constraints prevent the discharge of wastewater or nutrients to a sensitive area,
   c. Inadequate space prevents use of other systems,
   d. Severe site limitations exist that make other forms of treatment or disposal unacceptable, or
   e. The applicant desires maximum water conservation.
3. A permittee may use a composting toilet only if:
   a. Wastewater is managed as provided in this Section and, if gray water is separated and reused, the gray water reuse complies with18 A.A.C. 9, Article 7; and
   b. Soil conditions support subsurface disposal of all wastewater sources.

B. Restrictions.

1. A permittee shall ensure that no more than 50 persons per day use the composting toilet.
2. A composting toilet shall only receive human excrement unless the manufacturer's specifications allow the deposit of kitchen or other wastes into the toilet.

C. Performance. An applicant shall ensure that:

1. The composting toilet provides containment to prevent the discharge of toilet contents to the native soil except leachate, which may drain to the wastewater disposal works described in subsection (F);
2. The composting toilet limits access by vectors to the contained waste; and
3. Wastewater is disposed into the subsurface to prevent any wastewater from surfacing.

D. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), the applicant shall submit the following information:

1. Composting toilet.
   a. The name and address of the composting toilet system manufacturer;
   b. A copy of the manufacturer's warranty, and the specifications for installation operation, and maintenance;
   c. The product model number;
   d. Composting rate, capacity, and waste accumulation volume calculations;
   e. Documentation of listing by a national listing organization indicating that the composting toilet meets the stated manufacturer's specifications for loading, treatment performance, and operation, unless the composting toilet is listed under R18-9-A309(E) or is a component of a reference design approved by the Department;
   f. The method of vector control;
   g. The planned method and frequency for disposing the composted human excrement residue; and
   h. The planned method for disposing of the drainage from the composting unit; and
2. Wastewater.
   a. The number of bedrooms in the dwelling or persons served on a daily basis, as applicable, and the corresponding design flow of the disposal works for the wastewater;
   b. The results from soil evaluation or percolation testing that adequately characterize the soils into which the wastewater will be dispersed and the locations of soil evaluation and percolation testing on the site plan; and
   c. The design for the disposal works in subsection (F), including the location of the interceptor, the location and configuration of the trench or bed used for wastewater dispersal, the location of connecting wastewater pipelines, and the location of the reserve area.

E. Design requirements for a composting toilet. An applicant shall ensure that:

1. The composting chamber is watertight, constructed of solid durable materials not subject to excessive corrosion or decay, and is constructed to exclude access by vectors;
2. The composting chamber has airtight seals to prevent odor or toxic gas from escaping into the building. The system may be vented to the outside;
3. The capacity of the chamber and rate of composting are calculated based on:
   a. The lowest monthly average chamber temperature; or
   b. The yearly average chamber temperature, if the composting toilet is designed to compost on a yearly cycle or longer; and
4. The composting system provides adequate storage of all waste produced during the months when the average temperature is below 55^{o}F, unless a temperature control device is installed to increase the composting rate and reduce waste volume.

F. Design requirements for the disposal works.
1. Interceptor. An applicant shall ensure that the design complies with the following:
   a. An interceptor may not accept human excreta or toilet wastewater;
   b. Wastewater passes into an interceptor before it is conducted to the subsurface for dispersal;
   c. The interceptor is designed to remove grease, oil, fibers, and solids to ensure long-term performance of the trench or bed used for subsurface dispersal;
   d. The interceptor is covered to restrict access and eliminate habitat for mosquitoes and other vectors; and
   e. Minimum interceptor size is based on design flow.
      i. For a dwelling, the following apply:

No. of Bedrooms	Design Flow (gallons per day)	Minimum Interceptor Size (gallons)	
		Kitchen Wastewater Only (All gray water sources are collected and reused)	Combined Non-Toilet Wastewater (Gray water is not separated and reused)
1 (7 fixture units or less)	90	42	200
1-2 (greater than 7 fixture units)	180	84	400
3	270	125	600
4	330	150	700
5	380	175	800
6	420	200	900
7	460	225	1000

      ii. For other than a dwelling, minimum interceptor size in gallons is 2.1 times the design flow from Table 1, Unit Design Flows.
2. Dispersal of wastewater. An applicant shall ensure that the design complies with the following:
   a. A trench or bed is used to disperse the wastewater into the subsurface;
   b. Sizing of the trench or bed is based on the design flow as determined in subsection (F)(1)(e), including all black and gray water, and an SAR determined under R18-9-A312(D);
   c. The minimum vertical separation from the bottom of the trench or bed to a limiting subsurface condition is at least 5 feet; and
   d. Other aspects of trench or bed design follow R18-9-E302, as applicable.
3. Setback distances. Setback distances are no less than 1/4 of the setback distances specified in R18-9-A312(C), but not less than 5 feet, except the setback distance from wells is 100 feet.

