Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-123 renumbered as Section R4-11-804 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-804 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Former Section R4-11-804 renumbered to R4-11-1303 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-805. Renumbered

Historical Note
Adopted as filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-805 renumbered to R4-11-1304 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-806. Renumbered

Historical Note
Adopted effective May 17, 1995 (Supp. 95-2). Former Section R4-11-806 renumbered to R4-11-1305 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 9. RESTRICTED PERMITS

R4-11-901. Application for Restricted Permit

A. An applicant for a restricted permit shall provide the following information and documentation on a form provided by the Board:
1. A sworn statement of the applicant's qualifications for a restricted permit;
2. A photograph of the applicant that is no more than six months old;
3. A letter from any other jurisdiction in which an applicant is licensed or certified verifying that the applicant is licensed or certified in that jurisdiction, sent directly from that jurisdiction to the Board;
4. If the applicant is in the military or employed by the United States government, a letter from the applicant's commanding officer or supervisor verifying the applicant is licensed or certified by the military or United States government;
5. A copy of the applicant's current cardiopulmonary resuscitation certification that meets the requirements of R4-11-301(A)(6); and
6. A copy of the applicant's pending contract with a Charitable Dental Clinic or Organization offering dental or dental hygiene services.

B. The Board may request that an applicant provide a copy of a certified document that indicates the reason for a name change if the applicant's application contains different names.

Historical Note
Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-130 renumbered as Section R4-11-901, repealed, and new Section R4-11-901 adopted effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-2). Emergency amendment adopted effective June 18, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Adopted effective July 13, 1992 (Supp. 92-3). Former Section R4-11-901 renumbered to R4-11-401, new Section R4-11-901 renumbered from R4-11-1001 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-902. Issuance of a Restricted Permit

Before issuing a restricted permit under A.R.S. §§ 32-1237 through 32-1239 or 32-1292, the Board shall investigate the statutory qualifications of the charitable dental clinic or organization. The Board shall not recognize a dental clinic or organization under A.R.S. §§ 32-1237 through 32-1239 or 32-1292 as a charitable dental clinic or organization permitted to employ dentists or dental hygienists not licensed in Arizona who hold restricted permits unless the Board makes the following findings of fact:

1. That the entity is a dental clinic or organization offering professional dental or dental hygiene services in a manner consistent with the public health;
2. That the dental clinic or organization offering dental or dental hygiene services is operated for charitable purposes only, offering dental or dental hygiene services either without compensation to the clinic or organization or with compensation at the minimum rate to provide only reimbursement for dental supplies and overhead costs;
3. That the persons performing dental or dental hygiene services for the dental clinic or organization do so without compensation; and
4. That the charitable dental clinic or organization operates in accordance with applicable provisions of law.

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-131 renumbered as Section R4-11-902, repealed, and new Section R4-11-902 adopted effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-2). Emergency amendment adopted effective June 18, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Adopted effective July 13, 1992 (Supp. 92-3). Former Section R4-11-902 renumbered to R4-11-402, new Section R4-11-902 renumbered from R4-11-1002 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-903. Recognition of a Charitable Dental Clinic or Organization

In order for the Board to make the findings required in R4-11-902, the charitable clinic or organization shall provide information to the Board, such as employment contracts with restricted permit holders, Articles and Bylaws, and financial records.

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-132 renumbered as Section R4-11-903, repealed, and new Section R4-11-903 adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-903 renumbered to R4-11-403, new Section R4-11-903 renumbered from R4-11-1003 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 29 A.A.R. 3793 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-904. Determination of Minimum Rate

In determining whether professional services are provided at the minimum rate to provide reimbursement for dental supplies and overhead costs under A.R.S. §§ 32-1237(1) or 32-1292(A)(1), the Board shall obtain and review information relating to the actual cost of dental supplies to the dental clinic or organization, the actual overhead costs of the dental clinic or organization, the amount of charges for the dental or dental hygiene services offered, and any other information relevant to its inquiry.

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-133 renumbered as Section R4-11-904 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-904 renumbered to R4-11-404, new Section R4-11-904 renumbered from R4-11-1004 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-905. Expired

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-134 renumbered as Section R4-11-905 without change effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-2). Former Section R4-11-905 renumbered to R4-11-405, new Section R4-11-905 renumbered from R4-11-1005 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-906. Expired

Historical Note

Adopted effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-4). Emergency amendment adopted effective June 18, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Adopted effective July 13, 1992 (Supp. 92-3). Former Section R4-11-906 renumbered to R4-11-406, new Section R4-11-906 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-907. Repealed

Historical Note

Adopted effective April 4, 1986 (Supp. 86-2). Former Section R4-11-907 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-908. Repealed

Historical Note

Adopted effective April 4, 1986 (Supp. 86-2). Former Section R4-11-908 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-909. Renumbered

Historical Note

Adopted effective May 17, 1995 (Supp. 95-2). Former Section R4-11-909 renumbered to R4-11-407 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 10. DENTAL TECHNICIANS

R4-11-1001. Expired

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-140 renumbered as Section R4-11-1001 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1001 renumbered to R4-11-901, new Section R4-11-1001 renumbered from R4-11-602 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-1002. Expired

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-141 renumbered as Section R4-11-1002 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1002 renumbered to R4-11-902, new Section R4-11-1002 renumbered from R4-11-603 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-1003. Renumbered

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-142 renumbered as Section R4-11-1003 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1003 renumbered to R4-11-903 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1004. Renumbered

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-143 renumbered as Section R4-11-1004 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1004 renumbered to R4-11-904 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1005. Renumbered

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-144 renumbered as Section R4-11-1005 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1005 renumbered to R4-11-905 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1006. Repealed

Historical Note
Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3).

ARTICLE 11. ADVERTISING

R4-11-1101. Advertising

A dentist may advertise specific dental services or certification in a non-specialty area only if the advertisement includes the phrase "Services provided by an Arizona licensed general dentist." A dental hygienist may advertise specific dental hygiene services only if the advertisement includes the phrase "Services provided by an Arizona licensed dental hygienist." A denturist may advertise specific denture services only if the advertisement includes the phrase "Services provided by an Arizona certified denturist."

Historical Note
Adopted effective July 29, 1981 (Supp. 81-4). Amended by repealing the former guideline on "Management of Craniomandibular Disorders" and adopting a new guideline effective June 16, 1982 (Supp. 82-3). Repealed effective November 20, 1992 (Supp. 92-4). Former Section R4-11-1101 repealed, new Section R4-11-1101 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1102. Advertising as a Recognized Specialist

A. A dentist may advertise as a specialist or use the terms "specialty" or "specialist" to describe professional services only if the dentist limits the dentist's practice exclusively to one or more specialty area that are:
1. Recognized by a board that certifies specialists for the area of specialty; and
2. Accredited by the Commission on Dental Accreditation of the American Dental Association.

B. The following specialty areas meet the requirements of subsection (A):
1. Endodontics,
2. Oral and maxillofacial surgery,
3. Orthodontics and dentofacial orthopedics,
4. Pediatric dentistry,
5. Periodontics,
6. Prosthodontics,
7. Dental Public Health,
8. Oral and Maxillofacial Pathology, and
9. Oral and Maxillofacial Radiology.

C. For purposes of this Article, a dentist who wishes to advertise as a specialist or a multiple-specialist in a recognized field under subsection (B) shall meet the criteria in one or more of the following categories:
1. Grandfathered: A dentist who declared a specialty area before December 31, 1964, according to requirements established by the American Dental Association, and has a practice limited to a dentistry area approved by the American Dental Association;
2. Educationally qualified: A dentist who has successfully completed an educational program of two or more years in a specialty area accredited by the Commission on Dental Accreditation of the American Dental Association, as specified by the Council on Dental Education of the American Dental Association;
3. Board eligible: A dentist who has met the guidelines of a specialty board that operates in accordance with the requirements established by the American Dental Association in a specialty area recognized by the Board, if the specialty board:
   a. Has established examination requirements and standards,
   b. Appraised an applicant's qualifications,
   c. Administered comprehensive examinations, and
   d. Upon completion issues a certificate to a dentist who has achieved diplomate status; or
4. Board certified: A dentist who has met the requirements of a specialty board referenced in subsection (C)(3), and who has received a certificate from the specialty board, indicating the dentist has achieved diplomate status.

D. A dentist, dental hygienist, or denturist whose advertising implies that services rendered in a dental office are of a specialty area other than those listed in subsection (B) and recognized by a specialty board that has been accredited by the Commission on Dental Accreditation of the American Dental Association violates this Article and A.R.S. § 32-1201(18)(u), and is subject to discipline under A.R.S. Title 32, Chapter 11.

Historical Note
Adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1102 renumbered to R4-11-501 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1103. Reserved

R4-11-1104. Repealed

Historical Note
Adopted effective November 25, 1985 (Supp. 85-6). Former Section R4-11-1104 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1105. Repealed

Historical Note
Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3).

ARTICLE 12. CONTINUING DENTAL EDUCATION AND RENEWAL REQUIREMENTS

R4-11-1201. Continuing Dental Education

A. A licensee or certificate holder shall:
1. Satisfy a continuing dental education requirement that is designed to provide an understanding of current developments, skills, procedures, or treatment related to the licensee's or certificate holder's practice; and
2. Complete the recognized continuing dental education required by this Article each renewal period.

B. A licensee or certificate holder receiving an initial license or certificate shall complete the prescribed credit hours of recognized continuing dental education by the end of the first full renewal period.

Historical Note
Adopted effective May 21, 1982 (Supp. 82-3). Former Section R4-11-1201 renumbered to R4-11-801, new Section R4-11-1201 renumbered from R4-11-1402 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1202. Continuing Dental Education Compliance and Renewal Requirements

A. When applying for a renewal license, certificate, or restricted permit, a Licensee, denturist, or Restricted Permit Holder shall complete a renewal application provided by the Board.

B. Before receiving a renewal license or certificate, each Licensee or denturist shall possess a current form of one of the following:
1. A cardiopulmonary resuscitation healthcare provider level certificate from the American Red Cross, the American Heart Association, or another certifying agency;
2. Advanced cardiac life support course completion confirmation from the American Heart Association or another agency. The confirmation must indicate that the course was completed within two years immediately before submitting a renewal application; or
3. Pediatric advanced life support course completion confirmation from the American Heart Association or another agency. The confirmation must indicate that the course was completed within two years immediately before submitting a renewal application.

C. A Licensee or denturist shall include an affidavit affirming the Licensee's or denturist's completion of the prescribed Credit Hours of Recognized Continuing Dental Education with a renewal application. A Licensee or denturist shall include on the affidavit the Licensee's or denturist's name, license or certificate number, the number of hours completed in each category, and the total number of hours completed for activities defined in R4-11-1209(A)(4).

D. A Licensee or denturist shall submit a written request for an extension before the renewal deadline prescribed in A.R.S. §§ 32-1236, 32-1276.02, 32-1287, and 32-1297.06. If a Licensee or denturist fails to meet the Credit Hours requirement because of military service, dental or religious missionary activity, residence in a foreign country, or other extenuating circumstances as determined by the Board, the Board, upon written request, may grant an extension of time to complete the Recognized Continuing Dental Education Credit Hour requirement.

E. The Board shall:
1. Only accept Recognized Continuing Dental Education credits accrued during the prescribed period immediately before license or certificate renewal, and
2. Not allow Recognized Continuing Dental Education credit accrued in a renewal period in excess of the amount required in this Article to be carried forward to the next renewal period.

F. A Licensee or denturist shall maintain Documentation of Attendance for each program for which credit is claimed that verifies the Recognized Continuing Dental Education Credit Hours the Licensee or denturist participated in during the most recently completed renewal period.

G. Each year, the Board shall audit continuing dental education requirement compliance on a random basis or when information is obtained which indicates a Licensee or denturist may not be in compliance with this Article. A Licensee or denturist selected for audit shall provide the Board with Documentation of Attendance that shows compliance with the continuing dental education requirements within 35 calendar days from the date the Board issues notice of the audit by certified mail.

H. If a Licensee or denturist is found to not be in compliance with the continuing dental education requirements, the Board may take any disciplinary or non-disciplinary action authorized by A.R.S. Title 32, Chapter 11.

Historical Note
Adopted effective May 21, 1982 (Supp. 82-3). Former Section R4-11-1202 renumbered to R4-11-802, new Section R4-11-1202 renumbered from R4-11-1403 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 21 A.A.R. 921, effective August 3, 2015 (Supp. 15-2). Amended by final rulemaking at 28 A.A.R. 344 (February 4, 2022), effective March 14, 2022 (Supp. 22-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022

(Supp. 22-3).

R4-11-1203. Dentists and Dental Consultants

Dentists and dental consultants shall complete 63 hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 36 Credit Hours in any one or more of the following areas: Dental and medical health, preventive services, dental diagnosis and treatment planning, dental recordkeeping, dental clinical procedures, managing medical emergencies, pain management, dental public health, and courses in corrective and restorative oral health and basic dental sciences, which may include current research, new concepts in dentistry, chemical dependency, tobacco cessation, and behavioral and biological sciences that are oriented to dentistry. A Licensee who holds a permit to administer General Anesthesia, Deep Sedation, Parenteral Sedation, or Oral Sedation who is required to obtain continuing education pursuant to Article 13 may apply those Credit Hours to the requirements of this Section;
2. No more than 15 Credit Hours in one or more of the following areas: Dental practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in opioid education;
4. At least three Credit Hours in infectious diseases or infectious disease control;
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support or pediatric advanced life support. Coursework may be completed online if the course requires a physical demonstration of skills; and
6. At least three Credit Hours in ethics or Arizona dental jurisprudence.

Historical Note

Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3). New Section R4-11-1203 renumbered from R4-11-1404 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1204. Dental Hygienists

A. A dental hygienist shall complete 45 Credit Hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 25 Credit Hours in any one or more of the following areas: Dental and medical health, and dental hygiene services, periodontal disease, care of implants, maintenance of cosmetic restorations and sealants, radiology safety and techniques, managing medical emergencies, pain management, dental recordkeeping, dental public health, and new concepts in dental hygiene;
2. No more than 11 Credit Hours in one or more of the following areas: Dental hygiene practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in one or more of the following areas: chemical dependency, tobacco cessation, ethics, risk management, or Arizona dental jurisprudence;
4. At least three Credit Hours in infectious diseases or infectious disease control; and
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support and pediatric advanced life support. Coursework may be completed online if the course re-quires a physical demonstration of skills.

B. A Licensee who performs dental hygiene services under an affiliated practice relationship who is required to obtain continuing education under R4-11-609 may apply those Credit Hours to the requirements of this Section.

Historical Note

New Section R4-11-1204 renumbered from R4-11-1405 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1205. Denturists

Denturists shall complete 27 Credit Hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 15 Credit Hours in any one or more of the following areas: Medical and dental health, laboratory procedures, clinical procedures, dental recordkeeping, removable prosthetics, pain management, dental public health, and new technology in dentistry;
2. No more than three Credit Hours in one or more of the following areas: Denturist practice organization and management, patient management skills, and methods of health care delivery;
3. At least one Credit Hour in chemical dependency, which may include tobacco cessation;
4. At least two Credit Hours in infectious diseases or infectious disease control;
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support and pediatric advanced life support. Coursework may be completed online if the course re-quires a physical demonstration of skills; and
6. At least three Credit Hours in ethics or Arizona dental jurisprudence.

Historical Note

New Section R4-11-1205 renumbered from R4-11-1406 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1206. Restricted Permit Holders - Dental

In addition to the requirements in R4-11-1202, a dental Restricted Permit Holder shall comply with the following requirements:

1. When applying for renewal under A.R.S. § 32-1238, the Restricted Permit Holder shall provide information to the Board that the Restricted Permit Holder has completed 15 Credit Hours of Recognized Continuing Dental Education yearly.

2. To determine whether to grant the renewal, the Board shall only consider Recognized Continuing Dental Education credits accrued during the 36 months immediately before the renewal deadline prescribed in A.R.S. § 32-1236.
3. A dental Restricted Permit Holder shall complete the 15 hours of Recognized Continuing Dental Education before renewal as follows:
   a. At least six Credit Hours in one or more of the subjects enumerated in R4-11-1203(1);
   b. No more than three Credit Hours in one or more of the subjects enumerated in R4-11-1203(2);
   c. At least one Credit Hour in the subjects enumerated in R4-11-1203(3);
   d. At least one Credit Hour in the subjects enumerated in R4-11-1203(4).
   e. At least three Credit Hours in the subjects enumerated in R4-11-1203(5); and
   f. At least one Credit Hour in the subjects enumerated in R4-11-1203(6).

Historical Note

New Section R4-11-1206 renumbered from R4-11-1407 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 344 (February 4, 2022), effective March 14, 2022 (Supp. 22-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1207. Restricted Permit Holders - Dental Hygiene

In addition to the requirements in R4-11-1202, a dental hygiene Restricted Permit Holder shall comply with the following:

1. When applying for renewal under A.R.S. § 32-1292, the Restricted Permit Holder shall provide information to the Board that the Restricted Permit Holder has completed nine Credit Hours of Recognized Continuing Dental Education yearly.
2. To determine whether to grant renewal, the Board shall only consider Recognized Continuing Dental Education credits accrued during the 36 months immediately before the renewal deadline prescribed in A.R.S. § 32-1287.
3. A dental hygiene Restricted Permit Holder shall complete the nine hours of Recognized Continuing Dental Education before renewal as follows:
   a. At least three Credit Hours in one or more of the subjects enumerated in R4-11-1204(1);
   b. No more than three Credit Hours in one or more of the subjects enumerated in R4-11-1204(2);
   c. At least one Credit Hour in the subjects enumerated in R4-11-1204(3);
   d. At least two Credit Hours in the subjects enumerated in R4-11-1204(4) and
   e. At least three Credit Hours in the subjects enumerated in R4-11-1204(5).

Historical Note

New Section R4-11-1207 renumbered from R4-11-1408 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 344 (February 4, 2022), effective March 14, 2022 (Supp. 22-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1208. Retired Licensees or Retired Denturists

A Retired Licensee or Retired denturist shall:

1. Except for the number of Credit Hours required, comply with the requirements in R4-11-1202; and
2. When applying for renewal under A.R.S. § 32-1236 for a dentist, A.R.S. § 32-1276.02 for a dental therapist, A.R.S. § 32-1287 for a dental hygienist, and A.R.S. § 32-1297.06 for a denturist, provide information to the Board that the Retired Licensee or Retired denturist has completed the following Credit Hours of Recognized Continuing Dental Education per renewal period:
   a. Dentist - 24 Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation-healthcare provider level;
   b. Dental therapist - 21 Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation- healthcare provider level;
   c. Dental hygienist - 18 Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation-healthcare provider level; and
   d. Denturist - six Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation-healthcare provider level.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1209. Types of Courses

A. A Licensee or denturist shall obtain Recognized Continuing Dental Education from one or more of the following activities:

1. Seminars, symposiums, lectures, or programs designed to provide an understanding of current developments, skills, procedures, or treatment related to the practice of dentistry;
2. Seminars, symposiums, lectures, or programs designed to provide an understanding of current developments, skills, procedures, or treatment related to the practice of dentistry by means of audio-video technology in which the Licensee is provided all seminar, symposium, lecture or program materials and the technology permits attendees to fully participate; or
3. Curricula designed to prepare for specialty board certification as a specialist or recertification examinations or advanced training at an accredited institution as defined in A.R.S. Title 32, Chapter 11; and
4. Subject to the limitations in subsection (B), any of the following activities that provide an understanding of current developments, skills, procedures, or treatment related to the practice of dentistry:
   a. A correspondence course, video, internet or similar self-study course, if the course includes an examination and the Licensee or denturist passes the examination;
   b. Participation on the Board, in Board complaint investigations including Clinical Evaluations or anesthesia and sedation permit evaluations;

c. Participation in peer review of a national or state dental, dental therapy, dental hygiene, or denturist association or participation in quality of care or utilization review in a hospital, institution, or governmental agency;
d. Providing dental-related instruction to dental, dental therapy, dental hygiene, or denturist students, or allied health professionals in a recognized dental school, recognized dental therapy school, recognized dental hygiene school, or recognized denturist school or providing dental-related instruction sponsored by a national, state, or local dental, dental therapy, dental hygiene, or denturist association;
e. Publication or presentation of a dental paper, report, or book authored by the Licensee or denturist that provides information on current developments, skills, procedures, or treatment related to the practice of dentistry. A Licensee or denturist may claim Credit Hours:
i. Only once for materials presented;
ii. Only if the date of publication or original presentation was during the applicable renewal period; and
iii. One Credit Hour for each hour of preparation, writing, and presentation; or
f. Providing dental, dental therapy, dental hygiene, or denturist services in a Board-recognized Charitable Dental Clinic or Organization.

B. The following limitations apply to the total number of Credit Hours earned per renewal period in any combination of the activities listed in subsection (A)(4):
1. Dentists, no more than 21 hours;
2. Dental therapists, no more than 18 hours;
3. Dental hygienists, no more than 15 hours;
4. Denturists, no more than nine hours;
5. Retired or Restricted Permit Holder dentists, dental therapists, or dental hygienists, no more than two hours; and
6. Retired denturists, no more than two hours.

Historical Note
New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1210. Dental Therapists

Dental therapists shall complete 54 hours of Recognized Continuing Dental Education in each renewal period as follows:
1. At least 31 Credit Hours in any one or more of the following areas: Dental and medical health, dental therapy services, dental therapy treatment planning, preventive services, dental diagnosis and treatment planning, dental recordkeeping, dental clinical procedures, managing medical emergencies, pain management, dental public health, periodontal disease, care of implants, maintenance of cosmetic restorations and sealants, radiology safety and techniques, and courses in corrective and restorative oral health and basic dental sciences, which may include current research, new concepts in dentistry, and behavioral and biological sciences that are oriented to dentistry;
2. No more than 14 Credit Hours in any one or more of the following areas: Dental practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in infectious diseases or infectious disease control;
4. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support or pediatric advanced life support. Coursework may be completed online if the course requires a physical demonstration of skills; and
5. At least three Credit Hours in any one or more of the following areas: ethics, risk management, chemical dependency, tobacco cessation, or Arizona dental jurisprudence.

Historical Note
New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

ARTICLE 13. GENERAL ANESTHESIA AND SEDATION

R4-11-1301. General Anesthesia and Deep Sedation

A. Before administering General Anesthesia, or Deep Sedation by any means, in a dental office or dental clinic, a dentist shall possess a Section 1301 Permit issued by the Board. The dentist may renew a Section 1301 Permit every five years by complying with R4-11-1307.

B. To obtain or renew a Section 1301 Permit, a dentist shall:
1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3), and R4-11-1307, includes:
a. General information about the applicant such as:
i. Name;
ii. Home and office addresses and telephone numbers;
iii. Limitations of practice;
iv. Hospital affiliations;
v. Denial, curtailment, revocation, or suspension of hospital privileges;
vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist has read and complied with the Board's statutes and rules;
2. On forms provided by the Board, provide a dated and signed affidavit attesting that any office or dental clinic where the dentist will administer General Anesthesia or Deep Sedation:
a. Contains the following properly operating equipment and supplies during the provision of General Anesthesia and Deep Sedation:
i. Emergency Drugs;
ii. Electrocardiograph monitor;
iii. Pulse oximeter;
iv. Cardiac defibrillator or automated external defibrillator;
v. Positive pressure oxygen and supplemental oxygen;
vi. Suction equipment, including endotracheal, tonsillar, or pharyngeal and emergency backup medical suction device;

vii. Laryngoscope, multiple blades, backup batteries, and backup bulbs;
viii. Endotracheal tubes and appropriate connectors;
ix. Magill forceps;
x. Oropharyngeal and nasopharyngeal airways;
xi. Auxiliary lighting;
xii. Stethoscope; and
xiii. Blood pressure monitoring device; and

b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents. All personnel involved in administering and monitoring General Anesthesia or Deep Sedation shall hold a current course completion confirmation in cardiopulmonary resuscitation healthcare provider level;

3. Hold a valid license to practice dentistry in this state;
4. Maintain a current permit to prescribe and administer Controlled Substances in this state issued by the United States Drug Enforcement Administration; and
5. Provide confirmation of completing coursework within the two years prior to submitting the permit application in one or more of the following:
   a. Advanced cardiac life support from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   b. Pediatric advanced life support in a practice treating pediatric patients; or
   c. A recognized continuing education course in advanced airway management.

C. Initial applicants shall meet one or more of the following conditions by submitting to the Board verification of meeting the condition directly from the issuing institution:
1. Complete, within the three years before submitting the permit application, a full credit load, as defined by the training program, during one calendar year of training, in anesthesiology or related academic subjects, beyond the undergraduate dental school level in a training program described in R4-11-1306(A), offered by a hospital accredited by the Joint Commission on Accreditation of Hospitals Organization, or sponsored by a university accredited by the American Dental Association Commission on Dental Accreditation;
2. Be, within the three years before submitting the permit application, a Diplomate of the American Board of Oral and Maxillofacial Surgeons or eligible for examination by the American Board of Oral and Maxillofacial surgeons, a Fellow of the American Association of Oral and Maxillofacial surgeons, a Fellow of the American Dental Society of Anesthesiology, a Diplomate of the National Dental Board of Anesthesiology, or a Diplomate of the American Dental Board of Anesthesiology; or
3. For an applicant who completed the requirements of subsections (C)(1) or (C)(2) more than three years before submitting the permit application, provide the following documentation:
   a. On a form provided by the Board, a written affidavit affirming that the applicant has administered General Anesthesia or Deep Sedation to a minimum of 25 patients within the year before submitting the permit application or 75 patients within the last five years before submitting the permit application;
   b. A copy of the General Anesthesia or Deep Sedation permit in effect in another state or certification of military training in General Anesthesia or Deep Sedation from the applicant's commanding officer; and
   c. On a form provided by the Board, a written affidavit affirming the completion of 30 clock hours of continuing education taken within the last five years as outlined in R4-11-1306(B)(1)(a) through (f).

D. After submitting the application and written evidence of compliance with requirements in subsection (B) and, if applicable, subsection (C) to the Board, the applicant shall schedule an onsite evaluation by the Board during which the applicant shall administer General Anesthesia or Deep Sedation. After the applicant completes the application requirements and successfully completes the onsite evaluation, a Section 1301 Permit shall be issued to the applicant.
1. The onsite evaluation team shall consist of:
   a. Two dentists who are Board members, or Board designees for initial applications; or
   b. One dentist who is a Board member or Board designee for renewal applications.
2. The onsite team shall evaluate the following:
   a. The availability of equipment and personnel as specified in subsection (B)(2);
   b. Proper administration of General Anesthesia or Deep Sedation to a patient by the applicant in the presence of the evaluation team;
   c. Successful responses by the applicant to oral examination questions from the evaluation team about patient management, medical emergencies, and emergency medications;
   d. Proper documentation of Controlled Substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of Controlled Substances;
   e. Proper recordkeeping as specified in subsection (E) by reviewing the records generated for the patient specified in subsection (D)(2)(b); and
   f. For renewal applicants, records supporting continued competency as specified in R4-11-1306.
3. The evaluation team shall recommend one of the following:
   a. Pass. Successful completion of the onsite evaluation;
   b. Conditional Approval for failing to have appropriate equipment, proper documentation of Controlled Substances, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before a permit is issued;
   c. Category 1 Evaluation Failure. The applicant must review the appropriate subject matter and schedule a subsequent evaluation by two Board Members or Board designees not less than 30 days from the failed evaluation. An example is failure to recognize and manage one emergency;
   d. Category 2 Evaluation Failure. The applicant must complete Board approved continuing education in subject matter within the scope of the onsite evaluation as identified by the evaluators and schedule a subsequent evaluation by two Board Members or Board designees not less than 60 days from the failed evaluation. An example is failure to recognize and manage more than one emergency; or
   e. Category 3 Evaluation Failure. The applicant must complete Board approved remedial continuing edu-

cation with the subject matter outlined in R4-11-1306 as identified by the evaluators and reapply not less than 90 days from the failed evaluation. An example is failure to recognize and manage an anesthetic urgency.

4. The onsite evaluation of an additional dental office or dental clinic in which General Anesthesia or Deep Sedation is administered by an existing Section 1301 Permit holder may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (D)(2)(a).
5. A Section 1301 mobile permit may be issued if a Section 1301 Permit holder travels to dental offices or dental clinics to provide anesthesia or Deep Sedation. The applicant must submit a completed affidavit verifying:
   a. That the equipment and supplies for the provision of anesthesia or Deep Sedation as required in subsection (B)(2)(a) either travel with the Section 1301 Permit holder or are in place and in appropriate condition at the dental office or dental clinic where anesthesia or Deep Sedation is provided, and
   b. Compliance with subsection (B)(2)(b).

E. A Section 1301 Permit holder shall keep an anesthesia or Deep Sedation record for each General Anesthesia and Deep Sedation procedure that includes the following entries:

1. Pre-operative and post-operative electrocardiograph documentation;
2. Pre-operative, intra-operative, and post-operative pulse oximeter documentation;
3. Pre-operative, intra-operative, and post-operative blood pressure and vital sign documentation;
4. A list of all medications given, with dosage and time intervals, and route and site of administration;
5. Type of catheter or portal with gauge;
6. Indicate nothing by mouth or time of last intake of food or water;
7. Consent form; and
8. Time of discharge and status, including name of escort.

F. The Section 1301 Permit holder, for intravenous access, shall use a new infusion set, including a new infusion line and new bag of fluid, for each patient.

G. The Section 1301 Permit holder shall utilize supplemental oxygen for patients receiving General Anesthesia or Deep Sedation for the duration of the procedure.

H. The Section 1301 Permit holder shall continuously supervise the patient from the initiation of anesthesia or Deep Sedation until termination of the anesthesia or Deep Sedation procedure and oxygenation, ventilation, and circulation are stable. The Section 1301 Permit holder shall not commence with the administration of a subsequent anesthetic case until the patient is in monitored recovery or meets the guidelines for discharge.

I. A Section 1301 Permit holder may employ the following health care professionals to provide anesthesia or sedation services and shall ensure that the health care professional continuously supervises the patient from the administration of anesthesia or sedation until termination of the anesthesia or sedation procedure and oxygenation, ventilation, and circulation are stable:

1. An allopathic or osteopathic physician currently licensed in Arizona by the Arizona Medical Board or the Arizona Board of Osteopathic Examiners who has successfully completed a residency program in anesthesiology approved by the American Council on Graduate Medical Education or the American Osteopathic Association or who is certified by either the American Board of Anesthesiology or the American Osteopathic Board of Anesthesiology and is credentialed with anesthesia privileges through an Arizona licensed medical facility, or
2. A Certified Registered Nurse Anesthesiology currently licensed in Arizona who provides services under the Nurse Practice Act in A.R.S. Title 32, Chapter 15.

J. A Section 1301 Permit holder may also administer parenteral sedation without obtaining a Section 1302 Permit.

Historical Note

New Section R4-11-1301 renumbered from R4-11-802 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1302. Parenteral Sedation

A. Before administering parenteral sedation in a dental office or dental clinic, a dentist shall possess a Section 1302 Permit issued by the Board. The dentist may renew a Section 1302 Permit every five years by complying with R4-11-1307.

1. A Section 1301 Permit holder may also administer parenteral sedation.
2. A Section 1302 Permit holder shall not administer or employ any agents which have a narrow margin for maintaining consciousness including, but not limited to, ultrashort acting barbiturates, propofol, parenteral ketamine, or similarly acting Drugs, agents, or techniques, or any combination thereof that would likely render a patient deeply sedated, generally anesthetized or otherwise not meeting the conditions of Moderate Sedation.

B. To obtain or renew a Section 1302 Permit, the dentist shall:

1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3) and R4-11-1307, includes:
   a. General information about the applicant such as:
      i. Name;
      ii. Home and office addresses and telephone numbers;
      iii. Limitations of practice;
      iv. Hospital affiliations;
      v. Denial, curtailment, revocation, or suspension of hospital privileges;
      vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
      vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
   b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist has read and complied with the Board's statutes and rules;
2. On forms provided by the Board, provide a dated and signed affidavit attesting that any dental office or dental clinic where the dentist will administer parenteral sedation by intravenous or intramuscular route:
   a. Contains the following properly operating equipment and supplies during the provision of parenteral sedation by the permit holder or General Anesthesia

or Deep Sedation by a physician anesthesiologist or Certified Registered Nurse Anesthetist:
i. Emergency Drugs;
ii. Positive pressure oxygen and supplemental oxygen;
iii. Stethoscope;
iv. Suction equipment, including tonsillar or pharyngeal and emergency backup medical suction device;
v. Oropharyngeal and nasopharyngeal airways;
vi. Pulse oximeter;
vii. Auxiliary lighting;
viii. Blood pressure monitoring device; and
ix. Cardiac defibrillator or automated external defibrillator; and

b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents, including at least one staff member who:
i. Holds a current course completion confirmation in cardiopulmonary resuscitation healthcare provider level;
ii. Is present during the parenteral sedation procedure; and
iii. After the procedure, monitors the patient until discharge;

3. Hold a valid license to practice dentistry in this state;
4. Maintain a current permit to prescribe and administer Controlled Substances in this state issued by the United States Drug Enforcement Administration;
5. Provide confirmation of completing coursework within the two years prior to submitting the permit application in one or more of the following:
a. Advanced cardiac life support from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
b. Pediatric advanced life support in a practice treating pediatric patients; or
c. A recognized continuing education course in advanced airway management.

C. Initial applicants shall meet one of the following conditions by submitting to the Board verification of meeting the condition directly from the issuing institution:
1. Successfully complete Board-recognized undergraduate, graduate, or postgraduate education within the three years before submitting the permit application, that includes the following:
a. Sixty didactic hours of basic parenteral sedation to include:
i. Physical evaluation;
ii. Management of medical emergencies;
iii. The importance of and techniques for maintaining proper documentation; and
iv. Monitoring and the use of monitoring equipment; and
b. Hands-on administration of parenteral sedative medications to at least 20 patients in a manner consistent with this Section; or
2. An applicant who completed training in parenteral sedation more than three years before submitting the permit application shall provide the following documentation:
a. On a form provided by the Board, a written affidavit affirming that the applicant has administered parenteral sedation to a minimum of 25 patients within the year or 75 patients within the last five years before submitting the permit application;
b. A copy of the parenteral sedation permit in effect in another state or certification of military training in parenteral sedation from the applicant's commanding officer; and
c. On a form provided by the Board, a written affidavit affirming the completion of 30 clock hours of continuing education taken within the last five years as outlined in R4-11-1306(B)(1)(b) through (f).

D. After submitting the application and written evidence of compliance with requirements outlined in subsection (B) and, if applicable, subsection (C) to the Board, the applicant shall schedule an onsite evaluation by the Board during which the applicant shall administer parenteral sedation. After the applicant completes the application requirements and successfully completes the onsite evaluation, the Board shall issue a Section 1302 Permit to the applicant.
1. The onsite evaluation team shall consist of:
a. Two dentists who are Board members, or Board designees for initial applications, or
b. One dentist who is a Board member or Board designee for renewal applications.
2. The onsite team shall evaluate the following:
a. The availability of equipment and personnel as specified in subsection (B)(2);
b. Proper administration of parenteral sedation to a patient by the applicant in the presence of the evaluation team;
c. Successful responses by the applicant to oral examination questions from the evaluation team about patient management, medical emergencies, and emergency medications;
d. Proper documentation of Controlled Substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of all Controlled Substances;
e. Proper recordkeeping as specified in subsection (E) by reviewing the records generated for the patient receiving parenteral sedation as specified in subsection (D)(2)(b); and
f. For renewal applicants, records supporting continued competency as specified in R4-11-1306.
3. The evaluation team shall recommend one of the following:
a. Pass. Successful completion of the onsite evaluation;
b. Conditional Approval for failing to have appropriate equipment, proper documentation of Controlled Substances, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before a permit is issued;
c. Category 1 Evaluation Failure. The applicant must review the appropriate subject matter and schedule a subsequent evaluation by two Board Members or Board designees not less than 30 days from the failed evaluation. An example is failure to recognize and manage one emergency;
d. Category 2 Evaluation Failure. The applicant must complete Board approved continuing education in subject matter within the scope of the onsite evaluation as identified by the evaluators and schedule a subsequent evaluation by two Board Members or Board designees not less than 60 days from the

failed evaluation. An example is failure to recognize and manage more than one emergency; or

e. Category 3 Evaluation Failure. The applicant must complete Board approved remedial continuing education with the subject matter outlined in R4-11-1306 as identified by the evaluators and reapply not less than 90 days from the failed evaluation. An example is failure to recognize and manage an anesthetic urgency.

4. The onsite evaluation of an additional dental office or dental clinic in which parenteral sedation is administered by an existing Section 1302 Permit holder may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (D)(2)(a).
5. A Section 1302 mobile permit may be issued if a Section 1302 Permit holder travels to dental offices or dental clinics to provide parenteral sedation. The applicant must submit a completed affidavit verifying:
   a. That the equipment and supplies for the provision of parenteral sedation as required in R4-11-1302(B)(2)(a) either travel with the Section 1302 Permit holder or are in place and in appropriate working condition at the dental office or dental clinic where parenteral sedation is provided, and
   b. Compliance with R4-11-1302(B)(2)(b).

E. A Section 1302 Permit holder shall keep a parenteral sedation record for each parenteral sedation procedure that:
1. Includes the following entries:
   a. Pre-operative, intra-operative, and post-operative pulse oximeter documentation;
   b. Pre-operative, intra-operative, and post-operative blood pressure and vital sign documentation;
   c. A list of all medications given, with dosage and time intervals and route and site of administration;
   d. Type of catheter or portal with gauge;
   e. Indicate nothing by mouth or time of last intake of food or water;
   f. Consent form; and
   g. Time of discharge and status, including name of escort; and
2. May include pre-operative and post-operative electrocardiograph report.

F. The Section 1302 Permit holder shall establish intravenous access on each patient receiving parenteral sedation utilizing a new infusion set, including a new infusion line and new bag of fluid.

G. The Section 1302 Permit holder shall utilize supplemental oxygen for patients receiving parenteral sedation for the duration of the procedure.

H. The Section 1302 Permit holder shall continuously supervise the patient from the initiation of parenteral sedation until termination of the parenteral sedation procedure and oxygenation, ventilation and circulation are stable. The Section 1302 Permit holder shall not commence with the administration of a subsequent anesthetic case until the patient is in monitored recovery or meets the guidelines for discharge.

I. A Section 1302 Permit holder may employ a health care professional as specified in R4-11-1301(I).

Historical Note

New Section R4-11-1302 renumbered from R4-11-803 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1303. Oral Sedation

A. Before administering Oral Sedation in a dental office or dental clinic, a dentist shall possess a Section 1303 Permit issued by the Board. The dentist may renew a Section 1303 Permit every five years by complying with R4-11-1307.
1. A Section 1301 Permit holder or Section 1302 Permit holder may also administer Oral Sedation without obtaining a Section 1303 Permit.
2. The administration of a single Drug for Minimal Sedation does not require a Section 1303 Permit if:
   a. The administered dose is within the Food and Drug Administration's maximum recommended dose as printed in the Food and Drug Administration's approved labeling for unmonitored home use;
      i. Incremental multiple doses of the Drug may be administered until the desired effect is reached, but does not exceed the maximum recommended dose; and
      ii. During Minimal Sedation, a single supplemental dose may be administered. The supplemental dose may not exceed one-half of the initial dose and the total aggregate dose may not exceed one and one-half times the Food and Drug Administration's maximum recommended dose on the date of treatment; and
   b. Nitrous oxide/oxygen may be administered in addition to the oral Drug as long as the combination does not exceed Minimal Sedation.

B. To obtain or renew a Section 1303 Permit, a dentist shall:
1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3) and R4-11-1307, includes:
   a. General information about the applicant such as:
      i. Name;
      ii. Home and office addresses and telephone numbers;
      iii. Limitations of practice;
      iv. Hospital affiliations;
      v. Denial, curtailment, revocation, or suspension of hospital privileges;
      vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
      vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
   b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist has read and complied with the Board's statutes and rules;
2. On forms provided by the Board, provide a dated and signed affidavit attesting that any dental office or dental clinic where the dentist will administer Oral Sedation:
   a. Contains the following properly operating equipment and supplies during the provision of sedation:
      i. Emergency Drugs;
      ii. Cardiac defibrillator or automated external defibrillator;
      iii. Positive pressure oxygen and supplemental oxygen;
      iv. Stethoscope;

v. Suction equipment, including tonsillar or pharyngeal and emergency backup medical suction device;
vi. Pulse oximeter;
vii. Blood pressure monitoring device; and
viii. Auxiliary lighting; and

b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents, including at least one staff member who:
i. Holds a current certificate in cardiopulmonary resuscitation healthcare provider level;
ii. Is present during the Oral Sedation procedure; and
iii. After the procedure, monitors the patient until discharge;

3. Hold a valid license to practice dentistry in this state;
4. Maintain a current permit to prescribe and administer Controlled Substances in this state issued by the United States Drug Enforcement Administration;
5. Provide confirmation of completing coursework within the two years prior to submitting the permit application in one or more of the following:
a. Cardiopulmonary resuscitation healthcare provider level from the American Heart Association, American Red Cross, or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association or American Red Cross;
b. Pediatric advanced life support in a practice treating pediatric patients; or
c. A recognized continuing education course in advanced airway management.

C. Initial applicants shall meet one of the following by submitting to the Board verification of meeting the condition directly from the issuing institution:
1. Complete a Board-recognized post-doctoral residency program that includes documented training in Oral Sedation within the last three years before submitting the permit application; or
2. Complete a Board recognized post-doctoral residency program that includes documented training in Oral Sedation more than three years before submitting the permit application shall provide the following documentation:
a. On a form provided by the Board, a written affidavit affirming that the applicant has administered Oral Sedation to a minimum of 25 patients within the year or 75 patients within the last five years before submitting the permit application;
b. A copy of the Oral Sedation permit in effect in another state or certification of military training in Oral Sedation from the applicant's commanding officer; and
c. On a form provided by the Board, a written affidavit affirming the completion of 30 hours of continuing education taken within the last five years as outlined in R4-11-1306(C)(1)(a) through (f); or
3. Provide proof of participation in 30 clock hours of Board-recognized undergraduate, graduate, or post-graduate education in Oral Sedation within the three years before submitting the permit application that includes:
a. Training in basic Oral Sedation,
b. Pharmacology,
c. Physical evaluation,
d. Management of medical emergencies,
e. The importance of and techniques for maintaining proper documentation, and
f. Monitoring and the use of monitoring equipment.

D. After submitting the application and written evidence of compliance with requirements in subsection (B) and, if applicable, subsection (C) to the Board, the applicant shall schedule an onsite evaluation by the Board. After the applicant completes the application requirements and successfully completes the onsite evaluation, the Board shall issue a Section 1303 Permit to the applicant.
1. The onsite evaluation team shall consist of:
a. For initial applications, two dentists who are Board members, or Board designees.
b. For renewal applications, one dentist who is a Board member, or Board designee.
2. The onsite team shall evaluate the following:
a. The availability of equipment and personnel as specified in subsection (B)(2);
b. Successful responses by the applicant to oral examination questions from the evaluation team about patient management, medical emergencies, and emergency medications;
c. Proper documentation of Controlled Substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of Controlled Substances;
d. Proper recordkeeping as specified in subsection (E) by reviewing the forms that document the Oral Sedation record; and
e. For renewal applicants, records supporting continued competency as specified in R4-11-1306.
3. The evaluation team shall recommend one of the following:
a. Pass. Successful completion of the onsite evaluation;
b. Conditional Approval for failing to have appropriate equipment, proper documentation of Controlled Substance, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before permit will be issued;
c. Category 1 Evaluation Failure. The applicant must review the appropriate subject matter and schedule a subsequent evaluation by two Board Members or Board designees not less than 30 days from the failed evaluation. An example is failure to recognize and manage one emergency; or
d. Category 2 Evaluation Failure. The applicant must complete Board approved continuing education in subject matter within the scope of the onsite evaluation as identified by the evaluators and schedule a subsequent evaluation by two Board Members or Board designees not less than 60 days from the failed evaluation. An example is failure to recognize and manage more than one emergency.
4. The onsite evaluation of an additional dental office or dental clinic in which Oral Sedation is administered by a Section 1303 Permit holder may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (D)(2)(a).
5. A Section 1303 mobile permit may be issued if the Section 1303 Permit holder travels to dental offices or dental clinics to provide Oral Sedation. The applicant must submit a completed affidavit verifying:

a. That the equipment and supplies for the provision of Oral Sedation as required in R4-11-1303(B)(2)(a) either travel with the Section 1303 Permit holder or are in place and in appropriate condition at the dental office or dental clinic where Oral Sedation is provided, and
b. Compliance with R4-11-1303(B)(2)(b).

E. A Section 1303 Permit holder shall keep an Oral Sedation record for each Oral Sedation procedure that:
1. Includes the following entries:
a. Pre-operative, intra-operative, and post-operative, pulse oximeter oxygen saturation and pulse rate documentation;
b. Pre-operative and post-operative blood pressure;
c. Documented reasons for not taking vital signs if a patient's behavior or emotional state prevents monitoring personnel from taking vital signs;
d. List of all medications given, including dosage and time intervals;
e. Patient's weight;
f. Consent form;
g. Special notes, such as, nothing by mouth or last intake of food or water; and
h. Time of discharge and status, including name of escort; and
2. May include the following entries:
a. Pre-operative and post-operative electrocardiograph report; and
b. Intra-operative blood pressures.

F. The Section 1303 Permit holder shall utilize supplemental oxygen for patients receiving Oral Sedation for the duration of the procedure.

G. The Section 1303 Permit holder shall ensure the continuous supervision of the patient from the administration of Oral Sedation until oxygenation, ventilation and circulation are stable and the patient is appropriately responsive for discharge from the dental office or dental clinic.

H. A Section 1303 Permit holder may employ a health care professional to provide anesthesia services, if all of the following conditions are met:
1. The physician anesthesiologist or Certified Registered Nurse Anesthetist meets the requirements as specified in R4-11-1301(I);
2. The Section 1303 Permit holder has completed coursework within the two years prior to submitting the permit application in one or more of the following:
a. Advanced cardiac life support from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
b. Pediatric advanced life support in a practice treating pediatric patients;
c. A recognized continuing education course in advanced airway management;
3. The Section 1303 Permit holder ensures that:
a. The dental office or clinic contains the equipment and supplies listed in R4-11-1304(B)(2)(a) during the provision of anesthesia or sedation by the physician anesthesiologist or Certified Registered Nurse Anesthetist;
b. The anesthesia or sedation record contains all the entries listed in R4-11-1304(D);
c. For intravenous access, the physician anesthesiologist or Certified Registered Nurse Anesthetist uses a new infusion set, including a new infusion line and new bag of fluid for each patient; and
d. The patient is continuously supervised from the administration of anesthesia or sedation until the termination of the anesthesia or sedation procedure and oxygenation, ventilation and circulation are stable. The Section 1303 Permit holder shall not commence with a subsequent procedure or treatment until the patient is in monitored recovery or meets the guidelines for discharge.

Historical Note

New Section R4-11-1303 renumbered from R4-11-805 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Former Section R4-11-1303 renumbered to R4-11-1304; new Section R4-11-1303 made by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1304. Permit to Employ or Work with a Physician Anesthesiologist or Certified Registered Nurse Anesthetist (CRNA)

A. This Section does not apply to a Section 1301 permit holder or a Section 1302 permit holder practicing under the provisions of R4-11-1302(I) or a Section 1303 permit holder practicing under the provisions of R4-11-1303(H). A dentist may utilize a physician anesthesiologist or certified registered nurse anesthetist (CRNA) for anesthesia or sedation services while the dentist provides treatment in the dentist's office or dental clinic after obtaining a Section 1304 permit issued by the Board.
1. The physician anesthesiologist or CRNA meets the requirements as specified in R4-11-1301(I).
2. The dentist permit holder shall provide all dental treatment and ensure that the physician anesthesiologist or CRNA remains on the dental office or dental clinic premises until any patient receiving anesthesia or sedation services is discharged.
3. A dentist may renew a Section 1304 permit every five years by complying with R4-11-1307.

B. To obtain or renew a Section 1304 permit, a dentist shall:
1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3) and R4-11-1307 includes:
a. General information about the applicant such as:
i. Name;
ii. Home and office addresses and telephone numbers;
iii. Limitations of practice;
iv. Hospital affiliations;
v. Denial, curtailment, revocation, or suspension of hospital privileges;
vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist

has read and complied with the Board's statutes and rules;

2. On forms provided by the Board, provide a dated and signed affidavit attesting that any dental office or dental clinic where the dentist provides treatment during administration of general anesthesia or sedation by a physician anesthesiologist or CRNA:
   a. Contains the following properly operating equipment and supplies during the provision of general anesthesia and sedation:
      i. Emergency drugs;
      ii. Electrocardiograph monitor;
      iii. Pulse oximeter;
      iv. Cardiac defibrillator or automated external defibrillator (AED);
      v. Positive pressure oxygen and supplemental continuous flow oxygen;
      vi. Suction equipment, including endotrachael, tonsillar or pharyngeal and emergency backup medical suction device;
      vii. Laryngoscope, multiple blades, backup batteries and backup bulbs;
      viii. Endotracheal tubes and appropriate connectors;
      ix. Magill forceps;
      x. Oropharyngeal and nasopharyngeal airways;
      xi. Auxiliary lighting;
      xii. Stethoscope; and
      xiii. Blood pressure monitoring device; and
   b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents. All personnel involved in administering and monitoring general anesthesia or sedation shall hold a current course completion confirmation in cardiopulmonary resuscitation (CPR) Health Care Provider level;
3. Hold a valid license to practice dentistry in this state; and
4. Provide confirmation of completing coursework within the last two years prior to submitting the permit application in one or more of the following:
   a. Advanced cardiac life support (ACLS) from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   b. Pediatric advanced life support (PALS) in a practice treating pediatric patients; or
   c. A recognized continuing education course in advanced airway management.

C. After submitting the application and written evidence of compliance with requirements in subsection (B) to the Board, the applicant shall schedule an onsite evaluation by the Board. After the applicant completes the application requirements and successfully completes the onsite evaluation, the Board shall issue the applicant a Section 1304 permit.
1. The onsite evaluation team shall consist of one dentist who is a Board member, or Board designee.
2. The onsite team shall evaluate the following:
   a. The availability of equipment and personnel as specified in subsection (B)(2);
   b. Proper documentation of controlled substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of controlled substances; and
   c. Proper recordkeeping as specified in subsection (E) by reviewing previous anesthesia or sedation records.
3. The evaluation team shall recommend one of the following:
   a. Pass. Successful completion of the onsite evaluation; or
   b. Conditional approval for failing to have appropriate equipment, proper documentation of controlled substances, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before a permit is issued.
4. The evaluation of an additional dental office or dental clinic in which a Section 1304 permit holder provides treatment during the administration general anesthesia or sedation by a physician anesthesiologist or CRNA may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (B)(2).

D. A Section 1304 permit holder shall keep an anesthesia or sedation record for each general anesthesia and sedation procedure that includes the following entries:
1. Pre-operative and post-operative electrocardiograph documentation;
2. Pre-operative, intra-operative, and post-operative, pulse oximeter documentation;
3. Pre-operative, intra-operative, and post-operative blood pressure and vital sign documentation; and
4. A list of all medications given, with dosage and time intervals and route and site of administration;
5. Type of catheter or portal with gauge;
6. Indicate nothing by mouth or time of last intake of food or water;
7. Consent form; and
8. Time of discharge and status, including name of escort.

E. For intravenous access, a Section 1304 permit holder shall ensure that the physician anesthesiologist or CRNA uses a new infusion set, including a new infusion line and new bag of fluid for each patient.

F. A Section 1304 permit holder shall ensure that the physician anesthesiologist or CRNA utilizes supplemental continuous flow oxygen for patients receiving general anesthesia or sedation for the duration of the procedure.

G. The Section 1304 permit holder shall continuously supervise the patient from the administration of anesthesia or sedation until termination of the anesthesia or sedation procedure and oxygenation, ventilation and circulation are stable. The Section 1304 permit holder shall not commence with a subsequent procedure or treatment until the patient is in monitored recovery or meets the guidelines for discharge.

Historical Note

New Section R4-11-1304 renumbered from R4-11-805 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Former Section R4-11-1304 renumbered to R4-11-1305; new Section R4-11-1304 renumbered from R4-11-1303 and amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Section repealed; new Section made by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

R4-11-1305. Reports of Adverse Occurrences

If a death, or incident requiring emergency medical response, occurs in a dental office or dental clinic during the administration of

or recovery from general anesthesia, deep sedation, moderate sedation, or minimal sedation, the permit holder and the treating dentist involved shall submit a complete report of the incident to the Board within 10 days after the occurrence.

Historical Note

New Section R4-11-1305 renumbered from R4-11-806 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Former Section R4-11-1305 renumbered to R4-11-1306; new Section R4-11-1305 renumbered from R4-11-1304 and amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Section repealed; new Section made by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

R4-11-1306. Education; Continued Competency

A. To obtain a Section 1301, permit by satisfying the education requirement of R4-11-1301(B)(6), a dentist shall successfully complete an advanced graduate or post-graduate education program in pain control.

1. The program shall include instruction in the following subject areas:
   a. Anatomy and physiology of the human body and its response to the various pharmacologic agents used in pain control;
   b. Physiological and psychological risks for the use of various modalities of pain control;
   c. Psychological and physiological need for various forms of pain control and the potential response to pain control procedures;
   d. Techniques of local anesthesia, sedation, and general anesthesia, and psychological management and behavior modification, as they relate to pain control in dentistry; and
   e. Handling emergencies and complications related to pain control procedures, including the maintenance of respiration and circulation, immediate establishment of an airway, and cardiopulmonary resuscitation.
2. The program shall consist of didactic and clinical training. The didactic component of the program shall:
   a. Be the same for all dentists, whether general practitioners or specialists; and
   b. Include each subject area listed in subsection (A)(1).
3. The program shall provide at least one calendar year of training as prescribed in R4-11-1301(B)(6)(a).

B. To maintain a Section 1301 or 1302 permit under R4-11-1301 or R4-11-1302 a permit holder shall:

1. Participate in 30 clock hours of continuing education every five years in one or more of the following areas:
   a. General anesthesia,
   b. Parenteral sedation,
   c. Physical evaluation,
   d. Medical emergencies,
   e. Monitoring and use of monitoring equipment, or
   f. Pharmacology of drugs and non-drug substances used in general anesthesia or parenteral sedation; and
2. Provide confirmation of completing coursework within the two years prior to submitting the renewal application from one or more of the following:
   a. Advanced cardiac life support (ACLS) from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   b. Pediatric advanced life support (PALS) in a practice treating pediatric patients; or
   c. A recognized continuing education course in advanced airway management;
3. Complete at least 10 general anesthesia, deep sedation or parenteral sedation cases a calendar year; and
4. Apply a maximum of six hours from subsection (B)(2) toward the continuing education requirements for subsection (B)(1).

C. To maintain a Section 1303 permit issued under R4-11-1303, a permit holder shall:

1. Participate in 30 clock hours of continuing education every five years in one or more of the following areas:
   a. Oral sedation,
   b. Physical evaluation,
   c. Medical emergencies,
   d. Monitoring and use of monitoring equipment, or
   e. Pharmacology of oral sedation drugs and non-drug substances; and
2. Provide confirmation of completing coursework within the two years prior to submitting the renewal application from one or more of the following:
   a. Cardiopulmonary resuscitation (CPR) Health Care Provider level from the American Heart Association, American Red Cross or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association or American Red Cross;
   b. Advanced cardiac life support (ACLS) from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   c. Pediatric advanced life support (PALS);
   d. A recognized continuing education course in advanced airway management; and
3. Complete at least 10 oral sedation cases a calendar year.

Historical Note

Section R4-11-1306 renumbered from R4-11-1305 and amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

R4-11-1307. Renewal of Permit

A. To renew a Section 1301, 1302, or 1303 permit, the permit holder shall:

1. Provide written documentation of compliance with the applicable continuing education requirements in R4-11-1306;
2. Provide written documentation of compliance with the continued competency requirements in R4-11-1306;
3. Before December 31 of the year the permit expires, submit a completed application on a form provided by the Board office as described in R4-11-1301, R4-11-1302, or R4-11-1303; and
4. Not less than 90 days before the expiration of a permit holder's current permit, arrange for an onsite evaluation as described in R4-11-1301, R4-11-1302, or R4-11-1303.

B. To renew a Section 1304 permit, the permit holder shall:

1. Before December 31 of the year the permit expires, submit a completed application on a form provided by the Board office as described in R4-11-1304; and

2. Not less than 90 days before the expiration of a permit holder's current permit, arrange for an onsite evaluation as described in R4-11-1304.

C. After the permit holder successfully completes the evaluation and submits the required affidavits, the Board shall renew a Section 1301, 1302, 1303, 1304 permit, as applicable.

D. The Board may stagger due dates for renewal applications.

Historical Note
Made by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

ARTICLE 14. DISPENSING DRUGS AND DEVICES

R4-11-1401. Prescribing

A. In addition to the requirements of A.R.S. § 32-1298(C), a dentist shall ensure that a prescription order contains the following information:
1. Date of issuance;
2. Name and address of the patient to whom the prescription is issued;
3. Name, strength, dosage form, and quantity of the drug or name and quantity of the device prescribed;
4. Name and address of the dentist prescribing the drug; and
5. Drug Enforcement Administration registration number of the dentist, if prescribing a controlled substance.

B. Before dispensing a drug or device, a dentist shall present to the patient a written prescription for the drug or device being dispensed that includes on the prescription the following statement in bold type: "This prescription may be filled by the prescribing dentist or by a pharmacy of your choice."

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1401 repealed, new Section R4-11-1401 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1402. Labeling and Dispensing

A. A dentist shall include the following information on the label of all drugs and devices dispensed:
1. The dentist's name, address, and telephone number;
2. The serial number;
3. The date the drug or device is dispensed;
4. The patient's name;
5. Name, strength, and quantity of drug or name and quantity of device dispensed;
6. The name of the drug or device manufacturer or distributor;
7. Directions for use and cautionary statement necessary for safe and effective use of the drug or device; and
8. If a controlled substance is prescribed, the cautionary statement "Caution: Federal law prohibits the transfer of this drug to any person other than the patient for whom it was prescribed."

B. Before delivery to the patient, the dentist shall prepare and package the drug or device to ensure compliance with the prescription and personally inform the patient of the name of the drug or device, directions for its use, precautions, and storage requirements.

C. A dentist shall purchase all dispensed drugs and devices from a manufacturer, distributor, or pharmacy that is properly licensed in this state or one of the other 49 states, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States of America.

D. When dispensing a prescription drug or device from a prescription order, a dentist shall perform the following professional practices:
1. Verify the legality and pharmaceutical feasibility of dispensing a drug based upon:
   a. A patient's allergies,
   b. Incompatibilities with a patient's currently-taken medications,
   c. A patient's use of unusual quantities of dangerous drugs or narcotics, and
   d. The frequency of refills;
2. Verify that the dosage is within proper limits;
3. Interpret the prescription order;
4. Prepare, package, and label, or assume responsibility for preparing, packaging, and labeling, the drug or device dispensed under each prescription order;
5. Check the label to verify that the label precisely communicates the prescriber's directions and hand-initial each label;
6. Record, or assume responsibility for recording, the serial number and date dispensed on the front of the original prescription order; and
7. Record on the original prescription order the name or initials of the dentist who dispensed the order.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1402 renumbered to R4-11-1201, new Section R4-11-1402 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1403. Storage and Packaging

A dentist shall:
1. Keep all prescription-only drugs and devices in a secured area and control access to the secured area by written procedure. The dentist shall make the written procedure available to the Board or its authorized agents on demand for inspection or copying;
2. Keep all controlled substances secured in a locked cabinet or room, control access to the cabinet or room by written procedure, and maintain an ongoing inventory of the contents. The dentist shall make the written procedure available to the Board or its authorized agents on demand for inspection or copying;
3. Maintain drug storage areas so that the temperature in the drug storage areas does not exceed 85º F;
4. Not dispense a drug or device that has expired or is improperly labeled;
5. Not redispense a drug or device that has been returned;
6. Dispense a drug or device:
   a. In a prepackaged container or light-resistant container with a consumer safety cap, unless the patient or patient's representative requests a non-safety cap; and
   b. With a label that is mechanically or electronically printed;
7. Destroy an outdated, deteriorated, or defective controlled substance according to Drug Enforcement Administration regulations or by using a reverse distributor. A list of reverse distributors may be obtained from the Drug Enforcement Administration; and
8. Destroy an outdated, deteriorated, or defective non-controlled substance drug or device by returning it to the sup-

plier or by using a reverse distributor. A list of reverse distributors may be obtained from the Drug Enforcement Administration.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1403 renumbered to R4-11-1202, new Section R4-11-1403 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1404. Recordkeeping

A. A dentist shall:
1. Chronologically date and sequentially number prescription orders in the order that the drugs or devices are originally dispensed;
2. Sequentially file orders separately from patient records, as follows:
   a. File Schedule II drug orders separately from all other prescription orders;
   b. File Schedule III, IV, and V drug orders separately from all other prescription orders; and
   c. File all other prescription orders separately from orders specified in subsections (A)(2)(a) and (b);
3. Record the name of the manufacturer or distributor of the drug or device dispensed on each prescription order and label;
4. Record the name or initials of the dentist dispensing the drug or device on each prescription order and label; and
5. Record the date the drug or device is dispensed on each prescription order and label.

B. A dentist shall record in the patient's dental record the name, dosage form, and strength of the drug or device dispensed, the quantity or volume dispensed, the date the drug or device is dispensed, and the dental therapeutic reasons for dispensing the drug or device.

C. A dentist shall maintain:
1. Purchase records of all drugs and devices for three years from the date purchased; and
2. Dispensing records of all drugs and devices for three years from the date dispensed.

D. A dentist who dispenses controlled substances:
1. Shall inventory Schedule II, III, IV, and V controlled substances as prescribed by A.R.S. § 36-2523;
2. Shall perform a controlled substance inventory on March 1 annually, if directed by the Board, and at the opening or closing of a dental practice;
3. Shall maintain the inventory for three years from the inventory date;
4. May use one inventory book for all controlled substances;
5. When conducting an inventory of Schedule II controlled substances, shall take an exact count;
6. When conducting an inventory of Schedule III, IV, and V controlled substances, shall take an exact count or may take an estimated count if the stock container contains fewer than 1001 units.

E. A dentist shall maintain invoices for drugs and devices dispensed for three years from the date of the invoices, filed as follows:
1. File Schedule II controlled substance invoices separately from records that are not Schedule II controlled substance invoices;
2. File Schedule III, IV, and V controlled substance invoices separately from records that are not Schedule III, IV, and V controlled substance invoices; and
3. File all non-controlled substance invoices separately from the invoices referenced in subsections (E)(1) and (2).

F. A dentist shall file Drug Enforcement Administration order form (DEA Form 222) for a controlled substance sequentially and separately from every other record.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1404 renumbered to R4-11-1203, new Section R4-11-1404 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1405. Compliance

A. A dentist who determines that there has been a theft or loss of Drugs or Controlled Substances from the dentist's office shall immediately notify a local law enforcement agency and the Board and provide written notice of the theft or loss in the following manner:
1. For non-Controlled Substance Drug theft or loss, provide the law enforcement agency and the Board with a written report explaining the theft or loss; or
2. For Controlled Substance theft or loss, complete a Drug Enforcement Administration's 106 form; and
3. Provide copies of the Drug Enforcement Administration's 106 form to the Drug Enforcement Administration and the Board within one day of the discovery.

B. A dentist who dispenses Drugs or devices in a manner inconsistent with this Article is subject to discipline under A.R.S. Title 32, Chapter 11, Article 3.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1405 renumbered to R4-11-1204, new Section R4-11-1405 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1406. Dispensing for Profit Registration and Renewal

A. A dentist who is currently licensed to practice dentistry in Arizona may dispense controlled substances, prescription-only drugs, and prescription-only devices for profit only after providing the Board the following information:
1. A completed registration form that includes the following information:
   a. The dentist's name and dental license number;
   b. A list of the types of drugs and devices to be dispensed for profit, including controlled substances; and
   c. Locations where the dentist desires to dispense the drugs and devices for profit; and
2. A copy of the dentist's current Drug Enforcement Administration Certificate of Registration for each dispensing location from which the dentist desires to dispense the drugs and devices for profit.

B. The Board shall issue a numbered certificate indicating the dentist is registered with the Board to dispense drugs and devices for profit.

C. A dentist shall renew a registration to dispense drugs and devices for profit by complying with the requirements in subsection (A) before the dentist's license renewal date. When a dentist has made timely and complete application for the renewal of a registration, the dentist may continue to dispense until the Board approves or denies the application. Failure to renew a registration shall result in immediate loss of dispensing for profit privileges.

Historical Note
Adopted effective July 21, 1995; inadvertently not published with Supp. 95-3 (Supp. 95-4). Former Section R4-11-1406 renumbered to R4-11-1205, new Section R4-11-1406 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1407. Renumbered

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1407 renumbered to R4-11-1206 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1408. Renumbered

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1408 renumbered to R4-11-1207 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1409. Repealed

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1409 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 15. COMPLAINTS, INVESTIGATIONS, DISCIPLINARY ACTION

R4-11-1501. Ex-parte Communication

A complainant, licensee, certificate holder, business entity or mobile dental permit holder against whom a complaint is filed, shall not engage in ex-parte communication by means of a written or oral communication between a decision maker, fact finder, or Board member and only one party to the proceeding.

Historical Note
New Section R4-11-1501 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1).

R4-11-1502. Dental Consultant Qualifications

A dentist, dental therapist, dental hygienist, or denturist approved as a Board dental consultant shall:

1. Possess a valid license or certificate to practice in Arizona;
2. Have practiced at least five years in Arizona; and
3. Not have been disciplined by the Board within the past five years.

Historical Note
New Section R4-11-1502 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1503. Initial Complaint Review

A. The Board's procedures for complaint notification are:

1. The Board shall notify the Licensee, denturist, Business Entity or Mobile Dental Permit Holder by certified U.S. Mail when the following occurs:
   a. A formal interview is scheduled, and
   b. A subpoena, notice, or order is issued.
2. The Board shall notify the Licensee, denturist, Business Entity, or Mobile Dental Permit Holder by U.S. mail or email when the following occurs:
   a. The complaint is tabled, and
   b. The Board grants a postponement or continuance.
3. Board shall provide the Licensee, denturist, Business Entity, or Mobile Dental Permit Holder with a copy of the complaint.
4. If a complaint alleges a violation of the state or federal criminal code, the Board shall refer the complaint to the proper law enforcement agency.

B. The Board's procedures for complaints referred to Clinical Evaluation are:

1. Except as provided in subsection (B)(1)(a), the President's Designee shall appoint one or more dental consultants to perform a Clinical Evaluation. If there is more than one dental consultant, the dental consultants do not need to be present at the same time.
   a. If the complaint involves a dental hygienist, denturist, dental therapist, or dentist who is a recognized specialist in one of the areas listed in R4-11-1102(B), the President's Designee shall appoint a dental consultant from that area of practice or specialty.
   b. The Board shall disclose the identity of the Licensee, denturist, Business Entity, or Mobile Dental Permit Holder to a dental consultant performing a Clinical Evaluation before the Board receives the dental consultant's report.
2. The dental consultant shall prepare and submit a Clinical Evaluation report. The President's Designee shall provide a copy of the Clinical Evaluation report to the Licensee or denturist. The Licensee or denturist may submit a written response to the Clinical Evaluation report.

C. Notwithstanding any other provision, the Board may take immediate action consistent with A.R.S. §§ 32-1201.01 or 32-1263 in order to protect public health and safety.

Historical Note
New Section R4-11-1503 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2). Amended by final rulemaking at 29 A.A.R. 3793 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-1504. Postponement of Interview

A. The licensee, certificate holder, business entity, or mobile dental permit holder may request a postponement of a formal interview. The Board or its designee shall grant a postponement until the next regularly scheduled Board meeting if the

licensee, certificate holder, business entity, or mobile dental permit holder makes a postponement request and the request:
1. Is made in writing,
2. States the reason for the postponement, and
3. Is received by the Board within 15 calendar days after the date the respondent received the formal interview request.

B. Within 48 hours of receipt of a request for postponement of a formal interview, the Board or its designee shall:
1. Review and either deny or approve the request for postponement; and
2. Notify in writing the complainant and licensee, certificate holder, business entity, or mobile dental permit holder of the decision to either deny or approve the request for postponement.

Historical Note

New Section R4-11-1504 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E) at 9 A.A.R. 3669, effective April 30, 2003 (Supp. 03-3). New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1).

ARTICLE 16. DENTAL THERAPISTS

R4-11-1601. Duties and Qualifications

A. A dental therapist may perform a procedure not specifically authorized by A.R.S. § 32-1276.03 when all of the following conditions are satisfied:
1. The procedure is recommended or prescribed by the supervising dentist;
2. The dental therapist has received training by a recognized dental school, recognized dental therapy school, recognized dental hygiene school, or recognized denturist school, as defined under A.R.S. § 32-1201, to perform the procedure in a safe manner; and
3. The procedure is performed under the Direct Supervision of, or according to, a written collaborative practice agreement with a licensed dentist.

B. A dental therapist may administer Nitrous Oxide Analgesia as authorized by A.R.S. § 32-1276.03(B)(12) if the dental therapist submits proof directly from an issuing institution of completing courses in the administration of Nitrous Oxide Analgesia offered by a recognized dental school, recognized dental therapy school, or recognized dental hygiene school, as defined under A.R.S. § 32-1201, that include both theory and supervised clinical practice in the procedures.

C. A dental therapist may perform suturing and suture removal as authorized by A.R.S. § 32-1276.03(B)(21) if the dental therapist submits proof directly from an issuing institution of completing courses in suturing and suture removal offered by a recognized dental school, recognized dental therapy school, or recognized dental hygiene school, as defined under A.R.S. § 32-1201, that include both theory and supervised clinical practice in the procedures.

D. A dental therapist may perform an Irreversible Procedure only if it is specifically authorized by A.R.S. § 32-1276.03 or meets the conditions of R4-11-1601(A).

Historical Note

New Section R4-11-1601 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E) at 14 A.A.R. 3183, effective April 30, 2008. New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1602. Limitation on Number Supervised

A dentist shall not provide direct supervision for more than three dental therapists while the dental therapists are providing services or performing procedures under A.R.S. § 32-1276.03 or R4-11-1601.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1603. Dental Therapy Consultants

After submission of a current curriculum vitae or resume and approval by the Board, dental therapy consultants may:
1. Participate in Board-related procedures, including a Clinical Evaluation, investigation of complaints concerning infection control, insurance fraud, or the practice of supervised personnel, and any other procedures not directly related to evaluating a dentist's or denturist's quality of care; and
2. Participate in onsite office evaluations for infection control, as part of a team.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1604. Written Collaborative Practice Agreements; Collaborative Practice Relationships

A. A dental therapist shall submit a signed affidavit to the Board affirming that:
1. The Collaborative Practice Agreement complies with all the requirements listed in A.R.S. § 32-1276.04.
2. The dental therapist is and will be continuously certified in basic life support, including healthcare provider level cardiopulmonary resuscitation and training in automated external defibrillator.
3. The dental therapist is in compliance with the continuing dental education requirements of this state.

B. Each dentist who enters into a Collaborative Practice Agreement shall be available telephonically or electronically during the business hours of the dental therapist to provide an appropriate level of contact, communication, and consultation.

C. A Collaborative Practice Agreement shall include a provision for a substitute dentist, to cover an extenuating circumstance that renders the affiliated practice dentist unavailable for contact, communication, and consultation with the dental therapist.

D. A Collaborative Practice Agreement shall include a signed and dated statement from the dentist providing Direct Supervision, verifying the dental therapist's completion of 1000 hours of dental therapy clinical practice according to A.R.S. § 32-1276.04(B).

E. A Collaborative Practice Agreement shall be between one dentist and one dental therapist.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

ARTICLE 17. REHEARING OR REVIEW

R4-11-1701. Procedure

A. Except as provided in subsection (F), a licensee, certificate holder, or business entity who is aggrieved by an order issued by the Board may file a written motion for rehearing or review

with the Board, pursuant to A.R.S. Title 41, Chapter 6, Article 10, specifying the grounds for rehearing or review.

B. A licensee, certificate holder, or business entity filing a motion for rehearing or review under this rule may amend the motion at any time before it is ruled upon by the Board. The opposing party may file a response within 15 days after the date the motion for rehearing or review is filed. The Board may require that the parties file supplemental memoranda explaining the issues raised in the motion, and may permit oral argument.

C. The Board may grant a rehearing or review of the order for any of the following causes materially affecting a licensee, certificate holder, or business entity's rights:

1. Irregularity in the proceedings of the Board or any order or abuse of discretion, which deprived a licensee, certificate holder, or business entity of a fair hearing;
2. Misconduct of the Board, its personnel, the administrative law judge, or the prevailing party;
3. Accident or surprise which could not have been prevented by ordinary prudence;
4. Excessive or insufficient penalties;
5. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the proceeding;
6. That the findings of fact or decision is arbitrary, capricious, or an abuse of discretion;
7. That the findings of fact of decision is not justified by the evidence or is contrary to law; or
8. Newly discovered, material evidence which could not, with reasonable diligence, have been discovered and produced at the original hearing.

D. The Board may affirm or modify the order or grant a rehearing or review to all or part of the issues for any of the reasons in subsection (C). The Board, within the time for filing a motion for rehearing or review, may grant a rehearing or review on its own initiative for any reason for which it might have granted relief on motion of a party. An order granting a rehearing or review shall specify the grounds on which rehearing or review is granted, and any rehearing or review shall cover only those matters specified.

E. When a motion for rehearing or review is based upon affidavits, they shall be served with the motion. An opposing party may, within 15 days after such service, serve opposing affidavits.

F. If the Board makes specific findings that the immediate effectiveness of the order is necessary for the preservation of public health and safety and that a rehearing or review is impracticable, unnecessary, or contrary to the public interest, the order may be issued as a final order without an opportunity for a rehearing or review. If an order is issued as a final order without an opportunity or rehearing or review, the aggrieved party shall make an application for judicial review of the order within the time limits permitted for application for judicial review of the Board's final order.

G. The Board shall rule on the motion for rehearing or review within 15 days after the response has been filed, or at the Board's next meeting after the motion is received, whichever is later.

Historical Note

New Section R4-11-1701 renumbered from R4-11-701 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 21 A.A.R. 2971, effective January 2, 2016 (Supp. 15-4).

ARTICLE 18. BUSINESS ENTITIES

R4-11-1801. Application

Before offering dental services, a business entity required to be registered under A.R.S. § 32-1213 shall apply for registration on an application form supplied by the Board. In addition to the requirements of A.R.S. § 32-1213(B) and the fee under R4-11-402, the registration application shall include a sworn statement from the applicant that:

1. The information provided by the business entity is true and correct, and
2. No information is omitted from the application.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1802. Display of Registration

A. A business entity shall ensure that the receipt for the current registration period is:

1. Conspicuously displayed in the dental practice in a manner that is always readily observable by patients and visitors, and
2. Exhibited to members of the Board or to duly authorized agents of the Board on request.

B. A business entity's receipt for the licensure period immediately preceding shall be kept on display until replaced by the receipt for the current period.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

32-1297.08	Injunction
32-1297.09	Violations; classification

Article 6 – Dispensing of Drugs and Devices

Article 7 – Rehabilitation

Article 8 – Mobile Dental Facilities and Portable Dental Units

Article 1 Dental Board

32-1201. Definitions

In this chapter, unless the context otherwise requires:

1. "Affiliated practice dental hygienist" means any licensed dental hygienist who is able, pursuant to section 32-1289.01, to initiate treatment based on the dental hygienist's assessment of a patient's needs according to the terms of a written affiliated practice agreement with a dentist, to treat the patient without the presence of a dentist and to maintain a provider-patient relationship.

2. "Auxiliary personnel" means all dental assistants, dental technicians, dental x-ray technicians and other persons employed by dentists or firms and businesses providing dental services to dentists.

3. "Board" means the state board of dental examiners.

4. "Business entity" means a business organization that has an ownership that includes any persons who are not licensed or certified to provide dental services in this state, that offers to the public professional services regulated by the board and that is established pursuant to the laws of any state or foreign country.

5. "Dental assistant" means any person who acts as an assistant to a dentist, dental therapist or dental hygienist by rendering personal services to a patient that involve close proximity to the patient while the patient is under treatment or observation or undergoing diagnostic procedures.

6. "Dental hygienist" means any person who is licensed and engaged in the general practice of dental hygiene and all related and associated duties, including educational, clinical and therapeutic dental hygiene procedures.

7. "Dental incompetence" means lacking in sufficient dentistry knowledge or skills, or both, in that field of dentistry in which the dentist, dental therapist, denturist or dental hygienist concerned engages, to a degree likely to endanger the health of that person's patients.

8. "Dental laboratory technician" means any person, other than a licensed dentist, who, pursuant to a written work order of a dentist, fabricates artificial teeth, prosthetic appliances or other mechanical and artificial contrivances designed to correct or alleviate injuries or defects, both developmental and acquired, disorders or deficiencies of the human oral cavity, teeth, investing tissues, maxilla or mandible or adjacent associated structures.

9. "Dental therapist" means any person who is licensed and engaged in the general practice of dental therapy and all related and associated duties, including educational, clinical and therapeutic dental therapy procedures.

10. "Dental x-ray laboratory technician" means any person, other than a licensed dentist, who, pursuant to a written work order of a dentist, performs dental and maxillofacial radiography, including cephalometrics, panoramic and maxillofacial tomography and other dental related nonfluoroscopic diagnostic imaging modalities.

11. "Dentistry", "dentist" and "dental" mean the general practice of dentistry and all specialties or restricted practices of dentistry.

12. "Denturist" means a person practicing denture technology pursuant to article 5 of this chapter.

13. "Disciplinary action" means regulatory sanctions that are imposed by the board in combination with, or as an alternative to, revocation or suspension of a license and that may include:

(a) Imposition of an administrative penalty in an amount not to exceed $2,000 for each violation of this chapter or rules adopted under this chapter.

(b) Imposition of restrictions on the scope of practice.

(c) Imposition of peer review and professional education requirements.

(d) Imposition of censure or probation requirements best adapted to protect the public welfare, which may include a requirement for restitution to the patient resulting from violations of this chapter or rules adopted under this chapter.

14. "Irregularities in billing" means submitting any claim, bill or government assistance claim to any patient, responsible party or third-party payor for dental services rendered that is materially false with the intent to receive unearned income as evidenced by any of the following:

(a) Charges for services not rendered.

(b) Any treatment date that does not accurately reflect the date when the service and procedures were actually completed.

(c) Any description of a dental service or procedure that does not accurately reflect the actual work completed.

(d) Any charge for a service or procedure that cannot be clinically justified or determined to be necessary.

(e) Any statement that is material to the claim and that the licensee knows is false or misleading.

(f) An abrogation of the copayment provisions of a dental insurance contract by a waiver of all or a part of the copayment from the patient if this results in an excessive or fraudulent charge to a third party or if the waiver is used as an enticement to receive dental services from that provider. This subdivision does not interfere with a contractual relationship between a third-party payor and a licensee or business entity registered with the board.

(g) Any other practice in billing that results in excessive or fraudulent charges to the patient.

15. "Letter of concern" means an advisory letter to notify a licensee or a registered business entity that, while the evidence does not warrant disciplinary action, the board believes that the licensee or registered business entity should modify or eliminate certain practices and that continuation of the activities that led to the information being submitted to the board may result in board action against the practitioner's license or the business entity's registration. A letter of concern is not a disciplinary action. A letter of concern is a public document and may be used in a future disciplinary action.

16. "Licensed" means licensed pursuant to this chapter.

17. "Place of practice" means each physical location at which a person who is licensed pursuant to this chapter performs services subject to this chapter.

18. "Primary mailing address" means the address on file with the board and to which official board correspondence, notices or documents are delivered in a manner determined by the board.

19. "Qualified anesthesia provider" means any of the following:

(a) A licensee who holds a permit to administer anesthesia and sedation from the board pursuant to section 32-1207.

(b) A physician who has completed residency training in anesthesiology, who is licensed pursuant to chapter 13 or 17 of this title and who is registered with the Arizona medical board or the Arizona board of osteopathic examiners in medicine and surgery to administer anesthesia in dental offices and dental clinics pursuant to section 32-1403 or 32-1803.

(c) A certified registered nurse anesthetist who has a national board certification in anesthesiology, who is licensed pursuant to chapter 15 of this title and who is registered with the Arizona state board of nursing to administer anesthesia in dental offices and dental clinics pursuant to section 32-1606.

20. "Recognized continuing dental education" means continuing dental education as prescribed by the board in rule.

21. "Recognized dental hygiene school" means a school that has a dental hygiene program with a minimum two academic year curriculum, or the equivalent of four semesters, and that is approved by the board and accredited by the American dental association commission on dental accreditation.

22. "Recognized dental school" means a dental school that is accredited by the American dental association commission on dental accreditation.

23. "Recognized dental therapy school" means a school that is accredited or that has received initial accreditation by the American dental association commission on dental accreditation.

24. "Recognized denturist school" means a denturist school that maintains standards of entrance, study and graduation and that is accredited by the United States department of education or the council on higher education accreditation.

25. "Supervised personnel" means all dental hygienists, dental assistants, dental laboratory technicians, dental therapists, denturists, dental x-ray laboratory technicians and other persons supervised by licensed dentists.

26. "Teledentistry" means the use of data transmitted through interactive audio, video or data communications for the purposes of examination, diagnosis, treatment planning, consultation and directing the delivery of treatment by dentists and dental providers in settings permissible under this chapter or specified in rules adopted by the board.

32-1201.01. Definition of unprofessional conduct

For the purposes of this chapter, "unprofessional conduct" means the following acts, whether occurring in this state or elsewhere:

1. Intentionally betraying a professional confidence or intentionally violating a privileged communication except as either of these may otherwise be required by law. This paragraph does not prevent members of the board from the full and free exchange of information with the licensing and disciplinary boards of other states, territories or districts of the United States or foreign countries, with the Arizona state dental association or any of its component societies or with the dental societies of other states, counties, districts, territories or foreign countries.

2. Using controlled substances as defined in section 36-2501, narcotic drugs, dangerous drugs or marijuana as defined in section 13-3401, or hypnotic drugs, including acetylurea derivatives, barbituric acid derivatives, chloral, paraldehyde, phenylhydantoin derivatives, sulfonmethane derivatives or any compounds, mixtures or preparations that may be used for producing hypnotic effects, or alcohol to the extent that it affects the ability of the dentist, dental therapist, denturist or dental hygienist to practice that person's profession.

3. Prescribing, dispensing or using drugs for other than accepted dental therapeutic purposes or for other than medically indicated supportive therapy in conjunction with managing a patient's needs and in conjunction with the scope of practice prescribed in section 32-1202.

4. Committing gross malpractice or repeated acts constituting malpractice.

5. Acting or assuming to act as a member of the board if this is not true.

6. Procuring or attempting to procure a certificate of the national board of dental examiners or a license to practice dentistry or dental hygiene by fraud or misrepresentation or by knowingly taking advantage of the mistake of another.

7. Having professional connection with or lending one's name to an illegal practitioner of dentistry or any of the other healing arts.

8. Representing that a manifestly not correctable condition, disease, injury, ailment or infirmity can be permanently corrected, or that a correctable condition, disease, injury, ailment or infirmity can be corrected within a stated time, if this is not true.

9. Offering, undertaking or agreeing to correct, cure or treat a condition, disease, injury, ailment or infirmity by a secret means, method, device or instrumentality.

10. Refusing to divulge to the board, on reasonable notice and demand, the means, method, device or instrumentality used in treating a condition, disease, injury, ailment or infirmity.

11. Dividing a professional fee or offering, providing or receiving any consideration for patient referrals among or between dental care providers or dental care institutions or entities. This paragraph does not prohibit the division of fees among licensees who are engaged in a bona fide employment, partnership, corporate or contractual relationship for the delivery of professional services.

12. Knowingly making any false or fraudulent statement, written or oral, in connection with the practice of dentistry.

13. Having a license refused, revoked or suspended or any other disciplinary action taken against a dentist by, or voluntarily surrendering a license in lieu of disciplinary action to, any other state, territory, district or country, unless the board finds that this action was not taken for reasons that relate to the person's ability to safely and skillfully practice dentistry or to any act of unprofessional conduct.

14. Committing any conduct or practice that constitutes a danger to the health, welfare or safety of the patient or the public.

15. Obtaining a fee by fraud or misrepresentation, or wilfully or intentionally filing a fraudulent claim with a third party for services rendered or to be rendered to a patient.

16. Committing repeated irregularities in billing.

17. Employing unlicensed persons to perform or aiding and abetting unlicensed persons in performing work that can be done legally only by licensed persons.

18. Practicing dentistry under a false or assumed name in this state, other than as allowed by section 32-1262.

19. Wilfully or intentionally causing or allowing supervised personnel or auxiliary personnel operating under the licensee's supervision to commit illegal acts or perform an act or operation other than that allowed under article 4 of this chapter and rules adopted by the board pursuant to section 32-1282.

20. Committing the following advertising practices:

(a) Publishing or circulating, directly or indirectly, any false, fraudulent or misleading statements concerning the skill, methods or practices of the licensee or of any other person.

(b) Advertising in any manner that tends to deceive or defraud the public.

21. Failing to dispense drugs and devices in compliance with article 6 of this chapter.

22. Failing to comply with a board order, including an order of censure or probation.

23. Failing to comply with a board subpoena in a timely manner.

24. Failing or refusing to maintain adequate patient records.

25. Failing to allow properly authorized board personnel, on demand, to inspect the place of practice and examine and have access to documents, books, reports and records maintained by the licensee or certificate holder that relate to the dental practice or dental-related activity.

26. Refusing to submit to a body fluid examination as required through a monitored treatment program or pursuant to a board investigation into a licensee's or certificate holder's alleged substance abuse.

27. Failing to inform a patient of the type of material the dentist will use in the patient's dental filling and the reason why the dentist is using that particular filling.

28. Failing to report in writing to the board any evidence that a dentist, dental therapist, denturist or dental hygienist is or may be:

(a) Professionally incompetent.

(b) Engaging in unprofessional conduct.

(c) Impaired by drugs or alcohol.

(d) Mentally or physically unable to safely engage in the activities of a dentist, dental therapist, denturist or dental hygienist pursuant to this chapter.

29. Filing a false report pursuant to paragraph 28 of this section.

30. Practicing dentistry, dental therapy, dental hygiene or denturism in a business entity that is not registered with the board as required by section 32-1213.

31. Dispensing a schedule II controlled substance that is an opioid.

32. Providing services or procedures as a dental therapist that exceed the scope of practice or exceed the services or procedures authorized in the written collaborative practice agreement.

32-1202. Scope of practice; practice of dentistry

For the purposes of this chapter, the practice of dentistry is the diagnosis, surgical or nonsurgical treatment and performance of related adjunctive procedures for any disease, pain, deformity, deficiency, injury or physical condition of the human tooth or teeth, alveolar process, gums, lips, cheek, jaws, oral cavity and associated tissues of the oral maxillofacial facial complex, including removing stains, discolorations and concretions and administering botulinum toxin type A and dermal fillers to the oral maxillofacial complex for therapeutic or cosmetic purposes.

32-1203. State board of dental examiners; qualifications of members; terms

A. The state board of dental examiners is established consisting of six licensed dentists, two licensed dental hygienists, two public members and one business entity member appointed by the governor for a term of four years, to begin and end on January 1.

B. Before appointment by the governor, a prospective member of the board shall submit a full set of fingerprints to the governor for the purpose of obtaining a state and federal criminal records check pursuant to section 41-1750 and Public Law 92-544. The department of public safety may exchange this fingerprint data with the federal bureau of investigation.

C. The business entity member and the public members may participate in all board proceedings and determinations, except in preparing, giving or grading examinations for licensure. Dental hygienist board members may participate in all board proceedings and determinations, except in preparing, giving and grading examinations that do not relate to dental hygiene procedures.

D. A board member shall not serve more than two consecutive terms.

E. For the purposes of this section, the business entity member must be an employee or owner of a registered business entity pursuant to section 32-1213 and may not include a person who is licensed pursuant to this chapter.

32-1204. Removal from office

The governor may remove a member of the board for persistent neglect of duty, incompetency, unfair, biased, partial or dishonorable conduct, or gross immorality. Conviction of a felony or revocation of the dental license of a member of the board shall ipso facto terminate his membership.

32-1205. Organization; meetings; quorum; staff

A. The board shall elect from its membership a president and a vice-president who shall act also as secretary-treasurer.

B. Board meetings shall be conducted pursuant to title 38, chapter 3, article 3.1. A majority of the board constitutes a quorum. Beginning September 1, 2015, meetings held pursuant to this subsection shall be audio recorded and the audio recording shall be posted to the board's website within five business days after the meeting.

C. The board may employ an executive director, subject to title 41, chapter 4, article 4 and legislative appropriation.

D. The board or the executive director may employ personnel, as necessary, subject to title 41, chapter 4, article 4 and legislative appropriation.

32-1206. Compensation of board members; investigation committee members

A. Members of the board are entitled to receive compensation in the amount of $250 for each day actually spent in performing necessary work authorized by the board and all expenses necessarily and properly incurred while performing this work.

B. Members of an investigation committee established by the board may receive compensation in the amount of $100 for each committee meeting.

32-1207. Powers and duties; executive director; immunity; fees; definitions

A. The board shall:

1. Adopt rules that are not inconsistent with this chapter for regulating its own conduct, for holding examinations and for regulating the practice of dentists and supervised personnel and registered business entities, provided that:

(a) Regulation of supervised personnel is based on the degree of education and training of the supervised personnel, the state of scientific technology available and the necessary degree of supervision of the supervised personnel by dentists.

(b) Except as provided pursuant to sections 32-1276.03 and 32-1281, only licensed dentists may perform diagnosis and treatment planning, prescribe medication and perform surgical procedures on hard and soft tissues.

(c) Only a licensed dentist, a dental therapist either under the direct supervision of a dentist or pursuant to a written collaborative practice agreement or a dental hygienist in consultation with a dentist may perform examinations, oral health assessments and treatment sequencing for dental hygiene procedures.

2. Adopt a seal.

3. Maintain a record that is available to the board at all times of its acts and proceedings, including the issuance, denial, renewal, suspension or revocation of licenses and the disposition of complaints. The existence of a pending complaint or investigation shall not be disclosed to the public. Records of complaints shall be available to the public, except only as follows:

(a) If the board dismisses or terminates a complaint, the record of the complaint shall not be available to the public.

(b) If the board has issued a nondisciplinary letter of concern, the record of the complaint shall be available to the public only for a period of five years after the date the board issued the letter of concern.

(c) If the board has required additional nondisciplinary continuing education pursuant to section 32-1263.01 but has not taken further action, the record of the complaint shall be available to the public only for a period of five years after the licensee satisfies this requirement.

(d) If the board has assessed a nondisciplinary civil penalty pursuant to section 32-1208 but has not taken further action, the record of the complaint shall be available to the public only for a period of five years after the licensee satisfies this requirement.

4. Establish a uniform and reasonable standard of minimum educational requirements consistent with the accreditation standards of the American dental association commission on dental accreditation to be observed by dental schools, dental therapy schools and dental hygiene schools in order to be classified as recognized dental schools, dental therapy schools or dental hygiene schools.

5. Establish a uniform and reasonable standard of minimum educational requirements that are consistent with the accreditation standards of the United States department of education or the council on higher education accreditation and that must be observed by denture technology schools in order to be classified as recognized denture technology schools.

6. Determine the reputability and classification of dental schools, dental therapy schools, dental hygiene schools and denture technology schools in accordance with their compliance with the standard set forth in paragraph 4 or 5 of this subsection, whichever is applicable.

7. Issue licenses to persons who the board determines are eligible for licensure pursuant to this chapter.

8. Determine the eligibility of applicants for restricted permits and issue restricted permits to those found eligible.

9. Pursuant to section 32-1263.02, investigate charges of misconduct on the part of licensees and persons to whom restricted permits have been issued.

10. Issue a letter of concern, which is not a disciplinary action but refers to practices that may lead to a violation and to disciplinary action.

11. Issue decrees of censure, fix periods and terms of probation, suspend or revoke licenses, certificates and restricted permits, as the facts may warrant, and reinstate licenses, certificates and restricted permits in proper cases.

12. Collect and disburse monies.

13. Perform all other duties that are necessary to enforce this chapter and that are not specifically or by necessary implication delegated to another person.

14. Establish criteria for the renewal of permits issued pursuant to board rules relating to general anesthesia and sedation.

B. The board may:

1. Sue and be sued.

2. Issue subpoenas, including subpoenas to the custodian of patient records, compel attendance of witnesses, administer oaths and take testimony concerning all matters within the board's jurisdiction. If a person refuses to obey a subpoena issued by the board, the refusal shall be certified to the superior court and proceedings shall be instituted for contempt of court.

3. Adopt rules:

(a) Prescribing requirements for continuing education for renewal of all licenses issued pursuant to this chapter.

(b) Prescribing educational and experience prerequisites for administering intravenous or intramuscular drugs for the purpose of sedation or for using general anesthetics in conjunction with a dental treatment procedure.

(c) Prescribing requirements for obtaining licenses for retired licensees or licensees who have a disability, including the triennial license renewal fee.

4. Hire consultants to assist the board in the performance of its duties and employ persons to provide investigative, professional and clerical assistance as the board deems necessary.

5. Contract with other state or federal agencies as required to carry out the purposes of this chapter.

6. If determined by the board, order physical, psychological, psychiatric and competency evaluations of licensed dentists, dental therapists and dental hygienists, certified denturists and applicants for licensure and certification at the expense of those individuals.

7. Establish an investigation committee consisting of not more than eleven licensees who are in good standing, who are appointed by the board and who serve at the pleasure of the board to investigate any

complaint submitted to the board, initiated by the board or delegated by the board to the investigation committee pursuant to this chapter.

C. The executive director or the executive director's designee may:

1. Issue and renew licenses, certificates and permits to applicants who meet the requirements of this chapter.

2. Initiate an investigation if evidence appears to demonstrate that a dentist, dental therapist, dental hygienist, denturist or restricted permit holder may be engaged in unprofessional conduct or may be unable to safely practice dentistry.

3. Initiate an investigation if evidence appears to demonstrate that a business entity may be engaged in unethical conduct.

4. Subject to board approval, enter into a consent agreement with a dentist, dental therapist, denturist, dental hygienist or restricted permit holder if there is evidence of unprofessional conduct.

5. Subject to board approval, enter into a consent agreement with a business entity if there is evidence of unethical conduct.

6. Refer cases to the board for a formal interview.

7. If delegated by the board, enter into a stipulation agreement with a person under the board's jurisdiction for the treatment, rehabilitation and monitoring of chemical substance abuse or misuse.

D. Members of the board are personally immune from liability with respect to all acts done and actions taken in good faith and within the scope of their authority.

E. The board by rule shall require that a licensee obtain a permit for applying general anesthesia and sedation, shall establish and collect a fee of not more than $300 to cover administrative costs connected with issuing the permit and shall conduct inspections to ensure compliance.

F. The board by rule may establish and collect fees for license verification, board meeting agendas and minutes, published lists and mailing labels.

G. This section does not prohibit the board from conducting its authorized duties in a public meeting.

H. For the purposes of this section:

1. "Good standing" means that a person holds an unrestricted and unencumbered license that has not been suspended or revoked pursuant to this chapter.

2. "Record of complaint" means the document reflecting the final disposition of a complaint or investigation.

32-1208. Failure to respond to subpoena; civil penalty

In addition to any disciplinary action authorized by statute, the board may assess a nondisciplinary civil penalty in an amount not to exceed five hundred dollars for a licensee who fails to respond to a subpoena issued by the board pursuant to this chapter.

32-1209. Admissibility of records in evidence

A copy of any part of the recorded proceedings of the board certified by the executive director, or a certificate by the executive director that any asserted or purported record, name, license number, restricted permit number or action is not entered in the recorded proceedings of the board, may be admitted as evidence in any court in this state. A person making application and paying a fee set by the board may procure from the executive director a certified copy of any portion of the records of the board unless these records are classified as confidential as provided by law. Unless otherwise provided by law, all records concerning an investigation, examination materials, records of examination grading and applicants' performance and transcripts of educational institutions concerning applicants are confidential and are not public records. "Records of applicants' performance" does not include records of whether an applicant passed or failed an examination.

32-1210. Annual report; posting

A. Not later than October 1 of each year, the board shall make an annual written report to the governor for the preceding fiscal year that includes the following information:

1. The number of licensed dentists, dental therapists and hygienists in this state.

2. The number of certified denturists in this state.

3. The number of registered business entities in this state.

4. The number of licenses, certificates and registrations issued during the preceding fiscal year for each license type, certificate and registration.

5. The outcomes with respect to complaints filed with the board and of any formal hearings held in connection with those complaints and the results of those hearings.

6. The facts with respect to persons charged with violations of this chapter.

7. A full and complete statement of financial transactions of the board.

8. Any other matters that the board wishes to include in the report or that the governor requires.

B. On request of the governor, the board shall submit a supplemental report.

C. The reports made pursuant to this section shall be posted on the board's public website.

32-1212. Dental board fund

(L24, Ch. 222, sec. 13. Eff. until 7/1/28)

A. Except as provided in subsection C of this section, pursuant to sections 35-146 and 35-147, the executive director of the board shall each month deposit fifteen percent of all fees, fines and other revenue received by the board in the state general fund and deposit the remaining eighty-five percent in the dental board fund.

B. Monies deposited in the dental board fund are subject to the provisions of section 35-143.01.

C. Monies from administrative penalties received pursuant to section 32-1263.01 shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

32-1212. Dental board fund; Version 2

(L24, Ch. 222, sec. 14. Eff. 7/1/28)

A. Except as provided in subsection C of this section, pursuant to sections 35-146 and 35-147, the executive director of the board shall each month deposit ten percent of all fees, fines and other revenue received by the board in the state general fund and deposit the remaining ninety percent in the dental board fund.

B. Monies deposited in the dental board fund are subject to the provisions of section 35-143.01.

C. Monies from administrative penalties received pursuant to section 32-1263.01 shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

32-1213. Business entities; registration; renewal; civil penalty; exceptions

A. A business entity may not offer dental services pursuant to this chapter unless:

1. The business entity is registered with the board pursuant to this section.

2. The services are conducted by a licensee pursuant to this chapter.

B. The business entity must file a registration application on a form provided by the board. The application must include:

1. A description of the business entity's services offered to the public.

2. The name of any dentist who is authorized to provide and who is responsible for providing the dental services offered at each office.

3. The names and addresses of the officers and directors of the business entity.

4. The name of the business entity's custodian of records.

5. A registration fee prescribed by the board in rule.

C. A business entity must file a separate registration application and pay a fee for each branch office in this state.

D. A registration expires three years after the date the board issues the registration. A business entity that wishes to renew a registration must submit an application for renewal as prescribed by the board on a triennial basis on a form provided by the board before the expiration date. A business entity that fails to renew the registration before the expiration date is subject to a late fee as prescribed by the board by rule. The board may stagger the dates for renewal applications.

E. The business entity must notify the board in writing within thirty days after any change:

1. In the business entity's name, address or telephone number.

2. In the officers or directors of the business entity.

3. In the name of any dentist who is authorized to provide and who is responsible for providing the dental services in any facility.

4. The name of the business entity's custodian of records who will accept subpoenas and respond to patient records requests.

F. The business entity shall establish a written protocol for the secure storage, transfer and access of the dental records of the business entity's patients. This protocol must include, at a minimum, procedures for:

1. Notifying patients of the future locations of their records if the business entity terminates or sells the practice.

2. Disposing of unclaimed dental records.

3. The timely response to requests by patients for copies of their records.

G. The business entity must notify the board within thirty days after the dissolution of any registered business entity or the closing or relocation of any facility and must disclose to the board the business entity's procedure by which its patients may obtain their records.

H. The board may do any of the following pursuant to its disciplinary procedures if a business entity violates the board's statutes or rules:

1. Refuse to issue a registration.

2. Suspend or revoke a registration.

3. Impose a civil penalty of not more than $2,000 for each violation.

4. Enter a decree of censure.

5. Issue an order prescribing a period and terms of probation that are best adapted to protect the public welfare and that may include a requirement for restitution to a patient for a violation of this chapter or rules adopted pursuant to this chapter.

6. Issue a letter of concern if a business entity's actions may cause the board to take disciplinary action.

I. The board shall deposit, pursuant to sections 35-146 and 35-147, civil penalties collected pursuant to this section in the state general fund.

J. This section does not apply to:

1. A sole proprietorship or partnership that consists exclusively of dentists who are licensed pursuant to this chapter.

2. Any of the following entities licensed under title 20:

(a) A service corporation.

(b) An insurer authorized to transact disability insurance.

(c) A prepaid dental plan organization that does not provide directly for prepaid dental services.

(d) A health care services organization that does not provide directly for dental services.

3. A professional corporation or professional limited liability company, the shares of which are exclusively owned by dentists who are licensed pursuant to this chapter and that is formed to engage in the practice of dentistry pursuant to title 10, chapter 20 or title 29 relating to professional limited liability companies.

4. A facility regulated by the federal government or a state, district or territory of the United States.

5. An administrator or executor of the estate of a deceased dentist or a person who is legally authorized to act for a dentist who has been adjudicated to be mentally incompetent for not more than one year after the date the board receives notice of the dentist's death or incapacitation pursuant to section 32-1270.

K. A facility that offers dental services to the public by persons licensed under this chapter shall be registered by the board unless the facility is any of the following:

1. Owned by a dentist who is licensed pursuant to this chapter.

2. Regulated by the federal government or a state, district or territory of the United States.

L. Except for issues relating to insurance coding and billing that require the name, signature and license number of the dentist providing treatment, this section does not:

1. Authorize a licensee in the course of providing dental services for a business entity registered pursuant to this section to disregard or interfere with a policy or practice established by the business entity for the operation and management of the business.

2. Authorize a business entity registered pursuant to this section to establish or enforce a business policy or practice that may interfere with the clinical judgment of the licensee in providing dental services for the business entity or may compromise a licensee's ability to comply with this chapter.

M. The board shall adopt rules that provide a method for the board to receive the assistance and advice of business entities licensed pursuant to this chapter in all matters relating to the regulation of business entities.

N. An individual currently holding a surrendered or revoked license to practice dentistry or dental hygiene in any state or jurisdiction in the United States may not have a majority ownership interest in the business entity registered pursuant to this section. Revocation and surrender of licensure shall be limited to disciplinary actions resulting in loss of license or surrender of license instead of disciplinary action. Dentists or dental hygienists affected by this subsection shall have one year after the surrender or revocation to divest themselves of their ownership interest. This subsection does not apply to publicly held companies. For the purposes of this subsection, "majority ownership interest" means an ownership interest greater than fifty percent.

Article 2 Licensing

32-1231. Persons not required to be licensed

This chapter does not prohibit:

1. A dentist, dental therapist or dental hygienist who is officially employed in the service of the United States from practicing dentistry in the dentist's, dental therapist's or dental hygienist's official capacity, within the scope of that person's authority, on persons who are enlisted in, directly connected with or under the immediate control of some branch of service of the United States.

2. A person, whether or not licensed by this state, from practicing dental therapy either:

(a) In the discharge of official duties on behalf of the United States government, including the United States department of veterans affairs, the United States public health service and the Indian health service.

(b) While employed by tribal health programs authorized pursuant to Public Law 93-638 or urban Indian health programs.

3. An intern or student of dentistry, dental therapy or dental hygiene from operating in the clinical departments or laboratories of a recognized dental school, recognized dental therapy school, recognized dental hygiene school or hospital under the supervision of a dentist.

4. An unlicensed person from performing for a licensed dentist merely mechanical work on inert matter not within the oral cavity in the construction, making, alteration or repairing of any artificial dental substitute or any dental restorative or corrective appliance, if the casts or impressions for that work have been furnished by a licensed dentist and the work is directly supervised by the dentist for whom done or under a written authorization signed by the dentist, but the burden of proving that written authorization or direct supervision is on the person charged with having violated this provision.

5. A clinician who is not licensed in this state from giving demonstrations, before bona fide dental societies, study clubs and groups of professional students, that are free to the persons on whom made.

6. The state director of dental public health from performing the director's administrative duties as prescribed by law.

7. A dentist or dental hygienist to whom a restricted permit has been issued from practicing dentistry or dental hygiene in this state as provided in sections 32-1237 and 32-1292.

8. A dentist, dental therapist or dental hygienist from practicing for educational purposes on behalf of a recognized dental school, recognized dental therapy school or recognized dental hygiene school.

9. A dentist who holds an active and unrestricted license in another state, territory or possession of the United States from practicing for educational purposes in connection with recognized continuing dental education. A dentist who practices under this paragraph:

(a) May not receive compensation for dental services provided in connection with recognized continuing dental education.

(b) Is subject to the jurisdiction and discipline of the board to the same extent as dentists who are licensed in this state.

(c) May not provide any dental care or services in this state to a person who is either:

(i) Physically unable to safely receive the dental care or services.

(ii) Not mentally competent to knowingly and voluntarily consent to the dental care or services.

(d) Shall file a restricted permit application on a form approved by the board with the provider of the recognized continuing dental education before providing any dental care or services in this state. The provider of the recognized continuing dental education shall retain the dentist's restricted permit application for a period of at least five years.

32-1232. Qualifications of applicant; application; fee; fingerprint clearance card

A. An applicant for licensure shall meet the requirements of section 32-1233 and shall hold a diploma conferring a degree of doctor of dental medicine or doctor of dental surgery from a recognized dental school.

B. Each candidate shall submit a written application to the board accompanied by a nonrefundable Arizona dental jurisprudence examination fee of $300. The board shall waive this fee for candidates who are applying for a restricted permit. Each candidate shall also obtain a valid fingerprint clearance card issued pursuant to section 41-1758.03.

C. The board may deny an application for a license, for license renewal or for a restricted permit if the applicant:

1. Has committed any act that would be cause for censure, probation or suspension or revocation of a license under this chapter.

2. While unlicensed, committed or aided and abetted the commission of any act for which a license is required by this chapter.

3. Knowingly made any false statement in the application.

4. Has had a license to practice dentistry revoked by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under suspension or restriction by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dentistry in lieu of disciplinary action by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

D. The board shall suspend an application for a license, for license renewal or for a restricted permit if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue or deny a license to the applicant until the investigation is resolved.

32-1233. Applicants for licensure; examination requirements

An applicant for licensure shall have passed all of the following:

1. The written national dental board examinations.

2. A clinical examination administered by a state or regional testing agency in the United States within five years preceding filing the application.

3. The Arizona dental jurisprudence examination.

32-1234. Dental consultant license

A. A person may apply for a dental consultant license if the applicant demonstrates to the board's satisfaction that the applicant:

1. Has continuously held a license to practice dentistry for at least twenty-five years issued by one or more states or territories of the United States or the District of Columbia but is not currently licensed to practice dentistry in Arizona.

2. Has not had a license to practice dentistry revoked by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

3. Is not currently under suspension or restriction by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

4. Has not surrendered, relinquished or given up a license to practice dentistry in lieu of disciplinary action by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Meets the applicable requirements of section 32-1232.

6. Meets the requirements of section 32-1233, paragraph 1. If an applicant has taken a state written theory examination instead of the written national dental board examinations, the applicant must provide the board with official documentation of passing the written theory examinations in the state where the applicant holds a current license. The board shall then determine the applicant's eligibility for a license pursuant to this section.

7. Meets the application requirements as prescribed in rule by the board.

B. The board shall suspend an application for a dental consultant license if the applicant is currently under investigation by a dental regulatory board in another jurisdiction in the United States. The board shall not issue or deny a license to the applicant until the investigation is resolved.

C. A person to whom a dental consultant license is issued shall practice dentistry only in the course of the person's employment or on behalf of an entity licensed under title 20 with the practice limited to supervising or conducting utilization review or other claims or case management activity on behalf of the entity licensed pursuant to title 20. A person who holds a dental consultant license is prohibited from providing direct patient care.

D. This section does not require a person to apply for or hold a dental consultant license in order for that person to serve as a consultant to or engage in claims review activity for an entity licensed pursuant to title 20.

E. Except as provided in subsection B of this section, a dental consultant licensee is subject to all of the provisions of this chapter that are applicable to licensed dentists.

32-1235. Reinstatement of license or certificate; application for previously denied license or certificate

A. On written application the board may issue a new license or certificate to a dentist, dental therapist, dental hygienist or denturist whose license or certificate was previously suspended or revoked by the board or surrendered by the applicant if the applicant demonstrates to the board's satisfaction that the applicant is completely rehabilitated with respect to the conduct that was the basis for the suspension, revocation or surrender. In making its decision, the board shall determine:

1. That the applicant has not engaged in any conduct during the suspension, revocation or surrender period that would have constituted a basis for revocation pursuant to section 32-1263.

2. If a criminal conviction was a basis for the suspension, revocation or surrender, that the applicant's civil rights have been fully restored pursuant to statute or any other applicable recognized judicial or gubernatorial order.

3. That the applicant has made restitution to any aggrieved person as ordered by a court of competent jurisdiction.

4. That the applicant demonstrates any other standard of rehabilitation the board determines is appropriate.

B. Except as provided in subsection C of this section, a person may not submit an application for reinstatement less than five years after the date of suspension, revocation or surrender.

C. The board shall vacate its previous order to suspend or revoke a license or certificate if that suspension or revocation was based on a conviction of a felony or an offense involving moral turpitude and that conviction has been reversed on appeal. The person may submit an application for reinstatement as soon as the court enters the reversal.

D. An applicant for reinstatement must comply with all initial licensing or certification requirements prescribed by this chapter.

E. A person whose application for a license or certificate has been denied for failure to meet academic requirements may apply for licensure or certification not less than two years after the denial.

F. A person whose application for a license has been denied pursuant to section 32-1232, subsection C may apply for licensure not less than five years after the denial.

32-1236. Dentist triennial licensure; continuing education; license reinstatement; license for each place of practice; notice of change of address or place of practice; retired and disabled license status; penalties

A. Except as provided in section 32-4301, a license expires thirty days after the licensee's birth month every third year. On or before the last day of the licensee's birth month every third year, every licensed dentist shall submit to the board a complete renewal application and pay a license renewal fee of not more than $650, established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the amount of the fee shall be applied prospectively to a licensee at the time of licensure renewal. The fee prescribed by this subsection does not apply to a retired dentist or to a dentist with a disability.

B. A licensee shall include a written affidavit with the renewal application that affirms that the licensee complies with board rules relating to continuing education requirements. A licensee is not required to complete the written affidavit if the licensee received an initial license within the year immediately preceding the expiration date of the license or the licensee is in disabled status. If the licensee is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the licensee includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the licensee's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the license expires thirty days after the licensee's birth month.

C. A person applying for licensure for the first time in this state shall pay a prorated fee for the period remaining until the licensee's next birth month. This fee shall not exceed one-third of the fee established pursuant to subsection A of this section. Subsequent licensure renewal shall be conducted pursuant to this section.

D. An expired license may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the license with payment of the renewal fee and a $100 penalty. Whenever issued, reinstatement is as of the date of application and entitles the applicant to licensure only for the remainder of the applicable three-year period. If a person does not reinstate a license pursuant to this subsection, the person must reapply for licensure pursuant to this chapter.

E. Each licensee must provide to the board in writing both of the following:

1. A primary mailing address.

2. The address for each place of practice.

F. A licensee maintaining more than one place of practice shall obtain from the board a duplicate license for each office. A fee set by the board shall be charged for each duplicate license. The licensee shall notify the board in writing within ten days after opening the additional place or places of practice. The board shall impose a penalty of $50 for failure to notify the board.

G. A licensee who is fully retired and a licensee who has a permanent disability may contribute services to a recognized charitable institution and still retain that classification for triennial registration purposes on payment of a reduced renewal fee as prescribed by the board by rule.

H. A licensee applying for retired or disabled status shall:

1. Relinquish any prescribing privileges and shall attest by affidavit that the licensee has surrendered to the United States drug enforcement administration any registration issued pursuant to the federal controlled substances act and has surrendered to the board any registration issued pursuant to section 36-2606.

2. If the licensee holds a permit to dispense drugs and devices pursuant to section 32-1298, surrender that permit to the board.

3. Attest by affidavit that the licensee is not currently engaged in the practice of dentistry.

I. A licensee who changes the licensee's primary mailing address or place of practice address shall notify the board of that change in writing within ten days. The board shall impose a penalty of $50 if a licensee fails to notify the board of the change within that time. The board shall increase the penalty imposed to $100 if a licensee fails to notify it of the change within thirty days.

32-1237. Restricted permit

A. A person may apply for a restricted permit if the applicant demonstrates to the board's satisfaction that the applicant:

1. Has a pending contract with a recognized charitable dental clinic or organization or will be practicing for educational purposes in connection with and while enrolled in recognized continuing dental education that offers dental services without compensation or at a rate that only reimburses the clinic for dental supplies and overhead costs and the applicant will receive no compensation for dental services provided at the clinic or organization or in connection with the recognized continuing dental education.

2. Has a license to practice dentistry issued by another state or territory of the United States or the District of Columbia.

3. Has been actively engaged in one or more of the following for at least three years immediately preceding the application:

(a) The practice of dentistry.

(b) An approved dental residency training program.

(c) Postgraduate training deemed by the board equivalent to an approved dental residency training program.

4. Is competent and proficient to practice dentistry.

5. Meets the requirements of section 32-1232, subsection A, other than the requirement to meet section 32-1233.

B. For the purposes of meeting the requirements of subsection A of this section, the provider of the recognized continuing dental education, before the commencement of the recognized continuing dental education, shall notify the board of the restricted permit applicants the provider has accepted that meet the requirements of section 32-1231, paragraph 9. The board shall acknowledge receipt of the notification within five business days after the later of receiving either:

1. The notification.

2. A copy of the applicants' valid fingerprint clearance cards.

32-1238. Issuance of restricted permit

A. The board shall issue a restricted permit within thirty days after the date the board receives a complete application that meets the requirements of section 32-1232, subsection B from an applicant that meets the requirements of section 32-1237.

B. A restricted permit may be issued by the board without examination or payment of fee for a period not to exceed one year and shall automatically expire at that time. The board may, in its discretion and pursuant to rules or regulations not inconsistent with this chapter, renew such restricted permit for periods not to exceed one year.

C. For the purposes of this section, the acknowledgment from the board pursuant to section 32-1237, subsection B serves as the issuance of a restricted permit to an applicant who will be practicing for educational purposes in connection with and while enrolled in recognized continuing dental education.

32-1239. Practice under restricted permit

A person to whom a restricted permit is issued may practice dentistry only in the course of the person's employment by a recognized charitable dental clinic or organization or for educational purposes in connection with and while enrolled in recognized continuing dental education as approved by the board. The person shall file a copy of the person's employment contract or confirmation of enrollment with recognized continuing dental education with the board, and the contract or confirmation shall contain the following provisions:

1. The applicant understands and acknowledges that if the applicant's employment by the charitable dental clinic or organization or enrollment in the recognized continuing dental education is terminated before the expiration of the applicant's restricted permit, the applicant's restricted permit will be automatically revoked and the applicant will voluntarily surrender the permit to the board and will no longer be eligible to practice unless or until the applicant has satisfied the requirements of section 32-1237 or has successfully passed the examination as provided in this article.

2. The person must be either:

(a) Employed by a dental clinic or organization that is organized and operated for charitable purposes offering dental services without compensation. The term "employed" as used in this subdivision includes the performance of dental services without compensation.

(b) Enrolled in recognized continuing dental education and providing charitable dental services, for which the person may not receive any compensation, in connection with recognized continuing dental education with an organization that is exempt from taxation pursuant to section 501(c)(3) of the internal revenue code.

3. The person is subject to all the provisions of this chapter applicable to licensed dentists and to the jurisdiction and discipline of the board for all dental care and services provided under the restricted permit.

32-1240. Licensure by credential; examinations; waiver; fee

A. The board by rule may waive the examination requirements of this article on receipt of evidence satisfactory to the board that the applicant has passed the clinical examination of another state or testing agency more than five years before submitting an application for licensure pursuant to this chapter and the other state or testing agency maintains a standard of licensure that is substantially equivalent to that of this state as determined by the board. The board by rule shall require:

1. A minimum number of active practice hours within a specific time period before the applicant submits the application. The board shall define what constitutes active practice.

2. An affirmation that the applicant has completed the continuing education requirements of the jurisdiction where the applicant is licensed.

B. The applicant shall pay a licensure by credential fee of not more than two thousand dollars as prescribed by the board.

32-1241. Training permits; qualified military health professionals

A. The board shall issue a training permit to a qualified military health professional who is practicing dentistry in the United States armed forces and who is discharging the health professional's official duties by participating in a clinical training program based at a civilian hospital affiliated with the United States department of defense.

B. Before the board issues the training permit, the qualified military health professional must submit a written statement from the United States department of defense that the applicant:

1. Is a member of the United States armed forces who is performing duties for and at the direction of the United States department of defense at a location in this state approved by the United States department of defense.

2. Has a current license or is credentialed to practice dentistry in a jurisdiction of the United States.

3. Meets all required qualification standards prescribed pursuant to 10 United States Code section 1094(d) relating to the licensure requirements for health professionals.

4. Has not had a license to practice revoked by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction that constitutes unprofessional conduct pursuant to this chapter.

5. Is not currently under investigation, suspension or restriction by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction that constitutes unprofessional conduct pursuant to this chapter.

6. Has not surrendered, relinquished or given up a license in lieu of disciplinary action by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction that constitutes unprofessional conduct pursuant to this chapter. This paragraph does not prevent the board from considering the request for a training permit of a qualified military health professional who surrendered, relinquished or gave up a license in lieu of disciplinary action by a regulatory board in another jurisdiction if that regulatory board subsequently reinstated the qualified military health professional's license.

C. The qualified military health professional may not open an office or designate a place to meet patients or receive calls relating to the practice of dentistry in this state outside of the facilities and programs of the approved civilian hospital.

D. The qualified military health professional may not practice outside of the professional's scope of practice.

E. A training permit issued pursuant to this section is valid for one year. The qualified military health professional may apply annually to the board to renew the permit. With each application to renew the qualified military health professional must submit a written statement from the United States department of defense asking the board for continuation of the training permit.

F. The board may not impose a fee to issue or renew a training permit to a qualified military health professional pursuant to this section.

Article 3 Regulation

32-1261. Practicing without license; classification

Except as otherwise provided a person is guilty of a class 6 felony who, without a valid license or business entity registration as prescribed by this chapter:

1. Practices dentistry or any branch of dentistry as described in section 32-1202.

2. In any manner or by any means, direct or indirect, advertises, represents or claims to be engaged or ready and willing to engage in that practice as described in section 32-1202.

3. Manages, maintains or carries on, in any capacity or by any arrangement, a practice, business, office or institution for the practice of dentistry, or that is advertised, represented or held out to the public for that purpose.

32-1262. Corporate practice; display of name and license receipt or license; duplicate licenses; fee

A. It is lawful to practice dentistry as a professional corporation or professional limited liability company.

B. It is lawful to practice dentistry as a business organization if the business organization is registered as a business entity pursuant to this chapter.

C. It is lawful to practice dentistry under a name other than that of the licensed practitioners if the name is not deceptive or misleading.

D. If practicing as a professional corporation or professional limited liability company, the name and address of record of the dentist owners of the practice shall be conspicuously displayed at the entrance to each owned location.

E. If practicing as a business organization that is registered as a business entity pursuant to section 32-1213, the receipt for the current registration period must be conspicuously displayed at the entrance to each place of practice.

F. A licensee's receipt for the current licensure period shall be displayed in the licensee's place of practice in a manner that is always readily observable by patients or visitors and shall be exhibited to members of the board or to duly authorized agents of the board on request. The receipt for the licensure period immediately preceding shall be kept on display until replaced by the receipt for the current period. During the year in which the licensee is first licensed and until the receipt for the following period is received, the license shall be displayed in lieu of the receipt.

G. If a dentist maintains more than one place of practice, the board may issue one or more duplicate licenses or receipts on payment of a fee fixed by the board not exceeding twenty-five dollars for each duplicate.

H. If a licensee legally changes the licensee's name from that in which the license was originally issued, the board, on satisfactory proof of the change and surrender of the original license, if obtainable, may issue a new license in the new name and shall charge the established fee for duplicate licenses.

32-1263. Grounds for disciplinary action; definition

A. The board may invoke disciplinary action against any person who is licensed under this chapter for any of the following reasons:

1. Unprofessional conduct as defined in section 32-1201.01.

2. Conviction of a felony or of a misdemeanor involving moral turpitude, in which case the record of conviction or a certified copy is conclusive evidence.

3. Physical or mental incompetence to practice pursuant to this chapter.

4. Committing or aiding, directly or indirectly, a violation of or noncompliance with any provision of this chapter or of any rules adopted by the board pursuant to this chapter.

5. Dental incompetence as defined in section 32-1201.

B. This section does not establish a cause of action against a licensee or a registered business entity that makes a report of unprofessional conduct or unethical conduct in good faith.

C. The board may take disciplinary action against a business entity that is registered pursuant to this chapter for unethical conduct.

D. For the purposes of this section, "unethical conduct" means the following acts occurring in this state or elsewhere:

1. Failing to report in writing to the board any evidence that a dentist, dental therapist, denturist or dental hygienist is or may be professionally incompetent, is or may be guilty of unprofessional conduct, is or may be impaired by drugs or alcohol or is or may be mentally or physically unable to safely engage in the permissible activities of a dentist, dental therapist, denturist or dental hygienist.

2. Falsely reporting to the board that a dentist, dental therapist, denturist or dental hygienist is or may be guilty of unprofessional conduct, is or may be impaired by drugs or alcohol or is or may be mentally or physically unable to safely engage in the permissible activities of a dentist, dental therapist, denturist or dental hygienist.

3. Obtaining or attempting to obtain a registration or registration renewal by fraud or by misrepresentation.

4. Knowingly filing with the board any application, renewal or other document that contains false information.

5. Failing to register or failing to submit a renewal registration with the board pursuant to section 32-1213.

6. Failing to provide the following persons with access to any place for which a registration has been issued or for which an application for a registration has been submitted in order to conduct a site investigation, inspection or audit:

(a) The board or its employees or agents.

(b) An authorized federal or state official.

7. Failing to notify the board of a change in officers and directors, a change of address, a change in the dentists providing services or a change in the custodian of records pursuant to section 32-1213, subsection E.

8. Failing to maintain or provide patient records pursuant to section 32-1264.

9. Obtaining a fee by fraud or misrepresentation or wilfully or intentionally filing a fraudulent claim with a third party for services rendered or to be rendered to a patient.

10. Engaging in repeated irregularities in billing.

11. Engaging in the following advertising practices:

(a) Publishing or circulating, directly or indirectly, any false or fraudulent or misleading statements concerning the skill, methods or practices of a registered business entity, a licensee or any other person.

(b) Advertising in any manner that tends to deceive or defraud the public.

12. Failing to comply with a board subpoena in a complete or timely manner.

13. Failing to comply with a final board order, including a decree of censure, a period or term of probation, a consent agreement or a stipulation.

14. Employing or aiding and abetting unlicensed persons to perform work that must be done by a person licensed pursuant to this chapter.

15. Engaging in any conduct or practice that constitutes a danger to the health, welfare or safety of the patient or the public.

16. Engaging in a policy or practice that interferes with the clinical judgment of a licensee providing dental services for a business entity or compromising a licensee's ability to comply with this chapter.

17. Engaging in a practice by which a dental hygienist, dental therapist or dental assistant exceeds the scope of practice or restrictions included in a written collaborative practice agreement.

18. Failing to provide medical records or payment records to a third party, including current or former associates, employees or dentists of the practice, as required by sections 12-2294 and 12-2294.01.

32-1263.01. Types of disciplinary action; letter of concern; judicial review; notice; removal of notice; violation; classification

A. The board may take any one or a combination of the following disciplinary actions against any person licensed under this chapter:

1. Revocation of license to practice.

2. Suspension of license to practice.

3. Entering a decree of censure, which may require that restitution be made to an aggrieved party.

4. Issuance of an order fixing a period and terms of probation best adapted to protect the public health and safety and to rehabilitate the licensed person. The order fixing a period and terms of probation may require that restitution be made to the aggrieved party.

5. Imposition of an administrative penalty in an amount not to exceed two thousand dollars for each violation of this chapter or rules adopted under this chapter.

6. Imposition of a requirement for restitution of fees to the aggrieved party.

7. Imposition of restrictions on the scope of practice.

8. Imposition of peer review and professional education requirements.

9. Imposition of community service.

B. The board may issue a letter of concern if a licensee's continuing practices may cause the board to take disciplinary action. The board may also issue a nondisciplinary order requiring the licensee to complete a prescribed number of hours of continuing education in an area or areas prescribed by the board to provide the licensee with the necessary understanding of current developments, skills, procedures or treatment.

C. Failure to comply with any order of the board, including an order of censure or probation, is cause for suspension or revocation of a license.

D. All disciplinary and final nondisciplinary actions or orders, not including letters of concern or advisory letters, issued by the board against a licensee or certificate holder shall be posted to that licensee's or certificate holder's profile on the board's website. For the purposes of this subsection, only final nondisciplinary actions and orders that are issued after January 1, 2018 shall be posted.

E. Except as provided in section 41-1092.08, subsection H, final decisions of the board are subject to judicial review pursuant to title 12, chapter 7, article 6.

F. If the state board of dental examiners acts to modify any dentist's prescription-writing privileges, it shall immediately notify the Arizona state board of pharmacy of the modification.

G. The board may post a notice of its suspension or revocation of a license at the licensee's place of business. This notice shall remain posted for sixty days. A person who removes this notice without board or court authority before that time is guilty of a class 3 misdemeanor.

H. A licensee or certificate holder shall respond in writing to the board within twenty days after a notice of hearing is served. A licensee who fails to answer the charges in a complaint and notice of hearing issued pursuant to this article and title 41, chapter 6, article 10 is deemed to admit the acts charged in the complaint, and the board may revoke or suspend the license without a hearing.

32-1263.02. Investigation and adjudication of complaints; disciplinary action; civil penalty; immunity; subpoena authority; definitions

A. The board on its own motion, or the investigation committee if established by the board, may investigate any evidence that appears to show the existence of any of the causes or grounds for disciplinary action as provided in section 32-1263. The board or investigation committee may investigate any complaint that alleges the existence of any of the causes or grounds for disciplinary action as provided in section 32-1263. The board shall not act on its own motion or on a complaint received by the board if the allegation of unprofessional conduct, unethical conduct or any other violation of this chapter against a licensee occurred more than four years before the complaint is received by the board. The four-year time limitation does not apply to:

1. Medical malpractice settlements or judgments, allegations of sexual misconduct or an incident or occurrence that involved a felony, diversion of a controlled substance or impairment while practicing by the licensee.

2. The board's consideration of the specific unprofessional conduct related to the licensee's failure to disclose conduct or a violation as required by law.

B. At the request of the complainant, the board or investigation committee shall not disclose to the respondent the complainant name unless the information is essential to proceedings conducted pursuant to this article.

C. The board or investigation committee shall conduct necessary investigations, including interviews between representatives of the board or investigation committee and the licensee with respect to any information obtained by or filed with the board under subsection A of this section or obtained by the board or investigation committee during the course of an investigation. The results of the investigation conducted by the investigation committee, including any recommendations from the investigation committee for disciplinary action against any licensee, shall be forwarded to the board for its review.

D. The board or investigation committee may designate one or more persons of appropriate competence to assist the board or investigation committee with any aspect of an investigation.

E. If, based on the information the board receives under subsection A or C of this section, the board finds that the public health, safety or welfare imperatively requires emergency action and incorporates a finding to that effect in its order, the board may order a summary suspension of a licensee's license pursuant to section 41-1092.11 pending proceedings for revocation or other action.

F. If a complaint refers to quality of care, the patient may be referred for a clinical evaluation at the discretion of the board or the investigation committee.

G. If, after completing its investigation or review pursuant to this section, the board finds that the information provided pursuant to subsection A or C of this section is insufficient to merit disciplinary action against a licensee, the board may take any of the following actions:

1. Dismiss the complaint.

2. Issue a nondisciplinary letter of concern to the licensee.

3. Issue a nondisciplinary order requiring the licensee to complete a prescribed number of hours of continuing education in an area or areas prescribed by the board to provide the licensee with the necessary understanding of current developments, skills, procedures or treatment.

4. Assess a nondisciplinary civil penalty in an amount not to exceed $500 if the complaint involves the licensee's failure to respond to a board subpoena.

H. If, after completing its investigation or review pursuant to this section, the board finds that the information provided pursuant to subsection A or C of this section is sufficient to merit disciplinary action against a licensee, the board may request that the licensee participate in a formal interview before the board. If the licensee refuses or accepts the invitation for a formal interview and the results indicate that grounds may exist for revocation or suspension, the board shall issue a formal complaint and order that a hearing be held pursuant to title 41, chapter 6, article 10. If, after completing a formal interview, the board finds that the protection of the public requires emergency action, it may order a summary suspension of the license pursuant to section 41-1092.11 pending formal revocation proceedings or other action authorized by this section.

I. If, after completing a formal interview, the board finds that the information provided under subsection A or C of this section is insufficient to merit suspension or revocation of the license, it may take any of the following actions:

1. Dismiss the complaint.

2. Order disciplinary action pursuant to section 32-1263.01, subsection A.

3. Enter into a consent agreement with the licensee for disciplinary action.

4. Order nondisciplinary continuing education pursuant to section 32-1263.01, subsection B.

5. Issue a nondisciplinary letter of concern to the licensee.

J. A copy of the board's order issued pursuant to this section shall be given to the complainant and to the licensee. Pursuant to title 41, chapter 6, article 10, the licensee may petition for rehearing or review.

K. Any person who in good faith makes a report or complaint as provided in this section to the board or to any person or committee acting on behalf of the board is not subject to liability for civil damages as a result of the report.

L. The board, through its president or the president's designee, may issue subpoenas to compel the attendance of witnesses and the production of documents and may administer oaths, take testimony and receive exhibits in evidence in connection with an investigation initiated by the board or a complaint filed with the board. In case of disobedience to a subpoena, the board may invoke the aid of any court of this state in requiring the attendance and testimony of witnesses and the production of documentary evidence.

M. Patient records, including clinical records, medical reports, laboratory statements and reports, files, films, reports or oral statements relating to diagnostic findings or treatment of patients, any information from which a patient or a patient's family may be identified or information received and records kept by the board as a result of the investigation procedures taken pursuant to this chapter, are not available to the public.

N. The board may charge the costs of formal hearings conducted pursuant to title 41, chapter 6, article 10 to a licensee it finds to be in violation of this chapter.

O. The board may accept the surrender of an active license from a licensee who is subject to a board investigation and who admits in writing to any of the following:

1. Being unable to safely engage in the practice of dentistry.

2. Having committed an act of unprofessional conduct.

3. Having violated this chapter or a board rule.

P. In determining the appropriate disciplinary action under this section, the board may consider any previous nondisciplinary and disciplinary actions against a licensee.

Q. If a licensee who is currently providing dental services for a registered business entity believes that the registered business entity has engaged in unethical conduct as defined pursuant to section 32-1263, subsection D, paragraph 16, the licensee must do both of the following before filing a complaint with the board:

1. Notify the registered business entity in writing that the licensee believes that the registered business entity has engaged in a policy or practice that interferes with the clinical judgment of the licensee or that compromises the licensee's ability to comply with the requirements of this chapter. The licensee shall specify in the notice the reasons for this belief.

2. Provide the registered business entity with at least ten calendar days to respond in writing to the assertions made pursuant to paragraph 1 of this subsection.

R. A licensee who files a complaint pursuant to subsection Q of this section shall provide the board with a copy of the licensee's notification and the registered business entity's response, if any.

S. A registered business entity may not take any adverse employment action against a licensee because the licensee complies with the requirements of subsection Q of this section.

T. For the purposes of this section:

1. "License" includes a certificate issued pursuant to this chapter.

2. "Licensee" means a dentist, dental therapist, dental hygienist, denturist, dental consultant, restricted permit holder or business entity regulated pursuant to this chapter.

32-1263.03. Investigation committee; complaints; termination; review

A. If established by the board, the investigation committee may terminate a complaint if the investigation committee's review indicates that the complaint is without merit and that termination is appropriate.

B. The investigation committee may not terminate a complaint if a court has entered a medical malpractice judgment against a licensee.

C. At each regularly scheduled board meeting, the investigation committee shall provide to the board a list of each complaint the investigation committee terminated pursuant to subsection A of this section since the preceding board meeting. On review, the board shall approve, modify or reject the investigation committee's action.

D. A person who is aggrieved by an action taken by the investigation committee pursuant to subsection A of this section may file a written request that the board review that action. The request must be filed within thirty days after that person is notified of the investigation committee's action by personal delivery or, if the notification is mailed to that person's last known residence or place of business, within thirty-five days after the date on the notification. At the next regular board meeting, the board shall review the investigation committee's action. On review, the board shall approve, modify or reject the investigation committee's action.

32-1264. Maintenance of records

A. A person who is licensed or certified pursuant to this chapter shall make legible permanent and contemporaneous written or electronic records concerning all diagnoses, evaluations and treatments of each patient of record. The owner of a dental practice or a registered business entity shall maintain all written and electronic records. Electronic records must be retrievable in paper form. These records shall include:

1. All treatment notes, including current health history and the results of clinical examinations.

2. Prescription and dispensing information, including all drugs, medicaments and dental materials used for patient care.

3. A diagnosis and treatment plan.

4. Dental and periodontal charting. Charting must include existing restorations, areas of requested care and notation of visual oral examination describing any areas of potential pathology or radiographic irregularities.

5. Documentation of informed consent.

6. All radiographs.

B. Records are available for review and for treatment purposes to the dentist, dental therapist, dental hygienist or denturist providing care.

C. On request, the licensee, registered business entity or certificate holder shall allow properly authorized board personnel to have access to the licensee's or certificate holder's place of practice to conduct an inspection and must make the licensee's or certificate holder's records, books and documents available to the board free of charge as part of an investigation process.

D. Within fifteen business days after a patient's written request, that patient's dentist, dental therapist, dental hygienist or denturist or a registered business entity shall transfer legible and diagnostic quality copies of that patient's records to another licensee or certificate holder or that patient. The patient may be charged for the reasonable costs of copying and forwarding these records. A dentist, dental therapist, dental hygienist, denturist or registered business entity may require that payment of reproduction costs be made in advance, unless the records are necessary for continuity of care, in which case the records shall not be withheld. Copies of records shall not be withheld because of an unpaid balance for dental services.

E. Unless otherwise required by law, a person who is licensed or certified pursuant to this chapter or a business entity that is registered pursuant to this chapter must retain the original or a copy of a patient's dental records as follows:

1. If the patient is an adult, for at least six years after the last date the adult patient received dental services from that provider.

2. If the patient is a child, for at least three years after the child's eighteenth birthday or for at least six years after the last date the child received dental services from the provider, whichever occurs later.

F. A person who is licensed or certified pursuant to this chapter and who is an associate or employee of a dental practice is not responsible for storing or retaining medical records but shall compile and record the records in the customary manner.

G. A licensee or business entity shall release treatment records to third parties, including current and former associates, employees or dentists of the practice, as required by sections 12-2294 and 12-2294.01.

H. When a dentist retires or sells a practice, or when a registered business entity closes or sells a practice, the dentist or registered business entity shall take reasonable measures to ensure that the patient records are retained pursuant to this section.

32-1265. Interpretation of chapter

Nothing in this chapter shall be construed to abridge a license issued under laws of this state relating to medicine or surgery.

32-1266. Prosecution of violations

The attorney general shall act for the board in all matters requiring legal assistance, but the board may employ other or additional counsel in its own behalf. The board shall assist prosecuting officers in enforcement of this chapter, and in so doing may engage suitable persons to assist in investigations and in the procurement and presentation of evidence. Subpoenas or other orders issued by the board may be served by any officer empowered to serve processes, who shall receive the fees prescribed by law. Expenditures made in carrying out provisions of this section shall be paid from the dental board fund.

32-1267. Use of fraudulent instruments; classification

A person is guilty of a class 5 felony who:

1. Knowingly presents to or files with the board as his own a diploma, degree, license, certificate or identification belonging to another, or which is forged or fraudulent.

2. Exhibits or displays any instrument described in paragraph 1 with intent that it be used as evidence of the right of such person to practice dentistry in this state.

3. With fraudulent intent alters any instrument described in paragraph 1 or uses or attempts to use it when so altered.

4. Sells, transfers or offers to sell or transfer, or who purchases, procures or offers to purchase or procure a diploma, license, certificate or identification, with intent that it be used as evidence of the right to practice dentistry in this state by a person other than the one to whom it belongs or is issued.

32-1268. Violations; classification; required proof

A. A person is guilty of a class 2 misdemeanor who:

1. Employs, contracts with, or by any means procures the assistance of, or association with, for the purpose of practicing dentistry, a person not having a valid license therefor.

2. Fails to obey a summons or other order regularly and properly issued by the board.

3. Violates any provision of this chapter for which the penalty is not specifically prescribed.

B. In a prosecution or hearing under this chapter, it is necessary to prove only a single act of violation and not a general course of conduct, and where the violation is continued over a period of one or more days each day constitutes a separate violation subject to the penalties prescribed in this chapter.

32-1269. Violation; classification; injunctive relief

A. A person convicted under this chapter is guilty of a class 2 misdemeanor unless another classification is specifically prescribed in this chapter. Violations shall be prosecuted by the county attorney and tried before the superior court in the county in which the violation occurs.

B. In addition to penalties provided in this chapter, the courts of the state are vested with jurisdiction to prevent and restrain violations of this chapter as nuisances per se, and the county attorneys shall, and the board may, institute proceedings in equity to prevent and restrain violations. A person damaged, or threatened with loss or injury, by reason of a violation of this chapter is entitled to obtain injunctive relief in any court of competent jurisdiction against any damage or threatened loss or injury by reason of a violation of this chapter.

32-1270. Deceased or incapacitated dentists; notification

A. An administrator or executor of the estate of a deceased dentist, or a person who is legally authorized to act for a dentist who has been adjudicated to be mentally incompetent, must notify the board within sixty days after the dentist's death or incapacitation. The administrator or executor may employ a licensed dentist for a period of not more than one year to:

1. Continue the deceased or incapacitated dentist's practice.

2. Conclude the affairs of the deceased or incapacitated dentist, including the sale of any assets.

B. An administrator or executor operating a practice pursuant to this section for more than one year must register as a business entity pursuant to section 32-1213.

32-1271. Marking of dentures for identification; retention and release of information

A. Every complete upper or lower denture fabricated by a licensed dentist, or fabricated pursuant to the dentist's work order, must be marked with the patient's name unless the patient objects. The marking must be done during fabrication and must be permanent, legible and cosmetically acceptable. The dentist or the dental laboratory shall determine the location of the marking and the methods used to implant or apply it. The dentist must inform the patient that the marking is used only to identify the patient, and the patient may choose which marking is to appear on the dentures.

B. The dentist must retain the records of marked dentures and may not release the records to any person except to law enforcement officers in any emergency that requires personal identification by means of dental records or to anyone authorized by the patient to receive this information.

32-1272. Dental anesthesia; requirements

A. A dental office or dental clinic at which general anesthesia or sedation is administered must contain properly operating equipment and supplies as prescribed by the board in rule and have proper emergency response protocols in place, including advanced cardiac life support and airway management and pediatric advanced life support, as applicable, when administering general anesthesia or sedation as prescribed by the board in rule that is consistent with the standards and practices recommended by the American heart association.

B. A qualified anesthesia provider who is licensed by the board and who fails to comply with the requirements of this section or applicable board rules commits an act that constitutes a danger to the health, welfare or safety of the public pursuant to section 32-1201.01.

C. If a qualified anesthesia provider who is not licensed by the state board of dental examiners fails to comply with the requirements of this section or applicable board rules, the state board of dental examiners shall promptly report the qualified anesthesia provider's conduct to the regulatory board that licenses the qualified anesthesia provider. If an adverse anesthesia outcome involves a qualified

anesthesia provider who is not licensed by the state board of dental examiners, the state board of dental examiners shall promptly report the adverse anesthesia outcome to the regulatory board that licenses the qualified anesthesia provider.

D. If a death or an incident requiring emergency medical response occurs in a dental office or dental clinic during the administration of or recovery from general anesthesia or sedation by a qualified anesthesia provider, the treating dentist shall submit a report of the incident to the state board of dental examiners within seven business days after the occurrence. If the incident involves a qualified anesthesia provider who is not licensed by the state board of dental examiners, the state board of dental examiners shall immediately forward a copy of the incident report to the regulatory board that licenses the qualified anesthesia provider.

Article 3.1 Licensing and Regulation of Dental Therapists

32-1276. Definitions

In this article, unless the context otherwise requires:

1. "Applicant" means a person who is applying for licensure to practice dental therapy in this state.

2. "Direct supervision" means that a licensed dentist is present in the office and available to provide treatment or care to a patient and observe a dental therapist's work.

32-1276.01. Application for licensure; requirements; fingerprint clearance card; denial or suspension of application

A. An applicant for licensure as a dental therapist in this state shall do all of the following:

1. Apply to the board on a form prescribed by the board.

2. Verify under oath that all statements in the application are true to the applicant's knowledge.

3. Enclose with the application:

(a) A recent photograph of the applicant.

(b) The application fee established by the board by rule.

B. The board may grant a license to practice dental therapy to an applicant who meets all of the following requirements:

1. Is licensed as a dental hygienist pursuant to article 4 of this chapter.

2. Graduates from a dental therapy education program that is accredited by or holds an initial accreditation from the American dental association commission on dental accreditation and that is offered through an accredited higher education institution recognized by the United States department of education.

3. Successfully passes, both of the following:

(a) Within five years before filing the application, a clinical examination in dental therapy administered by a state or testing agency in the United States.

(b) The Arizona dental jurisprudence examination.

4. Is not subject to any grounds for denial of the application under this chapter.

5. Obtains a valid fingerprint clearance card issued pursuant to title 41, chapter 12, article 3.1.

6. Meets all requirements for licensure established by the board by rule.

C. The board may deny an application for licensure or license renewal if the applicant:

1. Has committed an act that would be cause for censure, probation or suspension or revocation of a license under this chapter.

2. While unlicensed, committed or aided and abetted the commission of an act for which a license is required by this chapter.

3. Knowingly made any false statement in the application.

4. Has had a license to practice dental therapy revoked by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently suspended or restricted by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dental therapy instead of having disciplinary action taken against the applicant by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

D. The board shall suspend an application for licensure if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue a license or deny an application for licensure until the investigation is completed.

3. "Licensee" means a person who holds a license to practice dental therapy in this state.

32-1276.02. Dental therapist triennial licensure; continuing education; license renewal and reinstatement; fees; civil penalties; retired and disabled license status

A. Except as provided in section 32-4301, a license issued under this article expires thirty days after the licensee's birth month every third year. On or before the last day of the licensee's birth month every third year, each licensed dental therapist shall submit to the board a complete renewal application and pay a license renewal fee established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the

amount of the fee shall be applied prospectively to a licensee at the time of licensure renewal. The fee prescribed by this subsection does not apply to a retired dental therapist or to a dental therapist with a disability.

B. A licensee shall include a written affidavit with the renewal application that affirms that the licensee complies with board rules relating to continuing education requirements. A licensee is not required to complete the written affidavit if the licensee received an initial license within the year immediately preceding the expiration date of the license or the licensee is in disabled status. If the licensee is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the licensee includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the licensee's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the license expires thirty days after the licensee's birth month of the expiration year.

C. An applicant for a dental therapy license for the first time in this state shall pay a prorated fee for the period remaining until the licensee's next birthday. This fee may not exceed one-third of the fee prescribed pursuant to subsection A of this section. Subsequent applications shall be conducted pursuant to this section.

D. An expired license may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the license with payment of the renewal fee and a $100 penalty. When the license is issued, reinstatement is as of the date of application and entitles the applicant to licensure only for the remainder of the applicable three-year period. If a person does not reinstate a license pursuant to this subsection, the person must reapply for licensure pursuant to this article.

E. A licensee shall notify the board in writing within ten days after the licensee changes the primary mailing address listed with the board. The board shall impose a civil penalty of $50 if a licensee fails to notify the board of the change within that time. The board shall increase the civil penalty to $100 if a licensee fails to notify the board of the change within thirty days.

F. A licensee who is at least sixty-five years of age and who is fully retired and a licensee who has a permanent disability may contribute services to a recognized charitable institution and still retain that classification for triennial registration purposes by paying a reduced renewal fee as prescribed by the board by rule.

G. A licensee is not required to maintain a dental hygienist license.

32-1276.03. Practice of dental therapy; authorized procedures; supervision requirements; restrictions

A. A person is deemed to be a practicing dental therapist if the person does any of the acts or performs any operations included in the general practice of dental therapists or dental therapy or any related and associated duties.

B. Either under the direct supervision of a dentist or pursuant to a written collaborative practice agreement, a licensed dental therapist may do any of the following:

1. Perform oral evaluations and assessments of dental disease and formulate individualized treatment plans.

2. Perform comprehensive charting of the oral cavity.

3. Provide oral health instruction and disease prevention education, including motivational interviewing, nutritional counseling and dietary analysis.

4. Expose and process dental radiographic images.

5. Perform dental prophylaxis, scaling, root planing and polishing procedures.

6. Dispense and administer oral and topical nonnarcotic analgesics and anti-inflammatory and antibiotic medications as prescribed by a licensed health care provider.

7. Apply topical preventive and prophylactic agents, including fluoride varnishes, antimicrobial agents, silver diamine fluoride and pit and fissure sealants.

8. Perform pulp vitality testing.

9. Apply desensitizing medicaments or resins.

10. Fabricate athletic mouth guards and soft occlusal guards.

11. Change periodontal dressings.

12. Administer nitrous oxide analgesics and local anesthetics.

13. Perform simple extraction of erupted primary teeth.

14. Perform nonsurgical extractions of periodontally diseased permanent teeth that exhibit plus three or grade three mobility and that are not impacted, fractured, unerupted or in need of sectioning for removal.

15. Perform emergency palliative treatments of dental pain that is related to care or a service described in this section.

16. Prepare and place direct restorations in primary and permanent teeth.

17. Fabricate and place single-tooth temporary crowns.

18. Prepare and place preformed crowns on primary teeth.

19. Perform indirect and direct pulp capping on permanent teeth.

20. Perform indirect pulp capping on primary teeth.

21. Perform suturing and suture removal.

22. Provide minor adjustments and repairs on removable prostheses.

23. Place and remove space maintainers.

24. Perform all functions of a dental assistant and expanded function dental assistant.

25. Perform other related services and functions that are authorized by the supervising dentist within the dental therapist's scope of practice and for which the dental therapist is trained.

26. Provide referrals.

27. Perform any other duties of a dental therapist that are authorized by the board by rule.

C. A dental therapist may not:

1. Dispense or administer a narcotic drug.

2. Independently bill for services to any individual or third-party payor.

D. A person may not claim to be a dental therapist unless that person is licensed as a dental therapist under this article.

32-1276.04. Dental therapists; clinical practice; supervising dentists; written collaborative practice agreements

A. A dental therapist may practice only in the following practice settings or locations, including mobile dental units, that are operated or served by any of the following:

1. A federally qualified community health center.

2. A health center program that has received a federal look-alike designation.

3. A community health center.

4. A nonprofit dental practice or a nonprofit organization that provides dental care to low-income and underserved individuals.

5. A private dental practice that provides dental care for community health center patients of record who are referred by the community health center.

B. A dental therapist may practice in this state either under the direct supervision of a dentist or pursuant to a written collaborative practice agreement. Before a dental therapist may enter into a written collaborative practice agreement, the dental therapist shall complete one thousand hours of dental therapy clinical practice under the direct supervision of a dentist who is licensed in this state and shall provide documentation satisfactory to the board of having completed this requirement.

C. A practicing dentist who holds an active license pursuant to this chapter and a licensed dental therapist who holds an active license pursuant to this article may enter into a written collaborative practice agreement for the delivery of dental therapy services. The supervising dentist shall provide or arrange for another dentist or specialist to provide any service needed by the dental therapist's patient that exceeds the dental therapist's authorized scope of practice.

D. A dentist may not enter into more than four separate written collaborative practice agreements for the delivery of dental therapy services.

E. A written collaborative practice agreement between a dentist and a dental therapist shall do all of the following:

1. Address any limit on services and procedures to be performed by the dental therapist, including types of populations and any age-specific or procedure-specific practice protocol, including case selection criteria, assessment guidelines and imaging frequency.

2. Address any limit on practice settings established by the supervising dentist and the level of supervision required for various services or treatment settings.

3. Establish practice protocols, including protocols for informed consent, recordkeeping, managing medical emergencies and providing care to patients with complex medical conditions, including requirements for consultation before initiating care.

4. Establish protocols for quality assurance, administering and dispensing medications and supervising dental assistants.

5. Include specific protocols to govern situations in which the dental therapist encounters a patient requiring treatment that exceeds the dental therapist's authorized scope of practice or the limits imposed by the collaborative practice agreement.

6. Specify that the extraction of permanent teeth may be performed only under the direct supervision of a dentist and consistent with section 32-1276.03, subsection B, paragraph 14.

F. Except as provided in section 32-1276.03, subsection B, paragraph 14, to the extent authorized by the supervising dentist in the written collaborative practice agreement, a dental therapist may practice dental therapy procedures authorized under this article in a practice setting in which the supervising dentist is not on-site and has not previously examined the patient or rendered a diagnosis.

G. The written collaborative practice agreement must be signed and maintained by both the supervising dentist and the dental therapist and may be updated and amended as necessary by both the supervising dentist and dental therapist. The supervising dentist and dental therapist shall submit a copy of the agreement and any amendment to the agreement to the board.

32-1276.05. Dental therapists; supervising dentists; collaborative practice relationships

A. A dentist who holds an active license pursuant to this chapter and a dental therapist who holds an active license pursuant to this article may enter into a collaborative practice relationship through a written collaborative practice agreement for the delivery of dental therapy services.

B. Each dental practice shall disclose to a patient whether the patient is scheduled to see the dentist or dental therapist.

C. Each dentist in a collaborative practice relationship shall:

1. Be available to provide appropriate contact, communication and consultation with the dental therapist.

2. Adopt procedures to provide timely referral of patients whom the dental therapist refers to a licensed dentist for examination. The dentist to whom the patient is referred shall be geographically available to see the patient.

D. Each dental therapist in a collaborative practice relationship shall:

1. Perform only those duties within the terms of the written collaborative practice agreement.

2. Maintain an appropriate level of contact with the supervising dentist.

E. The dental therapist and the supervising dentist shall notify the board of the beginning of the collaborative practice relationship and provide the board with a copy of the written collaborative practice agreement and any amendments to the agreement within thirty days after the effective date of the agreement or amendment. The dental therapist and supervising dentist shall also notify the board within thirty days after the termination date of the written collaborative practice agreement if the date is different than the termination date provided in the agreement.

F. Subject to the terms of the written collaborative practice agreement, a dental therapist may perform all dental therapy procedures authorized in section 32-1276.03. The dentist's presence, examination, diagnosis and treatment plan are not required unless specified by the written collaborative practice agreement.

32-1276.06. Practicing without a license; violation; classification

It is a class 6 felony for a person to practice dental therapy in this state unless the person has obtained a license from the board as provided in this article.

32-1276.07. Licensure by credential; examination waiver; fee

A. The board by rule may waive the examination requirements of this article on receipt of evidence satisfactory to the board that the applicant has passed the clinical examination of another state or testing agency more than five years before submitting the application for licensure pursuant to this article and the other state or testing agency maintains a standard of licensure or certification that is substantially equivalent to that of this state as determined by the board. The board by rule shall require:

1. A minimum number of active practice hours within a specific time period before the applicant submits the application. The board shall prescribe what constitutes active practice.

2. An affirmation that the applicant has completed the continuing education requirements of the jurisdiction where the applicant is licensed or certified.

B. The applicant shall pay a licensure by credential fee as established by the board in rule.

C. An applicant under this section is not required to obtain a dental hygienist license in this state if the board determines that the applicant otherwise meets the requirements for dental therapist licensure.

32-1276.08. Dental therapy schools; credit for prior experience or coursework

Notwithstanding any other law, a recognized dental therapy school may grant advanced standing or credit for prior learning to a student who has prior experience or has completed coursework that the school determines is equivalent to didactic and clinical education in its accredited program.

Article 4 Licensing and Regulation of Dental Hygienists

32-1281. Practicing as dental hygienist; supervision requirements; definitions

A. A person is deemed to be practicing as a dental hygienist if the person does any of the acts or performs any of the operations included in the general practice of dental hygienists, dental hygiene and all related and associated duties.

B. A licensed dental hygienist may perform the following:

1. Prophylaxis.

2. Scaling.

3. Closed subgingival curettage.

4. Root planing.

5. Administering local anesthetics and nitrous oxide.

6. Inspecting the oral cavity and surrounding structures for the purposes of gathering clinical data to facilitate a diagnosis.

7. Periodontal screening or assessment.

8. Recording clinical findings.

9. Compiling case histories.

10. Exposing and processing dental radiographs.

11. Dental hygiene assessment and dental hygiene treatment planning as components of a diagnosis and treatment plan developed by a dentist.

12. All functions authorized and deemed appropriate for dental assistants.

13. Except as provided in paragraph 14 of this subsection, those restorative functions permissible for an expanded function dental assistant if qualified pursuant to section 32-1291.01.

14. Placing interim therapeutic restorations after successfully completing a course at an institution accredited by the commission on dental accreditation of the American dental association.

C. The board by rule shall prescribe the circumstances under which a licensed dental hygienist may:

1. Apply preventive and therapeutic agents to the hard and soft tissues.

2. Use emerging scientific technology and prescribe the necessary training, experience and supervision to operate newly developed scientific technology. A dentist who supervises a dental hygienist whose duties include the use of emerging scientific technology must have training on using the emerging technology that is equal to or greater than the training the dental hygienist is required to obtain.

3. Perform other procedures not specifically authorized by this section.

D. Except as provided in subsections E, F and I of this section, a dental hygienist shall practice under the general supervision of a dentist who is licensed pursuant to this chapter.

E. A dental hygienist may practice under the general supervision of a physician who is licensed pursuant to chapter 13 or 17 of this title in an inpatient hospital setting.

F. A dental hygienist may perform the following procedures on meeting the following criteria and under the following conditions:

1. Administering local anesthetics under the direct supervision of a dentist who is licensed pursuant to this chapter after:

(a) The dental hygienist successfully completes a course in administering local anesthetics that includes didactic and clinical components in both block and infiltration techniques offered by a dental or dental hygiene program accredited by the commission on dental accreditation of the American dental association.

(b) The dental hygienist successfully completes an examination in local anesthesia given by the western regional examining board or a written and clinical examination of another state or regional examination that is substantially equivalent to the requirements of this state, as determined by the board.

(c) The board issues to the dental hygienist a local anesthesia certificate on receipt of proof that the requirements of subdivisions (a) and (b) of this paragraph have been met.

2. Administering local anesthetics under general supervision to a patient of record if all of the following are true:

(a) The dental hygienist holds a local anesthesia certificate issued by the board.

(b) The patient is at least eighteen years of age.

(c) The patient has been examined by a dentist who is licensed pursuant to this chapter within the previous twelve months.

(d) There has been no change in the patient's medical history since the last examination. If there has been a change in the patient's medical history within that time, the dental hygienist must consult with the dentist before administering local anesthetics.

(e) The supervising dentist who performed the examination has approved the patient for being administered local anesthetics by the dental hygienist under general supervision and has documented this approval in the patient's record.

3. Administering nitrous oxide analgesia under the direct supervision of a dentist who is licensed pursuant to this chapter after:

(a) The dental hygienist successfully completes a course in administering nitrous oxide analgesia that includes didactic and clinical components offered by a dental or dental hygiene program accredited by the commission on dental accreditation of the American dental association.

