R18-11-217. Best Management Practices for non-WOTUS Protected Surface Waters

A. The BMPs described in this rule are intended to ensure that activities within the ordinary high-water mark of perennial or intermittent non-WOTUS protected surface waters, or within the bed and bank of other waters that materially impact (i.e., are within 1/4 mile upstream of) non-WOTUS protected surface waters, do not violate applicable surface water quality standards in the non-WOTUS protected surface waters. For purposes of this Section, the activities described in the prior sentence will be referred to as "regulated activities." Depending on the regulated activities conducted, not all of the BMPs described below may be applicable to a particular project. The owner or operator is responsible to consider the BMPs outlined below and to implement those necessary to ensure that the regulated activities will not violate applicable surface water quality standards in the non-WOTUS protected surface water.

B. The BMPs described below are not applicable to any activities that are addressed under an individual or general AZPDES permit that are otherwise regulated under A.R.S. Title 49.

C. Erosion and sedimentation control BMPs:

1. When flow is present in any non-WOTUS protected surface waters within a project area, flow shall not be altered except to prevent erosion or pollution of any non-WOTUS protected surface waters.
2. Any disturbance within the ordinary high-water mark of non-WOTUS protected surface waters or within the bed and banks of other waters, that is not intended to be permanently altered, shall be stabilized as soon as practicable to prevent erosion and sedimentation.
3. When flow in any non-WOTUS protected surface water is sufficient to erode, carry, or deposit material, regulated activities shall cease until:
   a. The flow decreases below the point where sediment movement ceases; or
   b. Control measures have been undertaken, i.e., equipment and material easily transported by flow are protected within non-erodible barriers or moved outside the flow area.
4. Silt laden or turbid water resulting from regulated activities should be managed in a manner to reduce sediment load prior to discharging.
5. No washing or dewatering of fill material should occur within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters. Other than the replacement of native fill or material used to support vegetation rooting or growth, fill placed within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface water must resist washout whether such resistance is derived via particle size limits, presence of a binder, vegetation, or other armoring.

D. Pollutant management BMPs:

1. If regulated activities are likely to violate applicable surface water quality standards in a perennial or intermittent non-WOTUS protected surface water, operations shall cease until the problem is resolved or until control measures have been implemented.
2. Construction material and/or fill (other than native fill or that necessary to support revegetation) placed within surface waters as a result of regulated activities shall not include pollutants in concentrations that will violate applicable surface water quality standards in a perennial or intermittent non-WOTUS protected surface water.

E. Construction phase BMPs:

1. Equipment staging and storage areas or fuel, oil, and other petroleum products storage and solid waste containment should not be located within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface water.
2. Any equipment maintenance, washing, or fueling shall not be done within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters with the following exception: Equipment too large or unwieldy to be readily moved, such as large cranes, may be fueled and serviced in non-WOTUS protected surface waters (but outside of standing or flowing water) provided material specifically manufactured and sold as spill containment is in place during fueling/servicing.
3. All equipment shall be inspected for leaks, all leaks shall be repaired, and all repaired equipment shall be cleaned to remove any fuel or other fluid residue prior to use within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters.
4. Washout of concrete handling equipment shall not take place within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters.

F. Post-construction BMPs:

1. Upon completion of regulated activities, areas within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters shall be promptly cleared of all forms, piling, construction residues, equipment, debris, or other obstructions.
2. If fully, partially, or occasionally submerged structures are constructed of cast-in-place concrete instead of precast concrete, steps will be taken using sheet piling or temporary dams to prevent contact between water (instream and runoff) and the concrete until it cures and until any curing agents have evaporated or are no longer a pollutant threat.
3. Any permanent water crossings within the ordinary high-water mark of any perennial or intermittent in a non-WOTUS protected surface water (other than fords) shall

not be equipped with gutters, drains, scuppers, or other conveyances that allow untreated runoff (due to events equal to or lesser in magnitude than the design event for the crossing structure) to directly enter a non-WOTUS protected surface water if such runoff can be directed to a local stormwater drainage, containment, and/or treatment system.

4. Debris shall be cleared as needed from culverts, ditches, dips, and other drainage structures within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface water to prevent clogging or conditions that may lead to a washout.
5. Temporary structures constructed or imported materials shall be removed no later than upon completion of the regulated activities.
6. Temporary structures constructed of native materials, if they provide an obstacle to flow or can contribute to or cause erosion, or cause changes in sediment load, shall be removed no later than upon completion of the regulated activities.

G. Design consideration BMPs:

1. All temporary structures constructed of imported materials and all permanent structures, including but not limited to, access roadways, culvert crossings, staging areas, material stockpiles, berms, dikes, and pads, shall be constructed so as to accommodate overtopping and resist washout by streamflow.
2. Any temporary crossing, other than fords on native material, shall be constructed in such a manner so as to provide armoring of the stream channel. Materials used to provide this armoring shall not include anything easily transportable by flow. Examples of acceptable materials include steel plates, untreated wooden planks, pre-cast concrete planks or blocks. Examples of unacceptable materials include clay, silt, sand, and gravel finer than cobble (roughly fist-sized). The armoring shall, via mass, anchoring systems, or a combination of the two, resist washout.

H. Notification. The owner or operator of any regulated activities shall, five days prior to initiation of the regulated activities, submit a notice to ADEQ on a form that includes basic information including the GPS location, the waterbody ID of the nearest non-WOTUS protected surface water, general description of planned activities, types of BMPs to be employed during the project, and phone number and email for a contact person. Work may proceed after five calendar days have passed since the owner/operator provided notification to ADEQ unless ADEQ responds in writing to the contact person for the owner/operator.

I. Exclusions: The BMPS and notification requirements in this Section shall not apply to:

1. Activities that are already regulated under A.R.S. Title 49.
2. Discharges to a non-WOTUS protected surface water incidental to a recharge project.
3. Established or ongoing farming, ranching and silviculture activities such as plowing, seeding, cultivating, minor drainage or harvesting for the production of food, fiber or forest products or upland soil and water conservation practices.
4. Maintenance but not construction of drainage ditches.
5. Construction and maintenance of irrigation ditches.
6. Maintenance of structures as dams, dikes, and levees.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

Appendix A. Repealed

Historical Note

Former Section R9-21-208, Appendices 1 through 9 renumbered and amended as new Appendix A adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Appendix repealed effective February 18, 1992 (Supp. 92-1).

Appendix B. Repealed

Historical Note

Former R9-21-209, Table 1 and Table 2 renumbered and amended as Appendix B adopted effective January 7, 1985 (Supp.85-1). Amended effective August 12, 1986 (Supp. 86-4). Appendix repealed effective February 18, 1992 (Supp. 92-1).

ARTICLE 3. RECLAIMED WATER QUALITY STANDARDS

R18-11-301. Definitions

The terms in this Article have the following meanings:

"Direct reuse" has the meaning prescribed in R18-9-701(1).

"Disinfection" means a treatment process that uses oxidants, ultraviolet light, or other agents to kill or inactivate pathogenic organisms in wastewater.

"Filtration" means a treatment process that removes particulate matter from wastewater by passage through porous media.

"Gray water" means wastewater, collected separately from a sewage flow, that originates from a clothes washer, bathtub, shower, or sink, but it does not include wastewater from a kitchen sink, dishwasher, or a toilet.

"Industrial wastewater" means wastewater generated from an industrial process.

"Landscape impoundment" means a manmade lake, pond, or impoundment of reclaimed water where swimming, wading, boating, fishing, and other water-based recreational activities are prohibited. A landscape impoundment is created for storage, landscaping, or for aesthetic purposes only.

"NTU" means nepholometric turbidity unit.

"On-site wastewater treatment facility" has the meaning prescribed in A.R.S. § 49-201(24).

"Open access" means that access to reclaimed water by the general public is uncontrolled.

"Reclaimed water" has the meaning prescribed in A.R.S. § 49-201(31).

"Recreational impoundment" means a manmade lake, pond, or impoundment of reclaimed water where boating or fishing is an intended use of the impoundment. Swimming and other full-body recreation activities (for example, water-skiing) are prohibited in a recreational impoundment.

"Restricted access" means that access to reclaimed water by the general public is controlled.

"Secondary treatment" means a biological treatment process that achieves the minimum level of effluent quality defined by the federal secondary treatment regulation at 40 CFR § 133.102.

"Sewage" means untreated wastes from toilets, baths, sinks, lavatories, laundries, and other plumbing fixtures in places of human habitation, employment, or recreation.

Historical Note

Adopted effective July 9, 1981 (Supp. 81-4). Former Section R9-21-301 renumbered without change as Section R18-11-301 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-302. Applicability

This Article applies to the direct reuse of reclaimed water, except for:

1. The direct reuse of gray water, or
2. The direct reuse of reclaimed water from an onsite wastewater treatment facility regulated by a general Aquifer Protection Permit under 18 A.A.C. 9, Article 3.

Historical Note

Adopted effective June 8, 1981 (Supp. 81-3). Amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-302 renumbered without change as Section R18-11-302 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-303. Class A+ Reclaimed Water

A. Class A+ reclaimed water is wastewater that has undergone secondary treatment, filtration, nitrogen removal treatment, and disinfection. Chemical feed facilities to add coagulants or polymers are required to ensure that filtered effluent before disinfection complies with the 24-hour average turbidity criterion prescribed in subsection (B)(1). Chemical feed facilities may remain idle if the 24-hour average turbidity criterion in (B)(1) is achieved without chemical addition.

B. An owner of a facility shall ensure that:

1. The turbidity of Class A+ reclaimed water at a point in the wastewater treatment process after filtration and immediately before disinfection complies with the following:
   a. The 24-hour average turbidity of filtered effluent is two NTUs or less, and
   b. The turbidity of filtered effluent does not exceed five NTUs at any time.
2. Class A+ reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
   a. There are no detectable fecal coliform organisms in four of the last seven daily reclaimed water samples taken, and
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 23 / 100 ml.
   c. If alternative treatment processes or alternative turbidity criteria are used, or reclaimed water is blended with other water to produce Class A+ reclaimed water under subsection (C), there are no detectable enteric virus in four of the last seven monthly reclaimed water samples taken.
3. The 5-sample geometric mean concentration of total nitrogen in a reclaimed water sample is less than 10 mg / L.

C. An owner of a facility may use alternative treatment methods other than those required by subsection (A), or comply with alternative turbidity criteria other than those required by subsection (B)(1), or blend reclaimed water with other water to produce Class A+ reclaimed water provided the owner demonstrates through pilot plant testing, existing water quality data, or other means that the alternative treatment methods, alternative turbidity criteria, or blending reliably produces a reclaimed water that meets the disinfection criteria in subsection (B)(2) and the total nitrogen criteria in subsection (B)(3) before discharge to a reclaimed water distribution system.

D. Class A+ reclaimed water is not required for any type of direct reuse. A person may use Class A+ reclaimed water for any type of direct reuse listed in Table A.

Historical Note

Adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Former Section R9-21-303 renumbered without change as Section R18-11-303 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-304. Class A Reclaimed Water

A. Class A reclaimed water is wastewater that has undergone secondary treatment, filtration, and disinfection. Chemical feed facilities to add coagulants or polymers are required to ensure that filtered effluent before disinfection complies with the 24-hour average turbidity criterion prescribed in subsection (B)(1). Chemical feed facilities may remain idle if the 24-hour average turbidity criterion in subsection (B)(1) is achieved without chemical addition.

B. An owner of a facility shall ensure that:

1. The turbidity of Class A reclaimed water at a point in the wastewater treatment process after filtration and immediately before disinfection complies with the following:
   a. The 24-hour average turbidity of filtered effluent is two NTUs or less, and
   b. The turbidity of filtered effluent does not exceed five NTUs at any time.
2. Class A reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
   a. There are no detectable fecal coliform organisms in four of the last seven daily reclaimed water samples taken, and
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 23 / 100 ml.
   c. If alternative treatment processes or alternative turbidity criteria are used, or reclaimed water is blended with other water to produce Class A reclaimed water under subsection (C), there are no detectable enteric virus in four of the last seven monthly reclaimed water samples taken.

C. An owner of a facility may use alternative treatment methods other than those required by subsection (A), or comply with alternative turbidity criteria other than those required by subsection (B)(1), or blend reclaimed water with other water to produce Class A reclaimed water provided the owner demonstrates through pilot plant testing, existing water quality data, or other means that the alternative treatment methods, alternative turbidity criteria, or blending reliably produces a reclaimed water that meets the disinfection criteria in subsec-

tion (B)(2) before discharge to a reclaimed water distribution system.

D. A person shall use Class A reclaimed water for a type of direct reuse listed as Class A in Table A. A person may use Class A reclaimed water for a type of direct reuse listed as Class B or Class C in Table A.

Historical Note
Adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Former Section R9-21-304 renumbered without change as Section R18-11-304 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-305. Class B+ Reclaimed Water

A. Class B+ reclaimed water is wastewater that has undergone secondary treatment, nitrogen removal treatment, and disinfection.

B. An owner of a facility shall ensure that:
1. Class B+ reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
   a. The concentration of fecal coliform organisms in four of the last seven daily reclaimed water samples is less than 200 / 100 ml.
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 800 / 100 ml.
2. The 5-sample geometric mean concentration of total nitrogen in a reclaimed water sample is less than 10 mg / L.

C. Class B+ reclaimed water is not required for a type of direct reuse. A person may use Class B+ reclaimed water for a type of direct reuse listed as Class B or Class C in Table A. A person shall not use Class B+ reclaimed water for a type of direct reuse listed as Class A in Table A.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-306. Class B Reclaimed Water

A. Class B reclaimed water is wastewater that has undergone secondary treatment and disinfection.

B. An owner of a facility shall ensure that Class B reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
1. The concentration of fecal coliform organisms in four of the last seven daily reclaimed water samples is less than 200 / 100 ml.
2. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 800 / 100 ml.

C. A person shall use a minimum of Class B reclaimed water for a type of direct reuse listed as Class B in Table A. A person may use Class B reclaimed water for a type of direct reuse listed as Class C in Table A. A person shall not use Class B reclaimed water for a type of direct reuse listed as Class A in Table A.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-307. Class C Reclaimed Water

A. Class C reclaimed water is wastewater that has undergone secondary treatment in a series of wastewater stabilization ponds, including aeration, with or without disinfection.

B. The owner of a facility shall ensure that:
1. The total retention time of Class C reclaimed water in wastewater stabilization ponds is at least 20 days.
2. Class C reclaimed water meets the following criteria after treatment and before discharge to a reclaimed water distribution system:
   a. The concentration of fecal coliform organisms in four of the last seven reclaimed water samples taken is less than 1000 / 100 ml.
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 4000 / 100 ml.

C. A person shall use a minimum of Class C reclaimed water for a type of direct reuse listed as Class C in Table A. A person shall not use Class C reclaimed water for a type of direct reuse listed as Class A or Class B in Table A.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-308. Industrial Reuse

A. The reclaimed water quality requirements for the following direct reuse applications are industry-specific and shall be determined by the Department on a case-by-case basis in a reclaimed water permit issued by the Department under 18 A.A.C. 9, Article 7:
1. Direct reuse of industrial wastewater containing sewage.
2. Direct reuse of industrial wastewater for the production or processing of any crop used as human or animal food.

B. The Department shall use best professional judgment to determine the reclaimed water quality requirements needed to protect public health and the environment for a type of direct reuse specified in subsection (A).

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-309. Reclaimed Water Quality Standards for an Unlisted Type of Direct Reuse

A. The Department may prescribe in an individual reclaimed water permit issued under 18 A.A.C. 9, Article 7, reclaimed water quality requirements for a type of direct reuse not listed in Table A. Before permitting a direct reuse of reclaimed water not listed in Table A, the Department shall, using its best professional judgment, determine and require compliance with reclaimed water quality requirements needed to protect public health and the environment.

B. Department may determine that Class A+, A, B+, B, or C reclaimed water is appropriate for a new type of direct reuse.

C. The Department shall consider the following factors when prescribing reclaimed water quality requirements for a new type of direct reuse:
1. The risk to public health;
2. The degree of public access to the site where the reclaimed water is reused and human exposure to the reclaimed water;
3. The level of treatment necessary to ensure that the reclaimed water is aesthetically acceptable;
4. The level of treatment necessary to prevent nuisance conditions;

5. Specific water quality requirements for the intended type of direct reuse;
6. The means of application of the reclaimed water;
7. The degree of treatment necessary to avoid a violation of surface water quality standards or aquifer water quality standards;
8. The potential for improper or unintended use of the reclaimed water;
9. The reuse guidelines, criteria, or standards adopted or recommended by the U.S. Environmental Protection Agency or other federal or state agencies that apply to the new type of direct reuse; and
10. Similar wastewater reclamation experience of reclaimed water providers in the United States.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

Table A. Minimum Reclaimed Water Quality Requirements for Direct Reuse

Type of Direct Reuse	Minimum Class of Reclaimed Water Required
Irrigation of food crops	A
Recreational impoundments	A
Residential landscape irrigation	A
Schoolground landscape irrigation	A
Open access landscape irrigation	A
Toilet and urinal flushing	A
Fire protection systems	A
Spray irrigation of an orchard or vineyard	A
Commercial closed loop air conditioning systems	A
Vehicle and equipment washing (does not include self-service vehicle washes)	A
Snowmaking	A
Surface irrigation of an orchard or vineyard	B
Golf course irrigation	B
Restricted access landscape irrigation	B
Landscape impoundment	B
Dust control	B
Soil compaction and similar construction activities	B
Pasture for milking animals	B
Livestock watering (dairy animals)	B
Concrete and cement mixing	B
Materials washing and sieving	B
Street cleaning	B
Pasture for non-dairy animals	C
Livestock watering (non-dairy animals)	C
Irrigation of sod farms	C
Irrigation of fiber, seed, forage, and similar crops	C
Silviculture	C

Note: Nothing in this Article prevents a wastewater treatment plant from using a higher quality reclaimed water for a type of direct reuse than the minimum class of reclaimed water listed in Table A. For example, a wastewater treatment plant may provide Class A reclaimed water for a type of direct reuse where Class B or Class C reclaimed water is acceptable.

Historical Note
New Table adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

ARTICLE 4. AQUIFER WATER QUALITY STANDARDS

R18-11-401. Definitions
In addition to the definitions contained in A.R.S. §§ 49-101 and 49-201, the terms of this Article shall have the following meanings:

1. "Beta particle and photon radioactivity from man-made radionuclides" means all radionuclides emitting beta particles or photons, except Thorium-232, Uranium-235, Uranium-238 and their progeny.
2. "Dose equivalent" means the product of the absorbed dose from ionizing radiation and such factors as account for differences in biological effectiveness due to the type of radiation and its distribution in the body as specified by the International Commission on Radiological Units and Measurements.
3. "Drinking water protected use" means the protection and maintenance of aquifer water quality for human consumption.
4. "Gross alpha particle activity" means the total radioactivity due to alpha particle emission as inferred from measurements on a dry sample.
5. "Mg/l" means milligrams per liter.
6. "Millirem" means 1/1000 of a rem. A rem means the unit of dose equivalent from ionizing radiation to the total body or any internal organ or organ system.
7. "Non-drinking water protected use" means the protection and maintenance of aquifer water quality for a use other than for human consumption.
8. "pCi" means picocurie, or the quantity of radioactive material producing 2.22 nuclear transformations per minute.
9. "Total trihalomethanes" means the sum of the concentrations of the following trihalomethane compounds: trichloromethane (chloroform), dibromo-chloromethane, bromodichloromethane and tribromo-methane (bromoform).

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1). Amended effective August 14, 1992 (Supp. 92-3).

R18-11-402. Repealed

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1). Repealed effective August 14, 1992 (Supp. 92-3).

R18-11-403. Analytical Methods
Analysis of a sample to determine compliance with an aquifer water quality standard shall be in accordance with an analytical method specified in A.A.C. Title 9, Chapter 14, Article 6 or an alternative analytical method that is approved by the Director of the Arizona Department of Health Services pursuant to A.A.C. R9-14-610(C).

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1). Amended effective August 14, 1992 (Supp. 92-3). Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-404. Laboratories
A test result from a sample taken to determine compliance with an aquifer water quality standard shall be valid only if the sample has

been analyzed by a laboratory that is licensed by the Arizona Department of Health Services for the analysis performed.

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-405. Narrative Aquifer Water Quality Standards

A. A discharge shall not cause a pollutant to be present in an aquifer classified for a drinking water protected use in a concentration which endangers human health.

B. A discharge shall not cause or contribute to a violation of a water quality standard established for a navigable water of the state.

C. A discharge shall not cause a pollutant to be present in an aquifer which impairs existing or reasonably foreseeable uses of water in an aquifer.

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-406. Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

A. The aquifer water quality standards in this Section apply to aquifers that are classified for drinking water protected use.

B. The following are the aquifer water quality standards for inorganic chemicals:

Pollutant	mg/L)
Antimony	0.006
Arsenic	0.05
Asbestos	7 million fibers/liter (longer than 10 mm)
Barium	2
Beryllium	0.004
Cadmium	0.005
Chromium	0.1
Cyanide (As Free Cyanide)	0.2
Fluoride	4.0
Lead	0.05
Mercury	0.002
Nickel	0.1
Nitrate (as N)	10
Nitrite (as N)	1
Nitrate and nitrite (as N)	10
Selenium	0.05
Thallium	0.002

C. The following are the aquifer water quality standards for organic chemicals:

Pollutant	(mg/L)
Benzene	0.005
Benzo (a) pyrene	0.0002
Carbon Tetrachloride	0.005
o-Dichlorobenzene	0.6
para-Dichlorobenzene	0.075
1,2-Dichloroethane	0.005
1,1-Dichloroethylene	0.007
cis-1,2-Dichloroethylene	0.07
trans-1,2-Dichloroethylene	0.1
1,2-Dichloropropane	0.005
Dichloromethane	0.005
Di (2-ethylhexyl) adipate	0.4
Di (2-ethylhexyl) pthalate	0.006
Ethylbenzene	0.7
Hexachlorobenzene	0.001
Hexachlorocyclopentadiene	0.05
Monochlorobenzene	0.1
Pentachlorophenol	0.001
Styrene	0.1
2,3,7,8-TCDD (Dioxin)	0.00000003
Tetrachloroethylene	0.005
Toluene	1
Trihalomethanes (Total)	0.10
1,2,4-Trichlorobenzene	0.07
1,1,1-Trichloroethane	0.20
1,1,2-Trichloroethane	0.005
Trichloroethylene	0.005
Vinyl Chloride	0.002
Xylenes (Total)	10

D. The following are the aquifer water quality standards for pesticides and polychlorinated biphenyls (PCBs):

Pollutant	(mg/L)
Alachlor	0.002
Atrazine	0.003
Carbofuran	0.04
Chlordane	0.002
Dalapon	0.2
1,2-Dibromo-3-Chloropropane (DBCP)	0.0002
2,4,-Dichlorophenoxyacetic Acid(2,4-D)	0.07
Dinoseb	0.007
Diquat	0.02
Endothall	0.1
Endrin	0.002
Ethylene Dibromide (EDB)	0.00005
Glyphosate	0.7
Heptachlor	0.0004
Heptachlor Epoxide	0.0002
Lindane	0.0002
Methoxychlor	0.04
Oxamyl	0.2
Picloram	0.5
Polychlorinated Biphenols (PCBs)	0.0005
Simazine	0.004
Toxaphene	0.003
2,4,5-Trichlorophenoxypropionic Acid (2,4,5-TP or Silvex)	0.05

E. The following are the aquifer water quality standards for radionuclides:

1. The maximum concentration for gross alpha particle activity, including Radium-226 but excluding radon and uranium, shall not exceed 15 pCi/l.
2. The maximum concentration for combined Radium-226 and Radium-228 shall not exceed 5 pCi/l.
3. The average annual concentration of beta particle and photon radioactivity from man-made radionuclides shall not produce an annual dose equivalent to the total body or any internal organ greater than 4 millirem/year.
4. Except for the radionuclides listed in this subsection, the concentration of man-made radionuclides causing 4 millirem total body or organ dose equivalents shall be calculated on the basis of a 2-liter-per-day drinking water intake using the 168-hour data listed in “Maximum Permissible Body Burdens and Maximum Permissible Con-

centration of Radionuclides in Air or Water for Occupational Exposure," National Bureau of Standards Handbook 69, National Bureau of Commerce, as amended August 1963 (and no future editions), incorporated herein by reference and on file with the Office of the Secretary of State and with the Department. If two or more radionuclides are present, the sum of their annual dose equivalent to the total body or to any organ shall not exceed 4 millirem/year. The following average annual concentrations are assumed to produce a total body or organ dose of 4 millirem/year:

Radionuclide	Critical Organ	pCi/l
Tritium	Total body	20,000
Strontium-90	Bone Marrow	8

F. The aquifer water quality standard for microbiological contaminants is based upon the presence or absence of total coliforms in a 100-milliliter sample. If a sample is total coliform-positive, a 100-milliliter repeat sample shall be taken within two weeks of the time the sample results are reported. Any total coliform-positive repeat sample following a total coliform-positive sample constitutes a violation of the aquifer water quality standard for microbiological contaminants.

G. The following are the aquifer water quality standards for turbidity:

1. One nephelometric turbidity unit as determined by a monthly average except that five or fewer nephelometric turbidity units may be allowed if it can be determined that the higher turbidity does not interfere with disinfection, prevent maintenance of effective disinfectant agents in water supply distribution systems, or interfere with microbiological determinations.
2. Five nephelometric turbidity units based on an average of two consecutive days.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).
Amended effective May 26, 1994 (Supp. 94-2).

R18-11-407. Aquifer Water Quality Standards in Reclassified Aquifers

A. All aquifers in the state are classified for drinking water protected use except for aquifers which are reclassified to a nondrinking water protected use pursuant to A.R.S. § 49-224 and A.A.C. R18-11-503.

B. Aquifer water quality standards for drinking water protected use apply to reclassified aquifers except where expressly superseded by aquifer water quality standards adopted pursuant to subsection (C).

C. The Director shall adopt, by rule, aquifer water quality standards for reclassified aquifers within one year of the date of the order reclassifying the aquifer to a nondrinking water protected use. The Director shall adopt aquifer water quality standards for reclassified aquifers only for pollutants that are specifically identified in a petition for reclassification as prescribed by A.R.S. § 49-223(E) and A.A.C. R18-11-503(B). Aquifer water quality standards for reclassified aquifers shall be sufficient to protect the use of the reclassified aquifer.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-408. Petition for Adoption of a Numeric Aquifer Water Quality Standard

A. Any person may petition the Director to adopt, by rule, a numeric aquifer water quality standard for a pollutant for which no numeric aquifer water quality standard exists.

B. Petitions for adoption of a numeric aquifer water quality standard shall be filed with the Department and shall comply with the requirements applicable to petitions for rule adoption as provided by A.R.S. § 41-1033 and A.A.C. R18-1-302, except as otherwise provided by A.R.S. § 49-223 or this Section.

C. In addition to the requirements of A.A.C. R18-1-302, a petition for rule adoption to establish a numeric aquifer water quality standard shall include specific reference to:

1. Technical information that the pollutant is a toxic pollutant.
2. Technical information upon which the Director reasonably may base the establishment of a numeric aquifer water quality standard.
3. Evidence that the pollutant that is the subject of the petition is or may in the future be present in an aquifer or part of an aquifer that is classified for drinking water protected use. Evidence may include, but is not limited to, any of the following:
   a. A laboratory analysis of a water sample by a laboratory licensed by the Arizona Department of Health Services which indicates the presence of the pollutant in the aquifer.
   b. A hydrogeological study which demonstrates that the pollutant that is the subject of the petition may be present in an aquifer in the future. The hydrogeological study shall include the following:
      i. A description of the use that results in a discharge of the pollutant that is the subject of the petition.
      ii. A description of the mobility of the pollutant in the vadose zone and in the aquifer.
      iii. A description of the persistence of the pollutant in the vadose zone and in the aquifer.

D. Within 180 calendar days of the receipt of a complete petition for rule adoption to establish a numeric aquifer water quality standard, the Director shall make a written determination of whether the petition should be granted or denied. The Director shall give written notice by regular mail of the determination to the petitioner.

E. If the petition for rule adoption is granted, the Director shall initiate rulemaking proceedings to adopt a numeric aquifer water quality standard. The Director shall, within one year of the date that the petition for adoption of a numeric aquifer water quality standard is granted, either adopt a rule establishing a numeric aquifer water quality standard or publish a notice of termination of rulemaking in the Arizona Administrative Register.

F. If the petition for rule adoption is denied, the Director shall issue a denial letter to the petitioner which explains the reasons for the denial. The denial of a petition for rule adoption to establish a numeric aquifer water quality standard is not subject to judicial review.

ARTICLE 5. AQUIFER BOUNDARY AND PROTECTED USE CLASSIFICATION

R18-11-501. Definitions
In addition to the definitions contained in A.R.S. § 49-201, the words and phrases of this Article shall have the following meaning:

1. "Drinking water protected use" means the protection and maintenance of aquifer water quality for human consumption.
2. "Hardrock areas containing little or no water" means areas of igneous or metamorphic rock which do not yield usable quantities of water.
3. "Nondrinking water protected use" means the protection and maintenance of aquifer water quality for a use other than human consumption.
4. "Usable quantities" means five gallons of water per day.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-502. Aquifer Boundaries

A. Except as provided in subsection (B), aquifer boundaries for the aquifers in this state are identified and defined as being identical to the hydrologic basin and subbasin boundaries, as found by the Director of the Department of Water Resources, Findings and Order In the Matter of The Designation of Groundwater Basins and Subbasins In The State of Arizona (dated June 21, 1984), pursuant to A.R.S. §§ 45-403 and 45-404, which is incorporated herein by reference, on file and available for public inspection at the Department of Environmental Quality. No later amendments or editions are incorporated by reference.

B. Excluded from the boundaries of the aquifers are hard rock areas which contain little or no water, as identified in Plate 1 of the Department of Water Resources, Water Resource Hydrologic Map Series Report Number 2 (dated January 1981) and as further identified in the Bureau of Mines, University of Arizona County Geologic Map Series (individual county maps dated 1957 through 1960), which are incorporated herein by reference, on file and available for public inspection at the Department of Environmental Quality. No later amendments or editions are incorporated by reference.

C. The Director may, by rule, modify or add an aquifer boundary provided that one or more of the following applies:

1. The Department of Water Resources modifies the boundaries of its basins or subbasins.
2. The Director is made aware of new technical information or data which supports refinement of an aquifer boundary.

D. Facilities located outside of the boundaries defined in these rules shall be subject to A.R.S. § 49-241 except as provided therein.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-503. Petition for reclassification

A. Any person may petition the Director to reclassify an aquifer from a drinking water protected use to a nondrinking water protected use pursuant to A.R.S. § 49-224(C).

B. A written petition for reclassification pursuant to A.R.S. § 49-224(C) or A.R.S. § 49-224(D) shall be filed with the Department and shall include the following categories of information:

1. The proposed protected use for which the reclassification is being requested.
2. The pollutant and affected aquifer water quality standards for which the reclassification is being requested.
3. A hydrogeologic report which demonstrates that the aquifer proposed for reclassification is or will be hydrologically isolated, to the extent described in A.R.S. § 49-224(C)(1). This report and demonstration of hydrologic isolation for the area containing such aquifer, and immediate adjacent geologic units, shall include at least the following:
   a. Hydrogeologic area maps and cross sections.
   b. An analysis of subsurface geology, including geologic and hydrologic separation.
   c. Water level elevation or piezometric level contour maps.
   d. Analysis of hydrologic characteristics of the aquifer and the immediate adjacent geologic units.
   e. Description of existing water quality and analysis of water chemistry.
   f. Projected annual quantity of water to be withdrawn.
   g. Identification of pumping centers, cones of depression and areas of recharge.
   h. A water balance.
   i. Existing flow direction and evaluation of the effects of seasonal and future pumping on flow.
   j. An evaluation as to whether the reclassification will contribute to or cause a violation of aquifer water quality standards in other aquifers, or in parts of the aquifer not being proposed for reclassification.
4. Documentation demonstrating that water from the aquifer or part of the aquifer for which reclassification is pro-

posed is not being used as drinking water. This documentation shall include at least the following:

a. A list of all wells or springs including their location, ownership and use within the aquifer or part of the aquifer being proposed for reclassification.
b. Identification of groundwater withdrawal rights, on file with the Department of Water Resources, within the aquifer or part of the aquifer being proposed for reclassification.
c. A comprehensive list of agencies, persons and other information sources consulted for aquifer use documentation.

5. A cost-benefit analysis developed pursuant to the requirements of A.R.S. § 49-224(C)(3), except for petitions submitted pursuant to A.R.S. § 49-224(D). This analysis shall identify potential future uses of the aquifer being proposed for reclassification, as well as other opportunity costs associated with reclassification, and shall contain a description of the cost-benefit methodology used, including all assumptions, data, data sources and criteria considered and all supporting statistical analyses.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-504. Agency Action on Petition

A. Upon receipt of a petition for reclassification, the Director shall review the petition for compliance with the requirements of R18-11-503. If additional information is necessary, the petitioner shall be notified of specific deficiencies in writing within 30 calendar days of receipt of the petition.

B. Within 120 calendar days after receipt of a complete petition, and after consultation with the appropriate advisory council pursuant to A.R.S. §§ 49-224(C), the Director shall make a final decision to grant or deny the petition and shall notify the petitioner of such decision and the reason for such determination in writing.

C. Upon a decision to grant a petition for aquifer reclassification, the Director shall initiate proceedings for promulgation of aquifer water quality standards and, if applicable, for aquifer boundary designation for the reclassified aquifers.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-505. Public participation

A. Within 30 days of receipt of a complete petition for reclassification filed pursuant to A.R.S. § 49-224(D), or if the Director deems it necessary to consider a reclassification under A.R.S. § 49-224(C), the Director shall give public notice of the proposed reclassification pursuant to A.A.C. R18-1-401.

B. The Director shall hold at least one public hearing at a location as near as practicable to the aquifer proposed for reclassification. The Director shall give notice of each public hearing and conduct the public hearing in accordance with the provisions of A.A.C. R18-1-402.

Historical Note
Adopted effective June 29, 1989 (Supp. 89-2).

R18-11-506. Rescission of Reclassification

The Director may, by rule, rescind an aquifer reclassification and return an aquifer to a drinking water protected use if he determines that any of the conditions under which the reclassification was granted are no longer valid. If the Director initiates a change under this Section, he shall consult with the appropriate advisory council pursuant to A.R.S. §§ 49-224(C).

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

ARTICLE 6. IMPAIRED WATER IDENTIFICATION

Article 6, consisting of Sections R18-11-601 through R18-11-606, made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-601. Definitions

In addition to the definitions established in A.R.S. §§ 49-201 and 49-231, and A.A.C. R18-11-101, the following terms apply to this Article:

1. "303(d) List" means the list of surface waters or segments required under section 303(d) of the Clean Water Act and A.R.S. Title 49, Chapter 2, Article 2.1, for which TMDLs are developed and submitted to EPA for approval.
2. "Attaining" means there is sufficient, credible, and scientifically defensible data to assess a surface water or segment and the surface water or segment does not meet the definition of impaired or not attaining.
3. "AZPDES" means the Arizona Pollutant Elimination Discharge System.
4. "Credible and scientifically defensible data" means data submitted, collected, or analyzed using:
   a. Quality assurance and quality control procedures under A.A.C. R18-11-602;
   b. Samples or analyses representative of water quality conditions at the time the data were collected;
   c. Data consisting of an adequate number of samples based on the nature of the water in question and the parameters being analyzed; and
   d. Methods of sampling and analysis, including analytical, statistical, and modeling methods that are generally accepted and validated by the scientific community as appropriate for use in assessing the condition of the water.
5. "Designated use" means those uses specified in 18 A.A.C. 11, Article 1 for each surface water or segment whether or not they are attaining.
6. "EPA" means the U.S. Environmental Protection Agency.
7. "Impaired water" means a Navigable water for which credible scientific data exists that satisfies the requirements of A.R.S. § 49-232 and that demonstrates that the water should be identified pursuant to 33 United States Code § 1313(d) and the regulations implementing that statute. A.R.S. § 49-231(1).
8. "Laboratory detection limit" means a "Method Reporting Limit" (MRL) or "Reporting Limit" (RL). These analogous terms describe the laboratory reported value, which is the lowest concentration level included on the calibration curve from the analysis of a pollutant that can be quantified in terms of precision and accuracy.
9. "Monitoring entity" means the Department or any person who collects physical, chemical, or biological data used for an impaired water identification or a TMDL decision.
10. "Naturally occurring condition" means the condition of a surface water or segment that would have occurred in the

absence of pollutant loadings as a result of human activity.

11. "Not attaining" means a surface water is assessed as impaired, but is not placed on the 303(d) List because:
    a. A TMDL is prepared and implemented for the surface water;
    b. An action, which meets the requirements of R18-11-604(D)(2)(h), is occurring and is expected to bring the surface water to attaining before the next 303(d) List submission; or
    c. The impairment of the surface water is due to pollution but not a pollutant, for which a TMDL load allocation cannot be developed.
12. "NPDES" means National Pollutant Discharge Elimination System.
13. "Planning List" means a list of surface waters and segments that the Department will review and evaluate to determine if the surface water or segment is impaired and whether a TMDL is necessary.
14. "Pollutant" means dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and industrial, municipal, and agricultural waste discharged into water. 33 U.S.C. 1362(6). Characteristics of water, such as dissolved oxygen, pH, temperature, turbidity, and suspended sediment are considered pollutants if they result or may result in the non-attainment of a water quality standard.
15. "Pollution" means "the man-made or man-induced alteration of the chemical, physical, biological, and radiological integrity of water." 33 U.S.C. 1362(19).
16. "QAP" means a quality assurance plan detailing how environmental data operations are planned, implemented, and assessed for quality during the duration of a project.
17. "Sampling event" means one or more samples taken under consistent conditions on one or more days at a distinct station or location.
18. "SAP" means a site specific sampling and analysis plan that describes the specifics of sample collection to ensure that data quality objectives are met and that samples collected and analyzed are representative of surface water conditions at the time of sampling.
19. "Spatially independent sample" means a sample that is collected at a distinct station or location. The sample is independent if the sample was collected:
    a. More than 200 meters apart from other samples, or
    b. Less than 200 meters apart, and collected to characterize the effect of an intervening tributary, outfall or other pollution source, or significant hydrographic or hydrologic change.
20. "Temporally independent sample" means a sample that is collected at the same station or location more than seven days apart from other samples.
21. "Threatened" means that a surface water or segment is currently attaining its designated use, however, trend analysis, based on credible and scientifically defensible data, indicates that the surface water or segment is likely to be impaired before the next listing cycle.
22. "TMDL" means total maximum daily load.
23. "TMDL decision" means a decision by the Department to:
    a. Prioritize an impaired water for TMDL development,
    b. Develop a TMDL for an impaired water, or
    c. Develop a TMDL implementation plan.
24. *"Total maximum daily load" means an estimation of the total amount of a pollutant from all sources that may be added to a water while still allowing the water to achieve and maintain applicable surface water quality standards. Each total maximum daily load shall include allocations for sources that contribute the pollutant to the water, as required by section 303(d) of the clean water act (33 United States Code section 1313(d)) and regulations implementing that statute to achieve applicable surface water quality standards.* A.R.S. § 49-231(4).
25. "Water quality standard" means a standard composed of designated uses (classification of waters), the numerical and narrative criteria applied to the specific water uses or classification, the antidegradation policy, and moderating provisions, for example, mixing zones, site-specific alternative criteria, and exemptions, in A.A.C. Title 18, Chapter 11, Article 1.
26. "WQARF" means the water quality assurance revolving fund established under A.R.S. § 49-282.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-602. Credible Data

A. Data are credible and relevant to an impaired water identification or a TMDL decision when:

1. Quality Assurance Plan. A monitoring entity, which contribute data for an impaired water identification or a TMDL decision, provides the Department with a QAP that contains, at a minimum, the elements listed in subsections (A)(1)(a) through (A)(1)(f). The Department may accept a QAP containing less than the required elements if the Department determines that an element is not relevant to the sampling activity and that its omission will not impact the quality of the results based upon the type of pollutants to be sampled, the type of surface water, and the purpose of the sampling.
    a. An approval page that includes the date of approval and the signatures of the approving officials, including the project manager and project quality assurance manager;
    b. A project organization outline that identifies all key personnel, organizations, and laboratories involved in monitoring, including the specific roles and responsibilities of key personnel in carrying out the procedures identified in the QAP and SAP, if applicable;
    c. Sampling design and monitoring data quality objectives or a SAP that meets the requirements of subsection (A)(2) to ensure that:
        i. Samples are spatially and temporally representative of the surface water,
        ii. Samples are representative of water quality conditions at the time of sampling, and
        iii. The monitoring is reproducible;
    d. The following field sampling information to assure that samples meet data quality objectives:
        i. Sampling and field protocols for each parameter or parametric group, including the sampling methods, equipment and containers, sample preservation, holding times, and any analysis

proposed for completion in the field or outside of a laboratory;

ii. Field and laboratory methods approved under subsection (A)(5);

iii. Handling procedures to identify samples and custody protocols used when samples are brought from the field to the laboratory for analysis;

iv. Quality control protocols that describe the number and type of field quality control samples for the project that includes, if appropriate for the type of sampling being conducted, field blanks, travel blanks, equipment blanks, method blanks, split samples, and duplicate samples;

v. Procedures for testing, inspecting, and maintaining field equipment;

vi. Field instrument calibration procedures that describe how and when field sampling and analytical instruments will be calibrated;

vii. Field notes and records that describe the conditions that require documentation in the field, such as weather, stream flow, transect information, distance from water edge, water and sample depth, equipment calibration measurements, field observations of watershed activities, and bank conditions. Indicate the procedures implemented for maintaining field notes and records and the process used for attaching pertinent information to monitoring results to assist in data interpretation;

viii. Minimum training and any specialized training necessary to do the monitoring, that includes the proper use and calibration of field equipment used to collect data, sampling protocols, quality assurance/quality control procedures, and how training will be achieved;

e. Laboratory analysis methods and quality assurance/quality control procedures that assure that samples meet data quality objectives, including:

i. Analytical methods and equipment necessary for analysis of each parameter, including identification of approved laboratory methods described in subsection (A)(5), and laboratory detection limits for each parameter;

ii. The name of the designated laboratory, its license number, if licensed by the Arizona Department of Health Services, and the name of a laboratory contact person to assist the Department with quality assurance questions;

iii. Quality controls that describe the number and type of laboratory quality control samples for the project, including, if appropriate for the type of sampling being conducted, field blanks, travel blanks, equipment blanks, method blanks, split samples, and duplicate samples;

iv. Procedures for testing, inspecting, and maintaining laboratory equipment and facilities;

v. A schedule for calibrating laboratory instruments, a description of calibration methods, and a description of how calibration records are maintained; and

vi. Sample equipment decontamination procedures that outline specific methods for sample collection and preparation of equipment, identify the frequency of decontamination, and describe the procedures used to verify decontamination;

f. Data review, management, and use that includes the following:

i. A description of the data handling process from field to laboratory, from laboratory to data review and validation, and from validation to data storage and use. Include the role and responsibility of each person for each step of the process, type of database or other storage used, and how laboratory and field data qualifiers are related to the laboratory result;

ii. Reports that describe the intended frequency, content, and distribution of final analysis reports and project status reports;

iii. Data review, validation, and verification that describes the procedure used to validate and verify data, the procedures used if errors are detected, and how data are accepted, rejected, or qualified; and

iv. Reconciliation with data quality objectives that describes the process used to determine whether the data collected meets the project objectives, which may include discarding data, setting limits on data use, or revising data quality objectives.

2. Sampling and analysis plan.

a. A monitoring entity shall develop a SAP that contains, at a minimum, the following elements:

i. The experimental design of the project, the project goals and objectives, and evaluation criteria for data results;

ii. The background or historical perspective of the project;

iii. Identification of target conditions, including a discussion of whether any weather, seasonal variations, stream flow, lake level, or site access may affect the project and the consideration of these factors;

iv. The data quality objectives for measurement of data that describe in quantitative and qualitative terms how the data meet the project objectives of precision, accuracy, completeness, comparability, and representativeness;

v. The types of samples scheduled for collection;

vi. The sampling frequency;

vii. The sampling periods;

viii. The sampling locations and rationale for the site selection, how site locations are benchmarked, including scaled maps indicating approximate location of sites; and

ix. A list of the field equipment, including tolerance range and any other manufacturer's specifications relating to accuracy and precision.

b. The Department may accept a SAP containing less than the required elements if the Department determines that an element is not relevant to the sampling activity and that its omission will not impact the quality of the results based upon the type of pollutants to be samples, the type of surface water, and the purpose of the sampling.

3. The monitoring entity may include any of the following in the QAP or SAP:

a. The name, title, and role of each person and organization involved in the project, identifying specific roles and responsibilities for carrying out the procedures identified in the QAP and SAP;
b. A distribution list of each individual and organization receiving a copy of the approved QAP and SAP;
c. A table of contents;
d. A health and safety plan;
e. The inspection and acceptance requirements for supplies;
f. The data acquisition that describes types of data not obtained through this monitoring activity, but used in the project;
g. The audits and response actions that describe how field, laboratory, and data management activities and sampling personnel are evaluated to ensure data quality, including a description of how the project will correct any problems identified during these assessments; and
h. The waste disposal methods that identify wastes generated in sampling and methods for disposal of those wastes.

4. Exceptions. The Department may determine that the following data are also credible and relevant to an impaired water identification or TMDL decision when data were collected, provided the conditions in subsections (A)(5), (A)(6), and (B) are met, and where the data were collected in the surface water or segment being evaluated for impairment:
a. The data were collected before July 12, 2002 and the Department determines that the data yield results of comparable reliability to the data collected under subsections (A)(1) and (A)(2);
b. The data were collected after July 12, 2002 as part of an ongoing monitoring effort by a governmental agency and the Department determines that the data yield results of comparable reliability to the data collected under subsections (A)(1) and (A)(2); or
c. The instream water quality data were or are collected under the terms of a NPDES or AZPDES permit or a compliance order issued by the Department or EPA, a consent decree signed by the Department or EPA, or a sampling program approved by the Department or EPA under WQARF or CERCLA, and the Department determines that the data yield results of comparable reliability to data collected under subsections (A)(1) and (A)(2).

5. Data collection, preservation, and analytical procedures. The monitoring entity shall collect, preserve, and analyze data using methods of sample collection, preservation, and analysis established under A.A.C. R9-14-610.
6. Laboratory. The monitoring entity shall ensure that chemical and toxicological samples are analyzed in a state-licensed laboratory, a laboratory exempted by the Arizona Department of Health Services for specific analyses, or a federal or academic laboratory that can demonstrate proper quality assurance/quality control procedures substantially equal to those required by the Arizona Department of Health Services, and shall ensure that the laboratory uses approved methods identified in A.A.C. R9-14-610.

B. Documentation for data submission. The monitoring entity shall provide the Department with the following information either before or with data submission:
1. A copy of the QAP or SAP, or both, revisions to a previously submitted QAP or SAP, and any other information necessary for the Department to evaluate the data under subsection (A)(4);
2. The applicable dates of the QAP and SAP, including any revisions;
3. Written assurance that the methods and procedures specified in the QAP and SAP were followed;
4. The name of the laboratory used for sample analyses and its certification number, if the laboratory is licensed by the Arizona Department of Health Services;
5. The quality assurance/quality control documentation, including the analytical methods used by the laboratory, method number, detection limits, and any blank, duplicate, and spike sample information necessary to properly interpret the data, if different from that stated in the QAP or SAP;
6. The data reporting unit of measure;
7. Any field notes, laboratory comments, or laboratory notations concerning a deviation from standard procedures, quality control, or quality assurance that affects data reliability, data interpretation, or data validity; and
8. Any other information, such as complete field notes, photographs, climate, or other information related to flow, field conditions, or documented sources of pollutants in the watershed, if requested by the Department for interpreting or validating data.

C. Recordkeeping. The monitoring entity shall maintain all records, including sample results, for the duration of the listing cycle. If a surface water or segment is added to the Planning List or to the 303(d) List, the Department shall coordinate with the monitoring entity to ensure that records are kept for the duration of the listing.

Historical Note
New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-603. General Data Interpretation Requirements

A. The Department shall use the following data conventions to interpret data for impaired water identifications and TMDL decisions:
1. Data reported below laboratory detection limits.
a. When the analytical result is reported as <X, where X is the laboratory detection limit for the analyte and the laboratory detection limit is less than or equal to the surface water quality standard, consider the result as meeting the water quality standard:
i. Use these statistically derived values in trend analysis, descriptive statistics or modeling if there is sufficient data to support the statistical estimation of values reported as less than the laboratory detection limit; or
ii. Use one-half of the value of the laboratory detection limit in trend analysis, descriptive statistics, or modeling, if there is insufficient data to support the statistical estimation of values reported as less than the laboratory detection limit.
b. When the sample value is less than or equal to the laboratory detection limit but the laboratory detection limit is greater than the surface water quality standard, shall not use the result for impaired water identifications or TMDL decisions;

2. Identify the field equipment specifications used for each listing cycle or TMDL developed. A field sample measurement within the manufacturer's specification for accuracy meets surface water quality standards;
3. Resolve a data conflict by considering the factors identified under the weight-of-evidence determination in R18-11-605(B);
4. When multiple samples from a surface water or segment are not spatially or temporally independent, or when lake samples are from multiple depths, use the following resultant value to represent the specific dataset:
   a. The appropriate measure of central tendency for the dataset for:
      i. A pollutant listed in the surface water quality standards 18 A.A.C. 11, Article 1, Appendix A, Table 1, except for nitrate or nitrate/nitrite;
      ii. A chronic water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2;
      iii. A surface water quality standard for a pollutant that is expressed as an annual or geometric mean;
      iv. The surface water quality standard for temperature or the single sample maximum water quality standard for suspended sediment concentration, nitrogen, and phosphorus in R18-11-109;
      v. The surface water quality standard for radiochemicals in R18-11-109(G); or
      vi. Except for chromium, all single sample maximum water quality standards in R18-11-112.
   b. The maximum value of the dataset for:
      i. The acute water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2 and acute water quality standard in R18-11-112;
      ii. The surface water quality standard for nitrate or nitrate/nitrite in 18 A.A.C. 11, Article 1, Appendix A, Table 1;
      iii. The single sample maximum water quality standard for bacteria in subsections R18-11-109(A); or
      iv. The 90th percentile water quality standard for nitrogen and phosphorus in R18-11-109(F) and R18-11-112.
   c. The worst case measurement of the dataset for:
      i. Surface water quality standard for dissolved oxygen under R18-11-109(E). For purposes of this subsection, worst case measurement means the minimum value for dissolved oxygen;
      ii. Surface water quality standard for pH under R18-11-109(B). For purposes of this subsection, "worst case measurement" means both the minimum and maximum value for pH.

B. The Department shall not use the following data for placing a surface water or segment on the Planning List, the 303(d) List, or in making a TMDL decision.
1. Any measurement outside the range of possible physical or chemical measurements for the pollutant or measurement equipment,
2. Uncorrected data transcription errors or laboratory errors, and
3. An outlier identified through statistical procedures, where further evaluation determines that the outlier represents a valid measure of water quality but should be excluded from the dataset.

C. The Department may employ fundamental statistical tests if appropriate for the collected data and type of surface water when evaluating a surface water or segment for impairment or in making a TMDL decision. The statistical tests include descriptive statistics, frequency distribution, analysis of variance, correlation analysis, regression analysis, significance testing, and time series analysis.

D. The Department may employ modeling when evaluating a surface water or segment for impairment or in making a TMDL decision, if the method is appropriate for the type of waterbody and the quantity and quality of available data meet the requirements of R18-11-602. Modeling methods include:
1. Better Assessment Science Integrating Source and Nonpoint Sources (BASINS),
2. Fundamental statistics, including regression analysis,
3. Hydrologic Simulation Program-Fortran (HSPF),
4. Spreadsheet modeling, and
5. Hydrologic Engineering Center (HEC) programs developed by the Army Corps of Engineers.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-604. Types of Surface Waters Placed on the Planning List and 303(d) List

A. The Department shall evaluate, at least every five years, Arizona's surface waters by considering all readily available data.
1. The Department shall place a surface water or segment on:
   a. The Planning List if it meets any of the criteria described in subsection (D), or
   b. The 303(d) List if it meets the criteria for listing described in subsection (E).
2. The Department shall remove a surface water or segment from the Planning List based on the requirements in R18-11-605(E)(1) or from the 303(d) List, based on the requirements in R18-11-605(E)(2).
3. The Department may move surface waters or segments between the Planning List and the 303(d) List based on the criteria established in R18-11-604 and R18-11-605.

B. When placing a surface water or segment on the Planning List or the 303(d) List, the Department shall list the stream reach, derived from EPA's Reach File System or National Hydrography Dataset, or the entire lake, unless the data indicate that only a segment of the stream reach or lake is impaired or not attaining its designated use, in which case, the Department shall describe only that segment for listing.

C. Exceptions. The Department shall not place a surface water or segment on either the Planning List or the 303(d) List if the non-attainment of a surface water quality standard is due to one of the following:
1. Pollutant loadings from naturally occurring conditions alone are sufficient to cause a violation of applicable water quality standards;
2. The data were collected within a mixing zone or under a variance or nutrient waiver established in a NPDES or AZPDES permit for the specific parameter and the result does not exceed the alternate discharge limitation established in the permit. The Department may use data collected within these areas for modeling or allocating loads in a TMDL decision; or

3. An activity exempted under R18-11-117, R18-11-118, or a condition exempted under R18-11-119.

D. Planning List.

1. The Department shall:
   a. Use the Planning List to prioritize surface waters for monitoring and evaluation as part of the Department's watershed management approach;
   b. Provide the Planning List to EPA; and
   c. Evaluate each surface water and segment on the Planning List for impairment based on the criteria in R18-11-605(D) to determine the source of the impairment.
2. The Department shall place a surface water or segment on the Planning List based the criteria in R18-11-605(C). The Department may also include a surface water or segment on the Planning List when:
   a. A TMDL is completed for the pollutant and approved by EPA;
   b. The surface water or segment is on the 1998 303(d) List but the dataset used for the listing:
      i. Does not meet the credible data requirements of R18-11-602, or
      ii. Contains insufficient samples to meet the data requirements under R18-11-605(D);
   c. Some monitoring data exist but there are insufficient data to determine whether the surface water or segment is impaired or not attaining, including:
      i. A numeric surface water quality standard is exceeded, but there are not enough samples or sampling events to fulfill the requirements of R18-11-605(D);
      ii. Evidence exists of a narrative standard violation, but the amount of evidence is insufficient, based on narrative implementation procedures and the requirements of R18-11-605(D)(3);
      iii. Existing monitoring data do not meet credible data requirements in R18-11-602; or
      iv. A numeric surface water quality standard is exceeded, but there are not enough sample results above the laboratory detection limit to support statistical analysis as established in R18-11-603(A)(1).
   d. The surface water or segment no longer meets the criteria for impairment based on a change in the applicable surface water quality standard or a designated use approved by EPA under section 303(c)(1) of the Clean Water Act, but insufficient current or original monitoring data exist to determine whether the surface water or segment will meet current surface water quality standards;
   e. Trend analysis using credible and scientifically defensible data indicate that surface water quality standards may be exceeded by the next assessment cycle;
   f. The exceedance of surface water quality standards is due to pollution, but not a pollutant;
   g. Existing data were analyzed using methods with laboratory detection limits above the numeric surface water quality standard but analytical methods with lower laboratory detection limits are available;
   h. The surface water or segment is expected to attain its designated use by the next assessment as a result of existing or proposed technology-based effluent limitations or other pollution control requirements under local, state, or federal authority. The appropriate entity shall provide the Department with the following documentation to support placement on the Planning List:
      i. Verification that discharge controls are required and enforceable;
      ii. Controls are specific to the surface water or segment, and pollutant of concern;
      iii. Controls are in place or scheduled for implementation; and
      iv. There are assurances that the controls are sufficient to bring about attainment of water quality standards by the next 303(d) List submission; or
   i. The surface water or segment is threatened due to a pollutant and, at the time the Department submits a final 303(d) List to EPA, there are no federal regulations implementing section 303(d) of the Clean Water Act that require threatened waters be included on the list.

E. 303(d) List. The Department shall:

1. Place a surface water or segment on the 303(d) List if the Department determines:
   a. Based on R18-11-605(D), that the surface water or segment is impaired due to a pollutant and that a TMDL decision is necessary; or
   b. That the surface water or segment is threatened due to a pollutant and, at the time the Department submits a final 303(d) List to EPA, there are federal regulations implementing section 303(d) of the Clean Water Act that require threatened waters be included on the list.
2. Provide public notice of the 303(d) List according to the requirements of A.R.S. § 49-232 and submit the 303(d) List according to section 303(d) of the Clean Water Act.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-605. Evaluating A Surface Water or Segment For Listing and Delisting

A. The Department shall compile and evaluate all reasonably current, credible, and scientifically defensible data to determine whether a surface water or segment is impaired or not attaining.

B. Weight-of-evidence approach.

1. The Department shall consider the following concepts when evaluating data:
   a. Data or information collected during critical conditions may be considered separately from the complete dataset, when the data show that the surface water or segment is impaired or not attaining its designated use during those critical conditions, but attaining its uses during other periods. Critical conditions may include stream flow, seasonal periods, weather conditions, or anthropogenic activities;
   b. Whether the data indicate that the impairment is due to persistent, seasonal, or recurring conditions. If the data do not represent persistent, recurring, or seasonal conditions, the Department may place the surface water or segment on the Planning List;
   c. Higher quality data over lower quality data when making a listing decision. Data quality is established by the reliability, precision, accuracy, and represen-

tativeness of the data, based on factors identified in R18-11-602(A) and (B), including monitoring methods, analytical methods, quality control procedures, and the documented field and laboratory quality control information submitted with the data. The Department shall consider the following factors when determining higher quality data:

i. The age of the measurements. Newer measurements are weighted heavier than older measurements, unless the older measurements are more representative of critical flow conditions;

ii. Whether the data provide a direct measure of an impact on a designated use. Direct measurements are weighted heavier than measurements of an indicator or surrogate parameter; or

iii. The amount or frequency of the measurements. More frequent data collection are weighted heavier than nominal datasets.

2. The Department shall evaluate the following factors to determine if the water quality evidence supports a finding that the surface water or segment is impaired or not attaining:

a. An exceedance of a numeric surface water quality standard based on the criteria in subsections (C)(1), (C)(2), (D)(1), and (D)(2);

b. An exceedance of a narrative surface water quality standard based on the criteria in subsections (C)(3) and (D)(3);

c. Additional information that determines whether a water quality standard is exceeded due to a pollutant, suspected pollutant, or naturally occurring condition:

i. Soil type, geology, hydrology, flow regime, biological community, geomorphology, climate, natural process, and anthropogenic influence in the watershed;

ii. The characteristics of the pollutant, such as its solubility in water, bioaccumulation potential, sediment sorption potential, or degradation characteristics, to assist in determining which data more accurately indicate the pollutant's presence and potential for causing impairment; and

iii. Available evidence of direct or toxic impacts on aquatic life, wildlife, or human health, such as fish kills and beach closures, where there is sufficient evidence that these impacts occurred due to water quality conditions in the surface water.

d. Other available water quality information, such as NPDES or AZPDES water quality discharge data, as applicable.

e. If the Department determines that a surface water or segment does not merit listing under numeric water quality standards based on criteria in subsections (C)(1), (C)(2), (D)(1), or (D)(2) for a pollutant, but there is evidence of a narrative standard exceedance in that surface water or segment under subsection (D)(3) as a result of the presence of the same pollutant, the Department shall list the surface water or segment as impaired only when the evidence indicates that the numeric water quality standard is insufficient to protect the designated use of the surface water or segment and the Department justifies the listing based on any of the following:

i. The narrative standard data provide a more direct indication of impairment as supported by professionally prepared and peer-reviewed publications;

ii. Sufficient evidence of impairment exists due to synergistic effects of pollutant combinations or site-specific environmental factors; or

iii. The pollutant is bioaccumulative, relatively insoluble in water, or has other characteristics that indicate it is occurring in the specific surface water or segment at levels below the laboratory detection limits, but at levels sufficient to result in an impairment.

3. The Department may consider a single line of water quality evidence when the evidence is sufficient to demonstrate that the surface water or segment is impaired or not attaining.

C. Planning List.

1. When evaluating a surface water or segment for placement on the Planning List.

a. Consider at least ten spatially or temporally independent samples collected over three or more temporally independent sampling events; and

b. Determine numeric water quality standards exceedances. The Department shall:

i. Place a surface water or segment on the Planning List following subsection (B), if the number of exceedances of a surface water quality standard is greater than or equal to the number listed in Table 1, which provides the number of exceedances that indicate a minimum of a 10 percent exceedance frequency with a minimum of a 80 percent confidence level using a binomial distribution for a given sample size; or

ii. For sample datasets exceeding those shown in Table 1, calculate the number of exceedances using the following equation: $(X \geq x \mid n, p)$ where n = number of samples; p = exceedance probability of 0.1; x = smallest number of exceedances required for listing with "n" samples; and confidence level ≥ 80 percent.

Table 1. Minimum Number of Samples Exceeding the Numeric Standard

MINIMUM NUMBER OF SAMPLES EXCEEDING THE NUMERIC STANDARD								
Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard
From	To		From	To		From	To	
10	15	3	173	181	22	349	357	41
16	23	4	182	190	23	358	367	42
24	31	5	191	199	24	368	376	43

32	39	6	200	208	25	377	385	44
40	47	7	209	218	26	386	395	45
48	56	8	219	227	27	396	404	46
57	65	9	228	236	28	405	414	47
66	73	10	237	245	29	415	423	48

83	91	12	256	264	31	433	442	50
92	100	13	265	273	32	443	451	51
101	109	14	274	282	33	452	461	52
110	118	15	283	292	34	462	470	53
119	126	16	293	301	35	471	480	54
127	136	17	302	310	36	481	489	55
137	145	18	311	320	37	490	499	56
146	154	19	321	329	38	500		57
155	163	20	330	338	39			
164	172	21	339	348	40			

2. When there are less than ten samples, the Department shall place a surface water or segment on the Planning List following subsection (B), if three or more temporally independent samples exceed the following surface water quality standards:
   a. The surface water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 1, except for nitrate or nitrate/nitrite;
   b. The surface water quality standard for temperature or the single sample maximum water quality standard for suspended sediment concentration, nitrogen, and phosphorus in R18-11-109;
   c. The surface water quality standard for radiochemicals in R18-11-109(G);
   d. The surface water quality standard for dissolved oxygen under R18-11-109(E);
   e. The surface water quality standard for pH under R18-11-109(B); or
   f. The following surface water quality standards in R18-11-112:
      i. Single sample maximum standards for nitrogen and phosphorus,
      ii. All metals except chromium, or
      iii. Turbidity.
3. The Department shall place a surface water or segment on the Planning List if information in subsections (B)(2)(c), (B)(2)(d), and (B)(2)(e) indicates that a narrative water quality standard violation exists, but no narrative implementation procedure required under A.R.S. § 49-232(F) exists to support use of the information for listing.

D. 303(d) List.
1. When evaluating a surface water or segment for placement on the 303(d) List.
   a. Consider at least 20 spatially or temporally independent samples collected over three or more temporally independent sampling events; and
   b. Determine numeric water quality standards exceedances. The Department shall:
      i. Place a surface water or segment on the 303(d) List, following subsection (B), if the number of exceedances of a surface water quality standard is greater than or equal to the number listed in Table 2, which provides the number of exceedances that indicate a minimum of a 10 percent exceedance frequency with a minimum of a 90 percent confidence level using a binomial distribution, for a given sample size; or
      ii. For sample datasets exceeding those shown in Table 2, calculate the number of exceedances using the following equation: $(X \geq x | n, p)$ where n = number of samples; p = exceedance probability of 0.1; x = smallest number of exceedances required for listing with "n" samples; and confidence level ≥ 90 percent.

Table 2. Minimum Number of Samples Exceeding the Numeric Standard

MINIMUM NUMBER OF SAMPLES EXCEEDING THE NUMERIC STANDARD								
Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard
From	To		From	To		From	To

139	147	20	307	315	39	480	489	58
148	156	21	316	324	40	490	498	59
157	164	22	325	333	41	499	500	60
165	173	23	334	343	42			

2. The Department shall place a surface water or segment on the 303(d) List, following subsection (B) without the required number of samples or numeric water quality standard exceedances under subsection (D)(1), if either the following conditions occur:
   a. More than one temporally independent sample in any consecutive three-year period exceeds the surface water quality standard in:
      i. The acute water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2 and the acute water quality standards in R18-11-112;
      ii. The surface water quality standard for nitrate or nitrate/nitrite in 18 A.A.C. 11, Article 1, Appendix A, Table 1; or
      iii. The single sample maximum water quality standard for bacteria in subsections R18-11-109(A).
   b. More than one exceedance of an annual mean, 90th percentile, aquatic and wildlife chronic water quality standard, or a bacteria 30-day geometric mean water quality standard occurs, as specified in R18-11-109, R18-11-110, R18-11-112, or 18 A.A.C. 11, Article 1, Appendix A, Table 2.
3. Narrative water quality standards exceedances. The Department shall place a surface water or segment on the Planning List if the listing requirements are met under A.R.S. § 49-232(F).

E. Removing a surface water, segment, or pollutant from the Planning List or the 303(d) List.
1. Planning List. The Department shall remove a surface water, segment, or pollutant from the Planning List when:
   a. Monitoring activities indicate that:
      i. There is sufficient credible data to determine that the surface water or segment is impaired under subsection (D), in which case the Department shall place the surface water or segment on the 303(d) List. This includes surface waters with an EPA approved TMDL when the Department determines that the TMDL strategy is insufficient for the surface water or segment to attain water quality standards; or
      ii. There is sufficient credible data to determine that the surface water or segment is attaining all designated uses and standards.
   b. All pollutants for the surface water or segment are delisted.
2. 303(d) List. The Department shall:
   a. Remove a pollutant from a surface water or segment from the 303(d) List based on one or more of the following criteria:
      i. The Department developed, and EPA approved, a TMDL for the pollutant;
      ii. The data used for previously listing the surface water or segment under R18-11-605(D) is superseded by more recent credible and scientifically defensible data meeting the requirements of R18-11-602, showing that the surface water or segment meets the applicable numeric or narrative surface water quality standard. When evaluating data to remove a pollutant from the 303(d) List, the monitoring entity shall collect the more recent data under similar hydrologic or climatic conditions as occurred when the samples were taken that indicated impairment, if those conditions still exist;
      iii. The surface water or segment no longer meets the criteria for impairment based on a change in the applicable surface water quality standard or a designated use approved by EPA under section 303(c)(1) of the Clean Water Act;
      iv. The surface water or segment no longer meets the criteria for impairment for the specific narrative water quality standard based on a change in narrative water quality standard implementation procedures;
      v. A re-evaluation of the data indicate that the surface water or segment does not meet the criteria for impairment because of a deficiency in the original analysis; or
      vi. Pollutant loadings from naturally occurring conditions alone are sufficient to cause a violation of applicable water quality standards;
   b. Remove a surface water, segment, or pollutant from the 303(d) List, based on criteria that are no more stringent than the listing criteria under subsection (D);
   c. Remove a surface water or segment from the 303(d) List if all pollutants for the surface water or segment are removed from the list;
   d. Remove a surface water, segment, or pollutant, from the 303(d) List and place it on the Planning List, if:
      i. The surface water, segment or pollutant was on the 1998 303(d) List and the dataset used in the original listing does not meet the credible data requirements under R18-11-602, or contains insufficient samples to meet the data requirements under subsection (D); or

ii. The monitoring data indicate that the impairment is due to pollution, but not a pollutant.

Historical Note
New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-606. TMDL Priority Criteria for 303(d) Listed Surface Waters or Segments

A. In addition to the factors specified in A.R.S. § 49-233(C), the Department shall consider the following when prioritizing an impaired water for development of TMDLs:
1. A change in a water quality standard;
2. The date the surface water or segment was added to the 303(d) List;
3. The presence in a surface water or segment of species listed as threatened or endangered under section 4 of the Endangered Species Act;
4. The complexity of the TMDL;
5. State, federal, and tribal policies and priorities; and
6. The efficiencies of coordinating TMDL development with the Department's surface water monitoring program, the watershed monitoring rotation, or with remedial programs.

B. The Department shall prioritize an impaired surface water or segment for TMDL development based on the factors specified in A.R.S. § 49-233(C) and subsection (A) as follows:
1. Consider an impaired surface water or segment a high priority if:
   a. The listed pollutant poses a substantial threat to the health and safety of humans, aquatic life, or wildlife based on:
      i. The number and type of designated uses impaired;
      ii. The type and extent of risk from the impairment to human health, aquatic life, or wildlife;
      iii. The pollutant causing the impairment, or
      iv. The severity, magnitude, and duration the surface water quality standard was exceeded;
   b. A new or modified individual NPDES or AZPDES permit is sought for a new or modified discharge to the impaired water;
   c. The listed surface water or segment is listed as a unique water in A.A.C. R18-11-112 or is part of an area classified as a "wilderness area," "wild and scenic river," or other federal or state special protection of the water resource;
   d. The listed surface water or segment contains a species listed as threatened or endangered under the federal Endangered Species Act and the presence of the pollutant in the surface water or segment is likely to jeopardize the listed species;
   e. A delay in conducting the TMDL could jeopardize the Department's ability to gather sufficient credible data necessary to develop the TMDL;
   f. There is significant public interest and support for the development of a TMDL;
   g. The surface water or segment has important recreational and economic significance to the public; or
   h. The pollutant is listed for eight years or more.
2. Consider an impaired surface water or segment a medium priority if:
   a. The surface water or segment fails to meet more than one designated use;
   b. The pollutant exceeds more than one surface water quality standard;
   c. A surface water quality standard exceedance is correlated to seasonal conditions caused by natural events, such as storms, weather patterns, or lake turnover;
   d. It will take more than two years for proposed actions in the watershed to result in the surface water attaining applicable water quality standards;
   e. The type of pollutant and other factors relating to the surface water or segment make the TMDL complex; or
   f. The administrative needs of the Department, including TMDL schedule commitments with EPA, permitting requirements, or basin priorities that require completion of the TMDL.
3. Consider an impaired surface water or segment a low priority if:
   a. The Department has formally submitted a proposal to delist the surface water, segment, or pollutant to EPA based on R18-11-605(E)(2). If the Department makes the submission outside the listing process cycle, the change in priority ranking will not be effective until EPA approves the submittal;
   b. The Department has modified, or formally proposed for modification, the designated use or applicable surface water quality standard, resulting in an impaired water no longer being impaired, but the modification has not been approved by EPA;
   c. The surface water or segment is expected to attain surface water quality standards due to any of the following:
      i. Recently instituted treatment levels or best management practices in the drainage area,
      ii. Discharges or activities related to the impairment have ceased, or
      iii. Actions have been taken and controls are in place or scheduled for implementation that will likely to bring the surface water back into compliance;
   d. The surface water or segment is ephemeral or intermittent. The Department shall re-prioritize the surface water or segment if the presence of the pollutant in the listed water poses a threat to the health and safety of humans, aquatic life, or wildlife using the water, or the pollutant is contributing to the impairment of a downstream perennial surface water or segment;
   e. The pollutant poses a low ecological and human health risk;
   f. Insufficient data exist to determine the source of the pollutant load;
   g. The uncertainty of timely coordination with national and international entities concerning international waters;
   h. Naturally occurring conditions are a major contributor to the impairment; and
   i. No documentation or effective analytical tools exist to develop a TMDL for the surface water or segment with reasonable accuracy.

C. The Department will target surface waters with high priority factors in subsections (B)(1)(a) through (B)(1)(d) for initiation of TMDLs within two years following EPA approval of the 303(d) List.

D. The Department may shift priority ranking of a surface water or segment for any of the following reasons:
1. A change in federal, state, or tribal policies or priorities that affect resources to complete a TMDL;
2. Resource efficiencies for coordinating TMDL development with other monitoring activities, including the Department's ambient monitoring program that monitors watersheds on a five-year rotational basis;
3. Resource efficiencies for coordinating TMDL development with Department remedial or compliance programs;
4. New information is obtained that will revise whether the surface water or segment is a high priority based on factors in subsection (B); and
5. Reduction or increase in staff or budget involved in the TMDL development.

E. The Department may complete a TMDL initiated before July 12, 2002 for a surface water or segment that was listed as impaired on the 1998 303(d) List but does not qualify for listing under the criteria in R18-11-605, if:
1. The TMDL investigation establishes that the water quality standard is not being met and the allocation of loads is expected to bring the surface water into compliance with standards,
2. The Department estimates that more than 50 percent of the cost of completing the TMDL has been spent,
3. There is community involvement and interest in completing the TMDL, or
4. The TMDL is included within an EPA-approved state workplan initiated before July 12, 2002.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

49-104. Powers and duties of the department and director

A. The department shall:

1. Formulate policies, plans and programs to implement this title to protect the environment.

2. Stimulate and encourage all local, state, regional and federal governmental agencies and all private persons and enterprises that have similar and related objectives and purposes, cooperate with those agencies, persons and enterprises and correlate department plans, programs and operations with those of the agencies, persons and enterprises.

3. Conduct research on its own initiative or at the request of the governor, the legislature or state or local agencies pertaining to any department objectives.

4. Provide information and advice on request of any local, state or federal agencies and private persons and business enterprises on matters within the scope of the department.

5. Consult with and make recommendations to the governor and the legislature on all matters concerning department objectives.

6. Promote and coordinate the management of air resources to ensure their protection, enhancement and balanced utilization consistent with the environmental policy of this state.

7. Promote and coordinate the protection and enhancement of the quality of water resources consistent with the environmental policy of this state.

8. Encourage industrial, commercial, residential and community development that maximizes environmental benefits and minimizes the effects of less desirable environmental conditions.

9. Ensure the preservation and enhancement of natural beauty and man-made scenic qualities.

10. Provide for the prevention and abatement of all water and air pollution including that related to particulates, gases, dust, vapors, noise, radiation, odor, nutrients and heated liquids in accordance with article 3 of this chapter and chapters 2 and 3 of this title.

11. Promote and recommend methods for the recovery, recycling and reuse or, if recycling is not possible, the disposal of solid wastes consistent with sound health, scenic and environmental quality policies. The department shall report annually on its revenues and expenditures relating to the solid and hazardous waste programs overseen or administered by the department.

12. Prevent pollution through regulating the storage, handling and transportation of solids, liquids and gases that may cause or contribute to pollution.

13. Promote the restoration and reclamation of degraded or despoiled areas and natural resources.

14. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

15. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

16. Unless specifically authorized by the legislature, ensure that state laws, rules, standards, permits, variances and orders are adopted and construed to be consistent with and not more stringent than the corresponding federal law that addresses the same subject matter. This paragraph does not adversely affect standards adopted by an Indian tribe under federal law.

17. Provide administrative and staff support for the oil and gas conservation commission.

B. The department, through the director, shall:

1. Contract for the services of outside advisers, consultants and aides reasonably necessary or desirable to enable the department to adequately perform its duties.

2. Contract and incur obligations reasonably necessary or desirable within the general scope of department activities and operations to enable the department to adequately perform its duties.

3. Use any medium of communication, publication and exhibition when disseminating information, advertising and publicity in any field of its purposes, objectives or duties.

4. Adopt procedural rules that are necessary to implement the authority granted under this title but that are not inconsistent with other provisions of this title.

5. Contract with other agencies, including laboratories, in furthering any department program.

6. Use monies, facilities or services to provide matching contributions under federal or other programs that further the objectives and programs of the department.

7. Accept gifts, grants, matching monies or direct payments from public or private agencies or private persons and enterprises for department services and publications and to conduct programs that are consistent with the general purposes and objectives of this chapter. Monies received pursuant to this paragraph shall be deposited in the department fund corresponding to the service, publication or program provided.

8. Provide for the examination of any premises if the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed on the premises. The director shall give the owner or operator the opportunity for its representative to accompany the director on an examination of those premises. Within forty-five days after the date of the examination, the department shall provide to the owner or operator a copy of any report produced as a result of any examination of the premises.

9. Supervise sanitary engineering facilities and projects in this state, authority for which is vested in the department, and own or lease land on which sanitary engineering facilities are located, and operate the facilities, if the director determines that owning, leasing or operating is necessary for the public health, safety or welfare.

10. Adopt and enforce rules relating to approving design documents for constructing, improving and operating sanitary engineering and other facilities for disposing of solid, liquid or gaseous deleterious matter.

11. Define and prescribe reasonably necessary rules regarding the water supply, sewage disposal and garbage collection and disposal for subdivisions. The rules shall:

(a) Provide for minimum sanitary facilities to be installed in the subdivision and may require that water systems plan for future needs and be of adequate size and capacity to deliver specified minimum quantities of drinking water and to treat all sewage.

(b) Provide that the design documents showing or describing the water supply, sewage disposal and garbage collection facilities be submitted with a fee to the department for review and that no lots in any subdivision be offered for sale before compliance with the standards and rules has been demonstrated by approval of the design documents by the department.

12. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious conditions at those places. The rules shall prescribe minimum standards for the design of and for sanitary conditions at any public or semipublic swimming pool or bathing place and provide for abatement as public nuisances of premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of health services and shall be consistent with the rules adopted by the director of the department of health services pursuant to section 36-136, subsection I, paragraph 10.

13. Prescribe reasonable rules regarding sewage collection, treatment, disposal and reclamation systems to prevent the transmission of sewage borne or insect borne diseases. The rules shall:

(a) Prescribe minimum standards for the design of sewage collection systems and treatment, disposal and reclamation systems and for operating the systems.

(b) Provide for inspecting the premises, systems and installations and for abating as a public nuisance any collection system, process, treatment plant, disposal system or reclamation system that does not comply with the minimum standards.

(c) Require that design documents for all sewage collection systems, sewage collection system extensions, treatment plants, processes, devices, equipment, disposal systems, on-site wastewater treatment facilities and reclamation systems be submitted with a fee for review to the department and may require that the design documents anticipate and provide for future sewage treatment needs.

(d) Require that construction, reconstruction, installation or initiation of any sewage collection system, sewage collection system extension, treatment plant, process, device, equipment, disposal system, on-site wastewater treatment facility or reclamation system conform with applicable requirements.

14. Prescribe reasonably necessary rules regarding excreta storage, handling, treatment, transportation and disposal. The rules may:

(a) Prescribe minimum standards for human excreta storage, handling, treatment, transportation and disposal and shall provide for inspection of premises, processes and vehicles and for abating as public nuisances any premises, processes or vehicles that do not comply with the minimum standards.

(b) Provide that vehicles transporting human excreta from privies, septic tanks, cesspools and other treatment processes be licensed by the department subject to compliance with the rules. The department may require payment of a fee as a condition of licensure. The department shall establish by rule a fee as a condition of licensure, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

15. Perform the responsibilities of implementing and maintaining a data automation management system to support the reporting requirements of title III of the superfund amendments and reauthorization act of 1986 (P.L. 99-499) and article 2 of this chapter.

16. Approve remediation levels pursuant to article 4 of this chapter.

17. Establish or revise fees by rule pursuant to the authority granted under title 44, chapter 9, articles 8 and 9 and chapters 4 and 5 of this title for the department to adequately perform its duties. All fees shall be fairly assessed and impose the least burden and cost to the parties subject to the fees. In establishing or revising fees, the department shall base the fees on the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses as defined in title 41, chapter 6 and enforcing the requirements of the applicable regulatory program.

18. Appoint a person with a background in oil and gas conservation to act on behalf of the oil and gas conservation commission and administer and enforce the applicable provisions of title 27, chapter 4 relating to the oil and gas conservation commission.

C. The department may:

1. Charge fees to cover the costs of all permits and inspections it performs to ensure compliance with rules adopted under section 49-203 except that state agencies are exempt from paying the fees.

2. Monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210.

3. Contract with private consultants for the purposes of assisting the department in reviewing applications for licenses, permits or other authorizations to determine whether an applicant meets the criteria for issuance of the license, permit or other authorization. If the department contracts with a consultant under this paragraph, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding any other law, monies paid by applicants for expedited reviews pursuant to this paragraph are appropriated to the department for use in paying consultants for services.

D. The director may:

1. If the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed, inspect any person or property in transit through this state and any vehicle in which the person or property is being transported and detain or disinfect the person, property or vehicle as reasonably necessary to protect the environment if a violation exists.

2. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.

49-203. Powers and duties of the director and department

A. The director shall:

1. Adopt, by rule, water quality standards in the form and subject to the considerations prescribed by article 2 of this chapter.

2. Adopt, by rule, a permit program for WOTUS that is consistent with but not more stringent than the requirements of the clean water act for the point source discharge of any pollutant or combination of pollutants into WOTUS. The program and the rules shall be sufficient to enable this state to administer the permit program identified in section 402(b) of the clean water act, including the sewage sludge requirements of section 405 of the clean water act and as prescribed by article 3.1 of this chapter.

3. Apply the program and rules authorized under paragraph 2 of this subsection to point source discharges to non-WOTUS protected surface waters, consistent with section 49-255.04, which establishes the program components and rules that do not apply to non-WOTUS protected surface waters. The following are exempt from the non-WOTUS protected surface waters point source discharge program:

(a) Discharges to a non-WOTUS protected surface water incidental to a recharge project.

(b) Established or ongoing farming, ranching and silviculture activities such as plowing, seeding, cultivating, minor drainage or harvesting for the production of food, fiber or forest products or upland soil and water conservation practices.

(c) Maintenance but not construction of drainage ditches.

(d) Construction and maintenance of irrigation ditches.

(e) Maintenance of structures such as dams, dikes and levees.

4. Adopt, by rule, a program to control nonpoint source discharges of any pollutant or combination of pollutants into WOTUS.

5. Adopt, by rule, an aquifer protection permit program to control discharges of any pollutant or combination of pollutants that are reaching or may with a reasonable probability reach an aquifer. The permit program shall be as prescribed by article 3 of this chapter.

6. Adopt, by rule, the permit program for underground injection control described in the safe drinking water act.

7. Adopt, by rule, technical standards for conveyances of reclaimed water and a permit program for the direct reuse of reclaimed water.

8. Adopt, by rule or as permit conditions, discharge limitations, best management practice standards, new source performance standards, toxic and pretreatment standards and other standards and conditions as reasonable and necessary to carry out the permit programs and regulatory duties described in paragraphs 2 through 6 of this subsection.

9. Assess and collect fees to revoke, issue, deny, modify or suspend permits issued pursuant to this chapter and to process permit applications. The director may also assess and collect costs reasonably necessary if the director must conduct sampling or monitoring relating to a facility because the owner or operator of the facility has refused or failed to do so on order by the director. The director shall set fees that are reasonably related to the department's costs of providing the service for which the fee is charged. Monies collected from aquifer protection permit fees and from Arizona pollutant discharge elimination system permit fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. Monies from other permit fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund unless otherwise provided by law. Monies paid by an applicant for review by consultants for the department pursuant to section 49-241.02, subsection B shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. State agencies are exempt from all fees imposed pursuant to this chapter.

10. Adopt, modify, repeal and enforce other rules that are reasonably necessary to carry out the director's functions under this chapter.

11. Require monitoring at an appropriate point of compliance for any organic or inorganic pollutant listed under section 49-243, subsection I if the director has reason to suspect the presence of the pollutant in a discharge.

12. Adopt rules establishing what constitutes a significant increase or adverse alteration in the characteristics or volume of pollutants discharged for purposes of determining what constitutes a major modification to an existing facility under the definition of new facility pursuant to section 49-201. Before adopting these rules, the director shall determine whether a change at a particular facility results in a significant increase or adverse alteration in the characteristics or volume of pollutants discharged on a case-by-case basis, taking into account site conditions and operational factors.

13. Consider evidence gathered by the Arizona navigable stream adjudication commission established by section 37-1121 when deciding whether a permit is required to discharge pursuant to article 3.1 of this chapter.

B. The director may:

1. On presentation of credentials, enter into, on or through any public or private property from which a discharge has occurred, is occurring or may occur or on which any disposal, land application of sludge or treatment regulated by this chapter has occurred, is occurring or may be occurring and any public or private property where records relating to a discharge or records that are otherwise required to be maintained as prescribed by this chapter are kept, as reasonably necessary to ensure compliance with this chapter. The director or a department employee may take samples, inspect and copy records required to be maintained pursuant to this chapter, inspect equipment, activities, facilities and monitoring equipment or methods of monitoring, take photographs and take other action reasonably necessary to determine the application of, or compliance with, this chapter. The owner or managing agent of the property shall be afforded the opportunity to accompany the director or department employee during inspections and investigations, but prior notice of entry to the owner or managing agent is not required if reasonable grounds exist to believe that notice would frustrate the enforcement of this chapter. If the director or department employee obtains any samples before leaving the premises, the director or department employee shall give the owner or managing agent a receipt describing the samples obtained and a portion of each sample equal in volume or weight to the portion retained. If an analysis is made of samples, or monitoring and testing are performed, a copy of the results shall be furnished promptly to the owner or managing agent.

2. Require any person who has discharged, is discharging or may discharge into the waters of the state under article 3, 3.1 or 3.3 of this chapter and any person who is subject to pretreatment standards and requirements or sewage sludge use or disposal requirements under article 3.1 of this chapter to collect samples, to establish and maintain records, including photographs, and to install, use and maintain sampling and monitoring equipment to determine the absence or presence and nature of the discharge or indirect discharge or sewage sludge use or disposal.

3. Administer state or federal grants, including grants to political subdivisions of this state, for the construction and installation of publicly and privately owned pollutant treatment works and pollutant control devices and establish grant application priorities.

4. Develop, implement and administer a water quality planning process, including a ranking system for applicant eligibility, wherein appropriated state monies and available federal monies are awarded to political subdivisions of this state to support or assist regional water quality planning programs and activities.

5. Enter into contracts and agreements with the federal government to implement federal environmental statutes and programs.

6. Enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3 if the agreement is necessary to more effectively administer the powers and duties described in this chapter.

7. Participate in, conduct and contract for studies, investigations, research and demonstrations relating to the causes, minimization, prevention, correction, abatement, mitigation, elimination, control and remedy of discharges and collect and disseminate information relating to discharges.

8. File bonds or other security as required by a court in any enforcement actions under article 4 of this chapter.

C. Subject to section 38-503 and other applicable statutes and rules, the department may contract with a private consultant to assist the department in reviewing aquifer protection permit applications and on-site wastewater treatment facilities to determine whether a facility meets the criteria and requirements of this chapter and the rules adopted by the director. Except as provided in section 49-241.02, subsection B, the department shall not use a private consultant if the fee charged for that service would be greater than the fee the department would charge to provide that service. The department shall pay the consultant for the services rendered by the consultant from fees paid by the applicant or facility to the department pursuant to subsection A, paragraph 9 of this section.

D. The director shall integrate all of the programs authorized in this section and other programs affording water quality protection that are administered by the department for purposes of administration and enforcement and shall avoid duplication and dual permitting to the maximum extent practicable.

49-221. Water quality standards in general; protected surface waters list

A. The director shall:

1. Adopt, by rule, water quality standards for all WOTUS and for all waters in all aquifers to preserve and protect the quality of those waters for all present and reasonably foreseeable future uses. For non-WOTUS protected surface waters, the director shall apply surface water quality standards established as of January 1, 2021, until specifically changed by the director pursuant to paragraph 2 of this subsection. Rules regarding the following shall not be adopted or applied as water quality standards for non-WOTUS protected surface waters:

(a) Antidegradation.

(b) Antidegradation criteria.

(c) Outstanding Arizona waters.

2. Adopt, by rule, water quality standards for non-WOTUS protected surface waters, by December 31, 2022, consistent with paragraph 1 of this subsection and as determined necessary in the rulemaking process. In adopting those standards, the director shall consider the unique characteristics of this state's surface waters and the economic, social and environmental costs and benefits that would result from the adoption of a water quality standard at a particular level or for a particular water category.

B. The director may adopt, by rule, water quality standards for waters of the state other than those described in subsection A of this section, including standards for the use of water pumped from an aquifer that does not meet the standards adopted pursuant to section 49-223, subsections A and B and that is put to a beneficial use other than drinking water. These standards may include standards for the use of water pumped as part of a remedial action. In adopting such standards, the director shall consider the economic, social and environmental costs and benefits that would result from the adoption of a water quality standard at a particular level or for a particular water category.

C. In setting standards pursuant to subsection A or B of this section, the director shall consider the following:

1. The protection of the public health and the environment.

2. The uses that have been made, are being made or with reasonable probability may be made of these waters.

3. The provisions and requirements of the clean water act and safe drinking water act and the regulations adopted pursuant to those acts.

4. The degree to which standards for one category of waters could cause violations of standards for other, hydrologically connected, water categories.

5. Guidelines, action levels or numerical criteria adopted or recommended by the United States environmental protection agency or any other federal agency.

6. Any unique physical, biological or chemical properties of the waters.

D. Water quality standards shall be expressed in terms of the uses to be protected and, if adequate information exists to do so, numerical limitations or parameters, in addition to any narrative standards that the director deems appropriate.

E. The director may adopt by rule water quality standards for the direct reuse of reclaimed water. In establishing these standards, the director shall consider the following:

1. The protection of public health and the environment.

2. The uses that are being made or may be made of the reclaimed water.

3. The degree to which standards for the direct reuse of reclaimed water may cause violations of water quality standards for other hydrologically connected water categories.

F. If the director proposes to adopt water quality standards for agricultural water, the director shall consult, cooperate, collaborate and, if necessary, enter into interagency agreements and memoranda of understanding with the Arizona department of agriculture relating to its administration pursuant to title 3, chapter 3, article 4.1 of this state's authority relating to agricultural water under the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112, subpart E) and any other federal produce safety regulation, order or guideline or other requirement adopted pursuant to the FDA food safety modernization act (P.L. 111-353; 21 United States Code sections 2201 through 2252). For the purposes of this subsection:

1. "Agricultural water":

(a) Means water that is used in a covered activity on produce where water is intended to, or is likely to, contact produce or food contact surfaces.

(b) Includes all of the following:

(i) Water used in growing activities, including irrigation water, water used for preparing crop sprays and water used for growing sprouts.

(ii) Water used in harvesting, packing and holding activities, including water used for washing or cooling harvested produce and water used for preventing dehydration of produce.

2. "Covered activity" means growing, harvesting, packing or holding produce. Covered activity includes processing produce to the extent that the activity is within the meaning of farm as defined in section 3-525.

3. "Harvesting" has the same meaning prescribed in section 3-525.

4. "Holding" has the same meaning prescribed in section 3-525.

5. "Packing" has the same meaning prescribed in section 3-525.

6. "Produce" has the same meaning prescribed in section 3-525.

G. The director shall maintain and publish a protected surface waters list. The department shall publish the initial list on the department's website and in the Arizona administrative register within thirty days after September 29, 2021. Not later than December 31, 2022, the department shall adopt by rule the protected surface waters list, including procedures for determining economic, social and environmental costs and benefits. Publication of the list in the Arizona administrative register is an appealable agency action pursuant to title 41, chapter 6, article 10 and may be appealed by any party that provides evidence of an actual adverse effect that the party appealing the decision would suffer as a result of the director's decision. All of the following apply to the protected surface water list:

1. The protected surface waters list shall include:

(a) All WOTUS.

(b) Any perennial, intermittent and ephemeral reaches and any impoundments of the following rivers, not including tributaries or reaches of waters wholly within tribal jurisdiction or reaches of waters outside of the United States:

(i) The Bill Williams river, from the confluence of the Big Sandy and Santa Maria rivers at 113°31'38.617"w, 34°18'22.373"n, to its confluence with the Colorado river at 114°8'9.854"w, 34°18'9.33"n.

(ii) The Colorado river, from the Arizona-Utah border at 111°32'35.741"w, 36°58'51.698"n, to the Arizona-Mexico border at 114°43'12.564"w, 32°43'6.218"n.

(iii) The Gila river, from the Arizona-New Mexico border at 109°2'52.8"w, 32°41'11.2015"n, to the confluence with the Colorado river at 114°33'28.145"w, 32°43'14.408"n.

(iv) The Little Colorado river, from the confluence of the east and west forks of the Little Colorado river at 109°28'7.131"w, 33°59'39.852"n, to its confluence with the Colorado river at 111°49'4.693"w, 36°12'10.243"n.

(v) The Salt river, from the confluence of the Black and White rivers at 110°13'39.5"w, 33°44'6.082"n, to the confluence with the Gila river at 112°18'5.704"w, 33°22'42.978"n.

(vi) The San Pedro river, from the Arizona-Mexico border at 110°9'1.704"w, 31°20'2.387"n, to the confluence with the Gila river at 110°47'0.905"w, 32°59'5.671"n.

(vii) The Santa Cruz river, from its origins in the Canelo Hills of southeastern Arizona at 110°37'3.968"w, 31°27'39.21"n, to its confluence with the Gila river at 111°33'26.02"w, 32°41'39.058"n.

(viii) The Verde river, from Sullivan lake at 112°28'10.588"w, 34°52'11.136"n, to its confluence with the Salt river at 111°39'48.32"w, 33°33'20.538"n.

(c) Any non-WOTUS waters of the state that are added under paragraphs 3 and 4 of this subsection.

2. Notwithstanding paragraph 1 of this subsection, the protected surface waters list shall not contain any of the following non-WOTUS waters:

(a) Canals in the Yuma project and ditches, canals, pipes, impoundments and other facilities that are operated by districts organized under title 48, chapters 18, 19, 20, 21 and 22 and that are not used to directly deliver water for human consumption, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the owner and operator of the ditch or canal until the owner and operator withdraws its request.

(b) Irrigated areas, including fields flooded for agricultural production.

(c) Ornamental and urban ponds and lakes such as those owned by homeowners' associations and golf courses, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the owner of the ornamental or urban pond or lake until the owner withdraws its request.

(d) Swimming pools and other bodies of water that are regulated pursuant to section 49-104, subsection B.

(e) Livestock and wildlife water tanks and aquaculture tanks that are not constructed within a protected surface water.

(f) Stormwater control features.

(g) Groundwater recharge, water reuse and wastewater recycling structures, including underground storage facilities and groundwater savings facilities permitted under title 45, chapter 3.1 and detention and infiltration basins, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the owner of the groundwater recharge, water reuse or wastewater recycling structure until the owner withdraws its request.

(h) Water-filled depressions created as part of mining or construction activities or pits excavated to obtain fill, sand or gravel.

(i) All waste treatment systems components, including constructed wetlands, lagoons and treatment ponds, such as settling or cooling ponds, designed to either convey or retain, concentrate, settle, reduce or remove pollutants, either actively or passively, from wastewater before discharge or to eliminate discharge.

(j) Groundwater.

(k) Ephemeral waters except for those prescribed in paragraph 1, subdivision (b) of this subsection.

(l) Lakes and ponds owned and managed by the United States department of defense and other surface waters located on and that do not leave United States department of defense property, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the United States department of defense until it withdraws its request.

3. Unless listed in paragraph 2 of this subsection, the director shall add the following non-WOTUS surface waters to the protected surface waters list:

(a) All lakes, ponds and reservoirs that are public waters used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water.

(b) Perennial waters or intermittent waters of the state that are used as a drinking water source, including ditches and canals.

(c) Perennial or intermittent tributaries to the Bill Williams river, the Colorado river, the Gila river, the Little Colorado river, the Salt river, the San Pedro river, the Santa Cruz river and the Verde river.

(d) Perennial or intermittent public waters used for recreational or commercial fish consumption.

(e) Perennial or intermittent public waters used for water-based recreation such as swimming, wading, boating and other types of recreation in and on the water.

(f) Perennial or intermittent wetlands adjacent to waters on the protected surface waters list.

(g) Perennial or intermittent waters of the state that cross into another state, the Republic of Mexico or the reservation of a federally recognized tribe.

4. The director may add additional non-WOTUS surface waters to the protected surface waters list if all of the following apply:

(a) The water is not required to be listed under paragraph 1 or 3 of this subsection.

(b) The water is not excluded under paragraph 2 of this subsection.

(c) The economic, environmental and social benefits of adding the water outweigh the economic, environmental and social costs of excluding the water from the list.

5. The director shall remove any erroneously listed, non-WOTUS waters from the protected surface waters list when the water is excluded under paragraph 2 of this subsection and shall not regulate discharges to those waters in the interim.

6. The director shall remove non-WOTUS waters from the protected surface waters list when the water is not required to be listed under paragraph 3 of this subsection and the economic, environmental and social benefits of removing the water outweigh the economic, environmental and social costs of retaining the water on the list.

7. The director, on an emergency basis, may add a water to the protected surface waters list if the director discovers an imminent and substantial danger to public health or welfare or the environment, if the water would otherwise qualify to be added under paragraph 3 of this subsection. Notwithstanding any other law, the emergency addition shall take effect immediately on the director's determination that describes the imminent and substantial danger in writing. Within thirty days after the director's determination, the department shall publish a notice of that determination in the Arizona administrative register and on the department's website. Waters added under this subsection shall be incorporated into the protected surface waters list during the next rulemaking that follows the addition.

49-223. Aquifer water quality standards

A. Primary drinking water maximum contaminant levels established by the administrator before August 13, 1986 are adopted as drinking water aquifer water quality standards. The director may only adopt additional aquifer water quality standards by rule. Within one year after the administrator establishes additional primary drinking water maximum contaminant levels, the director shall open a rule making docket pursuant to section 41-1021 for adoption of those maximum contaminant levels as drinking water aquifer water quality standards. If substantial opposition is demonstrated in the rule making docket regarding a particular constituent, the director may adopt for that constituent the maximum contaminant level as a drinking water aquifer water quality standard upon making a finding that this level is appropriate for adoption in Arizona as an aquifer water quality standard. In making this finding, the director shall consider whether the assumptions about technologies, costs, sampling and analytical methodologies and public health risk reduction used by the administrator in developing and implementing the maximum contaminant level are appropriate for establishing a drinking water aquifer water quality standard. For purposes of this subsection "substantial opposition" means information submitted to the director that explains with reasonable specificity why the maximum contaminant level is not appropriate as an aquifer water quality standard.

B. The director may adopt by rule numeric drinking water aquifer water quality standards for pollutants for which the administrator has not established primary drinking water maximum contaminant levels or for which a maximum contaminant level has been established but the director has determined it to be inappropriate as an aquifer water quality standard pursuant to subsection A of this section. These standards shall be based on the protection of human health. In establishing numeric drinking water aquifer water quality standards, the director shall rely on technical protocols appropriate for the development of aquifer water quality standards and shall base the standards on credible medical and toxicological evidence that has been subjected to peer review.

C. Any person may petition the director to adopt a numeric drinking water aquifer quality standard for any pollutant for which no drinking water aquifer quality standard exists. The director shall grant the petition and institute rule making proceedings adopting a numeric standard as provided under subsection B of this section within one hundred eighty days if the petition shows that the pollutant is a toxic pollutant, that the pollutant has been, or may in the future be, detected in any of the state's drinking water aquifers, and that there exists technical information on which a numeric standard might reasonably be based. Within one year of the commencement of the rule making proceeding, the director shall either adopt a numeric standard or make and publish a finding that, pursuant to subsection B of this section, the development of a numeric standard is not possible. The decision to not adopt a numeric standard shall, for purposes of judicial review, be treated in the same manner as a rule adopted pursuant to title 41, chapter 6.

D. For purposes of assessing compliance with each aquifer water quality standard adopted pursuant to this section, the director shall for purposes of articles 3 and 4 of this chapter, and may for purposes of other provisions of this title, identify sampling and analytical protocols appropriate for detecting and measuring the pollutant in the aquifers in the state.

E. Within one year from the reclassification of an aquifer to a non-drinking water status, pursuant to section 49-224, the director shall adopt water quality standards for that aquifer. For any pollutants which were not the basis for the reclassification, the applicable standard shall be identical with the standard for those pollutants adopted pursuant to subsections A and B of this section. For any pollutants which were the basis for reclassification, the standard shall be sufficient to achieve the purpose for which the aquifer was reclassified but shall minimize unnecessary degradation of the aquifer by taking into consideration the potential long-term uses of the aquifer and the short-term and long-term benefits of the activities resulting in discharges into the aquifer.

F. The director shall adopt water quality standards for an aquifer for which a petition has been submitted pursuant to section 49-224, subsection D sufficient to achieve the non-drinking water use for which that aquifer was classified, taking into consideration the potential long-term uses of that aquifer and the short-term and long-term benefits of the discharging activities creating that aquifer.

G. In any action pursuant to this title, aquifer water quality protection provisions, including monitoring requirements, may be imposed only for pollutants for which aquifer water quality standards have been established that are likely to be present in a discharge. Indicator parameters and quality assurance parameters appropriate for such pollutants also may be specified.

49-224. Aquifer identification, classification and reclassification

A. Not later than June 30, 1987 the director shall, by rule, identify and define the boundaries of all aquifers in this state utilizing, to the maximum extent possible, data available from the department of water resources.

B. All aquifers in this state identified and defined under subsection A of this section and any other aquifers subsequently discovered, identified and defined shall be classified for drinking water protected use unless the classification is changed in the manner provided in subsection C of this section.

C. The director, after consulting with the appropriate groundwater users advisory council established pursuant to title 45, chapter 2, article 2 if the aquifer is in an active management area, and a public hearing held pursuant to section 49-208, may change the classification of an aquifer or part of an aquifer for a protected use other than drinking water on making all of the following findings:

1. The identified aquifer or part of an aquifer is or will be so hydrologically isolated from other aquifers or other parts of the same aquifer that there is no reasonable probability that poorer quality water from the identified aquifer or part of an aquifer will cause or contribute to a violation of aquifer water quality standards in other aquifers or parts of the same aquifer.

2. Water from the identified aquifer or part of an aquifer is not being used as drinking water.

3. The short-term and long-term benefits to the public that would result from the degradation of the quality of the water in the identified aquifer or part of an aquifer below standards established pursuant to section 49-223, subsections A and B would significantly outweigh the short-term and long-term costs to the public of such degradation. Benefits and costs to be considered include economic, social and environmental.

D. Owners or operators of facilities whose discharges are solely responsible for creating an aquifer may petition the director for a classification of the aquifer for a non-drinking water use. The director may, by rule, classify that aquifer for a non-drinking water use upon making the findings prescribed in subsection C, paragraphs 1 and 2 of this section.

E. The director shall provide for public participation in proceedings under this section pursuant to section 49-208 and shall hold at least one public hearing at a location as near as practicable to the aquifer proposed for reclassification.

ADEQ - AWQS Rulemaking - Inquiry Response

Jon Rezabek <rezabek.jon@azdeq.gov> Tue, May 6, 2025 at 6:33 AM
To: GRRC - ADOA <grrc@azdoa.gov>, Simon Larscheidt <simon.larscheidt@azdoa.gov>, Thomas Mc Neeley <thomas.mcneeley@azdoa.gov>

GRRC,

Concerning Items D1 through 5 in the Council Meeting agenda for 5/6/25, Council Member Thorwald had a number of inquiries on these items during the 4/29/25 Study Session.
ADEQ has developed the following response to one of the inquiries, which was, roughly:

Q: *How does a facility that is or is planning on potentially "discharging" a pollutant know whether their activity is subject to Aquifer Protection Program (APP) regulation?*

A: An APP applicability analysis starts with the assumption that "*...any person who discharges or who owns or operates a facility that discharges shall obtain an aquifer protection permit from the director ... [u]nless otherwise provided by this article..." --* A.R.S. § 49-241(A).

From that assumption, a potential discharging activity may fall out of APP applicability based on an examination of the definitions of the operative words in A.R.S. § 49-241(A), including:

- "Discharge" is defined at A.R.S. § 49-201(12) as, *"...[f]or purposes of the aquifer protection permit program prescribed by article 3 of this chapter, discharge means the addition of a pollutant from a facility either directly to an aquifer or to the land surface or the vadose zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.*

- "Facility" is defined at A.R.S. § 49-201(19) as,*"...any land, building, installation, structure, equipment, device, conveyance, area, source, activity or practice from which there is, or with reasonable probability may be, a discharge."*

- "Pollutant" is defined at A.R.S. § 49-201(35) as,*"...fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances."*

Furthermore, analysis of A.R.S. § 49-241, Subsection B may be necessary to determine applicability of the activity. In summary, this subsection delineates:

- a list of 10 categorical discharging facilities, automatically required to attain APP permit coverage to operate, unless
- the activity falls under one of the statutory exemptions to APP at A.R.S. § 49-250(B), or
- the director determines that a facility will be designed, constructed and operated so that there will be no migration of pollutants directly to the aquifer or to the vadose zone.

  "[u]nless exempted under section 49-250, or unless the director determines that the facility will be designed, constructed and operated so that there will be no migration of pollutants directly to the aquifer or to the vadose zone, the following are considered to be discharging facilities and shall be operated pursuant to either an individual permit or a general permit, including agricultural general permits, under this article (1) Surface impoundments, including holding, storage settling, treatment or disposal pits, ponds and lagoons. (2) Solid waste disposal facilities except for mining overburden and wall rock that has not been and will not be subject to mine leaching operations. (3) Injection wells. (4) Land treatment facilities. (5) Facilities that add a pollutant to a salt dome formation, salt bed formation, dry well or underground cave or mine. (6) Mine tailings piles and ponds. (7) Mine leaching operations. (8) Underground water storage facilities. (9) Sewage treatment facilities, including on-site wastewater treatment facilities. (10) Wetlands designed and constructed to treat municipal and domestic wastewater for underground storage."

Additionally, A.R.S. 49-250(A) allows the the director to exempt classes or categories of facilities from APP requirements

by rule under certain circumstances. This list of "Class Exemptions" can be found at A.A.C. R18-9-103.

Besides undergoing the above analysis, which ADEQ welcomes preliminary questions on, the rule allows for a potential applicant to formally request a "Determination of Applicability" (DOA) under A.A.C. R18-9-106. An ADEQ APP - DOA form is attached to this email for review.

Thank you,

Jon Rezabek

DOA Review Request Form_05 2024.doc
241K

AQUIFER PROTECTION PERMIT DETERMINATION OF APPLICABILITY (DOA)

INSTRUCTIONS

This form enables the staff of the ADEQ Groundwater Protection Value Stream to determine the applicability of A.R.S. §§ 49-241 through 49-252 to an operation or an activity that may result in a discharge regulated under Articles 1, 2, and 3 of the Arizona Administrative Code (A.A.C.). Please answer all questions and where applicable, provide sufficient detail for the conceptual or existing facility or activity to explain your answers. Attach additional reference sheets along with any design plans, site plans, maps, etc., that may assist us in this review.

GENERAL APPLICATION PROCESS

1) Applicant submits the DOA application including any attachments.
2) Applicant satisfies any deficiencies identified during the review process.
3) ADEQ makes a Determination of Applicability.
4) ADEQ sends the final bill.
5) Applicant pays the bill.
6) The project manager signs the Determination of Applicability.
7) ADEQ mails the Determination of Applicability.

FEES

The Department shall assess and collect an hourly rate fee for the number of review hours required to provide a water quality protection service, billed monthly and up to the maximum fee. A.A.C. R18-14-102 &103. Fee rates and maximum fees are available at: https://azdeq.gov/GroundwaterIndPermitsFees

APPLICANT

The DOA application form must be signed by the applicant; i.e. a "person who is engaging or who proposes to engage in the operation or activity" (A.A.C. R18-9-106(B)(2)). ADEQ will not accept a DOA application form signed by a third party, such as the client's representative or consultant.

HOW LONG DOES THE APPLICATION PROCESS TAKE?

The time frame specified by A.A.C. R18-9-106 is 45 days.

WITHDRAWING YOUR APPLICATION

An application may be withdrawn by the applicant at any time during the application process in accordance with A.A.C. R18-1-517. You may withdraw your application by submitting a written request to the reviewer assigned to your project. A final bill will be assessed at the time of withdrawal.

WHERE DO I SUBMIT MY APPLICATION?

Submit your DOA application to:

Arizona Department of Environmental Quality
Water Quality Division
Groundwater Protection and Reuse Section
1110 West Washington Street
Phoenix, AZ 85007

WHERE DO I GET HELP?

Program guidance can be found on our website at: http://www.azdeq.gov/environ/water/permits/app.html. A copy of the rules and statutes relating to the DOA can also be found on this website. It is strongly recommended that you review the applicable rules and statutes to ensure that you provide a complete and accurate application. ADEQ recommends scheduling a pre-application meeting to go over the various details of the program (The Project Manager's first hour of the pre-application meeting is free). During the application process, you are encouraged to communicate with the project team to resolve any issues that may arise during the process.

4 Certification Statement [A.A.C. R18-9-A201(B)(7)]

I certify under penalty of law that this Aquifer Protection Permit application and all attachments were prepared under my direction or authorization and all information is, to the best of my knowledge, true, accurate and complete. I also certify that the APP discharging facilities described in this form is or will be designed, constructed, operated, and/or enclosed in accordance with the terms and conditions the Aquifer Protection Permit and applicable requirements of Arizona Revised Statutes Title 49, Chapter 2, and Arizona Administrative Code Title 18, Chapter 9 regarding aquifer protection permits. I am aware that there are significant penalties for submitting false information, including permit revocation as well as the possibility of fine and imprisonment for knowing violations.

Pursuant to A.R.S. § 41-1030:

(1) ADEQ shall not base a licensing decision, in whole or in part, on a requirement or condition not specifically authorized by statute or rule. General authority in a statute does not authorize a requirement or condition unless a rule is made pursuant to it that specifically authorizes the requirement or condition.

(2) Prohibited licensing decisions may be challenged in a private civil action. Relief may be awarded to the prevailing party against ADEQ, including reasonable attorney fees, damages, and all fees associated with the license application.

(3) ADEQ employees may not intentionally or knowingly violate the requirement for specific licensing

The purpose of a Determination of Applicability application review is to evaluate if there are discharging facilities or any discharging activities regulated by the Aquifer Protection Permit requirements. The evaluation of the conceptual or existing facility/activity includes whether there are exemptions from the APP requirements or if there is a General APP that may be applicable. Please provide the following information:

1. List any potential categorical discharging facilities (see definition provided in the attachment to this form). Categorical facilities include surface impoundments, solid waste disposal facilities, sewage treatment facilities, and others.
    a. For each facility listed, indicate whether it has operated in the past, is currently operating, is not yet constructed, or is constructed but not yet operating.

2. List any activity that could potentially be considered a discharge (see definition provided in the attachment to this form). Examples of discharge include wastewater disposal on the ground surface, placement of non-inert material on the ground surface, or other activities that place pollutants on the ground surface in a manner that there is a reasonable probability that the pollutant will reach an aquifer.

a. For each activity listed, indicate whether it has occurred in the past, is currently occurring, or has not yet occurred.

3. Describe the potential categorical discharging facility and/or discharging activity.

4. Provide a site diagram that includes the potential categorical discharging facility and/or discharging activity. Include a North arrow and scale, and label all potential discharging facilities and discharge locations.

5. Provide a process flow diagram that shows the process that produces the potential discharge or materials that go to a discharging facility and/or discharging activity.

6. Provide a description of any exemption or general permit that you think may apply to the potential categorical discharging facility and/or activity. Include any documentation to support this conclusion, for example, laboratory data showing a material is inert, design documentation showing that a structure meets the tank exemption (see Additional Information Related to Tanks and Sumps), closure documentation (see Additional Information Related to Closed Facilities), etc. "Exemptions" and "General Permits" sections at the end of this document may be helpful in providing documentation that an exemption or general permit criteria are met.

7. List any environmental permits held for the operation, facility or activity. Provide the permit number and the name of the issuing entity.

ADDITIONAL INFORMATION RELATED TO TANKS AND SUMPS

a. Is the structure stationary?
b. Is the structure constructed of material compatible with the anticipated materials to be contained?
c. Is the structure constructed of concrete, steel, plastic, fiberglass or other non-earthen material?
d. Is the structure constructed of material that is resistant to wear caused by any equipment that will be placed in or enter the structure for purposes of repair or cleanout?
e. Does the structure provide substantial structural support?
f. Are all joints sealed and maintained so as not to leak?
g. Is the structure capable of fully containing the material that is to be held without overflow?

ADDITIONAL INFORMATION RELATED TO CLOSED FACILITIES

List each closed facility in the format provided (Attachment 1) and provide the following information in the "Justification/Documentation" section:

- all inflows and outflows to the facility
- the source of inflows and outflows (include a process flow diagram)
- dates discharge started and ended
- discharge description, characterization
- discharge location, volumes, frequency
- method of transfer into and out of facility
- date ADEQ approved clean closure of the facility
- description of any remedial or reclamation activity/action

For each closed facility listed in Attachment 1, indicate in the "Statute/Rule/Policy" section, which of the following criteria apply. Attach additional sheets and references as needed.

- Facility ceased operation before Jan. 1, 1986 (A.R.S. 49-201.7)
- As of August 13, 1986, facility was not engaged in any activity for which the facility was designed and that was previously operated with no intent to resume operation (A.R.S. 49-201.7)
- Facility's post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed (A.R.S. 49-201.7)
- Facility had new installations or modifications after January 1, 1986 to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sump and diversions (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications primary purpose is to manage, treat, or contain surface or subsurface flows (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications are NOT used to produce a marketed commodity (Substantive Policy Statement 3013.000)

ATTACHMENT 1			
SUMMARY OF CLOSED FACILITIES AND JUSTIFICATION			
Closed Facility	Date Closed	Statute/Rule/Policy	Justification/Documentation

DEFINITIONS

AQUIFER – (A.R.S. §49-201) means a geologic unit that contains sufficient saturated permeable material to yield usable quantities of water to a well or spring.

AQUIFER PROTECTION PERMIT - means an individual or general permit issued under A.R.S. §§ 49-203, 49-241 through 252, and A.A.C. Title 18 Chapter 9, Articles 1, 2 and 3.

CATEGORICAL DISCHARGING FACILITY – means (A.R.S. §49-241.B)
1. Surface impoundments, including holding, storage settling, treatment or disposal pits, ponds and lagoons.
2. Solid waste disposal facilities except for mining overburden and wall rock that has not been and will not be subject to mine leaching operations.
3. Injection wells.
4. Land treatment facilities.
5. Facilities that add a pollutant to a salt dome formation, salt bed formation, dry well or underground cave or mine.
6. Mine tailings piles and ponds.
7. Mine leaching operations.
8. Underground water storage facilities.
9. Sewage treatment facilities, including on-site wastewater treatment facilities.
10. Wetlands designed and constructed to treat municipal and domestic wastewater for underground storage.

CLOSED FACILITY – means (A.R.S. §49-201.7):

(a) A facility that ceased operation before January 1, 1986, that is not, on August 13, 1986, engaged in the activity for which the facility was designed and that was previously operated and for which there is no intent to resume operation as provided by A.R.S. § 49-201.

(b) A facility that has been approved as a clean closure by the director as provided by A.R.S. § 49-201.

(c) A facility at which any post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed as provided by A.R.S. § 49-201.

(d) Any facility designed and operated to manage, treat or contain surface or subsurface flows at or from a closed facility (as defined in A.R.S. 49-201(7)(a)-(c)), to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sumps and diversions, even if such facilities were installed or modified after January 1, 1986, so long as the facility's primary purpose is to manage, treat, or contain surface or subsurface or subsurface flows and not for the production of a marketed commodity.

DISCHARGE – (A.R.S. §49-201) means the direct or indirect addition of any pollutant to the waters of the state from a facility. For purposes of the Aquifer Protection Permit program prescribed by Title 49, Article 3, Chapter 2 of the Arizona Revised Statutes, discharge means the addition of a pollutant from a facility either directly to an aquifer or to the land surface or the vadose zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.

DRYWELL - A.R.S. §49-331) means a well which is a bored, drilled or driven shaft or hole whose depth is greater than its width and is designed and constructed specifically for the disposal of storm water. Drywells do not include class 1, class 2, class 3 or class 4 injection wells as defined by the Federal Underground Injection Control Program (P.L. 93-523, part C), as amended.

FACILITY – (A.R.S. §49-201) means any land, building, installation, structure, equipment, device, conveyance, area, source, activity or practice from which there is, or with reasonable probability may be, a discharge.

INERT MATERIAL – (A.R.S. §49-201) means broken concrete, asphaltic pavement, manufactured asbestos-containing products, brick, rock, gravel, sand and soil. Inert material also includes material that when subjected to a water leach test that is designed to approximate natural infiltrating waters will not leach substances in concentrations that exceed numeric aquifer water quality standards established pursuant to section 49-223, including overburden and wall rock that is not acid generating, taking into consideration acid neutralization potential, and that has not and will not be subject to mine leaching operations.

POLLUTANT - (A.R.S. §49-201) means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances.

SEWAGE TREATMENT FACILITY – (A.A.C. R18-9-101) means a plant or system for sewage treatment and disposal, except an on-site wastewater treatment facility, that consists of treatment works, disposal works, and appurtenant pipelines, conduits, pumping stations, and related subsystems and devices.

SURFACE IMPOUNDMENT - (A.A.C. R18-9-101) means a pit, pond or lagoon, having a surface dimension that is equal to or greater than its depth, which is used for the storage, holding, settling, treatment or discharge of liquid pollutants or pollutants containing free liquids.

TANK – (A.R.S. §49-201) means a stationary device, including a sump, that is constructed of concrete, steel, plastic, fiberglass, or other non-earthen material that provides substantial structural support, and that is designed to contain an accumulation of solid, liquid or gaseous materials.

EXEMPTIONS

EXEMPTIONS – A.R.S. §49-250B. The following are exempt from the aquifer protection permit requirement of this article:

1. Household and domestic activities.
2. Household gardening, lawn watering, lawn care, landscape maintenance and related activities.
3. The noncommercial use of consumer products generally available to and used by the public.
4. Ponds used for watering livestock and wildlife.
5. Mining overburden returned to the excavation site including any common material which has been excavated and removed from the excavation site and has not been subjected to any chemical or leaching agent or process of any kind.
6. Facilities used solely for surface transportation or storage of groundwater, surface water for beneficial use or reclaimed water that is regulated pursuant to section 49-203, subsection A, paragraph 6 for beneficial use.
7. Discharge to a community sewer system.
8. Facilities that are required to obtain a permit for the direct reuse of reclaimed water.
9. Leachate resulting from the direct, natural infiltration of precipitation through undisturbed regolith or bedrock if pollutants are not added to the leachate as a result of any material or activity placed or conducted by man on the ground surface.
10. Surface impoundments used solely to contain storm runoff, except for surface impoundments regulated by the federal clean water act.
11. Closed facilities. However, if the facility ever resumes operation the facility shall obtain an aquifer protection permit and the facility shall be treated as a new facility for purposes of section 49-243.
12. Facilities for the storage of water pursuant to title 45, chapter 3.1 unless reclaimed water is added.
13. Facilities using central Arizona project water for underground storage and recovery projects under title 45, chapter 3.1, article 6.
14. Water storage at a groundwater saving facility that has been permitted under title 45, chapter 3.1.
15. Application of water from any source, including groundwater, surface water or wastewater, to grow agricultural crops or for landscaping purposes, except as provided in section 49-247.
16. Discharges to a facility that is exempt pursuant to paragraph 6 if those discharges are regulated pursuant to 33 United States Code section 1342.
17. Solid waste and special waste facilities when rules addressing aquifer protection are adopted by the director pursuant to section 49-761 or 49-855 and those facilities obtain plan approval pursuant to those rules. This exemption shall only apply if the director determines that aquifer water quality standards will be maintained and protected because the discharges from those facilities are regulated under rules adopted pursuant to section 49-761 or 49-855 that provide aquifer water quality protection that is equal to or greater than aquifer water quality protection provided pursuant to this article.
18. Facilities used in:
    (a) Corrective actions taken pursuant to chapter 6, article 1 of this title in response to a release of a regulated substance as defined in section 49-1001 except for those off-site facilities that receive for treatment or disposal materials that are contaminated with a regulated substance and that are received as part of a corrective action.
    (b) Response or remedial actions undertaken pursuant to article 5 of this chapter or pursuant to CERCLA.
    (c) Corrective actions taken pursuant to chapter 5, article 1 of this title or the resource conservation and recovery act of 1976, as amended (42 United States Code sections 6901 through 6992).

(d) Other remedial actions which have been reviewed and approved by the appropriate governmental authority and taken pursuant to applicable federal or state laws.

19. Municipal solid waste landfills as defined in section 49-701 that have solid waste facility plan approval pursuant to section 49-762.
20. Storage, treatment or disposal of inert material.
21. Structures that are designed and constructed not to discharge and that are built on an impermeable barrier that can be visually inspected for leakage.
22. Pipelines and tanks designed, constructed, operated and regularly maintained so as not to discharge.
23. Surface impoundments and dry wells that are used to contain storm water in combination with discharges from one or more of the following activities or sources:
    (a) Fire fighting system testing and maintenance.
    (b) Potable water sources, including waterline flushings.
    (c) Irrigation drainage and lawn watering.
    (d) Routine external building wash down without detergents.
    (e) Pavement wash water where no spills or leaks of toxic or hazardous material have occurred unless all spilled material has first been removed and no detergents have been used.
    (f) Air conditioning, compressor and steam equipment condensate that has not contacted a hazardous or toxic material.
    (g) Foundation or footing drains in which flows are not contaminated with process materials.
    (h) Occupational safety and health administration or mining safety and health administration safety equipment.
24. Industrial wastewater treatment facilities designed, constructed and operated as required by section 49-243, subsection B, paragraph 1 and using a treatment system approved by the director to treat wastewater to meet aquifer water quality standards prior to discharge, if that water is stored at a groundwater storage facility pursuant to title 45, chapter 3.1.
25. Any point source discharge caused by a storm event and authorized in a permit issued pursuant to section 402 of the clean water act.

R18-9-102. Facilities to which Articles 1, 2, and 3 Do Not Apply

Articles 1, 2, and 3 do not apply to:

1. A drywell used solely to receive storm runoff and located so that no use, storage, loading, or treating of hazardous substances occurs in the drainage area;
2. A direct pesticide application in the commercial production of plants and animals subject to the Federal Insecticide, Fungicide, and Rodenticide Act (P.L. 92-516; 86 Stat. 975; 7 United States Code 135 et seq., as amended), or A.R.S. §§ 49-301 through 49-309 and applicable rules, or A.R.S. Title 3, Chapter 2, Article 6 and applicable rules.

R18-9-103. Class Exemptions

Class exemptions. In addition to the classes or categories of facilities listed in A.R.S. § 49-250(B), the following classes or categories of facilities are exempt from the Aquifer Protection Permit requirements in Articles 1, 2, and 3 of this Chapter:

1. Facilities that treat, store, or dispose of hazardous waste and have been issued a permit or have interim status, under the Resource Conservation and Recovery Act (P.L. 94-580; 90 Stat. 2796; 42 U.S.C. 6901 et seq., as amended), or have been issued a permit according to the hazardous waste management rules adopted under 18 A.A.C. 8, Article 2;
2. Underground storage tanks that contain a regulated substance as defined in A.R.S. § 49-1001;
3. Facilities for the disposal of solid waste, as defined in A.R.S. § 49-701.01, that are located in unincorporated areas and receive solid waste from four or fewer households;
4. Land application of biosolids in compliance with 18 A.A.C. 9, Articles 9 and 10.

GENERAL PERMITS

General Aquifer Protection Permits (GPs) are permits by rule or statute. The rules are extensive and can be accessed on the Secretary of State's website at: http://www.azsos.gov/public_services/Title_18/18-09.htm Specific citations for general permits by rule are: Type 1: A.A.C. R18-9-B301, Type 2: A.A.C. R18-9-C301, Type 3: A.A.C. R18-9-D301, Type 4: A.A.C. R18-9-E301

The statutory general permits are:
49-245.01. Storm water general permit
A. A general permit is issued for facilities used solely for the management of storm water and that are regulated by the clean water act, including catchments, impoundments and sumps, provided the following conditions are met:

1. The owner or operator of the facility has obtained a national pollutant discharge elimination system permit issued pursuant to the clean water act for any storm water discharges at the facility, or that the facility has applied, and not been denied coverage, for this type of permit for any storm water discharges at the facility.
2. The owner or operator notifies the director that the facility has met the requirements of paragraph 1 of this subsection.
3. The owner or operator of the facility has in place any required storm water pollution prevention plan.

B. If the director determines that discharges of storm water from a facility or facilities covered by this general permit are causing a violation of aquifer water quality standards at the applicable point of compliance, the director may revoke the general permit of the facility or facilities or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges of storm water from a facility or facilities covered by this general permit, with reasonable probability, may cause a violation of aquifer water quality standards at the applicable point of compliance, the director may require a facility or facilities covered by the general permit to obtain an individual permit pursuant to section 49-243.

49-245.02. General permit for certain discharges associated with man-made bodies of water
A. A general permit is issued for the following discharges:
1. Disposal in vadose zone injection wells of storm water mixed with reclaimed wastewater or groundwater, or both, from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The vadose zone injection wells are registered pursuant to section 49-332.
(b) The discharge occurs only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water, as documented by a water quality analysis submitted with the vadose zone injection well registration. The owner or operator of the vadose zone injection wells shall demonstrate continued compliance with this subdivision by submitting to the department the results of any monitoring required as part of an aquifer protection permit or wastewater reuse permit for any facility providing reclaimed wastewater to the man-made body of water. For purposes of this general permit, monitoring shall be conducted at least semiannually. The monitoring results shall be submitted to the department semiannually beginning six months after registration made to subdivision (a) of this paragraph.
(d) The vadose zone injection wells shall be located at least one hundred feet from any water supply well.
(e) A vertical separation of forty feet shall be provided between the bottom of the vadose zone injection wells and the water table to allow the aquifer water quality standard for microbiological contaminants to be met in the uppermost aquifer.
(f) The vadose zone injection wells are not used for any other purpose.

2. Subsurface discharges from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The body of water contains only groundwater, storm water or reclaimed wastewater, or a combination thereof.
(b) The reclaimed wastewater complies with the terms of a wastewater reuse permit before being placed into the body of water.
(c) The body of water is lined and maintained to achieve a hydraulic conductivity of 10-7 cm/sec or less.

3. Point source discharges to waters of the United States from man-made bodies of water associated with golf courses, parks and residential common areas that contain only groundwater, storm water or reclaimed wastewater, or a combination thereof, provided that:

(a) The discharges are subject to a valid national pollutant discharge elimination system permit.
(b) The discharges occur only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water.

B. If the director determines that discharges from a facility covered by this general permit are causing a violation of aquifer water quality standards, the director may revoke the general permit of the facility or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges from a facility covered by this general permit may cause, with reasonable probability, a violation of aquifer water quality standards, the director may require the facility to obtain an individual permit pursuant to section 49-243.

AQUIFER PROTECTION PERMIT DETERMINATION OF APPLICABILITY (DOA)

INSTRUCTIONS

This form enables the staff of the ADEQ Groundwater Protection Value Stream to determine the applicability of A.R.S. §§ 49-241 through 49-252 to an operation or an activity that may result in a discharge regulated under Articles 1, 2, and 3 of the Arizona Administrative Code (A.A.C.). Please answer all questions and where applicable, provide sufficient detail for the conceptual or existing facility or activity to explain your answers. Attach additional reference sheets along with any design plans, site plans, maps, etc., that may assist us in this review.

GENERAL APPLICATION PROCESS

1) Applicant submits the DOA application including any attachments.
2) Applicant satisfies any deficiencies identified during the review process.
3) ADEQ makes a Determination of Applicability.
4) ADEQ sends the final bill.
5) Applicant pays the bill.
6) The project manager signs the Determination of Applicability.
7) ADEQ mails the Determination of Applicability.

FEES

The Department shall assess and collect an hourly rate fee for the number of review hours required to provide a water quality protection service, billed monthly and up to the maximum fee. A.A.C. R18-14-102 &103. Fee rates and maximum fees are available at: https://azdeq.gov/GroundwaterIndPermitsFees

APPLICANT

The DOA application form must be signed by the applicant; i.e. a "person who is engaging or who proposes to engage in the operation or activity" (A.A.C. R18-9-106(B)(2)). ADEQ will not accept a DOA application form signed by a third party, such as the client's representative or consultant.

HOW LONG DOES THE APPLICATION PROCESS TAKE?

The time frame specified by A.A.C. R18-9-106 is 45 days.

WITHDRAWING YOUR APPLICATION

An application may be withdrawn by the applicant at any time during the application process in accordance with A.A.C. R18-1-517. You may withdraw your application by submitting a written request to the reviewer assigned to your project. A final bill will be assessed at the time of withdrawal.

WHERE DO I SUBMIT MY APPLICATION?

Submit your DOA application to:

Arizona Department of Environmental Quality
Water Quality Division
Groundwater Protection and Reuse Section
1110 West Washington Street
Phoenix, AZ 85007

WHERE DO I GET HELP?

Program guidance can be found on our website at: http://www.azdeq.gov/environ/water/permits/app.html. A copy of the rules and statutes relating to the DOA can also be found on this website. It is strongly recommended that you review the applicable rules and statutes to ensure that you provide a complete and accurate application. ADEQ recommends scheduling a pre-application meeting to go over the various details of the program (The Project Manager's first hour of the pre-application meeting is free). During the application process, you are encouraged to communicate with the project team to resolve any issues that may arise during the process.

4 Certification Statement [A.A.C. R18-9-A201(B)(7)]

I certify under penalty of law that this Aquifer Protection Permit application and all attachments were prepared under my direction or authorization and all information is, to the best of my knowledge, true, accurate and complete. I also certify that the APP discharging facilities described in this form is or will be designed, constructed, operated, and/or enclosed in accordance with the terms and conditions the Aquifer Protection Permit and applicable requirements of Arizona Revised Statutes Title 49, Chapter 2, and Arizona Administrative Code Title 18, Chapter 9 regarding aquifer protection permits. I am aware that there are significant penalties for submitting false information, including permit revocation as well as the possibility of fine and imprisonment for knowing violations.

Print Name _____

Signature Date

Pursuant to A.R.S. § 41-1030:

(1) ADEQ shall not base a licensing decision, in whole or in part, on a requirement or condition not specifically authorized by statute or rule. General authority in a statute does not authorize a requirement or condition unless a rule is made pursuant to it that specifically authorizes the requirement or condition.

(2) Prohibited licensing decisions may be challenged in a private civil action. Relief may be awarded to the prevailing party against ADEQ, including reasonable attorney fees, damages, and all fees associated with the license application.

(3) ADEQ employees may not intentionally or knowingly violate the requirement for specific licensing

The purpose of a Determination of Applicability application review is to evaluate if there are discharging facilities or any discharging activities regulated by the Aquifer Protection Permit requirements. The evaluation of the conceptual or existing facility/activity includes whether there are exemptions from the APP requirements or if there is a General APP that may be applicable. Please provide the following information:

1. List any potential categorical discharging facilities (see definition provided in the attachment to this form). Categorical facilities include surface impoundments, solid waste disposal facilities, sewage treatment facilities, and others.
    a. For each facility listed, indicate whether it has operated in the past, is currently operating, is not yet constructed, or is constructed but not yet operating.

2. List any activity that could potentially be considered a discharge (see definition provided in the attachment to this form). Examples of discharge include wastewater disposal on the ground surface, placement of non-inert material on the ground surface, or other activities that place pollutants on the ground surface in a manner that there is a reasonable probability that the pollutant will reach an aquifer.

a. For each activity listed, indicate whether it has occurred in the past, is currently occurring, or has not yet occurred.

3. Describe the potential categorical discharging facility and/or discharging activity.

4. Provide a site diagram that includes the potential categorical discharging facility and/or discharging activity. Include a North arrow and scale, and label all potential discharging facilities and discharge locations.

5. Provide a process flow diagram that shows the process that produces the potential discharge or materials that go to a discharging facility and/or discharging activity.

6. Provide a description of any exemption or general permit that you think may apply to the potential categorical discharging facility and/or activity. Include any documentation to support this conclusion, for example, laboratory data showing a material is inert, design documentation showing that a structure meets the tank exemption (see Additional Information Related to Tanks and Sumps), closure documentation (see Additional Information Related to Closed Facilities), etc. "Exemptions" and "General Permits" sections at the end of this document may be helpful in providing documentation that an exemption or general permit criteria are met.

7. List any environmental permits held for the operation, facility or activity. Provide the permit number and the name of the issuing entity.

ADDITIONAL INFORMATION RELATED TO TANKS AND SUMPS

a. Is the structure stationary?
b. Is the structure constructed of material compatible with the anticipated materials to be contained?
c. Is the structure constructed of concrete, steel, plastic, fiberglass or other non-earthen material?
d. Is the structure constructed of material that is resistant to wear caused by any equipment that will be placed in or enter the structure for purposes of repair or cleanout?
e. Does the structure provide substantial structural support?
f. Are all joints sealed and maintained so as not to leak?
g. Is the structure capable of fully containing the material that is to be held without overflow?

ADDITIONAL INFORMATION RELATED TO CLOSED FACILITIES

List each closed facility in the format provided (Attachment 1) and provide the following information in the "Justification/Documentation" section:

- all inflows and outflows to the facility
- the source of inflows and outflows (include a process flow diagram)
- dates discharge started and ended
- discharge description, characterization
- discharge location, volumes, frequency
- method of transfer into and out of facility
- date ADEQ approved clean closure of the facility
- description of any remedial or reclamation activity/action

For each closed facility listed in Attachment 1, indicate in the "Statute/Rule/Policy" section, which of the following criteria apply. Attach additional sheets and references as needed.

- Facility ceased operation before Jan. 1, 1986 (A.R.S. 49-201.7)
- As of August 13, 1986, facility was not engaged in any activity for which the facility was designed and that was previously operated with no intent to resume operation (A.R.S. 49-201.7)
- Facility's post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed (A.R.S. 49-201.7)
- Facility had new installations or modifications after January 1, 1986 to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sump and diversions (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications primary purpose is to manage, treat, or contain surface or subsurface flows (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications are NOT used to produce a marketed commodity (Substantive Policy Statement 3013.000)

ATTACHMENT 1			
SUMMARY OF CLOSED FACILITIES AND JUSTIFICATION			
Closed Facility	Date Closed	Statute/Rule/Policy	Justification/Documentation

DEFINITIONS

AQUIFER – (A.R.S. §49-201) means a geologic unit that contains sufficient saturated permeable material to yield usable quantities of water to a well or spring.

AQUIFER PROTECTION PERMIT - means an individual or general permit issued under A.R.S. §§ 49-203, 49-241 through 252, and A.A.C. Title 18 Chapter 9, Articles 1, 2 and 3.

CATEGORICAL DISCHARGING FACILITY – means (A.R.S. §49-241.B)
1. Surface impoundments, including holding, storage settling, treatment or disposal pits, ponds and lagoons.
2. Solid waste disposal facilities except for mining overburden and wall rock that has not been and will not be subject to mine leaching operations.
3. Injection wells.
4. Land treatment facilities.
5. Facilities that add a pollutant to a salt dome formation, salt bed formation, dry well or underground cave or mine.
6. Mine tailings piles and ponds.
7. Mine leaching operations.
8. Underground water storage facilities.
9. Sewage treatment facilities, including on-site wastewater treatment facilities.
10. Wetlands designed and constructed to treat municipal and domestic wastewater for underground storage.

CLOSED FACILITY – means (A.R.S. §49-201.7):

(a) A facility that ceased operation before January 1, 1986, that is not, on August 13, 1986, engaged in the activity for which the facility was designed and that was previously operated and for which there is no intent to resume operation as provided by A.R.S. § 49-201.

(b) A facility that has been approved as a clean closure by the director as provided by A.R.S. § 49-201.

(c) A facility at which any post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed as provided by A.R.S. § 49-201.

(d) Any facility designed and operated to manage, treat or contain surface or subsurface flows at or from a closed facility (as defined in A.R.S. 49-201(7)(a)-(c)), to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sumps and diversions, even if such facilities were installed or modified after January 1, 1986, so long as the facility's primary purpose is to manage, treat, or contain surface or subsurface or subsurface flows and not for the production of a marketed commodity.

DISCHARGE – (A.R.S. §49-201) means the direct or indirect addition of any pollutant to the waters of the state from a facility. For purposes of the Aquifer Protection Permit program prescribed by Title 49, Article 3, Chapter 2 of the Arizona Revised Statutes, discharge means the addition of a pollutant from a facility either directly to an aquifer or to the land surface or the vadose zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.

DRYWELL - A.R.S. §49-331) means a well which is a bored, drilled or driven shaft or hole whose depth is greater than its width and is designed and constructed specifically for the disposal of storm water. Drywells do not include class 1, class 2, class 3 or class 4 injection wells as defined by the Federal Underground Injection Control Program (P.L. 93-523, part C), as amended.

FACILITY – (A.R.S. §49-201) means any land, building, installation, structure, equipment, device, conveyance, area, source, activity or practice from which there is, or with reasonable probability may be, a discharge.

INERT MATERIAL – (A.R.S. §49-201) means broken concrete, asphaltic pavement, manufactured asbestos-containing products, brick, rock, gravel, sand and soil. Inert material also includes material that when subjected to a water leach test that is designed to approximate natural infiltrating waters will not leach substances in concentrations that exceed numeric aquifer water quality standards established pursuant to section 49-223, including overburden and wall rock that is not acid generating, taking into consideration acid neutralization potential, and that has not and will not be subject to mine leaching operations.

POLLUTANT - (A.R.S. §49-201) means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances.

SEWAGE TREATMENT FACILITY – (A.A.C. R18-9-101) means a plant or system for sewage treatment and disposal, except an on-site wastewater treatment facility, that consists of treatment works, disposal works, and appurtenant pipelines, conduits, pumping stations, and related subsystems and devices.

SURFACE IMPOUNDMENT - (A.A.C. R18-9-101) means a pit, pond or lagoon, having a surface dimension that is equal to or greater than its depth, which is used for the storage, holding, settling, treatment or discharge of liquid pollutants or pollutants containing free liquids.

TANK – (A.R.S. §49-201) means a stationary device, including a sump, that is constructed of concrete, steel, plastic, fiberglass, or other non-earthen material that provides substantial structural support, and that is designed to contain an accumulation of solid, liquid or gaseous materials.

EXEMPTIONS

EXEMPTIONS – A.R.S. §49-250B. The following are exempt from the aquifer protection permit requirement of this article:

1. Household and domestic activities.
2. Household gardening, lawn watering, lawn care, landscape maintenance and related activities.
3. The noncommercial use of consumer products generally available to and used by the public.
4. Ponds used for watering livestock and wildlife.
5. Mining overburden returned to the excavation site including any common material which has been excavated and removed from the excavation site and has not been subjected to any chemical or leaching agent or process of any kind.
6. Facilities used solely for surface transportation or storage of groundwater, surface water for beneficial use or reclaimed water that is regulated pursuant to section 49-203, subsection A, paragraph 6 for beneficial use.
7. Discharge to a community sewer system.
8. Facilities that are required to obtain a permit for the direct reuse of reclaimed water.
9. Leachate resulting from the direct, natural infiltration of precipitation through undisturbed regolith or bedrock if pollutants are not added to the leachate as a result of any material or activity placed or conducted by man on the ground surface.
10. Surface impoundments used solely to contain storm runoff, except for surface impoundments regulated by the federal clean water act.
11. Closed facilities. However, if the facility ever resumes operation the facility shall obtain an aquifer protection permit and the facility shall be treated as a new facility for purposes of section 49-243.
12. Facilities for the storage of water pursuant to title 45, chapter 3.1 unless reclaimed water is added.
13. Facilities using central Arizona project water for underground storage and recovery projects under title 45, chapter 3.1, article 6.
14. Water storage at a groundwater saving facility that has been permitted under title 45, chapter 3.1.
15. Application of water from any source, including groundwater, surface water or wastewater, to grow agricultural crops or for landscaping purposes, except as provided in section 49-247.
16. Discharges to a facility that is exempt pursuant to paragraph 6 if those discharges are regulated pursuant to 33 United States Code section 1342.
17. Solid waste and special waste facilities when rules addressing aquifer protection are adopted by the director pursuant to section 49-761 or 49-855 and those facilities obtain plan approval pursuant to those rules. This exemption shall only apply if the director determines that aquifer water quality standards will be maintained and protected because the discharges from those facilities are regulated under rules adopted pursuant to section 49-761 or 49-855 that provide aquifer water quality protection that is equal to or greater than aquifer water quality protection provided pursuant to this article.
18. Facilities used in:
    (a) Corrective actions taken pursuant to chapter 6, article 1 of this title in response to a release of a regulated substance as defined in section 49-1001 except for those off-site facilities that receive for treatment or disposal materials that are contaminated with a regulated substance and that are received as part of a corrective action.
    (b) Response or remedial actions undertaken pursuant to article 5 of this chapter or pursuant to CERCLA.
    (c) Corrective actions taken pursuant to chapter 5, article 1 of this title or the resource conservation and recovery act of 1976, as amended (42 United States Code sections 6901 through 6992).

(d) Other remedial actions which have been reviewed and approved by the appropriate governmental authority and taken pursuant to applicable federal or state laws.

19. Municipal solid waste landfills as defined in section 49-701 that have solid waste facility plan approval pursuant to section 49-762.
20. Storage, treatment or disposal of inert material.
21. Structures that are designed and constructed not to discharge and that are built on an impermeable barrier that can be visually inspected for leakage.
22. Pipelines and tanks designed, constructed, operated and regularly maintained so as not to discharge.
23. Surface impoundments and dry wells that are used to contain storm water in combination with discharges from one or more of the following activities or sources:
    (a) Fire fighting system testing and maintenance.
    (b) Potable water sources, including waterline flushings.
    (c) Irrigation drainage and lawn watering.
    (d) Routine external building wash down without detergents.
    (e) Pavement wash water where no spills or leaks of toxic or hazardous material have occurred unless all spilled material has first been removed and no detergents have been used.
    (f) Air conditioning, compressor and steam equipment condensate that has not contacted a hazardous or toxic material.
    (g) Foundation or footing drains in which flows are not contaminated with process materials.
    (h) Occupational safety and health administration or mining safety and health administration safety equipment.
24. Industrial wastewater treatment facilities designed, constructed and operated as required by section 49-243, subsection B, paragraph 1 and using a treatment system approved by the director to treat wastewater to meet aquifer water quality standards prior to discharge, if that water is stored at a groundwater storage facility pursuant to title 45, chapter 3.1.
25. Any point source discharge caused by a storm event and authorized in a permit issued pursuant to section 402 of the clean water act.

R18-9-102. Facilities to which Articles 1, 2, and 3 Do Not Apply

Articles 1, 2, and 3 do not apply to:

1. A drywell used solely to receive storm runoff and located so that no use, storage, loading, or treating of hazardous substances occurs in the drainage area;
2. A direct pesticide application in the commercial production of plants and animals subject to the Federal Insecticide, Fungicide, and Rodenticide Act (P.L. 92-516; 86 Stat. 975; 7 United States Code 135 et seq., as amended), or A.R.S. §§ 49-301 through 49-309 and applicable rules, or A.R.S. Title 3, Chapter 2, Article 6 and applicable rules.

R18-9-103. Class Exemptions

Class exemptions. In addition to the classes or categories of facilities listed in A.R.S. § 49-250(B), the following classes or categories of facilities are exempt from the Aquifer Protection Permit requirements in Articles 1, 2, and 3 of this Chapter:

1. Facilities that treat, store, or dispose of hazardous waste and have been issued a permit or have interim status, under the Resource Conservation and Recovery Act (P.L. 94-580; 90 Stat. 2796; 42 U.S.C. 6901 et seq., as amended), or have been issued a permit according to the hazardous waste management rules adopted under 18 A.A.C. 8, Article 2;
2. Underground storage tanks that contain a regulated substance as defined in A.R.S. § 49-1001;
3. Facilities for the disposal of solid waste, as defined in A.R.S. § 49-701.01, that are located in unincorporated areas and receive solid waste from four or fewer households;
4. Land application of biosolids in compliance with 18 A.A.C. 9, Articles 9 and 10.

GENERAL PERMITS

General Aquifer Protection Permits (GPs) are permits by rule or statute. The rules are extensive and can be accessed on the Secretary of State's website at: http://www.azsos.gov/public_services/Title_18/18-09.htm Specific citations for general permits by rule are: Type 1: A.A.C. R18-9-B301, Type 2: A.A.C. R18-9-C301, Type 3: A.A.C. R18-9-D301, Type 4: A.A.C. R18-9-E301

The statutory general permits are:
49-245.01. Storm water general permit
A. A general permit is issued for facilities used solely for the management of storm water and that are regulated by the clean water act, including catchments, impoundments and sumps, provided the following conditions are met:

1. The owner or operator of the facility has obtained a national pollutant discharge elimination system permit issued pursuant to the clean water act for any storm water discharges at the facility, or that the facility has applied, and not been denied coverage, for this type of permit for any storm water discharges at the facility.
2. The owner or operator notifies the director that the facility has met the requirements of paragraph 1 of this subsection.
3. The owner or operator of the facility has in place any required storm water pollution prevention plan.

B. If the director determines that discharges of storm water from a facility or facilities covered by this general permit are causing a violation of aquifer water quality standards at the applicable point of compliance, the director may revoke the general permit of the facility or facilities or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges of storm water from a facility or facilities covered by this general permit, with reasonable probability, may cause a violation of aquifer water quality standards at the applicable point of compliance, the director may require a facility or facilities covered by the general permit to obtain an individual permit pursuant to section 49-243.

49-245.02. General permit for certain discharges associated with man-made bodies of water
A. A general permit is issued for the following discharges:
1. Disposal in vadose zone injection wells of storm water mixed with reclaimed wastewater or groundwater, or both, from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The vadose zone injection wells are registered pursuant to section 49-332.
(b) The discharge occurs only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water, as documented by a water quality analysis submitted with the vadose zone injection well registration. The owner or operator of the vadose zone injection wells shall demonstrate continued compliance with this subdivision by submitting to the department the results of any monitoring required as part of an aquifer protection permit or wastewater reuse permit for any facility providing reclaimed wastewater to the man-made body of water. For purposes of this general permit, monitoring shall be conducted at least semiannually. The monitoring results shall be submitted to the department semiannually beginning six months after registration made to subdivision (a) of this paragraph.
(d) The vadose zone injection wells shall be located at least one hundred feet from any water supply well.
(e) A vertical separation of forty feet shall be provided between the bottom of the vadose zone injection wells and the water table to allow the aquifer water quality standard for microbiological contaminants to be met in the uppermost aquifer.
(f) The vadose zone injection wells are not used for any other purpose.

2. Subsurface discharges from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The body of water contains only groundwater, storm water or reclaimed wastewater, or a combination thereof.
(b) The reclaimed wastewater complies with the terms of a wastewater reuse permit before being placed into the body of water.
(c) The body of water is lined and maintained to achieve a hydraulic conductivity of 10-7 cm/sec or less.

3. Point source discharges to waters of the United States from man-made bodies of water associated with golf courses, parks and residential common areas that contain only groundwater, storm water or reclaimed wastewater, or a combination thereof, provided that:

(a) The discharges are subject to a valid national pollutant discharge elimination system permit.
(b) The discharges occur only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water.

B. If the director determines that discharges from a facility covered by this general permit are causing a violation of aquifer water quality standards, the director may revoke the general permit of the facility or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges from a facility covered by this general permit may cause, with reasonable probability, a violation of aquifer water quality standards, the director may require the facility to obtain an individual permit pursuant to section 49-243.

D-3.

DEPARTMENT OF ENVIRONMENTAL QUALITY
Title 18, Chapter 11 (Microbiological Contaminants)

Amend: R18-11-406

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: May 6, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: April 22, 2025

SUBJECT: **DEPARTMENT OF ENVIRONMENTAL QUALITY**
Title 18, Chapter 9

Amend: R18-11-406

Staff Update:

As a reminder, this rulemaking from the Department of Environmental Quality was tabled at the May 6, 2025 Council meeting in order for the Council to have sufficient time to review supplemental information provided by the Department. This supplemental information was forwarded to Council members and also included as part of the materials for the meeting scheduled June 3, 2025.

Summary:

This regular rulemaking from the Department of Environmental Quality (Department) seeks to amend one (1) rule in Title 18, Chapter 11, regarding Aquifer Water Quality Standards. The Department is proposing to make amendments and additions to Chapter 11 as part of a four part rulemaking package. The Department is required by A.R.S. § 49-223(A) to adopt Aquifer Water Quality Standards (AWQS) with these standards being based on maximum contaminant levels (MCLs). These MCLs are prescribed by the Environmental Protection Agency (EPA) and the Department is required to adopt the same MCLs unless there is a showing of substantial opposition, which allows the Department to prescribe different standards if the Department or stakeholder can show that the EPA levels are not appropriate for Arizona. The Department has

indicated to Department staff that this substantial opposition language is unique to Arizona and the Department believes Arizona to be the only state to have this type of language.

For this part of the rulemaking package, the Department has indicated that they received substantial opposition to the EPA regulations concerning microbiological contaminants. The Department currently uses Total coliform test for microbiological contaminants, which the Department has indicated causes a high number of false positives and requires retestings. The Department believes these false positive retestings result in tens of thousands of dollars spent in unnecessary testing. The Department is proposing to change the testing perimeters to Fecal Coliform or E.Coli. The Department has indicated that Total Coliforms is too general of a term and many are naturally occurring. The Department believes the change will better identify those contaminants that actually pose a risk to human health.

The Department is proposing to amend the rule to reflect this substantial opposition to EPA guidance by stating that a permit holder shall test for microbiological contaminants based on either fecal coliform or E.coli, with the test being determined by the requirements of the Aquifer Protection Permit (APP). The rule is also being amended to decrease the amount of time a permit holder has to conduct a repeat sample if microbiological contaminants are detected.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did review three studies relevant to this rulemaking.

- MCL Assumptions Report – Arsenic Aquifer Water Quality Standards Technical Support: The Department indicates that this report was used to review Microbiological Contaminants at 78 Federal Register 10270 in order to inform the Department on the subject matter and its applicability in the AWQS setting, which included looking at technologies, costs, sampling, and analytical methodologies for public health risks reduction.
- Draft Economic Impact Statement for Arsenic Proposed AWQS: The Department indicates that this report informed DEQ on the economic impact of the subject matter of the rulemaking.
- State-Based AWQS Report – Microbiological Contaminants Aquifer Water Quality Standards Technical Support: The Department indicates that this study was used to review EPA assumptions regarding the MCL for Microbiological Contaminants and potential alternatives based on medical and toxicological evidence.

4. Summary of the agency's economic impact analysis:

The Department states that this rulemaking is being taken by the Arizona Department of Environmental Quality (ADEQ) in order to adopt an adjustment to the Safe Drinking Water Act Maximum Contaminant Level (MCL) for Microbiological Contaminants as an Aquifer Water Quality Standard (AWQS) pursuant to Arizona Revised Statutes (A.R.S.) § 49-223. ADEQ has determined that this rulemaking will impact the regulated community, ADEQ customers, the environment, and may impact human health. The Department indicates that the AWQSs are designed to protect the State's aquifers, all of which have been designated for drinking water-protected use (see A.R.S. § 49-224(B)). The Department states the AWQSs are primarily used in ADEQ's Aquifer Protection Permit program (APP), and (to a lesser extent) in some remediation projects under the Water Quality Assurance Revolving Fund (WQARF), the voluntary Remediation Program (VRP), and elsewhere.

The Department states that the full scope of stakeholders who may incur direct impacts from this rulemaking include individual APP Permittees, such as Mines, Industrial Facilities and Wastewater Treatment Plants, as well as rate payers to municipal drinking water systems, ADEQ, the general public and the environment. The Department indicates that while not all costs and benefits are borne evenly, these are the identified groups generally impacted from this Microbiological Contaminants AWQS rulemaking. The Department states that whereas permittees will continue to incur costs (primarily for routine and repeat sampling) to comply with the new/proposed AWQS, these costs are expected to decrease in comparison to the costs of complying with the current AWQS. The Department states that these potential cost savings are attributable to the expectation that the routine sampling and repeat sampling requirements under the new AWQS would result in fewer "false positive" samples, thereby reducing the need for follow-up sampling and unwarranted corrective actions for facilities falsely deemed to be non-compliant. The Department indicates that benefits in the form of cost saving could also accrue to community water system and their clientele due to a reduction of Microbiological Contaminants in the groundwater systems and their clientele due to a reduction in Microbiological Contaminants in the groundwater, under the proposed AWQS. The Department states that as many as 1.8 million Arizonans could be potentially affected in this way.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states that the controlling statute A.R.S. § 49-223 does not allow ADEQ to conduct any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking. The Department indicates that it simply requires ADEQ to open a rulemaking docket pursuant to A.R.S. § 41-1021 for adoption of new or adjusted MCL as an AWQS within one year of the MCLs establishment or adjustment.

6. What are the economic impacts on stakeholders?

The Department says that compared to the current AWQS, the indicated changes to the AWQS are intended to maintain the same (or better) levels of protection with respect to human health, while potentially resulting in significant costs saving to impacted permittees (due to the expectations that the modified sampling requirements would substantially reduce the incident of "false positive" results). The Department indicates that, as such, many of the stakeholder categories that would typically be impacted by the costs of the new regulation would actually benefit from the reduced cost burdens under the proposed new AWQS. The Department indicates that from a total of 434 Aquifer Protection permittees in Arizona, it is estimated that 153 to 300 permittees are required to sample for Microbiological Contaminants. This subset of 153 to 300 permittees would be the impacted stakeholder group that would potentially experience cost savings under the proposed AWQS.

The Department believes some new costs will be incurred, despite the fact that some infrastructure for processing permits is already in place. The Department anticipates that hundreds of permits may need to be amended to update monitoring tables that include Microbiological Contaminant indicator parameters. The Department indicates that any additional costs would generally be covered by increased fees paid by permittees.