G. Operation and maintenance requirements. A permittee shall:
1. Composting toilet.
   a. Provide adequate mixing, ventilation, temperature control, moisture, and bulk to reduce fire hazard and prevent anaerobic conditions;
   b. Follow manufacturer's specifications for addition of any organic bulking agent to control liquid drainage, promote aeration, or provide additional carbon;
   c. Follow the manufacturer's specifications for operation and maintenance regarding movement of material within the composting chamber;
   d. If batch system containers are mounted on a carousel, place a new container in the toilet area if the previous one is full;
   e. Ensure that only human waste, paper approved for septic tank use, and the amount of bulking material required for proper maintenance is introduced to the composting chamber. The permittee shall remove all other materials or trash. If allowed by the manufacturer's specifications the permittee may add, other nonliquid compostable food preparation residues to the toilet;
   f. Ensure that any liquid end product is:
      i. Sprayed back onto the composting waste material;
      ii. Removed by a person who licensed a vehicle under 18 A.A.C. 13, Article 11; or
      iii. Is drained to the interceptor described in subsection (F);
   g. Remove and dispose of composted waste as necessary, using a person who licensed a vehicle under 18 A.A.C. 13, Article 11 if the waste is not placed in a disposal area for burial or used on-site as mulch;
   h. Before ending use for an extended period take measures to ensure that moisture is maintained to sustain bacterial activity and free liquids in the chamber do not freeze; and
   i. After an extended period of non-use, empty the composting chamber of solid end product and inspect all mechanical components to verify that the mechanical components are operating as designed;
2. Wastewater Disposal Works.

a. Ensure that the interceptor is maintained regularly according to manufacturer's instructions to prevent grease and solid wastes from impairing performance of the trench or bed used for dispersal of wastewater, and
b. Protect the area of the trench or bed from soil compaction or other activity that will impair dispersal performance.

H. Reference design.
1. An applicant may use a composting toilet that achieves the performance requirements in subsection (C) by following a reference design on file with the Department.
2. The applicant shall file a form provided by the Department for supplemental information about the proposed system with the applicant's submittal of the Notice of Intent to Discharge.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-E304. 4.04 General Permit: Pressure Distribution System, Less Than 3000 Gallons Per Day Design Flow

A. A 4.04 General Permit allows for the use of a pressurized distribution of wastewater system with a design flow less than 3000 gallons per day that treats wastewater to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "pressure distribution system" means a tank, pump, controls, and piping that conducts wastewater under pressure in controlled amounts and intervals to a bed or trench or other means of distribution authorized by a general permit for an on-site wastewater treatment facility.
2. An applicant may use a pressure distribution system if a gravity flow system is unsuitable, inadequate, unfeasible, or cost prohibitive because of site limitations or other conditions, or if needed to optimally distribute wastewater.

B. Performance. An applicant shall ensure that a pressure distribution system:
1. Disperses wastewater so that:
   a. Loading rates are optimized for the intended purpose, and
   b. The wastewater is delivered under pressure and evenly distributed within the disposal works, and
2. Prevents ponding on the land surface.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), the applicant shall submit:
1. A copy of operation, maintenance, and warranty materials for the principal components; and
2. A copy of dosing specifications, including pump curves, dispersing component details, and float control settings.