(b) The board issues to the dental hygienist a nitrous oxide analgesia certificate on receipt of proof that the requirements of subdivision (a) of this paragraph have been met.

G. The board may issue local anesthesia and nitrous oxide analgesia certificates to a licensed dental hygienist on receipt of evidence satisfactory to the board that the dental hygienist holds a valid certificate or credential in good standing in the respective procedure issued by a licensing board of another jurisdiction of the United States.

H. A dental hygienist may perform dental hygiene procedures in the following settings:

1. On a patient of record of a dentist within that dentist's office.

2. Except as prescribed in section 32-1289.01, in a health care facility, long-term care facility, public health agency or institution, public or private school or homebound setting on patients who have been examined by a dentist within the previous year.

3. In an inpatient hospital setting pursuant to subsection E of this section.

I. A dental hygienist may provide dental hygiene services under an affiliated practice relationship with a dentist as prescribed in section 32-1289.01.

J. For the purposes of this article:

1. "Assessment" means a limited, clinical inspection that is performed to identify possible signs of oral or systemic disease, malformation or injury and the potential need for referral for diagnosis and treatment, and may include collecting clinical information to facilitate an examination, diagnosis and treatment plan by a dentist.

2. "Dental hygiene assessment" means identifying an existing or potential oral health problem that dental hygienists are educationally qualified and licensed to treat.

3. "Dental hygiene treatment planning" means performing a prioritized sequence of dental hygiene interventions that is predicated on the dental hygiene assessment and that is limited to those services included in the scope of practice for dental hygienists.

4. "Direct supervision" means that the dentist is present in the office while the dental hygienist is treating a patient and is available for consultation regarding procedures that the dentist authorizes and for which the dentist is responsible.

5. "General supervision" means:

(a) That the dentist is available for consultation, whether or not the dentist is in the dentist's office, over procedures that the dentist has authorized and for which the dentist remains responsible.

(b) With respect to an inpatient hospital setting, that a physician who is licensed pursuant to chapter 13 or 17 of this title is available for consultation, whether or not the physician is physically present at the hospital.

6. "Interim therapeutic restoration" means a provisional restoration that is placed to stabilize a primary or permanent tooth and that consists of removing soft material from the tooth using only hand instrumentation, without using rotary instrumentation, and subsequently placing an adhesive restorative material.

7. "Screening" means determining an individual's need to be seen by a dentist for diagnosis and does not include an examination, diagnosis or treatment planning.

32-1282. Administration and enforcement

A. So far as applicable, the board shall have the same powers and duties in administering and enforcing this article that it has under section 32-1207 in administering and enforcing articles 1, 2 and 3 of this chapter.

B. The board shall adopt rules that provide a method for the board to receive the assistance and advice of dental hygienists licensed pursuant to this chapter in all matters relating to the regulation of dental hygienists.

32-1283. Disposition of revenues

The provisions of section 32-1212 shall apply to all fees, fines and other revenues received by the board under this article.

32-1284. Qualifications of applicant; application; fee; fingerprint clearance card; rules; denial or suspension of application

A. An applicant for licensure as a dental hygienist shall be at least eighteen years of age, shall meet the requirements of section 32-1285 and shall present to the board evidence of graduation or a certificate of satisfactory completion in a course or curriculum in dental hygiene from a recognized dental hygiene school. A candidate shall make written application to the board accompanied by a nonrefundable Arizona dental jurisprudence examination fee of $100. The board shall waive this fee for candidates who are holders of valid restricted permits. Each candidate shall also obtain a valid fingerprint clearance card issued pursuant to section 41-1758.03.

B. The board shall adopt rules that govern the practice of dental hygienists and that are not inconsistent with this chapter.

C. The board may deny an application for licensure or an application for license renewal if the applicant:

1. Has committed an act that would be cause for censure, probation or suspension or revocation of a license under this chapter.

2. While unlicensed, committed or aided and abetted the commission of an act for which a license is required by this chapter.

3. Knowingly made any false statement in the application.

4. Has had a license to practice dental hygiene revoked by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under suspension or restriction by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dental hygiene instead of disciplinary action by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

D. The board shall suspend an application for a license if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue or deny a license to the applicant until the investigation is resolved.

32-1285. Applicants for licensure; examination requirements

An applicant for licensure shall have passed all of the following:

1. The national dental hygiene board examination.

2. A clinical examination administered by a state or regional testing agency in the United States within five years preceding filing the application.

3. The Arizona dental jurisprudence examination.

32-1286. Recognized dental hygiene schools; credit for prior learning

Notwithstanding any law to the contrary, a recognized dental hygiene school may grant advanced standing or credit for prior learning to a student who has prior experience or course work that the school determines is equivalent to didactic and clinical education in its accredited program.

32-1287. Dental hygienist triennial licensure; continuing education; license reinstatement; notice of change of address; penalties; retired and disabled license status

A. Except as provided in section 32-4301, a license expires thirty days after the licensee's birth month every third year. On or before the last day of the licensee's birth month every third year, every licensed dental hygienist shall submit to the board a complete renewal application and pay a license renewal fee of not more than $325, established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the amount of the fee shall be applied prospectively to a licensee at the time of licensure renewal. The fee prescribed by this section does not apply to a retired hygienist or a hygienist with a disability.

B. A licensee shall include a written affidavit with the renewal application that affirms that the licensee complies with board rules relating to continuing education requirements. A licensee is not required to complete the written affidavit if the licensee received an initial license within the year immediately preceding the expiration date of the license or the licensee is in disabled status. If the licensee is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the licensee includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the licensee's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the license expires thirty days after the licensee's birth month of the expiration year.

C. A person applying for a license for the first time in this state shall pay a prorated fee for the period remaining until the licensee's next birth month. This fee shall not exceed one-third of the fee established pursuant to subsection A of this section. Subsequent registrations shall be conducted pursuant to this section.

D. An expired license may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the license with payment of the renewal fee and a $100 penalty. Whenever issued, reinstatement is as of the date of application and entitles the applicant to licensure only for the remainder of the applicable three-year period. If a person does not reinstate a license pursuant to this subsection, the person must reapply for licensure pursuant to this chapter.

E. A licensee shall notify the board in writing within ten days after the licensee changes the primary mailing address listed with the board. The board shall impose a penalty of $50 if a licensee fails to notify the board of the change within that time. The board shall increase the penalty imposed to $100 if a licensee fails to notify it of the change within thirty days.

F. A licensee who is over sixty-five years of age and who is fully retired and a licensee who has a permanent disability may contribute services to a recognized charitable institution and still retain that classification for triennial registration purposes on payment of a reduced renewal fee as prescribed by the board by rule.

32-1288. Practicing without license; classification

It is a class 1 misdemeanor for a person to practice dental hygiene in this state unless the person has obtained a license from the board as provided in this article.

32-1289. Employment of dental hygienist by public agency, institution or school

A. A public health agency or institution or a public or private school authority may employ dental hygienists to perform necessary dental hygiene procedures under either direct or general supervision pursuant to section 32-1281.

B. A dental hygienist employed by or working under contract or as a volunteer for a public health agency or institution or a public or private school authority before an examination by a dentist may perform a screening or assessment and apply sealants and topical fluoride.

32-1289.01. Dental hygienists; affiliated practice relationships; rules; definition

A. A dentist who holds an active license pursuant to this chapter and a dental hygienist who holds an active license pursuant to this article may enter into an affiliated practice relationship to deliver dental hygiene services.

B. A dental hygienist shall satisfy all of the following to be eligible to enter into an affiliated practice relationship with a dentist pursuant to this section to deliver dental hygiene services in an affiliated practice relationship:

1. Hold an active license in good standing pursuant to this article.

2. Enter into an affiliated practice relationship with a dentist who holds an active license pursuant to this chapter.

3. Be actively engaged in dental hygiene practice for at least five hundred hours in each of the two years immediately preceding the affiliated practice relationship.

C. An affiliated practice agreement between a dental hygienist and a dentist shall be in writing and:

1. Shall identify at least the following:

(a) The affiliated practice settings in which the dental hygienist may deliver services pursuant to the affiliated practice relationship.

(b) The services to be provided and any procedures and standing orders the dental hygienist must follow. The standing orders shall include the circumstances in which a patient may be seen by the dental hygienist.

(c) The conditions under which the dental hygienist may administer local anesthesia and provide root planing.

(d) Circumstances under which the affiliated practice dental hygienist must consult with the affiliated practice dentist before initiating further treatment on patients who have not been seen by a dentist within twelve months after the initial treatment by the affiliated practice dental hygienist.

2. May include protocols for supervising dental assistants.

D. The following requirements apply to all dental hygiene services provided through an affiliated practice relationship:

1. Patients who have been assessed by the affiliated practice dental hygienist shall be directed to the affiliated practice dentist for diagnosis, treatment or planning that is outside the dental hygienist's scope of practice, and the affiliated practice dentist may make any necessary referrals to other dentists.

2. The affiliated practice dental hygienist shall consult with the affiliated practice dentist if the proposed treatment is outside the scope of the agreement.

3. The affiliated practice dental hygienist shall consult with the affiliated practice dentist before initiating treatment on patients presenting with a complex medical history or medication regimen.

4. The patient shall be informed in writing that the dental hygienist providing the care is a licensed dental hygienist and that the care does not take the place of a diagnosis or treatment plan by a dentist.

E. A contract for dental hygiene services with licensees who have entered into an affiliated practice relationship pursuant to this section may be entered into only by:

1. A health care organization or facility.

2. A long-term care facility.

3. A public health agency or institution.

4. A public or private school authority.

5. A government-sponsored program.

6. A private nonprofit or charitable organization.

7. A social service organization or program.

F. An affiliated practice dental hygienist may not provide dental hygiene services in a setting that is not listed in subsection E of this section.

G. Each dentist in an affiliated practice relationship shall:

1. Be available to provide an appropriate level of contact, communication and consultation with the affiliated practice dental hygienist during the business hours of the affiliated practice dental hygienist.

2. Adopt standing orders applicable to dental hygiene procedures that may be performed and populations that may be treated by the affiliated practice dental hygienist under the terms of the applicable affiliated practice agreement and to be followed by the affiliated practice dental hygienist in each affiliated practice setting in which the affiliated practice dental hygienist performs dental hygiene services under the affiliated practice relationship.

3. Adopt procedures to provide timely referral of patients referred by the affiliated practice dental hygienist to a licensed dentist for examination and treatment planning. If the examination and treatment planning is to be provided by the dentist, that treatment shall be scheduled in an appropriate time frame. The affiliated practice dentist or the dentist to whom the patient is referred shall be geographically available to see the patient.

4. Not permit the provision of dental hygiene services by more than six affiliated practice dental hygienists at any one time.

H. Each affiliated practice dental hygienist, when practicing under an affiliated practice relationship:

1. May perform only those duties within the terms of the affiliated practice relationship.

2. Shall maintain an appropriate level of contact, communication and consultation with the affiliated practice dentist.

3. Is responsible and liable for all services rendered by the affiliated practice dental hygienist under the affiliated practice relationship.

I. The affiliated practice dental hygienist and the affiliated practice dentist shall notify the board of the beginning of the affiliated practice relationship and provide the board with a copy of the agreement and any amendments to the agreement within thirty days after the effective date of the agreement or amendment. The affiliated practice dental hygienist and the affiliated practice dentist shall also notify the board within thirty days after the termination date of the affiliated practice relationship if this date is different than the agreement termination date.

J. Subject to the terms of the written affiliated practice agreement entered into between a dentist and a dental hygienist, a dental hygienist may:

1. Perform all dental hygiene procedures authorized by this chapter, except for performing any diagnostic procedures that are required to be performed by a dentist and administering nitrous oxide. The dentist's presence and an examination, diagnosis and treatment plan are not required unless specified by the affiliated practice agreement.

2. Supervise dental assistants, including dental assistants who are certified to perform functions pursuant to section 32-1291.

K. The board shall adopt rules regarding participation in affiliated practice relationships by dentists and dental hygienists that specify the following:

1. Additional continuing education requirements that must be satisfied by a dental hygienist.

2. Additional standards and conditions that may apply to affiliated practice relationships.

3. Compliance with the dental practice act and rules adopted by the board.

L. For the purposes of this section, "affiliated practice relationship" means the delivery of dental hygiene services, pursuant to an agreement, by a dental hygienist who is licensed pursuant to this article and who refers the patient to a dentist who is licensed pursuant to this chapter for any necessary further diagnosis, treatment and restorative care.

32-1290. Grounds for censure, probation, suspension or revocation of license; procedure

After a hearing pursuant to title 41, chapter 6, article 10, the board may suspend or revoke the license issued to a person under this article or censure or place on probation any such person for any of the causes set forth as grounds for censure, probation, suspension or revocation in section 32-1263.

32-1291. Dental assistants; regulation; duties

A. A dental assistant may expose radiographs for dental diagnostic purposes under either the general supervision of a dentist or the direct supervision of an affiliated practice dental hygienist licensed pursuant to this chapter if the assistant has passed an examination approved by the board.

B. A dental assistant may polish the natural and restored surfaces of the teeth under either the general supervision of a dentist or the direct supervision of an affiliated practice dental hygienist licensed pursuant to this chapter if the assistant has passed an examination approved by the board.

32-1291.01. Expanded function dental assistants; training and examination requirements; duties

A. A dental assistant may perform expanded functions after meeting one of the following:

1. Successfully completing a board-approved expanded function dental assistant training program at an institution accredited by the American dental association commission on dental accreditation and on successfully completing examinations in dental assistant expanded functions approved by the board.

2. Providing both:

(a) Evidence of currently holding or having held within the preceding ten years a license, registration, permit or certificate in expanded functions in restorative procedures issued by another state or jurisdiction in the United States.

(b) Proof acceptable to the board of clinical experience in the expanded functions listed in subsection B of this section.

B. Expanded functions include the placement, contouring and finishing of direct restorations or the placement and cementation of prefabricated crowns following the preparation of the tooth by a licensed dentist. The restorative materials used shall be determined by the dentist.

C. An expanded function dental assistant may place interim therapeutic restorations under the general supervision and direction of a licensed dentist following a consultation conducted through teledentistry.

D. An expanded function dental assistant may apply sealants and fluoride varnish under the general supervision and direction of a licensed dentist.

E. A licensed dental hygienist may engage in expanded functions pursuant to section 32-1281, subsection B, paragraph 13 following a course of study and examination equivalent to that required for an expanded function dental assistant as specified by the board.

32-1292. Restricted permits; suspension; expiration; renewal

A. The board may issue a restricted permit to practice dental hygiene to an applicant who:

1. Has a pending contract with a recognized charitable dental clinic or organization that offers dental hygiene services without compensation or at a rate that reimburses the clinic only for dental supplies and overhead costs and the applicant will not receive compensation for dental hygiene services provided at the clinic or organization.

2. Has a license to practice dental hygiene issued by a regulatory jurisdiction in the United States.

3. Has been actively engaged in the practice of dental hygiene for three years immediately preceding the application.

4. Is, to the board's satisfaction, competent to practice dental hygiene.

5. Meets the requirements of section 32-1284, subsection A that do not relate to examination.

B. A person who holds a restricted permit issued by the board may practice dental hygiene only in the course of the person's employment by a recognized charitable dental clinic or organization approved by the board.

C. The applicant for a restricted permit must file a copy of the person's employment contract with the board that includes a statement signed by the applicant that the applicant:

1. Understands that if that person's employment is terminated before the restricted permit expires, the permit is automatically revoked and that person must voluntarily surrender the permit to the board and is no longer eligible to practice unless that person meets the requirements of sections 32-1284 and 32-1285 or passes the examination required in this article.

2. Must be employed without compensation by a dental clinic or organization that is operated for a charitable purpose.

3. Is subject to the provisions of this chapter that apply to the regulation of dental hygienists.

D. The board may deny an application for a restricted permit if the applicant:

1. Has committed an act that is a cause for disciplinary action pursuant to this chapter.

2. While unlicensed, committed or aided and abetted the commission of any act for which a license is required pursuant to this chapter.

3. Knowingly made a false statement in the application.

4. Has had a license to practice dental hygiene revoked by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under suspension or restriction by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dental hygiene instead of disciplinary action by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

E. The board shall suspend an application for a restricted permit or an application for restricted permit renewal if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue or deny a restricted permit to the applicant until the investigation is resolved.

F. A restricted permit expires either one year after the date of issue or June 30, whichever date first occurs. The board may renew a restricted permit for terms that do not exceed one year.

32-1292.01. Licensure by credential; examinations; waiver; fee

A. The board by rule may waive the examination requirements of this article on receipt of evidence satisfactory to the board that the applicant has passed the clinical examination of another state or testing

agency more than five years before submitting an application for licensure pursuant to this chapter and the other state or testing agency maintains a standard of licensure that is substantially equivalent to that of this state as determined by the board. The board by rule shall require:

1. A minimum number of active practice hours within a specific time period before the applicant submits the application. The board shall define what constitutes active practice.

2. An affirmation that the applicant has completed the continuing education requirements of the jurisdiction where the applicant is licensed.

B. The applicant shall pay a licensure by credential fee of not more than one thousand dollars as prescribed by the board.

Article 5 Certification and Regulation of Denturists

32-1293. Practicing as denturist; denture technology; dental laboratory technician

A. Notwithstanding the provisions of section 32-1202, nothing in this chapter shall be construed to prohibit a denturist certified pursuant to the provisions of this article from practicing denture technology.

B. A person is deemed to be practicing denture technology who:

1. Takes impressions and bite registrations for the purpose of or with a view to the making, producing, reproducing, construction, finishing, supplying, altering or repairing of complete upper or lower prosthetic dentures, or both, or removable partial dentures for the replacement of missing teeth.

2. Fits or advertises, offers, agrees, or attempts to fit any complete upper or lower prosthetic denture, or both, or adjusts or alters the fit of any full prosthetic denture, or fits or adjusts or alters the fit of removable partial dentures for the replacement of missing teeth.

C. In addition to the practices described in subsection B of this section, a person certified to practice denture technology may also construct, repair, reline, reproduce or duplicate full or partial prosthetic dentures or otherwise engage in the activities of a dental laboratory technician.

D. No person may perform an act described in subsection B of this section except a licensed dentist, a holder of a restricted permit pursuant to section 32-1238, a certified denturist or auxiliary personnel authorized to perform any such act by rule or regulation of the board pursuant to section 32-1207, subsection A, paragraph 1.

32-1294. Supervision by dentist; definitions; mouth preparation by dentist; liability; business association

A. A denturist may practice only in the office of a licensed dentist, denominated as such.

B. All work by a denturist shall be performed under the general supervision of a licensed dentist. For the purposes of this section, "general supervision" means the dentist is available for consultation in person or by phone during the performance of the procedures by a denturist pursuant to section 32-1293, subsection B. The dentist shall examine the patient initially, check the completed denture as to fit, form and function and perform such other procedures as the board may specify by rule or regulation. For the

purposes of this section "completed denture" means a relined, rebased, duplicated or repaired denture or a new denture. Both the dentist and the denturist shall certify that the dentist has performed the initial examination and the final fitting as required in this subsection, and retain the certification in the patient's file.

C. When taking impressions or bite registrations for the purpose of constructing removable partial dentures or when checking the fit of a partial denture, all mouth preparation must be done by the dentist. The denturist is specifically prohibited from performing any cutting or surgery on hard or soft tissue in the mouth. By rule and regulation the board may further regulate the practice of the denturist in regard to removable partial dentures.

D. No more than two denturists may perform their professional duties under a dentist's general supervision at any one time.

E. A licensed dentist supervising a denturist shall be personally liable for any consequences arising from the performance of the denturist's duties.

F. A certified denturist and the dentist supervising his work may make any lawful agreement between themselves regarding fees, compensation and business association.

G. Any sign, advertisement or other notice displaying the name of the office must include the name of the responsible dentist.

32-1295. Board of dental examiners; additional powers and duties

A. In addition to other powers and duties prescribed by this chapter, the board shall:

1. As far as applicable, exercise the same powers and duties in administering and enforcing this article as it exercises under section 32-1207 in administering and enforcing other articles of this chapter.

2. Determine the eligibility of applicants for certification and issue certificates to applicants who it determines are qualified for certification.

3. Investigate charges of misconduct on the part of certified denturists.

4. Issue decrees of censure, fix periods and terms of probation, suspend or revoke certificates as the facts may warrant and reinstate certificates in proper cases.

B. The board may:

1. Adopt rules prescribing requirements for continuing education for renewal of all certificates issued pursuant to this article.

2. Hire consultants to assist the board in the performance of its duties.

C. In all matters relating to discipline and certifying of denturists and the approval of examinations, the board, by rule, shall provide for receiving the assistance and advice of denturists who have been previously certified pursuant to this chapter.

32-1296. Qualifications of applicant

A. To be eligible for certification to practice denture technology an applicant shall:

1. Hold a high school diploma or its equivalent.

2. Present to the board evidence of graduation from a recognized denturist school or a certificate of satisfactory completion of a course or curriculum in denture technology from a recognized denturist school.

3. Pass a board-approved examination.

B. A candidate for certification shall submit a written application to the board that includes a nonrefundable Arizona dental jurisprudence examination fee as prescribed by the board.

32-1297.01. Application for certification; fingerprint clearance card; denial; suspension

A. Each applicant for certification shall submit a written application to the board accompanied by a nonrefundable jurisprudence examination fee and obtain a valid fingerprint clearance card issued pursuant to section 41-1758.03.

B. The board may deny an application for certification or for certification renewal if the applicant:

1. Has committed any act that would be cause for censure, probation, suspension or revocation of a certificate under this chapter.

2. Has knowingly made any false statement in the application.

3. While uncertified, has committed or aided and abetted the commission of any act for which a certificate is required under this chapter.

4. Has had a certificate to practice denture technology revoked by a regulatory board in another jurisdiction in the United States or Canada for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under investigation, suspension or restriction by a regulatory board in another jurisdiction in the United States or Canada for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a certificate to practice denture technology in lieu of disciplinary action by a regulatory board in another jurisdiction in the United States or Canada for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

C. The board shall suspend an application for certification if the applicant is currently under investigation by a denturist regulatory board in another jurisdiction. The board shall not issue or deny certification to the applicant until the investigation is resolved.

32-1297.03. Qualification for reexamination

An applicant for examination who has previously failed two or more examinations, as a condition of eligibility to take any further examination, shall furnish to the board satisfactory evidence of having successfully completed additional training in a recognized denturist school or refresher courses approved by the board or the board's testing agency.

32-1297.04. Fees

The board shall establish and collect fees, not to exceed the following amounts:

1. For an examination in jurisprudence, two hundred fifty dollars.

2. For each replacement or duplicate certificate, twenty-five dollars.

32-1297.05. Disposition of revenues

The provisions of section 32-1212 shall apply to all fees, penalties and other revenues received by the board under this article.

32-1297.06. Denturist certification; continuing education; certificate reinstatement; certificate for each place of practice; notice of change of address or place of practice; penalties

A. Except as provided in section 32-4301, a certification expires thirty days after the certificate holder's birth month every third year. On or before the last day of the certificate holder's birth month every third year, every certified denturist shall submit to the board a complete renewal application and shall pay a certificate renewal fee of not more than $300, established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the amount of the fee shall be applied prospectively to a certificate holder at the time of certification renewal. This requirement does not apply to a retired denturist or to a denturist with a disability.

B. A certificate holder shall include a written affidavit with the renewal application that affirms that the certificate holder complies with board rules relating to continuing education requirements. A certificate holder is not required to complete the written affidavit if the certificate holder received an initial certification within the year immediately preceding the expiration date of the certificate or the certificate holder is in disabled status. If the certificate holder is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the certificate holder includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the certificate holder's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the certificate expires thirty days after the certificate holder's birth month of the expiration year.

C. A person applying for a certificate for the first time in this state shall pay a prorated fee for the period remaining until the certificate holder's next birth month. This fee shall not exceed one-third of the fee established pursuant to subsection A of this section. Subsequent certifications shall be conducted pursuant to this section.

D. An expired certificate may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the certificate with payment of the

renewal fee and a $100 penalty. Whenever issued, reinstatement is as of the date of application and entitles the applicant to certification only for the remainder of the applicable three-year period. If a person does not reinstate a certificate pursuant to this subsection, the person must reapply for certification pursuant to this chapter.

E. Each certificate holder must provide to the board in writing both of the following:

1. A primary mailing address.

2. The address for each place of practice.

F. A certificate holder maintaining more than one place of practice shall obtain from the board a duplicate certificate for each office. The board shall set and charge a fee for each duplicate certificate. A certificate holder shall notify the board in writing within ten days after opening an additional place of practice.

G. A certificate holder shall notify the board in writing within ten days after changing a primary mailing address or place of practice address listed with the board. The board shall impose a $50 penalty if a certificate holder fails to notify the board of the change within that time. The board shall increase the penalty imposed to $100 if a certificate holder fails to notify it of the change within thirty days.

32-1297.07. Discipline; procedure

A. After a hearing pursuant to title 41, chapter 6, article 10, the board may suspend or revoke the license issued to a person under this article or censure or place on probation any person for any of the causes set forth as grounds for censure, probation, suspension or revocation in section 32-1263.

B. The board on its own motion may investigate any evidence which appears to show the existence of any of the causes set forth in section 32-1263. The board shall investigate the report under oath of any person which appears to show the existence of any of the causes set forth in section 32-1263. Any person reporting pursuant to this section who provides the information in good faith shall not be subject to liability for civil damages as a result.

C. Except as provided in section 41-1092.08, subsection H, final decisions of the board are subject to judicial review pursuant to title 12, chapter 7, article 6.

32-1297.08. Injunction

A. An injunction shall issue to enjoin the practice of denture technology by any of the following:

1. One neither certified to practice as a denturist nor licensed to practice as a dentist.

2. One certified as a denturist from practicing without proper supervision by a dentist as required by this article.

3. A denturist whose continued practice will or might cause irreparable damage to the public health and safety prior to the time proceedings pursuant to section 32-1297.07 could be instituted and completed.

B. A petition for injunction shall be filed by the board in the superior court for Maricopa county or in the county where the defendant resides or is found. Any citizen is also entitled to obtain injunctive relief in any court of competent jurisdiction because of the threat of injury to the public health and welfare.

C. Issuance of an injunction shall not relieve the respondent from being subject to any other proceedings provided for by law.

32-1297.09. Violations; classification

A person is guilty of a class 2 misdemeanor who:

1. Not licensed as a dentist, practices denture technology without certification as provided by this article.

2. Exhibits or displays a certificate, diploma, degree or identification of another or a forged or fraudulent certificate, diploma, degree or identification with the intent that it be used as evidence of the right of such person to practice as a denturist in this state.

3. Fails to obey a summons or other order regularly and properly issued by the board.

4. Is a licensed dentist responsible for a denturist under this article who fails to personally supervise the work of the denturist.

Article 6 Dispensing of Drugs and Devices

32-1298. Dispensing of drugs and devices; conditions; definition

A. A dentist may dispense drugs, except schedule II controlled substances that are opioids, and devices kept by the dentist if:

1. All drugs and devices are dispensed in packages labeled with the following information:

(a) The dispensing dentist's name, address and telephone number.

(b) The date the drug or device is dispensed.

(c) The patient's name.

(d) The name and strength of the drug or device, directions for its use and any cautionary statements required by law.

2. The dispensing dentist enters into the patient's dental record the name and strength of the drug or device dispensed, the date the drug or device is dispensed and the therapeutic reason.

3. The dispensing dentist keeps all drugs and devices in a locked cabinet or room, controls access to the cabinet or room by a written procedure and maintains an ongoing inventory of its contents.

B. Before dispensing a drug or device pursuant to this section, the patient shall be given a written prescription on which appears the following statement in bold type: "This prescription may be filled by the prescribing dentist or by a pharmacy of your choice."

C. A dentist shall dispense for profit only to the dentist's own patient and only for conditions being treated by that dentist. The dentist shall provide direct supervision of an attendant involved in the dispensing

process. For the purposes of this subsection, "direct supervision" means that a dentist is present and makes the determination as to the legitimacy or advisability of the drugs or devices to be dispensed.

D. This section shall be enforced by the board, which shall establish rules regarding labeling, recordkeeping, storage and packaging of drugs and devices that are consistent with the requirements of chapter 18 of this title. The board may conduct periodic inspections of dispensing practices to ensure compliance with this section and applicable rules.

E. For the purposes of this section, "dispense" means the delivery by a dentist of a prescription drug or device to a patient, except for samples packaged for individual use by licensed manufacturers or repackagers of drugs or devices, and includes the prescribing, administering, packaging, labeling and security necessary to prepare and safeguard the drug or device for delivery.

Article 7 Rehabilitation

32-1299. Substance abuse treatment and rehabilitation program; private contract; funding; confidential stipulation agreement

A. The board may establish a confidential program for the treatment and rehabilitation of dentists, dental therapists, denturists and dental hygienists who are impaired by alcohol or drug abuse. This program shall include education, intervention, therapeutic treatment and posttreatment monitoring and support.

B. The board may contract with other organizations to operate the program established pursuant to this section. A contract with a private organization shall include the following requirements:

1. Periodic reports to the board regarding treatment program activity.

2. Release to the board on demand of all treatment records.

3. Periodic reports to the board regarding each dentist's, dental therapist's, denturist's or dental hygienist's diagnosis and prognosis and recommendations for continuing care, treatment and supervision.

4. Immediate reporting to the board of the name of an impaired practitioner whom the treating organization believes to be a danger to self or others.

5. Immediate reporting to the board of the name of a practitioner who refuses to submit to treatment or whose impairment is not substantially alleviated through treatment.

C. The board may allocate an amount of not more than twenty dollars annually or sixty dollars triennially from each fee it collects from the renewal of active licenses for the operation of the program established by this section.

D. A dentist, dental therapist, denturist or hygienist who, in the opinion of the board, is impaired by alcohol or drug abuse shall agree to enter into a confidential nondisciplinary stipulation agreement with the board. The board shall place a licensee or certificate holder on probation if the licensee or certificate holder refuses to enter into a stipulation agreement with the board and may take other action as provided by law. The board may also refuse to issue a license or certificate to an applicant if the applicant refuses to enter into a stipulation agreement with the board.

E. In the case of a licensee or certificate holder who is impaired by alcohol or drug abuse after completing a second monitoring program pursuant to a stipulation agreement under subsection D of this section, the board shall determine whether:

1. To refer the matter for a formal hearing for the purpose of suspending or revoking the license or certificate.

2. The licensee or certificate holder should be placed on probation for a minimum of one year with restrictions necessary to ensure public safety.

3. To enter into another stipulation agreement under subsection D of this section with the licensee or certificate holder.

Article 8 Mobile Dental Facilities and Portable Dental Units

32-1299.21. Definitions

In this article, unless the context otherwise requires:

1. "Mobile dental facility" means a facility in which dentistry is practiced and that is routinely towed, moved or transported from one location to another.

2. "Permit holder" means a dentist, dental hygienist, denturist or registered business entity that is authorized by this chapter to offer dental services in this state or a nonprofit organization, school district or school or institution of higher education that may employ a licensee to provide dental services and that is authorized by this article to operate a mobile dental facility or portable dental unit.

3. "Portable dental unit" means a nonfacility in which dental equipment used in the practice of dentistry is transported to and used on a temporary basis at an out-of-office location.

32-1299.22. Mobile dental facilities; portable dental units; permits; exceptions

A. Beginning January 1, 2012, every mobile dental facility and, except as provided in subsection B, every provider, program or entity using portable dental units in this state must obtain a permit pursuant to this article.

B. A licensee who does not hold a permit for a mobile dental facility or portable dental unit may provide dental services if:

1. Occasional services are provided to a patient of record of a fixed dental office who is treated outside of the dental office.

2. Services are provided by a federal, state or local government agency.

3. Occasional services are performed outside of the licensee's office without charge to a patient or a third party.

4. Services are provided to a patient by an accredited dental or dental hygiene school.

5. The licensee holds a valid permit to provide mobile dental anesthesia services.

6. The licensee is an affiliated practice dental hygienist.

32-1299.23. Permit application; fees; renewal; notification of changes

A. An individual or entity that seeks a permit to operate a mobile dental facility or portable dental unit must submit an application on a form provided by the board and pay an annual registration fee prescribed by the board by rule. The permit must be renewed annually not later than the last day of the month in which the permit was issued. Permits not renewed by the expiration date are subject to a late fee as prescribed by the board by rule.

B. A permit holder shall notify the board of any change in address or contact person within ten days after that change. The board shall impose a penalty as prescribed by the board by rule if the permit holder fails to notify the board of that change within that time.

C. If ownership of the mobile dental facility or portable dental unit changes, the prior permit is invalid and a new permit application must be submitted.

32-1299.24. Standards of operation and practice

A. A permit holder must:

1. Comply with all applicable federal, state and local laws, regulations and ordinances dealing with radiographic equipment, flammability, sanitation, zoning and construction standards, including construction standards relating to required access for persons with disabilities.

2. Establish written protocols for follow-up care for patients who are treated in a mobile dental facility or through a portable dental unit. The protocols must include referrals for treatment in a dental office that is permanently established within a reasonable geographic area and may include follow-up care by the mobile dental facility or portable dental unit.

3. Ensure that each mobile dental facility or portable dental unit has access to communication equipment that will enable dental personnel to contact appropriate assistance in an emergency.

4. Identify a person who is licensed pursuant to this chapter, who is responsible to supervise treatment and who, if required by law, will be present when dental services are rendered. This paragraph does not prevent supervision by a dentist providing services or supervision pursuant to the exceptions prescribed in section 32-1231.

5. Display in or on the mobile dental facility or portable dental unit a current valid permit issued pursuant to this article in a manner that is readily observable by patients or visitors.

6. Provide a means of communication during and after business hours to enable the patient or the parent or guardian of a patient to contact the permit holder of the mobile dental facility or portable dental unit for emergency care, follow-up care or information about treatment received.

7. Comply with all requirements for maintenance of records pursuant to section 32-1264 and all other statutory requirements applicable to health care providers and patient records. All records, whether in

paper or electronic form, if not in transit, must be maintained in a permanent, secure facility. Records of prior treatment must be readily available during subsequent treatment visits whenever practicable.

8. Ensure that all dentists, dental hygienists and denturists working in the mobile dental facility or portable dental unit hold a valid, current license issued by the board and that all delegated duties are within their respective scopes of practice as prescribed by the applicable laws of this state.

9. Maintain a written or electronic record detailing each location where services are provided, including:

(a) The street address of the service location.

(b) The dates of each session.

(c) The number of patients served.

(d) The types of dental services provided and the quantity of each service provided.

10. Provide to the board or its representative within ten days after a request for a record the written or electronic record required pursuant to paragraph 9 of this subsection.

11. Comply with current recommended infection control practices for dentistry as published by the national centers for disease control and prevention and as adopted by the board.

B. A mobile dental facility or portable dental unit must:

1. Contain equipment and supplies that are appropriate to the scope and level of treatment provided.

2. Have ready access to an adequate supply of potable water.

C. A permit holder or licensee who fails to comply with applicable statutes and rules governing the practice of dentistry, dental hygiene and denturism, the requirements for registered business entities or the requirements of this article is subject to disciplinary action for unethical or unprofessional conduct, as applicable.

32-1299.25. Informed consent; information for patients

A. The permit holder of a mobile dental facility or portable dental unit must obtain appropriate informed consent, in writing or by verbal communication, that is recorded by an electronic or digital device from the patient or the parent or guardian of the patient authorizing specific treatment before it is performed. The signed consent form or verbal communication shall be maintained as part of the patient's record as required in section 32-1264.

B. If services are provided to a minor, the signed consent form or verbal communication must inform the parent or guardian that the treatment of the minor by the mobile dental facility or portable dental unit may affect future benefits the minor may receive under private insurance, the Arizona health care cost containment system or the children's health insurance program.

C. At the conclusion of each patient's visit, the permit holder of a mobile dental facility or portable dental unit shall provide each patient with an information sheet that must contain:

1. Pertinent contact information as required by this section.

2. The name of the dentist or dental hygienist, or both, who provided services.

3. A description of the treatment rendered, including billed service codes, fees associated with treatment and tooth numbers if appropriate.

4. If necessary, referral information to another dentist as required by this article.

D. If the patient or the minor patient's parent or guardian has provided written consent to an institutional facility to access the patient's dental health records, the permit holder shall provide the institution with a copy of the information sheet provided in subsection C.

32-1299.26. Disciplinary actions; cessation of operation

A. A permit holder for a mobile dental facility or portable dental unit that provides dental services to a patient shall refer the patient for follow-up treatment with a licensed dentist or the permit holder if treatment is clinically indicated. A permit holder or licensee who fails to comply with this subsection commits an act of unprofessional conduct or unethical conduct and is subject to disciplinary action pursuant to section 32-1263, subsection A, paragraph 1 or subsection C.

B. The board may do any of the following pursuant to its disciplinary procedures if a mobile dental facility or portable dental unit violates any statute or board rule:

1. Refuse to issue a permit.

2. Suspend or revoke a permit.

3. Impose a civil penalty of not more than two thousand dollars for each violation.

C. If a mobile dental facility or portable dental unit ceases operations, the permit holder must notify the board within thirty days after the last day of operation and must report on the disposition of patient records and charts. In accordance with applicable laws and rules, the permit holder must also notify all active patients of the disposition of records and make reasonable arrangements for the transfer of patient records, including copies of radiographs, to a succeeding practitioner or, if requested, to the patient. For the purposes of this subsection, "active patient" means any person whom the permit holder has examined, treated, cared for or consulted with during the two year period before the discontinuation of practice.

New Table: Table 7.1; Table 7.2

Summary:

This regular rulemaking from the Department of Health Services (Department) seeks to amend forty (40) rules and one (1) table and add forty-four (44) new sections and two (2) tables to Title 9, Chapter 5 regarding Child Care Facilities. Specifically, the Department, in its 2022 Child Care Facilities Five-Year Review Report, identified that the rules' effectiveness could be improved by making the rules more clear, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements.

Additionally, the Department plans to amend and establish rules for school-age children being cared for in a child care facility that only cares for school-age children. This rulemaking also makes changes to improve consistency with the Child Care and Development Block Grant (CCDBG). The Department is creating a new Article 7, consisting of forty-four (44) new Sections and two (2) Tables, specifically tailored for school-age out-of-school time programs. The requirements in Article 7 mirror the exact language applicable to school-age children in Articles 1 through 6. While these rules may be duplicative, they were included in Chapter 5 based on stakeholder feedback to enhance clarity and effectiveness. Consequently, the Department anticipates no additional costs for facilities and believes that the new Article 7 will be highly beneficial for child care facilities.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Department states that the purpose of this rulemaking is to update and amend the licensing requirements for Child Care Facilities licensed under Arizona Revised Statutes (A.R.S.) Title 36, Chapter 7.1, Article 1. A.R.S. § 36-883 requires the Department to adopt reasonable rules necessary to ensure the health, safety, and well-being of children cared for in a child care facility. The Department indicates that the rules' effectiveness could be improved by making the rules more clear, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements. Additionally, the Department states, in this rulemaking, it

plans to amend and establish rules for school-age children being cared for in a child care facility that only cares for school-age children. The amended rules for school-aged children, according to the Department, are expected to broaden the types of afterschool, summer, and enrichment programs eligible for licensure by creating a separate childcare license for "out-of-school" programs. Stakeholders include the Department; Child Care Facilities and Staff; Infants and children enrolled in a Child Care Facility and parents; and the general public.

The Department states that as of November 2024, it licenses 2,380 child care facilities in Arizona, which have a combined licensed capacity of over 280,291 children. In fiscal year 2024, the Department conducted 115 initial inspections and 2,055 compliance inspections. The Department also received 873 complaints, issued 58 initial and 1,299 renewal licenses, and processed 210 enforcement actions.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department has determined that there are no less intrusive or less costly alternatives for achieving the purpose of the rulemaking.

6. What are the economic impacts on stakeholders?

The Department states that, overall, it expects that some licensed childcare facilities may incur minimal one-time costs for having to revise administrative policies and procedures related to the new rules. In addition, the Department anticipates that the amended rules may have a significant benefit for child care facilities and staff for providing excellent care that increases the health and safety of child care facilities and enrolled children.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

Between the Notice of Proposed Rulemaking published in the Administrative Register on November 29, 2024 and the Notice of Supplemental Proposed Rulemaking published in the Administrative Register on February 21, 2025, the Department implemented the following changes:

- R9-5-101(75) and R9-5-701(72)
    - Changed the term mentioned in the definition of "modification" from "child care group home" to "child care facility."
- R9-5-101(110) and R9-5-701(105)
    - Amended the definition of "separation" to read clearer and removed the word "their" and replaced it with "them self."
- R9-5-102 and R9-5-702:
    - Changed the "or" to an "and" because a fingerprint clearance card is required by the licensee.
- R9-5-201(A)(5) and R9-5-703(A)(5)

    - Removed new language that required architectural plans for new or remodeled buildings to be reviewed and approved by the Department, the local fire department, and the local building department for appropriateness, adequacy, and suitability for child care functions.
- R9-5-301(A)(2) and R9-5-713(A)(2)
    - Corrected a grammatical error by adding the word "in."
- R9-5-302(19) and R9-5-714(19)
    - Added policies and procedures addressing suspension, in addition to those for expulsion.
- R9-5-404
    - Reinstated the allowance of a "bonus baby" under staff-to-child ratios for infants and 1-year-old children.
- R9-5-506(A)(3) and R9-5-728(A)(3)
    - Removed the requirement for toys, materials, and equipment to be in each activity area because not all activity areas are utilized for play.
- R9-5-509(C)(21) and R9-5-731(C)(20)
    - Clarified that the thermometer is required to be kept in the refrigerator and in the freezer.
- R9-5-518(H) and R9-5-739(H)
    - Simplified the rules to permit licensees to use the written permission outlined in subsection (A) for multiple field trips to the same destination on an annual basis.
- R9-5-701(107)(e)
    - Corrected incorrect numbering.
- R9-5-714
    - For consistency with the rules in R9-5-302, the Department updated the title from "Statement of Services" to "Statement of School-Age Child Care Services."
- R9-5-726(C)(1)(a)
    - Updated a cross-reference for accuracy.
- R9-5-740(2)
    - Corrected incorrect numbering.

The Department did not make any changes between the Notice of Supplemental Proposed Rulemaking published in the Administrative Register on February 21, 2025 and the Notice of Final Rulemaking now before the Council for consideration.

8. <u>Does the agency adequately address the comments on the proposed rules and any supplemental proposals?</u>

After filing the Notice of Proposed Rulemaking, the Department indicates it received eight (8) written comments during the formal comment period. Additionally, at the oral proceeding on January 7, 2025, the Department indicates twenty (20) stakeholders attended, and five (5) individuals provided formal oral comments on the rulemaking.

Subsequently, the Department filed a Notice of Supplemental Proposed Rulemaking. After filing the Notice of Supplemental Proposed Rulemaking, the Department indicates it

received two formal comments. Furthermore, at the oral proceeding held on March 25, 2025, twelve (12) stakeholders were in attendance and two (2) individuals provided formal oral comments on the rulemaking

Summaries of the comments and the Department's responses are found in Section 12 of the Preamble to the Notice of Final Rulemaking. Copies of the comments and the Department's responses are also included in the final materials for the Council's reference.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

The Department indicates, pursuant to A.R.S. § 36-882, it is required to provide licensure for child care facilities and, pursuant to A.R.S. § 36-888, the Department retains the authority to deny, revoke, or suspend an applicant or a child care facility licensee's ability to operate. The Department states it does not use a general permit. Specifically, the Department indicates it believes that under A.R.S. § 41-1037(A)(3) a general permit is not applicable in that "[t]he issuance of a general permit is not technically feasible or would not meet the applicable statutory requirements." Council staff believes the Department is in compliance with A.R.S. § 41-1037.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there is no corresponding federal law for these rules. However, the Department states some child care facilities receive funding from the Child Care and Development Block Grant (CCDBG). The CCDBG is a federal program in the United States that provides funding to states to help low-income families access affordable and high-quality child care. This block grant supports working parents and those attending job training or educational programs by subsidizing child care costs. Additionally, it aims to improve the overall quality of child care, ensure health and safety standards in child care settings, and enhance the development and well-being of children. CCDBG regulates entities that receive funding with requirements set forth according to 45 CFR Part 98. The Arizona Department of Economic Security is the lead agency to enforce CCDBG requirements. The Department

indicates some of the rules in Title 9, Chapter 5 that are the least burdensome and promote health and safety are consistent with the CCDBG requirements.

11. Conclusion

This regular rulemaking from the Department seeks to amend forty (40) rules and one (1) table and add forty-four (44) new sections and two (2) tables to Title 9, Chapter 5 regarding Child Care Facilities. Specifically, the Department, in its 2022 Child Care Facilities Five-Year Review Report, identified that the rules' effectiveness could be improved by making the rules more clear, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements. Additionally, the Department plans to amend and establish rules for school-age children being cared for in a child care facility that only cares for school-age children. This rulemaking also makes changes to improve consistency with the Child Care and Development Block Grant (CCDBG). The Department is creating a new Article 7, consisting of forty-four (44) new Sections and two (2) Tables, specifically tailored for school-age out-of-school time programs.

The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A).

Council staff recommends approval of this rulemaking.

VIA EMAIL: grrc@azdoa.gov
Jessica Klein, Esq., Chair
Governor's Regulatory Review Council
Arizona Department of Administration
100 N. 15th Avenue, Suite 305
Phoenix, AZ 85007

RE: Department of Health Services, 9 A.A.C. 5

Dear Ms. Klein:

Enclosed are the administrative rules identified above which I am submitting, as the Designee of the Director of the Department of Health Services, for approval by the Governor's Regulatory Review Council (Council). The following information is provided for your use in reviewing the enclosed rule package pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-202:

1. The close of record date: March 25, 2025

2. Whether the rulemaking relates to a five-year-review report and, if applicable, the date the report was approved by the Council:
The rulemaking for 9 A.A.C. 5 relates to a five-year review report approved by the Council on January 4, 2023.

3. Whether the rulemaking establishes a new fee and, if so, the statutes authorizing the fee:
The rulemaking does not establish a fee.

4. Whether the rulemaking contains a fee increase:
The rulemaking does not contain a fee increase.

5. Whether an immediate effective date is requested pursuant to A.R.S. § 41-1032:
The Department is not requesting an immediate effective date for the rules.

The Department certifies that the Preamble of this rulemaking discloses a reference to any study relevant to the rule that the Department reviewed and either did or did not rely on its evaluation of or justification for the rule.

The Department certifies that the preparer of the economic, small business, and consumer impact statement has notified the Joint Legislative Budget Committee there are no new full-time employees necessary to implement and enforce the rule.

The following documents are enclosed:

1. Notice of Final Rulemaking, including the Preamble, Table of Contents, and text of each rule;
2. Formal comments received during both formal comment periods;
3. Rulemaking approvals pursuant to A.R.S. § 41-1039(A) and (B)
4. An economic, small business, and consumer impact statement that contains the information required by A.R.S. 41-1055; and
5. General and specific statutes authorizing the rules, including relevant statutory definitions.

The Department's point of contact for questions about the rulemaking documents is Lucinda Sallaway at Lucinda.Sallaway@azdhs.gov.

Sincerely,

Stacie Gravito
Director's Designee

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 36-132(A)(1) and A.R.S. § 36-136(G)

Implementing statute: A.R.S. §§ 36-883 through 36-894.01

4. The effective date of the rule:

This rule shall become effective 60 days after a certified original and preamble are filed in the Office of the Secretary of State pursuant to A.R.S. § 41-1032(A). The effective date is (to be filled in by *Register* editor).

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

Not applicable

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Answer or not applicable

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 29 A.A.R. 1366, June 16, 2023, Issue Number: 24, File Number: [R23-80]

Notice of Rulemaking Docket Opening: 30 A.A.R. 2055, June 14, 2024, Issue Number: 24, File Number: [R24-101]

Notice of Proposed Rulemaking: 30 A.A.R. 3586, November 29, 2024, Issue Number: 48, File number: [R24-256]

Notice of Supplemental Proposed Rulemaking: 31 A.A.R. 565, February 21, 2025, Issue Number: 8, File number: [R25-16]

Phoenix, AZ 85007
Telephone: (602) 542-1020
Fax: (602) 364-1150
Email: Stacie.Gravito@azdhs.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes (A.R.S.) § 36-883 requires the Arizona Department of Health Services (Department) to "define and prescribe reasonable rules regarding the health, safety, and well-being of the children to be cared for in a child care facility." The Department adopted rules in Arizona Administrative Code Title 9, Chapter 5 to implement A.R.S. §§ 36-883 through 36-883.04. The rules provide definitions; application requirements for licensure, including fingerprinting; facility administration requirements; facility staff and training requirements; facility program and equipment requirements; and requirements for the physical plant of a facility. The Department, in its 2022 Child Care Facilities five-year report (Report), identified that the rules' effectiveness could be improved by making the rules more clear, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements. Additionally, the Department plans to amend and establish rules for school-age children being cared for in a child care facility that only cares for school-age children. This rulemaking may also make changes to improve consistency with the Child Care and Development Block Grant (CCDBG). The Department has received rulemaking approval pursuant to A.R.S. § 41-1039, to amend the rules on May 4, 2023. This rulemaking, which began in July of 2023 and continued through the fall of 2024, included multiple drafts, extensive comments from stakeholders, and many stakeholder meetings to develop the proposed rules. There may still be some more complex issues, identified during the rulemaking process, that the Department is working with stakeholders to resolve, including, but not limited to questions regarding certain CCDBG requirements (e.g. group sizes, square footage requirements, etc.). To prevent further delays to the present rulemaking package, the Department has been approved to initiate another, separate rulemaking to address these issues, to enable the changes for which consensus has been reached to be made through this rulemaking. The Department is committed to fostering ongoing collaboration with stakeholders through the second rulemaking process, ensuring that insights and feedback from affected communities, child care providers, and other interested parties guide the development and refinement of these regulations. The proposed amendments will conform to the rulemaking format and style requirements of the Governor's Regulatory Review Council and the Office of the Secretary of State.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

Arizona Revised Statutes (A.R.S.) § 36-883 requires the Department to "define and prescribe reasonable rules regarding the health, safety, and well-being of the children to be cared for in a child care facility." A.R.S. § 36-883.04 requires the Department to

"prescribe reasonable rules and standards regarding the health, safety, and well-being of children cared for in any public school child care program." Accordingly, the Department implemented A.R.S. §§ 36-883 and 36-883.04 and promulgated rules specifying licensure requirements for child care facilities at A.A.C. Title 9, Chapter 5, Articles 1 through 6. The rules provide definitions; application requirements for licensure, including fingerprinting; facility administration requirements; facility staff and training requirements; facility program and equipment requirements; and requirements for the physical plant of a facility. The purpose of the rules is to protect the health, safety, and well-being of the children to be cared for in an Arizona licensed child care facility, including public school child care programs, and to establish licensure requirements for a person or a governmental agency requesting a license to operate a child care facility. The Department anticipates that persons affected by the rulemaking include the Department, child care facilities and staff, infants and children enrolled in a child care facility, parents, and the general public. Annual cost/revenue changes are designated as minimal when $1,000 or less, moderate when between $1,000 and $10,000, and substantial when $10,000 or greater in additional costs or revenues. A cost is listed as significant when meaningful or important, but not readily subject to quantification.

As of November 2024, the Department licenses 2,380 child care facilities in Arizona, which have a combined licensed capacity of over 280,291 children. Some of these facilities may have since closed but were active during fiscal year 2024. In fiscal year 2024, the Department conducted 115 initial inspections and 2,055 compliance inspections. The Department also received 873 complaints, issued 58 initial and 1299 renewal licenses, and processed 210 enforcement actions. The Department estimates the cost associated with the rulemaking to be moderate for a rules analyst and program staff to amend rules in 9 A.A.C. 5, as well as spending time to meet with stakeholders to ensure that the Department is aware of stakeholder concerns and when appropriate, make changes to the draft rules.

Through this rulemaking, the Department is amending 40 Sections and 1 Table, throughout Chapter 5, Articles 1 through 6 to make the rules clearer, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements. Additional changes in the rules are to be more consistent with statutory requirements and improve consistency with the CCDBG requirements. The Department expects to receive a significant benefit, greater than the cost incurred for drafting amended rules, for providing more clear, concise, and understandable rules for child care facilities that comply with CCDBG requirements. In addition, the Department is creating a new Article 7 with 44 new Sections and two new Tables for school-aged children.

Amendments were introduced in Article 2, Facility Licensure, aimed at enhancing language consistency and clarity, particularly to accommodate online application processes. Changes include transitioning to the ability to submit applications, attestations, and other required documentation electronically, facilitating more efficient data collection and analysis. Online applications are expected to increase accessibility and streamline processing for both the Department and childcare facilities. Additionally, amendments were made to simplify identification documentation requirements and minimize training obligations. These changes, along with clarifications regarding facility closure notifications, are anticipated to optimize operational efficiency while incurring minimal costs. Overall, these amendments aim to create a simpler, more inclusive, and efficient regulatory framework for childcare facility licensing.

The Department is implementing changes in compliance with CCDBG requirements, including adjustments to background check requirements for staff and volunteers in childcare facilities, resulting in more frequent fingerprint clearance card renewals. These changes aim to enhance safety measures with minimal to no additional costs for facilities. Additionally, throughout Article 2, the Department is updating language for clarity and consistency, particularly for online application processes, which can reduce administrative costs and provide a user-friendly experience for applicants. Furthermore, the Department is removing requirements

for architectural plan review and approval, to increase flexibility for providers and improve the application process. These changes are anticipated to significantly benefit childcare facilities by reducing the financial burden and providing clearer, more concise, and understandable rules.

In R9-5-301, the Department is reducing tuberculosis testing requirements by allowing staff to complete a self-screening form, reducing costs for both staff and child care facilities. Subsection (J) regarding influenza vaccination recommendations for parents is being removed to save time and resources for child care facilities, aligning better with statutory authority. These amendments aim to streamline processes and reduce burdens without imposing extra costs on facilities. In R9-5-302, the Department is updating language and adding two new subsections to the statement of child care services, covering positive discipline guidelines and suspension and expulsion policies. While this change may impose a minimal administrative burden, it offers significant benefits through updated rules. In R9-5-304, the Department is eliminating the Department-provided "blue card" for emergency information and immunization records, instead requiring the information to be collected on a two-page notice readily available at the facility. The rule amendment simplifies contact information requirements and allows for electronic record-keeping, offering flexibility and updating information collection methods. This change is expected to save facilities a moderate amount of costs by using their own methods for collecting and documenting information. Also, in Article 3, The Department is updating child care rules to allow a 30-day grace period for homeless children to get immunizations, with immediate doses required otherwise, unless exempt. Other changes include simplifying attendance records and allowing electronic sign-in/out with a unique identifier to save costs for facilities.

The Department is making grammatical corrections and ensuring consistency in Article 4, Facility Staff. In R9-5-401, the Department is reducing the required experience for staff working with school-aged children from six to three months, aiming to help facilities hire qualified staff more quickly. Amendments in R9-5-403 include clarifying language, increasing annual training hours from 18 to 24, and requiring six hours of training for school-aged child educators within three months of hire. In R9-5-403, new training requirements include topics like prevention of sudden infant death syndrome and safe sleeping practices. Staff may incur minimal costs for training but will benefit from an expanded list of topics relevant to health and safety.

In Article 5, the Department is simplifying rules, removing obsolete requirements, and clarifying expectations. For example, in R9-5-501, the Department is clarifying that enrolled children should not mix with non-enrolled children, which is already standard practice. The Department expects no costs for facilities, but clearer rules and reduced inspection costs. They are also updating rules related to the lighting during nap time and prohibiting smoking or vaping on premises, expecting no costs for facilities but improved health and safety standards. The Department is aligning rules with national standards by removing the requirement for a "top sheet or a blanket" in cribs to reduce the risk of sleep-related infant deaths. Changes also include specifying cleaning crib sheets before reuse and prohibiting shaking infants. These changes may save facilities money on bedding and promote clearer documentation practices. In R9-5-506, the Department is updating rules to include out-of-school time programs, benefiting these programs and expanding services offered in Arizona. This change may also create jobs and new small businesses in the state by expanding the opportunity for out-of-school time programs to be licensed child care facilities.

In R9-5-507, the Department is changing the title to "Supplemental Standards for Children with a Special Health Care Need or a Disability" for inclusivity. The terms "special needs" and "disability" have specific but slightly different meanings, with "special needs" being broader and more inclusive, while "disability" refers to a specific impairment affecting daily activities. These updates aim to benefit those affected by the rules by providing clearer and more inclusive language. In R9-5-510, the Department is updating and clarifying rules on positive discipline, emphasizing its importance for maintaining order and fostering a secure, structured environment in child care settings. The term "discipline" is being changed to "positive discipline" to remove negative

connotations. These changes are expected to benefit child care facilities by providing clearer, more positive, and inclusive rules on discipline without incurring additional costs. In R9-5-514, the Department is adding new subsections for emergency preparedness planning, including procedures for various emergencies and training for staff and volunteers, to comply with federal and state requirements[1]. These changes may impose minimal costs but are expected to significantly benefit facilities by improving public health and safety. Also, in Article 5, the Department is amending R9-5-518 to clarify that two staff members must be in a vehicle with six or more children during field trips. This change is not expected to incur additional costs for facilities but will provide clearer and easier-to-understand rules.

In Article 6, the Department is updating rules to correct grammar, simplify language, and improve clarity. In R9-5-601, they clarify that rules apply "as applicable," exempting facilities serving only school-aged children from certain requirements. In R9-5-602, requirements for outdoor activity spaces are relaxed for facilities with children in care for less than four consecutive hours. These changes aim to provide more flexibility and may reduce costs for facilities, benefiting them significantly.

As mentioned earlier, the Department is creating a new Article 7, consisting of 44 new Sections and two Tables, specifically tailored for school-age out-of-school time programs. The requirements in Article 7 mirror the exact language applicable to school-age children in Articles 1 through 6. While these rules are duplicative, they were included in Chapter 5 based on stakeholder feedback to enhance clarity and effectiveness. Consequently, the Department anticipates no additional costs for facilities and believes that the new Article 7 will be highly beneficial for child care facilities.

Overall, the Department expects that some licensed child care facilities may incur a minimal one-time cost for having to revise administrative policies and procedures related to the new rules. In addition, the Department anticipates that the amended rules may have a significant benefit for child care facilities and staff for providing excellent care that increases the health and safety of child care facilities enrolled children.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

Between the Notice of Proposed Rulemaking and the Notice of Supplemental Proposed Rulemaking, the Department implemented the following changes:

- **R9-5-101(75) and R9-5-701(72):** Changed the term mentioned in the definition of "modification" from "child care group home" to "child care facility."
- **R9-5-101(110) and R9-5-701(105):** Amended the definition of "separation" to read clearer and removed the word "their" and replaced it with "them self."
- **R9-5-102 and R9-5-702:** Changed the "or" to an "and" because a fingerprint clearance card is required by the licensee.
- **R9-5-201(A)(5) and R9-5-703(A)(5):** Removed new language that required architectural plans for new or remodeled buildings to be reviewed and approved by the Department, the local fire department, and the local building department for appropriateness, adequacy, and suitability for child care functions.
- **R9-5-301(A)(2) and R9-5-713(A)(2):** Corrected a grammatical error by adding the word "in."
- **R9-5-302(19) and R9-5-714(19):** Added policies and procedures addressing suspension, in addition to those for expulsion.
- **R9-5-404:** Reinstated the allowance of a "bonus baby" under staff-to-child ratios for infants and 1-year-old children.

[1] https://www.ecfr.gov/current/title-45/subtitle-A/subchapter-A/part-98/subpart-E/section-98.41#p-98.41(a)(1)(vii)

- **R9-5-506(A)(3) and R9-5-728(A)(3):** Removed the requirement for toys, materials, and equipment to be in each activity area because not all activity areas are utilized for play.
- **R9-5-509(C)(21) and R9-5-731(C)(20):** Clarified that the thermometer is required to be kept in the refrigerator and in the freezer.
- **R9-5-518(H) and R9-5-739(H):** Simplified the rules to permit licensees to use the written permission outlined in subsection (A) for multiple field trips to the same destination on an annual basis.
- **R9-5-701(107)(e):** Corrected incorrect numbering.
- **R9-5-714:** For consistency with the rules in R9-5-302, the Department updated the title from "Statement of Services" to "Statement of School-Age Child Care Services."
- **R9-5-726(C)(1)(a):** Updated a cross-reference for accuracy.
- **R9-5-740(2):** Corrected incorrect numbering.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Department received eight written comments during the formal comment period. In the table below is a summary of the formal written comments and a summary of the Department's response to the comment.

Comment	Department's Response
Ralph M. Shenefelt, Senior Vice President of the Health and Safety Institute (HSI), submitted a comment requesting an amendment to the proposed rules to only require pediatric CPR and first aid certification for childcare providers. It was explained that pediatric CPR already includes elements of adult CPR for individuals showing signs of puberty and it was emphasized that pediatric-specific training is sufficient and that requiring separate adult CPR certification would impose unnecessary burdens on providers.	In response to Shenefelt's comments, the Department emphasized the importance of retaining the requirement for both adult and pediatric CPR certification. The Department highlighted that most CPR programs include adult CPR as a standard and often add pediatric CPR, ensuring comprehensive training without imposing significant burdens on childcare providers. This dual certification ensures staff are equipped to handle emergencies involving individuals of all ages, including children who may require adult CPR techniques due to their size. The Department thanked Mr. Shenefelt for his input and engagement in the rulemaking process.
Karen Gresham, Governing Board President of the Madison Elementary School District, commented in support of replacing the TB test with an attestation and reducing the time of service required for staff to work alone with school-age children, noting these changes would alleviate hiring challenges and reduce waitlists. However, Gresham opposes increasing required training hours to 24 per year, citing its disproportionate impact on part-time staff and irrelevant topics, advocating instead to keep the current 18-hour requirement. Gresham recommended streamlining background check and qualification requirements to align with school district standards to improve hiring and program access while maintaining student safety.	The Department thanked Gresham for their feedback on the proposed rules and expressed appreciation for their support in replacing the tuberculosis test with an attestation and reducing service time for staff working alone with school-age children. In addition, the Department acknowledged the concerns regarding the increase in training hours from 18 to 24 per year, explaining that this is intended to enhance staff training for student safety while accommodating lowered qualifications for school-age staff. Furthermore, the Department clarified that background check requirements align with Block Grant requirements.
The Arizona Alliance of Boys & Girls Clubs (BGC), representing 70 sites statewide commented on the following rules with concerns: 1. Bathroom Supervision (R9-5-506 & R9-5-728): Suggests more flexibility for school-age children to use the bathroom without continuous supervision. 2. Architectural Plan Approval (R9-5-703): Recommends replacing "approval" with "review" to avoid delays in facility changes while retaining oversight. 3. Documentation of Presence (R9-5-718): Proposes simplifying documentation requirements by allowing facility-wide tracking instead of real-time activity area tracking. Therefore, attendance would only be taken	The Department thanked the BCG for their comments and suggestions on the proposed child care rules, particularly for school-age children. The Department emphasized that the supervision requirement ensures child safety while allowing flexibility, as it does not mandate staff to escort each child but requires maintaining awareness of the child's location and actions, along with the ability to intervene when necessary. The Department plans to amend the rules as requested regarding the architectural plans to allow for more flexibility. Furthermore, the Department emphasizes that the requirements for documenting children's presence in activity areas, and the supplemental standards for school-age children are consistent with existing rules and minimum health and safety standards. Lastly, the Department plans to amend the rules regarding field

when children arrive at the facility. 4. Supplemental Standards (R9-5-728): Suggests removing redundant supplemental standards for school-aged children. 5. Field Trip Permissions (R9-5-739): Recommends allowing routine park use without date and times planned.	trips to be more flexible, in R9-5-739(H)
Christine M. Thompson, Vice President of the Madison Elementary School District Governing Board, submitted a comment on the proposed rulemaking expressing her appreciation for changes that ease staffing challenges, such as reduced tuberculosis testing requirements (R9-5-301) and shorter experience requirements for child educators (R9-5-401). However, she raised concerns about the annual training requirement (R9-5-403) for part-time staff and the 1:20 caregiver-to-child ratio (R9-5-726), noting the disparity with public school classroom ratios and the challenges these rules pose for aftercare programs in public schools. Thompson encouraged the Department to consider exemptions or modified rules for state-funded public school districts to better align with their unique operational constraints and governance structure.	The Department thanked Christine M. Thompson for her feedback and explained that the increased annual training requirement (R9-5-403) aligns with reduced experience qualifications for child educators, aiming to enhance child safety and program effectiveness. While acknowledging concerns about the 1:20 caregiver-to-child ratio (R9-5-726), the Department stated that the ratio aligns with existing requirements and that changes to ratios may be addressed in a future rulemaking with additional stakeholder input.
Tali Stewart, a franchise owner of The Learning Experience, expressed concerns about the proposed changes to R9-5-404 regarding removal of the “bonus baby.” This may reduce access to child care due to enrollment limits, increased tuition costs from revenue loss, reduced employment opportunities for educators, and potential closures of franchised centers impacted by lower classroom ratios. Stewart also requested clarification on whether existing facilities could be grandfathered in to avoid compliance burdens and how classroom conversions would be handled, noting that the associated costs could significantly impact franchise operations.	The Department appreciates Tali Stewart’s feedback on the proposed changes to R9-5-404 and acknowledges concerns about the potential impacts on child care facilities, including reduced classroom capacities, financial challenges, and revenue loss. While the Department initially proposed removing the "bonus baby" provision to align with national standards and enhance child safety, the Department plans to amend the rules to reinstate the "bonus baby." However, since many stakeholders, including DES, expressed support for removing the "bonus baby," the Department intends to discuss this, along with the other ratio and group size issues in the next rulemaking. We hope that having robust conversations about these focused topics, and inviting input from all of our stakeholders will lead to a more comprehensive solution to address these related issues.
Danielle Iverson, Director of Government Relations for The Learning Experience (TLE), submitted comments on the proposed changes to R9-5-404 regarding staff-to-child ratios. Representing over 1,300 children and 250 employees across 11 TLE centers in Arizona, Iverson expressed concern over removing the "bonus baby" allowance, which would reduce infant care capacity, disenroll families, and limit access to quality childcare. She highlighted TLE’s safety practices and the financial strain the change could impose, including higher tuition and operational challenges, urging the Department to retain the "bonus baby" provision to avoid unintended negative consequences.	The Department thanked Iverson for the comment and acknowledged the concerns. While the Department initially proposed removing the "bonus baby" provision to align with national standards and enhance child safety, the Department plans to amend the rules to reinstate the "bonus baby." However, since many stakeholders, including DES, expressed support for removing the "bonus baby," the Department intends to discuss this, along with the other ratio and group size issues in the next rulemaking. We hope that having robust conversations about these focused topics, and inviting input from all of our stakeholders will lead to a more comprehensive solution to address these related issues.
Ginger Sandweg, representing First Things First, highlighted several areas for improvement in the proposed rules, including: • R9-5-301(I)(2) Suggested that the current codified language regarding who needs to participate in fire drills be clarified to specify whether it pertains to those on-site or all listed individuals, regardless of their presence during the drill. • R9-5-403(A)(14) Recommended to add specific topics to be included in the sun safety training including signs of dehydration, heat exhaustion, and heat stroke. • R9-5-403(B)(1)(b)(xv) Suggested adding a cross-reference to R9-5-510(D) since physical restraint is in the positive discipline and guidance section. • R9-5-501(B)(5)(d) Suggested creating rules for	The Department acknowledged and thanked Sandweg for the comment and feedback on the proposed rule changes for child care facilities, as well as addressed the concerns raised: • Fire Drill Participation: Clarification that all staff members on-site during fire drills are required to participate, with further guidance to be provided post-rule approval. • Sun Safety Training: While recognizing the importance of including signs of dehydration and heat-related illnesses in training, the Department believes that adding such specifics might limit other essential sun safety topics. This may be covered in future guidance documents. • Physical Restraint Training: The suggestion to link training on physical restraint techniques to existing

weather permitting and air quality • R9-5-502(B)(2) and R-9-5-504(A)(1) Recommended to reduce the time limit for confined children from 30 minutes to 15 minutes twice daily, or to specify adult interaction during the longer duration. • R9-5-503 Suggested to clarify that a nonabsorbent paper liner is not acceptable. Additionally, Sandweg recommended adding a specific form to the resources available on the Department's website.	rules is acknowledged, but may not be appropriate for the rules since physical restraint is not defined in R9-5-510(D). The Department may clarify in guidance documents that the training for physical restraints in R9-5-403(B)(1)(b)(xv) is applicable to positive discipline and guidance in R9-5-510(D). • Weather and Air Quality: The Department acknowledged the need for rules and clarity on weather permitting and air quality for safe outdoor activities and plans to incorporate this into guidance documents. • Physical Activity Requirements: The current rule's minimum requirement of 30 consecutive minutes of physical activity is maintained, but facilities are encouraged to implement more stringent practices if desired. • Clarification on Paper Liners: The Department plans to clarify in the guidance documents that a nonabsorbent paper liner is not acceptable.
Amita Gairola, the owner of two locations of The Learning Experience, expressed concern about the proposed removal of the "bonus baby" allowance, stating that it would lead to disenrollment of current families and reduced access to quality child care for others. She emphasized that the current staff-to-child ratios allow for individualized attention essential for children's development and safety. Eliminating this allowance could increase operational costs and tuition fees, making it harder for providers to remain competitive. Gairola asked the Department to consider the unintended consequences of this rule change and retain the allowance to ensure high-quality care for as many children as possible. Gairola appreciates the Department's collaborative approach and requests that her feedback be considered in finalizing the rule.	The Department thanked Gairola for the comment and acknowledged the concerns. While the Department initially proposed removing the "bonus baby" provision to align with national standards and enhance child safety, the Department plans to amend the rules to reinstate the "bonus baby." However, since many stakeholders, including DES, expressed support for removing the "bonus baby," the Department intends to discuss this, along with the other ratio and group size issues in the next rulemaking. We hope that having robust conversations about these focused topics, and inviting input from all of our stakeholders will lead to a more comprehensive solution to address these related issues.

At the Oral Proceeding on January 7, 2025, 20 stakeholders attended, and five individuals provided formal oral comments on the rulemaking. Josh Stine, representing the Boys and Girls Club, summarized his written comment, expressing concerns about overly stringent requirements for school-age children. Tali Stewart, from The Learning Experience, noted that removing the “bonus baby” provision would result in an annual financial loss of $50,000 to $75,000 for her facility. Eric Bucher, representing the Children’s Equity Project at Arizona State University, recommended adding "suspension" to the list of child care services described in R9-5-302(19). Barbie Prinster, on behalf of AZECE, thanked the Department for its hard work and efforts throughout the rulemaking process. Lastly, Kristin Gray, representing the YMCA, suggested revising the requirement for age-appropriate toys in each activity area to reflect that not all rooms or areas are designated for play.

After filing the Notice of Supplemental Proposed Rulemaking, the Department received two formal comments. At the Oral Proceeding held on March 25, 2025, 12 stakeholders were in attendance. During the Oral Proceeding, Eric Bucher, representing the Children’s Equity Project at Arizona State University, thanked the Department for amending R9-5-302(19) and R9-5-714(19) to add policies and procedures addressing suspension, in addition to those for expulsion. Bucher also recommended the Department amend R9-5-404 in a subsequent rulemaking and remove bonus baby allowance, and ensure that group size does not exceed double the ratios. The Department thanked Bucher for the comments, suggestions, and support in the current rulemaking. Twila Ibarra, representing Early Childhood Development asked if the Department would continue to provide guidance in implementing the rules. The Department let Ibarra know that there would be guidance and frequently asked questions posted on the Program’s webpage.

In the table below is a summary of the formal written comments and a summary of the Department’s response to the comment.

Comment	**Department’s Response**

Ginger Sandweg, representing First Things First, recommended the Department further amend the rules to reduce the caregiver-to-child ratios and add group sizes. The current ratios are overwhelming for caregivers, making it difficult to provide quality, individualized care. Sandweg emphasize the importance of responsive caregiving for the social-emotional, physical, and language development of children and highlights that smaller ratios allow for more positive interactions. Concerns were noted about incidents in Arizona where children were not properly supervised, stressing the need for safer, more manageable group sizes to ensure children's well-being.	In response to Sandweg's comments, the Department acknowledged the importance of caregiver-to-child ratios for children's safety and well-being and expressed appreciation for the feedback on the current ratios. The Department explained that a separate rulemaking has been initiated regarding group sizes to allow for more robust and thorough discussion. The Department also thanked Sandweg for the comment and looks forward to continued collaboration in this process.
Josh Stine, representing the Arizona Alliance of Boys & Girls Clubs (BGC) commented on R9-5-718(B)(1) regarding attendance and rosters. The BGC believes that the requirement to document a child's presence in each activity area is overly burdensome. BGC suggests the Department adjust the rule to using front desk attendance records, age-based group tracking, staff head counts, and a hall pass system.	In response, the Department thanked the BGC for their comments on the proposed child care rules. The requirements for documenting children's presence in activity areas and the supplemental standards for school-age children align with existing regulations in A.A.C. R9-5-306(B), which applies to all licensed child care facilities. The Department considers this a necessary health and safety standard to ensure children's whereabouts are always accounted for.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

Not applicable

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Department pursuant to A.R.S. § 36-882 is required to provide licensure for child care facilities and pursuant to A.R.S. § 36-888, the Department retains the authority to deny, revoke, or suspend an applicant or a child care facility licensee's ability to operate. The Department does not use a general permit. The Department believes that under A.R.S. § 41-1037(A)(3) that a general permit is not applicable.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

The rules are not related to federal laws. However, some child care facilities receive funding from the Child Care and Development Block Grant (CCDBG). The CCDBG is a federal program in the United States that provides funding to states to help low-income families access affordable and high-quality child care. This block grant supports working parents and those attending job training or educational programs by subsidizing child care costs. Additionally, it aims to improve the overall quality of child care, ensure health and safety standards in child care settings, and enhance the development and well-being of children. CCDBG regulates entities that receive funding with requirements set forth according to 45 CFR Part 98. The Arizona Department of Economic Security is the lead agency to enforce CCDBG requirements. Some of the rules in 9 A.A.C. 5 that are the least burdensome and promote health and safety are consistent with the CCDBG requirements.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

Not applicable

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

16. The full text of the rules follows:

Rule text begins on the next page.

ARTICLE 1. GENERAL

R9-5-101. Definitions

In addition to the definitions in A.R.S. § 36-881, the following definitions apply in this Chapter unless otherwise specified:

1. "Abuse" has the same meaning as in A.R.S. § 8-201.
2. "Accident" means an unexpected occurrence that:
   a. Causes injury to an enrolled child,
   b. Requires attention from a staff member, and
   c. May or may not be an emergency.
3. "Accommodation school" has the same meaning as in A.R.S. § 15-101.
4. "Accredited" means approved by the US Department of Education and recognized by the Council for Higher Education Accreditation~~:~~.
   ~~a. New England Commission of Institution of Higher Education,~~
   ~~b. Middle States Commission of Higher Education,~~
   ~~c. North Central the Higher Learning Commission,~~
   ~~d. Northwest Commission on Colleges and Universities,~~
   ~~e. Commission on Colleges, or~~
   ~~f. Western Association of Schools and Colleges.~~
5. "Activity" means an action planned by a licensee and performed by an enrolled child while supervised by a staff member.
6. "Activity area" means a specific indoor or outdoor space or room of a licensed facility that is designated by a licensee for use by an enrolled child for an activity.
7. "Adaptive device" means equipment used to augment an individual's use of the individual's arms, legs, sight, hearing, or other physical part or function.
8. "Administrative completeness review time-frame" has the same meaning as in A.R.S. § 41-1072.
9. "Adult" means an individual who is at least 18 years of age.
10. "Age-appropriate" means ~~consistent with a~~ suitable with the developmental and social maturity of the child's age~~, and age-related stage of~~ based on physical growth, language, and emotional, social, behavioral, and ~~mental~~ cognitive development.
11. "Agency" means any board, commission, department, office, or other administrative unit of the federal government, the state, or a political subdivision of the state.
12. "Applicant" means a person or governmental agency requesting one of the following:
    a. A license, or
    b. Approval of a change affecting a license under R9-5-208.
13. "Application" means the documents that an applicant is required to electronically submit to the Department for licensure or approval of a request for a change affecting a license.
14. "Assistant ~~teacher-caregiver~~ child educator" means a staff member who aids a ~~teacher-caregiver~~ child educator in planning, developing, or conducting child care activities.
15. "Association" means a group of individuals other than a corporation, limited liability company, partnership, joint venture, or public school who has established a governing board and bylaws to operate a facility.
16. "Background check" means results identified in searches according to A.R.S.§ 46-811(A) and consistent with the Child Care and Development Block Grant Act of 2014 (Public Law 113-186):
    a. The state sex offender registry within this state and each state where a staff member resided during the preceding five years;

b. The state-based child abuse and neglect registries and databases within this state and each state where a staff member resided during the preceding five years;

c. The state criminal history checks within this state and each state where a staff member resided during the preceding five years;

d. The National FBI criminal history check, with FBI fingerprint check; and

~~c.~~e. The National Crime Information Center~~; and~~, including the

~~d.~~ ~~The~~ National Sex Offender Registry established under the Adam Walsh Child Protection and Safety Act of 2006 (42 A.S.C. 16901 et seq).

17. "Beverage" means a liquid for drinking, including water.

18. "Business organization" has the same meaning as "entity" in A.R.S. § 10-140.

19. "Calendar day" means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, or legal holiday.

20. "Calendar week" means a seven-day period beginning on Sunday at 12:00 a.m. and ending on Saturday at 11:59 p.m.

21. "C.C.P." means Certified Childcare Professional, a credential awarded by the National Early Childhood Program Accreditation.

22. "C.D.A." means Child Development Associate, a credential awarded by the Council for Professional Recognition.

~~23. "Change in ownership" means a transfer of controlling legal or controlling equitable interest and authority in a facility resulting from a sale or merger of a facility.~~

~~24.~~23. "Charter school" has the same meaning as in A.R.S. § 15-101.

~~25.~~24. "Child care experience" means an individual's documented work with children in:

a. A child care facility or a child care group home that was licensed, certified, or approved by a state in the United States or by one of the Uniformed Services of the United States;

b. A public school, a charter school, a private school, or an accommodation school;

c. A public or private educational institution authorized under the laws of another state where instruction was provided for any grade or combination of grades between pre-kindergarten and grade 12; or

d. One of the following professional fields:

i. Nursing,

ii. Social work,

iii. Psychology,

iv. Child development, or

v. A closely-related field.

~~26.~~25. "Child care services" means the range of activities and programs provided by a licensee to an enrolled child, including personal care, supervision, education, guidance, and transportation.

26. "Child educator" means a staff member responsible for developing, planning, and conducting child care activities.

27. "Child educator aide" means a staff member who provides child care services under the supervision of a child educator.

28. "Child with a disability" means the same as

a. A child with a "developmental disability" as defined in A.R.S. § 36-551; or

b. A "child with a disability" as defined in A.R.S. § 15-761.

~~27.~~29. "Child with a special ~~needs~~ health care needs" means a~~:~~

~~a.~~ ~~A~~ child with a health care provider's diagnosis and record of a physical or mental condition that substantially limits the child in providing self-care or performing manual tasks or any other major life function such as walking, seeing, hearing, speaking, breathing, or learning~~;~~.

~~b.~~ ~~A child with a "developmental disability" as defined in A.R.S. § 36-551; or~~

~~c.~~ ~~A "child with a disability" as defined in A.R.S. § 15-761.~~

~~28.~~30. "Clean" means to remove dirt or debris by methods such as washing with soap and water, vacuuming, wiping, dusting, or sweeping.

~~29.~~31. "Closely-related field" means any educational instruction or occupational experience pertaining to the growth, development, physical or mental care, or education of children.

~~30.~~32. "Communicable disease" has the same meaning as in A.A.C. R9-6-101.

~~31.~~33. "Compensation" means money or other consideration, including goods, services, vouchers, time, government or public expenditures, government or public funding, or another benefit, that is received as payment.

~~32. "Corporal punishment" means any physical action used to discipline a child that inflicts pain to the body of the child, or that may result in physical injury to the child.~~

~~33.~~34. "CPR" means cardiopulmonary resuscitation.

~~34.~~35. "Credit hour" means an academic unit earned at an accredited college or university ~~and~~:

a. By attending a ~~one-hour~~ class session, which is equivalent to 15 clock hours, each calendar week during a semester or equivalent shorter course term, or

b. Completing practical work for a course as determined by the accredited college or university.

~~35.~~36. "Designated agent" means an individual who meets the requirements in A.R.S. § 36-889(D).

~~36.~~37. "Developmentally-appropriate" means consistent with a child's physical, emotional, social, cultural, linguistic, and cognitive development, based on the child's age and family background and the child's personality, learning style, and pattern and timing of growth.

~~37. "Discipline" means the on-going process of helping a child develop self-control and assume responsibility for the child's own actions.~~

38. "Documentation" means information in written, photographic, electronic, or other permanent form.

39. "Electronic signature" has the same meaning as in ~~A.R.S. § 41-351(4)~~ A.R.S. § 41-251.

40. "Emergency" means a potentially life-threatening occurrence involving an enrolled child or staff member that requires an immediate response or medical treatment.

41. "Endanger" means to expose an individual to a situation where physical injury or mental injury to the individual may occur.

42. "Enrolled" means placed by a parent and accepted by a licensee for child care services.

43. "Evening and nighttime care" means child care services provided between the hours of 8:00 p.m. and 5:00 a.m.

44. "Facility" has the same meaning as "child care facility" in A.R.S. § 36-881.

45. "Facility director" means an individual who is designated by a licensee as the individual responsible for the daily onsite operation of a facility.

46. "Facility premises" means property that is:

a. Designated on an application for a license by the applicant; and

b. Licensed for child care services by the Department under A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter.

47. "Fall zone" means the surface under and around a piece of equipment onto which a child falling from or exiting from the equipment would be expected to land.

48. "Field trip" means an activity planned by a staff member for an enrolled child at a:

a. ~~At a location~~ Location or area that is not licensed for child care services by the Department, or

b. ~~At a child~~ Child care facility in which the child is not enrolled.

49. "Final construction drawings" means facility plans that include the architectural, structural, mechanical, electrical, fire protection, plumbing, and technical specifications of the physical plant and the facility premises and that have been approved by the local government for the construction, alteration, or addition of a facility.
50. "Food" means a raw, cooked, or processed edible substance, ice, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption, or chewing gum.
51. "Food preparation" means processing food for human consumption by cooking or assembling the food, but does not include distributing prepackaged food or whole fruits or vegetables.
52. "Full-day care" means child care services provided for six or more hours per day between the hours of 5:00 a.m. and 8:00 p.m.
53. "Governmental agency" has the same meaning as in A.R.S. § 44-7002.
54. "Guidance" means the ongoing direction, counseling, teaching, or modeling of generally accepted social behavior through which a child learns to develop and maintain the ~~self-control~~ self-regulation, self-reliance, and self-esteem necessary to assume responsibilities, make daily living decisions, and live according to generally accepted social behavior.
55. "Hazard" means a source of endangerment.
56. "Health care provider" means a physician, physician assistant, or registered nurse practitioner.
57. "High school equivalency diploma" means a document issued by:
    a. ~~A document issued by the~~ The State Board of Education under A.R.S. § 15-702 to an individual who passes a general educational development test or meets the requirements of A.R.S. § 15-702(B);
    b. ~~A document issued by another~~ Another state to an individual who passes a general educational development test or meets the requirements of a state statute equivalent to A.R.S. § 15-702(B); or
    c. ~~A document issued by another~~ Another country to an individual who has completed that country's equivalent of a 12th grade education, as determined by the Department based upon information obtained from American or foreign consulates or embassies or other governmental agencies.
58. "Hours of operation" means the specific time during a day for which a licensee is licensed to provide child care services.
59. "Illness" means physical manifestation or signs of sickness, such as pain, vomiting, rash, fever, discharge, or diarrhea.
60. "Immediate" or "immediately" means without restriction, delay, or hesitation.
61. "Inaccessible" means:
    a. Out of an enrolled child's reach, or
    b. Locked.
62. "Individual plan" means a written description of the daily activities required for an enrolled child with a special health care need or disability.
~~62.~~63. "Infant" means a child:
    a. ~~A child~~ 12 months of age or younger, or
    b. ~~A child~~ 18 months of age or younger who is not yet walking.
~~63.~~64. "Infant care" means child care services provided to an infant.
~~64.~~65. "Infestation" means the presence of lice, pinworms, scabies, or other parasites.
~~65.~~66. "Inspection" means:
    a. Examination of a facility by the Department to determine compliance with A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter;
    b. Review of facility documents, records, or reports by the Department; or
    c. Examination of a facility by a local governmental agency.

~~66.~~67. "Lesson plan" means a written description of the activities scheduled in each activity area for a day.

~~67.~~68. "License" means the written authorization issued by the Department to operate a facility in Arizona.

~~68. "Licensed applicator" who complies with A.A.C. R3-8-201(C).~~

69. "Licensed capacity" means the maximum number of enrolled children for whom a licensee is authorized by the Department to provide child care services in a facility or a part of a facility at any given time.

70. "Licensee" means a person or governmental agency to whom the Department has issued a license to operate a facility in Arizona.

71. "Local" means under the jurisdiction of a city or county in Arizona.

72. "Mat" means a foam pad that has a waterproof cover and is of sufficient size and thickness to accommodate the height, width, and weight of a reclining child's body.

73. "Medication" means a substance prescribed by a ~~physician, physician assistant, or registered nurse practitioner~~ health care provider or available without a prescription for the treatment or prevention of illness or infestation.

74. "Menu" means:

a. A written description of the food that a facility provides and serves as a meal or snack, or

b. The combination of food that a facility provides and serves as a meal or snack.

75. "Modification" means the substantial improvement, enlargement, reduction, alternation, or other substantial change in the facility or another structure on the premises at a child care facility.

~~75.~~76. "Motor vehicle" has the same meaning as in A.R.S. § 28-101.

~~76.~~77. "N.A.C." means the National Administrator Credential, a credential issued by the National Institute of Child Care Management.

~~77.~~78. "Name" means, for an individual, the individual's first name and the individual's last name.

~~78.~~79. "Naptime" means any time during hours of operation, other than evening and nighttime hours, that is designated by a licensee for the rest or sleep of enrolled children.

~~79.~~80. "Neglect" has the same meaning as in A.R.S. § 8-201.

~~80.~~81. "One-year-old" means a child who is not an infant and is at least 12 months of age but not yet two years of age.

~~81.~~82. "Outbreak" has the same meaning as in A.A.C. R9-6-101.

~~82.~~83. "Out-of-school time" means a program, as described in Article 7 of this Chapter, that is licensed with the Department and operates when school is not in session, such as before school, after school, or during school breaks, and serves school-aged children enrolled in school.

~~82.~~84. "Overall time-frame" has the same meaning as in A.R.S. § 41-1072.

~~83.~~85 "Parent" means:

a. A natural or adoptive mother or father,

b. A legal guardian appointed by a court of competent jurisdiction, or

c. A "custodian" as defined in A.R.S. § 8-201.

~~84.~~86. "Part-day care" means child care services provided for fewer than six hours per day between the hours of 5:00 a.m. and 8:00 p.m.

~~85. "Perishable food" means food that becomes unfit for human consumption if not stored to prevent spoilage.~~

87. "Pediatric abusive head trauma" means an injury to the skull or intracranial contents of an infant or a child due to inflicted blunt impact and/or violent shaking.

~~86.~~88. "Pesticide" has the same meaning as in ~~A.R.S. § 32-3601~~ A.R.S. § 3-3601.

~~87. "Pesticide label" means the written, printed, or graphic matter approved by the United States Environmental Protection Agency on, or attached to, a pesticide container.~~

~~88.~~89. "Physical injury" means temporary or permanent damage or impairment to a child's body.

~~89.~~90. "Physical plant" means a building that houses a facility, or the licensed areas within a building that houses a facility, including the architectural, structural, mechanical, electrical, plumbing, and fire protection elements of the building.

91. "Physical restraint" means a restriction that immobilizes or prevents freedom of movement of all or part of a person's body, or restricting normal access to the person's body.

~~90.~~92. "Physician" means an individual licensed as a doctor of:

a. Allopathic medicine under A.R.S. Title 32, Chapter 13;

b. Naturopathic medicine under A.R.S. Title 32, Chapter 14;

c. Osteopathic medicine under A.R.S. Title 32, Chapter 17;

d. Homeopathic medicine under A.R.S. Title 32, Chapter 29; or

e. Allopathic, naturopathic, osteopathic, or homeopathic medicine under the law of another state.

~~91.~~93. "Physician assistant" means an individual who is licensed:

a. ~~An individual who is licensed under~~ Under A.R.S. Title 32, Chapter 25; or

b. ~~An individual who is licensed as~~ As a physician assistant under the law of another state.

94. "Positive Discipline" means the on-going process of teaching a child self-regulation and assuming responsibility for the child's own actions, as well as providing guidance that focuses on preventing behavior problems by supporting children in learning appropriate social skills and emotional responses.

~~92.~~95. "Private pool" has the same meaning as "private residential swimming pool" in A.A.C. R18-5-201.

~~93.~~96. "Private school" has the same meaning as in A.R.S. § 15-101.

~~94.~~97. "Program" means a variety of activities organized and conducted by a staff member.

~~95.~~98. "Public pool" has the same meaning as "public swimming pool" in A.A.C. R18-5-201.

~~96.~~99. "Public school" has the same meaning ~~as "school"~~ in A.R.S. § 15-101.

100. "Punishment" means a negative physical or emotional action taken by adults in the classroom for a child's behavior that is not deemed acceptable.

~~97. "Registered nurse practitioner" means:~~

~~a. An individual who is licensed and certified as a "registered nurse practitioner" under A.R.S. § 32-1601, or~~

~~b. An individual who is licensed or certified as a registered nurse practitioner under the law of another state.~~

~~98.~~101. "Regular basis" means at recurring, fixed, or uniform intervals.

~~99.~~102. "Responsible party" means an individual or a group of individuals who:

a. Is assigned by a public school, charter school, or governmental agency; and

b. Has general oversight of the child care facility.

~~100.~~103. "Sanitize" means to use heat, chemical agents, or germicidal solutions to disinfect and reduce pathogen counts, including bacteria, viruses, mold, and fungi.

~~101.~~104. "School-age child" means a child who:

a. Meets one of the following:

i. Is five years old on or before January 1 of the current school year, or

ii. Is five years old on or before January 1 of the most recent school year; and

b. Meets one of the following:

i. Attends kindergarten or a higher level program in a public, charter, accommodation, or private school during the current school year;

ii. Attended kindergarten or a higher level program in a public, charter, accommodation, or private school during the most recent school year;

iii. Is home-schooled at a kindergarten or higher level during the current school year; or

iv. Was home-schooled at a kindergarten or higher level during the most recent school year.

~~102.~~105. "School-age child care" means child care services provided to a school-age child.

~~103.~~106. "School campus" means the contiguous grounds of a public, charter, accommodation, or private school, including the buildings, structures, and outdoor areas available for use by children attending the school.

~~104.~~107. "School governing board" has the same meaning as "governing board" in A.R.S. § 15-101.

~~105.~~108. "Screen time" means the use of electronic media to watch television or to watch a video~~, a DVD, or a movie~~ at the facility or at another location or the use of electronic media or a computer for game-playing, entertainment, communication, or educational purposes.

~~106.~~109. "Semi-public pool" has the same meaning as "semipublic swimming pool" in A.A.C. R18-5-201.

110. "Separation" means removing an enrolled child from a group setting when the enrolled child needs support to gain control of them self under the supervision of a familiar and supportive adult until the enrolled child has regained regulation.

111. "Serious physical injury" has the same meaning as in A.R.S. § 8-201.

~~107.~~112. "Service classification" means one of the following:

a. Full-day care;

b. Part-day care;

c. Evening and nighttime care;

d. Infant care;

e. One-year-old child care;

f. Two-year-old child care;

g. Three-year-old, four-year-old, and five-year-old child care;

h. School-age child care; or

i. Weekend care.

~~108.~~113. "Signatory" means an individual who is authorized by a school district governing board, school district superintendent, or governmental agency to sign a document on behalf of the school district governing board, school district superintendent, or governmental agency.

~~109.~~114. "Signed" means affixed with an individual's signature or with a symbol representing an individual's signature if the individual is unable to write the individual's name.

~~110. "Sippy cup" means a lidded drinking container that is designed to be leak-proof or leak-resistant and from which a child drinks through a spout or straw.~~

~~111.~~115. "Space utilization" means the designated use of an area within a facility for specific child care services or activities.

~~112.~~116. "Staff" or "staff member" means the same as "child care personnel" as defined in A.R.S. § 36-883.02.

~~113.~~117. "Student-aide" means an individual ~~less than 16~~ between 15 and 18 years of age who is participating in an educational, curriculum-based course of study; vocational education; or occupational development program and who, without being compensated by a licensee, is present at a facility to receive instruction from and supervision by staff in the provision of child care services.

~~114.~~118. "Substantive review time-frame" has the same meaning as in A.R.S. § 41-1072.

~~115.~~119. "Supervision" means:

a. For an enrolled child, knowledge of and accountability for the actions and whereabouts of the enrolled child, including the ability to see or hear the enrolled child at all times, to interact with the enrolled child, and to provide guidance to the enrolled child; or

b. For an individual other than an enrolled child, knowledge of and accountability for the actions and whereabouts of the individual, including the ability to see and hear the individual when the individual is in

the presence of an enrolled child and the ability to intervene in the individual's actions to prevent harm to enrolled children.

~~116.~~120. "Swimming pool" has the same meaning as in A.A.C. R18-5-201.

~~117. "Teacher-caregiver" means a staff member responsible for developing, planning, and conducting child care activities.~~

~~118. "Teacher-caregiver-aide" means a staff member who provides child care services under the supervision of a teacher-caregiver.~~

~~119.~~121. "Training" means child care-related conferences, seminars, lectures, workshops, classes, courses, or instruction.

~~120.~~122. "Tummy time" means a limited period-of-time no more than 20 minutes used to allow a non-crawling infant to:

a. ~~To strengthen~~ Strengthen the infant's head, neck, and upper body muscles; and

b. ~~To increase~~ Increase the infant's sensory perception, visual and hearing acuity, and social and emotional interaction.

~~121.~~123. "Volunteer" means a staff member who, without compensation, provides child care services that are the responsibility of a licensee.

~~122.~~124. "Working day" means a Monday, Tuesday, Wednesday, Thursday, or Friday that is not a state holiday, federal holiday, or a statewide furlough day.

125. "Written notice" means a message in written, typed, or printed characters sent or otherwise proved to have been received.

R9-5-102. ~~Individuals to Act~~ Designated Person for Applicant or Licensee ~~Regarding Document, Fingerprinting, and Department-provided Training~~ Requirements

When an applicant or licensee is required by this Chapter to provide information on or sign documents, and possess a fingerprint clearance card, ~~or complete Department-provided training,~~ the following shall satisfy the requirement on behalf of the applicant or licensee, if the applicant or licensee is:

1. ~~If the applicant or licensee is an~~ An individual, the individual;
2. ~~If the applicant or licensee is a~~ A business organization, a designated agent who meets the requirements in A.R.S. § 36-889(D);
3. ~~If the applicant or licensee is a~~ A public school, an individual designated in writing as a signatory for the public school by the school district governing board or school district superintendent;
4. ~~If the applicant or licensee is a~~ A charter school, the person approved to operate the charter school by the school district governing board, the Arizona State Board of Education, or the Arizona State Board for Charter Schools; and
5. ~~If the applicant or licensee is a~~ A governmental agency, the individual in the senior leadership position with the agency or an individual designated in writing as a signatory by that individual.

ARTICLE 2. FACILITY LICENSURE

R9-5-201. Application for a License

A. An applicant for a license shall:

1. Be at least 21 years of age;
2. If an individual, be a U.S. citizen or legal resident alien and a resident of Arizona;
3. If a corporation, association, or limited liability company, be a domestic entity or a foreign entity qualified to do business in Arizona;
4. If a partnership, have at least one partner who is a U.S. citizen or legal resident alien and a resident of Arizona;
5. Submit to the Department an application ~~packet~~ containing:

a. ~~An application on a form provided by the Department that contains~~ The following information in a Department-provided format:

i. The applicant's name;

ii. The applicant's date of birth;

iii. The facility's name, street address, city, state, zip code, mailing address, and telephone number;

iv. The requested service classifications;

v. Whether the applicant agrees to allow the Department to submit supplemental requests for information;

vi. ~~A statement that the applicant has read and will comply with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter;~~ An attestation that the:

(1) Applicant has read and will comply with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter; and

(2) Information provided on the application is accurate and complete; and

~~vii. A statement that the information provided in the application packet is accurate and complete; and~~

~~viii.~~ vii. The applicant's signature and date ~~the applicant signed the application~~ of signature;

b. ~~A copy of the applicant's:~~ Documentation for the applicant that complies with A.R.S. § 41-1080;

~~i. U.S. passport,~~

~~ii. Birth certificate,~~

~~iii. Naturalization documents, or~~

~~iv. Documentation of legal resident alien status;~~

c. A copy of the applicant's valid fingerprint clearance card, both front and back, issued according to A.R.S. Title 41, Chapter 12, Article 3.1;

d. A copy of the applicant's valid background check document according to A.R.S. § 46-811(A);

e. A copy of the form required in A.R.S. § 36-883.02(C);

~~f. A certificate issued by the Department showing that the applicant has completed at least four hours of Department-provided training that included the Department's role in licensing and regulating child care facilities under A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter;~~

~~g.~~f. Except as provided in subsection (A)(5)(j), a site plan of the facility drawn to scale by an architect, draftsman, or contractor showing:

~~i. The drawing scale;~~

~~ii.~~i. The boundary ~~dimensions~~ square footage of the property upon which the facility's physical plant is located;

~~iii.~~ii. If more than one building is used for the facility, the location and perimeter ~~dimensions~~ square footage of each building;

~~iv.~~iii. The location of each driveway on the property;

~~v.~~iv. The location and boundary ~~dimensions~~ square footage of each parking lot on the property;

~~vi.~~v. The location and perimeter ~~dimensions~~ square footage of each outdoor activity area;

~~vii.~~vi. The location, type, and height of each fence and gate; and

~~viii.~~vii. If applicable, the location of any swimming pool on the property;

~~h.~~g. Except as provided in subsection (A)(5)(j), a floor plan of each building to be used for child care services drawn to scale by an architect, draftsman, or contractor showing:

~~i. The drawing scale;~~

~~ii.~~i. The length and width ~~dimensions~~ square footage for each indoor activity area;

~~iii.~~ii. The requested licensed capacity and applicable service classification for each indoor activity area;

~~iv.~~iii. The location of each diaper changing area;

~~v.~~iv. The location of each hand washing, utility, and three-compartment sink, toilet, urinal, and drinking fountain; and

~~vi.~~v. The location and type of fire alarm system;

~~i.~~h. Except as provided in subsection (A)(5)(j):

i. A copy of a certificate of occupancy issued for the facility by the local jurisdiction;

ii. Documentation from the local jurisdiction that the facility was approved for occupancy; or

iii. If the documents in subsections (A)(5)(i)(i) and (ii) are not available, a statement from the local jurisdiction stating that the certificate of occupancy is not available~~, the seal of an architect registered as prescribed in A.R.S. § 32-121 on the site plan required in subsection (A)(5)(g) and the floor plan required in subsection (A)(5)(h) verifying compliance with current local building and fire codes, local zoning requirements, and this Chapter~~;

~~j.~~i. For an applicant providing child care services ~~to three-year-old, four-year-old, five-year-old, or school-age children~~ in a facility located in a public school, a set of final construction drawings or a school map showing the:

i. ~~The location~~ Location of each school building;

ii. ~~The location~~ Location and ~~dimensions~~ square footage of each outdoor activity area to be used by enrolled children;

iii. ~~The length~~ Length and width ~~dimensions~~ square footage for each indoor activity area;

iv. ~~The requested~~ Requested licensed capacity and applicable service classification for each indoor activity area; and

v. ~~The location~~ Location of each hand-washing sink, toilet, urinal, ~~and~~ drinking fountain, and, if applicable, diaper changing area to be used by enrolled children;

~~k.~~j. If the facility is located within one-fourth of a mile of agricultural land:

i. The names and addresses of the owners or lessees of each parcel of agricultural land located within one-fourth mile of the facility, and

ii. ~~A copy of an agreement complying~~ An attestation signed and dated by the applicant agreeing with compliance of A.R.S. § 36-882 for each parcel of agricultural land;

~~l.~~k. The applicable fee in R9-5-206;

~~m.~~l. If the applicant is a business organization, a form provided by the Department that contains:

i. The name, street address, city, state, and zip code of the business organization;

ii. The type of business organization;

iii. The name, date of birth, title, street address, city, state, and zip code of each controlling person;

iv. ~~A copy~~ Documentation of the business organization's articles of incorporation, articles of organization, partnership documents, or joint venture documents, if applicable;

v. Documentation of good standing issued by the Arizona Corporation Commission ~~and dated no earlier than three months before the date of the application~~; and

vi. A statement signed by the applicant stating that each controlling person has not:

(1) ~~That each controlling person has not been~~ Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) ~~That each controlling person has not had~~ Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children;

~~n.~~m. If the applicant is a public school, a form provided by the Department that contains:

i. The name of the school district;

ii. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

iii. A statement signed by the applicant stating that each individual in subsection (A)(5)(n)(ii) has not:

(1) ~~That each individual in subsection (A)(5)(n)(ii) has not been~~ Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) ~~That each individual in subsection (A)(5)(n)(ii) has not had~~ Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iv. A letter from the school district governing board or school district superintendent designating a signatory, if applicable;

~~o.~~n. If the applicant is a charter school, a form provided by the Department that contains:

i. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

ii. A statement signed by the applicant stating that each individual in subsection (A)(5)(o)(i) has not:

(1) ~~That each individual in subsection (A)(5)(o)(i) has not been~~ Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) ~~That each individual in subsection (A)(5)(o)(i) has not had~~ Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iii. A letter from the school district governing board in which the charter school is located, the Arizona State Board of Education, or the Arizona State Board for Charter Schools, approving the applicant to operate the charter school; and

~~p.~~o. If the applicant is a governmental agency, a form provided by the Department that contains:

i. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

ii. A statement signed by the applicant stating that each individual in subsection (A)(5)(p)(i) has not:

(1) ~~That each individual in subsection (A)(5)(p)(i) has not been~~ Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) ~~That each individual in subsection (A)(5)(p)(i) has not had~~ Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iii. A letter from the individual in the senior leadership position with the agency designating a signatory.

B. The Department requires a separate license and a separate application for each facility owned by:

1. ~~Each facility owned by the~~ The same person at a different location, and

2. ~~Each facility owned by a~~ A different person at the same location.

C. The Department does not require a separate application and license for a structure that is:

1. Located so that the structure and the facility:
   a. Share the same street address, or
   b. Can be enclosed by a single unbroken boundary line that does not encompass property owned or leased by another,
2. Under the same ownership as the facility, ~~and~~ or
3. Intended to be used as a part of the facility.

D. A licensee shall provide written notice to the Department that the licensed facility is no longer operating and requests to void the license.

R9-5-202. Time-frames

~~**A.** The overall time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1. The applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame. An extension of the substantive review time-frame and the overall time-frame may not exceed 25% of the overall time-frame.~~

~~B.~~A. The administrative completeness review time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1 and begins on the date that the Department receives an application ~~packet~~.

1. An application ~~packet~~ for a license is not complete until the date, provided to the Department with the application ~~packet~~ or by written notice, that the child care facility is ready for an onsite licensing inspection.
2. The Department shall send a notice of administrative completeness or deficiencies to the applicant within the administrative completeness review time-frame.
   a. A notice of deficiencies shall list each deficiency and the items needed to complete the application ~~packet~~.
   b. The administrative completeness review time-frame and the overall time-frame are suspended from the date that the notice of deficiencies is issued until the date that the Department receives all of the missing items from the applicant.
   c. If an applicant for a license or an approval of a change affecting a license fails to submit to the Department all of the items listed in the notice of deficiencies within 180 calendar days after the date that the Department sent the notice of deficiencies, the Department shall consider the application or request for approval withdrawn.
3. If the Department issues a license or other approval to the applicant during the administrative completeness review time-frame, the Department shall not issue a separate written notice of administrative completeness.

~~C.~~B. The substantive review time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1 and begins on the date of the notice of administrative completeness.

1. As part of the substantive review for a license application, the Department shall conduct an inspection that may require more than one visit to the facility.
2. As part of the substantive review for a request for approval of a change affecting a license that requires a change in the use of physical space at the facility, the Department shall conduct an evaluation of the request to determine compliance with applicable rules and statutes that may include an onsite inspection.
3. The Department shall send a license, a written notice of approval, or denial of a license or other request for approval to an applicant within the substantive review time-frame.
4. During the substantive review time-frame, the Department may make one comprehensive written request for additional information, unless the Department and the applicant have agreed in writing to allow the Department to submit supplemental requests for information.
   a. If the Department determines that an applicant or a facility is not in substantial compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, the Department shall send a comprehensive written request for

additional information that includes a written statement of deficiencies stating each statute and rule upon which noncompliance is based.

b. An applicant shall submit to the Department all of the information requested in the comprehensive written request for additional information and documentation of the corrections required in the statement of deficiencies, if applicable within 120 calendar days after the date of the comprehensive written request for additional information.

c. The substantive review time-frame and the overall time-frame are suspended from the date that the Department issues a comprehensive written request for additional information or a supplemental request for information until the date that the Department receives all of the information requested, including documentation of corrections required in a statement of deficiencies, if applicable.

d. If an applicant fails to submit to the Department all of the information requested in a comprehensive written request for additional information or a supplemental request for information, including documentation of corrections required in a statement of deficiencies, if applicable, within the time prescribed in subsection (C)(4)(b), the Department shall deny the application.

5. The Department shall issue a license or other approval if the Department determines that the applicant and facility are in substantial compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, and the applicant submits documentation of corrections that is acceptable to the Department for any deficiencies.

6. If the Department determines that a license or other approval is to be denied, the Department shall send to the applicant a written notice of denial complying with A.R.S. § 36-888 and stating the reasons for denial and all other information required by A.R.S. §§ 36-888 and 41-1076.

R9-5-203. Fingerprinting and Background Check

A. A licensee shall ensure that a staff member completes, signs, dates, and submits to the licensee, before the staff member's starting date of employment or volunteer service:

1. The form required in A.R.S. § 36-883.02(C); and
2. If required by A.R.S. § 8-804, the form in A.R.S. § 8-804(I).

B. A licensee shall maintain documentation of a valid fingerprint clearance card issued under A.R.S. § 41-1758.03 and a valid background check document issued under ~~in~~ A.R.S. § 46-811.

C. Except as provided in A.R.S. § 41-1758.03, a licensee shall ensure that each staff member, before starting date of employment or volunteer service, submits to the licensee a copy of the staff member's valid fingerprint clearance card, front and back, issued under A.R.S. Title 41, Chapter 12, Article 3.1.

D. A licensee shall ensure that each staff member submits to the licensee a copy of the staff member's valid fingerprint clearance card each time the fingerprint clearance card is issued or renewed every ~~six~~ five years.

E. If a staff member possesses a fingerprint clearance card that was issued before the staff member became a staff member at the facility, a licensee shall:

1. Contact the Department of Public Safety before the individual becomes a staff member to determine whether the fingerprint clearance card is valid; and
2. Document this determination, including the name of the staff member, the date of contact with the Department of Public Safety, and whether the fingerprint clearance card is valid.

F. A licensee shall ensure that each staff member submits to the licensee a copy of the staff member's valid background check document:

1. ~~Background check document issued~~ Issued under A.R.S. § 46-811(A) ~~within 10 working days after~~ before the starting date of employment or volunteer service; and
2. ~~Background check document each~~ Each time a background check is issued or renewed every five years.

G. ~~If~~ As required by A.R.S. § 8-804, before an individual's starting date of employment or volunteer service, a licensee shall comply with the submission requirements in A.R.S. § 8-804(C) for the individual.

H. A licensee shall not allow an individual to be a staff member if the individual:

1. Has been denied a fingerprint clearance card under A.R.S. Title 41, Chapter 12, Article 3.1 and has not received an interim approval under A.R.S. § 41-619.55;
2. Has been denied a background check document that indicates the individual is not eligible for employment due to violations identified pursuant to A.R.S. § 46-811;
3. Receives an interim approval under A.R.S. § 41-619.55 but is subsequently denied a good cause exception under A.R.S. § 41-619.55 and a fingerprint clearance card under A.R.S. Title 41, Chapter 12, Article 3.1;
4. Is a parent or guardian of a child adjudicated to be a dependent child as defined in A.R.S. § 8-201;
5. Has been denied or had revoked a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state;
6. Has been denied or had revoked a certification to work in a child care facility or a child care group home in this state or another state;
7. If applicable, has stated on the form required in A.R.S. § 8-804(I) that the individual is currently under investigation for an allegation of abuse or neglect or has a substantiated allegation of abuse or neglect and has not subsequently received a central registry exception according to A.R.S. § 41-619.57; or
8. If applicable, is disqualified from employment or volunteer service as a staff member according to A.R.S. § 8-804 and has not subsequently received a central registry exception according to A.R.S. § 41-619.57.

I. Within 30 calendar days after the day of a staff member's or volunteer's 18th birthday, the staff member or volunteer shall provide to the licensee copies of a valid fingerprint clearance card and background check document specified in subsection (C).

~~**J.** Beginning November 1, 2021, staff members shall comply with A.R.S. § 46-811(A) and subsection (F) by November 1, 2022.~~

R9-5-204. Child Care Service Classifications

A. The Department licenses child care facilities using the following service classifications:

1. Full-day care;
2. Part-day care;
3. Evening and nighttime care;
4. Infant care;
5. One-year-old child care;
6. Two-year-old child care;
7. Three-year-old, four-year-old, and five-year-old child care;
8. School-age ~~child care~~ Out-of-school time programs; and
9. Weekend care.

B. The Department shall designate on a facility's license each service classification that the facility is licensed to provide.

C. A licensee shall submit an application to the Department to add or change a service classification. A licensee shall not provide child care services in a service classification for which the licensee is not licensed.

R9-5-205. Submission of Licensure Fees

A licensee shall submit the following to the Department, on an annual basis, ~~and~~ no more than 60 calendar days before the anniversary date of the facility's license:

1. ~~A form provided by the Department~~ An application, in a Department-provided format that contains:
   a. The licensee's name,
   b. The facility's name and license number, and
   c. Whether the licensee intends to submit the applicable fee:

i. With the form, or

ii. According to the payment plan in subsection (2)(b), and

2. Either:

a. The applicable fee, as specified in R9-5-206, or

b. One-half of the applicable fee in R9-5-206 with the ~~form~~ application and the remainder of the applicable fee due no later than 120 calendar days after the anniversary date of the facility's license.

R9-5-206. Licensure Fees

A. Except as provided in subsection (B), the annual fees, as specified in A.R.S § 36-882, for an applicant submitting an application or a licensee submitting licensure fees are the following for a child care facility with a licensed capacity of:

1. ~~For a child care facility with a licensed capacity of five~~ Five to 10 children, $330;

2. ~~For a child care facility with a licensed capacity of~~ 11 to 59 children, $1330; and

3. ~~For a child care facility with a licensed capacity of~~ 60 or more children, $2575.

B. The Department may discount the fee in subsection (A), based on available funding or if the applicant or licensee participates in a Department-approved program.

C. The fee for a licensee requesting an increase in a facility's licensed capacity is the difference between the applicable fee in this Section for the new licensed capacity and the applicable fee in this Section for the current licensed capacity, prorated from the date the licensee submitted the request for the increase for the number of months remaining before the facility's license anniversary date specified in R9-5-205.

R9-5-208. Changes Affecting a License

A. At least 30 calendar days before the date of a change in a facility's name, a licensee shall send the Department written notice of the name change ~~and the Department shall issue an amended license that incorporates the name change but retains the anniversary date of the current license~~.

B. At least 30 calendar days before the date of an intended change in a facility's service classification, space utilization, or licensed capacity, a licensee shall submit a written request for approval of the intended change to the Department that includes:

1. The licensee's name;

2. The facility's name, street address, city, state, zip code, mailing address, and telephone number;

3. The name, telephone number, and fax number of a point of contact for the request;

4. The facility's license number;

5. The type of change intended:

a. Service classification,

b. Space utilization, or

c. Licensed capacity;

6. A narrative description of the intended change; and

7. The following additional information, as applicable, if the intended change:

a. ~~If the intended change affects~~ Affects an activity area, the following information about each affected activity area, as applicable:

i. Identification of the activity area,

ii. Current and intended square footage,

iii. Current and intended operating hours,

iv. Current and intended service classification,

v. Current and intended licensed capacity, and

vi. Whether the activity area has or will have a diaper changing area;

b. ~~If the intended change is~~ Is to increase licensed capacity, the square footage of the outdoor activity area; and

c. ~~If the intended change includes~~ Includes an alteration or addition to the physical plant of a licensed facility, the following, as applicable, if the facility is:

i. ~~If the facility is not~~ Not located in a public school or if providing child care services to infants, one-year-old children, or two-year-old children in a facility located in a public school, the information required in R9-5-201(A)(5)(g) and (h) showing the intended change; or

ii. ~~If the facility is located~~ Located in a public school and provides child care only for three-year-old, four-year-old, or five-year-old, or school-age children, a set of final construction drawings or a school map, including the information required in R9-5-201(5)(j) showing the intended change.

C. If the intended change in subsection (B) includes an increase in the licensed capacity, a licensee shall submit the fee for an increase in licensed capacity in R9-5-206(C) with the written request for approval.

D. If requesting a diaper changing area outside an infant room or indoor activity area to allow privacy for diapering an enrolled child with a special ~~needs~~ health care need or a disability, submit a written request for an approval; and

1. For a license application, submit physical plant documents required by R9-5-201(A)(5)(h) that designate the location of the proposed diaper changing area;
2. For a licensed facility, submit a drawing of the proposed diaper changing area to the Department before installing the diaper changing area. Within 30 calendar days after the date of the receipt of the request, the Department shall send written notice to the licensee of approval or disapproval. If the proposed diaper changing area:
   a. Complies with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter and provides privacy for the enrolled child with a special ~~needs~~ health care need or a disability, the Department shall approve the proposed diaper changing area; or
   b. Does not comply with A.R.S. Title 36, Chapter 7.1, Article 1 or this Chapter or provide privacy for the enrolled child with a special ~~needs~~ health care need or a disability, the Department shall provide the licensee with the requirements necessary for the Department to approve the requested change; and
3. Not use a diaper changing area located outside of an activity area until the Department approves the use of the diaper changing area;

E. The Department ~~shall~~ will review a request submitted under subsection (B) according to R9-5-202. If the intended change is in compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter and any applicable fee is submitted, the Department ~~shall~~ will send the licensee written approval of the requested change or an amended license that incorporates the change but retains the anniversary date of the current license.

F. A licensee shall not implement any change described under subsection (B) until the Department issues an approval or amended license.

G. At least 30 days before the date of a change in ownership of a facility, a licensee shall send the Department written notice of the change. For the purpose of this section, "change in ownership" means a transfer of controlling legal or controlling equitable interest and authority in a facility resulting from a sale or merger of a facility. A new owner shall obtain a new license as prescribed in R9-5-201 before the new owner begins operating the facility.

H. A licensee changing a facility's location shall apply for a new license as prescribed in R9-5-201.

I. Within 30 calendar days after a change in a controlling person, a licensee shall send the Department written notice of the change that includes:

1. The name of the licensee;
2. A description of the change made;
3. The name, title, street address, city, state, and zip code of each controlling person;
4. A statement that each controlling person has not been denied a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state;

5. A statement that each controlling person has not had a certificate to operate a child care group home or a license to operate a child care facility revoked in this state or another state for reasons that relate to the endangerment of the health and safety of children;

6. A statement that the information provided in the written notice is accurate and complete; and

7. The signature of the licensee.

J. If the change in subsection (I) is a change in a controlling person who is a designated agent, a licensee shall include a copy of ~~one of the following~~ documentation for the designated agent~~:~~ that complies with A.R.S. § 41-1080.

~~1. A U.S. passport,~~

~~2. A birth certificate,~~

~~3. Naturalization documents, or~~

~~4. Documentation of legal resident alien status.~~

K. Within 30 calendar days after changing a responsible party, a licensee shall send the Department written notice of the change that includes:

1. The name of the licensee;

2. A description of the change made;

3. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals; and

4. A statement signed by the licensee stating that each individual in subsection (K)(3) has not:

   a. ~~That each individual in subsection (K)(3) has not been~~ Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

   b. ~~That each individual in subsection (K)(3) has not had~~ Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children.

R9-5-209. Inspections; Investigations

A licensee shall:

~~**A.**~~1. ~~A licensee shall allow~~ Allow the Department immediate access to all areas of the facility affecting the health, safety, or welfare of an enrolled child or to which an enrolled child has access during hours of operation, according to A.R.S. § 36-885~~.~~;

2. Notify the Department within 24 hours, prior to the next business day, of business closure; and

~~**B.**~~3. ~~A licensee shall permit~~ Permit the Department to interview each staff member or enrolled child as part of an investigation.

ARTICLE 3. FACILITY ADMINISTRATION

R9-5-301. General Licensee Responsibilities

A. A licensee shall:

1. Designate a facility director who acts on behalf of the licensee and is responsible for the daily onsite operation of a facility;

2. Submit the name of the designated facility director in ~~writing~~ a written notice to the Department before a license is issued;

3. Except as provided in subsection (A)(4), within 10 calendar days before changing a facility director, submit written notice of the change including the new designated facility director's name and starting date;

4. If the licensee is not aware of a change in the facility director 10 calendar days before the effective date of the change, submit written notice of the change to the Department including the new designated facility director's name and starting date within 72 hours after becoming aware of the change.

B. A licensee shall ensure that a facility director:

1. Designates, in writing, an individual who meets the requirements of R9-5-401(2) to act on behalf of the facility director when the facility director is not present in the facility;
2. Supervises or assigns a ~~teacher-caregiver~~ child educator to supervise each staff member who does not meet the qualifications of R9-5-401(3);
3. Prepares a dated attendance record for each day and ensures that each staff member documents on the attendance record the time of each arrival and departure of the staff member; and
4. Maintains on the facility premises, the dated attendance record required in subsection (B)(3) for 12 months after the date on the attendance record.

C. A licensee shall develop and implement written facility policies and procedures required for the daily onsite operation of the facility as prescribed in A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter.

D. A licensee shall ensure that the following individuals are allowed immediate access to facility premises during hours of operation:

1. A parent of an enrolled child or an individual designated in writing by the parent of an enrolled child; or
2. A representative of:
   a. The Department,
   b. The local health department,
   c. Arizona Department of Child Safety, or
   d. The local fire department or State Fire Marshal.

E. A licensee shall~~, with the exception of individuals listed in subsection (D)(2),~~ ensure that a staff member supervises any individual ~~that~~ who is not a staff member who is on facility premises where enrolled children are present.

F. A licensee shall ensure that a staff member submits, on or before the starting date of employment or volunteer services, ~~one of the following as evidence of freedom from infectious active tuberculosis~~ a completed self-screening form in a Department-provided format for tuberculosis screening purposes and follow recommendations for further tuberculosis testing, as applicable.~~:~~

~~1. Documentation of a negative Mantoux skin test or other tuberculosis screening test recommended by the U.S. Centers for Disease Control and Prevention, administered within 12 months before the starting date of employment or volunteer service, that includes the date and the type of tuberculosis screening test; or~~

~~2. If the staff member has had a positive Mantoux skin test or other tuberculosis screening test, a written statement that the staff member is free from infectious active tuberculosis that is signed and dated by a health care provider within six months before the starting date of employment or volunteer service.~~

G. A licensee shall ensure that a staff member who has current ~~training~~ certification in adult and pediatric first aid and CPR, as required by R9-5-403(E), is present:

1. At all times during hours of operation on facility premises,
2. On field trips, and
3. While transporting enrolled children in the facility's motor vehicle or a vehicle designated by the licensee to transport enrolled children.

H. A licensee shall prohibit the use or possession of the following items when an enrolled child is on facility premises, during hours of operation, or in any motor vehicle used for transporting an enrolled child:

1. Any beverage containing alcohol;
2. A controlled substance as listed in A.R.S. Title 36, Chapter 27, Article 2, except where used as a prescription medication in the manner prescribed;
3. A dangerous drug as defined in A.R.S. § 13-3401, except where used as a prescription medication in the manner prescribed;
4. A prescription medication as defined in A.R.S. § 32-1901, except where used in the manner prescribed; or

5. A firearm as defined in A.R.S. § 13-105.

I. At least once a month, and at different times of the day, a licensee shall ensure that: ~~an unannounced fire and emergency evacuation drill is conducted and each staff member and enrolled child at the facility participates in the fire and emergency evacuation drill.~~

1. An unannounced practice drill that includes evacuation, relocation, shelter-in place, and lock downs are conducted;
2. Each staff member, volunteer, and enrolled child at the facility participates in the practice drill;
~~1.~~3. If applicable, accommodations are made for an enrolled child with a special need or disability ~~child care services for a child with special needs are provided at a facility, the licensee shall provide for the enrolled child's participation in each fire and emergency evacuation drill~~ according to the enrolled child's individualized plan as specified in R9-5-507(A)(1)~~.~~;
4. If applicable, accommodations are made for an enrolled child or infant who is not yet walking; and
~~2.~~5. ~~A licensee shall document~~ Document each ~~fire and emergency evacuation~~ practice drill and maintain the documentation on facility premises for 12 months after the date of the ~~fire and emergency evacuation~~ practice drill.

~~**J.** Every September, a licensee shall provide to parents of enrolled children information related to recommendations for influenza vaccinations for children.~~

~~**K.**~~**J.** A licensee shall not allow a staff member who lacks proof of immunity against a disease listed in ~~A.A.C. R9-6-702(A)~~ A.A.C. R9-6-702 to be present in the facility between the start and end of an outbreak of the disease at the facility.

~~**L.**~~**K.** A licensee shall ensure that the Department is notified orally or in writing within 24 hours after an enrolled child's death at the child care facility during hours of operation.

R9-5-302. Statement of Child Care Services

~~**A.**~~ A licensee shall prepare a written statement of child care services provided by the licensee that includes the following:

1. A description of the facility's child care services classifications in R9-5-204;
2. Hours of operation;
3. The facility's street address, city, state, zip code, mailing address, and telephone number;
4. Child enrollment and disenrollment procedures;
5. Charges, fees, and payment requirements for child care services;
6. Child admission and release requirements;
7. ~~Age-appropriate discipline guidelines and methods~~ Guidelines for positive discipline reflective of age-appropriate methods for children that include clear, appropriate, consistent expectations;
8. Transportation procedures;
9. Field trip requirements and procedures;
10. Responsibilities and participation of parents in facility activities;
11. A general description of activities and programs;
12. A description of the liability insurance required by R9-5-308 that is carried by the licensee and a statement that documentation of the liability insurance coverage is available for review on the facility premises;
13. Medication administration procedures;
14. Accident and emergency procedures;
15. A notice stating inspection reports are available onsite;
16. A provision stating that the facility is regulated by the Arizona Department of Health Services including the Department's local street address, city, state, zip code, and local telephone number;
17. The procedures for notifying a parent at least 48 hours before a pesticide is applied on a facility's premises; ~~and~~
18. A statement that a parent has access to the areas on facility premises where the parent's enrolled child is receiving child care services~~.~~; and

19. Policies and procedures for suspension and expulsion of children to include clear, appropriate, consistent expectations, including suspension and expulsion prevention strategies.

~~**B.** A licensee shall provide a copy of the written statement of child care services:~~

~~1. To the Department:~~

~~a. Before the facility receives a license, and~~

~~b. Every 12 months after the date of the license as required by A.R.S. § 36-883.01; and~~

~~2. To a parent when the parent requests a copy of the written statement of child care services.~~

R9-5-303. Posting of Notices

A. A licensee shall post in a place that can be conspicuously viewed by individuals entering or leaving the facility or activity area the:

1. Facility's license;
2. Name of the facility director;
3. Name of the individual designated to act on behalf of the facility director when the facility director is not present in the facility, as prescribed by R9-5-301(B)(1);
4. Schedule of child care services fees and policy for refunding fees as prescribed by A.R.S. § 36-882(P);
5. Breakfast, lunch, dinner, and snack menus for each calendar week at the beginning of the calendar week;
6. Notice of the presence of any communicable disease or infestation listed in 9 A.A.C. 6, Article 2, ~~Table 2~~ Table 2.2, from the date of discovery through the incubation period of the communicable disease or infestation;
7. Notice of the Department's intent to deny, revoke, or suspend as prescribed by A.R.S. § 36-888 at the expiration of time in the notice for the licensee to respond;
8. Notice of an intermediate sanction imposed as prescribed by A.R.S. § 36-891.01 within 10 calendar days after the licensee received notice of the intermediate sanction;
9. Notice of a legal injunction imposed as prescribed by A.R.S. § 36-886.01 when the licensee receives the legal injunction; and
10. Notice of the availability of facility inspection reports for public viewing at the facility premises.

B. A licensee shall ensure that the licensed capacity of each indoor activity area is posted in that activity area.

C. Except as prescribed in A.R.S. § 36-898(C), a licensee shall post a notification of pesticide application in each activity area and in each entrance of a facility, at least 48 hours before a pesticide is applied on the facility's premises, containing:

1. The date and time of the pesticide application, and
2. A statement that written pesticide information is available from the licensee upon request.

R9-5-304. Enrollment of Children

A. A licensee shall require that a child be enrolled by the child's parent or an individual authorized in writing by the child's parent.

B. Except as required in A.R.S. § 36-3009, before an enrolled child receives child care services, a licensee shall require the enrolled child's parent to complete ~~a Department-provided~~ an Emergency, Information, and Immunization Record ~~card~~, that is no more than a two-page written notice, ~~that~~ and is signed by the enrolled child's parent containing:

1. The child's name, home address, ~~city, state, zip code, home telephone number,~~ sex, and date of birth;
2. The date of the child's enrollment;
3. The name, home address, ~~city, state, zip code,~~ email address, and ~~contact~~ telephone number of each parent of the child;
4. The name and ~~contact~~ telephone number of at least two individuals authorized by the child's parent to collect the child from the facility in case of emergency, or if the child's parent cannot be contacted;
5. The name and ~~contact~~ telephone number of the child's health care provider;
6. The written authorization for emergency medical care of the enrolled child;
7. The name of the individual to be contacted in case of injury or sudden illness of the child;

8. The written instructions of a child's parent or health care provider for the nutritional and dietary needs of the child including, if applicable, the request in ~~R9-5-509(C)(9)~~ R9-5-509(C)(14); and

9. A written record completed by the child's parent or health care provider noting the child's susceptibility to illness, physical conditions of which a staff member should be aware, and any individual requirements for health maintenance.

C. A licensee shall maintain a current Emergency, Information, and Immunization Record ~~card~~ for each enrolled child on facility premises in a place that provides a staff member ready access to the ~~card~~ record in the event of an emergency at, or evacuation of, the facility.

D. When an enrolled child is disenrolled from a facility, the licensee shall:

1. Enter the date of disenrollment on the child's Emergency, Information, and Immunization Record ~~card~~; and

2. Maintain the records in subsection (D)(1) for 12 months after the date of disenrollment on facility premises in a place separate from the current Emergency, Information, and Immunization Record ~~cards~~. If a licensee is a school governing board, a charter school, or a person operating multiple child care facilities, the licensee may maintain disenrollment records in a single central administrative office located in the same city, town, or school attendance area as the facility.

R9-5-305. Child Immunization Requirements

A. A licensee shall not permit an enrolled child to attend a facility until the facility receives:

1. An immunization record for the enrolled child with the information required in 9 A.A.C. 6, Article 7, documenting that the enrolled child has received all current, age-appropriate immunizations required under 9 A.A.C. 6, Article 7:
   a. Provided by a health care provider, or
   b. Generated from the Arizona State Immunization Information System, which is the Department's child immunization reporting system established in A.R.S. § 36-135; or

2. An exemption affidavit for the enrolled child provided by the enrolled child's parent that contains a statement, signed by the enrolled child's:
   a. ~~A statement, signed by the enrolled child's health~~ Health care provider, that the immunizations required by 9 A.A.C. 6, Article 7 would endanger the enrolled child's health or medical condition; or
   b. ~~A statement, signed by the enrolled child's parent~~ Parent, that the enrolled child is being raised in a religion whose teachings are in opposition to immunization.

B. If an enrolled child has not had immunizations and is either homeless, as in "homeless children and youths" according to 42 USC 11434a, who is referred by DCS or Tribal Child Protective Services, initial doses should be administered within 30-calendar days, unless the enrolled child has a religious or medical exemption, as specified in subsections (A)(1) and (2). A child who is experiencing homelessness or who is referred by DCS or Tribal Child Protective Services is permitted to enroll in the program while required documentation is obtained.

~~B.~~C. A licensee shall attach an enrolled child's written immunization record or exemption affidavit, required in subsection (A), to the enrolled child's Emergency, Information, and Immunization Record ~~card~~, required in R9-5-304(B).

~~C.~~D. A licensee shall ensure that a staff member updates an enrolled child's written immunization record required in subsection (A)(1)(a) each time the enrolled child's parent provides the licensee with a written statement from the enrolled child's health care provider that the enrolled child has received an age-appropriate immunization required by 9 A.A.C. 6, Article 7.

~~D.~~E. If an enrolled child's immunization record indicates that the enrolled child has not received an age-appropriate immunization required by 9 A.A.C. 6, Article 7, a licensee shall ensure that a staff member:

1. Notifies the enrolled child's parent in writing that the enrolled child may attend the facility for not more than 15 calendar days after the date of the notification unless the enrolled child's parent complies with the immunization requirements in 9 A.A.C. 6, Article 7; and

2. Documents on the enrolled child's Emergency, Information, and Immunization Record ~~card~~ the date on which the enrolled child's parent is notified of an immunization required by the Department.

~~E.~~**F.** A licensee shall not allow an enrolled child who lacks proof of immunity against a disease listed in ~~A.A.C. R9-6-702(A)~~ A.A.C. R9-6-702 to attend the child care facility between the start and end of an outbreak of the disease at the facility.

~~F.~~**G.** If a parent of an enrolled child, excluded from a child care facility because of the lack of documented immunity to a disease during an outbreak of the disease at the child care facility, submits any of the documents in A.A.C. R9-6-704 as proof of the enrolled child's immunity to the disease, a licensee shall allow the enrolled child to attend the child care facility during the outbreak of the disease.

R9-5-306. Admission and Release of Children; Attendance Records

A. A licensee shall:

1. ~~maintain~~ Maintain a dated attendance form containing an enrolled child's name with the time of each admission and release ~~of the enrolled child~~, and the parent or staff member's signature or other unique identifier.

~~1. Except as provided in subsection (A)(2), a licensee shall ensure that the attendance form is signed with at least a first initial of an individual's first name and the individual's last name by each enrolled child's parent or individual designated by the enrolled child's parent, each time the enrolled child is admitted or released.~~

~~2. An electronic fingerprint verification or an electronic signature may be used in place of a signature of the enrolled child's parent or designated individual to admit or release the enrolled child.~~

~~3.~~2. If an electronic signature is used to admit or release the enrolled child, ~~the licensee shall~~ adopt policies and procedures to ensure that the individual whose signature the electronic or digital method of identification represents is accountable for the use of the electronic or digital method;

~~4.~~3. ~~A licensee shall develop~~ Develop, document, and implement policies and procedures to ensure that the identity of an individual is known to the staff member or is verified with picture identification before releasing an enrolled child to the individual.

~~5.~~4. ~~A licensee shall not~~ Not release the enrolled child to an individual other than the enrolled child's parent or other individual designated in writing by the enrolled child's parent except when the enrolled child's parent is unable to collect the enrolled child and authorizes the licensee by telephone to release the enrolled child to an individual not so designated.

~~a. The licensee shall verify the telephone authorization using a means of verification that has been agreed upon between the licensee and the enrolled child's parent at the time of enrollment.~~

~~b. The licensee shall document the means of verification in subsection (A)(5)(a) on the enrolled child's Emergency, Information, and Immunization Record card.~~

~~6.~~5. ~~A licensee shall not~~ Not permit the self-admission or self-release of an enrolled child unless the enrolled child is of ~~school age~~ school-age and the licensee has obtained and verified written permission from the enrolled child's parent.

~~7.~~6. ~~A licensee shall maintain~~ Maintain the attendance form on facility premises for 12 months after the date of attendance.

B. A licensee shall:

1. Develop, document, and implement policies and procedures to ensure that a staff member maintains daily documentation of the presence of an enrolled child in an activity area that includes a method to account for any temporary absences of the enrolled child from the activity area; and
2. Maintain the documentation of the presence of enrolled children in an activity area required in subsection (B)(1) on facility premises for 12 months after the date of the documentation.

R9-5-310. Pesticides

A. A licensee shall make written pesticide information available to a parent, upon a parent's request, at least 48 hours before a pesticide application occurs on facility premises, containing the:

1. ~~The brand~~ Brand, concentration, rate of application, and any use restrictions required by the label of the herbicide or specific pesticide;

2. ~~The date~~ Date and time of the pesticide application;

3. ~~The pesticide~~ Pesticide label, which includes the written, printed, or graphic matter approved by the United States Environmental Protection Agency on or attached to, a pesticide container; and

4. ~~The name~~ Name and telephone number of the pesticide business licensee and the name of the licensed applicator, who complies with A.A.C. R3-8-201(C), providing pesticide services.

B. A licensee is exempt from the provisions in subsection (A), as prescribed by A.R.S. § 36-898(C).

ARTICLE 4. FACILITY STAFF

R9-5-401. Staff Qualifications

A licensee shall ensure that staff members meet the following qualifications for employment or volunteer service at a facility:

1. A facility director is 21 years of age or older and provides the licensee with documentation of one of the following:
   a. At least 24 months of child care experience, a high school or high school equivalency diploma, and
      i. Six credit hours or more in early childhood, child development, or a closely-related field from an accredited college or university; or
      ii. At least 60 actual hours of instruction, provided in conferences, seminars, lectures, or workshops in early childhood, child development, or a closely-related field, and an additional 12 hours of instruction, provided in conferences, seminars, lectures, or workshops in the area of program administration, planning, development, or management;
   b. At least 18 months of child care experience; and
      i. An N.A.C., C.D.A., or C.C.P. credential; or
      ii. At least 24 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;
   c. At least six months of child care experience and an associate degree from an accredited college or university in early childhood, child development, or a closely-related field; or
   d. At least three months of child care experience and a bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field;
2. A facility director's designee is 21 years of age or older and provides the licensee with documentation of one of the following:
   a. At least 12 months of child care experience, a high school or high school equivalency diploma; and
      i. Three credit hours or more in early childhood, child development, or a closely-related field from an accredited college or university; or
      ii. At least 30 actual hours of instruction, provided in conferences, seminars, lectures, or workshops in early childhood, child development, or a closely-related field;
   b. At least 12 months of child care experience; and
      i. An N.A.C., C.D.A., or C.C.P. credential; or
      ii At least 24 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;
   c. At least six months of child care experience and an associate degree from an accredited college or university in early childhood, child development, or a closely-related field; or
   d. At least three months of child care experience and a bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field;
3. A ~~teacher-caregiver~~ child educator is 18 years of age or older and provides the licensee with documentation of one of the following:
   a. Six months of child care experience if working with enrolled children five years old and younger, or three months of child care experience if working with school-aged children; and
      i. A high school diploma or high school equivalency diploma; or
      ii. At least 12 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;
   b. Associate or bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field; or

c. N.A.C., C.D.A., or C.C.P. credential;

4. An assistant ~~teacher-caregiver~~ child educator is 16 years of age or older and provides the licensee with documentation of one of the following:
   a. Current and continuous enrollment in high school or a high school equivalency class;
   b. High school or high school equivalency diploma;
   c. Enrollment in vocational rehabilitation, as defined in A.R.S. § 23-501; or
   d. Employment or service as a volunteer in a licensed child care facility ~~as a teacher-caregiver aide~~ for 12 months; ~~or~~
   ~~e. Service as a volunteer in a child care facility for 12 months;~~
5. A ~~teacher-caregiver~~ child educator aide is 16 years of age or older;
6. A student-aide provides the licensee with documentation of participation in:
   a. An educational, curriculum-based course in child development, parenting, or guidance counseling; or
   b. A vocational education or occupational development program; and
7. A volunteer is 15 years of age or older.

R9-5-403. Training Requirements

A. Within 10 calendar days of the starting date of employment or volunteer service, a licensee shall provide, and each staff member who provides child care services shall complete, training for new staff members that includes all of the following:

1. Facility philosophy and goals;
2. Names and ages of and developmental expectations for enrolled children for whom the staff member will provide child care services;
3. Health needs, nutritional requirements, any known allergies, and information about adaptive devices of enrolled children for whom the staff member will provide child care services;
4. Lesson plans;
5. Child guidance and methods of positive discipline, including separation;
6. Hand washing techniques;
7. Diapering techniques and toileting, if assigned to diaper changing duties;
8. Food preparation, service, sanitation, and storage, if assigned to food preparation;
9. If a staff member is assigned to feeding infants, the preparation, handling, and storage of infant formula and breast milk;
10. Recognition of signs of illness and infestation;
11. Child abuse or neglect detection, prevention, and reporting;
12. Accident and emergency procedures;
13. Staff responsibilities as required by A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter;
14. Sun safety policies and procedures;
15. Safety in outdoor activity areas;
16. Transportation procedures, if applicable; ~~and~~
17. Field trip procedures, if applicable~~.~~;
18. Infant tummy time, if applicable;
19. Prevention of sudden infant death syndrome and use of safe sleeping practices, if applicable; and
20. Prevention of shaken baby syndrome, pediatric abusive head trauma, and child maltreatment.

B. A licensee shall ensure that:

1. Each staff member who provides child care services completes ~~18~~ 24 or more ~~actual~~ clock hours of training every 12 months after the effective date of this Chapter or the staff member's starting date of employment or volunteer service in at least two topics listed ~~in this subsection~~ below:
    a. Child growth and development, including:
        i. Infant growth and development, ~~which may include~~ including sudden infant death syndrome prevention and safe sleeping practices;
        ii. Brain development;
        ~~ii.~~iii. ~~Developmental psychology~~ Basic child development, including cognitive, social, emotional, and physical, as well as approaches to learning;
        ~~iii.~~iv. Language development;
        ~~iv.~~v. Observation and child assessment;
        ~~v.~~vi. Developmentally-appropriate activities;
        ~~vi.~~vii. Child guidance and methods of positive discipline which may include ~~training on the appropriate techniques to prevent a child from harm or to prevent the child from harming others~~ techniques to promote healthy social-emotional development and reduce challenging behaviors; ~~and~~ or
        ~~vii.~~viii. Developmentally-appropriate activity areas~~;~~.
    b. Health and safety issues, including:
        i. Accident and emergency procedures, including CPR and first aid for infants and children;
        ii. Recognition of signs of illness and infestation;
        iii. Nutrition and developmentally-appropriate eating habits;
        iv. Child abuse detection, reporting, and prevention;
        v. Safety of indoor and outdoor activity areas; ~~and~~
        vi. Sun safety policies and procedures;
        vii. Water safety;
        viii. Prevention and control of infectious diseases, including immunization;
        ix. Prevention and response to emergencies due to food and allergic reactions, including anaphylactic shock;
        x. Building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic;
        xi. Emergency preparedness, response, and recovery planning for emergencies resulting from a natural disaster or a human-caused event;
        xii. Administration of medication, consistent with standards for parental or guardian consent;
        xiii. Handling and storage of hazardous materials and the appropriate disposal of biocontaminants;
        xiiii. Prevention of shaken baby syndrome, pediatric abusive head trauma, and child maltreatment; or
        xv. Physical restraint techniques.
    c. Program administration, planning, development, or management; and
    d. Availability of community services and resources, including those available to children with a special ~~needs~~ health care need or a disability; and
2. As part of the required ~~18~~ 24 hours of training in subsection (B)(1):
    a. A staff member who has less than 12 months of child care experience before the staff member's starting date, completes at least 12 hours in one or more of the topics in subsection (B)(1)(a) in the staff member's first 12 months at the facility;

b. A staff member who has 12 months or more of child care experience, completes at least six hours in one or more of the topics in subsection (B)(1)(a) every 12 months after the staff member's starting date;

c. A staff member who provides child care services to an infant completes at least six hours in subsection (B)(1)(a)(i) every 12 months after the staff member's starting date; and

d. A facility director completes at least six hours in subsection (B)(1)(c) every 12 months after the facility director's starting date.

e. A child educator for school-aged children shall complete six of the 24 hours of training within the first three months of hire.

C. A licensee shall ensure that documentation of a staff member's completion of training required by subsection (A) is signed by the facility director and dated.

D. A licensee shall ensure that a staff member submits to the licensee documentation of training received as required by subsection (B) to the licensee as the training is completed.

E. A licensee shall ensure that a staff member, as required by R9-5-301(G) ~~meets all of the following~~:

1. ~~The staff member obtains~~ Obtains adult and pediatric first aid ~~training~~ certification ~~specific to infants and children~~;
2. ~~The staff member obtains~~ Obtains adult and pediatric CPR ~~training~~ certification ~~specific to infants and children~~, which includes a demonstration of the staff member's ability to perform CPR;
3. ~~The staff member maintains~~ Maintains current ~~training~~ certification in adult and pediatric first aid and CPR; and
4. ~~The staff member provides~~ Provides the licensee with a copy of the front and back of the current card issued to the staff member upon completing adult and pediatric first aid and CPR training as proof of completion of the requirements of this subsection.

R9-5-404. Staff-to-Children Ratios

A. A licensee shall ensure that at least the following staff-to-children ratios are maintained at all times when providing child care services to enrolled children:

Age Group	*Staff: Children*
Infants	1:5 or 2:11
1-year-old children	1:6 or 2:13
2-year-old children	1:8
3-year-old children	1:13
4-year-old children	1:15
5-year-old children not school-age	1:20
School-age children	1:20

B. A licensee shall:

1. Determine and maintain the required staff-to-children ratio for each group of enrolled children based on the age of the youngest child in the group; and
2. ~~Allow a volunteer~~ Only allow an individual qualified as a director, ~~teacher-caregiver~~ child educator, or ~~assistant teacher-caregiver~~ an assistant child educator to be counted as staff in staff-to-children ratios~~; and~~
3. ~~Not allow a student aide or an individual qualified as a teacher-caregiver aide to be counted as staff in staff-to-children ratios~~.

C. A licensee shall ensure that when there are:

1. ~~When there are six~~ Six or more enrolled children present in a facility, the following individuals are present in the facility:
    a. A facility director or a director's designee who meets the requirements in R9-5-401 for a director's designee, and
    b. One additional staff member;
2. ~~When five~~ Five or fewer enrolled children are present in a facility, the facility director or director's designee who meets the requirements in R9-5-401 is present in the facility, and an additional staff member is available by telephone or other equally expeditious means and able to reach the facility within 15 minutes after notification; and
3. ~~When six~~ Six or more enrolled children are present in a facility, an infant is not placed for supervision with a child who is not an infant.

D. A licensee shall ensure that a staff member assigned to provide child care services to enrolled children does not perform duties that may affect the staff member's ability to provide child care services to the enrolled children.

E. In addition to maintaining the required staff-to-children ratios, a licensee shall ensure that:

1. Staff members are present on facility premises to perform facility administration, food preparation, food service, and maintenance responsibilities; and
2. Facility maintenance does not depend on the work of enrolled children.

F. If a licensee conducts swimming activities at a swimming pool, the licensee shall ensure that there is a lifeguard on the premises who has current lifeguard certification that includes a demonstration of the lifeguard's ability to perform CPR. If the lifeguard is a staff member, the staff member cannot be counted in the staff-to-children ratios required by subsection (A).

ARTICLE 5. FACILITY PROGRAM AND EQUIPMENT

R9-5-501. General Child Care Program, Equipment, and Health and Safety Standards

A. A licensee shall ensure that:

1. In addition to complying with the requirements in this Chapter, the health, safety, or welfare of an enrolled child is not placed at risk of harm;
2. The facility does not allow enrolled children to mix with non-enrolled children on licensed facility premises;
~~2.~~3. ~~Except for an enrolled school-age child~~ For enrolled infants and children five-years or younger, drinking water is available to meet the needs of ~~provided sufficient for the needs of and accessible to~~ each enrolled child ~~in both indoor and outdoor activity areas~~;
~~3.~~4. For an enrolled school-age child, if drinking water is not accessible in an indoor or outdoor activity area, drinking water sufficient to meet the individual needs of each enrolled school-aged child is available;
~~4.~~5. An enrolled child is placed in an age-appropriate or developmentally-appropriate group;
~~5.~~6. Indoor activity areas used by enrolled children are decorated with age-appropriate articles such as mirrors, bulletin boards, pictures, and posters;
~~6.~~7. Age-appropriate toys, materials, and equipment are provided to enable each enrolled child to participate in an activity;
~~7.~~8. Storage space is provided in the facility for indoor and outdoor toys, materials, and equipment in areas accessible to enrolled children;
~~8.~~9. Clean clothing is available to an enrolled child when the enrolled child needs a change of clothing;
~~9.~~10. If a staff member places an enrolled child in a feeding chair when feeding the enrolled child the:
    a. ~~The feeding~~ Feeding chair is constructed to prevent toppling;
    b. ~~The tray~~ Tray or feeding surface of the feeding chair is smooth and free of cracks; and
    c. ~~The staff~~ Staff member:
        i. Cleans the feeding chair before and after each enrolled child's use;
        ii. Sanitizes the tray or feeding surface before and after each enrolled child's use; and
        iii. If the feeding chair was manufactured with a safety strap, fastens the feeding chair's safety strap while the enrolled child is in the feeding chair;
~~10.~~11. For enrolled children one to five years old, at ~~At~~ least one indoor activity area in the facility is equipped with at least one cot or mat, a sheet, and a blanket, where an enrolled child can rest quietly away from other enrolled children;
~~11. Outdoor activities are scheduled to allow not less than 75 square feet for each enrolled child occupying the facility's outdoor activity area or indoor activity area substituted for outdoor activity area at any time;~~
12. The facility premises, including the buildings, are maintained free from hazards;
13. Toys and play equipment, required in this Article, are maintained:
    a. Free from hazards, and
    b. In a condition that allows the toy or play equipment to be used for the original purpose of the toy or play equipment;
14. Temperatures are maintained between 68° F and 82° F in each room used by enrolled children;
~~15. Except when an enrolled child is napping or sleeping, each room used by an enrolled child is maintained at a minimum of 30 foot candles of illumination;~~
~~16.~~15. ~~When an enrolled child is napping or sleeping in a room, the room is maintained at a minimum of 5 foot candles of illumination~~ In rooms used for napping, the lighting must be dim during nap time to promote an atmosphere conducive to sleep but must be bright enough for supervision of children;

~~17.~~16. Each enrolled child's toothbrush, comb, washcloth, cloth towel, and clothing ~~is~~ are maintained in a clean condition and stored in an identified space separate from those of other enrolled children;

~~18.~~17. Each enrolled child's pacifier is labeled with an identifier that is specific to the enrolled child and maintained in a clean condition;

~~19.~~18. Except as provided in subsection (A)(20), the following are stored separate from food storage areas and are inaccessible to an enrolled child:

a. All materials and chemicals labeled as a toxic or flammable substance;

b. All substances that have a child warning label and may be a hazard to a child; and

c. Lawn mowers, ladders, toilet brushes, plungers, and other facility equipment that may be a hazard to a child;

~~20.~~19. Hand sanitizers when being:

a. ~~When being stored~~ Stored, are stored separate from food storage areas and are inaccessible to enrolled children; and

b. ~~When being provided~~ Provided for use, are accessible to enrolled children; and

~~21.~~20. Except when used as part of an activity, the following are stored in an area inaccessible to an enrolled child:

a. Garden tools, such as a rake, trowel, and shovel; and

b. Cleaning equipment and supplies, such as a mop and mop bucket.

~~**B.** A toy or piece of play equipment, which is free from hazards and in a condition that does not allow the toy or play equipment to be used for the toy or play equipment's original purpose, may be in an activity area but is not counted as one of the toys or play equipment required in this Article.~~

~~**C.**~~**B.** A licensee shall ensure that a staff member:

1. Supervises each enrolled child at all times;

2. Does not smoke, vape, or use tobacco:

a. On facility premises, except in designated areas separated from the children; or

b. On a field trip or when transporting an enrolled child;

3. Does not smoke marijuana or use marijuana, as specified in A.R.S. § 36-894;

~~3.~~4. Except for an enrolled child who can change the enrolled child's own clothing, changes an enrolled child's clothing when wet or soiled;

~~4.~~5. For enrolled children 12-months and older, except ~~Except~~ as provided in ~~subsection (D)~~ subsection (C), prepares, ~~and~~ posts, and implements in each indoor activity area, a current schedule of children's age-appropriate activities, including the times the following are provided:

a. Meals and snacks;

b. Naps;

c. Indoor activities;

d. ~~Outdoor~~ If weather and air quality permit, outdoor or large muscle development activities;

e. Quiet and active activities;

f. Teacher-directed activities;

g. Self-directed activities;

h. Activities for individuals, groups of five or fewer children, and groups of six or more children; and

i. Activities that develop small muscles;

~~5.~~6. For enrolled children five-years or younger, and except ~~Except~~ as provided in ~~subsection (D)~~ subsection (C), prepares, ~~and~~ posts, and implements a dated lesson plan in each indoor activity area for each calendar week, which is maintained on facility premises for 12 months after the lesson plan date and provides opportunities for each child to:

a. Gain a positive self-concept;

b. Develop and practice social skills;

c. Think, reason, question, and experiment;

d. Acquire language skills;

e. Develop physical coordination skills;

f. Participate in structured large muscle physical activity;

g. Develop habits that meet health, safety, and nutritional needs;

h. Express creativity;

i. Learn to respect cultural diversity of children and staff;

j. Learn self-help skills; and

k. Develop a sense of responsibility and independence;

~~6.~~7. If an activity in the lesson plan required in subsection (C)(5) includes screen time, include in the lesson plan the duration of the screen time in minutes;

~~7. Except as provided in subsection (C)(8), implements the schedule in subsection (C)(4) and lesson plan in subsection (C)(5);~~

8. If the schedule in subsection (C)(4) or lesson plan in subsection (C)(5) is not implemented, writes on the schedule or the lesson plan the activity that is implemented;

9. Does the following when a parent permits or asks a staff member to apply personal products on an enrolled child, such as petroleum jelly, diaper rash ointments, sun screen or sun block preparations, toothpaste, and baby diapering preparations:

a. Obtains the enrolled child's personal products from the enrolled child's parent or, if the licensee provides the personal products for use by the enrolled child, obtains written approval for use of the products from the enrolled child's parent;

b. Labels the personal products with the enrolled child's name; and

c. Keeps the personal products inaccessible to enrolled children;

~~10. When a parent permits, allows an enrolled school-age child to possess and use a topical sunscreen product without a note or prescription from a licensed health care professional.~~

~~11.~~10. In an indoor activity area that does not have a diaper changing area:

a. Stores an enrolled child's wet or soiled clothing in a sealed plastic bag labeled with the enrolled child's name; and

b. Sends an enrolled child's wet or soiled clothing home with the enrolled child when the facility releases the enrolled child to the enrolled child's parent; and

~~12.~~11. Monitors an enrolled child for overheating or overexposure to the sun. If the enrolled child exhibits signs of overheating or overexposure to the sun, a staff member who has the first aid training required by R9-5-403(E) shall evaluate and treat the enrolled child.

~~**D.**~~**C.** A licensee is not required to have a schedule required in subsection (C)(4) or a lesson plan required in subsection (C)(5) for an indoor activity area that is approved and used:

1. By enrolled children only for:

a. Snacks or meals, or

b. A specific activity,

2. To provide child care services to infants, or

3. As a substitute for an outdoor activity area.

R9-5-502. Supplemental Standards for Infants

A. A licensee providing child care services for infants shall:

1. Provide a wall-enclosed room for infants that provides exits required by R9-5-601(1);
2. Provide age-appropriate active and quiet activities for each infant;
3. Provide age-appropriate indoor and outdoor activities for each infant;
4. Permit an infant to maintain the infant's pattern of sleeping and waking;
5. Develop, document, and implement tummy time policies and procedures that:
    a. Provide an opportunity for a non-crawling infant to experience tummy time each day:
        i. While the infant is awake, and
        ii. On the infant's stomach;
    b. Ensure a staff member who is supervising a non-crawling infant while the infant is flat on their stomach and on the floor:
        i. Is within reach of the infant;
        ii. Does not perform any other duties while supervising the infant;
        iii. Does not allow the use of pillows, comforters, sheepskins, stuffed toys, or other soft products in the same floor space as the infant; and
        iv. Does not allow any product specified in subsection (A)(5)(b)(iii) to be within reach of the infant;
    c. Require continuous interaction between a non-crawling infant and the staff member who is supervising the non-crawling infant during tummy time;
    d. Ensure, as an infant demonstrates ability and strength to control physical movement and greater sensory perception and social interaction, an assigned staff member provide a tummy-time period to a:
        i. ~~A~~ 2 - 3 month old infant of no more than 15 minutes;
        ii. ~~A~~ 3 - 4 month old infant of no more than 20 minutes; and
        iii. ~~A~~ 5 - 6 month old infant of 20 minutes; and
    e. Ensure a non-crawling infant's tummy time period specified in subsection (A)(5)(d):
        i. Is determined by the assigned staff member's assessment of the infant;
        ii. Is gradually increased as the infant's ability, strength, and perception increases; and
        iii. Does not exceed tummy time periods specified in subsection (5)(D)(i) through (iii).
6. Provide an outdoor activity area or an indoor activity area for large muscle development substituted for an outdoor activity area that is used by infants when enrolled children older than infants are not present;
7. Provide space, materials, and equipment in an infant room that includes the following:
    a. An area with nonabrasive flooring for sitting, crawling, and playing;
    b. Toys, materials, and equipment, that are too large for a child to swallow and free from sharp edges and points, in a quantity sufficient to meet the needs of the infants in attendance that include:
        i. Toys to enhance physical development such as toys for stacking, pulling, and grasping;
        ii. Soft toys;
        iii. Books;
        iv. Toys to enhance visual development such as crib mobiles and activity mats with an object or objects suspended above the infant's head; and
        v. Unbreakable mirrors; and
    c. At least one adult-size chair for use by a:
        i. Staff member when holding or feeding an infant, or
        ii. Nursing mother when breastfeeding her infant;
8. Provide a crib for each infant that:

a. Has bars or openings spaced no more than 2 3/8 inches apart and a crib mattress measured to fit not more than 1/2 inch from the crib side;

b. Has a commercially waterproofed mattress; and

c. Is furnished with only a clean, sanitized, crib-size ~~bedding, including a~~ bottom fitted sheet ~~and top sheet or a blanket~~;

9. Prohibit the use of stacked cribs;

10. Ensure that an occupied crib with a crib side that does not have a non-porous barrier is placed at least 2 feet from another occupied crib side that does not have a non-porous barrier; and

11. Label each food container received from the parent with the infant's name.

B. A licensee providing child care services for infants shall not:

1. Allow an infant room to be used as a passageway to another area of the facility;

2. Permit an infant who is awake to remain for more than 30 consecutive minutes in a crib, swing, feeding chair, infant seat, or any equipment that confines movement;

3. Permit an infant to use a walker; ~~or~~

4. Allow screen time in an infant room~~.~~;

5. Shake an infant or child, or cause pediatric abusive head trauma

6. Permit an infant to sleep with other children; or

7. Permit an infant to sleep in a playpen, pack and play, car seat, stroller, swing, bouncer, high chair, or other equipment not intended for sleep purposes.