The Department believes, generally, the state and the constituents of the state benefit from this rulemaking through the protection of the aquifer resources as an asset for drinking water use both now and in the future, pursuant to statutory mandate at A.R.S. § 49-224. The Department states that savings could accrue to the people of the State of Arizona, generally, through aquifers (as a local, convenient and {in the right circumstances} inexpensive sources for drinking water) remaining a viable asset to community water portfolios and individual well users alike. In addition, the Department states that following EPA, quantified benefits are measured in terms of reduced loss of life and costs associated with treatment for disease. Additionally, the Department states that reduced sampling requirements of permittees would potentially result in some loss of business (and associated reductions in employment) for firms engaged in sample analysis. The Department goes on to say the potential loss of direct jobs would in turn (in theory at least) generate additional employment losses through reductions in indirect and induced (secondary) economic activity, and subsequent tax revenues.

7. <u>Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?</u>

The Department indicates that there were changes between the proposed draft and final rules before the Council. The changes are summarized below and can be found in full at pg. 25 of the NFR preamble. Council Staff believes the changes are non-substantive and meets the requirements of A.R.S. § 41-1025.

- R18-406(F):

    - Replacing the term “presence or absence” with “detection or non-detection”, this was in response to a public comments in which the Department agreed with stakeholders that detection was a better description of the process.
- R18-11-406(F)(1):
    - Replaced “exceedance” with “detection”, to align with changes made above.
    - Replaced “of” with “for”, for semantic purposes.
- R18-11-406(F)(2)
    - Replaced “exceedance” with “detection”, to align with changes made above.
    - Replaced “of” with “for”, for semantic purposes.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it received 8 public comments as it relates to this rulemaking. The Department indicates that they conducted stakeholder meetings on 9/29/22, 6/8/23, 9/11/23, 12/12/23, 12/13/23, 4/29/24, 8/8/24, 1/8/25, and 2/20/25. The Department has also indicated to Department staff that stakeholders were given an opportunity to review and comment on the rules after changes were made in response to the public comments. The comments will be summarized below, and the full comments can be found in the materials and on pages 25-32 in the preamble.

Of the 8 comments, 5 came from utilities, 1 came from a citizen, and 2 came from interest groups. 1 comment was in support, 4 comments were seeking clarification on the presence language and what constitutes presence, in which the Department changed to detection, 1 comment was seeking clarification on the steps for substantial opposition, and 2 comments were opposed to not following the EPA standards. Both opposing comments came from interest groups.

The first opposition comment (Comment #5, pg. 27-28) states that they felt the EPA standards were protective and increases the risk to Arizona Communities. The Department responded by saying that while the Department is proposing to use a different standard (total coliform vs. fecal coliform and E.coli), the level of protection will not drop and the non-EPA method will result in cost savings. The Department has indicated that the EPA standard results in high numbers of false positives and additional costs/labor related to retesting. The Department indicated that they used the following standard work to determine that the EPA guidance was not the best choice for Arizona. Additionally, the Department has indicated to Department staff that Fecal Coliform and E.Coli testing will result in the same amount of correct positive tests but will not have the same number of false positives.

The second opposition comment (Comment #6, pg, 29-30) states that the Department should not deviate from EPA standards and states that the deviation increases the risk of exposure and damaging the water system. The Departments replied by stating that they considered the requirements found at 40 CFR 141.63(c) related to total coliform, but ultimately decided against because fecal coliform and E.colu are more appropriate for exacting a threat to human health.

Council staff believes that the department adequately addressed the comments in accordance with A.R.S. § 41-1052(D)(7).

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

This specific rulemaking does not create a permit or a license. The Department's other proposed rulemakings before the Council do require a permit or license and are addressed in those particular rulemakings. As a summary of those permitting requirements, they are specific to AWP programs and it would not be technically feasible to issue a general permit under A.R.S. § 41-1037(A)(3).

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates that these rules are not more stringent than corresponding federal laws.

11. Conclusion

This regular rulemaking by the Department seeks to amend one rule regarding aquifer water quality standards. The Department specifically seeks to amend the rule by changing the current standard for microbiological contaminant testing for Aquifer Protect Permit holders. The Department currently follows the EPA standard for microbiological contaminants by using total coliforms. The Department is normally required to follow EPA standards unless there is substantial opposition. The Department indicated that there has been substantial opposition because of the number of false positives generated by the current testing of total coliforms. The Department has proposed an alternative testing method of fecal coliform and e.coli because this will result in fewer false positives and will not increase the risks for public health. The Department believes this will reduce costs for stakeholders because there will be fewer retestings.

The Department is seeking a standard 60-day delayed effective date.

Council staff recommends approval of this rulemaking.

Re: Aquifer Water Quality Standards Update Regular Rulemaking: Title 18, Environmental Quality, Chapters 9 and 11

Dear Chair Klein:

The Arizona Department of Environmental Quality (ADEQ) hereby submits this final rulemaking package to the Governor's Regulatory Review Council (GRRC) for consideration and approval at the Council Meeting scheduled for May 6th, 2025.

The following information is provided for your use in reviewing the enclosed rules for approval pursuant to A.R.S. §§ 41-1039, 41-1052 and A.A.C. R1-6-201:

I. Information required under A.A.C. R1-6-201(A)(1):

(A)(1)(a) The public record closed for all rules on December 16th, 2024 at 11:59 p.m.

(A)(1)(b) The rulemaking activity does relate to a five-year review report. The report on 18 AAC 11, Articles 4 and 5 was approved on November 3rd, 2020.

(A)(1)(c) The rulemaking activity does not establish a new fee.

(A)(1)(d) The rulemaking does not contain a fee increase.

(A)(1)(e) An immediate effective date is not requested.

(A)(1)(f) The Department certifies that the preamble discloses reference to any study relevant to the rule that the agency reviewed and either did or did not rely on in the agency's evaluation of or justification for the rule.

(A)(1)(g) The Department's preparer of the economic, small business, and consumer impact statement has notified the Joint Legislative Budget Committee (JLBC) of the number of new full-time employees necessary to implement and enforce the rule before the rule is approved by the council, pursuant to A.R.S. § 41-1055(B)(3)(a) (*see* subheading IV, below).

(A)(1)(h) A list of documents is enclosed (*see* subheading IV, below).

II. Information required under A.A.C. R1-6-201(A)(2) through (8):

(A)(2) Five (5) Notices of Final Rulemaking (NFRMs), including the preamble, table of contents, and text of each rule (*see* subheading IV, below);
(A)(3) The preambles contain economic, small business, and consumer impact statements that contain the information required by A.R.S. § 41-1055 (*see* subheading IV, below);
(A)(4) The preambles contain comments received by the agency, both written and oral, concerning the proposed rule (*see* subheading IV, below);
(A)(5) No analyses were submitted to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states;
(A)(6) No materials were incorporated by reference in this rulemaking;
(A)(7) The general and specific statutes authorizing the rule, including relevant statutory definitions (*see* subheading IV, below);
(A)(8) All statutes referred to in the definitions are represented in the general and specific statues authorizing the rule.

III. Governor's office approvals pursuant to A.R.S. § 41-1039:

(A) ADEQ received prior written approval from the Governor's Office twice. Once for Title 18, Chapter 11, Article 4 on August 24, 2022 and then again for Title 18, Chapter 9, Articles 1 and 2 on February 5th, 2024 (*see* subheading IV, below);
(B) ADEQ received written final approval from the Governor's Office for this rulemaking on March 11th, 2025 (*see* subheading IV, below).

IV. List of documents enclosed (25 documents total):

- One (1) Cover Letter (R1-6-201(A)(1));
  - AWQS_CL.pdf
- One (1) JLBC email (R1-6-201(A)(1)(g));
  - AWQS_JLBC.pdf
- Five (5) NFRMs (R1-6-201(A)(2));
  - AWQS_NFRM_18_AAC_9_Impl.pdf
  - AWQS_NFRM_18_AAC_11_As.pdf
  - AWQS_NFRM_18_AAC_11_U.pdf
  - AWQS_NFRM_18_AAC_11_DBP.pdf
  - AWQS_ NFRM_18_AAC_11_MBC.pdf
- Five (5) EISs (R1-6-201(A)(3));
  - AWQS_EIS_18_AAC_9_Impl.pdf
  - AWQS_EIS_18_ AAC_11_As.pdf
  - AWQS_EIS_18_ AAC_11_U.pdf
  - AWQS_EIS_18_ AAC_11_DBP.pdf
  - AWQS_EIS_18_ AAC_11_MBC.pdf
- Five (5) Public Comments Received Documents (R1-6-201(A)(4));

- AWQS_Cmts_18_AAC_9_Impl.pdf
- AWQS_Cmts_18_ AAC_11_As.pdf
- AWQS_Cmts_18_ AAC_11_U.pdf
- AWQS_Cmts_18_ AAC_11_DBP.pdf
- AWQS_Cmts_18_ AAC_11_MBC.pdf

- Five (5) General and Specific Authorizing Statutes (R1-6-201(A)(7));
  - 49-104 - Powers and duties of the department and director.pdf
  - 49-203 - Powers and duties of the director and department.pdf
  - 49-221 - Water quality standards in general; protected surface waters list.pdf
  - 49-223 - Aquifer water quality standards.pdf
  - 49-224 - Aquifer identification, classification and reclassification.pdf
- Three (3) A.R.S. § 41-1039 Governor's Approvals
  - 8_24_22_Gov_Approval.pdf
  - 2_5_24_Gov_Approval.pdf
  - 25_3_11_Gov_Approval.pdf

Thank you for your timely review and approval. Please contact Jon Rezabek, Legal Specialist, Water Quality Division, 602-771-8219 or rezabek.jon@azdeq.gov if you have any questions.

Sincerely,

Karen Peters, Director
Arizona Department of Environmental Quality

NOTICE OF FINAL RULEMAKING

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY

WATER QUALITY STANDARDS

PREAMBLE

1. Permission to proceed with this proposed rulemaking was granted under A.R.S. § 41-1039 by the governor on:

August 24, 2022, &

February 5, 2024

2. Article, Part, or Section Affected (as applicable) **Rulemaking Action**

R18-11-406 Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 49-221, and 49-223.

Implementing statute: A.R.S. §§ 49-221, and 49-223.

4. The effective date of the rule:

July 7, 2025

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

Not applicable.

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable.

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Proposed Rulemaking: 30 A.A.R. 3421, Issue Date: November 15, 2024, Issue Number: 46, File Number: R24-232.

Notice of Rulemaking Docket Opening: 30 A.A.R. 2136, Issue Date: June 28, 2024, Issue Number: 26, File Number: R24-114.

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

***Introduction*:**

General Explanation of the Collective Rulemaking: The Arizona Department of Environmental Quality (ADEQ) is required under A.R.S. § 49-223(A) to open a rulemaking docket for the adoption of federal drinking water maximum contaminant levels (MCLs) as state aquifer water quality standards (AWQSs) within one year of the Environmental Protection Agency's (EPA's) establishment of new or adjusted MCLs. AWQSs for Arsenic, Bromate, Chlorite, Haloacetic Acids, Microbiological Contaminants, Total Trihalomethanes and Uranium with corresponding MCLs are either unestablished as AWQSs or are established but currently have a misaligned value as the standard. MCLs for the seven (7) pollutants can be viewed at 40 *Code of Federal Regulations* (C.F.R.) 141.60 *et seq.* A.R.S. § 49-223(A) requires ADEQ to move forward with the adoption of MCLs as AWQSs through the rulemaking process unless substantial opposition to the adoption is received from stakeholders. Upon receipt of substantial opposition, ADEQ may adopt for that pollutant the verbatim MCL as an AWQS, but only upon a finding that the MCL is appropriate for adoption in Arizona as an AWQS. In making this finding, ADEQ must consider whether the assumptions used by the EPA in developing and implementing the MCLs are appropriate for establishing an Arizona state AWQSs. The listed assumptions for consideration are technology, cost, sampling and analytical methodologies and public health risk reduction. If ADEQ determines the MCL is inappropriate as an AWQS, the Department may establish an alternative AWQS for the pollutant with an MCL. The alternative AWQS must be:

(1) Based on the protection of human health and shall rely on technical protocols appropriate for the development of AWQSs, and

(2) Based on credible medical and toxicological evidence that has been subjected to peer review.

Subject Matter of this NFRM: This *Notice of Final Rulemaking* (NFRM) proposes an alternate AWQS for Microbiological Contaminants from the MCL for Microbiological Contaminants. The original MCL for Microbiological Contaminants was established through Final Rule by the Environmental Protection Agency (EPA), published in the *Federal Register* at 78 *Federal Register* 10270.

Standard Work Development: In approaching and preparing for the execution of the requirements in A.R.S. § 49-223, ADEQ developed a guidance document or "standard work" as the language of the statute leaves a number of determinations to the discretion of the Department. An example of this is whether an MCL is "appropriate" as an AWQS or relying on "technical protocols" appropriate for the development of an alternative AWQS. These statutorily-based and reasoned procedures were developed and released to the public for comment in the summer of 2023. They can be viewed at the following webpage: https://www.azdeq.gov/rulemaking/awqs-update/resources.

Substantial Opposition: ADEQ has received substantial opposition from stakeholders on the proposal to adopt the Microbiological Contaminants MCL as an AWQS. "Substantial opposition" is defined in A.R.S. § 49-223(A) as "information submitted to the director that explains with reasonable specificity why the [MCL] is not appropriate as an [AWQS]." Its functionality in the procedure laid out in A.R.S. § 49-223 is explained above in the subsection entitled, *General Explanation of the Collective Rulemaking*. The submitted opposition includes current permittees voicing concerns about the high numbers of false positive samples of Total Coliform that would have tested negative had Fecal Coliform or *E.coli* been the indicator parameter used in the standard instead. Details of the hardships encountered by the regulated community include hundreds of hours of labor in verification or repeat sampling. This, along with shipping and laboratory testing costs, amount to tens of thousands of dollars in unnecessary spending. With this series of AWQS rulemakings, ADEQ proposes to establish or align AWQSs for Arsenic, Bromate, Chlorite, Haloacetic Acids, Total Trihalomethanes and Uranium verbatim with the MCL. However, given the substantial opposition received on the Microbiological Contaminants MCL, ADEQ was prompted to follow the procedure in A.R.S. § 49-223(A) for determining whether the Microbiological Contaminants MCL is appropriate as an Arizona state AWQS. ADEQ used its newly developed "standard work" as explained above in executing this requirement. The conclusion is that the MCL is inappropriate (*See* "'Inappropriate' Determination for the Microbiological Contaminants MCL (A.R.S. § 49-223(A))" for detail below). Thereafter, ADEQ followed the procedure for establishing an alternative AWQS for Microbiological Contaminants, pursuant to A.R.S. § 49-223(B), also using the newly developed "standard work". The conclusion is that an alternative AWQS should be established, which is proposed via this NFRM (*See* "Alternative AWQS Development and Setting for Microbiological Contaminants (A.R.S. § 49-223(B))" for detail below).

What is the MCL for Microbiological Contaminants? The MCL for Microbiological Contaminants involves a sampling

procedure that can be found at 40 C.F.R. 141.63(c). The essential part of the MCL is that a system must sample for Total Coliform and *E.coli* routinely. Upon a positive result of Total Coliform, the system must sample for *E.coli*. A positive result from the *E.coli* repeat sample (following a positive Total Coliform routine sample) constitutes a violation of the standard. Furthermore, upon a positive result of a routine *E.coli* sample, the system must repeat the sample for *E.coli*. A positive result from the *E.coli* repeat sample (following a positive *E.coli* routine sample) constitutes a violation of the standard. Additionally, a system violates the standard when:

(1) it fails to take a repeat sample following an *E.coli*-positive routine sample, or

(2) it fails to test for *E.coli* when any repeat sample tests positive for Total Coliform.

What is the current AWQS for Microbiological Contaminants?

The current AWQS for Microbiological Contaminants involves a similar sampling procedure to that of the corresponding MCL. The standard can be found at A.A.C. R18-11-406(F). The essential part of the current AWQS is that a facility must sample for Total Coliform routinely. Upon a positive Total Coliform routine sample, a Total Coliform repeat sample shall be taken within two weeks of the time the sample results are reported. A positive Total Coliform repeat sample following a positive Total Coliform routine sample constitutes a violation of the standard.

Associated Rulemakings ADEQ proposes a total of five (5) NFRMs in the collective AWQS Update rulemaking. Three (3) of the five (5) NFRMs propose to establish or align the AWQSs with the MCLs in *Arizona Administrative Code*, (A.A.C.) Title 18, Chapter 11, Article 4 for pollutants Arsenic, Bromate, Chlorite, Haloacetic Acids, Total Trihalomethanes and Uranium. This NFRM's scope is limited to Microbiological Contaminants and proposes an alternative AWQS to the corresponding MCL under the procedure described in A.R.S. § 49-223 and above. A second NFRM's scope includes Arsenic. A third NFRM's scope includes Uranium. A fourth NFRM's scope includes the four (4) disinfection byproducts, which are Bromate, Chlorite, Haloacetic Acids and Total Trihalomethanes. A fifth and final NFRM includes in its scope a proposed new section and some amendments to A.A.C., Title 18, Chapter 9, Articles 1 and 2. With the fifth NFRM, ADEQ proposes a rule detailing implementation of new or adjusted AWQSs into existing Individual Aquifer Protection Program permits (APPs), along with adjacent amendments to existing rule to make way for this purpose.

What are Aquifer Water Quality Standards and what is their purpose? Aquifer Water Quality Standards or "AWQSs" are protective groundwater standards that were put in place and designated by the Arizona Legislature to preserve Arizona's aquifer quality for drinking water-protected use (*See* A.R.S. § 49-224(B)).

How are Aquifer Water Quality Standards Used? The AWQSs are used in ADEQ's Aquifer Protection Program (APP), and, to a lesser extent, remediation projects under the Water Quality Assurance Revolving Fund (WQARF), the Voluntary Remediation Program (VRP), and elsewhere.

"Inappropriate" Determination for the Microbiological Contaminants MCL (A.R.S. § 49-223(A)) ADEQ developed a "standard work" procedure for conducting an "appropriateness" determination pursuant to A.R.S. § 49-223(A). The "standard work" can be reviewed on ADEQ's website at https://www.azdeq.gov/rulemaking/awqs-update/resources. ADEQ's review of EPA's assumptions on technology, costs, sampling and analytical methodologies and public health risk reduction resulted in significant concern for the costs, analytical methods and public health risk reduction assumptions in particular. ADEQ found that the MCL at 40 C.F.R. 141.63(c) is simply inappropriate as is for verbatim adoption as an AWQS and applicability upon the facilities regulated by the APP program, such as Wastewater Treatment Plants, Mines and Industrial facilities. One of the main reasons is that the MCL is designed for Public Water Systems, not APP type facilities. Specifically, this is because the Microbiological Contaminants MCL requires routine sampling of both Total Coliform and *E.coli* parameters. Thereafter, upon a positive result of either Total Coliform or E.coli, a repeat sample is required for both parameters. Violation occurs when a positive result is obtained from an *E. coli* repeat sample that occurs after a total coliform-positive routine sample. Violation also occurs when a positive result is obtained from a Total Coliform repeat sample that occurs after an *E. coli*-positive routine sample. ADEQ has found that the Total Coliform parameter is a very general indicator of coliforms in a sampling well, many of which occur naturally and are not indicative of a threat to human health. In particular, Total Coliform is too broad of an indicator parameter to signal fecal coliform health concerns. On the contrary, ADEQ has found that Fecal Coliform and *E.coli* are more exacting indicators or surrogates of fecal coliforms, which are dangerous to human health. Additionally, when a permittee samples for Total Coliform and receives a positive result, more often than not, the result is what is known as a "false positive", signaling non-health threatening coliforms in a sample. ADEQ notes that false positives have led to a number of permittees having to perform accelerated or more frequent monitoring intervals pursuant to the permits unnecessarily, which have associated costs.

Alternative AWQS Development and Proposal for Microbiological Contaminants (A.R.S. § 49-223(B)) After determining that the MCL for Microbiological Contaminants is inappropriate as an AWQS, ADEQ followed the "standard work" procedure for alternative AWQS development and establishment. ADEQ is proposing an appropriate alternative Microbiological Contaminants AWQS based upon the detection or non-detection of either Fecal Coliform or *E.coli* in a 100-milliliter sample (depending on the requirement of the permit). Upon detection during a routine Fecal Coliform sample, a repeat sample of either Fecal Coliform or *E.coli* with a detect result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Upon a detect result of a routine *E.coli* sample, a repeat sample of *E.coli* with a detect result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Through research and consultation, ADEQ determined that *E. coli* is a better indicator of fecal contamination than total or fecal coliforms and that total coliform positive samples are known to result in a "false positive". A "false positive" in a Total Coliform context is when a sample result is positive, but the cause of the positive result indicates a type of total coliform that does not originate in fecal contamination and is not dangerous to human health and occurs

naturally. A common "false positive" is when a positive Total Coliform sample is actually indicating rust in a well. Additionally, ADEQ considered the language of 40 C.F.R. 141.63(c), the state of existing Individual APP and Reclaimed Water permits, the Department's mission to protect human health and the environment, as well as costs to permittees, analytical methodologies and public health risk reduction. Ultimately, ADEQ determined that shifting away from Total Coliform as an indicator parameter for an alternative Microbiological Contaminants AWQS and moving towards Fecal Coliform and *E.coli* is appropriate. Specifically, Fecal Coliform and *E.coli* are more exacting at indicating a threat to human health. The decision to configure the AWQS proposal to allow permittees to utilize Fecal Coliform or *E.coli* was due to the fact that protecting human health is not diminished under any of the possible orientations and existing permittees are sampling for both parameters already in some cases. Allowing permittees to keep those sampling traditions and optimize a sampling orientation from a cost effective perspective are all factors that led to ADEQ's proposal.

Sampling and Analytical Methodologies. In the Baseline Monitoring Requirement subsection of the final rule at R18-9-A215(E)(4), the following is provided,

> "[s]ampling for each pollutant with a new or adjusted AWQS shall be conducted using Arizona Department of Health Services-approved (ADHS) methods under A.A.C. R9-14-610, including methods on the ADHS Director Approved List, if available. If an ADHS-approved method does not exist, sampling shall be conducted using an appropriate EPA-approved method or a method specified by the ADEQ Director."

At the time this NFRM was compiled, wastewater methods for some of the pollutants with new or adjusted AWQSs were not ADHS-Approved (*see* A.A.C. Title 9, Chapter 14, Article 6, Tables 6.2.A and 6.2.B). In March 2025, ADEQ formally requested that the following sampling methods be reviewed and considered for addition to ADHS's "Director Approved" list of sampling methods pursuant to A.A.C. R9-14-610, found published outside of the rule on ADHS's website, here: https://www.azdhs.gov/documents/preparedness/state-laboratory/lab-licensure-certification/environmental-laboratory/application/application-part-e.pdf

Table 1. Analytical Methods for Baseline Monitoring

Analyte	**Analytical Method**
Arsenic	EPA 200.8, SM 3113B, SM 3114B
Bromate	EPA 300.1, EPA 317.0 Rev 2.0, EPA 321.8, EPA 326.0
Chlorite	EPA 300.0, EPA 300.1, EPA 317.0 Rev 2.0, EPA 326.0
Haloacetic Acids	EPA 552.1, EPA 552.2, EPA 552.3, SM 6251B
Fecal coliform	SM 9223B
E. coli	SM 9223B
Total Trihalomethanes	EPA 502.2, EPA 524.2, EPA 551.1, SM 6251B
Uranium (Total)	EPA 200.8

* "EPA" - Environmental Protection Agency; "SM" - Standard Methods

Applicability of Microbiological Contaminants AWQS Indicator Parameters to Baseline Monitoring. The associated NFRM for Title 18, Chapter 9, Articles 1 and 2 specifies in Final Rule R18-9-A215(C) that all persons with issued individual permits as of a new or adjusted AWQS effective date shall begin Baseline Monitoring, pursuant to R18-9-A215(E), for a new or adjusted AWQS within three months. Additionally, the Final Rule or AWQS for Microbiological Contaminants in this NFRM specifies that either Fecal Coliform or *E. coli* may be used in routine monitoring as indicator parameters. ADEQ understands that for various reasons, issued APP permits may be sampling for one or both or none of these indicator parameters already. In accordance with the rule, ADEQ's expectation is that an applicable permittee may choose one or both indicator parameters for the purpose of Baseline Monitoring under Final Rule R18-9-A215.

Who are the stakeholders to this rulemaking? The stakeholders for this rulemaking are predominantly the permittees of the APP, and to a lesser extent, remediation projects under the Water Quality Assurance Revolving Fund (WQARF), the Voluntary Remediation Program (VRP). Other stakeholders include private well owners, community water systems and the constituents they serve, as well as all Arizonans who benefit from the state's aquifers being protected for drinking water use.

What has been the stakeholder process thus far for this rulemaking? ADEQ has conducted a number of general and specific stakeholder meetings, as well as tribal listening sessions, concerning this rulemaking. The dates of those events are as follows: 9/29/22, 6/8/23, 9/11//23, 12/12/23, 12/13/23, 4/29/24, 8/8/24, 1/8/25, 2/20/25 and others. A repository of stakeholder materials can be found published on ADEQ's website here: https://www.azdeq.gov/rulemaking/awqs-update/resources.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

State-Based AWQS Report – Microbiological Contaminants Aquifer Water Quality Standards Technical Support:

Summary: This report provides information to the Department for the purpose of "standard work" guidance in determining an appropriate alternative AWQS for microbiological contaminants per A.R.S. § 49-223(B).

Study Resource: Provided recommendations on the establishment of an alternative AWQS to the Microbiological Contaminants MCL based on credible medical and toxicological evidence that has been subjected to peer review, as well as technical protocols appropriate in the development of an AWQS.

Public Review: The public may review this study or may obtain copies from the Department by request. Requests can be submitted to the Department by email at awqs@azdeq.gov or by mail to Arizona Department of Environmental Quality, 1110 W. Washington Ave. Phoenix, AZ 85007.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

10. The summary of the economic, small business, and consumer impact:

This Economic, Small Business, and Consumer Impact Statement (EIS) has been prepared to meet the requirements of A.R.S. § 41-1055.

A. An Identification of the Rulemaking:

The rulemaking addressed by this EIS has the scope of an amendment to R18-11-406(F) in Title 18, Chapter 11, Article 4 of the

Arizona Administrative Code (A.A.C.) This rulemaking action is being taken by the Arizona Department of Environmental Quality (ADEQ) in order to adopt an adjustment to the Safe Drinking Water Act Maximum Contaminant Level (MCL) for Microbiological Contaminants as an Aquifer Water Quality Standard (AWQS) pursuant to Arizona Revised Statutes (A.R.S.) § 49-223. A.R.S. § 49-223 mandates that within one year after the EPA establishes or adjusts an MCL, the ADEQ Director shall open a rule making docket pursuant to A.R.S. § 41-1021 for adoption of the MCL as an AWQS. As is detailed in Section 7 of this Notice of Final Rulemaking (NFRM), ADEQ conducted the rulemaking in conformance with the statutory administrative procedure in A.R.S. Title 41, Chapter 6, and is hereby submitting this EIS, in conformance with the requirements of A.R.S. §§ 41-1055 and 41-1035. ADEQ has determined that this rulemaking will impact the regulated community, ADEQ customers, the environment, and may impact human health. This EIS was developed to evaluate the rulemaking's impacts and compare the benefits and detriments of adopting an alternative AWQS to the corresponding MCL. The AWQSs are designed to protect the State's aquifers, all of which have been designated for drinking water-protected use (*see* A.R.S. § 49-224(B)). The AWQSs are primarily used in ADEQ's Aquifer Protection Permit program (APP), and (to a lesser extent) in some remediation projects under the Water Quality Assurance Revolving Fund (WQARF), the Voluntary Remediation Program (VRP), and elsewhere.

B. A summary of the EIS:

General & Specific Impacts

The full scope of stakeholders who may incur direct impacts from this rulemaking include APP permittees, such as Mines, Industrial Facilities and Wastewater Treatment Plants, as well as rate payers to municipal drinking water systems, ADEQ, the general public and the environment. While not all costs and benefits are borne evenly, these are the identified groups generally impacted from the Microbiological Contaminants AWQS rulemaking.

Costs to permittees to meet the new AWQS for Microbiological Contaminants are None to Minimal. In fact, ADEQ expects cost savings in many cases. The proposed AWQS for microbiological contaminants does not propose a numeric change in water quality standards, but instead proposes to implement more efficient/effective monitoring protocols. In this regard, the EIS generally follows a key premise of the Matrix Report: that the primary cost impact of the proposed AWQS would be a *reduction* in permittee sampling costs due to the reduced incidence of false-positive routine testing, repeat tests and accelerated monitoring thereafter. Consistent with the Matrix Report, the EIS estimates the cost *savings* related to more efficient sampling protocols. The EIS follows the format of the cost analysis in the Matrix Report, which evaluates *incremental* changes (reductions) in permittee costs compared to baseline conditions (i.e., costs under the current AWQS compared to costs under the proposed AWQS).

In addition to creating cost savings for permittees, the proposed AWQS would potentially generate economic benefits in terms of a reduction in cases of illness and death associated with microbiological contamination. In particular, the improved sampling protocols are expected to allow for quicker identification of incidents of contamination, allowing for more timely implementation

of corrective measures (according to ADEQ staff, the higher incidence of false-positive test results under the existing protocols – and the associated need for retesting – can result in delays in identifying actual cases of contamination, potentially resulting in disease outbreaks that could otherwise be contained sooner). These potentially significant health benefits are not quantified in the EIS, as ADEQ and their consultant do not have sufficient information to develop such estimates. However, following the methodology of the Matrix Report, the EIS provides *general* estimates of the annual economic benefits attributable to regulation of Microbiological Contaminants. These general estimates of economic benefits are provided for contextual purposes (i.e., they quantify the existing benefits of regulating Microbiological Contaminants irrespective of proposed adjustments to the AWQS and therefore are not represented to be *incremental* benefits associated with the proposed AWQS).

Costs. Whereas permittees will continue to incur costs (primarily for routine and repeat sampling) to comply with the new/proposed AWQS, these costs are expected to *decrease* in comparison to the costs of complying with the current AWQS. These potential cost savings are attributable to the expectation that the routine sampling and repeat sampling requirements under the new AWQS would result in fewer "false positive" samples, thereby reducing the need for follow-up sampling and unwarranted corrective actions for facilities falsely deemed to be non-compliant. Statewide, the cost savings to permittees are estimated to range from $882,000 to $1.7 million annually (in 2023 dollars).

Benefits. Based on available time series data from ADHS and CDC, the Matrix Report estimates that regulation of Microbiological Contaminants results in 80 fewer cases of illness and 0.3 fewer deaths per year (statewide). In monetary terms, these prevented illnesses and deaths represent annual statewide benefits of $3.5 million per year (in 2023 dollars).

Specific impacts

From a total 434 Aquifer Protection permittees in Arizona, it is estimated (based on the Matrix Report) that 153 to 300 permittees annually are required to sample for Microbiological Contaminants. This subset of 153 to 300 permittees would be the impacted stakeholder group that would potentially experience cost savings under the proposed AWQS. In Arizona, the potentially affected benefiting population consists primarily of private well users throughout the state (estimated at 350,000 persons in total), although some of these will be effectively excluded from the additional benefits of the higher AWQS because existing Microbiological Contaminant levels in some wells are already zero. Benefits in the form of cost savings could also accrue to community water systems and their clientele due to a reduction of Microbiological Contaminants in the groundwater, under the proposed AWQS. As many as 1.8 million Arizonans could be potentially affected in this way.

Stakeholder Process

ADEQ has conducted a number of general and specific stakeholder meetings concerning this rulemaking, including tribal listening

sessions and rule language sessions with major industry associations and their counsel, representing a majority of the individual APP regulated parties. The dates of those events are as follows: 9/29/22, 6/8/23, 9/11//23, 12/12/23, 12/13/23, 4/29/24, 8/8/24, 1/8/25, 2/20/25 and others. A repository of stakeholder materials can be found published on ADEQ's dedicated AWQS Rulemaking website here: https://www.azdeq.gov/rulemaking/awqs-update/resources.

C. Identification of the persons who will be directly affected, bear the costs of, or directly benefit from the rules:

Costs to Stakeholders

Individual APP Permittees (hereinafter: "permittees") will be the primary bearers of costs associated with this rulemaking. Permittees are discussed under the following three categories:

- Mines, where treatment conditions can vary noticeably from typical urban waste processing.
- Industrial facilities, with treatment conditions that can vary according to the industrial processes involved.
- Wastewater Treatment Plants, including mostly those treating urban-related wastewater.

Other potential costs to stakeholders addressed include the following:

- Rate payers in municipal systems, where rates could conceivably increase to cover increased costs for expanded treatment.
- Regulated parties under ADEQ remediation programs such as WQARF and VRP (minimal impact).
- Some permittees are assumed to be small businesses, and are additionally addressed as a segmented category.
- ADEQ, although any additional staff efforts and other expenses associated with monitoring proposed expanded treatment requirements will generally be covered through permittees' fee increases.

Benefits to Stakeholders

Generally, the state and the constituents of the state benefit from this rulemaking through the protection of the aquifer resource as an asset for drinking water use both now and in the future, pursuant to statutory mandate at A.R.S. § 49-224. More specifically, ADEQ and its consultant have attempted to quantify the benefit of the rulemaking to the extent possible in terms of health benefits related to forgone diseases. In Arizona, the immediate health-affected population consists primarily of private well users throughout the state, under certain qualifying conditions. Private well water consumers are generally limited to areas where discharged water treatment contaminant levels would improve based on the proposed AWQSs.

Other benefit categories include the following:

- Community water systems (CWSs) and their clientele. Savings could accrue to CWSs due to reduced Microbiological Contaminants in the groundwater under the proposed AWQS. Any savings would presumably be passed on to customers.
- State costs, where some state-supported medical costs would decrease, with diseases forgone.

D. Benefit/Cost Analysis:

Not all permittees will be burdened with the requirement to alter their facility in order to come into compliance with the proposed AWQSs and thereby incur the related costs, for any one of the following reasons or combinations of reasons:

- Permittees' existing treatment methods/technologies are already adequate to meet the target standard;
- The contaminant in wastewater subject to treatment exists at a level below the proposed AWQS; and
- Ambient levels of the contaminant in groundwater exceed the proposed AWQS, in which case the permittee need only be held to a "no further degradation" standard (*see* A.A.C. R18-9-A205(C), A.R.S. § 49-243(B)(2) and (3)).

Cost impacts in this EIS relate primarily to potential cost *savings* to permittees due to the more efficient (and more effective) sampling protocols under the proposed AWQS. According to ADEQ's database of permittees, an estimated total of 434 permits are divided among the categories shown below:

Category	**# Permittees**
Mines	35
Industrial Facilities	56
Wastewater Treatment Plants	343
Total	**434**
*Small Businesses as a segmented category	135

Key modeling factors used in this analysis are the following:

Factors	**Key source references**	**Notes**
	Costs	
Total APP's	Matrix report, page 25	The Matrix Report evaluates two alternatives for a new AWQS: 1. ADEQ would adopt the EPA's MCL as the AWQS; or 2. ADEQ would develop and establish an appropriate alternative AWQS (for which the Matrix Report assumed that the routine and repeat samples would both be Fecal Coliform). Per direction of ADEQ staff, the EIS considers a proposed AWQS that would require testing *E. coli* for the routine sample, with all required repeat samples testing for *E. coli*. Where appropriate, the Matrix Report factors have been applied to the AWQS proposal considered in the EIS.

Approach to the EIS for Microbiological Contaminants. ADEQ and its consultant rely on estimates prepared by the authors of the "MCL Assumptions Report – Microbiological Contaminants Aquifer Water Quality Standards Technical Support", prepared by Matrix New World Engineering, Land Surveying and Landscape Architecture, PC. in 2023 ("Matrix Report") (*see* Heading No. 8 of this NFRM). This information was supplemented by the Matrix Report's source material (primarily from the EPA), which takes into account multiple factors affecting potential costs and benefits.

Health Risk Reduction (Benefits)

The EIS measures the economic benefits of the AWQS in terms of the monetized value of illnesses and deaths that would be prevented by compliance with the State's AWQS for Microbiological Contaminants. These calculations are based on the following steps:

- Estimate the annual number of cases of enteric disease that would occur in Arizona in the absence of effective AWQS for microbiological contaminants;
- Estimate the annual number of deaths that would result from outbreaks transmitted by water in Arizona in the absence of effective AWQS;
- Calculate the costs associated with treatment of estimated cases of enteric disease; and
- Calculate the monetary value of lives lost due to disease outbreaks transmitted by water (using "Value of Statistical Life" data).

Based on available time series data from ADHS and CDC, the Matrix Report estimates that the AWQS would create the following benefits in terms of prevented illnesses and deaths:

- Prevention of 80 cases of illness per year
- Prevention of 0.3 deaths per year
- Avoided costs of $2,397.76 per case of illness prevented

- Value of Statistical Life (VSL) of $11.1 million

Using the above factors, the Matrix Report calculates total benefits from the AWQS of $3.5 million per year. For purposes of the EIS, health-related benefits are understood to be the same for both the existing AWQS and the proposed AWQS. These general estimates of economic benefits are provided for contextual purposes (i.e., they quantify the existing benefits of regulating Microbiological Contaminants irrespective of proposed adjustments to the AWQS and therefore are not represented to be *incremental* benefits associated with the proposed AWQS).

The proposed AWQS would potentially generate economic benefits in terms of a reduction in cases of illness and death associated with microbiological contamination. In particular, the improved sampling protocols are expected to allow for quicker identification of incidents of contamination, allowing for more timely implementation of corrective measures (according to ADEQ staff, the higher incidence of false-positive test results under the existing protocols – and the associated need for retesting – can result in delays in identifying actual cases of contamination, potentially resulting in disease outbreaks that could otherwise be contained sooner). These potentially significant health benefits are not quantified in the EIS, as the consulting team does not have sufficient information to develop such estimates.

Cost Analysis

Consistent with the Matrix Report, the cost analysis provided in this EIS is based on the premise that the proposed AWQS would result in cost *reductions* (to permittees and the State) compared to the existing AWQS. The cost savings would result from revised sampling protocols intended to significantly reduce the occurrence of false-positive test results (while more quickly identifying contaminants that are of actual concern from a public health perspective). Within the framework provided in the Matrix Report, these cost savings are calculated in terms of the avoided costs of follow-up sampling compared to estimated costs under the existing AWQS protocols. As such, the calculated "costs" are negative (compared to baseline levels) and therefore can actually be interpreted as benefits rather than costs.

The Matrix report evaluates two alternatives for a new AWQS:

1. ADEQ would adopt the EPA's MCL as the AWQS; or
2. ADEQ would develop and establish an appropriate alternative AWQS (for which Matrix assumed that the routine and repeat samples would both be Fecal Coliform).

The EIS considers a proposed AWQS that would require testing *E. coli* for the routine sample, with all required repeat samples testing for *E. coli*. Where appropriate, the Matrix Report factors have been applied to the AWQS proposal considered in the EIS.

Cost factors/assumptions derived from the Matrix report are summarized below.

Costs of Sample Analysis. The Matrix Report estimated ranges of costs for the sample analysis by contacting four ADHS certified laboratories. If the contacted laboratories offered more than one analysis method, the least expensive method was used. The following are the range of costs used for the Matrix analysis (and also in the EIS):

- Total coliform: $25 - $50

- *E. coli*: $25 - $50

Costs for labor, reporting, and administrative work were assumed in the Matrix Report based on the author's knowledge and previous experience with APPs. These assumptions are outlined on the tables below.

Work Costs per False-Positive Sample

Work Category	Hours	Rate	Cost
Labor	8	$95	$760
Data analysis	4	$125	$500
Reporting	20	$100	$2,000
Administrative	4	$100	$400
TOTAL:	**36**	**--**	**$3,660**

Breakdown of Work Costs based Coliform Type per False-Positive Sample

Category	Total Coliform	*E. Coli*
Sampling Cost (labor, analysis, consumables)	$795 - $820	$795 - $820
Reporting Costs	$2,500	$2,500
Administrative Costs	$400	$400
TOTAL:	**$3,695 - $3,720**	**$3,695 - $3,720**

Note: Consumables include ice, gloves, etc. for collecting samples. Assumed to be approximately $10 per sample.

In the EIS, the factors summarized above have been applied to the proposed AWQS. The costs of sampling under the current AWQS and the proposed AWQS are calculated on the table on the next page.

Total and Incremental Sampling Costs Per Year Statewide (in 2023 dollars)

Factor	Current AWQS (Baseline)		Proposed AWQS	
	Low	High	Low	High
Total APP's	434	434	434	434
Facilities required to sample for coliforms	153	300	153	300
Sampling frequency (times per year)	4	4	4	4
Routine coliform samples per year	612	1,200	612	1,200
Coliform type sampled (routine)	Total	Total	*E. Coli*	*E. Coli*
False-positive percentage	43%	43%	4%	4%
Repeat samples triggered by false positives	263	516	24	48
Coliform type sampled (repeat)	Total	Total	*E. Coli*	*E. Coli*
Total cost per sample (by type):				
Total coliform	$3,695	$3,720	$3,695	$3,720
E. Coli	$3,695	$3,720	$3,695	$3,720
Aggregate (statewide) sampling costs/year:				
Routine samples	$2,261,340	$4,464,000	$2,261,340	$4,464,000

Repeat samples	$972,375	$1,919,520	$90,454	$178,560
Total	*$3,233,716*	*$6,383,520*	*$2,351,794*	*$4,642,560*
Cost Increase (Reduction) Compared to Baseline	***N/A***	***N/A***	***($881,923)***	***($1,740,960)***

Source: ADEQ and consultant.

1. **Part I – Benefit / Cost Stakeholder Matrix:**

Minimal	Moderate	Substantial	Significant
$500,000 or less	$500,000 to $5 million	Greater than $5 million	Cost/Burden cannot be calculated, but the Department expects it to be significant.

Note: all benefits and cost figures in this document are in annualized amounts.

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue	Decreased Cost/ Increases in Revenue
Costs to Stakeholders			
Cost stakeholders	General: The EIS follows the format of the cost analysis in the Matrix Report, which essentially looks at *incremental* changes in permittee costs compared to baseline conditions (i.e., costs under the current AWQS compared to costs under the proposed AWQS). An underlying premise of the Matrix Report analysis (and therefore the EIS) is that more efficient sampling requirements under the proposed AWQS would result in a significantly lower occurrence of false-positive test results and would therefore *reduce* compliance costs without compromising (while potentially improving) water quality standards		Significant
Permittees, generally	In general, microbiological contaminants are more likely to be generated within Wastewater Treatment Facilities, and also in treated wastewater. Microbiological Contaminants also can enter groundwater under certain conditions		Moderate: AWQS would potentially reduce costs for routine and repeat sampling (by $882,000 to $1.7 million per year statewide)
Mines	Microbiological Contaminants are least likely to be found in mine-related water being treated, compared to other permittee types		
Industrial activities	Microbiological Contaminants would not be particularly likely to be occurring in industrial-related water being treated, compared to other permittee types		
Wastewater Treatment Plants	This category of permittee type is most likely to be dealing with Microbiological Contaminants, because of the urban-use connection		
Rate payers in municipal systems	Private citizens and businesses could potentially benefit from reduced user fees for wastewater processing, based on reduced costs to permittees under the revised AWQS. However, these benefits are likely to be minimal (given the relatively small cost savings on a per-system basis)		Proposed AWQS is expected to reduce compliance costs to permittees, which could potentially be passed on to rate payers in the form of lower rates; in practice, rate

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue	Decreased Cost/ Increases in Revenue
			reductions are likely to be minimal Minimal. Aggregate revenues would potentially decrease in proportion to the cost savings from reduced sampling requirements. Given state-wide cost savings of $882,000 to $1.7 million per year, cost savings on a per-system basis are likely to be minimal
Small businesses as a segmented category	Coming into compliance with new standards. Small businesses are generally cost-disadvantaged when compared to larger businesses because treatment costs generally decline as the scale (processing capacity) of a processing facility increases.		Moderate. Overall, the AWQS would potentially create moderate cost savings to permittees compared to the existing AWQS
ADEQ	ADEQ believes some new costs will be incurred, despite the fact that some infrastructure for processing permits is already in place. ADEQ anticipates that hundreds of permits may need to be amended to update monitoring tables that include Microbiological Contaminant indicator parameters. Any additional costs incurred would generally be covered by increased fees paid by permittees.	Minimal	
Benefits to Stakeholders			
State of Arizona and its Constituents, generally	Savings could accrue to the people of the State of Arizona, generally, through aquifers (as a local, convenient and {in the right circumstance} inexpensive sources for drinking water) remaining a viable asset to community water portfolios and individual well users alike		Significant
Private well users, health benefits: In Arizona, the more immediately affected population consists primarily of private well users throughout the state.	Following EPA, quantified benefits are measured in terms of reduced loss of life and illness and costs associated with treatment for disease.		Moderate: Potential health benefits attributable to existing AWQS are estimated at $3.5 million per year; this benefit would not change by virtue of the proposed new AWQS Significant: Potential reduction in the impacts of disease outbreaks (by virtue of more rapid identification and mitigation of contamination

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue	Decreased Cost/ Increases in Revenue
Community water systems (CWSs) and their clientele	Savings could potentially accrue to CWSs due to reduced microbiological contaminants in the ground water. Any savings would presumably be passed on to customers.		Significant
State costs	Some state-supported medical costs would decrease (this benefit already exists under existing AWQS and would continue under new AWQS)		Significant
State revenue effects	Reduced sampling requirements of permittees would potentially result in some loss of business (and associated reductions in employment) for firms engaged in sample analysis. The potential loss of direct jobs would in turn (in theory at least) generate additional employment losses through reductions in indirect and induced (secondary) economic activity, and subsequent tax revenues	Minimal. Lost State income taxes are estimated to be $6,700 per year due to direct and secondary losses of employment	

2. Part II – Individual Stakeholder Summaries / Calculations:

The following subsection provides an explanatory discussion of expected stakeholder costs and benefits. The subsection outlines the key factors and analysis used to determine the impact findings reported in Part 1 of subsection D, above.

***Costs to Stakeholders*:**

Permittees in General

Compared to the current AWQS, the indicated changes to the AWQS are intended to maintain the same (or better) levels of protection with respect to human health, while potentially resulting in significant cost savings to impacted permittees (due to the expectation that the modified sampling requirements would substantially reduce the incidence of "false positive" results). As such, many of the stakeholder categories that would typically be impacted by the costs of new regulation would actually benefit from *reduced* cost burdens under the proposed new AWQS.

Estimated cost savings to permittees are based on factors in the Matrix report, applied to the proposed AWQS (as defined by ADEQ staff). Consistent with the Matrix report, the EIS focuses strictly on potential cost savings related to the issue of reducing false-positive test results (due to more efficient requirements for contaminant sampling under the new AWQS); the analysis does not quantify other potential costs savings such as reduced costs for assessments and correction actions (reductions in false-positive test results would presumably reduce the incidence of unwarranted assessments).

Mines

Because mines are not necessarily associated, locationally or otherwise, with water treated for household consumption, Microbiological Contaminants are likely to be minimal compared with discharge systems that have an urban connection.

The 35 permittees operating mining facilities can be quite complex, potentially involving multiple water control structures (dams, retention areas, etc.) in conjunction with treatment processes. The concentrate leach process for extracting copper, a common practice in Arizona, is also water-intensive.

Industrial Facilities

This category of permittee is generally processing wastewater generated from an industrial process. Consequently, water treatment technology options are partially dictated by the particular type of waste created through the industrial activity. For some industrial processes, water use will involve treatments similar to those for households, therefore microbiological contamination would potentially be an issue; but other industrial processes will have minimal or no connection to microbiological contamination. The estimated number of industrial wastewater processing permittees is 56.

Wastewater Treatment Plants

The 343 permittees in this category are generally treating wastewater from typical municipal/urban-type sources, and so will typically have significant potential for microbiological contamination. Key subcategories in this group are listed below and provide a sense of the range of activities to which treatments are being applied. Some of these are tied to municipalities, and some are treating waste streams from planned communities, RV parks, correctional institutions, military installations, or similar developments that may be remote from or otherwise not connected to a central wastewater treatment collection and processing system.

- City/Town; Other Urban (subdivisions, single-purpose facilities such as schools)
- Hospitality/Travel/Recreation
- Military Base
- Prison/Jail
- Water Recharge, Other Processing

Rate payers in municipal systems (community water systems (CWSs))

Private citizens and businesses could potentially benefit from reduced user fees for wastewater processing, based on reduced costs to permittees under the revised AWQS. However, these benefits are likely to be minimal (given the relatively small cost savings on a per-system basis).

Small businesses as a segmented category

(See also subsection F below, addressing the probable effects of the proposed rulemaking on small businesses.) Cost burdens on small businesses will tend to be proportionately greater than for large businesses. Not only are they less likely to have specific expertise needed to meet proposed modified standards in-house, but also small businesses tend to be disadvantaged because

treatment costs generally decline as the scale (processing capacity) of a processing facility increases, so larger processing facilities can process wastes at a smaller unit cost.

ADEQ

ADEQ may need additional staff or staff time to address advanced treatment processes and related testing, etc. However, any such costs should be covered by fees paid by permittees for ADEQ services.

***Benefits to Stakeholders*:**

Private well users (and CWSs users)

The relevant affected group for this benefit consists of consumers of permittee-treated water that ends up in water supply chains. There are two segments to the benefiting stakeholders:

1. Some Community water systems (CWSs, or municipal water treatment utility operators), for systems in which groundwater is a water source, along with customers of those water utilities. These stakeholders are likely to jointly benefit from reduced sampling requirements and costs, with cost savings presumably passed on to customers, because groundwater quality has improved due to permittees' actions in meeting revised AWQS.
2. The population served by private wells, where there is no intermediary utility processing their water for consumption. This affected group benefits from diseases forgone due to water quality standards related to Microbiological Contaminants.

The first segment is addressed below under the section *Community water systems (CWSs) and their clientele.*

Segment 2. As more fully documented in the Matrix Report, one major purpose of fecal pollution detection is to identify the presence of pathogens related to fecal waste sources and potential health risks (from the many bacterial, protozoan, and viral enteric pathogens that can cause diseases). Water quality monitoring to detect fecal pollution usually applies microbial fecal indicators to represent numerous potential pathogens.

Based on available time series data from ADHS and CDC, the Matrix report estimates that the AWQS would create the following benefits in terms of prevented illnesses and deaths:

- Prevention of 80 cases of illness per year
- Prevention of 0.3 deaths per year

Community water systems (CWSs) and their clientele

This affected group (segment 1 as noted above) includes a portion of customers of municipal or water utility water systems. Estimates of this segment of the population, served by water sources that included groundwater, were derived from data at the Arizona Department of Water Resources website (https://www.azwater.gov/ama/ama-data) which gave quantities of water use by municipal and other user types, by source, including groundwater, along with populations served by various categories of providers. An estimated 2.04 million Arizonans would be affected in this way (by both existing and proposed AWQS).

State cost savings

The proposed AWQS would potentially create incremental health benefits compared to existing policy by allowing for more rapid identification of contamination (and therefore more proactive containment of potential disease outbreaks). Related to these potential health benefits, the proposed AWQS would potentially result in some reduction in state-supported medical costs.

E. A general description of the probable impact on private and public employment in businesses, agencies, and political subdivisions of this state directly affected by the rulemaking:

General:

As permittees would be subject to more efficient sampling requirements under the proposed AWQS, the need for employment related to sampling and sample analysis would potentially decrease somewhat. In this EIS, this effect is simulated through the RIMS II modeling system described, as applied to this analysis (see next subsection below entitled "Regional Input-Output Modeling System (RIMS) Model Explanation"). Summarized results of the modeling process are tabulated below. Unless noted otherwise, results represent the low end of estimates where a range of potential annualized costs has been given in subsection D, above, to avoid potential confusion and overstatement related to this impact measure. The model translates expected annualized costs to employment and earnings based on relationships of those elements within the industry category that most closely matches that of the permittees (and is documented within the RIMS II system – NAICS code 2213: Water, sewage, and other systems). In the summary of the model as tabulated below for the contaminant of Microbiological Contaminants, direct employment and earnings resulting from permittees' investment in equipment are shown separately from the total multiplier (direct plus secondary) job-generating effects of this investment.

RIMS II modeling outputs and key input factors	
Annualized Costs (with financing etc.)/Increased "Output"	($881,923)
Jobs Per Million Dollars in Output	1.80
Earnings Per Dollar of Output	$0.17
New Wastewater Treatment Direct Jobs Created	(1.59)
New Annual Earnings for Direct Jobs Created	($148,229)
Total New Jobs (Direct + Secondary)	(4.87)
Effective Income Tax Rate	2.1%
Estimated Total Annual State Income Taxes (Direct and Secondary)	($6,732)

Source: RIMS II model for Arizona; ADEQ & consultant.

Regional Input-Output Modeling System (RIMS) Model Explanation:

This subsection discusses the Regional Input-Output Modeling System (RIMS II - As provided by the Bureau of Economic Analysis (BEA), U.S. Department of Commerce) modeling analysis supporting the jobs-related economic impact of the proposed wastewater treatment investments / expansions in the State of Arizona. All impacts estimated through this analysis are provided

for the statewide level of geography and are not intended to estimate impacts for sub-state geographic areas (e.g., metropolitan statistical area [MSA], county, etc.). Results of these analyses are shown in Parts E (employment) and G (state taxes) of the document.

The analysis assumes the investments to upgrade the wastewater facilities will include installing new wastewater-specific equipment (which may also include expanding the size of the facility, although that is not addressed in this analysis), which will increase the productive capacity of these wastewater facilities. For the purposes of this analysis, the "productive capacity" is assumed to be the annualized equivalent of capital investments (and additional operating costs would also be part of this, and such costs are included in the analysis where available). Cost (and benefit) figures shown in this document are annualized, having been calculated as such by the original data providers, generally from EPA and the Matrix Report.

The annualizations generally were based on assumptions of the payback of proposed investments having a 20-year lifespan (and an installation period was sometimes included) and an annual interest rate of 7.0%. ADEQ and its consultant further assumed that wastewater treatment plants' revenues (such as user fee increases) would increase by commensurate amounts to cover the annualized costs of the proposed improvements. This increase in revenue ("Output") allows ADEQ and its consultant to apply final-demand multipliers to estimate the number of new jobs and earnings (associated with these jobs) in the state that would result from the proposed investments. The RIMS II model generates economic multipliers for jobs, earnings, and output, based on the industry NAICS code 2213: Water, sewage, and other systems, for direct, indirect, and household (induced) effects. Along with the increases in employment and earnings generated by the proposed investments, the new earnings would also generate state income tax revenue for the State. Based on data from the BEA and the Arizona Department of Revenue (ADOR), ADEQ and its consultant derived an estimated effective state income rate of 2.1% (The State flat income tax rate, at the time this EIS was prepared, is 2.5%. The net income tax rate of 2.1% reflects deductions for the average wage and salary worker and other adjustments).

F. A statement on the probable impact of the rules on small business:

Economic costs to comply with AWQSs that are borne by small businesses may be considerable. Small businesses tend to be disadvantaged because treatment costs generally decline as the scale (processing capacity) of a processing facility increases. Besides the potential need for additional personnel or additional training, permittees may need to hire technical expertise on a consulting basis to determine the most appropriate and cost-effective treatment technologies that apply to any one permittee's particular conditions.

1. An identification of the small businesses subject to the rules:

Small businesses constitute a distinct category for which the impacts of rulemaking need to be considered. For this EIS and those addressing the other contaminants, impacted small businesses will be wastewater facility permittees meeting the following criteria:

- According to A.R.S. 41-1001 and as applied in this EIS, "'Small business' means a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than $4 million in its last fiscal year."
- ADEQ and its consultant used a database of permittees, which had partial flow data, to screen permittees for this measure. Lacking further operational-level data for permittees, ADEQ and its consultant also screened permittees to identify "businesses" as opposed to governmental entities, and small businesses, constituting those that did not appear to be associated with a larger entity.

Based on the screening processes described above, in which the number of permittees that are also small businesses is estimated with limited precision, ADEQ and its consultant estimated that small businesses make up just over 30% of permittees, or 135 entities in total. As noted previously in this EIS, not all of these facilities will necessarily need to incur costs to meet the proposed AWQS.

2. The administrative and other costs required for compliance with the rules:

Permittees small and large have systems already in place for the basic administrative and other managerial duties related to compliance to existing AWQSs. To the extent that is the case, any additional duties would constitute an expansion of existing processes rather than new systems. Also, there is a possibility that permittees would need to hire a consultant for technical expertise to select and integrate new technology into existing treatment processes.

3. A description of the methods that the agency may use to reduce the impact on small businesses, as required in A.R.S. § 41-1035:

A.R.S. § 41-1035 Methods	ADEQ Decision to use or not use and reason
1. Establishing less stringent compliance or reporting requirements in the rule for small businesses	Not used. In administering the APP program, compliance and reporting requirements are delineated in rule and statute in order to properly protect human health and the environment. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243). ADEQ does allow permittees a reasonable amount of time to conduct Baseline Monitoring and to apply for permit amendment to come into compliance with new or adjusted AWQS (*see* Chapter 9 NFRM).
2. Establishing less stringent schedules or deadlines in the rule for compliance or reporting requirements for small businesses	Not used. In administering the APP program, compliance and reporting requirements are delineated in rule and statute in order to properly protect human health and the environment. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243). ADEQ does allow permittees a reasonable amount of time to conduct Baseline Monitoring and to apply for permit amendment to come into compliance with new or adjusted AWQS (*see* Chapter 9 NFRM).
3. Consolidating or simplifying the rule's compliance or reporting requirements for small businesses	Not used. In administering the APP program, compliance and reporting requirements are delineated in rule and statute in order to properly protect human health and the environment. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243).

A.R.S. § 41-1035 Methods	ADEQ Decision to use or not use and reason
4. Establishing performance standards for small businesses to replace design or operational standards in the rule	Not used. In administering the APP program, performance, design and operational standards are all built into a review of a facility's employment of the best available demonstrated control technologies, processes, operating methods or other alternatives. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243).
5. Exempting small businesses from any or all requirements of the law	Not used. In administering the APP program, all persons discharging a pollutant into the environment must obtain an APP permit under A.R.S. § 49-241, unless exempted through A.R.S. § 49-250. Eliminating small business from the scope of the APP program is not supported by statute and would undermine the purpose of the program, to protect the state's aquifers to a drinking water standard (*see* A.R.S. §§ 49-223, 224, 241, 243).

4. The probable costs and benefits to private persons and consumers who are directly affected by the rules:

Potential savings could accrue to community water systems due to reduced Microbiological Contaminants in the groundwater under the proposed AWQS, and such savings could be substantial and would presumably be passed on to customers. As many as 1.8 million Arizonans could potentially be affected.

G. A statement of the probable effect on state revenues:

To the extent that costs to upgrade treatment facilities result in higher user fees, additional fees could be taxable within the state's transaction privilege tax system. ADEQ and its consultant have not attempted to quantify any such effect. Investments in treatment technology and processes by permittees could result in additional hires to operate equipment, which in turn would generate additional employment through indirect and induced (secondary) economic activity, and subsequent tax revenues. Employment effects are addressed in subsection D, above. As noted therein, estimated state taxes for direct and secondary employment generated by investments in Microbiological Contaminants technology (using the low end of costs where ranges are given) are approximately $6,700.

H. A description of any less intrusive or less costly methods of achieving the purpose of the rulemaking:

The controlling statute at A.R.S. § 49-223 does not allow ADEQ to conduct any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking. It simply requires ADEQ to open a rule making docket pursuant to A.R.S. § 41-1021 for adoption of a new or adjusted MCL as an AWQS within one year of the MCL's establishment or adjustment.

I. A description of any data on which the rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data:

Reference material used in this EIS comes mainly from the *MCL Assumptions Report – Microbiological Contaminants Aquifer Water Quality Standards Technical Support* prepared by Matrix New World Engineering, Land Surveying and Landscape Architecture, PC (Matrix Report) for ADEQ in 2023 (*see* Heading No. 8 above for citation). Other reference material was used to a lesser extent (*see* Heading No. 8 above). ADEQ and its consultant also made selective use of EPA documents addressing

specific contaminants referenced extensively by the Matrix Report. EPA documentation is the typical standard for assumed legitimacy with respect to actions assessed and implemented by ADEQ. ADEQ and its consultant reviewed the Matrix Report and engaged with Matrix principals in direct consultation regarding aspects of their documentation in the preparation of this EIS. EPA documentation was generally available online.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

R18-11-406(F) - Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

- Replaced "presence or absence" with "detection or non-detection" as the latter terms reference the minimum detection level (MDL) of the sampling instrument or method which is more apt, more appropriate than the previous terms.

R18-11-406(F)(1) - Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

- Replaced "of" with "for" three times for non-substantive, semantic purposes.
- Replaced "exceedance" with "detection" in order to align with the change to subsection (F) explained above.

R18-11-406(F)(2) - Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

- Replaced "of" with "for" three times for non-substantive, semantic purposes.
- Replaced "exceedance" with "detection" in order to align with the change to subsection (F) explained above.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

Comment 1: Utility

Concerning the proposed alternative AWQS for Microbiological Contaminants, our current APP monitoring table utilizes the unit Most Probable Number (MPN) with a limit of (< 2.2) for *E. coli* monitoring. Will the units stay the same with this change in standard? Will Presence / Absence (P/A) be installed instead?

ADEQ Response 1:

ADEQ appreciates the comment. No, P/A will not be used for the *E. coli* indicator parameter utilized in the proposed AWQS for microbiological contaminants. Rather, detection or non-detection of either Fecal Coliform or *E. coli* is used. This means, for *E. coli*, "detect / non-detect" is likely to appear in the applicable APP monitoring tables along with a footnote stating that "non-detect" means a result of < 2.2 MPN or < 1 CFU, depending on the unit used in the permit.

Comment 2: Utility

If there is significant opposition to any of the parameters does ADEQ then not proceed with that particular parameter?

ADEQ Response 2:

ADEQ appreciates the comment. The answer to that question is – not necessarily. "Substantial Opposition" is a term defined in

A.R.S. § 49-223(A) as, "... information submitted to the director that explains with reasonable specificity why the [MCL] is not appropriate as an [AWQS]." Upon receipt of "substantial opposition", the Department must conduct a statutorily delineated procedure that leads to a determination of whether the MCL is "appropriate" as an AWQS. More information on that process can be found here: https://www.azdeq.gov/rulemaking/awqs-update/resources . ADEQ has received substantial opposition from stakeholders on the proposal to adopt the Microbiological Contaminants MCL as an AWQS (*see* heading No. 7, subsection "Substantial Opposition" for more information).

Comment 3: Concerned Citizen

If there are any lab people on the call, can they answer if there are sampling methods associated with the proposed Microbiological Contaminants AWQS that will provide a presence/absence (P/A) result for fecal coliforms? I know P/A exists for Total Coliforms and *E. coli*. I found this statement in a Google search, "*[t]he P/A tests for the presence/absence of indicator organisms in a water sample. This is usually observed in the form of a color change after an incubation period. Two common P/A tests are: H2S-producing bacteria P/A test Total Coliform and E. coli P/A Test.*" I am not sure P/A exists for fecal coliform.

ADEQ Response 3:

ADEQ appreciates the comment. Due to this comment and others submitted on the proposed Microbiological Contaminants AWQS, ADEQ has revised the rule language, essentially swapping the "absence / presence" binary with "detection / non-detection". Under the new language, any *E. coli* detection result from routine sampling would need to be followed by a repeat *E. coli* sample within 5 days of becoming aware of the result. A repeat sample that results in a detection of *E. coli* would constitute a violation of the Microbiological Contaminants AWQS. Additionally, ADEQ conducted some research which shows that Eurofins Scientific laboratory testing services offers a Fecal Coliform testing method (SM 9222D) separately from the EPA Total Coliform method (EPA 1604). Both methods have an 8-hour holding time. Source: https://www.eurofinsus.com/media/447768/appendix-d-section-5-attachment-holdtime-container-list_2016-july.pdf.
Also, Standard Method 9222D is a membrane filtration test for fecal coliforms and is offered by local labs in Arizona.
This method can detect fecal coliforms from 20 - 60 CFU/100 mL. Source: https://www.nemi.gov/methods/method_summary/5587/. Also, please find a table in Heading No. 7, subheading "Sampling and Analytical Methodologies" explaining the preliminarily appropriate analytical methods for each new or adjusted AWQS.

Comment 4: Utility

We support the proposed alternate AWQS for microbiological contaminants with the following minor edits to the language:

1. If a routine sample ~~of Fecal Coliform~~ is positive for Fecal Coliform, a 100-milliter repeat sample ~~of either Fecal Coliform or *E. coli*~~ shall be taken within five days of becoming aware of the exceedance for analysis of Fecal Coliform or *E. coli*.

2. If a routine sample ~~of *E. coli*~~ is positive for *E. coli*, a 100-milliter repeat sample ~~of *E. coli*~~ shall be taken within five days of becoming aware of the exceedance for analysis of *E. coli*…

ADEQ Response 4:

ADEQ appreciates the comment. Due to this comment and others submitted on the proposed Microbiological Contaminants AWQS, ADEQ has revised the rule language, essentially swapping the "absence / presence" binary with "detection / non-detection". Under the new language, any Fecal Coliform detection result from routine sampling would need to be followed by a repeat Fecal Coliform or *E. coli* sample within 5 days of becoming aware of the detection result. A repeat sample that results in a detection of either parameter would constitute a violation of the Microbiological Contaminants AWQS. The Fecal Coliform indicator parameter is understood by ADEQ to encompass many species of fecal-derived, potentially harmful species therein; whereas, the *E. coli* parameter is a single, potentially harmful species. *E. coli* is used in this setting as an indicator; meaning that if it is detected in a sample, other potentially harmful species are likely to be present as well. Because the Fecal Coliform parameter encompasses within its scope *E. coli* and a number of other fecal-derived species, ADEQ believes an *E. coli* repeat sample is appropriate if either Fecal Coliform or *E. coli* were sampled routinely. Please note that for the *E. coli* indicator parameter, “detect / non-detect” is likely to appear in the applicable APP monitoring tables along with a footnote stating that “non-detect” means a result of <2.2 MPN or <1 CFU, depending on the unit used in the permit. Additionally, ADEQ conducted some research which shows that Eurofins Scientific laboratory testing services offers a Fecal Coliform testing method (SM 9222D) separately from the EPA Total Coliform method (EPA 1604). Both methods have an 8-hour holding time. Source: https://www.eurofinsus.com/media/447768/appendix-d-section-5-attachment-holdtime-container-list_2016-july.pdf.
Also, Standard Method 9222D is a membrane filtration test for fecal coliforms and is offered by local labs in Arizona.
This method can detect fecal coliforms from 20 - 60 CFU/100 mL. Source:

Comment 5: Interest Group

We are deeply concerned about the proposed deviations from U.S. Environmental Protection Agency (EPA) standards for uranium, *E. coli*, and other pollutants. Arizona’s aquifers are invaluable resources that sustain drinking water supplies, ecological systems, and cultural heritage. Protecting these resources with robust, science-based standards is essential to ensure public health and environmental sustainability. We urge ADEQ to adopt the most protective standards possible by aligning AWQS with EPA’s maximum contaminant levels (MCLs) and guidelines for all pollutants under consideration, including arsenic, uranium, and *E. coli*. Prolonged delays in adopting federal standards leave Arizona communities vulnerable to contamination and illness.

ADEQ Response 5:

ADEQ appreciates the comment. There are seven (7) MCLs proposed for adoption as AWQSs within the scope of the collective "AWQS Update" rulemaking. All MCLs except for Microbiological Contaminants are being adopted as AWQSs verbatim. This includes uranium cited by the commenter.

For the alternative Microbiological Contaminants AWQS, ADEQ believes the proposed AWQS is equally effective as the corresponding MCL, but deviates from the MCL's employment of "Total Coliform" as an indicator parameter, utilizing the more precise "Fecal Coliform" and "*E. coli*" indicator parameters instead. Pursuant to A.R.S. § 49-223, ADEQ received "substantial opposition" to adoption of the Microbiological Contaminants MCL, mostly concerning the high numbers of "false positive" samples of Total Coliform that would have tested negative had Fecal Coliform or *E. coli* been the indicator parameter used in the standard instead. Details of the hardships encountered by the regulated community include hundreds of hours of labor in verification or repeat sampling. This, along with shipping and laboratory testing costs, amount to tens of thousands of dollars in unnecessary spending.

Given the substantial opposition received on the Microbiological Contaminants MCL, ADEQ was prompted to follow the procedure in A.R.S. § 49-223(A) for determining whether the Microbiological Contaminants MCL is appropriate as an Arizona state AWQS. ADEQ used its newly developed "standard work" as explained in Heading No. 7 above. ADEQ developed this "standard work" procedure for conducting an "appropriateness" determination pursuant to A.R.S. § 49-223(A). The "standard work" can be reviewed on ADEQ's website at https://www.azdeq.gov/rulemaking/awqs-update/resources. Concerning the Microbiological Contaminants MCL, ADEQ's review of EPA's assumptions on technology, costs, sampling and analytical methodologies and public health risk reduction resulted in significant concern for the costs, analytical methods and public health risk reduction assumptions in particular. ADEQ found that the MCL at 40 C.F.R. 141.63(c) is simply inappropriate as-is for verbatim adoption as an AWQS and applicability upon the facilities regulated by Arizona's APP program, such as Wastewater Treatment Plants, Mines and Industrial facilities. One of the main reasons is that the MCL is designed for Public Water Systems, not APP type facilities. Specifically, this is because the Microbiological Contaminants MCL requires routine sampling of both Total Coliform and *E. coli* parameters. Thereafter, upon a positive result of either Total Coliform or *E. coli*, a repeat sample is required for both parameters. Violation occurs when a positive result is obtained from an *E. coli* repeat sample that occurs after a total coliform-positive routine sample. Violation also occurs when a positive result is obtained from a Total Coliform repeat sample that occurs after an *E. coli*-positive routine sample. ADEQ found that the Total Coliform parameter is a very general indicator of coliforms in a sampling well, many of which occur naturally and are not indicative of a threat to human health. In particular, Total Coliform is too broad of an indicator parameter to signal fecal coliform health concerns in an APP regulatory program setting. On the contrary, ADEQ has found that Fecal Coliform and *E. coli* are more exacting indicators or surrogates of fecal coliforms, which are dangerous to human health. Additionally, when a permittee samples for Total Coliform and receives a

positive result, more often than not, the result is what is known as a “false positive”, signaling non-health threatening coliforms in a sample. ADEQ notes that false positives have led to a number of permittees having to perform accelerated or more frequent monitoring intervals pursuant to the permits unnecessarily, which have associated costs.

After determining that the MCL for Microbiological Contaminants was inappropriate as an AWQS, ADEQ followed the “standard work” procedure for alternative AWQS development and establishment. ADEQ is proposing with this final rule an appropriate alternative Microbiological Contaminants AWQS based upon the detection or non-detection of either Fecal Coliform or *E. coli* in a 100-milliliter sample (depending on the requirement of the permit). Upon a detection result for a routine Fecal Coliform sample, a repeat sample of either Fecal Coliform or *E. coli* with a “detect” result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Upon a detection result for a routine *E. coli* sample, a repeat sample for *E. coli* with a “detect” result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Through research and consultation, ADEQ determined that *E. coli* is a better indicator of fecal contamination than total or fecal coliforms and that Total Coliform positive samples are known to result in a “false positive”. A “false positive” in a Total Coliform sampling context is when a sample result is positive, but the cause of the positive result indicates a type of total coliform that does not originate in fecal contamination, is not dangerous to human health and occurs naturally. A common “false positive” is when a positive Total Coliform sample is actually indicating rust in a well. Additionally, ADEQ considered the language of 40 C.F.R. 141.63(c), the state of existing Individual APP and Reclaimed Water permits, the Department’s mission to protect human health and the environment, as well as costs to permittees, analytical methodologies and public health risk reduction. Ultimately, ADEQ determined that shifting away from Total Coliform as an indicator parameter for an alternative Microbiological Contaminants AWQS and moving towards Fecal Coliform and *E. coli is appropriate*. Specifically, Fecal Coliform and *E. coli* are more exacting at indicating a threat to human health. The decision to configure the AWQS proposal to allow permittees to utilize Fecal Coliform or *E. coli* was due to the fact that protecting human health is not diminished under any of the possible orientations and existing permittees are sampling for both parameters already in some cases. Allowing permittees to keep those sampling traditions and optimize a sampling orientation from a cost effective perspective are all factors that led to ADEQ’s proposal.

Comment 6: Interest Group

E. coli and Fecal Coliform Standards. *E. coli* and fecal coliform serve as critical indicators of fecal contamination and pathogen presence in groundwater. EPA’s guidelines for these indicators are based on decades of rigorous research and are designed to minimize risks of gastrointestinal illness and waterborne disease outbreaks. We strongly oppose ADEQ’s proposal to adopt alternative standards for *E. coli* and fecal coliform that deviate from EPA guidelines. Such deviations are highly problematic for the following reasons:

1. Inadequate Public Health Protection: ADEQ's proposed alternative standards would allow higher concentrations of *E. coli* and fecal coliform in groundwater than EPA's established limits for recreational and potable water. This could significantly increase the risk of pathogen exposure, particularly for communities relying on groundwater for drinking and recreation.
2. Contradiction of Established Science: EPA's standards are grounded in decades of epidemiological studies that demonstrate the link between elevated *E. coli* levels and disease outbreaks. Any deviation undermines the credibility and effectiveness of Arizona's water quality protections.
3. Environmental and Ecological Risks: Groundwater contamination often affects interconnected surface water systems. Weakening *E. coli* standards could exacerbate contamination in rivers, streams, and reservoirs, threatening aquatic ecosystems and biodiversity. As Arizona's aquifers often discharge into surface waters, contaminants like fecal coliform can migrate from groundwater to surface water, compounding the public health risks and damaging ecosystems. This connectivity between groundwater and surface water underscores the importance of robust water quality standards that address all potential pathways for contamination.
4. Economic and Social Costs: Relaxed standards could result in increased public health expenses, decreased trust in water quality management, and greater costs associated with contamination events.

We strongly urge ADEQ to align *E. coli* and fecal coliform standards with EPA's protective guidelines. Ensuring consistency with federal standards will bolster public confidence in Arizona's water quality management and safeguard both human and ecological health.

ADEQ Response 6:

ADEQ appreciates the comment. Generally, please reference the response to Comment No. 5 above. It is important to understand that ADEQ's adoption of an alternative AWQS from the Microbiological Contaminants MCL deviates only slightly from the MCL and remains equally as protective. The MCL requires routine sampling of both Total Coliform and *E. coli* parameters. Thereafter, upon a positive result of either Total Coliform or *E. coli*, a repeat sample is required for both parameters. Violation occurs when a positive result is obtained from an *E. coli* repeat sample that occurs after a total coliform-positive routine sample. Violation also occurs when a positive result is obtained from a Total Coliform repeat sample that occurs after an *E. coli*-positive routine sample. ADEQ found that the Total Coliform parameter is a very general indicator of coliforms in a sampling well, many of which occur naturally and are not indicative of a threat to human health. In particular, Total Coliform is too broad of an indicator parameter to signal Fecal Coliform health concerns in the APP regulatory program setting. On the contrary, ADEQ has found that Fecal Coliform and *E. coli* are more exacting indicators or surrogates of fecal coliforms, which are dangerous to human health. Additionally, when a permittee samples for Total Coliform and receives a positive result, more often than not, the result is what is known as a "false positive", signaling non-health threatening coliforms in a sample. ADEQ notes that false positives have led to a

number of permittees having to perform accelerated or more frequent monitoring intervals pursuant to the permits unnecessarily, which have associated costs.

With this final rule, ADEQ is establishing an appropriate alternative Microbiological Contaminants AWQS based upon the detection or non-detection of either Fecal Coliform or *E. coli* in a 100-milliliter sample (depending on the requirement of the permit). Upon a detection result for a routine Fecal Coliform sample, a repeat sample of either Fecal Coliform or *E. coli* with a "detect" result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Upon a detection result for a routine *E. coli* sample, a repeat sample for *E. coli* with a "detect" result constitutes a violation of the aquifer water quality standard for microbiological contaminants.

1. ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective of public health and is oriented more appropriately for the AWQS setting. Again, the MCL utilized indicator parameters Total Coliform and *E. coli* to be routinely sampled; then, upon a positive result, both repeat sampled. Upon a repeat positive, the MCL has been formally violated. Compare with the alternative AWQS, which utilizes indicator parameters Fecal Coliform and *E. coli* to be routinely sampled; then, upon a detect result, a repeat sample of one or the other parameter is required, depending on the permit. Upon a repeat "detect" result, the AWQS has been formally violated. ADEQ notes that the Fecal Coliform parameter is *more* exacting than Total Coliform when it comes to identifying a risk to public health.
2. ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective of public health and is oriented more appropriately for the AWQS setting as is demonstrated in the previous paragraph. Additionally, ADEQ engaged experts composed of epidemiologists and toxicologists, among other professionals to assist in the process of reviewing EPA's MCL development assumptions. Following statutory mandate and careful consideration of the totality of the appropriate considerations, ADEQ determined that a slight deviation from the MCL was appropriate given the statutory mandate. In making this determination, ADEQ considered the language of the MCL at 40 C.F.R. 141.63(c), the state of existing Individual APP and Reclaimed Water permits, the Department's mission to protect human health and the environment, as well as costs to permittees, analytical methodologies and public health risk reduction. Ultimately, ADEQ determined that shifting away from Total Coliform as an indicator parameter for an alternative Microbiological Contaminants AWQS and moving towards Fecal Coliform and *E. coli* is appropriate, pursuant to A.R.S. § 49-223. Specifically, indicator parameters Fecal Coliform and *E. coli* are more exacting at indicating a threat to human health. The decision to configure the AWQS proposal to allow permittees to utilize Fecal Coliform or *E. coli* was due to the fact that protecting human health is not diminished under any of the possible orientations and existing permittees are sampling for both parameters already in some cases. Allowing permittees to keep those sampling traditions and optimize a sampling orientation from a cost effective perspective are all factors that led to ADEQ's proposal.

3. As is stated and explained above, ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective as the corresponding MCL and is oriented more appropriately for the AWQS setting.

4. As is stated and explained above, ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective as the corresponding MCL and is oriented more appropriately for the AWQS setting.

In summary, ADEQ's alternative Microbiological Contaminants AWQS is oriented in a similar and equally protective manner as the corresponding MCL. Also, the alternative Microbiological Contaminants AWQS is oriented more appropriately for the AWQS setting. ADEQ believes the alternative Microbiological Contaminants AWQS is appropriately protective of public health and the environment and conforms to the mandate at A.R.S. § 49-223.

Comment 8: Utility

Overall, we commend and agree with ADEQ's approach, and anticipate efficiencies with the microbiological contaminants AWQS replacing indicator parameter Total Coliform with *E. coli*.

ADEQ Response 8:

ADEQ appreciates the comment.

Comment 9: Utility

A non-detection of *E. coli* should be specified as < 2.2 Most Probable Number (MPN)/100 ml sample. This threshold is specified on all permits.

ADEQ Response 9:

ADEQ appreciates the comment. For *E. coli*, "detect / non-detect" will appear in the applicable APP monitoring tables along with a footnote stating that "non-detect" means a result of < 2.2 MPN or < 1 CFU, depending on the unit used in the permit.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable specifically to ADEQ or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

This rulemaking does not create a requirement for a permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Federal law is not applicable to the subject matter of the rule.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the

competitiveness of business in this state to the impact on business in other states:

Not applicable.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable.

16. The full text of the rule follows:

Rule text begins on the next page.

R18-11-406. Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

A. No Change

B. No Change

C. No Change

D. No Change

E. No Change

F. Aquifer water quality standard for microbiological contaminants. The aquifer water quality standard for microbiological contaminants is based upon the ~~presence or absence~~ detection or non-detection of ~~total coliforms~~ either Fecal Coliform or *E.coli* in a 100-milliliter sample, depending on the requirement in the permit. ~~If a sample is total coliform-positive, a 100-milliliter repeat sample shall be taken within two weeks of the time the sample results are reported. Any total coliform-positive repeat sample following a total coliform-positive sample constitutes a violation of the aquifer water quality standard for microbiological contaminants.~~

1. If a routine sample for Fecal Coliform results in a detection, a 100-milliliter repeat sample of either Fecal Coliform or *E.coli* shall be taken within five (5) days of becoming aware of the detection. A repeat sample for Fecal Coliform or for *E.coli* resulting in a detection following a routine Fecal Coliform sample that resulted in a detection constitutes a violation of the aquifer water quality standard for microbiological contaminants.
2. If a routine sample for *E.coli* results in a detection, a 100-milliliter repeat sample for *E.coli* shall be taken within five (5) days of becoming aware of the detection. A repeat sample for *E.coli* resulting in a detection following a routine *E.coli* sample that resulted in a detection constitutes a violation of the aquifer water quality standard for microbiological contaminants.

AWP NFRM Economic Impact Statement (EIS) - 18 AAC 11 - Microbiological Contaminants

A summary of the economic, small business, and consumer impact:

This Economic, Small Business, and Consumer Impact Statement (EIS) has been prepared to meet the requirements of A.R.S. § 41-1055.

A. An Identification of the Rulemaking:

The rulemaking addressed by this EIS has the scope of an amendment to R18-11-406(F) in Title 18, Chapter 11, Article 4 of the Arizona Administrative Code (A.A.C.) This rulemaking action is being taken by the Arizona Department of Environmental Quality (ADEQ) in order to adopt an adjustment to the Safe Drinking Water Act Maximum Contaminant Level (MCL) for Microbiological Contaminants as an Aquifer Water Quality Standard (AWQS) pursuant to Arizona Revised Statutes (A.R.S.) § 49-223. A.R.S. § 49-223 mandates that within one year after the EPA establishes or adjusts an MCL, the ADEQ Director shall open a rule making docket pursuant to A.R.S. § 41-1021 for adoption of the MCL as an AWQS. As is detailed in Section 7 of this Notice of Final Rulemaking (NFRM), ADEQ conducted the rulemaking in conformance with the statutory administrative procedure in A.R.S. Title 41, Chapter 6, and is hereby submitting this EIS, in conformance with the requirements of A.R.S. §§ 41-1055 and 41-1035. ADEQ has determined that this rulemaking will impact the regulated community, ADEQ customers, the environment, and may impact human health. This EIS was developed to evaluate the rulemaking's impacts and compare the benefits and detriments of adopting an alternative AWQS to the corresponding MCL. The AWQSs are designed to protect the State's aquifers, all of which have been designated for drinking water-protected use (*see* A.R.S. § 49-224(B)). The AWQSs are primarily used in ADEQ's Aquifer Protection Permit program (APP), and (to a lesser extent) in some remediation projects under the Water Quality Assurance Revolving Fund (WQARF), the Voluntary Remediation Program (VRP), and elsewhere.

B. A summary of the EIS:

General & Specific Impacts

The full scope of stakeholders who may incur direct impacts from this rulemaking include APP permittees, such as Mines, Industrial Facilities and Wastewater Treatment Plants, as well as rate payers to municipal drinking water systems, ADEQ, the general public and the environment. While not all costs and benefits are borne evenly, these are the identified groups generally impacted from the Microbiological Contaminants AWQS rulemaking.

Costs to permittees to meet the new AWQS for Microbiological Contaminants are None to Minimal. In fact, ADEQ expects cost savings in many cases. The proposed AWQS for microbiological contaminants does not propose a numeric change in water quality standards, but instead proposes to implement more efficient/effective monitoring protocols. In this regard, the EIS generally follows a key premise of the Matrix Report: that the primary cost impact of the proposed AWQS would be a *reduction* in permittee sampling costs due to the reduced incidence of false-positive routine testing, repeat tests and accelerated monitoring thereafter. Consistent with the Matrix Report, the EIS estimates the cost *savings* related to more efficient sampling protocols. The EIS follows the format of the cost analysis in the Matrix Report, which evaluates *incremental* changes (reductions) in permittee costs compared to baseline conditions (i.e., costs under the current AWQS compared to costs under the proposed AWQS).

In addition to creating cost savings for permittees, the proposed AWQS would potentially generate economic benefits in terms of a reduction in cases of illness and death associated with microbiological contamination. In particular, the improved sampling protocols are expected to allow for quicker identification of incidents of contamination, allowing for more timely implementation of corrective measures (according to ADEQ staff, the higher incidence of false-positive test results under the existing protocols – and the associated need for retesting – can result in delays in identifying actual cases of contamination, potentially resulting in disease outbreaks that could otherwise be contained sooner). These potentially significant health benefits are not quantified in the EIS, as ADEQ and their consultant do not have sufficient information to develop such estimates. However, following the methodology of the Matrix Report, the EIS provides *general* estimates of the annual economic benefits attributable to regulation of Microbiological Contaminants. These general estimates of economic benefits are provided for contextual purposes (i.e., they quantify the existing benefits of regulating Microbiological Contaminants irrespective of proposed adjustments to the AWQS and therefore are not represented to be *incremental* benefits associated with the proposed AWQS).

Costs. Whereas permittees will continue to incur costs (primarily for routine and repeat sampling) to comply with the new/proposed AWQS, these costs are expected to *decrease* in comparison to the costs of complying with the current AWQS. These potential cost savings are attributable to the expectation that the routine sampling and repeat sampling requirements under the new AWQS would result in fewer "false positive" samples, thereby reducing the need for follow-up sampling and unwarranted corrective actions for facilities falsely deemed to be non-compliant. Statewide, the cost savings to permittees are estimated to range from $882,000 to $1.7 million annually (in 2023 dollars).

Benefits. Based on available time series data from ADHS and CDC, the Matrix Report estimates that regulation of Microbiological Contaminants results in 80 fewer cases of illness and 0.3 fewer deaths per year (statewide). In monetary terms, these prevented illnesses and deaths represent annual statewide benefits of $3.5 million per year (in 2023 dollars).

Specific impacts

From a total 434 Aquifer Protection permittees in Arizona, it is estimated (based on the Matrix Report) that 153 to 300 permittees annually are required to sample for Microbiological Contaminants. This subset of 153 to 300 permittees would be the impacted stakeholder group that would potentially experience cost savings under the proposed AWQS. In Arizona, the potentially affected benefiting population consists primarily of private well users throughout the state (estimated at 350,000 persons in total), although some of these will be effectively excluded from the additional benefits of the higher AWQS because existing Microbiological Contaminant levels in some wells are already zero. Benefits in the form of cost savings could also accrue to community water systems and their clientele due to a reduction of Microbiological Contaminants in the groundwater, under the proposed AWQS. As many as 1.8 million Arizonans could be potentially affected in this way.

Stakeholder Process

ADEQ has conducted a number of general and specific stakeholder meetings concerning this rulemaking, including tribal listening sessions and rule language sessions with major industry associations and their counsel, representing a majority of the individual APP regulated parties. The dates of those events are as follows: 9/29/22, 6/8/23, 9/11//23, 12/12/23, 12/13/23, 4/29/24, 8/8/24, 1/8/25, 2/20/25 and others. A repository of stakeholder materials can be found published on ADEQ's dedicated AWQS Rulemaking website here: https://www.azdeq.gov/rulemaking/awqs-update/resources.

C. Identification of the persons who will be directly affected, bear the costs of, or directly benefit from the rules:

Costs to Stakeholders

Individual APP Permittees (hereinafter: "permittees") will be the primary bearers of costs associated with this rulemaking. Permittees are discussed under the following three categories:

- Mines, where treatment conditions can vary noticeably from typical urban waste processing.
- Industrial facilities, with treatment conditions that can vary according to the industrial processes involved.
- Wastewater Treatment Plants, including mostly those treating urban-related wastewater.

Other potential costs to stakeholders addressed include the following:

- Rate payers in municipal systems, where rates could conceivably increase to cover increased costs for expanded treatment.
- Regulated parties under ADEQ remediation programs such as WQARF and VRP (minimal impact).
- Some permittees are assumed to be small businesses, and are additionally addressed as a segmented category.
- ADEQ, although any additional staff efforts and other expenses associated with monitoring proposed expanded treatment requirements will generally be covered through permittees' fee increases.

Benefits to Stakeholders

Generally, the state and the constituents of the state benefit from this rulemaking through the protection of the aquifer resource as an asset for drinking water use both now and in the future, pursuant to statutory mandate at A.R.S. § 49-224. More specifically, ADEQ and its consultant have attempted to quantify the benefit of the rulemaking to the extent possible in terms of health benefits related to forgone diseases. In Arizona, the immediate health-affected population consists primarily of private well users throughout the state, under certain qualifying conditions. Private well water consumers are generally limited to areas where discharged water treatment contaminant levels would improve based on the proposed AWQSs.

Other benefit categories include the following:

- Community water systems (CWSs) and their clientele. Savings could accrue to CWSs due to reduced Microbiological Contaminants in the groundwater under the proposed AWQS. Any savings would presumably be passed on to customers.
- State costs, where some state-supported medical costs would decrease, with diseases forgone.

D. Benefit/Cost Analysis:

Not all permittees will be burdened with the requirement to alter their facility in order to come into compliance with the proposed AWQSs and thereby incur the related costs, for any one of the following reasons or combinations of reasons:

- Permittees' existing treatment methods/technologies are already adequate to meet the target standard;
- The contaminant in wastewater subject to treatment exists at a level below the proposed AWQS; and
- Ambient levels of the contaminant in groundwater exceed the proposed AWQS, in which case the permittee need only be held to a "no further degradation" standard (*see* A.A.C. R18-9-A205(C), A.R.S. § 49-243(B)(2) and (3)).

Cost impacts in this EIS relate primarily to potential cost *savings* to permittees due to the more efficient (and more effective) sampling protocols under the proposed AWQS. According to ADEQ's database of permittees, an estimated total of 434 permits are divided among the categories shown below:

Category	# Permittees
Mines	35
Industrial Facilities	56
Wastewater Treatment Plants	343
Total	**434**

Category	# Permittees
*Small Businesses as a segmented category	135

Key modeling factors used in this analysis are the following:

Factors	Key source references	Notes
Costs		
Total APP's	Matrix report, page 25	The Matrix Report evaluates two alternatives for a new AWQS: 1. ADEQ would adopt the EPA's MCL as the AWQS; or 2. ADEQ would develop and establish an appropriate alternative AWQS (for which the Matrix Report assumed that the routine and repeat samples would both be Fecal Coliform). Per direction of ADEQ staff, the EIS considers a proposed AWQS that would require testing *E. coli* for the routine sample, with all required repeat samples testing for *E. coli*. Where appropriate, the Matrix Report factors have been applied to the AWQS proposal considered in the EIS.
Type and number of facilities impacted by changes in AWQS	Matrix report, page 25	
Sampling frequency	Matrix report, page 25	
Coliform type(s) sampled	Matrix report (with updated assumptions provided by ADEQ staff)	
False-positive percentages by sample type	Matrix report, page 25	
Sampling costs by sample type	Matrix report, Chart 8	
Benefits		
Annual cases of illness and annual number of deaths related to microbiological contamination of drinking water in Arizona (these are assumed to be prevented by compliance with the AWQS and are therefore interpreted as "benefits" of the AWQS) – for purposes of the EIS, health-related benefits are understood to be the same for both the existing AWQS and the proposed AWQS	Matrix report, page 24	Illnesses and deaths related to microbiological contamination of drinking water are assumed to be prevented by compliance with the AWQS and are therefore interpreted as "benefits" of the AWQS. For purposes of the EIS, health-related benefits are understood to be the same for both the existing AWQS and the proposed AWQS. These general estimates of economic benefits are provided for contextual purposes (i.e., they quantify the existing benefits of regulating Microbiological Contaminants irrespective of proposed adjustments to the AWQS and therefore are not represented to be *incremental* benefits associated with the proposed AWQS).

Approach to the EIS for Microbiological Contaminants. ADEQ and its consultant rely on estimates prepared by the authors of the "MCL Assumptions Report – Microbiological Contaminants Aquifer Water Quality Standards Technical Support", prepared by Matrix New World Engineering, Land Surveying and Landscape Architecture, PC. in 2023 ("Matrix Report") (*see* Heading No. 8 of this NFRM). This information was supplemented by the Matrix Report's source material (primarily from the EPA), which takes into account multiple factors affecting potential costs and benefits.

Health Risk Reduction (Benefits)

The EIS measures the economic benefits of the AWQS in terms of the monetized value of illnesses and deaths that would be prevented by compliance with the State's AWQS for Microbiological Contaminants. These calculations are based on the following steps:

- Estimate the annual number of cases of enteric disease that would occur in Arizona in the absence of effective AWQS for microbiological contaminants;
- Estimate the annual number of deaths that would result from outbreaks transmitted by water in Arizona in the absence of effective AWQS;
- Calculate the costs associated with treatment of estimated cases of enteric disease; and

- Calculate the monetary value of lives lost due to disease outbreaks transmitted by water (using "Value of Statistical Life" data).

Based on available time series data from ADHS and CDC, the Matrix Report estimates that the AWQS would create the following benefits in terms of prevented illnesses and deaths:

- Prevention of 80 cases of illness per year
- Prevention of 0.3 deaths per year
- Avoided costs of $2,397.76 per case of illness prevented
- Value of Statistical Life (VSL) of $11.1 million

Using the above factors, the Matrix Report calculates total benefits from the AWQS of $3.5 million per year. For purposes of the EIS, health-related benefits are understood to be the same for both the existing AWQS and the proposed AWQS. These general estimates of economic benefits are provided for contextual purposes (i.e., they quantify the existing benefits of regulating Microbiological Contaminants irrespective of proposed adjustments to the AWQS and therefore are not represented to be *incremental* benefits associated with the proposed AWQS).

The proposed AWQS would potentially generate economic benefits in terms of a reduction in cases of illness and death associated with microbiological contamination. In particular, the improved sampling protocols are expected to allow for quicker identification of incidents of contamination, allowing for more timely implementation of corrective measures (according to ADEQ staff, the higher incidence of false-positive test results under the existing protocols – and the associated need for retesting – can result in delays in identifying actual cases of contamination, potentially resulting in disease outbreaks that could otherwise be contained sooner). These potentially significant health benefits are not quantified in the EIS, as the consulting team does not have sufficient information to develop such estimates.

Cost Analysis

Consistent with the Matrix Report, the cost analysis provided in this EIS is based on the premise that the proposed AWQS would result in cost *reductions* (to permittees and the State) compared to the existing AWQS. The cost savings would result from revised sampling protocols intended to significantly reduce the occurrence of false-positive test results (while more quickly identifying contaminants that are of actual concern from a public health perspective). Within the framework provided in the Matrix Report, these cost savings are calculated in terms of the avoided costs of follow-up sampling compared to estimated costs under the existing AWQS protocols. As such, the calculated "costs" are negative (compared to baseline levels) and therefore can actually be interpreted as benefits rather than costs.

The Matrix report evaluates two alternatives for a new AWQS:

1. ADEQ would adopt the EPA's MCL as the AWQS; or
2. ADEQ would develop and establish an appropriate alternative AWQS (for which Matrix assumed that the routine and repeat samples would both be Fecal Coliform).

The EIS considers a proposed AWQS that would require testing *E. coli* for the routine sample, with all required repeat samples testing for *E. coli*. Where appropriate, the Matrix Report factors have been applied to the AWQS proposal considered in the EIS. Cost factors/assumptions derived from the Matrix report are summarized below.

Costs of Sample Analysis. The Matrix Report estimated ranges of costs for the sample analysis by contacting four ADHS certified laboratories. If the contacted laboratories offered more than one analysis method, the least expensive method was used. The following are the range of costs used for the Matrix analysis (and also in the EIS):

- Total coliform: $25 - $50
- *E. coli*: $25 - $50

Costs for labor, reporting, and administrative work were assumed in the Matrix Report based on the author's knowledge and previous experience with APPs. These assumptions are outlined on the tables below.

Work Costs per False-Positive Sample

Work Category	Hours	Rate	Cost
Labor	8	$95	$760
Data analysis	4	$125	$500
Reporting	20	$100	$2,000
Administrative	4	$100	$400
TOTAL:	**36**	**--**	**$3,660**

Breakdown of Work Costs based Coliform Type per False-Positive Sample

Category	Total Coliform	*E. Coli*

Sampling Cost (labor, analysis, consumables)	$795 - $820	$795 - $820
Reporting Costs	$2,500	$2,500
Administrative Costs	$400	$400
TOTAL:	**$3,695 - $3,720**	**$3,695 - $3,720**

Note: Consumables include ice, gloves, etc. for collecting samples. Assumed to be approximately $10 per sample.

In the EIS, the factors summarized above have been applied to the proposed AWQS. The costs of sampling under the current AWQS and the proposed AWQS are calculated on the table on the next page.

Total and Incremental Sampling Costs Per Year Statewide (in 2023 dollars)

Factor	Current AWQS (Baseline)		Proposed AWQS	
	Low	High	Low	High
Total APP's	434	434	434	434
Facilities required to sample for coliforms	153	300	153	300
Sampling frequency (times per year)	4	4	4	4
Routine coliform samples per year	612	1,200	612	1,200
Coliform type sampled (routine)	Total	Total	*E. Coli*	*E. Coli*
False-positive percentage	43%	43%	4%	4%
Repeat samples triggered by false positives	263	516	24	48
Coliform type sampled (repeat)	Total	Total	*E. Coli*	*E. Coli*
Total cost per sample (by type):				
Total coliform	$3,695	$3,720	$3,695	$3,720
E. Coli	$3,695	$3,720	$3,695	$3,720
Aggregate (statewide) sampling costs/year:				
Routine samples	$2,261,340	$4,464,000	$2,261,340	$4,464,000
Repeat samples	$972,375	$1,919,520	$90,454	$178,560
Total	*$3,233,716*	*$6,383,520*	*$2,351,794*	*$4,642,560*
Cost Increase (Reduction) Compared to Baseline	***N/A***	***N/A***	***($881,923)***	***($1,740,960)***

1. Part I – Benefit / Cost Stakeholder Matrix:

Minimal	Moderate	Substantial	Significant
$500,000 or less	$500,000 to $5 million	Greater than $5 million	Cost/Burden cannot be calculated, but the Department expects it to be significant.

Note: all benefits and cost figures in this document are in annualized amounts.

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue	Decreased Cost/ Increases in Revenue
Costs to Stakeholders			
Cost stakeholders	General: The EIS follows the format of the cost analysis in the Matrix Report, which essentially looks at *incremental* changes in permittee costs compared to baseline conditions (i.e., costs under the current AWQS compared to costs under the proposed AWQS). An underlying premise of the Matrix Report analysis (and therefore the EIS) is that more efficient sampling requirements under the proposed AWQS would result in a significantly lower occurrence of false-positive test		Significant

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue	Decreased Cost/ Increases in Revenue
	results and would therefore *reduce* compliance costs without compromising (while potentially improving) water quality standards		
Permittees, generally	In general, microbiological contaminants are more likely to be generated within Wastewater Treatment Facilities, and also in treated wastewater. Microbiological Contaminants also can enter groundwater under certain conditions		Moderate: AWQS would potentially reduce costs for routine and repeat sampling (by $882,000 to $1.7 million per year statewide)
Mines	Microbiological Contaminants are least likely to be found in mine-related water being treated, compared to other permittee types		
Industrial activities	Microbiological Contaminants would not be particularly likely to be occurring in industrial-related water being treated, compared to other permittee types		
Wastewater Treatment Plants	This category of permittee type is most likely to be dealing with Microbiological Contaminants, because of the urban-use connection		
Rate payers in municipal systems	Private citizens and businesses could potentially benefit from reduced user fees for wastewater processing, based on reduced costs to permittees under the revised AWQS. However, these benefits are likely to be minimal (given the relatively small cost savings on a per-system basis)		Proposed AWQS is expected to reduce compliance costs to permittees, which could potentially be passed on to rate payers in the form of lower rates; in practice, rate reductions are likely to be minimal Minimal. Aggregate revenues would potentially decrease in proportion to the cost savings from reduced sampling requirements. Given state-wide cost savings of $882,000 to $1.7 million per year, cost savings on a per-system basis are likely to be minimal
Small businesses as a segmented category	Coming into compliance with new standards. Small businesses are generally cost-disadvantaged when compared to larger businesses because treatment costs generally decline as the scale (processing capacity) of a processing facility increases.		Moderate. Overall, the AWQS would potentially create moderate cost savings to permittees compared to the existing AWQS
ADEQ	ADEQ believes some new costs will be incurred, despite the fact that some infrastructure for processing permits is already in place. ADEQ anticipates that hundreds of permits may need to be amended to update monitoring tables that include Microbiological Contaminant indicator parameters. Any additional costs incurred would generally be covered by increased fees paid by permittees.	Minimal	
Benefits to Stakeholders			

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue	Decreased Cost/ Increases in Revenue
State of Arizona and its Constituents, generally	Savings could accrue to the people of the State of Arizona, generally, through aquifers (as a local, convenient and {in the right circumstance} inexpensive sources for drinking water) remaining a viable asset to community water portfolios and individual well users alike		Significant
Private well users, health benefits: In Arizona, the more immediately affected population consists primarily of private well users throughout the state.	Following EPA, quantified benefits are measured in terms of reduced loss of life and illness and costs associated with treatment for disease.		Moderate: Potential health benefits attributable to existing AWQS are estimated at $3.5 million per year; this benefit would not change by virtue of the proposed new AWQS Significant: Potential reduction in the impacts of disease outbreaks (by virtue of more rapid identification and mitigation of contamination
Community water systems (CWSs) and their clientele	Savings could potentially accrue to CWSs due to reduced microbiological contaminants in the ground water. Any savings would presumably be passed on to customers.		Significant
State costs	Some state-supported medical costs would decrease (this benefit already exists under existing AWQS and would continue under new AWQS)		Significant
State revenue effects	Reduced sampling requirements of permittees would potentially result in some loss of business (and associated reductions in employment) for firms engaged in sample analysis. The potential loss of direct jobs would in turn (in theory at least) generate additional employment losses through reductions in indirect and induced (secondary) economic activity, and subsequent tax revenues	Minimal. Lost State income taxes are estimated to be $6,700 per year due to direct and secondary losses of employment	

2. Part II – Individual Stakeholder Summaries / Calculations:

The following subsection provides an explanatory discussion of expected stakeholder costs and benefits. The subsection outlines the key factors and analysis used to determine the impact findings reported in Part 1 of subsection D, above.

***Costs to Stakeholders*:**

Permittees in General

Compared to the current AWQS, the indicated changes to the AWQS are intended to maintain the same (or better) levels of protection with respect to human health, while potentially resulting in significant cost savings to impacted permittees (due to the expectation that the modified sampling requirements would substantially reduce the incidence of "false positive" results). As such, many of the stakeholder categories that would typically be impacted by the costs of new regulation would actually benefit from *reduced* cost burdens under the proposed new AWQS.

Estimated cost savings to permittees are based on factors in the Matrix report, applied to the proposed AWQS (as defined by ADEQ staff). Consistent with the Matrix report, the EIS focuses strictly on potential cost savings related to the issue of reducing false-positive test results (due to more efficient requirements for contaminant sampling under the new AWQS); the analysis does not quantify other potential costs savings such as reduced costs for assessments and correction actions (reductions in false-positive test results would presumably reduce the incidence of unwarranted assessments).

Mines

Because mines are not necessarily associated, locationally or otherwise, with water treated for household consumption, Microbiological Contaminants are likely to be minimal compared with discharge systems that have an urban connection.

The 35 permittees operating mining facilities can be quite complex, potentially involving multiple water control structures (dams, retention areas, etc.) in conjunction with treatment processes. The concentrate leach process for extracting copper, a common practice in Arizona, is also water-intensive.

Industrial Facilities

This category of permittee is generally processing wastewater generated from an industrial process. Consequently, water treatment technology options are partially dictated by the particular type of waste created through the industrial activity. For some industrial processes, water use will involve treatments similar to those for households, therefore microbiological contamination would potentially be an issue; but other industrial processes will have minimal or no connection to microbiological contamination. The estimated number of industrial wastewater processing permittees is 56.

Wastewater Treatment Plants

The 343 permittees in this category are generally treating wastewater from typical municipal/urban-type sources, and so will typically have significant potential for microbiological contamination. Key subcategories in this group are listed below and provide a sense of the range of activities to which treatments are being applied. Some of these are tied to municipalities, and some are treating waste streams from planned communities, RV parks, correctional institutions, military installations, or similar developments that may be remote from or otherwise not connected to a central wastewater treatment collection and processing system.

- City/Town; Other Urban (subdivisions, single-purpose facilities such as schools)
- Hospitality/Travel/Recreation
- Military Base
- Prison/Jail
- Water Recharge, Other Processing

Rate payers in municipal systems (community water systems (CWSs))

Private citizens and businesses could potentially benefit from reduced user fees for wastewater processing, based on reduced costs to permittees under the revised AWQS. However, these benefits are likely to be minimal (given the relatively small cost savings on a per-system basis).

Small businesses as a segmented category

(See also subsection F below, addressing the probable effects of the proposed rulemaking on small businesses.) Cost burdens on small businesses will tend to be proportionately greater than for large businesses. Not only are they less likely to have specific expertise needed to meet proposed modified standards in-house, but also small businesses tend to be disadvantaged because treatment costs generally decline as the scale (processing capacity) of a processing facility increases, so larger processing facilities can process wastes at a smaller unit cost.

ADEQ

ADEQ may need additional staff or staff time to address advanced treatment processes and related testing, etc. However, any such costs should be covered by fees paid by permittees for ADEQ services.

***Benefits to Stakeholders*:**

Private well users (and CWSs users)

The relevant affected group for this benefit consists of consumers of permittee-treated water that ends up in water supply chains. There are two segments to the benefiting stakeholders:

1. Some Community water systems (CWSs, or municipal water treatment utility operators), for systems in which groundwater is a water source, along with customers of those water utilities. These stakeholders are likely to jointly benefit from reduced sampling requirements and costs, with cost savings presumably passed on to customers, because groundwater quality has improved due to permittees' actions in meeting revised AWQS.
2. The population served by private wells, where there is no intermediary utility processing their water for consumption. This affected group benefits from diseases forgone due to water quality standards related to Microbiological Contaminants.

The first segment is addressed below under the section *Community water systems (CWSs) and their clientele.*
Segment 2. As more fully documented in the Matrix Report, one major purpose of fecal pollution detection is to identify the presence of pathogens related to fecal waste sources and potential health risks (from the many bacterial, protozoan, and viral enteric pathogens that can cause diseases). Water quality monitoring to detect fecal pollution usually applies microbial fecal indicators to represent numerous potential pathogens.
Based on available time series data from ADHS and CDC, the Matrix report estimates that the AWQS would create the following benefits in terms of prevented illnesses and deaths:

- Prevention of 80 cases of illness per year
- Prevention of 0.3 deaths per year

Community water systems (CWSs) and their clientele

This affected group (segment 1 as noted above) includes a portion of customers of municipal or water utility water systems. Estimates of this segment of the population, served by water sources that included groundwater, were derived

from data at the Arizona Department of Water Resources website (https://www.azwater.gov/ama/ama-data) which gave quantities of water use by municipal and other user types, by source, including groundwater, along with populations served by various categories of providers. An estimated 2.04 million Arizonans would be affected in this way (by both existing and proposed AWQS).

State cost savings

The proposed AWQS would potentially create incremental health benefits compared to existing policy by allowing for more rapid identification of contamination (and therefore more proactive containment of potential disease outbreaks). Related to these potential health benefits, the proposed AWQS would potentially result in some reduction in state-supported medical costs.

E. A general description of the probable impact on private and public employment in businesses, agencies, and political subdivisions of this state directly affected by the rulemaking:

General:

As permittees would be subject to more efficient sampling requirements under the proposed AWQS, the need for employment related to sampling and sample analysis would potentially decrease somewhat. In this EIS, this effect is simulated through the RIMS II modeling system described, as applied to this analysis (see next subsection below entitled "Regional Input-Output Modeling System (RIMS) Model Explanation"). Summarized results of the modeling process are tabulated below. Unless noted otherwise, results represent the low end of estimates where a range of potential annualized costs has been given in subsection D, above, to avoid potential confusion and overstatement related to this impact measure. The model translates expected annualized costs to employment and earnings based on relationships of those elements within the industry category that most closely matches that of the permittees (and is documented within the RIMS II system – NAICS code 2213: Water, sewage, and other systems).

In the summary of the model as tabulated below for the contaminant of Microbiological Contaminants, direct employment and earnings resulting from permittees' investment in equipment are shown separately from the total multiplier (direct plus secondary) job-generating effects of this investment.

RIMS II modeling outputs and key input factors	
Annualized Costs (with financing etc.)/Increased "Output"	($881,923)
Jobs Per Million Dollars in Output	1.80
Earnings Per Dollar of Output	$0.17
New Wastewater Treatment Direct Jobs Created	(1.59)
New Annual Earnings for Direct Jobs Created	($148,229)
Total New Jobs (Direct + Secondary)	(4.87)
Effective Income Tax Rate	2.1%
Estimated Total Annual State Income Taxes (Direct and Secondary)	($6,732)

Source: RIMS II model for Arizona; ADEQ & consultant.

Regional Input-Output Modeling System (RIMS) Model Explanation:

This subsection discusses the Regional Input-Output Modeling System (RIMS II - As provided by the Bureau of Economic Analysis (BEA), U.S. Department of Commerce) modeling analysis supporting the jobs-related economic impact of the proposed wastewater treatment investments / expansions in the State of Arizona. All impacts estimated through this analysis are provided for the statewide level of geography and are not intended to estimate impacts for sub-state geographic areas (e.g., metropolitan statistical area [MSA], county, etc.). Results of these analyses are shown in Parts E (employment) and G (state taxes) of the document.

The analysis assumes the investments to upgrade the wastewater facilities will include installing new wastewater-specific equipment (which may also include expanding the size of the facility, although that is not addressed in this analysis), which will increase the productive capacity of these wastewater facilities. For the purposes of this analysis, the "productive capacity" is assumed to be the annualized equivalent of capital investments (and additional operating costs would also be part of this, and such costs are included in the analysis where available). Cost (and benefit) figures shown in this document are annualized, having been calculated as such by the original data providers, generally from EPA and the Matrix Report.

The annualizations generally were based on assumptions of the payback of proposed investments having a 20-year lifespan (and an installation period was sometimes included) and an annual interest rate of 7.0%. ADEQ and its consultant further assumed that wastewater treatment plants' revenues (such as user fee increases) would increase by commensurate amounts to cover the annualized costs of the proposed improvements. This increase in revenue ("Output") allows ADEQ and its consultant to apply final-demand multipliers to estimate the number of new jobs and earnings (associated with these jobs) in the state that would result from the proposed investments. The RIMS II model generates economic multipliers for jobs, earnings, and output, based on the industry NAICS code 2213: Water, sewage, and other systems, for direct, indirect, and household (induced) effects. Along with the increases in employment and earnings

generated by the proposed investments, the new earnings would also generate state income tax revenue for the State. Based on data from the BEA and the Arizona Department of Revenue (ADOR), ADEQ and its consultant derived an estimated effective state income rate of 2.1% (The State flat income tax rate, at the time this EIS was prepared, is 2.5%. The net income tax rate of 2.1% reflects deductions for the average wage and salary worker and other adjustments).

F. A statement on the probable impact of the rules on small business:

Economic costs to comply with AWQSs that are borne by small businesses may be considerable. Small businesses tend to be disadvantaged because treatment costs generally decline as the scale (processing capacity) of a processing facility increases. Besides the potential need for additional personnel or additional training, permittees may need to hire technical expertise on a consulting basis to determine the most appropriate and cost-effective treatment technologies that apply to any one permittee's particular conditions.

1. An identification of the small businesses subject to the rules:

Small businesses constitute a distinct category for which the impacts of rulemaking need to be considered. For this EIS and those addressing the other contaminants, impacted small businesses will be wastewater facility permittees meeting the following criteria:

- According to A.R.S. 41-1001 and as applied in this EIS, "'Small business' means a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than $4 million in its last fiscal year."
- ADEQ and its consultant used a database of permittees, which had partial flow data, to screen permittees for this measure. Lacking further operational-level data for permittees, ADEQ and its consultant also screened permittees to identify "businesses" as opposed to governmental entities, and small businesses, constituting those that did not appear to be associated with a larger entity.

Based on the screening processes described above, in which the number of permittees that are also small businesses is estimated with limited precision, ADEQ and its consultant estimated that small businesses make up just over 30% of permittees, or 135 entities in total. As noted previously in this EIS, not all of these facilities will necessarily need to incur costs to meet the proposed AWQS.

2. The administrative and other costs required for compliance with the rules:

Permittees small and large have systems already in place for the basic administrative and other managerial duties related to compliance to existing AWQSs. To the extent that is the case, any additional duties would constitute an expansion of existing processes rather than new systems. Also, there is a possibility that permittees would need to hire a consultant for technical expertise to select and integrate new technology into existing treatment processes.

3. A description of the methods that the agency may use to reduce the impact on small businesses, as required in A.R.S. § 41-1035:

A.R.S. § 41-1035 Methods	ADEQ Decision to use or not use and reason
1. Establishing less stringent compliance or reporting requirements in the rule for small businesses	Not used. In administering the APP program, compliance and reporting requirements are delineated in rule and statute in order to properly protect human health and the environment. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243). ADEQ does allow permittees a reasonable amount of time to conduct Baseline Monitoring and to apply for permit amendment to come into compliance with new or adjusted AWQS (*see* Chapter 9 NFRM).
2. Establishing less stringent schedules or deadlines in the rule for compliance or reporting requirements for small businesses	Not used. In administering the APP program, compliance and reporting requirements are delineated in rule and statute in order to properly protect human health and the environment. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243). ADEQ does allow permittees a reasonable amount of time to conduct Baseline Monitoring and to apply for permit amendment to come into compliance with new or adjusted AWQS (*see* Chapter 9 NFRM).
3. Consolidating or simplifying the rule's compliance or reporting requirements for small businesses	Not used. In administering the APP program, compliance and reporting requirements are delineated in rule and statute in order to properly protect human health and the environment. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243).
4. Establishing performance standards for small businesses to replace design or operational standards in the rule	Not used. In administering the APP program, performance, design and operational standards are all built into a review of a facility's employment of the best available demonstrated control technologies, processes, operating methods or other alternatives. ADEQ believes these requirements are no more stringent than necessary (*see* A.R.S. §§ 49-223, 224, 241, 243).

A.R.S. § 41-1035 Methods	ADEQ Decision to use or not use and reason
5. Exempting small businesses from any or all requirements of the law	Not used. In administering the APP program, all persons discharging a pollutant into the environment must obtain an APP permit under A.R.S. § 49-241, unless exempted through A.R.S. § 49-250. Eliminating small business from the scope of the APP program is not supported by statute and would undermine the purpose of the program, to protect the state's aquifers to a drinking water standard (*see* A.R.S. §§ 49-223, 224, 241, 243).

4. The probable costs and benefits to private persons and consumers who are directly affected by the rules:

Potential savings could accrue to community water systems due to reduced Microbiological Contaminants in the groundwater under the proposed AWQS, and such savings could be substantial and would presumably be passed on to customers. As many as 1.8 million Arizonans could potentially be affected.

G. A statement of the probable effect on state revenues:

To the extent that costs to upgrade treatment facilities result in higher user fees, additional fees could be taxable within the state's transaction privilege tax system. ADEQ and its consultant have not attempted to quantify any such effect. Investments in treatment technology and processes by permittees could result in additional hires to operate equipment, which in turn would generate additional employment through indirect and induced (secondary) economic activity, and subsequent tax revenues. Employment effects are addressed in subsection D, above. As noted therein, estimated state taxes for direct and secondary employment generated by investments in Microbiological Contaminants technology (using the low end of costs where ranges are given) are approximately $6,700.

H. A description of any less intrusive or less costly methods of achieving the purpose of the rulemaking:

The controlling statute at A.R.S. § 49-223 does not allow ADEQ to conduct any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking. It simply requires ADEQ to open a rule making docket pursuant to A.R.S. § 41-1021 for adoption of a new or adjusted MCL as an AWQS within one year of the MCL's establishment or adjustment.

I. A description of any data on which the rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data:

Reference material used in this EIS comes mainly from the *MCL Assumptions Report – Microbiological Contaminants Aquifer Water Quality Standards Technical Support* prepared by Matrix New World Engineering, Land Surveying and Landscape Architecture, PC (Matrix Report) for ADEQ in 2023 (*see* Heading No. 8 above for citation). Other reference material was used to a lesser extent (*see* Heading No. 8 above). ADEQ and its consultant also made selective use of EPA documents addressing specific contaminants referenced extensively by the Matrix Report. EPA documentation is the typical standard for assumed legitimacy with respect to actions assessed and implemented by ADEQ. ADEQ and its consultant reviewed the Matrix Report and engaged with Matrix principals in direct consultation regarding aspects of their documentation in the preparation of this EIS. EPA documentation was generally available online.

AWP NFRM Public Comments - 18 AAC 11 - Microbiological Contaminants

Comment 1: Utility
Concerning the proposed alternative AWQS for Microbiological Contaminants, our current APP monitoring table utilizes the unit Most Probable Number (MPN) with a limit of (< 2.2) for *E. coli* monitoring. Will the units stay the same with this change in standard? Will Presence / Absence (P/A) be installed instead?
ADEQ Response 1:
ADEQ appreciates the comment. No, P/A will not be used for the *E. coli* indicator parameter utilized in the proposed AWQS for microbiological contaminants. Rather, detection or non-detection of either Fecal Coliform or *E. coli* is used. This means, for *E. coli*, "detect / non-detect" is likely to appear in the applicable APP monitoring tables along with a footnote stating that "non-detect" means a result of < 2.2 MPN or < 1 CFU, depending on the unit used in the permit.
Comment 2: Utility
If there is significant opposition to any of the parameters does ADEQ then not proceed with that particular parameter?
ADEQ Response 2:
ADEQ appreciates the comment. The answer to that question is – not necessarily. "Substantial Opposition" is a term defined in A.R.S. § 49-223(A) as, "... information submitted to the director that explains with reasonable specificity why the [MCL] is not appropriate as an [AWQS]." Upon receipt of "substantial opposition", the Department must conduct a statutorily delineated procedure that leads to a determination of whether the MCL is "appropriate" as an AWQS. More information on that process can be found here: https://www.azdeq.gov/rulemaking/awqs-update/resources . ADEQ has received substantial opposition from stakeholders on the proposal to adopt the Microbiological Contaminants MCL as an AWQS (*see* heading No. 7, subsection "Substantial Opposition" for more information).
Comment 3: Concerned Citizen
If there are any lab people on the call, can they answer if there are sampling methods associated with the proposed Microbiological Contaminants AWQS that will provide a presence/absence (P/A) result for fecal coliforms? I know P/A exists for Total Coliforms and *E. coli*. I found this statement in a Google search, "*[t]he P/A tests for the presence/absence of indicator organisms in a water sample. This is usually observed in the form of a color change after an incubation period. Two common P/A tests are: H2S-producing bacteria P/A test Total Coliform and E. coli P/A Test.*" I am not sure P/A exists for fecal coliform.
ADEQ Response 3:
ADEQ appreciates the comment. Due to this comment and others submitted on the proposed Microbiological Contaminants AWQS, ADEQ has revised the rule language, essentially swapping the "absence / presence" binary with "detection / non-detection". Under the new language, any *E. coli* detection result from routine sampling would need to be followed by a repeat *E. coli* sample within 5 days of becoming aware of the result. A repeat sample that results in a detection of *E. coli* would constitute a violation of the Microbiological Contaminants AWQS. Additionally, ADEQ conducted some research which shows that Eurofins Scientific laboratory testing services offers a Fecal Coliform testing method (SM 9222D) separately from the EPA Total Coliform method (EPA 1604). Both methods have an 8-hour holding time. Source:
https://www.eurofinsus.com/media/447768/appendix-d-section-5-attachment-holdtime-container-list_2016-july.pdf.
Also, Standard Method 9222D is a membrane filtration test for fecal coliforms and is offered by local labs in Arizona. This method can detect fecal coliforms from 20 - 60 CFU/100 mL. Source:
https://www.nemi.gov/methods/method_summary/5587/. Also, please find a table in Heading No. 7, subheading "Sampling and Analytical Methodologies" explaining the preliminarily appropriate analytical methods for each new or adjusted AWQS.
Comment 4: Utility
We support the proposed alternate AWQS for microbiological contaminants with the following minor edits to the language:

1. If a routine sample ~~of Fecal Coliform~~ is positive for Fecal Coliform, a 100-milliter repeat sample ~~of either Fecal Coliform or *E. coli*~~ shall be taken within five days of becoming aware of the exceedance for analysis of Fecal Coliform or *E. coli*.
2. If a routine sample ~~of *E. coli*~~ is positive for *E. coli*, a 100-milliter repeat sample ~~of *E. coli*~~ shall be taken within five days of becoming aware of the exceedance for analysis of *E. coli*…

ADEQ Response 4:
ADEQ appreciates the comment. Due to this comment and others submitted on the proposed Microbiological Contaminants AWQS, ADEQ has revised the rule language, essentially swapping the "absence / presence" binary with "detection / non-detection". Under the new language, any Fecal Coliform detection result from routine sampling would need to be followed by a repeat Fecal Coliform or *E. coli* sample within 5 days of becoming aware of the detection result. A repeat sample that results in a detection of either parameter would constitute a violation of the Microbiological Contaminants AWQS. The Fecal Coliform indicator parameter is understood by ADEQ to encompass many species of fecal-derived, potentially harmful species therein; whereas, the *E. coli* parameter is a single, potentially harmful species. *E. coli* is used in this setting as an indicator; meaning that if it is detected in a sample, other potentially harmful species are likely to be present as well. Because the Fecal Coliform parameter encompasses within its scope *E. coli* and a number

of other fecal-derived species, ADEQ believes an *E. coli* repeat sample is appropriate if either Fecal Coliform or *E. coli* were sampled routinely. Please note that for the *E. coli* indicator parameter, "detect / non-detect" is likely to appear in the applicable APP monitoring tables along with a footnote stating that "non-detect" means a result of <2.2 MPN or <1 CFU, depending on the unit used in the permit. Additionally, ADEQ conducted some research which shows that Eurofins Scientific laboratory testing services offers a Fecal Coliform testing method (SM 9222D) separately from the EPA Total Coliform method (EPA 1604). Both methods have an 8-hour holding time. Source: https://www.eurofinsus.com/media/447768/appendix-d-section-5-attachment-holdtime-container-list_2016-july.pdf. Also, Standard Method 9222D is a membrane filtration test for fecal coliforms and is offered by local labs in Arizona. This method can detect fecal coliforms from 20 - 60 CFU/100 mL. Source: https://www.nemi.gov/methods/method_summary/5587/. Also, please find a table in Heading No. 7, subheading "Sampling and Analytical Methodologies" explaining the preliminarily appropriate analytical methods for each new or adjusted AWQS.

Comment 5: Interest Group

We are deeply concerned about the proposed deviations from U.S. Environmental Protection Agency (EPA) standards for uranium, *E. coli*, and other pollutants. Arizona's aquifers are invaluable resources that sustain drinking water supplies, ecological systems, and cultural heritage. Protecting these resources with robust, science-based standards is essential to ensure public health and environmental sustainability. We urge ADEQ to adopt the most protective standards possible by aligning AWQS with EPA's maximum contaminant levels (MCLs) and guidelines for all pollutants under consideration, including arsenic, uranium, and *E. coli*. Prolonged delays in adopting federal standards leave Arizona communities vulnerable to contamination and illness.

ADEQ Response 5:

ADEQ appreciates the comment. There are seven (7) MCLs proposed for adoption as AWQSs within the scope of the collective "AWQS Update" rulemaking. All MCLs except for Microbiological Contaminants are being adopted as AWQSs verbatim. This includes uranium cited by the commenter.

For the alternative Microbiological Contaminants AWQS, ADEQ believes the proposed AWQS is equally effective as the corresponding MCL, but deviates from the MCL's employment of "Total Coliform" as an indicator parameter, utilizing the more precise "Fecal Coliform" and "*E. coli*" indicator parameters instead. Pursuant to A.R.S. § 49-223, ADEQ received "substantial opposition" to adoption of the Microbiological Contaminants MCL, mostly concerning the high numbers of "false positive" samples of Total Coliform that would have tested negative had Fecal Coliform or *E. coli* been the indicator parameter used in the standard instead. Details of the hardships encountered by the regulated community include hundreds of hours of labor in verification or repeat sampling. This, along with shipping and laboratory testing costs, amount to tens of thousands of dollars in unnecessary spending.

Given the substantial opposition received on the Microbiological Contaminants MCL, ADEQ was prompted to follow the procedure in A.R.S. § 49-223(A) for determining whether the Microbiological Contaminants MCL is appropriate as an Arizona state AWQS. ADEQ used its newly developed "standard work" as explained in Heading No. 7 above. ADEQ developed this "standard work" procedure for conducting an "appropriateness" determination pursuant to A.R.S. § 49-223(A). The "standard work" can be reviewed on ADEQ's website at https://www.azdeq.gov/rulemaking/awqs-update/resources. Concerning the Microbiological Contaminants MCL, ADEQ's review of EPA's assumptions on technology, costs, sampling and analytical methodologies and public health risk reduction resulted in significant concern for the costs, analytical methods and public health risk reduction assumptions in particular. ADEQ found that the MCL at 40 C.F.R. 141.63(c) is simply inappropriate as-is for verbatim adoption as an AWQS and applicability upon the facilities regulated by Arizona's APP program, such as Wastewater Treatment Plants, Mines and Industrial facilities. One of the main reasons is that the MCL is designed for Public Water Systems, not APP type facilities. Specifically, this is because the Microbiological Contaminants MCL requires routine sampling of both Total Coliform and *E. coli* parameters. Thereafter, upon a positive result of either Total Coliform or *E. coli*, a repeat sample is required for both parameters. Violation occurs when a positive result is obtained from an *E. coli* repeat sample that occurs after a total coliform-positive routine sample. Violation also occurs when a positive result is obtained from a Total Coliform repeat sample that occurs after an *E. coli*-positive routine sample. ADEQ found that the Total Coliform parameter is a very general indicator of coliforms in a sampling well, many of which occur naturally and are not indicative of a threat to human health. In particular, Total Coliform is too broad of an indicator parameter to signal fecal coliform health concerns in an APP regulatory program setting. On the contrary, ADEQ has found that Fecal Coliform and *E. coli* are more exacting indicators or surrogates of fecal coliforms, which are dangerous to human health. Additionally, when a permittee samples for Total Coliform and receives a positive result, more often than not, the result is what is known as a "false positive", signaling non-health threatening coliforms in a sample. ADEQ notes that false positives have led to a number of permittees having to perform accelerated or more frequent monitoring intervals pursuant to the permits unnecessarily, which have associated costs.

After determining that the MCL for Microbiological Contaminants was inappropriate as an AWQS, ADEQ followed the "standard work" procedure for alternative AWQS development and establishment. ADEQ is proposing with this final rule an appropriate alternative Microbiological Contaminants AWQS based upon the detection or non-detection of either Fecal Coliform or *E. coli* in a 100-milliliter sample (depending on the requirement of the permit). Upon a detection result for a routine Fecal Coliform sample, a repeat sample of either Fecal Coliform or *E. coli* with a "detect" result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Upon a detection result for a routine *E.*

coli sample, a repeat sample for *E. coli* with a "detect" result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Through research and consultation, ADEQ determined that *E. coli* is a better indicator of fecal contamination than total or fecal coliforms and that Total Coliform positive samples are known to result in a "false positive". A "false positive" in a Total Coliform sampling context is when a sample result is positive, but the cause of the positive result indicates a type of total coliform that does not originate in fecal contamination, is not dangerous to human health and occurs naturally. A common "false positive" is when a positive Total Coliform sample is actually indicating rust in a well. Additionally, ADEQ considered the language of 40 C.F.R. 141.63(c), the state of existing Individual APP and Reclaimed Water permits, the Department's mission to protect human health and the environment, as well as costs to permittees, analytical methodologies and public health risk reduction. Ultimately, ADEQ determined that shifting away from Total Coliform as an indicator parameter for an alternative Microbiological Contaminants AWQS and moving towards Fecal Coliform and *E. coli is appropriate*. Specifically, Fecal Coliform and *E. coli* are more exacting at indicating a threat to human health. The decision to configure the AWQS proposal to allow permittees to utilize Fecal Coliform or *E. coli* was due to the fact that protecting human health is not diminished under any of the possible orientations and existing permittees are sampling for both parameters already in some cases. Allowing permittees to keep those sampling traditions and optimize a sampling orientation from a cost effective perspective are all factors that led to ADEQ's proposal.

Comment 6: Interest Group

E. coli and Fecal Coliform Standards. *E. coli* and fecal coliform serve as critical indicators of fecal contamination and pathogen presence in groundwater. EPA's guidelines for these indicators are based on decades of rigorous research and are designed to minimize risks of gastrointestinal illness and waterborne disease outbreaks. We strongly oppose ADEQ's proposal to adopt alternative standards for *E. coli* and fecal coliform that deviate from EPA guidelines. Such deviations are highly problematic for the following reasons:

1. Inadequate Public Health Protection: ADEQ's proposed alternative standards would allow higher concentrations of *E. coli* and fecal coliform in groundwater than EPA's established limits for recreational and potable water. This could significantly increase the risk of pathogen exposure, particularly for communities relying on groundwater for drinking and recreation.
2. Contradiction of Established Science: EPA's standards are grounded in decades of epidemiological studies that demonstrate the link between elevated *E. coli* levels and disease outbreaks. Any deviation undermines the credibility and effectiveness of Arizona's water quality protections.
3. Environmental and Ecological Risks: Groundwater contamination often affects interconnected surface water systems. Weakening *E. coli* standards could exacerbate contamination in rivers, streams, and reservoirs, threatening aquatic ecosystems and biodiversity. As Arizona's aquifers often discharge into surface waters, contaminants like fecal coliform can migrate from groundwater to surface water, compounding the public health risks and damaging ecosystems. This connectivity between groundwater and surface water underscores the importance of robust water quality standards that address all potential pathways for contamination.
4. Economic and Social Costs: Relaxed standards could result in increased public health expenses, decreased trust in water quality management, and greater costs associated with contamination events.

We strongly urge ADEQ to align *E. coli* and fecal coliform standards with EPA's protective guidelines. Ensuring consistency with federal standards will bolster public confidence in Arizona's water quality management and safeguard both human and ecological health.

ADEQ Response 6:

ADEQ appreciates the comment. Generally, please reference the response to Comment No. 5 above. It is important to understand that ADEQ's adoption of an alternative AWQS from the Microbiological Contaminants MCL deviates only slightly from the MCL and remains equally as protective. The MCL requires routine sampling of both Total Coliform and *E. coli* parameters. Thereafter, upon a positive result of either Total Coliform or *E. coli*, a repeat sample is required for both parameters. Violation occurs when a positive result is obtained from an *E. coli* repeat sample that occurs after a total coliform-positive routine sample. Violation also occurs when a positive result is obtained from a Total Coliform repeat sample that occurs after an *E. coli*-positive routine sample. ADEQ found that the Total Coliform parameter is a very general indicator of coliforms in a sampling well, many of which occur naturally and are not indicative of a threat to human health. In particular, Total Coliform is too broad of an indicator parameter to signal Fecal Coliform health concerns in the APP regulatory program setting. On the contrary, ADEQ has found that Fecal Coliform and *E. coli* are more exacting indicators or surrogates of fecal coliforms, which are dangerous to human health. Additionally, when a permittee samples for Total Coliform and receives a positive result, more often than not, the result is what is known as a "false positive", signaling non-health threatening coliforms in a sample. ADEQ notes that false positives have led to a number of permittees having to perform accelerated or more frequent monitoring intervals pursuant to the permits unnecessarily, which have associated costs.

With this final rule, ADEQ is establishing an appropriate alternative Microbiological Contaminants AWQS based upon the detection or non-detection of either Fecal Coliform or *E. coli* in a 100-milliliter sample (depending on the requirement of the permit). Upon a detection result for a routine Fecal Coliform sample, a repeat sample of either Fecal Coliform or *E. coli* with a "detect" result constitutes a violation of the aquifer water quality standard for microbiological contaminants. Upon a detection result for a routine *E. coli* sample, a repeat sample for *E. coli* with a "detect" result constitutes a violation of the aquifer water quality standard for microbiological contaminants.

1. ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective of public health and is oriented more appropriately for the AWQS setting. Again, the MCL utilized indicator parameters Total Coliform and *E. coli* to be routinely sampled; then, upon a positive result, both repeat sampled. Upon a repeat positive, the MCL has been formally violated. Compare with the alternative AWQS, which utilizes indicator parameters Fecal Coliform and *E. coli* to be routinely sampled; then, upon a detect result, a repeat sample of one or the other parameter is required, depending on the permit. Upon a repeat "detect" result, the AWQS has been formally violated. ADEQ notes that the Fecal Coliform parameter is *more* exacting than Total Coliform when it comes to identifying a risk to public health.
2. ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective of public health and is oriented more appropriately for the AWQS setting as is demonstrated in the previous paragraph. Additionally, ADEQ engaged experts composed of epidemiologists and toxicologists, among other professionals to assist in the process of reviewing EPA's MCL development assumptions. Following statutory mandate and careful consideration of the totality of the appropriate considerations, ADEQ determined that a slight deviation from the MCL was appropriate given the statutory mandate. In making this determination, ADEQ considered the language of the MCL at 40 C.F.R. 141.63(c), the state of existing Individual APP and Reclaimed Water permits, the Department's mission to protect human health and the environment, as well as costs to permittees, analytical methodologies and public health risk reduction. Ultimately, ADEQ determined that shifting away from Total Coliform as an indicator parameter for an alternative Microbiological Contaminants AWQS and moving towards Fecal Coliform and *E. coli* is appropriate, pursuant to A.R.S. § 49-223. Specifically, indicator parameters Fecal Coliform and *E. coli* are more exacting at indicating a threat to human health. The decision to configure the AWQS proposal to allow permittees to utilize Fecal Coliform or *E. coli* was due to the fact that protecting human health is not diminished under any of the possible orientations and existing permittees are sampling for both parameters already in some cases. Allowing permittees to keep those sampling traditions and optimize a sampling orientation from a cost effective perspective are all factors that led to ADEQ's proposal.
3. As is stated and explained above, ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective as the corresponding MCL and is oriented more appropriately for the AWQS setting.
4. As is stated and explained above, ADEQ has determined the alternative Microbiological Contaminants AWQS is equally protective as the corresponding MCL and is oriented more appropriately for the AWQS setting.

In summary, ADEQ's alternative Microbiological Contaminants AWQS is oriented in a similar and equally protective manner as the corresponding MCL. Also, the alternative Microbiological Contaminants AWQS is oriented more appropriately for the AWQS setting. ADEQ believes the alternative Microbiological Contaminants AWQS is appropriately protective of public health and the environment and conforms to the mandate at A.R.S. § 49-223.

Comment 8: Utility

Overall, we commend and agree with ADEQ's approach, and anticipate efficiencies with the microbiological contaminants AWQS replacing indicator parameter Total Coliform with *E. coli*.

ADEQ Response 8:

ADEQ appreciates the comment.

Comment 9: Utility

A non-detection of *E. coli* should be specified as < 2.2 Most Probable Number (MPN)/100 ml sample. This threshold is specified on all permits.

ADEQ Response 9:

ADEQ appreciates the comment. For *E. coli*, "detect / non-detect" will appear in the applicable APP monitoring tables along with a footnote stating that "non-detect" means a result of < 2.2 MPN or < 1 CFU, depending on the unit used in the permit.

ADMINISTRATIVE RULES DIVISION

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

The table of contents on page one contains links to the referenced page numbers in this Chapter.
Refer to the notes at the end of a Section to learn about the history of a rule as it was published in the *Arizona Administrative Register*.

This Chapter contains rules that were filed to be codified in the *Arizona Administrative Code* between the dates of
July 1, 2023 through September 30, 2023

Questions about these rules? Contact:

Department: Arizona Department of Environmental Quality
Address: 1110 W. Washington St.
Phoenix, AZ 85007
Website: www.azdeq.gov
Name: Jon Rezabek
Telephone: (602) 771-8219
Email: rezabek.jon@azdeq.gov

The release of this Chapter in Supp. 23-3 replaces Supp. 22-4, 1-99 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Authority: A.R.S. §§49-202(A), 49-203(A)(1)

Supp. 23-3

CHAPTER TABLE OF CONTENTS

ARTICLE 1. WATER QUALITY STANDARDS FOR SURFACE WATERS

Tables in Article 1, Appendix A have been updated and now include historical notes (Supp. 16-4).

Article 1, consisting of Appendices A through C, repealed April 24, 1996 (Supp. 96-2).

Article 1, consisting of Section R18-11-103, reserved effective April 24, 1996 (Supp. 96-2).

Article 1, consisting of Sections R18-11-105 and R18-11-106, and Appendices A and B, adopted April 24, 1996 (Supp. 96-2).

Article 1, consisting of Sections R18-11-101 and R18-11-102, R18-11-104, R18-11-107 through R18-11-109, R18-11-111 through R18-11-113, R18-11-115, R18-11-117 and R18-11-118, R18-11-120 and R18-11-121, amended effective April 24, 1996 (Supp. 96-2).

Article 1, consisting of Sections R18-11-101 through R18-11-121 and Appendices A through C, adopted effective February 18, 1992 (Supp. 92-1).

Article 1, consisting of Section R18-11-101, repealed effective February 18, 1992 (Supp. 92-1).

Article 1 consisting of Section R9-21-101 renumbered as Article 1, Section R18-11-101 (Supp. 87-3).

ARTICLE 2. WATER QUALITY STANDARDS FOR NON-WOTUS PROTECTED SURFACE WATERS

Article 2, consisting of Sections R18-11-201 through R18-11-205, adopted effective February 18, 1992 (Supp. 92-1).

Article 2, consisting of Sections R18-11-201 through R18-11-214 and Appendices A and B, repealed effective February 18, 1992 (Supp. 92-1).

Article 2 consisting of Sections R9-21-201 through R9-21-214 and Appendices A and B renumbered as Article 2, Sections R18-11-201 through R18-11-214 and Appendices A and B (Supp. 87-3).

ARTICLE 3. RECLAIMED WATER QUALITY STANDARDS

Article 3, consisting of Sections R18-11-301 through R18-11-309 and Table A, adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

Article 3 heading repealed effective April 24, 1996 (Supp. 96-2).

Article 3, consisting of Sections R18-11-301 through R18-11-304 repealed effective February 18, 1992 (Supp. 92-1).

Article 3 consisting of Sections R9-21-301 through R9-21-304 renumbered as Article 3, Sections R18-11-301 through R18-11-304 (Supp. 87-3).

ARTICLE 4. AQUIFER WATER QUALITY STANDARDS

ARTICLE 5. AQUIFER BOUNDARY AND PROTECTED USE CLASSIFICATION

New Article 5 consisting of Sections R18-11-501 through R18-11-504 and Section R18-11-506 adopted effective October 22, 1987.

ARTICLE 6. IMPAIRED WATER IDENTIFICATION

Article 6, consisting of Sections R18-11-601 through R18-11-606, made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

ARTICLE 1. WATER QUALITY STANDARDS FOR SURFACE WATERS

R18-11-101. Definitions

The following terms apply to this Article:

1. "Acute toxicity" means toxicity involving a stimulus severe enough to induce a rapid response. In aquatic toxicity tests, an effect observed in 96 hours or less is considered acute.
2. "Agricultural irrigation (AgI)" means the use of a surface water for crop irrigation.
3. "Agricultural livestock watering (AgL)" means the use of a surface water as a water supply for consumption by livestock.
4. "Annual mean" is the arithmetic mean of monthly values determined over a consecutive 12-month period, provided that monthly values are determined for at least three months. A monthly value is the arithmetic mean of all values determined in a calendar month.
5. "Aquatic and wildlife (cold water) (A&Wc)" means the use of a surface water by animals, plants, or other cold-water organisms, generally occurring at an elevation greater than 5000 feet, for habitation, growth, or propagation.
6. "Aquatic and wildlife (effluent-dependent water) (A&Wedw)" means the use of an effluent-dependent water by animals, plants, or other organisms for habitation, growth, or propagation.
7. "Aquatic and wildlife (ephemeral) (A&We)" means the use of an ephemeral water by animals, plants, or other organisms, excluding fish, for habitation, growth, or propagation.
8. "Aquatic and wildlife (warm water) (A&Ww)" means the use of a surface water by animals, plants, or other warm-water organisms, generally occurring at an elevation less than 5000 feet, for habitation, growth, or propagation.
9. "Arizona Pollutant Discharge Elimination System (AZPDES)" means the point source discharge permitting program established under 18 A.A.C. 9, Article 9.
10. "Assimilative capacity" means the difference between the baseline water quality concentration for a pollutant and the most stringent applicable water quality criterion for that pollutant.
11. "Clean Water Act" means the Federal Water Pollution Control Act [33 U.S.C. 1251 to 1387].
12. "Complete Mixing" means the location at which concentration of a pollutant across a transect of a surface water differs by less than five percent.
13. "Criteria" means elements of water quality standards that are expressed as pollutant concentrations, levels, or narrative statements representing a water quality that supports a designated use.
14. "Critical flow conditions of the discharge" means the hydrologically based discharge flow averages that the director uses to calculate and implement applicable water quality criteria to a mixing zone's receiving water as follows:
    a. For acute aquatic water quality standard criteria, the discharge flow critical condition is represented by the maximum one-day average flow analyzed over a reasonably representative timeframe.
    b. For chronic aquatic water quality standard criteria, the discharge flow critical flow condition is represented by the maximum monthly average flow analyzed over a reasonably representative timeframe.
    c. For human health based water quality standard criteria, the discharge flow critical condition is the long-term arithmetic mean flow, averaged over several years so as to simulate long-term exposure.
15. "Critical flow conditions of the receiving water" means the hydrologically based receiving water low flow averages that the director uses to calculate and implement applicable water quality criteria:
    a. For acute aquatic water quality standard criteria, the receiving water critical condition is represented as the lowest one-day aver-age flow event expected to occur once every ten years, on average (1Q10).
    b. For chronic aquatic water quality standard criteria, the receiving water critical flow condition is represented as the lowest seven-consecutive-day average flow expected to occur once every 10 years, on average (7Q10), or
    c. For human health based water quality standard criteria, in order to simulate long-term exposure, the receiving water critical flow condition is the harmonic mean flow.
16. "Deep lake" means a lake or reservoir with an average depth of more than 6 meters.
17. "Designated use" means a use specified in Appendix B of this Article for a surface water.
18. "Domestic water source (DWS)" means the use of a surface water as a source of potable water. Treatment of a surface water may be necessary to yield a finished water suitable for human consumption.
19. "Effluent-dependent water (EDW)" means a surface water or portion of a surface water, that consists of a point source discharge without which the surface water would be ephemeral. An effluent-dependent water may be perennial or intermittent depending on the volume and frequency of the point source discharge of treated wastewater.
20. "Ephemeral water" means a surface water or portion of surface water that flows or pools only in direct response to precipitation.
21. "Existing use" means a use attained in the waterbody on or after November 28, 1975, whether or not it is included in the water quality standards.
22. "Fish consumption (FC)" means the use of a surface water by humans for harvesting aquatic organisms for consumption. Harvestable aquatic organisms include, but are not limited to, fish, clams, turtles, crayfish, and frogs.
23. "Full-body contact (FBC)" means the use of a surface water for swimming or other recreational activity that causes the human body to come into direct contact with the water to the point of complete submergence. The use is such that ingestion of the water is likely and sensitive body organs, such as the eyes, ears, or nose, may be exposed to direct contact with the water.
24. "Geometric mean" means the nth root of the product of n items or values. The geometric mean is calculated using the following formula:

$$GM_Y = \sqrt[n]{(Y_1)(Y_2)(Y_3)\ldots(Y_n)}$$

25. "Hardness" means the sum of the calcium and magnesium concentrations, expressed as calcium carbonate (CaCO3) in milligrams per liter.
26. "Igneous lake" means a lake located in volcanic, basaltic, or granite geology and soils.

27. "Intermittent water" means a surface water or portion of surface water that flows continuously during certain times of the year and more than in direct response to precipitation, such as when it receives water from a spring, elevated groundwater table or another surface source, such as melting snowpack.
28. "Mixing zone" means an area or volume of a surface water that is contiguous to a point source discharge where dilution of the discharge takes place.
29. "Oil" means petroleum in any form, including crude oil, gasoline, fuel oil, diesel oil, lubricating oil, or sludge.
30. "Outstanding Arizona water (OAW)" means a surface water that is classified as an outstanding state resource water by the Director under R18-11-112.
31. "Partial-body contact (PBC)" means the recreational use of a surface water that may cause the human body to come into direct contact with the water, but normally not to the point of complete submergence (for example, wading or boating). The use is such that ingestion of the water is not likely and sensitive body organs, such as the eyes, ears, or nose, will not normally be exposed to direct contact with the water.
32. "Perennial water" means a surface water or portion of surface water that flows continuously throughout the year.
33. "Pollutant" means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and mining, industrial, municipal, and agricultural wastes or any other liquid, solid, gaseous, or hazardous substance. A.R.S § 49-201(29)
34. "Pollutant Minimization Program" means a structured set of activities to improve processes and pollutant controls that will prevent and reduce pollutant loadings.
35. "Practical quantitation limit" means the lowest level of quantitative measurement that can be reliably achieved during a routine laboratory operation.
36. "Reference condition" means a set of abiotic physical stream habitat, water quality, and site selection criteria established by the Director that describe the typical characteristics of stream sites in a region that are least disturbed by environmental stressors. Reference biological assemblages of macroinvertebrates and algae are collected from these reference condition streams for calculating the Arizona Indexes of Biological Integrity thresholds.
37. "Regional Administrator" means the Regional Administrator of Region IX of the U.S. Environmental Protection Agency.
38. "Regulated discharge" means a point-source discharge regulated under an AZPDES permit, a discharge regulated by a § 404 permit, and any discharge authorized by a federal permit or license that is subject to state water quality certification under § 401 of the Clean Water Act.
39. "Riffle habitat" means a stream segment where moderate water velocity and substrate roughness produce moderately turbulent conditions that break the surface tension of the water and may produce breaking wavelets that turn the surface water into white water.
40. "Run habitat" means a stream segment where there is moderate water velocity that does not break the surface tension of the water and does not produce breaking wavelets that turn the surface water into white water.
41. "Sedimentary lake" means a lake or reservoir in sedimentary or karst geology and soils.
42. "Shallow lake" means a lake or reservoir, excluding an urban lake, with a smaller, flatter morphology and an average depth of less than 3 meters and a maximum depth of less than 4 meters.
43. "Significant degradation" means:
    a. The consumption of 20 percent or more of the available assimilative capacity for a pollutant of concern at critical flow conditions, or
    b. Any consumption of assimilative capacity beyond the cumulative cap of 50 percent of assimilative capacity.
44. "Surface water" means "WOTUS" as defined in A.R.S. § 49-201(53).
45. "Total nitrogen" means the sum of the concentrations of ammonia (NH3), ammonium ion (NH4+), nitrite (NO2), and nitrate (NO3), and dissolved and particulate organic nitrogen expressed as elemental nitrogen.
46. "Total phosphorus" means all of the phosphorus present in a sample, regardless of form, as measured by a persulfate digestion procedure.
47. "Toxic" means a pollutant or combination of pollutants, that after discharge and upon exposure, ingestion, inhalation, or assimilation into an organism, either directly from the environment or indirectly by ingestion through food chains, may cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction), or physical deformations in the organism or its offspring.
48. "Urban lake" means a manmade lake within an urban landscape.
49. "Use attainability analysis" means a structured scientific assessment of the factors affecting the attainment of a designated use including physical, chemical, biological, and economic factors.
50. "Variance" means a time-limited designated use and criterion for a specific pollutant(s) or water quality parameter(s) that reflect the highest attainable condition during the term of the variance.
51. "Wadable" means a surface water can be safely crossed on foot and sampled without a boat.
52. "Wastewater" does not mean:
    a. Stormwater,
    b. Discharges authorized under the De Minimus General Permit,
    c. Other allowable non-stormwater discharges permitted under the Construction General Permit or the Multi-sector General Permit, or
    d. Stormwater discharges from a municipal storm sewer system (MS4) containing incidental amounts of non-stormwater that the MS4 is not required to prohibit.
53. "Wetland" means an area that is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions. A wetland includes a swamp, marsh, bog, cienega, tinaja, and similar areas.

54. "Zone of initial dilution" means a small area in the immediate vicinity of an outfall structure in which turbulence is high and causes rapid mixing with the surrounding water.

Historical Note

Former Section R9-21-101 repealed, new Section R9-21-101 adopted effective January 29, 1980 (Supp. 80-1). Amended effective April 17, 1984 (Supp. 84-2). Amended effective January 7, 1985 (Supp. 85-1). Amended by adding subsection (C) effective August 12, 1986 (Supp. 86-4). Former Section R9-21-101 renumbered without change as Section R18-11-101 (Supp. 87-3). Former Section R18-11-101 repealed, new Section R18-11-101 adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Deleted first definition to R18-11-101(32) "Navigable Water", previously printed in error (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 9 A.A.R. 716, effective April 8, 2003 (Supp. 03-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3). Amended by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-102. Applicability

A. The water quality standards prescribed in this Article apply to surface waters.

B. The water quality standards prescribed in this Article do not apply to the following:

1. A waste treatment system, including an impoundment, pond, lagoon, or constructed wetland that is a part of the waste treatment system;
2. A man-made surface impoundment and any associated ditch and conveyance used in the extraction, beneficiation, or processing of metallic ores that is not a surface water or is located in an area that once was a surface water but is no longer a surface water because it has been and remains legally converted, including:
   a. A pit,
   b. Pregnant leach solution pond,
   c. Raffinate pond,
   d. Tailing impoundment,
   e. Decant pond,
   f. Pond or a sump in a mine pit associated with dewatering activity,
   g. Pond holding water that has come into contact with a process or product and that is being held for recycling,
   h. Spill or upset catchment pond, or
   i. A pond used for onsite remediation;
3. A man-made cooling pond that is neither created in a surface water nor results from the impoundment of a surface water; or
4. A surface water located on tribal lands.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-103. Repealed

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Repealed effective April 24, 1996 (Supp. 96-2).

R18-11-104. Designated Uses

A. The Director shall adopt or remove a designated use or subcategory of a designated use by rule.

B. Designated uses of a surface water may include full-body contact, partial-body contact, domestic water source, fish consumption, aquatic and wildlife (cold water), aquatic and wildlife (warm water), aquatic and wildlife (ephemeral), aquatic and wildlife (effluent-dependent water), agricultural irrigation, and agricultural livestock watering. The designated uses for specific surface waters are listed in Appendix B of this Article.

C. Numeric water quality criteria to maintain and protect water quality for the designated uses are prescribed in Appendix A, R18-11-109, R18-11-110, and R18-11-112. Narrative water quality standards to protect all surface waters are prescribed in R18-11-108.

D. If a surface water has more than one designated use listed in Appendix B, the most stringent water quality criterion applies.

E. The Director shall revise the designated uses of a surface water if water quality improvements result in a level of water quality that permits a use that is not currently listed as a designated use in Appendix B.

F. In designating uses of a surface water and in establishing water quality criteria to protect the designated uses, the Director shall take into consideration the applicable water quality standards for downstream surface waters and shall ensure that the water quality standards that are established for an upstream surface water also provide for the attainment and maintenance of the water quality standards of downstream surface waters.

G. A use attainability analysis shall be conducted prior to removal of a designated use or adoption of a subcategory of a designated use that requires less stringent water quality criteria.

H. The Director may remove a designated use or adopt a subcategory of a designated use that requires less stringent water quality criteria, provided the designated use is not an existing use and it is demonstrated through a use attainability analysis that attaining the designated use is not feasible for any of the following reasons:

1. A naturally-occurring pollutant concentration prevents the attainment of the use;
2. A natural, ephemeral, intermittent, or low-flow condition or water level prevents the attainment of the use;
3. A human-caused condition or source of pollution prevents the attainment of the use and cannot be remedied or would cause more environmental damage to correct than to leave in place;
4. A dam, diversion, or other type of hydrologic modification precludes the attainment of the use, and it is not feasible to restore the surface water to its original condition or to operate the modification in a way that would result in attainment of the use;
5. A physical condition related to the natural features of the surface water, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, precludes attainment of an aquatic life designated use; or
6. Controls more stringent than those required by § 301 (b) and § 306 of the Clean Water Act [33 U.S.C. § 1311 and § 1316] are necessary to attain the use and implementation

of the controls would result in substantial and widespread economic and social impact.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1).

R18-11-105. Tributaries; Designated Uses

The following water quality standards apply to a surface water that is not listed in Appendix B but that is a tributary to a listed surface water.

1. The aquatic and wildlife (ephemeral) and partial-body contact standards apply to an unlisted tributary that is an ephemeral water.
2. The aquatic and wildlife (cold water), full-body contact, and fish consumption standards apply to an unlisted tributary that is a perennial or intermittent surface water and is above 5000 feet in elevation.
3. The aquatic and wildlife (warm water), full-body contact, and fish consumption standards apply to an unlisted tributary that is a perennial or intermittent surface water and is below 5000 feet in elevation.

Historical Note

Adopted effective April 24, 1996 (Supp. 96-2). Section heading amended per instructions of the Department of Environmental Quality, August 9, 1996 (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1).