D. Design requirements.
1. Pumps. An applicant shall ensure that pumps used in the on-site wastewater treatment facility:
   a. Are rated for wastewater service by the manufacturer and certified by Underwriters Laboratories;
   b. Achieve the minimum design flow rate and total dynamic head requirements for the particular site; and
   c. Incorporate a quick disconnect using compression-type unions for pressure connections. The applicant shall ensure that:
      i. Quick-disconnects are accessible in the pressure piping, and
      ii. A pump has adequate lift attachments for removal and replacement of the pump and switch assembly without entering the dosing tank or process chamber.
2. Switches, controls, alarms, timers, and electrical components. An applicant shall ensure that:
   a. Switches and controls accommodate the minimum and maximum dose capacities of the distribution network design. The applicant shall not use pressure diaphragm level control switches;
   b. Fail-safe controls that can be tested in the field are used to prevent discharge of inadequately treated wastewater. The applicant shall include counters or flow meters if critical to control functions, such as timed dosing;
   c. Control panels and alarms:
      i. Are either mounted in an exterior location visible from the structure served, mounted in a conspicuous location on the side of the structure served, or mounted in a conspicuous location adjacent to the structure served,
      ii. Provide manual pump switch and alarm test features, and
      iii. Include written instructions covering standard operation and alarm events;
   d. Audible and visible alarms are used for all critical control functions, such as pump failures, treatment failures, and excess flows. The applicant shall ensure that:
      i. The visual portion of the signal is conspicuous from a distance 50 feet from the system and its appurtenances;
      ii. The audible portion of the signal is between 70 and 75 db at 5 feet and is discernible from a distance of 50 feet from the system and its appurtenances;
      iii. Alarms, test features, and controls are on a non-dedicated electrical circuit separate from the dedicated circuit for the pump with constant visual confirmation that the circuit is electrically active; and
      iv. The alarm is clearly audible and visible inside the structure served;
   e. All electrical wiring complies with the National Electrical Code, 2005 Edition, published by the National Fire Protection Association. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the National Fire Protection Association, 1 Batterymarch Park, P.O. Box 9101, Quincy, MA 02269-9101. The applicant shall ensure that:
      i. Connections are made using National Electrical Manufacturers Association (NEMA) 4x junction boxes certified by Underwriters Laboratories; and

ii. All controls are in NEMA 3r, 4, or 4x enclosures for outdoor use.

3. Dosing tanks and wastewater distribution components.
   a. An applicant shall:
      i. Design dosing tanks to withstand anticipated internal and external loads under full and empty conditions, and design concrete tanks to meet the "Standard Specification for Precast Concrete Water and Wastewater Structures, C913-02 (2002)," published by the American Society for Testing and Materials. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;
      ii. Design dosing tanks to be easily accessible and have secured covers;
      iii. Install risers to provide access to the inlet and outlet of the tank and to service internal components;
      iv. Ensure that the volume of the dosing tank accommodates bottom depth below maximum drawdown, maximum design dose, including any drainback, volume to high water alarm, and a reserve volume above the high water alarm level that is not less than the daily design flow volume. If the tank is time dosed, the applicant shall ensure that the combined surge capacity and reserve volume above the high water alarm is not less than the daily design flow volume;
      v. Ensure that dosing tanks are watertight and anti-buoyant;
      vi. Design the wastewater distribution components to withstand system pumping pressures;
      vii. Design the wastewater distribution system to allow air to purge from the system;
      viii. Design pressure piping to minimize freezing during cold weather;
      ix. Ensure that the end of each wastewater distribution line is accessible for maintenance;
      x. Ensure that orifices emit the design discharge rate uniformly throughout the wastewater distribution system; and
      xi. Design orifices using orifice shields to provide proper distribution of wastewater to the receiving medium.
   b. An applicant may use a septic tank second compartment or a second septic tank in series as a dosing tank if all dosing tank requirements of this Section are met and a screened vault is used instead of the septic tank effluent filter.
4. Design SAR. If the site conditions of the property for the on-site wastewater treatment facility do not require pressure distribution, but an applicant chooses to use pressure distribution, the applicant shall use a design SAR for the absorption surfaces in the disposal works that is not more than 1.10 times the adjusted SAR determined in R18-9-A312(D).

E. Additional Discharge Authorization requirements. An applicant shall obtain copies of instructions for the critical controls of the system from the person who installed the pressure distribution system. The applicant shall submit one copy of the instructions with the information required in subsection (C).

F. Operation and maintenance requirements. In addition to the applicable requirements specified in R18-9-A313(B), a permittee shall ensure that:
1. The operation and maintenance manual for the on-site wastewater treatment facility that supplies the wastewater to the pressure distribution system specifies inspection and maintenance needed for the following items:
   a. Sludge level in the bottom of the treatment and dosing tanks,
   b. Watertightness,
   c. Condition of electrical and mechanical components, and
   d. Piping and other components functioning within design limits;
2. All critical control functions are specified in the operation and maintenance manual for testing to demonstrate compliance with design specifications, including:
   a. Alarms, test features, and controls;
   b. Float switch level settings;
   c. Dose rate, volume, and frequency, if applicable;
   d. Distal pressure or squirt height, if applicable; and
   e. Voltage test on pumps, motors, and controls, as applicable;
3. The finished grade is observed and maintained for proper surface drainage. The applicant shall observe the levelness of the tank for differential settling. If there is settling, the applicant shall grade the facility to maintain surface drainage.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3). Amended by final rulemaking at 29 A.A.R. 1023 (May 12, 2023), effective June 19, 2023 (Supp. 23-2).