C. A licensee shall ensure that:

1. A staff member providing child care services in an infant room:

a. Plays and talks with each infant;

b. Holds and rocks each infant;

c. Responds immediately to each infant's distress signals;

d. Keeps dated and timed, daily, documentation of each infant including:

i. A description of any activities the infant participated in,

ii. The infant's food consumption,

iii. Diaper changes, and

iv. Tummy time;

e. Maintains the documentation in subsection (C)(1)(d) on facility premises for 12 months after the date on the documentation;

f. Provides a copy of the documentation in subsection (C)(1)(d) to the infant's parent upon request;

g. Does not allow bumper pads, pillows, comforters, sheepskins, stuffed toys, or other soft products in a crib when an infant is in the crib;

h. Cleans and sanitizes each crib and mattress used by an infant when soiled;

i. Changes, cleans, and sanitizes each crib sheet ~~and blanket~~ before use by another infant, when soiled, or at least once every 24 hours;

~~j. Cleans and sanitizes all sheets and blankets before use by another infant;~~

~~k.~~j. Places an infant to sleep on the infant's back, unless the infant's parent submits written instructions from the infant's health care provider that states otherwise;

~~l.~~k. Obtains written, current, signed, and dated dietary instructions from a parent or health care provider regarding the method of feeding and types of foods to be prepared or fed to an infant at the facility;

~~m.~~l. Posts the current written dietary instructions in the infant room and the kitchen and maintains the instructions on facility premises for 12 months after the date of the instructions; and

~~n.~~m. Follows the current written dietary instructions of a parent when feeding the infant;

2. A staff member providing child care services in an infant room does not:
   a. Place an infant directly on a waterproof mattress cover; or
   b. Place an infant to sleep using a positioning device that restricts movement, unless the infant's health care provider has instructed otherwise in writing;
3. When preparing, using, or caring for an infant's feeding bottles, a staff member:
   a. Labels each bottle received from the parent with the infant's name;
   b. Ensures that a bottle is not:
      i. Heated in a microwave oven;
      ii. Propped for an infant feeding; or
      iii. Permitted in an infant's crib unless the written instructions required by subsection (C)(1)(l) state otherwise;
   c. Empties and rinses bottles previously used by an infant; and
   d. Cleans and sanitizes a bottle, bottle cover, and nipple before reuse; and
4. When feeding an infant, a staff member:
   a. Provides an infant with food for growth and development that includes:
      i. Formula provided by the infant's parent or the licensee or breast milk provided by the infant's parent, following written instructions required by subsection (C)(1)(l); and
      ii. Cereal as requested by the infant's parent or health care provider;
   b. If the staff member prepares an infant's formula, prepares the infant's formula in a sanitary manner;
   c. Stores formula and breast milk in a sanitary manner at the facility;
   d. Does not mix cereal with formula and feed it to an infant from a bottle or infant feeder unless the written instructions required by subsection (C)(1)(l) state otherwise;
   e. Except for finger food, feeds solid food to an infant by spoon from an individual container;
   f. Uses a separate container and spoon for each infant;
   g. Holds and feeds an infant under 6 months of age and an infant older than 6 months of age who cannot hold a bottle for feeding; and
   h. If an infant is no longer being held for feeding, ~~seats~~ seat the infant in a feeding chair or at a table with a chair that allows the infant to reach the food while sitting.

R9-5-503. Standards for Children Needing Diaper Changing

A. A licensee shall ensure that each diaper changing area required in R9-5-601(4) contains:

1. A nonabsorbent, sanitizable diaper changing surface that is:
   a. Seamless and smooth, and
   b. Kept clear of items not required for diaper changing;
2. A hand-washing sink next to the diaper changing surface for staff use when changing diapers and for washing an enrolled child during or after diapering, that provides:
   a. Running water between 86° F and 110° F,
   b. Soap from a dispenser, and
   c. Single-use paper hand towels from a dispenser;
3. At least one waterproof, sanitizable container with a waterproof liner and a tight fitting lid for soiled diapers; and
4. At least one waterproof, sanitizable container with a waterproof liner and a tight fitting lid for soiled clothing.

B. A licensee shall ensure that a staff member does not:

1. Permit a bottle, formula, food, eating utensil, or food preparation in a diaper changing area;
2. Draw water for human consumption from a diaper changing area sink; or
3. ~~Except as provided in subsection (C), if responsible for food preparation, change~~ Change diapers until food preparation duties have been completed for the day.

~~**C.** A staff member who provides child care services to an infant:~~

~~1. May throughout the time the staff member provides child care services to the infant:~~

~~a. Change the infant's diaper, and~~

~~b. Prepare the infant's formula or cereal; and~~

~~2. Is prohibited from other food preparation after changing the infant's diaper.~~

~~D.~~C. A licensee shall ensure that a written diaper changing procedure is posted and implemented in each diaper changing area.

~~E.~~D. A licensee shall ensure that the written diaper changing procedure in ~~subsection (D)~~ subsection (C) states that an enrolled child's diaper is changed as soon as it is soiled, and that a staff member, when diapering:

1. Uses a separate wash cloth and towel only once for each enrolled child;
2. Washes and dries the enrolled child using the enrolled child's individual personal products labeled with the enrolled child's name;
3. Uses single-use non-porous gloves;
4. Washes the staff member's own hands with soap and running water between 86° F and 110° F before and after each diaper change;
5. Washes each enrolled child's hands with soap and running water between 86° F and 110° F after each diaper change;
6. Cleans, sanitizes, and dries the diaper changing surface following each diaper change; and
7. Uses single-use paper towels from a dispenser to dry the diaper changing surface or the hands of the enrolled child or staff member.

~~F.~~E. A licensee shall ensure that in an activity area with a diaper changing area:

1. The ~~containers~~ container required in ~~subsections~~ subsection (A)(3) and (4) are inaccessible, and
2. A staff member:
   a. Documents each diaper change with the date and time, for an:
      i. ~~For an infant~~ Infant, in the infant's dated, daily, documentation required in R9-5-502(C)(1)(d); or
      ii. ~~For an enrolled~~ Enrolled child who is not an infant, in a dated diaper changing log.
   b. Maintains the diaper changing log on facility premises for 12 months after the date of the diaper changing log;
   c. Empties clothing soiled with feces into a flush toilet without rinsing;
   d. Places an enrolled child's clothing soiled by feces or urine in a plastic bag labeled with the enrolled child's name, stores the clothing in a container used for this purpose, and sends the clothing home with the enrolled child's parent; and
   e. Removes disposable diapers and disposable training pants from a diaper changing area as needed or at least twice every 24 hours to a waste receptacle outside the facility building.

R9-5-504. Supplemental Standards for 1-year-old and 2-year-old Children

A. A licensee providing child care services for 1-year-old and 2-year-old children shall:

1. Ensure that a staff member does not permit a 1-year-old or 2-year-old enrolled child who is awake to spend more than 30 minutes of consecutive time in a crib, feeding chair, or other place of confinement;
2. Consult with each enrolled child's parent to develop ~~a plan for~~ an individual plan for toilet training of the enrolled child and ensure that a staff member does not force toilet training on any enrolled child;

3. Ensure that each activity area has a supply of age-appropriate toys, materials, and equipment that are too large for a child to swallow and free from sharp edges and points, in a quantity sufficient to meet the needs of the enrolled children in attendance including:
   a. Art supplies,
   b. Books,
   c. Rubber or soft plastic balls,
   d. Puzzles and toys to enhance manipulative skills,
   e. Blocks,
   f. Washable soft toys and dolls,
   g. Musical instruments, and
   h. Indoor and outdoor equipment to enhance large muscle development;
4. Prohibit screen time in an activity area where child care services are provided to a 1-year-old child; ~~and~~
5. Not permit a 1-year-old or 2-year-old enrolled child to sleep with other children;
6. Not permit a 1-year-old or 2-year-old enrolled child to sleep in a playpen, pack and play, car seat, stroller, swing, bouncer, high chair, or other equipment not intended for sleep purposes;
7. Not shake a child or cause pediatric abusive head trauma;
8. Use routine activities such as nap time, feeding, diapering, and toileting as opportunities for language development and other learning; and

~~5.~~9. Ensure that:
   a. If finger food is served, the food is of a size and texture that does not present a choking hazard;
   b. A staff member serves food to an enrolled child in a feeding chair or at a table with a chair that allows the enrolled child to reach the food while sitting;
   c. If a child is fed with a bottle, a staff member complies with the requirements in R9-5-502(C)(3); and
   d. If a parent brings a sippy cup for the parent's enrolled child, the sippy cup, as in a lidded drinking container that is designed to be leak proof or leak-resistant and from which a child drinks through a spout or straw, is labeled with the enrolled child's name.

R9-5-505. Supplemental Standards for 3-year-old, 4-year-old, and 5-year-old Children

A. A licensee providing child care services for 3-year-old, 4-year-old, and 5-year-old children shall provide a supply of age-appropriate toys, materials, and equipment accessible to enrolled children in each activity area in a quantity sufficient to meet the needs of the enrolled children in attendance including:
1. Art supplies,
2. Blocks,
3. Books and posters,
4. Toys and dress-up clothes,
5. Indoor and outdoor equipment to enhance large muscle development,
6. Puzzles and toys to enhance manipulative and categorization skills,
7. Science materials, and
8. Musical instruments.

B. If applicable, a licensee providing child care services for 3-year-old, 4-year-old, and 5-year-old children shall consult with each enrolled child's parent to develop an individual plan for individual toilet training of the enrolled child and ensure that a staff member does not force toilet training on any enrolled child.

R9-5-506. Supplemental Standards for School-age ~~Children~~ Out-of-School Time Programs

A. A licensee providing child care services for school-age children shall:

1. Ensure that a staff member supervises an enrolled school-age child to and from a bathroom and allows the enrolled child privacy while in the bathroom;
2. Ensure that if an enrolled child remains in the bathroom for more than three minutes, the supervising staff member checks on the enrolled child to ensure the child's safety;
3. Provide age-appropriate toys, materials, and equipment accessible to enrolled children ~~in each activity area~~ in a quantity sufficient to meet the needs of the enrolled children in attendance including:
   a. Arts and crafts,
   b. Games,
   c. Puzzles and toys to enhance manipulative skills,
   d. Books,
   e. Science materials,
   f. Sports equipment, and
   g. Outdoor play equipment; ~~and~~
4. Provide enrolled school-age children with a quiet study area~~.~~;
5. Ensure that if drinking water is not accessible in an indoor or outdoor activity area, drinking water is available to meet the individual needs of each enrolled school-aged child; and
6. Ensure that, when a parent permits, a staff member allows an enrolled school-age child to possess and use a topical sunscreen product without a note or prescription from a licensed health care professional.

B. A school-age out-of-school time program provider shall:

1. Operate after school, before school, or during a time when school is not in session;
2. Serve school-age children; and
3. Promote expanded childhood learning, enrichment, child and youth development, or educational, recreational, or character-building activities.

R9-5-507. Supplemental Standards for Children with a Special ~~Needs~~ Health Care Need or a Disability

A. A licensee providing child care services for a child with a special ~~needs~~ health care need or a disability shall:

1. Except as provided in subsection (A)(2), before a child with a special ~~needs~~ health care need or a disability receives child care services, obtain from the enrolled child's parent a copy of an existing individualized plan for the enrolled child that can be reviewed, adopted, and implemented by the licensee when providing child care services to the enrolled child that includes the following as needed for the enrolled child:
   a. Medication schedule;
   b. Nutrition and feeding instructions;
   c. Qualifications required of a staff member who feeds the enrolled child;
   d. Medical equipment or adaptive devices;
   e. Medical emergency instructions;
   f. Toileting and personal hygiene instructions;
   g. Specific child care services to be provided to the enrolled child at the facility;
   h. Information from health care providers, including the frequency and length of any prescribed medical treatment or therapy;
   i. Training required of a staff member to care for the enrolled child's a special ~~needs~~ health care need or a disability; and
   j. Participation in ~~fire and emergency evacuation~~ practice drills;
2. If an enrolled child with a special ~~needs~~ health care need or a disability does not have an existing individualized plan, obtain from the enrolled child's parent written instructions for providing services to the enrolled child until a written

individualized plan required in subsection (A)(1) is developed by a team consisting of staff members, the enrolled child's parent, and health care providers, if applicable, that is completed within 30 calendar days after the enrolled child's initial date of receiving child care services;

3. Maintain an enrolled child's current individualized plan on facility premises and if the current individualized plan was developed according to subsection (A)(2), provide a copy to the enrolled child's parent; and

4. Ensure the individualized plan is updated at least every 12 months after the date of the initial plan or as changes occur.

B. If an enrolled child with a special ~~needs~~ health care need or a disability who is 18 months of age or older and does not walk is placed in an infant group, a licensee may move the enrolled child after the enrolled child's parent and licensee determine that the proposed move is developmentally-appropriate.

C. A licensee shall ensure that:

1. When tube feeding an enrolled child, a staff member only uses:
   a. Commercially prepackaged formula in a ready-to-use state,
   b. Formula prepared by the enrolled child's parent and brought to the facility in an unbreakable container, or
   c. Breast milk brought to the facility in an unbreakable container; and
2. Only a staff member instructed by an enrolled child's parent or individual designated by the enrolled child's parent:
   a. Feeds the enrolled child using the enrolled child's tube-feeding apparatus, and
   b. Cleans the enrolled child's tube-feeding apparatus.

D. A licensee shall provide an enrolled child with a special ~~needs~~ health care need or a disability with:

1. Developmentally-appropriate toys, materials, and equipment; and
2. Assistance from staff members to enable the enrolled child to participate in the activities of the facility.

E. In addition to complying with the transportation requirements in R9-5-517, a licensee transporting an enrolled child with a special ~~needs~~ health care need or a disability in a wheelchair in a facility's motor vehicle shall ensure that the enrolled:

1. ~~The enrolled child's~~ Child's wheelchair is manufactured to be secured in a motor vehicle;
2. ~~The enrolled child's~~ Child's wheelchair is secured in the motor vehicle using a minimum of four anchorages attached to the motor vehicle floor, and four securement devices, such as straps or webbing that have buckles and fasteners, that attach the wheelchair to the anchorages;
3. ~~The enrolled child~~ Child is secured in the wheelchair by means of a wheelchair restraint that is a combination of pelvic and upper body belts intended to secure a passenger in a wheelchair; and
4. ~~The enrolled child's~~ Child's wheelchair is placed in a position in the motor vehicle that does not prevent access to the enrolled child in the wheelchair or passage to the front and rear ~~in~~ of the motor vehicle.

F. A licensee providing child care services for an enrolled child who uses a wheelchair or is not able to walk shall locate the enrolled child on the ground floor of the facility.

G. If a child care facility requires a separate diaper changing area to allow privacy while providing diapering to an enrolled child with a special ~~needs~~ health care need or a disability, the licensee shall submit a written request for approval of the intended change to the Department according to R9-5-208 prior to adding a diaper changing area.

R9-5-508. General Nutrition Standards

A. A licensee shall:

1. Make breakfast available to an enrolled child who is present at a facility before 8:00 a.m.,
2. Serve lunch to an enrolled child who is present at a facility between 11:00 a.m. through 1:00 p.m., and
3. Serve dinner to an enrolled child who is present from 5:00 p.m. through 7:00 p.m. and who will remain at the facility after 7:00 p.m.

B. A licensee shall serve the following meals or snacks to an enrolled child present at a facility ~~for the following periods of time~~ if an enrolled child is present:

1. ~~If an enrolled child is present~~ For two to four hours, one or more snacks;
2. ~~If an enrolled child is present during~~ During any of the meal times stated in subsection (A), a meal that meets the meal pattern requirements in subsection (C);
3. ~~If an enrolled child is present~~ For four to eight hours, one or more snacks and a meal;
4. ~~If an enrolled child is present~~ For nine or more hours, two snacks and one or more meals; and
5. Before bedtime, one snack.

C. If a licensee provides food, a licensee shall prepare and serve food according to the meal pattern requirements found in Table 5.1, "Meal Pattern Requirements for Children."

D. If an enrolled child's parent provides food for the parent's enrolled child, the licensee shall provide milk or juice to the enrolled child if not provided by the parent.

E. If a licensee plans and serves meals, the licensee shall ensure that the meals:

1. Meet the age-appropriate nutritional requirements of an enrolled child; and
2. For each calendar week, provide a variety of foods within each food group from the meal pattern requirements.

F. If a licensee provides food, the licensee shall maintain on the facility premises at least a one day supply of food needed to provide the meals and snacks required by subsections (B) and (C) to each enrolled child attending the facility.

G. In addition to the required daily servings of food stated in subsection (C), a licensee:

1. Shall make second servings of food available to each enrolled child at meals and at snack time,
2. May substitute a food that is equivalent to a specific food component if second servings of the specific food component are not available, and
3. Shall ensure that a food substitution in subsection (G)(2) is written on the posted weekly menu by the end of the meal or snack service.

Table 5.1 Meal Pattern Requirements for Children

TABLE OF MEAL PATTERN REQUIREMENTS FOR CHILDREN			
Food Components	Ages 1 through 2 years	Ages 3 through 5 years	Ages 6 and Older
Breakfast:			
1. Milk, fluid	1/2 cup	3/4 cup	1 cup
2. Vegetable, fruit, or both	1/4 cup	1/2 cup	1/2 cup
3. Grains	1/2 oz. eq[1]	1/2 oz. eq[1]	1 oz. eq[1]
Lunch or ~~Supper~~ Dinner:			
1. Milk, fluid	1/2 cup	3/4 cup	1 cup
2. Vegetables Fruits	1/8 cup 1/8 cup	1/4 cup 1/4 cup	1/2 cup 1/4 cup
3. Grains	1/2 oz. eq[1]	1/2 oz. eq[1]	1 oz. eq[1]
4. Meat or meat alternates	1 oz.	1 1/2 oz.	2 oz.
Snack: (select 2 of these 4 components)***			
1. Milk, fluid	1/2 cup	1/2 cup	1 cup
2. Vegetables Fruits	1/2 cup 1/2 cup	1/2 cup 1/2 cup	3/4 cup 3/4 cup
3. Grains	1/2 oz.	1/2 oz.	1 oz.
4. Meat or meat alternates	1/2 oz.	1/2 oz.	1 oz.

[1] Meat and meat alternates may be used to substitute the entire grains component a maximum of three times per week. Oz eq = ounce equivalents

* In the same meal service, dried beans or dried peas may be used as a meat alternate or as a vegetable; however, such use does not satisfy the requirement for both components.

** At lunch and ~~supper~~ dinner, no more than 50% of the requirement shall be met with nuts, seeds, or nut butters. Nuts, seeds, or nut butters shall be combined with another meat or meat alternative to fulfill the requirement. Two tablespoons of nut butter or one ounce of nuts or seeds equals one ounce of meat.

*** Juice may not be served when milk is served as the only other component.

R9-5-509. General Food Service and Food Handling Standards

A. A licensee that prepares food for enrolled children on facility premises shall, if required by 9 A.A.C. 8, Article 1, and the local ordinances of the local health department where the facility is located, obtain a food establishment permit issued under 9 A.A.C. 8, Article 1, and:

1. ~~Provide~~ Submit to the Department ~~with a copy~~ a written notice of the facility's food establishment permit before the Department issues a license to the facility,
2. Maintain the facility's current food establishment permit on the facility's premises, and
3. Provide a ~~copy~~ written notice of the facility's current food establishment permit to the Department upon request.

B. If a licensee contracts with a food establishment to prepare and deliver food to the facility, the licensee shall obtain and provide the Department with a copy of the food establishment's permit, issued under 9 A.A.C. 8, Article 1, at the following times:

1. Before the Department issues a license to the facility,
2. Upon contracting with the food establishment, and
3. Every 12 months after the date the contract is entered into while the contract is in effect.

C. A licensee shall ensure that:

1. Enrolled children, except infants and children with a special ~~needs~~ health care need or a disability who cannot wash their own hands, wash their hands with soap and running water before and after handling or eating food;
2. A staff member:
   a. Washes the hands of an infant or a child with a special ~~needs~~ health care need or a disability who cannot wash the child's own hands before and after the infant or child with a special ~~needs~~ health care need or a disability handles or eats food using:
      i. A washcloth,
      ii. A single-use paper towel, or
      iii. Soap and running water; and
   b. If using a washcloth, uses each washcloth on only one child and only one time before it is laundered or discarded;
3. An enrolled child is not permitted to eat food directly off the floor, carpet, or ground or with utensils placed directly on the floor, carpet, or ground;
4. A staff member encourages, but never forces, enrolled children to eat food;
5. A staff member assists each enrolled child who needs assistance with eating;
6. A staff member teaches self-feeding skills and habits of good nutrition to each enrolled child as necessary;
7. Lunch and dinner are family-style meals as demonstrated by at least one of the following:
   a. Food is served from a serving container on the table where enrolled children are seated;
   b. Enrolled children serve themselves, independently or with the help of a staff member, from a serving container on the table where enrolled children are seated;
   c. Enrolled children pass a serving container from individual to individual;
   d. In a facility where lunch or dinner is provided by the facility, a staff member sits at the table and eats the lunch or dinner with enrolled children; or
   e. In a facility where each enrolled child brings the enrolled child's own lunch or dinner, a staff member sits at the table with the enrolled children and eats the staff member's own lunch or dinner;
8. Fresh milk is served from the original, commercially filled container, to a container used for meal service or a cup, and unused portions are not returned to the original container;
9. Milk served to an enrolled child older than two years of age is fat-free or 1% lowfat milk unless the enrolled child's parent requests otherwise;
10. Reconstituted dry milk is not served to meet the fluid milk requirement;
11. Juice served to children for a meal or snack is full-strength 100% vegetable or 100% fruit juice from an original, commercially filled container or reconstituted from a concentrate according to manufacturer instructions;
12. Fruit juice served to an enrolled child is limited to the following amounts for an enrolled child:

a. ~~For an enrolled child younger~~ Younger than six years of age, four ounces per day; or

b. ~~For an enrolled child six~~ Six years of age or older, six ounces per day;

~~13.~~ ~~A beverage sweetened with any kind of sugar product is not provided by the facility;~~

~~14.~~13. Each staff member is informed of a modified diet prescribed for an enrolled child by the child's parent or health care provider, and the modified diet is posted in the kitchen and in the child's activity area;

~~15.~~14. The food served to an enrolled child is consistent with a modified diet prescribed for the child by the child's parent or health care provider;

~~16.~~15. An enrolled child is not permitted in the kitchen during food preparation or food service except as part of an activity;

~~17.~~16. An enrolled child does not use the kitchen or a food storage area as a passageway;

~~18.~~17. A staff member:

a. Prepares a weekly menu at least one week in advance,

b. Includes on the menu the specific foods to be served on each day,

c. Dates each menu,

d. Posts each menu at least one day before the first meal on the menu will be served, and

e. Writes food substitutions on a posted menu no later than the morning of the day of meal service;

~~19.~~18. Non-single-use utensils and equipment used in preparing, eating, or drinking food are:

a. After each use washed in:

i. ~~Washed in an~~ An automatic dishwasher and air dried or heat dried; or

ii. ~~Washed in hot~~ Hot soapy water, rinsed in clean water, sanitized, and air dried or heat dried; and

b. Stored in a clean area protected from contamination;

~~20.~~19. Single-use utensils and equipment are disposed of after being used;

~~21.~~20. Perishable foods, which are foods that become unfit for human consumption if not stored to prevent spoilage, are covered and stored in a refrigerator at a temperature of 41° F or below;

~~22.~~21. A refrigerator at the child care facility maintains a temperature of 41° F or below and a freezer maintains a temperature of 0° F or below, as shown by a thermometer kept in the refrigerator and in the freezer at all times;

~~23.~~ ~~A freezer at the child care facility maintains a temperature of 0° F or below, as shown by a thermometer kept in the freezer at all times; and~~

~~24.~~22. Foods are prepared as close as possible to serving time and, if prepared in advance, are either:

a. Cold held at a temperature of 45° F or below or hot held at a temperature of 130° F or above until served, or

b. Cold held at a temperature of 45° F or below and then reheated to a temperature of at least 165° F before being served.

R9-5-510. Positive Discipline and Guidance

~~A.~~ ~~A licensee shall ensure that a staff member:~~

~~1.~~ ~~Defines and maintains consistent and reasonable guidelines and limitations for an enrolled child's behavior;~~

~~2.~~ ~~Teaches, models, and encourages orderly conduct, personal control, and age-appropriate behavior;~~

~~3.~~ ~~Explains to an enrolled child why a particular behavior is not allowed, suggests an alternative, and assists the enrolled child to become engaged in an alternative activity; and~~

~~4.~~ ~~After determining that an enrolled child's behavior may result in harm to self or others, holds the enrolled child until the enrolled child regains control or composure.~~

A. A staff member shall provide guidance to help children respond to difficult situations. To develop self-regulation, children should receive adult support that is individual to the child and adapts as the child develops internal controls. This process should include:

1. Forming a positive relationship with the child, which occurs when the adult spends time talking to the child, listening to the child, following the child's lead, playing with the child, and responding to the child's needs;

2. Base expectations on the child's developmental level;

3. Establishing and being proactive in teaching and supporting children in learning simple rules;

4. Modifying the learning/play environment to support the child's appropriate behavior;

5. Creating a predictable daily routine and schedule;

6. Modeling desired behavior;

7. Showing children positive alternatives;

8. Using deliberate redirection, the staff member should encourage the child to use appropriate behavior, and provide positive feedback when the child exhibits the behavior;

9. Individualized positive discipline strategies based on the individual needs of children, such as using a buddy system, individualized schedule, special break, or another applicable positive discipline strategy; and

10. If applicable, a licensee shall develop a written plan with the enrolled child's parent to provide individualized social and emotional intervention supports for the enrolled child that includes methods for understanding the enrolled child's behavior, and developing, adopting, and implementing a team-based positive behavior support plan.

B. A licensee shall ensure that a staff member does not use or permit:

~~1. A method of discipline that could cause harm to the health, safety, or welfare of an enrolled child;~~

~~2. Corporal punishment;~~

~~3. Abusive language;~~

~~4. Discipline associated with:~~

~~a. Eating, napping, sleeping, or toileting;~~

~~b. Medication; or~~

~~c. Mechanical restraint; or~~

~~5. Discipline administered to any enrolled child by another enrolled child.~~

1. The use of physical punishment including:

a. Hitting, spanking, shaking, slapping, twisting, pulling, squeezing, or biting;

b. Demanding excessive physical exercise or excessive rest; and

c. Forcing a child to eat or consume soap, food, or foreign substances;

2. Any form of emotional abuse, including rejecting, extended ignoring, public or private humiliation;

3. Abusive, profane, sarcastic language, verbal abuse, threats, or derogatory remarks about the child or child's family;

4. Punishment associated with eating, resting, sleeping, toileting, and withholding outdoor play;

5. Using medication to control behavior or restrict freedom of movement unless it is prescribed by a health care provider;

6. Mechanical restraint to restrict a child's freedom of movement;

7. Placing a child in a crib, high chair, car seat, or other restrictive device for a time-out or to restrict a child's freedom of movement; and

8. Directing an enrolled child to punish another enrolled child.

C. A licensee may allow a staff member to separate an enrolled child from other enrolled children with continuous supervision ~~for unacceptable age-appropriate behavior~~.

1. ~~The separation period shall be for no longer than three minutes after the enrolled child has regained control or composure~~ Separation should only be used in combination with instructional approaches that teach children what to do in place of the behavior problem;

2. Separation may not be used for children ages infant to two-years-old;

3. A staff member may allow an enrolled child to be separated for no longer than three minutes. If the enrolled child has not regained control or composure after three minutes, a staff member may extend the separation for up to 10 minutes with staff member interaction.

~~2. A staff member shall not allow an enrolled child to be separated for longer than 10 minutes without the staff member interacting with the enrolled child.~~

D. A licensee shall not physically restrain an enrolled child, except when necessary to protect an enrolled child from physical injury, to protect persons on the premises from physical injury, or to protect property from damage.

1. When a child has an out-of-control behavior, the enrolled child may be removed from the company of other enrolled children until the enrolled child's behavior has stabilized. Removal of a child is only to be used when there is a safety concern that cannot be reduced or eliminated with reasonable accommodations;
2. After determining that an enrolled child's behavior may result in harm, a staff member may safely hold the child until the enrolled child regains control or composure; and
4. A licensee shall develop and implement written policies and procedures on physical restraint to protect children's safety and development.

R9-5-511. Sleeping and Napping

A. A licensee shall provide each enrolled child who naps or sleeps at the facility with a separate cot or mat or a crib that meets the requirements of R9-5-502(A)(8) and ensure that:

1. A cot, mat, or crib used by the enrolled child accommodates the enrolled child's height and weight;
2. A staff member covers each cot~~, crib mattress,~~ or mat with a clean sheet that is laundered when soiled, or at least once every seven days and before use by a different enrolled child;
3. A clean blanket or sheet is available for each enrolled child;
4. A rug, carpet, blanket, or towel is not used as a mat; ~~and~~
5. Each cot, mat, or crib is maintained in a clean and repaired condition~~.~~;
6. An infant is placed to sleep on the infant's back, unless the infant's parent submits written instructions from the infant's health care provider that states otherwise; and
7. An enrolled child sleeps alone with no other children.

B. A licensee shall not use bunk beds or waterbed mattresses.

C. A licensee shall provide an unobstructed passageway at least 18 inches wide between each row of cots or mats to allow a staff member access to each enrolled child.

D. A licensee shall ensure that if an enrolled child is present at the facility during evening and nighttime hours, the licensee:

1. Permits the enrolled child to use a mat only when used on top of a cot;
2. Before bathing the enrolled child at the facility, obtains written consent and bathing instructions from the enrolled child's parent and follows the instructions when bathing the enrolled child;
3. Requires that a staff member cleans and sanitizes a bathtub or shower stall after bathing each enrolled child;
4. Requires that a staff member remains awake while supervising the sleeping enrolled child; and
5. Prohibits the operation of a television set in a room where the enrolled child is sleeping.

E. A licensee shall ensure that if an enrolled child is present at the facility during naptime, the licensee:

1. Does not permit the enrolled child to lie in direct contact with the floor while napping,
2. Prohibits the operation of a television set in a room where the enrolled child is napping,
3. ~~Ensures naptime accommodations are available for the enrolled school-age child if requested by the enrolled child or the enrolled child's parent,~~
4.~~3.~~ Requires that a staff member remain awake while supervising the enrolled sleeping child, and
5.~~4.~~ Prohibits the enrolled child from napping in an attic or a loft during naptime.

F. A licensee shall ensure that storage space is provided in the facility for cots, mats, sheets, and blankets, that is:

1. Accessible to an area used for naptime or sleeping; and
2. Separate from food service and preparation areas, toilet rooms, and laundry rooms.

R9-5-514. Accident and Emergency Procedures

A. A licensee shall ensure that there is a first aid kit on facility premises that contains first aid supplies in a quantity sufficient to meet the needs of the enrolled children including the following:

1. Sterile bandages including:
   a. Adhesive bandages of assorted sizes,
   b. Sterile gauze pads, and
   c. Sterile gauze rolls;
2. Antiseptic solution or sealed antiseptic wipes;
3. A pair of scissors;
4. Adhesive or self-adhering tape;
5. Single-use, non-porous gloves; and
6. Reclosable plastic bags of at least one-gallon size.

B. A licensee shall ensure that the first aid kit required in subsection (A) is accessible to staff members but inaccessible to enrolled children.

C. A licensee shall:

1. Prepare and date a written fire and emergency plan that contains:
   a. The location of the first aid kit;
   b. The names of staff members who have ~~the~~ adult and pediatric first aid ~~training~~ and CPR certification, as required by R9-5-403(E);
   ~~c. The names of staff members who have the CPR training required by R9-5-403(E);~~
   ~~d.~~c. The directions for:
      i. Initiating verbal notification of an enrolled child's parent by telephone or other equally expeditious means within 30 minutes of a fire or emergency, and
      ii. Providing written notification to the enrolled child's parent within 24 hours, and
   ~~e.~~d. The facility's street address and the emergency telephone numbers for the local fire department, police department, ambulance service, and poison control center;
   e. The procedures for evacuation, relocation, shelter-in-place and lockdown, staff and volunteer emergency preparedness training and practice drills, communication and reunification with families, continuity of operations, and accommodation of infants, children with disabilities, and children with chronic medical conditions, as specified in R9-5-301;
2. Maintain the plan required in subsection (C)(1) in a location on facility premises that has an operable telephone service or two-way voice communication system that connects the facility with an individual who has direct access to an in-and-out operable telephone service;
3. Post the plan required in subsection (C)(1) in any indoor activity area that does not have an operable telephone service or two-way voice communication system that connects the indoor activity area with an individual who has direct access to an in-and-out operable telephone services; and
4. Update the plan in subsection (C)(1) every 12 months after the date of initial preparation of the plan or when any information changes.

D. The licensee shall consult with appropriate state and local authorities and shall establish and follow a written multi-hazard emergency and evacuation plan to protect children in the event of emergencies.

~~D.~~E. A licensee shall post, near an activity area or a room's designated exit, a building evacuation plan that details the designated exits from the activity area or room and the facility.

~~E.~~F. A licensee shall maintain and use a communication system that contains:

1. A direct-access, in-and-out, operating telephone service at the facility; or
2. A two-way voice communication system that connects the facility with an individual who has direct access to an in-and-out, operating telephone service.

~~F.~~**G.** If while attending a facility an enrolled child has an accident, injury, or emergency that, based on an evaluation by a staff member, requires medical treatment by a health care provider, a licensee shall ensure that a staff member:

1. Notifies the enrolled child's parent and the Department immediately after the accident, serious physical injury, as defined in A.R.S. § 8-201, or emergency;
2. Documents:
   a. A description of the accident, serious physical injury, or emergency, including the date, time, and location of the accident, serious physical injury, or emergency;
   b. The method used to notify the enrolled child's parent; and
   c. The time the enrolled child's parent was notified; and
3. Maintains documentation required in subsection (F)(2) on facility premises for 12 months after the date of the child's disenrollment.

~~G.~~**H.** If an enrolled child's parent informs a staff member at the facility that the enrolled child's parent obtained medical treatment from a health care provider for an accident, serious physical injury, or emergency the enrolled child had while attending the facility, a licensee shall ensure that a staff member:

1. Documents any information about the enrolled child's accident, serious physical injury, or emergency received from the enrolled child's parent; and
2. Maintains documentation required in subsection (G)(1) on facility premises for 12 months after the date of the child's disenrollment.

R9-5-515. Illness and Infestation

A. A licensee shall not permit an enrolled child to remain at the facility if a staff member determines that the enrolled child shows signs of illness or infestation.

B. If an enrolled child exhibits signs of illness or infestation at a facility, a licensee shall ensure that a staff member:

1. Immediately separates the enrolled child from other enrolled children,
2. Immediately notifies the enrolled child's parent by telephone or other expeditious means to arrange for the enrolled child's removal from the facility, and
3. Maintains documentation of the notification on facility premises for 12 months after the date of the notification.

C. A licensee shall ensure that a staff member who has signs of illness or infestation is excluded from a facility.

D. A facility director shall not permit a staff member to return to a facility until free from signs of illness or infestation or until the staff member provides documentation by a health care provider that the individual may return to the facility.

E. If a staff member or enrolled child contracts a communicable disease or infestation listed in 9 A.A.C. 6, Article 2, ~~Table 2~~ Table 2.2, a licensee shall ensure that, within 24 hours of notice of the communicable disease or infestation, written notice is provided to each staff member, parent, and the local health department.

F. A licensee shall ensure that:

1. A dated, written notice of the communicable disease or infestation is prepared and posted in the facility's entrance as required by R9-5-303;
2. Documentation of the notification is maintained on facility premises for 12 months from the date of the notification; and
3. Documentation of the absences of staff members and enrolled children due to a communicable disease or infestation listed in 9 A.A.C. 6, Article 2, ~~Table 2~~ Table 2.2, is prepared and maintained on facility premises for 12 months from the first date of absence.

R9-5-517. Transportation

A. A licensee who transports an enrolled child in a motor vehicle that the licensee owns, or acquires for use by contract, shall:

1. Obtain dated, written permission from the enrolled child's parent before the licensee transports the enrolled child;
2. Maintain written permission required in subsection (A)(1) on facility premises for 12 months after the date on the written permission;
3. Ensure that the motor vehicle is registered by the Arizona Department of Transportation as required by A.R.S. Title 28, Chapter 7;
4. Maintain documentation of current motor vehicle insurance coverage inside the motor vehicle;
5. Contact the Department no later than 24 hours after a motor vehicle accident that occurs while transporting an enrolled child;
6. Submit a written report to the Department within seven calendar days after a motor vehicle accident that occurs while transporting an enrolled child;
7. Not permit an enrolled child to be transported in a truck bed, camper, or trailer attached to a motor vehicle;
8. Use a child passenger restraint system, as required by A.R.S. § 28-907, for each enrolled child who is:
    a. Under eight years of age, and
    b. Not more than four feet nine inches tall.
9. Ensure that the motor vehicle has:
    a. A working mechanical heating system capable of maintaining a temperature throughout the motor vehicle of at least 60° F when outside air temperatures are below 60° F;
    b. Except as provided in subsection (E), a working air-conditioning system capable of maintaining a temperature throughout the motor vehicle at or below 86° F when outside air temperatures are above 86° F;
    c. Except as provided in subsection (F), a first aid kit that meets the requirements of R9-5-514(A);
    d. Two large, clean towels or blankets; and
    e. Sufficient drinking water available to meet the needs of each enrolled child in the motor vehicle and sufficient cups or other drinking receptacles so that each enrolled child can drink from a different cup or receptacle;
10. Ensure that the motor vehicle is:
    a. Maintained in a clean condition,
    b. In a mechanically safe condition, and
    c. Free from hazards; and
11. Maintain the service and repair records of the motor vehicle as follows:
    a. A person operating a single child care facility shall maintain the service and repair records for at least 12 months after the date of an inspection or repair in a single location on facility premises;
    b. A public or private school that uses a school bus, as defined in A.R.S. § 28-101, shall maintain the service and repair records for the school bus as provided in ~~A.A.C. R17-9-108(F)~~ A.A.C. R13-13-108; and
    c. A school governing board, charter school, or person operating multiple child care facilities shall maintain the service and repair records for any motor vehicle other than a school bus for at least 12 months after the date of an inspection or repair in a single administrative office located in the same city, town, or school attendance area as the facility.

B. A licensee shall ensure that an individual who drives a motor vehicle used to transport an enrolled child:

1. Is 18 years of age or older;
2. Holds a valid driver's license issued by the Arizona Department of Motor Vehicles as prescribed by A.R.S. Title 28, Chapter 8;

3. Carries a list stating the name of each enrolled child being transported and a copy of each enrolled child's Emergency, Information, and Immunization Record ~~card~~ including the attached immunization record or exemption affidavit, in the motor vehicle;
4. Requires that each door be locked before the motor vehicle is set in motion and keeps the doors locked while the motor vehicle is in motion;
5. Does not permit an enrolled child to be seated in front of a motor vehicle's air bag;
6. Requires that each enrolled child remain seated and entirely inside the motor vehicle while the motor vehicle is in motion;
7. Except as provided in subsection (E), requires that each enrolled child be secured in a seat belt before the motor vehicle is set in motion and while the motor vehicle is in motion;
8. Does not permit an enrolled child to open or close a door or window in the motor vehicle;
9. Sets the emergency parking brake and removes the ignition keys from the motor vehicle before exiting the motor vehicle;
10. Ensures that each enrolled child is loaded into or unloaded from the motor vehicle away from moving traffic at curbside or in a driveway, parking lot, or other location designated for this purpose; and
11. Does not use audio headphones or a telephone while the motor vehicle is in motion.

C. When transporting an enrolled school-age child in a motor vehicle, a licensee shall ensure that the staff-to-children ratios required in R9-5-404(A) are met. A motor vehicle driver may be counted in the staff-to-children ratio, when transporting an enrolled school-age child in a motor vehicle, if the motor vehicle driver meets the qualifications of a ~~teacher-caregiver~~ child educator.

D. When transporting an enrolled child who is not school-age in a motor vehicle, a licensee shall ensure that the staff-to-children ratios required in R9-5-404(A) are met. A motor vehicle driver may be counted in the staff-to-children ratio, when transporting an enrolled child who is not school-age in a motor vehicle, only if four or fewer enrolled children are being transported and the motor vehicle driver meets the qualifications of a ~~teacher-caregiver~~ child educator.

E. A licensee who is transporting an enrolled child in a commercial motor vehicle, as defined in A.R.S. § 28-1301, is exempt from the provisions in subsections (A)(9), (A)(10)(b), and (B)(7).

F. A licensee who is transporting an enrolled child in a school bus, as defined in A.R.S. § 28-101, is exempt from the provision in subsection (A)(10)(c) and shall comply with ~~A.A.C. R17-9-110~~ A.A.C. R13-13-107.

R9-5-518. Field Trips

A. A licensee providing a field trip for an enrolled child shall:

1. Obtain written permission from a parent before the enrolled child participates in a field trip including the:
   a. ~~The date~~ Date and description of the field trip;
   b. ~~The times~~ Times of departure from and return to the facility; and
   c. ~~The name~~ Name, street address, and telephone number, if any, of the field trip destination;
2. Prepare a written field trip plan including:
   a. The name of each participating enrolled child, staff member, and other individuals on the field trip;
   b. The times of departure from and return to the facility;
   c. If applicable, the license plate number of any motor vehicle used on the field trip; and
   d. The name, street address, and telephone number, if any, of the field trip destination; and
3. Maintain the written permission in subsection (A)(1) and written field trip plan in subsection (A)(2) on facility premises for 12 months after the date of the field trip.

B. A licensee shall ensure that a staff member taking enrolled children on a field trip carries the following on the field trip:

1. ~~A copy~~ Documentation of the Emergency, Information, and Immunization Record ~~card~~ including the attached immunization record or exemption affidavit, of each enrolled child participating in the field trip;

2. A copy of the written field trip plan required in subsection (A)(2);

3. A list stating the name of each participating enrolled child; and

4. Sufficient water to meet the needs of each enrolled child participating in the field trip.

C. A staff member shall verify the presence of each enrolled child and place a checkmark next to the enrolled child's name on the list required in subsection (B)(3) for each enrolled child who is present at the following times:

1. At the beginning of the field trip or when boarding the motor vehicle,

2. Upon arrival and each hour while at the field trip destination,

3. When preparing to leave the field trip destination or when boarding the motor vehicle to return to the facility, and

4. When reentering the facility at the conclusion of the field trip.

D. A licensee shall ensure that each enrolled child participating in a field trip is wearing in plain view a written identification stating the facility's name, address, and telephone number.

E. A licensee shall also ensure that each enrolled child is wearing out of view a written identification stating the enrolled child's name.

F. If a licensee uses a motor vehicle volunteered by a parent or other individual for a field trip, a licensee shall determine before the field trip begins that the motor vehicle is in compliance with R9-5-517(A)(3) and (4) and that the motor vehicle driver is in compliance with R9-5-517(B)(1) and (2).

G. When six or more enrolled children are participating in a field trip, a licensee shall ensure that a ~~teacher caregiver~~ child educator and at least one additional staff member are present on the field trip, including in each motor vehicle unless vehicles travel and remain together to and from the destination.

H. A licensee may use the written permission required in subsection (A) annually for multiple field trips to the same destination.

ARTICLE 6. PHYSICAL PLANT OF A FACILITY

R9-5-601. General Physical Plant Standards

A licensee shall comply with the following physical plant requirements, as applicable:

1. When a facility is licensed to care for more than five infants in an infant room as described in R9-5-502(A)(1), each infant room has two or more designated exits from the room;
2. Not including infants and children who use diapers, toilets and hand-washing sinks are available to enrolled children in a facility as follows:
   a. At least one flush toilet and one hand-washing sink for 10 or fewer children,
   b. At least two flush toilets and two hand-washing sinks for 11 to 25 children, and
   c. At least one flush toilet and one hand-washing sink for each additional 20 children;
3. A hand-washing sink required in R9-5-503(A)(2) or subsection (2) provides running water with a drain connected to a sanitary sewer as defined in A.R.S. § 45-101;
4. Except as provided in subsection (5), when providing child care services for infants or children who require diapering, a diaper changing area that meets the requirements in R9-5-503 is available in each infant room or indoor activity area used by an enrolled infant or child who wears diapers or disposable training pants;
5. A diaper changing area is not required in an activity area that is:
   a. Only used by enrolled children for snacks or meals,
   b. Used for a specific activity by enrolled children who are two years of age or older, or
   c. An indoor activity area that is being substituted for an outdoor activity area under R9-5-602(D); and
6. A glass mirror, window, or other glass surface that is located within 36 inches of the floor is made of safety glass that has been manufactured, fabricated, or treated to prevent the glass from shattering or flying when struck or broken, or is shielded by a barrier to prevent impact by or physical injury to an enrolled child.

R9-5-602. Facility Square Footage Requirements

A. A licensee shall ensure that the facility meets the following square footage requirements for indoor activity areas based on the child care services classifications:
   1. At least 35 square feet of indoor activity space for each infant and 1-year-old child;
   2. At least 25 square feet of indoor activity space for each child who is not an infant or a 1-year-old child; and
   3. When 1-year-old children are grouped together with children older than 1-year-old children in the same activity area, at least 35 square feet of indoor activity space for each child.

B. When computing indoor activity space for subsections (A)(1) through (3) to determine licensed capacity, the floor space occupied by the following shall be excluded:
   1. The interior walls;
   2. A kitchen, bathroom, closet, hallway, stair, entryway, office, a room designated for isolating an enrolled child from other children, storage rooms, and a room designated for the sole use of child care staff; and
   3. Room space occupied by ~~teacher-caregiver~~ desks, file cabinets, storage cabinets, and hand washing sinks ~~for staff use~~.

C. To provide activities that develop large muscles and an opportunity to participate in structured large muscle physical activities, a licensee shall:
   1. Provide at least 75 square feet of outdoor or indoor activity area per child for at least 50% of the facility's licensed capacity, or
   2. ~~Comply with one of the following:~~ If children are in care for less than four consecutive hours, the licensee is not required to have an outdoor activity space.
      ~~a. If no enrolled child attends the facility for more than four hours per day, provide at least 50 square feet of indoor activity area for each child, based on the facility's licensed capacity;~~

~~b. If no enrolled child attends the facility for more than six hours per day, provide at least 75 square feet of indoor activity area per child for at least 50% of the facility's licensed capacity in addition to the indoor activity area required in subsection (A); or~~

~~c. Provide at least 37.5 square feet of outdoor activity area and 37.5 square feet of indoor activity area per child for at least 50% of the facility's licensed capacity in addition to the indoor activity area required in subsection (A).~~

D. A licensee substituting indoor activity area for outdoor activity area shall~~:~~

~~1. Designate, on the site plan and the floor plan submitted with the license application or request for approval of an intended change, the indoor activity area that is being substituted for an outdoor activity area; and~~

~~2. In the indoor activity area substituted for outdoor activity area,~~ install and maintain a mat or pad designed to provide impact protection in the fall zone of indoor swings, slides, and climbing equipment.

~~**E.** An indoor activity area that is substituted for an outdoor activity area is not assigned a licensed capacity.~~

~~**F.** The Department shall review and approve or deny the request for exemption or substitution.~~

~~1. For a request that is part of a license application, the Department shall review the proposed exemption or substitution and provide written notice according to the procedures in R9-5-202.~~

~~2. For a licensed facility, within 30 calendar days after the date of the receipt of the request, the Department shall review the proposed exemption or substitution and provide written notice of the review to the licensee. If the proposed exemption or substitution:~~

~~a. Complies with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, the Department shall approve the proposed exemption or substitution; or~~

~~b. Does not comply with A.R.S. Title 36, Chapter 7.1, Article 1 or this Chapter, the Department shall provide the licensee with the requirements necessary to approve the requested exemption or substitution.~~

~~3. A licensee shall provide at least 75 square feet of outdoor activity area per child for 50% of the facility's licensed capacity, until the Department approves the exemption or substitution.~~

R9-5-603. Outdoor Activity Areas

A. Except as provided in subsection (B), a licensee shall not permit an enrolled child to cross a driveway or parking lot to access an outdoor activity area on the facility premises or a school campus unless the licensee obtains written approval from the Department.

~~**B.** If a licensee requests approval from the Department for enrolled children to cross a driveway or parking lot to access an outdoor activity area, the Department shall inspect the facility premises or school campus to determine whether the health, safety, or welfare of enrolled children would be endangered. The Department shall notify the licensee of approval or disapproval within 30 calendar days of receipt of the request. If disapproved, the Department shall provide the licensee with the requirements necessary to approve the proposed crossing.~~

~~**C.**~~**B.** Except as provided in subsection (D), a licensee shall ensure that an outdoor activity area:

1. Is enclosed by a fence:
   a. A minimum of 4 feet high,
   b. Secured to the ground, and
   c. With either vertical or horizontal open spaces on the fence or gate that do not exceed 4.0 inches;
2. Is maintained free from hazards, such as exposed concrete footings and broken toys; and
3. Has gates that are kept closed while an enrolled child is in the outdoor activity area.

~~**D.**~~**C.** A licensee shall ensure that a playground used only for enrolled ~~school age~~ school-age children at a facility operating at a public school meets the fencing requirements of the public school. If the Department determines by inspection that a facility fence at a

public school does not ensure the health, safety, or welfare of enrolled children, the licensee shall meet the fencing requirements of subsection (C).

~~E.~~**D.** A licensee shall ensure that the following is provided and maintained within the fall zones of swings and climbing equipment in an outdoor activity area:

1. A shock-absorbing unitary surfacing material manufactured for such use in outdoor activity areas; or
2. A minimum depth of 6 inches of a nonhazardous, resilient material such as fine loose sand or wood chips.

~~F.~~**E.** A licensee shall ensure that hard surfacing material such as asphalt or concrete is not installed or used under swings or climbing equipment unless used as a base for a rubber surfacing.

~~G.~~**F.** A licensee shall ensure that a swing or climbing equipment is not located in the fall zone of another swing or climbing equipment.

~~H.~~**G.** A licensee shall provide a shaded area for each enrolled child occupying an outdoor activity area at any time of day.

R9-5-604. Swimming Pools

A. If a licensee uses a public or semi-public swimming pool for an enrolled child, the swimming pool shall meet the requirements of the swimming pool ordinance enacted by the local government. If no ordinance has been adopted, the swimming pool shall meet the requirements in A.A.C. R9-8-801 through R9-8-813.

B. A licensee that uses a private pool for an enrolled child shall ensure that the swimming pool and its equipment meet the following requirements:

1. If a licensee uses a private pool that is a minimum of 2 feet in depth for enrolled children, the swimming pool shall meet the requirements of the swimming pool ordinance enacted by the local government and, at a minimum, be equipped with the following:
   a. A recirculation system consisting of piping, pumps, filters, and water conditioning and disinfecting equipment that conforms to the swimming pool manufacturer's specifications for installation and operation, and is adequate to clarify and disinfect the pool water continuously;
   b. Two swimming pool inlets located on opposite sides of the swimming pool to produce uniform circulation of water and maintain uniform chlorine residual throughout the entire swimming pool without the existence of dead spots;
   c. A drain located at the swimming pool's lowest point and covered by a grating that cannot be removed by bathers;
   d. A swimming pool water vacuum system in operating condition;
   e. A removable strainer to prevent hair, lint, or other objects from reaching the pump and filter;
   f. An automatic mechanical water disinfectant system in use and in operating condition. The disinfecting agents shall maintain the swimming pool water as follows:
      i. A free chlorine level between 1.0 and 3.0 parts per million as tested by the diethyl-p-phenylene diamine method or 0.4 to 1.0 parts per million when tested by the orthotolidine method;
      ii. A pH level between 7.0 and 8.0 as tested by the diethyl-p-phenylene diamine method or the orthotolidine method; or
      iii. A bromine level between 2.0 and 4.0 parts per million as tested by the diethyl-p-phenylene diamine method;
   g. A shepherd's crook; and
   h. A ring buoy attached to a 1/2 inch diameter rope at least 25 feet in length;
2. If a licensee uses a private pool that is less than 2 feet in depth for enrolled children, the swimming pool shall meet the requirements of subsection (B)(1) except that:
   a. The swimming pool shall have a minimum of one swimming pool inlet;
   b. The swimming pool is not required to have a bottom drain;

c. A pool water vacuum cleaning system is not required, and

d. A ring buoy with an attached rope is not required;

3. A portable pool that does not meet the requirements of subsection (B)(1) or (2) is prohibited;

4. On each day an enrolled child uses the swimming pool, a licensee shall test the water in the swimming pool at least once every day to verify that the swimming pool water meets the swimming pool water chemical ranges in subsection (B)(1)(f);

5. A licensee shall create a written swimming pool log ~~and~~ at the swimming pool site while enrolled children are using the swimming pool that includes results of tests required in subsection (B)(4) and maintain the written swimming pool log on facility premises for three months after the last date the swimming pool water was tested and documented.~~:~~

~~a. Document the results of tests required in subsection (B)(4) in the written swimming pool log;~~

~~b. Have the written swimming pool log at the swimming pool site while enrolled children are using the swimming pool; and~~

~~c. Maintain the written swimming pool log on facility premises for three months after the last date the swimming pool water was tested and documented; and~~

6. If the swimming pool water does not meet the swimming pool water chemical ranges in subsection (B)(1)(f), the licensee shall:

a. Add liquid or dissolved dry chemicals to the swimming pool water,

b. Document any actions taken by the licensee to restore the swimming pool water chemical ranges in the written swimming pool log required in subsection (B)(5)(a), and

c. Not allow enrolled children to use the swimming pool until tests of the swimming pool water verify that the swimming pool water meets the swimming pool water chemical ranges in subsection (B)(1)(f).

C. A licensee shall ensure that a public, semi-public, or private pool used by an enrolled child is enclosed by a wall, fence, or barrier that complies with:

1. The requirements of a swimming pool barrier ordinance adopted by the local government where the swimming pool is located; or

2. If the local government where the swimming pool is located has not adopted a swimming pool barrier ordinance, the requirements in A.R.S. § 36-1681.

D. A licensee that uses any semi-public or private swimming pool for enrolled children shall ensure that the swimming pool has been inspected by the Department or a city or county health department before it is used by enrolled children.

1. If a licensee operates or uses a swimming pool that is inspected by a city or county health department, the licensee shall provide the Department with a current written report of the swimming pool inspection.

2. A licensee shall maintain the current swimming pool inspection reports of a swimming pool used by enrolled children on the facility premises.

E. A licensee shall ensure that written permission is:

1. Obtained from an enrolled child's parent before allowing the enrolled child to participate in a swimming activity, and

2. Maintained on facility premises for 12 months after the date the enrolled child participated in the swimming activity.

R9-5-605. Fire and Safety

A. A licensee shall install and maintain a portable, pressurized fire extinguisher that meets, at a minimum, a 2A-10-BC rating of the Underwriters Laboratories in a facility's kitchen and any other location required by Standard 10-1 of the International Fire Code, incorporated by reference in ~~A.A.C. R9-1-412~~ A.A.C. R9-10-104.01.

B. A licensee shall ensure that:

1. All designated exits, corridors, and passageways that provide an escape from the building are unobstructed and unlocked during hours of operation;

2. Combustible material, such as paper, boxes, or rags, is not permitted to accumulate inside or outside the facility premises;
3. An unvented or open-flame space heater or portable heater is not used on the facility premises;
4. A gas valve on an unused gas outlet is removed and capped where it emerges from the wall or floor;
5. Electrical extension cords are not used;
6. Except for a room used only for an enrolled school-age child, each unused electrical outlet is covered with a safety plug cover or insert;
7. Slow cookers and hot plates are used only in a kitchen and are inaccessible to an enrolled child;
8. Heating and cooling equipment is inaccessible to an enrolled child;
9. Fans are mounted and inaccessible to an enrolled child;
10. Toilet rooms are ventilated to the outside of the building, either by a screened window open to the outside air or by an exhaust fan and duct system that is operated when the toilet room is in use;
11. A toilet room with a door that opens to the exterior of a building is equipped with a self-closing device that keeps the door closed except when an individual is entering or exiting;
12. A toilet room door does not open into a kitchen;
13. A smoke detector is installed in each indoor activity area and kitchen;
14. Each smoke detector required in subsection (B)(13) is:
    a. Maintained in an operable condition;
    b. Either battery operated or, if hard wired into the electrical system of the child care facility, has a back-up battery; and
    c. Tested monthly;
15. If the local fire jurisdiction requires a sprinkler system, the sprinkler system is:
    a. Installed,
    b. Operable,
    c. Tested quarterly, and
    d. Serviced at least once every 12 months;
16. The fire extinguisher required in subsection (A):
    a. Is serviced at least once every 12 months~~.~~; and
    b. Has a tag attached to the fire extinguisher that specifies the date of the last servicing ~~and the identification of the person who serviced the fire extinguisher;~~ and
17. The testing required in subsections (B)(14) and (15) and servicing required in subsection (B)(16) is documented and the documentation is:
    a. Maintained by the licensee, and
    b. Available for at least 12 months after the date of the testing or servicing.

Article 7. School-age Out-of-School Time Programs

R9-5-701. Definitions

In addition to the definitions in A.R.S. § 36-881, the following definitions apply in this Article unless otherwise specified:

1. "Abuse" has the same meaning as in A.R.S. § 8-201.
2. "Accident" means an unexpected occurrence that:
    a. Causes injury to an enrolled child,
    b. Requires attention from a staff member, and
    c. May or may not be an emergency.
3. "Accommodation school" has the same meaning as in A.R.S. § 15-101.

4. "Accredited" means approved by the US Department of Education and recognized by the Council for Higher Education Accreditation.
5. "Activity" means an action planned by a licensee and performed by an enrolled child while supervised by a staff member.
6. "Activity area" means a specific indoor or outdoor space or room of a licensed facility that is designated by a licensee for use by an enrolled child for an activity.
7. "Adaptive device" means equipment used to augment an individual's use of the individual's arms, legs, sight, hearing, or other physical part or function.
8. "Administrative completeness review time-frame" has the same meaning as in A.R.S. § 41-1072.
9. "Adult" means an individual who is at least 18 years of age.
10. "Age-appropriate" means suitable with the developmental and social maturity of the child's age based on physical growth, language, emotional, social, behavioral and cognitive development.
11. "Agency" means any board, commission, department, office, or other administrative unit of the federal government, the state, or a political subdivision of the state.
12. "Applicant" means a person or governmental agency requesting one of the following:
    a. A license, or
    b. Approval of a change affecting a license under R9-5-208.
13. "Application" means the documents that an applicant is required to electronically submit to the Department for licensure or approval of a request for a change affecting a license.
14. "Assistant child educator" means a staff member who aids a child educator in planning, developing, or conducting child care activities.
15. "Association" means a group of individuals other than a corporation, limited liability company, partnership, joint venture, or public school who has established a governing board and bylaws to operate a facility.
16. "Background check" means results identified in searches according to A.R.S.§ 46-811(A) and consistent with the Child Care and Development Block Grant Act of 2014 (Public Law 113-186):
    a. The state sex offender registry within this state and each state where a staff member resided during the preceding five years;
    b. The state-based child abuse and neglect registries and databases within this state and each state where a staff member resided during the preceding five years;
    c. The state criminal history checks within this state and each state where a staff member resided during the preceding five years;
    d. The National FBI criminal history check, with FBI fingerprint check; and
    e. The National Crime Information Center including the National Sex Offender Registry established under the Adam Walsh Child Protection and Safety Act of 2006 (42 A.S.C. 16901 et seq).
17. "Beverage" means a liquid for drinking, including water.
18. "Business organization" has the same meaning as "entity" in A.R.S. § 10-140.
19. "Calendar day" means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, or legal holiday.
20. "Calendar week" means a seven-day period beginning on Sunday at 12:00 a.m. and ending on Saturday at 11:59 p.m.
21. "C.C.P." means Certified Childcare Professional, a credential awarded by the National Early Childhood Program Accreditation.
22. "C.D.A." means Child Development Associate, a credential awarded by the Council for Professional Recognition.

23. "Charter school" has the same meaning as in A.R.S. § 15-101.
24. "Child care experience" means an individual's documented work with children in:
    a. A child care facility or a child care group home that was licensed, certified, or approved by a state in the United States or by one of the Uniformed Services of the United States;
    b. A public school, a charter school, a private school, or an accommodation school;
    c. A public or private educational institution authorized under the laws of another state where instruction was provided for any grade or combination of grades between pre-kindergarten and grade 12; or
    d. One of the following professional fields:
        i. Nursing,
        ii. Social work,
        iii. Psychology,
        iv. Child development, or
        v. A closely-related field.
25. "Child care services" means the range of activities and programs provided by a licensee to an enrolled child, including personal care, supervision, education, guidance, and transportation.
26. "Child educator" means a staff member responsible for developing, planning, and conducting child care activities.
27. "Child educator aide" means a staff member who provides child care services under the supervision of a child educator.
28. "Child with a disability" means the same as
    a. A child with a "developmental disability" as defined in A.R.S. § 36-551; or
    b. A "child with a disability" as defined in A.R.S. § 15-761.
29. "Child with a special health care need" means a child with a health care provider's diagnosis and record of a physical or mental condition that substantially limits the child in providing self-care or performing manual tasks or any other major life function such as walking, seeing, hearing, speaking, breathing, or learning.
30. "Clean" means to remove dirt or debris by methods such as washing with soap and water, vacuuming, wiping, dusting, or sweeping.
31. "Closely-related field" means any educational instruction or occupational experience pertaining to the growth, development, physical or mental care, or education of children.
32. "Communicable disease" has the same meaning as in A.A.C. R9-6-101.
33. "Compensation" means money or other consideration, including goods, services, vouchers, time, government or public expenditures, government or public funding, or another benefit, that is received as payment.
34. "CPR" means cardiopulmonary resuscitation.
35. "Credit hour" means an academic unit earned at an accredited college or university:
    a. By attending a class session, which is equivalent to 15 clock hours, each calendar week during a semester or equivalent shorter course term, or
    b. Completing practical work for a course as determined by the accredited college or university.
36. "Designated agent" means an individual who meets the requirements in A.R.S. § 36-889(D).
37. "Developmentally-appropriate" means consistent with a child's physical, emotional, social, cultural, linguistic, and cognitive development, based on the child's age and family background and the child's personality, learning style, and pattern and timing of growth.
38. "Documentation" means information in written, photographic, electronic, or other permanent form.
39. "Electronic signature" has the same meaning as in A.R.S. § 41-251.
40. "Emergency" means a potentially life-threatening occurrence involving an enrolled child or staff member that requires an immediate response or medical treatment.

41. "Endanger" means to expose an individual to a situation where physical injury or mental injury to the individual may occur.
42. "Enrolled" means placed by a parent and accepted by a licensee for child care services.
43. "Evening and nighttime care" means child care services provided between the hours of 8:00 p.m. and 5:00 a.m.
44. "Facility" has the same meaning as "child care facility" in A.R.S. § 36-881.
45. "Facility director" means an individual who is designated by a licensee as the individual responsible for the daily onsite operation of a facility.
46. "Facility premises" means property that is:
    a. Designated on an application for a license by the applicant; and
    b. Licensed for child care services by the Department under A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter.
47. "Fall zone" means the surface under and around a piece of equipment onto which a child falling from or exiting from the equipment would be expected to land.
48. "Field trip" means an activity planned by a staff member for an enrolled child at a:
    a. Location or area that is not licensed for child care services by the Department, or
    b. Child care facility in which the child is not enrolled.
49. "Final construction drawings" means facility plans that include the architectural, structural, mechanical, electrical, fire protection, plumbing, and technical specifications of the physical plant and the facility premises and that have been approved by the local government for the construction, alteration, or addition of a facility.
50. "Food" means a raw, cooked, or processed edible substance, ice, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption, or chewing gum.
51. "Food preparation" means processing food for human consumption by cooking or assembling the food, but does not include distributing prepackaged food or whole fruits or vegetables.
52. "Full-day care" means child care services provided for six or more hours per day between the hours of 5:00 a.m. and 8:00 p.m.
53. "Governmental agency" has the same meaning as in A.R.S. § 44-7002.
54. "Guidance" means the ongoing direction, counseling, teaching, or modeling of generally accepted social behavior through which a child learns to develop and maintain the self-regulation, self-reliance, and self-esteem necessary to assume responsibilities, make daily living decisions, and live according to generally accepted social behavior.
55. "Hazard" means a source of endangerment.
56. "Health care provider" means a physician, physician assistant, or registered nurse practitioner.
57. "High school equivalency diploma" means a document issued by:
    a. The State Board of Education under A.R.S. § 15-702 to an individual who passes a general educational development test or meets the requirements of A.R.S. § 15-702(B);
    b. Another state to an individual who passes a general educational development test or meets the requirements of a state statute equivalent to A.R.S. § 15-702(B); or
    c. Another country to an individual who has completed that country's equivalent of a 12th grade education, as determined by the Department based upon information obtained from American or foreign consulates or embassies or other governmental agencies.
58. "Hours of operation" means the specific time during a day for which a licensee is licensed to provide child care services.
59. "Illness" means physical manifestation or signs of sickness, such as pain, vomiting, rash, fever, discharge, or diarrhea.
60. "Immediate" or "immediately" means without restriction, delay, or hesitation.

61. "Inaccessible" means:
    a. Out of an enrolled child's reach, or
    b. Locked.
62. "Individual plan" means a written description of the daily activities required for an enrolled child with a special health care need or disability.
63. "Infestation" means the presence of lice, pinworms, scabies, or other parasites.
64. "Inspection" means:
    a. Examination of a facility by the Department to determine compliance with A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter;
    b. Review of facility documents, records, or reports by the Department; or
    c. Examination of a facility by a local governmental agency.
65. "License" means the written authorization issued by the Department to operate a facility in Arizona.
66. "Licensed capacity" means the maximum number of enrolled children for whom a licensee is authorized by the Department to provide child care services in a facility or a part of a facility at any given time.
67. "Licensee" means a person or governmental agency to whom the Department has issued a license to operate a facility in Arizona.
68. "Local" means under the jurisdiction of a city or county in Arizona.
69. "Mat" means a foam pad that has a waterproof cover and is of sufficient size and thickness to accommodate the height, width, and weight of a reclining child's body.
70. "Medication" means a substance prescribed by a health care provider or available without a prescription for the treatment or prevention of illness or infestation.
71. "Menu" means:
    a. A written description of the food that a facility provides and serves as a meal or snack, or
    b. The combination of food that a facility provides and serves as a meal or snack.
72. "Modification" means the substantial improvement, enlargement, reduction, alternation, or other substantial change in the facility or another structure on the premises at a child care facility.
73. "Motor vehicle" has the same meaning as in A.R.S. § 28-101.
74. "N.A.C." means the National Administrator Credential, a credential issued by the National Institute of Child Care Management.
75. "Name" means, for an individual, the individual's first name and the individual's last name.
76. "Neglect" has the same meaning as in A.R.S. § 8-201.
77. "Outbreak" has the same meaning as in A.A.C. R9-6-101.
78. "Out-of-school time" means a program, as described in Article 7 of this Chapter, that is licensed with the Department and operates when school is not in session, such as before school, after school, or during school breaks, and serves school-aged children enrolled in school.
79. "Overall time-frame" has the same meaning as in A.R.S. § 41-1072.
80. "Parent" means:
    a. A natural or adoptive mother or father,
    b. A legal guardian appointed by a court of competent jurisdiction, or
    c. A "custodian" as defined in A.R.S. § 8-201.
81. "Part-day care" means child care services provided for fewer than six hours per day between the hours of 5:00 a.m. and 8:00 p.m.

82. "Pediatric abusive head trauma" means an injury to the skull or intracranial contents of an infant or a child due to inflicted blunt impact and/or violent shaking.
83. "Pesticide" has the same meaning as in A.R.S. § 3-3601.
84. "Physical injury" means temporary or permanent damage or impairment to a child's body.
85. "Physical plant" means a building that houses a facility, or the licensed areas within a building that houses a facility, including the architectural, structural, mechanical, electrical, plumbing, and fire protection elements of the building.
86. "Physical restraint" means a restriction that immobilizes or prevents freedom of movement of all or part of a person's body, or restricting normal access to the person's body.
87. "Physician" means an individual licensed as a doctor of:
    a. Allopathic medicine under A.R.S. Title 32, Chapter 13;
    b. Naturopathic medicine under A.R.S. Title 32, Chapter 14;
    c. Osteopathic medicine under A.R.S. Title 32, Chapter 17;
    d. Homeopathic medicine under A.R.S. Title 32, Chapter 29; or
    e. Allopathic, naturopathic, osteopathic, or homeopathic medicine under the law of another state.
88. "Physician assistant" means an individual who is licensed:
    a. Under A.R.S. Title 32, Chapter 25; or
    b. As a physician assistant under the law of another state.
89. "Positive Discipline" means the on-going process of teaching a child self-regulation and assuming responsibility for the child's own actions, as well as providing guidance that focuses on preventing behavior problems by supporting children in learning appropriate social skills and emotional responses.
90. "Private pool" has the same meaning as "private residential swimming pool" in A.A.C. R18-5-201.
91. "Private school" has the same meaning as in A.R.S. § 15-101.
92. "Program" means a variety of activities organized and conducted by a staff member.
93. "Public pool" has the same meaning as "public swimming pool" in A.A.C. R18-5-201.
94. "Public school" has the same meaning in A.R.S. § 15-101.
95. "Punishment" means a negative physical or emotional action taken by adults in the classroom for a child's behavior that is not deemed acceptable.
96. "Regular basis" means at recurring, fixed, or uniform intervals.
97. "Responsible party" means an individual or a group of individuals who:
    a. Is assigned by a public school, charter school, or governmental agency; and
    b. Has general oversight of the child care facility.
98. "Sanitize" means to use heat, chemical agents, or germicidal solutions to disinfect and reduce pathogen counts, including bacteria, viruses, mold, and fungi.
99. "School-age child" means a child who:
    a. Meets one of the following:
        i. Is five years old on or before January 1 of the current school year, or
        ii. Is five years old on or before January 1 of the most recent school year; and
    b. Meets one of the following:
        i. Attends kindergarten or a higher level program in a public, charter, accommodation, or private school during the current school year;
        ii. Attended kindergarten or a higher level program in a public, charter, accommodation, or private school during the most recent school year;
        iii. Is home-schooled at a kindergarten or higher level during the current school year; or

iv. Was home-schooled at a kindergarten or higher level during the most recent school year.

100. "School-age child care" means child care services provided to a school-age child.

101. "School campus" means the contiguous grounds of a public, charter, accommodation, or private school, including the buildings, structures, and outdoor areas available for use by children attending the school.

102. "School governing board" has the same meaning as "governing board" in A.R.S. § 15-101.

103. "Screen time" means the use of electronic media to watch television or to watch a video at the facility or at another location or the use of electronic media or a computer for game-playing, entertainment, communication, or educational purposes.

104. "Semi-public pool" has the same meaning as "semipublic swimming pool" in A.A.C. R18-5-201.

105. "Separation" means removing an enrolled child from a group setting when the enrolled child needs support to gain control of them self under the supervision of a familiar and supportive adult until the enrolled child has regained regulation.

106. "Serious physical injury" has the same meaning as in A.R.S. § 8-201.

107. "Service classification" means one of the following:

a. Full-day care;

b. Part-day care;

c. Evening and nighttime care;

d. School-age child care; or

e. Weekend care.

108. "Signatory" means an individual who is authorized by a school district governing board, school district superintendent, or governmental agency to sign a document on behalf of the school district governing board, school district superintendent, or governmental agency.

109. "Signed" means affixed with an individual's signature or with a symbol representing an individual's signature if the individual is unable to write the individual's name.

110. "Space utilization" means the designated use of an area within a facility for specific child care services or activities.

111. "Staff" or "staff member" means the same as "child care personnel" as defined in A.R.S. § 36-883.02.

112. "Student-aide" means an individual between 15 and 18 years of age who is participating in an educational, curriculum-based course of study; vocational education; or occupational development program and who, without being compensated by a licensee, is present at a facility to receive instruction from and supervision by staff in the provision of child care services.

113. "Substantive review time-frame" has the same meaning as in A.R.S. § 41-1072.

114. "Supervision" means:

a. For an enrolled school-age child, as defined in R9-5-101(98), knowledge of and accountability for the actions and whereabouts of the enrolled child, including the ability to see or hear the enrolled child at all times, to interact with the enrolled child, and to provide guidance to the enrolled child; or

b. For an individual other than an enrolled child, knowledge of and accountability for the actions and whereabouts of the individual, including the ability to see and hear the individual when the individual is in the presence of an enrolled child and the ability to intervene in the individual's actions to prevent harm to enrolled children.

115. "Swimming pool" has the same meaning as in A.A.C. R18-5-201.

116. "Training" means child care-related conferences, seminars, lectures, workshops, classes, courses, or instruction.

117. "Volunteer" means a staff member who, without compensation, provides child care services that are the responsibility of a licensee.

118. "Working day" means a Monday, Tuesday, Wednesday, Thursday, or Friday that is not a state holiday, federal holiday, or a statewide furlough day.

119. "Written notice" means a message in written, typed, or printed characters sent or otherwise proved to have been received.

R9-5-702. Designated Person for Applicant or Licensee Requirements

When an applicant or licensee is required by this Chapter to provide information on or sign documents, and possess a fingerprint clearance card, the following shall satisfy the requirement on behalf of the applicant or licensee, if the applicant or licensee is:

1. An individual, the individual;
2. A business organization, a designated agent who meets the requirements in A.R.S. § 36-889(D);
3. A public school, an individual designated in writing as a signatory for the public school by the school district governing board or school district superintendent;
4. A charter school, the person approved to operate the charter school by the school district governing board, the Arizona State Board of Education, or the Arizona State Board for Charter Schools; and
5. A governmental agency, the individual in the senior leadership position with the agency, or an individual designated in writing as a signatory by that individual.

R9-5-703. Application for a License

A. An applicant for a license shall:

1. Be at least 21 years of age;
2. If an individual, be a U.S. citizen or legal resident alien and a resident of Arizona;
3. If a corporation, association, or limited liability company, be a domestic entity or a foreign entity qualified to do business in Arizona;
4. If a partnership, have at least one partner who is a U.S. citizen or legal resident alien and a resident of Arizona;
5. Submit to the Department an application containing:
    a. The following information in a Department-provided format:
        i. The applicant's name;
        ii. The applicant's date of birth;
        iii. The facility's name, street address, city, state, zip code, mailing address, and telephone number;
        iv. The requested service classifications;
        v. Whether the applicant agrees to allow the Department to submit supplemental requests for information;
        vi. An attestation that the:
            (1) Applicant has read and will comply with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter; and
            (2) Information provided on the application is accurate and complete; and
        vii. The applicant's signature and date of signature;
    b. Documentation for the applicant that complies with A.R.S. § 41-1080; and
    c. A copy of the applicant's valid fingerprint clearance card, both front and back, issued according to A.R.S. Title 41, Chapter 12, Article 3.1;
    d. A copy of the applicant's valid background check document according to A.R.S. § 46-811(A);
    e. A copy of the form required in A.R.S. § 36-883.02(C);
    f. Except as provided in subsection (A)(5)(j), a site plan of the facility drawn to scale by an architect, draftsman, or contractor showing:
        i. The boundary square footage of the property upon which the facility's physical plant is located;

ii. If more than one building is used for the facility, the location and perimeter square footage of each building;

iii. The location of each driveway on the property;

iv. The location and boundary square footage of each parking lot on the property;

v. The location and perimeter square footage of each outdoor activity area;

vi. The location, type, and height of each fence and gate; and

vii. If applicable, the location of any swimming pool on the property;

g. Except as provided in subsection (A)(5)(j), a floor plan of each building to be used for child care services drawn to scale by an architect, draftsman, or contractor showing:

i. The length and width square footage for each indoor activity area;

ii. The requested licensed capacity and applicable service classification for each indoor activity area;

iii. The location of each diaper changing area;

iv. The location of each hand washing, utility, and three-compartment sink, toilet, urinal, and drinking fountain; and

v. The location and type of fire alarm system;

h. Except as provided in subsection (A)(5)(j):

i. A copy of a certificate of occupancy issued for the facility by the local jurisdiction;

ii. Documentation from the local jurisdiction that the facility was approved for occupancy; or

iii. If the documents in subsections (A)(5)(i)(i) and (ii) are not available, a statement from the local jurisdiction stating that the certificate of occupancy is not available;

i. For an applicant providing child care services in a facility located in a public school, a set of final construction drawings or a school map showing the:

i. Location of each school building;

ii. Location and square footage of each outdoor activity area to be used by enrolled children;

iii. Length and width square footage for each indoor activity area;

iv. Requested licensed capacity and applicable service classification for each indoor activity area; and

v. Location of each hand-washing sink, toilet, urinal, drinking fountain, and, if applicable, diaper changing area to be used by enrolled children;

j. If the facility is located within one-fourth of a mile of agricultural land:

i. The names and addresses of the owners or lessees of each parcel of agricultural land located within one-fourth mile of the facility, and

ii. An attestation signed and dated by the applicant agreeing with compliance of A.R.S. § 36-882 for each parcel of agricultural land;

k. The applicable fee in R9-5-206;

l. If the applicant is a business organization, a form provided by the Department that contains:

i. The name, street address, city, state, and zip code of the business organization;

ii. The type of business organization;

iii. The name, date of birth, title, street address, city, state, and zip code of each controlling person;

iv. Documentation of the business organization's articles of incorporation, articles of organization, partnership documents, or joint venture documents, if applicable;

v. Documentation of good standing issued by the Arizona Corporation Commission; and

vi. A statement signed by the applicant stating that each controlling person has not:

(1) Been denied a certificate or license to operate a child care group home or child care

facility in this state or another state, and

(2) Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children;

m. If the applicant is a public school, a form provided by the Department that contains:

i. The name of the school district;

ii. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

iii. A statement signed by the applicant stating that each individual in subsection (A)(5)(n)(ii) has not:

(1) Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iv. A letter from the school district governing board or school district superintendent designating a signatory, if applicable;

n. If the applicant is a charter school, a form provided by the Department that contains:

i. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

ii. A statement signed by the applicant stating that each individual in subsection (A)(5)(o)(i) has not:

(1) Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iii. A letter from the school district governing board in which the charter school is located, the Arizona State Board of Education, or the Arizona State Board for Charter Schools, approving the applicant to operate the charter school; and

o. If the applicant is a governmental agency, a form provided by the Department that contains:

i. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

ii. A statement signed by the applicant stating that each individual in subsection (A)(5)(p)(i) has not:

(1) Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iii. A letter from the individual in the senior leadership position with the agency designating a signatory.

B. The Department requires a separate license and a separate application for each facility owned by:

1. The same person at a different location, and

2. A different person at the same location.

C. The Department does not require a separate application and license for a structure that is:

1. Located so that the structure and the facility:
   a. Share the same street address, or
   b. Can be enclosed by a single unbroken boundary line that does not encompass property owned or leased by another,
2. Under the same ownership as the facility, or
3. Intended to be used as a part of the facility.

D. A licensee shall provide written notice to the Department that the licensed facility is no longer operating and requests to void the license.

R9-5-704. Time-frames

A. The administrative completeness review time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1 and begins on the date that the Department receives an application.

1. An application for a license is not complete until the date, provided to the Department with the application or by written notice, that the child care facility is ready for an onsite licensing inspection.
2. The Department shall send a notice of administrative completeness or deficiencies to the applicant within the administrative completeness review time-frame.
   a. A notice of deficiencies shall list each deficiency and the items needed to complete the application.
   b. The administrative completeness review time-frame and the overall time-frame are suspended from the date that the notice of deficiencies is issued until the date that the Department receives all of the missing items from the applicant.
   c. If an applicant for a license or an approval of a change affecting a license fails to submit to the Department all of the items listed in the notice of deficiencies within 180 calendar days after the date that the Department sent the notice of deficiencies, the Department shall consider the application or request for approval withdrawn.
3. If the Department issues a license or other approval to the applicant during the administrative completeness review time-frame, the Department shall not issue a separate written notice of administrative completeness.

B. The substantive review time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1 and begins on the date of the notice of administrative completeness.

1. As part of the substantive review for a license application, the Department shall conduct an inspection that may require more than one visit to the facility.
2. As part of the substantive review for a request for approval of a change affecting a license that requires a change in the use of physical space at the facility, the Department shall conduct an evaluation of the request to determine compliance with applicable rules and statutes that may include an onsite inspection.
3. The Department shall send a license, a written notice of approval, or denial of a license or other request for approval to an applicant within the substantive review time-frame.
4. During the substantive review time-frame, the Department may make one comprehensive written request for additional information, unless the Department and the applicant have agreed in writing to allow the Department to submit supplemental requests for information.
   a. If the Department determines that an applicant or a facility is not in substantial compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, the Department shall send a comprehensive written request for additional information that includes a written statement of deficiencies stating each statute and rule upon which noncompliance is based.

b. An applicant shall submit to the Department all of the information requested in the comprehensive written request for additional information and documentation of the corrections required in the statement of deficiencies, if applicable within 120 calendar days after the date of the comprehensive written request for additional information.

c. The substantive review time-frame and the overall time-frame are suspended from the date that the Department issues a comprehensive written request for additional information or a supplemental request for information until the date that the Department receives all of the information requested, including documentation of corrections required in a statement of deficiencies, if applicable.

d. If an applicant fails to submit to the Department all of the information requested in a comprehensive written request for additional information or a supplemental request for information, including documentation of corrections required in a statement of deficiencies, if applicable, within the time prescribed in subsection (C)(4)(b), the Department shall deny the application.

5. The Department shall issue a license or other approval if the Department determines that the applicant and facility are in substantial compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, and the applicant submits documentation of corrections that is acceptable to the Department for any deficiencies.

6. If the Department determines that a license or other approval is to be denied, the Department shall send to the applicant a written notice of denial complying with A.R.S. § 36-888 and stating the reasons for denial and all other information required by A.R.S. §§ 36-888 and 41-1076.

Table 7.1. Time-frames (in calendar days)

Type of Approval	Statutory Authority	Overall Time-Frame	Administrative Completeness Review Time-Frame	Substantive Review Time-Frame
License under R9-5-703	A.R.S. § 36-882	120	30	90
Approval of Change Affecting License under R9-5-710	A.R.S. §§ 36-882 and 36-883	75	30	45

R9-5-705. Fingerprinting and Background Check

A. A licensee shall ensure that a staff member completes, signs, dates, and submits to the licensee, before the staff member's starting date of employment or volunteer service:

1. The form required in A.R.S. § 36-883.02(C); and
2. If required by A.R.S. § 8-804, the form in A.R.S. § 8-804(I).

B. A licensee shall maintain documentation of a valid fingerprint clearance card issued under A.R.S. § 41-1758.03 and a valid background check document issued under A.R.S. § 46-811.

C. Except as provided in A.R.S. § 41-1758.03, a licensee shall ensure that each staff member, before starting date of employment or volunteer service, submits to the licensee a copy of the staff member's valid fingerprint clearance card, front and back, issued under A.R.S. Title 41, Chapter 12, Article 3.1.

D. A licensee shall ensure that each staff member submits to the licensee a copy of the staff member's valid fingerprint clearance card each time the fingerprint clearance card is issued or renewed every five years.

E. If a staff member possesses a fingerprint clearance card that was issued before the staff member became a staff member at the facility, a licensee shall:

1. Contact the Department of Public Safety before the individual becomes a staff member to determine whether the fingerprint clearance card is valid; and
2. Document this determination, including the name of the staff member, the date of contact with the Department of Public Safety, and whether the fingerprint clearance card is valid.

F. A licensee shall ensure that each staff member submits to the licensee a copy of the staff member's valid background check document:

1. Issued under A.R.S. § 46-811(A) before the starting date of employment or volunteer service; and
2. Each time a background check is issued or renewed every five years.

G. As required by A.R.S. § 8-804, before an individual's starting date of employment or volunteer service, a licensee shall comply with the submission requirements in A.R.S. § 8-804(C) for the individual.

H. A licensee shall not allow an individual to be a staff member if the individual:

1. Has been denied a fingerprint clearance card under A.R.S. Title 41, Chapter 12, Article 3.1 and has not received an interim approval under A.R.S. § 41-619.55;
2. Has been denied a background check document that indicates the individual is not eligible for employment due to violations identified pursuant to A.R.S. § 46-811;
3. Receives an interim approval under A.R.S. § 41-619.55 but is subsequently denied a good cause exception under A.R.S. § 41-619.55 and a fingerprint clearance card under A.R.S. Title 41, Chapter 12, Article 3.1;
4. Is a parent or guardian of a child adjudicated to be a dependent child as defined in A.R.S. § 8-201;
5. Has been denied or had revoked a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state;

6. Has been denied or had revoked a certification to work in a child care facility or a child care group home in this state or another state;

7. If applicable, has stated on the form required in A.R.S. § 8-804(I) that the individual is currently under investigation for an allegation of abuse or neglect or has a substantiated allegation of abuse or neglect and has not subsequently received a central registry exception according to A.R.S. § 41-619.57; or

8. If applicable, is disqualified from employment or volunteer service as a staff member according to A.R.S. § 8-804 and has not subsequently received a central registry exception according to A.R.S. § 41-619.57.

I. Within 30 calendar days after the day of a staff member's or volunteer's 18th birthday, the staff member or volunteer shall provide to the licensee copies of a valid fingerprint clearance card and background check document specified in subsection (C).

R9-5-706. Child Care Service Classifications

A. The Department licenses child care facilities using the following service classifications:

1. Full-day care;

2. Part-day care;

3. Evening and nighttime care;

4. School age out-of-school time programs; and

5. Weekend care.

B. The Department shall designate on a facility's license each service classification that the facility is licensed to provide.

C. A licensee shall submit an application to the Department to add or change a service classification. A licensee shall not provide child care services in a service classification for which the licensee is not licensed.

R9-5-707. Submission of Licensure Fees

A licensee shall submit the following to the Department, on an annual basis, no more than 60 calendar days before the anniversary date of the facility's license:

1. An application, in a Department-provided format that contains:

   a. The licensee's name,

   b. The facility's name and license number, and

   c. Whether the licensee intends to submit the applicable fee:

      i. With the form, or

      ii. According to the payment plan in subsection (2)(b), and

2. Either:

   a. The applicable fee, as specified in R9-5-206, or

   b. One-half of the applicable fee in R9-5-206 with the form and the remainder of the applicable fee due no later than 120 calendar days after the anniversary date of the facility's license.

R9-5-708. Licensure Fees

A. Except as provided in subsection (B), the annual fees, as specified in A.R.S § 36-882, for an applicant submitting an application or a licensee submitting licensure fees are for a child care facility with a licensed capacity of:

1. Five to 10 children, $330;

2. 11 to 59 children, $1330; and

3. 60 or more children, $2575.

B. The Department may discount the fee in subsection (A), based on available funding or if the applicant or licensee participates in a Department-approved program.

C. The fee for a licensee requesting an increase in a facility's licensed capacity is the difference between the applicable fee in this Section for the new licensed capacity and the applicable fee in this Section for the current licensed capacity, prorated from the

date the licensee submitted the request for the increase for the number of months remaining before the facility's license anniversary date specified in R9-5-205.

R9-5-709. Invalid License

If a licensee does not submit the licensure fee as required in R9-5-707(2), the facility license is no longer valid and the facility is operating without a license.

R9-5-710. Changes Affecting a License

A. At least 30 calendar days before the date of a change in a facility's name, a licensee shall send the Department written notice of the name change.

B. At least 30 calendar days before the date of an intended change in a facility's service classification, space utilization, or licensed capacity, a licensee shall submit a written request for approval of the intended change to the Department that includes:

1. The licensee's name;
2. The facility's name, street address, city, state, zip code, mailing address, and telephone number;
3. The name, telephone number, and fax number of a point of contact for the request;
4. The facility's license number;
5. The type of change intended:
    a. Service classification,
    b. Space utilization, or
    c. Licensed capacity;
6. A narrative description of the intended change; and
7. The following additional information, as applicable, if the intended change:
    a. Affects an activity area, the following information about each affected activity area, as applicable:
        i. Identification of the activity area,
        ii. Current and intended square footage,
        iii. Current and intended operating hours,
        iv. Current and intended service classification,
        v. Current and intended licensed capacity, and
        vi. Whether the activity area has or will have a diaper changing area;
    b. Is to increase licensed capacity, the square footage of the outdoor activity area; and
    c. Includes an alteration or addition to the physical plant of a licensed facility, the following, as applicable, if the facility is located in a public school and provides child care only for school-age children, a set of final construction drawings or a school map, including the information required in R9-5-703(5)(j) showing the intended change.

C. If the intended change in subsection (B) includes an increase in the licensed capacity, a licensee shall submit the fee for an increase in licensed capacity in R9-5-708(C) with the written request for approval.

D. The Department will review a request submitted under subsection (B) according to R9-5-202. If the intended change is in compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter and any applicable fee is submitted, the Department will send the licensee written approval of the requested change or an amended license that incorporates the change but retains the anniversary date of the current license.

E. A licensee shall not implement any change described under subsection (B) until the Department issues an approval or amended license.

F. At least 30 days before the date of a change in ownership of a facility, a licensee shall send the Department written notice of the change. For the purpose of this section, "change in ownership" means a transfer of controlling legal or controlling equitable

interest and authority in a facility resulting from a sale or merger of a facility. A new owner shall obtain a new license as prescribed in R9-5-703 before the new owner begins operating the facility.

G. A licensee changing a facility's location shall apply for a new license as prescribed in R9-5-703.

H. Within 30 calendar days after a change in a controlling person, a licensee shall send the Department written notice of the change that includes:

1. The name of the licensee;
2. A description of the change made;
3. The name, title, street address, city, state, and zip code of each controlling person;
4. A statement that each controlling person has not been denied a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state;
5. A statement that each controlling person has not had a certificate to operate a child care group home or a license to operate a child care facility revoked in this state or another state for reasons that relate to the endangerment of the health and safety of children;
6. A statement that the information provided in the written notice is accurate and complete; and
7. The signature of the licensee.

I. If the change in subsection (I) is a change in a controlling person who is a designated agent, a licensee shall include a copy of documentation for the designated agent~~.~~ that complies with A.R.S. § 41-1080.

J. Within 30 calendar days after changing a responsible party, a licensee shall send the Department written notice of the change that includes:

1. The name of the licensee;
2. A description of the change made;
3. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals; and
4. A statement signed by the licensee stating that each individual in subsection (K)(3) has not:
   a. Been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and
   b. Had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children.

R9-5-711. Inspections; Investigations

A licensee shall:

1. Allow the Department immediate access to all areas of the facility affecting the health, safety, or welfare of an enrolled child or to which an enrolled child has access during hours of operation, according to A.R.S. § 36-885;
2. Notify the Department within 24 hours, prior to the next business day, of business closure; and
3. Permit the Department to interview each staff member or enrolled child as part of an investigation.

R9-5-712. Denial, Revocation, or Suspension of License

A. The Department may deny, revoke, or suspend a license to operate a facility if an applicant or licensee:

1. Provides false or misleading information to the Department;
2. Has been denied a certificate or license to operate a child care group home or child care facility in any state, unless the denial was based on the applicant's failure to complete the certification or licensing process according to a required time-frame;
3. Has had a certificate or license to operate a child care group home or child care facility revoked or suspended in any state;

4. Has been denied a fingerprint clearance card or has had a fingerprint clearance card revoked under A.R.S. Title 41, Chapter 12, Article 3.1;

5. Fails to substantially comply with any provision in A.R.S. Title 36, Chapter 7.1, Article 1 or this Chapter; or

6. Substantially complies with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, but refuses to carry out a plan acceptable to the Department to eliminate any deficiencies.

B. In determining whether to deny, suspend, or revoke a license, the Department shall consider the threat to the health and safety of children in a facility based on such factors as:

1. Repeated violations of statutes or rules,

2. A pattern of non-compliance,

3. The type of violation,

4. The severity of each violation, and

5. The number of violations.

R9-5-713. General Licensee Responsibilities

A. A licensee shall:

1. Designate a facility director who acts on behalf of the licensee and is responsible for the daily onsite operation of a facility;

2. Submit the name of the designated facility director in a written notice to the Department before a license is issued;

3. Except as provided in subsection (A)(4), within 10 calendar days before changing a facility director, submit written notice of the change including the new designated facility director's name and starting date;

4. If the licensee is not aware of a change in the facility director 10 calendar days before the effective date of the change, submit written notice of the change to the Department including the new designated facility director's name and starting date within 72 hours after becoming aware of the change.

B. A licensee shall ensure that a facility director:

1. Designates, in writing, an individual who meets the requirements of R9-5-401(2) to act on behalf of the facility director when the facility director is not present in the facility;

2. Supervises or assigns a child educator to supervise each staff member who does not meet the qualifications of R9-5-401(3);

3. Prepares a dated attendance record for each day and ensures that each staff member documents on the attendance record the time of each arrival and departure of the staff member; and

4. Maintains on the facility premises, the dated attendance record required in subsection (B)(3) for 12 months after the date on the attendance record.

C. A licensee shall develop and implement written facility policies and procedures required for the daily onsite operation of the facility as prescribed in A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter.

D. A licensee shall ensure that the following individuals are allowed immediate access to facility premises during hours of operation:

1. A parent of an enrolled child or an individual designated in writing by the parent of an enrolled child; or

2. A representative of:

   a. The Department,

   b. The local health department,

   c. Arizona Department of Child Safety, or

   d. The local fire department or State Fire Marshal.

E. A licensee shall ensure that a staff member supervises any individual who is not a staff member who is on facility premises where enrolled children are present.

F. A licensee shall ensure that a staff member submits, on or before the starting date of employment or volunteer services, a completed self-screening form in a Department-provided format for tuberculosis screening purposes and follow recommendations for further tuberculosis testing, as applicable.

G. A licensee shall ensure that a staff member who has current certification in adult and pediatric first aid and CPR, as required by R9-5-403(E), is present:

1. At all times during hours of operation on facility premises,
2. On field trips, and
3. While transporting enrolled children in the facility's motor vehicle or a vehicle designated by the licensee to transport enrolled children.

H. A licensee shall prohibit the use or possession of the following items when an enrolled child is on facility premises, during hours of operation, or in any motor vehicle used for transporting an enrolled child:

1. Any beverage containing alcohol;
2. A controlled substance as listed in A.R.S. Title 36, Chapter 27, Article 2, except where used as a prescription medication in the manner prescribed;
3. A dangerous drug as defined in A.R.S. § 13-3401, except where used as a prescription medication in the manner prescribed;
4. A prescription medication as defined in A.R.S. § 32-1901, except where used in the manner prescribed; or
5. A firearm as defined in A.R.S. § 13-105.

I. At least once a month, and at different times of the day, a licensee shall ensure that:

1. An unannounced practice drill that includes evacuation, relocation, shelter-in place, and lock downs are conducted;
2. Each staff member, volunteer, and enrolled child at the facility participates in practice drills;
3. If applicable, accommodations are made for an enrolled child with a special need or disability; according to the enrolled child's individualized plan as specified in R9-5-507(A)(1); and
4. Document each practice drill and maintain the documentation on facility premises for 12 months after the date of the practice drill.

J. A licensee shall not allow a staff member who lacks proof of immunity against a disease listed in A.A.C. R9-6-702 to be present in the facility between the start and end of an outbreak of the disease at the facility.

K. A licensee shall ensure that the Department is notified orally or in writing within 24 hours after an enrolled child's death at the child care facility during hours of operation.

R9-5-714. Statement of School-Age Child Care Services

A licensee shall prepare a written statement of child care services provided by the licensee that includes the following:

1. A description of the facility's child care services classifications in R9-5-204;
2. Hours of operation;
3. The facility's street address, city, state, zip code, mailing address, and telephone number;
4. Child enrollment and disenrollment procedures;
5. Charges, fees, and payment requirements for child care services;
6. Child admission and release requirements;
7. Guidelines for positive discipline reflective of age-appropriate methods for children that include clear, appropriate, consistent expectations;
8. Transportation procedures;
9. Field trip requirements and procedures;
10. Responsibilities and participation of parents in facility activities;
11. A general description of activities and programs;

12. A description of the liability insurance required by R9-5-308 that is carried by the licensee and a statement that documentation of the liability insurance coverage is available for review on the facility premises;
13. Medication administration procedures;
14. Accident and emergency procedures;
15. A notice stating inspection reports are available onsite;
16. A provision stating that the facility is regulated by the Arizona Department of Health Services including the Department's local street address, city, state, zip code, and local telephone number;
17. The procedures for notifying a parent at least 48 hours before a pesticide is applied on a facility's premises;
18. A statement that a parent has access to the areas on facility premises where the parent's enrolled child is receiving child care services; and
19. Policies and procedures for suspension and expulsion of enrolled children to include clear, appropriate, consistent expectations, including suspension and expulsion prevention strategies.

R9-5-715. Posting of Notices

A. A licensee shall post in a place that can be conspicuously viewed by individuals entering or leaving the facility or activity area the:
1. Facility's license;
2. Name of the facility director;
3. Name of the individual designated to act on behalf of the facility director when the facility director is not present in the facility, as prescribed by R9-5-301(B)(1);
4. Schedule of child care services fees and policy for refunding fees as prescribed by A.R.S. § 36-882(P);
5. Breakfast, lunch, dinner, and snack menus for each calendar week at the beginning of the calendar week;
6. Notice of the presence of any communicable disease or infestation listed in 9 A.A.C. 6, Article 2, Table 2.2, from the date of discovery through the incubation period of the communicable disease or infestation;
7. Notice of the Department's intent to deny, revoke, or suspend as prescribed by A.R.S. § 36-888 at the expiration of time in the notice for the licensee to respond;
8. Notice of an intermediate sanction imposed as prescribed by A.R.S. § 36-891.01 within 10 calendar days after the licensee received notice of the intermediate sanction;
9. Notice of a legal injunction imposed as prescribed by A.R.S. § 36-886.01 when the licensee receives the legal injunction; and
10. Notice of the availability of facility inspection reports for public viewing at the facility premises.

B. A licensee shall ensure that the licensed capacity of each indoor activity area is posted in that activity area.

C. Except as prescribed in A.R.S. § 36-898(C), a licensee shall post a notification of pesticide application in each activity area and in each entrance of a facility, at least 48 hours before a pesticide is applied on the facility's premises, containing:
1. The date and time of the pesticide application, and
2. A statement that written pesticide information is available from the licensee upon request.

R9-5-716. Enrollment of Children

A. A licensee shall require that a child be enrolled by the child's parent or an individual authorized in writing by the parent.

B. Except as required in A.R.S. § 36-3009, before an enrolled child receives child care services, a licensee shall require the enrolled child's parent to complete an Emergency, Information, and Immunization Record, no more than a two-page written notice, that is signed by the enrolled child's parent containing:
1. The child's name, home address, sex, and date of birth;
2. The date of the child's enrollment;
3. The name, home address, email address, and telephone number of each parent of the child;

4. The name and telephone number of at least two individuals authorized by the child's parent to collect the child from the facility in case of emergency, or if the child's parent cannot be contacted;

5. The name and ~~contact~~ telephone number of the child's health care provider;

6. The written authorization for emergency medical care of the enrolled child;

7. The name of the individual to be contacted in case of injury or sudden illness of the child;

8. The written instructions of a child's parent or health care provider for the nutritional and dietary needs of the child including, if applicable, the request in R9-5-731(C)(13); and

9. A written record completed by the child's parent or health care provider noting the child's susceptibility to illness, physical conditions of which a staff member should be aware, and any individual requirements for health maintenance.

C. A licensee shall maintain a current Emergency, Information, and Immunization Record for each enrolled child on facility premises in a place that provides a staff member ready access to the record in the event of an emergency at, or evacuation of, the facility.

D. When an enrolled child is disenrolled from a facility, the licensee shall:

1. Enter the date of disenrollment on the child's Emergency, Information, and Immunization Record; and

2. Maintain the records in subsection (D)(1) for 12 months after the date of disenrollment on facility premises in a place separate from the current Emergency, Information, and Immunization Record. If a licensee is a school governing board, a charter school, or a person operating multiple child care facilities, the licensee may maintain disenrollment records in a single central administrative office located in the same city, town, or school attendance area as the facility.

R9-5-717. Child Immunization Requirements

A. A licensee shall not permit an enrolled child to attend a facility until the facility receives:

1. An immunization record for the enrolled child with the information required in 9 A.A.C. 6, Article 7, documenting that the enrolled child has received all current, age-appropriate immunizations required under 9 A.A.C. 6, Article 7:

   a. Provided by a health care provider, or

   b. Generated from the Arizona State Immunization Information System, which is the Department's child immunization reporting system established in A.R.S. § 36-135; or

2. An exemption affidavit for the enrolled child provided by the enrolled child's parent that contains a statement, signed by the enrolled child's:

   a. Health care provider, that the immunizations required by 9 A.A.C. 6, Article 7 would endanger the enrolled child's health or medical condition; or

   b. Parent, that the enrolled child is being raised in a religion whose teachings are in opposition to immunization; or

B. If an enrolled child has not had immunizations and is either homeless, as in "homeless children and youths" according to 42 USC 11434a, who is referred by DCS or Tribal Child Protective Services, initial doses should be administered within 30-calendar days, unless the enrolled child has a religious or medical exemption, as specified in subsections (A)(1) and (2). A child who is experiencing homelessness or who is referred by DCS or Tribal Child Protective Services is permitted to enroll in the program while required documentation is obtained

C. A licensee shall attach an enrolled child's written immunization record or exemption affidavit, required in subsection (A), to the enrolled child's Emergency, Information, and Immunization Record, required in R9-5-304(B).

D. A licensee shall ensure that a staff member updates an enrolled child's written immunization record required in subsection (A)(1)(a) each time the enrolled child's parent provides the licensee with a written statement from the enrolled child's health care provider that the enrolled child has received an age-appropriate immunization required by 9 A.A.C. 6, Article 7.

E. If an enrolled child's immunization record indicates that the enrolled child has not received an age-appropriate immunization required by 9 A.A.C. 6, Article 7, a licensee shall ensure that a staff member:

1. Notifies the enrolled child's parent in writing that the enrolled child may attend the facility for not more than 15 calendar days after the date of the notification unless the enrolled child's parent complies with the immunization requirements in 9 A.A.C. 6, Article 7; and

2. Documents on the enrolled child's Emergency, Information, and Immunization Record the date on which the enrolled child's parent is notified of an immunization required by the Department.

F. A licensee shall not allow an enrolled child who lacks proof of immunity against a disease listed in A.A.C. R9-6-702 to attend the child care facility between the start and end of an outbreak of the disease at the facility.

G. If a parent of an enrolled child, excluded from a child care facility because of the lack of documented immunity to a disease during an outbreak of the disease at the child care facility, submits any of the documents in A.A.C. R9-6-704 as proof of the enrolled child's immunity to the disease, a licensee shall allow the enrolled child to attend the child care facility during the outbreak of the disease.

R9-5-718. Admission and Release of Children; Attendance Records

A. A licensee shall:

1. Maintain a dated attendance form containing an enrolled child's name with the time of each admission and release, and the parent or staff member's signature or other unique identifier.

2. If an electronic signature is used to admit or release the enrolled child, adopt policies and procedures to ensure that the individual whose signature the electronic or digital method of identification represents is accountable for the use of the electronic or digital method;

3. Develop, document, and implement policies and procedures to ensure that the identity of an individual is known to the staff member or is verified with picture identification before releasing an enrolled child to the individual.

4. Not release the enrolled child to an individual other than the enrolled child's parent or other individual designated in writing by the enrolled child's parent except when the enrolled child's parent is unable to collect the enrolled child and authorizes the licensee by telephone to release the enrolled child to an individual not so designated.

5. Not permit the self-admission or self-release of an enrolled child unless the enrolled child is of school-age and the licensee has obtained and verified written permission from the enrolled child's parent.

6. Maintain the attendance form on facility premises for 12 months after the date of attendance.

B. A licensee shall:

1. Develop, document, and implement policies and procedures to ensure that a staff member maintains daily documentation of the presence of an enrolled child in an activity area that includes a method to account for any temporary absences of the enrolled child from the activity area; and

2. Maintain the documentation of the presence of enrolled children in an activity area required in subsection (B)(1) on facility premises for 12 months after the date of the documentation.

R9-5-719. Suspected or Alleged Child Abuse or Neglect

A licensee shall ensure that the licensee or a staff member documents and reports all suspected or alleged cases of child abuse or neglect.

1. The licensee or staff member shall report the suspected or alleged child abuse or neglect to the Arizona Department of Child Safety or to a local law enforcement agency as prescribed in A.R.S. § 13-3620. The licensee or staff member shall also send documentation to the Arizona Department of Child Safety and any local law enforcement agency previously notified within three calendar days of the initial report, and maintain documentation of a child abuse or neglect report on facility premises for 12 months after the date of a report.

2. The licensee or staff member shall report the suspected or alleged child abuse by a staff member to the Department and to a local law enforcement agency as prescribed in A.R.S. § 13-3620. A licensee or staff member shall also send documentation to the Department and to any law enforcement agency previously notified within three calendar days of

the initial report, and maintain documentation of a child abuse report on facility premises for 12 months after the date of a report.

R9-5-720. Insurance Requirements

A. A licensee shall secure and maintain the following minimum insurance coverage:

1. General facility liability insurance of at least $300,000; and
2. Motor vehicle insurance coverage, required by A.R.S. Title 28, Chapter 9, Article 4, for each motor vehicle provided by a licensee to transport enrolled children.

B. A licensee shall maintain documentation of the insurance coverage required in subsection (A) on facility premises.

C. A licensee shall provide a copy of documentation of insurance to the Department before issuance of a license and at any time that the licensee's insurance coverage expires, is canceled, or changes.

R9-5-721. Gas and Fire Inspections

A. An applicant shall obtain the following inspections of a facility and make any repairs or corrections stated on an inspection report before a license is issued by the Department:

1. If there are gas pipes that run from a gas meter to an appliance or location on the facility premises, a gas inspection by a licensed plumber or individual authorized by the local jurisdiction that verifies there are no gas leaks in the gas pipes that run from the gas meter to any appliance or location on facility premises; and
2. A fire inspection by a local fire department.

B. If there are gas pipes that run from a gas meter to an appliance or location on the facility premises, a licensee shall ensure that a licensed plumber or individual authorized by the local jurisdiction conducts a gas inspection that verifies there are no gas leaks in the gas pipes that run from the gas meter to any appliance or location on facility premises at least once every 12 months after the issue date of the license.

C. A licensee shall maintain on facility premises:

1. A current fire inspection report including documentation of any repairs or corrections required by the fire inspection report; and
2. If there are gas pipes that run from a gas meter to an appliance or location on the facility premises, a current gas inspection report including documentation of any repairs or corrections required by the gas inspection report.

R9-5-722. Pesticides

A. A licensee shall make written pesticide information available to a parent, upon a parent's request, at least 48 hours before a pesticide application occurs on facility premises, containing the:

1. Brand, concentration, rate of application, and any use restrictions required by the label of the herbicide or specific pesticide;
2. Date and time of the pesticide application;
3. Pesticide label, which includes the written, printed, or graphic matter approved by the United States Environmental Protection Agency on or attached to, a pesticide container; and
4. Name and telephone number of the pesticide business licensee and the name of the licensed applicator, who complies with A.A.C. R3-8-201(C), providing pesticide services.

B. A licensee is exempt from the provisions in subsection (A), as prescribed by A.R.S. § 36-898(C).

R9-5-723. Staff Qualifications

A licensee shall ensure that staff members meet the following qualifications for employment or volunteer service at a facility:

1. A facility director is 21 years of age or older and provides the licensee with documentation of one of the following:
   a. At least 24 months of child care experience, a high school or high school equivalency diploma, and
      i. Six credit hours or more in early childhood, child development, or a closely-related field from an accredited college or university; or

ii. At least 60 actual hours of instruction, provided in conferences, seminars, lectures, or workshops in early childhood, child development, or a closely-related field, and an additional 12 hours of instruction, provided in conferences, seminars, lectures, or workshops in the area of program administration, planning, development, or management;

b. At least 18 months of child care experience; and

i. An N.A.C., C.D.A., or C.C.P. credential; or

ii. At least 24 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;

c. At least six months of child care experience and an associate degree from an accredited college or university in early childhood, child development, or a closely-related field; or

d. At least three months of child care experience and a bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field;

2. A facility director's designee is 21 years of age or older and provides the licensee with documentation of one of the following:

a. At least 12 months of child care experience, a high school or high school equivalency diploma; and

i. Three credit hours or more in early childhood, child development, or a closely-related field from an accredited college or university; or

ii. At least 30 actual hours of instruction, provided in conferences, seminars, lectures, or workshops in early childhood, child development, or a closely-related field;

b. At least 12 months of child care experience; and

i. An N.A.C., C.D.A., or C.C.P. credential; or

ii At least 24 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;

c. At least six months of child care experience and an associate degree from an accredited college or university in early childhood, child development, or a closely-related field; or

d. At least three months of child care experience and a bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field;

3. A child educator is 18 years of age or older and provides the licensee with documentation of one of the following:

a. Three months of child care experience if working with school-aged children; and

i. A high school diploma or high school equivalency diploma; or

ii. At least 12 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;

b. Associate or bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field; or

c. N.A.C., C.D.A., or C.C.P. credential;

4. An assistant child educator is 16 years of age or older and provides the licensee with documentation of one of the following:

a. Current and continuous enrollment in high school or a high school equivalency class;

b. High school or high school equivalency diploma;

c. Enrollment in vocational rehabilitation, as defined in A.R.S. § 23-501; or

d. Employment or service as a volunteer in a licensed child care facility for 12 months;

5. A child educator aide is 16 years of age or older;

6. A student-aide provides the licensee with documentation of participation in:

a. An educational, curriculum-based course in child development, parenting, or guidance counseling; or

b. A vocational education or occupational development program; and

7. A volunteer is 15 years of age or older.

R9-5-724. Staff Records and Reports

A. A licensee shall maintain a file for each staff member containing:

1. The staff member's name, date of birth, home address, and telephone number;
2. The staff member's starting date of employment or volunteer service;
3. The staff member's ending date of employment or volunteer service, if applicable;
4. The name and telephone number of an individual to be notified in case of an emergency;
5. The staff member's written statement attesting to current immunity against measles, rubella, diphtheria, mumps, and pertussis;
6. The form required in A.R.S. § 36-883.02(C);
7. Documents required by R9-5-203;
8. Documents required by R9-5-301;
9. Documents required by R9-5-401, if applicable;
10. If applicable:
    a. The form required in A.R.S. § 8-804(I),
    b. Documentation of the submission required in A.R.S. § 8-804 and the information received as a result of the submission, and
    c. Documentation of training provided by a licensee as required by R9-5-403;
11. A copy of any current license or certification required by A.R.S. Title 36, Chapter 7.1, Article 1, or this Chapter; and
12. Documentation of the requirements in A.R.S. § 36-883.02(D).

B. A licensee shall ensure that, for a staff member who is currently working at the facility, the staff member's information required by:

1. Subsections (A)(1) through (11) is maintained in a single location on facility premises, and
2. Subsection (A)(12) is maintained and provided to the Department within two hours of the Department's request.

C. A licensee shall ensure that, for an individual who is not currently working at the facility, the information required in subsections (A)(1) through (12) is:

1. Maintained for 12 months after the date the individual last worked at the facility, and
2. Provided to the Department within two hours of the Department's request.

R9-5-725. Training Requirements

A. Within 10 calendar days of the starting date of employment or volunteer service, a licensee shall provide, and each staff member who provides child care services shall complete, training for new staff members that includes all of the following:

1. Facility philosophy and goals;
2. Names and ages of and developmental expectations for enrolled children for whom the staff member will provide child care services;
3. Health needs, nutritional requirements, any known allergies, and information about adaptive devices of enrolled children for whom the staff member will provide child care services;
4. Lesson plans;
5. Child guidance and methods of positive discipline, including separation;
6. Hand washing techniques;
7. Food preparation, service, sanitation, and storage, if assigned to food preparation;
8. Recognition of signs of illness and infestation;

9. Child abuse or neglect detection, prevention, and reporting;

10. Accident and emergency procedures;

11. Staff responsibilities as required by A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter;

12. Sun safety policies and procedures;

13. Safety in outdoor activity areas;

14. Transportation procedures, if applicable;

15. Field trip procedures, if applicable; and

16. Prevention of pediatric abusive head trauma and child maltreatment.

B. A licensee shall ensure that:

1. Each staff member who provides child care services completes 24 or more clock hours of training every 12 months after the effective date of this Chapter or the staff member's starting date of employment or volunteer service in at least two topics listed below:

a. Child growth and development, including:

i. Brain development;

ii. Basic child development, including cognitive, social, emotional, and physical, as well as approaches to learning;

iii. Language development;

iv. Observation and child assessment;

v. Developmentally-appropriate activities;

vi. Child guidance and methods of positive discipline which may include techniques to promote healthy social-emotional development and reduce challenging behaviors; or

vii. Developmentally-appropriate activity areas.

b. Health and safety issues, including:

i. Accident and emergency procedures, including CPR and first aid for children;

ii. Recognition of signs of illness and infestation;

iii. Nutrition and developmentally-appropriate eating habits;

iv. Child abuse detection, reporting, and prevention;

v. Safety of indoor and outdoor activity areas;

vi. Sun safety policies and procedures;

vii. Water safety;

viii. Prevention and control of infectious diseases, including immunization:

ix. Prevention and response to emergencies due to food and allergic reactions, including anaphylactic shock;

x. Building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic;

xi. Emergency preparedness, response, and recovery planning for emergencies resulting from a natural disaster or a human-caused event;

xii. Administration of medication, consistent with standards for parental or guardian consent;

xiii. Handling and storage of hazardous materials and the appropriate disposal of biocontaminants;

xiiii. Prevention of pediatric abusive head trauma and child maltreatment; or

xv. Physical restraint techniques.

c. Program administration, planning, development, or management; and

d. Availability of community services and resources, including those available to children with a special health care need or a disability; and

2. As part of the required 24 hours of training in subsection (B)(1):

a. A staff member who has less than 12 months of child care experience before the staff member's starting date, completes at least 12 hours in one or more of the topics in subsection (B)(1)(a) in the staff member's first 12 months at the facility;

b. A staff member who has 12 months or more of child care experience, completes at least six hours in one or more of the topics in subsection (B)(1)(a) every 12 months after the staff member's starting date;

c. A facility director completes at least six hours in subsection (B)(1)(c) every 12 months after the facility director's starting date.

d. A child educator for school-aged children shall complete six of the 24 hours of training within the first three months of hire.

C. A licensee shall ensure that documentation of a staff member's completion of training required by subsection (A) is signed by the facility director and dated.

D. A licensee shall ensure that a staff member submits to the licensee documentation of training received as required by subsection (B) to the licensee as the training is completed.

E. A licensee shall ensure that a staff member, as required by R9-5-301(G):

1. Obtains adult and pediatric first aid certification;

2. Obtains adult and pediatric CPR certification, which includes a demonstration of the staff member's ability to perform CPR;

3. Maintains current certification in adult and pediatric first aid and CPR; and

4. Provides the licensee with a copy of the front and back of the current card issued to the staff member upon completing adult and pediatric first aid and CPR training as proof of completion of the requirements of this subsection.

R9-5-726. Staff-to-Children Ratios

A. A licensee shall ensure that at least the following staff-to-children ratios are maintained at all times when providing child care services to enrolled children:

Age Group	*Staff: Children*	
School-age children	1:20	

B. A licensee shall:

1. Determine and maintain the required staff-to-children ratio for each group of enrolled children based on the age of the youngest child in the group; and

2. Only allow an individual qualified as a director, child educator, or an assistant child educator to be counted as staff in staff-to-children ratios.

C. A licensee shall ensure that when there are:

1. Six or more enrolled children present in a facility, the following individuals are present in the facility:

a. A facility director or a director's designee who meets the requirements in R9-5-723 for a director's designee, and

b. One additional staff member; and

2. Five or fewer enrolled children are present in a facility, the facility director or director's designee who meets the requirements in R9-5-401 is present in the facility, and an additional staff member is available by telephone or other equally expeditious means and able to reach the facility within 15 minutes after notification; and

D. A licensee shall ensure that a staff member assigned to provide child care services to enrolled children does not perform duties that may affect the staff member's ability to provide child care services to the enrolled children.

E. In addition to maintaining the required staff-to-children ratios, a licensee shall ensure that:

1. Staff members are present on facility premises to perform facility administration, food preparation, food service, and maintenance responsibilities; and
2. Facility maintenance does not depend on the work of enrolled children.

F. If a licensee conducts swimming activities at a swimming pool, the licensee shall ensure that there is a lifeguard on the premises who has current lifeguard certification that includes a demonstration of the lifeguard's ability to perform CPR. If the lifeguard is a staff member, the staff member cannot be counted in the staff-to-children ratios required by subsection (A).

R9-5-727. General Equipment Health, and Safety Standards

A. A licensee shall ensure that:

1. In addition to complying with the requirements in this Chapter, the health, safety, or welfare of an enrolled child is not placed at risk of harm;
2. The facility does not allow enrolled children to mix with non-enrolled children on licensed facility premises;
3. An enrolled child is placed in an age-appropriate or developmentally-appropriate group;
4. Indoor activity areas used by enrolled children are decorated with age-appropriate articles such as mirrors, bulletin boards, pictures, and posters;
5. Age-appropriate toys, materials, and equipment are provided to enable each enrolled child to participate in an activity;
6. Storage space is provided in the facility for indoor and outdoor toys, materials, and equipment in areas accessible to enrolled children;
7. Clean clothing is available to an enrolled child when the enrolled child needs a change of clothing;
8. The facility premises, including the buildings, are maintained free from hazards;
9. Toys and play equipment, required in this Article, are maintained:
    a. Free from hazards, and
    b. In a condition that allows the toy or play equipment to be used for the original purpose of the toy or play equipment;
10. Temperatures are maintained between 68° F and 82° F in each room used by enrolled children;
11. Each enrolled child's toothbrush, comb, washcloth, cloth towel, and clothing are maintained in a clean condition and stored in an identified space separate from those of other enrolled children;
12. Except as provided in subsection (A)(14), the following are stored separate from food storage areas and are inaccessible to an enrolled child:
    a. All materials and chemicals labeled as a toxic or flammable substance;
    b. All substances that have a child warning label and may be a hazard to a child; and
    c. Lawn mowers, ladders, toilet brushes, plungers, and other facility equipment that may be a hazard to a child;
13. Hand sanitizers when being:
    a. Stored, are stored separate from food storage areas and are inaccessible to enrolled children; and
    b. Provided for use, are accessible to enrolled children; and
14. Except when used as part of an activity, the following are stored in an area inaccessible to an enrolled child:
    a. Garden tools, such as a rake, trowel, and shovel; and
    b. Cleaning equipment and supplies, such as a mop and mop bucket.

B. A licensee shall ensure that a staff member:

1. Supervises each enrolled child at all times;
2. Does not smoke, vape, or use tobacco:

a. On facility premises, except in designated areas separated from the children; or

b. On a field trip or when transporting an enrolled child;

3. Does not smoke or use marijuana, as specified in A.R.S. § 36-894;

4. Except for an enrolled child who can change the enrolled child's own clothing, changes an enrolled child's clothing when wet or soiled;

5. Except as provided in subsection (C), prepares, posts, and implements in each indoor activity area, a current schedule of children's age-appropriate activities, including the times the following are provided:

a. Meals and snacks;

b. Naps;

c. Indoor activities;

d. If weather and air quality permit, outdoor or large muscle development activities;

e. Quiet and active activities;

f. Teacher-directed activities;

g. Self-directed activities;

h. Activities for individuals, groups of five or fewer children, and groups of six or more children; and

i. Activities that develop small muscles;

6. If an activity in the lesson plan required in subsection (C)(5) includes screen time, include in the lesson plan the duration of the screen time in minutes;

7. If the schedule in subsection (C)(4) or lesson plan in subsection (C)(5) is not implemented, writes on the schedule or the lesson plan the activity that is implemented;

8. Does the following when a parent permits or asks a staff member to apply personal products on an enrolled child, such as sun screen or sun block preparations, and toothpaste:

a. Obtains the enrolled child's personal products from the enrolled child's parent or, if the licensee provides the personal products for use by the enrolled child, obtains written approval for use of the products from the enrolled child's parent;

b. Labels the personal products with the enrolled child's name; and

c. Keeps the personal products inaccessible to enrolled children;

9. In an indoor activity area that:

a. Stores an enrolled child's wet or soiled clothing in a sealed plastic bag labeled with the enrolled child's name; and

b. Sends an enrolled child's wet or soiled clothing home with the enrolled child when the facility releases the enrolled child to the enrolled child's parent; and

10. Monitors an enrolled child for overheating or overexposure to the sun. If the enrolled child exhibits signs of overheating or overexposure to the sun, a staff member who has the first aid training required by R9-5-403(E) shall evaluate and treat the enrolled child.

C. A licensee is not required to have a schedule required in subsection (C)(4) or a lesson plan required in subsection (C)(5) for an indoor activity area that is approved and used:

1. By enrolled children only for:

a. Snacks or meals, or

b. A specific activity,

2. As a substitute for an outdoor activity area.

R9-5-728. Supplemental Standards

A. A licensee providing child care services for school-age children shall:

1. Ensure that a staff member supervises an enrolled school-age child to and from a bathroom and allows the enrolled child privacy while in the bathroom;
2. Ensure that if an enrolled child remains in the bathroom for more than three minutes, the supervising staff member checks on the enrolled child to ensure the child's safety;
3. Provide age-appropriate toys, materials, and equipment accessible to enrolled children in a quantity sufficient to meet the needs of the enrolled children in attendance including:
   a. Arts and crafts,
   b. Games,
   c. Puzzles and toys to enhance manipulative skills,
   d. Books,
   e. Science materials,
   f. Sports equipment, and
   g. Outdoor play equipment;
4. Provide enrolled school-age children with a quiet study area;
5. Ensure that if drinking water is not accessible in an indoor or outdoor activity area, drinking water is available to meet the individual needs of each enrolled school-aged child; and
6. Ensure that, when a parent permits, a staff member allows an enrolled school-age child to possess and use a topical sunscreen product without a note or prescription from a licensed health care professional.

B. A school age out-of-school time program provider shall:

1. Operate after school, before school, or during a time when school is not in session;
2. Serve school-age children; and
3. Promote expanded childhood learning, enrichment, child and youth development, or educational, recreational, or character-building activities.

R9-5-729. Supplemental Standards for Children with a Special Health Care Need or a Disability

A. A licensee providing child care services for a child with a special health care need or a disability shall:

1. Except as provided in subsection (A)(2), before a child with a special health care need or a disability receives child care services, obtain from the enrolled child's parent a copy of an existing individualized plan for the enrolled child that can be reviewed, adopted, and implemented by the licensee when providing child care services to the enrolled child that includes the following as needed for the enrolled child:
   a. Medication schedule;
   b. Nutrition and feeding instructions;
   c. Qualifications required of a staff member who feeds the enrolled child;
   d. Medical equipment or adaptive devices;
   e. Medical emergency instructions;
   f. Toileting and personal hygiene instructions;
   g. Specific child care services to be provided to the enrolled child at the facility;
   h. Information from health care providers, including the frequency and length of any prescribed medical treatment or therapy;
   i. Training required of a staff member to care for the enrolled child's a special health care need or a disability; and
   j. Participation in practice drills;
2. If an enrolled child with a special health care need or a disability does not have an existing individualized plan, obtain from the enrolled child's parent written instructions for providing services to the enrolled child until a written

individualized plan required in subsection (A)(1) is developed by a team consisting of staff members, the enrolled child's parent, and health care providers, if applicable, that is completed within 30 calendar days after the enrolled child's initial date of receiving child care services;

3. Maintain an enrolled child's current individualized plan on facility premises and if the current individualized plan was developed according to subsection (A)(2), provide a copy to the enrolled child's parent; and

4. Ensure the individualized plan is updated at least every 12 months after the date of the initial plan or as changes occur.

B. A licensee shall ensure that:

1. When tube feeding an enrolled child, a staff member only uses:

a. Commercially prepackaged formula in a ready-to-use state,

b. Formula prepared by the enrolled child's parent and brought to the facility in an unbreakable container, or

c. Breast milk brought to the facility in an unbreakable container; and

2. Only a staff member instructed by an enrolled child's parent or individual designated by the enrolled child's parent:

a. Feeds the enrolled child using the enrolled child's tube-feeding apparatus, and

b. Cleans the enrolled child's tube-feeding apparatus.

C. A licensee shall provide an enrolled child with a special health care need or a disability with:

1. Developmentally-appropriate toys, materials, and equipment; and

2. Assistance from staff members to enable the enrolled child to participate in the activities of the facility.

D. In addition to complying with the transportation requirements in R9-5-517, a licensee transporting an enrolled child with a special health care need or a disability in a wheelchair in a facility's motor vehicle shall ensure that the enrolled:

1. Child's wheelchair is manufactured to be secured in a motor vehicle;

2. Child's wheelchair is secured in the motor vehicle using a minimum of four anchorages attached to the motor vehicle floor, and four securement devices, such as straps or webbing that have buckles and fasteners, that attach the wheelchair to the anchorages;

3. Child is secured in the wheelchair by means of a wheelchair restraint that is a combination of pelvic and upper body belts intended to secure a passenger in a wheelchair; and

4. Child's wheelchair is placed in a position in the motor vehicle that does not prevent access to the enrolled child in the wheelchair or passage to the front and rear ~~in~~ of the motor vehicle.

E. A licensee providing child care services for an enrolled child who uses a wheelchair or is not able to walk shall locate the enrolled child on the ground floor of the facility.

F. If a child care facility requires a separate diaper changing area to allow privacy while providing diapering to an enrolled child with a special health care need or a disability, the licensee shall submit a written request for approval of the intended change to the Department according to R9-5-710 prior to adding a diaper changing area.

R9-5-730. General Nutrition Standards

A. A licensee shall:

1. Make breakfast available to an enrolled child who is present at a facility before 8:00 a.m.,

2. Serve lunch to an enrolled child who is present at a facility between 11:00 a.m. through 1:00 p.m., and

3. Serve dinner to an enrolled child who is present from 5:00 p.m. through 7:00 p.m. and who will remain at the facility after 7:00 p.m.

B. A licensee shall serve the following meals or snacks to an enrolled child present at a facility if an enrolled child is present:

1. For two to four hours, one or more snacks;

2. During any of the meal times stated in subsection (A), a meal that meets the meal pattern requirements in subsection (C);

3. For four to eight hours, one or more snacks and a meal;

4. For nine or more hours, two snacks and one or more meals; and

5. Before bedtime, one snack.

C. If a licensee provides food, a licensee shall prepare and serve food according to the meal pattern requirements found in Table 7.2, "Meal Pattern Requirements for Children."

D. If an enrolled child's parent provides food for the parent's enrolled child, the licensee shall provide milk or juice to the enrolled child if not provided by the parent.

E. If a licensee plans and serves meals, the licensee shall ensure that the meals:

1. Meet the age-appropriate nutritional requirements of an enrolled child; and

2. For each calendar week, provide a variety of foods within each food group from the meal pattern requirements.

F. If a licensee provides food, the licensee shall maintain on the facility premises at least a one day supply of food needed to provide the meals and snacks required by subsections (B) and (C) to each enrolled child attending the facility.

G. In addition to the required daily servings of food stated in subsection (C), a licensee:

1. Shall make second servings of food available to each enrolled child at meals and at snack time,

2. May substitute a food that is equivalent to a specific food component if second servings of the specific food component are not available, and

3. Shall ensure that a food substitution in subsection (G)(2) is written on the posted weekly menu by the end of the meal or snack service.

Table 7.2 Meal Pattern Requirements

TABLE OF MEAL PATTERN REQUIREMENTS		
Food Components	Ages 3 through 5 years	Ages 6 and Older
Breakfast:		
1. Milk, fluid	3/4 cup	1 cup
2. Vegetable, fruit, or both	1/2 cup	1/2 cup
3. Grains	1/2 oz. eq[1]	1 oz. eq[1]
Lunch or Dinner:		
1. Milk, fluid	3/4 cup	1 cup
2. Vegetables Fruits	1/4 cup 1/4 cup	1/2 cup 1/4 cup
3. Grains	1/2 oz. eq[1]	1 oz. eq[1]
4. Meat or meat alternates	1 1/2 oz.	2 oz.
Snack: (select 2 of these 4 components)***		
1. Milk, fluid	1/2 cup	1 cup
2. Vegetables Fruits	1/2 cup 1/2 cup	3/4 cup 3/4 cup
3. Grains	1/2 oz.	1 oz.

4. Meat or meat alternates	1/2 oz.	1 oz.

[1] Meat and meat alternates may be used to substitute the entire grains component a maximum of three times per week. Oz eq = ounce equivalents

* In the same meal service, dried beans or dried peas may be used as a meat alternate or as a vegetable; however, such use does not satisfy the requirement for both components.

** At lunch and dinner, no more than 50% of the requirement shall be met with nuts, seeds, or nut butters. Nuts, seeds, or nut butters shall be combined with another meat or meat alternative to fulfill the requirement. Two tablespoons of nut butter or one ounce of nuts or seeds equals one ounce of meat.

*** Juice may not be served when milk is served as the only other component.

R9-5-731. General Food Service and Food Handling Standards

A. A licensee that prepares food for enrolled children on facility premises shall, if required by 9 A.A.C. 8, Article 1, and the local ordinances of the local health department where the facility is located, obtain a food establishment permit issued under 9 A.A.C. 8, Article 1, and:

1. Submit to the Department a written notice of the facility's food establishment permit before the Department issues a license to the facility,
2. Maintain the facility's current food establishment permit on the facility's premises, and
3. Provide a written notice of the facility's current food establishment permit to the Department upon request.

B. If a licensee contracts with a food establishment to prepare and deliver food to the facility, the licensee shall obtain and provide the Department with a copy of the food establishment's permit, issued under 9 A.A.C. 8, Article 1, at the following times:

1. Before the Department issues a license to the facility,
2. Upon contracting with the food establishment, and
3. Every 12 months after the date the contract is entered into while the contract is in effect.

C. A licensee shall ensure that:

1. Enrolled children, except children with a special health care need or a disability who cannot wash their own hands, wash their hands with soap and running water before and after handling or eating food;
2. A staff member:
   a. Washes the hands of a child with a special health care need or a disability who cannot wash the child's own hands before and after the child with a special health care need or a disability handles or eats food using:
      i. A washcloth,
      ii. A single-use paper towel, or
      iii. Soap and running water; and
   b. If using a washcloth, uses each washcloth on only one child and only one time before it is laundered or discarded;
3. An enrolled child is not permitted to eat food directly off the floor, carpet, or ground or with utensils placed directly on the floor, carpet, or ground;
4. A staff member encourages, but never forces, enrolled children to eat food;
5. A staff member assists each enrolled child who needs assistance with eating;
6. A staff member teaches self-feeding skills and habits of good nutrition to each enrolled child as necessary;
7. Fresh milk is served from the original, commercially filled container, to a container used for meal service or a cup, and unused portions are not returned to the original container;

8. Milk served to an enrolled school-aged child is fat-free or 1% lowfat milk unless the enrolled child's parent requests otherwise;
9. Reconstituted dry milk is not served to meet the fluid milk requirement;
10. Juice served to children for a meal or snack is full-strength 100% vegetable or 100% fruit juice from an original, commercially filled container or reconstituted from a concentrate according to manufacturer instructions;
11. Fruit juice served to an enrolled child is limited to six ounces per day;
12. Each staff member is informed of a modified diet prescribed for an enrolled child by the child's parent or health care provider, and the modified diet is posted in the kitchen and in the child's activity area;
13. The food served to an enrolled child is consistent with a modified diet prescribed for the child by the child's parent or health care provider;
14. An enrolled child is not permitted in the kitchen during food preparation or food service except as part of an activity;
15. An enrolled child does not use the kitchen or a food storage area as a passageway;
16. A staff member:
    a. Prepares a weekly menu at least one week in advance,
    b. Includes on the menu the specific foods to be served on each day,
    c. Dates each menu,
    d. Posts each menu at least one day before the first meal on the menu will be served, and
    e. Writes food substitutions on a posted menu no later than the morning of the day of meal service;
17. Non-single-use utensils and equipment used in preparing, eating, or drinking food are:
    a. After each use washed in:
        i. An automatic dishwasher and air dried or heat dried; or
        ii. Hot soapy water, rinsed in clean water, sanitized, and air dried or heat dried; and
    b. Stored in a clean area protected from contamination;
18. Single-use utensils and equipment are disposed of after being used;
19. Perishable foods, which are foods that become unfit for human consumption if not stored to prevent spoilage, are covered and stored in a refrigerator at a temperature of 41° F or below;
20. A refrigerator at the child care facility maintains a temperature of 41° F or below and a freezer maintains a temperature of 0° F or below, as shown by a thermometer kept in the refrigerator and in the freezer at all times;
21. Foods are prepared as close as possible to serving time and, if prepared in advance, are either:
    a. Cold held at a temperature of 45° F or below or hot held at a temperature of 130° F or above until served, or
    b. Cold held at a temperature of 45° F or below and then reheated to a temperature of at least 165° F before being served.

R9-5-732. Positive Discipline and Guidance

A. A staff member shall provide guidance to help children respond to difficult situations. To develop self-regulation, children should receive adult support that is individual to the child and adapts as the child develops internal controls. This process should include:
1. Forming a positive relationship with the child, which occurs when the adult spends time talking to the child, listening to the child, following the child's lead, playing with the child, and responding to the child's needs;
2. Base expectations on children's developmental level;
3. Establishing and being proactive in teaching and supporting children in learning simple rules;
4. Modifying the learning/play environment to support the child's appropriate behavior;
5. Creating a predictable daily routine and schedule;
6. Modeling desired behavior;
7. Showing children positive alternatives;

8. Using deliberate redirection, the staff member should encourage the child to use appropriate behavior, and provide positive feedback when the child exhibits the behavior;

9. Individualized positive discipline strategies based on the individual needs of children, such as using a buddy system, individualized schedule, special break, or another applicable positive discipline strategy.

B. A licensee shall ensure that a staff member does not use or permit:

1. The use of physical punishment including:

a. Hitting, spanking, shaking, slapping, twisting, pulling, squeezing, or biting;

b. Demanding excessive physical exercise or excessive rest; and

c. Forcing a child to eat or consume mouth soap, food, or foreign substances.

2. Any form of emotional abuse, including rejecting, extended ignoring, public or private humiliation;

3. Abusive, profane, sarcastic language, verbal abuse, threats, or derogatory remarks about the child or child's family;

4. Punishment associated with eating, resting, sleeping, toileting, and withholding outdoor play;

5. Using medication to control behavior or restrict freedom of movement unless it is prescribed by a health care provider;

6. Mechanical restraint to restrict a child's freedom of movement;

7. Placing a child in a crib, high chair, car seat, or other restrictive device for a time-out or to restrict a child's freedom of movement; and

8. Directing an enrolled child to discipline or punish another enrolled child.

C. A licensee may allow a staff member to separate an enrolled child from other enrolled children for behaviors that are persistent and unacceptable. Separation should only be used in combination with instructional approaches that teach children what to do in place of the behavior problem.

1. A staff member may allow an enrolled child to be separated for no longer than three minutes. If the enrolled child has not regained control or composure after three minutes, a staff member may extend the separation for up to 10 minutes with staff member interaction with the enrolled child, except as provided in (C)(4);

2. An enrolled child may not be physically restrained, except when necessary to protect an enrolled child from injury, to protect persons on the premises from physical injury, or to protect property from damage, only physical restraint may be used;

3. When a child has an out-of-control behavior, the enrolled child may be removed from the company of other enrolled children until the enrolled child's behavior has stabilized. Removal of a child is only to be used when there is a safety concern that cannot be reduced or eliminated with reasonable accommodations; and

4. A licensee shall develop a written plan with the enrolled child's parent to provide individualized social and emotional intervention supports for the enrolled child that includes methods for understanding the enrolled child's behavior, and developing, adopting, and implementing a team-based positive behavior support plan.

R9-5-733. Cleaning and Sanitation

A. A licensee shall maintain facility premises free of insects and vermin.

B. A licensee shall maintain facility premises and furnishings:

1. In a clean condition, and

2. Free from odor.

C. A licensee shall ensure that floor coverings are:

1. Clean, and

2. Free from:

a. Dampness,

b. Odors, and

c. Hazards.

D. A licensee shall ensure that toilet bowls, lavatory fixtures, and floors in toilet rooms and kitchens are cleaned and sanitized as often as necessary to maintain them in a clean and sanitized condition or at least once every 24 hours.

E. If laundry belonging to a facility is done on facility premises, a licensee shall:

1. Not use a kitchen or food storage area for sorting, handling, washing, or drying laundry;
2. Locate the laundry equipment in an area that is separate from licensed activity areas and inaccessible to enrolled children;
3. Not permit an enrolled child to be in a laundry room or use a laundry area as a passageway for enrolled children; and
4. Ensure that laundry soiled by vomitus, urine, feces, blood, or other body fluid is stored, cleaned, and sanitized separately from other laundry.

F. A licensee shall ensure that:

1. Each toilet room in a facility contains, within easy reach of enrolled children:
   a. Mounted toilet tissue; and
   b. Except as provided in subsection (G):
      i. A sink with running water;
      ii. Soap contained in a dispenser; and
      iii. Disposable, single-use paper towels in a mounted dispenser, or a mechanical air hand dryer;
2. Staff members wash their hands with soap and running water after toileting;
3. An enrolled child's hands are washed with soap and running water after toileting;
4. Except for a cup or receptacle used only for water, food waste is stored in a covered container and the container is clean and lined with a plastic bag;
5. Food waste and other refuse is removed from the facility building at least once every 24 hours or more often as necessary to maintain a clean condition and avoid odors;
6. A staff member or an enrolled child does not draw water for human consumption from a toilet room hand-washing sink;
7. Toys, materials, and equipment are maintained in a clean condition;
8. Plumbing fixtures are maintained in a clean and working condition; and
9. Chipped or cracked sinks and toilets are replaced or repaired.

G. A licensee may have a sink with running water, soap contained in a dispenser, and single-use paper towels in a mounted dispenser or a mechanical air hand dryer located directly outside a toilet room if an enrolled child exiting the toilet room can access the sink, soap, and paper towels or air hand dryer without having to cross space that is used for any activity.

R9-5-734. Pets and Animals

A. A licensee shall maintain written documentation of current immunization against rabies for each ferret, dog, or cat owned by a licensee or staff member that is present on facility premises.

B. A licensee shall ensure that a staff member:

1. Keeps all pet and animal habitats clean;
2. Prohibits reptiles, such as turtles, iguanas, snakes, and lizards, in the facility;
3. Prohibits birds in food preparation and eating areas;
4. Keeps pets and animals clean;
5. Prohibits pets and animals from endangering an enrolled child, staff member, or other individual on facility premises; and
6. Keeps birds and animals such as horses, sheep, cattle, and poultry in an enclosure that is not accessible to an enrolled child except as part of an activity.

R9-5-735. Accident and Emergency Procedures

A. A licensee shall ensure that there is a first aid kit on facility premises that contains first aid supplies in a quantity sufficient to meet the needs of the enrolled children including the following:

1. Sterile bandages including:
   a. Adhesive bandages of assorted sizes,
   b. Sterile gauze pads, and
   c. Sterile gauze rolls;
2. Antiseptic solution or sealed antiseptic wipes;
3. A pair of scissors;
4. Adhesive or self-adhering tape;
5. Single-use, non-porous gloves; and
6. Reclosable plastic bags of at least one-gallon size.

B. A licensee shall ensure that the first aid kit required in subsection (A) is accessible to staff members but inaccessible to enrolled children.

C. A licensee shall:

1. Prepare and date a written fire and emergency plan that contains:
   a. The location of the first aid kit;
   b. The names of staff members who have adult and pediatric first aid and CPR certification, as required by R9-5-725(E);
   c. The directions for:
      i. Initiating verbal notification of an enrolled child's parent by telephone or other equally expeditious means within 30 minutes of a fire or emergency, and
      ii. Providing written notification to the enrolled child's parent within 24 hours, and
   d. The facility's street address and the emergency telephone numbers for the local fire department, police department, ambulance service, and poison control center;
   e. The procedures for evacuation, relocation, shelter-in-place and lockdown, staff and volunteer emergency preparedness training and practice drills, communication and reunification with families, continuity of operations, and accommodation of children with disabilities and children with chronic medical conditions, as specified in R9-5-713;
2. Maintain the plan required in subsection (C)(1) in a location on facility premises that has an operable telephone service or two-way voice communication system that connects the facility with an individual who has direct access to an in-and-out operable telephone service;
3. Post the plan required in subsection (C)(1) in any indoor activity area that does not have an operable telephone service or two-way voice communication system that connects the indoor activity area with an individual who has direct access to an in-and-out operable telephone services; and
4. Update the plan in subsection (C)(1) every 12 months after the date of initial preparation of the plan or when any information changes.

D. The licensee shall consult with appropriate state and local authorities and shall establish and follow a written multi-hazard emergency and evacuation plan to protect children in the event of emergencies.

E. A licensee shall post, near an activity area or a room's designated exit, a building evacuation plan that details the designated exits from the activity area or room and the facility.

F. A licensee shall maintain and use a communication system that contains:

1. A direct-access, in-and-out, operating telephone service at the facility; or

2. A two-way voice communication system that connects the facility with an individual who has direct access to an in-and-out, operating telephone service.

G. If while attending a facility an enrolled child has an accident, injury, or emergency that, based on an evaluation by a staff member, requires medical treatment by a health care provider, a licensee shall ensure that a staff member:

1. Notifies the enrolled child's parent and the Department immediately after the accident, serious physical injury, as defined in A.R.S. § 8-201, or emergency;
2. Documents:
   a. A description of the accident, serious physical injury, or emergency, including the date, time, and location of the accident, serious physical injury, or emergency;
   b. The method used to notify the enrolled child's parent; and
   c. The time the enrolled child's parent was notified; and
3. Maintains documentation required in subsection (F)(2) on facility premises for 12 months after the date of the child's disenrollment.

H. If an enrolled child's parent informs a staff member at the facility that the enrolled child's parent obtained medical treatment from a health care provider for an accident, serious physical injury, or emergency the enrolled child had while attending the facility, a licensee shall ensure that a staff member:

1. Documents any information about the enrolled child's accident, serious physical injury, or emergency received from the enrolled child's parent; and
2. Maintains documentation required in subsection (G)(1) on facility premises for 12 months after the date of the child's disenrollment.

R9-5-736. Illness and Infestation

A. A licensee shall not permit an enrolled child to remain at the facility if a staff member determines that the enrolled child shows signs of illness or infestation.

B. If an enrolled child exhibits signs of illness or infestation at a facility, a licensee shall ensure that a staff member:

1. Immediately separates the enrolled child from other enrolled children,
2. Immediately notifies the enrolled child's parent by telephone or other expeditious means to arrange for the enrolled child's removal from the facility, and
3. Maintains documentation of the notification on facility premises for 12 months after the date of the notification.

C. A licensee shall ensure that a staff member who has signs of illness or infestation is excluded from a facility.

D. A facility director shall not permit a staff member to return to a facility until free from signs of illness or infestation or until the staff member provides documentation by a health care provider that the individual may return to the facility.

E. If a staff member or enrolled child contracts a communicable disease or infestation listed in 9 A.A.C. 6, Article 2, Table 2.2, a licensee shall ensure that, within 24 hours of notice of the communicable disease or infestation, written notice is provided to each staff member, parent, and the local health department.

F. A licensee shall ensure that:

1. A dated, written notice of the communicable disease or infestation is prepared and posted in the facility's entrance as required by R9-5-303;
2. Documentation of the notification is maintained on facility premises for 12 months from the date of the notification; and
3. Documentation of the absences of staff members and enrolled children due to a communicable disease or infestation listed in 9 A.A.C. 6, Article 2, Table 2.2, is prepared and maintained on facility premises for 12 months from the first date of absence.

R9-5-737. Medications

A. A licensee shall ensure that a written statement is prepared and maintained on facility premises that specifies:

1. Whether prescription or nonprescription medications are administered to enrolled children; and
2. If prescription or nonprescription medications are administered, the requirements in subsection (B) for administering the prescription or nonprescription medications.

B. If prescription or nonprescription medications are administered, a licensee shall ensure that:

1. A facility director, or a staff member designated in writing by the facility director, is responsible for the administration of all medications in the facility, including storing, supervising an enrolled child's ingestion of a medication, and documenting all medications administered to an enrolled child;
2. A facility director ensures that only one staff member in the facility at any given time is responsible for the administration of medications;
3. A facility director, or a staff member designated in writing by the facility director, does not administer a medication to an enrolled child unless the facility receives written authorization signed by the enrolled child's parent or health care provider that includes the:
    a. Name of the enrolled child;
    b. Type of the medication;
    c. Prescription number, if any;
    d. Instructions for administration specifying the:
        i. Dosage and route of administration;
        ii. If indicated, starting and ending dates of the dosage period; and
        iii. Times and frequency of administration;
    e. Reason for the medication; and
    f. Date of authorization; and
4. A staff member:
    a. Administers a prescription medication provided by a parent only from a container dispensed by a pharmacy;
    b. Administers a nonprescription medication provided by a parent for an enrolled child only from a container prepackaged and labeled for use by the manufacturer and labeled with the enrolled child's name;
    c. Does not administer any medication that has been transferred from one container to another; and
    d. Does not administer a nonprescription medication to an enrolled child inconsistent with the instructions on the nonprescription medication's label, unless the facility receives written authorization from the enrolled child's health care provider.

C. A licensee shall allow an enrolled child to receive an injection only after obtaining a written authorization from a health care provider.

D. A licensee shall maintain the health care provider's written authorization required in subsection (C) on facility premises for 12 months after the date of the written authorization.

E. An individual authorized by state law to give injections may give an injection to an enrolled child. In an emergency, an individual may give an injection to an enrolled child according to A.R.S. §§ 32-1421(A)(1) and 32-1631(2).

F. A licensee shall maintain documentation of all medications administered to an enrolled child.

1. Documentation shall contain:
    a. The name of the enrolled child;
    b. The name and amount of medication administered and the prescription number, if any;
    c. The date and time the medication was administered; and
    d. The signature of the staff member who administered the medication to the enrolled child; and

2. A licensee shall maintain the documentation on facility premises for 12 months after the date the medication is administered.

G. A licensee shall return all unused prescription and nonprescription medications to a parent when the medication prescription date has expired or the medication is no longer being administered to the enrolled child or dispose of the medication if unable to locate the enrolled child's parent after the child's disenrollment.

H. Except as provided in subsection (J), a licensee shall ensure that prescription and nonprescription medications are stored as follows:

1. An enrolled child's medication is kept in a locked, leak-proof storage cabinet or container that is used only for storing enrolled children's medications and is located out of reach of children;
2. Medication for a staff member is kept in a locked, leak-proof storage cabinet or container that is separate from the storage container for enrolled children's medications and is located out of reach of children; and
3. Medications requiring refrigeration are kept in a locked, leak-proof container in a refrigerator.

I. Except as specified in A.R.S. § 36-2229(B) through (D), a licensee shall ensure that a facility does not stock a supply of medications for administration to enrolled children, including:

1. Any prescription medication; or
2. A nonprescription medication such as aspirin, acetaminophen, ibuprofen, or cough syrup.

J. A staff member's or enrolled child's prescription medication necessary to treat life-threatening symptoms:

1. May be kept in the activity area where the staff member or enrolled child is present; and
2. Except when the prescription medication is administered to treat life-threatening symptoms, is inaccessible to an enrolled child.

K. A licensee of a licensed child care facility owned and located on a public school premises shall ensure that enrolled school-aged children are allowed to possess emergency medications and self-administer auto-injectable epinephrine and handheld inhaler devices according to A.R.S. § 15-341, if an enrolled school-aged child:

1. Has a written prescription from a physician,
2. Is named on the prescription label, and
3. Has written documentation from the enrolled school-aged child's parent approving the enrolled school-aged child to possess and self-administer emergency medication.

R9-5-738. Transportation

A. A licensee who transports an enrolled child in a motor vehicle that the licensee owns, or acquires for use by contract, shall:

1. Obtain dated, written permission from the enrolled child's parent before the licensee transports the enrolled child;
2. Maintain written permission required in subsection (A)(1) on facility premises for 12 months after the date on the written permission;
3. Ensure that the motor vehicle is registered by the Arizona Department of Transportation as required by A.R.S. Title 28, Chapter 7;
4. Maintain documentation of current motor vehicle insurance coverage inside the motor vehicle;
5. Contact the Department no later than 24 hours after a motor vehicle accident that occurs while transporting an enrolled child;
6. Submit a written report to the Department within seven calendar days after a motor vehicle accident that occurs while transporting an enrolled child;
7. Not permit an enrolled child to be transported in a truck bed, camper, or trailer attached to a motor vehicle;
8. Use a child passenger restraint system, as required by A.R.S. § 28-907, for each enrolled child who is:
   a. Under eight years of age, and
   b. Not more than four feet nine inches tall.

9. Ensure that the motor vehicle has:
   a. A working mechanical heating system capable of maintaining a temperature throughout the motor vehicle of at least 60° F when outside air temperatures are below 60° F;
   b. Except as provided in subsection (E), a working air-conditioning system capable of maintaining a temperature throughout the motor vehicle at or below 86° F when outside air temperatures are above 86° F;
   c. Except as provided in subsection (F), a first aid kit that meets the requirements of R9-5-735(A);
   d. Two large, clean towels or blankets; and
   e. Sufficient drinking water available to meet the needs of each enrolled child in the motor vehicle and sufficient cups or other drinking receptacles so that each enrolled child can drink from a different cup or receptacle;
10. Ensure that the motor vehicle is:
   a. Maintained in a clean condition,
   b. In a mechanically safe condition, and
   c. Free from hazards; and
11. Maintain the service and repair records of the motor vehicle as follows:
   a. A person operating a single child care facility shall maintain the service and repair records for at least 12 months after the date of an inspection or repair in a single location on facility premises;
   b. A public or private school that uses a school bus, as defined in A.R.S. § 28-101, shall maintain the service and repair records for the school bus as provided in A.A.C. R13-13-108; and
   c. A school governing board, charter school, or person operating multiple child care facilities shall maintain the service and repair records for any motor vehicle other than a school bus for at least 12 months after the date of an inspection or repair in a single administrative office located in the same city, town, or school attendance area as the facility.

B. A licensee shall ensure that an individual who drives a motor vehicle used to transport an enrolled child:
1. Is 18 years of age or older;
2. Holds a valid driver's license issued by the Arizona Department of Motor Vehicles as prescribed by A.R.S. Title 28, Chapter 8;
3. Carries a list stating the name of each enrolled child being transported and a copy of each enrolled child's Emergency, Information, and Immunization Record including the attached immunization record or exemption affidavit, in the motor vehicle;
4. Requires that each door be locked before the motor vehicle is set in motion and keeps the doors locked while the motor vehicle is in motion;
5. Does not permit an enrolled child to be seated in front of a motor vehicle's air bag;
6. Requires that each enrolled child remain seated and entirely inside the motor vehicle while the motor vehicle is in motion;
7. Except as provided in subsection (E), requires that each enrolled child be secured in a seat belt before the motor vehicle is set in motion and while the motor vehicle is in motion;
8. Does not permit an enrolled child to open or close a door or window in the motor vehicle;
9. Sets the emergency parking brake and removes the ignition keys from the motor vehicle before exiting the motor vehicle;
10. Ensures that each enrolled child is loaded into or unloaded from the motor vehicle away from moving traffic at curbside or in a driveway, parking lot, or other location designated for this purpose; and
11. Does not use audio headphones or a telephone while the motor vehicle is in motion.

C. When transporting an enrolled school-age child in a motor vehicle, a licensee shall ensure that the staff-to-children ratios required in R9-5-726(A) are met. A motor vehicle driver may be counted in the staff-to-children ratio, when transporting an enrolled school-age child in a motor vehicle, if the motor vehicle driver meets the qualifications of a child educator.

D. A licensee who is transporting an enrolled child in a commercial motor vehicle, as defined in A.R.S. § 28-1301, is exempt from the provisions in subsections (A)(9), (A)(10)(b), and (B)(7).

E. A licensee who is transporting an enrolled child in a school bus, as defined in A.R.S. § 28-101, is exempt from the provision in subsection (A)(10)(c) and shall comply with A.A.C. R13-13-107.

R9-5-739. Field Trips

A. A licensee providing a field trip for an enrolled child shall:

1. Obtain written permission from a parent before the enrolled child participates in a field trip including the:
   a. Date and description of the field trip;
   b. Times of departure from and return to the facility; and
   c. Name, street address, and telephone number, if any, of the field trip destination;
2. Prepare a written field trip plan including:
   a. The name of each participating enrolled child, staff member, and other individuals on the field trip;
   b. The times of departure from and return to the facility;
   c. If applicable, the license plate number of any motor vehicle used on the field trip; and
   d. The name, street address, and telephone number, if any, of the field trip destination; and
3. Maintain the written permission in subsection (A)(1) and written field trip plan in subsection (A)(2) on facility premises for 12 months after the date of the field trip.

B. A licensee shall ensure that a staff member taking enrolled children on a field trip carries the following on the field trip:

1. Documentation of the Emergency, Information, and Immunization Record including the attached immunization record or exemption affidavit, of each enrolled child participating in the field trip;
2. A copy of the written field trip plan required in subsection (A)(2);
3. A list stating the name of each participating enrolled child; and
4. Sufficient water to meet the needs of each enrolled child participating in the field trip.

C. A staff member shall verify the presence of each enrolled child and place a checkmark next to the enrolled child's name on the list required in subsection (B)(3) for each enrolled child who is present at the following times:

1. At the beginning of the field trip or when boarding the motor vehicle,
2. Upon arrival and each hour while at the field trip destination,
3. When preparing to leave the field trip destination or when boarding the motor vehicle to return to the facility, and
4. When reentering the facility at the conclusion of the field trip.

D. A licensee shall ensure that each enrolled child participating in a field trip is wearing in plain view a written identification stating the facility's name, address, and telephone number.

E. A licensee shall also ensure that each enrolled child is wearing out of view a written identification stating the enrolled child's name.

F. If a licensee uses a motor vehicle volunteered by a parent or other individual for a field trip, a licensee shall determine before the field trip begins that the motor vehicle is in compliance with R9-5-517(A)(3) and (4) and that the motor vehicle driver is in compliance with R9-5-517(B)(1) and (2).

G. When six or more enrolled children are participating in a field trip, a licensee shall ensure that a child educator and at least one additional staff member are present on the field trip, including in each motor vehicle.

H. A licensee may use the written permission required in subsection (A) annually for multiple field trips to the same destination.

R9-5-740. General Physical Plant Standards

A licensee shall comply with the following physical plant requirements, as applicable:

1. Toilets and hand-washing sinks are available to enrolled children in a facility as follows:
   a. At least one flush toilet and one hand-washing sink for 10 or fewer children,
   b. At least two flush toilets and two hand-washing sinks for 11 to 25 children, and
   c. At least one flush toilet and one hand-washing sink for each additional 20 children;
2. A hand-washing sink required in R9-5-503(A)(2) or subsection (2) provides running water with a drain connected to a sanitary sewer as defined in A.R.S. § 45-101;
3. A glass mirror, window, or other glass surface that is located within 36 inches of the floor is made of safety glass that has been manufactured, fabricated, or treated to prevent the glass from shattering or flying when struck or broken, or is shielded by a barrier to prevent impact by or physical injury to an enrolled child.

R9-5-741. Facility Square Footage Requirements

A. A licensee shall ensure that the facility meets the following square footage requirements for indoor activity areas based on the child care services classifications at least 25 square feet of indoor activity space for each school-aged child.

B. When computing indoor activity space for subsections (A)(1) through (3) to determine licensed capacity, the floor space occupied by the following shall be excluded:
   1. The interior walls;
   2. A kitchen, bathroom, closet, hallway, stair, entryway, office, a room designated for isolating an enrolled child from other children, storage rooms, and a room designated for the sole use of child care staff; and
   3. Room space occupied by desks, file cabinets, storage cabinets, and hand washing sinks.

C. To provide activities that develop large muscles and an opportunity to participate in structured large muscle physical activities, a licensee shall:
   1. Provide at least 75 square feet of outdoor or indoor activity area per child for at least 50% of the facility's licensed capacity, or
   2. If children are in care for less than four consecutive hours, the licensee is not required to have an outdoor activity space.