R18-11-106. Net Ecological Benefit

A. The Director may, by rule, modify a water quality standard on the ground that there is a net ecological benefit associated with the discharge of effluent to support or create a riparian and aquatic habitat in an area where water resources are limited. The Director may modify a water quality standard for a pollutant if it is demonstrated that:

1. The discharge of effluent creates or supports an ecologically valuable aquatic, wetland, or riparian ecosystem in an area where these resources are limited;
2. The ecological benefits associated with the discharge of effluent under a modified water quality standard exceed the environmental costs associated with the elimination of the discharge of effluent;
3. The cost of treatment to achieve compliance with a water quality standard is so high that it is more cost effective to eliminate the discharge of effluent to the surface water. The discharger shall demonstrate that it is feasible to eliminate the discharge of effluent that creates or supports the ecologically valuable aquatic, wetland, or riparian ecosystem;
4. The discharge of effluent to the surface water will not cause or contribute to a violation of a water quality standard that has been established for a downstream surface water;
5. All practicable point source discharge control programs, including local pretreatment, waste minimization, and source reduction programs are implemented; and
6. The discharge of effluent does not produce or contribute to the concentration of a pollutant in the tissues of aquatic organisms or wildlife that is likely to be harmful to humans or wildlife through food chain concentration.

B. The Director shall not modify a water quality criterion for a pollutant to be less stringent than a technology-based effluent limitation that applies to the discharge of that effluent. The discharge of effluent shall, at a minimum, comply with applicable technology-based effluent limitations.

Historical Note

Adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-107. Antidegradation

A. The Director shall, using R18-11-107.01 and this Section, determine whether there is degradation of water quality in a surface water on a pollutant-by-pollutant basis.

B. Tier 1: The level of water quality necessary to support an existing use shall be maintained and protected. No degradation of existing water quality is permitted in a surface water where the existing water quality does not meet the applicable water quality standards.

C. Tier 2: Where existing water quality in a surface water is better than the applicable water quality standard the existing water quality shall be maintained and protected. The Director may allow degradation of existing water quality in the surface water, if the Director makes all of the following findings:

1. The water quality necessary for existing uses is fully protected and water quality is not lowered to a level that does not comply with applicable water quality standards,
2. The highest statutory and regulatory requirements for new and existing point sources are achieved,
3. All cost-effective and reasonable best management practices for nonpoint source pollution control are implemented, and
4. Allowing lower water quality is necessary to accommodate important economic or social development in the area where the surface water is located.

D. Tier 3: Existing water quality shall be maintained and protected in a surface water that is classified as an OAW under R18-11-112. Degradation of an OAW under subsection (C) is prohibited.

E. The Director shall implement this Section in a manner consistent with § 316 of the Clean Water Act [33 U.S.C. 1326] if a potential water quality impairment associated with a thermal discharge is involved.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-107.01. Antidegradation Criteria

A. Tier 1 antidegradation protection.

1. Tier 1 antidegradation protection applies to the following surface waters:
   a. A surface water listed on the 303(d) list for the pollutant that resulted in the listing,
   b. An effluent dependent water,
   c. An ephemeral water,
   d. An intermittent water, and
   e. A canal listed in Appendix B.
2. A regulated discharge shall not cause a violation of a surface water quality standard or a wasteload allocation in a total maximum daily load approved by EPA.

3. Except as provided in subsections (E) and (F), Tier 1 antidegradation review requirements are satisfied for a point-source discharge regulated under an individual AZPDES permit to an ephemeral water, effluent dependent water, intermittent water, or a canal listed in Appendix B, if water quality-based effluent limitations designed to achieve compliance with applicable surface water quality standards are established in the permit and technology-based requirements of the Clean Water Act for the point source discharge are met.

B. Tier 2 antidegradation protection.

1. Tier 2 antidegradation protection applies to a perennial water with existing water quality that is better than applicable water quality standards. A perennial water that is not listed in subsection (A)(1) nor classified as an OAW under A.A.C. R18-9-112(G) has Tier 2 antidegradation protection for all pollutants of concern.
2. A regulated discharge that meets the following criteria, at critical flow conditions, does not cause significant degradation:
   a. The regulated discharge consumes less than 20 percent of the available assimilative capacity for each pollutant of concern, and
   b. At least 50 percent of the assimilative capacity for each pollutant of concern remains available in the surface water for each pollutant of concern.
3. Antidegradation review. Any person proposing a new or expanded regulated discharge under an individual AZPDES permit that may cause significant degradation shall provide ADEQ with the following information:
   a. Baseline characterization. A person seeking authorization to discharge under an individual AZPDES permit to a perennial water shall provide baseline water quality data on pollutants of concern where no data exists or there are insufficient data to characterize baseline water quality and to determine available assimilative capacity. A discharger shall characterize baseline water quality at a location upstream of the proposed discharge location;
   b. Alternative analysis.
      i. The person seeking authorization for the discharge shall prepare and submit a written analysis of alternatives to the discharge. The analysis shall provide information on all reasonable, cost-effective, less-degrading or nondegrading discharge alternatives. Alternatives may include wastewater treatment process changes or upgrades, pollution prevention measures, source reduction, water reclamation, alternative discharge locations, groundwater recharge, land application or treatment, local pretreatment programs, improved operation and maintenance of existing systems, seasonal or controlled discharge to avoid critical flow conditions, and zero discharge;
      ii. The alternatives analysis shall include cost information on base pollution control measures associated with the regulated discharge and cost information for each alternative;
      iii. The person shall implement the alternative that is cost-effective and reasonable, results in the least degradation, and is approved by the Director. An alternative is cost-effective and reasonable if treatment costs associated with the alternative are less than a 10 percent increase above the cost of base pollution control measures;
      iv. For purposes of this subsection, "base pollution control measures" are water pollution control measures required to meet technology-based requirements of the Clean Water Act and water quality-based effluent limits designed to achieve compliance with applicable water quality standards; and
   c. Social and economic justification. The person shall demonstrate to the Director that significant degradation is necessary to accommodate important economic or social development in the local area. The person seeking authorization for the discharge shall prepare a written social and economic justification that includes a description of the following:
      i. The geographic area where significant degradation of existing water quality will occur;
      ii. The current baseline social and economic conditions in the local area;
      iii. The net positive social and economic effects of development associated with the regulated discharge and allowing significant degradation;
      iv. The negative social, environmental, and economic effects of allowing significant degradation of existing water quality; and
      v. Alternatives to the regulated discharge that do not significantly degrade water quality yet may yield comparable social and economic benefits.
4. For purposes of this Section, the term "pollutant of concern" means a pollutant with either a numeric or narrative water quality standard.
5. Public participation. The Director shall provide public notice and an opportunity to comment on an antidegradation review under subsection (B)(3) and shall provide an opportunity for a public hearing under A.A.C. R18-9-A908(B).

C. Tier 3 antidegradation protection.

1. Tier 3 antidegradation protection applies only to an OAW listed in R18-11-112(G).
2. A new or expanded point-source discharge directly to an OAW is prohibited.
3. A person seeking authorization for a regulated discharge to a tributary to, or upstream of, an OAW shall demonstrate in a permit application or in other documentation submitted to ADEQ that the regulated discharge will not degrade existing water quality in the downstream OAW.
4. A discharge regulated under a § 404 permit that may affect existing water quality of an OAW requires a determination by the Director to ensure that existing water quality is maintained and protected and any water quality impacts are temporary. Temporary water quality impacts are those impacts that occur for a period of six months or less and are not regularly occurring. The form of such a determination shall be as follows:
   a. For Corps-issued § 404 permits, an individual § 401 water quality certification.
   b. For Director-issued § 404 permits, a § 404 permit action, wherein the Director shall conduct a water quality evaluation as a part of the state's requirements for issuing § 404 permits and in accordance with this Section.

D. Antidegradation review of a § 404 permit shall be conducted as follows:

1. For a Corps-issued § 404 permit. The Director shall conduct the antidegradation review of any discharge authorized under a nationwide or regional § 404 permit as part of the § 401 water quality certification prior to issuance of the nationwide or regional permit. The Director shall conduct the antidegradation review of an individual § 404 permit if the discharge may degrade existing water quality in an OAW or a water listed on the 303(d) List of impaired waters. For regulated discharges that may degrade water quality in an OAW or a water that is on the 303(d) List of impaired waters, the Director shall conduct the antidegradation review as part of the § 401 water quality certification process.
2. For a Director-issued § 404 permit. The Director shall conduct the antidegradation review of any discharge authorized under a general § 404 permit as a part of its determination whether to issue a general permit in accordance with state requirements for issuing a § 404 general permit and with this Section. The Director shall conduct the antidegradation review of an individual § 404 permit as part of the § 404 permit action in accordance with state requirements for issuing a § 404 permit and in accordance with this Section.

E. Antidegradation review of an AZPDES stormwater permit. An individual stormwater permit for a municipal separate storm sewer system (MS4) meets antidegradation requirements if the permittee complies with the permit, including developing a stormwater management plan containing controls that reduce the level of pollutants in stormwater discharges to the maximum extent practicable.

F. Antidegradation review of a general permit. The Director shall conduct the antidegradation review of a regulated discharge authorized by a general permit at the time the general permit is issued or renewed. A person seeking authorization to discharge under a general permit is not required to undergo an individual antidegradation review at the time the Notice of Intent is submitted unless the discharge may degrade existing water quality in an OAW or a water listed on the 303(d) List of impaired waters.

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-108. Narrative Water Quality Standards

A. A surface water shall not contain pollutants in amounts or combinations that:

1. Settle to form bottom deposits that inhibit or prohibit the habitation, growth, or propagation of aquatic life;
2. Cause objectionable odor in the area in which the surface water is located;
3. Cause off-taste or odor in drinking water;
4. Cause off-flavor in aquatic organisms;
5. Are toxic to humans, animals, plants, or other organisms;
6. Cause the growth of algae or aquatic plants that inhibit or prohibit the habitation, growth, or propagation of other aquatic life or that impair recreational uses;
7. Cause or contribute to a violation of an aquifer water quality standard prescribed in R18-11-405 or R18-11-406; or
8. Change the color of the surface water from natural background levels of color.

B. A surface water shall not contain oil, grease, or any other pollutant that floats as debris, foam, or scum; or that causes a film or iridescent appearance on the surface of the water; or that causes a deposit on a shoreline, bank, or aquatic vegetation. The discharge of lubricating oil or gasoline associated with the normal operation of a recreational watercraft is not a violation of this narrative standard.

C. A surface water shall not contain a discharge of suspended solids in quantities or concentrations that interfere with the treatment processes at the nearest downstream potable water treatment plant or substantially increase the cost of handling solids produced at the nearest downstream potable water treatment plant.

D. A surface water shall not contain solid waste such as refuse, rubbish, demolition or construction debris, trash, garbage, motor vehicles, appliances, or tires.

E. A wadeable, perennial stream shall support and maintain a community of organisms having a taxa richness, species composition, tolerance, and functional organization comparable to that of a stream with reference conditions in Arizona.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-108.01. Narrative Biological Criteria for Wadeable, Perennial Streams

A. The narrative biological criteria in this Section apply to a wadeable, perennial stream with either an aquatic and wildlife (cold water) or an aquatic and wildlife (warm water) designated use.

B. The biological standard in R18-11-108(E) is met when a bioassessment result, as measured by the Arizona Index of Biological Integrity (IBI), for cold or warm water is:

1. Greater than or equal to the 25th percentile of reference condition, or
2. Greater than the 10th percentile of reference condition and less than the 25th percentile of reference condition and a verification bioassessment result is greater than or equal to the 25th percentile of reference condition.

C. Arizona Index of Biological Integrity (IBI) scores:

Bioassessment Result	Index of Biological Integrity Scores	
	A&Wc	A&Ww
Greater than or equal to the 25th percentile of reference condition	≥52	≥50
Greater than the 10th and less than the 25th percentile of reference condition	46 - 51	40 - 49

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-108.02. Narrative Bottom Deposit Criteria for Wadeable, Perennial Streams

A. The narrative bottom deposit criteria in this Section apply to wadeable, perennial streams with an aquatic and wildlife (cold water) or an aquatic and wildlife (warm water) designated use.

B. The narrative water quality standard for bottom deposits at R18-11-108(A)(1) is met when:
1. The percentage of fine sediments in the riffle habitats of a wadeable, perennial stream with an A&Wc designated use, as determined by a riffle pebble count, is less than or equal to 30 percent.
2. The percentage of fine sediments in all stream habitats of a wadeable, perennial stream with an A&Ww designated use, as determined by a reach level pebble count, is equal to or less than 50 percent.

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-108.03. Narrative Nutrient Criteria for Lakes and Reservoirs

A. The narrative nutrient criteria in this Section apply to those lakes and reservoirs categorized in Appendix B.

B. The narrative water quality standard for nutrients at R18-11-108(A)(6) is met when, based on a minimum of two lake sample events conducted during the peak season based on lake productivity, the results show an average chlorophyll-*a* value below the applicable threshold for designated use and lake and reservoir category in subsection (D).
1. The mean chlorophyll-*a* concentration is less than the lower value in the target range chlorophyll-*a* for the lake and reservoir category, or
2. The mean chlorophyll-*a* concentration is within the target range for the lake and reservoir category and:
   a. The mean blue green algae count is at or below 20,000 per milliliter, and
   b. The blue green algae count is less than 50 percent of the total algae count, and
   c. There is no evidence of nutrient-related impairments such as:
      i. An exceedance of dissolved oxygen or pH standards;
      ii. A fish kill coincident with a dissolved oxygen or pH exceedance;
      iii. A fish kill or other aquatic organism mortality coincident with algal toxicity;
      iv. Secchi depth is less than the lower value prescribed for the lake and reservoir category;
      v. A nuisance algal bloom is present in the limnetic portion of the lake or reservoir; or
      vi. The concentration of total phosphorous, total nitrogen, or total Kjehldal nitrogen (TKN) is greater than the upper value in the range prescribed for the lake and reservoir category; or
3. For a shallow lake. In addition to meeting the mean chlorophyll-*a* concentrations in subsections (B)(1) or (2), submerged aquatic vegetation covers 50 percent or less of the lake bottom and there is less than a 5 mg/L swing in diel-dissolved oxygen concentration measured within the photic zone.

C. The following threshold ranges apply during the peak season for lake productivity:
1. Warm water lakes peak season, April – October;
2. Cold water lakes peak season, May – September.

D. The following table lists the numeric targets for lakes and reservoirs.

NUMERIC TARGETS FOR LAKES AND RESERVOIRS

Designated Use	Lake Category	Chl-*a* (µg/L)	Secchi Depth (m)	Total Phosphorus (µg/L)	Total Nitrogen (mg/L)	Total Kjehldal Nitrogen (TKN) (mg/L)	Blue-Green Algae (per ml)	Blue-Green Algae (% of total count)	Dissolved Oxygen (mg/L)	pH (SU)
FBC and PBC	Deep	10-15	1.5-2.5	70-90	1.2-1.4	1.0-1.1	20,000			6.5-9.0
	Shallow	10-15	1.5-2.0	70-90	1.2-1.4	1.0-1.1				
	Igneous	20-30	0.5-1.0	100-125	1.5-1.7	1.2-1.4				
	Sedimentary	20-30	1.5-2.0	100-125	1.5-1.7	1.2-1.4				
	Urban	20-30	0.5-1.0	100-125	1.5-1.7	1.2-1.4				
A&Wc	All	5-15	1.5-2.0	50-90	1.0-1.4	0.7-1.1		<50	7 (top m)	6.5-9.0
A&Ww	All (except urban lakes)	25-40	0.8-1.0	115-140	1.6-1.8	1.3-1.6			6 (top m)	
	Urban	30-50	0.7-1.0	125-160	1.7-1.9	1.4-1.7				
A&Wedw	All	30-50	0.7-1.0	125-160	1.7-1.9	1.4-1.7				6.5-9.0
DWS	All	10-20	0.5-1.5	70-100	1.2-1.5	1.0-1.2	20,000			5.0-9.0

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-109. Numeric Water Quality Standards

A. *E. coli* bacteria. The following water quality standards for *Escherichia coli* (*E. coli*) are expressed in colony forming units per 100 milliliters of water (cfu / 100 ml) or as a Most Probable Number (MPN):

E. coli	**FBC**	**PBC**
Geometric mean (minimum of four samples in 30 days)	126	126
Statistical threshold value	410	576

B. pH. The following water quality standards for pH are expressed in standard units:

pH	**DWS**	**FBC, PBC, A&W [1]**	**AgI**	**AgL**
Maximum	9.0	9.0	9.0	9.0
Minimum	5.0	6.5	4.5	6.5

Footnotes:
1. "1" Includes A&Wc, A&Ww, A&Wedw, and A&We.

C. The maximum allowable increase in ambient water temperature, due to a thermal discharge is as follows:

A&Ww	**A&Wedw**	**A&Wc**

3.0° C	3.0° C	1.0° C

D. Suspended sediment concentration.

1. The following water quality standards for suspended sediment concentration, expressed in milligrams per liter (mg/L), are expressed as a median value determined from a minimum of four samples collected at least seven days apart:

A&Wc	A&Ww
25	80

2. The Director shall not use the results of a suspended sediment concentration sample collected during or within 48 hours after a local storm event to determine the median value.

E. Dissolved oxygen. A surface water meets the water quality standard for dissolved oxygen when either:

1. The percent saturation of dissolved oxygen is equal to or greater than 90 percent, or
2. The single sample minimum concentration for the designated use, as expressed in milligrams per liter (mg/L) is as follows:

Designated Use	Single sample minimum concentration in mg/L
A&Ww	6.0
A&Wc	7.0
A&W edw for a sample taken from three hours after sunrise to sunset	3.0
A&W edw for a sample taken from sunset to three hours after sunrise	1.0

The single sample minimum concentration is the same for the designated use in a lake, but the sample must be taken from a depth no greater than one meter.

F. Nutrient criteria. The following are water quality standards for total phosphorus and total nitrogen (expressed in milligrams per liter (mg/L)) that apply to the surface waters listed below. A minimum of 10 samples, each taken at least 10 days apart in a consecutive 12-month period, are required to determine a 90th percentile. Not more than 10 percent of the samples may exceed the 90th percentile value listed below. The Director will apply these water quality standards for total phosphorus and total nitrogen to the surface waters listed below, and to their perennial tributaries, if listed. The Director may also apply these total phosphorus and total nitrogen standards to any source discharging to any tributary (ephemeral, intermittent, effluent dependent water, or perennial) of the surface waters listed below, if necessary to protect nutrient water quality in the listed surface water, based on the volume, frequency, magnitude and duration of the discharge, and distance to the downstream surface water listed below:

1. Verde River and its perennial tributaries from the Verde headwaters to Bartlett Lake:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.10	0.30	1.00
Total nitrogen	1.00	1.50	3.00

2. Black River, Tonto Creek and their perennial tributaries for any segments that are not located on tribal lands:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.10	0.20	0.80
Total nitrogen	0.50	1.00	2.00

3. Salt River and its perennial tributaries above Roosevelt Lake for any segments that are not located on tribal lands:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.12	0.30	1.00
Total nitrogen	0.60	1.20	2.00

4. Salt River below Stewart Mountain Dam to its confluence with the Verde River:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.05	–	0.20
Total nitrogen	0.60	–	3.00

5. Little Colorado River and its perennial tributaries upstream from:
   a. The headwaters to River Reservoir,
   b. South Fork of Little Colorado River at 34°00’49”/109°24’18” to above South Fork Campground at 34°04’49”/109°24’18”, and
   c. The headwaters of Water Canyon Creek to the Apache-Sitgreaves National Forest boundary:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.08	0.10	0.75
Total nitrogen	0.60	0.75	1.10

6. From the Little Colorado River and State Route 260 at 34°06’39”/109°18’55” to Lyman Lake:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.20	0.30	0.75
Total nitrogen	0.70	1.20	1.50

7. Colorado River at the Northern International Boundary near Morelos Dam:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	–	0.33	–
Total nitrogen	–	2.50	–

8. Oak Creek from its headwaters at 35°01'30"/111°44'12" to its confluence with the Verde River and the West Fork of Oak Creek from its headwaters at 35°02'44"/111°54'48" to its confluence with Oak Creek.

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.1	0.25	0.30
Total nitrogen	1.00	1.50	2.50

9. No discharge of wastewater to Show Low Creek or its perennial tributaries upstream of and including Fools Hollow Lake shall exceed 0.16 mg/L total phosphates as P.
10. No discharge of wastewater to the San Francisco River or its perennial tributaries upstream of Luna Lake Dam shall exceed 1.0 mg/L total phosphates as P.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4). Amended by final

rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-110. Salinity Standards for the Colorado River

A. The flow-weighted average annual salinity in the lower main stem of the Colorado River shall not exceed the following criteria:

Location	Total Dissolved Solids
Below Hoover Dam	723 mg/L
Below Parker Dam	747 mg/L
At Imperial Dam	879 mg/L

B. The plan of implementation contained in the "2014 Review, Water Quality Standards for Salinity, Colorado River System," approved October 2014, is incorporated by reference to preserve the basin-wide approach to salinity control developed by the Colorado River Basin Salinity Control Forum and to ensure compliance with the numeric criteria for salinity in subsection (A). This material does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 West Washington Street, Phoenix, Arizona 85007 or may be obtained from the Colorado River Basin Salinity Control Forum, 106 West 500 South, Suite 101, Bountiful, Utah 84010-6232 or at http://www.coloradoriversalinity.org/.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-111. Analytical Methods

A. A person conducting an analysis of a sample taken to determine compliance with a water quality standard shall use an analytical method prescribed in A.A.C. R9-14-610, 40 CFR 136.3, or an alternative analytical method approved under A.A.C. R9-14-610(C).

B. A test result from a sample taken to determine compliance with a water quality standard is valid only if the sample is analyzed by a laboratory that is licensed by the Arizona Department of Health Services, an out-of-state laboratory licensed under A.R.S. § 36-495.14, or a laboratory exempted under A.R.S. § 36-495.02, for the analysis performed.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-112. Outstanding Arizona Waters

A. The Director shall classify a surface water as an outstanding Arizona water (OAW) by rule.

B. The Director may adopt, under R18-11-115, a site-specific standard to maintain and protect existing water quality in an OAW.

C. Any person may nominate a surface water for classification as an OAW by filing a nomination with the Director. The nomination shall include:

1. A map and a description of the surface water;
2. A written statement in support of the nomination, including specific reference to the applicable criteria for an OAW classification prescribed in subsection (D);
3. Supporting evidence demonstrating that the criteria prescribed in subsection (D) are met; and
4. Available water quality data relevant to establishing the baseline water quality of the proposed OAW.

D. The Director may classify a surface water as an OAW based upon the following criteria:

1. The surface water is a perennial or intermittent water;
2. The surface water is in a free-flowing condition. For purposes of this subsection, "in a free-flowing condition" means that a surface water does not have an impoundment, diversion, channelization, rip-rapping or other bank armor, or another hydrological modification within the reach nominated for an OAW classification;
3. The surface water has good water quality. For purposes of this subsection, "good water quality" means that the surface water has water quality that meets or is better than applicable surface water quality standards. A surface water that is listed as impaired under R18-11-604(E) is ineligible for OAW classification; and
4. The surface water meets one or both of the following conditions:
   a. The surface water is of exceptional recreational or ecological significance because of its unique attributes, such as the geology, flora and fauna, water quality, aesthetic value, or the wilderness characteristic of the surface water;
   b. An endangered or threatened species is associated with the surface water and the existing water quality is essential to the species' maintenance and propagation or the surface water provides critical habitat for the threatened or endangered species. An endangered or threatened species is identified in "Endangered and Threatened Wildlife," 50 CFR 17.11 (revised 2005), and "Endangered and Threatened Plants," 50 CFR 17.12 (revised 2005). This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 West Washington Street, Phoenix, Arizona 85007 or may be obtained from the National Archives and Records Administration at http://www.access.gpo.gov/nara/cfr/cfr-table-search.html#page1.

E. The Director shall hold at least one public meeting in the local area of a surface water that is nominated for classification as an OAW to solicit public comment on the nomination.

F. The Director shall consider the following factors when deciding whether to classify a surface water as an OAW:

1. Whether there is the ability to manage the surface water and its watershed to maintain and protect existing water quality;
2. The social and economic impact of Tier 3 antidegradation protection;
3. The public comments in support of, or in opposition to, an OAW classification;
4. The timing of the nomination relative to the triennial review of surface water quality standards;
5. The consistency of an OAW classification with applicable water quality management plans; and

6. Whether the nominated surface water is located within a national or state park, national monument, national recreation area, wilderness area, riparian conservation area, area of critical environmental concern, or it has another special use designation (for example, Wild and Scenic River).

G. The following surface waters are classified as OAWs:

1. The West Fork of the Little Colorado River, from its headwaters to Government Springs (approximately 9.1 river miles);
2. Oak Creek, from its headwaters to its confluence with the Verde River (approximately 50.3 river miles);
3. West Fork of Oak Creek, from its headwaters to its confluence with Oak Creek (approximately 15.8 river miles);
4. Peeples Canyon Creek, from its headwaters to its confluence with the Santa Maria River (approximately 8.1 river miles);
5. Burro Creek, from its headwaters to its confluence with Boulder Creek (approximately 29.5 miles);
6. Francis Creek, from its headwaters to its confluence with Burro Creek (approximately 22.9 river miles);
7. Bonita Creek, from its boundary of the San Carlos Indian Reservation to its confluence with the Gila River (approximately 14.7 river miles);
8. Cienega Creek, from its confluence with Gardner Canyon to the USGS gaging station (#09484600) (approximately 28.3 river miles);
9. Aravaipa Creek, from its confluence with Stowe Gulch to the downstream boundary of the Aravaipa Canyon Wilderness Area (approximately 15.5 river miles);
10. Cave Creek, from its headwaters to the Coronado National Forest boundary (approximately 10.4 river miles);
11. South Fork of Cave Creek, from its headwaters to its confluence with Cave Creek (approximately 8.6 river miles);
12. Buehman Canyon Creek, from its headwaters to its confluence with unnamed tributary at 32°24'31"/110°32'08" (approximately 9.8 river miles);
13. Lee Valley Creek, from its headwaters to Lee Valley Reservoir (approximately 1.6 river miles);
14. Bear Wallow Creek, from its headwaters to the boundary of the San Carlos Indian Reservation (approximately 4.25 river miles);
15. North Fork of Bear Wallow Creek, from its headwaters to its confluence with Bear Wallow Creek (approximately 3.8 river miles);
16. South Fork of Bear Wallow Creek, from its headwaters to its confluence with Bear Wallow Creek (approximately 3.8 river miles);
17. Snake Creek, from its headwaters to its confluence with the Black River (approximately 6.2 river miles);
18. Hay Creek, from its headwaters to its confluence with the West Fork of the Black River (approximately 5.5 river miles);
19. Stinky Creek, from the White Mountain Apache Indian Reservation boundary to its confluence with the West Fork of the Black River (approximately 3.0 river miles);
20. KP Creek, from its headwaters to its confluence with the Blue River (approximately 12.7 river miles);
21. Davidson Canyon, from the unnamed spring at 31°59'00"/110°38'49" to its confluence with Cienega Creek; and
22. Fossil Creek, from its headwaters at the confluence of Sandrock and Calf Pen Canyons above Fossil Springs to its confluence with the Verde River (approximately 17.2 river miles).

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Added "water quality standards" to R18-11-112, previously omitted in error (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-113. Effluent-Dependent Waters

A. The Director shall classify a surface water as an effluent-dependent water by rule.

B. The Director may adopt, under R18-11-115, a site-specific water quality standard for an effluent-dependent water.

C. Any person may submit a petition for rule adoption requesting that the Director classify a surface water as an effluent-dependent water. The petition shall include:

1. A map and a description of the surface water;
2. Information that demonstrates that the surface water consists of a point source discharge of wastewater; and
3. Information that demonstrates that, without a point source discharge of a wastewater, the receiving water is an ephemeral water.

D. The Director shall use the water quality standards that apply to an effluent-dependent water to derive water quality-based effluent limits for a point source discharge of wastewater to an ephemeral water.

E. The Director may use aquatic and wildlife (edw) acute standards only to derive water quality based effluent limits for a sporadic, infrequent, or emergency point source discharge to an ephemeral water or to an effluent-dependent water. The Director shall consider the following factors when deciding whether to apply A&Wedw (acute) standards:

1. The amount, frequency, and duration of the discharge;
2. The length of time water may be present in the receiving water;
3. The distance to a downstream water with aquatic and wildlife chronic standards; and
4. The likelihood of chronic exposure to pollutants.

F. The Director may establish alternative water quality-based effluent limits in an AZPDES permit based on seasonal differences in the discharge.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective December 18, 1992 (Supp. 92-4). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-114. Mixing Zones

A. The Director may establish a mixing zone for a point source discharge to a surface water as a condition of an individual AZPDES permit on a pollutant-by-pollutant basis. A mixing zone is prohibited in an ephemeral water or where there is no water for dilution, or as prohibited pursuant to subsection (H).

B. The owner or operator of a point source seeking the establishment of a mixing zone shall submit a request to the Director

for a mixing zone as part of an application for an AZPDES permit. The request shall include:

1. An identification of the pollutant for which the mixing zone is requested;
2. A proposed outfall design;
3. A definition of the boundary of the proposed mixing zone. For purposes of this subsection, the boundary of a mixing zone is where complete mixing occurs; and
4. A complete and detailed description of the existing physical, biological, and chemical conditions of the receiving water and the predicted impact of the proposed mixing zone on those conditions. The description shall also address the factors listed in subsection (D) that the Director must consider when deciding to grant or deny a request and shall address the mixing zone requirements in subsection (H).

C. The Director shall consider the following factors when deciding whether to grant or deny a request for a mixing zone:

1. The assimilative capacity of the receiving water;
2. The likelihood of adverse human health effects;
3. The location of drinking water plant intakes and public swimming areas;
4. The predicted exposure of biota and the likelihood that resident biota will be adversely affected;
5. Bioaccumulation;
6. Whether there will be acute toxicity in the mixing zone, and, if so, the size of the zone of initial dilution;
7. The known or predicted safe exposure levels for the pollutant for which the mixing zone is requested;
8. The size of the mixing zone;
9. The location of the mixing zone relative to biologically sensitive areas in the surface water;
10. The concentration gradient of the pollutant within the mixing zone;
11. Sediment deposition;
12. The potential for attracting aquatic life to the mixing zone; and
13. The cumulative impacts of other mixing zones and other discharges to the surface water.

D. Director determination.

1. The Director shall deny a request to establish a mixing zone if a water quality standard will be violated outside the boundaries of the proposed mixing zone.
2. If the Director approves the request to establish a mixing zone, the Director shall establish the mixing zone as a condition of an AZPDES permit. The Director shall include any mixing zone condition in the AZPDES permit that is necessary to protect human health and the designated uses of the surface water.

E. Any person who is adversely affected by the Director's decision to grant or deny a request for a mixing zone may appeal the decision under A.R.S. § 49-321 et seq. and A.R.S. § 41-1092 et seq.

F. The Director shall reevaluate a mixing zone upon issuance, reissuance, or modification of the AZPDES permit for the point source or a modification of the outfall structure.

G. Mixing zone requirements.

1. A mixing zone shall be as small as practicable in that it shall not extend beyond the point in the waterbody at which complete mixing occurs under the critical flow conditions of the discharge and of the receiving water.
2. The total horizontal area allocated to all mixing zones on a lake shall not exceed 10 percent of the surface area of the lake.
3. Adjacent mixing zones in a lake shall not overlap or be located closer together than the greatest horizontal dimension of the largest mixing zone.
4. The design of any discharge outfall shall maximize initial dilution of the wastewater in a surface water.
5. The size of the zone of initial dilution in a mixing zone shall prevent lethality to organisms passing through the zone of initial dilution. The mixing zone shall prevent acute toxicity and lethality to organisms passing through the mixing zone.

H. The Director shall not establish a mixing zone in an AZPDES permit for the following persistent, bioaccumulative pollutants:

1. Chlordane,
2. DDT and its metabolites (DDD and DDE),
3. Dieldrin,
4. Dioxin,
5. Endrin,
6. Endrin aldehyde,
7. Heptachlor,
8. Heptachlor epoxide,
9. Lindane,
10. Mercury,
11. Polychlorinated biphenyls (PCBs), and
12. Toxaphene.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-115. Site-Specific Standards

A. The Director shall adopt a site-specific standard by rule.

B. The Director may adopt a site-specific standard based upon a request or upon the Director's initiative for any of the following reasons:

1. Local physical, chemical, or hydrological conditions of a surface water such as pH, hardness, fate and transport, or temperature alters the biological availability or toxicity of a pollutant;
2. The sensitivity of resident aquatic organisms that occur in a surface water to a pollutant differs from the sensitivity of the species used to derive the numeric water quality standards to protect aquatic life in Appendix A;
3. Resident aquatic organisms that occur in a surface water represent a narrower mix of species than those in the dataset used by ADEQ to derive numeric water quality standards to protect aquatic life in Appendix A;
4. The natural background concentration of a pollutant is greater than the numeric water quality standard to protect aquatic life prescribed in Appendix A. "Natural background" means the concentration of a pollutant in a surface water due only to non-anthropogenic sources; or
5. Other factors or combination of factors that upon review by the Director warrant changing a numeric water quality standard for a surface water.

C. Site-specific standard by request. To request that the Director adopt a site-specific standard, a person must conduct a study to support the development of a site-specific standard using a scientifically-defensible procedure.

1. Before conducting the study, a person shall submit a study outline to the Director for approval that contains the following elements:
   a. Identifies the pollutant;
   b. Describes the reach's boundaries;
   c. Uses one of the following procedures, as defined by the most recent EPA guidance documents:
      i. The recalculation procedure,
      ii. The water effects ratio for metals,
      iii. The streamlined water effects ratio, or
      iv. The Biotic ligand model.
   d. Demonstrates that all designated uses are protected.
2. Alternatively, a study outline submitted for the Director's approval must contain the following elements:
   a. Identifies the pollutant;
   b. Describes the reach's boundaries;
   c. Describes the hydrologic regime of the waterbody;
   d. Describes the scientifically-defensible procedure, which can include relevant aquatic life studies, ecological studies, laboratory tests, biological translators, fate and transport models, and risk analyses;
   e. Describes and compares the taxonomic composition, distribution and density of the aquatic biota within the reach to a reference reach and describes the basis of any major taxonomic differences;
   f. Describes the pollutant's effect on the affected species or appropriate surrogate species and on the other designated uses listed for the reach;
   g. Demonstrates that all designated uses are protected; and
   h. A person seeking to develop a site-specific standard based on natural background may use statistical or modeling approaches to determine natural background concentration. Modeling approaches include Better Assessment Science Integrating Source and Nonpoint Sources (Basins), Hydrologic Simulation Program-Fortran (HSPF), and Hydrologic Engineering Center (HEC) programs developed by the U.S. Army Corps of Engineers.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Section repealed by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-116. Resource Management Agencies

Nothing in this Article prohibits fisheries management activities by the Arizona Game and Fish Department or the U.S. Fish and Wildlife Service. This Article does not exempt fish hatcheries from AZPDES permit requirements.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-117. Canals and Urban Park Lakes

A. Nothing in this Article prevents the routine physical or mechanical maintenance of canals, drains, and the urban lakes identified in Appendix B. Physical or mechanical maintenance includes dewatering, lining, dredging, and the physical, biological, or chemical control of weeds and algae. Increases in turbidity that result from physical or mechanical maintenance activities are permitted in canals, drains, and the urban lakes identified in Appendix B.

B. The discharge of lubricating oil associated with the start-up of well pumps that discharge to canals is not a violation of R18-11-108(B).

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-118. Dams and Flood Control Structures

Increases in turbidity that result from the routine physical or mechanical maintenance of a dam or flood control structure are not violations of this Article. Nothing in this Article requires the release of water from a dam or a flood control structure.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-119. Natural background

Where the concentration of a pollutant exceeds a water quality standard and the exceedance is not caused by human activity but is due solely to naturally-occurring conditions, the exceedance shall not be considered a violation of the water quality standard.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).

R18-11-120. Enforcement of Non-permitted Discharges

A. The Department may establish a numeric water quality standard at a concentration that is below the practical quantitation limit. Therefore, in enforcement actions pursuant to subsection (B), the water quality standard is enforceable at the practical quantitation limit.

B. Except for chronic aquatic and wildlife criteria, for non-permitted discharge violations, the Department shall determine compliance with numeric water quality standard criteria from the analytical result of a single sample, unless additional samples are required under this article. For chronic aquatic and wildlife criteria, compliance for non-permitted discharge violations shall be determined from the geometric mean of the analytical results of the last four samples taken at least 24 hours apart. For the purposes of this Section, a "non-permitted discharge violation" does not include a discharge regulated under an AZPDES permit.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-121. Schedules of Compliance

A compliance schedule in an AZPDES permit shall require the permittee to comply with a discharge limitation based upon a new or revised water quality standard as soon as possible to achieve com-

pliance. The permittee shall demonstrate that all requirements under § 301(b) and § 306 of the Clean Water Act [33 U.S.C. 1311(b) and 1316] are achieved and that the point source cannot comply with a discharge limitation based upon the new or revised water quality standard through the application of existing water pollution control technology, operational changes, or source reduction. In establishing a compliance schedule, the Director shall consider:

1. How much time the permittee has already had to meet any effluent limitations under a prior permit;
2. The extent to which the permittee has made good faith efforts to comply with the effluent limitations and other requirements in a prior permit;
3. Whether treatment facilities, operations, or measures must be modified to meet the effluent limitations;
4. How long any necessary modifications would take to implement; and
5. Whether the permittee would be expected to use the same treatment facilities, operations or other measures to meet the effluent limitations as it would have used to meet the effluent limitations in a prior permit.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-122. Variances

A. Upon request, the Director may establish, by rule, a discharger-specific or water segment(s)-specific variance from a water quality standard if requirements pursuant to this Section are met.

B. A person who requests a variance must demonstrate all of the following information:

1. Identification of the specific pollutant and water quality standard for which a variance is sought.
2. Identification of the receiving surface water segment or segments to which the variance would apply.
3. A detailed discussion of the need for the variance, including the reasons why compliance with the water quality standard cannot be achieved over the term of the proposed variance, and any other useful information or analysis to evaluate attainability.
4. A detailed discussion of the discharge control technologies that are available for achieving compliance with the water quality standard for which a variance is sought.
5. Documentation that more advanced treatment technology than applicable technology-based effluent limitations is necessary to achieve compliance with the water quality standard for which a variance is sought.
6. A detailed description of proposed interim discharge limitations and pollutant control activities that represent the highest level of treatment achievable by a point source discharger or dischargers during the term of the variance.
7. Documentation that the proposed term is only as long as necessary to achieve the highest attainable condition.
8. Documentation that is appropriate to the type of use to which the variance would apply as follows:
   a. For a water quality standard variance to a use specified in Clean Water Act § 101(a)(2), documentation must include demonstration of at least one of the following factors that preclude attainment of the use during the term of the variance:
      i. Naturally occurring pollutant concentrations prevent attainment of the use;
      ii. Natural, ephemeral, intermittent or low flow conditions or water levels prevent the attainment of the use, unless these conditions may be compensated for by the discharge of sufficient volume of effluent discharges without violating state water conservation requirements to enable uses to be met;
      iii. That human-caused conditions or sources of pollution prevent the attainment of the water quality standard for which the variance is sought and either (1) it is not possible to remedy the conditions or sources of pollution or (2) remedying the human-caused conditions would cause more environmental damage to correct than to leave in place;
      iv. Dams, diversions or other types of hydrologic modifications preclude the attainment of the use, and it is not feasible to restore the water body to its original condition or to operate such modification n a way that would result in the attainment of the use;
      v. Physical conditions related to the natural features of the water body, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, preclude attainment of aquatic life protection uses;
      vi. That installation and operation of each of the available discharge technologies more advanced than those required to comply with technology-based effluent limitations to achieve compliance with the water quality standard would result in substantial and widespread economic and social impact; or
      vii. Actions necessary to facilitate lake, wetland, or stream restoration through dam removal or other significant reconfiguration activities preclude attainment of the designated use and criterion while the actions are being implemented.
   b. For a water quality standard variance to a use other than those uses specified in Clean Water Act § 101(a)(2), documentation must justify how consideration and value of the water subject to the use appropriately supports the variance and term. A demonstration consistent with (B)(8)(a) of this Section may be used to satisfy this requirement.
9. For a waterbody segment(s)-specific variance, the following information is required before the Director may issue a variance, in addition to all other required documentation pursuant to this Section:
   a. Identification and documentation of any cost-effective and reasonable best management practices for nonpoint source controls related to the pollutant(s) or water quality parameter(s) and water body or waterbody segment(s) specified in the variance that could be implemented to make progress towards attaining the underlying designated use and criterion; and
   b. If any variance pursuant to subsection (B)(9)(a) previously applied to the water body or waterbody seg-

ment(s), documentation must also demonstrate whether and to what extent best management practices for nonpoint source controls were implemented to address the pollutant(s) or water quality parameter(s) subject to the water quality variance and the water quality progress achieved.

10. For a discharger-specific variance, the following information is required before the Director may issue a variance, in addition to all other required documentation pursuant to this Section:
    a. Identification of the permittee subject to the variance;
    b. For an existing point source discharge, a detailed description of the existing discharge control technologies that are used to achieve compliance with applicable water quality standards. For a new point source discharge, a detailed description of the proposed discharge control technologies that will be used to achieve compliance with applicable water quality standards; and
    c. Documentation that the existing or proposed discharge control technologies will comply with applicable technology-based effluent limitations.

C. The Director shall consider the following factors when deciding whether to grant or deny a variance request:
1. Bioaccumulation,
2. The predicted exposure of biota and the likelihood that resident biota will be adversely affected,
3. The known or predicted safe exposure levels for the pollutant for which the variance is requested, and
4. The likelihood of adverse human health effects.

D. The variance shall represent the highest attainable condition of the water body or water body segment applicable throughout the term of the variance.

E. A variance shall not result in any lowering of the currently attained ambient water quality, unless the variance is necessary for restoration activities, consistent with subsection (B)(8)(a)(vii). The Director must specify the highest attainable condition of the water body or waterbody segment as a quantifiable expression of one of the following:
1. The highest attainable interim criterion,
2. The interim effluent condition that reflects the greatest pollutant reduction achievable; or
3. If no additional feasible pollutant control technology can be identified, the interim criterion or interim effluent condition that reflects the greatest pollutant reduction achievable with the pollutant control technologies installed at the time of the issuance of the variance, and the adoption and implementation of a Pollutant Minimization Program.

F. A variance shall not modify the underlying designated use and criterion. A variance is only a time limited exception to the underlying standard. For discharge-specific variances, other point source dischargers to the surface water that are not granted a variance shall still meet all applicable water quality standards.

G. Point source discharges shall meet all other applicable water quality standards for which a variance is not granted.

H. The Director may not grant a variance for a point source discharge to an OAW listed in R18-11-112(G).

I. Each variance established by the Director is subject to review and approval by the Regional Administrator.

J. The term of the water quality variance may only be as long as necessary to achieve the highest attainable condition and must be consistent with the supporting documentation in subsection (E). The variance term runs from the approval of the variance by the Regional Administrator.

K. The Director shall reevaluate, in its triennial review, whether each variance continues to represent the highest attainable condition. Comment on the variance shall be considered regarding whether the variance continues to represent the highest attainable condition. If the Director determines that the requirements of the variance do not represent the highest attainable condition, then the Director shall modify or repeal the variance in its triennial review rulemaking.

L. If the variance is modified by rulemaking, the requirements of the variance shall represent the highest attainable condition at the time of initial adoption of the variance, or the highest attainable condition identified during the current reevaluation, whichever is more stringent.

M. Upon expiration of a variance, point source dischargers shall comply with the water quality standard.

N. The following are discharger-specific variances adopted by the Director:

O. The following are water body and waterbody segment-specific variances adopted by the Director:

Historical Note

Adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-123. Discharge Prohibitions

A. The discharge of wastewater to the following surface waters is prohibited:
1. Sabino Canyon Creek;
2. Vekol Wash, upstream of the Ak-Chin Indian Reservation; and
3. Smith Wash, upstream of the Ak-Chin Indian Reservation.

B. The discharge to Lake Powell of human body wastes and the wastes from toilets and other receptacles intended to receive or retain wastes from a vessel is prohibited.

Historical Note

Adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

Footnotes

a. The asbestos standard is 7 million fibers (longer than 10 micrometers) per liter.
b. The aldrin/dieldrin standard is exceeded when the sum of the two compounds exceeds 0.003 µg/L.
c. In lakes, the acute criteria for hydrogen sulfide apply only to water samples taken from the epilimnion, or the upper layer of a lake or reservoir.
d. Hardness, expressed as mg/L $CaCO_3$, is determined according to the following criteria:
   i. If the receiving water body has an A&Wc or A&Ww designated use, then hardness is based on the hardness of the receiving water body from a sample taken at the same time that the sample for the metal is taken, except that the hardness may not exceed 400 mg/L $CaCO_3$.
   ii. If the receiving water has an A&Wedw or A&We designated use, then the hardness is based on the hardness of the effluent from a sample taken at the same time that the sample for the metal is taken, except that the hardness may not exceed 400 mg/L $CaCO_3$.
   iii. The mathematical equations for the hardness-dependent parameter represent the water quality standards. Examples of criteria for the hardness-dependent parameters have been calculated and are presented in separate tables at the end of Appendix A for the convenience of the user.
e. pH is determined according to the following criteria:
   i. If the receiving water has an A&Wc or A&Ww designated use, then pH is based on the pH of the receiving water body from a sample taken at the same time that the sample for pentachlorophenol or ammonia is taken.
   ii. If the receiving water body has an A&Wedw or A&We designated use, then the pH is based on the pH of the effluent from a sample taken at the same time that the sample for pentachlorophenol or ammonia is taken.
   iii. The mathematical equations for ammonia represent the water quality standards. Examples of criteria for ammonia have been calculated and are presented in separate tables at the end of Appendix A for the convenience of the user.
f. Table 1 abbreviations.
   i. µg/L = micrograms per liter,
   ii. mg/kg = milligrams per kilogram,
   iii. pCi/L = picocuries per liter,
   iv. D = dissolved,
   v. T = total recoverable,
   vi. TTHM indicates that the chemical is a trihalomethane.
g. The total trihalomethane (TTHM) standard is exceeded when the sum of these four compounds exceeds 80 µg/L, as a rolling annual average.
h. The concentration of gross alpha particle activity includes radium-226, but excludes radon and uranium.
i. The average annual concentration of beta particle activity and photon emitters from manmade radionuclides shall not produce an annual dose equivalent to the total body or any internal organ greater than four millirems per year.
j. The mathematical equations for the pH-dependent parameters represent the water quality standards. Examples of criteria for the pH-dependent parameters have been calculated and are presented in separate tables at the end of Appendix A for the convenience of the user.
k. Abbreviations for the mathematical equations are as follows:
   e = the base of the natural logarithm and is a mathematical constant equal to 2.71828
   LN = is the natural logarithm
   CMC = Criterion Maximum Concentration (acute)
   CCC= Criterion Continuous Concentration (chronic)

Table 17. Chronic Criteria for Total Ammonia (in mg/L, as N) for Aquatic and Wildlife coldwater, Unionid Mussels Absent

For the aquatic and wildlife coldwater uses, unionids will be assumed to be present unless a study is performed demonstrating that they are absent and there is no historic evidence of their presence, or hydrologic modification has altered the flow regime in a way that would prevent their reestablishment.

Table 26. Renumbered

Historical Note

Appendix A, Table 26 renumbered from Table 25 and amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Appendix A, Table 26 renumbered to Table 12 by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

Appendix B. Surface Waters and Designated Uses

(Coordinates are from the North American Datum of 1983 (NAD83). All latitudes in Arizona are north and all longitudes are west, but the negative signs are not included in the Appendix B table. Some web-based mapping systems require a negative sign before the longitude values to indicate it is a west longitude.)

Watersheds:

BW = Bill Williams
CG = Colorado – Grand Canyon
CL = Colorado – Lower Gila
LC = Little Colorado
MG = Middle Gila
SC = Santa Cruz – Rio Magdelena – Rio Sonoyta
SP = San Pedro – Willcox Playa – Rio Yaqui
SR = Salt River
UG = Upper Gila
VR = Verde River

Other Abbreviations:

WWTP = Wastewater Treatment Plant
Km = kilometers

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Appendix B repealed, new Appendix B adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4). Appendix B amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3). Appendix B amended by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

Appendix C. Site-Specific Standards

Watershed	Surface Water	Surface Water Description & Location	Parameter	Site-Specific Criterion
LC	Rio de Flag (EDW)	Flagstaff WWTP outfall to the confluence with San Francisco Wash	Copper (D)	36 µg/L (A&Wedw)
CL	Yuma East Wetlands	From inlet culvert from Colorado River into restored channel to Ocean Bridge	Selenium (T)	2.2 µg/L (A&Ww chronic)
			Total residual chlorine	33 µg/L (A&Ww acute)
				20 µg/L (A&Ww chronic)
SR	Pinto Creek	From confluence of Ellis Ranch tributary at 33°19'26.7"/110°54'57.5" to the confluence of West Fork of Pinto Creek at 33°27'32.3"/ 111°00'19.7"	Copper (D)	34 µg/L (A&Ww acute for hardness values below 268 mg/L)
				34 µg/L (A&Ww chronic)

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Appendix C repealed effective April 24, 1996 (Supp. 96-2). New Appendix C made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4). Appendix C amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

ARTICLE 2. WATER QUALITY STANDARDS FOR NON-WOTUS PROTECTED SURFACE WATERS

R18-11-201. Definitions

The following terms apply to this Article:

1. "Acute toxicity" means toxicity involving a stimulus severe enough to induce a rapid response. In aquatic toxicity tests, an effect observed in 96 hours or less is considered acute.
2. "Agricultural irrigation AZ (AgI AZ)" means the use of a non-WOTUS protected surface water for crop irrigation.
3. "Agricultural livestock watering AZ (AgL AZ)" means the use of a non-WOTUS protected surface water as a water supply for consumption by livestock.
4. "Aquatic and wildlife AZ (cold water) (A&Wc AZ)" means the use of a non-WOTUS protected surface water by animals, plants, or other cold-water organisms, generally occurring at an elevation greater than 5000 feet, for habitation, growth, or propagation.
5. "Aquatic and wildlife AZ (warm water) (A&Ww AZ)" means the use of a non-WOTUS protected surface water by animals, plants, or other warm-water organisms, generally occurring at an elevation less than 5000 feet, for habitation, growth, or propagation.
6. "Assimilative capacity" means the difference between the baseline water quality concentration for a pollutant and the most stringent applicable water quality criterion for that pollutant.
7. "Complete Mixing" means the location at which concentration of a pollutant across a transect of a surface water differs by less than five percent.
8. "Criteria" means elements of water quality standards expressed as pollutant concentrations, levels, or narrative statements representing a water quality that supports a designated use.
9. "Critical flow conditions of the discharge" means the hydrologically based discharge flow averages that the director uses to calculate and implement applicable water quality criteria to a mixing zone's receiving water as follows:
   a. For acute aquatic water quality standard criteria, the discharge flow critical condition is represented by the maximum one-day average flow analyzed over a reasonably representative timeframe.
   b. For chronic aquatic water quality standard criteria, the discharge flow critical flow condition is represented by the maximum monthly average flow analyzed over a reasonably representative timeframe.
   c. For human health-based water quality standard criteria, the discharge flow critical condition is the long-term arithmetic mean flow, averaged over several years so as to simulate long-term exposure.
10. "Critical flow conditions of the receiving water" means the hydrologically based receiving water low flow averages that the director uses to calculate and implement applicable water quality criteria:
    a. For acute aquatic water quality standard criteria, the receiving water critical condition is represented as the lowest one-day average flow event expected to occur once every ten years, on average (1Q10).
    b. For chronic aquatic water quality standard criteria, the receiving water critical flow condition is represented as the lowest seven-consecutive-day average flow expected to occur once every 10 years, on average (7Q10), or
    c. For human health-based water quality standard criteria, in order to simulate long-term exposure, the

receiving water critical flow condition is the harmonic mean flow.

11. "Designated use" means a use specified on the Protected Surface Waters List for a non-WOTUS protected surface water.
12. "Domestic water source AZ (DWS AZ)" means the use of a non-WOTUS protected surface water as a source of potable water. Treatment of a surface water may be necessary to yield a finished water suitable for human consumption.
13. "Fish consumption AZ (FC AZ)" means the use of a non-WOTUS protected surface water by humans for harvesting aquatic organisms for consumption. Harvestable aquatic organisms include, but are not limited to, fish, clams, turtles, crayfish, and frogs.
14. "Full-body contact AZ (FBC AZ)" means the use of a non-WOTUS protected surface water for swimming or other recreational activity that causes the human body to come into direct contact with the water to the point of complete submergence. The use is such that ingestion of the water is likely, and sensitive body organs, such as the eyes, ears, or nose, may be exposed to direct contact with the water.
15. "Geometric mean" means the nth root of the product of n items or values. The geometric mean is calculated using the following formula:

$$GM_y = \sqrt[n]{(Y_1)(Y_2)(Y_3)(Y_n)}$$

16. "Hardness" means the sum of the calcium and magnesium concentrations, expressed as calcium carbonate (CaCO3) in milligrams per liter.
17. "Mixing zone" means an area or volume of a surface water that is contiguous to a point source discharge where dilution of the discharge takes place.
18. "Non-WOTUS protected surface water" means a protected surface water designated in Table A of R18-11-216 or added to the PSWL by an emergency action authorized by A.R.S. § 49-221(G)(7) that is not a WOTUS.
19. "Oil" means petroleum in any form, including crude oil, gasoline, fuel oil, diesel oil, lubricating oil, or sludge.
20. "Partial-body contact AZ (PBC AZ)" means the recreational use of a non-WOTUS protected surface water that may cause the human body to come into direct contact with the water, but normally not to the point of complete submergence (for example, wading or boating). The use is such that ingestion of the water is not likely and, sensitive body organs, such as the eyes, ears, or nose, will not normally be exposed to direct contact with the water.
21. "Pollutant" means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and mining, industrial, municipal, and agricultural wastes or any other liquid, solid, gaseous, or hazardous substance.
22. "Practical quantitation limit" means the lowest level of quantitative measurement that can be reliably achieved during a routine laboratory operation.
23. "Recharge Project" means a facility necessary or convenient to obtain, divert, withdraw, transport, exchange, deliver, treat, or store water to infiltrate or reintroduce that water into the ground.
24. "Toxic" means a pollutant or combination of pollutants, that after discharge and upon exposure, ingestion, inhalation, or assimilation into an organism, either directly from the environment or indirectly by ingestion through food chains, may cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction), or physical deformations in the organism or its offspring.
25. "Urban lake" means a manmade lake within an urban landscape.
26. "Wastewater" does not mean:
    a. Stormwater,
    b. Discharges authorized under the De Minimus General Permit,
    c. Other allowable non-stormwater discharges permitted under the Construction General Permit or the Multi-sector General Permit, or
    d. Stormwater discharges from a municipal storm sewer system (MS4) containing incidental amounts of non-stormwater that the MS4 is not required to prohibit.
27. "Wetland" means, for the purposes of non-WOTUS protected surface waters, an area that is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions.
28. "WOTUS" means waters of the state that are also navigable waters as defined by Section 502(7) of the Clean Water Act.
29. "WOTUS protected surface water" means a protected surface water that is a WOTUS.
30. "Zone of initial dilution" means a small area in the immediate vicinity of an outfall structure in which turbulence is high and causes rapid mixing with the surrounding water.

Historical Note

Amended effective January 29, 1980 (Supp. 80-1). Amended subsection A. effective April 17, 1984 (Supp. 84-2). Former Section R9-21-201 repealed, former Section R9-21-203 renumbered as Section R9-21-201 and amended effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Former Section R9-21-201 renumbered without change as Section R18-11-201 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-202. Applicability

A. The water quality standards prescribed in this Article apply to non-WOTUS protected surface waters.

B. The water quality standards prescribed in this Article do not apply to the following:
1. A waste treatment system, including an impoundment, pond, lagoon, or constructed wetland that is part of the waste treatment system;
2. A man-made surface impoundment and any associated ditch and conveyance used in the extraction, beneficiation, or processing of metallic ores including:
    a. A pit,
    b. Pregnant leach solution pond

c. Raffinate pond,
d. Tailing impoundment,
e. Decant pond,
f. Pond of sump in a mine put associated with dewatering activity,
g. Pond holding water that has come into contact with a process or product that is being held for recycling,
h. Spill or catchment pond, or
i. A pond used for onsite remediation

3. A man-made cooling pond that is neither created in a surface water nor results from the impoundment of a surface water; or
4. A surface water located on tribal lands.
5. WOTUS Protected Surface Waters.

Historical Note

Former Section R9-21-202 repealed, former Section R9-21-102 renumbered as Section R9-21-202 and amended effective January 7, 1985 (Supp. 85-1). Amended subsections (B), (D), and (E) effective August 12, 1986 (Supp. 86-4). Former Section R9-21-202 renumbered without change as Section R18-11-202 (Supp. 87-3). Section repealed, new Section adopted effective February 18, 1992 (Supp. 92-1). Section repealed effective April 24, 1996 (Supp. 96-2). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-203. Designated Uses for Non-WOTUS Protected Surface Waters

A. The designated uses for specific non-WOTUS protected surface waters are listed in the Protected Surface Waters List in this article. The designated uses that may be assigned to a non-WOTUS protected surface water are:
1. Full-body contact AZ,
2. Partial-body contact AZ,
3. Domestic water source AZ,
4. Fish consumption AZ,
5. Aquatic and wildlife AZ (cold water),
6. Aquatic and wildlife AZ (warm water),
7. Agricultural irrigation AZ, and
8. Agricultural livestock watering AZ.

B. Numeric water quality criteria to maintain and protect water quality for the designated uses assigned to non-WOTUS protected surface waters are prescribed in R18-11-215. Narrative water quality standards to protect non-WOTUS protected surface waters are prescribed in R18-11-214.

C. If a non-WOTUS protected surface water has more than one designated use listed in the Protected Surface Waters List, the most stringent water quality criterion applies.

D. The Director shall revise the designated uses of a non-WOTUS protected surface water if water quality improvements result in a level of water quality that permits a use that is not currently listed as a designated use in the Protected Surface Waters List.

E. The Director may remove a designated use or adopt a subcategory of a designated use that requires less stringent water quality criteria through a rulemaking action for any of the following reasons:
1. A naturally-occurring pollutant concentration prevents the attainment of the use;
2. A human-caused condition or source of pollution prevents the attainment of the use and cannot be remedied or would cause more environmental damage to correct than to leave in place;
3. A dam, diversion, or other type of hydrologic modification precludes the attainment of the use, and it is not feasible to restore the non-WOTUS protected surface water to its original condition or to operate the modification in a way that would result in attainment of the use;
4. A physical condition related to the natural features of the surface water, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, precludes attainment of an aquatic life designated use.

Historical Note

Amended effective January 29, 1980 (Supp. 80-1). Amended subsection (B) by adding paragraphs (27) and (28) effective October 14, 1981 (Supp. 81-5). Former Section R9-21-203 renumbered as Section R9-21-201, former Section R9-21-204 renumbered as Section R9-21-203 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-203 renumbered and amended as Section R9-21-204, new Section R9-21-203 adopted effective August 12, 1986 (Supp. 86-4). Former Section R9-21-203 renumbered without change as Section R18-11-203 (Supp. 87-3). Amended subsection (B) effective December 1, 1988 (Supp. 88-4). Section repealed, new Section adopted effective February 18, 1992 (Supp. 92-1). Section repealed effective April 24, 1996 (Supp. 96-2). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-204. Interim, Presumptive Designated Uses

The following water quality standards apply to a non-WOTUS protected surface water that is not listed on the Protected Surface Waters List but is added on an emergency basis pursuant to A.R.S. § 49-221(G)(7):
1. The aquatic and wildlife AZ (cold water use applies to a non-WOTUS protected surface water above 5000 feet in elevation;
2. The aquatic and wildlife AZ (warm water) applies to a non-WOTUS protected surface water below 5000 feet in elevation;
3. The full-body contact AZ use applies to a non-WOTUS protected surface water if the Director makes a determination that the non-WOTUS protected surface water is used by humans for swimming or other recreational activity that causes the human body to come into direct contact with the water to the point of complete submergence. The use is such that ingestion of the water is likely and sensitive body organs, such as the eyes, ears, or nose, may be exposed to direct contact with the water.
4. The partial-body contact AZ use applies to a non-WOTUS protected surface water if the Director makes a determination that the non-WOTUS protected surface water is used by humans in a way that may cause the human body to come into direct contact with the water, but normally not to the point of complete submergence (for example, wading or boating). The use is such that ingestion of the water is not likely and sensitive body organs, such as the eyes, ears, or nose, will not normally be exposed to direct contact with the water.
5. The fish consumption AZ use applies to a non-WOTUS protected surface water if the Director makes a determination that the non-WOTUS protected surface water is used by humans for harvesting aquatic organisms for con-

sumption. Harvestable aquatic organisms include, but are not limited to, fish, clams, turtles, crayfish, and frogs.

6. The domestic water source AZ use applies to a non-WOTUS protected surface water if the Director makes a determination that the non-WOTUS protected surface water is used by humans as a source of potable water.
7. The agricultural irrigation AZ use applies to a non-WOTUS protected surface water if the Director makes a determination that the non-WOTUS protected surface water is used for crop irrigation.
8. The agricultural livestock watering AZ use applies to any non-WOTUS protected surface water if the Director makes a determination that the non-WOTUS protected surface water is used as a water supply for consumption by livestock.

Historical Note

Former Section R9-21-204 renumbered and amended as Section R9-21-207, former Section R9-21-206 renumbered and amended as Section R9-21-204 effective January 29, 1980 (Supp. 80-1). Former Section R9-21-204 renumbered as Section R9-21-203, former Section R9-21-205 renumbered as Section R9-21-204 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-204 renumbered and amended as Section R9-21-205, former Section R9-21-203 renumbered and amended as Section R9-21-204 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-204 renumbered without change as Section R18-11-204 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-205. Analytical Methods

A. A person conducting an analysis of a sample taken to determine compliance with a water quality standard shall use an analytical method prescribed in A.A.C. R9-14-610 or an alternative method approved under A.A.C. R9-14-610(C).

B. A test result from a sample taken to determine compliance with a water quality standard is valid only if the sample is analyzed by a laboratory that is licensed by the Arizona Department of Health Services, an out-of-state laboratory licensed under A.R.S. § 36-495.14, or a laboratory exempted under A.R.S. § 36-495.02, for the analysis performed.

Historical Note

Former Section R9-21-205 repealed, new Section R9-21-205 adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-205 renumbered as Section R9-21-204, former Section R9-21-206 renumbered as Section R9-21-205 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-205 renumbered and amended as Section R9-21-206, former Section R9-21-204 renumbered and amended as Section R9-21-205 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-205 renumbered without change as Section R18-11-205 (Supp. 87-3). Section repealed, new Section adopted effective February 18, 1992 (Supp. 92-1). Section repealed April 24, 1996 (Supp. 96-2). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-206. Mixing Zones

A. The Director may establish a mixing zone for a point source discharge to a non-WOTUS protected surface water as a condition of an individual AZPDES permit on a pollutant-by-pollutant basis. A mixing zone is prohibited where there is no water for dilution, or as prohibited pursuant to subsection (H).

B. The owner or operator of a point source seeking the establishment of a mixing zone shall submit a request to the Director for a mixing zone as part of an application for an AZPDES permit. The request shall include:

1. An identification of the pollutant for which the mixing zone is requested;
2. A proposed outfall design;
3. A definition of the boundary of the proposed mixing zone. For purposes of this subsection, the boundary of a mixing zone is where complete mixing occurs; and
4. A complete and detailed description of the existing physical, biological, and chemical conditions of the receiving water and the predicted impact of the proposed mixing zone on those conditions. The description shall also address the factors listed in subsection (D) that the Director must consider when deciding to grant or deny a request and shall address the mixing zone requirements in subsection (H).

C. The Director shall consider the following factors when deciding whether to grant or deny a request for a mixing zone:

1. The assimilative capacity of the receiving water;
2. The likelihood of adverse human health effects;
3. The location of drinking water plant intakes and public swimming areas;
4. The predicted exposure of biota and the likelihood that resident biota will be adversely affected;
5. Bioaccumulation;
6. Whether there will be acute toxicity in the mixing zone, and, if so, the size of the zone of initial dilution;
7. The known or predicted safe exposure levels for the pollutant for which the mixing zone is requested;
8. The size of the mixing zone;
9. The location of the mixing zone relative to biologically sensitive areas in the surface water;
10. The concentration gradient of the pollutant within the mixing zone;
11. Sediment deposition;
12. The potential for attracting aquatic life to the mixing zone; and
13. The cumulative impacts of other mixing zones and other discharges to the surface water.

D. Director determination.

1. The Director shall deny a request to establish a mixing zone if an applicable water quality standard will be violated outside the boundaries of the proposed mixing zone.
2. If the Director approves the request to establish a mixing zone, the Director shall establish the mixing zone as a condition of an AZPDES permit. The Director shall include any mixing zone condition in the AZPDES permit that is necessary to protect human health and the designated uses of the surface water.

E. Any person who is adversely affected by the Director's decision to grant or deny a request for a mixing zone may appeal the decision under A.R.S. § 49-321 et seq. and A.R.S. § 41-1092 et seq.

F. The Director shall reevaluate a mixing zone upon issuance, reissuance, or modification of the AZPDES permit for the point source or a modification of the outfall structure.

G. Mixing zone requirements.
1. A mixing zone shall be as small as practicable in that it shall not extend beyond the point in the waterbody at which complete mixing occurs under the critical flow conditions of the discharge and of the receiving water.
2. The total horizontal area allocated to all mixing zones on a lake shall not exceed 10 percent of the surface area of the lake.
3. Adjacent mixing zones in a lake shall not overlap or be located closer together than the greatest horizontal dimension of the largest mixing zone.
4. The design of any discharge outfall shall maximize initial dilution of the wastewater in a surface water.
5. The size of the zone of initial dilution in a mixing zone shall prevent lethality to organisms passing through the zone of initial dilution. The mixing zone shall prevent acute toxicity and lethality to organisms passing through the mixing zone.

H. The Director shall not establish a mixing zone in an AZPDES permit for the following persistent, bioaccumulative pollutants:
1. Chlordane,
2. DDT and its metabolites (DDD and DDE),
3. Dieldrin,
4. Dioxin,
5. Endrin,
6. Endrin aldehyde,
7. Heptachlor,
8. Heptachlor epoxide,
9. Lindane,
10. Mercury,
11. Polychlorinated biphenyls (PCBs), and
12. Toxaphene.

Historical Note

Former Section R9-21-206 renumbered and amended as Section R9-21-204, new Section R9-21-206 adopted effective January 29, 1980 (Supp. 80-1). Amended by adding subsection (B) effective October 14, 1981 (Supp. 81-5). Amended subsection (B) and Table 1 effective January 29, 1982 (Supp. 82-1). Amended subsection (B) and Table 1 effective August 13, 1982 (Supp. 82-4). Former Section R9-21-206 renumbered as Section R9-21-205, former Section R9-21-207 renumbered as Section R9-21-206 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-206 renumbered and amended as Section R9-21-207, former Section R9-21-205 renumbered and amended as R9-21-206 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-206 renumbered without change as Section R18-11-206 (Supp. 87-3). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-207. Natural Background

Where the concentration of a pollutant exceeds a water quality standard and the exceedance is caused solely by naturally occurring conditions, the exceedance shall not be considered a violation of the water quality standard.

Historical Note

Former Section R9-21-207 repealed, former Section R9-21-204 renumbered and amended as Section R9-21-207 effective January 29, 1980 (Supp. 80-1). Former Section R9-21-207 renumbered as Section R9-21-206, former Section R9-21-208 renumbered as Section R9-21-207 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-207 renumbered without change as Section R9-21-208, former Section R9-21-206 renumbered and amended as Section R9-21-207 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-207 renumbered without change as Section R18-11-207 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-208. Schedules of Compliance

A compliance schedule in an AZPDES permit shall require the permittee to comply with a discharge limitation based upon a new or revised water quality standard as soon as possible to achieve compliance. The permittee shall demonstrate that the point source cannot comply with a discharge limitation based upon the new or revised water quality standard through the application of existing water pollution control technology, operational changes, or source reduction. In establishing a compliance schedule, the Director shall consider:
1. How much time the permittee has already had to meet any effluent limitations under a prior permit;
2. The extent to which the permittee has made good faith efforts to comply with the effluent limitations and other requirements in a prior permit;
3. Whether treatment facilities, operations, or measures must be modified to meet the effluent limitations;
4. How long any necessary modifications would take to implement; and
5. Whether the permittee would be expected to use the same treatment facilities, operations or other measures to meet the effluent limitations as it would have used to meet the effluent limitations in a prior permit.

Historical Note

Former Section R9-21-208 repealed, new Section R9-21-208 adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-208 renumbered as Section R9-21-207, Appendices 1 through 9 amended as Appendix A (now shown following R9-21-213), former Section R9-21-209 renumbered as R9-21-208 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-208 renumbered and amended as Section R9-21-209, former Section R9-21-207 renumbered without change as Section R9-21-208 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-208 renumbered without change as Section R18-11-208 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-209. Variances

A. Upon request, the Director may establish, by rule, a discharger-specific or water segment-specific or water segments-specific variance from a water quality standard if requirements pursuant to this Section are met.

B. A person who requests a variance must demonstrate all of the following information:
1. Identification of the specific pollutant and water quality standard for which a variance is sought.
2. Identification of the receiving surface water segment or segments to which the variance would apply.
3. A detailed discussion of the need for the variance, including the reasons why compliance with the water quality

standard cannot be achieved over the term of the proposed variance, and any other useful information or analysis to evaluate attainability.

4. A detailed description of proposed interim discharge limitations and pollutant control activities that represent the highest level of treatment achievable by a point source discharger or dischargers during the term of the variance.
5. Documentation that the proposed term is only as long as necessary to achieve compliance with applicable water quality standards.
6. Documentation that is appropriate to the type of designated use to which the variance would apply as follows. For a water quality standard variance documentation must include a demonstration of at least one of the following factors that preclude attainment of the use during the term of the variance:
   a. Naturally occurring pollutant concentrations prevent attainment of the use;
   b. Natural, ephemeral, intermittent or low flow conditions or water levels prevent the attainment of the use, unless these conditions may be compensated for by the discharge of sufficient volume of effluent discharges without violating state water conservation requirements to enable uses to be met;
   c. That human-caused conditions or sources of pollution prevent the attainment of the water quality standard for which the variance is sought and either (1) it is not possible to remedy the conditions or sources of pollution or (2) remedying the human-caused conditions would cause more environmental damage to correct than to leave in place;
   d. Dams, diversions or other types of hydrologic modifications preclude the attainment of the use, and it is not feasible to restore the water body to its original condition or to operate such modification n a way that would result in the attainment of the use;
   e. Physical conditions related to the natural features of the water body, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, preclude attainment of aquatic life protection uses;
   f. Actions necessary to facilitate lake, wetland, or stream restoration through dam removal or other significant reconfiguration activities preclude attainment of the designated use and criterion while the actions are being implemented.
7. For a waterbody segment-specific or segments-specific variance, the following information is required before the Director may issue a variance, in addition to all other required documentation pursuant to this Section:
   a. Identification and documentation of any cost-effective and reasonable best management practices for nonpoint source controls related to the pollutant or pollutants or water quality parameter or parameters and water body or waterbody segment or segments specified in the variance that could be implemented to make progress towards attaining the underlying designated use and criterion; and
   b. If any variance pursuant to subsection (B)(7)(a) previously applied to the water body or waterbody segment or segments, documentation must also demonstrate whether and to what extent best management practices for nonpoint source controls were implemented to address the pollutant or pollutants or water quality parameter or parameters subject to the water quality variance and the water quality progress achieved.
8. For a discharger-specific variance, the following information is required before the Director may issue a variance, in addition to all other required documentation pursuant to this Section: Identification of the permittee subject to the variance.

C. The Director shall consider the following factors when deciding whether to grant or deny a variance request:
1. Bioaccumulation,
2. The predicted exposure of biota and the likelihood that resident biota will be adversely affected,
3. The known or predicted safe exposure levels for the pollutant for which the variance is requested, and
4. The likelihood of adverse human health effects.

D. The variance shall represent the highest attainable condition of the water body or water body segment applicable throughout the term of the variance.

E. A variance shall not result in any lowering of the currently attained ambient water quality, unless the variance is necessary for restoration activities, consistent with subsection (B)(6)(a)(vi). The Director must specify the highest attainable condition of the water body or waterbody segment as a quantifiable expression of one of the following:
1. The highest attainable interim criterion,
2. The interim effluent condition that reflects the greatest pollutant reduction achievable.

F. A variance shall not modify the underlying designated use and criterion. A variance is only a time limited exception to the underlying standard. For discharge-specific variances, other point source dischargers to the surface water that are not granted a variance shall still meet all applicable water quality standards.

G. Point source discharges shall meet all other applicable water quality standards for which a variance is not granted.

H. The term of the water quality variance may only be as long as necessary to achieve the highest attainable condition and must be consistent with the supporting documentation in subsection (E).

I. The Director shall periodically, but not more than every five years, reevaluate whether each variance continues to represent the highest attainable condition. Comment on the variance shall be considered regarding whether the variance continues to represent the highest attainable condition during each rulemaking for this Article. If the Director determines that the requirements of the variance do not represent the highest attainable condition, then the Director shall modify or repeal the variance during the rulemaking.

J. If the variance is modified by rulemaking, the requirements of the variance shall represent the highest attainable condition at the time of initial adoption of the variance, or the highest attainable condition identified during the current reevaluation, whichever is more stringent.

K. Upon expiration of a variance, point source dischargers shall comply with the water quality standard.

Historical Note

Former Section R9-21-209 renumbered and amended as Section R9-21-210, new Section R9-21-209 adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-209 renumbered as Section R9-21-208, Tables I and II amended as Appendix B (now shown following R9-21-213 and Appendix A), former Section R9-21-210 renumbered as Section R9-21-209 and amended effective

January 7, 1985 (Supp. 85-1). Former Section R9-21-209 renumbered and amended as Section R9-21-210, former Section R9-21-208 renumbered and amended as Section R9-21-209 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-209 renumbered without change as Section R18-11-209 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-210. Site Specific Standards

A. The Director shall adopt a site-specific standard by rule.

B. The Director may adopt a site-specific standard based upon a request or upon the Director's initiative for any of the following reasons:

1. Local physical, chemical, or hydrological conditions of a non-WOTUS protected surface water such as pH, hardness, fate and transport, or temperature alters the biological availability or toxicity of a pollutant;
2. The sensitivity of resident aquatic organisms that occur in a non-WOTUS protected surface water to a pollutant differs from the sensitivity of the species used to derive the numeric water quality standards to protect aquatic life in R18-11-215;
3. Resident aquatic organisms that occur in a non-WOTUS protected surface water represent a narrower mix of species than those in the dataset used by ADEQ to derive numeric water quality standards to protect aquatic life in R18-11-215;
4. The natural background concentration of a pollutant is greater than the numeric water quality standard to protect aquatic life prescribed in R18-11-215. "Natural background" means the concentration of a pollutant in a non-WOTUS protected surface water due only to non-anthropogenic sources; or
5. Other factors or combination of factors that upon review by the Director warrant changing a numeric water quality standard for a non-WOTUS protected surface water.

C. Site-specific standard by request. To request that the Director adopt a site-specific standard, a person must conduct a study to support the development of a site-specific standard using a scientifically defensible procedure. Before conducting the study, a person shall submit a study outline to the Director for approval that contains the following elements:

1. Identifies the pollutant;
2. Describes the reach's boundaries;
3. Describes the hydrologic regime of the waterbody;
4. Describes the scientifically defensible procedure, which can include relevant aquatic life studies, ecological studies, laboratory tests, biological translators, fate and transport models, and risk analyses;
5. Describes and compares the taxonomic composition, distribution and density of the aquatic biota within the reach to a reference reach and describes the basis of any major taxonomic differences;
6. Describes the pollutant's effect on the affected species or appropriate surrogate species and on the other designated uses listed for the reach;
7. Demonstrates that all designated uses are protected; and
8. A person seeking to develop a site-specific standard based on natural background may use statistical or modeling approaches to determine natural background concentration.

Historical Note

Former Section R9-21-210 renumbered and amended as Section R9-21-211, former Section R9-21-209 renumbered and amended as Section R9-21-210 effective January 29, 1980 (Supp. 80-1). Amended subsection (A) effective April 17, 1984 (Supp. 84-2). Former Section R9-21-210 renumbered as Section R9-21-209, former Section R9-21-211 renumbered as Section R9-21-210 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-210 renumbered and amended as Section R9-21-211, former Section R9-21-209 renumbered and amended as Section R9-21-210 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-210 renumbered without change as Section R18-11-210 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-211. Enforcement of Non-permitted Discharges to Non-WOTUS Protected Surface Waters

A. The Department may establish a numeric water quality standard at a concentration that is below the practical quantitation limit. Therefore, in enforcement actions pursuant to subsection (B), the water quality standard is enforceable at the practical quantitation limit.

B. Except for chronic aquatic and wildlife criteria, for non-permitted discharge violations, the Department shall determine compliance with numeric water quality standard criteria from the analytical result of a single sample, unless additional samples are required under this article. For chronic aquatic and wildlife criteria, compliance for non-permitted discharge violations shall be determined from the geometric mean of the analytical results of the last four samples taken at least 24 hours apart. For the purposes of this Section, a "non-permitted discharge violation" does not include a discharge regulated under an AZPDES permit.

Historical Note

Former Section R9-21-210 renumbered and amended as Section R9-21-211 effective January 29, 1980 (Supp. 80-1). Amended subsections (D), (G) three (I), and added (J) effective October 14, 1981 (Supp. 81-5). Former Section R9-21-211 renumbered as Section R9-21-210, former Section R9-21-212 renumbered as Section R9-21-211 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-211 renumbered and amended as Section R9-21-212, former Section R9-21-210 renumbered and amended as Section R9-21-211 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-211 renumbered without change as Section R18-11-211 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-212. Statements of Intent and Limitations on the Reach of Article 2

A. Nothing in this Article prohibits fisheries management activities by the Arizona Game and Fish Department or the U.S. Fish and Wildlife Service. This Article does not exempt fish hatcheries from AZPDES permit requirements.

B. Nothing in this Article prevents the routine physical or mechanical maintenance of canals, drains, and the urban lakes identified as non-WOTUS protected surface waters on the Protected Surface Waters List. Physical or mechanical maintenance includes dewatering, lining, dredging, and the physical,

biological, or chemical control of weeds and algae. Increases in turbidity that result from physical or mechanical maintenance activities are permitted in canals, drains, and the urban lakes identified on the Protected Surface Waters List.

C. Increases in turbidity that result from the routine physical or mechanical maintenance of a dam or flood control structure are not violations of this Article.

D. Nothing in this Article requires the release of water from a dam or a flood control structure.

Historical Note

Adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-212 renumbered as Section R9-21-211, former Section R9-21-213 renumbered as Section R9-21-212 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-212 repealed, former Section R9-21-211 renumbered and amended as Section R9-21-212 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-212 renumbered without change as Section R18-11-212 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-213. Procedures for Determining Economic, Social, and Environmental Cost and Benefits

A. The Director shall perform an economic, social, and environmental cost and benefits analysis that shows the benefits outweigh the costs before conducting any of the following rulemaking actions:
1. Adopting a water quality standard that applies to non-WOTUS protected surface waters at a particular level or for a particular water category of non-WOTUS protected surface waters;
2. Adding a non-WOTUS protected surface water to the Protected Surface Waters List when the conditions of A.R.S. § 49-221(G)(4) apply; or
3. Removing a non-WOTUS protected surface water from the Protected Surface Waters List when the conditions of A.R.S. § 49-221(G)(6) apply.

B. The economic, social, and environmental cost and benefit analysis must include:
1. A justification of the valuation methodology used to quantify the costs or benefits of the rulemaking action;
2. A reference to any study relevant to the economic, social, and environmental cost and benefit analysis that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of the costs and benefits of the rulemaking action;
3. A description of any data on which an economic, social, and environmental cost and benefits analysis is based and an explanation of how the data was obtained and why the data is acceptable data.
4. A description of the probable impact of the rulemaking on any existing AZPDES permits that are impacted by the rulemaking action;
5. A description of the probable amount of additional AZPDES permits that will be required for known and ongoing point-source discharges after the rulemaking is completed that otherwise would not have been required if the Director did not undertake the rulemaking action; and
6. The administrative and other costs to ADEQ associated with the proposed rulemaking.

C. The Director shall publish a copy of the economic, social, and environmental cost and benefits analysis to the agency website prior to filing any rulemaking materials during any of the rulemaking actions listed in subsection (A) of this rule.

D. If for any reason enough data is not reasonably available to comply with the requirements of subsection (B) of this section, the agency shall explain the limitations of the data and the methods that were employed in the attempt to obtain the data and shall characterize the probable impacts in qualitative terms.

E. The Director is not required to prepare the economic, social, and environmental cost and benefits analysis required by this rule when:
1. Adding or removing a WOTUS-protected surface water from the Protected Surface Waters List; or
2. Adding a water to the Protected Surface Waters List on an emergency basis pursuant to A.R.S. § 49-221(G)(7).

Historical Note

Adopted effective January 29, 1980 (Supp. 80-1). Amended effective April 17, 1984 (Supp. 84-2). Former Section R9-21-213 renumbered as Section R9-21-212, former Section R9-21-103 renumbered as Section R9-21-213 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-213 renumbered without change as Section R9-21-214, new Section R9-21-213 adopted effective August 12, 1986 (Supp. 86-4). Former Section R9-21-213 renumbered without change as Section R18-11-213 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-214. Narrative Water Quality Standards for Non-WOTUS Protected Surface Waters

A. A non-WOTUS protected surface water shall not contain pollutants in amounts or combinations that:
1. Settle to form bottom deposits that inhibit or prohibit the habitation, growth, or propagation of aquatic life;
2. Cause objectionable odor in the area in which the non-WOTUS protected surface water is located;
3. Cause off-taste or odor in drinking water;
4. Cause off-flavor in aquatic organisms;
5. Are toxic to humans, animals, plants, or other organisms;
6. Cause the growth of algae or aquatic plants that inhibit or prohibit the habitation, growth, or propagation of other aquatic life or that impair recreational uses;
7. Cause or contribute to a violation of an aquifer water quality standard prescribed in R18-11-405 or R18-11-406; or
8. Change the color of the non-WOTUS protected surface water from natural background levels of color.

B. A non-WOTUS protected surface water shall not contain oil, grease, or any other pollutant that floats as debris, foam, or scum; or that causes a film or iridescent appearance on the surface of the water; or that causes a deposit on a shoreline, bank, or aquatic vegetation. The discharge of lubricating oil or gasoline associated with the normal operation of a recreational watercraft is not a violation of this narrative standard

C. A non-WOTUS protected surface water shall not contain a discharge of suspended solids in quantities or concentrations that interfere with the treatment processes at the nearest downstream potable water treatment plant or substantially increase the cost of handling solids produced at the nearest downstream potable water treatment plant.

Historical Note

Former Section R9-21-213 renumbered without change as Section R9-21-214 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-214 renumbered without change as Section R18-11-214 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

R18-11-215. Numeric Water Quality Standards for Non-WOTUS Protected Surface Waters

A. *E. coli bacteria*. The following water quality standards for *Escherichia coli (E. coli)* are expressed in colony-forming units per 100 milliliters of water (cfu / 100 ml) or as a Most Probable Number (MPN):

E. coli	**FBC AZ**	**PBC AZ**
Geometric mean (minimum of four samples in 30 days)	126	126
Statistical threshold value	410	576

B. pH. The following water quality standards for non-WOTUS protected surface waters pH are expressed in standard units:

pH	**DWS AZ**	**FBC AZ, PBC AZ, A&Ww AZ, A&Wc AZ**	**AgI AZ**	**AgL AZ**
Maximum	9.0	9.0	9.0	9.0
Minimum	5.0	6.5	4.5	6.5

C. The maximum allowable increase in ambient water temperature, due to a thermal discharge is as follows:

A&Ww AZ	**A&Wc AZ**
3.0° C	1.0° C

D. Suspended sediment concentration.

1. The following water quality standards for suspended sediment concentration, expressed in milligrams per liter (mg/L), are expressed as a median value determined from a minimum of four samples collected at least seven days apart:
2. The Director shall not use the results of a suspended sediment concentration sample collected during or within 48 hours after a local storm event to determine the median value.

A&Wc AZ	**A&Ww AZ**
25	80

E. Dissolved oxygen. A non-WOTUS protected surface water meets the water quality standard for dissolved oxygen when either:

1. The percent saturation of dissolved oxygen is equal to or greater than 90 percent, or
2. The single sample minimum concentration for the designated use, as expressed in milligrams per liter (mg/L) is as follows:

Designated Use	**Single sample minimum concentration in mg/L**
A&Ww AZ	6.0
A&Wc AZ	7.0

The single sample minimum concentration is the same for the designated use in a lake, but the sample must be taken from a depth no greater than one meter.

F. Tables 1 through 17 prescribe water quality criteria for individual pollutants by designated use.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

Table 11. Acute Standards for Total Ammonia (in mg/L, as N) for Aquatic and Wildlife Coldwater AZ, Unionid Mussels Present

For the Aquatic and Wildlife Coldwater AZ uses, unionids will be assumed to be present unless a study is performed demonstrating that they are absent and there is no historic evidence of their presence, or hydrologic modification has altered the flow regime in a way that would prevent their reestablishment.

Table 15. Acute Standards for Total Ammonia (in mg/L, as N) for Aquatic and Wildlife Warmwater AZ Uses, Unionid Mussels Absent

For the Aquatic and Wildlife Warmwater uses, unionids will be assumed to be present unless a study is performed demonstrating that they are absent and there is no historic evidence of their presence, or hydrologic modification has altered the flow regime in a way that would prevent their reestablishment. For the aquatic and wildlife effluent dependent uses, unionids will be assumed to be absent.

Historical Note

Table A made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

Table B. WOTUS Protected Surface Waters

The waters listed in this table have been tentatively identified by ADEQ as WOTUS, under the law governing on 8/26/2022. Notwithstanding its inclusion on the list below, the status of a particular water in this table can be contested by a person in an enforcement or permit proceeding, a challenge to an identification as an impaired water, or a challenge to a proposed TMDL for an impaired water. Any changes to Table B will be made through formal rulemaking.

The waters on this list have their designated uses assigned by Title 18, Chapter 11, Article 1. Coordinates are from the North American Datum of 1983 (NAD83). All latitudes in Arizona are north and all longitudes are west, but the negative signs are not included in the WOTUS Protected Surface Waters Table. Some web-based mapping systems require a negative sign before the longitude values to indicate it is a west longitude.

Watersheds:

BW = Bill Williams
CG = Colorado – Grand Canyon
CL = Colorado – Lower Gila
LC = Little Colorado
MG = Middle Gila
SC = Santa Cruz – Rio Magdelena – Rio Sonoyta
SP = San Pedro – Willcox Playa – Rio Yaqui
SR = Salt River
UG = Upper Gila
VR = Verde River

Other Abbreviations:

WWTP = Wastewater Treatment Plant
Km = kilometers

Watershed	Surface Water	Segment Description and Location (Latitude and Longitudes are in NAD 83)
BW	Big Sandy River	Headwaters to Alamo Lake
BW	Boulder Creek	Below confluence with unnamed tributary to confluence with Burro Creek
BW	Burro Creek	Below confluence with Boulder Creek to confluence with Big Sandy River
BW	Burro Creek (OAW)	Headwaters to confluence with Boulder Creek
BW	Francis Creek (OAW)	Headwaters to confluence with Burro Creek
BW	Kirkland Creek	Headwaters to confluence with Santa Maria River
BW	Trout Creek	Below confluence with unnamed tributary to confluence with Knight Creek
CG	Beaver Dam Wash	Headwaters to confluence with the Virgin River
CG	Bright Angel Creek	Headwaters to confluence with Roaring Springs Creek
CG	Bright Angel Creek	Below Roaring Spring Springs Creek to confluence with Colorado River
CG	Colorado River	Lake Powell to Lake Mead
CG	Crystal Creek	Below confluence with unnamed tributary to confluence with Colorado River
CG	Deer Creek	Below confluence with unnamed tributary to confluence with Colorado River
CG	Garden Creek	Headwaters to confluence with Pipe Creek
CG	Havasu Creek	From the Havasupai Indian Reservation boundary to confluence with the Colorado River
CG	Hermit Creek	Below Hermit Pack Trail crossing to confluence with the Colorado River
CG	Kanab Creek	Headwaters to confluence with the Colorado River
CG	Lake Mead	36°06'18"/114°26'33"
CG	Lake Powell	36°59'53"/111°08'17"
CG	Nankoweap Creek	Below confluence with unnamed tributary to confluence with Colorado River
CG	Paria River	Utah border to confluence with the Colorado River
CG	Phantom Creek	Below confluence with unnamed tributary to confluence with Bright Angel Creek
CG	Pipe Creek	Headwaters to confluence with the Colorado River
CG	Shinumo Creek	Below confluence with unnamed tributary to confluence with the Colorado River
CG	Short Creek	Headwaters to confluence with Fort Pearce Wash
CG	Tapeats Creek	Headwaters to confluence with the Colorado River
CG	Thunder River	Headwaters to confluence with Tapeats Creek
CG	Vasey's Paradise	A spring at 36°29'52"/111°51'26"
CG	Virgin River	Headwaters to confluence with the Colorado River
CG	White Creek	Headwaters to confluence with unnamed tributary at 36°18'45"/112°21'03"
CG	White Creek	Below confluence with unnamed tributary to confluence with the Colorado River
CL	A10 Backwater	33°31'45"/114°33'19"

LC	Lily Creek	Headwaters to confluence with Coyote Creek
LC	Little Colorado River	Headwaters to Lyman Reservoir
LC	Little Colorado River	Below Lyman Reservoir to confluence with the Puerco River
LC	Little Colorado River	Below Puerco River confluence to the Colorado River, excluding segments on Native American Lands
LC	Little Colorado River, East Fork	Headwaters to confluence with the Little Colorado River
LC	Little Colorado River, South Fork	Headwaters to confluence with the Little Colorado River
LC	Little Colorado River, West Fork	Below Government Springs to confluence with the Little Colorado River
LC	Lyman Reservoir	34°21'21"/109°21'35"
LC	Mamie Creek	Headwaters to confluence with Coyote Creek
LC	Morrison Creek	Headwaters to Mamie Creek @ 33°59'24.45"/109°03'51.94
LC	Nutrioso Creek	Headwaters to confluence with the Little Colorado River
LC	Porter Creek	Headwaters to confluence with Show Low Creek
LC	Riggs Creek	Headwaters to Nutrioso Creek
LC	Rio de Flag	Headwaters to City of Flagstaff WWTP outfall at 35°12'21"/111°39'17"
LC	Rudd Creek	Headwaters to confluence with Nutrioso Creek
LC	Rosey Creek	Headwaters to 34°02'28.72"/109°27'24.3"
LC	Scott Reservoir	34°10'31"/109°57'31"
LC	Show Low Creek	Headwaters to confluence with Silver Creek
LC	Show Low Lake	34°11'36"/110°00'12"
LC	Silver Creek	Headwaters to confluence with the Little Colorado River
LC	White Mountain Lake	34°21'57"/109°59'21"
LC	Willow Creek	Headwaters to confluence with Clear Creek
LC	Zuni River	Headwaters to confluence with the Little Colorado River
MG	Agua Fria River	From State Route 169 to Lake Pleasant
MG	Ash Creek	Headwaters to confluence with Tex Canyon
MG	East Maricopa Floodway	From Brown and Greenfield Rds to the Gila River Indian Reservation Boundary
MG	Fain Lake	Town of Prescott Valley Park Lake 34°34'29"/ 112°21'06"
MG	Gila River	San Carlos Indian Reservation boundary to the Ashurst-Hayden Dam
MG	Gila River (EDW)	From the confluence with the Salt River to Gillespie Dam
MG	Hassayampa Lake	34°25'45"/112°25'33"
MG	Hassayampa River	Below unnamed tributary to the Buckeye Irrigation Company Canal
MG	Hassayampa River	Headwaters to confluence with unnamed tributary at 34°26'09"/112°30'32"
MG	Lake Pleasant	33°53'46"/112°16'29"
MG	Little Ash Creek	Headwaters to confluence with Ash Creek at 34°20'45.74"/112°4'17.26"
MG	Little Sycamore Creek	Headwaters to Sycamore Creek @ 34°21'39.13"/111°58'49.98"
MG	Mineral Creek (diversion tunnel and lined channel)	33°12'24"/110°59'58" to 33°07'56"/110°58'34"
MG	Papago Park South Pond	Curry Road, Tempe 33°26'22"/111°55'55"
MG	Salt River	Verde River to 2 km below Granite Reef Dam
MG	Seven Springs Wash	Headwaters to Unnamed trib @ 33°57'58.66"/111°51'52.07"
MG	Tempe Town Lake	At Mill Avenue Bridge at 33°26'00"/111°56'26"
MG	Turkey Creek	Headwaters to confluence with unnamed tributary at 34°19'28"/112°21'33"
SC	Alum Gulch	Below 31°29'17"/110°44'25" to confluence with Sonoita Creek
SC	California Gulch	Headwaters To U.S./Mexico border
SC	Cienega Creek (OAW)	From confluence with Gardner Canyon to USGS gaging station (#09484600)
SC	Cox Gulch	Headwaters to Three R Canyon @ 31°28'28.03"/110°47'14.65"
SC	Holden Canyon Creek	Headwaters to U.S./Mexico border
SC	Julian Wash	Headwaters to confluence with the Santa Cruz River
SC	Nogales Wash	Headwaters to confluence with Potrero Creek
SC	Parker Canyon Creek	Below unnamed tributary to U.S./Mexico border
SC	Rillito Creek	Headwaters to confluence with the Santa Cruz River
SC	Romero Canyon Creek	Below unnamed tributary to confluence with Sutherland Wash
SC	Santa Cruz River	Headwaters to the at U.S./Mexico border
SC	Santa Cruz River	U.S./Mexico border to the Nogales International WWTP outfall at 31°27'25"/110°58'04"
SC	Santa Cruz River	Tubac Bridge to Agua Nueva WRF outfall at 32°17'04"/111°01'45"
SC	Santa Cruz River (EDW)	Agua Nueva WRF outfall to Baumgartner Road
SC	Sonoita Creek	Headwaters to the Town of Patagonia WWTP outfall at 31°32'25"/110°45'31"
SC	Sonoita Creek (EDW)	Town of Patagonia WWTP outfall to permanent groundwater upwelling point approximately 1600 feet downstream of outfall
SC	Sycamore Canyon	Headwaters to the U.S./Mexico border
SP	Aravaipa Creek	Below downstream boundary of Aravaipa Canyon Wilderness Area to confluence with the San Pedro River
SP	Aravaipa Creek (OAW)	Stowe Gulch to downstream boundary of Aravaipa Canyon Wilderness Area
SP	Bass Canyon Creek	Below confluence with unnamed tributary to confluence with Hot Springs Canyon Creek
SP	Bear Creek	Headwaters to U.S./Mexico border
SP	Black Draw	Headwaters to the U.S./Mexico border
SP	Carr Canyon Creek	Headwaters to confluence with unnamed tributary at 31°27'01"/110°15'48"
SP	Gold Gulch	Headwaters to U.S./Mexico border
SP	Ramsey Canyon Creek	Below Forest Service Road #110 to confluence with Carr Wash
SP	San Pedro River	U.S./ Mexico Border to Buehman Canyon

SP	San Pedro River	From Buehman canyon to confluence with the Gila River
SP	Whitewater Draw	Headwaters to confluence with unnamed tributary at 31°20'36"/109°43'48"
SP	Whitewater Draw	Below confluence with unnamed tributary to U.S./ Mexico border
SR	Ackre Lake	33°37'01"/109°20'40"
SR	Apache Lake	33°37'23"/111°12'26"
SR	Bear Wallow Creek (OAW)	Headwaters to confluence with the Black River
SR	Beaver Creek	Headwaters to confluence with Black River
SR	Black River	Headwaters to confluence with Salt River
SR	Black River, East Fork	From 33°51'19"/109°18'54" to confluence with the Black River
SR	Black River, North Fork of East Fork	Headwaters to confluence with Boneyard Creek
SR	Black River, West Fork	Headwaters to confluence with the Black River
SR	Boggy Creek	Headwaters to confluence with Centerfire Creek
SR	Boneyard Creek	Headwaters to confluence with Black River, East Fork
SR	Canyon Lake	33°32'44"/111°26'19"
SR	Cherry Creek	Below unnamed tributary to confluence with the Salt River
SR	Conklin Creek	Headwaters to confluence with the Black River
SR	Corduroy Creek	Headwaters to confluence with Fish Creek
SR	Devils Chasm Creek	Below confluence with unnamed tributary to confluence with Cherry Creek
SR	Dipping Vat Reservoir	33°55'47"/109°25'31"
SR	Fish Creek	Headwaters to confluence with the Black River
SR	Haigler Creek	Headwaters to confluence with unnamed tributary at 34°12'23"/111°00'15"
SR	Haigler Creek	Below confluence with unnamed tributary to confluence with Tonto Creek
SR	Hannagan Creek	Headwaters to confluence with Beaver Creek
SR	Hay Creek (OAW)	Headwaters to confluence with the Black River, West Fork
SR	Horton Creek	Headwaters to confluence with Tonto Creek
SR	P B Creek	Below Forest Service Road #203 to Cherry Creek
SR	Pinal Creek	From Lower Pinal Creek WTP outfall # to See Ranch Crossing at 33°32'25"/110°52'28"
SR	Pinal Creek	From unnamed tributary to confluence with Salt River
SR	Pinto Creek	Headwaters to confluence with unnamed tributary at 33°19'27"/110°54'58"
SR	Roosevelt Lake	33°52'17"/111°00'17"
SR	Rye Creek	Headwaters to confluence with Tonto Creek
SR	Saguaro Lake	33°33'44"/111°30'55"
SR	Salt River	White Mountain Apache Reservation Boundary at 33°48'52"/110°31'33" to Roosevelt Lake
SR	Salt River	Theodore Roosevelt Dam to 2 km below Granite Reef Dam
SR	Thompson Creek	Headwaters to confluence with the West Fork of the Black River
SR	Tonto Creek	Headwaters to confluence with unnamed tributary at 34°18'11"/111°04'18"
SR	Tonto Creek	Below confluence with unnamed tributary to Roosevelt Lake
SR	Willow Creek	Headwaters to confluence with Beaver Creek
SR	Workman Creek	Below confluence with Reynolds Creek to confluence with Salome Creek
UG	Apache Creek	Headwaters to confluence with the Gila River
UG	Bitter Creek	Headwaters to confluence with the Gila River
UG	Blue River	Headwaters to confluence with Strayhorse Creek at 33°29'02"/109°12'14"
UG	Blue River	Below confluence with Strayhorse Creek to confluence with San Francisco River
UG	Bob Thomas Creek	Headwaters to Stone Creek 33°51'93"/109°42'52"
UG	Bonita Creek (OAW)	San Carlos Indian Reservation boundary to confluence with the Gila River
UG	Campbell Blue Creek	Headwaters to confluence with the Blue River
UG	Cave Creek (OAW)	Headwaters to confluence with South Fork Cave Creek
UG	Cave Creek (OAW)	Below confluence with South Fork Cave Creek to Coronado National Forest boundary
UG	Cave Creek, South Fork	Headwaters to confluence with Cave Creek
UG	Deadman Canyon Creek	Headwaters to confluence with unnamed tributary at 32°43'50"/109°49'03"
UG	Eagle Creek	Below confluence with unnamed tributary to confluence with the Gila River
UG	Gila River	New Mexico border to the San Carlos Indian Reservation boundary
UG	Grant Creek	Headwaters to confluence with the Blue River
UG	Judd Lake	33°51'15"/109°09'35"
UG	K P Creek (OAW)	Headwaters to confluence with the Blue River
UG	Little Blue Creek	Below confluence with Dutch Blue Creek to confluence with Blue Creek
UG	Luna Lake	33°49'50"/109°05'06"
UG	North Fork Cave Creek	Headwaters to Cave Creek @ 31°52'56.63"/109°12'19.75"
UG	Raspberry Creek	Headwaters to confluence with the Blue River
UG	San Francisco River	Headwaters to the New Mexico border
UG	San Francisco River	New Mexico border to confluence with the Gila River
UG	San Simon River	Headwaters to confluence with the Gila River
UG	Stone Creek	Headwaters to confluence with the San Francisco River
UG	Thomas Creek	Below confluence with Rousensock Creek to confluence with Blue River
UG	Turkey Creek	Headwaters to confluence with Campbell Blue Creek
VR	Bartlett Lake	33°49'52"/111°37'44"
VR	Beaver Creek	Headwaters to confluence with the Verde River
VR	Bitter Creek	Headwaters to the Jerome WWTP outfall at 34°45'12"/112°06'24"
VR	Bitter Creek	Below the Yavapai Apache Indian Reservation boundary to confluence with the Verde River
VR	Dead Horse Lake	34°45'08"/112°00'42"
VR	East Verde River	Headwaters to confluence with Ellison Creek
VR	East Verde River	Below confluence with Ellison Creek to confluence with the Verde River
VR	Fossil Creek (OAW)	Headwaters to confluence with the Verde River
VR	Fossil Springs (OAW)	34°25'24"/111°34'27"
VR	Horseshoe Reservoir	34°00'25"/111°43'36"
VR	Oak Creek (OAW)	Headwaters to confluence with unnamed tributary at 34°59'15"/111°44'47"
VR	Oak Creek (OAW)	Below confluence with unnamed tributary to confluence with Verde River
VR	Spring Creek	Below confluence with unnamed tributary to confluence with Oak Creek
VR	Sullivan Lake	34°51'42"/112°27'51"
VR	Sycamore Creek	Headwaters to confluence with unnamed tributary at 35°03'41"/111°57'31"

VR	Sycamore Creek	Headwaters to confluence with Verde River at 33°37'55"/111°39'58"
VR	Verde River	From headwaters at confluence of Chino Wash and Granite Creek to Bartlett Lake Dam
VR	Verde River	Below Bartlett Lake Dam to Salt River
VR	West Clear Creek	Headwaters to confluence with Meadow Canyon
VR	West Clear Creek	Below confluence with Meadow Canyon to confluence with the Verde River
VR	Wet Beaver Creek	Below unnamed springs to confluence with Dry Beaver Creek
VR	Willow Creek Reservoir	34°36'17"/112°26'19"

Historical Note

Table B made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

Table C. Historically Regulated as WOTUS and in Need of Confirmation

The waters listed in this table have historically been and will continue to be regulated as WOTUS unless ADEQ makes a determination that they are non-WOTUS. Notwithstanding its inclusion on the list below, the status of a particular water in this table can be contested by a person in an enforcement or permit proceeding, a challenge to an identification as an impaired water, or a challenge to a proposed TMDL for an impaired water. Any changes to Table C will be made through formal rulemaking.

The waters on this list have their designated uses assigned by Title 18, Chapter 11, Article 1. Coordinates are from the North American Datum of 1983 (NAD83). All latitudes in Arizona are north and all longitudes are west, but the negative signs are not included in the Historically Regulated as WOTUS and in Need of Confirmation Table. Some web-based mapping systems require a negative sign before the longitude values to indicate it is a west longitude.

R18-11-217. Best Management Practices for non-WOTUS Protected Surface Waters

A. The BMPs described in this rule are intended to ensure that activities within the ordinary high-water mark of perennial or intermittent non-WOTUS protected surface waters, or within the bed and bank of other waters that materially impact (i.e., are within 1/4 mile upstream of) non-WOTUS protected surface waters, do not violate applicable surface water quality standards in the non-WOTUS protected surface waters. For purposes of this Section, the activities described in the prior sentence will be referred to as "regulated activities." Depending on the regulated activities conducted, not all of the BMPs described below may be applicable to a particular project. The owner or operator is responsible to consider the BMPs outlined below and to implement those necessary to ensure that the regulated activities will not violate applicable surface water quality standards in the non-WOTUS protected surface water.

B. The BMPs described below are not applicable to any activities that are addressed under an individual or general AZPDES permit that are otherwise regulated under A.R.S. Title 49.

C. Erosion and sedimentation control BMPs:

1. When flow is present in any non-WOTUS protected surface waters within a project area, flow shall not be altered except to prevent erosion or pollution of any non-WOTUS protected surface waters.
2. Any disturbance within the ordinary high-water mark of non-WOTUS protected surface waters or within the bed and banks of other waters, that is not intended to be permanently altered, shall be stabilized as soon as practicable to prevent erosion and sedimentation.
3. When flow in any non-WOTUS protected surface water is sufficient to erode, carry, or deposit material, regulated activities shall cease until:
   a. The flow decreases below the point where sediment movement ceases; or
   b. Control measures have been undertaken, i.e., equipment and material easily transported by flow are protected within non-erodible barriers or moved outside the flow area.
4. Silt laden or turbid water resulting from regulated activities should be managed in a manner to reduce sediment load prior to discharging.
5. No washing or dewatering of fill material should occur within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters. Other than the replacement of native fill or material used to support vegetation rooting or growth, fill placed within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface water must resist washout whether such resistance is derived via particle size limits, presence of a binder, vegetation, or other armoring.

D. Pollutant management BMPs:

1. If regulated activities are likely to violate applicable surface water quality standards in a perennial or intermittent non-WOTUS protected surface water, operations shall cease until the problem is resolved or until control measures have been implemented.
2. Construction material and/or fill (other than native fill or that necessary to support revegetation) placed within surface waters as a result of regulated activities shall not include pollutants in concentrations that will violate applicable surface water quality standards in a perennial or intermittent non-WOTUS protected surface water.

E. Construction phase BMPs:

1. Equipment staging and storage areas or fuel, oil, and other petroleum products storage and solid waste containment should not be located within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface water.
2. Any equipment maintenance, washing, or fueling shall not be done within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters with the following exception: Equipment too large or unwieldy to be readily moved, such as large cranes, may be fueled and serviced in non-WOTUS protected surface waters (but outside of standing or flowing water) provided material specifically manufactured and sold as spill containment is in place during fueling/servicing.
3. All equipment shall be inspected for leaks, all leaks shall be repaired, and all repaired equipment shall be cleaned to remove any fuel or other fluid residue prior to use within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters.
4. Washout of concrete handling equipment shall not take place within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters.

F. Post-construction BMPs:

1. Upon completion of regulated activities, areas within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface waters shall be promptly cleared of all forms, piling, construction residues, equipment, debris, or other obstructions.
2. If fully, partially, or occasionally submerged structures are constructed of cast-in-place concrete instead of precast concrete, steps will be taken using sheet piling or temporary dams to prevent contact between water (instream and runoff) and the concrete until it cures and until any curing agents have evaporated or are no longer a pollutant threat.
3. Any permanent water crossings within the ordinary high-water mark of any perennial or intermittent in a non-WOTUS protected surface water (other than fords) shall

not be equipped with gutters, drains, scuppers, or other conveyances that allow untreated runoff (due to events equal to or lesser in magnitude than the design event for the crossing structure) to directly enter a non-WOTUS protected surface water if such runoff can be directed to a local stormwater drainage, containment, and/or treatment system.

4. Debris shall be cleared as needed from culverts, ditches, dips, and other drainage structures within the ordinary high-water mark of any perennial or intermittent non-WOTUS protected surface water to prevent clogging or conditions that may lead to a washout.
5. Temporary structures constructed or imported materials shall be removed no later than upon completion of the regulated activities.
6. Temporary structures constructed of native materials, if they provide an obstacle to flow or can contribute to or cause erosion, or cause changes in sediment load, shall be removed no later than upon completion of the regulated activities.

G. Design consideration BMPs:

1. All temporary structures constructed of imported materials and all permanent structures, including but not limited to, access roadways, culvert crossings, staging areas, material stockpiles, berms, dikes, and pads, shall be constructed so as to accommodate overtopping and resist washout by streamflow.
2. Any temporary crossing, other than fords on native material, shall be constructed in such a manner so as to provide armoring of the stream channel. Materials used to provide this armoring shall not include anything easily transportable by flow. Examples of acceptable materials include steel plates, untreated wooden planks, pre-cast concrete planks or blocks. Examples of unacceptable materials include clay, silt, sand, and gravel finer than cobble (roughly fist-sized). The armoring shall, via mass, anchoring systems, or a combination of the two, resist washout.

H. Notification. The owner or operator of any regulated activities shall, five days prior to initiation of the regulated activities, submit a notice to ADEQ on a form that includes basic information including the GPS location, the waterbody ID of the nearest non-WOTUS protected surface water, general description of planned activities, types of BMPs to be employed during the project, and phone number and email for a contact person. Work may proceed after five calendar days have passed since the owner/operator provided notification to ADEQ unless ADEQ responds in writing to the contact person for the owner/operator.

I. Exclusions: The BMPS and notification requirements in this Section shall not apply to:

1. Activities that are already regulated under A.R.S. Title 49.
2. Discharges to a non-WOTUS protected surface water incidental to a recharge project.
3. Established or ongoing farming, ranching and silviculture activities such as plowing, seeding, cultivating, minor drainage or harvesting for the production of food, fiber or forest products or upland soil and water conservation practices.
4. Maintenance but not construction of drainage ditches.
5. Construction and maintenance of irrigation ditches.
6. Maintenance of structures as dams, dikes, and levees.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 302 (January 27, 2023), effective February 20, 2023 (Supp. 22-4).

Appendix A. Repealed

Historical Note

Former Section R9-21-208, Appendices 1 through 9 renumbered and amended as new Appendix A adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Appendix repealed effective February 18, 1992 (Supp. 92-1).

Appendix B. Repealed

Historical Note

Former R9-21-209, Table 1 and Table 2 renumbered and amended as Appendix B adopted effective January 7, 1985 (Supp.85-1). Amended effective August 12, 1986 (Supp. 86-4). Appendix repealed effective February 18, 1992 (Supp. 92-1).

ARTICLE 3. RECLAIMED WATER QUALITY STANDARDS

R18-11-301. Definitions

The terms in this Article have the following meanings:

"Direct reuse" has the meaning prescribed in R18-9-701(1).

"Disinfection" means a treatment process that uses oxidants, ultraviolet light, or other agents to kill or inactivate pathogenic organisms in wastewater.

"Filtration" means a treatment process that removes particulate matter from wastewater by passage through porous media.

"Gray water" means wastewater, collected separately from a sewage flow, that originates from a clothes washer, bathtub, shower, or sink, but it does not include wastewater from a kitchen sink, dishwasher, or a toilet.

"Industrial wastewater" means wastewater generated from an industrial process.

"Landscape impoundment" means a manmade lake, pond, or impoundment of reclaimed water where swimming, wading, boating, fishing, and other water-based recreational activities are prohibited. A landscape impoundment is created for storage, landscaping, or for aesthetic purposes only.

"NTU" means nepholometric turbidity unit.

"On-site wastewater treatment facility" has the meaning prescribed in A.R.S. § 49-201(24).

"Open access" means that access to reclaimed water by the general public is uncontrolled.

"Reclaimed water" has the meaning prescribed in A.R.S. § 49-201(31).

"Recreational impoundment" means a manmade lake, pond, or impoundment of reclaimed water where boating or fishing is an intended use of the impoundment. Swimming and other full-body recreation activities (for example, water-skiing) are prohibited in a recreational impoundment.

"Restricted access" means that access to reclaimed water by the general public is controlled.

"Secondary treatment" means a biological treatment process that achieves the minimum level of effluent quality defined by the federal secondary treatment regulation at 40 CFR § 133.102.

"Sewage" means untreated wastes from toilets, baths, sinks, lavatories, laundries, and other plumbing fixtures in places of human habitation, employment, or recreation.

Historical Note

Adopted effective July 9, 1981 (Supp. 81-4). Former Section R9-21-301 renumbered without change as Section R18-11-301 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-302. Applicability

This Article applies to the direct reuse of reclaimed water, except for:

1. The direct reuse of gray water, or
2. The direct reuse of reclaimed water from an onsite wastewater treatment facility regulated by a general Aquifer Protection Permit under 18 A.A.C. 9, Article 3.

Historical Note

Adopted effective June 8, 1981 (Supp. 81-3). Amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-302 renumbered without change as Section R18-11-302 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-303. Class A+ Reclaimed Water

A. Class A+ reclaimed water is wastewater that has undergone secondary treatment, filtration, nitrogen removal treatment, and disinfection. Chemical feed facilities to add coagulants or polymers are required to ensure that filtered effluent before disinfection complies with the 24-hour average turbidity criterion prescribed in subsection (B)(1). Chemical feed facilities may remain idle if the 24-hour average turbidity criterion in (B)(1) is achieved without chemical addition.

B. An owner of a facility shall ensure that:

1. The turbidity of Class A+ reclaimed water at a point in the wastewater treatment process after filtration and immediately before disinfection complies with the following:
   a. The 24-hour average turbidity of filtered effluent is two NTUs or less, and
   b. The turbidity of filtered effluent does not exceed five NTUs at any time.
2. Class A+ reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
   a. There are no detectable fecal coliform organisms in four of the last seven daily reclaimed water samples taken, and
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 23 / 100 ml.
   c. If alternative treatment processes or alternative turbidity criteria are used, or reclaimed water is blended with other water to produce Class A+ reclaimed water under subsection (C), there are no detectable enteric virus in four of the last seven monthly reclaimed water samples taken.
3. The 5-sample geometric mean concentration of total nitrogen in a reclaimed water sample is less than 10 mg / L.

C. An owner of a facility may use alternative treatment methods other than those required by subsection (A), or comply with alternative turbidity criteria other than those required by subsection (B)(1), or blend reclaimed water with other water to produce Class A+ reclaimed water provided the owner demonstrates through pilot plant testing, existing water quality data, or other means that the alternative treatment methods, alternative turbidity criteria, or blending reliably produces a reclaimed water that meets the disinfection criteria in subsection (B)(2) and the total nitrogen criteria in subsection (B)(3) before discharge to a reclaimed water distribution system.

D. Class A+ reclaimed water is not required for any type of direct reuse. A person may use Class A+ reclaimed water for any type of direct reuse listed in Table A.

Historical Note

Adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Former Section R9-21-303 renumbered without change as Section R18-11-303 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-304. Class A Reclaimed Water

A. Class A reclaimed water is wastewater that has undergone secondary treatment, filtration, and disinfection. Chemical feed facilities to add coagulants or polymers are required to ensure that filtered effluent before disinfection complies with the 24-hour average turbidity criterion prescribed in subsection (B)(1). Chemical feed facilities may remain idle if the 24-hour average turbidity criterion in subsection (B)(1) is achieved without chemical addition.

B. An owner of a facility shall ensure that:

1. The turbidity of Class A reclaimed water at a point in the wastewater treatment process after filtration and immediately before disinfection complies with the following:
   a. The 24-hour average turbidity of filtered effluent is two NTUs or less, and
   b. The turbidity of filtered effluent does not exceed five NTUs at any time.
2. Class A reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
   a. There are no detectable fecal coliform organisms in four of the last seven daily reclaimed water samples taken, and
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 23 / 100 ml.
   c. If alternative treatment processes or alternative turbidity criteria are used, or reclaimed water is blended with other water to produce Class A reclaimed water under subsection (C), there are no detectable enteric virus in four of the last seven monthly reclaimed water samples taken.

C. An owner of a facility may use alternative treatment methods other than those required by subsection (A), or comply with alternative turbidity criteria other than those required by subsection (B)(1), or blend reclaimed water with other water to produce Class A reclaimed water provided the owner demonstrates through pilot plant testing, existing water quality data, or other means that the alternative treatment methods, alternative turbidity criteria, or blending reliably produces a reclaimed water that meets the disinfection criteria in subsec-

tion (B)(2) before discharge to a reclaimed water distribution system.

D. A person shall use Class A reclaimed water for a type of direct reuse listed as Class A in Table A. A person may use Class A reclaimed water for a type of direct reuse listed as Class B or Class C in Table A.

Historical Note
Adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Former Section R9-21-304 renumbered without change as Section R18-11-304 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-305. Class B+ Reclaimed Water

A. Class B+ reclaimed water is wastewater that has undergone secondary treatment, nitrogen removal treatment, and disinfection.

B. An owner of a facility shall ensure that:
1. Class B+ reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
   a. The concentration of fecal coliform organisms in four of the last seven daily reclaimed water samples is less than 200 / 100 ml.
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 800 / 100 ml.
2. The 5-sample geometric mean concentration of total nitrogen in a reclaimed water sample is less than 10 mg / L.

C. Class B+ reclaimed water is not required for a type of direct reuse. A person may use Class B+ reclaimed water for a type of direct reuse listed as Class B or Class C in Table A. A person shall not use Class B+ reclaimed water for a type of direct reuse listed as Class A in Table A.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-306. Class B Reclaimed Water

A. Class B reclaimed water is wastewater that has undergone secondary treatment and disinfection.

B. An owner of a facility shall ensure that Class B reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
1. The concentration of fecal coliform organisms in four of the last seven daily reclaimed water samples is less than 200 / 100 ml.
2. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 800 / 100 ml.

C. A person shall use a minimum of Class B reclaimed water for a type of direct reuse listed as Class B in Table A. A person may use Class B reclaimed water for a type of direct reuse listed as Class C in Table A. A person shall not use Class B reclaimed water for a type of direct reuse listed as Class A in Table A.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-307. Class C Reclaimed Water

A. Class C reclaimed water is wastewater that has undergone secondary treatment in a series of wastewater stabilization ponds, including aeration, with or without disinfection.

B. The owner of a facility shall ensure that:
1. The total retention time of Class C reclaimed water in wastewater stabilization ponds is at least 20 days.
2. Class C reclaimed water meets the following criteria after treatment and before discharge to a reclaimed water distribution system:
   a. The concentration of fecal coliform organisms in four of the last seven reclaimed water samples taken is less than 1000 / 100 ml.
   b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 4000 / 100 ml.

C. A person shall use a minimum of Class C reclaimed water for a type of direct reuse listed as Class C in Table A. A person shall not use Class C reclaimed water for a type of direct reuse listed as Class A or Class B in Table A.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-308. Industrial Reuse

A. The reclaimed water quality requirements for the following direct reuse applications are industry-specific and shall be determined by the Department on a case-by-case basis in a reclaimed water permit issued by the Department under 18 A.A.C. 9, Article 7:
1. Direct reuse of industrial wastewater containing sewage.
2. Direct reuse of industrial wastewater for the production or processing of any crop used as human or animal food.

B. The Department shall use best professional judgment to determine the reclaimed water quality requirements needed to protect public health and the environment for a type of direct reuse specified in subsection (A).

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-309. Reclaimed Water Quality Standards for an Unlisted Type of Direct Reuse

A. The Department may prescribe in an individual reclaimed water permit issued under 18 A.A.C. 9, Article 7, reclaimed water quality requirements for a type of direct reuse not listed in Table A. Before permitting a direct reuse of reclaimed water not listed in Table A, the Department shall, using its best professional judgment, determine and require compliance with reclaimed water quality requirements needed to protect public health and the environment.

B. Department may determine that Class A+, A, B+, B, or C reclaimed water is appropriate for a new type of direct reuse.

C. The Department shall consider the following factors when prescribing reclaimed water quality requirements for a new type of direct reuse:
1. The risk to public health;
2. The degree of public access to the site where the reclaimed water is reused and human exposure to the reclaimed water;
3. The level of treatment necessary to ensure that the reclaimed water is aesthetically acceptable;
4. The level of treatment necessary to prevent nuisance conditions;

5. Specific water quality requirements for the intended type of direct reuse;
6. The means of application of the reclaimed water;
7. The degree of treatment necessary to avoid a violation of surface water quality standards or aquifer water quality standards;
8. The potential for improper or unintended use of the reclaimed water;
9. The reuse guidelines, criteria, or standards adopted or recommended by the U.S. Environmental Protection Agency or other federal or state agencies that apply to the new type of direct reuse; and
10. Similar wastewater reclamation experience of reclaimed water providers in the United States.

Historical Note
New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

Table A. Minimum Reclaimed Water Quality Requirements for Direct Reuse

Type of Direct Reuse	Minimum Class of Reclaimed Water Required
Irrigation of food crops	A
Recreational impoundments	A
Residential landscape irrigation	A
Schoolground landscape irrigation	A
Open access landscape irrigation	A
Toilet and urinal flushing	A
Fire protection systems	A
Spray irrigation of an orchard or vineyard	A
Commercial closed loop air conditioning systems	A
Vehicle and equipment washing (does not include self-service vehicle washes)	A
Snowmaking	A
Surface irrigation of an orchard or vineyard	B
Golf course irrigation	B
Restricted access landscape irrigation	B
Landscape impoundment	B
Dust control	B
Soil compaction and similar construction activities	B
Pasture for milking animals	B
Livestock watering (dairy animals)	B
Concrete and cement mixing	B
Materials washing and sieving	B
Street cleaning	B
Pasture for non-dairy animals	C
Livestock watering (non-dairy animals)	C
Irrigation of sod farms	C
Irrigation of fiber, seed, forage, and similar crops	C
Silviculture	C

Note: Nothing in this Article prevents a wastewater treatment plant from using a higher quality reclaimed water for a type of direct reuse than the minimum class of reclaimed water listed in Table A. For example, a wastewater treatment plant may provide Class A reclaimed water for a type of direct reuse where Class B or Class C reclaimed water is acceptable.

Historical Note
New Table adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

ARTICLE 4. AQUIFER WATER QUALITY STANDARDS

R18-11-401. Definitions
In addition to the definitions contained in A.R.S. §§ 49-101 and 49-201, the terms of this Article shall have the following meanings:

1. "Beta particle and photon radioactivity from man-made radionuclides" means all radionuclides emitting beta particles or photons, except Thorium-232, Uranium-235, Uranium-238 and their progeny.
2. "Dose equivalent" means the product of the absorbed dose from ionizing radiation and such factors as account for differences in biological effectiveness due to the type of radiation and its distribution in the body as specified by the International Commission on Radiological Units and Measurements.
3. "Drinking water protected use" means the protection and maintenance of aquifer water quality for human consumption.
4. "Gross alpha particle activity" means the total radioactivity due to alpha particle emission as inferred from measurements on a dry sample.
5. "Mg/l" means milligrams per liter.
6. "Millirem" means 1/1000 of a rem. A rem means the unit of dose equivalent from ionizing radiation to the total body or any internal organ or organ system.
7. "Non-drinking water protected use" means the protection and maintenance of aquifer water quality for a use other than for human consumption.
8. "pCi" means picocurie, or the quantity of radioactive material producing 2.22 nuclear transformations per minute.
9. "Total trihalomethanes" means the sum of the concentrations of the following trihalomethane compounds: trichloromethane (chloroform), dibromo-chloromethane, bromodichloromethane and tribromo-methane (bromoform).

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1). Amended effective August 14, 1992 (Supp. 92-3).

R18-11-402. Repealed

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1). Repealed effective August 14, 1992 (Supp. 92-3).

R18-11-403. Analytical Methods
Analysis of a sample to determine compliance with an aquifer water quality standard shall be in accordance with an analytical method specified in A.A.C. Title 9, Chapter 14, Article 6 or an alternative analytical method that is approved by the Director of the Arizona Department of Health Services pursuant to A.A.C. R9-14-610(C).

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1). Amended effective August 14, 1992 (Supp. 92-3). Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-404. Laboratories
A test result from a sample taken to determine compliance with an aquifer water quality standard shall be valid only if the sample has

been analyzed by a laboratory that is licensed by the Arizona Department of Health Services for the analysis performed.

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-405. Narrative Aquifer Water Quality Standards

A. A discharge shall not cause a pollutant to be present in an aquifer classified for a drinking water protected use in a concentration which endangers human health.

B. A discharge shall not cause or contribute to a violation of a water quality standard established for a navigable water of the state.

C. A discharge shall not cause a pollutant to be present in an aquifer which impairs existing or reasonably foreseeable uses of water in an aquifer.

Historical Note
Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-406. Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

A. The aquifer water quality standards in this Section apply to aquifers that are classified for drinking water protected use.

B. The following are the aquifer water quality standards for inorganic chemicals:

Pollutant	mg/L)
Antimony	0.006
Arsenic	0.05
Asbestos	7 million fibers/liter (longer than 10 mm)
Barium	2
Beryllium	0.004
Cadmium	0.005
Chromium	0.1
Cyanide (As Free Cyanide)	0.2
Fluoride	4.0
Lead	0.05
Mercury	0.002
Nickel	0.1
Nitrate (as N)	10
Nitrite (as N)	1
Nitrate and nitrite (as N)	10
Selenium	0.05
Thallium	0.002

C. The following are the aquifer water quality standards for organic chemicals:

Pollutant	(mg/L)
Benzene	0.005
Benzo (a) pyrene	0.0002
Carbon Tetrachloride	0.005
o-Dichlorobenzene	0.6
para-Dichlorobenzene	0.075
1,2-Dichloroethane	0.005

Methoxychlor	0.04
Oxamyl	0.2
Picloram	0.5
Polychlorinated Biphenols (PCBs)	0.0005
Simazine	0.004
Toxaphene	0.003
2,4,5-Trichlorophenoxypropionic Acid (2,4,5-TP or Silvex)	0.05

E. The following are the aquifer water quality standards for radionuclides:

1. The maximum concentration for gross alpha particle activity, including Radium-226 but excluding radon and uranium, shall not exceed 15 pCi/l.
2. The maximum concentration for combined Radium-226 and Radium-228 shall not exceed 5 pCi/l.
3. The average annual concentration of beta particle and photon radioactivity from man-made radionuclides shall not produce an annual dose equivalent to the total body or any internal organ greater than 4 millirem/year.
4. Except for the radionuclides listed in this subsection, the concentration of man-made radionuclides causing 4 millirem total body or organ dose equivalents shall be calculated on the basis of a 2-liter-per-day drinking water intake using the 168-hour data listed in “Maximum Permissible Body Burdens and Maximum Permissible Con-

centration of Radionuclides in Air or Water for Occupational Exposure," National Bureau of Standards Handbook 69, National Bureau of Commerce, as amended August 1963 (and no future editions), incorporated herein by reference and on file with the Office of the Secretary of State and with the Department. If two or more radionuclides are present, the sum of their annual dose equivalent to the total body or to any organ shall not exceed 4 millirem/year. The following average annual concentrations are assumed to produce a total body or organ dose of 4 millirem/year:

Radionuclide	Critical Organ	pCi/l
Tritium	Total body	20,000
Strontium-90	Bone Marrow	8

F. The aquifer water quality standard for microbiological contaminants is based upon the presence or absence of total coliforms in a 100-milliliter sample. If a sample is total coliform-positive, a 100-milliliter repeat sample shall be taken within two weeks of the time the sample results are reported. Any total coliform-positive repeat sample following a total coliform-positive sample constitutes a violation of the aquifer water quality standard for microbiological contaminants.

G. The following are the aquifer water quality standards for turbidity:

1. One nephelometric turbidity unit as determined by a monthly average except that five or fewer nephelometric turbidity units may be allowed if it can be determined that the higher turbidity does not interfere with disinfection, prevent maintenance of effective disinfectant agents in water supply distribution systems, or interfere with microbiological determinations.
2. Five nephelometric turbidity units based on an average of two consecutive days.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).
Amended effective May 26, 1994 (Supp. 94-2).

R18-11-407. Aquifer Water Quality Standards in Reclassified Aquifers

A. All aquifers in the state are classified for drinking water protected use except for aquifers which are reclassified to a nondrinking water protected use pursuant to A.R.S. § 49-224 and A.A.C. R18-11-503.

B. Aquifer water quality standards for drinking water protected use apply to reclassified aquifers except where expressly superseded by aquifer water quality standards adopted pursuant to subsection (C).

C. The Director shall adopt, by rule, aquifer water quality standards for reclassified aquifers within one year of the date of the order reclassifying the aquifer to a nondrinking water protected use. The Director shall adopt aquifer water quality standards for reclassified aquifers only for pollutants that are specifically identified in a petition for reclassification as prescribed by A.R.S. § 49-223(E) and A.A.C. R18-11-503(B). Aquifer water quality standards for reclassified aquifers shall be sufficient to protect the use of the reclassified aquifer.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-408. Petition for Adoption of a Numeric Aquifer Water Quality Standard

A. Any person may petition the Director to adopt, by rule, a numeric aquifer water quality standard for a pollutant for which no numeric aquifer water quality standard exists.

B. Petitions for adoption of a numeric aquifer water quality standard shall be filed with the Department and shall comply with the requirements applicable to petitions for rule adoption as provided by A.R.S. § 41-1033 and A.A.C. R18-1-302, except as otherwise provided by A.R.S. § 49-223 or this Section.

C. In addition to the requirements of A.A.C. R18-1-302, a petition for rule adoption to establish a numeric aquifer water quality standard shall include specific reference to:

1. Technical information that the pollutant is a toxic pollutant.
2. Technical information upon which the Director reasonably may base the establishment of a numeric aquifer water quality standard.
3. Evidence that the pollutant that is the subject of the petition is or may in the future be present in an aquifer or part of an aquifer that is classified for drinking water protected use. Evidence may include, but is not limited to, any of the following:
   a. A laboratory analysis of a water sample by a laboratory licensed by the Arizona Department of Health Services which indicates the presence of the pollutant in the aquifer.
   b. A hydrogeological study which demonstrates that the pollutant that is the subject of the petition may be present in an aquifer in the future. The hydrogeological study shall include the following:
      i. A description of the use that results in a discharge of the pollutant that is the subject of the petition.
      ii. A description of the mobility of the pollutant in the vadose zone and in the aquifer.
      iii. A description of the persistence of the pollutant in the vadose zone and in the aquifer.

D. Within 180 calendar days of the receipt of a complete petition for rule adoption to establish a numeric aquifer water quality standard, the Director shall make a written determination of whether the petition should be granted or denied. The Director shall give written notice by regular mail of the determination to the petitioner.

E. If the petition for rule adoption is granted, the Director shall initiate rulemaking proceedings to adopt a numeric aquifer water quality standard. The Director shall, within one year of the date that the petition for adoption of a numeric aquifer water quality standard is granted, either adopt a rule establishing a numeric aquifer water quality standard or publish a notice of termination of rulemaking in the Arizona Administrative Register.

F. If the petition for rule adoption is denied, the Director shall issue a denial letter to the petitioner which explains the reasons for the denial. The denial of a petition for rule adoption to establish a numeric aquifer water quality standard is not subject to judicial review.

ARTICLE 5. AQUIFER BOUNDARY AND PROTECTED USE CLASSIFICATION

R18-11-501. Definitions
In addition to the definitions contained in A.R.S. § 49-201, the words and phrases of this Article shall have the following meaning:

1. "Drinking water protected use" means the protection and maintenance of aquifer water quality for human consumption.
2. "Hardrock areas containing little or no water" means areas of igneous or metamorphic rock which do not yield usable quantities of water.
3. "Nondrinking water protected use" means the protection and maintenance of aquifer water quality for a use other than human consumption.
4. "Usable quantities" means five gallons of water per day.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-502. Aquifer Boundaries

A. Except as provided in subsection (B), aquifer boundaries for the aquifers in this state are identified and defined as being identical to the hydrologic basin and subbasin boundaries, as found by the Director of the Department of Water Resources, Findings and Order In the Matter of The Designation of Groundwater Basins and Subbasins In The State of Arizona (dated June 21, 1984), pursuant to A.R.S. §§ 45-403 and 45-404, which is incorporated herein by reference, on file and available for public inspection at the Department of Environmental Quality. No later amendments or editions are incorporated by reference.

B. Excluded from the boundaries of the aquifers are hard rock areas which contain little or no water, as identified in Plate 1 of the Department of Water Resources, Water Resource Hydrologic Map Series Report Number 2 (dated January 1981) and as further identified in the Bureau of Mines, University of Arizona County Geologic Map Series (individual county maps dated 1957 through 1960), which are incorporated herein by reference, on file and available for public inspection at the Department of Environmental Quality. No later amendments or editions are incorporated by reference.

C. The Director may, by rule, modify or add an aquifer boundary provided that one or more of the following applies:

1. The Department of Water Resources modifies the boundaries of its basins or subbasins.
2. The Director is made aware of new technical information or data which supports refinement of an aquifer boundary.

D. Facilities located outside of the boundaries defined in these rules shall be subject to A.R.S. § 49-241 except as provided therein.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-503. Petition for reclassification

A. Any person may petition the Director to reclassify an aquifer from a drinking water protected use to a nondrinking water protected use pursuant to A.R.S. § 49-224(C).

B. A written petition for reclassification pursuant to A.R.S. § 49-224(C) or A.R.S. § 49-224(D) shall be filed with the Department and shall include the following categories of information:

1. The proposed protected use for which the reclassification is being requested.
2. The pollutant and affected aquifer water quality standards for which the reclassification is being requested.
3. A hydrogeologic report which demonstrates that the aquifer proposed for reclassification is or will be hydrologically isolated, to the extent described in A.R.S. § 49-224(C)(1). This report and demonstration of hydrologic isolation for the area containing such aquifer, and immediate adjacent geologic units, shall include at least the following:
   a. Hydrogeologic area maps and cross sections.
   b. An analysis of subsurface geology, including geologic and hydrologic separation.
   c. Water level elevation or piezometric level contour maps.
   d. Analysis of hydrologic characteristics of the aquifer and the immediate adjacent geologic units.
   e. Description of existing water quality and analysis of water chemistry.
   f. Projected annual quantity of water to be withdrawn.
   g. Identification of pumping centers, cones of depression and areas of recharge.
   h. A water balance.
   i. Existing flow direction and evaluation of the effects of seasonal and future pumping on flow.
   j. An evaluation as to whether the reclassification will contribute to or cause a violation of aquifer water quality standards in other aquifers, or in parts of the aquifer not being proposed for reclassification.
4. Documentation demonstrating that water from the aquifer or part of the aquifer for which reclassification is pro-

posed is not being used as drinking water. This documentation shall include at least the following:

a. A list of all wells or springs including their location, ownership and use within the aquifer or part of the aquifer being proposed for reclassification.
b. Identification of groundwater withdrawal rights, on file with the Department of Water Resources, within the aquifer or part of the aquifer being proposed for reclassification.
c. A comprehensive list of agencies, persons and other information sources consulted for aquifer use documentation.

5. A cost-benefit analysis developed pursuant to the requirements of A.R.S. § 49-224(C)(3), except for petitions submitted pursuant to A.R.S. § 49-224(D). This analysis shall identify potential future uses of the aquifer being proposed for reclassification, as well as other opportunity costs associated with reclassification, and shall contain a description of the cost-benefit methodology used, including all assumptions, data, data sources and criteria considered and all supporting statistical analyses.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-504. Agency Action on Petition

A. Upon receipt of a petition for reclassification, the Director shall review the petition for compliance with the requirements of R18-11-503. If additional information is necessary, the petitioner shall be notified of specific deficiencies in writing within 30 calendar days of receipt of the petition.

B. Within 120 calendar days after receipt of a complete petition, and after consultation with the appropriate advisory council pursuant to A.R.S. §§ 49-224(C), the Director shall make a final decision to grant or deny the petition and shall notify the petitioner of such decision and the reason for such determination in writing.

C. Upon a decision to grant a petition for aquifer reclassification, the Director shall initiate proceedings for promulgation of aquifer water quality standards and, if applicable, for aquifer boundary designation for the reclassified aquifers.

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

R18-11-505. Public participation

A. Within 30 days of receipt of a complete petition for reclassification filed pursuant to A.R.S. § 49-224(D), or if the Director deems it necessary to consider a reclassification under A.R.S. § 49-224(C), the Director shall give public notice of the proposed reclassification pursuant to A.A.C. R18-1-401.

B. The Director shall hold at least one public hearing at a location as near as practicable to the aquifer proposed for reclassification. The Director shall give notice of each public hearing and conduct the public hearing in accordance with the provisions of A.A.C. R18-1-402.

Historical Note
Adopted effective June 29, 1989 (Supp. 89-2).

R18-11-506. Rescission of Reclassification

The Director may, by rule, rescind an aquifer reclassification and return an aquifer to a drinking water protected use if he determines that any of the conditions under which the reclassification was granted are no longer valid. If the Director initiates a change under this Section, he shall consult with the appropriate advisory council pursuant to A.R.S. §§ 49-224(C).

Historical Note
Adopted effective October 22, 1987 (Supp. 87-4).
Amended by final expedited rulemaking at 29 A.A.R. 2344 (October 6, 2023), with an immediate effective date of September 22, 2023 (Supp. 23-3).

ARTICLE 6. IMPAIRED WATER IDENTIFICATION

Article 6, consisting of Sections R18-11-601 through R18-11-606, made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-601. Definitions

In addition to the definitions established in A.R.S. §§ 49-201 and 49-231, and A.A.C. R18-11-101, the following terms apply to this Article:

1. "303(d) List" means the list of surface waters or segments required under section 303(d) of the Clean Water Act and A.R.S. Title 49, Chapter 2, Article 2.1, for which TMDLs are developed and submitted to EPA for approval.
2. "Attaining" means there is sufficient, credible, and scientifically defensible data to assess a surface water or segment and the surface water or segment does not meet the definition of impaired or not attaining.
3. "AZPDES" means the Arizona Pollutant Elimination Discharge System.
4. "Credible and scientifically defensible data" means data submitted, collected, or analyzed using:
   a. Quality assurance and quality control procedures under A.A.C. R18-11-602;
   b. Samples or analyses representative of water quality conditions at the time the data were collected;
   c. Data consisting of an adequate number of samples based on the nature of the water in question and the parameters being analyzed; and
   d. Methods of sampling and analysis, including analytical, statistical, and modeling methods that are generally accepted and validated by the scientific community as appropriate for use in assessing the condition of the water.
5. "Designated use" means those uses specified in 18 A.A.C. 11, Article 1 for each surface water or segment whether or not they are attaining.
6. "EPA" means the U.S. Environmental Protection Agency.
7. "Impaired water" means a Navigable water for which credible scientific data exists that satisfies the requirements of A.R.S. § 49-232 and that demonstrates that the water should be identified pursuant to 33 United States Code § 1313(d) and the regulations implementing that statute. A.R.S. § 49-231(1).
8. "Laboratory detection limit" means a "Method Reporting Limit" (MRL) or "Reporting Limit" (RL). These analogous terms describe the laboratory reported value, which is the lowest concentration level included on the calibration curve from the analysis of a pollutant that can be quantified in terms of precision and accuracy.
9. "Monitoring entity" means the Department or any person who collects physical, chemical, or biological data used for an impaired water identification or a TMDL decision.
10. "Naturally occurring condition" means the condition of a surface water or segment that would have occurred in the

absence of pollutant loadings as a result of human activity.

11. "Not attaining" means a surface water is assessed as impaired, but is not placed on the 303(d) List because:
    a. A TMDL is prepared and implemented for the surface water;
    b. An action, which meets the requirements of R18-11-604(D)(2)(h), is occurring and is expected to bring the surface water to attaining before the next 303(d) List submission; or
    c. The impairment of the surface water is due to pollution but not a pollutant, for which a TMDL load allocation cannot be developed.
12. "NPDES" means National Pollutant Discharge Elimination System.
13. "Planning List" means a list of surface waters and segments that the Department will review and evaluate to determine if the surface water or segment is impaired and whether a TMDL is necessary.
14. "Pollutant" means dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and industrial, municipal, and agricultural waste discharged into water. 33 U.S.C. 1362(6). Characteristics of water, such as dissolved oxygen, pH, temperature, turbidity, and suspended sediment are considered pollutants if they result or may result in the non-attainment of a water quality standard.
15. "Pollution" means "the man-made or man-induced alteration of the chemical, physical, biological, and radiological integrity of water." 33 U.S.C. 1362(19).
16. "QAP" means a quality assurance plan detailing how environmental data operations are planned, implemented, and assessed for quality during the duration of a project.
17. "Sampling event" means one or more samples taken under consistent conditions on one or more days at a distinct station or location.
18. "SAP" means a site specific sampling and analysis plan that describes the specifics of sample collection to ensure that data quality objectives are met and that samples collected and analyzed are representative of surface water conditions at the time of sampling.
19. "Spatially independent sample" means a sample that is collected at a distinct station or location. The sample is independent if the sample was collected:
    a. More than 200 meters apart from other samples, or
    b. Less than 200 meters apart, and collected to characterize the effect of an intervening tributary, outfall or other pollution source, or significant hydrographic or hydrologic change.
20. "Temporally independent sample" means a sample that is collected at the same station or location more than seven days apart from other samples.
21. "Threatened" means that a surface water or segment is currently attaining its designated use, however, trend analysis, based on credible and scientifically defensible data, indicates that the surface water or segment is likely to be impaired before the next listing cycle.
22. "TMDL" means total maximum daily load.
23. "TMDL decision" means a decision by the Department to:
    a. Prioritize an impaired water for TMDL development,
    b. Develop a TMDL for an impaired water, or
    c. Develop a TMDL implementation plan.
24. *"Total maximum daily load" means an estimation of the total amount of a pollutant from all sources that may be added to a water while still allowing the water to achieve and maintain applicable surface water quality standards. Each total maximum daily load shall include allocations for sources that contribute the pollutant to the water, as required by section 303(d) of the clean water act (33 United States Code section 1313(d)) and regulations implementing that statute to achieve applicable surface water quality standards.* A.R.S. § 49-231(4).
25. "Water quality standard" means a standard composed of designated uses (classification of waters), the numerical and narrative criteria applied to the specific water uses or classification, the antidegradation policy, and moderating provisions, for example, mixing zones, site-specific alternative criteria, and exemptions, in A.A.C. Title 18, Chapter 11, Article 1.
26. "WQARF" means the water quality assurance revolving fund established under A.R.S. § 49-282.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-602. Credible Data

A. Data are credible and relevant to an impaired water identification or a TMDL decision when:

1. Quality Assurance Plan. A monitoring entity, which contribute data for an impaired water identification or a TMDL decision, provides the Department with a QAP that contains, at a minimum, the elements listed in subsections (A)(1)(a) through (A)(1)(f). The Department may accept a QAP containing less than the required elements if the Department determines that an element is not relevant to the sampling activity and that its omission will not impact the quality of the results based upon the type of pollutants to be sampled, the type of surface water, and the purpose of the sampling.
    a. An approval page that includes the date of approval and the signatures of the approving officials, including the project manager and project quality assurance manager;
    b. A project organization outline that identifies all key personnel, organizations, and laboratories involved in monitoring, including the specific roles and responsibilities of key personnel in carrying out the procedures identified in the QAP and SAP, if applicable;
    c. Sampling design and monitoring data quality objectives or a SAP that meets the requirements of subsection (A)(2) to ensure that:
        i. Samples are spatially and temporally representative of the surface water,
        ii. Samples are representative of water quality conditions at the time of sampling, and
        iii. The monitoring is reproducible;
    d. The following field sampling information to assure that samples meet data quality objectives:
        i. Sampling and field protocols for each parameter or parametric group, including the sampling methods, equipment and containers, sample preservation, holding times, and any analysis

proposed for completion in the field or outside of a laboratory;

ii. Field and laboratory methods approved under subsection (A)(5);

iii. Handling procedures to identify samples and custody protocols used when samples are brought from the field to the laboratory for analysis;

iv. Quality control protocols that describe the number and type of field quality control samples for the project that includes, if appropriate for the type of sampling being conducted, field blanks, travel blanks, equipment blanks, method blanks, split samples, and duplicate samples;

v. Procedures for testing, inspecting, and maintaining field equipment;

vi. Field instrument calibration procedures that describe how and when field sampling and analytical instruments will be calibrated;

vii. Field notes and records that describe the conditions that require documentation in the field, such as weather, stream flow, transect information, distance from water edge, water and sample depth, equipment calibration measurements, field observations of watershed activities, and bank conditions. Indicate the procedures implemented for maintaining field notes and records and the process used for attaching pertinent information to monitoring results to assist in data interpretation;

viii. Minimum training and any specialized training necessary to do the monitoring, that includes the proper use and calibration of field equipment used to collect data, sampling protocols, quality assurance/quality control procedures, and how training will be achieved;

e. Laboratory analysis methods and quality assurance/quality control procedures that assure that samples meet data quality objectives, including:

i. Analytical methods and equipment necessary for analysis of each parameter, including identification of approved laboratory methods described in subsection (A)(5), and laboratory detection limits for each parameter;

ii. The name of the designated laboratory, its license number, if licensed by the Arizona Department of Health Services, and the name of a laboratory contact person to assist the Department with quality assurance questions;

iii. Quality controls that describe the number and type of laboratory quality control samples for the project, including, if appropriate for the type of sampling being conducted, field blanks, travel blanks, equipment blanks, method blanks, split samples, and duplicate samples;

iv. Procedures for testing, inspecting, and maintaining laboratory equipment and facilities;

v. A schedule for calibrating laboratory instruments, a description of calibration methods, and a description of how calibration records are maintained; and

vi. Sample equipment decontamination procedures that outline specific methods for sample collection and preparation of equipment, identify the frequency of decontamination, and describe the procedures used to verify decontamination;

f. Data review, management, and use that includes the following:

i. A description of the data handling process from field to laboratory, from laboratory to data review and validation, and from validation to data storage and use. Include the role and responsibility of each person for each step of the process, type of database or other storage used, and how laboratory and field data qualifiers are related to the laboratory result;

ii. Reports that describe the intended frequency, content, and distribution of final analysis reports and project status reports;

iii. Data review, validation, and verification that describes the procedure used to validate and verify data, the procedures used if errors are detected, and how data are accepted, rejected, or qualified; and

iv. Reconciliation with data quality objectives that describes the process used to determine whether the data collected meets the project objectives, which may include discarding data, setting limits on data use, or revising data quality objectives.

2. Sampling and analysis plan.

a. A monitoring entity shall develop a SAP that contains, at a minimum, the following elements:

i. The experimental design of the project, the project goals and objectives, and evaluation criteria for data results;

ii. The background or historical perspective of the project;

iii. Identification of target conditions, including a discussion of whether any weather, seasonal variations, stream flow, lake level, or site access may affect the project and the consideration of these factors;

iv. The data quality objectives for measurement of data that describe in quantitative and qualitative terms how the data meet the project objectives of precision, accuracy, completeness, comparability, and representativeness;

v. The types of samples scheduled for collection;

vi. The sampling frequency;

vii. The sampling periods;

viii. The sampling locations and rationale for the site selection, how site locations are benchmarked, including scaled maps indicating approximate location of sites; and

ix. A list of the field equipment, including tolerance range and any other manufacturer's specifications relating to accuracy and precision.

b. The Department may accept a SAP containing less than the required elements if the Department determines that an element is not relevant to the sampling activity and that its omission will not impact the quality of the results based upon the type of pollutants to be samples, the type of surface water, and the purpose of the sampling.

3. The monitoring entity may include any of the following in the QAP or SAP:

a. The name, title, and role of each person and organization involved in the project, identifying specific roles and responsibilities for carrying out the procedures identified in the QAP and SAP;
b. A distribution list of each individual and organization receiving a copy of the approved QAP and SAP;
c. A table of contents;
d. A health and safety plan;
e. The inspection and acceptance requirements for supplies;
f. The data acquisition that describes types of data not obtained through this monitoring activity, but used in the project;
g. The audits and response actions that describe how field, laboratory, and data management activities and sampling personnel are evaluated to ensure data quality, including a description of how the project will correct any problems identified during these assessments; and
h. The waste disposal methods that identify wastes generated in sampling and methods for disposal of those wastes.

4. Exceptions. The Department may determine that the following data are also credible and relevant to an impaired water identification or TMDL decision when data were collected, provided the conditions in subsections (A)(5), (A)(6), and (B) are met, and where the data were collected in the surface water or segment being evaluated for impairment:
a. The data were collected before July 12, 2002 and the Department determines that the data yield results of comparable reliability to the data collected under subsections (A)(1) and (A)(2);
b. The data were collected after July 12, 2002 as part of an ongoing monitoring effort by a governmental agency and the Department determines that the data yield results of comparable reliability to the data collected under subsections (A)(1) and (A)(2); or
c. The instream water quality data were or are collected under the terms of a NPDES or AZPDES permit or a compliance order issued by the Department or EPA, a consent decree signed by the Department or EPA, or a sampling program approved by the Department or EPA under WQARF or CERCLA, and the Department determines that the data yield results of comparable reliability to data collected under subsections (A)(1) and (A)(2).

5. Data collection, preservation, and analytical procedures. The monitoring entity shall collect, preserve, and analyze data using methods of sample collection, preservation, and analysis established under A.A.C. R9-14-610.
6. Laboratory. The monitoring entity shall ensure that chemical and toxicological samples are analyzed in a state-licensed laboratory, a laboratory exempted by the Arizona Department of Health Services for specific analyses, or a federal or academic laboratory that can demonstrate proper quality assurance/quality control procedures substantially equal to those required by the Arizona Department of Health Services, and shall ensure that the laboratory uses approved methods identified in A.A.C. R9-14-610.

B. Documentation for data submission. The monitoring entity shall provide the Department with the following information either before or with data submission:
1. A copy of the QAP or SAP, or both, revisions to a previously submitted QAP or SAP, and any other information necessary for the Department to evaluate the data under subsection (A)(4);
2. The applicable dates of the QAP and SAP, including any revisions;
3. Written assurance that the methods and procedures specified in the QAP and SAP were followed;
4. The name of the laboratory used for sample analyses and its certification number, if the laboratory is licensed by the Arizona Department of Health Services;
5. The quality assurance/quality control documentation, including the analytical methods used by the laboratory, method number, detection limits, and any blank, duplicate, and spike sample information necessary to properly interpret the data, if different from that stated in the QAP or SAP;
6. The data reporting unit of measure;
7. Any field notes, laboratory comments, or laboratory notations concerning a deviation from standard procedures, quality control, or quality assurance that affects data reliability, data interpretation, or data validity; and
8. Any other information, such as complete field notes, photographs, climate, or other information related to flow, field conditions, or documented sources of pollutants in the watershed, if requested by the Department for interpreting or validating data.

C. Recordkeeping. The monitoring entity shall maintain all records, including sample results, for the duration of the listing cycle. If a surface water or segment is added to the Planning List or to the 303(d) List, the Department shall coordinate with the monitoring entity to ensure that records are kept for the duration of the listing.

Historical Note
New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-603. General Data Interpretation Requirements

A. The Department shall use the following data conventions to interpret data for impaired water identifications and TMDL decisions:
1. Data reported below laboratory detection limits.
a. When the analytical result is reported as <X, where X is the laboratory detection limit for the analyte and the laboratory detection limit is less than or equal to the surface water quality standard, consider the result as meeting the water quality standard:
i. Use these statistically derived values in trend analysis, descriptive statistics or modeling if there is sufficient data to support the statistical estimation of values reported as less than the laboratory detection limit; or
ii. Use one-half of the value of the laboratory detection limit in trend analysis, descriptive statistics, or modeling, if there is insufficient data to support the statistical estimation of values reported as less than the laboratory detection limit.
b. When the sample value is less than or equal to the laboratory detection limit but the laboratory detection limit is greater than the surface water quality standard, shall not use the result for impaired water identifications or TMDL decisions;

2. Identify the field equipment specifications used for each listing cycle or TMDL developed. A field sample measurement within the manufacturer's specification for accuracy meets surface water quality standards;
3. Resolve a data conflict by considering the factors identified under the weight-of-evidence determination in R18-11-605(B);
4. When multiple samples from a surface water or segment are not spatially or temporally independent, or when lake samples are from multiple depths, use the following resultant value to represent the specific dataset:
   a. The appropriate measure of central tendency for the dataset for:
      i. A pollutant listed in the surface water quality standards 18 A.A.C. 11, Article 1, Appendix A, Table 1, except for nitrate or nitrate/nitrite;
      ii. A chronic water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2;
      iii. A surface water quality standard for a pollutant that is expressed as an annual or geometric mean;
      iv. The surface water quality standard for temperature or the single sample maximum water quality standard for suspended sediment concentration, nitrogen, and phosphorus in R18-11-109;
      v. The surface water quality standard for radiochemicals in R18-11-109(G); or
      vi. Except for chromium, all single sample maximum water quality standards in R18-11-112.
   b. The maximum value of the dataset for:
      i. The acute water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2 and acute water quality standard in R18-11-112;
      ii. The surface water quality standard for nitrate or nitrate/nitrite in 18 A.A.C. 11, Article 1, Appendix A, Table 1;
      iii. The single sample maximum water quality standard for bacteria in subsections R18-11-109(A); or
      iv. The 90th percentile water quality standard for nitrogen and phosphorus in R18-11-109(F) and R18-11-112.
   c. The worst case measurement of the dataset for:
      i. Surface water quality standard for dissolved oxygen under R18-11-109(E). For purposes of this subsection, worst case measurement means the minimum value for dissolved oxygen;
      ii. Surface water quality standard for pH under R18-11-109(B). For purposes of this subsection, "worst case measurement" means both the minimum and maximum value for pH.

B. The Department shall not use the following data for placing a surface water or segment on the Planning List, the 303(d) List, or in making a TMDL decision.
1. Any measurement outside the range of possible physical or chemical measurements for the pollutant or measurement equipment,
2. Uncorrected data transcription errors or laboratory errors, and
3. An outlier identified through statistical procedures, where further evaluation determines that the outlier represents a valid measure of water quality but should be excluded from the dataset.

C. The Department may employ fundamental statistical tests if appropriate for the collected data and type of surface water when evaluating a surface water or segment for impairment or in making a TMDL decision. The statistical tests include descriptive statistics, frequency distribution, analysis of variance, correlation analysis, regression analysis, significance testing, and time series analysis.

D. The Department may employ modeling when evaluating a surface water or segment for impairment or in making a TMDL decision, if the method is appropriate for the type of waterbody and the quantity and quality of available data meet the requirements of R18-11-602. Modeling methods include:
1. Better Assessment Science Integrating Source and Nonpoint Sources (BASINS),
2. Fundamental statistics, including regression analysis,
3. Hydrologic Simulation Program-Fortran (HSPF),
4. Spreadsheet modeling, and
5. Hydrologic Engineering Center (HEC) programs developed by the Army Corps of Engineers.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-604. Types of Surface Waters Placed on the Planning List and 303(d) List

A. The Department shall evaluate, at least every five years, Arizona's surface waters by considering all readily available data.
1. The Department shall place a surface water or segment on:
   a. The Planning List if it meets any of the criteria described in subsection (D), or
   b. The 303(d) List if it meets the criteria for listing described in subsection (E).
2. The Department shall remove a surface water or segment from the Planning List based on the requirements in R18-11-605(E)(1) or from the 303(d) List, based on the requirements in R18-11-605(E)(2).
3. The Department may move surface waters or segments between the Planning List and the 303(d) List based on the criteria established in R18-11-604 and R18-11-605.