R18-9-E305. 4.05 General Permit: Gravelless Trench, Less Than 3000 Gallons Per Day Design Flow

A. A 4.05 General Permit allows for the use of a gravelless trench with less than 3000 gallons per day design flow receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "gravelless trench" means a disposal technology characterized by installation of a proprietary pipe and geocomposite or other substitute media into native soil instead of the distribution pipe and aggregate fill used in a trench allowed in R18-9-E302.
2. A permittee may use a gravelless trench if suitable gravel or volcanic rock aggregate is unavailable, excessively expensive, or if adverse site conditions make movement of gravel difficult, damaging, or time consuming.

B. Performance. An applicant shall design a gravelless trench so that treated wastewater released to the native soil meets the following criteria:
1. TSS of 75 milligrams per liter, 30-day arithmetic mean;
2. BOD_5 of 150 milligrams per liter, 30-day arithmetic mean;

3. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
4. Total coliform level of 100,000,000 (Log_{10} 8) colony forming units per 100 milliliters, 95th percentile.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit the following:
1. The soil absorption area that would be required if a conventional disposal trench filled with aggregate was used at the site,
2. The configuration and size of the proposed gravelless disposal works, and
3. The manufacturer's installation instructions and warranty of performance for absorbing wastewater into the native soil.

D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall:
1. Ensure that the top of the gravelless disposal pipe or similar disposal mechanism is at least 6 inches below the surface of the native soil and 12 to 36 inches below finished grade if approved fill is placed on top of the installation;
2. Calculate the infiltration surface as follows:
   a. For 8-inch diameter pipe, 2 square feet of absorption area is allowed per linear foot;
   b. For 10-inch diameter pipe, 3 square feet of absorption area is allowed per linear foot;
   c. For bundles of two pipes of the same diameter, the absorption area is calculated as 1.67 times the absorption area of one pipe; and
   d. For bundles of three pipes of the same diameter, the absorption area is calculated as 2.00 times the absorption area of one pipe;
3. Use a pressure distribution system meeting the requirements of R18-9-E304 in medium sand, coarse sand, and coarser soils; and
4. Construct the drainfield of material that will not decay, deteriorate, or leach chemicals or byproducts if exposed to sewage or the subsurface soil environment.

E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall:
1. Install the gravelless pipe material according to manufacturer's instructions if the instructions are consistent with this Chapter,
2. Ensure that the installed disposal system can withstand the physical disturbance of backfilling and the load of any soil cover above natural grade placed over the installation, and
3. Shape any backfill and soil cover in the area of installation to prevent settlement and ponding of rainfall for the life of the disposal works.

F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall inspect the finished grade in the vicinity of the gravelless disposal works for maintenance of proper drainage and protection from damaging loads.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E306. 4.06 General Permit: Natural Seal Evapotranspiration Bed, Less Than 3000 Gallons Per Day Design Flow

A. A 4.06 General Permit allows for the use of a natural seal evapotranspiration bed with less than 3000 gallons per day design flow receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "natural seal evapotranspiration bed" means a disposal technology characterized by a bed of sand or other media with an internal wastewater distribution system, contained on the bottom and sidewalls by an engineered liner consisting of natural soil and clay materials.
2. An applicant may use a natural seal evapotranspiration bed if site conditions restrict soil infiltration or require reduction of the volume of wastewater discharged to the native soil underlying the natural seal liner.

B. Restrictions. Unless a person provides design documentation to show that a natural seal evapotranspiration bed will properly function, the person shall not install this technology if:
1. Average minimum temperature in any month is 20° F or less,
2. Over 1/3 of the average annual precipitation falls in a 30-day period, or
3. Design flow exceeds net evaporation.

C. Performance. An applicant shall ensure that a natural seal evapotranspiration bed:
1. Minimizes discharge to the native soil through the natural seal liner,
2. Maximizes wastewater disposed to the atmosphere by evapotranspiration, and
3. Prevents ponding of wastewater on the bed surface and maintains an interval of unsaturated media directly beneath the bed surface.

D. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
1. Capillary rise potential test results for the media used to fill the evapotranspiration bed, unless sand meeting a D_{50} of 0.1 millimeter (50 percent by weight of grains equal to or smaller than 0.1 millimeter) is used; and
2. Water mass balance calculations used to size the evapotranspiration bed.

E. Design requirements. An applicant shall:
1. Ensure that the evapotranspiration bed is from 18 to 36 inches deep and shall calculate the bed design based on the capillary rise of the bed media, following the "Standard Test Method for Capillary-Moisture Relationships for Coarse- and Medium-Textured Soils by Porous-Plate Apparatus, D2325-68 (2000)," incorporated by reference in R18-9-E307(E), and the anticipated maximum frost depth;
2. Ensure the media is sand or other durable material;
3. Base design area calculations on a water mass balance for the winter months and the design seepage rate;
4. Ensure that the natural seal liner is a durable, low-hydraulic conductivity liner and is accompanied by the liner performance specification and calculations for bottom and sidewall seepage rate;
5. If a surfacing layer is used, use topsoil, dark cinders, decomposed granite, or similar landscaping material placed to a maximum depth of 2 inches and ensure that:
   a. If topsoil is used as a surfacing layer for growth of landscape plants:
      i. The topsoil is a fertile, friable soil obtained from well-drained arable land;

ii. The topsoil is free of nut grass, refuse, roots, heavy clay, clods, noxious weeds, or any other material toxic to plant growth;
iii. The pH of the topsoil is between 5.5 and 8.0;
iv. The plasticity index of the topsoil is between 3 and 15; and
v. The topsoil contains approximately 1-1/2 percent organic matter, by dry weight, either natural or added;

b. If landscaping material other than topsoil is used as a surfacing layer, the material meets the following gradation:

Sieve Size	Percent Passing
1”	100
1/2”	95-100
No. 4	90-100
No. 10	70-100
No. 200	15-70

6. Use shallow-rooted, non-invasive, salt- and drought-tolerant evergreens if vegetation is planted on the evapotranspiration bed;
7. Install at least two observation ports to determine the level of the liquid surface of wastewater within the evapotranspiration bed;
8. Design the bed to pump out the saturated zone if accumulated salts or a similar condition impairs bed performance; and
9. Instead of the minimum vertical separation required under R18-9-A312(E), ensure that the minimum vertical separation from the bottom of the natural seal evapotranspiration bed liner to the seasonal high water table is at least 12 inches.

F. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that:
1. The liner covers the bottom and all sidewalls of the bed and is installed on a stable base according to the manufacturer’s installation specifications;
2. If the inlet pipe passes through the liner, the joint is tightly sealed to minimize leakage during the operational life of the facility;
3. The liner is leak tested under the supervision of an Arizona-registered professional engineer to confirm the design leakage rate; and
4. A 2- to 4-inch layer of 1/2- to 1-inch gravel or crushed stone is placed around the distribution pipes within the bed. The applicant shall ensure that the filter cloth is placed on top of the gravel or crushed stone to prevent sand from settling into the gravel or crushed stone.

G. Additional Discharge Authorization requirements. An applicant shall submit the satisfactory results of the leakage test required under subsection (F)(3) to the Department before the Department issues the Discharge Authorization.

H. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall:
1. Not allow irrigation of an evapotranspiration bed, and
2. Protect the bed from vehicle loads and other damaging activities.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E307. 4.07 General Permit: Lined Evapotranspiration Bed, Less Than 3000 Gallons Per Day Design Flow

A. A 4.07 General Permit allows for the use of a lined evapotranspiration bed receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a “lined evapotranspiration bed” means a disposal technology characterized by a bed of sand or other media with an internal wastewater distribution system contained on the bottom and sidewalls by an impervious synthetic liner.
2. An applicant may use a lined evapotranspiration bed if site conditions restrict soil infiltration or require reduction or elimination of the volume of wastewater or nitrogen load discharged to the native soil.
3. Provision of a reserve area is not required for a lined evapotranspiration bed.

B. Restrictions. Unless a person provides design documentation to show that a lined evapotranspiration bed will properly function, the person shall not install this technology if:
1. Average minimum temperature in any month is 20° F or less,
2. Over 1/3 of average annual precipitation falls in a 30-day period, or
3. Design flow exceeds net evaporation.