D. A licensee substituting indoor activity area for outdoor activity area shall install and maintain a mat or pad designed to provide impact protection in the fall zone of indoor swings, slides, and climbing equipment.

R9-5-742. Outdoor Activity Areas

A. Except as provided in subsection (B), a licensee shall not permit an enrolled child to cross a driveway or parking lot to access an outdoor activity area on the facility premises or a school campus unless the licensee obtains written approval from the Department.

B. Except as provided in subsection (D), a licensee shall ensure that an outdoor activity area:
   1. Is enclosed by a fence:
      a. A minimum of 4 feet high,
      b. Secured to the ground, and
      c. With either vertical or horizontal open spaces on the fence or gate that do not exceed 4.0 inches;
   2. Is maintained free from hazards, such as exposed concrete footings and broken toys; and
   3. Has gates that are kept closed while an enrolled child is in the outdoor activity area.

C. A licensee shall ensure that a playground used only for enrolled school-age children at a facility operating at a public school meets the fencing requirements of the public school. If the Department determines by inspection that a facility fence at a public school does not ensure the health, safety, or welfare of enrolled children, the licensee shall meet the fencing requirements of subsection (C).

D. A licensee shall ensure that the following is provided and maintained within the fall zones of swings and climbing equipment in an outdoor activity area:

1. A shock-absorbing unitary surfacing material manufactured for such use in outdoor activity areas; or

2. A minimum depth of 6 inches of a nonhazardous, resilient material such as fine loose sand or wood chips.

E. A licensee shall ensure that hard surfacing material such as asphalt or concrete is not installed or used under swings or climbing equipment unless used as a base for a rubber surfacing.

F. A licensee shall ensure that a swing or climbing equipment is not located in the fall zone of another swing or climbing equipment.

G. A licensee shall provide a shaded area for each enrolled child occupying an outdoor activity area at any time of day.

R9-5-743. Swimming Pools

A. If a licensee uses a public or semi-public swimming pool for an enrolled child, the swimming pool shall meet the requirements of the swimming pool ordinance enacted by the local government. If no ordinance has been adopted, the swimming pool shall meet the requirements in A.A.C. R9-8-801 through R9-8-813.

B. A licensee that uses a private pool for an enrolled child shall ensure that the swimming pool and its equipment meet the following requirements:

1. If a licensee uses a private pool that is a minimum of 2 feet in depth for enrolled children, the swimming pool shall meet the requirements of the swimming pool ordinance enacted by the local government and, at a minimum, be equipped with the following:

   a. A recirculation system consisting of piping, pumps, filters, and water conditioning and disinfecting equipment that conforms to the swimming pool manufacturer's specifications for installation and operation, and is adequate to clarify and disinfect the pool water continuously;

   b. Two swimming pool inlets located on opposite sides of the swimming pool to produce uniform circulation of water and maintain uniform chlorine residual throughout the entire swimming pool without the existence of dead spots;

   c. A drain located at the swimming pool's lowest point and covered by a grating that cannot be removed by bathers;

   d. A swimming pool water vacuum system in operating condition;

   e. A removable strainer to prevent hair, lint, or other objects from reaching the pump and filter;

   f. An automatic mechanical water disinfectant system in use and in operating condition. The disinfecting agents shall maintain the swimming pool water as follows:

      i. A free chlorine level between 1.0 and 3.0 parts per million as tested by the diethyl-p-phenylene diamine method or 0.4 to 1.0 parts per million when tested by the orthotolidine method;

      ii. A pH level between 7.0 and 8.0 as tested by the diethyl-p-phenylene diamine method or the orthotolidine method; or

      iii. A bromine level between 2.0 and 4.0 parts per million as tested by the diethyl-p-phenylene diamine method;

   g. A shepherd's crook; and

   h. A ring buoy attached to a 1/2 inch diameter rope at least 25 feet in length;

2. If a licensee uses a private pool that is less than 2 feet in depth for enrolled children, the swimming pool shall meet the requirements of subsection (B)(1) except that:

   a. The swimming pool shall have a minimum of one swimming pool inlet;

   b. The swimming pool is not required to have a bottom drain;

   c. A pool water vacuum cleaning system is not required, and

   d. A ring buoy with an attached rope is not required;

3. A portable pool that does not meet the requirements of subsection (B)(1) or (2) is prohibited;

4. On each day an enrolled child uses the swimming pool, a licensee shall test the water in the swimming pool at least once every day to verify that the swimming pool water meets the swimming pool water chemical ranges in subsection (B)(1)(f);

5. A licensee shall create a written swimming pool log at the swimming pool site while enrolled children are using the swimming pool that includes results of tests required in subsection (B)(4) and maintain the written swimming pool log on facility premises for three months after the last date the swimming pool water was tested and documented.

6. If the swimming pool water does not meet the swimming pool water chemical ranges in subsection (B)(1)(f), the licensee shall:

   a. Add liquid or dissolved dry chemicals to the swimming pool water,

   b. Document any actions taken by the licensee to restore the swimming pool water chemical ranges in the written swimming pool log required in subsection (B)(5)(a), and

   c. Not allow enrolled children to use the swimming pool until tests of the swimming pool water verify that the swimming pool water meets the swimming pool water chemical ranges in subsection (B)(1)(f).

C. A licensee shall ensure that a public, semi-public, or private pool used by an enrolled child is enclosed by a wall, fence, or barrier that complies with:

1. The requirements of a swimming pool barrier ordinance adopted by the local government where the swimming pool is located; or

2. If the local government where the swimming pool is located has not adopted a swimming pool barrier ordinance, the requirements in A.R.S. § 36-1681.

D. A licensee that uses any semi-public or private swimming pool for enrolled children shall ensure that the swimming pool has been inspected by the Department or a city or county health department before it is used by enrolled children.

1. If a licensee operates or uses a swimming pool that is inspected by a city or county health department, the licensee shall provide the Department with a current written report of the swimming pool inspection.

2. A licensee shall maintain the current swimming pool inspection reports of a swimming pool used by enrolled children on the facility premises.

E. A licensee shall ensure that written permission is:

1. Obtained from an enrolled child's parent before allowing the enrolled child to participate in a swimming activity, and

2. Maintained on facility premises for 12 months after the date the enrolled child participated in the swimming activity.

R9-5-744. Fire and Safety

A. A licensee shall install and maintain a portable, pressurized fire extinguisher that meets, at a minimum, a 2A-10-BC rating of the Underwriters Laboratories in a facility's kitchen and any other location required by Standard 10-1 of the International Fire Code, incorporated by reference in A.A.C. R9-10-104.01.

B. A licensee shall ensure that:

1. All designated exits, corridors, and passageways that provide an escape from the building are unobstructed and unlocked during hours of operation;

2. Combustible material, such as paper, boxes, or rags, is not permitted to accumulate inside or outside the facility premises;

3. An unvented or open-flame space heater or portable heater is not used on the facility premises;

4. A gas valve on an unused gas outlet is removed and capped where it emerges from the wall or floor;

5. Electrical extension cords are not used;

6. Slow cookers and hot plates are used only in a kitchen and are inaccessible to an enrolled child;

7. Heating and cooling equipment is inaccessible to an enrolled child;

8. Fans are mounted and inaccessible to an enrolled child;

9. Toilet rooms are ventilated to the outside of the building, either by a screened window open to the outside air or by an exhaust fan and duct system that is operated when the toilet room is in use;

10. A toilet room with a door that opens to the exterior of a building is equipped with a self-closing device that keeps the door closed except when an individual is entering or exiting;

11. A toilet room door does not open into a kitchen;

12. A smoke detector is installed in each indoor activity area and kitchen;

13. Each smoke detector required in subsection (B)(13) is:

    a. Maintained in an operable condition;

    b. Either battery operated or, if hard wired into the electrical system of the child care facility, has a back-up battery; and

    c. Tested monthly;

14. If the local fire jurisdiction requires a sprinkler system, the sprinkler system is:

    a. Installed,

    b. Operable,

    c. Tested quarterly, and

    d. Serviced at least once every 12 months;

15. The fire extinguisher required in subsection (A):

    a. Is serviced at least once every 12 months; and

    b. Has a tag attached to the fire extinguisher that specifies the date of the last servicing, and

16. The testing required in subsections (B)(14) and (15) and servicing required in subsection (B)(16) is documented and the documentation is:

    a. Maintained by the licensee, and

    b. Available for at least 12 months after the date of the testing or servicing.

TITLE 9. HEALTH SERVICES

CHAPTER 5. DEPARTMENT OF HEALTH SERVICES –

CHILD CARE FACILITIES

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

April 2025

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT
TITLE 9. HEALTH SERVICES
CHAPTER 5. DEPARTMENT OF HEALTH SERVICES –
CHILD CARE FACILITIES

1. An identification of the rulemaking:

The purpose of this rulemaking is to update and amend the licensing requirements for Child Care Facilities licensed under Arizona Revised Statutes (A.R.S.) Title 36, Chapter 7.1, Article 1. A.R.S. § 36-883 requires the Arizona Department of Health Services (Department) to adopt reasonable rules necessary to ensure the health, safety, and well-being of children being cared for in a child care facility. The Department adopted the Arizona Administrative Code (A.A.C.) Title 9, Chapter 5 rules to implement A.R.S. §§ 36-883 through 36-883.04. The rules provide definitions; application requirements for licensure, including fingerprinting; facility administration requirements; facility staff and training requirements; facility program and equipment requirements; and requirements for the physical plant of a facility. The Department, in its 2022 Child Care Facilities five-year-review report (Report), identified that the rules' effectiveness could be improved by making the rules more clear, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements. Additionally, in this rulemaking, the Department plans to amend and establish rules for school-age children being cared for in a child care facility that only cares for school-age children. The amended rules for school-aged children are expected to broaden the types of afterschool, summer, and enrichment programs eligible for licensure by creating a separate child care license for "out-of-school time" programs. This will streamline the process for these programs to accept child care assistance by meeting the high-quality standards in the federal Child Care and Development Block Grant (CCDBG). The Department plans to make other changes in this rulemaking to improve consistency with CCDBG. This rulemaking improves the health and safety of enrolled infants and children who attend licensed child care facilities. Changes conform to the rulemaking format and style requirements of the Governor's Regulatory Review Council and the Office of the Secretary of State.

2. Identification of the persons who will be directly affected by, bears the costs of, or directly benefits from the rules:

a. The Department

b. Child Care Facilities and Staff

c. Infants and children enrolled in a Child Care Facility and parents

d. The General Public

3. Cost/benefit analysis:

The changes made through this rulemaking are expected to improve the effectiveness and efficiency of the rules. This analysis covers the cost and benefits associated with the rule changes related to implementing rules for out-of-school time programs and compliance with the Child Care & Development Block Grant (CCDBG) requirements. No new FTEs will be required due to this rulemaking. The annual cost and revenue changes are designated as none-to-minimal when $1,000 or less, moderate when between $1,000 and $10,000, and substantial when $10,000 or more in additional costs or revenues. Costs are listed as significant when meaningful or important, but not readily subject to quantification.

A. The Department and State, and Local Government Agencies

The Department

A.R.S. § 36-883 requires the Department to "define and prescribe reasonable rules regarding the health, safety, and well-being of the children to be cared for in a child care facility." A.R.S. § 36-883.04 requires the Department to "prescribe reasonable rules and standards regarding the health, safety, and well-being of children cared for in any public school child care program." Accordingly, the Department implemented A.R.S. §§ 36-883 and 36-883.04 and promulgated rules specifying licensure requirements for child care facilities at A.A.C. Title 9, Chapter 5, Articles 1 through 6. The rules provide definitions; application requirements for licensure, including fingerprinting; facility administration requirements; facility staff and training requirements; facility program and equipment requirements; and requirements for the physical plant of a facility. The purpose of the rules is to protect the health, safety, and well-being of the children to be cared for in an Arizona licensed child care facility, including public school child care programs, and to establish licensure requirements for a person or a governmental agency requesting a license to operate a child care facility.

Child care facilities play a crucial role in supporting families and the overall economy. These facilities not only provide a safe and nurturing environment for children but also have far-reaching economic implications. As of November 2024, the Department licenses 2,380 child care facilities in Arizona, which have a combined licensed capacity of over 280,291 children. Some of these facilities may have closed but were active during fiscal year 2024. In fiscal year 2024, the Department conducted 115 initial inspections and 2,055 compliance inspections. The Department also received 873 complaints,

issued 58 initial and 1299 renewal licenses, and processed 210 enforcement actions. The Department estimates the cost associated with the rulemaking to be moderate for a rules analyst and program staff to amend rules in 9 A.A.C. 5, as well as spending time to meet with stakeholders to ensure that the Department is aware of stakeholder concerns and, when appropriate, make changes to the draft rules.

Through this rulemaking, the Department is amending 40 Sections and 1 Table, throughout Chapter 5, Articles 1 through 6, to make the rules clearer, concise, and understandable by updating cross-references, correcting grammatical errors, clarifying the language throughout the rules, and removing obsolete definitions and requirements. Additional changes in the rules were made to be more consistent with statutory requirements and improve consistency with CCDBG. The Department expects to receive a significant benefit, greater than the cost incurred for drafting amended rules, for providing clearer, concise, and understandable rules for child care facilities that comply with the CCDBG requirements. In addition, the Department is creating a new Article 7 with 44 new Sections and two new Tables for school-aged children.

Amendments were made throughout Article 2, *Facility Licensure*, to update and simplify language for consistency and better clarity, including updating language to be more applicable to the online application process in a "Department-provided format" rather than "[An] application on a form provided by the Department." In addition, language was amended to reflect an attestation on the application, rather than requiring the applicant to write "a statement that the applicant has read and will comply with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter." Changes as such, directly affect the Department in creating and maintaining an online system and database for application processing. The Department has implemented a new electronic system through Salesforce to utilize in the application process. Online systems can collect and analyze data more effectively. This allows Department staff to track metrics, identify trends, and make data-driven decisions to improve processes. Moving to an online application is expected to significantly benefit the Department and applicants (child care facilities). For example, online applications increase accessibility, making it easier for a wider range of candidates to apply, including those from different geographic locations. For Department staff who process the applications, electronic applications allow for a quicker standardization processing system. The Department anticipates incurring moderate costs to maintain and update the online application and database, but expects the benefit of having a simpler and more consistent processing system will provide a significant benefit to staff by utilizing a more streamlined process.

Other changes were made in Article 2 to simplify the language referring to the documents an applicant may submit as identification to reference A.R.S. § 41-1080 and expand the acceptable forms of documentation. Since adding the statutory cross-reference expands the type of acceptable documentation

of identification, staff members who process applications for child care facilities will need to be trained on how to properly identify a valid identification type. The cost to implement this change in the rule is expected to be none-to-minimal; the Department estimates that any incurred costs would far outweigh the benefit of the amended rule due to the new rule being more inclusive. Additionally, in this rulemaking, the Department is minimizing requirements by removing the required four hours of Department-provided training, but keeping that training available as an option. The Department expects that the new change to the rule will allow staff to spend less time processing applications by not having to check that staff members at a child care facility have completed the required Department-provided training. Also, in Article 2, R9-5-209, *Inspections; Investigations*, the Department is updating language to clarify that the child care facility is required to notify the Department within 24 hours of a business closure. Requiring a facility to notify the Department within 24 hours of a business closure is expected to save the Department money and time from planning a visit to a facility that is closed for the day; no costs are expected to be incurred by a child care facility due to this change.

By adding rules for school-age out-of-school time programs in R9-5-506, *Supplemental Standards for School-age Children,* and Article 7, the Department expects to incur moderate costs due to the additional applications that will need to be reviewed and additional facilities to inspect and regulate. The Department is projecting that the new rule will expand child care programs for school-aged children by 20-25 new facilities in Arizona. No new FTEs are expected. The Department anticipates that this change in the rules will provide a significant benefit in expanding the options for child care facilities.

B. Privately Owned Businesses

Child Care Facilities and Staff

Child care facilities are small businesses that contribute to the local economy and generate revenue through tuition fees, government subsidies, and private investments. This income supports the sustainability and growth of child care businesses, further enhancing their economic impact. Child care providers are required to meet specific qualifications, including background checks, fingerprinting, and training in child development, first aid, and CPR. Staff-to-child ratios are also regulated, ensuring there are enough qualified caregivers for the number of children in the facility. Child care facilities must maintain a safe and clean environment. This includes adherence to sanitation, fire safety, and building code regulations. Regular inspections are conducted to ensure compliance.

In R9-5-101, *Definitions*, the Department is amending the terms to use updated language that is more inclusive, removing antiquated terms, and adding definitions to provide clarity to the rules. For example, the

definition of an "application" was updated to include electronic submission, and the term "written notice" was defined to allow for submissions to be either physically on paper or in an electronic format. The Department has already transitioned to an online database, which allows applicants to submit their child care facility application quickly and minimizes processing time due to expedited online processes. The Department made other changes related to electronic submissions in R9-5-205, *Submission of Licensure Fees*, to reflect the online application process. By submitting applications online, the costs of paper, ink, and postage to mail in a physical paper application are eliminated. This change in the rules will allow those affected by the rules to have more clarification that the application is to be done online. In addition, the processing and turnaround time for applicants to know if their application has been approved or if more information is required is expedited due to having the online system, which eliminates communication through paper mail. Online applications will facilitate easier application submissions for a wider range of candidates, including those from remote geographic locations. Additionally, these amendments aim to create a simpler, more inclusive, and efficient regulatory framework for childcare facility licensing, ultimately enhancing access to childcare services in rural areas. The Department is also updating the term "teacher-caregiver" to "child educator" in the definitions, as well as throughout the entire Chapter. The title change is more applicable to the terms used in the field today and aligns with updates that other states are making in their child care facility rules. The change in title for a staff member at a child care facility is not associated with a promotion or a pay raise. In addition, no new staff are required to be hired due to this new change in the rules. In this rulemaking, the Department is also changing the definition of a "student-aide," which is currently defined as "less than 16 years of age," to "between 15 and 18 years of age." This change in the rule expands the student-aid option to 17 and 18 year olds. The Department estimates that facilities may incur up to moderate costs for the change in the new rule due to the increased liability of expanding the option of becoming a student-aid, however, facilities may receive a significant benefit for having an increased number of student-aid candidates and expanding the workforce. Other terms being amended to align better with national standards are "discipline" to "positive discipline," and "self-control" to "self-regulation." The Department anticipates that having up-to-date language in the rules will provide a significant benefit to those affected by the rules by having better understandability.

In compliance with the CCDBG requirements, the Department is adding a reference to the state criminal history checks within Arizona and each state where a staff member resided during the preceding five years, and the National FBI criminal history check, with FBI fingerprint check, under the definition of a "background check." Due to the new requirement, staff and volunteers working in a child care facility will need to renew their fingerprint clearance card every five years instead of six years. Additional corresponding changes related to this were made in R9-5-203, *Fingerprinting and Background Check*, to require a staff member to have a valid background check document under A.R.S. § 46-811(A) to be completed before employment or volunteer

service, in compliance with CCDBG requirements. The cost to renew a fingerprint clearance card and complete the required background checks is the same, and no additional costs are expected to be incurred, however, the individual who possesses a fingerprint clearance card will have to renew more often due to the CCDBG requirements. The Department anticipates that the benefit of the new rules will outweigh the associated costs for facilities to comply with the fingerprinting and background check requirements.

Throughout Article 2, the Department is updating and simplifying language for consistency and better clarity, specifically for the rules to apply to the online application process, which allows applicants to complete online applications at their convenience, 24/7, without the need to visit a physical location during specific hours. Online applications often reduce the costs associated with printing, postage, and physical storage of paper applications. They can also streamline administrative tasks, reducing labor costs. Online applications can provide a more user-friendly experience for applicants, including saving progress, uploading documents, and receiving immediate confirmation of application submissions. Online forms can include validation checks to ensure that applicants provide accurate and complete information, reducing errors and incomplete applications. In addition, the Department is removing the requirement for architectural plans in R9-5-201(A)(5)(f) to be reviewed and approved by the Department. The new change should ease the application process and reduce the burden on the applicant or licensee. Furthermore, language in R9-5-201(A)(5)(i)(iii) was also simplified to only require a statement from the local jurisdiction that the certificate of occupancy (COO) is not available. The new changes clarify the process if the COO is not available. If the applicant cannot get the COO, the application is held up, and it takes more time to process. The Department anticipates that those affected by the rules will receive a significant benefit from the new changes.

Furthermore, R9-5-201(A)(5)(j) was amended for the requirements to apply to all children, including infants through 2 years old. The new change allows for a child care facility to submit the school map if the facility is licensed at a school. The Department expects facilities not to incur any additional costs due to the new change in the rule; rather, facilities are expected to save on costs. In R9-5-201(A)(5)(j)(v), the Department amended the rule to include a diaper changing area, if applicable, on the school map, whereas before it was on the architecture map. In R9-5-202, *Time-frames*, the Department simplified the rules by removing the current subsection (A), which allows the applicant and the Department to agree in writing to extend the substantive review time-frame and the overall time-frame. The Department anticipates that child care facilities will significantly benefit from having rules that are less confusing and more clear, concise, and understandable. In R9-5-206, *Licensure Fees*, the Department updated language to clarify that fees are due annually, according to A.R.S. § 36-882. The Department does not expect child care facilities to incur additional costs due to this change in the rule, and the

Department anticipates that child care facilities will receive a significant benefit by having clearer rules that include the time-frame requirement of paying the annual fees.

Similar changes were made in Article 3 to correct grammatical errors and update language to be clearer and more consistent. In R9-5-301, *General Licensee Responsibilities*, the Department is removed subsection (D) to be more consistent with the statutory authority in A.R.S. § 36-885, which only allow a parent or a representative from the Department to have immediate access to a child care facility during hours of operation, which is also referenced in R9-5-209. Currently, R9-5-301 allows for someone from the Department, the local health department, the Arizona Department of Child Safety, or the local fire department or State Fire Marshal to have immediate access to the facility premises during hours of operation. The Department does not expect the change in the rule to add costs to a child care facility, however, the change in the rule is expected to potentially create a barrier to the local health department, the Arizona Department of Child Safety, the local fire department, or State Fire Marshal since they will no longer have immediate access to a child care facility according to the rules in Chapter 5. In the case of an emergency, fire departments will be allowed immediate access to a child care facility. The Department anticipates that this change in the rules will provide a significant benefit for more secure public health and safety at a child care facility.

In R9-5-301, the Department is amending subsection (F) to make the tuberculosis testing requirements less burdensome by allowing staff members to complete a self-screening form. Depending on the results of the self-screening, the staff member may be required to be tested for tuberculosis before beginning employment. The change in the rule is expected to significantly benefit staff members and child care facilities since the new changes do not require every staff member to be seen by a physician and complete tuberculosis testing before beginning employment. Therefore, costs incurred by staff and child care facilities that pay for doctor visits and tuberculosis testing are expected to be reduced significantly. Also, in R9-5-301, the Department is clarifying that first aid and CPR certification are required, not only the training. This change was updated throughout multiple Sections in the Chapter. The change in the rule is not expected to impose a cost on child care facilities, but rather a clearer understanding of the rules. Additionally, the language in R9-5-301(I) was restructured to be listed into subsections and include “if applicable.” The Department is removing subsection (J), which requires licensees to provide parents with annual information related to recommendations for influenza vaccinations. By omitting this rule, the Department expects that child care facilities will save time and resources by not having to provide recommendations for influenza vaccinations. This change is also more consistent with the Department’s statutory authority since this rule is not specifically outlined in the statute.

In R9-5-302, *Statement of Child Care Services*, the Department is updating and amending language and creating two new subsections for the statement of child care services to include guidelines for positive discipline reflective of age-appropriate methods for children and policies and procedures for expulsion of children. The Department expects that this new change in the rule may impose a minimal administrative burden on facilities, but will have a significant benefit for including this in the statement of services. In R9-5-304, *Enrollment of Children*, the Department is removing the Department-provided Emergency, Information, and Immunization Record card, otherwise known as the "blue card." While the "blue card" is being removed, the Department is still requiring the information contained on the "blue card" to be collected on no more than a two-page written notice, and to be readily on file at the child care facility. The rule is also being amended to simplify the contact information and remove unnecessary requirements, including the home telephone number, and to add the parent's email address to be listed as a form of contact. The change in the rule allows for more flexibility, simplifies and updates the information that is being collected, and allows for records to be kept electronically. The Department expects that this change in the rule will save facilities a minimal-to-moderate amount of costs by using their business model to collect the required information, rather than the Department-provided "blue card".

In R9-5-305, *Child Immunization Requirements*, the Department is adding a new subsection to allow for a 30-day grace period for enrolled homeless children and youth to receive their required immunizations. If an enrolled child has not had immunizations, initial doses should be administered as soon as possible, unless the enrolled child has a religious or medical exemption. In R9-5-306, *Admission and Release of Children; Attendance Records*, the Department is removing subsection (A)(1) and (2) to expand the options for sign-in/sign-out to be done electronically using a secure unique identifier. Other subsections in R9-5-306 are being restructured and simplified, including removing obsolete and duplicative requirements. The Department expects child care facilities will save a minimal-to-moderate amount by having rules that allow for a unique identifier when parents are signing their enrolled child in and out of the facility.

Throughout Article 4, *Facility Staff*, the Department is correcting grammatical errors and amending language for consistency. In R9-5-401, *Staff Qualifications*, the Department is amending the rules to minimize the requirements for individuals who plan to work with only school-aged children to have three months of experience at a licensed facility working with school-aged children rather than six months of experience. The Department expects that facilities will receive a significant benefit from having the flexibility to hire a staff member with less experience and potentially be able to hire qualified staff more quickly. The Department made several amendments throughout R9-5-403, *Training Requirements*, including updating language to be clearer and more consistent with the CCBDG

requirements. In subsection (A), the Department created two new subsections for the 10 calendar day training for new staff members to include infant tummy time and prevention of sudden infant death syndrome, and use of safe sleeping practices. To ensure staff are properly trained and to increase public health and safety, the Department increased the required hours of training every 12 months from 18 to 24 clock hours. The Department anticipates that the change in the rules will impose a minimal-to-moderate impact on staff members who provide child care services at a facility by having to spend more time to complete the required trainings. While there are many free trainings available, the Department expects child care facilities or staff members at the child care facility to incur up to minimal costs for having to potentially pay for the additional required hours of training. However, the Department expects that child care facilities will receive a significant benefit for having better-trained staff working at the facility. Additionally, in R9-5-403(B)(2)(e), the Department is adding a new subsection to require a child educator providing services to school-aged children shall complete six of the 24 hours of training within the first three months of hire, this allows for some flexibility for the staff members to not have to complete all the required trainings right away. The Department expects that staff members at a child care facility will receive a significant benefit from having more time to complete the required training.

Also, in R9-5-403, several amendments were made to add new training requirements in compliance with the CCDBG requirements. Prevention of sudden infant death syndrome and the use of safe sleeping practices was a topic added to the preservice training for new staff members. As part of the required 24 clock hours of training every 12 months after the staff member's starting date of employment or volunteer service, the staff member must choose at least two topics according to the list in R9-5-403(B). The following additional topics of choice were added; prevention of shaken baby syndrome, abusive head trauma, and child maltreatment; basic child development, including cognitive, social, emotional, and physical, as well as approaches to learning; water safety; prevention and control of infectious diseases, including immunization; prevention and response to emergencies due to food and allergic reactions, including anaphylactic shock; building and physical premises safety, including identification of and protection from hazards that can cause bodily injuries such as electrical hazards, bodies of water, and vehicular traffic; emergency preparation and response planning for emergencies resulting from a natural disaster or a human-caused event; administration of medication, consistent with standards for parental or guardian consent; and handling and storage of hazardous materials and the appropriate disposal of biocontaminants. The Department expects that staff members at a child care facility may incur up to minimal costs for the increased training requirements, but will receive a significant benefit for having an expanded list of topics to receive training on. Lastly, in R9-5-404, *Staff-to-Children Ratios*, the Department is removing R9-5-404(B)(3), which states that a licensee shall not

allow a student-aide or an individual qualified as a teacher-caregiver-aide to be counted as staff in staff-to-children ratios since this subsection is duplicative to what is covered in R9-5-404(B)(2). The Department estimates that facilities will receive a significant benefit from having clearer rules.

Throughout Article 5, the Department is simplifying the rules, removing obsolete requirements, and creating new subsections to provide clarity to the rule. For example, in R9-5-501, *General Child Care Program, Equipment, and Health and Safety Standards*, the Department is adding a new subsection to clarify that a facility does not allow enrolled children to mix with non-enrolled children. This is a current expectation in the guidelines for child care facilities, however, it is not currently enforced in the rules. As all child care facilities currently follow this practice, the Department doesn't expect any costs to be incurred. Instead, the rule is anticipated to provide significant benefits to child care facilities by setting clearer expectations. The Department is removing R9-5-501(A)(11), which requires outdoor activities to allow not less than 75 square feet for each enrolled child occupying the facility's outdoor activity area or indoor activity area substituted for outdoor activity area at any time. The Department is also simplifying and removing obsolete and outdated requirements in subsections (A)(15) and (A)(16) related to candles of illumination. New language is being added to subsection (A)(15) that is clearer, concise, and understandable by clarifying that in rooms used for napping, the lighting must be dim during nap time to promote an atmosphere conducive to sleep, but must be bright enough for supervision of children. The Department expects that the changes to the rule may reduce costs for child care facilities without candles of illumination, and child care facilities are expected to receive a significant benefit from having clearer rules. In addition, costs for the Department are expected to be reduced when inspecting a child care facility by not having to measure the amount of illumination but only inspecting that the lights are dimmed during nap time. The Department is also removing R9-5-501(B), which stipulates that a toy or piece of play equipment, that is free from hazards but in a condition that does not allow the toy or play equipment to be used for the toy or play equipment's original purpose, may be in an activity area but is not counted as one of the toys or play equipment required in this Article, since it is an outdated and obsolete requirement that is unnecessary. Lastly, in R9-5-501, the Department is adding that a staff member shall not smoke or vape on facility premises, except in designated areas separated from the children, and a staff member shall not smoke or use marijuana, as specified in A.R.S. § 36-894. The Department does not expect child care facilities to incur costs related to the changes in R9-5-501, but to receive a significant benefit for having updated rules, and rules that help protect the health and safety of enrolled children.

In alignment with national standards set by the American Academy of Pediatrics, the Department is removing the requirement in R9-5-502(A)(8)(c) for a "top sheet or a blanket" to be on the crib. Loose

blankets and other soft items in an infant's sleep space can contribute to an increased risk of sleep-related infant death. Other subsections were amended to clarify that each crib sheet should be cleaned and sanitized before use by another infant. In addition, the rule was amended to remove the requirement of changing a crib blanket before use by another infant since the Department is removing the requirement of a crib blanket. Corresponding changes were made in R9-5-511, *Sleeping and Napping*, to remove the requirement of a staff member covering a crib mattress. The Department anticipates that this change in the rule may save facilities money by not having to purchase top sheets or blankets for cribs and not having to sanitize them after each use. Also, in R9-5-502, the Department is adding a new subsection to (B)(5) to specify that the licensee providing child care services for infants shall not shake an infant or child, or cause pediatric abusive head trauma. While staff at a child care facility already should not shake an infant or child, adding this specific subsection to the rules may impose minimal costs on child care facilities for staff to receive training on the prevention of shaken baby syndrome. Other subsections in the rules were amended to clarify that the documentation of each infant's activities, food consumption, diaper changes, and tummy time should include the time, in addition to the date. While staff at a child care facility already keep daily documentation of the required activities, the change to the rule clarifies that time should be recorded for more accurate documentation. The Department made further changes to the rules to clarify that dietary instructions from a parent or health care provider regarding the method of feeding and types of foods to be prepared or fed to an infant at the facility must be signed. Child care facilities are expected to receive a significant benefit for having rules in alignment with national standards and rules that allow for an increase in health and safety.

In R9-5-506, *Supplemental Standards for School-age Children*, the Department is changing the title and amending the rules to include out-of-school time programs. The Department is adding a new subsection (B) to describe an out-of-school time program, for which may apply for a child care facility license; this new change would also be consistent with the new Article 7. The changes are expected to benefit out-of-school time programs providing services to school-aged children by being more inclusive and expanding the child care facility services offered in Arizona. The Department anticipates that adding out-of-school time programs may create jobs and new small businesses in Arizona, which will provide a significant benefit to the state.

In R9-5-507, *Supplemental Standards for Children with Special Needs*, the Department is amending the title to be more inclusive, "*Supplemental Standards for Children with a Special Health Care Need or a Disability*." The terms "child with special needs" and "child with a disability" are often used interchangeably, but they can have slightly different connotations and may be interpreted differently in various contexts. "Special needs" is a broader term that encompasses a wide range of challenges,

differences, or requirements that may affect a child's development, learning, or overall well-being. Special needs can refer to a variety of conditions, such as learning disabilities, speech and language disorders, sensory processing issues, ADHD (Attention Deficit Hyperactivity Disorder), behavioral challenges, and more. It can also refer to circumstances in a child's life that require additional support, like being a child in foster care or experiencing trauma. The term "special needs" is often used in educational and social service contexts to describe children who may require individualized assistance or accommodations to thrive in various settings. A child with a disability specifically refers to a child who has a physical, intellectual, sensory, or developmental condition that significantly impairs their ability to perform daily activities and participate fully in typical activities. Disabilities can include conditions like autism, cerebral palsy, Down syndrome, blindness, deafness, and mobility impairments, among others. The term "disability" is often used in legal and medical contexts to determine eligibility for services, accommodations, or benefits based on a recognized and documented impairment. In summary, while "special needs" is a more inclusive and general term that can encompass a wide range of challenges and requirements, "disability" is a more specific term used to describe children with documented impairments that significantly affect their daily lives and participation. The Department anticipates that those affected by the rules will receive a significant benefit from having rules with updated language.

In R9-5-510, *Positive Discipline and Guidance*, the Department is restructuring and rewording the majority of this Section to be updated and clear, concise, and understandable. As previously mentioned, the Department is changing the term “discipline” to “positive discipline” so that there is no negative connotation. In a setting where multiple children play and interact, maintaining order is vital. Proper discipline helps prevent accidents and ensures that children coexist in harmony. A structured environment fosters predictability, which in turn allows children to feel secure and understand expectations. Children are more receptive to learning when they understand boundaries and behavioral expectations. Discipline paves the way for effective learning experiences. By learning discipline early on, children learn to respect others, share, wait their turn, and effectively express their emotions. The habits and self-control developed in daycare can significantly influence a child's future in school and personal and professional relationships. Discipline in the daycare setting goes beyond just managing children's behavior. It's about nurturing an environment where children feel secure, understood, and empowered to make the right choices. It's a delicate balance between providing structure and granting freedom, between guiding and letting learn, between setting boundaries and allowing exploration. With the right strategies, patience, and understanding, discipline in daycare can lay the foundation for a child's successful future. The Department anticipates that the changes to the rules will not cause child care facilities to incur

additional costs; rather, the facilities will receive a significant benefit for having updated rules that are more positive and inclusive regarding discipline.

In R9-5-514, *Accident and Emergency Procedures*, the Department is adding a new subsection in (C)(1)(f) in compliance with CFR 98.41, State Plan 5.3, 5.4.5[1] for emergency preparedness and response planning for emergencies resulting from a natural disaster, or a man-caused event (such as violence at a child care facility), within the meaning of those terms under section 602(a)(1) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5195a(a)(1)[2]), that shall include procedures for evacuation, relocation, shelter-in-place and lockdown, staff and volunteer emergency preparedness training and practice drills, communication and reunification with families, continuity of operations, and accommodation of infants and toddlers, children with disabilities, and children with chronic medical conditions. The Department is also adding a new subsection (D) in R9-5-514 in compliance with the CCDBG requirements, which requires the director to consult with appropriate state and local authorities and to establish a multi-hazard emergency and evacuation plan to protect children and staff in the event of emergencies. The Department expects that the changes to the rules may impose minimal costs on child care facilities, however, facilities are expected to receive a significant benefit from having updated rules that improve public health and safety at a child care facility.

In R9-5-518, *Field Trips*, the rules clarify that two staff members are required to be in a vehicle with six or more children when traveling on a field trip. The Department estimates that the changes to the rules will not cause child care facilities to incur additional costs; rather, child care facilities may receive a significant benefit for having clearer rules that are easier to understand. Furthermore, the Department is allowing for a licensee to use the written permission required in subsection (A) annually for multiple field trips to the same destination. The Department estimates that this new rule should minimize administrative burden on licensees and provide a significant benefit by having rules that are simpler and easier to follow.

Furthermore, throughout Article 6, the Department is updating the rules to correct grammatical errors, simplify language, and make the rules clearer. In R9-5-601, *General Physical Plant Standards*, the Department is adding "as applicable" for clarification on whom the rules apply to. For example, a child care facility only serving school-aged children does not need to implement rules related to a diaper changing area. In R9-5-602, *Facility Square Footage Requirements*, the Department is minimizing requirements by not requiring an outdoor activity space if children are in care for less than four consecutive hours. Also, the Department is removing subsections (E) and (F) regarding indoor and

[1] https://www.ecfr.gov/current/title-45/subtitle-A/subchapter-A/part-98/subpart-E/section-98.41#p-98.41(a)(1)(vii)
[2] https://www.govinfo.gov/content/pkg/USCODE-2022-title42/pdf/USCODE-2022-title42-chap68-subchapIV-B-sec5195a.pdf

outdoor substitution. This change in the rules allows for facilities to have more flexibility and may reduce costs related to facility square footage requirements, therefore, the Department anticipates that child care facilities will receive a significant benefit from the updated rules. In R9-5-603, *Outdoor Activity Areas*, the Department is simplifying language in subsection (B) by removing the requirement for the Department to provide the licensee with the requirements necessary to approve the proposed crossing if initially disapproved.

As mentioned earlier, the Department is creating a new Article 7, consisting of 44 new Sections and two Tables, specifically tailored for school-age out-of-school time programs. The requirements in Article 7 mirror the exact language applicable to school-age children in Articles 1 through 6. While these rules are duplicative, they were included in Chapter 5 based on stakeholder feedback to enhance clarity and effectiveness. Consequently, the Department anticipates no additional costs for facilities and believes that the new Article 7 will be highly beneficial for child care facilities.

Overall, the Department expects that some licensed child care facilities may incur a minimal one-time cost for having to revise administrative policies and procedures related to the new rules. In addition, the Department anticipates that the amended rules may have a significant benefit for child care facilities and staff for providing excellent care that increases the health and safety of child care facilities enrolled children.

C. Consumers

Infants and children enrolled in Child Care Facilities and their parents

Families rely on child care services to allow parents to work and contribute to the economy. Access to quality child care enables parents, particularly mothers, to maintain full-time employment or pursue educational opportunities. This, in turn, increases household income and spending power. Child care enables parents to focus on their careers, enhancing overall economic productivity. Early childhood education programs offered by child care facilities lay the foundation for future learning, improving educational outcomes, and workforce readiness. Child care facilities contribute to children's health by ensuring proper nutrition and access to medical services, and reducing health-related absenteeism among parents. The Department does not anticipate that enrolled children, parents of enrolled children, private persons, or consumers will incur any costs related to the changes in the rules.

The General Public

The Department expects that the public will receive a significant benefit from living in a state that protects children and parents by having licensed child care facilities comply with requirements that ensure and increase children’s health and safety. The Department does not expect the public to incur any

costs associated with the rulemaking.

4. A general description of the probable impact on private and public employment in business, agencies, and political subdivisions of this state directly affected by the rulemaking.

The Department does not expect the rules to have a negative impact on employment for private and public businesses, agencies, and political subdivisions. The rulemaking does not require child care facilities or the Department to hire or dismiss employees. Rather, the Department is optimistic that the changes to the rules will expand employment eligibility and improve employment at a child care facility.

5. A statement of the probable impact of the rules on small businesses:

a. An identification of the small business subject to the rulemaking:

Small businesses affected by the rulemaking include licensed child care facilities.

b. The administrative and other costs required for compliance with the rules:

A summary of the administrative effects of the rulemaking is given in the cost and benefit analysis in Section 3.

c. A description of the methods that the agency may use to reduce the impact on small businesses:

The Department knows of no other methods to further reduce the impact on small businesses and believes that the rulemaking amends and adds requirements of general applicability consistent with A.R.S. § 41-1001(21).

d. The probable costs and benefits to private persons and consumers who are directly affected by the rulemaking:

A summary of the effects of the rulemaking on private persons and consumers is given in the cost and benefit analysis, Section 3.

6. A statement of the probable effect on state revenues:

The Department does not expect the rules to have an effect on state revenues.

7. A description of any less intrusive or less costly alternative methods of achieving the purpose of the rulemaking:

The Department has determined that there are no less intrusive or less costly alternatives for achieving the purpose of the rulemaking.

8. A description of any data on which the rule is based, with a detailed explanation of how the data was obtained and why the data is acceptable data:

Not applicable.

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Gairola:

Thank you for your feedback regarding the proposed changes to A.A.C. R9-5-404 and for sharing your perspective as an owner of two "The Learning Experience" centers. The Department appreciates your work in providing high-quality care and fostering a supportive environment for children and families in your community.

The Department recognizes the concerns regarding the removal of the "bonus baby" allowance, particularly its potential impact on classroom capacities, revenue, and the financial competitiveness of providers. For facilities like yours that utilize the "bonus baby" allowance, we understand the burden this change may place on operations and access to care. For this reason, the Department plans to reinstate the allowance of the "bonus baby," keeping the rules as they are currently codified. However, since many stakeholders, including DES, expressed support for removing the "bonus baby," the Department intends to discuss this, along with the other ratio and group size issues in the next rulemaking. We hope that having robust conversations about these focused topics and inviting input from all of our stakeholders will lead to a more comprehensive solution to address these related issues.

The Department appreciates your feedback and participation in this rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway, Senior Rules Analyst
Director's Office, Administrative Counsel and Rules

Subject: RE: Removal of "Bonus Baby" allowance
To: margaret.bernal@azdhs.gov <margaret.bernal@azdhs.gov>, Stacie.Gravito@azdhs.gov <Stacie.Gravito@azdhs.gov>

Greetings,

My name is Amita Gairola and I am the owner of two locations of “The Learning Experience” in the valley.

Our centers utilize the "bonus baby" allowance. The removal of this allowance would reduce the number of infants that we can provide care for, leading to disenrollment of current families, and reduced access and availability for families seeking quality child care.

Under the current staff-to-child ratios, The Learning Experience ensures that each child receives the individual attention they need for optimal development and learning. Our safety practices allow teachers to effectively monitor and engage with each child, fostering a supportive and nurturing environment. For child care providers ensuring high level supervision under the “bonus baby” allowance, the removal of the allowance could result in increased operational costs, higher tuition fees, and make it difficult for providers to remain financially competitive. We urge the Department to consider the unintended consequences of the proposed rule change and to not amend this section of the rule.

We appreciate the Arizona Department of Health Services commitment to collaborating with stakeholders to find the best solutions for child care. We ask you to consider our feedback when finalizing the rule so that we can continue to provide high-quality care for as many children as possible.

Thank You!

Amita Gairola

Josh Stine
State Director
Arizona Alliance of Boys and Girls Clubs
602-954-8182

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Mr. Stine:

Thank you for submitting your comments regarding the proposed rules under A.A.C. Title 9, Chapter 5, Child Care Facilities. The Department appreciates your thoughtful feedback and dedication to providing safe, supportive, and enriching environments for children and youth through the Arizona Alliance of Boys & Girls Clubs.

Regarding your comment on **A.A.C. R9-5-506(A)(1)(2)** and the challenges associated with bathroom supervision for school-age children, this rule aims to ensure the safety of enrolled children while considering operational feasibility. Specifically, the requirement for staff to supervise children is aligned with the definition of "supervision" provided in A.A.C. R9-5-101(119), which states:

> "Supervision" means:
>
> a. For an enrolled child, knowledge of and accountability for the actions and whereabouts of the enrolled child, including the ability to see or hear the enrolled child at all times, to interact with the enrolled child, and to provide guidance to the enrolled child; or
>
> b. For an individual other than an enrolled child, knowledge of and accountability for the actions and whereabouts of the individual, including the ability to see and hear the individual when the individual is in the presence of an enrolled child and the ability to intervene in the individual's actions to prevent harm to enrolled children.

This definition provides flexibility in how supervision is maintained, while ensuring the safety and accountability for children's actions and whereabouts. It does not necessarily require a staff member to

escort each child to and from the bathroom, but ensures staff remain aware of the child's location and actions, as well as available to intervene if needed. The Department encourages providers to adopt supervision practices that align with this definition, while accommodating the unique needs of their programs.

In regards to **A.A.C. R9-5-703(A)(5)(f)** concerning the Department's approval of architectural plans, the Department plans to remove this subject as well as in R9-5-201(A)(5)(f) before submitting the Notice of Final Rulemaking.

As for **A.A.C. R9-5-718(B)(1)**, and the requirement to maintain daily documentation of a child's presence in each activity area, this requirement is consistent with the current standards outlined in A.A.C. R9-5-306(B) for all licensed child care facilities. It is a minimum standard for health and safety, ensuring that children's whereabouts are always accounted for. Real-time tracking is important for maintaining a safe environment, as it allows staff to respond quickly in case of an emergency or other safety concerns. While the Department recognizes that meeting this requirement may involve some operational adjustments, it is essential for ensuring the safety and well-being of children in the care of Boys & Girls Club facilities.

The supplemental standards in **A.A.C. R9-5-728** are consistent with **A.A.C. R9-5-506**, as are all the rules in Article 7. The purpose of these standards is to provide additional clarity and detail, specifically for school-age programs, while maintaining alignment with the rules in this chapter. This consistency ensures that all child care facilities, including those serving school-aged children, meet the necessary health and safety requirements.

Lastly, the Department plans to amend **A.A.C. R9-5-739(H)** to simplify the requirements for field trip permission to allow a licensee to use the written permission required in subsection (A) annually for multiple field trips to the same destination.

Thank you again for your valuable feedback. The Department appreciates your time and input throughout this rulemaking.

If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Good afternoon Ms. Bernal and Ms. Gravito,

On behalf of the Arizona Alliance for Boys & Girls Clubs, thank you for the opportunity to submit our formal comments in writing and in person earlier today.

I am following up to reiterate our concerns with the current language in **R9-5-718 (B)(1) - Documentation of Presence in Activity Areas** and provide further clarity regarding our existing roster system that is in place to ensure staff know at all times which activity area a child is in based on their age group. We believe our current roster system meets the intent of the language under R9-5-718(B)(1) but the language does not allow the flexibility that is needed for our daily operations.

To clarify, each child that enters our facilities, must be scanned in, then they are directed by staff to go to the activity area that corresponds to their age group. That child may move to multiple areas throughout the day, but they will always move with their age group. The front desk keeps track of all children that scan in and they are able to track where they are located in the facility based on their age group and the programming they are engaged in. Front desk staff keeps record of all children entering and leaving the building and they keep schedules of all programming happening in the facility.

Our roster system ensures accurate documentation while supporting the dynamic nature of our programming. We respectfully request that the final language of R9-5-718(B)(1) provide the necessary flexibility to accommodate such systems.

We are happy to share additional information, examples and any documentation that would help create a clear picture of our roster system.

Thank you again for your time and attention to this matter.

Sincerely,

Bianca Lopez, MSW | Director of External Affairs

RE: Arizona Alliance of Boys & Girls Clubs Comments on the Arizona Department of Health Services Proposed Child Care Rules

Dear Ms. Bernal and Ms. Gravito,

On behalf of the Arizona Alliance of Boys & Girls Clubs, I am writing to provide feedback on the proposed child care rules published in the Arizona Administrative Register on November 29, 2024. We appreciate the Department's efforts to update and refine these regulations to better serve children and families across the state.

Our organization represents 70 Boys & Girls Club sites across Arizona, providing safe, supportive, and enriching environments for children and youth. Our mission aligns closely with ensuring high-quality standards in child care settings, and we value the opportunity to contribute to the important process.

We would like to express concerns and suggest revisions to ensure the rules support operational feasibility while maintaining high standards for health and safety.
Specifically:

1. **R9-5-506 (A)(1)(2) - Supplemental Standards for School-Age Out-of-School Time Programs and R9-5-728, Supplemental Standards**: We recommend additional flexibility for school-age children bathroom usage. In large programs, a single child could occupy the bathroom for extended periods, requiring a staff member to continuously supervise children to and from the bathroom. Adjustments to this requirement would alleviate operational challenges.

BOYS & GIRLS CLUBS
ARIZONA ALLIANCE

2. **R9-5-703 (A)(5)(f) - Architectural Plans**: We propose revising the requirement for the Department to approve architectural plans, suggesting instead that the Department review them. Requiring approval is unnecessary and may delay construction or changes to existing facilities. Retaining the Departments ability to issue findings upon review ensures oversight without imposing unnecessary delays, especially since guidance is already provided in rules.
3. **R9-5-718 (B)(1) - Documentation of Presence in Activity Areas**: The requirement to maintain daily documentation of a child's presence in each activity area is operationally burdensome. Our programs track attendance via rosters maintained at the front desk, documenting when children enter and exit the facility. Children are grouped together in activity areas by age group and move frequently with their age group to other activity areas throughout the day. As long as attendance is maintained at the front desk, we know which area children are located based on program schedule and age group. Children are also checked in and out of the facility at different times of the day. Given the frequent movement of children from program activity to program activity, real-time tracking within specific areas is impractical. We recommend revising this requirement to reflect more practical, facility-wide tracking methods.
4. **R9-5-728 - Supplemental Standards**: These supplemental standards are redundant since the general rules in this chapter already apply to school-aged children. For clarity and consistency, we suggest removing these supplemental standards.
5. **R9-5-739 (A)(1)(2)- Field Trip Rules**: While obtaining parental permission for field trips is reasonable, flexibility is needed for routine use of adjacent parks. Programs may not always know exact times or dates for park use. We recommend allowing such permissions to be included as part of a child's enrollment process.

We believe that incorporating these adjustments will enhance the proposed rules, ensuring they are equitable and practical while continuing to prioritize the well-being of Arizona's children.

Thank you for the opportunity to provide input on this important initiative. The Arizona Alliance of Boys & Girls Clubs remains committed to partnering with the Arizona Department of Health Services to achieve our shared goals.

Sincerely,

Josh Stine
State Director

Christine M. Thompson
Governing Board Vice President
Madison Elementary School District
5601 N. 16th Street
Phoenix, AZ 85016

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Thompson:

Thank you for your comments regarding the proposed rulemaking to Arizona Administrative Code Title 9, Chapter 5, related to child care facilities. We appreciate your engagement as both an elected member of the Madison Elementary School District Governing Board and a parent with experience with these programs.

Regarding your comment on A.A.C. R9-5-403, the increase in the annual training requirement is tied to the reduction in the qualification requirement for child educators working with school-aged children, which has been decreased from six (6) months to three (3) months of experience. The Department recognizes that this change may present challenges for part-time and seasonal staff; however, the Department believes this amendment may help enhance the health and safety of children and the effectiveness of child care programs.

Additionally, the Department understands your concerns about the 1:20 caregiver-to-child ratio in A.A.C. R9-5-726; however, this is consistent with the current ratio requirements in A.A.C. R9-5-404. Further adjustments to these ratios are outside the scope of this particular rulemaking. The Department has already initiated a subsequent rulemaking to address caregiver-to-child ratios and to provide more time for stakeholder engagement on this and other topics.

The Department appreciates your feedback and participation in this rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway, Senior Rules Analyst
Director's Office, Administrative Counsel and Rules

Good afternoon,

Thank you, the Department appreciates your feedback. If you have any additional comments, please let us know.

Thank you,

On Mon, Jan 6, 2025 at 2:56 PM Christine Thompson <cthompson@madisoned.org> wrote:

> To whom it may concern:
>
> I am writing today to submit a public comment regarding proposed rulemaking modifications to Arizona Administrative Code Title 9, Chapter 5 related to child care facilities. I am an elected member and Vice President of the Madison Elementary School District Governing Board (a district which provides preschool and after school care programs), as well as a parent whose children have engaged in the programs over many years.
>
> First, I would like to extend my appreciation for changes made that address some staffing challenges. As outlined in the changes to R9-5-301, allowing staff to complete a self-screening form instead of completing specific tuberculosis testing requirements is a huge help. This reduces undue burdens on staff applicants while maintaining safety. Additionally, changes to R9-5-401 that reduce the experience required for child educators working with school aged children from 6 months to 3 months are incredibly helpful.
>
> These rules still pose some challenges. Requiring 24 hours of training annually to staff (R9-5-403) regardless of their employment status (full/part time, seasonal/year-round) will be difficult to meet as we have some staff who only work 90 minutes one day a week to provide after school care services, while others work full-time. Requiring the same annual training for these disparate individuals is onerous.
>
> On a related note, I would also like to encourage the Department to seek exemptions or modified rules for state funded public school districts. As an example, the 1:20 caregiver to child ratio required (R9-5-726) is DRASTICALLY different from the ratio of teachers/admin to students on our public school campuses every day during school hours (classrooms across the state often have 1:35 or more). Parents have an expectation that their schools will maintain the same level of safety in the aftercare programs, and school board members hear about it. Requiring markedly different staffing in aftercare programs - difficult to fill part-time employment positions - leads to aftercare waitlists and an undue burden on working parents.
>
> I appreciate that these rules for licensure apply to school districts seeking to provide a licensed program as well as stand alone programs provided by other entities. However, the stated example is but one of several rules that are in dynamic tension with the state and federal laws and funding under which K12 public schools must operate. Such rules do not recognize that public district schools are governed by locally elected leaders, obligated to address the needs of their students & families, who are held accountable by their communities for such decisions.
>
> Thank you for your consideration. I'm available to answer any questions.
>
> Sincerely,
> Christine M. Thompson

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Iverson:

Thank you for your feedback regarding the proposed changes to A.A.C. R9-5-404 and the concerns you raised about the potential impacts on child care facilities. The Department values your input and recognizes the challenges this change may present to providers.

The Department has received several comments requesting the removal of the "bonus baby" provision. This issue was identified during the five-year review of the rules, where it was noted that the Department would explore changes to align with national standards. Arizona is one of the few states that still permits the bonus baby provision, and removing it is consistent with best practices adopted across the country. Since initiating this rulemaking in 2023, the Department has received numerous comments supporting this change, reflecting the broader community's interest in updating standards to enhance child safety and to align with national standards.

Furthermore, the Department understands the burden this change may place on facilities like yours that utilize the “bonus baby” allowance and acknowledges your concerns about reduced classroom capacities, potential revenue impacts, and the financial challenges associated with facility modifications. For this reason, the Department plans to reinstate the allowance of the “bonus baby,” keeping the rules as they are currently codified. However, since many stakeholders, including DES, expressed support for removing the "bonus baby," the Department intends to discuss this, along with the other ratio and group size issues in the next rulemaking. We hope that having robust conversations about these focused topics, and inviting

input from all of our stakeholders will lead to a more comprehensive solution to address these related issues.

The Department appreciates your feedback and participation in this rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway, Senior Rules Analyst

RE: Title 9: Health Services, Chapter 5: Department of Health Services - Child Care Facilities Staff-to-Children Ratios (R9-5-404)

Bureau Chief Bernal,

On behalf of The Learning Experience Academy of Early Education® (TLE), we are pleased to provide comments to the Arizona Department of Health Services (ADHS) regarding the proposed changes to Title 9: Health Services, Chapter 5: Department of Health Services - Child Care Facilities Staff-to-Children Ratios (R9-5-404).

The Learning Experience (TLE) is one of the most trusted brands in the childcare industry with more than four hundred open schools and over 250 centers under development, serving approximately 50,000 children and their families. In Arizona, there are four corporate-owned TLE centers and seven franchisee-owned TLE centers that provide care and early education for more than 1,300 little learners aged six weeks to six years and employ over 250 Early Education and Care (ECE) professionals statewide.

We appreciate the Department's dedication to maintaining high-quality standards in licensed child care. The Learning Experience shares this commitment to ensuring the health, safety, and well-being of the children in our care as well as providing the best support for the early childhood development of each of our little learners. In collaboration, we offer the following comments to assist ADHS as it progresses in the potential rulemaking for early education and child care facilities.

The proposed rule would lower the staff-to-child ratio in the infant and toddler age-groups removing the allowance of a "bonus baby." The Department has indicated that this proposed change will be adopted[1] citing:

"In R9-5-404, the Department is removing the allowance of a "bonus baby" for infants and 1-year-olds due to stakeholder comments and national standards. About 80% of Arizona facilities are not using this allowance due to other requirements, and the change may incur minimal-to-moderate costs for some facilities but will ensure increased supervision."[2]

[1] ccf-stakeholder-comments.pdf pg. 1

[2] https://www.azdhs.gov/documents/policy-intergovernmental-affairs/administrative-counsel-rules/rules/rulemaking/child-care/npr-final-1.pdf

The Learning Experience’s corporate-owned and franchisee-owned centers have historically and currently utilize the "bonus baby" allowance. The removal of this allowance would reduce the number of infants that we can provide care for, leading to disenrollment of current families, and reduced access and availability for families seeking quality child care.

Under the current staff-to-child ratios, The Learning Experience and its franchisees ensure that each child receives the individual attention they need for optimal development and learning. Our safety practices allow teachers to effectively monitor and engage with each child, fostering a supportive and nurturing environment. For child care providers ensuring high level supervision under the “bonus baby” allowance, the removal of the allowance could result in increased operational costs, higher tuition fees, and make it more difficult for providers to remain financially competitive. We urge the Department to consider the unintended consequences of the proposed rule change and to not amend this section of the rule.

We appreciate the Arizona Department of Health Services commitment to collaborating with stakeholders to find the best solutions for child care. We ask you to consider our feedback when finalizing the rule so that we can continue to provide high-quality care for as many children as possible.

Sincerely,

Danielle Iverson

Ginger Sandweg
Senior Director, Early Learning

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Sandweg:

Thank you for submitting your thoughtful feedback regarding the proposed rule changes under A.A.C. Title 9, Chapter 5: Child Care Facilities. The Department values your commitment to the healthy development and learning of young children and appreciates the time you have taken to provide detailed suggestions. Below, are the Department's responses to your comments:

A.A.C. R9-5-301(I)(2)
The intent of this rule is for each staff member on-site at the time of the fire drill to participate. Additional guidance will be provided in a Department-issued guidance document once the rules are approved and in effect to ensure clarity and consistent understanding of this requirement.

A.A.C. R9-5-403(A)(14)
While the Department agrees that training on sun safety should include important topics like recognizing signs of dehydration, heat exhaustion, and heat stroke, the Department believes adding this level of specificity to the rule could inadvertently limit other essential sun safety requirements. This topic will be addressed in the Department's guidance documents following the implementation of the rules to ensure understanding.

A.A.C. R9-5-403(B)(1)(b)(xv)
Your suggestion to link training on physical restraint techniques to A.A.C. R9-5-510(D) is appreciated. While the rule does not explicitly make this connection because A.A.C. R9-5-510(D) does not define "physical restraint," the training requirement under A.A.C. R9-5-403(B)(1)(b)(xv) is applicable to A.A.C.

R9-5-510(D) and should be interpreted as such. This clarification may also be addressed in a guidance document to help providers align their training and practices with the rules.

A.A.C. R9-5-501(B)(5)(d)
The Department appreciates your recommendation to define "weather permitting." The Department recognizes the importance of clear guidelines for outdoor activities. While the current rule does not provide a specific definition, the Department agrees that your suggestion can be incorporated into a guidance document once the rules are effective. This will allow providers to make informed decisions about outdoor activities while ensuring the health and safety of children.

A.A.C. R9-5-502(B)(2) and A.A.C. R9-5-504(A)(1)
The current rules requiring thirty (30) consecutive minutes of physical activity are only the minimum standards. Facilities are welcome to implement more stringent practices, such as the 15 consecutive minutes. The Department has limitations on creating additional and more burdensome requirements in rulemaking, which is why this rule was not amended.

A.A.C. R9-5-503
The Department understands your request to clarify that a nonabsorbent paper liner is not acceptable. This may be something that can be addressed in a guidance document to ensure clarity for providers. Additionally, your suggestion to include the Department of Economic Security's form (CCA-1200A) on the Department's resources page will be reviewed for feasibility and implementation.

The Department appreciates your feedback and collaboration in this rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway, Senior Rules Analyst
Director's Office, Administrative Counsel and Rules
Arizona Department of Health Services

January 7, 2025

Margaret Bernal, Bureau Chief
Arizona Department of Health Services, Bureau of Child Care Licensing
150 N. 18th Avenue, Suite 400
Phoenix, Arizona 85007

Dear Ms. Bernal:

Thank you for the opportunity to provide feedback on the Proposed Rulemaking in the Arizona Register dated November 29, 2024. First Things First Would like the Department of Health Services, Bureau of Child Care Licensing to consider the following:

R9-5-301.I.2
While this is just a restructure of the text, it comes across unclear. Does this mean that all who are listed in the text that are on site at the time of the fire drill need to participate or all who are listed whether they are on site or not need to participate each month? Clarity in the text or in clarification would be helpful.

R9-5-403.A.14
Suggest to add, “including signs of dehydration, heat exhaustion,and heat stroke” as a part of the sun safety policies and procedures training requirements.

R9-5-403.B.1.b.xv
Suggest to add, “If using physical restraint as identified by R9-5-510D” as part of the physical restraint techniques health and safety issues topic options. The intent is to ensure that if providers are going to use physical restraint, that they are training their staff and connecting to the rule about use of physical restraint.

R9-5-501.B.5.d
Recommend defining weather and air quality to ensure clarity of when it is permitted. As an example, Quality First uses the following guidance in assessments: “Weather permitting” means almost every day, unless there is active precipitation or extremely hot or cold conditions. Weather does not permit outside activity for children when there are public announcements that advise people to remain indoors due to weather conditions, such as high levels of pollution or extreme cold or heat that might cause health problems. In addition to the weather permitting guidelines specified above, dangerous weather conditions that could potentially be harmful to children will also be acceptable reasons for not going outside, such as threat of severe weather (ex. hurricanes, tornadoes, thunder storms)." roughly 25-90

degrees, including windchill considerations, and if the environment has mitigating safety factors such as adequate shade, water, fans, etc. It is sometimes said, “There is no bad weather; only bad clothes.” Therefore, children should be dressed properly and allowed outdoors on most days. This might require that the schedule be changed to allow children outdoor play in the early morning if it will be hot later in the day. Or it might require that the program ensure that children have boots and a change of clothes for a day when the grass is wet. After bad weather, staff should check the outdoor area before children go out, dry off equipment, sweep away water, and block off puddles, as needed. Programs with protected outdoor areas, such as a deck or patio, are more likely to be able to meet the requirements for allowing outdoor activity daily, “weather permitting.”

Additional resources that define weather and air quality can be found here:

- Caring for Our Children 3.1.3.3: Protection from Air Pollution While Children Are Outside https://nrckids.org/CFOC/Database/3.1.3.3

R9-5-502.B.2 and R-9-5-504.A.1

Recommend lowering time from 30 consecutive minutes to “no more than 15 consecutive minutes twice per day.” If the rule must remain at 30 consecutive minutes, suggest adding additional wording, “as long as there is adult interaction directly with the confined child during the 30 minutes” to ensure there is adult awareness and contact with children who are awake and still in confined settings.

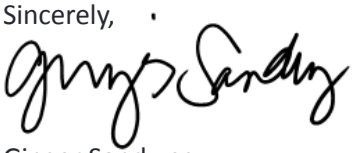
R9-5-503

Clarify that a nonabsorbent paper liner is not acceptable. This could be addressed as a clarification for the rules rather than changing the current rule.

Recommend adding this form https://des.az.gov/sites/default/files/dl/CCA-1200A.pdf?time=1688078378172 to the forms on the Resources tab on the home page ADHS - Child Care Facilities Licensing - Providers - Home (azdhs.gov)

Thank you for considering the feedback of First Things First. We are committed to the healthy development and learning of young children from birth to age 5 and believe the changes to the rule in the Notice of Proposed rulemaking as well as the suggestions above will support our efforts.

Sincerely,



Ginger Sandweg

Re: Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Gresham:

Thank you for submitting your comments regarding the proposed rules under Title 9, Chapter 5, Child Care Facilities. The Department appreciates your thoughtful feedback and your support for replacing the tuberculosis test with an attestation and reducing the time of service required for staff to work alone with school-age children.

The Department understands your concerns regarding the proposed increase in required training hours to 24 per year. The intent behind this proposal is to ensure that staff have adequate training to support student safety while accommodating the lowered qualifications for school-age staff. However, we recognize the challenges this requirement may pose, particularly for part-time employees and in meeting the specific needs of programs like yours.

Regarding your comments on background checks, the Department would like to note that these requirements are designed to align with the federal Child Care and Development Block Grant (CCDBG) requirements, which help ensure consistency and safety across child care programs.

Your suggestions, including maintaining the current 18-hour training requirement and streamlining qualifications to align with school district requirements, have been noted and will be carefully considered as we continue to evaluate the proposed changes.

If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Feeley, Senior Rules Analyst

Margaret Bernal
Bureau Chief, Division of Public Health Licensing Services
Arizona Department of Health Services
Bureau of Child Care Licensing
150 N 18th Ave, Suite 400
Phoenix, AZ 85007

Dear Ms. Bernal,

I wish to comment on the Notice of Proposed Rulemaking filed on November 6, 2024. I am the current President of the Madison Elementary School District Governing Board, and licensing requirements affect our before and after school child care programs. Two items I support are replacing the tuberculosis test with an attestation, and reducing the time of service required in order for staff to be alone with school age children. The TB test has long been a burden on our new staff due to having to pay out of pocket prior to their employment, while this is not a requirement for any of our other departments. Our district has a constant wait list for our programs, mainly due to trouble hiring staff and the small ratios required (which are much smaller than our schools even though they are the same children). Changing the ratio to the same as K-8 would greatly reduce our staffing needs and the waitlist for those in need of childcare.

One item I am not in support of is increasing the required training hours to 24 per year. This requirement does not take into account the full time status of the employee or number of days/hours the employee works. For example, staff that work 90 minutes a week have the same number of hours as a full time preschool teacher. In addition, the topics required do not consider where and whether they will be needed. As another example, our staff have to train 2 hours per year on SIDS and infant requirements that they will never use in this position. Training is a large expense for any employer, and it is a burden to accomplish these hours for providers with many part-time employees. Please keep the requirement to the current 18 hours at a maximum.

There are many additional background checks and qualification documents required for our child care team that are above and beyond normal school district requirements. It is difficult to hire part time staff when they have to jump through so many hoops before they begin employment. Again, streamlining these requirements to agree with our schools' would go a long way toward hiring enough staff and reducing our waitlist accordingly.

Thank you for reading my concerns. I understand the goal is student safety, and I believe we can keep students safe without some of these limiting requirements. Our goal is to serve as many families as we can.

Sincerely,

Karen Gresham

Governing Board President

Madison Elementary School District

DEPARTMENT OF
HEALTH SERVICES

December 9, 2024

Ralph M. Shenefelt
Senior Vice President
Health and Safety Institute

Dear Mr. Shenefelt:

Thank you for your detailed comments and suggestions regarding the proposed rule language.

The Department recognizes the importance of ensuring that staff are well-prepared to handle emergencies involving individuals of all ages. For this reason, we believe it is essential to retain the requirement for both adult and pediatric CPR certification in the rules.

Based on previous Department research, we have found that most CPR training programs include adult CPR as a standard component and often offer pediatric CPR as an additional module. This structure ensures comprehensive training while minimizing any potential burden on childcare providers. Including both adult and pediatric CPR certification ensures staff are equipped with the necessary skills to respond effectively, particularly in situations where children may be adult-sized but still require pediatric-specific techniques.

We appreciate your engagement in this rulemaking process.

Sincerely,

Administrative Counsel & Rules
Arizona Department of Health Services

RE: Proposed Administrative Rule Comment, R9-5-301G

Dear Ms. Bernal,

The purpose of this letter is to request amendment of the proposed rules of the Arizona Department of Health Services ("Department").

I. **Proposed Rule Language** (R9-5-301G., *and all subsequent occurrences of similar language*)

a. “A licensee shall ensure that a staff member who has current ~~training~~ certification in adult and pediatric first aid and CPR, as required by R9-5-403(E), is present:…”

II. **Requested Amendment**

a. “A licensee shall ensure that a staff member who has current ~~training~~ certification in ~~adult and~~ pediatric first aid and CPR, as required by R9-5-403(E), is present:…”

I. **Reasons for Requesting Amendment**

a. The U.S. Department of Health & Human Services, Administration for Children & Families, Office of Child Care (“OCC”) specifically requires pediatric first aid and CPR for childcare providers that serve children receiving Child Care and Development Fund (“CCDF”) assistance.[1]
b. The OCC requirement for pediatric first aid and CPR is based on national standards for health and safety in childcare and early education that require all staff members involved in providing direct care to children complete and document training in pediatric first aid and CPR.[2]
c. The National Association for the Education of Young Children (“NAEYC”) standards for early childhood programs require that staff have training in pediatric first aid.[3]
d. First aid for children in the early care and education setting requires a more child-specific approach than standard adult-oriented first aid offers.[4] Consequently, pediatric first aid courses designed to meet national standards for health and safety in childcare and early education must be distinctly child-focused.[5],[6],[7]
e. An OCC National Database of Child Care Licensing Regulations search returns 157 state regulations and 22 statutes referencing pediatric first aid and only 4 that specifically reference "adult first aid."[8]
f. Requiring certification in adult first aid in addition to pediatric first aid will needlessly burden childcare facilities and staff with the added time and cost of an adult first aid training class that is not prescribed by either national standards or federal requirements.
g. Note that current guidelines for pediatric basic life support (CPR) apply to infants younger than approximately 1 year of age and child guidelines apply to children approximately 1 year of age until puberty. Puberty is defined as breast development in females and the presence of axillary hair in males. For those with signs of puberty and beyond, adult CPR guidelines are to be followed.[9] Therefore, training and certification in pediatric CPR for all ages of children necessarily includes adult CPR.

Additional Facts

a. The American Heart Association®, Inc. (“AHA”), American National Red Cross (“ARC”), and Health and Safety Institute (“HSI”) are the largest providers of CPR training in the United States.[10],[11]
b. The training business units of the HSI, AHA, and ARC are similar.

i. Each corporation develops and markets commercially available, proprietary training programs, products, and services to their approved Training Centers, either directly or via distributors.

ii. The business structures of the approved Training Centers include sole proprietorships, partnerships, corporations, LLCs, non-profits, as well as both large and small government agencies.

iii. Instructors are authorized to certify course participants. Certification requires instructor evaluation of hands-on skills to verify skill competency.

c. HSI's First Aid and CPR training programs are currently in use by, and accepted, approved, or recognized as meeting the requirements of thousands of employers, state regulatory agencies, occupational licensing boards, professional associations, commissions, and councils in hundreds of occupations and professions nationwide.
d. HSI publishes and administers a set of quality assurance standards designed to monitor and improve the performance of HSI, its approved Training Centers and Authorized Instructors so that the products and services provided meet or exceed the requirements of regulatory authorities and other approvers.
e. HSI is a member of the Council on Licensure, Enforcement and Regulation (CLEAR), the international resource for professional regulation stakeholders. HSI Quality Assurance representatives are Nationally Certified Regulatory Investigators.
f. HSI is a member of the American National Standards Institute (ANSI) and ASTM International (ASTM) – both globally recognized leaders in the development and delivery of international voluntary consensus standards.

Conclusion

National standards, federal requirements, state statutes, and regulations for health and safety in childcare and early education require *child-specific*, pediatric first aid and CPR training. Requiring certification in adult first aid in addition to pediatric first aid will needlessly burden childcare facilities and staff with the added time and cost of adult first aid training that is not required by national standards or federal requirements. We value, believe in, and promote successful completion of a valid pediatric first aid and CPR program as an important component in protecting public safety, health, and welfare. We look forward to helping the Department protect the health and safety of the children of Arizona.

Respectfully,

Ralph Shenefelt

SVP, Regulatory, Accreditation, & Quality Assurance

I spoke with Margaret briefly, and we'll collaborate on a response. I believe updating "training" to "certificate" might be okay, but I believe there was discussion on how there are staff trained but not certified. Based on my previous research, CPR courses often don't distinguish between "adult" and "pediatric." They typically cover adult CPR but don't always include pediatric techniques. Removing "adult" could raise safety concerns, as employees should be equipped to handle CPR for both adults and children—especially in cases where a child is adult-sized.

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Stewart:

Thank you for your feedback regarding the proposed changes to A.A.C. R9-5-404 and the concerns you raised about the potential impacts on child care facilities. The Department values your input and recognizes the challenges this change may present to providers.

The Department has received several comments requesting the removal of the "bonus baby" provision. This issue was identified during the five-year review of the rules, where it was noted that the Department would explore changes to align with national standards. Arizona is one of the few states that still permits the “bonus baby” provision, and removing it is consistent with best practices adopted across the country. Since initiating this rulemaking in 2023, the Department has received numerous comments supporting this change, reflecting the broader community's interest in updating standards to enhance child safety and to align with national standards.

For facilities like yours that utilize the “bonus baby” allowance, the Department understands the burden this change may place and acknowledges your concerns about reduced classroom capacities, potential revenue impacts, and the financial challenges associated with facility modifications. For this reason, the Department plans to reinstate the allowance of the “bonus baby,” keeping the rules as they are currently codified. However, since many stakeholders, including DES, expressed support for removing the "bonus baby," the Department intends to discuss this, along with the other ratio and group size issues in the next rulemaking. We hope that having robust conversations about these focused topics, and inviting input from all of our stakeholders will lead to a more comprehensive solution to address these related issues.

The Department appreciates your feedback and participation in this rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway, Senior Rules Analyst

Subject: Comments on potential licensing changes
To: Stacie.Gravito@azdhs.gov <Stacie.Gravito@azdhs.gov>

R9-5-404

After reviewing the proposed changes to licensing regulation R9-5-404 we have created a list of potential cons the proposed licensing regulation may cause.

- Reduced accessibility to quality childcare: Limiting enrollment may prevent members of our community from finding quality childcare in the area for specific age groups.

- Increase Cost: With fewer children allowed in each classroom, schools are at risk of losing revenue which will cause owners to have to increase tuition.

- Impact employment: The capping of classrooms will reduce employment opportunities for educators. Causing job loss and a reduction in job security for educators.

- Many programs were affected by the preschool programs that began enrollment in the public school setting, this impacted our schools significantly decreasing classroom ratios will cause a loss in revenue with potential closures of centers. Specifically, centers that are franchised.

- Is there a possibility for schools to be grandfathered in so this rule will not impact the facilities that have been operating at licensing capacity for their classrooms?

- If the rule is processed and put into regulation what does that look like for converting classroom? (I.E. adding pony wall, restrooms, overall conversion)

- If classrooms must be converted to be in compliance with this regulation the cost to covert classrooms can be detrimental to franchisees which potentially put us a risk of closures.

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Mr. Stine:

Thank you for submitting your comments regarding the proposed rules under A.A.C. Title 9, Chapter 5, Child Care Facilities. The Department appreciates your thoughtful feedback and dedication to providing safe, supportive, and enriching environments for children and youth through the Arizona Alliance of Boys & Girls Clubs.

The requirements in A.A.C. R9-5-718(B)(1) to maintain daily documentation of a child's presence in each activity area are consistent with the current standards outlined in A.A.C. R9-5-306(B) for all licensed child care facilities. The Department believes this is a minimum standard for health and safety to ensure that children's whereabouts are always accounted for. Real-time tracking is important for maintaining a safe environment, as it allows staff to respond quickly in case of an emergency or other safety concerns. While the Department recognizes that meeting this requirement may involve minimal operational adjustments for a licensee, but believes this is essential for ensuring the safety and well-being of children in care.

Thank you again for your valuable feedback. The Department appreciates your time and input throughout this rulemaking.

If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

RE: Arizona Alliance of Boys & Girls Clubs Comments on the Arizona Department of Health Services Proposed Child Care Rules

Dear Ms. Bernal and Ms. Gravito,

On behalf of the Arizona Alliance of Boys & Girls Clubs, I am writing to provide feedback on the proposed child care rules published in the Arizona Administrative Register on February 21, 2025. We appreciate the Department's efforts to update and refine these regulations to better serve children and families across the state.

Our organization represents 77 Boys & Girls Club sites across Arizona, providing safe, supportive, and enriching environments for children and youth. Our mission aligns closely with ensuring high-quality standards in child care settings, and we value the opportunity to contribute to the important process.

We would like to express concerns and suggest revisions to ensure the rules support operational feasibility while maintaining high standards for health and safety. Specifically:

R9-5-718 (B)(1) - Admission and Release of Children: Attendance Records: The requirement to maintain daily documentation of a child's presence in each activity area is operationally burdensome. Our programs track attendance via rosters maintained at the front desk, documenting when children enter and exit the facility. Children are grouped together in activity areas by age group and move frequently with their age group to other activity areas throughout the day. As long as attendance is maintained at the front desk, we know which area children are located based on program schedule and age group. Additionally, staff conduct head counts and implement a hall pass system to ensure staff account for children outside of the activity room while in the bathroom. Children are also checked in and out of the facility at different times of the day. Given the frequent movement of children from program activity to program activity, real-time tracking within specific areas is impractical. We recommend revising this requirement to reflect more practical, facility-wide tracking methods.

BOYS & GIRLS CLUBS
ARIZONA ALLIANCE

We believe that incorporating this adjustment will enhance the proposed rules, ensuring they are equitable and practical while continuing to prioritize the well-being of Arizona's children.

Thank you for the opportunity to provide input on this important initiative. The Arizona Alliance of Boys & Girls Clubs remains committed to partnering with the Arizona Department of Health Services to achieve our shared goals.

Sincerely,

Josh Stine
State Director
Arizona Alliance of Boys and Girls Clubs

Margaret Bernal
Department of Health Services, Bureau of Child Care Licensure
150 N. 18th Avenue, Suite 400
Phoenix, Arizona 85007

Dear Ms. Bernal:

Thank you for the opportunity to provide feedback on the Proposed Rulemaking in the Arizona Register dated February 21, 2025. First Things First Would like the Department of Health Services, Bureau of Child Care Licensing to consider the following:

R9-5-404
First Things First recommends that the ratios for infants are maintained at a maximum of 1:5 and 2:10 with the same logic for one-year-olds at 1:6 or 2:12. Although not recommended in any of the previous rules changes nor First Things First feedback, we also recommend reducing the ratios and adding group sizes that get as close as possible to the ratios and group sizes recommended by the America Academy of Pediatrics.

Research shows lower caregiver-to-child ratios lead to better interactions and improved developmental outcomes for children[1]. However, the current ratios make it difficult for caregivers to meet the care standards required by licensing regulations and meet the developmental and safety needs of the children. For instance, an infant teacher responsible for five infants (1:5 ratio) must supervise tummy time for one child, bottle-feed another, change a diaper, and still monitor two more infants—all at the same time. This workload is overwhelming and impractical. Even with two caregivers in the room, this ratio of infants and one-year-olds per caregiver makes it harder to provide quality care, including the individualized time and supervision that infants and toddlers need.

Required ratios and group sizes help staff provide better supervision and, in general, children who are younger should have more adults present and smaller group sizes. Specifically:

- Children feel safe and secure with one-on-one attention which also reduces feelings of being overwhelmed—for both children and adults. This type of responsive caregiving is very important to children's social-emotional development, physical well-being, and overall learning.
- Smaller group sizes allow adults to interact more easily with each child and quickly respond to each child's unique needs quickly.[2]

Additionally, The Center for Law and Social Policy (CLASP)[3] sets the stage for why improving ratios and group sizes are important for the well-being of infants and toddlers. This age group is completely reliant

[1] https://childcare.gov/consumer-education/ratios-and-group-sizes

[2] IBID

[3] https://www.clasp.org/improve-center-ratios-and-group-sizes/#:~:text=The%20landmark%20National%20Institute%20of,in%20care%20with%20worse%20ratios.

on their caregivers, optimally who they have a trusting and secure relationship with. Their language and social development is directly impacted by the interactions they have with trusted caregivers. Small ratios and group sizes allow caregivers to have more positive interactions with young children which, in turn, supports better language and social-emotional skills.

Higher adult/child ratio has been found to be associated with adults exhibiting more positive and less negative affect/emotion.[4] Previous studies further suggest that when fewer adults are in charge of a larger group of children, the caregivers become more focused on managing and controlling the children's behavior. This means that the adults will give more commands and corrections, exert more negative control and spend less time engaged in reciprocal conversations or playful interactions with the children.

The physical and emotional safety of children depends on caregivers who are available and not overwhelmed by the number of children in their care. This is especially crucial in environments that care for infants and one year olds, where individualized attention is necessary for tasks such as bottle feeding, diaper changing, tummy time, new walker safety, etc. The American Academy of Pediatrics recommends not more than 3 infants for 1 adult and no more than 6 infants in a group or class. Allowing for an extra child in a ratio that is already above the recommended ratio may contribute to environments with higher numbers of physical and emotional safety hazards.

In Arizona, we continue to see reports of incidents in which young children including infants and toddlers are not appropriately supervised in group care settings which currently allow an additional child when two adults are in the room. For example, a one-year child who could not walk independently was left behind on a playground, without any adult supervision. In another case, a one-year old child sustained an injury after falling from a bookcase, resulting in a trip to the emergency room. There have been multiple instances of infants not being closely supervised during tummy time, or left on soft Boppy pillows, placing them at risk for suffocation. Though shocking, these examples are not rare, and they are a direct result of staff being expected to supervise too many children at one time.

Children’s safety is our most fundamental responsibility. We must do better for Arizona’s youngest and most vulnerable. One additional child may disrupt the dynamics between the teachers and children. The ability to maintain one-on-one interactions is more difficult to maintain with additional children, especially when adding in the regular care routines that are necessary in infant and toddler settings.

Sincerely,

Ginger Sandweg
Senior Director, Early Learning

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 5. Department of Health Services – Child Care Facilities; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Sandweg:

Thank you for your comment and for highlighting the importance of appropriate caregiver-to-child ratios for the safety and well-being of children. The Department appreciates your concerns regarding the current ratios and group sizes, and we agree that infants and toddlers require individualized attention for optimal development and safety.

In this rulemaking, the Department is not amending the current caregiver-to-child ratios. However, due to many comments and concerns expressed regarding the need to amend the current ratios, the Department recognizes the importance of ongoing discussion and the need to carefully consider amendments to the current ratios. To that end, the Department has initiated a separate rulemaking specifically focused on the caregiver-to-child ratios. This will allow for a more robust and thorough discussion, involving input from all stakeholders, to ensure that any changes made to the ratios will be effective and work for all providers, balancing the needs of children, caregivers, and providers. Once the current rulemaking starts to come to an end, the Department plans to have rulemaking drafts and stakeholder meetings to discuss this topic.

The Department appreciates your feedback and collaboration in this rulemaking process, and we look forward to engaging with you and other stakeholders during the upcoming rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

Governor's Regulatory Review Council
Arizona Department of Administration
100 N. 15th Avenue
Phoenix, AZ 85007

Dear Members of the Governor's Regulatory Review Council,

I am writing to express my strong support for the adoption of the revised licensing rules for child care facilities in Arizona.

These updates were long overdue, as the current rules have not undergone a comprehensive review since 2010. The revised regulations started the process of aligning Arizona's standards with the federal requirements of the Child Care and Development Block Grant (CCDBG), ensuring that our policies reflect national best practices and uphold the safety and well-being of children across the state.

In addition to modernizing language and removing outdated provisions, the revised rules incorporate important advances in what we now understand about early childhood development, particularly brain development during the first five years of life. They also acknowledge how technology and operational practices in child care have evolved, bringing Arizona's child care licensing framework into the 21st century without being overly burdensome on child care providers.

These thoughtful updates will support providers in delivering high-quality care, offer clearer guidance for compliance, and, most importantly, ensure a safe, nurturing environment for Arizona's youngest children.

Thank you for your consideration and for your continued commitment to improving child care quality in Arizona.

Sincerely,

Barbie Prinster
Executive Director
Arizona Early Childhood Education Association

RE: Department of Health Services- Title 9, Chapter 5, Articles 1-7

Dear Members of the Governor's Regulatory Review Council,

On behalf of the Arizona Alliance of Boys & Girls Clubs (Alliance), I am writing to express our strong support for the Arizona Department of Health Service' (ADHS) efforts to amend and establish rules specifically for the care of school-aged children in licensed child care facilities that exclusively serve this age group.

Our organization represents 77 Boys & Girls Club sites across Arizona, providing safe, supportive, and enriching environments for over 44,000 children and youth. Our mission aligns closely with ensuring high-quality standards in child care settings.

For over two years, the Alliance has been engaged in the rule-making process with ADHS to create a child care license tailored for Out-of-School-Time (OST) providers. These rules are essential to ensure that licensing requirements reflect the unique structure and best practices of programs that serve school-aged children, rather than the traditional early childhood model. This thoughtful approach supports the operational realities of OST providers while maintaining the safety and well-being of the children in our care.

Out-of-school-time programs are a vital resource for Arizona's children and working families. These programs provide a safe space for youth to learn, grow, and engage in meaningful activities beyond the traditional school day. A 2020 survey found there are 493,000 children in Arizona who would be enrolled in an out-of-school-time program if one were available to them. At a time when families are struggling to find affordable, high-quality care, these proposed rules represent a crucial step toward expanding access to OST programs while maintaining the necessary safeguards for children's well-being.

We respectfully urge the Council to approve the proposed amendments and additions to the Child Care Rules. Doing so will support working families and ensure that out-of-school-time programs can continue to effectively serve Arizona's youth. Thank you for your time and consideration.

Sincerely,

Josh Stine
State Director
Arizona Alliance of Boys & Girls Clubs

ARTICLE 1. GENERAL

R9-5-101. Definitions

In addition to the definitions in A.R.S. § 36-881, the following definitions apply in this Chapter unless otherwise specified:

1. "Abuse" has the same meaning as in A.R.S. § 8-201.
2. "Accident" means an unexpected occurrence that:
   a. Causes injury to an enrolled child,
   b. Requires attention from a staff member, and
   c. May or may not be an emergency.
3. "Accommodation school" has the same meaning as in A.R.S. § 15-101.
4. "Accredited" means approved by the:
   a. New England Commission of Institution of Higher Education,
   b. Middle States Commission of Higher Education,
   c. North Central the Higher Learning Commission,
   d. Northwest Commission on Colleges and Universities,
   e. Commission on Colleges, or
   f. Western Association of Schools and Colleges.
5. "Activity" means an action planned by a licensee and performed by an enrolled child while supervised by a staff member.
6. "Activity area" means a specific indoor or outdoor space or room of a licensed facility that is designated by a licensee for use by an enrolled child for an activity.
7. "Adaptive device" means equipment used to augment an individual's use of the individual's arms, legs, sight, hearing, or other physical part or function.
8. "Administrative completeness review time-frame" has the same meaning as in A.R.S. § 41-1072.
9. "Adult" means an individual who is at least 18 years of age.
10. "Age-appropriate" means consistent with a child's age and age-related stage of physical growth and mental development.
11. "Agency" means any board, commission, department, office, or other administrative unit of the federal government, the state, or a political subdivision of the state.
12. "Applicant" means a person or governmental agency requesting one of the following:
    a. A license, or
    b. Approval of a change affecting a license under R9-5-208.
13. "Application" means the documents that an applicant is required to submit to the Department for licensure or approval of a request for a change affecting a license.

14. “Assistant teacher-caregiver” means a staff member who aids a teacher-caregiver in planning, developing, or conducting child care activities.
15. “Association” means a group of individuals other than a corporation, limited liability company, partnership, joint venture, or public school who has established a governing board and bylaws to operate a facility.
16. “Background check” means results identified in searches according to A.R.S.§ 46-811(A) and consistent with the Child Care and Development Block Grant Act of 2014 (Public Law 113-186):
    a. The state sex offender registry within this state and each state where a staff member resided during the preceding five years;
    b. The state-based child abuse and neglect registries and databases within this state and each state where a staff member resided during the preceding five years;
    c. The National Crime Information Center; and
    d. The National Sex Offender Registry established under the Adam Walsh Child Protection and Safety Act of 2006 (42 A.S.C. 16901 et seq).
17. “Beverage” means a liquid for drinking, including water.
18. “Business organization” has the same meaning as “entity” in A.R.S. § 10-140.
19. “Calendar day” means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, or legal holiday.
20. “Calendar week” means a seven-day period beginning on Sunday at 12:00 a.m. and ending on Saturday at 11:59 p.m.
21. “C.C.P.” means Certified Childcare Professional, a credential awarded by the National Early Childhood Program Accreditation.
22. “C.D.A.” means Child Development Associate, a credential awarded by the Council for Professional Recognition.
23. “Change in ownership” means a transfer of controlling legal or controlling equitable interest and authority in a facility resulting from a sale or merger of a facility.
24. “Charter school” has the same meaning as in A.R.S. § 15-101.
25. “Child care experience” means an individual’s documented work with children in:
    a. A child care facility or a child care group home that was licensed, certified, or approved by a state in the United States or by one of the Uniformed Services of the United States;
    b. A public school, a charter school, a private school, or an accommodation school;
    c. A public or private educational institution authorized under the laws of another state where instruction was provided for any grade or combination of grades between pre-kindergarten and grade 12; or

d. One of the following professional fields:
    i. Nursing,
    ii. Social work,
    iii. Psychology,
    iv. Child development, or
    v. A closely-related field.

26. "Child care services" means the range of activities and programs provided by a licensee to an enrolled child, including personal care, supervision, education, guidance, and transportation.
27. "Child with special needs" means:
    a. A child with a health care provider's diagnosis and record of a physical or mental condition that substantially limits the child in providing self-care or performing manual tasks or any other major life function such as walking, seeing, hearing, speaking, breathing, or learning;
    b. A child with a "developmental disability" as defined in A.R.S. § 36-551; or
    c. A "child with a disability" as defined in A.R.S. § 15-761.
28. "Clean" means to remove dirt or debris by methods such as washing with soap and water, vacuuming, wiping, dusting, or sweeping.
29. "Closely-related field" means any educational instruction or occupational experience pertaining to the growth, development, physical or mental care, or education of children.
30. "Communicable disease" has the same meaning as in A.A.C. R9-6-101.
31. "Compensation" means money or other consideration, including goods, services, vouchers, time, government or public expenditures, government or public funding, or another benefit, that is received as payment.
32. "Corporal punishment" means any physical action used to discipline a child that inflicts pain to the body of the child, or that may result in physical injury to the child.
33. "CPR" means cardiopulmonary resuscitation.
34. "Credit hour" means an academic unit earned at an accredited college or university:
    a. By attending a one-hour class session each calendar week during a semester or equivalent shorter course term, or
    b. Completing practical work for a course as determined by the accredited college or university.
35. "Designated agent" means an individual who meets the requirements in A.R.S. § 36-889(D).
36. "Developmentally-appropriate" means consistent with a child's physical, emotional, social, cultural, and cognitive development, based on the child's age and family background and the child's personality, learning style, and pattern and timing of growth.
37. "Discipline" means the on-going process of helping a child develop self-control and assume responsibility for the child's own actions.

38. “Documentation” means information in written, photographic, electronic, or other permanent form.
39. “Electronic signature” has the same meaning as in A.R.S. § 41-351(4).
40. “Emergency” means a potentially life-threatening occurrence involving an enrolled child or staff member that requires an immediate response or medical treatment.
41. “Endanger” means to expose an individual to a situation where physical injury or mental injury to the individual may occur.
42. “Enrolled” means placed by a parent and accepted by a licensee for child care services.
43. “Evening and nighttime care” means child care services provided between the hours of 8:00 p.m. and 5:00 a.m.
44. “Facility” has the same meaning as “child care facility” in A.R.S. § 36-881.
45. “Facility director” means an individual who is designated by a licensee as the individual responsible for the daily onsite operation of a facility.
46. “Facility premises” means property that is:
    a. Designated on an application for a license by the applicant; and
    b. Licensed for child care services by the Department under A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter.
47. “Fall zone” means the surface under and around a piece of equipment onto which a child falling from or exiting from the equipment would be expected to land.
48. “Field trip” means an activity planned by a staff member for an enrolled child:
    a. At a location or area that is not licensed for child care services by the Department, or
    b. At a child care facility in which the child is not enrolled.
49. “Final construction drawings” means facility plans that include the architectural, structural, mechanical, electrical, fire protection, plumbing, and technical specifications of the physical plant and the facility premises and that have been approved by local government for the construction, alteration, or addition of a facility.
50. “Food” means a raw, cooked, or processed edible substance, ice, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption, or chewing gum.
51. “Food preparation” means processing food for human consumption by cooking or assembling the food, but does not include distributing prepackaged food or whole fruits or vegetables.
52. “Full-day care” means child care services provided for six or more hours per day between the hours of 5:00 a.m. and 8:00 p.m.
53. “Governmental agency” has the same meaning as in A.R.S. § 44-7002.
54. “Guidance” means the ongoing direction, counseling, teaching, or modeling of generally accepted social behavior through which a child learns to develop and maintain the self-control, self-reliance, and self-

esteem necessary to assume responsibilities, make daily living decisions, and live according to generally accepted social behavior.

55. "Hazard" means a source of endangerment.
56. "Health care provider" means a physician, physician assistant, or registered nurse practitioner.
57. "High school equivalency diploma" means:
    a. A document issued by the State Board of Education under A.R.S. § 15-702 to an individual who passes a general educational development test or meets the requirements of A.R.S. § 15-702(B);
    b. A document issued by another state to an individual who passes a general educational development test or meets the requirements of a state statute equivalent to A.R.S. § 15-702(B); or
    c. A document issued by another country to an individual who has completed that country's equivalent of a 12th grade education, as determined by the Department based upon information obtained from American or foreign consulates or embassies or other governmental agencies.
58. "Hours of operation" means the specific time during a day for which a licensee is licensed to provide child care services.
59. "Illness" means physical manifestation or signs of sickness, such as pain, vomiting, rash, fever, discharge, or diarrhea.
60. "Immediate" or "immediately" means without restriction, delay, or hesitation.
61. "Inaccessible" means:
    a. Out of an enrolled child's reach, or
    b. Locked.
62. "Infant" means:
    a. A child 12 months of age or younger, or
    b. A child 18 months of age or younger who is not yet walking.
63. "Infant care" means child care services provided to an infant.
64. "Infestation" means the presence of lice, pinworms, scabies, or other parasites.
65. "Inspection" means:
    a. Examination of a facility by the Department to determine compliance with A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter;
    b. Review of facility documents, records, or reports by the Department; or
    c. Examination of a facility by a local governmental agency.
66. "Lesson plan" means a written description of the activities scheduled in each activity area for a day.
67. "License" means the written authorization issued by the Department to operate a facility in Arizona.
68. "Licensed applicator" who complies with A.A.C. R3-8-201(C).

69. “Licensed capacity” means the maximum number of enrolled children for whom a licensee is authorized by the Department to provide child care services in a facility or a part of a facility at any given time.
70. “Licensee” means a person or governmental agency to whom the Department has issued a license to operate a facility in Arizona.
71. “Local” means under the jurisdiction of a city or county in Arizona.
72. “Mat” means a foam pad that has a waterproof cover and is of sufficient size and thickness to accommodate the height, width, and weight of a reclining child’s body.
73. “Medication” means a substance prescribed by a physician, physician assistant, or registered nurse practitioner or available without a prescription for the treatment or prevention of illness or infestation.
74. “Menu” means:
    a. A written description of the food that a facility provides and serves as a meal or snack, or
    b. The combination of food that a facility provides and serves as a meal or snack.
75. “Motor vehicle” has the same meaning as in A.R.S. § 28-101.
76. “N.A.C.” means the National Administrator Credential, a credential issued by the National Institute of Child Care Management.
77. “Name” means, for an individual, the individual’s first name and the individual’s last name.
78. “Naptime” means any time during hours of operation, other than evening and nighttime hours, that is designated by a licensee for the rest or sleep of enrolled children.
79. “Neglect” has the same meaning as in A.R.S. § 8-201.
80. “One-year-old” means a child who is not an infant and at least 12 months of age but not yet two years of age.
81. “Outbreak” has the same meaning as in A.A.C. R9-6-101.
82. “Overall time-frame” has the same meaning as in A.R.S. § 41-1072.
83. “Parent” means:
    a. A natural or adoptive mother or father,
    b. A legal guardian appointed by a court of competent jurisdiction, or
    c. A “custodian” as defined in A.R.S. § 8-201.
84. “Part-day care” means child care services provided for fewer than six hours per day between the hours of 5:00 a.m. and 8:00 p.m.
85. “Perishable food” means food that becomes unfit for human consumption if not stored to prevent spoilage.
86. “Pesticide” has the same meaning as in A.R.S. § 32-3601.
87. “Pesticide label” means the written, printed, or graphic matter approved by the United States Environmental Protection Agency on, or attached to, a pesticide container.
88. “Physical injury” means temporary or permanent damage or impairment to a child’s body.

89. "Physical plant" means a building that houses a facility, or the licensed areas within a building that houses a facility, including the architectural, structural, mechanical, electrical, plumbing, and fire protection elements of the building.
90. "Physician" means an individual licensed as a doctor of:
    a. Allopathic medicine under A.R.S. Title 32, Chapter 13;
    b. Naturopathic medicine under A.R.S. Title 32, Chapter 14;
    c. Osteopathic medicine under A.R.S. Title 32, Chapter 17;
    d. Homeopathic medicine under A.R.S. Title 32, Chapter 29; or
    e. Allopathic, naturopathic, osteopathic, or homeopathic medicine under the law of another state.
91. "Physician assistant" means:
    a. An individual who is licensed under A.R.S. Title 32, Chapter 25; or
    b. An individual who is licensed as a physician assistant under the law of another state.
92. "Private pool" has the same meaning as "private residential swimming pool" in A.A.C. R18-5-201.
93. "Private school" has the same meaning as in A.R.S. § 15-101.
94. "Program" means a variety of activities organized and conducted by a staff member.
95. "Public pool" has the same meaning as "public swimming pool" in A.A.C. R18-5-201.
96. "Public school" has the same meaning as "school" in A.R.S. § 15-101.
97. "Registered nurse practitioner" means:
    a. An individual who is licensed and certified as a "registered nurse practitioner" under A.R.S. § 32-1601, or
    b. An individual who is licensed or certified as a registered nurse practitioner under the law of another state.
98. "Regular basis" means at recurring, fixed, or uniform intervals.
99. "Responsible party" means an individual or a group of individuals who:
    a. Is assigned by a public school, charter school, or governmental agency; and
    b. Has general oversight of the child care facility.
100. "Sanitize" means to use heat, chemical agents, or germicidal solutions to disinfect and reduce pathogen counts, including bacteria, viruses, mold, and fungi.
101. "School-age child" means a child who:
    a. Meets one of the following:
        i. Is five years old on or before January 1 of the current school year, or
        ii. Is five years old on or before January 1 of the most recent school year; and
    b. Meets one of the following:

i. Attends kindergarten or a higher level program in a public, charter, accommodation, or private school during the current school year;

ii. Attended kindergarten or a higher level program in a public, charter, accommodation, or private school during the most recent school year;

iii. Is home-schooled at a kindergarten or higher level during the current school year; or

iv. Was home-schooled at a kindergarten or higher level during the most recent school year.

102. "School-age child care" means child care services provided to a school-age child.

103. "School campus" means the contiguous grounds of a public, charter, accommodation, or private school, including the buildings, structures, and outdoor areas available for use by children attending the school.

104. "School governing board" has the same meaning as "governing board" in A.R.S. § 15-101.

105. "Screen time" means the use of electronic media to watch television or to watch a video, a DVD, or a movie at the facility or at another location or the use of electronic media or a computer for game-playing, entertainment, communication, or educational purposes.

106. "Semi-public pool" has the same meaning as "semipublic swimming pool" in A.A.C. R18-5-201.

107. "Service classification" means one of the following:

a. Full-day care;

b. Part-day care;

c. Evening and nighttime care;

d. Infant care;

e. One-year-old child care;

f. Two-year-old child care;

g. Three-year-old, four-year-old, and five-year-old child care;

h. School-age child care; or

i. Weekend care.

108. "Signatory" means an individual who is authorized by a school district governing board, school district superintendent, or governmental agency to sign a document on behalf of the school district governing board, school district superintendent, or governmental agency.

109. "Signed" means affixed with an individual's signature or with a symbol representing an individual's signature if the individual is unable to write the individual's name.

110. "Sippy cup" means a lidded drinking container that is designed to be leak proof or leak-resistant and from which a child drinks through a spout or straw.

111. "Space utilization" means the designated use of an area within a facility for specific child care services or activities.

112. "Staff" or "staff member" means the same as "child care personnel" as defined in A.R.S. § 36-883.02.

113. "Student-aide" means an individual less than 16 years of age who is participating in an educational, curriculum-based course of study; vocational education; or occupational development program and who, without being compensated by a licensee, is present at a facility to receive instruction from and supervision by staff in the provision of child care services.

114. "Substantive review time-frame" has the same meaning as in A.R.S. § 41-1072.

115. "Supervision" means:

a. For an enrolled child, knowledge of and accountability for the actions and whereabouts of the enrolled child, including the ability to see or hear the enrolled child at all times, to interact with the enrolled child, and to provide guidance to the enrolled child; or

b. For an individual other than an enrolled child, knowledge of and accountability for the actions and whereabouts of the individual, including the ability to see and hear the individual when the individual is in the presence of an enrolled child and the ability to intervene in the individual's actions to prevent harm to enrolled children.

116. "Swimming pool" has the same meaning as in A.A.C. R18-5-201.

117. "Teacher-caregiver" means a staff member responsible for developing, planning, and conducting child care activities.

118. "Teacher-caregiver-aide" means a staff member who provides child care services under the supervision of a teacher-caregiver.

119. "Training" means child care-related conferences, seminars, lectures, workshops, classes, courses, or instruction.

120. "Tummy time" means a limited period-of-time no more than 20 minutes used to allow a non-crawling infant:

i. To strengthen the infant's head, neck, and upper body muscles; and

ii. To increase the infant's sensory perception, visual and hearing acuity, and social and emotional interaction.

121. "Volunteer" means a staff member who, without compensation, provides child care services that are the responsibility of a licensee.

122. "Working day" means a Monday, Tuesday, Wednesday, Thursday, or Friday that is not a state holiday, federal holiday, or a statewide furlough day.

R9-5-102. Individuals to Act for Applicant or Licensee Regarding Document, Fingerprinting, and Department-provided Training Requirements

When an applicant or licensee is required by this Chapter to provide information on or sign documents, possess a fingerprint clearance card, or complete Department-provided training, the following shall satisfy the requirement on behalf of the applicant or licensee:

1. If the applicant or licensee is an individual, the individual;
2. If the applicant or licensee is a business organization, a designated agent who meets the requirements in A.R.S. § 36-889(D);
3. If the applicant or licensee is a public school, an individual designated in writing as signatory for the public school by the school district governing board or school district superintendent;
4. If the applicant or licensee is a charter school, the person approved to operate the charter school by the school district governing board, the Arizona State Board of Education, or the Arizona State Board for Charter Schools; and
5. If the applicant or licensee is a governmental agency, the individual in the senior leadership position with the agency or an individual designated in writing as signatory by that individual.

ARTICLE 2. FACILITY LICENSURE

R9-5-201. Application for a License

A. An applicant for a license shall:

1. Be at least 21 years of age;
2. If an individual, be a U.S. citizen or legal resident alien and a resident of Arizona;
3. If a corporation, association, or limited liability company, be a domestic entity or a foreign entity qualified to do business in Arizona;
4. If a partnership, have at least one partner who is a U.S. citizen or legal resident alien and a resident of Arizona;
5. Submit to the Department an application packet containing:
    a. An application on a form provided by the Department that contains:
        i. The applicant's name;
        ii. The applicant's date of birth;
        iii. The facility's name, street address, city, state, zip code, mailing address, and telephone number;
        iv. The requested service classifications;
        v. Whether the applicant agrees to allow the Department to submit supplemental requests for information;
        vi. A statement that the applicant has read and will comply with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter;
        vii. A statement that the information provided in the application packet is accurate and complete; and
        viii. The applicant's signature and date the applicant signed the application;
    b. A copy of the applicant's:
        i. U.S. passport,
        ii. Birth certificate,

iii. Naturalization documents, or

iv. Documentation of legal resident alien status;

c. A copy of the applicant's valid fingerprint clearance card, both front and back, issued according to A.R.S. Title 41, Chapter 12, Article 3.1;

d. A copy of the applicant's valid background check document according to A.R.S. § 46-811(A);

e. A copy of the form required in A.R.S. § 36-883.02(C);

f. A certificate issued by the Department showing that the applicant has completed at least four hours of Department-provided training that included the Department's role in licensing and regulating child care facilities under A.R.S. Title 36, Chapter 7.1, Article 1, and this Chapter;

g. Except as provided in subsection (A)(5)(j), a site plan of the facility drawn to scale showing:

i. The drawing scale;

ii. The boundary dimensions of the property upon which the facility's physical plant is located;

iii. If more than one building is used for the facility, the location and perimeter dimensions of each building;

iv. The location of each driveway on the property;

v. The location and boundary dimensions of each parking lot on the property;

vi. The location and perimeter dimensions of each outdoor activity area;

vii. The location, type, and height of each fence and gate; and

viii. If applicable, the location of any swimming pool on the property;

h. Except as provided in subsection (A)(5)(j), a floor plan of each building to be used for child care services drawn to scale showing:

i. The drawing scale;

ii. The length and width dimensions for each indoor activity area;

iii. The requested licensed capacity and applicable service classification for each indoor activity area;

iv. The location of each diaper changing area;

v. The location of each hand washing, utility, and three-compartment sink, toilet, urinal, and drinking fountain; and

vi. The location and type of fire alarm system;

i. Except as provided in subsection (A)(5)(j):

i. A copy of a certificate of occupancy issued for the facility by the local jurisdiction;

ii. Documentation from the local jurisdiction that the facility was approved for occupancy; or

iii. If the documents in subsections (A)(5)(i)(i) and (ii) are not available, the seal of an architect registered as prescribed in A.R.S. § 32-121 on the site plan required in subsection (A)(5)(g) and the

floor plan required in subsection (A)(5)(h) verifying compliance with current local building and fire codes, local zoning requirements, and this Chapter;

j. For an applicant providing child care services to three-year-old, four-year-old, five-year-old, or school-age children in a facility located in a public school, a set of final construction drawings or a school map showing:
   i. The location of each school building;
   ii. The location and dimensions of each outdoor activity area to be used by enrolled children;
   iii. The length and width dimensions for each indoor activity area;
   iv. The requested licensed capacity and applicable service classification for each indoor activity area; and
   v. The location of each hand-washing sink, toilet, urinal, and drinking fountain to be used by enrolled children;

k. If the facility is located within one-fourth of a mile of agricultural land:
   i. The names and addresses of the owners or lessees of each parcel of agricultural land located within one-fourth mile of the facility, and
   ii. A copy of an agreement complying with A.R.S. § 36-882 for each parcel of agricultural land;

l. The applicable fee in R9-5-206;

m. If the applicant is a business organization, a form provided by the Department that contains:
   i. The name, street address, city, state, and zip code of the business organization;
   ii. The type of business organization;
   iii. The name, date of birth, title, street address, city, state, and zip code of each controlling person;
   iv. A copy of the business organization's articles of incorporation, articles of organization, partnership documents, or joint venture documents, if applicable;
   v. Documentation of good standing issued by the Arizona Corporation Commission and dated no earlier than three months before the date of the application; and
   vi. A statement signed by the applicant stating:
      (1) That each controlling person has not been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and
      (2) That each controlling person has not had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children;

n. If the applicant is a public school, a form provided by the Department that contains:
   i. The name of the school district;

ii. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

iii. A statement signed by the applicant stating:

(1) That each individual in subsection (A)(5)(n)(ii) has not been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) That each individual in subsection (A)(5)(n)(ii) has not had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iv. A letter from the school district governing board or school district superintendent designating a signatory, if applicable;

o. If the applicant is a charter school, a form provided by the Department that contains:

i. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

ii. A statement signed by the applicant stating:

(1) That each individual in subsection (A)(5)(o)(i) has not been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) That each individual in subsection (A)(5)(o)(i) has not had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iii. A letter from the school district governing board in which the charter school is located, the Arizona State Board of Education, or the Arizona State Board for Charter Schools, approving the applicant to operate the charter school; and

p. If the applicant is a governmental agency, a form provided by the Department that contains:

i. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals;

ii. A statement signed by the applicant stating:

(1) That each individual in subsection (A)(5)(p)(i) has not been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and

(2) That each individual in subsection (A)(5)(p)(i) has not had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children; and

iii. A letter from the individual in the senior leadership position with the agency designating a signatory.

B. The Department requires a separate license and a separate application for:

1. Each facility owned by the same person at a different location, and
2. Each facility owned by a different person at the same location.

C. The Department does not require a separate application and license for a structure that is:

1. Located so that the structure and the facility:
   a. Share the same street address, or
   b. Can be enclosed by a single unbroken boundary line that does not encompass property owned or leased by another,
2. Under the same ownership as the facility, and
3. Intended to be used as a part of the facility.

R9-5-202. Time-frames

A. The overall time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1. The applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame. An extension of the substantive review time-frame and the overall time-frame may not exceed 25% of the overall time-frame.

B. The administrative completeness review time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1 and begins on the date that the Department receives an application packet.

1. An application packet for a license is not complete until the date, provided to the Department with the application packet or by written notice, that the child care facility is ready for an onsite licensing inspection.
2. The Department shall send a notice of administrative completeness or deficiencies to the applicant within the administrative completeness review time-frame.
   a. A notice of deficiencies shall list each deficiency and the items needed to complete the application packet.
   b. The administrative completeness review time-frame and the overall time-frame are suspended from the date that the notice of deficiencies is issued until the date that the Department receives all of the missing items from the applicant.
   c. If an applicant for a license or an approval of a change affecting a license fails to submit to the Department all of the items listed in the notice of deficiencies within 180 calendar days after the date that the Department sent the notice of deficiencies, the Department shall consider the application or request for approval withdrawn.
3. If the Department issues a license or other approval to the applicant during the administrative completeness review time-frame, the Department shall not issue a separate written notice of administrative completeness.

C. The substantive review time-frame for each type of approval granted by the Department under this Article is listed in Table 2.1 and begins on the date of the notice of administrative completeness.

1. As part of the substantive review for a license application, the Department shall conduct an inspection that may require more than one visit to the facility.
2. As part of the substantive review for a request for approval of a change affecting a license that requires a change in the use of physical space at the facility, the Department shall conduct an evaluation of the request to determine compliance with applicable rules and statutes that may include an onsite inspection.
3. The Department shall send a license, a written notice of approval, or denial of a license or other request for approval to an applicant within the substantive review time-frame.
4. During the substantive review time-frame, the Department may make one comprehensive written request for additional information, unless the Department and the applicant have agreed in writing to allow the Department to submit supplemental requests for information.
    a. If the Department determines that an applicant or a facility is not in substantial compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, the Department shall send a comprehensive written request for additional information that includes a written statement of deficiencies stating each statute and rule upon which noncompliance is based.
    b. An applicant shall submit to the Department all of the information requested in the comprehensive written request for additional information and documentation of the corrections required in the statement of deficiencies, if applicable within 120 calendar days after the date of the comprehensive written request for additional information.
    c. The substantive review time-frame and the overall time-frame are suspended from the date that the Department issues a comprehensive written request for additional information or a supplemental request for information until the date that the Department receives all of the information requested, including documentation of corrections required in a statement of deficiencies, if applicable.
    d. If an applicant fails to submit to the Department all of the information requested in a comprehensive written request for additional information or a supplemental request for information, including documentation of corrections required in a statement of deficiencies, if applicable, within the time prescribed in subsection (C)(4)(b), the Department shall deny the application.
5. The Department shall issue a license or other approval if the Department determines that the applicant and facility are in substantial compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, and the applicant submits documentation of corrections that is acceptable to the Department for any deficiencies.
6. If the Department determines that a license or other approval is to be denied, the Department shall send to the applicant a written notice of denial complying with A.R.S. § 36-888 and stating the reasons for denial and all other information required by A.R.S. §§ 36-888 and 41-1076.

Table 2.1. Time-frames (in calendar days)

Type of Approval	Statutory Authority	Overall Time-Frame	Administrative Completeness Review Time-Frame	Substantive Review Time-Frame
License under R9-5-201	A.R.S. § 36-882	120	30	90
Approval of Change Affecting License under R9-5-208	A.R.S. §§ 36-882 and 36-883	75	30	45

R9-5-203. Fingerprinting and Background Check

A. A licensee shall ensure that a staff member completes, signs, dates, and submits to the licensee, before the staff member's starting date of employment or volunteer service:

1. The form required in A.R.S. § 36-883.02(C); and
2. If required by A.R.S. § 8-804, the form in A.R.S. § 8-804(I).

B. A licensee shall maintain documentation of a valid fingerprint clearance card issued under A.R.S. § 41-1758.03 and valid background check document issued under in A.R.S. § 46-811.

C. Except as provided in A.R.S. § 41-1758.03, a licensee shall ensure that each staff member, before starting date of employment or volunteer service, submits to the licensee a copy of the staff member's valid fingerprint clearance card, front and back, issued under A.R.S. Title 41, Chapter 12, Article 3.1.

D. A licensee shall ensure that each staff member submits to the licensee a copy of the staff member's valid fingerprint clearance card each time the fingerprint clearance card is issued or renewed every six years.

E. If a staff member possesses a fingerprint clearance card that was issued before the staff member became a staff member at the facility, a licensee shall:

1. Contact the Department of Public Safety before the individual becomes a staff member to determine whether the fingerprint clearance card is valid; and
2. Document this determination, including the name of the staff member, the date of contact with the Department of Public Safety, and whether the fingerprint clearance card is valid.

F. A licensee shall ensure that each staff member submits to the licensee a copy of the staff member's valid:

1. Background check document issued under A.R.S. § 46-811(A) within 10 working days after starting date of employment or volunteer service; and
2. Background check document each time a background check is issued or renewed every five years.

G. If required by A.R.S. § 8-804, before an individual's starting date of employment or volunteer service, a licensee shall comply with the submission requirements in A.R.S. § 8-804(C) for the individual.

H. A licensee shall not allow an individual to be a staff member if the individual:

1. Has been denied a fingerprint clearance card under A.R.S. Title 41, Chapter 12, Article 3.1 and has not received an interim approval under A.R.S. § 41-619.55;
2. Has been denied a background check document that indicates the individual is not eligible for employment due to violations identified pursuant to A.R.S. § 46-811;
3. Receives an interim approval under A.R.S. § 41-619.55 but is subsequently denied a good cause exception under A.R.S. § 41-619.55 and a fingerprint clearance card under A.R.S. Title 41, Chapter 12, Article 3.1;
4. Is a parent or guardian of a child adjudicated to be a dependent child as defined in A.R.S. § 8-201;
5. Has been denied or had revoked a certificate to operate a child care group home or a license to operate a child care facility for care of children in this state or another state;
6. Has been denied or had revoked a certification to work in a child care facility or a child care group home in this state or another state;
7. If applicable, has stated on the form required in A.R.S. § 8-804(I) that the individual is currently under investigation for an allegation of abuse or neglect or has a substantiated allegation of abuse or neglect and has not subsequently received a central registry exception according to A.R.S. § 41-619.57; or
8. If applicable, is disqualified from employment or volunteer service as a staff member according to A.R.S. § 8-804 and has not subsequently received a central registry exception according to A.R.S. § 41-619.57.

I. Within 30 calendar days after the day of a staff member's or volunteer's 18th birthday, the staff member or volunteer shall provide to the licensee copies of a valid fingerprint clearance card and background check document specified in subsection (C).

J. Beginning November 1, 2021, staff members shall comply with A.R.S. § 46-811(A) and subsection (F) by November 1, 2022.

R9-5-204. Child Care Service Classifications

A. The Department licenses child care facilities using the following service classifications:

1. Full-day care;
2. Part-day care;
3. Evening and nighttime care;
4. Infant care;
5. One-year-old child care;
6. Two-year-old child care;
7. Three-year-old, four-year-old, and five-year-old child care;
8. School-age child care; and

9. Weekend care.

B. The Department shall designate on a facility's license each service classification that the facility is licensed to provide.

C. A licensee shall not provide child care services in a service classification for which the licensee is not licensed.

R9-5-205. Submission of Licensure Fees

A licensee shall submit to the Department, on an annual basis and no more than 60 calendar days before the anniversary date of the facility's license:

1. A form provided by the Department that contains:
   a. The licensee's name,
   b. The facility's name and license number, and
   c. Whether the licensee intends to submit the applicable fee:
      i. With the form, or
      ii. According to the payment plan in subsection (2)(b), and
2. Either:
   a. The applicable fee in R9-5-206, or
   b. One-half of the applicable fee in R9-5-206 with the form and the remainder of the applicable fee due no later than 120 calendar days after the anniversary date of the facility's license.

R9-5-206. Licensure Fees

A. Except as provided in subsection (B), the fees for an applicant submitting an application or a licensee submitting licensure fees are:

1. For a child care facility with a licensed capacity of five to 10 children, $330;
2. For a child care facility with a licensed capacity of 11 to 59 children, $1330; and
3. For a child care facility with a licensed capacity of 60 or more children, $2575.

B. The Department may discount the fee in subsection (A), based on available funding or if the applicant or licensee participates in a Department-approved program.

C. The fee for a licensee requesting an increase in a facility's licensed capacity is the difference between the applicable fee in this Section for the new licensed capacity and the applicable fee in this Section for the current licensed capacity, prorated from the date the licensee submitted the request for the increase for the number of months remaining before the facility's license anniversary date specified in R9-5-205.

R9-5-207. Invalid License

If a licensee does not submit the licensure fee as required in R9-5-205(2), the facility license is no longer valid and the facility is operating without a license.

R9-5-208. Changes Affecting a License

A. At least 30 calendar days before the date of a change in a facility's name, a licensee shall send the Department written notice of the name change and the Department shall issue an amended license that incorporates the name change but retains the anniversary date of the current license.

B. At least 30 calendar days before the date of an intended change in a facility's service classification, space utilization, or licensed capacity, a licensee shall submit a written request for approval of the intended change to the Department that includes:

1. The licensee's name;
2. The facility's name, street address, city, state, zip code, mailing address, and telephone number;
3. The name, telephone number, and fax number of a point of contact for the request;
4. The facility's license number;
5. The type of change intended:
    a. Service classification,
    b. Space utilization, or
    c. Licensed capacity;
6. A narrative description of the intended change; and
7. The following additional information, as applicable:
    a. If the intended change affects an activity area, the following information about each affected activity area, as applicable:
        i. Identification of the activity area,
        ii. Current and intended square footage,
        iii. Current and intended operating hours,
        iv. Current and intended service classification,
        v. Current and intended licensed capacity, and
        vi. Whether the activity area has or will have a diaper changing area;
    b. If the intended change is to increase licensed capacity, the square footage of the outdoor activity area; and
    c. If the intended change includes an alteration or addition to the physical plant of a licensed facility, the following, as applicable:
        i. If the facility is not located in a public school or if providing child care services to infants, one-year-old children, or two-year-old children in a facility located in a public school, the information required in R9-5-201(A)(5)(g) and (h) showing the intended change; or

ii. If the facility is located in a public school and provides child care only for three-year-old, four-year-old, or five-year-old, or school-age children, a set of final construction drawings or a school map, including the information required in R9-5-201(5)(j) showing the intended change.

C. If the intended change in subsection (B) includes an increase in the licensed capacity, a licensee shall submit the fee for an increase in licensed capacity in R9-5-206(C) with the written request for approval.

D. If requesting a diaper changing area outside an infant room or indoor activity area to allow privacy for diapering an enrolled child with special needs, submit a written request for an approval; and

1. For a license application, submit physical plant documents required by R9-5-201(A)(5)(h) that designate the location of the proposed diaper changing area;
2. For a licensed facility, submit a drawing of the proposed diaper changing area to the Department before installing the diaper changing area. Within 30 calendar days after the date of the receipt of the request, the Department shall send written notice to the licensee of approval or disapproval. If the proposed diaper changing area:
   a. Complies with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter and provides privacy for the enrolled child with special needs, the Department shall approve the proposed diaper changing area; or
   b. Does not comply with A.R.S. Title 36, Chapter 7.1, Article 1 or this Chapter or provide privacy for the enrolled child with special needs, the Department shall provide the licensee with the requirements necessary for the Department to approve the requested change; and
3. Not use a diaper changing area located outside of an activity area until the Department approves the use of the diaper changing area;

E. The Department shall review a request submitted under subsection (B) according to R9-5-202. If the intended change is in compliance with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter and any applicable fee is submitted, the Department shall send the licensee written approval of the requested change or an amended license that incorporates the change but retains the anniversary date of the current license.

F. A licensee shall not implement any change described under subsection (B) until the Department issues an approval or amended license.

G. At least 30 days before the date of a change in ownership of a facility, a licensee shall send the Department written notice of the change. A new owner shall obtain a new license as prescribed in R9-5-201 before the new owner begins operating the facility.

H. A licensee changing a facility's location shall apply for a new license as prescribed in R9-5-201.

I. Within 30 calendar days after a change in a controlling person, a licensee shall send the Department written notice of the change that includes:

1. The name of the licensee;
2. A description of the change made;

3. The name, title, street address, city, state, and zip code of each controlling person;
4. A statement that each controlling person has not been denied a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state;
5. A statement that each controlling person has not had a certificate to operate a child care group home or a license to operate a child care facility revoked in this state or another state for reasons that relate to endangerment of the health and safety of children;
6. A statement that the information provided in the written notice is accurate and complete; and
7. The signature of the licensee.

J. If the change in subsection (I) is a change in a controlling person who is a designated agent, a licensee shall include a copy of one of the following for the designated agent:
1. A U.S. passport,
2. A birth certificate,
3. Naturalization documents, or
4. Documentation of legal resident alien status.

K. Within 30 calendar days after changing a responsible party, a licensee shall send the Department written notice of the change that includes:
1. The name of the licensee;
2. A description of the change made;
3. The name, title, street address, city, state, and zip code of each responsible party, if the responsible party is an individual, or each individual in the group, if the responsible party is a group of individuals; and
4. A statement signed by the licensee stating:
   a. That each individual in subsection (K)(3) has not been denied a certificate or license to operate a child care group home or child care facility in this state or another state, and
   b. That each individual in subsection (K)(3) has not had a certificate or license to operate a child care group home or child care facility revoked in this state or another state for endangering the health and safety of children.

R9-5-209. Inspections; Investigations

A. A licensee shall allow the Department immediate access to all areas of the facility affecting the health, safety, or welfare of an enrolled child or to which an enrolled child has access during hours of operation.

B. A licensee shall permit the Department to interview each staff member or enrolled child as part of an investigation.

R9-5-210. Denial, Revocation, or Suspension of License

A. The Department may deny, revoke, or suspend a license to operate a facility if an applicant or licensee:
1. Provides false or misleading information to the Department;

2. Has been denied a certificate or license to operate a child care group home or child care facility in any state, unless the denial was based on the applicant's failure to complete the certification or licensing process according to a required time-frame;
3. Has had a certificate or license to operate a child care group home or child care facility revoked or suspended in any state;
4. Has been denied a fingerprint clearance card or has had a fingerprint clearance card revoked under A.R.S. Title 41, Chapter 12, Article 3.1;
5. Fails to substantially comply with any provision in A.R.S. Title 36, Chapter 7.1, Article 1 or this Chapter; or
6. Substantially complies with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, but refuses to carry out a plan acceptable to the Department to eliminate any deficiencies.

B. In determining whether to deny, suspend, or revoke a license, the Department shall consider the threat to the health and safety of children in a facility based on such factors as:

1. Repeated violations of statutes or rules,
2. A pattern of non-compliance,
3. The type of violation,
4. The severity of each violation, and
5. The number of violations.

ARTICLE 3. FACILITY ADMINISTRATION

R9-5-301. General Licensee Responsibilities

A. A licensee shall:

1. Designate a facility director who acts on behalf of the licensee and is responsible for the daily onsite operation of a facility;
2. Submit the name of the designated facility director in writing to the Department before a license is issued;
3. Except as provided in subsection (A)(4), within 10 calendar days before changing a facility director, submit written notice of the change including the new designated facility director's name and starting date;
4. If the licensee is not aware of a change in the facility director 10 calendar days before the effective date of the change, submit written notice of the change to the Department including the new designated facility director's name and starting date within 72 hours after becoming aware of the change.

B. A licensee shall ensure that a facility director:

1. Designates, in writing, an individual who meets the requirements of R9-5-401(2) to act on behalf of the facility director when the facility director is not present in the facility;
2. Supervises or assigns a teacher-caregiver to supervise each staff member who does not meet the qualifications of R9-5-401(3);

3. Prepares a dated attendance record for each day and ensures that each staff member documents on the attendance record the time of each arrival and departure of the staff member; and
4. Maintains on the facility premises, the dated attendance record required in subsection (B)(3) for 12 months after the date on the attendance record.

C. A licensee shall develop and implement written facility policies and procedures required for the daily onsite operation of the facility as prescribed in A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter.

D. A licensee shall ensure that the following individuals are allowed immediate access to facility premises during hours of operation:
1. A parent of an enrolled child or an individual designated in writing by the parent of an enrolled child; or
2. A representative of:
   a. The Department,
   b. The local health department,
   c. Arizona Department of Child Safety, or
   d. The local fire department or State Fire Marshal.

E. A licensee shall, with the exception of individuals listed in subsection (D)(2), ensure that a staff member supervises any individual that is not a staff member who is on facility premises where enrolled children are present.

F. A licensee shall ensure that a staff member submits, on or before the starting date of employment or volunteer services, one of the following as evidence of freedom from infectious active tuberculosis:
1. Documentation of a negative Mantoux skin test or other tuberculosis screening test recommended by the U.S. Centers for Disease Control and Prevention, administered within 12 months before the starting date of employment or volunteer service, that includes the date and the type of tuberculosis screening test; or
2. If the staff member has had a positive Mantoux skin test or other tuberculosis screening test, a written statement that the staff member is free from infectious active tuberculosis that is signed and dated by a health care provider within six months before the starting date of employment or volunteer service.

G. A licensee shall ensure that a staff member who has current training in first aid and CPR, as required by R9-5-403(E), is present:
1. At all times during hours of operation on facility premises,
2. On field trips, and
3. While transporting enrolled children in the facility's motor vehicle or a vehicle designated by the licensee to transport enrolled children.

H. A licensee shall prohibit the use or possession of the following items when an enrolled child is on facility premises, during hours of operation, or in any motor vehicle used for transporting an enrolled child:
1. Any beverage containing alcohol;

2. A controlled substance as listed in A.R.S. Title 36, Chapter 27, Article 2, except where used as a prescription medication in the manner prescribed;
3. A dangerous drug as defined in A.R.S. § 13-3401, except where used as a prescription medication in the manner prescribed;
4. A prescription medication as defined in A.R.S. § 32-1901, except where used in the manner prescribed; or
5. A firearm as defined in A.R.S. § 13-105.

I. At least once a month, and at different times of the day, a licensee shall ensure that an unannounced fire and emergency evacuation drill is conducted and each staff member and enrolled child at the facility participates in the fire and emergency evacuation drill.

1. If child care services for a child with special needs are provided at a facility, the licensee shall provide for the enrolled child's participation in each fire and emergency evacuation drill according to the enrolled child's individualized plan as specified in R9-5-507(A)(1).
2. A licensee shall document each fire and emergency evacuation drill and maintain the documentation on facility premises for 12 months after the date of the fire and emergency evacuation drill.

J. Every September, a licensee shall provide to parents of enrolled children information related to recommendations for influenza vaccinations for children.

K. A licensee shall not allow a staff member who lacks proof of immunity against a disease listed in A.A.C. R9-6-702(A) to be present in the facility between the start and end of an outbreak of the disease at the facility.

L. A licensee shall ensure that the Department is notified orally or in writing within 24 hours after an enrolled child's death at the child care facility during hours of operation.

R9-5-302. Statement of Child Care Services

A. A licensee shall prepare a written statement of child care services provided by the licensee that includes the following:

1. A description of the facility's child care services classifications in R9-5-204;
2. Hours of operation;
3. The facility's street address, city, state, zip code, mailing address, and telephone number;
4. Child enrollment and disenrollment procedures;
5. Charges, fees, and payment requirements for child care services;
6. Child admission and release requirements;
7. Age-appropriate discipline guidelines and methods;
8. Transportation procedures;
9. Field trip requirements and procedures;
10. Responsibilities and participation of parents in facility activities;
11. A general description of activities and programs;

12. A description of the liability insurance required by R9-5-308 that is carried by the licensee and a statement that documentation of the liability insurance coverage is available for review on the facility premises;
13. Medication administration procedures;
14. Accident and emergency procedures;
15. A notice stating inspection reports are available onsite;
16. A provision stating that the facility is regulated by the Arizona Department of Health Services including the Department's local street address, city, state, zip code, and local telephone number;
17. The procedures for notifying a parent at least 48 hours before a pesticide is applied on a facility's premises; and
18. A statement that a parent has access to the areas on facility premises where the parent's enrolled child is receiving child care services.

B. A licensee shall provide a copy of the written statement of child care services:

1. To the Department:
   a. Before the facility receives a license, and
   b. Every 12 months after the date of the license as required by A.R.S. § 36-883.01; and
2. To a parent when the parent requests a copy of the written statement of child care services.

R9-5-303. Posting of Notices

A. A licensee shall post in a place that can be conspicuously viewed by individuals entering or leaving the facility or activity area the:

1. Facility's license;
2. Name of the facility director;
3. Name of the individual designated to act on behalf of the facility director when the facility director is not present in the facility, as prescribed by R9-5-301(B)(1);
4. Schedule of child care services fees and policy for refunding fees as prescribed by A.R.S. § 36-882(P);
5. Breakfast, lunch, dinner, and snack menus for each calendar week at the beginning of the calendar week;
6. Notice of the presence of any communicable disease or infestation listed in 9 A.A.C. 6, Article 2, Table 2, from the date of discovery through the incubation period of the communicable disease or infestation;
7. Notice of the Department's intent to deny, revoke, or suspend as prescribed by A.R.S. § 36-888 at the expiration of time in the notice for the licensee to respond;
8. Notice of an intermediate sanction imposed as prescribed by A.R.S. § 36-891.01 within 10 calendar days after the licensee received notice of the intermediate sanction;
9. Notice of a legal injunction imposed as prescribed by A.R.S. § 36-886.01 when the licensee receives the legal injunction; and
10. Notice of the availability of facility inspection reports for public viewing at the facility premises.

B. A licensee shall ensure that the licensed capacity of each indoor activity area is posted in that activity area.

C. Except as prescribed in A.R.S. § 36-898(C), a licensee shall post a notification of pesticide application in each activity area and in each entrance of a facility, at least 48 hours before a pesticide is applied on the facility's premises, containing:

1. The date and time of the pesticide application, and
2. A statement that written pesticide information is available from the licensee upon request.

R9-5-304. Enrollment of Children

A. A licensee shall require that a child be enrolled by the child's parent or an individual authorized in writing by the parent.

B. Except as required in A.R.S. § 36-3009, before an enrolled child receives child care services, a licensee shall require the enrolled child's parent to complete a Department-provided Emergency, Information, and Immunization Record card that is signed by the enrolled child's parent containing:

1. The child's name, home address, city, state, zip code, home telephone number, sex, and date of birth;
2. The date of the child's enrollment;
3. The name, home address, city, state, zip code, and contact telephone number of each parent of the child;
4. The name and contact telephone number of at least two individuals authorized by the child's parent to collect the child from the facility in case of emergency, or if the child's parent cannot be contacted;
5. The name and contact telephone number of the child's health care provider;
6. The written authorization for emergency medical care of the enrolled child;
7. The name of the individual to be contacted in case of injury or sudden illness of the child;
8. The written instructions of a child's parent or health care provider for nutritional and dietary needs of the child including, if applicable, the request in R9-5-509(C)(9); and
9. A written record completed by the child's parent or health care provider noting the child's susceptibility to illness, physical conditions of which a staff member should be aware, and any individual requirements for health maintenance.

C. A licensee shall maintain a current Emergency, Information, and Immunization Record card for each enrolled child on facility premises in a place that provides a staff member ready access to the card in event of an emergency at, or evacuation of, the facility.

D. When an enrolled child is disenrolled from a facility, the licensee shall:

1. Enter the date of disenrollment on the child's Emergency, Information, and Immunization Record card; and
2. Maintain the records in subsection (D)(1) for 12 months after the date of disenrollment on facility premises in a place separate from the current Emergency, Information, and Immunization Record cards. If a licensee is a school governing board, a charter school, or a person operating multiple child care facilities, the licensee

may maintain disenrollment records in a single central administrative office located in the same city, town, or school attendance area as the facility.

R9-5-305. Child Immunization Requirements

A. A licensee shall not permit an enrolled child to attend a facility until the facility receives:

1. An immunization record for the enrolled child with the information required in 9 A.A.C. 6, Article 7, documenting that the enrolled child has received all current, age-appropriate immunizations required under 9 A.A.C. 6, Article 7:
   a. Provided by a health care provider, or
   b. Generated from the Arizona State Immunization Information System, which is the Department's child immunization reporting system established in A.R.S. § 36-135; or
2. An exemption affidavit for the enrolled child provided by the enrolled child's parent that contains:
   a. A statement, signed by the enrolled child's health care provider, that the immunizations required by 9 A.A.C. 6, Article 7 would endanger the enrolled child's health or medical condition; or
   b. A statement, signed by the enrolled child's parent, that the enrolled child is being raised in a religion whose teachings are in opposition to immunization.

B. A licensee shall attach an enrolled child's written immunization record or exemption affidavit, required in subsection (A), to the enrolled child's Emergency, Information, and Immunization Record card, required in R9-5-304(B).

C. A licensee shall ensure that a staff member updates an enrolled child's written immunization record required in subsection (A)(1)(a) each time the enrolled child's parent provides the licensee with a written statement from the enrolled child's health care provider that the enrolled child has received an age-appropriate immunization required by 9 A.A.C. 6, Article 7.

D. If an enrolled child's immunization record indicates that the enrolled child has not received an age-appropriate immunization required by 9 A.A.C. 6, Article 7, a licensee shall ensure that a staff member:

1. Notifies the enrolled child's parent in writing that the enrolled child may attend the facility for not more than 15 calendar days after the date of the notification unless the enrolled child's parent complies with the immunization requirements in 9 A.A.C. 6, Article 7; and
2. Documents on the enrolled child's Emergency, Information, and Immunization Record card the date on which the enrolled child's parent is notified of an immunization required by the Department.

E. A licensee shall not allow an enrolled child who lacks proof of immunity against a disease listed in A.A.C. R9-6-702(A) to attend the child care facility between the start and end of an outbreak of the disease at the facility.

F. If a parent of an enrolled child, excluded from a child care facility because of the lack of documented immunity to a disease during an outbreak of the disease at the child care facility, submits any of the documents in A.A.C.

R9-6-704 as proof of the enrolled child's immunity to the disease, a licensee shall allow the enrolled child to attend the child care facility during the outbreak of the disease.

R9-5-306. Admission and Release of Children; Attendance Records

A. A licensee shall maintain a dated attendance form containing an enrolled child's name with the time of each admission and release of the enrolled child.

1. Except as provided in subsection (A)(2), a licensee shall ensure that the attendance form is signed with at least a first initial of an individual's first name and the individual's last name by each enrolled child's parent or individual designated by the enrolled child's parent, each time the enrolled child is admitted or released.
2. An electronic fingerprint verification or an electronic signature may be used in place of a signature of the enrolled child's parent or designated individual to admit or release the enrolled child.
3. If an electronic signature is used to admit or release the enrolled child, the licensee shall adopt policies and procedures to ensure that the individual whose signature the electronic or digital method of identification represents is accountable for the use of the electronic or digital method;
4. A licensee shall develop, document, and implement policies and procedures to ensure that the identity of an individual is known to the staff member or is verified with picture identification before releasing an enrolled child to the individual.
5. A licensee shall not release the enrolled child to an individual other than the enrolled child's parent or other individual designated in writing by the enrolled child's parent except when the enrolled child's parent is unable to collect the enrolled child and authorizes the licensee by telephone to release the enrolled child to an individual not so designated.
    a. The licensee shall verify the telephone authorization using a means of verification that has been agreed upon between the licensee and the enrolled child's parent at the time of enrollment.
    b. The licensee shall document the means of verification in subsection (A)(5)(a) on the enrolled child's Emergency, Information, and Immunization Record card.
6. A licensee shall not permit the self-admission or self-release of an enrolled child unless the enrolled child is of school age and the licensee has obtained and verified written permission from the enrolled child's parent.
7. A licensee shall maintain the attendance form on facility premises for 12 months after the date of attendance.

B. A licensee shall:

1. Develop, document, and implement policies and procedures to ensure that a staff member maintains daily documentation of the presence of an enrolled child in an activity area that includes a method to account for any temporary absences of the enrolled child from the activity area; and

2. Maintain the documentation of the presence of enrolled children in an activity area required in subsection (B)(1) on facility premises for 12 months after the date of the documentation.

R9-5-307. Suspected or Alleged Child Abuse or Neglect

A licensee shall ensure that the licensee or a staff member documents and reports all suspected or alleged cases of child abuse or neglect.

1. The licensee or staff member shall report the suspected or alleged child abuse or neglect to the Arizona Department of Child Safety or to a local law enforcement agency as prescribed in A.R.S. § 13-3620. The licensee or staff member shall also send documentation to the Arizona Department of Child Safety and any local law enforcement agency previously notified within three calendar days of the initial report, and maintain documentation of a child abuse or neglect report on facility premises for 12 months after the date of a report.
2. The licensee or staff member shall report the suspected or alleged child abuse by a staff member to the Department and to a local law enforcement agency as prescribed in A.R.S. § 13-3620. A licensee or staff member shall also send documentation to the Department and to any law enforcement agency previously notified within three calendar days of the initial report, and maintain documentation of a child abuse report on facility premises for 12 months after the date of a report.

R9-5-308. Insurance Requirements

A. A licensee shall secure and maintain the following minimum insurance coverage:

1. General facility liability insurance of at least $300,000; and
2. Motor vehicle insurance coverage, required by A.R.S. Title 28, Chapter 9, Article 4, for each motor vehicle provided by a licensee to transport enrolled children.

B. A licensee shall maintain documentation of the insurance coverage required in subsection (A) on facility premises.

C. A licensee shall provide a copy of documentation of insurance to the Department before issuance of a license and at any time that the licensee's insurance coverage expires, is canceled, or changes.

R9-5-309. Gas and Fire Inspections

A. An applicant shall obtain the following inspections of a facility and make any repairs or corrections stated on an inspection report before a license is issued by the Department:

1. If there are gas pipes that run from a gas meter to an appliance or location on the facility premises, a gas inspection by a licensed plumber or individual authorized by the local jurisdiction that verifies there are no gas leaks in the gas pipes that run from the gas meter to any appliance or location on facility premises; and
2. A fire inspection by a local fire department.

B. If there are gas pipes that run from a gas meter to an appliance or location on the facility premises, a licensee shall ensure that a licensed plumber or individual authorized by the local jurisdiction conducts a gas inspection

that verifies there are no gas leaks in the gas pipes that run from the gas meter to any appliance or location on facility premises at least once every 12 months after the issue date of the license.

C. A licensee shall maintain on facility premises:

1. A current fire inspection report including documentation of any repairs or corrections required by the fire inspection report; and
2. If there are gas pipes that run from a gas meter to an appliance or location on the facility premises, a current gas inspection report including documentation of any repairs or corrections required by the gas inspection report.

R9-5-310. Pesticides

A. A licensee shall make written pesticide information available to a parent, upon a parent's request, at least 48 hours before a pesticide application occurs on facility premises, containing:

1. The brand, concentration, rate of application, and any use restrictions required by the label of the herbicide or specific pesticide;
2. The date and time of the pesticide application;
3. The pesticide label; and
4. The name and telephone number of the pesticide business licensee and the name of the licensed applicator providing pesticide services.

B. A licensee is exempt from the provisions in subsection (A), as prescribed by A.R.S. § 36-898(C).

ARTICLE 4. FACILITY STAFF

R9-5-401. Staff Qualifications

A licensee shall ensure that staff members meet the following qualifications for employment or volunteer service at a facility:

1. A facility director is 21 years of age or older and provides the licensee with documentation of one of the following:
   a. At least 24 months of child care experience, a high school or high school equivalency diploma, and
      i. Six credit hours or more in early childhood, child development, or a closely-related field from an accredited college or university; or
      ii. At least 60 actual hours of instruction, provided in conferences, seminars, lectures, or workshops in early childhood, child development, or a closely-related field, and an additional 12 hours of instruction, provided in conferences, seminars, lectures, or workshops in the area of program administration, planning, development, or management;
   b. At least 18 months of child care experience; and
      i. An N.A.C., C.D.A., or C.C.P. credential; or

ii. At least 24 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;

c. At least six months of child care experience and an associate degree from an accredited college or university in early childhood, child development, or a closely-related field; or

d. At least three months of child care experience and a bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field;

2. A facility director's designee is 21 years of age or older and provides the licensee with documentation of one of the following:

a. At least 12 months of child care experience, a high school or high school equivalency diploma; and

i. Three credit hours or more in early childhood, child development, or a closely-related field from an accredited college or university; or

ii. At least 30 actual hours of instruction, provided in conferences, seminars, lectures, or workshops in early childhood, child development, or a closely-related field;

b. At least 12 months of child care experience; and

i. An N.A.C., C.D.A., or C.C.P. credential; or

ii At least 24 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;

c. At least six months of child care experience and an associate degree from an accredited college or university in early childhood, child development, or a closely-related field; or

d. At least three months of child care experience and a bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field;

3. A teacher-caregiver is 18 years of age or older and provides the licensee with documentation of one of the following:

a. Six months of child care experience; and

i. A high school diploma or high school equivalency diploma; or

ii. At least 12 credit hours from an accredited college or university, including at least six credit hours in early childhood, child development, or a closely-related field;

b. Associate or bachelor's degree from an accredited college or university in early childhood, child development, or a closely-related field; or

c. N.A.C., C.D.A., or C.C.P. credential;

4. An assistant teacher-caregiver is 16 years of age or older and provides the licensee with documentation of one of the following:

a. Current and continuous enrollment in high school or a high school equivalency class;

b. High school or high school equivalency diploma;

c. Enrollment in vocational rehabilitation, as defined in A.R.S. § 23-501;
d. Employment as a teacher-caregiver aide for 12 months; or
e. Service as a volunteer in a child care facility for 12 months;

5. A teacher-caregiver aide is 16 years of age or older;
6. A student-aide provides the licensee with documentation of participation in:
   a. An educational, curriculum-based course in child development, parenting, or guidance counseling; or
   b. A vocational education or occupational development program; and
7. A volunteer is 15 years of age or older.

R9-5-402. Staff Records and Reports

A. A licensee shall maintain a file for each staff member containing:

1. The staff member's name, date of birth, home address, and telephone number;
2. The staff member's starting date of employment or volunteer service;
3. The staff member's ending date of employment or volunteer service, if applicable;
4. The name and telephone number of an individual to be notified in case of an emergency;
5. The staff member's written statement attesting to current immunity against measles, rubella, diphtheria, mumps, and pertussis;
6. The form required in A.R.S. § 36-883.02(C);
7. Documents required by R9-5-203;
8. Documents required by R9-5-301;
9. Documents required by R9-5-401, if applicable;
10. If applicable:
    a. The form required in A.R.S. § 8-804(I),
    b. Documentation of the submission required in A.R.S. § 8-804 and the information received as a result of the submission, and
    c. Documentation of training provided by a licensee as required by R9-5-403;
11. A copy of any current license or certification required by A.R.S. Title 36, Chapter 7.1, Article 1, or this Chapter; and
12. Documentation of the requirements in A.R.S. § 36-883.02(D).

B. A licensee shall ensure that, for a staff member who is currently working at the facility, the staff member's information required by:

1. Subsections (A)(1) through (11) is maintained in a single location on facility premises, and
2. Subsection (A)(12) is maintained and provided to the Department within two hours of the Department's request.

C. A licensee shall ensure that, for an individual who is not currently working at the facility, the information required in subsections (A)(1) through (12) is:

1. Maintained for 12 months after the date the individual last worked at the facility, and
2. Provided to the Department within two hours of the Department's request.

R9-5-403. Training Requirements

A. Within 10 calendar days of the starting date of employment or volunteer service, a licensee shall provide, and each staff member who provides child care services shall complete, training for new staff members that includes all of the following:

1. Facility philosophy and goals;
2. Names and ages of and developmental expectations for enrolled children for whom the staff member will provide child care services;
3. Health needs, nutritional requirements, any known allergies, and information about adaptive devices of enrolled children for whom the staff member will provide child care services;
4. Lesson plans;
5. Child guidance and methods of discipline;
6. Hand washing techniques;
7. Diapering techniques and toileting, if assigned to diaper changing duties;
8. Food preparation, service, sanitation, and storage, if assigned to food preparation;
9. If a staff member is assigned to feeding infants, the preparation, handling, and storage of infant formula and breast milk;
10. Recognition of signs of illness and infestation;
11. Child abuse or neglect detection, prevention, and reporting;
12. Accident and emergency procedures;
13. Staff responsibilities as required by A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter;
14. Sun safety policies and procedures;
15. Safety in outdoor activity areas;
16. Transportation procedures, if applicable; and
17. Field trip procedures, if applicable.

B. A licensee shall ensure that:

1. Each staff member who provides child care services completes 18 or more actual hours of training every 12 months after the effective date of this Chapter or the staff member's starting date of employment or volunteer service in at least two topics listed in this subsection:
    a. Child growth and development, including:
        i. Infant growth and development, which may include sudden infant death syndrome prevention;

ii. Developmental psychology;
iii. Language development;
iv. Observation and child assessment;
v. Developmentally-appropriate activities;
vi. Child guidance and methods of discipline which may include training on the appropriate techniques to prevent a child from harm or to prevent the child from harming others; and
vii. Developmentally-appropriate activity areas;

b. Health and safety issues, including:
i. Accident and emergency procedures, including CPR and first aid for infants and children;
ii. Recognition of signs of illness and infestation;
iii. Nutrition and developmentally-appropriate eating habits;
iv. Child abuse detection, reporting, and prevention;
v. Safety of indoor and outdoor activity areas; and
vi. Sun safety policies and procedures;

c. Program administration, planning, development, or management; and
d. Availability of community services and resources, including those available to children with special needs; and

2. As part of the required 18 hours of training in subsection (B)(1):
a. A staff member who has less than 12 months of child care experience before the staff member's starting date, completes at least 12 hours in one or more of the topics in subsection (B)(1)(a) in the staff member's first 12 months at the facility;
b. A staff member who has 12 months or more of child care experience, completes at least six hours in one or more of the topics in subsection (B)(1)(a) every 12 months after the staff member's starting date;
c. A staff member who provides child care services to an infant completes at least six hours in subsection (B)(1)(a)(i) every 12 months after the staff member's starting date; and
d. A facility director completes at least six hours in subsection (B)(1)(c) every 12 months after the facility director's starting date.

C. A licensee shall ensure that documentation of a staff member's completion of training required by subsection (A) is signed by the facility director and dated.

D. A licensee shall ensure that a staff member submits to the licensee documentation of training received as required by subsection (B) to the licensee as the training is completed.

E. A licensee shall ensure that a staff member required by R9-5-301(G) meets all of the following:
1. The staff member obtains first aid training specific to infants and children;

2. The staff member obtains CPR training specific to infants and children, which includes a demonstration of the staff member's ability to perform CPR;
3. The staff member maintains current training in first aid and CPR; and
4. The staff member provides the licensee with a copy of the front and back of the current card issued to the staff member upon completing first aid and CPR training as proof of completion of the requirements of this subsection.

R9-5-404. Staff-to-Children Ratios

A. A licensee shall ensure that at least the following staff-to-children ratios are maintained at all times when providing child care services to enrolled children:

Age Group	*Staff: Children*
Infants	1:5 or 2:11
1-year-old children	1:6 or 2:13
2-year-old children	1:8
3-year-old children	1:13
4-year-old children	1:15
5-year-old children not school-age	1:20
School-age children	1:20

B. A licensee shall:
1. Determine and maintain the required staff-to-children ratio for each group of enrolled children based on the age of the youngest child in the group;
2. Allow a volunteer qualified as a director, teacher-caregiver, or a assistant-teacher caregiver to be counted as staff in staff-to-children ratios; and
3. Not allow a student-aide or an individual qualified as a teacher-caregiver-aide to be counted as staff in staff-to-children ratios.

C. A licensee shall ensure that:
1. When there are six or more enrolled children present in a facility, the following individuals are present in the facility:
   a. A facility director or a director's designee who meets the requirements in R9-5-401 for a director's designee, and

b. One additional staff member;

2. When five or fewer enrolled children are present in a facility, the facility director or director's designee who meets the requirements in R9-5-401 is present in the facility, and an additional staff member is available by telephone or other equally expeditious means and able to reach the facility within 15 minutes after notification; and
3. When six or more enrolled children are present in a facility, an infant is not placed for supervision with a child who is not an infant.

D. A licensee shall ensure that a staff member assigned to provide child care services to enrolled children does not perform duties that may affect the staff member's ability to provide child care services to the enrolled children.

E. In addition to maintaining the required staff-to-children ratios, a licensee shall ensure that:

1. Staff members are present on facility premises to perform facility administration, food preparation, food service, and maintenance responsibilities; and
2. Facility maintenance does not depend on the work of enrolled children.

F. If a licensee conducts swimming activities at a swimming pool, the licensee shall ensure that there is a lifeguard on the premises who has current lifeguard certification that includes a demonstration of the lifeguard's ability to perform CPR. If the lifeguard is a staff member, the staff member cannot be counted in the staff-to-children ratios required by subsection (A).

ARTICLE 5. FACILITY PROGRAM AND EQUIPMENT

R9-5-501. General Child Care Program, Equipment, and Health and Safety Standards

A. A licensee shall ensure that:

1. In addition to complying with the requirements in this Chapter, the health, safety, or welfare of an enrolled child is not placed at risk of harm;
2. Except for an enrolled school-age child, drinking water is provided sufficient for the needs of and accessible to each enrolled child in both indoor and outdoor activity areas;
3. For an enrolled school-age child, if drinking water is not accessible in an indoor or outdoor activity area, drinking water sufficient to meet the individual needs of each enrolled school-aged child is available;
4. An enrolled child is placed in an age-appropriate or developmentally-appropriate group;
5. Indoor activity areas used by enrolled children are decorated with age-appropriate articles such as mirrors, bulletin boards, pictures, and posters;
6. Age-appropriate toys, materials, and equipment are provided to enable each enrolled child to participate in an activity;
7. Storage space is provided in the facility for indoor and outdoor toys, materials, and equipment in areas accessible to enrolled children;
8. Clean clothing is available to an enrolled child when the enrolled child needs a change of clothing;

9. If a staff member places an enrolled child in a feeding chair when feeding the enrolled child:
    a. The feeding chair is constructed to prevent toppling;
    b. The tray or feeding surface of the feeding chair is smooth and free of cracks; and
    c. The staff member:
        i. Cleans the feeding chair before and after each enrolled child's use;
        ii. Sanitizes the tray or feeding surface before and after each enrolled child's use; and
        iii. If the feeding chair was manufactured with a safety strap, fastens the feeding chair's safety strap while the enrolled child is in the feeding chair;
10. At least one indoor activity area in the facility is equipped with at least one cot or mat, a sheet, and a blanket, where an enrolled child can rest quietly away from other enrolled children;
11. Outdoor activities are scheduled to allow not less than 75 square feet for each enrolled child occupying the facility's outdoor activity area or indoor activity area substituted for outdoor activity area at any time;
12. The facility premises, including the buildings, are maintained free from hazards;
13. Toys and play equipment, required in this Article, are maintained:
    a. Free from hazards, and
    b. In a condition that allows the toy or play equipment to be used for the original purpose of the toy or play equipment;
14. Temperatures are maintained between 68° F and 82° F in each room used by enrolled children;
15. Except when an enrolled child is napping or sleeping, each room used by an enrolled child is maintained at a minimum of 30 foot candles of illumination;
16. When an enrolled child is napping or sleeping in a room, the room is maintained at a minimum of 5 foot candles of illumination;
17. Each enrolled child's toothbrush, comb, washcloth, cloth towel, and clothing is maintained in a clean condition and stored in an identified space separate from those of other enrolled children;
18. Each enrolled child's pacifier is labeled with an identifier that is specific to the enrolled child and maintained in a clean condition;
19. Except as provided in subsection (A)(20), the following are stored separate from food storage areas and are inaccessible to an enrolled child:
    a. All materials and chemicals labeled as a toxic or flammable substance;
    b. All substances that have a child warning label and may be a hazard to a child; and
    c. Lawn mowers, ladders, toilet brushes, plungers, and other facility equipment that may be a hazard to a child;
20. Hand sanitizers:

a. When being stored, are stored separate from food storage areas and are inaccessible to enrolled children; and

b. When being provided for use, are accessible to enrolled children; and

21. Except when used as part of an activity, the following are stored in an area inaccessible to an enrolled child:

a. Garden tools, such as a rake, trowel, and shovel; and

b. Cleaning equipment and supplies, such as a mop and mop bucket.

B. A toy or piece of play equipment, which is free from hazards and in a condition that does not allow the toy or play equipment to be used for the toy or play equipment's original purpose, may be in an activity area but is not counted as one of the toys or play equipment required in this Article.

C. A licensee shall ensure that a staff member:

1. Supervises each enrolled child at all times;
2. Does not smoke or use tobacco:
   a. On facility premises, except in designated areas separated from the children; or
   b. On a field trip or when transporting an enrolled child;
3. Except for an enrolled child who can change the enrolled child's own clothing, changes an enrolled child's clothing when wet or soiled;
4. Except as provided in subsection (D), prepares and posts in each indoor activity area, a current schedule of children's age-appropriate activities, including the times the following are provided:
   a. Meals and snacks;
   b. Naps;
   c. Indoor activities;
   d. Outdoor or large muscle development activities;
   e. Quiet and active activities;
   f. Teacher-directed activities;
   g. Self-directed activities;
   h. Activities for individuals, groups of five or fewer children, and groups of six or more children; and
   i. Activities that develop small muscles;
5. Except as provided in subsection (D), prepares and posts a dated lesson plan in each indoor activity area for each calendar week, which is maintained on facility premises for 12 months after the lesson plan date and provides opportunities for each child to:
   a. Gain a positive self-concept;
   b. Develop and practice social skills;
   c. Think, reason, question, and experiment;
   d. Acquire language skills;

e. Develop physical coordination skills;
f. Participate in structured large muscle physical activity;
g. Develop habits that meet health, safety, and nutritional needs;
h. Express creativity;
i. Learn to respect cultural diversity of children and staff;
j. Learn self-help skills; and
k. Develop a sense of responsibility and independence;

6. If an activity in the lesson plan required in subsection (C)(5) includes screen time, include in the lesson plan the duration of the screen time in minutes;
7. Except as provided in subsection (C)(8), implements the schedule in subsection (C)(4) and lesson plan in subsection (C)(5);
8. If the schedule in subsection (C)(4) or lesson plan in subsection (C)(5) is not implemented, writes on the schedule or the lesson plan the activity that is implemented;
9. Does the following when a parent permits or asks a staff member to apply personal products on an enrolled child, such as petroleum jelly, diaper rash ointments, sun screen or sun block preparations, toothpaste, and baby diapering preparations:
   a. Obtains the enrolled child's personal products from the enrolled child's parent or, if the licensee provides the personal products for use by the enrolled child, obtains written approval for use of the products from the enrolled child's parent;
   b. Labels the personal products with the enrolled child's name; and
   c. Keeps the personal products inaccessible to enrolled children;
10. When a parent permits, allows an enrolled school-age child to possess and use a topical sunscreen product without a note or prescription from a licensed health care professional.
11. In an indoor activity area that does not have a diaper changing area:
   a. Stores an enrolled child's wet or soiled clothing in a sealed plastic bag labeled with the enrolled child's name; and
   b. Sends an enrolled child's wet or soiled clothing home with the enrolled child when the facility releases the enrolled child to the enrolled child's parent; and
12. Monitors an enrolled child for overheating or overexposure to the sun. If the enrolled child exhibits signs of overheating or overexposure to the sun, a staff member who has the first aid training required by R9-5-403(E) shall evaluate and treat the enrolled child.