B. When placing a surface water or segment on the Planning List or the 303(d) List, the Department shall list the stream reach, derived from EPA's Reach File System or National Hydrography Dataset, or the entire lake, unless the data indicate that only a segment of the stream reach or lake is impaired or not attaining its designated use, in which case, the Department shall describe only that segment for listing.

C. Exceptions. The Department shall not place a surface water or segment on either the Planning List or the 303(d) List if the non-attainment of a surface water quality standard is due to one of the following:
1. Pollutant loadings from naturally occurring conditions alone are sufficient to cause a violation of applicable water quality standards;
2. The data were collected within a mixing zone or under a variance or nutrient waiver established in a NPDES or AZPDES permit for the specific parameter and the result does not exceed the alternate discharge limitation established in the permit. The Department may use data collected within these areas for modeling or allocating loads in a TMDL decision; or

3. An activity exempted under R18-11-117, R18-11-118, or a condition exempted under R18-11-119.

D. Planning List.

1. The Department shall:
   a. Use the Planning List to prioritize surface waters for monitoring and evaluation as part of the Department's watershed management approach;
   b. Provide the Planning List to EPA; and
   c. Evaluate each surface water and segment on the Planning List for impairment based on the criteria in R18-11-605(D) to determine the source of the impairment.
2. The Department shall place a surface water or segment on the Planning List based the criteria in R18-11-605(C). The Department may also include a surface water or segment on the Planning List when:
   a. A TMDL is completed for the pollutant and approved by EPA;
   b. The surface water or segment is on the 1998 303(d) List but the dataset used for the listing:
      i. Does not meet the credible data requirements of R18-11-602, or
      ii. Contains insufficient samples to meet the data requirements under R18-11-605(D);
   c. Some monitoring data exist but there are insufficient data to determine whether the surface water or segment is impaired or not attaining, including:
      i. A numeric surface water quality standard is exceeded, but there are not enough samples or sampling events to fulfill the requirements of R18-11-605(D);
      ii. Evidence exists of a narrative standard violation, but the amount of evidence is insufficient, based on narrative implementation procedures and the requirements of R18-11-605(D)(3);
      iii. Existing monitoring data do not meet credible data requirements in R18-11-602; or
      iv. A numeric surface water quality standard is exceeded, but there are not enough sample results above the laboratory detection limit to support statistical analysis as established in R18-11-603(A)(1).
   d. The surface water or segment no longer meets the criteria for impairment based on a change in the applicable surface water quality standard or a designated use approved by EPA under section 303(c)(1) of the Clean Water Act, but insufficient current or original monitoring data exist to determine whether the surface water or segment will meet current surface water quality standards;
   e. Trend analysis using credible and scientifically defensible data indicate that surface water quality standards may be exceeded by the next assessment cycle;
   f. The exceedance of surface water quality standards is due to pollution, but not a pollutant;
   g. Existing data were analyzed using methods with laboratory detection limits above the numeric surface water quality standard but analytical methods with lower laboratory detection limits are available;
   h. The surface water or segment is expected to attain its designated use by the next assessment as a result of existing or proposed technology-based effluent limitations or other pollution control requirements under local, state, or federal authority. The appropriate entity shall provide the Department with the following documentation to support placement on the Planning List:
      i. Verification that discharge controls are required and enforceable;
      ii. Controls are specific to the surface water or segment, and pollutant of concern;
      iii. Controls are in place or scheduled for implementation; and
      iv. There are assurances that the controls are sufficient to bring about attainment of water quality standards by the next 303(d) List submission; or
   i. The surface water or segment is threatened due to a pollutant and, at the time the Department submits a final 303(d) List to EPA, there are no federal regulations implementing section 303(d) of the Clean Water Act that require threatened waters be included on the list.

E. 303(d) List. The Department shall:

1. Place a surface water or segment on the 303(d) List if the Department determines:
   a. Based on R18-11-605(D), that the surface water or segment is impaired due to a pollutant and that a TMDL decision is necessary; or
   b. That the surface water or segment is threatened due to a pollutant and, at the time the Department submits a final 303(d) List to EPA, there are federal regulations implementing section 303(d) of the Clean Water Act that require threatened waters be included on the list.
2. Provide public notice of the 303(d) List according to the requirements of A.R.S. § 49-232 and submit the 303(d) List according to section 303(d) of the Clean Water Act.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-605. Evaluating A Surface Water or Segment For Listing and Delisting

A. The Department shall compile and evaluate all reasonably current, credible, and scientifically defensible data to determine whether a surface water or segment is impaired or not attaining.

B. Weight-of-evidence approach.

1. The Department shall consider the following concepts when evaluating data:
   a. Data or information collected during critical conditions may be considered separately from the complete dataset, when the data show that the surface water or segment is impaired or not attaining its designated use during those critical conditions, but attaining its uses during other periods. Critical conditions may include stream flow, seasonal periods, weather conditions, or anthropogenic activities;
   b. Whether the data indicate that the impairment is due to persistent, seasonal, or recurring conditions. If the data do not represent persistent, recurring, or seasonal conditions, the Department may place the surface water or segment on the Planning List;
   c. Higher quality data over lower quality data when making a listing decision. Data quality is established by the reliability, precision, accuracy, and represen-

tativeness of the data, based on factors identified in R18-11-602(A) and (B), including monitoring methods, analytical methods, quality control procedures, and the documented field and laboratory quality control information submitted with the data. The Department shall consider the following factors when determining higher quality data:

i. The age of the measurements. Newer measurements are weighted heavier than older measurements, unless the older measurements are more representative of critical flow conditions;

ii. Whether the data provide a direct measure of an impact on a designated use. Direct measurements are weighted heavier than measurements of an indicator or surrogate parameter; or

iii. The amount or frequency of the measurements. More frequent data collection are weighted heavier than nominal datasets.

2. The Department shall evaluate the following factors to determine if the water quality evidence supports a finding that the surface water or segment is impaired or not attaining:

a. An exceedance of a numeric surface water quality standard based on the criteria in subsections (C)(1), (C)(2), (D)(1), and (D)(2);

b. An exceedance of a narrative surface water quality standard based on the criteria in subsections (C)(3) and (D)(3);

c. Additional information that determines whether a water quality standard is exceeded due to a pollutant, suspected pollutant, or naturally occurring condition:

i. Soil type, geology, hydrology, flow regime, biological community, geomorphology, climate, natural process, and anthropogenic influence in the watershed;

ii. The characteristics of the pollutant, such as its solubility in water, bioaccumulation potential, sediment sorption potential, or degradation characteristics, to assist in determining which data more accurately indicate the pollutant's presence and potential for causing impairment; and

iii. Available evidence of direct or toxic impacts on aquatic life, wildlife, or human health, such as fish kills and beach closures, where there is sufficient evidence that these impacts occurred due to water quality conditions in the surface water.

d. Other available water quality information, such as NPDES or AZPDES water quality discharge data, as applicable.

e. If the Department determines that a surface water or segment does not merit listing under numeric water quality standards based on criteria in subsections (C)(1), (C)(2), (D)(1), or (D)(2) for a pollutant, but there is evidence of a narrative standard exceedance in that surface water or segment under subsection (D)(3) as a result of the presence of the same pollutant, the Department shall list the surface water or segment as impaired only when the evidence indicates that the numeric water quality standard is insufficient to protect the designated use of the surface water or segment and the Department justifies the listing based on any of the following:

i. The narrative standard data provide a more direct indication of impairment as supported by professionally prepared and peer-reviewed publications;

ii. Sufficient evidence of impairment exists due to synergistic effects of pollutant combinations or site-specific environmental factors; or

iii. The pollutant is bioaccumulative, relatively insoluble in water, or has other characteristics that indicate it is occurring in the specific surface water or segment at levels below the laboratory detection limits, but at levels sufficient to result in an impairment.

3. The Department may consider a single line of water quality evidence when the evidence is sufficient to demonstrate that the surface water or segment is impaired or not attaining.

C. Planning List.

1. When evaluating a surface water or segment for placement on the Planning List.

a. Consider at least ten spatially or temporally independent samples collected over three or more temporally independent sampling events; and

b. Determine numeric water quality standards exceedances. The Department shall:

i. Place a surface water or segment on the Planning List following subsection (B), if the number of exceedances of a surface water quality standard is greater than or equal to the number listed in Table 1, which provides the number of exceedances that indicate a minimum of a 10 percent exceedance frequency with a minimum of a 80 percent confidence level using a binomial distribution for a given sample size; or

ii. For sample datasets exceeding those shown in Table 1, calculate the number of exceedances using the following equation: $(X \geq x \mid n, p)$ where n = number of samples; p = exceedance probability of 0.1; x = smallest number of exceedances required for listing with "n" samples; and confidence level ≥ 80 percent.

Table 1. Minimum Number of Samples Exceeding the Numeric Standard

MINIMUM NUMBER OF SAMPLES EXCEEDING THE NUMERIC STANDARD								
Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard
From	To		From	To		From	To	
10	15	3	173	181	22	349	357	41
16	23	4	182	190	23	358	367	42
24	31	5	191	199	24	368	376	43

32	39	6	200	208	25	377	385	44
40	47	7	209	218	26	386	395	45
48	56	8	219	227	27	396	404	46
57	65	9	228	236	28	405	414	47
66	73	10	237	245	29	415	423	48
74	82	11	246	255	30	424	432	49
83	91	12	256	264	31	433	442	50
92	100	13	265	273	32	443	451	51
101	109	14	274	282	33	452	461	52
110	118	15	283	292	34	462	470	53
119	126	16	293	301	35	471	480	54
127	136	17	302	310	36	481	489	55
137	145	18	311	320	37	490	499	56
146	154	19	321	329	38	500		57
155	163	20	330	338	39			
164	172	21	339	348	40			

2. When there are less than ten samples, the Department shall place a surface water or segment on the Planning List following subsection (B), if three or more temporally independent samples exceed the following surface water quality standards:
   a. The surface water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 1, except for nitrate or nitrate/nitrite;
   b. The surface water quality standard for temperature or the single sample maximum water quality standard for suspended sediment concentration, nitrogen, and phosphorus in R18-11-109;
   c. The surface water quality standard for radiochemicals in R18-11-109(G);
   d. The surface water quality standard for dissolved oxygen under R18-11-109(E);
   e. The surface water quality standard for pH under R18-11-109(B); or
   f. The following surface water quality standards in R18-11-112:
      i. Single sample maximum standards for nitrogen and phosphorus,
      ii. All metals except chromium, or
      iii. Turbidity.
3. The Department shall place a surface water or segment on the Planning List if information in subsections (B)(2)(c), (B)(2)(d), and (B)(2)(e) indicates that a narrative water quality standard violation exists, but no narrative implementation procedure required under A.R.S. § 49-232(F) exists to support use of the information for listing.

D. 303(d) List.
1. When evaluating a surface water or segment for placement on the 303(d) List.
   a. Consider at least 20 spatially or temporally independent samples collected over three or more temporally independent sampling events; and
   b. Determine numeric water quality standards exceedances. The Department shall:
      i. Place a surface water or segment on the 303(d) List, following subsection (B), if the number of exceedances of a surface water quality standard is greater than or equal to the number listed in Table 2, which provides the number of exceedances that indicate a minimum of a 10 percent exceedance frequency with a minimum of a 90 percent confidence level using a binomial distribution, for a given sample size; or
      ii. For sample datasets exceeding those shown in Table 2, calculate the number of exceedances using the following equation: $(X \geq x | n, p)$ where n = number of samples; p = exceedance probability of 0.1; x = smallest number of exceedances required for listing with "n" samples; and confidence level ≥ 90 percent.

Table 2. Minimum Number of Samples Exceeding the Numeric Standard

MINIMUM NUMBER OF SAMPLES EXCEEDING THE NUMERIC STANDARD								
Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard	Number of Samples		Number of Samples Exceeding Standard
From	To		From	To		From	To

139	147	20	307	315	39	480	489	58
148	156	21	316	324	40	490	498	59
157	164	22	325	333	41	499	500	60
165	173	23	334	343	42			

2. The Department shall place a surface water or segment on the 303(d) List, following subsection (B) without the required number of samples or numeric water quality standard exceedances under subsection (D)(1), if either the following conditions occur:
   a. More than one temporally independent sample in any consecutive three-year period exceeds the surface water quality standard in:
      i. The acute water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2 and the acute water quality standards in R18-11-112;
      ii. The surface water quality standard for nitrate or nitrate/nitrite in 18 A.A.C. 11, Article 1, Appendix A, Table 1; or
      iii. The single sample maximum water quality standard for bacteria in subsections R18-11-109(A).
   b. More than one exceedance of an annual mean, 90th percentile, aquatic and wildlife chronic water quality standard, or a bacteria 30-day geometric mean water quality standard occurs, as specified in R18-11-109, R18-11-110, R18-11-112, or 18 A.A.C. 11, Article 1, Appendix A, Table 2.
3. Narrative water quality standards exceedances. The Department shall place a surface water or segment on the Planning List if the listing requirements are met under A.R.S. § 49-232(F).

E. Removing a surface water, segment, or pollutant from the Planning List or the 303(d) List.
1. Planning List. The Department shall remove a surface water, segment, or pollutant from the Planning List when:
   a. Monitoring activities indicate that:
      i. There is sufficient credible data to determine that the surface water or segment is impaired under subsection (D), in which case the Department shall place the surface water or segment on the 303(d) List. This includes surface waters with an EPA approved TMDL when the Department determines that the TMDL strategy is insufficient for the surface water or segment to attain water quality standards; or
      ii. There is sufficient credible data to determine that the surface water or segment is attaining all designated uses and standards.
   b. All pollutants for the surface water or segment are delisted.
2. 303(d) List. The Department shall:
   a. Remove a pollutant from a surface water or segment from the 303(d) List based on one or more of the following criteria:
      i. The Department developed, and EPA approved, a TMDL for the pollutant;
      ii. The data used for previously listing the surface water or segment under R18-11-605(D) is superseded by more recent credible and scientifically defensible data meeting the requirements of R18-11-602, showing that the surface water or segment meets the applicable numeric or narrative surface water quality standard. When evaluating data to remove a pollutant from the 303(d) List, the monitoring entity shall collect the more recent data under similar hydrologic or climatic conditions as occurred when the samples were taken that indicated impairment, if those conditions still exist;
      iii. The surface water or segment no longer meets the criteria for impairment based on a change in the applicable surface water quality standard or a designated use approved by EPA under section 303(c)(1) of the Clean Water Act;
      iv. The surface water or segment no longer meets the criteria for impairment for the specific narrative water quality standard based on a change in narrative water quality standard implementation procedures;
      v. A re-evaluation of the data indicate that the surface water or segment does not meet the criteria for impairment because of a deficiency in the original analysis; or
      vi. Pollutant loadings from naturally occurring conditions alone are sufficient to cause a violation of applicable water quality standards;
   b. Remove a surface water, segment, or pollutant from the 303(d) List, based on criteria that are no more stringent than the listing criteria under subsection (D);
   c. Remove a surface water or segment from the 303(d) List if all pollutants for the surface water or segment are removed from the list;
   d. Remove a surface water, segment, or pollutant, from the 303(d) List and place it on the Planning List, if:
      i. The surface water, segment or pollutant was on the 1998 303(d) List and the dataset used in the original listing does not meet the credible data requirements under R18-11-602, or contains insufficient samples to meet the data requirements under subsection (D); or

ii. The monitoring data indicate that the impairment is due to pollution, but not a pollutant.

Historical Note
New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-606. TMDL Priority Criteria for 303(d) Listed Surface Waters or Segments

A. In addition to the factors specified in A.R.S. § 49-233(C), the Department shall consider the following when prioritizing an impaired water for development of TMDLs:
1. A change in a water quality standard;
2. The date the surface water or segment was added to the 303(d) List;
3. The presence in a surface water or segment of species listed as threatened or endangered under section 4 of the Endangered Species Act;
4. The complexity of the TMDL;
5. State, federal, and tribal policies and priorities; and
6. The efficiencies of coordinating TMDL development with the Department's surface water monitoring program, the watershed monitoring rotation, or with remedial programs.

B. The Department shall prioritize an impaired surface water or segment for TMDL development based on the factors specified in A.R.S. § 49-233(C) and subsection (A) as follows:
1. Consider an impaired surface water or segment a high priority if:
   a. The listed pollutant poses a substantial threat to the health and safety of humans, aquatic life, or wildlife based on:
      i. The number and type of designated uses impaired;
      ii. The type and extent of risk from the impairment to human health, aquatic life, or wildlife;
      iii. The pollutant causing the impairment, or
      iv. The severity, magnitude, and duration the surface water quality standard was exceeded;
   b. A new or modified individual NPDES or AZPDES permit is sought for a new or modified discharge to the impaired water;
   c. The listed surface water or segment is listed as a unique water in A.A.C. R18-11-112 or is part of an area classified as a "wilderness area," "wild and scenic river," or other federal or state special protection of the water resource;
   d. The listed surface water or segment contains a species listed as threatened or endangered under the federal Endangered Species Act and the presence of the pollutant in the surface water or segment is likely to jeopardize the listed species;
   e. A delay in conducting the TMDL could jeopardize the Department's ability to gather sufficient credible data necessary to develop the TMDL;
   f. There is significant public interest and support for the development of a TMDL;
   g. The surface water or segment has important recreational and economic significance to the public; or
   h. The pollutant is listed for eight years or more.
2. Consider an impaired surface water or segment a medium priority if:
   a. The surface water or segment fails to meet more than one designated use;
   b. The pollutant exceeds more than one surface water quality standard;
   c. A surface water quality standard exceedance is correlated to seasonal conditions caused by natural events, such as storms, weather patterns, or lake turnover;
   d. It will take more than two years for proposed actions in the watershed to result in the surface water attaining applicable water quality standards;
   e. The type of pollutant and other factors relating to the surface water or segment make the TMDL complex; or
   f. The administrative needs of the Department, including TMDL schedule commitments with EPA, permitting requirements, or basin priorities that require completion of the TMDL.
3. Consider an impaired surface water or segment a low priority if:
   a. The Department has formally submitted a proposal to delist the surface water, segment, or pollutant to EPA based on R18-11-605(E)(2). If the Department makes the submission outside the listing process cycle, the change in priority ranking will not be effective until EPA approves the submittal;
   b. The Department has modified, or formally proposed for modification, the designated use or applicable surface water quality standard, resulting in an impaired water no longer being impaired, but the modification has not been approved by EPA;
   c. The surface water or segment is expected to attain surface water quality standards due to any of the following:
      i. Recently instituted treatment levels or best management practices in the drainage area,
      ii. Discharges or activities related to the impairment have ceased, or
      iii. Actions have been taken and controls are in place or scheduled for implementation that will likely to bring the surface water back into compliance;
   d. The surface water or segment is ephemeral or intermittent. The Department shall re-prioritize the surface water or segment if the presence of the pollutant in the listed water poses a threat to the health and safety of humans, aquatic life, or wildlife using the water, or the pollutant is contributing to the impairment of a downstream perennial surface water or segment;
   e. The pollutant poses a low ecological and human health risk;
   f. Insufficient data exist to determine the source of the pollutant load;
   g. The uncertainty of timely coordination with national and international entities concerning international waters;
   h. Naturally occurring conditions are a major contributor to the impairment; and
   i. No documentation or effective analytical tools exist to develop a TMDL for the surface water or segment with reasonable accuracy.

C. The Department will target surface waters with high priority factors in subsections (B)(1)(a) through (B)(1)(d) for initiation of TMDLs within two years following EPA approval of the 303(d) List.

D. The Department may shift priority ranking of a surface water or segment for any of the following reasons:
1. A change in federal, state, or tribal policies or priorities that affect resources to complete a TMDL;
2. Resource efficiencies for coordinating TMDL development with other monitoring activities, including the Department's ambient monitoring program that monitors watersheds on a five-year rotational basis;
3. Resource efficiencies for coordinating TMDL development with Department remedial or compliance programs;
4. New information is obtained that will revise whether the surface water or segment is a high priority based on factors in subsection (B); and
5. Reduction or increase in staff or budget involved in the TMDL development.

E. The Department may complete a TMDL initiated before July 12, 2002 for a surface water or segment that was listed as impaired on the 1998 303(d) List but does not qualify for listing under the criteria in R18-11-605, if:
1. The TMDL investigation establishes that the water quality standard is not being met and the allocation of loads is expected to bring the surface water into compliance with standards,
2. The Department estimates that more than 50 percent of the cost of completing the TMDL has been spent,
3. There is community involvement and interest in completing the TMDL, or
4. The TMDL is included within an EPA-approved state workplan initiated before July 12, 2002.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

49-104. Powers and duties of the department and director

A. The department shall:

1. Formulate policies, plans and programs to implement this title to protect the environment.

2. Stimulate and encourage all local, state, regional and federal governmental agencies and all private persons and enterprises that have similar and related objectives and purposes, cooperate with those agencies, persons and enterprises and correlate department plans, programs and operations with those of the agencies, persons and enterprises.

3. Conduct research on its own initiative or at the request of the governor, the legislature or state or local agencies pertaining to any department objectives.

4. Provide information and advice on request of any local, state or federal agencies and private persons and business enterprises on matters within the scope of the department.

5. Consult with and make recommendations to the governor and the legislature on all matters concerning department objectives.

6. Promote and coordinate the management of air resources to ensure their protection, enhancement and balanced utilization consistent with the environmental policy of this state.

7. Promote and coordinate the protection and enhancement of the quality of water resources consistent with the environmental policy of this state.

8. Encourage industrial, commercial, residential and community development that maximizes environmental benefits and minimizes the effects of less desirable environmental conditions.

9. Ensure the preservation and enhancement of natural beauty and man-made scenic qualities.

10. Provide for the prevention and abatement of all water and air pollution including that related to particulates, gases, dust, vapors, noise, radiation, odor, nutrients and heated liquids in accordance with article 3 of this chapter and chapters 2 and 3 of this title.

11. Promote and recommend methods for the recovery, recycling and reuse or, if recycling is not possible, the disposal of solid wastes consistent with sound health, scenic and environmental quality policies. The department shall report annually on its revenues and expenditures relating to the solid and hazardous waste programs overseen or administered by the department.

12. Prevent pollution through regulating the storage, handling and transportation of solids, liquids and gases that may cause or contribute to pollution.

13. Promote the restoration and reclamation of degraded or despoiled areas and natural resources.

14. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

15. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

16. Unless specifically authorized by the legislature, ensure that state laws, rules, standards, permits, variances and orders are adopted and construed to be consistent with and not more stringent than the corresponding federal law that addresses the same subject matter. This paragraph does not adversely affect standards adopted by an Indian tribe under federal law.

17. Provide administrative and staff support for the oil and gas conservation commission.

B. The department, through the director, shall:

1. Contract for the services of outside advisers, consultants and aides reasonably necessary or desirable to enable the department to adequately perform its duties.

2. Contract and incur obligations reasonably necessary or desirable within the general scope of department activities and operations to enable the department to adequately perform its duties.

3. Use any medium of communication, publication and exhibition when disseminating information, advertising and publicity in any field of its purposes, objectives or duties.

4. Adopt procedural rules that are necessary to implement the authority granted under this title but that are not inconsistent with other provisions of this title.

5. Contract with other agencies, including laboratories, in furthering any department program.

6. Use monies, facilities or services to provide matching contributions under federal or other programs that further the objectives and programs of the department.

7. Accept gifts, grants, matching monies or direct payments from public or private agencies or private persons and enterprises for department services and publications and to conduct programs that are consistent with the general purposes and objectives of this chapter. Monies received pursuant to this paragraph shall be deposited in the department fund corresponding to the service, publication or program provided.

8. Provide for the examination of any premises if the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed on the premises. The director shall give the owner or operator the opportunity for its representative to accompany the director on an examination of those premises. Within forty-five days after the date of the examination, the department shall provide to the owner or operator a copy of any report produced as a result of any examination of the premises.

9. Supervise sanitary engineering facilities and projects in this state, authority for which is vested in the department, and own or lease land on which sanitary engineering facilities are located, and operate the facilities, if the director determines that owning, leasing or operating is necessary for the public health, safety or welfare.

10. Adopt and enforce rules relating to approving design documents for constructing, improving and operating sanitary engineering and other facilities for disposing of solid, liquid or gaseous deleterious matter.

11. Define and prescribe reasonably necessary rules regarding the water supply, sewage disposal and garbage collection and disposal for subdivisions. The rules shall:

(a) Provide for minimum sanitary facilities to be installed in the subdivision and may require that water systems plan for future needs and be of adequate size and capacity to deliver specified minimum quantities of drinking water and to treat all sewage.

(b) Provide that the design documents showing or describing the water supply, sewage disposal and garbage collection facilities be submitted with a fee to the department for review and that no lots in any subdivision be offered for sale before compliance with the standards and rules has been demonstrated by approval of the design documents by the department.

12. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious conditions at those places. The rules shall prescribe minimum standards for the design of and for sanitary conditions at any public or semipublic swimming pool or bathing place and provide for abatement as public nuisances of premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of health services and shall be consistent with the rules adopted by the director of the department of health services pursuant to section 36-136, subsection I, paragraph 10.

13. Prescribe reasonable rules regarding sewage collection, treatment, disposal and reclamation systems to prevent the transmission of sewage borne or insect borne diseases. The rules shall:

(a) Prescribe minimum standards for the design of sewage collection systems and treatment, disposal and reclamation systems and for operating the systems.

(b) Provide for inspecting the premises, systems and installations and for abating as a public nuisance any collection system, process, treatment plant, disposal system or reclamation system that does not comply with the minimum standards.

(c) Require that design documents for all sewage collection systems, sewage collection system extensions, treatment plants, processes, devices, equipment, disposal systems, on-site wastewater treatment facilities and reclamation systems be submitted with a fee for review to the department and may require that the design documents anticipate and provide for future sewage treatment needs.

(d) Require that construction, reconstruction, installation or initiation of any sewage collection system, sewage collection system extension, treatment plant, process, device, equipment, disposal system, on-site wastewater treatment facility or reclamation system conform with applicable requirements.

14. Prescribe reasonably necessary rules regarding excreta storage, handling, treatment, transportation and disposal. The rules may:

(a) Prescribe minimum standards for human excreta storage, handling, treatment, transportation and disposal and shall provide for inspection of premises, processes and vehicles and for abating as public nuisances any premises, processes or vehicles that do not comply with the minimum standards.

(b) Provide that vehicles transporting human excreta from privies, septic tanks, cesspools and other treatment processes be licensed by the department subject to compliance with the rules. The department may require payment of a fee as a condition of licensure. The department shall establish by rule a fee as a condition of licensure, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

15. Perform the responsibilities of implementing and maintaining a data automation management system to support the reporting requirements of title III of the superfund amendments and reauthorization act of 1986 (P.L. 99-499) and article 2 of this chapter.

16. Approve remediation levels pursuant to article 4 of this chapter.

17. Establish or revise fees by rule pursuant to the authority granted under title 44, chapter 9, articles 8 and 9 and chapters 4 and 5 of this title for the department to adequately perform its duties. All fees shall be fairly assessed and impose the least burden and cost to the parties subject to the fees. In establishing or revising fees, the department shall base the fees on the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses as defined in title 41, chapter 6 and enforcing the requirements of the applicable regulatory program.

18. Appoint a person with a background in oil and gas conservation to act on behalf of the oil and gas conservation commission and administer and enforce the applicable provisions of title 27, chapter 4 relating to the oil and gas conservation commission.

C. The department may:

1. Charge fees to cover the costs of all permits and inspections it performs to ensure compliance with rules adopted under section 49-203 except that state agencies are exempt from paying the fees.

2. Monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210.

3. Contract with private consultants for the purposes of assisting the department in reviewing applications for licenses, permits or other authorizations to determine whether an applicant meets the criteria for issuance of the license, permit or other authorization. If the department contracts with a consultant under this paragraph, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding any other law, monies paid by applicants for expedited reviews pursuant to this paragraph are appropriated to the department for use in paying consultants for services.

D. The director may:

1. If the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed, inspect any person or property in transit through this state and any vehicle in which the person or property is being transported and detain or disinfect the person, property or vehicle as reasonably necessary to protect the environment if a violation exists.

2. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.

49-203. Powers and duties of the director and department

A. The director shall:

1. Adopt, by rule, water quality standards in the form and subject to the considerations prescribed by article 2 of this chapter.

2. Adopt, by rule, a permit program for WOTUS that is consistent with but not more stringent than the requirements of the clean water act for the point source discharge of any pollutant or combination of pollutants into WOTUS. The program and the rules shall be sufficient to enable this state to administer the permit program identified in section 402(b) of the clean water act, including the sewage sludge requirements of section 405 of the clean water act and as prescribed by article 3.1 of this chapter.

3. Apply the program and rules authorized under paragraph 2 of this subsection to point source discharges to non-WOTUS protected surface waters, consistent with section 49-255.04, which establishes the program components and rules that do not apply to non-WOTUS protected surface waters. The following are exempt from the non-WOTUS protected surface waters point source discharge program:

(a) Discharges to a non-WOTUS protected surface water incidental to a recharge project.

(b) Established or ongoing farming, ranching and silviculture activities such as plowing, seeding, cultivating, minor drainage or harvesting for the production of food, fiber or forest products or upland soil and water conservation practices.

(c) Maintenance but not construction of drainage ditches.

(d) Construction and maintenance of irrigation ditches.

(e) Maintenance of structures such as dams, dikes and levees.

4. Adopt, by rule, a program to control nonpoint source discharges of any pollutant or combination of pollutants into WOTUS.

5. Adopt, by rule, an aquifer protection permit program to control discharges of any pollutant or combination of pollutants that are reaching or may with a reasonable probability reach an aquifer. The permit program shall be as prescribed by article 3 of this chapter.

6. Adopt, by rule, the permit program for underground injection control described in the safe drinking water act.

7. Adopt, by rule, technical standards for conveyances of reclaimed water and a permit program for the direct reuse of reclaimed water.

8. Adopt, by rule or as permit conditions, discharge limitations, best management practice standards, new source performance standards, toxic and pretreatment standards and other standards and conditions as reasonable and necessary to carry out the permit programs and regulatory duties described in paragraphs 2 through 6 of this subsection.

9. Assess and collect fees to revoke, issue, deny, modify or suspend permits issued pursuant to this chapter and to process permit applications. The director may also assess and collect costs reasonably necessary if the director must conduct sampling or monitoring relating to a facility because the owner or operator of the facility has refused or failed to do so on order by the director. The director shall set fees that are reasonably related to the department's costs of providing the service for which the fee is charged. Monies collected from aquifer protection permit fees and from Arizona pollutant discharge elimination system permit fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. Monies from other permit fees shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund unless otherwise provided by law. Monies paid by an applicant for review by consultants for the department pursuant to section 49-241.02, subsection B shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210. State agencies are exempt from all fees imposed pursuant to this chapter.

10. Adopt, modify, repeal and enforce other rules that are reasonably necessary to carry out the director's functions under this chapter.

11. Require monitoring at an appropriate point of compliance for any organic or inorganic pollutant listed under section 49-243, subsection I if the director has reason to suspect the presence of the pollutant in a discharge.

12. Adopt rules establishing what constitutes a significant increase or adverse alteration in the characteristics or volume of pollutants discharged for purposes of determining what constitutes a major modification to an existing facility under the definition of new facility pursuant to section 49-201. Before adopting these rules, the director shall determine whether a change at a particular facility results in a significant increase or adverse alteration in the characteristics or volume of pollutants discharged on a case-by-case basis, taking into account site conditions and operational factors.

13. Consider evidence gathered by the Arizona navigable stream adjudication commission established by section 37-1121 when deciding whether a permit is required to discharge pursuant to article 3.1 of this chapter.

B. The director may:

1. On presentation of credentials, enter into, on or through any public or private property from which a discharge has occurred, is occurring or may occur or on which any disposal, land application of sludge or treatment regulated by this chapter has occurred, is occurring or may be occurring and any public or private property where records relating to a discharge or records that are otherwise required to be maintained as prescribed by this chapter are kept, as reasonably necessary to ensure compliance with this chapter. The director or a department employee may take samples, inspect and copy records required to be maintained pursuant to this chapter, inspect equipment, activities, facilities and monitoring equipment or methods of monitoring, take photographs and take other action reasonably necessary to determine the application of, or compliance with, this chapter. The owner or managing agent of the property shall be afforded the opportunity to accompany the director or department employee during inspections and investigations, but prior notice of entry to the owner or managing agent is not required if reasonable grounds exist to believe that notice would frustrate the enforcement of this chapter. If the director or department employee obtains any samples before leaving the premises, the director or department employee shall give the owner or managing agent a receipt describing the samples obtained and a portion of each sample equal in volume or weight to the portion retained. If an analysis is made of samples, or monitoring and testing are performed, a copy of the results shall be furnished promptly to the owner or managing agent.

2. Require any person who has discharged, is discharging or may discharge into the waters of the state under article 3, 3.1 or 3.3 of this chapter and any person who is subject to pretreatment standards and requirements or sewage sludge use or disposal requirements under article 3.1 of this chapter to collect samples, to establish and maintain records, including photographs, and to install, use and maintain sampling and monitoring equipment to determine the absence or presence and nature of the discharge or indirect discharge or sewage sludge use or disposal.

3. Administer state or federal grants, including grants to political subdivisions of this state, for the construction and installation of publicly and privately owned pollutant treatment works and pollutant control devices and establish grant application priorities.

4. Develop, implement and administer a water quality planning process, including a ranking system for applicant eligibility, wherein appropriated state monies and available federal monies are awarded to political subdivisions of this state to support or assist regional water quality planning programs and activities.

5. Enter into contracts and agreements with the federal government to implement federal environmental statutes and programs.

6. Enter into intergovernmental agreements pursuant to title 11, chapter 7, article 3 if the agreement is necessary to more effectively administer the powers and duties described in this chapter.

7. Participate in, conduct and contract for studies, investigations, research and demonstrations relating to the causes, minimization, prevention, correction, abatement, mitigation, elimination, control and remedy of discharges and collect and disseminate information relating to discharges.

8. File bonds or other security as required by a court in any enforcement actions under article 4 of this chapter.

C. Subject to section 38-503 and other applicable statutes and rules, the department may contract with a private consultant to assist the department in reviewing aquifer protection permit applications and on-site wastewater treatment facilities to determine whether a facility meets the criteria and requirements of this chapter and the rules adopted by the director. Except as provided in section 49-241.02, subsection B, the department shall not use a private consultant if the fee charged for that service would be greater than the fee the department would charge to provide that service. The department shall pay the consultant for the services rendered by the consultant from fees paid by the applicant or facility to the department pursuant to subsection A, paragraph 9 of this section.

D. The director shall integrate all of the programs authorized in this section and other programs affording water quality protection that are administered by the department for purposes of administration and enforcement and shall avoid duplication and dual permitting to the maximum extent practicable.

49-221. Water quality standards in general; protected surface waters list

A. The director shall:

1. Adopt, by rule, water quality standards for all WOTUS and for all waters in all aquifers to preserve and protect the quality of those waters for all present and reasonably foreseeable future uses. For non-WOTUS protected surface waters, the director shall apply surface water quality standards established as of January 1, 2021, until specifically changed by the director pursuant to paragraph 2 of this subsection. Rules regarding the following shall not be adopted or applied as water quality standards for non-WOTUS protected surface waters:

(a) Antidegradation.

(b) Antidegradation criteria.

(c) Outstanding Arizona waters.

2. Adopt, by rule, water quality standards for non-WOTUS protected surface waters, by December 31, 2022, consistent with paragraph 1 of this subsection and as determined necessary in the rulemaking process. In adopting those standards, the director shall consider the unique characteristics of this state's surface waters and the economic, social and environmental costs and benefits that would result from the adoption of a water quality standard at a particular level or for a particular water category.

B. The director may adopt, by rule, water quality standards for waters of the state other than those described in subsection A of this section, including standards for the use of water pumped from an aquifer that does not meet the standards adopted pursuant to section 49-223, subsections A and B and that is put to a beneficial use other than drinking water. These standards may include standards for the use of water pumped as part of a remedial action. In adopting such standards, the director shall consider the economic, social and environmental costs and benefits that would result from the adoption of a water quality standard at a particular level or for a particular water category.

C. In setting standards pursuant to subsection A or B of this section, the director shall consider the following:

1. The protection of the public health and the environment.

2. The uses that have been made, are being made or with reasonable probability may be made of these waters.

3. The provisions and requirements of the clean water act and safe drinking water act and the regulations adopted pursuant to those acts.

4. The degree to which standards for one category of waters could cause violations of standards for other, hydrologically connected, water categories.

5. Guidelines, action levels or numerical criteria adopted or recommended by the United States environmental protection agency or any other federal agency.

6. Any unique physical, biological or chemical properties of the waters.

D. Water quality standards shall be expressed in terms of the uses to be protected and, if adequate information exists to do so, numerical limitations or parameters, in addition to any narrative standards that the director deems appropriate.

E. The director may adopt by rule water quality standards for the direct reuse of reclaimed water. In establishing these standards, the director shall consider the following:

1. The protection of public health and the environment.

2. The uses that are being made or may be made of the reclaimed water.

3. The degree to which standards for the direct reuse of reclaimed water may cause violations of water quality standards for other hydrologically connected water categories.

F. If the director proposes to adopt water quality standards for agricultural water, the director shall consult, cooperate, collaborate and, if necessary, enter into interagency agreements and memoranda of understanding with the Arizona department of agriculture relating to its administration pursuant to title 3, chapter 3, article 4.1 of this state's authority relating to agricultural water under the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112, subpart E) and any other federal produce safety regulation, order or guideline or other requirement adopted pursuant to the FDA food safety modernization act (P.L. 111-353; 21 United States Code sections 2201 through 2252). For the purposes of this subsection:

1. "Agricultural water":

(a) Means water that is used in a covered activity on produce where water is intended to, or is likely to, contact produce or food contact surfaces.

(b) Includes all of the following:

(i) Water used in growing activities, including irrigation water, water used for preparing crop sprays and water used for growing sprouts.

(ii) Water used in harvesting, packing and holding activities, including water used for washing or cooling harvested produce and water used for preventing dehydration of produce.

2. "Covered activity" means growing, harvesting, packing or holding produce. Covered activity includes processing produce to the extent that the activity is within the meaning of farm as defined in section 3-525.

3. "Harvesting" has the same meaning prescribed in section 3-525.

4. "Holding" has the same meaning prescribed in section 3-525.

5. "Packing" has the same meaning prescribed in section 3-525.

6. "Produce" has the same meaning prescribed in section 3-525.

G. The director shall maintain and publish a protected surface waters list. The department shall publish the initial list on the department's website and in the Arizona administrative register within thirty days after September 29, 2021. Not later than December 31, 2022, the department shall adopt by rule the protected surface waters list, including procedures for determining economic, social and environmental costs and benefits. Publication of the list in the Arizona administrative register is an appealable agency action pursuant to title 41, chapter 6, article 10 and may be appealed by any party that provides evidence of an actual adverse effect that the party appealing the decision would suffer as a result of the director's decision. All of the following apply to the protected surface water list:

1. The protected surface waters list shall include:

(a) All WOTUS.

(b) Any perennial, intermittent and ephemeral reaches and any impoundments of the following rivers, not including tributaries or reaches of waters wholly within tribal jurisdiction or reaches of waters outside of the United States:

(i) The Bill Williams river, from the confluence of the Big Sandy and Santa Maria rivers at 113°31'38.617"w, 34°18'22.373"n, to its confluence with the Colorado river at 114°8'9.854"w, 34°18'9.33"n.

(ii) The Colorado river, from the Arizona-Utah border at 111°32'35.741"w, 36°58'51.698"n, to the Arizona-Mexico border at 114°43'12.564"w, 32°43'6.218"n.

(iii) The Gila river, from the Arizona-New Mexico border at 109°2'52.8"w, 32°41'11.2015"n, to the confluence with the Colorado river at 114°33'28.145"w, 32°43'14.408"n.

(iv) The Little Colorado river, from the confluence of the east and west forks of the Little Colorado river at 109°28'7.131"w, 33°59'39.852"n, to its confluence with the Colorado river at 111°49'4.693"w, 36°12'10.243"n.

(v) The Salt river, from the confluence of the Black and White rivers at 110°13'39.5"w, 33°44'6.082"n, to the confluence with the Gila river at 112°18'5.704"w, 33°22'42.978"n.

(vi) The San Pedro river, from the Arizona-Mexico border at 110°9'1.704"w, 31°20'2.387"n, to the confluence with the Gila river at 110°47'0.905"w, 32°59'5.671"n.

(vii) The Santa Cruz river, from its origins in the Canelo Hills of southeastern Arizona at 110°37'3.968"w, 31°27'39.21"n, to its confluence with the Gila river at 111°33'26.02"w, 32°41'39.058"n.

(viii) The Verde river, from Sullivan lake at 112°28'10.588"w, 34°52'11.136"n, to its confluence with the Salt river at 111°39'48.32"w, 33°33'20.538"n.

(c) Any non-WOTUS waters of the state that are added under paragraphs 3 and 4 of this subsection.

2. Notwithstanding paragraph 1 of this subsection, the protected surface waters list shall not contain any of the following non-WOTUS waters:

(a) Canals in the Yuma project and ditches, canals, pipes, impoundments and other facilities that are operated by districts organized under title 48, chapters 18, 19, 20, 21 and 22 and that are not used to directly deliver water for human consumption, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the owner and operator of the ditch or canal until the owner and operator withdraws its request.

(b) Irrigated areas, including fields flooded for agricultural production.

(c) Ornamental and urban ponds and lakes such as those owned by homeowners' associations and golf courses, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the owner of the ornamental or urban pond or lake until the owner withdraws its request.

(d) Swimming pools and other bodies of water that are regulated pursuant to section 49-104, subsection B.

(e) Livestock and wildlife water tanks and aquaculture tanks that are not constructed within a protected surface water.

(f) Stormwater control features.

(g) Groundwater recharge, water reuse and wastewater recycling structures, including underground storage facilities and groundwater savings facilities permitted under title 45, chapter 3.1 and detention and infiltration basins, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the owner of the groundwater recharge, water reuse or wastewater recycling structure until the owner withdraws its request.

(h) Water-filled depressions created as part of mining or construction activities or pits excavated to obtain fill, sand or gravel.

(i) All waste treatment systems components, including constructed wetlands, lagoons and treatment ponds, such as settling or cooling ponds, designed to either convey or retain, concentrate, settle, reduce or remove pollutants, either actively or passively, from wastewater before discharge or to eliminate discharge.

(j) Groundwater.

(k) Ephemeral waters except for those prescribed in paragraph 1, subdivision (b) of this subsection.

(l) Lakes and ponds owned and managed by the United States department of defense and other surface waters located on and that do not leave United States department of defense property, except when added pursuant to paragraph 4 of this subsection and in response to a written request from the United States department of defense until it withdraws its request.

3. Unless listed in paragraph 2 of this subsection, the director shall add the following non-WOTUS surface waters to the protected surface waters list:

(a) All lakes, ponds and reservoirs that are public waters used as a drinking source, for recreational or commercial fish consumption or for water-based recreation such as swimming, wading and boating and other types of recreation in and on the water.

(b) Perennial waters or intermittent waters of the state that are used as a drinking water source, including ditches and canals.

(c) Perennial or intermittent tributaries to the Bill Williams river, the Colorado river, the Gila river, the Little Colorado river, the Salt river, the San Pedro river, the Santa Cruz river and the Verde river.

(d) Perennial or intermittent public waters used for recreational or commercial fish consumption.

(e) Perennial or intermittent public waters used for water-based recreation such as swimming, wading, boating and other types of recreation in and on the water.

(f) Perennial or intermittent wetlands adjacent to waters on the protected surface waters list.

(g) Perennial or intermittent waters of the state that cross into another state, the Republic of Mexico or the reservation of a federally recognized tribe.

4. The director may add additional non-WOTUS surface waters to the protected surface waters list if all of the following apply:

(a) The water is not required to be listed under paragraph 1 or 3 of this subsection.

(b) The water is not excluded under paragraph 2 of this subsection.

(c) The economic, environmental and social benefits of adding the water outweigh the economic, environmental and social costs of excluding the water from the list.

5. The director shall remove any erroneously listed, non-WOTUS waters from the protected surface waters list when the water is excluded under paragraph 2 of this subsection and shall not regulate discharges to those waters in the interim.

6. The director shall remove non-WOTUS waters from the protected surface waters list when the water is not required to be listed under paragraph 3 of this subsection and the economic, environmental and social benefits of removing the water outweigh the economic, environmental and social costs of retaining the water on the list.

7. The director, on an emergency basis, may add a water to the protected surface waters list if the director discovers an imminent and substantial danger to public health or welfare or the environment, if the water would otherwise qualify to be added under paragraph 3 of this subsection. Notwithstanding any other law, the emergency addition shall take effect immediately on the director's determination that describes the imminent and substantial danger in writing. Within thirty days after the director's determination, the department shall publish a notice of that determination in the Arizona administrative register and on the department's website. Waters added under this subsection shall be incorporated into the protected surface waters list during the next rulemaking that follows the addition.

49-223. Aquifer water quality standards

A. Primary drinking water maximum contaminant levels established by the administrator before August 13, 1986 are adopted as drinking water aquifer water quality standards. The director may only adopt additional aquifer water quality standards by rule. Within one year after the administrator establishes additional primary drinking water maximum contaminant levels, the director shall open a rule making docket pursuant to section 41-1021 for adoption of those maximum contaminant levels as drinking water aquifer water quality standards. If substantial opposition is demonstrated in the rule making docket regarding a particular constituent, the director may adopt for that constituent the maximum contaminant level as a drinking water aquifer water quality standard upon making a finding that this level is appropriate for adoption in Arizona as an aquifer water quality standard. In making this finding, the director shall consider whether the assumptions about technologies, costs, sampling and analytical methodologies and public health risk reduction used by the administrator in developing and implementing the maximum contaminant level are appropriate for establishing a drinking water aquifer water quality standard. For purposes of this subsection "substantial opposition" means information submitted to the director that explains with reasonable specificity why the maximum contaminant level is not appropriate as an aquifer water quality standard.

B. The director may adopt by rule numeric drinking water aquifer water quality standards for pollutants for which the administrator has not established primary drinking water maximum contaminant levels or for which a maximum contaminant level has been established but the director has determined it to be inappropriate as an aquifer water quality standard pursuant to subsection A of this section. These standards shall be based on the protection of human health. In establishing numeric drinking water aquifer water quality standards, the director shall rely on technical protocols appropriate for the development of aquifer water quality standards and shall base the standards on credible medical and toxicological evidence that has been subjected to peer review.

C. Any person may petition the director to adopt a numeric drinking water aquifer quality standard for any pollutant for which no drinking water aquifer quality standard exists. The director shall grant the petition and institute rule making proceedings adopting a numeric standard as provided under subsection B of this section within one hundred eighty days if the petition shows that the pollutant is a toxic pollutant, that the pollutant has been, or may in the future be, detected in any of the state's drinking water aquifers, and that there exists technical information on which a numeric standard might reasonably be based. Within one year of the commencement of the rule making proceeding, the director shall either adopt a numeric standard or make and publish a finding that, pursuant to subsection B of this section, the development of a numeric standard is not possible. The decision to not adopt a numeric standard shall, for purposes of judicial review, be treated in the same manner as a rule adopted pursuant to title 41, chapter 6.

D. For purposes of assessing compliance with each aquifer water quality standard adopted pursuant to this section, the director shall for purposes of articles 3 and 4 of this chapter, and may for purposes of other provisions of this title, identify sampling and analytical protocols appropriate for detecting and measuring the pollutant in the aquifers in the state.

E. Within one year from the reclassification of an aquifer to a non-drinking water status, pursuant to section 49-224, the director shall adopt water quality standards for that aquifer. For any pollutants which were not the basis for the reclassification, the applicable standard shall be identical with the standard for those pollutants adopted pursuant to subsections A and B of this section. For any pollutants which were the basis for reclassification, the standard shall be sufficient to achieve the purpose for which the aquifer was reclassified but shall minimize unnecessary degradation of the aquifer by taking into consideration the potential long-term uses of the aquifer and the short-term and long-term benefits of the activities resulting in discharges into the aquifer.

F. The director shall adopt water quality standards for an aquifer for which a petition has been submitted pursuant to section 49-224, subsection D sufficient to achieve the non-drinking water use for which that aquifer was classified, taking into consideration the potential long-term uses of that aquifer and the short-term and long-term benefits of the discharging activities creating that aquifer.

G. In any action pursuant to this title, aquifer water quality protection provisions, including monitoring requirements, may be imposed only for pollutants for which aquifer water quality standards have been established that are likely to be present in a discharge. Indicator parameters and quality assurance parameters appropriate for such pollutants also may be specified.

49-224. Aquifer identification, classification and reclassification

A. Not later than June 30, 1987 the director shall, by rule, identify and define the boundaries of all aquifers in this state utilizing, to the maximum extent possible, data available from the department of water resources.

B. All aquifers in this state identified and defined under subsection A of this section and any other aquifers subsequently discovered, identified and defined shall be classified for drinking water protected use unless the classification is changed in the manner provided in subsection C of this section.

C. The director, after consulting with the appropriate groundwater users advisory council established pursuant to title 45, chapter 2, article 2 if the aquifer is in an active management area, and a public hearing held pursuant to section 49-208, may change the classification of an aquifer or part of an aquifer for a protected use other than drinking water on making all of the following findings:

1. The identified aquifer or part of an aquifer is or will be so hydrologically isolated from other aquifers or other parts of the same aquifer that there is no reasonable probability that poorer quality water from the identified aquifer or part of an aquifer will cause or contribute to a violation of aquifer water quality standards in other aquifers or parts of the same aquifer.

2. Water from the identified aquifer or part of an aquifer is not being used as drinking water.

3. The short-term and long-term benefits to the public that would result from the degradation of the quality of the water in the identified aquifer or part of an aquifer below standards established pursuant to section 49-223, subsections A and B would significantly outweigh the short-term and long-term costs to the public of such degradation. Benefits and costs to be considered include economic, social and environmental.

D. Owners or operators of facilities whose discharges are solely responsible for creating an aquifer may petition the director for a classification of the aquifer for a non-drinking water use. The director may, by rule, classify that aquifer for a non-drinking water use upon making the findings prescribed in subsection C, paragraphs 1 and 2 of this section.

E. The director shall provide for public participation in proceedings under this section pursuant to section 49-208 and shall hold at least one public hearing at a location as near as practicable to the aquifer proposed for reclassification.

ADEQ - AWQS Rulemaking - Inquiry Response

Jon Rezabek <rezabek.jon@azdeq.gov> Tue, May 6, 2025 at 6:33 AM
To: GRRC - ADOA <grrc@azdoa.gov>, Simon Larscheidt <simon.larscheidt@azdoa.gov>, Thomas Mc Neeley <thomas.mcneeley@azdoa.gov>

GRRC,

Concerning Items D1 through 5 in the Council Meeting agenda for 5/6/25, Council Member Thorwald had a number of inquiries on these items during the 4/29/25 Study Session.
ADEQ has developed the following response to one of the inquiries, which was, roughly:

Q: *How does a facility that is or is planning on potentially "discharging" a pollutant know whether their activity is subject to Aquifer Protection Program (APP) regulation?*

A: An APP applicability analysis starts with the assumption that "*...any person who discharges or who owns or operates a facility that discharges shall obtain an aquifer protection permit from the director ... [u]nless otherwise provided by this article..." --* A.R.S. § 49-241(A).

From that assumption, a potential discharging activity may fall out of APP applicability based on an examination of the definitions of the operative words in A.R.S. § 49-241(A), including:

- "Discharge" is defined at A.R.S. § 49-201(12) as, *"...[f]or purposes of the aquifer protection permit program prescribed by article 3 of this chapter, discharge means the addition of a pollutant from a facility either directly to an aquifer or to the land surface or the vadose zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.*

- "Facility" is defined at A.R.S. § 49-201(19) as,*"...any land, building, installation, structure, equipment, device, conveyance, area, source, activity or practice from which there is, or with reasonable probability may be, a discharge."*

- "Pollutant" is defined at A.R.S. § 49-201(35) as,*"...fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances."*

Furthermore, analysis of A.R.S. § 49-241, Subsection B may be necessary to determine applicability of the activity. In summary, this subsection delineates:

- a list of 10 categorical discharging facilities, automatically required to attain APP permit coverage to operate, unless
- the activity falls under one of the statutory exemptions to APP at A.R.S. § 49-250(B), or
- the director determines that a facility will be designed, constructed and operated so that there will be no migration of pollutants directly to the aquifer or to the vadose zone.

  "[u]nless exempted under section 49-250, or unless the director determines that the facility will be designed, constructed and operated so that there will be no migration of pollutants directly to the aquifer or to the vadose zone, the following are considered to be discharging facilities and shall be operated pursuant to either an individual permit or a general permit, including agricultural general permits, under this article (1) Surface impoundments, including holding, storage settling, treatment or disposal pits, ponds and lagoons. (2) Solid waste disposal facilities except for mining overburden and wall rock that has not been and will not be subject to mine leaching operations. (3) Injection wells. (4) Land treatment facilities. (5) Facilities that add a pollutant to a salt dome formation, salt bed formation, dry well or underground cave or mine. (6) Mine tailings piles and ponds. (7) Mine leaching operations. (8) Underground water storage facilities. (9) Sewage treatment facilities, including on-site wastewater treatment facilities. (10) Wetlands designed and constructed to treat municipal and domestic wastewater for underground storage."

Additionally, A.R.S. 49-250(A) allows the the director to exempt classes or categories of facilities from APP requirements

by rule under certain circumstances. This list of "Class Exemptions" can be found at A.A.C. R18-9-103.

Besides undergoing the above analysis, which ADEQ welcomes preliminary questions on, the rule allows for a potential applicant to formally request a "Determination of Applicability" (DOA) under A.A.C. R18-9-106. An ADEQ APP - DOA form is attached to this email for review.

Thank you,

Jon Rezabek

DOA Review Request Form_05 2024.doc
241K

AQUIFER PROTECTION PERMIT DETERMINATION OF APPLICABILITY (DOA)

INSTRUCTIONS

This form enables the staff of the ADEQ Groundwater Protection Value Stream to determine the applicability of A.R.S. §§ 49-241 through 49-252 to an operation or an activity that may result in a discharge regulated under Articles 1, 2, and 3 of the Arizona Administrative Code (A.A.C.). Please answer all questions and where applicable, provide sufficient detail for the conceptual or existing facility or activity to explain your answers. Attach additional reference sheets along with any design plans, site plans, maps, etc., that may assist us in this review.

GENERAL APPLICATION PROCESS

1) Applicant submits the DOA application including any attachments.
2) Applicant satisfies any deficiencies identified during the review process.
3) ADEQ makes a Determination of Applicability.
4) ADEQ sends the final bill.
5) Applicant pays the bill.
6) The project manager signs the Determination of Applicability.
7) ADEQ mails the Determination of Applicability.

FEES

The Department shall assess and collect an hourly rate fee for the number of review hours required to provide a water quality protection service, billed monthly and up to the maximum fee. A.A.C. R18-14-102 &103. Fee rates and maximum fees are available at: https://azdeq.gov/GroundwaterIndPermitsFees

APPLICANT

The DOA application form must be signed by the applicant; i.e. a "person who is engaging or who proposes to engage in the operation or activity" (A.A.C. R18-9-106(B)(2)). ADEQ will not accept a DOA application form signed by a third party, such as the client's representative or consultant.

HOW LONG DOES THE APPLICATION PROCESS TAKE?

The time frame specified by A.A.C. R18-9-106 is 45 days.

WITHDRAWING YOUR APPLICATION

An application may be withdrawn by the applicant at any time during the application process in accordance with A.A.C. R18-1-517. You may withdraw your application by submitting a written request to the reviewer assigned to your project. A final bill will be assessed at the time of withdrawal.

WHERE DO I SUBMIT MY APPLICATION?

Submit your DOA application to:

Arizona Department of Environmental Quality
Water Quality Division
Groundwater Protection and Reuse Section
1110 West Washington Street
Phoenix, AZ 85007

WHERE DO I GET HELP?

Program guidance can be found on our website at: http://www.azdeq.gov/environ/water/permits/app.html. A copy of the rules and statutes relating to the DOA can also be found on this website. It is strongly recommended that you review the applicable rules and statutes to ensure that you provide a complete and accurate application. ADEQ recommends scheduling a pre-application meeting to go over the various details of the program (The Project Manager's first hour of the pre-application meeting is free). During the application process, you are encouraged to communicate with the project team to resolve any issues that may arise during the process.

4 Certification Statement [A.A.C. R18-9-A201(B)(7)]

I certify under penalty of law that this Aquifer Protection Permit application and all attachments were prepared under my direction or authorization and all information is, to the best of my knowledge, true, accurate and complete. I also certify that the APP discharging facilities described in this form is or will be designed, constructed, operated, and/or enclosed in accordance with the terms and conditions the Aquifer Protection Permit and applicable requirements of Arizona Revised Statutes Title 49, Chapter 2, and Arizona Administrative Code Title 18, Chapter 9 regarding aquifer protection permits. I am aware that there are significant penalties for submitting false information, including permit revocation as well as the possibility of fine and imprisonment for knowing violations.

Pursuant to A.R.S. § 41-1030:

(1) ADEQ shall not base a licensing decision, in whole or in part, on a requirement or condition not specifically authorized by statute or rule. General authority in a statute does not authorize a requirement or condition unless a rule is made pursuant to it that specifically authorizes the requirement or condition.

(2) Prohibited licensing decisions may be challenged in a private civil action. Relief may be awarded to the prevailing party against ADEQ, including reasonable attorney fees, damages, and all fees associated with the license application.

(3) ADEQ employees may not intentionally or knowingly violate the requirement for specific licensing

The purpose of a Determination of Applicability application review is to evaluate if there are discharging facilities or any discharging activities regulated by the Aquifer Protection Permit requirements. The evaluation of the conceptual or existing facility/activity includes whether there are exemptions from the APP requirements or if there is a General APP that may be applicable. Please provide the following information:

1. List any potential categorical discharging facilities (see definition provided in the attachment to this form). Categorical facilities include surface impoundments, solid waste disposal facilities, sewage treatment facilities, and others.
    a. For each facility listed, indicate whether it has operated in the past, is currently operating, is not yet constructed, or is constructed but not yet operating.

2. List any activity that could potentially be considered a discharge (see definition provided in the attachment to this form). Examples of discharge include wastewater disposal on the ground surface, placement of non-inert material on the ground surface, or other activities that place pollutants on the ground surface in a manner that there is a reasonable probability that the pollutant will reach an aquifer.

a. For each activity listed, indicate whether it has occurred in the past, is currently occurring, or has not yet occurred.

3. Describe the potential categorical discharging facility and/or discharging activity.

4. Provide a site diagram that includes the potential categorical discharging facility and/or discharging activity. Include a North arrow and scale, and label all potential discharging facilities and discharge locations.

5. Provide a process flow diagram that shows the process that produces the potential discharge or materials that go to a discharging facility and/or discharging activity.

6. Provide a description of any exemption or general permit that you think may apply to the potential categorical discharging facility and/or activity. Include any documentation to support this conclusion, for example, laboratory data showing a material is inert, design documentation showing that a structure meets the tank exemption (see Additional Information Related to Tanks and Sumps), closure documentation (see Additional Information Related to Closed Facilities), etc. "Exemptions" and "General Permits" sections at the end of this document may be helpful in providing documentation that an exemption or general permit criteria are met.

7. List any environmental permits held for the operation, facility or activity. Provide the permit number and the name of the issuing entity.

ADDITIONAL INFORMATION RELATED TO TANKS AND SUMPS

a. Is the structure stationary?
b. Is the structure constructed of material compatible with the anticipated materials to be contained?
c. Is the structure constructed of concrete, steel, plastic, fiberglass or other non-earthen material?
d. Is the structure constructed of material that is resistant to wear caused by any equipment that will be placed in or enter the structure for purposes of repair or cleanout?
e. Does the structure provide substantial structural support?
f. Are all joints sealed and maintained so as not to leak?
g. Is the structure capable of fully containing the material that is to be held without overflow?

ADDITIONAL INFORMATION RELATED TO CLOSED FACILITIES

List each closed facility in the format provided (Attachment 1) and provide the following information in the "Justification/Documentation" section:

- all inflows and outflows to the facility
- the source of inflows and outflows (include a process flow diagram)
- dates discharge started and ended
- discharge description, characterization
- discharge location, volumes, frequency
- method of transfer into and out of facility
- date ADEQ approved clean closure of the facility
- description of any remedial or reclamation activity/action

For each closed facility listed in Attachment 1, indicate in the "Statute/Rule/Policy" section, which of the following criteria apply. Attach additional sheets and references as needed.

- Facility ceased operation before Jan. 1, 1986 (A.R.S. 49-201.7)
- As of August 13, 1986, facility was not engaged in any activity for which the facility was designed and that was previously operated with no intent to resume operation (A.R.S. 49-201.7)
- Facility's post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed (A.R.S. 49-201.7)
- Facility had new installations or modifications after January 1, 1986 to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sump and diversions (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications primary purpose is to manage, treat, or contain surface or subsurface flows (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications are NOT used to produce a marketed commodity (Substantive Policy Statement 3013.000)

ATTACHMENT 1			
SUMMARY OF CLOSED FACILITIES AND JUSTIFICATION			
Closed Facility	Date Closed	Statute/Rule/Policy	Justification/Documentation

DEFINITIONS

AQUIFER – (A.R.S. §49-201) means a geologic unit that contains sufficient saturated permeable material to yield usable quantities of water to a well or spring.

AQUIFER PROTECTION PERMIT - means an individual or general permit issued under A.R.S. §§ 49-203, 49-241 through 252, and A.A.C. Title 18 Chapter 9, Articles 1, 2 and 3.

CATEGORICAL DISCHARGING FACILITY – means (A.R.S. §49-241.B)
1. Surface impoundments, including holding, storage settling, treatment or disposal pits, ponds and lagoons.
2. Solid waste disposal facilities except for mining overburden and wall rock that has not been and will not be subject to mine leaching operations.
3. Injection wells.
4. Land treatment facilities.
5. Facilities that add a pollutant to a salt dome formation, salt bed formation, dry well or underground cave or mine.
6. Mine tailings piles and ponds.
7. Mine leaching operations.
8. Underground water storage facilities.
9. Sewage treatment facilities, including on-site wastewater treatment facilities.
10. Wetlands designed and constructed to treat municipal and domestic wastewater for underground storage.

CLOSED FACILITY – means (A.R.S. §49-201.7):

(a) A facility that ceased operation before January 1, 1986, that is not, on August 13, 1986, engaged in the activity for which the facility was designed and that was previously operated and for which there is no intent to resume operation as provided by A.R.S. § 49-201.

(b) A facility that has been approved as a clean closure by the director as provided by A.R.S. § 49-201.

(c) A facility at which any post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed as provided by A.R.S. § 49-201.

(d) Any facility designed and operated to manage, treat or contain surface or subsurface flows at or from a closed facility (as defined in A.R.S. 49-201(7)(a)-(c)), to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sumps and diversions, even if such facilities were installed or modified after January 1, 1986, so long as the facility's primary purpose is to manage, treat, or contain surface or subsurface or subsurface flows and not for the production of a marketed commodity.

DISCHARGE – (A.R.S. §49-201) means the direct or indirect addition of any pollutant to the waters of the state from a facility. For purposes of the Aquifer Protection Permit program prescribed by Title 49, Article 3, Chapter 2 of the Arizona Revised Statutes, discharge means the addition of a pollutant from a facility either directly to an aquifer or to the land surface or the vadose zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.

DRYWELL - A.R.S. §49-331) means a well which is a bored, drilled or driven shaft or hole whose depth is greater than its width and is designed and constructed specifically for the disposal of storm water. Drywells do not include class 1, class 2, class 3 or class 4 injection wells as defined by the Federal Underground Injection Control Program (P.L. 93-523, part C), as amended.

FACILITY – (A.R.S. §49-201) means any land, building, installation, structure, equipment, device, conveyance, area, source, activity or practice from which there is, or with reasonable probability may be, a discharge.

INERT MATERIAL – (A.R.S. §49-201) means broken concrete, asphaltic pavement, manufactured asbestos-containing products, brick, rock, gravel, sand and soil. Inert material also includes material that when subjected to a water leach test that is designed to approximate natural infiltrating waters will not leach substances in concentrations that exceed numeric aquifer water quality standards established pursuant to section 49-223, including overburden and wall rock that is not acid generating, taking into consideration acid neutralization potential, and that has not and will not be subject to mine leaching operations.

POLLUTANT - (A.R.S. §49-201) means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances.

SEWAGE TREATMENT FACILITY – (A.A.C. R18-9-101) means a plant or system for sewage treatment and disposal, except an on-site wastewater treatment facility, that consists of treatment works, disposal works, and appurtenant pipelines, conduits, pumping stations, and related subsystems and devices.

SURFACE IMPOUNDMENT - (A.A.C. R18-9-101) means a pit, pond or lagoon, having a surface dimension that is equal to or greater than its depth, which is used for the storage, holding, settling, treatment or discharge of liquid pollutants or pollutants containing free liquids.

TANK – (A.R.S. §49-201) means a stationary device, including a sump, that is constructed of concrete, steel, plastic, fiberglass, or other non-earthen material that provides substantial structural support, and that is designed to contain an accumulation of solid, liquid or gaseous materials.

EXEMPTIONS

EXEMPTIONS – A.R.S. §49-250B. The following are exempt from the aquifer protection permit requirement of this article:

1. Household and domestic activities.
2. Household gardening, lawn watering, lawn care, landscape maintenance and related activities.
3. The noncommercial use of consumer products generally available to and used by the public.
4. Ponds used for watering livestock and wildlife.
5. Mining overburden returned to the excavation site including any common material which has been excavated and removed from the excavation site and has not been subjected to any chemical or leaching agent or process of any kind.
6. Facilities used solely for surface transportation or storage of groundwater, surface water for beneficial use or reclaimed water that is regulated pursuant to section 49-203, subsection A, paragraph 6 for beneficial use.
7. Discharge to a community sewer system.
8. Facilities that are required to obtain a permit for the direct reuse of reclaimed water.
9. Leachate resulting from the direct, natural infiltration of precipitation through undisturbed regolith or bedrock if pollutants are not added to the leachate as a result of any material or activity placed or conducted by man on the ground surface.
10. Surface impoundments used solely to contain storm runoff, except for surface impoundments regulated by the federal clean water act.
11. Closed facilities. However, if the facility ever resumes operation the facility shall obtain an aquifer protection permit and the facility shall be treated as a new facility for purposes of section 49-243.
12. Facilities for the storage of water pursuant to title 45, chapter 3.1 unless reclaimed water is added.
13. Facilities using central Arizona project water for underground storage and recovery projects under title 45, chapter 3.1, article 6.
14. Water storage at a groundwater saving facility that has been permitted under title 45, chapter 3.1.
15. Application of water from any source, including groundwater, surface water or wastewater, to grow agricultural crops or for landscaping purposes, except as provided in section 49-247.
16. Discharges to a facility that is exempt pursuant to paragraph 6 if those discharges are regulated pursuant to 33 United States Code section 1342.
17. Solid waste and special waste facilities when rules addressing aquifer protection are adopted by the director pursuant to section 49-761 or 49-855 and those facilities obtain plan approval pursuant to those rules. This exemption shall only apply if the director determines that aquifer water quality standards will be maintained and protected because the discharges from those facilities are regulated under rules adopted pursuant to section 49-761 or 49-855 that provide aquifer water quality protection that is equal to or greater than aquifer water quality protection provided pursuant to this article.
18. Facilities used in:
    (a) Corrective actions taken pursuant to chapter 6, article 1 of this title in response to a release of a regulated substance as defined in section 49-1001 except for those off-site facilities that receive for treatment or disposal materials that are contaminated with a regulated substance and that are received as part of a corrective action.
    (b) Response or remedial actions undertaken pursuant to article 5 of this chapter or pursuant to CERCLA.
    (c) Corrective actions taken pursuant to chapter 5, article 1 of this title or the resource conservation and recovery act of 1976, as amended (42 United States Code sections 6901 through 6992).

(d) Other remedial actions which have been reviewed and approved by the appropriate governmental authority and taken pursuant to applicable federal or state laws.

19. Municipal solid waste landfills as defined in section 49-701 that have solid waste facility plan approval pursuant to section 49-762.
20. Storage, treatment or disposal of inert material.
21. Structures that are designed and constructed not to discharge and that are built on an impermeable barrier that can be visually inspected for leakage.
22. Pipelines and tanks designed, constructed, operated and regularly maintained so as not to discharge.
23. Surface impoundments and dry wells that are used to contain storm water in combination with discharges from one or more of the following activities or sources:
    (a) Fire fighting system testing and maintenance.
    (b) Potable water sources, including waterline flushings.
    (c) Irrigation drainage and lawn watering.
    (d) Routine external building wash down without detergents.
    (e) Pavement wash water where no spills or leaks of toxic or hazardous material have occurred unless all spilled material has first been removed and no detergents have been used.
    (f) Air conditioning, compressor and steam equipment condensate that has not contacted a hazardous or toxic material.
    (g) Foundation or footing drains in which flows are not contaminated with process materials.
    (h) Occupational safety and health administration or mining safety and health administration safety equipment.
24. Industrial wastewater treatment facilities designed, constructed and operated as required by section 49-243, subsection B, paragraph 1 and using a treatment system approved by the director to treat wastewater to meet aquifer water quality standards prior to discharge, if that water is stored at a groundwater storage facility pursuant to title 45, chapter 3.1.
25. Any point source discharge caused by a storm event and authorized in a permit issued pursuant to section 402 of the clean water act.

R18-9-102. Facilities to which Articles 1, 2, and 3 Do Not Apply

Articles 1, 2, and 3 do not apply to:

1. A drywell used solely to receive storm runoff and located so that no use, storage, loading, or treating of hazardous substances occurs in the drainage area;
2. A direct pesticide application in the commercial production of plants and animals subject to the Federal Insecticide, Fungicide, and Rodenticide Act (P.L. 92-516; 86 Stat. 975; 7 United States Code 135 et seq., as amended), or A.R.S. §§ 49-301 through 49-309 and applicable rules, or A.R.S. Title 3, Chapter 2, Article 6 and applicable rules.

R18-9-103. Class Exemptions

Class exemptions. In addition to the classes or categories of facilities listed in A.R.S. § 49-250(B), the following classes or categories of facilities are exempt from the Aquifer Protection Permit requirements in Articles 1, 2, and 3 of this Chapter:

1. Facilities that treat, store, or dispose of hazardous waste and have been issued a permit or have interim status, under the Resource Conservation and Recovery Act (P.L. 94-580; 90 Stat. 2796; 42 U.S.C. 6901 et seq., as amended), or have been issued a permit according to the hazardous waste management rules adopted under 18 A.A.C. 8, Article 2;
2. Underground storage tanks that contain a regulated substance as defined in A.R.S. § 49-1001;
3. Facilities for the disposal of solid waste, as defined in A.R.S. § 49-701.01, that are located in unincorporated areas and receive solid waste from four or fewer households;
4. Land application of biosolids in compliance with 18 A.A.C. 9, Articles 9 and 10.

GENERAL PERMITS

General Aquifer Protection Permits (GPs) are permits by rule or statute. The rules are extensive and can be accessed on the Secretary of State's website at: http://www.azsos.gov/public_services/Title_18/18-09.htm Specific citations for general permits by rule are: Type 1: A.A.C. R18-9-B301, Type 2: A.A.C. R18-9-C301, Type 3: A.A.C. R18-9-D301, Type 4: A.A.C. R18-9-E301

The statutory general permits are:
49-245.01. Storm water general permit
A. A general permit is issued for facilities used solely for the management of storm water and that are regulated by the clean water act, including catchments, impoundments and sumps, provided the following conditions are met:

1. The owner or operator of the facility has obtained a national pollutant discharge elimination system permit issued pursuant to the clean water act for any storm water discharges at the facility, or that the facility has applied, and not been denied coverage, for this type of permit for any storm water discharges at the facility.
2. The owner or operator notifies the director that the facility has met the requirements of paragraph 1 of this subsection.
3. The owner or operator of the facility has in place any required storm water pollution prevention plan.

B. If the director determines that discharges of storm water from a facility or facilities covered by this general permit are causing a violation of aquifer water quality standards at the applicable point of compliance, the director may revoke the general permit of the facility or facilities or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges of storm water from a facility or facilities covered by this general permit, with reasonable probability, may cause a violation of aquifer water quality standards at the applicable point of compliance, the director may require a facility or facilities covered by the general permit to obtain an individual permit pursuant to section 49-243.

49-245.02. General permit for certain discharges associated with man-made bodies of water
A. A general permit is issued for the following discharges:
1. Disposal in vadose zone injection wells of storm water mixed with reclaimed wastewater or groundwater, or both, from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The vadose zone injection wells are registered pursuant to section 49-332.
(b) The discharge occurs only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water, as documented by a water quality analysis submitted with the vadose zone injection well registration. The owner or operator of the vadose zone injection wells shall demonstrate continued compliance with this subdivision by submitting to the department the results of any monitoring required as part of an aquifer protection permit or wastewater reuse permit for any facility providing reclaimed wastewater to the man-made body of water. For purposes of this general permit, monitoring shall be conducted at least semiannually. The monitoring results shall be submitted to the department semiannually beginning six months after registration made to subdivision (a) of this paragraph.
(d) The vadose zone injection wells shall be located at least one hundred feet from any water supply well.
(e) A vertical separation of forty feet shall be provided between the bottom of the vadose zone injection wells and the water table to allow the aquifer water quality standard for microbiological contaminants to be met in the uppermost aquifer.
(f) The vadose zone injection wells are not used for any other purpose.

2. Subsurface discharges from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The body of water contains only groundwater, storm water or reclaimed wastewater, or a combination thereof.
(b) The reclaimed wastewater complies with the terms of a wastewater reuse permit before being placed into the body of water.
(c) The body of water is lined and maintained to achieve a hydraulic conductivity of 10-7 cm/sec or less.

3. Point source discharges to waters of the United States from man-made bodies of water associated with golf courses, parks and residential common areas that contain only groundwater, storm water or reclaimed wastewater, or a combination thereof, provided that:

(a) The discharges are subject to a valid national pollutant discharge elimination system permit.
(b) The discharges occur only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water.

B. If the director determines that discharges from a facility covered by this general permit are causing a violation of aquifer water quality standards, the director may revoke the general permit of the facility or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges from a facility covered by this general permit may cause, with reasonable probability, a violation of aquifer water quality standards, the director may require the facility to obtain an individual permit pursuant to section 49-243.

AQUIFER PROTECTION PERMIT DETERMINATION OF APPLICABILITY (DOA)

INSTRUCTIONS

This form enables the staff of the ADEQ Groundwater Protection Value Stream to determine the applicability of A.R.S. §§ 49-241 through 49-252 to an operation or an activity that may result in a discharge regulated under Articles 1, 2, and 3 of the Arizona Administrative Code (A.A.C.). Please answer all questions and where applicable, provide sufficient detail for the conceptual or existing facility or activity to explain your answers. Attach additional reference sheets along with any design plans, site plans, maps, etc., that may assist us in this review.

GENERAL APPLICATION PROCESS

1) Applicant submits the DOA application including any attachments.
2) Applicant satisfies any deficiencies identified during the review process.
3) ADEQ makes a Determination of Applicability.
4) ADEQ sends the final bill.
5) Applicant pays the bill.
6) The project manager signs the Determination of Applicability.
7) ADEQ mails the Determination of Applicability.

FEES

The Department shall assess and collect an hourly rate fee for the number of review hours required to provide a water quality protection service, billed monthly and up to the maximum fee. A.A.C. R18-14-102 &103. Fee rates and maximum fees are available at: https://azdeq.gov/GroundwaterIndPermitsFees

APPLICANT

The DOA application form must be signed by the applicant; i.e. a "person who is engaging or who proposes to engage in the operation or activity" (A.A.C. R18-9-106(B)(2)). ADEQ will not accept a DOA application form signed by a third party, such as the client's representative or consultant.

HOW LONG DOES THE APPLICATION PROCESS TAKE?

The time frame specified by A.A.C. R18-9-106 is 45 days.

WITHDRAWING YOUR APPLICATION

An application may be withdrawn by the applicant at any time during the application process in accordance with A.A.C. R18-1-517. You may withdraw your application by submitting a written request to the reviewer assigned to your project. A final bill will be assessed at the time of withdrawal.

WHERE DO I SUBMIT MY APPLICATION?

Submit your DOA application to:

Arizona Department of Environmental Quality
Water Quality Division
Groundwater Protection and Reuse Section
1110 West Washington Street
Phoenix, AZ 85007

WHERE DO I GET HELP?

Program guidance can be found on our website at: http://www.azdeq.gov/environ/water/permits/app.html. A copy of the rules and statutes relating to the DOA can also be found on this website. It is strongly recommended that you review the applicable rules and statutes to ensure that you provide a complete and accurate application. ADEQ recommends scheduling a pre-application meeting to go over the various details of the program (The Project Manager's first hour of the pre-application meeting is free). During the application process, you are encouraged to communicate with the project team to resolve any issues that may arise during the process.

4 Certification Statement [A.A.C. R18-9-A201(B)(7)]

I certify under penalty of law that this Aquifer Protection Permit application and all attachments were prepared under my direction or authorization and all information is, to the best of my knowledge, true, accurate and complete. I also certify that the APP discharging facilities described in this form is or will be designed, constructed, operated, and/or enclosed in accordance with the terms and conditions the Aquifer Protection Permit and applicable requirements of Arizona Revised Statutes Title 49, Chapter 2, and Arizona Administrative Code Title 18, Chapter 9 regarding aquifer protection permits. I am aware that there are significant penalties for submitting false information, including permit revocation as well as the possibility of fine and imprisonment for knowing violations.

Print Name _____

_____ _____

Signature Date

Pursuant to A.R.S. § 41-1030:

(1) ADEQ shall not base a licensing decision, in whole or in part, on a requirement or condition not specifically authorized by statute or rule. General authority in a statute does not authorize a requirement or condition unless a rule is made pursuant to it that specifically authorizes the requirement or condition.

(2) Prohibited licensing decisions may be challenged in a private civil action. Relief may be awarded to the prevailing party against ADEQ, including reasonable attorney fees, damages, and all fees associated with the license application.

(3) ADEQ employees may not intentionally or knowingly violate the requirement for specific licensing

The purpose of a Determination of Applicability application review is to evaluate if there are discharging facilities or any discharging activities regulated by the Aquifer Protection Permit requirements. The evaluation of the conceptual or existing facility/activity includes whether there are exemptions from the APP requirements or if there is a General APP that may be applicable. Please provide the following information:

1. List any potential categorical discharging facilities (see definition provided in the attachment to this form). Categorical facilities include surface impoundments, solid waste disposal facilities, sewage treatment facilities, and others.
    a. For each facility listed, indicate whether it has operated in the past, is currently operating, is not yet constructed, or is constructed but not yet operating.

2. List any activity that could potentially be considered a discharge (see definition provided in the attachment to this form). Examples of discharge include wastewater disposal on the ground surface, placement of non-inert material on the ground surface, or other activities that place pollutants on the ground surface in a manner that there is a reasonable probability that the pollutant will reach an aquifer.

a. For each activity listed, indicate whether it has occurred in the past, is currently occurring, or has not yet occurred.

3. Describe the potential categorical discharging facility and/or discharging activity.

4. Provide a site diagram that includes the potential categorical discharging facility and/or discharging activity. Include a North arrow and scale, and label all potential discharging facilities and discharge locations.

5. Provide a process flow diagram that shows the process that produces the potential discharge or materials that go to a discharging facility and/or discharging activity.

6. Provide a description of any exemption or general permit that you think may apply to the potential categorical discharging facility and/or activity. Include any documentation to support this conclusion, for example, laboratory data showing a material is inert, design documentation showing that a structure meets the tank exemption (see Additional Information Related to Tanks and Sumps), closure documentation (see Additional Information Related to Closed Facilities), etc. "Exemptions" and "General Permits" sections at the end of this document may be helpful in providing documentation that an exemption or general permit criteria are met.

7. List any environmental permits held for the operation, facility or activity. Provide the permit number and the name of the issuing entity.

ADDITIONAL INFORMATION RELATED TO TANKS AND SUMPS

a. Is the structure stationary?
b. Is the structure constructed of material compatible with the anticipated materials to be contained?
c. Is the structure constructed of concrete, steel, plastic, fiberglass or other non-earthen material?
d. Is the structure constructed of material that is resistant to wear caused by any equipment that will be placed in or enter the structure for purposes of repair or cleanout?
e. Does the structure provide substantial structural support?
f. Are all joints sealed and maintained so as not to leak?
g. Is the structure capable of fully containing the material that is to be held without overflow?

ADDITIONAL INFORMATION RELATED TO CLOSED FACILITIES

List each closed facility in the format provided (Attachment 1) and provide the following information in the "Justification/Documentation" section:

- all inflows and outflows to the facility
- the source of inflows and outflows (include a process flow diagram)
- dates discharge started and ended
- discharge description, characterization
- discharge location, volumes, frequency
- method of transfer into and out of facility
- date ADEQ approved clean closure of the facility
- description of any remedial or reclamation activity/action

For each closed facility listed in Attachment 1, indicate in the "Statute/Rule/Policy" section, which of the following criteria apply. Attach additional sheets and references as needed.

- Facility ceased operation before Jan. 1, 1986 (A.R.S. 49-201.7)
- As of August 13, 1986, facility was not engaged in any activity for which the facility was designed and that was previously operated with no intent to resume operation (A.R.S. 49-201.7)
- Facility's post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed (A.R.S. 49-201.7)
- Facility had new installations or modifications after January 1, 1986 to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sump and diversions (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications primary purpose is to manage, treat, or contain surface or subsurface flows (Substantive Policy Statement 3013.000)
- Facility's new installations or modifications are NOT used to produce a marketed commodity (Substantive Policy Statement 3013.000)

ATTACHMENT 1			
SUMMARY OF CLOSED FACILITIES AND JUSTIFICATION			
Closed Facility	Date Closed	Statute/Rule/Policy	Justification/Documentation

DEFINITIONS

AQUIFER – (A.R.S. §49-201) means a geologic unit that contains sufficient saturated permeable material to yield usable quantities of water to a well or spring.

AQUIFER PROTECTION PERMIT - means an individual or general permit issued under A.R.S. §§ 49-203, 49-241 through 252, and A.A.C. Title 18 Chapter 9, Articles 1, 2 and 3.

CATEGORICAL DISCHARGING FACILITY – means (A.R.S. §49-241.B)
1. Surface impoundments, including holding, storage settling, treatment or disposal pits, ponds and lagoons.
2. Solid waste disposal facilities except for mining overburden and wall rock that has not been and will not be subject to mine leaching operations.
3. Injection wells.
4. Land treatment facilities.
5. Facilities that add a pollutant to a salt dome formation, salt bed formation, dry well or underground cave or mine.
6. Mine tailings piles and ponds.
7. Mine leaching operations.
8. Underground water storage facilities.
9. Sewage treatment facilities, including on-site wastewater treatment facilities.
10. Wetlands designed and constructed to treat municipal and domestic wastewater for underground storage.

CLOSED FACILITY – means (A.R.S. §49-201.7):

(a) A facility that ceased operation before January 1, 1986, that is not, on August 13, 1986, engaged in the activity for which the facility was designed and that was previously operated and for which there is no intent to resume operation as provided by A.R.S. § 49-201.

(b) A facility that has been approved as a clean closure by the director as provided by A.R.S. § 49-201.

(c) A facility at which any post-closure monitoring and maintenance plan, notifications and approvals required in a permit have been completed as provided by A.R.S. § 49-201.

(d) Any facility designed and operated to manage, treat or contain surface or subsurface flows at or from a closed facility (as defined in A.R.S. 49-201(7)(a)-(c)), to include liners, treatment systems, pump-back systems, storm water management systems, impoundments, sumps and diversions, even if such facilities were installed or modified after January 1, 1986, so long as the facility's primary purpose is to manage, treat, or contain surface or subsurface or subsurface flows and not for the production of a marketed commodity.

DISCHARGE – (A.R.S. §49-201) means the direct or indirect addition of any pollutant to the waters of the state from a facility. For purposes of the Aquifer Protection Permit program prescribed by Title 49, Article 3, Chapter 2 of the Arizona Revised Statutes, discharge means the addition of a pollutant from a facility either directly to an aquifer or to the land surface or the vadose zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.

DRYWELL - A.R.S. §49-331) means a well which is a bored, drilled or driven shaft or hole whose depth is greater than its width and is designed and constructed specifically for the disposal of storm water. Drywells do not include class 1, class 2, class 3 or class 4 injection wells as defined by the Federal Underground Injection Control Program (P.L. 93-523, part C), as amended.

FACILITY – (A.R.S. §49-201) means any land, building, installation, structure, equipment, device, conveyance, area, source, activity or practice from which there is, or with reasonable probability may be, a discharge.

INERT MATERIAL – (A.R.S. §49-201) means broken concrete, asphaltic pavement, manufactured asbestos-containing products, brick, rock, gravel, sand and soil. Inert material also includes material that when subjected to a water leach test that is designed to approximate natural infiltrating waters will not leach substances in concentrations that exceed numeric aquifer water quality standards established pursuant to section 49-223, including overburden and wall rock that is not acid generating, taking into consideration acid neutralization potential, and that has not and will not be subject to mine leaching operations.

POLLUTANT - (A.R.S. §49-201) means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances.

SEWAGE TREATMENT FACILITY – (A.A.C. R18-9-101) means a plant or system for sewage treatment and disposal, except an on-site wastewater treatment facility, that consists of treatment works, disposal works, and appurtenant pipelines, conduits, pumping stations, and related subsystems and devices.

SURFACE IMPOUNDMENT - (A.A.C. R18-9-101) means a pit, pond or lagoon, having a surface dimension that is equal to or greater than its depth, which is used for the storage, holding, settling, treatment or discharge of liquid pollutants or pollutants containing free liquids.

TANK – (A.R.S. §49-201) means a stationary device, including a sump, that is constructed of concrete, steel, plastic, fiberglass, or other non-earthen material that provides substantial structural support, and that is designed to contain an accumulation of solid, liquid or gaseous materials.

EXEMPTIONS

EXEMPTIONS – A.R.S. §49-250B. The following are exempt from the aquifer protection permit requirement of this article:

1. Household and domestic activities.
2. Household gardening, lawn watering, lawn care, landscape maintenance and related activities.
3. The noncommercial use of consumer products generally available to and used by the public.
4. Ponds used for watering livestock and wildlife.
5. Mining overburden returned to the excavation site including any common material which has been excavated and removed from the excavation site and has not been subjected to any chemical or leaching agent or process of any kind.
6. Facilities used solely for surface transportation or storage of groundwater, surface water for beneficial use or reclaimed water that is regulated pursuant to section 49-203, subsection A, paragraph 6 for beneficial use.
7. Discharge to a community sewer system.
8. Facilities that are required to obtain a permit for the direct reuse of reclaimed water.
9. Leachate resulting from the direct, natural infiltration of precipitation through undisturbed regolith or bedrock if pollutants are not added to the leachate as a result of any material or activity placed or conducted by man on the ground surface.
10. Surface impoundments used solely to contain storm runoff, except for surface impoundments regulated by the federal clean water act.
11. Closed facilities. However, if the facility ever resumes operation the facility shall obtain an aquifer protection permit and the facility shall be treated as a new facility for purposes of section 49-243.
12. Facilities for the storage of water pursuant to title 45, chapter 3.1 unless reclaimed water is added.
13. Facilities using central Arizona project water for underground storage and recovery projects under title 45, chapter 3.1, article 6.
14. Water storage at a groundwater saving facility that has been permitted under title 45, chapter 3.1.
15. Application of water from any source, including groundwater, surface water or wastewater, to grow agricultural crops or for landscaping purposes, except as provided in section 49-247.
16. Discharges to a facility that is exempt pursuant to paragraph 6 if those discharges are regulated pursuant to 33 United States Code section 1342.
17. Solid waste and special waste facilities when rules addressing aquifer protection are adopted by the director pursuant to section 49-761 or 49-855 and those facilities obtain plan approval pursuant to those rules. This exemption shall only apply if the director determines that aquifer water quality standards will be maintained and protected because the discharges from those facilities are regulated under rules adopted pursuant to section 49-761 or 49-855 that provide aquifer water quality protection that is equal to or greater than aquifer water quality protection provided pursuant to this article.
18. Facilities used in:
    (a) Corrective actions taken pursuant to chapter 6, article 1 of this title in response to a release of a regulated substance as defined in section 49-1001 except for those off-site facilities that receive for treatment or disposal materials that are contaminated with a regulated substance and that are received as part of a corrective action.
    (b) Response or remedial actions undertaken pursuant to article 5 of this chapter or pursuant to CERCLA.
    (c) Corrective actions taken pursuant to chapter 5, article 1 of this title or the resource conservation and recovery act of 1976, as amended (42 United States Code sections 6901 through 6992).

(d) Other remedial actions which have been reviewed and approved by the appropriate governmental authority and taken pursuant to applicable federal or state laws.

19. Municipal solid waste landfills as defined in section 49-701 that have solid waste facility plan approval pursuant to section 49-762.
20. Storage, treatment or disposal of inert material.
21. Structures that are designed and constructed not to discharge and that are built on an impermeable barrier that can be visually inspected for leakage.
22. Pipelines and tanks designed, constructed, operated and regularly maintained so as not to discharge.
23. Surface impoundments and dry wells that are used to contain storm water in combination with discharges from one or more of the following activities or sources:
    (a) Fire fighting system testing and maintenance.
    (b) Potable water sources, including waterline flushings.
    (c) Irrigation drainage and lawn watering.
    (d) Routine external building wash down without detergents.
    (e) Pavement wash water where no spills or leaks of toxic or hazardous material have occurred unless all spilled material has first been removed and no detergents have been used.
    (f) Air conditioning, compressor and steam equipment condensate that has not contacted a hazardous or toxic material.
    (g) Foundation or footing drains in which flows are not contaminated with process materials.
    (h) Occupational safety and health administration or mining safety and health administration safety equipment.
24. Industrial wastewater treatment facilities designed, constructed and operated as required by section 49-243, subsection B, paragraph 1 and using a treatment system approved by the director to treat wastewater to meet aquifer water quality standards prior to discharge, if that water is stored at a groundwater storage facility pursuant to title 45, chapter 3.1.
25. Any point source discharge caused by a storm event and authorized in a permit issued pursuant to section 402 of the clean water act.

R18-9-102. Facilities to which Articles 1, 2, and 3 Do Not Apply

Articles 1, 2, and 3 do not apply to:

1. A drywell used solely to receive storm runoff and located so that no use, storage, loading, or treating of hazardous substances occurs in the drainage area;
2. A direct pesticide application in the commercial production of plants and animals subject to the Federal Insecticide, Fungicide, and Rodenticide Act (P.L. 92-516; 86 Stat. 975; 7 United States Code 135 et seq., as amended), or A.R.S. §§ 49-301 through 49-309 and applicable rules, or A.R.S. Title 3, Chapter 2, Article 6 and applicable rules.

R18-9-103. Class Exemptions

Class exemptions. In addition to the classes or categories of facilities listed in A.R.S. § 49-250(B), the following classes or categories of facilities are exempt from the Aquifer Protection Permit requirements in Articles 1, 2, and 3 of this Chapter:

1. Facilities that treat, store, or dispose of hazardous waste and have been issued a permit or have interim status, under the Resource Conservation and Recovery Act (P.L. 94-580; 90 Stat. 2796; 42 U.S.C. 6901 et seq., as amended), or have been issued a permit according to the hazardous waste management rules adopted under 18 A.A.C. 8, Article 2;
2. Underground storage tanks that contain a regulated substance as defined in A.R.S. § 49-1001;
3. Facilities for the disposal of solid waste, as defined in A.R.S. § 49-701.01, that are located in unincorporated areas and receive solid waste from four or fewer households;
4. Land application of biosolids in compliance with 18 A.A.C. 9, Articles 9 and 10.

GENERAL PERMITS

General Aquifer Protection Permits (GPs) are permits by rule or statute. The rules are extensive and can be accessed on the Secretary of State's website at: http://www.azsos.gov/public_services/Title_18/18-09.htm Specific citations for general permits by rule are: Type 1: A.A.C. R18-9-B301, Type 2: A.A.C. R18-9-C301, Type 3: A.A.C. R18-9-D301, Type 4: A.A.C. R18-9-E301

The statutory general permits are:
49-245.01. Storm water general permit
A. A general permit is issued for facilities used solely for the management of storm water and that are regulated by the clean water act, including catchments, impoundments and sumps, provided the following conditions are met:

1. The owner or operator of the facility has obtained a national pollutant discharge elimination system permit issued pursuant to the clean water act for any storm water discharges at the facility, or that the facility has applied, and not been denied coverage, for this type of permit for any storm water discharges at the facility.
2. The owner or operator notifies the director that the facility has met the requirements of paragraph 1 of this subsection.
3. The owner or operator of the facility has in place any required storm water pollution prevention plan.

B. If the director determines that discharges of storm water from a facility or facilities covered by this general permit are causing a violation of aquifer water quality standards at the applicable point of compliance, the director may revoke the general permit of the facility or facilities or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges of storm water from a facility or facilities covered by this general permit, with reasonable probability, may cause a violation of aquifer water quality standards at the applicable point of compliance, the director may require a facility or facilities covered by the general permit to obtain an individual permit pursuant to section 49-243.

49-245.02. General permit for certain discharges associated with man-made bodies of water
A. A general permit is issued for the following discharges:
1. Disposal in vadose zone injection wells of storm water mixed with reclaimed wastewater or groundwater, or both, from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The vadose zone injection wells are registered pursuant to section 49-332.
(b) The discharge occurs only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water, as documented by a water quality analysis submitted with the vadose zone injection well registration. The owner or operator of the vadose zone injection wells shall demonstrate continued compliance with this subdivision by submitting to the department the results of any monitoring required as part of an aquifer protection permit or wastewater reuse permit for any facility providing reclaimed wastewater to the man-made body of water. For purposes of this general permit, monitoring shall be conducted at least semiannually. The monitoring results shall be submitted to the department semiannually beginning six months after registration made to subdivision (a) of this paragraph.
(d) The vadose zone injection wells shall be located at least one hundred feet from any water supply well.
(e) A vertical separation of forty feet shall be provided between the bottom of the vadose zone injection wells and the water table to allow the aquifer water quality standard for microbiological contaminants to be met in the uppermost aquifer.
(f) The vadose zone injection wells are not used for any other purpose.

2. Subsurface discharges from man-made bodies of water associated with golf courses, parks and residential common areas, provided that:

(a) The body of water contains only groundwater, storm water or reclaimed wastewater, or a combination thereof.
(b) The reclaimed wastewater complies with the terms of a wastewater reuse permit before being placed into the body of water.
(c) The body of water is lined and maintained to achieve a hydraulic conductivity of 10-7 cm/sec or less.

3. Point source discharges to waters of the United States from man-made bodies of water associated with golf courses, parks and residential common areas that contain only groundwater, storm water or reclaimed wastewater, or a combination thereof, provided that:

(a) The discharges are subject to a valid national pollutant discharge elimination system permit.
(b) The discharges occur only in response to storm events.
(c) With the exception of the aquifer water quality standard for microbiological contaminants, the reclaimed wastewater meets aquifer water quality standards before being placed into the body of water.

B. If the director determines that discharges from a facility covered by this general permit are causing a violation of aquifer water quality standards, the director may revoke the general permit of the facility or may require that an individual permit be obtained pursuant to section 49-243. If the director determines that discharges from a facility covered by this general permit may cause, with reasonable probability, a violation of aquifer water quality standards, the director may require the facility to obtain an individual permit pursuant to section 49-243.

DEPARTMENT OF TRANSPORTATION
Title 17, Chapter 15, Article 2

Amend: R17-5-201; R17-5-202; R17-5-203; R17-5-204; R17-5-205; R17-5-206; R17-5-208; R17-5-209; R17-5-212

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF TRANSPORTATION**
Title 17, Chapter 4

Amend: R17-5-201, R17-5-202, R17-5-203, R17-5-204, R17-5-205, R17-5-206, R17-5-208, R17-5-209. R17-5-212

Summary:

This regular rulemaking from the Department of Transportation (Department) seeks to amend nine (9) rules in Title 17, Chapter 5, Article 2 regarding Motor Carriers. The amendments are intended to improve clarity and effectiveness of the rules, and to update terminology. Specifically, the Department is proposing to incorporate by reference the 2023 editions of the Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs). The incorporation of these regulations allows the state to be eligible for certain federal grants. The Department meets the requirements for incorporation under A.R.S. § 41-1028. The remaining amendments are intended to improve consistency in language between the rules and incorporated references, remove outdated vision requirements, and to clarify the hearing procedure.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Arizona Department of Transportation (ADOT), in partnership with the Arizona Department of Public Safety (DPS), engages in the rulemaking to incorporate by reference parts of the 2023 edition of the Code of Federal Regulations and sections of 88 FR 70897, October 13, 2023. The Federal Motor Carrier Safety Administration (FMCSA) requires that states adopt Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs). The Department states that this also enables the state to be eligible for federal enforcement grants. Both ADOT and DPS rely on these federal monies to fund numerous enforcement positions. The Department indicates that to remain compliant with federal mandates, FCMSA requires that each state adopt the FMCSRs and HMRs that are current within three years. For FY 2024, these grants total approximately $16 – 17 million annually and cover the costs of salaries, equipment, and other expenses for motor carrier and hazardous materials-related enforcement.

DPS administers and enforces the Federal Motor Carrier Safety Assistance Program throughout the State of Arizona under these rules. The primary cost bearers, according to the Department, are DPS, ADOT, counties, municipal law enforcement agencies electing to enforce the provisions locally, privately contracted consultant trainers of law enforcement personnel, Arizona motor carriers, Arizona commercial drivers license (CDL) applicants and holders, and CDL medical examiners.

DPS states that it inspected over 57,729 commercial motor vehicles in 2023. Of these inspections, 950 drivers and 1,147 vehicles were placed out of service after the inspections, meaning that the violations were so severe that the driver was prohibited from driving and the vehicle prohibited from being moved until the violations were corrected.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department indicates that in rulemaking, ADOT routinely adopts the least costly and least burdensome options for any process or procedure required of the regulated public or industry. However, each state is required under 49 CFR 384.301 to adopt and carry out a program for testing and ensuring the fitness of individuals to operate commercial motor

vehicles consistent with the minimum standards prescribed by the Secretary of Transportation under 49 U.S.C. 31305(a) as soon as practical, or an amount of up to 5 percent of the state's federal-aid highway funds appropriated under each of sections 104(b)(1), (b)(3), and (b)(4) of 23 U.S.C. may be withheld from the state for noncompliance. The Department indicates that based on amounts traditionally received by ADOT, this amount could reach approximately $30 million depending on the actual appropriation. Therefore, to the extent permitted by federal law, ADOT has determined that these rules impose the least burden and costs to regulated persons.

6. What are the economic impacts on stakeholders?

The Department states that to maintain compliance with the provisions of these rules, motor carriers will likely incur minimal to moderate costs in possible federal registration fees, inspections fees, insurance and equipment. CDL applicants and holders incur minimal costs to apply for and maintain a CDL. CDL medical examiners, as defined under 49 CFR 390.5, may incur minimal costs to receive medical examiner certification from FMCSA and may incur new minimal costs to be able to electronically report medical examination reports or medical examiner's certificates. The Department states that these costs arise from the federal law rather than from this rulemaking.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates that there were no changes between the proposed rulemaking and the final rulemaking.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

ADOT indicates these rules incorporate by reference federal regulations that contain the requirements of obtaining a CLP, CDL, and endorsements, which are consistent with state statutes.

In addition, R17-5-208 provides for the issuance of an Intrastate Medical Waiver, and in keeping with state statutes, requires applicable drivers to have a CLP, CDL, and endorsements. ADOT indicates these items constitute general permits as defined by A.R.S. § 41-1001(12) since

the activities, practices, requirements, and restrictions authorized by them are substantially similar in nature for all holders. As such, ADOT is in compliance with A.R.S. § 41-1037.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are some corresponding federal laws concerning Commercial Learner's Permits and Commercial Drivers Licenses, but that the rules are not more stringent than those corresponding federal laws. The Federal Regulations relevant to these rules are found at 49 CFR 40, 107, 171, 172, 173, 177, 178, 180, 379, 382, 383, 385, 390, 391, 392, 393, 395, 396, 397, and 399.

11. Conclusion

This regular rulemaking from the Department of Transportation (Department) seeks to amend nine (9) rules in Title 17, Chapter 5, Article 2 regarding Motor Carriers. the Department is proposing to incorporate by reference the 2023 editions of the Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs). The remaining amendments are intended to improve consistency in language between the rules and incorporated references, remove outdated vision requirements, and to clarify the hearing procedure.

The Department is seeking an immediate effective date pursuant to A.R.S. § 41-1032(B). The Department states that the immediate effective date is necessary in order to preserve the public peace, health, and safety, and to avoid violation of federal regulation. The Department has specifically indicated that the immediate effective date will ensure consistency with the Federal Motor Carrier Safety Regulations and Hazardous Materials Regulations. The Department states that an immediate effective date would avoid a violation of federal law or regulation of state which require the Department to administer driver licensing and medical evaluation activities, to comply with the Commercial Motor Vehicle Safety Act of 1986, and to adopt and administer a program for testing and ensuring fitness of commercial motor vehicle operators in accordance with federal standards in 49 CFR 384.

Council staff recommends approval of this rulemaking.

ARIZONA DEPARTMENT OF TRANSPORTATION

Jessica Klein, Chair
Governor's Regulatory Review Council
100 N. 15th Ave., Suite 305
Phoenix, AZ 85007

Re: Department of Transportation, 17. A.A.C. 5, Article 2, Motor Carriers, Notice of Final Rulemaking

Dear Chairperson Jessica Klein:

The Arizona Department of Transportation submits the accompanying final rule package for consideration by the Governor's Regulatory Review Council. The following information is provided to comply with R1-6-201(A)(1):

a. The rulemaking record closed on January 15, 2025, and no written public comments were received on these rules;
b. The rulemaking activity does not relate to a five-year review report;
c. The rulemaking does not establish a new fee;
d. The rulemaking does not increase an existing fee;
e. An immediate effective date is requested for these rules under A.R.S. § 41-1032;
f. The preamble discloses that the Department did not review any studies relevant to the rules and did not rely on any studies in its evaluation of or justification for the rules;
g. No new full-time employees are necessary to implement and enforce the rules;
h. Documents included in this final rule package are as follows:
    1. Signed cover letter;
    2. Notice of Final Rulemaking, including the preamble, table of contents, and text of each rule;
    3. Economic, Small Business and Consumer Impact Statement;
    4. General authorizing statutes and specific statutes, including relevant statutory definitions;
    5. Definitions of terms;
    6. Material incorporated by reference; and
    7. Request for, and approvals of initial and final rulemaking from the Governor's Office.

Sincerely,

Jennifer Toth
Director

Enclosures

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 5. DEPARTMENT OF TRANSPORTATION

COMMERCIAL PROGRAMS

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039 by the governor on:

April 16, 2025

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**
R17-5-201	Amend
R17-5-202	Amend
R17-5-203	Amend
R17-5-204	Amend
R17-5-205	Amend
R17-5-206	Amend
R17-5-208	Amend
R17-5-209	Amend
R17-5-212	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 28-366, 28-962, 28-2169, and 28-5204

Implementing statute: A.R.S. §§ 28-3223, 28-5201, 28-5235, 28-5237, 28-5240, and 28-5241

4. The effective date of the rule:

Month X, 2025 (To be completed by the *Register* Editor with an immediate effective date.)

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

The Arizona Department of Transportation (ADOT) requests that this rulemaking be effective immediately on filing with the Office of the Secretary of State, as permitted under A.R.S. § 41-1032, to:

Preserve the public peace, health, and safety. These rules are made in connection with the required incorporation by reference of the Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs) in 17 A.A.C. 5, Article 2, thus ensuring there is a consistency between ADOT regulations, state statutes, and federal regulations. These changes allow for a greater understanding by commercial driver license (CDL) applicants of what is required of them as it pertains to their physical qualifications and, when applicable, eligibility for a hazardous materials endorsement (HME). These regulations safeguard the public by making sure there are healthy and safe CDL holders; and

Avoid a violation of federal law or regulation or state law. ADOT is statutorily required to administer the driver licensing and medical evaluation activities required of commercial motor vehicle drivers under A.R.S. Title 28, Chapter 8, and these rules. ADOT is required under A.R.S. § 28-5204(A)(2) to consider, as evidence of generally accepted safety standards, the publications of the U.S. Department of Transportation and the Environmental Protection Agency when adopting rules necessary to administer and enforce A.R.S. Title 28, Chapter 14. 49 CFR 384 requires that each state comply with the provisions of section 12009(a) of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. 31311(a)) and adopt and administer a program for testing and ensuring the fitness of persons to operate commercial motor vehicles in accordance with the minimum federal standards contained in 49 CFR 383.

The updated incorporation by reference of the FMCSRs and HMRs in 17 A.A.C. 5, Article 2, allows the Arizona Department of Public Safety (DPS) to be eligible to apply for an estimated $16 – $17 million in total federal funding from the Federal Motor Carrier Safety Administration (FMCSA).

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 3539, Issue Date: November 22, 2024, Issue Number: 47, File number: R24-252

Notice of Proposed Rulemaking: 30 A.A.R. 3505, Issue Date: November 22, 2024, Issue Number: 47, File number: R24-245

6. The agency's contact person who can answer questions about the rulemaking:

Name: Candace Olson
Title: Senior Rules Analyst
Office: Government Relations and Rules
Address: Department of Transportation

Phoenix, AZ 85007
Telephone: (480) 267-6610
Email: COlson2@azdot.gov
Website: https://azdot.gov/about/government-relations

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

ADOT, in partnership with DPS, engages in this rulemaking to incorporate by reference parts of the 2023 edition of the *Code of Federal Regulations* and sections of 88 FR 70897, October 13, 2023. FMCSA requires that states adopt FMCSRs and HMRs. This also enables the state to be eligible for federal enforcement grants. Both ADOT and DPS

rely on these federal monies to fund numerous enforcement positions.

In addition to incorporating by reference the 2023 edition of the FMCSRs and HMRs, ADOT is amending the following Sections:

- R17-5-201 and R17-5-208 are being amended to remove verbiage related to monocular vision, including the vision examination report due to the vision standards changing in 49 CFR 391, which now permits individuals who do not satisfy, with the worse eye, either the existing distant visual acuity standard with corrective lenses or the field of vision standard, or both, to be physically qualified. This new standard eliminated the need for the vision waiver. In addition, a definition for "Department" is being added to R17-5-201 for better clarity.
- R17-5-204 is being amended to update the citation and to specify "FMCSA" to maintain consistency with the change made to the federal regulations.

FMCSA revised the emergency exemption rules to narrow the scope of safety regulations from which relief is automatically provided for motor carriers and drivers providing direct assistance when an emergency has been declared in 88 FR 70897, October 13, 2023. To ensure there is clarity to the emergency process and the exemptions allowed, ADOT is incorporating by reference the changes to Part 390 that was published in the *Federal Register*. R17-5-203 is being amended to ensure the language is consistent with the changes made in 88 FR 70897, October 13, 2023, and with the state's process.

R17-5-205 is being amended by adding "surety" to "bond" to be consistent with ADOT verbiage.

R17-5-206 is being amended by adding A.R.S. § 28-5241 to be consistent with the 2023 legislative change that delineated and clarified the civil and criminal penalties and placed the criminal penalties into A.R.S. § 28-5241.

R17-5-212 is being amended for better clarity and better detailing of the process.

In addition, minor clarifying and technical changes have been made to ensure consistent and clearer language and conformity to the rulemaking format and style requirements of the Arizona Administrative Procedure Act and the Office of the Secretary of State.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

ADOT did not review or rely on any study relevant to the rules.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

DPS administers and enforces the Federal Motor Carrier Safety Assistance Program (MCSAP) throughout the State

of Arizona under these rules. The primary cost bearers in relation to these rules are DPS, ADOT, counties, municipal law enforcement agencies electing to enforce the provisions locally, privately contracted consultant trainers of law enforcement personnel, Arizona motor carriers, Arizona CDL applicants and holders, and CDL medical examiners.

ADOT is statutorily required to administer the driver licensing and medical evaluation activities required of commercial motor vehicle drivers under A.R.S. Title 28 and these rules. This rulemaking will have a substantial economic impact on the agency. ADOT incurred a substantial cost to implement the new drug and alcohol clearinghouse process and anticipates that there will be an additional moderate to substantial cost to implement the new electronic medical examiner's certificate verification system, to train, and to communicate the changes. ADOT experienced a minimal decrease in costs due to the removal of the vision waiver.

DPS incurs moderate to substantial costs (more than $10,000) annually for program administration as well as a not readily quantifiable portion of officer salaries for hazardous materials transportation program enforcement. FMCSA extends annually to DPS a substantial grant under MCSAP for state law enforcement of motor carrier safety and hazardous materials programs. MCSAP funds are distributed chiefly to DPS but may also be sub-allocated to county and municipal enforcement agencies upon application to underwrite local enforcement costs. For FY 2024, DPS can apply for an estimated $16,000,000 - $17,000,000 in total federal funding from FMCSA.

Local enforcement cost estimates are difficult to quantify as they are contingent upon whether officers are dedicated to motor carrier and hazardous materials provision enforcement or incorporate motor carrier and hazardous materials enforcement together with other duties. Accordingly, local law enforcement electing to engage in motor carrier and hazardous materials provision enforcement could stand to benefit substantially in cost defrayal through receipt of MCSAP fund allocation by application to DPS. Minimal administrative costs are borne by independent consultant trainers who educate law enforcement and business entities on rule compliance.

To maintain compliance with the provisions of these rules, motor carriers bear minimal to moderate costs (under $100,000) in possible federal registration fees, inspection fees, insurance, and equipment. CDL applicants and holders incur minimal costs to apply for and maintain a CDL. CDL medical examiners, as defined under 49 CFR 390.5, may incur minimal costs to receive medical examiner certification from FMCSA and may incur new minimal costs to be able to electronically report medical examination reports or medical examiner's certificates. However, costs arise from the federal law rather than from this rulemaking. There are no new fees associated with this rulemaking. If a motor carrier is found to be noncompliant with the provisions of these rules, costs of sanctions under A.R.S. § 28-5238 could range from $1,000 to $25,000 per citation and the possible loss of a CDL as prescribed under A.R.S. § 28-5238. Benefits to motor carriers remaining in compliance with these rules include increased safety, lower financial responsibility premiums, the opportunity to increase profit margin through better customer service, and more expedient administrative processing by law enforcement. As of September 2024, there are 115,130 CDL holders and 3,454 commercial learner's permit (CLP) holders.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

Not applicable

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

ADOT did not receive any public or stakeholder comments regarding this rulemaking.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable to ADOT or to any specific rule or class of rules.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

These rules incorporate by reference federal regulations, which are consistent with state statutes, that detail when a CLP, CDL, and endorsements are required and how they are issued. In addition, R17-5-208 provides for the issuance of an Intrastate Medical Waiver, and in keeping with state statute, requires applicable drivers to have a CLP or CDL and endorsements. These are general permits since the activities and practices authorized by them are substantially similar in nature for all holders.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Federal regulations in 49 CFR 40, 107, 171, 172, 173, 177, 178, 180, 379, 382, 383, 385, 390, 391, 392, 393, 395, 396, 397, and 399 are applicable to these rules. R17-5-205(E)(2) amends 49 CFR 383.153(e) by removing the exception for a nondomiciled CLP or CDL holder who is domiciled in a foreign jurisdiction for providing the holder's social security number (SSN) on the application. Pursuant to Laws 2013, Chapter 128, the exemption for the SSN of nonresident CDL applicants was removed from A.R.S. § 28-3158, which also reclassified nonresident CDL as nondomiciled CDL. This change authorized ADOT to require all CLP and CDL holders to provide their SSNs. This amendment is consistent with other federal laws (42 U.S.C. 405 and 42 U.S.C. 666) that require states to obtain SSNs and the statutory requirement of A.R.S. § 28-3158.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted to ADOT.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

In R17-5-202:

1. 49 CFR 40, 379, 382, 383, 385, 390 (except 390.23, 390.25 and the definitions of "direct assistance" and "emergency" in 390.5 and 390.5T), 391, 392, 393, 395, 396, 397, and 399, revised as of October 1, 2023; and
2. 49 CFR 390.23, 390.25, and the definitions of "direct assistance," "emergency," and "residential heating fuel" in 390.5 and 390.5T as published in 88 FR 70897, October 13, 2023

In R17-5-209: 49 CFR 107, 171, 172, 173, 177, 178, and 180, revised as of October 1, 2023

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

16. The full text of the rules follows:

TITLE 17. TRANSPORTATION
CHAPTER 5. DEPARTMENT OF TRANSPORTATION
COMMERCIAL PROGRAMS

ARTICLE 2. MOTOR CARRIERS

Section

ARTICLE 2. MOTOR CARRIERS

R17-5-201. Definitions

In addition to the definitions provided under A.R.S. §§ 28-3001 and 28-5201, the following definitions apply to this Article unless otherwise specified:

"Audit" means any inspection of a transporter's motor vehicle, equipment, books, or records to determine compliance with this Article and A.R.S. Title 28, Chapter 14.

"Co-applicant" means an employer or potential employer.

"Danger to public safety" means any condition of a transporter likely to result in serious peril to the public if not discontinued immediately.

"Department" has the same meaning as defined in A.R.S. § 28-101.

"Director" means the Director of the Arizona Department of Transportation or the Director's designated agent.

"Executive Hearing Office" means the Arizona Department of Transportation's Executive Hearing Office.

"Medical waiver evaluation summary" means the form, provided by the Department, to be completed by either a board-qualified or board-certified orthopedic surgeon or physiatrist and mailed to the Department, at the address provided on the form, on behalf of an Arizona intrastate medical waiver applicant.

"Physiatrist" means a doctor of medicine specialized in physical medicine and rehabilitation.

"Transporter" means any person, driver, motor carrier, shipper, manufacturer, or motor vehicle, including any motor vehicle transporting a hazardous material, hazardous substance, or hazardous waste, subject to this Article and A.R.S. Title 28, Chapter 14.

"Violation" means any conduct, act, or failure to act required or prohibited under this Article and A.R.S. Title 28, Chapter 14.

~~"Vision examination report" means a form provided by the Department to be completed by an ophthalmologist or a licensed optometrist on behalf of a driver or driver applicant and mailed to the Department, at the address provided on the form, for use in determining whether or not a medical condition affects the driver's or driver applicant's ability to safely perform the functional skills involved with driving a motor vehicle.~~

R17-5-202. Motor Carrier Safety: Incorporation of Federal Regulations; Applicability

A. The Department incorporates by reference 49 CFR 40, 379, 382, 383, 385, 390 (except 390.23, 390.25 and the definitions of "direct assistance" and "emergency" in 390.5 and 390.5T), 391, 392, 393, 395, 396, 397, and 399, revised as of October 1, ~~2020~~ 2023, and no later amendments or editions, as amended under this Article. The Department incorporates by reference 49 CFR 390.23, 390.25, and the definitions of "direct assistance," "emergency," and "residential heating fuel" in 390.5 and 390.5T as published in 88 FR 70897, October 13, 2023, and no later amendments or editions, as amended under this Article. The incorporated material is on file with the Department at 206 S. 17th Avenue, Phoenix, AZ 85007. The incorporated material is published by National Archives and Records Administration, Office of the Federal Register, 8601 Adelphi Road, College Park, MD 20740-6001, and is printed and distributed by the U.S. Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000. The incorporated material can be viewed online at https://www.govinfo.gov and ordered online by visiting the U.S. Government Bookstore at

http://bookstore.gpo.gov. ~~The International Standard Book Numbers are 9780160958786 for 49 CFR 40 and 9780160958823 for 49 CFR 379, 382, 383, 385, 390, 391, 392, 393, 395, 396, 397, and 399.~~

B. The sections of 49 CFR incorporated under subsection (A) apply as amended under this Article to all intrastate and interstate motor carriers operating in Arizona and persons operating a commercial motor vehicle.

R17-5-203. Motor Carrier Safety: 49 CFR 390 - Federal Motor Carrier Safety Regulations; General

A. 49 CFR 390.3T, General applicability. Paragraph (a)(1) is amended to read:

Regulations incorporated in this subchapter are applicable to all motor carriers operating in Arizona and any vehicle owned or operated by the state, a political subdivision, or a state public authority that is used to transport a hazardous material in an amount requiring the vehicle to be placarded as prescribed under R17-5-209.

B. 49 CFR 390.5T, Definitions. The definitions listed under 49 CFR 390.5T are amended as follows:

"Commercial Motor Vehicle" or "CMV" has the same meaning as defined in A.R.S. § 28-5201.

"Emergency relief" is deleted.

"Shipper" has the same meaning as defined in A.R.S. § 28-5201.

"Special agent" means an officer or agent of the Department, the Arizona Department of Public Safety, or a political subdivision, who is trained and certified by the Arizona Department of Public Safety to enforce Arizona's Motor Carrier Safety requirements.

"State" means a state of the United States or the District of Columbia.

"Tow truck," as used in the definition of emergency under 49 CFR 390.5T, has the same meaning as defined in A.A.C. R13-3-701.

C. 49 CFR 390.19T, Motor carrier, hazardous material safety permit applicant/holder, and intermodal equipment provider identification reports. Paragraph (a)(1) is amended to read:

A U.S.-, Canada-, Mexico-, or non-North America-domiciled motor carrier conducting operations in interstate commerce or in intrastate commerce in a CMV must file a Motor Carrier Identification Report, Form MCS-150.

D. 49 CFR 390.23, ~~Relief~~ Automatic relief from regulations. Paragraph (c) is amended to read:

Local emergencies. Sections 395.3 and 395.5 of this chapter shall not apply to a motor carrier or driver operating a commercial motor vehicle so long as the motor carrier or driver is providing direct assistance during an emergency declared by a Federal, State, or local government official having authority to declare an emergency or an emergency situation exists under A.R.S. § 28-5234(B) for the period of such assistance or five days from the date of the initial declaration of emergency, whichever is less. A motor carrier may request the exemption by contacting Commercial Vehicle Enforcement at the Arizona Department of Public Safety, Highway Patrol Division, P.O. Box 6638, Phoenix, AZ 85005. The Arizona Department of Public Safety may grant the exemption with or without restrictions as necessary to provide vital service to the public.

1. ~~Paragraph (a)(2), Local emergencies, is amended by adding:~~

~~When a local emergency exists that justifies an exemption from parts 390 through 399 of this chapter, a motor carrier may request the exemption by contacting Commercial Vehicle Enforcement at the Arizona Department of Public Safety, Highway Patrol Division, P.O. Box 6638, Phoenix, AZ 85005. The Arizona Department of Public Safety may grant the exemption with or without restrictions as necessary to provide vital service to the public.~~

2. ~~Paragraph (a)(2)(i)(A) is amended to read:~~

   ~~An emergency has been declared by a federal, state or local government official having authority to declare an emergency; or an emergency situation exists under A.R.S. § 28-5234(B); or~~

E. 49 CFR 390.25, Extension or modification of relief from regulations - emergencies~~.~~. Paragraph (a) is amended by adding:

A motor carrier seeking to extend a period of relief from these regulations may request the extension by contacting Commercial Vehicle Enforcement at the Arizona Department of Public Safety, Highway Patrol Division, P.O. Box 6638, Phoenix, AZ 85005. The Arizona Department of Public Safety may grant the extension with any restrictions it considers necessary to provide vital service to the public.

R17-5-204. Motor Carrier Safety: 49 CFR 391 - Qualifications of Drivers and Longer Combination Vehicle (LCV) Driver Instructors

A. 49 CFR 391.11, General qualifications of drivers. Paragraph (b)(1) is amended to read:

Is at least 21 years of age for interstate operation or is at least 18 years of age for operations restricted to intrastate transportation not involving the transportation of a reportable quantity of hazardous substance, hazardous waste required to be manifested, or hazardous material in an amount requiring a vehicle to be placarded as prescribed under R17-5-209;

B. 49 CFR 391.51, General requirements for driver qualification files. Paragraph ~~(b)(8)~~ (b)(7) is amended to read:

A Skill Performance Evaluation Certificate ~~obtained from a Field Administrator, Division Administrator, or state Director~~ issued by FMCSA in accordance with § 391.49; or the Medical Exemption document, issued by a Federal medical program in accordance with part 381 of this chapter; or a copy of the Arizona intrastate medical waiver, if a waiver is granted by the Director as prescribed under R17-5-208.

R17-5-205. Motor Carrier Safety: 49 CFR 383 - Commercial Driver's License Standards; Requirements and Penalties

A. 49 CFR 383.5, Definitions. The definitions listed under 49 CFR 383.5 are amended as follows:

"Commercial motor vehicle" or "CMV" has the same meaning as defined in A.R.S. § 28-3001.

"Conviction" has the same meaning as defined in A.R.S. § 28-3001.

"Disqualification" has the same meaning as defined in A.R.S. § 28-3001.

"Motor vehicle" has the same meaning as defined in A.R.S. § 28-101.

"Out-of-service order" has the same meaning as defined in A.R.S. § 28-5241.

"School bus" has the same meaning as defined in A.R.S. § 28-101.

"Tank vehicle" has the same meaning as defined in A.R.S. § 28-3103.

B. 49 CFR 383.71, Driver application and certification procedures. Paragraphs (b)(1)(ii), Excepted interstate, and (b)(1)(iv), Excepted intrastate, are deleted.

C. 49 CFR 383.73, State procedures.

1. Paragraph (c)(4) is amended to read:

   If such applicant wishes to retain a hazardous materials endorsement, require compliance with standards for such endorsement specified in §§ 383.71(b)(8) and 383.141 and ensure that the driver has successfully completed a new test for such endorsement specified in § 383.121.

2. Paragraphs (c)(4)(i) and (c)(4)(ii) are deleted.
3. Paragraph (f)(2)(ii) is amended to read:

   The state must add the word "non-domiciled" to the face of the CLP or CDL, in accordance with § 383.153(c) or "limited-term" to the face of the CLP or CDL, in accordance with 6 CFR 37.21; and

D. 49 CFR 383.75, Third party testing. Paragraph (a)(8)(v) is amended to read:

Require the third party tester to initiate and maintain a surety bond in an amount pursuant to A.R.S. Title 28, Chapter 13 to be sufficient to pay for re-testing drivers in the event that the third party or one or more of its examiners is involved in fraudulent activities related to conducting skills testing of applicants for a CDL. Exception: A third party tester that is a government entity is not required to maintain a surety bond. A provider exempted under A.R.S. Title 28, Chapter 13, is responsible for all costs associated with all re-testing of applicants due to examination fraud as determined by the Department.

E. 49 CFR 383.153, Information on the CLP and CDL documents and applications. The introductory sentence in paragraph (e) is amended to read:

Before a CLP or CDL may be issued:

R17-5-206. Motor Carrier Safety: 49 CFR 392 - Driving of Commercial Motor Vehicles

A. 49 CFR 392.5, Alcohol prohibition. Paragraph (e) is amended by adding:

Drivers who violate the terms of an out-of-service order as prescribed under this section are also subject to the provisions and sanctions of A.R.S. § 28-5241.

B. 49 CFR 392.9b, Prohibited transportation.
1. Paragraph (a) is amended to read:

   Safety registration required. A commercial motor vehicle providing transportation in interstate commerce or in intrastate commerce must not be operated without a safety registration and an active USDOT Number.
2. Paragraph (b), Penalties, is amended to read:

   Penalties. If it is determined that the motor carrier responsible for the operation of such a vehicle is operating in violation of paragraph (a) of this section, it may be subject to penalties in accordance with 49 U.S.C. 521 and A.R.S. §§ 28-5240 and 28-5241.

R17-5-208. Commercial Driver License Intrastate Medical Waiver; Intrastate Alternative Physical Qualification Standards for the Loss or Impairment of Limbs~~, or Monocular Vision~~

A. A person who is not physically qualified to drive a commercial motor vehicle in intrastate commerce due to loss of limb~~,~~ or limb impairment, ~~or monocular vision,~~ as provided under 49 CFR 391.41(b)(1)~~,~~ or (b)(2), ~~or (b)(10),~~ but otherwise meets all other requirements under 49 CFR 391.41, may operate a commercial motor vehicle in intrastate commerce if granted an intrastate medical waiver by the Director. Application for an intrastate medical waiver shall be submitted according to subsection (B).

B. A driver applicant, or a driver applicant jointly with the motor carrier co-applicant that will employ the driver applicant, shall complete and submit the applicable intrastate medical waiver application to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, with the following information as applicable:

1. Identify the applicant:
    a. Name and complete address of the driver applicant;
    b. Name and complete address of the motor carrier co-applicant;
    c. U.S. Department of Transportation motor carrier identification number, if known; and
    d. A description of the driver applicant's limb ~~or visual~~ impairment as applicable to the type of waiver being requested;
2. Describe the type of operation the driver applicant will be employed to perform, including the following information (if known):
    a. Average period of time the driver will be driving or on duty, per day;
    b. Type of commodities or cargo to be transported;
    c. Type of driver operation (i.e., sleeper team, relay, owner operator, etc.); and
    d. Number of years experience operating each type of commercial motor vehicle requested in the intrastate medical waiver application and total years of experience operating all types of commercial motor vehicles;
3. Describe the commercial motor vehicles the driver applicant intends to drive:
    a. Truck, truck tractor, or bus make, model, and year (if known);
    b. Drive train:
        i. Transmission type (automatic or manual - if manual, designate number of forward speeds);
        ii. Auxiliary transmission (if any) and number of forward speeds; and
        iii. Rear axle (designate single speed, two-speed, or three-speed);
    c. Type of brake system;
    d. Steering, manual or power assisted;
    e. Description of types of trailers (i.e., van, flatbed, cargo tank, drop frame, lowboy, or pole);
    f. Number of semitrailers or full trailers to be towed at one time;
    g. For commercial motor vehicles designed to transport passengers, indicate the seating capacity of the commercial motor vehicle; and
    h. Description of any modifications made to the commercial motor vehicle for the driver applicant, attach photographs where applicable;
4. Include a certification statement:
    a. The driver applicant shall certify that the driver applicant is otherwise qualified to drive a commercial motor vehicle under the regulations of 49 CFR 391 as adopted by the Department; and
    b. In case of a co-applicant, the co-applicant motor carrier shall certify that the driver applicant is otherwise qualified to drive a commercial motor vehicle under the regulations of 49 CFR 391 as adopted by the Department; and
5. Contain signature of each applicant and date signed:
    a. The driver applicant's signature; and
    b. The motor carrier official's signature and title if the application has a co-applicant. Depending on the motor carrier's organizational structure (corporation, partnership, or proprietorship), the signer of the application shall be an officer, partner, or the proprietor.

C. The completed intrastate medical waiver application for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(1) or (b)(2) shall be accompanied by:

1. A copy of the medical examination report form, MCSA-5875, and medical examiner's certificate, form MCSA-5876, completed pursuant to 49 CFR 391.43;
2. The Department's medical waiver evaluation summary completed by either a board-qualified or board-certified physiatrist or orthopedic surgeon. The co-applicant motor carrier or the driver applicant shall provide the physiatrist or orthopedic surgeon with a description of the job-related tasks the driver applicant will be required to perform:
   a. The medical waiver evaluation summary for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(1) shall include:
      i. An assessment of the functional capabilities of the driver as they relate to the ability of the driver to perform normal tasks associated with operating a commercial motor vehicle; and
      ii. A statement by a board-qualified or board-certified physiatrist or orthopedic surgeon that the applicant is capable of demonstrating precision prehension (e.g., manipulating knobs and switches) and power grasp prehension (e.g., holding and maneuvering the steering wheel) with each upper limb separately;
   b. The medical waiver evaluation summary for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(2) shall include:
      i. An explanation as to how and why the impairment interferes with the ability of the applicant to perform normal tasks associated with operating a commercial motor vehicle;
      ii. An assessment and medical opinion of whether the condition will likely remain medically stable over the lifetime of the driver applicant; and
      iii. A statement by a board-qualified or board-certified physiatrist or orthopedic surgeon that the applicant is capable of demonstrating precision prehension (e.g., manipulating knobs and switches) and power grasp prehension (e.g., holding and maneuvering the steering wheel) with each upper limb separately;
3. A description of the driver applicant's prosthetic or orthotic device worn, if any; and
4. A copy of the driver applicant's state motor vehicle driving record for the past three years from each state in which a motor vehicle driver license or permit has been obtained.

~~**D.** The completed intrastate medical waiver application for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(10) shall be accompanied by:~~

~~1. A copy of the medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43;~~

~~2. A current vision examination report issued within the last 90 days from the date the report is received by the Department, completed by an ophthalmologist or optometrist. The report shall indicate that the applicant has distant visual acuity of at least 20/40 (Snellen), with or without a corrective lens, in one eye, and the applicant's dominant eye has a visual field of at least 70° peripheral measurement in one direction and 35° in the opposite direction of the horizontal meridian and the ability to distinguish the colors of a traffic signal or device showing standard red, green, and amber, as applicable to the type of medical waiver being requested;~~

~~3. A copy of the driver applicant's state motor vehicle driving record for the past three years from each state in which a motor vehicle driver license or permit has been obtained; and~~

4. ~~A statement from the employer that the driver applicant has driven the type of vehicle for which the waiver is being requested for at least two of the previous five years.~~

~~E.~~**D.** Agreement. A motor carrier that employs a driver subject to an intrastate medical waiver granted by the Director under subsection (A), whether the waiver was granted unilaterally to the driver, or to the driver and co-applicant motor carrier, shall agree to:

1. Report to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, in writing, any suspension, revocation, disqualification, or withdrawal of the subject driver's driver license or permit, and any accident, arrest, or conviction involving the driver within 30 days after the occurrence;
2. Provide to the Department's Medical Review Program, on request, any documents and information pertaining to the driving activities, accidents, arrests, convictions, and driver license or permit suspensions, revocations, disqualifications, or withdrawals involving the subject driver;
3. Evaluate the subject driver with a road test using the trailer types the motor carrier intends the driver to transport, or alternatively accept a certificate of a trailer road test from another motor carrier if the trailer types are similar, or accept the trailer road test completed during the skill performance evaluation if trailer types are similar to that of the prospective motor carrier;
4. Evaluate the subject driver for those non-driving safety related job tasks associated with each type of trailer that will be used and any other non-driving safety related or job related tasks unique to the operations of the employing motor carrier; and
5. Use the subject driver to operate the type of commercial motor vehicle indicated on the intrastate medical waiver only when the driver is in compliance with the conditions and limitations of the waiver.

~~F.~~**E.** A driver subject to an intrastate medical waiver, issued by the Director under subsection (A), shall supply each employing motor carrier with a copy of the intrastate medical waiver.

~~G.~~**F.** The Department may require the driver applicant to demonstrate the driver applicant's ability to safely operate the commercial motor vehicle the driver intends to drive.

~~H.~~**G.** If required by the Department during the application process, a driver applicant shall have a skill performance evaluation performed by a federally-certified state commercial driver license examiner at a Department commercial driver license facility when directed.

~~I.~~**H.** If the Director grants an intrastate medical waiver under subsection (A) to the driver applicant, the Department shall mail to the driver applicant and co-applicant motor carrier (if applicable) written approval of the intrastate medical waiver describing the terms, conditions, and limitations of the waiver.

~~J.~~**I.** The intrastate medical waiver granted by the Director under subsection (A) shall identify:

1. The power unit (bus, truck, truck tractor) for which the waiver is granted; and
2. The trailer type used in the skill performance evaluation, if applicable, without limiting the waiver to that specific trailer type.

~~K.~~**J.** A subject driver may use the intrastate medical waiver with other trailer types if the driver successfully completes:

1. A trailer road test administered by the motor carrier under subsection ~~(E)(3)~~ (D)(3) for each type of trailer, and
2. A non-driving safety related or job related task evaluation administered by the motor carrier under subsection ~~(E)(4)~~ (D)(4).

~~L.~~**K.** The intrastate medical waiver granted by the Director under subsection (A) is:

1. Valid for a period of not more than two years from the date of issuance;
2. Renewable 30 days prior to the expiration date; and
3. Transferable from an original motor carrier co-applicant employer to a new motor carrier employer or to the subject driver, as a unilateral applicant if becoming self-employed, upon written notification to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, stating the new employer's name and the type of equipment to be driven.

~~M. An intrastate medical waiver granted by the Director under subsection (A) to a driver applicant for monocular vision under subsection (D), shall prohibit the subject driver from transporting:~~

~~1. Passengers for hire; and~~

~~2. Reportable quantities of hazardous substances, manifested hazardous wastes, and hazardous material required to be placarded.~~

~~N.~~**L.** A driver subject to an intrastate medical waiver, issued by the Director under subsection (A), shall have the intrastate medical waiver (or a legible copy) in the subject driver's possession while on duty.

~~O.~~**M.** The motor carrier employing a subject driver shall maintain a copy of the intrastate medical waiver in its driver qualification file and retain the copy in the motor carrier's file for a period of three years after the driver's employment is terminated.

~~P. A driver subject to an intrastate medical waiver, issued by the Director under subsection (A) to an applicant for monocular vision under subsection (D), must be physically examined every year and shall submit the following to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100:~~

~~1. A vision examination report issued within the last 90 days from the date the report is received by the Department, as prescribed under subsection (D)(2); and~~

~~2. A current medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43 within the past year.~~

~~Q.~~**N.** A driver subject to an intrastate medical waiver, or a driver subject to an intrastate medical waiver jointly with a motor carrier co-applicant, may renew an intrastate medical waiver by submitting to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, a new intrastate medical waiver application. The intrastate medical waiver application shall contain the following:

1. Name and complete address of the motor carrier currently employing the applicant;
2. Name and complete address of the subject driver;
3. Total miles driven under the current intrastate medical waiver;
4. Number of accidents incurred while driving under the current intrastate medical waiver, including the date of each accident, number of fatalities, number of injuries, and the estimated dollar amount of any property damage;
5. A current medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43;
6. ~~A current medical examination or evaluation as applicable to the medical condition:~~
   ~~a.~~ A current medical waiver evaluation summary, as prescribed under subsection (C)(2)~~, for a driver with a loss of limb or limb impairment~~; ~~or~~
   ~~b. A current vision examination report, as prescribed under subsection (D)(2), for a driver with monocular vision;~~

7. A copy of the subject driver's current state motor vehicle driving record for the period of time the current intrastate medical waiver has been in effect;
8. Notification of any change in the type of tractor the driver will operate;
9. Subject driver's signature and date signed; and
10. Motor carrier co-applicant's signature and date signed (if applicable).

~~R.~~**O.** The Director may deny an application for the intrastate medical waiver or may grant the waiver in whole or in part and issue the waiver subject to such terms, conditions, and limitations as the Director deems consistent with the public interest.

~~S.~~**P.** The Director may revoke an intrastate medical waiver after providing the driver subject to an intrastate medical waiver written notice of the proposed revocation and a reasonable opportunity to request a hearing pursuant to the procedure prescribed under 17 A.A.C. 1, Article 5. The Director may revoke an intrastate medical waiver if the:

1. Driver subject to an intrastate medical waiver, or co-applicant (if applicable), or both provided false information in the application,
2. Driver subject to an intrastate medical waiver, or co-applicant (if applicable), or both failed to comply with the terms and conditions of the intrastate medical waiver, or
3. Issuance of the intrastate medical waiver resulted in a lower level of safety than before the waiver was granted.

~~T.~~**Q.** If the enforcement of any provision of this Section would result in the loss or disqualification of federal funding for any state agency or program, that provision is invalid.

R17-5-209. Hazardous Materials Transportation: Incorporation of Federal Regulations; Applicability

A. Incorporation of federal regulations.

1. As relevant to the transportation of hazardous materials by highway, the Department incorporates by reference, as amended under this Section, the following Parts of the Federal Hazardous Materials Regulations; revised as of October 1, ~~2020~~ 2023, and no later amendments or editions, as 49 CFR - Transportation, Subtitle B - Other Regulations Relating to Transportation, Chapter I - Pipeline and Hazardous Materials Safety Administration, Department of Transportation:
   a. Subchapter A - Hazardous Materials and Oil Transportation; Part 107 - Hazardous materials program procedures; and
   b. Subchapter C - Hazardous Materials Regulations; Parts:
      i. 171 - General information, regulations, and definitions;
      ii. 172 - Hazardous materials table, special provisions, hazardous materials communications, emergency response information, training requirements, and security plans;
      iii. 173 - Shippers - general requirements for shipments and packagings;
      iv. 177 - Carriage by public highway;
      v. 178 - Specifications for packagings; and
      vi. 180 - Continuing qualification and maintenance of packagings.
2. The material incorporated by reference under this subsection is on file with the Department at 206 S. 17th Avenue, Phoenix, AZ 85007. The incorporated material is published by National Archives and Records Administration,

Office of the Federal Register, 8601 Adelphi Road, College Park, MD 20740-6001, and is printed and distributed by the U.S. Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000. The incorporated material can be viewed online at https://www.govinfo.gov and ordered online by visiting the U.S. Government Bookstore at http://bookstore.gpo.gov. ~~The International Standard Book Numbers are 9780160958793 for 49 CFR 107, 171, 172, 173, and 177 and 9780160958809 for 49 CFR 178 and 180.~~

B. Application and exceptions.

1. Application.
   a. Regulations incorporated under subsection (A) apply as amended by subsection (C) to motor carriers, shippers, and manufacturers as defined in A.R.S. § 28-5201.
   b. Regulations incorporated under subsection (A) also apply to any vehicle owned or operated by the state, a political subdivision, or a state public authority, used to transport a hazardous material, including hazardous substances and hazardous waste.
2. Exceptions. An authorized emergency vehicle, as defined in A.R.S. § 28-101, is excepted from the provisions of this Section.

C. Amendments. The following sections of the Federal Hazardous Materials Regulations, incorporated under subsection (A), are amended as follows:

1. Part 171, General information, regulations, and definitions. Section 171.8, Definitions and abbreviations. Section 171.8 is amended by revising the definitions for "carrier," "hazmat employer," and "person," and adding a definition for "highway" as follows:

   "Carrier" means a person engaged in the transportation of passengers or property by highway as a common, contract, or private carrier and also includes the state, a political subdivision, and a state public authority engaged in the transportation of hazardous material.

   "Hazmat employer" means a person who uses one or more employees in connection with: transporting hazardous material; causing hazardous material to be transported or shipped; or representing, marking, certifying, selling, offering, reconditioning, testing, repairing, or modifying containers, drums, or packagings as qualified for use in the transportation of hazardous material. This term includes motor carriers, shippers, and manufacturers defined in A.R.S. § 28-5201 and includes the state, political subdivisions, and state public authorities.

   "Highway" means a public highway as defined in A.R.S. § 28-5201.

   "Person" has the same meaning as defined in A.R.S. § 28-5201.
2. Part 172, Hazardous materials table, special provisions, hazardous materials communications, emergency response information, training requirements, and security plans. Section 172.3, Applicability. Paragraph (a)(2) is amended to read: "Each motor carrier that transports hazardous materials, and each state agency, political subdivision, and state public authority that transports hazardous material by highway."
3. Part 177, Carriage by public highway.
   a. Section 177.800, Purpose and scope of this part and responsibility for compliance and training. In paragraph (a), the phrase "by private, common, or contract carriers by motor vehicle" is amended to read, "by a motor carrier operating in Arizona, a state agency, a political subdivision, or a state public authority that transports hazardous material by highway."

b. Section 177.802, Inspection. Section 177.802 is amended to read: "Records, equipment, packagings, and containers under the control of a motor carrier or other persons subject to this part, affecting safety in transportation of hazardous material by motor vehicle, must be made available for examination and inspection by an authorized representative of the Department as prescribed under A.R.S. §§ 28-5204 and 28-5231."

R17-5-212. Motor Carrier Safety: Hearing Procedure

A. Scope.

1. This Section applies only to a motor carrier enforcement action under:
   a. R17-5-201 through R17-5-209; and
   b. A.R.S. Title 28, Chapter 14.
2. In an enforcement hearing involving a manufacturer, motor carrier, shipper, or driver under this Section, the Department shall follow the procedures prescribed under 17 A.A.C. 1, Article 5, except as modified under subsections (B) and (C).

B. Initiation of proceedings; service.

1. The Director shall initiate a hearing under this Section by:
   a. ~~Signing and serving~~ Preparing a complaint in the form prescribed under subsection (C) ~~that cites~~ alleging the specific violations of a manufacturer, motor carrier, shipper, or driver ~~for an alleged violation~~; and
   b. ~~Submitting~~ Serving, by mail, the complaint on the violator, and submitting a copy of the complaint to the ~~Department's~~ Executive Hearing Office, along with a certificate of service indicating the date of service ~~a copy of the complaint and notification of the date the complaint was served~~.
2. The date of service is the date of mailing.

C. Complaint; order to show cause.

1. The complaint shall contain the following:
   a. The designation of the parties to the action, with the Department as the ~~designated~~ petitioner, and the violator as the respondent;
   b. The respondent's name and the basis of fact for the complaint, including a listing of ~~any~~ all alleged ~~violation~~ violations of statute or rule;
   c. The relief sought by the Department; ~~and~~
   d. The signature of the Director or their designee; and
   ~~d.~~c. A copy of the written violation notice issued by a law enforcement agency to the respondent, if applicable.
2. Upon receipt of a copy of a complaint in compliance with subsections (B) and (C)(1), the Executive Hearing Office shall issue an order to show cause for ~~a respondent~~ the parties to appear at an administrative hearing to ~~explain~~ allow the respondent to present evidence and give testimony as to why the requested relief should not be granted.
3. The Executive Hearing Office shall hold a hearing under this Section within the time-frame required by statute.

4. The parties may resolve a complaint before the hearing date.
   a. The parties shall file notice of settlement with the Executive Hearing Office, which will issue an order dismissing the pending action.
   b. Complaint settlement terminates the right of both petitioner and respondent to receive additional administrative review.

ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT

TITLE 17. TRANSPORTATION

CHAPTER 5. DEPARTMENT OF TRANSPORTATION

COMMERCIAL PROGRAMS

R17-5-201 - R17-5-206, R17-5-208, R17-5-209, and R17-5-212

A. Economic, small business and consumer impact summary:

1. Identification of the proposed rulemaking:

The Arizona Department of Transportation (ADOT), in partnership with the Arizona Department of Public Safety (DPS), engages in this rulemaking to incorporate by reference parts of the 2023 edition of the *Code of Federal Regulations* and sections of 88 FR 70897, October 13, 2023. The Federal Motor Carrier Safety Administration (FMCSA) requires that states adopt Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs). This also enables the state to be eligible for federal enforcement grants. Both ADOT and DPS rely on these federal monies to fund numerous enforcement positions.

In addition to incorporating by reference the 2023 edition of the FMCSRs and HMRs, ADOT is amending the following Sections:

- R17-5-201 and R17-5-208 are being amended to remove verbiage related to monocular vision, including the vision examination report due to the vision standards changing in 49 CFR 391, which now permits individuals who do not satisfy, with the worse eye, either the existing distant visual acuity standard with corrective lenses or the field of vision standard, or both, to be physically qualified. This new standard eliminated the need for the vision waiver. In addition, a definition for "Department" is being added to R17-5-201 for better clarity.
- R17-5-204 is being amended to update the citation and to specify "FMCSA" to maintain consistency with the change made to the federal regulations.

FMCSA revised the emergency exemption rules to narrow the scope of safety regulations from which relief is automatically provided for motor carriers and drivers providing direct assistance when an emergency has been declared in 88 FR 70897, October 13, 2023. To ensure there is clarity to the emergency process and the exemptions allowed, ADOT is incorporating by reference the changes to Part 390 that was published in the *Federal Register*. R17-5-203 is being amended to ensure the language is consistent with the changes made in 88 FR 70897, October 13, 2023, and with the state's process.

R17-5-205 is being amended by adding "surety" to "bond" to be consistent with ADOT verbiage.

R17-5-206 is being amended by adding A.R.S. § 28-5241 to be consistent with the 2023 legislative change that delineated and clarified the civil and criminal penalties and placed the criminal penalties into A.R.S. § 28-5241.

R17-5-212 is being amended for better clarity and better detailing of the process.

In addition, minor clarifying and technical changes have been made to ensure consistent and clearer language and conformity to the rulemaking format and style requirements of the Arizona Administrative Procedure Act and the Office of the Secretary of State.

a. The conduct and its frequency of occurrence that the rule is designed to change:

To preserve the public peace, health, and safety, ADOT and DPS officers inspect commercial trucks and buses under these rules. In addition, commercial driver license (CDL) applicants and holders are governed under state statutes and these rules. It is necessary to update the rules on a regular basis to include the most recent guidelines generally accepted by the motor carrier industry and law enforcement agencies. This ensures that all motor carriers are held to the same regulatory standards and ADOT and DPS officers are able to more expediently place commercial motor vehicles out of service when finding noncompliance issues severe enough to warrant concern for public safety.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

DPS administers and enforces the federal Motor Carrier Safety Assistance Program (MCSAP) throughout the state under these rules. To remain in compliance with federal mandates, FMCSA requires that each state adopt the FMCSRs and HMRs that are current within three years.

FMCSA extends annually to DPS a substantial grant under MCSAP for state law enforcement of motor carrier safety and hazardous materials programs. DPS administers the federal grants received for enforcing the FMCSRs and HMRs. MCSAP funds are distributed chiefly to DPS but may also be sub-allocated to other state, county, and municipal enforcement agencies upon application to underwrite local enforcement costs. For FY 2024, these grants total approximately $16 -17 million annually and cover the costs of salaries, equipment, and other expenses for motor carrier- and hazardous materials-related enforcement.

A requirement of the grants is to adopt federal regulations into state law. Failure to do so jeopardizes possible future grant funding opportunities. The possibility exists of either the withholding of, or reduction in, federal funding for the state if these rules are not codified as quickly as possible. A loss or reduction of federal funding would also have a safety impact on Arizona motorists if large trucks and buses are not able to be inspected as often as they are now. Notwithstanding the withholding of funds as described above, FMCSA could prohibit ADOT's CDL Program from issuing, renewing, transferring,

or upgrading CDLs in this state if they determine that Arizona is not substantially in compliance with 49 U.S.C. 31311(a).

c. **The estimated change in frequency of the targeted conduct expected from the rule change:**
DPS inspected over 57,729 commercial motor vehicles in 2023. Of these inspections, 950 drivers and 1,147 vehicles were placed out of service after the inspection, meaning that the violations were so severe that the driver was prohibited from driving and the vehicle was prohibited from being moved until the violations were corrected. With continued efforts to enforce the FMCSRs and HMRs incorporated by these rules, ADOT and DPS anticipate the out-of-service rates for both drivers and vehicles will make highway travel safer.

2. **Brief summary of the information included in the economic, small business and consumer impact statement:**

DPS administers and enforces MCSAP throughout the State of Arizona under these rules. The primary cost bearers in relation to these rules are DPS, ADOT, counties, municipal law enforcement agencies electing to enforce the provisions locally, privately contracted consultant trainers of law enforcement personnel, Arizona motor carriers, Arizona CDL applicants and holders, and CDL medical examiners.

ADOT is statutorily required to administer the driver licensing and medical evaluation activities required of commercial motor vehicle drivers under A.R.S. Title 28 and these rules. This rulemaking will have a substantial economic impact on the agency. ADOT incurred a substantial cost to implement the new drug and alcohol clearinghouse process and anticipates that there will be an additional moderate to substantial cost to implement the new electronic medical examiner's certificate verification system, to train, and to communicate the changes. ADOT experienced a minimal decrease in costs due to the removal of the vision waiver.

DPS incurs moderate to substantial costs annually for program administration as well as a not readily quantifiable portion of officer salaries for hazardous materials transportation program enforcement. FMCSA extends annually to DPS a substantial grant under MCSAP for state law enforcement of motor carrier safety and hazardous materials programs. MCSAP funds are distributed chiefly to DPS but may also be sub-allocated to county and municipal enforcement agencies upon application to underwrite local enforcement costs. For FY 2024, DPS can apply for an estimated $16,000,000 - $17,000,000 in total federal funding from FMCSA.

Local enforcement cost estimates are difficult to quantify as they are contingent upon whether officers are dedicated to motor carrier and hazardous materials provision enforcement or incorporate motor carrier and hazardous materials enforcement together with other duties. Accordingly, local law enforcement electing to engage in motor carrier and hazardous materials provision enforcement could stand to benefit substantially in cost defrayal through receipt of MCSAP fund allocation by application to DPS. Minimal administrative

costs are borne by independent consultant trainers who educate law enforcement and business entities on rule compliance.

To maintain compliance with the provisions of these rules, motor carriers will likely incur minimal to moderate costs in possible federal registration fees, inspection fees, insurance, and equipment. CDL applicants and holders incur minimal costs to apply for and maintain a CDL. CDL medical examiners, as defined under 49 CFR 390.5 may incur minimal costs to receive medical examiner certification from FMCSA and may incur new minimal costs to be able to electronically report medical examination reports or medical examiner's certificates. However, costs arise from the federal law rather than from this rulemaking. There are no new fees associated with this rulemaking. If a motor carrier is found to be noncompliant with the provisions of these rules, costs of sanctions under A.R.S. § 28-5238 could range from $1,000 to $25,000 per citation and the possible loss of a CDL as prescribed under A.R.S. § 28-5238. Benefits to motor carriers remaining in compliance with these rules include increased safety, lower financial responsibility premiums, the opportunity to increase profit margin through better customer service, and more expedient administrative processing by law enforcement. As of September 2024, there are 115,130 CDL holders and 3,454 commercial learner's permit (CLP) holders.

3. **Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:**

Name: Candace Olson

Address: Government Relations and Rules
Department of Transportation
206 S. 17th Ave., Mail Drop 180A
Phoenix, AZ 85007

Telephone: (480) 267-6610

E-mail: COlson2@azdot.gov

B. Economic, small business and consumer impact statement:

1. **Identification of the proposed rulemaking:**

See paragraph (A)(1) above.

2. **Identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking:**

Persons to bear costs	**Persons directly benefiting**
ADOT	ADOT
DPS	DPS
Counties and municipal law enforcement agencies electing to locally enforce FMCSRs and HMRs	Counties and municipal law enforcement agencies electing to locally enforce FMCSRs and HMRs

Persons to bear costs	Persons directly benefiting
Independent consultant trainers of law enforcement personnel	Independent consultant trainers of law enforcement personnel
Arizona motor carriers	Arizona motor carriers
Arizona CDL applicants and holders	Arizona CDL applicants and holders
CDL Medical examiners	Arizona motorists
Applicable covered farm vehicle owners/operators	General public

3. Analysis of costs and benefits occurring in this state:

Cost-revenue scale. Annual costs or revenues are defined as follows:

Minimal less than $10,000

Moderate $10,000 to $99,999

Substantial $100,000 or more

a. Probable costs and benefits to ADOT and other agencies directly affected by the implementation and enforcement of the proposed rulemaking:

ADOT is statutorily required to administer the driver licensing and medical evaluation activities required of commercial motor vehicle drivers under A.R.S. Title 28 and these rules. This rulemaking will have a substantial economic impact on the agency. ADOT incurred a substantial cost to implement the new drug and alcohol clearinghouse. It cost $119,745.50 to develop, program, and test the new requirement, with additional costs for training and communicating the changes. ADOT anticipates that there will be an additional moderate to substantial cost to implement the new electronic medical examiner's certificate verification system. It is estimated that it will cost $96,000 to develop, program, and test the new electronic medical examiner's certificate verification system with additional costs for training and communicating the changes. ADOT experienced a minimal decrease in costs due to the removal of the vision waiver. ADOT does not expect this rulemaking to create a significant increase or decrease in benefits to the agency since the rulemaking is generally intended to incorporate by reference an updated version of the FMCSRs and HMRs the agency currently has in place. ADOT should benefit by having to spend less resources on providing individual clarification of the rules to regulated people.

DPS incurs moderate to substantial costs annually for program administration as well as a not readily quantifiable portion of officer salaries for hazardous materials transportation program enforcement. This rulemaking ensures DPS is eligible for MCSAP funding that FMCSA extends annually for state law enforcement of motor carrier safety and hazardous materials programs. For FY 2024, these grants total approximately $16 -17 million annually and cover the costs of salaries, equipment, and other expenses for motor carrier- and hazardous materials-related enforcement.

This rulemaking will ensure compliance with federal regulations and not subject the state to any sanctions and allows ADOT's CDL Program to continue issuing, renewing, transferring, or upgrading CDLs in Arizona, which the federal government could prohibit if they determine that Arizona is not substantially in compliance with 49 U.S.C. 31311(a).

ADOT is not required to notify the Joint Legislative Budget Committee under A.R.S. § 41-1055(B)(3)(a), since no new full-time employees are necessary to enforce and implement these rules.

b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking:

Local enforcement cost estimates are difficult to quantify as they are contingent upon whether officers are dedicated to commercial vehicle enforcement or incorporate commercial vehicle enforcement together with other duties. Accordingly, local law enforcement electing to engage in commercial vehicle enforcement could stand to benefit substantially from cost defrayal through receipt of MCSAP fund allocation by application to DPS, the primary recipient of the MCSAP federal grant monies.