C. Performance. An applicant shall ensure that a lined evapotranspiration bed:
1. Prevents discharge to the native soil by a synthetic liner,
2. Attains full disposal of wastewater to the atmosphere by evapotranspiration, and
3. Prevents ponding of wastewater on the bed surface and maintains an interval of unsaturated media directly beneath the bed surface.

D. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
1. Capillary rise potential test results for the media used to fill the evapotranspiration bed, unless sand meeting a D_{50} of 0.1 millimeter (50 percent by weight of grains equal to or smaller than 0.1 millimeter in size) is used; and
2. Water mass balance calculations used to size the evapotranspiration bed.

E. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall:
1. Ensure that the evapotranspiration bed is from 18 to 36 inches deep and calculate the bed design on the basis of the capillary rise of the bed media, according to the “Standard Test Method for Capillary-Moisture Relationships for Coarse- and Medium-Textured Soils by Porous-Plate Apparatus, D2325-68 (2003),” published by the American Society for Testing and Materials and the anticipated maximum frost depth. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;
2. Ensure the media is sand or other durable material;
3. Base design area calculations on a water mass balance for the winter months;

4. Ensure that the evapotranspiration bed liner is a durable, low hydraulic conductivity synthetic liner that has a calculated bottom area and sidewall seepage rate of less than 550 gallons per acre per day;
5. If a surfacing layer is used, use topsoil, dark cinders, decomposed granite, or similar landscaping material placed to a maximum depth of 2 inches. The applicant shall ensure that:
   a. If topsoil is used as a surfacing layer for growth of landscape plants:
      i. The topsoil is a fertile, friable soil obtained from well-drained arable land;
      ii. The topsoil is free of nut grass, refuse, roots, heavy clay, clods, noxious weeds, or any other material toxic to plant growth;
      iii. The pH of the topsoil is between 5.5 and 8.0;
      iv. The plasticity index of the topsoil is between 3 and 15; and
      v. The topsoil contains approximately 1 1/2 percent organic matter, by dry weight, either natural or added;
   b. If another landscaping material is used as a surfacing layer, the material meets the following gradation:

Sieve Size	Percent Passing
1”	100
1/2”	95-100
No. 4	90-100
No. 10	70-100
No. 200	15-70

6. Use shallow-rooted, non-invasive, salt and drought tolerant evergreens if vegetation is planted on the evapotranspiration bed;
7. Install at least two observation ports to allow determination of the depth to the liquid surface of wastewater within the evapotranspiration bed;
8. Design the bed to pump out the saturated zone if accumulated salts or a similar condition impairs bed performance; and
9. Instead of the minimum vertical separation required under R18-9-A312(E), ensure that the minimum vertical separation from the bottom of the evapotranspiration bed liner to the surface of the seasonal high water table or impervious layer or formation is at least 12 inches.

F. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that:
1. All liner seams are factory fabricated or field welded according to manufacturer’s specifications. The applicant shall ensure that:
2. The liner covers the bottom and all sidewalls of the bed and is cushioned on the top and bottom with layers of sand at least 2 inches thick or other puncture-protective material;
3. If the inlet pipe passes through the liner, the joint is tightly sealed to minimize leakage during the operational life of the facility;
4. The liner is leak tested under the supervision of an Arizona-registered professional engineer; and
5. A 2- to 4-inch layer of one-half to 1-inch gravel or crushed stone is placed around the distribution pipes within the bed. The applicant shall place filter cloth on top of the gravel or crushed stone to prevent sand from settling into the crushed stone or gravel.

G. Additional Discharge Authorization requirements. An applicant shall submit the liner test results sealed by an Arizona-registered professional engineer to the Department for issuance of the Discharge Authorization.

H. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall:
1. Not allow irrigation of an evapotranspiration bed; and
2. Protect the bed from vehicle loads and other damaging activities.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E308. 4.08 General Permit: Wisconsin Mound, Less Than 3000 Gallons Per Day Design Flow

A. A 4.08 General Permit allows for the use of a Wisconsin mound with a design flow of less than 3000 gallons per day receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a “Wisconsin mound” means a disposal technology characterized by:
   a. An above-grade bed system that blends with the land surface into which is dispensed pressure dosed wastewater from a septic tank or other upstream treatment device,
   b. Dispersal of wastewater under unsaturated flow conditions through the engineered media system contained in the mound, and
   c. Wastewater treated by passage through the mound before percolation into the native soil below the mound.
2. An applicant may use a Wisconsin mound if:
   a. The native soil has excessively high or low permeability,
   b. There is little native soil overlying fractured or excessively permeable rock, or
   c. A reduction in minimum vertical separation is desired.