D. A licensee is not required to have a schedule required in subsection (C)(4) or a lesson plan required in subsection (C)(5) for an indoor activity area that is approved and used:

1. By enrolled children only for:

a. Snacks or meals, or
b. A specific activity,

2. To provide child care services to infants, or
3. As a substitute for an outdoor activity area.

R9-5-502. Supplemental Standards for Infants

A. A licensee providing child care services for infants shall:

1. Provide a wall-enclosed room for infants that provides exits required by R9-5-601(1);
2. Provide age-appropriate active and quiet activities for each infant;
3. Provide age-appropriate indoor and outdoor activities for each infant;
4. Permit an infant to maintain the infant's pattern of sleeping and waking;
5. Develop, document, and implement tummy time policies and procedures that:
   a. Provide an opportunity for a non-crawling infant to experience tummy time each day:
      i. While the infant is awake, and
      ii. On the infant's stomach;
   b. Ensure a staff member who is supervising a non-crawling infant while the infant is flat on their stomach and on the floor:
      i. Is within reach of the infant;
      ii. Does not perform any other duties while supervising the infant;
      iii. Does not allow the use of pillows, comforters, sheepskins, stuffed toys, or other soft products in the same floor space as the infant; and
      iv. Does not allow any product specified in subsection (A)(5)(b)(iii) to be within reach of the infant;
   c. Require continuous interaction between a non-crawling infant and the staff member who is supervising the non-crawling infant during tummy time;
   d. Ensure, as an infant demonstrates ability and strength to control physical movement and greater sensory perception and social interaction, an assigned staff member provide a tummy-time period to:
      i. A 2 - 3 month old infant of no more than 15 minutes;
      ii. A 3 - 4 month old infant of no more than 20 minutes; and
      iii. A 5 - 6 month old infant of 20 minutes; and
   e. Ensure a non-crawling infant's tummy time period specified in subsection (A)(5)(d):
      i. Is determined by the assigned staff member's assessment of the infant;
      ii. Is gradually increased as the infant's ability, strength, and perception increases; and
      iii. Does not exceed tummy time periods specified in subsection (5)(D)(i) through (iii).
6. Provide an outdoor activity area or an indoor activity area for large muscle development substituted for an outdoor activity area that is used by infants when enrolled children older than infants are not present;

7. Provide space, materials, and equipment in an infant room that includes the following:
    a. An area with nonabrasive flooring for sitting, crawling, and playing;
    b. Toys, materials, and equipment, that are too large for a child to swallow and free from sharp edges and points, in a quantity sufficient to meet the needs of the infants in attendance that include:
        i. Toys to enhance physical development such as toys for stacking, pulling, and grasping;
        ii. Soft toys;
        iii. Books;
        iv. Toys to enhance visual development such as crib mobiles and activity mats with an object or objects suspended above the infant's head; and
        v. Unbreakable mirrors; and
    c. At least one adult-size chair for use by a:
        i. Staff member when holding or feeding an infant, or
        ii. Nursing mother when breastfeeding her infant;
8. Provide a crib for each infant that:
    a. Has bars or openings spaced no more than 2 3/8 inches apart and a crib mattress measured to fit not more than 1/2 inch from the crib side;
    b. Has a commercially waterproofed mattress; and
    c. Is furnished with clean, sanitized, crib-size bedding, including a fitted sheet and top sheet or a blanket;
9. Prohibit the use of stacked cribs;
10. Ensure that an occupied crib with a crib side that does not have a non-porous barrier is placed at least 2 feet from another occupied crib side that does not have a non-porous barrier; and
11. Label each food container received from the parent with the infant's name.

B. A licensee providing child care services for infants shall not:

1. Allow an infant room to be used as a passageway to another area of the facility;
2. Permit an infant who is awake to remain for more than 30 consecutive minutes in a crib, swing, feeding chair, infant seat, or any equipment that confines movement;
3. Permit an infant to use a walker; or
4. Allow screen time in an infant room.

C. A licensee shall ensure that:

1. A staff member providing child care services in an infant room:
    a. Plays and talks with each infant;
    b. Holds and rocks each infant;
    c. Responds immediately to each infant's distress signals;
    d. Keeps dated, daily, documentation of each infant including:

i. A description of any activities the infant participated in,
ii. The infant's food consumption,
iii. Diaper changes, and
iv. Tummy time;

e. Maintains the documentation in subsection (C)(1)(d) on facility premises for 12 months after the date on the documentation;
f. Provides a copy of the documentation in subsection (C)(1)(d) to the infant's parent upon request;
g. Does not allow bumper pads, pillows, comforters, sheepskins, stuffed toys, or other soft products in a crib when an infant is in the crib;
h. Cleans and sanitizes each crib and mattress used by an infant when soiled;
i. Changes each crib sheet and blanket before use by another infant, when soiled, or at least once every 24 hours;
j. Cleans and sanitizes all sheets and blankets before use by another infant;
k. Places an infant to sleep on the infant's back, unless the infant's parent submits written instructions from the infant's health care provider that states otherwise;
l. Obtains written, current, and dated dietary instructions from a parent or health care provider regarding the method of feeding and types of foods to be prepared or fed to an infant at the facility;
m. Posts the current written dietary instructions in the infant room and the kitchen and maintains the instructions on facility premises for 12 months after the date of the instructions; and
n. Follows the current written dietary instructions of a parent when feeding the infant;

2. A staff member providing child care services in an infant room does not:
   a. Place an infant directly on a waterproof mattress cover; or
   b. Place an infant to sleep using a positioning device that restricts movement, unless the infant's health care provider has instructed otherwise in writing;
3. When preparing, using, or caring for an infant's feeding bottles, a staff member:
   a. Labels each bottle received from the parent with the infant's name;
   b. Ensures that a bottle is not:
      i. Heated in a microwave oven;
      ii. Propped for an infant feeding; or
      iii. Permitted in an infant's crib unless the written instructions required by subsection (C)(1)(l) state otherwise;
   c. Empties and rinses bottles previously used by an infant; and
   d. Cleans and sanitizes a bottle, bottle cover, and nipple before reuse; and
4. When feeding an infant, a staff member:

a. Provides an infant with food for growth and development that includes:
   i. Formula provided by the infant's parent or the licensee or breast milk provided by the infant's parent, following written instructions required by subsection (C)(1)(l); and
   ii. Cereal as requested by the infant's parent or health care provider;
b. If the staff member prepares an infant's formula, prepares the infant's formula in a sanitary manner;
c. Stores formula and breast milk in a sanitary manner at the facility;
d. Does not mix cereal with formula and feed it to an infant from a bottle or infant feeder unless the written instructions required by subsection (C)(1)(l) state otherwise;
e. Except for finger food, feeds solid food to an infant by spoon from an individual container;
f. Uses a separate container and spoon for each infant;
g. Holds and feeds an infant under 6 months of age and an infant older than 6 months of age who cannot hold a bottle for feeding; and
h. If an infant is no longer being held for feeding, seats the infant in a feeding chair or at a table with a chair that allows the infant to reach the food while sitting.

R9-5-503. Standards for Diaper Changing

A. A licensee shall ensure that each diaper changing area required in R9-5-601(4) contains:
1. A nonabsorbent, sanitizable diaper changing surface that is:
   a. Seamless and smooth, and
   b. Kept clear of items not required for diaper changing;
2. A hand-washing sink next to the diaper changing surface for staff use when changing diapers and for washing an enrolled child during or after diapering, that provides:
   a. Running water between 86° F and 110° F,
   b. Soap from a dispenser, and
   c. Single-use paper hand towels from a dispenser;
3. At least one waterproof, sanitizable container with a waterproof liner and a tight fitting lid for soiled diapers; and
4. At least one waterproof, sanitizable container with a waterproof liner and a tight fitting lid for soiled clothing.

B. A licensee shall ensure that a staff member does not:
1. Permit a bottle, formula, food, eating utensil, or food preparation in a diaper changing area;
2. Draw water for human consumption from a diaper changing area sink; or
3. Except as provided in subsection (C), if responsible for food preparation, change diapers until food preparation duties have been completed for the day.

C. A staff member who provides child care services to an infant:

1. May throughout the time the staff member provides child care services to the infant:
    a. Change the infant's diaper, and
    b. Prepare the infant's formula or cereal; and
2. Is prohibited from other food preparation after changing the infant's diaper.

D. A licensee shall ensure that a written diaper changing procedure is posted and implemented in each diaper changing area.

E. A licensee shall ensure that the written diaper changing procedure in subsection (D) states that an enrolled child's diaper is changed as soon as it is soiled, and that a staff member, when diapering:

1. Uses a separate wash cloth and towel only once for each enrolled child;
2. Washes and dries the enrolled child using the enrolled child's individual personal products labeled with the enrolled child's name;
3. Uses single-use non-porous gloves;
4. Washes the staff member's own hands with soap and running water between 86° F and 110° F before and after each diaper change;
5. Washes each enrolled child's hands with soap and running water between 86° F and 110° F after each diaper change;
6. Cleans, sanitizes, and dries the diaper changing surface following each diaper change; and
7. Uses single-use paper towels from a dispenser to dry the diaper changing surface or the hands of the enrolled child or staff member.

F. A licensee shall ensure that in an activity area with a diaper changing area:

1. The containers required in subsections (A)(3) and (4) are inaccessible, and
2. A staff member:
    a. Documents each diaper change:
        i. For an infant, in the infant's dated, daily, documentation required in R9-5-502(C)(1)(d); or
        ii. For an enrolled child who is not an infant, in a dated diaper changing log.
    b. Maintains the diaper changing log on facility premises for 12 months after the date of the diaper changing log;
    c. Empties clothing soiled with feces into a flush toilet without rinsing;
    d. Places an enrolled child's clothing soiled by feces or urine in a plastic bag labeled with the enrolled child's name, stores the clothing in a container used for this purpose, and sends the clothing home with the enrolled child's parent; and
    e. Removes disposable diapers and disposable training pants from a diaper changing area as needed or at least twice every 24 hours to a waste receptacle outside the facility building.

R9-5-504. Supplemental Standards for 1-year-old and 2-year-old Children

A licensee providing child care services for 1-year-old and 2-year-old children shall:

1. Ensure that a staff member does not permit a 1-year-old or 2-year-old enrolled child who is awake to spend more than 30 minutes of consecutive time in a crib, feeding chair, or other place of confinement;
2. Consult with each enrolled child's parent to develop a plan for individual toilet training of the enrolled child and ensure that a staff member does not force toilet training on any enrolled child;
3. Ensure that each activity area has a supply of age-appropriate toys, materials, and equipment that are too large for a child to swallow and free from sharp edges and points, in a quantity sufficient to meet the needs of the enrolled children in attendance including:
    a. Art supplies,
    b. Books,
    c. Rubber or soft plastic balls,
    d. Puzzles and toys to enhance manipulative skills,
    e. Blocks,
    f. Washable soft toys and dolls,
    g. Musical instruments, and
    h. Indoor and outdoor equipment to enhance large muscle development;
4. Prohibit screen time in an activity area where child care services are provided to a 1-year-old child; and
5. Ensure that:
    a. If finger food is served, the food is of a size and texture that does not present a choking hazard;
    b. A staff member serves food to an enrolled child in a feeding chair or at a table with a chair that allows the enrolled child to reach the food while sitting;
    c. If a child is fed with a bottle, a staff member complies with the requirements in R9-5-502(C)(3); and
    d. If a parent brings a sippy cup for the parent's enrolled child, the sippy cup is labeled with the enrolled child's name.

R9-5-505. Supplemental Standards for 3-year-old, 4-year-old, and 5-year-old Children

A licensee providing child care services for 3-year-old, 4-year-old, and 5-year-old children shall provide a supply of age-appropriate toys, materials, and equipment accessible to enrolled children in each activity area in a quantity sufficient to meet the needs of the enrolled children in attendance including:

1. Art supplies,
2. Blocks,
3. Books and posters,
4. Toys and dress-up clothes,
5. Indoor and outdoor equipment to enhance large muscle development,

6. Puzzles and toys to enhance manipulative and categorization skills,
7. Science materials, and
8. Musical instruments.

R9-5-506. Supplemental Standards for School-age Children

A licensee providing child care services for school-age children shall:

1. Ensure that a staff member supervises an enrolled school-age child to and from a bathroom and allows the enrolled child privacy while in the bathroom;
2. Ensure that if an enrolled child remains in the bathroom for more than three minutes, the supervising staff member checks on the enrolled child to ensure the child's safety;
3. Provide age-appropriate toys, materials, and equipment accessible to enrolled children in each activity area in a quantity sufficient to meet the needs of the enrolled children in attendance including:
   a. Arts and crafts,
   b. Games,
   c. Puzzles and toys to enhance manipulative skills,
   d. Books,
   e. Science materials,
   f. Sports equipment, and
   g. Outdoor play equipment; and
4. Provide enrolled school-age children with a quiet study area.

R9-5-507. Supplemental Standards for Children with Special Needs

A. A licensee providing child care services for a child with special needs shall:

1. Except as provided in subsection (A)(2), before a child with special needs receives child care services, obtain from the enrolled child's parent a copy of an existing individualized plan for the enrolled child that can be reviewed, adopted, and implemented by the licensee when providing child care services to the enrolled child that includes the following as needed for the enrolled child:
   a. Medication schedule;
   b. Nutrition and feeding instructions;
   c. Qualifications required of a staff member who feeds the enrolled child;
   d. Medical equipment or adaptive devices;
   e. Medical emergency instructions;
   f. Toileting and personal hygiene instructions;
   g. Specific child care services to be provided to the enrolled child at the facility;
   h. Information from health care providers, including the frequency and length of any prescribed medical treatment or therapy;

i. Training required of a staff member to care for the enrolled child's special needs; and

j. Participation in fire and emergency evacuation drills;

2. If an enrolled child with special needs does not have an existing individualized plan, obtain from the enrolled child's parent written instructions for providing services to the enrolled child until a written individualized plan required in subsection (A)(1) is developed by a team consisting of staff members, the enrolled child's parent, and health care providers that is completed within 30 calendar days after the enrolled child's initial date of receiving child care services;

3. Maintain an enrolled child's current individualized plan on facility premises and if the current individualized plan was developed according to subsection (A)(2), provide a copy to the enrolled child's parent; and

4. Ensure the individualized plan is updated at least every 12 months after the date of the initial plan or as changes occur.

B. If an enrolled child with special needs who is 18 months of age or older and does not walk is placed in an infant group, a licensee may move the enrolled child after the enrolled child's parent and licensee determine that the proposed move is developmentally-appropriate.

C. A licensee shall ensure that:

1. When tube feeding an enrolled child, a staff member only uses:

   a. Commercially prepackaged formula in a ready-to-use state,

   b. Formula prepared by the enrolled child's parent and brought to the facility in an unbreakable container, or

   c. Breast milk brought to the facility in an unbreakable container; and

2. Only a staff member instructed by an enrolled child's parent or individual designated by the enrolled child's parent:

   a. Feeds the enrolled child using the enrolled child's tube-feeding apparatus, and

   b. Cleans the enrolled child's tube-feeding apparatus.

D. A licensee shall provide an enrolled child with special needs with:

1. Developmentally-appropriate toys, materials, and equipment; and

2. Assistance from staff members to enable the enrolled child to participate in the activities of the facility.

E. In addition to complying with the transportation requirements in R9-5-517, a licensee transporting an enrolled child with special needs in a wheelchair in a facility's motor vehicle shall ensure that:

1. The enrolled child's wheelchair is manufactured to be secured in a motor vehicle;

2. The enrolled child's wheelchair is secured in the motor vehicle using a minimum of four anchorages attached to the motor vehicle floor, and four securement devices, such as straps or webbing that have buckles and fasteners, that attach the wheelchair to the anchorages;

3. The enrolled child is secured in the wheelchair by means of a wheelchair restraint that is a combination of pelvic and upper body belts intended to secure a passenger in a wheelchair; and
4. The enrolled child's wheelchair is placed in a position in the motor vehicle that does not prevent access to the enrolled child in the wheelchair or passage to the front and rear in the motor vehicle.

F. A licensee providing child care services for an enrolled child who uses a wheelchair or is not able to walk shall locate the enrolled child on the ground floor of the facility.

G. If a child care facility requires a separate diaper changing area to allow privacy while providing diapering to an enrolled child with special needs, the licensee shall submit a written request for approval of the intended change to the Department according to R9-5-208 prior to adding a diaper changing area.

R9-5-508. General Nutrition Standards

A. A licensee shall:
1. Make breakfast available to an enrolled child who is present at a facility before 8:00 a.m.,
2. Serve lunch to an enrolled child who is present at a facility between 11:00 a.m. through 1:00 p.m., and
3. Serve dinner to an enrolled child who is present from 5:00 p.m. through 7:00 p.m. and who will remain at the facility after 7:00 p.m.

B. A licensee shall serve the following meals or snacks to an enrolled child present at a facility for the following periods of time:
1. If an enrolled child is present two to four hours, one or more snacks;
2. If an enrolled child is present during any of the meal times stated in subsection (A), a meal that meets the meal pattern requirements in subsection (C);
3. If an enrolled child is present four to eight hours, one or more snacks and a meal;
4. If an enrolled child is present nine or more hours, two snacks and one or more meals; and
5. Before bedtime, one snack.

C. If a licensee provides food, a licensee shall prepare and serve food according to the meal pattern requirements found in Table 5.1, "Meal Pattern Requirements for Children."

D. If an enrolled child's parent provides food for the parent's enrolled child, the licensee shall provide milk or juice to the enrolled child if not provided by the parent.

E. If a licensee plans and serves meals, the licensee shall ensure that the meals:
1. Meet the age-appropriate nutritional requirements of an enrolled child; and
2. For each calendar week, provide a variety of foods within each food group from the meal pattern requirements.

F. If a licensee provides food, the licensee shall maintain on the facility premises at least a one day supply of food needed to provide the meals and snacks required by subsections (B) and (C) to each enrolled child attending the facility.

G. In addition to the required daily servings of food stated in subsection (C), a licensee:

1. Shall make second servings of food available to each enrolled child at meals and at snack time,
2. May substitute a food that is equivalent to a specific food component if second servings of the specific food component are not available, and
3. Shall ensure that a food substitution in subsection (G)(2) is written on the posted weekly menu by the end of the meal or snack service.

Table 5.1 Meal Pattern Requirements for Children

TABLE OF MEAL PATTERN REQUIREMENTS FOR CHILDREN			
Food Components	Ages 1 through 2 years	Ages 3 through 5 years	Ages 6 and Older
Breakfast:			
1. Milk, fluid	1/2 cup	3/4 cup	1 cup
2. Vegetable, fruit, or both	1/4 cup	1/2 cup	1/2 cup
3. Grains	1/2 oz. eq[1]	1/2 oz. eq[1]	1 oz. eq[1]
Lunch or Supper:			
1. Milk, fluid	1/2 cup	3/4 cup	1 cup
2. Vegetables	1/8 cup	1/4 cup	1/2 cup
Fruits	1/8 cup	1/4 cup	1/4 cup
3. Grains	1/2 oz. eq[1]	1/2 oz. eq[1]	1 oz. eq[1]
4. Meat or meat alternates	1 oz.	1 1/2 oz.	2 oz.
Snack: (select 2 of these 4 components)***			
1. Milk, fluid	1/2 cup	1/2 cup	1 cup
2. Vegetables	1/2 cup	1/2 cup	3/4 cup

Fruits	1/2 cup	1/2 cup	3/4 cup
3. Grains	1/2 oz.	1/2 oz.	1 oz.
4. Meat or meat alternates	1/2 oz.	1/2 oz.	1 oz.

[1] Meat and meat alternates may be used to substitute the entire grains component a maximum of three times per week. Oz eq = ounce equivalents

* In the same meal service, dried beans or dried peas may be used as a meat alternate or as a vegetable; however, such use does not satisfy the requirement for both components.

** At lunch and supper, no more than 50% of the requirement shall be met with nuts, seeds, or nut butters. Nuts, seeds, or nut butters shall be combined with another meat or meat alternative to fulfill the requirement. Two tablespoons of nut butter or one ounce of nuts or seeds equals one ounce of meat.

*** Juice may not be served when milk is served as the only other component.

R9-5-509. General Food Service and Food Handling Standards

A. A licensee that prepares food for enrolled children on facility premises shall, if required by 9 A.A.C. 8, Article 1, and the local ordinances of the local health department where the facility is located, obtain a food establishment permit issued under 9 A.A.C. 8, Article 1, and:

1. Provide the Department with a copy of the facility's food establishment permit before the Department issues a license to the facility,
2. Maintain the facility's current food establishment permit on the facility's premises, and
3. Provide a copy of the facility's current food establishment permit to the Department upon request.

B. If a licensee contracts with a food establishment to prepare and deliver food to the facility, the licensee shall obtain and provide the Department with a copy of the food establishment's permit, issued under 9 A.A.C. 8, Article 1, at the following times:

1. Before the Department issues a license to the facility,
2. Upon contracting with the food establishment, and
3. Every 12 months after the date the contract is entered into while the contract is in effect.

C. A licensee shall ensure that:

1. Enrolled children, except infants and children with special needs who cannot wash their own hands, wash their hands with soap and running water before and after handling or eating food;
2. A staff member:
   a. Washes the hands of an infant or a child with special needs who cannot wash the child's own hands before and after the infant or child with special needs handles or eats food using:

i. A washcloth,
ii. A single-use paper towel, or
iii. Soap and running water; and

b. If using a washcloth, uses each washcloth on only one child and only one time before it is laundered or discarded;

3. An enrolled child is not permitted to eat food directly off the floor, carpet, or ground or with utensils placed directly on the floor, carpet, or ground;
4. A staff member encourages, but never forces, enrolled children to eat food;
5. A staff member assists each enrolled child who needs assistance with eating;
6. A staff member teaches self-feeding skills and habits of good nutrition to each enrolled child as necessary;
7. Lunch and dinner are family-style meals as demonstrated by at least one of the following:
   a. Food is served from a serving container on the table where enrolled children are seated;
   b. Enrolled children serve themselves, independently or with the help of a staff member, from a serving container on the table where enrolled children are seated;
   c. Enrolled children pass a serving container from individual to individual;
   d. In a facility where lunch or dinner is provided by the facility, a staff member sits at the table and eats the lunch or dinner with enrolled children; or
   e. In a facility where each enrolled child brings the enrolled child's own lunch or dinner, a staff member sits at the table with the enrolled children and eats the staff member's own lunch or dinner;
8. Fresh milk is served from the original, commercially filled container, to a container used for meal service or a cup, and unused portions are not returned to the original container;
9. Milk served to an enrolled child older than two years of age is fat-free or 1% lowfat milk unless the enrolled child's parent requests otherwise;
10. Reconstituted dry milk is not served to meet the fluid milk requirement;
11. Juice served to children for a meal or snack is full-strength 100% vegetable or 100% fruit juice from an original, commercially filled container or reconstituted from a concentrate according to manufacturer instructions;
12. Fruit juice served to an enrolled child is limited to the following amounts:
    a. For an enrolled child younger than six years of age, four ounces per day; or
    b. For an enrolled child six years of age or older, six ounces per day;
13. A beverage sweetened with any kind of sugar product is not provided by the facility;
14. Each staff member is informed of a modified diet prescribed for an enrolled child by the child's parent or health care provider, and the modified diet is posted in the kitchen and in the child's activity area;

15. The food served to an enrolled child is consistent with a modified diet prescribed for the child by the child's parent or health care provider;
16. An enrolled child is not permitted in the kitchen during food preparation or food service except as part of an activity;
17. An enrolled child does not use the kitchen or a food storage area as a passageway;
18. A staff member:
    a. Prepares a weekly menu at least one week in advance,
    b. Includes on the menu the specific foods to be served on each day,
    c. Dates each menu,
    d. Posts each menu at least one day before the first meal on the menu will be served, and
    e. Writes food substitutions on a posted menu no later than the morning of the day of meal service;
19. Non-single-use utensils and equipment used in preparing, eating, or drinking food are:
    a. After each use:
        i. Washed in an automatic dishwasher and air dried or heat dried; or
        ii. Washed in hot soapy water, rinsed in clean water, sanitized, and air dried or heat dried; and
    b. Stored in a clean area protected from contamination;
20. Single-use utensils and equipment are disposed of after being used;
21. Perishable foods are covered and stored in a refrigerator at a temperature of 41° F or below;
22. A refrigerator at the child care facility maintains a temperature of 41° F or below, as shown by a thermometer kept in the refrigerator at all times;
23. A freezer at the child care facility maintains a temperature of 0° F or below, as shown by a thermometer kept in the freezer at all times; and
24. Foods are prepared as close as possible to serving time and, if prepared in advance, are either:
    a. Cold held at a temperature of 45° F or below or hot held at a temperature of 130° F or above until served, or
    b. Cold held at a temperature of 45° F or below and then reheated to a temperature of at least 165° F before being served.

R9-5-510. Discipline and Guidance

A. A licensee shall ensure that a staff member:

1. Defines and maintains consistent and reasonable guidelines and limitations for an enrolled child's behavior;
2. Teaches, models, and encourages orderly conduct, personal control, and age-appropriate behavior;
3. Explains to an enrolled child why a particular behavior is not allowed, suggests an alternative, and assists the enrolled child to become engaged in an alternative activity; and

4. After determining that an enrolled child's behavior may result in harm to self or others, holds the enrolled child until the enrolled child regains control or composure.

B. A licensee shall ensure that a staff member does not use or permit:

1. A method of discipline that could cause harm to the health, safety, or welfare of an enrolled child;
2. Corporal punishment;
3. Abusive language;
4. Discipline associated with:
   a. Eating, napping, sleeping, or toileting;
   b. Medication; or
   c. Mechanical restraint; or
5. Discipline administered to any enrolled child by another enrolled child.

C. A licensee may allow a staff member to separate an enrolled child from other enrolled children for unacceptable age-appropriate behavior.

1. The separation period shall be for no longer than three minutes after the enrolled child has regained control or composure.
2. A staff member shall not allow an enrolled child to be separated for longer than 10 minutes without the staff member interacting with the enrolled child.

R9-5-511. Sleeping and Napping

A. A licensee shall provide each enrolled child who naps or sleeps at the facility with a separate cot or mat or a crib that meets the requirements of R9-5-502(A)(8) and ensure that:

1. A cot, mat, or crib used by the enrolled child accommodates the enrolled child's height and weight;
2. A staff member covers each cot, crib mattress, or mat with a clean sheet that is laundered when soiled, or at least once every seven days and before use by a different enrolled child;
3. A clean blanket or sheet is available for each enrolled child;
4. A rug, carpet, blanket, or towel is not used as a mat; and
5. Each cot, mat, or crib is maintained in a clean and repaired condition.

B. A licensee shall not use bunk beds or waterbed mattresses.

C. A licensee shall provide an unobstructed passageway at least 18 inches wide between each row of cots or mats to allow a staff member access to each enrolled child.

D. A licensee shall ensure that if an enrolled child is present at the facility during evening and nighttime hours, the licensee:

1. Permits the enrolled child to use a mat only when used on top of a cot;
2. Before bathing the enrolled child at the facility, obtains written consent and bathing instructions from the enrolled child's parent and follows the instructions when bathing the enrolled child;

3. Requires that a staff member cleans and sanitizes a bathtub or shower stall after bathing each enrolled child;
4. Requires that a staff member remains awake while supervising the sleeping enrolled child; and
5. Prohibits the operation of a television set in a room where the enrolled child is sleeping.

E. A licensee shall ensure that if an enrolled child is present at the facility during naptime, the licensee:

1. Does not permit the enrolled child to lie in direct contact with the floor while napping,
2. Prohibits the operation of a television set in a room where the enrolled child is napping,
3. Ensures naptime accommodations are available for the enrolled school-age child if requested by the enrolled child or the enrolled child's parent,
4. Requires that a staff member remain awake while supervising the enrolled sleeping child, and
5. Prohibits the enrolled child from napping in an attic or a loft during naptime.

F. A licensee shall ensure that storage space is provided in the facility for cots, mats, sheets, and blankets, that is:

1. Accessible to an area used for naptime or sleeping; and
2. Separate from food service and preparation areas, toilet rooms, and laundry rooms.

R9-5-512. Cleaning and Sanitation

A. A licensee shall maintain facility premises free of insects and vermin.

B. A licensee shall maintain facility premises and furnishings:

1. In a clean condition, and
2. Free from odor.

C. A licensee shall ensure that floor coverings are:

1. Clean, and
2. Free from:
   a. Dampness,
   b. Odors, and
   c. Hazards.

D. A licensee shall ensure that toilet bowls, lavatory fixtures, and floors in toilet rooms and kitchens are cleaned and sanitized as often as necessary to maintain them in a clean and sanitized condition or at least once every 24 hours.

E. If laundry belonging to a facility is done on facility premises, a licensee shall:

1. Not use a kitchen or food storage area for sorting, handling, washing, or drying laundry;
2. Locate the laundry equipment in an area that is separate from licensed activity areas and inaccessible to enrolled children;
3. Not permit an enrolled child to be in a laundry room or use a laundry area as a passageway for enrolled children; and

4. Ensure that laundry soiled by vomitus, urine, feces, blood, or other body fluid is stored, cleaned, and sanitized separately from other laundry.

F. A licensee shall ensure that:

1. Each toilet room in a facility contains, within easy reach of enrolled children:
   a. Mounted toilet tissue; and
   b. Except as provided in subsection (G):
      i. A sink with running water;
      ii. Soap contained in a dispenser; and
      iii. Disposable, single-use paper towels in a mounted dispenser, or a mechanical air hand dryer;
2. Staff members wash their hands with soap and running water after toileting;
3. An enrolled child's hands are washed with soap and running water after toileting;
4. Except for a cup or receptacle used only for water, food waste is stored in a covered container and the container is clean and lined with a plastic bag;
5. Food waste and other refuse is removed from the facility building at least once every 24 hours or more often as necessary to maintain a clean condition and avoid odors;
6. A staff member or an enrolled child does not draw water for human consumption from a toilet room handwashing sink;
7. Toys, materials, and equipment are maintained in a clean condition;
8. Plumbing fixtures are maintained in a clean and working condition; and
9. Chipped or cracked sinks and toilets are replaced or repaired.

G. A licensee may have a sink with running water, soap contained in a dispenser, and single-use paper towels in a mounted dispenser or a mechanical air hand dryer located directly outside a toilet room if an enrolled child exiting the toilet room can access the sink, soap, and paper towels or air hand dryer without having to cross space that is used for any activity.

R9-5-513. Pets and Animals

A. A licensee shall maintain written documentation of current immunization against rabies for each ferret, dog, or cat owned by a licensee or staff member that is present on facility premises.

B. A licensee shall ensure that a staff member:

1. Keeps all pet and animal habitats clean;
2. Prohibits reptiles, such as turtles, iguanas, snakes, and lizards, in the facility;
3. Prohibits birds in food preparation and eating areas;
4. Keeps pets and animals clean;
5. Prohibits pets and animals from endangering an enrolled child, staff member, or other individual on facility premises; and

6. Keeps birds and animals such as horses, sheep, cattle, and poultry in an enclosure that is not accessible to an enrolled child except as part of an activity.

R9-5-514. Accident and Emergency Procedures

A. A licensee shall ensure that there is a first aid kit on facility premises that contains first aid supplies in a quantity sufficient to meet the needs of the enrolled children including the following:

1. Sterile bandages including:
   a. Adhesive bandages of assorted sizes,
   b. Sterile gauze pads, and
   c. Sterile gauze rolls;
2. Antiseptic solution or sealed antiseptic wipes;
3. A pair of scissors;
4. Adhesive tape;
5. Single-use, non-porous gloves; and
6. Reclosable plastic bags of at least one-gallon size.

B. A licensee shall ensure that the first aid kit required in subsection (A) is accessible to staff members but inaccessible to enrolled children.

C. A licensee shall:

1. Prepare and date a written fire and emergency plan that contains:
   a. The location of the first aid kit;
   b. The names of staff members who have the first aid training required by R9-5-403(E);
   c. The names of staff members who have the CPR training required by R9-5-403(E);
   d. The directions for:
      i. Initiating verbal notification of an enrolled child's parent by telephone or other equally expeditious means within 30 minutes of a fire or emergency, and
      ii. Providing written notification to the enrolled child's parent within 24 hours, and
   e. The facility's street address and the emergency telephone numbers for the local fire department, police department, ambulance service, and poison control center;
2. Maintain the plan required in subsection (C)(1) in a location on facility premises that has an operable telephone service or two-way voice communication system that connects the facility with an individual who has direct access to an in-and-out operable telephone service;
3. Post the plan required in subsection (C)(1) in any indoor activity area that does not have an operable telephone service or two-way voice communication system that connects the indoor activity area with an individual who has direct access to an in-and-out operable telephone services; and

4. Update the plan in subsection (C)(1) every 12 months after the date of initial preparation of the plan or when any information changes.

D. A licensee shall post, near an activity area or a room's designated exit, a building evacuation plan that details the designated exits from the activity area or room and the facility.

E. A licensee shall maintain and use a communication system that contains:

1. A direct-access, in-and-out, operating telephone service at the facility; or
2. A two-way voice communication system that connects the facility with an individual who has direct access to an in-and-out, operating telephone service.

F. If while attending a facility an enrolled child has an accident, injury, or emergency that, based on an evaluation by a staff member, requires medical treatment by a health care provider, a licensee shall ensure that a staff member:

1. Notifies the enrolled child's parent immediately after the accident, injury, or emergency;
2. Documents:
   a. A description of the accident, injury, or emergency, including the date, time, and location of the accident, injury, or emergency;
   b. The method used to notify the enrolled child's parent; and
   c. The time the enrolled child's parent was notified; and
3. Maintains documentation required in subsection (F)(2) on facility premises for 12 months after the date of the child's disenrollment.

G. If an enrolled child's parent informs a staff member at the facility that the enrolled child's parent obtained medical treatment from a health care provider for an accident, injury, or emergency the enrolled child had while attending the facility, a licensee shall ensure that a staff member:

1. Documents any information about the enrolled child's accident, injury, or emergency received from the enrolled child's parent; and
2. Maintains documentation required in subsection (G)(1) on facility premises for 12 months after the date of the child's disenrollment.

R9-5-515. Illness and Infestation

A. A licensee shall not permit an enrolled child to remain at the facility if a staff member determines that the enrolled child shows signs of illness or infestation.

B. If an enrolled child exhibits signs of illness or infestation at a facility, a licensee shall ensure that a staff member:

1. Immediately separates the enrolled child from other enrolled children,
2. Immediately notifies the enrolled child's parent by telephone or other expeditious means to arrange for the enrolled child's removal from the facility, and

3. Maintains documentation of the notification on facility premises for 12 months after the date of the notification.

C. A licensee shall ensure that a staff member who has signs of illness or infestation is excluded from a facility.

D. A facility director shall not permit a staff member to return to a facility until free from signs of illness or infestation or until the staff member provides documentation by a health care provider that the individual may return to the facility.

E. If a staff member or enrolled child contracts a communicable disease or infestation listed in 9 A.A.C. 6, Article 2, Table 2, a licensee shall ensure that, within 24 hours of notice of the communicable disease or infestation, written notice is provided to each staff member, parent, and the local health department.

F. A licensee shall ensure that:

1. A dated, written notice of the communicable disease or infestation is prepared and posted in the facility's entrance as required by R9-5-303;
2. Documentation of the notification is maintained on facility premises for 12 months from the date of the notification; and
3. Documentation of the absences of staff members and enrolled children due to a communicable disease or infestation listed in 9 A.A.C. 6, Article 2, Table 2, is prepared and maintained on facility premises for 12 months from the first date of absence.

R9-5-516. Medications

A. A licensee shall ensure that a written statement is prepared and maintained on facility premises that specifies:

1. Whether prescription or nonprescription medications are administered to enrolled children; and
2. If prescription or nonprescription medications are administered, the requirements in subsection (B) for administering the prescription or nonprescription medications.

B. If prescription or nonprescription medications are administered, a licensee shall ensure that:

1. A facility director, or a staff member designated in writing by the facility director, is responsible for the administration of all medications in the facility, including storing, supervising an enrolled child's ingestion of a medication, and documenting all medications administered to an enrolled child;
2. A facility director ensures that only one staff member in the facility at any given time is responsible for the administration of medications;
3. A facility director, or a staff member designated in writing by the facility director, does not administer a medication to an enrolled child unless the facility receives written authorization signed by the enrolled child's parent or health care provider that includes the:
   a. Name of the enrolled child;
   b. Type of the medication;
   c. Prescription number, if any;

d. Instructions for administration specifying the:
   i. Dosage and route of administration;
   ii. If indicated, starting and ending dates of the dosage period; and
   iii. Times and frequency of administration;
e. Reason for the medication; and
f. Date of authorization; and

4. A staff member:
   a. Administers a prescription medication provided by a parent only from a container dispensed by a pharmacy;
   b. Administers a nonprescription medication provided by a parent for an enrolled child only from a container prepackaged and labeled for use by the manufacturer and labeled with the enrolled child's name;
   c. Does not administer any medication that has been transferred from one container to another; and
   d. Does not administer a nonprescription medication to an enrolled child inconsistent with the instructions on the nonprescription medication's label, unless the facility receives written authorization from the enrolled child's health care provider.

C. A licensee shall allow an enrolled child to receive an injection only after obtaining a written authorization from a health care provider.

D. A licensee shall maintain the health care provider's written authorization required in subsection (C) on facility premises for 12 months after the date of the written authorization.

E. An individual authorized by state law to give injections may give an injection to an enrolled child. In an emergency, an individual may give an injection to an enrolled child according to A.R.S. §§ 32-1421(A)(1) and 32-1631(2).

F. A licensee shall maintain documentation of all medications administered to an enrolled child.

1. Documentation shall contain:
   a. The name of the enrolled child;
   b. The name and amount of medication administered and the prescription number, if any;
   c. The date and time the medication was administered; and
   d. The signature of the staff member who administered the medication to the enrolled child; and
2. A licensee shall maintain the documentation on facility premises for 12 months after the date the medication is administered.

G. A licensee shall return all unused prescription and nonprescription medications to a parent when the medication prescription date has expired or the medication is no longer being administered to the enrolled child or dispose of the medication if unable to locate the enrolled child's parent after the child's disenrollment.

H. Except as provided in subsection (J), a licensee shall ensure that prescription and nonprescription medications are stored as follows:

1. An enrolled child's medication is kept in a locked, leak-proof storage cabinet or container that is used only for storing enrolled children's medications and is located out of reach of children;
2. Medication for a staff member is kept in a locked, leak-proof storage cabinet or container that is separate from the storage container for enrolled children's medications and is located out of reach of children; and
3. Medications requiring refrigeration are kept in a locked, leak-proof container in a refrigerator.

I. Except as specified in A.R.S. § 36-2229(B) through (D), a licensee shall ensure that a facility does not stock a supply of medications for administration to enrolled children, including:

1. Any prescription medication; or
2. A nonprescription medication such as aspirin, acetaminophen, ibuprofen, or cough syrup.

J. A staff member's or enrolled child's prescription medication necessary to treat life-threatening symptoms:

1. May be kept in the activity area where the staff member or enrolled child is present; and
2. Except when the prescription medication is administered to treat life-threatening symptoms, is inaccessible to an enrolled child.

K. A licensee of a licensed child care facility owned and located on a public school premises shall ensure that enrolled school-aged children are allowed to possess emergency medications and self-administer auto-injectable epinephrine and handheld inhaler devices according to A.R.S. § 15-341, if an enrolled school-aged child:

1. Has a written prescription from a physician,
2. Is named on the prescription label, and
3. Has written documentation from the enrolled school-aged child's parent approving the enrolled school-aged child to possess and self-administer emergency medication.

R9-5-517. Transportation

A. A licensee who transports an enrolled child in a motor vehicle that the licensee owns, or acquires for use by contract, shall:

1. Obtain dated, written permission from the enrolled child's parent before the licensee transports the enrolled child;
2. Maintain written permission required in subsection (A)(1) on facility premises for 12 months after the date on the written permission;
3. Ensure that the motor vehicle is registered by the Arizona Department of Transportation as required by A.R.S. Title 28, Chapter 7;
4. Maintain documentation of current motor vehicle insurance coverage inside the motor vehicle;
5. Contact the Department no later than 24 hours after a motor vehicle accident that occurs while transporting an enrolled child;

6. Submit a written report to the Department within seven calendar days after a motor vehicle accident that occurs while transporting an enrolled child;
7. Not permit an enrolled child to be transported in a truck bed, camper, or trailer attached to a motor vehicle;
8. Use a child passenger restraint system, as required by A.R.S. § 28-907, for each enrolled child who is:
   a. Under eight years of age, and
   b. Not more than four feet nine inches tall.
9. Ensure that the motor vehicle has:
   a. A working mechanical heating system capable of maintaining a temperature throughout the motor vehicle of at least 60° F when outside air temperatures are below 60° F;
   b. Except as provided in subsection (E), a working air-conditioning system capable of maintaining a temperature throughout the motor vehicle at or below 86° F when outside air temperatures are above 86° F;
   c. Except as provided in subsection (F), a first aid kit that meets the requirements of R9-5-514(A);
   d. Two large, clean towels or blankets; and
   e. Sufficient drinking water available to meet the needs of each enrolled child in the motor vehicle and sufficient cups or other drinking receptacles so that each enrolled child can drink from a different cup or receptacle;
10. Ensure that the motor vehicle is:
    a. Maintained in a clean condition,
    b. In a mechanically safe condition, and
    c. Free from hazards; and
11. Maintain the service and repair records of the motor vehicle as follows:
    a. A person operating a single child care facility shall maintain the service and repair records for at least 12 months after the date of an inspection or repair in a single location on facility premises;
    b. A public or private school that uses a school bus, as defined in A.R.S. § 28-101, shall maintain the service and repair records for the school bus as provided in A.A.C. R17-9-108(F); and
    c. A school governing board, charter school, or person operating multiple child care facilities shall maintain the service and repair records for any motor vehicle other than a school bus for at least 12 months after the date of an inspection or repair in a single administrative office located in the same city, town, or school attendance area as the facility.

B. A licensee shall ensure that an individual who drives a motor vehicle used to transport an enrolled child:

1. Is 18 years of age or older;
2. Holds a valid driver's license issued by the Arizona Department of Motor Vehicles as prescribed by A.R.S. Title 28, Chapter 8;

3. Carries a list stating the name of each enrolled child being transported and a copy of each enrolled child's Emergency, Information, and Immunization Record card including the attached immunization record or exemption affidavit, in the motor vehicle;
4. Requires that each door be locked before the motor vehicle is set in motion and keeps the doors locked while the motor vehicle is in motion;
5. Does not permit an enrolled child to be seated in front of a motor vehicle's air bag;
6. Requires that each enrolled child remain seated and entirely inside the motor vehicle while the motor vehicle is in motion;
7. Except as provided in subsection (E), requires that each enrolled child be secured in a seat belt before the motor vehicle is set in motion and while the motor vehicle is in motion;
8. Does not permit an enrolled child to open or close a door or window in the motor vehicle;
9. Sets the emergency parking brake and removes the ignition keys from the motor vehicle before exiting the motor vehicle;
10. Ensures that each enrolled child is loaded into or unloaded from the motor vehicle away from moving traffic at curbside or in a driveway, parking lot, or other location designated for this purpose; and
11. Does not use audio headphones or a telephone while the motor vehicle is in motion.

C. When transporting an enrolled school-age child in a motor vehicle, a licensee shall ensure that the staff-to-children ratios required in R9-5-404(A) are met. A motor vehicle driver may be counted in the staff-to-children ratio, when transporting an enrolled school-age child in a motor vehicle, if the motor vehicle driver meets the qualifications of a teacher-caregiver.

D. When transporting an enrolled child who is not school-age in a motor vehicle, a licensee shall ensure that the staff-to-children ratios required in R9-5-404(A) are met. A motor vehicle driver may be counted in the staff-to-children ratio, when transporting an enrolled child who is not school-age in a motor vehicle, only if four or fewer enrolled children are being transported and the motor vehicle driver meets the qualifications of a teacher-caregiver.

E. A licensee who is transporting an enrolled child in a commercial vehicle, as defined in A.R.S. § 28-1301, is exempt from the provisions in subsections (A)(9), (A)(10)(b), and (B)(7).

F. A licensee who is transporting an enrolled child in a school bus, as defined in A.R.S. § 28-101, is exempt from the provision in subsection (A)(10)(c) and shall comply with A.A.C. R17-9-110.

R9-5-518. Field Trips

A. A licensee providing a field trip for an enrolled child shall:

1. Obtain written permission from a parent before the enrolled child participates in a field trip including:
   a. The date and description of the field trip;
   b. The times of departure from and return to the facility; and

c. The name, street address, and telephone number, if any, of the field trip destination;

2. Prepare a written field trip plan including:
   a. The name of each participating enrolled child, staff member, and other individuals on the field trip;
   b. The times of departure from and return to the facility;
   c. If applicable, license plate number of any motor vehicle used on the field trip; and
   d. The name, street address, and telephone number, if any, of the field trip destination; and
3. Maintain the written permission in subsection (A)(1) and written field trip plan in subsection (A)(2) on facility premises for 12 months after the date of the field trip.

B. A licensee shall ensure that a staff member taking enrolled children on a field trip carries the following on the field trip:

1. A copy of the Emergency, Information, and Immunization Record card including the attached immunization record or exemption affidavit, of each enrolled child participating in the field trip;
2. A copy of the written field trip plan required in subsection (A)(2);
3. A list stating the name of each participating enrolled child; and
4. Sufficient water to meet the needs of each enrolled child participating in the field trip.

C. A staff member shall verify the presence of each enrolled child and place a checkmark next to the enrolled child's name on the list required in subsection (B)(3) for each enrolled child who is present at the following times:

1. At the beginning of the field trip or when boarding the motor vehicle,
2. Upon arrival and each hour while at the field trip destination,
3. When preparing to leave the field trip destination or when boarding the motor vehicle to return to the facility, and
4. When reentering the facility at the conclusion of the field trip.

D. A licensee shall ensure that each enrolled child participating in a field trip is wearing in plain view a written identification stating the facility's name, address, and telephone number.

E. A licensee shall also ensure that each enrolled child is wearing out of view a written identification stating the enrolled child's name.

F. If a licensee uses a motor vehicle volunteered by a parent or other individual for a field trip, a licensee shall determine before the field trip begins that the motor vehicle is in compliance with R9-5-517(A)(3) and (4) and that the motor vehicle driver is in compliance with R9-5-517(B)(1) and (2).

G. When six or more enrolled children are participating in a field trip, a licensee shall ensure that a teacher-caregiver and at least one additional staff member are present on the field trip.

ARTICLE 6. PHYSICAL PLANT OF A FACILITY

R9-5-601. General Physical Plant Standards

A licensee shall comply with the following physical plant requirements:

1. When a facility is licensed to care for more than five infants in an infant room as described in R9-5-502(A)(1), each infant room has two or more designated exits from the room;
2. Not including infants and children who use diapers, toilets and hand-washing sinks are available to enrolled children in a facility as follows:
   a. At least one flush toilet and one hand-washing sink for 10 or fewer children,
   b. At least two flush toilets and two hand-washing sinks for 11 to 25 children, and
   c. At least one flush toilet and one hand-washing sink for each additional 20 children;
3. A hand-washing sink required in R9-5-503(A)(2) or subsection (2) provides running water with a drain connected to a sanitary sewer as defined in A.R.S. § 45-101;
4. Except as provided in subsection (5), when providing child care services for infants or children who require diapering, a diaper changing area that meets the requirements in R9-5-503 is available in each infant room or indoor activity area used by an enrolled infant or child who wears diapers or disposable training pants;
5. A diaper changing area is not required in an activity area that is:
   a. Only used by enrolled children for snacks or meals,
   b. Used for a specific activity by enrolled children who are two years of age or older, or
   c. An indoor activity area that is being substituted for an outdoor activity area under R9-5-602(D); and
6. A glass mirror, window, or other glass surface that is located within 36 inches of the floor is made of safety glass that has been manufactured, fabricated, or treated to prevent the glass from shattering or flying when struck or broken, or is shielded by a barrier to prevent impact by or physical injury to an enrolled child.

R9-5-602. Facility Square Footage Requirements

A. A licensee shall ensure that the facility meets the following square footage requirements for indoor activity areas based on the child care services classifications:

1. At least 35 square feet of indoor activity space for each infant and 1-year-old child;
2. At least 25 square feet of indoor activity space for each child who is not an infant or 1-year-old child; and
3. When 1-year-old children are grouped together with children older than 1-year-old children in the same activity area, at least 35 square feet of indoor activity space for each child.

B. When computing indoor activity space for subsections (A)(1) through (3) to determine licensed capacity, the floor space occupied by the following shall be excluded:

1. The interior walls;
2. A kitchen, bathroom, closet, hallway, stair, entryway, office, a room designated for isolating an enrolled child from other children, storage rooms, and a room designated for the sole use of child care staff; and

3. Room space occupied by teacher-caregiver desks, file cabinets, storage cabinets, and hand washing sinks for staff use.

C. To provide activities that develop large muscles and an opportunity to participate in structured large muscle physical activities, a licensee shall:

1. Provide at least 75 square feet of outdoor activity area per child for at least 50% of the facility's licensed capacity, or
2. Comply with one of the following:
   a. If no enrolled child attends the facility for more than four hours per day, provide at least 50 square feet of indoor activity area for each child, based on the facility's licensed capacity;
   b. If no enrolled child attends the facility for more than six hours per day, provide at least 75 square feet of indoor activity area per child for at least 50% of the facility's licensed capacity in addition to the indoor activity area required in subsection (A); or
   c. Provide at least 37.5 square feet of outdoor activity area and 37.5 square feet of indoor activity area per child for at least 50% of the facility's licensed capacity in addition to the indoor activity area required in subsection (A).

D. A licensee substituting indoor activity area for outdoor activity area shall:

1. Designate, on the site plan and the floor plan submitted with the license application or request for approval of an intended change, the indoor activity area that is being substituted for an outdoor activity area; and
2. In the indoor activity area substituted for outdoor activity area, install and maintain a mat or pad designed to provide impact protection in the fall zone of indoor swings and climbing equipment.

E. An indoor activity area that is substituted for an outdoor activity area is not assigned a licensed capacity.

F. The Department shall review and approve or deny the request for exemption or substitution.

1. For a request that is part of a license application, the Department shall review the proposed exemption or substitution and provide written notice according to the procedures in R9-5-202.
2. For a licensed facility, within 30 calendar days after the date of the receipt of the request, the Department shall review the proposed exemption or substitution and provide written notice of the review to the licensee. If the proposed exemption or substitution:
   a. Complies with A.R.S. Title 36, Chapter 7.1, Article 1 and this Chapter, the Department shall approve the proposed exemption or substitution; or
   b. Does not comply with A.R.S. Title 36, Chapter 7.1, Article 1 or this Chapter, the Department shall provide the licensee with the requirements necessary to approve the requested exemption or substitution.
3. A licensee shall provide at least 75 square feet of outdoor activity area per child for 50% of the facility's licensed capacity, until the Department approves the exemption or substitution.

R9-5-603. Outdoor Activity Areas

A. Except as provided in subsection (B), a licensee shall not permit an enrolled child to cross a driveway or parking lot to access an outdoor activity area on the facility premises or a school campus unless the licensee obtains written approval from the Department.

B. If a licensee requests approval from the Department for enrolled children to cross a driveway or parking lot to access an outdoor activity area, the Department shall inspect the facility premises or school campus to determine whether the health, safety, or welfare of enrolled children would be endangered. The Department shall notify the licensee of approval or disapproval within 30 calendar days of receipt of the request. If disapproved, the Department shall provide the licensee with the requirements necessary to approve the proposed crossing.

C. Except as provided in subsection (D), a licensee shall ensure that an outdoor activity area:

1. Is enclosed by a fence:
    a. A minimum of 4 feet high,
    b. Secured to the ground, and
    c. With either vertical or horizontal open spaces on the fence or gate that do not exceed 4.0 inches;
2. Is maintained free from hazards, such as exposed concrete footings and broken toys; and
3. Has gates that are kept closed while an enrolled child is in the outdoor activity area.

D. A licensee shall ensure that a playground used only for enrolled school age children at a facility operating at a public school meets the fencing requirements of the public school. If the Department determines by inspection that a facility fence at a public school does not ensure the health, safety, or welfare of enrolled children, the licensee shall meet the fencing requirements of subsection (C).

E. A licensee shall ensure that the following is provided and maintained within the fall zones of swings and climbing equipment in an outdoor activity area:

1. A shock-absorbing unitary surfacing material manufactured for such use in outdoor activity areas; or
2. A minimum depth of 6 inches of a nonhazardous, resilient material such as fine loose sand or wood chips.

F. A licensee shall ensure that hard surfacing material such as asphalt or concrete is not installed or used under swings or climbing equipment unless used as a base for a rubber surfacing.

G. A licensee shall ensure that a swing or climbing equipment is not located in the fall zone of another swing or climbing equipment.

H. A licensee shall provide a shaded area for each enrolled child occupying an outdoor activity area at any time of day.

R9-5-604. Swimming Pools

A. If a licensee uses a public or semi-public swimming pool for an enrolled child, the swimming pool shall meet the requirements of the swimming pool ordinance enacted by local government. If no ordinance has been adopted, the swimming pool shall meet the requirements in A.A.C. R9-8-801 through R9-8-813.

B. A licensee that uses a private pool for an enrolled child shall ensure that the swimming pool and its equipment meet the following requirements:

1. If a licensee uses a private pool that is a minimum of 2 feet in depth for enrolled children, the swimming pool shall meet the requirements of the swimming pool ordinance enacted by local government and, at a minimum, be equipped with the following:
    a. A recirculation system consisting of piping, pumps, filters, and water conditioning and disinfecting equipment that conforms to the swimming pool manufacturer's specifications for installation and operation, and is adequate to clarify and disinfect the pool water continuously;
    b. Two swimming pool inlets located on opposite sides of the swimming pool to produce uniform circulation of water and maintain uniform chlorine residual throughout the entire swimming pool without the existence of dead spots;
    c. A drain located at the swimming pool's lowest point and covered by a grating that cannot be removed by bathers;
    d. A swimming pool water vacuum system in operating condition;
    e. A removable strainer to prevent hair, lint, or other objects from reaching the pump and filter;
    f. An automatic mechanical water disinfectant system in use and in operating condition. The disinfecting agents shall maintain the swimming pool water as follows:
        i. A free chlorine level between 1.0 and 3.0 parts per million as tested by the diethyl-p-phenylene diamine method or 0.4 to 1.0 parts per million when tested by the orthotolidine method;
        ii. A pH level between 7.0 and 8.0 as tested by the diethyl-p-phenylene diamine method or the orthotolidine method; or
        iii. A bromine level between 2.0 and 4.0 parts per million as tested by the diethyl-p-phenylene diamine method;
    g. A shepherd's crook; and
    h. A ring buoy attached to a 1/2 inch diameter rope at least 25 feet in length;
2. If a licensee uses a private pool that is less than 2 feet in depth for enrolled children, the swimming pool shall meet the requirements of subsection (B)(1) except that:
    a. The swimming pool shall have a minimum of one swimming pool inlet;
    b. The swimming pool is not required to have a bottom drain;
    c. A pool water vacuum cleaning system is not required, and
    d. A ring buoy with attached rope is not required;
3. A portable pool that does not meet the requirements of subsection (B)(1) or (2) is prohibited;

4. On each day an enrolled child uses the swimming pool, a licensee shall test the water in the swimming pool at least once every day to verify that the swimming pool water meets the swimming pool water chemical ranges in subsection (B)(1)(f);
5. A licensee shall create a written swimming pool log and:
    a. Document the results of tests required in subsection (B)(4) in the written swimming pool log;
    b. Have the written swimming pool log at the swimming pool site while enrolled children are using the swimming pool; and
    c. Maintain the written swimming pool log on facility premises for three months after the last date the swimming pool water was tested and documented; and
6. If the swimming pool water does not meet the swimming pool water chemical ranges in subsection (B)(1)(f), the licensee shall:
    a. Add liquid or dissolved dry chemicals to the swimming pool water,
    b. Document any actions taken by the licensee to restore the swimming pool water chemical ranges in the written swimming pool log required in subsection (B)(5)(a), and
    c. Not allow enrolled children to use the swimming pool until tests of the swimming pool water verify that the swimming pool water meets the swimming pool water chemical ranges in subsection (B)(1)(f).

C. A licensee shall ensure that a public, semi-public, or private pool used by an enrolled child is enclosed by a wall, fence, or barrier that complies with:

1. The requirements of a swimming pool barrier ordinance adopted by the local government where the swimming pool is located; or
2. If the local government where the swimming pool is located has not adopted a swimming pool barrier ordinance, the requirements in A.R.S. § 36-1681.

D. A licensee that uses any semi-public or private swimming pool for enrolled children shall ensure that the swimming pool has been inspected by the Department or a city or county health department before it is used by enrolled children.

1. If a licensee operates or uses a swimming pool that is inspected by a city or county health department, the licensee shall provide the Department with a current written report of the swimming pool inspection.
2. A licensee shall maintain the current swimming pool inspection reports of a swimming pool used by enrolled children on the facility premises.

E. A licensee shall ensure that written permission is:

1. Obtained from an enrolled child's parent before allowing the enrolled child to participate in a swimming activity, and
2. Maintained on facility premises for 12 months after the date the enrolled child participated in the swimming activity.

R9-5-605. Fire and Safety

A. A licensee shall install and maintain a portable, pressurized fire extinguisher that meets, at a minimum, a 2A-10-BC rating of the Underwriters Laboratories in a facility's kitchen and any other location required by Standard 10-1 of the International Fire Code, incorporated by reference in A.A.C. R9-1-412.

B. A licensee shall ensure that:

1. All designated exits, corridors, and passageways that provide escape from the building are unobstructed and unlocked during hours of operation;
2. Combustible material, such as paper, boxes, or rags, is not permitted to accumulate inside or outside the facility premises;
3. An unvented or open-flame space heater or portable heater is not used on the facility premises;
4. A gas valve on an unused gas outlet is removed and capped where it emerges from the wall or floor;
5. Electrical extension cords are not used;
6. Except for a room used only for an enrolled school-age child, each unused electrical outlet is covered with a safety plug cover or insert;
7. Slow cookers and hot plates are used only in a kitchen and are inaccessible to an enrolled child;
8. Heating and cooling equipment is inaccessible to an enrolled child;
9. Fans are mounted and inaccessible to an enrolled child;
10. Toilet rooms are ventilated to the outside of the building, either by a screened window open to the outside air or by an exhaust fan and duct system that is operated when the toilet room is in use;
11. A toilet room with a door that opens to the exterior of a building is equipped with a self-closing device that keeps the door closed except when an individual is entering or exiting;
12. A toilet room door does not open into a kitchen;
13. A smoke detector is installed in each indoor activity area and kitchen;
14. Each smoke detector required in subsection (B)(13) is:
    a. Maintained in an operable condition;
    b. Either battery operated or, if hard wired into the electrical system of the child care facility, has a back-up battery; and
    c. Tested monthly;
15. If the local fire jurisdiction requires a sprinkler system, the sprinkler system is:
    a. Installed,
    b. Operable,
    c. Tested quarterly, and
    d. Serviced at least once every 12 months;
16. The fire extinguisher required in subsection (A):

a. Is serviced at least once every 12 months, and
b. Has a tag attached to the fire extinguisher that specifies the date of the last servicing and the identification of the person who serviced the fire extinguisher; and

17. The testing required in subsections (B)(14) and (15) and servicing required in subsection (B)(16) is documented and the documentation is:
    a. Maintained by the licensee, and
    b. Available for at least 12 months after the date of the testing or servicing.

36-132. Department of health services; functions; contracts

A. The department, in addition to other powers and duties vested in it by law, shall:

1. Protect the health of the people of the state.

2. Promote the development, maintenance, efficiency and effectiveness of local health departments or districts of sufficient population and area that they can be sustained with reasonable economy and efficient administration, provide technical consultation and assistance to local health departments or districts, provide financial assistance to local health departments or districts and services that meet minimum standards of personnel and performance and in accordance with a plan and budget submitted by the local health department or districts to the department for approval, and recommend the qualifications of all personnel.

3. Collect, preserve, tabulate and interpret all information required by law in reference to births, deaths and all vital facts, and obtain, collect and preserve information relating to the health of the people of this state and the prevention of diseases as may be useful in the discharge of functions of the department not in conflict with chapter 3 of this title and sections 36-693, 36-694 and 39-122.

4. Operate such sanitariums, hospitals or other facilities assigned to the department by law or by the governor.

5. Conduct a statewide program of health education relevant to the powers and duties of the department, prepare educational materials and disseminate information as to conditions affecting health, including basic information for the promotion of good health on the part of individuals and communities, and prepare and disseminate technical information concerning public health to the health professions, local health officials and hospitals. In cooperation with the department of education, the department of health services shall prepare and disseminate materials and give technical assistance for the purpose of education of children in hygiene, sanitation and personal and public health, and provide consultation and assistance in community organization to counties, communities and groups of people.

6. Administer or supervise a program of public health nursing, prescribe the minimum qualifications of all public health nurses engaged in official public health work, and encourage and aid in coordinating local public health nursing services.

7. Encourage and aid in coordinating local programs concerning control of preventable diseases in accordance with statewide plans that shall be formulated by the department.

8. Encourage and aid in coordinating local programs concerning maternal and child health, including midwifery, antepartum and postpartum care, infant and preschool health and the health of schoolchildren, including special fields such as the prevention of blindness and conservation of sight and hearing.

9. Encourage and aid in the coordination of local programs concerning nutrition of the people of this state.

10. Encourage, administer and provide dental health care services and aid in coordinating local programs concerning dental public health, in cooperation with the Arizona dental association. The department may bill and receive payment for costs associated with providing dental health care services and shall deposit the monies in the oral health fund established by section 36-138.

11. Establish and maintain adequate serological, bacteriological, parasitological, entomological and chemical laboratories with qualified assistants and facilities necessary for routine examinations and analyses and for investigations and research in matters affecting public health.

12. Supervise, inspect and enforce the rules concerning the operation of public bathing places and public and semipublic swimming pools adopted pursuant to section 36-136, subsection I, paragraph 10.

13. Take all actions necessary or appropriate to ensure that bottled water sold to the public and water used to process, store, handle, serve and transport food and drink are free from filth, disease-causing substances and organisms and unwholesome, poisonous, deleterious or other foreign substances. All state agencies and local health agencies involved with water quality shall provide to the department any assistance requested by the director to ensure that this paragraph is effectuated.

14. Enforce the state food, caustic alkali and acid laws in accordance with chapter 2, article 2 of this title, chapter 8, article 1 of this title and chapter 9, article 4 of this title, and collaborate in the enforcement of the federal food, drug, and cosmetic act (52 Stat. 1040; 21 United States Code sections 1 through 905).

15. Recruit and train personnel for state, local and district health departments.

16. Conduct continuing evaluations of state, local and district public health programs, study and appraise state health problems and develop broad plans for use by the department and for recommendation to other agencies, professions and local health departments for the best solution of these problems.

17. License and regulate health care institutions according to chapter 4 of this title.

18. Issue or direct the issuance of licenses and permits required by law.

19. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

20. Subject to the availability of monies, develop and administer programs in perinatal health care, including:

(a) Screening in early pregnancy for detecting high-risk conditions.

(b) Comprehensive prenatal health care.

(c) Maternity, delivery and postpartum care.

(d) Perinatal consultation, including transportation of the pregnant woman to a perinatal care center when medically indicated.

(e) Perinatal education oriented toward professionals and consumers, focusing on early detection and adequate intervention to avert premature labor and delivery.

21. License and regulate the health and safety of group homes for persons with developmental disabilities. The department shall issue a license to an accredited facility for a period of the

accreditation, except that no licensing period shall be longer than three years. The department is authorized to conduct an inspection of an accredited facility to ensure that the facility meets health and safety licensure standards. The results of the accreditation survey shall be public information. A copy of the final accreditation report shall be filed with the department of health services. For the purposes of this paragraph, "accredited" means accredited by a nationally recognized accreditation organization.

B. The department may accept from the state or federal government, or any agency of the state or federal government, and from private donors, trusts, foundations or eleemosynary corporations or organizations grants or donations for or in aid of the construction or maintenance of any program, project, research or facility authorized by this title, or in aid of the extension or enforcement of any program, project or facility authorized, regulated or prohibited by this title, and enter into contracts with the federal government, or an agency of the federal government, and with private donors, trusts, foundations or eleemosynary corporations or organizations, to carry out such purposes. All monies made available under this section are special project grants. The department may also expend these monies to further applicable scientific research within this state.

C. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

D. The department may enter into contracts with organizations that perform nonrenal organ transplant operations and organizations that primarily assist in the management of end-stage renal disease and related problems to provide, as payors of last resort, prescription medications necessary to supplement treatment and transportation to and from treatment facilities. The contracts may provide for department payment of administrative costs it specifically authorizes.

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop,

tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health agency, environmental agency or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of

performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any funds that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a meat packing plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for occasional sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is not potentially hazardous or a time or temperature control for safety food and that is prepared in a kitchen of a private home for commercial purposes, including fruit jams and jellies, dry mixes made with ingredients from approved sources, honey, dry pasta and roasted nuts. Cottage food products must be packaged at home with an attached label that clearly states the name and registration number of the food preparer, lists all the ingredients in the product and the product's production date and includes the following statement: "This product was produced in a home kitchen that may process common food allergens and is not subject to public health inspection." If the product was made in a facility for individuals with developmental disabilities, the label must also disclose that fact. The person preparing the food or supervising the food preparation must complete a food handler training course from an accredited program and maintain active certification. The food preparer must register with an online registry established by the department pursuant to paragraph 13 of this subsection. The food preparer must display the preparer's certificate of registration when operating as a temporary food establishment. For the purposes of this subdivision, "not potentially hazardous" means cottage food products that meet the requirements of the food code published by the United States food and drug administration, as modified and incorporated by reference by the department by rule.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking

receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for sanitary facilities to be used in identity, storage, handling and sale of all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for the submission of samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of

all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. In no event shall confidential information be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection. A registered food preparer shall renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout the state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction, provided that the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This

procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product":

(a) Means a food that is not potentially hazardous or a time or temperature control for safety food as defined by the department in rule and that is prepared in a home kitchen by an individual who is registered with the department.

(b) Does not include foods that require refrigeration, perishable baked goods, salsas, sauces, fermented and pickled foods, meat, fish and shellfish products, beverages, acidified food products, nut butters or other reduced-oxygen packaged products.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

36-882. License; posting; transfer prohibited; fees; provisional license; renewal; exemption from rule making

A. A child care facility shall not receive any child for care, supervision or training unless the facility is licensed by the department of health services.

B. An application for a license shall be made on a written or electronic form prescribed by the department and shall include:

1. Information required by the department for the proper administration of this chapter and rules adopted pursuant to this chapter.

2. The name and business or residential address of each controlling person.

3. An affirmation by the applicant that no controlling person has been denied a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state or has had a license to operate a child care facility or a certificate to operate a child care group home revoked for reasons that relate to the endangerment of the health and safety of children.

C. An application for an initial license shall include:

1. The form that is required pursuant to section 36-883.02, subsection C and that is completed by the applicant.

2. A copy of a valid fingerprint clearance card issued to the applicant pursuant to section 41-1758.07.

3. If the applicant's facility is located within one-fourth mile of any agricultural land, the names and addresses of the owners and lessees of the agricultural land and a copy of the agreement required pursuant to subsection D of this section.

D. The department shall deny any license that affects agricultural land regulated pursuant to section 3-365, except that the owner of the agricultural land may agree to comply with the buffer zone requirements of section 3-365. If the owner agrees in writing to comply with the buffer zone requirements and records the agreement in the office of the county recorder as a restrictive covenant running with the title to the land, the department may license the child care facility to be located within the affected buffer zone. The agreement may include any stipulations regarding the child care facility, including conditions for future expansion of the facility and changes in the operational status of the facility that will result in a breach of the agreement. This subsection shall not apply to the issuance or renewal of a license for a child care facility located in the same location for which a child care facility license was previously issued.

E. On receipt of an application for an initial license, the department shall inspect the applicant's physical space, activities and standards of care. If the department determines that the applicant and the applicant's facility are in substantial compliance with this chapter and rules adopted pursuant to this chapter and the applicant agrees to carry out a plan acceptable to the department to eliminate any deficiencies, the department shall issue an initial license to the applicant.

F. Beginning January 1, 2010, subject to the availability of monies, the department may establish a discount program for licensing fees paid by child care facilities, including a public health discount.

G. The director, by rule, may establish and collect fees for child care facilities and a fee for late filing of applications. Beginning January 1, 2010, ninety per cent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the health services licensing fund established by section 36-414 and ten per cent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

H. Pursuant to available funding, the department shall collect annual fees.

I. A license is valid from the date of issuance unless it is subsequently revoked or suspended or the licensee does not pay the licensure fee and shall specify the following:

1. The name of the applicant.

2. The exact address where the applicant will locate the facility.

3. The maximum number and age limitations of children that shall be cared for at any one time.

4. The classification of services that the facility is licensed to provide.

J. The department may issue a provisional license, not to exceed six months, to an applicant or a licensed child care facility if:

1. The facility changes director.

2. The department determines that an applicant for an initial license or a licensed child care facility is not in substantial compliance with this chapter and rules adopted pursuant to this chapter and the immediate interests of children, families and the general public are best served if the child care facility or the applicant is given an opportunity to correct deficiencies.

K. A provisional license shall state the reason for the provisional status.

L. On the expiration of a provisional license, the department shall issue a regular license if the department determines that the licensee and the child care facility are in substantial compliance with this chapter and rules adopted pursuant to this chapter and the applicant agrees to carry out a plan acceptable to the department to eliminate any deficiencies.

M. The licensee shall notify the department in writing within ten days of any change in the child care facility's director.

N. The license is not transferable from person to person and is valid only for the quarters occupied at the time of issuance.

O. The license shall be conspicuously posted in the child care facility.

P. The licensee shall conspicuously post a schedule of fees charged for services and the established policy for a refund of fees for services not rendered.

Q. The licensee shall keep current department inspection reports at the child care facility and shall make them available to parents on request. The licensee shall conspicuously post a notice that identifies the location where these inspection reports are available for review.

R. The department of health services shall notify the department of public safety if the department of health services receives credible evidence that a licensee who possesses a valid fingerprint clearance card either:

1. Is arrested for or charged with an offense listed in section 41-1758.07, subsection B.

2. Falsified information on any form required by section 36-883.02.

S. Licensees may pay licensure fees by installment payments based on procedures established by the department.

T. The department shall review its actual costs to administer this article at least once every two years. If the department determines that its administrative costs are lower than the fees it has collected pursuant to this section, it shall adjust fees.

U. If the department lowers fees, the department may refund or credit fees to licensees.

V. Fee reductions are exempt from the rule making requirements of title 41, chapter 6.

36-883. Standards of care; rules; classifications

A. The director of the department of health services shall prescribe reasonable rules regarding the health, safety and well-being of the children to be cared for in a child care facility. These rules shall include standards for the following:

1. Adequate physical facilities for the care of children, such as building construction, fire protection, sanitation, sleeping facilities, isolation facilities, toilet facilities, heating, ventilation, indoor and outdoor activity areas and, if provided by the facility, transportation safely to and from the premises.

2. Adequate staffing per number and age groups of children by persons who are qualified by education or experience to meet their respective responsibilities in the care of children.

3. Activities, toys and equipment to enhance the development of each child.

4. Nutritious and well-balanced food.

5. Encouragement of parental participation.

6. Exclusion of any person from the facility whose presence may be detrimental to the welfare of children.

B. The department shall adopt rules pursuant to title 41, chapter 6 and section 36-115.

C. Any rule that relates to educational activities, physical examination, medical treatment or immunization shall include appropriate exemptions for children whose parents object on the ground that it conflicts with the tenets and practices of a recognized church or religious denomination of which the parent or child is an adherent or member.

D. The department of health services shall conduct a comprehensive review of its rules at least once every two years. Before conducting this review, the department shall consult with agencies and organizations that are knowledgeable about the provision of child care facilities to children, including:

1. The department of economic security.

2. The department of education.

3. The office of the state fire marshal.

4. The league of Arizona cities and towns.

5. Citizen groups.

6. Licensed child care facility representatives.

7. The department of child safety.

E. The department shall designate appropriate classifications and establish corresponding standards pertaining to the type of care offered. These classifications shall include:

1. Facilities offering infant care.

2. Facilities offering specific educational programs.

3. Facilities offering evening and nighttime care.

F. Rules for the operation of child care facilities shall be stated in a way that clearly states the purpose of each rule.

36-883.01. Statement of services

Each child care facility shall annually furnish to the department, and make available to parents on request, an explicit and up-to-date written statement of the services it offers.

36-883.02. Child care personnel; fingerprints; exemptions; definition

A. Except as provided in subsection B of this section, child care personnel, including volunteers, shall submit the form prescribed in subsection C of this section to the employer and shall have valid fingerprint clearance cards issued pursuant to section 41-1758.07 before starting employment or volunteer work.

B. Exempt from the fingerprinting requirements of subsection A of this section are parents, including foster parents and guardians, who are not employees of the child care facility and who participate in activities with their children under the supervision of and in the presence of child care personnel.

C. Applicants, licensees and child care personnel shall attest on forms that are provided by the department that:

1. They are not awaiting trial on or have never been convicted of or admitted in open court or pursuant to a plea agreement committing any of the offenses listed in section 41-1758.07, subsection B in this state or similar offenses in another state or jurisdiction.

2. They are not parents or guardians of a child adjudicated to be a dependent child as defined in section 8-201.

3. They have not been denied or had revoked a certificate to operate a child care group home or a license to operate a child care facility in this or any other state or that they have not been denied or had revoked a certification to work in a child care facility or child care group home.

D. Employers of child care personnel shall make documented, good faith efforts to contact previous employers of child care personnel to obtain information or recommendations that may be relevant to an individual's fitness for employment in a child care facility.

E. The forms required by subsection C of this section are confidential.

F. A child care facility shall not allow a person to be employed or volunteer in the facility in any capacity if the person has been denied a fingerprint clearance card pursuant to section 41-1758.07 or has not received an interim approval from the board of fingerprinting pursuant to section 41-619.55, subsection I.

G. The employer shall notify the department of public safety if the employer receives credible evidence that any child care personnel either:

1. Is arrested for or charged with an offense listed in section 41-1758.07, subsection B.

2. Falsified information on the form required by subsection C of this section.

H. For the purposes of this section, "child care personnel" means any employee or volunteer working at a child care facility.

36-883.03. Employer-subsidized child care; immunity from liability

A. An employer that subsidizes child care on a nondiscriminatory basis to its employees through a child care facility licensed pursuant to this article or through a person or facility exempt from licensure pursuant to this article but screened pursuant to section 41-1964 or 46-321 is not liable for damages as a result of an act or omission by the child care facility, person or exempt facility unless the employer is guilty of gross negligence in recommending the child care facility, person or facility or unless the employer is acting as the owner or has an ownership interest in or is an operator of the child care facility or exempt facility.

B. For purposes of this section, an employer is deemed to be subsidizing an employee's child care costs if the employer pays, either directly or indirectly, at least twenty-five per cent of the cost of the child care service rendered to the employee by the child care facility, person or exempt facility described in subsection A of this section.

36-883.04. Standards of care; rules; enforcement

The director shall prescribe reasonable rules and standards regarding the health, safety and well-being of children cared for in any public school child care program. These rules shall be comparable to the rules and standards prescribed pursuant to section 36-883. The director shall also prescribe rules regarding the enforcement of the standards of care including penalties for noncompliance with these standards. These enforcement and penalty provisions shall be comparable to those existing for private child care facilities.

36-883.05. Child care facilities; infants; floor bedding; requirements; emergency evacuation; notice; definitions

A. A child care facility that provides child care services utilizing the practice of a documented educational philosophy including least restrictive environment for infants and meets the requirements of this section may use floor bedding in the facility instead of cribs.

B. Floor bedding pursuant to subsection A of this section must meet all of the following requirements:

1. Be a mat that meets the following dimensions:

(a) Is not less than two inches and not more than three inches thick.

(b) Is not less than three feet and not more than four feet long.

(c) Is not less than two feet and not more than three feet wide.

2. Not be elevated or raised in any way.

3. Be covered with a waterproof and washable mattress pad, a washable zip cover and an individually assigned sheet.

4. Be assigned to an individual infant and not shared with another infant.

5. Be turned over at least once a week.

6. Be placed at least eighteen inches apart, eighteen inches from any wall and two feet from any other object.

7. Be placed on a floor that is vacuumed and sanitized every day and, if the floor is carpeted, is shampooed at least twice a month.

C. The ratio of staff members to resting infants in the resting area must be at least one staff member to every four infants. A staff member in the resting area must be supervised for the first ninety days of employment to ensure the staff member's proper use of the floor bedding pursuant to this section. Any staff member in the resting area shall have current certification in cardiopulmonary resuscitation and first aid.

D. If an emergency requiring evacuation occurs, the infant nursery staff shall place the infants in an evacuation crib and move the infants in the crib to a designated evacuation assembly area. Evacuation cribs must be stored not more than ten feet from the exterior exit. If stored on the outside of the building, an evacuation crib must be protected from weather. On arrival at the designated evacuation assembly area, all infants must be physically accounted for against the sign-in log and the results reported to the director of the child care facility immediately. The infant nursery supervisor is responsible for bringing all attendance sheets, child rosters and information sheets to the evacuation assembly area. The child care facility staff shall take appropriate supplies during the evacuation to protect the children, if possible, during inclement weather.

E. A facility shall provide the department written notice thirty days before implementing the use of floor bedding pursuant to this section.

F. If a licensed facility does not comply with the requirements of this section, the department may require the installation of cribs.

G. For the purposes of this section:

1. "Infant" means either:

(a) A child who is twelve months or younger.

(b) A child who is eighteen months or younger if not walking.

2. "Resting area" means a space within the classroom that is separate from the activity area and that contains only the floor bedding, infants and staff members.

36-884. Exemptions

This article does not apply to the care given to children by or in:

1. The homes of parents or blood relatives.

2. A religious institution conducting a nursery in conjunction with its religious services or conducting parent-supervised occasional drop-in care.

3. A unit of the public school system, including specialized professional services provided by school districts for the sole purpose of meeting mandated requirements to address the physical and mental impairments prescribed in section 15-771. If a public school provides child care other than during the school's regular hours or for children who are not regularly enrolled in kindergarten programs or grades one through twelve, that portion of the school that provides child care is subject to standards of care prescribed pursuant to section 36-883.04.

4. A regularly organized private school engaged in an educational program that may be attended in substitution for public school pursuant to section 15-802. If the school provides child care beyond regular public school hours or for children who are not regularly enrolled in kindergarten programs or grades one through twelve, that portion of the school providing such care shall be considered a child care facility and is subject to this article.

5. Any facility that provides training only in specific subjects, including dancing, drama, music, self-defense or religion and tutoring provided by public schools solely to improve school performance.

6. Any facility that provides only recreational or instructional activities to school age children who may enter into and depart from the facility at their own volition. The facility may require the children to document their entrance into and departure from the facility. This documentation does not affect the exemption under this paragraph. The facility shall post a notice stating it is not a licensed child care facility under section 36-882.

7. Any of the Arizona state schools for the deaf and the blind.

8. A facility that provides only educational instruction for children who are at least three and not older than six years of age if all the following are true:

(a) The facility instructs only in the core subjects of math, reading and science.

(b) The facility does not accept state-subsidized tuition for the children.

(c) A child is present at the facility for not more than two and one-quarter hours a day and not more than three days a week.

(d) The instruction is not provided in place of care ordinarily provided by a parent or guardian.

(e) The facility posts a notice that the facility is not licensed under this article.

(f) The facility requires fingerprint cards of all personnel pursuant to section 36-883.02.

9. A facility that operates a day camp that provides recreational programs to children if all of the following are true:

(a) The day camp is accredited by a nationally recognized accrediting organization for day camps as approved by the department.

(b) The day camp operates for less than twenty-four hours a day and less than ten weeks each calendar year.

(c) The day camp posts a notice at the facility and on its website that it is not licensed under the laws of this state as a child care facility.

(d) The day camp provides programs only to children who are at least five years of age.

(e) The day camp requires fingerprint cards of all personnel pursuant to section 36-883.02.

36-885. Inspection of child care facilities

A. The department or designated local health departments or its agents may at any time visit during hours of operation and inspect a child care facility to determine if it complies with this article and rules adopted under this article.

B. The department shall visit each child care facility as often as necessary to assure continued compliance with this article and department rules. The department shall make at least one unannounced visit annually.

36-886. Operation without a license; classification

A. If it appears that any person is maintaining or operating a child care facility without a license, the department shall notify the facility's operator either by mail, by certified mail with return receipt requested or by delivery in person. The person affected by the notice shall, within ten days from its receipt, cease and desist operation or show proof of having a valid license. The person may, within ten days, request in writing a hearing before the director.

B. On application of the department, a magistrate shall issue a warrant to the department authorizing inspection of a child care facility if there is probable cause to believe that a person is operating the facility without a license.

C. If a person does not comply with this section the department shall notify the county attorney of the county in which the child care facility is being operated of the violation and request that criminal prosecution be commenced against the violator. The department may request the attorney general to apply for injunctive relief.

D. Any person who continues to maintain or operate a child care facility without a license ten days after receipt of notice from the department is guilty of a class 1 misdemeanor.

36-886.01. Injunctions

If the department believes that a child care facility is operating under conditions that present possibilities of serious harm to children, the department shall notify the county attorney or the attorney general who shall immediately seek a restraining order and injunction against the facility.

36-887. Procedure for inspection of records

A. Records maintained by the department for child care facilities are available to the public for review and copying.

B. Personally identifiable information that relates to a child, parent or guardian is confidential. The department shall disclose this information only as follows:

1. Pursuant to a court order.

2. Pursuant to a written consent signed by the parent or guardian.

3. To a law enforcement officer who requires it for official purposes.

4. To an official of a governmental agency who requires it for official purposes.

C. The department shall enter into the child care facility's case file, contiguous to the form containing the reported violation, those documents that verify correction of reported violations.

36-888. Denial, revocation or suspension of license

A. The department may deny, suspend or revoke a license for a violation of this article or department rules. At least thirty days before the department denies, revokes or suspends a license it shall mail the applicant or licensee a notice of that person's right to a hearing. The department shall issue this notice by registered mail with return receipt requested. The notice shall state the hearing date and the facts constituting the reasons for the department's action and shall cite the specific statute or rule that the person is not conforming to.

B. If the person does not respond to the written notice the department, at the expiration of the time fixed in the notice, shall take the action prescribed in the notice. If the person, within the period fixed in the notice, conforms the application or the operation of the child care facility to the applicable

statute or rule, the department may grant the license or withdraw the notice of suspension or revocation.

36-889. Licensees; applicants; residency; controlling persons; requirements

A. Each licensee, other than a corporation, a limited liability company, an association or a partnership, shall be a citizen of the United States who is a resident of this state, or a legal resident alien who is a resident of this state. A corporation, association or limited liability company shall be a domestic entity or a foreign entity that is qualified to do business in this state. A partnership shall have at least one partner who is a citizen of the United States and who is a resident of this state, or who is a legal resident alien and who is a resident of this state.

B. The department shall not issue or renew a license unless a list of each of the applicant's or licensee's controlling persons is on file with the department and no controlling person has been denied a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or other state or has had a license to operate a child care facility or a certificate to operate a child care group home revoked for reasons that relate to the endangerment of the health and safety of children.

C. The applicant or licensee shall notify the department within thirty days after the election of any new officer or director or of any change in the controlling persons and shall provide the department the name and business or residential address of each controlling person and an affirmation by the applicant that no controlling person has been denied a certificate to operate a child care group home or a license to operate a child care facility for the care of children in this state or another state or has had a license to operate a child care facility or a certificate to operate a child care group home revoked for reasons that relate to the endangerment of the health and safety of children.

D. Each applicant or licensee shall designate an agent who is authorized to receive communications from the department, including legal service of process, and to file and sign documents for the applicant or licensee. The designated agent shall be all of the following:

1. A controlling person.

2. A citizen of the United States or a legal resident alien.

3. A resident of this state.

36-890. Decisions

All decisions rendered by the director, pursuant to the applicable law and regulations, shall be in writing and filed of record in the office of the department. Notice of such decisions shall be given to the affected person or licensee. If no appeal is taken by any such person or licensee within the time provided by law, the decision of the director shall be final and conclusive.

36-891. Civil penalty; inspection of centers; training program

A. The director may impose a civil penalty on a person who violates this article or rules adopted pursuant to this article in an amount of not more than one hundred dollars for each violation. Each day that a violation occurs constitutes a separate violation. The director may issue a notice that includes the proposed amount of the civil penalty assessment. If a person requests a hearing to

appeal an assessment, the director shall not take further action to enforce and collect the assessment until the hearing process is complete. The director shall impose a civil penalty only for those days on which the violation has been documented by the department.

B. In determining the civil penalty pursuant to subsection A, the department shall consider the following:

1. Repeated violations of statutes or rules.

2. Patterns of noncompliance.

3. Types of violations.

4. Severity of violations.

5. Potential for and occurrences of actual harm.

6. Threats to health and safety.

7. Number of children affected by the violations.

8. Number of violations.

9. Size of the facility.

10. Length of time during which violations have been occurring.

C. If a civil penalty imposed pursuant to subsection A is not paid, the attorney general or a county attorney shall file an action to collect the civil penalty in a justice court or the superior court in the county in which the violation occurred.

D. Unless a license is revoked or suspended, the director shall place the license of a child care facility subject to a civil penalty pursuant to subsection A on provisional license status for a period of time not to exceed six months in addition to other penalties imposed pursuant to this article.

E. Civil penalties collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

F. The department shall develop an instrument that documents compliance and noncompliance of child care facilities according to the criteria prescribed in its rules governing child care facility licensure. Blank copies of the instrument, which shall be in standardized form, shall be made available to the public.

G. The director shall establish a child care facility training program to provide training for child care facilities and users of child care services, technical assistance materials for child care facilities and information to enhance consumer awareness.

36-891.01. Intermediate sanctions; notification of compliance; hearing

A. If the director has reasonable cause to believe that a licensee is violating this article or rules adopted pursuant to this article and that the health or safety of the children is endangered, the director may impose, on written notice to the licensee, one or more of the following intermediate sanctions until the licensee is in substantial compliance with this article:

1. Immediate restrictions on new admissions to the child care facility.

2. Termination of specific services that the facility may offer.

3. Reduction of the facility's capacity.

B. A child care facility sanctioned pursuant to this section shall notify the department in writing when it is in substantial compliance. On receipt of notification the department shall conduct an inspection. If the department determines that the facility is in substantial compliance the director shall immediately rescind the sanctions. If the department determines that the facility is not in substantial compliance the sanctions remain in effect. The facility may then notify the department of substantial compliance not sooner than fourteen days after the date of that inspection. If the department determines on the return inspection that the facility is still not in substantial compliance the sanctions remain in effect. Thereafter, a facility may notify the department of substantial compliance not sooner than thirty days after the date of the last inspection. A facility shall make all notifications of substantial compliance by certified mail. The department shall conduct all inspections required pursuant to this subsection within fourteen days after receipt of notification of substantial compliance. If the department does not conduct an inspection within this time period, the sanctions have no further effect.

C. A person who has been ordered by the director to restrict admission, reduce capacity or terminate specific services may request a hearing to review the director's action. The person shall make this request in writing within ten days after the person receives notice of the director's action. The office of administrative hearings shall conduct an administrative hearing within seven business days after the notice of appeal has been filed with the office of administrative hearings.

D. A hearing conducted pursuant to this section shall comply with the requirements of title 41, chapter 6, article 10.

36-892. Violation; classification

Any person violating the provisions of the applicable law, or regulations, is guilty of a class 2 misdemeanor unless another classification is specifically prescribed in this article.

36-893. Legal action or sale; effect on licensure

A. The department shall not act on an application for licensure of a currently licensed child care facility while any enforcement or court action related to child care facility licensure is pending against that facility's current licensee.

B. The director may continue to pursue any court, administrative or enforcement action against the licensee even though the facility is in the process of being sold or transferred to a new owner.

C. The department shall not approve a change in facility ownership unless it determines that there has been a transfer of all legal and equitable interests, control and authority in the facility so that

persons other than the transferring licensee, that licensee's agent or other parties exercising authority or supervision over the facility's daily operations or staff are responsible for and have control over the facility.

36-894. Medical marijuana; child care facilities; prohibition

(Added with a 1998 Prop. 105 clause pursuant to L12, Ch. 159)

A person, including a cardholder as defined in section 36-2801, may not lawfully possess or use marijuana in any child care facility in this state.

36-894.01. Use of sunscreen in child care facilities

A school-age child who attends a child care facility in this state may possess and use a topical sunscreen product without a note or prescription from a licensed health care professional.

D-10.

New Table: Table 1.2

Summary:

This regular rulemaking from the Department of Health Services (Department) seeks to amend twelve (12) rules, renumber four (4) rules, repeal one (1) rule, add seven (7) new sections and one (1) new table in Title 9, Chapter 10, Articles 1 and 8 regarding assisted living facilities. Specifically, the Department plans to amend the rules to comply with new statutory changes imposed by Laws 2024, Chapter 100, which requires the new rules to take effect by June 30, 2025. These rules will establish memory care services standards in assisted living facilities, requiring eight (8) hours of initial training and four (4) hours of annual continuing education for

staff and contractors, as well as specific training for managers. Rehired staff and contractors after a 12-month gap must complete the initial training within 30 days. Facilities must document staff and contractor training for compliance inspections, and penalties apply for non-compliance. On-site monitoring, associated fees, and in-service training requests will be formalized. Additionally, civil money penalties will increase up to $1,000 per resident or patient impacted, per day, and take other considerations into account (i.e. repeats, etc.). The Department indicates it may pursue court, administrative, or enforcement action against a licensee, even if the health care institution is in the process of being sold or transferred or has closed. Health care institutions failing to pay penalties may have their licenses revoked, and applications may be denied if resident or patient safety is at risk. The rulemaking also establishes an on-site monitoring fee as authorized by A.R.S. § 36-405(D). In addition, A.R.S. § 36-405(E) authorizes the Department to provide in-service training to a health care institution that requests in-service training relating to regulatory compliance outside of the survey process.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

Pursuant to A.R.S. § 41-1008(A)(1), an agency shall not charge or receive a fee or make a rule establishing a fee unless the fee for the specific activity is expressly authorized by statute. The Department indicates the rulemaking establishes an on-site monitoring fee as authorized by A.R.S. § 36-405(D). In addition, A.R.S. § 36-405(E) authorizes the Department to provide in-service training to a health care institution that requests in-service training relating to regulatory compliance outside of the survey process.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Department plans to amend the rules in Title 9, Chapter 10, Articles 1 and 8, to comply with new statutory changes imposed by Laws 2024, Chapter 100, which requires the new rules to take effect by June 30, 2025. The Department states that these rules will establish memory care services standards in assisted living facilities, requiring eight hours of initial training and four hours of annual continuing education for staff and contractors, as well as specific training for managers. Rehired staff and contractors after a 12-month gap from working at an assisted living facility licensed to provide directed care services must complete the initial training within 30 days after the date of hire, rehire or returning to work. On-site monitoring inspections, in-service training requests, and associated fees will be formalized. Additionally, civil penalties will increase up to $1,000 per resident or patient impacted, per day, and take other

considerations into account (i.e. repeats, etc.). The Department may pursue court, administrative, or enforcement action against a licensee, even if the health care institution is in the process of being sold or transferred or has closed. Health care institutions failing to pay penalties may have their licenses voided, and applications may be denied if resident or patient safety is at risk. The Department anticipates that the rules may increase the regulatory burden or cost on some affected persons. However, the Department believes that the benefits of the rules will far outweigh any potential cost due to increasing the health and safety for residents or patients

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department has determined that there are no less intrusive or less costly alternatives for achieving the purpose of the rulemaking.

6. What are the economic impacts on stakeholders?

The Department states the proposed rule changes to Title 9, Chapter 10, Articles 1 and 8 are designed to enhance the safety, quality, and regulatory oversight of health care institutions, particularly in memory care services within assisted living facilities. The Department believes that by establishing clear training, compliance, and enforcement standards, these amendments aim to improve resident and patient care while ensuring facilities meet rigorous health and safety requirements. The Department states that although some financial and operation impacts are expected, especially for facilities with repeated violations, the long-term benefits—including improved compliance, reduced enforcement actions, and enhanced public trust—outweigh the potential costs. The Department believes that strengthening monitoring, increasing civil money penalties, and formalizing memory care services training will ultimately lead to a more accountable and higher-quality health care system in Arizona, benefiting residents, families, and providers alike.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates, between the Notice of Proposed Rulemaking which was published in the Administrative Register on March 7, 2025 and the Notice of Final Rulemaking now before the Council for consideration, it corrected the numbering in the subsection labels in R9-10-125(A) and (B) and R9-10-816(A)(1)(i) to follow the proper rulewriting format. The Department indicates it also changed the word “controls" to "monitors" in R9-10-815(F)(2)(a)(ii) and (b)(ii) and clarified that the facility is secured.

Council staff does not believe these changes make the rule language in the Notice of Final Rulemaking substantially different from the language in the Notice of Proposed Rulemaking and the Department is in compliance with A.R.S. § 41-1025.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it received 122 public comments related to this rulemaking. Of those, the Department indicates almost all of those comments were in support of the rulemaking. Summaries of the comments and the Department's responses are found in Section 12 of the Preamble to the Notice of Final Rulemaking. Copies of the comments and the Department's responses are also included in the final materials for the Council's reference.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

The Department states it does not use a general permit. Specifically, the Department indicates it believes that under A.R.S. § 41-1037(A)(3) a general permit is not applicable in that "[t]he issuance of a general permit is not technically feasible or would not meet the applicable statutory requirements." Council staff believes the Department is in compliance with A.R.S. § 41-1037.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there is no corresponding federal law for these rules.

11. Conclusion

This regular rulemaking from the Department seeks to amend twelve (12) rules, renumber four (4) rules, repeal one (1) rule, add seven (7) new sections and one (1) new table in Title 9, Chapter 10, Articles 1 and 8 regarding assisted living facilities. Specifically, the Department plans to amend the rules to comply with new statutory changes imposed by Laws 2024, Chapter 100, which requires the new rules to take effect by June 30, 2025. These rules will establish memory care services standards in assisted living facilities.

The Department is requesting an effective date of June 30, 2025 to comply with the requirements of Laws 2024, Chapter 100. A.R.S. § 41-1032(A) allows an agency to request an immediate effective date rather than the standard 60-day delayed effective date. Additionally, A.R.S. § 41-1032(B) allows an agency to specify an effective date more than sixty days after the filing of the rule in the office of the secretary of state if the agency determines that good cause exists for and the public interest will not be harmed by the later date. However, nothing in A.R.S. § 41-1032 allows an agency to request an effective date less than 60 days that is not immediate.

Nevertheless, the Department cites to four statutory bases to justify an immediate effective date pursuant to A.R.S. § 41-1032(A)(1) through (4). Council staff believes the Department has provided adequate justification for an immediate effective date under these bases and would recommend the Council approve the rulemaking with an immediate effective date pursuant to A.R.S. § 41-1032(A)(1) through (4).

Jessica Klein, Esq., Chair
Governor's Regulatory Review Council
Arizona Department of Administration
100 N. 15th Avenue, Suite 305
Phoenix, AZ 85007

RE: Department of Health Services, 9 A.A.C. 10, Article 1. General and Article 8. Assisted Living Facilities

Dear Ms. Klein:

Enclosed are the administrative rules identified above which I am submitting, as the Designee of the Director of the Department of Health Services, for approval by the Governor's Regulatory Review Council (Council). The following information is provided for your use in reviewing the enclosed rule package pursuant to A.R.S. § 41-1052 and A.A.C. R1-6-202:

1. The close of record date: April 8, 2025

2. Whether the rulemaking relates to a five-year-review report and, if applicable, the date the report was approved by the Council:
The rulemaking does not relate to a five-year-review report.

3. Whether the rulemaking establishes a new fee and, if so, the statutes authorizing the fee:
The rulemaking establishes an on-site monitoring as authorized by A.R.S. § 36-405(D). In addition, A.R.S. § 36-405(E) authorizes the Department to provide in-service training to a health care institution that requests in-service training relating to regulatory compliance outside of the survey process.

4. Whether the rulemaking contains a fee increase:
The rulemaking does not contain a fee increase.

5. Whether an immediate effective date is requested pursuant to A.R.S. § 41-1032:

The Department is not requesting an immediate effective date for the rules. However, the Department is requesting an effective date of June 30, 2025 to comply with Laws 2024, Chapter 100.

The Department certifies that the Preamble of this rulemaking discloses a reference to any study relevant to the rule that the Department reviewed and either did or did not rely on its evaluation of or justification for the rule.

The Department certifies that the preparer of the economic, small business, and consumer impact statement has notified the Joint Legislative Budget Committee there are no new full-time employees necessary to implement and enforce the rule.

The following documents are enclosed:

1. Notice of Final Rulemaking, including the Preamble, Table of Contents, and text of each rule;
2. An economic, small business, and consumer impact statement that contains the information required by A.R.S. 41-1055;
3. General and specific statutes authorizing the rules, including Laws 2024, Chapter 100;
4. Current rules;
5. Formal comments; and
6. Rulemaking approval pursuant to A.R.S. § 41-1039 (A) and (B).

The Department's point of contact for questions about the rulemaking documents is Lucinda Sallaway at Lucinda.Sallaway@azdhs.gov.

Sincerely,

Stacie Gravito
Director's Designee

NOTICE OF FINAL RULEMAKING

TITLE 9. HEALTH SERVICES

CHAPTER 5. DEPARTMENT OF HEALTH SERVICES –

HEALTH CARE INSTITUTIONS: LICENSING

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039(B) by the governor on:

April 21, 2025

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 36-132(A)(1) and (17), 36-136(G), 36-405 and 36-406

Implementing statute: A.R.S. §§ 36-405, 36-405.03, 36-411, 36-420.05, 36-425, and 36-431.01, as amended by Laws 2024, Chapter 100

4. The effective date of the rule:

This rule shall become effective June 30, 2025 pursuant to Laws 2024, Chapter 100.

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

Pursuant to Laws 2024, Chapter 100, the rules need to be effective June 30, 2025. In addition, the rulemaking should be in effect earlier than the general 60-day effective date pursuant to A.R.S. § 41-1032(A)(1) through (4).

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, [R24-197]

Notice of Proposed Rulemaking: 31 A.A.R. 703, March 7, 2025, Issue Number: 10, [R25-23]

Telephone: (602) 542-1020
Email: stacie.gravito@azdhs.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes (A.R.S.) § 36-132(A)(1) and (17) requires the Arizona Department of Health Services (Department) to protect the health of the people in Arizona, and license and regulate health care institutions. In order to ensure public health, safety, and welfare, A.R.S. §§ 36-405 and 36-406 requires the Department to adopt rules establishing minimum standards and requirements for the construction, modification, and licensure of health care institutions. The Department has adopted rules to implement these statutes in Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. The Department plans to amend the rules in 9 A.A.C. 10, Articles 1 and 8, to comply with new statutory changes imposed by Laws 2024, Chapter 100, which requires the new rules to take effect by June 30, 2025. These rules will establish memory care services standards in assisted living facilities, requiring eight hours of initial training and four hours of annual continuing education for staff and contractors, as well as specific training for managers. Rehired staff and contractors after a 12-month gap must complete the initial training within 30 days. Facilities must document staff

and contractor training for compliance inspections, and penalties apply for non-compliance. On-site monitoring, associated fees, and in-service training requests will be formalized. Additionally, civil money penalties will increase up to $1,000 per resident or patient impacted, per day, and take other considerations into account (i.e. repeats, etc.). The Department may pursue court, administrative, or enforcement action against a licensee, even if the health care institution is in the process of being sold or transferred or has closed. Health care institutions failing to pay penalties may have their licenses revoked, and applications may be denied if resident or patient safety is at risk. After receiving rulemaking approval pursuant to A.R.S. § 41-1039, the Department plans to conduct a rulemaking to adhere to the statutory changes identified above. The Department anticipates that the rules may increase the regulatory burden or cost on some affected persons. However, the Department believes that the benefits of the rules will far outweigh any potential cost due to increasing the health and safety for residents or patients. Any proposed changes will conform to the rulemaking format and style requirements of the Governor's Regulatory Review Council (GRRC) and the Office of the Secretary of State.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department did not review or rely on any study related to this rulemaking package.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

The Arizona Department of Health Services (Department) is required by A.R.S. § 36-132(A)(1) and (17) to protect public health and regulate health care institutions, including establishing minimum standards under A.R.S. §§ 36-405 and 36-406. To comply with Laws 2024, Chapter 100, the Department is amending the rules in 9 A.A.C. 10, Articles 1 and 8. In Article 1, changes that affected all licensed health care institutions include on-site monitoring inspections, in-service training requests, increased civil money penalties up to $1,000 per resident or patient impacted by a violation, and an enforcement matrix that outlines violation severities and remedies. The Department may pursue legal action against non-compliant licensees, even if a facility is being sold or closed, and health care institutions failing to pay penalties may have their licenses revoked. Furthermore, Laws 2024, Chapter 100, establishes memory care services for in assisted living facilities authorized to provide directed care services, requiring staff and contractor training, compliance documentation, and penalties for non-compliance. While the rules may increase regulatory costs for some affected persons, the Department believes the benefits—enhancing health and safety for residents—will outweigh any financial impact. The cost/benefit analysis categorizes financial impacts as minimal, moderate, or substantial based on the extent of costs or revenue changes. Directly affected parties include the Department, assisted living facilities, training providers, health care providers and institutions, patients, residents and their families, and the general public.

Laws 2024, Chapter 100 also mandates a memory care services training program, increasing the Department’s administrative responsibilities in approving training providers and ensuring compliance with new standards. The proposed rulemaking for memory care services in assisted living facilities authorized to provide directed care services aims to enhance care quality for residents receiving memory care services. The rules establish clear staffing, training, service planning, and environmental adaptation requirements, including a minimum of eight hours of specialized memory care services training within 30 days of hire, a minimum of four hours of annual continuing education, semi-annual elopement drills, and resident-specific service plans. While assisted living facilities licensed to provide directed care services may face minimal costs related to training and environmental

modifications, these measures are expected to improve operational efficiency, reduce liability risks, and enhance resident safety. Additionally, expanding directed care services to include memory care services may offer facilities greater flexibility in their scope of care. Overall, the economic impact on assisted living facilities is anticipated to be minimal to moderate and is expected to provide a significant benefit from having new rules for memory care services.

The Department is introducing five new sections in Article 1 for rules regulating new memory care services training programs. Memory care services training programs must apply for approval by submitting detailed applications, including training course descriptions covering cognitive impairments, communication, behavioral management, emergency protocols, and palliative care. Approved memory care services training programs must renew annually and comply with the applicable rules and statutes, while non-compliance may result in denial or revocation. Additional requirements for providers ensure transparency, including mandatory notifications of significant changes and Department access to records. The eligibility criteria for memory care services trainers emphasize education, experience, and certification. The rules also specify the criteria to be included on a certificate of completion when a participant successfully completes the memory care services training. While these regulations may impose administrative costs, the Department expects the new rules will improve care quality by having well trained staff and contractors on current evidence-based information. The overall economic impact is expected to be minimal to moderate, balancing compliance costs with long-term benefits and improved memory care services in Arizona.

The proposed rule changes to A.A.C. Title 9, Chapter 10 aim to strengthen oversight, improve compliance, and enhance enforcement across all health care institutions. Key updates include granting the Department authority to conduct on-site monitoring inspections for facilities with repeated violations, imposing fees for monitoring and in-service training, and clarifying conditions under which a facility's license may be revoked for unpaid penalties or fees. These measures prioritize high-risk facilities, improve patient safety, and encourage compliance. While initial enforcement activity may increase as facilities adjust, the long-term impact is expected to be enhanced regulatory clarity, improved care quality, and fewer severe violations. Financially, the new rules introduce fees to offset regulatory costs, with on-site monitoring inspections fees of up to $1,000 per inspection and training fees of up to $500 per hour. Additionally, Laws 2024, Chapter 100 raises the cap on civil money penalties from $500 to $1,000, potentially increasing annual penalty collections for the state general fund. While these changes may introduce minimal-to-moderate financial and operational impacts, they are expected to significantly improve patient safety, compliance, and enforcement efficiency across health care institutions.

The new regulations, mandated by Laws 2024, Chapter 100, clarify enforcement actions and introduce on-site monitoring inspections for institutions with significant deficiencies or repeated violations. This includes the possibility of charging up to $1,000 for monitoring inspections and implementing civil money penalties of up to $1,000 per violation per affected patient. While these measures may create financial burdens, particularly for smaller facilities, they are designed to enhance regulatory compliance and patient safety. The rules also introduce a fee structure for in-service training on regulatory compliance, allowing the Department to charge up to $500 per hour. Despite the potential costs, these changes are expected to provide long-term benefits by improving compliance, reducing the need for frequent enforcement actions, and ultimately enhancing the quality of care. The overall financial impact will largely depend on each institution's compliance level, with fully compliant facilities experiencing minimal effects while those with persistent violations may face more substantial costs. Therefore, the proposed rule changes regarding the enforcement measures that are applicable to all health care institutions are expected to have a minimal to moderate cost on health care institution depending on the amount of noncompliance at that health care institutions.

The new rules in Article 1 and Article 8 are expected to provide significant benefits to patients, residents, and their families. The enforcement standards, on-site monitoring, and in-service training requirements aim to improve compliance with Title 9, Chapter

10, enhancing overall health and safety in health care institutions. Stricter monitoring and enforcement are anticipated to reduce risks and create a safer environment, particularly for vulnerable populations. The new memory care service rules for assisted living facilities are designed to expand health care options and improve the quality of care for individuals receiving memory care services. These regulations require personalized service plans, behavior management strategies, and regular medical evaluations, as well as specialized staff and contractor training. While there may be potential for increased costs due to compliance measures, the Department expects the economic impact on patients, residents, and their families to be none-to-minimal. The enhanced safety, improved quality of care, and greater peace of mind for residents, patients, and their families are expected to significantly outweigh any possible incurred costs.

The proposed rule changes are expected to have a significant positive impact on the general public by enhancing safety and quality of care in health care institutions. The stricter oversight and enforcement measures outlined in Article 1 aim to reduce serious health and safety violations, improving trust in the health care system. Clear enforcement mechanisms and robust penalties are designed to reassure the public that regulatory authorities are actively protecting patient welfare. Additionally, the new memory care service rules for assisted living facilities expand care options for directed care services, establishing clear standards and ensuring well-trained staff and contractors for memory care services. These regulations are intended to reduce risks such as elopement and neglect, contributing to safer communities. Overall, the Department anticipates that these changes will provide a substantial benefit to the general public by improving the reliability, safety, and quality of health care services, particularly for vulnerable populations requiring specialized care.

The Department anticipates that the proposed rule changes will have a varied impact on small businesses in the health care sector. While increased compliance requirements may initially incur moderate costs, particularly for those with repeated violations, businesses that maintain compliance are expected to face minimal expenses. The introduction of memory care services presents an opportunity for revenue growth for training providers and assisted living facilities. Although there may be minimal-to-moderate operational costs associated with implementing these new services, the Department estimates that the long-term benefits will outweigh these initial investments. These benefits include improved care quality, enhanced safety standards, better regulatory compliance, and potentially reduced liability risks. The new regulations are also expected to boost the reputation and trustworthiness of compliant facilities, particularly those offering specialized memory care services. While the impact may vary based on compliance levels and enforcement frequency, the Department anticipates that the long-term advantages of improved health care quality and regulatory adherence will ultimately provide a significant benefit to small health care businesses, outweighing any upfront costs.

In conclusion, the proposed rule changes to 9 A.A.C. 10, Articles 1 and 8 are designed to enhance the safety, quality, and regulatory oversight of health care institutions, particularly in memory care services within assisted living facilities. By establishing clear training, compliance, and enforcement standards, these amendments aim to improve resident and patient care while ensuring facilities meet rigorous health and safety requirements. Although some financial and operational impacts are expected, especially for facilities with repeated violations, the long-term benefits—including improved compliance, reduced enforcement actions, and enhanced public trust—outweigh potential costs. Strengthening monitoring, increasing civil money penalties, and formalizing memory care services training will ultimately lead to a more accountable and higher-quality health care system in Arizona, benefiting residents, families, and providers alike.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

The Department is currently working on a separate rulemaking that amends some of the same Sections as in this rulemaking. The Department had planned to finalize that rulemaking before this rulemaking, in which case, the Department used those rules as "base rules" in the Notice of Proposed Rulemaking. Since this separate rulemaking has not been completed, the Department has amended the Notice of Final to reflect the current codified rules. Furthermore, the Department corrected the numbering in the subsection labels in R9-10-125(A) and (B) and R9-10-816(A)(1)(i) to follow the proper rulewriting format. The Department also changed the word "controls" to "monitors" in R9-10-815(F)(2)(a)(ii) and (b)(ii) and clarified that the facility is secured.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

During the formal comment period, the Department received a total of 122 written comments.

There were 111 individuals who submitted similar comments as well as personal stories and expressed support of the proposed memory care service rules, highlighting their potential to significantly improve resident safety and quality of care for individuals receiving memory care services at an assisted living facility. The comments also thanked the Department for including person-centered care planning, timely incident reporting, specialized staff training, adequate staffing levels, supportive environmental features, meaningful activities, nutrition and hydration, safety measures, and evacuation emergency procedures. Furthermore, the comments thanked the Department for improving the state's enforcement matrix for infractions related to health care facilities and strongly urged the Department to finalize the rules as proposed. The Department responded to each individual who submitted comments and thanked them for their feedback and participation in the rulemaking.

The Department received a comment from Allan A. Anderson, MD, similar to the 111 comments received in support of the rulemaking. Anderson added further commentary and questions regarding how adequate staffing is assessed and how training programs will be evaluated. The Department clarified that adequate staffing is assessed according to the service plans of the residents as well as the staff's ability to meet their needs. For example, if multiple residents require more than one caregiver to assist, the facility will be required to increase staffing levels. If residents require the use of specific medical equipment, the staff on-site would need documented training on using the equipment. The training will be assessed during the application review. All memory care training applications will have an administrative review and substantive review. During the substantive review is when the Department will review the quality of the training program to ensure it meets the standards outlined in rule. The training program will be required to demonstrate that the program is evidenced- based before being approved by the Department.

Another similar comment was received from Jennifer Ladd Omo in support of the proposed memory care services rules, however, concerns were expressed about training being required twice a year and a registered nurse being part of the eligibility requirement to be a memory care services trainer. In response, the Department clarified that the required trainings are on an annual basis and the staff training and manager trainings are two different trainings pursuant to A.R.S. § 36-405.03. Furthermore, the Department explained that rules do not require memory care services trainers to be RNs—though that is one option. As specified in R9-10-125(A) and (B), there are multiple pathways for individuals to qualify as trainers. The Department's intent with the rule is to

maintain flexibility and allow individuals with appropriate experience and expertise, including those without RN credentials, to be a memory care services trainer.

The Department also received a similar comment from Adrienne Montgomery, an assisted living manager at Vi at Silverstone. The comment was in support of the rules but also included suggestions to allow for online training and for existing managers to be grandfathered in. The Department let Montgomery know that R9-10-122(B) clarifies that the memory care services training program must include in-person components and may incorporate online elements. The in-person component must include a demonstration of the individual's skills and knowledge necessary to provide memory care services. Furthermore, the manager training is required pursuant to A.R.S. § 36-405.03. Montgomery also asked the Department to consider allowing all licensed nurses to be memory care trainers, including LPNs. The Department thanked Montgomery for the comment and stated this would be discussed and considered in internal discussions.

The Department received a comment from Phyllis Denison, a former RN and 24/7 caregiver, who is in support of the rules. In the comment, they praised the evidence-based training requirements, the emphasis on person-centered care with regular assessments, and the inclusion of medical practitioner reviews for placement decisions. They also highlighted serious concerns about staffing shortages and the need for clear staffing guidelines, calling for broader efforts to educate and train caregivers. Overall, they urged the state to adopt the rules and continue developing regulations that prioritize patient well-being. The Department thanked Denison for the comment and participation in the rulemaking.

A comment was received from Becky Hill, managing owner of Hill Advocacy, LLC, long-time lobbyist, state licensing board member for long-term care, and daughter of an Alzheimer's patient, strongly supports the adoption of the draft memory care services rule as aligned with HB2764. She emphasizes the rule meets legislative intent without exceeding it. Hill urges GRRC to approve the rule, highlighting the urgent need for consistent, qualified care for individuals with dementia. The Department thanked Hill for the comment and participation in the rulemaking.

The Department received a comment from Jaime Roberts, CEO of Arizona LeadingAge expressed appreciation for the Department's stakeholder engagement and inclusion of several AzLA recommendations in the final Memory Care rules. However, AzLA raised concerns about vague and undefined staffing mandates in R9-10-816, which they believe could lead to inconsistent enforcement and operational challenges. They also raised concerns regarding enforcement interpretations related to Directed Care services and the requirement for secured environments, stating that residents who do not pose elopement risks should not be unnecessarily institutionalized. Furthermore, AzLA expressed concerns that the rules authorize memory care as a separate level of care and recommends deleting R9-10-816. Also stating that the Department is outside the statutory authority granted by the legislature. AzLA is disappointed by the rule language in R9-10-816(A)(4), "there is staffing to ensure adequate supervision and care for residents receiving memory care services." Stating this is subjective, vague, and unquantified standards. Other concerns were raised regarding language in R9-10-816(A)(6), which states "If applicable, staffing is increased to compensate for the evaluated care and service needs of residents at move-in or for the changing physical or cognitive needs of the residents." AzLA believes this rule introduces ambiguity into compliance monitoring and imposes potential financial and operational burdens without

guardrails and creates a liability for providers. AzLA also recommended that the Department amend the Enforcement Matrix (Table 1.2) to what they had suggested and provided to the Department during informal stakeholder meetings. Additional concerns included the need for a more detailed enforcement matrix and limitations on monitoring fees. AzLA urged ADHS to clarify and revise the rules. In response, the Department, thanked Roberts for the comments.

Diane Hyink submitted a comment to the Department in support of the rulemaking and shared a personal story of their family's experience navigating memory care services for their father, who had dementia. Despite choosing a facility that advertised specialized memory care, the family encountered serious issues, including inadequate behavior management, medication lapses, and a lack of support during a crisis following an elopement. These challenges resulted in multiple geriatric psychiatric hospitalizations and ultimately a 34-day stay due to the original facility's refusal to readmit him. They later found a dedicated memory care facility where their father received appropriate, compassionate care. Hyink supports the proposed rules and believes they are essential to ensure consistent standards, training, and safety measures for memory care services. The Department thanked Hyink for the comments, support, and for sharing their personal experiences with us.

Stephanie Smith submitted a comment to the Department in support of the rulemaking, emphasizing the critical need for specialized dementia training, person-centered care, and stronger oversight in facilities. Smith also shared a personal story regarding her father's experience and how dramatically dementia symptoms can vary. Smith supports the proposed rules and believes they are essential to ensure consistent standards, training, and safety measures for memory care services. The Department thanked Smith for the comments, support, and for sharing their personal experiences with us.

Steve Wagner submitted a comment in support of the memory care services rules. The comment highlighted the goals of HB2764 and expressed that the rules that allow effective enforcement and compliance in alignment with the bill.

The Arizona Health Care Cost Containment System (AHCCCS) AHCCCS appreciates the opportunity to comment on the proposed memory care regulations and emphasizes the importance of clarity and alignment with operational realities. Their comments included several suggestions to amend the rules. They suggested updating the definition of "opioid antagonist" to reflect over-the-counter availability, incorporating recruitment strategies into staff retention plans, and enhancing training with content on dementia-friendly environments. The Department let AHCCCS know that this amendment would be outside of the scope of this rulemaking. Other suggestions from AHCCCS included additional staff training topics for memory care services and include testing skills and knowledge from the training. The Department let AHCCCS know that A.A.C. R9-10-122(A)(1)(g)(ii) specifies that any additional relevant topics, which may include evidence-based information or facility-specific information. The topic list in A.A.C. R9-10-122(A)(1)(g)(ii)(15) are examples of training topics that would be appropriate. The intent of the rule was to be as flexible as possible and allow for a wide range of evidence-based topics. Furthermore, A.A.C. R9-10-122(A)(1)(e)(ii)(3) specifies that the testing method used to verify an individual has acquired the stated skills for each topic is required to be submitted to the Department in the application. AHCCCS also recommended amending the definition of 'elopement,' defining a clear explanation of controlled egress, defined as a safety measure in which

exit doors are designed to delay or restrict a resident's ability to leave a secured area, clearly state that accommodations and

progressive supports are intended to be individualized, and replace ‘service needs’ with ‘individualized service needs.’ The Department thanked AHCCCS for their comments and recommendations and let them know that the Department will discuss necessary amendments for the final rulemaking package.

Tory Roberg, representing the Alzheimer’s Association, submitted comments strongly supporting the proposed rules, emphasizing that the changes are urgently needed to improve care. The comment commended the Department’s stakeholder engagement efforts and urged final adoption of the rule package with several suggested non-substantive changes to improve clarity and alignment with evidence-based practices. The comment also highlighted the growing need for high-quality dementia care in Arizona due to the aging population and the prevalence of Alzheimer’s, and it supports all proposed sections related to memory care, with specific recommendations to strengthen training curriculum, environmental design, and service planning to better align with nationally recognized Dementia Care Practice Recommendations. The Department thanked Roberg for the comments and support, and also stated that the Department would take into consideration the non-substantive suggested changes before submitting the final rulemaking package.

Brendon Blake, Director of Advocacy for AARP Arizona, expressed strong support for the proposed rules, thanking the Department for its collaborative approach and responsiveness to stakeholder input. The comment emphasized the importance of clearly defining and regulating memory care services, strengthening enforcement mechanisms to deter noncompliance, and including provisions around elopement prevention. AARP believes the rules strike a fair compromise and are a critical step toward improving care and accountability in long-term care settings, particularly for individuals with neurodegenerative conditions. The Department thanked Blake for the comments and support throughout this rulemaking process.

At the Oral Proceeding on April 8, 2025, 17 stakeholders attended, and 10 individuals provided formal oral comments on the rulemaking.

Diane Hyink, a member of the community and with the Alzheimer’s Association, shared a personal story about her experience with her father in memory care and how important these rules are needed to ensure health and safety and proper memory care services. Hyink supports the proposed rules and mentioned that it is surprising that some of the new rules are not already current requirements.

Sean Mockbee, representing the Arizona Health Care Association, had questions related to implementation and the licensure title and also asked how does it look with adding memory care to the direct care license. The Department clarified that beds are specified to a specific level of care and everything would be considered for a directed care unit in comparison to supervisorial care. Furthermore, the Department explained that the way that the statute was written, memory care services are the same as directed care.

Dave Voepel with the Arizona Health Care Association asked the Department if the interpretation of memory care services being the same as directed care will be added to the rules. The Department clarified that directed care is defined in statute, and the

interpretation would not change unless there is a statute change.

Karen Barno with the Arizona Assisted Living Federation of America (AZALFA) brought up concerns with the implementation of the rules and becoming compliant as the rules transition. The Department clarified that per HB2764 the rules must be implemented by June 30, 2025 and the Department plans to provide technical assistance as needed.

Jaime Roberts with Arizona LeadingAge brought up that the stakeholder process discussion was that memory care would apply to all direct care and it appears that the rules have required a fourth level, then asked why is there a definition of memory care if there is no distinction. The Department referenced that the term "memory care" is defined in statute. The rules draft was amended to require that anyone with a direct care license would be required to be trained in memory care services. Roberts continued to ask questions about what if there is a resident who wants to age in place. The Department clarified that would be a personal level of care. Roberts had further questions regarding a locked facility and recommended that the rules be further amended to clarify that direct care be secured. Roberts also asked if the Department plans to go out to each direct care facility to ensure compliance with the new rules. The Department said yes, and that information can be provided as to where a resident can safely reside. Roberts stated that she believes there is a turn in how the Department is interpreting direct care. The Department thanked her for her comment and clarified that technical assistance with the rules and interpretation will be provided.

Sara Scolville-Weaver a member of the community and with the Alzheimer's Association, shared a personal story about her experience with memory care and finding services for her mother. Before choosing a facility, Sara Scolville-Weaver and her sister visited about 12 facilities before finding one they believed would be a good fit. The one they selected was in Chandler, their mother was placed in that facility for only three months while they experienced countless issues with the care received. There was not adequate staffing (1-15 staff ratio), lack of nutrition, lack of supervision, their mother walked so much that her feet bled every day from walking in a circular locked ward. Scolville-Weaver mentioned that she witnessed a woman in the hallway crawling for help on her hands and knees. When she would go to visit her mother, it was common to see her mother dirty, many times staff did not know where her mother was. When Scolville-Weaver would go to look for her mother she often found her mother in someone else's bed often with her pants soaked in urine. Another issue at the facility was that medication was not given regularly and many residents were not fed. When Scolville-Weaver took her mother out of the facility, her mother was left with a UTI and a blood clot. Scolville-Weaver expressed that she strongly supports the new memory care rules and believes they are necessary for health and safety.

Faye McNeeley, a member of the community and with the Alzheimer's Association, shared a personal story about her daughter who is 55 and has early on-site Alzheimer's and is unable to work due to her condition. McNeeley discussed the difficulties in searching for a day programs for Alzheimer patients and is concerned about her daughter's care. McNeeley mentioned that she does not believe that eight hours of initial training is enough. However, McNeeley stated she strongly supports the rules.

Marie Isaacson with Isaacson Law Firm representing Arizona LeadingAge asked for clarity on the statute regarding memory care and direct care. The Department clarified that any facility licensed up to direct care will receive memory care services training.

Isaacson asked for info on the Department encouraging facilities to be licensed to the highest care. The Department mentioned that we don't want to impose that burden on a facility if the facilities never plan to provide directed care services. Isaacson asked if this is a new interpretation. The Department said this is not a new interpretation, not as of 2018. Isaacson then asked the Department that if she is licensed as direct care but does not have direct care resident does she have to comply with the direct care rules. The Department let her know that yes she would be required to comply with the direct care rules. Isaacson further asked if there is an evaluation of the physical plant standards by the Department before licensure. The Department explained the physical plant standards and explained that newer facilities are able to hire an architect for licensure, and that the Department would also conduct an on-site inspection. Isaacson asked the Department if a facility was originally licensed and approved, but now receives a citation, is there a special dispensation for those facilities since there are new standards. The Department explained that this could be a case by case situation and the Department provides technical assistance when needed. Isaacson further stated that she believes R9-10-815 should not be a stand alone Section and should be deleted entirely and incorporated in the direct care rules. Isaacson also stated that there is a lot of duplication with training and with direct care and memory care. Furthermore, Isaacson is not happy with the term "sufficient staffing" and "adequate supervision," stating that this is subjective and creates a liability. Lastly, Isaacson stated that she does not believe that if a resident is a wonderer that they should not be in a locked area.

Kay Huff with the Arizona Health Care Association stated that at one point in time facilities were encouraged by the Department to be licensed for directed care at one time. At the time, those facilities were not required to follow the direct care rules if there were no direct care residents. Huff also suggested that the Department add several definitions to the rules, including physical harm and psychosocial harm. The Department acknowledges that prior to 2013, when the rules were under the office of assisted living licensure, the rules indicated that the controlled egress for directed care services was only required when the directed care services were being provided to a resident. However, the rules have been recodified since then and the rules are not written to have the same interpretation today.

Tory Roberg with the Alzheimer's Association stated comments expressing her appreciation and support for the rules and believes the rules as a whole are strong and will lead to good outcomes.

Brendon Blake with AARP Arizona thanked the Department for the rules and believes that the new rules will increase the quality of care. Blake also stated that he believes that the enforcement penalties are appropriate for the rules and is strong support of the rules being finalized as is.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable specifically to the Department or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Department does not use a general permit. The Department believes that under A.R.S. § 41-1037(A)(3) that a general permit is not applicable.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

The rules are not related to federal laws.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

Not applicable

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

16. The full text of the rules follows:

Rule text begins on the next page.

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES –

HEALTH CARE INSTITUTIONS: LICENSING

ARTICLE 1. GENERAL

ARTICLE 8. ASSISTED LIVING FACILITIES

ARTICLE 1. GENERAL

R9-10-101. Definitions

In addition to the definitions in A.R.S. §§ 36-401(A) and 36-439, the following definitions apply in this Chapter unless otherwise specified:

1. "Abortion clinic" No change
2. "Abuse" No change
    a. No change
        i. No change
        ii. No change
    b. No change
    c. No change
    d. No change
3. "Accredited" No change
4. "Active malignancy" No change
    a. No change
        i. No change
        ii. No change
        iii. No change
    b. No change
    c. No change
5. "Activities of daily living" No change
6. "Acuity" No change
7. "Acuity plan" No change
8. "Adjacent" No change
    a. No change
    b. No change
9. "Administrative completeness review time-frame" No change
10. "Administrative office" No change
11. "Admission" or "admitted" No change
12. "Adult" No change
13. "Adult behavioral health therapeutic home" No change
14. "Adult residential care institution" No change
15. "Adverse reaction" No change
16. "Affiliated counseling facility" No change
17. "Affiliated outpatient treatment center" No change
18. "Alternate licensing fee due date" No change
19. "Ancillary services" No change
20. "Anesthesiologist" No change
    a. No change
    b. No change
    c. No change
    d. No change
21. "Applicant" No change

a. No change

b. No change

c. No change

d. No change

22. “Application packet” No change

a. No change

b. No change

c. No change

d. No change

23. “Assessment” No change

24. “Assistance in the self-administration of medication” No change

25. “Attending physician” No change

26. “Authenticate” No change

a. No change

b. No change

c. No change

d. No change

27. “Authorized service” No change

28. “Available” No change

a. No change

b. No change

c. No change

29. “Behavioral care” No change

a. No change

i. No change

(1) No change

(2) No change

ii. No change

b. No change

30. “Behavioral health facility” No change

31. “Behavioral health inpatient facility” No change

a. No change

b. No change

c. No change

d. No change

e. No change

f. No change

32. “Behavioral health issue” No change

33. “Behavioral health observation/stabilization services” No change

a. No change

b. No change

c. No change

34. “Behavioral health paraprofessional” No change

a. No change

b. No change

35. “Behavioral health professional” No change

a. No change

i. No change

ii. No change

b. No change

c. No change

d. No change

e. No change

f. No change

g. No change

36. “Behavioral health residential facility” No change

a. No change

b. No change

37. “Behavioral health respite home” No change

38. “Behavioral health specialized transitional facility” No change

39. “Behavioral health technician” No change

a. No change

b. No change

40. “Benzodiazepine” No change

41. “Biohazardous medical waste” No change

42. “Calendar day” No change

43. “Case manager” No change

44. “Certification” No change

45. “Certified health physicist” No change

46. “Change in ownership” No change

47. “Chief administrative officer” or “administrator” No change

48. “Clinical laboratory services” No change

49. “Clinical oversight” No change

a. No change

b. No change

c. No change

d. No change

50. “Clinical privileges” No change

51. “Collaborating health care institution” No change

a. No change

b. No change

52. “Common area” No change

a. No change

b. No change

c. No change

53. “Communicable disease” No change

54. “Conspicuously posted” No change
    a. No change
    b. No change
55. “Consultation” No change
56. “Contracted services” No change
57. “Contractor” No change
58. “Controlled substance” No change
59. “Counseling” No change
60. “Counseling facility” No change
    a. No change
    b. No change
61. “Court-ordered evaluation” No change
62. “Court-ordered treatment” No change
63. “Crisis services” No change
64. “Current” No change
65. “Daily living skills” No change
66. “Danger to others” No change
67. “Danger to self” No change
68. “Detoxification services” No change
    a. No change
    b. No change
69. “Diagnostic procedure” No change
70. “Dialysis” No change
71. “Dialysis services” No change
72. “Dialysis station” No change
73. “Dialyzer” No change
74. “Disaster” No change
75. “Discharge” No change
76. “Discharge instructions” No change
77. “Discharge planning” No change
78. “Discharge summary” No change
79. “Disinfect” No change
80. “Documentation” or “documented” No change
81. “Drill” No change
82. “Drug” No change
83. “Electronic” No change
84. “Electronic signature” No change
85. “Emergency” No change
86. “Emergency medical services provider” No change
87. “Emergency services” No change
88. “End-of-life” No change
89. “Environmental services” No change
90. “Equipment” No change

91. “Exploitation” No change
92. “Factory-built building” No change
93. “Family” or “family member” No change
94. “Follow-up instructions” No change
95. “Food services” No change
96. “Full-time” No change
97. “Garbage” No change
98. “General consent” No change
99. “General hospital” No change
100. “Gravely disabled” No change
101. “Habilitation services” No change
102. “Hazard” or “hazardous” No change
103. “Health care directive” No change
104. “Hemodialysis” No change
105. “Home health agency” No change
106. “Home health aide” No change
107. “Home health aide services” No change
108. “Home health services” No change
109. “Hospice inpatient facility” No change
110. “Hospital” No change
111. “Immediate” No change
112. “Immediate jeopardy” means a situation in which a patient or resident has suffered or is likely to suffer serious injury, serious harm, serious impairment, or death as a result of a licensee's noncompliance with one or more health and safety requirements.
~~112.~~113. “Incident” means an unexpected occurrence that harms or has the potential to harm a patient, while the patient is:
    a. On the premises of a health care institution, or
    b. Not on the premises of a health care institution but directly receiving physical health services or behavioral health ser-vices from a personnel member who is providing the physical health services or behavioral health services on behalf of the health care institution.
~~113.~~114. “Infection control” means to identify, prevent, monitor, and minimize infections.
~~114.~~115. “Infectious tuberculosis” has the same meaning as “infectious active tuberculosis” in A.A.C. R9-6-101.
~~115.~~116. “Informed consent” means:
    a. Advising a patient of a proposed treatment, surgical procedure, psychotropic medication, opioid, or diagnostic proce-dure; alternatives to the treatment, surgical procedure, psychotropic medication, opioid, or diagnostic procedure; and associated risks and possible complications; and
    b. Obtaining documented authorization for the proposed treatment, surgical procedure, psychotropic medication, opioid, or diagnostic procedure from the patient or the patient’s representative.
~~116.~~117. “In-service education” means organized instruction or information that is related to physical health services or behavioral health services and that is provided to a medical staff member, personnel member, employee, or volunteer.
~~117.~~118. “Interdisciplinary team” means a group of individuals consisting of a resident’s attending physician, a registered nurse responsible for the resident, and other individuals as determined in the resident’s comprehensive assessment or, if applicable, placement evaluation.
~~118.~~119. “Intermediate care facility for individuals with intellectual disabilities” or “ICF/IID” has the same meaning as in A.R.S. § 36-551.

~~119.~~120. “Interval note” means documentation updating a patient’s:

a. Medical condition after a medical history and physical examination is performed, or

b. Behavioral health issue after an assessment is performed.

~~120.~~121. “Isolation” means the separation, during the communicable period, of infected individuals from others, to limit the transmission of infectious agents.

~~121.~~122. “Leased facility” means a facility occupied or used during a set time period in exchange for compensation.

~~122.~~123. “License” means:

a. Written approval issued by the Department to a person to operate a class or subclass of health care institution at a specific location; or

b. Written approval issued to an individual to practice a profession in this state.

~~123.~~124. “Licensed occupancy” means the total number of individuals for whom a health care institution is authorized by the Department to provide crisis services in a unit providing behavioral health observation/stabilization services.

~~124.~~125. “Licensee” means an owner approved by the Department to operate a health care institution.

~~125.~~126. “Manage” means to implement policies and procedures established by a governing authority, an administrator, or an individual providing direction to a personnel member.

~~126.~~127. “Medical condition” means the state of a patient’s physical or mental health, including the patient’s illness, injury, or disease.

~~127.~~128. “Medical director” means a physician who is responsible for the coordination of medical services provided to patients in a health care institution.

~~128.~~129. “Medical history” means an account of a patient’s health, including past and present illnesses, diseases, or medical conditions.

~~129.~~130. “Medical practitioner” means a physician, physician assistant, or registered nurse practitioner.

~~130.~~131. “Medical record” has the same meaning as “medical records” in A.R.S. § 12-2291.

~~131.~~132. “Medical staff” means physicians and other individuals licensed pursuant to A.R.S. Title 32 who have clinical privileges at a health care institution.

~~132.~~133. “Medical staff bylaws” means standards, approved by the medical staff and the governing authority, that provide the framework for the organization, responsibilities, and self-governance of the medical staff.

~~133~~134. “Medical staff member” means an individual who is part of the medical staff of a health care institution.

~~134.~~135. “Medication” means one of the following used to maintain health or to prevent or treat a medical condition or behavioral health issue:

a. Biologicals as defined in A.A.C. R18-13-1401,

b. Prescription medication as defined in A.R.S. § 32-1901, or

c. Nonprescription drug as defined in A.R.S. § 32-1901.

~~135.~~136. “Medication administration” means restricting a patient’s access to the patient’s medication and providing the medication to the patient or applying the medication to the patient’s body, as ordered by a medical practitioner.

~~136.~~137. “Medication error” means:

a. The failure to administer an ordered medication;

b. The administration of a medication not ordered; or

c. The administration of a medication:

i. In an incorrect dosage,

ii. More than 60 minutes before or after the ordered time of administration unless ordered to do so, or

iii. By an incorrect route of administration.

~~137.~~138. “Mental disorder” means the same as in A.R.S. § 36-501.

~~138.~~139. “Mobile clinic” means a movable structure that:

a. Is not physically attached to a health care institution’s facility;

b. Provides medical services, nursing services, behavioral health services, or health related service to an outpatient under the direction of the health care institution's personnel; and

c. Is not intended to remain in one location indefinitely.

~~139.~~140. "Monitor" or "monitoring" means to check systematically on a specific condition or situation.

~~140.~~141. "Neglect" has the same meaning:

a. For an individual less than 18 years of age, as in A.R.S. § 8-201; and

b. For an individual 18 years of age or older, as in A.R.S. § 46-451.

~~141.~~142. "Nephrologist" means a physician who is board eligible or board certified in nephrology by a professional credentialing board.

~~142.~~143. "Nurse" has the same meaning as "registered nurse" or "practical nurse" as defined in A.R.S. § 32-1601.

~~143.~~144. "Nursing care institution administrator" means an individual licensed according to A.R.S. Title 36, Chapter 4, Article 6.

~~144.~~145. "Nursing personnel" means individuals authorized according to A.R.S. Title 32, Chapter 15 to provide nursing services.

~~145.~~146. "Observation chair" means a physical piece of equipment that:

a. Is located in a designated area where behavioral health observation/stabilization services are provided,

b. Allows an individual to fully recline, and

c. Is used by the individual while receiving crisis services.

~~146.~~147. "Occupational therapist" has the same meaning as in A.R.S. § 32-3401.

~~147.~~148. "Occupational therapy assistant" has the same meaning as in A.R.S. § 32-3401.

~~148.~~149. "Ombudsman" means a resident advocate who performs the duties described in A.R.S. § 46-452.02.

~~149.~~150. "On-call" means a time during which an individual is available and required to come to a health care institution when requested by the health care institution.

~~150.~~151. "Opioid" means a controlled substance, as defined in A.R.S. § 36-2501, that meets the definition of "opiate" in A.R.S. § 36-2501.

~~151.~~152. "Opioid agonist treatment medication" means a prescription medication that is approved by the U.S. Food and Drug Administration under 21 U.S.C. § 355 for use in the treatment of ~~premises~~ opioid-related substance use disorder.

~~152.~~153. "Opioid antagonist" means a prescription medication, as defined in A.R.S. § 32-1901, that:

a. Is approved by the U.S. Department of Health and Human Services, Food and Drug Administration; and

b. When administered, reverses, in whole or in part, the pharmacological effects of an opioid in the body.

~~153.~~154. "Opioid treatment" means providing medical services, nursing services, behavioral health services, health-related services, and ancillary services to a patient receiving an opioid agonist treatment medication for opioid-related substance use disorder.

~~154.~~155. "Order" means instructions to provide:

a. Physical health services to a patient from a medical practitioner or as otherwise provided by law; or

b. Behavioral health services to a patient from a behavioral health professional.

~~155.~~156. "Orientation" means the initial instruction and information provided to an individual before the individual starts work or volunteer services in a health care institution.

~~156.~~157. "Outing" means a social or recreational activity that:

a. Occurs away from the premises,

b. Is not part of a behavioral health inpatient facility's or behavioral health residential facility's daily routine, and

c. Lasts longer than four hours.

~~157.~~158. "Outpatient surgical center" means a class of health care institution that has the facility, staffing, and equipment to provide surgery and anesthesia ser-vices to a patient whose recovery, in the opinions of the patient's surgeon and, if an anesthesiologist would be providing anesthesia services to the patient, the anesthesiologist, does not require inpatient care in a hospital.

~~158.~~159. “Outpatient treatment center” means a class of health care institution without inpatient beds that provides physical health services, or physical health services and behavioral health services, including medication services for the diagnosis and treatment of patients.

~~159.~~160. “Overall time-frame” means the same as in A.R.S. § 41-1072.

~~161.~~161. “Owner” means a person who appoints, elects, or designates a health care institution’s governing authority.

~~161.~~162. “Pain management clinic” has the same meaning as in A.R.S. § 36-448.01.

~~162.~~163. “Participant” means a patient receiving physical health services or behavioral health services from an adult day health care facility or a substance abuse transitional facility.

~~163.~~164. “Participant’s representative” means the same as “patient’s representative” for a participant.

~~164.~~165. “Patient” means an individual receiving physical health services or behavioral health services from a health care institution.

~~165.~~166. “Patient’s representative” means:

a. A patient’s legal guardian;

b. If a patient is less than 18 years of age and not an emancipated minor, the patient’s parent;

c. If a patient is 18 years of age or older or an emancipated minor, an individual acting on behalf of the patient with the written consent of the patient or patient’s legal guardian; or

d. A surrogate as defined in A.R.S. § 36-3201.

~~166.~~167. “Person” means the same as in A.R.S. § 1-215 and includes a governmental agency.

~~167.~~168. “Personnel member” means, except as defined in specific Articles in this Chapter and excluding a medical staff member, a student, or an intern, an individual providing physical health services or behavioral health services to a patient.

~~168.~~169. “Pest control program” means activities that minimize the presence of insects and vermin in a health care institution to ensure that a patient’s health and safety is not at risk.

~~169.~~170. “Pharmacist” has the same meaning as in A.R.S. § 32-1901.

~~170.~~171. “Physical examination” means to observe, test, or inspect an individual’s body to evaluate health or determine the cause of illness, injury, or disease.

~~171.~~172. “Physical health services” means medical services, nursing services, health-related services, or ancillary services provided to an individual to address the individual’s medical condition.

~~172.~~173. “Physical therapist” has the same meaning as in A.R.S. § 32-2001.

~~173.~~174. “Physical therapist assistant” has the same meaning as in A.R.S. § 32-2001.

~~174.~~175. “Physician assistant” has the same meaning as in A.R.S. § 32-2501.

~~175.~~176. “Placement evaluation” means the same as in A.R.S. § 36-551.

~~176.~~177. “Pre-petition screening” has the same meaning as “prepetition screening” in A.R.S. § 36-501.

~~177.~~178. “Premises” means property that is designated by an applicant or licensee and licensed by the Department as part of a health care institution where physical health services or behavioral health services are provided to a resident or patient.

~~178.~~179. “Prescribe” means to issue written or electronic instructions to a pharmacist to deliver to the ultimate user, or another individual on the ultimate user’s behalf, a specific dose of a specific medication in a specific quantity and route of administration.

~~179.~~180. “Professional credentialing board” means a non-governmental organization that designates individuals who have met or exceeded established standards for experience and competency in a specific field.

~~180.~~181. “Progress note” means documentation by a medical staff member, nurse, or personnel member of:

a. An observed patient response to a physical health service or behavioral health service provided to the patient,

b. A patient’s significant change in condition, or

c. Observed behavior of a patient related to the patient’s medical condition or behavioral health issue.

~~181.~~182. “PRN” means pro re nata or given as needed.

~~182.~~183. “Project” means specific construction or modification of a facility stated on an architectural plans and specifications approval application.

~~183.~~184. “Provider” means an individual to whom the Department issues a license to operate an adult behavioral health therapeutic home or a behavioral health respite home in the individual’s place of residence.

~~184.~~185. “Provisional license” means the Department’s written approval to operate a health care institution issued to an applicant or licensee that is not in substantial compliance with the applicable laws and rules for the health care institution.

~~185.~~186. “Psychotropic medication” means a chemical substance that:

a. Crosses the blood-brain barrier and acts primarily on the central nervous system where it affects brain function, resulting in alterations in perception, mood, consciousness, cognition, and behavior; and

b. Is provided to a patient to address the patient’s behavioral health issue.

~~186.~~187. “Quality management program” means ongoing activities designed and implemented by a health care institution to improve the delivery of medical services, nursing services, health-related services, and ancillary services provided by the health care institution.

~~187.~~188. “Recovery care center” has the same meaning as in A.R.S. § 36-448.51.

~~188.~~189. “Referral” means providing an individual with a list of the class or subclass of health care institution or type of health care professional that may be able to provide the behavioral health services or physical health services that the individual may need and may include the name or names of specific health care institutions or health care professionals.

~~189.~~190. “Registered dietitian” means an individual approved to work as a dietitian by the American Dietetic Association’s Commission on Dietetic Registration.

~~190.~~191. “Registered nurse” has the same meaning as in A.R.S. § 32-1601.

~~191.~~192. “Registered nurse practitioner” has the same meaning as A.R.S. § 32-1601.

~~192.~~193. “Regular basis” means at recurring, fixed, or uniform intervals.

~~193.~~194. “Rehabilitation services” means medical services provided to a patient to restore or to optimize functional capability.

~~194.~~195. “Research” means the use of a human subject in the systematic study, observation, or evaluation of factors related to the prevention, assessment, treatment, or understanding of a medical condition or behavioral health issue.

~~195.~~196. “Resident” means an individual living in and receiving physical health services or behavioral health services, including rehabilitation services or habilitation services if applicable, from a nursing care institution, an intermediate care facility for individuals with intellectual disabilities, a behavioral health residential facility, an assisted living facility, or an adult behavioral health therapeutic home.

~~196.~~197. “Resident’s representative” means the same as “patient’s representative” for a resident.

~~197.~~198. “Respiratory care services” has the same meaning as “practice of respiratory care” as defined in A.R.S. § 32-3501.

~~198.~~199. “Respiratory therapist” has the same meaning as in A.R.S. § 32-3501.

~~199.~~200. “Respite capacity” means the total number of children who do not stay overnight for whom an outpatient treatment center or a behavioral health residential facility is authorized by the Department to provide respite services on the premises of the outpatient treatment center or behavioral health residential facility.

~~200.~~201. “Respite services” means respite care services provided to an individual who is receiving behavioral health services.

~~201.~~202. “Restraint” means any physical or chemical method of restricting a patient’s freedom of movement, physical activity, or access to the patient’s own body.

~~202.~~203. “Risk” means potential for an adverse outcome.

~~203.~~204. “Room” means space contained by a floor, a ceiling, and walls extending from the floor to the ceiling that has at least one door.

~~204.~~205. “Rural general hospital” means a subclass of hospital:

a. Having 50 or fewer inpatient beds,

b. Located more than 20 surface miles from a general hospital or another rural general hospital, and

c. Requesting to be and being licensed as a rural general hospital rather than a general hospital.

~~205.~~206. "Satellite facility" has the same meaning as in A.R.S. § 36-422.

~~206.~~207. "Scope of services" means a list of the behavioral health services or physical health services the governing authority of a health care institution has designated as being available to a patient at the health care institution.

~~207.~~208. "Seclusion" means the involuntary solitary confinement of a patient in a room or an area where the patient is prevented from leaving.

~~208.~~209. "Sedative-hypnotic medication" means any one of several classes of drugs that have sleep-inducing, anti-anxiety, anti-convulsant, and muscle-relaxing properties.

~~209.~~210. "Self-administration of medication" means a patient having access to and control of the patient's medication and may include the patient receiving limited support while taking the medication.

~~210.~~211. "Sexual abuse" means the same as in A.R.S. § 13-1404(A).

~~211.~~212. "Sexual assault" means the same as in A.R.S. § 13-1406(A).

~~212.~~213. "Shift" means the beginning and ending time of a continuous work period established by a health care institution's policies and procedures.

~~213.~~214. "Short-acting opioid antagonist" means an opioid antagonist that, when administered, quickly but for a small period of time reverses, in whole or in part, the pharmacological effects of an opioid in the body.

~~214.~~215. "Signature" means:

a. A handwritten or stamped representation of an individual's name or a symbol intended to represent an individual's name, or

b. An electronic signature.

~~215.~~216. "Significant change" means an observable deterioration or improvement in a patient's physical, cognitive, behavioral, or functional condition that may require an alteration to the physical health services or behavioral health services provided to the patient.

~~216.~~217. "Single group license" means a license that includes authorization to operate health care institutions according to A.R.S. § 36-422(F) or (G).

~~217.~~218. "Speech-language pathologist" means an individual licensed according to A.R.S. Title 36, Chapter 17, Article 4 to engage in the practice of speech-language pathology, as defined in A.R.S. § 36-1901.

~~218.~~219. "Special hospital" means a subclass of hospital that:

a. Is licensed to provide hospital services within a specific branch of medicine; or

b. Limits admission according to age, gender, type of disease, or medical condition.

~~219.~~220. "Student" means an individual attending an educational institution and working under supervision in a health care institution through an arrangement between the health care institution and the educational institution.

~~220.~~221. "Substance abuse" means an individual's misuse of alcohol or other drug or chemical that:

a. Alters the individual's behavior or mental functioning;

b. Has the potential to cause the individual to be psychologically or physiologically dependent on alcohol or other drug or chemical; and

c. Impairs, reduces, or destroys the individual's social or economic functioning.

~~221.~~222. "Substance abuse transitional facility" means a class of health care institution that provides behavioral health services to an individual over 18 years of age who is intoxicated or may have a substance abuse problem.

~~222.~~223. "Substance use disorder" means a condition in which the misuse or dependence on alcohol or a drug results in adverse physical, mental, or social effects on an individual.

~~223.~~224. "Substance use risk" means an individual's unique likelihood for addiction, misuse, diversion, or another adverse consequence resulting from the individual being prescribed or receiving treatment with opioids.

~~224.~~225. “Substantial” when used in connection with a modification means:

a. An addition or removal of an authorized service;

b. The addition or removal of a colocator;

c. A change in a health care institution’s licensed capacity, licensed occupancy, respite capacity, or the number of dialysis stations;

d. A change in the physical plant, including facilities or equipment, that costs more than $300,000; or

e. A change in the building where a health care institution is located that affects compliance with:

i. Applicable physical plant codes and standards incorporated by reference in R9-10-104.01, or

ii. Physical plant requirements in the specific Article in this Chapter applicable to the health care institution.

~~225.~~226. “Substantive review time-frame” means the same as in A.R.S. § 41-1072.

~~226.~~227. “Supportive services” has the same meaning as in A.R.S. § 36-151.

~~227.~~228. “Surgical procedure” means the excision of or incision in a patient’s body for the:

a. Correction of a deformity or defect;

b. Repair of an injury; or

c. Diagnosis, amelioration, or cure of disease.

~~228.~~229. “Swimming pool” has the same meaning as “semipublic swimming pool” in A.A.C. R18-5-201.

~~229.~~230. “System” means interrelated, interacting, or interdependent elements that form a whole.

~~230.~~231. “Tapering” means the gradual reduction in the dosage of a medication administered to a patient, often with the intent of eventually discontinuing the use of the medication for the patient.

~~231.~~232. “Tax ID number” means a numeric identifier that a person uses to report financial information to the United States Internal Revenue Service.

~~232.~~233. “Telemedicine” has the same meaning as in A.R.S. § 36-3601.

~~233.~~234. “Therapeutic diet” means foods or the manner in which food is to be prepared that are ordered for a patient.

~~234.~~235. “Therapist” means an occupational therapist, a physical therapist, a respiratory therapist, or a speech-language pathologist.

~~235.~~236. “Time-out” means providing a patient a voluntary opportunity to regain self-control in a designated area from which the patient is not physically prevented from leaving.

~~236.~~237. “Transfer” means a health care institution discharging a patient and sending the patient to another licensed health care institution as an inpatient or resident without intending that the patient be returned to the sending health care institution.

~~237.~~238. “Transport” means a licensed health care institution:

a. Sending a patient to a receiving licensed health care institution for outpatient services with the intent of the patient returning to the sending licensed health care institution, or

b. Discharging a patient to return to a sending licensed health care institution after the patient received outpatient services from the receiving licensed health care institution.

~~238.~~239. “Treatment” means a procedure or method to cure, improve, or palliate an individual’s medical condition or behavioral health issue.

~~239.~~240. “Treatment plan” means a description of the specific physical health services or behavioral health services that a health care institution anticipates providing to a patient.

~~240.~~241. “Unclassified health care institution” means a health care institution not classified or subclassified in statute or in rule.

~~241.~~242. “Vascular access” means the point on a patient’s body where blood lines are connected for hemodialysis.

~~242.~~243. “Volunteer” means an individual authorized by a health care institution to work for the health care institution on a regular basis without compensation from the health care institution and does not include a medical staff member who has clinical privileges at the health care institution.

~~243.~~244. “Working day” means a Monday, Tuesday, Wednesday, Thursday, or Friday that is not a state and federal holiday or a statewide

furlough day.

H. The Department may charge up to $1,000 per visit for an on-site monitoring inspection fee, as determined by a provider agreement or notice, according to A.R.S. § 36-405(D).

I. If the Department provides in-service training to a health care institution that requests in-service training relating to regulatory compliance outside of the survey process, the Department may charge up to $500 an hour for the in-service training, according to A.R.S. § 36-405(E).

R9-10-111. Enforcement Actions

A. If the Department determines that an applicant or licensee is violating applicable statutes ~~and~~ or rules, the Department may take action according to A.R.S. Title 36, Chapter 4, R9-10-112 or, Table 1.2.~~:~~

~~1. Issue a provisional license to the applicant or licensee under A.R.S. § 36-425,~~

~~2. Assess a civil penalty under A.R.S. § 36-431.01,~~

~~3. Impose an intermediate sanction under A.R.S. § 36-427,~~

~~4. Remove a licensee and appoint another person to continue operation of the health care institution pending further action under A.R.S. § 36-429,~~

~~5. Suspend or revoke a license under A.R.S. § 36-427 and R9-10-112,~~

~~6. Deny a license under A.R.S. § 36-425 and R9-10-112, or~~

~~7. Issue an injunction under A.R.S. § 36-430.~~

~~**B.** In determining which action in subsection (A) is appropriate, the Department shall consider the direct risk to the life, health, or safety of a patient in the health care institution based on:~~

~~1. Repeated violations of statutes or rules,~~

~~2. Pattern of violations,~~

~~3. Types of violation,~~

~~4. Severity of violation, and~~

~~5. Number of violations.~~

B. The Department may impose civil money penalties on a licensed health care institution that violates Title 36 or this Chapter, with penalties assessed per resident or patient impacted by the violation as determined by the Department based on the following factors:

1. The civil penalty may be up to $1,000 per violation, pursuant to A.R.S. § 36-431.01, if one or more of the following aggravating factors apply:
   a. The violation is repeated;
   b. Actual harm occurred;
   c. The violation poses a potential threat for actual harm or to health and safety, including to patients, staff, or residents;
   d. Immediate jeopardy exists due to the type and severity of the violation;
   e. The licensee fails to correct the violation in a reasonable timely manner, which may be a threat to health and safety;
   f. The length of time the violation occurred;
   g. Patterns of noncompliance; or
   h. The total number of violations; and
2. In determining the final penalty, the Department shall consider and reduce the penalty if one or more of the following mitigating factors apply:
   a. The violation was isolated,
   b. No actual harm occurred,
   c. No immediate jeopardy was present,
   d. The facility reported the violation to the Department,
   e. The facility promptly corrected the violation,
   f. The number of persons affected by the violation,
   g. The size of the facility and the financial impact of the penalty, or
   h. The length of time the violation occurred.

R9-10-122. Memory Care Services Training Program Application and Renewal

A. An applicant shall apply for approval to operate a memory care services training program by submitting:

1. An application in a Department-provided format that contains:
    a. The name of the entity;

b. The name, telephone number, and e-mail address of the individual in charge of the proposed memory care services training program;

c. The address where the memory care services training program records are maintained;

d. The address and telephone number of each facility from which training services will be provided;

e. A description of the minimum eight hours of initial memory care services training for staff and contractors, that includes:

i. One of the following:

(1) Dementia care training curriculum from a nationally recognized organization; or

(2) The evidence-based information presented for each of the following required topics, along with any additional relevant topics:

aa. Understanding cognitive impairments and the impact on residents, including the progression of the neurodegenerative disease;

bb. Communication techniques with cognitively impaired residents;

cc. Managing challenging behaviors such as aggression, wandering, and agitation;

dd. Techniques for promoting dignity, comfort, and emotional well-being of residents;

ee. Implementation of individualized service planning for residents receiving memory care services;

ff. Emergency and safety protocols specific to memory care;

gg. Recognizing, preventing, and reporting abuse, neglect, or exploitation;

hh. Activities of daily living specific to residents receiving memory care services;

ii. Palliative care and end-of-life training; and

jj. Medication management and administration; and

ii. In addition to R9-10-122(A)(1)(e)(i):

(1) The amount of time allotted to each topic,

(2) The skills an individual is expected to acquire for each topic, and

(3) The testing method used to verify an individual has acquired the stated skills for each topic;

f. A description of the minimum four hours of annual memory care services training for staff and contractors, including:

i. The evidence-based information presented for each of the following required topics, along with any additional relevant topics:

(1) Managing challenging behaviors such as aggression, wandering, and agitation;

(2) Techniques for promoting dignity, comfort, and emotional well-being of residents;

(3) Recognizing, preventing, reporting abuse, neglect, or exploitation; and

(4) Implementation of individualized service planning for residents receiving memory care services;

ii. The amount of time allotted to each topic;

iii. The skills an individual is expected to acquire for each topic; and

iv. The testing method used to verify an individual has acquired the stated skills for each topic;

g. A description of the minimum four hours of memory care services training for a manager, including:

i. The evidence-based information presented for each of the following required topics:

(1) Development and implementation of individualized service planning for residents receiving memory care services, and

(2) Staffing levels and resource allocation;

ii. Any additional relevant topics, which may include evidence-based information or facility-specific information, such as:

(1) Supervisory skills for leading interdisciplinary teams;

(2) Effective delegation and team-building strategies;

(3) Conflict resolution and managing workplace dynamics;

(4) In-depth understanding of state regulations specific to memory care services;

(5) Monitoring care outcomes and resident satisfaction;

(6) Engaging with families during crises or challenging situations;

(7) Leading meetings and facilitating collaboration among staff;

(8) Advocacy for residents and families;

(9) Coaching and mentoring staff for professional growth;

(10) Staying updated on advancements in dementia care;

(11) Developing emergency protocols;

(12) Cultural competency to ensure inclusivity and sensitivity in care;

(13) Strategies to improve staff retention and job satisfaction;

(14) Supporting mental health and wellness among team members;

(15) Room assignments, operations, and environmental standards; or

(16) Identification and implementation of control measures for infectious diseases;

iii. The amount of time allotted to each topic;

iv. The skills an individual is expected to acquire for each topic; and

v. The testing method used to verify an individual has acquired the stated skills for each topic;

h. Whether the applicant agrees to allow the Department to submit supplemental requests for information as specified in subsection (H)(2); and

i. The signature of the individual in charge of the proposed memory care services training program and the date signed; and

2. A copy of the materials used for providing the memory care services training program.

B. The memory care services training program shall include in-person components and may incorporate online components. The in-person component shall include a demonstration of the individual's skills and knowledge necessary to provide memory care services.