Political subdivisions will benefit from an increase in the number of eligible commercial motor vehicle operators and from being able to retain experienced CDL holders.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking:

Business entities bear minimal to moderate costs to remain in compliance with the rules. Motor carriers will likely incur costs in the form of federal registration fees, equipment, maintenance, insurance, and inspection fees. Owners of applicable covered farm vehicles will need to comply with USDOT safety registration, which does not have a fee, but may have minimal costs for the required markings. CDL medical examiners, as defined under 49 CFR 390.5, may incur minimal costs to receive medical examiner certification from FMCSA and may incur new minimal costs to be able to electronically report medical examination reports or medical examiner's certificates. Overall, these costs arise from the federal law rather than from this rulemaking. There are no new fees associated with this rulemaking.

If a motor carrier is found to be noncompliant with provisions of these rules, costs of sanctions under A.R.S. § 28-5238 could range from $1,000 to $25,000 per finding and the possible loss of a CDL as prescribed under A.R.S. § 28-5238. Benefits to motor carriers remaining in compliance with these rules include increased safety, lower financial responsibility premiums, reduction in paperwork, the opportunity to increase profit margin through better customer service, and more expedient administrative processing by law enforcement. Also, motor carriers should benefit from the clarity of the emergency process and exemptions allowed.

Businesses may also see a decrease in costs for their drivers who have monocular vision and no longer need to obtain a medical waiver, though this also may lead to less business for the ophthalmologists or optometrists who performed the applicable medical evaluations. The change in vision standards may also lead to more CDL applicants needing the services of the CDL medical examiners. The change to the medical examiner's certificates could lead to a reduction in paperwork for some business entities.

4. **General description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking:**

   ADOT anticipates a minimal impact on private and public employment as a result of this rulemaking. Employers may benefit from being able to retain experienced CDL holders and being able to hire from a larger pool of applicants, especially from potential individuals with monocular vision who felt the medical waiver process cumbersome and chose not to have a CDL at that time and are now eligible without the need for a medical waiver. In addition, the change to the medical examiner's certificate process may allow for less employees being suspended for submitting incomplete medical examiner's certificates.

5. **Statement of the probable impact of the proposed rulemaking on small businesses:**

   a. **Identification of the small businesses subject to the proposed rulemaking:**

      The small businesses subject to these rules, as defined under A.R.S. § 41-1001, are independent motor carriers, CDL drivers already subject to the FMCSRs and HMRs, owners/operators of covered farm vehicles, and CDL medical examiners required to perform the necessary medical evaluations.

   b. **Administrative and other costs required for compliance with the proposed rulemaking:**

      Uniform safety and compliance costs for small businesses are the same as discussed under paragraph (B)(3)(c) above. For the most part, ADOT anticipates no new significant economic impact on qualified persons and business entities because of this rulemaking, though the CDL medical examiners may incur some new costs due to the change in the medical examination reports and medical examiner's certificate process. There is not a fee for the required USDOT safety registration. There may be minimal costs for the required USDOT safety registration markings.

   c. **Description of the methods that ADOT may use to reduce the impact on small businesses:**

      The rules provide a more expedient application process for individuals seeking a medical variance from certain physical qualifications and procedures typically required of interstate commercial motor vehicle operators under 49 CFR 391.41(b)(1) or (b)(2), if the individual is otherwise qualified to operate a commercial motor vehicle in intrastate commerce.

      ADOT is clarifying its rules regarding its hearing process.

      Since the uniform procedures and sanctions under these rules are required by federal and state mandates, ADOT is unable to further reduce any impact on small businesses. See paragraph (B)(7) below.

d. Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking:

Overall, costs should be minimal for private persons and consumers. CDL applicants and holders incur costs to apply for and maintain a CDL. As of September 2024, there are 115,130 CDL holders and 3,454 CLP holders. Monocular-vision CDL drivers will benefit by no longer needing to obtain and maintain a medical waiver and pay any additional costs for the additional medical evaluations. The ophthalmologists and optometrists who performed the additional medical evaluations may have a decrease in profit. Drivers of hazardous materials incur costs for the particular packaging, markings, and placarding needed.

These rules support the public interest and the interests of concerned parties by ensuring that all FMCSRs and HMRs and requirements of motor carriers are uniformly applied and enforced. The public benefits when all motor carriers remain in compliance with these rules as they ensure increased safety, lower financial responsibility premiums, provide an opportunity for increasing profit margins through better customer service, and facilitate more expedient administrative processing by law enforcement.

6. Statement of the probable effect on state revenues:

DPS will be eligible to apply for an estimated $16 – 17 million in MCSAP funding that may be used for commercial motor vehicle safety programs such as:

- Motor carrier safety programs in accordance with 49 CFR 350.203;
- Size and weight enforcement programs in accordance with 49 CFR 350.227(b)(1);
- Criminal activity enforcement programs in accordance with 49 CFR 350.227(b)(2);and
- Traffic safety programs in accordance with 49 CFR 350.227(c).

This rulemaking ensures that an amount of up to 5 percent of the state's federal-aid highway funds apportioned under each of sections 104(b)(1), (b)(3), and (b)(4) of 23 U.S.C. will not be withheld for noncompliance. Based on amounts traditionally received by ADOT, this amount could reach approximately $30 million depending on the actual appropriation.

7. Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using non-selected alternatives:

In rulemaking, ADOT routinely adopts the least costly and least burdensome options for any process or procedure required of the regulated public or industry. However, each state is required under 49 CFR 384.301 to adopt and carry out a program for testing and ensuring the fitness of individuals to operate commercial motor vehicles consistent with the minimum standards prescribed by the Secretary of Transportation under 49 U.S.C. 31305(a) as soon as practical, or an amount of up to 5 percent of the state's federal-aid highway funds apportioned under each of sections 104(b)(1), (b)(3), and (b)(4) of 23 U.S.C. may be withheld from the state for noncompliance. Based on amounts traditionally received by ADOT, this amount could reach

approximately $30 million depending on the actual appropriation. Therefore, to the extent permitted by federal law, ADOT has determined that these rules impose the least burden and costs to regulated persons.

C. Explanation of limitations of the data and the methods that were employed in the attempt to obtain the data and a characterization of the probable impacts in qualitative terms. The absence of adequate data, if explained in accordance with this subsection, shall not be grounds for a legal challenge to the sufficiency of the economic, small business and consumer impact statement:

None

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 5. DEPARTMENT OF TRANSPORTATION

COMMERCIAL PROGRAMS

Definitions of Terms

A.A.C. R13-3-701. Definitions

A. The definitions in A.R.S. §§ 28-101 and 41-1701 apply to this Chapter.

B. In this Chapter:

1. "Alter" means adding, modifying, or removing any equipment or component after a tow truck has received a permit decal from the Department, in a manner that may affect the operation of the tow truck, compliance with A.R.S. § 28-1108 and this Chapter, or the health, safety, or welfare of any individual.
2. "Bed assembly" means the part of a tow truck that is located behind the cab, is attached to the frame, and is used to mount a boom assembly, hoist, winch, or equipment for transporting vehicles.
3. "Boom assembly" means a device, consisting of sheaves, one or more winches, and wire rope, that is attached to a tow truck and used to lift or tow another vehicle.
4. "Collision" means an incident involving one or more moving vehicles resulting in damage to a vehicle or its load that requires the completion of a written report of accident under A.R.S. § 28-667(A).
5. "Collision recovery" means initial towing or removing a vehicle involved in a collision from the collision scene.
6. "Denial" means refusal to satisfy a request.
7. "Department" means the Arizona Department of Public Safety.
8. "Director" means the Director of the Arizona Department of Public Safety or the Director's designee.
9. "Emergency brake" means the electrical, mechanical, hydraulic, or air brake components used to slow or stop a vehicle after a failure of the service brake system.
10. "Flatbed" means an open platform that is located behind the cab and attached to the frame of a truck.
11. "G.V.W.R." means Gross Vehicle Weight Rating, the value specified by the manufacturer as the fully assembled weight of a single motor vehicle.
12. "Hook" means a steel hook attached to an end of a wire rope or chain.
13. "Parking brake system" means the electrical, mechanical, hydraulic, or air brake components used to hold the tow truck or com-bination under any condition of loading to prevent movement when parked.
14. "Permit decal" means the non-transferable decal that a tow truck company is required to obtain from the Department before operating a tow truck for the purpose of towing a vehicle.
15. "Person" means the same as in A.R.S. § 1-215.

16. “Power-assisted service brake system” means a service-brake system that is equipped with a booster to supply additional power to the service-brake system by means of air, vacuum, electric, or hydraulic pressure.
17. “Power-operated winch” means a winch that is operated by electrical, mechanical, or hydraulic power.
18. “Service-brake system” means the electrical, mechanical, hydraulic, or air brake components used to slow or stop a vehicle in motion.
19. “Snatch block” means a metal case that encloses one or more pulleys and can be opened to receive a wire rope and redirect energy from a winch.
20. “State” means the state of Arizona.
21. “Steering wheel clamp” means a device used to secure in a fixed position the steering wheel of a vehicle being towed.
22. “Suspension” is the temporary withdrawal of the tow truck permit decal because the Department determines the tow truck or tow truck agent is not in compliance with one or more requirements of this Chapter.
23. “Tow bar” means a device attached to the rear of a tow truck to secure a towed vehicle to the tow truck by chains, straps, or hooks.
24. “Tow plate” means a solid metal support attached to the rear of a tow truck to secure a towed vehicle to the tow truck by chains, straps, or hooks.
25. “Tow sling” means two or more flexible straps attached to the wire rope or boom assembly of a tow truck to hoist a towed vehicle by chains, straps, or hooks.
26. “Tow truck” means a motor vehicle designed, manufactured, or altered to tow or transport one or more vehicles. The following are tow trucks:
    a. A truck with a flatbed equipped with a winch;
    b. A truck drawing a semi-trailer or trailer equipped with a winch;
    c. A motor vehicle that has a boom assembly or hoist permanently attached to its bed or frame;
    d. A motor vehicle that has a tow sling, tow plate, tow bar, under-lift, or wheel-lift attached to the rear of the vehicle; and
    e. A truck-tractor drawing a semi-trailer equipped with a winch.
27. “Tow truck agent” means an individual who operates a tow truck on behalf of a tow truck company, and includes owners, individuals employed by the tow truck company, and independent contractors.
28. “Tow truck company” means a person that owns, leases, or operates a tow truck that travels on a street or highway to transport a vehicle, including, but not limited to a vehicle that is damaged, disabled, unattended, repossessed, or abandoned.
29. “Truck-tractor protection valve” means a device that supplies air to the service brake system of a trailer to release the service brakes while the trailer is being towed by a truck- tractor, or to activate the service brakes if the supply of air from the truck-tractor to the trailer is disconnected or depleted.

30. “Under-lift” means an electrical, mechanical, or hydraulic device attached to the rear of a tow truck used to lift the front or rear of a vehicle by its axles or frame.
31. “Vehicle” means the same as in A.R.S. § 28-101.
32. “Wheel lift” means an electrical, hydraulic, or mechanical device attached to the rear of a tow truck used to lift the front or rear of a vehicle by its tires or wheels.
33. “Winch” means a device used for winding or unwinding wire rope.
34. “Wire rope” means flexible steel or synthetic strands that are twisted or braided together and may surround a hemp or wire core.
35. “Work lamp” means a lighting system that is mounted on a tow truck capable of illuminating an area to the rear of the tow truck.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2). At the Department’s request, the A.R.S. citation was corrected in subsection (B)(1) as Laws 2015, Ch. 265 transferred duties relating to towing services; Office file number M16-202 (Supp. 16-3). Amended by final expedited rulemaking at 25 A.A.R. 844, effective March 19, 2019 (Supp. 19-1).

A.R.S. § 28-101. Definitions

In this title, unless the context otherwise requires:

1. “Alcohol” means any substance containing any form of alcohol, including ethanol, methanol, propynol and isopropynol.

2. “Alcohol concentration” if expressed as a percentage means either:

(a) The number of grams of alcohol per one hundred milliliters of blood.

(b) The number of grams of alcohol per two hundred ten liters of breath.

3. “All-terrain vehicle” means either of the following:

(a) A motor vehicle that satisfies all of the following:

(i) Is designed primarily for recreational nonhighway all-terrain travel.

(ii) Is fifty or fewer inches in width.

(iii) Has an unladen weight of one thousand two hundred pounds or less.

(iv) Travels on three or more nonhighway tires.

(v) Is operated on a public highway.

(b) A recreational off-highway vehicle that satisfies all of the following:

(i) Is designed primarily for recreational nonhighway all-terrain travel.

(ii) Is eighty or fewer inches in width.

(iii) Has an unladen weight of two thousand five hundred pounds or less.

(iv) Travels on four or more nonhighway tires.

(v) Has a steering wheel for steering control.

(vi) Has a rollover protective structure.

(vii) Has an occupant retention system.

4. “Authorized emergency vehicle” means any of the following:

(a) A fire department vehicle.

(b) A police vehicle.

(c) An ambulance or emergency vehicle of a municipal department or public service corporation that is designated or authorized by the department or a local authority.

(d) Any other ambulance, fire truck or rescue vehicle that is authorized by the department in its sole discretion and that meets liability insurance requirements prescribed by the department.

5. “Autocycle” means a three-wheeled motorcycle on which the driver and passengers ride in a fully or partially enclosed seating area that is equipped with a roll cage, safety belts for each occupant and antilock brakes and that is designed to be controlled with a steering wheel and pedals.

6. “Automated driving system” means the hardware and software that are collectively capable of performing the entire dynamic driving task on a sustained basis, regardless of whether it is limited to a specific operational design domain.

7. “Automotive recycler” means a person that is engaged in the business of buying or acquiring a motor vehicle solely for the purpose of dismantling, selling or otherwise disposing of the parts or accessories and that removes parts for resale from six or more vehicles in a calendar year.

8. “Autonomous vehicle” means a motor vehicle that is equipped with an automated driving system.

9. “Aviation fuel” means all flammable liquids composed of a mixture of selected hydrocarbons expressly manufactured and blended for the purpose of effectively and efficiently operating an internal combustion engine for use in an aircraft but does not include fuel for jet or turbine powered aircraft.

10. “Bicycle” means a device, including a racing wheelchair, that is propelled by human power and on which a person may ride and that has either:

(a) Two tandem wheels, either of which is more than sixteen inches in diameter.

(b) Three wheels in contact with the ground, any of which is more than sixteen inches in diameter.

11. “Board” means the transportation board.

12. “Bus” means a motor vehicle designed for carrying sixteen or more passengers, including the driver.

13. “Business district” means the territory contiguous to and including a highway if there are buildings in use for business or industrial purposes within any six hundred feet along the highway, including hotels, banks or office buildings, railroad stations and public buildings that occupy at least three hundred feet of frontage on one side or three hundred feet collectively on both sides of the highway.

14. “Certificate of ownership” means a paper or an electronic record that is issued in another state or a foreign jurisdiction and that indicates ownership of a vehicle.

15. “Certificate of title” means a paper document or an electronic record that is issued by the department and that indicates ownership of a vehicle.

16. “Combination of vehicles” means a truck or truck tractor and semitrailer and any trailer that it tows but does not include a forklift designed for the purpose of loading or unloading the truck, trailer or semitrailer.
17. “Controlled substance” means a substance so classified under section 102(6) of the controlled substances act (21 United States Code section 802(6)) and includes all substances listed in schedules I through V of 21 Code of Federal Regulations part 1308.
18. “Conviction” means:
(a) An unvacated adjudication of guilt or a determination that a person violated or failed to comply with the law in a court of original jurisdiction or by an authorized administrative tribunal.
(b) An unvacated forfeiture of bail or collateral deposited to secure the person’s appearance in court.
(c) A plea of guilty or no contest accepted by the court.
(d) The payment of a fine or court costs.
19. “County highway” means a public road that is constructed and maintained by a county.
20. “Dealer” means a person who is engaged in the business of buying, selling or exchanging motor vehicles, trailers or semitrailers and who has an established place of business and has paid fees pursuant to section 28-4302.
21. “Department” means the department of transportation acting directly or through its duly authorized officers and agents.
22. “Digital network or software application” has the same meaning prescribed in section 28-9551.
23. “Director” means the director of the department of transportation.
24. “Drive” means to operate or be in actual physical control of a motor vehicle.
25. “Driver” means a person who drives or is in actual physical control of a vehicle.
26. “Driver license” means a license that is issued by a state to an individual and that authorizes the individual to drive a motor vehicle.
27. “Dynamic driving task”:
(a) Means all of the real-time operational and tactical functions required to operate a vehicle in on-road traffic.
(b) Includes:
(i) Lateral vehicle motion control by steering.
(ii) Longitudinal motion control by acceleration and deceleration.
(iii) Monitoring the driving environment by object and event detection, recognition, classification and response preparation.
(iv) Object and event response execution.
(v) Maneuver planning.
(vi) Enhancing conspicuity by lighting, signaling and gesturing.
(c) Does not include strategic functions such as trip scheduling and selecting destinations and waypoints.
28. “Electric bicycle” means a bicycle or tricycle that is equipped with fully operable pedals and an electric motor of less than seven hundred fifty watts and that meets the requirements of one of the following classes:

(a) “Class 1 electric bicycle” means a bicycle or tricycle that is equipped with an electric motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the bicycle or tricycle reaches the speed of twenty miles per hour.

(b) “Class 2 electric bicycle” means a bicycle or tricycle that is equipped with an electric motor that may be used exclusively to propel the bicycle or tricycle and that is not capable of providing assistance when the bicycle or tricycle reaches the speed of twenty miles per hour.

(c) “Class 3 electric bicycle” means a bicycle or tricycle that is equipped with an electric motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the bicycle or tricycle reaches the speed of twenty-eight miles per hour.

29. “Electric miniature scooter” means a device that:

(a) Weighs less than thirty pounds.

(b) Has two or three wheels.

(c) Has handlebars.

(d) Has a floorboard on which a person may stand while riding.

(e) Is powered by an electric motor or human power, or both.

(f) Has a maximum speed that does not exceed ten miles per hour, with or without human propulsion, on a paved level surface.

30. “Electric personal assistive mobility device” means a self-balancing device with one wheel or two nontandem wheels and an electric propulsion system that limits the maximum speed of the device to fifteen miles per hour or less and that is designed to transport only one person.

31. “Electric standup scooter”:

(a) Means a device that:

(i) Weighs less than seventy-five pounds.

(ii) Has two or three wheels.

(iii) Has handlebars.

(iv) Has a floorboard on which a person may stand while riding.

(v) Is powered by an electric motor or human power, or both.

(vi) Has a maximum speed that does not exceed twenty miles per hour, with or without human propulsion, on a paved level surface.

(b) Does not include an electric miniature scooter.

32. “Evidence” includes both of the following:

(a) A display on a wireless communication device of a department-generated driver license, nonoperating identification license, vehicle registration card or other official record of the department that is presented to a law enforcement officer or in a court or an administrative proceeding.

(b) An electronic or digital license plate authorized pursuant to section 28-364.

33. “Farm” means any lands primarily used for agriculture production.

34. “Farm tractor” means a motor vehicle designed and used primarily as a farm implement for drawing implements of husbandry.

35. “Foreign vehicle” means a motor vehicle, trailer or semitrailer that is brought into this state other than in the ordinary course of business by or through a manufacturer or dealer and that has not been registered in this state.

36. “Fully autonomous vehicle” means an autonomous vehicle that is equipped with an automated driving system designed to function as a level four or five system under SAE J3016 and that may be designed to function either:

(a) Solely by use of the automated driving system.

(b) By a human driver when the automated driving system is not engaged.

37. “Golf cart” means a motor vehicle that has not less than three wheels in contact with the ground, that has an unladen weight of less than one thousand eight hundred pounds, that is designed to be and is operated at not more than twenty-five miles per hour and that is designed to carry not more than four persons including the driver.

38. “Hazardous material” means a material, and its mixtures or solutions, that the United States department of transportation determines under 49 Code of Federal Regulations is, or any quantity of a material listed as a select agent or toxin under 42 Code of Federal Regulations part 73 that is, capable of posing an unreasonable risk to health, safety and property if transported in commerce and that is required to be placarded or marked as required by the department’s safety rules prescribed pursuant to chapter 14 of this title.

39. “Human driver” means a natural person in the vehicle who performs in real time all or part of the dynamic driving task or who achieves a minimal risk condition for the vehicle.

40. “Implement of husbandry” means a vehicle that is designed primarily for agricultural purposes and that is used exclusively in the conduct of agricultural operations, including an implement or vehicle whether self-propelled or otherwise that meets both of the following conditions:

(a) Is used solely for agricultural purposes including the preparation or harvesting of cotton, alfalfa, grains and other farm crops.

(b) Is only incidentally operated or moved on a highway whether as a trailer or self-propelled unit. For the purposes of this subdivision, “incidentally operated or moved on a highway” means travel between a farm and another part of the same farm, from one farm to another farm or between a farm and a place of repair, supply or storage.

41. “Limousine” means a motor vehicle providing prearranged ground transportation service for an individual passenger, or a group of passengers, that is arranged in advance or is operated on a regular route or between specified points and includes ground transportation under a contract or agreement for services that includes a fixed rate or time and is provided in a motor vehicle with a seating capacity not exceeding fifteen passengers including the driver.

42. “Livery vehicle” means a motor vehicle that:

(a) Has a seating capacity not exceeding fifteen passengers including the driver.

(b) Provides passenger services for a fare determined by a flat rate or flat hourly rate between geographic zones or within a geographic area.

(c) Is available for hire on an exclusive or shared ride basis.

(d) May do any of the following:

(i) Operate on a regular route or between specified places.

(ii) Offer prearranged ground transportation service as defined in section 28-141.

(iii) Offer on demand ground transportation service pursuant to a contract with a public airport, licensed business entity or organization.

43. “Local authority” means any county, municipal or other local board or body exercising jurisdiction over highways under the constitution and laws of this state.

44. “Manufacturer” means a person engaged in the business of manufacturing motor vehicles, trailers or semitrailers.

45. “Minimal risk condition”:

(a) Means a condition to which a human driver or an automated driving system may bring a vehicle in order to reduce the risk of a crash when a given trip cannot or should not be completed.

(b) Includes bringing the vehicle to a complete stop.

46. “Moped” means a bicycle, not including an electric bicycle, an electric miniature scooter or an electric standup scooter, that is equipped with a helper motor if the vehicle has a maximum piston displacement of fifty cubic centimeters or less, a brake horsepower of one and one-half or less and a maximum speed of twenty-five miles per hour or less on a flat surface with less than a one percent grade.

47. “Motorcycle” means a motor vehicle that has a seat or saddle for the use of the rider and that is designed to travel on not more than three wheels in contact with the ground but excludes a tractor, an electric bicycle, an electric miniature scooter, an electric standup scooter and a moped.

48. “Motor driven cycle” means a motorcycle, including every motor scooter, with a motor that produces not more than five horsepower but does not include an electric bicycle, an electric miniature scooter or an electric standup scooter.

49. “Motorized quadricycle” means a self-propelled motor vehicle to which all of the following apply:

(a) The vehicle is self-propelled by an emission-free electric motor and may include pedals operated by the passengers.

(b) The vehicle has at least four wheels in contact with the ground.

(c) The vehicle seats at least eight passengers, including the driver.

(d) The vehicle is operable on a flat surface using solely the electric motor without assistance from the pedals or passengers.

(e) The vehicle is a commercial motor vehicle as defined in section 28-5201.

(f) The vehicle is a limousine operating under a vehicle for hire company permit issued pursuant to section 28-9503.

(g) The vehicle is manufactured by a motor vehicle manufacturer that is licensed pursuant to chapter 10 of this title.

(h) The vehicle complies with the definition and standards for low-speed vehicles set forth in 49 Code of Federal Regulations sections 571.3(b) and 571.500, respectively.

50. “Motor vehicle”:

(a) Means either:

(i) A self-propelled vehicle.

(ii) For the purposes of the laws relating to the imposition of a tax on motor vehicle fuel, a vehicle that is operated on the highways of this state and that is propelled by the use of motor vehicle fuel.

(b) Does not include a scrap vehicle, a personal delivery device, a personal mobile cargo carrying device, a motorized wheelchair, an electric personal assistive mobility device, an electric bicycle, an electric miniature scooter, an electric standup scooter or a motorized skateboard. For the purposes of this subdivision:

(i) "Motorized skateboard" means a self-propelled device that does not have handlebars and that has a motor, a deck on which a person may ride and at least two tandem wheels in contact with the ground.

(ii) "Motorized wheelchair" means a self-propelled wheelchair that is used by a person for mobility.

51. "Motor vehicle fuel" includes all products that are commonly or commercially known or sold as gasoline, including casinghead gasoline, natural gasoline and all flammable liquids, and that are composed of a mixture of selected hydrocarbons expressly manufactured and blended for the purpose of effectively and efficiently operating internal combustion engines. Motor vehicle fuel does not include inflammable liquids that are specifically manufactured for racing motor vehicles and that are distributed for and used by racing motor vehicles at a racetrack, use fuel as defined in section 28-5601, aviation fuel, fuel for jet or turbine powered aircraft or the mixture created at the interface of two different substances being transported through a pipeline, commonly known as transmix.

52. "Neighborhood electric shuttle":

(a) Means a self-propelled electrically powered motor vehicle to which all of the following apply:

(i) The vehicle is emission free.

(ii) The vehicle has at least four wheels in contact with the ground.

(iii) The vehicle is capable of transporting at least eight passengers, including the driver.

(iv) The vehicle is a commercial motor vehicle as defined in section 28-5201.

(v) The vehicle is a vehicle for hire as defined in section 28-9501 and operates under a vehicle for hire company permit issued pursuant to section 28-9503.

(vi) The vehicle complies with the definition and standards for low-speed vehicles set forth in 49 Code of Federal Regulations sections 571.3(b) and 571.500, respectively.

(b) Includes a vehicle that meets the standards prescribed in subdivision (a) of this paragraph and that has been modified after market and not by the manufacturer to transport up to fifteen passengers, including the driver.

53. "Neighborhood electric vehicle" means a self-propelled electrically powered motor vehicle to which all of the following apply:

(a) The vehicle is emission free.

(b) The vehicle has at least four wheels in contact with the ground.

(c) The vehicle complies with the definition and standards for low-speed vehicles, unless excepted or exempted under federal law, set forth in 49 Code of Federal Regulations sections 571.3(b) and 571.500, respectively.

54. "Neighborhood occupantless electric vehicle" means a neighborhood electric vehicle that is not designed, intended or marketed for human occupancy.

55. "Nonresident" means a person who is not a resident of this state as defined in section 28-2001.

56. “Off-road recreational motor vehicle” means a motor vehicle that is designed primarily for recreational nonhighway all-terrain travel and that is not operated on a public highway. Off-road recreational motor vehicle does not mean a motor vehicle used for construction, building trade, mining or agricultural purposes.

57. “Operational design domain”:

(a) Means operating conditions under which a given automated driving system is specifically designed to function.

(b) Includes roadway types, speed range, environmental conditions, such as weather or time of day, and other domain constraints.

58. “Operator” means a person who drives a motor vehicle on a highway, who is in actual physical control of a motor vehicle on a highway or who is exercising control over or steering a vehicle being towed by a motor vehicle.

59. “Owner” means:

(a) A person who holds the legal title of a vehicle.

(b) If a vehicle is the subject of an agreement for the conditional sale or lease with the right of purchase on performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee, the conditional vendee or lessee.

(c) If a mortgagor of a vehicle is entitled to possession of the vehicle, the mortgagor.

60. “Pedestrian” means any person afoot. A person who uses an electric personal assistive mobility device or a manual or motorized wheelchair is considered a pedestrian unless the manual wheelchair qualifies as a bicycle. For the purposes of this paragraph, “motorized wheelchair” means a self-propelled wheelchair that is used by a person for mobility.

61. “Personal delivery device”:

(a) Means a device that is both of the following:

(i) Manufactured for transporting cargo and goods in an area described in section 28-1225.

(ii) Equipped with automated driving technology, including software and hardware, that enables the operation of the device with the remote support and supervision of a human.

(b) Does not include a personal mobile cargo carrying device.

62. “Personal mobile cargo carrying device” means an electronically powered device that:

(a) Is operated primarily on sidewalks and within crosswalks and that is designed to transport property.

(b) Weighs less than eighty pounds, excluding cargo.

(c) Operates at a maximum speed of twelve miles per hour.

(d) Is equipped with technology to transport personal property with the active monitoring of a property owner and that is primarily designed to remain within twenty-five feet of the property owner.

(e) Is equipped with a braking system that when active or engaged enables the personal mobile cargo carrying device to come to a controlled stop.

63. “Power sweeper” means an implement, with or without motive power, that is only incidentally operated or moved on a street or highway and that is designed for the removal of debris, dirt, gravel, litter or sand whether by broom, vacuum or regenerative air system from asphaltic concrete or cement concrete surfaces, including parking lots, highways, streets and warehouses, and a vehicle on which the implement is permanently mounted.

64. “Public transit” means the transportation of passengers on scheduled routes by means of a conveyance on an individual passenger fare-paying basis excluding transportation by a sightseeing bus, school bus or taxi or a vehicle not operated on a scheduled route basis.

65. “Reconstructed vehicle” means a vehicle that has been assembled or constructed largely by means of essential parts, new or used, derived from vehicles or makes of vehicles of various names, models and types or that, if originally otherwise constructed, has been materially altered by the removal of essential parts or by the addition or substitution of essential parts, new or used, derived from other vehicles or makes of vehicles. For the purposes of this paragraph, “essential parts” means integral and body parts, the removal, alteration or substitution of which will tend to conceal the identity or substantially alter the appearance of the vehicle.

66. “Residence district” means the territory contiguous to and including a highway not comprising a business district if the property on the highway for a distance of three hundred feet or more is in the main improved with residences or residences and buildings in use for business.

67. “Right-of-way” when used within the context of the regulation of the movement of traffic on a highway means the privilege of the immediate use of the highway. Right-of-way when used within the context of the real property on which transportation facilities and appurtenances to the facilities are constructed or maintained means the lands or interest in lands within the right-of-way boundaries.

68. “SAE J3016” means surface transportation recommended practice J3016 taxonomy and definitions for terms related to driving automation systems for on-road motor vehicles published by SAE international in June 2018.

69. “School bus” means a motor vehicle that is designed for carrying more than ten passengers and that is either:

(a) Owned by any public or governmental agency or other institution and operated for the transportation of children to or from home or school on a regularly scheduled basis.

(b) Privately owned and operated for compensation for the transportation of children to or from home or school on a regularly scheduled basis.

70. “Scrap metal dealer” has the same meaning prescribed in section 44-1641.

71. “Scrap vehicle” has the same meaning prescribed in section 44-1641.

72. “Semitrailer” means a vehicle that is with or without motive power, other than a pole trailer or single-axle tow dolly, that is designed for carrying persons or property and for being drawn by a motor vehicle and that is constructed so that some part of its weight and that of its load rests on or is carried by another vehicle. For the purposes of this paragraph, “pole trailer” has the same meaning prescribed in section 28-601.

73. “Single-axle tow dolly” means a nonvehicle device that is drawn by a motor vehicle, that is designed and used exclusively to transport another motor vehicle and on which the front or rear wheels of the drawn motor vehicle are mounted on the tow dolly while the other wheels of the drawn motor vehicle remain in contact with the ground.

74. “State” means a state of the United States and the District of Columbia.

75. “State highway” means a state route or portion of a state route that is accepted and designated by the board as a state highway and that is maintained by the state.

76. “State route” means a right-of-way whether actually used as a highway or not that is designated by the board as a location for the construction of a state highway.

77. “Street” or “highway” means the entire width between the boundary lines of every way if a part of the way is open to the use of the public for purposes of vehicular travel.

78. “Taxi” means a motor vehicle that has a seating capacity not exceeding fifteen passengers, including the driver, that provides passenger services and that:

(a) Does not primarily operate on a regular route or between specified places.

(b) Offers local transportation for a fare determined on the basis of the distance traveled or prearranged ground transportation service as defined in section 28-141 for a predetermined fare.

79. “Title transfer form” means a paper or an electronic form that is prescribed by the department for the purpose of transferring a certificate of title from one owner to another owner.

80. “Traffic survival school” means a school that is licensed pursuant to chapter 8, article 7.1 of this title and that offers educational sessions that are designed to improve the safety and habits of drivers and that are approved by the department.

81. “Trailer” means a vehicle that is with or without motive power, other than a pole trailer or single-axle tow dolly, that is designed for carrying persons or property and for being drawn by a motor vehicle and that is constructed so that no part of its weight rests on the towing vehicle. A semitrailer equipped with an auxiliary front axle commonly known as a dolly is deemed to be a trailer. For the purposes of this paragraph, “pole trailer” has the same meaning prescribed in section 28-601.

82. “Transportation network company” has the same meaning prescribed in section 28-9551.

83. “Transportation network company vehicle” has the same meaning prescribed in section 28-9551.

84. “Transportation network service” has the same meaning prescribed in section 28-9551.

85. “Truck” means a motor vehicle designed or used primarily for the carrying of property other than the effects of the driver or passengers and includes a motor vehicle to which has been added a box, a platform or other equipment for such carrying.

86. “Truck tractor” means a motor vehicle that is designed and used primarily for drawing other vehicles and that is not constructed to carry a load other than a part of the weight of the vehicle and load drawn.

87. “Vehicle”:

(a) Means a device in, on or by which a person or property is or may be transported or drawn on a public highway.

(b) Does not include:

(i) Electric bicycles, electric miniature scooters, electric standup scooters and devices moved by human power.

(ii) Devices used exclusively on stationary rails or tracks.

(iii) Personal delivery devices.

(iv) Scrap vehicles.

(v) Personal mobile cargo carrying devices.

88. “Vehicle transporter” means either:

(a) A truck tractor capable of carrying a load and drawing a semitrailer.

(b) A truck tractor with a stinger-steered fifth wheel capable of carrying a load and drawing a semitrailer or a truck tractor with a dolly mounted fifth wheel that is securely fastened to the truck tractor at two or more points and that is capable of carrying a load and drawing a semitrailer.

A.R.S. § 28-3001. Definitions

In this chapter, unless the context otherwise requires:

1. "Cancellation" means the annulment or termination of a driver license because of an error or defect or because the licensee is no longer entitled to the license.

2. "Commercial driver license" means a license that is issued to an individual and that authorizes the individual to operate a class of commercial motor vehicles.

3. "Commercial motor vehicle" means a motor vehicle or combination of motor vehicles that is used in commerce to transport passengers or property and that includes any of the following:

(a) A motor vehicle or combination of motor vehicles that has a gross combined weight rating of twenty-six thousand one or more pounds inclusive of a towed unit with a gross vehicle weight rating of more than ten thousand pounds.

(b) A motor vehicle that has a gross vehicle weight rating of twenty-six thousand one or more pounds.

(c) A bus.

(d) A motor vehicle or combination of motor vehicles that is used in the transportation of materials found to be hazardous for the purposes of the hazardous materials transportation authorization act of 1994 (49 United States Code sections 5101 through 5128) and is required to be placarded under 49 Code of Federal Regulations section 172.504, as adopted by the department pursuant to chapter 14 of this title.

4. "Conviction" has the same meaning prescribed in section 28-101 and also means a final conviction or judgment, including an order of a juvenile court finding that a juvenile has violated a provision of this title or has committed a delinquent act that if committed by an adult constitutes any of the following:

(a) Criminal damage to property pursuant to section 13-1602, subsection A, paragraph 1.

(b) A felony offense in the commission of which a motor vehicle was used, including theft of a motor vehicle pursuant to section 13-1802, unlawful use of means of transportation pursuant to section 13-1803 or theft of means of transportation pursuant to section 13-1814.

(c) A forfeiture of bail or collateral deposited to secure a defendant's appearance in court that has not been vacated.

5. "Disqualification" means a prohibition from obtaining a commercial driver license or driving a commercial motor vehicle.

6. "Employer" means a person, including the United States, a state or a political subdivision of a state, that owns or leases a commercial motor vehicle or that assigns a person to operate a commercial motor vehicle.

7. "Endorsement" means an authorization that is added to an individual's driver license and that is required to permit the individual to operate certain types of vehicles.

8. "Foreign" means outside the United States.

9. “Gross vehicle weight rating” means the weight that is assigned by the vehicle manufacturer to a vehicle and that represents the maximum recommended total weight including the vehicle and the load for the vehicle.
10. “Judgment” means a final judgment and any of the following:
(a) The finding by a court that an individual is responsible for a civil traffic violation.
(b) An individual’s admission of responsibility for a civil traffic violation.
(c) The voluntary or involuntary forfeiture of deposit in connection with a civil traffic violation.
(d) A default judgment entered by a court pursuant to section 28-1596.
11. “License class” means, for the purpose of determining the appropriate class of driver license required for the type of motor vehicle or vehicle combination a driver intends to operate or is operating, the class of driver license prescribed in section 28-3101.
12. “Nondomiciled commercial driver license” means a commercial driver license issued to an individual domiciled in a foreign country or to an individual domiciled in another state if that state is prohibited from issuing commercial driver licenses.
13. “Original applicant” means any of the following:
(a) An applicant who has never been licensed or cannot provide evidence of licensing.
(b) An applicant who is applying for a higher class of driver license than the license currently held by the applicant.
(c) An applicant who has a license from a foreign country.
14. “Revocation” means that the driver license and driver’s privilege to drive a motor vehicle on the public highways of this state are terminated and shall not be renewed or restored, except that an application for a new license may be presented and acted on by the department after one year from the date of revocation.
15. “State of domicile” means the state or jurisdiction where a person has the person’s true, fixed and permanent home and principal residence and to which the person has the intention of returning after an absence.
16. “Suspension” means that the driver license and driver’s privilege to drive a motor vehicle on the public highways of this state are temporarily withdrawn during the period of the suspension.
17. “Vehicle combination” means a motor vehicle and a vehicle in excess of ten thousand pounds gross vehicle weight that it tows, if the combined gross vehicle weight rating is more than twenty-six thousand pounds.

A.R.S. § 28-3103. Driver license endorsements

A. A driver license applicant shall obtain the following endorsements to the applicant’s driver license and shall submit to an examination appropriate to the type of endorsement if the applicant operates one or more of the following vehicles:
1. A motorcycle endorsement for operation of a motorcycle if the applicant qualifies for a class M license and if the applicant qualifies for or has a class A, B, C, D or G license.
2. A hazardous materials endorsement on a class A, B or C license for operation of a vehicle that transports hazardous materials, wastes or substances in a quantity and under circumstances that require the placarding or marking of the transport vehicle as required by the department’s safety rules prescribed pursuant to chapter 14 of

this title. The department or an outside source authorized by the department and approved by the transportation security administration may:

(a) Conduct background checks in accordance with the transportation security administration procedures.

(b) Require that all hazardous materials endorsement applicants submit fingerprints.

3. A double-triple trailer endorsement on a class A license for operation of a vehicle towing double or triple trailers.

4. A passenger vehicle endorsement on a class A, B or C license for operation of a bus designed to transport sixteen or more passengers, including the driver, or a school bus.

5. A tank vehicle endorsement on a class A, B or C license for operation of a tank vehicle. For the purposes of this paragraph, "tank vehicle" means a commercial motor vehicle that is designed to transport a liquid or gaseous material within a tank that is either permanently or temporarily attached to the vehicle or chassis, including a cargo tank and a portable tank and excluding a portable tank having a rated capacity under one thousand gallons.

6. A school bus endorsement on a class A, B or C license for operation of a school bus. Applicants shall successfully complete both a written knowledge test and a driving skills test to obtain a school bus endorsement.

B. When applying for a commercial driver license endorsement pursuant to article 5 of this chapter, the applicant shall successfully complete the skills portion of the examination in a motor vehicle or vehicle combination applicable to the endorsement.

C. On notification by the transportation security administration that an individual's authorization to hold a hazardous materials endorsement has been terminated, the department shall immediately cancel the hazardous materials endorsement on the driver's commercial driver license.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF TRANSPORTATION**
Title 17, Chapter 4, Articles 5 & 7

Amend: R17-4-508, R17-4-702, R17-4-705, R17-4-707

Summary:

This regular rulemaking from the Department of Transportation (Department) seeks to amend four (4) rules in Title 17, Chapter 4 regarding Titles, Registration, and Driver's Licenses. The amendments are intended to improve clarity and effectiveness of the rules, and to update terminology. Specifically, the Department is seeking to incorporate by reference the Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMCRs), to add a new electronic process for medical examiner certificates for CLP and CDL applicants and holders, and to make general improvements by using consistent language. The incorporation of reference to 49 C.F.R. 1572 meets the requirements for incorporation found at A.R.S. § 41-1028.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Arizona Department of Transportation (ADOT), in partnership with the Arizona Department of Public Safety (DPS), engages in the rulemaking to incorporate by reference parts of the 2023 edition of the Code of Federal Regulations in 17 A.A.C. 5, Article 2. Both ADOT and DPS rely on these federal monies that require the adoption of Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Material regulations (HMRs). The incorporation of these parts of the Code of Federal Regulations impacts ADOT's rules concerning commercial driver licenses (CDL) physical qualifications and hazardous materials endorsements (HMEs). ADOT engages in this rulemaking to ensure its rules are consistent and current with federal regulation and ADOT's process.

The Department states that it amends A.A.C. R17-4-508 to conform to the new electronic process for the medical examiner's certificates, which includes the medical examiner's certificates of commercial learner's permit (CLP) and CDL applicants and holders being electronically submitted to the Federal Motor Carrier Safety Administration (FMCSA) and then transmitted by FMCSA to the states. For calendar year 2023, ADOT's Medical Review Program received 69,266 medical examiner's certificates. Additionally, ADOT is clarifying the time-frame in which ADOT must be notified when a physical condition develops or worsens and removing the vision test as one of the required tests of an expired CLS holder.

The Department states that this rulemaking would reduce regulatory burdens; inconsistencies; ensure the state to be in compliance with federal and state requirements and continue to be eligible for federal funding, which total approximately $16 - $17 million annually; allows ADOT's CDL Program to continue issuing, renewing, transferring, or upgrading CDLs in Arizona; and allow ADOT to ensure the most current and generally accepted federal standards used by industry and law enforcement personnel to promote safe operation of both interstate and intrastate commercial motor vehicles, including the physical fitness of the drivers and security threat assessment, are being implemented and in keeping with state statutes.

The Department indicates that as of September 2024, there are 115,130 CDL holders, 3,454 CLP holders, 1,395 CDL holders with HME, and 16,278 CDL holders with dual endorsement of tank and hazardous materials. Also, there are 20,523 valid CDL and CLP holders who have successfully completed the required TSA HME Security Threat Assessment. There are two applicants who did not successfully complete the required TSA

HME Security Threat Assessment. The Department states that the fee for the U.S. Transportation Security Administration (TSA) HME Security threat Assessment as of January 1, 2025, has decreased to $85.25 from the previous $86.50. The fee for the HME is $10 (A.R.S. § 28-3002).

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department indicates that in rulemaking, ADOT routinely adopts the least costly and least burdensome options for any process or procedure required of the regulated public or industry. However, each state is required under 49 CFR 384.301 to adopt and carry out a program for testing and ensuring the fitness of individuals to operate commercial motor vehicles consistent with the minimum standards prescribed by the Secretary of Transportation under 49 U.S.C. 31305(a) as soon as practical, or an amount of up to 5 percent of the state's federal-aid highway funds appropriated under each of section 104(b)(1), (b)(3), and (b)(4) OF 23 U.S.C. may be withheld from the state for noncompliance. The Department indicates that based on amounts traditionally received by ADOT, this amount could reach approximately $30 million depending on the actual appropriation. Therefore, to the extent permitted by federal law, ADOT has determined that these rules impose the least burden and costs to regulated persons.

6. What are the economic impacts on stakeholders?

The Department anticipates that the economic impact of these rules is minimal for the CLP, CDL, and HME applicants and holders and does not expect this rulemaking to create a significant increase in costs for them. Potentially, the stakeholders may minimally decrease their costs from the electronic medical examiner's certificate verification system. The Department states there are no new fees associated with this rulemaking and costs imposed for the HME have not increased.

ADOT anticipates there may be a substantial economic impact on the agency with an estimated $96,000 to develop, program and test the new electronic medical examiner's certificate verification system and additional costs to train and communicate the change. ADOT does not expect an economic impact from the update to the incorporation by reference of 49 CFR 1572.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates that there were no changes between the proposed rulemaking and the final rulemaking.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it did not receive any public comments regarding this rulemaking

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department indicates that while these rules concern requirements for CDL, CPL, and HME general permit applicants, these rules do not require issuance of those permits.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are some corresponding federal laws concerning Commercial Learner's Permits and Commercial Drivers Licenses, but that the rules are not more stringent than those corresponding federal laws. The Federal Regulations relevant to these rules are found at 49 CFR 40, 107, 171, 172, 173, 177, 178, 180, 379, 382, 383, 385, 390, 391, 392, 393, 395, 396, 397, and 399.

11. Conclusion

This regular rulemaking from the Department of Transportation (Department) seeks to amend four (4) rules in Title 17, Chapter 4 regarding Titles, Registration, and Driver's Licenses. The Department is amending the rules to update the incorporation by reference to 49 CFR 1572 Regulations (HMCRs), to add a new electronic process for medical examiner certificates for CLP and CDL applicants and holders, and to make minor amendments to ensure consistency with rulewriting standards.

The Department is seeking an immediate effective date pursuant to A.R.S. § 41-1032(B). The Department states that the immediate effective date is necessary in order to preserve the public peace, health, and safety, and to avoid violation of federal regulation. The Department has specifically indicated that the immediate effective date will ensure consistency with the Federal Motor Carrier Safety Regulations and Hazardous Materials Regulations. The Department has also indicated that the incorporation by references will allow the Department of Public Safety (DPS) to be eligible for $16-17 million in federal funding.

Council staff recommends approval of this rulemaking.

Jessica Klein, Chair
Governor's Regulatory Review Council
100 N. 15th Ave., Suite 305
Phoenix, AZ 85007

Re: Department of Transportation, 17. A.A.C. 4, Articles 5, Safety, and 7, Hazardous Materials Endorsement, Notice of Final Rulemaking

Dear Chairperson Jessica Klein:

The Arizona Department of Transportation submits the accompanying final rule package for consideration by the Governor's Regulatory Review Council. The following information is provided to comply with R1-6-201(A)(1):

a. The rulemaking record closed on January 15, 2025, and no written public comments were received on these rules;
b. The rulemaking activity does not relate to a five-year review report;
c. The rulemaking does not establish a new fee;
d. The rulemaking does not increase an existing fee;
e. An immediate effective date is requested for these rules under A.R.S. § 41-1032;
f. The preamble discloses that the Department did not review any studies relevant to the rules and did not rely on any studies in its evaluation of or justification for the rules;
g. No new full-time employees are necessary to implement and enforce the rules;
h. Documents included in this final rule package are as follows:
    1. Signed cover letter;
    2. Notice of Final Rulemaking, including the preamble, table of contents, and text of each rule;
    3. Economic, Small Business and Consumer Impact Statement;
    4. General authorizing statutes and specific statutes, including relevant statutory definitions;
    5. Definitions of terms;
    6. Material incorporated by reference; and
    7. Request for, and approvals of initial and final rulemaking from the Governor's Office.

Sincerely,

Jennifer Toth
Director

Enclosures

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 4. DEPARTMENT OF TRANSPORTATION

TITLE, REGISTRATION, AND DRIVER LICENSES

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039 by the governor on:

April 16, 2025

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**
R17-4-508	Amend
R17-4-702	Amend
R17-4-705	Amend
R17-4-707	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. §§ 28-366 and 28-5204

Implementing statute: A.R.S. §§ 28-3103, 28-3159(A)(3), and 28-3223

4. The effective date of the rule:

Month X, 2025 (To be completed by the *Register* Editor with an immediate effective date.)

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

The Arizona Department of Transportation (ADOT) requests that this rulemaking be effective immediately on filing with the Office of the Secretary of State, as permitted under A.R.S. § 41-1032, to:

Preserve the public peace, health, and safety. These rules are made in connection with the required incorporation by reference of the Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs) in 17 A.A.C. 5, Article 2, thus ensuring there is a consistency between ADOT regulations, state statutes, and federal regulations. These changes allow for a greater understanding by commercial driver license (CDL) applicants of what is required of them as it pertains to their physical qualifications and, when applicable, eligibility for a hazardous materials endorsement (HME). These regulations safeguard the public by making sure there are healthy and safe CDL holders; and

Avoid a violation of federal law or regulation or state law. ADOT is statutorily required to administer the driver licensing and medical evaluation activities required of commercial motor vehicle drivers under A.R.S. Title 28, Chapter 8, and these rules. ADOT is required under A.R.S. § 28-5204(A)(2) to consider, as evidence of generally accepted safety standards, the publications of the U.S. Department of Transportation and the Environmental Protection Agency when adopting rules necessary to administer and enforce A.R.S. Title 28, Chapter 14. 49 CFR 384 requires that each state comply with the provisions of section 12009(a) of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. 31311(a)) and adopt and

administer a program for testing and ensuring the fitness of persons to operate commercial motor vehicles in accordance with the minimum federal standards contained in 49 CFR 383.

The updated incorporation by reference of the FMCSRs and HMRs in 17 A.A.C. 5, Article 2, allows the Arizona Department of Public Safety (DPS) to be eligible to apply for an estimated $16 – $17 million in total federal funding from the Federal Motor Carrier Safety Administration (FMCSA).

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 3538, Issue Date: November 22, 2024, Issue Number: 47, File number: R24-251

Notice of Proposed Rulemaking: 30 A.A.R. 3502, Issue Date: November 22, 2024, Issue Number: 47, File number: R24-244

6. The agency's contact person who can answer questions about the rulemaking:

Name: Candace Olson
Title: Senior Rules Analyst
Office: Government Relations and Rules
Address: Department of Transportation
206 S. 17th Ave., Mail Drop 180A
Phoenix, AZ 85007
Telephone: (480) 267-6610
Email: COlson2@azdot.gov
Website: https://azdot.gov/about/government-relations

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

ADOT, in partnership with DPS, is engaged in rulemaking to incorporate by reference parts of the 2023 edition of the *Code of Federal Regulations* in 17 A.A.C. 5, Article 2. Both ADOT and DPS rely on federal monies that require the adoption of FMCSRs and HMRs. The incorporation of these parts of the *Code of Federal Regulations* impacts ADOT's rules concerning CDL physical qualifications and HMEs. ADOT engages in this rulemaking to ensure its rules are consistent and current with federal regulations and ADOT's process.

ADOT amends R17-4-508 to conform to the new electronic process for the medical examiner's certificates, which includes the medical examiner's certificates of commercial learner's permit (CLP) and CDL applicants and holders being electronically submitted to FMCSA and then transmitted by FMCSA to the states. Additionally, ADOT is clarifying the time-frame in which ADOT must be notified when a physical condition develops or worsens and

removing the vision test as one of the required tests of an expired CDL holder.

ADOT updates R17-4-702 to incorporate by reference the 2023 edition of 49 CFR 1572.

In addition, minor clarifying and technical changes have been made to ensure consistent and clearer language and conformity to the rulemaking format and style requirements of the Arizona Administrative Procedure Act and the Office of the Secretary of State.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

ADOT did not review or rely on any study relevant to the rules.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

ADOT anticipates that the economic impact of these rules is minimal for the CLP, CDL, and HME applicants and holders and does not expect this rulemaking to create a significant increase in costs for them. Potentially, the stakeholders may minimally decrease their costs from the electronic medical examiner's certificate verification system. There are no new fees associated with this rulemaking and costs imposed for the HME have not increased. The fee for the U.S. Transportation Security Administration (TSA) HME Security Threat Assessment as of January 1, 2025, has decreased to $85.25 from the previous $86.50. The fee for the HME is $10 (A.R.S. § 28-3002).

ADOT anticipates that there may be a substantial economic impact on the agency with an estimated cost of $96,000 to develop, program, and test the new electronic medical examiner's certificate verification system and additional costs to train and communicate the change. ADOT does not expect an economic impact from the update to the incorporation by reference of 49 CFR 1572.

The benefits of this rulemaking include keeping the state consistent with federal regulations, which also allows the state to be eligible for federal funds and providing clarity and reduction of confusion for an agency, business, or person. DPS administers and enforces the Federal Motor Carrier Safety Assistance Program (MCSAP) throughout the State of Arizona. For FY 2024, DPS can apply for an estimated $16,000,000 to $17,000,000 in total federal funding from FMCSA. Stakeholders may also have a major benefit from switching from having to provide ADOT with a paper medical examiner's certificate to the electronic process through FMCSA. In some instances, CDL applicants may still need to submit a paper version when applying for the Arizona CDL Intrastate Medical Waiver.

As of September 2024, there are 115,130 CDL holders, 3,454 CLP holders, 1,395 CDL holders with an HME, and 16,278 CDL holders with dual endorsement of tank and hazardous materials. Also, there are 20,523 valid CDL and CLP holders who have successfully completed the required TSA HME Security Threat Assessment. There are two

applicants who did not successfully complete the required TSA HME Security Threat Assessment.

For calendar year 2023, ADOT's Medical Review Program received 69,266 medical examiner's certificates.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

Not applicable

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

ADOT did not receive any public or stakeholder comments regarding this rulemaking.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable to ADOT or to any specific rule or class of rules.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

These rules concern certain requirements for applicants of a CLP, CDL, or HME. A CLP, CDL, and HME are general permits since the activities and practices authorized by them are substantially similar in nature for all holders. These rules though do not require the issuance of the CLP, CDL, or HME; that requirement is under 17 A.A.C. 5, Article 2 and state statute.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Federal regulations in 49 CFR 383, 390, 391, and 1572 are applicable to these rules. These rules are in accordance with those federal regulations and are not more stringent.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted to ADOT.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

In R17-4-702: 49 CFR 1572, revised as of October 1, 2023

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

16. The full text of the rules follows:

Rule text begins on the next page.

ARTICLE 5. SAFETY

R17-4-508. Commercial Driver License Physical Qualifications

A. ~~Requirements.~~ A commercial driver license applicant must meet the commercial driver license physical qualifications and have a U.S. Department of Transportation medical examiner's certificate, form MCSA-5876, completed, which the Department must be able to verify from the electronic information provided by the Federal Motor Carrier Safety Administration.

1. ~~A commercial driver license applicant shall submit a U.S. Department of Transportation medical examiner's certificate, available online from the Federal Motor Carrier Safety Administration at https://www.fmcsa.dot.gov, completed as prescribed under 49 CFR 391.43 to the Department.~~
   a. ~~Except as provided in subsection (A)(1)(c), the medical examiner's certificate must be completed by a medical examiner who is listed on the current National Registry of Certified Medical Examiners. A search of certified medical examiners is available on the Federal Motor Carrier Safety Administration's website.~~
   b. The medical examiner's certificate must be completed upon or prior to the applicant's initial application ~~and upon~~ or ~~prior to~~ expiration of the applicant's current medical examiner's certificate.
   c. ~~An optometrist, licensed to practice by the federal government, any state, or U.S. territory, may perform the medical examination as it pertains to visual acuity, field of vision, and the ability to recognize colors as specified in 49 CFR 391.41(b)(10).~~
2. ~~As prescribed under 49 CFR 391.41(a)(2), a licensee who possesses a commercial driver license shall keep an original or photo graphic copy of the licensee's current medical examiner's certificate required under subsection (A)(1) available for law enforcement inspection upon request for no more than 15 days after the date it was issued as valid proof of medical certification.~~
3.2. A licensee who possesses a commercial driver license shall notify the Department within 10 days of a physical condition that develops or worsens causing noncompliance with the commercial driver license physical qualifications ~~as soon as the licensee's medical condition allows~~.

B. Commercial driver license suspension and revocation notification procedure. To notify a licensee of any commercial driver license suspension and revocation under subsection (C), the Department shall simultaneously mail two notices within 15 days after a medical examiner's certificate's due date ~~or actual submission date~~ to the licensee's address of record that:

1. Suspends the licensee's commercial driver license beginning on the notice's date; and
2. Revokes the licensee's commercial driver license 15 days after the date of the suspension notice issued under subsection (B)(1).

C. Noncompliance actions.

1. Initial application denial. If an applicant's initial medical examiner's certificate required under subsection ~~(A)(1)~~ (A) shows that the applicant does not comply with the commercial driver license physical qualifications, the Department shall immediately mail the commercial driver license denial notification to the applicant's address of record.

2. Medical examiner's certificate renewal suspension and revocation. If a renewing commercial driver licensee ~~submits:~~

   ~~a.~~ ~~No~~ does not complete a medical examiner's certificate required under subsection ~~(A)(1)~~ (A) or ~~a form indicating noncompliance with commercial driver license physical qualifications~~ the Federal Motor Carrier Safety Administration indicates the licensee is noncompliant with the commercial driver license physical qualifications, the Department shall follow the suspension and revocation notification procedure prescribed under subsection (B).

   ~~b. An incomplete medical examiner's certificate required under subsection (A)(1), the Department shall immediately return the incomplete form with a letter requesting that the licensee provide missing information to the Department within 45 days after the date of the Department's letter. The Department shall follow the suspension and revocation notification procedure pre scribed under subsection (B) if the licensee fails to return the requested information in the time frame prescribed in this subsection.~~

D. A commercial driver license that remains revoked for longer than 12 months expires. The holder of an expired commercial driver license may obtain a new commercial driver license by successfully completing all commercial driver license ~~original application~~ written~~, vision,~~ and skills testing and by ~~submitting~~ completing the medical examiner's certificate prescribed under subsection ~~(A)(1)~~ (A).

E. Administrative hearing. A person who is denied a commercial driver license or whose commercial driver license is suspended or revoked under this Section may request a hearing from the Department as prescribed under 17 A.A.C. 1, Article 5. The hearing is held in accordance with the procedures prescribed under A.R.S. Title 41, Chapter 6, Article 6 and 17 A.A.C. 1, Article 5.

ARTICLE 7. HAZARDOUS MATERIALS ENDORSEMENT

R17-4-702. Scope

This Article applies to commercial drivers who are applying for an original, renewal, or transfer of an HME, in accordance with 49 CFR 1572. The Department incorporates by reference 49 CFR 1572, revised as of October 1, ~~2020~~ 2023, and no later amendments or editions. The incorporated material is on file with the Department at 206 S. 17th Avenue, Phoenix, AZ 85007. The incorporated material is published by National Archives and Records Administration, Office of the Federal Register, 8601 Adelphi Road, College Park, MD 20740-6001, and is printed and distributed by the U.S. Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000. R17-4-705. Required Testing

A. Original and renewal applicants shall successfully complete the testing requirements under A.R.S. § 28-3223.

B. A transfer applicant shall be required to comply with HME knowledge test requirements under A.R.S. § 28-3223~~,~~ and pay any applicable fee under R17-4-706.

R17-4-707. 60-Day Notice to Apply

A. The Department shall notify an existing HME holder that a new Security Threat Assessment shall be successfully passed ~~in order~~ to retain the HME 60 days prior to the expiration of the Security Threat Assessment and the corresponding HME.

B. Upon expiration of the Department's 60 Day Notice to Apply, the Department shall cancel the Arizona driver license privileges of an applicant who fails to apply for a Security Threat Assessment and fails to remove the HME.

ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT

TITLE 17. TRANSPORTATION

CHAPTER 4. DEPARTMENT OF TRANSPORTATION

TITLE, REGISTRATION, AND DRIVER LICENSES

R17-4-508, R17-4-702, R17-4-705, and R17-4-707

A. Economic, small business and consumer impact summary:

1. Identification of the proposed rulemaking:

The Arizona Department of Transportation (ADOT), in partnership with the Arizona Department of Public Safety (DPS), is engaged in rulemaking to incorporate by reference parts of the 2023 edition of the *Code of Federal Regulations* in 17 A.A.C. 5, Article 2. Both ADOT and DPS rely on federal monies that require the adoption of Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs). The incorporation of these parts of the *Code of Federal Regulations* impacts ADOT's rules concerning commercial driver license (CDL) physical qualifications and hazardous materials endorsements (HMEs). ADOT engages in this rulemaking to ensure its rules are consistent and current with federal regulations and ADOT's process.

ADOT amends A.A.C. R17-4-508 to conform to the new electronic process for the medical examiner's certificates, which includes the medical examiner's certificates of commercial learner's permit (CLP) and CDL applicants and holders being electronically submitted to the Federal Motor Carrier Safety Administration (FMCSA) and then transmitted by FMCSA to the states. Additionally, ADOT is clarifying the time-frame in which ADOT must be notified when a physical condition develops or worsens and removing the vision test as one of the required tests of an expired CDL holder.

ADOT updates A.A.C. R17-4-702 to incorporate by reference the 2023 edition of 49 CFR 1572.

In addition, minor clarifying and technical changes have been made to ensure consistent and clearer language and conformity to the rulemaking format and style requirements of the Arizona Administrative Procedure Act and the Office of the Secretary of State.

a. The conduct and its frequency of occurrence that the rule is designed to change:

These rules are made in connection with the required incorporation by reference of the FMCSRs and HMRs in 17 A.A.C. 5, Article 2, thus ensuring there is a consistency between ADOT regulations, state statutes, and federal regulations. These changes allow for a greater understanding by CDL applicants of what is required of them as it pertains to their physical qualifications and, when applicable, eligibility for an HME. These regulations safeguard the public by making sure there are healthy and safe CDL holders. In addition, the updated incorporation by reference of the FMCSRs and HMRs in 17 A.A.C. 5,

Article 2, allows DPS to be eligible to apply for an estimated $16 - 17 million in total federal funding from FMCSA.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

ADOT is statutorily required to administer the driver licensing and medical evaluation activities required of commercial motor vehicle drivers under A.R.S. Title 28, Chapter 8, and these rules. ADOT is required under A.R.S. § 28-5204(A)(2) to consider, as evidence of generally accepted safety standards, the publications of the U.S. Department of Transportation and the Environmental Protection Agency when adopting rules necessary to administer and enforce A.R.S. Title 28, Chapter 14. 49 CFR 384 requires that each state comply with the provisions of section 12009(a) of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. 31311(a)) and adopt and administer a program for testing and ensuring the fitness of persons to operate commercial motor vehicles in accordance with the minimum federal standards contained in 49 CFR 383. If these rule amendments are not adopted, ADOT would not be in compliance with federal and state law, which could expose the agency to a loss of funds; inconsistencies between state regulations; and FMCSA could prohibit ADOT's CDL Program from issuing, renewing, transferring, or upgrading CDLs in this state if they determine that Arizona is not substantially in compliance with 49 U.S.C. 31311(a).

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking would reduce regulatory burdens; inconsistencies; ensure the state to be in compliance with federal and state requirements and continue to be eligible for federal funding, which total approximately $16 - $17 million annually; allow ADOT's CDL Program to continue issuing, renewing, transferring, or upgrading CDLs in Arizona; and allow ADOT to ensure the most current and generally accepted federal standards used by industry and law enforcement personnel to promote safe operation of both interstate and intrastate commercial motor vehicles, including the physical fitness of the drivers and security threat assessment, are being implemented and in keeping with state statutes.

2. Brief summary of the information included in the economic, small business and consumer impact statement:

ADOT anticipates that the economic impact of these rules is minimal for the CLP, CDL, and HME applicants and holders and does not expect this rulemaking to create a significant increase in costs for them. Potentially, the stakeholders may minimally decrease their costs from the electronic medical examiner's certificate verification system. There are no new fees associated with this rulemaking and costs imposed for the HME have not increased. The fee for the U.S. Transportation Security Administration (TSA) HME Security Threat Assessment as of January 1, 2025, has decreased to $85.25 from the previous $86.50. The fee for the HME is $10 (A.R.S. § 28-3002).

ADOT anticipates that there will be a substantial economic impact on the agency with an estimated cost of $96,000 to develop, program, and test the new electronic medical examiner's certificate verification system

and additional costs to train and communicate the change. ADOT does not expect an economic impact from the update to the incorporation by reference of 49 CFR 1572.

The benefits of this rulemaking include keeping the state consistent with federal regulations, which also allows the state to be eligible for federal funds and providing clarity and reduction of confusion for an agency, business, or person. DPS administers and enforces the Federal Motor Carrier Safety Assistance Program (MCSAP) throughout the State of Arizona. For FY 2024, DPS can apply for an estimated $16,000,000 to $17,000,000 in total federal funding from FMCSA. Stakeholders may also have a major benefit from switching from having to provide ADOT with a paper medical examiner's certificate to the electronic process through FMCSA. In some instances, CDL applicants may still need to submit a paper version when applying for the Arizona CDL Intrastate Medical Waiver.

As of September 2024, there are 115,130 CDL holders, 3,454 CLP holders, 1,395 CDL holders with a HME, and 16,278 CDL holders with dual endorsement of tank and hazardous materials. Also, there are 20,523 valid CDL and CLP holders who have successfully completed the required TSA HME Security Threat Assessment. There are two applicants who did not successfully complete the required TSA HME Security Threat Assessment.

For calendar year 2023, ADOT's Medical Review Program received 69,266 medical examiner's certificates.

3. Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:

Name: Candace Olson
Address: Government Relations and Rules
Department of Transportation
206 S. 17th Ave., Mail Drop 180A
Phoenix, AZ 85007
Telephone: (480) 267-6610
E-mail: COlson2@azdot.gov

B. Economic, small business and consumer impact statement:

1. Identification of the proposed rulemaking:

See paragraph (A)(1) above.

2. Identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking:

Persons to bear costs	**Persons directly benefiting**
ADOT	ADOT
CDL applicants and holders	CDL applicants and holders

Persons to bear costs	Persons directly benefiting
Employers who opt to pay for the CDL medical examinations or HME Security Threat Assessments	Certified medical examiners listed on the National Registry
Hazardous materials industries	General motoring public
State CDL programs	TSA

3. Analysis of costs and benefits occurring in this state:

Cost-revenue scale. Annual costs or revenues are defined as follows:

Minimal less than $1,000

Moderate $1,000 to $9,999

Substantial $10,000 or more

a. Probable costs and benefits to ADOT and other agencies directly affected by the implementation and enforcement of the proposed rulemaking:

ADOT anticipates that there will be a substantial economic impact on the agency with an estimated cost of $96,000 to develop, program, and test the new electronic medical examiner's certificate verification system and additional costs to train and communicate the change. Annually, ADOT incurs substantial costs to review, monitor, and maintain CDL medical evaluation forms. However, the CDL medical screening process fulfills ADOT's statutory obligations and protects the public. In time there could be a decrease in costs with the removal of the paper process of the medical examiner's certificates and the process for when incomplete certificates are received.

ADOT does not expect an economic impact from the update to the incorporation by reference of 49 CFR 1572 to the 2023 edition. There are no changes from the last edition incorporated by reference by ADOT to the 2023 edition and as such there should not be a significant increase or decrease in costs or benefits.

There are no additional administrative costs to ADOT associated with this rulemaking since ADOT already has a CDL medical review and HME process in place.

The benefits of this rulemaking include keeping the state consistent with federal regulations, which also allows the state to be eligible for federal funds and providing clarity and reduction of confusion for an agency, business, or person. ADOT should also benefit by having to spend less resources on providing individual clarification of the rules to regulated persons. DPS administers and enforces MCSAP throughout the State of Arizona. For FY 2024, DPS can apply for an estimated $16,000,000 to $17,000,000 in total federal funding from FMCSA.

For calendar year 2023, ADOT's Medical Review Program received 69,266 medical examiner's certificates.

ADOT is not required to notify the Joint Legislative Budget Committee under A.R.S. § 41-1055(B)(3)(a), since no new full-time employees are necessary to enforce and implement these rules.

b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking:

ADOT anticipates that political subdivisions of this State may incur minimal to substantial costs only when the agency either pays for or provides the medical evaluations required under 49 CFR 391.43 to their employees who hold a CDL or pays for their employee's TSA HME Security Threat Assessment. The actual cost is difficult to quantify as the amount is dependent upon cost for the medical evaluation and the number of agency employees subject to these requirements. The fee for the TSA HME Security Threat Assessment is set at $85.25, which was recently decreased from $86.50. These costs are not new requirements, and the agencies may already have a budget in place for them.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking:

There are no new fees or costs for businesses associated with this rulemaking. CDL applicants, permittees, licensees, and any applicable employers are currently paying the costs for the required medical evaluations and for the TSA HME Security Threat Assessment. Starting January 1, 2025, the TSA HME Security Threat Assessment fee decreased to $85.25. Costs could potentially decrease with the removal of the need to present to ADOT the paper medical examiner's certificate and the potential burden and confusion when an incomplete paper medical examiner's certificate is presented to ADOT.

The biggest benefit for the businesses is the switching from having to provide ADOT with a paper medical examiner's certificate to the electronic process through FMCSA. In some instances, CDL applicants may still need to submit a paper version when applying for the Arizona CDL Intrastate Medical Waiver. Additionally, the benefits of this rulemaking include increased public safety; clarity; conciseness; reduction of possible confusion for an agency, business, or person; and a reduction of a regulatory burden from some of the streamlining and technical changes.

4. General description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking:

ADOT anticipates a minimal impact on private and public employment as a result of this rulemaking. Employers may benefit from being able to hire from a slightly larger pool of eligible CDL holders. CDL applicants and holders may benefit from a streamlined and clearer understanding of their requirements.

5. **Statement of the probable impact of the proposed rulemaking on small businesses:**

   a. **Identification of the small businesses subject to the proposed rulemaking:**

   The small businesses subject to these rules, as defined under A.R.S. § 41-1001, are independent motor carriers, CDL applicants and holders already subject to FMCSRs and HMRs, and the medical examiners listed on the National Registry of Certified Medical Examiners.

   b. **Administrative and other costs required for compliance with the proposed rulemaking:**

   General administrative costs for small businesses are the same as discussed under paragraph (B)(3)(c) above. Overall, ADOT anticipates no new economic impact on qualified persons and business entities because of this rulemaking. These costs are not new requirements, and the agencies may already have a budget in place for them.

   c. **Description of the methods that ADOT may use to reduce the impact on small businesses:**

   The costs associated with this rulemaking are uniform regardless of business size. ADOT expanded the availability of offices that may perform CDL transactions which may allow small businesses to spend less if they assist their drivers in obtaining and maintaining their CDLs since the CDL holders may have fewer expenses involved with the expanded capability of going to an office much closer to their location.

   d. **Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking:**

   As of September 2024, there are 115,130 CDL holders, 3,454 CLP holders, 1,395 CDL holders with a HME, and 16,278 CDL holders with dual endorsement of tank and hazardous materials. Also, there are 20,523 valid CDL and CLP holders who have successfully completed the required TSA HME Security Threat Assessment. There are two applicants who did not successfully complete the required TSA HME Security Threat Assessment.

   Costs for private persons and consumers are the same as discussed under paragraph (B)(3)(c) above. Overall, ADOT anticipates no new economic impact on qualified people because of this rulemaking. The costs for the medical evaluations and TSA HME Security Threat Assessments are not new requirements and there was a decrease in the TSA HME Security Threat Assessment fee. Plus, it is possible that the electronic medical examiner's certificate verification system will decrease costs slightly for the people.

   The rules support the public interest and the interests of concerned parties by ensuring that all FMCSRs and HMRs and requirements of motor carriers are uniformly applied and enforced. The public benefits when all motor carriers remain in compliance with these rules include increased public safety, clarity, concise, and reduction of possible confusion for a business or person. ADOT expanded the availability of offices that may perform CDL transactions which may allow CDL holders to have fewer expenses involved with the expanded capability of going to an office much closer to their location.

6. **Statement of the probable effect on state revenues:**

   Since this rulemaking is in association with the required incorporation by reference update of the *Code of Federal Regulations* in 17 A.A.C. 5, Article 2, DPS will be eligible to apply for an estimated $16 million - $17 million in MCSAP funding that may be used for commercial motor vehicle safety programs such as:

   - Motor carrier safety programs in accordance with 49 CFR 350.203;
   - Size and weight enforcement programs in accordance with 49 CFR 350.227(b)(1);
   - Criminal activity enforcement programs in accordance with 49 CFR 350.227(b)(2); and
   - Traffic safety programs in accordance with 49 CFR 350.227(c).

   This rulemaking ensures that an amount of up to 5 percent of the state's federal-aid highway funds apportioned under each of sections 104(b)(1), (b)(3), and (b)(4) of 23 U.S.C. will not be withheld for noncompliance.

7. **Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using non-selected alternatives:**

   In rulemaking, ADOT routinely adopts the least costly and least burdensome options for any process or procedure required of the regulated public or industry. However, each state is required under 49 CFR 384.301 to adopt and carry out a program for testing and ensuring the fitness of individuals to operate commercial motor vehicles consistent with the minimum standards prescribed by the Secretary of Transportation under 49 U.S.C. 31305(a) as soon as practical, or an amount of up to 5 percent of the state's federal-aid highway funds apportioned under each of sections 104(b)(1), (b)(3), and (b)(4) of 23 U.S.C. may be withheld from the state for noncompliance. Based on amounts traditionally received by ADOT, this amount could reach approximately $30 million depending on the actual appropriation. Therefore, to the extent permitted by federal law, ADOT has determined that these rules impose the least burden and costs to regulated persons.

C. Explanation of limitations of the data and the methods that were employed in the attempt to obtain the data and a characterization of the probable impacts in qualitative terms. The absence of adequate data, if explained in accordance with this subsection, shall not be grounds for a legal challenge to the sufficiency of the economic, small business and consumer impact statement:

TITLE 17. TRANSPORTATION

CHAPTER 4. DEPARTMENT OF TRANSPORTATION - TITLE, REGISTRATION, AND DRIVER LICENSES

The table of contents on page one contains links to the referenced page numbers in this Chapter.
Refer to the notes at the end of a Section to learn about the history of a rule as it was published in the *Arizona Administrative Register*.

This Chapter contains rules that were filed to be codified in the *Arizona Administrative Code* between the dates of
July 1, 2022 through September 30, 2022

Questions about these rules? Contact:

Department:	Department of Transportation Rules and Policy Development
Address:	206 S. 17th Ave., Mail Drop 180A Phoenix, AZ 85007
Website:	https://azdot.gov/about/government-relations
Name:	Candace Olson, Rules Analyst
Telephone:	(480) 267-6610
Email:	COlson2@azdot.gov

The release of this Chapter in Supp. 22-3 replaces Supp. 21-4, 1-39 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

TITLE 17. TRANSPORTATION

CHAPTER 4. DEPARTMENT OF TRANSPORTATION - TITLE, REGISTRATION, AND DRIVER LICENSES

Authority: A.R.S. §§ 28-366 and 28-5204

Supp. 22-3

CHAPTER TABLE OF CONTENTS

ARTICLE 1. GENERAL PROVISIONS

Article 1, consisting of Section R17-4-101, made by final rulemaking at 25 A.A.R. 1885, effective July 2, 2019 (Supp. 19-3).

ARTICLE 2. VEHICLE TITLE

ARTICLE 3. VEHICLE REGISTRATION

Article 3, consisting of Sections R17-4-301 through R17-4-349, transferred to Title 17, Chapter 1, Article 3, Sections R17-1-301 through R17-1-349 (Supp. 92-4).

ARTICLE 4. DRIVER LICENSES

ARTICLE 5. SAFETY

ARTICLE 6. EXPIRED

Editor's Note: Sections R17-4-606, R17-4-607 and its Appendix A and Appendices A and B were repealed under a Notice of Proposed Summary Rulemaking in Supp. 96-1. R17-4-612 was amended under the same Notice of Proposed Summary Rulemaking at 2 A.A.R. 1486. The Office did not receive a Notice of Final Summary Rulemaking on these Sections (Editor's Note added Supp. 10-2).

ARTICLE 7. HAZARDOUS MATERIALS ENDORSEMENT

ARTICLE 8. MOTOR VEHICLE RECORDS

ARTICLE 9. RESERVED

ARTICLE 1. GENERAL PROVISIONS

R17-4-101. Definitions

In addition to the definitions prescribed under A.R.S. § 28-101, A.R.S. § 28-3001, and 6 CFR 37.3, the following terms apply to this Chapter, unless otherwise specified:

"Non-operating identification license" means a credential issued by the Department for identification purposes only, as prescribed under A.R.S. § 28-3165, which does not grant authority to operate a motor vehicle and is not intended to be accepted by federal agencies for an official purpose defined under 6 CFR 37.3.

"Travel-compliant driver license" has the same meaning as the term REAL ID Driver's License defined under 6 CFR 37.3, which is a driver license issued by the Department as prescribed under A.R.S. § 28-3175 in compliance with A.R.S. Title 28, Chapter 8, and the federal standards provided under 6 CFR 37 for state issuance of secure credentials intended to be accepted by federal agencies for official purposes.

"Travel-compliant identification license" has the same meaning as the term REAL ID Identification Card as defined under 6 CFR 37.3, which is a non-operating identification license issued by the Department as prescribed under A.R.S. § 28-3175 in compliance with A.R.S. Title 28, Chapter 8, and the federal standards provided under 6 CFR 37 for state issuance of secure credentials acceptable by federal agencies for official purposes.

Historical Note

New Section made by final rulemaking at 25 A.A.R. 1885, with an immediate effective date of July 2, 2019 (Supp. 19-3).

ARTICLE 2. VEHICLE TITLE

R17-4-201. Definitions

In addition to the definitions prescribed under A.R.S. §§ 28-101, 28-2001, and 28-3001, the following definitions apply to this Article, unless otherwise specified:

"Authorized ELT Participant" means a lending institution or finance company authorized by the Division to electronically release a lien or encumbrance.

"Date of lien" means the date identified by the lienholder as the date the loan was issued to the borrower.

"Division" means the Arizona Department of Transportation's Motor Vehicle Division.

"Encumbrance" means a lien recorded, by the Division, on a vehicle or mobile home record and the Arizona Certificate of Title.

"ELT" means Electronic Lien and Title.

"EPA standards" means the emission standards of the Environmental Protection Agency, as prescribed under 40 CFR 86.

"FMVSS" means the Federal Motor Vehicle Safety Standards as prescribed under 49 CFR 571.

"Joint tenancy with right of survivorship" means vehicle ownership by two or more persons and the deceased joint owner's interest in the vehicle is transferred to the surviving owners.

"Lienholder" means a person or entity retaining legal possession of a vehicle or mobile home until the debtor has satisfactorily repaid the loan for which the vehicle or mobile home is designated as collateral.

"Lienholder Number" means the computer-generated record number assigned by the Division to a lienholder.

"Low-speed vehicle" has the same meaning as prescribed under 49 CFR 571.3.

"MPV" means multipurpose passenger vehicle, which has the same meaning as prescribed under 49 CFR 571.3.

"MVD" means the Arizona Department of Transportation's Motor Vehicle Division.

"NHTSA" means National Highway Traffic Safety Administration of the United States Department of Transportation.

"Operation of law lien" means a lien resulting from the application of a state or federal statute.

"Primary lien" means the first of any multiple liens recorded on a vehicle or mobile home record.

"Registered importer" means a person registered by the NHTSA Administrator to import vehicles, as prescribed under 49 CFR 30141.

"Tenancy in common" means vehicle ownership by two or more people without the right of survivorship.

"Valid titling document" means one of the following documents showing a vehicle's compliance with FMVSS and EPA standards:

A NHTSA Declaration,

A manufacturer's letter, or

A U.S. federal compliance label printed in English.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 1353, effective June 6, 2003 (Supp. 03-2). Amended by final rulemaking at 13 A.A.R. 3281, effective November 10, 2007 (Supp. 07-3).

R17-4-202. Certificate of Title Form

A. The Motor Vehicle Division (MVD) shall produce the Certificate of Title form on tamper-resistant and counterfeit-resistant paper.

B. MVD shall provide space on the Certificate of Title form for the following information:

1. Title information:
   a. Title number;
   b. Issue date;
   c. Previous title number; and
   d. State and date of previous title.
2. Vehicle information:
   a. Vehicle identification number (VIN);
   b. Vehicle make, model, year, and body style;
   c. Fuel type;
   d. Odometer information; and
   e. Vehicle mechanical or structural condition.
3. Lienholder information:
   a. Lienholder name and address;
   b. Lienholder customer or federal identification number; and
   c. Lien amount and lien date.
4. Vehicle owner's or owner's legal designee information:
   a. Name; and
   b. Mailing address.
5. Ownership change information:
   a. Sale date;

b. Purchaser's name and address;
c. Odometer mileage disclosure statement;
d. Seller's signature; and
e. Seller's signature certification.
6. Dealer reassignment information.
7. Other information as required by the Division for internal processing and recordkeeping.

Historical Note
New Section recodified from R17-4-204 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-203. Certificate of Title and Registration Application

A. In addition to the requirements of A.R.S. §§ 28-2051 and 28-2157, a person applying for an Arizona motor vehicle title certificate and registration shall complete a form supplied by the Motor Vehicle Division that contains the following information:
1. Vehicle information:
a. Tab number;
b. Initial registration month and year;
c. Vehicle make, model, year, and body style;
d. Mechanical or structural status indicating whether the vehicle is:
i. Dismantled,
ii. Reconstructed,
iii. Salvaged, or
iv. Specially constructed;
e. Gross vehicle weight;
f. Fuel type;
g. Odometer information;
h. Current title number and titling state.
2. An owner's or lessee's legal ownership status.
3. Lienholder information:
a. Lienholder names and addresses, and
b. Lien amount and date incurred.
4. If a mobile home, the physical site.
5. Co-ownership information:
a. A statement of whether any survivorship rights in the vehicle exist; and
b. A statement providing co-ownership legal status prescribed in R17-4-205(B).
6. Owner certification information verifying:
a. Ownership,
b. Inclusion of all liens and encumbrances, and
c. Seller-verified odometer reading.
7. Applicant signatures.
8. An acknowledgement that:
a. The applicant agrees or disagrees to the Division's release of the applicant's name on a commercial mailing list; and
b. The applicant has read a printed explanation of odometer reading codes.
9. Other information required by the Division for internal processing and recordkeeping.

B. An applicant may voluntarily provide the following information on the form:
1. Applicant's birth date;
2. Applicant's driver license number; and
3. Applicant's federal employer identification number, if the applicant is taking title as a sole proprietor, partnership, corporation, or other legal business entity.

Historical Note
New Section recodified from R17-4-205 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-204. Seller's Signature Acknowledgement

A seller shall ensure that a Notary Public or a Motor Vehicle Division (MVD) agent witnesses the seller sign the title transfer. The Notary Public or MVD agent shall sign the title transfer acknowledging witnessing the seller's signature. "Motor Vehicle Division agent" has the meaning prescribed in A.R.S. § 28-370.

Historical Note
Adopted effective November 10, 1986 (Supp. 86-6). Former Section R17-4-75 renumbered without change as Section R17-4-204 (Supp. 87-2). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2468, effective June 8, 2000 (Supp. 00-2). Section recodified to R17-4-202 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-206 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-205. Co-ownership and Vehicle Title

A. A title certificate application shall specify the form of co-ownership and names of a vehicle's co-owners as follows.
1. If co-ownership is a joint tenancy with right of survivorship in which all owners must sign to transfer or encumber the vehicle, the applicant shall provide the name of each owner separated by "and/or."
2. If co-ownership is a joint tenancy that allows one owner to transfer or encumber the vehicle title, the applicant shall provide:
a. The name of each co-owner separated by "or"; and
b. A form, signed by each co-owner authorizing title transfer or encumbrance on the signature of any co-owner.
3. If co-ownership is a tenancy in common, the applicant shall provide the name of each owner separated by "and."

B. Before a surviving joint tenant under subsection (A)(1) obtains a title certificate as owner or transfers or encumbers the vehicle title, the surviving joint tenant shall present to the Division a death certificate for each deceased joint tenant.

C. After the death of a tenant in common, the Division shall issue a new title certificate only as directed by:
1. A certified probate court order, or
2. A successor's affidavit under A.R.S. § 14-3971(B).

Historical Note
Adopted effective November 13, 1986 (Supp. 86-6). Former Section R17-4-75 renumbered without change as Section R17-4-205 (Supp. 87-2). Amended by final rulemaking at 7 A.A.R. 2752, effective June 8, 2001 (Supp. 01-2). Section recodified to R17-4-203 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-207 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 9 A.A.R. 1353, effective June 6, 2003 (Supp. 03-2).

R17-4-206. Additional Titling Standards for Vehicles Not Manufactured in Compliance with United States Safety and Emission Standards; "Gray-market Vehicles"

A. Titling standards.
1. The Division shall issue a title to a foreign-manufactured vehicle imported to the United States if an applicant presents the following:
a. A valid titling document,

b. A completed MVD title and registration application as prescribed under R17-4-203,
c. A completed Vehicle Verification Form certifying that the vehicle passed the Division's physical inspection,
d. A document stating that the vehicle passed an Arizona emissions inspection under A.R.S. § 49-542, and
e. A certificate that the vehicle was converted to meet:
i. EPA standards, and
ii. FMVSS.

2. A foreign-manufactured vehicle imported to the United States is exempt from this subsection if it is older than 25 years from its manufacture date.
3. A foreign-manufactured vehicle imported to the United States that is between 21 and 25 years from the manufacture date is exempt from subsection (A)(1)(e)(i).
4. Titling standards for vehicles manufactured according to Canadian specifications.
a. The Division shall issue a title to a vehicle manufactured according to Canadian specifications if it:
i. Is not for resale;
ii. Has a GVWR of less than 10,000 pounds; and
iii. Is a passenger vehicle, motorcycle, or MPV.
b. Before titling a vehicle manufactured according to Canadian specifications, the owner shall submit to the Division manufacturer documentation verifying that the vehicle complies with FMVSS and EPA standards.
i. The Division shall waive the FMVSS and EPA labeling location requirements as prescribed in 49 CFR 571 and 40 CFR 86.
ii. If manufacturer documentation indicates that a vehicle's speedometer or headlights do not comply with FMVSS and EPA standards, the owner shall file additional documentation with the Division to verify completion of a modification that brings the vehicle into compliance.
c. A registered importer shall certify a vehicle manufactured according to Canadian specifications if:
i. The vehicle meets FMVSS standards except for occupant crash protection provisions prescribed under 49 CFR 571.208, or
ii. The owner did not submit manufacturer documentation as prescribed under subsection (A)(4)(b).

B. The Division shall require a registered importer's certification of a foreign-manufactured vehicle imported to the United States that:
1. Is not exempt under subsections (A)(2) or (A)(3), or
2. Does not qualify under subsection (A)(4).

Historical Note

Former Rule, General Order 55. Former Section R17-4-19 renumbered without change as Section R17-4-206 (Supp. 87-2). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2468, effective June 8, 2000 (Supp. 00-2). Section recodified to R17-4-204 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-209 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 9 A.A.R. 1353, effective June 6, 2003 (Supp. 03-2).

R17-4-207. Lien Filing

A. Lien filing. When filing a lien with the Division, a person shall submit a Title and Registration Application (available online at www.azdot.gov/mvd/FormsandPub/mvd.asp), the most recently issued certificate of title, the fee or fees to be paid as provided by law, and any other documentation required pursuant to A.R.S. Title 28.
1. The Division shall record a statement of all liens and encumbrances on the vehicle or mobile home record upon receiving a lien filing that meets all requirements prescribed in this subsection.
2. The Division shall immediately return a lien filing, with a letter stating why the lien filing was returned, when the lien filing does not meet the requirements prescribed in this subsection.

B. Multiple liens. The Division will record up to three liens on any one vehicle or mobile home record. Additional liens are recorded through the County Recorder's office. Liens are valued in the order that they are filed and recorded on the vehicle or mobile home record. However, the Division considers the primary lien recorded on the vehicle or mobile home record to be above all other subsequent liens or encumbrances. In the absence of an operation of law lien, only the lienholder in the primary position may repossess a vehicle or mobile home.

C. Lien filing notice. The Division shall notify the lienholder of the recording of a lien.
1. The Division shall issue an Arizona Certificate of Title or, when the lienholder is an Authorized ELT Participant, transmit an electronic lien notification to the primary lienholder.
2. The Division shall issue a computer-generated Lienholder Record to each subsequent lienholder recorded on the vehicle or mobile home record. The Division shall not issue a duplicate Lienholder Record.

Historical Note

Former Rule, General Order 62. Former Section R17-4-24 renumbered without change as Section R17-4-207 (Supp. 87-2). Section repealed; new Section made by final rulemaking at 7 A.A.R. 2752, effective June 8, 2001 (Supp. 01-2). Section recodified to R17-4-205 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section recodified from R17-4-230 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed; new Section made by final rulemaking at 13 A.A.R. 3281, effective November 10, 2007 (Supp. 07-3).

R17-4-208. Lien Clearance

A. Lien clearance. The Division shall remove the lien from the vehicle or mobile home record indicated on the lien clearance and issue a new Arizona Certificate of Title upon receiving proof that the lien is satisfied and an application furnished by the Division, the most recently issued certificate of title, the fee or fees to be paid as provided by law, and any other documentation required pursuant to A.R.S. Title 28. The Division considers the following instruments satisfactory proof that the lien or encumbrance recorded on a vehicle or mobile home record is satisfied:
1. The transmission of an electronic lien release from an ELT Participant,
2. A certificate of title acknowledged by the lienholder as prescribed under subsection (B)(1),
3. An original lien filing receipt acknowledged by the lienholder as prescribed under subsection (B)(1),

4. An original computer-generated Lienholder Record acknowledged by the lienholder as prescribed under subsection (B)(1),
5. A lender copy of the original lien instrument indicating the lien is paid in full acknowledged by the lienholder as prescribed under subsection (B)(1); or
6. Any document giving a complete description of the vehicle, as recorded on the Arizona Certificate of Title, indicating that the lien is either "paid in full" or "satisfied" acknowledged by the lienholder as prescribed under subsection (B)(1).

B. Lienholder satisfaction of lien requirements.

1. The Division shall not accept a satisfaction of lien when the authorized signature of the lienholder or authorized agent of the lienholder, appearing on the lien clearance instrument, is not acknowledged before a Notary Public or witnessed by an authorized Division employee.
2. The lienholder shall deliver the Arizona Certificate of Title to the next lienholder or, if there is not another lienholder, to the owner of the vehicle or mobile home within 15 business days after receiving payment in full satisfaction of the lien.
3. A lienholder that fails to deliver the certificate of title within 15 business days may be assessed a civil penalty, as prescribed under A.R.S. § 28-2134.

C. Lien release received in error. The Division will not reimburse any parties for any monetary damages that may occur when a lienholder issues a lien clearance to the Division in error.

D. Administrative hearing. A lienholder who is assessed a civil penalty, as prescribed under A.R.S. § 28-2134, may request a hearing in accordance with the procedures prescribed under 17 A.A.C. 1, Article 5.

Historical Note

Former Rule, General Order 83. Former Section R17-4-35 renumbered without change as Section R17-4-208 (Supp. 87-2). Section repealed by final rulemaking at 6 A.A.R. 2468, effective June 8, 2000 (Supp. 00-2). Section recodified from R17-4-231 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed; new Section made by final rulemaking at 13 A.A.R. 3281, effective November 10, 2007 (Supp. 07-3).

R17-4-209. Recodified

Historical Note

Adopted as Section R17-4-81 and renumbered as Section R17-4-209 effective May 29, 1987 (Supp. 87-2). Amended by final rulemaking at 7 A.A.R. 2755, effective June 8, 2001 (Supp. 01-2). Section recodified to R17-4-206 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-210. Repealed

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3). Section R17-4-210 repealed by summary action with an interim effective date of August 28, 1998; filed in the Office of the Secretary of State August 4, 1998 (Supp. 98-3). The Department failed to submit to the Governor's Regulatory Review Council an adopted summary rule pursuant to A.R.S. § 41-1027, and therefore the rule went back into effect November 26, 1998; Section repealed by summary rulemaking with an interim effective date of August 20, 1999, filed in the Office of the Secretary of State July 30, 1999 (Supp. 99-3). Interim effective date of August 20, 1999 now the permanent effective date (Supp. 99-4).

Appendix A. Repealed

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3). Appendix A repealed by summary action with an interim effective date of August 28, 1998; filed in the Office of the Secretary of State August 4, 1998 (Supp. 98-3). The Department failed to submit to the Governor's Regulatory Review Council an adopted summary rule pursuant to A.R.S. § 41-1027, and therefore Appendix A went back into effect November 26, 1998; Appendix A repealed by summary rulemaking with an interim effective date of August 20, 1999; filed in the Office of the Secretary of State July 30, 1999 (Supp. 99-3). Interim effective date of August 20, 1999 now the permanent effective date (Supp. 99-4).

R17-4-265. Repealed

Historical Note
Adopted as an emergency effective June 29, 1984, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 84-3). Emergency expired. Permanent rule adopted effective October 1, 1984 (Supp. 84-5). Former Section R17-4-72 renumbered without change as Section R17-4-265 (Supp. 87-2). Section repealed by final rulemaking at 7 A.A.R. 2154, effective May 1, 2001 (Supp. 01-2).

ARTICLE 3. VEHICLE REGISTRATION

R17-4-301. Definitions

Definitions. In addition to the definitions prescribed under A.R.S. §§ 28-101, 28-2231, and 28-5100, the following definitions apply to this Article, unless otherwise specified:

"Apportioned commercial vehicle" means a commercial vehicle that is subject to the proportional registration provisions prescribed under A.R.S. § 28-2233.

"Biennial" means once every two years.

"Business day" means a day other than a Sunday or holiday.

"Calendar quarter" means the following time periods established by the Division: January 1 to March 31, April 1 to June 30, July 1 to September 30, and October 1 to December 31.

"Day" means the 24-hour period from one midnight to the following midnight.

"Disabled person" means a recipient of public monies as a disabled individual under Title 16 of the Social Security Act.

"Division" means the Arizona Department of Transportation's Motor Vehicle Division.

"Division Director" means the Assistant Director for the Arizona Department of Transportation's Motor Vehicle Division or the Assistant Director's designee.

"Drop box" means a receptacle designated by the Division into which a person places vehicle registration forms and fees, and from which the Division retrieves these items daily.

"Effective date of registration" means the date the vehicle first becomes subject to registration fees in Arizona.

"Electronic delivery" means the transmission of registration and credit card information to the Division, by computer, through an authorized third party electronic service provider.

"Emergency Vehicle Permit" means a document issued by the Division's Enforcement Services Program to a private fire department for a single fire engine that authorizes the driver of a permitted vehicle to exercise the privileges prescribed under A.R.S. § 28-624.

"Expiration date" means the day, month, and year in which a vehicle registration expires.

"Fire Engine" means a motor vehicle containing fire-fighting equipment capable of extinguishing fires.

"IM147 Test" means the emissions test prescribed under A.R.S. § 49-542(F)(2)(a).

"Included vehicle" means a vehicle subject to annual or biennial Arizona registration unless otherwise excluded from the staggered registration prescribed under A.R.S. § 28-2159 and R17-4-304.

"Initial registration" means the first registration of an included vehicle in Arizona.

"OBD" means the On-Board Diagnostics emissions test prescribed under A.R.S. § 49-542(F)(2)(a).

"Off-highway vehicle" has the same meaning as prescribed under A.R.S. § 28-1171.

"Operator Requirements" means the requirements given in Chapter 2, Basic Driver/Operator Requirements, of the National Fire Protection Association Standard for Fire Apparatus Driver/Operator Professional Qualification (NFPA 1002), 1998 edition, which is incorporated by reference and on file with the Arizona Department of Transportation and the Office of the Secretary of State. This incorporation by reference contains no future editions or amendments.

"Private fire department" means a fire fighting business equipped to provide emergency fire-fighting devices for a private purpose that is neither a public service corporation nor a municipal entity.

"Private Fire Emergency Vehicle" means a fire engine operated by a private fire department for which an Emergency Vehicle Permit is issued.

"Registration" means the authorization, issued by the Division that allows a vehicle to use state highways.

"Registration fees" means the fees due to the Division at the time of registration and consisting of the general registration fees imposed under A.R.S. § 28-2003, the vehicle license tax imposed under A.R.S. § 28-5801, and the commercial registration and gross weight fees imposed under A.R.S. § 28-5433.

"Registration period" means the time-frame during which a vehicle registration is valid.

"Renewal registration" means the second and subsequent registration of an included vehicle.

Historical Note

Transferred to R17-1-301 (Supp. 92-4). New Section made by final rulemaking at 13 A.A.R. 3589, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 16 A.A.R. 1132, effective August 7, 2010 (Supp. 10-2).

R17-4-302. Staggered Registration for Apportioned Commercial Vehicles

Apportioned commercial vehicle fleet registration periods. The Division shall assign a registration period to a newly registered apportioned commercial vehicle fleet. The fleet owner and the Director shall mutually agree to the registration period and expiration date.

1. The Division shall:
   a. Establish a registration period that expires on the last day of the calendar quarter selected by the fleet owner, not to exceed 12 months from the initial registration date.
   b. Apply the original fleet registration fees towards the registration fees required for a replaced vehicle when an owner replaces a vehicle within a fleet.
   c. Apply the original fleet registration fees towards the registration fees required for a transferred vehicle when an owner transfers a vehicle between fleets.
   d. Refund any excess credit of registration fees in accordance with the provisions prescribed under A.R.S. § 28-2356.
2. The owner of an apportioned commercial fleet vehicle shall:
   a. Ensure that all vehicles within a fleet have the same registration period.
   b. Ensure that the fleet vehicle is not operated with an expired vehicle registration.
   c. Maintain the assigned or selected registration period for at least three consecutive registration periods.
3. The Division shall not provide a grace period for late registration or late payment of fees.

Historical Note

Adopted effective August 1, 1988 (Supp. 88-3). Transferred to R17-1-302 (Supp. 92-4). New Section recodified from R17-4-216 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 13 A.A.R. 3589, effective December 1, 2007 (Supp. 07-4).

R17-4-303. Biennial Registration

A. Biennial registration.
1. The Division may register any vehicle biennially, unless excluded.
2. The Division shall register a newly licensed or newly leased vehicle biennially, unless the owner chooses to register the vehicle on an annual basis.

B. Excluded vehicles. The owner of a vehicle that meets any one of the following criteria is excluded from the biennial registration program:
1. A vehicle required to have an IM147 or OBD test within 12 months after the date of registration.
2. A vehicle that requires an annual emissions test.
3. A vehicle subject to any one of the following types of registration:
   a. Allocated registration under A.R.S. § 28-2261,
   b. Apportioned registration under A.R.S. § 28-2261,
   c. Fleet registration under A.R.S. § 28-2202, or
   d. Interstate registration under A.R.S. § 28-2052.
4. A vehicle with an undersized mobile home plate registration.
5. A vehicle that requires the owner to certify eligibility for a registration fee exemption on an annual basis; such as the registration exemption available to an active duty mil-

itary member, a widow, widower, or disabled person other than a 100% disabled veteran.

Historical Note

Transferred to R17-1-303 (Supp. 92-4). New Section recodified from R17-4-217 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 13 A.A.R. 3589, effective December 1, 2007 (Supp. 07-4).

R17-4-304. Staggered Registration for Included Vehicles

A. Included vehicles. The Division shall assign one of the following staggered expiration dates when issuing an initial registration to an included vehicle:
1. If a vehicle has an effective date of registration from the first day through the 15th day of the month:
   a. Annual registration expires on the 15th day of the month 12 months from the month the vehicle is subject to Arizona registration; or
   b. Biennial registration expires on the 15th day of the month 24 months from the month the vehicle is subject to Arizona registration.
2. If a vehicle has an effective date of registration from the 16th day through the last day of the month:
   a. Annual registration expires on the last day of the month 12 months from the month the vehicle is subject to Arizona registration; or
   b. Biennial registration expires on the last day of the month 24 months from the month the vehicle is subject to Arizona registration.

B. Excluded vehicles. The staggered registration prescribed by this Section excludes the following vehicles:
1. A vehicle exempt from registration;
2. A vehicle subject to any one of the following types of registration:
   a. Allocated registration under A.R.S. § 28-2261,
   b. Apportioned registration under A.R.S. § 28-2261,
   c. Fleet registration under A.R.S. § 28-2202,
   d. Interstate registration under A.R.S. § 28-2052, or
   e. Seasonal agricultural registration under A.R.S. § 28-5436;
3. A vehicle subject to a one-time registration fee;
4. A government vehicle, a vehicle owned by an official representative of a foreign government, or an emergency vehicle owned by a nonprofit organization as provided under A.R.S. § 28-2511(A);
5. A noncommercial trailer that is not a travel trailer as defined by A.R.S. § 28-2003(B) and is less than 6000 pounds gross vehicle weight under A.R.S. §§ 28-2003(A)(7) and 28-5801(C);
6. A moped;
7. A motorized electric or gas powered bicycle or tricycle capable of reaching speeds of 20 to 25 miles per hour.

C. Proration of fees. The Division shall prorate registration fees under A.R.S. §§ 28-2159, 28-5807, and 28-5434.

D. Expiration dates. The Division shall utilize the following expiration dates, regardless of the effective date of the initial registration:
1. Annual registration: Expires 12 months from the expiration of the previous registration period; or
2. Biennial registration: Expires 24 months from the expiration of the previous registration period.

E. Application for registration. A person applying for an initial registration or renewal registration for an included vehicle shall submit the requirements prescribed under subsection (1) or (2):
1. If a person submits the registration to the Division or an Authorized Third-party Provider of registration functions in person or by mail:
   a. The application for registration or registration card, and
   b. Payment of registration fees.
2. If a person submits the registration to an Authorized Third-party Electronic Delivery Provider:
   a. Required registration information, and
   b. Credit card information.

F. Timely submission of registration. A person shall submit the renewal registration of an included vehicle not later than the day the prior registration period expires. If the prior registration period expires on a day other than an established business day, a person shall submit the renewal registration of an included vehicle not later than the first business day after the prior registration period expires.

G. Penalties. The penalties imposed under A.R.S. § 28-2162 for delinquent renewal registration of an included vehicle shall apply when either of the following occurs:
1. A person does not submit to the Division or an Authorized Third-party Provider of registration functions the items set forth in subsection (E)(1) so that the items are received by the due date; or
2. A person does not electronically submit to an Authorized Third-party Electronic Delivery Provider the items required under subsection (E)(2) so that the items are received by the due date.

H. Date of receipt. The date of receipt for the items required under subsection (E)(1) or (E)(2) shall be the following:
1. The date a person presents the items required under subsection (E)(1) to a Division facility or the facility of an Authorized Third-party Provider of registration functions in person;
2. The date an Authorized Third-party Electronic Delivery Provider receives by computer or telephone the items set forth in subsection (E)(2);
3. The date a private express mail carrier receives the package containing the items set forth in subsection (E)(1), as indicated on the shipping package;
4. The date of the last business day prior to the day the Division retrieves the items set forth at subsection (E)(1) from a designated Division drop box; or
5. The date of the United States Postal Service postmark stamped on the envelope containing the items set forth in subsection (E)(1), unless the vehicle is not in compliance with the motor vehicle emissions testing requirements.

I. Evidence of registration. The Division or Authorized Third-party Provider of registration functions shall assign and issue a number plate or plates to an included vehicle as evidence of registration.
1. The assigned number plate shall be attached and displayed on the rear of the assigned vehicle. When two plates are issued, the second plate may be attached to the front of the assigned vehicle.
2. Improper number plate display shall subject the owner and operator of the vehicle to the sanctions imposed under A.R.S. §§ 28-2531(B) and 28-2532.
3. Any registration tabs or stickers issued by the Division or Authorized Third-party Provider of registration functions shall be displayed on the appropriate number plate of the assigned vehicle.

Historical Note
Transferred to R17-1-304 (Supp. 92-4). New Section recodified from R17-4-218 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 13 A.A.R. 3589, effective December 1, 2007 (Supp. 07-4).

R17-4-305. Temporary Registration Plate "TRP" Procedure

A. Definitions.
1. "Charitable Event TRP" means a TRP issued to a motor vehicle dealership or manufacturer for a charitable event as prescribed by A.R.S. § 28-4548.
2. "Deal Unwound" means the vehicle was returned to the dealership and the sale was not completed.
3. "Voided TRP" means a TRP that the issuer records as voided after issuing the TRP.

B. Issuing.
1. New and used motor vehicle dealers and title service companies that issue TRPs shall send an electronic record of the TRP to the Division before placing the TRP on the vehicle.
2. The TRP expiration date shall be 45 days from the issue date.
3. TRPs issued for charitable events are valid for the duration of the event not to exceed 45 days.
4. An issuer shall not issue more than one TRP per vehicle sale.
5. An issuer shall attach the TRP to the vehicle rear in the same manner and position as a permanent license plate prescribed under A.R.S. § 28-2354.

C. Voiding. An issuer shall void a TRP when:
1. The TRP is lost,
2. The TRP is damaged,
3. The dealer reports a deal unwound,
4. The issuer enters the wrong vehicle identification number, or
5. The issuer enters the wrong customer identification number.

Historical Note
Transferred to R17-1-305 (Supp. 92-4). New Section R17-4-305 recodified from R17-4-219 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 11 A.A.R. 5320, effective February 6, 2006 (Supp. 05-4).

R17-4-306. Nonresident Daily Commuter Fee

A nonresident daily commuter shall pay a fee of $8 for each motor vehicle exempt from registration under A.R.S. § 28-2294.

Historical Note
Former Rule, General Order 14. Former Section R17-4-05 renumbered without change as Section R17-4-306 (Supp. 87-2). Transferred to R17-1-306 (Supp. 92-4). New Section R17-4-306 recodified from R17-4-222 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 8 A.A.R. 571, effective January 14, 2002 (Supp. 02-1).

R17-4-307. Motor Vehicle Registration and License Plate Reinstatement Fee

A. Under A.R.S. § 28-4151(A), the Division shall assess a $50 fee for reinstatement of a motor vehicle registration and license plate suspended under A.R.S. §§ 28-4148 and 28-4149.

B. Subsection (A) does not apply to a motor carrier subject to the financial responsibility requirements prescribed under A.R.S. Title 28, Chapter 9, Article 2.

Historical Note
Former Rule, General Order 5. Former Section R17-4-03 renumbered without change as Section R17-4-307 (Supp. 87-2). Transferred to R17-1-307 (Supp. 92-4). New Section R17-4-307 recodified from R17-4-224 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 7 A.A.R. 5439, effective November 14, 2001 (Supp. 01-4).

R17-4-308. Official Vehicle License Plates

A. The Motor Vehicle Division shall issue license plates without charge for official vehicles owned by any entity listed in A.R.S. § 28-2511(A).

B. A license plate issued under A.R.S. § 28-2511 has no expiration date.

C. An entity listed in A.R.S. § 28-2511(A) may transfer a license plate to another vehicle the entity owns.

D. A person who has custody of vehicles governed by A.R.S. § 28-2511 shall:
1. Complete title and registration procedures as prescribed under A.R.S. Title 28, Chapter 7;
2. Display each license plate as prescribed by A.R.S. § 28-2354; and
3. Maintain a record of each license plate transfer that includes:
   a. The date of the transfer;
   b. The year, make, and model of the vehicle, and
   c. The vehicle identification number (VIN) for each car involved in the transfer.

Historical Note
Former Rule, General Order 20. Former Section R17-4-06 renumbered without change as Section R17-4-308 (Supp. 87-2). Transferred to R17-1-308 (Supp. 92-4). New Section R17-4-308 recodified from R17-4-252 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed; new Section made by final rulemaking at 8 A.A.R. 573, effective January 14, 2002 (Supp. 02-1).

R17-4-309. Private Fire Emergency Vehicle Permit

A. Private Fire Emergency Vehicle Permit. A Private Fire Emergency Vehicle Permit may be issued to a private fire department if all requirements provided under subsections (B) and (C) are met.
1. The Private Fire Emergency Vehicle Permit is valid until revoked or surrendered.
2. The Private Fire Emergency Vehicle Permit shall be carried at all times in the fire engine for which the permit is issued.
3. The Private Fire Emergency Vehicle Permit is not transferable.
4. The Private Fire Emergency Vehicle Permit shall remain the property of the Division and shall be surrendered to the Division when the fire engine is no longer being used to respond to an emergency.

B. Private Fire Emergency Vehicle Permit application. A person applying for a Private Fire Emergency Vehicle Permit shall submit the required documentation to the Division's Enforcement Services Program, P.O. Box 2100, Mail Drop 513M, Phoenix, Arizona 85007. The following documentation is required at the time of initial application:
1. Private Fire Emergency Vehicle Permit Application. Multiple fire engines may be listed on one application. The Private Fire Emergency Vehicle Permit Application is furnished by the Division and is available upon request from the Division's Enforcement Services Program; and

2. Proof of acceptable financial responsibility to cover any liability that may arise from the use of the Private Fire Emergency Vehicle Permit. Acceptable proof of financial responsibility is an insurance policy that:
   a. Is issued by an insurance company licensed to conduct business in Arizona by the Arizona Department of Insurance;
   b. Is written for a combined single-limit coverage of at least $5 million;
   c. Contains a provision stating that the state of Arizona shall be notified at least 30 days prior to any policy cancellation, nonrenewal, or change in provisions; and
   d. Contains a provision stating that the state of Arizona shall be notified immediately if the insurance company becomes insolvent.

C. Operational requirements.
1. A fire engine may be operated with the privileges prescribed under A.R.S. § 28-624, but shall be subject to all other applicable provisions prescribed under A.R.S. Title 28, A.A.C. Title 17, and any other applicable statutes or ordinances.
2. A fire engine shall only be driven by an operator who meets the Operator Requirements as defined under R17-4-301.
3. A fire engine with a Private Fire Emergency Vehicle Permit, shall meet the National Fire Protection Association's (NFPA) fire engine and fire apparatus standards in effect for the manufacture date of the emergency vehicle.
4. The private fire department is responsible for ensuring that the fire engine is not operated using the privileges prescribed under A.R.S. § 28-624 with an invalid Private Fire Emergency Vehicle Permit.

D. Denial. If an application for a Private Fire Emergency Vehicle Permit is denied, a notice of denial shall be sent to the applicant at the address of record. An applicant is allowed to reapply for a permit following denial, provided all requirements listed under this Section are met.

E. Revocation. If a Private Fire Emergency Vehicle Permit is revoked, a notice of the revocation shall be sent to the address of the applicant. An applicant is allowed to reapply for a permit following revocation, provided all requirements listed under this Section are met.
1. The emergency vehicle permit is immediately revoked upon a determination that:
   a. The permitted vehicle or the private fire department no longer meets the requirements for the permit; or
   b. The vehicle was operated in violation of the provisions of this rule, any other applicable rule, or statute.
2. The revocation shall be preceded by a notice of intent to revoke.
   a. The notice of intent to revoke shall be sent by first-class mail to the address of the applicant as shown on the permit application.
   b. The notice of intent to revoke shall inform the applicant of the right to an administrative hearing and the procedure for requesting a hearing.
3. The revocation shall become effective 25 days after the mailing date of the notice of intent to revoke unless a timely request for hearing is submitted.

F. Administrative hearing. The administrative hearing is held in accordance with the procedures prescribed under 17 A.A.C. 1, Article 5.

Historical Note

Former Rule, General Order 31. Former Section R17-4-11 renumbered without change as Section R17-4-309 (Supp. 87-2). Transferred to R17-1-309 (Supp. 92-4). New Section recodified from R17-4-701 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 14 A.A.R. 2106, effective July 5, 2008 (Supp. 08-2).

Appendix A. Repealed

Historical Note

Appendix A recodified from 17 A.A.C. 4, Article 7 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Appendix A repealed by final rulemaking at 14 A.A.R. 2106, effective July 5, 2008 (Supp. 08-2).

R17-4-310. Personalized License Plates

A. Definitions.
1. "Division" means the Motor Vehicle Division of the Arizona Department of Transportation.
2. "Division Director" means the Assistant Division Director for the Motor Vehicle Division of the Arizona Department of Transportation.
3. "Personalized plate" means a license plate with a registration number chosen by a person rather than assigned by the Division.
4. "Plate number" means the combination of letters, numbers, and spaces on a vehicle license plate.

B. A person who wants to receive a personalized plate shall file an application with the Division on a form provided by the Division.
1. An applicant shall provide the following information on the form:
   a. Name of the vehicle's owner or lessee;
   b. Vehicle owner's or lessee's mailing address;
   c. Vehicle's make and year;
   d. Vehicle identification number;
   e. Vehicle's current plate number;
   f. Date the vehicle's current registration expires;
   g. Plate number to appear on the personalized plate;
   h. Meaning or message of the personalized plate; and
   i. Other information required by the Division.
2. If an applicant is purchasing the personalized plate as a gift for the vehicle's owner or lessee, the applicant shall also provide the applicant's name and mailing address.

C. The Division shall reject the application if the requested plate number:
1. Refers to or connotes breasts, genitalia, pubic area, buttocks, or relates to sexual or eliminatory functions;
2. Refers to or connotes the substance, paraphernalia, sale, use, purveyor of, or physiological state produced by any illicit drug, narcotic, or intoxicant;
3. Expresses contempt for or ridicule or superiority of a class of persons;
4. Duplicates another registration number;
5. Has connotations that are profane or obscene; or
6. Uses linguistics, numbers, phonetics, translations from foreign languages or upside-down or reverse reading to achieve a reference or connotation prohibited in subsection (C)(1) through (C)(3) or (C)(5).

D. Rejection of application.
1. If the Division does not issue personalized plates to an applicant, the Division shall inform the applicant by mail.

2. An applicant may make a written appeal by letter for a review of the rejection, within 10 days after the date of the Division's notice, to the following address:
Motor Vehicle Division
Special Plates Unit, Mail Drop 801Z
PO Box 2100
Phoenix, Arizona 85001-2100.

E. Revocation of personalized plates; appeal.
1. If the Division determines that a personalized plate should not have been issued because it contains a plate number prohibited under subsection (C), the Division shall require the plate holder to surrender the plates to the division within 30 days after the date of the Division's mailed notice, unless the plate holder requests an appeal under subsection (D)(2).
2. A person who has been directed to surrender a personalized plate may submit a written appeal by letter as prescribed under subsection (D)(2).
3. Refund of personalized plate fees on revocation.
   a. The Division shall refund the amount of the personalized plate fee and the pro rated amount of the special annual renewal fee to the person holding the revoked personalized plate along with any credit or refund calculated by the Division.
   b. A person whose plate is revoked may request that instead of a refund, the Division issue the person a different personalized plate. The person shall apply for the personalized plate as prescribed under subsection (B).
4. The Division shall cancel the vehicle plate of a vehicle if the person who holds a revoked personalized plate does not surrender the plate within 30 days after the date of the Division's notice or, if the person timely requests an appeal, within 30 days after the Division issues a final decision.

Historical Note
Former Rule, General Order 25. Former Section R17-4-09 renumbered without change as Section R17-4-310 (Supp. 87-2). Transferred to R17-1-310 (Supp. 92-4). New Section recodified from R17-4-708 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 8 A.A.R. 4227, effective November 15, 2002 (Supp. 02-3).

R17-4-311. Special Organization Plate List
As required under A.R.S. § 28-2404(D), the Division provides the following list of special organization license plates authorized by the state license plate commission and available for issue to qualified applicants:
1. Arizona Historical Society,
2. Firefighter,
3. Fraternal Order of Police,
4. Legion of Valor,
5. University of Phoenix, and
6. Wildlife Conservation.

Historical Note
Former Rule, General Order 24. Former Section R17-4-08 renumbered without change as Section R17-4-311 (Supp. 87-2). Transferred to R17-1-311 (Supp. 92-4). New Section made by exempt rulemaking at 7 A.A.R. 5251, effective November 2, 2001 (Supp. 01-4). Amended by exempt rulemaking at 8 A.A.R. 4007, effective November 1, 2002 (Supp. 02-3). Amended by exempt rulemaking at 13 A.A.R. 1894, effective June 1, 2007 (Supp. 07-2).

R17-4-312. Off-highway Vehicle User Indicia
A. For lawful Arizona off-highway operation, the owner or operator of a qualifying all-terrain vehicle, off-highway vehicle, or off-road recreational motor vehicle shall apply to the Department for an off-highway vehicle user indicia as prescribed under A.R.S. § 28-1177. The owner or operator shall submit to the Division:
1. The off-highway vehicle user indicia application provided by the Division, and
2. The fee prescribed under subsection (C).

B. The owner or operator shall indicate, on the application submitted to the Division under subsection (A), one of the following categories of intended vehicle usage:
1. Exclusively off-highway;
2. Primarily off-highway, occasionally on-highway; or
3. Primarily on-highway, occasionally off-highway.

C. The fee for each off-highway vehicle user indicia issued or renewed by the Department under A.R.S. § 28-1177 is $25.

D. The off-highway vehicle user indicia, issued by the Division under subsection (A), shall have the same basic design as the license plate tab issued by the Division for other types of vehicles and shall contain the letters OHV.

E. The applicant shall display the off-highway vehicle user indicia in the upper left corner of the license plate issued by the Division under A.R.S. Title 28, Chapter 7, Articles 11 through 15.

Historical Note
Former Rule, General Order 39. Former Section R17-4-13 renumbered without change as Section R17-4-312 (Supp. 87-2). Transferred to R17-1-312 (Supp. 92-4). New Section made by final rulemaking at 16 A.A.R. 1132, effective August 7, 2010 (Supp. 10-2).

R17-4-313. Expired

Historical Note
Former Rule, General Order 27. Former Section R17-4-10 renumbered without change as Section R17-4-313 (Supp. 87-2). Transferred to R17-1-313 (Supp. 92-4). Amended by exempt rulemaking at 24 A.A.R. 3512, effective December 1, 2018 (Supp. 18-4). Amended by exempt rulemaking at 25 A.A.R. 104, effective December 21, 2018 (Supp. 19-2). Section repealed; new Section made by exempt rulemaking at 25 A.A.R. 2261, with an effective date of August 19, 2019 (Supp. 19-3). Section expired under A.R.S. § 41-1052(M) at 28 A.A.R. 2061 (August 19, 2022), with an immediate effective date of August 2, 2022 (Supp. 22-3).

R17-4-314. Transferred

Historical Note
Former Rule, General Order 69. Former Section R17-4-27 renumbered without change as Section R17-4-314 (Supp. 87-2). Transferred to R17-1-314 (Supp. 92-4).

R17-4-315. Transferred

Historical Note
Former Rule, General Order 61. Former Section R17-4-23 renumbered without change as Section R17-4-315 (Supp. 87-2). Transferred to R17-1-315 (Supp. 92-4).

R17-4-316. Transferred

Historical Note
Former Rule, General Order 57. Former Section R17-4-20 renumbered without change as Section R17-4-316 (Supp. 87-2). Transferred to R17-1-316 (Supp. 92-4).

R17-4-317. Transferred

Historical Note
Former Rule, General Order 36. Former Section R17-4-12 renumbered without change as Section R17-4-317 (Supp. 87-2). Transferred to R17-1-317 (Supp. 92-4).

R17-4-318. Transferred

Historical Note
Former Rule, General Order 7. Former Section R17-4-04 renumbered without change as Section R17-4-318 (Supp. 87-2). Transferred to R17-1-318 (Supp. 92-4).

R17-4-319. Transferred

Historical Note
Former Rule, General Order 44. Former Section R17-4-14 renumbered without change as Section R17-4-319 (Supp. 87-2). Transferred to R17-1-319 (Supp. 92-4).

R17-4-320. Transferred

Historical Note
Former Rule, General Order 54 (Amended). Former Section R17-4-18 renumbered without change as Section R17-4-320 (Supp. 87-2). Transferred to R17-1-320 (Supp. 92-4).

R17-4-321. Transferred

Historical Note
Former Rule, General Order 21. Former Section R17-4-07 renumbered without change as Section R17-4-321 (Supp. 87-2). Transferred to R17-1-321 (Supp. 92-4).

R17-4-322. Transferred

Historical Note
Former Rule, General Order 3. Former Section R17-4-02 renumbered without change as Section R17-4-322 (Supp. 87-2). Transferred to R17-1-322 (Supp. 92-4).

R17-4-323. Transferred

Historical Note
Former Rule, General Order 2A. Former Section R17-4-01 renumbered without change as Section R17-4-323 (Supp. 87-2). Transferred to R17-1-323 (Supp. 92-4).

R17-4-350. Rental Vehicle Surcharge Reimbursement

A. Definitions. In addition to the definitions prescribed under A.R.S. § 28-5810, the following terms apply to this Section, unless otherwise specified:

"Person" means an individual, a sole proprietorship, firm, partnership, joint venture, association, corporation, limited liability company, limited liability partnership, estate, trust, business trust, receiver or syndicate, this state, any county, city, town, district or other subdivision of this state, an Indian tribe, or any other group or combination acting as a unit.

"Previous year" means the prior calendar year, January 1 through December 31.

"Rental revenue" means the total contract amount stated in the retail contract less any taxes and fees imposed by A.R.S. Title 42, Chapter 5, Article 1, A.R.S. Title 48, Chapter 26, Article 2, and selected non-vehicle related charges, including boxes, packing blankets, straps, and tow bars.

"Surcharge" means the amount equal to five percent of the total contract amount stated in the rental contract less any taxes and fees imposed by A.R.S. Title 42, Chapter 5, Article 1, A.R.S. Title 48, Chapter 26, Article 2, and selected non-vehicle related items, including boxes, packing blankets, straps, and tow bars.

"Vehicle License Tax" means the tax imposed by A.R.S. § 28-5801, less any tax credited under A.R.S. § 28-2356.

B. Reports. Each person subject to A.R.S. § 28-5810, who has conducted a vehicle rental business for any time period during the previous year, shall file an annual report, for the previous year, with the Department. The annual report is due no later than February 15 of each year, unless the rental business is closed before December 31, in which case the annual report is due immediately. The report shall be made on a form furnished by the Department and shall contain all of the following:

1. Address where business records are secured;
2. Name, title, phone number, and signature of the person authorized to sign the form;
3. Business name;
4. Business type, including sole proprietorship, partnership, corporation, limited liability company, and limited liability partnership;
5. Name, title, phone number, mailing address, and e-mail address of the contact person;
6. Federal Employer Identification Number (FEIN);
7. Mailing address (if different from principal business address);
8. Principal business address;
9. Rental vehicle revenue collected, by county;
10. Total Arizona Vehicle License Tax paid on rental vehicles;
11. Total rental vehicle revenue collected;
12. Total surcharge collected;
13. Total surcharge due to the Department; and
14. Type of rental business, including passenger vehicle, semitrailer, trailer, truck, motorcycle, moped, and recreational vehicle.

C. Records. A person in the business of renting vehicles, as defined under A.R.S. § 28-5810, is required to maintain records in support of the required annual reports for a period of four years after the date of the filing of the required annual report or the due date of the report, whichever is longer. The records shall contain all information in support of:

1. The total amount of Vehicle License Tax paid during the previous year. Supporting Vehicle License Tax records for each rental vehicle shall include:
   a. The Vehicle Identification Number,
   b. The Arizona vehicle license plate number,
   c. A copy of the Arizona registration,
   d. The amount paid for Vehicle License Tax minus any Vehicle License Tax credited under A.R.S. § 28-2356,
   e. The date on which the Vehicle License Tax was paid, and
   f. The dates the rental vehicle was in and out of service.
2. The total gross amount of Arizona vehicle rental revenues collected for the previous year. Supporting Arizona vehicle rental revenue records shall include:
   a. The rental contract for each rental vehicle,
   b. The amount of surcharge collected,
   c. Chart of accounts,
   d. General ledger,
   e. Financial statements,
   f. Federal tax returns, and
   g. Monthly trial balance.
3. The amount of the surcharge collected during the previous year. Supporting surcharge collection records shall include:
   a. All applicable rental contracts; and
   b. The total amount stated in each rental contract, supported by relevant documentation.
4. Failure to keep and maintain proper records or failure to provide records for audit purposes may result in the Department making an assessment against the rental business for the total surcharge amount estimated to have been collected, as determined from the best information available to the Director.

D. Audits. The Department shall conduct each audit of a person who collects the surcharge in accordance with generally accepted government auditing standards as set forth in *Government Auditing Standards: 2011 Revision* (commonly referred to as the Yellow Book,) issued by the U.S. Government Accountability Office. The Department incorporates by reference *Government Auditing Standards: 2011 Revision* and no later amendments or editions. The incorporated material is on file with the Department. The printed version is available from the U.S. Government Printing Office, P. O. Box 979050, St. Louis, MO 63197-9000. The incorporated material is available free of charge at http://www.gao.gov/yellowbook or can be ordered online by visiting the U.S. Government Online Bookstore at http://bookstore.gpo.gov.

1. The rental business shall have records made available for audit during normal business hours at the rental business location in Arizona. The Department may conduct audits at an out-of-state location, which are paid for by the rental business. The rental business shall pay the audit expenses, per diem, and travel in accordance with the Arizona Department of Transportation expense guidelines in effect at the time of the audit.
2. The Director has appropriate subpoena powers to require records to be produced for examination and to take testimony. In accordance with A.R.S. § 28-5922, if a person fails to respond to the Director's or agent of the Director's request for records, the Director shall issue subpoenas for the production of records or allow seizure of records.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2058, effective August 4, 2007 (Supp. 07-2). Amended by final rulemaking at 19 A.A.R. 888, effective, June 1, 2013 (Supp. 13-2).

R17-4-351. Special License Plate; Definition

For the purposes of R17-4-352, "special license plate" or "special plate" has the meaning prescribed in A.R.S. § 28-2401.

Historical Note

New Section made by final rulemaking at 25 A.A.R. 1890, effective October 1, 2019 (Supp. 19-3).

R17-4-352. Duplicate Special License Plate; Fee

A. The Department shall charge and collect from a motor vehicle owner a one-time fee of $10 for each duplicate special license plate requested.

B. The Department shall charge and collect the current applicable U.S. Postal Service postage rate as provided in A.R.S. § 28-2151 and A.A.C. R17-1-204 to mail a duplicate special license plate to a motor vehicle owner.

Historical Note

New Section made by final rulemaking at 25 A.A.R. 1890, effective October 1, 2019 (Supp. 19-3).

ARTICLE 4. DRIVER LICENSES

R17-4-401. Definitions

In addition to the definitions provided under A.R.S. §§ 28-101, 28-1301, and 28-3001, the following definitions apply to this Article unless otherwise specified:

"Division" means the Arizona Department of Transportation, Motor Vehicle Division.

"Financial responsibility (accident) suspension" means a suspension, by the Department, of:

The Arizona driver license or driving privilege of an owner of a vehicle that:

Lacks the coverage required under A.R.S. § 28-4135, and

Is involved in an accident in Arizona; and

The Arizona registration of a vehicle, unless the Department receives proof the vehicle was sold.

"Gore area" is defined under A.R.S. § 28-644.

"Proof the vehicle was sold" means a written statement to the Department from an owner that includes the following:

The seller's name;

The VIN;

The sale date; and

The purchaser's name and address.

"Restricted permit" means written permission from the Department for:

A person subject to a financial responsibility (accident) suspension to operate a motor vehicle only:

Between the person's home and workplace,

During the person's work-related activities, or

Between the person's home and school; and

A vehicle with an Arizona registration subject to a financial responsibility (accident) suspension to be operated by a person specified under R17-4-402 only:

Between the person's home and workplace;

During the person's work-related activities; or

Between the person's home and school.

"State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

"SR22" means a certificate of insurance that complies with requirements under A.R.S. § 28-4077(A).

"Thirty-six-month period" means the time measured from the date of the most recent violation with assigned points for which a driver has a conviction or judgment to that day and month three years before the date of the violation.

"Twelve-month period" means the time measured from the date of the most recent violation with assigned points for which a driver has a conviction or judgment to that day and month one year before the date of the violation.

"Twenty-four-month period" means the time measured from the date of the most recent violation with assigned points for which a driver has a conviction or judgment to that day and month two years before the date of the violation.

"VIN" or "vehicle identification number" is defined under A.R.S. § 13-4701(4).

"Withdrawal action" means a Department action that invalidates a person's Arizona driving privilege or a vehicle's Arizona registration, which includes:

A cancellation;

A suspension;

A revocation;

Any outstanding warrant; or

Any unresolved citation.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 5220, effective February 3, 2003 (Supp. 02-4). Amended by final rulemaking at 12 A.A.R. 871, effective March 7, 2006 (Supp. 06-1). Amended by final rulemaking at 14 A.A.R. 839, effective March 4, 2008 (Supp. 08-1). Amended by exempt rulemaking at 21 A.A.R. 1092, effective September 1, 2015 (Supp. 15-2).

R17-4-402. Restricted Permit During a Financial Responsibility (Accident) Suspension

A. An applicant for a restricted permit shall:
1. Have no withdrawal action other than the financial responsibility (accident) suspension;
2. Provide an SR22 Certificate of Insurance as proof of future financial responsibility that must be kept in force for three consecutive years after the effective date of the financial responsibility (accident) suspension;
3. Pay the $10 driving privilege reinstatement fee under A.R.S. § 28-4144(C)(2)(b); and
4. Pay the $25 motor vehicle registration and license plate reinstatement fee under A.R.S. § 28-4144(C)(2)(b), or if the vehicle was sold before the date of the accident, provide proof the vehicle was sold as defined under R17-4-401;
5. Pay the driving privilege reinstatement application fee under A.R.S. § 28-3002(A)(2); and
6. Satisfy any applicable requirements of A.R.S. § 28-4033(A)(2)(c) or 28-4144(C).

B. In addition to subsection (A) during a financial responsibility (accident) suspension, a restricted permit applicant may:
1. Apply for an original or renew an Arizona driver license by:
   a. Complying with A.R.S. §§ 28-3153, 28-3158, or 28-3171; and
   b. Paying the application fee under A.R.S. § 28-3002(A)(2) determined by the applicant's age on the application date; or
2. Obtain a duplicate Arizona driver license by paying the $12 duplicate driver license application fee under A.R.S. § 28-3002(A)(7).

C. At the end of the financial responsibility (accident) suspension, the Division shall immediately remove the driving privilege restriction from the Arizona driving record when the person surrenders an expired restricted permit to the Division.

Historical Note

New Section recodified from R17-4-227 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 8 A.A.R. 5220, effective February 3, 2003 (Supp. 02-4). Amended by final rulemaking at 16 A.A.R. 2448, effective February 5, 2011 (Supp. 10-4).

R17-4-403. Application for Duplicate Driver License or Duplicate Nonoperating Identification License; Fees

A. An applicant shall apply to the Division, on a form provided by the Division, for a duplicate driver license or a duplicate nonoperating identification license.

B. The fee for the duplicate driver license or duplicate nonoperating identification license issued by the Division is $12 under A.R.S. §§ 28-3002(A) and 28-3165.

Historical Note

New Section made by final rulemaking at 16 A.A.R. 2448, effective February 5, 2011 (Supp. 10-4).

R17-4-404. Driver Point Assessment; Traffic Survival Schools

A. Point assessment. The Department shall assign points to a driver, as prescribed under Table 1, Driver Point Valuation, for each violation resulting in a conviction or judgment.

B. Actions after point assessment. Under A.R.S. § 28-3306(A)(3), if a driver accumulates eight or more points in a twelve-month period, the Department shall:
1. Order the driver to successfully complete the curriculum of a licensed traffic survival school; or
2. Suspend the driver's Arizona driver license or driving privilege.

C. Traffic survival school order of assignment. The Department or the private entity under contract with the Department shall send a dated order of assignment to traffic survival school, as prescribed under A.R.S. § 28-3318, to a driver who accumulates 8 to 12 points in a twelve-month period, and who did not complete a traffic survival school course in the previous twenty-four-month period.
1. The order of assignment shall:
   a. Instruct the driver to submit any hearing request to the Department within 15 days after the date of the order of assignment; and

b. Instruct the driver that failure to successfully complete traffic survival school within 60 days after the date of the order of assignment will result in the Department issuing a six-month order of suspension.

2. The Department shall record that a driver completed traffic survival school if:
   a. A licensed traffic survival school reports that the driver successfully completed the curriculum; or
   b. The driver presents to the Department an original certificate of completion issued by a licensed traffic survival school, within 30 days of issuance of the certificate.

D. Suspension for failure to complete traffic survival school. The Department or the private entity under contract with the Department shall mail a driver a six-month order of suspension, as prescribed under A.R.S. § 28-3318, if the driver failed to establish completion of traffic survival school in accordance with subsection (C). The order of suspension shall:
1. Specify the period within which the driver may submit a hearing request to the Department, and
2. Specify the effective date of the suspension.

E. Suspension for accumulation of excessive points. The Department shall mail an order of suspension as prescribed under A.R.S. § 28-3318 to a driver who accumulates an excessive amount of points. The order of suspension shall:
1. Specify the length of the suspension as follows:
   a. A three-month suspension for accumulation of 8 to 12 points in a twelve-month period if a traffic survival school course was successfully completed in the previous twenty-four-month period;
   b. A three-month suspension for accumulation of 13 to 17 points in a twelve-month period;
   c. A six-month suspension for accumulation of 18 to 23 points in a twelve-month period; and
   d. A twelve-month suspension for accumulation of 24 or more points in a thirty-six-month period;
2. Specify the period within which the driver may submit a hearing request to the Department; and
3. Specify the effective date of the suspension.

Historical Note

New Section recodified from R17-4-506 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 12 A.A.R. 4446, effective November 7, 2006 (Supp. 06-4). Amended by final rulemaking at 14 A.A.R. 839, effective March 4, 2008 (Supp. 08-1) Amended by final rulemaking at 19 A.A.R. 3897, effective January 4, 2014 (Supp. 13-4). Amended by exempt rulemaking at 21 A.A.R. 1092, effective September 1, 2015 (Supp. 15-2).

A.R.S. § 28-708, racing on highways.	8
A.R.S. § 28-695, aggressive driving.	8
A.R.S. §§ 28-662, 28-663, 28-664, or 28-665, relating to a driver's duties after an accident.	6
A.R.S. § 28-672(A), failure to comply with a red traffic-control signal, failure to yield the right of way when turning left at an intersection, failure to yield the right of way to a pedestrian, failure to exercise due care, failure to stop for a school bus stop signal, or failure to comply with a stop sign, and the failure results in an accident causing death to another person.	6
A.R.S. § 28-672(A), failure to comply with a red traffic-control signal, failure to yield the right of way when turning left at an intersection, failure to yield the right of way to a pedestrian, failure to exercise due care, failure to stop for a school bus stop signal, or failure to comply with a stop sign, and the failure results in an accident causing serious physical injury to another person.	4
A.R.S. § 28-701, reasonable and prudent speed.	3
A.R.S. § 28-644(A)(2), driving over, across, or parking in any part of a gore area.	3
Any other traffic regulation that governs a vehicle moving under its own power.	2

Historical Note

New Table 1 made by final rulemaking at 14 A.A.R. 839, effective March 4, 2008 (Supp. 08-1).

R17-4-405. Emergency Expired

Historical Note

Emergency rule adopted effective August 6, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-3). Emergency expired.

R17-4-406. Minor's Application for Permit or License

A. For the purposes of administering the provisions of A.R.S. § 28-3160, the following definitions apply to this Section:
1. "Application," means a form provided by the Division that includes the Legal Guardian Affidavit required by the Division to be submitted with each minor's driver license application.
2. "Guardian" means one who has been appointed by a court of law to care for a minor child, but only if both parents of the child are deceased, or an agency as defined in A.R.S. § 8-513.
3. "Parent" means the natural or adoptive father or mother of a child.

B. Procedure when both parents sign: If both parents sign a child's application, no proof of custody need be furnished.

C. Procedure when only one parent signs:
1. If the signing parent is married to the child's other parent, that fact shall be stated and it shall be presumed the signing parent has custody of the child.
2. If the signing parent is not married to the child's parent because the other parent is deceased, that fact shall be stated and it shall be presumed the signing parent has custody of the child.
3. If the signing parent is not married to the child's other parent, the signing parent shall affirm, by sworn statement to the Division or a notary public, that the other parent does not have custody of the child, in which event the Division shall presume the signing parent has custody of the child.

D. Procedure when both parents are deceased:
1. If both parents are deceased, the minor or minor's guardian shall attach certified copies of certificates of death or other satisfactory proof of death, that includes a court

judgment, affidavits of close relatives of the child, or school records.

2. A person who is guardian of a child shall sign an application as defined by this rule or furnish a certified court order appointing guardianship.
3. An employer signing the application shall certify the person employs the minor on the date of application.
4. A person who has custody of a child shall sign a Legal Guardian Affidavit affirming custody or furnish a certified court order awaiting custody.

E. Proof of custody. Proof of custody may be established by a certified copy of the court order awarding custody or a written affirmation by the person signing the application.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-201 adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Correction, (C)(4) should read "... governed by R17-4-58" as certified effective November 30, 1983 (Supp. 84-3). Former Section R17-4-201 renumbered without change as Section R17-4-406 Supp. (87-2). Former Section R17-4-406 repealed, new Section R17-4-406 adopted effective July 14, 1989 (Supp. 89-3). Section recodified to R17-4-450 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-510 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 12 A.A.R. 4446, effective November 7, 2006 (Supp. 06-4).

R17-4-407. Travel-compliant Driver License or Travel-compliant Non-operating Identification License Application; Fee

A. A person seeking a travel-compliant driver license or travel-compliant identification license shall meet and comply with all:

1. State laws and rules applicable to every applicant who seeks issuance of any other driver license class, type, endorsement or non-operating identification license issued by the Department; and
2. Federal laws and regulations regarding the application and minimum documentation, verification, and card issuance requirements prescribed in the most recent edition of 6 CFR 37.11 for establishing satisfactory proof of a person's identity, date of birth, social security number, principal residence address of domicile in this state, and lawful status in the United States.

B. A person seeking a travel-compliant driver license or travel-compliant identification license shall:

1. Apply to the Department using an application form provided by the Department; and
2. Submit to the Department for authentication, satisfactory proof of the applicant's full legal name, date of birth, sex, social security number, principal residence address of domicile in this state, and that the applicant's presence in the United States is authorized under federal law. A list of all source documents the Department may accept as satisfactory proof under state and federal law is maintained by the Department on its website at www.azdot.gov.

C. An applicant for a travel-compliant driver license or travel-compliant identification license shall submit to the Department a fee of $25:

1. On original application, reinstatement, or renewal of any travel-compliant driver license class; or
2. On original application or renewal of a travel-compliant identification license.

D. A travel-compliant driver license or travel-compliant identification license issued by the Department, as prescribed under A.R.S. § 28-3175 and this Section, is:

1. Valid for a period of up to eight years;
2. Renewable for successive periods of up to eight years; and
3. Subject to all state and federal laws or restrictions requiring the issuance of a shorter expiration period (e.g., up to age 65, as provided under A.R.S. § 28-3171, or for a time period equal to the applicant's authorized stay in the United States, as provided under 6 CFR 37.21, etc.).

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-202 adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Correction, subsection (D) as certified effective November 30, 1983 (Supp. 84-3). Former Section R17-4-202 renumbered without change as Section R17-4-407 (Supp. 87-2). Section recodified to R17-4-451 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-706 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 9 A.A.R. 1158, effective May 12, 2003 (Supp. 03-1). New Section made by final exempt rulemaking under Laws 2015, Ch. 294, § 5 at 22 A.A.R. 819, effective March 28, 2016 (Supp. 16-1). Section repealed; new Section made by final rulemaking at 25 A.A.R. 1885, with an immediate effective date of July 2, 2019 (Supp. 19-3).

R17-4-408. Mandatory Extension of a Certified Ignition Interlock Device Order

A. For purposes of this Section, "conviction" has the meaning prescribed in A.R.S. § 28-101(12).

B. For the duration of a certified ignition interlock device order, each conviction for violating A.R.S. §§ 28-1464(A), 28-1464(C), 28-1464(D), 28-1464(F), or 28-1464(H) of the person subject to the order will result in the Division's extension of the order.

C. Each extension by the Division of a person's certified ignition interlock device order shall be for one year.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-203 and Appendix D adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Correction, added (C)(5) as certified effective November 30, 1983 (Supp. 84-3). Former Section R17-4-203 renumbered without change as Section R17-4-408 (Supp. 87-2). Section recodified to R17-4-452 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-709.10 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-409. Non-operating Identification License Application; Applicability; Fee

A. A person seeking a non-operating identification license, issued by the Department as prescribed under A.R.S. § 28-3165 and

this Section, shall apply to the Department using a form provided by the Department.

B. An applicant shall submit a $12 fee to the Department, on application for a non-operating identification license, unless the applicant is provided a specific statutory exemption from payment of the fee.

C. An applicant shall provide to the Department, on application for a non-operating identification license, satisfactory proof of the applicant's full legal name, date of birth, sex, principal residence address of domicile in this state, and evidence that the applicant's presence in the United States is authorized under federal law as listed by the Department on its website at www.azdot.gov.

D. A person seeking a travel-compliant identification license issued by the Department under A.R.S. § 28-3175, which is recognized by federal agencies as proof of identity for use when accessing federal facilities, boarding federally-regulated commercial aircraft, or entering nuclear power plants, shall apply to the Department as provided under R17-4-407.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-204 and Appendix B adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Former Section R17-4-204 renumbered without change as Section R17-4-409 (Supp. 87-2). Section recodified to R17-4-453 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-508 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 12 A.A.R. 4446, effective November 7, 2006 (Supp. 06-4). Amended by final rulemaking at 16 A.A.R. 2448, effective February 5, 2011 (Supp. 10-4). Amended by final exempt rulemaking under Laws 2015, Ch. 294, § 5 at 22 A.A.R. 819, effective March 28, 2016 (Supp. 16-1). Amended by final rulemaking at 25 A.A.R. 1885, with an immediate effective date of July 2, 2019 (Supp. 19-3).

R17-4-410. Voter Registration Through the Motor Vehicle Division

A. For purposes of this Section:
1. "License" has the same meaning as "driver's license" under A.R.S. § 16-111(2).
2. "MVD" means the Arizona Department of Transportation, Motor Vehicle Division.

B. To register to vote in Arizona through the MVD as provided for in A.R.S. § 16-112, a person who completes a transaction listed in subsection (C) shall complete and return to MVD:
1. A Secretary of State-approved hardcopy voter registration form for the county of the person's residence, or
2. An electronic voter registration form through MVD's ServiceArizona web site or through MVD's driver license system along with an electronic verification that the person meets voter eligibility criteria under A.R.S. § 16-101.

C. Subsection (B) applies to the following license transactions:
1. Initial licensee application;
2. License renewal;
3. Duplicate driver license; or
4. Licensee personal information update.

D. MVD shall transfer the voter registration forms and the data collected under this Section by:
1. Mailing the completed hardcopy forms to the appropriate county recorder; and
2. Transmitting the data from completed electronic voter registration forms and licensee personal information updates to the Secretary of State as prescribed under A.A.C. R2-12-605 for further distribution to the appropriate county recorder.

E. MVD shall maintain the confidentiality of applicant information as required under A.R.S. Title 16, Chapter 1.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-205 adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Former Section R17-4-205 renumbered without change as Section R17-4-410 (Supp. 87-2). Section recodified to R17-4-454 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 8 A.A.R. 2394, effective May 9, 2002 (Supp. 02-2). Amended by final rulemaking at 12 A.A.R. 1329, effective June 4, 2006 (Supp. 06-2).

R17-4-411. Special Ignition Interlock Restricted Driver License: Application, Restrictions, Reporting, Fee

A. In addition to the requirements prescribed in A.R.S. § 28-3158, an person applying for a special ignition interlock restricted driver license shall:
1. If the person is suspended for a first offense of A.R.S. § 28-1321:
   a. Complete at least 90 consecutive days of the period of the suspension, and
   b. Maintain a functioning certified ignition interlock device during the remaining period of the suspension.
2. If the person is revoked for a first offense of A.R.S. § 28-1383(A)(3):
   a. Complete at least 90 consecutive days of the suspension under A.R.S. § 28-1385,
   b. Submit proof to the Division that the person has completed an approved alcohol or drug screening or treatment program, and
   c. Maintain a functioning certified ignition interlock device during the remaining period of the revocation.
3. If the person has a court-ordered restriction under A.R.S. §§ 28-3320 or 28-3322:
   a. Comply with the restrictions in subsection (C), and
   b. Maintain a functioning certified ignition interlock device during the remaining period of the court-ordered restriction.

B. The Division shall not issue a special ignition interlock restricted driver license if the person's driver license or driving privilege is suspended or revoked for a reason not under subsections (A)(1), (2), or (3).

C. A person applying for a special ignition interlock restricted driver license shall pay the following fees:

1.	Age 50 or older	$10.00
2.	Age 45 – 49	$15.00
3.	Age 40 – 44	$20.00
4.	Age 39 or younger	$25.00

D. A special ignition interlock restricted driver license issued under subsection (A), permits a person to operate a motor

vehicle equipped with a functioning certified ignition interlock device as prescribed in A.R.S. § 28-1402(A).

E. Reporting. On the eleventh month after the initial date of installation and each eleventh month thereafter for as long as the person is required to maintain a functioning certified ignition interlock device, each installer shall electronically provide the Division all of the following information as recorded by the certified ignition interlock device:
1. Date installed;
2. Person's full name;
3. Person's date of birth;
4. Person's customer or driver license number;
5. Installer and manufacturer name;
6. Installer fax number;
7. Date report interpreted;
8. Report period;
9. Any tampering of the device within the meaning of A.R.S. § 28-1301(9);
10. Any failure of the person to provide proof of compliance or inspection as prescribed in A.R.S. § 28-1461;
11. Any attempts to operate the vehicle with an alcohol concentration exceeding the presumptive limit prescribed in A.R.S. § 28-1381(G)(3), or if the person is younger than 21 years of age, attempts to operate the vehicle with any spirituous liquor in the person's body; and
12. Any other information required by the Director.

F. A person applying for a special ignition interlock restricted driver license shall provide proof of financial responsibility prescribed in Title 28, Arizona Revised Statutes, Chapter 9, Article 3.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-206 and Appendices C and E adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Former Section R17-4-206 renumbered without change as Section R17-4-411 (Supp. 87-2). Section recodified to R17-4-455 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 12 A.A.R. 871, effective March 7, 2006 (Supp. 06-1).

R17-4-412. Extension of a Special Ignition Interlock Restricted Driver License: Hearing, Burden of Proof and Presumptions

A. Extension. The Division shall extend a person's special ignition interlock restricted driver license for a period of one year if the Division has reasonable grounds to believe:
1. The person tampered with the certified ignition interlock device within the meaning of A.R.S. § 28-1301(9),
2. The person fails to provide proof of compliance prescribed in A.R.S. § 28-1461, or
3. The person attempted to operate the vehicle with an alcohol concentration exceeding the presumptive limit prescribed in A.R.S. § 28-1381(G)(3) three or more times during the period of license restriction or limitation, or if the person is younger than 21 years of age, attempted to operate the vehicle with any spirituous liquor in the person's body three or more times during the period of license restriction or limitation.

B. Hearing. If a person's special ignition interlock restricted driver license is extended under subsection (A), the person may submit, within 15 days of the date of the order of extension of the restriction, a written request to the Division requesting a hearing. A request for hearing stays the extension of the restriction.

C. Burden of proof and presumptions.
1. The hearing office shall presume that the person's whose special ignition interlock restricted driver license is extended under subsection (A)(3), was the person in control of the vehicle and the person attempted to operate the vehicle with an alcohol concentration exceeding the presumptive limit in A.R.S. § 28-1381, or tampered with the device within the meaning of A.R.S. § 28-1301(9).
2. The person may be rebut the presumption by a showing of clear and convincing evidence that the person whose special ignition interlock restricted driver license being extended, was not the person in control of the vehicle or attempted to operate the vehicle with an alcohol concentration exceeding the presumptive limit in A.R.S. § 28-1381, or tampered with the device within the meaning of A.R.S. § 28-1301(9).

D. Except for subsection (A)(2), if the Division suspends, revokes, cancels, or otherwise rescinds a person's special ignition interlock restricted driver license for any reason, the Division shall not issue a new license or reinstate the special ignition interlock restricted driver license during the original period of suspension or revocation or while the person is otherwise ineligible to receive a license.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-207 adopted as an emergency effective August 18, 1983, now adopted as a permanent rule effective November 30, 1983 (Supp. 83-6). Correction, (A)(3) as certified effective November 30, 1983 (Supp. 84-3). Former Section R17-4-207 renumbered without change as Section R17-4-412. Correction: subsection (F), paragraph (6), "overweight" corrected to read: "overheight" (Supp. 87-2). Section recodified to R17-4-456 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 12 A.A.R. 871, effective March 7, 2006 (Supp. 06-1).

R17-4-413. Lifetime Disqualification Reinstatement

A. Definitions. In addition to the definitions prescribed under A.R.S. §§ 28-101 and 28-3001, the following definitions apply to this Section, unless otherwise specified:
"CDL" means Commercial Driver License.
"Lifetime disqualification" means the individual is disqualified for life from operating a commercial motor vehicle as prescribed under 49 CFR 391.15.
"Permanently disqualified" means the individual will never be able to obtain a commercial driver license.

B. Eligibility. An individual with a lifetime disqualification may request reinstatement of the individual's commercial driving privilege if:
1. Ten years have passed since the date of the lifetime disqualification.
2. The individual:
   a. Is otherwise eligible for licensure.
   b. Has continuously been eligible for a driver license during the most recent 10-year period.
   c. Has not previously reinstated CDL privileges for another lifetime disqualification.

d. Has no record of a conviction for any of the following violations, in any state, within the previous 10-year period:
   i. Driving while under the influence of alcohol or a controlled substance.
   ii. Having a blood alcohol concentration of .04 or greater while driving a commercial motor vehicle.
   iii. Refusal to submit to a blood alcohol concentration test.
   iv. Leaving the scene of an accident.
   v. Using a vehicle in the commission of a felony.
   vi. Operating a commercial motor vehicle as defined under A.R.S. § 28-3001 while his or her commercial driving privileges are canceled, disqualified, suspended, or revoked.
   vii. Causing a fatality through the negligent operation of a commercial motor vehicle.

C. Application after lifetime disqualification. If the Division determines that the individual is eligible to reinstate his or her commercial driving privilege, the individual may obtain a new CDL by paying all required fees, submitting the medical examination form prescribed under Section R17-4-508(A)(1), and successfully completing all CDL written, vision, and demonstration-skill testing applicable to the type of CDL, including any endorsements, for which the individual is applying.

D. Permanent disqualification.
1. An individual who reinstated his or her commercial driving privilege in accordance with this Section and who is subsequently given a lifetime disqualification under A.R.S. § 28-3312 is permanently disqualified.
2. An individual convicted of using any vehicle in the commission of a felony involving manufacturing, distributing, or dispensing a controlled substance is permanently disqualified.
3. An individual who more than once refuses a test in violation of A.R.S. § 28-1321 if the refusals involve more than one incident is permanently disqualified.
4. An individual who more than once is convicted of violating A.R.S. § 28, Chapter 4, Article 3 is permanently disqualified.

Historical Note

Adopted as an emergency effective August 18, 1983, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-4). Former Section R17-4-208 adopted as an emergency effective August 18, 1983, now adopted without change as a permanent rule effective November 30, 1983 (Supp. 83-6). Former Section R17-4-208 renumbered without change as Section R17-4-413 (Supp. 87-2). Section recodified to R17-4-457 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 2155, effective August 4, 2007 (Supp. 07-2).

R17-4-414. Commercial Driver License Applicant Driver History Check; Required Action; Hearing

A. Applicability. The provisions of this Section shall apply to all applicants requesting an original, renewal, reinstatement, transfer, or upgrade of a commercial driver license or commercial driver license instruction permit.

B. Driver History Check. In compliance with 49 CFR 384.206, 384.210, 384.225, and 384.232:
1. The Department shall require each applicant for a commercial driver license to supply the names of all states where the applicant has previously been licensed to operate a motor vehicle.
2. The Department shall request the complete driver history record from all states where the applicant was licensed to operate a motor vehicle within the previous 10 years. The Department shall make a driver history request no earlier than:
   a. Twenty-four hours prior to the issuance of a commercial driver license or commercial driver license instruction permit for an applicant who does not currently possess a valid Arizona commercial driver license; or
   b. Ten days prior to the issuance of a commercial driver license or commercial driver license instruction permit for an applicant who currently possesses a valid Arizona commercial driver license.
3. The Department shall record and maintain as part of the driver history all convictions, disqualifications, and other licensing actions for violations of any state or local law relating to motor vehicle traffic control, other than a parking violation, committed in any type of vehicle by a commercial driver licensee or any driver operating a commercial motor vehicle.

C. Required Action. In compliance with 49 CFR 384.210 and 384.231:
1. The Department shall, based on the findings of the driver history checks, issue a commercial driver license or commercial driver license instruction permit to a qualified applicant.
2. In the case of a reported conviction, disqualification, or other licensing action, the Department shall promptly cancel, disqualify, suspend, or revoke the person's commercial driving privilege as prescribed under A.R.S. Title 28, Chapters 4, 6, 8, and 14 and A.A.C. Title 17.
3. The Department shall send written notification of the action to the person describing the action taken by the Department.

D. Hearing. A hearing may be allowed when the driver history information received by the Department is a result of a case of mistaken identity or identity theft.
1. The person shall submit a hearing request in writing and comply with A.A.C. R17-1-502.
2. The hearing request shall be submitted within 20 days from the date the notice of action was mailed.
3. The hearing request shall indicate whether the request for the hearing is based on a case of identity theft or mistaken identity.
4. The hearing shall be held in accordance with the procedures prescribed under A.R.S. § 28-3317 and 17 A.A.C. 1, Article 5.
5. It shall be presumed that the information received from the driver history check belongs to the person. The person may overcome this presumption if the person is able to present evidence that either:
   a. The person is not the driver convicted of the reported violation as in a case of mistaken identity; or
   b. The person's identity was stolen and the applicant or licensee was not the driver convicted of the violation.
6. The scope of the hearing is limited to determining whether the person is the driver convicted of the reported

driver history information, not the validity of the underlying conviction or licensing action that occurred in another licensing jurisdiction.

Historical Note
Adopted effective December 18, 1995 (Supp. 95-4). Section recodified to R17-4-458 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 14 A.A.R. 4100, effective October 7, 2008 (Supp. 08-4).