B. Performance. An applicant shall design a Wisconsin mound so that treated wastewater released to the native soil meets the following criteria:
1. Performance Category A.
   a. TSS of 20 milligrams per liter, 30-day arithmetic mean;
   b. BOD_5 of 20 milligrams per liter, 30-day arithmetic mean;
   c. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
   d. Total coliform level of 1000 (Log_{10} 3.0) colony forming units per 100 milliliters, 95th percentile; or
2. Performance Category B.
   a. TSS of 30 milligrams per liter, 30-day arithmetic mean;
   b. BOD_5 of 30 milligrams per liter, 30-day arithmetic mean;
   c. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
   d. Total coliform level of 300,000 (Log_{10} 5.5) colony forming units per 100 milliliters, 95th percentile.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
1. Specifications for the internal wastewater distribution system media proposed for use in the Wisconsin mound;
2. Two scaled or dimensioned cross sections of the mound (one of the shortest basal area footprint dimension and one of the lengthwise dimension); and
3. Design calculations following the "Wisconsin Mound Soil Absorption System: Siting, Design, and Construction Manual," published by the University of Wisconsin – Madison, January 1990 Edition (the Wisconsin Mound Manual). This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the University of Wisconsin – Madison, SSWMP, 1525 Observatory Drive, Room 345, Madison, WI 53706.

D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
1. Pressure dosed wastewater is delivered into the Wisconsin mound through a pressurized line and secondary distribution lines into an engineered aggregate infiltration bed, or equivalent system, in conformance with R18-9-E304 and the Wisconsin Mound Manual. The applicant shall ensure that the aggregate is washed;
2. Wastewater is applied to the inlet surface of the mound media at not more than 1.0 gallon per day per square foot of mound bed inlet surface if the mound bed media conforms with the "Standard Specification for Concrete Aggregates, C33-03 (2003)," published by the American Society for Testing and Materials and the Wisconsin Mound Manual, except if cinder sand is used that is the appropriate grade with not more than 5 percent passing a #200 screen. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959. The applicant shall:
   a. For cinder sand, ensure that the rate is not more than 0.8 gallons per day per square foot of mound bed inlet surface; and
   b. Wash the media used for the mound bed;
3. The aggregate infiltration bed and mound bed is capped by coarser textured soil, such as sand, sandy loam, or silt loam. An applicant shall not use silty clay, clay loam, or clays;
4. The cap material is covered by topsoil, following the procedure in the Wisconsin Mound Manual, and the topsoil is capable of supporting vegetation, is not clay, and is graded to drain;
5. The top and bottom surfaces of the aggregate infiltration bed are level and do not exceed 10 feet in width and that:
   a. The minimum depth of the aggregate infiltration bed is 9 inches, or
   b. Synthetic filter fabric permeable to water and air and capable of supporting the cap and topsoil load is placed on the top surface of the aggregate infiltration bed;
6. The minimum depth of mound bed media is:
   a. Performance Category A, 24 inches; or
   b. Performance Category B, 12 inches;
7. The maximum allowable side slope of the mound bed, cap material, and topsoil is not more than one vertical to three horizontal;
8. Ports for inspection and monitoring are provided to verify performance, including verification of unsaturated flow within the aggregate infiltration bed. The applicant shall:
   a. Install a vertical PVC pipe and cap with a minimum diameter of 4 inches as an inspection port at the end of the disposal line, and
   b. Install the pipe with a physical restraint to maintain pipe position;
9. The main pressurized line and secondary distribution lines for the aggregate infiltration bed are equipped at appropriate locations with cleanouts to grade;
10. The following requirements and the setbacks specified in R18-9-A312(C) are observed:
   a. Increase setbacks for the following downslope features at least 30 feet from the toe of the mound system:
      i. Property line,
      ii. Driveway,
      iii. Building,
      iv. Ditch or interceptor drain, or
      v. Any other feature that impedes water movement away from the mound; and
   b. Ensure that no upslope natural feature or improvement channels surface water or groundwater to the mound area;
11. The portion of the basal area of native soil below the mound conforms to the Wisconsin Mound Manual. The applicant shall:
   a. Calculate the absorption of wastewater into the native soil for only the effective basal area;
   b. Apply the soil absorption rate specified in R18-9-A312(D). The applicant may increase allowable loading rate to the mound bed inlet surface up to 1.6 times if the wastewater dispersed to the mound is pretreated to reduce the sum of TSS and BOD_5 to 60 mg/l or less. The applicant may increase the soil absorption rate to not more than 0.20 gallons per day per square foot of basal area if the following slowly permeable soils underlie the mound:
      i. Sandy clay loam, clay loam, silty clay loam, or finer with weak platy structure; or
      ii. Sandy clay loam, clay loam, silty clay loam, or silt loam with massive structure;
12. The slope of the native soil at the basal area does not exceed 25 percent, and a slope stability analysis is performed whenever the basal area or site slope within 50 horizontal feet from the mound system footprint exceeds 15 percent.