C. The memory care services training program shall review the topics and materials provided in the memory care services training at least once every 12 months to ensure the information is current and evidence-based, and if necessary, update the materials based on the most up-to-date source(s) for evidence-based practice(s).

D. For annual renewal, at least 60 days before the expiration of approval, a memory care services training program shall submit to the Department, in a Department-provided format:

1. The memory care services training program's approval number; and

2. The information in subsection (A).

E. For an application for an approval of a memory care services training program, the administrative review time-frame is 30 calendar days, the substantive review time-frame is 30 calendar days, and the overall time-frame is 60 calendar days.

F. Within 30 calendar days after the receipt of an application in subsection (A), the Department shall:

1. Issue an approval of the applicant's memory care services training program;
2. Provide a notice of administrative completeness to the applicant that submitted the application; or
3. Provide a notice of deficiencies to the applicant that submitted the application, including a list of the information or documents needed to complete the application.

G. If the Department provides a notice of deficiencies to an applicant:
1. The administrative completeness review time-frame and the overall time-frame are suspended from the date of the notice of deficiencies until the date the Department receives the missing information or documents from the applicant;
2. If the applicant does not submit the missing information or documents to the Department within 30 calendar days, the Department shall consider the application withdrawn; and
3. If the applicant submits the missing information or documents to the Department within 30 calendar days, the substantive review time-frame begins on the date the Department receives the missing information or documents.

H. Within the substantive review time-frame, the Department:
1. Shall issue or deny an approval of a memory care services training program; and
2. May make one written comprehensive request for more information, unless the Department and the applicant agree in writing to allow the Department to submit supplemental requests for information.

I. If the Department issues a written comprehensive request or a supplemental request for information:
1. The substantive review time-frame and the overall time-frame are suspended from the date of the written comprehensive request or the supplemental request for information until the date the Department receives the information requested, and
2. The applicant shall submit to the Department the information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information.

J. The Department shall issue:
1. An approval for an applicant to operate a memory care services training program if the Department determines that the applicant and the application comply with A.R.S. § 36-405.03 and this Section, or
2. A denial for an applicant that includes the reason for the denial and the process for appeal of the Department's decision if:
    a. The Department determines that the applicant does not comply with A.R.S. § 36-405.03 and this Section, or
    b. The applicant does not submit information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information.

K. The Department may deny, revoke, or suspend an approval to operate a memory care services training program if a memory care services training program provider or an applicant applying to operate a memory care services training program:
1. Provides false or misleading information to the Department,
2. Does not comply with the applicable statutes and rules,
3. Issues a training certificate of completion to an individual who did not,
    a. Complete the memory care services training program, or
    b. Demonstrate the skills the individual was expected to acquire, or
4. Does not implement the memory care services training program as described in or use the materials submitted with the application.

L. In determining which action in subsection (K) is appropriate, the Department shall consider the following:
1. Repeated violations of statutes or rules,

2. Pattern of non-compliance,

3. Types of violations,

4. Severity of violations, and

5. Number of violations.

R9-10-123. Notification of Change

A. A memory care services training program provider shall notify the Department in writing at least 30 days before the effective date of:

1. Termination of the provision of the memory care services training program, or

2. A change in the:

a. Name under which the memory care services training program provider does business,

b. Address or telephone number of a facility where memory care services trainings are provided,

c. Administrator, or

d. Memory care services training program topics provided, and

B. The Department shall review the notification of change for subsection (A) and:

1. If the information complies with the requirements in this Article, the Department shall approve the change, or

2. If the information does not comply with the requirements in this Article, the Department shall send notification to the memory care services training program provider with reasons for the determination of non-compliance.

C. The Department may conduct an on-site inspection as part of the notification of change process.

D. The memory care services training program provider retains the existing expiration date of the application approval.

R9-10-124. Administration, Monitoring

A. A memory care services training program provider shall designate an administrator who meets the qualifications established by the memory care services training program provider.

B. An applicant or memory care services training program provider shall provide the Department access to records and all areas of a facility according to A.R.S. § 41-1009 within two hours after the Department's request.

R9-10-125. Memory Care Services Trainer Eligibility

A. An individual is eligible to be a memory care services trainer if the individual:

1. Is a registered nurse with:

a. A Certified Dementia Practitioner (CDP) or an equivalent certification, demonstrating knowledge in dementia care best practices and behavioral management;

b. An Alzheimer's Disease and Dementia Care Training (ADCT) certification or an equivalent program recognized by a national or state accrediting body;

c. A Gerontological Nurse Certification (RN-BC) issued by the American Nurses Credentialing Center or an equivalent certification specializing in the care of older adults;

d. An End-of-Life and Palliative Care Certification from a recognized body, emphasizing care for late-stage dementia and end-of-life situations; or

e. Two years of experience providing memory care services; or

2. Has a current memory care services certificate of completion.

B. An individual, who is not a registered nurse, is eligible to become a memory care services trainer,

1. If the individual has a:

a. Bachelor's degree or higher in a relevant field, including but not limited to:

i. Gerontology,

ii. Psychology,

iii. Social Work,

iv. Education, or

v. Nursing-related disciplines; or

b. Minimum of three years of direct experience in memory care, dementia care, or a related field, such as:

i. Providing care for individuals with Alzheimer's disease or other forms of dementia, or

ii. Developing and implementing memory care programs; and

2. Holds one or more of the following certifications:

a. Certified Dementia Practitioner (CDP),

b. Certified Alzheimer's Disease and Dementia Care Trainer (CADDCT),

c. Certified Activity Director (ADC) with a specialization in memory care, or

d. Any equivalent certification recognized by a national accrediting body;

3. Demonstrates experience in adult education or staff training, including:

a. Conducting workshops, seminars, or training sessions in a health care or memory care setting; or

b. Developing training materials specific to memory care;

4. Has completed cultural competency training to ensure inclusivity and sensitivity in care and training approaches;

5. Possesses strong communication skills and the ability to tailor training to diverse audiences, including care staff and family members; or

6. Has a valid certificate of completion issued according to R9-10-126.

C. An individual is ineligible to become a memory care services trainer if the individual has:

1. A history of substantiated allegation(s) of abuse, neglect, or exploitation of vulnerable individual(s); or

2. A record of disciplinary action(s) related to professional misconduct.

R9-10-126. Memory Care Services Certificate of Completion

A. Memory care services training programs, approved by the Department according to R9-10-122, shall provide staff and contractors who complete the training, a certificate of completion that may be used to work at an assisted living facility that is licensed to provide directed care services with the following information:

1. The title of the certificate is clearly stated as, "Certificate of Completion";

2. The name, address, e-mail address, and telephone number of the individual completing the memory care services training;

3. Title of the training program;

4. Name of the training organization or provider;

5. Contact information for the training organization;

6. The date the individual successfully completed the memory care services training;

7. The address where the memory care services training and assessment was held;

8. The name of the memory care services trainer;

9. The number of hours completed;

10. The training topics covered;

11. A statement confirming the trainee's successful completion of the training;

12. Signature of the trainer; and

13. Date of issuance.

B. A memory care services trainer shall ensure that each individual seeking a memory care services certificate of completion has completed comprehensive training, demonstrated understanding of the topics covered in R9-10-122(A), and achieved a passing score of at least 70% on an examination covering the applicable topics.

C. The memory care services training program and an assisted living facility providing memory care services shall maintain a record of the certificate of completion that is kept on file and available with the information specific in subsection (A).

D. A memory care services trainer shall comply with:

1. A.R.S. § 36-405.03, and
2. Applicable requirements in this Article.

E. A Department-approved training program shall issue the certificate of completion to the individual who has successfully completed the training program within 10 calendar days of completion.

F. An assisted living facility may accept a certificate of completion issued under this section if:

1. The certificate is issued by a Department-approved training program; and
2. The certificate holder does not have a lapse of working at an assisted living facility that is licensed to provide directed care services for a period of 12 or more consecutive months, pursuant to A.R.S. § 36-405.03.

G. Before the date of issuance of a memory care services certificate of completion, an individual seeking the certificate shall complete the minimum eight hours of initial memory care services training and complete the minimum four hours of annual continuing education training within the preceding 12 consecutive months and achieve a passing score of at least 70% on an examination covering the memory care services training topics specified in R9-10-122(A).

Table 1.2. Violation Severity and Remedy Matrix

Severity Level	Criteria	Action
Level 1	If the violation is isolated and has no actual physical or psychosocial harm with no potential of physical or psychosocial harm.	Technical Assistance, or Written plan of correction.
Level 2	If the violation is isolated and has no actual physical or psychosocial harm, with potential for minimal physical or psychosocial harm.	Written plan of correction, Provider agreement, or Civil money penalties up to $500.
Level 3	If the violation is isolated and has no actual physical or psychosocial harm, with potential for more than minimal physical or psychosocial harm.	Written plan of correction, Directed plan of correction, Provider agreement, On-site monitoring inspection fee up to $500, or Civil money penalties up to $1,000.
Level 4	The violation resulted in actual physical or psychosocial harm that is not immediate jeopardy; The licensee provided false or misleading information; The licensee fails to correct the violation in a reasonable timely manner, which may be a threat to health and safety; or If the violation is repeated, or if there is a pattern with no actual physical or psychosocial harm, with potential for minimal or more than minimal physical or psychosocial harm.	Written plan of correction, On-site plan of correction, or Provider agreement. On-site monitoring inspection fee up to $750, Civil money penalties, Suspension, Intermediate sanctions, or Revocation.
Level 5	Immediate jeopardy to health and safety.	Directed plan of correction; Provider agreement; On-site monitoring inspection fee up to $1,000; Civil money penalties; Suspension; Intermediate sanctions;

		Revocation; or Other remedies, as applicable, in Title 41, Chapter 6.

ARTICLE 8. ASSISTED LIVING FACILITIES

R9-10-801. Definitions

In addition to the definitions in A.R.S. § 36-401 and R9-10-101, the following definitions apply in this Article, unless the context otherwise requires:

1. "Accept" or "acceptance" No change
   a. No change
   b. No change
2. "Assistant caregiver" No change
3. "Assisted living services" means supervisory care services, personal care services, directed care services, behavioral care, memory care services, or ancillary services provided to a resident by or on behalf of an assisted living facility.
4. "Caregiver" No change
5. "Elopement" means when a resident who is cognitively, physically, mentally, emotionally, or chemically impaired wanders away, walks away, runs away, or otherwise leaves the premises of an assisted living facility authorized to provide directed care services unsupervised or unnoticed, without the knowledge of the licensee's personnel.

~~5.~~6. "Manager" means an individual designated by a governing authority to act on behalf of the governing authority in the ~~onsite~~ on-site management of the assisted living facility.

~~6.~~7. "Medication organizer" means a container that is designed to hold doses of medication and is divided according to date or time increments.

8. "Memory care services" means the same as defined in A.R.S. § 36-405.03(D).

~~7.~~9. "Primary care provider" means a physician, a physician's assistant, or registered nurse practitioner who directs a resident's medical services.

~~8.~~10. "Residency agreement" means a document signed by a resident or the resident's representative and a manager, detailing the terms of residency.

~~9.~~11. "Service plan" means a written description of a resident's need for supervisory care services, personal care services, directed care services, ancillary services, or behavioral health services and the specific assisted living services to be provided to the resident.

~~10.~~12. "Termination of residency" or "terminate residency" means a resident is no longer living in and receiving assisted living services from an assisted living facility.

R9-10-803. Administration

A. A governing authority shall:

1. Consist of one or more individuals responsible for the organization, operation, and administration of an assisted living facility;
2. Establish, in writing, an assisted living facility's scope of services;
3. Designate, in writing, a manager who:
   a. Is 21 years of age or older; and
   b. Except for the manager of an adult foster care home, has either a:
      i. Certificate as an assisted living facility manager issued under A.R.S. § 36-446.04(C), or
      ii. A temporary certificate as an assisted living facility manager issued under A.R.S. § 36-446.06;
4. Adopt a quality management program that complies with R9-10-804;
5. Review and evaluate the effectiveness of the quality management program at least once every 12 months;
6. Designate, in writing, an acting manager who has the qualifications established in subsection (A)(3), if the manager is:
   a. Expected not to be present on the assisted living facility's premises for more than 30 calendar days, or

b. Not present on the assisted living facility's premises for more than 30 calendar days;

7. Except as provided in subsection (A)(6), notify the Department according to A.R.S. § 36-425(I) when there is a change in the manager and identify the name and qualifications of the new manager;

8. Ensure that a manager or caregiver who is able to read, write, understand, and communicate in English is on an assisted living facility's premises; ~~and~~

9. Ensure compliance with A.R.S. § 36-411.~~and~~

10. Ensure the health, safety, or welfare of a resident is not placed at risk of harm.

C. A manager shall ensure that a personnel record for each employee or volunteer:

1. Includes:
    a. The individual's name, date of birth, and contact telephone number;
    b. The individual's starting date of employment or volunteer service and, if applicable, the ending date; and
    c. Documentation of:
        i. The individual's qualifications, including skills and knowledge applicable to the individual's job duties;
        ii. The individual's education and experience applicable to the individual's job duties;

iii. The individual's completed orientation and in-service education required by policies and procedures;

iv. The individual's license or certification, if the individual is required to be licensed or certified in this Article or in policies and procedures;

v. If the individual is a behavioral health technician, clinical oversight required in R9-10-115;

vi. Evidence of freedom from infectious tuberculosis, if required for the individual according to subsection (A)(8);

vii. Cardiopulmonary resuscitation training, if required for the individual in this Article or policies and procedures;

viii First aid training, if required for the individual in this Article or policies and procedures; ~~and~~

ix. Compliance with the requirements in A.R.S. § 36-411(A) and (C); and

x. The certificate of completion, according to R9-10-126;

2. Is maintained:

a. Throughout the individual's period of providing services in or for the assisted living facility, and

b. For at least 24 months after the last date the individual provided services in or for the assisted living facility; and

3. For a manager, a caregiver, or an assistant caregiver who has not provided physical health services or behavioral health services at or for the assisted living facility during the previous 12 months, is provided to the Department within 72 hours after the Department's request.

R9-10-808. Service Plans

A. Except as required in subsection (B), a manager shall ensure that a resident has a ~~written~~ service plan that is established, documented, and implemented that:

1. Is completed no later than 14 calendar days after the resident's date of acceptance;

2. Is developed with assistance and review from:

a. The resident or resident's representative,

b. The manager, and

c. Any individual requested by the resident or the resident's representative;

3. Includes the following:

a. A description of the resident's medical or health problems, including physical, behavioral, cognitive, or functional conditions or impairments;

b. The level of service the resident is expected to receive;

c. The amount, type, and frequency of assisted living services and ancillary services being provided to the resident, including medication administration or assistance in the self-administration of medication;

d. For a resident who requires intermittent nursing services or medication administration, review by a nurse or medical practitioner;

e. For a resident who requires behavioral care:

i. Any of the following that is necessary to provide assistance with the resident's psychosocial interactions to manage the resident's behavior:

(1) The psychosocial interactions or behaviors for which the resident requires assistance,

(2) Psychotropic medications ordered for the resident,

(3) Planned strategies and actions for changing the resident's psychosocial interactions or behaviors, and

(4) Goals for changes in the resident's psychosocial interactions or behaviors; and

ii. Review by a medical practitioner or behavioral health professional; and

f. For a resident who will be storing medication in the resident's bedroom or residential unit, how the medication will be stored and controlled;

4. Is reviewed and updated based on changes in the requirements in subsections (A)(3)(a) through (f):

a. No later than 14 calendar days after a significant change in the resident's physical, cognitive, or functional condition; and

b. As follows:

i. At least once every 12 months for a resident receiving supervisory care services,

ii. At least once every six months for a resident receiving personal care services, and

iii. At least once every three months for a resident receiving directed care services; and

5. When initially developed and when updated, is signed and dated by:

a. The resident or resident's representative;

b. The manager;

c. If a review is required in subsection (A)(3)(d), the nurse or medical practitioner who reviewed the service plan; and

d. If a review is required in subsection (A)(3)(e)(ii), the medical practitioner or behavioral health professional who reviewed the service plan.

C. A manager shall ensure that a resident's medical record contains:

1. Resident information that includes:
    a. The resident's name, and
    b. The resident's date of birth;
2. The names, addresses, and telephone numbers of:
    a. The resident's primary care provider;
    b. Other persons, such as a home health agency or hospice service agency, involved in the care of the resident; and
    c. An individual to be contacted in the event of an emergency, significant change in the resident's condition, or termination of residency;
3. If applicable, the name and contact information of the resident's representative and:
    a. The document signed by the resident consenting for the resident's representative to act on the resident's behalf; or

b. If the resident's representative:

i. Has a health care power of attorney established under A.R.S. § 36-3221 or a mental health care power of attorney executed under A.R.S. § 36-3282, a copy of the health care power of attorney or mental health care power of attorney; or

ii. Is a legal guardian, a copy of the court order establishing guardianship;

4. The date of acceptance and, if applicable, the date of termination of residency;
5. Documentation of the resident's needs required in R9-10-807(B);
6. Documentation of general consent and informed consent, if applicable;
7. Except as allowed in R9-10-808(B)(2), documentation of freedom from infectious tuberculosis as required in R9-10-807(A);
8. A copy of the resident's health care directive, if applicable;
9. The resident's signed residency agreement and any amendments;
10. Resident's service plan and updates;
11. Documentation of assisted living services provided to the resident;
12. A medication order from a medical practitioner for each medication that is administered to the resident or for which the resident receives assistance in the self-administration of the medication;
13. Documentation of medication administered to the resident or for which the resident received assistance in the self-administration of medication that includes:
    a. The date and time of administration or assistance;
    b. The name, strength, dosage, and route of administration;
    c. The name and signature of the individual administering or providing assistance in the self-administration of medication; and
    d. An unexpected reaction the resident has to the medication;
14. Documentation of the resident's refusal of a medication, if applicable;
15. If applicable, documentation of any actions taken to control the resident's sudden, intense, or out-of-control behavior to prevent harm to the resident or another individual;
16. If applicable, documentation of a determination by a medical practitioner that evacuation from the assisted living facility during an evacuation drill would cause harm to the resident;
17. Documentation of notification of the resident of the availability of vaccination for influenza and pneumonia, according to A.R.S. § 36-406(1)(d);
18. Documentation of the resident's orientation to exits from the assisted living facility required in ~~R9-10-818(B)~~ R9-10-819(B);
19. If a resident is receiving behavioral health services other than behavioral care, documentation of the determination in R9-10-813(3);
20. If a resident is receiving behavioral care, documentation of the determination in R9-10-812(3);
21. If applicable, for a resident who is unable to direct self-care, the information required in R9-10-815(F);
22. Documentation of any significant change in a resident's behavior, physical, cognitive, or functional condition and the action taken by a manager or caregiver to address the resident's changing needs;
23. Documentation of the notification required in R9-10-803(G) if the resident is incapable of handling financial affairs; and
24. If the resident no longer resides and receives assisted living services from the assisted living facility:
    a. A written notice of termination of residency; or
    b. If the resident terminated residency, the date the resident terminated residency.

R9-10-815. Directed Care Services

A. No change

B. No change

1. No change
2. No change

C. In addition to the requirements in R9-10-808(A)(3), a manager shall ensure that the service plan for a resident receiving directed care services includes:

1. The requirements in R9-10-814(F)(1) through (3);
2. If applicable, the determination in R9-10-814(B)(2)(b)(iii);
3. Cognitive stimulation and activities to maximize functioning;
4. Strategies to ensure a resident's personal safety;
5. Encouragement to eat meals and snacks;
6. Documentation:
   a. Of the resident's weight, or
   b. From a medical practitioner stating that weighing the resident is contraindicated; ~~and~~
7. Coordination of communications with the resident's representative, family members, and, if applicable, other individuals identified in the resident's service plan~~.~~; and
8. If the resident is receiving memory care services:
   a. Identification of specialized environmental features to support memory care services, such as secure areas to prevent wandering and spaces designed for cognitive stimulation and engagement;
   b. Strategies for providing person-centered care that aligns with the principles of dementia-friendly environments, including familiar surroundings, optimized sensory stimulation, and meaningful activities; and
   c. Strategies for administering medications as ordered.

D. No change

E. No change

1. No change
2. No change

F. A manager of an assisted living facility authorized to provide directed care services shall ensure that:

1. Policies and procedures are established, documented, and implemented that ensure the safety of a resident who may wander;
2. There is a means of exiting the facility for a resident who does not have a key, special knowledge for egress, or the ability to expend increased physical effort that meets one of the following:
   a. Provides access to an outside area that:
      i. Allows the resident to be at least 30 feet away from the facility that is secure, and
      ii. ~~Controls~~ Monitors or alerts employees of the egress of a resident from the facility;
   b. Provides access to an outside area:
      i. From which a resident may exit to a location at least 30 feet away from the facility that is secure, and
      ii. ~~Controls~~ Monitors or alerts employees of the egress of a resident from the facility; or
   c. Uses a mechanism that meets the Special Egress-Control Devices provisions in the International Building Code incorporated by reference in R9-10-104.01; and

3. A caregiver or an assistant caregiver complies with the requirements for incidents in R9-10-804 when a resident who is unable to direct self-care wanders into an area not designated by the governing authority for use by the resident.

~~R9-10-816.~~ **~~Medication Services~~ Repealed**

~~A.~~ ~~A manager shall ensure that:~~

~~1. Policies and procedures for medication services include:~~

~~a. Procedures for preventing, responding to, and reporting a medication error;~~

~~b. Procedures for responding to and reporting an unexpected reaction to a medication;~~

~~c. Procedures to ensure that a resident's medication regimen and method of administration is reviewed by a medical practitioner to ensure the medication regimen meets the resident's needs;~~

~~d. Procedures for:~~

~~i. Documenting, as applicable, medication administration and assistance in the self-administration of medication; and~~

~~ii. Monitoring a resident who self-administers medication;~~

~~e. Procedures for assisting a resident in procuring medication; and~~

~~f. If applicable, procedures for providing medication administration or assistance in the self-administration of medication off the premises; and~~

~~2. If a verbal order for a resident's medication is received from a medical practitioner by the assisted living facility:~~

~~a. The manager or a caregiver takes the verbal order from the medical practitioner,~~

~~b. The verbal order is documented in the resident's medical record, and~~

~~c. A written order verifying the verbal order is obtained from the medical practitioner within 14 calendar days after receiving the verbal order.~~

~~B.~~ ~~If an assisted living facility provides medication administration, a manager shall ensure that:~~

~~1. Medication is stored by the assisted living facility;~~

~~2. Policies and procedures for medication administration:~~

~~a. Are reviewed and approved by a medical practitioner, registered nurse, or pharmacist;~~

~~b. Include a process for documenting an individual, authorized, according to the definition of "administer" in A.R.S. § 32-1901, by a medical practitioner to administer medication under the direction of the medical practitioner;~~

~~c. Ensure that medication is administered to a resident only as prescribed; and~~

~~d. Cover the documentation of a resident's refusal to take prescribed medication in the resident's medical record; and~~

~~3. A medication administered to a resident:~~

~~a. Is administered by an individual under direction of a medical practitioner,~~

~~b. Is administered in compliance with a medication order, and~~

~~c. Is documented in the resident's medical record.~~

~~C.~~ ~~If an assisted living facility provides assistance in the self-administration of medication, a manager shall ensure that:~~

~~1. A resident's medication is stored by the assisted living facility;~~

~~2. The following assistance is provided to a resident:~~

~~a. A reminder when it is time to take the medication;~~

~~b. Opening the medication container or medication organizer for the resident;~~

~~c. Observing the resident while the resident removes the medication from the container or medication organizer;~~

~~d. Except when a resident uses a medication organizer, verifying that the medication is taken as ordered by the resident's medical practitioner by confirming that:~~

~~i. The resident taking the medication is the individual stated on the medication container label,~~

~~ii. The resident is taking the dosage of the medication stated on the medication container label or according to an order from a medical practitioner dated later than the date on the medication container label, and~~

~~iii. The resident is taking the medication at the time stated on the medication container label or according to an order from a medical practitioner dated later than the date on the medication container label;~~

~~e. For a resident using a medication organizer, verifying that the resident is taking the medication in the medication organizer according to the schedule specified on the medical practitioner's order; or~~

~~f. Observing the resident while the resident takes the medication;~~

~~3. Policies and procedures for assistance in the self-administration of medication are reviewed and approved by a medical practitioner or nurse; and~~

~~4. Assistance in the self-administration of medication provided to a resident:~~

~~a. Is in compliance with an order, and~~

~~b. Is documented in the resident's medical record.~~

~~**D.** A manager shall ensure that:~~

~~1. A current drug reference guide is available for use by personnel members, and~~

~~2. A current toxicology reference guide is available for use by personnel members.~~

~~**E.** A manager shall ensure that a resident's medication organizer is only filled by:~~

~~1. The resident;~~

~~2. The resident's representative;~~

~~3. A family member of the resident;~~

~~4. A personnel member of a home health agency or hospice service agency; or~~

~~5. The manager or a caregiver who has been designated and is under the direction of a medical practitioner, according to subsection (B)(2)(b).~~

~~**F.** When medication is stored by an assisted living facility, a manager shall ensure that:~~

~~1. Medication is stored in a separate locked room, closet, cabinet, or self-contained unit used only for medication storage;~~

~~2. Medication is stored according to the instructions on the medication container; and~~

~~3. Policies and procedures are established, documented, and implemented for:~~

~~a. Receiving, storing, inventorying, tracking, dispensing, and discarding medication including expired medication;~~

~~b. Discarding or returning prepackaged and sample medication to the manufacturer if the manufacturer requests the discard or return of the medication;~~

~~c. A medication recall and notification of residents who received recalled medication; and~~

~~d. Storing, inventorying, and dispensing controlled substances.~~

~~**G.** A manager shall ensure that a caregiver immediately reports a medication error or a resident's unexpected reaction to a medication to the medical practitioner who ordered the medication or, if the medical practitioner who ordered the medication is not available, another medical practitioner.~~

~~**H.** If medication is stored by a resident in the resident's bedroom or residential unit, a manager shall ensure that:~~

~~1. The medication is stored according to the resident's service plan; or~~

~~2. If the medication is not being stored according to the resident's service plan, the resident's service plan is updated to include how the medication is being stored by the resident.~~

R9-10-816. Memory Care Services

A. If an assisted living facility is authorized to provide directed care services, a manager shall ensure that:

1. Policies and procedures for memory care services are established, documented, and implemented to cover the following:
    a. Skills and knowledge necessary for the personnel member to provide the expected memory care services;
    b. Interventions used for behavior management;
    c. Systems to accommodate visitors, staff, and residents who do not need controlled egress;
    d. The requirements in R9-10-815(C)(8) regarding the prevention of unsafe wandering or exit seeking, which may include the use of tracking systems;
    e. Promotion of nutrition and hydration care;
    f. Evacuation and emergency procedures specific to residents receiving memory care services, that include the requirements in R9-10-819(A)(5);
    g. Prevention techniques of elopement and responding to elopement incidents promptly and effectively;
    h. Monitoring residents receiving memory care services in outdoor areas on the premises;
    i. Specialized environmental features to support memory care that include:
        i. Secure areas to prevent wandering and spaces designed for cognitive stimulation and engagement; and
        ii. Strategies for providing person-centered care that aligns with the principles of dementia-friendly environments, including familiar surroundings, optimized sensory stimulation, and meaningful activities; and
    j. Specialized accommodations and progressive support for activities of daily living tailored to persons living with dementia following evidence-based best practices;
2. Activities that match the resident's cognitive ability, memory, attention span, language, reasoning ability, and physical function;
3. For a resident who requests or receives memory care services from the assisted living facility, a medical practitioner:
    a. Evaluates the resident within 30 calendar days before acceptance of the resident and at least once every six months throughout the duration of the resident's need for memory care services;
    b. Reviews the assisted living facility's scope of services; and
    c. Signs and dates a determination stating that the resident's needs can be met by the assisted living facility within the assisted living facility's scope of services and, for retention of a resident, are being met by the assisted living facility;
4. There is staffing to ensure adequate supervision and care for residents receiving memory care services;
5. In an assisted living facility where residents are housed in two or more detached buildings, or if a building has distinct and segregated areas, a designated caregiver must be awake and available in each building and each segregated area at all times; and
6. If applicable, staffing is increased to compensate for the evaluated care and service needs of residents at move-in or for the changing physical or cognitive needs of the residents.

B. A manager shall ensure that staff obtain a certificate of completion, as specified in R9-10-126, including the minimum eight hours of initial memory care services training within the first 30 days of hire or provide a copy of a certificate of completion, as specified in R9-10-126, obtained within the preceding 12 months from the date of hire. If a staff member or contractor has not worked at an assisted living facility that is licensed to provide directed care services for a period of 12 months, the staff member or contractor must complete the minimum eight hours of initial memory care services training within 30 days after the date of hire, rehire, or returning to work.

C. In addition to the minimum eight hours of initial memory care services training, a manager shall complete a minimum of four hours of memory care services training specific to assisted living facility managers.

D. Each resident receiving memory care services must have a service plan that meets the requirements specified in R9-10-815(C).

E. Service planning for residents receiving memory care services shall be person-centered involving comprehensive assessments that consider the resident's medical history, preference, and social context, and should actively include input from the resident and the resident's representative. Service planning for residents receiving memory care services shall be individualized, regularly reviewed according to R9-10-808, and adjusted to meet the changing needs of residents as their condition progresses.

F. The assisted living facility shall only admit or retain residents whose cognitive and physical care needs can be safely managed within the area or areas in an assisted living facility where memory care services are provided.

G. An assisted living facility authorized to provide directed care services and is providing memory care services shall incorporate evidence-based specialized environmental features that:

1. Use clear, easy-to-understand signage and visual cues to help residents navigate their surroundings;
2. Reduce environmental factors that may cause confusion or distress, such as loud noises or overly bright lighting;
3. Prevent residents from accessing materials, furnishings, equipment, activities, or treatments that may pose a health or safety risk;
4. Support resident movement and engagement;
5. Promote independence and overall well-being;
6. Ensure easy access and intuitive wayfinding; and
7. Facilitate engagement and encourage participation in meaningful daily tasks and activities.

R9-10-817. Medication Services

A. A manager shall ensure that:

1. Policies and procedures for medication services include:
    a. Procedures for preventing, responding to, and reporting a medication error;
    b. Procedures for responding to and reporting an unexpected reaction to a medication;
    c. Procedures to ensure that a resident's medication regimen and method of administration is reviewed by a medical practitioner to ensure the medication regimen meets the resident's needs;
    d. Procedures for:
        i. Documenting, as applicable, medication administration and assistance in the self-administration of medication; and
        ii. Monitoring a resident who self-administers medication;
    e. Procedures for assisting a resident in procuring medication;
    f. If applicable, procedures for providing medication administration or assistance in the self-administration of medication off the premises; and
    g. Procedures for administering medication to residents receiving memory care services; and
2. If a verbal order for a resident's medication is received from a medical practitioner by the assisted living facility:
    a. The manager or a caregiver takes the verbal order from the medical practitioner,
    b. The verbal order is documented in the resident's medical record, and
    c. A written order verifying the verbal order is obtained from the medical practitioner within 14 calendar days after receiving the verbal order.

B. If an assisted living facility provides medication administration, a manager shall ensure that:

1. Medication is stored by the assisted living facility;
2. Policies and procedures for medication administration:
    a. Are reviewed and approved by a medical practitioner, registered nurse, or pharmacist;

b. Include a process for documenting an individual authorized, according to the definition of "administer" in A.R.S. § 32-1901, by a medical practitioner to administer medication under the direction of the medical practitioner;

c. Ensure that medication is administered to a resident only as prescribed; and

d. Cover the documentation of a resident's refusal to take prescribed medication in the resident's medical record; and

3. A medication administered to a resident:

a. Is administered by an individual under the direction of a medical practitioner,

b. Is administered in compliance with a medication order, and

c. Is documented in the resident's medical record.

C. If an assisted living facility provides assistance in the self-administration of medication, a manager shall ensure that:

1. A resident's medication is stored by the assisted living facility;

2. The following assistance is provided to a resident:

a. A reminder when it is time to take the medication;

b. Opening the medication container or medication organizer for the resident;

c. Observing the resident while the resident removes the medication from the container or medication organizer;

d. Except when a resident uses a medication organizer, verifying that the medication is taken as ordered by the resident's medical practitioner by confirming that:

i. The resident taking the medication is the individual stated on the medication container label,

ii. The resident is taking the dosage of the medication stated on the medication container label or according to an order from a medical practitioner dated later than the date on the medication container label, and

iii. The resident is taking the medication at the time stated on the medication container label or according to an order from a medical practitioner dated later than the date on the medication container label;

e. For a resident using a medication organizer, verifying that the resident is taking the medication in the medication organizer according to the schedule specified on the medical practitioner's order; or

f. Observing the resident while the resident takes the medication;

3. Policies and procedures for assistance in the self-administration of medication are reviewed and approved by a medical practitioner or nurse; and

4. Assistance in the self-administration of medication provided to a resident:

a. Is in compliance with an order, and

b. Is documented in the resident's medical record.

D. A manager shall ensure that:

1. A current drug reference guide is available for use by personnel members, and

2. A current toxicology reference guide is available for use by personnel members.

E. A manager shall ensure that a resident's medication organizer is only filled by:

1. The resident;

2. The resident's representative;

3. A family member of the resident;

4. A personnel member of a home health agency or hospice service agency; or

5. The manager or a caregiver who has been designated and is under the direction of a medical practitioner, according to subsection (B)(2)(b).

F. When medication is stored by an assisted living facility, a manager shall ensure that:

1. Medication is stored in a separate locked room, closet, cabinet, or self-contained unit used only for medication storage;
2. Medication is stored according to the instructions on the medication container; and
3. Policies and procedures are established, documented, and implemented for:
   a. Receiving, storing, inventorying, tracking, dispensing, and discarding medication including expired medication;
   b. Discarding or returning prepackaged and sample medication to the manufacturer if the manufacturer requests the discard or return of the medication;
   c. A medication recall and notification of residents who received recalled medication; and
   d. Storing, inventorying, and dispensing controlled substances.

G. A manager shall ensure that a caregiver immediately reports a medication error or a resident's unexpected reaction to a medication to the medical practitioner who ordered the medication or, if the medical practitioner who ordered the medication is not available, another medical practitioner.

H. If medication is stored by a resident in the resident's bedroom or residential unit, a manager shall ensure that:

1. The medication is stored according to the resident's service plan; or
2. If the medication is not being stored according to the resident's service plan, the resident's service plan is updated to include how the medication is being stored by the resident.

~~R9-10-818.~~ R9-10-819. Emergency and Safety Standards

A. A manager shall ensure that:

1. A disaster plan is developed, documented, maintained in a location accessible to caregivers and assistant caregivers, and, if necessary, implemented that includes:
   a. When, how, and where residents will be relocated;
   b. How a resident's medical record will be available to individuals providing services to the resident during a disaster;
   c. A plan to ensure each resident's medication will be available to administer to the resident during a disaster; and
   d. A plan for obtaining food and water for individuals present in the assisted living facility or the assisted living facility's relocation site during a disaster;
2. The disaster plan required in subsection (A)(1) is reviewed at least once every 12 months;
3. Documentation of the disaster plan review required in subsection (A)(2) includes:
   a. The date and time of the disaster plan review;
   b. The name of each employee or volunteer participating in the disaster plan review;
   c. A critique of the disaster plan review; and
   d. If applicable, recommendations for improvement;
4. A disaster drill for employees is conducted on each shift at least once every three months and documented;
5. An evacuation drill for employees and residents:
   a. Is conducted at least once every six months; and
   b. Includes all individuals on the premises except for:
      i. A resident whose medical record contains documentation that evacuation from the assisted living facility would cause harm to the resident, and
      ii. Sufficient caregivers to ensure the health and safety of residents not evacuated according to subsection (A)(5)(b)(i);
6. Documentation of each evacuation drill is created, is maintained for at least 12 months after the date of the evacuation drill, and includes:
   a. The date and time of the evacuation drill;
   b. The amount of time taken for employees and residents to evacuate the assisted living facility;
   c. If applicable:

i. An identification of residents needing assistance for evacuation, and

ii. An identification of residents who were not evacuated;

d. Any problems encountered in conducting the evacuation drill; and

e. Recommendations for improvement, if applicable; and

7. If the assisted living facility is authorized to provide directed care services, an elopement drill for employees:

a. Conduct an elopement drill every six months on each shift and document the date, time, and description of each drill; and

b. Immediately investigate any elopement and notify the designated family member(s), legal guardian, or other responsible person within 24 hours.

~~7.~~8. An evacuation path is conspicuously posted in each hallway of each floor of the assisted living facility.

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES -
HEALTH CARE INSTITUTIONS: LICENSING
ARTICLE 1. GENERAL and
ARTICLE 8. ASSISTED LIVING FACILITIES

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

March 2025

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT
TITLE 9. HEALTH SERVICES
CHAPTER 10. DEPARTMENT OF HEALTH SERVICES -
HEALTH CARE INSTITUTIONS: LICENSING
ARTICLE 1. GENERAL,
ARTICLE 8. ASSISTED LIVING FACILITIES

1. An identification of the rulemaking

Arizona Revised Statutes (A.R.S.) § 36-132(A)(1) and (17) requires the Arizona Department of Health Services (Department) to protect the health of the people in Arizona, and license and regulate health care institutions. In order to ensure public health, safety, and welfare, A.R.S. §§ 36-405 and 36-406 requires the Department to adopt rules establishing minimum standards and requirements for the construction, modification, and licensure of health care institutions. The Department has adopted rules to implement these statutes in Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. The Department plans to amend the rules in 9 A.A.C. 10, Articles 1 and 8, to comply with new statutory changes imposed by Laws 2024, Chapter 100, which requires the new rules to take effect by June 30, 2025. These rules will establish memory care services standards in assisted living facilities, requiring eight hours of initial training and four hours of annual continuing education for staff and contractors, as well as specific training for managers. Rehired staff and contractors after a 12-month gap from working at an assisted living facility licensed to provide directed care services must complete the initial training within 30 days after the date of hire, rehire or returning to work. On-site monitoring inspections, in-service training requests, and associated fees will be formalized. Additionally, civil penalties will increase up to $1,000 per resident or patient impacted, per day, and take other considerations into account (i.e. repeats, etc.). The Department may pursue court, administrative, or enforcement action against a licensee, even if the health care institution is in the process of being sold or transferred or has closed. Health care institutions failing to pay penalties may have their licenses voided, and applications may be denied if resident or patient safety is at risk. After receiving rulemaking approval pursuant to A.R.S. § 41-1039, the Department plans to conduct a rulemaking to adhere to the statutory changes identified above. The Department anticipates that the rules may increase the regulatory burden or cost on some affected persons. However, the Department believes that the benefits of the rules will far outweigh any potential cost due to increasing the health and safety for residents or patients. Any proposed changes will conform to the rulemaking format and style requirements of the Governor's Regulatory Review Council (GRRC) and the Office of the Secretary of State.

2. Cost/Benefit Analysis

This analysis covers the costs and benefits associated with the rule changes related to implementing Laws 2024, Chapter 100. The annual cost and revenue changes are designated as minimal when $1,000 or less, moderate when between $1,000 and $10,000, and substantial when $10,000 or greater in additional costs or revenues. Costs are listed as significant when meaningful or important, but not readily subject to quantification.

3. Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the rules

a. The Department
b. Assisted living facilities
c. Training providers
d. Health care institutions
e. Patients, residents, and their families
f. The general public

A. The Department

The proposed rule changes in Arizona Administrative Code Title 9. Chapter 10. Health Care Institutions: Licensing, in compliance with Laws 2024, Chapter 100 aims to strengthen oversight, enhance compliance, and improve enforcement mechanisms within health care institutions. The new legislation gives the Department authority to conduct on-site monitoring inspections for health care institutions with repeated violations and impose associated fees. Additionally, the rules clarify conditions under which a health care institution's license may be voided for unpaid penalties or fees. Enhanced enforcement actions focus on assessing risks to patient and resident safety, imposing civil moneypenalties based on the severity and impact of violations. These measures seek to ensure higher standards of care and accountability across all health care institutions. Enforcement efforts will focus on assessing risks to patient and resident safety and applying civil penalties based on the severity and impact of violations. In this rulemaking, the Department is amending 12 Sections, adding seven new Sections and one Table, repealing one section, and renumbering four Sections. The Department expects that the new rules providing clarity on enforcement actions may reduce the need for frequent enforcement actions and improve compliance across the industry.

Financially, the introduction of fees for on-site monitoring inspections and in-service training creates a revenue stream to offset regulatory costs. Health care institutions may be charged up to $1,000 per monitoring inspection, allowing flexibility based on facility size and needs, and up to $500 per hour for training, encouraging voluntary compliance efforts. Based on estimates, if 1% of health care institutions with complaints in FY23–24 required for each on-site monitoring inspection, this would generate approximately $22,500 for the Division of Public Health Licensing Services and $2,500 for the state general fund. A more substantial fiscal

impact comes from Laws 2024, Chapter 100, which raises the cap on civil penalties from $500 to $1,000, with all fines deposited into the state general fund. In FY24, the Department collected approximately $1.7 million in civil penalties; with a projected 75% increase, the total amount collected could exceed $3 million annually.

The proposed rules are expected to expand the Department's monitoring and enforcement responsibilities. While the Department already employs existing enforcement measures, explicitly outlining these requirements in the rules is anticipated to enhance compliance among health care institutions. This may, in turn, reduce the need for frequent on-site monitoring inspections and enforcement actions. As a result, the Department expects to concentrate on-site monitoring inspections on facilities with significant or repeated violations, those under corrective action plans, or those posing direct risks to patient and resident health and safety.

By strengthening regulatory clarity, the new rules are likely to improve patient and resident safety and care quality, ultimately reducing the occurrence of serious health and safety violations. Over time, this could lead to fewer severe enforcement actions, such as license revocations or facility closures. However, during the initial implementation phase, enforcement actions may temporarily increase as facilities adjust to the new standards. Overall, the Department anticipates a moderate to substantial impact on its administrative and operational workload.

The introduction of fees for on-site monitoring inspections and in-service training provides the Department with a new revenue stream. Charging up to $1,000 for on-site monitoring inspections, according to A.R.S. § 36-405(D), and up to $500 an hour for the in-service training, according to A.R.S. § 36-405(E), which is expected to offset costs associated with increased regulatory activities. The maximum of $1,000 for on-site monitoring inspections will allow discretion in team size needed for different facility sizes and types. This financial model not only supports enforcement efforts but also incentivizes compliance and voluntary training requests from health care institutions. The expected financial impact on the Department from this revenue generation ranges from minimal to moderate, depending on the number of health care institutions subject to these fees and program implementation.

Laws 2024, Chapter 100 increases the cap on civil penalties assessed for violations of health care institution statutes from $500 to $1000, with all civil penalties deposited into the state general fund. With the cap on civil penalties, an increase in the amount of fines going back to the state general fund is expected. In FY 2024, the Licensing Division collected approximately $1.7M in civil penalties, which all went back to the state general fund. With an estimated increase of 75% in the amount of civil penalties collected, that would push the total amount collected to over $3M per year for the state general fund.

Additionally, Laws 2024, Chapter 100 requires the Department to establish rules for a memory care services training program to oversee the approval of training providers and ensure compliance with standards outlined in

R9-10-122 through R9-10-126. This oversight may result in some fiscal impact on the state general fund, as 10% of licensing fees are distributed to it. However, establishing clear training standards is expected to improve the quality of memory care services across the state. The new rules for memory care services may also increase the Department's administrative responsibilities, requiring more detailed application reviews, thorough inspections, and enhanced compliance monitoring. The Department will need to verify staff and contractor training records, review elopement drill documentation, and assess safety measures, which may require additional resources, such as time and specialized training for compliance inspectors.

The addition of new memory care services rules for assisted living facilities authorized to provide directed care services may have several effects on the Department. For example, the new memory care services rules may increase the number of inspections needed to verify compliance with the rules and statutes. This includes reviewing staff and contractor training records, monitoring elopement drill documentation, and assessing the implementation of safety measures. As a result, the Department may need to allocate additional resources, such as staff time and expertise, to manage the increased workload. While the operational cost impact is expected to be minimal, more frequent inspections and specialized training for compliance officers may be necessary. Additionally, the Department will need to establish and maintain systems for tracking compliance, including overseeing approved training programs and monitoring the implementation of new memory care services.

The proposed changes and new rules aim to enhance compliance and improve patient and resident safety by holding health care institutions accountable for violations. Stricter monitoring and penalties for high-risk facilities align with the Department's mission to protect health and safety. However, while these changes are expected to have a significant impact on the Department's ability to improve health outcomes, they may also introduce operational challenges. To adapt effectively, the Department may need additional resources for staff and contractor training, updating procedures, creating guidance documents, and potentially acquiring new technology or system software. This will also include managing an increased volume of training program applications.

Overall, while the financial impact on the Department is anticipated to be minimal to moderate, the benefits of clearly defined enforcement measures, the establishment of memory care service standards, and improved public health outcomes are expected to be significant.

B. Assisted Living Facilities

The rules in 9 A.A.C. 10, Article 8, were promulgated to comply with Laws 2011, Chapter 96 that required the Department to adopt rules for health care institutions to reduce monetary or regulatory costs on a person or individuals and facilitate licensing of "integrated health programs that provide both behavioral and physical health services." A.R.S. § 36-401(8) defines an "assisted living facility" as a residential care institution,

including an adult foster care home, that provides or contracts to provide supervisory care services, personal care services, or directed care services continuously. A.R.S. § 36-405.03 establishes memory care services standards for assisted living facilities that are licensed to provide directed care services. The statute further defines memory care services as services that support individuals with dementia and other progressive and neurodegenerative brain disorders, including specialized environmental features, care planning, directed care services, medication administration services, specialized accommodations, activity programming or other services required by rule.

As of January 2025, the Department reported 2,046 licensed assisted living facilities operating in the state. In the 2024 calendar year, 345 assisted living facilities elected to close, 348 initial applications were approved, 14 initial applications were denied, and 99 licenses were amended. The Department completed 1,870 compliance surveys and 933 complaint investigation surveys. The Department also completed 651 enforcement actions, and as a result of the enforcement actions, the Department assessed $720,115 for civil penalties and revoked seven licenses.

The proposed rule for memory care services in assisted living facilities is expected to have a moderate economic impact on assisted living facilities licensed to provide directed care services. By establishing clear requirements for staffing, training, service planning, and environmental adaptations, the rules outlined in R9-10-816 aim to enhance the quality of care for residents receiving memory care services, while improving compliance and reducing enforcement actions. Staff and contractors must complete eight hours of specialized memory care training within 30 days of hire and at least four hours of annual continuing education. An assisted living facility authorized to provide directed care services and providing memory care services is required to incorporate evidence-based specialized environmental features that enhance navigation through clear signage and visual cues, minimize distressing environmental factors, prevent access to hazardous materials, support movement and engagement, promote independence and well-being, ensure intuitive wayfinding, and encourage participation in meaningful daily activities. Additionally, each resident must have a service plan tailored to their cognitive and physical needs, with regular evaluations by medical practitioners. These changes aim to ensure that residents receive safe, personalized care in a secure and supportive environment. Assisted living facilities wanting to provide memory care services may incur minimal costs related to additional training, staffing adjustments, and environmental modifications necessary to meet the new standards. However, these requirements are expected to improve operational efficiency, reduce liability risks, and enhance resident safety, potentially lowering long-term costs associated with non-compliance and enforcement actions. Furthermore, expanding the rules to allow assisted living facilities licensed to provide directed care services to also provide memory care services may provide a significant benefit to assisted living facilities for expanding their scope of care.

In this rulemaking, the Department is also requiring regular elopement drills in R9-10-819. The proposed rule may have a minimal economic impact on assisted living facilities authorized to provide directed care services by requiring them to conduct elopement drills every six months on each shift, document each drill, and investigate any elopement incidents. While these requirements may result in additional administrative tasks and staff and contractor time, the associated costs are expected to be minimal and offset by the benefits of improved resident safety and emergency preparedness. Prompt investigation and notification of elopements ensure timely responses, potentially reducing liability risks and enhancing the quality of care provided to residents.

The introduction of new memory care service rules for assisted living facilities approved to provide directed care services in Article 8, may have significant effects on health care providers who work at an assisted living facility. Economically, providers may incur minimal costs associated with compliance, including expenses for staff and contractor training, infrastructure upgrades, and ongoing regulatory adherence. The mandatory minimum of eight hours of initial training and minimum of four hours of annual training for direct care staff and contractors, and annual continuing education will require investments in both time and resources. Additionally, facilities will need to implement systems such as tracking technologies and environmental modifications, which may involve substantial upfront and maintenance costs.

From an operational perspective, assisted living facilities will need to develop or update policies and procedures tailored to memory care services, including protocols for behavior management, elopement prevention, and emergency response. These changes will require time and effort to implement effectively, potentially diverting resources from other areas of operation. Assisted living facilities may also need to hire additional staff or reallocate existing personnel to meet the new staffing and supervision requirements. Despite these challenges, the new rules are expected to enhance the quality of care and safety for residents with cognitive impairments. By standardizing training and care practices, providers will be better equipped to manage the complex needs of memory care service residents, reducing risks such as unsafe wandering, elopement, and neglect. Improved care standards could enhance the reputation of facilities, making them more attractive to families seeking high-quality care.

While the new rules aim to improve health outcomes and resident safety, the new rules are expected to impose moderate to substantial financial and operational burdens on assisted living facilities, depending on the facility size and resources. The overall economic impact of the rulemaking on assisted living facilities is expected to be minimal-to-moderate. The new memory care services requirements aim to improve public health and safety while enhancing regulatory efficiency with limited financial burden. The Department anticipates that these rules will strengthen resident safety and care quality, ultimately benefiting assisted living facilities that offer memory care services.

C. Training Providers

In Article 1, the Department is adding five new Sections related to the new memory care services training program. Any entity may provide the newly established training program for memory care services. R9-10-122 outlines the requirements for memory care services training providers seeking to provide memory care services training as required by A.R.S. § 36-405.03. These programs must apply with the Department for approval by submitting a detailed application that includes the name and contact information of the agency, the addresses where training services and records are maintained, and a description of the training course. The course must cover mandatory topics such as understanding cognitive impairments, communication techniques, managing challenging behaviors, emergency protocols, and palliative care. Each topic must include information on the skills to be acquired, time allocation, and testing methods. The memory care services training program provider must also agree to comply with Department requests for additional information and submit all training materials with the application. To maintain approval, the memory care services training program provider must renew annually by submitting updated information at least 60 days before the current approval expires. The Department has specified timelines for processing applications, including a 30-day administrative review, a 30-day substantive review, and a total processing time of 60 days. If deficiencies are identified during the review process, the memory care services training program provider must resolve them within 30 days, or the application will be considered withdrawn. The Department can deny, revoke, or suspend approval for non-compliance, submission of false information, or failure to implement the program as described. Factors such as repeated violations, patterns of non-compliance, and the severity of infractions are considered when determining enforcement actions.

Depending on the memory care services training program provider's costs for training, there may be an increase in revenue for providing an increased number of trainings. Compliance with the new rules may require additional resources, but it also creates opportunities for agencies to expand the training they offer and establish credibility in the growing field of memory care services. R9-10-123 and R9-10-124 establish requirements for memory care services training program providers to ensure transparency and compliance. Memory care services training program provider must notify the Department of significant changes—such as termination of services, changes in business name, contact information, administrator, or training topics—at least 30 days prior to the effective date. Notifications involving new training topics are subject to Department review for compliance, and onsite inspections may occur as part of the process. Additionally, providers must designate a qualified administrator and grant the Department timely access to facilities, records, and clients upon request. These rules

may impose minimal administrative costs on providers to comply with notification and access requirements, but they also enhance operational integrity and oversight, ensuring high standards in memory care services training.

R9-10-125 defines the eligibility criteria for individuals seeking to become a memory care services trainer, emphasizing qualifications, experience, and integrity. An individual who is not a registered nurse may become a memory care services trainer if they meet specific education, experience, and certification requirements. Eligibility includes holding a bachelor's degree or higher in a relevant field such as gerontology, psychology, social work, education, or nursing-related disciplines, or having at least three years of direct experience in memory or dementia care. They must also hold a recognized certification, such as Certified Dementia Practitioner (CDP) or Certified Alzheimer's Disease and Dementia Care Trainer (CADDCT). Additionally, candidates should have experience in adult education or staff and contractor training, complete cultural competency training, and demonstrate strong communication skills to effectively train care staff and contractors. Alternatively, eligibility can be met by possessing a valid certificate of completion issued under R9-10-126.

R9-10-126 establishes requirements for issuing and maintaining memory care services certificates of completion for individuals who complete Department-approved training programs under R9-10-122. These certificates, required for work in assisted living facilities licensed to provide directed care services, must include detailed information such as the trainee's name, program details, training topics, hours completed, and confirmation of successful training with a minimum passing score of 70%. Certificates must be issued within 10 days of training completion and are subject to annual renewal, requiring four hours of continuing education and a passing score on an exam. Providers and facilities must maintain records of certificates, ensuring compliance with training standards. These regulations impose administrative responsibilities on training providers and facilities but enhance workforce quality and consistency in memory care services, potentially increasing costs for compliance while ensuring higher standards of care.

Overall, the economic impact of these regulatory changes is expected to be minimal to moderate, with both costs and benefits for memory care services training providers (agencies). While agencies providing memory care services training may face administrative costs related to compliance, reporting, and maintaining approval, they also have the potential to generate additional revenue by offering training programs in a growing field. Assisted living facilities may incur costs associated with staff and contractor training and compliance with certification requirements, but these expenses are offset by improved care quality, reduced enforcement risks, and enhanced operational efficiency. The Department expects that the new rules will provide a significant benefit by establishing clear standards for training providers and trainers. Furthermore, the new rules are expected to provide consistency, transparency, and accountability, ultimately strengthening the workforce and raising the standard of memory care services. Although there are some initial costs for implementation, the long-term

benefits of improved resident care, increased regulatory oversight, and enhanced credibility in the industry are expected to outweigh the financial burdens, contributing to a more sustainable and effective memory care service system in Arizona.

D. Health Care Institutions

The proposed rule changes are expected to have a minimal-to-moderate impact on health care institutions, particularly those with a history of noncompliance. However, the Department currently has the authority to take enforcement action on health care institutions not in compliance with the rules and statutes (i.e. A.R.S. Title 36, Chapter 4). Laws 2024, Chapter 100 mandates that these standards be outlined in the A.A.C. Title 9, Chapter 10 rules. Health care institutions cited for significant deficiencies or repeated violations may be subject to on-site monitoring by the Department. This not only increases the regulatory burden but also adds financial costs, as facilities may be charged up to $1,000 for monitoring inspections. For health care institutions with limited resources, these additional costs could strain budgets, especially if recurring violations necessitate multiple inspections. However, if health care institutions operate in compliance with the rules, the impact of the new rules related to enforcement would be none-to-minimal.

In R9-10-102(E), the Department may conduct on-site monitoring inspections of health care institutions that are found to not be in substantial compliance with the applicable licensure requirements specified in this Chapter, as outlined in Table 1.2. R9-10-106(H) creates requirements for on-site monitoring inspection fees, as authorized by A.R.S. § 36-405(D). The new rules clarify the Department's authority to charge up to $1,000 per visit for on-site monitoring inspections. The fee structure is based on a provider agreement or notice, which allows for flexibility to adjust the fee based on the size and type of the facility, which impacts the resources needed for the inspection. While this creates a financial burden on health care institutions, the Department expects that the new rules providing clarity on enforcement actions may reduce the need for frequent enforcement actions and improve compliance across the industry. The Department estimates that these changes may cost health care institutions moderate costs if they operate out of compliance with the rules, however having clearer rules that support the health and safety of patients and residents is expected to provide significant benefits.

R9-10-111(B) outlines the enforcement rules, giving the Department authority to impose civil penalties on licensed health care institutions that violate A.R.S. Title 36 or this Chapter. The penalties are assessed per patient or resident impacted by the violation and can be up to $1,000 per violation. The Department determines the amount of the penalty based on aggravating factors, such as repeated violations or if actual harm occurred, and mitigating factors, such as if the violation was isolated or if no harm occurred. For health care institutions out of compliance with the rules and statutes, there may be minimal-to-substantial costs incurred. The purpose

of the civil penalties is to enforce compliance with A.R.S. Title 36 and this Chapter, and therefore, protect the health and safety of patients and residents in licensed health care institutions.

The new changes in R9-10-106(I) incorporate the requirements in A.R.S. § 36-405(E), allowing the Department to charge up to $500 per hour for in-service training, if requested by the health care institution, on regulatory compliance provided to health care institutions. The purpose of this training is to help health care institutions comply with the rules and regulations, and protect the health and safety of patients and residents. and eliminate future enforcement. For health care institutions wanting in-service training, this may create minimal costs, however, the investment in regulatory compliance training could lead to long-term cost savings by reducing the risk of non-compliance penalties and improving operational efficiency. Additionally, the high hourly rate could incentivize health care institutions to be more selective and strategic in their training requests, potentially leading to more focused and effective regulatory compliance efforts across the industry.

In Table 1.2. Violation Severity and Remedy Matrix, the table clarifies and outlines enforcement actions based on the severity of the violation. Level 1 violations, which are isolated with no actual or potential harm, result in technical assistance or a written plan of correction. Level 2 violations, which are isolated with no actual harm but potential for minimal harm, may result in a written plan of correction, provider agreement, or civil penalties up to $500. A Level 3 violation is an isolated incident with no actual harm but has the potential for more than minimal physical or psychosocial harm, requiring corrective action such as a written or directed plan of correction, provider agreement, on-site monitoring fee of up to $500, or civil penalties of up to $1,000. Level 4 violations, may include a violation resulting in actual physical or psychosocial harm that is not immediate jeopardy; the licensee provided false information; the licensee is unresponsive; or repeated violations, may result in a written plan of correction, an on-site plan of correction, provider agreement, on-site monitoring inspection fee of up to $750, civil penalties, suspension, intermediate sanctions, or revocation. A Level 5 violation poses immediate jeopardy to health and safety, requiring serious enforcement actions such as a directed plan of correction, provider agreement, on-site monitoring inspection fee up to $1,000, civil penalties, suspension, intermediate sanctions, revocation, or other remedies under Title 41, Chapter 6. The Department expects that health care institutions will receive a significant benefit for having a model in the rule that clearly describes the enforcement actions that may be taken depending on the violation.

Overall, the financial impact on health care institutions will vary depending on their size, compliance, and capacity to address regulatory requirements. While these changes aim to improve patient and resident safety and care standards, the new rules may impose minimal costs for health institutions with full compliance, moderate costs for those needing occasional corrections, and substantial costs for facilities with persistent or severe

violations. However, the potential for significant financial strain is expected to be minimal since health care institutions should comply with the rules in A.A.C. Title 9, Chapter 10, and applicable statutes.

E. Patients, Residents, and their Families

For patients, residents, and their families, the new rules in Article 1, which outline enforcement standards and offer on-site monitoring and in-service training are estimated to provide a significant benefit by clarifying the enforcement standards which are intended to help health care institutions comply with the rules in A.A.C.Title 9, Chapter 10 and applicable statutes. Stricter monitoring and enforcement are expected to help ensure that health care institutions minimize deficiencies, reducing risks to patient and resident health and safety. By targeting institutions with significant or repeated violations, the changes aim to create a safer environment for vulnerable populations including the elderly, disabled, or chronically ill. Patients, residents, and their families can also benefit from increased transparency and accountability. The potential for higher fines and penalties incentivizes institutions to maintain compliance and address issues proactively. This could lead to fewer incidents of neglect, abuse, or other serious violations that compromise patient well-being. Knowing that regulatory oversight has been strengthened may provide families with greater peace of mind when selecting a care facility for their loved ones. However, there could be some unintended consequences for patients, residents, and families, particularly if the financial burden on health care institutions results in higher costs for services. Facilities facing substantial fines or additional compliance-related expenses might pass these costs on to patients, residents, and families through increased fees or reduced services. This could create affordability challenges, especially for patients, residents and families with limited financial resources. Facilities that prioritize compliance and invest in improvements will likely create a safer and more supportive environment. The proposed rules are expected to have a positive impact on residents, patients, and their families by improving the overall safety and quality of care in health care institutions.

The implementation of new rules for memory care services for assisted living facilities licensed to provide directed care services under A.A.C. Title 9, Chapter 10, Article 8, is expected to have a significant benefit for residents and their families. These regulations are designed to expand the options for health care, and to enhance the quality and safety of care for individuals with cognitive impairments. Residents may benefit from more personalized and comprehensive care, as facilities will be required to develop individualized service plans, implement behavior management strategies, and ensure regular medical evaluations for residents receiving memory care services. The introduction of initial and annual memory care services training for staff and contractors will also improve their ability to address residents' unique needs, fostering a safer and more supportive environment. For families, these changes provide greater assurance that their loved ones are receiving high-quality care in a secure setting. The emphasis on preventing elopement, managing challenging behaviors, and creating a calming environment can alleviate some of the anxiety families often experience when

placing a loved one in memory care services. Clearer communication, consistent care practices, and improved safety measures may increase families' trust in the facility and reduce concerns about their loved one's well-being.

Overall, the Department expects the economic impact of the new rules on patients, residents, and their families are expected to be none-to-minimal and are expected to receive a significant benefit from having clearer enforcement rules for health care institutions and having new memory care service rules. The benefits of the rulemaking are expected to outweigh any possible incurred costs due to increased health and safety.

F. The General Public

The proposed rule changes are expected to have a positive impact on the general public by enhancing the safety and quality of care provided in health care institutions. Stricter oversight and enforcement measures outlined in Article 1 are expected to reduce the occurrence of serious health and safety violations and improve trust in the health care system. The general public benefits when health care institutions are held accountable for maintaining high standards of care, as this ensures safer environments not only for current residents and patients but also for potential future patients and residents of these facilities. With more robust penalties and clear enforcement mechanisms in place, the public may feel reassured that regulatory authorities are actively working to protect patient and resident welfare and address issues in a timely manner. This could enhance the overall perception of health care institutions as being more reliable and committed to compliance.

The new rules for memory care services are expected to provide a significant impact to the general public by expanding the option of care for directed care services to offer memory care services and have clear rules and standards for offering those services with well trained staff and contractors who are qualified to work in that capacity. These regulations aim to reduce risks such as elopement and neglect, thereby fostering safer communities. The Department expects that the general public will receive a significant benefit from the new rules.

4. A statement of the probable impact of the rules on small businesses

The Department anticipates that small businesses may incur up to moderate costs due to increased compliance requirements. Small businesses that are health care institutions are required to comply with the requirements in this Chapter, if there are substantial and repeated violations, that small business may incur moderate costs for the violations. However, if the small business complies with the rules, none-to-minimal costs are expected to be incurred. The potential for on-site monitoring and in-service training could impose minimal costs and financial burdens on small businesses.

Furthermore, small businesses that are training program providers may receive additional revenues by providing trainings for memory care services. Small businesses that are assisted living facilities and are licensed to provide directed care services may also receive an increase in revenue by adding memory care services to their operations. To comply with the new rules, there may be minimal-to-moderate operational costs associated with providing the additional memory care services and training, however, the Department estimates that the associated costs will outweigh the benefits of the rules due to the increased health and safety and possible additional revenue these small businesses may receive. It's worth noting that the initial investment in training and service expansion may lead to long-term cost efficiencies through improved care practices and potentially reduced liability risks. Additionally, by raising the standard of care across the industry, these rules may contribute to an overall improvement in the reputation and trustworthiness of assisted living facilities, particularly those offering specialized memory care services.

The regulatory changes are expected to have a moderate to substantial impact on small health care businesses, varying based on their compliance levels and enforcement frequency. While initial implementation may incur costs, the Department anticipates significant long-term benefits. These include enhanced care quality, improved safety, and better regulatory compliance, which can lead to operational efficiencies and reduced liability risks. Although there may be up-front challenges, the long-term advantages of improved health care and regulatory adherence are expected to outweigh the costs, providing a significant benefit to small health care businesses.

a. Identification of the small businesses subject to the rules

Small businesses subject to the rules may include assisted living facilities and other small health care institutions that are privately owned.

b. The administrative and other costs required for compliance with the rules

A summary of the administrative effects of the rulemaking is given in the cost and benefit analysis in Section 2.

c. A description of the methods that the agency may use to reduce the impact on small businesses

The Department knows of no other methods to further reduce the impact on small businesses.

d. The probable costs and benefits to private persons and consumers who are directly affected by the rules

A summary of the effects of the rulemaking on private persons and consumers is given in the cost and benefit analysis in Section 2.

5. A statement of the probable effect on state revenues

The rulemaking is expected to have an effect on state revenues. Enhanced enforcement measures, including increased on-site monitoring inspection fees and higher caps on civil penalties, are expected to generate additional revenue for both the Department and the state general fund. Licensing fees and monitoring charges could provide up to $22,500 annually for the Licensing Division and $2,500 for the state general fund while doubling the civil penalties cap could increase general fund contributions by approximately $1.3M per year. These changes offset some costs associated with expanded monitoring and enforcement but require significant resource allocation and operational scaling to maintain compliance and protect public health effectively.

6 A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking

The Department has determined that there are no less intrusive or less costly alternatives for achieving the purpose of the rulemaking.

7. A description of any data on which the rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data

Not applicable.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Dear ADHS:

My 72-year old wife Connie developed symptoms of dementia seven years ago. She was subsequently diagnosed with Alzheimer's disease and is currently in treatment. The Alzheimer's Association has provided important guidance to us as we try to navigate the medical and personal challenges of her condition. Our daily lives are filled with more questions than answers as to what is and will be happening to her, and she is still at home with me. The thought of her in a memory care unit alarms me. We need all of the help we can get to ensure she receives the best possible care.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. Dear ADHS:

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

As someone who has two family members in Memory Care, I am happy to see these rules which will greatly improve care. In particular, my husband is in an ALTCS facility with Early Onset Alzheimer's. While he does have dementia, he was a trained engineer and computer scientist: parts of his brain still function at this educated level and need to be engaged. As well, he is relatively young and needs both more physical activity.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Dear ADHS:

Alzheimer's Disease has impacted several of my family members and friends.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions to improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents' needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Thank you for improving the state's enforcement matrix for infractions related to healthcare facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed regulations will ensure the safety of residents and improve the quality of care for people living with dementia.

Dear ADHS:

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

I am a retired Occupational Therapist and retired Certified Case Manager. I have professional and personal experience with dementia, brain injury, various neurological and orthopedic diagnoses and multiple levels of care including Assisted Living. My mother had Alzheimer's Disease and was eventually placed in a memory care unit at an ALF in Chandler, AZ. I had many distressing experiences and quickly learned how limited the supervision, activity planning/implementation, medication management and staff education was. Even the physical design of the Memory Care unit and "apartments" was not conducive to safety and supervision of patients.

After six months there I moved my mother to an assisted living Group Home where she was one of only two patients, much more appropriate for her needs at that time. The move was prompted by finding out that the "nurse" had not given my mother her meds for at least a week. There's more to that story but suffice it to say, her lack of awareness of my mother's situation and medication needs and facility lack of oversight and checks and balances over this nurse and the medication program was shocking. I believe there needs to be a section of regulations addressing these issues and management of nurse and med management staff.

I would be interested in working with you to further this endeavor!

Thank you for your time and attention to these serious matters.

Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

My mother had Early Onset Dementia at age 54, and we cared for her ourselves for 9 long years. It was tough on our family, but she was too scared to go into a memory care facility due to unregulated rules. She didn't believe she would get the care she needed. The Rulemaking proposed below would go a long way to accomplishing a care plan for these individuals.

Dear ADHS:

(click on the PENCIL icon and write your personal story/experience here)

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Dear ADHS:

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website.

Based on my personal experience, I feel strongly that these proposed rules are very important. My family experienced a crisis situation when my father no longer recognized my mother in the evenings and wanted this stranger removed from his house; he would have no recollection of this in the morning and felt like we were playing a cruel joke on him when we would tell the story of the evening before. This is the ugly reality of dementia - it's a cruel disease impacting everyone in the family.

During this crisis mode, we began looking for a memory care facility for the safety of all involved. The first place we found for my father was a facility that provided independent living, assisted living, and full memory care. It seemed like a really nice place that would accommodate his situation. While we paid monthly fees to this facility for approximately 4 months, more than 50% of his time was spent offsite in geriatric psych hospitals (3 separate visits). The third episode where he was referred to a geriatric psych facility was due to an elopement. To this day we don't know exactly what happened - did he go over the 8-10' cinder block wall that they say he went over (just how?)? did he climb the tree near it to go over? if he went over the wall wouldn't he have injuries from going down the other side? did someone leave one of the "secured" gates open and he went through it? Video they had doesn't show us what happened but they were adamant he did not go through a gate. We only know they found him outside in the parking lot. While his disease played a role in this, it felt like there was negligence in his care for this to have even happened. And now they were telling us he couldn't come back. As we began looking for a new place we had to get his records from the prior place and we discovered gaps in medication that left us even more uneasy.

Fast forward to the new place we found which was 100% focused on memory care - my dad lived out his remaining almost two years of life in this facility with no incidents or rather any incidents were considered part of the disease and the team working there was well trained on how to handle the realities of those living with dementia. He never visited a geriatric psych facility again. He was well cared for and well loved by the team working there.

In my opinion, it's critical that all centers providing memory care services (whether they are standalone or also have other services such as assisted living) be held to the same standard of care. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Dear ADHS:

(click on the PENCIL icon and write your personal story/experience here)

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Anything the ADHS can do to help elderly people with Dementia would be a good thing. As a caregiver of my 86th husband, I know about the daily lives for both the patient and the caregiver. Two words says it all, "It's HARD".

Dear ADHS:

I am so encouraged by the legislature's consideration of these rules for our vulnerable dementia community.

I am a medical social worker and am currently employed as a Dementia Educator with Hospice of the Valley's Supportive Care for Dementia program.

However, I am also a family dementia caregiver. My maternal grandmother and paternal grandfather have also had dementia.

In both my personal and professional experiences, I have seen subpar care environments and lack of training negatively impact the quality of life of those living with dementia. Rules to standardize care and to, most importantly, protect our vulnerable dementia population is vital and urgently needed.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;

When you've met one person with dementia, that's it, one person. These diseases progress uniquely to each person. Dementia is also impacted by other coexisting medical and mental health conditions. Memory care cannot be a one-size-fits-all situation.

2) Reporting of critical incidents like elopements to ADHS within 24 hours;

Families and legal guardians deserve critical updates about a person's care. They are often the best resources for care staff in learning how to deescalate the person's behaviors and prevent future problems.

3) Ongoing evidence-based dementia-specific training for all staff;

Dementia is ultimately a disease of communication and requires caregivers to use specific approaches, communication strategies, and techniques to ensure the comfort and well-being of the person living with dementia.

4) Adequate staffing to meet residents needs;

Staffing remains a significant issue in assisted living and memory care. Caregivers deserve compensation respective to their knowledge base and effort of the work. Increasing staff to resident ratios and ensuring a living wage are critical to the current and future stability of the memory care industry.

5) Supportive evidence-based environmental features to support memory care;

All humans wish to be engaged in meaningful activity. This need is often what drives "behaviors" such as wandering in those living with dementia. Having safe and accessible outdoor spaces are important in quality of life.

6) Specialized environments including meaningful activities for residents;

Changes in the brain can make self -starting, motivation, and initiation of tasks difficult or impossible when living with dementia. This may incorrectly lead people to believe that those living with dementia cannot or do not wish to do anything other than watch TV.

People living with dementia are so capable of experiencing joy! They can have meaningful engagement and activity participation with the right supports, assistance, adaptations.

7) Promotion of nutrition and hydration care;

At the residents comfort.

Dementia can make eating more challenging. A person may lose the ability to use utensils and require prompts or cues.

8) Safety measures to prevent and quickly respond to critical incidents; and

9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Dear ADHS:

My mother spent three years in Tucson's assisted/
Memory care facilities. Some owned by large corporations, some local. The horrible truth is that even in the smallest, most-restrictive, 10-person memory care home, the owner/manager/and care staff were grossly if not completely unknowledgeable about her disease and how to care for her to make her days more meaningful, less anxious and scary. They were all completely understaffed. She was given paste& cut care plans that were at best followed loosely, managers and staff not trained at all in dementia care training; medical, emotional, social, physical engagement . A manager who did not know the basic symptoms of dementia with Lewy Bodies yet she was in charge of my mom's care? Her personal safety and safety of staff members were compromised yet i had to fight through months and months (almost a year) up a chain of command only to be told "they passed inspection- your case has been dropped. My "CASE" was that there were dead bolts on the inside of the 'patient' rooms. My mom locked herself in- fell and the attendants could not get in. One of the caregivers put himself at risk and beat the door down ! I have a dozen more stories in just the short amount of time she had to live out the worst days of her life with such lack of stimulation and understanding of her unique needs.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

My husband has Alzheimer's. I want to know that he will receive thoughtful and quality care when he will need Memory Care.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Thank you,
Alyce TORDSEN

To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

Dear ADHS:

I recently had to move my mother with Alzheimer's to Tucson and the confusing amount of information and options for her care are daunting. She is living with me at the moment and I am very concerned about the coming time when we are no longer able to care for her in our home. At that time she will have to be placed in a group home or facility and I want the best for her remaining years, but have no way to be absolutely certain she is receiving that care when I am not on site. I support these rules in the hope that we can do a better job serving our elders in need.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

[write your own personal story here]

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia. Women are disproportionately impacted by Alzheimer's, and my aunt was able to be cared for at home for the duration of her illness. This isn't possible for everyone, but all patients deserve high quality care.

Thank you,
Mrs. Karen Gresham

Dear Legislator,

As the long time caregiver for my husband who has early onset dementia, I am so grateful for this pending legislation. Last year I moved my husband to a Memory Care unit where, unfortunately, he has not received the kind of care I'd hoped. Specifically that he is not spoken to as an educated person and the staff does not interact with the residents enough in a stimulating way.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;

Dear ADHS:

I am a long time Arizona resident and live in Tucsonwith my husband who has Alzheimers. I have been looking at Memory Care Facilities and I religiously check the Department of Health Care Check to see what deficiencies are noted at the facilities I am considering. I have toured at least 8 facilities in my attempt to find a good place for my husband when I am not able to meet his care needs. I'm still looking. While I know no place is perfect, I think the proposed rules would greatly enhance the facilities in Tucson.

I want to express my thanks for the attention that has been paid to the need for additional rules for Memory Care and the drafting efforts that have gone on.

I wish to note my support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia. Training, appropriate staffing levels, specific activities tailored for residents, as well as the reporting requirements and the safety measures are all essential.

Thank you,

Dear ADHS,

If my father had been cared for by a memory care facility who operated under these proposed rules, he may not have needed to leave it and saved himself from further cognitive decline. He was moved twice and only stabilized in his third facility. Each time he was moved, he stepped down in further mental decline. It was obvious to each family member that he could not do certain tasks every time he was transferred to a different facility until he couldn't go to the bathroom by himself, didn't feed himself, didn't sing, didn't hum, didn't talk, didn't walk and didn't breathe without help. The decline was painful to watch.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Dear ADHS:

Nine months ago, I found out my 53 year old wife has Alzheimer's. I am currently taking care of her myself at home, but at some point in the future I may need the services of a facility to take care of her. Having rules in place to be sure she is cared for in the best way possible is VERY important to me.

I ask that you approve and implement these rules to be sure our loved ones are cared for.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

Dear ADHS:

I have cared for multiple individuals with Dementia/ Alzheimer's and Dementia/Parkinsons.
I have seen substandard care provided, where caregivers do not understand Dementia and do not know to provide both compassion and care to people.

It is critical to have rules and training in place to support these individuals in residential communities!!!

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Dear ADHS:

As the daughter of someone who suffered from Alzheimer's and eventually passed away in a memory care facility. I 100% support the service rules being proposed as this disease is so nuanced and care can vary to the individual who is suffering. Caregivers and staff need ongoing training and support in these very difficult roles!

To Whom It May Concern,

I am writing today to express my strong support for the proposed rules for Memory Care Services developed in partnership with the Arizona Department of Health Services and the Alzheimer's Association. These thoughtful and comprehensive guidelines represent a critical step toward ensuring dignity, safety, and quality of life for individuals living with Alzheimer's and other forms of dementia.

This cause is deeply personal to me. My mother is currently living with dementia in a memory care setting, and I witness firsthand the challenges—and heartbreak—that can come when care falls short of what is truly needed. There are moments when a lack of staff available or appropriate activities leads to confusion and distress, both for my loved one and for our family (particularly my father who spends a great deal of his day with her). But there are also moments of light—when compassionate, trained caregivers made all the difference, when a calm environment helped ease anxiety, and when someone took the time to simply meet my mother where she's at.

That is why I am so encouraged by the direction of these proposed rules. Requiring evidence-based, dementia-specific training for staff and managers will help ensure that those providing care truly understand the unique needs of individuals with cognitive decline. Requiring the reporting of elopements and implementing environmental features tailored for memory care shows a much-needed commitment to safety.

I am especially moved by the focus on person-centered care planning and activities tailored to each resident's cognitive and physical abilities (not everyone wants to play bingo). These are not just policies—they are pathways to preserving dignity, fostering joy, and honoring the individual. The inclusion of ongoing service plan reviews, appropriate staffing, and medical oversight of placement further reflect a comprehensive and compassionate approach.

I applaud the Alzheimer's Association, ADHS, and all the stakeholders who worked to shape these guidelines. I urge you to move forward with their adoption and implementation. The seniors of Arizona—and their families—deserve no less.

Thank you for your consideration, and for your dedication to improving the quality of life for those living with dementia.

With gratitude,
Julie Ann Giedt

Dear ADHS:

Regarding Memory Care Training Instructor Qualifications:
Credentials for Instructors should include hands-on experience working with dementia residents in Memory Care Communities. It should not require a nursing license.

Many of Arizona's licensed nurses have experience in acute settings such as skilled nursing facilities, and hospitals. Medical Facilities function much differently than Memory Care Facilities. And many skilled nurses don't have dementia specific training to be a dementia instructor. Becoming a dementia practitioner may be a good start, but it's not all inclusive having already taken the NCCDP course.

Nothing beats hands on experience and knowing what it's really like to work with dementia residents 8 hours per day, year after year, providing hands-on care, doing the spoon feedings, doing the elopement drills, noticing and reporting the changes of condition and updating service plans.

For decades I have worked in Arizona's Directed Care / Memory Care Communities under many certifications including:
Assisted Living Facility Manager, Dementia Practitioner,
CPR instructor, and
Death Doula.
Although I am not a licensed nurse, for over 10 years have I conducted dementia training for all titles of staff including Caregivers, Med Techs, Nurses, and Wellness Directors.

It is imperative that Instructors for employees in memory care communities know what it's like to work in a non-medical memory care facility. Instructors should have dementia related experience, be able to redirect dementia related behaviors, and know how to work with the employees providing ADLs, outside service providers including Hospice, and overwhelmed families.

Hands on experience working with dementia residents in memory care communities should be a main qualification for memory care training instructors, instead of being a licensed nurse.

I support the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

My main point today:
Hands on experience working with dementia residents in memory care communities should be a main qualification for memory care training instructors. As a facility manager and dementia practitioner I am looking forward to training my employees.

Thank you,
Jennifer Awinda, ALFM, CDP

Dear ADHS:

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Thank you,
Matthew Guthrie

Reply-To: Arielle DeLisle <arielle322@gmail.com>

Dear ADHS:

The care of so many of our community elders needs to be appropriately specialized for the unique challenges and individual needs associated with dementia. My dear friend's mom would have benefited from the protections, guidelines, additional training and other legislative-enforced supports for her dementia healthcare and regarding her time in the various memory care facilities she lived in. This is an industry that needs oversight because the people it serves are often unable to advocate for themselves.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia. Without accountability for enforcement, people will be at risk of receiving inadequate care or may be suffering in unsafe conditions.

Dear ADHS:

When I moved to Arizona from Wyoming I moved my 96 year old mother to a memory care facility here in Oro Valley. It was one that had staff specifically trained in providing care to people with cognitive decline. It also used an evidence based program for engaging individuals in activities to enhance their socialization and self worth. The setting was designed specifically for memory care vs assisted living. Each of these factors contributed to her, and thus my, quality of life during the time she lived. I was also able to engage hospice care within the facility to that she did not have to move at this critical point in her care journey. She was cared for by those who had come to know and love her by providing care to her.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. Dear ADHS:

I am the husband to my now deceased wife who died 2 years ago from dementia. In her last 2 months of life, she was in 2 different assisted living homes, 1 big & 1 small. Folks need more time by trained employees.

These additional rules are needed for the homes to provide more quality care & better protect the elderly with dementia.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. Dear ADHS:

When my Uncle Tom was placed in a Memory Care center for his Fronto-Temporal Dementia, it was the hardest thing my aunt ever had to do. Knowing he was in a facility that valued him as a person and gave him the one on one care that he needed, meant everything to her. Despite his dementia, he was still her best friend and soulmate. People in these facilities are much loved members of families, and they need and deserve a high level of care.

Dear ADHS:

I am a Geriatrician with also 40 years of experience practicing in Cottonwood, AZ. I started my career in a suburb of PA. One of the biggest differences between caring for patients here and in PA is the marked difference in quality and oversight comparing memory care facilities in PA to facilities in Northern AZ. The proposed changes for our state are sorely needed and could be a huge step to ensuring that vulnerable elderly patients receive the care that they deserve. I hope that there is sufficient oversight to make sure that rules and regulations are followed as intended, I have seen several instances where this wasn't the case.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. Dear ADHS:

It seems everyone has a family member or friend whose life has been touched by Alzheimer's or dementia. My family is no exception. My father hid his symptoms for years and when my mother realized he was slipping into full-blown dementia, she hid these symptoms as well. Fear of what might await my father in a memory care facility—the type that was available to those with middle or working class means—delayed them from seeking services.

My father died in 2006 after a 10 to 15 year struggle with Alzheimer's. It is only now that my mother, at the age of 89, can talk about the shame and fear they both felt as my father progressively declined from his failing memory and growing limitations. My father's diagnosis was treated solely as a medical condition. And while this was clearly a necessary course of action, it was not the only way to ensure a quality of life for my father or my mother as his caretaker.

In the final 24-36 months of my father's life, he rotated through various hospitals and care facilities that offered little beyond medication and physical safety. Finally, we managed to secure a spot for my father at a facility (in California) that offered much of what the proposed Memory Care Services rules aim to improve for Arizona's memory care facilities, staff, and care management. The six months of my father's life were lived with dignity and far fewer 'bad days' than ever before.

Specifically, I am writing in support of the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Countless Arizonans requiring memory care and their families will benefit from the proposed provisions including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, by improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities you will assure that the dignity as well as the rights of Arizonans who require memory care are upheld. More importantly, violators will face consequences for their harmful actions (or even inactions) thereby assuring an accountable and robust system of care. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people just like my father, living with dementia.

Respectfully,
Aurora Zepeda

Dear ADHS:

I applaud the efforts of health care workers who strive to provide adequate services to dementia impacted persons because it is an unlimited and exhausting challenge. In terms of a personal story, the situation for my mother was that the elderly spouse was not physically able to care for a disabled person who had not only memory issues, but severe food allergies and mobility barriers. The solution was to use a prominent facility who interviewed and accepted her on a short notice. They tried hard to accommodate the dietary restrictions and offer services for interacting with other dementia residents, however, in theory, the amount of time necessary to monitor a high needs resident was not adequate. Mom was not being checked in often enough. She couldn't leave the room on her own power and constantly had the door closed. She wasn't being helped with her cpap equipment and wasn't eating the food provided. One day, we walked in to find her turning blue with a very weak pulse and she had to be hospitalized. The care givers had 2 people on staff for over 40 residents. If the residents were healthy and active, this may have been adequate, however, there were so many other residents who also have unique needs and only the sickest if them received monitoring. It is a huge task to ask 2 to 5 people to life guard, feed, clothe, and integrate very needy humans. We decided to forego the 2nd months lease of nearly $6k and moved her out immediately. We found a local provider who had 4 residents to watch over who had similar mobility challenges and offered better nutritional options. The owners seemed to be very caring and promised optimal attention. Unfortunately, one of the owners was hell bent on visitation rules due to covid 19 concerns and made visiting an unwelcoming experience for certain family members. Mom ended up in the hospital again due to not eating. The straw that broke the camels back was when he demanded the hospital give her a feed tube or he wouldn't take her back. This went against her standing legal documents. We pulled her from there after less than a month again. It was very stressful on her and the family with all the changes of locations. The family agreed to move her home and use Hospice to prepare for end of life. It very much seemed premature had the 1st facility had better practices in place.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

Dear ADHS:

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

These rules definitely would have helped with better care for my mother. When her dementia reached the point of requiring assisted care in 2022, she had to leave her home, and we trusted that she would receive high quality care at a "Memory Care" facility in the Phoenix area. Living out-of-town, I had to rely on the facility's Memory Care Services capability claims. Families need that peace of mind with our loved ones.

We learned through sad experience, however, that the facility's dementia training and staffing were inadequate, threatening my mother's life. Instead of the facility intervening when my mother did not get out of bed, they left her in her room unattended. During an evening visit, my local siblings recognized that she was turning blue with her oxygen level dropping, and she needed to go to the hospital immediately. This very stressful event could have been prevented with adequate training and staffing, as it was precipitated by well-known dementia-specific challenges. Thank goodness my siblings could visit and could do something!

I believe facilities want to provide good care for our loved ones. We need them to understand what Memory Care requires, and for their staff to have the training, ability and systems to deliver quality Memory Care. That way families and residents can have higher comfort and assurancwhen they seek Memory Care services for their loved ones.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Thank you,

1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Thank you,
Margaret Frierson

Subject: Comments re: Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197
To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

Dear ADHS:

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. Unfortunately, my family and I learned firsthand about how important these rules would have been had they been in place when we had to place my mother in a "memory care" facility when we were no longer able to care for her at home. We were naive in our understanding of what "memory care" facility meant based upon our experience with a memory care facility that has many facilities across the country. We assumed that our mother would be well cared for, however, we quickly realized that the facility was short-staffed, the people working in the facility were not adequately trained for dealing with Alzheimer's and dementia patients, and the facility didn't really provide person-centered care. The facility had a "memory care" section that housed 24 residents, but only had 2 people working in that section most of the time. In my mother's case, she needed assistance with going to the restroom because of her physical limitations. Many times, she did not receive the assistance she needed in a timely manner and would attempt to do things herself, causing more issues. We interviewed the facility regarding their ability to provide adequate meals for my mother who was required to eat vegan and gluten free foods because she was allergic to gluten, dairy, meats, and fish. The facility told us they had a chef that could prepare gourmet meals for my mother. After we placed my mother there, we found out that the "chef" had no experience making gourmet meals that were consistent with a vegan, gluten-free diet and he was asking us for recipes and suggestions. Because he didn't know how to adapt his menus for my mother's allergies, she was served the exact same basic foods for lunch and dinner most every day that she was there. My mother was in the facility for about 3 weeks before we had to make other arrangements for her due to the sub-par care my mother was receiving. On the last day that my mother lived at the facility, we came for a visit at 1:00 in the afternoon to find that my mother was still in bed and the staff was forcing her daily pills down her throat, even though she was mostly unconscious and her skin appeared to be grayish/blue. We were told by the staff that my mother was being "lazy" about getting out of bed that day. It was clear to all of my family that my mother was clearly having a life-threatening medical issue that the staff failed to recognize. We asked them to take her vital signs and were told that they had to wait for the supervisor. Long story, short, her blood oxygen level was in the low 80s and she was transported to a nearby hospital by ambulance because of our insistence. If we hadn't visited my mother that day, at that time, I don't know that she would have survived the day because of the inadequacies of the staff and the facility. We found another facility that was better suited to my mother's needs when she was released from the hospital.

The following proposed rules will help level the playing field for all "memory care" facilities and protect other families who have to make the hard decision to place a loved one in the care of others:

1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Thank you,

Thank you for your thoughtful comments and support of the proposed Memory Care Services rules. The Department appreciates your feedback and recognition of the key provisions aimed at enhancing the quality of care and safety for residents receiving memory care services. Additionally, we appreciate your acknowledgment of the updates to the enforcement matrix, which will help ensure compliance and accountability across health care facilities. The Department values your advocacy for these essential measures, and your input helps reinforce the importance of maintaining these standards as proposed.

You are also welcome to attend the Oral Proceeding on this rulemaking to provide any additional formal comments on April 8, 2025, at 1 p.m. in person at the Arizona Department of Health Services, located at 150 North 18th Avenue, 4th Floor Training Room, Phoenix, Arizona 85007. If you plan to attend, please RSVP to this email by April 7.

Thank you again for your collaboration and participation in this rulemaking.

Best regards,

--

Subject: Comments re: Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197
To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

Dear ADHS:

I am a board-certified geriatric psychiatrist and work specifically in the field of dementia care. I have been the Director of Banner Alzheimer's Institute in Tucson and perform evaluations and treatment of patients seen at our site. Additionally, in the past I have served as a medical director at memory care assisted living programs.

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

I believe in person-centered care planning and often see patients from facilities where this is not a focus. I am very much in favor of on-going evidence-based dementia specific training for all staff. In the past I worked at a very comprehensive memory assisted living program in Maryland and with on-going training staff utilized non-pharmacological interventions that alleviated suffering and reduced agitation and behavioral problems. This led to less use of unnecessary psychiatric medications and prevented ED visits and inpatient psychiatric care. If I have a concern it is related to how on-going training would occur and how this would be reviewed by state authorities who assess programs for these provisions. On-going training of staff needs to occur regularly, for example weekly and facilities should document how this on-going training takes place. This is vital to provide the most appropriate management of patients. To date, unfortunately, training has often been once per year and without the on-going training and support for staff the outcome is clearly suboptimal.

The other provision that I question is "Adequate staffing to meet residents needs." I also support this but question how this will be measured and enforced. I have seen many patients in my Tucson outpatient practice who come from memory care residential programs that have very poor staffing and residents are often neglected and not engaged in activities.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. Please don't change the rules as proposed, other than including some specifics as I mentioned above. The proposed rules will ensure the safety of residents, and improve the quality of care for people living with dementia.

Thank you,
Allan A. Anderson, MD
4075 N. Black Rock Dr., Tucson AZ 85750
410-253-9697
geropsych@comcast.net

Lucinda Sallaway 8:03 AM (1 minute ago)

to geropsych

Good Morning,

Thank you for your comments and support.

Adequate staffing is assessed according to the service plans of the residents as well as the staff's ability to meet their needs. For example, if multiple residents require more than one caregiver to assist, the facility will be required to increase their staffing levels. If residents require the use of specific medical equipment, the staff on-site would need documented training on using the equipment.

The training will be assessed during the application review. All memory care training applications will have an administrative review and substantive review. During the substantive review is when the Department will review the quality of the training program to ensure it meets the standards outlined in rule. The training program will be required to demonstrate that the program is evidenced- based before being approved by the Department.

Date: Sun, Apr 6, 2025 at 4:24 PM
Subject: Comments re: Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197
To: Quorum CustomTarget <stacie.gravito@azdhs.gov>

Dear ADHS:

I'm writing to share my requests for changes in the training requireme and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

I work in administration at a facility that provides Continuum of Care starting from Independent living with AL, post hospital rehab, long-term skilled nursing, and skilled nursing memory care.

While I agree that evidence - based training is a good plan, I have two concerns with the way that the rules are written:

1. Training twice per year puts an undue burden on AL managers and facility owners. The training is extensive enough that one time per year per employee will allow the employees to do a better job of taking care of their residents.

2. Mandating that the courses be taught by an RN also places an undue burden on AL managers and facility owners. I was relieved to see that someone with a bachelor's degree and experience can teach the classes, but an LPN who has worked in the field should be able to teach the classes as well.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents needs;
5) Supportive evidence-based environmental features to support memory care;
6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Please consider the changes that I've requested.

Thank you,
Jennifer Ladd Omo

jjladdomo@gmail.com

Lucinda Sallaway 8:33 AM (0 minutes ago)

to jjladdomo

Good morning Jennifer,

Thank you for your comments.

To clarify, the rule requires staff training on an annual basis. Additionally, the staff training and manager training are separate requirements, as outlined in A.R.S. § 36-405.03. Managers receive 8 hours of initial training + 4 hours of manager training. Managers do not need to take separate manager training every year. However, they do the same annual training as all other staff.

The rules do not require memory care services trainers to be RNs—though that is one option. As specified in R9-10-125(A) and (B), there are multiple pathways for individuals to qualify as trainers. The Department's intent is to maintain flexibility and allow individuals with appropriate experience and expertise, including those without RN credentials, to be a memory care services trainer.

Please don't hesitate to reach out with any further questions or suggestions.

Best regards,
Lucinda

Reply-To: Adrienne Montgomery <amontgomery@vilivng.com>

Dear ADHS:

I am an Assisted Living Manager at Vi at Silverstone. I have read thru the proposed rules posted on the ADHS website.
I would like to request consideration for changes in a few areas:
1. pg 717, R9-10-122 A,1,f - please consider allowing the 4 hour annual training for staff to be online
2. pg 717, R9-10-122 A, 1, g - please also consider allowing the existing managers with 12 or more months as ALMs to be grandfathered in and annual training available online. Request all new managers in training take the training during the ALM course
3. pg 719, R9-10-125, - please consider allowing all licensed nurses to be considered: RN and LPN

I'm writing to share my comments and support for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. Lucinda Sallaway 8:46 AM (1 minute ago)

to amontgomery, bcc: Stacie, bcc: Tiffany, bcc: Aaron, bcc: Dawn, bcc: Harmony

Hello Adrienne,

Thank you for your thoughtful comments on the proposed rules.

R9-10-122(B) clarifies that the memory care services training program must include in-person components and may incorporate online elements. The in-person component must include a demonstration of the individual's skills and knowledge necessary to provide memory care services.

The manager training is required pursuant to Arizona Revised Statutes (A.R.S.) § 36-405.03.

We appreciate your recommendation regarding R9-10-125 and will take it into consideration during the Department's internal discussions.

The Department values your feedback and your recognition of the key provisions that aim to enhance the quality of care and safety for residents receiving memory care services. We also appreciate your acknowledgment of the updates to the enforcement matrix, which are designed to strengthen compliance and accountability across health care facilities.

Thank you again for your continued collaboration and participation in this rulemaking process.

Best regards,

Lucinda

Subject: Edited version!
To: Tory Roberg <troberg@alz.org>

Mr. Salow:

I recently listened to the webinar with Tory Roberg with the Alzheimers Org of Az.

I was impressed as to the depth of the study done by the team with regard, in particular, to the proposed rules for Memory Care Services.

This is personal for me as my husband, having been diagnosed in 2019 with Alzheimer's Type 4, Vascular Dementia, and having 3 strokes on Jan 31, 2023, has been in a Memory Care Unit here in Tucson.

The proposed rules include:

1. Initial and ongoing evidence based training for staff and managers of, at this time, Assisted living facilities. The unit my husband is a patient in, is not Assisted Living as that is a whole different type of care, but is in an actual Memory Care Unit where Core Staff is trained in and wants to work with those that have Dementia. This takes a special caregiver as each patient and each case of Dementia is individual. However, I think this is a good rule, a good beginning and urge that it be passed.

2. Person-centered Care. Absolutely needed and should include at least 3 month assessments of the progression of the Dementia, the Cognitive ability and overall physical health,

3. Medical Practitioner review of appropriateness of placement – if this is up to a caregiver or family to obtain, that is not being done. If it is to be done at the time a patient is placed, then, yes, that is most likely being done. Again, this is essential.

4. Staffing to ensure adequate supervision and care. In many Arizona facilities this is not being done! There are no guidelines anywhere that provide number of staff doing direct care, nurses on a unit for even minimal care! Staffing is an issue as very few wish to work in a facility and in particular, with Dementia Patients. This issue is across all facilities including hospitals since COVID. It needs to be addressed by the state and by schools where people go to get training as CMA's, CNA's and Nurses as well as added to public education about Alzheimer's and other forms of Dementia.

All in all, I would like to see the state adopt these changes and then, continue to develop rules, regulations that provide first and foremost, for the patients!

Sincerely,

Phyllis Denison

Hi Phyllis,

Thank you for taking the time to share your personal experience and thoughtful feedback on the proposed rules for Memory Care Services. The Department appreciates your recognition of the depth of work involved in developing these rules, and for your support in this rulemaking, specifically for key provisions such as evidence-based training, person-centered care, medical practitioner review, and appropriate staffing levels.

You are also welcome to attend the Oral Proceeding on this rulemaking to provide any additional formal comments on April 8, 2025, at 1 p.m. in person at the Arizona Department of Health Services, located at 150 North 18th Avenue, 4th Floor Training Room, Phoenix, Arizona 85007. If you plan to attend, please RSVP to this email by April 7.

Thank you again for your collaboration and participation in this rulemaking.

Best regards,

Lucinda Sallaway

From: **Becky Hill** <Becky@hilladvo.com>

RE Public Written Comments for: 9 A.A.C. 10 Department of Health Services - Health Care Institutions: Licensing- as Noticed in the March 7, 2025 Administrative Register notice of Rulemaking regarding Memory Care Services and Licensure.

TO: Governor's Regulatory Review Council: emailed to DHS emails as directed in the Rulemaking instructions to the public, as well as grrc@azdoa.gov

My name is Becky Hill and I am one of the stakeholders who helped negotiate HB2764; a member of the state board that licenses managers for long-term care; and a long time lobbyist and policy expert who understands the important role GRRC plays in rulemaking.

But most importantly, I am the daughter of an Alzheimer's sufferer who spent nearly a decade in and out of "memory care." As such, I not only had a front row seat to the horrors of dementia, but a long experience with the varied abilities of long-term care facilities and homes to provide care and safe accommodations to this medically and cognitively fragile population.

With that, I respectfully ask that you approve the draft Rule in front of you or pass with minor changes if they conform to HB2764.

HB2764 reflects a compromise between industry and advocates to create a framework for Memory Care standards, training, and facilities and this Rule reflects the mandates and requirements of that law. While I do believe that DHS could have done more in some individual areas of the Rule to keep residents safe and to ease the burdens of ill-prepared caregivers, as a whole, I read the Rule to meet the requirements of the law to improve care and training for Memory Care Services.

Please keep in mind that the effort to define and regulate Memory Care had broad public support and a strong bipartisan vote in the Legislature. HB2764 was necessary due to the explosion of dementia in the elderly community; the growing demand on providers without clear expectations; and the marketing of memory care to families but without specific care standards, or relevant training for caregivers.

Though I would like to see more detail in this Rule on training, as well as ensuring requirements for "awake" caregivers are applicable to all facilities and not just "cottages," this draft Rule meets the letter of the law.

It most certainly does Not do what you might hear from some - exceed the requirements of the bill. **Please do not disregard the compromises that led to a deal on HB2764 by allowing concessions during rulemaking.**

A common refrain by those who are resistant to this framework is that too much regulation could reduce "access to care." I agree. Which is why compromises were made as reflected in HB2764.

I have witnessed both the good and the bad of "memory care," and supported dozens of friends and family through their own care journey. As such, I can assure you that access to less-than care is not the goal for families.

Ultimately, facilities do not have to take dementia sufferers if they are unable to care for them as intended by the law and detailed in these Rules. In my various roles, I often see Facilities and Care Homes grossly under enrolled. If supply is more aligned to quality, both industry profits and resident safety will improve.

Please adopt the Rule and allow facilities to decide if they are willing and capable to provide the care and training required.

Thank you for your thoughtful consideration.

Should it interest you, I have provided information regarding the mandates in HB2764 below.

The Mandates of HB2764: In the 2024 legislative session, advocates and industry came together to negotiate a new statute to define "memory care services" and to create a regulatory framework for care and training requriements.

Three of the important areas of this bill that drove the resulting Rule in front of you are:

1. **The Definition of *Memory Care Services-MCS***
2. **The requirement of DHS to establish by rule the standards of care for *MCS*.**
3. **The requirement of DHS to establish by rule the training standards for *MCS*.**

This Rule package aligns with these mandates and more on each of these is provided below.

1. **THE DEFINITION OF MEMORY CARE SERVICES:**

MEMORY CARE SERVICES MEANS SERVICES THAT SUPPORT INDIVIDUALS WITH DEMENTIA AND OTHER PROGRESSIVE AND NEURODEGENERATIVE BRAIN DISORDERS, INCLUDING SPECIALIZED ENVIRONMENTAL FEATURES, CARE PLANNING, DIRECTED CARE SERVICES, MEDICATION ADMINISTRATION SERVICES, SPECIALIZED ACCOMMODATIONS, ACTIVITY PROGRAMMING OR OTHER SERVICES REQUIRED BY THE DEPARTMENT IN RULE.

While Memory Care is a commonly used term for dementia care, Alzheimer's and other dementia diagnosis are tragically much more than the loss of memories or the inability to make new ones. This comprehensive, and agreed-to, definition recognizes the complexity of the disease and sets the stage for how training and care standards are to be designed in Rule.

Consider how dementia robs sufferers of the ability to safely get through the day.

- They may be unable to safely stand, walk, dress, bathe or toilet without assistance.
- They likely cannot self-report harm or pain from a fall, abuse, neglect, or illness.
- They may identify common non-food objects as digestible.
- They do not know how to appropriately sense temperature which can lead to burns when not able to react to scalding hot water in sinks and showers.
- Chewing, swallowing, and drinking become problematic and eventually dangerous.
- They may wander, have terrifying hallucinations, and suffer from realistic delusions that are inseparable to them from reality.

These challenging symptoms appear even in the early to middle stages of dementia.

These horrifying symptoms require more than adult day care. They require expert care.

Please keep this agreed-to comprehensive statutory definition of Memory Care Services in mind when evaluating comments regarding the Rule.

2. **ESTABLISH STANDARDS OF CARE FOR MEMORY CARE SERVICES:**

The Department is responding to the letter of the law by creating care standards aligned to the definition of Memory Care Services for neurogenerative disease.

Even families that do not want to turn to care facilities may have to do so because they lack the physical strength to help with mobility, bathing, toileting, or to prevent falls. Or just as tragically, those with dementia may no longer recognize husbands and wives and think of them as intruders in their home, not caregivers.

And so it is that families turn to facilities marketing Memory Care. They believe they are doing the right thing in moving their loved one to a facility where experts can keep their loved ones safe.

However, often the marketing does not match reality, and the specialized services, staffing and facilities are not available. This leaves residents at risk for any number of injuries and neglect, and why HB2764 created the mandate to establish standards of care.

I have heard of some push back regarding certain care standards. For example, the requirement that facilities have “awake” caregivers. To have sleeping caregivers is akin to having no caregivers. Indeed, the need for 24-hour care is why many of us choose LTC to begin with.

Wandering, not remembering that they cannot stand and falling, wandering into someone else’s room, or having a confused man walk into the room of a sleeping woman and approach her as if she is his wife are all common examples of why **dementia care needs to be awake care**.

Nighttime is also when the medications that make residents even more of a fall risk are provided.

Staffing levels are also appropriate components of this Rule pursuant to the requirement to adopt standards of care in the definition for Memory Care Services.

3. **ESTABLISH BY RULE THE MINIMUM TRAINING STANDARDS FOR MEMORY CARE SERVICES**

This area of the law is to provide a baseline training for caregivers and managers as well as annual continuing education. While I believe more detail in this area of the Rule would be helpful, I do think the framework allows DHS to collect the information needed from training program applicants thru the application process to judge the quality of the program pursuant to the bill. I am willing to see if this happens without more detail in the Rule.

I also believe that the framework of the proposed Rule will allow DHS to accumulate training programs *over time* that could meet the needs of an industry of caregivers who must be better trained and supported than they are now.

I am aware of some consternation regarding the requirements for MCS trainers. While I agree that RNs are not the only professionals who can deliver high quality dementia training, any rewrite to allow discretion for who can do the trainings must require DHS to evaluate trainers for some expertise *or* experience in memory care and dementia-not just experience being a trainer.

Recipients of training need a trainer who can answer their questions about care and the disease. Having trainers who can only repeat what is in the handbook is not sufficient.

Conclusion: HB2764 was introduced by Rep. Dunn, and passed with strong support from both parties, because we all recognize that Memory Care should not just be adult day care with intermittent assistance. Indeed, as the disease progresses, every moment of a dementia sufferer's life is clouded in risk.

The National Institutes of Health recently noted that nearly 14 million Americans suffer from dementia. Of relevance here, 1 in 9 Americans have Alzheimer's Disease-the most common form of Dementia – and deaths from AD increased more than 140% from 2000 to 2021.

While research on prevention and treatments is promising, they are not yet approved, affordable, or universally available. A strong network of care and caregivers will matter for many more years and the combination of HB2764 and DHS rule are the appropriate framework for basic care.

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Article 1 and 8; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Hill:

Thank you for your thoughtful and detailed comments on the Department's proposed rules regarding Memory Care Services. The Department appreciates your support for the rulemaking package and your recognition of the collaborative work that led to the passage of HB2764. Your unique perspective as a policy expert, board member, and most importantly, as a family member of someone affected by Alzheimer's adds meaningful insight to this process.

Your comments underscore the importance of establishing clear standards for care and training that align with the intent of HB2764. Thank you for your recognition of the Department's efforts to establish rules that create a balance between flexibility for providers and the need to ensure safe, quality care for individuals living with dementia.

Thank you again for your engagement and continued advocacy in support of Arizona's most vulnerable residents. The Department appreciates your feedback and collaboration in this rulemaking process, and we look forward to engaging with you and other stakeholders during the upcoming rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

Arizona LeadingAge (AzLA) – Formal Comments on ADHS Final HCI & Memory Care Rules Package (Implementation of HB2764)

Submitted by: Jaime Roberts, CEO, Arizona LeadingAge
Date: April 4, 2025
To: Arizona Department of Health Services (ADHS)

Executive Summary

On behalf of Arizona LeadingAge (AzLA), I want to begin by thanking the Arizona Department of Health Services (ADHS) for its commitment to engaging stakeholders throughout the development of the HCI & Memory Care Rules, dated January 29, 2025. These rules represent an important step in aligning regulatory expectations with the care and safety of individuals receiving services in Arizona's senior living communities.

AzLA is pleased to see that several of our critical recommendations were incorporated into the final rule language. These include improvements in enforcement transparency, portability of memory care training certificates, and expanded eligibility for trainers. However, we are deeply concerned by the inclusion of new, undefined staffing mandates and by the current interpretation of Directed Care requirements, which contradicts the stakeholder discussions and pose significant risks to the operational flexibility and person-centered principles that providers strive to uphold.

Key Areas of Concern

New Staffing Mandates in R9-10-816

R9-10-816(A)(4): Adequate Supervision and Care

"There is staffing to ensure adequate supervision and care for residents receiving memory care services."

AzLA is disappointed by this broad and undefined staffing requirement. The term "adequate supervision and care" is subjective and lacks clear criteria, leaving providers vulnerable to inconsistent citations and interpretations. We strongly believe that staffing levels should be tied to individual service plans and resident acuity rather than vague, unquantified standards.

R9-10-816(A)(6): Staffing Adjustments Based on Resident Needs

"If applicable, staffing is increased to compensate for the evaluated care and service needs of residents at move-in or for the changing physical or cognitive needs of the residents."

This provision imposes an ongoing requirement to increase staffing as resident needs evolve, yet provides no guidance on how to determine adequacy or thresholds for adjustment. This introduces ambiguity into compliance monitoring and imposes potential financial and operational burdens without guardrails. Providers already have obligations to assess and update service plans; this rule goes beyond existing standards and mandates an open-ended staffing escalation model.

Directed Care Interpretation and Secured Environments

AzLA is also alarmed by recent enforcement interpretations related to Directed Care services and the requirement for secured environments. Specifically, providers are being cited for housing residents with Directed Care service plans in unsecured areas of a facility, despite the entire building being licensed at the Directed level. This interpretation contradicts the lived experience of providers and prior regulatory practice.

Key Issues:

1. **Violation of Least Restrictive Environment (LRE) Principles** Mandating secured environments for all Directed Care residents undermines autonomy and contradicts federal and state principles of least restrictive care. Residents who do not pose elopement risks should not be unnecessarily institutionalized.
2. **Oversimplification of Cognitive Needs** Directed Care includes a wide range of support needs. Not all residents require secured settings. Many individuals retain decisional capacity and benefit from greater freedom of movement.
3. **Undermining Aging in Place** Rigid enforcement of secured placements disrupts aging-in-place models that allow residents to remain in familiar settings as their needs evolve.
4. **Conflict with National Best Practices** Agencies such as CMS and the Administration for Community Living emphasize person-centered care. Universal secured placement requirements move away from this standard.
5. **Cost and System Impact** Unnecessary placement in secured environments increases costs, may accelerate Medicaid spend-downs, and adds strain to the ALTCS system.
6. **Conflict with Statutory Intent** The Directed Care category was intended to allow higher support levels within Assisted Living settings—not to mandate institutional-style care. HB2764 was specifically written to include memory care within existing licensure levels without requiring separate designations or locked settings.

AzLA strongly urges ADHS to revisit this interpretation and provide clear guidance that aligns with person-centered care principles and the original intent of the legislation.

Additional Concerns and Clarifications

Enforcement Matrix (Table 1.2)

While we acknowledge improvements in transparency through the inclusion of Table 1.2, AzLA continues to advocate for a more detailed Scope and Severity Matrix specific to Assisted Living. The current matrix lacks the granularity necessary to support consistent and proportional enforcement. We again encourage the Department to adopt or integrate a model akin to the one AzLA provided during the stakeholder process, which better reflects the complexity and variation of deficiencies in this setting.

Monitoring Scope and Fees

ADHS did not incorporate AzLA's recommendation to limit on-site monitoring to Level 5 deficiencies or to require mutual agreement before fees are assessed. These omissions may lead to punitive enforcement without adequate due process.

Conclusion and Recommendations

Arizona LeadingAge appreciates the Department's engagement with stakeholders and thoughtful efforts to improve care standards. However, we respectfully request the Department:

1. Reconsider or refine the language in R9-10-816(A)(4) and R9-10-816(A)(6) to remove vague staffing mandates.
2. Provide written clarification that Directed Care licensure does not require all residents to reside in secured environments unless clinically indicated.
3. Re-evaluate the enforcement matrix for greater specificity tailored to Assisted Living operations.
4. Limit the use of monitoring fees to Level 5 deficiencies and require provider agreement as discussed in stakeholder forums.

We remain committed to collaborating with ADHS to ensure that regulations are clinically sound, operationally feasible, and centered on the dignity and well-being of Arizona's seniors.

Respectfully submitted,
Jaime Roberts
CEO, Arizona LeadingAge

Updated comments from LeadingAge:

UPDATED April 7, 2025

Arizona LeadingAge (AzLA) – Formal Comments on ADHS Final HCI & Memory Care Rules Package (Implementation of HB2764)

Submitted by: Jaime Roberts, CEO, Arizona LeadingAge
Date: April 4, 2025
To: Arizona Department of Health Services (ADHS)

Executive Summary

On behalf of Arizona LeadingAge (AzLA), I want to begin by thanking the Arizona Department of Health Services (ADHS) for its commitment to engaging stakeholders throughout the development of the HCI & Memory Care Rules, dated March 7, 2025. These rules represent an important step in aligning regulatory expectations with the care and safety of individuals receiving services in Arizona's senior living communities.

AzLA is pleased to see that several of our critical recommendations were incorporated into the final rule language. These include improvements in enforcement transparency, portability of memory care training certificates, and expanded eligibility for trainers.

However, we are deeply concerned by the inclusion of new, undefined staffing mandates and by the current interpretation of Directed Care requirements, which contradicts the stakeholder discussions and pose significant risks to the operational flexibility and person-centered principles that providers strive to uphold.

R9-10-816 is in conflict with statute and legislative intent. The legislature did not authorize memory care as a separate level of care. Memory care is one type of care that falls under existing rules for Directed Care Services. R9-10-816 should be deleted in its entirety The legislature did not direct specialized environmental features nor other specific requirements outlined in R9-10-816. Eliminating this rule will address concerns regarding staffing mandates which will create liability. Creating a separate rule for Memory care effectively creates a "fourth level of care," conflicting with the statute. Memory care should remain under Directed Care. Current assisted living rules already require staffing to meet residents' needs as outlined in residents' service plans. Including staffing to provide "adequate supervision" is overly subjective and introduces liability risks. Including staffing to provide "adequate supervision" opens facilities to undue scrutiny and unfounded legal claims. In addition, removing R9-10-816 will eliminate redundancies that will create unnecessary steps and costs.

Key Areas of Concern

R9-10-801.3. Definition of Assisted living services. The Department is outside the statutory authority granted by the legislature. Memory care is one type of directed care services it is not a separate service.

New Staffing Mandates and creating a separate rule for memory care in R9-10-816; memory care is included in directed care services. Eliminating R9-10-816 will eliminate the other concerns regarding adequate supervision as outlined below.

R9-10-816(A)(4): Adequate Supervision and Care

"There is staffing to ensure adequate supervision and care for residents receiving memory care services."

AzLA is disappointed by this broad and undefined staffing requirement. The term "adequate supervision and care" is subjective and lacks clear criteria, leaving providers vulnerable to inconsistent citations and interpretations. We strongly believe that staffing levels should be tied to individual service plans and resident acuity, as they are in current rules, rather than vague, unquantified standards.

R9-10-816(A)(6): Staffing Adjustments Based on Resident Needs

"If applicable, staffing is increased to compensate for the evaluated care and service needs of residents at move-in or for the changing physical or cognitive needs of the residents."

This provision imposes an ongoing requirement to increase staffing as resident needs evolve, yet provides no guidance on how to determine adequacy or thresholds for adjustment. This introduces ambiguity into compliance monitoring and imposes potential financial and operational burdens without guardrails. It also creates liability for providers. Providers already have obligations to assess and update care plans; this rule goes beyond existing standards and mandates an open-ended staffing escalation model.

Directed Care Interpretation and Secured Environments

These draft rules highlight and reinforce other concerns regarding Directed Care. AzLA is alarmed by recent enforcement interpretations related to Directed Care services and the requirement for secured environments. Specifically, providers are being cited for housing residents with Directed Care service plans in unsecured areas of a facility, despite the entire building being licensed at the Directed level. This interpretation contradicts the lived experience of providers and prior regulatory practice.

Key Issues:

7. **Violation of Least Restrictive Environment (LRE) Principles** Mandating secured environments for all Directed Care residents undermines autonomy and contradicts federal and state principles of least restrictive care. Residents who do not pose elopement risks should not be unnecessarily institutionalized.
8. **Oversimplification of Cognitive Needs** Directed Care includes a wide range of support needs. Not all residents require secured settings. Many individuals retain decisional capacity and benefit from greater freedom of movement.
9. **Undermining Aging in Place** Rigid enforcement of secured placements disrupts aging-in-place models that allow residents to remain in familiar settings as their needs evolve.
10. **Conflict with National Best Practices** Agencies such as CMS and the Administration for Community Living emphasize person-centered care. Universal secured placement requirements move away from this standard although the new rules require strategies for person-centered care.
11. **Cost and System Impact** Unnecessary placement in secured environments increases costs, may accelerate Medicaid spend-downs, and adds strain to the ALTCS system.
12. **Conflict with Statutory Intent** The Directed Care category was intended to allow higher support levels within Assisted Living settings—not to mandate institutional-style care. HB2764 was specifically written to include memory care within existing licensure levels without requiring separate designations or locked settings.

AzLA strongly urges ADHS to revisit this interpretation and return to prior guidance that aligns with person-centered care principles and the original intent of the legislation.

Additional Concerns and Clarifications

Enforcement Matrix (Table 1.2)

While we acknowledge improvements in transparency through the inclusion of Table 1.2, AzLA continues to advocate for a more detailed Scope and Severity Matrix specific to Assisted Living. The current matrix lacks the granularity necessary to support consistent and proportional enforcement. We again encourage the Department to adopt or integrate a model akin to the one AzLA provided during the stakeholder process, which better reflects the complexity and variation of deficiencies in this setting.

Similar models were provided during the development of HB2764. Stakeholders were told that this matrix would be better in DHS rules rather than in statute.

Monitoring Scope and Fees

ADHS did not incorporate AzLA's recommendation to limit on-site monitoring to Level 5 deficiencies or to require mutual agreement before fees are assessed. These omissions may lead to punitive enforcement without adequate due process. Again, during the development of HB2764, monitoring fees were discussed and reserved for facilities with egregious infractions. As defined, the only severity level that matches what was discussed during the development of the legislation is level 5.

Conclusion and Recommendations

Arizona LeadingAge appreciates the Department's engagement with stakeholders and thoughtful efforts to improve care standards. However, we respectfully request the Department:

5. Eliminate R9-10-816 as it is beyond the scope of authority granted by the legislature. Memory care services is part of directed care..
6. Provide written clarification that Directed Care licensure does not require all residents to reside in secured environments unless clinically indicated.
7. Re-evaluate the enforcement matrix for greater specificity tailored to Assisted Living operations.
8. Limit the use of monitoring fees to Level 5 deficiencies and require provider agreement as discussed in stakeholder forums.

We remain committed to collaborating with ADHS to ensure that regulations are clinically sound, operationally feasible, and centered on the dignity and well-being of Arizona's seniors.

Respectfully submitted,
Jaime Roberts

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Article 1 and 8; Response to Stakeholder Comments on Proposed Rules

Dear Ms. Roberts:

Thank you for your detailed and thoughtful comments. The Department sincerely appreciates Arizona LeadingAge's active engagement throughout the rulemaking process and your continued commitment to the well-being of Arizona's seniors. We are pleased to hear that you support many of the key improvements in the final draft, including enhancements to enforcement transparency, the portability of memory care training certificates, and broader eligibility criteria for trainers. Your support on these items reflects the value of meaningful collaboration with stakeholders like Arizona LeadingAge.

The Department recognizes your concerns regarding the inclusion of R9-10-816, and the interpretation and operational implications of staffing provisions and directed care requirements. These issues, particularly as they relate to staffing flexibility, person-centered care, and the interpretation of secured environments, are complex and central to achieving both quality and feasibility in assisted living operations. The Department has carefully reviewed your comments and the legal and practical arguments you've raised. Your position that R9-10-816 may exceed the statutory scope of HB2764 and risk introducing an unintended "fourth level of care" has been noted. Also, the Department acknowledges your concerns regarding the subjectivity of terms such as "adequate supervision and care," and your recommendation to align staffing expectations with individualized service plans and resident acuity. While the Department's intent was to clarify expectations and elevate care standards for individuals needing memory care services, the Department understands the importance of maintaining statutory alignment and minimizing regulatory redundancy.

Regarding the enforcement of secured environments for all directed care residents, the Department appreciates your emphasis on least restrictive environments and aging-in-place principles. The

Department recognizes the importance of preserving autonomy, especially for individuals who do not present a risk of elopement, and we will evaluate your request for clarification of enforcement guidance to ensure it is consistent with statutory intent and best practices in person-centered care.

The Department appreciates your recommendations related to the enforcement matrix and monitoring scope. Your suggestions to refine the enforcement framework for greater clarity and proportionality, as well as to ensure that monitoring fees are used as intended under HB2764, is well taken and will be reviewed alongside other stakeholder feedback.

Once again, thank you for your continued partnership and constructive feedback. The Department values Arizona LeadingAge's commitment to the health, safety, and dignity of older Arizonans, and we look forward to ongoing collaboration as the Department works to finalize and implement these important rules. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

Cc: Stephanie <ssmith85249@gmail.com>, Lavon Wunderlich <lavonw@cox.net>

Lucinda and Thomas,

Thank you for the opportunity to comment on the proposed Memory Care Services rules. The below expands on my originally submitted comments for the proposed Memory Care Services rules within the Notice of Rulemaking Docket Opening: 30 A.A.R. 3066, October 18, 2024, Issue Number: 42, File Number: R24-197 "proposed rules" posted on the ADHS website. I plan to attend the oral proceedings tomorrow and welcome the opportunity to participate in any future forums or committees that will be discussing the details behind the implementation of these rules.

Based on my family's personal experience, I feel strongly that these proposed rules are critical. My family experienced a crisis situation when my father no longer recognized my mother in the evenings and wanted this stranger removed from his house; he would have no recollection of this in the morning and felt like we were playing a cruel joke on him when we would tell the story of the evening before. This is the ugly reality of dementia - it's a cruel disease impacting everyone in the family.

During this crisis mode, we began looking for a memory care facility for the safety of all involved. The first place we found for my father was a facility that provided independent living, assisted living, and full memory care. It seemed like a really nice place that would accommodate his situation. While we paid monthly fees to this facility for approximately 4 months, 50% of his time was spent offsite in geriatric psych hospitals (3 separate visits). The third episode where he was referred to a geriatric psych facility was due to an elopement. To this day we don't know exactly what happened - did he go over the 8-10' cinder block wall that they say he went over (just how?)? did he climb the tree near it to go over? if he went over the wall wouldn't he have injuries from going down the other side? did someone leave one of the "secured" gates open and he went through it? Video they had doesn't show us what happened, but they were adamant he did not go through a gate. We only know they found him outside in the parking lot. While his disease played a role in this, it felt like there was negligence in his care for this to have even happened.

The wall with my son-in-law for height reference:

As my sister and my mom waited with my dad for geriatric psych services to arrive to pick up our father due to this elopement, my sister asked about his medication for that day and discovered they were out of one medication; there was an issue with the refill that we were unaware of.

While our dad was away at the geriatric psych facility, we met with his memory care facility and were assured that he would be welcomed back. However, when the geriatric psych facility was ready to release our dad, the memory care facility informed us they could not accept him back; his behavior was more than they could handle.

With no advance notice of this decision, we were in crisis mode again looking for a new place with pressure from the geriatric psych facility to have a place to release him to. The challenge was increased further with many places denying him as a resident due to a record of incidents at his first facility. While we looked for a new facility, his geriatric psych stay extended to 34 days.

Fast forward to the new place we found, which was 100% focused on memory care - my dad lived out his remaining almost two years of life in this facility with no incidents or rather any incidents were considered part of the disease and the team working there was well trained and equipped on how to handle the realities of those living with dementia. He never visited a geriatric psych facility again. He was well cared for and well loved by the team working there.

My dad with my mom, Christmas Eve 2022 (4 days @ new facility)

We will never know what really happened with our father's elopement or his medication management where we discovered what appeared to be other gaps that left us uneasy, but we do know that the first facility that advertised themselves as "specializing in supporting seniors with Alzheimer's and other dementia related impairments" was not appropriately trained to handle dementia behaviors and related impairments. They relied heavily on geriatric psych services as their behavior management tocl creating undue stress on our father and our family.

In my opinion, it's critical that all centers that advertise as providing memory care services (whether they are standalone or also have other services such as assisted living) be held to the same standard of care. The proposed rules contain several provisions which will improve the quality of care and safety of residents receiving Memory Care services.

Thank you for including:
1) Person-centered care planning;
2) Reporting of critical incidents like elopements to ADHS within 24 hours;
3) Ongoing evidence-based dementia-specific training for all staff;
4) Adequate staffing to meet residents' needs;
5) Supportive evidence-based environmental features to support memory care;

6) Specialized environments including meaningful activities for residents;
7) Promotion of nutrition and hydration care;
8) Safety measures to prevent and quickly respond to critical incidents; and
9) Evacuation and emergency procedures specific to residents receiving memory care.

Additionally, thank you for improving the state's enforcement matrix for infractions related to health care facilities, including assisted living and nursing care facilities. The proposed rules will ensure the safety of residents and improve the quality of care for people living with dementia.

I do have a few questions on how some of the new rules would be deployed. As one example, if during an assessment it is determined that the resident's condition has progressed beyond the services a facility can safely manage and the facility is unable or unwilling to develop a plan to fill that gap, what safety measures would be in place for a family to minimize crisis situations and help them navigate finding an appropriately matched facility (e.g., notice periods, collaborative planning, etc.). I welcome the opportunity to participate in any future forums or committees that will be discussing details such as these.

Many Thanks,

Diane Hyink

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Article 1 and 8; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Hyink:

Thank you for your thoughtful and heartfelt comments regarding the proposed memory care services. The Department appreciates the time you took to share your family's personal experience, as well as your participation in the rulemaking process.

We are very sorry for the distressing events your family endured while navigating memory care services for your father. Your story brings to light the very real challenges families face when the care provided does not meet the complex needs of individuals living with dementia. Your advocacy and perspective are invaluable as we work to strengthen the standards for facilities offering memory care services across Arizona.

We are especially grateful for your support of key provisions in the proposed rules, including the emphasis on person-centered care planning, critical incident reporting, dementia-specific staff training, and environmental features that support residents' cognitive needs. Your affirmation of these elements reinforces our commitment to ensuring these standards are meaningful and enforceable in practice.

The Department appreciates your interest in participating in future discussions. Your lived experience offers valuable insight into how policies affect families and residents. Once again, thank you for your advocacy, for attending the oral proceeding, and for offering such meaningful input. Your experience underscores why this rulemaking is so important.

If you have any questions, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

Written Comment Regarding Assisted Living Proposed Rules Re: Memory Care

External Inbox ×

Stephanie Smith 10:35 AM (1 hour ago)

to me, thomas.salow@azdhs.gov, James, troberg@alz.org, Diane, Lavon

Good Morning,

Thank you for the opportunity to offer my written support for the new Memory Care Regulations and thank you for working so diligently with stakeholders to develop a plan that requires facilities offering memory care services to do more to protect the health, dignity and lives of our loved ones who suffer with dementia.

Caring for someone with dementia is complicated and the behavior and needs of each person living with dementia varies greatly. When my dad was first admitted into a residential facility, he was very high functioning in terms of hygiene, eating independently, and could do math problems faster than most people twenty years younger. He knew which hands won in poker and cracked jokes often. He loved to be outside, go for walks and was very mobile. He didn't always know what state he was in, thought his mother who had been gone for many years visited him frequently, and wanted to know how you "got points" in this place. He was restless and anxious. He would recognize people one day and not the next, becoming fearful as he worried about those he loved. The "Other Chris" , as my mom called Dad when he slipped away into this alternate reality, still had core qualities of her "Chris". He was protective of people he loved and would find himself in situations that were not safe, such as not recognizing my mom at home and demanding that she leave because his wife (her) would be home soon, and it was not okay that a strange woman was in their house. The "Other Chris" needed to be cared for by people well trained to help those suffering with this awful, awful disease.

When our family began to look for a placement for Dad, we were in crisis. Because Dad was so high functioning, we wanted to find a facility whose residents looked like peers of Dad's, hoping that he would make friends and find a community. The facility we chose offered independent living, assisted living and memory care. It was vibrant and the sales manager who gave us a tour spoke of veteran's events in the other areas that Dad could attend, they showed us an activity schedule that listed several card games (not offered to the memory care residents but we didn't know that at the time) and we saw the memory care residents coming in from watching kayak races in the pool. One of the residents was dripping water as staff cheerfully toweled up the floor and explained that he had wanted to go swimming. The facility appeared to have flexibility, be resident centered and professed competence in dementia training and all of the medical needs that Dad would require. We discussed our various choices and made a decision to enroll Dad.

Over the next three months as Dad lived in this facility it was increasingly obvious that this facility offering "memory care" services had no idea how to care for dad appropriately. They advised us not to call or visit for the first week to allow him to acclimate to his new environment. This went against everything our hearts told us to do, but they were the experts, so we listened. They called us just a few days after admitting Dad to tell us that he was being taken to the hospital for a psych evaluation because he had tried to commit suicide by removing the razor blade from the razor that they allowed him to bring with him. When we got to the hospital, he was so happy to see us and then told us how he had been drafted into the Navy by an admiral on a boat and he felt so honored. The wounds to his arm where he tried to cut himself were incredibly superficial, but the wounds to our hearts were not.

After a stay at a geriatric psychiatric ward, he returned to the facility briefly before hallucinating that he was a prisoner in the Korean War. The staff told us that he was trying to escape to rescue his brothers by kicking at the windows. Again, he went to the hospital and again to geri-psych. I saw the video the staff took. Yes, Dad was kicking at the window. He wasn't yelling or screaming or even honestly kicking that hard. It was not out of control by any means, but they had no idea how to respond to him, called the ambulance and off he went. Upon digging into things further to understand what happened, it was revealed that his medications had not been given appropriately. We were assured that the medication issues would be addressed, and he returned back to the facility. Before too long, I got a call that Dad had climbed a tree and went over a fence but had no injuries?? After another visit to geri-psych, being evicted from the facility and the trauma that was inflicted on both Dad and our family, we found a loving home for Dad that specialized in memory care where he lived out the remainder of his life peacefully and was well taken care of by wonderful staff.

I share our story because it highlights how different dementia can look. Before living out this reality with Dad, and seeing Alzheimer's and Lewy Body firsthand, I thought dementia was a forgetfulness of time, place and people. I had no idea it could be accompanied by such fear, anxiety and delusions. The emotions the person is feeling are real to them and it is critical that staff in memory care settings are trained to deal with the behavioral issues that can accompany dementia. They also must be committed to a rigorous oversight of medication management that helps minimize the behavioral issues and unnecessary difficult emotional responses that can occur otherwise. Thank you for requiring specialized dementia training, including challenging behaviors, in these regulations as well as focusing on creating an environment that will support memory care and include meaningful activities .

Because dementia is an umbrella term referring to a group of cognitive diseases that can affect individuals needing memory care services differently, I appreciate that there is a focus on person-centered care planning in these regulations and feel that this is critical to providing the best care we can to Arizona residents. I have further questions on the implementation of R9-10-816 Section 3 that requires a medical practitioner to evaluate a specific placement every 6 months. I understand and support wholeheartedly the intention of this stipulation but ask that the implementation of this section be reviewed thoughtfully and with great care as to the practicality of receiving the signed determinations and the potential additional burden on the families.

Thank you for your time. Please feel free to contact me at any time via email or at 623-696-7061.

Kind Regards,
Stephanie Smith

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Article 1 and 8; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Smith:

Thank you for taking the time to share your family's experience and providing thoughtful feedback on the proposed memory care services rules. The Department appreciates your willingness to share your family's story and highlighting the need for the proposed memory care services rules. We are so sorry your family endured trauma while trying to find appropriate care for your father, and we're heartened to hear that he ultimately found peace and compassion in a facility truly equipped to support him.

The Department appreciates your affirmation of the new requirements in the proposed rules, including person-centered care planning, staff training in managing challenging dementia-related behaviors, and the importance of a supportive environment with meaningful activities. Your comments underscore why these standards are vital for ensuring that all residents in memory care settings receive the respect, dignity, and care they deserve.

You also raised a thoughtful concern regarding the implementation of R9-10-816(C)(3), which requires that a medical practitioner evaluate whether a specific memory care setting continues to meet a resident's needs at least every six months. We understand and share your support for the intent behind this requirement—to ensure regular reassessment of care appropriateness—but we also recognize the importance of implementing this provision in a practical and family-centered way. Your feedback about the potential burden on families and the challenges of obtaining signed medical determinations is valuable and will be carefully considered as we finalize the rules and develop supporting guidance for providers and families.

Thank you again for your engagement and continued advocacy in support of Arizona's most vulnerable residents. The Department appreciates your feedback and collaboration in this rulemaking process, and we look forward to engaging with you and other stakeholders during the upcoming rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

RE: Title 9, Chapter 10, Articles 1 and 8 (HCI & Memory Care) Notice of Proposed Rulemaking Comments

The Arizona Health Care Cost Containment System (AHCCCS) appreciates the opportunity to provide input on the proposed regulations. As committed stakeholders, we understand the potential effects these rules may have on both AHCCCS operations and the members we serve. We value the Arizona Department of Health Services' openness to feedback and offer the following observations and recommendations with the goal of promoting greater clarity and supporting positive outcomes.

Rule	Current Language	AHCCCS Comment
R9-10-101(112)	"'Opioid antagonist' means a prescription medication, as defined in A.R.S. § 32-1901, that:"	AHCCCS suggests updating this definition. At least two Opioid Antagonist medications are currently approved for over-the-counter purchase without a prescription. See A.R.S. 32-1968(H): "A pharmacist may dispense naloxone hydrochloride or any other opioid antagonist that is approved by the United States food and drug administration on the receipt of a standing order pursuant to section 36-2266."
R9-10-122(A)(1)(g)(ii)(13)	"Strategies to improve staff retention and job satisfaction;"	AHCCCS believes it would be appropriate to include recruitment efforts alongside the existing focus on staff retention.

R9-10-122(A)(1)(g)(ii)(15)	"Room assignments, operations, and environmental standards or;"	AHCCCS recommends that the curriculum also include topics related to creating dementia-friendly environments to help address challenging behaviors while promoting residents' dignity, comfort, and emotional well-being. For example, incorporating strategies such as the therapeutic use of music or environmental modifications to reduce elopement—such as placing a dark, solid-colored doormat in front of exit doors—can be effective approaches.
R9-10-122(B)	"The memory care services training program shall include in-person components and may incorporate online components. The in-person component shall include a demonstration of the individual's skills and knowledge necessary to provide memory care services."	AHCCCS believes this should include evaluating/testing any skills or competencies gained through the use of an online platform.
R9-10-801(5)	"'Elopement' means when a resident who is cognitively, physically, mentally, emotionally, or chemically impaired wanders away, walks away, runs away, or otherwise leaves the premises of an assisted living facility authorized to provide directed care services unsupervised or unnoticed, without the knowledge of the licensee's personnel."	AHCCCS recommends rephrasing this statement to include situations in which assisted living staff are aware of an elopement attempt but are unable to prevent it, as well as instances where the resident is able to evade staff detection.
R9-10-816(A)(1)(c)	"Systems to accommodate visitors, staff, and residents who do not need controlled egress;"	AHCCCS believes there should be a clear explanation of controlled egress, defined as a safety measure in which exit doors are designed to delay or restrict a resident's ability to leave a secured area. This approach is

		commonly used in memory care settings to help prevent unsafe wandering or elopement, while still allowing for safe exit during emergencies in compliance with fire and life safety codes.
R9-10-816(A)(1)(j)	"Specialized accommodations and progressive support for activities of daily living tailored to persons living with dementia following evidence-based best practices;"	AHCCCS believes it should be clearly stated that these accommodations and progressive supports are intended to be individualized, tailored to meet each person's unique needs and circumstances.
R9-10-816(A)(6)	"If applicable, staffing is increased to compensate for the evaluated care and service needs of residents at move-in or for the changing physical or cognitive needs of the residents."	AHCCCS suggests "service needs" be replaced with "individualized service needs."

If you have any questions or need additional clarification regarding our comments, please feel free to contact me at AHCCCSRules@azahcccs.gov. We truly appreciate your time and thoughtful consideration of AHCCCS's input.

Sincerely,

Sladjana Kuzmanovic

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Articles 1 and 8; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Kuzmanovic:

Thank you for taking the time to review the proposed rules in A.A.C. Title 9, Chapter 10, Articles 1 and 8 and providing your feedback. Below, are the Department's responses to your comments:

A.A.C. R9-10-101(112)
The Department believes you may have meant to cite A.A.C. R9-10-101(153) for the definition of 'opioid antagonist.' This rulemaking is focused on the provisions in HB2764 and is not amending the definition of 'opioid antagonist' as that would be outside of the scope of this rulemaking. However, the Department has noted your comment for possible discussion in future rulemakings.

A.A.C. R9-10-122(A)(1)(g)(ii)(13)
Thank you for your suggestion as to what the training topic for "strategies to improve staff retention and job satisfaction" may also include. The Department believes that recruitment efforts could be included within this training topic, but would not require a rule change.

A.A.C. R9-10-122(A)(1)(g)(ii)(15)
A.A.C. R9-10-122(A)(1)(g)(ii) specifies that any additional relevant topics, which may include evidence-based information or facility-specific information. The topic list in A.A.C. R9-10-122(A)(1)(g)(ii)(15) are examples of training topics that would be appropriate. The intent of the rule was to be as flexible as possible and allow for a wide range of evidence-based topics.

A.A.C. R9-10-122(B)
A.A.C. R9-10-122(A)(1)(e)(ii)(3) specifies that the testing method used to verify an individual has acquired the stated skills for each topic is required to be submitted to the Department in the application.

Thank you for your comments and recommendations on the rules in **A.A.C. R9-10-801**. The Department does not plan to amend the definition of elopement at this time. The Department may take this into consideration in the final rulemaking package.

The Department appreciates your feedback and collaboration in this rulemaking process. If you have any questions regarding this response, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

Lucinda Sallaway, Senior Rules Analyst

Arizona Department of Health Services

Steve Wagner <swagner@rightcare.org> 11:57 AM (56 minutes ago)
to me

Lucinda Sallaway,
Please accept this email as my LOS for the ADHS Rulemaking process relating to "Memory Care Services". The spirit of AZ HB2764 can only be realized with effective rules that allow effective enforcement and compliance. Intent of HB2764;

- Defining "Memory Care Services" and making strong requirements around this definition
- Encourage compliance by increasing penalties for bad actors by doubling the maximum allowable fine amount and allowing the Department to fine based upon the number of residents impacted
- Add "Elopement" to the definitions and provide new rules that allow the Department to hold HCIs and caregivers accountable for patient safety and wellbeing as wandering poses significant risk to residents with cognitive disability

We all want to age well and safely. This rulemaking process can make quality of life better for vulnerable Arizonans. Thank you for your time and consideration.

Respectfully,
Steve

RE: NOTICE OF PROPOSED RULEMAKING 9 A.A.C. 10, ARTICLES 1 AND 8
TITLE 9 HEALTH SERVICES, CHAPTER 10 DEPARTMENT OF HEALTH SERVICES - HEALTH CARE INSTITUTIONS LICENSING

Thomas Salow, Assistant Director
Arizona Department of Health Services Public Health Licensing
150 N. 18th Ave., Suite 500
Phoenix, AZ 85007-3248

April 8, 2025

Dear Assistant Director Salow,

The Alzheimer's and Related Disorders Association (Alzheimer's Association) strongly supports the proposed rules and urges the Department of Health Services and the Governor's Regulatory Review Council to finalize the rulemaking package with the non-substantive changes recommended in this letter. We want to express our sincere gratitude to you and your staff for the numerous stakeholder meetings and feedback sessions you've held on these rules The rules are urgently needed. Thank you for the opportunity to share comments with the Arizona Department of Health Services regarding the proposed rulemaking docket related to Health Care Institutions Licensing, 9 A.A.C. 10, Articles 1 and 8.

Founded in 1980, the Alzheimer's Association is the world's leading voluntary health organization in Alzheimer's care, support, and research. The Alzheimer's Association leads the way to end Alzheimer's and all other dementia — by accelerating global research, driving risk reduction and early detection, and maximizing quality care and support. The Alzheimer's Association is a renowned subject matter expert in this field.

Dementia is an overall term for a particular group of symptoms. The characteristic symptoms of dementia are difficulties with memory, language, problem-solving and other thinking skills that affect a person's ability to perform everyday activities. Changes to the brain cause dementia, and many different brain changes can lead to dementia. Dementia is a general term for memory loss and other cognitive abilities serious enough to interfere with daily life. Alzheimer's disease is the most common cause of dementia. Other common causes of dementia are related neurodegenerative disorders including cerebrovascular disease, frontotemporal degeneration, Hippocampal sclerosis, Lewy body disease, and Parkinson's disease. When an individual shows the brain changes of more than one cause of dementia, "mixed pathologies" are considered the cause.

Alzheimer's is a progressive neurodegenerative brain disease that causes problems with memory, thinking, and activities of daily living, and progresses over time. In its early stages, memory loss can be mild, but with late-stage Alzheimer's, individuals lose the ability to carry on a conversation and respond to their environment. On average, a person with Alzheimer's lives 4 to 8 years after diagnosis but can live as long as 20 years, depending on other factors. Age is the number one risk factor for Alzheimer's disease. At age 45, the lifetime risk for developing Alzheimer's is 20% for women and 10% for men. The prevalence of Alzheimer's continues to rise due to the aging population, a number which continues to grow at an alarming pace. Last year, an estimated 151,500 Arizonans over the age of 65 were living with

Alzheimer's. By 2028, the number of Arizonans aged 65+ will outnumber those under the age of 18[1].

People living with Alzheimer's are high users of long-term care services. People living with Alzheimer's are nearly five times more likely to need skilled nursing facility care and three times more likely to require home health care as individuals without the condition. Nationally, forty-two percent of residents living in residential care facilities had Alzheimer's or other dementias in 2020, up from 34% in 2016.[2] [3]

Individuals with Alzheimer's have needs that often make care delivery challenging and more demanding. Nearly 9 out of 10 Medicare beneficiaries with Alzheimer's disease or other dementias have at least one other chronic condition. Additionally, they are more likely than those without dementia to have other chronic conditions.[4] Caring for someone with multiple chronic conditions— especially when that includes dementia —significantly complicates the care needed. As the disease progresses, individuals are unable to complete activities of daily living (such as eating, dressing, and bathing) without assistance. Over time, people with Alzheimer's will lose the ability to use words and may communicate their needs through behavior, which presents added challenges for care workers.

Dementia training of those involved in the delivery of care can improve the quality of care and experiences for individuals with Alzheimer's and other dementias. A cornerstone of providing quality dementia care is to ensure that all professional care staff involved in the delivery of care to people with dementia receive dementia-specific training.

Dementia training should ensure that care workers have the ability to: provide person-centered dementia care; Communicate effectively with individuals with Alzheimer's; address behavioral symptoms, including alternatives to physical and chemical restraints; and address specific aspects of safety, such as wandering. Periodic continuing education is also needed to ensure that care workers have the latest information on best practices in the care of those with dementia.

H.B. 2764, the landmark Health Care Institution reform bill of 2024, was created out of necessity to address enforcement loopholes and the lack of direction in memory care. These systemic failures resulted in well-documented cases of abuse and neglect of vulnerable adults living in licensed residential facilities.[5] [6] [7] Senator Tim Dunn (*then-Representative Tim Dunn*) heard first-hand of the struggles during his time as co-chair of the bi-partisan ad-hoc study committee on vulnerable adults. He introduced H.B. 2764 to bridge the gap between building owners and patient advocacy groups. Media reports increased and several high profile cases were investigated and reported on by the Arizona Republic, resulting in public scrutiny and outcry for change. Prior to now, buildings licensed to provide directed care services advertised the services as memory care services without uniform regulations defining what memory care services meant. Often, memory care services meant the facility had a locked door. With over 2,000 facilities throughout the state licensed to provide directed services care, care standards varied widely. Some facilities excelled at providing quality care while others faltered. The Alzheimer's Association received hundreds of phone calls and emails from families who were desperately seeking quality care for their loved ones. It was clear that the time was right to create standards for memory care in order to raise the bar across the state. After several months of negotiations, H.B. 2764 was passed by the Arizona State Legislature with broad bipartisan support and was signed into law by Governor Katie Hobbs in the spring of 2024.

Over the last two years, the Alzheimer's Association participated heavily and offered subject matter expertise in the

development of the proposed memory care services regulations to improve policies regarding safety and quality of care for people living with dementia in licensed Assisted Living Facilities. The Alzheimer's Association held listening sessions, examined current research, best practices in other states, and worked with stakeholders to find common ground in this legislation and proposed rule package. We have made concessions along the way to meet the industry in the middle, and the result is this package. Last year, the Alzheimer's Association provided Committee testimony and our advocates rallied in support of H.B. 2764 and now for the subsequent rulemaking package. As of the writing of this letter, over 115 letters of support from Alzheimer's Association advocates have been emailed to the Arizona Department of Health Services, many of these letters include personal stories of loved ones living in assisted living facilities and the importance of adopting the proposed rules.

Comments on the Proposed Memory Care Rules, Overall

Memory Care Services are defined in statute as "services that support individuals with dementia and other progressive and neurodegenerative brain disorders, including specialized environmental features, care planning, directed care services, medication administration services, specialized accommodations, activity programming or other services required by the department in rule."[8] The proposed Memory Care rules follow the statute and are appropriate. The proposed rules will result in better care for people living with dementia in assisted living facilities and will ensure care providers have specialized dementia training because the package aligns with several core principles of the Alzheimer's Association's Dementia Care Practice Recommendations[9] (DCPRs). The final recommendations were developed by 27 dementia care experts convened by the Alzheimer's Association. They are based on a comprehensive review of current evidence, best practices, and expert opinion. In addition, the recommendations were informed by individuals living in the early stages of Alzheimer's and other dementias.[10]

Dementia Care Practice Recommendations	The proposed rules on Memory Care services include: o Fundamentals of person-centered care o Assessment and care planning o Ongoing care for behavioral and psychological symptoms of dementia o Supportive and therapeutic environments o Ancillary services / coordination of services o Information, education, and support o Staffing o Support of activities in daily living o Medical management

Comments by Section:

To enhance the safety of residents in Assisted Living Facilities, the Alzheimer's Association endorses the Health Department's ability to enforce regulations, monitor compliance, and provide technical assistance to health care institutions, as outlined in the following sections:

R9-10-101 *Adds definition of "Immediate jeopardy" (P710)*

R9-10-102 *Adds new Section E regarding on-site monitoring (P715)*

R9-10-106 *Adds Sections H and I regarding fees for on-site monitoring and in-service training (P716)*

---

[9] Dementia Care Practice Recommendations, Alzheimer's Association, published in the Gerontologist 2017 https://www.alz.org/getmedia/1a0020aa-0bfb-47ac-a545-1dd8a3ee1444/alzheimers-dementia-care-practice-recommendations.pdf

[10] A GUIDE TO QUALITY CARE FROM THE PERSPECTIVES OF PEOPLE LIVING WITH DEMENTIA, Alzheimer's Association https://www.alz.org/getmedia/a6b80947-18cb-4daf-91e4-7f4c52d598fd/quality-care-person-living-with-dementia

R9-10-111 *Redefines sections A and B to include updated enforcement matrices and clarifies how the Department determines the final penalty, including mitigating factors. (P716)*
Table 1.2 *New section. Specifies enforcement levels, including criteria and department action. (P721)*

The following sections regarding preventing and tracking elopements are appropriate and necessary for safety and quality of care and the Association supports without comment:
R9-10-801 *Adds "memory care services" to "assisted living services", and adds new definitions for "memory care services" and "elopements".*
R9-10-803 *Adds requirement for facility governing authorities to ensure the health, safety, or welfare of a resident is not placed at risk of harm, and requires tracking/reporting of elopements.*
R9-10-819 *Adds requirement for elopement drill for employees.*

R9-10-122 *New Section. Creates the framework for memory care services training programs, including the application process, course content, and trainer qualifications. (P717-719)*
Support with comments.
This section is appropriate and necessary. Dementia care training is a cornerstone of improving quality of care. High quality evidence-based training drives the transformation of quality care. Research shows that high-quality dementia care training can lead to an improvement in communication between caregivers and individuals living with dementia, a reduction in dementia-related behaviors, and an increase in job satisfaction for staff. The Association recommends training be evidence-based, current, and recognized by subject matter experts in dementia care.

The list of subjects to be covered for dementia training curriculum within R9-10-122(A)(1)(e)(i)(2) are appropriate although it is not an exhaustive list and could be improved. However, the Department addressed our concerns through the allowance of "any additional relevant topics." The Association would recommend that additional relevant topics should include transitions of care, something which is missing from the required list but is included in the DCPRs and briefly mentioned in R9-10-808 with the addition of "ancillary services" in service planning.

Allowing the use of online evidence-based curriculums in conjunction with in-person hands-on training is appropriate and necessary, especially for rural areas without access to the same resources as urban areas. For example, the Alzheimer's Association offers a 3-hour online training which could be submitted by a facility in conjunction with 5 hours of hands-on in person training by a qualified trainer. Ensuring that the in-person component includes a demonstration of the individual's skills and knowledge necessary to provide memory care services, along with a certificate of completion and passing the exam, is necessary and appropriate. Additionally, the Association appreciates the inclusion of an annual review of training materials to ensure the most current information is utilized.

The inclusion of medication management as a topic is appropriate and relevant. Common comorbidities can negatively impact a person living with dementia, and conversely, a diagnosis of dementia can make the treatment and management of comorbid conditions quite challenging. Nonmedical care providers should encourage persons living with dementia and their families to report acute changes in health and function to the person's physician, and to let the physician know about difficulties they encounter in managing acute and chronic comorbidities at home or in a residential care facility.

NON-SUBSTANTIVE CHANGES REQUESTED:

For clarity and to ensure high-quality dementia care training curriculums recognized by subject matter experts[11] can be fast-tracked, we recommend updating:

> R9-10-122 (A)(1)(e)(i)(1) Updating from "Dementia care training curriculum from a nationally recognized organization; or"
> to "Dementia care training curriculum that has current recognition by a national non-profit health organization renowned as experts in Alzheimer's care, support and research, and whose curriculum recognition is based on a comprehensive review of current evidence, best practice and expert opinion; or"

Including the importance of supportive and therapeutic environments listed in other sections and in the statute, we recommend updating:

> R9-10-122(A)(1)(e)(i)(2)(cc) "Managing challenging behaviors such as aggression, wandering, and agitation;"
> to "Preventing and care of behavioral and psychological symptoms of dementia, including but not limited to night disturbances, aggression, wandering, and agitation;"

R9-10-123 *New section. Specifies the procedures for notifying the Department of changes to the Memory Care Services training program (P719)*
Support; no comments.

R9-10-124 *New section. Specifies the training program must have a designated administrator and parameters for the department's access to records (P719)*
Support; no comments.

R9-10-125 *New section. Specifies parameters for eligibility for memory care services trainer (P719-720)*
Support with comments:
Ensuring a qualified dementia care trainer is necessary; however parts of this section refer to trademarked certifications. For clarity, the Alzheimer's Association recommends the Department remove R9-10-125 Section A completely and R9-10-125 Section B(2). However, if this is considered a substantive change that would delay the rulemaking process it is not something we recommend.

R9-10-126 *New section. Specifies the parameters of the certificate of completion for both the applicant and the individual receiving the certificate. (P720)*
Support; no comments.

—

The Association supports the following proposed sections specific to Memory Care Services as necessary, appropriate, evidence-based, and they should be implemented with minor changes recommended below. The sections intertwine to provide wraparound comprehensive memory care services as recommended by the Dementia Care Practice Recommendations.
R9-10-808 *Adds that resident service plans must be established, documented, and implemented; adds ancillary services to be listed in the service plan.*
This section is important because of the requirement that service plans be implemented and for residents and includes the addition of ancillary services. The inclusion of ancillary services aligns with the DCPRs on coordination of care, and supports the language in R9-10-815.

[11] The Alzheimer's Association dementia care training curriculum review offers professional long-term and community-based care providers and training companies the opportunity to submit their training programs for review. Curriculum is reviewed against the Dementia Care Practice Recommendations, the benchmark for quality care.Current list of recognized dementia training programs ready for use:
https://www.alz.org/professionals/professional-providers/dementia-care-training-certification/recognized-dementia-care-training-programs

R9-10-815 *Includes new inclusions for memory care services resident service plans.*
This section is appropriate, necessary, and aligns with the statutory requirements for memory care services and the DCPRs for person-centered assessment and care planning[12]:

1. Perform regular, comprehensive person-centered assessments and timely interim assessments
2. Use assessment as an opportunity for information gathering, relationship-building, education, and support
3. Approach assessment and care planning with a collaborative, team approach
4. Use documentation and communication systems to facilitate the delivery of person-centered information between all care providers
5. Encourage advance planning to optimize physical, psychosocial, and fiscal wellbeing and to increase awareness of all care options, including palliative care and hospice

To strengthen the rules, the Association recommends updating the service plan requirements for memory care services to ensure the plans are evidence-based:

R9-10-815(8)(a) from "Identification of specialized environmental features …" to
"Identification of specialized evidence-based environmental features …"
R9-10-815(b) from "Strategies for providing person-centered care …" to
"Evidence-based strategies for providing person-centered care …"
R9-10-815(8)(c) from "Strategies for administering medications as ordered." to
"Strategies for administering medications as ordered and care

R9-10-816 *Adds new regulations for memory care services requiring Assisted living facilities providing directed care services to establish and implement comprehensive policies and procedures for memory care, ensure adequate staffing and training, and incorporate specialized environmental features to support residents with dementia.*
The Alzheimer's Association strongly supports this section because it aligns with the memory care statute and the dementia care practice recommendations. The requirements are appropriate and necessary, and we recommend adopting all of them. There are several provisions that will profoundly improve quality of care and safety of residents by aligning with current research, evidence, and best practices from the DCPRs.Some of these sections include:

R9-10-816(A)(1-3) regarding policies, activities, and appropriateness of placement are appropriate and thorough. These provisions take into consideration the needs of people living with dementia and person-centered care planning. Well-trained staff, preventative safety measures, person-centered care planning, and supportive and therapeutic environments will reduce challenging dementia behaviors. It is important to see the world from the perspective of the individual living with dementia. Doing so recognizes behavior as a form of communication, thereby promoting effective and empathetic communication that validates feelings and connects with the individual in his/her reality.[13]

R9-10-816(A)(4-6) regarding staffing:
A review of scholarly literature on this subject verifies that there is a clear association between higher levels of licensed staff and higher quality of care. A resident's individual outcomes (including the presence of weight loss, bed sores and general functional ability), is regularly linked to staffing and there is an association between higher turnover rates and lower quality of care.[14] Requiring awake caregivers at night is essential due to well-documented dementia related

---

[12] Dementia Care Practice Recommendations P84-85
https://www.alz.org/getmedia/1a0020aa-0bfb-47ac-a545-1dd8a3ee1444/alzheimers-dementia-care-practice-recommendations.pdf

[13] The Fundamentals of Person-Centered Care for Individuals With Dementia Sam Fazio, PhD,* Douglas Pace, NHA, Janice Flinner, MS, and Beth Kallmyer, MSW
https://www.alz.org/getmedia/1a0020aa-0bfb-47ac-a545-1dd8a3ee1444/alzheimers-dementia-care-practice-recommendations.pdf

[14] 2024 Facts and Figures Report, Alzheimer's Association, originally cited to Bostick JE, Rantz MJ, Flesner MK, Riggs CJ. Systematic review of studies of staffing and quality in nursing homes. J Am Med Dir Assoc. 2006 Jul;7(6):366-76. doi: 10.1016/j.jamda.2006.01.024. Epub 2006 Apr 25. PMID: 16843237

behaviors called "sundowning" and "night disturbances." Sundowning is increased confusion that people living with Alzheimer's and dementia may experience from dusk through night. Also called "sundowner's syndrome," it is not a disease but a set of symptoms or dementia-related behaviors that may include difficulty sleeping, anxiety, agitation, hallucinations, pacing and disorientation. Although the exact cause is unknown, sundowning may occur due to disease progression and changes in the brain. Regarding night disturbances, many people with Alzheimer's wake up more often and stay awake longer during the night. Brain wave studies show decreases in both dreaming and non-dreaming sleep stages. Those who cannot sleep may wander, be unable to lie still, or yell or call out, disrupting the sleep of their caregivers. Caregivers must be both awake and trained to address these challenging dementia-related symptoms.[15]

R9-10-816(B-C) Regarding training hours and certificates conform with statutory requirements and are appropriate.

R9-10-816(D-E) These sections align with previous sections in the proposed rules specific to service plans and the requirements are supported by the DCPRs on Person-centered assessment and care planning.

R9-10-816(G) regarding therapeutic and supportive environments aligns with the evidence-based research and best practices in the DCPRs on supportive and therapeutic environments:

1. Create a sense of community within the care environment. The environment should support building relationships with others as a result of sharing common attitudes, interests, and the goals of the individuals living with dementia, their caregivers, and other care providers.
2. Enhance comfort and dignity for everyone in the care community. It is important that members of the care community are able to live and work in a state of physical and mental comfort free from pain or restraint. Environments are designed to maintain continuity of self and identity through familiar spaces that support orientation to place, time, and activity.
3. Provide opportunities for choice for all persons in the care community. The environment can provide opportunities for self-expression, and self-determination, reinforcing the individual's continued right to make decisions for him/herself.
4. Offer opportunities for meaningful engagement to members of the care community. Relationships are built on knowing the person, which itself is based on doing things together.