R17-4-435. Recodified

Historical Note
Adopted as an emergency effective July 1, 1982, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 82-3). Former Section R17-4-63 adopted as an emergency now adopted and amended as a permanent rule effective October 8, 1982 (Supp. 82-5). Amended effective August 19, 1983 (Supp. 83-4). Correction to amendments shown effective August 19, 1983. The subsection "IT IS ORDERED: --" was also amended effective August 19, 1983, but not shown (Supp. 83-5). Amended effective February 18, 1986 (Supp. 86-1). Amended effective May 12, 1986 (Supp. 86-3). Adding Historical Note for Supp. 87-1, "Amended effective February 28, 1987." Former Section R17-4-63 renumbered as Section R17-4-435 and amended by adding a new subsection (C) effective April 7, 1987 (Supp. 87-2). Amended by adding paragraph (20) in subsection (B) and renumbering accordingly effective March 23, 1989 (Supp. 89-1). Amended as an emergency effective January 4, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-1). Emergency expired. Emergency amendments re-adopted effective April 25, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days; permanent amendments adopted effective May 18, 1990 (Supp. 90-2). Section R17-4-435 repealed, new Section R17-4-435 adopted effective October 24, 1990 (Supp. 90-4). Emergency amendments effective November 27, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-4) Emergency expired. Emergency

amendments readopted effective May 6, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Amended and renumbered to R17-4-435 and R17-4-435.01 through R17-4-435.04 effective August 16, 1991 (Supp. 91-3). Amended effective February 23, 1993 (Supp. 93-1). Amended effective April 4, 1994 (Supp. 94-2). Amended effective October 16, 1996 (Supp. 96-4). Amended by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 662, effective January 11, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 3215, effective July 12, 2001 (Supp. 01-3). Section recodified to R17-5-202 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-435.01. Recodified

Historical Note

Section R17-4-435.01 renumbered from R17-4-435(C) and amended effective August 16, 1991 (Supp. 91-3). Amended effective February 23, 1993 (Supp. 93-1). Amended effective April 4, 1994 (Supp. 94-2). Amended effective October 16, 1996 (Supp. 96-4). Amended by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 662, effective January 11, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 3215, effective July 12, 2001 (Supp. 01-3). Section recodified to R17-5-203 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-435.02. Recodified

Historical Note

Section R17-4-435.02 renumbered from R17-4-435(D) and amended effective August 16, 1991 (Supp. 91-3). Amended effective February 23, 1993 (Supp. 93-1). Amended effective April 4, 1994 (Supp. 94-2). Amended effective October 16, 1996 (Supp. 96-4). Amended by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 662, effective January 11, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 3215, effective July 12, 2001 (Supp. 01-3). Section recodified to R17-5-204 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-435.03. Recodified

Historical Note

Section R17-4-435.03 adopted effective August 16, 1991 (Supp. 91-3). Amended effective February 23, 1993 (Supp. 93-1). Amended effective April 4, 1994 (Supp. 94-2). Amended by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 662, effective January 11, 2001 (Supp. 01-1). Amended by final rulemaking at 7 A.A.R. 3215, effective July 12, 2001 (Supp. 01-3). Section recodified to R17-5-205 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-435.04. Recodified

Historical Note

Section R17-4-435.04 renumbered from R17-4-435(E), (F) and (G) and amended effective August 16, 1991 (Supp. 91-3). Amended by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Section recodified to R17-5-206 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-435.05. Recodified

Historical Note

Section R17-4-435.02 renumbered from R17-4-435(D) and amended effective August 16, 1991 (Supp. 91-3). Amended by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Section recodified to R17-5-207 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-435.06. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 770, effective February 1, 2000 (Supp. 00-1). Section recodified to R17-5-208 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-436. Recodified

Historical Note

Adopted effective October 24, 1990 (Supp. 90-4). Amended effective July 3, 1991 (Supp. 91-3). Amended effective February 28, 1992 (Supp. 92-1). Amended effective October 21, 1993 (Supp. 93-4). Amended effective August 12, 1994 (Supp. 94-3). Amended effective November 21, 1995 (Supp. 95-4). Amended by final rulemaking at 6 A.A.R. 3841, effective September 13, 2000 (Supp. 00-3). Amended by final rulemaking at 7 A.A.R. 3215, effective July 12, 2001 (Supp. 01-3). Section recodified to R17-5-209 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-437. Emergency Expired

Historical Note

Emergency rule adopted effective April 9, 1992, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 92-2). Emergency expired.

R17-4-437.01. Emergency Expired

Historical Note

Emergency rule adopted effective April 9, 1992, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 92-2). Emergency expired.

R17-4-437.02. Emergency Expired

Historical Note

Emergency rule adopted effective April 9, 1992, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 92-2). Emergency expired.

R17-4-437.03. Emergency Expired

Historical Note

Emergency rule adopted effective April 9, 1992, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 92-2). Emergency expired.

Appendix A. Emergency Expired

Historical Note

Emergency rule adopted effective April 9, 1992, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 92-2). Emergency expired.

R17-4-437.04. Emergency Expired

Historical Note
Emergency rule adopted effective April 9, 1992, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 92-2). Emergency expired.

R17-4-438. Recodified

Historical Note
Adopted effective March 21, 1994 (Supp. 94-1). Section recodified to R17-5-210 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-439. Recodified

Historical Note
Adopted effective March 21, 1994 (Supp. 94-1). Section recodified to R17-5-211 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-440. Recodified

Historical Note
Adopted effective March 21, 1994 (Supp. 94-1). Section recodified to R17-5-212 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

New Section recodified from R17-4-426 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 9 A.A.R. 641, effective April 8, 2003 (Supp. 03-1).

R17-4-466. Repealed

Historical Note
New Section recodified from R17-4-427 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 9 A.A.R. 641, effective April 8, 2003 (Supp. 03-1).

R17-4-467. Repealed

Historical Note
New Section recodified from R17-4-428 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 9 A.A.R. 641, effective April 8, 2003 (Supp. 03-1).

ARTICLE 5. SAFETY

R17-4-501. Definitions

In addition to the definitions provided under A.R.S. §§ 28-101, 28-3001, and 28-3005, in this Article, unless otherwise specified:

"Adaptation" means a modification of or addition to the standard operating controls or equipment of a motor vehicle.

"Applicant" means a person:

Applying for an Arizona driver license or driver license renewal, or

Required by the Department to complete an examination successfully or to obtain an evaluation.

"Application" means the Department form required to be completed by or for an applicant for a driver license or driver license renewal.

"Aura" means a sensation experienced before the onset of a neurological disorder.

"Commercial driver license physical qualifications" means driver medical qualification standards for a person licensed in class A, B, or C to operate a commercial vehicle as prescribed under 49 CFR 391, incorporated by reference under A.A.C. R17-5-202 and R17-5-204.

"Disqualifying medical condition" means a visual, physical, or psychological condition, including substance abuse, that impairs functional ability.

"Evaluation" means a medical assessment of an applicant or licensee by a specialist to determine whether a disqualifying medical condition exists.

"Examination" means testing or evaluating an applicant's or licensee's:

Ability to read and understand official traffic control devices,

Knowledge of safe driving practices and the traffic laws of this state, and

Functional ability.

"Functional ability" means the ability to operate safely a motor vehicle of the type permitted by an Arizona driver license class or endorsement.

"Licensee" means a person issued a driver license by this state.

"Licensing action" means an action by the Department to:

Issue, deny, suspend, revoke, cancel, or restrict a driver license or driving privileges; or

Require an examination or evaluation of an applicant or licensee.

"Medical alert code" means a system of numerals or letters indicating the licensee suffers from some type of adverse medical condition.

"Medical screening questions and certification" means the questions and certification on the application.

"Neurological disorder" means a malfunction or disease of the nervous system.

"Seizure" means a neurological disorder characterized by a sudden alteration in consciousness, sensation, motor control, or behavior, due to an abnormal electrical discharge in the brain.

"Specialist" means:

A physician who is a surgeon or a psychiatrist,

A physician whose practice is limited to a particular anatomical or physiological area or function of the human body or to patients with a specific age range, or

A psychologist.

"Substance abuse" means:

Use of alcohol in a manner that makes the user an alcoholic as defined in A.R.S. § 36-2021, or

Use of a controlled substance in a manner that makes the user a drug dependent person as defined in A.R.S. § 36-2501.

"Substance abuse evaluation" means an assessment by a physician, specialist, or certified substance abuse counselor to determine whether the use of alcohol or a drug impairs functional ability.

"Successful completion of an examination" means an applicant or licensee:

Establishes the visual, physical, and psychological ability to operate a motor vehicle safely, or

Achieves a score of at least 80% on any required tests.

Historical Note

Adopted effective December 14, 1995 (Supp. 95-4). Section recodified to R17-5-706 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 8 A.A.R. 3241, effective July 12, 2002 (Supp. 02-3). Amended by final rulemaking at 8 A.A.R. 5223, effective December 5, 2002 (Supp. 02-4). Amended by final rulemaking at 10 A.A.R. 2829, effective August 7, 2004 (Supp. 04-2). Amended by final rulemaking at 13 A.A.R. 1127, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 14 A.A.R. 227, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4).

R17-4-502. General Provisions for Visual, Physical, and Psychological Ability to Operate a Motor Vehicle Safely

A. Screening process for safe operation of a motor vehicle.

1. An applicant shall complete the application, including the medical screening questions and certification.
2. An applicant without a valid driver license shall successfully complete all required examinations or obtain an evaluation if:
   a. The Department informs the applicant that the applicant's responses to the medical screening questions indicate the existence of a disqualifying medical condition; or
   b. The applicant comes under subsection (B)(1)(a), (B)(1)(c), or (B)(1)(d).
3. An applicant for license renewal shall successfully complete an examination or obtain an evaluation if the applicant's responses to the medical screening questions indicate that since the applicant's last driver license issuance:
   a. The applicant has developed a visual, physical, or psychological condition that may constitute a disqualifying medical condition; or
   b. There has been a change in an existing visual, physical, or psychological condition that may constitute a disqualifying medical condition.
4. As soon as a licensee's medical condition allows, the licensee shall notify the Department, in writing, that a medical condition exists not previously reported to the Department that may affect the licensee's functional ability. On receipt of the required notification, the Department shall require the licensee to complete an examination or evaluation.

B. Evaluation. An applicant or licensee shall submit to an evaluation as required by the Department.

1. The Department shall require an evaluation if the Department notifies the applicant or licensee in writing that:
   a. The applicant or licensee comes under the provisions of R17-4-503 or R17-4-506;
   b. The applicant or licensee reports a possible disqualifying medical condition or fails to successfully complete an examination;
   c. The applicant or licensee shows unexplained confusion, loss of consciousness, or incoherence that is observed by Department personnel; or
   d. A person with direct knowledge submits to the Department written information about specific events or conduct indicating the applicant or licensee may have a disqualifying medical condition.
2. The applicant or licensee shall have the physician, appropriate specialist, or certified substance abuse counselor who performs an evaluation submit timely an evaluation report on a form provided by the Department to the Department's Medical Review Program.
3. An applicant or licensee shall pay for any expense incurred by the applicant or licensee to show compliance with the visual, physical, and psychological standards for a driver license.

C. Licensing action. The Department shall take a licensing action after requiring an applicant or licensee to complete an examination successfully or obtain an evaluation and submit an evaluation report.

1. The Department shall deny a driver license if an applicant or licensee:
   a. Fails to complete successfully an examination; or
   b. Fails to:
      i. Obtain an evaluation; or

ii. Have a physician, appropriate specialist, or certified substance abuse counselor submit an evaluation report to the Department within 30 days after the Department notifies the applicant that an evaluation is required; or

c. Has an evaluation report submitted that indicates a disqualifying medical condition.

2. The Department shall summarily suspend an applicant's or licensee's driving privileges under A.R.S. §§ 28-3306 and 41-1064 for a reason stated in subsection (C)(1).

3. The Department shall issue a revocation notice with a notice of summary suspension. The revocation notice shall inform the applicant or licensee that:

a. Unless the Department receives the applicant or licensee's timely hearing request under subsection (E), the revocation becomes effective:

i. Fifteen days after the date the applicant or licensee is personally served with the notice, or

ii. Twenty days after the date the notice is mailed to the applicant or licensee.

b. An applicant or licensee who wishes to obtain a license after suspension or revocation shall reapply for a license as specified in A.R.S. § 28-3315.

4. The Department shall issue a driver license or shall not suspend or revoke an applicant or licensee's driving privileges if:

a. The applicant or licensee successfully completes all required examinations and the Department does not require an evaluation, or

b. The applicant or licensee obtains all required evaluations and the most recent evaluation report submitted on behalf of the applicant or licensee conclusively indicates no disqualifying medical condition.

D. Driver license restrictions. If an applicant or licensee uses an adaptation, including those listed below, to demonstrate functional ability during an examination, the Department shall indicate the adaptation as a restriction on a driver license issued to the applicant or licensee and on the applicant's or licensee's driving record:

1. Automatic transmission,
2. Hand dimmer switch,
3. Left-foot gas pedal,
4. Parking-brake extension,
5. Power steering,
6. Power brakes,
7. Six-way power seat,
8. Right-side directional signal,
9. A device that enables an operator to spin the steering wheel,
10. A device that enables full foot control,
11. Dual outside mirrors,
12. Chest restraints,
13. Shoulder restraints,
14. A device that extends pedals,
15. A device that enables full hand control,
16. Adapted seat, and
17. Prosthetic aid.

E. Hearings. The Department's Executive Hearing Office shall conduct the hearing as provided under A.R.S. Title 41, Chapter 6, Article 6, and 17 A.A.C. 1, Article 5.

F. The Department shall not release information required to be submitted to the Department under this Section by an applicant or licensee except to a person or entity qualified under A.R.S. § 28-455.

Historical Note

New Section recodified from R17-4-520 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 8 A.A.R. 3241, effective July 12, 2002 (Supp. 02-3). Amended by final rulemaking at 9 A.A.R. 1861, effective June 3, 2003 (Supp. 03-2). Amended by final rulemaking at 13 A.A.R. 1127, effective May 5, 2007 (Supp. 07-1). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4).

Exhibit A. Repealed

Historical Note

New Exhibit made by final rulemaking at 8 A.A.R. 3241, effective July 12, 2002 (Supp. 02-3). Section repealed by final rulemaking at 13 A.A.R. 1127, effective May 5, 2007 (Supp. 07-1).

R17-4-503. Vision Standards

A. Definitions.

1. "Binocular vision" means the ability to see in both eyes.
2. "Bioptic telescopic lens system" means a bioptic, spectacle-mounted corrective lens prescribed by a physician or optometrist for meeting vision acuity requirements for driving that uses magnification as the main method of obtaining minimal visual acuity.
3. "Corrected visual acuity" means distance vision corrected by eyeglasses, contact lenses, or a bioptic telescopic lens system.
4. "Corrective lens" means eyeglasses, contact lenses, or a bioptic telescopic lens system used to correct distance vision.
5. "Diplopia" means double vision.
6. "Impaired night vision" means below normal ability to see in reduced light.
7. "Monocular vision" means the ability to see in one eye only.
8. "Optometrist" means a person licensed to practice optometry in any state, territory, or possession of the United States or the Commonwealth of Puerto Rico.
9. "Retinitis pigmentosa" means a chronic progressive inflammation of the retina with atrophy and pigmentary infiltration of the inner layers of the retina.
10. "Snellen Chart" means a chart imprinted with lines of black letters of decreasing size for testing visual acuity.
11. "Visual acuity" means the clarity of a person's vision.
12. "Visual field" means the area in which objects may be seen when the eye is fixed.

B. Standard. The following applies only to class D, G, or M applicants or licensees.

1. Visual acuity. A person shall have binocular or monocular vision and visual acuity of 20/40 in at least one eye.
   a. The Department shall not license a person with monocular vision and visual acuity of 20/50 or greater.
   b. The Department shall not license a person with binocular vision and visual acuity of 20/70 or greater.
2. Visual field. Visual field shall be 70 degrees or greater temporally, and 35 degrees or greater nasally, in at least one eye.

C. Restrictions.

1. A person with corrected vision shall wear corrective lenses at all times when driving if the corrective lens is required to achieve the vision standards in subsection (B).
2. The Department shall restrict a person with diagnosed impaired night vision to daytime driving only.
3. The Department shall restrict a person with binocular vision and corrected or uncorrected visual acuity of 20/50 or 20/60, when using both eyes, to daytime driving only.

D. Screening process.
1. The Department, a physician, or an optometrist may administer visual acuity and visual field screening through the use of visual screening equipment or the Snellen Chart to determine if a person's visual acuity meets minimum standards and through the use of visual screening equipment to determine if a person's visual field meets minimum standards.
2. A person may use a bioptic telescopic lens system during vision screening.
   a. Beginning on the date of an initial application and every year thereafter, a person using a bioptic telescopic lens system shall submit to the Department an annual exam performed by a physician or optometrist to ascertain whether the person has a progressive eye disease.
   b. The Department shall not license a person using a bioptic telescopic lens system unless the person submits to the Department a vision examination form provided by the Department and completed by a physician or an optometrist indicating that the individual meets the visual acuity standard as prescribed in subsection (B).
   c. The Department shall not license a person using a bioptic telescopic lens system with magnification of the lens that is more than 4X.

E. Reporting requirements.
1. A person choosing to have initial visual acuity and visual field screening done by a physician or an optometrist shall submit the results to the Department.
2. If the Department does initial visual acuity and visual field screening and the person does not meet vision standards of subsection (B), the Department shall require the person to submit the results of the person's visual acuity and visual field screening by a physician or an optometrist.
3. The Department shall require a person diagnosed with any of the following conditions to file the results of the person's visual acuity and visual field screening completed by the physician or optometrist:
   a. Any progressive eye disease,
   b. Diplopia, or
   c. Impaired night vision.

F. Results of visual acuity and visual field screening from a physician or optometrist shall contain the following.
1. An examination date no more than three months before the submission date to the Department;
2. Visual acuity and visual field;
3. If applicable, specification that the person is monocular;
4. If applicable, diagnosis of any condition described in subsection (E)(3);
5. Any recommendations on frequency of reporting requirements for the person, in addition to those required by the Department;
6. Suggested restrictions on driving, in addition to those required by the Department; and
7. Any recommendations on the person's ability to safely operate a motor vehicle.

G. The Department shall require a driving test if a person's eye disease is determined by a physician or optometrist to be progressive.

Historical Note
New Section recodified from R17-4-521 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 12 A.A.R. 221, effective January 10, 2006 (Supp. 06-1). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4).

R17-4-504. Medical Alert Conditions

A. Definition. In this Section, "license" means any class of driver license, commercial driver license, non-operating identification license, or instruction permit.

B. Medical alert condition displayed on license. The Department will provide on each license a space to indicate a medical alert condition. A list of recognized medical alert conditions is available at all Motor Vehicle Division Customer Service offices and Authorized Third Party Driver License offices.

C. Retention of medical alert condition authorization. The Department will not maintain the medical alert code on the Department computer record unless written authorization is submitted.

D. A person shall submit a signed statement, from a physician or registered nurse practitioner, stating that the person is diagnosed with a medical condition. The signed statement is required every time the person requests a license unless the person authorizes the Department to maintain the medical alert code on the Department computer record.

Historical Note
Adopted effective September 25, 1991 (Supp. 91-3). Section repealed by final rulemaking at 7 A.A.R. 3831, effective August 10, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 1127, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 14 A.A.R. 227, effective March 8, 2008 (Supp. 08-1). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4).

R17-4-505. Repealed

Historical Note
Adopted effective May 2, 1990 (Supp. 90-2). Section repealed by final rulemaking at 7 A.A.R. 3831, effective August 10, 2001 (Supp. 01-3).

R17-4-506. Neurological Standards

A. Driver license application.
1. A person who has a seizure in the three months before applying for a driver license shall undergo an evaluation as provided in R17-4-502.
2. After the evaluation under R17-4-502, the person or the person's physician shall submit the medical examination report to the Department.
3. The Department shall not issue a driver license to a person if the medical examination report shows that the person has a neurological disorder that affects the person's ability to operate a motor vehicle safely.

B. Driver license revocation.

1. A person with a driver license or nonresident driving privileges who experiences a seizure shall cease driving and:
   a. Undergo an evaluation as provided in R17-4-502;
   b. Submit the medical examination report to the Department; and
   c. Undergo a follow-up evaluation within one year after the seizure or within a shorter time, as recommended by a physician.
2. After each evaluation, the person or the person's physician shall submit the applicable medical examination report to the Department.
3. The Department shall revoke a person's driver license or nonresident driving privileges if any medical examination report shows the person has a neurological disorder that affects the person's ability to operate a motor vehicle safely.

C. Medical examination report. A medical examination report under this Section shall include the following information:
1. Age at onset of seizures, diagnosis, and history;
2. Aftereffects of seizures;
3. EEG findings, if any;
4. Description, cause, frequency, duration, and date of most recent seizure;
5. Current medications, including dosage, side effects, and serum level; and
6. A physician's medical opinion as to whether the neurological disorder will affect the person's ability to operate a motor vehicle safely.

D. Physician's medical opinion. A neurological disorder does not affect a person's ability to operate a motor vehicle safely if a physician concludes with reasonable medical certainty that:
1. Any seizure that occurred within the last three months was due to a change in anticonvulsant medication ordered by a physician and that seizures are under control after the change in medication;
2. Any seizure that occurred within the last three months was a single event that will not recur in the future;
3. Any seizure is likely to occur but has an established pattern of occurring only during sleep; or
4. There is an established pattern of an aura of sufficient duration to allow the person to cease operating a motor vehicle immediately at the onset of the aura.

Historical Note

Former Rule, General Order 107; Amended effective April 28, 1981 (Supp. 81-2). Amended effective July 1, 1985 (Supp. 85-4). Former Section R17-4-46 renumbered without change as Section R17-4-506 (Supp. 87-2). Emergency amendment adopted effective December 31, 1998, pursuant to A.R.S. § 28-366, for a maximum of 180 days (Supp. 98-4). Emergency amendment expired June 29, 1999 pursuant to A.R.S. § 41-1026(C) (Supp. 99-3). Emergency amendment adopted effective October 1, 1999, pursuant to A.R.S. § 28-366, for a maximum of 180 days (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 1172, effective March 9, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 3221, effective July 12, 2001 (Supp. 01-3). Section recodified to R17-4-404 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-522 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 7 A.A.R. 5440, effective November 14, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 5223, effective December 5, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4).

R17-4-507. Repealed

Historical Note

Adopted effective July 24, 1985 (Supp. 85-4). Amended effective March 13, 1986 (Supp. 86-2). Former Section R17-4-50 renumbered without change as Section R17-4-507 (Supp. 87-2). Amended by final rulemaking at 7 A.A.R. 4355, effective September 14, 2001 (Supp. 01-3). Amended by final rulemaking at 8 A.A.R. 5223, effective December 5, 2002 (Supp. 02-4). Section repealed by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2).

R17-4-508. Commercial Driver License Physical Qualifications

A. Requirements.
1. A commercial driver license applicant shall submit a U.S. Department of Transportation medical examiner's certificate, available online from the Federal Motor Carrier Safety Administration at https://www.fmcsa.dot.gov, completed as prescribed under 49 CFR 391.43 to the Department.
   a. Except as provided in subsection (A)(1)(c), the medical examiner's certificate must be completed by a medical examiner who is listed on the current National Registry of Certified Medical Examiners. A search of certified medical examiners is available on the Federal Motor Carrier Safety Administration's website.
   b. The medical examiner's certificate must be completed upon the applicant's initial application and upon or prior to expiration of the applicant's current medical examiner's certificate.
   c. An optometrist, licensed to practice by the federal government, any state, or U.S. territory, may perform the medical examination as it pertains to visual acuity, field of vision, and the ability to recognize colors as specified in 49 CFR 391.41(b)(10).
2. As prescribed under 49 CFR 391.41(a)(2), a licensee who possesses a commercial driver license shall keep an original or photographic copy of the licensee's current medical examiner's certificate required under subsection (A)(1) available for law enforcement inspection upon request for no more than 15 days after the date it was issued as valid proof of medical certification.
3. A licensee who possesses a commercial driver license shall notify the Department of a physical condition that develops or worsens causing noncompliance with the commercial driver license physical qualifications as soon as the licensee's medical condition allows.

B. Commercial driver license suspension and revocation notification procedure. To notify a licensee of any commercial driver license suspension and revocation under subsection (C), the Department shall simultaneously mail two notices within 15 days after a medical examiner's certificate's due date or actual submission date to the licensee's address of record that:
1. Suspends the licensee's commercial driver license beginning on the notice's date; and
2. Revokes the licensee's commercial driver license 15 days after the date of the suspension notice issued under subsection (B)(1).

C. Noncompliance actions.

1. Initial application denial. If an applicant's initial medical examiner's certificate required under subsection (A)(1) shows that the applicant does not comply with the commercial driver license physical qualifications, the Department shall immediately mail the commercial driver license denial notification to the applicant's address of record.
2. Medical examiner's certificate renewal suspension and revocation. If a renewing commercial driver licensee submits:
   a. No medical examiner's certificate required under subsection (A)(1) or a form indicating noncompliance with commercial driver license physical qualifications, the Department shall follow the suspension and revocation notification procedure prescribed under subsection (B).
   b. An incomplete medical examiner's certificate required under subsection (A)(1), the Department shall immediately return the incomplete form with a letter requesting that the licensee provide missing information to the Department within 45 days after the date of the Department's letter. The Department shall follow the suspension and revocation notification procedure prescribed under subsection (B) if the licensee fails to return the requested information in the time-frame prescribed in this subsection.

D. A commercial driver license that remains revoked for longer than 12 months expires. The holder of an expired commercial driver license may obtain a new commercial driver license by successfully completing all commercial driver license original-application written, vision, and skills testing and by submitting the medical examiner's certificate prescribed under subsection (A)(1).

E. Administrative hearing. A person who is denied a commercial driver license or whose commercial driver license is suspended or revoked under this Section may request a hearing from the Department as prescribed under 17 A.A.C. 1, Article 5. The hearing is held in accordance with the procedures prescribed under A.R.S. Title 41, Chapter 6, Article 6 and 17 A.A.C. 1, Article 5.

Historical Note

Adopted effective October 31, 1975 (Supp. 75-1). Former Section R17-4-57 renumbered without change as Section R17-4-508 (Supp. 87-2). Emergency amendments adopted effective July 30, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-3). Emergency amendments permanently adopted effective October 27, 1993 (Supp. 93-4). Section recodified to R17-4-409 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-802 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-1). Amended by final rulemaking at 10 A.A.R. 2829, effective August 7, 2004 (Supp. 04-2). Amended by final rulemaking at 13 A.A.R. 1127, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 14 A.A.R. 395, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2). Amended by final rulemaking at 27 A.A.R. 2730 (November 26, 2021), with an immediate effective date of November 2, 2021 (Supp. 21-4).

R17-4-509. Repealed

Historical Note

Adopted effective February 14, 1984 (Supp. 84-1). Former Section R17-4-56 renumbered without change as Section R17-4-509 (Supp. 87-2). Repealed effective December 17, 1993 (Supp. 93-4).

R17-4-510. Expired

Historical Note

Adopted effective October 17, 1986 (Supp. 86-5). Former Section R17-4-76 renumbered without change as Section R17-4-510 (Supp. 87-2). Section recodified to R17-4-406 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section recodified from R17-4-705 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4). Section expired under A.R.S. § 41-1052(M) at 28 A.A.R. 121 (January 7, 2022), effective December 7, 2021 (Supp. 21-4).

R17-4-511. Repealed

Historical Note

Adopted effective April 21, 1980 (Supp. 80-2). Former Section R17-4-62 renumbered without change as Section R17-4-511 (Supp. 87-2). Section repealed by final rulemaking at 7 A.A.R. 3831, effective August 10, 2001 (Supp. 01-3).

R17-4-512. Expired

Historical Note

Former Rule, General Order 92. Former Section R17-4-37 renumbered without change as Section R17-4-512 (Supp. 87-2). Section recodified to R17-5-302 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). New Section R17-4-512 recodified from R17-4-704 at 7 A.A.R. 4157, effective September 7, 2001 (Supp. 01-3). Amended by final rulemaking at 14 A.A.R. 397, effective March 8, 2008 (Supp. 08-1). Amended by final expedited rulemaking at 26 A.A.R. 3147, with an immediate effective date of December 3, 2020 (Supp. 20-4). Section expired under A.R.S. § 41-1052(M) at 28 A.A.R. 121 (January 7, 2022), effective December 7, 2021 (Supp. 21-4).

R17-4-513. Emergency Expired

Historical Note

Emergency rule adopted effective January 4, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-1). Emergency expired. Emergency rule re-adopted effective May 2, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-2). Emergency expired.

R17-4-514. Emergency Expired

Historical Note

Emergency rule adopted effective January 4, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-1). Emergency expired. Emergency rule re-adopted effective April 25, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-2). Emergency expired.

R17-4-606. Repealed

Historical Note
Adopted effective February 6, 1984 (Supp. 84-1). Former Section R17-4-507 renumbered without change as Section R17-4-606 (Supp. 87-2). Repealed by summary rulemaking with an interim effective date of March 8, 1996; filed in the Office of the Secretary of State February 16, 1996 (Supp. 96-1).

R17-4-607. Repealed

Historical Note
Adopted effective August 24, 1982 (Supp. 82-4). Former Section R17-4-501 renumbered without change as Section R17-4-607 (Supp. 87-2). Emergency amendments adopted and filed August 24, 1990, effective September 27, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-3). Emergency amendments repealed, new emergency amendments adopted effective October 1, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-4). Emergency expired. Emergency amendments re-repealed, new emergency amendments readopted effective February 12, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-1). Emergency expired. Emergency amendments re-repealed, new emergency amendments re-adopted effective August 6, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-3). Emergency expired. Emergency amendments re-adopted with changes effective November 14, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-4). Emergency expired. Repealed by summary rulemaking with an interim effective date of March 8, 1996; filed in the Office of the Secretary of State February 16, 1996 (Supp. 96-1).

R17-4-608. Expired

Historical Note
Adopted effective August 18, 1983 (Supp. 83-4). Former Section R17-4-504 renumbered without change as Section R17-4-608 (Supp. 87-2). Section expired under A.R.S. § 41-1056(J) at 19 A.A.R. 2855, effective June 28, 2013 (Supp. 13-3).

R17-4-609. Expired

Historical Note
Adopted effective March 7, 1983, to apply to chassis and bodies placed in production after May 1, 1983 (Supp. 83-2). Former Section R17-4-502 renumbered without change as Section R17-4-609 (Supp. 87-2). Section expired under A.R.S. § 41-1056(J) at 19 A.A.R. 2855, effective June 28, 2013 (Supp. 13-3).

R17-4-610. Expired

Historical Note
Adopted effective February 11, 1983 (Supp. 83-1). Former Section R17-4-503 renumbered without change as Section R17-4-610 (Supp. 87-2). Section expired under A.R.S. § 41-1056(J) at 19 A.A.R. 2855, effective June 28, 2013 (Supp. 13-3).

R17-4-611. Expired

Historical Note
Adopted effective August 24, 1983 (Supp. 83-4). Former Section R17-4-506 renumbered without change as Section R17-4-611 (Supp. 87-2). Section expired under A.R.S. § 41-1056(J) at 19 A.A.R. 2855, effective June 28, 2013 (Supp. 13-3).

R17-4-612. Expired

Historical Note
Adopted effective August 18, 1983 (Supp. 83-4). Former Section R17-4-505 renumbered without change as Section R17-4-612 (Supp. 87-2). R17-4-612 amended by summary action; Appendices A and B repealed by summary action with an interim effective date March 8, 1996; filed in the Office of the Secretary of State February 16, 1996 (Supp. 96-1). Section expired under A.R.S. § 41-1056(J) at 19 A.A.R. 2855, effective June 28, 2013 (Supp. 13-3).

ARTICLE 7. HAZARDOUS MATERIALS ENDORSEMENT

R17-4-701. Definitions

In addition to the definitions contained in 49 CFR 1572, the following words and phrases apply to this Article:

"Applicant" means an individual who applies to obtain an original or renewal HME.

"CDL" means commercial driver license.

"Department" has the same meaning as defined in A.R.S. § 28-101.

"HME" means hazardous materials endorsement.

"Security Threat Assessment" means a check by TSA that includes a fingerprint-based criminal history records check, an intelligence-related background check, and a final disposition.

"Transfer applicant" means an individual with an existing HME issued by another state, applying to the state of Arizona for an HME.

"TSA" means the U.S. Transportation Security Administration.

Historical Note
Adopted effective February 1, 1994 (Supp. 94-1). Section recodified to R17-4-309 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 13 A.A.R. 3368, effective November 10, 2007 (Supp. 07-3). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2). Amended by final rulemaking at 27 A.A.R. 2730 (November 26, 2021), with an immediate effective date of November 2, 2021 (Supp. 21-4).

Appendix A. Recodified

Historical Note
Adopted effective February 1, 1994 (Supp. 94-1). Appendix recodified to 17 A.A.C. 4, Article 3 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-702. Scope
This Article applies to commercial drivers who are applying for an original, renewal, or transfer of an HME, in accordance with 49 CFR 1572. The Department incorporates by reference 49 CFR 1572, revised as of October 1, 2020, and no later amendments or editions. The incorporated material is on file with the Department at 206 S. 17th Avenue, Phoenix, AZ 85007. The incorporated material is published by National Archives and Records Administration, Office of the Federal Register, 8601 Adelphi Road, College Park, MD 20740-6001, and is printed and distributed by the U.S. Government Publishing Office, P.O. Box 979050, St. Louis, MO 63197-9000. The incorporated material can be viewed online at https://www.govinfo.gov and ordered online by visiting the U.S. Government Bookstore at http://bookstore.gpo.gov. The International Standard Book Number is 9780160958861.

Historical Note
Adopted effective November 15, 1989 (Supp. 89-4). Amended effective October 11, 1995 (Supp. 95-4). Section recodified to R17-1-202 at 7 A.A.R. 3477, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 13 A.A.R. 3368, effective November 10, 2007 (Supp. 07-3). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2). Amended by final rulemaking at 27 A.A.R. 2730 (November 26, 2021), with an immediate effective date of November 2, 2021 (Supp. 21-4).

R17-4-703. Expired

Historical Note
New Section made by exempt rulemaking at 7 A.A.R. 2518, effective May 25, 2001 (Supp. 01-2). Section recodified to R17-1-204 at 7 A.A.R. 3477, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 34, effective June 30, 2016 (Supp. 16-4).

R17-4-704. Requirements for an HME
To receive an HME an applicant shall:
1. Possess a valid Arizona CDL,
2. Be at least 21 years of age,
3. Successfully complete all required testing under R17-4-705,
4. Pay all applicable fees under R17-4-706,
5. Make application to TSA for a Security Threat Assessment, and
6. Receive a Determination of No Security Threat from TSA.

Historical Note
Adopted effective October 6, 1983 (Supp. 83-5). Former Section R17-4-49 renumbered without change as Section R17-4-704 (Supp. 87-2). Amended by final rulemaking at 7 A.A.R. 3834, effective August 10, 2001 (Supp. 01-3). Section recodified to R17-4-512 at 7 A.A.R. 4157, effective September 7, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1).

R17-4-705. Required Testing
A. Original and renewal applicants shall successfully complete the testing requirements under A.R.S. § 28-3223.
B. A transfer applicant shall be required to comply with HME knowledge test requirements under A.R.S. § 28-3223, and pay any applicable fee under R17-4-706.

Historical Note
Adopted effective August 2, 1978 (Supp. 78-4). Former Section R17-4-61 renumbered without change as Section R17-4-705 (Supp. 87-2). Section recodified to R17-4-510 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 13 A.A.R. 3368, effective November 10, 2007 (Supp. 07-3). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2).

R17-4-706. Fees
All applicants and transfer applicants shall pay all applicable fees as prescribed by:
1. TSA for a Security Threat Assessment, and
2. A.R.S. § 28-3002.

Historical Note
Former Rule, General Order 96. Former Section R17-4-39 renumbered without change as Section R17-4-706 (Supp. 87-2). Section recodified to R17-4-407 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2).

R17-4-707. 60-Day Notice to Apply
A. The Department shall notify an existing HME holder that a new Security Threat Assessment shall be successfully passed in order to retain the HME 60 days prior to the expiration of the Security Threat Assessment and the corresponding HME.
B. Upon expiration of the Department's 60 Day Notice to Apply, the Department shall cancel the Arizona driver license privi-

leges of an applicant who fails to apply for a Security Threat Assessment and fails to remove the HME.

Historical Note

Adopted as an emergency effective April 24, 1985, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 85-2). Emergency expired. Former Section R17-4-66 renumbered and reserved as R17-4-707 (Supp. 87-2). New Section R17-4-66 adopted and renumbered as Section R17-4-707 effective August 11, 1987 (Supp. 87-3). Amended by final rulemaking at 6 A.A.R. 4668, November 14, 2000 (Supp. 00-4). Section recodified to R17-1-203 at 7 A.A.R. 3477, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2).

R17-4-708. Security Threat Assessment

A. An applicant for an HME shall successfully pass a Security Threat Assessment every five years.

B. An applicant subject to any of the following actions, as defined in A.R.S. § 28-3001, shall obtain a new Security Threat Assessment and HME:

1. Cancellation,
2. Suspension for a period of one year or more,
3. Expiration for a period of one year or more, and
4. Revocation for a period of one year or more.

Historical Note

Adopted effective January 13, 1993 (Supp. 93-1). Section recodified to R17-4-310 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 27 A.A.R. 2730 (November 26, 2021), with an immediate effective date of November 2, 2021 (Supp. 21-4).

R17-4-709. Determination of Security Threat

Upon notification by TSA that an applicant has failed to successfully pass the Security Threat Assessment:

1. For an original applicant:
   a. The Department will deny the request for an HME; and
   b. If otherwise qualified, the applicant may apply for a CDL without an HME.
2. For a renewal applicant:
   a. The Department shall immediately cancel the HME.
   b. The Department will notify an HME applicant with a Notice of Action that the applicant has 15 days from the notice date to have the HME removed.
   c. The applicant shall visit a Motor Vehicle Division Customer Service office for removal of the HME.
   d. If the applicant fails to comply with the Department's Notice of Action, the Department shall cancel the applicant's Arizona driver license privilege.
   e. Upon removal of an HME by the Department under this Section, an applicant, if otherwise qualified, may continue to hold a CDL.

Historical Note

Adopted by an emergency action effective December 1, 1998, pursuant to A.R.S. § 41-1026, effective for a maximum of 180 days (Supp. 98-4). Emergency expired May 29, 1999; Section renewed and amended by emergency rulemaking, pursuant to A.R.S. § 41-1026, at 5 A.A.R. 2433, effective July 7, 1999 for a maximum of 180 days (Supp. 99-3). Emergency Section expired January 3, 2000, pursuant to A.R.S. § 1026(C); new Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Section recodified to R17-5-601 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2). Amended by final rulemaking at 27 A.A.R. 2730 (November 26, 2021), with an immediate effective date of November 2, 2021 (Supp. 21-4).

R17-4-709.01. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Section recodified to R17-5-602 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.02. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Section recodified to R17-5-603 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.03. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Section recodified to R17-5-604 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.04. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Section recodified to R17-5-605 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.05. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Section recodified to R17-5-606 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.06. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Section recodified to R17-5-607 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

Appendix A. Recodified

Historical Note

Appendix A adopted by an emergency action effective December 1, 1998, pursuant to A.R.S. § 41-1026, effective for a maximum of 180 days (Supp. 98-4). Emergency expired May 29, 1999; Appendix A renewed and amended by emergency rulemaking, pursuant to A.R.S. §

41-1026, at 5 A.A.R. 2433, effective July 7, 1999 for a maximum of 180 days (Supp. 99-3). Emergency Appendix A expired January 3, 2000, pursuant to A.R.S. § 1026(C); new Appendix A adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Appendix recodified to 17 A.A.C. 5, Article 6 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

Appendix B. Recodified

Historical Note

Appendix B adopted by an emergency action effective December 1, 1998, pursuant to A.R.S. § 41-1026, effective for a maximum of 180 days (Supp. 98-4). Emergency expired May 29, 1999; Appendix B renewed and amended by emergency rulemaking, pursuant to A.R.S. § 41-1026, at 5 A.A.R. 2433, effective July 7, 1999 for a maximum of 180 days (Supp. 99-3). Emergency Appendix B expired January 3, 2000, pursuant to A.R.S. § 1026(C); new Appendix B adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Appendix recodified to 17 A.A.C. 5, Article 6 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

Appendix C. Recodified

Historical Note

Appendix C adopted by an emergency action effective December 1, 1998, pursuant to A.R.S. § 41-1026, effective for a maximum of 180 days (Supp. 98-4). Emergency expired May 29, 1999; Appendix C renewed by emergency rulemaking, pursuant to A.R.S. § 41-1026, at 5 A.A.R. 2433, effective July 7, 1999 for a maximum of 180 days (Supp. 99-3). Emergency Appendix C expired January 3, 2000, pursuant to A.R.S. § 1026(C); new Appendix C adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Appendix recodified to 17 A.A.C. 5, Article 6 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.07. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Section recodified to R17-5-608 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.08. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 549, effective January 11, 2000 (Supp. 00-1). Section recodified to R17-5-609 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.09. Recodified

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 654, effective January 11, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Section recodified to R17-5-610 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

Exhibit A. Recodified

Historical Note

New Form adopted by final rulemaking at 6 A.A.R. 654, effective January 11, 2000 (Supp. 00-1). Heading "Form A" changed to "Exhibit A" to conform with R1-1-412 (Supp. 00-3). Exhibit recodified to 17 A.A.C. 5, Article 6 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

Exhibit B. Recodified

Historical Note

New Exhibit adopted by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Exhibit recodified to 17 A.A.C. 5, Article 6 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3).

R17-4-709.10. Recodified

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 59, effective December 7, 2000 (Supp. 00-4). Section recodified to R17-4-408 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3).

R17-4-710. Requests for Administrative Hearing

A. In the event an applicant has failed to successfully complete the Security Threat Assessment or failed to receive a Determination of No Security Threat, the applicant may make an appeal directly through TSA, but cannot request an administrative hearing from the Department.

B. An applicant whose Arizona driver license privileges have been canceled under R17-4-707 or R17-4-709 may request an administrative hearing from the Department as prescribed under 17 A.A.C. 1, Article 5. The hearing is held in accordance with the procedures prescribed under A.R.S. Title 41, Chapter 6, Article 6 and 17 A.A.C. 1, Article 5.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 2928, effective August 5, 1999 (Supp. 99-3). Section recodified to R17-1-101 at 7 A.A.R. 919, effective January 24, 2001 (Supp. 01-1). New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2).

R17-4-711. Expired

Historical Note

New Section made by final rulemaking at 13 A.A.R. 684, effective April 9, 2007 (Supp. 07-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 34, effective June 30, 2016 (Supp. 16-4).

R17-4-712. Transfer Applicant

A. Applicability. A transfer applicant shall comply with the provisions of this Article except as otherwise required by this Section.

B. Existing TSA approval. Upon application by a transfer applicant who has successfully passed a Security Threat Assessment prior to application in Arizona, the Department shall:

1. Verify the TSA approval of a Determination of No Security Threat;
2. Issue an Arizona CDL with an HME; and
3. Consider an applicant who has been subject to any action under R17-4-708(B) an original applicant and shall require the applicant to undergo a new Security Threat Assessment and testing requirements under R17-4-705.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 3368, effective November 10, 2007 (Supp. 07-3). Amended by final rulemaking at 24 A.A.R. 1543, effective May 1, 2018 (Supp. 18-2).

Table A. Recodified

Historical Note

Table A adopted by final rulemaking at 5 A.A.R. 2928, effective August 5, 1999 (Supp. 99-3). Table recodified to 17 A.A.C. 1, Article 1 at 7 A.A.R. 919, effective January 24, 2001 (Supp. 01-1).

ARTICLE 8. MOTOR VEHICLE RECORDS

R17-4-801. Definitions

"Batch" means a query-command method that initiates simultaneous production of an electronic file or series of requests that may have delayed results.

"Certified record" means a copy of a document designated as a true copy by the agency officer entrusted with custody of the original to be used for purposes prescribed under A.R.S. § 28-442.

"Commercial driver license record" has the same meaning as a CDLIS motor vehicle record as defined in 49 CFR 384.105.

"Customer number" means the system-generated, or other distinguishing number, assigned by the Department to each person with a record on the Department's database, which includes the driver license number assigned to a person for a driver license, identification card, or instruction permit.

"Driver record" means a motor vehicle record more specifically defined to include any data that pertains to a driver license, identification card, instruction permit, or driver related activities.

"Interactive" means an electronic query-command method individually initiated by a person that produces immediate results.

"Reasonable costs" has the same meaning as defined in A.R.S. § 12-351.

"Requester" means the person, as defined in A.R.S. § 41-1001, requesting a motor vehicle record.

"Special MVR" means a motor vehicle record that is comprised of the least possible subset of information necessary to respond to the type of request received.

"Support document" means any customer record maintained by the Department in an electronic, hardcopy, or microfilm file storage format.

"Title and registration record" means a motor vehicle record more specifically defined to include any data that pertains to a vehicle title or registration record.

Historical Note

Adopted effective June 29, 1990 (Supp. 90-2). Section recodified to R17-5-701 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 4376, effective February 2, 2008 (Supp. 07-4). Amended by final expedited rulemaking at 24 A.A.R. 3498, effective December 4, 2018 (Supp. 18-4).

R17-4-802. Motor Vehicle Record Request

A. Identification requirements. The requester of a motor vehicle record shall present valid identification as indicated on the motor vehicle record request form or at the request of the Department at the time a motor vehicle record request is made.

B. Charges and exemptions. The requester of a motor vehicle record shall pay the appropriate motor vehicle record copy charge under R17-4-803, unless exempt under A.R.S. § 28-446.

C. Motor vehicle record types. Under this Article, the Department may release any of the following motor vehicle record types:
1. Title and Registration record, uncertified;
2. Title and Registration record, certified;
3. Driver 39-month record, uncertified;
4. Driver five-year record, certified;
5. Driver extended history record, certified;
6. Special MVR, uncertified;
7. Commercial driver license record, uncertified;
8. Support documents, uncertified; and
9. Support documents, certified.

D. Search Criteria. A requester who has a permissible use under A.R.S. § 28-455, except as indicated under subsection (E) when using the permissible use under A.R.S. § 28-455(C)(11), shall provide at least one of the items of information listed in this subsection when requesting a motor vehicle record. The requester may need to provide additional information as needed in order to locate the record.
1. For a title and registration motor vehicle record:
   a. Vehicle identification number,
   b. License plate number, or
   c. Vehicle owner's full name.
2. For a driver motor vehicle record:
   a. The full name of the person whose record is requested, or
   b. Customer number.

E. Consent to release motor vehicle record. A requester who uses the permissible use under A.R.S. § 28-455(C)(13) shall present a properly signed Consent To Release Motor Vehicle Record - One-Time form from the person whose motor vehicle record is requested. A requester who uses the permissible use under A.R.S. § 28-455(C)(11) shall present a properly signed Consent To Release Motor Vehicle Record - General form from the person whose motor vehicle record is requested if that person has not previously submitted this form to the Department. In addition, a requester who uses the permissible use under A.R.S. § 28-455(C)(11) shall provide the items of information listed in this subsection. The Consent To Release Motor Vehicle Record forms are available at all Customer Service and Authorized Third Party Provider offices and online at https://www.azdot.gov.
1. For a title and registration motor vehicle record:
   a. Two items under subsection (D)(1), and
   b. The vehicle owner's residence address.
2. For a driver motor vehicle record:
   a. The name and customer number of the person whose record is requested, and
   b. The person's date of birth, or
   c. The person's address, or
   d. The person's Arizona driver license expiration date.

F. General consent to release information. The Department shall record a person's general consent to release information on the person's driver and title and registration records.
1. The general consent to release information is valid until revoked, in writing, by the person.
2. A person may submit the written notice of revocation:

a. In person, at a Customer Service office or Authorized Third Party Provider; or
b. By mail, to Motor Vehicle Division, P.O. Box 2100, Mail Drop 500M, Phoenix, AZ 85001-2100.

G. Insurance companies requesting a driver record. The Department shall not release to an insurer, broker, managing general agent, authorized agent or insurance producer any information in a person's driving record pertaining to a traffic violation that occurred 40 months or more before the date of a request for the release of the information.

Historical Note
Adopted effective August 16, 1991 (Supp. 91-3). Section repealed, new Section adopted effective April 19, 1994 (Supp. 94-2). Section recodified to R17-4-508 at 7 A.A.R. 3479, effective July 20, 2001 (Supp. 01-3). New Section made by final rulemaking at 13 A.A.R. 4376, effective February 2, 2008 (Supp. 07-4). Amended by final expedited rulemaking at 24 A.A.R. 3498, effective December 4, 2018 (Supp. 18-4).

R17-4-803. Record Copy Charges
In accordance with A.R.S. §§ 12-351 and 28-446, for each separate request, the Department shall assess a charge as provided in Table 1. Certified and Uncertified Motor Vehicle Record Fees. Therefore, a fee is collected if the request results in a motor vehicle record or "No Record Found."

Historical Note
New Section made by final expedited rulemaking at 24 A.A.R. 3498, effective December 4, 2018 (Supp. 18-4).

Table 1. Certified and Uncertified Motor Vehicle Record Fees

Description	Method of Delivery	Amount
A certified record:	Over-the-counter immediate or drop-off service; Mail-in request; or Electronic interactive.	$5
	Electronic batch.	$3
A certified support document:	Over-the-counter immediate or drop-off service; or Mail-in request.	$5
An uncertified record:	Over-the-counter immediate service; Mail-in request; or Electronic interactive.	$3
	Electronic batch; or Over-the-counter drop-off service.	$2
An uncertified support document:	Over-the-counter immediate or drop-off service; or Mail-in request.	$3
An uncertified Special MVR:	Over-the-counter immediate or drop-off service; Mail-in request; or Electronic interactive.	$1.50
Civil subpoena support documentation:	Served by a process server.	Reasonable costs
Any photocopied item: (Does not include… etc.)	Over-the-counter immediate or drop-off service; or Mail-in request.	25¢ per page

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 4. DEPARTMENT OF TRANSPORTATION

TITLE, REGISTRATION, AND DRIVER LICENSES

Material Incorporated by Reference

R17-4-702. Scope

In this Section, the Department incorporates by reference, 49 CFR 1572, revised as of October 1, 2023**.**

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 4. DEPARTMENT OF TRANSPORTATION

TITLE, REGISTRATION, AND DRIVER LICENSES

Statutory Authority

General Authority for Rulemaking

A.R.S. § 28-366. Director; rules

The director shall adopt rules pursuant to title 41, chapter 6 as the director deems necessary for:

1. Collection of taxes and license fees.

2. Public safety and convenience.

3. Enforcement of the provisions of the laws the director administers or enforces.

4. The use of state highways and routes to prevent the abuse and unauthorized use of state highways and routes.

A.R.S. § 28-5204. Administration and enforcement; rules

A. In the administration and enforcement of this chapter, the department of transportation shall adopt:

1. Reasonable rules it deems proper governing the safety operations of motor carriers, including rules governing safety operations of motor carriers, shippers and vehicles transporting hazardous materials, hazardous substances or hazardous wastes and shall prescribe necessary forms. In determining reasonable rules, the department of transportation shall consider:

(a) The nature of the operations and regulation of public service corporations as defined in article XV, sections 2 and 10, Constitution of Arizona.

(b) Rules adopted by the director of environmental quality pursuant to section 49-855.

2. Rules necessary to enforce and administer this chapter, including rules setting forth reasonable procedures to be followed in the enforcement of this chapter and rules adopting transporter safety standards for hazardous materials, hazardous substances and hazardous waste. In adopting the rules, the department shall consider, as evidence of generally accepted safety standards, the publications of the United States department of transportation and the environmental protection agency.

B. Rules adopted by the department of transportation also apply to a manufacturer, shipper, motor carrier and driver.

C. The department of public safety shall and a political subdivision may enforce this chapter and any rule adopted pursuant to this chapter by the department of transportation. A person acting for a political subdivision in enforcing this chapter is required to be certified by the department of public safety as qualified for the enforcement activities.

D. The department may audit records and inspect vehicles that are subject to this chapter.

Specific Statutes

A.R.S. § 28-3103. Driver license endorsements

A. A driver license applicant shall obtain the following endorsements to the applicant's driver license and shall submit to an examination appropriate to the type of endorsement if the applicant operates one or more of the following vehicles:

1. A motorcycle endorsement for operation of a motorcycle if the applicant qualifies for a class M license and if the applicant qualifies for or has a class A, B, C, D or G license.

2. A hazardous materials endorsement on a class A, B or C license for operation of a vehicle that transports hazardous materials, wastes or substances in a quantity and under circumstances that require the placarding or marking of the transport vehicle as required by the department's safety rules prescribed pursuant to chapter 14 of this title. The department or an outside source authorized by the department and approved by the transportation security administration may:

(a) Conduct background checks in accordance with the transportation security administration procedures.

(b) Require that all hazardous materials endorsement applicants submit fingerprints.

3. A double-triple trailer endorsement on a class A license for operation of a vehicle towing double or triple trailers.

4. A passenger vehicle endorsement on a class A, B or C license for operation of a bus designed to transport sixteen or more passengers, including the driver, or a school bus.

5. A tank vehicle endorsement on a class A, B or C license for operation of a tank vehicle. For the purposes of this paragraph, "tank vehicle" means a commercial motor vehicle that is designed to transport a liquid or gaseous material within a tank that is either permanently or temporarily attached to the vehicle or chassis, including a cargo tank and a portable tank and excluding a portable tank having a rated capacity under one thousand gallons.

6. A school bus endorsement on a class A, B or C license for operation of a school bus. Applicants shall successfully complete both a written knowledge test and a driving skills test to obtain a school bus endorsement.

B. When applying for a commercial driver license endorsement pursuant to article 5 of this chapter, the applicant shall successfully complete the skills portion of the examination in a motor vehicle or vehicle combination applicable to the endorsement.

C. On notification by the transportation security administration that an individual's authorization to hold a hazardous materials endorsement has been terminated, the department shall immediately cancel the hazardous materials endorsement on the driver's commercial driver license.

A.R.S. § 28-3159. Restricted licenses

A. With good cause, the department may issue the following restricted driver licenses:

1. A driver license with any of the following:

(a) Restrictions suitable to the licensee's driving ability for the type of motor vehicle or special mechanical control devices required on a motor vehicle that the licensee may operate.

(b) Restrictions suitable to the licensee's ability to drive a motor vehicle in areas, at locations or on highways or during certain times.

(c) Other restrictions as the department determines appropriate to ensure the safe operation of a motor vehicle by the licensee.

2. A class A, B or C driver license that restricts the driver from operating:

(a) A commercial motor vehicle equipped with air brakes, if the applicant either fails the air brake component of the knowledge examination or performs the skills test in a vehicle that is not equipped with air brakes.

(b) A vehicle in interstate commerce, if the applicant is not subject to 49 Code of Federal Regulations part 391.

(c) A motor vehicle for the purposes of interstate commerce, if an applicant for a class A, B or C license is at least eighteen years of age.

3. A class A, B or C driver license with other restrictions that the department determines are appropriate to ensure the safe operation of a commercial motor vehicle by the licensee.

4. A class M license that restricts the driver from driving a vehicle other than a motorcycle, motor driven cycle or moped with a maximum piston displacement of one hundred cubic centimeters or less, if the applicant performs the driving examination with a motorcycle, motor driven cycle or moped with a maximum piston displacement of one hundred cubic centimeters or less.

5. A special ignition interlock restricted driver license pursuant to chapter 4, article 3.1 of this title.

6. A license restricting the travel of the driver as provided in section 25-518.

B. The department may either issue a special restricted license or display the restrictions on the usual driver license form.

A.R.S. § 28-3223. Original applicant; requirements; expiration; renewal examination

A. In addition to the requirements applicable to all driver license applicants, an original applicant for a class A, B or C license is subject to the following requirements:

1. The applicant shall submit evidence of compliance with medical standards and requirements that the department adopts by rule.

2. The applicant must have held a driver license for at least one year either in this state, any other state or a foreign country.

3. The applicant shall take additional knowledge examinations to demonstrate understanding of the following:

(a) Safety operation rules.

(b) Commercial motor vehicle safety control systems.

(c) Safe vehicle control.

(d) The relationship of cargo to vehicle control.

(e) Basic hazardous materials knowledge.

(f) The objectives and proper procedures for performing vehicle safety inspections.

(g) Air brake systems.

(h) Legal requirements for size, weight and vehicle configurations.

(i) Emergency procedures.

4. In addition to the other requirements of this section, an applicant for a class A driver license shall demonstrate a knowledge and understanding of:

(a) Vehicle coupling and uncoupling.

(b) Unique combination vehicle inspections.

5. The applicant shall take a driving test in a vehicle or vehicle combination that at least meets the minimum size requirements for the class of driver license sought. The driving test shall include a demonstration of familiarity with pretrip inspection procedures.

B. A person possessing a commercial driver license on or before June 30, 2005 shall renew the license within eight years according to procedures established by the department.

C. Notwithstanding section 28-3171, the holder of a class A, B or C driver license shall renew the license every eight years in a manner prescribed by the department.

D. The department may administer an examination to a renewal applicant for a class A, B or C driver license. This examination on renewal shall include the following:

1. Evidence of compliance with medical standards adopted by the department.

2. Administration of knowledge tests or road tests, or both, as required of an original applicant.

New Section: R17-2-301; R17-2-302

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF TRANSPORTATION**
Title 17, Chapter 2 , Article 3

New Article: Article 3,

New Section: R17-2-301, R17-2-302

Summary:

This regular rulemaking from the Department of Transportation (Department) seeks to add a new article and two (2) new rules in Title 17, Chapter 2 regarding Aircraft Registration. Laws 2022, Chapter 264 authorized the Department to establish a staggered registration system for aircraft. This law amended the following statutes A.R.S. § 28-8322, 28-8324, 28-8325, 28-8328, 28-8329, 28-8330, and 28-8335. The law also added A.R.S. § 28-8322.01 and 28.8322.02. In addition to the registration system, the Department is setting a registration cycle, a prorated license tax (A.R.S. § 28-8322.01(C)), and allowing owners to register an aircraft fleet. The taxes and fees referenced within these rules are set by the legislature in statute, and not by the Department. The Department does issue a general permit as part of the aircraft registration, and is in compliance with A.R.S. § 41-1037.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Department cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase. These rules do however reference fees that are already set by statute, which is set by the legislature and not the Department. The tax referenced in A.R.S. § 28-8322.01(C) is also set by statute and not at the discretion of the Department.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Department indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Department indicates that it engages in this rulemaking to implement a staggered aircraft registration system pursuant to Laws 2022, Chapter 264. The department states that this rulemaking provides for a registration expiration date on the last day of the month. This rulemaking also includes an option for a fleet aircraft and the owner may choose to utilize the same expiration date for all aircraft placed within the fleet. The Department states that the creation of a system of monthly staggered registration will allow a distribution of the work of registering aircraft as uniformly as practicable throughout the 12 months of the calendar year which will benefit the aircraft owners, the public and ADOT. The Department believes the overall benefits to the aircraft owners, the public and ADOT outweigh the costs of establishing and implementing a new system.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states that in the rulemaking, ADOT routinely adopts the least costly and most practicable and effective option for any process or procedure required of the regulated public or industry. ADOT has determined that there is no less intrusive or less costly alternative method for achieving the proposed rulemaking as the rulemaking is statutorily driven and meant to help the aircraft owners and ADOT. In addition, ADOT is implementing a new electronic and online registration system that should be a benefit. Plus, the new staggered registration system is similar to ADOT's staggered vehicle registration system.

6. What are the economic impacts on stakeholders?

The Department states that for the aircraft owners and the public, this rulemaking will provide guidance and clarity for the legislation, the new registration process, and for ADOT requirements. The Department believes this new system should help prevent increases in the turnaround time for registration which will decrease frustration from the owners and ADOT. The implementation of this new system will also include more electronic and online interaction and processing which will benefit the public as well. The Department states that this rulemaking also provides for a fleet option as allowed under the new legislation, which will help aircraft owners to maintain the same expiration date for all their aircraft. The Department indicates that this rulemaking does not impose any new cost for the public.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Department indicates that there was one change between the proposed rulemaking and the final rulemaking. In R17-2-302(C) the Department removed the language ""applying for Initial", this was removed because renewal registrations also apply and the initial language would be inaccurate.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Department indicates it received three public comments regarding this rulemaking. All comments are part of the materials provided to the Council.

One comment was from an individual who works for someone who owns a hangar and aircraft at a local airport. The comment was asking about if registration applied if the aircraft are domiciled in another state. The Department responded by saying domicile will dictate where the aircraft is registered, in this case the other state.

The second comment was in support of the rulemaking, and request for the Department to explore future rulemaking concerning what constitutes a "based aircraft". Using the FAA National Based Aircraft registry as means of auditing registration, and to track how many days aircraft are in the state. The Department indicates that they would review the suggestions and further investigate if they are necessary.

The third comment came in after the rules were submitted to GRRC. The comment asked the question about the definition of day concerning a recent court case for a different matter. The Department indicated that the case was considered in the rulemaking process and that there is no issue with the definition.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department indicates that these rules deal with registration of an aircraft and the Department considers this registration to be a general permit because the activities are substantially similar in nature for all aircraft owners.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are no corresponding requirements in federal law. The Department indicates that FAA regulations do apply if a lien is recorded on an aircraft, and that the rules are in accordance with those regulations.

11. Conclusion

This regular rulemaking from the Department of Transportation (Department) seeks to add a new article and two (2) new rules in Title 17, Chapter 2 regarding Aircraft Registration. The Department is specifically required by A.R.S. § 28-8322.01 (Laws 2022, Chapter 264) to establish a system of staggered registration for aircraft.

The Department is seeking the standard 60-day delayed effective date pursuant to A.R.S. §41-1032(A).

Council staff recommends approval of this rulemaking.

Jessica Klein, Chair
Governor's Regulatory Review Council
100 N. 15th Ave., Suite 305
Phoenix, AZ 85007

Re: Department of Transportation, 17. A.A.C. 2, Article 3, Aircraft Registration, Notice of Final Rulemaking

Dear Chairperson Jessica Klein:

The Arizona Department of Transportation submits the accompanying final rule package for consideration by the Governor's Regulatory Review Council. The following information is provided to comply with R1-6-201(A)(1):

a. The rulemaking record closed on January 29, 2025, and written public comments were received on these rules;
b. The rulemaking activity does not relate to a five-year review report;
c. The rulemaking does not establish a new fee;
d. The rulemaking does not increase an existing fee;
e. An immediate effective date is not requested for these rules under A.R.S. § 41-1032;
f. The preamble discloses that the Department did not review any studies relevant to the rules and did not rely on any studies in its evaluation of or justification for the rules;
g. No new full-time employees are necessary to implement and enforce the rules;
h. Documents included in this final rule package are as follows:
    1. Signed cover letter;
    2. Notice of Final Rulemaking, including the preamble, table of contents, and text of each rule;
    3. Economic, Small Business and Consumer Impact Statement;
    4. Written comments on the rules received by the Department and the Department's responses;
    5. Written transcript of the oral proceeding;
    6. General authorizing statutes and specific statutes, including relevant statutory definitions;
    7. Definitions of terms; and
    8. Request for, and approvals of initial and final rulemaking from the Governor's Office.

Sincerely,

Jennifer Toth
Director

Enclosures

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 2. DEPARTMENT OF TRANSPORTATION

AERONAUTICS

PREAMBLE

1. Permission to proceed with this final rulemaking was granted under A.R.S. § 41-1039 by the governor on:

April 16, 2025

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**
Article 3	New Article
R17-2-301	New Section
R17-2-302	New Section

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. § 28-366

Implementing statute: A.R.S. §§ 28-8322, 28-8322.01, 28-8322.02, 28-8324, 28-8325, 28-8328, 28-8329, 28-8330, and 28-8335

4. The effective date of the rule:

This rule shall become effective 60 days after a certified original and preamble are filed in the Office of the Secretary of State pursuant to A.R.S. § 41-1032(A). The effective date is (to be filled in by *Register* editor).

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

Not applicable

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

Not applicable

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the final rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 3782, Issue Date: December 13, 2024, Issue Number: 50, File number: R24-275

Notice of Proposed Rulemaking: 30 A.A.R. 3745, Issue Date: December 13, 2024, Issue Number: 50, File number: R24-270

6. The agency's contact person who can answer questions about the rulemaking:

Name: Candace Olson

Title: Senior Rules Analyst

Office: Government Relations and Rules

Address: Department of Transportation
206 S. 17th Ave., Mail Drop 180A
Phoenix, AZ 85007
Telephone: (480) 267-6610
Email: COlson2@azdot.gov
Website: https://azdot.gov/about/government-relations

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The Arizona Department of Transportation (ADOT) engages in this rulemaking to implement a staggered aircraft registration system pursuant to Laws 2022, Chapter 264. This rulemaking provides for a registration expiration date on the last day of the month. This rulemaking also includes an option for a fleet aircraft and the owner may choose to utilize the same expiration date for all aircraft placed within the fleet. The creation of a system of monthly staggered registration will allow a distribution of the work of registering aircraft as uniformly as practicable throughout the 12 months of the calendar year which will benefit the aircraft owners, the public, and ADOT.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

ADOT did not review or rely on any study relevant to the rules.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

The creation of a system of staggered registration on a monthly basis will allow a distribution of the work of registering aircraft as uniformly as practicable throughout the 12 months of the calendar year which will benefit the aircraft owners, the public, and ADOT.

This rulemaking will allow a more efficient use of ADOT's resources and minimize any increases in cost and burdens to ADOT personnel having to meet the demands and pressure of processing the renewal registrations of all aircraft at the end of February. The initial setup and transition had substantial costs but with the system in place costs should decrease.

For the aircraft owners and the public, this rulemaking will provide guidance and clarity for the legislation, the new registration process, and for ADOT requirements. This new system should help to prevent increases in the turnaround time for registration which will decrease frustration from the owners and ADOT. The implementation of this new system will also include more electronic and online interaction and processing which will benefit the public as well. This rulemaking also provides for a fleet option as allowed under the new legislation, which will help the aircraft owners to maintain the same expiration date for all their aircraft. This rulemaking does not impose any new costs for the public.

The overall benefits to the aircraft owners, the public, and to ADOT outweigh the costs of establishing and implementing this new system.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

In R17-2-302(C), removed the verbiage "applying for initial" to clarify and allow for the notification of an exemption at renewal registrations, which is currently allowed.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

ADOT received a couple of comments regarding this rulemaking.

Company/Individual	Comment	ADOT's Response
3D Money/Sharaya Hagen-Howard	I work for a pilot that owns a hangar at Falcon Field in Mesa. However, his aircraft is domiciled in the state of Minnesota, which is where he also pays his aircraft registration fee and pays sales tax. Will any of this proposed rulemaking affect how he is to register his aircraft? Or will he continue to register with the State of Minnesota the way he has.	No, it will not. Correct, that he will continue to register the same way he has (with Minnesota).
Glendale Regional Airport/Matthew Smith	I want to express my support for the proposed changes. 1. It will be more convenient for aircraft owners, and more in-line with generally accepted practices of motor vehicle registration. It should be very easy to implement considering MVD has millions of cars and we're only looking at thousands of aircraft. 2. It will help ADOT finance group smooth out cashflow on behalf of the MPD-Aeronautics group. Instead of a couple big deposits into the State Aviation Fund, there will be a monthly deposit from which ADOT-MPD-Aeronautics can disperse grant reimbursements. This is a big win for airports. If I could ask anything more, it might be to make it explicit that aircraft owners must be registered in the State of Arizona to qualify as a "based aircraft" at an Arizona Airport. However, local airport sponsors can probably include that in our own rules	ADOT appreciates the support and suggestions. Regarding the "based aircraft" suggestion, ADOT understands the concern but does not think this falls within ADOT's authority which is to the registration of the aircraft, and this is for the airports to manage and enforce. State statute, A.R.S. § 28-8322, also asserts that aircraft based in this state shall be registered. Regarding the last two suggestions, ADOT will conduct an in-depth analysis to further investigate, evaluate, and assess the cost-effectiveness of them. There does look to be potential in using these tools and may make it easier to audit and

	and regulations. It would just be nice to have it consistent statewide. Many aircraft owners constantly play the shell game with their aircraft to avoid paying the registration fee and local airport fees. I would also encourage the ADOT-MVD-Aircraft Registration Unit and MPD-Aeronautics group to use the FAA National Based Aircraft registry as a means of auditing state aircraft registration. Finally, I would encourage the Aircraft Registration Unit to use Virtower or a similar ADS-B tracking system to determine what aircraft are in-state for 90 days or more per year and use that information to press the owners for the registration fees.	enforce registration. These processes though are more of an internal process and ADOT does not think they need to be added to the rules.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable to ADOT or to any specific rule or class of rules.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

These rules deal with the registration of aircraft. This registration is a general permit since the activities and practices authorized by them are substantially similar in nature to all aircraft owners.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

In general, these rules concern the process of registering aircraft with Arizona and are subject to state law and regulations. A person that fails to register and pay their aircraft fees in full may be subject to an assessment by ADOT and having a lien recorded on the aircraft with the Federal Aviation Administration (FAA). Liens recorded with the FAA are subject to their recording fee. This rulemaking is in accordance with that.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted to ADOT.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

Not applicable

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

16. The full text of the rules follows:

Rule text begins on the next page.

TITLE 17. TRANSPORTATION
CHAPTER 2. DEPARTMENT OF TRANSPORTATION
AERONAUTICS

ARTICLE 3. AIRCRAFT REGISTRATION

Section

ARTICLE 3. AIRCRAFT REGISTRATION

R17-2-301. Definitions

The following terms apply to this Article unless otherwise specified:

"Aircraft" has the same meaning as defined in A.R.S. § 28-8201.

"Aircraft fees" means the fees due to the Department at the time of registration and consisting of the general registration fee imposed under A.R.S. § 28-8325; the license tax imposed under A.R.S. Title 28, Chapter 25, Article 4; and applicable penalty.

"Day" means the 24-hour period from one midnight to the following midnight.

"Department" has the same meaning as defined in A.R.S. § 28-101.

"Expiration date" means the day, month, and year in which an aircraft registration expires.

"Initial registration" means the first time an aircraft is subject to registration in Arizona.

"Lien recording fee" means the recording fee prescribed by the Federal Aviation Administration.

"Registration certificate" means proof, issued by the Department, of the aircraft's registration in this state.

"Registration cycle" means the time-frame during which an aircraft registration is valid.

R17-2-302. Aircraft Registration

A. The Department shall assign a staggered expiration date when issuing an initial registration to an aircraft.

1. The initial registration expires on the last day of the month, 12 months from the month the aircraft is subject to Arizona registration.
2. The subsequent expiration dates expire 12 months from the expiration of the previous registration cycle.

B. Registration requirements. A person applying to register or to renew the registration of an aircraft shall submit the following:

1. A request for registration from either:
   a. A completed application for aircraft registration, provided by the Department, when applying for registration; or
   b. Identifying aircraft registration information as indicated by the Department when renewing a registration;
2. Payment of aircraft fees, as applicable, which may be submitted as multiple partial payments, but the registration of the aircraft is not complete until the full payment is received; and
3. An aircraft exemption affidavit, if applicable.

C. Exemptions. A person who owns an aircraft exempt from registration or license tax or both must declare their exempt status on an aircraft exemption affidavit, provided by the Department, at the time of registration. An active-duty military personnel member must resubmit the affidavit annually and a tribal member will need to resubmit the affidavit if the tribal member's address changes.

D. Proration of fees. The Department shall prorate an aircraft license tax as applicable under A.R.S. § 28-8322.01.

E. Date of receipt. The date of receipt for the items required under subsections (B) and (C) shall be the following:

1. The date of the completed electronic transaction, or
2. The date of the postmark stamped on the mailed items.

F. Evidence of registration. The Department shall issue a registration certificate and receipt as evidence of registration.

G. Assessment, penalty, and lien. A person that fails to register and pay their aircraft fees in full within 60 days of the aircraft's entry into this state, within 60 days of purchase or lease, or by the annual expiration date established in subsection (A) will be subject to an assessment under A.R.S. § 28-8328 and a penalty under A.R.S. § 28-8329. To determine if an assessment is to be issued, any part of a calendar day that an aircraft spends on the ground is counted as one day toward the determination of whether the aircraft is required to be registered and whether aircraft registration fees, assessments, penalties, and liens are to be collected. After 30 days from the issuance of the assessment, the Department may record a lien under A.R.S. § 28-8330 on the aircraft. To release the lien, a person will need to submit to the Department the full payment of the outstanding aircraft fees and a lien recording fee when the lien is filed with the Federal Aviation Administration.

H. Fleet. A person who owns two or more aircraft may request to have the aircraft registrations expire on the same date by submitting an application provided by the Department and a list of all aircraft to be included in the fleet at least 30 days before the registration.

1. The Department shall establish a registration cycle that expires on the last day of the month selected by the aircraft owner. The month selected must be the established expiration month of a currently registered aircraft.
2. Aircraft eligible to be placed into an unexpired fleet must be within at least three months prior to the aircraft's registration expiration date, if currently registered, or at any time, if the aircraft's registration is expired.
3. The Department shall prorate aircraft license tax as applicable under A.R.S. § 28-8322.02.
4. The person shall pay any aircraft fees and submit an aircraft exemption affidavit, if applicable.

ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT

TITLE 17. TRANSPORTATION

CHAPTER 2. DEPARTMENT OF TRANSPORTATION

AERONAUTICS

R17-2-301 and R17-2-302

A. Economic, small business and consumer impact summary:

1. Identification of the proposed rulemaking:

The Arizona Department of Transportation (ADOT) engages in this rulemaking to implement a staggered aircraft registration system pursuant to Laws 2022, Chapter 264. This rulemaking provides for a registration expiration date on the last day of the month. This rulemaking also includes an option for a fleet aircraft and the owner may choose to utilize the same expiration date for all aircraft placed within the fleet. The creation of a system of monthly staggered registration will allow a distribution of the work of registering aircraft as uniformly as practicable throughout the 12 months of the calendar year which will benefit the aircraft owners, the public and ADOT.

a. The conduct and its frequency of occurrence that the rule is designed to change:

Prior to the 2022 legislation, all aircraft registration had to be renewed annually by the last day of February. In addition, if an aircraft became subject to Arizona registration after the beginning of the calendar year the license tax for that year on the aircraft had to be reduced by one-twelfth for each full month of the calendar year that had expired. This registration system created undue costs and burdens for ADOT and for personnel having to meet the demands and pressure of processing all the renewal registrations of aircraft at the end of February.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

If these rules are not adopted, ADOT will not be in compliance with state law and the statutory rulemaking requirement under A.R.S. § 28-8322.01, which could expose ADOT to potential litigation and confusion by owners of Arizona-based aircraft. Additionally, failure to adopt rules could be seen as a state agency ignoring the will of the Legislature, which could cause unnecessary problems.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

This rulemaking would ensure compliance with Laws 2022, Chapter 264 (A.R.S. § 28-8322.01) and consistency in application of the statutory and ADOT requirements which will better serve the public and allow for better public understanding. It would also allow more efficient use of ADOT's resources and minimize any increases in cost and burdens. This new system should help to prevent increases in the turnaround time for registration which will decrease frustration from the owners and ADOT. This rulemaking also provides for a fleet option as allowed under the new legislation, which will help the public to maintain the same expiration date for all their aircraft.

2. **Brief summary of the information included in the economic, small business and consumer impact statement:**

The creation of a system of staggered registration on a monthly basis will allow a distribution of the work of registering aircraft as uniformly as practicable throughout the 12 months of the calendar year which will benefit the aircraft owners, the public, and ADOT.

This rulemaking will allow a more efficient use of ADOT's resources and minimize any increases in cost and burdens to ADOT personnel having to meet the demands and pressure of processing the renewal registrations of all aircraft at the end of February. The initial setup and transition had substantial costs but with the new system in place costs should decrease.

For the aircraft owners and the public, this rulemaking will provide guidance and clarity for the legislation, the new registration process, and for ADOT requirements. This new system should help to prevent increases in the turnaround time for registration which will decrease frustration from the owners and ADOT. The implementation of this new system will also include more electronic and online interaction and processing which will benefit the public as well. This rulemaking also provides for a fleet option as allowed under the new legislation, which will help the aircraft owners to maintain the same expiration date for all their aircraft. This rulemaking does not impose any new costs for the public.

The overall benefits to the aircraft owners, the public, and to ADOT outweigh the costs of making and implementing this new system.

3. **Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:**

Name: Candace Olson, Senior Rules Analyst
Address: Government Relations and Rules
Department of Transportation
206 S. 17th Ave., Mail Drop 180A
Phoenix, AZ 85007
Telephone: (480) 267-6610
E-mail: COlson2@azdot.gov

B. Economic, small business and consumer impact statement:

1. **Identification of the proposed rulemaking:**

See paragraph (A)(1) above.

2. **Identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking:**

Persons to bear costs	**Persons directly benefiting**
ADOT	ADOT

Persons to bear costs	Persons directly benefiting
Aircraft owners	Aircraft owners
	General public

3. Analysis of costs and benefits occurring in this state:

Cost-revenue scale. Annual costs or revenues are defined as follows:

Minimal less than $10,000

Moderate $10,000 to $99,999

Substantial $100,000 or more

a. Probable costs and benefits to ADOT and other agencies directly affected by the implementation and enforcement of the proposed rulemaking:

ADOT incurred substantial costs, including necessary programming costs to update and change the aircraft registration system, and costs from communicating the change to the aircraft owners. While exact programming costs are indeterminate due to work being done in tangent with other ADOT programming, it is estimated to have cost at least $1,269,000. ADOT benefits from the rulemaking due to the savings in time from having all the registered aircraft being renewed and processed in the same limited period, changing to the registrations being renewed and processed staggered throughout the year. This rulemaking will allow a more efficient use of ADOT's resources and minimize any increases in cost and burdens to ADOT personnel having to meet the demands and pressure of processing the renewal registrations of all aircraft at the end of February. The rules do not impose additional costs on any other state agency. In time, ADOT may experience some cost savings from a more efficient registration system. The overall benefits to aircraft owners, the public, and to ADOT outweigh the costs of making and implementing this new system.

ADOT is not required to notify the Joint Legislative Budget Committee under A.R.S. § 41-1055(B)(3)(a), since no new full-time employees are necessary to enforce and implement these rules.

b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking:

The costs and benefits to a political subdivision would be the same as for any aircraft owner. There are no new fees associated with this rulemaking, which are set by statute. Existing aircraft owners may have minimal costs for recordkeeping and organization needed for adjusting to a new registration expiration date if chosen or to the new electronic renewal system. This rulemaking will provide guidance and clarity for the legislation, the new registration process, and for ADOT requirements. This new system should help to prevent increases in the turnaround time for registration which will decrease frustration from the owners and ADOT. The implementation of this new system will also include more electronic and online interaction and processing which will benefit the public as well.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking:

The costs and benefits for businesses are the same as discussed under paragraph (B)(3)(b) above.

4. General description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking:

ADOT anticipates no impact on private and public employment as a result of this rulemaking.

5. Statement of the probable impact of the proposed rulemaking on small businesses:

a. Identification of the small businesses subject to the proposed rulemaking:

Any small businesses, as defined under A.R.S. § 41-1001, that own any aircraft subject to registration under A.R.S. § 28-8322.

b. Administrative and other costs required for compliance with the proposed rulemaking:

General administrative costs for small businesses are the same as discussed under paragraph (B)(3)(b) above. Overall, ADOT anticipates a minimal impact to aircraft owners and business entities as a result of this rulemaking.

c. Description of the methods that ADOT may use to reduce the impact on small businesses:

The costs associated with this rulemaking are uniform regardless of business size. Pursuant to A.R.S. § 28-8322.02, applicable small businesses that own more than one aircraft may choose a fleet option for their registered aircraft and have the same expiration date. The new registration system and electronic process should help small businesses better manage their aircraft registrations and may help reduce administrative costs in the long run.

d. Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking:

The costs and benefits for private persons and consumers are the same as discussed under paragraph (B)(3)(b) above.

6. Statement of the probable effect on state revenues:

ADOT anticipates that there is no fiscal impact to state revenues associated with this rulemaking. Potentially, with the rules providing guidance and clarity for the legislation and ADOT requirements, especially in regard to time spent by an aircraft on the ground, there may be more aircraft that are determined to meet the registration requirements. For FY 2024, there were 7,901 aircraft registered with $9,346,555 in total revenue (annual license tax, registration fee, assessment, and penalties) collected. Also, in FY 2024, there were 71 aircraft with a lien.

7. Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using non-selected alternatives:

In rulemaking, ADOT routinely adopts the least costly and most practicable and effective option for any process or procedure required of the regulated public or industry. ADOT has determined that there is no less intrusive or less costly alternative method for achieving the proposed rulemaking as the rulemaking is

statutorily driven and meant to help the aircraft owners and ADOT. In addition, ADOT is implementing a new electronic and online registration system that should be a benefit. Plus, the new staggered registration system is similar to ADOT's staggered vehicle registration.

C. Explanation of limitations of the data and the methods that were employed in the attempt to obtain the data and a characterization of the probable impacts in qualitative terms. The absence of adequate data, if explained in accordance with this subsection, shall not be grounds for a legal challenge to the sufficiency of the economic, small business and consumer impact statement:

None

Rulemaking Title 17, Chapter 2, Article 3 (R17-2-301 & -302)

1 message

Smith, Matt <MSmith3@glendaleaz.com> Thu, Jan 2, 2025 at 1:06 PM
To: "COlson2@azdot.gov" <COlson2@azdot.gov>

I cannot make it to the public hearing, but I want to express my support for the proposed changes.

1. It will be more convenient for aircraft owners, and more in-line with generally accepted practices of motor vehicle registration. It should be very easy to implement considering MVD has millions of cars and we're only looking at thousands of aircraft.
2. It will help ADOT finance group smooth out cashflow on behalf of the MPD-Aeronautics group. Instead of a couple big deposits into the State Aviation Fund, there will be a monthly deposit from which ADOT-MPD-Aeronautics can disperse grant reimbursements. This is a big win for airports.

If I could ask anything more, it might be to make it explicit that aircraft owners must be registered in the State of Arizona to qualify as a "based aircraft" at an Arizona Airport. However, local airport sponsors can probably include that in our own rules and regulations. It would just be nice to have it consistent statewide. Many aircraft owners constantly play the shell game with their aircraft to avoid paying the registration fee and local airport fees.

I would also encourage the ADOT-MVD-Aircraft Registration Unit and MPD-Aeronautics group to use the FAA National Based Aircraft registry as a means of auditing state aircraft registration.

Finally, I would encourage the Aircraft Registration Unit to use Virtower or a similar ADS-B tracking system to determine what aircraft are in-state for 90 days or more per year and use that information to press the owners for the registration fees.

Thank you.

Best regards,

Matt Smith, C.M., D.Eng.

Good Morning Mr. Smith,

Thank you for your response and support of the rulemaking. I will share your suggestions and let you know if anything is determined.

Thank you,
Candace

Re: Rulemaking Title 17, Chapter 2, Article 3 (R17-2-301 & -302)

1 message

Candace Olson <colson2@azdot.gov> Fri, Mar 28, 2025 at 2:33 PM
To: "Smith, Matt" <MSmith3@glendaleaz.com>

Good Afternoon Mr. Smith,

I just wanted to follow up to my previous email.

First, the Department really appreciates the support and suggestions.

Regarding the “based aircraft” suggestion, the Department understands the concern but does not think this falls within ADOT’s authority which is to the registration of the aircraft, and this is for the airports to manage and enforce. State statute, A.R.S. § 28-8322, also asserts that aircraft based in this state shall be registered.

Regarding the last two suggestions, the Department is conducting an in-depth analysis to further investigate, evaluate, and assess the cost-effectiveness of them. There does look to be potential in using these tools and may make it easier to audit and enforce registration. These processes though are more of an internal process and the Department does not think they need to be added to the rules.

Thank you for your comments and if you have any questions, please let me know.

Thank you,
Candace

1. It will be more convenient for aircraft owners, and more in-line with generally accepted practices of motor vehicle registration. It should be very easy to implement considering MVD has millions of cars and we're only looking at thousands of aircraft.
2. It will help ADOT finance group smooth out cashflow on behalf of the MPD-Aeronautics group. Instead of a couple big deposits into the State Aviation Fund, there will be a monthly deposit from which ADOT-MPD-Aeronautics can disperse grant reimbursements. This is a big win for airports.

If I could ask anything more, it might be to make it explicit that aircraft owners must be registered in the State of Arizona to qualify as a "based aircraft" at an Arizona Airport. However, local airport sponsors can probably include that in our own rules and regulations. It would just be nice to have it consistent statewide. Many aircraft owners constantly play the shell game with their aircraft to avoid paying the registration fee and local airport fees.

I would also encourage the ADOT-MVD-Aircraft Registration Unit and MPD-Aeronautics group to use the FAA National Based Aircraft registry as a means of auditing state aircraft registration.

Finally, I would encourage the Aircraft Registration Unit to use Virtower or a similar ADS-B tracking system to determine what aircraft are in-state for 90 days or more per year and use that information to press the owners for the registration fees.

Thank you.

Aircraft Registration Rules Question

1 message

Sharaya Hagen <assist@3dmoney.com> Wed, Jan 29, 2025 at 2:40 PM
To: COlson2@azdot.gov

Hello Candace,
I just raised my hand during this hearing and asked the following question:

“I work for a pilot that owns a hangar at Falcon Field in Mesa. However, his aircraft is domiciled in the state of Minnesota, which is where he also pays his aircraft registration fee and pays sales tax. Will any of this proposed rule making affect how he is to register his aircraft? Or will he continue to register with the State of Minnesota the way he has.”

Thank you!

Thank You,

Sharaya Hagen-Howard

Fwd: Aircraft Registration Rules Question

1 message

Candace Olson <colson2@azdot.gov> Thu, Feb 13, 2025 at 5:00 PM
To: grrccomments@azdoa.gov

Good Afternoon GRRC Staff,

Please find the following email the Arizona Department of Transportation received in regards to its aircraft registration rulemaking package. The comment was originally given during the oral proceeding on January 29th. The Department provided an answer at that time, which was no, that the rules will not affect that registration and that the pilot would continue to register the way they have.

I asked the commenter to submit their comment in writing.

Thank you,
Candace

To: Samantha Spawn <samantha@hamplaw.com>

Good Morning Samantha Spawn,

Thank you for your inquiry regarding the Department’s aircraft registration rulemaking.

A definition of “day” is included in the proposed R17-2-301 with additional language regarding the determination of an assessment in R17-2-302. The proposed rulemaking language can be found in the Notice of Proposed Rulemaking, published in 30 A.A.R. 3745, December 13, 2024, Issue 50. The ruling in the BSI Holdings case was considered during the rulemaking process. The public record for this rulemaking closed on January 29th. A Notice of Final Rulemaking has been filed with the Governor's Regulatory Review Council for their consideration on April 21st, with no changes to the definition or assessment language from the Notice of Proposed Rulemaking.

If you have any additional questions or if I can be of further assistance, please let me know.

Thank you,
Candace

Public Hearing - Aircraft Registration Rules - 2025/01/29 14:18 MST - Transcript

Attendees

Anahi Villalobos, Antonia Mejia, Candace Olson, Candace Olson's Presentation, Jennifer Thomsen, John Lindley, John Parks, Kamaria McDonald, Ralene Whitmer, Sharaya Hagen, Susan Trask

Transcript

Candace Olson: Good afternoon. Welcome to the oral proceeding for the Arizona Department of Transportation proposed rules for the implementation of a staggered aircraft registration system pursuant to Laws 2022, Chapter 264. My name is Candace Olson, Senior Rules Analyst with the Arizona Department of Transportation, and I will be facilitating this oral proceeding. Today is January 29th, 2025, and the time is 2:31 p.m. This meeting is being held virtually through Google Meet with a phone-in option as noted in the agenda. This virtual meeting is being recorded.

Candace Olson: There are links to the following documents and forms in the chat feature. Aircraft Registration Rules Oral Proceeding Agenda, Notice of Proposed Rulemaking, Meeting Sign-in Sheet form, Speaker Slip/Comments form, ADOT Self-Identification Survey. ADOT complies with Title VI of the Civil Rights Act of 1964, Title II of the Americans with Disabilities Act of 1990 and other related authorities in all its programs and activities.

Candace Olson: Any person who believes his or her Title VI or ADA rights have been violated may file a complaint by contacting the ADOT Civil Rights Office at 602-712-8946 or by email at civilrightsoffice@azdot.gov within 180 days of the alleged violation. For the record, here's the previous information presented in Spanish.

Candace Olson: ADOT will make reasonable accommodations to ensure that individuals with disabilities have an equal opportunity to enjoy ADOT's programs, services, and activities. If you require an accommodation, please contact the External Civil Rights Program at 602-712-8946. For the record, here is the previous information presented in Spanish.

Candace Olson: The ADOT Self-Identification Survey. By completing this voluntary survey, ADOT will be able to determine who attends its public meetings and how the department can improve participation. This survey will also help ADOT fulfill federal reporting requirements. For the record, that information is also presented in Spanish. The Department is conducting this oral proceeding to solicit comments relating to the proposed rules for the implementation of a staggered aircraft registration system pursuant to Laws 2022, Chapter 264. This rulemaking establishes a registration expiration on the last day of the month; registration requirements; and clarifies exemption requirements, assessments, penalties, and liens.

Candace Olson: This rulemaking also includes an option for a fleet aircraft and the owner may choose to utilize the same expiration date for all aircraft placed within the fleet. The creation of a system of monthly staggered registration will allow a better distribution of the work of registering aircraft throughout the 12 months of the calendar year which will benefit the aircraft owners, the public, and ADOT. The Director has designated me to preside during this oral proceeding. It is my responsibility to act as presiding officer for the purposes of securing oral and written public comments and compiling the record to be considered in the development of the final rules. Oral statements will be recorded and the Department will consider all written oral comments in drafting the final rules.

Candace Olson: I am joined on today's panel with an additional member of Department staff who may respond to your questions and concerns. At this time, the other panel member will introduce himself.

John Parks: Hello, my name is John Parks and I am the Supervisor of the Aircraft Registration Unit.

Candace Olson: We do appear to have at least one attendee.

John Parks: I am the supervisor of the aircraft registration unit.

Candace Olson: The Department welcomes and appreciates all public comments. Everyone who wishes to speak must complete and submit a Speaker Slip/Comments form, link available in the chat feature, so that we are able to identify the source of comments when the oral proceeding record is reviewed. For anyone that is on the phone, I will complete the Speaker Slip/Comments form for you. I will call up each speaker from the slips that have been submitted. I will then ask for anyone that is on the phone to unmute and speak. If you have not submitted a Speaker Slip/Comments form and decide to speak as we proceed today, simply complete and submit the form before I conclude this meeting. Each of you will have the opportunity to provide comments regarding the proposed rules. We will limit each person to 5 minutes. If you would like to further elaborate or clarify your comments, the Department will accept written comments on the proposed rulemaking until 5:00 p.m. today.

00:05:00

Candace Olson: These comments may be submitted through the Speaker Slip/Comments form or emailed to COlson2@azdot.gov. If anyone has any general questions regarding this proceeding, please submit them through the chat feature, the Q&A feature, the raise your hand feature, or unmute your phone and let me know. Otherwise, again, any comments regarding this rulemaking must be submitted through the Speaker Slip/Comments form. Thank you. Okay, let me see if we have any submitted Comments forms. Okay, I do not see any submitted. Is there anyone on the phone or anyone else that would like to speak on these rules?

Candace Olson: Yes. Is it Sharaya?

Sharaya Hagen (online attendee): Yes, it is. Thank you, nice job. Um, I just have a quick question. So, we have…I work for a pilot and he owns a hanger at Falcon Field in Mesa, but his aircraft is domiciled and registered with the state of Minnesota. Will any of this affect his registration?

John Parks: No, it will not.

Sharaya Hagen: Okay. So, he will continue to just register the same way that he has been.

John Parks: Correct.

Sharaya Hagen: Great. That's all I needed. Thank you so much.

John Parks: You're welcome.

Candace Olson: Sharaya, just for the record, could you still submit your question, even though it wasn't specific to the rules but still submit it in written form. Just so I have it for the record.

Sharaya Hagen: In the Speaker Comments form?

Candace Olson: Yes. Are you able to access that? If not, you can just email me, too.

Sharaya Hagen: I was just going to email you, so I'll do that.

Candace Olson: Okay. I appreciate it. Thank you.

Sharaya Hagen: Thank you.

Candace Olson: Is there anyone else wishing to speak? Do not believe I see any other, nor do I see anyone on the phone. So, we'll move on then. Well, thank you for your question and comment. Once again, comments on these rules are encouraged, and any written comments I received by 5:00 PM today will be considered in drafting the final rules. If you have not completed and submitted a Meeting Sign-in Sheet form, please do so before you leave. Just again, one last chance for anyone else to join or speak up.

Candace Olson: Okay. I now conclude this oral proceeding. The time is 2:39 p.m. Thank you for attending. We'll now end the recording as well.

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 5. DEPARTMENT OF TRANSPORTATION

COMMERCIAL PROGRAMS

Definitions of Terms

A.R.S. § 28-101. Definitions

In this title, unless the context otherwise requires:

1. "Alcohol" means any substance containing any form of alcohol, including ethanol, methanol, propynol and isopropynol.

2. "Alcohol concentration" if expressed as a percentage means either:

(a) The number of grams of alcohol per one hundred milliliters of blood.

(b) The number of grams of alcohol per two hundred ten liters of breath.

3. "All-terrain vehicle" means either of the following:

(a) A motor vehicle that satisfies all of the following:

(i) Is designed primarily for recreational nonhighway all-terrain travel.

(ii) Is fifty or fewer inches in width.

(iii) Has an unladen weight of one thousand two hundred pounds or less.

(iv) Travels on three or more nonhighway tires.

(v) Is operated on a public highway.

(b) A recreational off-highway vehicle that satisfies all of the following:

(i) Is designed primarily for recreational nonhighway all-terrain travel.

(ii) Is eighty or fewer inches in width.

(iii) Has an unladen weight of two thousand five hundred pounds or less.

(iv) Travels on four or more nonhighway tires.

(v) Has a steering wheel for steering control.

(vi) Has a rollover protective structure.

(vii) Has an occupant retention system.

4. "Authorized emergency vehicle" means any of the following:

(a) A fire department vehicle.

(b) A police vehicle.

(c) An ambulance or emergency vehicle of a municipal department or public service corporation that is designated or authorized by the department or a local authority.

(d) Any other ambulance, fire truck or rescue vehicle that is authorized by the department in its sole discretion and that meets liability insurance requirements prescribed by the department.

5. “Autocycle” means a three-wheeled motorcycle on which the driver and passengers ride in a fully or partially enclosed seating area that is equipped with a roll cage, safety belts for each occupant and antilock brakes and that is designed to be controlled with a steering wheel and pedals.

6. “Automated driving system” means the hardware and software that are collectively capable of performing the entire dynamic driving task on a sustained basis, regardless of whether it is limited to a specific operational design domain.

7. “Automotive recycler” means a person that is engaged in the business of buying or acquiring a motor vehicle solely for the purpose of dismantling, selling or otherwise disposing of the parts or accessories and that removes parts for resale from six or more vehicles in a calendar year.

8. “Autonomous vehicle” means a motor vehicle that is equipped with an automated driving system.

9. “Aviation fuel” means all flammable liquids composed of a mixture of selected hydrocarbons expressly manufactured and blended for the purpose of effectively and efficiently operating an internal combustion engine for use in an aircraft but does not include fuel for jet or turbine powered aircraft.

10. “Bicycle” means a device, including a racing wheelchair, that is propelled by human power and on which a person may ride and that has either:

(a) Two tandem wheels, either of which is more than sixteen inches in diameter.

(b) Three wheels in contact with the ground, any of which is more than sixteen inches in diameter.

11. “Board” means the transportation board.

12. “Bus” means a motor vehicle designed for carrying sixteen or more passengers, including the driver.

13. “Business district” means the territory contiguous to and including a highway if there are buildings in use for business or industrial purposes within any six hundred feet along the highway, including hotels, banks or office buildings, railroad stations and public buildings that occupy at least three hundred feet of frontage on one side or three hundred feet collectively on both sides of the highway.

14. “Certificate of ownership” means a paper or an electronic record that is issued in another state or a foreign jurisdiction and that indicates ownership of a vehicle.

15. “Certificate of title” means a paper document or an electronic record that is issued by the department and that indicates ownership of a vehicle.

16. “Combination of vehicles” means a truck or truck tractor and semitrailer and any trailer that it tows but does not include a forklift designed for the purpose of loading or unloading the truck, trailer or semitrailer.

17. “Controlled substance” means a substance so classified under section 102(6) of the controlled substances act (21 United States Code section 802(6)) and includes all substances listed in schedules I through V of 21 Code of Federal Regulations part 1308.

18. “Conviction” means:

(a) An unvacated adjudication of guilt or a determination that a person violated or failed to comply with the law in a court of original jurisdiction or by an authorized administrative tribunal.

(b) An unvacated forfeiture of bail or collateral deposited to secure the person’s appearance in court.

(c) A plea of guilty or no contest accepted by the court.

(d) The payment of a fine or court costs.

19. “County highway” means a public road that is constructed and maintained by a county.

20. “Dealer” means a person who is engaged in the business of buying, selling or exchanging motor vehicles, trailers or semitrailers and who has an established place of business and has paid fees pursuant to section 28-4302.

21. “Department” means the department of transportation acting directly or through its duly authorized officers and agents.

22. “Digital network or software application” has the same meaning prescribed in section 28-9551.

23. “Director” means the director of the department of transportation.

24. “Drive” means to operate or be in actual physical control of a motor vehicle.

25. “Driver” means a person who drives or is in actual physical control of a vehicle.

26. “Driver license” means a license that is issued by a state to an individual and that authorizes the individual to drive a motor vehicle.

27. “Dynamic driving task”:

(a) Means all of the real-time operational and tactical functions required to operate a vehicle in on-road traffic.

(b) Includes:

(i) Lateral vehicle motion control by steering.

(ii) Longitudinal motion control by acceleration and deceleration.

(iii) Monitoring the driving environment by object and event detection, recognition, classification and response preparation.

(iv) Object and event response execution.

(v) Maneuver planning.

(vi) Enhancing conspicuity by lighting, signaling and gesturing.

(c) Does not include strategic functions such as trip scheduling and selecting destinations and waypoints.

28. “Electric bicycle” means a bicycle or tricycle that is equipped with fully operable pedals and an electric motor of less than seven hundred fifty watts and that meets the requirements of one of the following classes:

(a) “Class 1 electric bicycle” means a bicycle or tricycle that is equipped with an electric motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the bicycle or tricycle reaches the speed of twenty miles per hour.

(b) “Class 2 electric bicycle” means a bicycle or tricycle that is equipped with an electric motor that may be used exclusively to propel the bicycle or tricycle and that is not capable of providing assistance when the bicycle or tricycle reaches the speed of twenty miles per hour.

(c) “Class 3 electric bicycle” means a bicycle or tricycle that is equipped with an electric motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the bicycle or tricycle reaches the speed of twenty-eight miles per hour.

29. “Electric miniature scooter” means a device that:

(a) Weighs less than thirty pounds.

(b) Has two or three wheels.

(c) Has handlebars.

(d) Has a floorboard on which a person may stand while riding.

(e) Is powered by an electric motor or human power, or both.

(f) Has a maximum speed that does not exceed ten miles per hour, with or without human propulsion, on a paved level surface.

30. “Electric personal assistive mobility device” means a self-balancing device with one wheel or two nontandem wheels and an electric propulsion system that limits the maximum speed of the device to fifteen miles per hour or less and that is designed to transport only one person.

31. “Electric standup scooter”:

(a) Means a device that:

(i) Weighs less than seventy-five pounds.

(ii) Has two or three wheels.

(iii) Has handlebars.

(iv) Has a floorboard on which a person may stand while riding.

(v) Is powered by an electric motor or human power, or both.

(vi) Has a maximum speed that does not exceed twenty miles per hour, with or without human propulsion, on a paved level surface.

(b) Does not include an electric miniature scooter.

32. “Evidence” includes both of the following:

(a) A display on a wireless communication device of a department-generated driver license, nonoperating identification license, vehicle registration card or other official record of the department that is presented to a law enforcement officer or in a court or an administrative proceeding.

(b) An electronic or digital license plate authorized pursuant to section 28-364.

33. “Farm” means any lands primarily used for agriculture production.

34. “Farm tractor” means a motor vehicle designed and used primarily as a farm implement for drawing implements of husbandry.

35. “Foreign vehicle” means a motor vehicle, trailer or semitrailer that is brought into this state other than in the ordinary course of business by or through a manufacturer or dealer and that has not been registered in this state.

36. “Fully autonomous vehicle” means an autonomous vehicle that is equipped with an automated driving system designed to function as a level four or five system under SAE J3016 and that may be designed to function either:

(a) Solely by use of the automated driving system.

(b) By a human driver when the automated driving system is not engaged.

37. “Golf cart” means a motor vehicle that has not less than three wheels in contact with the ground, that has an unladen weight of less than one thousand eight hundred pounds, that is designed to be and is operated at not more than twenty-five miles per hour and that is designed to carry not more than four persons including the driver.

38. “Hazardous material” means a material, and its mixtures or solutions, that the United States department of transportation determines under 49 Code of Federal Regulations is, or any quantity of a material listed as a select agent or toxin under 42 Code of Federal Regulations part 73 that is, capable of posing an unreasonable risk to health, safety

and property if transported in commerce and that is required to be placarded or marked as required by the department's safety rules prescribed pursuant to chapter 14 of this title.

39. "Human driver" means a natural person in the vehicle who performs in real time all or part of the dynamic driving task or who achieves a minimal risk condition for the vehicle.

40. "Implement of husbandry" means a vehicle that is designed primarily for agricultural purposes and that is used exclusively in the conduct of agricultural operations, including an implement or vehicle whether self-propelled or otherwise that meets both of the following conditions:

(a) Is used solely for agricultural purposes including the preparation or harvesting of cotton, alfalfa, grains and other farm crops.

(b) Is only incidentally operated or moved on a highway whether as a trailer or self-propelled unit. For the purposes of this subdivision, "incidentally operated or moved on a highway" means travel between a farm and another part of the same farm, from one farm to another farm or between a farm and a place of repair, supply or storage.

41. "Limousine" means a motor vehicle providing prearranged ground transportation service for an individual passenger, or a group of passengers, that is arranged in advance or is operated on a regular route or between specified points and includes ground transportation under a contract or agreement for services that includes a fixed rate or time and is provided in a motor vehicle with a seating capacity not exceeding fifteen passengers including the driver.

42. "Livery vehicle" means a motor vehicle that:

(a) Has a seating capacity not exceeding fifteen passengers including the driver.

(b) Provides passenger services for a fare determined by a flat rate or flat hourly rate between geographic zones or within a geographic area.

(c) Is available for hire on an exclusive or shared ride basis.

(d) May do any of the following:

(i) Operate on a regular route or between specified places.

(ii) Offer prearranged ground transportation service as defined in section 28-141.

(iii) Offer on demand ground transportation service pursuant to a contract with a public airport, licensed business entity or organization.

43. "Local authority" means any county, municipal or other local board or body exercising jurisdiction over highways under the constitution and laws of this state.

44. "Manufacturer" means a person engaged in the business of manufacturing motor vehicles, trailers or semitrailers.

45. "Minimal risk condition":

(a) Means a condition to which a human driver or an automated driving system may bring a vehicle in order to reduce the risk of a crash when a given trip cannot or should not be completed.

(b) Includes bringing the vehicle to a complete stop.

46. "Moped" means a bicycle, not including an electric bicycle, an electric miniature scooter or an electric standup scooter, that is equipped with a helper motor if the vehicle has a maximum piston displacement of fifty cubic centimeters or less, a brake horsepower of one and one-half or less and a maximum speed of twenty-five miles per hour or less on a flat surface with less than a one percent grade.

47. “Motorcycle” means a motor vehicle that has a seat or saddle for the use of the rider and that is designed to travel on not more than three wheels in contact with the ground but excludes a tractor, an electric bicycle, an electric miniature scooter, an electric standup scooter and a moped.

48. “Motor driven cycle” means a motorcycle, including every motor scooter, with a motor that produces not more than five horsepower but does not include an electric bicycle, an electric miniature scooter or an electric standup scooter.

49. “Motorized quadricycle” means a self-propelled motor vehicle to which all of the following apply:

(a) The vehicle is self-propelled by an emission-free electric motor and may include pedals operated by the passengers.

(b) The vehicle has at least four wheels in contact with the ground.

(c) The vehicle seats at least eight passengers, including the driver.

(d) The vehicle is operable on a flat surface using solely the electric motor without assistance from the pedals or passengers.

(e) The vehicle is a commercial motor vehicle as defined in section 28-5201.

(f) The vehicle is a limousine operating under a vehicle for hire company permit issued pursuant to section 28-9503.

(g) The vehicle is manufactured by a motor vehicle manufacturer that is licensed pursuant to chapter 10 of this title.

(h) The vehicle complies with the definition and standards for low-speed vehicles set forth in 49 Code of Federal Regulations sections 571.3(b) and 571.500, respectively.

50. “Motor vehicle”:

(a) Means either:

(i) A self-propelled vehicle.

(ii) For the purposes of the laws relating to the imposition of a tax on motor vehicle fuel, a vehicle that is operated on the highways of this state and that is propelled by the use of motor vehicle fuel.

(b) Does not include a scrap vehicle, a personal delivery device, a personal mobile cargo carrying device, a motorized wheelchair, an electric personal assistive mobility device, an electric bicycle, an electric miniature scooter, an electric standup scooter or a motorized skateboard. For the purposes of this subdivision:

(i) “Motorized skateboard” means a self-propelled device that does not have handlebars and that has a motor, a deck on which a person may ride and at least two tandem wheels in contact with the ground.

(ii) “Motorized wheelchair” means a self-propelled wheelchair that is used by a person for mobility.

51. “Motor vehicle fuel” includes all products that are commonly or commercially known or sold as gasoline, including casinghead gasoline, natural gasoline and all flammable liquids, and that are composed of a mixture of selected hydrocarbons expressly manufactured and blended for the purpose of effectively and efficiently operating internal combustion engines. Motor vehicle fuel does not include inflammable liquids that are specifically manufactured for racing motor vehicles and that are distributed for and used by racing motor vehicles at a racetrack, use fuel as defined in section 28-5601, aviation fuel, fuel for jet or turbine powered aircraft or the mixture created at the interface of two different substances being transported through a pipeline, commonly known as transmix.

52. “Neighborhood electric shuttle”:

(a) Means a self-propelled electrically powered motor vehicle to which all of the following apply:

(i) The vehicle is emission free.

(ii) The vehicle has at least four wheels in contact with the ground.

(iii) The vehicle is capable of transporting at least eight passengers, including the driver.

(iv) The vehicle is a commercial motor vehicle as defined in section 28-5201.

(v) The vehicle is a vehicle for hire as defined in section 28-9501 and operates under a vehicle for hire company permit issued pursuant to section 28-9503.

(vi) The vehicle complies with the definition and standards for low-speed vehicles set forth in 49 Code of Federal Regulations sections 571.3(b) and 571.500, respectively.

(b) Includes a vehicle that meets the standards prescribed in subdivision (a) of this paragraph and that has been modified after market and not by the manufacturer to transport up to fifteen passengers, including the driver.

53. "Neighborhood electric vehicle" means a self-propelled electrically powered motor vehicle to which all of the following apply:

(a) The vehicle is emission free.

(b) The vehicle has at least four wheels in contact with the ground.

(c) The vehicle complies with the definition and standards for low-speed vehicles, unless excepted or exempted under federal law, set forth in 49 Code of Federal Regulations sections 571.3(b) and 571.500, respectively.

54. "Neighborhood occupantless electric vehicle" means a neighborhood electric vehicle that is not designed, intended or marketed for human occupancy.

55. "Nonresident" means a person who is not a resident of this state as defined in section 28-2001.

56. "Off-road recreational motor vehicle" means a motor vehicle that is designed primarily for recreational nonhighway all-terrain travel and that is not operated on a public highway. Off-road recreational motor vehicle does not mean a motor vehicle used for construction, building trade, mining or agricultural purposes.

57. "Operational design domain":

(a) Means operating conditions under which a given automated driving system is specifically designed to function.

(b) Includes roadway types, speed range, environmental conditions, such as weather or time of day, and other domain constraints.

58. "Operator" means a person who drives a motor vehicle on a highway, who is in actual physical control of a motor vehicle on a highway or who is exercising control over or steering a vehicle being towed by a motor vehicle.

59. "Owner" means:

(a) A person who holds the legal title of a vehicle.

(b) If a vehicle is the subject of an agreement for the conditional sale or lease with the right of purchase on performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee, the conditional vendee or lessee.

(c) If a mortgagor of a vehicle is entitled to possession of the vehicle, the mortgagor.

60. "Pedestrian" means any person afoot. A person who uses an electric personal assistive mobility device or a manual or motorized wheelchair is considered a pedestrian unless the manual wheelchair qualifies as a bicycle. For the

purposes of this paragraph, “motorized wheelchair” means a self-propelled wheelchair that is used by a person for mobility.

61. “Personal delivery device”:

(a) Means a device that is both of the following:

(i) Manufactured for transporting cargo and goods in an area described in section 28-1225.

(ii) Equipped with automated driving technology, including software and hardware, that enables the operation of the device with the remote support and supervision of a human.

(b) Does not include a personal mobile cargo carrying device.

62. “Personal mobile cargo carrying device” means an electronically powered device that:

(a) Is operated primarily on sidewalks and within crosswalks and that is designed to transport property.

(b) Weighs less than eighty pounds, excluding cargo.

(c) Operates at a maximum speed of twelve miles per hour.

(d) Is equipped with technology to transport personal property with the active monitoring of a property owner and that is primarily designed to remain within twenty-five feet of the property owner.

(e) Is equipped with a braking system that when active or engaged enables the personal mobile cargo carrying device to come to a controlled stop.

63. “Power sweeper” means an implement, with or without motive power, that is only incidentally operated or moved on a street or highway and that is designed for the removal of debris, dirt, gravel, litter or sand whether by broom, vacuum or regenerative air system from asphaltic concrete or cement concrete surfaces, including parking lots, highways, streets and warehouses, and a vehicle on which the implement is permanently mounted.

64. “Public transit” means the transportation of passengers on scheduled routes by means of a conveyance on an individual passenger fare-paying basis excluding transportation by a sightseeing bus, school bus or taxi or a vehicle not operated on a scheduled route basis.

65. “Reconstructed vehicle” means a vehicle that has been assembled or constructed largely by means of essential parts, new or used, derived from vehicles or makes of vehicles of various names, models and types or that, if originally otherwise constructed, has been materially altered by the removal of essential parts or by the addition or substitution of essential parts, new or used, derived from other vehicles or makes of vehicles. For the purposes of this paragraph, “essential parts” means integral and body parts, the removal, alteration or substitution of which will tend to conceal the identity or substantially alter the appearance of the vehicle.

66. “Residence district” means the territory contiguous to and including a highway not comprising a business district if the property on the highway for a distance of three hundred feet or more is in the main improved with residences or residences and buildings in use for business.

67. “Right-of-way” when used within the context of the regulation of the movement of traffic on a highway means the privilege of the immediate use of the highway. Right-of-way when used within the context of the real property on which transportation facilities and appurtenances to the facilities are constructed or maintained means the lands or interest in lands within the right-of-way boundaries.

68. “SAE J3016” means surface transportation recommended practice J3016 taxonomy and definitions for terms related to driving automation systems for on-road motor vehicles published by SAE international in June 2018.

69. “School bus” means a motor vehicle that is designed for carrying more than ten passengers and that is either:

(a) Owned by any public or governmental agency or other institution and operated for the transportation of children to or from home or school on a regularly scheduled basis.

(b) Privately owned and operated for compensation for the transportation of children to or from home or school on a regularly scheduled basis.

70. “Scrap metal dealer” has the same meaning prescribed in section 44-1641.

71. “Scrap vehicle” has the same meaning prescribed in section 44-1641.

72. “Semitrailer” means a vehicle that is with or without motive power, other than a pole trailer or single-axle tow dolly, that is designed for carrying persons or property and for being drawn by a motor vehicle and that is constructed so that some part of its weight and that of its load rests on or is carried by another vehicle. For the purposes of this paragraph, “pole trailer” has the same meaning prescribed in section 28-601.

73. “Single-axle tow dolly” means a nonvehicle device that is drawn by a motor vehicle, that is designed and used exclusively to transport another motor vehicle and on which the front or rear wheels of the drawn motor vehicle are mounted on the tow dolly while the other wheels of the drawn motor vehicle remain in contact with the ground.

74. “State” means a state of the United States and the District of Columbia.

75. “State highway” means a state route or portion of a state route that is accepted and designated by the board as a state highway and that is maintained by the state.

76. “State route” means a right-of-way whether actually used as a highway or not that is designated by the board as a location for the construction of a state highway.

77. “Street” or “highway” means the entire width between the boundary lines of every way if a part of the way is open to the use of the public for purposes of vehicular travel.

78. “Taxi” means a motor vehicle that has a seating capacity not exceeding fifteen passengers, including the driver, that provides passenger services and that:

(a) Does not primarily operate on a regular route or between specified places.

(b) Offers local transportation for a fare determined on the basis of the distance traveled or prearranged ground transportation service as defined in section 28-141 for a predetermined fare.

79. “Title transfer form” means a paper or an electronic form that is prescribed by the department for the purpose of transferring a certificate of title from one owner to another owner.

80. “Traffic survival school” means a school that is licensed pursuant to chapter 8, article 7.1 of this title and that offers educational sessions that are designed to improve the safety and habits of drivers and that are approved by the department.

81. “Trailer” means a vehicle that is with or without motive power, other than a pole trailer or single-axle tow dolly, that is designed for carrying persons or property and for being drawn by a motor vehicle and that is constructed so that no part of its weight rests on the towing vehicle. A semitrailer equipped with an auxiliary front axle commonly

known as a dolly is deemed to be a trailer. For the purposes of this paragraph, "pole trailer" has the same meaning prescribed in section 28-601.

82. "Transportation network company" has the same meaning prescribed in section 28-9551.

83. "Transportation network company vehicle" has the same meaning prescribed in section 28-9551.

84. "Transportation network service" has the same meaning prescribed in section 28-9551.

85. "Truck" means a motor vehicle designed or used primarily for the carrying of property other than the effects of the driver or passengers and includes a motor vehicle to which has been added a box, a platform or other equipment for such carrying.

86. "Truck tractor" means a motor vehicle that is designed and used primarily for drawing other vehicles and that is not constructed to carry a load other than a part of the weight of the vehicle and load drawn.

87. "Vehicle":

(a) Means a device in, on or by which a person or property is or may be transported or drawn on a public highway.

(b) Does not include:

(i) Electric bicycles, electric miniature scooters, electric standup scooters and devices moved by human power.

(ii) Devices used exclusively on stationary rails or tracks.

(iii) Personal delivery devices.

(iv) Scrap vehicles.

(v) Personal mobile cargo carrying devices.

88. "Vehicle transporter" means either:

(a) A truck tractor capable of carrying a load and drawing a semitrailer.

(b) A truck tractor with a stinger-steered fifth wheel capable of carrying a load and drawing a semitrailer or a truck tractor with a dolly mounted fifth wheel that is securely fastened to the truck tractor at two or more points and that is capable of carrying a load and drawing a semitrailer.

A.R.S. § 28-8201. Definitions

In this article and articles 2 through 5 of this chapter, unless the context otherwise requires:

1. "Aeronaut" includes any aviator, pilot, balloonist and other person participating in the operation of aircraft while in flight.

2. "Aircraft" includes a balloon, airplane, amphibian and craft used for navigation through the air.

3. "Passenger" includes a person who rides in aircraft but has no part in its operation.

4. "Seizure of aircraft" means the physical disabling or securing of an aircraft by locks, chains or other mechanical devices.

NOTICE OF FINAL RULEMAKING

TITLE 17. TRANSPORTATION

CHAPTER 2. DEPARTMENT OF TRANSPORTATION

AERONAUTICS

Statutory Authority Including Relevant Statutory Definitions

General Authority for Rulemaking

A.R.S. § 28-366. Director; rules

The director shall adopt rules pursuant to title 41, chapter 6 as the director deems necessary for:

1. Collection of taxes and license fees.
2. Public safety and convenience.
3. Enforcement of the provisions of the laws the director administers or enforces.
4. The use of state highways and routes to prevent the abuse and unauthorized use of state highways and routes.

Specific Statutes

A.R.S. § 28-8322. Registration; exceptions; definition

A. Aircraft based in this state shall be registered with the department.

B. A person or governmental entity shall register an aircraft by applying to the department on a form provided by the department within sixty days after the aircraft is brought into this state. A person who registers an aircraft shall renew the registration annually as prescribed by section 28-8322.01.

C. The department shall not issue a registration certificate for an aircraft to a person who is subject to the use tax paid pursuant to title 42, chapter 5, article 4 unless the applicable tax has been paid as shown by a receipt from the collecting officer.

D. Subsections A and B of this section do not apply to aircraft that is any of the following:

1. Operated by an airline company and regularly scheduled for the primary purpose of carrying persons or property for hire in interstate, intrastate or international transportation.
2. Owned by a nonresident who bases the aircraft in this state for a period of not more than ninety consecutive days or ninety days in any one calendar year, if the aircraft is not engaged in intrastate commercial activity.
3. A balloon.

E. Aircraft, except aircraft included in subsection D, paragraph 1 or 3 of this section, entering the state to engage in intrastate commercial operations shall be registered before commencing these operations.

F. For the purposes of this section, “balloon” means either:

1. An aircraft that is a flexible, nonporous bag inflated with a gas that is lighter than air.
2. A hot air balloon.

A.R.S. § 28-8322.01. Staggered aircraft registration; rules

A. The director shall establish a system of staggered registration on a monthly basis to distribute the work of registering aircraft as uniformly as practicable throughout the twelve months of the calendar year.

B. All aircraft registrations under this article expire pursuant to schedules established by the director. The director may set the number of renewal periods within a month.

C. If adoption of the staggered system results in the expiration of any registration more than one year after its issuance, the department shall charge a prorated license tax that is one-twelfth of the full annual amount for each full month of the registration cycle and shall charge a full registration fee.

D. In order to initiate a system of registering or reregistering aircraft during any month of the calendar year, the director may register or reregister an aircraft for more or less than a twelve-month period, but for not more than an eighteen-month period, and may prorate the license tax by one-twelfth of the full annual amount for each full month of the registration cycle and shall charge a full registration fee.

E. The director or a registering officer may allow a person who owns two or more aircraft to register or reregister the aircraft for less than one year so that the aircraft's registrations expire on the same date.

F. The director shall adopt rules necessary to implement this section.

A.R.S. § 28-8322.02. Fleet registration requirements

A. In lieu of the staggered aircraft registration requirements under section 28-8322.01, a person may register a fleet of two or more aircraft on an annual basis so that the registrations for all aircraft in the fleet expire in the same month.

B. The director shall approve the request for fleet registration if, at least thirty days before the registration date, the applicant provides both of the following:

1. An application containing information necessary for qualification as a fleet registrant.

2. A list of all aircraft to be included in the fleet.

C. To establish a new fleet registration and a uniform month of expiration, all of the following apply:

1. The department shall maintain the valuation for aircraft determined pursuant to section 28-8335 at the current valuation if it is necessary to calculate a prorated license tax.

2. The license tax for that year on the aircraft shall be prorated by one-twelfth of the full annual amount for each full month of the registration cycle.

3. The aircraft owner shall pay the full registration fee. The registration may not be prorated.

A.R.S. § 28-8324. Registration; license tax

A. Aircraft on which a license tax is due under section 28-8335 shall not be registered until the license tax is paid.

B. If an aircraft that was not previously subject to registration in this state becomes subject to registration, the aircraft shall be registered pursuant to section 28-8322.01.

A.R.S. § 28-8325. Registration fee; certificate

On payment of a registration fee of $5, the license tax and the penalty, if any, the department shall issue a registration certificate that must be kept with the aircraft at all times.

A.R.S. § 28-8328. Failure to register; assessment procedure

If an aircraft is not registered within the time periods prescribed in this article, the director shall assess registration fees, license taxes and penalties due as follows:

1. The director shall give written notice of the assessment to the owner of the aircraft by either mailing the notice in a postage prepaid sealed envelope addressed to the owner of the aircraft at the owner's address as it appears in the records of the department or by delivery in person. Notice is deemed to be complete at the time of mailing or at the time of personal delivery.

2. The assessment is final thirty days after notice is deemed to be complete, unless, before that time, the department receives a written objection to the assessment and a request for a hearing from the owner. If the department receives a request for a hearing, the hearing shall be conducted as provided in section 28-8244.

A.R.S. § 28-8329. Late registration; penalty; abatement

A. If an aircraft required to be registered under this article is not registered within sixty days after its entry into this state and renewed annually pursuant to section 28-8322.01, a penalty of $25 for the first month and $5 for each succeeding month of delinquency shall be added to the registration fee and collected unless an exemption for the aircraft is established pursuant to this article.

B. Registration of the aircraft for the year immediately preceding the year for which the application for registration is made is prima facie evidence that the aircraft has been based in this state during the year for which the application for registration is made.

C. The director may abate all or a part of any penalty assessed for failure to register an aircraft within the time periods prescribed in this article if the director believes that reasonable cause exists for the failure to register the aircraft as provided by this article. For the purposes of this subsection, "reasonable cause" means a reasonable basis for the person responsible for registration of the aircraft to believe that the aircraft was exempt from registration requirements.

A.R.S. § 28-8330. Lien

A. The license tax, registration fee and penalty constitute a lien on the aircraft on which they are due from the due date.

B. The lien has priority over any other lien or encumbrance on the aircraft, except for a lien of other state taxes that has priority by law.

C. The lien continues until the license taxes, registration fees, penalties and lien recording fees are paid.

D. The department shall issue a release of the lien on receipt of full payment of the registration fees, license taxes, penalties and lien recording fees secured by the lien. The release shall be a document in a form as specified in section 11-480.

E. If requested by the department, the sheriff of the county in which the aircraft is found or any other peace officer shall collect the license tax, registration fee, penalty and lien recording fee by seizure of the aircraft from the person in possession of the aircraft, if any, and by sale as provided in section 28-8331.

A.R.S. § 28-8335. License tax; tax rate

A. An annual license tax is imposed on all aircraft based in this state and required to be registered pursuant to this article, unless an exemption for the aircraft is established pursuant to this article. The license tax is payable to the department on initial registration and annually pursuant to section 28-8322.01.

B. Except as provided in sections 28-8336, 28-8337, 28-8338, 28-8339, 28-8340 and 28-8341, the department shall determine and assess the license tax prescribed by subsection A of this section on the basis of one-half percent of the average fair market value of the particular make, model and year of aircraft. The average fair market value:

1. May not have an annual percentage change that is more than the annual percentage change in the average consumer price index as published by the United States department of labor, bureau of labor statistics.

2. In fiscal year 2021-2022, shall be benchmarked to what the average fair market value of the aircraft was in 2019.

C. The tax assessed under this section shall be at least $20 for a full year of registration.

D-7.

STATE BOARD OF DENTAL EXAMINERS
Title 4, Chapter 11, Articles 6 & 12

Amend: R4-11-601; R4-11-1201; R4-11-1203; R4-11-1204

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 13, 2025

SUBJECT: **STATE BOARD OF DENTAL EXAMINERS**
Title 4, Chapter 11, Articles 6 & 12

Amend: R4-11-601; R4-11-1201; R4-11-1203; R4-11-1204

Summary:

This regular rulemaking from the State Board of Dental Examiners (Board) seeks to amend four (4) rules in Title 4, Chapter 11, Articles 6 and 12 related to Dental Hygienists and Continuing Dental Education and Renewal Requirements, respectively. Specifically, the Board indicates it needs to amend its rules in order to clarify the specific continuing education credits that must be completed in order for a licensee to provide aesthetic injectables to their patients. The Board is proposing to require at least twelve (12) credit hours in didactic or clinical training related to botulinum toxin type A or dermal fillers if the dentist provides botulinum toxin type A or dermal fillers to a patient.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Board cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Board indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Board indicates it needs to amend its rules to clarify what requirements dentists and hygienists must meet to administer botulinum toxin A ("Botox") and dermal fillers. Dentists and hygienists will both be positively affected by these rule changes, dentists and hygienists will bear their own cost to receive the proper education in order to administer Botox and dermal fillers.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Board believes that by amending its rules this will benefit the dental community and the public they serve.

6. What are the economic impacts on stakeholders?

The Board believes that dentists and hygienists will both be positively affected by these rule changes/clarifications. The Board states that while there are no costs associated with the rule changes, dentists and hygienists will bear their own costs to receive the proper education in order to administer Botox and dermal fillers. The Board states there are no costs related to this rulemaking, but the benefit is that dentists and hygienists may now offer a new service(s), and therefore, consumers will have options when seeking therapeutic or cosmetic Botox and/or dermal fillers.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Board indicates there were no changes between the Notice of Proposed Rulemaking published in the Administrative Register on November 29, 2024 and the Notice of Final Rulemaking now before the Council for consideration.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Board indicates it received no public comments related to this rulemaking.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

Here, the Board indicates it issues general permits to licensees who meet the criteria established in statute and rule. Council staff believes the Department is in compliance with A.R.S. § 41-1037.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Board indicates there is no corresponding federal law.

11. Conclusion

This regular rulemaking from the Board seeks to amend four (4) rules in Title 4, Chapter 11, Articles 6 and 12 related to Dental Hygienists and Continuing Dental Education and Renewal Requirements, respectively. Specifically, the Board indicates it needs to amend its rules in order to clarify the specific continuing education credits that must be completed in order for a licensee to provide aesthetic injectables to their patients. The Board is proposing to require at least twelve (12) credit hours in didactic or clinical training related to botulinum toxin type A or dermal fillers if the dentist provides botulinum toxin type A or dermal fillers to a patient.

The Board is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A).

Council staff recommends approval of this rulemaking.

Ms. Jessica Klein, Chair
The Governor's Regulatory Review Council
100 North 15th Avenue, Ste. 402
Phoenix, AZ 85007

Re: A.A.C. Title 4. Professions and Occupations, Chapter 11. State Board of Dental Examiners – BOTOX® and Dermal Fillers NFR

Dear Ms. Klein:

The attached final rule package is submitted for review and approval by the Council. The following information is provided for Council's use in reviewing the rule package:

1. Close of record date: The rulemaking record was closed on January 27, 2025 following a period for public comment and an oral proceeding.
2. Relation of the rulemaking to a five-year-review report: This rulemaking does not relate to a Five-Year Review Report.
3. New fee or fee increase: This rulemaking does not establish a new fee or increase an existing fee.
4. Immediate effective date: An immediate effective date is not requested.
5. Certification regarding studies: I certify that the Board did not rely on any studies for this rulemaking.
8. Certification that the preparer of the EIS notified the JLBC of the number of new full-time employees necessary to implement and enforce the rule: I certify that the rules in this rulemaking will not require a state agency to employ a new full-time employee. Therefore, no notification was required to be provided to JLBC.
9. List of documents enclosed:
    a. Cover letter signed by the Board's Executive Director;
    b. Notice of Final Rulemaking including the preamble, table of contents for the rulemaking, and rule text; and
    c. Economic, Small Business, and Consumer Impact Statement.

Sincerely,

Ryan Edmonson
Executive Director

The Americans with Disabilities Act: Persons with disabilities may request reasonable accommodations, such as sign language interpreters. Requests should be made as early as possible to allow time to arrange the accommodation. This document is available in alternative format upon request.

NOTICE OF FINAL RULEMAKING

TITLE 4. PROFESSONS AND OCCUPATIONS

CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

PREAMBLE

1. Permission to proceed with this proposed rulemaking was granted under A.R.S. § 41-1039 by the governor on:

June 21, 2024

2. Article, Part, or Section Affected (as applicable)		**Rulemaking Action**
R4-11-601.	Duties and Qualification	Amend
R4-11-1201.	Continuing Dental Education	Amend
R4-11-1203.	Dentists and Dental Consultants	Amend
R4-11-1204.	Dental Hygienists	Amend

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute: A.R.S. § 32-1207

Implementing statute: A.R.S. § 32-1201 et seq.

4. The effective date of the rule:

This rule shall become effective 60 days after a certified original and preamble are filed in the Office of the Secretary of State pursuant to A.R.S. § 41-1032(A). The effective date is XX.

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

N/A

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

N/A

5. Citations to all related notices published in the *Register* that pertain to the current record of the proposed rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 3684, Issue Date: November 29, 2024, Issue Number: 48, File Number: R24-259

Notice of Rulemaking Proposed Rulemaking: 30 A.A.R. 3565, Issue Date: November 29, 2024, Issue Number: 48, File Number: R24-254

6. The agency's contact person who can answer questions about the rulemaking:

Name: Ryan Edmonson

Title: Executive Director

Address: 1740 W. Adams St., Ste. 2470, Phoenix, AZ 85007

Telephone: (602) 542-4493

Email: ryan.edmonson@dentalboard.az.gov

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The Board needs to amend its rules in order to clarify the specific continuing education credits that must be completed in order for a licensee to provide aesthetic injectables to their patients.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

None.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

10. A summary of the economic, small business, and consumer impact:

There is little to no economic, small business, or consumer impact, other than the cost to the Board to prepare the rule package, because the rulemaking simply clarifies statutory requirements that already exist. There may be some impact to dental professionals who must now obtain specific continuing education credits in order to provide aesthetic injectables to their patients. However, the increased regulation is necessary to ensure that dental professionals are qualified to provide such services to patients in order to better protect the health, safety, and welfare of those patients. Thus, the economic impact is minimized.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

N/A

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Board held an Oral Proceeding on January 27, 2025, but did not receive any comments.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

None.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Board issues general permits to licensees who meet the criteria established in statute and rule.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Not applicable.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

None.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

N/A

16. The full text of the rules follows:

Rule text begins on the next page.

TITLE 4. PROFESSONS AND OCCUPATIONS

CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

ARTICLE 6. DENTAL HYGIENISTS

Section

ARTICLE 12. CONTINUING DENTAL EDUCATION AND RENEWAL REQUIREMENTS

R4-11-601. Duties and Qualifications

A. A dental hygienist may apply Preventative and Therapeutic Agents under the general supervision of a licensed dentist.

B. A dental hygienist may perform a procedure not specifically authorized by A.R.S. § 32-1281, including botulinum toxin type A or dermal fillers, as identified in A.R.S. § 32-1202, when all of the following conditions are satisfied:

1. The procedure is recommended or prescribed by the supervising dentist;
2. The dental hygienist has received instruction, training, or education to perform the procedure in a safe manner; and
3. The procedure is performed under the general supervision of a licensed dentist.

C. A dental hygienist shall not perform an Irreversible Procedure, except for botulinum toxin type A or dermal fillers as identified in A.R.S. § 32-1202.

D. To qualify to use Emerging Scientific Technology as authorized by A.R.S. § 32-1281(C)(2), a dental hygienist shall successfully complete a course of study that meets the following criteria:

1. Is a course offered by a recognized dental school as defined in A.R.S. § 32-1201, a recognized dental hygiene school as defined in A.R.S. § 32-1201, or sponsored by a national or state dental or dental hygiene association or government agency;
2. Includes didactic instruction with a written examination;
3. Includes hands-on clinical instruction; and
4. Is technology that is scientifically based and supported by studies published in peer reviewed dental journals.

ARTICLE 12. CONTINUING DENTAL EDUCATION AND RENEWAL REQUIREMENTS

R4-11-1201. Continuing Dental Education

A. A ~~licensee~~ Licensee or ~~certificate holder~~ Certificate Holder shall:

1. Satisfy a continuing dental education requirement that is designed to provide an understanding of current developments, skills, procedures, or treatment related to the ~~licensee's~~ Licensee's or ~~certificate holder's~~ Certificate Holder's practice; and
2. Complete the ~~recognized continuing dental education~~ Recognized Continuing Dental Education required by this Article each renewal period.

B. A ~~licensee~~ Licensee or ~~certificate holder~~ Certificate Holder receiving an initial license or certificate shall complete the prescribed credit hours of ~~recognized continuing dental education~~ Recognized Continuing Dental Education by the end of the first full renewal period.

R4-11-1203. Dentists and Dental Consultants

Dentists and dental consultants shall complete 63 hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 36 Credit Hours in any one or more of the following areas: Dental and medical health, preventive services, dental diagnosis and treatment planning, dental recordkeeping, dental clinical procedures, managing medical emergencies, pain management, dental public health, and courses in corrective and restorative oral health and basic dental sciences, which may include current research, new concepts in dentistry, chemical dependency, tobacco cessation, and behavioral and biological sciences that are oriented to dentistry. A Licensee who holds a permit to administer General Anesthesia, Deep Sedation, Parenteral Sedation, or Oral Sedation who is required to obtain continuing education pursuant to Article 13 may apply those Credit Hours to the requirements of this Section;
2. No more than 15 Credit Hours in one or more of the following areas: Dental practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in opioid education;
4. At least three Credit Hours in infectious diseases or infectious disease control;
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support or pediatric advanced life support. Coursework may be completed online if the course requires a physical demonstration of skills; and
6. At least three Credit Hours in ethics or Arizona dental jurisprudence.
7. If the dentist provides botulinum toxin type A or dermal fillers to a patient, at least 12 Credit Hours in didactic or clinical training related to botulinum toxin type A or dermal fillers, as identified in A.R.S. § 32-1202.

R4-11-1204. Dental Hygienists

A. A dental hygienist shall complete 45 Credit Hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 25 Credit Hours in any one or more of the following areas: Dental and medical health, and dental hygiene services, periodontal disease, care of implants, maintenance of cosmetic restorations and sealants, radiology safety and techniques, managing medical emergencies, pain management, dental recordkeeping, dental public health, and new concepts in dental hygiene;
2. No more than 11 Credit Hours in one or more of the following areas: Dental hygiene practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in one or more of the following areas: chemical dependency, tobacco cessation, ethics, risk management, or Arizona dental jurisprudence;
4. At least three Credit Hours in infectious diseases or infectious disease control; and
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support and pediatric advanced life support. Coursework may be completed online if the course re-quires a physical demonstration of skills.
6. If the hygienist provides botulinum toxin type A or dermal fillers to a patient, at least 12 Credit Hours in didactic or clinical training related to botulinum toxin type A or dermal fillers, as identified in A.R.S. § 32-1202.

B. A Licensee who performs dental hygiene services under an affiliated practice relationship who is required to obtain continuing education under R4-11-609 may apply those Credit Hours to the requirements of this Section.

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT
TITLE 4. PROFESSIONS AND OCCUPATIONS
CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

1. Identification of the rulemaking:

   The Arizona State Board of Dental Examiners ("Board") needs to amend its rules to clarify what requirements dentists and hygienists must meet to administer botulinum toxin A ("Botox") and dermal fillers.

   a. The conduct and its frequency of occurrence that the rule is designed to change:

      The Board currently has a definition for its scope of practice that includes administering botulinum toxin type A and dermal fillers to the oral maxillofacial complex for therapeutic or cosmetic purposes (A.R.S. § 32-1202). The rule change provides clarification to the professions on what's required to administer both.

   b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

      Unless these rule amendments are made, the professions will continue with some ambiguity. It's believed, by some, that the scope of practice was only identifying dentists. However, many believe that hygienists are more likely to administer Botox and dermal fillers in their profession than dentists, even while the dentists may be the prescribers. The Board believes that by amending its rules, clarification will conclude that the scope of practice is for both professions.

   c. The estimated change in frequency of the targeted conduct expected from the rule change:

      N/A

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

   In 2022, the Arizona Legislature passed a bill changing the Board's scope of practice to include the administration of Botox and dermal fillers. Many, in the dental profession, believed the change was only for dentists. Due to this belief, the local hygiene association sought and received a legal opinion from the attorney general's office. The legal opinion, no. I23-003 (R23-001), states clearly that the law permits dental hygienists to administer Botox and dermal fillers, but left the final decision-making to the specialized expertise – in this case that expertise is the Board. After a failed attempt to correct this in legislation, the Board worked with its

stakeholders to amend its rules to reflect the clarification needed for dentists and hygienists to feel comfortable that the law allows both professions the opportunity to administer Botox and dermal fillers.

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement:

Name: Ryan Edmonson, Executive Director

Address: Arizona State Board of Dental Examiners
1740 W. Adams St., Ste. 2470
Phoenix, AZ 85007

Telephone: (602) 542-4493

E-Mail: ryan.edmonson@dentalboard.az.gov

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:
   Dentists and hygienists will both be positively affected by these rule changes/clarifications. While there are no costs associated with the rule changes, dentists and hygienists will bear their own costs to receive the proper education in order to administer Botox and dermal fillers. Therefore, both professions will receive a direct positive benefit.

5. Cost-benefit analysis:
   a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:
      The Board is the only state agency affected by the rulemaking amendment and there will *not* be any costs, including the hiring of more personnel to manage the effects of the amendment.
   b. Costs and benefits to political subdivisions directly affected by the rulemaking:
      N/A
   c. Costs and benefits to businesses directly affected by the rulemaking:
      No new costs will be incurred to businesses. However, these rule changes will help dental practices receive new revenue. It's been said that no profession(s) know more

about the human maxillofacial area more than hygienists and dentists. So, it's understandable that dental practices will be directly affected.

6. Impact on private and public employment:
   With no empirical data to rely on, the Board believes that the 'new' definition of the scope of practice and these rules promulgated because of the scope of practice change will have a direct, positive impact.

7. Impact on small businesses:
   a. Identification of the small business subject to the rulemaking:
      There is no negative financial impact to small businesses.

   b. Administrative and other costs required for compliance with the rulemaking:
      Negligible

   c. Description of methods that may be used to reduce the impact on small businesses:
      There are no costs to small businesses with this rulemaking.

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:
   There are no costs related to this rulemaking, but the benefit is that dentists and hygienists may now offer a new service(s), and therefore, consumers will have options when seeking therapeutic or cosmetic Botox and/or dermal fillers.

9. Probable effects on state revenues:
   No new expenses are expected at this time. However, all revenue received by the Board is shared with the State's general fund.

10. Less intrusive or less costly alternative methods considered:
    The Board believes that by amending its rules this will be a benefit the dental community and the public they serve.

ARTICLE 1. DEFINITIONS

R4-11-101. Definitions

The following definitions, and definitions in A.R.S. § 32-1201, apply to this Chapter:

"Analgesia" means a state of decreased sensibility to pain produced by using nitrous oxide and oxygen with or without Local Anesthesia.

"Business Entity" means a business organization that offers to the public professional services regulated by the Board and is established under the laws of any state or foreign country, including a sole practitioner, partnership, limited liability partnership, corporation, and limited liability company, unless specifically exempted by A.R.S. § 32-1213(J).

"Calculus" means a hard, mineralized deposit attached to the teeth.

"Charitable Dental Clinic or Organization" means a non-profit organization meeting the requirements of 26 U.S.C. 501(c)(3) and providing dental, dental therapy, or dental hygiene services.

"Clinical evaluation" means a dental examination of a patient named in a complaint regarding the patient's dental condition as it exists at the time the examination is performed.

"Controlled substance" has the meaning prescribed in A.R.S. § 36-2501(A)(3).

"Credit hour" means one clock hour of participation in a Recognized Continuing Dental Education program.

"Deep sedation" is a Drug-induced depression of consciousness during which a patient cannot be easily aroused but responds purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. The patient may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is maintained.

"Dentist of record" means a dentist who examines, diagnoses, and formulates treatment plans for a patient and may provide treatment to the patient.

"Direct supervision" means, for purposes of Article 7 only, that a licensed dentist is present in the office and available to provide immediate treatment or care to a patient and observe a dental assistant's work.

"Disabled" means a dentist, dental therapist, dental hygienist, or denturist has totally withdrawn from the active practice of dentistry, dental therapy, dental hygiene, or denturism due to a permanent medical disability and based on a physician's order.

"Documentation of attendance" means documents that contain the following information:

Name of sponsoring entity;
Course title;
Number of Credit Hours;
Name of speaker; and
Date, time, and location of the course.

"Drug" means:

Articles recognized, or for which standards or specifications are prescribed, in the official compendium;

Articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in the human body;

Articles other than food intended to affect the structure of any function of the human body; or

Articles intended for use as a component of any articles specified in this definition but does not include devices or components, parts, or accessories of devices.

"Emerging scientific technology" means any technology used in the treatment of oral disease that is not currently generally accepted or taught in a recognized dental, dental therapy, or dental hygiene school and use of the technology poses material risks.

"Epithelial attachment" means the layer of cells that extends apically from the depth of the gingival sulcus along the tooth, forming an organic attachment.

"Ex-parte communication" means a written or oral communication between a decision maker, fact finder, or Board member and one party to the proceeding, in the absence of other parties.

"General anesthesia" is a Drug-induced loss of consciousness during which the patient is not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. The patient often requires assistance in maintaining a patent airway, and positive-pressure ventilation may be required because of depressed spontaneous ventilation or Drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.

"General supervision" means, for purposes of Article 7 only, a licensed dentist is available for consultation, whether or not the dentist is in the office, regarding procedures or treatment that the dentist authorizes and for which the dentist remains responsible.

"Homebound patient" means a person who is unable to receive dental care in a dental office as a result of a medically diagnosed disabling physical or mental condition.

"Irreversible procedure" means a single treatment, or a step in a series of treatments, that causes change in the affected hard or soft tissues and is permanent or may require reconstructive or corrective procedures to correct the changes.

"Licensee" means a dentist, dental therapist, dental hygienist, dental consultant, retired licensee, or person who holds a restricted permit under A.R.S. §§ 32-1237 or 32-1292.

"Local anesthesia" is the elimination of sensations, such as pain, in one part of the body by the injection of an anesthetic Drug.

"Minimal sedation" is a minimally depressed level of consciousness that retains a patient's ability to independently and continuously maintain an airway and respond appropriately to light tactile stimulation, not limited to reflex withdrawal from a painful stimulus, or verbal command and that is produced by a pharmacological or non-pharmacological method or a combination thereof. Although cognitive function and coordination may be modestly impaired, ventilatory and cardiovascular functions are unaffected. In accord with this particular definition, the Drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely.

"Mobile dental permit holder" means a Licensee or denturist who holds a mobile permit under R4-11-1301, R4-11-1302, or R4-11-1303.

"Moderate sedation" is Drug-induced depression of consciousness during which a patient responds purposefully to verbal commands either alone or accompanied by light tactile stimulation, not limited to reflex withdrawal from a painful stimulus. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is maintained. The Drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely. Repeated dosing of a Drug before the effects of previous dosing can be fully recognized may result in a greater alteration of the state of consciousness than intended by the permit holder.

"Nitrous oxide analgesia" means nitrous oxide used as an inhalation analgesic.

"Official compendium" means the latest revision of the United States Pharmacopeia and the National Formulary and any current supplement.

"Oral sedation" is the enteral administration of a Drug or non-Drug substance or combination inhalation and enterally administered Drug or non-Drug substance in a dental office or dental clinic to achieve Minimal Sedation or Moderate Sedation.

"Parenteral sedation" is a minimally depressed level of consciousness that allows the patient to retain the ability to independently and continuously maintain an airway and respond appropriately to physical stimulation or verbal command and is induced by a pharmacological or non-pharmacological method or a combination of both methods of administration in which the Drug bypasses the gastrointestinal tract.

"Periodontal pocket" means a pathologic fissure bordered on one side by the tooth and on the opposite side by crevicular epithelium and limited in its depth by the Epithelial Attachment.

"Plaque" means a film-like sticky substance composed of mucoidal secretions containing bacteria and toxic products, dead tissue cells, and debris.

"Polishing" means a procedure limited to the removal of Plaque and extrinsic stain from exposed natural and restored tooth surfaces that utilizes an appropriate rotary instrument with rubber cup or brush and Polishing agent. A Licensee or dental assistant shall not represent that this procedure alone constitutes an oral Prophylaxis.

"Prescription-only device" means:

Any device that is restricted by the federal act, as defined in A.R.S. § 32-1901, to use only under the supervision of a medical practitioner; or

Any device required by the federal act, as defined in A.R.S. § 32-1901, to bear on its label the legend "Rx Only."

"Prescription-only Drug" does not include a Controlled Substance but does include:

Any Drug that, because of its toxicity or other potentiality for harmful effect, the method of its use, or the collateral measures necessary to its use, is not generally recognized among experts, qualified by scientific training and experience to evaluate its safety and efficacy, as safe for use except by or under the supervision of a medical practitioner;

Any Drug that is limited by an approved new Drug application under the federal act or A.R.S. § 32-1962 to use under the supervision of a medical practitioner;

Every potentially harmful Drug, the labeling of which does not bear or contain full and adequate directions for use by the consumer; or

Any Drug required by the federal act to bear on its label the legend "RX Only."

"President's designee" means the Board's executive director, an investigator, or a Board member acting on behalf of the Board president.

"Preventative and therapeutic agents" means substances that affect the hard or soft oral tissues to aid in preventing or treating oral disease.

"Prophylaxis" means a Scaling and Polishing procedure performed on patients with healthy tissues to remove coronal Plaque, Calculus, and stains.

"Recognized continuing dental education" means a program whose content directly relates to the art and science of oral health and treatment, provided by a recognized dental school, recognized dental therapy school, recognized dental hygiene school, or recognized denturist school, or sponsored by a national or state dental, dental therapy, dental hygiene, or denturist association, American Dental Association Continuing Education Recognition Program or Academy of General Dentistry, Program Approval for Continuing Education approved provider, dental, dental therapy, dental hygiene, or denturist Study Club, governmental agency, commercial dental supplier, non-profit organization, accredited hospital, or programs or courses approved by other state, district, or territorial dental licensing boards.

"Restricted permit holder" means a dentist who meets the requirements of A.R.S. § 32-1237, or a dental hygienist who meets the requirements of A.R.S. § 32-1292 and is issued a restricted permit by the Board.

"Retired" means a dentist, dental therapist, dental hygienist, or denturist is at least 65 years old and has totally withdrawn from the active practice of dentistry, dental therapy, dental hygiene, or denturism.

"Root planing" means a definitive treatment procedure designed to remove cementum or surface dentin that is rough, impregnated with Calculus, or contaminated with toxins or microorganisms.

"Scaling" means use of instruments on the crown and root surfaces of the teeth to remove Plaque, Calculus, and stains from these surfaces.

"Section 1301 permit" means a permit to administer General Anesthesia and Deep Sedation, employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Section 1302 permit" means a permit to administer Parenteral Sedation, employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Section 1303 permit" means a permit to administer Oral Sedation, employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Section 1304 permit" means a permit to employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Study club" means a group of at least five Arizona licensed dentists, dental therapists, dental hygienists, or denturists who provide written course materials or a written outline for a continuing education presentation that meets the requirements of Article 12.

"Treatment records" means all documentation related directly or indirectly to the dental treatment of a patient.

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-02 renumbered as Section R4-11-102 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-101 renumbered to R4-11-201, new Section R4-11-101 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 19 A.A.R. 334 and at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-105. Repealed

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-05 renumbered as Section R4-11-105 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-105 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 2. LICENSURE BY CREDENTIAL

New Article 2, consisting of Sections R4-11-201 through R4-11-205, made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3).

R4-11-201. Clinical Examination; Requirements

A. If an applicant is applying under A.R.S. §§ 32-1240, 32-1276.07, or 32-1292.01, the Board shall ensure that the applicant has passed the clinical examination of A.R.S. §§ 32-1233(2) for dentists, or 32-1276.01(B)(3)(a) for dental therapists, or 32-1285(2) for dental hygienists, notwithstanding each respective statute's timing stipulation. Satisfactory completion of the clinical examination may be demonstrated by certified documentation, sent directly from another state, United States territory, District of Columbia or a testing agency that meets the requirements of A.R.S. §§ 32-1233(2) for dentists, or 32-1276.01(B)(3)(a) for dental therapists, or 32-1285(2) for dental hygienists, notwithstanding each respective statute's timing stipulation, that confirms successful completion of the clinical examination or multiple examinations administered by the state, United States territory, District of Columbia or testing agency. The certified documentation shall contain the name of the applicant, date of examination or examinations and proof of a passing score.

B. An applicant shall meet the licensure requirements in R4-11-301 and R4-11-303.

Historical Note

Former Rule 2a; Amended effective November 20, 1979 (Supp. 79-6). Amended effective November 28, 1980 (Supp. 80-6). Former Section R4-11-11 renumbered as Section R4-11-201 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-201 renumbered to R4-11-301, new Section R4-11-201 renumbered from R4-11-101 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E), effective April 30, 2001 (Supp. 01-2). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-202. Dental Licensure by Credential; Application

A. A dentist applying under A.R.S. § 32-1240 shall comply with all other applicable requirements in A.R.S. Title 32, Chapter 11 and this Article.

B. A dentist applying under A.R.S. § 32-1240 shall:

1. Have a current dental license in another state, territory or district of the United States;
2. Submit a written affidavit affirming that the dentist has practiced dentistry for a minimum of 5000 hours during the five years immediately before applying for licensure by credential. For purposes of this subsection, dental practice includes experience as a dental educator at a dental program accredited by the Commission on Dental Accreditation or another post-secondary dental education program accrediting agency recognized by the U.S. Department of Education, or employment as a dentist in a public health setting;
3. Submit a written affidavit affirming that the applicant has complied with the continuing dental education requirement of the state in which the applicant is currently licensed;

4. Provide evidence regarding the clinical examination by complying with R4-11-201(A); and
5. Pass the Arizona jurisprudence examination with a minimum score of 75%.

C. For any application submitted under A.R.S. § 32-1240, the Board may request additional clarifying evidence required under R4-11-201(A).

D. An applicant for dental licensure by credential shall pay the fee prescribed in A.R.S. § 32-1240, except the fee is reduced by 50% for applicants who will be employed or working under contract in:
1. Underserved areas, such as declared or eligible Health Professional Shortage Areas; or
2. Other facilities caring for underserved populations as recognized by the Arizona Department of Health Services and approved by the Board.

E. An applicant for dental licensure by credential who works in areas or facilities described in subsection (D) shall:
1. Commit to a three-year, exclusive service period,
2. File a copy of a contract or employment verification statement with the Board, and
3. As a Licensee, submit an annual contract or employment verification statement to the Board by December 31 of each year.

F. A Licensee's failure to comply with the requirements in subsection (E) is considered unprofessional conduct and may result in disciplinary action based on the circumstances of the case.

Historical Note

Former Rule 2b; Former Section R4-11-12 renumbered as Section R4-11-202 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-202 repealed, new Section R4-11-202 renumbered from R4-11-102 and the heading amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Labeling changes made to reflect current style requirements (Supp. 99-1). Section expired under A.R.S. § 41-1056(E), effective April 30, 2001 (Supp. 01-2). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-203. Dental Hygienist Licensure by Credential; Application

A. A dental hygienist applying under A.R.S. § 32-1292.01 shall comply with all other applicable requirements in A.R.S. Title 32, Chapter 11 and this Article.

B. A dental hygienist applying under A.R.S. § 32-1292.01 shall:
1. Have a current dental hygienist license in another state, territory, or district of the United States;
2. Submit a written affidavit affirming that the applicant has practiced as a dental hygienist for a minimum of 1000 hours during the two years immediately before applying for licensure by credential. For purposes of this subsection, dental hygienist practice includes experience as a dental hygienist educator at a dental program accredited by the Commission on Dental Accreditation or another post-secondary dental education program accrediting agency recognized by the U.S. Department of Education, or employment as a dental hygienist in a public health setting;
3. Submit a written affidavit affirming that the applicant has complied with the continuing dental hygienist education requirement of the state in which the applicant is currently licensed;
4. Provide evidence regarding the clinical examination by complying with R4-11-201(A); and
5. Pass the Arizona jurisprudence examination with a minimum score of 75%.

C. For any application submitted under A.R.S. § 32-1292.01, the Board may request additional clarifying evidence as required under R4-11-201(A).

D. An applicant for dental hygienist licensure by credential shall pay the fee prescribed in A.R.S. § 32-1292.01, except the fee is reduced by 50% for applicants who will be employed or working under contract in:
1. Underserved areas such as declared or eligible Health Professional Shortage Areas; or
2. Other facilities caring for underserved populations, as recognized by the Arizona Department of Health Services and approved by the Board.

E. An applicant for dental hygienist licensure by credential who works in areas or facilities described in subsection (D) shall:
1. Commit to a three-year exclusive service period,
2. File a copy of a contract or employment verification statement with the Board, and
3. As a Licensee, submit an annual contract or employment verification statement to the Board by December 31 of each year.

F. A Licensee's failure to comply with the requirements in R4-11-203(E) is considered unprofessional conduct and may result in disciplinary action based on the circumstances of the case.

Historical Note

Former Rule 2c; Former Section R4-11-13 repealed, new Section R4-11-13 adopted effective November 20, 1979 (Supp. 79-6). Amended effective October 30, 1980 (Supp. 80-5). Former Section R4-11-13 renumbered as Section R4-11-203 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-203 renumbered to R4-11-302, new Section R4-11-203 renumbered from R4-11-103 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E), effective April 30, 2001 (Supp. 01-2). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-204. Dental Assistant Radiography Certification by Credential

Eligibility. To be eligible for dental assistant radiography certification by credential, an applicant shall have a current certificate or other form of approval for taking dental radiographs, issued by a professional licensing agency in another state, United States territory or the District of Columbia that required successful completion of a written dental radiography examination.

Historical Note

Former Rule 2d; Former Section R4-11-14 repealed, new Section R4-11-14 adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-14 renumbered as Section R4-11-204, repealed, and new Section R4-11-204 adopted effective July 29, 1981 (Supp. 81-4). Former

Section R4-11-204 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1).