E. Installation. An applicant shall:
1. Prepare native soil for construction of a Wisconsin mound system. The applicant shall:
   a. Mow vegetation and cut down trees in the vicinity of the basal area site to within 2 inches of the surface;
   b. Leave in place boulders and tree stumps and other herbaceous material that would excessively alter the soil structure if removed after mowing and cutting;

c. Plow native soil serving as the basal area footprint along the contours to 7- to 8- inch depth;
d. Not substitute rototilling for plowing; and
e. Begin mound construction immediately after plowing;

2. Place each layer of the bed system to prevent differential settling and promote uniform density; and
3. Use the Wisconsin Mound Manual to guide any other detail of installation. The applicant may vary installation procedures and criteria depending on mound design but shall use installation procedures and criteria that are at least equivalent to those in the Wisconsin Mound Manual.

F. Operation and maintenance requirements. In addition to the applicable requirements specified in R18-9-A313(B), the permittee shall:

1. If an existing mound system shows evidence of overload or hydraulic failure, conduct the following sequence of evaluations:
   a. Verify the actual loading and performance of the pretreatment system.
   b. Verify the watertightness of the pretreatment and dosing tanks;
   c. Determine the dosing rates and dosing intervals to the aggregate infiltration bed and compare it with the original design to evaluate the presence or absence of saturated conditions in the aggregate infiltration bed;
   d. If the above steps in subsections (F)(1)(a) through (c) do not indicate an anomalous condition, evaluate the site and recalculation of the disposal capability to determine if mound lengthening is feasible;
   e. Determine if site modifications are possible including changing surface drainage patterns at upgrade locations and lowering the groundwater level by installing interceptor drains to reduce native soil saturation at shallow levels; and
   f. Determine if the basal area can be increased, consistent with R18-9-A309(A)(9)(b)(iv);
2. Prepare servicing and waste disposal procedures and task schedules necessary for clearing the main pressurized wastewater line and secondary distribution lines, septic tank effluent filter, pump intake, and controls.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E309. 4.09 General Permit: Engineered Pad System, Less Than 3000 Gallons Per Day Design Flow

A. A 4.09 General Permit allows for the use of an engineered pad system receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).

1. Definition. For purposes of this Section, an "engineered pad system" means a treatment and disposal technology characterized by:
   a. The delivery of pretreated wastewater by gravity or pressure distribution to the engineered pad and sand bed assembly, followed by dispersal of the wastewater into the native soil; and
   b. Wastewater movement through the engineered pad and sand bed assembly by gravity under unsaturated flow conditions to provide additional passive biological treatment.
2. The applicant may use an engineered pad system if:
   a. The native soil is excessively permeable,
   b. There is little native soil overlying fractured or excessively permeable rock, or
   c. The available area is limited for installing a disposal works authorized by R18-9-E302.

B. Performance. An applicant shall ensure that:

1. The engineered pad system is designed so that the treated wastewater released to the native soil meets the following criteria:
   a. TSS of 50 milligrams per liter, 30-day arithmetic mean;
   b. BOD_5 of 50 milligrams per liter, 30-day arithmetic mean;
   c. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
   d. Total coliform level of 1,000,000 (Log_{10} 6) colony forming units per 100 milliliters, 95th percentile; or
2. The engineered pad system is designed to meet any other performance, loading rate, and configuration criteria specified in the reviewed product list maintained by the Department as required under R18-9-A309(E).

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit design materials and construction specifications for the engineered pad system.

D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:

1. Gravity and pressurized wastewater delivery is from a septic tank or intermediate watertight chamber equipped with a pump and controls. The applicant shall ensure that:
   a. Delivered wastewater is distributed onto the top of the engineered pad system and achieves even distribution by good engineering practice, and