Recommended minor changes:

R9-10-816(A) Consider adding a requirement that policies are regularly reviewed and updated as necessary to improve resident safety and quality of care.

R9-10-816(A)(3)(a) Consider adding "and after any hospitalization or other significant change requiring a transition in care or level of care."

R9-10-816 (Repealed) and R9-10-817 *This section includes the repealed language from R9-10-816, and adds procedures for memory care services, exceptions for naloxone nasal spray storage, and guidelines for donated medicine.*
Support with no comment.

Thank you for the opportunity to comment on the proposed rules, and for your consideration of our comments and recommendations. To be clear, if any of the recommendations we make would result in substantive changes that would delay the rules process, we respectfully request the Department move forward without those changes. It is often said in public policy that perfect is the enemy of good. The rules are good, they are necessary, and they need to move forward without further delay.

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Article 1 and 8; Response to Stakeholder Comment on Proposed Rules

Dear Ms. Roberg:

Thank you for your thoughtful and detailed comments on the proposed memory care services rules. The Department sincerely appreciates the Alzheimer's Association's support of this rulemaking effort. Your recommendations reflect a deep commitment to improving the safety, quality, and consistency of care for individuals who need memory care services. The Department values your subject matter expertise, as well as the voices of your advocates and community members who have shared personal experiences throughout this process. Your collaboration has been instrumental in shaping meaningful, evidence-based regulations that uphold the intent of HB2764 and promote person-centered care across Arizona's assisted living facilities.

The Department has carefully reviewed your recommended non-substantive revisions. The suggestions regarding the clarification of dementia care training curriculum in R9-10-122(A)(1)(e)(i)(1), language updates to reflect a broader scope of behavioral symptoms in R9-10-122(A)(1)(e)(i)(2)(cc), and edits to emphasize evidence-based service plan elements in R9-10-815 are well-aligned with the Dementia Care Practice Recommendations and the statutory intent of Laws 2024, Chapter 100. These changes will be considered as part of the final review.

We also acknowledge your concerns regarding references to trademarked certifications in R9-10-125 and appreciate your thoughtful approach to balancing clarity with the need to advance rulemaking efficiently. The Department is evaluating ways to maintain the intent of trainer qualifications without inadvertently favoring specific entities or introducing unnecessary delays.

The Department especially values your support for R9-10-808, R9-10-815, and R9-10-816, which form the backbone of individualized, coordinated, and high-quality care for residents with dementia. Your organization's emphasis on person-centered care, staff training, and therapeutic environments is echoed throughout these rules, and we are grateful for your partnership in bringing this framework to life.

Thank you again for your continued engagement, collaboration, and leadership. We look forward to implementing these rules in a way that advances high-quality care, supports caregivers, and improves the lives of those living with Alzheimer's and other dementias across our state. If you have any questions, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

facebook.com/aarparizona

Hello, my name is Brendon Blake and I'm the Director of Advocacy for AARP here in Arizona. I'm here today to share our support for the proposed Rules. First, I'd like to thank the Department for the work that they've done in drafting these proposed Rules, and for seriously considering the input that we and other stakeholders have provided throughout the process.

AARP as a stakeholder has been involved in finding improvements to our Long-Term Care System for years, and we see this as an incredible opportunity to continue to push ourselves forward.

We have participated in Task Forces, Study Committees, and legislative stakeholder meetings all with the intent of seeing the quality of care for patients and residents improved, while making sure to hold those who harm these vulnerable people accountable for their actions.

Regarding these specific rulemaking meetings with the industry, advocates, and the Department we have provided comments at every opportunity. These comments have been taken into consideration by the Department and while not all have been accepted we have appreciated those that were accepted. Again, we want to reiterate that we support the Rules as currently drafted and emphasize that we believe that the Department has come to a fair compromise.

I would also like to discuss a few issues that were presented at the Oral Hearing, April 8th, that is important to address.

1. **Directed Care & Memory Care Services**

During the stakeholder process for HB 2764, the enabling legislation for the current rulemaking, AARP had originally wished for "Memory Care Services" to either be a designated subsection of "Directed Care Services" or a new, higher level of care. We argued for this with then-Rep. Dunn due to our belief that currently "Directed Care" doesn't address the additional needs of theose suffering from neurodegenerative conditions. However, after the industry had suggested that all facilities be held to that standard, we ultimately agreed. I was surprised to hear in the April 8th meeting that the industry now has concerns with this approach. We believe that the approach outlined in the draft should continue forward as the standard.

2. **Critical Need**

As discussed, the need here is absolutely critical. No-Sen. Dunn recognized the need for this legislation and dedicated hours of negotiating to make sure that we were able to find a compromise. We are concerned that the issues raised today, some of which are new and should have been discussed in previous stakeholder meetings, is an attempt to prevent these proposed Rules from taking effect. We believe that the process, both at the legislature and at the Department have been rigorous and have provided ample opportunities for community and stakeholder feedback.

Next, I'd like to highlight our support in areas that we believe are paramount to improving quality of care and ensuring the protection of patients and residents of these facilities:

1. **Memory Care Services**

As a key part of the intent behind the enabling legislation, HB2764, creating definitions and requirements around what it means to provide Memory Care Services is the foundation under which we can provide critical care to people who are experiencing cognitive decline as a result of a neurodegenerative condition. As we see more and more of our population aging in Arizona and the US broadly, and the correlation between age and neurodegenerative conditions, the need to establish strong training and care requirements cannot be understated.

2. **Increased Enforcement**

Another large part of the enabling legislation from last year was around making sure that an appropriate deterrent was available to the Department. AARP has been very troubled by the reports that facilities have seen fines as nothing more than "The cost of doing business," rather than a real punishment for bad actors. We believe that, as we do in other areas of our society, providing a strong deterrent to acting badly will yield the results of moving some of these facilities into more compliance. We believe that giving the Department the tools it needs, coupled with good decision-making on their part, will usher in more compliance with various facilities who have shown patterns of noncompliance. We should never find ourselves in a position where an entity like the Attorney General's Office should have to step in.

3. **Elopements**

For those who have had experience with or knowledge of neurodegenerative conditions, you know that one behavior that may present itself is wandering. When I and my wife were support group facilitators for families caring for a loved one with a neurodegenerative condition, we heard all sorts of solutions to prevent wandering as well as plenty of scary stories that those solutions were borne out of. We support the proposed Rule around adding "Elopement," and the subsequent requirements to the Rules as we believe that facilities do have a responsibility, regarding patients and residents who may wander and

get lost, to put into place prevention mechanisms and and respond quickly when such things do occur.

In conclusion, we believe that these Rules are a strong step forward to improving care in our state and support the Rules as drafted. These improvements are a necessity to the growing need for care in our state, both as we see more people with neurodegenerative conditions and to ensure that quality of care given to these individuals is at the highest possible level. We look forward to the Department being able to implement these updates to the Rules

Thank you for your time and consideration.

Re: Arizona Administrative Code (A.A.C.) Title 9, Chapter 10. Department of Health Services – Health Care Institutions: Licensing, Article 1 and 8; Response to Stakeholder Comment on Proposed Rules

Dear Mr. Blake:

Thank you for your thoughtful letter and your participation in the rulemaking process. The Department appreciates AARP's continued engagement and advocacy. We are grateful for your support of the proposed rules.

Your acknowledgment of the Department's efforts to engage with stakeholders throughout this process is deeply appreciated. The collaborative input provided by AARP and other advocates has been instrumental in shaping the current draft. The Department appreciates your recognition of the Department's work to find balance and compromise in the development of standards for memory care services. Strong training and care standards are essential to the delivery of high-quality memory care services.

With respect to enforcement, we agree that meaningful deterrents are a necessary component of an effective regulatory system. The tools provided through the enabling legislation and reinforced in the rules are intended to promote accountability and improve compliance.

Your comments regarding elopement are also well taken. The Department agrees that facilities have a responsibility to implement prevention strategies and respond promptly to elopement incidents. We appreciate your personal reflections and the support you and your wife have offered to families navigating these challenges.

Thank you again for your time, your advocacy, and your commitment to improving care for Arizona's most vulnerable residents. We look forward to continued collaboration with AARP as we work to implement the new rules. If you have any questions, please contact the Office of Administrative Counsel and Rules at 602-542-1020.

Sincerely,

Lucinda Sallaway

Ms. Jessica Klien
Chairperson
Governor's Regulatory Review Council
100 North 15th Ave., Ste. 305
Phoenix, AZ, 85007

RE: Healthcare Institution Rulemaking

Dear Chairperson Klien,

As you may be aware, the Arizona Department of Health Services has submitted a proposed rulemaking to the Governor's Regulatory Review Council (GRRC), relating to long-term and memory care, as established under Laws 2024, Chapter 100.

We are providing this letter in support of the proposed rules that were promulgated as a result of the above referenced legislation and subsequent stakeholder meetings conducted by ADHS. This correspondence is intended to provide some additional context we believe is important for you to consider in this decision.

Regarding the proposed rules, we believe that they are a fair representation of the original legislative stakeholder process and of the input provided by all parties during the open meetings that were conducted by ADHS for the drafting of the proposed rules. In addition, we believe that the process by which ADHS considered the proposed rules was transparent and were open to discussion and feedback during both the meetings held and in the comment periods in which stakeholders were afforded additional opportunity to provide written feedback.

As one might suspect, AARP Arizona has been at the table throughout the stakeholder conversations on this issue for the past two years. In addition, during the legislative debate, legislators received thousands of emails and telephone calls from AARP. At present, over 2,000 individuals have signed a petition expressing their collective support for the submitted rules that are under GRRC review.

It is our position that these proposed rules, for which ample time has been provided to discuss concerns, should be adopted with no additional substantive changes. Recognizing the difficulty associated with the subject matter, I believe it would be beneficial to provide additional context on the history of this issue, particularly as related to the increase in the civil money penalties and need for on-site monitoring, the new category of "memory care services."

History

AARP Arizona has been a part of this effort since 2018, as triggered by the tragic and disturbing incident that occurred at Hacienda in which a woman with intellectual and developmental disabilities was sexually assaulted by a staff member, ultimately becoming pregnant, which went unnoticed until she was delivering the child.

Since then, we have seen a number of both high-profile and under-the-radar cases of great concern. These range from additional cases of sexual assault, a case in which one resident suffered a gruesome death at the hands of another resident, and instances of residents wandering away from their facilities. In the case of these individuals wandering, there are examples where individuals have left the facilities without shoes and suffered severe burns, have fallen, and in some cases have died.

These types of issues have drawn the attention of the *Arizona Republic,* which published a series of articles on this industry and some of the worst issues within it. In addition, we have seen the ultimate backstop in the form of the Attorney General stepping in as a last resort to protect the residents of some facilities. As we continue to see these types of issues arise consistently, we believe that action must be taken to mitigate the harm being caused.

Increased Fines & On-Site Monitoring

As part of our efforts, we've been invested in raising care standards by trying to give ADHS the tools it needs to both support facilities who want to do the right thing, but may need some additional guidance to do so, and to have effective and reasonable enforcement mechanisms for when facilities are found to be out of substantial compliance. Unfortunately, we have heard from the department during the stakeholder conversations on the proposed rules that, regarding the current level of financial penalties available to ADHS, some facilities have responded with nonchalance to the $500 or even $1,000 fine levels. We believe that it is unacceptable for facilities to be able to effectively ignore such laws or regulations as merely the "cost of doing business". The increases laid out in the legislation, which have been further clarified by the proposed rules, provide the Department with the tools necessary to properly address such cavalier behavior.

In addition, those facilities that wish to provide high-quality care and to be in compliance with Arizona's laws and regulations but need some support in doing so, will now have a path forward. The introduction of on-site monitoring, not as a punishment tool, but an opportunity for facilities to partner with the Department to address these issues for a simple fee.

Memory Care Services

In Arizona, Alzheimer's Disease and Related Dementias (ADRD) are being diagnosed at an alarming rate. As we have learned more about the disease and the variations of Dementias, we have been able to more accurately diagnose which allows us to also create unique care plans. Historically, however, there has been no guidance on elevated levels of care, requisite knowledge

to provide care, or any requirements to administer care for those with these types of diagnosis. While some facilities raised their level of competence to meet this great need, this was not the case for all. These new rules provide strong definitions around what "memory care services" is, the training that staff an managers need to have in order to provide care, and lays out some additional requirements that will ultimately raise the quality of care for all residents.

Additional Context

Unfortunately, we have observed actions and remarks made by the industry that attempts to obscure or otherwise influence the process and the original intent of the enabling legislation.

An example of such obfuscation can be found during the final stakeholder meeting at ADHS on the rules on April 8th, in which we were surprised and equally disappointed to hear the industry arguing against raising the "Directed Care Services" level of care to include "Memory Care Services" rather than have "Memory Care Services" as a separate and new level. This was in contrast to the industry's previous position during the legislative stakeholder process in which the industry had argued that creating a new level of care would mean additional fees and licensure requirements. In addition, during this meeting, the industry discussed new items of concern on language that has been present throughout the draft process.

From our perspective, there are additional examples of a pattern in which the industry would frequently move the proverbial goal posts when policy issues got resolved – it was never enough. We believe that these are attempts to not only make the process more confusing for regulators, but also to delay the implementation or ultimately change the proposed rules to reflect something that was not intended in the enabling legislation.

Accordingly, we respectfully encourage GRRC to approve the proposed rulemaking package submitted by the department, as in doing so it will move Arizona forward in raising the quality of care for all of Arizona's most vulnerable who live in these facilities.

If you have any questions, please do not hesitate to contact me or the AARP Arizona Advocacy Director, Brendon Blake (bblake@aarp.org).

Thank you, in advance, for your consideration.

Sincerely,

Dana Marie Kennedy, MSW
State Director, AARP Arizona

Re: May 28, 2025 GRRC Study Session – Proposed DHS, Title 9, Chapter 10, Article 1 & 8 Rules

Chairperson Klein,

On behalf of The Hampton Group Inc., a Scottsdale based development corporation that owns, controls and manages senior living facilities throughout Arizona, we submit the following comments regarding the proposed Department of Health Services, Title 9, Chapter 10, Articles 1 & 8 Rules. As a former state legislator, I never supported the idea of exempting an executive agency (DHS) from the GRRC rule-making process, as I believe it is detrimental to the public interest, diminishes public input and participation, and vests too much authority in the bureaucracy. For that reason alone, but also for the concerns raised by the other stakeholders and our objections delineated below, we strongly encourage the Commission not allow the rules package to move forward until these issues have been satisfactorily addressed.

The Hampton Group Inc. believes the proposed rules go beyond the statutory authority granted by the Arizona legislature in 2024 under Laws 2024, Chapter 100 (HB 2764) are not clear, concise, and understandable to the general public.

1. **Establishing minimum training standards for memory care trainer eligibility.** As enacted, HB 2764 establishes a minimum training standard of eight hours of initial memory care services training and four hours of annual continuing education. Additionally, the standards for assisted living facility managers must include a minimum of four hours of training specifically for assisted living facility managers. The legislation only requires DHS to approve memory care services training **programs**, not memory care trainers and their eligibility.
   The proposed rule, R9-10-125, grossly exceeds DHS's authority by establishing the "memory care trainer" position and the eligibility to qualify for that role. We stress here again, the legislation only requires DHS to approve memory services **programs** (Laws 2024, Chapter 100, page 2, lines 45 and 45). These provisions exceed the statutory authority of DHS, and there is no demonstrable evidence to justify and support the inclusion of these criteria prescribed by DHS.

2. **Establishing memory care as a separate level of care, a mitigation model for civil monetary penalties, and on-site monitoring conditions beyond statutory authority.** The Hampton Group Inc. strongly concurs with the concerns expressed by other stakeholders regarding these crucial matters. All are additional egregious examples

of DHS exceeding its authority, and why the rule package must not be allowed to move forward. Identifying memory care services as a fourth level of care was considered but not enacted by the legislature; a mitigation model was required to be developed but is severely lacking in the rule package, and HB 2674 does not provide for authority for on-site monitoring of substantially compliant facilities.

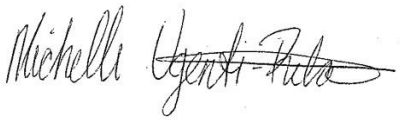
The Hampton Group Inc. respectfully requests GRRC not allow the rules package to move forward until these deficiencies and concerns are rectified:

1. Eliminate R9-10-125 regarding memory care trainers and their eligibility. HB 2764 only requires DHS to approve training programs.
2. Eliminate R9-10-816 and establish a civil monetary penalty model and an on-site monitoring model that comply with statute.

It is the opinion of The Hampton Group Inc. that this endeavor was not borne from a perspective of addressing a systemic problem that could be addressed in other ways, but to simply satisfy a political and media problem on the backs of the industry with little to no meaningful input from those financially impacted by an out-of-control bureaucracy. Specifically, by circumventing the process in the Administrative Procedures Act, GRRC will have no input into evaluating the actual financial and economic impact of these rules. Lastly, this rule-making package clearly exceeds the authority granted it by HB 2764 and should not move forward without significant modification and improvement.

Creating a rule package of this consequence requires significant industry participation and time, which this endeavor was not afforded. This wrong can be resolved by not moving this package forward and giving it the effort it requires and deserves. We stand ready to participate in any meaningful way.

Sincerely,



Michelle Ugenti-Rita

Re: GRRC May 28 Study Session - Proposed DHS, Title 9, Chapter 10, Articles 1 & 8 rules

Chairperson Klein,

I have been working in Senior Living, Assisted Living and Skilled Nursing care for over 30 years. I am writing to you today to implore you not to move the proposed DHS, Title 9, Chapter 10, Articles 1 and 8 rules package forward due to several very concerning aspects.

First, let me be clear that after many conversations with multiple operators in the state, all of us support strengthening our Assisted Living services across Arizona. Assisted Living is fast becoming the alternative to higher cost skilled care. People entering Assisted Living today, would have been entering a skilled nursing home 10 years ago. Many operators are successfully adapting to this new reality, within the existing regulations. This is not a matter of simply pushing back on new regulations. Updated regulations are a way of life for all of us and we accept them. We are all use to change.

However, the following aspects of the proposed rules are not only very concerning, they threaten the viability of Directed Care across the state. I understand Arizona Leading Age has sent a letter outlining many of the technical aspects of the flawed rules, my goal is to highlight the impacts on the operational side of providing directed care services.

First, creating another licensure category (R9-10-816) while one already exists to cover Directed Care is creating an un needed economic burden on providers that already struggle to operate these programs. Arizona is on track to be one of the top states to record nursing and caregiving shortages over the next few years. Costs continue to rise and staffing our communities continues to be a struggle as the number of certified caregivers and nurses continue to dwindle across the state. These lower applicant pools, combined with an ever-increasing minimum wage, has placed significant constraints on providers. The last thing needed is an additional licensure element.

Facilities already struggling may find themselves asking if providing this level of service is worth the effort. As our aging population rises and the need for Memory Care increase, placing operators in a position deciding if they should remain open, does nothing to enhance Memory Care across the state. In fact, it jeopardizes that service.

GREEN VALLEY

Second, DHS has not clearly stated the rules and structure in many aspects of this regulation. As stated above, we as providers are comfortable with changes, if those changes are clear, concise, workable and all parties understand their role in administering the changes. The language here is vague, not defined and many providers feel they are being unnecessarily exposed to potential citation, litigation and enforcement. Just one example in R9-10-816 is the need for "adequate supervision". Providers are already held to provide the needed, staff, care and services as outlined in a client's service plan and noted within our current regulations. This is needless and confusing duplication, again placing providers in a confusing situation that threatens the viability of these programs.

Third, the enforcement outlined is unclear and again, leaves operators at risk for violations, fines and citations as they are held accountable to undefined terms. When providers are assessing their own tolerances for risk and exposure, if the situation becomes too un manageable, providers may simply begin to curtail Memory Care services within their organizations. At the risk of restating the obvious, the state will need more providers offering this service in the future for a healthy Arizona, not less.

I hope that you will pause the forward motion and allow these items to be addressed. Providers want to work with regulators so we all succeed in our collective mission of offering high quality services for our Arizona seniors. Please review the Arizona Leading Age document as well and we are here to offer our assistance as needed.

Thank you for your time.

Re: GRRC May 28 Study Session - Proposed DHS, Title 9, Chapter 10, Articles 1 & 8 rules

Chairperson Klein,

On behalf of Arizona LeadingAge (AZLA), we submit the following comments regarding the proposed Department of Health Services, Title 9, Chapter 10, Articles 1 & 8 rules. AZLA believes that certain provisions of the proposed rules go beyond the statutory authority granted by the Arizona legislature in 2024 under Laws 2024, Chapter 100 (HB 2764), and in other cases are not clear, concise and understandable to the general public.

1. **Establishing memory care as a separate level of care goes beyond DHS' authority specified in HB 2764 -** The Legislature considered but did not enact memory care services as a separate level of care (the three Assisted Living levels of care already exist as: Supervisory Care, Personal Care and Directed Care). In contrast to HB 2764, the proposed DHS rules carve out memory care services as an additional, separate level of care, effectively creating a fourth level of care within Assisted Living. Further, staffing mandates were considered by the Legislature but were not enacted by the legislature.

2. **DHS proposed rules do not clearly implement the requirement in HB 2764 to develop a mitigation model for civil monetary penalties -** HB 2764 required DHS to develop a mitigation model but DHS largely repeated the statutory language of what the model should include; the result is that mitigation factors are basically non-existent as they only contemplate if an infraction did not occur;

3. **The DHS rules to establish conditions for when DHS can impose on-site monitoring go beyond statutory authority -** HB 2764 requires DHS to establish a model to provide on-site monitoring only for facilities not in substantial compliance; in contrast, the DHS rules provide for on-site monitoring for those facilities that are in substantial compliance.

Memory Care is not a separate level of care – The proposed rule, R9-10-816, creating Memory Care Services, is in conflict with statute and legislative intent. Although creating a separate level of care for Memory Care was considered by the Legislature, the Legislature rejected Memory Care as a separate level of care. Assisted living facilities are licensed based on the provided level of care provided by the licensed facility as either: Supervisory Care, Personal Care; or Directed Care Services. Directed Care is the highest level of care, and Memory Care is fully included as part of Directed Care Services.

Proposed rule R9-10-816 should be deleted in its entirety as it creates confusion, is not based on the statute and is contrary to legislative history. Instead, adding Memory Care standards to R9-10-815, Directed Care Services, along with the other existing Memory Care service requirements already outlined, would fulfill HB 2764 requirements.

Eliminating R9-10-816 will also eliminate the subjective staffing requirement to provide "adequate supervision." This standard is overly subjective, fails the requirement that rules be "clear and concise," and introduces liability risks for the facilities. Current assisted living rules effectively require staffing implicitly by requiring licensed

facilities to meet residents' needs as outlined in residents' service plans regardless of their level of care and to follow all other service, care, training and facility requirements specified in current rules and statutes. Service

plans for residents are updated as the residents' needs change. Directed Care Service plans are updated at least every 3 months. In addition, removing R9-10-816 will eliminate redundancies that will create confusion, unnecessary steps, and increased costs.

Rules do not clearly implement the HB 2764 civil monetary penalty mitigation model – The civil monetary penalty mitigation model in the proposed rules does not follow the new statutory provisions in HB 2764 and additionally fails the "clear and concise" test. A more detailed scope and severity matrix specific to assisted living is what was contemplated in the stakeholder process for HB 2764. The proposed mitigation model lacks the necessary details to support consistent and proportional enforcement. The Department was provided with a matrix which reflects the complexity and variation of deficiencies in this setting. Similar matrices were provided during the development of HB 2764. Stakeholders were told that rather than including a matrix in statute it would be better in DHS rules. This model does not provide for varying degrees of scope and severity and transparency.

Rules establishing on-site monitoring conditions go beyond statutory authority – The rule providing for on-site monitoring conflicts with the statutory provisions in HB 2764 and lacks clarity. During the development of HB 2764, the subject of DHS providing on-site monitoring was discussed. On-site monitoring was established for facilities with egregious infractions and facilities not in "substantial compliance." (Substantial compliance, as defined in statute, means a facility whose violations do not pose a direct risk to the life, health or safety of patients or residents.) In contrast to the statute, the model clearly provides for on-site monitoring for those facilities that would be found to be in substantial compliance.

Arizona LeadingAge respectfully requests GRRC not allow the rules package to move forward until these deficiencies are corrected:

1. Eliminate R9-10-816 as it is beyond the scope of authority granted by the legislature. Memory Care services is part of Directed Care.
2. Establish a civil monetary penalty model that complies with the statute.
3. Establish an on-site monitoring model that complies with the statute.

Please let us know if we can answer any questions or provide any additional information.

Respectfully,

Marie Isaacson

To: Governor's Regulatory Review Council

Regarding: Proposed Memory Care Rules

Date: 5/23/2025

Greetings Council Members,

I am an Assisted Living Manager overseeing a 181 bed Assisted Living Center in the west valley. This work and service to the greater geriatric community is critical and the need for quality and affordable care is increasing as baby boomers enter the market. Please consider the burdens associated with the proposed rules that will significantly impact all industry participants such owners, caregivers, managers, care recipients, and their families. The intention of this letter is to respectfully request a delay in the effective date or eliminate the proposed rules for Memory Care Services and the related training requirement:

1. It is not necessary to add a fourth level of care as provisions for memory care are well covered in the current rules under (R9-10-815) Directed Care Services and is defined as
    a. Programs and services, including personal care, provided to persons who are incapable of recognizing danger, summoning assistance, or making basic care decisions
2. The proposed rules include significant redundancy and are highly subjective such as R9-10-821(H.3).
    a. Residents do not use, have access to, or participate in the use of any materials, furnishings, equipment, activities, or treatments that may pose a threat to their health or safety.
3. It is certainly common sense that there is an increased level of safety interventions, but this rule puts providers at risk of citations, enforcement and subsequent civil penalties depending on individual interpretations [by surveyors]. Alternatively, the current rule requiring the facility to keep toxic materials locked up is clear and concise.
4. The enforcement matrix is not reasonable and only serves to widen the gap that already exists between providers and The Department. The approval of such significant civil penalties, training, and daily monitoring do not align with The Departments purpose to improve public health, rather it erodes trust between The Department and providers.
5. The Memory Care training requirements of concern as providers still are not clear on the rules (if approved). We also do know what or where the training programs will be offered. To apply to be an approved training program is complex and I am guessing many providers will choose to send staff to the training programs rather than trying to become a trainer and maintain program requirements. This will create significant financial burdens. Training is and always has been included in the current certified caregiving curriculum.

6. Additionally, The Department is also unable to answer specific questions as noted at the recent industry conference where a very brave DHS Representative spoke to the audience and said, "I also want to know about the memory care rules" or couldn't answer the question stating, "That is above my pay grade". How can providers possibly be ready for implementation by July when we cannot get answers from the very people who are writing the rules?

Thank you for your time and consideration!

Sincerely,

Carla Tover, BSc Sociology

Dear GRRC Chair and Council Members,

I urge you to reconsider and pause the proposed rules for assisted living facilities until critical issues are addressed. As the Executive Director at The Terraces of Phoenix, we deeply value the GRRC's dedication to quality care and are concerned about the potential negative impacts on our ability to provide quality care for Arizona's seniors. We share your commitment to ensuring the highest quality of care for Arizona Seniors.

We urgently request the GRRC to consider the following:

Key Issues with Proposed Rules

Eliminate R9-10-816: This rule, which creates a new and unnecessary fourth level of care for memory care, exceeds statutory authority. Memory care services are already covered under "Directed Care." This proposed change would introduce an undefined and duplicative level of care, leading to significant economic burden for providers like us. For example, this change could require us to hire additional specialized staff.

Align Civil Monetary Penalty (CMP) Structure with Statute: The proposed CMP structure needs to be revised to align with current statute and offer fair, consistent enforcement. Without this, providers will face unclear and potentially inequitable penalties.

Develop a Compliant On-Site Monitoring Process: The current proposal for on-site monitoring lacks clarity and would place an undue burden on providers. The lack of clarity on monitoring frequency and criteria could result in inconsistent enforcement. We need a process that complies with legislative intent and provides clear expectations, not one that leaves us vulnerable to citations without proper guidance.

These proposed changes would profoundly affect our organization. The economic burden of an undefined fourth level of care would divert resources away from vital resident services. Furthermore, the lack of clarity from ADHS regarding rule implementation leaves us exposed to citations without clear guidance, creating an environment of significant uncertainty and risk. Ultimately, these changes could severely impact our ability to serve residents and sustain our operations, directly affecting the well-being of the seniors we care for.

We look forward to working together to address these issues. Thank you for your time and attention to this critical matter.

Sincerely yours,
Mariele

Phoenix, AZ 85007

Re: Concerns Regarding Draft DHS Rules – HB2764 Implementation

Dear Chairperson Klein,

On behalf of our client, Arizona ALFA, I'm writing to urge that the current draft memory care rules developed from HB2764 be returned to the Arizona Department of Health Services for revision.

The proposed rules, while well-intended, contain several major oversteps and ambiguities that must be addressed before moving forward:

Creating a Fourth Level of Care: The draft rules establish Memory Care as a new, separate level of care. This goes beyond legislative intent. The legislature specifically considered—but rejected—creating Memory Care as a standalone category. Memory Care is already incorporated under Directed Care, the highest existing level of service. Adding another level only creates confusion, inconsistency, and unintended regulatory consequences.

Overly Burdensome and Vague Training Requirements: The proposed standards introduce subjective staffing requirements like "adequate supervision," which are not clearly defined. This opens the door to liability, inconsistent enforcement, and unnecessary cost burdens on providers without improving care outcomes.

The minimum training requirements should focus on what needs to be taught and the duration of the training. However, the proposed draft goes beyond that by prescribing who can serve as a certified trainer. This exceeds the "minimum training" scope outlined in the statute and would create a substantial financial burden on communities.

As an example, the draft rules allow someone without a bachelor's degree to serve as a trainer if they have three years of experience, but they must also meet four additional requirements.

Additionally, requiring individuals to pass a test goes beyond the scope of minimum training and instead ventures into demonstrating proficiency. The legislation states that the department will review and approve training programs, which will then issue a "certificate of completion." There is no mention of a test being required to obtain the certificate.

Lack of a Comprehensive Model for Civil Penalties: HB2764 directed DHS to create a model for assessing civil penalties. However, the model included in the proposed rules provides no meaningful guidance or framework to evaluate the scope and severity of infractions. As written, it fails to deliver the proportionality, transparency, and consistency discussed during stakeholder meetings.

On-Site Monitoring for Compliant Communities: The current draft improperly allows DHS to impose on-site monitoring on facilities that are in substantial compliance, which conflicts with the clear intent of HB2764. The statute states: "The director shall establish a model in rule for the department to monitor health care institutions on-site that are found to not be in substantial compliance."

The statute defines substantial compliance as when "the nature or number of violations revealed by any type of inspection or investigation of a health care institution does not pose a direct risk to the life, health or safety of patients or residents." In contrast, the proposed rules would allow on-site monitoring based on the potential for more than minimal physical or psychosocial harm, a standard that goes beyond what the law permits.

In light of these concerns, we respectfully ask that the rules package be returned to DHS with the following directives:

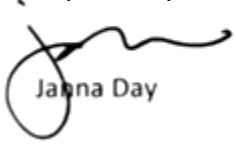
1. Eliminate R9-10-816. Memory Care is part of Directed Care—not a new category.
2. Develop a civil penalty model that reflects legislative intent and includes a true scope and severity matrix.
3. Limit on-site monitoring to facilities not in substantial compliance, in alignment with statute.

These corrections are essential to ensure the rules are lawful, clear, and implementable for providers across Arizona.

We remain committed to working with DHS and GRRC to support safe, high-quality assisted living, and we appreciate your leadership in ensuring that rules align with legislative authority and operational reality.

Please let me know if I can answer questions or provide further insight.

Respectfully,



Jenna Day

CC: Karen Barno, AZ ALFA President

ARTICLE 1. GENERAL

R9-10-101. Definitions

In addition to the definitions in A.R.S. §§ 36-401(A) and 36-439, the following definitions apply in this Chapter unless otherwise specified:

1. "Abortion clinic" has the same meaning as in A.R.S. § 36-449.01.
2. "Abuse" means:
   a. The same:
      i. For an individual 18 years of age or older, as in A.R.S. § 46-451; and
      ii. For an individual less than 18 years of age, as in A.R.S. § 8-201;
   b. A pattern of ridiculing or demeaning a patient;
   c. Making derogatory remarks or verbally harassing a patient; or
   d. Threatening to inflict physical harm on a patient.
3. "Accredited" has the same meaning as in A.R.S. § 36-422.
4. "Active malignancy" means a cancer for which:
   a. A patient is undergoing treatment, such as through:
      i. One or more surgical procedures to remove the cancer;
      ii. Chemotherapy, as defined in A.A.C. R9-4-401; or
      iii. Radiation treatment, as defined in A.A.C. R9-4-401;
   b. There is no treatment; or
   c. A patient is refusing treatment.
5. "Activities of daily living" means ambulating, bathing, toileting, grooming, eating, and getting in or out of a bed or a chair.
6. "Acuity" means a patient's need for medical services, nursing services, or behavioral health services based on the patient's medical condition or behavioral health issue.
7. "Acuity plan" means a method for establishing nursing personnel requirements by unit based on a patient's acuity.
8. "Adjacent" means not intersected by:
   a. Property owned, operated, or controlled by a person other than the applicant or licensee; or
   b. A public thoroughfare.
9. "Administrative completeness review time-frame" has the same meaning as in A.R.S. § 41-1072.
10. "Administrative office" means a location used by personnel for recordkeeping and record retention but not for providing medical services, nursing services, behavioral health services, or health-related services.
11. "Admission" or "admitted" means, after completion of an individual's screening or registration by a health care institution, the individual begins receiving physical health services or behavioral health services and is accepted as a patient of the health care institution.
12. "Adult" has the same meaning as in A.R.S. § 1-215.
13. "Adult behavioral health therapeutic home" means a residence that provides room and board, assists in acquiring daily living skills, coordinates transportation to scheduled appointments, monitors behaviors, assists in the self-administration of medication, and provides feedback to a case manager related to behavior for an individual 18 years of age or older based on the individual's behavioral health issue and need for behavioral health services and may provide behavioral health services under the clinical oversight of a behavioral health professional.
14. "Adult residential care institution" means a subclass of behavioral health residential facility that only admits residents 18 years of age and older and provides recidivism reduction services.
15. "Adverse reaction" means an unexpected outcome that threatens the health or safety of a patient as a result of a medical service, nursing service, or health-related service provided to the patient.
16. "Affiliated counseling facility" means a counseling facility that shares administrative support with one or more other counseling facilities that operate under the same governing authority.
17. "Affiliated outpatient treatment center" means an outpatient treatment center authorized by the Department to provide behavioral health services that provides administrative support to a counseling facility or counseling facilities that operate under the same governing authority as the outpatient treatment center.
18. "Alternate licensing fee due date" means the last calendar day in a month each year, other than the anniversary date of a facility's health care institution license, by which a licensee is required to pay the applicable fees in R9-10-106.
19. "Ancillary services" means services other than medical services, nursing services, or health-related services provided to a patient.
20. "Anesthesiologist" means a physician granted clinical privileges to administer anesthesia.
21. "Applicant" means a governing authority requesting:
   a. Approval of a health care institution's architectural plans and specifications for construction or modification,
   b. Approval of a modification,
   c. Approval of an alternate licensing fee due date, or
   d. A health care institution license.
22. "Application packet" means the information, documents, and fees required by the Department for the:
   a. Approval of a health care institution's architectural plans and specifications for construction or modification,
   b. Approval of a modification,

Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

c. Approval of an alternate licensing fee due date, or
d. Licensing of a health care institution.

23. "Assessment" means an analysis of a patient's need for physical health services or behavioral health services to determine which services a health care institution will provide to the patient.
24. "Assistance in the self-administration of medication" means restricting a patient's access to the patient's medication and providing support to the patient while the patient takes the medication to ensure that the medication is taken as ordered.
25. "Attending physician" means a physician designated by a patient to participate in or coordinate the medical services provided to the patient.
26. "Authenticate" means to establish authorship of a document or an entry in a medical record by:
    a. A written signature;
    b. An individual's initials, if the individual's written signature appears on the document or in the medical record;
    c. A rubber-stamp signature; or
    d. An electronic signature code.
27. "Authorized service" means specific medical services, nursing services, behavioral health services, or health-related services provided by a specific health care institution class or subclass for which the health care institution is required to obtain approval from the Department before providing the medical services, nursing services, or health-related services.
28. "Available" means:
    a. For an individual, the ability to be contacted and to provide an immediate response by any means possible;
    b. For equipment and supplies, physically retrievable at a health care institution; and
    c. For a document, retrievable by a health care institution or accessible according to the applicable time-frames in this Chapter.
29. "Behavioral care"
    a. Means limited behavioral health services, provided to a patient whose primary admitting diagnosis is related to the patient's need for physical health services, that include:
        i. Assistance with the patient's psychosocial interactions to manage the patient's behavior that can be performed by an individual without a professional license or certificate including:
            (1) Direction provided by a behavioral health professional, and
            (2) Medication ordered by a medical practitioner or behavioral health professional; or
        ii. Behavioral health services provided by a behavioral health professional on an intermittent basis to address the patient's significant psychological or behavioral response to an identifiable stressor or stressors; and
    b. Does not include court-ordered behavioral health services.
30. "Behavioral health facility" means a behavioral health inpatient facility, a behavioral health residential facility, a substance abuse transitional facility, a behavioral health specialized transitional facility, an outpatient treatment center that only provides behavioral health services, an adult behavioral health therapeutic home, a behavioral health respite home, or a counseling facility.
31. "Behavioral health inpatient facility" means a health care institution that provides continuous treatment to an individual experiencing a behavioral health issue that causes the individual to:
    a. Have a limited or reduced ability to meet the individual's basic physical needs;
    b. Suffer harm that significantly impairs the individual's judgment, reason, behavior, or capacity to recognize reality;
    c. Be a danger to self;
    d. Be a danger to others;
    e. Be persistently or acutely disabled, as defined in A.R.S. § 36-501; or
    f. Be gravely disabled.
32. "Behavioral health issue" means an individual's condition related to a mental disorder, a personality disorder, substance abuse, or a significant psychological or behavioral response to an identifiable stressor or stressors.
33. "Behavioral health observation/stabilization services" means crisis services provided, in an outpatient setting, to an individual whose behavior or condition indicates that the individual:
    a. Requires nursing services,
    b. May require medical services, and
    c. May be a danger to others or a danger to self.
34. "Behavioral health paraprofessional" means an individual who is not a behavioral health professional who provides the following services to a patient to address the patient's behavioral health issue:
    a. Under supervision by a behavioral health professional, services that, if provided in a setting other than a health care institution, would be required to be provided by an individual licensed under A.R.S. Title 32, Chapter 33; or
    b. Health-related services.
35. "Behavioral health professional" means:
    a. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:
        i. Independently engage in the practice of behavioral health, as defined in A.R.S. § 32-3251; or
        ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health, as defined in A.R.S. § 32-3251, under direct supervision as defined in A.A.C. R4-6-101;
    b. A psychiatrist as defined in A.R.S. § 36-501;
    c. A psychologist as defined in A.R.S. § 32-2061;

d. A physician;
e. A behavior analyst as defined in A.R.S. § 32-2091; or
f. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse; or
g. A registered nurse with:
   i. A psychiatric-mental health nursing certification, or
   ii. One year of experience providing behavioral health services.

36. "Behavioral health residential facility" means a health care institution that provides treatment to an individual experiencing a behavioral health issue that:
    a. Limits the individual's ability to be independent, or
    b. Causes the individual to require treatment to maintain or enhance independence.
37. "Behavioral health respite home" means a residence where respite care services, which may include assistance in the self-administration of medication, are provided to an individual based on the individual's behavioral health issue and need for behavioral health services.
38. "Behavioral health specialized transitional facility" means a health care institution that provides inpatient behavioral health services and physical health services to an individual determined to be a sexually violent person according to A.R.S. Title 36, Chapter 37.
39. "Behavioral health technician" means an individual who is not a behavioral health professional who provides the following services to a patient to address the patient's behavioral health issue:
    a. With clinical oversight by a behavioral health professional, services that, if provided in a setting other than a health care institution, would be required to be provided by an individual licensed under A.R.S. Title 32, Chapter 33; or
    b. Health-related services.
40. "Benzodiazepine" means any one of a class of sedative-hypnotic medications, characterized by a chemical structure that includes a benzene ring linked to a seven-membered ring containing two nitrogen atoms, that are commonly used in the treatment of anxiety.
41. "Biohazardous medical waste" has the same meaning as in A.A.C. R18-13-1401.
42. "Calendar day" means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, statewide furlough day, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, statewide furlough day, or legal holiday.
43. "Case manager" means an individual assigned by an entity other than a health care institution to coordinate the physical health services or behavioral health services provided to a patient at the health care institution.
44. "Certification" means, in this Article, a written statement that an item or a system complies with the applicable requirements incorporated by reference in R9-10-104.01.
45. "Certified health physicist" means an individual recognized by the American Board of Health Physics as complying with the health physics criteria and examination requirements established by the American Board of Health Physics.
46. "Change in ownership" means conveyance of the ability to appoint, elect, or otherwise designate a health care institution's governing authority from an owner of the health care institution to another person.
47. "Chief administrative officer" or "administrator" means an individual designated by a governing authority to implement the governing authority's direction in a health care institution.
48. "Clinical laboratory services" means the biological, microbiological, serological, chemical, immunohematological, hematological, biophysical, cytological, pathological, or other examination of materials derived from the human body for the purpose of providing information for the diagnosis, prevention, or treatment of a disease or impairment of a human being, or for the assessment of the health of a human being, including procedures to determine, measure, or otherwise describe the presence or absence of various substances or organisms in the body.
49. "Clinical oversight" means:
    a. Monitoring the behavioral health services provided by a behavioral health technician to ensure that the behavioral health technician is providing the behavioral health services according to the health care institution's policies and procedures and, if applicable, a patient's treatment plan;
    b. Providing on-going review of a behavioral health technician's skills and knowledge related to the provision of behavioral health services;
    c. Providing guidance to improve a behavioral health technician's skills and knowledge related to the provision of behavioral health services; and
    d. Recommending training for a behavioral health technician to improve the behavioral health technician's skills and knowledge related to the provision of behavioral health services.
50. "Clinical privileges" means authorization to a medical staff member to provide medical services granted by a governing authority or according to medical staff bylaws.
51. "Collaborating health care institution" means a health care institution licensed to provide outpatient behavioral health services that has a written agreement with an adult behavioral health therapeutic home or a behavioral health respite home to:

a. Coordinate behavioral health services provided to a resident at the adult behavioral health therapeutic home or a recipient at a behavioral health respite home, and
b. Work with the provider to ensure a resident at the adult behavioral health therapeutic home or a recipient at a behavioral health respite home receives behavioral health services according to the resident's treatment plan.

52. "Common area" means licensed space in health care institution that is:
    a. Not a resident's bedroom or a residential unit,
    b. Not restricted to use by employees or volunteers of the health care institution, and
    c. Available for use by visitors and other individuals on the premises.
53. "Communicable disease" has the same meaning as in A.R.S. § 36-661.
54. "Conspicuously posted" means placed:
    a. At a location that is visible and accessible; and
    b. Unless otherwise specified in the rules, within the area where the public enters the premises of a health care institution.
55. "Consultation" means an evaluation of a patient requested by a medical staff member or personnel member.
56. "Contracted services" means medical services, nursing services, behavioral health services, health-related services, ancillary services, or environmental services provided according to a documented agreement between a health care institution and the person providing the medical services, nursing services, health-related services, ancillary services, or environmental services.
57. "Contractor" has the same meaning as in A.R.S. § 32-1101.
58. "Controlled substance" has the same meaning as in A.R.S. § 36-2501.
59. "Counseling" has the same meaning as "practice of professional counseling" in A.R.S. § 32-3251.
60. "Counseling facility" means a health care institution that only provides counseling, which may include:
    a. DUI screening, education, or treatment according to the requirements in 9 A.A.C. 20, Article 1; or
    b. Misdemeanor domestic violence offender treatment according to the requirements in 9 A.A.C. 20, Article 2.
61. "Court-ordered evaluation" has the same meaning as "evaluation" in A.R.S. § 36-501.
62. "Court-ordered treatment" means treatment provided according to A.R.S. Title 36, Chapter 5.
63. "Crisis services" means immediate and unscheduled behavioral health services provided to a patient to address an acute behavioral health issue affecting the patient.
64. "Current" means up-to-date, extending to the present time.
65. "Daily living skills" means activities necessary for an individual to live independently and include meal preparation, laundry, house-cleaning, home maintenance, money management, and appropriate social interactions.
66. "Danger to others" has the same meaning as in A.R.S. § 36-501.
67. "Danger to self" has the same meaning as in A.R.S. § 36-501.
68. "Detoxification services" means behavioral health services and medical services provided to an individual to:
    a. Treat the individual's signs or symptoms of withdrawal from alcohol or other drugs, and
    b. Reduce or eliminate the individual's dependence on alcohol or other drugs.
69. "Diagnostic procedure" means a method or process performed to determine whether an individual has a medical condition or behavioral health issue.
70. "Dialysis" means the process of removing dissolved substances from a patient's body by diffusion from one fluid compartment to another across a semipermeable membrane.
71. "Dialysis services" means medical services, nursing services, and health-related services provided to a patient receiving dialysis.
72. "Dialysis station" means a designated treatment area approved by the Department for use by a patient receiving dialysis or dialysis services.
73. "Dialyzer" means an apparatus containing semi-permeable membranes used as a filter to remove wastes and excess fluid from a patient's blood.
74. "Disaster" means an unexpected occurrence that adversely affects a health care institution's ability to provide services.
75. "Discharge" means a documented termination of services to a patient by a health care institution.
76. "Discharge instructions" means documented information relevant to a patient's medical condition or behavioral health issue provided by a health care institution to the patient or the patient's representative at the time of the patient's discharge.
77. "Discharge planning" means a process of establishing goals and objectives for a patient in preparation for the patient's discharge.
78. "Discharge summary" means a documented brief review of services provided to a patient, current patient status, and reasons for the patient's discharge.
79. "Disinfect" means to clean in order to prevent the growth of or to destroy disease-causing microorganisms.
80. "Documentation" or "documented" means information in written, photographic, electronic, or other permanent form.
81. "Drill" means a response to a planned, simulated event.
82. "Drug" has the same meaning as in A.R.S. § 32-1901.
83. "Electronic" has the same meaning as in A.R.S. § 44-7002.
84. "Electronic signature" has the same meaning as in A.R.S. § 44-7002.
85. "Emergency" means an immediate threat to the life or health of a patient.
86. "Emergency medical services provider" has the same meaning as in A.R.S. § 36-2201.
87. "Emergency services" means unscheduled medical services provided in a designated area to an outpatient in an emergency.
88. "End-of-life" means that a patient has a documented life expectancy of six months or less.

89. "Environmental services" means activities such as housekeeping, laundry, facility maintenance, or equipment maintenance.
90. "Equipment" means, in this Article, an apparatus, a device, a machine, or a unit that is required to comply with the specifications incorporated by reference in R9-10-104.01.
91. "Exploitation" has the same meaning as in A.R.S. § 46-451.
92. "Factory-built building" has the same meaning as in A.R.S. § 41-4001.
93. "Family" or "family member" means an individual's spouse, sibling, child, parent, grandparent, or another individual designated by the individual.
94. "Follow-up instructions" means information relevant to a patient's medical condition or behavioral health issue that is provided to the patient, the patient's representative, or a health care institution.
95. "Food services" means the storage, preparation, serving, and cleaning up of food intended for consumption in a health care institution.
96. "Full-time" means 40 hours or more every consecutive seven calendar days.
97. "Garbage" has the same meaning as in A.A.C. R18-13-302.
98. "General consent" means documentation of an agreement from an individual or the individual's representative to receive physical health services to address the individual's medical condition or behavioral health services to address the individual's behavioral health issues.
99. "General hospital" means a subclass of hospital that provides surgical services and emergency services.
100. "Gravely disabled" has the same meaning as "grave disability" in A.R.S. § 36-501.
101. "Habilitation services" means activities provided to an individual to assist the individual with habilitation, as defined in A.R.S. § 36-551.
102. "Hazard" or "hazardous" means a condition or situation where a patient or other individual may suffer physical injury.
103. "Health care directive" has the same meaning as in A.R.S. § 36-3201.
104. "Hemodialysis" means the process for removing wastes and excess fluids from a patient's blood by passing the blood through a dialyzer.
105. "Home health agency" has the same meaning as in A.R.S. § 36-151.
106. "Home health aide" means an individual employed by a home health agency to provide home health services under the direction of a registered nurse or therapist.
107. "Home health aide services" means those tasks that are provided to a patient by a home health aide under the direction of a registered nurse or therapist.
108. "Home health services" has the same meaning as in A.R.S. § 36-151.
109. "Hospice inpatient facility" means a subclass of hospice that provides hospice services to a patient on a continuous basis with the expectation that the patient will remain on the hospice's premises for 24 hours or more.
110. "Hospital" means a class of health care institution that provides, through an organized medical staff, inpatient beds, medical services, continuous nursing services, and diagnosis or treatment to a patient.
111. "Immediate" means without delay.
112. "Incident" means an unexpected occurrence that harms or has the potential to harm a patient, while the patient is:
    a. On the premises of a health care institution, or
    b. Not on the premises of a health care institution but directly receiving physical health services or behavioral health services from a personnel member who is providing the physical health services or behavioral health services on behalf of the health care institution.
113. "Infection control" means to identify, prevent, monitor, and minimize infections.
114. "Infectious tuberculosis" has the same meaning as "infectious active tuberculosis" in A.A.C. R9-6-101.
115. "Informed consent" means:
    a. Advising a patient of a proposed treatment, surgical procedure, psychotropic medication, opioid, or diagnostic procedure; alternatives to the treatment, surgical procedure, psychotropic medication, opioid, or diagnostic procedure; and associated risks and possible complications; and
    b. Obtaining documented authorization for the proposed treatment, surgical procedure, psychotropic medication, opioid, or diagnostic procedure from the patient or the patient's representative.
116. "In-service education" means organized instruction or information that is related to physical health services or behavioral health services and that is provided to a medical staff member, personnel member, employee, or volunteer.
117. "Interdisciplinary team" means a group of individuals consisting of a resident's attending physician, a registered nurse responsible for the resident, and other individuals as determined in the resident's comprehensive assessment or, if applicable, placement evaluation.
118. "Intermediate care facility for individuals with intellectual disabilities" or "ICF/IID" has the same meaning as in A.R.S. § 36-551.
119. "Interval note" means documentation updating a patient's:
    a. Medical condition after a medical history and physical examination is performed, or
    b. Behavioral health issue after an assessment is performed.

120. "Isolation" means the separation, during the communicable period, of infected individuals from others, to limit the transmission of infectious agents.
121. "Leased facility" means a facility occupied or used during a set time period in exchange for compensation.
122. "License" means:
    a. Written approval issued by the Department to a person to operate a class or subclass of health care institution at a specific location; or
    b. Written approval issued to an individual to practice a profession in this state.
123. "Licensed occupancy" means the total number of individuals for whom a health care institution is authorized by the Department to provide crisis services in a unit providing behavioral health observation/stabilization services.
124. "Licensee" means an owner approved by the Department to operate a health care institution.
125. "Manage" means to implement policies and procedures established by a governing authority, an administrator, or an individual providing direction to a personnel member.
126. "Medical condition" means the state of a patient's physical or mental health, including the patient's illness, injury, or disease.
127. "Medical director" means a physician who is responsible for the coordination of medical services provided to patients in a health care institution.
128. "Medical history" means an account of a patient's health, including past and present illnesses, diseases, or medical conditions.
129. "Medical practitioner" means a physician, physician assistant, or registered nurse practitioner.
130. "Medical record" has the same meaning as "medical records" in A.R.S. § 12-2291.
131. "Medical staff" means physicians and other individuals licensed pursuant to A.R.S. Title 32 who have clinical privileges at a health care institution.
132. "Medical staff bylaws" means standards, approved by the medical staff and the governing authority, that provide the framework for the organization, responsibilities, and self-governance of the medical staff.
133. "Medical staff member" means an individual who is part of the medical staff of a health care institution.
134. "Medication" means one of the following used to maintain health or to prevent or treat a medical condition or behavioral health issue:
    a. Biologicals as defined in A.A.C. R18-13-1401,
    b. Prescription medication as defined in A.R.S. § 32-1901, or
    c. Nonprescription drug as defined in A.R.S. § 32-1901.
135. "Medication administration" means restricting a patient's access to the patient's medication and providing the medication to the patient or applying the medication to the patient's body, as ordered by a medical practitioner.
136. "Medication error" means:
    a. The failure to administer an ordered medication;
    b. The administration of a medication not ordered; or
    c. The administration of a medication:
        i. In an incorrect dosage,
        ii. More than 60 minutes before or after the ordered time of administration unless ordered to do so, or
        iii. By an incorrect route of administration.
137. "Mental disorder" means the same as in A.R.S. § 36-501.
138. "Mobile clinic" means a movable structure that:
    a. Is not physically attached to a health care institution's facility;
    b. Provides medical services, nursing services, behavioral health services, or health related service to an outpatient under the direction of the health care institution's personnel; and
    c. Is not intended to remain in one location indefinitely.
139. "Monitor" or "monitoring" means to check systematically on a specific condition or situation.
140. "Neglect" has the same meaning:
    a. For an individual less than 18 years of age, as in A.R.S. § 8-201; and
    b. For an individual 18 years of age or older, as in A.R.S. § 46-451.
141. "Nephrologist" means a physician who is board eligible or board certified in nephrology by a professional credentialing board.
142. "Nurse" has the same meaning as "registered nurse" or "practical nurse" as defined in A.R.S. § 32-1601.
143. "Nursing care institution administrator" means an individual licensed according to A.R.S. Title 36, Chapter 4, Article 6.
144. "Nursing personnel" means individuals authorized according to A.R.S. Title 32, Chapter 15 to provide nursing services.
145. "Observation chair" means a physical piece of equipment that:
    a. Is located in a designated area where behavioral health observation/stabilization services are provided,
    b. Allows an individual to fully recline, and
    c. Is used by the individual while receiving crisis services.
146. "Occupational therapist" has the same meaning as in A.R.S. § 32-3401.
147. "Occupational therapy assistant" has the same meaning as in A.R.S. § 32-3401.
148. "Ombudsman" means a resident advocate who performs the duties described in A.R.S. § 46-452.02.
149. "On-call" means a time during which an individual is available and required to come to a health care institution when requested by the health care institution.

150. "Opioid" means a controlled substance, as defined in A.R.S. § 36-2501, that meets the definition of "opiate" in A.R.S. § 36-2501.
151. "Opioid agonist treatment medication" means a prescription medication that is approved by the U.S. Food and Drug Administration under 21 U.S.C. § 355 for use in the treatment of opioid-related substance use disorder.
152. "Opioid antagonist" means a prescription medication, as defined in A.R.S. § 32-1901, that:
    a. Is approved by the U.S. Department of Health and Human Services, Food and Drug Administration; and
    b. When administered, reverses, in whole or in part, the pharmacological effects of an opioid in the body.
153. "Opioid treatment" means providing medical services, nursing services, behavioral health services, health-related services, and ancillary services to a patient receiving an opioid agonist treatment medication for opioid-related substance use disorder.
154. "Order" means instructions to provide:
    a. Physical health services to a patient from a medical practitioner or as otherwise provided by law; or
    b. Behavioral health services to a patient from a behavioral health professional.
155. "Orientation" means the initial instruction and information provided to an individual before the individual starts work or volunteer services in a health care institution.
156. "Outing" means a social or recreational activity that:
    a. Occurs away from the premises,
    b. Is not part of a behavioral health inpatient facility's or behavioral health residential facility's daily routine, and
    c. Lasts longer than four hours.
157. "Outpatient surgical center" means a class of health care institution that has the facility, staffing, and equipment to provide surgery and anesthesia services to a patient whose recovery, in the opinions of the patient's surgeon and, if an anesthesiologist would be providing anesthesia services to the patient, the anesthesiologist, does not require inpatient care in a hospital.
158. "Outpatient treatment center" means a class of health care institution without inpatient beds that provides physical health services or behavioral health services for the diagnosis and treatment of patients.
159. "Overall time-frame" means the same as in A.R.S. § 41-1072.
160. "Owner" means a person who appoints, elects, or designates a health care institution's governing authority.
161. "Pain management clinic" has the same meaning as in A.R.S. § 36-448.01.
162. "Participant" means a patient receiving physical health services or behavioral health services from an adult day health care facility or a substance abuse transitional facility.
163. "Participant's representative" means the same as "patient's representative" for a participant.
164. "Patient" means an individual receiving physical health services or behavioral health services from a health care institution.
165. "Patient's representative" means:
    a. A patient's legal guardian;
    b. If a patient is less than 18 years of age and not an emancipated minor, the patient's parent;
    c. If a patient is 18 years of age or older or an emancipated minor, an individual acting on behalf of the patient with the written consent of the patient or patient's legal guardian; or
    d. A surrogate as defined in A.R.S. § 36-3201.
166. "Person" means the same as in A.R.S. § 1-215 and includes a governmental agency.
167. "Personnel member" means, except as defined in specific Articles in this Chapter and excluding a medical staff member, a student, or an intern, an individual providing physical health services or behavioral health services to a patient.
168. "Pest control program" means activities that minimize the presence of insects and vermin in a health care institution to ensure that a patient's health and safety is not at risk.
169. "Pharmacist" has the same meaning as in A.R.S. § 32-1901.
170. "Physical examination" means to observe, test, or inspect an individual's body to evaluate health or determine cause of illness, injury, or disease.
171. "Physical health services" means medical services, nursing services, health-related services, or ancillary services provided to an individual to address the individual's medical condition.
172. "Physical therapist" has the same meaning as in A.R.S. § 32-2001.
173. "Physical therapist assistant" has the same meaning as in A.R.S. § 32-2001.
174. "Physician assistant" has the same meaning as in A.R.S. § 32-2501.
175. "Placement evaluation" means the same as in A.R.S. § 36-551.
176. "Pre-petition screening" has the same meaning as "prepetition screening" in A.R.S. § 36-501.
177. "Premises" means property that is designated by an applicant or licensee and licensed by the Department as part of a health care institution where physical health services or behavioral health services are provided to a patient.
178. "Prescribe" means to issue written or electronic instructions to a pharmacist to deliver to the ultimate user, or another individual on the ultimate user's behalf, a specific dose of a specific medication in a specific quantity and route of administration.
179. "Professional credentialing board" means a non-governmental organization that designates individuals who have met or exceeded established standards for experience and competency in a specific field.
180. "Progress note" means documentation by a medical staff member, nurse, or personnel member of:
    a. An observed patient response to a physical health service or behavioral health service provided to the patient,

b. A patient's significant change in condition, or
c. Observed behavior of a patient related to the patient's medical condition or behavioral health issue.

181. "PRN" means *pro re nata* or given as needed.
182. "Project" means specific construction or modification of a facility stated on an architectural plans and specifications approval application.
183. "Provider" means an individual to whom the Department issues a license to operate an adult behavioral health therapeutic home or a behavioral health respite home in the individual's place of residence.
184. "Provisional license" means the Department's written approval to operate a health care institution issued to an applicant or licensee that is not in substantial compliance with the applicable laws and rules for the health care institution.
185. "Psychotropic medication" means a chemical substance that:
    a. Crosses the blood-brain barrier and acts primarily on the central nervous system where it affects brain function, resulting in alterations in perception, mood, consciousness, cognition, and behavior; and
    b. Is provided to a patient to address the patient's behavioral health issue.
186. "Quality management program" means ongoing activities designed and implemented by a health care institution to improve the delivery of medical services, nursing services, health-related services, and ancillary services provided by the health care institution.
187. "Recovery care center" has the same meaning as in A.R.S. § 36-448.51.
188. "Referral" means providing an individual with a list of the class or subclass of health care institution or type of health care professional that may be able to provide the behavioral health services or physical health services that the individual may need and may include the name or names of specific health care institutions or health care professionals.
189. "Registered dietitian" means an individual approved to work as a dietitian by the American Dietetic Association's Commission on Dietetic Registration.
190. "Registered nurse" has the same meaning as in A.R.S. § 32-1601.
191. "Registered nurse practitioner" has the same meaning as A.R.S. § 32-1601.
192. "Regular basis" means at recurring, fixed, or uniform intervals.
193. "Rehabilitation services" means medical services provided to a patient to restore or to optimize functional capability.
194. "Research" means the use of a human subject in the systematic study, observation, or evaluation of factors related to the prevention, assessment, treatment, or understanding of a medical condition or behavioral health issue.
195. "Resident" means an individual living in and receiving physical health services or behavioral health services, including rehabilitation services or habilitation services if applicable, from a nursing care institution, an intermediate care facility for individuals with intellectual disabilities, a behavioral health residential facility, an assisted living facility, or an adult behavioral health therapeutic home.
196. "Resident's representative" means the same as "patient's representative" for a resident.
197. "Respiratory care services" has the same meaning as "practice of respiratory care" as defined in A.R.S. § 32-3501.
198. "Respiratory therapist" has the same meaning as in A.R.S. § 32-3501.
199. "Respite capacity" means the total number of children who do not stay overnight for whom an outpatient treatment center or a behavioral health residential facility is authorized by the Department to provide respite services on the premises of the outpatient treatment center or behavioral health residential facility.
200. "Respite services" means respite care services provided to an individual who is receiving behavioral health services.
201. "Restraint" means any physical or chemical method of restricting a patient's freedom of movement, physical activity, or access to the patient's own body.
202. "Risk" means potential for an adverse outcome.
203. "Room" means space contained by a floor, a ceiling, and walls extending from the floor to the ceiling that has at least one door.
204. "Rural general hospital" means a subclass of hospital:
    a. Having 50 or fewer inpatient beds,
    b. Located more than 20 surface miles from a general hospital or another rural general hospital, and
    c. Requesting to be and being licensed as a rural general hospital rather than a general hospital.
205. "Satellite facility" has the same meaning as in A.R.S. § 36-422.
206. "Scope of services" means a list of the behavioral health services or physical health services the governing authority of a health care institution has designated as being available to a patient at the health care institution.
207. "Seclusion" means the involuntary solitary confinement of a patient in a room or an area where the patient is prevented from leaving.
208. "Sedative-hypnotic medication" means any one of several classes of drugs that have sleep-inducing, anti-anxiety, anti-convulsant, and muscle-relaxing properties.
209. "Self-administration of medication" means a patient having access to and control of the patient's medication and may include the patient receiving limited support while taking the medication.
210. "Sexual abuse" means the same as in A.R.S. § 13-1404(A).
211. "Sexual assault" means the same as in A.R.S. § 13-1406(A).
212. "Shift" means the beginning and ending time of a continuous work period established by a health care institution's policies and procedures.

213. "Short-acting opioid antagonist" means an opioid antagonist that, when administered, quickly but for a small period of time reverses, in whole or in part, the pharmacological effects of an opioid in the body.
214. "Signature" means:
    a. A handwritten or stamped representation of an individual's name or a symbol intended to represent an individual's name, or
    b. An electronic signature.
215. "Significant change" means an observable deterioration or improvement in a patient's physical, cognitive, behavioral, or functional condition that may require an alteration to the physical health services or behavioral health services provided to the patient.
216. "Single group license" means a license that includes authorization to operate health care institutions according to A.R.S. § 36-422(F) or (G).
217. "Speech-language pathologist" means an individual licensed according to A.R.S. Title 36, Chapter 17, Article 4 to engage in the practice of speech-language pathology, as defined in A.R.S. § 36-1901.
218. "Special hospital" means a subclass of hospital that:
    a. Is licensed to provide hospital services within a specific branch of medicine; or
    b. Limits admission according to age, gender, type of disease, or medical condition.
219. "Student" means an individual attending an educational institution and working under supervision in a health care institution through an arrangement between the health care institution and the educational institution.
220. "Substance abuse" means an individual's misuse of alcohol or other drug or chemical that:
    a. Alters the individual's behavior or mental functioning;
    b. Has the potential to cause the individual to be psychologically or physiologically dependent on alcohol or other drug or chemical; and
    c. Impairs, reduces, or destroys the individual's social or economic functioning.
221. "Substance abuse transitional facility" means a class of health care institution that provides behavioral health services to an individual over 18 years of age who is intoxicated or may have a substance abuse problem.
222. "Substance use disorder" means a condition in which the misuse or dependence on alcohol or a drug results in adverse physical, mental, or social effects on an individual.
223. "Substance use risk" means an individual's unique likelihood for addiction, misuse, diversion, or another adverse consequence resulting from the individual being prescribed or receiving treatment with opioids.
224. "Substantial" when used in connection with a modification means:
    a. An addition or removal of an authorized service;
    b. The addition or removal of a colocator;
    c. A change in a health care institution's licensed capacity, licensed occupancy, respite capacity, or the number of dialysis stations;
    d. A change in the physical plant, including facilities or equipment, that costs more than $300,000; or
    e. A change in the building where a health care institution is located that affects compliance with:
        i. Applicable physical plant codes and standards incorporated by reference in R9-10-104.01, or
        ii. Physical plant requirements in the specific Article in this Chapter applicable to the health care institution.
225. "Substantive review time-frame" means the same as in A.R.S. § 41-1072.
226. "Supportive services" has the same meaning as in A.R.S. § 36-151.
227. "Surgical procedure" means the excision of or incision in a patient's body for the:
    a. Correction of a deformity or defect;
    b. Repair of an injury; or
    c. Diagnosis, amelioration, or cure of disease.
228. "Swimming pool" has the same meaning as "semipublic swimming pool" in A.A.C. R18-5-201.
229. "System" means interrelated, interacting, or interdependent elements that form a whole.
230. "Tapering" means the gradual reduction in the dosage of a medication administered to a patient, often with the intent of eventually discontinuing the use of the medication for the patient.
231. "Tax ID number" means a numeric identifier that a person uses to report financial information to the United States Internal Revenue Service.
232. "Telemedicine" has the same meaning as in A.R.S. § 36-3601.
233. "Therapeutic diet" means foods or the manner in which food is to be prepared that are ordered for a patient.
234. "Therapist" means an occupational therapist, a physical therapist, a respiratory therapist, or a speech-language pathologist.
235. "Time-out" means providing a patient a voluntary opportunity to regain self-control in a designated area from which the patient is not physically prevented from leaving.
236. "Transfer" means a health care institution discharging a patient and sending the patient to another licensed health care institution as an inpatient or resident without intending that the patient be returned to the sending health care institution.
237. "Transport" means a licensed health care institution:
    a. Sending a patient to a receiving licensed health care institution for outpatient services with the intent of the patient returning to the sending licensed health care institution, or

b. Discharging a patient to return to a sending licensed health care institution after the patient received outpatient services from the receiving licensed health care institution.

238. "Treatment" means a procedure or method to cure, improve, or palliate an individual's medical condition or behavioral health issue.
239. "Treatment plan" means a description of the specific physical health services or behavioral health services that a health care institution anticipates providing to a patient.
240. "Unclassified health care institution" means a health care institution not classified or subclassified in statute or in rule.
241. "Vascular access" means the point on a patient's body where blood lines are connected for hemodialysis.
242. "Volunteer" means an individual authorized by a health care institution to work for the health care institution on a regular basis without compensation from the health care institution and does not include a medical staff member who has clinical privileges at the health care institution.
243. "Working day" means a Monday, Tuesday, Wednesday, Thursday, or Friday that is not a state and federal holiday or a statewide furlough day.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by exempt rulemaking at 20 A.A.R. 3535, pursuant to Laws 2014, Ch. 233, § 5; effective January 1, 2015 (Supp. 14-4). Amended by exempt rulemaking at 22 A.A.R. 1035, pursuant to Laws 2015, Ch. 158, § 3; effective May 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 3020, effective January 1, 2019 (Supp. 18-4). Amended by exempt rulemaking at 25 A.A.R. 1222, effective April 25, 2019 (Supp. 19-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4). Amended by exempt rulemaking at 28 A.A.R. 927 (May 6, 2022), with an immediate effective date of April 15, 2022 (Supp. 22-2).

R9-10-102. Health Care Institution Classes and Subclasses; Requirements

A. A person may apply for a license as one of the following classes or subclasses of health care institution:
1. General hospital,
2. Rural general hospital,
3. Special hospital,
4. Behavioral health inpatient facility,
5. Nursing care institution,
6. Intermediate care facility for individuals with intellectual disabilities,
7. Recovery care center,
8. Hospice inpatient facility,
9. Hospice service agency,
10. Behavioral health residential facility,
11. Adult residential care institution,
12. Assisted living center,
13. Assisted living home,
14. Adult foster care home,
15. Outpatient surgical center,
16. Outpatient treatment center,
17. Abortion clinic,
18. Adult day health care facility,
19. Home health agency,
20. Substance abuse transitional facility,
21. Behavioral health specialized transitional facility,
22. Counseling facility,
23. Adult behavioral health therapeutic home,
24. Behavioral health respite home,
25. Unclassified health care institution,
26. Pain management clinic, or
27. Nursing-supported group home.

B. A person shall apply for a license for the class or subclass that authorizes the provision of the highest level of physical health services or behavioral health services the proposed health care institution plans to provide.

C. The Department shall review a proposed health care institution's scope of services to determine whether the requested health care institution class or subclass is appropriate.

D. A health care institution shall comply with the requirements in Article 17 of this Chapter if:
1. There are no specific rules in another Article of this Chapter for the health care institution's class or subclass, or
2. The Department determines that the health care institution is an unclassified health care institution.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 24 A.A.R. 3020, effective January 1, 2019 (Supp. 18-4). Amended by exempt rulemaking at 25 A.A.R. 1222, effective April 25, 2019 (Supp. 19-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by exempt rulemaking at 28 A.A.R. 927 (May 6, 2022), with an immediate effective date of April 15, 2022 (Supp. 22-2).

R9-10-103. Licensing Exceptions

A. A health care institution license is required for each health care institution facility except:
1. A facility exempt from licensing under A.R.S. § 36-402, or
2. A health care institution's administrative office.

B. The Department does not require a separate health care institution license for:
1. A satellite facility of a hospital under A.R.S. § 36-422(F);
2. An accredited facility of an accredited hospital under A.R.S. § 36-422(G);
3. A facility operated by a licensed health care institution that is:
   a. Adjacent to and contiguous with the licensed health care institution premises; or
   b. Not adjacent to or contiguous with the licensed health care institution but connected to the licensed health care institution facility by an all-weather enclosure and:
      i. Owned by the health care institution, or
      ii. Leased by the health care institution with exclusive rights of possession;
4. A mobile clinic operated by a licensed health care institution; or
5. A facility located on grounds that are not adjacent to or contiguous with the health care institution premises where only ancillary services are provided to a patient of the health care institution.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-104. Approval of Architectural Plans and Specifications

A. For approval of architectural plans and specifications for the construction or modification of a health care institution that is required by this Chapter to comply with any of the physical plant codes and standards incorporated by reference in R9-10-104.01, an applicant shall submit to the Department an application packet including:
1. An application in a Department-provided format that contains:
   a. For construction of a new health care institution:
      i. The health care institution's name, street address, city, state, zip code, telephone number, and e-mail address;
      ii. The name and mailing address of the health care institution's governing authority;
      iii. The requested health care institution class or subclass; and
      iv. If applicable, the requested licensed capacity, licensed occupancy, respite capacity, and number of dialysis stations for the health care institution;
   b. For modification of a licensed health care institution that requires approval of architectural plans and specifications:
      i. The health care institution's license number,
      ii. The name and mailing address of the licensee,
      iii. The health care institution's class or subclass, and
      iv. The health care institution's existing licensed capacity, licensed occupancy, respite capacity, or number of dialysis stations; and the requested licensed capacity, licensed occupancy, respite capacity, or number of dialysis stations for the health care institution;
   c. The health care institution's contact person's name, street mailing address, city, state, zip code, telephone number, and e-mail address;
   d. The name, street mailing address, city, state, zip code, telephone number, and e-mail address of:
      i. The project architect; or
      ii. If the construction or modification of the health care institution does not require a project architect, the project engineer or other individual responsible for the completion of the construction or modification;
   e. A narrative description of the project;
   f. The estimated total project cost including the costs of:
      i. Site acquisition,
      ii. General construction,
      iii. Architect fees,
      iv. Fixed equipment, and

v. Movable equipment;

g. If providing or planning to provide medical services, nursing services, or health-related services that require compliance with specific physical plant codes and standards incorporated by reference in R9-10-104.01, the number of rooms or inpatient beds designated for providing the medical services, nursing services, or health-related services;

h. If providing or planning to provide behavioral health observation/stabilization services, the number of behavioral health observation/stabilization observation chairs designated for providing the behavioral health observation/stabilization services;

i. For construction of a new health care institution and if modification of a health care institution requires a project architect, a statement signed and sealed by the project architect, according to the requirements in 4 A.A.C. 30, Article 3, that the:
   i. Project architect has complied with A.A.C. R4-30-301; and
   ii. Architectural plans and specifications comply with applicable licensing requirements in A.R.S. Title 36, Chapter 4 and this Chapter;

j. If construction or modification of a health care institution requires a project engineer, a statement signed and sealed by the project engineer, according to the requirements in 4 A.A.C. 30, Article 3, that the project engineer has complied with A.A.C. R4-30-301; and

k. A statement signed by the governing authority or the licensee that the architectural plans and specifications comply with applicable licensing requirements in A.R.S. Title 36, Chapter 4 and this Chapter;

2. If the health care institution is located on land under the jurisdiction of a local governmental agency, one of the following:
   a. A building permit for the construction or modification issued by the local governmental agency; or
   b. If a building permit issued by the local governmental agency is not required, zoning clearance issued by the local governmental agency that includes:
      i. The health care institution's name, street address, city, state, zip code, and county;
      ii. The health care institution's class or subclass and each type of medical services, nursing services, or health-related services to be provided; and
      iii. A statement signed by a representative of the local governmental agency stating that the address listed is zoned for the health care institution's class or subclass;

3. The following information that is as necessary to demonstrate that the project described on the application complies with applicable codes and standards incorporated by reference in R9-10-104.01:
   a. A table of contents containing:
      i. The architectural plans and specifications submitted;
      ii. The physical plant codes and standards incorporated by reference in R9-10-104.01 that apply to the project;
      iii. The physical plant codes and standards that are required by a local governmental agency, if applicable;
      iv. An index of the abbreviations and symbols used in the architectural plans and specifications; and
      v. The facility's specific International Building Code construction type and International Building Code occupancy type;
   b. If the facility is larger than 3,000 square feet and is or will be occupied by more than 20 individuals, the seal of an architect on the architectural plans and specifications according to the requirements in A.R.S. Title 32, Chapter 1 and 4 A.A.C. 30, Article 3;
   c. A site plan, drawn to scale, of the entire premises showing streets, property lines, facilities, parking areas, outdoor areas, fences, swimming pools, fire access roads, fire hydrants, and access to water mains;
   d. For each facility, on architectural plans and specifications:
      i. A floor plan, drawn to scale, for each level of the facility, showing the layout and dimensions of each room, the name and function of each room, means of egress, and natural and artificial lighting sources;
      ii. A diagram of a section of the facility, drawn to scale, showing the vertical cross-section view from foundation to roof and specifying construction materials;
      iii. Building elevations, drawn to scale, showing the outside appearance of each facility;
      iv. The materials used for ceilings, walls, and floors;
      v. The location, size, and fire rating of each door and each window and the materials and hardware used, including safety features such as fire exit door hardware and fireproofing materials;
      vi. A ceiling plan, drawn to scale, showing the layout of each light fixture, each fire protection device, and each element of the mechanical ventilation system;
      vii. An electrical floor plan, drawn to scale, showing the wiring diagram and the layout of each lighting fixture, each outlet, each switch, each electrical panel, and electrical equipment;
      viii. A mechanical floor plan, drawn to scale, showing the layout of heating, ventilation, and air conditioning systems;
      ix. A plumbing floor plan, drawn to scale, showing the layout and materials used for water, sewer, and medical gas systems, including the water supply and plumbing fixtures;
      x. A floor plan, drawn to scale, showing the communication system within the health care institution including the nurse call system, if applicable;
      xi. A floor plan, drawn to scale, showing the automatic fire extinguishing, fire detection, and fire alarm systems; and
      xii. Technical specifications or drawings describing installation of equipment or medical gas and the materials used for installation in the health care institution;

4. The estimated total project cost including the costs of:

a. Site acquisition,
b. General construction,
c. Architect fees,
d. Fixed equipment, and
e. Movable equipment;

5. The following, as applicable:
   a. If the health care institution is located on land under the jurisdiction of a local governmental agency, one of the following provided by the local governmental agency:
      i. A copy of the certificate of occupancy for the facility,
      ii. Documentation that the facility was approved for occupancy, or
      iii. Documentation that a certificate of occupancy for the facility is not available;
   b. A certification and a statement that the construction or modification of the facility is in substantial compliance with applicable licensing requirements in A.R.S. Title 36, Article 4 and this Chapter signed by the project architect, the contractor, and the owner;
   c. A written description of any work necessary to complete the construction or modification submitted by the project architect;
   d. If the construction or modification affects the health care institution's fire alarm system, a contractor certification and description of the fire alarm system in a Department-provided format provided by the Department;
   e. If the construction or modification affects the health care institution's automatic fire extinguishing system, a contractor certification of the automatic fire extinguishing system in a Department-provided format provided by the Department;
   f. If the construction or modification affects the health care institution's heating, ventilation, or air conditioning system, a copy of the heating, ventilation, air conditioning, and air balance tests and a contractor certification of the heating, ventilation, or air conditioning system;
   g. If draperies, cubicle curtains, or floor coverings are installed or replaced, a copy of the manufacturer's certification of flame spread for the draperies, cubicle curtains, or floor coverings;
   h. For a health care institution using inhalation anesthetics or nonflammable medical gas, a copy of the Compliance Certification for Inhalation Anesthetics or Nonflammable Medical Gas System required in the National Fire Codes incorporated by reference in R9-10-104.01;
   i. If a generator is installed, a copy of the installation acceptance required in the National Fire Codes incorporated by reference in R9-10-104.01;
   j. If equipment is installed, a certification from an engineer or from a technical representative of the equipment's manufacturer that the equipment has been installed according to the manufacturer's recommendations and, if applicable, calibrated;
   k. For a health care institution providing radiology, a written report from a certified health physicist of the location, type, and amount of radiation protection; and
   l. If a factory-built building is used by a health care institution:
      i. A copy of the installation permit and the copy of a certificate of occupancy for the factory-built building from the Office of Manufactured Housing; or
      ii. A written report from an individual registered as an architect or a professional structural engineer under 4 A.A.C. 30, Article 2, stating that the factory-built building complies with applicable design standards;
6. For construction of a new health care institution and for a modification of a health care institution that requires a project architect, a statement signed by the project architect that final architectural plans and specifications have been submitted to the person applying for a health care institution license or the licensee of the health care institution;
7. For modification of a health care institution that does not require a project architect, a statement signed by the project engineer or other individual responsible for the completion of the modification that final architectural plans and specifications have been submitted to the person applying for a health care institution license or the licensee of the health care institution; and
8. The applicable fee required by R9-10-106.

B. Before an applicant submits an application for approval of architectural plans and specifications for the construction or modification of a health care institution, an applicant may request an architectural evaluation by providing the documents in subsection (A)(3) to the Department.

C. The Department may conduct on-site facility reviews during the construction or modification of a health care institution.

D. The Department shall approve or deny an application for approval of architectural plans and specifications of a health care institution in this Section according to R9-10-108.

E. In addition to obtaining an approval of a health care institution's architectural plans and specifications, a person shall obtain a health care institution license before operating the health care institution.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5,

2019 (Supp. 19-4). Publication error corrected in R9-10-104(A)(1) removing "provided by the Department;" publication error corrected in R9-10-104(B) removing "submitting;" with both amendments made at 25 A.A.R. 1583. Publication error corrected in R9-10-104(A), incorporated by reference Section updated as amended at 25 A.A.R. 3481 (Supp. 21-2).

R9-10-104.01. Codes and Standards

A. For a health care institution that is required by this Chapter to comply with any of the physical plant codes and standards incorporated by reference in this Section, an applicant shall follow the requirements in subsection (B), except as follows:
1. Physical plant standards specified in applicable Articles of this Chapter shall govern over the codes and standards incorporated by reference in subsection (B); and
2. If a conflict occurs among the codes and standards incorporated by reference in subsection (B), the more restrictive codes and standards shall govern over the less restrictive.

B. The following physical plant health and safety codes and standards are incorporated by reference as modified, are on file with the Department, and include no future editions or amendments:
1. Guidelines for Design and Construction of Health Care Facilities (2018 ed.), published by the American Society for Healthcare Engineering and available from The Facility Guidelines Institute at www.fgiguidelines.org;
2. The following National Fire Codes (2012), published by and available from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269, and at www.nfpa.org/catalog:
   a. NFPA70 National Electrical Code,
   b. NFPA101 Life Safety Code, and
   c. 2012 Supplements;
3. ICC/A117.1-2017, American National Standard: Accessible and Usable Buildings and Facilities (2017), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at ☐www.iccsafe.org;
4. International Building Code (2018), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at www.iccsafe.org, with the following modifications:
   a. Section 101.1 is modified by deleting "of [NAME OF JURISDICTION]";
   b. Section 101.2 is modified by deleting the "Exception";
   c. Section 101.4.7 is deleted;
   d. Sections 103.1 through 103.3 are deleted;
   e. Sections 104.1 through 104.11.2 are deleted;
   f. Sections 105.1 through 105.7 are deleted;
   g. Sections 106.1 through 106.3 are deleted;
   h. Sections 107.1 through 107.5 are deleted;
   i. Sections 108.1 through 108.4 are deleted;
   j. Sections 109.1 through 109.6 are deleted;
   k. Sections 110.1 through 110.6 are deleted;
   l. Sections 111.1 through 111.4 are deleted;
   m. Sections 112.1 through 112.3 are deleted;
   n. Sections 113.1 through 113.3 are deleted;
   o. Sections 114.1 through 114.4 are deleted;
   p. Sections 115.1 through 115.3 are deleted;
   q. Sections 116.1 through 116.5 are deleted; and
   r. Appendices A, B, C, D, K, L, and M are deleted;
5. International Mechanical Code (2018), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at www.iccsafe.org, with the following modifications:
   a. Section 101.1 is modified by deleting "of [NAME OF JURISDICTION]",
   b. Sections 103.1 through 103.4.1 are deleted,
   c. Sections 104.1 through 104.7 are deleted,
   d. Sections 105.1 through 105.5 are deleted,
   e. Sections 106.1 through 106.5.3 are deleted,
   f. Sections 107.1 through 107.6 are deleted,
   g. Sections 108.1 through 108.7.3 are deleted,
   h. Sections 109.1 through 109.7 are deleted,
   i. Sections 110.1 through 110.4 are deleted, and
   j. Appendix B is deleted;
6. International Plumbing Code (2018), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at www.iccsafe.org, with the following modifications:
   a. Section 101.1 is modified by deleting "of [NAME OF JURISDICTION]",
   b. Sections 103.1 through 103.4.1 are deleted,
   c. Sections 104.1 through 104.7 are deleted,

d. Sections 105.1 through 105.4.1 are deleted,
e. Sections 106.1 through 106.6.3 are deleted,
f. Sections 107.1 through 107.7 are deleted,
g. Sections 108.1 through 108.7.3 are deleted,
h. Sections 109.1 through 109.7 are deleted,
i. Sections 110.1 through 110.4 are deleted, and
j. Appendix A is deleted;

7. International Fire Code (2018), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at www.iccsafe.org, with the following modifications:
a. Section 101.1 is modified by deleting "of [NAME OF JURISDICTION]",
b. Sections 102.3 and 102.5 are deleted,
c. Sections 103.1 through 103.4.1 are deleted,
d. Sections 104.1 through 104.11.3 are deleted,
e. Sections 105.1 through 105.7.25 are deleted,
f. Sections 106.1 through 106.5 are deleted,
g. Sections 107.1 through 107.4 are deleted,
h. Sections 109.1 through 109.3 are deleted,
i. Sections 110.1 through 110.4.1 are deleted,
j. Sections 111.1 through 111.4 are deleted,
k. Section 112.1 through 112.4 is deleted,
l. Section 113.1.is deleted, and
m. Appendix A is deleted;

8. International Fuel Gas Code (2018), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at www.iccsafe.org, with the following modifications:
a. Section 101.1 is modified by deleting "of [NAME OF JURISDICTION]",
b. Section 101.2 is modified by deleting the "Exception",
c. Sections 103.1 through 103.4.1 are deleted,
d. Sections 104.1 through 104.7 are deleted,
e. Sections 105.1 through 105.5 are deleted,
f. Sections 106.1 through 106.6.3 are deleted,
g. Sections 107.1 through 107.6 are deleted,
h. Sections 108.1 through 108.7.3 are deleted,
i. Sections 109.1 through 109.7 are deleted, and
j. Sections 110.1 through 110.4 are deleted;

9. International Private Sewage Disposal Code (2018), published by and available from the International Code Council, Inc., Publications, 4051 W. Flossmoor Road, Country Club Hills, IL 60478-5795, and at www.iccsafe.org, with the following modifications:
a. Section 101.1 is modified by deleting "of [NAME OF JURISDICTION]",
b. Sections 103.1 through 103.4.1 are deleted,
c. Sections 104.1 through 104.7 are deleted,
d. Sections 105.1 through 105.5 are deleted,
e. Sections 106.1 through 106.4.3 are deleted,
f. Sections 107.1 through 107.9 are deleted,
g. Sections 108.1 through 108.7.2 are deleted,
h. Sections 109.1 through 109.7 are deleted, and
i. Sections 110.1 through 110.4 are deleted.

C. The Department shall not assess any penalty or fee specified in the physical plant health and safety codes and standards that are incorporated by reference in this Section.

Historical Note

New Section made by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4).

R9-10-105. License Application

A. A person applying for an initial a health care institution license shall submit to the Department an application packet that contains:
1. An application in a Department-provided format provided by the Department including:
a. The health care institution's:
i. Name;
ii. Street address, city, state, zip code;

iii. Mailing address;
iv. Telephone number, and;
v. E-mail address;
vi. Tax ID number; and
vii. Class or subclass listed in R9-10-102 for which licensing is requested;

b. Except for a home health agency, or hospice service agency, or behavioral health facility, whether the health care institution is located within 1/4 mile of agricultural land;
c. Whether the health care institution is located in a leased facility;
d. Whether the health care institution is ready for a licensing inspection by the Department;
e. If the health care institution is not ready for a licensing inspection by the Department, the date the health care institution will be ready for a licensing inspection;
f. Whether the applicant agrees to allow the Department to submit supplemental requests for information under R9-10-108;
g. Owner information including:
i. The owner's name, mailing address, telephone number, and e-mail address;
ii. Whether the owner is a sole proprietorship, a corporation, a partnership, a limited liability partnership, a limited liability company, or a governmental agency;
iii. If the owner is a partnership or a limited liability partnership, the name of each partner;
iv. If the owner is a limited liability company, the name of the designated manager or, if no manager is designated, the names of any two members of the limited liability company;
v. If the owner is a corporation, the name and title of each corporate officer;
vi. If the owner is a governmental agency, the name and title of the individual in charge of the governmental agency or the name of an individual in charge of the health care institution designated in writing by the individual in charge of the governmental agency;
vii. Whether the owner or any person with 10% or more business interest in the health care institution has had a license to operate a health care institution denied, revoked, or suspended; the reason for the denial, suspension, or revocation; the date of the denial, suspension, or revocation; and the name and address of the licensing agency that denied, suspended, or revoked the license;
viii. Whether the owner or any person with 10% or more business interest in the health care institution has had a health care professional license or certificate denied, revoked, or suspended; the reason for the denial, suspension, or revocation; the date of the denial, suspension, or revocation; and the name and address of the licensing agency that denied, suspended, or revoked the license or certificate; and
ix. The name, title, address, and telephone number of the owner's statutory agent or the individual designated by the owner to accept service of process and subpoenas;
h. The name and mailing address of the governing authority;
i. The chief administrative officer's:
i. Name,
ii. Title,
iii. Highest educational degree, and
iv. Work experience related to the health care institution class or subclass for which licensing is requested; and
j. Signature required in A.R.S. § 36-422(B);

2. If the health care institution is located in a leased facility, a copy of the lease showing the rights and responsibilities of the parties and exclusive rights of possession of the leased facility;
3. If applicable, a copy of the owner's articles of incorporation, partnership or joint venture documents, or limited liability documents;
4. If applicable, the name and mailing address of each owner or lessee of any agricultural land regulated under A.R.S. § 3-365 and a copy of the written agreement between the applicant and the owner or lessee of agricultural land as prescribed in A.R.S. § 36-421(D);
5. Except for a home health agency or a hospice service agency, one of the following:
a. If the health care institution or a part of the health care institution is required by this Chapter to comply with any of the physical plant codes and standards incorporated by reference in R9-10-104.01:
i. An application packet for approval of architectural plans and specifications in R9-10-104(A), or
ii. Documentation of the Department's approval of the health care institution's architectural plans and specifications approval in R9-10-104 R9-10-104(D); or
b. If a no part of the health care institution or a part of the health care institution is not required by this Chapter to comply with any of the physical plant codes and standards incorporated by reference in R9-10-104.01:
i. One of the following:
(1) Documentation from the local jurisdiction of compliance with applicable local building codes and zoning ordinances; or
(2) If documentation from the local jurisdiction is not available, documentation of the unavailability of the local jurisdiction compliance and documentation of a general contractor's inspection of the facility that states the facility is

safe for occupancy as the applicable health care institution class or subclass;

ii. The licensed capacity requested by the applicant for the health care institution;

iii. If applicable, the licensed occupancy requested by the applicant for the health care institution;

iv. If applicable, the respite capacity requested by the applicant for the health care institution;

v. A site plan showing each facility, the property lines of the health care institution, each street and walkway adjacent to the health care institution, parking for the health care institution, fencing and each gate on the health care institution premises, and, if applicable, each swimming pool on the health care institution premises; and

vi. A floor plan showing, for each story of a facility, the room layout, room usage, each door and each window, plumbing fixtures, each exit, and the location of each fire protection device;

6. The health care institution's proposed scope of services; and
7. The applicable application fee required by R9-10-106.

B. In addition to the initial license application requirements in this Section, an applicant shall comply with the supplemental application requirements in specific rules in this Chapter for the health care institution class or subclass for which licensing is requested.

C. The Department shall approve or deny a license application in this Section according to R9-10-108.

D. A health care institution license is valid:

1. Unless, as specified in A.R.S. § 36-425(C):
   a. The Department revokes or suspends the license according to R9-10-112, or
   b. The license is considered void because the licensee did not pay the applicable fees in R9-10-106 according to R9-10-107; or
2. Until a licensee voluntarily surrenders the license to the Department when terminating the operation of the health care institution, according to R9-10-109(B).

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4).

R9-10-106. Fees

A. An applicant who submits to the Department architectural plans and specifications for the construction or modification of a health care institution shall also submit an architectural plans and specifications review fee as follows:

1. Fifty dollars for a project with a cost of $100,000 or less;
2. One hundred dollars for a project with a cost of more than $100,000 but less than $500,000; or
3. One hundred fifty dollars for a project with a cost of $500,000 or more.

B. An applicant submitting an application for a health care institution license shall submit to the Department an application fee of $50.

C. Except as provided in subsection (D) or (E), an applicant submitting an application for a health care institution license or a licensee submitting annual health care institution licensing fees shall submit to the Department the following licensing fee:

1. For an adult day health care facility, assisted living home, or assisted living center:
   a. For a facility with no licensed capacity, $280;
   b. For a facility with a licensed capacity of one to 59 beds, $280, plus the licensed capacity times $70;
   c. For a facility with a licensed capacity of 60 to 99 beds, $560, plus the licensed capacity times $70;
   d. For a facility with a licensed capacity of 100 to 149 beds, $840, plus the licensed capacity times $70; or
   e. For a facility with a licensed capacity of 150 beds or more, $1,400, plus the licensed capacity times $70;
2. For a behavioral health facility:
   a. For a facility with no licensed capacity, $375;
   b. For a facility with a licensed capacity of one to 59 beds, $375, plus the licensed capacity times $94;
   c. For a facility with a licensed capacity of 60 to 99 beds, $750, plus the licensed capacity times $94;
   d. For a facility with a licensed capacity of 100 to 149 beds, $1,125, plus the licensed capacity times $94; or
   e. For a facility with a licensed capacity of 150 beds or more, $1,875, plus the licensed capacity times $94;
3. For a behavioral health facility providing behavioral health observation/stabilization services, in addition to the applicable fee in subsection (C)(2), the licensed occupancy times $94;
4. For a nursing care institution, an intermediate care facility for individuals with intellectual disabilities, or a nursing-supported group home:
   a. For a facility with a licensed capacity of one to 59 beds, $290, plus the licensed capacity times $73;
   b. For a facility with a licensed capacity of 60 to 99 beds, $580, plus the licensed capacity times $73;
   c. For a facility with a licensed capacity of 100 to 149 beds, $870, plus the licensed capacity times $73; or
   d. For a facility with a licensed capacity of 150 beds or more, $1,450, plus the licensed capacity times $73;

5. For a hospital, a home health agency, a hospice service agency, a hospice inpatient facility, an abortion clinic, a recovery care center, an outpatient surgical center, an outpatient treatment center that is not a behavioral health facility, a pain management clinic, or an unclassified health care institution:
   a. For a facility with no licensed capacity, $365;
   b. For a facility with a licensed capacity of one to 59 beds, $365, plus the licensed capacity times $91;
   c. For a facility with a licensed capacity of 60 to 99 beds, $730, plus the licensed capacity times $91;
   d. For a facility with a licensed capacity of 100 to 149 beds, $1,095, plus the licensed capacity times $91; or
   e. For a facility with a licensed capacity of 150 beds or more, $1,825, plus the licensed capacity times $91;
6. For a hospital providing behavioral health observation/stabilization services, in addition to the applicable fee in subsection (C)(5), the licensed occupancy times $91; and
7. For an outpatient treatment center that is not a behavioral health facility and provides:
   a. Dialysis services, in addition to the applicable fee in subsection (C)(5), the number of dialysis stations times $91; and
   b. Behavioral health observation/stabilization services, in addition to the applicable fee in subsection (C)(5), the licensed occupancy times $91.

D. In addition to the applicable fees in subsections (C)(5) and (C)(6), an applicant submitting an application for a single group hospital license or a licensee with a single group license submitting annual health care institution licensing fees shall submit to the Department an additional fee of $365 for each of the hospital's satellite facilities and, if applicable, the fees required in subsection (C)(7).

E. Subsections (C) and (D) do not apply to a health care institution operated by a state agency according to state or federal law or to an adult foster care home.

F. In addition to the applicable fees in subsections (C) and (D), a licensee shall submit a late payment fee of $250 if submitting annual licensing fees according to R9-10-107(E)(1) or (2)(d).

G. All fees are nonrefundable except as provided in A.R.S. § 41-1077.

Historical Note

New Section R9-10-106 renumbered from R9-10-122 and amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 24 A.A.R. 3020, effective January 1, 2019 (Supp. 18-4). Amended by exempt rulemaking at 25 A.A.R. 1222, effective April 25, 2019 (Supp. 19-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by exempt rulemaking at 28 A.A.R. 927 (May 6, 2022), with an immediate effective date of April 15, 2022 (Supp. 22-2).

R9-10-107. Submission of Health Care Institution Licensing Fees

A. An applicant for a health care institution license shall submit the applicable licensing fees in R9-10-106 to the Department:
1. Within 60 calendar days after the date of the written notice of approval in R9-10-108(C)(3); or
2. Within 90 calendar days after the date of the written notice of approval in R9-10-108(C)(3), with the payment of an additional late payment fee of $250.

B. The Department shall notify a licensee of the due date of the facility's health care institution licensing fees no later than 90 calendar days before the date the facility's health care institution licensing fee is due to the Department.

C. Except as specified in subsection (E), a licensee shall submit to the Department, no earlier than 60 calendar days before the anniversary date of the facility's health care institution license:
1. The following information in a Department-provided format:
   a. The licensee's name, and
   b. The facility's name and license number;
2. Verification of the information in the Department's current records for the health care institution;
3. If applicable, information or documentation required in another Article of this Chapter, specific to the health care institution, to be submitted with the relevant fees required in R9-10-106; and
4. The applicable annual licensing fees in R9-10-106.

D. If any information in the Department's current records for a health care institution is incorrect, before a licensee submits annual licensing fees according to subsection (C), the licensee shall comply with the applicable requirements in R9-10-109 or R9-10-110 to update the Department's records for the health care institution.

E. A licensee may submit to the Department the information in subsection (C)(1), verification in subsection (C)(2), applicable information or documentation in subsection (C)(3), and applicable annual licensing fees in R9-10-106:
1. Within 30 calendar days after the anniversary date of the facility's health care institution license, with the payment of the additional late payment fee in R9-10-106(F); or
2. If an alternate licensing fee due date has been established for the licensee according to subsections (F) and (G):
   a. By the anniversary date of the facility's health care institution license, with the appropriate fee amount to prorate the annual licensing fees in R9-10-106 for a facility to the alternate licensing fee due date;
   b. By the alternate licensing fee due date;
   c. If a new alternate licensing fee due date has been established, by the current alternate licensing fee due date, with the appropriate fee amount to prorate the annual licensing fees in R9-10-106 for a facility to the new alternate licensing fee due date; or

d. Within 30 calendar days after the alternate licensing fee due date, with the payment of the additional late payment fee in R9-10-106(F).

F. Except as specified in subsection (H), a licensee may request a licensing fee due date for a facility that is different from the anniversary date of a facility's health care institution license by submitting an application for an alternate licensing fee due date to the Department, at least 30 calendar days before the anniversary date of the facility's health care institution license, that includes the following information in a Department-provided format:

1. The licensee's name and e-mail address,
2. The facility's name and license number,
3. The current licensing fee due date,
4. The proposed alternate licensing fee due date,
5. The reason the licensee is requesting an alternate licensing fee due date, and
6. The name of the health care institution's administrator's or individual representing the health care institution as designated in A.R.S. § 36-422 and the dated signature of the administrator or individual.

G. The Department shall review a request made according to subsection (F) according to R9-10-108.

H. A licensee may not request an alternate licensing fee due date according to subsection (F):

1. More frequently than once in each three-year period, or
2. For a facility for which the payment of licensing fees is not up-to-date.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Section repealed; new Section made by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-108. Time-frames

A. The overall time-frame for each type of approval granted by the Department is listed in Table 1.1. The applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame. The substantive review time-frame and the overall time-frame may not be extended by more than 25% of the overall time-frame.

B. The administrative completeness review time-frame for each type of approval granted by the Department as prescribed in this Article is listed in Table 1.1. The administrative completeness review time-frame begins on the date the Department receives an application packet or a written request for an alternate licensing fee due date.

1. The application packet for a health care institution license is not complete until the applicant provides the Department with written notice that the health care institution is ready for a licensing inspection by the Department.
2. If the application packet or written request is incomplete, the Department shall provide a written notice to the applicant specifying the missing document or incomplete information. The administrative completeness review time-frame and the overall time-frame are suspended from the date of the notice until the date the Department receives the missing document or information from the applicant.
3. When an application packet or written request is complete, the Department shall provide a written notice of administrative completeness to the applicant.
4. For an application packet for review of architectural plans and specifications, a health care institution license application packet, an application packet for a modification not requiring review of architectural plans and specifications, or a written request for an alternate licensing fee due date, the Department shall consider the application or written request withdrawn if the applicant fails to supply the missing documents or information included in the notice described in subsection (B)(2) within 60 calendar days after the date of the notice described in subsection (B)(2).
5. If the Department issues a license or grants an approval during the time provided to assess administrative completeness, the Department shall not issue a separate written notice of administrative completeness.

C. The substantive review time-frame is listed in Table 1.1 and begins on the date of the notice of administrative completeness.

1. The Department may conduct an onsite inspection of the facility:
   a. As part of the substantive review for approval of architectural plans and specifications;
   b. As part of the substantive review for issuing a health care institution license; or
   c. As part of the substantive review for approving a modification of a health care institution's license.
2. During the substantive review time-frame, the Department may make one comprehensive written request for additional information or documentation. If the Department and the applicant agree in writing, the Department may make supplemental requests for additional information or documentation. The time-frame for the Department to complete the substantive review is suspended from the date of a written request for additional information or documentation until the Department receives the additional information or documentation.
3. The Department shall send a written notice of approval to an applicant that is in substantial compliance with applicable requirements in A.R.S. Title 36, Chapter 4 and this Chapter.

4. After an applicant for a health care institution license receives the written notice of approval in subsection (C)(3), the applicant shall submit the applicable health care institution license fee in R9-10-106 according to R9-10-107(A).
5. After receiving the applicable health care institution licensing fee from an applicant according to subsection (C)(4) and R9-10-107(A), the Department shall send a health care institution license to the applicant.
6. The Department shall provide a written notice of denial that complies with A.R.S. § 41-1076 to an applicant who does not:
   a. For a health care institution license application or a request for approval of a modification of a health care institution requiring architectural plans and specifications, submit the information or documentation in subsection (C)(2) within 120 calendar days after the Department's written request to the applicant;
   b. For a request for approval of a modification of a health care institution not requiring architectural plans and specifications or a written request for an alternate licensing fee due date, submit the information or documentation in subsection (C)(2) within 30 calendar days after the Department's written request to the applicant;
   c. Comply with the applicable requirements in A.R.S. Title 36, Chapter 4 and this Chapter; or
   d. If applicable, submit a fee required in R9-10-106 or R9-10-107.
7. An applicant may file a written notice of appeal with the Department within 30 calendar days after receiving the notice described in subsection (C)(6). The appeal shall be conducted according to A.R.S. Title 41, Chapter 6, Article 10.
8. If a time-frame's last day falls on a Saturday, a Sunday, or an official state holiday, the Department shall consider the next working day to be the time-frame's last day.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by final rulemaking at 11 A.A.R. 859, effective April 2, 2005 (Supp. 05-1). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

Table 1.1 Time-frames

Type of Approval	Statutory Authority	Overall Time-frame	Administrative Completeness Time-frame	Substantive Review Time-frame
Approval of architectural plans and specifications R9-10-104	A.R.S. §§ 36-405, 36-406(1)(b), and 36-421	105 calendar days	45 calendar days	60 calendar days
Health care institution license R9-10-105	A.R.S. §§ 36-405, 36-407, 36-421, 36-422, 36-424, and 36-425	120 calendar days	30 calendar days	90 calendar days
Approval of an alternate licensing fee due date R9-10-107	A.R.S. § 36-405	30 calendar days	10 calendar days	20 calendar days
Approval of a modification of a health care institution R9-10-110	A.R.S. §§ 36-405, 36-407, and 36-422	75 calendar days	15 calendar days	60 calendar days

New Table 1 made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by final rulemaking at 11 A.A.R. 859, effective April 2, 2005 (Supp. 05-1). Table 1 number amended to Table 1.1 and contents amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Table 1.1 amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Table 1.1 amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Table 1.1 heading added for clarity by the Division (21-2).

R9-10-109. Changes Affecting a License

A. A licensee shall ensure that:

1. The Department is notified in writing at least 30 calendar days before the effective date of:
   a. Except as provided in subsection (I), a change in the name of:
      i. A health care institution, or
      ii. The licensee;
   b. A change in the hours of operation:
      i. Of an administrative office, or
      ii. For providing physical health services or behavioral health services to patients of the health care institution;
   c. A change in the address of a health care institution that does not provide medical services, nursing services, behavioral health services, or health-related services on the premises; or
   d. A change in the geographic region to be served by the hospice service agency or home health agency; and
2. Documentation supporting the change is provided to the Department with the notification required in subsection (A)(1).

B. If a licensee intends to terminate the operation of a health care institution, the licensee shall ensure that the Department is notified in writing of:
1. The termination of the health care institution's operations, as required in A.R.S. § 36-422(D), at least 30 calendar days before the termination, and
2. The address and contact information for the location where the health care institution's medical records will be retained as required in A.R.S. § 12-2297.

C. A licensee shall ensure that the Department is notified in writing, according to A.R.S. § 36-425(I), of a change in the chief administrative officer of the health care institution.

D. If a health care institution is accredited by a nationally recognized accrediting organization, a licensee may submit to the Department the health care institution's current accreditation report.

E. Except as provided in A.R.S. § 36-424(B), if a licensee submits to the Department a health care institution's current accreditation report from a nationally recognized accrediting organization, the Department shall not conduct an onsite compliance inspection of the health care institution during the time the accreditation report is valid.

F. If a licensee is an adult behavioral health therapeutic home or a behavioral health respite home, the licensee shall ensure that:
1. The Department is notified in writing if the licensee does not have a written agreement with a collaborating health care institution, as required in R9-10-1603(A)(3) or R9-10-1803(A)(3) as applicable; and
2. The adult behavioral health therapeutic home or behavioral health respite home does not accept an individual as a resident or recipient, as applicable, or provide services to a resident or recipient, as applicable, until:
   a. The adult behavioral health therapeutic home or behavioral health respite home has a written agreement with a collaborating health care institution;
   b. The collaborating health care institution has approved the adult behavioral health therapeutic home's or behavioral health respite home's:
      i. Scope of services, and
      ii. Policies and procedures; and
   c. The collaborating health care institution has verified the provider's skills and knowledge.

G. If a licensee is an affiliated outpatient treatment center, the licensee shall ensure that if the affiliated outpatient treatment center:
1. Plans to begin providing administrative support to a counseling facility at a time other than during the affiliated outpatient treatment center's license application process, the following information for each counseling facility is submitted to the Department before the affiliated outpatient treatment center begins providing administrative support:
   a. The counseling facility's name,
   b. The license number assigned to the counseling facility by the Department, and
   c. The date the affiliated outpatient treatment center will begin providing administrative support to the counseling facility; or
2. No longer provides administrative support to a counseling facility previously identified by the affiliated outpatient treatment center as receiving administrative support from the affiliated outpatient treatment center, the following information for each counseling facility is submitted to the Department within 30 calendar days after the affiliated outpatient treatment center no longer provides administrative support:
   a. The counseling facility's name,
   b. The license number assigned to the counseling facility by the Department, and
   c. The date the affiliated outpatient treatment center stopped providing administrative support to the counseling facility.

H. If a licensee is a counseling facility, the licensee shall ensure that if the counseling facility:
1. Plans to begin receiving administrative support from an affiliated outpatient treatment center at a time other than during the counseling facility's license application process, the following information for the affiliated outpatient treatment center is submitted to the Department before the counseling facility begins receiving administrative support:
   a. The affiliated outpatient treatment center's name,
   b. The license number assigned to the affiliated outpatient treatment center by the Department, and
   c. The date the counseling facility will begin receiving administrative support;

2. No longer receives administrative support from an affiliated outpatient treatment center previously identified by the counseling facility as providing administrative support to the counseling facility, the following information for the affiliated outpatient treatment center is submitted to the Department within 30 calendar days after the counseling facility no longer receives administrative support from the affiliated outpatient treatment center:
   a. The affiliated outpatient treatment center's name,
   b. The license number assigned to the affiliated outpatient treatment center by the Department, and
   c. The date the counseling facility stopped receiving administrative support from the affiliated outpatient treatment center;
3. Plans to begin sharing administrative support with an affiliated counseling facility at a time other than during the counseling facility's license application process, the following information for each affiliated counseling facility sharing administrative support with the counseling facility is submitted to the Department before the counseling facility and affiliated counseling facility begin sharing administrative support:
   a. The affiliated counseling facility's name,
   b. The license number assigned to the affiliated counseling facility by the Department, and
   c. The date the counseling facility and the affiliated counseling facility will begin sharing administrative support; or
4. No longer shares administrative support with an affiliated counseling facility previously identified by the counseling facility as sharing administrative support with the counseling facility, the following information is submitted for each affiliated counseling facility within 30 calendar days after the counseling facility and affiliated counseling facility no longer share administrative support:
   a. The affiliated counseling facility's name,
   b. The license number assigned to the affiliated counseling facility by the Department, and
   c. The date the counseling facility and affiliated counseling facility will no longer be sharing administrative support.

I. A governing authority shall submit a license application required in R9-10-105 for:
1. A change in ownership of a health care institution;
2. A change in the address or location of a health care institution that provides medical services, nursing services, health-related services, or behavioral health services on the premises; or
3. A change in a health care institution's class or subclass.

J. A governing authority is not required to submit the documentation required in R9-10-105(A)(5) for a license application if:
1. The health care institution has not ceased operations for more than 30 calendar days,
2. A modification has not been made to the health care institution,
3. The services the health care institution is authorized by the Department to provide are not changed, and
4. The location of the health care institution's premises is not changed.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by exempt rulemaking at 20 A.A.R. 3535, pursuant to Laws 2014, Ch. 233, § 5; effective January 1, 2015 (Supp. 14-4). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking at 26 A.A.R. 551, with an immediate effective date of March 3, 2020 (Supp. 20-1).

R9-10-110. Modification of a Health Care Institution

A. A licensee shall submit a request for approval of a modification of a health care institution when planning to make:
1. An addition or removal of an authorized service;
2. An addition or removal of a colocator;
3. A change in a health care institution's licensed capacity, licensed occupancy, respite capacity, or the number of dialysis stations;
4. A change in the physical plant, including facilities or equipment, that costs more than $300,000; or
5. A change in the building where a health care institution is located that affects compliance with:
   a. Applicable physical plant codes and standards incorporated by reference in R9-10-104.01, or
   b. Physical plant requirements in the specific Article in this Chapter applicable to the health care institution.

B. A licensee of a health care institution that is required by this Chapter to comply with any of the physical plant codes and standards incorporated by reference in R9-10-104.01 shall submit an application packet, according to R9-10-104(A), for approval of architectural plans and specifications for a modification of the health care institution described in subsections (A)(3) through (5).

C. A licensee of a health care institution shall submit a written request an application packet for a modification of the health care institution in a Department-provided format that contains:
1. The following information in a Department-provided format:
   a. The health care institution's name, mailing address, e-mail address, and license number;
   b. A narrative description of the modification, including as applicable:
      i. The services the licensee is requesting be added or removed as an authorized service;
      ii. The name and license number of an associated licensed provider being added or removed as a colocator;
      iii. The name and professional license number of an exempt health care provider being added or removed as a colocator;

iv. If an associated licensed provider or exempt health care provider is being added as a colocator, the proposed scope of services;
v. The current and proposed licensed capacity, licensed occupancy, respite capacity, and number of dialysis stations;
vi. The change being made in the physical plant; and
vii. The change being made that affects compliance with applicable physical plant codes and standards incorporated by reference in R9-10-104.01; and

c. The name and e-mail address of the health care institution's administrator's or individual representing the health care institution as designated in according to A.R.S. § 36-422 and the dated signature of the administrator or individual; and

2. Documentation that demonstrates that the requested modification complies with applicable requirements in this Chapter, including as applicable:
   a. A floor plan showing the location of each colocator's proposed treatment area and the areas of the collaborating outpatient treatment center's premises shared with a colocator;
   b. For a change in the licensed capacity, licensed occupancy, respite capacity, or number of dialysis stations or a modification of the physical plant:
      i. A floor plan showing, for each story of the facility affected by the modification, the room layout, room usage, each door and each window, plumbing fixtures, each exit, and the location of each fire protection device; or
      ii. For a health care institution or part of the health care institution that is required to comply with the physical plant codes and standards incorporated by reference in R9-10-104.01 or the building, documentation of the Department's approval of the health care institution's architectural plans and specifications in R9-10-104(D); and
   c. Any other documentation to support the requested modification; and
3. If applicable, a copy of the written agreement the associated licensed provider or exempt health care provider has with the collaborating outpatient treatment center.

D. The Department shall approve or deny a request for a modification described in subsection (C) according to R9-10-108.

E. A licensee shall not implement a modification described in subsection (C) until an approval or amended license is issued by the Department.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-110 renumbered to Section R9-10-111; new Section R9-10-110 made by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4).

R9-10-111. Enforcement Actions

A. If the Department determines that an applicant or licensee is violating applicable statutes and rules and the violation poses a direct risk to the life, health, or safety of a patient, the Department may:
1. Issue a provisional license to the applicant or licensee under A.R.S. § 36-425,
2. Assess a civil penalty under A.R.S. § 36-431.01,
3. Impose an intermediate sanction under A.R.S. § 36-427,
4. Remove a licensee and appoint another person to continue operation of the health care institution pending further action under A.R.S. § 36-429,
5. Suspend or revoke a license under A.R.S. § 36-427 and R9-10-112,
6. Deny a license under A.R.S. § 36-425 and R9-10-112, or
7. Issue an injunction under A.R.S. § 36-430.

B. In determining which action in subsection (A) is appropriate, the Department shall consider the direct risk to the life, health, or safety of a patient in the health care institution based on:
1. Repeated violations of statutes or rules,
2. Pattern of violations,
3. Types of violation,
4. Severity of violation, and
5. Number of violations.

Historical Note

Amended effective February 4, 1981 (Supp. 81-1). Section repealed; new Section made by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 97, effective January 1, 2014 (Supp. 13-4). Section R9-10-111 renumbered to Section R9-10-112; new Section R9-10-111 renumbered from R9-10-110 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-112. Denial, Revocation, or Suspension of License

A. The Department may deny, revoke, or suspend a license to operate a health care institution if an applicant, a licensee, or a controlling person of the health care institution:
1. Provides false or misleading information to the Department;
2. Has had in any state or jurisdiction any of the following:
   a. An application or license to operate a health care institution denied, suspended, or revoked, unless the denial was based on failure to complete the licensing process or to pay a required licensing fee within a required time-frame; or
   b. A health care professional license or certificate denied, revoked, or suspended;
3. Does not comply with the applicable requirements in A.R.S. Title 36, Chapter 4 and this Chapter; or
4. Has operated a health care institution, within the preceding ten years, in violation of A.R.S. Title 36, Chapter 4 or this Chapter, that posed a direct risk to the life, health, or safety of a patient.

B. The Department shall suspend or revoke a hospital's license if the Department receives, pursuant to A.R.S. § 36-2901.08(H), notice from the Arizona Health Care Cost Containment System that the hospital's provider agreement registration with the Arizona Health Care Cost Containment System has been suspended or revoked.

Historical Note

Amended effective February 4, 1981 (Supp. 81-1). Section repealed by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). New Section made by exempt rulemaking at 9 A.A.R. 526, effective April 1, 2003 (Supp. 03-1). Section R9-10-112 renumbered to R9-10-113; new Section R9-10-112 made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-112 renumbered to Section R9-10-113; new Section R9-10-112 renumbered from R9-10-111 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-113. Tuberculosis Screening

A. If a health care institution is subject to the requirements of this Section, as specified in an Article in this Chapter, the health care institution's chief administrative officer shall ensure that the health care institution establishes, documents, and implements tuberculosis infection control activities that:
1. Are consistent with recommendations in Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019, published by the U.S. Department of Health and Human Services, Atlanta, GA 30333, available at https://www.cdc.gov/mmwr/volumes/68/wr/mm6819a3.htm, incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. Include:
   a. For each individual who is employed by the health care institution, provides volunteer services for the health care institution, or is admitted to the health care institution and who is subject to the requirements of this Section, baseline screening, on or before the date specified in the applicable Article of this Chapter, that consists of:
      i. Assessing risks of prior exposure to infectious tuberculosis,
      ii. Determining if the individual has signs or symptoms of tuberculosis, and
      iii. Obtaining documentation of the individual's freedom from infectious tuberculosis according to subsection (B)(1);
   b. If an individual may have a latent tuberculosis infection, as defined in A.A.C. R9-6-1201:
      i. Referring the individual for assessment or treatment; and
      ii. Annually obtaining documentation of the individual's freedom from symptoms of infectious tuberculosis, signed by a medical practitioner, occupation health provider, as defined in A.A.C. R9-6-801, or local health agency, as defined in A.A.C. R9-6-101;
   c. Annually providing training and education related to recognizing the signs and symptoms of tuberculosis to individuals employed by or providing volunteer services for the health care institution;
   d. Annually assessing the health care institution's risk of exposure to infectious tuberculosis;
   e. Reporting, as specified in A.A.C. R9-6-202, an individual who is suspected of exposure to infectious tuberculosis; and
   f. If an exposure to infectious tuberculosis occurs in the health care institution, coordinating and sharing information with the local health agency, as defined in A.A.C. R9-6-101, for identifying, locating, and investigating contacts, as defined in A.A.C. R9-6-101.

B. A health care institution's chief administrative officer shall:
1. For an individual for whom baseline screening and documentation of freedom from infectious tuberculosis is required by an Article in this Chapter, as specified in subsection (A)(2)(a), obtain one of the following as evidence of freedom from infectious tuberculosis:
   a. Documentation of a negative Mantoux skin test or other tuberculosis screening test that:
      i. Is recommended by the U.S. Centers for Disease Control and Prevention (CDC),
      ii. Was administered within 12 months before the date the individual begins providing services at or on behalf of the health care institution or is admitted to the health care institution, and
      iii. Includes the date and the type of tuberculosis screening test;
   b. If the individual had a history of tuberculosis or documentation of latent tuberculosis infection, as defined in A.A.C. R9-6-1201, compliance with subsection (A)(2)(b); or

c. If the individual had a positive Mantoux skin test or other tuberculosis screening test according to subsection (B)(1)(a) and does not have history of tuberculosis or documentation of latent tuberculosis infection, as defined in A.A.C. R9-6-1201, a written statement:
   i. That the individual is free from infectious tuberculosis, signed by a medical practitioner or local health agency, as defined in A.A.C. R9-6-101; and
   ii. Dated within 12 months before the date the individual begins providing services at or on behalf of the health care institution or is admitted to the health care institution; and

2. As part of the annual assessment of the health care institution's risk of exposure to infectious tuberculosis according to subsection (A)(2)(d), ensure that documentation is obtained for each individual required to be screened for infectious tuberculosis that:
   a. Indicates the individual's freedom from symptoms of infectious tuberculosis; and
   b. Is signed by a medical practitioner, occupation health provider, as defined in A.A.C. R9-6-801, or local health agency, as defined in A.A.C. R9-6-101.

Historical Note

Former Section R9-10-113 repealed, new Section R9-10-113 adopted effective February 4, 1981 (Supp. 81-1). Section repealed by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). New Section R9-10-113 renumbered from R9-10-112 and amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-113 renumbered to Section R9-10-114; new Section R9-10-113 renumbered from R9-10-112 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking at 28 A.A.R. 1113 (May 27, 2022), with an immediate effective date of May 4, 2022 (Supp. 22-2).

R9-10-114. Clinical Practice Restrictions for Hemodialysis Technician Trainees

A. The following definitions apply in this Section:

1. "Assess" means collecting data about a patient by:
   a. Obtaining a history of the patient,
   b. Listening to the patient's heart and lungs, and
   c. Checking the patient for edema.
2. "Blood-flow rate" means the quantity of blood pumped into a dialyzer per minute of hemodialysis.
3. "Blood lines" means the tubing used during hemodialysis to carry blood between a vascular access and a dialyzer.
4. "Central line catheter" means a type of vascular access created by surgically implanting a tube into a large vein.
5. "Clinical practice restriction" means a limitation on the hemodialysis tasks that may be performed by a hemodialysis technician trainee.
6. "Conductivity test" means a determination of the electrolytes in a dialysate.
7. "Dialysate" means a mixture of water and chemicals used in hemodialysis to remove wastes and excess fluid from a patient's body.
8. "Dialysate-flow rate" means the quantity of dialysate pumped per minute of hemodialysis.
9. "Directly observing" or "direct observation" means a medical person stands next to an inexperienced hemodialysis technician trainee and watches the inexperienced hemodialysis technician trainee perform a hemodialysis task.
10. "Direct supervision" has the same meaning as "supervision" in A.R.S. § 36-401.
11. "Electrolytes" means chemical compounds that break apart into electrically charged particles, such as sodium, potassium, or calcium, when dissolved in water.
12. "Experienced hemodialysis technician trainee" means an individual who has passed all didactic, skills, and competency examinations provided by a health care institution that measure the individual's knowledge and ability to perform hemodialysis.
13. "Fistula" means a type of vascular access created by a surgical connection between an artery and vein.
14. "Fluid-removal rate" means the quantity of wastes and excess fluid eliminated from a patient's blood per minute of hemodialysis to achieve the patient's prescribed weight, determined by:
    a. Dialyzer size,
    b. Blood-flow rate,
    c. Dialysate-flow rate, and
    d. Hemodialysis duration.
15. "Germicide-negative test" means a determination that a chemical used to kill microorganisms is not present.
16. "Germicide-positive test" means a determination that a chemical used to kill microorganisms is present.
17. "Graft" means a vascular access created by a surgical connection between an artery and vein using a synthetic tube.
18. "Hemodialysis machine" means a mechanical pump that controls:
    a. The blood-flow rate,
    b. The mixing and temperature of dialysate,
    c. The dialysate-flow rate,
    d. The addition of anticoagulant, and

e. The fluid-removal rate.

19. "Hemodialysis technician" has the same meaning as in A.R.S. § 36-423(A).
20. "Hemodialysis technician trainee" means an individual who is working in a health care institution to assist in providing hemodialysis and who is not certified as a hemodialysis technician according to A.R.S. § 36-423(A).
21. "Inexperienced hemodialysis technician trainee" means an individual who has not passed all didactic, skills, and competency examinations provided by a health care institution that measure the individual's knowledge and ability to perform hemodialysis.
22. "Medical person" means:
    a. A physician who is experienced in dialysis;
    b. A registered nurse practitioner who is experienced in dialysis;
    c. A nurse who is experienced in dialysis;
    d. A hemodialysis technician who meets the requirements in A.R.S. § 36-423(A) approved by the governing authority; and
    e. An experienced hemodialysis technician trainee approved by the governing authority.
23. "Not established" means not approved by a patient's nephrologist for use in hemodialysis.
24. "Patient" means an individual who receives hemodialysis.
25. "pH test" means a determination of the acidity of a dialysate.
26. "Preceptor course" means a health care institution's instruction and evaluation provided to a nurse, hemodialysis technician, or hemodialysis technician trainee that enables the nurse, hemodialysis technician, or hemodialysis technician trainee to provide direct observation and education to hemodialysis technician trainees.
27. "Respond" means to mute, shut off, reset, or troubleshoot an alarm.
28. "Safety check" means successful completion of tests recommended by the manufacturer of a hemodialysis machine, a dialyzer, or a water system used for hemodialysis before initiating a patient's hemodialysis.
29. "Water-contaminant test" means a determination of the presence of chlorine or chloramine in a water system used for hemodialysis.

B. An experienced hemodialysis technician trainee may:
1. Perform hemodialysis under direct supervision, and
2. Provide direct observation to another hemodialysis technician trainee only after completing the health care institution's preceptor course approved by the governing authority.

C. An experienced hemodialysis technician trainee shall not access a patient's:
1. Fistula that is not established, or
2. Graft that is not established.

D. An inexperienced hemodialysis technician trainee may perform the following hemodialysis tasks only under direct observation:
1. Access a patient's central line catheter;
2. Respond to a hemodialysis-machine alarm;
3. Draw blood for laboratory tests;
4. Perform a water-contaminant test on a water system used for hemodialysis;
5. Inspect a dialyzer and perform a germicide-positive test before priming a dialyzer;
6. Set up a hemodialysis machine and blood lines before priming a dialyzer;
7. Prime a dialyzer;
8. Test a hemodialysis machine for germicide presence;
9. Perform a hemodialysis machine safety check;
10. Prepare a dialysate;
11. Perform a conductivity test and a pH test on a dialysate;
12. Assess a patient;
13. Check and record a patient's vital signs, weight, and temperature;
14. Determine the amount and rate of fluid removal from a patient;
15. Administer local anesthetic at an established fistula or graft, administer anticoagulant, or administer replacement saline solution;
16. Perform a germicide-negative test on a dialyzer before initiating hemodialysis;
17. Initiate or discontinue a patient's hemodialysis;
18. Adjust blood-flow rate, dialysate-flow rate, or fluid-removal rate during hemodialysis; or
19. Prepare a blood, water, or dialysate culture to determine microorganism presence.

E. An inexperienced hemodialysis technician trainee shall not:
1. Access a patient's:
    a. Fistula that is not established, or
    b. Graft that is not established; or
2. Provide direct observation.

F. When a hemodialysis technician trainee performs hemodialysis tasks for a patient, the patient's medical record shall include:
1. The name of the hemodialysis technician trainee;
2. The date, time, and hemodialysis task performed;
3. The name of the medical person directly observing or the nurse or physician directly supervising the hemodialysis technician trainee; and

4. The initials or signature of the medical person directly observing or the nurse or physician directly supervising the hemodialysis technician trainee.

G. If the Department determines that a health care institution is not in substantial compliance with this Section, the Department may take enforcement action according to R9-10-111.

Historical Note

Former Section R9-10-114 repealed, new Section R9-10-114 adopted effective February 4, 1981 (Supp. 81-1). Amended by adding paragraph (7) as an emergency effective November 17, 1983 pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-6). Amended by adding paragraph (7) as a permanent amendment effective August 2, 1984 (Supp. 84-4). Section repealed by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). New Section R9-10-114 made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-114 renumbered to Section R9-10-115; new Section R9-10-114 renumbered from R9-10-113 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-115. Behavioral Health Paraprofessionals; Behavioral Health Technicians

If a health care institution is a behavioral health facility or is authorized by the Department to provide behavioral health services, an administrator shall ensure that:

1. Policies and procedures are established, documented, and implemented that:
   a. Delineate the services a behavioral health paraprofessional is allowed to provide at or for the health care institution;
   b. Cover supervision of a behavioral health paraprofessional, including documentation of supervision;
   c. Establish the qualifications for a behavioral health professional providing supervision to a behavioral health paraprofessional;
   d. Delineate the services a behavioral health technician is allowed to provide at or for the health care institution;
   e. Cover clinical oversight for a behavioral health technician, including documentation of clinical oversight;
   f. Establish the qualifications for a behavioral health professional providing clinical oversight to a behavioral health technician;
   g. Delineate the methods used to provide clinical oversight, including when clinical oversight is provided on an individual basis or in a group setting; and
   h. Establish the process by which information pertaining to services provided by a behavioral health technician is provided to the behavioral health professional who is responsible for the clinical oversight of the behavioral health technician;
2. A behavioral health paraprofessional receives supervision according to policies and procedures;
3. Clinical oversight is provided to a behavioral health technician to ensure that patient needs are met based on, for each behavioral health technician:
   a. The scope and extent of the services provided,
   b. The acuity of the patients receiving services, and
   c. The number of patients receiving services;
4. A behavioral health technician receives clinical oversight at least once during each two week period, if the behavioral health technician provides services related to patient care at the health care institution during the two week period;
5. When clinical oversight is provided electronically:
   a. The clinical oversight is provided verbally with direct and immediate interaction between the behavioral health professional providing and the behavioral health technician receiving the clinical oversight,
   b. A secure connection is used, and
   c. The identities of the behavioral health professional providing and the behavioral health technician receiving the clinical oversight are verified before clinical oversight is provided; and
6. A behavioral health professional provides supervision to a behavioral health paraprofessional or clinical oversight to behavioral health technician within the behavioral health professional's scope of practice established in the applicable licensing requirements under A.R.S. Title 32.

Historical Note

Adopted effective February 4, 1981 (Supp. 81-1). Amended by final rulemaking 16 A.A.R. 688, effective November 1, 2010 (Supp. 10-2). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-115 renumbered to Section R9-10-116; new Section R9-10-115 renumbered from R9-10-114 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-116. Nutrition and Feeding Assistant Training Programs

A. For the purposes of this Section, "agency" means an entity other than a nursing care institution that provides the nutrition and feeding assistant training required in A.R.S. § 36-413.

B. An agency shall apply for approval to operate a nutrition and feeding assistant training program by submitting:

1. An application in a Department-provided format that contains:
   a. The name of the agency;
   b. The name, telephone number, and e-mail address of the individual in charge of the proposed nutrition and feeding assistant training program;
   c. The address where the nutrition and feeding assistant training program records are maintained;
   d. A description of the training course being offered by the nutrition and feeding assistant training program including for each topic in subsection (I):
      i. The information presented for each topic,
      ii. The amount of time allotted to each topic,
      iii. The skills an individual is expected to acquire for each topic, and
      iv. The testing method used to verify an individual has acquired the stated skills for each topic;
   e. Whether the agency agrees to allow the Department to submit supplemental requests for information as specified in subsection (F)(2); and
   f. The signature of the individual in charge of the proposed nutrition and feeding assistant training program and the date signed; and
2. A copy of the materials used for providing the nutrition and feeding assistant training program.

C. For an application for an approval of a nutrition and feeding assistant training program, the administrative review time-frame is 30 calendar days, the substantive review time-frame is 30 calendar days, and the overall time-frame is 60 calendar days.

D. Within 30 calendar days after the receipt of an application in subsection (B), the Department shall:
1. Issue an approval of the agency's nutrition and feeding assistant training program;
2. Provide a notice of administrative completeness to the agency that submitted the application; or
3. Provide a notice of deficiencies to the agency that submitted the application, including a list of the information or documents needed to complete the application.

E. If the Department provides a notice of deficiencies to an agency:
1. The administrative completeness review time-frame and the overall time-frame are suspended from the date of the notice of deficiencies until the date the Department receives the missing information or documents from the agency;
2. If the agency does not submit the missing information or documents to the Department within 30 calendar days, the Department shall consider the application withdrawn; and
3. If the agency submits the missing information or documents to the Department within 30 calendar days, the substantive review time-frame begins on the date the Department receives the missing information or documents.

F. Within the substantive review time-frame, the Department:
1. Shall issue or deny an approval of a nutrition and feeding assistant training program; and
2. May make one written comprehensive request for more information, unless the Department and the agency agree in writing to allow the Department to submit supplemental requests for information.

G. If the Department issues a written comprehensive request or a supplemental request for information:
1. The substantive review time-frame and the overall time-frame are suspended from the date of the written comprehensive request or the supplemental request for information until the date the Department receives the information requested, and
2. The agency shall submit to the Department the information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information.

H. The Department shall issue:
1. An approval for an agency to operate a nutrition and feeding assistant training program if the Department determines that the agency and the application comply with A.R.S. § 36-413 and this Section; or
2. A denial for an agency that includes the reason for the denial and the process for appeal of the Department's decision if:
   a. The Department determines that the agency does not comply with A.R.S. § 36-413 and this Section; or
   b. The agency does not submit information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information.

I. An individual in charge of a nutrition and feeding assistant training program shall ensure that:
1. The materials and coursework for the nutrition and feeding assistant training program demonstrate the inclusion of the following topics:
   a. Feeding techniques;
   b. Assistance with feeding and hydration;
   c. Communication and interpersonal skills;
   d. Appropriate responses to resident behavior;
   e. Safety and emergency procedures, including the Heimlich maneuver;
   f. Infection control;
   g. Resident rights;
   h. Recognizing a change in a resident that is inconsistent with the resident's normal behavior; and
   i. Reporting a change in subsection (I)(1)(h) to a nurse at a nursing care institution;

2. An individual providing the training course is:
   a. A physician,
   b. A physician assistant,
   c. A registered nurse practitioner,
   d. A registered nurse,
   e. A registered dietitian,
   f. A licensed practical nurse,
   g. A speech-language pathologist, or
   h. An occupational therapist; and
3. An individual taking the training course completes:
   a. At least eight hours of classroom time, and
   b. Demonstrates that the individual has acquired the skills the individual was expected to acquire.

J. An individual in charge of a nutrition and feeding assistant training program shall issue a certificate of completion to an individual who completes the training course and demonstrates the skills the individual was expected to acquire as a result of completing the training course that contains:
1. The name of the agency approved to operate the nutrition and feeding assistant training program;
2. The name of the individual completing the training course;
3. The date of completion;
4. The name, signature, and professional license of the individual providing the training course; and
5. The name and signature of the individual in charge of the nutrition and feeding assistant training program.

K. The Department may deny, revoke, or suspend an approval to operate a nutrition and feeding assistant training program if an agency operating or applying to operate a nutrition and feeding assistance training program:
1. Provides false or misleading information to the Department;
2. Does not comply with the applicable statutes and rules;
3. Issues a training completion certificate to an individual who did not:
   a. Complete the nutrition and feeding assistant training program, or
   b. Demonstrate the skills the individual was expected to acquire; or
4. Does not implement the nutrition and feeding assistant training program as described in or use the materials submitted with the agency's application.

L. In determining which action in subsection (K) is appropriate, the Department shall consider the following:
1. Repeated violations of statutes or rules,
2. Pattern of non-compliance,
3. Types of violations,
4. Severity of violations, and
5. Number of violations.

Historical Note

Adopted effective February 4, 1981 (Supp. 81-1). Section repealed by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). New Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-116 renumbered to Section R9-10-117; new Section R9-10-116 renumbered from R9-10-115 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-117. Repealed

Historical Note

Adopted effective February 4, 1981 (Supp. 81-1). Section repealed by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). New Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Section R9-10-117 renumbered to Section R9-10-118; new Section R9-10-117 renumbered from R9-10-116 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Repealed by exempt rulemaking at 20 A.A.R. 3535, pursuant to Laws 2014, Ch. 233, § 5; effective January 1, 2015 (Supp. 14-4).

R9-10-118. Collaborating Health Care Institution

A. An administrator of a collaborating health care institution shall ensure that:
1. A list is maintained of adult behavioral health therapeutic homes and behavioral health respite homes for which the collaborating health care institution serves as a collaborating health care institution;
2. For each adult behavioral health therapeutic home or behavioral health respite home in subsection (A)(1), the collaborating health care institution maintains the following information:
   a. A copy of the documented agreement that establishes the responsibilities of the adult behavioral health therapeutic home or behavioral health respite home and the collaborating health care institution consistent with the requirements in this Chapter;

b. For the adult behavioral health therapeutic home or behavioral health respite home, the following information:
   i. Provider's name;
   ii. Street address;
   iii. License number;
   iv. Whether the residence is an adult behavioral health therapeutic home or a behavioral health respite home;
   v. If the residence is a behavioral health respite home, whether the behavioral health respite home provides respite care services to:
      (1) Individuals 18 years of age or older, or
      (2) Individuals less than 18 years of age;
   vi. The beginning and ending dates of the documented agreement in subsection (A)(2)(a); and
   vii. The name and contact information for the individual assigned by the collaborating health care institution to monitor the adult behavioral health therapeutic home or behavioral health respite home;
c. For the adult behavioral health therapeutic home or behavioral health respite home, a copy of the following that have been approved by the collaborating health care institution:
   i. Scope of services,
   ii. Policies and procedures, and
   iii. Documentation of the review and update of policies and procedures;
d. A description of the required skills and knowledge for a provider, based on the scope of services of the adult behavioral health therapeutic home or behavioral health respite home, as established by the collaborating health care institution; and
e. For a provider in the adult behavioral health therapeutic home or behavioral health respite home, documentation of:
   i. The provider's skills and knowledge;
   ii. If applicable, the provider's completion of training in assistance in the self-administration of medication;
   iii. Verification of the provider's skills and knowledge; and
   iv. If the provider is required to have clinical oversight according to R9-10-1805(C), the provider's receiving clinical oversight;

3. A provider's skills and knowledge are verified by a personnel member according to policies and procedures;
4. A provider who provides behavioral health services receives clinical oversight, required in R9-10-1805(C), from a behavioral health professional; and
5. A provider, other than a provider who is a medical practitioner or nurse, receives training in assistance in the self-administration of medication:
   a. From a medical practitioner or registered nurse or from a personnel member of the collaborating health care institution trained by a medical practitioner or registered nurse;
   b. That includes:
      i. A demonstration of the provider's skills and knowledge necessary to provide assistance in the self-administration of medication,
      ii. Identification of medication errors and medical emergencies related to medication that require emergency medical intervention, and
      iii. The process for notifying the appropriate entities when an emergency medical intervention is needed; and
   c. That is documented.

B. For a patient referred to an adult behavioral health therapeutic home or a behavioral health respite home, an administrator shall ensure that:

1. A resident or recipient accepted by and receiving services from the adult behavioral health therapeutic home or behavioral health respite home does not present a threat to the referred patient, based on the resident's or recipient's developmental levels, social skills, verbal skills, and personal history;
2. The referred patient does not present a threat to a resident or recipient accepted by and receiving services from the adult behavioral health therapeutic home or behavioral health respite home based the referred patient's developmental levels, social skills, verbal skills, and personal history;
3. The referred patient requires services within the adult behavioral health therapeutic home's or behavioral health respite home's scope of services;
4. A provider of the adult behavioral health therapeutic home or behavioral health respite home has the verified skills and knowledge to provide behavioral health services to the referred patient;
5. A treatment plan for the referred patient, which includes information necessary for a provider to meet the referred patient's needs for behavioral health services, is completed and forwarded to the provider before the referred patient is accepted as a resident or recipient;
6. A patient's treatment plan is reviewed and updated at least once every 12 months, and a copy of the patient's updated treatment plan is forwarded to the patient's provider;
7. If documentation of a significant change in a patient's behavioral, physical, cognitive, or functional condition and the action taken by a provider to address patient's changing needs is received by the collaborating health care institution, a behavioral health professional or behavioral health technician reviews the documentation and:
   a. Documents the review; and

b. If applicable:
   i. Updates the patient's treatment plan, and
   ii. Forwards the updated treatment plan to the provider within 10 working days after receipt of the documentation of a significant change;

8. If the review and updated treatment plan required in subsection (B)(7) is performed by a behavioral health technician, a behavioral health professional reviews and signs the review and updated treatment plan to ensure the patient is receiving the appropriate behavioral health services; and
9. In addition to the requirements for a medical record for a patient in this Chapter, a referred patient's medical record contains:
   a. The provider's name and the street address and license number of the adult behavioral health therapeutic home or behavioral health respite home to which the patient is referred,
   b. A copy of the treatment plan provided to the adult behavioral health therapeutic home or behavioral health respite home,
   c. Documentation received according to and required by subsection (B)(7),
   d. Any information about the patient received from the adult behavioral health therapeutic home or behavioral health respite home, and
   e. Any follow-up actions taken by the collaborating health care institution related to the patient.

C. For a patient referred to an adult behavioral health therapeutic home, an administrator shall ensure that the collaborating health care institution has documentation in the patient's medical record of evidence of freedom from infectious tuberculosis that meets the requirements in R9-10-113.

Historical Note

New Section R9-10-118 renumbered from R9-10-117 and amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). The word twelve has been changed to the numeral 12 in subsection (B)(6) for consistency in Chapter style and format (Supp. 21-2).

R9-10-119. Abortion Reporting

A. A licensed health care institution where abortions are performed shall submit to the Department, in a Department-provided format and according to A.R.S. § 36-2161(D) and (E), a report that contains the information required in A.R.S. § 36-2161(A) and the following:
1. The final disposition of the fetal tissue from the abortion; and
2. Except as provided in subsection (B), if custody of the fetal tissue is transferred to another person or persons:
   a. The name and address of the person or persons accepting custody of the fetal tissue,
   b. The amount of any compensation received by the licensed health care institution for the transferred fetal tissue, and
   c. Whether a patient provided informed consent for the transfer of custody of the fetal tissue.

B. A licensed health care institution where abortions are performed is not required to include the information specified in subsections (A)(2)(a) through (c) in the report required in subsection (A) if the licensed health care institution where abortions are performed:
1. Transfers custody of the fetal tissue:
   a. To a funeral establishment, as defined in A.R.S. § 32-1301;
   b. To a crematory, as defined in A.R.S. § 32-1301; or
   c. According to requirements in A.A.C. R18-13-1406, A.A.C. R18-13-1407, and A.A.C. R18-13-1408; or
2. Complies with requirements in A.A.C. R18-13-1405.

C. For purposes of this Section, the following definition applies: "Fetal tissue" means cells, or groups of cells with a specific function, obtained from an aborted human embryo or fetus.

Historical Note

New Section made by emergency rulemaking at 21 A.A.R. 1787, effective August 14, 2015 for 180 days (Supp. 15-3). Emergency expired February 10, 2016. Section amended by emergency rulemaking at 22 A.A.R. 420, effective February 11, 2016, for an additional 180 days; filed in the Office February 8, 2016 (Supp. 16-1). New Section made by final rulemaking at 22 A.A.R. 1343, with an immediate effective date upon filing under A.R.S. § 41-1032(A)(1) and (4) of May 5, 2016 (Supp. 16-2). Amended by final expedited rulemaking at 25 A.A.R. 1893, effective July 2, 2019 (Supp. 19-3).

R9-10-120. Opioid Prescribing and Treatment

A. This Section does not apply to a health care institution licensed under Article 20 of this Chapter.

B. In addition to the definitions in A.R.S. §§ 32-3248.01 and 36-401(A) and R9-10-101, the following definitions apply in this Section:
1. "Episode of care" means medical services, nursing services, or health-related services provided by a health care institution to a patient for a specific period of time, ending in discharge, the completion of the patient's treatment plan, or 90 days from the start of service provision to the patient, whichever is later.
2. "Order" means to issue written, verbal, or electronic instructions for a specific dose of a specific medication in a specific quantity and route of administration to be obtained and administered to a patient in a health care institution.

C. An administrator of a health care institution where opioids are prescribed or ordered as part of treatment shall:

1. Establish, document, and implement policies and procedures for prescribing or ordering an opioid as part of treatment, to protect the health and safety of a patient, that:
   a. Cover which personnel members may prescribe or order an opioid in treating a patient and the required knowledge and qualifications of these personnel members;
   b. As applicable and except when contrary to medical judgment for a patient, are consistent with A.R.S. § 32-3248.01 and the Arizona Opioid Prescribing Guidelines or national opioid-prescribing guidelines, such as guidelines developed by the:
      i. Centers for Disease Control and Prevention, or
      ii. U.S. Department of Veterans Affairs and the U.S. Department of Defense;
   c. As applicable, include how, when, and by whom:
      i. A patient's profile on the Arizona Board of Pharmacy Controlled Substances Prescription Monitoring Program database is reviewed;
      ii. An assessment is conducted of a patient's substance use risk;
      iii. The potential risks, adverse outcomes, and complications, including death, associated with the use of opioids are explained to a patient or the patient's representative;
      iv. Alternatives to a prescribed or ordered opioid are explained to a patient or the patient's representative;
      v. Informed consent is obtained from a patient or the patient's representative and, if applicable, in what situations, described in subsection (G), (H), or (I), informed consent would not be obtained before an opioid is prescribed or ordered for a patient;
      vi. A patient receiving an opioid is monitored; and
      vii. The actions taken according to subsections (C)(1)(c)(i) through (vi) are documented;
   d. Address conditions that may impose a higher risk to a patient when prescribing or ordering an opioid as part of treatment, including:
      i. Concurrent use of a benzodiazepine or other sedative-hypnotic medication,
      ii. History of substance use disorder,
      iii. Co-occurring behavioral health issue, or
      iv. Pregnancy;
   e. Cover the criteria for co-prescribing a short-acting opioid antagonist for a patient who is not an inpatient, as defined in R9-10-201;
   f. Include that, if continuing control of a patient's pain after discharge is medically indicated due to the patient's medical condition, a method for continuing pain control will be addressed as part of discharge planning;
   g. Include the frequency of the following for a patient being prescribed an opioid for longer than a 30-calendar-day period:
      i. Face-to-face interactions with the patient,
      ii. Conducting an assessment of a patient's substance use risk,
      iii. Renewal of a prescription for an opioid without a face-to-face interaction with the patient, and
      iv. Monitoring the effectiveness of the treatment;
   h. If applicable according to A.R.S. § 36-2608, include documenting a dispensed opioid in the Arizona Board of Pharmacy Controlled Substances Prescription Monitoring Program database;
   i. As applicable and consistent with A.R.S. § 32-3248.01, cover the criteria and procedures for tapering opioid prescription or ordering as part of treatment; and
   j. Cover the criteria and procedures for offering or referring a patient for treatment for substance use disorder;
2. Include in the plan for the health care institution's quality management program a process for:
   a. Review of known incidents of opioid-related adverse reactions or other negative outcomes a patient experiences or opioid-related deaths, and
   b. Surveillance and monitoring of adherence to the policies and procedures in subsection (C)(1);
3. Except as prohibited by 42 CFR, Chapter I, Subchapter A, Part 2, or as provided in subsection (H)(1), ensure that, if a patient's death may be related to an opioid prescribed or ordered as part of treatment, written notification, in a Department-provided format, is provided to the Department of the patient's death within one working day after the health care institution learns of the patient's death; and
4. Ensure that informed consent, if required from a patient or the patient's representative, includes:
   a. The patient's:
      i. Name,
      ii. Date of birth or other patient identifier, and
      iii. Condition for which opioids are being prescribed;
   b. That an opioid is being prescribed or ordered;
   c. The potential risks, adverse reactions, complications, and medication interactions associated with the use of an opioid;
   d. If applicable, the potential risks, adverse outcomes, and complications associated with the concurrent use of an opioid and a benzodiazepine or another sedative-hypnotic medication;
   e. Alternatives to a prescribed or ordered opioid;
   f. The name and signature of the individual explaining the use of an opioid to the patient; and

g. The signature of the patient or the patient's representative and the date signed.

D. Except as provided in subsection (H) or (I), an administrator of a health care institution where opioids are prescribed as part of treatment shall ensure that a medical practitioner authorized by policies and procedures to prescribe an opioid in treating a patient:

1. Before prescribing an opioid for a patient of the health care institution:
   a. Conducts a physical examination of the patient or reviews the documentation from a physical examination conducted during the patient's same episode of care;
   b. Except as exempted by A.R.S. § 36-2606(G), reviews the patient's profile on the Arizona Board of Pharmacy Controlled Substances Prescription Monitoring Program database;
   c. Conducts an assessment of the patient's substance use risk or reviews the documentation from an assessment of the patient's substance use risk conducted during the same episode of care by an individual licensed under A.R.S. Title 32 and authorized by policies and procedures to conduct an assessment of the patient's substance use risk;
   d. Explains to the patient or the patient's representative the risks and benefits associated with the use of opioids or ensures that the patient or the patient's representative understands the risks and benefits associated with the use of opioids, as explained to the patient or the patient's representative by an individual licensed under A.R.S. Title 32 and authorized by policies and procedures to explain to the patient or the patient's representative the risks and benefits associated with the use of opioids;
   e. If applicable, explains alternatives to a prescribed opioid; and
   f. Obtains informed consent from the patient or the patient's representative that meets the requirements in subsection (C)(4), including the potential risks, adverse outcomes, and complications associated with the concurrent use of an opioid and a benzodiazepine or another sedative-hypnotic medication, if the patient:
      i. Is also prescribed or ordered a sedative-hypnotic medication, or
      ii. Has been prescribed a sedative-hypnotic medication by another medical practitioner;
2. Includes the following information in the patient's medical record, an existing treatment plan, or a new treatment plan developed for the patient:
   a. The patient's diagnosis;
   b. The patient's medical history, including co-occurring disorders;
   c. The opioid to be prescribed;
   d. Other medications or herbal supplements being taken by the patient;
   e. If applicable:
      i. The effectiveness of the patient's current treatment,
      ii. The duration of the current treatment, and
      iii. Alternative treatments tried by or planned for the patient;
   f. The expected benefit of the treatment and, if applicable, the benefit of the new treatment compared with continuing the current treatment; and
   g. Other factors relevant to the patient's being prescribed an opioid; and
3. If applicable, specifies in the patient's discharge plan how medically indicated pain control will occur after discharge to meet the patient's needs.

E. Except as provided in subsection (G) or (H), an administrator of a health care institution where opioids are ordered for administration to a patient in the health care institution as part of treatment shall ensure that a medical practitioner authorized by policies and procedures to order an opioid in treating a patient:

1. Before ordering an opioid for a patient of the health care institution:
   a. Conducts a physical examination of the patient or reviews the documentation from a physical examination conducted:
      i. During the patient's same episode of care; or
      ii. Within the previous 30 calendar days, at a health care institution transferring the patient to the health care institution or by the medical practitioner who referred the patient for admission to the health care institution;
   b. Except as exempted by A.R.S. § 36-2606(G), reviews the patient's profile on the Arizona Board of Pharmacy Controlled Substances Prescription Monitoring Program database;
   c. If medically appropriate based on the physical examination in subsection (E)(1)(a) and the patient's medical history, assesses the patient's substance use risk or reviews the documentation from an assessment of the patient's substance use risk conducted within the previous 30 calendar days by an individual licensed under A.R.S. Title 32 and authorized by policies and procedures to conduct an assessment of the patient's substance use risk;
   d. Ensures that the patient or the patient's representative understands the risks and benefits associated with the use of opioids, as explained to the patient or the patient's representative according to policies and procedures; and
   e. If applicable, explains alternatives to an ordered opioid; and
2. Includes the following information in the patient's medical record, an existing treatment plan, or a new treatment plan developed for the patient:
   a. The patient's diagnosis;
   b. The patient's medical history, including co-occurring disorders;
   c. The opioid being ordered and the reason for the order;

d. Other medications or herbal supplements being taken by the patient; and
e. If applicable:
i. The effectiveness of the patient's current treatment,
ii. The duration of the current treatment,
iii. Alternative treatments tried by or planned for the patient,
iv. The expected benefit of a new treatment compared with continuing the current treatment, and
v. Other factors relevant to the patient's being ordered an opioid.

F. For a health care institution where opioids are administered as part of treatment or where a patient is provided assistance in the self-administration of medication for a prescribed opioid, including a health care institution in which an opioid may be prescribed or ordered as part of treatment, an administrator, a manager as defined in R9-10-801, or a provider, as applicable to the health care institution, shall:

1. Establish, document, and implement policies and procedures for administering an opioid as part of treatment or providing assistance in the self-administration of medication for a prescribed opioid, to protect the health and safety of a patient, that:
a. Cover which personnel members may administer an opioid in treating a patient and the required knowledge and qualifications of these personnel members;
b. Cover which personnel members may provide assistance in the self-administration of medication for a prescribed opioid and the required knowledge and qualifications of these personnel members;
c. Include how, when, and by whom a patient's need for opioid administration is assessed;
d. Include how, when, and by whom a patient receiving an opioid is monitored; and
e. Cover how, when, and by whom the actions taken according to subsections (F)(1)(c) and (d) are documented;
2. Include in the plan for the health care institution's quality management program a process for:
a. Review of incidents of opioid-related adverse reactions or other negative outcomes a patient experiences or opioid-related deaths, and
b. Surveillance and monitoring of adherence to the policies and procedures in subsection (F)(1);
3. Except as prohibited by 42 CFR, Chapter I, Subchapter A, Part 2, or as provided in subsection (H)(1), ensure that, if a patient's death may be related to an opioid administered as part of treatment, written notification, in a Department-provided format, is provided to the Department of the patient's death within one working day after the patient's death; and
4. Except as provided in subsection (H), ensure that an individual authorized by policies and procedures to administer an opioid in treating a patient or to provide assistance in the self-administration of medication for a prescribed opioid:
a. Before administering an opioid or providing assistance in the self-administration of medication for a prescribed opioid in compliance with an order as part of the treatment for a patient, identifies the patient's need for the opioid;
b. Monitors the patient's response to the opioid; and
c. Documents in the patient's medical record:
i. An identification of the patient's need for the opioid before the opioid was administered or assistance in the self-administration of medication for a prescribed opioid was provided, and
ii. The effect of the opioid administered or for which assistance in the self-administration of medication for a prescribed opioid was provided.

G. A medical practitioner authorized by a health care institution's policies and procedures to order an opioid in treating a patient is exempt from the requirements in subsection (E), if:

1. The health care institution's policies and procedures, required in subsection (C)(1) or the applicable Article in 9 A.A.C. 10, contain procedures for:
a. Providing treatment without obtaining the consent of a patient or the patient's representative,
b. Ordering and administering opioids in an emergency situation, and
c. Complying with the requirements in subsection (E) after the emergency is resolved;
2. The order for the administration of an opioid is:
a. Part of the treatment for a patient in an emergency, and
b. Issued in accordance with policies and procedures; and
3. The emergency situation is documented in the patient's medical record.

H. The requirements in subsections (D), (E), and (F)(4), as applicable, do not apply to a health care institution's:

1. Prescribing, ordering, or administration of an opioid as part of treatment for a patient with an end-of-life condition or pain associated with an active malignancy;
2. Prescribing an opioid as part of treatment for a patient when changing the type or dosage of an opioid, which had previously been prescribed by a medical practitioner of the health care institution for the patient according to the requirements in subsection (D):
a. Before a pharmacist dispenses the opioid for the patient; or
b. If changing the opioid because of an adverse reaction to the opioid experienced by the patient, within 72 hours after the opioid was dispensed for the patient by a pharmacist;
3. Ordering an opioid as part of treatment for no longer than three calendar days for a patient remaining in the health care institution and receiving continuous medical services or nursing services from the health care institution; or
4. Ordering an opioid as part of treatment:
a. For a patient receiving a surgical procedure or other invasive procedure; or

b. When changing the type, dosage, or route of administration of an opioid, which had previously been ordered by a medical practitioner of the health care institution for a patient according to the requirements in subsection (E), to meet the patient's needs.

I. The requirements in subsections (D)(1)(c) through (f) do not apply to a health care institution's prescribing an opioid as part of treatment for a patient with chronic, intractable pain who has had an established health professional-patient relationship with the prescribing medical practitioner for at least 90 days before the opioid is prescribed.

Historical Note

New Section made by emergency rulemaking at 23 A.A.R. 2203, effective July 28, 2017, for 180 days (Supp. 17-3). Emergency expired; new Section renewed by emergency rulemaking at 24 A.A.R. 303, effective January 25, 2018, for 180 days; new Section made by final rulemaking at 24 A.A.R. 657, with an immediate effective date of March 6, 2018 (Supp. 18-1). Amended by final rulemaking at 24 A.A.R. 3020, effective January 1, 2019 (Supp. 18-4). Amended by final expedited rulemaking at 28 A.A.R. 3568 (November 18, 2022), with an immediate effective date November 2, 2022 (Supp. 22-4).

R9-10-121. Disease Prevention and Control

A. This Section applies:
1. When the Governor has declared a state of emergency, as defined in A.R.S. § 26-301, to address a situation described under A.R.S. § 36-787; and
2. To health care institutions licensed under Article 4, 5, or 8 of this Chapter.

B. The following definitions apply in this Section:
1. "Communicable disease" has the same meaning as in A.A.C. R9-6-101.
2. "Infection" has the same meaning as in A.A.C. R9-6-101.
3. "Respiratory symptoms" means coughing, shortness of breath, or wheezing not known to be caused by asthma or another chronic lung-related disease.

C. An administrator or manager, as applicable, shall ensure that policies and procedures are established, documented, and implemented, to protect the health and safety of a resident, that:
1. Cover screening and triage of personnel members, employees, visitors, and, except as provided in subsection (E), any other individuals entering the facility;
2. Cover the manner and frequency of assessing residents to determine a change in a resident's medical condition;
3. Establish disinfection protocols and schedules for frequently touched surfaces; and
4. Specify requirements for distancing residents who exhibit symptoms of a communicable disease from other residents to reduce the chance for infection of another individual.

D. An administrator or manager, as applicable, shall ensure that:
1. Except as provided in subsection (E), before entering the facility, each individual, including a personnel member, employee, or visitor, is screened for fever or respiratory symptoms indicative of a communicable disease;
2. If an individual refuses to be screened, the individual is excluded from entry to the facility;
3. If an individual is determined to have a fever or respiratory symptoms, the individual is excluded from entry to the facility until symptoms have resolved or the individual has been evaluated and cleared by a medical practitioner;
4. If an individual, other than a resident, develops a fever or respiratory symptoms while in the facility, the individual is required to leave the facility and not return until symptoms have resolved or the individual has been evaluated and cleared by a medical practitioner; and
5. If insufficient personnel members are available to meet the needs of all residents in the facility, the administrator or manager, as applicable, implements the disaster plan required in R9-10-424, R9-10-523, or R9-10-818, as applicable, which may include moving a resident to a different facility.