R4-11-205. Application for Dental Assistant Radiography Certification by Credential

A. An applicant for dental assistant radiography certification by credential shall provide to the Board a completed application, on a form furnished by the Board that contains the following information:
1. A sworn statement of the applicant's eligibility, and
2. A letter from the issuing institution that verifies compliance with R4-11-204.

B. Based upon review of information provided under subsection (A), the Board or its designee shall request that an applicant for dental assistant radiography certification by credential provide a copy of a certified document that indicates the reason for a name change if the applicant's documentation contains different names.

Historical Note

Former Rule 2e; Former Section R4-11-15 renumbered as Section R4-11-205 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-205 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3).

R4-11-206. Dental Therapist Licensure by Credential; Application

A. A dental therapist applying under A.R.S. § 32-1276.07 shall comply with all other applicable requirements in A.R.S. Title 32, Chapter 11 and this Article.

B. A dental therapist applying under A.R.S. § 32-1276.07 shall:
1. Have a current dental therapy license in another state, territory or district of the United States with substantially the same scope of practice as defined in A.R.S. § 32-1276.03;
2. Submit a written affidavit affirming that the applicant has practiced as a dental therapist for a minimum of 3000 hours during the five years immediately before applying for licensure by credential. For purposes of this subsection, dental therapy practice includes experience as a dental therapy educator at a dental program accredited by the Commission on Dental Accreditation or another post-secondary dental education program accrediting agency recognized by the U.S. Department of Education, or employment as a dental therapist in a public health setting;
3. Submit a written affidavit affirming that the applicant has complied with the continuing dental therapy education requirement of the state in which the applicant is currently licensed;
4. Provide evidence showing that five years or more before applying for licensure under this Section, the applicant completed the clinical examination by complying with R4-11-201(A);
5. Submit official transcripts to the Board directly from a recognized dental therapy school as defined by A.R.S. § 32-1201(21) or an approved third party showing a degree was conferred to the applicant; and
6. Not be required to obtain an Arizona dental hygienist license, if the dental therapist submits one of the following:
   a. Certified documentation of a current or past dental hygiene license sent directly from the applicable state, United States territory, District of Columbia to the Board; or
   b. Official transcripts sent to the Board directly from a recognized dental hygiene school as defined by A.R.S. § 32-1201(19) or an approved third party showing a degree was conferred to the applicant; or
   c. A written affidavit from a recognized dental therapy school as defined in A.R.S. § 32-1201(21) affirming that all dental hygiene procedures defined in A.R.S. § 32-1281 were part of the education the applicant received.

C. For any application submitted under A.R.S. § 32-1276.07, the Board may request additional clarifying evidence required under R4-11-201(A).

D. If an applicant meets all the requirements set forth in this Section except that their current dental therapy license is from a state, territory, or district of the United States that does not include one or more of the following procedures in its legally defined scope, then the applicant must provide evidence of competency before being granted a dental therapy license by credential:
1. Fabricating soft occlusal guards;
2. Administering Nitrous Oxide Analgesia;
3. Performing nonsurgical extractions of periodontally diseased permanent teeth that exhibit plus or grade three mobility and that are not impacted, fractured, unerupted or in need of sectioning for removal;
4. Suturing; or
5. Placing space maintainers.

E. The Board will accept the any of following as evidence of competency in the aforementioned procedures:
1. A certificate or credential in the procedure or procedures issued by a state licensing jurisdiction; or
2. A signed affidavit from a recognized dental therapy school, recognized dental hygiene school, or recognized dental school, affirming that the applicant successfully completed academic coursework that included both theory and supervised clinical practice in the procedure or procedures.

F. Subject to A.R.S. § 32-1276.04, an applicant for licensure under this Section shall pay the fee prescribed in A.R.S. § 32-1276.07, except the fee is reduced by 50% for applicants who will be employed or working under contract in:
1. Underserved areas, such as declared or eligible Health Professional Shortage Areas; or
2. Other facilities caring for underserved populations as recognized by the Arizona Department of Health Services and approved by the Board.

G. An applicant for dental therapist licensure by credential who works in areas or facilities described in subsection (F) shall:
1. Commit to a three-year, exclusive service period,
2. File a copy of a contract or employment verification statement with the Board, and
3. As a Licensee, submit an annual contract or employment verification statement to the Board by December 31 of each year.

H. A Licensee's failure to comply with the requirements in subsection (G) is considered unprofessional conduct and may

result in disciplinary action based on the circumstances of the case.

Historical Note
Former Rule 2f; Amended as an emergency effective July 7, 1978, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 78-4). Former emergency adoption now adopted and amended effective September 7, 1979 (Supp. 79-5). Former Section R4-11-16 renumbered as Section R4-11-206 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-206 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-207. Repealed

Historical Note
Former Rule 2g; Former Section R4-11-17 renumbered as Section R4-11-207, repealed, and new Section R4-11-207 adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-207 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-208. Repealed

Historical Note
Former Section R4-11-20 repealed, new Section R4-11-20 adopted effective May 12, 1977 (Supp. 77-3). Amended effective October 30, 1980 (Supp. 80-5). Former Section R4-11-20 renumbered as Section R4-11-208 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-208 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-209. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-19 renumbered as R4-11-209 and repealed. Former Section R4-11-21 renumbered as Section R4-11-209 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-209 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-210. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Amended effective June 7, 1978 (Supp. 78-3). Former Section R4-11-22 renumbered as Section R4-11-210 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-210 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-211. Repealed

Historical Note
Adopted effective August 26, 1977 (Supp. 77-4). Former Section R4-11-23 renumbered as Section R4-11-211 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-211 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-212. Repealed

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-24 renumbered as Section R4-11-212 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-212 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-213. Repealed

Historical Note
Adopted as an emergency effective July 7, 1978, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 78-4). Former emergency adoption now adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-25 renumbered as Section R4-11-213, repealed, and new Section R4-11-213 adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-213 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-214. Repealed

Historical Note
Former Rule 2h; Amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-18 renumbered as Section R4-11-214 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-214 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-215. Repealed

Historical Note
Adopted effective June 16, 1982 (Supp. 82-3). Former Section R4-11-215 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-216. Repealed

Historical Note
Adopted effective June 16, 1982 (Supp. 82-3). Former Section R4-11-216 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 3. EXAMINATIONS, LICENSING QUALIFICATIONS, APPLICATION AND RENEWAL, TIMEFRAMES

R4-11-301. Application

A. An applicant for licensure or certification shall provide the following information and documentation:
1. A sworn statement of the applicant's qualifications for the license or certificate on a form provided by the Board;
2. A photograph of the applicant that is no more than 6 months old;
3. An official, sealed transcript sent directly to the Board from either:
   a. The applicant's dental, dental therapy, dental hygiene, or denturist school, or
   b. A verified third-party transcript provider.
4. Except for a dental consultant license applicant, a dental, dental therapy, and dental hygiene license applicant shall provide proof of successfully completing a clinical examination by submitting:
   a. If applying for dental licensure by examination, a copy of the certificate or scorecard sent to the Board directly from a clinical examination administered by a state or testing agency that meets the requirements of A.R.S. § 32-1233(2), indicating that the applicant passed a state or regional testing agency examination that meets the requirements of A.R.S. § 32-

1233(2) within the five years immediately before the date the application is filed with the Board;

b. If applying for dental therapy licensure by examination, a copy of the certificate or scorecard sent to the Board directly from a clinical examination administered by a state, United States territory, District of Columbia or testing agency that meets the requirements of A.R.S. § 32-1276.01(B)(3)(a). The certificate or scorecard must indicate that the applicant passed the examination within the five years immediately before the date the application is filed with the Board. The application must also include the applicant's Arizona dental hygiene license number;

c. If applying for dental hygiene licensure by examination, a copy of the certificate or scorecard sent to the Board directly from a clinical examination administered by a state, United States territory, District of Columbia or testing agency that meets the requirements of A.R.S. § 32-1285(2). The certificate or scorecard must indicate that the applicant passed the examination within the five years immediately before the date the application is filed with the Board;

5. Except for a dental consultant license applicant as provided in A.R.S. § 32-1234(A)(7), dental and dental hygiene license applicants must have an official scorecard sent directly from the National Board examination to the Board;
6. A copy showing the expiration date of the applicant's current cardiopulmonary resuscitation healthcare provider level certificate from the American Red Cross, the American Heart Association, or another certifying agency that follows the same procedures, standards, and techniques for cardiopulmonary resuscitation training and certification as the American Red Cross or American Heart Association;
7. A license or certification verification from any other jurisdiction in which an applicant is licensed or certified, sent directly from that jurisdiction to the Board. If the license verification cannot be sent directly to the Board from the other jurisdiction, the applicant must submit a written affidavit affirming that the license verification submitted was issued by the other jurisdiction;
8. If an applicant has been licensed or certified in another jurisdiction, a copy of the self-inquiry from the National Practitioner Data Bank that is no more than 30 calendar days old;
9. If the applicant is in the military or employed by the United States government, a letter sent to the Board directly from the applicant's commanding officer or supervisor verifying the applicant is licensed or certified by the military or United States government; and
10. The jurisprudence examination fee paid by a method authorized by law.

B. The Board may request that an applicant provide:

1. An official copy of the applicant's dental, dental therapy, dental hygiene, or denturist school diploma from the issuing institution;
2. A copy of a certified document that indicates the reason for a name change if the applicant's application contains different names;
3. Written verification of the applicant's work history; and
4. A copy of a high school diploma or equivalent certificate.

C. An applicant shall pass the Arizona jurisprudence examination with a minimum score of 75%.

Historical Note

Former Rule 3A; Former Section R4-11-29 repealed, new Section R4-11-29 adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-29 renumbered as Section R4-11-301 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-301 repealed, new Section R4-11-301 renumbered from R4-11-201 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-302. Repealed

Historical Note

Former Rule 3B; Former Section R4-11-30 repealed, new Section R4-11-30 adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-30 renumbered as Section R4-11-302 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-302 repealed, new Section R4-11-302 renumbered from R4-11-203 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1).

R4-11-303. Application Processing Procedures: Issuance, Denial, and Renewal of Dental Licenses, Dental Therapy Licenses, Restricted Permits, Dental Hygiene Licenses, Dental Consultant Licenses, Denturist Certificates, Drug or Device Dispensing Registrations, Business Entity Registration and Mobile Dental Facility and Portable Dental Unit Permits

A. The Board office shall complete an administrative completeness review within 30 calendar days of the date of receipt of an application for a license, certificate, permit, or registration.

1. Within 30 calendar days of receiving an initial or renewal application for a dental license, restricted permit, dental therapy license, dental hygiene license, dental consultant license, denturist certificate, Business Entity registration, mobile dental facility or portable dental unit permit, the Board office shall notify the applicant, in writing, whether the application package is complete or incomplete.
2. If the application package is incomplete, the Board office shall provide the applicant with a written notice that includes a comprehensive list of the missing information. The 30 calendar day time-frame for the Board office to finish the administrative completeness review is suspended from the date the notice of incompleteness is served until the applicant provides the Board office with all missing information.
3. If the Board office does not provide the applicant with notice regarding administrative completeness, the application package shall be deemed complete 30 calendar days after receipt by the Board office.

B. An applicant with an incomplete application package shall submit all missing information within 60 calendar days of service of the notice of incompleteness.

C. Upon receipt of all missing information, the Board office shall notify the applicant, in writing, within 30 calendar days, that

the application package is complete. If an applicant fails to submit a complete application package within the time allowed in subsection (B), the Board office shall close the applicant's file. An applicant whose file is closed and who later wishes to obtain a license, certificate, permit, or registration shall apply again as required in R4-11-301.

D. The Board shall not approve or deny an application until the applicant has fully complied with the requirements of A.A.C. Title 4, Chapter 11, Article 3.

E. The Board shall complete a substantive review of the applicant's qualifications in no more than 90 calendar days from the date on which the administrative completeness review of an application package is complete.

1. If the Board finds an applicant to be eligible for a license, certificate, permit, or registration and grants the license, certificate, permit, or registration, the Board office shall notify the applicant in writing.
2. If the Board finds an applicant to be ineligible for a license, certificate, permit, or registration, the Board office shall issue a written notice of denial to the applicant that includes:
   a. Each reason for the denial, with citations to the statutes or rules on which the denial is based;
   b. The applicant's right to request a hearing on the denial, including the number of days the applicant has to file the request;
   c. The applicant's right to request an informal settlement conference under A.R.S. § 41-1092.06; and
   d. The name and telephone number of an agency contact person who can answer questions regarding the application process.
3. If the Board finds deficiencies during the substantive review of an application package, the Board office may issue a comprehensive written request to the applicant for additional documentation. An additional supplemental written request for information may be issued upon mutual agreement between the Board or Board office and the applicant.
4. The 90-day time-frame for a substantive review of an applicant's qualifications is suspended from the date of a written request for additional documentation until the date that all documentation is received. The applicant shall submit the additional documentation before the next regularly scheduled Board meeting.
5. If the applicant and the Board office mutually agree in writing, the 90-day substantive review time-frame may be extended once for no more than 28 days.

F. The following time-frames apply for an initial or renewal application governed by this Section:

1. Administrative completeness review time-frame: 30 calendar days.
2. Substantive review time-frame: 90 calendar days.
3. Overall time-frame: 120 calendar days.

G. An applicant whose license is denied has a right to a hearing, an opportunity for rehearing, and, if the denial is upheld, may seek judicial review pursuant to A.R.S. Title 41, Chapter 6, Article 10, and A.R.S. Title 12, Chapter 7, Article 6.

Historical Note

Former Rule 3C; Former Section R4-11-31 renumbered as Section R4-11-303 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-303 repealed, new Section R4-11-303 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-304. Application Processing Procedures: Issuance and Denial of Dental Assistant Certificates Radiography Certification by Credential

A. Within 30 calendar days of receiving an application from an applicant for a dental assistant radiography certification by credential, the Board or its designee shall notify the applicant, in writing, that the application package is complete or incomplete. If the package is incomplete, the notice shall specify what information is missing.

B. An applicant with an incomplete application package shall supply the missing information within 60 calendar days from the date of the notice. If the applicant fails to do so, an applicant shall begin the application process anew.

C. Upon receipt of all missing information, within 10 calendar days, the Board or its designee shall notify the applicant, in writing, that the application is complete.

D. The Board or its designee shall not process an application until the applicant has fully complied with the requirements of this Article.

E. The Board or its designee shall notify an applicant, in writing, whether the certificate is granted or denied, no later than 90 calendar days after the date of the notice advising the applicant that the package is complete.

F. The notice of denial shall inform the applicant of the following:

1. The reason for the denial, with a citation to the statute or rule which requires the applicant to pass the examination;
2. The applicant's right to request a hearing on the denial, including the number of days the applicant has to file the request;
3. The applicant's right to request an informal settlement conference under A.R.S. § 41-1092.06; and
4. The name and telephone number of an agency contact person or a designee who can answer questions regarding the application process.

G. The following time-frames apply for certificate applications governed by this Section:

1. Administrative completeness review time-frame: 24 calendar days.
2. Substantive review time-frame: 90 calendar days.
3. Overall time-frame: 114 calendar days.

H. An applicant whose certificate is denied has a right to a hearing, an opportunity for rehearing, and, if the denial is upheld, may seek judicial review pursuant to A.R.S. Title 41, Chapter 6, Article 10, and A.R.S. Title 12, Chapter 7, Article 6.

Historical Note

Former Rule 3D; Former Section R4-11-32 renumbered as Section R4-11-304 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-304 repealed, new Section R4-11-304 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-305. Application Processing Procedures: Issuance, Denial, and Renewal of General Anesthesia and Deep Sedation

Permits, Parenteral Sedation Permits, Oral Sedation Permits, and Permit to Employ a Physician Anesthesiologist or Certified Registered Nurse Anesthetist

A. The Board office shall complete an administrative completeness review within 24 days from the date of the receipt of an application for a permit.
1. Within 30 calendar days of receiving an initial or renewal application for a General Anesthesia and Deep Sedation permit, parenteral sedation permit, Oral Sedation permit or permit to employ a physician anesthesiologist or Certified Registered Nurse Anesthetist the Board office shall notify the applicant, in writing, whether the application package is complete or incomplete.
2. If the application package is incomplete, the Board office shall provide the applicant with a written notice that includes a comprehensive list of the missing information. The 24-day time-frame for the Board office to finish the administrative completeness review is suspended from the date the notice of incompleteness is served until the applicant provides the Board office with all missing information.
3. If the Board office does not provide the applicant with notice regarding administrative completeness, the application package shall be deemed complete 24 days after receipt by the Board office.

B. An applicant with an incomplete application package shall submit all missing information within 60 calendar days of service of the notice of incompleteness.

C. Upon receipt of all missing information, the Board office shall notify the applicant, in writing, within 10 calendar days, that the application package is complete. If an applicant fails to submit a complete application package within the time allowed in subsection (B), the Board office shall close the applicant's file. An applicant whose file is closed and who later wishes to obtain a permit shall apply again as required in A.A.C. Title 4, Chapter 11, Article 13.

D. The Board shall not approve or deny an application until the applicant has fully complied with the requirements of this Section and A.A.C. Title 4, Chapter 11, Article 13.

E. The Board shall complete a substantive review of the applicant's qualifications in no more than 120 calendar days from the date on which the administrative completeness review of an application package is complete.
1. If the Board finds an applicant to be eligible for a permit and grants the permit, the Board office shall notify the applicant in writing.
2. If the Board finds an applicant to be ineligible for a permit, the Board office shall issue a written notice of denial to the applicant that includes:
   a. Each reason for the denial, with citations to the statutes or rules on which the denial is based;
   b. The applicant's right to request a hearing on the denial, including the number of days the applicant has to file the request;
   c. The applicant's right to request an informal settlement conference under A.R.S. § 41-1092.06; and
   d. The name and telephone number of an agency contact person who can answer questions regarding the application process.
3. If the Board finds deficiencies during the substantive review of an application package, the Board office shall issue a comprehensive written request to the applicant for additional documentation.
4. The 120-day time-frame for a substantive review of an applicant's qualifications is suspended from the date of a written request for additional documentation until the date that all documentation is received.
5. If the applicant and the Board office mutually agree in writing, the 120-day substantive review time-frame may be extended once for no more than 36 days.

F. The following time-frames apply for an initial or renewal application governed by this Section:
1. Administrative completeness review time-frame: 24 calendar days.
2. Substantive review time-frame: 120 calendar days.
3. Overall time-frame: 144 calendar days.

Historical Note

New Section R4-11-305 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

ARTICLE 4. FEES

R4-11-401. Retired or Disabled Licensure Renewal Fee

As expressly authorized under A.R.S. § 32-1207(B)(3)(c), the licensure renewal fee for a Retired Licensee or Disabled Licensee is $15 and shall be paid by a method authorized by law.

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). Amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-42 renumbered as Section R4-11-401 and repealed effective July 29, 1981 (Supp. 81-4). Adopted effective February 16, 1995 (Supp. 95-1). Former Section R4-11-401 repealed, new Section R4-11-401 renumbered from R4-11-901 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-402. Business Entity Fees

As expressly authorized under A.R.S. § 32-1213, the Board establishes and shall collect the following fees from a Business Entity offering dental services paid by credit card on the Board's website or by money order or cashier's check:
1. Initial triennial registration, $300 per location;
2. Renewal of triennial registration, $300 per location; and
3. Late triennial registration renewal, $100 per location in addition to the fee under subsection (2).

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-43 renumbered as Section R4-11-402, repealed, and new Section R4-11-402 adopted effective July 29, 1981 (Supp. 81-4). Amended effective February 16, 1995 (Supp. 95-1). Former Section R4-11-402 renumbered to R4-11-601, new Section R4-11-402 renumbered

from R4-11-902 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (05-1). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-403. Licensing Fees

A. As expressly authorized under A.R.S. §§ 32-1236, 32-1276.02, 32-1287, 32-1297.06, and 32-1299.23, the Board establishes and shall collect up to the following licensing fees paid by a method authorized by law:
1. Dentist triennial renewal fee: $650;
2. Dentist prorated initial license fee: $110;
3. Dental therapist triennial renewal fee: $375;
4. Dental therapist prorated initial license fee: $80;
5. Dental hygienist triennial renewal fee: $325;
6. Dental hygienist prorated initial license fee: $55;
7. Denturist triennial renewal fee: $300;
8. Denturist prorated initial license fee: $46; and
9. Mobile dental facility permit initial license or annual renewal fee: $200.

B. The following license-related fees are established in or expressly authorized by statute. The Board shall collect the following fees paid by a method authorized by law:
1. Jurisprudence examination fee:
   a. Dentists: $300;
   b. Dental therapists: $200;
   c. Dental hygienists: $100; and
   d. Denturists: $250.
2. Licensure by credential fee:
   a. Dentists: $2,000; and
   b. Dental therapists: $1,500;
   c. Dental hygienists: $1,000.
3. Penalty to reinstate an expired license or certificate: $100 for a dentist, mobile dental facility permit, dental therapist, dental hygienist, or denturist in addition to renewal fee specified under subsection (A).
4. Penalty for a dentist, mobile dental facility permit, dental therapist, dental hygienist, or denturist who fails to notify Board of a change of mailing address:
   a. Failure after 10 days: $50; and
   b. Failure after 30 days: $100.

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-44 renumbered as Section R4-11-403 and repealed effective July 29, 1981 (Supp. 81-4). Adopted effective February 16, 1995 (Supp. 95-1). Former Section R4-11-403 renumbered to R4-11-602, new Section R4-11-403 renumbered from R4-11-903 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section repealed by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (05-1). New Section made by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2). Amended by final rulemaking at 29 A.A.R. 3791 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-404. Repealed

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1_. Former Section R4-11-45 renumbered as Section R4-11-404 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-404 renumbered from R4-11-904 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section repealed by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (05-1).

R4-11-405. Charges for Board Services

The Board shall charge the following fees for the services provided paid by credit card on the Board's website or by money order or cashier's check:
1. Duplicate license: $25;
2. Duplicate certificate: $25;
3. License verification: $25;
4. Copy of audio recording: $10;
5. Photocopies (per page): $.25;
6. Mailing lists of Licensees in digital format: $100

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-46 repealed, new Section R4-11-46 adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-46 renumbered as Section R4-11-405 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-405 renumbered from R4-11-905 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-406. Anesthesia and Sedation Permit Fees

A. As expressly authorized under A.R.S. § 32-1207, the Board establishes and shall collect the following fees:
1. Section 1301 permit fee: $300 plus $25 for each additional location;
2. Section 1302 permit fee: $300 plus $25 for each additional location;
3. Section 1303 permit fee: $300 plus $25 for each additional location; and
4. Section 1304 permit fee: $300 plus $25 for each additional location.

B. Upon successful completion of an initial onsite evaluation and upon receipt of the required permit fee, the Board shall issue a separate Section 1301, 1302, 1303, or 1304 permit to a dentist for each location requested by the dentist. A permit expires on December 31 of every fifth year.

C. Permit renewal fees:
1. Section 1301 permit renewal fee: $300 plus $25 for each additional location;
2. Section 1302 permit renewal fee: $300 plus $25 for each additional location;
3. Section 1303 permit renewal fee: $300 plus $25 for each additional location; and

4. Section 1304 permit renewal fee: $300 plus $25 for each additional location.

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-47 renumbered as Section R4-11-406 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-406 renumbered from R4-11-906 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section R4-11-406 renumbered from R4-11-407 and amended by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Amended by final rulemaking at 9 A.A.R. 4130, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4).

R4-11-407. Renumbered

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-48 renumbered as Section R4-11-407 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-407 renumbered from R4-11-909 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section R4-11-407 renumbered to R4-11-406 by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1).

R4-11-408. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-49 renumbered as Section R4-11-408 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1).

R4-11-409. Repealed

Historical Note
Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3).

ARTICLE 5. DENTISTS

R4-11-501. Dentist of Record

A. A dentist of record shall ensure that each patient record has the treatment records for a patient treated in any dental office, clinic, hospital dental clinic, or charitable organization that offers dental services, and the full name of a dentist who is responsible for all of the patient's treatment.

B. A dentist of record shall obtain a patient's consent to change the treatment plan before changing the treatment plan that the patient originally agreed to, including any additional costs the patient may incur because of the change.

C. When a dentist who is a dentist of record decides to leave the practice of dentistry or a particular place of practice in which the dentist is the dentist of record, the dentist shall ensure before leaving the practice that a new dentist of record is entered on each patient record.

D. A dentist of record is responsible for the care given to a patient while the dentist was the dentist of record even after being replaced as the dentist of record by another dentist.

E. A dentist of record shall:
1. Remain responsible for the care of a patient during the course of treatment; and
2. Be available to the patient through the dentist's office, an emergency number, an answering service, or a substituting dentist.

F. A dentist's failure to comply with subsection (E) constitutes patient abandonment, and the Board may impose discipline under A.R.S. Title 32, Chapter 11, Article 3.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-62 renumbered as Section R4-11-501 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-501 repealed, new Section R4-11-501 renumbered from R4-11-1102 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-502. Affiliated Practice

A. A dentist in a private for profit setting shall not enter into more than 15 affiliated practice relationships under A.R.S. § 32-1289 at one time.

B. There is no limit to the number of affiliated practice relationships a dentist may enter into when working in a government, public health, or non-profit organization under Section 501(C)(3) of the Internal Revenue Code.

C. Each affiliated practice dentist shall be available telephonically or electronically during the business hours of the affiliated practice dental hygienist to provide an appropriate level of contact, communication, and consultation.

D. The affiliated practice agreement shall include a provision for a substitute dentist in addition to the requirements of A.R.S. § 32-1289(E), to cover an extenuating circumstance that renders the affiliated practice dentist unavailable for contact, communication, or consultation with the affiliated practice dental hygienist.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-63 renumbered as Section R4-11-502 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-502 renumbered to R4-11-701 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 29 A.A.R. 3793 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-503. Repealed

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-64 repealed, new Section R4-11-64 adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-64 renumbered as Section R4-11-503 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-503 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-504. Renumbered

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-65 repealed, new Section R4-11-65 adopted effective May 23, 1976 (Supp. 76-2). Former Section R4-11-65 renumbered as Section R4-11-504, repealed, and new Section R4-11-504 adopted effective

July 29, 1981 (Supp. 81-4). Former Section R4-11-504 renumbered to R4-11-702 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-505. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-66 renumbered as Section R4-11-505 and repealed effective July 29, 1981 (Supp. 81-4).

R4-11-506. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-67 renumbered as Section R4-11-506 and repealed effective July 29, 1981 (Supp. 81-4).

ARTICLE 6. DENTAL HYGIENISTS

R4-11-601. Duties and Qualifications

A. A dental hygienist may apply Preventative and Therapeutic Agents under the general supervision of a licensed dentist.
B. A dental hygienist may perform a procedure not specifically authorized by A.R.S. § 32-1281 when all of the following conditions are satisfied:
1. The procedure is recommended or prescribed by the supervising dentist;
2. The dental hygienist has received instruction, training, or education to perform the procedure in a safe manner; and
3. The procedure is performed under the general supervision of a licensed dentist.

C. A dental hygienist shall not perform an Irreversible Procedure.
D. To qualify to use Emerging Scientific Technology as authorized by A.R.S. § 32-1281(C)(2), a dental hygienist shall successfully complete a course of study that meets the following criteria:
1. Is a course offered by a recognized dental school as defined in A.R.S. § 32-1201, a recognized dental hygiene school as defined in A.R.S. § 32-1201, or sponsored by a national or state dental or dental hygiene association or government agency;
2. Includes didactic instruction with a written examination;
3. Includes hands-on clinical instruction; and
4. Is technology that is scientifically based and supported by studies published in peer reviewed dental journals.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-82 renumbered as Section R4-11-601 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-601 repealed, new Section R4-11-601 renumbered from R4-11-402 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-602. Care of Homebound Patients

Dental hygienists treating homebound patients shall provide only treatment prescribed by the dentist of record in the diagnosis and treatment plan. The diagnosis and treatment plan shall be based on examination data obtained not more than 12 months before the treatment is administered.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-83 renumbered as Section R4-11-602 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-602 renumbered to R4-11-1001, new Section R4-11-602 renumbered from R4-11-403 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-603. Limitation on Number Supervised

A dentist shall not supervise more than three dental hygienists at a time.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-84 renumbered as Section R4-11-603 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-603 renumbered to R4-11-1002, new Section R4-11-603 renumbered from R4-11-408 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-604. Selection Committee and Process

A. The Board shall appoint a selection committee to screen candidates for the dental hygiene committee. The selection committee consists of three members. The Board shall appoint at least two members who are dental hygienists and one member who is a current Board member. The Board shall fill any vacancy for the unexpired portion of the term.
B. Each selection committee member's term is one year.
C. By majority vote, the selection committee shall nominate each candidate for the dental hygiene committee and transmit a list of names to the Board for approval, including at least one alternate.

Historical Note
New Section R4-11-604 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-605. Dental Hygiene Committee

A. The Board shall appoint seven members to the dental hygiene committee as follows:
1. One dentist appointed at the annual December Board meeting, currently serving as a Board member, for a one year term;
2. One dental hygienist appointed at the annual December Board meeting, currently serving as a Board member and possessing the qualifications required in Article 6, for a one-year term;
3. Four dental hygienists that possess the qualifications required in Article 6; and
4. One lay person.

B. Except for members appointed as prescribed in subsections (A)(1) and (2), the Board shall appoint dental hygiene committee members for staggered terms of three years, beginning January 1, 1999, and limit each member to two consecutive terms. The Board shall fill any vacancy for the unexpired portion of the term.
C. The dental hygiene committee shall annually elect a chairperson at the first meeting convened during the calendar year.

Historical Note
New Section R4-11-605 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-606. Candidate Qualifications and Submissions

A. A dental hygienist who seeks membership on the dental hygiene committee shall possess a license in good standing, issued by the Board.

B. A dental hygienist who is not a Board member and qualifies under subsection (A) shall submit a letter of intent and resume to the Board.

C. The selection committee shall consider all of the following criteria when nominating a candidate for the dental hygiene committee:
1. Geographic representation,
2. Experience in postsecondary curriculum analysis and course development,
3. Public health experience, and
4. Dental hygiene clinical experience.

Historical Note
New Section R4-11-606 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-607. Duties of the Dental Hygiene Committee

A. The committee shall advise the Board on all matters relating to the regulation of dental hygienists.

B. In performing the duty in subsection (A), the committee may:
1. Act as a liaison for the Board, promoting communication and providing a forum for discussion of dental hygiene regulatory issues;
2. Review applications, syllabi, and related materials and make recommendations to the Board regarding certification of courses in Local Anesthesia, Nitrous Oxide Analgesia, and suture placement under Article 6 and other procedures which may require certification under Article 6;
3. Review documentation submitted by dental hygienists to determine compliance with the continuing education requirement for license renewal under Article 12 and make recommendations to the Board regarding compliance;
4. Make recommendations to the Board concerning statute and rule development which affect dental hygienists' education, licensure, regulation, or practice;
5. Provide advice to the Board on standards and scope of practice which affect dental hygiene practice;
6. Provide ad hoc committees to the Board upon request;
7. Request that the Board consider recommendations of the committee at the next regularly scheduled Board meeting; and
8. Make recommendations to the Board for approval of dental hygiene consultants.

C. Committee members who are licensed dentists or dental hygienists may serve as dental hygiene examiners or Board consultants.

D. The committee shall meet at least two times per calendar year. The chairperson or the president of the Board, or their respective designees, may call a meeting of the committee.

E. The Board may assign additional duties to the committee.

Historical Note
New Section R4-11-607 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-608. Dental Hygiene Consultants

After submission of a current curriculum vitae or resume and approval by the Board, dental hygiene consultants may:
1. Act as dental hygiene examiners for the clinical portion of the dental hygiene examination;
2. Act as dental hygiene examiners for the Local Anesthesia portion of the dental hygiene examination;
3. Participate in Board-related procedures, including Clinical Evaluations, investigation of complaints concerning infection control, insurance fraud, or the practice of supervised personnel, and any other procedures not directly related to evaluating a dentist's quality of care; and
4. Participate in onsite office evaluations for infection control, as part of a team.

Historical Note
New Section R4-11-608 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-609. Affiliated Practice

A. To perform dental hygiene services under an affiliated practice relationship pursuant to A.R.S. § 32-1289.01, a dental hygienist shall:
1. Provide evidence to the Board of successfully completing a total of 12 hours of Recognized Continuing Dental Education that consists of the following subject areas:
   a. A minimum of four hours in medical emergencies; and
   b. A minimum of eight hours in at least two of the following areas:
      i. Pediatric or other special health care needs,
      ii. Preventative dentistry, or
      iii. Public health community-based dentistry, and
2. Hold a current certificate in basic cardiopulmonary resuscitation.

B. A dental hygienist shall complete the required continuing dental education before entering an affiliated practice relationship. The dental hygienist shall complete the continuing dental education in subsection (A) before renewing the dental hygienist's license. The dental hygienist may take the continuing dental education online but shall not exceed the allowable hours indicated in R4-11-1209(B)(1).

C. To comply with A.R.S. § 32-1287(B) and this Section, a dental hygienist shall submit a completed affidavit on a form supplied by the Board office. Board staff shall review the affidavit to determine compliance with all requirements.

D. Each affiliated practice dentist shall be available telephonically or electronically during the business hours of the affiliated practice dental hygienist to provide an appropriate level of contact, communication, and consultation.

E. The affiliated practice agreement shall include a provision for a substitute dentist, to cover an extenuating circumstance that renders the affiliated practice dentist unavailable for contact, communication, and consultation with the affiliated practice dental hygienist.

Historical Note
New Section made by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

ARTICLE 7. DENTAL ASSISTANTS

R4-11-701. Procedures and Functions Performed by a Dental Assistant under Supervision

A. A dental assistant may perform the following procedures and functions under the Direct Supervision of a licensed dentist or a licensed dental therapist:

1. Place dental material into a patient's mouth in response to a licensed dentist's or licensed dental therapist's instruction;
2. Cleanse the supragingival surface of the tooth in preparation for:
   a. The placement of bands, crowns, and restorations;
   b. Dental dam application;
   c. Acid etch procedures; and
   d. Removal of dressings and packs;
3. Remove excess cement from inlays, crowns, bridges, and orthodontic appliances with hand instruments;
4. Remove temporary cement, interim restorations, and periodontal dressings with hand instruments;
5. Remove sutures;
6. Place and remove dental dams and matrix bands;
7. Fabricate and place interim restorations with temporary cement;
8. Apply sealants;
9. Apply topical fluorides;
10. Take final digital impressions for any activating orthodontic appliance, fixed, or removable prosthesis;
11. Prepare a patient for Nitrous Oxide Analgesia administration upon the direct instruction and presence of a dentist or licensed dental therapist; or
12. Observe a patient during Nitrous Oxide Analgesia as instructed by the dentist or licensed dental therapist.

B. A dental assistant may perform the following procedures and functions under the general supervision of a licensed dentist or a licensed dental therapist:
1. Train or instruct patients in oral hygiene techniques, preventive procedures, dietary counseling for caries and Plaque control, and provide pre-and post-operative instructions relative to specific office treatment;
2. Collect and record information pertaining to extraoral conditions; and
3. Collect and record information pertaining to existing intraoral conditions.

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-100 renumbered as Section R4-11-701 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-701 renumbered to R4-11-1701, new Section R4-11-701 renumbered from R4-11-502 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-702. Limitations on Procedures or Functions Performed by a Dental Assistant under Supervision

A dental assistant shall not perform the following procedures or functions:
1. A procedure which by law only licensed dentists, licensed dental therapists, licensed dental hygienists, or certified denturists can perform;
2. Intraoral carvings of dental restorations or prostheses;
3. Final jaw registrations;
4. Taking final impressions, other than digital impressions, for any activating orthodontic appliance, fixed or removable prosthesis;
5. Activating orthodontic appliances; or
6. An Irreversible Procedure.

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-101 renumbered as Section R4-11-702 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-702 repealed, new Section R4-11-702 renumbered from R4-11-504 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-703. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-102 renumbered as Section R4-11-703 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-703 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-704. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-103 renumbered as Section R4-11-704 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-704 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-705. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-104 renumbered as Section R4-11-705 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-705 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-706. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-105 renumbered as Section R4-11-706 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-706 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-707. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-106 renumbered as Section R4-11-707 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-707 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-708. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-107 renumbered as Section R4-11-708 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-708 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-709. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-108 renumbered as Section R4-11-709 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-709 repealed by final rulemaking at 5

A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-710. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-109 renumbered as Section R4-11-710 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-710 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 8. DENTURISTS

R4-11-801. Expired

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-120 renumbered as Section R4-11-801 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-801 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-801 repealed, new Section R4-11-801 renumbered from R4-11-1201 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-802. Expired

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-121 renumbered as Section R4-11-802 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-802 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-802 renumbered to R4-11-1301, new Section R4-11-802 renumbered from R4-11-1202 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-803. Renumbered

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-122 renumbered as Section R4-11-803 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-803 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-803 renumbered to R4-11-1302 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-804. Renumbered

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-123 renumbered as Section R4-11-804 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-804 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Former Section R4-11-804 renumbered to R4-11-1303 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-805. Renumbered

Historical Note
Adopted as filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-805 renumbered to R4-11-1304 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-806. Renumbered

Historical Note
Adopted effective May 17, 1995 (Supp. 95-2). Former Section R4-11-806 renumbered to R4-11-1305 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 9. RESTRICTED PERMITS

R4-11-901. Application for Restricted Permit

A. An applicant for a restricted permit shall provide the following information and documentation on a form provided by the Board:
1. A sworn statement of the applicant's qualifications for a restricted permit;
2. A photograph of the applicant that is no more than six months old;
3. A letter from any other jurisdiction in which an applicant is licensed or certified verifying that the applicant is licensed or certified in that jurisdiction, sent directly from that jurisdiction to the Board;
4. If the applicant is in the military or employed by the United States government, a letter from the applicant's commanding officer or supervisor verifying the applicant is licensed or certified by the military or United States government;
5. A copy of the applicant's current cardiopulmonary resuscitation certification that meets the requirements of R4-11-301(A)(6); and
6. A copy of the applicant's pending contract with a Charitable Dental Clinic or Organization offering dental or dental hygiene services.

B. The Board may request that an applicant provide a copy of a certified document that indicates the reason for a name change if the applicant's application contains different names.

Historical Note
Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-130 renumbered as Section R4-11-901, repealed, and new Section R4-11-901 adopted effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-2). Emergency amendment adopted effective June 18, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Adopted effective July 13, 1992 (Supp. 92-3). Former Section R4-11-901 renumbered to R4-11-401, new Section R4-11-901 renumbered from R4-11-1001 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-902. Issuance of a Restricted Permit

Before issuing a restricted permit under A.R.S. §§ 32-1237 through 32-1239 or 32-1292, the Board shall investigate the statutory qualifications of the charitable dental clinic or organization. The Board shall not recognize a dental clinic or organization under A.R.S. §§ 32-1237 through 32-1239 or 32-1292 as a charitable dental clinic or organization permitted to employ dentists or dental hygienists not licensed in Arizona who hold restricted permits unless the Board makes the following findings of fact:

1. That the entity is a dental clinic or organization offering professional dental or dental hygiene services in a manner consistent with the public health;
2. That the dental clinic or organization offering dental or dental hygiene services is operated for charitable purposes only, offering dental or dental hygiene services either without compensation to the clinic or organization or with compensation at the minimum rate to provide only reimbursement for dental supplies and overhead costs;
3. That the persons performing dental or dental hygiene services for the dental clinic or organization do so without compensation; and
4. That the charitable dental clinic or organization operates in accordance with applicable provisions of law.

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-131 renumbered as Section R4-11-902, repealed, and new Section R4-11-902 adopted effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-2). Emergency amendment adopted effective June 18, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Adopted effective July 13, 1992 (Supp. 92-3). Former Section R4-11-902 renumbered to R4-11-402, new Section R4-11-902 renumbered from R4-11-1002 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-903. Recognition of a Charitable Dental Clinic or Organization

In order for the Board to make the findings required in R4-11-902, the charitable clinic or organization shall provide information to the Board, such as employment contracts with restricted permit holders, Articles and Bylaws, and financial records.

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-132 renumbered as Section R4-11-903, repealed, and new Section R4-11-903 adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-903 renumbered to R4-11-403, new Section R4-11-903 renumbered from R4-11-1003 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 29 A.A.R. 3793 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-904. Determination of Minimum Rate

In determining whether professional services are provided at the minimum rate to provide reimbursement for dental supplies and overhead costs under A.R.S. §§ 32-1237(1) or 32-1292(A)(1), the Board shall obtain and review information relating to the actual cost of dental supplies to the dental clinic or organization, the actual overhead costs of the dental clinic or organization, the amount of charges for the dental or dental hygiene services offered, and any other information relevant to its inquiry.

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-133 renumbered as Section R4-11-904 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-904 renumbered to R4-11-404, new Section R4-11-904 renumbered from R4-11-1004 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-905. Expired

Historical Note

Adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-134 renumbered as Section R4-11-905 without change effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-2). Former Section R4-11-905 renumbered to R4-11-405, new Section R4-11-905 renumbered from R4-11-1005 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-906. Expired

Historical Note

Adopted effective July 29, 1981 (Supp. 81-4). Amended effective April 4, 1986 (Supp. 86-4). Emergency amendment adopted effective June 18, 1991, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 91-2). Emergency expired. Adopted effective July 13, 1992 (Supp. 92-3). Former Section R4-11-906 renumbered to R4-11-406, new Section R4-11-906 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-907. Repealed

Historical Note

Adopted effective April 4, 1986 (Supp. 86-2). Former Section R4-11-907 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-908. Repealed

Historical Note

Adopted effective April 4, 1986 (Supp. 86-2). Former Section R4-11-908 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-909. Renumbered

Historical Note

Adopted effective May 17, 1995 (Supp. 95-2). Former Section R4-11-909 renumbered to R4-11-407 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 10. DENTAL TECHNICIANS

R4-11-1001. Expired

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-140 renumbered as Section R4-11-1001 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1001 renumbered to R4-11-901, new Section R4-11-1001 renumbered from R4-11-602 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-1002. Expired

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-141 renumbered as Section R4-11-1002 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1002 renumbered to R4-11-902, new Section R4-11-1002 renumbered from R4-11-603 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-1003. Renumbered

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-142 renumbered as Section R4-11-1003 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1003 renumbered to R4-11-903 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1004. Renumbered

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-143 renumbered as Section R4-11-1004 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1004 renumbered to R4-11-904 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1005. Renumbered

Historical Note
Adopted effective November 28, 1980 (Supp. 80-6). Former Section R4-11-144 renumbered as Section R4-11-1005 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1005 renumbered to R4-11-905 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1006. Repealed

Historical Note
Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3).

ARTICLE 11. ADVERTISING

R4-11-1101. Advertising

A dentist may advertise specific dental services or certification in a non-specialty area only if the advertisement includes the phrase "Services provided by an Arizona licensed general dentist." A dental hygienist may advertise specific dental hygiene services only if the advertisement includes the phrase "Services provided by an Arizona licensed dental hygienist." A denturist may advertise specific denture services only if the advertisement includes the phrase "Services provided by an Arizona certified denturist."

Historical Note
Adopted effective July 29, 1981 (Supp. 81-4). Amended by repealing the former guideline on "Management of Craniomandibular Disorders" and adopting a new guideline effective June 16, 1982 (Supp. 82-3). Repealed effective November 20, 1992 (Supp. 92-4). Former Section R4-11-1101 repealed, new Section R4-11-1101 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1102. Advertising as a Recognized Specialist

A. A dentist may advertise as a specialist or use the terms "specialty" or "specialist" to describe professional services only if the dentist limits the dentist's practice exclusively to one or more specialty area that are:
1. Recognized by a board that certifies specialists for the area of specialty; and
2. Accredited by the Commission on Dental Accreditation of the American Dental Association.

B. The following specialty areas meet the requirements of subsection (A):
1. Endodontics,
2. Oral and maxillofacial surgery,
3. Orthodontics and dentofacial orthopedics,
4. Pediatric dentistry,
5. Periodontics,
6. Prosthodontics,
7. Dental Public Health,
8. Oral and Maxillofacial Pathology, and
9. Oral and Maxillofacial Radiology.

C. For purposes of this Article, a dentist who wishes to advertise as a specialist or a multiple-specialist in a recognized field under subsection (B) shall meet the criteria in one or more of the following categories:
1. Grandfathered: A dentist who declared a specialty area before December 31, 1964, according to requirements established by the American Dental Association, and has a practice limited to a dentistry area approved by the American Dental Association;
2. Educationally qualified: A dentist who has successfully completed an educational program of two or more years in a specialty area accredited by the Commission on Dental Accreditation of the American Dental Association, as specified by the Council on Dental Education of the American Dental Association;
3. Board eligible: A dentist who has met the guidelines of a specialty board that operates in accordance with the requirements established by the American Dental Association in a specialty area recognized by the Board, if the specialty board:
   a. Has established examination requirements and standards,
   b. Appraised an applicant's qualifications,
   c. Administered comprehensive examinations, and
   d. Upon completion issues a certificate to a dentist who has achieved diplomate status; or
4. Board certified: A dentist who has met the requirements of a specialty board referenced in subsection (C)(3), and who has received a certificate from the specialty board, indicating the dentist has achieved diplomate status.

D. A dentist, dental hygienist, or denturist whose advertising implies that services rendered in a dental office are of a specialty area other than those listed in subsection (B) and recognized by a specialty board that has been accredited by the Commission on Dental Accreditation of the American Dental Association violates this Article and A.R.S. § 32-1201(18)(u), and is subject to discipline under A.R.S. Title 32, Chapter 11.

Historical Note
Adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-1102 renumbered to R4-11-501 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1103. Reserved

R4-11-1104. Repealed

Historical Note
Adopted effective November 25, 1985 (Supp. 85-6). Former Section R4-11-1104 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1105. Repealed

Historical Note
Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3).

ARTICLE 12. CONTINUING DENTAL EDUCATION AND RENEWAL REQUIREMENTS

R4-11-1201. Continuing Dental Education

A. A licensee or certificate holder shall:
1. Satisfy a continuing dental education requirement that is designed to provide an understanding of current developments, skills, procedures, or treatment related to the licensee's or certificate holder's practice; and
2. Complete the recognized continuing dental education required by this Article each renewal period.

B. A licensee or certificate holder receiving an initial license or certificate shall complete the prescribed credit hours of recognized continuing dental education by the end of the first full renewal period.

Historical Note
Adopted effective May 21, 1982 (Supp. 82-3). Former Section R4-11-1201 renumbered to R4-11-801, new Section R4-11-1201 renumbered from R4-11-1402 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1202. Continuing Dental Education Compliance and Renewal Requirements

A. When applying for a renewal license, certificate, or restricted permit, a Licensee, denturist, or Restricted Permit Holder shall complete a renewal application provided by the Board.

B. Before receiving a renewal license or certificate, each Licensee or denturist shall possess a current form of one of the following:
1. A cardiopulmonary resuscitation healthcare provider level certificate from the American Red Cross, the American Heart Association, or another certifying agency;
2. Advanced cardiac life support course completion confirmation from the American Heart Association or another agency. The confirmation must indicate that the course was completed within two years immediately before submitting a renewal application; or
3. Pediatric advanced life support course completion confirmation from the American Heart Association or another agency. The confirmation must indicate that the course was completed within two years immediately before submitting a renewal application.

C. A Licensee or denturist shall include an affidavit affirming the Licensee's or denturist's completion of the prescribed Credit Hours of Recognized Continuing Dental Education with a renewal application. A Licensee or denturist shall include on the affidavit the Licensee's or denturist's name, license or certificate number, the number of hours completed in each category, and the total number of hours completed for activities defined in R4-11-1209(A)(4).

D. A Licensee or denturist shall submit a written request for an extension before the renewal deadline prescribed in A.R.S. §§ 32-1236, 32-1276.02, 32-1287, and 32-1297.06. If a Licensee or denturist fails to meet the Credit Hours requirement because of military service, dental or religious missionary activity, residence in a foreign country, or other extenuating circumstances as determined by the Board, the Board, upon written request, may grant an extension of time to complete the Recognized Continuing Dental Education Credit Hour requirement.

E. The Board shall:
1. Only accept Recognized Continuing Dental Education credits accrued during the prescribed period immediately before license or certificate renewal, and
2. Not allow Recognized Continuing Dental Education credit accrued in a renewal period in excess of the amount required in this Article to be carried forward to the next renewal period.

F. A Licensee or denturist shall maintain Documentation of Attendance for each program for which credit is claimed that verifies the Recognized Continuing Dental Education Credit Hours the Licensee or denturist participated in during the most recently completed renewal period.

G. Each year, the Board shall audit continuing dental education requirement compliance on a random basis or when information is obtained which indicates a Licensee or denturist may not be in compliance with this Article. A Licensee or denturist selected for audit shall provide the Board with Documentation of Attendance that shows compliance with the continuing dental education requirements within 35 calendar days from the date the Board issues notice of the audit by certified mail.

H. If a Licensee or denturist is found to not be in compliance with the continuing dental education requirements, the Board may take any disciplinary or non-disciplinary action authorized by A.R.S. Title 32, Chapter 11.

Historical Note
Adopted effective May 21, 1982 (Supp. 82-3). Former Section R4-11-1202 renumbered to R4-11-802, new Section R4-11-1202 renumbered from R4-11-1403 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 21 A.A.R. 921, effective August 3, 2015 (Supp. 15-2). Amended by final rulemaking at 28 A.A.R. 344 (February 4, 2022), effective March 14, 2022 (Supp. 22-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022

(Supp. 22-3).

R4-11-1203. Dentists and Dental Consultants

Dentists and dental consultants shall complete 63 hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 36 Credit Hours in any one or more of the following areas: Dental and medical health, preventive services, dental diagnosis and treatment planning, dental recordkeeping, dental clinical procedures, managing medical emergencies, pain management, dental public health, and courses in corrective and restorative oral health and basic dental sciences, which may include current research, new concepts in dentistry, chemical dependency, tobacco cessation, and behavioral and biological sciences that are oriented to dentistry. A Licensee who holds a permit to administer General Anesthesia, Deep Sedation, Parenteral Sedation, or Oral Sedation who is required to obtain continuing education pursuant to Article 13 may apply those Credit Hours to the requirements of this Section;
2. No more than 15 Credit Hours in one or more of the following areas: Dental practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in opioid education;
4. At least three Credit Hours in infectious diseases or infectious disease control;
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support or pediatric advanced life support. Coursework may be completed online if the course requires a physical demonstration of skills; and
6. At least three Credit Hours in ethics or Arizona dental jurisprudence.

Historical Note

Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3). New Section R4-11-1203 renumbered from R4-11-1404 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1204. Dental Hygienists

A. A dental hygienist shall complete 45 Credit Hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 25 Credit Hours in any one or more of the following areas: Dental and medical health, and dental hygiene services, periodontal disease, care of implants, maintenance of cosmetic restorations and sealants, radiology safety and techniques, managing medical emergencies, pain management, dental recordkeeping, dental public health, and new concepts in dental hygiene;
2. No more than 11 Credit Hours in one or more of the following areas: Dental hygiene practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in one or more of the following areas: chemical dependency, tobacco cessation, ethics, risk management, or Arizona dental jurisprudence;
4. At least three Credit Hours in infectious diseases or infectious disease control; and
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support and pediatric advanced life support. Coursework may be completed online if the course re-quires a physical demonstration of skills.

B. A Licensee who performs dental hygiene services under an affiliated practice relationship who is required to obtain continuing education under R4-11-609 may apply those Credit Hours to the requirements of this Section.

Historical Note

New Section R4-11-1204 renumbered from R4-11-1405 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1205. Denturists

Denturists shall complete 27 Credit Hours of Recognized Continuing Dental Education in each renewal period as follows:

1. At least 15 Credit Hours in any one or more of the following areas: Medical and dental health, laboratory procedures, clinical procedures, dental recordkeeping, removable prosthetics, pain management, dental public health, and new technology in dentistry;
2. No more than three Credit Hours in one or more of the following areas: Denturist practice organization and management, patient management skills, and methods of health care delivery;
3. At least one Credit Hour in chemical dependency, which may include tobacco cessation;
4. At least two Credit Hours in infectious diseases or infectious disease control;
5. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support and pediatric advanced life support. Coursework may be completed online if the course re-quires a physical demonstration of skills; and
6. At least three Credit Hours in ethics or Arizona dental jurisprudence.

Historical Note

New Section R4-11-1205 renumbered from R4-11-1406 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1206. Restricted Permit Holders - Dental

In addition to the requirements in R4-11-1202, a dental Restricted Permit Holder shall comply with the following requirements:

1. When applying for renewal under A.R.S. § 32-1238, the Restricted Permit Holder shall provide information to the Board that the Restricted Permit Holder has completed 15 Credit Hours of Recognized Continuing Dental Education yearly.

2. To determine whether to grant the renewal, the Board shall only consider Recognized Continuing Dental Education credits accrued during the 36 months immediately before the renewal deadline prescribed in A.R.S. § 32-1236.
3. A dental Restricted Permit Holder shall complete the 15 hours of Recognized Continuing Dental Education before renewal as follows:
   a. At least six Credit Hours in one or more of the subjects enumerated in R4-11-1203(1);
   b. No more than three Credit Hours in one or more of the subjects enumerated in R4-11-1203(2);
   c. At least one Credit Hour in the subjects enumerated in R4-11-1203(3);
   d. At least one Credit Hour in the subjects enumerated in R4-11-1203(4).
   e. At least three Credit Hours in the subjects enumerated in R4-11-1203(5); and
   f. At least one Credit Hour in the subjects enumerated in R4-11-1203(6).

Historical Note

New Section R4-11-1206 renumbered from R4-11-1407 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 344 (February 4, 2022), effective March 14, 2022 (Supp. 22-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1207. Restricted Permit Holders - Dental Hygiene

In addition to the requirements in R4-11-1202, a dental hygiene Restricted Permit Holder shall comply with the following:

1. When applying for renewal under A.R.S. § 32-1292, the Restricted Permit Holder shall provide information to the Board that the Restricted Permit Holder has completed nine Credit Hours of Recognized Continuing Dental Education yearly.
2. To determine whether to grant renewal, the Board shall only consider Recognized Continuing Dental Education credits accrued during the 36 months immediately before the renewal deadline prescribed in A.R.S. § 32-1287.
3. A dental hygiene Restricted Permit Holder shall complete the nine hours of Recognized Continuing Dental Education before renewal as follows:
   a. At least three Credit Hours in one or more of the subjects enumerated in R4-11-1204(1);
   b. No more than three Credit Hours in one or more of the subjects enumerated in R4-11-1204(2);
   c. At least one Credit Hour in the subjects enumerated in R4-11-1204(3);
   d. At least two Credit Hours in the subjects enumerated in R4-11-1204(4) and
   e. At least three Credit Hours in the subjects enumerated in R4-11-1204(5).

Historical Note

New Section R4-11-1207 renumbered from R4-11-1408 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 344 (February 4, 2022), effective March 14, 2022 (Supp. 22-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1208. Retired Licensees or Retired Denturists

A Retired Licensee or Retired denturist shall:

1. Except for the number of Credit Hours required, comply with the requirements in R4-11-1202; and
2. When applying for renewal under A.R.S. § 32-1236 for a dentist, A.R.S. § 32-1276.02 for a dental therapist, A.R.S. § 32-1287 for a dental hygienist, and A.R.S. § 32-1297.06 for a denturist, provide information to the Board that the Retired Licensee or Retired denturist has completed the following Credit Hours of Recognized Continuing Dental Education per renewal period:
   a. Dentist - 24 Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation-healthcare provider level;
   b. Dental therapist - 21 Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation- healthcare provider level;
   c. Dental hygienist - 18 Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation-healthcare provider level; and
   d. Denturist - six Credit Hours of which no less than three Credit Hours shall be for cardiopulmonary resuscitation-healthcare provider level.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1209. Types of Courses

A. A Licensee or denturist shall obtain Recognized Continuing Dental Education from one or more of the following activities:

1. Seminars, symposiums, lectures, or programs designed to provide an understanding of current developments, skills, procedures, or treatment related to the practice of dentistry;
2. Seminars, symposiums, lectures, or programs designed to provide an understanding of current developments, skills, procedures, or treatment related to the practice of dentistry by means of audio-video technology in which the Licensee is provided all seminar, symposium, lecture or program materials and the technology permits attendees to fully participate; or
3. Curricula designed to prepare for specialty board certification as a specialist or recertification examinations or advanced training at an accredited institution as defined in A.R.S. Title 32, Chapter 11; and
4. Subject to the limitations in subsection (B), any of the following activities that provide an understanding of current developments, skills, procedures, or treatment related to the practice of dentistry:
   a. A correspondence course, video, internet or similar self-study course, if the course includes an examination and the Licensee or denturist passes the examination;
   b. Participation on the Board, in Board complaint investigations including Clinical Evaluations or anesthesia and sedation permit evaluations;

c. Participation in peer review of a national or state dental, dental therapy, dental hygiene, or denturist association or participation in quality of care or utilization review in a hospital, institution, or governmental agency;
d. Providing dental-related instruction to dental, dental therapy, dental hygiene, or denturist students, or allied health professionals in a recognized dental school, recognized dental therapy school, recognized dental hygiene school, or recognized denturist school or providing dental-related instruction sponsored by a national, state, or local dental, dental therapy, dental hygiene, or denturist association;
e. Publication or presentation of a dental paper, report, or book authored by the Licensee or denturist that provides information on current developments, skills, procedures, or treatment related to the practice of dentistry. A Licensee or denturist may claim Credit Hours:
i. Only once for materials presented;
ii. Only if the date of publication or original presentation was during the applicable renewal period; and
iii. One Credit Hour for each hour of preparation, writing, and presentation; or
f. Providing dental, dental therapy, dental hygiene, or denturist services in a Board-recognized Charitable Dental Clinic or Organization.

B. The following limitations apply to the total number of Credit Hours earned per renewal period in any combination of the activities listed in subsection (A)(4):
1. Dentists, no more than 21 hours;
2. Dental therapists, no more than 18 hours;
3. Dental hygienists, no more than 15 hours;
4. Denturists, no more than nine hours;
5. Retired or Restricted Permit Holder dentists, dental therapists, or dental hygienists, no more than two hours; and
6. Retired denturists, no more than two hours.

Historical Note
New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1210. Dental Therapists

Dental therapists shall complete 54 hours of Recognized Continuing Dental Education in each renewal period as follows:
1. At least 31 Credit Hours in any one or more of the following areas: Dental and medical health, dental therapy services, dental therapy treatment planning, preventive services, dental diagnosis and treatment planning, dental recordkeeping, dental clinical procedures, managing medical emergencies, pain management, dental public health, periodontal disease, care of implants, maintenance of cosmetic restorations and sealants, radiology safety and techniques, and courses in corrective and restorative oral health and basic dental sciences, which may include current research, new concepts in dentistry, and behavioral and biological sciences that are oriented to dentistry;
2. No more than 14 Credit Hours in any one or more of the following areas: Dental practice organization and management, patient management skills, and methods of health care delivery;
3. At least three Credit Hours in infectious diseases or infectious disease control;
4. At least three Credit Hours in cardiopulmonary resuscitation healthcare provider level, advanced cardiac life support or pediatric advanced life support. Coursework may be completed online if the course requires a physical demonstration of skills; and
5. At least three Credit Hours in any one or more of the following areas: ethics, risk management, chemical dependency, tobacco cessation, or Arizona dental jurisprudence.

Historical Note
New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

ARTICLE 13. GENERAL ANESTHESIA AND SEDATION

R4-11-1301. General Anesthesia and Deep Sedation

A. Before administering General Anesthesia, or Deep Sedation by any means, in a dental office or dental clinic, a dentist shall possess a Section 1301 Permit issued by the Board. The dentist may renew a Section 1301 Permit every five years by complying with R4-11-1307.

B. To obtain or renew a Section 1301 Permit, a dentist shall:
1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3), and R4-11-1307, includes:
a. General information about the applicant such as:
i. Name;
ii. Home and office addresses and telephone numbers;
iii. Limitations of practice;
iv. Hospital affiliations;
v. Denial, curtailment, revocation, or suspension of hospital privileges;
vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist has read and complied with the Board's statutes and rules;
2. On forms provided by the Board, provide a dated and signed affidavit attesting that any office or dental clinic where the dentist will administer General Anesthesia or Deep Sedation:
a. Contains the following properly operating equipment and supplies during the provision of General Anesthesia and Deep Sedation:
i. Emergency Drugs;
ii. Electrocardiograph monitor;
iii. Pulse oximeter;
iv. Cardiac defibrillator or automated external defibrillator;
v. Positive pressure oxygen and supplemental oxygen;
vi. Suction equipment, including endotracheal, tonsillar, or pharyngeal and emergency backup medical suction device;

vii. Laryngoscope, multiple blades, backup batteries, and backup bulbs;
viii. Endotracheal tubes and appropriate connectors;
ix. Magill forceps;
x. Oropharyngeal and nasopharyngeal airways;
xi. Auxiliary lighting;
xii. Stethoscope; and
xiii. Blood pressure monitoring device; and

b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents. All personnel involved in administering and monitoring General Anesthesia or Deep Sedation shall hold a current course completion confirmation in cardiopulmonary resuscitation healthcare provider level;

3. Hold a valid license to practice dentistry in this state;
4. Maintain a current permit to prescribe and administer Controlled Substances in this state issued by the United States Drug Enforcement Administration; and
5. Provide confirmation of completing coursework within the two years prior to submitting the permit application in one or more of the following:
   a. Advanced cardiac life support from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   b. Pediatric advanced life support in a practice treating pediatric patients; or
   c. A recognized continuing education course in advanced airway management.

C. Initial applicants shall meet one or more of the following conditions by submitting to the Board verification of meeting the condition directly from the issuing institution:
1. Complete, within the three years before submitting the permit application, a full credit load, as defined by the training program, during one calendar year of training, in anesthesiology or related academic subjects, beyond the undergraduate dental school level in a training program described in R4-11-1306(A), offered by a hospital accredited by the Joint Commission on Accreditation of Hospitals Organization, or sponsored by a university accredited by the American Dental Association Commission on Dental Accreditation;
2. Be, within the three years before submitting the permit application, a Diplomate of the American Board of Oral and Maxillofacial Surgeons or eligible for examination by the American Board of Oral and Maxillofacial surgeons, a Fellow of the American Association of Oral and Maxillofacial surgeons, a Fellow of the American Dental Society of Anesthesiology, a Diplomate of the National Dental Board of Anesthesiology, or a Diplomate of the American Dental Board of Anesthesiology; or
3. For an applicant who completed the requirements of subsections (C)(1) or (C)(2) more than three years before submitting the permit application, provide the following documentation:
   a. On a form provided by the Board, a written affidavit affirming that the applicant has administered General Anesthesia or Deep Sedation to a minimum of 25 patients within the year before submitting the permit application or 75 patients within the last five years before submitting the permit application;
   b. A copy of the General Anesthesia or Deep Sedation permit in effect in another state or certification of military training in General Anesthesia or Deep Sedation from the applicant's commanding officer; and
   c. On a form provided by the Board, a written affidavit affirming the completion of 30 clock hours of continuing education taken within the last five years as outlined in R4-11-1306(B)(1)(a) through (f).

D. After submitting the application and written evidence of compliance with requirements in subsection (B) and, if applicable, subsection (C) to the Board, the applicant shall schedule an onsite evaluation by the Board during which the applicant shall administer General Anesthesia or Deep Sedation. After the applicant completes the application requirements and successfully completes the onsite evaluation, a Section 1301 Permit shall be issued to the applicant.
1. The onsite evaluation team shall consist of:
   a. Two dentists who are Board members, or Board designees for initial applications; or
   b. One dentist who is a Board member or Board designee for renewal applications.
2. The onsite team shall evaluate the following:
   a. The availability of equipment and personnel as specified in subsection (B)(2);
   b. Proper administration of General Anesthesia or Deep Sedation to a patient by the applicant in the presence of the evaluation team;
   c. Successful responses by the applicant to oral examination questions from the evaluation team about patient management, medical emergencies, and emergency medications;
   d. Proper documentation of Controlled Substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of Controlled Substances;
   e. Proper recordkeeping as specified in subsection (E) by reviewing the records generated for the patient specified in subsection (D)(2)(b); and
   f. For renewal applicants, records supporting continued competency as specified in R4-11-1306.
3. The evaluation team shall recommend one of the following:
   a. Pass. Successful completion of the onsite evaluation;
   b. Conditional Approval for failing to have appropriate equipment, proper documentation of Controlled Substances, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before a permit is issued;
   c. Category 1 Evaluation Failure. The applicant must review the appropriate subject matter and schedule a subsequent evaluation by two Board Members or Board designees not less than 30 days from the failed evaluation. An example is failure to recognize and manage one emergency;
   d. Category 2 Evaluation Failure. The applicant must complete Board approved continuing education in subject matter within the scope of the onsite evaluation as identified by the evaluators and schedule a subsequent evaluation by two Board Members or Board designees not less than 60 days from the failed evaluation. An example is failure to recognize and manage more than one emergency; or
   e. Category 3 Evaluation Failure. The applicant must complete Board approved remedial continuing edu-

cation with the subject matter outlined in R4-11-1306 as identified by the evaluators and reapply not less than 90 days from the failed evaluation. An example is failure to recognize and manage an anesthetic urgency.

4. The onsite evaluation of an additional dental office or dental clinic in which General Anesthesia or Deep Sedation is administered by an existing Section 1301 Permit holder may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (D)(2)(a).
5. A Section 1301 mobile permit may be issued if a Section 1301 Permit holder travels to dental offices or dental clinics to provide anesthesia or Deep Sedation. The applicant must submit a completed affidavit verifying:
   a. That the equipment and supplies for the provision of anesthesia or Deep Sedation as required in subsection (B)(2)(a) either travel with the Section 1301 Permit holder or are in place and in appropriate condition at the dental office or dental clinic where anesthesia or Deep Sedation is provided, and
   b. Compliance with subsection (B)(2)(b).

E. A Section 1301 Permit holder shall keep an anesthesia or Deep Sedation record for each General Anesthesia and Deep Sedation procedure that includes the following entries:

1. Pre-operative and post-operative electrocardiograph documentation;
2. Pre-operative, intra-operative, and post-operative pulse oximeter documentation;
3. Pre-operative, intra-operative, and post-operative blood pressure and vital sign documentation;
4. A list of all medications given, with dosage and time intervals, and route and site of administration;
5. Type of catheter or portal with gauge;
6. Indicate nothing by mouth or time of last intake of food or water;
7. Consent form; and
8. Time of discharge and status, including name of escort.

F. The Section 1301 Permit holder, for intravenous access, shall use a new infusion set, including a new infusion line and new bag of fluid, for each patient.

G. The Section 1301 Permit holder shall utilize supplemental oxygen for patients receiving General Anesthesia or Deep Sedation for the duration of the procedure.

H. The Section 1301 Permit holder shall continuously supervise the patient from the initiation of anesthesia or Deep Sedation until termination of the anesthesia or Deep Sedation procedure and oxygenation, ventilation, and circulation are stable. The Section 1301 Permit holder shall not commence with the administration of a subsequent anesthetic case until the patient is in monitored recovery or meets the guidelines for discharge.

I. A Section 1301 Permit holder may employ the following health care professionals to provide anesthesia or sedation services and shall ensure that the health care professional continuously supervises the patient from the administration of anesthesia or sedation until termination of the anesthesia or sedation procedure and oxygenation, ventilation, and circulation are stable:

1. An allopathic or osteopathic physician currently licensed in Arizona by the Arizona Medical Board or the Arizona Board of Osteopathic Examiners who has successfully completed a residency program in anesthesiology approved by the American Council on Graduate Medical Education or the American Osteopathic Association or who is certified by either the American Board of Anesthesiology or the American Osteopathic Board of Anesthesiology and is credentialed with anesthesia privileges through an Arizona licensed medical facility, or
2. A Certified Registered Nurse Anesthesiology currently licensed in Arizona who provides services under the Nurse Practice Act in A.R.S. Title 32, Chapter 15.

J. A Section 1301 Permit holder may also administer parenteral sedation without obtaining a Section 1302 Permit.

Historical Note

New Section R4-11-1301 renumbered from R4-11-802 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1302. Parenteral Sedation

A. Before administering parenteral sedation in a dental office or dental clinic, a dentist shall possess a Section 1302 Permit issued by the Board. The dentist may renew a Section 1302 Permit every five years by complying with R4-11-1307.

1. A Section 1301 Permit holder may also administer parenteral sedation.
2. A Section 1302 Permit holder shall not administer or employ any agents which have a narrow margin for maintaining consciousness including, but not limited to, ultrashort acting barbiturates, propofol, parenteral ketamine, or similarly acting Drugs, agents, or techniques, or any combination thereof that would likely render a patient deeply sedated, generally anesthetized or otherwise not meeting the conditions of Moderate Sedation.

B. To obtain or renew a Section 1302 Permit, the dentist shall:

1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3) and R4-11-1307, includes:
   a. General information about the applicant such as:
      i. Name;
      ii. Home and office addresses and telephone numbers;
      iii. Limitations of practice;
      iv. Hospital affiliations;
      v. Denial, curtailment, revocation, or suspension of hospital privileges;
      vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
      vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
   b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist has read and complied with the Board's statutes and rules;
2. On forms provided by the Board, provide a dated and signed affidavit attesting that any dental office or dental clinic where the dentist will administer parenteral sedation by intravenous or intramuscular route:
   a. Contains the following properly operating equipment and supplies during the provision of parenteral sedation by the permit holder or General Anesthesia

or Deep Sedation by a physician anesthesiologist or Certified Registered Nurse Anesthetist:
i. Emergency Drugs;
ii. Positive pressure oxygen and supplemental oxygen;
iii. Stethoscope;
iv. Suction equipment, including tonsillar or pharyngeal and emergency backup medical suction device;
v. Oropharyngeal and nasopharyngeal airways;
vi. Pulse oximeter;
vii. Auxiliary lighting;
viii. Blood pressure monitoring device; and
ix. Cardiac defibrillator or automated external defibrillator; and

b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents, including at least one staff member who:
i. Holds a current course completion confirmation in cardiopulmonary resuscitation healthcare provider level;
ii. Is present during the parenteral sedation procedure; and
iii. After the procedure, monitors the patient until discharge;

3. Hold a valid license to practice dentistry in this state;
4. Maintain a current permit to prescribe and administer Controlled Substances in this state issued by the United States Drug Enforcement Administration;
5. Provide confirmation of completing coursework within the two years prior to submitting the permit application in one or more of the following:
a. Advanced cardiac life support from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
b. Pediatric advanced life support in a practice treating pediatric patients; or
c. A recognized continuing education course in advanced airway management.

C. Initial applicants shall meet one of the following conditions by submitting to the Board verification of meeting the condition directly from the issuing institution:
1. Successfully complete Board-recognized undergraduate, graduate, or postgraduate education within the three years before submitting the permit application, that includes the following:
a. Sixty didactic hours of basic parenteral sedation to include:
i. Physical evaluation;
ii. Management of medical emergencies;
iii. The importance of and techniques for maintaining proper documentation; and
iv. Monitoring and the use of monitoring equipment; and
b. Hands-on administration of parenteral sedative medications to at least 20 patients in a manner consistent with this Section; or
2. An applicant who completed training in parenteral sedation more than three years before submitting the permit application shall provide the following documentation:
a. On a form provided by the Board, a written affidavit affirming that the applicant has administered parenteral sedation to a minimum of 25 patients within the year or 75 patients within the last five years before submitting the permit application;
b. A copy of the parenteral sedation permit in effect in another state or certification of military training in parenteral sedation from the applicant's commanding officer; and
c. On a form provided by the Board, a written affidavit affirming the completion of 30 clock hours of continuing education taken within the last five years as outlined in R4-11-1306(B)(1)(b) through (f).

D. After submitting the application and written evidence of compliance with requirements outlined in subsection (B) and, if applicable, subsection (C) to the Board, the applicant shall schedule an onsite evaluation by the Board during which the applicant shall administer parenteral sedation. After the applicant completes the application requirements and successfully completes the onsite evaluation, the Board shall issue a Section 1302 Permit to the applicant.
1. The onsite evaluation team shall consist of:
a. Two dentists who are Board members, or Board designees for initial applications, or
b. One dentist who is a Board member or Board designee for renewal applications.
2. The onsite team shall evaluate the following:
a. The availability of equipment and personnel as specified in subsection (B)(2);
b. Proper administration of parenteral sedation to a patient by the applicant in the presence of the evaluation team;
c. Successful responses by the applicant to oral examination questions from the evaluation team about patient management, medical emergencies, and emergency medications;
d. Proper documentation of Controlled Substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of all Controlled Substances;
e. Proper recordkeeping as specified in subsection (E) by reviewing the records generated for the patient receiving parenteral sedation as specified in subsection (D)(2)(b); and
f. For renewal applicants, records supporting continued competency as specified in R4-11-1306.
3. The evaluation team shall recommend one of the following:
a. Pass. Successful completion of the onsite evaluation;
b. Conditional Approval for failing to have appropriate equipment, proper documentation of Controlled Substances, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before a permit is issued;
c. Category 1 Evaluation Failure. The applicant must review the appropriate subject matter and schedule a subsequent evaluation by two Board Members or Board designees not less than 30 days from the failed evaluation. An example is failure to recognize and manage one emergency;
d. Category 2 Evaluation Failure. The applicant must complete Board approved continuing education in subject matter within the scope of the onsite evaluation as identified by the evaluators and schedule a subsequent evaluation by two Board Members or Board designees not less than 60 days from the

failed evaluation. An example is failure to recognize and manage more than one emergency; or

e. Category 3 Evaluation Failure. The applicant must complete Board approved remedial continuing education with the subject matter outlined in R4-11-1306 as identified by the evaluators and reapply not less than 90 days from the failed evaluation. An example is failure to recognize and manage an anesthetic urgency.

4. The onsite evaluation of an additional dental office or dental clinic in which parenteral sedation is administered by an existing Section 1302 Permit holder may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (D)(2)(a).
5. A Section 1302 mobile permit may be issued if a Section 1302 Permit holder travels to dental offices or dental clinics to provide parenteral sedation. The applicant must submit a completed affidavit verifying:
   a. That the equipment and supplies for the provision of parenteral sedation as required in R4-11-1302(B)(2)(a) either travel with the Section 1302 Permit holder or are in place and in appropriate working condition at the dental office or dental clinic where parenteral sedation is provided, and
   b. Compliance with R4-11-1302(B)(2)(b).

E. A Section 1302 Permit holder shall keep a parenteral sedation record for each parenteral sedation procedure that:
1. Includes the following entries:
   a. Pre-operative, intra-operative, and post-operative pulse oximeter documentation;
   b. Pre-operative, intra-operative, and post-operative blood pressure and vital sign documentation;
   c. A list of all medications given, with dosage and time intervals and route and site of administration;
   d. Type of catheter or portal with gauge;
   e. Indicate nothing by mouth or time of last intake of food or water;
   f. Consent form; and
   g. Time of discharge and status, including name of escort; and
2. May include pre-operative and post-operative electrocardiograph report.

F. The Section 1302 Permit holder shall establish intravenous access on each patient receiving parenteral sedation utilizing a new infusion set, including a new infusion line and new bag of fluid.

G. The Section 1302 Permit holder shall utilize supplemental oxygen for patients receiving parenteral sedation for the duration of the procedure.

H. The Section 1302 Permit holder shall continuously supervise the patient from the initiation of parenteral sedation until termination of the parenteral sedation procedure and oxygenation, ventilation and circulation are stable. The Section 1302 Permit holder shall not commence with the administration of a subsequent anesthetic case until the patient is in monitored recovery or meets the guidelines for discharge.

I. A Section 1302 Permit holder may employ a health care professional as specified in R4-11-1301(I).

Historical Note

New Section R4-11-1302 renumbered from R4-11-803 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1303. Oral Sedation

A. Before administering Oral Sedation in a dental office or dental clinic, a dentist shall possess a Section 1303 Permit issued by the Board. The dentist may renew a Section 1303 Permit every five years by complying with R4-11-1307.
1. A Section 1301 Permit holder or Section 1302 Permit holder may also administer Oral Sedation without obtaining a Section 1303 Permit.
2. The administration of a single Drug for Minimal Sedation does not require a Section 1303 Permit if:
   a. The administered dose is within the Food and Drug Administration's maximum recommended dose as printed in the Food and Drug Administration's approved labeling for unmonitored home use;
      i. Incremental multiple doses of the Drug may be administered until the desired effect is reached, but does not exceed the maximum recommended dose; and
      ii. During Minimal Sedation, a single supplemental dose may be administered. The supplemental dose may not exceed one-half of the initial dose and the total aggregate dose may not exceed one and one-half times the Food and Drug Administration's maximum recommended dose on the date of treatment; and
   b. Nitrous oxide/oxygen may be administered in addition to the oral Drug as long as the combination does not exceed Minimal Sedation.

B. To obtain or renew a Section 1303 Permit, a dentist shall:
1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3) and R4-11-1307, includes:
   a. General information about the applicant such as:
      i. Name;
      ii. Home and office addresses and telephone numbers;
      iii. Limitations of practice;
      iv. Hospital affiliations;
      v. Denial, curtailment, revocation, or suspension of hospital privileges;
      vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
      vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
   b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist has read and complied with the Board's statutes and rules;
2. On forms provided by the Board, provide a dated and signed affidavit attesting that any dental office or dental clinic where the dentist will administer Oral Sedation:
   a. Contains the following properly operating equipment and supplies during the provision of sedation:
      i. Emergency Drugs;
      ii. Cardiac defibrillator or automated external defibrillator;
      iii. Positive pressure oxygen and supplemental oxygen;
      iv. Stethoscope;

v. Suction equipment, including tonsillar or pharyngeal and emergency backup medical suction device;
vi. Pulse oximeter;
vii. Blood pressure monitoring device; and
viii. Auxiliary lighting; and

b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents, including at least one staff member who:
i. Holds a current certificate in cardiopulmonary resuscitation healthcare provider level;
ii. Is present during the Oral Sedation procedure; and
iii. After the procedure, monitors the patient until discharge;

3. Hold a valid license to practice dentistry in this state;
4. Maintain a current permit to prescribe and administer Controlled Substances in this state issued by the United States Drug Enforcement Administration;
5. Provide confirmation of completing coursework within the two years prior to submitting the permit application in one or more of the following:
a. Cardiopulmonary resuscitation healthcare provider level from the American Heart Association, American Red Cross, or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association or American Red Cross;
b. Pediatric advanced life support in a practice treating pediatric patients; or
c. A recognized continuing education course in advanced airway management.

C. Initial applicants shall meet one of the following by submitting to the Board verification of meeting the condition directly from the issuing institution:
1. Complete a Board-recognized post-doctoral residency program that includes documented training in Oral Sedation within the last three years before submitting the permit application; or
2. Complete a Board recognized post-doctoral residency program that includes documented training in Oral Sedation more than three years before submitting the permit application shall provide the following documentation:
a. On a form provided by the Board, a written affidavit affirming that the applicant has administered Oral Sedation to a minimum of 25 patients within the year or 75 patients within the last five years before submitting the permit application;
b. A copy of the Oral Sedation permit in effect in another state or certification of military training in Oral Sedation from the applicant's commanding officer; and
c. On a form provided by the Board, a written affidavit affirming the completion of 30 hours of continuing education taken within the last five years as outlined in R4-11-1306(C)(1)(a) through (f); or
3. Provide proof of participation in 30 clock hours of Board-recognized undergraduate, graduate, or post-graduate education in Oral Sedation within the three years before submitting the permit application that includes:
a. Training in basic Oral Sedation,
b. Pharmacology,
c. Physical evaluation,
d. Management of medical emergencies,
e. The importance of and techniques for maintaining proper documentation, and
f. Monitoring and the use of monitoring equipment.

D. After submitting the application and written evidence of compliance with requirements in subsection (B) and, if applicable, subsection (C) to the Board, the applicant shall schedule an onsite evaluation by the Board. After the applicant completes the application requirements and successfully completes the onsite evaluation, the Board shall issue a Section 1303 Permit to the applicant.
1. The onsite evaluation team shall consist of:
a. For initial applications, two dentists who are Board members, or Board designees.
b. For renewal applications, one dentist who is a Board member, or Board designee.
2. The onsite team shall evaluate the following:
a. The availability of equipment and personnel as specified in subsection (B)(2);
b. Successful responses by the applicant to oral examination questions from the evaluation team about patient management, medical emergencies, and emergency medications;
c. Proper documentation of Controlled Substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of Controlled Substances;
d. Proper recordkeeping as specified in subsection (E) by reviewing the forms that document the Oral Sedation record; and
e. For renewal applicants, records supporting continued competency as specified in R4-11-1306.
3. The evaluation team shall recommend one of the following:
a. Pass. Successful completion of the onsite evaluation;
b. Conditional Approval for failing to have appropriate equipment, proper documentation of Controlled Substance, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before permit will be issued;
c. Category 1 Evaluation Failure. The applicant must review the appropriate subject matter and schedule a subsequent evaluation by two Board Members or Board designees not less than 30 days from the failed evaluation. An example is failure to recognize and manage one emergency; or
d. Category 2 Evaluation Failure. The applicant must complete Board approved continuing education in subject matter within the scope of the onsite evaluation as identified by the evaluators and schedule a subsequent evaluation by two Board Members or Board designees not less than 60 days from the failed evaluation. An example is failure to recognize and manage more than one emergency.
4. The onsite evaluation of an additional dental office or dental clinic in which Oral Sedation is administered by a Section 1303 Permit holder may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (D)(2)(a).
5. A Section 1303 mobile permit may be issued if the Section 1303 Permit holder travels to dental offices or dental clinics to provide Oral Sedation. The applicant must submit a completed affidavit verifying:

a. That the equipment and supplies for the provision of Oral Sedation as required in R4-11-1303(B)(2)(a) either travel with the Section 1303 Permit holder or are in place and in appropriate condition at the dental office or dental clinic where Oral Sedation is provided, and
b. Compliance with R4-11-1303(B)(2)(b).

E. A Section 1303 Permit holder shall keep an Oral Sedation record for each Oral Sedation procedure that:
1. Includes the following entries:
a. Pre-operative, intra-operative, and post-operative, pulse oximeter oxygen saturation and pulse rate documentation;
b. Pre-operative and post-operative blood pressure;
c. Documented reasons for not taking vital signs if a patient's behavior or emotional state prevents monitoring personnel from taking vital signs;
d. List of all medications given, including dosage and time intervals;
e. Patient's weight;
f. Consent form;
g. Special notes, such as, nothing by mouth or last intake of food or water; and
h. Time of discharge and status, including name of escort; and
2. May include the following entries:
a. Pre-operative and post-operative electrocardiograph report; and
b. Intra-operative blood pressures.

F. The Section 1303 Permit holder shall utilize supplemental oxygen for patients receiving Oral Sedation for the duration of the procedure.

G. The Section 1303 Permit holder shall ensure the continuous supervision of the patient from the administration of Oral Sedation until oxygenation, ventilation and circulation are stable and the patient is appropriately responsive for discharge from the dental office or dental clinic.

H. A Section 1303 Permit holder may employ a health care professional to provide anesthesia services, if all of the following conditions are met:
1. The physician anesthesiologist or Certified Registered Nurse Anesthetist meets the requirements as specified in R4-11-1301(I);
2. The Section 1303 Permit holder has completed coursework within the two years prior to submitting the permit application in one or more of the following:
a. Advanced cardiac life support from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
b. Pediatric advanced life support in a practice treating pediatric patients;
c. A recognized continuing education course in advanced airway management;
3. The Section 1303 Permit holder ensures that:
a. The dental office or clinic contains the equipment and supplies listed in R4-11-1304(B)(2)(a) during the provision of anesthesia or sedation by the physician anesthesiologist or Certified Registered Nurse Anesthetist;
b. The anesthesia or sedation record contains all the entries listed in R4-11-1304(D);
c. For intravenous access, the physician anesthesiologist or Certified Registered Nurse Anesthetist uses a new infusion set, including a new infusion line and new bag of fluid for each patient; and
d. The patient is continuously supervised from the administration of anesthesia or sedation until the termination of the anesthesia or sedation procedure and oxygenation, ventilation and circulation are stable. The Section 1303 Permit holder shall not commence with a subsequent procedure or treatment until the patient is in monitored recovery or meets the guidelines for discharge.

Historical Note

New Section R4-11-1303 renumbered from R4-11-805 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Former Section R4-11-1303 renumbered to R4-11-1304; new Section R4-11-1303 made by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1304. Permit to Employ or Work with a Physician Anesthesiologist or Certified Registered Nurse Anesthetist (CRNA)

A. This Section does not apply to a Section 1301 permit holder or a Section 1302 permit holder practicing under the provisions of R4-11-1302(I) or a Section 1303 permit holder practicing under the provisions of R4-11-1303(H). A dentist may utilize a physician anesthesiologist or certified registered nurse anesthetist (CRNA) for anesthesia or sedation services while the dentist provides treatment in the dentist's office or dental clinic after obtaining a Section 1304 permit issued by the Board.
1. The physician anesthesiologist or CRNA meets the requirements as specified in R4-11-1301(I).
2. The dentist permit holder shall provide all dental treatment and ensure that the physician anesthesiologist or CRNA remains on the dental office or dental clinic premises until any patient receiving anesthesia or sedation services is discharged.
3. A dentist may renew a Section 1304 permit every five years by complying with R4-11-1307.

B. To obtain or renew a Section 1304 permit, a dentist shall:
1. Submit a completed application on a form provided by the Board office that, in addition to the requirements of subsections (B)(2) and (3) and R4-11-1307 includes:
a. General information about the applicant such as:
i. Name;
ii. Home and office addresses and telephone numbers;
iii. Limitations of practice;
iv. Hospital affiliations;
v. Denial, curtailment, revocation, or suspension of hospital privileges;
vi. Denial of membership in, denial of renewal of membership in, or disciplinary action by a dental organization; and
vii. Denial of licensure by, denial of renewal of licensure by, or disciplinary action by a dental regulatory body; and
b. The dentist's dated and signed affidavit stating that the information provided is true, and that the dentist

has read and complied with the Board's statutes and rules;

2. On forms provided by the Board, provide a dated and signed affidavit attesting that any dental office or dental clinic where the dentist provides treatment during administration of general anesthesia or sedation by a physician anesthesiologist or CRNA:
   a. Contains the following properly operating equipment and supplies during the provision of general anesthesia and sedation:
      i. Emergency drugs;
      ii. Electrocardiograph monitor;
      iii. Pulse oximeter;
      iv. Cardiac defibrillator or automated external defibrillator (AED);
      v. Positive pressure oxygen and supplemental continuous flow oxygen;
      vi. Suction equipment, including endotrachael, tonsillar or pharyngeal and emergency backup medical suction device;
      vii. Laryngoscope, multiple blades, backup batteries and backup bulbs;
      viii. Endotracheal tubes and appropriate connectors;
      ix. Magill forceps;
      x. Oropharyngeal and nasopharyngeal airways;
      xi. Auxiliary lighting;
      xii. Stethoscope; and
      xiii. Blood pressure monitoring device; and
   b. Maintains a staff of supervised personnel capable of handling procedures, complications, and emergency incidents. All personnel involved in administering and monitoring general anesthesia or sedation shall hold a current course completion confirmation in cardiopulmonary resuscitation (CPR) Health Care Provider level;
3. Hold a valid license to practice dentistry in this state; and
4. Provide confirmation of completing coursework within the last two years prior to submitting the permit application in one or more of the following:
   a. Advanced cardiac life support (ACLS) from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   b. Pediatric advanced life support (PALS) in a practice treating pediatric patients; or
   c. A recognized continuing education course in advanced airway management.

C. After submitting the application and written evidence of compliance with requirements in subsection (B) to the Board, the applicant shall schedule an onsite evaluation by the Board. After the applicant completes the application requirements and successfully completes the onsite evaluation, the Board shall issue the applicant a Section 1304 permit.
1. The onsite evaluation team shall consist of one dentist who is a Board member, or Board designee.
2. The onsite team shall evaluate the following:
   a. The availability of equipment and personnel as specified in subsection (B)(2);
   b. Proper documentation of controlled substances, that includes a perpetual inventory log showing the receipt, administration, dispensing, and destruction of controlled substances; and
   c. Proper recordkeeping as specified in subsection (E) by reviewing previous anesthesia or sedation records.
3. The evaluation team shall recommend one of the following:
   a. Pass. Successful completion of the onsite evaluation; or
   b. Conditional approval for failing to have appropriate equipment, proper documentation of controlled substances, or proper recordkeeping. The applicant must submit proof of correcting the deficiencies before a permit is issued.
4. The evaluation of an additional dental office or dental clinic in which a Section 1304 permit holder provides treatment during the administration general anesthesia or sedation by a physician anesthesiologist or CRNA may be waived by the Board staff upon receipt in the Board office of an affidavit verifying compliance with subsection (B)(2).

D. A Section 1304 permit holder shall keep an anesthesia or sedation record for each general anesthesia and sedation procedure that includes the following entries:
1. Pre-operative and post-operative electrocardiograph documentation;
2. Pre-operative, intra-operative, and post-operative, pulse oximeter documentation;
3. Pre-operative, intra-operative, and post-operative blood pressure and vital sign documentation; and
4. A list of all medications given, with dosage and time intervals and route and site of administration;
5. Type of catheter or portal with gauge;
6. Indicate nothing by mouth or time of last intake of food or water;
7. Consent form; and
8. Time of discharge and status, including name of escort.

E. For intravenous access, a Section 1304 permit holder shall ensure that the physician anesthesiologist or CRNA uses a new infusion set, including a new infusion line and new bag of fluid for each patient.

F. A Section 1304 permit holder shall ensure that the physician anesthesiologist or CRNA utilizes supplemental continuous flow oxygen for patients receiving general anesthesia or sedation for the duration of the procedure.

G. The Section 1304 permit holder shall continuously supervise the patient from the administration of anesthesia or sedation until termination of the anesthesia or sedation procedure and oxygenation, ventilation and circulation are stable. The Section 1304 permit holder shall not commence with a subsequent procedure or treatment until the patient is in monitored recovery or meets the guidelines for discharge.

Historical Note

New Section R4-11-1304 renumbered from R4-11-805 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Former Section R4-11-1304 renumbered to R4-11-1305; new Section R4-11-1304 renumbered from R4-11-1303 and amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Section repealed; new Section made by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

R4-11-1305. Reports of Adverse Occurrences

If a death, or incident requiring emergency medical response, occurs in a dental office or dental clinic during the administration of

or recovery from general anesthesia, deep sedation, moderate sedation, or minimal sedation, the permit holder and the treating dentist involved shall submit a complete report of the incident to the Board within 10 days after the occurrence.

Historical Note

New Section R4-11-1305 renumbered from R4-11-806 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Former Section R4-11-1305 renumbered to R4-11-1306; new Section R4-11-1305 renumbered from R4-11-1304 and amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Section repealed; new Section made by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

R4-11-1306. Education; Continued Competency

A. To obtain a Section 1301, permit by satisfying the education requirement of R4-11-1301(B)(6), a dentist shall successfully complete an advanced graduate or post-graduate education program in pain control.

1. The program shall include instruction in the following subject areas:
   a. Anatomy and physiology of the human body and its response to the various pharmacologic agents used in pain control;
   b. Physiological and psychological risks for the use of various modalities of pain control;
   c. Psychological and physiological need for various forms of pain control and the potential response to pain control procedures;
   d. Techniques of local anesthesia, sedation, and general anesthesia, and psychological management and behavior modification, as they relate to pain control in dentistry; and
   e. Handling emergencies and complications related to pain control procedures, including the maintenance of respiration and circulation, immediate establishment of an airway, and cardiopulmonary resuscitation.
2. The program shall consist of didactic and clinical training. The didactic component of the program shall:
   a. Be the same for all dentists, whether general practitioners or specialists; and
   b. Include each subject area listed in subsection (A)(1).
3. The program shall provide at least one calendar year of training as prescribed in R4-11-1301(B)(6)(a).

B. To maintain a Section 1301 or 1302 permit under R4-11-1301 or R4-11-1302 a permit holder shall:

1. Participate in 30 clock hours of continuing education every five years in one or more of the following areas:
   a. General anesthesia,
   b. Parenteral sedation,
   c. Physical evaluation,
   d. Medical emergencies,
   e. Monitoring and use of monitoring equipment, or
   f. Pharmacology of drugs and non-drug substances used in general anesthesia or parenteral sedation; and
2. Provide confirmation of completing coursework within the two years prior to submitting the renewal application from one or more of the following:
   a. Advanced cardiac life support (ACLS) from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   b. Pediatric advanced life support (PALS) in a practice treating pediatric patients; or
   c. A recognized continuing education course in advanced airway management;
3. Complete at least 10 general anesthesia, deep sedation or parenteral sedation cases a calendar year; and
4. Apply a maximum of six hours from subsection (B)(2) toward the continuing education requirements for subsection (B)(1).

C. To maintain a Section 1303 permit issued under R4-11-1303, a permit holder shall:

1. Participate in 30 clock hours of continuing education every five years in one or more of the following areas:
   a. Oral sedation,
   b. Physical evaluation,
   c. Medical emergencies,
   d. Monitoring and use of monitoring equipment, or
   e. Pharmacology of oral sedation drugs and non-drug substances; and
2. Provide confirmation of completing coursework within the two years prior to submitting the renewal application from one or more of the following:
   a. Cardiopulmonary resuscitation (CPR) Health Care Provider level from the American Heart Association, American Red Cross or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association or American Red Cross;
   b. Advanced cardiac life support (ACLS) from the American Heart Association or another agency that follows the same procedures, standards, and techniques for training as the American Heart Association;
   c. Pediatric advanced life support (PALS);
   d. A recognized continuing education course in advanced airway management; and
3. Complete at least 10 oral sedation cases a calendar year.

Historical Note

Section R4-11-1306 renumbered from R4-11-1305 and amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Amended by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

R4-11-1307. Renewal of Permit

A. To renew a Section 1301, 1302, or 1303 permit, the permit holder shall:

1. Provide written documentation of compliance with the applicable continuing education requirements in R4-11-1306;
2. Provide written documentation of compliance with the continued competency requirements in R4-11-1306;
3. Before December 31 of the year the permit expires, submit a completed application on a form provided by the Board office as described in R4-11-1301, R4-11-1302, or R4-11-1303; and
4. Not less than 90 days before the expiration of a permit holder's current permit, arrange for an onsite evaluation as described in R4-11-1301, R4-11-1302, or R4-11-1303.

B. To renew a Section 1304 permit, the permit holder shall:

1. Before December 31 of the year the permit expires, submit a completed application on a form provided by the Board office as described in R4-11-1304; and

2. Not less than 90 days before the expiration of a permit holder's current permit, arrange for an onsite evaluation as described in R4-11-1304.

C. After the permit holder successfully completes the evaluation and submits the required affidavits, the Board shall renew a Section 1301, 1302, 1303, 1304 permit, as applicable.

D. The Board may stagger due dates for renewal applications.

Historical Note
Made by final rulemaking at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1).

ARTICLE 14. DISPENSING DRUGS AND DEVICES

R4-11-1401. Prescribing

A. In addition to the requirements of A.R.S. § 32-1298(C), a dentist shall ensure that a prescription order contains the following information:
1. Date of issuance;
2. Name and address of the patient to whom the prescription is issued;
3. Name, strength, dosage form, and quantity of the drug or name and quantity of the device prescribed;
4. Name and address of the dentist prescribing the drug; and
5. Drug Enforcement Administration registration number of the dentist, if prescribing a controlled substance.

B. Before dispensing a drug or device, a dentist shall present to the patient a written prescription for the drug or device being dispensed that includes on the prescription the following statement in bold type: "This prescription may be filled by the prescribing dentist or by a pharmacy of your choice."

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1401 repealed, new Section R4-11-1401 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1402. Labeling and Dispensing

A. A dentist shall include the following information on the label of all drugs and devices dispensed:
1. The dentist's name, address, and telephone number;
2. The serial number;
3. The date the drug or device is dispensed;
4. The patient's name;
5. Name, strength, and quantity of drug or name and quantity of device dispensed;
6. The name of the drug or device manufacturer or distributor;
7. Directions for use and cautionary statement necessary for safe and effective use of the drug or device; and
8. If a controlled substance is prescribed, the cautionary statement "Caution: Federal law prohibits the transfer of this drug to any person other than the patient for whom it was prescribed."

B. Before delivery to the patient, the dentist shall prepare and package the drug or device to ensure compliance with the prescription and personally inform the patient of the name of the drug or device, directions for its use, precautions, and storage requirements.

C. A dentist shall purchase all dispensed drugs and devices from a manufacturer, distributor, or pharmacy that is properly licensed in this state or one of the other 49 states, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States of America.

D. When dispensing a prescription drug or device from a prescription order, a dentist shall perform the following professional practices:
1. Verify the legality and pharmaceutical feasibility of dispensing a drug based upon:
   a. A patient's allergies,
   b. Incompatibilities with a patient's currently-taken medications,
   c. A patient's use of unusual quantities of dangerous drugs or narcotics, and
   d. The frequency of refills;
2. Verify that the dosage is within proper limits;
3. Interpret the prescription order;
4. Prepare, package, and label, or assume responsibility for preparing, packaging, and labeling, the drug or device dispensed under each prescription order;
5. Check the label to verify that the label precisely communicates the prescriber's directions and hand-initial each label;
6. Record, or assume responsibility for recording, the serial number and date dispensed on the front of the original prescription order; and
7. Record on the original prescription order the name or initials of the dentist who dispensed the order.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1402 renumbered to R4-11-1201, new Section R4-11-1402 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1403. Storage and Packaging

A dentist shall:
1. Keep all prescription-only drugs and devices in a secured area and control access to the secured area by written procedure. The dentist shall make the written procedure available to the Board or its authorized agents on demand for inspection or copying;
2. Keep all controlled substances secured in a locked cabinet or room, control access to the cabinet or room by written procedure, and maintain an ongoing inventory of the contents. The dentist shall make the written procedure available to the Board or its authorized agents on demand for inspection or copying;
3. Maintain drug storage areas so that the temperature in the drug storage areas does not exceed 85º F;
4. Not dispense a drug or device that has expired or is improperly labeled;
5. Not redispense a drug or device that has been returned;
6. Dispense a drug or device:
   a. In a prepackaged container or light-resistant container with a consumer safety cap, unless the patient or patient's representative requests a non-safety cap; and
   b. With a label that is mechanically or electronically printed;
7. Destroy an outdated, deteriorated, or defective controlled substance according to Drug Enforcement Administration regulations or by using a reverse distributor. A list of reverse distributors may be obtained from the Drug Enforcement Administration; and
8. Destroy an outdated, deteriorated, or defective non-controlled substance drug or device by returning it to the sup-

plier or by using a reverse distributor. A list of reverse distributors may be obtained from the Drug Enforcement Administration.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1403 renumbered to R4-11-1202, new Section R4-11-1403 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1404. Recordkeeping

A. A dentist shall:
1. Chronologically date and sequentially number prescription orders in the order that the drugs or devices are originally dispensed;
2. Sequentially file orders separately from patient records, as follows:
   a. File Schedule II drug orders separately from all other prescription orders;
   b. File Schedule III, IV, and V drug orders separately from all other prescription orders; and
   c. File all other prescription orders separately from orders specified in subsections (A)(2)(a) and (b);
3. Record the name of the manufacturer or distributor of the drug or device dispensed on each prescription order and label;
4. Record the name or initials of the dentist dispensing the drug or device on each prescription order and label; and
5. Record the date the drug or device is dispensed on each prescription order and label.

B. A dentist shall record in the patient's dental record the name, dosage form, and strength of the drug or device dispensed, the quantity or volume dispensed, the date the drug or device is dispensed, and the dental therapeutic reasons for dispensing the drug or device.

C. A dentist shall maintain:
1. Purchase records of all drugs and devices for three years from the date purchased; and
2. Dispensing records of all drugs and devices for three years from the date dispensed.

D. A dentist who dispenses controlled substances:
1. Shall inventory Schedule II, III, IV, and V controlled substances as prescribed by A.R.S. § 36-2523;
2. Shall perform a controlled substance inventory on March 1 annually, if directed by the Board, and at the opening or closing of a dental practice;
3. Shall maintain the inventory for three years from the inventory date;
4. May use one inventory book for all controlled substances;
5. When conducting an inventory of Schedule II controlled substances, shall take an exact count;
6. When conducting an inventory of Schedule III, IV, and V controlled substances, shall take an exact count or may take an estimated count if the stock container contains fewer than 1001 units.

E. A dentist shall maintain invoices for drugs and devices dispensed for three years from the date of the invoices, filed as follows:
1. File Schedule II controlled substance invoices separately from records that are not Schedule II controlled substance invoices;
2. File Schedule III, IV, and V controlled substance invoices separately from records that are not Schedule III, IV, and V controlled substance invoices; and
3. File all non-controlled substance invoices separately from the invoices referenced in subsections (E)(1) and (2).

F. A dentist shall file Drug Enforcement Administration order form (DEA Form 222) for a controlled substance sequentially and separately from every other record.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1404 renumbered to R4-11-1203, new Section R4-11-1404 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1405. Compliance

A. A dentist who determines that there has been a theft or loss of Drugs or Controlled Substances from the dentist's office shall immediately notify a local law enforcement agency and the Board and provide written notice of the theft or loss in the following manner:
1. For non-Controlled Substance Drug theft or loss, provide the law enforcement agency and the Board with a written report explaining the theft or loss; or
2. For Controlled Substance theft or loss, complete a Drug Enforcement Administration's 106 form; and
3. Provide copies of the Drug Enforcement Administration's 106 form to the Drug Enforcement Administration and the Board within one day of the discovery.

B. A dentist who dispenses Drugs or devices in a manner inconsistent with this Article is subject to discipline under A.R.S. Title 32, Chapter 11, Article 3.

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1405 renumbered to R4-11-1204, new Section R4-11-1405 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 28 A.A.R. 1898 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-1406. Dispensing for Profit Registration and Renewal

A. A dentist who is currently licensed to practice dentistry in Arizona may dispense controlled substances, prescription-only drugs, and prescription-only devices for profit only after providing the Board the following information:
1. A completed registration form that includes the following information:
   a. The dentist's name and dental license number;
   b. A list of the types of drugs and devices to be dispensed for profit, including controlled substances; and
   c. Locations where the dentist desires to dispense the drugs and devices for profit; and
2. A copy of the dentist's current Drug Enforcement Administration Certificate of Registration for each dispensing location from which the dentist desires to dispense the drugs and devices for profit.

B. The Board shall issue a numbered certificate indicating the dentist is registered with the Board to dispense drugs and devices for profit.

C. A dentist shall renew a registration to dispense drugs and devices for profit by complying with the requirements in subsection (A) before the dentist's license renewal date. When a dentist has made timely and complete application for the renewal of a registration, the dentist may continue to dispense until the Board approves or denies the application. Failure to renew a registration shall result in immediate loss of dispensing for profit privileges.

Historical Note
Adopted effective July 21, 1995; inadvertently not published with Supp. 95-3 (Supp. 95-4). Former Section R4-11-1406 renumbered to R4-11-1205, new Section R4-11-1406 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1407. Renumbered

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1407 renumbered to R4-11-1206 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1408. Renumbered

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1408 renumbered to R4-11-1207 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-1409. Repealed

Historical Note
Adopted effective July 21, 1995 (Supp. 95-3). Former Section R4-11-1409 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 15. COMPLAINTS, INVESTIGATIONS, DISCIPLINARY ACTION

R4-11-1501. Ex-parte Communication

A complainant, licensee, certificate holder, business entity or mobile dental permit holder against whom a complaint is filed, shall not engage in ex-parte communication by means of a written or oral communication between a decision maker, fact finder, or Board member and only one party to the proceeding.

Historical Note
New Section R4-11-1501 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1).

R4-11-1502. Dental Consultant Qualifications

A dentist, dental therapist, dental hygienist, or denturist approved as a Board dental consultant shall:

1. Possess a valid license or certificate to practice in Arizona;
2. Have practiced at least five years in Arizona; and
3. Not have been disciplined by the Board within the past five years.

Historical Note
New Section R4-11-1502 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1503. Initial Complaint Review

A. The Board's procedures for complaint notification are:

1. The Board shall notify the Licensee, denturist, Business Entity or Mobile Dental Permit Holder by certified U.S. Mail when the following occurs:
   a. A formal interview is scheduled, and
   b. A subpoena, notice, or order is issued.
2. The Board shall notify the Licensee, denturist, Business Entity, or Mobile Dental Permit Holder by U.S. mail or email when the following occurs:
   a. The complaint is tabled, and
   b. The Board grants a postponement or continuance.
3. Board shall provide the Licensee, denturist, Business Entity, or Mobile Dental Permit Holder with a copy of the complaint.
4. If a complaint alleges a violation of the state or federal criminal code, the Board shall refer the complaint to the proper law enforcement agency.

B. The Board's procedures for complaints referred to Clinical Evaluation are:

1. Except as provided in subsection (B)(1)(a), the President's Designee shall appoint one or more dental consultants to perform a Clinical Evaluation. If there is more than one dental consultant, the dental consultants do not need to be present at the same time.
   a. If the complaint involves a dental hygienist, denturist, dental therapist, or dentist who is a recognized specialist in one of the areas listed in R4-11-1102(B), the President's Designee shall appoint a dental consultant from that area of practice or specialty.
   b. The Board shall disclose the identity of the Licensee, denturist, Business Entity, or Mobile Dental Permit Holder to a dental consultant performing a Clinical Evaluation before the Board receives the dental consultant's report.
2. The dental consultant shall prepare and submit a Clinical Evaluation report. The President's Designee shall provide a copy of the Clinical Evaluation report to the Licensee or denturist. The Licensee or denturist may submit a written response to the Clinical Evaluation report.

C. Notwithstanding any other provision, the Board may take immediate action consistent with A.R.S. §§ 32-1201.01 or 32-1263 in order to protect public health and safety.

Historical Note
New Section R4-11-1503 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2). Amended by final rulemaking at 29 A.A.R. 3793 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-1504. Postponement of Interview

A. The licensee, certificate holder, business entity, or mobile dental permit holder may request a postponement of a formal interview. The Board or its designee shall grant a postponement until the next regularly scheduled Board meeting if the

licensee, certificate holder, business entity, or mobile dental permit holder makes a postponement request and the request:
1. Is made in writing,
2. States the reason for the postponement, and
3. Is received by the Board within 15 calendar days after the date the respondent received the formal interview request.

B. Within 48 hours of receipt of a request for postponement of a formal interview, the Board or its designee shall:
1. Review and either deny or approve the request for postponement; and
2. Notify in writing the complainant and licensee, certificate holder, business entity, or mobile dental permit holder of the decision to either deny or approve the request for postponement.

Historical Note

New Section R4-11-1504 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E) at 9 A.A.R. 3669, effective April 30, 2003 (Supp. 03-3). New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 334, effective April 6, 2013 (Supp. 13-1).

ARTICLE 16. DENTAL THERAPISTS

R4-11-1601. Duties and Qualifications

A. A dental therapist may perform a procedure not specifically authorized by A.R.S. § 32-1276.03 when all of the following conditions are satisfied:
1. The procedure is recommended or prescribed by the supervising dentist;
2. The dental therapist has received training by a recognized dental school, recognized dental therapy school, recognized dental hygiene school, or recognized denturist school, as defined under A.R.S. § 32-1201, to perform the procedure in a safe manner; and
3. The procedure is performed under the Direct Supervision of, or according to, a written collaborative practice agreement with a licensed dentist.

B. A dental therapist may administer Nitrous Oxide Analgesia as authorized by A.R.S. § 32-1276.03(B)(12) if the dental therapist submits proof directly from an issuing institution of completing courses in the administration of Nitrous Oxide Analgesia offered by a recognized dental school, recognized dental therapy school, or recognized dental hygiene school, as defined under A.R.S. § 32-1201, that include both theory and supervised clinical practice in the procedures.

C. A dental therapist may perform suturing and suture removal as authorized by A.R.S. § 32-1276.03(B)(21) if the dental therapist submits proof directly from an issuing institution of completing courses in suturing and suture removal offered by a recognized dental school, recognized dental therapy school, or recognized dental hygiene school, as defined under A.R.S. § 32-1201, that include both theory and supervised clinical practice in the procedures.

D. A dental therapist may perform an Irreversible Procedure only if it is specifically authorized by A.R.S. § 32-1276.03 or meets the conditions of R4-11-1601(A).

Historical Note

New Section R4-11-1601 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E) at 14 A.A.R. 3183, effective April 30, 2008. New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1602. Limitation on Number Supervised

A dentist shall not provide direct supervision for more than three dental therapists while the dental therapists are providing services or performing procedures under A.R.S. § 32-1276.03 or R4-11-1601.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1603. Dental Therapy Consultants

After submission of a current curriculum vitae or resume and approval by the Board, dental therapy consultants may:
1. Participate in Board-related procedures, including a Clinical Evaluation, investigation of complaints concerning infection control, insurance fraud, or the practice of supervised personnel, and any other procedures not directly related to evaluating a dentist's or denturist's quality of care; and
2. Participate in onsite office evaluations for infection control, as part of a team.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-1604. Written Collaborative Practice Agreements; Collaborative Practice Relationships

A. A dental therapist shall submit a signed affidavit to the Board affirming that:
1. The Collaborative Practice Agreement complies with all the requirements listed in A.R.S. § 32-1276.04.
2. The dental therapist is and will be continuously certified in basic life support, including healthcare provider level cardiopulmonary resuscitation and training in automated external defibrillator.
3. The dental therapist is in compliance with the continuing dental education requirements of this state.

B. Each dentist who enters into a Collaborative Practice Agreement shall be available telephonically or electronically during the business hours of the dental therapist to provide an appropriate level of contact, communication, and consultation.

C. A Collaborative Practice Agreement shall include a provision for a substitute dentist, to cover an extenuating circumstance that renders the affiliated practice dentist unavailable for contact, communication, and consultation with the dental therapist.

D. A Collaborative Practice Agreement shall include a signed and dated statement from the dentist providing Direct Supervision, verifying the dental therapist's completion of 1000 hours of dental therapy clinical practice according to A.R.S. § 32-1276.04(B).

E. A Collaborative Practice Agreement shall be between one dentist and one dental therapist.

Historical Note

New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

ARTICLE 17. REHEARING OR REVIEW

R4-11-1701. Procedure

A. Except as provided in subsection (F), a licensee, certificate holder, or business entity who is aggrieved by an order issued by the Board may file a written motion for rehearing or review

with the Board, pursuant to A.R.S. Title 41, Chapter 6, Article 10, specifying the grounds for rehearing or review.

B. A licensee, certificate holder, or business entity filing a motion for rehearing or review under this rule may amend the motion at any time before it is ruled upon by the Board. The opposing party may file a response within 15 days after the date the motion for rehearing or review is filed. The Board may require that the parties file supplemental memoranda explaining the issues raised in the motion, and may permit oral argument.

C. The Board may grant a rehearing or review of the order for any of the following causes materially affecting a licensee, certificate holder, or business entity's rights:

1. Irregularity in the proceedings of the Board or any order or abuse of discretion, which deprived a licensee, certificate holder, or business entity of a fair hearing;
2. Misconduct of the Board, its personnel, the administrative law judge, or the prevailing party;
3. Accident or surprise which could not have been prevented by ordinary prudence;
4. Excessive or insufficient penalties;
5. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the proceeding;
6. That the findings of fact or decision is arbitrary, capricious, or an abuse of discretion;
7. That the findings of fact of decision is not justified by the evidence or is contrary to law; or
8. Newly discovered, material evidence which could not, with reasonable diligence, have been discovered and produced at the original hearing.

D. The Board may affirm or modify the order or grant a rehearing or review to all or part of the issues for any of the reasons in subsection (C). The Board, within the time for filing a motion for rehearing or review, may grant a rehearing or review on its own initiative for any reason for which it might have granted relief on motion of a party. An order granting a rehearing or review shall specify the grounds on which rehearing or review is granted, and any rehearing or review shall cover only those matters specified.

E. When a motion for rehearing or review is based upon affidavits, they shall be served with the motion. An opposing party may, within 15 days after such service, serve opposing affidavits.

F. If the Board makes specific findings that the immediate effectiveness of the order is necessary for the preservation of public health and safety and that a rehearing or review is impracticable, unnecessary, or contrary to the public interest, the order may be issued as a final order without an opportunity for a rehearing or review. If an order is issued as a final order without an opportunity or rehearing or review, the aggrieved party shall make an application for judicial review of the order within the time limits permitted for application for judicial review of the Board's final order.

G. The Board shall rule on the motion for rehearing or review within 15 days after the response has been filed, or at the Board's next meeting after the motion is received, whichever is later.

Historical Note

New Section R4-11-1701 renumbered from R4-11-701 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 21 A.A.R. 2971, effective January 2, 2016 (Supp. 15-4).

ARTICLE 18. BUSINESS ENTITIES

R4-11-1801. Application

Before offering dental services, a business entity required to be registered under A.R.S. § 32-1213 shall apply for registration on an application form supplied by the Board. In addition to the requirements of A.R.S. § 32-1213(B) and the fee under R4-11-402, the registration application shall include a sworn statement from the applicant that:

1. The information provided by the business entity is true and correct, and
2. No information is omitted from the application.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-1802. Display of Registration

A. A business entity shall ensure that the receipt for the current registration period is:

1. Conspicuously displayed in the dental practice in a manner that is always readily observable by patients and visitors, and
2. Exhibited to members of the Board or to duly authorized agents of the Board on request.

B. A business entity's receipt for the licensure period immediately preceding shall be kept on display until replaced by the receipt for the current period.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

ARIZONA
STATE BOARD OF DENTAL EXAMINERS

Statutes & Rules

TABLE OF CONTENTS

ARIZONA REVISED STATUTES

Article 3.1 – Licensing and Regulation of Dental Therapists

32-1276	Definitions
32-1276.01	Application for licensure; requirements; fingerprint clearance card; denial or suspension of application
32-1276.02	Dental therapist triennial licensure; continuing education; license renewal and reinstatement; fees; civil penalties; retired and disabled license status
32-1276.03	Practice of dental therapy; authorized procedures; supervision requirements; restrictions
32-1276.04	Dental therapists; clinical practice; supervising dentists; written collaborative practice agreements
32-1276.05	Dental therapists; supervising dentists; collaborative practice relationships
32-1276.06	Practicing without a license; violation; classification
32-1276.07	Licensure by credential; examination waiver; fee
32-1276.08	Dental therapy schools; credit for prior experience or coursework

Article 4 – Licensing and Regulation of Dental Hygienists

32-1281	Practicing as dental hygienist; supervision requirements; definitions
32-1282	Administration and enforcement
32-1283	Disposition of revenues
32-1284	Qualifications of applicant; application; fee; fingerprint clearance card; rules; denial or suspension of application
32-1285	Applicants for licensure; examination requirements
32-1286	Recognized dental hygiene schools; credit for prior learning
32-1287	Dental hygienist triennial licensure; continuing education; license reinstatement; notice of change of address; penalties; retired and disabled license status
32-1288	Practicing without license; classification
32-1289	Employment of dental hygienist by public agency; institution or school
32-1289.01	Dental hygienists; affiliated practice relationships; rules; definition
32-1290	Grounds for censure; probation; suspension or revocation of license; procedure
32-1291	Dental assistants; regulation; duties
32-1291.01	Expanded function dental assistants; training and examination requirements; duties
32-1292	Restricted permits; suspension; expiration; renewal
32-1292.01	Licensure by credential; examinations; waiver; fee

Article 5 – Certification and Regulation of Denturists

32-1293	Practicing as denturist; denture technology; dental laboratory technician
32-1294	Supervision by dentist; definitions; mouth preparation by dentist; liability; business association
32-1295	Board of dental examiners; additional powers and duties
32-1296	Qualifications of applicant
32-1297.01	Application for certification; fingerprint clearance card; denial; suspension
32-1297.03	Qualification for reexamination
32-1297.04	Fees
32-1297.05	Disposition of revenues
32-1297.06	Denturist certification; continuing education; certificate reinstatement; certificate for each place of practice; notice of change of address or place of practice; penalties
32-1297.07	Discipline; procedure
32-1297.08	Injunction
32-1297.09	Violations; classification

Article 6 – Dispensing of Drugs and Devices

Article 7 – Rehabilitation

Article 8 – Mobile Dental Facilities and Portable Dental Units

Article 1 Dental Board

32-1201. Definitions

In this chapter, unless the context otherwise requires:

1. "Affiliated practice dental hygienist" means any licensed dental hygienist who is able, pursuant to section 32-1289.01, to initiate treatment based on the dental hygienist's assessment of a patient's needs according to the terms of a written affiliated practice agreement with a dentist, to treat the patient without the presence of a dentist and to maintain a provider-patient relationship.

2. "Auxiliary personnel" means all dental assistants, dental technicians, dental x-ray technicians and other persons employed by dentists or firms and businesses providing dental services to dentists.

3. "Board" means the state board of dental examiners.

4. "Business entity" means a business organization that has an ownership that includes any persons who are not licensed or certified to provide dental services in this state, that offers to the public professional services regulated by the board and that is established pursuant to the laws of any state or foreign country.

5. "Dental assistant" means any person who acts as an assistant to a dentist, dental therapist or dental hygienist by rendering personal services to a patient that involve close proximity to the patient while the patient is under treatment or observation or undergoing diagnostic procedures.

6. "Dental hygienist" means any person who is licensed and engaged in the general practice of dental hygiene and all related and associated duties, including educational, clinical and therapeutic dental hygiene procedures.

7. "Dental incompetence" means lacking in sufficient dentistry knowledge or skills, or both, in that field of dentistry in which the dentist, dental therapist, denturist or dental hygienist concerned engages, to a degree likely to endanger the health of that person's patients.

8. "Dental laboratory technician" means any person, other than a licensed dentist, who, pursuant to a written work order of a dentist, fabricates artificial teeth, prosthetic appliances or other mechanical and artificial contrivances designed to correct or alleviate injuries or defects, both developmental and acquired, disorders or deficiencies of the human oral cavity, teeth, investing tissues, maxilla or mandible or adjacent associated structures.

9. "Dental therapist" means any person who is licensed and engaged in the general practice of dental therapy and all related and associated duties, including educational, clinical and therapeutic dental therapy procedures.

10. "Dental x-ray laboratory technician" means any person, other than a licensed dentist, who, pursuant to a written work order of a dentist, performs dental and maxillofacial radiography, including cephalometrics, panoramic and maxillofacial tomography and other dental related nonfluoroscopic diagnostic imaging modalities.

11. "Dentistry", "dentist" and "dental" mean the general practice of dentistry and all specialties or restricted practices of dentistry.

12. "Denturist" means a person practicing denture technology pursuant to article 5 of this chapter.

13. "Disciplinary action" means regulatory sanctions that are imposed by the board in combination with, or as an alternative to, revocation or suspension of a license and that may include:

(a) Imposition of an administrative penalty in an amount not to exceed $2,000 for each violation of this chapter or rules adopted under this chapter.

(b) Imposition of restrictions on the scope of practice.

(c) Imposition of peer review and professional education requirements.

(d) Imposition of censure or probation requirements best adapted to protect the public welfare, which may include a requirement for restitution to the patient resulting from violations of this chapter or rules adopted under this chapter.

14. "Irregularities in billing" means submitting any claim, bill or government assistance claim to any patient, responsible party or third-party payor for dental services rendered that is materially false with the intent to receive unearned income as evidenced by any of the following:

(a) Charges for services not rendered.

(b) Any treatment date that does not accurately reflect the date when the service and procedures were actually completed.

(c) Any description of a dental service or procedure that does not accurately reflect the actual work completed.

(d) Any charge for a service or procedure that cannot be clinically justified or determined to be necessary.

(e) Any statement that is material to the claim and that the licensee knows is false or misleading.

(f) An abrogation of the copayment provisions of a dental insurance contract by a waiver of all or a part of the copayment from the patient if this results in an excessive or fraudulent charge to a third party or if the waiver is used as an enticement to receive dental services from that provider. This subdivision does not interfere with a contractual relationship between a third-party payor and a licensee or business entity registered with the board.

(g) Any other practice in billing that results in excessive or fraudulent charges to the patient.

15. "Letter of concern" means an advisory letter to notify a licensee or a registered business entity that, while the evidence does not warrant disciplinary action, the board believes that the licensee or registered business entity should modify or eliminate certain practices and that continuation of the activities that led to the information being submitted to the board may result in board action against the practitioner's license or the business entity's registration. A letter of concern is not a disciplinary action. A letter of concern is a public document and may be used in a future disciplinary action.

16. "Licensed" means licensed pursuant to this chapter.

17. "Place of practice" means each physical location at which a person who is licensed pursuant to this chapter performs services subject to this chapter.

18. "Primary mailing address" means the address on file with the board and to which official board correspondence, notices or documents are delivered in a manner determined by the board.

19. "Qualified anesthesia provider" means any of the following:

(a) A licensee who holds a permit to administer anesthesia and sedation from the board pursuant to section 32-1207.

(b) A physician who has completed residency training in anesthesiology, who is licensed pursuant to chapter 13 or 17 of this title and who is registered with the Arizona medical board or the Arizona board of osteopathic examiners in medicine and surgery to administer anesthesia in dental offices and dental clinics pursuant to section 32-1403 or 32-1803.

(c) A certified registered nurse anesthetist who has a national board certification in anesthesiology, who is licensed pursuant to chapter 15 of this title and who is registered with the Arizona state board of nursing to administer anesthesia in dental offices and dental clinics pursuant to section 32-1606.

20. "Recognized continuing dental education" means continuing dental education as prescribed by the board in rule.

21. "Recognized dental hygiene school" means a school that has a dental hygiene program with a minimum two academic year curriculum, or the equivalent of four semesters, and that is approved by the board and accredited by the American dental association commission on dental accreditation.

22. "Recognized dental school" means a dental school that is accredited by the American dental association commission on dental accreditation.

23. "Recognized dental therapy school" means a school that is accredited or that has received initial accreditation by the American dental association commission on dental accreditation.

24. "Recognized denturist school" means a denturist school that maintains standards of entrance, study and graduation and that is accredited by the United States department of education or the council on higher education accreditation.

25. "Supervised personnel" means all dental hygienists, dental assistants, dental laboratory technicians, dental therapists, denturists, dental x-ray laboratory technicians and other persons supervised by licensed dentists.

26. "Teledentistry" means the use of data transmitted through interactive audio, video or data communications for the purposes of examination, diagnosis, treatment planning, consultation and directing the delivery of treatment by dentists and dental providers in settings permissible under this chapter or specified in rules adopted by the board.

32-1201.01. Definition of unprofessional conduct

For the purposes of this chapter, "unprofessional conduct" means the following acts, whether occurring in this state or elsewhere:

1. Intentionally betraying a professional confidence or intentionally violating a privileged communication except as either of these may otherwise be required by law. This paragraph does not prevent members of the board from the full and free exchange of information with the licensing and disciplinary boards of other states, territories or districts of the United States or foreign countries, with the Arizona state dental association or any of its component societies or with the dental societies of other states, counties, districts, territories or foreign countries.

2. Using controlled substances as defined in section 36-2501, narcotic drugs, dangerous drugs or marijuana as defined in section 13-3401, or hypnotic drugs, including acetylurea derivatives, barbituric acid derivatives, chloral, paraldehyde, phenylhydantoin derivatives, sulfonmethane derivatives or any compounds, mixtures or preparations that may be used for producing hypnotic effects, or alcohol to the extent that it affects the ability of the dentist, dental therapist, denturist or dental hygienist to practice that person's profession.

3. Prescribing, dispensing or using drugs for other than accepted dental therapeutic purposes or for other than medically indicated supportive therapy in conjunction with managing a patient's needs and in conjunction with the scope of practice prescribed in section 32-1202.

4. Committing gross malpractice or repeated acts constituting malpractice.

5. Acting or assuming to act as a member of the board if this is not true.

6. Procuring or attempting to procure a certificate of the national board of dental examiners or a license to practice dentistry or dental hygiene by fraud or misrepresentation or by knowingly taking advantage of the mistake of another.

7. Having professional connection with or lending one's name to an illegal practitioner of dentistry or any of the other healing arts.

8. Representing that a manifestly not correctable condition, disease, injury, ailment or infirmity can be permanently corrected, or that a correctable condition, disease, injury, ailment or infirmity can be corrected within a stated time, if this is not true.

9. Offering, undertaking or agreeing to correct, cure or treat a condition, disease, injury, ailment or infirmity by a secret means, method, device or instrumentality.

10. Refusing to divulge to the board, on reasonable notice and demand, the means, method, device or instrumentality used in treating a condition, disease, injury, ailment or infirmity.

11. Dividing a professional fee or offering, providing or receiving any consideration for patient referrals among or between dental care providers or dental care institutions or entities. This paragraph does not prohibit the division of fees among licensees who are engaged in a bona fide employment, partnership, corporate or contractual relationship for the delivery of professional services.

12. Knowingly making any false or fraudulent statement, written or oral, in connection with the practice of dentistry.

13. Having a license refused, revoked or suspended or any other disciplinary action taken against a dentist by, or voluntarily surrendering a license in lieu of disciplinary action to, any other state, territory, district or country, unless the board finds that this action was not taken for reasons that relate to the person's ability to safely and skillfully practice dentistry or to any act of unprofessional conduct.

14. Committing any conduct or practice that constitutes a danger to the health, welfare or safety of the patient or the public.

15. Obtaining a fee by fraud or misrepresentation, or wilfully or intentionally filing a fraudulent claim with a third party for services rendered or to be rendered to a patient.

16. Committing repeated irregularities in billing.

17. Employing unlicensed persons to perform or aiding and abetting unlicensed persons in performing work that can be done legally only by licensed persons.

18. Practicing dentistry under a false or assumed name in this state, other than as allowed by section 32-1262.

19. Wilfully or intentionally causing or allowing supervised personnel or auxiliary personnel operating under the licensee's supervision to commit illegal acts or perform an act or operation other than that allowed under article 4 of this chapter and rules adopted by the board pursuant to section 32-1282.

20. Committing the following advertising practices:

(a) Publishing or circulating, directly or indirectly, any false, fraudulent or misleading statements concerning the skill, methods or practices of the licensee or of any other person.

(b) Advertising in any manner that tends to deceive or defraud the public.

21. Failing to dispense drugs and devices in compliance with article 6 of this chapter.

22. Failing to comply with a board order, including an order of censure or probation.

23. Failing to comply with a board subpoena in a timely manner.

24. Failing or refusing to maintain adequate patient records.

25. Failing to allow properly authorized board personnel, on demand, to inspect the place of practice and examine and have access to documents, books, reports and records maintained by the licensee or certificate holder that relate to the dental practice or dental-related activity.

26. Refusing to submit to a body fluid examination as required through a monitored treatment program or pursuant to a board investigation into a licensee's or certificate holder's alleged substance abuse.

27. Failing to inform a patient of the type of material the dentist will use in the patient's dental filling and the reason why the dentist is using that particular filling.

28. Failing to report in writing to the board any evidence that a dentist, dental therapist, denturist or dental hygienist is or may be:

(a) Professionally incompetent.

(b) Engaging in unprofessional conduct.

(c) Impaired by drugs or alcohol.

(d) Mentally or physically unable to safely engage in the activities of a dentist, dental therapist, denturist or dental hygienist pursuant to this chapter.

29. Filing a false report pursuant to paragraph 28 of this section.

30. Practicing dentistry, dental therapy, dental hygiene or denturism in a business entity that is not registered with the board as required by section 32-1213.

31. Dispensing a schedule II controlled substance that is an opioid.

32. Providing services or procedures as a dental therapist that exceed the scope of practice or exceed the services or procedures authorized in the written collaborative practice agreement.

32-1202. Scope of practice; practice of dentistry

For the purposes of this chapter, the practice of dentistry is the diagnosis, surgical or nonsurgical treatment and performance of related adjunctive procedures for any disease, pain, deformity, deficiency, injury or physical condition of the human tooth or teeth, alveolar process, gums, lips, cheek, jaws, oral cavity and associated tissues of the oral maxillofacial facial complex, including removing stains, discolorations and concretions and administering botulinum toxin type A and dermal fillers to the oral maxillofacial complex for therapeutic or cosmetic purposes.

32-1203. State board of dental examiners; qualifications of members; terms

A. The state board of dental examiners is established consisting of six licensed dentists, two licensed dental hygienists, two public members and one business entity member appointed by the governor for a term of four years, to begin and end on January 1.

B. Before appointment by the governor, a prospective member of the board shall submit a full set of fingerprints to the governor for the purpose of obtaining a state and federal criminal records check pursuant to section 41-1750 and Public Law 92-544. The department of public safety may exchange this fingerprint data with the federal bureau of investigation.

C. The business entity member and the public members may participate in all board proceedings and determinations, except in preparing, giving or grading examinations for licensure. Dental hygienist board members may participate in all board proceedings and determinations, except in preparing, giving and grading examinations that do not relate to dental hygiene procedures.

D. A board member shall not serve more than two consecutive terms.

E. For the purposes of this section, the business entity member must be an employee or owner of a registered business entity pursuant to section 32-1213 and may not include a person who is licensed pursuant to this chapter.

32-1204. Removal from office

The governor may remove a member of the board for persistent neglect of duty, incompetency, unfair, biased, partial or dishonorable conduct, or gross immorality. Conviction of a felony or revocation of the dental license of a member of the board shall ipso facto terminate his membership.

32-1205. Organization; meetings; quorum; staff

A. The board shall elect from its membership a president and a vice-president who shall act also as secretary-treasurer.

B. Board meetings shall be conducted pursuant to title 38, chapter 3, article 3.1. A majority of the board constitutes a quorum. Beginning September 1, 2015, meetings held pursuant to this subsection shall be audio recorded and the audio recording shall be posted to the board's website within five business days after the meeting.

C. The board may employ an executive director, subject to title 41, chapter 4, article 4 and legislative appropriation.

D. The board or the executive director may employ personnel, as necessary, subject to title 41, chapter 4, article 4 and legislative appropriation.

32-1206. Compensation of board members; investigation committee members

A. Members of the board are entitled to receive compensation in the amount of $250 for each day actually spent in performing necessary work authorized by the board and all expenses necessarily and properly incurred while performing this work.

B. Members of an investigation committee established by the board may receive compensation in the amount of $100 for each committee meeting.

32-1207. Powers and duties; executive director; immunity; fees; definitions

A. The board shall:

1. Adopt rules that are not inconsistent with this chapter for regulating its own conduct, for holding examinations and for regulating the practice of dentists and supervised personnel and registered business entities, provided that:

(a) Regulation of supervised personnel is based on the degree of education and training of the supervised personnel, the state of scientific technology available and the necessary degree of supervision of the supervised personnel by dentists.

(b) Except as provided pursuant to sections 32-1276.03 and 32-1281, only licensed dentists may perform diagnosis and treatment planning, prescribe medication and perform surgical procedures on hard and soft tissues.

(c) Only a licensed dentist, a dental therapist either under the direct supervision of a dentist or pursuant to a written collaborative practice agreement or a dental hygienist in consultation with a dentist may perform examinations, oral health assessments and treatment sequencing for dental hygiene procedures.

2. Adopt a seal.

3. Maintain a record that is available to the board at all times of its acts and proceedings, including the issuance, denial, renewal, suspension or revocation of licenses and the disposition of complaints. The existence of a pending complaint or investigation shall not be disclosed to the public. Records of complaints shall be available to the public, except only as follows:

(a) If the board dismisses or terminates a complaint, the record of the complaint shall not be available to the public.

(b) If the board has issued a nondisciplinary letter of concern, the record of the complaint shall be available to the public only for a period of five years after the date the board issued the letter of concern.

(c) If the board has required additional nondisciplinary continuing education pursuant to section 32-1263.01 but has not taken further action, the record of the complaint shall be available to the public only for a period of five years after the licensee satisfies this requirement.

(d) If the board has assessed a nondisciplinary civil penalty pursuant to section 32-1208 but has not taken further action, the record of the complaint shall be available to the public only for a period of five years after the licensee satisfies this requirement.

4. Establish a uniform and reasonable standard of minimum educational requirements consistent with the accreditation standards of the American dental association commission on dental accreditation to be observed by dental schools, dental therapy schools and dental hygiene schools in order to be classified as recognized dental schools, dental therapy schools or dental hygiene schools.

5. Establish a uniform and reasonable standard of minimum educational requirements that are consistent with the accreditation standards of the United States department of education or the council on higher education accreditation and that must be observed by denture technology schools in order to be classified as recognized denture technology schools.

6. Determine the reputability and classification of dental schools, dental therapy schools, dental hygiene schools and denture technology schools in accordance with their compliance with the standard set forth in paragraph 4 or 5 of this subsection, whichever is applicable.

7. Issue licenses to persons who the board determines are eligible for licensure pursuant to this chapter.

8. Determine the eligibility of applicants for restricted permits and issue restricted permits to those found eligible.

9. Pursuant to section 32-1263.02, investigate charges of misconduct on the part of licensees and persons to whom restricted permits have been issued.

10. Issue a letter of concern, which is not a disciplinary action but refers to practices that may lead to a violation and to disciplinary action.

11. Issue decrees of censure, fix periods and terms of probation, suspend or revoke licenses, certificates and restricted permits, as the facts may warrant, and reinstate licenses, certificates and restricted permits in proper cases.

12. Collect and disburse monies.

13. Perform all other duties that are necessary to enforce this chapter and that are not specifically or by necessary implication delegated to another person.

14. Establish criteria for the renewal of permits issued pursuant to board rules relating to general anesthesia and sedation.

B. The board may:

1. Sue and be sued.

2. Issue subpoenas, including subpoenas to the custodian of patient records, compel attendance of witnesses, administer oaths and take testimony concerning all matters within the board's jurisdiction. If a person refuses to obey a subpoena issued by the board, the refusal shall be certified to the superior court and proceedings shall be instituted for contempt of court.

3. Adopt rules:

(a) Prescribing requirements for continuing education for renewal of all licenses issued pursuant to this chapter.

(b) Prescribing educational and experience prerequisites for administering intravenous or intramuscular drugs for the purpose of sedation or for using general anesthetics in conjunction with a dental treatment procedure.

(c) Prescribing requirements for obtaining licenses for retired licensees or licensees who have a disability, including the triennial license renewal fee.

4. Hire consultants to assist the board in the performance of its duties and employ persons to provide investigative, professional and clerical assistance as the board deems necessary.

5. Contract with other state or federal agencies as required to carry out the purposes of this chapter.

6. If determined by the board, order physical, psychological, psychiatric and competency evaluations of licensed dentists, dental therapists and dental hygienists, certified denturists and applicants for licensure and certification at the expense of those individuals.

7. Establish an investigation committee consisting of not more than eleven licensees who are in good standing, who are appointed by the board and who serve at the pleasure of the board to investigate any

complaint submitted to the board, initiated by the board or delegated by the board to the investigation committee pursuant to this chapter.

C. The executive director or the executive director's designee may:

1. Issue and renew licenses, certificates and permits to applicants who meet the requirements of this chapter.

2. Initiate an investigation if evidence appears to demonstrate that a dentist, dental therapist, dental hygienist, denturist or restricted permit holder may be engaged in unprofessional conduct or may be unable to safely practice dentistry.

3. Initiate an investigation if evidence appears to demonstrate that a business entity may be engaged in unethical conduct.

4. Subject to board approval, enter into a consent agreement with a dentist, dental therapist, denturist, dental hygienist or restricted permit holder if there is evidence of unprofessional conduct.

5. Subject to board approval, enter into a consent agreement with a business entity if there is evidence of unethical conduct.

6. Refer cases to the board for a formal interview.

7. If delegated by the board, enter into a stipulation agreement with a person under the board's jurisdiction for the treatment, rehabilitation and monitoring of chemical substance abuse or misuse.

D. Members of the board are personally immune from liability with respect to all acts done and actions taken in good faith and within the scope of their authority.

E. The board by rule shall require that a licensee obtain a permit for applying general anesthesia and sedation, shall establish and collect a fee of not more than $300 to cover administrative costs connected with issuing the permit and shall conduct inspections to ensure compliance.

F. The board by rule may establish and collect fees for license verification, board meeting agendas and minutes, published lists and mailing labels.

G. This section does not prohibit the board from conducting its authorized duties in a public meeting.

H. For the purposes of this section:

1. "Good standing" means that a person holds an unrestricted and unencumbered license that has not been suspended or revoked pursuant to this chapter.

2. "Record of complaint" means the document reflecting the final disposition of a complaint or investigation.

32-1208. Failure to respond to subpoena; civil penalty

In addition to any disciplinary action authorized by statute, the board may assess a nondisciplinary civil penalty in an amount not to exceed five hundred dollars for a licensee who fails to respond to a subpoena issued by the board pursuant to this chapter.

32-1209. Admissibility of records in evidence

A copy of any part of the recorded proceedings of the board certified by the executive director, or a certificate by the executive director that any asserted or purported record, name, license number, restricted permit number or action is not entered in the recorded proceedings of the board, may be admitted as evidence in any court in this state. A person making application and paying a fee set by the board may procure from the executive director a certified copy of any portion of the records of the board unless these records are classified as confidential as provided by law. Unless otherwise provided by law, all records concerning an investigation, examination materials, records of examination grading and applicants' performance and transcripts of educational institutions concerning applicants are confidential and are not public records. "Records of applicants' performance" does not include records of whether an applicant passed or failed an examination.

32-1210. Annual report; posting

A. Not later than October 1 of each year, the board shall make an annual written report to the governor for the preceding fiscal year that includes the following information:

1. The number of licensed dentists, dental therapists and hygienists in this state.

2. The number of certified denturists in this state.

3. The number of registered business entities in this state.

4. The number of licenses, certificates and registrations issued during the preceding fiscal year for each license type, certificate and registration.

5. The outcomes with respect to complaints filed with the board and of any formal hearings held in connection with those complaints and the results of those hearings.

6. The facts with respect to persons charged with violations of this chapter.

7. A full and complete statement of financial transactions of the board.

8. Any other matters that the board wishes to include in the report or that the governor requires.

B. On request of the governor, the board shall submit a supplemental report.

C. The reports made pursuant to this section shall be posted on the board's public website.

32-1212. Dental board fund

(L24, Ch. 222, sec. 13. Eff. until 7/1/28)

A. Except as provided in subsection C of this section, pursuant to sections 35-146 and 35-147, the executive director of the board shall each month deposit fifteen percent of all fees, fines and other revenue received by the board in the state general fund and deposit the remaining eighty-five percent in the dental board fund.

B. Monies deposited in the dental board fund are subject to the provisions of section 35-143.01.

C. Monies from administrative penalties received pursuant to section 32-1263.01 shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

32-1212. Dental board fund; Version 2

(L24, Ch. 222, sec. 14. Eff. 7/1/28)

A. Except as provided in subsection C of this section, pursuant to sections 35-146 and 35-147, the executive director of the board shall each month deposit ten percent of all fees, fines and other revenue received by the board in the state general fund and deposit the remaining ninety percent in the dental board fund.

B. Monies deposited in the dental board fund are subject to the provisions of section 35-143.01.

C. Monies from administrative penalties received pursuant to section 32-1263.01 shall be deposited, pursuant to sections 35-146 and 35-147, in the state general fund.

32-1213. Business entities; registration; renewal; civil penalty; exceptions

A. A business entity may not offer dental services pursuant to this chapter unless:

1. The business entity is registered with the board pursuant to this section.

2. The services are conducted by a licensee pursuant to this chapter.

B. The business entity must file a registration application on a form provided by the board. The application must include:

1. A description of the business entity's services offered to the public.

2. The name of any dentist who is authorized to provide and who is responsible for providing the dental services offered at each office.

3. The names and addresses of the officers and directors of the business entity.

4. The name of the business entity's custodian of records.

5. A registration fee prescribed by the board in rule.

C. A business entity must file a separate registration application and pay a fee for each branch office in this state.

D. A registration expires three years after the date the board issues the registration. A business entity that wishes to renew a registration must submit an application for renewal as prescribed by the board on a triennial basis on a form provided by the board before the expiration date. A business entity that fails to renew the registration before the expiration date is subject to a late fee as prescribed by the board by rule. The board may stagger the dates for renewal applications.

E. The business entity must notify the board in writing within thirty days after any change:

1. In the business entity's name, address or telephone number.

2. In the officers or directors of the business entity.

3. In the name of any dentist who is authorized to provide and who is responsible for providing the dental services in any facility.

4. The name of the business entity's custodian of records who will accept subpoenas and respond to patient records requests.

F. The business entity shall establish a written protocol for the secure storage, transfer and access of the dental records of the business entity's patients. This protocol must include, at a minimum, procedures for:

1. Notifying patients of the future locations of their records if the business entity terminates or sells the practice.

2. Disposing of unclaimed dental records.

3. The timely response to requests by patients for copies of their records.

G. The business entity must notify the board within thirty days after the dissolution of any registered business entity or the closing or relocation of any facility and must disclose to the board the business entity's procedure by which its patients may obtain their records.

H. The board may do any of the following pursuant to its disciplinary procedures if a business entity violates the board's statutes or rules:

1. Refuse to issue a registration.

2. Suspend or revoke a registration.

3. Impose a civil penalty of not more than $2,000 for each violation.

4. Enter a decree of censure.

5. Issue an order prescribing a period and terms of probation that are best adapted to protect the public welfare and that may include a requirement for restitution to a patient for a violation of this chapter or rules adopted pursuant to this chapter.

6. Issue a letter of concern if a business entity's actions may cause the board to take disciplinary action.

I. The board shall deposit, pursuant to sections 35-146 and 35-147, civil penalties collected pursuant to this section in the state general fund.

J. This section does not apply to:

1. A sole proprietorship or partnership that consists exclusively of dentists who are licensed pursuant to this chapter.

2. Any of the following entities licensed under title 20:

(a) A service corporation.

(b) An insurer authorized to transact disability insurance.

(c) A prepaid dental plan organization that does not provide directly for prepaid dental services.

(d) A health care services organization that does not provide directly for dental services.

3. A professional corporation or professional limited liability company, the shares of which are exclusively owned by dentists who are licensed pursuant to this chapter and that is formed to engage in the practice of dentistry pursuant to title 10, chapter 20 or title 29 relating to professional limited liability companies.

4. A facility regulated by the federal government or a state, district or territory of the United States.

5. An administrator or executor of the estate of a deceased dentist or a person who is legally authorized to act for a dentist who has been adjudicated to be mentally incompetent for not more than one year after the date the board receives notice of the dentist's death or incapacitation pursuant to section 32-1270.

K. A facility that offers dental services to the public by persons licensed under this chapter shall be registered by the board unless the facility is any of the following:

1. Owned by a dentist who is licensed pursuant to this chapter.

2. Regulated by the federal government or a state, district or territory of the United States.

L. Except for issues relating to insurance coding and billing that require the name, signature and license number of the dentist providing treatment, this section does not:

1. Authorize a licensee in the course of providing dental services for a business entity registered pursuant to this section to disregard or interfere with a policy or practice established by the business entity for the operation and management of the business.

2. Authorize a business entity registered pursuant to this section to establish or enforce a business policy or practice that may interfere with the clinical judgment of the licensee in providing dental services for the business entity or may compromise a licensee's ability to comply with this chapter.

M. The board shall adopt rules that provide a method for the board to receive the assistance and advice of business entities licensed pursuant to this chapter in all matters relating to the regulation of business entities.

N. An individual currently holding a surrendered or revoked license to practice dentistry or dental hygiene in any state or jurisdiction in the United States may not have a majority ownership interest in the business entity registered pursuant to this section. Revocation and surrender of licensure shall be limited to disciplinary actions resulting in loss of license or surrender of license instead of disciplinary action. Dentists or dental hygienists affected by this subsection shall have one year after the surrender or revocation to divest themselves of their ownership interest. This subsection does not apply to publicly held companies. For the purposes of this subsection, "majority ownership interest" means an ownership interest greater than fifty percent.

Article 2 Licensing

32-1231. Persons not required to be licensed

This chapter does not prohibit:

1. A dentist, dental therapist or dental hygienist who is officially employed in the service of the United States from practicing dentistry in the dentist's, dental therapist's or dental hygienist's official capacity, within the scope of that person's authority, on persons who are enlisted in, directly connected with or under the immediate control of some branch of service of the United States.

2. A person, whether or not licensed by this state, from practicing dental therapy either:

(a) In the discharge of official duties on behalf of the United States government, including the United States department of veterans affairs, the United States public health service and the Indian health service.

(b) While employed by tribal health programs authorized pursuant to Public Law 93-638 or urban Indian health programs.

3. An intern or student of dentistry, dental therapy or dental hygiene from operating in the clinical departments or laboratories of a recognized dental school, recognized dental therapy school, recognized dental hygiene school or hospital under the supervision of a dentist.

4. An unlicensed person from performing for a licensed dentist merely mechanical work on inert matter not within the oral cavity in the construction, making, alteration or repairing of any artificial dental substitute or any dental restorative or corrective appliance, if the casts or impressions for that work have been furnished by a licensed dentist and the work is directly supervised by the dentist for whom done or under a written authorization signed by the dentist, but the burden of proving that written authorization or direct supervision is on the person charged with having violated this provision.

5. A clinician who is not licensed in this state from giving demonstrations, before bona fide dental societies, study clubs and groups of professional students, that are free to the persons on whom made.

6. The state director of dental public health from performing the director's administrative duties as prescribed by law.

7. A dentist or dental hygienist to whom a restricted permit has been issued from practicing dentistry or dental hygiene in this state as provided in sections 32-1237 and 32-1292.

8. A dentist, dental therapist or dental hygienist from practicing for educational purposes on behalf of a recognized dental school, recognized dental therapy school or recognized dental hygiene school.

9. A dentist who holds an active and unrestricted license in another state, territory or possession of the United States from practicing for educational purposes in connection with recognized continuing dental education. A dentist who practices under this paragraph:

(a) May not receive compensation for dental services provided in connection with recognized continuing dental education.

(b) Is subject to the jurisdiction and discipline of the board to the same extent as dentists who are licensed in this state.

(c) May not provide any dental care or services in this state to a person who is either:

(i) Physically unable to safely receive the dental care or services.

(ii) Not mentally competent to knowingly and voluntarily consent to the dental care or services.

(d) Shall file a restricted permit application on a form approved by the board with the provider of the recognized continuing dental education before providing any dental care or services in this state. The provider of the recognized continuing dental education shall retain the dentist's restricted permit application for a period of at least five years.

32-1232. Qualifications of applicant; application; fee; fingerprint clearance card

A. An applicant for licensure shall meet the requirements of section 32-1233 and shall hold a diploma conferring a degree of doctor of dental medicine or doctor of dental surgery from a recognized dental school.

B. Each candidate shall submit a written application to the board accompanied by a nonrefundable Arizona dental jurisprudence examination fee of $300. The board shall waive this fee for candidates who are applying for a restricted permit. Each candidate shall also obtain a valid fingerprint clearance card issued pursuant to section 41-1758.03.

C. The board may deny an application for a license, for license renewal or for a restricted permit if the applicant:

1. Has committed any act that would be cause for censure, probation or suspension or revocation of a license under this chapter.

2. While unlicensed, committed or aided and abetted the commission of any act for which a license is required by this chapter.

3. Knowingly made any false statement in the application.

4. Has had a license to practice dentistry revoked by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under suspension or restriction by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dentistry in lieu of disciplinary action by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

D. The board shall suspend an application for a license, for license renewal or for a restricted permit if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue or deny a license to the applicant until the investigation is resolved.

32-1233. Applicants for licensure; examination requirements

An applicant for licensure shall have passed all of the following:

1. The written national dental board examinations.

2. A clinical examination administered by a state or regional testing agency in the United States within five years preceding filing the application.

3. The Arizona dental jurisprudence examination.

32-1234. Dental consultant license

A. A person may apply for a dental consultant license if the applicant demonstrates to the board's satisfaction that the applicant:

1. Has continuously held a license to practice dentistry for at least twenty-five years issued by one or more states or territories of the United States or the District of Columbia but is not currently licensed to practice dentistry in Arizona.

2. Has not had a license to practice dentistry revoked by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

3. Is not currently under suspension or restriction by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

4. Has not surrendered, relinquished or given up a license to practice dentistry in lieu of disciplinary action by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Meets the applicable requirements of section 32-1232.

6. Meets the requirements of section 32-1233, paragraph 1. If an applicant has taken a state written theory examination instead of the written national dental board examinations, the applicant must provide the board with official documentation of passing the written theory examinations in the state where the applicant holds a current license. The board shall then determine the applicant's eligibility for a license pursuant to this section.

7. Meets the application requirements as prescribed in rule by the board.

B. The board shall suspend an application for a dental consultant license if the applicant is currently under investigation by a dental regulatory board in another jurisdiction in the United States. The board shall not issue or deny a license to the applicant until the investigation is resolved.

C. A person to whom a dental consultant license is issued shall practice dentistry only in the course of the person's employment or on behalf of an entity licensed under title 20 with the practice limited to supervising or conducting utilization review or other claims or case management activity on behalf of the entity licensed pursuant to title 20. A person who holds a dental consultant license is prohibited from providing direct patient care.

D. This section does not require a person to apply for or hold a dental consultant license in order for that person to serve as a consultant to or engage in claims review activity for an entity licensed pursuant to title 20.

E. Except as provided in subsection B of this section, a dental consultant licensee is subject to all of the provisions of this chapter that are applicable to licensed dentists.

32-1235. Reinstatement of license or certificate; application for previously denied license or certificate

A. On written application the board may issue a new license or certificate to a dentist, dental therapist, dental hygienist or denturist whose license or certificate was previously suspended or revoked by the board or surrendered by the applicant if the applicant demonstrates to the board's satisfaction that the applicant is completely rehabilitated with respect to the conduct that was the basis for the suspension, revocation or surrender. In making its decision, the board shall determine:

1. That the applicant has not engaged in any conduct during the suspension, revocation or surrender period that would have constituted a basis for revocation pursuant to section 32-1263.

2. If a criminal conviction was a basis for the suspension, revocation or surrender, that the applicant's civil rights have been fully restored pursuant to statute or any other applicable recognized judicial or gubernatorial order.

3. That the applicant has made restitution to any aggrieved person as ordered by a court of competent jurisdiction.

4. That the applicant demonstrates any other standard of rehabilitation the board determines is appropriate.

B. Except as provided in subsection C of this section, a person may not submit an application for reinstatement less than five years after the date of suspension, revocation or surrender.

C. The board shall vacate its previous order to suspend or revoke a license or certificate if that suspension or revocation was based on a conviction of a felony or an offense involving moral turpitude and that conviction has been reversed on appeal. The person may submit an application for reinstatement as soon as the court enters the reversal.

D. An applicant for reinstatement must comply with all initial licensing or certification requirements prescribed by this chapter.

E. A person whose application for a license or certificate has been denied for failure to meet academic requirements may apply for licensure or certification not less than two years after the denial.

F. A person whose application for a license has been denied pursuant to section 32-1232, subsection C may apply for licensure not less than five years after the denial.

32-1236. Dentist triennial licensure; continuing education; license reinstatement; license for each place of practice; notice of change of address or place of practice; retired and disabled license status; penalties

A. Except as provided in section 32-4301, a license expires thirty days after the licensee's birth month every third year. On or before the last day of the licensee's birth month every third year, every licensed dentist shall submit to the board a complete renewal application and pay a license renewal fee of not more than $650, established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the amount of the fee shall be applied prospectively to a licensee at the time of licensure renewal. The fee prescribed by this subsection does not apply to a retired dentist or to a dentist with a disability.

B. A licensee shall include a written affidavit with the renewal application that affirms that the licensee complies with board rules relating to continuing education requirements. A licensee is not required to complete the written affidavit if the licensee received an initial license within the year immediately preceding the expiration date of the license or the licensee is in disabled status. If the licensee is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the licensee includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the licensee's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the license expires thirty days after the licensee's birth month.

C. A person applying for licensure for the first time in this state shall pay a prorated fee for the period remaining until the licensee's next birth month. This fee shall not exceed one-third of the fee established pursuant to subsection A of this section. Subsequent licensure renewal shall be conducted pursuant to this section.

D. An expired license may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the license with payment of the renewal fee and a $100 penalty. Whenever issued, reinstatement is as of the date of application and entitles the applicant to licensure only for the remainder of the applicable three-year period. If a person does not reinstate a license pursuant to this subsection, the person must reapply for licensure pursuant to this chapter.

E. Each licensee must provide to the board in writing both of the following:

1. A primary mailing address.

2. The address for each place of practice.

F. A licensee maintaining more than one place of practice shall obtain from the board a duplicate license for each office. A fee set by the board shall be charged for each duplicate license. The licensee shall notify the board in writing within ten days after opening the additional place or places of practice. The board shall impose a penalty of $50 for failure to notify the board.

G. A licensee who is fully retired and a licensee who has a permanent disability may contribute services to a recognized charitable institution and still retain that classification for triennial registration purposes on payment of a reduced renewal fee as prescribed by the board by rule.

H. A licensee applying for retired or disabled status shall:

1. Relinquish any prescribing privileges and shall attest by affidavit that the licensee has surrendered to the United States drug enforcement administration any registration issued pursuant to the federal controlled substances act and has surrendered to the board any registration issued pursuant to section 36-2606.

2. If the licensee holds a permit to dispense drugs and devices pursuant to section 32-1298, surrender that permit to the board.

3. Attest by affidavit that the licensee is not currently engaged in the practice of dentistry.

I. A licensee who changes the licensee's primary mailing address or place of practice address shall notify the board of that change in writing within ten days. The board shall impose a penalty of $50 if a licensee fails to notify the board of the change within that time. The board shall increase the penalty imposed to $100 if a licensee fails to notify it of the change within thirty days.