E. An administrator or manager, as applicable, may allow an emergency medical care technician, as defined in A.R.S. § 36-2201, to enter the facility without screening if the emergency medical care technician is responding to a call for providing emergency medical services, as defined in A.R.S. § 36-2201, to a resident or other individual in the facility.

F. An administrator or manager, as applicable, shall ensure that:
1. An assessment of a resident includes whether the resident has a fever or respiratory symptoms indicative of a communicable disease and is documented in the resident's medical record; and
2. If a resident is found to have a fever or respiratory symptoms indicative of a communicable disease:
   a. The resident is evaluated by a medical practitioner within 24 hours to determine what services need to be provided to the resident and what precautions need to be taken by the facility, and the evaluation is documented in the resident's medical record;
   b. To reduce the chance for infection of another individual, the resident is:
      i. Kept at a distance of at least six feet from other residents; or
      ii. If not possible to keep the resident at a distance from other residents, required to wear a facemask;
   c. A personnel member:

i. Takes precautions, which may include the use of gloves and a facemask or other personal protection equipment, while providing services to the resident; and
ii. Removes and, if applicable, disposes of the personal protection equipment and washes the personnel member's hands with soap and water for at least 20 seconds or, if soap and water are not available, uses a hand sanitizer containing at least 60% alcohol immediately after providing services to the resident and before providing services to another resident;

d. Linens, dishes, utensils, and other items used by the resident are:
i. Kept separate from similar items used by a resident who does not have a fever or respiratory symptoms indicative of a communicable disease, and
ii. Disinfected or disposed of in a manner to reduce the chance for infection of another individual; and

e. Surfaces touched by the resident are disinfected before another individual touches the surface.

G. An administrator or manager, as applicable, shall ensure that door handles, tables, chair backs and arm rests, light switches, and other frequently touched surfaces are cleaned and disinfected, according to policies and procedures, with:
1. An alcohol solution containing at least 70% alcohol;
2. A bleach solution containing four teaspoons of bleach per quart of water; or
3. An EPA-approved household disinfectant specified in a list, which is incorporated by reference, available at https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2-covid-19, and does not include any later amendments or editions of the incorporated matter.

Historical Note

Amended effective February 4, 1981 (Supp. 81-1). Section repealed by final rulemaking at 8 A.A.R. 3559, effective August 1, 2002 (Supp. 02-3). New Section made by emergency rulemaking at 26 A.A.R. 509, with an immediate effective date of March 16, 2020, for 180 days (Supp. 19-1). Emergency expired. New Section made by final rulemaking at 26 A.A.R. 2793, with an immediate effective date of October 7, 2020 (Supp. 20-4).

ARTICLE 8. ASSISTED LIVING FACILITIES

R9-10-801. Definitions

In addition to the definitions in A.R.S. § 36-401 and R9-10-101, the following definitions apply in this Article, unless the context otherwise requires:

1. "Accept" or "acceptance" means:
   a. An individual begins living in and receiving assisted living services from an assisted living facility; or
   b. An individual begins receiving adult day health care services or respite care services from an assisted living facility.
2. "Assistant caregiver" means an employee or volunteer who helps a manager or caregiver provide supervisory care services, personal care services, or directed care services to a resident, and does not include a family member of the resident.
3. "Assisted living services" means supervisory care services, personal care services, directed care services, behavioral care, or ancillary services provided to a resident by or on behalf of an assisted living facility.
4. "Caregiver" means an individual who provides supervisory care services, personal care services, or directed care services to a resident, and does not include a family member of the resident.
5. "Manager" means an individual designated by a governing authority to act on behalf of the governing authority in the onsite management of the assisted living facility.
6. "Medication organizer" means a container that is designed to hold doses of medication and is divided according to date or time increments.
7. "Primary care provider" means a physician, a physician's assistant, or registered nurse practitioner who directs a resident's medical services.
8. "Residency agreement" means a document signed by a resident or the resident's representative and a manager, detailing the terms of residency.
9. "Service plan" means a written description of a resident's need for supervisory care services, personal care services, directed care services, ancillary services, or behavioral health services and the specific assisted living services to be provided to the resident.
10. "Termination of residency" or "terminate residency" means a resident is no longer living in and receiving assisted living services from an assisted living facility.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted with changes effective October 30, 1989 (Supp. 89-4). Amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Amended by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-802. Supplemental Application Requirements; Exemption

A. In addition to the license application requirements in A.R.S. § 36-422 and R9-10-105, an applicant for a license as an assisted living facility shall include in a Department-provided format:

1. Which of the following levels of assisted living services the applicant is requesting authorization to provide:
   a. Supervisory care services,
   b. Personal care services, or
   c. Directed care services; and
2. Whether the applicant is requesting authorization to provide:
   a. Adult day health care services, or
   b. Behavioral health services other than behavioral care.

B. The Arizona Pioneers' Home is exempt from:

1. Architectural plans and specifications for a health care institution specified in R9-10-104; and
2. Physical plant codes and standards for a health care institution specified in R9-10-105(A)(5)(a).

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted with changes effective

October 30, 1989 (Supp. 89-4). Amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking at 28 A.A.R. 869 (April 29, 2022), with an immediate effective date of April 8, 2022 (Supp. 22-2).

R9-10-803. Administration

A. A governing authority shall:
1. Consist of one or more individuals responsible for the organization, operation, and administration of an assisted living facility;
2. Establish, in writing, an assisted living facility's scope of services;
3. Designate, in writing, a manager who:
   a. Is 21 years of age or older; and
   b. Except for the manager of an adult foster care home, has either a:
      i. Certificate as an assisted living facility manager issued under A.R.S. § 36-446.04(C), or
      ii. A temporary certificate as an assisted living facility manager issued under A.R.S. § 36-446.06;
4. Adopt a quality management program that complies with R9-10-804;
5. Review and evaluate the effectiveness of the quality management program at least once every 12 months;
6. Designate, in writing, an acting manager who has the qualifications established in subsection (A)(3), if the manager is:
   a. Expected not to be present on the assisted living facility's premises for more than 30 calendar days, or
   b. Not present on the assisted living facility's premises for more than 30 calendar days;
7. Except as provided in subsection (A)(6), notify the Department according to A.R.S. § 36-425(I) when there is a change in the manager and identify the name and qualifications of the new manager;
8. Ensure that a manager or caregiver who is able to read, write, understand, and communicate in English is on an assisted living facility's premises; and
9. Ensure compliance with A.R.S. § 36-411.

B. A manager:
1. Is directly accountable to the governing authority of an assisted living facility for the daily operation of the assisted living facility and all services provided by or at the assisted living facility;
2. Has the authority and responsibility to manage the assisted living facility; and
3. Except as provided in subsection (A)(6), designates, in writing, a caregiver who is:
   a. At least 21 years of age, and
   b. Present on the assisted living facility's premises and accountable for the assisted living facility when the manager is not present on the assisted living facility premises.

C. A manager shall ensure that policies and procedures are:
1. Established, documented, and implemented to protect the health and safety of a resident that:
   a. Cover job descriptions, duties, and qualifications, including required skills and knowledge, education, and experience for employees and volunteers;
   b. Cover orientation and in-service education for employees and volunteers;
   c. Include how an employee may submit a complaint related to resident care;
   d. Cover the requirements in A.R.S. Title 36, Chapter 4, Article 11;
   e. Except as provided in subsection (M), cover cardiopulmonary resuscitation training for applicable employees and volunteers, including:
      i. The method and content of cardiopulmonary resuscitation training, which includes a demonstration of the employee's or volunteer's ability to perform cardiopulmonary resuscitation;
      ii. The qualifications for an individual to provide cardiopulmonary resuscitation training;
      iii. The time-frame for renewal of cardiopulmonary resuscitation training; and
      iv. The documentation that verifies that the employee or volunteer has received cardiopulmonary resuscitation training;
   f. Cover first aid training;
   g. Cover how a caregiver will respond to a resident's sudden, intense, or out-of-control behavior to prevent harm to the resident or another individual;
   h. Cover staffing and recordkeeping;
   i. Cover resident acceptance and resident rights;
   j. Cover termination of residency, including:
      i. Termination initiated by the manager of an assisted living facility, and
      ii. Termination initiated by a resident or the resident's representative;
   k. Cover the provision of assisted living services, including:
      i. Coordinating the provision of assisted living services,
      ii. Making vaccination for influenza and pneumonia available to residents according to A.R.S. § 36-406(1)(d), and
      iii. Obtaining resident preferences for food and the provision of assisted living services;
   l. Cover the provision of respite services or adult day health services, if applicable;

m. Cover methods by which the assisted living facility is aware of the general or specific whereabouts of a resident, based on the level of assisted living services provided to the resident and the assisted living services the assisted living facility is authorized to provide;
n. Cover resident medical records, including electronic medical records;
o. Cover personal funds accounts, if applicable;
p. Cover specific steps for:
i. A resident to file a complaint, and
ii. The assisted living facility to respond to a resident's complaint;
q. Cover health care directives;
r. Cover assistance in the self-administration of medication, and medication administration;
s. Cover food services;
t. Cover contracted services;
u. Cover equipment inspection and maintenance, if applicable;
v. Cover infection control; and
w. Cover a quality management program, including incident report and supporting documentation;
2. Available to employees and volunteers of the assisted living facility; and
3. Reviewed at least once every three years and updated as needed.

D. A manager shall ensure that the following are conspicuously posted:
1. A list of resident rights;
2. The assisted living facility's license;
3. Current phone numbers of:
a. The unit in the Department responsible for licensing and monitoring the assisted living facility,
b. Adult Protective Services in the Department of Economic Security,
c. The State Long-Term Care Ombudsman, and
d. The Arizona Center for Disability Law; and
4. The location at which a copy of the most recent Department inspection report and any plan of correction resulting from the Department inspection may be viewed.

E. A manager shall ensure that, unless otherwise stated:
1. Documentation required by this Article is provided to the Department within two hours after a Department request; and
2. When documentation or information is required by this Chapter to be submitted on behalf of an assisted living facility, the documentation or information is provided to the unit in the Department that is responsible for licensing and monitoring the assisted living facility.

F. If a requirement in this Article states that a manager shall ensure an action or condition or sign a document:
1. A governing authority or licensee may ensure the action or condition or sign the document and retain the responsibility to ensure compliance with the requirement in this Article;
2. The manager may delegate ensuring the action or condition or signing the document to another individual, but the manager retains the responsibility to ensure compliance with the requirement in the Article; and
3. If the manager delegates ensuring an action or condition or signing a document, the delegation is documented and the documentation includes the name of the individual to whom the action, condition, or signing is delegated and the effective date of the delegation.

G. A manager shall:
1. Not act as a resident's representative and not allow an employee or a family member of an employee to act as a resident's representative for a resident who is not a family member of the employee;
2. If the assisted living facility administers personal funds accounts for residents and is authorized in writing by a resident or the resident's representative to administer a personal funds account for the resident:
a. Ensure that the resident's personal funds account does not exceed $2,000;
b. Maintain a separate record for each resident's personal funds account, including receipts and expenditures;
c. Maintain the resident's personal funds account separate from any account of the assisted living facility; and
d. Provide a copy of the record of the resident's personal funds account to the resident or the resident's representative at least once every three months;
3. Notify the resident's representative, family member, public fiduciary, or trust officer if the manager determines that a resident is incapable of handling financial affairs; and
4. Except when a resident's need for assisted living services changes, as documented in the resident's service plan, ensure that a resident receives at least 30 calendar days written notice before any increase in a fee or charge.

H. A manager shall permit the Department to interview an employee, a volunteer, or a resident as part of a compliance survey or a complaint investigation.

I. If abuse, neglect, or exploitation of a resident is alleged or suspected to have occurred before the resident was accepted or while the resident is not on the premises and not receiving services from an assisted living facility's manager, caregiver, or assistant caregiver, the manager shall report the alleged or suspected abuse, neglect, or exploitation of the resident according to A.R.S. § 46-454.

J. If a manager has a reasonable basis, according to A.R.S. § 46-454, to believe abuse, neglect or exploitation has occurred on the premises or while a resident is receiving services from an assisted living facility's manager, caregiver, or assistant caregiver, the manager shall:

1. If applicable, take immediate action to stop the suspected abuse, neglect, or exploitation;
2. Report the suspected abuse, neglect, or exploitation of the resident according to A.R.S. § 46-454;
3. Document:
   a. The suspected abuse, neglect, or exploitation;
   b. Any action taken according to subsection (J)(1); and
   c. The report in subsection (J)(2);
4. Maintain the documentation in subsection (J)(3) for at least 12 months after the date of the report in subsection(J)(2);
5. Initiate an investigation of the suspected abuse, neglect, or exploitation and document the following information within five working days after the report required in subsection (J)(2):
   a. The dates, times, and description of the suspected abuse, neglect, or exploitation;
   b. A description of any injury to the resident related to the suspected abuse or neglect and any change to the resident's physical, cognitive, functional, or emotional condition;
   c. The names of witnesses to the suspected abuse, neglect, or exploitation; and
   d. The actions taken by the manager to prevent the suspected abuse, neglect, or exploitation from occurring in the future; and
6. Maintain a copy of the documented information required in subsection (J)(5) for at least 12 months after the date the investigation was initiated.

K. A manager shall provide written notification to the Department of a resident's:

1. Death, if the resident's death is required to be reported according to A.R.S. § 11-593, within one working day after the resident's death; and
2. Self-injury, within two working days after the resident inflicts a self-injury that requires immediate intervention by an emergency services provider.

L. If a resident is receiving services from a home health agency or hospice service agency, a manager shall ensure that:

1. The resident's medical record contains:
   a. The name, address, and contact individual, including contact information, of the home health agency or hospice service agency;
   b. Any information provided by the home health agency or hospice service agency; and
   c. A copy of resident follow-up instructions provided to the resident by the home health agency or hospice service agency; and
2. Any care instructions for a resident provided to the assisted living facility by the home health agency or hospice service agency are:
   a. Within the assisted living facility's scope of services,
   b. Communicated to a caregiver, and
   c. Documented in the resident's service plan.

M. A manager of an assisted living home may establish, in policies and procedures, requirements that a caregiver obtains and provides documentation of cardiopulmonary resuscitation training specific to adults, which includes a demonstration of the caregiver's ability to perform cardiopulmonary resuscitation, from one of the following organizations:

1. American Red Cross,
2. American Heart Association, or
3. National Safety Council.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted with changes effective October 30, 1989 (Supp. 89-4). Former Section R9-10-803 renumbered to R9-10-804; new Section R9-10-803 made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-804. Quality Management

A manager shall ensure that:

1. A plan is established, documented, and implemented for an ongoing quality management program that, at a minimum, includes:
   a. A method to identify, document, and evaluate incidents;

b. A method to collect data to evaluate services provided to residents;
c. A method to evaluate the data collected to identify a concern about the delivery of services related to resident care;
d. A method to make changes or take action as a result of the identification of a concern about the delivery of services related to resident care; and
e. The frequency of submitting a documented report required in subsection (2) to the governing authority;

2. A documented report is submitted to the governing authority that includes:
   a. An identification of each concern about the delivery of services related to resident care, and
   b. Any change made or action taken as a result of the identification of a concern about the delivery of services related to resident care; and
3. The report required in subsection (2) and the supporting documentation for the report are maintained for at least 12 months after the date the report is submitted to the governing authority.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted effective October 30, 1989 (Supp. 89-4). Section repealed; new Section R9-10-804 renumbered from R9-10-803 and amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-805. Contracted Services

A manager shall ensure that:

1. Contracted services are provided according to the requirements in this Article, and
2. Documentation of current contracted services is maintained that includes a description of the contracted services provided.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted as an emergency and (A)(1)(a)(i)(1) amended effective January 27, 1989 pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted effective October 30, 1989 (Supp. 89-4). Section repealed; new Section made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-806. Personnel

A. A manager shall ensure that:

1. A caregiver:
   a. Is 18 years of age or older; and
   b. Provides documentation of:
      i. Completion of a caregiver training program approved by the Department or the Board of Examiners for Nursing Care Institution Administrators and Assisted Living Facility Managers;
      ii. For supervisory care services, employment as a manager or caregiver of a supervisory care home before November 1, 1998;
      iii. For supervisory care services or personal care services, employment as a manager or caregiver of a supportive residential living center before November 1, 1998; or
      iv. For supervisory care services, personal care services, or directed services, one of the following:
         (1) A nursing care institution administrator's license issued by the Board of Examiners;
         (2) A nurse's license issued to the individual under A.R.S. Title 32, Chapter 15;
         (3) Documentation of employment as a manager or caregiver of an unclassified residential care institution before November 1, 1998; or
         (4) Documentation of sponsorship of or employment as a caregiver in an adult foster care home before November 1, 1998;
2. An assistant caregiver:
   a. Is 16 years of age or older, and
   b. Interacts with residents under the supervision of a manager or caregiver;

3. The qualifications, skills, and knowledge required for a caregiver or assistant caregiver:
   a. Are based on:
      i. The type of assisted living services, behavioral health services, or behavioral care expected to be provided by the caregiver or assistant caregiver according to the established job description; and
      ii. The acuity of the residents receiving assisted living services, behavioral health services, or behavioral care from the caregiver or assistant caregiver according to the established job description; and
   b. Include:
      i. The specific skills and knowledge necessary for the caregiver or assistant caregiver to provide the expected assisted living services, behavioral health services, or behavioral care listed in the established job description;
      ii. The type and duration of education that may allow the caregiver or assistant caregiver to have acquired the specific skills and knowledge for the caregiver or assistant caregiver to provide the expected assisted living services, behavioral health services, or behavioral care listed in the established job description; and
      iii. The type and duration of experience that may allow the caregiver or assistant caregiver to have acquired the specific skills and knowledge for the caregiver or assistant caregiver to provide the expected assisted living services, behavioral health services or behavioral care listed in the established job description;
4. A caregiver's or assistant caregiver's skills and knowledge are verified and documented:
   a. Before the caregiver or assistant caregiver provides physical health services or behavioral health services, and
   b. According to policies and procedures;
5. An assisted living facility has a manager, caregivers, and assistant caregivers with the qualifications, experience, skills, and knowledge necessary to:
   a. Provide the assisted living services, behavioral health services, behavioral care, and ancillary services in the assisted living facility's scope of services;
   b. Meet the needs of a resident; and
   c. Ensure the health and safety of a resident;
6. At least one manager or caregiver is present and awake at an assisted living center when a resident is on the premises;
7. Documentation is maintained for at least 12 months after the last date on the documentation of the caregivers and assistant caregivers working each day, including the hours worked by each;
8. A manager, a caregiver, and an assistant caregiver, or an employee or a volunteer who has or is expected to have more than eight hours per week of direct interaction with residents, provides evidence of freedom from infectious tuberculosis:
   a. On or before the date the individual begins providing services at or on behalf of the assisted living facility, and
   b. As specified in R9-10-113;
9. Before providing assisted living services to a resident, a caregiver or an assistant caregiver receives orientation that is specific to the duties to be performed by the caregiver or assistant caregiver; and
10. Before providing assisted living services to a resident, a manager or caregiver provides current documentation of first aid training and cardiopulmonary resuscitation training certification specific to adults.

B. A manager of an assisted living home shall ensure that:
1. An individual residing in an assisted living home, who is not a resident, a manager, a caregiver, or an assistant caregiver:
   a. Either:
      i. Complies with the fingerprinting requirements in A.R.S. § 36-411, or
      ii. Interacts with residents only under the supervision of an individual who has a valid fingerprint clearance card; and
   b. If the individual is 12 years of age or older, provides evidence of freedom from infectious tuberculosis as specified in R9-10-113;
2. Documentation of compliance with the requirements in subsection (B)(1)(a) and evidence of freedom from infectious tuberculosis, if required under subsection (B)(1)(b), is maintained for an individual residing in the assisted living home who is not a resident, a manager, a caregiver, or an assistant caregiver;
3. As part of the policies and procedures required in R9-10-803(C)(1)(h), a plan is established, documented, and implemented to ensure that the manager or a caregiver is available as back-up to provide assisted living services to a resident if the manager or a caregiver assigned to work is not available or not able to provide the required assisted living services; and
4. At least the manager or a caregiver is present at an assisted living home when a resident is present in the assisted living home and:
   a. Except for nighttime hours, the manager or caregiver is awake; and
   b. If the manager or caregiver is not awake during nighttime hours:
      i. The manager or caregiver can hear and respond to a resident needing assistance; and
      ii. If the assisted living home is authorized to provide directed care services, policies and procedures are developed, documented, and implemented to establish a process for checking on a resident receiving directed care services during nighttime hours to ensure the resident's health and safety.

C. A manager shall ensure that a personnel record for each employee or volunteer:
1. Includes:
   a. The individual's name, date of birth, and contact telephone number;
   b. The individual's starting date of employment or volunteer service and, if applicable, the ending date; and

c. Documentation of:
   i. The individual's qualifications, including skills and knowledge applicable to the individual's job duties;
   ii. The individual's education and experience applicable to the individual's job duties;
   iii. The individual's completed orientation and in-service education required by policies and procedures;
   iv. The individual's license or certification, if the individual is required to be licensed or certified in this Article or in policies and procedures;
   v. If the individual is a behavioral health technician, clinical oversight required in R9-10-115;
   vi. Evidence of freedom from infectious tuberculosis, if required for the individual according to subsection (A)(8);
   vii. Cardiopulmonary resuscitation training, if required for the individual in this Article or policies and procedures;
   viii First aid training, if required for the individual in this Article or policies and procedures; and
   ix. Documentation of compliance with the requirements in A.R.S. § 36-411(A) and (C);

2. Is maintained:
   a. Throughout the individual's period of providing services in or for the assisted living facility, and
   b. For at least 24 months after the last date the individual provided services in or for the assisted living facility; and
3. For a manager, a caregiver, or an assistant caregiver who has not provided physical health services or behavioral health services at or for the assisted living facility during the previous 12 months, is provided to the Department within 72 hours after the Department's request.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted with changes effective October 30, 1989 (Supp. 89-4). Amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-807. Residency and Residency Agreements

A. Except as provided in R9-10-808(B)(2), a manager shall ensure that a resident provides evidence of freedom from infectious tuberculosis:
1. Before or within seven calendar days after the resident's date of occupancy, and
2. As specified in R9-10-113.

B. A manager shall ensure that before or at the time of acceptance of an individual, the individual submits documentation that is dated within 90 calendar days before the individual is accepted by an assisted living facility and:
1. If an individual is requesting or is expected to receive supervisory care services, personal care services, or directed care services:
   a. Includes whether the individual requires:
      i. Continuous medical services,
      ii. Continuous or intermittent nursing services, or
      iii. Restraints; and
   b. Is dated and signed by a:
      i. Physician,
      ii. Registered nurse practitioner,
      iii. Registered nurse, or
      iv. Physician assistant; and
2. If an individual is requesting or is expected to receive behavioral health services, other than behavioral care, in addition to supervisory care services, personal care services, or directed care services from an assisted living facility:
   a. Includes whether the individual requires continuous behavioral health services, and
   b. Is signed and dated by a behavioral health professional.

C. A manager shall not accept or retain an individual if:
1. The individual requires continuous:
   a. Medical services;
   b. Nursing services, unless the assisted living facility complies with A.R.S. § 36-401(C); or
   c. Behavioral health services;
2. The primary condition for which the individual needs assisted living services is a behavioral health issue;
3. The services needed by the individual are not within the assisted living facility's scope of services and a home health agency or hospice service agency is not involved in the care of the individual;
4. The assisted living facility does not have the ability to provide the assisted living services needed by the individual; or

5. The individual requires restraints, including the use of bedrails.

D. Before or at the time of an individual's acceptance by an assisted living facility, a manager shall ensure that there is a documented residency agreement with the assisted living facility that includes:
1. The individual's name;
2. Terms of occupancy, including:
   a. Date of occupancy or expected date of occupancy,
   b. Resident responsibilities, and
   c. Responsibilities of the assisted living facility;
3. A list of the services to be provided by the assisted living facility to the resident;
4. A list of the services available from the assisted living facility at an additional fee or charge;
5. For an assisted living home, whether the manager or a caregiver is awake during nighttime hours;
6. The policy for refunding fees, charges, or deposits;
7. The policy and procedure for a resident to terminate residency, including terminating residency because services were not provided to the resident according to the resident's service plan;
8. The policy and procedure for an assisted living facility to terminate residency;
9. The complaint process; and
10. The manager's signature and date signed.

E. Before or within five working days after a resident's acceptance by an assisted living facility, a manager shall obtain on the documented agreement, required in subsection (D), the signature of one of the following individuals:
1. The resident,
2. The resident's representative,
3. The resident's legal guardian, or
4. Another individual who has been designated by the individual under A.R.S. § 36-3221 to make health care decisions on the individual's behalf.

F. A manager shall:
1. Before or at the time of an individual's acceptance by an assisted living facility, provide to the resident or resident's representative a copy of:
   a. The residency agreement in subsection (D),
   b. Resident's rights, and
   c. The policy and procedure on health care directives; and
2. Maintain the original of the residency agreement in subsection (D) in the resident's medical record.

G. A manager may terminate residency of a resident as follows:
1. Without notice, if the resident exhibits behavior that is an immediate threat to the health and safety of the resident or other individuals in an assisted living facility;
2. With a 14-calendar-day written notice of termination of residency:
   a. For nonpayment of fees, charges, or deposit; or
   b. Under any of the conditions in subsection (C); or
3. With a 30-calendar-day written notice of termination of residency, for any other reason.

H. A manager shall ensure that the written notice of termination of residency in subsection (G) includes:
1. The date of notice;
2. The reason for termination;
3. The policy for refunding fees, charges, or deposits;
4. The deposition of a resident's fees, charges, and deposits; and
5. Contact information for the State Long-Term Care Ombudsman.

I. A manager shall provide the following to a resident when the manager provides the written notice of termination of residency in subsection (G):
1. A copy of the resident's current service plan, and
2. Documentation of the resident's freedom from infectious tuberculosis.

J. If an assisted living facility issues a written notice of termination of residency as provided in subsection (G) to a resident or the resident's representative because the resident needs services the assisted living facility is either not licensed to provide or is licensed to provide but not able to provide, a manager shall ensure that the written notice of termination of residency includes a description of the specific services that the resident needs that the assisted living facility is either not licensed to provide or is licensed to provide but not able to provide.

Historical Note

Adopted as an emergency effective October 26, 1988 pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989 pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted effective October 30, 1989

(Supp. 89-4). Amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-808. Service Plans

A. Except as required in subsection (B), a manager shall ensure that a resident has a written service plan that:
1. Is completed no later than 14 calendar days after the resident's date of acceptance;
2. Is developed with assistance and review from:
   a. The resident or resident's representative,
   b. The manager, and
   c. Any individual requested by the resident or the resident's representative;
3. Includes the following:
   a. A description of the resident's medical or health problems, including physical, behavioral, cognitive, or functional conditions or impairments;
   b. The level of service the resident is expected to receive;
   c. The amount, type, and frequency of assisted living services being provided to the resident, including medication administration or assistance in the self-administration of medication;
   d. For a resident who requires intermittent nursing services or medication administration, review by a nurse or medical practitioner;
   e. For a resident who requires behavioral care:
      i. Any of the following that is necessary to provide assistance with the resident's psychosocial interactions to manage the resident's behavior:
         (1) The psychosocial interactions or behaviors for which the resident requires assistance,
         (2) Psychotropic medications ordered for the resident,
         (3) Planned strategies and actions for changing the resident's psychosocial interactions or behaviors, and
         (4) Goals for changes in the resident's psychosocial interactions or behaviors; and
      ii. Review by a medical practitioner or behavioral health professional; and
   f. For a resident who will be storing medication in the resident's bedroom or residential unit, how the medication will be stored and controlled;
4. Is reviewed and updated based on changes in the requirements in subsections (A)(3)(a) through (f):
   a. No later than 14 calendar days after a significant change in the resident's physical, cognitive, or functional condition; and
   b. As follows:
      i. At least once every 12 months for a resident receiving supervisory care services,
      ii. At least once every six months for a resident receiving personal care services, and
      iii. At least once every three months for a resident receiving directed care services; and
5. When initially developed and when updated, is signed and dated by:
   a. The resident or resident's representative;
   b. The manager;
   c. If a review is required in subsection (A)(3)(d), the nurse or medical practitioner who reviewed the service plan; and
   d. If a review is required in subsection (A)(3)(e)(ii), the medical practitioner or behavioral health professional who reviewed the service plan.

B. For a resident receiving respite care services, a manager shall ensure that:
1. A written service plan is:
   a. Based on a determination of the resident's current needs and:
      i. Is completed no later than three working days after the resident's date of acceptance; or
      ii. If the resident has a service plan in the resident's medical record that was developed within the previous 12 months, is reviewed and updated based on changes in the requirements in subsections (A)(3)(a) through (f) within three working days after the resident's date of acceptance; and
   b. If a significant change in the resident's physical, cognitive, or functional condition occurs while the resident is receiving respite care services, updated based on changes in the requirements in subsections (A)(3)(a) through (f) within three working days after the significant change occurs; and
2. If the resident is not expected to be present in the assisted living facility for more than seven calendar days, the resident is not required to comply with the requirements in R9-10-807(A).

C. A manager shall ensure that:
1. A caregiver or an assistant caregiver:
   a. Provides a resident with the assisted living services in the resident's service plan;
   b. Is only assigned to provide the assisted living services the caregiver or assistant caregiver has the documented skills and knowledge to perform;

c. Provides assistance with activities of daily living according to the resident's service plan;
d. If applicable, suggests techniques a resident may use to maintain or improve the resident's independence in performing activities of daily living;
e. Provides assistance with, supervises, or directs a resident's personal hygiene according to the resident's service plan;
f. Encourages a resident to participate in activities planned according to subsection (E); and
g. Documents the services provided in the resident's medical record; and

2. A volunteer or an assistant caregiver who is 16 or 17 years of age does not provide:
   a. Assistance to a resident for:
      i. Bathing,
      ii. Toileting, or
      iii. Moving the resident's body from one surface to another surface;
   b. Assistance in the self-administration of medication;
   c. Medication administration; or
   d. Nursing services.

D. A manager of an assisted living facility that is authorized to provide adult day health services shall ensure that the adult day health care services are provided as specified in R9-10-1113.

E. A manager shall ensure that:
1. Daily social, recreational, or rehabilitative activities are planned according to residents' preferences, needs, and abilities;
2. A calendar of planned activities is:
   a. Prepared at least one week in advance of the date the activity is provided,
   b. Posted in a location that is easily seen by residents,
   c. Updated as necessary to reflect substitutions in the activities provided, and
   d. Maintained for at least 12 months after the last scheduled activity;
3. Equipment and supplies are available and accessible to accommodate a resident who chooses to participate in a planned activity; and
4. Multiple media sources, such as daily newspapers, current magazines, internet sources, and a variety of reading materials, are available and accessible to a resident to maintain the resident's continued awareness of current news, social events, and other noteworthy information.

F. If a resident is not receiving assistance with the resident's psychosocial interactions under the direction of a behavioral health professional or any other behavioral health services at an assisted living facility, the resident is not considered to be receiving behavioral care or behavioral health services from the assisted living facility if the resident:
1. Is prescribed a psychotropic medication, or
2. Is receiving directed care services and has a primary diagnosis of:
   a. Dementia,
   b. Alzheimer's disease-related dementia, or
   c. Traumatic brain injury.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted with changes effective October 30, 1989 (Supp. 89-4). Amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-809. Transport; Transfer

A. Except as provided in subsection (B), a manager shall ensure that:
1. A caregiver or employee coordinates the transport and the services provided to the resident;
2. According to policies and procedures:
   a. An evaluation of the resident is conducted before and after the transport, and
   b. Information from the resident's medical record is provided to a receiving health care institution; and
3. Documentation includes:
   a. If applicable, any communication with an individual at a receiving health care institution;
   b. The date and time of the transport; and
   c. If applicable, the name of the caregiver accompanying the resident during a transport.

B. Subsection (A) does not apply to:
1. Transportation to a location other than a licensed health care institution,
2. Transportation provided for a resident by the resident or the resident's representative,

3. Transportation provided by an outside entity that was arranged for a resident by the resident or the resident's representative, or
4. A transport to another licensed health care institution in an emergency.

C. Except for a transfer of a resident due to an emergency, a manager shall ensure that:
1. A caregiver coordinates the transfer and the services provided to the resident;
2. According to policies and procedures:
   a. An evaluation of the resident is conducted before the transfer;
   b. Information from the resident's medical record, including orders that are in effect at the time of the transfer, is provided to a receiving health care institution; and
   c. A caregiver explains risks and benefits of the transfer to the resident or the resident's representative; and
3. Documentation in the resident's medical record includes:
   a. Communication with an individual at a receiving health care institution;
   b. The date and time of the transfer;
   c. The mode of transportation; and
   d. If applicable, the name of the caregiver accompanying the resident during a transfer.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted effective October 30, 1989 (Supp. 89-4). Former Section R9-10-809 renumbered to R9-10-812; new Section R9-10-809 made by final rulemaking at 9 A.A.R. 319, effective March 31, 2003 (Supp. 03-1). R9-10-809(E) reflects a corrected reference to Article 14 from Article 4 (05-2). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-810. Resident Rights

A. A manager shall ensure that, at the time of acceptance, a resident or the resident's representative receives a written copy of the requirements in subsection (B) and the resident rights in subsection (C).

B. A manager shall ensure that:
1. A resident is treated with dignity, respect, and consideration;
2. A resident is not subjected to:
   a. Abuse;
   b. Neglect;
   c. Exploitation;
   d. Coercion;
   e. Manipulation;
   f. Sexual abuse;
   g. Sexual assault;
   h. Seclusion;
   i. Restraint;
   j. Retaliation for submitting a complaint to the Department or another entity; or
   k. Misappropriation of personal and private property by the assisted living facility's manager, caregivers, assistant caregivers, employees, or volunteers; and
3. A resident or the resident's representative:
   a. Is informed of the following:
      i. The policy on health care directives, and
      ii. The resident complaint process;
   b. Consents to photographs of the resident before the resident is photographed, except that a resident may be photographed when accepted as a resident by an assisted living facility for identification and administrative purposes;
   c. Except as otherwise permitted by law, provides written consent before the release of information in the resident's:
      i. Medical record, or
      ii. Financial records;
   d. May:
      i. Request or consent to relocation within the assisted living facility; and
      ii. Except when relocation is necessary based on a change in the resident's condition as documented in the resident's service plan, refuse relocation within the assisted living facility;
   e. Has access to the resident's records during normal business hours or at a time agreed upon by the resident or resident's representative and the manager; and

f. Is informed of:
   i. The rates and charges for services before the services are initiated;
   ii. A change in rates or charges at least 30 calendar days before the change is implemented, unless the change in rates or charges results from a change in services; and
   iii. A change in services at least 30 calendar days before the change is implemented, unless the resident's service plan changes.

C. A resident has the following rights:
1. Not to be discriminated against based on race, national origin, religion, gender, sexual orientation, age, disability, marital status, or diagnosis;
2. To receive assisted living services that support and respect the resident's individuality, choices, strengths, and abilities;
3. To receive privacy in:
   a. Care for personal needs;
   b. Correspondence, communications, and visitation; and
   c. Financial and personal affairs;
4. To maintain, use, and display personal items unless the personal items constitute a hazard;
5. To choose to participate or refuse to participate in social, recreational, rehabilitative, religious, political, or community activities;
6. To review, upon written request, the resident's own medical record;
7. To receive a referral to another health care institution if the assisted living facility is not authorized or not able to provide physical health services or behavioral health services needed by the patient;
8. To choose to access services from a health care provider, health care institution, or pharmacy other than the assisted living facility where the resident is residing and receiving services or a health care provider, health care institution, or pharmacy recommended by the assisted living facility;
9. To participate or have the resident's representative participate in the development of, or decisions concerning, the resident's service plan; and
10. To receive assistance from a family member, the resident's representative, or other individual in understanding, protecting, or exercising the resident's rights.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted effective October 30, 1989 (Supp. 89-4). Former Section R9-10-810 renumbered to R9-10-813; new Section R9-10-810 made by final rulemaking at 9 A.A.R. 319, effective March 31, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-811. Medical Records

A. A manager shall ensure that:
1. A medical record is established and maintained for each resident according to A.R.S. Title 12, Chapter 13, Article 7.1;
2. An entry in a resident's medical record is:
   a. Only recorded by an individual authorized by policies and procedures to make the entry;
   b. Dated, legible, and authenticated; and
   c. Not changed to make the initial entry illegible;
3. If a rubber-stamp signature or an electronic signature is used to authenticate an order, the individual whose signature the rubber-stamp signature or electronic signature represents is accountable for the use of the rubber-stamp signature or electronic signature;
4. A resident's medical record is available to an individual:
   a. Authorized according to policies and procedures to access the resident's medical record;
   b. If the individual is not authorized according to policies and procedures, with the written consent of the resident or the resident's representative; or
   c. As permitted by law; and
5. A resident's medical record is protected from loss, damage, or unauthorized use.

B. If an assisted living facility maintains residents' medical records electronically, a manager shall ensure that:
1. Safeguards exist to prevent unauthorized access, and
2. The date and time of an entry in a resident's medical record is recorded by the computer's internal clock.

C. A manager shall ensure that a resident's medical record contains:
1. Resident information that includes:
   a. The resident's name, and

b. The resident's date of birth;
2. The names, addresses, and telephone numbers of:
   a. The resident's primary care provider;
   b. Other persons, such as a home health agency or hospice service agency, involved in the care of the resident; and
   c. An individual to be contacted in the event of emergency, significant change in the resident's condition, or termination of residency;
3. If applicable, the name and contact information of the resident's representative and:
   a. The document signed by the resident consenting for the resident's representative to act on the resident's behalf; or
   b. If the resident's representative:
      i. Has a health care power of attorney established under A.R.S. § 36-3221 or a mental health care power of attorney executed under A.R.S. § 36-3282, a copy of the health care power of attorney or mental health care power of attorney; or
      ii. Is a legal guardian, a copy of the court order establishing guardianship;
4. The date of acceptance and, if applicable, date of termination of residency;
5. Documentation of the resident's needs required in R9-10-807(B);
6. Documentation of general consent and informed consent, if applicable;
7. Except as allowed in R9-10-808(B)(2), documentation of freedom from infectious tuberculosis as required in R9-10-807(A);
8. A copy of resident's health care directive, if applicable;
9. The resident's signed residency agreement and any amendments;
10. Resident's service plan and updates;
11. Documentation of assisted living services provided to the resident;
12. A medication order from a medical practitioner for each medication that is administered to the resident or for which the resident receives assistance in the self-administration of the medication;
13. Documentation of medication administered to the resident or for which the resident received assistance in the self-administration of medication that includes:
   a. The date and time of administration or assistance;
   b. The name, strength, dosage, and route of administration;
   c. The name and signature of the individual administering or providing assistance in the self-administration of medication; and
   d. An unexpected reaction the resident has to the medication;
14. Documentation of the resident's refusal of a medication, if applicable;
15. If applicable, documentation of any actions taken to control the resident's sudden, intense, or out-of-control behavior to prevent harm to the resident or another individual;
16. If applicable, documentation of a determination by a medical practitioner that evacuation from the assisted living facility during an evacuation drill would cause harm to the resident;
17. Documentation of notification of the resident of the availability of vaccination for influenza and pneumonia, according to A.R.S. § 36-406(1)(d);
18. Documentation of the resident's orientation to exits from the assisted living facility required in R9-10-818(B);
19. If a resident is receiving behavioral health services other than behavioral care, documentation of the determination in R9-10-813(3);
20. If a resident is receiving behavioral care, documentation of the determination in R9-10-812(3);
21. If applicable, for a resident who is unable to direct self-care, the information required in R9-10-815(F);
22. Documentation of any significant change in a resident's behavior, physical, cognitive, or functional condition and the action taken by a manager or caregiver to address the resident's changing needs;
23. Documentation of the notification required in R9-10-803(G) if the resident is incapable of handling financial affairs; and
24. If the resident no longer resides and receives assisted living services from the assisted living facility:
   a. A written notice of termination of residency; or
   b. If the resident terminated residency, the date the resident terminated residency.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Permanent rules adopted with changes effective October 30, 1989 (Supp. 89-4). Former Section R9-10-811 renumbered to R9-10-814; new Section R9-10-811 made by final rulemaking at 9 A.A.R. 319, effective March 31, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-812. Behavioral Care

A manager shall ensure that for a resident who requests or receives behavioral care from the assisted living facility, a behavioral health professional or medical practitioner:

1. Evaluates the resident:
   a. Within 30 calendar days before acceptance of the resident or before the resident begins receiving behavioral care, and
   b. At least once every six months throughout the duration of the resident's need for behavioral care;
2. Reviews the assisted living facility's scope of services; and
3. Signs and dates a determination stating that the resident's need for behavioral care can be met by the assisted living facility within the assisted living facility's scope of services and, for retention of a resident, are being met by the assisted living facility.

Historical Note

Adopted as an emergency effective October 26, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted without change as an emergency effective January 27, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective April 27, 1989 (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective July 31, 1989 (Supp. 89-3). Permanent rules adopted with changes effective October 30, 1989 (Supp. 89-4). Section repealed; new Section R9-10-812 renumbered from R9-10-809 and amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-813. Behavioral Health Services

If an assisted living facility is authorized to provide behavioral health services other than behavioral care, a manager shall ensure that:

1. Policies and procedures are established, documented, and implemented that cover when general consent and informed consent are required and by whom general consent and informed consent may be given;
2. The behavioral health services:
   a. Are provided under the direction of a behavioral health professional; and
   b. Comply with the requirements:
      i. For behavioral health paraprofessionals and behavioral health technicians, in R9-10-115; and
      ii. For an assessment, in R9-10-1011(B); and
3. For a resident who requests or receives behavioral health services from the assisted living facility, a behavioral health professional:
   a. Evaluates the resident within 30 calendar days before acceptance of the resident and at least once every six months throughout the duration of the resident's need for behavioral health services;
   b. Reviews the assisted living facility's scope of services; and
   c. Signs and dates a determination stating that the resident's needs can be met by the assisted living facility within the assisted living facility's scope of services and, for retention of a resident, are being met by the assisted living facility.

Historical Note

New Section renumbered from R9-10-810 and amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-814. Personal Care Services

A. A manager of an assisted living facility authorized to provide personal care services shall not accept or retain a resident who:
1. Is unable to direct self-care;
2. Except as specified in subsection (B), is confined to a bed or chair because of an inability to ambulate even with assistance; or
3. Except as specified in subsection (C), has a stage 3 or stage 4 pressure sore, as determined by a registered nurse or medical practitioner.

B. A manager of an assisted living facility authorized to provide personal care services may accept or retain a resident who is confined to a bed or chair because of an inability to ambulate even with assistance if:
1. The condition is a result of a short-term illness or injury; or
2. The following requirements are met at the onset of the condition or when the resident is accepted by the assisted living facility:
   a. The resident or resident's representative requests that the resident be accepted by or remain in the assisted living facility;
   b. The resident's primary care provider or other medical practitioner:
      i. Examines the resident at the onset of the condition, or within 30 calendar days before acceptance, and at least once every six months throughout the duration of the resident's condition;
      ii. Reviews the assisted living facility's scope of services; and
      iii. Signs and dates a determination stating that the resident's needs can be met by the assisted living facility within the assisted living facility's scope of services and, for retention of a resident, are being met by the assisted living facility; and
   c. The resident's service plan includes the resident's increased need for personal care services.

C. A manager of an assisted living facility authorized to provide personal care services may accept or retain a resident who has a stage 3 or stage 4 pressure sore, as determined by a registered nurse or medical practitioner, if the requirements in subsection (B)(2) are met.

D. A manager of an assisted living facility authorized to provide personal care services may accept or retain a resident who:

1. Is receiving nursing services from a home health agency or a hospice service agency; or
2. Requires intermittent nursing services if:
   a. The resident's condition for which nursing services are required is a result of a short-term illness or injury, and
   b. The requirements of subsection (B)(2) are met.

E. A manager shall ensure that a bell, intercom, or other mechanical means to alert employees to a resident's needs or emergencies is available and accessible in a bedroom or residential unit being used by a resident receiving personal care services.

F. In addition to the requirements in R9-10-808(A)(3), a manager shall ensure that the service plan for a resident receiving personal care services includes:
1. Skin maintenance to prevent and treat bruises, injuries, pressure sores, and infections;
2. Offering sufficient fluids to maintain hydration;
3. Incontinence care that ensures that a resident maintains the highest practicable level of independence when toileting; and
4. If applicable, the determination in subsection (B)(2)(b)(iii).

G. A manager shall ensure that an employee does not provide non-prescription medication to a resident receiving personal care services unless the resident has an order from the resident's primary care provider or another medical practitioner for the non-prescription medication.

Historical Note

New Section renumbered from R9-10-811 and amended by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-815. Directed Care Services

A. A manager shall ensure that a resident's representative is designated for a resident who is unable to direct self-care.

B. A manager of an assisted living facility authorized to provide directed care services shall not accept or retain a resident who, except as provided in R9-10-814(B)(2):
1. Is confined to a bed or chair because of an inability to ambulate even with assistance; or
2. Has a stage 3 or stage 4 pressure sore, as determined by a registered nurse or medical practitioner.

C. In addition to the requirements in R9-10-808(A)(3), a manager shall ensure that the service plan for a resident receiving directed care services includes:
1. The requirements in R9-10-814(F)(1) through (3);
2. If applicable, the determination in R9-10-814(B)(2)(b)(iii);
3. Cognitive stimulation and activities to maximize functioning;
4. Strategies to ensure a resident's personal safety;
5. Encouragement to eat meals and snacks;
6. Documentation:
   a. Of the resident's weight, or
   b. From a medical practitioner stating that weighing the resident is contraindicated; and
7. Coordination of communications with the resident's representative, family members, and, if applicable, other individuals identified in the resident's service plan.

D. A manager shall ensure that an employee does not provide non-prescription medication to a resident receiving directed care services unless the resident has an order from a medical practitioner for the non-prescription medication.

E. A manager shall ensure that:
1. A bell, intercom, or other mechanical means to alert employees to a resident's needs or emergencies is available in a bedroom being used by a resident receiving directed care services; or
2. An assisted living facility has implemented another means to alert a caregiver or assistant caregiver to a resident's needs or emergencies.

F. A manager of an assisted living facility authorized to provide directed care services shall ensure that:
1. Policies and procedures are established, documented, and implemented that ensure the safety of a resident who may wander;
2. There is a means of exiting the facility for a resident who does not have a key, special knowledge for egress, or the ability to expend increased physical effort that meets one of the following:
   a. Provides access to an outside area that:
      i. Allows the resident to be at least 30 feet away from the facility, and
      ii. Controls or alerts employees of the egress of a resident from the facility;
   b. Provides access to an outside area:
      i. From which a resident may exit to a location at least 30 feet away from the facility, and
      ii. Controls or alerts employees of the egress of a resident from the facility; or
   c. Uses a mechanism that meets the Special Egress-Control Devices provisions in the International Building Code incorporated by reference in R9-10-104.01; and

3. A caregiver or an assistant caregiver complies with the requirements for incidents in R9-10-804 when a resident who is unable to direct self-care wanders into an area not designated by the governing authority for use by the resident.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4).

R9-10-816. Medication Services

A. A manager shall ensure that:
1. Policies and procedures for medication services include:
   a. Procedures for preventing, responding to, and reporting a medication error;
   b. Procedures for responding to and reporting an unexpected reaction to a medication;
   c. Procedures to ensure that a resident's medication regimen and method of administration is reviewed by a medical practitioner to ensure the medication regimen meets the resident's needs;
   d. Procedures for:
      i. Documenting, as applicable, medication administration and assistance in the self-administration of medication; and
      ii. Monitoring a resident who self-administers medication;
   e. Procedures for assisting a resident in procuring medication; and
   f. If applicable, procedures for providing medication administration or assistance in the self-administration of medication off the premises; and
2. If a verbal order for a resident's medication is received from a medical practitioner by the assisted living facility:
   a. The manager or a caregiver takes the verbal order from the medical practitioner,
   b. The verbal order is documented in the resident's medical record, and
   c. A written order verifying the verbal order is obtained from the medical practitioner within 14 calendar days after receiving the verbal order.

B. If an assisted living facility provides medication administration, a manager shall ensure that:
1. Medication is stored by the assisted living facility;
2. Policies and procedures for medication administration:
   a. Are reviewed and approved by a medical practitioner, registered nurse, or pharmacist;
   b. Include a process for documenting an individual, authorized, according to the definition of "administer" in A.R.S. § 32-1901, by a medical practitioner to administer medication under the direction of the medical practitioner;
   c. Ensure that medication is administered to a resident only as prescribed; and
   d. Cover the documentation of a resident's refusal to take prescribed medication in the resident's medical record; and
3. A medication administered to a resident:
   a. Is administered by an individual under direction of a medical practitioner,
   b. Is administered in compliance with a medication order, and
   c. Is documented in the resident's medical record.

C. If an assisted living facility provides assistance in the self-administration of medication, a manager shall ensure that:
1. A resident's medication is stored by the assisted living facility;
2. The following assistance is provided to a resident:
   a. A reminder when it is time to take the medication;
   b. Opening the medication container or medication organizer for the resident;
   c. Observing the resident while the resident removes the medication from the container or medication organizer;
   d. Except when a resident uses a medication organizer, verifying that the medication is taken as ordered by the resident's medical practitioner by confirming that:
      i. The resident taking the medication is the individual stated on the medication container label,
      ii. The resident is taking the dosage of the medication stated on the medication container label or according to an order from a medical practitioner dated later than the date on the medication container label, and
      iii. The resident is taking the medication at the time stated on the medication container label or according to an order from a medical practitioner dated later than the date on the medication container label;
   e. For a resident using a medication organizer, verifying that the resident is taking the medication in the medication organizer according to the schedule specified on the medical practitioner's order; or
   f. Observing the resident while the resident takes the medication;
3. Policies and procedures for assistance in the self-administration of medication are reviewed and approved by a medical practitioner or nurse; and
4. Assistance in the self-administration of medication provided to a resident:
   a. Is in compliance with an order, and
   b. Is documented in the resident's medical record.

D. A manager shall ensure that:
1. A current drug reference guide is available for use by personnel members, and
2. A current toxicology reference guide is available for use by personnel members.

E. A manager shall ensure that a resident's medication organizer is only filled by:
1. The resident;
2. The resident's representative;
3. A family member of the resident;
4. A personnel member of a home health agency or hospice service agency; or
5. The manager or a caregiver who has been designated and is under the direction of a medical practitioner, according to subsection (B)(2)(b).

F. When medication is stored by an assisted living facility, a manager shall ensure that:
1. Medication is stored in a separate locked room, closet, cabinet, or self-contained unit used only for medication storage;
2. Medication is stored according to the instructions on the medication container; and
3. Policies and procedures are established, documented, and implemented for:
   a. Receiving, storing, inventorying, tracking, dispensing, and discarding medication including expired medication;
   b. Discarding or returning prepackaged and sample medication to the manufacturer if the manufacturer requests the discard or return of the medication;
   c. A medication recall and notification of residents who received recalled medication; and
   d. Storing, inventorying, and dispensing controlled substances.

G. A manager shall ensure that a caregiver immediately reports a medication error or a resident's unexpected reaction to a medication to the medical practitioner who ordered the medication or, if the medical practitioner who ordered the medication is not available, another medical practitioner.

H. If medication is stored by a resident in the resident's bedroom or residential unit, a manager shall ensure that:
1. The medication is stored according to the resident's service plan; or
2. If the medication is not being stored according to the resident's service plan, the resident's service plan is updated to include how the medication is being stored by the resident.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2).

R9-10-817. Food Services

A. A manager shall ensure that:
1. A food menu:
   a. Is prepared at least one week in advance,
   b. Includes the foods to be served each day,
   c. Is conspicuously posted at least one calendar day before the first meal on the food menu is served,
   d. Includes any food substitution no later than the morning of the day of meal service with a food substitution, and
   e. Is maintained for at least 60 calendar days after the last day included in the food menu;
2. Meals and snacks provided by the assisted living facility are served according to posted menus;
3. If the assisted living facility contracts with a food establishment, as established in 9 A.A.C. 8, Article 1, to prepare and deliver food to the assisted living facility, a copy of the food establishment's license or permit under 9 A.A.C. 8, Article 1 is maintained by the assisted living facility;
4. The assisted living facility is able to store, refrigerate, and reheat food to meet the dietary needs of a resident;
5. Meals and snacks for each day are planned using the applicable guidelines in http://www.health.gov/dietaryguidelines/2015;
6. A resident is provided a diet that meets the resident's nutritional needs as specified in the resident's service plan;
7. Water is available and accessible to residents at all times, unless otherwise stated in a medical practitioner's order; and
8. A resident requiring assistance to eat is provided with assistance that recognizes the resident's nutritional, physical, and social needs, including the provision of adaptive eating equipment or utensils, such as a plate guard, rocking fork, or assistive hand device, if not provided by the resident.

B. If the assisted living facility offers therapeutic diets, a manager shall ensure that:
1. A current therapeutic diet manual is available for use by employees, and
2. The therapeutic diet is provided to a resident according to a written order from the resident's primary care provider or another medical practitioner.

C. A manager shall ensure that food is obtained, prepared, served, and stored as follows:
1. Food is free from spoilage, filth, or other contamination and is safe for human consumption;
2. Food is protected from potential contamination;

3. Food is prepared:
   a. Using methods that conserve nutritional value, flavor, and appearance; and
   b. In a form to meet the needs of a resident, such as cut, chopped, ground, pureed, or thickened;
4. Potentially hazardous food is maintained as follows:
   a. Foods requiring refrigeration are maintained at 41° F or below; and
   b. Foods requiring cooking are cooked to heat all parts of the food to a temperature of at least 145° F for 15 seconds, except that:
      i. Ground beef and ground meats are cooked to heat all parts of the food to at least 155° F;
      ii. Poultry, poultry stuffing, stuffed meats, and stuffing that contains meat are cooked to heat all parts of the food to at least 165° F;
      iii. Pork and any food containing pork are cooked to heat all parts of the food to at least 155° F;
      iv. Raw shell eggs for immediate consumption are cooked to at least 145° F for 15 seconds and any food containing raw shell eggs is cooked to heat all parts of the food to at least 155 °F;
      v. Roast beef and beef steak are cooked to an internal temperature of at least 155° F; and
      vi. Leftovers are reheated to a temperature of at least 165° F;
5. A refrigerator used by an assisted living facility to store food or medication contains a thermometer, accurate to plus or minus 3° F, placed at the warmest part of the refrigerator;
6. Frozen foods are stored at a temperature of 0° F or below; and
7. Tableware, utensils, equipment, and food-contact surfaces are clean and in good repair.

D. A manager of an assisted living center shall ensure that:
1. The assisted living center has a license or permit as a food establishment under 9 A.A.C. 8, Article 1; and
2. A copy of the assisted living center's food establishment license or permit is maintained.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3).

R9-10-818. Emergency and Safety Standards

A. A manager shall ensure that:
1. A disaster plan is developed, documented, maintained in a location accessible to caregivers and assistant caregivers, and, if necessary, implemented that includes:
   a. When, how, and where residents will be relocated;
   b. How a resident's medical record will be available to individuals providing services to the resident during a disaster;
   c. A plan to ensure each resident's medication will be available to administer to the resident during a disaster; and
   d. A plan for obtaining food and water for individuals present in the assisted living facility or the assisted living facility's relocation site during a disaster;
2. The disaster plan required in subsection (A)(1) is reviewed at least once every 12 months;
3. Documentation of the disaster plan review required in subsection (A)(2) includes:
   a. The date and time of the disaster plan review;
   b. The name of each employee or volunteer participating in the disaster plan review;
   c. A critique of the disaster plan review; and
   d. If applicable, recommendations for improvement;
4. A disaster drill for employees is conducted on each shift at least once every three months and documented;
5. An evacuation drill for employees and residents:
   a. Is conducted at least once every six months; and
   b. Includes all individuals on the premises except for:
      i. A resident whose medical record contains documentation that evacuation from the assisted living facility would cause harm to the resident, and
      ii. Sufficient caregivers to ensure the health and safety of residents not evacuated according to subsection (A)(5)(b)(i);
6. Documentation of each evacuation drill is created, is maintained for at least 12 months after the date of the evacuation drill, and includes:
   a. The date and time of the evacuation drill;
   b. The amount of time taken for employees and residents to evacuate the assisted living facility;
   c. If applicable:
      i. An identification of residents needing assistance for evacuation, and
      ii. An identification of residents who were not evacuated;
   d. Any problems encountered in conducting the evacuation drill; and
   e. Recommendations for improvement, if applicable; and
7. An evacuation path is conspicuously posted in each hallway of each floor of the assisted living facility.

B. A manager shall ensure that:
1. A resident receives orientation to the exits from the assisted living facility and the route to be used when evacuating the assisted living facility within 24 hours after the resident's acceptance by the assisted living facility, and
2. The resident's orientation is documented.

C. A manager shall ensure that a first-aid kit is maintained in the assisted living facility in a location accessible to caregivers and assistant caregivers.

D. When a resident has an accident, emergency, or injury that results in the resident needing medical services, a manager shall ensure that a caregiver or an assistant caregiver:
1. Immediately notifies the resident's emergency contact and primary care provider; and
2. Documents the following:
   a. The date and time of the accident, emergency, or injury;
   b. A description of the accident, emergency, or injury;
   c. The names of individuals who observed the accident, emergency, or injury;
   d. The actions taken by the caregiver or assistant caregiver;
   e. The individuals notified by the caregiver or assistant caregiver; and
   f. Any action taken to prevent the accident, emergency, or injury from occurring in the future.

E. A manager of an assisted living center shall ensure that:
1. Unless the assisted living center has documentation of having received an exception from the Department before October 1, 2013, in the areas of the assisted living center providing personal care services or directed care services:
   a. A fire alarm system is installed according to the National Fire Protection Association 72: National Fire Alarm and Signaling Code, incorporated by reference in R9-10-104.01, and is in working order; and
   b. A sprinkler system is installed according to the National Fire Protection Association 13: Standard for the Installation of Sprinkler Systems, incorporated by reference in R9-10-104.01, and is in working order;
2. For the areas of the assisted living center providing only supervisory care services:
   a. A fire alarm system and a sprinkler system meeting the requirements in subsection (E)(1) are installed and in working order, or
   b. The assisted living center complies with the requirements in subsection (F);
3. A fire inspection is conducted by a local fire department or the State Fire Marshal before licensing and according to the time-frame established by the local fire department or the State Fire Marshal;
4. Any repairs or corrections stated on the fire inspection report are made; and
5. Documentation of a current fire inspection is maintained.

F. A manager of an assisted living home shall ensure that:
1. A fire extinguisher that is labeled as rated at least 2A-10-BC by the Underwriters Laboratories is mounted and maintained in the assisted living home;
2. A disposable fire extinguisher is replaced when its indicator reaches the red zone;
3. A rechargeable fire extinguisher:
   a. Is serviced at least once every 12 months, and
   b. Has a tag attached to the fire extinguisher that specifies the date of the last servicing and the identification of the person who serviced the fire extinguisher;
4. Except as provided in subsection (G):
   a. A smoke detector is:
      i. Installed in each bedroom, hallway that adjoins a bedroom, storage room, laundry room, attached garage, and room or hallway adjacent to the kitchen, and other places recommended by the manufacturer;
      ii. Either battery operated or, if hard-wired into the electrical system of the assisted living home, has a back-up battery;
      iii. In working order; and
      iv. Tested at least once a month; and
   b. Documentation of the test required in subsection (F)(4)(a)(iv) is maintained for at least 12 months after the date of the test;
5. An appliance, light, or other device with a frayed or spliced electrical cord is not used at the assisted living home; and
6. An electrical cord, including an extension cord, is not run under a rug or carpeting, over a nail, or from one room to another at the assisted living home.

G. A manager of an assisted living home may use a fire alarm system and a sprinkler system to ensure the safety of residents if the fire alarm system and sprinkler system:
1. Are installed and in working order, and
2. Meet the requirements in subsection (E)(1).

Historical Note

New Section made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583,

effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4).

R9-10-819. Environmental Standards

A. A manager shall ensure that:

1. The premises and equipment used at the assisted living facility are:
   a. Cleaned and, if applicable, disinfected according to policies and procedures designed to prevent, minimize, and control illness or infection; and
   b. Free from a condition or situation that may cause a resident or other individual to suffer physical injury;
2. A pest control program that complies with A.A.C. R3-8-201(C)(4) is implemented and documented;
3. Garbage and refuse are:
   a. Stored in covered containers lined with plastic bags, and
   b. Removed from the premises at least once a week;
4. Heating and cooling systems maintain the assisted living facility at a temperature between 70° F and 84° F at all times, unless individually controlled by a resident;
5. Common areas:
   a. Are lighted to ensure the safety of residents, and
   b. Have lighting sufficient to allow caregivers and assistant caregivers to monitor resident activity;
6. Hot water temperatures are maintained between 95º F and 120º F in areas of an assisted living facility used by residents;
7. The supply of hot and cold water is sufficient to meet the personal hygiene needs of residents and the cleaning and sanitation requirements in this Article;
8. A resident has access to a laundry service or a washing machine and dryer in the assisted living facility;
9. Soiled linen and soiled clothing stored by the assisted living facility are maintained separate from clean linen and clothing and stored in closed containers away from food storage, kitchen, and dining areas;
10. Oxygen containers are secured in an upright position;
11. Poisonous or toxic materials stored by the assisted living facility are maintained in labeled containers in a locked area separate from food preparation and storage, dining areas, and medications and are inaccessible to residents;
12. Combustible or flammable liquids and hazardous materials stored by the assisted living facility are stored in the original labeled containers or safety containers in a locked area inaccessible to residents;
13. Equipment used at the assisted living facility is:
    a. Maintained in working order;
    b. Tested and calibrated according to the manufacturer's recommendations or, if there are no manufacturer's recommendations, as specified in policies and procedures; and
    c. Used according to the manufacturer's recommendations;
14. If pets or animals are allowed in the assisted living facility, pets or animals are:
    a. Controlled to prevent endangering the residents and to maintain sanitation;
    b. Licensed consistent with local ordinances; and
    c. For a dog or cat, vaccinated against rabies;
15. If a water source that is not regulated under 18 A.A.C. 4 by the Arizona Department of Environmental Quality is used:
    a. The water source is tested at least once every 12 months for total coliform bacteria and fecal coliform or *E. coli* bacteria;
    b. If necessary, corrective action is taken to ensure the water is safe to drink; and
    c. Documentation of testing is retained for at least 12 months after the date of the test; and
16. If a non-municipal sewage system is used, the sewage system is in working order and is maintained according to applicable state laws and rules.

B. If a swimming pool is located on the premises, a manager shall ensure that:

1. On a day that a resident uses the swimming pool, an employee:
   a. Tests the swimming pool's water quality at least once for compliance with one of the following chemical disinfection standards:
      i. A free chlorine residual between 1.0 and 3.0 ppm as measured by the N, N-Diethyl-p-phenylenediamine test;
      ii. A free bromine residual between 2.0 and 4.0 ppm as measured by the N, N-Diethyl-p-phenylenediamine test; or
      iii. An oxidation-reduction potential equal to or greater than 650 millivolts; and
   b. Records the results of the water quality tests in a log that includes the date tested and test result;
2. Documentation of the water quality test is maintained for at least 12 months after the date of the test; and
3. A swimming pool is not used by a resident if a water quality test shows that the swimming pool water does not comply with subsection (B)(1)(a).

Historical Note

New Section made by final rulemaking at 9 A.A.R. 319, effective March 14, 2003 (Supp. 03-1). Section repealed; new Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final expedited rulemaking at 25 A.A.R. 259, effective January 8, 2019 (Supp. 19-1).

R9-10-820. Physical Plant Standards

A. A manager shall ensure that an assisted living center complies with the applicable physical plant health and safety codes and standards, incorporated by reference in R9-10-104.01, that:
1. Are applicable to the level of services planned to be provided or being provided; and
2. Were in effect on the date the assisted living facility submitted architectural plans and specifications to the Department for approval, according to R9-10-104.

B. A manager shall ensure that:
1. The premises and equipment are sufficient to accommodate:
   a. The services stated in the assisted living facility's scope of services, and
   b. An individual accepted as a resident by the assisted living facility;
2. A common area for use by residents is provided that has sufficient space and furniture to accommodate the recreational and socialization needs of residents;
3. A dining area has sufficient space and tables and chairs to accommodate the needs of the residents;
4. At least one bathroom is accessible from a common area and:
   a. May be used by residents and visitors;
   b. Provides privacy when in use; and
   c. Contains the following:
      i. At least one working sink with running water,
      ii. At least one working toilet that flushes and has a seat,
      iii. Toilet tissue for each toilet,
      iv. Soap in a dispenser accessible from each sink,
      v. Paper towels in a dispenser or a mechanical air hand dryer,
      vi. Lighting, and
      vii. A window that opens or another means of ventilation;
5. An outside activity space is provided and available that:
   a. Is on the premises,
   b. Has a hard-surfaced section for wheelchairs, and
   c. Has an available shaded area;
6. Exterior doors are equipped with ramps or other devices to allow use by a resident using a wheelchair or other assistive device; and
7. The key to the door of a lockable bathroom, bedroom, or residential unit is available to a manager, caregiver, and assistant caregiver.

C. A manager shall ensure that:
1. For every eight residents there is at least one working toilet that flushes and has a seat and one sink with running water;
2. For every eight residents there is at least one working bathtub or shower; and
3. A resident bathroom provides privacy when in use and contains:
   a. A mirror;
   b. Toilet tissue for each toilet;
   c. Soap accessible from each sink;
   d. Paper towels in a dispenser or a mechanical air hand dryer for a bathroom that is not in a residential unit and used by more than one resident;
   e. A window that opens or another means of ventilation;
   f. Grab bars for the toilet and, if applicable, the bathtub or shower and other assistive devices, if required to provide for resident safety; and
   g. Nonporous surfaces for shower enclosures and slip-resistant surfaces in tubs and showers.

D. A manager shall ensure that:
1. Each resident is provided with a sleeping area in a residential unit or a bedroom;
2. For an assisted living home, a resident's sleeping area is on the ground floor of the assisted living home unless:
   a. The resident is able to direct self-care;
   b. The resident is ambulatory without assistance; and
   c. There are at least two unobstructed, usable exits to the outside from the sleeping area that the resident is capable of using;
3. Except as provided in subsection (E), no more than two individuals reside in a residential unit or bedroom;
4. A resident's sleeping area:
   a. Is not used as a common area;
   b. Is not used as a passageway to a common area, another sleeping area, or common bathroom unless the resident's sleeping area:
      i. Was used as a passageway to a common area, another sleeping area, or common bathroom before October 1, 2013; and
      ii. Written consent is obtained from the resident or the resident's representative;

c. Is constructed and furnished to provide unimpeded access to the door;
d. Has floor-to-ceiling walls with at least one door;
e. Has access to natural light through a window or a glass door to the outside; and
f. Has a window or door that can be used for direct egress to outside the building;

5. If a resident's sleeping area is in a bedroom, the bedroom has:
   a. For a private bedroom, at least 80 square feet of floor space, not including a closet or bathroom;
   b. For a shared bedroom, at least 60 square feet of floor space for each individual occupying the shared bedroom, not including a closet or bathroom; and
   c. A door that opens into a hallway, common area, or outdoors;
6. If a resident's sleeping area is in a residential unit, the residential unit has:
   a. Except as provided in subsection (E)(2), at least 220 square feet of floor space, not including a closet or bathroom, for one individual residing in the residential unit and an additional 100 square feet of floor space, not including a closet or bathroom, for each additional individual residing in the residential unit;
   b. An individually keyed entry door;
   c. A bathroom that provides privacy when in use and contains:
      i. A working toilet that flushes and has a seat;
      ii. A working sink with running water;
      iii. A working bathtub or shower;
      iv. Lighting;
      v. A mirror;
      vi. A window that opens or another means of ventilation;
      vii. Grab bars for the toilet and, if applicable, the bathtub or shower and other assistive devices, if required to provide for resident safety; and
      viii. Nonporous surfaces for shower enclosures and slip-resistant surfaces in bathtubs and showers;
   d. A resident-controlled thermostat for heating and cooling;
   e. A kitchen area equipped with:
      i. A working sink and refrigerator,
      ii. A cooking appliance that can be removed or disconnected,
      iii. Space for food preparation, and
      iv. Storage for utensils and supplies; and
   f. If not furnished by a resident:
      i. An armchair, and
      ii. A table where a resident may eat a meal; and
7. If not furnished by a resident, each sleeping area has:
   a. A bed, at least 36 inches in width and 72 inches in length, consisting of at least a frame and mattress that is clean and in good repair;
   b. Clean linen, including a mattress pad, sheets large enough to tuck under the mattress, pillows, pillow cases, a bedspread, waterproof mattress covers as needed, and blankets to ensure warmth and comfort for the resident;
   c. Sufficient light for reading;
   d. Storage space for clothing;
   e. Individual storage space for personal effects; and
   f. Adjustable window covers that provide resident privacy.

E. A manager may allow more than two individuals to reside in a residential unit or bedroom if:
1. There is at least 60 square feet for each individual living in the bedroom;
2. There is at least 100 square feet for each individual living in the residential unit; and
3. The manager has documentation that the assisted living facility has been operating since before November 1, 1998, with more than two individuals living in the residential unit or bedroom.

F. If there is a swimming pool on the premises of the assisted living facility, a manager shall ensure that:
1. Unless the assisted living facility has documentation of having received an exception from the Department before October 1, 2013, the swimming pool is enclosed by a wall or fence that:
   a. Is at least five feet in height as measured on the exterior of the wall or fence;
   b. Has no vertical openings greater that four inches across;
   c. Has no horizontal openings, except as described in subsection (F)(1)(e);
   d. Is not chain-link;
   e. Does not have a space between the ground and the bottom fence rail that exceeds four inches in height; and
   f. Has a self-closing, self-latching gate that:
      i. Opens away from the swimming pool,
      ii. Has a latch located at least 54 inches from the ground, and
      iii. Is locked when the swimming pool is not in use;
2. A life preserver or shepherd's crook is available and accessible in the swimming pool area; and

3. Pool safety requirements are conspicuously posted in the swimming pool area.

G. A manager shall ensure that a spa that is not enclosed by a wall or fence as described in subsection (F)(1) is covered and locked when not in use.

Historical Note

New Section made by exempt rulemaking at 19 A.A.R. 2015, effective October 1, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 1409, pursuant to Laws 2013, Ch. 10, § 13; effective July 1, 2014 (Supp. 14-2). Amended by final rulemaking at 25 A.A.R. 1583, effective October 1, 2019 (Supp. 19-3). Amended by final expedited rulemaking, at 25 A.A.R. 3481 with an immediate effective date of November 5, 2019 (Supp. 19-4).

36-132. Department of health services; functions; contracts

A. The department, in addition to other powers and duties vested in it by law, shall:

1. Protect the health of the people of the state.

2. Promote the development, maintenance, efficiency and effectiveness of local health departments or districts of sufficient population and area that they can be sustained with reasonable economy and efficient administration, provide technical consultation and assistance to local health departments or districts, provide financial assistance to local health departments or districts and services that meet minimum standards of personnel and performance and in accordance with a plan and budget submitted by the local health department or districts to the department for approval, and recommend the qualifications of all personnel.

3. Collect, preserve, tabulate and interpret all information required by law in reference to births, deaths and all vital facts, and obtain, collect and preserve information relating to the health of the people of this state and the prevention of diseases as may be useful in the discharge of functions of the department not in conflict with chapter 3 of this title and sections 36-693, 36-694 and 39-122.

4. Operate sanitariums, hospitals or other facilities assigned to the department by law or by the governor.

5. Conduct a statewide program of health education relevant to the powers and duties of the department, prepare educational materials and disseminate information as to conditions affecting health, including basic information to promote good health on the part of individuals and communities, and prepare and disseminate technical information concerning public health to the health professions, local health officials and hospitals. In cooperation with the department of education, the department of health services shall prepare and disseminate materials and give technical assistance for the purpose of educating children in hygiene, sanitation and personal and public health, and provide consultation and assistance in community organization to counties, communities and groups of people.

6. Administer or supervise a program of public health nursing, prescribe the minimum qualifications of all public health nurses engaged in official public health work, and encourage and aid in coordinating local public health nursing services.

7. Encourage and aid in coordinating local programs concerning control of preventable diseases in accordance with statewide plans that shall be formulated by the department.

8. Encourage and aid in coordinating local programs concerning maternal and child health, including midwifery, antepartum and postpartum care, infant and preschool health and the health of schoolchildren, including special fields such as the prevention of blindness and conservation of sight and hearing.

9. Encourage and aid in coordinating local programs concerning nutrition of the people of this state.

10. Encourage, administer and provide dental health care services and aid in coordinating local programs concerning dental public health, in cooperation with the Arizona dental association. The department may bill and receive payment for costs associated with providing dental health care services and shall deposit the monies in the oral health fund established by section 36-138.

11. Establish and maintain adequate serological, bacteriological, parasitological, entomological and chemical laboratories with qualified assistants and facilities necessary for routine examinations and analyses and for investigations and research in matters affecting public health.

12. Supervise, inspect and enforce the rules concerning the operation of public bathing places and public and semipublic swimming pools adopted pursuant to section 36-136, subsection I, paragraph 10.

13. Take all actions necessary or appropriate to ensure that bottled water sold to the public and water used to process, store, handle, serve and transport food and drink are free from filth, disease-causing substances and organisms and unwholesome, poisonous, deleterious or other foreign substances. All state agencies and local health agencies involved with water quality shall provide to the department any assistance requested by the director to ensure that this paragraph is effectuated.

14. Enforce the state food, caustic alkali and acid laws in accordance with chapter 2, article 2 of this title, chapter 8, article 1 of this title and chapter 9, article 4 of this title, and collaborate in enforcing the federal food, drug, and cosmetic act (52 Stat. 1040; 21 United States Code sections 1 through 905).

15. Recruit and train personnel for state, local and district health departments.

16. Conduct continuing evaluations of state, local and district public health programs, study and appraise state health problems and develop broad plans for use by the department and for recommendation to other agencies, professions and local health departments for the best solution of these problems.

17. License and regulate health care institutions according to chapter 4 of this title.

18. Issue or direct the issuance of licenses and permits required by law.

19. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

20. Subject to the availability of monies, develop and administer programs in perinatal health care, including:

(a) Screening in early pregnancy for detecting high-risk conditions.

(b) Comprehensive prenatal health care.

(c) Maternity, delivery and postpartum care.

(d) Perinatal consultation, including transportation of the pregnant woman to a perinatal care center when medically indicated.

(e) Perinatal education oriented toward professionals and consumers, focusing on early detection and adequate intervention to avert premature labor and delivery.

21. License and regulate the health and safety of group homes and behavioral-supported group homes for persons with developmental disabilities. The department shall issue a license to an

accredited facility for a period of the accreditation, except that a licensing period shall not be longer than three years. The department is authorized to conduct an inspection of an accredited facility to ensure that the facility meets health and safety licensure standards. The results of the accreditation survey shall be public information. A copy of the final accreditation report shall be filed with the department of health services. For the purposes of this paragraph, "accredited" means accredited by a nationally recognized accreditation organization.

B. The department may accept from the state or federal government, or any agency of the state or federal government, and from private donors, trusts, foundations or eleemosynary corporations or organizations grants or donations for or in aid of the construction or maintenance of any program, project, research or facility authorized by this title, or in aid of the extension or enforcement of any program, project or facility authorized, regulated or prohibited by this title, and enter into contracts with the federal government, or an agency of the federal government, and with private donors, trusts, foundations or eleemosynary corporations or organizations, to carry out such purposes. All monies made available under this section are special project grants. The department may also expend these monies to further applicable scientific research within this state.

C. The department, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

D. The department may enter into contracts with organizations that perform nonrenal organ transplant operations and organizations that primarily assist in the management of end-stage renal disease and related problems to provide, as payors of last resort, prescription medications necessary to supplement treatment and transportation to and from treatment facilities. The contracts may provide for department payment of administrative costs it specifically authorizes.

36-136. Powers and duties of director; compensation of personnel; rules; definitions

A. The director shall:

1. Be the executive officer of the department of health services and the state registrar of vital statistics but shall not receive compensation for services as registrar.

2. Perform all duties necessary to carry out the functions and responsibilities of the department.

3. Prescribe the organization of the department. The director shall appoint or remove personnel as necessary for the efficient work of the department and shall prescribe the duties of all personnel. The director may abolish any office or position in the department that the director believes is unnecessary.

4. Administer and enforce the laws relating to health and sanitation and the rules of the department.

5. Provide for the examination of any premises if the director has reasonable cause to believe that on the premises there exists a violation of any health law or rule of this state.

6. Exercise general supervision over all matters relating to sanitation and health throughout this state. When in the opinion of the director it is necessary or advisable, a sanitary survey of the whole or of any part of this state shall be made. The director may enter, examine and survey any source and means of water supply, sewage disposal plant, sewerage system, prison, public or private place of detention, asylum, hospital, school, public building, private institution, factory, workshop,

tenement, public washroom, public restroom, public toilet and toilet facility, public eating room and restaurant, dairy, milk plant or food manufacturing or processing plant, and any premises in which the director has reason to believe there exists a violation of any health law or rule of this state that the director has the duty to administer.

7. Prepare sanitary and public health rules.

8. Perform other duties prescribed by law.

B. If the director has reasonable cause to believe that there exists a violation of any health law or rule of this state, the director may inspect any person or property in transportation through this state, and any car, boat, train, trailer, airplane or other vehicle in which that person or property is transported, and may enforce detention or disinfection as reasonably necessary for the public health if there exists a violation of any health law or rule.

C. The director, after consultation with the department of administration, may take all necessary steps to enhance the highest and best use of the state hospital property, including contracting with third parties to provide services, entering into short-term lease agreements with third parties to occupy or renovate existing buildings and entering into long-term lease agreements to develop the land and buildings. The director shall deposit any monies collected from contracts and lease agreements entered into pursuant to this subsection in the Arizona state hospital charitable trust fund established by section 36-218. At least thirty days before issuing a request for proposals pursuant to this subsection, the department of health services shall hold a public hearing to receive community and provider input regarding the highest and best use of the state hospital property related to the request for proposals. The department shall report to the joint committee on capital review on the terms, conditions and purpose of any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, and the fiscal impact on the department and any revenues generated by the agreement. Any lease or sublease agreement entered into pursuant to this subsection relating to state hospital lands or buildings or the disposition of real property pursuant to this subsection, including state hospital lands or buildings, must be reviewed by the joint committee on capital review.

D. The director may deputize, in writing, any qualified officer or employee in the department to do or perform on the director's behalf any act the director is by law empowered to do or charged with the responsibility of doing.

E. The director may delegate to a local health department, county environmental department or public health services district any functions, powers or duties that the director believes can be competently, efficiently and properly performed by the local health department, county environmental department or public health services district if:

1. The director or superintendent of the local health department, environmental department or public health services district is willing to accept the delegation and agrees to perform or exercise the functions, powers and duties conferred in accordance with the standards of performance established by the director of the department of health services.

2. Monies appropriated or otherwise made available to the department for distribution to or division among counties or public health services districts for local health work may be allocated or reallocated in a manner designed to ensure the accomplishment of recognized local public health activities and delegated functions, powers and duties in accordance with applicable standards of

performance. If in the director's opinion there is cause, the director may terminate all or a part of any delegation and may reallocate all or a part of any monies that may have been conditioned on the further performance of the functions, powers or duties conferred.

F. The compensation of all personnel shall be as determined pursuant to section 38-611.

G. The director may make and amend rules necessary for the proper administration and enforcement of the laws relating to the public health.

H. Notwithstanding subsection I, paragraph 1 of this section, the director may define and prescribe emergency measures for detecting, reporting, preventing and controlling communicable or infectious diseases or conditions if the director has reasonable cause to believe that a serious threat to public health and welfare exists. Emergency measures are effective for not longer than eighteen months.

I. The director, by rule, shall:

1. Define and prescribe reasonably necessary measures for detecting, reporting, preventing and controlling communicable and preventable diseases. The rules shall declare certain diseases that are reportable. The rules shall prescribe measures, including isolation or quarantine, that are reasonably required to prevent the occurrence of, or to seek early detection and alleviation of, disability, insofar as possible, from communicable or preventable diseases. The rules shall include reasonably necessary measures to control animal diseases that are transmittable to humans.

2. Define and prescribe reasonably necessary measures, in addition to those prescribed by law, regarding the preparation, embalming, cremation, interment, disinterment and transportation of dead human bodies and the conduct of funerals, relating to and restricted to communicable diseases and regarding the removal, transportation, cremation, interment or disinterment of any dead human body.

3. Define and prescribe reasonably necessary procedures that are not inconsistent with law in regard to the use and accessibility of vital records, delayed birth registration and the completion, change and amendment of vital records.

4. Except as relating to the beneficial use of wildlife meat by public institutions and charitable organizations pursuant to title 17, prescribe reasonably necessary measures to ensure that all food or drink, including meat and meat products and milk and milk products sold at the retail level, provided for human consumption is free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe reasonably necessary measures governing the production, processing, labeling, storing, handling, serving and transportation of these products. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained in any warehouse, restaurant or other premises, except a meatpacking plant, slaughterhouse, wholesale meat processing plant, dairy product manufacturing plant or trade product manufacturing plant. The rules shall prescribe minimum standards for any truck or other vehicle in which food or drink is produced, processed, stored, handled, served or transported. The rules shall provide for the inspection and licensing of premises and vehicles so used, and for abatement as public nuisances of any premises or vehicles that do not comply with the rules and minimum standards. The rules shall provide an exemption relating to food or drink that is:

(a) Served at a noncommercial social event such as a potluck.

(b) Prepared at a cooking school that is conducted in an owner-occupied home.

(c) Not potentially hazardous and prepared in a kitchen of a private home for sale or distribution for noncommercial purposes.

(d) Prepared or served at an employee-conducted function that lasts less than four hours and is not regularly scheduled, such as an employee recognition, an employee fundraising or an employee social event.

(e) Offered at a child care facility and limited to commercially prepackaged food that is not potentially hazardous and whole fruits and vegetables that are washed and cut on-site for immediate consumption.

(f) Offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous.

(g) A cottage food product that is prepared in a kitchen of a private home for commercial purposes consistent with chapter 8, article 2 of this title.

(h) A whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption.

(i) Produce in a packing or holding facility that is subject to the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) as administered by the Arizona department of agriculture pursuant to title 3, chapter 3, article 4.1. For the purposes of this subdivision, "holding", "packing" and "produce" have the same meanings prescribed in section 3-525.

(j) Spirituous liquor produced on the premises licensed by the department of liquor licenses and control. This exemption includes both of the following:

(i) The area in which production and manufacturing of spirituous liquor occurs, as defined in an active basic permit on file with the United States alcohol and tobacco tax and trade bureau.

(ii) The area licensed by the department of liquor licenses and control as a microbrewery, farm winery or craft distiller that is open to the public and serves spirituous liquor and commercially prepackaged food, crackers or pretzels for consumption on the premises. A producer of spirituous liquor may not provide, allow or expose for common use any cup, glass or other receptacle used for drinking purposes. For the purposes of this item, "common use" means the use of a drinking receptacle for drinking purposes by or for more than one person without the receptacle being thoroughly cleansed and sanitized between consecutive uses by methods prescribed by or acceptable to the department.

(k) Spirituous liquor produced by a producer that is licensed by the department of liquor licenses and control or spirituous liquor imported and sold by wholesalers that is licensed by the department of liquor licenses and control. This exemption includes all commercially prepackaged spirituous liquor and all spirituous liquor poured at a licensed special event, festival or fair in this state.

5. Prescribe reasonably necessary measures to ensure that all meat and meat products for human consumption handled at the retail level are delivered in a manner and from sources approved by the Arizona department of agriculture and are free from unwholesome, poisonous or other foreign substances and filth, insects or disease-causing organisms. The rules shall prescribe standards for

sanitary facilities to be used in identifying, storing, handling and selling all meat and meat products sold at the retail level.

6. Prescribe reasonably necessary measures regarding production, processing, labeling, handling, serving and transportation of bottled water to ensure that all bottled drinking water distributed for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions that shall be maintained at any source of water, bottling plant and truck or vehicle in which bottled water is produced, processed, stored or transported and shall provide for inspection and certification of bottled drinking water sources, plants, processes and transportation and for abatement as a public nuisance of any water supply, label, premises, equipment, process or vehicle that does not comply with the minimum standards. The rules shall prescribe minimum standards for bacteriological, physical and chemical quality for bottled water and for submitting samples at intervals prescribed in the standards.

7. Define and prescribe reasonably necessary measures governing ice production, handling, storing and distribution to ensure that all ice sold or distributed for human consumption or for preserving or storing food for human consumption is free from unwholesome, poisonous, deleterious or other foreign substances and filth or disease-causing organisms. The rules shall prescribe minimum standards for the sanitary facilities and conditions and the quality of ice that shall be maintained at any ice plant, storage and truck or vehicle in which ice is produced, stored, handled or transported and shall provide for inspection and licensing of the premises and vehicles, and for abatement as public nuisances of ice, premises, equipment, processes or vehicles that do not comply with the minimum standards.

8. Define and prescribe reasonably necessary measures concerning sewage and excreta disposal, garbage and trash collection, storage and disposal, and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels. The rules shall prescribe minimum standards for preparing food in community kitchens, adequacy of excreta disposal, garbage and trash collection, storage and disposal and water supply for recreational and summer camps, campgrounds, motels, tourist courts, trailer coach parks and hotels and shall provide for inspection of these premises and for abatement as public nuisances of any premises or facilities that do not comply with the rules. Primitive camp and picnic grounds offered by this state or a political subdivision of this state are exempt from rules adopted pursuant to this paragraph but are subject to approval by a county health department under sanitary regulations adopted pursuant to section 36-183.02. Rules adopted pursuant to this paragraph do not apply to two or fewer recreational vehicles as defined in section 33-2102 that are not park models or park trailers, that are parked on owner-occupied residential property for less than sixty days and for which no rent or other compensation is paid. For the purposes of this paragraph, "primitive camp and picnic grounds" means camp and picnic grounds that are remote in nature and without accessibility to public infrastructure such as water, electricity and sewer.

9. Define and prescribe reasonably necessary measures concerning the sewage and excreta disposal, garbage and trash collection, storage and disposal, water supply and food preparation of all public schools. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained in any public school and shall provide for inspection of these premises and facilities and for abatement as public nuisances of any premises that do not comply with the minimum standards.

10. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious health conditions at these places. The rules shall prescribe minimum standards for sanitary conditions that shall be maintained at any public or semipublic swimming pool or bathing place and shall provide for inspection of these

premises and for abatement as public nuisances of any premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of environmental quality and shall be consistent with the rules adopted by the director of the department of environmental quality pursuant to section 49-104, subsection B, paragraph 12.

11. Prescribe reasonably necessary measures to keep confidential information relating to diagnostic findings and treatment of patients, as well as information relating to contacts, suspects and associates of communicable disease patients. Confidential information may not be made available for political or commercial purposes.

12. Prescribe reasonably necessary measures regarding human immunodeficiency virus testing as a means to control the transmission of that virus, including the designation of anonymous test sites as dictated by current epidemiologic and scientific evidence.

13. Establish an online registry of food preparers that are authorized to prepare cottage food products for commercial purposes pursuant to paragraph 4 of this subsection and chapter 8, article 2 of this title. A registered food preparer shall renew the registration every three years and shall provide to the department updated registration information within thirty days after any change.

14. Prescribe an exclusion for fetal demise cases from the standardized survey known as "the hospital consumer assessment of healthcare providers and systems".

J. The rules adopted under the authority conferred by this section shall be observed throughout this state and shall be enforced by each local board of health or public health services district, but this section does not limit the right of any local board of health or county board of supervisors to adopt ordinances and rules as authorized by law within its jurisdiction if the ordinances and rules do not conflict with state law and are equal to or more restrictive than the rules of the director.

K. The powers and duties prescribed by this section do not apply in instances in which regulatory powers and duties relating to public health are vested by the legislature in any other state board, commission, agency or instrumentality, except that with regard to the regulation of meat and meat products, the department of health services and the Arizona department of agriculture within the area delegated to each shall adopt rules that are not in conflict.

L. The director, in establishing fees authorized by this section, shall comply with title 41, chapter 6. The department shall not set a fee at more than the department's cost of providing the service for which the fee is charged. State agencies are exempt from all fees imposed pursuant to this section.

M. After consultation with the state superintendent of public instruction, the director shall prescribe the criteria the department shall use in deciding whether or not to notify a local school district that a pupil in the district has tested positive for the human immunodeficiency virus antibody. The director shall prescribe the procedure by which the department shall notify a school district if, pursuant to these criteria, the department determines that notification is warranted in a particular situation. This procedure shall include a requirement that before notification the department shall determine to its satisfaction that the district has an appropriate policy relating to nondiscrimination of the infected pupil and confidentiality of test results and that proper educational counseling has been or will be provided to staff and pupils.

N. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (f) of this section, food and drink are exempt from the rules prescribed in subsection I of

this section if offered at locations that sell only commercially prepackaged food or drink that is not potentially hazardous, without a limitation on its display area.

O. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (h) of this section, a whole fruit or vegetable grown in a public school garden that is washed and cut on-site for immediate consumption is exempt from the rules prescribed in subsection I of this section.

P. Until the department adopts an exclusion by rule as required by subsection I, paragraph 14 of this section, the standardized survey known as "the hospital consumer assessment of healthcare providers and systems" may not include patients who experience a fetal demise.

Q. Until the department adopts exemptions by rule as required by subsection I, paragraph 4, subdivision (j) of this section, spirituous liquor and commercially prepackaged food, crackers or pretzels that meet the requirements of subsection I, paragraph 4, subdivision (j) of this section are exempt from the rules prescribed in subsection I of this section.

R. For the purposes of this section:

1. "Cottage food product" has the same meaning prescribed in section 36-931.

2. "Fetal demise" means a fetal death that occurs or is confirmed in a licensed hospital. Fetal demise does not include an abortion as defined in section 36-2151.

36-405. Powers and duties of the director

A. The director shall adopt rules to establish minimum standards and requirements for constructing, modifying and licensing health care institutions necessary to ensure the public health, safety and welfare. The standards and requirements shall relate to the construction, equipment, sanitation, staffing for medical, nursing and personal care services, and recordkeeping pertaining to administering medical, nursing, behavioral health and personal care services, in accordance with generally accepted practices of health care. The standards shall require that a physician who is licensed pursuant to title 32, chapter 13 or 17 medically discharge patients from surgery and shall allow an outpatient surgical center to require that either an anesthesia provider who is licensed pursuant to title 32, chapter 13, 15 or 17 or a physician who is licensed pursuant to title 32, chapter 13 or 17 remain present on the premises until all patients are discharged from the recovery room. Except as otherwise provided in this subsection, the director shall use the current standards adopted by the joint commission on accreditation of hospitals and the commission on accreditation of the American osteopathic association or those adopted by any recognized accreditation organization approved by the department as guidelines in prescribing minimum standards and requirements under this section.

B. The director, by rule, may:

1. Classify and subclassify health care institutions according to character, size, range of services provided, medical or dental specialty offered, duration of care and standard of patient care required for the purposes of licensure. Classes of health care institutions may include hospitals, infirmaries, outpatient treatment centers, health screening services centers and residential care facilities. Whenever the director reasonably deems distinctions in rules and standards to be appropriate among different classes or subclasses of health care institutions, the director may make such distinctions.

2. Prescribe standards for determining a health care institution's substantial compliance with licensure requirements.

3. Prescribe the criteria for the licensure inspection process.

4. Prescribe standards for selecting health care-related demonstration projects.

5. Establish nonrefundable application and licensing fees for health care institutions, including a grace period and a fee for the late payment of licensing fees.

6. Establish a process for the department to notify a licensee of the licensee's licensing fee due date.

7. Establish a process for a licensee to request a different licensing fee due date, including any limits on the number of requests by the licensee.

C. The director, by rule, shall adopt licensing provisions that facilitate the colocation and integration of outpatient treatment centers that provide medical, nursing and health-related services with behavioral health services consistent with article 3.1 of this chapter.

D. The director shall establish a model in rule for the department to monitor health care institutions on-site that are found to not be in substantial compliance with the applicable licensure requirements. The director shall establish on-site monitoring fees for health care institutions that are subject to the on-site monitoring requirements. The department may not charge a fee pursuant to this subsection for a complaint or compliance-related survey or inspection if a health care institution is in substantial compliance.

E. The department may provide in-service training to health care institutions that request in-service training relating to regulatory compliance outside of the survey process. The director shall establish in rule in-service training fees for health care institutions that request in-service training from the department.

F. Ninety percent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the health services licensing fund established by section 36-414 and ten percent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

G. Subsection B, paragraph 5 of this section does not apply to a health care institution operated by a state agency pursuant to state or federal law or to adult foster care residential settings.

36-406. Powers and duties of the department

In addition to its other powers and duties:

1. The department shall:

(a) Administer and enforce this chapter and the rules, regulations and standards adopted pursuant thereto.

(b) Review, and may approve, plans and specifications for construction or modification or additions to health care institutions regulated by this chapter.

(c) Have access to books, records, accounts and any other information of any health care institution reasonably necessary for the purposes of this chapter.

(d) Require as a condition of licensure that nursing care institutions and assisted living facilities make vaccinations for influenza and pneumonia available to residents on site on a yearly basis. The department shall prescribe the manner by which the institutions and facilities shall document compliance with this subdivision, including documenting residents who refuse to be immunized. The department shall not impose a violation on a licensee for not making a vaccination available if there is a shortage of that vaccination in this state as determined by the director.

2. The department may:

(a) Make or cause to be made inspections consistent with standard medical practice of every part of the premises of health care institutions which are subject to the provisions of this chapter as well as those which apply for or hold a license required by this chapter.

(b) Make studies and investigations of conditions and problems in health care institutions, or any class or subclass thereof, as they relate to compliance with this chapter and rules, regulations and standards adopted pursuant thereto.

(c) Develop manuals and guides relating to any of the several aspects of physical facilities and operations of health care institutions or any class or subclass thereof for distribution to the governing authorities of health care institutions and to the general public.

36-411. Residential care institutions; nursing care institutions; home health agencies; fingerprinting requirements; exemptions; definitions

A. Except as provided in subsection F of this section, as a condition of licensure or continued licensure of a residential care institution, a nursing care institution or a home health agency and as a condition of employment in a residential care institution, a nursing care institution or a home health agency, employees and owners of residential care institutions, nursing care institutions or home health agencies, contracted persons of residential care institutions, nursing care institutions or home health agencies or volunteers of residential care institutions, nursing care institutions or home health agencies who provide medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services and who have not been subject to the fingerprinting requirements of a health professional's regulatory board pursuant to title 32 shall have a valid fingerprint clearance card that is issued pursuant to title 41, chapter 12, article 3.1 or shall apply for a fingerprint clearance card within twenty working days after employment or beginning volunteer work or contracted work.

B. A health professional who has complied with the fingerprinting requirements of the health professional's regulatory board as a condition of licensure or certification pursuant to title 32 is not required to submit an additional set of fingerprints to the department of public safety pursuant to this section.

C. Each residential care institution, nursing care institution and home health agency shall make documented, good faith efforts to:

1. Contact previous employers to obtain information or recommendations that may be relevant to a person's fitness to work in a residential care institution, nursing care institution or home health agency.

2. Verify the current status of a person's fingerprint clearance card.

3. Beginning January 1, 2025, verify that a potential employee is not on the adult protective services registry pursuant to section 46-459. If a potential employee is found to be on the adult protective services registry, the residential care institution, nursing care institution or home health agency may not hire the potential employee.

4. On or before March 31, 2025, verify that each employee is not on the adult protective services registry pursuant to section 46-459. If an employee is found to be on the adult protective services registry, the residential care institution, nursing care institution or home health agency shall take action to terminate the employment of that employee.

5. Beginning March 31, 2025, annually reverify that each employee is not on the adult protective services registry pursuant to section 46-459.

D. An employee, an owner, a contracted person or a volunteer or a facility on behalf of the employee, the owner, the contracted person or the volunteer shall submit a completed application that is provided by the department of public safety within twenty days after the date the person begins work or volunteer service.

E. Except as provided in subsection F of this section, a residential care institution, nursing care institution or home health agency shall not allow an employee to continue employment or a volunteer or contracted person to continue to provide medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services if the person has been denied a fingerprint clearance card pursuant to title 41, chapter 12, article 3.1, has been denied approval pursuant to this section before May 7, 2001 or has had a fingerprint clearance card suspended or revoked.

F. An employee, volunteer or contractor of a residential care institution, nursing care institution or home health agency who is eligible pursuant to section 41-1758.07, subsection C to petition the board of fingerprinting for a good cause exception and who provides documentation of having applied for a good cause exception pursuant to section 41-619.55 but who has not yet received a decision is exempt from the fingerprinting requirements of this section if the person provides medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services to residents or patients while under the direct visual supervision of an owner or employee who has a valid fingerprint clearance card.

G. If a person's employment record contains a six-month or longer time frame during which the person was not employed by any employer, a completed application with a new set of fingerprints shall be submitted to the department of public safety.

H. For the purposes of this section:

1. "Direct supportive services":

(a) Means services other than home health services that provide direct individual care and that are not provided in a common area of a health care institution, including:

(i) Assistance with ambulating, bathing, toileting, grooming, eating and getting in and out of a bed or chair.

(ii) Assistance with self-administration of medication.

(iii) Janitorial, maintenance, housekeeping or other services provided in a resident's room.

(iv) Transportation services, including van services.

(b) Does not include services provided by persons contracted directly by a resident or the resident's family in a health care institution.

2. "Direct visual supervision" means continuous visual oversight of the supervised person that does not require the supervisor to be in a superior organizational role to the person being supervised.

3. "Home health services" has the same meaning prescribed in section 36-151.

36-420.05. Legal action or sale; effect on licensure

A. The director may continue to pursue any court, administrative or enforcement action against a licensee even if the health care institution is in the process of being sold or transferred or has closed.

B. The department may deny an application for a health care institution license if either:

1. The applicant, the licensee or a controlling person has a health care institution license that is in an enforcement action or court action related to the health and safety of the residents or patients.

2. The department has determined for reasons other than those specified in paragraph 1 of this subsection that the issuance of a new license is likely to jeopardize resident or patient safety.

C. The department may deny the approval of a change in ownership of a currently licensed health care institution if the department determines that the transfer of ownership, whether involving a direct owner or indirect owner, may jeopardize patient safety.

36-425. Inspections; issuance of license; posting requirements; provisional license; denial of license

A. On receipt of a properly completed application for a health care institution license, the director shall conduct an inspection of the health care institution as prescribed by this chapter. If an application for a license is submitted due to a planned change of ownership, the director shall determine the need for an inspection of the health care institution. Based on the results of the inspection and after the submission of the applicable licensing fee, the director shall either deny the license or issue a regular or provisional license. A license issued by the department shall be posted in a conspicuous location in the reception area of that health care institution.

B. The director shall issue a license if the director determines that an applicant and the health care institution for which the license is sought substantially comply with the requirements of this chapter and rules adopted pursuant to this chapter and the applicant agrees to carry out a plan acceptable to the director to eliminate any deficiencies. The director shall not require a health care institution that was designated as a critical access hospital to make any modifications required by this chapter or rules adopted pursuant to this chapter in order to obtain an amended license with the same licensed capacity the health care institution had before it was designated as a critical access hospital if all of the following are true:

1. The health care institution has subsequently terminated its critical access hospital designation.

2. The licensed capacity of the health care institution does not exceed its licensed capacity before its designation as a critical access hospital.

3. The health care institution remains in compliance with the applicable codes and standards that were in effect at the time the facility was originally licensed with the higher licensed capacity.

C. A health care institution license does not expire and remains valid unless:

1. The department subsequently revokes or suspends the license.

2. The license is considered void because the licensee did not pay the licensing fee, civil penalties or provider agreement fees before the relevant due date or did not enter into an agreement with the department before the relevant due date to pay all outstanding fees or civil penalties.

D. Except as provided in section 36-424, subsection B and subsection E of this section, the department shall conduct a compliance inspection of a health care institution to determine compliance with this chapter and rules adopted pursuant to this chapter at least once annually.

E. If the department determines a facility, except for a residential care institution or a nursing care institution that does not have the same direct owner or indirect owner as a hospital licensed pursuant to this chapter, to be deficiency free on a compliance survey, the department shall not conduct a compliance survey of that facility for twenty-four months after the date of the deficiency free survey. This subsection does not prohibit the department from enforcing licensing requirements as authorized by section 36-424.

F. A hospital licensed as a rural general hospital may provide intensive care services.

G. The director shall issue a provisional license for a period of not more than one year if an inspection or investigation of a currently licensed health care institution or a health care institution for which an applicant is seeking a license reveals that the health care institution is not in substantial compliance with department licensure requirements and the director believes that the immediate interests of the patients and the general public are best served if the health care institution is given an opportunity to correct deficiencies. The applicant or licensee shall agree to carry out a plan to eliminate deficiencies that is acceptable to the director. The director shall not issue consecutive provisional licenses to a single health care institution. The director shall not issue a license to the current licensee or a successor applicant before the expiration of the provisional license unless the health care institution submits an application for a substantial compliance survey and is found to be in substantial compliance. The director may issue a license only if the director determines that the health care institution is in substantial compliance with the licensure requirements of the department and this chapter. This subsection does not prevent the director from taking action to protect the safety of patients pursuant to section 36-427.

H. Subject to the confidentiality requirements of articles 4 and 5 of this chapter, title 12, chapter 13, article 7.1 and section 12-2235, the licensee shall keep current department inspection reports at the health care institution. Unless federal law requires otherwise, the licensee shall post in a conspicuous location a notice that identifies the location at that health care institution where the inspection reports are available for review.

I. A health care institution shall immediately notify the department in writing when there is a change of the chief administrative officer specified in section 36-422, subsection A, paragraph 1, subdivision (g).

J. When the department issues an original license or an original provisional license to a health care institution, it shall notify the owners and lessees of any agricultural land within one-fourth mile of the health care institution. The health care institution shall provide the department with the names and addresses of owners or lessees of agricultural land within one-fourth mile of the proposed health care institution.

K. In addition to the grounds for denial of licensure prescribed pursuant to subsection A of this section, the director may deny a license because an applicant or anyone in a business relationship with the applicant, including stockholders and controlling persons, has had a license to operate a health care institution denied, revoked or suspended or a license or certificate issued by a health profession regulatory board pursuant to title 32 or issued by a state agency pursuant to chapter 6, article 7 or chapter 17 of this title denied, revoked or suspended or has a licensing history of recent serious violations occurring in this state or in another state that posed a direct risk to the life, health or safety of patients or residents.

L. In addition to the requirements of this chapter, the director may prescribe by rule other licensure requirements.

36-431.01. Violations; civil penalties; enforcement

A. The director may assess a civil penalty against a person who violates this chapter or a rule adopted pursuant to this chapter in an amount of not more than $1,000 for each violation, which may be assessed for each resident or patient who the department determines was impacted by the violation. Each day that a violation occurs constitutes a separate violation.

B. The director may issue a notice of assessment that shall include the proposed amount of the assessment. A person may appeal the assessment by requesting a hearing pursuant to title 41, chapter 6, article 10. When an assessment is appealed, the director shall take no further action to enforce and collect the assessment until after the hearing.

C. In determining the amount of the civil penalty pursuant to subsection A of this section, the department shall establish a model in rule that considers the following:

1. Repeated violations of statutes or rules.

2. Patterns of noncompliance.

3. Types of violations.

4. The severity of violations.

5. The potential for and occurrences of actual harm, including to patients, staff or residents.

6. Threats to health and safety, including to patients, staff or residents.

7. The number of persons affected by the violations.

8. The number of violations.

9. The size of the facility.

10. The length of time that the violations have been occurring.

11. The type of health care institution.

12. Whether the health care institution and staff are in compliance with the reporting requirements pursuant to section 46-454.

D. Pursuant to interagency agreement specified in section 36-409, the director may assess a civil penalty, including interest, in accordance with 42 United States Code section 1396r. A person may appeal this assessment by requesting a hearing before the director in accordance with subsection B of this section. Civil penalty amounts may be established by rules adopted by the director that conform to guidelines or regulations adopted by the secretary of the United States department of health and human services pursuant to 42 United States Code section 1396r.

E. Actions to enforce the collection of penalties assessed pursuant to subsections A and D of this section shall be brought by the attorney general or the county attorney in the name of the state in the justice court or the superior court in the county in which the violation occurred.

F. Penalties assessed under subsection D of this section are in addition to and not in limitation of other penalties imposed pursuant to this chapter. All civil penalties and interest assessed pursuant to subsection D of this section shall be deposited, pursuant to sections 35-146 and 35-147, in the nursing care institution resident protection revolving fund established by section 36-431.02. The director shall use these monies for the purposes prescribed by 42 United States Code section 1396r, including payment for the costs of relocation of residents to other facilities, maintenance of operation of a facility pending correction of the deficiencies or closure and reimbursement of residents for personal monies lost.

G. The department shall deposit civil penalties assessed under subsection A of this section in the state general fund.

HOUSE BILL 2764

AN ACT

AMENDING SECTION 36-405, ARIZONA REVISED STATUTES; AMENDING TITLE 36, CHAPTER 4, ARTICLE 1, ARIZONA REVISED STATUTES, BY ADDING SECTION 36-405.03; AMENDING SECTION 36-411, ARIZONA REVISED STATUTES; AMENDING TITLE 36, CHAPTER 4, ARTICLE 1, ARIZONA REVISED STATUTES, BY ADDING SECTION 36-420.05; AMENDING SECTIONS 36-425, 36-431.01, 36-446.02, 46-452 AND 46-454, ARIZONA REVISED STATUTES; RELATING TO HEALTH CARE INSTITUTIONS.

(TEXT OF BILL BEGINS ON NEXT PAGE)

Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 36-405, Arizona Revised Statutes, is amended to read:

36-405. Powers and duties of the director

A. The director shall adopt rules to establish minimum standards and requirements for constructing, modifying and licensing health care institutions necessary to ensure the public health, safety and welfare. The standards and requirements shall relate to the construction, equipment, sanitation, staffing for medical, nursing and personal care services, and recordkeeping pertaining to administering medical, nursing, behavioral health and personal care services, in accordance with generally accepted practices of health care. The standards shall require that a physician who is licensed pursuant to title 32, chapter 13 or 17 medically discharge patients from surgery and shall allow an outpatient surgical center to require that either an anesthesia provider who is licensed pursuant to title 32, chapter 13, 15 or 17 or a physician who is licensed pursuant to title 32, chapter 13 or 17 remain present on the premises until all patients are discharged from the recovery room. Except as otherwise provided in this subsection, the director shall use the current standards adopted by the joint commission on accreditation of hospitals and the commission on accreditation of the American osteopathic association or those adopted by any recognized accreditation organization approved by the department as guidelines in prescribing minimum standards and requirements under this section.

B. The director, by rule, may:

1. Classify and subclassify health care institutions according to character, size, range of services provided, medical or dental specialty offered, duration of care and standard of patient care required for the purposes of licensure. Classes of health care institutions may include hospitals, infirmaries, outpatient treatment centers, health screening services centers and residential care facilities. Whenever the director reasonably deems distinctions in rules and standards to be appropriate among different classes or subclasses of health care institutions, the director may make such distinctions.

2. Prescribe standards for determining a health care institution's substantial compliance with licensure requirements.

3. Prescribe the criteria for the licensure inspection process.

4. Prescribe standards for selecting health care-related demonstration projects.

5. Establish nonrefundable application and licensing fees for health care institutions, including a grace period and a fee for the late payment of licensing fees.

6. Establish a process for the department to notify a licensee of the licensee's licensing fee due date.

7. Establish a process for a licensee to request a different licensing fee due date, including any limits on the number of requests by the licensee.

C. The director, by rule, shall adopt licensing provisions that facilitate the colocation and integration of outpatient treatment centers that provide medical, nursing and health-related services with behavioral health services consistent with article 3.1 of this chapter.

D. THE DIRECTOR SHALL ESTABLISH A MODEL IN RULE FOR THE DEPARTMENT TO MONITOR HEALTH CARE INSTITUTIONS ON-SITE THAT ARE FOUND TO NOT BE IN SUBSTANTIAL COMPLIANCE WITH THE APPLICABLE LICENSURE REQUIREMENTS. THE DIRECTOR SHALL ESTABLISH ON-SITE MONITORING FEES FOR HEALTH CARE INSTITUTIONS THAT ARE SUBJECT TO THE ON-SITE MONITORING REQUIREMENTS. THE DEPARTMENT MAY NOT CHARGE A FEE PURSUANT TO THIS SUBSECTION FOR A COMPLAINT OR COMPLIANCE-RELATED SURVEY OR INSPECTION IF A HEALTH CARE INSTITUTION IS IN SUBSTANTIAL COMPLIANCE.

E. THE DEPARTMENT MAY PROVIDE IN-SERVICE TRAINING TO HEALTH CARE INSTITUTIONS THAT REQUEST IN-SERVICE TRAINING RELATING TO REGULATORY COMPLIANCE OUTSIDE OF THE SURVEY PROCESS. THE DIRECTOR SHALL ESTABLISH IN RULE IN-SERVICE TRAINING FEES FOR HEALTH CARE INSTITUTIONS THAT REQUEST IN-SERVICE TRAINING FROM THE DEPARTMENT.

~~D.~~ F. Ninety percent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the health services licensing fund established by section 36-414 and ten percent of the fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

~~E.~~ G. Subsection B, paragraph 5 of this section does not apply to a health care institution operated by a state agency pursuant to state or federal law or to adult foster care residential settings.

Sec. 2. Title 36, chapter 4, article 1, Arizona Revised Statutes, is amended by adding section 36-405.03, to read:

36-405.03. Memory care services standards; rules; staff training requirements; definition

A. THE DIRECTOR SHALL ESTABLISH BY RULE STANDARDS FOR MEMORY CARE SERVICES FOR ASSISTED LIVING FACILITIES THAT ARE LICENSED TO PROVIDE DIRECTED CARE SERVICES.

B. THE DIRECTOR SHALL ESTABLISH BY RULE MINIMUM TRAINING STANDARDS FOR MEMORY CARE SERVICES FOR STAFF AND CONTRACTORS WHO WORK IN AN ASSISTED LIVING FACILITY THAT IS LICENSED TO PROVIDE DIRECTED CARE SERVICES. THE TRAINING STANDARDS SHALL INCLUDE A MINIMUM OF EIGHT HOURS OF INITIAL MEMORY CARE SERVICES TRAINING AND FOUR HOURS OF ANNUAL CONTINUING EDUCATION. IN ADDITION TO THE EIGHT HOURS OF INITIAL TRAINING, THE TRAINING STANDARDS FOR ASSISTED LIVING FACILITY MANAGERS SHALL INCLUDE A MINIMUM OF FOUR HOURS OF MEMORY CARE SERVICES TRAINING THAT IS SPECIFICALLY FOR ASSISTED LIVING FACILITY MANAGERS. THE DEPARTMENT SHALL APPROVE THE MEMORY CARE SERVICES TRAINING PROGRAMS, AND THE TRAINING

PROGRAMS SHALL PROVIDE STAFF AND CONTRACTORS WHO COMPLETE THE TRAINING A CERTIFICATE OF COMPLETION THAT MAY BE USED TO WORK AT ANY ASSISTED LIVING FACILITY THAT IS LICENSED TO PROVIDE DIRECTED CARE SERVICES. IF A STAFF MEMBER OR CONTRACTOR HAS NOT WORKED AT AN ASSISTED LIVING FACILITY THAT IS LICENSED TO PROVIDE DIRECTED CARE SERVICES FOR A PERIOD OF TWELVE MONTHS, THE PERSON IS REQUIRED TO COMPLETE THE INITIAL TRAINING WITHIN THIRTY DAYS AFTER THE DATE OF HIRE, REHIRE OR RETURNING TO WORK.

C. AN ASSISTED LIVING FACILITY THAT IS LICENSED TO PROVIDE DIRECTED CARE SERVICES IS REQUIRED TO PROVIDE TO THE DEPARTMENT DURING AN INVESTIGATION OR COMPLIANCE SURVEY DOCUMENTATION OF STAFF TRAINING AS PRESCRIBED IN SUBSECTION B OF THIS SECTION. FAILURE TO PROVIDE COMPLETE STAFF TRAINING DOCUMENTATION SHALL BE CITED AS A DEFICIENCY.

D. FOR THE PURPOSES OF THIS SECTION, "MEMORY CARE SERVICES" MEANS SERVICES THAT SUPPORT INDIVIDUALS WITH DEMENTIA AND OTHER PROGRESSIVE AND NEURODEGENERATIVE BRAIN DISORDERS, INCLUDING SPECIALIZED ENVIRONMENTAL FEATURES, CARE PLANNING, DIRECTED CARE SERVICES, MEDICATION ADMINISTRATION SERVICES, SPECIALIZED ACCOMMODATIONS, ACTIVITY PROGRAMMING OR OTHER SERVICES REQUIRED BY THE DEPARTMENT IN RULE.

Sec. 3. Section 36-411, Arizona Revised Statutes, is amended to read:

36-411. Residential care institutions; nursing care institutions; home health agencies; fingerprinting requirements; exemptions; definitions

A. Except as provided in subsection F of this section, as a condition of licensure or continued licensure of a residential care institution, a nursing care institution or a home health agency and as a condition of employment in a residential care institution, a nursing care institution or a home health agency, employees and owners of residential care institutions, nursing care institutions or home health agencies, contracted persons of residential care institutions, nursing care institutions or home health agencies or volunteers of residential care institutions, nursing care institutions or home health agencies who provide medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services and who have not been subject to the fingerprinting requirements of a health professional's regulatory board pursuant to title 32 shall have A valid fingerprint clearance ~~cards~~ CARD that ~~are~~ IS issued pursuant to title 41, chapter 12, article 3.1 or shall apply for a fingerprint clearance card within twenty working days ~~of~~ AFTER employment or beginning volunteer work or contracted work.

B. A health professional who has complied with the fingerprinting requirements of the health professional's regulatory board as a condition of licensure or certification pursuant to title 32 is not required to submit an additional set of fingerprints to the department of public safety pursuant to this section.

C. ~~Owners~~ EACH RESIDENTIAL CARE INSTITUTION, NURSING CARE INSTITUTION AND HOME HEALTH AGENCY shall make documented, good faith efforts to:

1. Contact previous employers to obtain information or recommendations that may be relevant to a person's fitness to work in a residential care institution, nursing care institution or home health agency.

2. Verify the current status of a person's fingerprint clearance card.

3. BEGINNING JANUARY 1, 2025, VERIFY THAT A POTENTIAL EMPLOYEE IS NOT ON THE ADULT PROTECTIVE SERVICES REGISTRY PURSUANT TO SECTION 46-459. IF A POTENTIAL EMPLOYEE IS FOUND TO BE ON THE ADULT PROTECTIVE SERVICES REGISTRY, THE RESIDENTIAL CARE INSTITUTION, NURSING CARE INSTITUTION OR HOME HEALTH AGENCY MAY NOT HIRE THE POTENTIAL EMPLOYEE.

4. ON OR BEFORE MARCH 31, 2025, VERIFY THAT EACH EMPLOYEE IS NOT ON THE ADULT PROTECTIVE SERVICES REGISTRY PURSUANT TO SECTION 46-459. IF AN EMPLOYEE IS FOUND TO BE ON THE ADULT PROTECTIVE SERVICES REGISTRY, THE RESIDENTIAL CARE INSTITUTION, NURSING CARE INSTITUTION OR HOME HEALTH AGENCY SHALL TAKE ACTION TO TERMINATE THE EMPLOYMENT OF THAT EMPLOYEE.

5. BEGINNING MARCH 31, 2025, ANNUALLY REVERIFY THAT EACH EMPLOYEE IS NOT ON THE ADULT PROTECTIVE SERVICES REGISTRY PURSUANT TO SECTION 46-459.

D. An employee, an owner, a contracted person or a volunteer or a facility on behalf of the employee, the owner, the contracted person or the volunteer shall submit a completed application that is provided by the department of public safety within twenty days after the date the person begins work or volunteer service.

E. Except as provided in subsection F of this section, a residential care institution, nursing care institution or home health agency shall not allow an employee to continue employment or a volunteer or contracted person to continue to provide medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive services if the person has been denied a fingerprint clearance card pursuant to title 41, chapter 12, article 3.1, has been denied approval pursuant to this section before May 7, 2001 or has had a fingerprint clearance card suspended or revoked.

F. An employee, volunteer or contractor of a residential care institution, nursing care institution or home health agency who is eligible pursuant to section 41-1758.07, subsection C to petition the board of fingerprinting for a good cause exception and who provides documentation of having applied for a good cause exception pursuant to section 41-619.55 but who has not yet received a decision is exempt from the fingerprinting requirements of this section if the person provides medical services, nursing services, behavioral health services, health-related services, home health services or direct supportive

services to residents or patients while under the direct visual supervision of an owner or employee who has a valid fingerprint clearance card.

G. If a person's employment record contains a six-month or longer time frame during which the person was not employed by any employer, a completed application with a new set of fingerprints shall be submitted to the department of public safety.

H. For the purposes of this section:

1. "Direct supportive services":

(a) Means services other than home health services that provide direct individual care and that are not provided in a common area of a health care institution, including:

(i) Assistance with ambulating, bathing, toileting, grooming, eating and getting in and out of a bed or chair.

(ii) Assistance with self-administration of medication.

(iii) Janitorial, maintenance, housekeeping or other services provided in a resident's room.

(iv) Transportation services, including van services.

(b) Does not include services provided by persons contracted directly by a resident or the resident's family in a health care institution.

2. "Direct visual supervision" means continuous visual oversight of the supervised person that does not require the supervisor to be in a superior organizational role to the person being supervised.

3. "Home health services" has the same meaning prescribed in section 36-151.

Sec. 4. Title 36, chapter 4, article 1, Arizona Revised Statutes, is amended by adding section 36-420.05, to read:

36-420.05. Legal action or sale; effect on licensure

A. THE DIRECTOR MAY CONTINUE TO PURSUE ANY COURT, ADMINISTRATIVE OR ENFORCEMENT ACTION AGAINST A LICENSEE EVEN IF THE HEALTH CARE INSTITUTION IS IN THE PROCESS OF BEING SOLD OR TRANSFERRED OR HAS CLOSED.

B. THE DEPARTMENT MAY DENY AN APPLICATION FOR A HEALTH CARE INSTITUTION LICENSE IF EITHER:

1. THE APPLICANT, THE LICENSEE OR A CONTROLLING PERSON HAS A HEALTH CARE INSTITUTION LICENSE THAT IS IN AN ENFORCEMENT ACTION OR COURT ACTION RELATED TO THE HEALTH AND SAFETY OF THE RESIDENTS OR PATIENTS.

2. THE DEPARTMENT HAS DETERMINED FOR REASONS OTHER THAN THOSE SPECIFIED IN PARAGRAPH 1 OF THIS SUBSECTION THAT THE ISSUANCE OF A NEW LICENSE IS LIKELY TO JEOPARDIZE RESIDENT OR PATIENT SAFETY.

C. THE DEPARTMENT MAY DENY THE APPROVAL OF A CHANGE IN OWNERSHIP OF A CURRENTLY LICENSED HEALTH CARE INSTITUTION IF THE DEPARTMENT DETERMINES THAT THE TRANSFER OF OWNERSHIP, WHETHER INVOLVING A DIRECT OWNER OR INDIRECT OWNER, MAY JEOPARDIZE PATIENT SAFETY.

Sec. 5. Section 36-425, Arizona Revised Statutes, is amended to read:

36-425. Inspections; issuance of license; posting requirements; provisional license; denial of license

A. On receipt of a properly completed application for a health care institution license, the director shall conduct an inspection of the health care institution as prescribed by this chapter. If an application for a license is submitted due to a planned change of ownership, the director shall determine the need for an inspection of the health care institution. Based on the results of the inspection and after the submission of the applicable licensing fee, the director shall either deny the license or issue a regular or provisional license. A license issued by the department shall be posted in a conspicuous location in the reception area of that HEALTH CARE institution.

B. The director shall issue a license if the director determines that an applicant and the health care institution for which the license is sought substantially comply with the requirements of this chapter and rules adopted pursuant to this chapter and the applicant agrees to carry out a plan acceptable to the director to eliminate any deficiencies. The director shall not require a health care institution that was designated as a critical access hospital to make any modifications required by this chapter or rules adopted pursuant to this chapter in order to obtain an amended license with the same licensed capacity the health care institution had before it was designated as a critical access hospital if all of the following are true:

1. The health care institution has subsequently terminated its critical access hospital designation.

2. The licensed capacity of the health care institution does not exceed its licensed capacity before its designation as a critical access hospital.

3. The health care institution remains in compliance with the applicable codes and standards that were in effect at the time the facility was originally licensed with the higher licensed capacity.

C. A health care institution license does not expire and remains valid unless:

1. The department subsequently revokes or suspends the license.

2. The license is considered void because the licensee did not pay the licensing fee, CIVIL PENALTIES OR PROVIDER AGREEMENT FEES before the ~~licensing fee~~ RELEVANT due date OR DID NOT ENTER INTO AN AGREEMENT WITH THE DEPARTMENT BEFORE THE RELEVANT DUE DATE TO PAY ALL OUTSTANDING FEES OR CIVIL PENALTIES.

D. Except as provided in section 36-424, subsection B and subsection E of this section, the department shall conduct a compliance

inspection of a health care institution to determine compliance with this chapter and rules adopted pursuant to this chapter at least once annually.

E. If the department determines a facility, EXCEPT FOR A RESIDENTIAL CARE INSTITUTION OR A NURSING CARE INSTITUTION THAT DOES NOT HAVE THE SAME DIRECT OWNER OR INDIRECT OWNER AS A HOSPITAL LICENSED PURSUANT TO THIS CHAPTER, to be deficiency free on a compliance survey, the department shall not conduct a compliance survey of that facility for twenty-four months after the date of the deficiency free survey. This subsection does not prohibit the department from enforcing licensing requirements as authorized by section 36-424.

F. A hospital licensed as a rural general hospital may provide intensive care services.

G. The director shall issue a provisional license for a period of not more than one year if an inspection or investigation of a currently licensed health care institution or a health care institution for which an applicant is seeking a license reveals that the HEALTH CARE institution is not in substantial compliance with department licensure requirements and the director believes that the immediate interests of the patients and the general public are best served if the HEALTH CARE institution is given an opportunity to correct deficiencies. The applicant or licensee shall agree to carry out a plan to eliminate deficiencies that is acceptable to the director. The director shall not issue consecutive provisional licenses to a single health care institution. The director shall not issue a license to the current licensee or a successor applicant before the expiration of the provisional license unless the health care institution submits an application for a substantial compliance survey and is found to be in substantial compliance. The director may issue a license only if the director determines that the HEALTH CARE institution is in substantial compliance with the licensure requirements of the department and this chapter. This subsection does not prevent the director from taking action to protect the safety of patients pursuant to section 36-427.

H. Subject to the confidentiality requirements of articles 4 and 5 of this chapter, title 12, chapter 13, article 7.1 and section 12-2235, the licensee shall keep current department inspection reports at the health care institution. Unless federal law requires otherwise, the licensee shall post in a conspicuous location a notice that identifies the location at that HEALTH CARE institution where the inspection reports are available for review.

I. A health care institution shall immediately notify the department in writing when there is a change of the chief administrative officer specified in section 36-422, subsection A, paragraph 1, subdivision (g).

J. When the department issues an original license or an original provisional license to a health care institution, it shall notify the

owners and lessees of any agricultural land within one-fourth mile of the health care institution. The health care institution shall provide the department with the names and addresses of owners or lessees of agricultural land within one-fourth mile of the proposed health care institution.

K. In addition to the grounds for denial of licensure prescribed pursuant to subsection A of this section, the director may deny a license because an applicant or anyone in a business relationship with the applicant, including stockholders and controlling persons, has had a license to operate a health care institution denied, revoked or suspended or a license or certificate issued by a health profession regulatory board pursuant to title 32 or issued by a state agency pursuant to chapter 6, article 7 or chapter 17 of this title denied, revoked or suspended or has a licensing history of recent serious violations occurring in this state or in another state that posed a direct risk to the life, health or safety of patients or residents.

L. In addition to the requirements of this chapter, the director may prescribe by rule other licensure requirements.

Sec. 6. Section 36-431.01, Arizona Revised Statutes, is amended to read:

36-431.01. Violations; civil penalties; enforcement

A. The director may assess a civil penalty against a person who violates this chapter or a rule adopted pursuant to this chapter in an amount of not ~~to exceed five hundred dollars~~ MORE THAN $1,000 for each violation, WHICH MAY BE ASSESSED FOR EACH RESIDENT OR PATIENT WHO THE DEPARTMENT DETERMINES WAS IMPACTED BY THE VIOLATION. Each day that a violation occurs constitutes a separate violation.

B. The director may issue a notice of assessment that shall include the proposed amount of the assessment. A person may appeal the assessment by requesting a hearing pursuant to title 41, chapter 6, article 10. When an assessment is appealed, the director shall take no further action to enforce and collect the assessment until after the hearing.

C. In determining the AMOUNT OF THE civil penalty pursuant to subsection A of this section, the department shall ~~consider~~ ESTABLISH A MODEL IN RULE THAT CONSIDERS the following:

1. Repeated violations of statutes or rules.
2. Patterns of noncompliance.
3. Types of violations.
4. THE severity of violations.
5. THE potential for and occurrences of actual harm, INCLUDING TO PATIENTS, STAFF OR RESIDENTS.
6. Threats to health and safety, INCLUDING TO PATIENTS, STAFF OR RESIDENTS.
7. THE number of persons affected by the violations.
8. THE number of violations.

9. THE size of the facility.

10. THE length of time that the violations have been occurring.

11. THE TYPE OF HEALTH CARE INSTITUTION.

12. WHETHER THE HEALTH CARE INSTITUTION AND STAFF ARE IN COMPLIANCE WITH THE REPORTING REQUIREMENTS PURSUANT TO SECTION 46-454.

D. Pursuant to interagency agreement specified in section 36-409, the director may assess a civil penalty, including interest, in accordance with 42 United States Code section 1396r. A person may appeal this assessment by requesting a hearing before the director in accordance with subsection B of this section. Civil penalty amounts may be established by rules adopted by the director that conform to guidelines or regulations adopted by the secretary of the United States department of health and human services pursuant to 42 United States Code section 1396r.

E. Actions to enforce the collection of penalties assessed pursuant to subsections A and D of this section shall be brought by the attorney general or the county attorney in the name of the state in the justice court or the superior court in the county in which the violation occurred.

F. Penalties assessed under subsection D of this section are in addition to and not in limitation of other penalties imposed pursuant to this chapter. All civil penalties and interest assessed pursuant to subsection D of this section shall be deposited, PURSUANT TO SECTIONS 35-146 AND 35-147, in the nursing care institution resident protection revolving fund established by section 36-431.02. The director shall use these monies for the purposes prescribed by 42 United States Code section 1396r, including payment for the costs of relocation of residents to other facilities, maintenance of operation of a facility pending correction of the deficiencies or closure and reimbursement of residents for personal monies lost.

G. The department shall ~~transmit~~ DEPOSIT CIVIL penalties assessed under subsection A of this section ~~to~~ IN the state general fund.

Sec. 7. Section 36-446.02, Arizona Revised Statutes, is amended to read:

36-446.02. Board of examiners; terms; meetings; quorum; effect of vacancies; compensation

A. The board of examiners of nursing care institution administrators and assisted living facility managers is established consisting of eleven members appointed by the governor.

B. The board shall include:

1. One administrator who holds an active license issued pursuant to this article OR WHO IS RETIRED.

2. One ASSISTED LIVING FACILITY manager who holds an active license issued pursuant to this article OR WHO IS RETIRED.

3. One administrator of a nonprofit or faith-based skilled nursing facility WHO EITHER HOLDS AN ACTIVE LICENSE ISSUED PURSUANT TO THIS ARTICLE OR WHO IS RETIRED.

4. One administrator of a proprietary skilled nursing facility WHO EITHER HOLDS AN ACTIVE LICENSE ISSUED PURSUANT TO THIS ARTICLE OR WHO IS RETIRED.

5. Two managers of an assisted living center ~~as defined in section 36-401~~ WHO EITHER HOLD AN ACTIVE LICENSE ISSUED PURSUANT TO THIS ARTICLE OR WHO ARE RETIRED.

6. One manager of an assisted living home ~~as defined in section 36-401~~ WHO EITHER HOLDS AN ACTIVE LICENSE ISSUED PURSUANT TO THIS ARTICLE OR WHO IS RETIRED.

~~7. Two public members who are not affiliated with a nursing care institution or an assisted living facility.~~

~~8.~~ 7. One public member who represents an organization that advocates for the elderly.

~~9.~~ 8. One person who is a family member of a resident OR A PERSON WHO WAS A RESIDENT IN THE PREVIOUS THREE YEARS in either a skilled nursing facility or an assisted living facility at the time the person is appointed to the board.

9. ONE PERSON WHO IS A CURRENT OR FORMER RESIDENT OF A SKILLED NURSING FACILITY OR AN ASSISTED LIVING FACILITY.

10. ONE PUBLIC MEMBER WHO REPRESENTS AN ORGANIZATION THAT ADVOCATES FOR INDIVIDUALS WITH ALZHEIMER'S DISEASE, DEMENTIA OR OTHER RELATED NEUROCOGNITIVE DISEASES OR DISORDERS.

C. THE BOARD MAY NOT HAVE MORE THAN THREE BOARD MEMBERS WHO ARE APPOINTED PURSUANT TO SUBSECTION B, PARAGRAPHS 1 THROUGH 6 OF THIS SECTION AND WHO ARE RETIRED. EACH BOARD MEMBER SPECIFIED IN SUBSECTION B, PARAGRAPHS 1 THROUGH 6 OF THIS SECTION WHO IS RETIRED MUST HAVE HAD AN ACTIVE LICENSE ISSUED PURSUANT TO THIS ARTICLE WITHIN THE PREVIOUS TWO YEARS AT THE TIME OF APPOINTMENT TO THE BOARD AND MAY NOT HAVE HAD ANY DISCIPLINARY ACTION TAKEN AGAINST THE PERSON'S LICENSE OR HAD A LICENSE ISSUED PURSUANT TO THIS ARTICLE REVOKED.

~~C.~~ D. Board members who are not affiliated with a nursing care institution or an assisted living facility shall not have a direct financial interest in nursing care institutions or assisted living facilities.

~~D.~~ E. A board member shall not serve on any other board relating to long-term care during the member's term with the board.

~~E.~~ F. The term of a board member automatically ends when that member no longer meets the qualifications for appointment to the board. The board shall notify the governor of the board vacancy.

~~F.~~ G. Board members who are not affiliated with a nursing care institution or an assisted living facility shall be appointed for two-year terms. Board members who are the administrator of a nursing care institution or the manager of an assisted living facility shall be appointed for three-year terms.

~~G.~~ H. A board member shall not serve for more than two consecutive terms.

~~H.~~ I. The board shall meet at least twice a year.

~~I.~~ J. A majority of the board members constitutes a quorum.

~~J.~~ K. Board members are eligible to receive compensation as determined pursuant to section 38-611 for each day actually spent performing their duties under this chapter.

~~K.~~ L. A board member who is absent from three consecutive regular meetings or who fails to attend more than fifty percent of board meetings over the course of one calendar year vacates the board member's position. The board shall notify the governor of the vacancy.

Sec. 8. Section 46-452, Arizona Revised Statutes, is amended to read:

46-452. Protective services workers; powers and duties; immunity; communications; access to records

A. ~~A~~ EACH protective services worker shall:

1. Receive reports of abused, exploited or neglected vulnerable adults.

2. Receive from any source oral or written information regarding an adult who may be in need of protective services.

3. On receipt of such information make an evaluation to determine if the adult is in need of protective services and what services, if any, are needed.

4. Offer an adult in need of protective services or ~~his~~ THE ADULT'S guardian whatever services appear appropriate in view of the evaluation.

5. File petitions as necessary for the appointment of a guardian or conservator or the appointment of a temporary guardian or temporary conservator or make application for a special visitation warrant as provided for in title 14, chapter 5.

6. FILE FOR AN ORDER OF PROTECTION PURSUANT TO SECTION 13-3602 OR AN INJUNCTION AGAINST HARASSMENT PURSUANT TO SECTION 12-1809 AS A THIRD PARTY ON BEHALF OF THE VULNERABLE ADULT TO PREVENT AN ALLEGED PERPETRATOR FROM HAVING ACCESS TO THE VULNERABLE ADULT.

B. The department or a protective services worker employed by the department may not be appointed as guardian, conservator or temporary guardian.

C. An adult protective services worker is immune from civil liability for applying for a special visitation warrant or for filing a petition for guardianship or conservatorship unless the application or filing is done in bad faith.

D. For the purposes of this chapter, communications concerning a person who is incarcerated in any jail, prison, detention center or correctional facility or concerning a patient in the Arizona state hospital are not reports that require evaluation by a protective services worker.

E. THE DEPARTMENT OR A PROTECTIVE SERVICES WORKER, IN PERFORMING OFFICIAL DUTIES, MAY ACCESS LAW ENFORCEMENT RECORDS RELATED TO AN ADULT PROTECTIVE SERVICES CASE. A LAW ENFORCEMENT ENTITY SHALL FURNISH RELEVANT RECORDS TO ADULT PROTECTIVE SERVICES ON REQUEST.

Sec. 9. Section 46-454, Arizona Revised Statutes, is amended to read:

46-454. Duty to report abuse, neglect and exploitation of vulnerable adults; duty to make medical records available; violation; classification

A. A health professional, emergency medical technician, home health provider, hospital intern or resident, speech, physical or occupational therapist, long-term care provider, social worker, peace officer, medical examiner, guardian, conservator, fire protection personnel, developmental disabilities provider, employee of the department of economic security or other person who has responsibility for the care of a vulnerable adult and who has a reasonable basis to believe that abuse, neglect or exploitation of the VULNERABLE adult has occurred shall immediately report or cause reports to be made of such reasonable basis to a peace officer or to the adult protective services central intake unit. The guardian or conservator of a vulnerable adult shall immediately report or cause reports to be made of such reasonable basis to the superior court and the adult protective services central intake unit. ~~All of~~ The ~~above~~ reports REQUIRED BY THIS SUBSECTION shall be made immediately by telephone or online.

B. If an individual listed in subsection A of this section is an employee or agent of a health care institution as defined in section 36-401 and the health care institution's procedures require that all suspected abuse, neglect and exploitation be reported to adult protective services as required by law, the individual is deemed to have complied with the requirements of subsection A of this section by reporting or causing a report to be made to the health care institution in accordance with the health care institution's procedures.

C. An attorney, accountant, trustee, guardian, conservator or other person who has responsibility for preparing the tax records of a vulnerable adult or a person who has responsibility for any other action concerning the use or preservation of the vulnerable adult's property and who, in the course of fulfilling that responsibility, discovers a reasonable basis to believe that abuse, neglect or exploitation of the VULNERABLE adult has occurred shall immediately report or cause reports to be made of such reasonable basis to a peace officer or to the adult protective services central intake unit. ~~All of~~ The ~~above~~ reports REQUIRED BY THIS SUBSECTION shall be made immediately by telephone or online.

D. Reports pursuant to subsections A and C of this section shall contain:

1. The names and addresses of the VULNERABLE adult and any persons having control or custody of the VULNERABLE adult, if known.

2. The VULNERABLE adult's age and the nature and extent of the VULNERABLE adult's vulnerability.

3. The nature and extent of the abuse, neglect or exploitation.

4. Any other information that the person reporting believes might be helpful in establishing the cause of the abuse, neglect or exploitation.

E. Any person other than one required to report or cause reports to be made ~~in~~ PURSUANT TO subsection A or C of this section who has a reasonable basis to believe that abuse, neglect or exploitation of a vulnerable adult has occurred may report the information to a peace officer or to the adult protective services central intake unit.

F. A person having custody or control of medical or financial records of a vulnerable adult for whom a report is required or authorized under this section shall make those records, or a copy of those records, available to a peace officer or adult protective services worker investigating the vulnerable adult's abuse, neglect or exploitation on written request for the records signed by the peace officer or adult protective services worker. Records disclosed pursuant to this subsection are confidential and may be used only in a judicial or administrative proceeding or investigation resulting from a report required or authorized under this section.

G. If reports pursuant to this section are received by a peace officer, the peace officer shall notify the adult protective services central intake unit as soon as possible and make that information available to them, INCLUDING ALL RELATED POLICE RECORDS. A PEACE OFFICER SHALL PROVIDE THE INFORMATION TO ADULT PROTECTIVE SERVICES AS SOON AS POSSIBLE.

H. A person required to receive reports pursuant to subsection A, C or E of this section may take or cause to be taken photographs of the abused VULNERABLE adult and the vicinity involved. Medical examinations, including radiological examinations of the involved VULNERABLE adult, may be performed. Accounts, inventories or audits of the exploited VULNERABLE adult's property may be performed. The person, department, agency or court that initiates the photographs, examinations, accounts, inventories or audits shall pay the associated costs in accordance with existing statutes and rules. If any person is found to be responsible for the abuse, neglect or exploitation of a vulnerable adult in a criminal or civil action, the court may order the person to make restitution as the court deems appropriate.

I. If psychiatric records are requested pursuant to subsection F of this section, the custodian of the records shall notify the attending

psychiatrist, who may excise from the records, before they are made available:

1. Personal information about individuals other than the patient.

2. Information regarding specific diagnosis or treatment of a psychiatric condition, if the attending psychiatrist certifies in writing that release of the information would be detrimental to the patient's health or treatment.

J. If any portion of a psychiatric record is excised pursuant to subsection I of this section, a court, on application of a peace officer or adult protective services worker, may order that the entire record or any portion of the record containing information relevant to the reported abuse, neglect or exploitation be made available to the peace officer or adult protective services worker investigating the abuse, neglect or exploitation.

K. A licensing agency shall not find that a reported incidence of abuse at a care facility by itself is sufficient grounds to allow the agency to close the facility or to find that all residents are in imminent danger.

L. Retaliation against a person who in good faith reports abuse, neglect or exploitation is prohibited. Retaliation against a vulnerable adult who is the subject of a report is prohibited. Any adverse action taken against a person who reports abuse, neglect or exploitation or a vulnerable adult who is the subject of the report within ninety days after the report is filed is presumed to be retaliation.

M. A person who violates this section is guilty of a class 1 misdemeanor, except THAT if the failure to report involves an offense listed in title 13, chapter 14, the person is guilty of a class 6 felony.

Sec. 10. Vulnerable adult system study committee; membership; duties; report; delayed repeal

A. The vulnerable adult system study committee is established consisting of the following members:

1. Two members of the house of representatives who are appointed by the speaker of the house of representatives and who are members of different political parties. The speaker of the house of representatives shall designate one of these members to serve as cochairperson of the committee.

2. Two members of the senate who are appointed by the president of the senate and who are members of different political parties. The president of the senate shall designate one of these members to serve as cochairperson of the committee.

3. The director of the department of health services or the director's designee.

4. The director of the department of economic security or the director's designee.

5. The director of the Arizona health care cost containment system or the director's designee.

6. One member who represents the governor's office and who is appointed by the governor.

7. One member who represents the attorney general's office and who is appointed by the attorney general.

8. One member who currently serves as the department of economic security's long-term care ombudsman or the ombudsman's designee.

9. One member who currently serves as a public fiduciary and who is appointed by the governor.

10. Two members who are employed by a local law enforcement agency or who are employed by a statewide organization that represents law enforcement and who are appointed by the governor.

11. The executive director of the Navajo area agency on aging or the executive director's designee.

12. The executive director of the intertribal council of Arizona or the executive director's designee.

13. Two members who represent assisted living facilities and who are appointed by the speaker of the house of representatives.

14. Two members who represent nursing care institutions and who are appointed by the governor.

15. One member who represents a statewide organization that advocates for elderly vulnerable adults and who is appointed by the president of the senate.

16. One member who represents a statewide organization that advocates on behalf of persons affected by Alzheimer's disease and who is appointed by the president of the senate.

17. One member who represents a statewide association that advocates on behalf of persons who provide services to persons with developmental disabilities and who is appointed by the speaker of the house of representatives.

18. One health care professional who is appointed by the speaker of the house of representatives and who both:

(a) Is licensed pursuant to title 32, Arizona Revised Statutes.

(b) Provides health care services to elderly vulnerable adults.

19. One member who is on the governor's advisory council on aging and who is appointed by the governor.

20. One member who represents a statewide association representing firefighters in this state and who is appointed by the president of the senate.

B. The vulnerable adult system study committee shall:

1. Develop and implement a coordinated vulnerable adult delivery system that ensures the health and safety of vulnerable adults.

2. Recommend best practices relating to responding to and investigating complaints.

3. Research best practices related to adult protective services at the state, municipality and community levels.

4. Research and make recommendations on how the vulnerable adult system can ensure that vulnerable adults receive services they require after the vulnerable adult system completes its investigatory duties, including assigning a specific agency with the responsibility to provide or coordinate case management.

5. Research and identify common statewide outcomes.

6. Identify best practices for data collection and data sharing by various entities involved in providing vulnerable adult services.

7. Review and recommend changes to the statutes and rules that govern vulnerable adult services.

C. The cochairpersons may designate work groups to research, study and make recommendations to the study committee. At least two work groups shall be established to separately address the needs of persons with developmental disabilities and persons who are elderly or who have a physical disability, including the training requirements for persons who are caring for these populations.

D. Once a strategic direction is established, the department of economic security, in conjunction with the work groups, shall develop an action plan for implementation.

E. Public members are eligible to receive reimbursement of expenses pursuant to title 38, chapter 4, article 2, Arizona Revised Statutes.

F. On or before December 31, 2024, the study committee shall provide a status update of its progress, including any recommended statutory changes, to the members of the health and human services committees of the house of representatives and the senate, or their successor committees. On or before October 1, 2025, the study committee shall submit a report of its findings and recommendations to the governor, the president of the senate and the speaker of the house of representatives and shall provide a copy of this report to the secretary of state.

G. This section is repealed from and after December 31, 2025.

Sec. 11. Rulemaking

The department of health services shall adopt rules to implement this act.

Sec. 12. Effective date

Section 36-405.03, Arizona Revised Statutes, as added by this act, is effective from and after June 30, 2025.

E-1.

DEPARTMENT OF ENVIRONMENTAL QUALITY
Title 18, Chapter 13, Articles 2-5, 7-8, 11-14, 16, 19- 22

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 13, 2025

SUBJECT: **DEPARTMENT OF ENVIRONMENTAL QUALITY**
Title 18, Chapter 13, Articles 2-5, 7-8, 11-14, 16, 19- 22

Summary

This Five-Year Review Report (5YRR) from the Department of Environmental Quality (Department) relates to ninety-eight (98) rules in Title 18, Chapter 13 regarding Solid Waste Management. Specifically, the report covers the following Articles:

- Article 2 - Solid Waste Definitions; Exemptions
- Article 3 - Refuse and Other Objectionable Wastes
- Article 4 - Solid Waste Facilities Subject to Best Management Practices
- Article 5 - Requirements for Solid Waste Facilities Subject To Self-Certification
- Article 7 - Solid Waste Facility Plan Review Fees
- Article 8 - General Permits
- Article 11 - Collection, Transportation and Disposal of Human Excreta
- Article 12 - Waste Tires, Used Tires
- Article 13 - Special Waste And Best Management Practices For Shredder Residue
- Article 14 - Biohazardous Medical Waste and Discarded Drugs
- Article 16 - Best Management Practices for Petroleum Contaminated Soil
- Article 19 - Lead Acid Battery Recycling
- Article 20 - Used Oil
- Article 21 - Solid Waste Landfill Registration Fees

- Article 22 - New Tire Sellers

In the prior 5YRR for these rules, which was approved by the Council in March 2020, the Department proposed to amend numerous rules as outlined in Section 10 of the current report. The Department indicates it completed all proposed changes to the rules except for amendments to rules in Article 3 related to Refuse and Other Objectional Wastes. The Department indicates as it conducted initial evaluations of Article 3 and conducted a more limited update of the frequency of collection requirement in R18-13-308, it became apparent that a broader rulemaking to update and modernize the entirety of the now 50-year-old rules would require substantial resources and time commitments in order to properly evaluate potential impacts on stakeholders and local authorities who have developed decades of policies and procedures based on the requirements of the Article. The Department states, at the same time, the potential benefits and impacts of such an undertaking remain unclear. Weighing the costs of such a rulemaking against the uncertain impacts, the Department indicates it prioritized other rulemakings it determined to have greater impact on public health and the environment. The Department states it plans to convene cities, counties, and stakeholders in early 2025 to assess potential updates or modifications to Article 3 and whether a single rulemaking or multiple rulemakings would be appropriate.

Proposed Action

In the current report, the Department indicates it will begin work on an expedited rulemaking for Chapter 13 to incorporate recommendations made in Sections 4 and 6 of the report. Specifically, the Department indicates it will update the incorporations by reference outlined in Section 4 of this report to incorporate the listed EPA rulemakings, and any subsequent EPA rulemakings, and will incorporate the changes listed in Section 6 of this report to improve clarity of the rules. The Department anticipates conducting this expedited rulemaking in the middle of 2025, to be completed by the end of that year. Additionally, following this 5YRR, the Department states it plans to convene cities, counties, and stakeholders after this to assess potential updates or modifications to Article 3 and whether a single rulemaking or multiple rulemakings would be appropriate, as described in Section 10 of the report.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states that due to increasing costs resulting primarily from population growth and inflation, the Solid Waste Program fees were no longer sufficient to cover critical regulatory functions, resulting in budgetary shortfall. The Department indicates that the Arizona Legislature recognized the need to remedy those shortfalls, and passed HB 2367 in 2024, which granted the Department the authority to adjust existing fees and establish new fees in order to

maintain self-sufficiency within the Solid Waste Program. The Department outlined the economic impacts as follows:

- The Department believes the impact of the exemptions in Article 2 is deregulatory and continues to result in less regulatory costs.
- The Department believes the economic impacts of Article 3 today are no greater than those when the Article was created in relation to the day to day and month to month expenses at that time.
- The Department believes the probable economic impacts of Article 4, Article 5, Article 7, Article 8, Article 11, Article 12, Article 13, Article 14, Article 16, Article 19, Article 20, Article 21, and Article 22 on the state's economy, small business and consumers described in the 2024 Economic Impact Statement (EIS) remain accurate and have not changed since the effective date.

According to the Department, stakeholders directly affected by the rules include all 15 counties within the state, local municipalities, and the approximately 2,000 solid waste facilities and entities with different media types subject to Department regulatory compliance and oversight under Solid Waste Management, as well as the general public.

3. <u>Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?</u>

The Department has provided the following information regarding the probable benefits and probable costs of the rules:

- The Department believes the benefits clearly outweigh the costs given the negligible costs of Article 2's rules.
- The Department believes the benefits of the rules in Article 3 outweigh the costs because it is a priority of the state to ensure refuse and other objectionable waste do not pose hazards to public health and do not create environmental nuisances.
- The Department has determined that the costs of Article 4 and Article 5 rules are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.
- The Department has determined that Article 7 benefits outweigh the costs because it is a priority of the state to ensure solid waste facilities meet standards necessary to protect public health.
- The Department has determined that the costs of Article 8 are outweighed by its benefits, particularly given the reduced regulatory burden associated with general permits, because it is a priority of the State to monitor waste generated from landfills at mining operations.
- The Department has determined the costs of Article 11's rules are outweighed by their benefits because it is a priority to ensure sewage and human excreta collection, transport, and disposal does not cause hazards to public health nor create environmental nuisances.
- The Department has determined the costs of Article 12 are outweighed by their benefits because it is a priority of the State to ensure waste tires are properly handled and disposed of and do not create hazards to the public health.

- The Department has determined that the costs of Article 13 are outweighed by their benefits because it is a priority of the State to monitor these special wastes to protect public health.
- The Department has determined that the costs of Article 14 are outweighed by their benefits because it is a priority of the State to prevent biohazardous medical wastes from becoming hazards to public health.
- The Department has determined that the costs of Article 16 are outweighed by their benefits because it is a priority of the State to prevent Petroleum Contaminated Soil (PCS) from posing a hazard to public health.
- The Department has determined that the costs of Article 19, Article 20, Article 21, and Article 22 are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.

4. Has the agency received any written criticisms of the rules over the last five years?

While the Department indicates it has engaged in significant stakeholder engagement, including public meetings, sharing informational documents, and public comment, related to rulemakings in 2021, 2022, and 2024 involving Title 18, Chapter 13 rules, it received no written criticisms during either the informal or formal comment periods for these rulemakings, and has not received any other written criticisms of the rules within the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are mostly clear, concise, and understandable except for the following rules for which minor clarifications could be made:

- **R18-13-1301**
  - The definition of "Off-site" in this section refers to the definition of "On site" in A.R.S. § 49-851(3). However the definition for "On site" in A.R.S. § 49-851 is under subsection A(2). This reference should be updated for clarity and accuracy.
  - The definition of "Recycling" in this section refers to the definition of recycling in A.R.S. § 49-831(21). However, recycling is defined in A.R.S. § 49-831(15). This reference should be updated for clarity and accuracy.
- **R18-13-1401**
  - The incorporations by reference in the definition of "dedicated vehicle", and in the definition of "universal biohazardous symbol" can be updated to the most recent version of the CFR. As of the date of this report, referenced sections of the CFR have not been changed since the last update to Chapter 13's incorporation by reference, so updating the references will not alter the substance of the rule.
- **R18-13-1406**
  - The reference to 49 CFR 172.201 in Section B can be updated to the most recent version of the CFR. As of the date of this report, the referenced section of the CFR has not been changed since the last update Chapter 13 incorporations by reference, so updating the reference will not alter the substance of the rule.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates that certain references to federal rules in Chapter 13 are outdated and do not account for rulemakings promulgated by the U.S. Department of Transportation (USDOT). The Department indicates it conducts rule updates periodically in order to ensure consistency with state and federal rules and statutes. However, since the last such rulemaking was conducted in 2020, the USDOT has promulgated several rulemakings altering portions of the CFR referenced in rule R18-13-1406(B)(2). The Department indicates it will update the incorporations by reference impacted by these USDOT rulemakings in order to maintain consistency with federal law. Specifically, the following rules are not consistent with other rules or statute as described above:

- **R18-13-501**
  - Pursuant to A.R.S. § 49-761, ADEQ has an unfulfilled statutory mandate to enact regulations for measured, enforceable, and effective design and operation and financial responsibility standards and requirements for solid waste transfer facilities.
- **R18-13-1406**
  - Subsection B(2) references 49 CFR 172.300 through 172.338, revised as of October 1, 2020. The references in this rule are not consistent with the current version of the CFR as updated by the USDOT regulations referenced above.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are currently enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates the following Articles contain rules with corresponding federal law, but states the rules are not more stringent than that corresponding federal law:

- **Article 8:**
  - The provisions of the general permit in R18-13-802 apply the solid waste standards of 40 CFR 257 and may not be more stringent, per A.R.S. § 49-761(C). They are thus equivalent to federal law.
- **Article 14:**
  - Article 14 corresponds in part with 29 CFR 1910.1030, Bloodborne pathogens; 49 CFR 173.197, Regulated Medical Waste; and 40 CFR 266.505, Prohibition on Sewering Hazardous Pharmaceuticals. The rules in Article 14 are not more stringent than corresponding federal law.

- **Article 20:**
    - Article 20 corresponds in part with 42 USC 6935, Restrictions on Recycled Oil, as amended on January 1,1997 and 40 CFR 279, Standards for the Management of USed Oil. The rules in Article 20 are not more stringent than corresponding federal law.

10. <u>For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?</u>

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

The Department indicates the following rules require the issuance of a permit, license, or agency authorization:

- **Article 8:**
    - The rules in Article 8 were adopted after July 29, 2010. R18-13-801establishes fees for operation under general permit as established in R18-13-802. R18-13-802 establishes a general permit in compliance with A.R.S. § 41-1037.
- **Article 11:**
    - All of the rules in Article 11 were adopted before July 29, 2010 except for R18-13-1103, General Requirements; License Fees. A general permit would not be technically feasible, per A.R.S. § 41-1037(A)(3), for the licensing of septage hauling vehicles subject to R18-13-1103 because the authorizing statute, A.R.S. § 49- 104(B)(14), provides for the inspection of each vehicle. Whereas a general permit would list elements necessary and conditions prohibited for a vehicle transporting medical waste and allow the vehicle to be licensed upon the owner's statement that the vehicle qualified, the inspection by ADEQ personnel results in an approve or deny decision based on the presentation of that specific vehicle. Vehicle inspections require what is essentially an individual permit.
- **Article 12:**
    - All of the rules in Article 12 were adopted before July 29, 2010 except R18-13-1211, R18-13-1212, and R18-13-213. R18-13-1211 and R18-13-1212 result in "issuance" of an agency authorization. Pursuant to A.R.S. § 41-1037(A)(2), the registration before operation required by these rules is an alternative type of authorization specifically authorized by state statute (A.R.S. §

44-1303(B) in the case of R18-13-1211 and A.R.S. § 44-1304.01 in the case of R18-13-1212).

- **Article 14:**
  - R18-13-1405, R18-13-1416, and R18-13-1420 were adopted before July 29, 2010. R18-13-1401, R18-13-1402, R18-13-1403, R18-13-1406, R18-13-1407, R18-13-1408, R18-13-1418, and R18-13-1419 were amended after July 29, 2010, but do not require issuance of an agency permit, license, or authorization. R18-13-1409 was amended after July 29, 2010, and requires issuance of an agency authorization. Pursuant to A.R.S. § 41-1037(A)(3), the use of a general permit is technically infeasible in R18-13-1409 because transporters meet the requirements for licensing through criteria and information specific to their vehicles. Therefore, individual processing is required in order to issue licenses and conduct inspections. The transporters pay fees according to that processing, capped at a maximum fee. R18-13-1410 contains a license to which the requirements of R18-13-1411, R18-13-1412, R18-13-1413, and R18-13-1417 apply, and to which R18-13-1414 and R18-13-1415 provide alternatives to. However, A.R.S. § 49-762(A)(3) requires individual solid waste facility plans for medical waste facilities. Therefore, it is not possible to utilize a general permit for a license under R18-13-1410 or its associate rules.
- **Article 16:**
  - R18-13-1601, R18-13-1605, R18-13-1609, R18-13-1611, R18-13-1612, R18-13-1614 were adopted before July 29, 2010. R18-13-1602, R18-13-1603, R18-13-1604, R18-13-1608, R18-13-1613 were amended after July 29, 2010, but do not require issuance of an agency permit, license, or authorization. R18-13-1607 and R18-13-1610 were amended after July 29, 2010 and require a permit. A.R.S. § 41-1037 does not apply to these permits (special waste treatment, storage or disposal facility plan approvals) because the facilities are not substantially similar in nature. See also A.R.S. § 49-706(A)(1)(b). This conclusion is supported by the fact that the legislature specifically authorized an alternative type of license for these facilities in A.R.S. §§ 49-762(A)(4) and 49-858, which makes a general permit not applicable under A.R.S. § 41-1037(A)(2).

Council staff believes the Department is in compliance with A.R.S. § 41-1037.

11. Conclusion

This 5YRR from the Department relates to ninety-eight (98) rules in Title 18, Chapter 13 regarding Solid Waste Management. The Department indicates it will begin work on an expedited rulemaking for Chapter 13 to incorporate recommendations made in Sections 4 and 6 of the report. Specifically, the Department indicates it will update the incorporations by reference outlined in Section 4 of this report to incorporate the listed EPA rulemakings, and any subsequent EPA rulemakings, and will incorporate the changes listed in Section 6 of this report to improve clarity of the rules. The Department anticipates conducting this expedited rulemaking in the middle of 2025, to be completed by the end of that year. Additionally,

following this 5YRR, the Department states it plans to convene cities, counties, and stakeholders after this to assess potential updates or modifications to Article 3 and whether a single rulemaking or multiple rulemakings would be appropriate, as described in Section 10 of the report.

Council staff recommends approval of this report.

Arizona Department of Environmental Quality