32-1237. Restricted permit

A. A person may apply for a restricted permit if the applicant demonstrates to the board's satisfaction that the applicant:

1. Has a pending contract with a recognized charitable dental clinic or organization or will be practicing for educational purposes in connection with and while enrolled in recognized continuing dental education that offers dental services without compensation or at a rate that only reimburses the clinic for dental supplies and overhead costs and the applicant will receive no compensation for dental services provided at the clinic or organization or in connection with the recognized continuing dental education.

2. Has a license to practice dentistry issued by another state or territory of the United States or the District of Columbia.

3. Has been actively engaged in one or more of the following for at least three years immediately preceding the application:

(a) The practice of dentistry.

(b) An approved dental residency training program.

(c) Postgraduate training deemed by the board equivalent to an approved dental residency training program.

4. Is competent and proficient to practice dentistry.

5. Meets the requirements of section 32-1232, subsection A, other than the requirement to meet section 32-1233.

B. For the purposes of meeting the requirements of subsection A of this section, the provider of the recognized continuing dental education, before the commencement of the recognized continuing dental education, shall notify the board of the restricted permit applicants the provider has accepted that meet the requirements of section 32-1231, paragraph 9. The board shall acknowledge receipt of the notification within five business days after the later of receiving either:

1. The notification.

2. A copy of the applicants' valid fingerprint clearance cards.

32-1238. Issuance of restricted permit

A. The board shall issue a restricted permit within thirty days after the date the board receives a complete application that meets the requirements of section 32-1232, subsection B from an applicant that meets the requirements of section 32-1237.

B. A restricted permit may be issued by the board without examination or payment of fee for a period not to exceed one year and shall automatically expire at that time. The board may, in its discretion and pursuant to rules or regulations not inconsistent with this chapter, renew such restricted permit for periods not to exceed one year.

C. For the purposes of this section, the acknowledgment from the board pursuant to section 32-1237, subsection B serves as the issuance of a restricted permit to an applicant who will be practicing for educational purposes in connection with and while enrolled in recognized continuing dental education.

32-1239. Practice under restricted permit

A person to whom a restricted permit is issued may practice dentistry only in the course of the person's employment by a recognized charitable dental clinic or organization or for educational purposes in connection with and while enrolled in recognized continuing dental education as approved by the board. The person shall file a copy of the person's employment contract or confirmation of enrollment with recognized continuing dental education with the board, and the contract or confirmation shall contain the following provisions:

1. The applicant understands and acknowledges that if the applicant's employment by the charitable dental clinic or organization or enrollment in the recognized continuing dental education is terminated before the expiration of the applicant's restricted permit, the applicant's restricted permit will be automatically revoked and the applicant will voluntarily surrender the permit to the board and will no longer be eligible to practice unless or until the applicant has satisfied the requirements of section 32-1237 or has successfully passed the examination as provided in this article.

2. The person must be either:

(a) Employed by a dental clinic or organization that is organized and operated for charitable purposes offering dental services without compensation. The term "employed" as used in this subdivision includes the performance of dental services without compensation.

(b) Enrolled in recognized continuing dental education and providing charitable dental services, for which the person may not receive any compensation, in connection with recognized continuing dental education with an organization that is exempt from taxation pursuant to section 501(c)(3) of the internal revenue code.

3. The person is subject to all the provisions of this chapter applicable to licensed dentists and to the jurisdiction and discipline of the board for all dental care and services provided under the restricted permit.

32-1240. Licensure by credential; examinations; waiver; fee

A. The board by rule may waive the examination requirements of this article on receipt of evidence satisfactory to the board that the applicant has passed the clinical examination of another state or testing agency more than five years before submitting an application for licensure pursuant to this chapter and the other state or testing agency maintains a standard of licensure that is substantially equivalent to that of this state as determined by the board. The board by rule shall require:

1. A minimum number of active practice hours within a specific time period before the applicant submits the application. The board shall define what constitutes active practice.

2. An affirmation that the applicant has completed the continuing education requirements of the jurisdiction where the applicant is licensed.

B. The applicant shall pay a licensure by credential fee of not more than two thousand dollars as prescribed by the board.

32-1241. Training permits; qualified military health professionals

A. The board shall issue a training permit to a qualified military health professional who is practicing dentistry in the United States armed forces and who is discharging the health professional's official duties by participating in a clinical training program based at a civilian hospital affiliated with the United States department of defense.

B. Before the board issues the training permit, the qualified military health professional must submit a written statement from the United States department of defense that the applicant:

1. Is a member of the United States armed forces who is performing duties for and at the direction of the United States department of defense at a location in this state approved by the United States department of defense.

2. Has a current license or is credentialed to practice dentistry in a jurisdiction of the United States.

3. Meets all required qualification standards prescribed pursuant to 10 United States Code section 1094(d) relating to the licensure requirements for health professionals.

4. Has not had a license to practice revoked by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction that constitutes unprofessional conduct pursuant to this chapter.

5. Is not currently under investigation, suspension or restriction by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction that constitutes unprofessional conduct pursuant to this chapter.

6. Has not surrendered, relinquished or given up a license in lieu of disciplinary action by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction that constitutes unprofessional conduct pursuant to this chapter. This paragraph does not prevent the board from considering the request for a training permit of a qualified military health professional who surrendered, relinquished or gave up a license in lieu of disciplinary action by a regulatory board in another jurisdiction if that regulatory board subsequently reinstated the qualified military health professional's license.

C. The qualified military health professional may not open an office or designate a place to meet patients or receive calls relating to the practice of dentistry in this state outside of the facilities and programs of the approved civilian hospital.

D. The qualified military health professional may not practice outside of the professional's scope of practice.

E. A training permit issued pursuant to this section is valid for one year. The qualified military health professional may apply annually to the board to renew the permit. With each application to renew the qualified military health professional must submit a written statement from the United States department of defense asking the board for continuation of the training permit.

F. The board may not impose a fee to issue or renew a training permit to a qualified military health professional pursuant to this section.

Article 3 Regulation

32-1261. Practicing without license; classification

Except as otherwise provided a person is guilty of a class 6 felony who, without a valid license or business entity registration as prescribed by this chapter:

1. Practices dentistry or any branch of dentistry as described in section 32-1202.

2. In any manner or by any means, direct or indirect, advertises, represents or claims to be engaged or ready and willing to engage in that practice as described in section 32-1202.

3. Manages, maintains or carries on, in any capacity or by any arrangement, a practice, business, office or institution for the practice of dentistry, or that is advertised, represented or held out to the public for that purpose.

32-1262. Corporate practice; display of name and license receipt or license; duplicate licenses; fee

A. It is lawful to practice dentistry as a professional corporation or professional limited liability company.

B. It is lawful to practice dentistry as a business organization if the business organization is registered as a business entity pursuant to this chapter.

C. It is lawful to practice dentistry under a name other than that of the licensed practitioners if the name is not deceptive or misleading.

D. If practicing as a professional corporation or professional limited liability company, the name and address of record of the dentist owners of the practice shall be conspicuously displayed at the entrance to each owned location.

E. If practicing as a business organization that is registered as a business entity pursuant to section 32-1213, the receipt for the current registration period must be conspicuously displayed at the entrance to each place of practice.

F. A licensee's receipt for the current licensure period shall be displayed in the licensee's place of practice in a manner that is always readily observable by patients or visitors and shall be exhibited to members of the board or to duly authorized agents of the board on request. The receipt for the licensure period immediately preceding shall be kept on display until replaced by the receipt for the current period. During the year in which the licensee is first licensed and until the receipt for the following period is received, the license shall be displayed in lieu of the receipt.

G. If a dentist maintains more than one place of practice, the board may issue one or more duplicate licenses or receipts on payment of a fee fixed by the board not exceeding twenty-five dollars for each duplicate.

H. If a licensee legally changes the licensee's name from that in which the license was originally issued, the board, on satisfactory proof of the change and surrender of the original license, if obtainable, may issue a new license in the new name and shall charge the established fee for duplicate licenses.

32-1263. Grounds for disciplinary action; definition

A. The board may invoke disciplinary action against any person who is licensed under this chapter for any of the following reasons:

1. Unprofessional conduct as defined in section 32-1201.01.

2. Conviction of a felony or of a misdemeanor involving moral turpitude, in which case the record of conviction or a certified copy is conclusive evidence.

3. Physical or mental incompetence to practice pursuant to this chapter.

4. Committing or aiding, directly or indirectly, a violation of or noncompliance with any provision of this chapter or of any rules adopted by the board pursuant to this chapter.

5. Dental incompetence as defined in section 32-1201.

B. This section does not establish a cause of action against a licensee or a registered business entity that makes a report of unprofessional conduct or unethical conduct in good faith.

C. The board may take disciplinary action against a business entity that is registered pursuant to this chapter for unethical conduct.

D. For the purposes of this section, "unethical conduct" means the following acts occurring in this state or elsewhere:

1. Failing to report in writing to the board any evidence that a dentist, dental therapist, denturist or dental hygienist is or may be professionally incompetent, is or may be guilty of unprofessional conduct, is or may be impaired by drugs or alcohol or is or may be mentally or physically unable to safely engage in the permissible activities of a dentist, dental therapist, denturist or dental hygienist.

2. Falsely reporting to the board that a dentist, dental therapist, denturist or dental hygienist is or may be guilty of unprofessional conduct, is or may be impaired by drugs or alcohol or is or may be mentally or physically unable to safely engage in the permissible activities of a dentist, dental therapist, denturist or dental hygienist.

3. Obtaining or attempting to obtain a registration or registration renewal by fraud or by misrepresentation.

4. Knowingly filing with the board any application, renewal or other document that contains false information.

5. Failing to register or failing to submit a renewal registration with the board pursuant to section 32-1213.

6. Failing to provide the following persons with access to any place for which a registration has been issued or for which an application for a registration has been submitted in order to conduct a site investigation, inspection or audit:

(a) The board or its employees or agents.

(b) An authorized federal or state official.

7. Failing to notify the board of a change in officers and directors, a change of address, a change in the dentists providing services or a change in the custodian of records pursuant to section 32-1213, subsection E.

8. Failing to maintain or provide patient records pursuant to section 32-1264.

9. Obtaining a fee by fraud or misrepresentation or wilfully or intentionally filing a fraudulent claim with a third party for services rendered or to be rendered to a patient.

10. Engaging in repeated irregularities in billing.

11. Engaging in the following advertising practices:

(a) Publishing or circulating, directly or indirectly, any false or fraudulent or misleading statements concerning the skill, methods or practices of a registered business entity, a licensee or any other person.

(b) Advertising in any manner that tends to deceive or defraud the public.

12. Failing to comply with a board subpoena in a complete or timely manner.

13. Failing to comply with a final board order, including a decree of censure, a period or term of probation, a consent agreement or a stipulation.

14. Employing or aiding and abetting unlicensed persons to perform work that must be done by a person licensed pursuant to this chapter.

15. Engaging in any conduct or practice that constitutes a danger to the health, welfare or safety of the patient or the public.

16. Engaging in a policy or practice that interferes with the clinical judgment of a licensee providing dental services for a business entity or compromising a licensee's ability to comply with this chapter.

17. Engaging in a practice by which a dental hygienist, dental therapist or dental assistant exceeds the scope of practice or restrictions included in a written collaborative practice agreement.

18. Failing to provide medical records or payment records to a third party, including current or former associates, employees or dentists of the practice, as required by sections 12-2294 and 12-2294.01.

32-1263.01. Types of disciplinary action; letter of concern; judicial review; notice; removal of notice; violation; classification

A. The board may take any one or a combination of the following disciplinary actions against any person licensed under this chapter:

1. Revocation of license to practice.

2. Suspension of license to practice.

3. Entering a decree of censure, which may require that restitution be made to an aggrieved party.

4. Issuance of an order fixing a period and terms of probation best adapted to protect the public health and safety and to rehabilitate the licensed person. The order fixing a period and terms of probation may require that restitution be made to the aggrieved party.

5. Imposition of an administrative penalty in an amount not to exceed two thousand dollars for each violation of this chapter or rules adopted under this chapter.

6. Imposition of a requirement for restitution of fees to the aggrieved party.

7. Imposition of restrictions on the scope of practice.

8. Imposition of peer review and professional education requirements.

9. Imposition of community service.

B. The board may issue a letter of concern if a licensee's continuing practices may cause the board to take disciplinary action. The board may also issue a nondisciplinary order requiring the licensee to complete a prescribed number of hours of continuing education in an area or areas prescribed by the board to provide the licensee with the necessary understanding of current developments, skills, procedures or treatment.

C. Failure to comply with any order of the board, including an order of censure or probation, is cause for suspension or revocation of a license.

D. All disciplinary and final nondisciplinary actions or orders, not including letters of concern or advisory letters, issued by the board against a licensee or certificate holder shall be posted to that licensee's or certificate holder's profile on the board's website. For the purposes of this subsection, only final nondisciplinary actions and orders that are issued after January 1, 2018 shall be posted.

E. Except as provided in section 41-1092.08, subsection H, final decisions of the board are subject to judicial review pursuant to title 12, chapter 7, article 6.

F. If the state board of dental examiners acts to modify any dentist's prescription-writing privileges, it shall immediately notify the Arizona state board of pharmacy of the modification.

G. The board may post a notice of its suspension or revocation of a license at the licensee's place of business. This notice shall remain posted for sixty days. A person who removes this notice without board or court authority before that time is guilty of a class 3 misdemeanor.

H. A licensee or certificate holder shall respond in writing to the board within twenty days after a notice of hearing is served. A licensee who fails to answer the charges in a complaint and notice of hearing issued pursuant to this article and title 41, chapter 6, article 10 is deemed to admit the acts charged in the complaint, and the board may revoke or suspend the license without a hearing.

32-1263.02. Investigation and adjudication of complaints; disciplinary action; civil penalty; immunity; subpoena authority; definitions

A. The board on its own motion, or the investigation committee if established by the board, may investigate any evidence that appears to show the existence of any of the causes or grounds for disciplinary action as provided in section 32-1263. The board or investigation committee may investigate any complaint that alleges the existence of any of the causes or grounds for disciplinary action as provided in section 32-1263. The board shall not act on its own motion or on a complaint received by the board if the allegation of unprofessional conduct, unethical conduct or any other violation of this chapter against a licensee occurred more than four years before the complaint is received by the board. The four-year time limitation does not apply to:

1. Medical malpractice settlements or judgments, allegations of sexual misconduct or an incident or occurrence that involved a felony, diversion of a controlled substance or impairment while practicing by the licensee.

2. The board's consideration of the specific unprofessional conduct related to the licensee's failure to disclose conduct or a violation as required by law.

B. At the request of the complainant, the board or investigation committee shall not disclose to the respondent the complainant name unless the information is essential to proceedings conducted pursuant to this article.

C. The board or investigation committee shall conduct necessary investigations, including interviews between representatives of the board or investigation committee and the licensee with respect to any information obtained by or filed with the board under subsection A of this section or obtained by the board or investigation committee during the course of an investigation. The results of the investigation conducted by the investigation committee, including any recommendations from the investigation committee for disciplinary action against any licensee, shall be forwarded to the board for its review.

D. The board or investigation committee may designate one or more persons of appropriate competence to assist the board or investigation committee with any aspect of an investigation.

E. If, based on the information the board receives under subsection A or C of this section, the board finds that the public health, safety or welfare imperatively requires emergency action and incorporates a finding to that effect in its order, the board may order a summary suspension of a licensee's license pursuant to section 41-1092.11 pending proceedings for revocation or other action.

F. If a complaint refers to quality of care, the patient may be referred for a clinical evaluation at the discretion of the board or the investigation committee.

G. If, after completing its investigation or review pursuant to this section, the board finds that the information provided pursuant to subsection A or C of this section is insufficient to merit disciplinary action against a licensee, the board may take any of the following actions:

1. Dismiss the complaint.

2. Issue a nondisciplinary letter of concern to the licensee.

3. Issue a nondisciplinary order requiring the licensee to complete a prescribed number of hours of continuing education in an area or areas prescribed by the board to provide the licensee with the necessary understanding of current developments, skills, procedures or treatment.

4. Assess a nondisciplinary civil penalty in an amount not to exceed $500 if the complaint involves the licensee's failure to respond to a board subpoena.

H. If, after completing its investigation or review pursuant to this section, the board finds that the information provided pursuant to subsection A or C of this section is sufficient to merit disciplinary action against a licensee, the board may request that the licensee participate in a formal interview before the board. If the licensee refuses or accepts the invitation for a formal interview and the results indicate that grounds may exist for revocation or suspension, the board shall issue a formal complaint and order that a hearing be held pursuant to title 41, chapter 6, article 10. If, after completing a formal interview, the board finds that the protection of the public requires emergency action, it may order a summary suspension of the license pursuant to section 41-1092.11 pending formal revocation proceedings or other action authorized by this section.

I. If, after completing a formal interview, the board finds that the information provided under subsection A or C of this section is insufficient to merit suspension or revocation of the license, it may take any of the following actions:

1. Dismiss the complaint.

2. Order disciplinary action pursuant to section 32-1263.01, subsection A.

3. Enter into a consent agreement with the licensee for disciplinary action.

4. Order nondisciplinary continuing education pursuant to section 32-1263.01, subsection B.

5. Issue a nondisciplinary letter of concern to the licensee.

J. A copy of the board's order issued pursuant to this section shall be given to the complainant and to the licensee. Pursuant to title 41, chapter 6, article 10, the licensee may petition for rehearing or review.

K. Any person who in good faith makes a report or complaint as provided in this section to the board or to any person or committee acting on behalf of the board is not subject to liability for civil damages as a result of the report.

L. The board, through its president or the president's designee, may issue subpoenas to compel the attendance of witnesses and the production of documents and may administer oaths, take testimony and receive exhibits in evidence in connection with an investigation initiated by the board or a complaint filed with the board. In case of disobedience to a subpoena, the board may invoke the aid of any court of this state in requiring the attendance and testimony of witnesses and the production of documentary evidence.

M. Patient records, including clinical records, medical reports, laboratory statements and reports, files, films, reports or oral statements relating to diagnostic findings or treatment of patients, any information from which a patient or a patient's family may be identified or information received and records kept by the board as a result of the investigation procedures taken pursuant to this chapter, are not available to the public.

N. The board may charge the costs of formal hearings conducted pursuant to title 41, chapter 6, article 10 to a licensee it finds to be in violation of this chapter.

O. The board may accept the surrender of an active license from a licensee who is subject to a board investigation and who admits in writing to any of the following:

1. Being unable to safely engage in the practice of dentistry.

2. Having committed an act of unprofessional conduct.

3. Having violated this chapter or a board rule.

P. In determining the appropriate disciplinary action under this section, the board may consider any previous nondisciplinary and disciplinary actions against a licensee.

Q. If a licensee who is currently providing dental services for a registered business entity believes that the registered business entity has engaged in unethical conduct as defined pursuant to section 32-1263, subsection D, paragraph 16, the licensee must do both of the following before filing a complaint with the board:

1. Notify the registered business entity in writing that the licensee believes that the registered business entity has engaged in a policy or practice that interferes with the clinical judgment of the licensee or that compromises the licensee's ability to comply with the requirements of this chapter. The licensee shall specify in the notice the reasons for this belief.

2. Provide the registered business entity with at least ten calendar days to respond in writing to the assertions made pursuant to paragraph 1 of this subsection.

R. A licensee who files a complaint pursuant to subsection Q of this section shall provide the board with a copy of the licensee's notification and the registered business entity's response, if any.

S. A registered business entity may not take any adverse employment action against a licensee because the licensee complies with the requirements of subsection Q of this section.

T. For the purposes of this section:

1. "License" includes a certificate issued pursuant to this chapter.

2. "Licensee" means a dentist, dental therapist, dental hygienist, denturist, dental consultant, restricted permit holder or business entity regulated pursuant to this chapter.

32-1263.03. Investigation committee; complaints; termination; review

A. If established by the board, the investigation committee may terminate a complaint if the investigation committee's review indicates that the complaint is without merit and that termination is appropriate.

B. The investigation committee may not terminate a complaint if a court has entered a medical malpractice judgment against a licensee.

C. At each regularly scheduled board meeting, the investigation committee shall provide to the board a list of each complaint the investigation committee terminated pursuant to subsection A of this section since the preceding board meeting. On review, the board shall approve, modify or reject the investigation committee's action.

D. A person who is aggrieved by an action taken by the investigation committee pursuant to subsection A of this section may file a written request that the board review that action. The request must be filed within thirty days after that person is notified of the investigation committee's action by personal delivery or, if the notification is mailed to that person's last known residence or place of business, within thirty-five days after the date on the notification. At the next regular board meeting, the board shall review the investigation committee's action. On review, the board shall approve, modify or reject the investigation committee's action.

32-1264. Maintenance of records

A. A person who is licensed or certified pursuant to this chapter shall make legible permanent and contemporaneous written or electronic records concerning all diagnoses, evaluations and treatments of each patient of record. The owner of a dental practice or a registered business entity shall maintain all written and electronic records. Electronic records must be retrievable in paper form. These records shall include:

1. All treatment notes, including current health history and the results of clinical examinations.

2. Prescription and dispensing information, including all drugs, medicaments and dental materials used for patient care.

3. A diagnosis and treatment plan.

4. Dental and periodontal charting. Charting must include existing restorations, areas of requested care and notation of visual oral examination describing any areas of potential pathology or radiographic irregularities.

5. Documentation of informed consent.

6. All radiographs.

B. Records are available for review and for treatment purposes to the dentist, dental therapist, dental hygienist or denturist providing care.

C. On request, the licensee, registered business entity or certificate holder shall allow properly authorized board personnel to have access to the licensee's or certificate holder's place of practice to conduct an inspection and must make the licensee's or certificate holder's records, books and documents available to the board free of charge as part of an investigation process.

D. Within fifteen business days after a patient's written request, that patient's dentist, dental therapist, dental hygienist or denturist or a registered business entity shall transfer legible and diagnostic quality copies of that patient's records to another licensee or certificate holder or that patient. The patient may be charged for the reasonable costs of copying and forwarding these records. A dentist, dental therapist, dental hygienist, denturist or registered business entity may require that payment of reproduction costs be made in advance, unless the records are necessary for continuity of care, in which case the records shall not be withheld. Copies of records shall not be withheld because of an unpaid balance for dental services.

E. Unless otherwise required by law, a person who is licensed or certified pursuant to this chapter or a business entity that is registered pursuant to this chapter must retain the original or a copy of a patient's dental records as follows:

1. If the patient is an adult, for at least six years after the last date the adult patient received dental services from that provider.

2. If the patient is a child, for at least three years after the child's eighteenth birthday or for at least six years after the last date the child received dental services from the provider, whichever occurs later.

F. A person who is licensed or certified pursuant to this chapter and who is an associate or employee of a dental practice is not responsible for storing or retaining medical records but shall compile and record the records in the customary manner.

G. A licensee or business entity shall release treatment records to third parties, including current and former associates, employees or dentists of the practice, as required by sections 12-2294 and 12-2294.01.

H. When a dentist retires or sells a practice, or when a registered business entity closes or sells a practice, the dentist or registered business entity shall take reasonable measures to ensure that the patient records are retained pursuant to this section.

32-1265. Interpretation of chapter

Nothing in this chapter shall be construed to abridge a license issued under laws of this state relating to medicine or surgery.

32-1266. Prosecution of violations

The attorney general shall act for the board in all matters requiring legal assistance, but the board may employ other or additional counsel in its own behalf. The board shall assist prosecuting officers in enforcement of this chapter, and in so doing may engage suitable persons to assist in investigations and in the procurement and presentation of evidence. Subpoenas or other orders issued by the board may be served by any officer empowered to serve processes, who shall receive the fees prescribed by law. Expenditures made in carrying out provisions of this section shall be paid from the dental board fund.

32-1267. Use of fraudulent instruments; classification

A person is guilty of a class 5 felony who:

1. Knowingly presents to or files with the board as his own a diploma, degree, license, certificate or identification belonging to another, or which is forged or fraudulent.

2. Exhibits or displays any instrument described in paragraph 1 with intent that it be used as evidence of the right of such person to practice dentistry in this state.

3. With fraudulent intent alters any instrument described in paragraph 1 or uses or attempts to use it when so altered.

4. Sells, transfers or offers to sell or transfer, or who purchases, procures or offers to purchase or procure a diploma, license, certificate or identification, with intent that it be used as evidence of the right to practice dentistry in this state by a person other than the one to whom it belongs or is issued.

32-1268. Violations; classification; required proof

A. A person is guilty of a class 2 misdemeanor who:

1. Employs, contracts with, or by any means procures the assistance of, or association with, for the purpose of practicing dentistry, a person not having a valid license therefor.

2. Fails to obey a summons or other order regularly and properly issued by the board.

3. Violates any provision of this chapter for which the penalty is not specifically prescribed.

B. In a prosecution or hearing under this chapter, it is necessary to prove only a single act of violation and not a general course of conduct, and where the violation is continued over a period of one or more days each day constitutes a separate violation subject to the penalties prescribed in this chapter.

32-1269. Violation; classification; injunctive relief

A. A person convicted under this chapter is guilty of a class 2 misdemeanor unless another classification is specifically prescribed in this chapter. Violations shall be prosecuted by the county attorney and tried before the superior court in the county in which the violation occurs.

B. In addition to penalties provided in this chapter, the courts of the state are vested with jurisdiction to prevent and restrain violations of this chapter as nuisances per se, and the county attorneys shall, and the board may, institute proceedings in equity to prevent and restrain violations. A person damaged, or threatened with loss or injury, by reason of a violation of this chapter is entitled to obtain injunctive relief in any court of competent jurisdiction against any damage or threatened loss or injury by reason of a violation of this chapter.

32-1270. Deceased or incapacitated dentists; notification

A. An administrator or executor of the estate of a deceased dentist, or a person who is legally authorized to act for a dentist who has been adjudicated to be mentally incompetent, must notify the board within sixty days after the dentist's death or incapacitation. The administrator or executor may employ a licensed dentist for a period of not more than one year to:

1. Continue the deceased or incapacitated dentist's practice.

2. Conclude the affairs of the deceased or incapacitated dentist, including the sale of any assets.

B. An administrator or executor operating a practice pursuant to this section for more than one year must register as a business entity pursuant to section 32-1213.

32-1271. Marking of dentures for identification; retention and release of information

A. Every complete upper or lower denture fabricated by a licensed dentist, or fabricated pursuant to the dentist's work order, must be marked with the patient's name unless the patient objects. The marking must be done during fabrication and must be permanent, legible and cosmetically acceptable. The dentist or the dental laboratory shall determine the location of the marking and the methods used to implant or apply it. The dentist must inform the patient that the marking is used only to identify the patient, and the patient may choose which marking is to appear on the dentures.

B. The dentist must retain the records of marked dentures and may not release the records to any person except to law enforcement officers in any emergency that requires personal identification by means of dental records or to anyone authorized by the patient to receive this information.

32-1272. Dental anesthesia; requirements

A. A dental office or dental clinic at which general anesthesia or sedation is administered must contain properly operating equipment and supplies as prescribed by the board in rule and have proper emergency response protocols in place, including advanced cardiac life support and airway management and pediatric advanced life support, as applicable, when administering general anesthesia or sedation as prescribed by the board in rule that is consistent with the standards and practices recommended by the American heart association.

B. A qualified anesthesia provider who is licensed by the board and who fails to comply with the requirements of this section or applicable board rules commits an act that constitutes a danger to the health, welfare or safety of the public pursuant to section 32-1201.01.

C. If a qualified anesthesia provider who is not licensed by the state board of dental examiners fails to comply with the requirements of this section or applicable board rules, the state board of dental examiners shall promptly report the qualified anesthesia provider's conduct to the regulatory board that licenses the qualified anesthesia provider. If an adverse anesthesia outcome involves a qualified

anesthesia provider who is not licensed by the state board of dental examiners, the state board of dental examiners shall promptly report the adverse anesthesia outcome to the regulatory board that licenses the qualified anesthesia provider.

D. If a death or an incident requiring emergency medical response occurs in a dental office or dental clinic during the administration of or recovery from general anesthesia or sedation by a qualified anesthesia provider, the treating dentist shall submit a report of the incident to the state board of dental examiners within seven business days after the occurrence. If the incident involves a qualified anesthesia provider who is not licensed by the state board of dental examiners, the state board of dental examiners shall immediately forward a copy of the incident report to the regulatory board that licenses the qualified anesthesia provider.

Article 3.1 Licensing and Regulation of Dental Therapists

32-1276. Definitions

In this article, unless the context otherwise requires:

1. "Applicant" means a person who is applying for licensure to practice dental therapy in this state.

2. "Direct supervision" means that a licensed dentist is present in the office and available to provide treatment or care to a patient and observe a dental therapist's work.

32-1276.01. Application for licensure; requirements; fingerprint clearance card; denial or suspension of application

A. An applicant for licensure as a dental therapist in this state shall do all of the following:

1. Apply to the board on a form prescribed by the board.

2. Verify under oath that all statements in the application are true to the applicant's knowledge.

3. Enclose with the application:

(a) A recent photograph of the applicant.

(b) The application fee established by the board by rule.

B. The board may grant a license to practice dental therapy to an applicant who meets all of the following requirements:

1. Is licensed as a dental hygienist pursuant to article 4 of this chapter.

2. Graduates from a dental therapy education program that is accredited by or holds an initial accreditation from the American dental association commission on dental accreditation and that is offered through an accredited higher education institution recognized by the United States department of education.

3. Successfully passes, both of the following:

(a) Within five years before filing the application, a clinical examination in dental therapy administered by a state or testing agency in the United States.

(b) The Arizona dental jurisprudence examination.

4. Is not subject to any grounds for denial of the application under this chapter.

5. Obtains a valid fingerprint clearance card issued pursuant to title 41, chapter 12, article 3.1.

6. Meets all requirements for licensure established by the board by rule.

C. The board may deny an application for licensure or license renewal if the applicant:

1. Has committed an act that would be cause for censure, probation or suspension or revocation of a license under this chapter.

2. While unlicensed, committed or aided and abetted the commission of an act for which a license is required by this chapter.

3. Knowingly made any false statement in the application.

4. Has had a license to practice dental therapy revoked by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently suspended or restricted by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dental therapy instead of having disciplinary action taken against the applicant by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

D. The board shall suspend an application for licensure if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue a license or deny an application for licensure until the investigation is completed.

3. "Licensee" means a person who holds a license to practice dental therapy in this state.

32-1276.02. Dental therapist triennial licensure; continuing education; license renewal and reinstatement; fees; civil penalties; retired and disabled license status

A. Except as provided in section 32-4301, a license issued under this article expires thirty days after the licensee's birth month every third year. On or before the last day of the licensee's birth month every third year, each licensed dental therapist shall submit to the board a complete renewal application and pay a license renewal fee established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the

amount of the fee shall be applied prospectively to a licensee at the time of licensure renewal. The fee prescribed by this subsection does not apply to a retired dental therapist or to a dental therapist with a disability.

B. A licensee shall include a written affidavit with the renewal application that affirms that the licensee complies with board rules relating to continuing education requirements. A licensee is not required to complete the written affidavit if the licensee received an initial license within the year immediately preceding the expiration date of the license or the licensee is in disabled status. If the licensee is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the licensee includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the licensee's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the license expires thirty days after the licensee's birth month of the expiration year.

C. An applicant for a dental therapy license for the first time in this state shall pay a prorated fee for the period remaining until the licensee's next birthday. This fee may not exceed one-third of the fee prescribed pursuant to subsection A of this section. Subsequent applications shall be conducted pursuant to this section.

D. An expired license may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the license with payment of the renewal fee and a $100 penalty. When the license is issued, reinstatement is as of the date of application and entitles the applicant to licensure only for the remainder of the applicable three-year period. If a person does not reinstate a license pursuant to this subsection, the person must reapply for licensure pursuant to this article.

E. A licensee shall notify the board in writing within ten days after the licensee changes the primary mailing address listed with the board. The board shall impose a civil penalty of $50 if a licensee fails to notify the board of the change within that time. The board shall increase the civil penalty to $100 if a licensee fails to notify the board of the change within thirty days.

F. A licensee who is at least sixty-five years of age and who is fully retired and a licensee who has a permanent disability may contribute services to a recognized charitable institution and still retain that classification for triennial registration purposes by paying a reduced renewal fee as prescribed by the board by rule.

G. A licensee is not required to maintain a dental hygienist license.

32-1276.03. Practice of dental therapy; authorized procedures; supervision requirements; restrictions

A. A person is deemed to be a practicing dental therapist if the person does any of the acts or performs any operations included in the general practice of dental therapists or dental therapy or any related and associated duties.

B. Either under the direct supervision of a dentist or pursuant to a written collaborative practice agreement, a licensed dental therapist may do any of the following:

1. Perform oral evaluations and assessments of dental disease and formulate individualized treatment plans.

2. Perform comprehensive charting of the oral cavity.

3. Provide oral health instruction and disease prevention education, including motivational interviewing, nutritional counseling and dietary analysis.

4. Expose and process dental radiographic images.

5. Perform dental prophylaxis, scaling, root planing and polishing procedures.

6. Dispense and administer oral and topical nonnarcotic analgesics and anti-inflammatory and antibiotic medications as prescribed by a licensed health care provider.

7. Apply topical preventive and prophylactic agents, including fluoride varnishes, antimicrobial agents, silver diamine fluoride and pit and fissure sealants.

8. Perform pulp vitality testing.

9. Apply desensitizing medicaments or resins.

10. Fabricate athletic mouth guards and soft occlusal guards.

11. Change periodontal dressings.

12. Administer nitrous oxide analgesics and local anesthetics.

13. Perform simple extraction of erupted primary teeth.

14. Perform nonsurgical extractions of periodontally diseased permanent teeth that exhibit plus three or grade three mobility and that are not impacted, fractured, unerupted or in need of sectioning for removal.

15. Perform emergency palliative treatments of dental pain that is related to care or a service described in this section.

16. Prepare and place direct restorations in primary and permanent teeth.

17. Fabricate and place single-tooth temporary crowns.

18. Prepare and place preformed crowns on primary teeth.

19. Perform indirect and direct pulp capping on permanent teeth.

20. Perform indirect pulp capping on primary teeth.

21. Perform suturing and suture removal.

22. Provide minor adjustments and repairs on removable prostheses.

23. Place and remove space maintainers.

24. Perform all functions of a dental assistant and expanded function dental assistant.

25. Perform other related services and functions that are authorized by the supervising dentist within the dental therapist's scope of practice and for which the dental therapist is trained.

26. Provide referrals.

27. Perform any other duties of a dental therapist that are authorized by the board by rule.

C. A dental therapist may not:

1. Dispense or administer a narcotic drug.

2. Independently bill for services to any individual or third-party payor.

D. A person may not claim to be a dental therapist unless that person is licensed as a dental therapist under this article.

32-1276.04. Dental therapists; clinical practice; supervising dentists; written collaborative practice agreements

A. A dental therapist may practice only in the following practice settings or locations, including mobile dental units, that are operated or served by any of the following:

1. A federally qualified community health center.

2. A health center program that has received a federal look-alike designation.

3. A community health center.

4. A nonprofit dental practice or a nonprofit organization that provides dental care to low-income and underserved individuals.

5. A private dental practice that provides dental care for community health center patients of record who are referred by the community health center.

B. A dental therapist may practice in this state either under the direct supervision of a dentist or pursuant to a written collaborative practice agreement. Before a dental therapist may enter into a written collaborative practice agreement, the dental therapist shall complete one thousand hours of dental therapy clinical practice under the direct supervision of a dentist who is licensed in this state and shall provide documentation satisfactory to the board of having completed this requirement.

C. A practicing dentist who holds an active license pursuant to this chapter and a licensed dental therapist who holds an active license pursuant to this article may enter into a written collaborative practice agreement for the delivery of dental therapy services. The supervising dentist shall provide or arrange for another dentist or specialist to provide any service needed by the dental therapist's patient that exceeds the dental therapist's authorized scope of practice.

D. A dentist may not enter into more than four separate written collaborative practice agreements for the delivery of dental therapy services.

E. A written collaborative practice agreement between a dentist and a dental therapist shall do all of the following:

1. Address any limit on services and procedures to be performed by the dental therapist, including types of populations and any age-specific or procedure-specific practice protocol, including case selection criteria, assessment guidelines and imaging frequency.

2. Address any limit on practice settings established by the supervising dentist and the level of supervision required for various services or treatment settings.

3. Establish practice protocols, including protocols for informed consent, recordkeeping, managing medical emergencies and providing care to patients with complex medical conditions, including requirements for consultation before initiating care.

4. Establish protocols for quality assurance, administering and dispensing medications and supervising dental assistants.

5. Include specific protocols to govern situations in which the dental therapist encounters a patient requiring treatment that exceeds the dental therapist's authorized scope of practice or the limits imposed by the collaborative practice agreement.

6. Specify that the extraction of permanent teeth may be performed only under the direct supervision of a dentist and consistent with section 32-1276.03, subsection B, paragraph 14.

F. Except as provided in section 32-1276.03, subsection B, paragraph 14, to the extent authorized by the supervising dentist in the written collaborative practice agreement, a dental therapist may practice dental therapy procedures authorized under this article in a practice setting in which the supervising dentist is not on-site and has not previously examined the patient or rendered a diagnosis.

G. The written collaborative practice agreement must be signed and maintained by both the supervising dentist and the dental therapist and may be updated and amended as necessary by both the supervising dentist and dental therapist. The supervising dentist and dental therapist shall submit a copy of the agreement and any amendment to the agreement to the board.

32-1276.05. Dental therapists; supervising dentists; collaborative practice relationships

A. A dentist who holds an active license pursuant to this chapter and a dental therapist who holds an active license pursuant to this article may enter into a collaborative practice relationship through a written collaborative practice agreement for the delivery of dental therapy services.

B. Each dental practice shall disclose to a patient whether the patient is scheduled to see the dentist or dental therapist.

C. Each dentist in a collaborative practice relationship shall:

1. Be available to provide appropriate contact, communication and consultation with the dental therapist.

2. Adopt procedures to provide timely referral of patients whom the dental therapist refers to a licensed dentist for examination. The dentist to whom the patient is referred shall be geographically available to see the patient.

D. Each dental therapist in a collaborative practice relationship shall:

1. Perform only those duties within the terms of the written collaborative practice agreement.

2. Maintain an appropriate level of contact with the supervising dentist.

E. The dental therapist and the supervising dentist shall notify the board of the beginning of the collaborative practice relationship and provide the board with a copy of the written collaborative practice agreement and any amendments to the agreement within thirty days after the effective date of the agreement or amendment. The dental therapist and supervising dentist shall also notify the board within thirty days after the termination date of the written collaborative practice agreement if the date is different than the termination date provided in the agreement.

F. Subject to the terms of the written collaborative practice agreement, a dental therapist may perform all dental therapy procedures authorized in section 32-1276.03. The dentist's presence, examination, diagnosis and treatment plan are not required unless specified by the written collaborative practice agreement.

32-1276.06. Practicing without a license; violation; classification

It is a class 6 felony for a person to practice dental therapy in this state unless the person has obtained a license from the board as provided in this article.

32-1276.07. Licensure by credential; examination waiver; fee

A. The board by rule may waive the examination requirements of this article on receipt of evidence satisfactory to the board that the applicant has passed the clinical examination of another state or testing agency more than five years before submitting the application for licensure pursuant to this article and the other state or testing agency maintains a standard of licensure or certification that is substantially equivalent to that of this state as determined by the board. The board by rule shall require:

1. A minimum number of active practice hours within a specific time period before the applicant submits the application. The board shall prescribe what constitutes active practice.

2. An affirmation that the applicant has completed the continuing education requirements of the jurisdiction where the applicant is licensed or certified.

B. The applicant shall pay a licensure by credential fee as established by the board in rule.

C. An applicant under this section is not required to obtain a dental hygienist license in this state if the board determines that the applicant otherwise meets the requirements for dental therapist licensure.

32-1276.08. Dental therapy schools; credit for prior experience or coursework

Notwithstanding any other law, a recognized dental therapy school may grant advanced standing or credit for prior learning to a student who has prior experience or has completed coursework that the school determines is equivalent to didactic and clinical education in its accredited program.

Article 4 Licensing and Regulation of Dental Hygienists

32-1281. Practicing as dental hygienist; supervision requirements; definitions

A. A person is deemed to be practicing as a dental hygienist if the person does any of the acts or performs any of the operations included in the general practice of dental hygienists, dental hygiene and all related and associated duties.

B. A licensed dental hygienist may perform the following:

1. Prophylaxis.

2. Scaling.

3. Closed subgingival curettage.

4. Root planing.

5. Administering local anesthetics and nitrous oxide.

6. Inspecting the oral cavity and surrounding structures for the purposes of gathering clinical data to facilitate a diagnosis.

7. Periodontal screening or assessment.

8. Recording clinical findings.

9. Compiling case histories.

10. Exposing and processing dental radiographs.

11. Dental hygiene assessment and dental hygiene treatment planning as components of a diagnosis and treatment plan developed by a dentist.

12. All functions authorized and deemed appropriate for dental assistants.

13. Except as provided in paragraph 14 of this subsection, those restorative functions permissible for an expanded function dental assistant if qualified pursuant to section 32-1291.01.

14. Placing interim therapeutic restorations after successfully completing a course at an institution accredited by the commission on dental accreditation of the American dental association.

C. The board by rule shall prescribe the circumstances under which a licensed dental hygienist may:

1. Apply preventive and therapeutic agents to the hard and soft tissues.

2. Use emerging scientific technology and prescribe the necessary training, experience and supervision to operate newly developed scientific technology. A dentist who supervises a dental hygienist whose duties include the use of emerging scientific technology must have training on using the emerging technology that is equal to or greater than the training the dental hygienist is required to obtain.

3. Perform other procedures not specifically authorized by this section.

D. Except as provided in subsections E, F and I of this section, a dental hygienist shall practice under the general supervision of a dentist who is licensed pursuant to this chapter.

E. A dental hygienist may practice under the general supervision of a physician who is licensed pursuant to chapter 13 or 17 of this title in an inpatient hospital setting.

F. A dental hygienist may perform the following procedures on meeting the following criteria and under the following conditions:

1. Administering local anesthetics under the direct supervision of a dentist who is licensed pursuant to this chapter after:

(a) The dental hygienist successfully completes a course in administering local anesthetics that includes didactic and clinical components in both block and infiltration techniques offered by a dental or dental hygiene program accredited by the commission on dental accreditation of the American dental association.

(b) The dental hygienist successfully completes an examination in local anesthesia given by the western regional examining board or a written and clinical examination of another state or regional examination that is substantially equivalent to the requirements of this state, as determined by the board.

(c) The board issues to the dental hygienist a local anesthesia certificate on receipt of proof that the requirements of subdivisions (a) and (b) of this paragraph have been met.

2. Administering local anesthetics under general supervision to a patient of record if all of the following are true:

(a) The dental hygienist holds a local anesthesia certificate issued by the board.

(b) The patient is at least eighteen years of age.

(c) The patient has been examined by a dentist who is licensed pursuant to this chapter within the previous twelve months.

(d) There has been no change in the patient's medical history since the last examination. If there has been a change in the patient's medical history within that time, the dental hygienist must consult with the dentist before administering local anesthetics.

(e) The supervising dentist who performed the examination has approved the patient for being administered local anesthetics by the dental hygienist under general supervision and has documented this approval in the patient's record.

3. Administering nitrous oxide analgesia under the direct supervision of a dentist who is licensed pursuant to this chapter after:

(a) The dental hygienist successfully completes a course in administering nitrous oxide analgesia that includes didactic and clinical components offered by a dental or dental hygiene program accredited by the commission on dental accreditation of the American dental association.

(b) The board issues to the dental hygienist a nitrous oxide analgesia certificate on receipt of proof that the requirements of subdivision (a) of this paragraph have been met.

G. The board may issue local anesthesia and nitrous oxide analgesia certificates to a licensed dental hygienist on receipt of evidence satisfactory to the board that the dental hygienist holds a valid certificate or credential in good standing in the respective procedure issued by a licensing board of another jurisdiction of the United States.

H. A dental hygienist may perform dental hygiene procedures in the following settings:

1. On a patient of record of a dentist within that dentist's office.

2. Except as prescribed in section 32-1289.01, in a health care facility, long-term care facility, public health agency or institution, public or private school or homebound setting on patients who have been examined by a dentist within the previous year.

3. In an inpatient hospital setting pursuant to subsection E of this section.

I. A dental hygienist may provide dental hygiene services under an affiliated practice relationship with a dentist as prescribed in section 32-1289.01.

J. For the purposes of this article:

1. "Assessment" means a limited, clinical inspection that is performed to identify possible signs of oral or systemic disease, malformation or injury and the potential need for referral for diagnosis and treatment, and may include collecting clinical information to facilitate an examination, diagnosis and treatment plan by a dentist.

2. "Dental hygiene assessment" means identifying an existing or potential oral health problem that dental hygienists are educationally qualified and licensed to treat.

3. "Dental hygiene treatment planning" means performing a prioritized sequence of dental hygiene interventions that is predicated on the dental hygiene assessment and that is limited to those services included in the scope of practice for dental hygienists.

4. "Direct supervision" means that the dentist is present in the office while the dental hygienist is treating a patient and is available for consultation regarding procedures that the dentist authorizes and for which the dentist is responsible.

5. "General supervision" means:

(a) That the dentist is available for consultation, whether or not the dentist is in the dentist's office, over procedures that the dentist has authorized and for which the dentist remains responsible.

(b) With respect to an inpatient hospital setting, that a physician who is licensed pursuant to chapter 13 or 17 of this title is available for consultation, whether or not the physician is physically present at the hospital.

6. "Interim therapeutic restoration" means a provisional restoration that is placed to stabilize a primary or permanent tooth and that consists of removing soft material from the tooth using only hand instrumentation, without using rotary instrumentation, and subsequently placing an adhesive restorative material.

7. "Screening" means determining an individual's need to be seen by a dentist for diagnosis and does not include an examination, diagnosis or treatment planning.

32-1282. Administration and enforcement

A. So far as applicable, the board shall have the same powers and duties in administering and enforcing this article that it has under section 32-1207 in administering and enforcing articles 1, 2 and 3 of this chapter.

B. The board shall adopt rules that provide a method for the board to receive the assistance and advice of dental hygienists licensed pursuant to this chapter in all matters relating to the regulation of dental hygienists.

32-1283. Disposition of revenues

The provisions of section 32-1212 shall apply to all fees, fines and other revenues received by the board under this article.

32-1284. Qualifications of applicant; application; fee; fingerprint clearance card; rules; denial or suspension of application

A. An applicant for licensure as a dental hygienist shall be at least eighteen years of age, shall meet the requirements of section 32-1285 and shall present to the board evidence of graduation or a certificate of satisfactory completion in a course or curriculum in dental hygiene from a recognized dental hygiene school. A candidate shall make written application to the board accompanied by a nonrefundable Arizona dental jurisprudence examination fee of $100. The board shall waive this fee for candidates who are holders of valid restricted permits. Each candidate shall also obtain a valid fingerprint clearance card issued pursuant to section 41-1758.03.

B. The board shall adopt rules that govern the practice of dental hygienists and that are not inconsistent with this chapter.

C. The board may deny an application for licensure or an application for license renewal if the applicant:

1. Has committed an act that would be cause for censure, probation or suspension or revocation of a license under this chapter.

2. While unlicensed, committed or aided and abetted the commission of an act for which a license is required by this chapter.

3. Knowingly made any false statement in the application.

4. Has had a license to practice dental hygiene revoked by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under suspension or restriction by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dental hygiene instead of disciplinary action by a regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

D. The board shall suspend an application for a license if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue or deny a license to the applicant until the investigation is resolved.

32-1285. Applicants for licensure; examination requirements

An applicant for licensure shall have passed all of the following:

1. The national dental hygiene board examination.

2. A clinical examination administered by a state or regional testing agency in the United States within five years preceding filing the application.

3. The Arizona dental jurisprudence examination.

32-1286. Recognized dental hygiene schools; credit for prior learning

Notwithstanding any law to the contrary, a recognized dental hygiene school may grant advanced standing or credit for prior learning to a student who has prior experience or course work that the school determines is equivalent to didactic and clinical education in its accredited program.

32-1287. Dental hygienist triennial licensure; continuing education; license reinstatement; notice of change of address; penalties; retired and disabled license status

A. Except as provided in section 32-4301, a license expires thirty days after the licensee's birth month every third year. On or before the last day of the licensee's birth month every third year, every licensed dental hygienist shall submit to the board a complete renewal application and pay a license renewal fee of not more than $325, established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the amount of the fee shall be applied prospectively to a licensee at the time of licensure renewal. The fee prescribed by this section does not apply to a retired hygienist or a hygienist with a disability.

B. A licensee shall include a written affidavit with the renewal application that affirms that the licensee complies with board rules relating to continuing education requirements. A licensee is not required to complete the written affidavit if the licensee received an initial license within the year immediately preceding the expiration date of the license or the licensee is in disabled status. If the licensee is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the licensee includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the licensee's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the license expires thirty days after the licensee's birth month of the expiration year.

C. A person applying for a license for the first time in this state shall pay a prorated fee for the period remaining until the licensee's next birth month. This fee shall not exceed one-third of the fee established pursuant to subsection A of this section. Subsequent registrations shall be conducted pursuant to this section.

D. An expired license may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the license with payment of the renewal fee and a $100 penalty. Whenever issued, reinstatement is as of the date of application and entitles the applicant to licensure only for the remainder of the applicable three-year period. If a person does not reinstate a license pursuant to this subsection, the person must reapply for licensure pursuant to this chapter.

E. A licensee shall notify the board in writing within ten days after the licensee changes the primary mailing address listed with the board. The board shall impose a penalty of $50 if a licensee fails to notify the board of the change within that time. The board shall increase the penalty imposed to $100 if a licensee fails to notify it of the change within thirty days.

F. A licensee who is over sixty-five years of age and who is fully retired and a licensee who has a permanent disability may contribute services to a recognized charitable institution and still retain that classification for triennial registration purposes on payment of a reduced renewal fee as prescribed by the board by rule.

32-1288. Practicing without license; classification

It is a class 1 misdemeanor for a person to practice dental hygiene in this state unless the person has obtained a license from the board as provided in this article.

32-1289. Employment of dental hygienist by public agency, institution or school

A. A public health agency or institution or a public or private school authority may employ dental hygienists to perform necessary dental hygiene procedures under either direct or general supervision pursuant to section 32-1281.

B. A dental hygienist employed by or working under contract or as a volunteer for a public health agency or institution or a public or private school authority before an examination by a dentist may perform a screening or assessment and apply sealants and topical fluoride.

32-1289.01. Dental hygienists; affiliated practice relationships; rules; definition

A. A dentist who holds an active license pursuant to this chapter and a dental hygienist who holds an active license pursuant to this article may enter into an affiliated practice relationship to deliver dental hygiene services.

B. A dental hygienist shall satisfy all of the following to be eligible to enter into an affiliated practice relationship with a dentist pursuant to this section to deliver dental hygiene services in an affiliated practice relationship:

1. Hold an active license in good standing pursuant to this article.

2. Enter into an affiliated practice relationship with a dentist who holds an active license pursuant to this chapter.

3. Be actively engaged in dental hygiene practice for at least five hundred hours in each of the two years immediately preceding the affiliated practice relationship.

C. An affiliated practice agreement between a dental hygienist and a dentist shall be in writing and:

1. Shall identify at least the following:

(a) The affiliated practice settings in which the dental hygienist may deliver services pursuant to the affiliated practice relationship.

(b) The services to be provided and any procedures and standing orders the dental hygienist must follow. The standing orders shall include the circumstances in which a patient may be seen by the dental hygienist.

(c) The conditions under which the dental hygienist may administer local anesthesia and provide root planing.

(d) Circumstances under which the affiliated practice dental hygienist must consult with the affiliated practice dentist before initiating further treatment on patients who have not been seen by a dentist within twelve months after the initial treatment by the affiliated practice dental hygienist.

2. May include protocols for supervising dental assistants.

D. The following requirements apply to all dental hygiene services provided through an affiliated practice relationship:

1. Patients who have been assessed by the affiliated practice dental hygienist shall be directed to the affiliated practice dentist for diagnosis, treatment or planning that is outside the dental hygienist's scope of practice, and the affiliated practice dentist may make any necessary referrals to other dentists.

2. The affiliated practice dental hygienist shall consult with the affiliated practice dentist if the proposed treatment is outside the scope of the agreement.

3. The affiliated practice dental hygienist shall consult with the affiliated practice dentist before initiating treatment on patients presenting with a complex medical history or medication regimen.

4. The patient shall be informed in writing that the dental hygienist providing the care is a licensed dental hygienist and that the care does not take the place of a diagnosis or treatment plan by a dentist.

E. A contract for dental hygiene services with licensees who have entered into an affiliated practice relationship pursuant to this section may be entered into only by:

1. A health care organization or facility.

2. A long-term care facility.

3. A public health agency or institution.

4. A public or private school authority.

5. A government-sponsored program.

6. A private nonprofit or charitable organization.

7. A social service organization or program.

F. An affiliated practice dental hygienist may not provide dental hygiene services in a setting that is not listed in subsection E of this section.

G. Each dentist in an affiliated practice relationship shall:

1. Be available to provide an appropriate level of contact, communication and consultation with the affiliated practice dental hygienist during the business hours of the affiliated practice dental hygienist.

2. Adopt standing orders applicable to dental hygiene procedures that may be performed and populations that may be treated by the affiliated practice dental hygienist under the terms of the applicable affiliated practice agreement and to be followed by the affiliated practice dental hygienist in each affiliated practice setting in which the affiliated practice dental hygienist performs dental hygiene services under the affiliated practice relationship.

3. Adopt procedures to provide timely referral of patients referred by the affiliated practice dental hygienist to a licensed dentist for examination and treatment planning. If the examination and treatment planning is to be provided by the dentist, that treatment shall be scheduled in an appropriate time frame. The affiliated practice dentist or the dentist to whom the patient is referred shall be geographically available to see the patient.

4. Not permit the provision of dental hygiene services by more than six affiliated practice dental hygienists at any one time.

H. Each affiliated practice dental hygienist, when practicing under an affiliated practice relationship:

1. May perform only those duties within the terms of the affiliated practice relationship.

2. Shall maintain an appropriate level of contact, communication and consultation with the affiliated practice dentist.

3. Is responsible and liable for all services rendered by the affiliated practice dental hygienist under the affiliated practice relationship.

I. The affiliated practice dental hygienist and the affiliated practice dentist shall notify the board of the beginning of the affiliated practice relationship and provide the board with a copy of the agreement and any amendments to the agreement within thirty days after the effective date of the agreement or amendment. The affiliated practice dental hygienist and the affiliated practice dentist shall also notify the board within thirty days after the termination date of the affiliated practice relationship if this date is different than the agreement termination date.

J. Subject to the terms of the written affiliated practice agreement entered into between a dentist and a dental hygienist, a dental hygienist may:

1. Perform all dental hygiene procedures authorized by this chapter, except for performing any diagnostic procedures that are required to be performed by a dentist and administering nitrous oxide. The dentist's presence and an examination, diagnosis and treatment plan are not required unless specified by the affiliated practice agreement.

2. Supervise dental assistants, including dental assistants who are certified to perform functions pursuant to section 32-1291.

K. The board shall adopt rules regarding participation in affiliated practice relationships by dentists and dental hygienists that specify the following:

1. Additional continuing education requirements that must be satisfied by a dental hygienist.

2. Additional standards and conditions that may apply to affiliated practice relationships.

3. Compliance with the dental practice act and rules adopted by the board.

L. For the purposes of this section, "affiliated practice relationship" means the delivery of dental hygiene services, pursuant to an agreement, by a dental hygienist who is licensed pursuant to this article and who refers the patient to a dentist who is licensed pursuant to this chapter for any necessary further diagnosis, treatment and restorative care.

32-1290. Grounds for censure, probation, suspension or revocation of license; procedure

After a hearing pursuant to title 41, chapter 6, article 10, the board may suspend or revoke the license issued to a person under this article or censure or place on probation any such person for any of the causes set forth as grounds for censure, probation, suspension or revocation in section 32-1263.

32-1291. Dental assistants; regulation; duties

A. A dental assistant may expose radiographs for dental diagnostic purposes under either the general supervision of a dentist or the direct supervision of an affiliated practice dental hygienist licensed pursuant to this chapter if the assistant has passed an examination approved by the board.

B. A dental assistant may polish the natural and restored surfaces of the teeth under either the general supervision of a dentist or the direct supervision of an affiliated practice dental hygienist licensed pursuant to this chapter if the assistant has passed an examination approved by the board.

32-1291.01. Expanded function dental assistants; training and examination requirements; duties

A. A dental assistant may perform expanded functions after meeting one of the following:

1. Successfully completing a board-approved expanded function dental assistant training program at an institution accredited by the American dental association commission on dental accreditation and on successfully completing examinations in dental assistant expanded functions approved by the board.

2. Providing both:

(a) Evidence of currently holding or having held within the preceding ten years a license, registration, permit or certificate in expanded functions in restorative procedures issued by another state or jurisdiction in the United States.

(b) Proof acceptable to the board of clinical experience in the expanded functions listed in subsection B of this section.

B. Expanded functions include the placement, contouring and finishing of direct restorations or the placement and cementation of prefabricated crowns following the preparation of the tooth by a licensed dentist. The restorative materials used shall be determined by the dentist.

C. An expanded function dental assistant may place interim therapeutic restorations under the general supervision and direction of a licensed dentist following a consultation conducted through teledentistry.

D. An expanded function dental assistant may apply sealants and fluoride varnish under the general supervision and direction of a licensed dentist.

E. A licensed dental hygienist may engage in expanded functions pursuant to section 32-1281, subsection B, paragraph 13 following a course of study and examination equivalent to that required for an expanded function dental assistant as specified by the board.

32-1292. Restricted permits; suspension; expiration; renewal

A. The board may issue a restricted permit to practice dental hygiene to an applicant who:

1. Has a pending contract with a recognized charitable dental clinic or organization that offers dental hygiene services without compensation or at a rate that reimburses the clinic only for dental supplies and overhead costs and the applicant will not receive compensation for dental hygiene services provided at the clinic or organization.

2. Has a license to practice dental hygiene issued by a regulatory jurisdiction in the United States.

3. Has been actively engaged in the practice of dental hygiene for three years immediately preceding the application.

4. Is, to the board's satisfaction, competent to practice dental hygiene.

5. Meets the requirements of section 32-1284, subsection A that do not relate to examination.

B. A person who holds a restricted permit issued by the board may practice dental hygiene only in the course of the person's employment by a recognized charitable dental clinic or organization approved by the board.

C. The applicant for a restricted permit must file a copy of the person's employment contract with the board that includes a statement signed by the applicant that the applicant:

1. Understands that if that person's employment is terminated before the restricted permit expires, the permit is automatically revoked and that person must voluntarily surrender the permit to the board and is no longer eligible to practice unless that person meets the requirements of sections 32-1284 and 32-1285 or passes the examination required in this article.

2. Must be employed without compensation by a dental clinic or organization that is operated for a charitable purpose.

3. Is subject to the provisions of this chapter that apply to the regulation of dental hygienists.

D. The board may deny an application for a restricted permit if the applicant:

1. Has committed an act that is a cause for disciplinary action pursuant to this chapter.

2. While unlicensed, committed or aided and abetted the commission of any act for which a license is required pursuant to this chapter.

3. Knowingly made a false statement in the application.

4. Has had a license to practice dental hygiene revoked by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under suspension or restriction by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a license to practice dental hygiene instead of disciplinary action by a dental regulatory board in another jurisdiction in the United States for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

E. The board shall suspend an application for a restricted permit or an application for restricted permit renewal if the applicant is currently under investigation by a dental regulatory board in another jurisdiction. The board shall not issue or deny a restricted permit to the applicant until the investigation is resolved.

F. A restricted permit expires either one year after the date of issue or June 30, whichever date first occurs. The board may renew a restricted permit for terms that do not exceed one year.

32-1292.01. Licensure by credential; examinations; waiver; fee

A. The board by rule may waive the examination requirements of this article on receipt of evidence satisfactory to the board that the applicant has passed the clinical examination of another state or testing

agency more than five years before submitting an application for licensure pursuant to this chapter and the other state or testing agency maintains a standard of licensure that is substantially equivalent to that of this state as determined by the board. The board by rule shall require:

1. A minimum number of active practice hours within a specific time period before the applicant submits the application. The board shall define what constitutes active practice.

2. An affirmation that the applicant has completed the continuing education requirements of the jurisdiction where the applicant is licensed.

B. The applicant shall pay a licensure by credential fee of not more than one thousand dollars as prescribed by the board.

Article 5 Certification and Regulation of Denturists

32-1293. Practicing as denturist; denture technology; dental laboratory technician

A. Notwithstanding the provisions of section 32-1202, nothing in this chapter shall be construed to prohibit a denturist certified pursuant to the provisions of this article from practicing denture technology.

B. A person is deemed to be practicing denture technology who:

1. Takes impressions and bite registrations for the purpose of or with a view to the making, producing, reproducing, construction, finishing, supplying, altering or repairing of complete upper or lower prosthetic dentures, or both, or removable partial dentures for the replacement of missing teeth.

2. Fits or advertises, offers, agrees, or attempts to fit any complete upper or lower prosthetic denture, or both, or adjusts or alters the fit of any full prosthetic denture, or fits or adjusts or alters the fit of removable partial dentures for the replacement of missing teeth.

C. In addition to the practices described in subsection B of this section, a person certified to practice denture technology may also construct, repair, reline, reproduce or duplicate full or partial prosthetic dentures or otherwise engage in the activities of a dental laboratory technician.

D. No person may perform an act described in subsection B of this section except a licensed dentist, a holder of a restricted permit pursuant to section 32-1238, a certified denturist or auxiliary personnel authorized to perform any such act by rule or regulation of the board pursuant to section 32-1207, subsection A, paragraph 1.

32-1294. Supervision by dentist; definitions; mouth preparation by dentist; liability; business association

A. A denturist may practice only in the office of a licensed dentist, denominated as such.

B. All work by a denturist shall be performed under the general supervision of a licensed dentist. For the purposes of this section, "general supervision" means the dentist is available for consultation in person or by phone during the performance of the procedures by a denturist pursuant to section 32-1293, subsection B. The dentist shall examine the patient initially, check the completed denture as to fit, form and function and perform such other procedures as the board may specify by rule or regulation. For the

purposes of this section "completed denture" means a relined, rebased, duplicated or repaired denture or a new denture. Both the dentist and the denturist shall certify that the dentist has performed the initial examination and the final fitting as required in this subsection, and retain the certification in the patient's file.

C. When taking impressions or bite registrations for the purpose of constructing removable partial dentures or when checking the fit of a partial denture, all mouth preparation must be done by the dentist. The denturist is specifically prohibited from performing any cutting or surgery on hard or soft tissue in the mouth. By rule and regulation the board may further regulate the practice of the denturist in regard to removable partial dentures.

D. No more than two denturists may perform their professional duties under a dentist's general supervision at any one time.

E. A licensed dentist supervising a denturist shall be personally liable for any consequences arising from the performance of the denturist's duties.

F. A certified denturist and the dentist supervising his work may make any lawful agreement between themselves regarding fees, compensation and business association.

G. Any sign, advertisement or other notice displaying the name of the office must include the name of the responsible dentist.

32-1295. Board of dental examiners; additional powers and duties

A. In addition to other powers and duties prescribed by this chapter, the board shall:

1. As far as applicable, exercise the same powers and duties in administering and enforcing this article as it exercises under section 32-1207 in administering and enforcing other articles of this chapter.

2. Determine the eligibility of applicants for certification and issue certificates to applicants who it determines are qualified for certification.

3. Investigate charges of misconduct on the part of certified denturists.

4. Issue decrees of censure, fix periods and terms of probation, suspend or revoke certificates as the facts may warrant and reinstate certificates in proper cases.

B. The board may:

1. Adopt rules prescribing requirements for continuing education for renewal of all certificates issued pursuant to this article.

2. Hire consultants to assist the board in the performance of its duties.

C. In all matters relating to discipline and certifying of denturists and the approval of examinations, the board, by rule, shall provide for receiving the assistance and advice of denturists who have been previously certified pursuant to this chapter.

32-1296. Qualifications of applicant

A. To be eligible for certification to practice denture technology an applicant shall:

1. Hold a high school diploma or its equivalent.

2. Present to the board evidence of graduation from a recognized denturist school or a certificate of satisfactory completion of a course or curriculum in denture technology from a recognized denturist school.

3. Pass a board-approved examination.

B. A candidate for certification shall submit a written application to the board that includes a nonrefundable Arizona dental jurisprudence examination fee as prescribed by the board.

32-1297.01. Application for certification; fingerprint clearance card; denial; suspension

A. Each applicant for certification shall submit a written application to the board accompanied by a nonrefundable jurisprudence examination fee and obtain a valid fingerprint clearance card issued pursuant to section 41-1758.03.

B. The board may deny an application for certification or for certification renewal if the applicant:

1. Has committed any act that would be cause for censure, probation, suspension or revocation of a certificate under this chapter.

2. Has knowingly made any false statement in the application.

3. While uncertified, has committed or aided and abetted the commission of any act for which a certificate is required under this chapter.

4. Has had a certificate to practice denture technology revoked by a regulatory board in another jurisdiction in the United States or Canada for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

5. Is currently under investigation, suspension or restriction by a regulatory board in another jurisdiction in the United States or Canada for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

6. Has surrendered, relinquished or given up a certificate to practice denture technology in lieu of disciplinary action by a regulatory board in another jurisdiction in the United States or Canada for an act that occurred in that jurisdiction and that constitutes unprofessional conduct pursuant to this chapter.

C. The board shall suspend an application for certification if the applicant is currently under investigation by a denturist regulatory board in another jurisdiction. The board shall not issue or deny certification to the applicant until the investigation is resolved.

32-1297.03. Qualification for reexamination

An applicant for examination who has previously failed two or more examinations, as a condition of eligibility to take any further examination, shall furnish to the board satisfactory evidence of having successfully completed additional training in a recognized denturist school or refresher courses approved by the board or the board's testing agency.

32-1297.04. Fees

The board shall establish and collect fees, not to exceed the following amounts:

1. For an examination in jurisprudence, two hundred fifty dollars.

2. For each replacement or duplicate certificate, twenty-five dollars.

32-1297.05. Disposition of revenues

The provisions of section 32-1212 shall apply to all fees, penalties and other revenues received by the board under this article.

32-1297.06. Denturist certification; continuing education; certificate reinstatement; certificate for each place of practice; notice of change of address or place of practice; penalties

A. Except as provided in section 32-4301, a certification expires thirty days after the certificate holder's birth month every third year. On or before the last day of the certificate holder's birth month every third year, every certified denturist shall submit to the board a complete renewal application and shall pay a certificate renewal fee of not more than $300, established by a formal vote of the board. At least once every three years, before establishing the fee, the board shall review the amount of the fee in a public meeting. Any change in the amount of the fee shall be applied prospectively to a certificate holder at the time of certification renewal. This requirement does not apply to a retired denturist or to a denturist with a disability.

B. A certificate holder shall include a written affidavit with the renewal application that affirms that the certificate holder complies with board rules relating to continuing education requirements. A certificate holder is not required to complete the written affidavit if the certificate holder received an initial certification within the year immediately preceding the expiration date of the certificate or the certificate holder is in disabled status. If the certificate holder is not in compliance with board rules relating to continuing education, the board may grant an extension of time to complete these requirements if the certificate holder includes a written request for an extension with the renewal application instead of the written affidavit and the renewal application is received on or before the last day of the certificate holder's birth month of the expiration year. The board shall consider the extension request based on criteria prescribed by the board by rule. If the board denies an extension request, the certificate expires thirty days after the certificate holder's birth month of the expiration year.

C. A person applying for a certificate for the first time in this state shall pay a prorated fee for the period remaining until the certificate holder's next birth month. This fee shall not exceed one-third of the fee established pursuant to subsection A of this section. Subsequent certifications shall be conducted pursuant to this section.

D. An expired certificate may be reinstated by submitting a complete renewal application within the twenty-four-month period immediately following the expiration of the certificate with payment of the

renewal fee and a $100 penalty. Whenever issued, reinstatement is as of the date of application and entitles the applicant to certification only for the remainder of the applicable three-year period. If a person does not reinstate a certificate pursuant to this subsection, the person must reapply for certification pursuant to this chapter.

E. Each certificate holder must provide to the board in writing both of the following:

1. A primary mailing address.

2. The address for each place of practice.

F. A certificate holder maintaining more than one place of practice shall obtain from the board a duplicate certificate for each office. The board shall set and charge a fee for each duplicate certificate. A certificate holder shall notify the board in writing within ten days after opening an additional place of practice.

G. A certificate holder shall notify the board in writing within ten days after changing a primary mailing address or place of practice address listed with the board. The board shall impose a $50 penalty if a certificate holder fails to notify the board of the change within that time. The board shall increase the penalty imposed to $100 if a certificate holder fails to notify it of the change within thirty days.

32-1297.07. Discipline; procedure

A. After a hearing pursuant to title 41, chapter 6, article 10, the board may suspend or revoke the license issued to a person under this article or censure or place on probation any person for any of the causes set forth as grounds for censure, probation, suspension or revocation in section 32-1263.

B. The board on its own motion may investigate any evidence which appears to show the existence of any of the causes set forth in section 32-1263. The board shall investigate the report under oath of any person which appears to show the existence of any of the causes set forth in section 32-1263. Any person reporting pursuant to this section who provides the information in good faith shall not be subject to liability for civil damages as a result.

C. Except as provided in section 41-1092.08, subsection H, final decisions of the board are subject to judicial review pursuant to title 12, chapter 7, article 6.

32-1297.08. Injunction

A. An injunction shall issue to enjoin the practice of denture technology by any of the following:

1. One neither certified to practice as a denturist nor licensed to practice as a dentist.

2. One certified as a denturist from practicing without proper supervision by a dentist as required by this article.

3. A denturist whose continued practice will or might cause irreparable damage to the public health and safety prior to the time proceedings pursuant to section 32-1297.07 could be instituted and completed.

B. A petition for injunction shall be filed by the board in the superior court for Maricopa county or in the county where the defendant resides or is found. Any citizen is also entitled to obtain injunctive relief in any court of competent jurisdiction because of the threat of injury to the public health and welfare.

C. Issuance of an injunction shall not relieve the respondent from being subject to any other proceedings provided for by law.

32-1297.09. Violations; classification

A person is guilty of a class 2 misdemeanor who:

1. Not licensed as a dentist, practices denture technology without certification as provided by this article.

2. Exhibits or displays a certificate, diploma, degree or identification of another or a forged or fraudulent certificate, diploma, degree or identification with the intent that it be used as evidence of the right of such person to practice as a denturist in this state.

3. Fails to obey a summons or other order regularly and properly issued by the board.

4. Is a licensed dentist responsible for a denturist under this article who fails to personally supervise the work of the denturist.

Article 6 Dispensing of Drugs and Devices

32-1298. Dispensing of drugs and devices; conditions; definition

A. A dentist may dispense drugs, except schedule II controlled substances that are opioids, and devices kept by the dentist if:

1. All drugs and devices are dispensed in packages labeled with the following information:

(a) The dispensing dentist's name, address and telephone number.

(b) The date the drug or device is dispensed.

(c) The patient's name.

(d) The name and strength of the drug or device, directions for its use and any cautionary statements required by law.

2. The dispensing dentist enters into the patient's dental record the name and strength of the drug or device dispensed, the date the drug or device is dispensed and the therapeutic reason.

3. The dispensing dentist keeps all drugs and devices in a locked cabinet or room, controls access to the cabinet or room by a written procedure and maintains an ongoing inventory of its contents.

B. Before dispensing a drug or device pursuant to this section, the patient shall be given a written prescription on which appears the following statement in bold type: "This prescription may be filled by the prescribing dentist or by a pharmacy of your choice."

C. A dentist shall dispense for profit only to the dentist's own patient and only for conditions being treated by that dentist. The dentist shall provide direct supervision of an attendant involved in the dispensing

process. For the purposes of this subsection, "direct supervision" means that a dentist is present and makes the determination as to the legitimacy or advisability of the drugs or devices to be dispensed.

D. This section shall be enforced by the board, which shall establish rules regarding labeling, recordkeeping, storage and packaging of drugs and devices that are consistent with the requirements of chapter 18 of this title. The board may conduct periodic inspections of dispensing practices to ensure compliance with this section and applicable rules.

E. For the purposes of this section, "dispense" means the delivery by a dentist of a prescription drug or device to a patient, except for samples packaged for individual use by licensed manufacturers or repackagers of drugs or devices, and includes the prescribing, administering, packaging, labeling and security necessary to prepare and safeguard the drug or device for delivery.

Article 7 Rehabilitation

32-1299. Substance abuse treatment and rehabilitation program; private contract; funding; confidential stipulation agreement

A. The board may establish a confidential program for the treatment and rehabilitation of dentists, dental therapists, denturists and dental hygienists who are impaired by alcohol or drug abuse. This program shall include education, intervention, therapeutic treatment and posttreatment monitoring and support.

B. The board may contract with other organizations to operate the program established pursuant to this section. A contract with a private organization shall include the following requirements:

1. Periodic reports to the board regarding treatment program activity.

2. Release to the board on demand of all treatment records.

3. Periodic reports to the board regarding each dentist's, dental therapist's, denturist's or dental hygienist's diagnosis and prognosis and recommendations for continuing care, treatment and supervision.

4. Immediate reporting to the board of the name of an impaired practitioner whom the treating organization believes to be a danger to self or others.

5. Immediate reporting to the board of the name of a practitioner who refuses to submit to treatment or whose impairment is not substantially alleviated through treatment.

C. The board may allocate an amount of not more than twenty dollars annually or sixty dollars triennially from each fee it collects from the renewal of active licenses for the operation of the program established by this section.

D. A dentist, dental therapist, denturist or hygienist who, in the opinion of the board, is impaired by alcohol or drug abuse shall agree to enter into a confidential nondisciplinary stipulation agreement with the board. The board shall place a licensee or certificate holder on probation if the licensee or certificate holder refuses to enter into a stipulation agreement with the board and may take other action as provided by law. The board may also refuse to issue a license or certificate to an applicant if the applicant refuses to enter into a stipulation agreement with the board.

E. In the case of a licensee or certificate holder who is impaired by alcohol or drug abuse after completing a second monitoring program pursuant to a stipulation agreement under subsection D of this section, the board shall determine whether:

1. To refer the matter for a formal hearing for the purpose of suspending or revoking the license or certificate.

2. The licensee or certificate holder should be placed on probation for a minimum of one year with restrictions necessary to ensure public safety.

3. To enter into another stipulation agreement under subsection D of this section with the licensee or certificate holder.

Article 8 Mobile Dental Facilities and Portable Dental Units

32-1299.21. Definitions

In this article, unless the context otherwise requires:

1. "Mobile dental facility" means a facility in which dentistry is practiced and that is routinely towed, moved or transported from one location to another.

2. "Permit holder" means a dentist, dental hygienist, denturist or registered business entity that is authorized by this chapter to offer dental services in this state or a nonprofit organization, school district or school or institution of higher education that may employ a licensee to provide dental services and that is authorized by this article to operate a mobile dental facility or portable dental unit.

3. "Portable dental unit" means a nonfacility in which dental equipment used in the practice of dentistry is transported to and used on a temporary basis at an out-of-office location.

32-1299.22. Mobile dental facilities; portable dental units; permits; exceptions

A. Beginning January 1, 2012, every mobile dental facility and, except as provided in subsection B, every provider, program or entity using portable dental units in this state must obtain a permit pursuant to this article.

B. A licensee who does not hold a permit for a mobile dental facility or portable dental unit may provide dental services if:

1. Occasional services are provided to a patient of record of a fixed dental office who is treated outside of the dental office.

2. Services are provided by a federal, state or local government agency.

3. Occasional services are performed outside of the licensee's office without charge to a patient or a third party.

4. Services are provided to a patient by an accredited dental or dental hygiene school.

5. The licensee holds a valid permit to provide mobile dental anesthesia services.

6. The licensee is an affiliated practice dental hygienist.

32-1299.23. Permit application; fees; renewal; notification of changes

A. An individual or entity that seeks a permit to operate a mobile dental facility or portable dental unit must submit an application on a form provided by the board and pay an annual registration fee prescribed by the board by rule. The permit must be renewed annually not later than the last day of the month in which the permit was issued. Permits not renewed by the expiration date are subject to a late fee as prescribed by the board by rule.

B. A permit holder shall notify the board of any change in address or contact person within ten days after that change. The board shall impose a penalty as prescribed by the board by rule if the permit holder fails to notify the board of that change within that time.

C. If ownership of the mobile dental facility or portable dental unit changes, the prior permit is invalid and a new permit application must be submitted.

32-1299.24. Standards of operation and practice

A. A permit holder must:

1. Comply with all applicable federal, state and local laws, regulations and ordinances dealing with radiographic equipment, flammability, sanitation, zoning and construction standards, including construction standards relating to required access for persons with disabilities.

2. Establish written protocols for follow-up care for patients who are treated in a mobile dental facility or through a portable dental unit. The protocols must include referrals for treatment in a dental office that is permanently established within a reasonable geographic area and may include follow-up care by the mobile dental facility or portable dental unit.

3. Ensure that each mobile dental facility or portable dental unit has access to communication equipment that will enable dental personnel to contact appropriate assistance in an emergency.

4. Identify a person who is licensed pursuant to this chapter, who is responsible to supervise treatment and who, if required by law, will be present when dental services are rendered. This paragraph does not prevent supervision by a dentist providing services or supervision pursuant to the exceptions prescribed in section 32-1231.

5. Display in or on the mobile dental facility or portable dental unit a current valid permit issued pursuant to this article in a manner that is readily observable by patients or visitors.

6. Provide a means of communication during and after business hours to enable the patient or the parent or guardian of a patient to contact the permit holder of the mobile dental facility or portable dental unit for emergency care, follow-up care or information about treatment received.

7. Comply with all requirements for maintenance of records pursuant to section 32-1264 and all other statutory requirements applicable to health care providers and patient records. All records, whether in

paper or electronic form, if not in transit, must be maintained in a permanent, secure facility. Records of prior treatment must be readily available during subsequent treatment visits whenever practicable.

8. Ensure that all dentists, dental hygienists and denturists working in the mobile dental facility or portable dental unit hold a valid, current license issued by the board and that all delegated duties are within their respective scopes of practice as prescribed by the applicable laws of this state.

9. Maintain a written or electronic record detailing each location where services are provided, including:

(a) The street address of the service location.

(b) The dates of each session.

(c) The number of patients served.

(d) The types of dental services provided and the quantity of each service provided.

10. Provide to the board or its representative within ten days after a request for a record the written or electronic record required pursuant to paragraph 9 of this subsection.

11. Comply with current recommended infection control practices for dentistry as published by the national centers for disease control and prevention and as adopted by the board.

B. A mobile dental facility or portable dental unit must:

1. Contain equipment and supplies that are appropriate to the scope and level of treatment provided.

2. Have ready access to an adequate supply of potable water.

C. A permit holder or licensee who fails to comply with applicable statutes and rules governing the practice of dentistry, dental hygiene and denturism, the requirements for registered business entities or the requirements of this article is subject to disciplinary action for unethical or unprofessional conduct, as applicable.

32-1299.25. Informed consent; information for patients

A. The permit holder of a mobile dental facility or portable dental unit must obtain appropriate informed consent, in writing or by verbal communication, that is recorded by an electronic or digital device from the patient or the parent or guardian of the patient authorizing specific treatment before it is performed. The signed consent form or verbal communication shall be maintained as part of the patient's record as required in section 32-1264.

B. If services are provided to a minor, the signed consent form or verbal communication must inform the parent or guardian that the treatment of the minor by the mobile dental facility or portable dental unit may affect future benefits the minor may receive under private insurance, the Arizona health care cost containment system or the children's health insurance program.

C. At the conclusion of each patient's visit, the permit holder of a mobile dental facility or portable dental unit shall provide each patient with an information sheet that must contain:

1. Pertinent contact information as required by this section.

2. The name of the dentist or dental hygienist, or both, who provided services.

3. A description of the treatment rendered, including billed service codes, fees associated with treatment and tooth numbers if appropriate.

4. If necessary, referral information to another dentist as required by this article.

D. If the patient or the minor patient's parent or guardian has provided written consent to an institutional facility to access the patient's dental health records, the permit holder shall provide the institution with a copy of the information sheet provided in subsection C.

32-1299.26. Disciplinary actions; cessation of operation

A. A permit holder for a mobile dental facility or portable dental unit that provides dental services to a patient shall refer the patient for follow-up treatment with a licensed dentist or the permit holder if treatment is clinically indicated. A permit holder or licensee who fails to comply with this subsection commits an act of unprofessional conduct or unethical conduct and is subject to disciplinary action pursuant to section 32-1263, subsection A, paragraph 1 or subsection C.

B. The board may do any of the following pursuant to its disciplinary procedures if a mobile dental facility or portable dental unit violates any statute or board rule:

1. Refuse to issue a permit.

2. Suspend or revoke a permit.

3. Impose a civil penalty of not more than two thousand dollars for each violation.

C. If a mobile dental facility or portable dental unit ceases operations, the permit holder must notify the board within thirty days after the last day of operation and must report on the disposition of patient records and charts. In accordance with applicable laws and rules, the permit holder must also notify all active patients of the disposition of records and make reasonable arrangements for the transfer of patient records, including copies of radiographs, to a succeeding practitioner or, if requested, to the patient. For the purposes of this subsection, "active patient" means any person whom the permit holder has examined, treated, cared for or consulted with during the two year period before the discontinuation of practice.

STATE BOARD OF DENTAL EXAMINERS
Title 4, Chapter 11, Articles 1 & 6

Amend: R4-11-102

Repeal: R4-11-604; R4-11-605; R4-11-606; R4-11-607

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - REGULAR RULEMAKING

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 13, 2025

SUBJECT: **STATE BOARD OF DENTAL EXAMINERS**
Title 4, Chapter 11, Articles 1 & 6

Amend: R4-11-102

Repeal: R4-11-604; R4-11-605; R4-11-606; R4-11-607

Summary:

This regular rulemaking from the State Board of Dental Examiners (Board) seeks to amend one (1) rule and repeal four (4) rules in Title 4, Chapter 11, Articles 1 and 6 regarding Definitions and Licensee Participation and Dental Hygienists, respectively. Specifically, the Board indicates it needs to amend its rules to allow all dental professionals to provide assistance and advice to the Board.

The Board states it currently has an outdated process by which an advisory committee would provide recommendations to the Board, but only as it relates to the dental hygiene profession. The Board does not believe keeping this committee is the best use of government, and therefore, believes these repeals are far better than keeping rules in place for the sake of mission creep. The Board states, unless these rule amendments are made, it will continue to operate against a set of rules that are unnecessary, burdensome and have worn out the need to exist.

Furthermore, the Board indicates it will be non-compliant with the Auditor General's findings, which then may require the Legislature to act if the Board fails to meet its statutory obligation of promulgating rules consistent with its statutes. The Auditor General's office found two other statutes having similar language that the Board adopt rules providing a method for them to receive assistance and advice. The Board believes that these rule changes allow them to receive assistance and advice from *all* dental professions, rather than just dental hygienists.

1. Are the rules legal, consistent with legislative intent, and within the agency's statutory authority?

The Board cites both general and specific statutory authority for these rules.

2. Do the rules establish a new fee or contain a fee increase?

This rulemaking does not establish a new fee or contain a fee increase.

3. Does the preamble disclose a reference to any study relevant to the rules that the agency reviewed and either did or did not rely upon?

The Board indicates it did not review any study relevant to this rulemaking.

4. Summary of the agency's economic impact analysis:

The Board indicates it needs to amend its rules to repeal outdated and unnecessary rules. The Board believes these repeals will also bring more transparency and offers all dental professions an opportunity to meet with the Board to provide advice or assistance. The Board states that intentionally, the persons directly affected by, bear the cost of, or directly benefit from the rulemaking are one and the same – the Board's licensees.

5. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Board believes that by amending its rules this will benefit the dental community and the public they serve.

6. What are the economic impacts on stakeholders?

The Board indicates there is little to no economic, small business, or consumer impact other than the cost to the Board to prepare the rule package, because the rulemaking simply clarifies statutory requirements that already exist. The Board states there are no costs related to this rulemaking and the benefit is that all dental professions may now offer advice and assistance to the Board.

7. Are the final rules a substantial change, considered as a whole, from the proposed rules and any supplemental proposals?

The Board indicates there were no changes between the Notice of Supplemental Proposed Rulemaking published in the Administrative Register on November 29, 2024 and the Notice of Final Rulemaking now before the Council for consideration.

8. Does the agency adequately address the comments on the proposed rules and any supplemental proposals?

The Board indicates it received no public comments related to this rulemaking.

9. Do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

Here, the Board indicates it issues general permits to licensees who meet the criteria established in statute and rule. Council staff believes the Department is in compliance with A.R.S. § 41-1037.

10. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Board indicates there is no corresponding federal law.

11. Conclusion

This regular rulemaking from the Board seeks to amend one (1) rule and repeal four (4) rules in Title 4, Chapter 11, Articles 1 and 6 regarding Definitions and Licensee Participation and Dental Hygienists, respectively. The Board states it currently has an outdated process by which an advisory committee would provide recommendations to the Board, but only as it relates to the dental hygiene profession. The Board believes that these rule changes allow them to receive assistance and advice from all dental professions, rather than just dental hygienists.

The Board is seeking the standard 60-day delayed effective date pursuant to A.R.S. § 41-1032(A).

Council staff recommends approval of this rulemaking.

Arizona State Board of Dental Examiners

Ms. Jessica Klein, Chair
The Governor's Regulatory Review Council
100 North 15th Avenue, Ste. 402
Phoenix, AZ 85007

Re: A.A.C. Title 4. Professions and Occupations, Chapter 11. State Board of Dental Examiners – Advice and Assistance NFR

Dear Ms. Klein:

The attached final rule package is submitted for review and approval by the Council. The following information is provided for Council's use in reviewing the rule package:

1. Close of record date: The rulemaking record was closed on January 27, 2025 following a period for public comment and an oral proceeding.
2. Relation of the rulemaking to a five-year-review report: This rulemaking does not relate to a Five-Year Review Report.
3. New fee or fee increase: This rulemaking does not establish a new fee or increase an existing fee.
4. Immediate effective date: An immediate effective date is not requested.
5. Certification regarding studies: I certify that the Board did not rely on any studies for this rulemaking.
8. Certification that the preparer of the EIS notified the JLBC of the number of new full-time employees necessary to implement and enforce the rule: I certify that the rules in this rulemaking will not require a state agency to employ a new full-time employee. Therefore, no notification was required to be provided to JLBC.
9. List of documents enclosed:
    a. Cover letter signed by the Board's Executive Director;
    b. Notice of Final Rulemaking including the preamble, table of contents for the rulemaking, and rule text; and
    c. Economic, Small Business, and Consumer Impact Statement.

Sincerely,

Ryan Edmonson
Executive Director

The Americans with Disabilities Act: Persons with disabilities may request reasonable accommodations, such as sign language interpreters. Requests should be made as early as possible to allow time to arrange the accommodation. This document is available in alternative format upon request.

NOTICE OF FINAL RULEMAKING

TITLE 4. PROFESSIONS AND OCCUPATIONS

CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

PREAMBLE

1. Permission to proceed with this supplemental proposed rulemaking was granted under A.R.S. § 41-1039 by the governor on:

February 22, 2024

2. Article, Part, or Section Affected (as applicable)	**Rulemaking Action**
R4-11-102	Amend
R4-11-604	Repeal
R4-11-605	Repeal
R4-11-606	Repeal
R4-11-607	Repeal

3. Citations to the agency's statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):

Authorizing statute:	A.R.S. § 32-1207
Implementing statutes:	A.R.S. §§ 32-1201 et seq.

4. The effective date of the rule:

This rule shall become effective 60 days after a certified original and preamble are filed in the Office of the Secretary of State pursuant to A.R.S. § 41-1032(A). The effective date is XX.

a. If the agency selected a date earlier than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):

N/A

b. If the agency selected a date later than the 60-day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason the agency selected the later effective date as provided in A.R.S. § 41-1032(B):

N/A

5. Citations to all related notices published in the *Register* as specified in R1-1-409(A) that pertain to the current record of the supplemental proposed rule:

Notice of Rulemaking Docket Opening: 30 A.A.R. 2718, August 30, 2024, Issue 35, File R24-163

Notice of Proposed Rulemaking: 30 A.A.R. 2671, August 30, 2024, Issue 35, File R24-158

Notice of Supplemental Proposed Rulemaking: 30 A.A.R. 3654, November 29, 2024, Issue 48, File R24-257

6. The agency's contact person who can answer questions about the rulemaking:

Name: Ryan Edmonson, Executive Director

Address: Arizona State Board of Dental Examiners
1740 W. Adams St., Ste. 2470
Phoenix, AZ 85007

Telephone: (602) 542-4493

E-Mail: ryan.edmonson@dentalboard.az.gov

Website: https://dentalboard.az.gov/home

7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The Board needs to amend its rules to allow all dental professionals to provide assistance and advice to the Board.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

N/A

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision:

N/A

10. A summary of the economic, small business, and consumer impact:

There is little to no economic, small business, or consumer impact, other than the cost to the Board to prepare the rule package, because the rulemaking simply clarifies statutory requirements that already exist. This rulemaking simply clarifies how dental professionals may provide assistance and advice to the Board.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

N/A

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

The Board held an Oral Proceeding on January 27, 2025 for the Notice of Supplemental Proposed Rulemaking but did not receive any additional comments.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

None

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Board issues general permits to licensees who meet the criteria established in statute and rule.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

N/A

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

N/A

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

N/A

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the *Register* as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

N/A

16. The full text of the rules follows:

Rule text begins on the next page.

CHAPTER 11. BOARD OF DENTAL EXAMINERS

ARTICLE 1. DEFINITIONS AND LICENSEE PARTICIPATION

Section

ARTICLE 6. DENTAL HYGIENISTS

TITLE 4. PROFESSIONS AND OCCUPATIONS

CHAPTER 11. BOARD OF DENTAL EXAMINERS

ARTICLE 1. DEFINITIONS AND LICENSEE PARTICIPATION

R4-11-102. ~~Renumbered~~ Licensee Participation

At least once per year, the Board shall provide an opportunity for any Licensee, Certificate Holder, or Business Entity to provide advice and/or assistance to the Board during a public meeting of the Board as indicated on the Board's meeting agendas.

ARTICLE 6. DENTAL HYGIENISTS

R4-11-604. ~~Selection Committee and Process~~ Repealed

~~**A.** The Board shall appoint a selection committee to screen candidates for the dental hygiene committee. The selection committee consists of three members. The Board shall appoint at least two members who are dental hygienists and one member who is a current Board member. The Board shall fill any vacancy for the unexpired portion of the term.~~

~~**B.** Each selection committee member's term is one year.~~

~~**C.** By majority vote, the selection committee shall nominate each candidate for the dental hygiene committee and transmit a list of names to the Board for approval, including at least one alternate.~~

R4-11-605. ~~Dental Hygiene Committee~~ Repealed

~~**A.** The Board shall appoint seven members to the dental hygiene committee as follows:~~

~~1. One dentist appointed at the annual December Board meeting, currently serving as a Board member, for a one year term;~~

~~2. One dental hygienist appointed at the annual December Board meeting, currently serving as a Board member and possessing the qualifications required in Article 6, for a one-year term;~~

~~3. Four dental hygienists that possess the qualifications required in Article 6; and~~

~~4. One lay person.~~

~~**B.** Except for members appointed as prescribed in subsections (A)(1) and (2), the Board shall appoint dental hygiene committee members for staggered terms of three years, beginning January 1, 1999, and limit each member to two consecutive terms. The Board shall fill any vacancy for the unexpired portion of the term.~~

~~C.~~ ~~The dental hygiene committee shall annually elect a chairperson at the first meeting convened during the calendar year.~~

R4-11-606. ~~Candidate Qualifications and Submissions~~ Repealed

~~A.~~ ~~A dental hygienist who seeks membership on the dental hygiene committee shall possess a license in good standing, issued by the Board.~~

~~B.~~ ~~A dental hygienist who is not a Board member and qualifies under subsection (A) shall submit a letter of intent and resume to the Board.~~

~~C.~~ ~~The selection committee shall consider all of the following criteria when nominating a candidate for the dental hygiene committee:~~

~~1. Geographic representation,~~

~~2. Experience in postsecondary curriculum analysis and course development,~~

~~3. Public health experience, and~~

~~4. Dental hygiene clinical experience.~~

R4-11-607. ~~Duties of the Dental Hygiene Committee~~ Repealed

~~A.~~ ~~The committee shall advise the Board on all matters relating to the regulation of dental hygienists.~~

~~B.~~ ~~In performing the duty in subsection (A), the committee may:~~

~~1. Act as a liaison for the Board, promoting communication and providing a forum for discussion of dental hygiene regulatory issues;~~

~~2. Review applications, syllabi, and related materials and make recommendations to the Board regarding certification of courses in Local Anesthesia, Nitrous Oxide Analgesia, and suture placement under Article 6 and other procedures which may require certification under Article 6;~~

~~3. Review documentation submitted by dental hygienists to determine compliance with the continuing education requirement for license renewal under Article 12 and make recommendations to the Board regarding compliance;~~

~~4. Make recommendations to the Board concerning statute and rule development which affect dental hygienists' education, licensure, regulation, or practice;~~

~~5. Provide advice to the Board on standards and scope of practice which affect dental hygiene practice;~~

~~6. Provide ad hoc committees to the Board upon request;~~

7. Request that the Board consider recommendations of the committee at the next regularly scheduled Board meeting; and

8. Make recommendations to the Board for approval of dental hygiene consultants.

C. Committee members who are licensed dentists or dental hygienists may serve as dental hygiene examiners or Board consultants.

D. The committee shall meet at least two times per calendar year. The chairperson or the president of the Board, or their respective designees, may call a meeting of the committee.

E. The Board may assign additional duties to the committee.

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT
TITLE 4. PROFESSIONS AND OCCUPATIONS
CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

1. Identification of the rulemaking:

   The Arizona State Board of Dental Examiners ("Board") needs to amend its rules to repeal outdated and unnecessary rules. These repeals will also bring more transparency and offers all dental professions an opportunity to meet with the Board to provide advice and/or assistance.

   a. The conduct and its frequency of occurrence that the rule is designed to change:

      The Board currently has an outdated process by which an advisory committee would provide recommendations to the Board, but only as it relates to the dental hygiene profession. It's been said that the reason why this advisory committee was created was to prevent the Legislature from creating a separate dental hygiene board. Since the inception of this committee, the need to change its priorities has changed to meet the needs of the current day. The Board does not believe keeping this committee is the best use of government, and therefore, believes these repeals are far better than keeping rules in place for the sake of mission creep.

   b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

      Unless these rule amendments are made, the Board will continue to operate against a set of rules that are unnecessary, burdensome and have worn out the need to exist. Furthermore, the Board will be non-compliant with the Auditor General's findings, which then may require the Legislature to act if the Board fails to meet its statutory obligation of promulgating rules consistent with its statutes. The Auditor General's office found two other statutes having similar language that the Board adopt rules providing a method for them to receive assistance and advice. The Board believes that these rule changes allow them to receive assistance and advice from *all* dental professions.

   c. The estimated change in frequency of the targeted conduct expected from the rule change:

      As stated in the rulemaking, this would occur at least once per year.

2. A brief summary of the information included in the economic, small business, and consumer impact statement:

As part of its statutory obligations, the Auditor General's Office conducted its Performance Audit and Sunset Review of the Board and finalized that report on September 29, 2022. Of the findings reported, one was that the Board had three statutory references that required the Board to create rules seeking assistance and advice from three of the Board's six professions. In two failed statutory attempts at repealing the statutes, the Board elected to work with the stakeholders and come to a consensus on how the Board should receive assistance and advice. The conclusion was to repeal the rules regarding the existing committee and its subsequent rules and to create a more thorough rule for *all* dental professions.

3. The person to contact to submit or request additional data on the information included in the economic, small business, and consumer impact statement:

Name:	Ryan Edmonson, Executive Director
Address:	Arizona State Board of Dental Examiners
	1740 W. Adams St., Ste. 2470
	Phoenix, AZ 85007
Telephone:	(602) 542-4493
E-Mail:	ryan.edmonson@dentalboard.az.gov

4. Persons who will be directly affected by, bear the costs of, or directly benefit from the rulemaking:

Intentionally, the persons directly affected by, bear the costs of or directly benefit from the rulemaking are one and the same – the Board's licensees. For purposes of this EIS, licensee shall have the same meaning for all the Board's regulated professionals. All revenue received is used to license and regulate the dental profession in the State of Arizona. The Board's licensees obtain higher education degrees to be able to procure professional licenses and maintain them to practice in their respective dental professions. Therefore, and in an effort to avoid diminishing their value, or the value of the education they paid to receive, a license to practice is awarded. While the Board is keenly aware that they are a health board who licenses and regulates a health profession, they also understand their obligation to oversee its operations and to periodically review their fees to operate a zero-base budget.

Having said that, the Board does *not* anticipate any costs associated with this rulemaking, but believes that all its dental professions will benefit from opportunities to share advice and offer assistance.

5. Cost-benefit analysis:
    a. Costs and benefits to state agencies directly affected by the rulemaking including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:
    The Board is the only state agency affected by the rulemaking amendment and there will *not* be any costs, including the hiring of more personnel to manage the effects of the amendment.
    b. Costs and benefits to political subdivisions directly affected by the rulemaking:
    N/A
    c. Costs and benefits to businesses directly affected by the rulemaking:
    No new costs will be incurred to businesses. In fact, this does not even affect the Board's business entity registration fees.

6. Impact on private and public employment:
    N/A

7. Impact on small businesses:
    a. Identification of the small business subject to the rulemaking:
    There is no financial impact to small businesses. The beneficial impact is that now all dental professions, including dental practices, have an opportunity to provide advice and offer assistance to the dental board.

    b. Administrative and other costs required for compliance with the rulemaking:
    Negligible

    c. Description of methods that may be used to reduce the impact on small businesses:
    There are no costs to small businesses with this rulemaking.

/ / /

/ / /

/ / /

8. Cost and benefit to private persons and consumers who are directly affected by the rulemaking:
   There are no costs related to this rulemaking and the benefit is that all dental professions may now offer advice and assistance to the dental board.

9. Probable effects on state revenues:
   No new expenses are expected at this time. However, all revenue received by the Board is shared with the State's general fund.

10. Less intrusive or less costly alternative methods considered:
    The Board believes that by amending its rules this will be a benefit the dental community and the public they serve.

ARTICLE 1. DEFINITIONS

R4-11-101. Definitions

The following definitions, and definitions in A.R.S. § 32-1201, apply to this Chapter:

"Analgesia" means a state of decreased sensibility to pain produced by using nitrous oxide and oxygen with or without Local Anesthesia.

"Business Entity" means a business organization that offers to the public professional services regulated by the Board and is established under the laws of any state or foreign country, including a sole practitioner, partnership, limited liability partnership, corporation, and limited liability company, unless specifically exempted by A.R.S. § 32-1213(J).

"Calculus" means a hard, mineralized deposit attached to the teeth.

"Charitable Dental Clinic or Organization" means a non-profit organization meeting the requirements of 26 U.S.C. 501(c)(3) and providing dental, dental therapy, or dental hygiene services.

"Clinical evaluation" means a dental examination of a patient named in a complaint regarding the patient's dental condition as it exists at the time the examination is performed.

"Controlled substance" has the meaning prescribed in A.R.S. § 36-2501(A)(3).

"Credit hour" means one clock hour of participation in a Recognized Continuing Dental Education program.

"Deep sedation" is a Drug-induced depression of consciousness during which a patient cannot be easily aroused but responds purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. The patient may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is maintained.

"Dentist of record" means a dentist who examines, diagnoses, and formulates treatment plans for a patient and may provide treatment to the patient.

"Direct supervision" means, for purposes of Article 7 only, that a licensed dentist is present in the office and available to provide immediate treatment or care to a patient and observe a dental assistant's work.

"Disabled" means a dentist, dental therapist, dental hygienist, or denturist has totally withdrawn from the active practice of dentistry, dental therapy, dental hygiene, or denturism due to a permanent medical disability and based on a physician's order.

"Documentation of attendance" means documents that contain the following information:

Name of sponsoring entity;
Course title;
Number of Credit Hours;
Name of speaker; and
Date, time, and location of the course.

"Drug" means:

Articles recognized, or for which standards or specifications are prescribed, in the official compendium;

Articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in the human body;

Articles other than food intended to affect the structure of any function of the human body; or

Articles intended for use as a component of any articles specified in this definition but does not include devices or components, parts, or accessories of devices.

"Emerging scientific technology" means any technology used in the treatment of oral disease that is not currently generally accepted or taught in a recognized dental, dental therapy, or dental hygiene school and use of the technology poses material risks.

"Epithelial attachment" means the layer of cells that extends apically from the depth of the gingival sulcus along the tooth, forming an organic attachment.

"Ex-parte communication" means a written or oral communication between a decision maker, fact finder, or Board member and one party to the proceeding, in the absence of other parties.

"General anesthesia" is a Drug-induced loss of consciousness during which the patient is not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. The patient often requires assistance in maintaining a patent airway, and positive-pressure ventilation may be required because of depressed spontaneous ventilation or Drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.

"General supervision" means, for purposes of Article 7 only, a licensed dentist is available for consultation, whether or not the dentist is in the office, regarding procedures or treatment that the dentist authorizes and for which the dentist remains responsible.

"Homebound patient" means a person who is unable to receive dental care in a dental office as a result of a medically diagnosed disabling physical or mental condition.

"Irreversible procedure" means a single treatment, or a step in a series of treatments, that causes change in the affected hard or soft tissues and is permanent or may require reconstructive or corrective procedures to correct the changes.

"Licensee" means a dentist, dental therapist, dental hygienist, dental consultant, retired licensee, or person who holds a restricted permit under A.R.S. §§ 32-1237 or 32-1292.

"Local anesthesia" is the elimination of sensations, such as pain, in one part of the body by the injection of an anesthetic Drug.

"Minimal sedation" is a minimally depressed level of consciousness that retains a patient's ability to independently and continuously maintain an airway and respond appropriately to light tactile stimulation, not limited to reflex withdrawal from a painful stimulus, or verbal command and that is produced by a pharmacological or non-pharmacological method or a combination thereof. Although cognitive function and coordination may be modestly impaired, ventilatory and cardiovascular functions are unaffected. In accord with this particular definition, the Drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely.

"Mobile dental permit holder" means a Licensee or denturist who holds a mobile permit under R4-11-1301, R4-11-1302, or R4-11-1303.

"Moderate sedation" is Drug-induced depression of consciousness during which a patient responds purposefully to verbal commands either alone or accompanied by light tactile stimulation, not limited to reflex withdrawal from a painful stimulus. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is maintained. The Drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely. Repeated dosing of a Drug before the effects of previous dosing can be fully recognized may result in a greater alteration of the state of consciousness than intended by the permit holder.

"Nitrous oxide analgesia" means nitrous oxide used as an inhalation analgesic.

"Official compendium" means the latest revision of the United States Pharmacopeia and the National Formulary and any current supplement.

"Oral sedation" is the enteral administration of a Drug or non-Drug substance or combination inhalation and enterally administered Drug or non-Drug substance in a dental office or dental clinic to achieve Minimal Sedation or Moderate Sedation.

"Parenteral sedation" is a minimally depressed level of consciousness that allows the patient to retain the ability to independently and continuously maintain an airway and respond appropriately to physical stimulation or verbal command and is induced by a pharmacological or non-pharmacological method or a combination of both methods of administration in which the Drug bypasses the gastrointestinal tract.

"Periodontal pocket" means a pathologic fissure bordered on one side by the tooth and on the opposite side by crevicular epithelium and limited in its depth by the Epithelial Attachment.

"Plaque" means a film-like sticky substance composed of mucoidal secretions containing bacteria and toxic products, dead tissue cells, and debris.

"Polishing" means a procedure limited to the removal of Plaque and extrinsic stain from exposed natural and restored tooth surfaces that utilizes an appropriate rotary instrument with rubber cup or brush and Polishing agent. A Licensee or dental assistant shall not represent that this procedure alone constitutes an oral Prophylaxis.

"Prescription-only device" means:

Any device that is restricted by the federal act, as defined in A.R.S. § 32-1901, to use only under the supervision of a medical practitioner; or

Any device required by the federal act, as defined in A.R.S. § 32-1901, to bear on its label the legend "Rx Only."

"Prescription-only Drug" does not include a Controlled Substance but does include:

Any Drug that, because of its toxicity or other potentiality for harmful effect, the method of its use, or the collateral measures necessary to its use, is not generally recognized among experts, qualified by scientific training and experience to evaluate its safety and efficacy, as safe for use except by or under the supervision of a medical practitioner;

Any Drug that is limited by an approved new Drug application under the federal act or A.R.S. § 32-1962 to use under the supervision of a medical practitioner;

Every potentially harmful Drug, the labeling of which does not bear or contain full and adequate directions for use by the consumer; or

Any Drug required by the federal act to bear on its label the legend "RX Only."

"President's designee" means the Board's executive director, an investigator, or a Board member acting on behalf of the Board president.

"Preventative and therapeutic agents" means substances that affect the hard or soft oral tissues to aid in preventing or treating oral disease.

"Prophylaxis" means a Scaling and Polishing procedure performed on patients with healthy tissues to remove coronal Plaque, Calculus, and stains.

"Recognized continuing dental education" means a program whose content directly relates to the art and science of oral health and treatment, provided by a recognized dental school, recognized dental therapy school, recognized dental hygiene school, or recognized denturist school, or sponsored by a national or state dental, dental therapy, dental hygiene, or denturist association, American Dental Association Continuing Education Recognition Program or Academy of General Dentistry, Program Approval for Continuing Education approved provider, dental, dental therapy, dental hygiene, or denturist Study Club, governmental agency, commercial dental supplier, non-profit organization, accredited hospital, or programs or courses approved by other state, district, or territorial dental licensing boards.

"Restricted permit holder" means a dentist who meets the requirements of A.R.S. § 32-1237, or a dental hygienist who meets the requirements of A.R.S. § 32-1292 and is issued a restricted permit by the Board.

"Retired" means a dentist, dental therapist, dental hygienist, or denturist is at least 65 years old and has totally withdrawn from the active practice of dentistry, dental therapy, dental hygiene, or denturism.

"Root planing" means a definitive treatment procedure designed to remove cementum or surface dentin that is rough, impregnated with Calculus, or contaminated with toxins or microorganisms.

"Scaling" means use of instruments on the crown and root surfaces of the teeth to remove Plaque, Calculus, and stains from these surfaces.

"Section 1301 permit" means a permit to administer General Anesthesia and Deep Sedation, employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Section 1302 permit" means a permit to administer Parenteral Sedation, employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Section 1303 permit" means a permit to administer Oral Sedation, employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Section 1304 permit" means a permit to employ or work with a physician anesthesiologist, or employ or work with a Certified Registered Nurse Anesthetist under Article 13.

"Study club" means a group of at least five Arizona licensed dentists, dental therapists, dental hygienists, or denturists who provide written course materials or a written outline for a continuing education presentation that meets the requirements of Article 12.

"Treatment records" means all documentation related directly or indirectly to the dental treatment of a patient.

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-02 renumbered as Section R4-11-102 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-101 renumbered to R4-11-201, new Section R4-11-101 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 9 A.A.R. 1054, effective May 6, 2003 (Supp. 03-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 19 A.A.R. 334 and at 19 A.A.R. 341, effective April 6, 2013 (Supp. 13-1). Amended by final rulemaking at 19 A.A.R. 3873, effective January 5, 2014 (Supp. 13-4). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-102. Renumbered

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-02 renumbered as Section R4-11-102 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-102 renumbered to R4-11-202 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-103. Renumbered

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-03 renumbered as Section R4-11-103 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-103 renumbered to R4-11-203 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-104. Repealed

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-04 renumbered as Section R4-11-104 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-104 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-105. Repealed

Historical Note

Adopted effective May 12, 1977 (Supp. 77-3). Former Section R4-11-05 renumbered as Section R4-11-105 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-105 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 2. LICENSURE BY CREDENTIAL

New Article 2, consisting of Sections R4-11-201 through R4-11-205, made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3).

R4-11-201. Clinical Examination; Requirements

A. If an applicant is applying under A.R.S. §§ 32-1240, 32-1276.07, or 32-1292.01, the Board shall ensure that the applicant has passed the clinical examination of A.R.S. §§ 32-1233(2) for dentists, or 32-1276.01(B)(3)(a) for dental therapists, or 32-1285(2) for dental hygienists, notwithstanding each respective statute's timing stipulation. Satisfactory completion of the clinical examination may be demonstrated by certified documentation, sent directly from another state, United States territory, District of Columbia or a testing agency that meets the requirements of A.R.S. §§ 32-1233(2) for dentists, or 32-1276.01(B)(3)(a) for dental therapists, or 32-1285(2) for dental hygienists, notwithstanding each respective statute's timing stipulation, that confirms successful completion of the clinical examination or multiple examinations administered by the state, United States territory, District of Columbia or testing agency. The certified documentation shall contain the name of the applicant, date of examination or examinations and proof of a passing score.

B. An applicant shall meet the licensure requirements in R4-11-301 and R4-11-303.

Historical Note

Former Rule 2a; Amended effective November 20, 1979 (Supp. 79-6). Amended effective November 28, 1980 (Supp. 80-6). Former Section R4-11-11 renumbered as Section R4-11-201 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-201 renumbered to R4-11-301, new Section R4-11-201 renumbered from R4-11-101 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E), effective April 30, 2001 (Supp. 01-2). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-202. Dental Licensure by Credential; Application

A. A dentist applying under A.R.S. § 32-1240 shall comply with all other applicable requirements in A.R.S. Title 32, Chapter 11 and this Article.

B. A dentist applying under A.R.S. § 32-1240 shall:

1. Have a current dental license in another state, territory or district of the United States;
2. Submit a written affidavit affirming that the dentist has practiced dentistry for a minimum of 5000 hours during the five years immediately before applying for licensure by credential. For purposes of this subsection, dental practice includes experience as a dental educator at a dental program accredited by the Commission on Dental Accreditation or another post-secondary dental education program accrediting agency recognized by the U.S. Department of Education, or employment as a dentist in a public health setting;
3. Submit a written affidavit affirming that the applicant has complied with the continuing dental education requirement of the state in which the applicant is currently licensed;

4. Provide evidence regarding the clinical examination by complying with R4-11-201(A); and
5. Pass the Arizona jurisprudence examination with a minimum score of 75%.

C. For any application submitted under A.R.S. § 32-1240, the Board may request additional clarifying evidence required under R4-11-201(A).

D. An applicant for dental licensure by credential shall pay the fee prescribed in A.R.S. § 32-1240, except the fee is reduced by 50% for applicants who will be employed or working under contract in:
1. Underserved areas, such as declared or eligible Health Professional Shortage Areas; or
2. Other facilities caring for underserved populations as recognized by the Arizona Department of Health Services and approved by the Board.

E. An applicant for dental licensure by credential who works in areas or facilities described in subsection (D) shall:
1. Commit to a three-year, exclusive service period,
2. File a copy of a contract or employment verification statement with the Board, and
3. As a Licensee, submit an annual contract or employment verification statement to the Board by December 31 of each year.

F. A Licensee's failure to comply with the requirements in subsection (E) is considered unprofessional conduct and may result in disciplinary action based on the circumstances of the case.

Historical Note

Former Rule 2b; Former Section R4-11-12 renumbered as Section R4-11-202 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-202 repealed, new Section R4-11-202 renumbered from R4-11-102 and the heading amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Labeling changes made to reflect current style requirements (Supp. 99-1). Section expired under A.R.S. § 41-1056(E), effective April 30, 2001 (Supp. 01-2). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-203. Dental Hygienist Licensure by Credential; Application

A. A dental hygienist applying under A.R.S. § 32-1292.01 shall comply with all other applicable requirements in A.R.S. Title 32, Chapter 11 and this Article.

B. A dental hygienist applying under A.R.S. § 32-1292.01 shall:
1. Have a current dental hygienist license in another state, territory, or district of the United States;
2. Submit a written affidavit affirming that the applicant has practiced as a dental hygienist for a minimum of 1000 hours during the two years immediately before applying for licensure by credential. For purposes of this subsection, dental hygienist practice includes experience as a dental hygienist educator at a dental program accredited by the Commission on Dental Accreditation or another post-secondary dental education program accrediting agency recognized by the U.S. Department of Education, or employment as a dental hygienist in a public health setting;
3. Submit a written affidavit affirming that the applicant has complied with the continuing dental hygienist education requirement of the state in which the applicant is currently licensed;
4. Provide evidence regarding the clinical examination by complying with R4-11-201(A); and
5. Pass the Arizona jurisprudence examination with a minimum score of 75%.

C. For any application submitted under A.R.S. § 32-1292.01, the Board may request additional clarifying evidence as required under R4-11-201(A).

D. An applicant for dental hygienist licensure by credential shall pay the fee prescribed in A.R.S. § 32-1292.01, except the fee is reduced by 50% for applicants who will be employed or working under contract in:
1. Underserved areas such as declared or eligible Health Professional Shortage Areas; or
2. Other facilities caring for underserved populations, as recognized by the Arizona Department of Health Services and approved by the Board.

E. An applicant for dental hygienist licensure by credential who works in areas or facilities described in subsection (D) shall:
1. Commit to a three-year exclusive service period,
2. File a copy of a contract or employment verification statement with the Board, and
3. As a Licensee, submit an annual contract or employment verification statement to the Board by December 31 of each year.

F. A Licensee's failure to comply with the requirements in R4-11-203(E) is considered unprofessional conduct and may result in disciplinary action based on the circumstances of the case.

Historical Note

Former Rule 2c; Former Section R4-11-13 repealed, new Section R4-11-13 adopted effective November 20, 1979 (Supp. 79-6). Amended effective October 30, 1980 (Supp. 80-5). Former Section R4-11-13 renumbered as Section R4-11-203 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-203 renumbered to R4-11-302, new Section R4-11-203 renumbered from R4-11-103 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section expired under A.R.S. § 41-1056(E), effective April 30, 2001 (Supp. 01-2). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-204. Dental Assistant Radiography Certification by Credential

Eligibility. To be eligible for dental assistant radiography certification by credential, an applicant shall have a current certificate or other form of approval for taking dental radiographs, issued by a professional licensing agency in another state, United States territory or the District of Columbia that required successful completion of a written dental radiography examination.

Historical Note

Former Rule 2d; Former Section R4-11-14 repealed, new Section R4-11-14 adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-14 renumbered as Section R4-11-204, repealed, and new Section R4-11-204 adopted effective July 29, 1981 (Supp. 81-4). Former

Section R4-11-204 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1).

R4-11-205. Application for Dental Assistant Radiography Certification by Credential

A. An applicant for dental assistant radiography certification by credential shall provide to the Board a completed application, on a form furnished by the Board that contains the following information:
1. A sworn statement of the applicant's eligibility, and
2. A letter from the issuing institution that verifies compliance with R4-11-204.

B. Based upon review of information provided under subsection (A), the Board or its designee shall request that an applicant for dental assistant radiography certification by credential provide a copy of a certified document that indicates the reason for a name change if the applicant's documentation contains different names.

Historical Note

Former Rule 2e; Former Section R4-11-15 renumbered as Section R4-11-205 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-205 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 9 A.A.R. 4126, effective November 8, 2003 (Supp. 03-3).

R4-11-206. Dental Therapist Licensure by Credential; Application

A. A dental therapist applying under A.R.S. § 32-1276.07 shall comply with all other applicable requirements in A.R.S. Title 32, Chapter 11 and this Article.

B. A dental therapist applying under A.R.S. § 32-1276.07 shall:
1. Have a current dental therapy license in another state, territory or district of the United States with substantially the same scope of practice as defined in A.R.S. § 32-1276.03;
2. Submit a written affidavit affirming that the applicant has practiced as a dental therapist for a minimum of 3000 hours during the five years immediately before applying for licensure by credential. For purposes of this subsection, dental therapy practice includes experience as a dental therapy educator at a dental program accredited by the Commission on Dental Accreditation or another post-secondary dental education program accrediting agency recognized by the U.S. Department of Education, or employment as a dental therapist in a public health setting;
3. Submit a written affidavit affirming that the applicant has complied with the continuing dental therapy education requirement of the state in which the applicant is currently licensed;
4. Provide evidence showing that five years or more before applying for licensure under this Section, the applicant completed the clinical examination by complying with R4-11-201(A);
5. Submit official transcripts to the Board directly from a recognized dental therapy school as defined by A.R.S. § 32-1201(21) or an approved third party showing a degree was conferred to the applicant; and
6. Not be required to obtain an Arizona dental hygienist license, if the dental therapist submits one of the following:
   a. Certified documentation of a current or past dental hygiene license sent directly from the applicable state, United States territory, District of Columbia to the Board; or
   b. Official transcripts sent to the Board directly from a recognized dental hygiene school as defined by A.R.S. § 32-1201(19) or an approved third party showing a degree was conferred to the applicant; or
   c. A written affidavit from a recognized dental therapy school as defined in A.R.S. § 32-1201(21) affirming that all dental hygiene procedures defined in A.R.S. § 32-1281 were part of the education the applicant received.

C. For any application submitted under A.R.S. § 32-1276.07, the Board may request additional clarifying evidence required under R4-11-201(A).

D. If an applicant meets all the requirements set forth in this Section except that their current dental therapy license is from a state, territory, or district of the United States that does not include one or more of the following procedures in its legally defined scope, then the applicant must provide evidence of competency before being granted a dental therapy license by credential:
1. Fabricating soft occlusal guards;
2. Administering Nitrous Oxide Analgesia;
3. Performing nonsurgical extractions of periodontally diseased permanent teeth that exhibit plus or grade three mobility and that are not impacted, fractured, unerupted or in need of sectioning for removal;
4. Suturing; or
5. Placing space maintainers.

E. The Board will accept the any of following as evidence of competency in the aforementioned procedures:
1. A certificate or credential in the procedure or procedures issued by a state licensing jurisdiction; or
2. A signed affidavit from a recognized dental therapy school, recognized dental hygiene school, or recognized dental school, affirming that the applicant successfully completed academic coursework that included both theory and supervised clinical practice in the procedure or procedures.

F. Subject to A.R.S. § 32-1276.04, an applicant for licensure under this Section shall pay the fee prescribed in A.R.S. § 32-1276.07, except the fee is reduced by 50% for applicants who will be employed or working under contract in:
1. Underserved areas, such as declared or eligible Health Professional Shortage Areas; or
2. Other facilities caring for underserved populations as recognized by the Arizona Department of Health Services and approved by the Board.

G. An applicant for dental therapist licensure by credential who works in areas or facilities described in subsection (F) shall:
1. Commit to a three-year, exclusive service period,
2. File a copy of a contract or employment verification statement with the Board, and
3. As a Licensee, submit an annual contract or employment verification statement to the Board by December 31 of each year.

H. A Licensee's failure to comply with the requirements in subsection (G) is considered unprofessional conduct and may

result in disciplinary action based on the circumstances of the case.

Historical Note
Former Rule 2f; Amended as an emergency effective July 7, 1978, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 78-4). Former emergency adoption now adopted and amended effective September 7, 1979 (Supp. 79-5). Former Section R4-11-16 renumbered as Section R4-11-206 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-206 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-207. Repealed

Historical Note
Former Rule 2g; Former Section R4-11-17 renumbered as Section R4-11-207, repealed, and new Section R4-11-207 adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-207 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-208. Repealed

Historical Note
Former Section R4-11-20 repealed, new Section R4-11-20 adopted effective May 12, 1977 (Supp. 77-3). Amended effective October 30, 1980 (Supp. 80-5). Former Section R4-11-20 renumbered as Section R4-11-208 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-208 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-209. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-19 renumbered as R4-11-209 and repealed. Former Section R4-11-21 renumbered as Section R4-11-209 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-209 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-210. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Amended effective June 7, 1978 (Supp. 78-3). Former Section R4-11-22 renumbered as Section R4-11-210 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-210 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-211. Repealed

Historical Note
Adopted effective August 26, 1977 (Supp. 77-4). Former Section R4-11-23 renumbered as Section R4-11-211 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-211 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-212. Repealed

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-24 renumbered as Section R4-11-212 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-212 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-213. Repealed

Historical Note
Adopted as an emergency effective July 7, 1978, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 78-4). Former emergency adoption now adopted effective September 7, 1979 (Supp. 79-5). Former Section R4-11-25 renumbered as Section R4-11-213, repealed, and new Section R4-11-213 adopted effective July 29, 1981 (Supp. 81-4). Former Section R4-11-213 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-214. Repealed

Historical Note
Former Rule 2h; Amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-18 renumbered as Section R4-11-214 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-214 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-215. Repealed

Historical Note
Adopted effective June 16, 1982 (Supp. 82-3). Former Section R4-11-215 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-216. Repealed

Historical Note
Adopted effective June 16, 1982 (Supp. 82-3). Former Section R4-11-216 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 3. EXAMINATIONS, LICENSING QUALIFICATIONS, APPLICATION AND RENEWAL, TIMEFRAMES

R4-11-301. Application

A. An applicant for licensure or certification shall provide the following information and documentation:
1. A sworn statement of the applicant's qualifications for the license or certificate on a form provided by the Board;
2. A photograph of the applicant that is no more than 6 months old;
3. An official, sealed transcript sent directly to the Board from either:
   a. The applicant's dental, dental therapy, dental hygiene, or denturist school, or
   b. A verified third-party transcript provider.
4. Except for a dental consultant license applicant, a dental, dental therapy, and dental hygiene license applicant shall provide proof of successfully completing a clinical examination by submitting:
   a. If applying for dental licensure by examination, a copy of the certificate or scorecard sent to the Board directly from a clinical examination administered by a state or testing agency that meets the requirements of A.R.S. § 32-1233(2), indicating that the applicant passed a state or regional testing agency examination that meets the requirements of A.R.S. § 32-

1233(2) within the five years immediately before the date the application is filed with the Board;

b. If applying for dental therapy licensure by examination, a copy of the certificate or scorecard sent to the Board directly from a clinical examination administered by a state, United States territory, District of Columbia or testing agency that meets the requirements of A.R.S. § 32-1276.01(B)(3)(a). The certificate or scorecard must indicate that the applicant passed the examination within the five years immediately before the date the application is filed with the Board. The application must also include the applicant's Arizona dental hygiene license number;

c. If applying for dental hygiene licensure by examination, a copy of the certificate or scorecard sent to the Board directly from a clinical examination administered by a state, United States territory, District of Columbia or testing agency that meets the requirements of A.R.S. § 32-1285(2). The certificate or scorecard must indicate that the applicant passed the examination within the five years immediately before the date the application is filed with the Board;

5. Except for a dental consultant license applicant as provided in A.R.S. § 32-1234(A)(7), dental and dental hygiene license applicants must have an official scorecard sent directly from the National Board examination to the Board;
6. A copy showing the expiration date of the applicant's current cardiopulmonary resuscitation healthcare provider level certificate from the American Red Cross, the American Heart Association, or another certifying agency that follows the same procedures, standards, and techniques for cardiopulmonary resuscitation training and certification as the American Red Cross or American Heart Association;
7. A license or certification verification from any other jurisdiction in which an applicant is licensed or certified, sent directly from that jurisdiction to the Board. If the license verification cannot be sent directly to the Board from the other jurisdiction, the applicant must submit a written affidavit affirming that the license verification submitted was issued by the other jurisdiction;
8. If an applicant has been licensed or certified in another jurisdiction, a copy of the self-inquiry from the National Practitioner Data Bank that is no more than 30 calendar days old;
9. If the applicant is in the military or employed by the United States government, a letter sent to the Board directly from the applicant's commanding officer or supervisor verifying the applicant is licensed or certified by the military or United States government; and
10. The jurisprudence examination fee paid by a method authorized by law.

B. The Board may request that an applicant provide:

1. An official copy of the applicant's dental, dental therapy, dental hygiene, or denturist school diploma from the issuing institution;
2. A copy of a certified document that indicates the reason for a name change if the applicant's application contains different names;
3. Written verification of the applicant's work history; and
4. A copy of a high school diploma or equivalent certificate.

C. An applicant shall pass the Arizona jurisprudence examination with a minimum score of 75%.

Historical Note

Former Rule 3A; Former Section R4-11-29 repealed, new Section R4-11-29 adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-29 renumbered as Section R4-11-301 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-301 repealed, new Section R4-11-301 renumbered from R4-11-201 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-302. Repealed

Historical Note

Former Rule 3B; Former Section R4-11-30 repealed, new Section R4-11-30 adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-30 renumbered as Section R4-11-302 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-302 repealed, new Section R4-11-302 renumbered from R4-11-203 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1).

R4-11-303. Application Processing Procedures: Issuance, Denial, and Renewal of Dental Licenses, Dental Therapy Licenses, Restricted Permits, Dental Hygiene Licenses, Dental Consultant Licenses, Denturist Certificates, Drug or Device Dispensing Registrations, Business Entity Registration and Mobile Dental Facility and Portable Dental Unit Permits

A. The Board office shall complete an administrative completeness review within 30 calendar days of the date of receipt of an application for a license, certificate, permit, or registration.

1. Within 30 calendar days of receiving an initial or renewal application for a dental license, restricted permit, dental therapy license, dental hygiene license, dental consultant license, denturist certificate, Business Entity registration, mobile dental facility or portable dental unit permit, the Board office shall notify the applicant, in writing, whether the application package is complete or incomplete.
2. If the application package is incomplete, the Board office shall provide the applicant with a written notice that includes a comprehensive list of the missing information. The 30 calendar day time-frame for the Board office to finish the administrative completeness review is suspended from the date the notice of incompleteness is served until the applicant provides the Board office with all missing information.
3. If the Board office does not provide the applicant with notice regarding administrative completeness, the application package shall be deemed complete 30 calendar days after receipt by the Board office.

B. An applicant with an incomplete application package shall submit all missing information within 60 calendar days of service of the notice of incompleteness.

C. Upon receipt of all missing information, the Board office shall notify the applicant, in writing, within 30 calendar days, that

the application package is complete. If an applicant fails to submit a complete application package within the time allowed in subsection (B), the Board office shall close the applicant's file. An applicant whose file is closed and who later wishes to obtain a license, certificate, permit, or registration shall apply again as required in R4-11-301.

D. The Board shall not approve or deny an application until the applicant has fully complied with the requirements of A.A.C. Title 4, Chapter 11, Article 3.

E. The Board shall complete a substantive review of the applicant's qualifications in no more than 90 calendar days from the date on which the administrative completeness review of an application package is complete.

1. If the Board finds an applicant to be eligible for a license, certificate, permit, or registration and grants the license, certificate, permit, or registration, the Board office shall notify the applicant in writing.
2. If the Board finds an applicant to be ineligible for a license, certificate, permit, or registration, the Board office shall issue a written notice of denial to the applicant that includes:
   a. Each reason for the denial, with citations to the statutes or rules on which the denial is based;
   b. The applicant's right to request a hearing on the denial, including the number of days the applicant has to file the request;
   c. The applicant's right to request an informal settlement conference under A.R.S. § 41-1092.06; and
   d. The name and telephone number of an agency contact person who can answer questions regarding the application process.
3. If the Board finds deficiencies during the substantive review of an application package, the Board office may issue a comprehensive written request to the applicant for additional documentation. An additional supplemental written request for information may be issued upon mutual agreement between the Board or Board office and the applicant.
4. The 90-day time-frame for a substantive review of an applicant's qualifications is suspended from the date of a written request for additional documentation until the date that all documentation is received. The applicant shall submit the additional documentation before the next regularly scheduled Board meeting.
5. If the applicant and the Board office mutually agree in writing, the 90-day substantive review time-frame may be extended once for no more than 28 days.

F. The following time-frames apply for an initial or renewal application governed by this Section:

1. Administrative completeness review time-frame: 30 calendar days.
2. Substantive review time-frame: 90 calendar days.
3. Overall time-frame: 120 calendar days.

G. An applicant whose license is denied has a right to a hearing, an opportunity for rehearing, and, if the denial is upheld, may seek judicial review pursuant to A.R.S. Title 41, Chapter 6, Article 10, and A.R.S. Title 12, Chapter 7, Article 6.

Historical Note

Former Rule 3C; Former Section R4-11-31 renumbered as Section R4-11-303 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-303 repealed, new Section R4-11-303 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-304. Application Processing Procedures: Issuance and Denial of Dental Assistant Certificates Radiography Certification by Credential

A. Within 30 calendar days of receiving an application from an applicant for a dental assistant radiography certification by credential, the Board or its designee shall notify the applicant, in writing, that the application package is complete or incomplete. If the package is incomplete, the notice shall specify what information is missing.

B. An applicant with an incomplete application package shall supply the missing information within 60 calendar days from the date of the notice. If the applicant fails to do so, an applicant shall begin the application process anew.

C. Upon receipt of all missing information, within 10 calendar days, the Board or its designee shall notify the applicant, in writing, that the application is complete.

D. The Board or its designee shall not process an application until the applicant has fully complied with the requirements of this Article.

E. The Board or its designee shall notify an applicant, in writing, whether the certificate is granted or denied, no later than 90 calendar days after the date of the notice advising the applicant that the package is complete.

F. The notice of denial shall inform the applicant of the following:

1. The reason for the denial, with a citation to the statute or rule which requires the applicant to pass the examination;
2. The applicant's right to request a hearing on the denial, including the number of days the applicant has to file the request;
3. The applicant's right to request an informal settlement conference under A.R.S. § 41-1092.06; and
4. The name and telephone number of an agency contact person or a designee who can answer questions regarding the application process.

G. The following time-frames apply for certificate applications governed by this Section:

1. Administrative completeness review time-frame: 24 calendar days.
2. Substantive review time-frame: 90 calendar days.
3. Overall time-frame: 114 calendar days.

H. An applicant whose certificate is denied has a right to a hearing, an opportunity for rehearing, and, if the denial is upheld, may seek judicial review pursuant to A.R.S. Title 41, Chapter 6, Article 10, and A.R.S. Title 12, Chapter 7, Article 6.

Historical Note

Former Rule 3D; Former Section R4-11-32 renumbered as Section R4-11-304 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-304 repealed, new Section R4-11-304 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-305. Application Processing Procedures: Issuance, Denial, and Renewal of General Anesthesia and Deep Sedation

Permits, Parenteral Sedation Permits, Oral Sedation Permits, and Permit to Employ a Physician Anesthesiologist or Certified Registered Nurse Anesthetist

A. The Board office shall complete an administrative completeness review within 24 days from the date of the receipt of an application for a permit.
1. Within 30 calendar days of receiving an initial or renewal application for a General Anesthesia and Deep Sedation permit, parenteral sedation permit, Oral Sedation permit or permit to employ a physician anesthesiologist or Certified Registered Nurse Anesthetist the Board office shall notify the applicant, in writing, whether the application package is complete or incomplete.
2. If the application package is incomplete, the Board office shall provide the applicant with a written notice that includes a comprehensive list of the missing information. The 24-day time-frame for the Board office to finish the administrative completeness review is suspended from the date the notice of incompleteness is served until the applicant provides the Board office with all missing information.
3. If the Board office does not provide the applicant with notice regarding administrative completeness, the application package shall be deemed complete 24 days after receipt by the Board office.

B. An applicant with an incomplete application package shall submit all missing information within 60 calendar days of service of the notice of incompleteness.

C. Upon receipt of all missing information, the Board office shall notify the applicant, in writing, within 10 calendar days, that the application package is complete. If an applicant fails to submit a complete application package within the time allowed in subsection (B), the Board office shall close the applicant's file. An applicant whose file is closed and who later wishes to obtain a permit shall apply again as required in A.A.C. Title 4, Chapter 11, Article 13.

D. The Board shall not approve or deny an application until the applicant has fully complied with the requirements of this Section and A.A.C. Title 4, Chapter 11, Article 13.

E. The Board shall complete a substantive review of the applicant's qualifications in no more than 120 calendar days from the date on which the administrative completeness review of an application package is complete.
1. If the Board finds an applicant to be eligible for a permit and grants the permit, the Board office shall notify the applicant in writing.
2. If the Board finds an applicant to be ineligible for a permit, the Board office shall issue a written notice of denial to the applicant that includes:
   a. Each reason for the denial, with citations to the statutes or rules on which the denial is based;
   b. The applicant's right to request a hearing on the denial, including the number of days the applicant has to file the request;
   c. The applicant's right to request an informal settlement conference under A.R.S. § 41-1092.06; and
   d. The name and telephone number of an agency contact person who can answer questions regarding the application process.
3. If the Board finds deficiencies during the substantive review of an application package, the Board office shall issue a comprehensive written request to the applicant for additional documentation.
4. The 120-day time-frame for a substantive review of an applicant's qualifications is suspended from the date of a written request for additional documentation until the date that all documentation is received.
5. If the applicant and the Board office mutually agree in writing, the 120-day substantive review time-frame may be extended once for no more than 36 days.

F. The following time-frames apply for an initial or renewal application governed by this Section:
1. Administrative completeness review time-frame: 24 calendar days.
2. Substantive review time-frame: 120 calendar days.
3. Overall time-frame: 144 calendar days.

Historical Note

New Section R4-11-305 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 371, effective April 3, 2016 (Supp. 16-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

ARTICLE 4. FEES

R4-11-401. Retired or Disabled Licensure Renewal Fee

As expressly authorized under A.R.S. § 32-1207(B)(3)(c), the licensure renewal fee for a Retired Licensee or Disabled Licensee is $15 and shall be paid by a method authorized by law.

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). Amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-42 renumbered as Section R4-11-401 and repealed effective July 29, 1981 (Supp. 81-4). Adopted effective February 16, 1995 (Supp. 95-1). Former Section R4-11-401 repealed, new Section R4-11-401 renumbered from R4-11-901 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-402. Business Entity Fees

As expressly authorized under A.R.S. § 32-1213, the Board establishes and shall collect the following fees from a Business Entity offering dental services paid by credit card on the Board's website or by money order or cashier's check:
1. Initial triennial registration, $300 per location;
2. Renewal of triennial registration, $300 per location; and
3. Late triennial registration renewal, $100 per location in addition to the fee under subsection (2).

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-43 renumbered as Section R4-11-402, repealed, and new Section R4-11-402 adopted effective July 29, 1981 (Supp. 81-4). Amended effective February 16, 1995 (Supp. 95-1). Former Section R4-11-402 renumbered to R4-11-601, new Section R4-11-402 renumbered

from R4-11-902 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section repealed; new Section made by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (05-1). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-403. Licensing Fees

A. As expressly authorized under A.R.S. §§ 32-1236, 32-1276.02, 32-1287, 32-1297.06, and 32-1299.23, the Board establishes and shall collect up to the following licensing fees paid by a method authorized by law:
1. Dentist triennial renewal fee: $650;
2. Dentist prorated initial license fee: $110;
3. Dental therapist triennial renewal fee: $375;
4. Dental therapist prorated initial license fee: $80;
5. Dental hygienist triennial renewal fee: $325;
6. Dental hygienist prorated initial license fee: $55;
7. Denturist triennial renewal fee: $300;
8. Denturist prorated initial license fee: $46; and
9. Mobile dental facility permit initial license or annual renewal fee: $200.

B. The following license-related fees are established in or expressly authorized by statute. The Board shall collect the following fees paid by a method authorized by law:
1. Jurisprudence examination fee:
   a. Dentists: $300;
   b. Dental therapists: $200;
   c. Dental hygienists: $100; and
   d. Denturists: $250.
2. Licensure by credential fee:
   a. Dentists: $2,000; and
   b. Dental therapists: $1,500;
   c. Dental hygienists: $1,000.
3. Penalty to reinstate an expired license or certificate: $100 for a dentist, mobile dental facility permit, dental therapist, dental hygienist, or denturist in addition to renewal fee specified under subsection (A).
4. Penalty for a dentist, mobile dental facility permit, dental therapist, dental hygienist, or denturist who fails to notify Board of a change of mailing address:
   a. Failure after 10 days: $50; and
   b. Failure after 30 days: $100.

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-44 renumbered as Section R4-11-403 and repealed effective July 29, 1981 (Supp. 81-4). Adopted effective February 16, 1995 (Supp. 95-1). Former Section R4-11-403 renumbered to R4-11-602, new Section R4-11-403 renumbered from R4-11-903 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section repealed by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (05-1). New Section made by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2). Amended by final rulemaking at 29 A.A.R. 3791 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-404. Repealed

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1_. Former Section R4-11-45 renumbered as Section R4-11-404 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-404 renumbered from R4-11-904 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Section repealed by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (05-1).

R4-11-405. Charges for Board Services

The Board shall charge the following fees for the services provided paid by credit card on the Board's website or by money order or cashier's check:
1. Duplicate license: $25;
2. Duplicate certificate: $25;
3. License verification: $25;
4. Copy of audio recording: $10;
5. Photocopies (per page): $.25;
6. Mailing lists of Licensees in digital format: $100

Historical Note

Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-46 repealed, new Section R4-11-46 adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-46 renumbered as Section R4-11-405 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-405 renumbered from R4-11-905 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-406. Anesthesia and Sedation Permit Fees

A. As expressly authorized under A.R.S. § 32-1207, the Board establishes and shall collect the following fees:
1. Section 1301 permit fee: $300 plus $25 for each additional location;
2. Section 1302 permit fee: $300 plus $25 for each additional location;
3. Section 1303 permit fee: $300 plus $25 for each additional location; and
4. Section 1304 permit fee: $300 plus $25 for each additional location.

B. Upon successful completion of an initial onsite evaluation and upon receipt of the required permit fee, the Board shall issue a separate Section 1301, 1302, 1303, or 1304 permit to a dentist for each location requested by the dentist. A permit expires on December 31 of every fifth year.

C. Permit renewal fees:
1. Section 1301 permit renewal fee: $300 plus $25 for each additional location;
2. Section 1302 permit renewal fee: $300 plus $25 for each additional location;
3. Section 1303 permit renewal fee: $300 plus $25 for each additional location; and

4. Section 1304 permit renewal fee: $300 plus $25 for each additional location.

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-47 renumbered as Section R4-11-406 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-406 renumbered from R4-11-906 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section repealed; new Section R4-11-406 renumbered from R4-11-407 and amended by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1). Amended by final rulemaking at 9 A.A.R. 4130, effective November 8, 2003 (Supp. 03-3). Amended by final rulemaking at 22 A.A.R. 3697, effective February 6, 2017 (Supp. 16-4).

R4-11-407. Renumbered

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-48 renumbered as Section R4-11-407 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1). New Section R4-11-407 renumbered from R4-11-909 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section R4-11-407 renumbered to R4-11-406 by final rulemaking at 6 A.A.R. 748, effective February 2, 2000 (Supp. 00-1).

R4-11-408. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-49 renumbered as Section R4-11-408 without change effective July 29, 1981 (Supp. 81-4). Repealed effective February 16, 1995 (Supp. 95-1).

R4-11-409. Repealed

Historical Note
Adopted effective September 12, 1985 (Supp. 85-5). Repealed effective July 21, 1995 (Supp. 95-3).

ARTICLE 5. DENTISTS

R4-11-501. Dentist of Record

A. A dentist of record shall ensure that each patient record has the treatment records for a patient treated in any dental office, clinic, hospital dental clinic, or charitable organization that offers dental services, and the full name of a dentist who is responsible for all of the patient's treatment.

B. A dentist of record shall obtain a patient's consent to change the treatment plan before changing the treatment plan that the patient originally agreed to, including any additional costs the patient may incur because of the change.

C. When a dentist who is a dentist of record decides to leave the practice of dentistry or a particular place of practice in which the dentist is the dentist of record, the dentist shall ensure before leaving the practice that a new dentist of record is entered on each patient record.

D. A dentist of record is responsible for the care given to a patient while the dentist was the dentist of record even after being replaced as the dentist of record by another dentist.

E. A dentist of record shall:
1. Remain responsible for the care of a patient during the course of treatment; and
2. Be available to the patient through the dentist's office, an emergency number, an answering service, or a substituting dentist.

F. A dentist's failure to comply with subsection (E) constitutes patient abandonment, and the Board may impose discipline under A.R.S. Title 32, Chapter 11, Article 3.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-62 renumbered as Section R4-11-501 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-501 repealed, new Section R4-11-501 renumbered from R4-11-1102 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1).

R4-11-502. Affiliated Practice

A. A dentist in a private for profit setting shall not enter into more than 15 affiliated practice relationships under A.R.S. § 32-1289 at one time.

B. There is no limit to the number of affiliated practice relationships a dentist may enter into when working in a government, public health, or non-profit organization under Section 501(C)(3) of the Internal Revenue Code.

C. Each affiliated practice dentist shall be available telephonically or electronically during the business hours of the affiliated practice dental hygienist to provide an appropriate level of contact, communication, and consultation.

D. The affiliated practice agreement shall include a provision for a substitute dentist in addition to the requirements of A.R.S. § 32-1289(E), to cover an extenuating circumstance that renders the affiliated practice dentist unavailable for contact, communication, or consultation with the affiliated practice dental hygienist.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Amended effective March 23, 1976 (Supp. 76-2). Former Section R4-11-63 renumbered as Section R4-11-502 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-502 renumbered to R4-11-701 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). New Section made by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 29 A.A.R. 3793 (December 15, 2023), effective January 29, 2024 (Supp. 23-4).

R4-11-503. Repealed

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-64 repealed, new Section R4-11-64 adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-64 renumbered as Section R4-11-503 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-503 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-504. Renumbered

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-65 repealed, new Section R4-11-65 adopted effective May 23, 1976 (Supp. 76-2). Former Section R4-11-65 renumbered as Section R4-11-504, repealed, and new Section R4-11-504 adopted effective

July 29, 1981 (Supp. 81-4). Former Section R4-11-504 renumbered to R4-11-702 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-505. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-66 renumbered as Section R4-11-505 and repealed effective July 29, 1981 (Supp. 81-4).

R4-11-506. Repealed

Historical Note
Adopted effective March 23, 1976 (Supp. 76-2). Former Section R4-11-67 renumbered as Section R4-11-506 and repealed effective July 29, 1981 (Supp. 81-4).

ARTICLE 6. DENTAL HYGIENISTS

R4-11-601. Duties and Qualifications

A. A dental hygienist may apply Preventative and Therapeutic Agents under the general supervision of a licensed dentist.
B. A dental hygienist may perform a procedure not specifically authorized by A.R.S. § 32-1281 when all of the following conditions are satisfied:
1. The procedure is recommended or prescribed by the supervising dentist;
2. The dental hygienist has received instruction, training, or education to perform the procedure in a safe manner; and
3. The procedure is performed under the general supervision of a licensed dentist.

C. A dental hygienist shall not perform an Irreversible Procedure.
D. To qualify to use Emerging Scientific Technology as authorized by A.R.S. § 32-1281(C)(2), a dental hygienist shall successfully complete a course of study that meets the following criteria:
1. Is a course offered by a recognized dental school as defined in A.R.S. § 32-1201, a recognized dental hygiene school as defined in A.R.S. § 32-1201, or sponsored by a national or state dental or dental hygiene association or government agency;
2. Includes didactic instruction with a written examination;
3. Includes hands-on clinical instruction; and
4. Is technology that is scientifically based and supported by studies published in peer reviewed dental journals.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-82 renumbered as Section R4-11-601 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-601 repealed, new Section R4-11-601 renumbered from R4-11-402 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-602. Care of Homebound Patients

Dental hygienists treating homebound patients shall provide only treatment prescribed by the dentist of record in the diagnosis and treatment plan. The diagnosis and treatment plan shall be based on examination data obtained not more than 12 months before the treatment is administered.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-83 renumbered as Section R4-11-602 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-602 renumbered to R4-11-1001, new Section R4-11-602 renumbered from R4-11-403 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-603. Limitation on Number Supervised

A dentist shall not supervise more than three dental hygienists at a time.

Historical Note
Adopted effective December 6, 1974 (Supp. 75-1). Former Section R4-11-84 renumbered as Section R4-11-603 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-603 renumbered to R4-11-1002, new Section R4-11-603 renumbered from R4-11-408 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-604. Selection Committee and Process

A. The Board shall appoint a selection committee to screen candidates for the dental hygiene committee. The selection committee consists of three members. The Board shall appoint at least two members who are dental hygienists and one member who is a current Board member. The Board shall fill any vacancy for the unexpired portion of the term.
B. Each selection committee member's term is one year.
C. By majority vote, the selection committee shall nominate each candidate for the dental hygiene committee and transmit a list of names to the Board for approval, including at least one alternate.

Historical Note
New Section R4-11-604 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-605. Dental Hygiene Committee

A. The Board shall appoint seven members to the dental hygiene committee as follows:
1. One dentist appointed at the annual December Board meeting, currently serving as a Board member, for a one year term;
2. One dental hygienist appointed at the annual December Board meeting, currently serving as a Board member and possessing the qualifications required in Article 6, for a one-year term;
3. Four dental hygienists that possess the qualifications required in Article 6; and
4. One lay person.

B. Except for members appointed as prescribed in subsections (A)(1) and (2), the Board shall appoint dental hygiene committee members for staggered terms of three years, beginning January 1, 1999, and limit each member to two consecutive terms. The Board shall fill any vacancy for the unexpired portion of the term.
C. The dental hygiene committee shall annually elect a chairperson at the first meeting convened during the calendar year.

Historical Note
New Section R4-11-605 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-606. Candidate Qualifications and Submissions

A. A dental hygienist who seeks membership on the dental hygiene committee shall possess a license in good standing, issued by the Board.

B. A dental hygienist who is not a Board member and qualifies under subsection (A) shall submit a letter of intent and resume to the Board.

C. The selection committee shall consider all of the following criteria when nominating a candidate for the dental hygiene committee:
1. Geographic representation,
2. Experience in postsecondary curriculum analysis and course development,
3. Public health experience, and
4. Dental hygiene clinical experience.

Historical Note
New Section R4-11-606 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-607. Duties of the Dental Hygiene Committee

A. The committee shall advise the Board on all matters relating to the regulation of dental hygienists.

B. In performing the duty in subsection (A), the committee may:
1. Act as a liaison for the Board, promoting communication and providing a forum for discussion of dental hygiene regulatory issues;
2. Review applications, syllabi, and related materials and make recommendations to the Board regarding certification of courses in Local Anesthesia, Nitrous Oxide Analgesia, and suture placement under Article 6 and other procedures which may require certification under Article 6;
3. Review documentation submitted by dental hygienists to determine compliance with the continuing education requirement for license renewal under Article 12 and make recommendations to the Board regarding compliance;
4. Make recommendations to the Board concerning statute and rule development which affect dental hygienists' education, licensure, regulation, or practice;
5. Provide advice to the Board on standards and scope of practice which affect dental hygiene practice;
6. Provide ad hoc committees to the Board upon request;
7. Request that the Board consider recommendations of the committee at the next regularly scheduled Board meeting; and
8. Make recommendations to the Board for approval of dental hygiene consultants.

C. Committee members who are licensed dentists or dental hygienists may serve as dental hygiene examiners or Board consultants.

D. The committee shall meet at least two times per calendar year. The chairperson or the president of the Board, or their respective designees, may call a meeting of the committee.

E. The Board may assign additional duties to the committee.

Historical Note
New Section R4-11-607 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-608. Dental Hygiene Consultants

After submission of a current curriculum vitae or resume and approval by the Board, dental hygiene consultants may:
1. Act as dental hygiene examiners for the clinical portion of the dental hygiene examination;
2. Act as dental hygiene examiners for the Local Anesthesia portion of the dental hygiene examination;
3. Participate in Board-related procedures, including Clinical Evaluations, investigation of complaints concerning infection control, insurance fraud, or the practice of supervised personnel, and any other procedures not directly related to evaluating a dentist's quality of care; and
4. Participate in onsite office evaluations for infection control, as part of a team.

Historical Note
New Section R4-11-608 adopted by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

R4-11-609. Affiliated Practice

A. To perform dental hygiene services under an affiliated practice relationship pursuant to A.R.S. § 32-1289.01, a dental hygienist shall:
1. Provide evidence to the Board of successfully completing a total of 12 hours of Recognized Continuing Dental Education that consists of the following subject areas:
   a. A minimum of four hours in medical emergencies; and
   b. A minimum of eight hours in at least two of the following areas:
      i. Pediatric or other special health care needs,
      ii. Preventative dentistry, or
      iii. Public health community-based dentistry, and
2. Hold a current certificate in basic cardiopulmonary resuscitation.

B. A dental hygienist shall complete the required continuing dental education before entering an affiliated practice relationship. The dental hygienist shall complete the continuing dental education in subsection (A) before renewing the dental hygienist's license. The dental hygienist may take the continuing dental education online but shall not exceed the allowable hours indicated in R4-11-1209(B)(1).

C. To comply with A.R.S. § 32-1287(B) and this Section, a dental hygienist shall submit a completed affidavit on a form supplied by the Board office. Board staff shall review the affidavit to determine compliance with all requirements.

D. Each affiliated practice dentist shall be available telephonically or electronically during the business hours of the affiliated practice dental hygienist to provide an appropriate level of contact, communication, and consultation.

E. The affiliated practice agreement shall include a provision for a substitute dentist, to cover an extenuating circumstance that renders the affiliated practice dentist unavailable for contact, communication, and consultation with the affiliated practice dental hygienist.

Historical Note
New Section made by final rulemaking at 13 A.A.R. 962, effective May 5, 2007 (Supp. 07-1). Amended by final rulemaking at 28 A.A.R. 1885 (August 5, 2022), effective September 12, 2022 (Supp. 22-3).

ARTICLE 7. DENTAL ASSISTANTS

R4-11-701. Procedures and Functions Performed by a Dental Assistant under Supervision

A. A dental assistant may perform the following procedures and functions under the Direct Supervision of a licensed dentist or a licensed dental therapist:

1. Place dental material into a patient's mouth in response to a licensed dentist's or licensed dental therapist's instruction;
2. Cleanse the supragingival surface of the tooth in preparation for:
   a. The placement of bands, crowns, and restorations;
   b. Dental dam application;
   c. Acid etch procedures; and
   d. Removal of dressings and packs;
3. Remove excess cement from inlays, crowns, bridges, and orthodontic appliances with hand instruments;
4. Remove temporary cement, interim restorations, and periodontal dressings with hand instruments;
5. Remove sutures;
6. Place and remove dental dams and matrix bands;
7. Fabricate and place interim restorations with temporary cement;
8. Apply sealants;
9. Apply topical fluorides;
10. Take final digital impressions for any activating orthodontic appliance, fixed, or removable prosthesis;
11. Prepare a patient for Nitrous Oxide Analgesia administration upon the direct instruction and presence of a dentist or licensed dental therapist; or
12. Observe a patient during Nitrous Oxide Analgesia as instructed by the dentist or licensed dental therapist.

B. A dental assistant may perform the following procedures and functions under the general supervision of a licensed dentist or a licensed dental therapist:
1. Train or instruct patients in oral hygiene techniques, preventive procedures, dietary counseling for caries and Plaque control, and provide pre-and post-operative instructions relative to specific office treatment;
2. Collect and record information pertaining to extraoral conditions; and
3. Collect and record information pertaining to existing intraoral conditions.

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-100 renumbered as Section R4-11-701 and amended effective July 29, 1981 (Supp. 81-4). Former Section R4-11-701 renumbered to R4-11-1701, new Section R4-11-701 renumbered from R4-11-502 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-702. Limitations on Procedures or Functions Performed by a Dental Assistant under Supervision

A dental assistant shall not perform the following procedures or functions:
1. A procedure which by law only licensed dentists, licensed dental therapists, licensed dental hygienists, or certified denturists can perform;
2. Intraoral carvings of dental restorations or prostheses;
3. Final jaw registrations;
4. Taking final impressions, other than digital impressions, for any activating orthodontic appliance, fixed or removable prosthesis;
5. Activating orthodontic appliances; or
6. An Irreversible Procedure.

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-101 renumbered as Section R4-11-702 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-702 repealed, new Section R4-11-702 renumbered from R4-11-504 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Amended by final rulemaking at 29 A.A.R. 1330 (June 9, 2023), effective July 10, 2023 (Supp. 23-2).

R4-11-703. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-102 renumbered as Section R4-11-703 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-703 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-704. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-103 renumbered as Section R4-11-704 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-704 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-705. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-104 renumbered as Section R4-11-705 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-705 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-706. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-105 renumbered as Section R4-11-706 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-706 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-707. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-106 renumbered as Section R4-11-707 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-707 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-708. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-107 renumbered as Section R4-11-708 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-708 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-709. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-108 renumbered as Section R4-11-709 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-709 repealed by final rulemaking at 5

A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-710. Repealed

Historical Note
Adopted effective April 27, 1977 (Supp. 77-2). Former Section R4-11-109 renumbered as Section R4-11-710 without change effective July 29, 1981 (Supp. 81-4). Former Section R4-11-710 repealed by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

ARTICLE 8. DENTURISTS

R4-11-801. Expired

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-120 renumbered as Section R4-11-801 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-801 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-801 repealed, new Section R4-11-801 renumbered from R4-11-1201 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-802. Expired

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-121 renumbered as Section R4-11-802 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-802 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-802 renumbered to R4-11-1301, new Section R4-11-802 renumbered from R4-11-1202 and amended by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1). Section amended by final rulemaking at 11 A.A.R. 793, effective April 2, 2005 (Supp. 05-1). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 2575, effective August 25, 2017 (Supp. 17-3).

R4-11-803. Renumbered

Historical Note
Adopted effective March 28, 1978 (Supp. 78-2). Former Section R4-11-122 renumbered as Section R4-11-803 without change effective July 29, 1981 (Supp. 81-4). Section R4-11-803 repealed, new Section filed April 4, 1986, adopted effective January 1, 1988 (Supp. 86-2). Amended effective May 17, 1995 (Supp. 95-2). Former Section R4-11-803 renumbered to R4-11-1302 by final rulemaking at 5 A.A.R. 580, effective February 4, 1999 (Supp. 99-1).

R4-11-804. Renumbered
